REVIEW OF JANUARY.

Rather quiet conditions developed in financial circles during January. On the Stock Exchange the year opened with the stock market buoyant and with the volume of transactions large. Very soon, however, business dwindled. Later, prices began to sag, with occasional periods of weakness. Altogether it became evident that it would not be possible to maintain a sustained speculation for a rise at this time.

The money market showed ease, and as far as the monetary situation is a factor in speculation this ought to have been a favorable feature. On the other hand the attitude displayed in and out of Congress towards corporations and corporate interests, the agitation against "trusts" and the various bills under discussion in Congress for anti-trust legislation, naturally occasioned somewhat of a feeling of disquietude, exciting fears of some move that might retard the country's industrial development. The attitude of labor, too, has been viewed with much concern. All the indications encourage the idea that the wage-earners will follow up the advantages already gained by making new claims, either for shorter hours or further increases in wages, or both, or for other concessions—all of which would add to the cost of manufacturing and producing goods. In the railroad world the higher cost of materials and supplies and the effects of the recent increases in wages are also being closely watched. As far as the gross earnings of our transportation lines are concerned, steady increases are still the rule, but the important point of course is how far these additions to the receipts are going to be offset by augmented expenses. It may even happen that the latter will overbalance the gains in receipts. Added to all this, Venezuelan matters at times presented phases suggestive of possible new complications. More particularly was this the case when the news came of the shelling of Fort San Carlos by the German warships and again when the allied powers—Great Britain, Germany and Italy—insisted on preferential treatment of their claims against Venezuela over those of other countries. Until definite light on these points can be obtained, the outlook for the future obviously cannot be regarded as wholly clear.

In the anthracite coal situation there were two important developments during the month. The first was the action of the independent operators in insisting that they must be allowed to sell coal for what they could get, instead of accepting the \$5 a ton

which the companies were charging. The contracts between the companies and the operators had been loosely drawn, so the companies were forced to accede to this demand. The independent operators then held their coal for high figures, asking \$10 and \$12 a ton. Gradually, however, they were obliged to reduce their prices. Retail dealers were not inclined to purchase much coal at extreme figures, and as a result much of the coal of the independent operators remained in cars on which demurrage charges had to be paid. To add to the discomfiture of the operators, the coal companies raised these demurrage charges from \$1 00 to \$2 00 a day per car. The effect was that towards the close of January the independent operators generally were accepting \$6 a ton for their coal. The other development of the month was the action of Congress in repealing the duty on coal. Anthracite has been permanently placed on the free list, while in the case of bituminous coal the duty is remitted for a year.

In the railroad world there were many events of importance. The Pennsylvania Railroad announced that at the annual meeting in March shareholders would be asked to authorize a large increase in the stock and debt of the company. Then, also, the Pennsylvania Railroad negotiated a \$35,000,000 loan at 4½ per cent for six months, with the privilege of renewal for another six months. It was stated that this loan is entirely for the purpose of providing temporarily for the new construction work necessary east and west of Pittsburg, with the view to relieving the freight congestion on the lines of the system. With the same purpose in mind the company the latter part of the month also announced that its 20-hour trains between Chicago and New York would be discontinued for the time being. It was intimated, too, that other passenger trains might be taken off. The removal of these trains it was felt would enable the company to facilitate very greatly the movement of freight. Another event of the month was the turning over to the Vanderbilt interests of a portion of the holdings of the Reading Company previously acquired by the Pennsylvania Railroad through the Baltimore & Ohio. The Lake Shore & Michigan Southern was the company selected to take over these holdings for the Vanderbilts. To finance the transaction the Lake Shore negotiated a \$25,000,000 loan at 5 per cent.

In the money market great ease resulted, as usually happens during January. Call loans at the close were made in some instances as low as 2½ to 3 per cent. The money holdings of the Clearing House banks rose from \$228,472,600 on January 3 to \$260,825,500 January 31, and surplus reserves increased from \$10,193,850 to \$27,880,775. In the time money branch of the market the fact that the Pennsylvania had been able to borrow at 4½ per cent induced other borrowers to insist that upon equal collateral they should be entitled to like favorable terms.

Good 4 to 6 months...	6½	5¾	5¾	5¾	5-5½

The course of the stock market has already been outlined above. There was much speculative activity at the beginning of the month, but extreme dulness at the close, with prices inclined to sag. The undertone, however, remained firm, and there were sharp upward movements in special stocks. Erie was one of the strong features on rumors of buying for control and suggestions that now that an abiding place had been found for Reading, Erie might be similarly disposed of. St. Louis & San Francisco also moved sharply upward. Delaware & Hudson towards the end of the month likewise displayed marked strength and there were various other special properties, like General Electric, that were distinguished for large advances. Pennsylvania Railroad stock was adversely affected by the announcements of contemplated new issues. Amalgamated Copper was strong among the industrial issues, but no well-defined reasons for this appeared. Some of the iron and steel shares also made substantial advances. In this case the large earnings shown by such companies as the Pressed Steel Car Co. (which increased its common stock dividend from a basis of 4 per cent per annum to 5 per cent) were the moving cause.

It has been feared that with the return of ease in money, there would be an immediate resumption of gold exports. But while exchange rates did advance, the rise was not sufficient to bring rates up to the gold-export point. The latter part of the month a plentiful supply of bankers' bills was in evidence, supposed to be in connection with the Pennsylvania Railroad's 35-million-dollar loan, part of which it is understood was placed abroad.

GENERAL QUOTATIONS

—OF—

BONDS AND STOCKS.

1. In the following twenty-eight pages of tables quotations are given for all securities listed on any Stock Exchange in the United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices.

2. Quotations from all Stock Exchanges are as near as possible for the last day of January. Of course the coupon if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

3. Bond prices marked thus (\$) indicate that the purchaser must pay accrued interest in addition to the price given. The method of quoting on the New York Stock Exchange is to quote the prices flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.

4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.; "M." for mortgage; "g." for gold; "g'd." for guaranteed; "end.," for endorsed; "cons.," for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant; "op.," for optional.

7. The black-faced type in the letters showing the interest periods indicates in each case the month when the bonds mature.

8. We no longer affix a mark to prices quoted flat, but only to those which require payment of accrued interest in addition to the price. Designating mark in this instance is (\$).

† Sale price. † This price is per share, not per cent.

x Ex-dividend.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (*).

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

BANKS AND TRUST COMPANIES.

Quotations for the stocks of banks and trust companies are given per share, not per cent, with the exception of New York City, Brooklyn and Canadian bank stocks.

Prices marked thus (*) indicate sales. The dagger (†) prefixed to a price indicates that the figures show the book value.

Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.
