## COITON PRODUCTION, DISTRIBUTION

AND MANUFACTURE. Our annual Cotton Crop and Spinners' Report, which we have prepared so many years, we give to-day in a special SUPPLEMENT, enclosed herewith to each of our subscribers. We hardly need speak of its merits, for they are well known and acknowledged the world over.

The Report covers, as usual: (1) Uur elaborate compilation of the yield of cotton in the United States for the year ending August 31 1902; (2) an exhaustive history of the cotton-spinning industry of the United States for the same year; (3) a similar review of the production of cotton goods in Europe; (4) complete and detailed statements for a long series of years of the consumption of cotton and the production of cotton goods by the mills of the United States, Great Britain, the Continent, and a briefer notice of the consumption and production of every other minor manufacturing State; (5) elaborate compilations of cotton supply and distribution, besides divers other matters connected with and throwing light upon the yield and uses of the staple, past, present and prospective

Special interest will be felt in the European section of the report when we state that the portion of it which relates to spinners' doings in Great Britain and on the Continent has been prepared by our Manchester correspondent. He has given a very clear account of the course and results of cotton manufacture during 1901 02 in every important European State, and the prospects for cotton consumption in those conntries the coming year. No one is better equipped than he is for that work; and we are confident that planters and spinners will find a study of his facts and opinions not only a pleasure but decidedly helpful.

## THE FINANCIAL SITUATION.

The coal str k + has entered upon another phase this week. This might be called a fresh obscuration of the real issue attempted by political interests. As politics go now-a-days, we suppose it was desirable for the Republican Committee of Pennsylvania to make a demonstration and show that they were ready to do what they could to force the operators to settle the case with the strikers. So a committee was appointed consisting, with others, of Senators Quay and Penrose, and on Wednesday they had a two hours' conference with President George F. Buer of the Philsdelphia & Reading Company. Fortunately Mr. Baer has demonstrated the existence in his make-up not only of a clear, keen judgment, but of a backbone which is unbreakable. At times the attacking forces have seemed to have such potent supports it has looked as if he would be compelled to give way. This was obviously the case when Mr. Carroll D Wright appeared on the scene, sent by President Roosevelt to make for him a study of the strike sitnation. This week again another trial of a like character has been attempted, a trial which was so influential that leading politicians in New York as well as in Pennsylvania announced that it would be success ful and end the strike within two weeks. But Mr. Baer has not only survived the interview but has come out of it standing just where he has stood all the way through this contest, with only a single difference, that each expression of his position has appeared to be natural after the general rise in prices which has been

more clearly, forcibly and unanswerably put than any previous statement.

First of all we are pleased to see that on the present occasion he stamped the newspaper story that claimed he said "that the strike was a private affair which did not concern the public "-he stamped that story as a reckless fabrication. He also said he recognized "the right and duty of the Senators representing the great State of Pennsylvania to do whatever could legitimately be done to end a strike that so seriously affects business and brings so much suffering to the women and children of the coal regions." Mr. Baer also showed that he would be glad to carry out this wish. But he declared, what he has so many times before said, that the operators could not mine coal because the miners made demands upon them which if yielded to would prevent their operating without loss and because the State has passed a law prohibiting the employment of miners unless they have worked two years in anthracite mines. He added that the ope ators have concluded therefore that duty to themselves and to the public will be best served by their adhering firmly to the following propositions.

"ONE.—That the wages paid in the anthracite coal regions are, com-pared with the wages paid in like employments, fair and ju-t, and that men willing to work honestly can earn more money on the present basis of wages than in any other indu-try engaged in producing com-mon articles of necessity in the United States.

"Two.-That wages cannot be increased without increasing the price of coal, and to increase the price of coal will restrict the market and drive the public to use bituminous coal, a cheaper and more abundant fuel, and that a restricted market will curtail production and result in depriving the miners of regular employment.

"THREE.—That we are not fighting labor organizations. We fully recognize the right of men to organize to protect themselves from op-pre-sion and to ben-fit themslves in any legitimate way. But we do oppose their unreasonable interference with the discipline and ordinary management of our business. We will not permit them to select our emplo e. Neither politics, reigion nationality nor mem-bership in abor organizations hall debar any competent man from working for us. We are fighting the battle of freedom for the indi-vidual and his right to labor on his own terms. "Four —That it is by reason of varying conditions at each mine

"Four —That it is, by reason of varying conditions at each mine, impracticable to adopt a uniform scale of wages for the whole region. But that at each colliery every complaint and grievanee will be taken up and investigated by the superintendents, and adjusted whenever it is just. I personally offered to Mit hell and his district puesiden.s to go with them and investigate any grievance. "You see, S nators, none of these things can be the subject of arbi-tration. You cannot arbitrate a question of wages when an increase will destroy the business and a decrease will be unacceptable to the workingmen."

The above extract is given verbatim because it con-'ains so much meat in so little space that we want a record of it. We are sorry lack of room prevents the insertion of the remainder of the statement, which is to the end terse, fervent and true. As we have said on a previous occasion, these operators are fighting a battle which concerns not coal-mining mainly; it is more than that—a struggle in behalf of individual freedom and of the right of all our industries to manage their own business. We thank them for the good service they are doing.

The Government figures of revenue for the fiscal year which began with July show quite remarkab'e contrasts when compared with the same two months a year ago. We do not consider that they can be accepted as indicating the course for other months, and yet they are suggestive. The Customs receipts are especially instructive; it seems that for the two months July and August, this branch of the service has yielded to the Treasury \$51,013,000 of income agalust \$.2,726,000 for the same period in 1901. In other words, if this rate of increase is kept up, the gain to the Treasury from Customs duties would make good about two thirds of the loss estimated to flow from the repeal of the war taxes at the last session of Congress. These enlarged duties are of course the result of enlarged imports, which are quite widely distributed in the list of dutiable goods, as would be such a feature this year; it is to be said, though, that iron and steel hold a conspicuous place among the articles which show increase. As to the internal revenue receipts, the movement in August indicated that they are getting more nearly normal. In July, it will be remembered, they were large, being \$21,618,000, or very nearly equal to the monthly average for the seven months from January to July, inclusive. As the tax repeal revenue bill went into effect on the first of July, many interpreted that exhibit as indicating no surplus this year. We explained a month ago that nothing of that kind could be predicated on the July figures. When a tax-repeal bill goes into effect with the opening of a new fiscal year there is always an economy during previous months in the use of the articles which have a lower tax attaching with the beginning of the fiscal year; that decrease in purchases makes the purchases and consequent revenue payments abnormally large in July. It is worth noting in connection with that fact that the internal revenue receipts in August dropped to \$17,525,000, against the \$21,618,000 in July.

There has been considerable money made by some of the Wall Screet operators who apparently got an early idea of what the Agricultural Department's monthly cotton results were to be. When the report became known on Wednesday and the very low general average and the especially low averages for Alabama and Texas were announced, there was almost a panic on the Cotton Exchange. The fact of the matter is, too much dependence is usually placed apon these monthly condition figures just because they are Government reports. Even with the best of intentions they have the same chance of being misleading as other reports. In the past they have sometimes been quite correct, but often quite incorrect; and especially so when the public use them for working out the final crop result. These thoughts steadied the market the next day (Thursday), the popular belief, which did not accord with the Agricultural Department's figures, by that time getting uppermost again. That belief is about as we ex pressed it in our Annual Cotton Crop Report, issued to day in a supplement. It is too early to determine how big a crop the Southern States will raise this Conditions as they stand to day do not season. make a large ontcome impossible. Besides con sumption in Europe is not in such a condition as to favor a presumption of increased takings with the market value of the raw material high. Moreover, it is to the disadvantage of the producer and of the consumer of cotton to start the year with the ruling price at a level which cannot sub. sequently be sustained. To have a sagging market while receipts are day by day showing a larger volume always depresses prices abnormally; it also takes the spirit out of the spinning demand because the spinner is constantly buying his cotton at a higher price than rules when his goods are ready to be marketed. A steady or a rising market for cotton is best for all interests.

The Pennsylvania Railroad continues to show very noteworthy improvement in earnings. Nearly two millon dollars gain in gross and nearly one million dollars gain in net is the record disclosed for the month of July in the return for that month which has come to hand this week. In exact figures there is an

· . . .

increase of \$1,420,400 in gross and of \$736,300 in net on the lines directly operated east of Puttsburg and Erie, and of \$551,200 in gross and of \$216,600 in lines directly operated west of net on the Pittsburg and Erle, making for the combined including certain roads consystem (not trolled but separately operated) \$1,971,600 addition to the gross and \$952,900 addition to the net. Gains of such magnitude tell in a graphic way the story of the prosperity which this great railroad system is enjoying. The reader need hardly be informed that the present improvement follows large improvement in the corresponding month of other years. In July 1901, for instance, there had been \$1,633,300 gain in gross and \$799,400 gain in net on the combined lines east and west of Pittsburg. This year's large exgain would seem to be in part at least tra ascribable to the anthracite coal miners' strike. That strike has practically cut off the shipments of hard coal, but has enormously increased the shipments of soft coal. As the Pennsylvania Railroad Company is the largest bituminous coal carrying road in the country, it is naturally deriving very important benefits from this augmented movement of soft coal. In the following we compare the earnings of the lines directly operated east of Pittsburg and Erie for the last six years—that being the only portion of the system for which we have the data for such a comparison.

LINES EAST OF PITTSBURG.	1902.	1901.	1900,	1899.	1895.	1897.
July.	8	\$	8	8	8	8
Gross earnings	9,771.503	8,351,108	6,790 095	6,081,695	5,16 ',295	6,480.395
)perat'g expenses	6.135.365	5,451,269	4,575,*64	4.250,561	34.0864	3,668,664
Net earnings	8,636,137	2,899,837	2,214 431	1,831,131	1,701,481	1,811,731
Jan. 1 to July 31.						
Fross earnings	69,191,979	58,802,579	47.611,406	12.237,608	6.5 '5,606	45 069,906
)perat'g expeuses	41,918,785	37,993,185	33,163,525	28,916.125	6,2.5,4 dr	21.778, -25
Net earnings	21.277,594	18,804,394	14,457,8-1	10.314,441	19.24 ,181	10,293,081

Note.-These figures include the Buffalo & Allegheny Valley Division for 1901 and 1902. In July, 1901, the ear ings of this division were approximately, gross. \$729,203; net. \$23,206. From January 1 to July 31 the ear ings of this divisi n in 1901 were approximately \$4,330,073 gross and \$1,442,918 net.

It will be seen from the foregoing that during the last three years the net earnings of these Eastern lines have doubled both for July by itself and for the seven month ending with July. For July this year the net is \$3,636,137, whereas in 1899 the amount was only \$1,831,131. For the seven months to July 31 the net for the current year is \$21,277,594, at which figure it compares with only \$10,314,481 for the corresponding seven months of 1899.

There was no change in official rates of discount by any of the European banks this week, and unofficial or open market rates were steady. The striking feature of the statement of the New York Associated Banks last week was the unprecedentedly small change tu the surplus reserve, this showing a decrease of only \$575 compared with that of the previous week; it new s a ds at \$9,742,775. The loans were reduced \$8,-647,900, making \$19,108,000 since August 16; the pecie decreased \$4,135,200 and the legal tenders were increased \$1,066,800, making the net loss in cash \$3,068,400. The deposits fell off \$12,271,300, and the required reserve was thereby reduced \$3,067.825, which sum, deducted from the net loss of cash, 1-ft \$575 as the reduction in surplus reserve. Transfers of currency to the interior through the Sub-Treasury have continued this week, though they have been smaller, while more currency has been sent direct. The drain of money from the banks into the Sub-Treasury has, however, been large. As an offset to these losses the Canadian Bank of Commerce received \$250,000 in checks representing Yukon gold bullion deposited at Seattle; the Bank of British North America has advices of the deposit at San Francisco of \$400,000 of gold bullion from the Yukon, transfer checks for which will probably be received early next week. I. is reported from Washington that \$15,000,000 Na tional bank notes have been prepared for those of the banks which have, at the suggestion of Secretary Shaw, ordered circulation with a view to meeting the extraordinary demands for money incident to the season's crop movement.

Money on call, representing bankers' balances, has loaned at the Stock Exchange this week at 8 per cent and at 3½ per cent, averaging about 6 per cent. 00 Tuesday loans were made at 6 per cent and at 5 per cent, with the bulk of the business at 51 per cent. On Wednesday transactions were at 6 per cent and at 41 per cent, with the majority at 51 per cent. **0**a Thursday loans were at 8 per cent and at  $5\frac{1}{2}$  per cent, with the bulk of the business at 6 per cent; the higher rate was recorded in the last half hour and it was due to urgent demands by belated borrowers and also in part to apprehensions of an unfavorable bank statement to day. On Friday transactions were at 8 per cent and at 3½ per cent, with the majority at 7 per cent. The lower rate was recorded in the last half hour; 6 per cent was quoted at the close. Banks and trust companies have loaned at  $5\frac{1}{2}$  per cent as the minimum. Time contracts for short period. are not freely offered, lenders preferring to make en gagements which will mature in March, and as an inducement offerings for this period are somewhat liberal at concessions as to rates. Loans for 90 days are 51 per cent bld and 6 per cent asked and for four months  $5\frac{1}{2}$  per cent, with a good demand and only a moderate supply; for six months' loans the rate is 5 per cent. Good mixed Stock Exchange collateral is required for all these contracts. The commercial paper market is dull with almost an entire absence of local buying, and rates are  $5@5\frac{1}{2}$  per cent for sixty to ninety day endorsed bills receivable, 5@5½ per cent for prime and  $5\frac{1}{2}$ @6 per cent for good four to six months' single names. Merchants desiring accommodation are generally applying to their banks for discounts.

The Bank of England minimum rate of discount remains unchanged at 3 per cent. The cable reports discounts of sixty to ninety-day bank bills in London 2 13.16@25 per cent. The open-market rate at Paris is 13 per cent and at Berlin and Frankfort it is 15 per cent. According to our special cable from Lon don, the Bank of England lost £293,969 bullion during the week and held £37,634,169 at the close of the week. Our correspondent further advises us that the loss was due to exports of £120,000 (of which £60,000 were to Argentina, £30,000 to Guayaquil and £30,000 to sundries), to shipments of £278,000 net to the interior of Great Britain and to imports of £104,000, of which £44,000 were bought in the open market and £60,000 were from Australia.

The foreign exchange market has been generally easy in tone this week though rates do not show important declines, there having been a good demand for bankers' bills for remittance and quite prompt

absorptions of commercial drafts. On Tuesday there was a fairly large inquiry for bills to remit for securities which had arrived by the incoming steamers, these properties having been sold in London during the previous fortnight for New York account. On the following day and thereafter bankers reported considerable offerings of commercial drafts against cotton and grain for prompt delivery, under the influence of which the market became easler, and it was more or less affected by the firm rates for money. There are large amounts of cotton bills the delivery of which has been contracted for, and these will go far toward meeting the demand for this class of exchange. The Aseay Office paid \$467,130 19 for domestic bullion. Gold received at the Custom House during the week, \$65,245.

Nominal quotations for exchange are 4 85 for sixtyday and  $4.87\frac{1}{2}$  for sight. There was some business done on Saturday of last week at a decline compared with rates on Friday of 10 points for long and short, to 4 8375@4 84 for the former and to 4 8650@4 8675 for the latter. Cables were unaltered at 4 8690@ 4 8710. There was no change in rates on Tuesday, when the tone was steady to firm in consequence of the above-noted demand for remittance. On Wednesday the market was easy during the day, with sales of short at 4 8650, but it was a shade firmer at the close for short and for cables, at an advance of 10 points for the former, to 4 8660@4 8670, and of 20 points for the latter, to 4 8710@4 8720; long was unchanged at 4 8375@4 84. On Thursday the tone was barely steady, and there was a good inquiry for short to remit for securities. Rates were 4 8655@4 8660 for short and 4 87@4 8715 for cables; long was unchanged. The market was easy on Friday, when shorts so'd at 4 8645, closing, however, at a rally of 5 points. The following shows daily posted rates for exchange by some of the leading drawers.

\* The division (between gold and silver) given in our table of colp and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver, but we believe the division we make is a close approximation.

+ The Austro-Hungarian Bank Statement is now issued in Kronen and Hecer instead of Guiden and Krentzer. The reduction of the former currency to sterling £ was by considering the Guiden to have the value of 50 cents. As the Krone has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to £, has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20

## SHALL REAL ESTATE VALUATIONS BE RAISED?

The proposal to raise valuations of New York City real estate to full value does not present itself favorably to our mind. There is but one real object for doing it, an object which is freely admitted by all its advocates, and that is to increase and make use of for city improvements the added debt-making power the change will supply. With the same breath which avows that to be the purpose, we are told that raising valuations will not increase the tax rate at all. No, of course not, if the affair stopped there; nor of itself does the leaving of the barn door open empty the stalls. But every one at the same time is aware that raising the debt-making power, like leaving the barn door open, increases the temptation, opportunity and facility for doing what each was devised to restrict and prevent.

Besides, it is no secret, but is actually affirmed by those who favor the plan, that the added valuation is to be followed by a more rapid outlay for city improvements and a corresponding rapid piling up of debt to pay for them. It consequently is trifling with the public to assert that the real estate tax is not to be raised when the new valuation is put in practice. Evidently a higher assessment, if the rate is correspondingly lowered, can call for or supply no fresh money; while the natural increase in the productiveness of the present rate will all be used up, as now, in taking care of the natural increase in expenses on the present basis of affairs. Added funds for larger improvements can only be gained by bond issues, the interest on which and a sinking fund to pay the issues at maturity can only be secured by more burdensome taxes. It may be said that there will be no sinking fund. Very likely the method of deferring provision for payment will be adopted. In that case, for the time being the interest on the new improvement bonds and also the cost of running and keeping in repair and working order all the new improvements which are to be hastened by the enlarged bonding privilege will have to be met, and by and by also the redemption of more or less of the principal of the enlarged debt must be provided for. Many people in carrying forward extensions by bond issues make no account of the added money needed every year there- lafter waiting long for a purchaser.

after to run them. It must be that the advocates of the higher valuations and new activity in betterments now proposed, when they say it will not increase taxation, have lost sight of this increased expense which will thereby permanently enlarge our city budget.

There will be another influence tending to produce increased taxation if actual value is to be made the basis of assessment. To have the debt-making power suddenly and largely added to-in such a free, large way as virtually to wipe out all limit-would have a similar effect on city officials that a bulky surplus has on any body of legislators who have it subject to their disposal. That is to say, extravagance would be not only facilitated but encouraged. Beyond a doubt, there are many, very many, ways in which added enterprises could benefit the city. There is not one single department of the Government that could not name to-morrow directions in which millions upon millions of fresh money could be spent with advantage to the people. When an individual is spending his own money he is forced to restrain his desires and keep them within the limits his resources set. City officials with a large surplus, or with an easy way of securing the money required for new undertakings, and possessed with the idea that the work in view would be of great benefit to the municipality-adding perhaps to its beauty, to individual and commercial facilities, or to its educational advantages—would be easily led into a lavish use of public funds, believing all the time that each new work projected was highly desirable and perhaps even needful. Remember, too, how popular that manner of conducting city affairs would be among the class who would have none of the burdens to bear -no real estate to carry and no taxes to pay. Among unscrupulous officials votes in large number could be gained by such a policy. The feature last mentioned would of course have very small influence with our present regime. But we cannot always expect to have as honest and discreet heads as now to administer city affairs. We want, however, a basis of official life and conduct established now which we shall be glad to see imitated and enforced always.

This brings us to a further point which in our view should have the serious attention of those who are pushing this scheme. It is always those who are the weakest in the struggle for existence that are forced to succumb under new burdens. In this case it is not the large real estate holder with large capital or the real estate speculator with rich influential backers that has the deepest interest in the issue. We would not speak of the real estate speculator in any offensive sense, because many who buy and build and sell greatly serve the public by so doing. But aside from that fact, the speculator may have such a deep interest in new developments paid for out of the public purse that we should hardly be willing as a rule to accept him as a judge upon questions which involved economy in improvement expenditures. As to the leading real estate holders, the issue is of course of deep concern to them, but it is not so vital as it is to the large body of smaller men who live in the houses they possess or who have bought in a moderate way for investment. Much of the property so held is, we may presume, mortgaged and rated high; but it would not perhaps be considered as assessed at full value if judged from special sales that may have been made in the vicinity-sales which might never be duplicated again, or might possibly be, but only

sale would disclose a weak holder. But there is also a considerable amount of other property, used for business purposes, which after paying interest, taxes, insurance and other expenses has not netted one per cent to the owner for several years. The re ply to these statements is that the assessment will not probably be raised in such cases on this occasion. No faith is to be put in that assertion because the attempt has often been made heretofore to lower assessments without success. There is no likelihood that the present regime, with the best of intentions, will come any nearer to reaching an equable appraisement all through the city than the two-thirds valuation which is enprosed to prevail now has reached. We are well aware that when a person speaks of full value it sounds as it it were so obvious a fact, so indelibly marked upon the property and so fixed in every man's consciousness that no one could escape the needed knowledge. The truth is, however, that the ful value line has no more assured sign of demarcation open to the individual or to the public assessor that the two-thirds value line has.

We come back, then, to the question, Why should not the city show moderation in carrying forward its betterments? The authorities have made in recent years and are making now notable advances in all that pertains to the comfort and convenience of the public, and further highly desirable undertakings have already been put under contract. More has been done in this way within a short time than in any much longer previous period. Suddenly, while enjoying the privil-ge of a reform government elected upor the theory that taxes were abnormally high and should and could be lessened, a new expansion policy is conceived which, as we look at it and thick we have shown, virtually removes because it so materially widens a long-established bond-issuing limit and insures a rapid increase in permanent debt and likewise in annual taxation.

The hope has been that as the State tax lessened, the city rate would afford material relief. Now the promise is, with the higher valuations and its resulting burdens, what is gained from the State will be gradually replaced, and in time exceeded, by fresh city demands. Were there little less haste, a willing ness to wait a brief period, some of the plans now being carried forward would be completed and become self-supporting and not unlikely pay an interest to the city. In anticipation of that result the Legislature could pass an Act that when any betterment should in the future reach that situation of no longer being a burden on, but a contributor to the income of, the mu nicipality, the bonds which were issued to built it should not thereafter be included within the limit. Such an Act would not go to the length of affecting the city's present income, as it would only apply to new developments. May we not by action of that character obtain all the margin for new bond issues necessary, and would not that method allow of as much license in tampering with our safety-guards which a long experience has provided as the instincts of conservative classes would on reflection like to permit

## NORFOLK & WESTERN'S GOOD SHOWING.

Of all the striking transformations that have been effected in railroad properties within the last few years, that of the Norfolk & Western is perhaps the most noteworthy. In point of mileage the road is not a large system, and therefore the actual amount of increase in earnings is not of the magnitude of that of trans-continental systems like the A'chison. Even after the addition of the Cincinnati Portsmouth & Virginia Railroad, the Cincinnati Connecting Belt Rulroad and the Hillsboro Branch, the aggregate length of line operated by the Norfelk & Western at the end of the late fiscal year was only 1,685 miles. Considering the size of the road and its location, the expansion in traffic and revenues has been really wonderful.

Taking as the starting point the fiscal year ending Jane 30 1898-this having been the first full year following the reorganization of the company-it is found that in that period aggregate gross earnings were only \$11,236,123. For 1901-2 the corresponding result, according to the report now before us, is \$17,552,205. In the brief space of four years, therefore, the addition to gross revenues has been 61 miltion d llars, or nearly 60 per cent. In the net earnings the advance has been even more striking. In 1897 98 the total of the net was but \$3 350,024. For the year under review the aggregate is \$7 415,977, an improvement of about 125 per ceut. As fix d charges during the four years have risen but slightly, it is Hasy to see what a wonderful change has occurred in the position and value of the shares in the interval. Chis change is reflected in the great appreciation which has been recorded in the market value of the common stock and the preferred stock al ke, the comnon stock this week having touched 781 as against only 55 last January and 42 in January of the previous year. The expansion in revenues has been ff-cted with comparatively little addition to the m leage, the length of the road in 1902 at 1,677 miles comparing with 1,565 miles in 1897 98. The added mileage represents chiefly the acquisition of the Cincinnati Portsmouth & Virginia, which in the year 1900 01 appears to have earned less than \$400,000 gross and only about \$54,000 net.

The advanced position held by the company under the rise in earnings is well indicated by the fact that for the year under review the call for fixed charges was only \$2,367,777, whereas the total net income was \$7 490,872, showing a margin above the year's requirements o' that kind in the large sum of \$5,123,094. That is, the net income was considerably over three times the year's fixed charges.

The wise and far-sighted policy which is guiding those who are controlling its affairs is seen in another circumstance. It may be recalled that in each of the two fiscal years preceding a contribution of 11 million dollars was made out of surplus earnings towards betterments. For the year just closed the report shows another appropriation of the kind, but just a million dollars larger. In other worde, 21 million dollars has been taken from net earnings in this single period of twelve months. By it remembered that the amount so applied relates not to one of the arge railroad systems of the day, embracing 10,000 miles or more of road, but to a system, as already remarked, which comprises only 1,685 miles of main r.ek.

As emphasizi g the high standard of management which is being pursued-s standard which we are ac customed to look for only in the case of very superior and exceptionally prosperous properties, I ke the Like Shore, the North West. or the Pennsylvania-j. should be noted that while 21 million dollars of net income was devoted to betterments, only \$1,289,384 was applied during the same twelve months in divi dends on the common shares, this amount representing two semi-annual payments of 1 per cent each. made in December 1901 and June 1902. It will be observed that the amount appropriated for betterments was double the amount paid out in dividend. on the common shares. Even if we include the 4 per cent dividend on the adjustment preferred shares, which took \$910,014, the payments in dividends on both classes of shares aggregate only \$2,199,398, as against the 21 million dollars set aside in the way mentioned. After this contribution a surplus remained of \$182,075 on the operations of the twelve monthe over and above the 4 per cent dividend on preferred shares and the 2 per cent on the common shares. The 21 million dollars appropriated for betterments is equal to about 4 per cent on the \$64,469,200 of Norfolk & Western common stock outstanding in the hands of the public, so that altogether the arning paid out in dividends and the earnings applied in betterments represent over 6 per cent on said stok

These large appropriations out of earnings are undoubtedly wise. We have often dwelt upon the conditions with which the Norfolk & Western has from the first been confronted. The character of its traffic and of the territory drained is such that success hinges altogether upon the ability to move a large volume of traffic at a low average cost. This means that a high standard of physical condition must be reached and maintained, and that capital account must not be too heavily burdened with the increasing outlays which are necessary to keep moderp railroade in condition to compete and to handle traffic at the smallest minimum of cost. The management have from the first understood the requirements of the situation in that regard and have sought to make it possible to operate the road with increasing economy and efficiency. Until the last three years, however, circumstances were not such as to admit of large ap propriatious from earnings; now that prosperity is placing larger amounts of money at the disposal of the officials, full advantage is being taken of the fact.

A factor in the improvement in income has been the better average rates realized following the closer concentration of ownership in the different bituminous coal-carrying roads, namely the Penusylvauia Railroad, the Baltimore & Ohio, the Norfolk & West ern, etc. Bearing on that point, however, it is to be noted that the further increase in earnings, gross and net, which occurred in the late year was made in the face of a small decline in the rate, the average for 1901-02 having been only 4.63 mills per ton per mil-, against 4 66 mil s i 1900-01. Going back to 1898-99 the average realized then was only 3.97 mills per tou mile. However, the better rate has been only one of a number of clements that have contributed to the company's advance and prosperity. There has been an enormous growth in tonnage, due to the activity and prosperity of trade, and particularly of the iron and steel industries. Rapid development of the rich mineral territory tributary to the road has also occurred.

The report is replete with illustrations going to show that the management are doing their utmost to promote this development and secure to the property a full share in the resulting benefits. New lines, apurs, side tracks, etc., etc., are being planned, grades and curves are being reduced, additional quipment is being arranged for. The acquisition of the Pocahontas Coal & Coke Company and the assumption of obligations on its behalf al form part of the same effort. An interesting account is furuished of the advantages expected from this acquisi-The company's ccal and coke traffic during the ion. late year amounted to 7,056,721 tons, of which 5 572,642 tons, it is stated, came from the Pocahontas The plans for the further extension of tield. this output, as outlined in the report, seem to be very comprehensive indeed. Bat it is not alone the coal traffic which is being enlarged; we notice that in the late year the company moved 868,058 tons of iron re, 375,494 tons of limestone and 458 202 tons of pig iron. It also moved 1,101,841 tons of lumber, 207,148 ons of corn and 2,200,636 tons of other articles.

During the year the company was able to further increase its train load, bringing it up to the high figure of 476 tons. It is through such methods that the management are able on the one hand to increase he volume of traffic and on the other hand to get improving resul s out of the business. Though the average rate received per ton per mile was only 4.63 m lis, the freight trains actually earned \$2.20 per mile run—certain'y a very satisfactory average.

## NEW YORK ONTARIO & WESTERN REPORT.

In its annual report just submitted (covering the year ending June 30 1902) this little road continues its record of growth, which has been such a feature of its history in recent years. The further gain in rev-"nues would perhaps not attract attention except that the anthracite coal miners' strike occurred towards the close of the year (that is on May 12) and materally reduced the company's tonnage in coal. The total of the gross for the twelve months of 1902 is \$5 456,696 as against \$5,322,833 for the twelve months of 1901. There has been only one interruption to the upward course of earnings since the Scranon Division was opened in 1890, at which time the otal of the company's gross earnings was only \$2,200,446 as against \$5,456,696 now. Of course, with the continuance and prolongation of the strike and the serious loss in tonnage on that account, the current fiscal year seems almost certain to show some break in this favorable record.

In the net earnings there was some decline in the late year, the total being \$1,298,941 against \$1,545,746 in the preceding year. This reduction appears to be directly due to the anthracite strike, for the General Manager of the road in his report to President Thomas P. Fowler takes occasion to state that while the coal strike occasioned a considerable loss in revenue the last two months, it was found impossible to make a corresponding reduction in operating expenses. In fact, he says the force in the maintenance department was increased during a part of this time, since on account of the absence of coal trains repairs to track and bridges could be made with less delay to work. A full shop force was also employed to put all engines and cars in first-class condition to handle, the large coal business which is expected as soon as work at the mines is resumed.

Even after the decrease in net not net remained over twice the amount of charges, showing the strength of the ing in that regard. Expressed in requirements for the twelve months were only \$639, 982, as against net revenues of \$1,298,941, 1 aving a surplus of \$658,958. Such a situation at the present time is of more than ordinary significance, as indicating the company's ability to stand the strain of a prolonged strike.

We have frequently in the past referred to the suc cess of the efforts of the officials in developing business apart from the coal traffic, though of course this last constitutes by far the greatest proportion of the company's tonnage. Outside the coal traffic the growth was continued in the last year in all directions. As showing how considerable the advance has been, it may be noted that the earnings from through freight for 1902 were \$527,997, as against \$352,697 for 1898; the earnings from local freight, \$301,208, against \$637,458; from milk, \$512,641, against \$433,882, and from miscellaneous sources, \$78,539, sgains \$59,9,2this covering all the items of freight except coal, the revenue from which was \$2,517,338 in 1902 and \$2,-546,918 in 1901, against \$1,666,242 in 1898 The earnings of the passenger department were \$1,019,968 in 1902, against \$764 452 in 1898.

The company is extending the Elenville branch to the city of Kingston through the Rondous Volley, and this extension, it is expected, will ultimately make important contributions to the traffic of the road. Plaus are being matured, too, for doub e-track ing that portion of the main line between Cornwal and Cadosia, a distance of 107 miles, in order to provide additional facilities for the constantly expanding traffic of the road.

## RAILROAD EARNINGS FOR HALF YEAR.

We complete to day our statement of the gross earnings of United States railroads for the first halt of the current calendar year. The compilations we gave last week comprised all roads reporting both gross and net In addition there are some companies that furnish returns of gross, but not of net. Hence, as to the gross it is possible to have an exhibit more comprehensive even than that published a week ago Starting with the total of the gross then reached, we now add the roads which could not be included at that time.

1901.

1902.

In this way, it will be seen, we get a total covering 179,065 miles of line the present year. The aggregate of the gross earnings on that mil-age for the six months of 1902 is found to be \$749,023,005, and the improvement over the corresponding six months of 1901 \$47,334,721. This gain, as the reader knows, comes on top of successive large gains in all the years preceding hask to 1897.

These fulls rexaibles make necessary no modification of our previous estimate that if we could have returns covering the whole mileage of the country the gains for the six months would aggregate over 50 un lion dollars. We have previously estimated the gain for the first half of 1901 at 70 milion dollars. that for the first half of 1900 at 90 m llion dollars, ut at for 1899 at 42 million dollars and that for 1898 at 68 million dollars. Hance, in this period of six months there has been an addition since 1897 to the gross rarnings of United States railways in the prodigious sum of 320 million dollars.

We bring forward the statement given last week showing the principal gains (or losses) on the s-parate roads, enlarged so as to embrace the adde i roads now comprised in the results.

### ITEMS ABOUT BANKS BANKERS AND TRUST CO.'S

-Only two lots. aggregating 13 shares, of bank stocks have been sold at auction this week and no sales have been made at the Stock Exchange. Trust company stocks have not been dealt in at the Exchange or at auction.

Shares. BANKS-New York.	Price.	Last previous sale.
7 First National Bank	7753	July 1902-820
6 Seventh National Bank	1503	June 1902-140

-The stockholders of the Century Realty Company voted ou Tuesday to increase the capital from \$1,000,000 to \$3,000, 000. Ten thousand shares of the new stock have already been sold at \$125 per share, and the remainder will be held in the treasury.

-The Eastern Trust Company has moved from its temporary offices in the Boreel Building, 115 Broadway, to the main floor of that edifice. The company, as stated last week, has established a branch on the northeast corner of Brcadway and Thirty-sixth Street.

-The stockholders of the Jefferson Bank of this city, a State institution with a capital of \$200,000 and surplus and undivided profits of \$77,117, will, on September 17, vote upon a proposition to increase the capital to \$400,000.

-Two hundred and fifty shares of the stock of the Mercantile National Bank of this city were recently bought at private sale at \$355 to \$360 per share, an advance of from 30 to 35 points compared with the previous sale.

-Plars have been perfected for the formation of a financial institution to be known as the International Bank & Trust Company of America, with a capital of \$10,000,000, through a merger of the Mexican Trust Company Bank and the Corporation Trust Company. The object of the new company is to operate in Latin-American countries. The directors of both the merging companies have signed the agreement and a majority of the stockholders have signified their approval of the plan. The Mexican Trust Company Bank was incorporated last year with a capital of \$1,000,000, which was later increased to \$5,0°0,000. The other company is allied with the Corporation Trust Company of Delaware, and both the merging companies have broad charters under the laws of Delaware. W. H. Hunt, who is the President of the Mexican Trust Company Bank, will be President of the new corpora tion, and Charles F. Phillips, President of the Corporation Trust Co., will be First Vice President.

-The Trust Company of the Republic will open a branch about October 1st in the small ball room on the ground floor of the Wadorf-Astoria, with entrance on 83rd Street as well as directly from the hotel. Letters of credit and drafts on Europe will be handled in addition to the regular banking business. Mr. Boldt, who is a director in the Trust Company of the Republic, will take an active part in connection with this branch. Mr. T. C. Clarke, Secretary of the Company, will be the Manager of the branch.

-The Central Realty Bond & Trust Co. have moved to their new offices, 59 Liberty Street. They occupy the entire first floor of the very beautiful structure which is to be the future home of the Chamber of Commerce.

-The New York National Exchange Bank will next week occupy its handsome new banking rooms on the corner of Chambers Street and West Broadway. The interior decorations and trimmings are of a high order, consisting mainly of Cazenovia marble and Verde antique-finished bronze. Mention should also be made of the new vaults, constructed on the newest improved designs by the Remington Sherman Company. The present management took charge of this in stitution in 1898, when the deposits were only \$1,647,050 and the surplus and profits \$50,848, while the report to the Comp troller of the Currency under date of July 16 shows the deposits to be \$5,958,702 and surplus and profits \$367,305. Mr. James Rowland is President, Mr. Lewis E. Pierson Vice-President and Mr. Rollin P. Grant Cashier.

-The New York banking house of Messrs. Aimstrong, Schirmer & Co. has, through the death of the late George E Armstrong, been dissolved, and a new company formed under the name of Messrs. Charles A. Morse & Co. The latter concern is composed of Mr. Morse, Gardner W. Brown and J. F. A. Clark, the last named a special partner. Messrs. Charles A. Morse & Co. will act as the New York correspondents of the Boston house of Messrs. Armstrong, Schirmer

& Co., which is to be continued under the old name by Mr. Frank A. Schirmer.

-Mr. A. C. Kollock has been promoted from the position of Assistant Cashier of the New England National Bank of Boston to that of Cashier. He succeeds Mr. Charles F. Swan, who resigns in his 78th year, forty-five of which have been spent in the service of the bank.

-The Integrity Title, Insurance, Trust& Safe Deposit Company of Philadelphia is now located in its own new building, work on which began in April last. The structure is at Fourth and Greene Streets and is considered very attractive.

-President Mark W. Watson, of the Exchange National Bank of Pittsburg, this week sent the following self-explanatory letter to the stockholders:

"A number of stockholders have informed the officers of the bank that they have received a communication signed James Kifer, soliciting an option for two months on the stock of this bank at \$100 per share. \* \* The officers and board of directors know little, if anything; of Mr. Kifer, and nothing whatever of his scheme, and have no lot or part in it. The bank has an 'honorable history and has paid an enormous sum in dividends. It is now in a healthy and prosperous condition, and it is believed by the board of directors and officers that it will be better and safer for all interested if it be carried on in the future, as in the past, as an independent institution. It is deemed advisable, therefore, in the interest of the stockholders, to warn them against the approach of the promoter, no matter in what guise he may appear."

The bank's capital is \$1,200,000 and the par value of the shares \$50.

-The stockholders of the United Realty Trust Company of Pittsburg will meet on Wednesday for the purpose of acting on a proposed amendment to the charter permitting the name to be changed to the Iron City Trust Company. This change is desired in order to eliminate all allusion to the real-estate business, which branch is to be conducted by the Union Realty Company.

-The vacancy existing since July in the cashiership of th First National Bank of Cincinnati, when Mr. W. S. Rowe became President, has been filled by the election thereto of Mr. Thomas J. Davis. Mr. Davis comes from the Fifth National Bank of Cincinnati, where he held a similar position.

-Through the resignation of Mr. Thomas J. Davis, Mr. Edward Seiter has become Cashier of the Fifth National Bank of Cincinnati. Mr. Monte J. Goble, recently Cashier of the Big Sandy National Bank of Cattlesburg, Ky., has been assigned to the duties of Assistant Cashier of the Fifth National-the position formerly held by Mr. Seiter.

-It is announced that Mr. A. L. Irish has disposed of \$47,300 worth of stock at 110 in the Central Savings Bank Company of Toledo, Ohio, to Vice-President J. P. McAfee, Cashier E. F. Rowley and other shareholders. Mr. Irish gives up his interest in the bank for the purpose of investing his money in a linseed oil mill, which it is proposed to build.

-It is interesting to note the gains which continue to be made by the Ohio National Bank of Columbus, Ohio. While organized in 1888, it did not become a National institution until nine years later, May 1897, at which time the deposits were but \$747,688. These figures have expanded year by year, so that at the date of the last call, on July 16 1902, nearly three million dollars was recorded - \$2 940,244. This latter amount is an increase of more than \$200,000 over the total deposits of April 30 of this year, when the figures stood at \$2,713,390. The bank has a capital of \$400,000 and surplus and undivided profits of \$126,557. The official staff is made up of: Presiden<sup>‡</sup>, John Siebert; Vice-Presidents, Emil Kiesewetter and C. F. Myers; Cashier, L. F. Kiesewetter; Assistant Cashier, Henry Deeg.

-The Imperial National is the name granted by the U.S. Comptroller of the Currency for a new bank in Chicago, the projectors of which are Messrs. J. B. Mallers, W. W. Bell, Jonathan Merriam, E. Burnham and C. B. Stafford. The cspital is to be \$1,000,000, with a proportionate surplus, and the location presumably on La Salle St., although no quarters have yet been selected. Mr. Mallers and Mr. Bell were, respectively, the first President and first Cashier of the National Bank of the Republic when organized.

Col. Jonathan Merriam, United States Pension Agent at Chicago, has been selected as President of the new bank. He was the organizer of the Farmers' National Bank of Pekin, Ill., and its President for eleven years; and for two years was President of the Farmers' National of Springfield, Ill., and U. S. Collector of Internal Revenue at that city for nine years.

-There have been rumors recently to the effect that a controlling interest in the Union Bank & Trust Company of Nashville, Tenn., had been acquired by parties in Russellville, Ky., and Pembroke, Ky. We are informed that while a large block of the stock was purchased by Kentuckians, it was merely as an investment. Our informant says there has been no transfer on the books of the company of anything like a controlling interest, and it is not thought that any change in management or capital is contemplated.

-The Atlantic Trust & Banking Company of Wilmington, N. C., opened for business on Saturday last—one month earlier than it expected. The bank, of which Mr. M. J. Heyer is President, is located at 13 Princess Street.

-The Oklahoma Trust & Banking Company of Oklahoma City, Okla., has been chartered, with several of the officials of the State National Bank of Oklahoma City among the incorporators. The new organization has been capitalized at \$200,000.

-The Oklahoma Bankers' Association will hold its convention at Guthrie just prior to the meeting of the American Bankers' Association. The latter, as noted herein, gathers at New Orleans on November 11, 12 and 13, and many of the members of the Oklahoma Association will leave in a special car on November 9 to attend the convention in the Southern city.

-The stockholders of the Italian-American Bank of San Francisco will meet on October 29 to take action on the proposition to increase the capital from \$500,000 to \$1,000,000.

-Mr. P. G. Eastwick Jr. has been elected Cashier of the San Francisco branch of the International Banking Corporation. Mr. Francis E. Beck is Manager of this branch, which began business on Tuesday, and has fitted up offices in the financial center of San Francisco at Sansome and Bush streets.

**Clearings by Telegraph.—Sales of Stocks, Bonds, &c.—** The subjoined table, covering clearings for the current week, usually appears on the first page of the CHRONICLE, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1901 there is an increase in the aggregate of 20.4 per cent. So far as the individual cities are concerned, New York exhibits a gain of 34.1 per cent, Philadelphia 15.7 per cent, New Orleans 17.1 per cent, and Baltimore 5.7 per cent. Boston records a loss of 1.6 per cent, Chicago 9.2 per cent, and St. Louis 4.8 per cent.

[From our own correspondent.]

LONDON, Saturday, August 23, 1902.

It being now quite clear that the difficulties which recently existed on the Stock Exchange were grossly exaggerated, that the liquidation of bad business is completed, and that stocks have passed into safe hands, there is a much more hopeful feeling than has existed for the past couple of months. The general public, it is true, is doing little. Indeed, most of the great operators are away holiday making, and the attendance at the Stock Exchange is small. Still, there is more business than there was, and there is an inclination on the part of the far-seeing to lay in stock.

Moreover, good rains are reported this week, both from India and from Australia. In New South Wales and Queensland the drought has now lasted for nearly eight years, and the gravest fears were entertained that the two States would be disastrously impoverished. Along the eastern side of New South Wales, however, this week there have been beneficial rains. As much as an inch and a-half has fallen in many parts. Unfortunately, in the western half of the State the fall has been only about half an inch, and in Queensland there have been only light showers. Still, as the winter is now nearly over, it is hoped that the rains will continue, and if they do there will be a rapid revival. The hope is strengthened by the fact that the monsoon rains, which have been slack hitherto on the western side of India, have been good this week. Indeed, some of the telegrams from Bombay say that the danger of famine is now removed.

Another circumstance which has favorably affected the Stock Exchange is the growing belief amongst the great houses connected with South Africa that the labor difficulty is in a fair way of being soon overcome. Only about half the number of native laborers required are yet on the Randt, and the increase both in June and July was very small; but the mining companies are now exerting themselves to the utmost, and the Government is giving all the help it can, and the great miving magnates have convinced themselves that the difficulty will soon be overcome. In addition to this, the bills for carrying into effect the settlement arranged between Chili and Argentina, have passed through both Congresses, and it is now everywhere assumed that all danger of a quarrel between the two Republics is removed. Con sequently there has been a rise this week both in the bonds of the two countries and in the exchanges.

Over and above this, there is some buying by the Continent of all kinds of securities, though the buying is not yet on a large scale. The more far sighted, however, are convinced that before very long there will be a decided improvement in business, both here at home and upon the Continent Yet there is no sign for the moment of an improvement in France. A little while ago the most careful observers were all convinced that we were near an on burst of industrial activity in France. The liquidation of bad business had been completed. Confidence was reviving; and the accumulation of unemployed money was immense; but the enforce-ment of the Association Law has excited such angry pas-sions in large sections of the French population that capital-ists are atraid to incur risks. There seems no danger indred of any serious dis urbance. Yet the saving classes are un easy. Moreover, there is a fear that taxation will have to be heavily increased and it is thought that the new former of be heavily increased, and it is thought that the new forms of taxation will be more especially directed against the bour-geoise. Altogether, therefore, there is an unwillingness to enter into any kind of new enterprise at home.

But the French are employing very large sums here in London; and moreover they are again investing considerably in Germany. When the crisis threatened a couple of years \*go, the French withdrew capital on a large scale. Now they are again buying sound German securities. They are also buying Italian rentes on a considerable scale.

Money continues in strong demand. and as the Government is not paying out largely the expectation is that it will continue in good demand for a considerable time to come. On the other hand, the great French banks are employing immense sums here in London because there is an uter unwillingness, as pointed out above, to invest at home. All the sterling bills are being renewed as they fall due, and the best-informed believe that the amount of French money employed here will be increased if there is any advance in the value of money,

The French banks also are taking an exceptional number of American bills Frenchmen hitherto, for some strange reason, have never invested largely either in American securities or American bills. But this year they have been taking American bills on an exceptionally great scale. Perhaps never before has so much French money been invested in things American. The probability seems to be, therefore, that if money should become scarce and dear in London and New York, France will be in a position to give accommoda tion on an immense scale, and the less willing Frenchmen are to invest at home the more ready they naturally will be to employ their funds advantageously abroad.

In Germany money is very plentiful and cheap, too. Trade i - bad, although there has been this week some rise in iron and coal, and generally there is great stagnation in Ger-man business. Possibly, therefore, Germany will be able to employ money abroad if rates rise much in London and New York. On the other hand, the crops in Germany are exceptionally good this year. It is estimated that the Ger-man harvest will be larger than for nearly 20 years That may lead to a great agricultural demand for money, and may raise rates so as to prevent any great employment of money abroad. In Russia there is nothing new to report, and generally, except in Italy, business is stagnant all over the Continent.

The India Council continues to sell its drafts well. It offered for tender on Wednesday 30 lacs, and the applications were for over 2,100 lacs. Applicants for bills at 1s 3 15-16d. per rapee were allotted about 2 per cent of the amounts applied for,

NATIONAL BANKS.—The following information regarding national banks is from the Treasury Department. CHANGE OF TITLE AND LOCATION.

4,070-The Merchants & Planters' National Bank of Bryan. Texas. Certificate changing litle to The City National Bank of Bryan,

5,258—Certificate approving change of title and location of the Groveton National Bank, Groveton, New Hampshire, to the Gorbam National Bank, Gorbam, New Hampshire, issued April 30, 1902.
2,702—The D-Kalb National Bank into The First National Bank of DeKatb, Illinois, approved May 18, 1902.

IMPORTS AND EXPORTS FOR THE WEEK.-The following are the imports at New York for the week ending for dry goods Ang. 28 and for the week ending for general merchandise Aug. 29; also totals since beginning first week January. FOREIGN IMPORTS.

For week.	1902.	1901.	1900.	1899.
Dry Goods Gen'l mer'dise	\$2,610,697 7,561,672			\$2,146.773 7,387,194
Total Since Jan. 1.	<b>\$10,172.369</b>	\$9 200,175	\$6,563,791	\$9,533,967
Dry Goods Gen'l mer'dise	\$84.463,584 288,186,277	871,273,034 302,194,911	<b>881,934,70</b> 9 <b>282,034,750</b>	\$70.018,407 274,358,525
Total 35 weeks	1372 649 861	\$873 467 915	8364 019 459	9344 401 932

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Sept. 1, and from January 1 to date.

EXPORTS FROM NEW YORK FOR THE WEEK.

	1902.	1901.	1900.	189 <b>9</b>
For the week Prev. reported				\$7 414,323 293,987,460
Total 35 weeks	*314,695.159	\$350,838.547	*362 909.551	\$300.401.783

NOTE.—As the figures of experts as reported by the New York Custom House from week to week frequently show divergence from the monthly totals, also compiled by the Custom House, we shall from time to time adjust the totals by adding to or deducting from the amount "previously reported.

The following table shows the exports and imports of specie at the port of New York for the week ending Aug. 30 and since Jan. 1, 1902, and for the corresponding periods in 1901 and 1900.

EXPORTS AND IMPORTS OF SPROIR AT NEW YORK.

WALL STREET, FRIDAY, SEPT. 5, 1902.-5 P. M.

The Money Market and Financial Situation.—The fact that there has been more activity in Wall Street this week than of late and more than is usual at this season is due chiefly to the interest now manifest in a few leading issues of railway securities. This interest is most conspicuous in shares of Penn-ylvania, Reading, Baltimore & Ohio, Norfolk & Western and Chesapeake & Ohio, but extends to New York Central. St. Paul, Wabash, other granger and Southwestern stocks, and to Manhattan Elevated. Various ru mors were afloat in regard to the first-named group Considerable curiosity was excited as to the motive for acquiring 100,000 shares of Pennsylvania in one day on an advancing scale, covering 5 points, but the earnings of the lines directly operated east and west of Pittsburg for the month of July, just published, showing a net increase of \$952,900, may easily have proved a sufficient incentive.

The buoyant tendency of the market during the first part of the week has not, however, continued without interruption. The Government report referring to the cotton crop was very unfavorable and there were reports of damage by frosts in the corn belt. The latter were probably greatly exaggerated. In addition to the above, and no doubt more offective as a det-rrent influence, the money market has become decidedly firmer, and call-lean rates advanced on Thursday and again to-day to 8 per cent. The open market rates for call loans on the Stock Exchange

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from  $3\frac{1}{2}$  to 8 per cent. To-day's rates on call were  $3\frac{1}{2}$  to 8 per cent. Prime commercial paper quoted at 5 (a  $5\frac{1}{2}$  per cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of  $\pounds 293,969$ , and the percentage of reserve to liabilities was 53.04, against 51.79 last week, the discount rate remaining unchanged at 3 per cent. The Bank of France shows a decrease of 9,400,000 trancs in gold and an increase of 3,275,000 francs in silver.

The New York City Clearing-House banks in their statement of Aug. 30 showed a decrease in the reserve held of \$3,068,400 and a surplus over the required reserve of \$9,742,775, against \$9,743,350 the previous week.

\*This is the price bld at the morning board; no sale was made.

State and Railroad Bonds.—Sales of State bonds at the Board include \$24.000 Virginia fund. debt 2-3s at 96½ and \$15.000 Virginia 6s deferred trust receipts at 10.

The market for railway bonds has been steady to firm, on a volume of business somewhat larg r than usual, averagis g nearly \$1.500.000, par value, per day. The St ck Exchange record of sales shows a paucity of high-grade is-ues.

Wabash debenture Bs became prominent towards the end of the week, and in sympathy with the shares have advanced nearly 2 points. A few of the newer issues were conspicuous for activity, including Consolidated Tobacco 4s, Green Bay & Western debenture B certificates and Oregon Short Line sub. certificates for 4s, nearly all of which are substantially higher than last week.

Railroad and Wiscellaneous Stocks.—After the protracted holiday the stock market opened active and buoyant on Tuesday and continued so through the day. The Reading issues were by far the most conspicuous, about 270,000 common shares changing hands at steadily advancing prices. Wednesday's market showed a more conservative tendency, although nearly 1,500,000 shares were traded in. Reading continued the leader in point of activity, but Pennsylvania was the strongest feature, advancing 5 points during the day on sales of over 100,000 shares. On Thursday the market was decidedly reactionary, and with few exceptions leading railway shares declined an average of from 1 to 2 points. To-day's market irregular but generally strong. St. Paul was the leading feature, advancing nearly 3 points.

Rock Island was relatively strong throughout the week on a more general acceptance of the new financial plan than had been expected, and shows a net gain of over 7 points. Some of the so-called Gould stocks, notably Wabash, Missouri Pacific and Manhattan Elevated, have been more active than usual, with a decided upward tendency.

The mis ellineous list shows several erratic features. Sloss-Sheffield Steel & Iron steadily advanced from 641% to 83, closing at 79; North American advanced 11 points, and Anaconda Copper 61% points. Amalgamated Copper, American ~ugar Refining and the United States Steel issues have been generally strong and Colorado Fuel & Iron weak. The express companies lost a part of the gain noted last week.

For daily volume of business see page 489.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow.

Butterick Co	21 Mar 32 <sup>1</sup> <sub>4</sub> J'ly 41 J'ne 52 Sep 36 <sup>1</sup> <sub>4</sub> Aug 142 Sep 77 <sup>1</sup> <sub>5</sub> Jan 99 May 100 Sep 102 Jan 39 <sup>1</sup> <sub>2</sub> Feb 64 <sup>3</sup> <sub>4</sub> Sep 3 <sup>2</sup> 25Feb 40 <sup>1</sup> 1/ly 30 Aug 44 <sup>6</sup> <sub>8</sub> Mar

Outside Market.—Interest in the outside market centered mainly in railroad securities, of which Northern Securities took the lead, advancing from  $111\frac{5}{6}$  to  $117\frac{7}{6}$  on exceptionally heavy buying, but closing at  $115\frac{1}{2}$  against  $110\frac{3}{4}$  last week. Rock Island early in the week was also very strong and showed marked improvement, the common fetching 54 and the preferred  $81\frac{1}{2}$ . The close to-day, however, was at a reaction to 51 and  $80\frac{1}{2}$ , respectively. The new 4 p c, bonds (w, i.) were also very active and higher, touching 90 at one time, but subs quently reacting. Scaboard Air Line was weak and suffered a reaction to 32 for the common, the preferred closing at 52. New Orleans Rv. stock was fairly active; the common closes at  $17\frac{5}{6}$  and the preferred at  $56\frac{1}{2}$ . Toledo Ry, & Light was in good demand at 38(a40), closing at  $39\frac{5}{6}$ . San Francisco was higher at  $23(a23)\frac{3}{6}$  and  $61(a61\frac{1}{4}$  for common and preferred respectively. On renewed selling to-day, Manhattan Transit declined to  $6\frac{1}{6}$ , but rallied later to  $7\frac{1}{4}$ , the closing price. The copper shares evinced considerable strength, Greene Consolidated ranging between  $27\frac{5}{6}$  and  $29\frac{1}{4}$  and North Platte realizing  $15(a15\frac{1}{2})$ . United States Realty & Construction (w, i.) was dealt in to an unusual extent, the common advancing to  $36(a37\frac{1}{4})$  and the preferred to  $80\frac{1}{2}$ . American Can more than recovered last week's loss. Oregon Short Line 4s were higher, the final quotation being  $95\frac{1}{2}$ .

#### CHRONICLE. THE

## Investment and Mailroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. The returns of the street railways are brought together separately on a subsequent page.

§ Covers results on lines directly operated. \* Figures from Dec, 1 are for the railroad only. Mexican currency. a Includes Paducah & Memphis Division from July 1 in both years. † Results on Montercy & Mexican Gulf are Included from March 1, 1902, but for no part of 190... e tovers lines directly operated, including the Buffalo & Alley Val. Div.for both years. b Includes the Houston & Texas Central and its subsidiary lines. Earnings of the Crom well Steamship Line, not previously reported, are now also included. cResults on Montgomery Division are included in both years. d Includes St. Paul & Duluth for both years. f These figures are the results on the Ala. Midl., Branswick & West., Charles, & Sav., Sav. Fla. & West'n and Silver Springs Ocala & Gulf. g These figures lacked, besides the St. L. & S. F. proper, the Kan. City Ft. Scott & Mem.system and Ft. Worth & R. G. & From May, 1902, Includes sundry acquired roads. including earnings of the Hancock & Calumet, both years.

#### Totals for Fiscal Year.

In the full-page statement on the preceding page we show the gross earnings of all roads for the period from July 1, that being now the beginning of the fiscal year of the great majority of the roads. There are, however, some roads that still have their own fiscal years. These with their dates are bronght together in the following.

a Netearnings here given are after deducting taxes.

b Net earnings here given are before deducting taxes. f Thirty per cent of gross earnings. j These figures include results on the Buffalo & Allegheny Valley Jivision in both years. In Luciudes Faducah & Memphis Division from July 1 in both years. Expenses for July include \$30,283 paid for improvements on this

division.

r Atter deducting \$37,942 for improvements in 1-02 and \$42,766 in 1901, the surplus for the tiscal years is \$142,353 and \$155,516 respectively.

Interest Charges and Surplus.-The following roads, in addition to their gross and net earnings given in the fore going, also report charges for interest, &c., with the surpli s above or deficit below those charges,

STREET BAILWAYS AND TRACTION COMPANIES. The following table shows the gross earnings for the lates! period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads-that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earning: for the calendar year from January 1 to and including such latest week or month.

 These are results for properties owned.
 1 Results now include the Pittsburg Kallway Co., operating the Consolidated Traction and all the other controlled properties in Pittsburg.
 \* Trailie extraordinarily heavy in 1901 by reason of Pan American Exposition in Buffalo.

Street Railway Net Earnings .- The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads-that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday), we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of August 23, 1902. The next will appear in the issue of Sept. 20, 1902.

American Hide & Leather Co. (Report for the fi cal year enung June 30, 1902.)

President Th mas W Hall says :

President Th mas W Hall says: The directors submit herewith statement of accounts for the fiscal year ending June 30, 1902, in which, for the better information of the stockholders, the accounts of the company and its subsidiary com-panies have been consolidated. The accounts have been audited, as heretofore, by Messrs. Jones. Cæsar & Co. During the year \$ 50,000 of the company's bonds have been purchased for the stuking fund at a cost of \$142,257 There have also been acquired by the trustee out of accoundated interest on bonds in the fund \$9,000 of bonds at a cost of \$8.33°. fucluting cash and accrued interest, the fund now amounts to \$325,20°, as compared with \$157,500 at June 30, 1901, being an increase of \$167.70°, which has been charged to prod and loss. In view of this charge the directors have deemed other provision for de-preciation unnecessary and the auditors have certified that in their preciation unneceesary and the suditors have certified that in their opinion this sum is more than sufficient to cover the decrease in value of the plants occasioned thereby. The valuation of the stocks of mer-chaudise ou hand has been revised and placed on a thoronghly con-servative basis and the provision for possible loss on the cohection of outeranding accounts has been increased to \$71,0.0.

### Virginia-Carolina Chemical Company.

(Report for year ended June 14, 1902.)

A circular report dated July 12, and containing the earn. ings and balance sheet already published (V. 75, p. 74, 140), was given out recently. This circular touches on the ad-visability of usening th-\$7,000,000 collateral trust obligations, as since announced (V 75, p. 140), and also shys in substance:

GENERAL RESULTS.—The jate fiscal year was the most successful in the history of your company. There were sold 779,00 3 tons of fertil izers and chemicals of all binds. Although showing increased profits this year, the season was not a specially good one, the consumption of fertilizers having failed off in all the States in which your company does business. In this decrease your company shared to a small ex tent, but though decreased somewhat in tonnage the money value of sales was practically the same by reason of larger sales of higher grade goods

tent, but though decreased somewhat in tonnage the money value of sales was practically the same by reason of larger sales of higher grade goods IMPROVEMENTS - DIVIDEND INCREASED. - The chief measure of the efficiency of a chemical plant is its sulphuric-acid-producing capacity As the result of betterm-nis, the same plants are now making : 0:00 tons per annum more of this sulphuric acid than two years ago, a pro-duct equal to \$:00,00 Oper an turn in value, and representing an in-creased plant (floi-ney of many thousand dollars. The physical con-dition of all the property is better now than at any time in the com-pany's history. Prospects seem bright for a largely increased busi-ness next year, and altogether so full of endour agement was the situa-tion that your directors felt justified, on the last quarterly common divided date, June 1, 1902, in paying dividends on the common stock at the rate of 5 per cent instead of 4 per cent as always formerly Acquisitions. - Acting under permission granted at the last stock-holders' meeting, an investment was shortly thereafter made in the alled todus ry of outfor seed of making, the year's result of this being also 1 while satisfactory. To make this investment the common capital stock for your company was increased to \$27,984.4.0 making the total stock now outstanding \$12,000,000 preferred and \$27,984.400 com-mon. Besides the acquisition of all except a few shares of stock of the Sonth-ra Cotton UIC . the company has recently bought five large feit izer plants in A abama, two in North Carolina and one (in Georgis, which sive promes of very profitable working results, and which clace he company in the position of a mightity manufacturer of fertilizers in all the Southern States actively using fertilizers. As already reported, there have been ample acquisitions of phos phate roes hands in Nonth Carolina and Teonessee, to funds on effor-many years to come. You have also been advised of the company's poscessions of sulphur

the essential elements of manufacture-bone phosphate of lime-for many years to come. You have also been advised of the company's possessions of sulphur ore, another essential. With the recent acquisition of interests in the Southern Conton Oil Communia was acquired, leaving but one other necessary material, potash, still to be obtained. As this article is ex-clusively found and mined in Germany, and as the output of all exist-ing mines was firmly held by a German syndicate of which the Prae-slan Government itself is a part, it was necessary to bide our time until an opening pre-ented itself. Forturately, this occurred within the last three mon hs, when we were able to acquire a controlling in-terest in a new mine in the Province of Hauever in Germany, at a satisfactory figure. Your company is herefore the owner and pro ducer of most all of the orude material needed in the manufacture of its products. its products.

Your company now owne and operates fertilizer plants in 30 towns Memphis, Teon; Memphis Teon, and Mobile, Ala; Mobile, Ala, and Savanash, Ga, while the Sonthern Cotton Oil Co. owns and operates 81 oil mills, refineries and lard plants.-V. 75, p. 140.

## GENERAL INVESTMENT NEWS.

### BAILROADS, INCLUDING STREET ROADS.

American Railways.—Sale of Bonds.—The company has sold to Bioren & Co. of Philadelphia the remaining \$150,-000 of the Bridgeton & Millville Traction Company's \$500,000 first mertgage gold 5s, due Jan. 1, 1930.

The new bonds were issued on the 12 mile extension from Cedarville, N. J., to Port Norris. this line being now in successful operation.-V. 74, p. 1354.

Anthracite Coal Roads.—Further Increase in Output.-The output of anthracite coal has undergone a further mod-erate increase during the week. It was claimed on Thursday hat about 13.635 tons of anthracite were being shipped daily y the larger companies of the Wyoming region alone, 11,-835 tons being the product of washer'es and 1,800 tons from the mines. The "New York Sun" estimates the output of coal on Sept. 4 as follows:

	Tons.	[
Delaware Lack & Western.	5,000	N. Y. Ontario &
Jelaware & Hud⊦on	3.500	People's
whigh Coal & Navigation		Surquehanna
ehigh Valley.		
Erie.		
Cemple Coai & Iron		Total

Tons Western .... 800 400 ..... 500 ..... 1,000 .....

..... 14,700 Preparations for the re-opening of additional collieries are in progress. In the meantime importations of English anthracite are announced.

End of Bituminous Strike.-At a meeting of the United Mine Worksrs held at Keystone, West Va., on Thursday, the strike which began in the Pocahontas and other himminous coal fields of Virginia and West Virginia last June was declared off, and the men were ordered to reluin to work on next Monday. Some concessions, it is said, were made to the strikers.

Official Statements.-President Baer of the Reading Company on Sept. 8 made a formal explanation as to why arbitration of the difficulties in the arthracite regions is out of the question. This statement was published in full in the leading daily papers on Wednesday morning; its chief points are cited in an editorial on a preceding page of this issue of the CHRONICLE

The Department of Justice at Washington on Sept. 3 made public the report of Carroll D. Wright, Commissioner of Labor, on the coal strike, as a result of the personal investigation which he undertook at the request of President R osevelt. The report recites the specific demards as given to Mr. Wright in writing by John Mitchell, the President of the United Mine Workers of America, as follows: [The men subsequently offered to compromise on ha f the percentages here shown ]

ages here shown j First-That there shall be an increase of 20 per cent to the miners who are paid by the ton-that is, for men performing contract work. These men in-volve about 40 per out of all the miners. Second-A reduction of 20 per cent in the time of per diem employes. The mores are operated about 200 days a year, ten hours a day. This demand, if yranted, would result in reducing the day to eight hours 20 per cent), so that the mines would be overated 240 days at about the same cay: hence an equiva-lent of 20 per cent interase in the earnings, no interase in the rates of per diem employe being demanded. Third-Thas 2,240 nounds shall constitute the fon on which pasment is based for all coal mined where the miners are paid by weight. This would apply in any district where weighing coal would be precideable, and to those miners who are paid by the quantity and not to those paid by the day. The renort makes in brief the following recommendations:

The report makes, in brief, the following recommendations:

The report makes, in brief, the following recommendations: First—That 'he anthracite employes should organize an anthracite coal miners' union. In its autonomy independent of the United Mine Workers of America and fl anciality responsible for agreements. Be cond—That it would be reasonable and just for the operators to concere at once a nine-nour day for a period of six months as an ex-periment, with the guaranty that if production is not instellally re-duced thereby the agreement shall be made more permanent. Third—That a joint or inmuttee of condilation, composed of repre-seouts weap of the operators and of the new usually be organized to investigate all galevances, the decision of this committee by a two-toirds vote to be final and binding upon both parties. For rth—The table bart of conditation shall enter upon a thorough examination of all conditions relative to mining anthratice coal, to quest in or wetching, to discipling, to wage scales, and to all griev-suces of both operators and miners; such examination to be made through experts in order to provide verified information on which future contracts can be made. Fifth—That, whenever practicable and where mining is paid for by the ton, and ontil the joint committee referred to shall have made its report, coal shall be paid for by the ton and be weighed by two inspec-tors, one representing the operators and one representing the men, each side to pay its own inspector. Sixth—That there and is provide.

each aide to pay its own inspector. Sixth-That there shall be no interference with non union men. S-venth-That whenever practicable collective bargains shall be made relative to wages, time as dother conditions, under rules to be established by the joint committee referred to. V. 75, p. 440, 238.

Atlantic Coast Line Co. of Connecticut. - Change in Dividend Payment.—The company has declared a quarterly dividend of 2 per cent, payable Sept. 10. Semi anunal pay-ments have been made heretofore, the last payment having or en in March, 1902-23% per cent.—V. 74, p. 774.

Bay Shore Terminal Co.-New Line. - The company has completed its electric road from the corner of Duke and Taz-well streets, Nortolk, Va., to Ocean View, a distarce of 13 miles, of which 5 miles is double-track. Work on the extensions to Willoughby Spit and Atlantio St. is to be begun sho tly. H. L. Page, of Norfolk, is Pre-ident. Authorized capital stock, \$500,000, in \$ 00 shares.-V. 73, p. 81.

Boston Elevated RR.-Subway Act.-For record purposes the following facts relating to the proposed iu nel and subway, from Chapter 534, of the Acts of 1902, Massachusetts Legislature, are here given :

The system of tunnels and subway is to contain two tracks espec-ially designed for elevated cars and trains and two tracks for sur-face care; it is to extend from a point near the junction of Broadway

on' Washing on Street, between the existing subway and a line par-allel with and 750 feet easterly from Washington Street to the line of Court and State streets, and thence northerly by such route as may be deemed best to a point in or near Adams Equare, Haymark-t Square or Causway St. The "tunnel." designed for elevated cars and trains, shall be begun immediately upon the acceptance of this Act by a ma jority of the voters of Boston; the "subway" (for surface cars) shall be begun after the expiration of one year from the completion of the tunnel B: th tunnel and subway are to be leased to the Boston Ele vated RR Co. for 25 years from the beginning of the tunnel at a net rental (quai to 4's p. c. on the net cost of the tunnel and subway the company to equip these at its own expense with tracks, etc. Upon the completion of the tunnel the company shall remove its elevated trains from the existing subway and shall thereafter use that subway for surface cars. The city shall pay for the cost of the tunnel and sub-way by testing sinking fund bonds tunning not over 50 years and bearing not over 4 p. c. interest. Liable for Domages from Noise.—The Superlor Court in

Liable for Damages from Noise .- The Superior Court in Beston on Aug. 20 held that the company is liable for damages trem the noise caused by the operation of trains as well as from dust and the obstruction of light and air In granting \$2,000 damages to a certain property holder, the Court finds:

That one half of said damage is caused by the noise occasioned by the operation of the said railroad, and that the damage from noise is \$100 more than if said railroad were located who liy in that part of the street in which the fee is not owned by the petitioner. The case will, of course, be appealed.—V. 75, p. 441, 341.

Boston & Providence Electric Ry.-New Project.-Plane are being perfected for a through trolley road from Boston to Providence. The intertion is to use the Boston Elevated RR. Compary's line from Boston to Forest Hill. and the Old Colony Street RR. thence to Readville. A connection less than or e mile lorg at this point will be tuilt to the Blue Hill Street RR, which it is proposed either to lease or to buy, carrying the line as far as Stoughton. By building a new line from Stonghton to North Easton, connection will be had with the Norton & Tannton Street line for East Norton. From that point it is proposed to build through the towns of Rehobeth and Seekonk, to a connection at the Rhode Island State line with the line of the United Traction & Electric Co., which under its franchise is required to grant trackage rights into Providence. Stone & Wetster are understood to be interested.

Chesapeake & Ohio Ry.—Bonds.—The New York Stock Exchange has listed \$1,000,000 additional general mortgage 4½ per cent bords, making the total \$33,833,000. The additional bonds were issued on account of construction and additions - V. 75. p. 441, 393.

Chickgo Indianapolis & Louisville Ry.—Joint Bonds Reavy-Also Cash in Fart Payment.—Holders of J. P. Mor-gan & Co trust receipts for preferred and common stock de-posited under circular of the Louisville & Nashville and the Sonthern Railway companies of May 20 are now receiving the new bords or the cash to which they may be entitled at the office of J. P. Morgan & Co., 23 Wall St. See notice on another page.—V. 75, p. 398, 239.

Chicago Rock Island & El Paso BR.-See Chicago Rock Island & Pacific Ry. below.

Chicago Rock Island & Pacific Ry.—Time for Deposits Extended.—The Chicago Rock Island & Pacific RR Co. (of Iown) gives notice that the time within which it will purchase cutstanding stock of the Chicago Rock Island & Pacific Ry. Co, under the cff-r of July 31, 1902, has been extended until at d including Salurday, St pt. 20, 1902. See advertisement on another page. Subscriptions Payable Oct. 15.-Notice is given to the

holders of subscription certificates for the new stock of the Railway Company, authorized to be issued to stockholders to the extent of 12½ per cent of their holdings, by resolutions adopted July 1, 1902, that payment of the full par amount of their subscriptions must be made, at the Central trnst Co., No. 54 Wall St., New York City, on or before Wednesday. Oct. 15, 1902.

Lasted — The New York Stock Exchange has listed \$680,-500 of the additional capital stock and has anthorized the listing of further amounts from time to time up to Oct. 15, 1902, as issued, making the total listed not to exceed \$75,-000,000.

Extension.-The Chicago Rock Island & El Paso RR Co., which forms part of the connecting link to the E: Paso & Northeastern (see V. 72, p. 820; V. 71, p. 1219) has filed notice at Santa Fe of an increase of its capital st ck to \$4,-000,000, and has made a mortgage to secure bonds issuable at the rate of \$25,000 per mile of sirgle track, \$800 additional per mile for equipment and \$15,000 per mile for sec-ond track. The company's liabilities aggregate \$2,677,466.-V. 75, p. 441, 393.

Chicago & Southeastern By.-To Be Operated Inde-penaently.-John T. D.e. General Counsel of the Cleveland Cincinnati Cui ago & St. Louis, has been made President of the Chicago & Sou heastern, and an entirely new board of directors has been elected. Mr. Dye anthorized the following statement:

Ing statement: The parties represented by me have purchased the bonds under the general mortgane of the Chicago & Southeastern Railway o.. and have become the owners of all the stock of the company, but have not assumed the d-bts created under the Orawford management. They are to be paid by the people who created them Whether it will be necessary to foreclose the mortgage can not be determined until we have looked further it to the matter. C. E Schaff has been made Vice-President and General Manager, and he will at once assume the task of putting the read in condition to be operated. The road will not be a part of the Big Four system. It will be operated as an in-dependent road, and will be owned and controlled by its own stockdependent road, and will be owned and controlled by its own stockholders

An order has been entered providing for the discharge of the receiver.-V. 75, p. 441, 184.

Cincinnati & Hamilton Traction Co.-Consolidation.-On August 27 the stockholders of the Millererk Valley Street Ry. Co. and of the Hamilton Glendale & Concinnati Traction Co. nnanimonsly voted to consolidate the companies under the title of the Cincinnati & Hamilton Traction Co. The capital stock of the new company will be \$2,200,000, in shares of \$100 each, of which \$1,100,000 will be 5 per cent cumulative preferred. The \$1,000.000 common stock of the Millcreek Co. will be excharged, \$ for \$, tor a like amount of the new common, and its \$750,000 of preferred stock for a like amount of the new preferred. The \$250,000 stock of the H. G & C. will be exchanged for \$250,000 of the new preferred and \$200,000 of the new common stock, being equal to 100 p. c. in new preferred and 80 p. c. in new common for the old shares.

Lease.-The shareholders will vote Sept. 30 on leasing the property to the Cincinnati Internet an Compary. a new com-pany organized (see below) with \$100,000 capital stock in the interest of the Cincinnati Traction Co. The lease will provide for the payment of 5 p. c. per aunum on the pre-ferred stock, and on the common stock ½ per cent the first year, increasing gradually thereafter to 41/2 per cent in seven years and unbsequently.

Directors .- The new directors are:

H H. Hoffman (President), Bayard L. Kilgour (Vice-President), Henry Burkholdt (Secretary and Freasurer), U. H K igour, A. J Becht of Cincinnati; Francis T. Homer of Baltimore and O. B. Brown of Dayton.

(incinnati Indianapolis & Western Ry.-Consolidation Ratified.-The shareholders of the Cincinnati Hamilton & Indianapolis and the Indiana Decatur & Western Ry. Cc. on Aug. 28 ratified the consolidation of these companies under the title of the Cincinnati Indianapolis & Western Ry. Co.-V. 75, p. 289, 239.

Cincinnati Interurban Co.-Incorporat on.-This com-pany, with a capital stock of \$100,000, fired articles of incorporation in Ohio on Aug. 28, as proposed lessee, in the interest of the Chacinnati Traction Co., of the Cincinnati & Ham-ilton Traction Co.—which see above. Incorporators: W. Kesley Schoepf, George H. Warnington, W. H. McCallister, S. C. Cooper and F. B. Spangler.

Cincienati Lebanon & Northern Ry.—New Bonds.—The "Cincinnati Enquirer" says that the proceeds of the \$1,500,000 new bonds autoorized by the shareholders on Aug. 30 have

new bonds authorized by the shareholders on Aug. 30 have been or are being applied as follows: To retire an old morigage of \$200,000, which was canceled here last Saturday; to pay for the Middletown & Cincinnati RR purchased last June, and for terminal property purchased of the Big Four. This ter-minal property, which is located near Court and Broadway and along Gilbert Avenne was secured by the Big Four in connection with the purchase of the Cincinnati Northern, and was transferred to the C. L. & N. Some of the bonds are also being used to pay for the double track to McCulloughs, which will be completed the 1: th.-V. 75, p. 289.

Cincionati Traction Co.-Lease.-S-e Cincinnati & Ham-ilton Traction Co. above.-V. 75, p. 393.

(ity & Suburban Ry., Portland, Ore.-Consolidation.-Negotiations are reported in progress looking to the consolidation of this company and the Portland Ry. Co. B-ltimore capitalists are said to be back of the movement.  $-\Psi$ . 71, p. 1120.

Cleveland Cincinnati Chicago & St. Louis By.-See Chicago & Southeastern RR. above.-V. 75, p. 441, 75.

Denver Northwestern & Pacific RR.-Mortgoge-The shareholders on Aug.31 authorized the making of a mortgage to secure not exceeding \$22,500,000 of firty year 4 per cent first mortgage bonds. They also ratified the contract with the Colorado-Utah Construction Co. to build the road,-V. 75, p. 289,

Detroit & Toledo Shore Line RR. -Sold to Grand Trunk Ry.-A press dispatch from Detroit announces the sale of this road to the Grand Trunk Ry., which, it is stated, will assume outstanding indebtedness of about \$1,500,000. The line extends from Trenton, Mich., 20 miles south of Detroit, to Toledo, wheat 40 miles and is built with deaths took on to Toledo, about 40 miles, and is built with double track on a private right of way 100 feet wide, with 80-pound steel rails, steel bridges and rock ballast. It was originally intended for a high-speed trolley road, being owned by the Everett-Moore syndicate.-V. 74, p. 1251.

Findlay Fort Wayne & Western Ry.-Fo eclosure.-The Mercantile Trust Co., as mortgage trustee, has brought suit to foreclose the \$1,200,000 first mortgage of 1894, on which no interest has ever been paid. The Cincinnati Hamilton & Dayton bought control of the property in November, 1901, and through foreclosure will obtain clear title. -V. 73, p. 1111,

Fort Wayne Logansport & Lafayette Traction Co.-See Union Traction of Indiana below.

Grand Trank Ry.—Purchase of Line to Toledo.—See Detroit & Toledo Shore Line RR. above.-V. 75. p. 393, 77.

Hamilton Glendale & Cincinnati Traction Co.-Consoli-dation.-See Cincinnati & Hamilton Traction Co. above.-V. 75, p. 289.

Hucking Valley Ry.-Guaranteed Bonds.-See Continental Coal Co. under "Industrials" below.-V. 75, p. 240, 77.

Illinois Central RR.-Right to Subscribe. - The shareholders of secord Sept. 19 will until Friday, Oct. 24, 1902, and no longer, have the privi ege of subscribing, at par, for one \$100 share of the \$15,840,000 of new stock authorized last week for every five shares of stock held by them respectively; payment for the new stock to be made at the company's ffice in New York in two instalments, viz, 50 per cent on or before Dec. 2, 1902, and the remaining 50 per cent on or before

Jan. 7. 19-3. Upon payments in full on or before Dec 2, 1902, there will be allowed a discount upon the second instalment at the rate of 4 per cent per annum from that date to Jan. 7, 1903. Certificates for full-paid shares will be issued as soon as possible after both instalments shall have been paid and in the order in which payments are made. They will participate in all dividends which may be declared payable after Jan. 7, 1903.

Application of Proceeds .- President Fish as quoted says:

The proceeds from the cale of the new stock are to be applied to gen eral improvements. About \$250,000 will go into the new office build-ing which we are creeting bodied our Chloago station. Quite a sum will be expended for the sea-wall which the company is required to build along the lake front here. The work of double tracking the en-tire line from Chi ago to New Orleans will be completed, and many improvements contemplated will be extriced out. No additions to the system are contemplated, except some spura in Mississippi. We do not inter d to build a new line to St. Paul. Our trackage and traffic arrangements with the Minneapolis & St. Loois are satisfactory. I can say emphatically that under no orcumstances will the Illinois Central be a party to any big combination or merger scheme. For the reason that the stock is so widely distributed, no large blocks being held by a few persons, control of the company caunot be secured in the stock market. We propose to run the Uninois Central independently and operate it for what is in the traffic, not for stock-jobbing pur-poses -V. 75, p. 441, 289. Indianapolis Shelbyville & Southeastern Traction Co. The proceeds from the cale of the new stock are to be applied to gen

Indianapolis Shelbyville & Southeastern Traction Co. -New Luce.-Tois company, which is one of the it terurban enterprises that will have entranc- into India apoli- over the lines of the new Indianapolis Trac ion & Terminal Co. (V. 75, p. 398.), was this week to begin operating its 25 mi es of road from Indianapolis to Shelbyville, Ind. Capital stock. \$600-000; first nor gage 5s, \$500 000. The President is E. K. Adams of Shelbyville, Ind. See V. 74, p. 477.

International Traction Co., Buffalo, Etc.-Dissolution of Synarcate. Holders of certificates of interest issued under the syndicate agreement of March 1, 1899, are now receiving the 4 per cent collateral trust bonds and preferred Ftock to which they are entitled, at the office of J. P. Morgan & Co., 23 Wall St. See notice in another column.-V. 75, p 342.

Iowa Hematite (Electric) Ry.-Mortgage.-This com pany, which was incorporated in Iowa last June, and which recently increased its anthorized capital stock from \$25,00 to \$250,000, has filed a mortgage at Wankon, Allamake-County, Iowa, to secure \$1,500.000 of \$1.000 5 per cent 20 year bonds. The road is projected to connect Lansing. Wankon and Decorah with a view to developing the Waukon iron W. Ingram of Waukon is President. mines.

Kansas & Southern.-Receiver.-This company, having suspended operations, has been placed in receiver's hands on application of Rock Creek Township acting as a bondholder. The road extends from Blaine to Westmoreland, Kan., 9 miles.

Kona & Kan Rv., Hawaii. - Not Guaranteed - The statement in an advertisement that the Germania Bank & Trust Co. of San Francisco guarantees this company's bon is is pronounced incorrect, the Germania being merely the mortgage trustee.-See V. 75, p. 289.

Lake whore Electric Ry., Ohlo.—Through Cars — The first regular through cars from Cleveland to Toledo were run on or about Aug. 26. Work on the Sandu-ky division is being rapidly pushed to completion.—V. 75, p. 894.

Macon (Ga ) Consolidated Street RR .- Officers - The new owners have elected the following directors and officers :

Herman Myers of Savannah President and General Manager, Robert H. Plant and W. E. McCaw, both of Macon; J. S. Collins and W. W. Mackall, both of Savannah; Secretary and Treasurer, John Morris of Savannah.

Application for permission to cousolidate the Macon Consolidated Street RR. Co. and the Macon Electric Light & Ry. Co. under the title of the former is pending before the Macon City Council. The Metropolitan Railway was also included in the purchase of the Williams syndicate, but may perh-p. be kept independent in view of an alleged contract requiring it to buy the North & South Macon Street RR., a 21/2-mile line ex end ng from a point on Second St. across Ocmulgee River at S, ring Street to a point on the east side of said Extensive improvements are proposed, including river. 70 lb. rails. Pullman vestibuled cars, a casino, etc. John L Williams & Son of Richmond are interested. - V. 75, p. 135.

Manhattan Ry,-Quarterly.-Earnings for the quarter ending June 30 were:

cent call for \$480,000 quarterly. D vidends of 1 per The

results for the year ending June 30 are shown on a preceding page.-V. 75, p. 342, 185.

Mexican Central Ry.-Called Bonds.-Fifty thousand dollars (5 p. c. equipment and collateral gold bonds, due 1919 (second series), have been drawn for redemption at par and accrued interest, at the offices of either the O d Colony Trust Co., B ston, the Manhattan Trnst Co., New York, or Messis. Gijn, Mills, Carrie & Co., 67 Lombard St., Londor, E. C., on or after 1st October, 1902 -V 75, p. 240, 77.

Millcreek Valley Street Ry. -Consolidation-See Cincin nati & Hamilton Trac ion Co. above.-V. 75. p. 290.

Mineola Hempstead & Freeport Traction Co.-Nome Change:.-The company, carrying out its intention already announced in this column, has filed a cert ficate with the Secretary of State changing its corporate name to the New York & Long Island Traction Co.-V. 75, p. 77.

Nashville & Knoxville RR.-Purchase.-See Tennessee Central RR. below .-- V. 74, p. 151.

Nashville (Tenn.) Ry.-Decree Entered.-The Court of Chancery Appeals at Nashville on Aug. 30 entered the de-cree in the case recently decided (V. 75, p. 135,), holding the consolidation of 1900 illegal. See decree in full in "Nashville Banner" of 30th ult.—V. 75, p. 135.

New Orleans & Northwestern Ry.-Sale Postponed.-The foreclosure sale has been postponed until Sept. 20.-V. 75, p. 342.

New York & Long Island Traction Co.-New Name.-See Mineola H mpstead & Freeport Traction Co. V. 74, p. 1356.

Northern Securities Co.-Answer Filed.-The defendants in the suit brought by the State of Minnesota filed their answers is the United States Circuit Court at St. Paul on Sept. 1, there being one answer for the Securities Company and Mr. Hill, one for the Great Northern and one for the Northern Pacific. (See New York daily papers of S-pt. 2.) The taking of testimony in the suit brought by the United States Attorney-G-neral, it is announced, will begin at the flices of the D strict Attorney in New York City Sept. 15.-V. 75, p. 442, 394

Oklahoma & Texas Southern Rv.-The shareholders will meet in the town of Montague, Montague Co., Texas, n S-p<sup>\*</sup>. 22, 1902, to authorize the directors to apply to the Railroad Commission of Texas for authority to issue mortgage bonds (to the amount it is said of \$2,00,009) on the proposed railroad extending from the R-d River, near the 'own of Spanish For', in Montague County, southw-st via Weatherford, in Parser County, to the town of Stephenville, Erath County, Texas, a distance of about 125 miles. W. A. Squires is President.

Pennsylvania RR.-Control of Reading Co.-See that company below. -V 75, p. 185, 135.

Pine Bluff & Western Ry.-New Securities.-The shareholders will meet Sept 7 to increase the 'capital sto's, anchorize an extension of the main line and the building of additional branches, and also to authorize the making of a bond issue. The company was incorp rated in Jnne, 1899, with \$250,000 stock, and has built or under construction 25 miles of road extend ng from Pine Buff to Sheridan Ark. An extension to Benton is now propised. The Sawyer & Anstin Lumber Co., La Crosse, Wis. is interested. The of-ficers of the railway are: President, W. W. Cargill; Secre-tary and Treasurer, J. H. McMillan.

Pittsburg (Pa.) Terminal RR. & Coal Co.-New Enterprise. - Those back of this project are not ready to make public their plans, but enough information has found its way into print to indicate that the enterprise is of some importance. The company was incorporated in P-nnsylvania April 23, 1902, with nominal (\$1,000) capital st cs, which on June 24 the stockholders voted to increase to \$14 000,00J; par value of shares \$100.

The new company or its friends are understood to have purchased a convrolling interest in the \$600,000 stock and arranged to take care of the \$400,000 bonds of the West Side Belt RR., and also to have purchased a larg+ tract of coal land in Allegheny County. This land, according to the "Pittsburg Gazette," includes 12,200 acres, acquired at a total cost of \$3 670.000 from John W. Scully of Pittsburg the Donaldson Haynes Noble interest, J. B Corey and the Le Moyne interests of Bal imore. The West Site Belt RR, is in operation from Pittsburg to Banksville, 3 mil-s, and is under construction from the river terminals at Saw Mill, connecting with the Pitusburg Terminal Railroad of the Crucible Steel Co. of America, to Clairton, Pa. (B'air S'a ion), where the Cincible Steel Co. of America, brough the Clairton Sterl Co, is investing \$11.000,000, and the ce to the company's coal fields, a total distance of about 12 miles additional. The road will be double tracked and will pass through

Bruc-Station, on the Baltimore & Ohio RR, and Whitehall, on the new Pittsburg Carn-gie & Western (Gou d) road; in all it will embrace about 30 miles of trask. A number of mines are being developed, and it is said that within a few months the company's coal properties will have a daily pro-duction of 4,000 to a. At Saw M II the company will have a river frontage aggregating, it is said, 2,000 feet. The directors (and offic rs) are:

Charles Dounelly (President), Joshna Rhodes (Treasurer), J. G. Patterson (Secretary), T. Hart Given, F. F. Nicola, M. K. McMullin, J. D. Callery, A. W. Osborne, S. H. Robbius, J. C. Glichrist and T. N. Barnedau.

All the above named, except Mr. Gilchrist, are also directrs of the West Side Belt RR. The President of the latter company is F. M. Osborne. Messrs O-borne, Patterson and S. H Robbins are former officers of the Pittsburg Coal Co.

Pittsburg Carnegie & Western Ry .- Pittsburg Terminals. -President Ramsey of the Warash says:

Our terminal properties in Pittsburg will be ready for operation some time next spring. We shall have two incestioning to the Jones & Laughlin Stee plast, one of them direct from our new terminal near the Smithfield Street bridge, up the river, reaching not only the steel (lant, but many other industrial plants. We shall have adeq are terminal prop r ise on the south side of the olty, along the Monong shela River, and shall hold in all a strip of river property about 1,200 feet in length and wide enough to provide us with term nais sace as equate for our operations for many years to come. This property is sound of the river, but is block ed in a position that will be conventent to the manufacturing and business centre of Pittsburg. Our facinties will enable us to handle a large trafilo. I do not think the total \* xpenses of establishing ourselves in Plusburg will aggregate \$10,000,000, not too much of an outlay considering the certain return that will accrue to all Gould lines east of the Mississippi -V. 74, p. 1090.

Portland (Ore.) Ry.-Consolidation.-See City & Suburban Ry. above.-V. 70, p. 946.

Port Royal & Augusta RR.-Old Bonds Have Value,-It appears that there are a few of the second mortgage bonds of this company outstanding on which something can be collected. Holders are invited to communicate with C. B. Crowell, 234 Breadway. The road was sold under foreclosure Sept. 1, 1896, to Sam'l Thomas and T. F. Ryan. It was re organized as Charleston & Western Carolina and subse-quently sold to the A'lantic Coast Line. (V. 63, p. 559.) The facts regarding a recent decision holding the Central of Ga Ry, liable on the second mortgage bonds were published in the CHRONICLE of April 6, 1901, page 674.-V. 74, p. 479.

Reading Company.-Change in Control-The company's shares have been extremely active during the week and the price of the common stock, which on Aug. 18 was 663% and on March 10 only 5214, has touched 7816, closing yesterday at 7334 The recent heavy dealings are explained by persons usually well informed as due largely to speculation, and not to competitive purchases for control by the Goulds and others. It is generally believed; however, that the Pennsylvania RR. interests have acqu red a controlling or a virtually controlling interest in the entire \$140,000,000 stock, pursuant to an understanding with the Morgan and Vanderbilt interests. First Vice-President Green of the Pennsylvania was quoted yesterday as derying that his company had been a pur-chaser of the Reading.-V. 75, p. 442, 343.

St. Louis & Gulf Ry,-Resignation of President.-The "St. Louis Republic" says Mr. Louis Honck's resignation as President and director of the company has been accepted, and it is expected that this railroad and the St. Louis Valley Line will be consolidated and that the ownership of the road will, if not immediately, eventually become a part of the Gould system, -V. 74 p. 1039.

San Francisco Terminal Railway & Ferry Co.-New En-terprise.-This compary was recently incorporated in Califorma with \$6,000.000 capital stock in \$100 shares, of which \$200,000 subscribed. The intention, it is stated, is to build railway lines traversing Santa Clara and San Joaquin val-leys and to operate these lines in connection with a ferry to be established hetween Oakland and San Francisco. Extensive terminal properties have been acquired in Oakland, sitnated on the Oakland channel and extending, it is said, back to Fifth Street. The railroad lines are projected as follows : From Oakland to Livermore, joining the Alameda & Han Joaquin RR. near the boundary line between Alameda and San Joaqui coun-ties, 60 miles, with 15 miles of brancher; Hay wards to San Jose, 35 miles; Alameda to San Leandro, 10 miles; Oakiand to Berkeley, 10 miles, Hay ward to Dumbarton Point, on San Francisco Bay, 15 miles; total, about 145 miles.

The Alameda & San Joaquin RR, which extends from Stockton to the Tesla coal mines, 36 miles, will, it is stated, be purchased The directors of the new company are:

J. Dalzell Brown. Vice President of the California Safe Deposit & Trust Co; A. C. Kaine, Assistant Manager of the Canadian Bark of Commerce; F. M. West, President of the Stockt'n Savings & Loan So-ciety; Tirry L. Ford, Attorney-General of California; Waiter J. Bart-nett, of the law firm of Booth & Bartnett, and John Freadwell, of Oak-land.

Office in San Francisco. Prominent San Francisco financiers are quoted as stating that the company is organized in the intere-t of a trunk line not at present having access to the Pacific coast. S-nator W. A. Clark, it seems, has just been over the Alameda & San Joaquin RR. in his private car, and this fact gives color to the report that he and the Goulds are planning a line to San Francisco.

San Juse & Santa Clara (Electric) RR.-Negotiation.--The U. i ed Gas & Electric Co. of San Jose, etc. (V. 75, p. 81), has either secured or is arranging to obtain an option on this property and its allied company, the Alum Rock RR.; also on the San Jose RR., making in all about 37 mil-s of trolley lines. The San Jose & Santa Clata has outstanding, it is stated, \$260 000 of 6 p c. bonds. - V. 72, p 873.

Southern Ry.-Collateral Trust Bonds -- The annual re port published in last we-k's CHRONICLE (see page 448) states that an issue of \$4 (00.000 collateral trust 4 pr cent gold bonds, due in five years but redeemable at par after two years, were issued on Dec. 1, 1901, to reimburse the company for correct cash used to pay certificates of indebtedness (\$1,940.000) and for payments for equipment and for capital account against which no securities were issued, and to aid in financing subordinate companies pending the permanent funding of such investments.

Application to List. - The company has requested the New Yors Stock Exchange to list \$1,5,0000 additional first con-solidated morigage 5 per cent bonds, making total \$36 775,000. The additional bonds were issued to the company about two years ago on account of additions and improvements .- V. 75, p. 447, 442.

Springfield (III.) Consolidated Ry.-Refunding.-Consolidated mortgage 5s of 1883 for \$125,000 have been issued to replace the same amount of Springfield City Ry. 63 of 1890 recently called for payment.-V. 75. p. 291.

Stockton (Cal.) Electric RR.-Proposed Bond Issue.-This company, which last June passed under the control of H. E. Huntington, is applying for additional franchises to enable it to reach Lodi and the various suburban di-tricts. H E Griffiths, the representative of the company in its negotiations with the city, says that a \$1,000,000 bond issue is contemplated.-V. 74, p. 1140.

Tennessee Contral RR. -- Official Statement.-- Secretary W. E Eastman, replying to our inquiry, says:

Leastman, replying to our inquiry, says: A third payment of \$636.187 11 on account of purchase of the Nash-ville & Knoxylie has been made, making \$1,226,97852 paid to date, and ie, ving one payment amounting to about \$t50,000 still to be made. This includes certain coal lands known as the Crawford Coal & fron Co. Not e of these payments will be applied to reduction on payment of the \$1,756,000 of N. & K. bonds. (See investoas' SUP-PLEMENT, pages 138, 1.9) The Cumberland Coal & Coke Co. is a sep-atate company, and has no connection with the N. & K. or Crawford properties. There is some talk, however, of making a consolidation of the two land companies.-V. 75, p. 291.

Tex+s Central &R.-Earnings.-The report for the year ending June 30 shows:

Fiscal	Gross	Net	Olher	Int. on	Divi-	Bal.,
Yeur.	Eurns.	(Over Taxes).	Income.	Bonds.	dends.	Sur.
1901-2.	\$593,668		\$1,776	\$26,330	\$132.+57	\$1,731
19001.	707,591	265,786	2,724	25,000	165,570	77,940
-V. 73,	p. 954.					

Toledo & Ohio Central Ry.-Guaranteed Bonds.-See Continental Coal Co. under "Industrials" below .--- V. 74, p. 269.

Underground Electric Railways of London.-Further Facts.-Charles T. Yerkes arrived from Eugland last week. He is quoted as saying that the syndicate he represents has obtain-d from Parliament four different iranchises, and that when the new roads are finished the system will have 66 miles of double tracks with connections which will add 40 miles m re. He savs further:

The Metropolitan District Railway Company is now earrying 200,000,000 persons a year Our roads will increase that amount from 50 to 100 per cent. They will be in operation in eighteen mon hs. We shall have three stations to the mile, operate 1,000 cars, and use the third-rail system.

At a recent hearing in London before the tunnel committee of the House of Commons, Edgar Speyer, senior partner of Speyer Brothers. bankers, the London house of Speyer & Co., of New York and Frankfort, testified that white he and his as to tates had agreed to provide if necessary  $\pounds 20,380,000$ , it was estimated that only  $\pounds 15,000,000$  would be required to build and equip the Brompton & Piccadily line, the Charing Cross Enston & Hampstead line, the Great Northern & Strand line and the Baker Street & Waterloo line. The remaining £5,000,000 is practically a reserve for contingencies. The four new lines are to be leased to the Underground Electric Railways on a rent or a guaranty of The four new lines are to be leased to the not less than 4 per cent per annum on the amount of their

debenture and share capital. The company's tube rallways will be built near the surface. Cars and statious will be non-iuflammable. Maximum of speed of trains 16 miles. Fare 2d with 1 penny ticke's between certain hours and sta-tions for worki g people. Fresh air for ventilating purposes will be forced in through a four-inch tube, renewing the air every forty-five minutes. minutes.

The Underground Electric Railway Co., of which Mr. Yerkes is Chairman, owns, it is said, less than 10 per cent of the District Company's nominal capital of over \$9,000,000 .--V. 74, p. 777.

Union Traction Co. of Indiana.—Another Line Proposed. President George F. Culloch and others connected with this company are the incorporators of the Ft. Wayne Logansport & Lafayette Traction Co. (capital stock \$1,000,000), which proposes to build from Ft. Wayne to Hontington, Wabash, Andrews, Lagro, Peru, Logansport, Delphi and Lafayette, along, it is understood, the tow path of a portion of the old Wabash-Erie Canal At Logansport and Peru connection will be made with the line of the other subsidiary company, the Indianapolis Northern, which is now building from Indian-apolis to Norlesville, Tipton, Elwood, Kokomo, Peru and Tipton.-V. 75, p. 136.

West Side Belt RR, Pittsburg.-Control.-See Pittsburg Terminal RR. & Coal Co. above. -V. 66, p. 343.

#### INDUSTRIAL, GAS AND MISCELLANEOUS.

American Bleycle Co.-Default.-The interest due Sept. 1 The on the \$9,500,000 gold debenture bonds was not paid. company on Tuesday gave out the following:

Interest on the debenture bonds will not be paid at this time. Pro-oceeding- have been instituted looking to the appointment of a tem-porary receiver, in the interest of bond and stockholders, and a plan of reorganization will be submitted at an early date for their approval. The company has always been hampered by lack of working capital; it is confidently expected that the proposed reorganization will furnish the coessary funds for the proposed reorganization will furnish the coessary funds for the proposed reorganization will furnish the coessary funds for the proposed reorganization will furnish the coessary funds for the proposed reorganization will furnish the coessary funds for the proposed reorganization will furnish the coessary funds for the proposed reorganization will furnish the coessary funds for the proposed reorganization will furnish the coessary funds for the proposed reorganization will furnish the coessary funds for the proposed reorganization will furnish the coessary funds for the proposed reorganization will furnish the coessary funds for the proposed reorganization will furnish the coessary funds for the proposed reorganization will furnish the coessary funds for the proposed reorganization will furnish the coessary funds for the proposed reorganization will furnish the coessary funds for the proposed reorganization will furnish the coessary funds for the proposed reorganization will be affected to and the second of the based of the stocks of American Cycle Manufacturing Co., International Motor Car Co., Federal Manufacturing ('o, and National Battery Co, and others, None of these four subsidiary companies will be affected; all are in good condition, and what assistance they need will be affected; all are in the receivers of the American Bicycle Co. or the bondholders in in-Interest on the debenture bonds will not be paid at this time. Pro-

the receivers of the American Bicycle Co. or the bondholders in interest.

Tuose most largely interested in the company's securities are, it is stated, working in entire accord and harmony upon the lines indicated.

Receivers. - Ju 'go Andrew Kirkpatrick, in the United States Circuit Court at Treuton. N. J , on Wednesday, on application made by Elliott Ma-on and Emma B. Stimson, appointed as receivers of the compary Col. Albert A. Pope, is President, R Lindsay Col-man, one of its directors, and John A. Miller of Newark, N. J. The company has on hand only about \$20,000 cash to meet obligations consisting of interest on debentures due Sept. 1, \$225,000; Baring, Magoun & Co., \$150,000; National Battery Co., \$5,000; F. S. Smithers & Co., \$58,073; Federal Maaufacturing Co., \$50,000.

Reorganization Committee.—A committee consisting of Wm. A. Read (Chairman), Geo. F. Crane, Colgate Hoyt, F. S. Smithers and Geo. W. Young, at the request of holders of very large amounts of the bonds and preferred and common stocks, have consented to make an examination of the company's affairs and to prepare and submit a plan of reor ganization at the earliest possible moment. Security holders destring to co-operate are requested to deposit their securi-ties with the Central Trust Co., No. 54 Wall St., in exchange for negotiable receipts. Any security holder dissatisfied with the plan will have the privilege of withdrawing his securities, without expense, within thirty days after such plan is announced.-V. 74, p. 989

American Lithographic Co.-Solvent.-The Attorney-General on Thursday denied the application of B-njamin Hilton for the dissolution of the company, there having been presented "positive evidence of parties who are entirely familiar with the affairs, conditions, values and assets of the company to the fact that the company is not insolvent." See V. 75. p. 241.

Belleville (111.) Gas Light & Coke Co.—Purchased.—A syndicate including, it is said, H. M. Byllesby and W. N. Horner of Chicago. Rudolph Kleybolte & Co. of Cincinnati, Turner & Header of Belleville, and Stephens, Turner & Fore. man of East St. Louis, recently b ught the plant of this com-pany for a sum rumored as \$240,000 and assumed its \$50,000 of 4 p. c. bonds. The company's capital stock was \$150,000.

Bon Air Coal & Iron Co.-Status.-Thomas Plater & Co. of Nashville, Tenn., who lately offered at par a block of the first mortgage 5 p. c. bonds (due 1925) of the Buffalo Iron Co., say:

Co., say: The Buffalo Iron Co. and the Bon Air Coal. Land & Lumber Co. re-cently consolidated with the following capitalization: P eferred 6 per cent stock (\$2,500,000), issued \$1,650,000; common stock (\$2,500,-000), issued \$1,650,000. The new Bon Air Coal & Iron Co. assumes the payment of the bonded indebtedness of the old companies as fol-lows: Buffalo Iron Co., first and only mortgage on 70,000 acres of mineral and timber lands in Wayne, Hickman and Lewis counties, Tena., including iron furnaces thereon, \$264,000, and Bon Air Coal, Land & Lumber Co. (6 per cent bonds, 1928, first and only mortgage on about 30,000 acres of coal lan 18), \$180,000. Earnings for 1901, exclusive of interest on bonds, sinking fund, taxes and all other items of expense are as fullows: Buffalo Iron Co (net), \$60,000; Bon Air Coal Land & Lumber Co. (uet), \$72,000; total, \$132,000. Estimated increase in net cardings under the consolidation about \$168,000; total estimated net earnings 1902, \$300,000.-V. 75, p. 292. Boston & Philadelphia Steamship Co.-Quarterly Divi

Boston & Philadelphia Steamship Co.-Quarterly Divi dend.-This new organization has declared a quarterly dividend of 11/2 per cent (\$1 50 ashare), payable Oct. 1, to stock of record Sept 20. The old company paid dividends semi-an-nually.-V. 74, p 1309.

Century Realty Co.-Authorized.-The shareholders on Tuesday anthorized the proposed increase of the capital stock from \$1,000,000 to \$3 000.000. The directors are:

H. B Hollins, Oakleigh Thorne, Robert H. McCurdy, Richard G. Park, Chariton T. Lewis, Warner Van Norden, James Jourdan, Charles F Hoffman, E. C. Potter, John C. Tomlinson, W. H. Chere-brough and George H Coleman.-V. 75, p. 443.

Colorado Fuel & Iron Co.-Suit Transferred to United States Court - The suit of George E Birtlett for an injunc-tion to restrain the company from holding its annual election has been transferred from the State Court of Colorado to the United States Court. John W. Gates sailed for Europe ou Wednesday. A statement regarding the position of Mr. Gates and his associates was given out by counsel on Wednesday afternoon (see "New York Evening Post" of Sept. 3.) -V. 75, p. 443, 396.

Consolidated Liquid Air Co. - Reorganization. - See Tripter Liqu d Air Co. below.

Directors.-The following, it is announced, are the directors:

A. M. Miller, Charles E. Tripler, St. Charles B. Gwynne, Edward Uhl, H. W. Moeller, G. W. Ballou and J. B. M. Grosvenor,

The company is incorporated under the laws of New York State.

Continental Coal Co. - Guaranteed Bonds Offere 1. - Harvey Fisk & Sons are offering at 1051/2 and interest \$1,000,000 of this company's present issne of \$2,750,000 first mortgage 50year sinking fund 5 p. c. \$1,000 gold bonds, due Feb. 1, 1952, but subject to call at 110 and interest when drawn for the sinking fund, on any interest day after 1906, and also at the company's option, in whole or in part, on any interest day after Feb. 1, 1912. The principal and semi-annual interest are separately and unconditionally guaranteed by endorsement on each bond by the Hocking Vallev Railway Co. and the Toledo & Ohio Central Railway Co. The authorized issue is \$3,5 0,000, of which \$750,000 bonds are reserved for improve ments or additions to the property. The Standard Trust Co. of New York is mortgage trustee. A circular says:

The sinking fund will receive five cents per ton of 2,000 lbs. of lump coal produced and marketed from the property now owned or lesard or h-reafter acquired. The entire capital stock (\$3,500,000) is held by the firm of Messrs. J. P. Morgan & Co., as trustee, with fail voting power during the life of the bonds, a fact which assures a judicions and officient for

power during the life of the bonds, a faot which assures a judicions and efficient managem ent. General Manager T. W. Guthrie, in a letter dated April 25, 1902, says: "This corporation has acquired by purchase the coal properties, leases and equipment of 16 operating mines situated in Perry, Athens and Hocking counties, Ohio, in what is known as the Hocking Dis-trict, along the mass of the Hocking Valley, the Toledo & Ohio Central and the Columbus Saudesky & Hocking railroads. This property con-sists of about 56.400 acres of coal held in 16e and under leaseholds, and is composed to a large extent of well-developed mines which have been successfully operated during past years. The land is un-derlaid by two scams, carrying coal of a varying thickness up to 13<sup>1</sup>/<sub>2</sub> feet, and conservatively estimated as cont dining from 160,000,000 to 180,000,000 tons of coal. The mining equipment is of most modern 180,000,000 tons of coal. The mining equipment is of most modern character and is in excellent condition. The coal produced is suita-

ble for steam, domestic and Lake trade, and commands a ready mar-

ble for steam, domestic and Lake trade, and commands a ready mar-ket. The company also owns numerons houses and stores and carries on a profitable business, furnishing supplies to its employes. Based upon the results of past operations and the reports of emi-nent coal experts, a conservative statement of the company's coal producing and earning capacity is as follows: Total yearly capacity run of mines (300 days), 4.200,000 tons; annual tonnage, if worked to 60 p. c. of capacity, 2,520,000 tons. Net earnings on 2,520 000 tons, including rentals and store profits, \$504.000; deduct interest on \$2,-750,000 bonds at 5 p. c., \$137,500; sinking fund on 1,890,000 tons lump coal at 5 cents per ton (lump estimated at 75 p. c. of run of mines tonnage), \$94,500; balance surplus available for dividends, \$272,000. wines to: \$272 000

The combined surplus earnings of the two guarantor companies after the paym int of their own fixed charged has averaged \$1.612,205 over the last three years and continues to be well maintained.

Cumberland Coal & Coke Co.-See Tennessee Central RR. under Railroads.-V. 78, p. 1114.

De Forest Wireless Telegraph Co.-New Enterprise.-This company incorporated under the laws of Maine, with \$3,000,-000 capital stock in shares of the par value of \$10 eroh, full paid and non-assessable, owns and controls the wireless tel-graph system invented by Lee De Forest, Pn. D, Yale University, in conjunction with Edwin H. Smyth- and Clarence E. Freeman. The United States Patent Office, after two years' investigation, allowed fifty-eight claims (1 to 58, inclusive), covering the inventions above referred to. Applications for patents in the principal foreign countries are p-nding. A representative of the company says:

The De Forest system employs no cumbersome induction coil for the

The De Forest system employs no cumbersome induction coil for the transmission of electrical wave evergy, and no delicate, slow working coherer that requires constant tapping ( r decohering); on the con-trary, this system monopolizes absolutily the anti-coherer principle. Our method is entirely different from the Marconi system. We have four stations in New York, and wireless ærograms are being sent and received every minute of the day. The stations are at No. 17 State St., at No 100 Broadway, at the Castleton Hotel on Staten Island, and at Obey Island, where we have the bighest mast in the world, and have communicated with the SS Deutschland at a dis-tance of nearly 100 miles, using only about 25,000 volts. We are able to receive and send messages by our system at the rate of forty words a minute, while it is admitted that by the Marconi system not nearly as many words a minute can be transmitted. (See illustrated article in "Scientific American" of Aug. 16.) The officers are: A. White (banker), President: James

The officers are: A. White (banker), President; James Stewart (with Armour & Co.), Treasurer; M. F. Stires, Sec-retary, Directors also include Lee De Forest, Scientific Director; C. C. Galbraith (General Manager of Armonr & Co.), J. L. Morgan, Clarence G. Tompkins, General Manager (formerly of Stanley Electric Co.) Main office, 100 Broadwav

Suit.-The Marconi Wireless Telegraph Co. of America recently filed a bill of complaint in the United States Circuit Court against the De Forest Company for an alleged intringement on the Marco i basic patent, particularly by the so-oalled "anti-coherer."

Driggs-Seabury Gun & Ammunition Co.-Sale.-Judge John M. Thayer of the Superior Court at New Haven on Sept. 2 ordered that unless the plant is sold at private sale on or before the fourth Tnesday in September, it must be sold at public sale at Derby on Oct. 15.

New Company.-The Driggs-Seabury Ordnance Corporation was incorporated in New Jers y on or about August 7, with \$100,000 anthorized capital stock. Incorporators: Wm. H. D.iggs, Washington, D C.: Ralph G. Corbin, Jersey City, and Charles H Werner, New York. - V. 74, p. 683.

Dominion Coal Co.—Rental Paid.—See Dominion Iron & Steel Co. below.—V. 75, p. 188, 27.

Dominion 1ron & Steel-First Payment Under Lease,-On Thursday final arrangements were complete i for taking over the property of the Dominion Coal Co under lease, and the first payment of rental, viz, \$1,2,0,000, for the past nine months, was made. From this sum the coal company has declared a dividend of 4 per cent for the half-year on its common capital stock.-V. 75, p. 293, 188.

Edison Electric Co., Lo3 Angeles.—Re capitalization— Consolidation.—In connection with the making of the new mortgage already mentioned, plans are in contemplation for increasing the capital stock from \$2,000,000 to \$10 000,000, of which \$4,000,000, it is said, will be 5 p. c. cumulative preferred. The plan, it is understood, contemplates the exchange of the present stock for an equal amount of new preferred stock with 20 p. c. of the new common stock as bonus; also the consolidation with the Edison of the Redlands Light & Power Co., Santa Ana Gas & Electric Co., Pasidena Electric Co and other sno-corporations. -V. 75, p. 293, 79.

Evanston (III.) Yaryan (Heating) Co.-Foreclosure.-The Northern Trust Co. of Chicago as mortgage trustee has brought suit in the Superior Court in that city to foreclose the \$400.000 mortgage of 19)1, under which it is said 000 of 5 p c. 20 year gold bonds are outstanding and in default.

(George A.) Fuller Co.-Listed.-The New York Stock Exchange has listed the Central Trust Co. certificates of deposit representing preferred and common shares inrned in tor exchange into stock of the United States Realty & Construction Co. Preferred stock for \$3 550,000 and common stock for \$9,200,000 have thus far been deposited; V. 75, p. 397, 241.

Los Angeles Electric Co.-Mort age.-The shareholders will vote at Los Angeles on Oct. 29 upon a proposal to issue \$500,000 mortgage gold bonds. The company began operations in 1882; its authorized capital stock is \$600,000; issued about \$543,000. W. B. Cline is President and Wm. H. Burns is Secretary and Treasurer,

\* For purposes of comparison, the results for both years from the Cincinnati Portsmouth & Virginia RR. are included in the above income account as well as in the statistical information given in other parts of this report.

The operating expenses, including taxes, amounting to \$452,71539, were 57.75 per cent of the gross carnings, as against 60.48 per cent for the preceding year. Exclusive of taxes, the operating expenses were 55.17 per cent of the gross earnings, as against 57.89 per cent for the preceding year. The gross earnings were \$10,466 and the net earnings \$4,422 per mile of road operated.

#### CAPITAL STOCK.

The amount of capital stock authorized and issued consists of—

60.000 shares of common stock	\$66,000,000
30,000 shares of adjustment preferred stock	23.000,000
, , , , , , , , , , , , , , , , , , , ,	
Total.	\$89.000.000

During the year 43 shares of adjustment preferred stock which were in the treasury of the Company were given in exchange for bonds of the old company which had not been deposited under the plan of organization; and at the close of the year there were in the treasury of the Company \$247,200 of adjustment preferred stock and \$1,530,800 of common stock.

#### FUNDED DEBT.

The Trustee of the First Consolidated Mortgage delivered to your Company, under Section 5, Article I., of that mortgage, \$2,000.000, of the bonds issuable thereunder; these bonds, together with \$900,000 of the bonds previously issued and in the treasury of the Company, \$2.900,000 in all, were sold and the proceeds applied to partly reimburse the Company for the capital expenditures previously made.

Of the First Consolidated Mortgage bonds in the treasury, \$3,000 were used in acquiring \$5,000 undeposited bonds of the old company. These transactions increased the outstanding funded debt by \$2,903,000. Excluding \$19,750 of First Consolidated Mortgage bonds remaining in the treasury, the funded debt outstanding June 30th, 1902, aggregated \$53,079,750, and the annual interest charge thereon is \$2,414,610.

#### FIRST CONSOLIDATED MORTGAGE.

I., Section 5, of the mortgage furnished..... 5,750,194 45

Leaving as excess of property expenditures.....\$2.023.219 02

This excess of cost of additional property and improvements over the proceeds of bonds sold under Article I, Section 5, has been advanced from your treasury and it may be reimbursed by the sale of bonds available under the mortgage provisions when such reimbursement is considered advisable.

The unsold bonds issuable under Sections 4 and 5 of Article I, become available as follows:

)n	and afte	er July	1st, 1	1003	\$4,500,000
68	66	6.6	1st. 1	1903	1.00 .000

66	44	6.6	1st,	1905	690,511
					\$7.190.511

4,941,019 63 \$182,075 08
Reference was made in the last annual report to the acquisition by your Company of the Cincinnati Portsmouth & Virginia Railroad, the Cincinnati Connecting Belt Railroad and the Hillsboro Branch, in all some 131.69 miles of railway, and, acting upon the authority given at your last annual meeting, this property was deeded to your Company and became a part of its system. A portion of this road, 6.85 miles in length, is parallel with your line, and with it forms a double track from Sciotoville to Portsmouth Junction, and is operated as a part of your main line; but from Portsmouth Junction, where the lines diverge, to Cincinnati, a distance. including the Belt Line and the Hillsboro Branch. of 124.84 miles, it is operated as the (incinnati Division. The cost of this entire property, with the improve ments made thereon west of Portsmouth Junction to June 30th. amounting to \$2.120,427 66, has been paid for out of your treasury and is not covered by any existing mortgage.

As will be explained more fully in another part of this report. your Company has undertaken the construction of a low-grade line down the Big Sandy River, a distance of about 60 miles, and has also in contemplation, as referred to elsewhere, the cons ruction of a loop line to permit of further developments in the Pocahontas Coal Field.

#### CAR TRUST OBLIGATIONS.

The following Car Trust obligations and bonds have been paid during the year:

Car Tru-t certificates of 1892. Car Irust bonds of 1893	\$57,000 55,000
	\$112.000
Leaving outstanding June 30th, 1902-	
Oar Trust certificates of 1892 Oar Trust bonds of 1893	
Equipment Mort, age bonds of 1888, due, but not presented	

\$72.0 0

#### EQUIPMENT TRUST CERTIFICATES.

Your Company's traffic and revenue have long been restricted by the lack of rolling stock, and, to provide for the traffic now offering, Equipment Trust agreements were executed March 1st, 1902, covering the lease from the Virginia Company of 53 locomotives, 5.000 freight cars, 25 passenger coaches, 2 baggage and mail cars, and 4 express cars, the whole costing \$5,000,478, of which \$1,500,000 was paid upon the execution of the agreements and \$3,500,00 is represented by 4 per cent trust certificates issued by the Fidelity Trust Company of Philadelphia, payable in seven annual instalments of \$500,000 each. beginning September 1st, 1905. Deliveries of the new equipment begin in July.

#### POCAHONTAS COAL & COKE COMPANY.

The past year was one of exceptional activity in the coal fields contiguous to your line; lands were purchased, new mines opened, and more attention given to the coal territory tributary to your lines than ever before. This was especially the case in the Pocahontas Coal Field, and was doubtless due to the increasing demand for coal and coke consequent upon the continued growth of the iron and steel industry, as well as to the fact that the superior quality of Pocahontas coal, not only for the manufacture of coke, but for making steam and for domestic purposes, is now generally recognized.

The coal and coke traffic of your Company during the past year amounted to 7,056.721 tons, of which 5,572,612 tons were produced from the Pocahontas Field. The Pocahontas ( oal & Coke ompany having purchased approximately 295,000 acres of the lauds in the Pocahontas Field. your Directors deemed it necessary for the protection of the interests of your Company to purchase all the capital stock of the Pocahontas Coal & Coke Company (except qualifying shares held by the Directors of the company) and joined with that company in the i sue of \$20 000,0004 per cent purchase-money mortgage bonds, due December 1st, 1941, in settlement for the purchase by the Pocahonias Coal & Coke Company of its lands and interests in lands.

It was agreed between your Company and the Pocahontas Coal & Coke Company that as between them and on their behalf the Pocahontas Company should pay the principal and interest to become due upon the joint bonds, but this agreement does not affect the liability of the two compan-ies. or either of them, to the holders of the bonds, the Railway Company and the Pobahontas Company being each jointly and severally liable thereon.

Beginning with the year 1906, a sinking fund of 21/2 cents per ton of coal mined is to be set aside and used by the Trustee in the redemption of the bonds at not exceeding 105 per cent, and the right is reserved to the Company at any interest period to call in and retire at 105 per cent all or any portion of the outstanding bonds.

The property belonging to the Pocahontas Coal & Coke Company comprises about four fifths of the Pocahontas Coal Field and is about midway between the tidewater terminal of your railway at Norfolk, Va., and the Ohio termini of the Compary at Cincinnati and Columbus : and throughout the greater part of its area the No. 3, or Pocahontas, seam of coal is above the water level, persistent and uniform in character and thickness, and at a convenient height above the railway tracks, permitting self draining mines of great extent and economical working.

The Pocahontas Coal & Coke Company does not engage in the mining or buying or selling of coal or coke, its principal purpose being to make leases on royalties to operating compani-s; and on leases now made the royalties are 10 cents per ton on coal and 15 cents per ton on coke. At the time 'ous year.

of the acquisition of the property about 34,350 acres of land were under lease to twenty-five mining companies in active operation; and from these lands during the twelve months ending December 31st. 1901, there were produced 2.645 682 gross tons of coal and 677,190 tons of coke; and the royalties therefrom amounted to \$358,575; in addition to which 5,447 acres were under lease to six mining companies who were enga ed in opening mines and building ovens, but shipments from these lands did not begin until after January 1st, 1902.

On December 31st, 1901, a lease of 50,000 acres additional was made by the Pocahontas Coal & Coke Company to the Illinois Steel Company, to be assigned to the United States Coal & Coke Company, the coal and coke therefrom to be used in furnaces and works owned or controlled by the United States Steel Corporation. This lease provides for the erection of not less than 1,000 coke ovens on or before December 31st, 1902, an additional 1, 00 ovens on or before December 31st, 1903, and a further additional 1,000 ovens on or before December 31st, 1904, and also provides for the payment of minimum royalties, and its performance by the lessees is guaranteed by the United States Steel Corporation.

Until the plants contemplated in these new leases are completed and in operation, the net income of the Pocahontas Coal & Coke Company will be less than the interest on the joint bonds, but this temporary deficiency has been provided for through an agreement between your Company and the Pennsylvania Lines West of Pittsburg, by which these lines will co-operate with your Company in the trans-portation of coal and coke from the Porahontas Field, furnishing their proportion of the cars required for such traffic and joining with your Company in loaning to the Pocahontas Company, without interest, in the proportion of twothirds by your Company and one-third by the Pennsylvania Lines, such amounts as may be necessary to meet such deficiency, the amounts so advanced to be repaid pro rata when the net receipts exceed the amount required for interest payments and sinking fund.

When these new mines are opened and ovens completed, the royalties received from the 89,797 acres of land now under lease will, it is believed, be more than sufficient to meet the interest on the bonds.

The net income of the Pocahontas Coal & Coke Company for the *s x* months ending June 30th, 1902, was \$347,505.

A balance sheet of the Pocahontas Coal & Coke Company is attached to this report [pamphlet].

#### VIRGINIA COMPANY.

The Virginia Company's capital stock (except qualifying shares held by the Directors) belongs to your Company. Its property valuations have been revised and its indebtedness to your Company for advances m de for purchases of properties held and used in the interests of your Company has been canceled and eliminated from the accounts.

A balance sheet of the Virginia Company is attached to this report [pamphlet].

#### CONSTRUCTION, EQUIPMENT AND BETTERMENTS.

The work of improving the Company's property and increasing its transportation facilities has been continued, and the amounts expended for such purposes during the year aggregated \$2,889 457 24, of which \$1,450,527 74 was charged to Property Accounts, and the remainder, \$1,438,929 50, was charged to the Betterment Fund, as follows :

#### TRAFFIC.

2.630,615 passengers were carried during the year, an increase of 236,170, or 9.86 per cent, as compared with the previous year.

The revenue from passengers was \$2,379,475 83, an increase of \$244,885 49, or 11.47 per cent, as compared with the provi-

95 per cent of revenue from passengers was derived from local business.

12.268.100 tons of freight were carried during the year, an increase of 924.036 tons, or 8.15 per cent, as compared with the previous year.

The revenue from freight increased \$1,089,162.28, or 8.06 per cent, as compared with the previous year. 91 per cent of the total tonnage and 87.4 per cent of the

earnings from freight were derived from local business.

Coal and coke shipments were affected by labor troubles in the coal fields beginning May 25th, causiog a curtailment of shypments of both coal and coke, which continued to the close of the fi-cal year, but this traffic amounted to 7,056,721 tons, or 57 5 per cent of the total tonnage.

Included in the above were 592,367 tons of coal shipped to foreign markets a decrease of 185,410 tens as compared with the previous year, this decrease being due to the necessities of the home markets and the inability of your Company, owing to the lack of sufficient cars and engines, to transport the business offering.

The following statement shows the passenger and freight traffic for the years 1902 and 1901:

### EQUIPMENT.

The equipment has been maintained in good condition throughout the year, the charges for maintenance being \$2,334,585 92. This includes \$106,747 for r-placing equipment destroyed or retired from service and \$470,000 cnarged for depreciation.

2 sea-going tugs and 6 barges were sold during the year, and the proceeds will be used to acquire additional rolling stock.

There were added to the equipment during the year :

20 lo comotives, 501 box cars, 250 stock cars, 340 D. B. condolas, 177 H. B. gondolas,	10 cabin cars, 1 steam wrecking crane, 1 steam shovel, 1 scale test weight car.
--	--

The aggregate cost being \$1,073,767 71, of which \$446,-629 59 was charged to Capital Account, and of the remainder, \$620,101 06, charged to operating expenses, through the Equipment Renewal Fund, and \$7,037 06 to Betterment Fund.

There were also ad led 2 barges for use at Lambert's Point. With the Cincinna i Portsmouth & Virginia Railroad the following equipment was also acquired:

12 locomotives, 11 passengeroars.

502

291 freight cars, 12 maint. of way and cabin cars.

At the close of the year the Company's equipment consisted of:

- 70	passenger engines,
397	freight engines.
35	switching engines,

$249 \\ 21,009$	passenger cars, freight cars.
	maint. of way and cabin cars,
	and

7 harbor barges.

At the close of the year there were in the shops undergoing repairs 45 engines, or 8.96 per cent; 12 passenger cars, or 4.8 per cent, and 516 freight cars, or 2.5 per cent.

### GENERAL REMARKS.

The sum of \$2,500,000 was charged against income and crdited to Betterment Fund for the betterment and improvement of the Company's property.

TUG FORK BRANCH: The construction of this branch, some 10 miles in length, which, when completed, will be one of the most important feeders to your line, was undertaken during the year, and on it will be located the coal and coke operations of the United States Coal & Coke Company. At the close of the year the Branch was nearly completed and the United States Company had large forces at work opening mines and constructing ovens.

IAEGER & SOUTHERN RAILWAY COMPANY.-At the time of the acquisition by your Company of its intere-ts in the Pocahontas Coal Field, it also acquired the control of the property and franchises of the Iaeger & Southern Railway Company and of the South West Virginia Railroad Company, lines projected to penetrate the western portion of the Pocahontas Coal Field, and of which about 6 miles were completed and in operation and some 4 miles additional were graded. The line of railway as now projected forms a junction with your main line at laeger Station, which is beyond the northern boundary of the Pocabontas ( oal Field, follows the waters of the Dry Fork Branch of Tug River and its tributary, Horse Pen Creek, to its source, crosses the Flat Top Mountain, and thence to a connection with your line near the southern limit of the Pocahontas Field, the distance being about 50 miles, the greater portion of which will be through the Pocahontas Coal Field. Upon and tributary to this line are some 27,000 acres of coal land owned by the Berwind-White Coal Mining Company, of Philadelphia, an equal area owned by the Farraday Coal & Coke Company of Pittsburg, and some 32,000 acres of the lands belonging to the Pocahontas Coal & Coke Company, leased to the United States Coal & Coke Company. Surveys and negotiations preparatory to the construction of this important feeder to your line are now in progress.

KENOWA & BIG SANDY RAILROAD AND NAUGATUCK BRANCH: The industrial developments on your line, and especially in the Pocahontas Coal Field, render it essential that increased facilities be provided. To meet the growth of your wester traffic numerous long double passing sidings are being constructed between Vivian and Naugatuck, a distance of 93 mi es, the alignment being improved by re-ducing curvature, and eventually these long sidings will be connected and form a second track. Between Naugatuck and Kenova the distance by your present line is 83 miles, included in which are some 15 miles of grade against the traffic. It stead of building a second track along the present line it has been decided to construct a new single-track line following the waters of the Big Sandy River from Naugatuck to Kenova, the distance by this line being some 60 miles. About 35 miles will be constructed as the Naugatuck Branch of your Company's Ohio Extension and the remainder will be constructed under the charter of the Kenova and Big Sandy Railroad Company. This new line will be used for the heavy west-bound traffic, the lighter east-bound traffic and empty cars using the old line. With this new line completed your Company will have a line from the Pocahontas, Tug River and Thacker Coal Fields to Portsmouth, Ohio, a distance of about 230 miles, without adverse grades. From Portsmouth to Columbus, Ohio, a distance of 100 miles, there will be no grades against the traffic exceeding 26 feet to the mile when the improvements to that portion of the line now in progress are completed. With these improvements and with suitable yard facilities at Ports-mouth, arrangements for which are now in progress, your Company will be in a position to transport its heavy westbound traffic in maximum train loads at a minimum of cost.

RADFORD SOUTHERN RAILROAD & MINING COMPANY.-This railroad, projected to connect with your line at Radford and to extend in a a southerly direction to limestone quarries and ore mines on the New and Little Rivers, has been graded and prepared for the rails for a distance of about 5 miles, and its control has been acquired by your Company.

You are asked to vote upon the acquisition, by purchase, consolidation, or merger, of the railroad property and fran-chises of the laeger & Southern Railway Company, of the South West Virginia Railroad Company, of the Kenova & Big Sandy Railroad ('ompany, and of the Radford Southern Railroad & Mining Company (none of which properties are covered by any existing mortgage except the last-named company, which has outstanding \$56,000 first mortgage bonds, all of which are owned by your Company); and to approve of the terms of such acquisition, as well as to approve of the location and construction of the Naugatuck Branch, as above described.

To provide for the increasing traffic to the East and South, the work of reducing curvature and grades and construct-ing second track has for several years past been in progress, and, at the close of the year, out of a total distance of 145 miles between Vivian and the summit of the Blue Ridge, 90 miles of second track were completed and in operation and 20 miles under contract. When this is completed there will remain a gap of 35 miles on which there are now some 5 miles of long double passing sidings which will in time be used as second track, reducing the length of second track still to be placed under construction to 30 miles. This re-maining portion of the work is on the New River, and owing to rock cliffs, necessitating several tunnels, the work is ex-pensive, but necessary, and should be prosecuted to comple-tion within the next two years. The second track should also be continued eastward from the Blue Ridge.

Substantial progress has been made in replacing wooden bridges and trestles with permanent structures, and when,

within the next six months, the improvements now under way are completed, but little of this class of work, excepting upon your Cincinnati Division, will remain to be done upon the main divisions of your line. Good progress has also been made in straightening the line and reducing grades. Station facilities have been enlarged and improved, and a new and commodious passenger station is under construction at Bri tol and a similar structure at Farmville has been authorized and will be undertaken without delay.

The re-laying of the main divisions of the line with 85pound rail in substitution for rails of lighter weight his been proceeded with, and substantial progress has been made towards the completion of the proper ballasting of the line.

The repair shops at Roanoke have been enlarged and much new and improved michinery installed, and in general the physical condition of your property has not only been fully maintained, but has been materially improved.

The continued improvement of your property has enabled the Transportation Department to maintain its creditable record of operating efficiency. The details of the operation of that Department, as well as of the improvements m de

during the year, are shown in the report of the Vice-President and General Manager appended hereto [in pamphlet]. Mr. Henry Fink, who served as President of the Company

from October. 1896, having expressed a desire to be relieved of the exacting duties of his position, was, on March 5th, elected Chairman of the Board of Directors, Mr. F. J. Kimball at the same time retiring from that position and being elected President to succeed Mr. Fink.

Mr. L. E. Johnson was appointed Vice-President in addition to his po-ition as General Manager.

Messrs. Price Waterhouse & Co. having been re-elected by the stockhollers at the last annual meeting to audit the books and accounts of the Company, their certificate is attached to the balance sheet.

The officers and employes in all departments of the Company's service have faithfully discharged their duties during the year.

By order of the Board,

F. J. KIMBALL, Fresident.

of that Department, as well as of the improvements m de			Fresident.

(See pamphlet report) For details of EquipmentTrust of March 1st, 1902, see page 502.

DESCRIPTION OF FUNDED DEBT OF THE NORFOLK & WESTERN RAILWAY COMPANY AS OF JUNE 30TH, 1902.

GENERAL MORTGAGE OF THE NORFOLK & WESTERN RAILROAD COMPANY 6 per cent bonds, maturing May 1st, 1931. Interest May and November. The General Mortgage bonds are a lien upon the main line between Norfolk and Bristol, 408:38 miles, and the Ci y Point and Saltville Branches, 19:33 miles, in all 427:71 miles; the outstanding bonds represent an issue at the rate of \$17,028 per mile..\$7,283,000 New River Division First MortGAGE of THE NORFOLK & WESTERN RAILROAD COMPANY 6 per cent bonds, maturing April 1st, 1932. Interest April and October. Issue limited to \$2,000,000. A first lien upon the New

River Division from Radford Junction to Kyle. W. Va., 85:22 miles, branches to coal mines, &c., 26:69 miles, the Cripple Creek Extension, 30:40 miles, and branches to ore mines, 23:08 miles, aggregating 165:39 miles; and upon all other branches and extensions hereafter constructed under the privileges derived from the companies consolidated to form the New River Division. The bonds represent a first lien at the rate of \$12,093 per mile....\$2 000,000 IMPROVEMENT AND EXTENSION MORTGAGE OF THE NORFOLK & WESTERN RAILROAD COMPANY 6 p r cent bonds, maturing February 1st, 1934. Interest February and August. SCIOTO VALLEY & NEW ENGLAND RAILROAD CO. FIRST MORT-GAGE 4 per cent gold bonds, maturing November 1st, 1989. Interest May and November. Under supplemental mortgage of July 22d, 1890, the issue is limited to \$5,000,000. The bonds are a first hen upon 128.6 miles of road extending from Columbus, Ohio, to Coal Grove, Ohio...\$5,000,000

\$,500,000 to purch se or pay Car Trust obligations and other charges npon the property, for the creation of a reserve fund for special improvements, and for other necessary purposes.  \$3,690,611 for new construction and acquisitions and for betterments and improvements, such bonds to be issued under carefully guarded restrictions at an average rate not exceeding \$1,-000,000 per annum.

The bonds are a first lien on about 846 miles of railroad, as follows:

1	MUES.
l	Norf 1k Terminal Division
	Cl nch Valley Division
	Lynchburg & Durham Division117.58
	Boauoke & Southern Division

Since the last annual report there has been purchased 500 additional coal cars of 85,000 pounds capacity, 3 one hundredton consolidation locomotives, 2 baggage cars, 2 combined passenger and baggage cars and 2 combined baggage and mail cars. The cost of such additional equipment was \$547,-296 76, and of that amount \$370,000 has been provided by an issue of car trust coupon notes, dated June 1st, bearing 4½ per cent interest, payable semi-annually, the principal to be paid within five years, one-tenth of the amount maturing each half year. None of the coal equipment was received before the close of the fiscal year under consideration, nor do the payments or obligations referred to appear in the Compuny's accounts for that year. The facts are merely

presented with this report for the information of the stockholders, as the cars were ordered some months before the close of the year.

Substantial progress has been made in the work of extending the Ellenville branch to the City of Kingston, through the Rondout Valley. The branch has been operated since the 15th of June to the village of Kerhonkson, seven miles north of Ellenville, and it is anticipated that the work through to Kingston will be completed before the end of the present calendar year. It is proposed to consolidate the Ellenville & Kingston Company with the Port Jervis Monticello & New Yo'k Company as soon as legal formalities can be complied with, and the entire amount of bonds and stock to be issued by the Consolidated Company will then be delivered 10 and will become the property of the New York Ontario & Western Railway Company. It is believed that the additional mileage will ultimately prove to be a valuable contributor to the traffic, besides protecting to some extent the territory tributary to your Company's existing main line and branches. The entire cost of the project will be well within the average cost per mile of similarly situated railway lines, as it has been economically, though substantially, constructed, and solely with a view to the welfare and best interests of your Company.

The valley through which the railway has been built will become an important milk-producing section. Its attractions should also command a large summer travel, and already the several hotels and cottages at Lake Minnewaska have made Kerhonkson the point to and from which its visitors will arrive and depart.

The abandonment of the Delaware & Hudson Canal left a long settled and thickly populated region wholly unprovided with means of transportation, and your Company promptly afforded the facilities demanded, and may now expect to reap whatever benefits are to be derived.

As the volume of traffic over the main line of your Company has increased from year to year during the last decade, the question of providing additional facilities has necessarily received the constant attention of your Board and operating officials. The result of their deliberations has been the adoption of a plan looking to the gradual double-tracking of the main line between Cornwall and Cadosia, which is the junction point with the Scranton Division, a distance of about 107 miles. It is proposed to complete the entire work within the next three or four years. It is estimated that the traffic between Cadosia and Cornwall is about double that of the average of the entire main line, and is greatest where the grades are heaviest and the line most difficult to operate.

With the additional passinger train service required to meet the de bands of your Company's Summer patrons, the problem presented was one that could not well be deferred. The Engineering Department has completed surveys, cross sections and estimates for portions of the work where the density of traffic is greatest, and contracts have been entered into with experienced contractors for the construction of such sections. The balance of the work will be proceed-d with as the resources of the company will allow. The renewal of bridges, strengthening of superstructure, filling trestles, rebuilding or replacing stations, and other additions and improvements, have been continued as is set forth in detail in the report of the General Manager.

Early in May last the coal miners and employes about the breakers and mines in the anthracite regions suspended work, and the various breakers from which your Company derives its anthracite tonnage have been obliged to cease operations, thereby depriving your Company of a large part of its freight traffic and seriously depleting its revenues. The strike in question was not brought about by general discontent lack of work, or reduction of wages, but was, in large measure, the result of agitation on the part of labor leaders, who, for the purpose of retaining power over the rank and file, are periodically obliged to present demands or gain concessions of some sort from the employer. The leaders of the United Mine Workers' Organization, so far as the press and public have been advised, pretended in every way possible to avoid a strike, but their professions, when compared with their proclamations and actions, throw very grave doubts upon the honesty of their pretences and purposes. Their effort to destroy the properties by calling out the engineers, firemen, pump runners and other employes

Marconi Wireless Telegraph Co-su t.-See De Forest Wireless Telegraph Co. above.-V. 75, p. 345.

Michigan Telephone Co.—Listed.—The certificates of deposit issued against the consolidated mortgage five per cent bonds by the Old Colony Trust Co. have been admitted for quotation on the unlisted sheet of the Boston Stock Exchange.—V. 75, p. 293, 188.

National Coal & Iron Co.—Mortgage.—This company has made a first mortgage to the Columbia Finance & Trust Co. of Louisville, as trustee, to secure \$175,000 of 5 p. c bonds, dated May 1, 1902, and due May 1, 1917, but subject to call at par to an amount not exceeding \$15 000 yearly; not less than \$5,000 must be drawn April 15 and paid May 1, 1903, out of profits, and thereafter not less than \$6,000 annually must be called: interest payable semi-annually; denominations \$100, \$500 and \$1,000.

The company owns in fee about 17,000 acres coal and timber lands, mostly in Bell County, Ky., a large plant for mining coal (present output 1,000 tons daily), 200 coke ovens, about 175 miners' houses, commissary, 2½ miles railroat, electric light plant and a large num ber of town lots in Pineville, Ky. The mortgage covers all the lands, improvements, coal plant, coke ovens etc., but does not cover electricligh plant in Pineville, or town lots or stock of goods in commissary. Development of the property began in 1838 and the coal output since is reported as follows: Year 1898 as 13,865 tons, 1899 as 49,749 tons, 1900 as 94,420 tons, 1901 as 146,394 tons, first half of 1902 as 95,512 tons. The Louisville office is the Louisville Trust Co. Building. Theodore Harris is President Maxwell S. Barker, First Vice-President and General Manager, at d Samuel H. Stone, Secretary. The bonds have nearly all been taken in Louisville and

The bonds have nearly all been taken in Louisville, and largely by the stockholders; half of the bonds were taken by one corporation. The capital stock is \$500,000 in \$100 shares; outstanding, \$455,000.

National Steel & Wire Co.—Consolidation.—This company, incorporated under the laws of Maine with \$5,000.000 authorized stock, of which \$2,500,000 is 7 per cent cumulative preferred, is reported to have acquired control of the National Wire Corporation of New Haven. Conn (V. 72. p. 286), the De Kalb Fence Company of De Kalb, Ill., and the Union Fence Company, also of De Kalb, Ill. The New Haven rod mill is now in operation and the other departments are under construction.

National Wire Corporation.—See National Steel & Wire Co. above.—V. 72, p. 286.

Pasadena (Cal.) Consolidated Gas Co.—Change in Control.—Practically the entire \$250,000 capital stock was re cently purchased by local capitalists, who have organized with J. H. Holmes as President; H. H. Markham, Vice President, W. R. Staats, Secretary, F. C. Bolt, Treasurer. The price of gas was to be reduced to \$1.25 per 1,000 on Sept. 1. Peninsular Electric Light & Power Co. of Houghton,

Peninsular Electric Light & Power Co. of Houghton, Mich.—Succes.or. – See Houghton County Electric L gnt Co. on page 457 of last week's CHRONICLE.—V. 70, p. 636. Peninsular (Seet) Sugar Reflatog Co. of Michigan.—

New Stock.— The stockholders of this company, which was incorporated in 1899 to build a beet sugar factory at Caro, Mich, for the manufacture of white granulated sugar ready for consumption, and which in March last increased its capital stick from \$5:0,0 0 to \$750,000, have authorized a further increase in the stock from \$750,000 to \$1,000,000, for the purpose of enlarging the plant. At last accounts Gilbert W. Lee was President and Cyrus E. Lathrop, Secretary. Office, Detroit. Mich. There were rumors current early in the year that Charles B. Warren was negotiating for the control of this company and other Michigan beet sugar properties in the interests of the American Sugar Refining Co.

Quincy Granite Quarries Co.—Reorganization—In view of default in the interest on the \$800,00 ot 5 p. c. bonds, a reorganization plan has been prepared, providing for the organization under the laws of New York of the "Quincy Granite Co.," with \$1,000,000 common stock, \$1,000,000 7 p. c. preferred stock and \$1,000,000 6 p. c. 20-year mortgage bonds. Present bondholders will receive for each \$1,000 bond, \$500 in new bonds, \$250 in new preferred and \$250 in new common, and cash for the interest due Sept. 1, 1902. The shareholders will receive \$100 in new preferred stock in exchange for each four shares of present stock. The Ameri can Loan & Trust Co. of Boston is d positary A voting trust may be established if deemed advisable.—V. 70, p. 587.

Selma (Ala.) Lightlug Co.—Mortgage.—The company has filed a mortgage to the West Ead Trust Co. of Pailadelphia, Pa., to secure \$250,000 of 5 per cent bonds dated July 2, 1902, and due July 1, 1932. Stock authorized, \$250,000. whose duty it is to prevent destruction by flood and fire, has been an object lesson in recklessness and malignity which fully refuted whatever claims these men had previously made for candor and conservatism.

Steadfast resistance to all demands on the part of the operators involve considerations of discipline and safety and the future economical and successful operation of the properties from a financial standpoint, as well as in the public interests.

In contrast with the labor troubles in the anthracite fields, the employes of your Company have uniformly remained loyal and have been, as in the past, faithful and intelligent in the performance of their duties.

By order of the Board,

THOMAS P. FOWLER,

President.

Southern States Portland Cement Co., Atlanta, Ga.— Stock Offered—The National Trust Co. of Louisville is offering at par and interest, with 50 p. c. bonus in common stock, the unsold balance of the \$750,000 cumulative preferred shares. The common stock is \$1,250,000. The mills are at Rockmart, near Atlanta. Cost of plant \$600,000, in addition to 300 acres of land which were paid for in common stock; working capital. No bonded or other debt.

Tennessee Valley Iron & RR.—Sale-This company's property including, it is said, about 7,000 acres of iron lands in Wayne County, Tennessee, is reported to have been sold to a Pittsburg syndicate for \$214,000.

Topeka (Kan.) Water Co.—Interest Payment.—The Atlantic Trust Co. is paying the coupons due March 1, 1902, on the first consolidated mortgage 5s.—V. 74, p. 1256.

Tripler Liquid Air Co.—Reorganization.—About 99 per cent of the company's (\$10,000,000) stock has, we are informed, been d-posited in accordance with the plan prepared by Marlon Butler and St. Charles B. Gwynn (44 Wall St.) for exchange into stock of the new Consolidated Liquid Air Company (total issue, \$1,000,000). The exchange is made on the basis of two \$5 shares of new stock for ten shares representing in the aggregate \$100 par value of the old company. The Commissioner of Patents, it is stated, has decided against the company in its claim involving an important process in the making of liquid air. The case will be appealed. Carl Linde of Munich is contesting Prof. Tripler's claims. The property, which was bought by Messrs. Butler and Gwynn at the judicial sale last December, did not bring enough to cover the large outstanding debts.

Investigation.—District-Attorney Jerome on Aug 18 appewred before Justice Julius M. Mayer of the Court of Special Sessions in this city began an investigation in criminal proceedings against "John Doe," in order to discover what has become of a large snm supposed to have been realized by the sale of the company's stock. One of Mr. Jerome's deputies has been working on the case for a number of weeks.—V. 73, p. 448.

Union Electric Light & Power Co. of St. Louis, Missouri. --Officers.--The officers of this company (its name being here correctly given) are:

President, Julius S. Walsh; Vice-President, Charles W. Wetmore; Treasurer, Breckinridge Jones; Secretary, Harold P.G. Coates; General Manager, Charles H. Ledlie.

New York office, 80 Broad St. - V. 75, p. 345.

United Gas & Electric Co., San Jose, Cal.—See San Jose & Santa Clara RR. under Railroads above.—V. 75, p. 81.

United States Realty & Construction Co. – Deposits. – More than two-thirds of the stock of the George A. Faller Co. and of the N. Y. Realty Corporation having been deposited with the Central Trust Co., the amalgamation plan will shortly be declared operative. The time for deposits has been extended to Sept. 15. – V. 75, p. 398, 294.

Virginia Coal and Coke Co.—*Plan Operative.*—More than \$5,000,000 of the first mortgage bonds having been deposited, the plan of readjustment has been declared operative. Time for deposits has been extended to Sept. 15. On and after that date the Morton Trust Co. will pay to depositors the coupons due March 1, 1901, and March 1, 1902, with interest to Sept. 15. See notice in another column and V. 75, p. 398, 348.

Weaver Coal & Coke Co., Chicago.—Stock Increase.—The Weaver Coal Co. on Ang. 27 filed at Springfield, Iti, a certificate of change of name to the Weaver Coal & Coke Co. and of increase of capital stock from \$1,500,000 to \$3,000,000. In February last the stock was increased from \$500,000 to \$1,500,000. The company owns and operates coal properties in five States. New York Office, 11 Broadway.—V. 75, p. 294.

-Stone & Webster of Boston have compiled a handsome thirty page book, including a number of maps, describing seventeen of the electric-light and electric railway companies in which they are interested and for which they act as managers. This book is prepared for the information of the stockholders and directors of the several companies, who will be furnished also with any additional details which they may require as to the firm's methods of handling these properties.

-Business cards of the principal firms dealing in cotton will be found on pages xiii and xiv of to day's issue.

# THE OHBONICLE.

COMMERCIAL EPITCME.

FRIDAY NIGHT. Sept. 5, 1902. In most lines of trade the condition of business has been reported as satisfactory. Traveling salesmen are now quite generally on the road and the retail trade has been reported stocking up freely in anticipation of an active fall season. An unusually large business has been transacted in refined sugar. The yield from the various fruit crops of the country has been heavy and preparations are being made for extensive canning of these crops, which calls for a large supply of sugar.

Lard on the spot has been held at steady prices, but the volume of business transacted has been small. The buying by exporters has been on a decidedly limited scale and the de mand from refiners has been slow. Packers, however, have shown no disposition to force sales. The close was firmer at 10 80c. for prime Western and 10@10.20c. for prime City. A limited amount of business has been transacted in refined lard at steady prices, closing at 10 90c. for refined for the Continent. Speculation in lard for future delivery has been moderately active. The feature has been buying by shorts of the distant months to cover contracts. Close firmer.

### DAILY CLOSING PRICES OF LARD FUTUREE.

Brazil grades of coffee have been quiet and easier. The trade demand has continued of a listless character and the speculitive buying has ceased. Available supplies have continued large, and there has been a downward drift to values, reflecting weaker European and Brazilian advices. The close was quiet at 5½ c. for Rio No. 7. West India growths have been in fair de nand and firm for the better grades, with good Cucuta at 8¾ @9c. East India growths have been firm. Speculation in the market for contracts has been quiet. Early in the week there was an advance, but under scattered selling and absence of buyers the market turned easier and the improvement was more than lost. The close was quiet. Following are the closing asked prices:

Raw sugars have been in more active demand and firmer, closing at 3 7 16@3½ c. for centrifugal, 96-deg. test, and 3c. for muscovado, 89-deg. test. Refined sugar has had a large sale at firm prices. Pepper has been in active demand and firmer. Teas have been well held.

Kentucky tobacco has been firm and there have been fairly heavy shipments for export. Send leaf tobacco has been in moderately active demand and firm; sales for the week were 2,300 cases at full prices. Foreign tobacco has been quiet but steady.

Business in the market for Straits tin has been quiet and prices have further declined, but the close was steady at 27.20@27.25c. Ingot copper has been firmer on speculative buying induced by more favorable statistical developments, closing at 11.75@11.85c. for Like. Lead has been unchanged and steady at 4.12½c. Spelter has been firm at 5.50c. Pig iron has been firm. Buyers have been supplying their wants by purchases of foreign iron. Refined patroleum has been iron.

Refined potroleum has been unchanged, closing steady at 7.20c. in bols., 8.50c. in cases and 4.65c. in bulk. Naphtha has been u changed at 9.05c. Credit balances have been quiet at \$1.22. Spirits turpentine has advanced slightly, closing steady at  $\frac{17}{2}$ @48c. Rosins have been firm but quiet at \$1.55 for common and good strained. Wool has been in fair demand. Hops firmly held, but business quiet.

## COTTON. FRIDAY NIGHT, September 5, 1903.

THE MOVEMENT OF THE CROP, as indicated by our telegrams 'rom the South to-night, is given below. For the week ending this evening the total receipts have reached 108,769 bales, 'gainst 58,110 bales last week and 24,692 bales the previous week, making the total receipts since the 1st of Sept., 1902, 89,957 bales, against 48,587 bales for the same period of 901, showing + n increase since Sept. 1, 1902, of 41,470 bales.

Speculation in cotton for future delivery has been active: The feature early in the week was the Bureau report. Anticipating an unfavorable report, there was moderate buying largely from nervous shorts to cover contract. The statement issued by the Agricultural Bureau at noon on Wednesday, placing the average condition of the crop at only 64 was a decided surprise to the trade generally, as it was lower by several points than expected; in fact it placed the condition so low that many of the trade were inclined to doubt the accuracy of the report. Nevertheless it had sufficient in fluence to start active buying, partly to cover short contracts and partly by outsiders for investment account, and prices advarced sharply. On Thursday, however, the market turned easier. It was quite generally reported that leading bull interests took advantage of the sharp upturn in prices and sold freely to realize profits. Weather conditions in the cotton belt since the turn of the month have been more favorable, needed rains telng reported, and the  $\epsilon x$ treme hot stell in Texas was reported broken, which, it was believed, also induced some selling. Liverpool and the Continent have continued to make indifferent responses to the advances in the American markets. To day the market opened easier under the in fluence of Liverpool advices, but during the day the leading bull interests supported the market and prices advanced. During the late trading, however, there was renewed selling, based on the more favorable weather reports from the South, and prices declined sharply, closeing easy 4@6 points lower for the day. Cotton on the spot has been firmer, but declined  $\frac{1}{6}c$ , on Friday, closing at 9c, for middling uplands.

The rates on and off middling, as established Nov. 20, 1901, by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows.

Fair	Good Middling Tinged Even
Middling Fair 0.80 on	Strict Good Mid. Tinged.c. 0.20 op
Strict Good Middling 0.50 on	Strict Middling Tinget 0.06 of
Good Middling 0.32 on	Middling Tinged 0.12 of
Strict Low Middling 0.14 off	Strict Low Mid. Tinged 0.34 of
Low Middling 0.38 off	Middling Stained 0.50 of
Strict Good Ordinary 0.72 off	Strict Low Mid. Stained 1.06 of
	Low Middling Stained 1:50 of

On this basis the official prices for a few of the grades for the past week—Aug. 30 to Sept. 5—would be as follows.

FUTURES,-Highest, lowest and closing prices at New York,

THE VISIBLE SUPPLY OF COTTON to-night, as made up by table and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night Sept. 5), we add the item of exports from the United States, including in it the exports of Friday only.

Continental imports past week have been 35.000 bales. The above figures indicate a *decrease* in 1902 of 151,770 oales as compared with same date of 1901, a gain of 342,832 bales over 1900 and a decline of 1,283,584 bales from 1899. AT THE INTERIOR FOWNS the movement—that is the receipte for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1901—is set out in detail below.

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices this evening indicate that the weather has been more favorable at the South during the week. Rain has been quite general and from some points an improvement in the crop is reported. Picking is making excellent progress as a rule, and cotton is being marketed quite freely.

Galveston, Texas.—We have had rain on two days of the week, the rainfall being seventy-eight hundredths of an inch. The thermometer has averaged 82, the highest being 89 and the lowest 75.

Brenham, Texas. -- We have had rain on two days during the week, the rainfall being one inch and twenty five hundredths. The thermometer has averaged 86, ranging from 73 to 99.

Abilene, Texas.—We have had rain on two days during the past week. the precipitation reaching eighty hundredths of an inch The thermometer has ranged from 68 to 100, averaging 84.

Corpus Christi, Texas.—There has been a trace of rain on three days during the week. Average thermometer 84, highest 90, lowest 78.

Cuero, Texas.—We have bad rain on two days of the week, the rainfall being fifty-five hundredths of an inch. The thermometer has averaged 88, the highest being 103 and the lowest 72.

Dallas, Texas.—We have had rain on three days during the week, the precipitation reaching sixty-six hundredths of an inch. The thermometer has averaged 82, ranging from 68 to 103.

*Henrietta, Texas.*—We have had rain on two days of the week, the precipitation reaching thirty-one hundredths of an inch. The thermometer has ranged from 67 to 106, averaging 87.

Huntsville, Texas.—Rain has fallen on one day of the week, the rainfall being one and twenty-nine hundredths of an inch Average thermometer 84, highest 97, lowest 71.

Kerrville, Texas. — Rainfall for the week, seventy-five hundredths of an inch, on one day. The thermometer has averaged 90, the highest being 99 and the lowest 77.

Lampasas, Texas — There has been rain on three days the past we k. the rainfall leaching one inch and seventy seven hundred hs. The thermometer has averaged 86, ranging from 70 to 102.

Longvnew, Texas.—There has been local rain on three days during the week, the precipitation being fifty-me hundred the of an inch. The thermometer has ranged from 66 to 98, averaging 82.

Luting, Texas.—There has been rain on two days during the we-k, the rainfall reaching one inch and eighty-five hundredths. Average thermometer 86, highest 100, lowest 71.

Patestine, Texus — We have had rain on three days during the week, the rainfall being one inch and nice hundredths. The therm meter has averaged 81, the highest being 94 and the lowest 68.

Paris, Texas.—Rain has fallen on two days during the week, the precipitation reaching sixty-five hundredths of an inch. The thermometer has averaged 83, ranging from 62 to 104.

San Antonio, Texas. - We have bad rain on two days during the week, the rainfall reaching eighteen hundredths of an inch The thermometer has ranged from 72 to 100, averaging 86.

Weatherford, Texas-There has been rain on three days during the week, to the extent of one inch. Average thermometer 90, highest 101, lowest 69.

New Orleans, Louisiana.-We have had rain on two days during the week, the rainfall reaching eighty-three hun-dredthe of an inch. The thermometer has averaged 88.

Shreveport, Louisiana. - There has been rain on one day during the week, to the extent of one inch and sixteen hundredths. The thermometer has averaged 83, ranging from 72 to 94.

Leland, Mississippi.-The week's rainfall has been eighty nine hundredths of an inch. Average thermometer 77.4, highest 90, lowest 67.

Meridian, Mississippi .- There have been good rains on three days of the week. Prospects are good for a top crop of cotton.

Vicksburg Mississippi.-It has rained on two days of the week, the rainfall reaching one inch and thirty-five hun dredths. The thermometer has averaged 80, ranging from 62 to 92.

Columbus, Mississippi.-We have had rain on three days during the past week, the rainfall being one inch and fi y The thermometer has ranged from 78 to 95, hundredths. averaging 85.

Little Rock, Arkansas.-We have had rain on one day of the week, the precipitation reaching ninety-seven hundredths of an inch. The thermometer has ranged from 66 to 94, av eraging 78.

Helena, Arkansas,-Cotton has deteriorated during the week. Top crop will be light. There are complaints of rust and blight. The rainfall reached twenty hundredths of an inch, on one day of the week. Heavy rain in the neighborhood. Average thermometer 70, highest 89 and lowest 57.

Memphis, Tennessee. - Cotton picking is gene al and reports on the crop good. We have had rain on three days during the week, the rainfall being forty seven handreiths of an inch. The thermometer has averaged 77.2, the highest being 88 6 and the lowest 64 4.

Mobile, Alobama. - H-avy rains in the interior. Crop re ports are very pe simistic. There has been local rain on five days during the week, the precipitation reaching one inch and thirty-eight hundredths. The thermometer has ranged from 70 to 94, averaging 82.

Montgomery, Alabama .- There has been rain on three days during the week, the rainfall being one inch and twenty seven hundred ha. Average thermometer 81, highest 93. lowest 71. Month's rainfall two inches and fifty-three hundredths.

Selma, Alabama.-There is a decided improvement in the crop on good lands and the plant is blooming and fruit-ing well. We have had rain on three days during the ing well. week, the rainfall reaching one inch and ninety hundre iths The thermometer has averaged 80, the highest being 98 and the lowest 70.

Madison, Florida.-Rain has fallen on two days during the week, the precipitation reaching two inches and twelve hua-The thermometer has averaged 83, ranging from dredths. 72 to 96.

Augusta, Georgia.-We have had rain on one day during the past week, to the extent of one hundred th of an inch. The thermometer has ranged from 63 to 91, averaging 78.

Stateburg, South Carolina.-Conditions are very favorable for cotton picking. It has rained lightly on one day of the week, the rainfall reaching four hundred he of an inch. The thermometer has averaged 77, ranging from 63 to 90.

Charleston, South Carolina .- We have had rain on three days during the week, the rainfail reaching forty-six hnu-dredths of an inch. The thermometer has averaged 79, the highest being 88 and the lowest 71.

Charlotte, North Carolina.-Crop conditions are satisfac-There has been rain on one day during the week, the tory. precipitation reaching ten hundredths of an inch. Average thermometer 75, highest 89, lowest 69.

COTTON PRODUCTION, DISTRIBUTION AND MANUFACTURE.-Our annual Cotton Crop and Spin lers' R-port, which we have prepared so many years, we give to-day in a special SUPPLEMENT, enclosed herewith to each of our subscribers. We hardly need speak of its merits, for they are well known and acknowledged the world over

The Report covers, as usual: (1) Our elaborate compliation of the yield of cotton in the Unised Sta es for the year ending August 31, 1902; (2) an exhaustive history of the cotton-spinning industry of the United States for the same year; (3) a similar review of the production of cotton goods in Enrope; (4) complete and detailed statements for a long series of years of tue consumption of cotton and the producion of cotton goods by the mills of the United States, Great Britain, the Continent, and a briefer notice of the consumpnon and production of every other minor manufacturing State ; (5) elabora's compilations of cotton supply and distribution, besides divers other matters connected with and throwing light upon the yield and uses of the staple, past, present and prospective.

Special interest will be felt in the European section of "the report when we state that the portion of it which relates to spinners' doings in Great Britain and on the Continent has been prepared by our Manchester correspondent. He has given a very clear account of the cou se and results of cotton manufacture during 1901-02 in every important Enropean State, and the prospects for cotton consumption in those countries the coming year. No one is better equipped than ne is for that work ; and we are confident that planters and spinners will find a study of his facts and opinions not only a pleasure but decidedly helpful.

GOVERNMENT WEEKLY COTTON REPORT .- Mr. Jas. Berry, Chief of the Climste and Crop Division of the U.S. Weather Bureau, made public on Tuesday the telegraphic reports on the crop in the Southern States for the week ending September 1 summarizing them as tollows:

But little rain has fallen over much the greater part of the cotton best westward of the Mississippi River during the past mooth, the last three weeks of which have been excessively warm, the week ending september t being producing rainless over the greater part of Louisi-ana, portions of Arkaneas and Ok ahoma, and thr sughout Fexas, with the exception of a few light showers in the north central and north-eastern portions, the result of which, with the ravages of insects, has been a steady deterioration in the condition of cotton during the sec-ond and third decastes. While favorable weather condition of ond and third decates. While tavorable weather conditions in the near future would cause a marked improvement in the condition of cotton in Texas, the reports indicate that under the most favorable circumstances, the yield would be much short of an average crop. The central and eastern districts of the cotton belt, with the exception of p rilons of the Oarolinas, where drought continues, have received abundant rains, but too late to be of unsterial benefit, while consing considerable injury to open oot on. Some slight improvement is re-ported from portions of Fiorida and Georgia and less oremature open-ing from Alabama, but rust and shedding are very general throughout the central and castero districts. (The weather map of this date, Sep-tember 2, shows that good rains feel over a large part of Texas during the twenty four hours and 3.4 V September 2.) the twenty four hours end ng 8 A. M September 2.)

THE AGRICULTURAL DEPARTMENT'S REPORT FOR SEPT. 1.-The Agricultural Department's report on cotton for September 1 (August 26) 1s given below:

The monthly report of the Statistician of the Department of Agrionly re shows the average condition of otton on August 26 to have been 64, as compared with \$1 + on July 25, 71.4 on August 24, 1901, 08.2 on September 1, 1900, and a ten year average of 73 7.

The present in precedentedly for average of ornition, which is two-tenths of a point lower than the condition for September 1, 1896, is due mainly to the reports from Fexas and A abams, in both of which States the prevaiing conditions are nothing less than dis-astrone. The average for Texas is 3 points lower than at the corres-ponding date in 1895 and 1991 and is the lowest ever reported for

#### THE CHRONICLE.

that State In Alabama, also, the crop is the poorest ever known. Georgia reports 9 points below its ten-year average, the condition figures being 1 point below 'he corresponding averages in 1×99 and 1900. The condition in Louisiana is the same as on September 1, 1900, or e points below its ten-year average Mississippi reports 7 points below its ten year average, but its condition is still 8 points above that of the corresponding date in 1900. South Carolina is within 1 point of its ten year average, and North Carolina, Tennessee, and Arka is as are 2 points. 7 points, and one point above their respective ten-year averages. There are general complaints of the premature opening and imperfect development of boils, and from South Carolina – a State who e reports are far from being among the most untavorable – the statement is made on the authority of ginuers that about 14 per cent more seed cotton is required for a 500-pound bale than in an average year. That the reader may have for comparison the condition.

That the reader may have for comparison the condition, according to the Agricultural Department, for S-ptember 1 for a series of years, we give the following, collated from its reports:

States.	1902.	1901.	1900.	1899.	1898.	1897.	1896.	1895.	1894.	1893.	1892.	1891.

Total crop..... 10,701,453 10,425.141 9,439,559 11,235,483

\*"Additions" include all corrections in port receipts and overland made at the close of the season, as well as the excess in Southern consumption, as shown by the actual results. This total is increased or decreased by interior town stocks. In the season just closed there was an increase in interior stocks over the total of Sept. 1, (900, and the same was true of 1898-99 and 1897-98. In 1899-1900 a heavy decrease cocurred. f Deductions.

SHIPPING NEWS.—As shown on a previous page, the exports of cotton from the United States the past week have reached 34,518 cales. The shipments in detail, as made up from mail and telegraphic returns, are as follows. Total bales

# BREADSTUFFS.

FRIDAY, Sept. 5, 1902,

During the latter part of the week, based on a stronger turn to the market for the grain, mills advanced their p ices for soms grades of flour 5c, per barrel. The volume of business transacted has snown no appreciable increase. In a few instances tuyers purchased supplies with slightly more freedom, tut as a rule the trade has been disposed to operate on a handto-mouth basis. City mills have been quiet but steady. Rye flour has had a limited jobbing sale and at steady prices. Coro meal has been in slightly better demand and at firm prices.

Speculation in wheat for future delivery has been moderately active. Business was interrupted to some extent durng the first balt of the week by the observing of holidays, and changes in prices were unimportant. Subsequently, however, there developed a stronger tone to the market, and on Wedne-day prices advanced rather sharply, showing a gain fir the day of  $\frac{7}{8}$   $01\frac{3}{8}$ c. The European cable advices were in the nature of a surprise, reporting higher prices than expected, and this started buying by room traders. Later in the day reports of low temperature in the Northwest had their influence in favor of the market and started buying by shorts to cover contracts. Thursday, after opening at a alight advance, the market turned easter under selling by recent buyers to realize profits. European cable advices were disappointing and weather reports from the spring-wheat belt were of a more favorable character. The spot market has been quiet and prices have not advanced with futures, the premiums narrowing. To-day there was a fairly active and firmer market, following an advance in corn. The spot market was quiet.

Indian corn futures l	have	received	a m	oderate	amon	nt of

speculative attention, and for the week prices show an advance. The np-turn to values came with the second half of the week, and was based largely on a frost scare. The weather map on Wednesday showed a considerable drop in the temperature in the Northwestern States, and fearing its extension into the corn belt, bringing trosts and damaging the corn crop, shorts entered the market as fairly good buyers to cover contracts, and on this demand prices on Wednesday adva ced %@2c. Thursday the reports from the corn telt were of a character to dispel fear of frost, warmer we atter being predicted, and the market turned easier. The "Cincinnati Price Current" says that the corn position is a little more favorable and fine, but a considerable portion is late. The spit market has been quiet. To day frost talk was again revived, and the market turned firmer. The spot market was firmer.

The grading of the new crop now being marketed is reported as poor, and this, coupled with the stronger turn to the market for corn, started buying by shorts to cover contracts, and prices advanced. Locally the spot market has been moderately active at steady prices. To-day the market was active and higher.

GOVERNMENT WEEKLY GRAIN REPORT.—Mr. James Berry, Chief of the Climate and Crop Division of the U. S. Weather Bureau, made public on Tuesday the telegraphic reports on the grain crops in the various States for the week ending Sept. 1 as follows:

Sept. 1 as follows: WEATHER.—The temperature conditions in the northern districts east of the Missouri Valley during the week ending September 1 were more tavorable for maturing crops than in the previous week, but, as in the two weeks immediately preceding, excessively high temperathrees prevailed in the central and west Guif districts, including Okiahoma and Indian Territory. Excessive rains have continued in the lower Missouri and Red River of the North valleys, to the serious detriment of grain in shock and stack, and with temperature slightly below normal in the Missouri Valley, the maturity of crops has not advanced rapidly. Continued absonce of rain has intensified the drought in the West Guif districts, and rain is generally needed in the Ohio Valley and in coast districts. Frost, with ide, in exposed places occurred in the Northern Rocky Mountain region on the moning of August 29. Generally favorable conditions prevailed on the Pacific Coast, although rather cool in the northern districts during the fore part of the week.

the fore part of the week. CORN.—In the States of the Missouri Valley and in portions of the upper Mississippi Valley corn has made fair progress, but has not matured rapidly, owing to low ten peratures and excessive moisture. Dry, warm weather is greatly needed in the Missouri Valley for the maturity of corn, which will require practically a month in lowa and Eastern Nebraska. In Itlinois, Indiana at d Ohio the maturity of corn has been more rapid, but the late crop is in need of rain in portions of Wisconsin, Indiana and Ohio. Early corn is being out in Missouri and Kansas and is being marketed and fed to stock in the last named State

State SPRING WHEAT.—Rains have greatly interfered with threshing of Spring wheat throughout the Dakotas. Minnesota, Iowa and Nebraska, and sprouting in shock is extensively reported. Harvesting is nearly finished on the North Pacific Coast, where threshing is progressing under favorable conditions, with about average yields.

W For other tables usually given here see page 481.

#### THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., Sept. 5, 1902.

The market closes the week with a decidedly stronger tone in the cotton goods division, the improvement noted last week having developed both in the volume of business and in the matter of prices. In a number of instances bids which were regarded last week as fully up to the market, have been turned down where sellers had not the required merchandise on hand, there being a marked indisposition on their part to accept iorward contracts in any staple line. The Fall River market is quoted 1-16c, higher on most makes of cloths, and, although there have been no open advances quoted here, the market is tending upward with recent irregularities eliminated. There has been a good general demand, for quick supplies chi fly, but a considerable increase in purchases for future delivery could have been recorded if sellers had proved less difficult to deal with. A large distribution throughout the country from second hands is to some extent responsible for the course of the market; but the most powerful factor at work just now is the situation in raw cotton. The Government's very low estimate of condition is regarded with suspicion, but it nevertheless suggests possibilities which buyers of cotton goods can hardly afford to disregard.

WOOLEN GOODS.—Buyers have been in smaller attendance th is week than of late and business outside of the finer grades of fancy worsteds has been on a reduced scale. In fancy worsteds the demand has been on a freer scale than last season, and the advances in prices noted last week have been well maintained. In staple woolens and worsteds also the market has ruled firm, and quite a number of lead-

ing lines are practically sold ahead for the spring season. There has been a quiet market reported for overcoatings, and cloakings are unchanged. A fair business is recorded in woolen and worsted dress goods for next spring and nearly all in staple lines. The tone of the market is firm. Flannels and blankets are steady, with a quiet business doing.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending Sept. 2 were 3,668 packages, valued at \$160,967, their destination being to the points specified in the tables below:

NEW YORK TO SEPT. 2		1902.	1901.		
MAN IORA IO DEI 1. 2	Week.	Since Jan. 1	Week.	Bince Jan. 1.	
Great Britain	28	1,448	160	3.507	
Other European.	3	871 88,526	26 8,300	1,001 71,265

Africa	10	6,668	87	6,649	
West Indies	285 8	16,021 1,550	472 38	14,982 1,342	
Central America	180 884	6,131 34,333	30 880	5,168 40,580	
OtherOountries	630	9,861	1,337	6,923	
Total	3,668	195,470	6,885	185,144	

The value of the New York exports since Jan. 1 to date has been \$9.002.182 in 1902, against \$8 156,024 in 1901.

Bids for fair quantities of brown sheetings and drills have been turned down by sellers this week at prices at which recent business was done. The home demand for brown goods generally shows an improvement. Goods in stock are no higher than a week ago, but sellers hold for higher prices on goods to be made. Fine yain sheetings are firmer, with a better demand from converters. In bleached muslins the demand has been good for small quantities and the tone of the market quite steady. Bleached cambrics in fine grades are scarce and very firm. In wide sheetings and made up sheets and pillow cases the demand has been moderate at previous prices. In coarse colored cottons, such as denims, plaids, cheviots, etc., the demand is improving and prices rule very firm. There is no change in kid-finished cambrics. Prints, both staples and fancies, are firm, with a tair demand. Ginghams are well sold in all lines and very firm in price. Print cloths are in good request at the close of the week and generally 1-10c. higher. Regulars unchanged at 3c.

FOREIGN DRY GOODS.—There has been a fair amount of business at brm prices in imported dress goods in woolen and worsted fabrics. Silks are quieter than of late, but firm. Ribbons are firm but quiet. Linens are in better demand at full prices. Burlaps unchanged in price, with buyers more anxious to do business.

Importations and Warehouse Withdrawals of Dry Goods The importations and warehouse withdrawals of dry goods at this port for the week ending Sept. 4, 1902, and since January 1, 1902, and for the corresponding periods of last year are as follows:

# MUNICIPAL BOND SALES IN AUGUST.

The aggregate of municipal bonds marketed during August was small, falling over one half million dollars short of the average for August of the decade preced ing. According to our records \$8,009,256 bonds were placed during August this year, as against \$15,430,390 in August 1901. In July 1902 \$12,961,550 bonds were disposed of; this total is \$400,000 less than the published figures for that month given in the CHRONICLE August 9, the reduction being caused by the fact that \$400,000 bonds of Troy, N. Y., were refused by the parties] to whom they were awarded. Large issues were few. The Cleveland School District on August 29 placed \$600,000 4-per-cent bonds at par with local banks, which will hold them until conditions are such that a fair price can be obtained for the same. Troy, N. Y, on August 29 sold \$578,125 31-per-cent water bonds to Farson, Leach & Co., New York, at 101.336. Essex County, N. J., placed \$300,000 4 per-cent gold court-house bonds on a basis of about 3.387 per cent, the purchasers being John D. Everitt & Co. of New York City.

The number of municipalities emitting bonds and the number of separate issues made during August 1902 were 188 and 249, respectively. This contrasts with 219 and 245 for July 1902 and with 169 and 210 for July 1901.

In the following table we give the prices which were paid for August loans to the amount of \$7,525,142, issued by 151 municipalities. The aggregate of sales for which no price has been reported is \$484,114, and the total bond sales for the month \$8,009,256. In the case of each loan reference is made to the page of the CHRONICLE where a full account of sale is given.

New York City.-Increase in Basis of Taxation.-Tax Commissioner Rufus L. Scott announced on August 26 that the Board of Tax Commissioners had decided to enforce hereafter the law fixing the assessment of real estate at its full value. Under present methods it is claimed that real estate is assessed at only about 54% (Comptroller Grout's esti-mate) to 67% (opinion of ex Judge Earl), and it is hoped that the increase in values will reduce the tax rate to about \$15 per thousand.

### Bond Proposals and Negotiations this week have been as follows :

Acquackanonk (N. J.) School District.-Bond Sale.-Oo Augu-t 18 \$2,500 5% 5-9 year (serial) school bonds were awarded to E. A. Powers of New York City at 101.
