THE FINANCIAL SITUATION.

What are the arguments that are being advanced in support of the suggestion of possible disturbance of the money market in making payment by the Government of the 50 million dollars required on account of the Panama Canal purchase? According to the Treasury statement of yesterday, the United States Government had an available cash balance on the 12th of March of \$223,093,191 over and above the 150 million dollars gold reserve. This balance consisted of \$150,232,318 of deposits in national bank depositaries and \$72,860,873 of money holdings in Sub-The claim is made that if 50 millions be treasuries. taken out of this latter sum it would leave only \$22,860,. 873 of actual cash held in Treasury vaults. Precedent, we are told, requires that the surplus balance should be not less than 50 million dollars; hence Government deposits in the depositary banks must be drawn down, it is urged, about 28 million dollars in order to leave the Treasury in possession of the required 50 millions after the Panama purchase has been provided for. As to the amount of force to be given to this argument, it should be observed in the first place that the balance of \$72,860,873 (out of which the 50 million dollars canal payment is to come, leaving surplus cash of only \$22,860,873 in the Treasury) by no means represents the whole of the money holdings in Subtreasuries. As a matter of fact the Treasury actually holds \$161,526,980 of cash in Sub-treasuries in addition to the 150 million dollars gold reserve.

The \$72,860,873 is the amount remaining after providing for current liabilities of every description, aggregating \$88,666,107. In other words, the Treasury has the \$72,860,873 free and clear of liabilities of every kind. Hence, if the Panama Canal payment were made at this time, there would remain \$22,860,873 after full provision for all current liabilities. We have no more knowledge than the ordinary reader as to whether Secretary Shaw thinks that precedent requires that this latter amount should be raised to 50 million dollars. The country knows, however, from the action of the Secretary last fall, that Mr. Shaw will not hesitate to disregard precedent if conditions require such a course. But wholly apart from this, may we not suppose that if the Secretary thinks that the deposits in the national banks ought to be reduced he will make the act of withdrawal as nearly as possible coincident with the payment, so that the operation would be little more than a transfer of funds from one hand to another. The whole 50 millions might be taken out of deposits in banks in this way without causing a ripple in affairs.

To the extent that the 50 million dollar payment is not taken from Treasury funds already in the banks, the effect of course will be to add just so much to the money holdings of the institutions. This is on the supposition that there will be no gold ex. ports. The money to be paid for the canal will go, it may be assumed, almost entirely to parties outside the country. In this respect it is like the 20 million dollar payment made to Spain in May 1899, which was unattended during that month by a gold outflow, leaving bank money holdings increased as the result of the operation. The course of foreign exchange will, hence, enter into the matter. Rates of sterling recently have not been suggestive of early shipments of the metal. It is perhaps well to recall that on the occasion of the payment to Spain there had been fears out of the enormous trade balance in its favor whic

that gold would have to be exported, but when the payment was actually made it was found that the necessary supply of bills had been accumulated in advance. That transaction was arranged with great cleverness by both the Treasury Department and the banks. A description of the methods employed in settling the large debit balances of the Assistant Treasurer at the New York Clearing House on that occasion was given in the CHRONICLE of May 13 1899 in our column of Bank Items on page 909, and makes interesting reading at this juncture. We find it difficult to believe that less skill will be displayed in financing the coming 50 million dollar payment.

Of one thing there can be no doubt, the ultimate effect of the payment (when the operation has been completed, we mean,) cannot be otherwise than a relief to the money pressure. Even supposing that the whole of the 50 millions should be taken out of the deposits in the banks, the situation would even then be better than before, for in that case there would be (supposing there are to be no gold exports) a transfer of the ownership of 50 million dollars from the Treasury to the banks. That is, the Government would no longer have a hold on these 50 million dollars, which after the transfer would represent merely ordinary deposits in the banks. Furthermore, the operation will reduce the Treasury surplus by 50 million dollars, no matter how payment be made, which is a desirable thing in itself. Moreover, should Government deposits in the banks be reduced by a transfer of the ownship of such funds from the Gov. ernment to the banks, a corresponding amount of bonds now held as security for such deposits would necessarily be released. With these bonds released there would be just that much more bonds available for new deposits in the autumn, should Treasury re ceipts continue in excess of Treasury disbursement from now on and new accumulations in the Treasury take place.

A writer in the London "Times" seems to think that what we call a period of great progress here ha been an "economic debauch." He says also that the "mysteriously large" reductions effected in the las quarter of 1902 in the deposits of our banks have been the result not of real liquidation, but of transfers of indebtedness to European capitalists who were ready for a handsome consideration to take over for a tim "these attempts to put off the evil day when the United States business world will have to own that it has bitten off more than it can chew." It would be hard to define the term "economic de bauch," but it is evidently meant to indicate that thi country has been going through a period of specula tive excesses; that the development which the Unite States has enjoyed the last few years does not rest of any real or substantial foundations. This view em bodies such a serious misconception-involving failure to recognize that our great progress has bee. due mainly to the growth of legitimate trade and ha had comparatively little of the speculative element i it-that it seems worth while to give it some cor sideration.

Look around and see what has been accomplishe in this country during the last few years. Note, i the first place, that during this period the Unite States has taken back hundreds of millions of for eign owned American securities and paid for the

has been accumulating year by year. This in itself is no mean achievement, not at all suggestive of "ecopomic debauch." Turn in another direction and note the wonderful progress of our transportation industry. On that point we would direct particular attention to the review of railroad gross earnings for the calendar year 1902, which we published in the issue of the CHEONICLE of last Saturday. The final statement in that article covered 181,928 miles of road, with aggregate gross earnings for the calendar year 1902 reach ing the prodigious sum of \$1,705,497,253, which was \$100,863,714 more than the gross earnings for the same roads in the previous calendar year-an improvement, too, made in the face of a heavily curtailed grain tonnage as a result of the previous season's crop shortage and also in face of the great anthracite coal miners' strike lasting from May 12 to October 23. But the most interesting and most significant fact brought out by our compilations was the cumulative nature of the growth in earnings which ad been going on, year by year, since the overthrow n 1896 of the political party committed to the silver la reresy. We reported the increase in gross earnings in 1902 for the whole railroad system of the United States 1,t 105 million dollars, and found that this had followed ¹⁸.55 millions increase in 1901 over 1900, 120 millions inrease in 1900 over 1899, 140 million dollars increase ¹⁸ n 1899 over 1898, and so on back to 1896. We can lo no better here than reproduce the little table on Is his point which we gave last week.

Increase in-	Gross,	Net.
⁰¹ 902 over 1901	\$105,000,0 0	\$2,000,000
ld 901 over 1900		70,000,000
ed 900 over 1899	120,000,000	32,000,000
ble 399 over 1898	140,000,000	55,000,000
808 over 1897	90,000,000	30,000,000
^{re} 397 over 1896	75,000,000	45,000,000
		\$234,000,000
1902 over 1896		\$254,000,000

From the foregoing it will be seen that gross earnngs of United States railroads for the calendar year 1896 imin roved no less than 685 million dollars, and that even with the net earnings the improvement for the six years as reached 234 million dollars. Is there not pretty lid evidence of real growth and development in the end out that the revenues collected by our railroads in read 902 for the transportation of passengers and freight at receded by nearly 700 million dollars the correspondrule g collections six years before ?

But we need not confine ourselves to the railroad dastry alone for evidence of progress of this kind. and we turn to the iron and steel trades, or to the coal hast ade, the story is much the same. The expansion in mean ilroad gross revenues during the last six years must Unly we been in the neighborhood of 70 per cent. In the rest is se of our pig iron production the increase has been inter 102, according to the figures of Mr. James M. Swank, hast as 17,821,307 tons, while in 1896 the corresponding add trut was only 8,623,127 tons. Our steel production ement is grown in the same way. Our output of coal in me of 02 was probably 275 million tons, notwithstanding e coal strike, where in 1896 the production was multiple 1,416,390 tons.

Note And the most important fact of all is that large south ough our production in nearly all lines of trade has not the consumptive demand has run far in excess for the this production. In the case of iron and steel the not the production had to be supplemented by large

imports from both England and Germany. The London Times thinks it is a sign of weakness, evidencing "economic debauch," and an indication that we have "bitten off more than we can chew," that this country should have been obliged to borrow money abroad. But with legitimate business expanding in such a marvelous way, is there anything suggestive of recklessness in our having recourse at times to the European money markets as well as our own?

The question of course is an open one whether our pace has been too fast. Some speculation has necessarily attended the country's enormous growth. The rise in the market value of railroad securities has been very marked, indeed, and it looked at one time as if danger from that direction was likely; but fortunately the upward movement was checked some months since. If values still look high as compared with 1896, let it not be forgotten that an increase of 685 million dollars in the gross earnings and of 234 million dollars in the net earnings of our railroads in the interval since then furnishes a pretty substantial basis for a considerable appreciation in values. We do not of course deceive ourselves into thinking that the present rate of growth can continue indefinitely; at some time in the future there will come a check, with a possible reaction of larger or smaller dimensions. Still it should be remembered that on the point how far it will be safe to go in the extension

of trade, there is really no guide in past experience. By this we mean that there are no standards of measurement that can be applied on this occasion. From the close of the Civil War in 1865 up to 1896 the country's progress was almost continuously held in check by circumstances affecting our standard of values. From 1865 to the panic of 1873 paper currancy inflation was the trouble. The country had not yet recovered from the effects of this inflation, when the Silver Law of 1878 injected a new disturbing element in the situation which from that time up to 1896 was all the while bringing setbacks and periods of depression. The country did not enter upon an undisputed basis of a gold-standard currency until the enactment of the law of 1900. We have always urged in these columns that when doubt as to the standard of values was finally removed the country would experience an era of progress and development far surpassing anything attained in the past, and the experience of the past few years has farnished abundant verification of the fact.

The change in this particular must also, we should judge, alter the character and extent of the reaction after the crest of the present wave of prosperity shall have been reached. Let no one imagine that in such reaction the country is going back to the low condition of things prevailing in 1896. Bat there is a further element of safety in the situation. Both our railroads and our leading manufacturing corporations have through the present period of prosperity been conducting operations with a view to such reaction. The Pennsylvania Railroad we showed last week had spent out of surplus earnings \$12,262,491 for dividends in the calendar year 1902 and \$12,500,000 for improvements, the latter being a larger sum than the former, as will be seen. And the Pennsylvania is only one railroad among many, all of which have been pursuing the same policy. So our large industrial

are spending enormous amounts of money, partly out of earnings and partly from new capital, to extend and perfect their plants, with the view to reducing the cost of production. Should it therefore happen later on that the home demand for our products should fall off, the United States will be prepared to enter the foreign markets, and then England, and Germany as well, will discover, we think, that this country has not been very much on an "economic debauch" after all.

Iron production in the United States should soon be large enough to completely supply the home demand, making further reliance upon the foreign markets unnecessary. The "Iron Age" has published its usual monthly statistics the present week, which make this fact quite patent. The output of iron for February is found to have been only slightly less than for January, notwithstanding that February contained only 28 days, as against 31 days in January; 1,420,773 tons are reported to have been produced in February, as against 1,507,136 tons in January. Moreover, though the statement of furnaces in blast for the first of February had shown a marked falling off as compared with the first of January, the report now furnished for the first of March indicates that since then more than the whole of the falling off has been recovered. As a consequence the gross capacity of the furnaces in blast March 1 1903 established a new high record. In other words, production is now given as 355,330 tons per week, as against 343,111 tons February 1 1903 and 353,800 tons January 1 1903. The latter was the previous high record, and the present figures show an increase of 1,533 tons per week over the same. Another fact which seems to indicate that the domestic output will soon be fully equal to the home demand is the gradual, even though slow, increase in the total of furnace stocks, sold and unsold. The stocks are even now very small, being less than half a week's production, but nevertheless there addition during February of 39,712 was an The "Age" says that many producers retons. port that their accumulation of iron during February was due to inability to secure an adequate car supply for shipment. This explanation should of course be given proper consideration. Still it is a fact that stocks have been gradually rising month by month ever since the first of last November. At that date the amount was given as 71,858 tons. On December 1 there was an increase to 94,295 tons, on January 1 to 99,895 tons, on February 1 to 119,641 tons and on March 1 to 159,353 tons.

The shareholders of the Pennsylvania Railroad Company this week approved the proposition of the managers and authorized an increase in the stock of the company from 250 million dollars to 400 million dollars. They also gave authority to issue 50 million dollars of new convertible bonds, the stock which it will be necessary to reserve for converting purposes constituting part of the 150 million dollar increase. Considering that only a few years back the outstanding stock of the Pennsylvania Railroad was but little more than 100 million dollars, the proposed increase may seem extraordinary, even though there is no present intention of putting out the whole amount of the new stock authorized. We showed, however, in the article we gave last week reviewing the company's report that the traffic and revenues of the sys-1 \$2,237,100. The loans were last week decreased

tem have increased in such a prodigious way as to make large further capital outlays absolutely necessary; Vice-President Green in his remarks at the meeting this week gave further emphasis to the same point. In the four years from 1898 to 1902 the freight movement of all lines owned and controlled and operated by the company increased from 16,329 million tons one mile to 23,827 million tons one mile, and the number of passengers carried one mile increased from 1,642 millions to 2,667 millions. Gross earnings, which in 1898 were only \$136,130,271, for 1902 had reached \$219,849,864. Large though this latter total is, it does not represent the aggregate amount of revenues of all the roads controlled by the company. The Baltimore & Ohio and the Norfolk & Western may fairly be said to be "controlled" by the Pennsylvania Railroad, but being separately operated they do not form part of the total. A considerable portion of the Pennsylvania's recent increase in capital and indebtedness is due to the cost of the acquisition of these roads. The Pennsylvania also has a joint interest with the Vanderbilts in the Chesapeake & Ohio Railway and in the Reading Company. Adding on only the earnings of the Baltimore & Ohio and the Norfolk & Western, we get the following.

0	ALENDAR YEA	R 1902.	
CALERON AVE DAD	Gross Earnings.	Expenses.	Net Earnings.
Pennsylvania	\$219,849,864	\$152,220,271	\$67,629,593
Baltimore & Ohio	64,384,028	40,968,185	23,415,843
Norfolk & Western	18,918,718	11,182,717	7,736,001
Total	\$303,152,610	\$204,371,173	\$98,781,437

In this way-without including either the Chesapeake & Ohio or the Reading Company-the aggregate of gross earnings, it will be seen, on the properties owned and controlled by the Pennsylvania, is raised to over three hundred million dollars and the net earnings to nearly 100 million dollars-the precise amounts being \$303,152,610 and \$98,781,437, respectively. The matter is of importance only as showing that if the new capital expenditures planned are on a seemingly enormous scale, everything else connected with this great corporation is on a similar scale.

There was no change in official rates of discount by any of the European banks last week and unofficial, or open market, rates at the chief centres were firm, and the rate at London was very close to the Bank minimum. The Bank of Bombay reduced its rate from 8 per cent to 7 per cent. One incident of the week was a decline in British consols for money on Tuesday to 90 15-16, the lowest on record; there was a prompt recovery, however.

The striking feature of the statement of the New York Associated Banks last week was the reduction in the surplus reserve of cash against net deposits, including those of the Government, to the unusually low sum for the season of \$666,975, a loss since February 14 of \$14,862,700. It may be noted that the decrease in cash shown by the statement in this interval was \$18,780,300, the reduction in loans as compared with February 21 was \$10,651,400 and the decrease in deposits in the fortnight was \$26,579,600. Another feature of last week's statement was an excess of \$2,953,600 loans over deposits for the second time this year, the first being in the week ending January 3, when the loans exceeded the deposits by

\$10,563,000; specie fell off \$8,041,800 and legal tenders \$2,134,800, making a reduction of \$10,176,600 in the total cash reserve. Deposits decreased \$19,566,-700 and the required reserve was consequently lessened \$4,891,675. This amount deducted from the total loss of cash left \$5,284,925 as the decrease in surplus reserve, which item, calculated upon the basis of all net deposits, was, as above stated, \$666,-975. Computed upon the basis of net deposits, less \$40,212,600 of public funds, the surplus reserve was \$10,720,125. The loss of cash last week was wholly due to absorptions of money by the Sub-Treasury from the banks, the interior movement of currency showing a small gain. The indications this week have been that these absorptions by the Sub-Treasury would be nearly as great as in the previous week. Furthermore, the interior movement has not relieved the situation to any large extent. Transfers of cur. rency to New Orleans on Tuesday were \$100,000 and on Thursday \$200,000. This total of \$300,000 was understood to represent loans upon cotton made by local banks. There was an importation on Monday of \$248,000 French Napoleons and Spanish Alphonsos from France in transit to Cuba.

Influenced by the extremely low surplus reserve of the banks, as shown by last week's statement, and by calling of loans by many of the institutions, money was active and higher early in the week, but subsequently liberal offerings by foreign bankers and supplies of funds from near-by domestic sources caused a slight recession in rates. Money on call, representing bankers' balances, loaned at the Stock Exchange during the week at 8 per cent and at 21 per cent, averaging about 52 per cent. On Monday loans were at 7 per cent, and at 6 per cent until the last hour of business, when $2\frac{1}{2}$ per cent was recorded, but the bulk of the day's loans was at 6 per cent. On Tuesday transactions were at 6 per cent and at 3 per cent-the latter after the requirements of the day had been satisfied-with the majority at 6 per cent. On Wednesday loans were at 6 per cent and at 4 per cent, with the bulk of the business at $5\frac{1}{2}$ per cent, and the tone was easier. On Thursday transactions were at 6 per cent and at 5 per cent, with the majority at 5% per cent. On Friday loans were at 8 per cent and at 6 per cent with the bulk of the business at 6 per cent. The higher rates then were due to calling of loans preparatory to the payment of the \$20,000,000 Standard Oil dividend on Monday. Banks and trust companies loaned at 51 per cent as the minimum. Very little money was placed on time during the week by the local banks and not much by other city institutions, but there were moderately large offerings of domestic money by near-by interior banks, and considerable sums by foreign bankers, whose negotiations were conducted chiefly through the medium of loan bills, though some foreign money was directly placed by the correspondents here of bankers in Berlin. The principal business was done at 6 per cent for 60 to 90 days, the demand being most urgent for these periods. Some domestic money was loaned at 52 per cent for short dates, and a few choice contracts were placed at 51@51 per cent for four to 6 months; good mixed Stock Exchange collateral was required on all loans. No business was reported in commercial paper, the local institutions being entirely out of the market, and mercantile borrowers desiring accommodation applied to their banks for discounts.

The Bank of England minimum rate of discount remains unchanged at 4 per cent. The cable reports discounts of sixty to ninety day bank bills in London at $3\frac{2}{4}$ (3 $\frac{3}{5}$ per cent. The open market rate at Paris is $2\frac{1}{3}$ (3) per cent, and at Berlin and Frankfort it is $2\frac{2}{4}$ $2\frac{3}{5}$ per cent. According to our special cable from London the Bank of England gained £180,008 bullion during the week and held £35,741,425 at the close of the week. Our correspondent further advises us that the gain was due to imports of £343,000 (of which £45,000 from Germany and £298,000 bought in the open market), to shipments of £103,000 net to the interior of Great Britain and to exports of £60,000 (of which £30,000 to South America and £30,000 to Bermuda).

The foreign exchange market was weak until Tuesday, influenced by liberal offerings of loan bills induced by the firm rates for money on time in this market. Then followed a partial recovery, which was chiefly noticeable in short sterling, and on Wednesday there was an advance all around, due to re-buying of bills and also to a lighter supply of loan drafts. On Thursday there was a further rise, but in the afternoon the demand subsided and rates fell off slightly in consequence. The decline in quotations during the early part of the week was greatest in long and short sterling, the former falling 50 points on Monday compared with the rates ruling on Friday of last week; there was a recovery of 25 points after Wednesday. Short fell 60 points on Monday, reacting 25 points by Tuesday and 35 points on Wednesday, declining 10 points on the following day and recovering the loss on Friday. Bankers report very moderate offerings of commercial bills, with scarcely any against cotton and grain. The reason assigned for the small supply of this class of exchange is that the bills are absorbed by dealers in large Western cities and they are forwarded direct from those points to London. The Assay Office paid \$1,126,639 95 for domestic bullion. Receipts of gold at the Castom House \$264,877.

Nominal quotations for exchange fell on Monday to 4 831 @4 841 for sixty-day and to 4 87@4 871 for sight. On Wednesday there was a recovery in the lower rates and quotations thereafter were 4 84@4 841 for sixty-day and 4 871 for sight. The market was weak for long sterling on Saturday at a decline of 10 points, compared with Friday, to 4 8340@4 8365; short and cables were unchanged. On Monday long fell 40 points to 4 83@4 8325, short 60 points to 4 8615@4 8640 and cables 50 points to 4 8675@4 8690. and the whole market was weak. On Tuesday long was unchanged, but short and cables were firmer, the former advancing 25 points to 4 8640@4 8650 and the latter 15 points to 4 8690@4 87. On Wednesday there was an improvement in long of 25 points to 4 8325@ 4 8335, in short of 35 points to 4 8675@4 8685 and in cables of 35 points to 4 8725@4 8735; the market was then partially affected by the easier rates for money, but chiefly by covering of short contracts. On Thursday long sterling and cables were unchanged and until the afternoon short was steady; then, however, these bills fell off 10 points to 4 8665@4 8675, owing to the absence of demand. The tone was steady on Friday and while long and caples were unchanged, short advanced 10 points to 4 8675@4 8685.

THE PANAMA CANAL PAYMENT.

It is by no means surprising, the condition of the money market being what it is, that a good deal of interest should converge on the coming payment for the Panama Canal. As most people are aware, the amount of money to be paid by the United States Government in this purchase foots up fifty million dollars, of which forty millions go by contract to the present owners of the canal, chiefly resident at Paris, and ten millions to the Government of Colombia in purchase of land and right of way.

It is not yet certain when these payments will be made. The treaty must first be ratified by our Senate, and Senator Morgan has managed thus far, under the pretence of "senatorial courtesy," to prevent a vote. On Thursday, however, the obstructive movement apparently broke down, and it was agreed that a vote should be reached next Tuesday. The truth is, action could now be stopped only by some one talking perpetually, and since Mr. Morgan is deserted by Senators who, in the recent session, helped him to block the bill because of their interest in "Statehood" and other measures of the session, he was thrown altogether on his own obstructive powers. appropriated in Sections 1 and 2 of this Act." Sections

An extra session of the Senate, with the House adjourned, can in any case do nothing with the other measures referred to; the sponsors for those bills have consequently lost interest, and there are physical limits to Mr. Morgan's powers of public speech. When the bill reaches a vote, there is no doubt whatever of its passage.

It still remains to obtain the ratification of Colombla's Legislature; but that, too, appears to be assured beforehand, and may occur at any moment. It may, therefore, be said that the payment of this sum of \$50,000,000 is near enough at hand to be reckoned on as a factor in the market. Furthermore, this payment must be made from funds now in the Treasury's possession, in the form either of cash or of bank deposits. On this point there have been some misconceptions which may as well be corrected. An impression has somehow got abroad that the purchase money may be raised by issue of Government bonds. We do not know that such a recourse would very much alter the money market's problem; but as a matter of fact, the expedient is not possible.

The law providing for the purchase was enacted last June. It contains the following provisions: Sec. tion 1 authorizes the President "to acquire for the United States, at a cost not exceeding \$40,000,000, all the rights, privileges, franchises, concessions, grants of land, right of way, unfinished work, plants and other property owned by the new Panama Canal Company of France," including all maps and drawings, and all capital stock of the Panama Railroad Company owned or controlled by the canal interests. Section 2 authorizes the President "to acquire from the Republic of Colombia exclusive and perpetual control" of the six mile-wide strip required, from the Caribbean to the Pacific, with the "right to use and dispose of the waters thereon," to "excavate, construct and perpetually to maintain, operate and protect thereon" the canal as specified; also to acquire "jurisdiction over the strip and the ports at the ends thereof, to make the necessary police and sanitary rules and regulations, and to establish judicial tribunals to enforce the same." The treaty with Colombia, subsequently signed, pledges us to pay \$10,000,000 for these privileges.

In these two sections are contained all the provisions for the purchase of the Panama Canal and its right of way, except as to the means of raising the \$50,000,000 requisite for payment. That is set forth in Section 3 of the Isthmian Canal Act, which appropriates from the general public revenues \$40,000,000 to pay for the property and "a sufficient amount to pay Colombia for the territory acquired from that country for building the canal; that is, \$10,000,000. This \$50,000,000 was duly reported in the list of appropriations authorized by the Appropriations bill at the end of the spring Congressional session of 1902. By the provisions of that bill, the public surplus may be drawn upon at the proper time for the \$50,000,000exactly as sums appropriated for the army and navy, for instance, may be utilized.

There is no reference to issue of bonds for the above-named payments, and there was no purpose of resorting to such an expedient. On the contrary Section 8 of the Canal Bill, after authorizing a \$130,-000,000 bond issue for the construction of the Canal, ends by providing, with the greatest explicitness: "None of these bonds shall be sold to pay the sums 1 and 2, as the reader will have perceived, are the sections above cited, containing the authorization for purchase of the canal property from the French company and of the right-of-way from Colombia. This fact disposes entirely of the contention that bonds may be issued to meet these \$40,000,000 and \$10,000,-000 payments. The bonds will be issued when work on the canal begins. It will be interesting to recall that these \$130,000,000 bonds are to bear 2 per cent interest; to be payable, interest and principal, in gold; to be "redeemable after ten years and payable after twenty years"; to be sold at not less than par and to be open to public subscription, and are to be "issued from time to time as the proceeds may be required." It may be worthy of remark in passing that the abundant confidence shown in the value com. manded by our bonds, in requiring par for 2 per cents to be issued possibly some years hence, is chiefly due to the expectation that the bonds will be needed for bank currency issues. In the same connection it is interesting to note that consols have this week fallen below 91 in anticipation of next month's reduction in their annual interest rate to 24.

This \$50,000,000, then, must be taken from existing home supplies and remitted to such foreign interests as are entitled to it at an early date. It does not follow that it will be sent abroad in gold; that depends upon circumstances. If the balance of exchange were heavily in our favor, it is possible that sterling bills might be purchased and remitted, with out bringing sterling to the gold point. It is conceivable, again, that, even with exchange against us, bankers conducting the operation might borrow abroad sufficient sums to make the foreign payment, calculating to pay the debt off later in our export of grain and cotton. These are among the possibilities. They are to this extent probabilities, that payments of this sort are now-a-days rarely made in outright and immediate gold remittance." Oar Philippine indemnity payment to the Spanish Government during 1899 is a case in point. This \$20,000,000 payment was duly made at Madrid in sterling bills in April. No gold was shipped in any quantity, however, during that month or the month succeeding. In June, almost exactly \$20,000,000 gold was sent to Europe, of which \$9,000,000 went to England, \$7,000,000 to France and \$3,000,000 to Germany. It was commonly said at the time that we had paid the indemnity to Spain in gold, and this was true, though some other rather large operations in exchange conspired to help the outward movement. It is reasonable to expect that at least a part of the Panama 'settlement will in the end be similarly made. But it may not occur at once.

We do not know why such possibilities should be looked at as alarming when exports of gold at this time in the year are the commonest of money market phenomena. The Treasury, according to report, has been trying to keep its own cash reserve at a figure which should admit of payment from its own vauits for at least a part of the exchange required. It can nardly provide this way for all the payment. Insofar as it does, however, it should be obvious that the noney market will in no respect be disturbed. In act the market's cash resources should be strengthned, at least temporarily, by the process, since whatver money was paid out by the Government for the urpose would be held and used by the domestic anks receiving it until gold exports should absorb it.

THE MISSOURI PACIFIC RAILWAY REPORT.

The annual report of the Missouri Pacific shows that 1902 proved a pretty good year for the company, notwithstanding the crop shortage of 1901 and the various other drawbacks with which the road had to contend. A great portion of the mileage of the system is located in those parts of the country where the deficiency of the harvests was more serious and more pronounced than in any other section of the United States, and it would not have been strange if, as a consequence, serious curtailment of the revenues of the system had ensued.

The grain tonnage did fall off, and there was also a loss in the live-stock tonnage and in the lumber tonnage, but on the other hand the mineral and manufacturing and merchandise traffic underwent marked expansion. The situation in this particular is well illustrated in the fact that the traffic in agricultural products formed only 21.7 per cent of the aggregate freight tonnage in 1902 as against 23 4 per cent in 1901, the traffic in animals and animal products 5.1 per cent against 5.8 per cent, and the tonnage in forest products 19.4 per cent against 20.5 per cent; while on the other hand the items classed as manufactures and merchandise constituted 16.6 per cent of the whole against only 11.8 per cent, and the traffic in coal 19.9 per cent against 17.8 per cent. Such figures serve to show at once the continued activity of general trade and the growing diversity of the tonnage of the system, making it less dependent than formerly upon any one particular species of traffic. The continued growth in the passenger traffic (which was one of the features of the year) is an indication of the same thing.

The Missouri Pacific has in recent years been decidedly well managed, both from an operating and a financial standpoint. It may perhaps be recalled that dividends on the stock were not resumed until July 1901, though the company's earnings would have warranted much earlier resumption. The same conservative policy was followed as has been pursued by many other important systems throughout the country, of devoting large amounts out of income to the improvement and betterment of the property. This policy has been continued since dividends have again been paid. It is indicative of the position to which the property has been brought through good management and increasing revenues, that for the calendar year 1902, notwithstanding the crop shortage and notwithstanding the increase in expenses, the reason for which will be presently mentioned, the company is able to show a surplus of \$2,689,512 above the amount required for the 5 per cent dividends on the stock, and that practically the whole of this last amount has been appropriated towards betterments, improvements and the acquisition of additional property. The exact amount of the appropriation was \$2,615,871, of which \$1,615,871 was spent in 1902 and \$1,000,000 remains to apply the current year. Out of the previous year's earnings there had been a similar specific appropriation of \$2,608,656, \$1,608,656 having been spent in that year and another million having been carried over into 1902, just as the company now is carrying a million forward into 1903.

President George J. Gould says that these appropriations of income for improvements of property and equipment have resulted in the practical rebuilding

of large portions of the system, especially the main lines of the Iron Mountain and that portion of the Missouri Pacific system between Osawatomie and Deering Junction and between Lake City and Boonville. He also says that independent of these direct appropriations the amounts charged to operating expenses were on a liberal scale compared with other systems of the same physical characteristics and density of traffic, and included considerable improvements to the property. He cites figures which bear out this statement. No charges were made to capital account during the year except for additional equipment, new mileage, additional terminal real estate and purchase of securities representing new lines of railway acquired.

In face of the crop shortgage gross earnings for the twelve months of 1902 improved, as compared with the twelve months of 1901, in amount of \$834,594, but this was attended by an augmentation of \$1,427, 676 in operating expenses, leaving a loss of \$593,082. There were some other changes, which left as the final result for 1902, as already stated, surplus above dividends and charges of \$2,689,512, as against a similar surplus for the calendar year 1901 of \$3,914,720. Mr. Gould mentions several causes which contributed to the augmentation in expenses. In January and February excessively cold weather and a severe sleet storm added materially to the cost of operation. The failure of the corn crop, decreasing shipments of grain, resulted in unbalancing the movement of freight traffic, increasing the cost of transportation. The Iron Mountain Road was deprived of the use of its main shops at Baring Cross, Arkansas, which had been destroyed by fire, thus adding to the expenses of the motive power department. Then the reconstruc tion work in progress enhances operating cost by reason of the obstruction to traffic occasioned thereby. During 1902 such obstruction was intensified by ex. cessive rains.

Mr. Gould notes that while a portion of the benefit of the large improvement expenditures which are being made should be reflected in decreased cost of transportation during 1903, the full benefit to be shown can hardly be expected until 1904 and subsequent years. As it is, however, increasing economy and efficiency in operations is being attained from year to year. Take the train-load. This on the Iron Mountain was 293 tons in 1900; was raised to 334 tons in 1901, and now for 1902 has gotten up to 383 tons. In the same way the average load on the Mis. souri Pacific rose from 231 tons in 1900 to 251 tons in 1901 and to 262 tons in 1902.

The balance sheet shows that \$6,700,000 of loans payable existed on December 31 1902, this representing moneys advanced by directors, and the figures also show a small deficiency of current resources below the amount of the current liabilities. Mr. Gould points out that current resources during the past few years have been drawn upon liberally to meet payments for new mileage, equipment and real estate for which capital funds had not been provided. Since the first of January arrangements have been completed for furnishing the necessary funds to reimburse the treasury for a large portion of these capital expenditures, and also to provide for all new property and mileage now under contract by the sale of 20 million dollars River & Gulf Divisions first mortgage bonds of the St. Louis Iron Mountain & tion of the new mileage should yield in increased net Southern Railway Company and by the sale of avail- 'income a substantial surplus over the amount of the

able general consolidated 5 per cent bonds and unifying general 4 per cent bonds of the same company. He says the amount to be covered into the treasury from these sources for bonds already sold against property and mileage acquired and paid from current resources will amount to over 4 million dollars.

Reference to the new bond issue of the Iron Mountain Company calls attention to the fact that the company has considerable new construction work under way. No less than 677 miles of new road is provided for. This comprises a railroad now built from East St. Louis to Thebes, Ill., with a branch to the Big Muddy Coal Fields, aggregating 145 miles; an extension of the Iron Mountain system from Batesville, Ark., to Carthage, Mo., and some oranches in connection therewith; another extension along the Mississippi River Valley from West Memphis, Ark., to a connection with a low-grade line of the Texas & Pacific at Clayton, La., 278 miles. Reference to the map of the Missouri Pacific system, which we publish in our INVESTORS' SUPPLEMENT, will show that these are all important lines, and that they will serve to strengthen and solidify the system and increase its power for competing with rival systems. The new Iron Mountain mortgage gives authority for the issue altogether of \$50,000,000 of bonds, but only \$20,000,-000 are to be put out at present.

By means of the new lines, it is intended to complete a system extending from St. Louis along the east side of the Mississippi River to the bridge now being built at Thebes, Ill., and on the west side of the River, via West Memphis, to a connection, as already stated, with the Texas & Pacific at Clayton. The report tells us that this latter connection will complete a valley railroad system extending from St. Louis to New Orleans 48 miles shorter than the existing system, with maximum grades of 3-10ths of one per cent, as against several sections of existing system reaching as high as two per cent.

Equally important, and in certain respects still more important, is the new diagonal line to be provided by the bailding of the road already mentioned from Batesville, Ark., to Carthage, Mo. For by means of this connection the company will get a lowgrade line from Kansas City to Memphis of about 480 miles, which, the report declares, will be shorter than any existing line between the same points, and provide a new main line of dense traffic. Mr. Gould says the new mileage is required for two purposes: (1) to handle expeditiously and economically the large volume of existing traffic of the Iron Mountain system and avoid double tracking of a large portion of the existing main lines, which would otherwise be necessary; (2) to establish new through or main lines, which will add materially to the volume of traffic and earning capacity. While Mr. Gould does not say so, the new mileage will serve another useful purpose; in the peculiar situation of affairs which is developing in the Southwest as the result of recent railroad consolidations and absorptions, it will enable the Missouri Pacific to hold its own against its rivals, no matter what the outcome of these consolidations may be.

Relating to the \$20,000,000 of new Iron Mountain bonds now to be put out, Mr. Gould notes that careful examination has demonstrated that the additional traffic to be created by the new lines and the operating economies to be secured as a result of the operanew interest charges. The report is in elaborate form, occupying over one hundred pages, and as far as details of operations and physical condition are concerned is not surpassed by that of any railroad in the country.

RAILROAD GROSS EARNINGS FOR FEBRUARY.

In considering the very satisfactory statement of earnings which we are able to present below for the month of February, it should be remembered that practically all the conditions influencing traffic and revenues were favorable. Trade activity continued unchecked in all lines and branches of industry. The excellent grain crops harvested last year, in contrast with the very poor crops of the previous season, were reflected in a considerable enlargement of the Western grain movement. In the South the cotton movement ran ahead of that of last year. Then, also, railroad rates in many sections of the country were on a higher basis, advances having been made in a number of instances with the beginning of the new year, with the view to offsetting the increases in wages which the roads have been obliged to make and the higher cost of fuel, materials and supplies.

Farthermore in contrast with the exceptional weather conditions experienced in February of last year, there was the present year a very decided improvement. As has been many times set out by us in these columns, the weather during February 1902 was more seriously and continuously adverse than in any month for a long series of years. There was a wide-spread snowstorm covering the northern part of the country at the very beginning of the month at that time, and on the 17th a still worse snowstorm occurred-a storm second only to the memorable blizzards of 1888 and 1899, though it did not extend over so wide an area as either of these. Then on the 21st and 22nd a sleet storm of unparalleled severity passed over the country. This latter, according to all accounts, did more damage than any event of the kind of which there is any record. Telegraph, telephone, electric light and trolley wires and poles were prostrated as never before, and Philadelphia was completely cut off for a time from wire communication with the outside world. Before the damage done from that cause had been repaired, an extraordinarily heavy rainstorm, covering the greater part of the country, occurred on the 28th, imposing further impediment to railroad transportation.

In certain parts of the country there was some disturbance, too, the present year from advarse weather, but as compared with the extraordinary situation in that particular prevailing in 1902 this was of very minor importance. As a result of the influences mentioned, the showing of earnings in February last year had not been very good. There was a slight increase then in the aggregate of the roads contributing returns to our monthly statements, but this followed mainly from the exceptional gains then reported by a few systems in the Northwest, like the Canadian Pa cific, the Great Northern and the Northern Pacific, which at that time enjoyed the advantages of a large spring-wheat crop-the wheat crop of 1901, as will be recalled, having been an exception to the general crop shortage sustained that season.

Thus, practically everything favored better earnings in 1903, and hence our compilation given below, covering 96,646 miles of road, shows an increase of no less

than \$6,781,905-an improvement of 13.86 per cent. Moreover, out of the 78 roads or systems which have furnished returns, no more than 8 have failed to share in the increase-that is, report decreases, and only 2 of these decreases are for as much as \$30,000. It has happened many times in the past that the gains on the separate roads have been large, but the improvement on this occasion is of really striking proportions. The New York Central leads the list (among the roads which have reported thus far) with an expansion in the large sum of \$1,311,108-nearly 30 per cent. In the Southwest the Missouri Pacific reports \$545,000 increase, the St. Louis & San Francisco \$320,832 and the Missouri Kansas & Texas \$186,342. In the Northwest the Canadian Pacific adds \$457,000 more to its gain of \$361,000 last year, and the Great Northern Railway and Northern Pacific show respectively \$175,-711 and \$137,188 increase. In the South the Southern Railway records \$354,977 improvement and the Louisville & Nashville \$336,126. And so we might go through the list and instance roads in other parts of the country distinguished in much the same way. As furnishing a general summary of the improvement established on the separate roads, we bring together the following, comprising all roads or systems whose changes (whether increases or decreases) have exceeded \$30,000 in amount.

PRINCIPAL CHANGES IN GROSS EARNINGS IN FEBRUARY.

Increases.		Increases	
N.Y. Central	\$1,311,108	Kan. City Southern	\$76,211
Mo. Pac. & Iron Mt. ?	545,000	Yazoo & Miss. Valley.	69,218

Northern Pacific	137,188	Decreases.	
Mobile & Ohio	125,916	Union Pacific, proper.	\$113,800
Wabash	120,439	Iowa Centrai	30,946
Seaboard Air Line	100,580	-	
Chesapeake & Ohio	78,768	Total (representing	
Pere Marquette	77,928	2 roads)	\$144,746

As already indicated, comparison is with totals last year which had recorded (treating the roads coliectively) but a slight gain, owing to the causes already mentioned. Going further back, however, it is found that in both 1901 and 1900 the improvement reached very noteworthy proportions, while in some of the years preceding 1900 February had likewise yielded quite satisfactory results. Below we show the February totals for each year back to 1893 and also the totals for the first two months of the year.

	The Party of the P					

THE CHRONICLE.

As regards the augmentation in the grain movement, the wheat receipts at the Western markets were but little heavier than in February 1902 (at some of the separate points, indeed, there was a falling off), but in corn, oats and barley, and particularly the first two, the increase was very large. For the four weeks ending February 28 in 1903 corn receipts at the Western primary markets foot up 16,945,733 bushels, as against only 7,311,645 bushels in the corresponding four weeks of 1902, while the receipts of oats were 14,943,428 bushels, against 6,955,035 bushels. For wheat, corn, oats, barley and rye together the aggregate for the four weeks of 1903 is 48,837,166 bushels, as against 28,289,663 bushels. This is an addition of over 201 million bushels, representing say, roughly, half a million tons of freight. The details of the Western grain movement in our usual form appear in the following.

RECEIPTS OF FLOUR AND GRAIN FOR FOUR WEEKS ENDING FEBRUARY 28. AND SINCE JANUARY 1.

Taking the figures at Chicago and comparing with the even month in previous years (which is a little different from the method pursued in the foregoing table), it is found that the receipts of wheat, corn, oats, barley and rye for the even month in February 1903 were 16,845,061 bushels, which compares with only 7,755,060 bushels in February 1902, but with 18,796,604 bushels in 1901 and 22,580,323 bushels in 1900. It accordingly appears that though the grain movement at the point named was much in excess of the similar movement for February last year, it was not equal to the total for 1901, and very much less than the receipts for February 1900. The receipts of hogs at the same point were considerably below those for last year, the deliveries having been only 750,347 head against 941,050 head in 1902. Some of the other items of the live-stock movement, however, appear to have been larger than in 1902. This is true also of other points. For instance, at Omaha the deliveries of hogs were 203,830 head against 243,941 head, but

the receipts of cattle were 75,552 head, against 61,408, and the deliveries of sheep 112,352 head, against 71,572.

The cotton movement, as already indicated, aggregated more than in the previous year. At the Southern outports the receipts were 634,902 bales, against 551,125 bales in February 1902 and 460,328 bales in February 1901. The shipments overland, however, were not quite up to those of last year, being 158,884 bales against 176,798 bales in 1902.

To complete our analysis we furnish the following six-year comparison of earnings for leading roads in different parts of the country arranged in groups. The Trunk Line group and the Southern group, it will be noticed, are particularly distinguished for the extent of their further gains in 1903.

EARNINGS OF MIDDLE AND MIDDLE WESTERN BOADS.

- Mr. William Plimley has been appointed to succeed the late Conrad N. Jordan as United States Assistant Treasurer at New York, and is now endeavoring to secure the necessary bends required for the position. He is at present Deputy Chief Clerk of the Board of Elections. The following statement was given out at the conclusion of the Cabinet meeting at Washington on the 10th inst., with reference to Mr. Plimley's appointment:

The President to day appointed William Plimley of New York Assistant Treasurer of the United States at New York. Mr. Plimley was endorsed for this position by the presidents of the Seaboard National Bank, the Irving National Bank, the Importers' & Traders' National Bank, the United States Mortgage & Trust Company, the Colonial Bank and the Mutual Reserve Life Insurance Company, by the officials of the Seventh National Bank and the Mechanics' & Traders' Bank ef New York City, as well as by other prominent representatives of business interests in New York.

Mr. Robert Bacon, formerly of Messis. J. P. Morgan & Co., was first tendered the appointment but declined its acceptance.

-Corgress, at its recent session, amended the law with reference to the minimum of population required on the part of cities desiring to be constituted as reserve cities. Under the old law the minimum of population was 50,000. Under the amended law (which was approved March 3 1903) no more than 25,000 population is required. The Act amends Sections 5191 and 5192 of the Revised Statutes, as amended by the Act of March 3 1887, to read as follows:

"That whenever three-fourths in number of the national banks located in any city of the United States having a population of twentyfive thousand people shall make application to the Comptroller of the Currency in writing, asking that the name of the city in which such banks are located shall be added to the cities named in Sections fiftyone hundred and ninety-one and fifty-one hundred and ninety-two of the Revised Statutes, the Comptroller shall have authority to grant such request, and every bank located in such city shall at all times thereafter have on hand, in lawful money of the United States, an amount equal to at least twenty-five per centum of its deposits, as provided in Sections fifty-one hundred and ninety-one and fifty-one hundred and ninety-five of the Revised Statutes."

It is proper to state that at the Census of 1900 there were 161 cities having a population of 25,000 or over. Of these but 34 were reserve cities (including the three central re-

serve cities, namely, New York, Chicago and St. Louis) at the time of the call of February 6 1903. Fort Worth, Texas, is the only city which has made application thus far under the provisions of the amended Act.

-In commemoration of the renewal of its charter, the First National Bank of this city, which has just entered the forty-first year of its existence, has prepared a little pamphlet telling of banking conditions at the time of its organization. The bank, as its name implies, was the first in the city to take out a national charter, having come into existence with the birth of the national system, receiving its charter in 1863. Of the original stockholders but one is now living-Mr. George F. Baker, the present President. Only fifty-four banks were in operation in New York City at the time the First National began, these having an aggregate capital of \$70,000,000 and deposits of \$160,000,000. Many antagonisms had to be resisted from State banks at this time, the national system having been inaugurated at a critical period in American banking history. As the advantages of the national system became better understood, prejudice against the new order of things vanished, and within eighteen months thirty nine of the old banks in New York, with a capitalization of \$56,000,000, applied for Federal charters. The First National, as is well known, took an active part in the negotiation of war loans, and from the start was prominent among dealers in United States securities. During 1879 it handled \$780,000,000 United States Government bonds, completing their receipt and delivery without loss or error. The capital, now \$10,000,000, was originally \$200,000. On February 6 last the bank reported deposits of \$84,571,662 and profits of \$2,863,618. The surplus was made \$10,000,000 at the time of the increase in the capital in July 1901. Since its organization the bank has paid dividends aggregating \$23,310,000.

-The consolidation of the Seventh National and the National Broadway Bank with the Mercantile National (all of this city) is nearing completion. The stockholders of the first-named bank are to meet on April 9 to approve of the sale of its assets and business to the Mercantile and to act on a proposition to place the bank in voluntary liquidation. The Seventh National's shareholders have the right to subscribe, pro rata, for thirty-six one-hundredths of one share of the increased capital of the Mercantile for each share of the Seventh's capital, at \$300 per share. Action will be taken on the 9th of April also by the Mercantile's stockholders to increase the capital of their institution from \$1,000,000 to \$3,000,000; to amend the articles of association and "to purchase the assets and business of any bank or banks in the city of New York."

-Mr. James S. Carney, a dealer in investment securities, with an office in the Produce Exchange, this city, has issued a circular to the stockholders of the New York Produce Exchange Bank asking for an option on their stock. Mr. Carney offers to pay for a majority interest \$200 per \$100 share.

-William Sherer, Manager of the New York Clearing House, has been absent from the city for the past month on his vacation, and he is now in California. During his absence William J. Gilpin, the Assistant Manager, has been acting Manager. Last year, owing to the prolonged illness of Mr. Gilpin, Mr. Sherer was closely confined to his office, and he has now embraced the opportunity of Mr. Gilpin's recovery to take his vacation earlier in the year than has been his usual custom.

-Messrs. Speyer & Co. took possession of their new offices at 24 and 26 Pine St. on Saturday, the 7th inst. The building has a frontage of fifty feet on Pine Street, opposite the Sub-Treasury, and although only four stories in height it represents with the site a cost of about \$1,000,000. The exterior is white marble and designed after the Pandolfini palace in Florence. The centre of the building is in the form of a court, and is open from the floor to the roof. The lower part of the court is finished in very beautiful Italian marble, and the effect is very fine. About the court on the first floor are the offices of the firm and the customers' offices. On the mezzanine floor or first gallery are the cashiers and bookkeepers, and a second gallery is given over to clerks. On the fourth floor are consultation rooms, a dining room, bath rooms, a board room, etc. In the basement are located the vaults for the safe-keeping of the firm's securities, and below this, the furnaces, etc. The Speyer building may be

said to be one of the sights to see in the financial district of New York.

-The Bank of British North America has declared the usual semi-annual dividend of thirty shillings per ± 50 share, being at the rate of six per cent per annum. The sixtyseventh yearly report states the profits for the half-year at £66,861, from which $\pm 25,000$ were added to the reserve fund, bringing capital and reserve up to $\pm 1,390,000$. Since the close of 1902 branches have been opened at Fenelon Falls, in Ontario, and at Battleford and Yorktown, in the Northwest Territory.

-Mr. Thomas L. Jones has been chosen Cashier of the Stuyvesant Heights Bank of Brooklyn.

-A "Hand-Book of Rhode Island Investments" has been sent to us with the compliments of Davis & Dexter, Providence. It contains, in convenient form, considerable information concerning the bank and trust companies and miscellaneous corporations of the State from 1880 to 1902. Messrs. G. L. & H. J. Gross, Providence, have also favored us with a copy of this booklet.

-Mr. Harmon Johnson has succeeded Mr. Leander M. Jones as Vice-President of the Manayunk National Bank of Philadelphia.

-The proposed increase to be made in the capital of the Market Street National Bank of Philadelphia, from \$500,000 to \$1,000,000, was ratified by the stockholders on Thursday. At the selling price of \$150 per \$100 share, \$250,000 will be carried to the surplus, making the amount \$500,000. Each shareholder has the right to subscribe for the new issue at the rate of one share for each share at present held, the privilege expiring on April 16. Subscriptions will be payable in full on or before May 7.

-Officers were last week elected for the Continental Trust Company of Pittsburgh, a new institution, which has fixed April 1 as its opening date. Dr. John R. Morrow has been chosen President; Albert H. Burchfield, First Vice-President; W. H. Nimick (of the Keystone Bank), Second Vice-President; John W. Garland, Third Vice-President; Jesse H. Morrow, Secretary and Treasurer. The company has increased its authorized capitalization from \$125,000 to \$500,000, of which only \$300,000 will be issued at present.

A combination of large proportions will occur shortlywithin the next week or two, it is expected-in the financial world of Pittsburgh. Six institutions are concerned in the project, by which the American Trust Company will take over the Columbia National Bank, capital \$600,000; the Tradesmen's National, capital \$400,000; the Fourth National, capital \$300,000; the Germania Savings Bank, capital \$150,-009, and the Pennsylvania Trust Company, capital \$500,000. The American Trust Company, it is "proposed, shall be the holding company, the Pennsylvania Trust to be merged with it. The Columbia National will continue as the National and clearing house bank of the combination, the Tradesmen's and Fourth being liquidated. The Germania? Savings Bank will serve as the savings branch. The Tradesmen's building is to be remodeled and will be made the head. quarters of the Columbia, the American Trust having arranged to occupy the latter's banking rooms. The American Trust will increase its capital from \$1,000,000 "to \$2,500,000. \$500 being fixed as the price for the new \$100 shares. Of this issue of 15,000 shares, 13,000, it is stated, will be used to pay for the institutions to be absorbed, the remaining 2,000 shares being held in the treasury for future acquisitions.

-On April 15 a special meeting of the stockholders of the Merchants' National Bank of Cincinnati will be held to act on the contemplated increase in the capital from \$600,000 to \$1,000,000. Announcement of this proposed increase was made in January at the time of the election of Mr. M. E. Ingalls to the presidency. Existing shareholders will be permitted to subscribe for one-fourth of their holdings at par (\$100), the rest of the new issue being disposed of at not less than \$150 per share. At the meeting the question of enlargng the directory, making the number fifteen instead of nine, vill also be considered.

-The United States Savings Bank of Detroit, Mich. which was converted from the McLellan & Anderson Savngs Bank on December 1), is preparing to establish a branch ank at Lyman Place and Russell Street, in that city. Exavation work for the construction of a two-story building

on the site is now under way, and it is planned to have the structure ready for occupancy by May 1. Mr. Louis A. Koenig, at present the receiving teller of the bank, has been selected as Manager of the branch.

-At the recent annual meeting of the Cleveland Clearing-House Association, Mr. J. J. Sullivan, President of the Central National Bank, was made President. The other officers elected are Vice-President Mr. S. L. Severance, President of the Euclid Avenue National Bank; Secretary, Treasurer and Manager Mr. F. C. Bangs. The Clearing-House Committee is made up of Mr. George S. Russell, Cashier Bank of Commerce, N. B. A.; Charles E. Farnsworth, Cashier of the Euclid Avenue National Bank; Horace R. Sanborn, Cashier of the State National Bank; John Sherwin, Cashier of the Park National Bank, and Charles L. Murfey, President of the Mercantile National Bank.

-The Central Trust Company of Illinois has within the past two weeks taken over the business of the two savings bank departments of the large stores of Siegel, Cooper & Co. and Rothschilds & Co. The bank of Siegel & Company had nearly \$1,000,000 on deposit and that of Rothschilds over \$200,000, and the indications are that these savings accounts will be transferred to the new depositary almost en masse. President Dawes counts upon at least \$1,000,000 new deposits in the savings department. The number of new accounts thus added, about 9,500, together with 3,500 already on their books, will give the Central Trust 13,000 savings depositors.

-Mr. John Shea, who has been for 20 years in the employ of the Chicago National Bank, has been advanced to the position of Assistant Cashier, the place formerly occupied by Mr. A. Uhrlaub, now Vice-President of the Central Trust Company Lillinois.

-The South Side Bank of Chicago, with a capital stock of \$200,000, has been granted an organization permit by the State Auditor of Public Accounts, Springfield. The incorporators are D. C. Kelleher, Lewis Boeger and Samuel Wilson.

-The State Bank of Chicago will on May 1 extend its quarters by taking in the offices at present occupied by A. O. Slaughter Jr. & Co. This will give the State Bank the entire La Salle Street front of the Chamber of Commerce Building on the ground floor, besides a large part of the space across the hall, and indicates the rapid growth of its business.

-A. O. Slaughter Jr. & Company of Chicago will on May 1 remove their offices from the Chamber of Commerce Building, so long occupied by the old firm, to the ground floor of the New York Life Building, on the Monroe Street front.

-Two new recent appointments are announced in the Northwestern National Bank of Sioux City, Iowa. Mr. John Scott Jr. has become an additional Vice-President, his place as Cashier being assigned to Mr. J. Magann Jr.

-Mr. J. E. Burmeister, previously Assistant Cashier of the Iowa National Bank of Davenport, Iowa, has been appointed Cashier.

-The American Central Trust Company of St. Louis, Mo., has declared its first dividend. The amount is 1½ per cent and is payable April 1. The institution was organized in January of 1903 with a capital of \$1,000,000 and surplus of \$500,000. In its statement at the first of the year the company showed deposits of over one and a-half million dollars.

-At a meeting of the banking institutions of Charleston, S. C., held at the People's National Bank in that city on Monday, Feb. 2, steps were taken to make more permanent the Clearing-House organization which was established in January of the current year. Each bank of the city was represented at the meeting, over which Major Henry P. Williams, Cashier of the Carolina Savings Bank, presided as temporary Chairman, Mr. W. K. McDowell, Cashier of the Exchange Banking & Trust Company, acting as Secretary. Provisions were made for the appointment by the Chairman of committees to outline the object and scope of the organization and to formulate rules to govern it, and to consider the matter of exchange charges. There is reason to believe that the present Clearing-House organization will be a lasting onenot ephemeral as was the one organized in 1893, but which according to our records, made reports of transactions for period of only seventeen months-from January 1892 to May 1893, inclusive.

-The Comptroller of the Currency has issued a certificate to the American National Bank of Spartanburg, S. C. The capital is \$100,000 and the officers are Mr. J. H. Sloan, President: T. B. Stackhouse, Cashier.

-The People's Savings Bank, of Selma, Ala., has filed with the Secretary of State a certificate increasing the capital from \$50,000 to \$100,000.

-A new Fort Worth, Texas, bank is being organized under the name of the National Bank of Commerce, the Comptroller having approved the application of its projectors on the 2d inst. The bank, which is capitalized at \$100,000, will begin business about May 1, locating at Fourteenth and Main streets. Mr. Thomas W. Slack, Assistant Cashier of the First National Bank of Fort Worth, has been chosen Cashier of the new institution.

Monetary Commercial English News [From our own correspondent.]

LONDON, Saturday, Feb. 28, 1903.

The revival on the Stock Exchange has made further prog ress this week. It was encouraged by the acceptance by the Sultan of the Austro-Russian scheme of reform for Macedonia without delay and without bargaining. Most people had anticipated that he would haggle a great deal before finally giving in. On the contrary, he accepted the scheme almost as soon as it was presented to him, and he has folalmost as soon as it was presented to him, and he has fol-lowed this up by astutely sending the reforms to three other villayets. At first it was feared that he was trying to hoodwink the Powers; but it is now generally believed that he is sincere. He knows that Russia has put great pressure upon both Bulgaria and Servia, and he is well aware that Russia cannot afford to alienate Slav feeling. Consequently Russia must obtain for the Macedonians some concessions. The Russian Government is very confident apparently that it The Russian Government is very conndent apparently that it can compel the Sultan to do what it wishes without hostili-ties, for it has issued a very strong warning to the Balkan States, telling them pretty plainly that if they do not follow its council they will be left without the protection of Russia. As a result of all this, there is a confident feeling through-out Europe that peace will be preserved, and as money is very abundant and cheap all over the Continent and proba-bly will be mederately cheap in Lordon as soon as April

bly will be moderately cheap in Lordon as soon as April sets in, there is a general disposition to invest such as has not been seen for a considerable time past. Moreover, the news from South Africa is much more reassuring. Mr. Chamberlain's last speech expressed so much confidence in the future that it has greatly impressed the European public, and both private and public telegrams assure us that marked progress

brivate and public telegrams assure us that marked progress is being made in solving the labor difficulty. Up to the present the general activity on the Stock Ex-change has been in British railway securities, in Grand Trunk of Canada securities, in Argentine railway securities and in copper securities. The British railway dividends for the securit for last year ware much better the rule and the second half of last year were much better than the pub-lic anticipated. It is now fully realized that the directors and managers are all earnestly endeavoring to reduce the cost and managers are an earnessly endeavoring to reduce the cost of working, and a very much more hopeful feeling is enter-tained. Consequently, there has been a marked rise in British railway securities, and apparently the advance will continue. As yet there has been little or no recovery in consols, partly no doubt because of the dearness of money. The interest on consols will fall automatically on the 5th of April to 2½ per cent and the rate for carrying over consols has for months cent, and the rate for carrying over consols has for months past ranged from 4 to 5 per cent.

The preparations for the coming Transvaal loan should help to keep consols low. The general impression is that the loan will be brought out in April When it is placed and the sinking fund is in full operation, the best opinion is that

the sinking fund is in full operation, there will be a recovery in consols. In Paris the improvement which has been so marked since has made further progress. There was some In Paris the improvement which has been so marked since the year began has made further progress. There was some check given to the market early in the week by a report that the Sultan had rejected the plan for unifying the Turkish debt and as French purchases of Turkish bonds have been on an enormous scale for months past, if this report had proven true, there would have been some heavy losses. The report, however, is not true, although the negotiations are making very little progress. Apparently those who are working for unification are not very well agreed amongst themselves, while there is a powerful opposition to the measure. The Paris market quickly recovered, and the buying of Spanish, Italian, Brazilian and Argentine bonds went on eagerly. There has also been a good deal of buying of British colonial bonds and British railway securities. In Germany the crisis may be said now to be at an end, but there is of course very little activity on the bourses, although there is some buying of both banking and industrial securities. The chief activity, however, is through the medium of the London Stock Ex-change, where German capitalists and professional operators are dealing very boldly and very skilfully. Money continues very scarce and dear and the directors of the Bark of England meintein their rate at the rest. The

Money continues very scarce and dear and the directors of the Bank of England maintain their rate at 4 per cent. The collection of the revenue is on such an immense scale just

now that the Bank will have the control of the outside market completely in its hands until nearly the end of March. Towards the end of that month the payments out of the Towards the end of that month the payments out of the . Treasury will doubtless be on an enormous scale and they may more than counterbalance the collection of the revenue. But very little ease can be expected until the interest on the national debt is paid on the 5th and 6th of April. After that time, however, it is probable that rates will decline rapidly, for money is exceedingly abundant and cheap all over the Continent, and the Continental banks, not only the French, but all the Continental banks, are employing im-mense balances in London at the present time. That being so, when the collection of the revenue comes to an end, it is scarcely possible that rates can be kept up. Besides, if the native labor difficulty is, as we are assured, in process of being solved, the outturn from the Transvaal mines will rapidly increase now, and the shipments of gold from South Africa will augment the supplies here. No doubt the Gov-ernment expenditure will continue large, and the Transvaal loan will have a certain effect upon the market, but it is to be recollected that the greater part of the Transvaal loan is a mere conversion, and that therefore the permanent effect cannot be much while the portion of the loan intended for public works will be called up only gradually. Ths present impression is that money will continue very abundant and cheap on the Continent all through the year. The French Government is believed to have given up the intention to raise a large loan. It has authority to issue about 12 millions sterling of Treasury bills, and of course it will exercise its power; but if those in the best position to know are to be believed it will not add to a permanent debt. The Russian Finance Minister also announces that he will not borrow this year, and it is at present thought exceed-Treasury will doubtless be on an enormous scale and they

The Russian Finance Minister also announces that he will The Russian Finance Minister also announces that he will not borrow this year, and it is at present thought exceed-ingly improbable that there will be a large Spanish loan in Paris. Altogether, therefore, the great issues that a little while ago were anticipated are now believed to be exceed-ingly unlikely; and if so, money will continue very abundant and cheap in France. In Germany it is sure to continue so, for the recovery after so severe a crisis must be very uradual. gradual.

gradual. The India Council continues to sell its drafts well. It offered for tender on Wednesday 100 lacs and the applica-tions exceeded 2,286 lacs at prices ranging from 1s. 4 1 32d, to 1s. 4½d, per rupee. Applicants for bills at 1s. 4 1-16d, per rupee, and for telegraphic transfers at 1s. 4¼d, per rupee were allotted about 42 per cent of the amounts applied for. At higher prices the allotments were in full. The following return shows the position of the Bank of

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols. &c. compared with the last three years:

ing-Hous urus.... 7,887,0 Messrs. Piz February 26 : Pixley & Abell write as follows under date of

February 26: Gold—With the Paris cheque up to 25:16½ firm the French demand has practically ceased and the Bank of Encland has been able to secore all arrivals. The total received by the Bank amounts to 248,500, of which £82,000 is in bars and £100,000 is from Egypt. £230,000 has been withdrawn for South America. Arrivals—Aus-tralia. £69,000; Straits, £15,000; Cape Town, £36,000; West Indies, 256,000; Calcutta, £146,000. Bhipments—Bombay, £60,750; Madras, £5,000; Calcutta, £10,000. Total, £75,750. Silver—India has been the only important buyer during the week. and in spite of a small setback there, due to easier rates being quoted for the mid March settlement, we have since hardened to 22⁵,ed., the buying being no doubt stimulated by the steady reduction in the Silver currency reserves in India. The reserve stands to day at a little over 9 Crores. We quote to night 22²,ed. cash and 22³ed. forward, closing steady at the price, with America holding off. The Indian price is Rs. 56⁴C. Arrivals—New York, £150,000; West Indies, £20,000. Total, £170,000. Shipments—Bombay, £266,000; Straits, £40,933; China, £5,000; Madras, £5,000; Calcutta, £10,000. Total, £326,983. Mexican Dollars—There has been a fair demand for dollars at about 0³ad, under the price of silver. Shipments—Manila, £29,000.

The following shows the imports of cereal produce into the United Kingdom during the twenty-five weeks of the season compared with previous seasons:

and also Government deposits. For Boston these Government deposits amounted on March 7 to \$6,302,000; on Feb. 28 to \$6,113,000.

Imports and Exports for the Week.-The following are the imports at New York for the week ending for dry goods March 5 and for the week ending for general merchandise March 6; also totals since beginning first week January.

FOREIGN 1	MI	20	RT:
-----------	----	----	-----

For week.	1903.	1902.	1901.	1900.
Dry Goods General Merchandise	\$3,042,779 8,141,401	\$2,948,884 9,568,626	\$2,318,230 10,526,195	
Total	\$11,184,180	\$12,517,510	\$12,844,425	\$10,050,675
Since Jan. 1. Dry Goods General Merchandise	\$32,924,138 86,427,337	\$27,919,813 79,804,921	\$23,738,844 80,884,506	
Total 10 weeks	\$119 351 475	\$107 794 734	\$104 623 350	\$109 589 45

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending March 9, and from January 1 to date.

TYDODE	IC TIDOL	C ATTINT	TODE	TOD	TITTT	TITTTTTT	
EXPORT	IS FROM	INEW	LORK	FUR	THE	WEEK.	

	1903.	1902.	1901.	1900.
For the week Previously reported	\$14,825,800 87,895,704	\$8,950,207 79,682,846	\$13,649,397 86,876,234	
Total 10 weeks	\$102,721,504	\$88,633,053	\$100,525,631	\$110,819,328

Note.—As the figures of exports as reported by the New York Custom House from week to week frequently show divergence from the monthly totals, also compiled by the Custom House, we shall from time to time adjust the totals by adding to or deducting from the amount "previously reported." The following table shows the exports and imports of massis at the part of New York for the mask and imports of

specie at the port of New York for the week ending March 7 and since Jan. 1, 1903, and for the corresponding periods in 1902 and 1901.

Bankers' Gazette.

For Dividends see page 575.

WALL STREET, FRIDAY, MAR. 13, 1903.-5 P. M. The Money Market and Financial Situation.—The stock market has had a number of adverse developments to con-tend against this week. Last Saturday's bad bank state-ment, the differences which have developed between the pool in Southern Pacific stock and the management of the pool in Southern Pacific stock and the management of the company, the repetition of charges against the Metropoli-tan Street Railway (which President Vreeland has denied as emphatically as before) and the failure of a small mer-cantile house, namely, Dresser & Company, have all com-bined to cause considerable unsettlement of security values. The underlying facts of the situation, however, remain as strong as before and afford not the slightest ground for un-casings or appropriate. easiness or apprehension.

easiness or apprehension. In particular the earnings of the railroads continue to show noteworthy improvement. The compilation for the month of February, which we present this week and which comprises somewhat over 96,000 miles of road, shows an increase of $6\frac{3}{4}$ million dollars over the same month of last year, or close on to 14 per cent. This large improvement in revenues is important as evidence that the gains in receipts are likely to offset the increased cost of operation occasioned by higher wages and enhanced prices for ma-terials and supplies. The open market rates for call loans on the Stock Exchange

The open market rates for call loans on the Stock Exchange

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2½ to 8 per cent. To-day's rates on call were 6 to 8 per cent. No business was reported in commercial paper. The Bank of England weekly statement on Thursday showed an increase in bullion of £180,008, and the percent-age of reserve to liabilities was 47.08, against 45.34 last week, the discount rate remaining unchanged at 4 per cent. The Bank of France shows a decrease of 5,075,000 francs in gold and an increase of 475,000 francs in silver.

Railroad and Miscellaneous Stocks .--The price move **Bailroad and Miscellaneous Stocks.**—The price move-ment in the stock market has been decidedly irregular this week. Following an unfavorable bank statement, values broke sharply on Saturday. On Monday the opening was weak, but prices rallied during the day and closed strong. The course of the market on Tuesday was highly irregular and values were again depressed. On Wednesday the gen-eral tone was better and the market continued firm until late on Thursday, when prices again depined. A stronger and values were again depressed. On Wednesday the gen-eral tone was better and the market continued firm until late on Thursday, when prices again declined. A stronger tone prevailed until late to-day, when slight reactions occurred. A disquieting topic of the week has been the controversy between the majority and minority interests in Southern Pacific. The fluctuations in the stock of this road have been wide; after a drop on Saturday to 58¼ the price advanced on Monday to 63½ on rumors that an agreement had been reached by the Harriman and Keene interests; when it became known that no settle-ment had occurred the price reacted on the fol-lowing day to 60¼; the last sale to-day was at 62%. Union Pacific common shares were depressed and irregular; the preferred was also irregular, but closed higher than on last Friday. Another interesting topic has been the charges against the Metropolitan Railway Company, to the effect that the financial affairs of the company were in bad shape, which charges have been emphatically denied by President Vreeland: the prices of the shares dropped 4% points to 131%, and closed to-day at 132%. St. Paul dropped 5 points to 166%, but subsequently ralied to 169½ N.Y. Central declined 6% points to 137½, and closed to-day at 138¾. American Sugar Refining was the weak feature of the industrial group; the shares dropped to 122¼, a decline of 5½ points; a recovery occurred to-day, however, and the close was at 124½. The copper stocks were depressed at the start, but later when the price of the metal advanced, both Amalgamated and Anaconda gained strength; weakness appeared in these shares to-day, however, and the prices re-acted to within about a point of last week's closing. *For daily volume of business see page 586*. The following sales have occurred this week of shares not

For daily volume of business see page 586. The following sales have occurred this week of shares not represented in our detailed list on the pages which follow.

Outside Market.—Conditions prevailing on the Stock Ex-change were again reflected to a great extent this week in the market for unlisted securities, Saturday being the only day when the curb did not follow the course of the general market. Values as a rule on that day were firm, while on the Stock Exchange they broke sharply. U. S. Steel new 5s (w.i.) were further depressed this week; the price declined to 87, a drop of 1% points from last Friday's clos-ing. Northern Securities shares have been active, and while the price movement has been irregular, the general tone has been strong. The initial sale was at 1061%; from Outside Market .-- Conditions prevailing on the Stock Exwhile the price movement has been irregular, the general tone has been strong. The initial sale was at $106\frac{1}{6}$; from that figure it fell off to $104\frac{1}{2}$, but subsequently recovered, and to-day reached $107\frac{3}{4}$; the close was a point lower at $106\frac{3}{4}$. Standard Oil sank to 665, a drop of 20 points from Saturday's figure; a recovery to-day sent the price up to 670. Greene Consolidated moved between 26 and $27\frac{1}{4}$, and ended the week at $26\frac{5}{8}$. Tennessee Copper declined $1\frac{5}{6}$ points to 31 early in the week, but subsequently rallied, and to-day reached $34\frac{1}{4}$. Tamarack gained 4 points to 195. Electric Vehicle shares have displayed considerable strength; the common opened at $6\frac{3}{4}$ and advanced to 9, but to-day reacted to $8\frac{1}{5}$; the preferred fell off $\frac{1}{2}$ point to 12 on Monday, but subsequently moved up to $15\frac{1}{5}$; last sale to-day was at $14\frac{1}{4}$. Outside quotations will be round on page 586.

Investment and Kailroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. The returns of the street railways are brought together separately on a subsequent page.

	Latest	Gross Ear	nings	July 1 to 1	Latest Date.	ROADS	Latest	Gross Ear	nings	July 1 to 1	Latest De

Net Earnings Monthly to Latest Dates.-The table follow-ing shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of Feb. 21, 1908. The next will appear in the issue of Mar. 21, 1908.

h Net earnings here given are before deducting taxes

|| Includes Lake Erie & Detroit River Railway for both periods.

u Including earnings of Savannah Florida & Western in both years

y After allowing for about \$50,000 extraordinary expenses during November and December, 1902, for re-railing the road.

i These figures include Houston & Texas Central and its subsidiary lines and also Steamship Lines.

Interest Charges and Surplus.-The following roads, in addition to their gross and net earnings given in the fore-going, also report charges for interest, &c., with the surplus sbove or deficit below those charges.

|| Includes Lake Erie & Detroit River Railway for both periods.

t Kansas City Suburban Belt included from Jan. 1, 1902.

These figures include \$634 appropriated for betterments and additions to properties and equipment in Jan., 1903, and \$4,142 from July 1 to date.

§ These figures include \$1,797,244 appropriated for betterments and additions to properties and equipment in Jan., 1903, and \$12,575,026 from July 1 to Jan. 31.

† Interest on advances by Southern Pacific not taken into account, but figures include \$43,739 appropriated for betterments and addi-tions to properties and equipment in Jan., 1903, and \$68,431 from July 1 to date.

STREET BAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to ob-tain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads-that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month, STREET PATTWAVE AND TRACTION COMPANIES

w Beginning with December results are for Intern'l Traction Co. System, which now owne all the operating companies included in the International Railway Co. † Beginning with August results for 1902 are for Cincinnati Newport & Covington Light & Traction Co. Figures for year to date seem also to have been revised at same time.

These are results for properties owneo.
These figures are from March 20th to January 31.
n These earnings include the Detroit United Ry., Detroit & Port Huron Shore Line and the Sandwich Wind or & Amherstburg Ry.
r These figures are from Mar. 1 to Jan. 31.
s Figures for 1901 were unusually large owing to the South Carolina Inter State Exposition at Charleston.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads-that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday), we bring together all the roads furnishing re-turns, and the latest statement of this kind will be found in the CHRONICLE of Feb. 21, 1903. The next will appear in the issue of Mar. 21, 1903.

(Report for year ending Dec.31, 1902.)

The remarks of President George J. Gould, relating more particularly to the financial operations of the year, will be found on pages 599 to 601.

Touching the year's traffic, Vice-President Charles G. Warner says in substance:

ner says in substance: Passenger traffic has again shown a material increase, making the sixth successive year with increased earnings. The earnings from passenger business, excluding mail and express, increased 7.5 per cent; the number of miles run by passenger trains increased 5.9 per cent, and the number of passenger cars moved increased 10.4 per cent. While competition has been greater than in the past, es-pecially in St. Louis Iron Mountain & Southern territory, the step taken during the year by the inauguration of cafe and dining car service over practically the entire system, is believed, indirectly, to influence passenger traffic to a great extent, which will be more no-ticeable as the service is brought to the attention of the public. The aggregate tonnage of revenue freight moved in 1902, which shows an increase of 1,054,918 tons, equal to 81 per cent over pre-vious year, suggests, with few exceptions, continued general prosper-ity in trade conditions. The total number of tons carried one mile increased 2.8 p. c. Earnings from revenue freight, excluding rent and miscellaneous, increased 0.5 per cent; earnings per freight train mile increased 6:5 per cent, including rent and miscellaneous. The average number of tons in each train increased 9 per cent. The av-erage rate per ton per mile was :807 cents, contrasting with :825

average number of tons in each train increased 9 per cent. The av-erage rate per ton per mile was '807 cents, contrasting with '825 cents in 1901, a decrease of 2.2 per cent. The decrease in movement of grain and flour, 304,754 tons, over all lines is accounted for by a limited wheat crop and the poor condition of the new corn crop, which delayed shipments for export. Lumber traffic shows a gain of 70.336 tons over all lines. Live-stock tonnage decreased 64,997 tons. While there was an increased movement of cattle, there was a shortage of about 4,000 cars in shipment of hogs, the indirect result of failure of corn crops in 1901. There was also a marked decrease in shipment of horses and mules as compared with last year, when there were unusually heavy export shipments for milharked decrease in shipment of norses and miles as compared with last year, when there were unusually heavy export shipments for mil-itary purposes. A good cotton crop in Arkansas resulted in an in-creased movement of 36,185 tons of that commodity. Commercial coal traffic increased 484,481 tons, the demand being stimulated dur-ing latter part of year by stringency throughout the West, due to labor troubles in the anthracite coal fields. The establishment of new industries and the full operation of all created an increased demand for fuel coal. for fuel coal

The following is a classified statement of freight carried during 1902, as compared with 1901 and 1900:

MISSOURI PACIFIC RYTONS CARRIED (000s omitted).
Year Tota . Lumber. Live Stock. Grain & Flour. Coal.
19028,388 535 (64%) 542 (65%) 1,394 (16.6%) 2,091 (24.9%)
19017,776 525 (6.7%) 597 (7.7%) 1,705 (21.9%) 1,627 (20.9%)
1900 6,895 475 (5° 9%) 552 (8° 0%) 1,451 (21° 1%)
ST. LOUIS IRON MOUNTAIN & SOUTHERN (030s omitted).
Year. Total. Lumber. Lice Stock. Bulk Grain. Ooal.
19027,298 1,773 $(24 \cdot 2\%)$ 77 $(1 \cdot 1\%)$ 868 $(11 \cdot 9\%)$ 931 $(12 \cdot 8\%)$
19016,948 1,708 (24.6%) 90 (1.3%) 1,004 (14.4%) 878 (12.6%)
1900 5,846 1,470 (25.2%) 101 (1.7%) 655 (11.2%)
Statistics The statement of operations and earnings of
the combined Missouri Pacific and St. L. I. M. & So. systems

(including the Central Branch Ry., etc.,) for three years is

North American Lumber & Pulp Co.

(Report for the year ended Dec. 31, 1902.)

The report of this company for the late fiscal year, with full particulars regarding its increasing business and promising outlook, will be found on page 603 of this issue of the CHRONICLE.-V. 76, p. 545.

American Cement Co. of New Jersey.

(Report for year ending Dec. 31, 1902.)

President R. W. Lesley says in substance :

OUTPUT.—During the year the expenditures for maintenance and improvements have been unusally heavy. The efficiency of the works is evidenced by the increase in the output of cement from 1,051,881 barrels in 1901 to 1,178,566 barrels in 1902, whilst the total sales of all the subsidiary companies, including foreign and other cements handled through the selling companies, reached the sum of nearly 1,500,000 barrels 1,500.000 barrels.

CENTRAL CEMENT CO. - In the last annual report reference was made to the necessity for increasing your output. This was accomplished by the creation, in your interest, of a corporation chartered as the "Central Cement Co.," which erected on your lands in Lehigh County "Central Cement Co.," which erected on your lands in Lehigh County an eight-kiln plant of the most approved construction and equipment, having an estimated capacity for the production of 500,000 barrels of Portland cement annually and capable at a small cost of being in-creased to a capacity of 600,000 barrels by the addition of two kiins. This mill was put in operation in September and in the month of Nov-ember produced over 43,000 barrels. The moneys required for the new plant were advanced almost entirely by individuals interested in your own company, and agreements were negotiated in such form as to put your company in practical control of its output and ulti-mately to make it the owner of the plant. The board has now under consideration a plan for the erection of a mill on your lands near Norfolk, Va., under a somewhat similar finan-cial plan.

cial plan.

claiplan. PRICES.—Cement prices touched their lowest point in the early spring of the present year. Under the influence of an enormous con-sumption a rapid rise set in, which culminated in September in fancy prices for cement for immediate delivery. The contracts now on our books for delivery in 1903 and 1904 are almost without exception at prices considerably above the average of the last two years, and the trade outlook is entirely favorable. There will, however, be some in-crease in the cost of production.

SUBSIDIARY COMPANIES .- The net earnings of the subsidiary companies for the year ending Nov. 30, 1902, were \$281,480; estimated net earnings of Central Cement Co. for the month of December, 1902, \$15,000-total, \$296,480. The bond interest (\$500), sinking fund, etc. (\$1,667), of the Central Cement Co. for one month called for \$2,167.

The results for the calendar years 1902 and 1901 compared with those for the sixteen months ended Dec. 31, 1900, are as follows:

American Ice Company.

(Report for the year ending Dec. 31, 1902.)

According to the press reports, President Schoonmaker at the annual meeting said in substance:

the annual meeting said in substance: Our business during the year failed to meet expectations; this may be attributed to the low temperature during 1902 and to the coal strike. The company made a better showing, however, than its com-petitors. There was carried over from last summer nearly 1,000,000 tons of ice. This ice can be sold for enough to liquidate the floating debt. The price of ice was abnormally low because of unwarranted newspaper attacks. The coal strike prevented the company from em-barking in the coal business in New York, as in Boston, Philadelphia and Baltimore. The development of the artificial ice business ren-dered much of the company's property useles. Of the \$5,000,000 bonds authorized, \$2,500,000 were sold at 95 and interest; the proceeds were applied to the company's floating debt, caused by the acquisition of properties. The remainder is to be used to retire maturing mortgages and bonds. The company acquired at the outset some unnecessary properties, but these are being disposed of and unnecessary salaries have been cut off. The company was never in a better position to conduct its business is in view. The sales of the Boston Ice Co. for the year 1902 showed as little or less falling off than any other constituent company of the American for February, 1902. The falling off in the Boston business last year was due principally to the temperature then prevailing. The balance sheet which follows shows a profit and loss

The balance sheet which follows shows a profit and loss deficit of \$162,482 on Dec. 31, 1902, against a surplus of \$658,870 the preceding year.

New York & New Jersey (Bell) Telephone Co.

(Report for the year ended Dec. 31, 1902.)

President Charles F. Cutler says in substance: GENERAL RESULTS.—The early part of 1902 was a season of unusu-ally destructive storms, entailing heavy expenditures for repairs. The disastrous conflagration in Paterson, N. J., on Feb. 9, was fol-lowed on March 2 by an overflow of the Passaic River, a considerable amount of our plant in the streets being destroyed or seriously dam-aged. On the night of Feb. 21 a most destructive sleet storm pros-trated our overhead lines, southern New Jersey and middle Long Isi-and being completely out off from telephone communication for from trated our overhead lines, southern New Jersey and middle Long Isi-and being completely cut off from telephone communication for from four to six weeks. At the same time substantially our whole force of linemen left our service without a moment's notice. The actual cost of repairing and rebuilding the prostrated lines [\$267,505] was charged against earnings, while the loss of revenue through the inter-ruption of service is estimated at about \$100,000. Otherwise the net earnings should have been at least \$365,000 above the amount shown.

PUPIN INVENTION AND UNDERGROUND LINES.-During the summer an experimental installation of the Pupin invention, the exclusive an experimental installation of the Pupin invention, the exclusive control of which was lately acquired by the American Ball Telephone Oo., was made upon this line with most encouraging results. The trunk line conduit has been extended from Newark to Elizabeth, and further large extensions have been planned reaching Passaic and Paterson in New Jersey and east to Jamaica in the Long Island di-vision. In co-operation with the New York Telephone Co., compre-hensive plans have been wrked out by which all the suburban points within a radius of 20 miles of New York will be connected through underground cables, thus protecting the entire suburban toll service against interruption. Prior to the Pupin invention it was not pos-sible to communicate successfully through underground cables of such length.

such length. The above-mentioned plans contemplate the equipment of all cen-tral offices within this radius with the common battery switchboard of type similar to that now in use at the larger exchange centres. It of type similar to that how in use at the larger exchange centres. It is hoped that the principal part of the above work can be completed during 1903. Upon its completion it is expected that trunk connec-tions within the above area can be established with the same prompt-ness as now characterizes the local service in the best exchanges. Among the important improvements completed in 1902 was the conversion of the exchange plant in Elizabeth, N. J., from overhead to a complete underground system.

PURCHASE.—An addition was made by the purchase of the plant and business of the Hudson River Telephone Co. in Sussex County, N. J. New STOCK.—By authority of the board, under date of Sept. 25, 1902, \$3,125,000 of new stock was offered to the stockholders at par. About two-thirds of the amount was paid for on Nov. 1, leaving \$1,-069,900 to be issued during 1903. We enter the year 1903 with a pro-vision of \$2,211,054 for construction purposes. This, with the antici-pated surplus earnings, should about meet the construction require-ments of the year.

pated surplus earnings, should about meet the construction require-ments of the year. There was invested py the company during 1902 in extension of plant and equipment, \$1.712,502; real estate, \$239,285. Of the amount invested in plant, \$821,561 was expended in extension of the underground conduit and cable system. Estimates for 1903 contem-plate the expenditure of about \$600,000 in real estate; \$450,000 in improved central office apparatus and \$1,347,000 in underground conduit and cable extension.

COMPETITION INSIGNIFICANT.—Regarding competition, it may be said that while the few unimportant systems heretofore established still keep up a struggling existence, there are no evidences of new life or further development. In fact, on the whole, there are less stations connected to those systems than at the date of our last report.

The earnings for three years past and the balance sheets of Dec. 31 compare as follows:

Western Stone Co., Chicago, Ill.

(Report for the year ended Dec. 31, 1902.)

President Martin B. Madden says in substance under date of Jan. 21:

of Jan. 21: The year 1902 has been somewhat more active in the building trades; than any since 1895. The company has participated in the increased activity and but for the damage caused by heavy rains of last summer, which flooded the quarries, the result would have been at least \$30,000 better than fit is. The bonded debt which at the last meeting was \$480,000 has been reduced to \$272,000; the mortgage debt of \$46,000 has been paid in full; the bills and accounts payable have been reduced from \$35,182 to \$63,449. The payment of the indebtedness above referred to, together with other economies which have been introduced, will cause an annual saving of \$20,000. I have reason to hope that the company is entering upon an era of greater prosperity than it has enjoyed for some years past. The physical condition of the plant is excellent and well adapted to meet the in-crease in business which improved conditions lead me to hope for. The available surplus for the year 1902 amounts to \$97,819 and consists of: Stone, merchandise and stripping, \$97,895; bills, accounts receivable and cash, \$73,374; making a total of \$161,268; deduct bills payable and accounts payable, \$63,449; balance, \$97,819. GENERAL INVESTMENT NEWS.

BAILBOADS, INCLUDING STREET BOADS.

Alabama New Orleans Texas & Pacific Junction Rail-ways.-Report.-The report for the calendar year 1902 shows: Income from investments, (net) £140,865, against \$114,599 in 1901; balance brought forward £931; total £141,796. Deiuct general expenses and income tax £11,702; interest on "A" debentures £35,-180; interest on "B" debentures at £5 per cent, £49,197; interest on "O" debentures at £5 per cent; [contrasting with £2 12s, 6d. in 1901] £37,599, leaving to be carried forward £7,715. From the investments in the New Orleans & Northeastern DB.

RR. there was received £98.871 against £88,891 in 1901; in Vicks. Shreve & Pacific Ry. £35,522, against £7,101 in 1901.-V. 76, p. 434.

Albany & Hudson RR.-Successor. - This company was incorporated at Albany on March 12 with \$2,000,000 authorized stock (\$1,000,000 preferred) as successor, per plan in V. 75, p. 847, of the Albany & Hudson Ry. & Power Co., foreclosed. See STREET RAILWAY SUPPLEMENT.

Officers: The officers and directors are:

Clinton L. Rossiter (President), A. M. Young (First Vice-President), H. G. Runkle (Treasurer), Foster M. Voorhees, W. F. Sheehan, R. A. O. Smith, Horace E. Andrews, Seth L. Keeney, Henry Selbert. The Sec-ond Vice-President and General Manager is George G. Blakeslee, and the Secretary, L. B. Grant. Transfer Agent, Long Island Loan & Trust Co. Registrar and Trus-tee under Mortgage, Colonial Trust Co.-V. 76, p. 381, 265.

Milwankee Benton Harbor & Columbus RR.-Sold.-See Pere Marquette RR. below.-V. 71, p. 751.

Union Pacific RR.-See Southern Pacific Co. above,-76, p. 384

South Haven & Eastern RR.—Sold.—See Pere Marquette RR. above. Albany & Hudson Ry. & Power.—Successor.—See Albany & Hudson RR. above.—V. 76, p. 381, 263.

Atlantic Coast Line Ry.—Listed.—The New York Stock Exchange has listed \$35,60,000 common stock; also \$28,260,-000 first consolidated mortgage 50 year bonds of 1902; and has authorized the listing from time to time, prior to July 1 next of \$2,774,000 additional bonds when issued in exchange for outstanding certificates of indebtedness.--V. 76, p. 541, 211.

Atlanta (Ga.) Terminal Co. - Union Station. - This com-pany, chartered in Georgia, Feb. 11, 1903, with \$25,000 of authorized capital stock, is having plans prepared for its proposed Union Station at Atlanta for the roads entering that city. The real estate was acquired for \$675,000, the tation building train shed and tracks or estimated to est station building, train-shed and tracks are estimated to cost about \$800,000. The company will issue \$1,500,000 of 4 per cent bonds. J. W. English is President.

Ballston (N. Y.) Terminal RR.—New Mortgage.—The New York State Railroad Commission has approved the execution of a mortgage to secure \$1,500,000 of 5 p. c. \$1,000 gold bonds, dated March 1, 1903, and due March 1, 1933, without option of earlier redemption; interest, M. & S; trustee, Citizens Savings & Trust Co. [of Cleveland ?]. A portion of the new issue is reserved to take up the existing \$385,000 bonds. See STREET RAILWAY SUPPLEMENT. -V. 76, \$385,000 bonds. p. 265.

Belvidere-Dalaware RR.--The New York Stock -Listed.-Exchange has listed \$1,000,000 consolidated mortgage guaranteed 3½ per cent bonds of 1943. See description and offer-ing in V. 76, p. 47.

Birmingham (Ala.) Railway, Light & Power Co.-New Stock.—The shareholders will vote April 15 on increasing the capital stock from \$5,000,000 to \$6,500,000, to provide for improvements and additions.—V. 74, p. 426.

Buffalo Rochester & Pittsburgh Ry.—Change in Place of Coupon Payments.—The coupons of this company and of the subsidiary companies, which were payable at the Union Trust Co. the Guaranty Trust Co. and the Gallatin National Bank, are all payable at the present time at the office of A. Iselin & Co., No. 36 Wall St.—V. 76, p. 381, 157.

<text><text><text><text><text><text><text><text><text>

New BONDS.-The Buffalo & Susquehanna Ry. Co. first mortgage 4¹sp. c. 50-year gold bonds, in addition to the security given by an absolute first mortzage lien on the entire terminal and railroad prop-erty in New York State, are to be further secured by assignment to the trustee of the contract with the Buffalo & Susquehanna Iron Co. (CHEONICLE, Y. 74, p. 1040) and by ideposit of the entire common stock of the present Buffalo & Susquehanna R*. Co., the amount of which upon the completion of the line to Sykesville will be \$4,500,000. The railroad company during the past seven years has paid dividends on its stock at the rate of 5 p. c. and has accumulated a surplus of about \$500,000. The railroad company has in its treasury, in addi-tion to new capital set aside for construction purposes, cash or its readily convertible equivalent, representing accumulated earnings and reserve funds, amounting to about \$300,000. CAPITALIZATION, EARNINGS, ETC.-The capitalization and fixed charges when these plans are carried out will be as follows: *Capitalization*.

\$20.589.500. Total.

Baffalo & Susquehanna Railway.-Successor Company.-See Buffalo & Susquhanna RR. above.-V. 75, p. 665.

Canton-Akron (Electric) Ry.—New Stock.—The company has filed a certificate of increase of capital stock from \$1,600,-000 to \$2,000,000, to provide for double tracking and other improvements.—V. 75, p. 1353.

Cleveland & Southwestern Traction Co.-Bonds Sold.-The company has sold to Lamprecht Bros. & Co. the \$500, 000 of 5 per cent bonds which were issued by the company in place of the Cleveland & Southern bonds. The line between Medina & Wooster will be completed as rapidly as possible. -V. 76, p. 265, 212.

Eastern Ohio Traction Co.-New Stock.-The sharehold-ers will vote April 9 upon a proposition to issue \$300,000 5 p. c. preferred stock in order to provide funds for improve-ments.-V. 74, p. 680.

Fort Worth & Denver City Ry .--Maximum Dividend.dividend of 4 p. c. has been declared on the preferred "stamped stock," payable out of the surplus earnings of the year 1902, contrasting with 2 p. c. in 1901 out of the earn-ings of the years 1899, 1900 and 1901. The only other divi-dends were 2 p. c. each for 1897 and 1893. - V. 75, p. 607.

Guayaquil & Quito Ry.-See Ecuadorian Association (Ltd.) under "Industrials" below.-V. 75, p. 1031.

Indianapolis Street RR.-Amount of Bonds Outstanding. We are authoritatively informed that the amount of general mort. 5s authorized and outstanding is \$6,000,000; of first mortgage Citizens' Street Ry. 5s, \$4,000,000. Compare V. 76, p. 542.

Interborough Rapid Transit Co.-Brooklyn Plan.-See Rapid Transit in New York City below. Line to New Rochelle.-See N. Y. & Port Chester RR. be-

low.-V. 76, p. 480, 435.

Lehigh Valley Traction Co.—Purchase of Bridge.—The final payment of \$150,000 having been made, the company has taken over the stock of the Trenton City bridge.—V. 75, p. 290.

p. 290. Little Rock (Ark.) Traction & Electric Co.—Change in Control.—Isidor Newman & Son of New Orleans and New York have purchased control both of this company and of the Little Rock Edison Electric Light & Power Co. The latter company at last accounts had outstanding \$100,000 stock and \$130,000 bonds. Judge Hemingway will, it is stated, continue as President of the railway company. See STREET RAILWAY SUPPLEMENT, p. 48. -V. 74, p. 1089.

Louisville & Nashville RR.-Listed.-The New York Louisville & Nashville RR.—Listed.—The New York Stock Exchange has listed \$11,633,000 Louisville & Nashville-Southern, Monon^{*} collateral, 4 per cent joint bonds of 1952. There have thus far been acquired and pledged for the joint bonds \$3,800 000 of the \$5,000,000 preferred stock of the "Monon" and \$9,696,900 of its \$10,500,000 common stock, on account of which there have been certified \$12,702,300 of the joint bonds, of which \$11,683,000 are now listed. The bond issue is limited to \$15,500,000, of which \$2,110,000 are reserved to be issued for improvements and enlargements of bond issue is limited to \$15,500,000, of which \$2,110,000 are reserved to be issued for improvements and enlargements of the "Monon" (Chicago Indianapolis & Louisville Ry.) at not exceeding \$500,000 yearly, and \$687,700 (the balance unis-sued) for the acquisition of further "Monon" stock at \$90 and \$78, respectively, in bonds per share of preferred and common. See also V. 74, p. 1138.—V. 76, p. 158. Manila Electric Railway & Lighting.—Concession Awarded.—Private advices state that the concession for the street railway and lighting franchises in Manila, P. I., which was advertised by the Government in numerous papers and

was advertised by the Government in numerous papers, and was open to competition, has been awarded to a syndicate comprised of J. G. White & Co., 29 Broadway, New York; F. H. Buhl and P. L. Kimberley of Sharon, Pa.; Charles M. Swift of Detroit, Mich., and George C. Smith of Pittsburgh, Pa., representing the Westinghouse interests. The syndi-cate expects to expend about \$2,000,000 for the installation of the street railway and lighting plants in Manila. The construction will be carried out by J. G. White & Co. of New York, and Westinghouse apparatus will be used. The syndicate has also purchased all the existing tramways in Manila, and will control the entire street railway system in the city, the population of which is over 300,000.

Metropolitan Street Ry., New York City.—Official Statement.—Touching the charge that the company has been paying uncarned dividends and overstating its assets, expert Stephen Little on Wednesday said:

Stephen Little on Wednesday said: Some days ago I was asked by President Vreeland to consider a number of so-called charges which had been filed with the District At-torney by one W. N. Amory [formerly Secretary of the Third Av. RR. Co.]. I found that the charges were based upon the reports of the Metropolitan Street Railway Co. and its allied companies to the State Railroad Commissioners and upon one statement made by the Metro-politan Company to the Stock Exchange upon an application to list an issue of its bonds. It was claimed by the framer of the charges that these documents were inconsistent, and revealed disorepancies. My investigations made it absolutely clear that every one of the charges were preposterous and false. President Vreeland says: "Not one of the charges is true; the condition of this company is precisely as we have repre-

the condition of this company is precisely as we have repre-sented it to be. We shall spare no effort to bring to justice the men who are responsible for this malicious and criminal attack." The findings of John C. Hertle, ex-Commissioner of Accounts of this city, were filed in connection with the charge.--- V. 76, p. 542.

Missouri Pacific Ry.-New Directors.-At the annual meeting on Tuesday, John D. Rockefeller Jr. and James H. Hyde were elected directors in place of Gen. Louis Fitzgerald and Dr. John P. Munn Gen. Fitzgerald becomes a director the St. Louis Iron Mountain & Southern. The Missouri

Pacific board now includes: Geo. J. Gould, Russell Sage, Edwin Gould, Jas. H. Hyde, John D. Rockefeller Jr., Frauk J. Gould, Howard Gould, Samuel Sloan, E. Parmelee Prentice, Fred. T. Gates, C. G. Warner, Russell T. Harding and W. Bixby.

New Bonds .- See report on page 600.-V. 76, p. 543.

National Railroad of Mexico .- Standard-Gauging .--The work of standardizing the gauge of the main line has been completed from Laredo to San Luis Potosi, a total of 478 miles, or considerably more than one-half of the entire road. The line from Laredo to Corpus Christi, 161 miles, is also standard gauge. It is expected that the work will be com-pleted during the coming summer. -- V. 75, p. 1147.

New York & Port Chester RB.—Favorable Decision.— The Appellate Division of the Supreme Court at Albany on March 11 handed down a decision sustaining the State Railroad Commission in authorizing the company to construct an electric street railroad line from Harlem to Port Chester, through Mount Vernon and New Rochelle. The line will serve as a surface extension of the rapid transit (subway) system of the Interborough Rapid Transit Co., friends of the latter, it is understood, being interested. See also V. 74, p. 884.-V. 75, p. 185.

North Jersey Street Ry.-Lease.-Thomas A. Nevins, a director of the Elizabeth Plainfield & Central Jersey Railway, has made propositions on behalf of a syndicate to Railway, has made propositions on behalf of a syndicate to lease this company's system and adjacent roads for 999 years from July 1, 1903. The lessee company will, it is said, be known as the United New Jersey Railways, and be organ-ized with authority to issue \$50,000,000 of capital stock. A guaranty fund of \$4,000,000, it is stated, will be placed in the hands of a trustee to ensure the performance of the condi-tions of the leases. At a meeting on Thursday the following committee was appointed to coordiant the performance subcommittee was appointed to consider the propositions sub-mitted and report thereon in due course:

E. F. C. Young, John D. Crimmins, A. J. Cassatt, Randal Morgan, John I. Waterbury, Thomas N. McCarter.

The roads proposed to be leased and the rate of dividends to be paid yearly on their stock after the end of the first year (in which no dividends are payable) will, it is unofficially reported, be as follows:

Stock. North Jersey St. Ry.......\$15,000,000 Jersey City Hobok. & Pat. 20,000,000 Ellza. Plainf. & Cent. Jer. 3,000,000 Orange & Passaic Valley.. 1,000,000

Dividends after first year. 16%, rising to 4% in 1914-15 19%, rising to 3% in 1914-15 16%, rising to 4% in 1914-15 19%, rising to 3% in 1914-15

It is claimed that the North Jersey Street Railway Co. is losing from \$1,000 to \$2,000 a day because it has not cars enough to carry the people who wish to ride. The syndicate is said to include U. S. Senator John F. Dryden and Pruden-tial Life Insurance Co. interests. -V. 76, p. 382.

Old Colony RR.-Stock at Auction.-The \$300,000 new stock will be sold at auction in Boston on March 18 at 11:30 A. M. by R. L. Day & Co., auctioneers.-See V. 76, p. 480.

Pennsylvania RR.-Annual Meeting - New Securities, Etc. Authorized.—The shareholders at the annual meeting on Tuesday ratified the acquisition of the South Fork, West-chester, River Front, Western Pennsylvania, Turtle Creek Valley and Downington & Lancaster railroads; also the lease of the Western New York & Pennsylvania RR for 20 years from August, 1903.

They also voted to increase the limit of the issue of cap-They also voted to increase the limit of the issue of cap-ital stock from \$251,700,000 [of which about \$236,000,000 is outstanding or reserved for the conversion of convertible bonds] to \$400,000,000 by the addition of 2,966,000 shares, par \$50, to be issued at a price not less than par. The company was also given permission, if at any time deemed advisable, to issue \$50,000,000 of the proposed increase in bonds con-

The improvements and additions to vertible into stock. which it is proposed to apply some portions of the new stock during the next three years are fully described in the annual report as published in the CHRONICLE of Feb. 28, pages 484-488. Further explaining the company's capital requirements, Captain John P. Green, First Vice-President, said :

Captain John P. Green, First Vice-President, said : Owing to the demands upon the company for extraordinary im-provements, great additions to its motive power and equipment and other corporate purposes, it was found necessary in 1901 to issue \$50,000,000 of stock to the shareholders, and in 1902 there were is-sued \$50,000,000 of convertible bonds, which have the right of con-version into stock; so that practically the action taken by the board in these two years has resulted in the issue of \$85,000,000 of the \$100,000,000 of stock which was authorized in 1901. While this may seem a large amount of money to be expended in two years, I think the shareholders realize that never oeffore in the history of this company have such demands been made upon it by its shippers and by the communities which it serves. As the board frankly states in its report, the company has estimpty been unable to meet these demands; not that we have not been diligent in the past in providing additional facilities, yards and terminals, and in adding to our enginee and cars; in the last eighteen months we have practically added about 40,000 freight cars to our equipment, and we are getting a new engine every day in the year, and have been doing that for prac-tically two years past. In the Pittsburgh district especially the congestion has been such that no railroad running to that centre has been able to zive the ship-pers the facilities that they have a right to demand. This company must spend in that district alone certainly \$10,000,000. We have to build a new line called the Brilliant Line, in order to get the passen-ger trains of the Allegheny Valley Ry. and Western Pennsylvania RR, out of fue way of the freight business in Pittsburgh and Alle-gheny City. We have to four-track the entire system of the Pittsburgh division

ger trains of the Allegheny Valley Ry. and Western Pennsylvania RR. out of the way of the freight business in Pittsburgh and Alle-gheny City. We have to four-track the entire system of the Pittsburgh division and increase our yards and terminal facilities in all that territory. We have to build a new road from the summit of the Alleghentes to the Juniata Valley over which we can send our coal traffic east, and thus avoid Altoona and the congested yards at that point. We have practically to construct a new low-grade, double-track road from Har-risburg to Philadelphia. Our coal traffic has become so enormous that it must be kept out of our ordinary yards, out of the way of other merchandise. We have to revise our grades, six-track the line between Trenton and Newark, and further increase our motive power and equipment, and also provide a portion of the capital for the New York Terminal and the lines west of Pittsburgh. Therefore we ask that the authorized capital, which is now in round numbers \$250,000,000, shall beincreased to \$400,000,000; not that we propose to issue the other \$150,000,000 now, but we do propose to issue in the near future enough to take care of the absolutely neces-sary expenditures set out in the report. The board also asks that it may have the option, if it be to the interest of the company, to issue \$50,000,000 of the \$150,000,000 in convertible bonds instead of straight stock. This is not an increase of the permanent debt; it simply gives the board the choice of issuing \$50,000,000 directly in stock or in bonds which may be converted into stock thereafter. I believe that when the work outlined, which will stretch over probably three years, is completed, the Pennsylvania RR. will be in a position not only to handle the business that is presented, but it will also have provided for a reasonable increase in the near future, and we are satisfied that what we propose to do ought to be done promptly.

The increase in the capital stock will be voted on again at the election two weeks hence, because under the law no in-crease can be made in the authorized stock unless with the

approval of the majority of the holders of stock. *Tunnel Commissioners*.—Charles A. Whittier, Franklin A. Edson and John J. Delany have been appointed by the Ap-pellate Division to determine whether the route proposed for the company's tunnel connecting the North and East rivers should be approved.

Union Station in Washington.-See Philadelphia Balti-more & Washington RR. below.-V. 76, p. 543.

Pere Marquette R.R.—Chicago Extension.—The "Pere Marquette RR. Co." was incorporated in Indiana on March 9 with \$500,000 authorized capital stock, to build the proposed 40-mile extension to Hammond, Ind., (20 miles from Chi-

40-mile extension to Hammond, Ind., (20 indes from One cago. See V. 76, p. 383.) To Build Bridge.—The Pere Marquette International Bridge Co. was incorporated in Michigan on March 6 with \$500,000 authorized capital stock to bridge the Detroit River at Detroit. See V. 76, p. 430. Purchases.—In connection with the plan to establish a di-

rect line between Chicago and Buffalo, it is announced that the company has purchased the following lines:

Miles.	Stock.	Bonds.
South Haven & Eastern RR., Lawton to		
South Haven, Mich	\$218,500	\$216,000

Benton Harbor Coloma & Paw Paw Lake	and they do	
Tramway	Not repor	ted.
-V. 76, p. 480.		

Philadelphia Baltimore & Washington RR.-Wash-ington (D. C.) Terminals.-The Act of Congress approved Feb. 28 provides for the construction in Washington, D. C., Feb. 28 provides for the construction in Washington, D. C., on Massachusetts Avenue, north of the present site of the B. & O. depot, of a union passenger station, "monumental in character" and to cost not less than \$4,000,000, for the accommodation of the passenger traffic of both the Balti-more & Onio RR. Co. and the Philadelphia Baltimore & Washington RR. Co. The Act eliminates grade crossings, removes the railroad from the Mall and greatly increases the railroad facilities in the city. The Philadelphia Baltimore & Washington in return for its old passenger station and other considerations is to receive \$1,500,000 from the United States Government. The Act of Feb. 12, 1901, stands ex-cept as modified by the present Act. The total cost of the improvements, including the new Long Bridge, it is said, will be about \$14,000,000. Compare Phila. Wilm. & Balt., V. 74, p. 152; V. 72, p. 933.-V. 75, p. 1355. Quebec Central Railway.-New Securities.-The London

Quebec Central Railway.—New Securities.—The London Stock Exchange has been asked to quote a further issue of £115,150 3 per cent second debenture stock (redeemable); and £115,150 new income bonds of £50 each—V. 75, p. 80.

Railroad Construction.—Prospects.—The annual Con-struction Supplement to the "Railroad Gazette," published this week, will show that in the United States, Canada and Mexico the total number of projects under contract or building is this year 25 per cent more than last year and larger than has ever before been recorded.-V. 76, p. 49.

Rapid Transit in New York City.—Complete System for Brooklyn.—Chief Engineer Parsons on Thursday submitted to the Rapid Transit Commission his report on a proposed complete system of tunnel, etc., for the Borough of Brook-lyn, in all 37 miles of new road, 120 miles of track; total cost about \$52,000,000. See "Brooklyn Eagle" of Thursday evening. V. 75, p. 240.

St. Joseph (Mo.) Ry. Light, Heat & Power Co.—Bonds.— This company's bonds purchased and recently offered by Redmond, Kerr & Co., New York, and Graham, Kerr & Co., Philadelphia, jointly, are dated Nov. 1st, 1902, and are due Nov. 1st, 1937; interest payable on May 1st and Nov. 1st at the office of R€dmond, Kerr & Co. See further particulars in V. 76, p. 480 and V. 75, p. 1032.

St. Louis Transit Co.-Report.-The results for the year ending Dec. 31 were:

Year- Gros	18. Ne	t. Int.,ren	tals, etc.	Balance.
1902 \$6,452	2,219 \$2,48	4,498 \$2,75	2,581 def.,	\$268,083
1901 5,783	3,912 2,09	1,512 2,61	7,142 def.,	525,630
-V. 74, p. 677.				

Southern Pacific Co.—Proxies Asked—Dividends Desired, Talbot J. Taylor & Co., brokers for James R. Keene, have ant out a circular soliciting proxies in the names of Talbot sent out a circular soliciting proxies in the names of Talbot J. Taylor and James B. Taylor, for use at the annual meet-ing on April 8. The circular, which was given in full in the New York "Sun" of March 12, contends that earnings have been unduly diverted to improvements and that the shareholders are entitled to dividends. A pool represented by the firm acquired last fall a very large block of the stock, and issued an elaborate compilation regarding the position and prospects of the property. Recently the members of the pool took over, it is understood, their pro rata share of the pooled stock remaining unsold, in the aggregate it is said between 200,000 and 300,000 shares. The "New York Herald" of March 13 published the text of the pooling agree-ment which speaks of the desire to purchase 400,000 shares, but "not less than 200,000 shares."] sent out a circular soliciting proxies in the

Friends of the management claim that the expenditures for improvements, involving the replacement of old light-weight rails, bridges and rolling stock, by their heavy modern substitutes, is absolutely essential, and should be continued for some time to come if the system is to be brought up to a standard equal to that of other trunk lines for the economical transaction of business

transaction of business. Restraining Order.—At Cincinnati, O., on March 13, Judge Horace H. Lurton of the United States Circuit Court issued an order temporarily restraining the Union Pacific from an order temporarily restraining the Union Pacific from voting any capital stock of the Southern Pacific. The order is returnable April 1. Judge Lurton expresses no opinion upon the merits of the case "further than to say that it seems to me that the complainants are entitled to have the status preserved until they can give notice and be heard upon an application for a preliminary injunction." A director of the Union Pacific RR. Co. is quoted as say-ing: "Even if such an injunction were issued the present management would have a majority of outstanding stock. I do not believe that any one takes the matter seriously."—V. 75, p. 1404, 1401.

United Railroads of San Francisco.—Listed.—The New York Stock Exchange has listed the \$20,000,000 4 per cent sinking fund coupon bonds of 1927.—V. 76, p. 160.

sinking fund coupon bonds of 1927.-V. 76, p. 160. Washington Baltimore & Annapolis Electric Ry.-Syn-dicate.-It was originally estimated that the Baltimore-Washington line, and the Annapolis branch, would cost \$1,150,000, and the Berwyn-Laurel line \$198,000. It is now found that an investment considerably greater than these amounts (underwritten by a Cleveland syndicate) is desirable for the purpose (1) of making the road equal in character to that of the best steam roads; (2) to acquire, if possible, an independent entrance into Baltimore, and (3) to acquire the Annapolis Washington & Baltimore RR. The stock of the last-named road cost \$367,400, and to equip the line for elec-tric service will increase the outlay to \$600,000. Pending the final financing of the enterprise the members of the original syndicate have been offered by circular the privilege of besyndicate have been offered by circular the privilege of be-coming a member of the syndicate that purchased the A. W. & B.-V. 76, p. 104.

INDUSTRIAL, GAS AND MISCELLANEOUS.

American Axe & Tool Co.-Bonds.-This company, incorporated in Kentucky in 1889 and re-incorporated in Pennsylvania in 1897, is proposing to make an issue of \$700,000 bonds. The capital stock is \$3,000,000 in \$50 shares; no bonds. No dividends, it is said, are being paid. C. W. Hubbard Jr., Pittsburgh, is President and Treasurer. -V. 70, p. 998.

American Ice Co.—Annual Meeting.—At the annual meet-ing on Tuesday the minority shareholders were represented by F. J. Winston, who voted about 7,000 shares. President Schoonmaker voted 160,000 shares in favor of the following ticket for directors, which was elected, C. W. Morse being restored to the board :

John R. Bennett, I. O. Blake, Oren Dennett, D. W. Hunt, E. D. Haley, R. W. Hopkins, Henry H. Head, Wesley M. Oler, John D. Schoonmaker, C. W. Morse and Robert A. Scott.

As the shareholders present displayed a desire to examine critically into the year's transactions, the management caused tion into the same and naming John A. Sleicher, G. Clement Goodrich of Baltimore and Thomas Sturgis of New York to conduct it.

Report.-See page 596.-V. 75, p. 1304.

American Malting Co.—Reorganization Plan.—The re-organization committee, consisting of Frederick Uhlmann, Chairman; Temple Bowdoin, John G. Jenkins and Walter G. Oakman, with Louis Lee Stanton, Secretary, 25 Broad St.-announces under date of March 5 that a plan of reorganiza, tion has been prepared "in fulfilment of the assurances here-tofore given the stockholders." In order to share in the benefits of this plan, stockholders must surrender their stock in exchange for certificates of deposit to the depositary, the Standard Trust Co., 25 Broad St., not later than April 4, 1903; Standard Trust Co., 25 Broad St., not later than April 4, 1903; and bondholders, in order to be entitled to the security af-forded by the proposed reorganization sinking fund, must, when notified, present their bonds to the depositary to be stamped. (See advertisement on another page.) The plan is based on the showing of the last annual report (V. 75, p. 1085), namely: Profits for the year 1901-2, \$751,470; interest, taxes and depreciation, \$427,716; balance, surplus, \$323,754; also cash on hand \$2,461,862 and net working capital \$5,845,380, substantially the same status, it is stated, re-maining to-day. maining to-day.

Under the plan the American Malting Co. or the successor company possessing substantially all the property of the present company is to be capitalized as follows:

Existing underlying mortgages to be assumed	\$256,000
Existing 6 per cent gold mortgage bonds of 1899, to be	
assumed [subject to call at 105; present sinking fund	

Con

Holders of the existing stock deposited under the plan will be entitled to receive in exchange for their present holdings:

Be entitled to receive in exchange for their present holdings: HOLDERS OF OLD PREFERRED STOCK [\$14,440,000] IF DEPOSITED. a - An amount of new preferred stock equal to 35 p. c. of their pres-ent holdings at par.<math>b.-Dividends from time to time in preferred stock to the aggregateof \$3,861,000 in amounts at par equal to the amounts of said 6 p. c.mortgage bonds redeemed, and to the amounts paid out of earningsfor new plants or other like property or added permanently to work-ing capital, but in each instance not less than \$100,000, and only incase the new company shall not be in default in respect of cash divi-dends on its preferred stock.HOLDERS OF EXISTING COMMON STOCK [AGGREGATING \$14,500,000].

HOLDERS OF EXISTING COMMON STOCK [AGGREGATING \$14,500,000] IF DEPOSITED. a.-In new common stock an amount equal to 25 p. c. of their pres-ent holdings. b.-Dividends from time to time in common stock to the same amount as and concurrently with the dividends payable in preferred stock on the preferred shares as above described.

Opposition .- Archibald A. Hutchinson and Victor K. Mc-Elheny Jr. request the shareholders to confer with them be-fore consenting to the plan. A circular letter will be ready March 16.

Decision Reversed.—The Court of Errors and Appeals at Trenton, N. J., on March 11 reversed the decision of the Court of Chancery in the suit of Aaron Appleton and Wil-liam W. Bennett, and upheld the right of the plaintiffs to bring suit to compel the directors to restore to the company the amount which mere distributed as dividends in 1807 the amounts which were distributed as dividends in 1897-1899, and which are alleged to have been taken from capital and not from earnings. The case will now go to a final and not from earnings. hearing.-V. 75, p. 1149.

American (Bell) Telephone & Telegraph Co.-Copitolization of Licensee Companies. - Under date of Oct. 31, 1902, this company made a statement to the New York Stock Exchange, showing the outstanding capital stock of each of its licensee We companies, and the amount thereof in its own treasury. have revised these figures to date, assuming in each case that the parent company has subscribed to its full pro rata share of the new stock issued. We have also supplied the data regarding dividends, outstanding bonds and telephones, and give the whole in tabular form as follows :

The territory served by each of the licensees was described in the CHRONICLE of Dec. 2, 1899 (page 1149). Since that time there have been the following consolidations:

Sunset T. &. T. Co., Pacific T. & T. Co., Inland T. & T. Co. and Oregon T. & T. Co. as Pacific States T. & T. Co., Cumberland T. & T. Co. has absorbed East Tennessee and Ohio Valley companies. Hudson River T. Co. has absorbed Troy T. & T. Co. and the Central Pennsylvania Telephone & Supply Co. has been merged with the Pennsylvania Tele-phone Co. phone Co.

Important Results with the Pupin Patents.-See report of New York & New Jersey Telephone Co. on page 592.-V. 76, p. 382, 214.

American Seeding-Machine Co.-Consolidation.-This company has been incorporated under the laws of the State of New Jersey, with an authorized capital stock of \$15,000,-000, viz.: \$7,500,000 of 7 p. c. cumulative preferred stock and \$7,500,000 of common stock; par value of shares, \$100. The company has this week acquired the plants and other assets of the following companies:

Superior Drill Co. of Springfield, Ohio, Boosler Drill Co. of Rich-mond, Ind., Empire Drill Co. of Shortsville, N. Y., Bickford & Huff-man Co. of Macedon, N. Y., and Brennan & Co. Southwestern Agri-cultural Works of Louisville, Ky.

Of the authorized capital stock about \$6,000,000 of each class has been issued. There are no bonds or other liens, new or old.

The directors (and officers) are as follows:

Edward L. Buchwalter (President), James A. Carr (1st Vice-President), W. G. Munn (2d Vice-President), Frank C. Johnson (3d Vice-President), Burton J. Westcott (Treasurer), Richard H. Rodgers, A. M. Bentley, George McNeir, S. P. Ker. The Secretary is F. G. Colley. Executive Committee-President, Edward L. Buchwalter, James A. Carr, Frank C. Johnson, Burton J. Westcott, A. M. Bentley and W. G. Munn Munn.

The company's charter empowers it to engage in the manufacture of seeding machines and other agricultural imple-ments, and engage in any business incidental thereto. The headquarters of the company will be at Springfield, Ohio.

American Window Glass Co.- Glass-Blowing Machines.-The company announces that it will, on March 14, close all its factories for the purpose of equipping them with blowing machines made by the American Window Glass Machine Co. and the Window Glass Machine Company (see the former company below). The factories will be closed from six weeks to three months. The company states that it has more than one million boxes of glass in stock or sufficient to supply trade wants until the blowing machines have been installed.

The "Pittsburgh Gazette" gives the following information:

The "Pittsburgh Gazette" gives the following information: James A. Chambers, President of the company, states that the machines have exceeded the expectations of the inventors. At a re-cent test in the Alexandria plant a cylinder of glass three times the size of that blown by hand was produced at one-third the former cost. The machines operate with mathematical accuracy and with a rapidity that revolutionizes the work. There is little damage or delay by breakage, and the chance of loss in process is reduced to the minimum. The machines will enable the production of a variety of glass that was physically impossible under the old method. Comparatively few men are needed, and but a short time is required to acquire a knowledge of the operation. Experienced blowers only have to gauge the temper of their pots, and the machine does the rest-quickly, accurately and without imperfections. The cost of production will be reduced 40 to 50 per cent below that of the hand-made process. Every piece of the machinery has been protected by patent.-V. 75. p. 908. American Window Glass Machine Co.-Incorporated.-

American Window Glass Machine Co.—Incorporated.— This company filed articles of incorporation at Jersey City on March 6. Its authorized capital stock is \$20,000,000, of which \$7,000,000 is 7 per cent cumulative preferred. Three-quarters of the stock, it is said, will be held by persons in the American Window Class Co. Which see above. The inthe American Window Glass Co., which see above. The in-corporators are: Montford Mills, Grant Notman and Archi-bald G. Thatcher. The Window Glass Machine Co., capital \$40,000, was also incorporated with the same objects; incor-porators George E. Hargrave, William A. Eadle and Wil-liam H. Wilson Jr.

Buffalo & Susquehanna Coal & Coke Co.-See Buffalo & Susquehanna RR, under "Railroads" above.

Buffalo & Susquehanna Iron Co.-See Buffalo & Susquehanna RR. under "Railroads" above.-V. 75, p. 795.

Chattanooga (Tenn.) Light & Power Co.-Successor.-See Chattanooga Electric Co. above.-V. 71, p. 1271.

Crucible Steel Co.—New President.—On March 10 Frank B. Smith was elected President and General Manager, to succeed Reuben Miller, resigned. Third Vice President Park has also resigned.—V. 76, p. 481, 437.

Dominion Iron & Steel Co.-Earnings.-The earnings for January, 1903, are stated as follows: Farnings Bond General Ooal Oo. Rental

kink. Balance. Ocal Dep. Steel Dep. \$158,845 \$21,020 Interest. Interest. Rental. Fund. \$33,108 \$8,607 \$141,433 \$4,617 Deflcit. \$7,900

Preferred stock dividend \$29,166; balance, total deficit, \$37,067. The unfavorable showing is attributed to bad weather delaying coal shipments and to operation of only two of the three steel furnaces. Coal shipments in February, 1903, are reported as 199,803 tons, contrasting with 221,188 tons in January, 1903, with 313,947 tons in September, 1902, and with 146,158 tons in February, 1902.—V. 76, p. 544, 483.

Ecuador Company .- See Ecuadorian Association above .-V. 75, p. 293.

Ecnadorian Association, Ltd.—Exchange of Certificates.— The Ecuador Company, incorporated in New Jersey with a rominal capital of \$5,000,000, having acquired from this As-sociation, amongst other things, the benefit of and also the liabilities under the contracts relating to the construction of the Guayaquil & Quito Ry., recently offered through Glyn,

Mills, Currie & Co. of London to issue to holders of certifi-cates issued by the Association under the trust deed dated Jan. 31, 1903, fully paid shares of stock in that company in the proportion of one share of \$100 or \$100 stock for each \$400 represented by such certificates. The Ecuador Company was incorporated on Feb. 3, 1903, the incorporators being Benoni Lockwood Jr. and William S. Woodhull, New York; Harry A. Bingham, Oradell, N. J.-V. 75, p. 293.

Equitable Gas Light Co., San Francisco.—Options.—The prospective sale of the control of this company was noted last week (page 544). It now appears that an option has been obtained on Claus Spreckels companies, viz., the Inde-pendent Electric Light & Power Co. (V. 68, p. 671) and the Independent Gas & Power Co. (V. 75, p. 188). The Spreckels properties are supposed to have cost to date about \$4,000,000, and their option price is variously gressed to be from \$4,000,000. properties are supposed to have cost to date about \$4,000,000, and their option price is variously guessed to be from \$4,500,-000 to \$7,000,000. It is stated with considerable positiveness that the holders of the option are Kidder, Peabody & Co. and Stone & Webster of Boston and the Seligmans of New York. The option on the Equitable Gas Light Co., it is claimed, is sought by other interests, but the movement seems to be in the direction of a general merger. See San Francisco Gas & Electric Co. below.-V. 76, p. 544.

Fort Pitt Gas Co .- Denial .- President Joseph W. Craig is reported as denying the statement that his company is to be

reported as denying the statement that his company is to be absorbed by the Manufacturers' Light & Heat Co. *Extension, Etc.*—The building of a new pipe line 70 miles in length into Lewis County, West Va., is stated to be under consideration; cost probably about \$2,000,000. Pittsburg "Money" says: The company has about 90,000 acres of rich gas-producing terri-tory in Penneylvania and West Virginia. The company operates on the south side of the Monorgahela and Ohio rivers, including the South Side, Coraopolis, Monaca, Bridge Water, Rechester, Beaver and towns of the Beaver Valley as far as New Castle. The company also reaches the new town of Clairtcn. The only competition it has is the Ohio Valley Gas Co., which is owned by the Wheeling Gas Co., and consequently now controlled by the Manufacturers' Light & Heat Co. -V. 76, p. 333.

Hartford & New York Transportation Co.-New Stock. The shareholders recently voted to increase the capital stock from \$252,000 to \$500,000, by sale at par (\$25 a share) to stock-holders of record. The proceeds will be applied to payment holders of record. The proceeds will be applied to payment of floating debt the purchase of barges, the improvement of the New York terminal facilities, etc. -V. 76, p. 105.

Independent Electric Light & Power Co., San Francisco. - Opticn. - See Equitable Gas Light Co. above - V. 68, p. 671. Independent Gas & Power Co., San Francisco.-See Equitable Gas Light Co. above.-V. 75, p. 183.

International Heater Co. – V. 75, p. 183. International Heater Co. – Reduction of Stock. – The shareholders will vote March 17 on a proposition to reduce the capital stock from \$1,800,000 to \$551,900 by canceling all of the common stock and the \$348,100 of the \$900,000 pre-ferred stock which has been authorized but not issued. See V. 70, p. 233; V. 66, p. 1189.

International Silver Co.—Report.—The results for the year ending Dec. 31 were: Year—Net. Int. on bonds. Div. on pref. Deprec'n. Surplus 1902.....\$8\$1,197 \$220,022 (4%)\$204,300 \$242,657 \$214,218 1901......614,934 223,391 (1%) 51,075 113,551 226,917 Off the List.—The common and preferred stocks have been dropped from the unlisted department of the New York Stock Exchange. A majority of the preferred shares is represented by voting trustees' certificates, but these have never been listed.—V. 76, p. 106.

never been listed. -- V. 76, p. 106. **Knox Hat Manufacturing Co., Brooklyn, N. Y.**-*Incorpo- rated.*--This company was incorporated at Albany on Feb. 25 with \$2,000,000 capital stock, of which one-half is 6 per cent preferred (par value of shares \$100), to take over the wholesale and manufacturing business of Knox the hatter, including his large factory in Brooklyn. The business was established in 1840 and since 1880 has increased over 900 p. c., the sales in 1902 aggregating \$905,254, against \$904,003 in 1901, and the surplus income over all charges averaging for the two years \$142,877. President E. M. Knox has no male relative to carry on the business in the event of his death, and wishes to perpetuate the business for the protection of faithful employes and agents, to whom alone stock is faithful employes and agents, to whom alone stock is offered. Mr. Knox will retain 51 p. c., will remain in the service of the company, and binds himself to engage in no competitive business. He will also loan the company for three years \$200,000 of stock, which is to be exempt from dividends and to be exclude as collectoral for loans if needs d dividends and to be avalable as collateral for loans if needed. Directors:

Edward M. Knox of New York City (President); John T. Shayne of Chicago, Frank C. Paulson of Pittsburgh, Robert J. MacFarland (Treas-urer) and Robert T. Bixby (Secretary) of Brooklyn, George Rendigs of Cincinnati and John T. McKenna of Yonkers.

Lackawanna Steel Co.—New Directors.—James Speyer and R. B. Van Cortlandt were elected this week as directors of the Lackawanna Steel Co. The board now includes:

J. J. Albright, D. C. Blair, B. H. Buckingham, Warren Delano Jr., W. E. Dodge, G. R. Fearing Jr., B. S. Guinness, Edmond Hayes, Adrian Iselin Jr., Samuel Mather, J. G. McCollough, D. O. Mille, Moses Taylor Pyne, Walter Scranton, James Speyer, H. A. C. Taylor, Moses Taylor, H. McK. Twombly, Cornelius Vanderbilt, Robert B. Van Cortlandt, Henry Walters.

Mr. Fr 545, 487. Fearing represents the Boston interests-V. 76, p.

Maine Steamship Co.—Bonds.—We have obtained the following regarding the bonds of this New Jersey corpora-tion, which was organized in July, 1901 (V. 73, p. 85, 1013), with \$1,000,000 authorized capital in \$100 shares:

The first mortgage bonds, of which the Kings County Trust Co. is trustee, are 30 year 5 p. c. bonds, dated June 4, 1901, principal pay-able Aug. 1, 1931; interest payable semi-annually, Feb. 1 and Aug. 1; amount of mortgage, \$1,000,000; par value of bonds, \$1,000. Mort-gage is a first lien on capital stock, real and personal property, leases, contracts, rights, privileges and franchises of the maine Steamship Co. of Maine. Co. of Maine.

The vessels now in commission, sailing three times a week from New York to Portland, and vice versa, are the North Star and Horatio Hall, each 4,000 tons, 321 feet long, 46 feet beam and 16 feet draught. Office, pier 32, East River.— V. 73, p. 1013, 85.

Manchester Mills.—New Plan Approved.—The share-holders on March 11, by a vote of 11,398 to 1,629, rescinded their action of Feb. 12 and accepted the proposition of T. Jefferson Coolidge and associates to underwrite an issue of \$2,000,000 six p. c. cumulative preferred stock, convertible at option of holders into common stock on any June 1 or Dec. 1. The plan provides for the reduction of the present stock from \$3,000,000 to \$500,000 by the surrender of three out of every four shares of \$100 each. After such reduction each owner of common stock will be permitted to subscribe for the same amount of preferred stock as he then holds of common. All old officers and directors resigned and were re-placed by nominees of the syndicate represented by Mr. Coolidge. The latter offers for a limited period to buy any part of the present stock at \$25 a share. The following officers and directors have been elected:

J. Howard Nichols (President), F. C. Dumaine (Treasurer), T. Jeffer son Coolidge, T. Jefferson Coolidge Jr., Theophilus Parsons, George A Gardner, Charles W. Amory and S. Sulloway.-V. 74, p. 438, 386.

Manufacturers' Light & Heat Co., Pittsburgh.-Bonds.-The shareholders will vote April 20 on a proposition to issue bonds to an aggregate amount not yet determined, but com-monly expected to be about \$2,500,000. Not Purchased.—See Fort Pitt Gas Co. above.—V. 76, p.

482.

Municipal Gas & Electric Co. of Bochester, N. Y.-Bonds Offered.-See Rochester Gas & Electric Co. below.-V. 75, p. 188.

National Cash Register Co.-Annual Statement,--In 1902 the company offered its employes in prizes about \$2,000 for the most valuable suggestions. During the year 2,800 sug-gestions were received, of which 1,100 were adopted. For the current year the amount offered in prizes is doubled. The distribution of the prizes for 1902 was made the occasion for public calebration at which addresses were delivered touch. a public celebration at which addresses were delivered touch-ing the progress of the company the past year, the efforts to increase its European sales, etc. President Patterson in the course of a long speech gave the following facts:

The first register I ever saw I paid \$100 for at the Coalton store. That same register, greatly improved, we now sell for \$15. We sell about 94 per cent of all the cash registers made, because we sell at a small profit. In November we sold 5,000 machines, of which only 1,000 were sold abroad. We are now selling 60,000 a year.

Secretary Gen. A. A. Thomas said in part:

Secretary Gen. A. A. Thomas said in part: When the structures going up are completed, for which money has been provided, the company will have one-third more structures and buildings for factory uses than it had at the close of 1901. It has increased the output of its factory about one-third, not in number of machines, which has increased only 23 per cent, but in money value. This means, not that the price of the machines has been raised, but we have increased largely the output of the better and costlier machines. Yesterday the number of persons employed at the factory was 3,427. Our company obtained one million dollars by the sale of pre-ferred stock. Subject to this lien our company belongs to its owners, who are the Patterson people. They have pursued a policy which has refused to take out of the company any profits which correspond to its growth. During the first week in this January the board of di-representing its profits during the past six months. They may or may not declare a like dividend of one per cent six months hence. *Favorable Decision*.—The decision of the Court of Appeals

Favorable Decision .- The decision of the Court of Appeals of the District of Columbia at Washington on Feb. 13 in favor of this company and against the Hallwood Cash Regis-ister Co., finally establishes the right of the former to the patents in question.-V. 75, p. 984.

National Enameling & Stamping Co.—Listed.—The New York Stock Exchange has listed \$8,396,600 7 per cent cumu-lative preferred stock and \$15,441,800 common stock.—V. 75, p. 909.

Otis Elevator Co.-First Dividend on Common.-A first dividend, 2 per cent, was declared on Tuesday on the \$6,350,-300 common stock. The preferred has been receiving 6 per cent per annum since April, 1899.-V. 75, p. 552.

cent per annum since April, 1899.-V. 75, p. 552. Passaic Steel Co., Paterson, N. J.-New \$5,000,000 Com-pany-Purchase of Passaic Rolling Mill-Report of Public Accountants.-This company, organized late in 1902 under New Jersey laws, with \$5,000,000 stock and \$2,000,000 bonds, took over on Feb. 16, 1903, the entire assets of the Passaic Rolling Mill Co., a company with a successful career cover-ing over twenty-two years, during which its total sales ag-gregated \$29,471,728. On pages 601 to 603 of this issue of the CHRONICLE will be found the report of Haskins & Sells regarding the property, the earnings thereof, its finan-cial status, both past and present, a detailed statement of proposed improvements and a list of the officers and direct-ors, etc. A. C. Fairchild of Paterson is President. Pioneer Pole & Shaft Co., Plana, Q.-Further Facts.-A

Pioneer Pole & Shaft Co., Piqua, O.—Further Facts.—A description of the \$750,000 bonds (par value \$500 each) was given last week. We are now informed that of the \$1,500,-000 each of common stock and 6 p. c. cumulative preferred stock, there is outstanding \$1,466,850 common and \$1,416,600 preferred; par value of shares \$100. A revised statement of the companies included in the amalgamation follows:

The Kile-Ford Co., Akron; Bradley Manufacturing Co., Ashtabula; Troy Bending Co., Troy; Warner Pole & Top Co., Cincinnati; Welling-ton Bending Co., Wellington; Canton Pole & Shaft Co., Canton; Troy Carriage Pole Co., Troy; Snyder & Son Co.. Piqna, Ohio; Buckeye Manufacturing Co., Anderson; The Auderson Pole & Shaft Co. Ander-son; J. H. Smith & Co., Muncle, Ind.; Memphis Bending Co., Memphis; Bidney Pole & Shaft Co., Sidney, O. The President is W. A. Snyder, Piqua, Ohio; Secretary and Treasurer, Frank E. D. Keplinger, Canton, Ohio.--V. 76, p. 545, 106.

76. p. 545. 106.

Bochester (N. Y.) Gas & Electric Co.-Status-Bonds Offered.-Perry, Coffin & Burr of Boston, in a recent circular, offered at 101 and interest a block of the authorized issue of

Offered. — Perry, Coffin & Burr of Boston, in a recent circular, offered at 101 and interest a block of the authorized issue of \$1,500,000 [present issue \$900,000] first mortgage 40-year 4½ p. c. gold bonds of the Municipal Gas & Electric Co., guaranteed, principal and interest, by the Rochester Gas & Electric Co. (see V. 75, p. 189). Regarding the Rochester Gas & Electric Co., the circular says in part: As a result of acquiring this property the Rochester Gas & Electric Co. now controls the entire gas and electric business of the City of Rochester, including important water-power rights and plants on the Genesee River. The company reports its capital stook as preferred, \$2,150,000; common, \$2,150,000; total bonds outstanding, \$4,925,000; purchase money mortgages on various real estate and water power sites averaging 4½ p. c., \$672,000. [Compare page 174 of INVESTORS' SUPPLEMENT] The company has a valuable contract with the Rochester Street Railways to furnish 3,000 H. P. electrical energy, of which it is now supplying 2,000 H. P. The company operates under liberal franchises which are unlimited as to time. The real estate owned is extensive and valuable. The Genesee River falls 263 feet within the city limits, Two of the falls are at least 50 feet each, and about nine-tenths of this power is owned by the Rochester Gas & Electric Co. With the new water-power machinery now being installed, the company will have a maximum water power capacity of about 18,000 H. P. and the new steam plant will give ample auxiliary power during low water. The new steam-power station is of brick with steel fire-proof construction and 18,000 H. P. overload maximum, of which four units are now being installed. This plant is designed to furnish the entire steam power of the Rochester Gas & Electric Co. The company is owned large-ly by local people, including representatives of the strongest financial interests in Rochester. *Earnings*,—The earnings of the combined Rochester Gas & Electric Co, and Municipal Gas & Electric Co, propertie

Earnings.—The earnings of the combined Rochester Gas & Electric Co. and Municipal Gas & Electric Co. properties are reported for the years ending March 31, 1903 (3 months

are reported for the years ending March 31, 1903 (3 months estimated) and 1902, as follows: Fiscal Gross Net Other Int. on Int. on Balance, year- carnings. earnings. income. bonds. morts. surplus. 1902-03.....1,123,826 429,223 10,587 222,090 30,240 \$277,479 1901-02.....1,123,826 429,223 10,587 222,090 30,240 187,480 New Stock.—On Tuesday the company filed a certificate in-creasing its capital stock from \$4,300,000 to \$5,000,000.—V. 75, p. 189.

[William A.] Kogers, Limited.—Stock.—The company has been authorized to increase its capital stock from \$1,350,000 to \$1,500,000.—V. 72, p. 779.

to \$1,500,000.-V. 72, p. 779. **San Francisco Gas & Electric Co.**-Official Statement-Stock Pool.-By unanimous vote of the board of directors, a circular has been sent to the shareholders saying : Certain parties (not connected with your company) have obtained options on the shares of the Independent Gas & Power Co., the Inde-pendent Electric Light & Power Co. and the Equitable Gas Light Co. We have reasons to believe that negotiations are in progress, or that agreements have been reached with other lighting companies in this field, but no such negotiations have been opened with this company or any of its directors. Under these conditions, the consolidation of all interests in the stock of this company seems essential to enable the directors to safe-guard the interests of the shareholders and secure the same treat-ment for all, and you are therefore requested to join with the directors in signing the enclosed agreement and depositing it, together with your stock, with the Mercantile Trust Co. of San Francisco. No stock may be deposited after March 20 except from absent owners who have definitely signified their intention to deposit their shares. The Trust Company will issue negotiable receipts. The stock is \$13,000,000 in \$100 shares (see V. 74, p. 476). See also Equitable Gas Light Co. above.-V. 74, p. 530. Sloss-Sheffield Steel & Iron Co.-Earnings.-The results

Sloss-Sheffield Steel & Iron Co.—Earnings.—The results for the 3 months ending Feb. 28 (February estimated) were: Earnings from operation, \$671,614; deductions for depreciation and charges to extraordinary repairs and renewal fund, \$39,002: net earnings, \$633,612; applicable as follows:

total surplus on Feb. 28, 1903, was \$1,657,734.-V. 75, p. 1308.

Standard Milling Co.--Subsidiary Company's Dividend. The Hecker-Jones-Jewell Milling Co. has declared a dividend of 4 per cent on its \$3,000,000 preferred stock [of which \$2,923,300 is owned by the Standard Milling Co., see V. 75, p. 1252], pavable March 27 to holders of record March 21. V. 76, p. 387.

-Successor.-See Imperial Paper

Syracuse Lighting Co.-Listed.-The New York Stock Ex-change has listed \$2,000,000 first mortgage 5 per cent 50 year bonds of 1951, \$1,000,000 5 per cent non-cumulative preferred stock and \$5,000,000 of common stock.-V. 75, p. 613.

Toronto & Niagara Power Co. — Official Statement. — Hubert H. Macrae of Toronto, in reply to our inquiries, says: The plant will not be similar to that of the Ontario Power Co., but more like that of the Canadian Niagara Power Co. (the Canadian branch of the Niagara Falls Power Co.), although on more approved plans. The amount to be developed is 125,000 horse power, and about 25,000 will be the first development, a large part of which will be transmitted by double pole line to Toronto and intervening points. The cost of the works is estimated at between \$5,000,000 and \$6, 000,000.—V. 76, p. 387.

United Copper Co. - Extension of Syndicate. - Hallgarten Co., managers of the underwriting syndicate, announce 82

that they will be prepared shortly after March 20 to make a distribution of 7 p. c. to the members of the underwriting syndicate, and advise that the syndicate agreement, which expires March 20, be extended until Dec. 31, 1903. A large majority in interest, it is stated, has approved the extension. -V. 75, p. 926.

Union Switch & Signal.--Increased Dividends.--The com-Union Switch & Signal.—Increased Dividends.—The com-pany has declared increased quarterly dividends on both stocks, namely, 1½ per cent on common and 2½ per cent on preferred stock, payable April 10, contrasting with 1 per cent and 2 per cent quarterly since April, 1900. The pre-ferred stock, it is stated, is entitled to 6 per cent per an-num before anything is paid on the common and to ½ per cent additional for each 1 per cent paid on the common until 10 per cent appear on the preferred when each

cent additional for each 1 per cent paid on the common until 10 per cent per annum is paid on the preferred, when each class shares equally in any increase declared. New Stock.—The directors are considering the advisability of increasing the capital for the purpose of retiring bonds and floating debt. The common stock outstanding on Dec. 31. 1902, amounted to \$997,950 and the preferred to \$497,600. New General Manager.—Colonel Henry G. Prout, since 1887 editor-in-chief of the "Railroad Gazette," recently re-signed to become this company's President and General Man-ager,—V. 76. p. 479.

Virginia-Carolina Chemical Co.—Mortgage Satisfied.— The Charleston Mining & Manufacturing Co. has satisfied the mortgage for \$250,000, Girard Trust Co. of Philadelphia, trustee.—V. 75, p. 1090.

trustee.—V. 10, p. 1000 Washington (State) Match Co.—Shortage.—11000 Lucius Holes charges one or two ex-officers of the company with having appropriated \$29,000 of its funds, leaving only \$55 in the treasury. The factory is not yet in operation.—V. Co.-Shortage.-President the company

The Financial Review (Annual), published at the office of the COMMERCIAL AND FINANCIAL CHRONICLE, is now ready. The volume contains some 300 pages, including a copy of the January issue of the INVESTORS' SUPPLEMENT. It is an invaluable book for reference throughout the year. Some of the contents are as follows : Retrospect of 1902, giving a comprehensive review of the business of that year, with statistics in each department, financial and commercial. Bank Clearings in 1902, with comparative statistics for 20 years.

years.

Record of Transactions on the New York Stock Exchange in each of the past 10 years. Securities listed on the New York Stock Exchange in 1902. Money rates by months for past five years on all classes of loans

Weekly Bank Statements in 1902. Crop Statistics for a series of years. Iron and Coal—Production for a series of years.

Iron and Coal—Production for a series of years.
Gold and Silver—Production for a series of years and
Monthly Range of Price of Silver for three years.
Exports and Imports for a series of years.
Comparative prices of Merchandise.
Foreign Exchange—Daily Prices in 1900, 1901 and 1902.
Bank of England Weekly Statements in 1902.
Government Bonds—Monthly Range since 1860.
State Bonds—Record of Prices since 1860.
Railroad Bonds and Stocks—Monthly Range of Prices for
five years in New York and for one year in Boston, Philadelphia and Baltimore.
INVESTORS' SUPPLEMENT—Description of Railroad and Industrial Securities, Record of Earnings, Dividends, etc.
The price of the Review is \$2.
William B. Dana Co., 76½ Pine Street, New York.
Copies may also be had from P. Bartlett, 513 Monadnock
Block, Chicago; Edwards & Smith, 1 Drapers Gardens, London. London.

-Alex. C. Humphreys, the well known consulting me-chanical engineer, 31 Nassau Street, wishes to correct a pos-sible misunderstanding in connection with his assumption of the Presidency of The Stevens Institute of Technology. As soon as his institute work is organized he expects to divide his time equally between the Institute and his firm; to that end he has disconnected himself from many outside interests.

-C. I. Hudson & Co.'s March circular, giving range of prices for the more active curb issues, is now ready. The statistics contained in this circular are compiled by George T. Crittenden, manager of the bond department, and can be had from him on application at 86 Wall Street.

-The statement as of March 2, 1908, of the Illinois Trust & Savings Bank and the State Bank of Chicago will be found on page ix.

Reports and Documents.

THE MISSOURI PACIFIC RAILWAY COMPANY.

TWENTY-SECOND ANNUAL REPORT-FOR THE YEAR ENDING DECEMBER 31, 1902.

\$6,544,622 23

3.855.110 00

\$2,689,512 23

\$1,000,000 00

THE MISSOURI PACIFIC RY. CO.)
EXECUTIVE OFFICE,	2
NEW YORK, March 10, 1903.)

To the Board of Directors and Stockholders of the Missouri

Pacific Railway Company: I transmit herewith the Twenty-Second Annual Report of The Missouri Pacific Railway Company:

The system represented by the Capital Stock of your Company includes the following railroads— The Missouri Pacific Railway,

The Central Branch Railway,

St. Louis Iron Mountain & Southern Railway.

dar year 1902 are as follows: Gross Earnings Operating Expenses (66.8 per cent of gross earnings).	.\$37,495,687 62
Net Earnings Less- Taxes. Sundry Charges	.\$12,452,496 81 1,684,341 87
Net Earnings, after Deducting Taxes and Sundry Charges Add Int. on Investments, Dividends on Stocks, etc	\$10,768,154 94 2,422,139 36

Net Income applicable to Interest on Bonds, and Rentals of leased Lines Interest on Bonds and Rentals of Leased Lines..... \$13,190,294 30 6,645,672 02

Surplus of Income for the year over all Charges ... From this surplus dividends were declared

As follows: no. 47-24% on \$76,402,200 00 stock outstanding, paid July 20, 1902..\$1,910,055 00 No. 48-242% on \$77,802,200 00 stock outstand'g, payable Jan. 20, 1903. 1,945,055 00

Surplus. Out of this surplus the following appropriations have been made:

\$1,615,871 35

For Additional Property Acquired and Improvements to Road and Equipment during 1902, the details of which will be found in Statements Nos. 13 and 14 of the Appendix in pamphlet report.
And for Improvement Funds to pay in part for Im-provements to Road and Equipment planned for 1903.

Since January 1st the net income has been further in-creased by \$1,113,800 00, being 5 per cent interest on the Texas & Pacific Second Mortgage Bonds owned by the St. Louis Iron Mountain & Southern Railway Company, and this amount, although applicable to the business of 1902, will be taken into the income account for 1903. Interest, dividends from investments and income from

Interest, dividends from investments and income from sources other than operation amounted to \$2,422,139 36, or 36.4 per cent of the amount required to pay interest on bonds and rental charges, so that only 11.3 per cent of the gross earnings from operation, or 37.4 per cent of the net operating income was called upon to meet the fixed interest and rental charges of the system. The gross earnings per operated mile wars \$6,679. The net operating income per operating income was caned upon to income the and rental charges of the system. The gross earnings per operated mile were \$6,679. The net operating income per mile was \$2,018. The amount called upon to meet fixed in-terest and rental charges (after applying Other Income) amounted to \$752 per mile.

DIVIDENDS.

Regular semi-annual Dividends, aggregating 5 per cent on the capital stock, have been paid during the year.

APPROPRIATION OF INCOME FOR IMPROVEMENTS OF PROPERTY AND EQUIPMENT. The policy of making liberal expenditures upon the prop-erty from the surplus of income over the amount required to pay 5 per cent dividends upon the capital stock has been continued during the year, resulting in a practical rebuild-ing of large portions of the system, especially the main lines of the Iron Mountain and that portion of the Missouri Pacific System between Osawatomie and Deering Junction and between Lake City and Boonville. The appropriations have been made, after careful study

The appropriations have been made, after careful study of the conditions, with a view of producing the largest net income, either by means of reduced cost of transportation or furnishing additional facilities for handling an increased volume of traffic.

The amount of surplus income so expended during the past year, details of which will be found on page 17 of the pamphlet report, are principally represented by the follow-ing items:

Grade Reductions	\$288.160 66	
New Side Tracks		
Excess weight of heavy Steel Rails over		
rails replaced	434,51507	
New Shops (principally at Baring Cross).	325,115 81	
Excess of cost of New Bridges over cost		
of renewing the old structures	173,617 07	
Other expenditures	184,390 52	
THERE IS THE TOTAL TO A COMPANY STATES		

The funds to meet these expenditures were provided as follows : From Appropriation of Net Income, as shown in the Income Account of the \$1,615,871 35

shown in the Income Account of the current year... By expenditure of Funds Appropriated from Surplus Income of 1901, as shown by the last Annual Report... By expenditure of amount received by Central Branch Railway Co. as Refund on cost of Equipment formerly charged against Income....

1,000,000 00

7,750 00

Total It will be noted that \$1,000,000 additional has been appro-priated from the income account for the current year to pay in part for similar improvements planned for the year 1903.

Independent of these appropriations of income for im-provements, the amounts charged to operating expenses were on a liberal scale compared with other Systems of the same physical characteristics and density of traffic and in-cluded considerable improvements to the property. Maintenance of Way averaged \$818 21 per mile of road; repairs to locomotives averaged 6.87 cents per mile run; re-pairs to freight cars averaged 5 mills per mile run. Liberal charges were also made for repairs of bridges and

Liberal charges were also made for repairs of bridges and buildings, details of which will be found in subsequent

pages of this report. No charges have been made to capital accounts during the year except for additional equipment, new mileage, ad-ditional terminal real estate and purchase of securities representing new lines of railway acquired, the details of which will be found in the statistical reports of the General Auditor.

ECONOMY OF OPERATION.

A portion of the benefit of the foregoing expenditures in decreased cost of transportation should be made evident in 1903, but the full benefit will not be shown until 1904 and subsequent years. During the past year a number of ad-verse conditions were encountered which militated against economical operation, viz .:

(a) While the reconstruction work is in progress the cost of trans-ortation is increased because of the obstruction to traffic occasioned hereby. During the past year this obstruction was intensified by exportation is in thereby. Dur cessive rains.

(b) A serious congestion of traffic during January and February, occasioned by excessively cold weather and a severe sleet storm, added materially to the cost of operation during these months.
(c) The failure of the corn crop in 1901 was reflected in the movement of traffic during 1902, and the emphatic decrease in shipments of grains, noted elsewhere in the report, resulted in unbalancing the movement of freight traffic and increasing the cost of transportation.
(d) During the same period the Iron Mountain road was deprived of the use of its main shops at Baring Cross, Arkansas, which had been destroyed by fire, thus adding materially to the expenses of the motive power department.

This combination of adverse conditions, together with increased cost of wages and materials, resulted in an increase of transportation expenses of \$724,211 34, or 8.2 per cent, and an increase of motive power expenses of \$857,522 09, or 12.1 per cent, while the gross earnings increased only \$834,-594 06, or 2.3 per cent.

594 06, or 2.3 per cent. Increased cost of transportation during the progress of reconstruction work, planned to secure efficiency of opera tion, is an incident which must be faced before the ultimate economies become effective. A large amount of improve-ment work will be finished during 1903. A complete, ex-tensive, modern shop plant is in operation at Baring Cross. In this connection the following statement is interesting, as it shows the progress made in economic efficiency, which will be evidenced by decreased transportation expenses when improvement work in progress is completed: Average number of tons in each train, including company

Average number of tons in each train, including company material:

NEW MILEAGE.

The expenditures for new mileage are principally repre-sented by the partial construction of the following lines: Extension from Scotland to Mear's Mines, Mo.

Yates Center Branch Detours. Carthage & Western Ry. White River Ry.

Memphis, Helena & Louisiana Ry. Memphis Helena & Louisiana RR. Eldorado & Bastrop Ry.

The larger portion of the advances from current resources to meet these capital requirements will be reimbursed by the sale of the River & Gulf Divisions First Mortgage Bonds of the St. Louis Iron Mountain & Southern Ry. Co., next referred to.

RIVER & GULF DIVISIONS FIRST MORTGAGE BONDS.

The necessity for the development and expansion of the Iron Mountain System to meet the present large volume of traffic, which severely taxes the existing facilities, and to provide for the requirements of the tributary country, has made necessary a comprehensive plan to meet the capital requirements therefor.

This has been accomplished by the authorization of a new issue of bonds to be secured by a first mortgage on the prop-erty to be acquired with the proceeds of the bonds, to be known as the River & Gulf Divisions First Mortgage.

The total amount of bonds authorized to be issued under the mortgage is \$50,000,000, of which \$20,000,000 have been appropriated and sold for the following purposes:

appropriated and sold for the following purposes:
1. To purchase additional terminal properties in St. Louis and East St. Louis, including freight transfer facilities across the Mississippi River immediately south of the City of St. Louis.
2. To purchase a railroad now built from East St Louis to Thebes.
11., with a branch to the Big Muddy Coal Fields, aggregating about 145 miles.
3. To extend the present Iron Mountain System from Batesville, Ark., to Carthage, Mo., and build branches in connection therewith, 254 miles.
4. To extend the Iron Mountain System along the Mississippi River Valley from West Memphis, Ark, to a connection with a low-grade line of the Texas & Pacific Railway Co., at Clayton, Louisiana-278 miles. miles

All of the above 677 miles of railroad is to be built ac-cording to modern practices, with low grades, heavy rails, thoroughly ballasted and adapted to economical operation.

This new mileage is required for two purposes:

(a) To handle expeditionally and economically the large volume of existing traffic of the Iron Mountain System and avoid double tracking of a large portion of the existing main lines, which would otherwise be necessary.
(b) To establish new through or main lines which will materially add to the volume of traffic and earning capacity of the System.
Careful examination has demonstrated that this addition of the formed the conversion of the formed the conversion of the formed the conversion of the system.

tional traffic, and the operating economies to be secured as a result of the operation of the new mileage, should yield in increased net income a substantial surplus over the amount of interest charges on the \$20,000,000 of bonds issued therefor.

The balance of the bonds secured by the mortgage are to be issued only under carefully restricted provisions of the mortgage, and the proceeds appropriated for building or acquiring other mileage at actual cost, not exceeding in any event \$30,000 of bonds per mile of completed main line rail-road, and for actual cost of additional terminals, equipment, double tracks or other property in connection with or

ment, double tracks or other property in connection with or necessary to the development of the mortgaged property. The mortgage constitutes a first and only lien upon the mileage and other property above specified, and bonds are reserved to complete a system extending from St. Louis along the east side of the Mississippi River to the bridge now being built at Thebes, Ill., and on the west side of the river, via West Memphis, to a connection with the Texas & Pacific Railway at Clayton, La., and by means of this con-nection completing a Valley Railroad System extending from St. Louis to New Orleans, which is 48 miles shorter than the existing system, having maximum grades of 3-10ths

from St. Louis to New Orleans, which is 48 miles shorter than the existing system, having maximum grades of 3-10ths of one per cent as against several sections of existing system reaching as high as two per cent. Also a first and only lien upon a diagonal line from the above-described Valley Line near West Memphis, via the White River Valley, to a connection with the Missouri Pac-ific System at Carthage, Mo., and by this connection com-pleting a low-grade line from Kansas City to Memphis of about 480 miles, which is shorter than any existing line be-tween the same points and which will have a maximum operating grade of 6-10th per cent as against grades of 2 per cent by any other existing line.

operating grade of 6-10th per cent as against grades of 2 per cent by any other existing line. By building this 254 miles, a new main line of dense traffic is created between Kansas City and Memphis. The company has acquired all of the bonds of the Memphis Union Belt Railway Company, which owns a belt line around Memphis, reaching important industries and occu-pying an important strategic location with valuable franchises, and which will materially add to the net earn-ings of the System on traffic consigned to and from Memphis. The necessity for acquiring these bonds and of develop-ing the property, and thus adding to the earning capacity of the System, will be emphasized by the large amount of new mileage which radiates from Memphis, and is to be covered by the River & Gulf Divisions Mortgage, so these bonds will he deposited with the Trustee of the River & Gulf Divisions Mortgage as additional security therefor. The mileage and other property acquired and to be ac-quired by the sale of these bonds should add emphatically to the annual surplus income from the operation of the Iron

to the annual surplus income from the operation of the Iron Mountain System.

FINANCIAL CONDITION.

age, equipment and real estate, for which capital funds had not been provided, and resulted in a small unfunded debt, as shown above, but since January first, the date of closing as shown above, but since January first, the date of closing the books, arrangements have been completed for furnish-ing the necessary funds to reimburse the treasury for a large portion of these capital expenditures, and also to pro-vide for all new property and mileage now under contract, by the sale of \$20,000,000 River & Gulf Divisions First Mortgage Bonds of the St. Louis Iron Mountain & Southern Railway Company, previously referred to, and by the sale of available General Consolidated five per cent Bonds and Unifying and Refunding four per cent Bonds of the same Company. The amount to be covered into the treasury from these sources for bonds already sold against property and mileage acouired and paid from current resources will and mileage acquired and paid from current resources will amount to over \$4,000,000. The various Car Trust and Equipment Notes outstanding

are not in the nature of current liabilities, as their maturi-ties are so arranged that the added income to the System from the use of the equipment should provide the necessary funds to pay the notes.

BUSINESS CONDITIONS.

There was a heavy failing-off in the movement of grain

and live stock during the year, due to the almost complete failure of the corn crop of 1901. This fact, together with obstructions to the movement of traffic already explained, resulted in a smaller surplus than was secured for the year 1901, but under these conditions the management considers the results accomplished were

satisfactory. The crops for 1902 were abundant and the prospects for a larger business in 1903 are bright.

CONCLUSION.

Attention is invited to complete reports of the Vice-Presidents, in the pamphlet, and to the statistical state-ments of the General Auditor which accompany the same. To these officers and to the other heads of departments and to employes generally credit should be given for the satisfactory results accomplished

satisfactory results accomplished.

Respectfully submitted,

GEORGE J. GOULD, President.

PASSAIC STEEL COMPANY.

REPORT OF HASKINS & SELLS, CERTIFIED PUBLIC ACCOUNTANTS,

SHOWING THE CONDITION OF THE PASSAIC ROLLING MILL COMPANY AT THE TIME OF ITS MERGER WITH THE PASSAIC STEEL COMPANY, TOGETHER WITH A SUMMARY OF THE BUSINESS OF THE PASSAIC ROLLING MILLS COMPANY, FOR THE PAST 22 YEARS AND 10 MONTHS, COMPILED FROM THE REPORTS OF THE

SECRETARY TO THE BOARD OF DIRECTORS.

NEW YORK, January 31, 1903.

Passaic Steel Company, Paterson, New Jersey.

GENTLEMEN: In accordance with your instructions, we have made an examination of the books and accounts of the Passaic Rolling Mill Company for the year ended January 31, 1903; have supervised the taking of the inventory on January 31, 1903; have made the necessary entries merging the Passaic Rolling Mill and the Passaic Steel Companies; and have opened the books of the Passaic Steel Company and verified the assets and liabilities at February 1, 1903. Belating thereto, we submit herewith one exhibit and four Relating thereto, we submit herewith one exhibit and four schedules, as follows:

EXHIBIT "A."-GENERAL BALANCE SHEET JAN. 31, 1903. Schedule No. 1 - Bills Receivable—Showing Unearned Interest. 2—Accounts Receivable. 3—Insurance Paid in Advance. 4—Accounts Payable.

Yours, truly, (Signed) HASKINS & SELLS, Cartified Public Account Certified Public Accountants.

 Average annual profits for past 4 years and 10 months.
 \$250,743 48

The above figures are compiled from the annual reports of the Secretary to the Board of Directors.

SUMMARY OF THE BUSINESS OF THE PASSA MILL COMPANY	IC ROLLING
FOR THE PAST 10 MONTHS BEGINNING APRIL 1ST, FEBRUARY 1ST, 1903.	1902, ENDING
Volume of business, total sales Expended on plant over and above maintenance and	\$2,055,197 90

\$9.89

Average net profit per ton of material shipped....... \$9.99 During the last four months of the present fiscal year the company was seriously handicapped by the coal famine, due to the strike of the miners, and was compelled during this time to pay about double the usual price for fuel rather than shut down. The mill consumes about 250 tons of coal per day. Had it not been for the strike the profits of the company for the past 10 months would have been about \$75,000 more; notwithstanding this, however, they reached the sum of \$325,035 74. The coal situation has now been relieved and the company is paying the normal price.

IMPROVEMENTS MADE TO THE PLANT OF THE PASSAIC ROLLING MILL COMPANY SINCE MARCH 31, 1889.

ROLLING MILL COMPANY SINCE MARCH 31, 1889. ROLLING MILL COMPANY SINCE MARCH 31, 1889. YEAR ENDING MARCH 31, 1890.—Previous to this year the output of 'he company was confined to iron only. Steel had been used very little during the eighties for structural material. The Pittsburgb mills, however, had changed from iron to steel and the Passaic Rolling Mill Company was compelled to follow their example. During this year the company expended \$187,723 97 in improvements. Ground was broken for the new steel plant in March, 1889, and the first steel the company ever made was turned out of the furnaces December 20, 1889. Two open-hearth furnaces with their equipment, a blooming mill with reversing en-gines, etc., hydraulic cranes, etc., were installed. YEAR ENDING MARCH 31, 1891.—After the production of suitable steel was an accomplished fact, it was found that appliances with which iron shapes had been made would not in every instance serve for rolling steel. Machinery and rolls had therefore to be altered. During this year \$23,790 73

rolls had therefore to be altered. During this year \$23,790 73 was expended in this direction. YEAR ENDING MARCH 31, 1892.-The company began roll-

ing 20-inch steel beams, a size that had not been rolled by any of its competitors; automatic manipulators were at-tached to the blooming mill, a new templet shop erected, new rolls, etc.; in all an expenditure of \$17,412 91 was made.

made. YEAR ENDING MARCH 31, 1893.—During this year the out-lay incident to still further change the plant from iron to steel was charged principally to maintenance and repairs; nevertheless the sum of \$22,284 71 was expended on new im-provements over and above maintenance and repairs, con-sisting of new buildings, new tools and new rolls. YEAR ENDING MARCH 31, 1894.—During this year, the period of lowest depression, the company expended \$4,169 31 in new tools, etc. The open-hearth furnaces erected in 1889 were rebuilt at a cost of \$8,000, which was charged to main-tenance and repairs.

tenance and repairs. .

YEAR ENDING MARCH 31, 1895 .- During this year the com-YEAR ENDING MARCH 31, 1895.—During this year the com-pany erected a new basic open-hearth furnace for making steel, new soaking pit, rail shears and steel casting equip-ment, at a cost of \$78,126 91, all of which brought the output of the plant up to 18,733 tons. YEAR ENDING MARCH 31, 1896.—During this year new buildings, new rolls and new tools were erected and pro-cured at a cost of \$61,113 14, bringing the output of the plant up to 20,320 tons. YEAR ENDING MARCH 31, 1897.—During this year the com-

plant up to 20,320 tons. YEAR ENDING MARCH 31, 1897. — During the output of the pany expended for new gas-producers, automatic transfer tables for handling beams, extra rolls, new hot-bed and other improved machinery, the sum of \$83,092 60, making a saving of $\frac{1}{3}$ in the consumption of coal and materially re-ducing the cost of finished material. YEAR ENDING MARCH 31, 1898. — During this year the com-pany added automatic transfer tables and a new hot-bed to its 21-inch mill, thereby placing its beam finishing mills in the front rank as far as up to date working appliances are concerned. The bridge shop was enlarged and equipped with air lifts, air compressors, cranes, etc. In all, the expendi-ture amounted to \$57,032 78, bringing the cutput up to 24,706 tons. YEAR ENDING MARCH 31, 1899.— During this year an ad-

YEAR ENDING MARCH 31, 1899 .- During this year an additional open hearth furnace was added to the plant, mak-ing four in all, electric cranes were installed in the stock

ing four in all, electric cranes were installed in the stock yards, causing an expenditure all told of \$57,479 01, increas-ing the output to 30,795 tons. YEAR ENDING MARCH 31, 1900.—During this year another open-hearth furnace was added to the plant, making five in all, new coal trestles and coal house built of steel, cold saws,

all, new coal trestles and coal house built of steel, cold saws, new gas producers, cranes, etc., causing an expenditure of \$61,907 79, increasing the output to 35,149 tons. YEAR ENDING MARCH 31, 1901.—During this year the com-pany added another extension to the bridge shop and equipped the same with new tools, etc., and other machinery was added to the plant, causing an expenditure of \$72,354 02. YEAR ENDING MARCH 31, 1902.—During this year the com-pany added a new electric plant, a large heating furnace for the 21-inch mill, electric charging machine for heating fur-nace, causing an expenditure of \$47,267 87, bringing the out-put up to 40,406 tons. put up to 40,406 tons.

TEN MONTHS ENDING FEBRUARY 1, 1903.—During the past ten months the company has added a new soaking pit, new heating furnace, new electrical equipment, etc., causing an expenditure of \$41,485 15.

causing an expenditure of \$41,485 15. Total expenditure in improvements since 1889, \$815,240 90. Increasing tonnage of plant from 11,653 tons to 40,000 tons. As a matter of fact, an additional sum equal to fully 25 per cent of the above was expended in new improvements, but was charged to maintenance and repairs during this period. The Passaic Rolling Mill Company was merged with The Passaic Steel Company on February 16, 1903, the Passaic Steel Company taking over the entire assets of The Passaic Rolling Mill Company, as they stood at the close of business January 31, 1903, the new company giving \$5,000,000 par value of its capital stock and \$2,000,000 par value of its bonds in exchange for the entire capital stock of The Passaic Rolling Mill Company, which was canceled and retired, the bonds being secured by a mortgage to the Citizens' Trust Company of Paterson, N. J., Trustee, covering the entire property, plant and assets of the combined companies. The legality of the mortgage and the proceedings of the organization and mercer of the combined companies.

The legality of the mortgage and the proceedings of the organization and merger of the companies have been approved by Messrs. Knevals & Perry, Mutual Life Insurance Co. Building, 34 Nassau St., New York City, and Frederick F. Searing of Paterson, N. J.

NORTH AMERICAN LUMBER & PULP. COMPANY.

REPORT FOR THE YEAR ENDED DECEMBER 31, 1902.

To the Stockholders:

The company was organized early in 1892 with a share capital of \$2,500,000 to acquire lumber properties, or the securities of companies owning such properties, in Nova Scotia. The properties under consideration were the St. the securities of companies owning such properties, in Nova Scotia. The properties under consideration were the St. Mary's River (Sherbrooke), Gaspereaux and Jordan River (including plants) in fee simple, and the Clyde River Crown leasehold. In the progress of negotiations it proved de-sirable to bring the properties together under one of the Nova Scotia charters and have the North American Com-pany acquire the local company's securities. The best char-ter (embracing also an electric light and power franchise) was selected, and after some amendment by the Nova Scotia ter (embracing also an electric light and power franchise) was selected, and after some amendment by the Nova Scotia Legislature the United Lumber Company, Limited, was thus reorganized and acquired. All of its securities (\$1,500,000 stock and a \$1,000,000 five per cent bond issue) were pur-chased, the vendors receiving all of the North American Company's stock (of which \$1,500,000 was returned to the treasury of the latter company) and \$432,000 of the bonds, represented by entitling certificates. The properties were taken over by the United Lumber Company subject to cer tain underlying mortgages and liens amounting to \$205,500, which have been assumed by the North American Company, for the discharge of which ample bonds were set aside.

which have been assumed by the North American Company, for the discharge of which ample bonds were set aside. While the work of financing the corporation was in prog-ress reverses came which caused not only delays, but serious embarrassments. The hold upon the St Mary's and Jordan properties (under actual operation) were endangered. For-tunately the bank in Halifax, N. S., advanced sufficient funds to continue the operations, and by stremuous efforts, not without some sacrifices the methying obligations and not without some sacrifices, the maturing obligations and liens were provided for by the North American Company; but the Clyde River leasehold was not re-secured until late in the year. Two smaller tracts, one adjacent to the St. Mary's and one adjacent to Jordan River properties, were also acquired also acquired.

The properties are now all secured and thus give an acre-

The properties are now all secured and thus give an acre-age of approximately 263,000, containing approximately 400,000,000 feet of spruce, hemlock and hardwood timber and 1,600,000 cords of spruce pulp-wood. The St. Mary's and Jordan properties have effective plants and have been continuously working. The Gaspereaux has a plant which requires some improvements; the Clyde River (exclusively spruce pulp-wood) has no plant, but plans for the erection of a pulp mill are now in hand, for which purpose bonds are held in reserve. The operation of the St. Mary's and Jordan properties dur-ing the past year produced some 11,000,000 feet of timber, of which 9,000,000 feet were, however, left in the woods; the remainder has all been marketed or contracted for at prices which will net the company about \$4 50 per 1,000 feet, so that the net earnings from these properties alone were ap-proximately \$46,000. The loans at the bank have been re-paid; the interest charges for the year will be under \$30,000, paid; the interest charges for the year will be under \$30,000, showing a fair surplus; and the affairs of the company are now in excellent shape.

andwing a fair surplus; and the affairs of the company are now in excellent shape.
The work for the season 1903 is actively progressing at all of the properties except the Clyde, and it is estimated that including the 2,000,000 feet of timber left in the woods last season, the product will be from 18,000,000 to 20,000,000 feet. It is also expected that the ground-wood pulp mill at Clyde will be erected so as to enable us to realize upon a half-year's output on that property: thus the estimated net earnings would, under fair conditions, not fall below \$120,000. Whence the fixed charges will be fully covered and a surplus of \$70,000 will be available, out of which a dividend could be paid. As an indication of the prospects for this season's business it may be stated that we have recently made sales aggregating 6,000,000 feet of spruce timber to be delivered next summer, which will net us a profit of from \$500 to \$700 per 1,000 feet.
It is a matter of sincere congratulation to the shareholders that despite the untoward conditions these properties, have been secured; of their great value there can be no doubt; the climatic conditions in Nova Scotia are such that by limiting ourselves to a five per cent annual cut continuous renewal is assured, giving indefinitely an annual product

sufficient to pay all fixed charges and leave a reasonable surplus; and when the plants are improved, a large surplus

surplus; and when the plants are improved, a large surplus is practically certain. The delay in acquiring the Clyde leasehold prevented us from finally completing the mortgage and bond issue. These details have now all been accomplished and the bonds, which are now in the hands of the Trust Company, will be issued at an early date and the interest thereon paid.

at an early date and the interest thereon paid. The company has under consideration the purchase of the securities of a Newfoundland lumber company (shares \$1,000,000 and 5 per cent bonds \$1,000,000), which controls some 320 square miles of timber land, chiefly of choice pine, with a fair plant. It is a going concern which should show net earnings for the current season of not less than \$60,000. Of the bond issue of this company one-balf (\$500,000) re-mains in the Treasury for the acquisition of further proper-ties in Newfoundland. The examination of this property by experts leaves no doubt of its value and of the possibility to largely increase the annual profits by an enlargement of to largely increase the annual profits by an enlargement of the plant.

Accompanying this report are statements showing the financial condition of the North American Company; also one showing the result of the United Lumber Company's HENRY PATTON, President. operations.

The Commercial Times. COMMERCIAL EPITOME

FRIDAY NIGHT, March 13, 1903.

An active condition of business has continued to be experienced in most lines of trade and a general feeling of confidence dominates the commercial market. The outlook is considered promising for active spring and summer seasons and in many instances jobbers have been contracting freely against their prospective requirements. Manufacturers, as a rule, have been reported busily engaged in supplying the increasing wants of their respective trades as the spring season advances, and in some lines complaints of delays in deliveries have been heard. Renewed activity has been reported in building and this has been reflected in increasing activity in the demand for structural material. Advices from Washington indicate that material progress has been made by the Senate in extra session on the Panama Canal treaty and the Cuban reciprocity treaty, and that action will soon be taken. At the close of the week more settled weather is indicated for the middle West and Southwest. The rivers in the lower Mississippi Valley, however, are still high, and

in the lower Mississippi value, and a state of serious floods exists. Lard on the spot has continued to show an advancing tondeney on light offerings. The demand has been limited, advance of curtendency on light offerings. The demand has been limited, buyers as a rule not purchasing supplies in advance of cur-rent wants. The close was steady at 10.50c. for prime Western and 9.50@10c. for prime City. The demand for re-fined lard has been of a hand-to mouth character, but prices have advanced with the raw product, closing at 10.65c. for refined for the Continent. Speculation in lard for future delivery has been moderately active, and prices have ad-vanced on light receipts and higher prices for swine. The close was steady. close was steady.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

under liberal offerings the close was easy at 3³/₄c, for cen-trifugals, 96 deg. test, and 3¹/₄c, for muccovado, 8⁹-deg. test. Refined sugar has been unchanged at 4 80@4 95c., list prices, for granulated. Pepper has been firm and teas quiet.

for granulated. Pepper has been firm and teas quiet. Kentucky tobacco has continued in fairly active demand and at firm prices. Seed leaf tobacco has been more active and steady; sales for the week have been 2,250 cases, includ-ing 1900 crop Pennsylvania broad leaf, on private terms, 1901 crop Connecticut broad leaf at 25c., 1901 crop Pennsylvania broad leaf at 13c, and 1901 crop Gebhart at 11c. Foreign grades of tobacco have been quiet. The market for Straits tin advanced on stronger advices from London, but reacted at the close and final prices were weak at 30'12½@30'50c. Ingot copper has continued to ad-vance, but the close was dull at 14'75@15c. for Lake. Lead has been firmer, prices advancing to 4'67½c. Spelter has advanced to 5'20@5'25c. Pig-iron has been unchanged and steady. steady

steady. Refined petroleum has been firm, closing at 8'20c. in bbls., 10'50c. in cases and 5'65c. in bulk. Naphtha has been steady at 10'05c. Credit balances have been steady at \$1 50. Spirits turpentine has been quiet and unchanged at 67½@68c. Rosins have been quiet but steady at \$2 25@2 27½ for com-mon and good strained. Wool has been firm but quiet. Hops have been easier.

VOL. LXXVI.

COTTON.

FRIDAY NIGHT, March 13, 1903. FRIDAY NIGHT, March 13, 1903. THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 133,158 bales, against 142,306 bales last week and 143,939 bales the previous week, making the total receipts since the 1st of Sept., 1902, 6,727,716 bales, against 6,627,378 bales for the same period of 1901-2, ahowing an increase since Sep. 1, '02. of 100,329 bales.

Speculation in cotton for future delivery has been fairly active, but the tone of the market has continued unsettled. During the first half of the week there was a sharp recovery During the first half of the week there was a sharp recovery from the break in prices recorded during the previous week. Shorts were reported buying with considerable freedom to cover contracts, stimulated by reports from the Southwest of continued heavy rains and fears of serious floods. At the advance, however, there developed fairly free selling, which many of the trade believed came from the leading bull in-terest, and when this selling was detected there developed immediately an easier tone, and prices quickly lost their im-provement. A factor that was receiving some attention was the movement of the cotton cron in India, receipts for the provement. A factor that was receiving some attention was the movement of the cotton crop in India, receipts for the week at Bombay showing a large increase as compared with the same week last year. The demand from spinners for cotton has been reported as falling off, the indications being that prices have been held latterly at a point which has checked buying, and some of the trade are reducing their estimates of the requirements for consumption for the season. The movement of the grap despite proceeded weather and Estimates of the requirements for consumption for the season. The movement of the crop, despite unfavorable weather and bad roads, has been full. To-day the market held fairly steady during the early trading. Subsequently, however, under moderate selling and absence of aggressive support from bull interests prices weakened and gradually declined, closing barely steady at a net loss for the day of 2 to 17 points. Cotton on the spot has been unsettled, closing at 9'90c. for middling uplands.

The rates on and off middling, as established Nov. 20, 1902, by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows.

Fair	Good Middling Tinged Even
Middling Fair 0.96 on	Strict Good Mid. Tinged., 0.30 on
Strict Good Middling 0.62 on	Strict Middling Tinged 0.06 of
Good Middling 0.44 on	Middling Tinged 0.12 of
Strict Low Middling 0.14 off	Strict Low Mid. Tinged 0.34 of
Low Middling 0.38 off	Middling Stained 0.50 of
Strict Good Ordinary 0.72 off	
Good Ordinary 1.00 off	Low Middling Stained 1.50 of

On this basis the official prices for a few of the grades for the past week-Mch. 7 to Mch. 13-would be as follows.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Mch. 13), we add the item of exports from the United States, including in it the exports of Friday only.

WEATHER REPORTS BY TELEGRAPH.—Advices to us by telegraph from the South this evening indicate that the weather has been quite unsatisfactory during the week. Rain has fallen in about all localities, and in most sections in the Mississippi Valley as well as in portions of Texas and Alabama, the precipitation has been heavy. As a result of the unfavorable conditions, many of our correspondents state that farming operations have been suspended or interfered with. The Mississippi River continues at a high stage, being three and one-tenth feet above the danger line at Memphis and only one foot and one-tenth below the high-water mark of 1898. Some lowlands have been overflowed. *Galveston, Texas.*—We have had heavy rain on three days during the week, the precipitation being four inches and forty-six hundredths. The thermometer has averaged 60, the highest being 70 and the lowest 50. *Corpus Christi, Texas.*—It has rained heavily on five days of the week, the precipitation reaching five inches and ninety-seven hundredths. The thermometer has ranged from 54 to 76, averaging 65.

76, averaging 65. Fort Worth, Texas.—Rain has fallen on one day of the week, to the extent of one inch and four hundredths. Aver-

week, to the extent of one men and rout numbered as a reasonable of the men and rout numbered as a reasonable of the meek and reasonable of the week, the precipitation being fourteen hundradths of an inch. The thermometer has averaged 66, the highest being 76 and the lowest 46.

San Antonio, Texas .- There has been rain on one day of

San Antonio, Texas.—There has been rain on one day of the week, to the extent of three hundredths of an inch. The thermometer has averaged 60, ranging from 50 to 70. New Orleans, Louisiana.—We have had rain on six days during the week, the rainfall being two inches and fifty-eight hundredths. The thermometer has averaged 63. Shreveport, Louisiana.—The Red River is in flood in Arkansas and Louisiana. There has been rain on three days of the past week, the rainfall being ninety-four hundredths of an inch. The thermometer has ranged from 51 to 74, a vergeing 63. averaging 63.

Helena, Arkansas.—Too much rain for farming opera-ons. The river is now six feet below high-water mark and ne and one half feet below the levees. The country is untions. nine and one half feet below the levees. The country is un-der water where there are no levees, but there is no danger behind levees. There has been heavy rain on three days of the week. The thermometer has averaged 57.7, the highest

the week. The thermometer has averaged 57.7, the highest being 69 and the lowest 48. Memphis, Tennessee.—All farm work has been suspended. The river is thirty-six and one-tenth feet on the gauge, or three and one-tenth feet over the danger line and one and one ard one-tenth feet below the high-water mark of 1898. There has been rain on five days of the past week. The rainfall reached three inches and fifty hundredths of an inch. The thermometer has averaged 59.1, ranging from 46 to 72. Nashville, Tennessee.—It has rained during the week, the rainfall being two inches and eighty-two hundredths. The thermometer has ranged from 50 to 74, averaging 63. Mobile, Alabama.—Rainy weather most of the week in the interior, with heavy precipitation in midweek. Low lands are still flooded. Farm work is practically suspended and

interior, with he are still flooded. interior, with heavy precipitation in midweek. Low lands are still flooded. Farm work is practically suspended and little accomplished to date. Rain has fallen during the week to the extent of ninety-five hundredths of an inch, on four days. Average thermometer 67, highest 74 and lowest 59. *Montgomery, Alabama.*—Farm work is backward, owing to bad weather. We have had rain on three days during the week, the precipitation being ninety-nine hundredths. The thermometer has averaged 68, the highest being 80 and the lowest 56.

lowest 56.

Selma, Alabama.-There has been rain during the week to the extent of two inches and ten hundredths, on three days. The thermometer has averaged 68, ranging from 60 to 75. Madison, Florida.—We have had rain on one day of the week, the precipitation reaching ten hundredths of an inch.

The thermometer has ranged from 62 to 84, averaging 72.

Savannah, Georgia.—There has been rain on three days of the week, the rainfall being five hundredths of an inch. Av-erage thermometer 58, highest 77 and lowest 56. Augusta, Georgia.—The season has been unfavorable thus far on account of excessive rainfall. We have had rain on four days of the week, the precipitation reaching twenty-four hundredths of an inch. The thermometer has ranged from 55 to 78 averaging 67

from 55 to 78, averaging 67. Charleston, South Carolina.—It has rained on three days of the week, the precipitation reaching thirty hundredths of an inch. The thermometer has ranged from 57 to 75, aver-

an inch. The thermometer has ranged from of to 10, aver-aging 66. Stateburg, South Carolina.—The weather has been cloudy and threatening all the week. Plums, peaches and yellow jessamine are blooming. Rain has fallen on three days of the week, the rainfall being one inch and forty-two hun-dredths. Average thermometer 66.5, highest 80, lowest 56. Greenwood, South Carolina.—There has been rain during the week, to the extent of thirty-six hundredths of an inch. The thermometer has averaged 62, the highest being 71 and the lowest 54.

the lowest 54.

The following statement we have also received by telegraph showing the height of the rivers at the points named, at 8 o'clock March 12, 1903, and March 13, 1902.

EUROPEAN COTTON CONSUMPTION TO MARCH 1.- By cable to-day we have Mr. Ellison's cotton figures brought down to March 1. We give also revised totals for last year that March 1. We give also revised totals for last year that comparison may be made. The spinners' takings in actual bales and pounds have been as follows:

Oct. 1 to March 1.	Great Britain	Oontinent.	Total.
For 1902-03. Takings by spinnersbales Average weight of bales.lbs Fakings in pounds			,,
For 1901-02. Takings by spinnersbales Average weight of bales.lbs Takings in pounds.		497	-,,

According to the above, the average weight of the deliveries in Great Britain is 502 pounds per bale this season, against 504 pounds during the same time last season. The Continental deliveries average 483 pounds, against 497 pounds last year, and for the whole of Europe the deliveries average 490'5 pounds per bale, against 499'3 pounds last season. Our dispatch also gives the full movement for the four months this year and last year in bales of 500 pounds.

Oct. 1 to March 1.		1902-03.	12 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1	1901-02.			
Bales of 500 lbs. each, 000s omitted.	Great Britain	Oonti- není.	Total.	Great Britain	Oonti- nent.	Total.

Spinners' stock Mch.1	386	881,	1,267,	258	661,	919,	
Weekly Consumption 000s omitted.	T PE-J	14 92-of	ce esta	36 4.73	(si.en	in the let	
In October	65,	94,	159,	*60,	92,	152,	
In November	65,	94,	159,	66,	92,	158,	
In December	65,	94,	159,	66,	92,	158,	
In January	65,	94,	159,	66,	92,	158,	
In February	65.	94.	159.	66.	92.	158	

Mr. Ellison the European mill stocks, as reported by him for the current year, show an excess of only 348,000 bales over 1902, instead of 400,000 bales, as would have been the case had he not made the revision referred to. We make this explanation for the reason that the revision of Barcelona stock last year was not made until July 25.

Saipping NEWS.—As shown on a previous page, the exports of cotton from the United States the past week have reached 222,370 oales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

BREADSTUFFS.

FRIDAY, March 13, 1908.

Business in the market for wheat flour has been fairly active Bayers have been bidding freely for spring patents to come forward, either all rail or opening of navigation. In some instances, however, buyers have been a trifle low in their views, and this has held the trading in check to a lim-ited extent. Winter wheat flour has continued to meet with a fair sale and at firm prices. City mills have been steady. The demand for rye flour has been limited to jobbing orders but prices have been unchanged and steady. Corn meal has been in moderate demand and steady.

Speculation in wheat for future delivery has been fairly active, but at declining prices. The feature of the trad-ing has been the liquidation of the long interest in May, part of which has been transferred to July, and has been re-flected in a considerable narrowing of the difference in price between these two delivering. The decomposed with the price between these two deliveries. The downward drift to values was most pronounced during the first half of the week and was largely in anticipation of a bearish Government report, which was issued after the close of business on Tuesday, and placed the reserves in farmers' hands at 164,000,000 bushels, or about as was expected. The reports from the winter-wheat belt have continued to advise a favorable outlook for the growing crop; the crop movement has been fairly full and European cable advices have reported quiet and sagging markets, all of which have had their influence in creating a desire on the part of speculative holders to liqui-Mild weather has been reported in Europe and crop date. conditions have been reported as improving. Navigation is re-opened in Southern Russia, and it is expected that large shipments of wheat from Russia and the Danube will soon follow. On Wednesday there was a temporary recovery in prices on buying by shorts to cover contracts, stimulated by reports of comparatively small exports of wheat for the week from Argentina and some improvement in the export demand for American wheat. The spot market has been easier and at the lower prices exporters have been moderate buyers. To day there was an easier market under favorable crop news and unsatisfactory demand in the cash markets. Indian corn futures have been moderately active and there has been a gradual sagging of values, prices showing a fractional decline for the week. Reports of poor grading and unsettled weather retarding the crop movement have been sustaining factors, but sympathy with the decline in wheat values sufficed to carry prices down slightly. There was also some selling in anticipation of a bearish Govern-There ment report and which, when published, showed the reserve supplies in farmers' hands to be 1,050,600,000 bushels. Despite the easier turn to prices, some apprehension exists over the congested condition of May delivery in Chicago. A large long interest is supposed to exist, held by strong financial in-terests, and stocks of contract grade are limited. The spot market has been easier and only a limited volume of business has been transacted with exporters. To-day the market was quiet, but steady.

Sept. delivery in elev 434 434 4358 4378 43% 434 Oats for future delivery at the Western market have been quiet and only slight changes have occurred in prices. Darquiet and only sight changes have occurred in prices. Dur-ing the first half of the week there was an easier tendency in sympathy with the decline in values for other grains, but this loss was subsequently partially recovered. The local spot market has been fairly active and there has been a slight advance in prices. To-day the market was slightly higher on reports of a good trade demand.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., Mar. 13, 1903.

In all departments business this week has been on a quiet scale. The demand at first hands has further fallen away and business with jobbers has been smaller than for a numand business with joboers has been smaller that for a hum-ber of weeks past. Quiet conditions are generally looked for about now, but this week they have been accentuated by bad weather interfering with the distribution of merchandise. Reports from various parts of the country speak of floods and bad roads telling upon trade. The cotton goods division has also again been under the influence of the erratic cotton market and buyers and sellers are at the close of the week quite as uncertain as they were a week ago of what the outcome of the speculation in raw material will be. This uncertainty, of the speculation in raw material will be. This uncertainty, as noted last week, tells with both, keeping them in decidedly conservative frame of mind. Meanwhile on their merits cotton goods are strong, the limited demand being fully offset by the scarcity of merchandise available for ready deliveries. Price changes are few, but have been against buyers.

WOOLEN GOODS .- The week's business in men's-wear woolen and worsted fabrics has not shown any improvement in volume, and to many sellers has been of an unsatisfactory character. The further the season progresses the more the condition of some sellers becomes. In many instances the first round of business failed to come up to expectations and subsequent buying has not helped to improve matters. There are leading lines in both staples and fancies so well sold that their handlers have no cause for anxiety; but taken sold that their handlers have no cause for abxiety; but taken as a whole the business done in heavy-weights up to date has undoubtedly been disappointing in volume. It has also been disappointing to many sellers so far as prices go. Early ef-forts to secure advances have not always been maintained and numerous revisions since then have reduced the price situation to quite an irregular condition. The demand for overcoatings has been indifferent and cloaking business small. The general tone of the market for woolen and small. The general tone of the market for woolen and

worsted dress goods is firm. The demand is well sustained considering the good business already done, and takes in both staples and fancies in fair proportions.

DOMESTIC COTTON GOODS, —The exports of cotton goods from this port for the week ending March 9 were 20,157 packages, valued at \$595,131, their destination being to the points specified in the tables below:

NEW YORK TO MAR. 9.		1903.	1902.			
DEW KORK TO MAR. D.	Week.	Since Jan.1.	Week.	Since Jan. 1.		
Great Britain	117	434	42	471

OtherCountries	263	1,766	184	2,158		
Total.	20,157	112,206	2,383	50,845		

The value of these New York exports since Jan. 1 to date

The value of these New York exports since Jan. 1 to date has been \$4,468,669 in 1903, against \$2,875,408 in 1902. Brown sheetings and drills are very firm in price, but not quotably higher. The home demand is quiet and export buying insignificant. Bleached cottons wear a hardening appearance and several tickets have been advanced 4c. per yard during the week. The demand is moderate, but the market is in very clean condition. There has been no change in the prices of wide sheetings. Buying of ducks and brown osnaburgs have been moderate at full prices. Cotton flannels and blankets show no change. Denims are scarce and more or less sold ahead, but the demand is not pressing enough to justify further advance in prices. Plaids and cheviots are also scarce and very firm. Tickings are unchanged in price. Kid-finished cambrics are very firm but quiet. The demand for staple prints has ruled quieter than of late, but the mar-ket is well sold and prices are firm. There has been a fair amount of buying of some staple prints for export. Printed flannellettes are generally sold ahead and domets are well situated. The demand for ginghams is in excess of supples in both staple lines and forging. situated. The demand for ginghams is in excess of supples in both staple lines and fancies. The print cloth market has been quiet all week for both narrow and wide goods without change in prices. Regulars are quoted at 3 5-16c., but the price is nominal.

FOREIGN DRY GOODS .--The demand for fine grades of foreign dress goods is well maintained and the market is firm. Silks also firm, with a fair demand. Ribbons unchanged. Linens are selling at full prices. Burlaps, again tending against buyers.

Importations and Warehouse Withdrawals of Dry Goods The importations and warehouse withdrawals of dry goods at this port for the week ending Mar. 12, 1903, and since January 1, 1903, and for the corresponding periods of last year are as follows:

	Total	Manufacturesof- Wool Ootton Silk. Flax. Miscellancous	W.I.	Totalmarketed 3	Totalwithdrawals 1 Ent'd for consump.	Manufacturesof- Conton Silk. Flax. Miscellaneous		Total	Manufactures of

STATE AND CITY DEPARTMENT.

News Items.

Idaho.-Legislature Adjourns.-The Seventh Session of the State Legislature concluded its labors on March 7. Indiana.—Legislature Adjourns.—The State Legislature adjourned March 9, 1903.

adjourned March 9, 1903. New Hampshire.—Amendments to the State Constitution. —Ten proposed amendments to the State Constitution were submitted to a vote of the people at the election held March 10. Returns received indicate that four out of the ten were ratified. Among the successful ones was that referring to the franchise and inheritance tax and that relating to trust regulation, both of which were mentioned in the CHRONICLE January 10. Among those defeated was the sumerdment referring Among those defeated was the amendment re-January 10.

January IO. Among those deteated was the amendment re-lating to woman suffrage, the vote in this instance being very heavy against the proposition. New York City.—Sinking Fund Bill Passes Senate.—The Marshall Sinking Fund Bill was passed by the Senate March 11. This bill provides for the utilization of up-wards of \$8,000,000 angually excess revenues pladed to March 11. This bill provides for the utilization of up-wards of \$8,000,000 annually excess revenues pledged to the "Sinking fund of the City of New York for the redemp-tion of the city debt," under Chapter 383, Laws of 1878, above the proportionate annual amount necessary to meet the obli-gations of the fund up to 1928, when the final obligation becomes due. It is proposed under the bill to issue what are to be known as "general fund bonds" (to mature not earlier than 1929) only to the Board of Commissioners of the Sink-ing Fund and after the redemption of all bords and attack ing Fund, and after the redemption of all bonds and stocks redeemable from this sinking fund the "general fund bonds" are to be canceled. The proceeds of the sale of the general fund bonds will be used to reduce taxation. At present far greater revenues go into this sinking fund than are necessary to meet all requirements. The Comptroller estimates that in 1928, when the last bond matures, this sinking fund will have upwards of three hundred million dollars in excess of have upwards of three hundred million dollars in excess of the amount required to redeem the bonds having liens on it. In 1902 the annual excess was figured to be \$8,465,106 80. It is to release this yearly sum for the benefit of the taxpayers without violating the provisions of the law of 1878 that the new Act has been drawn up. North Carolina.—Legislature Adlourns.—The Legislature of this State adjourned on March 9. North Datata —Legislature Adlourns.—The Eighth Legis.

North Dakota,-Legislature Adjourns.-The Eighth Legis-lative Assembly of North Dakota adjourned March 5. The Legislature provided for bond issues for the erection of addi-Legislature provided for bond issues for the erection of addi-tional buildings at the University at Grand Forks, for the State Agricultural College at Fargo, for the Deaf School at Devil's Lake, for normal schools at Valley City and Mayville, for addition to the State Capitol at Bismarck, for the Blind Asylum at Bathgate, for the Scientific School at Wahpeton and for the Insane Asylum at Jamestown and Reform School at Mandan.

Stevens County, Wash.—Interest Rate to be Reduced.—The House has passed a bill reducing the rate of interest on some \$21,000 county bonds owned by the State from 6%, as at presto 4%. ent.

Tonawanda, N. Y.-Bill Creating City.-Chapter 22, Laws of 1903, creates the city of Tonawanda out of the present village of that name.

The Act provides for 5% bonds of \$100 each, maturing in from six to twenty-five years. Its purpose is to assist the agriculturalists on the island by loaning the Pocatello (Idaho) Independent School District No. 1.

money to banks, who in turn will loan the same to the farmers. The Act is now before the Council.

Providence, R. I.-Bond Offering.-Proposals will be received until 12 M., March 20, by Walter L. Clark, City Treasnrer, for \$500,000 31/2% gold sewer bonds. Denomination, if coupon, \$1,000; if registered, \$1,000, \$5,000, \$10,000 or \$20,-000, as desired. Date, April 1, 1903. Interest semi-annually, coupons being payable at the office of the City Treasurer or at the National City Bank of New York City and registered interest being transmitted by mail. Maturity, April 1, 1933. Racine, Wis.—Bond Offering.—Proposals will be received until 2 P. M., March 19, by John Fennell, City Treasurer, for

the following bonds :

\$55,000 316% sewer bonds, dated Feb. 1, 1902, and maturing \$4,000 yearly on Feb. 1 from 1903 to 1906, inclusive, and \$3,000 yearly on Feb. 1 from 1907 to 1919, inclusive.

80,000 3½% school bonds, dated Feb. 1, 1903, and maturing part yearly on Feb. 1 as follows: \$2,0 0 each year from 1904 to 1910, inclusive; \$3,000 in 1911 and also in 1912; \$5,000 from 1913 to 1918, inclusive, and \$6,000 from 1919 to 1923, inclusive.

Denomination of both issues, \$1,000. Interest payable at the office of the City Treasurer. Mr. Fennell adds that "if the market for bonds is such that a $3\frac{1}{2}$ bond finds no sale, state what commission will be required to pay par value for the same." We presume that the \$55,000 sewer issue is the same as that awarded on Feb. 26 to S. A. Kean of Chicago. See V. 76, p. 557, 398.

Wilmington, Del.—Bonds Proposed.—The Street and Sewer Department has asked the City Council to petition the General Assembly, for authority to perotiate a \$100,000

Sewer Department has asked the City Council to petition the General Assembly for authority to negotiate a \$100,000 loan to build sewers in the Ninth Ward. Bonds Proposed. - The Water Commission will ask the State Legislature to pass a bill authorizing a loan of \$200,000 to construct the Porter Reservoir and water filter. Wilmington, Mass.-Bond Bill Vetoed.-Governor Bates on February 24 vetoed a bill providing for a loan of \$30,000 outside the debt limit for the purpose of building a new town hall. The bill authorized a 30 year loan, and the veto was on the ground that it was contrary to State precedent, and that the amount to be borrowed was nearly 6% of the town's that the amount to be borrowed was nearly 6% of the town's valuation, instead of the 3% which the law allows. The Gov-ernor added that the usual rule of 20-year bonds and the percentage of 3% of the town's valuation should govern in this case, as in the past. Windsor, Ont.—Debenture Offering.—Further details are at hand relative to the off-ring of debentures by this city.

Proposals will be received until 12 M., March 15, by Stephen Lusted, City Clerk, for \$20,000 4% debentures maturing part yearly on August 20 from 1903 to 1922, inclusive, and \$28,-363 4% debentures maturing part yearly on February 1 from

1904 to 1918, inclusive. Wyandotte County, Kan.—Bond Bill Signed.—The Gov-ernor on February 27 signed a bill authorizing \$30,000 bridge bonds.
