THE FINANCIAL SITUATION.

In studying the favorable and unfavorable reports bearing upon the condition of the crops, correct conclusions can only be reached by interpreting them through and by the light of a series of well-defined experiences. Every ordinary farmer, and in fact the large majority of men looking over a pasture or a piece of land put down to grass or corn, or any other grain, will, after a long, severe drought or prolonged heavy rains or floods gain and communicate to the public quite a hopeless idea of the outcome, much more hopeless in the majority of cases than the result will confirm. If the same observer kept a book of averages and looked at a given situation through them, he would modify his conclusions materially; and not alone by simply discounting them by a fixed rate of exaggeration, but also discounting them according to the season of the year and the character and point in development of the crop affected where the disaster was believed to have occurred.

We are led to these often-forgotten but commonplace suggestions by a notable experience this season. Take a railroad ride the coming week, with an occasional stop-over, and in this way go through the New England and the Middle States. Remember at starting what was the almost everywhere reported situation by the farmers and crop reporters only four weeks ago. We wrote upon it at that time (See OHRONICLE, June 13, page 1268,) in this column. A drought lasting 50 days or more throughout those districts had just then been broken. The burden of the news which had filled the columns of the daily press was most gloomy and dispiriting because of the apparent desolation that prevailed all through those farming sections. As to crops and garden vegetables for the family, and pastures and fodder for the cattle, it was simply foolishness to anticipate anything of the kind. As for a hay crop, it was an absolute impossibility this season. We presume there were spots of considerable extent where conditions were less deplorable. All we can say about them is that the owners of the exceptions did not make themselves and their better condition known. What is the situation at the close of June? Information we have received added to considerable personal inspection and a moderate amount of personal experience goes to show that a marvel, perhaps we might say a miracle, has been wrought. It would not do to affirm of the seeds planted through the drought that they have come up thick and in regular order in every case. Some farmers' seeds scarcely ever come up in that way. We defy any one, though, to find a poor pasture on the first of July in the sections named, except such as had entirely run out before this year; and many that a year ago were but dry pickings are producing bountifully now. As for a hay crop, the general story is that it is going to be late, and possibly, not certainly, the stem will be a little shorter than usual; it will, though, be thick, and presumably in tons it will equal if not exceed an average year. Wheat, oats, rye and corn look fairly promising and the last-named, corn, unusually healthy and stocky.

The chief value of this incident is that it strengthens and confirms important truths. (1) Never to accept all that is reported, officially or otherwise, about disaster to the crops. (2) Ruin that is widely proclaimed in the spring months as frequently as not means nothing. (3) The circumstance that a crop is favorable influences were the much better news.

late at the start may be of importance to the consumer and the speculator whose want is pressing, but it means very little as a gauge to the year's product.

The appointment of a receiver for the United States Shipbuilding Company has led to much loose talk about industrials, as if they were all dishonorably organized, dishonestly managed, and likely in one body soon to go into insolvency. Such wholesale heedless criticism is hardly worth noticing. There is, though, a charge almost always made against industrials, on occasions like the present, that is clearly untrue in the broad way it is asserted, and yet deceives many careless readers. We refer to the matter of capitalization. The common remark is that the aggregate stock and bonds of industrial organizations is in all cases very largely water, and the proof presented is secured by adding up the previous issues of the aggregated companies in the combination. The facts given should not be accepted as evidence of the conclusion. The net profits and the dividend-paying power are the only test of value. No combination could ever be made except it is made on that basis. A man perhaps spends a lifetime in building up an enterprise. He is accosted by a would be purchaser. If willing to sell he does not ever offer his property on the basis of his capital account, but on his net revenue from the undertaking. The buyer, if he is of good judgment and engaged in the development of an industry in a thoroughly honest way, may capitalize his new creation at any figure which the better conditions developed by the combination will enable it to pay. If that method is adopted, and fair dividends are earned and paid, both the promoter's judgment and the capitalization have been justified—that is to say, it is an honest transaction all the way through; the public is benefited by it and no one suffers from it except those who are always envious over another man's success.

Such strength, to be sure, does not represent the situation of all the new combinations which have been brought into being within the present cycle of prosperity. No doubt there are a considerable number among such enterprises which were gotten up solely for the profit the promoters could make out of them. There are others which may have been honest in their inception, but were built upon a revenue in a year the most prosperous this country ever enjoyed. Others, no doubt, have been rotten from the very start. The careful observer can spot those classes at a glance, for there are features common to them allone is, they let the public know little or nothing about their proceedings or revenue conditions; another is that they are usually bought and sold in the market on "tips." A rigorous reorganization is, we imagine, the fate which awaits such creations. Just now there appears to be for them no other road open to solvency. But there are few of these compared to the whole class of industrials.

During the earlier portion of the week our Stock Exchange showed increased strength and more activity. This, no doubt, was mainly due to the fact that the Pennsylvania stockholders were reported to have taken the entire amount of the company's stock offering, namely \$75,000,000. We have remarked upon that feature at length on a subsequent page. Other

with reference to the crops, especially from the Northwest, and some good reports of earningsnotably the statement of the Reading Railroadand the fact value that so many roads indicate in their latest reports no falling off in net income, and a good many show increases. On Wednesday money was more active, call loans touching 10 per cent; foreign exchange also showed an inclination to ad vance. These facts, together with developments respecting the condition of the Shipyard Trust, added to the subsequent appointment of James Smith Jr. as Receiver, were followed first by a little setback and since then by declines through the whole list properties. Yesterday noon the statement of of the associated banks was made public, and it was so unfavorable as to further depress the market.

The Secretary of the Treasury announced on Monday that on and after July 31 no bonds will be received by the Department for refunding under the terms of the circular of March 26, in which the Secretary offered to refund the 3 per cents of 1908 and the 4 per cents of 1907, to an amount not exceeding \$100,000,000, into the 2 per cent consols of 1900. The total of bonds refunded since April 1 up to the end of June was \$74,574,800. The exchanges to the close of business on July 2 aggregated \$74,965,000. It is expected that the order suspending refunding will stimulate applications for the exchange of bonds so that before the end of the month the full amount of \$100,000,000 will have been refunded. The Comp. troller reports that national bank circulation increased \$7,227,445 in June.

As discussion regarding the outlook for the growing crops is active at present, it is interesting to observe that Mr. F. D. Coburn, the Secretary of the State Board of Agriculture, has just given out a very encouraging report concerning the Kansas wheat crop. Mr. Coburn's report comes down to June 20. He finds of course some loss, as compared with a few weeks ago, by reason of the damage done by excessive rains and floods. But as indicating how comparatively insignificant injury of that kind, even at the worst, is apt to be when previous conditions were good, it may be noted that, though his correspondents say that about 5.4 per cent (or 321,937 acres) of the entire area sown to wheat last autumn has been so seriously damaged from various causes that the wheat on it will not be cut, yet even after allowing for this, 5, 709, 485 acres still remain under wheat, which is in excess of the acreage harvested two years ago, which was 5,248,547 The significance of this comparison acres. lies in the fact that the 1901 crop, according to the figures of the Agricultural Bureau at Washington, reached the prodigious figure of 99 million bushels, or the very largest ever produced in that State. Last year, as the reader will recall, wheat in Kansas fared badly, and the State's yield, therefore, was only about 46 million bushels. It would appear, therefore, as if this year's wheat crop in Kansas was likely to come up to the exceptional production of two years ago, and this conclusion is emphasized by the fact that the general average of condition for 1903 is reported 89, whereas in 1901 the condition was reported only 82. The corn crop in that State is backward, the same as elsewhere, and according to Mr. Co-'as against 6,165 in the six months of 1902. Moreover

burn's figures the area planted to corn is at the same time 9 per cent smaller. The condition of that crop is given as only 73.3 per cent, but we all know that a few weeks of hot, forcing weather would cause a decided improvement. As a matter of fact the Kansas Bureau states that recent warm, sunshiny weather has already accomplished much good, and that the average for the State, if brought down to the present date, could safely be put several points higher.

The "Railway Age" of Chicago has published its usual half-yearly statement showing the number of miles of new track laid in the United States, and the figures indicate that new railroad construction is still being prosecuted on a moderate, conservative scale. The "Age" reports only 2,221 miles of new road built during the six months. This is not quite as large as the new mileage added during the first half of 1902, which amounted to 2,314, the total for the entire twelve months of 1902, according to the "Age's" tabulation, having aggregated 5,684 miles. Our contemporary says that the unrest in the labor world, due to the epidemic of strikes and the high prices of track material, have caused the postponement of much important work, and the difficulty of securing rails has continued, making it impossible to lay track as fast as the roadway is completed. The more important lines which were started last year or earlier are being pushed to completion as rapidly as conditions will permit, but other new projects are making slower progress. We think there is no [reason for complaint in the circumstance that amount of new mileage no very great 18 provided. Indeed it is one being of the favorable features of the existing situation that there has been in the present era of business activity no such reckless building of new road as distinguished some former periods of industrial prosperity. Of course the "Age's" statements cover only steam roads. In the case of electric street and suburban roads the story is somewhat different; here considerable additions to existing mileage have been made, where in past periods very little new track was laid.

The closing of the half-year this week invites attention to the trade records for that period. On the whole these records disclose a pretty satisfactory condition of things. Take the statements of the mercantile failures for instance, as reported by Dan's "Review." We all know that during the past six months various drawbacks have existed, adding to the cares and difficulties of merchants and traders in carrying on Chief among the disturbances may business. be mentioned the extensive labor troubles. Floods and other disasters also played their part in affairs, besides which manipulation of some staple commodities like cotton were a further obstacle to the even course of things. That therefore the liabilities involved in the failures of the six months of 1903 should be somewhat larger than for the six months of 1902 is not surprising. These liabilities are reported at \$66, 797, 260, as against \$60, 374, 856. But while the liabilities were larger, so also were the assets, the increase in this latter particular being almost five million dollars. On the other hand the number of failures was considerably less, being given as only 5,628,

the situation was particularly encouraging in the closing month of the half-year, when the amount of liabilities of defaulting concerns aggregated only \$8,-326,654, as against \$10,193,917 in the month of June 1902, and \$10,539,559 in June 1901.

Turning now to bank clearings, the extensive compilations given elsewhere (see page 1 and also page 16) are useful as showing the steady growth in the volume of trade, notwithstanding the various drawbacks and disturbances mentioned. At New York the total of clearings varies greatly from month to month and from year to year, according to the relative activity of Stock Exchange speculation. Last year, with the great falling-off in the dealings on the Stock Exchange, the total of clearings for the country, including this city, underwent contraction of 10.3 per cent; this year, with Stock Exchange speculation still smaller, the further shrinkage in clearings for the six months has been quite insignificant, reaching only a triffing fraction of 1 per cent. The best indication of the mercantile situation is furnished when New York is excluded from the list. In that case there had been an increase of 6.4 per cent in 1902 over 1901, and now in 1903 there is an increase of 5.1 per cent over 1902. And this improvement has been going on continuously for many years past. Thus for the six months of 1903 the clearings outside of this city foot up 21,565 million dollars, as against 20,511 millions in 1902, 19,233 millions in 1901 and but 16,572 millions in 1900. In other words, in the three years these clearings outside of New York have risen about 5,000 million dollars, or over 30 per cent. In June, the closing month, the record is much the same, bank exchanges outside of New York for that period in 1903 being 3,675 millions, as against 3,242 millions and 3,235 millions in 1902 and 1901, and only 2,780 millions in 1900.

The Pennsylvania Railroad return of earnings for May, issued the present week, is not quite so good as that for April, and yet is on the whole satisfactory, especially considering the addition to operating expenses occasioned by higher wages and the increased cost of other items entering into the operating accounts. The results attract the more attention owing to the great success the company has had in disof its 75 millions of new stock, posing which latter we discuss in a separate article on a subsequent page. On the lines directly operated East of Pittsburgh and Erie, there is an increase for the month of \$722,700 in gross earnings, attended by an augmentation of \$812,300 in expenses, leaving a loss in net of \$89,600. On the lines west of Plttsburgh and Erie there is \$534,700 gain in gross, with \$433,200 increase in expenses, leaving \$101,500 improvement in net. On the combined lines, therefore, we have \$1,257,400 gain in gross and \$1,245,500 angmentation in expenses, giving only \$11,900 improvement in net. As this, however, follows no less than \$2,168,100 increase in gross and \$994,700 increase in net on the combined lines in this month last year, the showing is as good as could reasonably be expected. For the five months to May 31 the loss in net on the combined lines has now been reduced to \$746,700. In the following we show the gross and net earnings for May and the five months on the lines directly operated East of Pittsburgh and Erle-the only portion of the system for which we have the data for such a comparison.

LINES EAST OF PITTSBURG.	1903,	1902,	1901.	1900.	1899.	1898.
May.	8	*	8	\$		\$

sion for 1901, 1902 and 1903. In May, 1901, the earnings of this division were, approximately, gross, \$651,371; net, \$132,067. From January 1 to May 31 the earnings of this division in 1901 were approximately \$2,942,141 gross and \$743,833 net.

There was no change in official discount rates by any of the European banks this week. The Bank of Bombay and the Bank of Bengal, however, reduced their discount rates from 5 per cent to 4 per cent. The striking feature of the official statement of the New York Associated Banks last week was the gain of \$6,309,400 in cash. Loans were increased \$8,925,800 and deposits were augmented \$13,940,500. The reserve requirements were increased by \$3,485,125, which sum, deducted from the gain in cash, leaves \$2,824,275 as the increase in surplus reserve, carrying this item to \$12,923,850. Computed upon the basis of deposits less those of \$37,226,300 public funds, the sarplus was \$22,230,425. The bank statement of this week was issued on Friday, the Fourth of July holiday occuring on Saturday. The return showed a loss of \$4,502,900 in cash. Loans were increased \$3,697,-300 and deposits were increased by \$173,100. The reserve requirements were higher by \$43,275 and the surplus reserve was decreased \$4,546,175 to \$8,377,-675. Computed upon the basis of deposits less those of \$37,263,200 public funds, the surplus is \$17,693,-475. The cash holdings were affected by the transfer of \$1,000,000 to New Orleans through the Sub-Treasury and also by the shipment of \$500,000 to Canada by the Canadian bank agencies. The Bank of British North America is advised of the arrival at San Francisco from the agency at Dawson City, B. C., of \$415,-000 in Klondike gold, which will probably be transferred, through Assay Office check, to New York. The Canadian Bank of Commerce is also advised of a shipment of Klondike gold amounting to about \$1,800,-000, part of which, it is expected, will be transferred hither next week. This is the first consignment of Klondike gold for the season.

Money on call representing bankers' balances loaned on the Stock Exchange during the week at 10 per cent and at 2 per cent, averaging about 5 per cent. On Monday loans were at 5 per cent and at 2³/₄ per cent, with the bulk of the business at 3 per cent. On Tuesday transactions were at 10 per cent and at $4\frac{1}{2}$ per cent, with the majority at $5\frac{1}{2}$ per cent; the higher rate was due to the calling of loans preparatory to the disbursement of July interest and dividends. On Wednesday loans were made at 6 per cent and at 2 per cent, with the bulk of the business at 4½ per cent; in the afternoon large amounts were loaned by the banks at 3 per cent, and this had the effect of causing a fall in the rate to 2 per cent in the final dealings. On Thursday transactions were at 6 per cent and at 3²/₄ per cent, with the majority at 4 per cent. On Friday loans were at $4\frac{1}{2}$ per cent and at 2 per cent, with the balk of the basiness at 3 per cent. Banks and trust companies loaned at 3 per cent as the minimum. Time loans were easy and

offerings on good mixed Stock Exchange collateral were at 3½ per cent for thirty to sixty days, 4 per cent for ninety days, 4½ per cent for four months, 5 per cent for 6 months and 5½@5½ per cent for seven to eight months. Commercial paper was quoted at 5@ 5½ per cent for sixty to ninety day endorsed bills receivable, 5½ per cent for prime and 6 per cent for good four to six months' single names.

The Bank of England's minimum rate of discount remains unchanged at 3 per cent. The cable reports discounts of sixty-to-ninety day bank bills in London $2\frac{1}{4}$ @ $2\frac{3}{5}$ per cent. The open market rate at Paris is $2\frac{3}{4}$ per cent and at Berlin and Frankfort it is 3 per cent. According to our special cable from London the Bank of England lost £397,395 bullion during the week and held £37,311,188 at the close of the week. Our correspondent further advises us that the loss was due to imports of £460,000, of which £430,000 were from the Cape and £30,000 from Australia, to exports of £428,000, of which £25,000 to Buenos Ayres and £403,000 sold in the open market, and to shipments of £429,000 *net* from the interior of Great Britain.

The foreign exchange market was easy earlier in the week influenced by offerings of bills against securities bought in this market for European account, and it is reported that there were some long bills offered representing sterling loans negotiated by speculators in cotton at New Orleans and at other Southern cities, who pledged the cotton, which they have been carrying, as security for the loans ; the amount negotlated was not large, but the transactions had some influence upon the market for long sterling. After Wednesday the tone grew firmer owing to a better demand for remittance. Long sterling was affected by the low discounts in London, which made this class of bills desirable for remittance in preference to short. Sight sterling was in request to remit for stocks sold for London account, speculators there realizing upon recent purchases. The market was also to some extent affected by easier rates for money in New York, but the chief influences were those above noted. Continental exchange was steady during the week and the fluctuations were within a narrow range. The Assay Office paid \$623,794 88 for domestic ballion. Gold received at the Custom House for the week, \$149,110. Nominal quotations for exchange were 4 851 @4 86 for sixty day and 4 88@4 881 for sight. Rates for actual business in sterling opened weak on Monday at a decline, compared with those on Friday of last week, of 10 points for long, to 4 85@4 8510; of 15 points for short, to 4 8730@4 8745, and of 10 points for cables, to 4 8775@4 8785. The tone was heavy on Tuesday, and though rates for long were unchanged, those for short fell 15 points, to 4 8715@4 8725, while cables declined 20 points, to 4 8755@4 8770. The market grew steadier on Wednesday, when short rose 5 points, to 4 8720@4 8730; long and cables were unchanged. On Thursday the tone was firm in response to a good demand for remittance. Long rose 10 points, to 4 8510@4 8525; short 10 points, to 4 8730@ 4 8740, and cables 15 points, to 4 8770@4 8780. The market was firm on Friday at an advance of 10 points for long and short.

The following shows daily posted rates for exchange by some of the leading drawers.

SUCCESS OF THE PENNSYLVANIA RR. STOCK OFFERING.

The successful floating of the Pennsylvania Railroad Company's 75 million dollars of new stock at 120 (or \$60 per \$50 share) must be regarded as gratifying in the extreme, and we think the management and those who co-operated to make the offering such an unqualified success, well deserve the congratulations which are being so generally bestowed upon them. It is not surprising either, that the stock market should have quickly responded to the favorable news, and that the tone should have been distinctly better since then. For this action of the market is simple recognition of the importance of the transaction, and recognition also of the serious consequences, both immediate and remote, which would have followed had the outcome been different.

It must be admitted that skilful financing played an important part in carrying the thing through to a favorable end. The transaction was one of great magnitude, involving the raising of no less than 90 million dollars. We have become accustomed to large transactions in this country, but to provide such a sum of money for a single great corporation is not an every-day occurrence even here. Nor would the undertaking have been a small one for the European financial markets. The task was of course increased by the fact that aside from the extent of the offering, it was brought out at a period of adverse market conditions. Security values were moving lower and lower, Stock Exchange prices were being adjusted to a higher interest basis, while the investing public was not inclined to take up new stock and bond issues with the same avidity as in the past.

At the time when the offer was first announced, last March, no one would have ventured to suggest even a remote possibility of a failure of shareholders to take the 75 million dollars of additional stock. There were real tangible inducements making it an object for holders to avail of their subscription rights. The stock, which had sold at $157\frac{5}{3}$ in January, and as high as 170 the previous September, had sharply declined, but still ruled in the neighborhood of 145 when the announcement of the intention to issue the additional stock was made. As shareholders were to get the new shares at 120 they were thus being offered something that apparently was going to net them a handsome profit.

But the situation quickly changed. No sooner had the proposed new issue been announced than operators for a decline made a determined onslaught on Pennsylvania shares on the Stock Exchange, forcing the price lower with each succeeding day. Of course the decline was not entirely due to short selling. Some holders had not looked for such an exceptional issue of new stock, and did not view it with favor. They accordingly disposed of their holdings, fearing that the company might be going ahead too fast with its outlays and expenditures. There was another class of holders who also let go of their stock, namely those who wanted to realize cash so as to be able to take the new shares--in other words, the plan in this instance was to accept the market price, whatever it was, for existing holdings, and replace the old stock with new stock at the company's offer of 120. All this, however, was simply additional ammunition for those conducting the campaign against the stock, and they pressed their advantage to the utmost. Finally the latter part of May the price got down in the neighborhood of 125, the "rights" to take the new stock, which previously had commanded a substantial figure, were steadily shrinking, and the date for filing subscriptions had not yet arrived, this having been fixed for June 15 to June 27, and the whole operation was in imminent jeopardy.

A mistake at this juncture would have meant failure, and serious failure. It was then that President Cassatt executed a masterly stroke of good policy, and got a syndicate of bankers headed by Kuhn, Loeb & Co. and Speyer & Co. to underwrite the whole subscription of 90 million dollars for the small consideration of 2½ per cent. The importance of this transaction cannot be overestimated. Nor can any one gauge the services rendered by the syndicate. As according to official announcement practically the whole amount of the new stock has been subscribed for, leaving little or no stock for the syndicate to take, statements to the effect that the syndicate will have nothing to do but draw its commission, have a very

plausible look. Such a view, however, ignores some serious considerations. It seems to be forgotten that even after the syndicate had been formed, the undertaking appeared by no means an easy one. Pennsylvania stock reached its very lowest figure after that event, touching 123 last Friday, and the rights declined to a trifling fraction—only $\frac{5}{5}$, against $3\frac{3}{4}$ the previous March. While in the end practically the whole issue was taken, no one knows how much support the syndicate had to extend in the market from time to time to prevent a decline to 120 or below, or what other measures it took which contributed directly to the great success achieved. It has been remarked that it is impossible to say whether the stock would or would not have been placed successfully had the sale been left to the mercies of the open market. For ourselves we think the facts warrant a strong probability that the offering must have proved a failure except for the resort to syndicate underwriting. The reason for this opinion is plain enough. The stock market was utterly demoralized, new security issues were being everywhere discredited, and with bear operators in complete possession, it seems highly probable that they would have found it easy to drive the price down to 115 or even lower. But, with the chance to buy the stock below 120 in the open market, of course no one would have given the Pennsylvania 120 for it-the issue price.

There were other features of the syndicate arrangement which likewise exercised a potent influence for good. In the first place, the fact that powerful banking interests stood ready with a 90-million dollar guaranty was proof of great faith in the property. In the second place, the circumstance that the guaranty was on the basis of 120-with the market figure but little higher—was a sort of intimation on the part of the syndicate that in their estimation the stock was a purchase at that figure. This obviously must have had an influence with wavering stockholders, inducing them to subscribe for the stock where they otherwise would have held off. Finally, the formation of a syndicate for such a large sum was a demonstration of financial strength especially useful in a period financial depression and declining values. of We had been told time and again that financial interests as a whole were so tled up with unsalable securities, through unsuccessful syndicate flotations, that further extensive underwriting, even of meritorious undertakings, was for the time being out of the question. A number of other occurrences had already served to disprove the statement, but it remained for the Pennsylvania operation to furnish the most effective refutation of all. As if to make the demonstration more complete, it happened that Messre. Speyer & Co. and Kuhn, Loeb & Co., when they were arranging the guaranty, invited participation on the part of other financial interests, and received subscriptions to the underwriting for an aggregate of 125 millions stock, as against the 75 millions required, so that syndicate subscribers got only 60 per cent of the amount applied for. Obviously there was no indication of the financial lameness, of which so much has been heard of late, in such a state of things.

ing to official announcement practically the whole amount of the new stock has been subscribed for, leaving little or no stock for the syndicate to take, statements to the effect that the syndicate will have nothing to do but draw its commission, have a very JULY 4, 1903.]

on that account would have been so extreme or so important as on other accounts which it is unnecessary to mention. The same foresight upon the part of the Pennsylvania management which had prompted the syndicate arrangement had also as long ago as last January led to the negotiation of a 40 million loan at 4½ per cent for six months, with privilege of renewal for another six months. Furthermore, by the vote of the stockholders at the meeting in March, the managers also have the right to issue another 50 millions of convertible bonds, which could have been availed of. So the company's immediate needs were abundantly provided for.

INSURANCE AGAINST STRIKES.

According to a press dispatch from Indianapolis, the greatest insurance company in the world is about to be formed by the National Association of Manufacturers; this company will have a backing of 100 millions, and will not only insure its members against strike losses, but will indemnify non-union labor against physical injuries and loss of wages arising from coercion by strikers. An Act just passed in Connecticut incorporates the Mutual Security Company, to be located in Waterbury. The Act is clumsily worded, but its intent is to found a mutual company, limited to persons or corporations engaged in manufacturing, for insurance against direct or indirect damage from total or partial suspension of operations "by reason of flood, epidemic, strike, civil commotion and similar cases." All details as to rates and terms of insurance are left to the company. It may write at fixed rates and divide among the members any excess which may arise, or it may require one premium in cash and a written agreement to pay any assessments made up to five times the cash premium, such agreement to remain a lien on the property during the term of the policy. Membership also expires with the policy and carries no liability for debts. No time is named within which organization must be completed; the Act is permissive.

If manufacturing interests choose to try the experiment of co-operation for such a purpose, no one has a right to forbid; yet there is an indefiniteness in the proposition. During the last half century the applications of insurance have been much extended, and they are probably capable of some further extension; but the practicability of insurance always depends upon the presence of some fundamental conditions which it may be well to state. First, the event insured against must be one which causes a pecuniary injury to some person, or there could be no occasion for indemnity, and it must also be of what may be called a certain-uncertain nature. That is, it must be wholly uncertain as to the individuals it touches and the dates and other particulars, while approximately certain as to the aggregate injury inflicted; or else it must be an event absolutely certain in every case, but uncertain as to date. In the degree that it is uncertain about occurring at all (as in case of lightning and tornado), men do not care to pay for the hazard; the event must have an uncertainty as well as a certainty about it, or the hazard could not be underwritten-nobody bets on a certainty.

All the injuries which may befall property come large enou under the first of the two classes named above; insurance of life—which is really a form of accumulation together?

against a need that is certain but of unknown date constitutes the other class. Secondly, the event insured against must have definiteness, so that its occurrence is ascertainable in fact; this is illustrated by the difficulty which besets insurance of health, since health is somewhat vague. Third, it must be practicable to avoid having too much moral hazard, a factor which can be defined generally thus: Anything in the character or conduct of men that tends to produce the occurrence feared, or to exaggerate its effects. Fourth (and most important) the contingency proposed for insurance must be one which has been or can he brought with reasonable approximation under the law of average.

This compact statement of essential conditions is, of course, not exhaustive, being made with reference to this strike proposition. Considering that case, it is plain that strikes do work a genuine money injury, so that there is something for indemnity; with some qualifications which need not be mentioned now, strikes may be considered as within the "certain-uncertain" condition as defined. But when we consider the problem of average-which means such a scattering of risks over a broad area, and such a recorded knowledge of the number and aggregate of losses, as will furnish a basis for premium rates-we find ourselves quite at sea as to strike insurance. Recorded knowledge comes through experience, and when insurance is carried into an entirely new field the pioneers must move very cautiously lest they be swamped by excessive losses while they are getting the experience. This is a temporary difficulty; the others are more serious. Employing establishments may be scattered enough to give a broad area for average, but in some kinds they are deficient in number; for example, the anthracite mines of Pennsylvania are one small local class by themselves. And how could strike damage be determined, after its occurrence? If confined to buildings and machinery, ascertaining it would be difficult enough; but it largely extends to loss of profits, which are not a proper subject of insurance. Profit is constructive, and in some lines of business (for example, in building) the profit claimed to be lost may go even beyond the interrupted work and conceivably include an estimate on contracts that might have been made had not the disturbance prevented. Who can determine the amount of something which as yet is non-existent?

The element of moral hazard is also an obstacle apparently insurmountable. A man may set his property on fire, or arrange conditions provocative of fire, or neglect usual precautions; underwriters always expect increase of fires when times are hard and prices falling. Similarly, an employer insured against strikes might purposely foment them; or he might produce them by unreasonable conduct with his men, relying upon the guaranty against loss, and this was recognized in a very recent proposition in Connecticut which contained the condition that the employer must show affimatively that he was in no way responsible for the strike ! Such a requirement is clearly impracticable; yet, just as plainly, it would not be safe to take the chances of contributory negligence of a more or less positive sort. This difficulty of moral hazard and that of getting an average are large enough, but that of classification also is large. How shall all the varied lines of industry be brought

[VOL. LXXVII.

Non-union labor is also to be insured against physical injury and financial loss by coercion. Certainly such insurance is most desirable, but it must cover life, person, property and wages, as to all of which the anthracite case of last year comes back vividly to mind. How could the dishonest claimant who has been hurt in some common brawl be always debarred? Who could determine the money value of life or injuries, or the amount of wages lost? The ordinary difficulties of settlement in insurance would be increased in such a field.

But the vagueness of the scheme goes further. Even if each line of industry is to have its own premium rate, who is to bear the cost of working out that rate by experience? To whom is the indemnity claim to be presented? The National Association's Executive Committee (the story runs) have held a secret meeting and "it is likely that the membership will be kept secret, only the officers of the company being made known. If this be done, organized labor will never know, when it orders a strike, whether it is really fighting combined capital or merely making an onslaught on one individual." So the President of the association is reported as saying, but this will never do.

The one thing which the history of underwriting has shown most clearly is this: that substantial in. surance requires definite organization and realized assets in hand; experiments to the contrary are not entirely abandoned yet, but calls upon members of mutual organizations for money to settle losses already incurred have never made and never will make an effectual protection. This being true as to fire and life business, which have a large body of data, the notion of accomplishing anything in so new and peculiarly difficult a field as strike insurance. without a definite organization and strict responsibility, must be dismissed as chimerical; indeed, we do not believe such insurance feasible upon any basis.

Yet it does not follow that organization, or an association, of employers may not and will not be of great practical value in dealing with this persistent trouble. It has already proved to be of value. The most effectual insurance against strikes is by prevention. And prevention may come by such means as clipping the power of the walking delegate and leaving each case and place of disagreement to be treated. by arbitration or otherwise, by the men immediately concerned. This is a way which has proved efficacious in several still recent cases, partly by counterorganization among employers, who are forced to meet disturbance with its own weapons. The other great means of prevention is by a general stiffening of backbone in maintenance of order everywhere.

SERVIA AND THE POWERS.

One of the most curious diplomatic problems, not only of our own time, but of many centuries, has arisen in connection with the Servian affair. The situation deserves some particular attention, not only because of the abnormal and sensational circumstances which created it, but because it contains the germs of possible international developments of the first importance. For it must not be forgotten that the Balkan States are still in many respects a key to continental diplomacy. The various independencies of that region have been erected with the purpose of staking out neutral ground which should serve as a limit to He was, therefore, the properly selected head for a

the territorial ambitions of the great States on either side. From the time of the Congress of Berlin the theory was that these independent kingdoms and principalities were assured of continuance for the simple reason that whichever aggressive neighboring Power were to move for their subversion would at once provoke the active challenge, not only of its immediate territorial rival, but of the other Powers in the European concert. These little States enjoyed their independence in all the more security because it was guaranteed by great States, almost any one of which would have been glad to upset it, but all of which were agreed to let no one Power undertake the task.

It was quite impossible that States thus created and perpetuated should achieve the dignity of a really high-grade government. The motive to keep the Balkan kingdoms and principalities small and unimportant was as strong as the motive to keep them independent. Bismarck's hand moved swiftly and powerfully to arrest any move for the control or absorption of these States by a powerful neighbor; but it was quite as quick in its motion to check the efforts of the one Balkan ruler of individuality and force-Alexander of Bulgaria-to raise his government to a position of genuine consequence. The ambitious experiment of this ruler to extend his dominions and advance his power was followed, first by his diplomatic repulse, then by the actual kidnapping of the Prince and his removal from the throne, to be replaced by a more subservient incumbent. It is hardly to be wondered at that subjects should take matters into their own hands in an extraordinary way, where rulers were thus disposed of by outside influences.

The Servian episode, however, which began with the palace massacre of four weeks ago, and ended for the time in the crowning of Peter Karageorgowitch last week (Thursday), created a very extraordinary situation. In three distinct ways it alienated the Servian people and the beneficiary of the uprising from their diplomatic watchers and guardians. The throne had been made vacant, first, by an act whose bloodthirsty brutality shocked not only the conscience but the instincts of common decency and humanity throughout the civilized world. An army, in the next place, had risen against a ruler, using against him the very means which should have been his guaranty of safety. Finally, dislike of a sovereign had found expression in his assassination. As to what any of the neighboring Powers would have liked to do there is little doubt. The impulse of every such government would have dictated invasion of the offending country, peremptory punishment of the assassins and the placing at the head of government of a new ruler pledged to prevent recurrence of a similar disorder. This was, however, the one impossible alternative. With all their brutality, the Servian assassing calculated shrewdly. Their butchery left behind none of the family to claim succession to the throne, and their instruments promptly offered the succession to the lawful collateral heir. The curious problem then arose, How should the Powers treat the candidate? and how should they define their attitude towards the event which made him king?

Diplomatically they appeared to have no recourse. The new King was regularly chosen by the body lawfully designated for such choice. He was not in any open way a participant in the crime or the conspiracy.

8

government whose chief place had become vacant. There is no way in which diplomacy could effectively protest. The situation had no obvious precedent, at least in the history of modern governments. The case of Charles the First and Cromwell possibly came the nearest to it. But, aside from the fact that the revolting circumstances of the Belgrade massacre were absent in the fall of the English monarchy, Cromwell acquired his place as the result of a series of military victories, and asserted a power which his bitterest enemies had to recognize. The execution of Louis the Sixteenth and his queen was followed by an equally effective display of the powers of government by the French estates. On both occasions the new government was able to challenge and demand the recognition which it might have solicited in vain. The new Servian King appeals to the powers for their encouragement, countenance and support, and makes the appeal as the lawful heir to the Servian throne, in no respect responsible for the violent act which made it vacant.

Confronted by so novel a situation, it is not to be wondered at that some unusual moves in diplomacy should have been adopted. All of the outside governments but two simply express a dignified disgust by withdrawing their Ministers from Belgrade pending the new King's inauguration. This is a somewhat futile expression of feeling, because it is obvious enough that the Ministers must, in due course of time, return. The venerable Austrian Emperor expresses his kindly sentiments towards King Peter, qualified by the statement of a wish that he may raise his "unhappy land" again "after the severe fall which it recently sustained in the eyes of the civilized world through the heinous and universally reprobated crime." Russia goes further, coupling its recognition of the Servian King by voicing its "confident hope" as follows:

That King Peter will be able to give evidence of his sense of justice and firmness of will by adopting measures at the outset to investigate the abominable misdeed which has been committed, and to mete out rigorous punishment to those traitorous criminals who have stained themselves with the infamy attaching to Of course the entire Servian nation or regicides. army cannot be held responsible for the crime which revolts public conscience, yet it would be dangerous to Servia's internal peace not to exact expiation for the revolution carried out with violence by the military. Such neglect would inevitably react in an unfavorable manner on the relations of all the States with Servia, and would create for Servia serious difficulties.

This was about as far as diplomacy could go; in fact it went further than was possible for diplomacy, and for that reason was taken out of the hands of the regular diplomatic channels. In this, by the way, we should say that European diplomacy was considerably more correct than our own in the Kishinev affair. Circumstances of the two episodes were in some respects not at all dissimilar. In both public feeling in outside States was exceedingly strong against an outrage seemingly countenanced by the Government in question. But while the Russian and Austrian sovereigns confined their comment to personal expression of opinion-realizing that the State as a State had no rightful concern in the matter-our Government, we think, made the mistake of pursuing the opposite policy. Had the Austrian Emperor publicly insisted on his personal note being formally received and answered by the Servian Government, it would not have

varied greatly from our procedure in the matter of the Russian persecutions.

Taking the Russian note to the Servian King exactly as it stands, how is King Peter, with the best intentions, to carry out the wishes of his imperial neighbor? It may be believed-we cannot doubt the fact ourselves-that the sentiments of the Servian nation as a whole have been misrepresented by censored press dispatches. Universal joy, without a dissenting voice, could not in human nature be expected, even with a peaceable and just change in the government, much less in a change brought about by acts of savage and barbarous ferocity. But the criminals are among the dignitaries who welcomed the new King this week; they have been mentioned approvingly in military orders and their crime condoned in religious celebrations. This is at least a proof that the army faction whose punishment the Czar demands is in control of the situation. How is this newly-arrived passenger from Geneva-a gentleman, we are told, of quiet tastes and peaceable dispositionto grapple single-handed with an army cabal like this?

We certainly should hope that something like royal virtue and royal force will assert itself; but we are obliged to confess that the more probable outcome, on the face of things, would be a pliant sovereign led, whether through cajolery or threats, by a determined military clique. What will follow next depends rather more on the general state of Europe than on the character of the Servian King.

LISTINGS ON THE NEW YORK STOCK EXCHANGE DURING THE HALF-YEAR.

The aggregate face value of the securities listed on the New York Stock Exchange during the first half of 1903 shows a considerable decrease as compared with the same period of the previous year. The decrease, moreover, is greater than appears at first sight. Of bonds there were listed in the first six months of 1902 more than 355 millions; in 1903 only 322 millions, and the latter amount includes 29 millions of (Pennsylvania RR.) convertible bonds, which were within the interval in question turned into stock. This last item also was listed, causing a duplication, when we consider the total of stocks and bonds, the aggregate in this case being 613 millions, contrasting with 671 millions in 1902.

Furthermore, the ill-starred ship building combine, practically stillborn, swelled the accessions to the list during the late half-year by nearly 70 millions, viz., 241 millions of bonds and 45 millions of stock. If we exclude the 29 millions Pennsylvania bonds (total issue, \$50,000,000,) which were almost immediately exchanged for stock, the bonds of railroad companies admitted to dealings in 1903 will be found to reach a total of only 154 millions, contrasting with 278 millions in the six months of 1902. Another feature is the addition this year of nearly 52 millions of street railway bonds, the cities of St. Louis, San Francisco and St. Joseph being thus represented. The new shares of railroad companies aggregate 145 millions, practically the same amount as in 1902. They have come chiefly from a few large companies, six of these having contributed 138 millions.

Our usual summary for ten years past follows: SIX MONTHS' LISTINGS ON NEW YORK STOCK EXCHANGE.

Bonds, (6 months.)	Issues for new capital, etc.	Old issues now listed.	Replacing old securities	Total.
1903		\$12,798,000		
1902	157.261,313	400,000		355,377,700

1894				00,400,040

Note.—Applications for the listing of Trust Company receipts and of securities marked "assented" (if preparatory to reorganization), or of securities stamped "assumed" or "assessment paid"—the securities themselves having previously been listed—are not included in this table.

The "new issues" of bonds, that is those representing new capital or the funding of floating debts, aggregate, it will be seen, only 115 millions in 1903 (including the 29 million bonds replaced by stock), as against 157 and 161 millions, respectively, in 1902 and 1901 and 20 to 67 millions in the years 1897-1900. There have been no reorganizations to affect results, but the amounts of stock and bonds "issued in exchange" have been swelled to considerable proportions by the conversion of 45 millions of bonds into stock by the New York New Haven & Hartford and the Pennsylvania Railroad companies and by the refunding of 23 millions of New York Central 6 and 7 per cents (paid off Jan. 1) into 31 per cent bonds. The securities "issued in exchange" have likewise been largely increased by such combinations as the Atlantic Coast Line-Louisville & Nashville-Savannah Florida & Western alliance, the Louisville & Nashville-Southern Railway joint purchase of the "Monon" and the acquirement of control of the "Frisco" by the Rock Island Company.

The several issues of railroad and street railway bonds and the purposes for which they were put out are disclosed by the following.

Aside from the conspicuous blocks of bonds already referred to, this list contains few items of importance. The Oregon Short Line (Union Pacific) has listed another \$10,000,000 of 4 per cent and participating bonds on account of its purchase in 1901 of stock in the Northern Securities Co.; the Atchison has sold $4\frac{1}{2}$ millions of bonds on account of extensions in Eastern Oklahoma, the Choctaw Oklahoma & Gulf and the Burlington Cedar Rapids & Northern (both belonging to the Rock Island system) about 5 millions and 3 millions, respectively, for extensions and improvements; the Chicago and North Western 7 millions, chiefly for refunding, and the Norfolk & Western 3 millions, for construction and improvements.

The new stock issues are as below.

The Pennsylvania Railroad Company had to June 30 last listed only about 26 millions of its recently subscribed issue of 75 millions new stock. Including, however, the shares issued in exchange for convertible bonds and for other purposes, the company has during the half-year added about 48 millions to the total of listed stocks. The Atlantic Coast Line has listed its original \$22,150,000 stock, also 13½ millions involved in the Louisville & Nashville purchase. Other large blocks are: Chicago & North-Western, 9 millions; New York New Haven & Hartford, 16 millions; Rock Island, 22 millions; Manhattan Elevated Railway, 7 millions.

The stock and bond issues of the so-called miscellaneous companies are as follows.

The new industrial combines which for several years have been so prominent are here far less noteworthy. Besides the shipbuilding company we have the enameling and storage battery companies, both of which have been in existence for several years. The other issues are mostly additions to previous listings, or are made by concerns not strictly of the industrial class.

The "unlisted" department has received only the following additions.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S —The public sales of bank stocks this week aggregate 333 shares, of which 303 shares were sold at the Stock Exchange and 30 at auction. The transactions in trust company stocks reach a total of only 13 shares. Varick Bank stock sold at 225, as against 210 in January of this year, and 210½ was paid for a small lot of stock of the Sprague National Bank of Brooklyn. In the "curb" market business has been limited to sales of National Bank of Commerce stock, amounting to 11 shares at 345 350.

Sold at the Stook Exchange.

-To-day, Saturday, being a legal holiday, all the exchanges, the banks and the public offices will be closed. The commercial exchanges, except that of cotton, were closed also yesterday. The Stock Exchange was open on that day.

-The statement of the Trust Company of America for June 30 1903 as compared with Dec. 31 1902 shows a handsome increase. The deposits are now given as \$19,070,-083, as against \$17,971,443, while the surplus and profits have advanced from \$3,150,029 to \$8,214,622. A year ago-that is, on June 30 1902—surplus and profits were only \$3,034,050. Mr. Ashbel P. Fitch is President of this well-managed institution.

-On account of ill-health Mr. Abram M. Hyatt has resigned as First Vice-President of the New York Security & Trust Company of this city. Former Second Vice-President Osborn W. Bright has been advanced to the vacant position.

-The Real Estate Trust Company of New York, located at 30 Nassau Street, in its statement for June 30 last, shows deposits of \$7,318,375, as against \$7,020,534 on December 31 1902; total resources have likewise advanced, rising from \$8,209,925 to \$8,506,207. Mr. Henry C. Swords is at the head of the institution, Mr. H. H. Cammann is Vice-President and Mr. H. W. Reighley Secretary.

-John P. Archer and Thomas B. Dean, certified public accountants, entered into co-partnership on July 1 for the purpose of conducting a general accounting and auditing business. Both members of the firm are well known for their varied experience and past connections. They were formerly with Messrs. Haskins & Sells and have individually held responsible positions in many other large concerns. The firm has offices in the Wall Street Exchange Building, Nos. 41-43 Wall Street.

-The statement of the United States Mortgage & Trust Company, New York, for June 30 1903 shows a noteworthy advance. On Dec. 31 1902 the deposits were \$16,488,625, while they have now reached \$20,813,739. Surplus and profits have also increased, rising from \$3,548,518 to \$3,609,439. Aggregate resources at \$36,549,575 compare with but \$32,111,760 six months ago.

-A majority of the stock of the Nineteenth Ward Bank of this city, at 57th Street and Third Avenue, has been purchased by interests identified with the Van Norden Trust Company. Mr. Warner M. Van Norden has replaced Mr. Joseph J. Kittel as President of the bank, while Messrs. John H. Flagler, William F. Havemeyer and Henry T. Bronson represent the Van Norden interests as members of the bank's board. The bank has been in operation for over twenty years. It has a capital and surplus of \$200,000 each and aeposits of about \$3,000,000.

-The Bankers' Trust Company, New York, which began business on March 30 1903, has made a report giving its condition on June 30. The statement shows that in three months the company has accumulated deposits to the amount of \$5,748,175. Its aggregate resources are \$7,258,-526-obviously a good record for such a short period of time. E. C. Converse, who is at the head of the Liberty National Bank, is also President of this institution, while J. F. Thompson is the active Vice-President and T. W. Lamont Secretary and Treasurer.

-Mr. Bird S. Coler this week tendered his resignation as President of the Guardian Trust Company of this city. The resignation was accepted at a meeting of the board on Wednesday and Mr. Frank W. Woolworth, a stockholder and director of the company, was elected as its new head, Considerable friction had existed in the company for some time, but it was thought that with the resignation the latter part of May of several directors who had been opposed to Mr. Coler's management, all differences' had been settled. Mr. Coler states that he will retain his interest in the company, using his best endeavors towards advancing its welfare. He also announces that an offer of \$220 for the stock of the institution was refused by him several weeks ago. It was rumored late this week that the Eastern Trust Company of this city was offering \$200 per share for control of the Guardian with the view to consolidation.

-The Equitable Trust Company of New York presents an interesting return for June 30. The company, it will be remembered, increased its capital and surplus in February, so that the combined amount of these items is now \$11,500,000. This institution has the largest surplus of any trust company in the city. The deposits, which on December 31 1903 were but \$18,615,030, are at the present time \$27,064,234. Aggregate resources are now \$39,327,461, comparing with \$15,432,419 at the earlier date. The officials consist of Alvin W. Krech, President; James H. Hyde, Vice-President; Lawrence L. Gillespie, Vice-President; Frederick W. Fulle, Secretary and Treasurer; Lyman Rhodes Jr., Assistant Secretary, and H. M. Walker, Assistant Treasurer.

-The Irving National Bank of this city began business this week in its new banking home in the Irving Building, corner of Chambers and Hudson Streets. The formal inspection the bank gave last Saturday of its new quarters was well attended and proved satisfactory in every way.

-Messrs. Harris, Gates & Co. have moved into more commodious and better appointed offices at 18^wWall St., this city.

-Messrs. S. B. Chapin & Co. removed on Tuesday from their New York offices in the Empire Building to the ground floor of 10 Wall Street, recently vacated by Messrs. Harris, Gates & Co.

-Redmond, Kerr & Co. announce the withdrawal from their firm on July 1 of Mr. Henry S. Kerr, he having decided to retire from active business. The firm will be continued under the same firm name in New York, Philadelphia and Chicago. It is interesting to note the very creditable career of this firm during the eleven years of its existence. We understand they have handled some \$400,000,000 of securities and in only one instance was there a default, and in that case the firm proteoted its clients from loss. Mr. Kerr began his financial career as a clerk in the bond house of Charles T. Wing & Co. and on the death of Mr. Wing organized the firm with which he has been associated up to the present time.

-The firm of Graham, Kerr & Co. of Philadelphia was dissolved on June 30 and the Philadelphia partners have formed a new firm under the name of Graham & Co., with offices at 435 Chestnut Street. The firm will conduct a general banking and brokerage business.

-The statement of the New Jersey Title Guarantee & Trust Co., located at 83 and 85 Montgomery Street, Jersey City, makes deposits now (June 30 1903) [\$5,589,862, while a year ago, June 30 1902, they were reported at \$4,841,860, a gain of nearly \$750,000. While the capital of this institution is only \$200,000, the accumulated profits are \$802,843. Mr. J. E. Hulshizer is President; Messrs. William H. Corbin and George F. Perkins, Vice Presidents; Mr. Daniel E. Evarts, Secretary and Treasurer; Mr. M. Tilden Jr., Assistant Secretary and Assistant Treasurer, and John Olendorf, Title Officer.

-The directors of the Equitable National Bank at 803 Broadway, this city, this week elected Charles A. Nones President in place of James M. Bell, resigned. Mr. Nones but recently became a director of the bank. Franklin S. Jerome, President of the First National Bank of Norwich, Conn., was at this week's meeting also chosen a director. The officials of the Equitable have applied to the Comptroller for authority to increase its present capital stock of \$200,000 to \$500,000, in which event the surplus is to be raised to \$100,000.

-The Van Norden Trust Company of this city has made noteworthy progress ever since its organization only fifteen months ago. The deposits have grown rapidly in that time. On March 31 1902 they were \$108,000; April 21, \$1,000,000; May 16, \$2,000,000; November 22, \$3,000,000; December 10 1902, \$4,000,000; March 3 1903, \$5,000,000; June 6 \$6,000,000 July 1 1903 they reached \$6,510,673. Other items have kept pace with the growth in deposits. The cash reserve in the company's vanits and in banks amounts to \$2,488,400; the capital, surplus and undivided profits are \$2,137,671 and the resources \$8,648,344. Since incorporating, March 81 1902,

the Van Norden Trust has occupied and still occupies temporary offices at 751 Fifth Avenue. There it will stay however only until its new ten-story building, as previously stated in these columns, on the corner of Sixtleth Street and Fifth Avenue, is completed next February. The management includes Warner M. Van Norden, Prestdent; William F. Havemeyer and Morton C. Nichols, Vice-Presidents; Arthur King Wood, Secretary and Treasurer; William W. Robinson, Assistant Treasurer, and James B. Haig, Jr., Assistant Treasurer. Mr. Edward S. Avery is Trust Officer.

-John Gerkin was unanimously elected President of the United National Bank of this city at a regular meeting of the board of directors last Thursday, succeeding Mr. Henry W. Gennerich, resigned. Mr. Gerken is a prominent and successful business man, being President of the Hudson County Consumers' Brewing Company and Durland's Riding Academy Co., and possessing other influential connections.

-The Colonial Trust Company, at 232 Broadway, makes a creditable showing in its statement of condition June 30. The deposits are now \$20,326,853, against \$18,668,590 on Dec. 31 1902. The company's capital stook is \$1,000,000, with the surplus and undivided profits footing up \$1,463,315. Resources are \$22,929,375 and include \$1,086,195 in New York City and U. S. Government bonds, while the cash in its vanits and in banks totals \$3,946.816.

-The new building of the Bank of Metropolis at Sixteenth Street and Union Square, this city, was struck by lightning during the storm last Monday. The twenty-five-foot flagpole on the roof was splintered; otherwise no serious damage was done. The new building is a modern office structure, sixteen stories in height, and slowly nearing completion. Many tenants have moved into the building, despite the various labor troubles that continue to delay the finishing work.

-The Mercantile Safe Deposit Company of this city has closed an arrangement with the Equitable Trust Company intended to doubly safeguard the deposit, substitution, withdrawal or sale of securities and the collection of coupons or maturing obligations. By the arrangement, out-of-town financial institutions, non-residents, or those leaving the city temporarily, may place their securities in the Mercantile's vanits, to which access can be had only by the joint action of an officer of the trust company (which occupies adjoining offices) and of the owner, or in the absence of the owner, by the trust company and an officer of the Mercantile. The trust company will credit all moneys collected and allow interest thereon, and will also act as trustee, executor, guardian, administrator or agent.

-Among the instances of growth in the business of trust companies mention should be made of the Commercial Trust Company of New Jersey (located in Jersey City). The deposits on June 30 1903 show a total of \$3,160,057, as against \$7,239,610 on Dec. 81 1902. During the same period of time, surplus and profits have increased from \$1,798,489 to \$1,851,-256 and aggregate resources from \$10,038,099 to \$11,025,813. The cfficial staff is composed of: John W. Hardenbergh, President; George W. Young and Robert S. Ross, Vice-Presidents, and Oscar L. Gubelman, Secretary and Treasurer.

-Formal action was taken on Saturday last by the stockholders of the Trust Company of the Republic of this city towards reducing the capital from \$1,000,000 to \$500,000. The resolution adopted reads as follows:

"Resolved, that the capital stock of the Trust Company of the Republic be reduced from the present amount thereof; to wit, \$1,000,000 consisting of 10,000 shares of the par value of \$100 each, to \$500,000 to consist of 5,000 shares of the par value of \$100 each, on the express condition that the amount of the capital over and above the amount of the reduced capital shall not be returned to the stockholders of the said trust company, but shall be used in meeting any losses which said company may incur on account of the securities of the United States Shipbuilding Company which it owns or holds as collateral, and in meeting other losses, if any, which said trust company may incur on account of other securities held by it at the time of said reduction aud that the balance of said capital over and above the amount of the reduced capital shall be carried to the surplus fund of the trust company."

The proposition to reduce the capital has already been approved by the State Superintendent of Banks.

-At a meeting on the 17th inst. the stockholders of the Stuyvesant Heights Bank of Brooklyn will act on the proposition to increase the capital from \$100,000 to \$200,000. This will necessitate the issuance of 2,000 shares, as \$50 is the par value. The selling price will be \$85, enabling the bank to add to its surplus account to the extent of \$70,000.

-The new Buffalo trust company-the Commonwealthstarted in business on Wednesday. The institution is housed in commodious quarters in the Erie County Savings Bank Building, with every convenience for the quick and safe dispatch of its business. It has on its board representatives of the Knickerbocker and North American Trust companies of New York and is under the management of Mr. E. O. McNair as President; Spencer Keilogg and J. F. Schoellkopf Jr., Vice-Presidents, and William E. Danforth, Secretary. Capital and surplus are \$500,000 each.

-Mr. James M. Gilbert, Deputy State Superintendent of Insurance, has been elected Secretary of the Syracuse Trust Company of Syracuse, N. Y. Although the company's organization was started a year ago, it only began active operations this week, having begun business on Thursday. Mr. F. R. Hazard, President of the Solvay Process Company, is President of the trust company, and Mr. W. L. Smith, of the Smith Premier Typewriter Company, is the Vice-President.

-In its statement to June 30 1903, just issued, the Fidelity Trust Company of Newark makes a very flattering showing. An increase is disclosed of almost nine million dollars in deposits since Dec. 31 1902, the total now being \$23,070,406, against but \$14,853,567. The company, it will be remembered, increased its capital and surplus in February, so that the combined amount of these items is now \$8,500,000. During the six months undivided profits have increased from \$427,062 to \$889,186 and aggregate resources have risen from \$20,025,923 to \$33,247,864. Mr. U. H. MoCarter is President of this prosperous institution.

-The Connecticut Bankers' Association held its fourth annual meeting in Hartford on Friday last, June 26. The charges made by the New York Clearing House for the collection of checks came in for much discussion, and a motion was passed directing the Executive Committee to use its efforts in securing the co-operation of bankers' associations in the other New England States in the matter of the removal of these charges. Mr. A. B. Hepburn, Vice President of the Chase National Bank of New York addressed the delegates, as did also Governor Chamberlain of Connecticut. The new officers of the association are: President, A.J.Sloper, President of the New Britain National Bank of New Britain; Vice-President, C. S. Mersick, President of the Merchants' National Bank of New Haven; Treasurer, E D. Redfield, Cashier of the City Bank of Hartford, and Secretary, J. S. Norton Jr.

-Mr. W. H. Carpenter, Cashier of the Union National Bank of Philadelphia, has been elected to the additional office of Vice-President, thus filling a vacancy caused by the resignation several months ago of Mr. E. G. Reyenthaler. The latter's place on the board has been assigned to Mr. Harlan Page.

-Nearly five million dollars has been gained in deposits by the Girard Trust Company of Philadelphia during the past six months, the exact figures reported for June 30 last being \$23,153,362, as against \$18,501,470 on Dec. 31 1903. Total resources are now \$34,415,466, while for December 30 last they were only \$29,576,289. The complete list of officials is now as follows: Effingham B. Morris, President; William Newbold Ely and Albert Atlee Jackson, Vice-Presidents; Chas. J. Rhoads, Treasurer, Edw. S. Page, Secretary; Wm. E. Aumont, Trust Officer; Minturn T. Wright, Real Estate Officer, and George T. Bispham, Solicitor.

-Mr. William W. Price has been elected Cashier of the Kensington National Bank of Philadelphia, to succeed the late Mr. Henry McConnell. Mr. Price goes from the Merchants' National Bank of Philadelphia, with which institution he had been since 1897.

-Mesrrs. Otis, Wilson & Co. of Chicago have secured a controlling interest in the Mt. Vernon National Bank of Boston, Mass. That outside interests were endeavoring to obtain control of the bank became known some four or five weeks ago, when it was stated that the par value, \$100, was being offered for a majority of the \$200,000 stock. It is now reported that a higher price than this was paid for the shares; the exact figure, however, is not given. No change is expected to occur in the bank's management until the annual meeting in January. The firm of Otis, Wilson & Co. as is known, was merged with the Western State Bank of Chicago on the 1st inst., the name becoming the Western Trust & Savings Bank.

-Two important Boston banking institutions, the First National and the Massachusetts National banks, have consolidated. About a month ago a controlling interest in the First National was obtained by Mr. A. E. Appleyard (on behalf of a New York syndicate, it was announced), who later disposed of a majority of his holdings to the Massachusetts National, at, it is understood, \$210 per share. The banks have been amalgamated under the name of the First National, the intention being to liquidate the Massachusotts National. The latter began its existence in 1784, and had a paid-in capital of \$800,000. Total deposits were reported on Jane 9 at \$6,805,996 and aggregate resources \$7,815,193. Before consolidation the First National had a capital of \$1,000,000, deposits of over \$4,000,000 and aggregate resources of six and a-half million dollars. The officers of the enlarged First National, which began business on Monday in the Massachusetts National's quarters, are: Mr. D. G. Wing, President; John Carr, Chairman of the Board; J. W. Weeks, First Vice-President; C. H. Draper, Second Vice-President; F. H. Curtiss, Cashier, and E. S. Hayward, Assistant Cashier. Messrs. Carr and Draper were respectively President and Cashier of the First National. The other officials mentioned above retain the positions previously held by them in the Massachusetts National. In the circular to the stockholders of the Massachusetts National the privilege was extended to them of exchanging their stock at once on the basis of five shares of the Consolidated First National for every eight shares of stock of the Massachusetts National, or of selling their stock for \$122 cash. In exchange fractional shares might be purchased or sold for \$210 per share for First National stock and \$122 for Massachusetts stock.

-It was voted on Monday by the stockholders of the Old Colony Trust Company of Boston to accept the Legislative Act (by which the company is authorized to increase its capital from \$1,000,000 to \$3,000,000) and to issue \$500,000 of new stock. The directors are empowered to issue the same at their discretion.

-Mr. Samuel Eliot Guild has retired from the banking firm of Charles Head & Co. of Boston, his resignation dating from the 1st inst.

-Several changes have been made in the banking firm of Richardson, Hill & Co. of Boston. Messrs. Spencer W. Richardson and William H. Hill, the active partners, have become special partners, thus relinquishing an active participation in the firm's affairs. Mr. Hill's son, Mr. Spencer Richardson Hill, was on Wednesday admitted to the firm, which will continue under the old name. The membership now consists of Mr. Henry W. Dodd, Frank E. James and Spencer Richardson Hill.

-The Boston brokerage firm of J. Francis Brown & Co., of which Mr. Brown is the sole member, suspended on the 27th inst. Mr. Brown has been a member of the Boston Stock Exchange since 1880. The suspension is attributed to the general decline in the stock market.

-The Portland Trust Company of Portland, Maine, has made arrangements to take over the banking house of Messrs. Swan & Barrett of Portland. The actual merger has not yet been consummated, but will, it is believed, be concluded within a very short time. Mr. George H. Richardson and Mr. Arthur K. Hunt of the firm of Swan & Barrett have become stockholders in the trust company and will in due course be elected officers. The Portland Trust increased its capital on July 1 from \$200,000 to \$250,000 and its surplus from \$300,000 to \$400,000. Messrs. Swan & Barrett, whose organization dates from 1867, had contemplated continuing their business as a trust company, having some months ago taken out a charter under the name of the Central Trust Company. Aside from securing the charter, however, no other step had been taken in the company's organization.

-The Diamond National Bank of Pittsburgh contemplates the erection of a twenty-story building to replace the one now occupied by it at the intersection of Fifth Avenue, Union Street and Liberty Avenue. An adjoining building will be taken in, giving the new structure a floor area of 5,500 feet. The plans for the new building have not yet been definitely decided upon, but \$1,000,000 is expected to be expended in its construction. -The North American Savings Company of Pittsburgh, in increasing its dividend rate from 8 to 10 per cent, announces that hereafter its policy will be to increase the dividend rather than the snrplus fund, as the latter has now reached a basis of over a million dollars. The bank has had a steady increase in depositors, having opened over 150 new accounts every month this year, and net earnings are now, it is stated, close to 15 per cent. The dividend was payable on the 1st inst.

-Mr. W. S. Van Dyke, Vice-President of the Anchor Sav. ings Bank of Pittsburgh and Vice-President of the First National Bank of Smithtor, Pa., has been elected Scoretary of the Real Estate Trust Company of Pittsburgh. In his new office Mr. Van Dyke succeeds Mr. R. J. Davidson, now Vice-President of the lately organized Home Trust Company, of Pittsburgh.

-It is proposed to convert the Consolidated Real Estate Company of Pittsburgh into a trust company, when its name will become the Consolidated Real Estate Trust Company. A charter under this latter title will shortly be applied for. The institution is now at 308 Fourth Avenue.

-The stockholders of the Safe Deposit & Trust Company of Pittsburgh have authorized the increase in the capital from \$2,000,000 to \$3,000,000. The increase is made for the purpose of acquiring the stock of the People's National Bank of Pittsburgh, which is expected to be all in by the first of August. The exchange is on a share for share basis. The company already owns the entire issue of stock of the People's Savings Bank of Pittsburgh. We are informed that it is not intended to form a consolidation of these three institutions, as was originally reported, but that the separate existence of each is to be maintained. No doubt in the near future, our informant advises us, the Safe Deposit & Trust Company will change its title somewhat, but the exact name has not yet been determined. The People's National has a capital of \$1,000,000 and the People's Savings Bank a capital of \$300,000. The new stock of the Safe Deposit & Trust will become effective in October next.

-By the declaration on the 1st inst. of a quarterly dividend of 15 per cent, the stock of the Union Trust Company of Pittsburgh is placed on a yearly basis of 60 per cent. This is a considerable advance over the former rate of 6 per cent per annum, and is warranted by the steady growth which continues to be shown in its various departments.

-The United States National Bank of Pittsburgh has moved into its new home at 508 Market Street. The property was purchased by the bank early the present year and has since undergone extensive alterations. The bank now has a capital of \$500,000, the final payment on the new stock anthorized last October having been paid on the 1st inst.

-The Home Trust Company of Pittsburgh began business on Wednesday under gratifying anspices. The company has a capital of \$500,000 and is located at Sixth Avenue and Wood Street, previously the home of the Pittsburgh National Bank of Commerce.

-The stockholders of the Monongahela Trust Company of Homestead, Pa., will vote in August on the proposition to increase the capital from \$125,000 to \$200,000. The stock will be sold, as heretofore noted, at \$200 per share, adding \$100,-000 to surplus. The company recently acquired the ownership of the First National Bank of Homestead.

-The Second National Bank of Allentown, Pa., has increased its capital from \$200,000 to \$300,000. The first action in the matter was taken last November. Immediately after the approval by the Comptroller on May 13 the new stock (1,000 shares) was issued and sold, principally to old stockholders, at \$180, resulting in the addition of \$80,000 to surplus. Mr. William H. Ainey is President of the bank and Mr. C. H. Moyer, Cashier.

-By vote of the stockholders of the Euclid Avenne National and the Park National banks of Cleveland on Tnesday the consolidation of these institutions became effective. The ontgrowth of the union is the Euclid-Park National Bank with a capital of \$1,500,000 and surplus of \$500,000. The Park National will be placed in liquidation and its stockholders will receive \$650,000 of the new stock. The stockholders of the Euclid Avenue National have been allotted \$575,000 of the issue; the balance, amounting to \$275,000, has already been sold. The banking quarters of the Park Naional have been utilized by the enlarged bank, which began

operations on Wednesday. The list of officers was given in these columns on May 80.

-Mr. Jesse H. Morley, Vice-President of the First National Bank of Cleveland, died on June 21 in his eighty-fourth year.

-Mr. Joseph Tarault is reported to have purchased at 110½ forty shares of the Lucas County Savings Bank Company of Toledo, thus becoming the second largest stockholder.

-The Merchants' Loan & Trust Company of Chicago, whose stockholders voted to increase the capital from \$3,000,-000 to \$3,000,000 on June 9 has adopted a resolution by which all stock not subscribed and paid for on July 1 will be sold as the directors may hereafter determine, the surplus above the subscription price of \$200 per share being distributed pro rata to such stockholders as have not been able to avail themselves of their subscription rights.

-The proposition to change the articles of association, enabling the bank to increase its directorate from nine to fifteen members, was endorsed by the stockholders of the Fifth National Bank of Cincinnati on Tuesday. As was announced to be the intention some weeks ago, three new members were at the same time elected, namely, Mr. W. H. Stewart, contractor; D. H. Gayle, President of the Cincinnati Tobacco Warehouse Company, and Charles Patton, Treasnrer of the Cincinnati New Orleans & Texas Pacific Ry.

-A consolidation of the Coal & Iron National Bank and the First National Bank, both of Cleveland, seems likely to be consummated. No details have been made public as yet, but it is stated that the plan will be laid before the stockholders within a few days. Both are representative banks of the city. The Coal & Iron has a capital of \$1,000,000; the First National's capital is \$500,000. Each has deposits in the neighborhood of two and a half million dollars.

-The formal opening of the new home of the Toledo Stock Exchange in the Spitzer Building took place on Tuesday of this week with appropriate ceremonies.

-On July 7 and 8 the Minnesota Bankers' Association will convene at St. Paul for its annual session. At the meeting's close a rather elaborate "outing" is to be taken by the delegates and their friends, which will not terminate until the 18th of July. While this feature will form undoubtedly the most interesting part of this year's program, the regular proceedings arranged for the first two days are also attractive. Hon. Charles G. Dawes, President of the Central Trust Company of Illinois, Chicago, will deliver two addresses, one on "Necessary Financial and Currency Legislation" and another on "Proposed Changes in Our Banking Laws." Mr. A. L. Ward, President of the Martin County National Bank of Fairmont, will speak on "Bank Credit to Customers," while Mr. Charles Bradford, Cashier of the Citizens' State Bank of Monticello will have for his topic, "Bank Burglary Insurance."

-The Meridian Trust & Banking Company is undergoing organization in Meridian, Miss., with an anthorized capital of \$250,000, the paid-in amount to be \$100,000. Mr. George W. Meyer, President of the People's Savings Bank of Meridian, is one of those interested in the venture.

-An exceedingly large attendance and an elaborate program combined to make the present year's convention one of the most important and successful thus far held by the North Carolina Bankers' Association. The bankers met at the Seashore Hotel, Wrightsville Beach, Wilmirgton. Their session extended over three days, beginning in the evening of June 23 and concluding on the 25th. Mr. Caldwell Hardy, President of the American Bankers' Association, and President also of the Norfolk National Bank of Norfolk, was one of the principal speakers, his topic being "Organization Among Banks and the Benefits Incident Thereto." "The Work of the North Carolina Corporation Commission" was discussed by its Chairman, Mr. Franklin McNeill of Raleigh. Mr. Lee H. Battle, Cashier of the City National Bank of Greensboro, N. C., contributed to the program an address on "The Bank and Its Depositors; Their Duty to Each Other." Mr. Battle has been elected President of the Association for the ensuing year. The other officers chosen are : First Vice-President, Col. F. H. Fries, President of the Wachovia Loan & Trnst Company of Winston-Salem, N. C.; Second Vice-President, Mr. Andrew Moreland, Cashier of the Atlantic National Bank of Wilmington; Third Vice-President, Mr. J.

C. Braswell, President of the Planters' Bank of Rocky Mount, and Secretary and Treasurer (re-elected), Mr. C. N. Evans, Cashier of the Merchants' & Farmers' National Bank of Charlotte. The Raleigh "News and Observer" published a highly creditable report of the proceedings of the convention in its issue of last Sunday.

-The annual convention of the Iowa State Bankers' Association is slated for Davenport on July 28 and 29. During the major part of the first day business pertinent only to that organization will be transacted. At 4 P. M. a steamboat excursion will be participated in jointly by delegates of the Iowa and Illinois associations. On the second day both organizations will join in the proceedings, when addresses by Hon. Charles M. Fowler of New Jersey and Hon. A. B. Cummins, Governor of Iowa, will form part of the programme.

-The surplus and profits of the Farmers' Loan & Trust Company of Sioux City, Iowa, will be reduced from \$750,000 to \$650,000 by the declaration of a dividend. The company has a capital of \$800,000. The management is made up of Mr. James F. Toy, President; Lot Thomas, Vice President; C. A. Bond, Cashier; G. N. Sweetser, Secretary of the Trust Department and Edward De Land, Assistant Secretary.

-The State Bank of Little Rock, Ark., has received permission to change its title to the State National Bank of Little Rock, the capital remaining as heretofore—\$100,000.

-The Louisiana Bank & Trust Company of Shreveport, La., has been incorporated with a capital of \$500,000. It is reported that the new company will absorb the Citizens' National Bank of Shreveport.

-The Tennessee Bankers' Association, at its convention at Lookout Mountain, Chattanooga, on June 22 and 23, signified its approval of the Aldrich Bill by the adoption of the following resolution :

Be it resolved by the Tennessee Bankers' Association in convention assembled. That the measure introduced at the last session of Congress, known as the Aldrich Bill, which will likely be considered at a called session, has the unanimous endorsement of this body. It is a question so vital that it is above mere party policy, and we respectfully petition each Senator and Congressman from this State to support it on its consideration, regardless of party affiliation. The Secretary is instructed to appropriately present to each of the Representatives a copy of this resolution.

Pertinent topics were embodied in papers by Mr. Rollin P. Grant, Cashier of the New York National Exchange Bank, of New York City; Samuel H. Orr, General Manager of the Nashville Trust Company, of Nashville; T. R. Preston, President of the Hamilton Trust & Savings Bank of Chattanooga and F. A. Pattie, Cashier of the Bank of Winchester, at Winchester. A visit to the famous Chickamauga Battlefield proved one of the most interesting of the program's features. The following were elected officers:

President, Mr. W. A. Sadd, President of the Chattanooga Savings Bank of Chattanooga.

Secretary, Mr. Samuel H. Orr, General Manager of the Nachville Trust Company.

Treasurer, Mr. I. B. Tigrett, Cashier of the Union Bank & Trust Company of Jackson, Tenn.

-The tenth anniversary of the Wachovia Loan & Trust Company of Winston Salem, N. C, occurred on June 15th. The occasion was commemorated by the extending of greetings on finely engraved paper to its friends, the seal of the institution appearing in gold at the head of the paper. It will not be amiss here to refer to the growth which the institution has displayed since its start. Deposits aggregated \$1,860,872 on June 15 1903, which is more than double the amount three years ago (June 15th 1900), when the total was but \$837,885. Less than \$500,000 was recorded on June 15th 1898, the figures then standing at \$499,946. Assets show a like gain, the present figures of \$2,481,310 comparing with \$1,099,462 on June 15 1900 and \$758,528 on June 15 1898. Besides the home office at Winston-Salem, branches have been established at the following places within the State: Asheville, High Point, Salisbury and Spencer.

-The Homestead Savings & Trust Company has opened for business on Eighth Avenue, near Amity Street, Homestead, Pa. The company has a capital of \$125,000 and a surplus of \$75,000. Its officers are Mr. J. B. Coen, President, and H. Nevin, Secretary and Treasurer.

-The stockholders of the Chambersburg Trust Company of Chambersburg, Pa., have ratified the proposition to increase the capital from \$125,000 to \$200,000.

-The Wilkinsburg Real Estate & Trust Company of Wilkinsburg, Pa., of recent origin, will use 3,000 of its 5,000 shares for the purpose of taking over the First National Bank of Wilkinsburg, by whose officials the trust company was organized. The bank has a capital of \$50,000 and the exchange is on the basis of six shares of trust company stock for each share of bank stock, or \$600 in cash for the latter.

-The latest statement issued by the Washington National Bank of Seattle, Wash., serves to emphasize anew the prosperity which the bank has enjoyed for so many years. Deposits for June 9 1903 reached \$3,555,879, which is an advance over the figures of February 6 and April 9 of this year, when the amounts were, respectively, \$3,009,867 and \$3,-446,358. A more graphic portrayal of the institution's growth is revealed when the June figures for this year are compared with those of June of previous years, as is done in the following.

				Deposits	3.	Loans	•	Sur. & und. prof.
June	9	1894	\$	272,211	65	\$269,549	23	\$55,379 44
June	9	1895.,		303,486	81	243,519	72	38,197 34
June	9	1896		465,858	99	293,388	31	29,219 08
June	9	1897		590,095	30	326,241	79	28,465 22
June	9	1898		136,584	29	489,849	22	37,938 28
June	9	1899		715,006	17	531,574	89	59,966 91
June	9	1900	2,	178,877	52	951,449	24	115,792 23
June	9	1901	2.	988,829	65	1,564,083	69	177,438 16

No better illustration could be furnished than is afforded by the foregoing of the efficient management of President M. F. Backus and his associates.

-Mr. P. C. Kauffman, Secretary of the Washington State Bankers' Association is sending out copies of the program, as far as arranged, for the annual meeting to be held in Whatcom on the 23d, 24th and 25th inst. The papers include:

"Asset Currency," by Hon. E. O. Graves, Vice-President of the Washington National Bank of Seattle.

"The Duties of a Banker," by A. L. Mills, President of the First National Bank of Portland.

"The Trust Company and the Bank," by Charles S. Miller, of the Washington Trust Company of Seattle.

"Where You're At-Fact and Prophecy," by George B. Burke, Cashier Henry Andrews & Co., Fairhaven, Wash.

"Bankers as Conservators of Credit," by Benj. C. Wright, Editor of Finance and Trade, San Francisco.

"The Theory and Practice of Banking," by George S. Brooke, President of the Fidelity National Bank of Spokane.

"The Country Banker," by Thomas H. Brewer, Cashier of the Genesee Exchange Bank of Genesee, Idaho.

"Bank Money Orders," by Edwin Goodall, New York City.

"Clearing House Emergency Circulation," by Theo. Gilman of New York Oity.

As noted in a previous item, a visit is to be made to the fish traps and canneries of Puget Sound, this forming one of the social features arranged.

-The Broadway Bank & Trust Company of Los Angeles Cal., now has a paid-in capital of \$250,000, having issued the \$150,000 additional stock voted in March 1902, and until recently held as treasury stock. Part of the issue, \$100,000, was sold at \$125 per share, and the balance, \$50,000, at \$140 per share. The par value is \$100. The institution is officered by Mr. Warren Gillelen, President; George I. Cochran, Vice-President, and R. W. Kenny, Cashier.

-A new bank is projected in Halifax, Nova Scotia, to be called the Alliance Bank of Canada. Mr. John F. Stairs, President of the Nova Scotia Steel & Coal Company, is said to be prominently interested in the bank, which is to be capitalized at \$5,000,000. A number of the smaller banks in the provinces are expected to be taken over by the new institution, particularly the People's Bank of Halifax. The latter, it will be remembered, several months ago decided to increase its capital, the syndicate underwriting the new issue having been headed by Mr. Stairs.

--The Bank of Montreal, in Montreal, Canada, has gone into its new building. Although the structure is still in an unfinished state in some respects, sufficient progress has been made to allow the bank's business to go on without interference. In the new structure the banking house can lay claim to one of the most attractive banking buildings in that city. Canadian Bank Clearings.—The Clearings of the Canadian Banks for the month of June, 1903, show an increase over the same month of 1902 of 23.3 per cent. For the six months of 1903 there is a gain over the like period of 1902 of 7.7 per cent.

Clearings by Telegraph.—Sales of Stocks, Bonds, &c.— The subjoined table, covering clearings for the current week, asually appears on the first page of the CHRONICLE, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1902 there is an increase in the aggregate of 0.3 per cent. So far as the individual cities are concerned New York exhibits a gain of 25.9 per cent, Boston 14.1 per cent, Philadelphia 40.4 per cent, St. Louis 16.9 per cent, New Orleans 133.7 per cent and Chicago 23.7 per cent. Baltimore records a loss of 0.2 per cent.

Monetary Commercial English Lews

[From our own correspondent.]

LONDON, Saturday, June 20, 1903.

Although business has not much increased in activity, there is a change for the better in markets this week, which is illustrated by the reduction of the rate of discount at the Bank of England on Thursday last to 8 per cent. The bestinformed in London have not been apprehensive respecting New York. That a fall in prices must occur and that there must be a certain liquidation has been opined here for a considerable time. But that the country in general was sound, and that except in a few instances there had been nothing done radically reckless, was the opinion of the bestinformed. Still, amongst the general public there was no means of getting proper information, and the fall in prices that has been going on naturally therefore created some apprehension. So long as this was general and strong, it would have been perhaps unwise to reduce the rate of discount. At all events the directors of the Bank of England did not venture to go below 8½ per cent.

Happily they have of late been able to increase their stock of gold very largely. The demand for gold for the Continent fell off a couple of months ago. The directors of the Bank of England took advantage of the circumstance to secure a very large amount of gold, and in consequence they now hold nearly 371/2 millions storling of the metal. Their action, therefore, in reducing the discount rate is very generally approved in the city, mainly because it is expected that it will make a great impression upon the less well-informed, both at home here and upon the Continent. It is evident that if the directors of the Bank of England were apprehensive they would not put down their rate, and accordingly the business community at home and abroad will be reassured. In addition to this the outside market last week was able to repay the last small amount it owed to the Bank of England. As far as can be judged at present it is not likely that the market will have to borrow largely in the near future. On certain occasions of course there will be borrowing, but the Bank of England is discouraging such borrowing, inasmuch as it intends to charge $3\frac{1}{2}$ per cent for such loans as it may make.

The general expectation is that we shall soon see a material recovery in consols and all securities of the British Govern ment, including of course its various guarantees. Partly the opinion is based upon the expectation that the action of the Bank will inspire general confidence; partly upon the old experience that cheap money always leads to a rise in consols, and partly upon the knowledge that there is an immense amount of unemployed money in France waiting for investment.

The French Finance Minister this week introduced his budget for next year. By various economies and by modifications of old taxes he is able to balance revenue and expenditure. But at the same time he introduces a very moderate income tax of 11/2 per cent. It is, however, not in addition to taxation, but replaces the old taxes on movable property, doors and windows. The moderation of the Minister some-

what reconciles French opinion to the new tax. At all events there is not the instantaneous opposition to it that was feared. The hope now is that the tax will be accepted, nd that the investing public will be reassured. Indeed. lready there has been an improvement in French rentes. Still, there is as little inclination as ever to engage in new nterprise at home, and French investors generally are inresting abroad. They have been buying on a very consideraole scale in London this week all kinds of securities dealt in nere; and they are very closely watching the American marret, hoping to be able to buy good American bonds that will rield them at least 41/4 per cent. The belief is very widepread in Paris that they will now begin buying consols and the Transvaal loan, and that they will also buy South African gold shares.

In Germany money is now decidedly dearer than in Lonlon. Business is very quiet and trade has had somewhat of setback. At the same time there is a good deal of German buying also, and other Continental investors are buying here on a considerable scale.

The output of gold in South Africa has increased so much that the gold demands coming upon London are being diverted to South Africa and Australia. In May the output of gold in South Africa was in round figures about a million sterling, and as every effort is being made to increase the number of workpeople, the hope is strong that before the end of the year the outturn will be raised to nearly a million and a half per month. Meantime the gold required by Argentina is being shipped from South Africa, the opinion here is that money for some months will continue in London both abundant and cheap, and consequently that there will be a general improvement in business.

The India Council continues to sell its drafts well. It offered for tender on Wednesday 50 lacs, and the applications amounted to 3,176 lacs, at prices ranging from 1s. 3 31 32d. to 1s. 4 1-82d. per rupee. Applicants for bills at 1s. 4d. per rupee were allotted about 12 per cent of the amounts applied Later in the day the Council sold by private contract for. a little over 5¾ lacs of bills at 1s. 4 1-32d. per rupse.

The following return shows the position of the Bank of Ingland, the Bank rate of discount, the price of consols, &c, compared with the last three years :

Messrs. Pixley & Abell write as follows under date of June 18:

June 18: Gold—The Continental demand for gold continues and none of the arrivals this week have reached the Bauk. The Bank rate, which was fixed at 3¹2 per cent on the 21st May, was reduced to day to 3 per cent. Since our last the Bank has received £162,000, of which £54,-000 is in bars. Arrivals: South Africa, £354,000; Australia, £225,-000; New Zealand, £39,000; Btraits, £36,000; Bombay. £60,000; River Plate, £21,000; West Indies, 66,000; total, £301,000. Ship-ments: Bombay, £39,750: Madras, £10,000; total, £49,750. Silver—Silver continues in short empply for cash. There was a slight improvement in Indis on newe of a favorable monsoon, which brought about a recovery to 24¹21, but with larger amounts offering and no demand for forward, the price has failen to 24516d. for cash and 24d. forward. The Indian price is Rs. 62. Arrivals: New York, £64,000; New Zealand, £10,000; Australia, £8,000; Chile, £2,000; West Indies, £2,000; total, £86,000. Shipments: Bombay, £13,500; Singapore, £40,000; Hong Kong, £22,612; total, £76,112. Mexican Dollars—Fhese coin still remain at their sliver value. There has been a good demand for the East and a large proportion of recent arrivals has been re-shipped.

arrivals has been re-shipped.

Commercial and Miscellaneous News

NITRATE OF SODA.—In our advertising columns the Chilean Government is offering for sale some of its nitrate lands. This is done with a view to enlisting the interest of American capitalists in these deposits. Nitrate of soda is exclusively a product of Chile, and during the past twenty years—more particularly since its value as a fertilizing agent has been appreciated—the output from the Chilean deposits has increased enormously and now reaches, it is stated, a total of about 1,500,000 tons per annum. The process of elaboration is claimed to be simple and inexpensive, as the "caliche," carrying from twenty to sixty per cent of nitrate, is found practically on the surface and is treated by a process of precipitation. The large market for this commodity is in Europe, where in Germany and France it has been the fertilizer most extensively used for the beet-root crop, and no efficient substitute for it has been discovered.

efficient substitute for it has been discovered. In this country, until recent years, its use has been almost entirely for the manufacture of explosives and acids, but its employment as a constituent in the manufacture of fer-tilizers has increased very rapidly. Its value as a fertilizer is due to the percentage of ammonia it carries. The demand for nitrate of soda as a fertilizer in this country is attested by the very large increase in importations in the past four or five years; from about 100,000 tons the import now exceeds 250,000 tons per annum. The nitrate industry in Chile is said to be controlled as to about forty per cent by local capilital and the other sixty per cent represents English and German investment. There is no American capital whatever invested, although this country is constantly becoming a larger consumer of the product. In the Southern States it has come into favor as a fertilizer for cotton, and the con sumption in this country will be coincident with the increased demand for fertilizers generally. Maps of the properties offered for sale and full particulars concerning them can be obtained from the resident officials of the Chilean Government and from Messrs. Beeche, Duval & Co., 25 Broad Street.

GOVERNMENT REVENUE AND EXPENDITURES.—Through the courtesy of the Secretary of the Treasury, we are enabled to place before our readers to-day the details of Government receipts and disbursements for the month of June, From previous returns we obtain the figures for previous months, and in that manner complete the statement for the fiscal years 1902-03 and 1901-02. For statement of June 1902, see CHRONIOLE July 5, 1902, page 13. RECEIPTS AND DISBURSEMENTS (000 unitted)

Imports and Exports for the Week.—The following are the imports at New York for the week ending for dry goods June 25, and for the week ending for general merchandise June 26; also totals since beginning first week January. FOREIGN IMPORTS

amonuted on June 27 to \$6,293,000; on June 20 to \$6,324,000.

FORISIGN IMPORTS.									
For week.	1903.	1902.	1901.	1900.					
Dry Goods. General Merchandise	\$1,905,328 8,168,089		\$1,643,283 9,980,417						
Total	\$10,073,417	\$10,169,248	\$11,623,700	\$9,509,106					
Since Jan. 1. Dry Goods General Merchandise	\$70,150,888 235,900,802		\$52,935,717 230,645,822						
Total 26 weeks	\$306.051.690	\$277,701,995	\$283.581.539	\$283.310.448					

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending June 29, and from January 1 to date.

EXPORTS FROM NEW TORK FOR THE WEEK.								
	1903.	1902.	1901.	1900.				
For the week Previously reported	\$9,819,285 242,055,043	\$8,214,191 231,990,963	\$9,468,192 253,302,523	\$10,541,035 259,840,672				
Total 96 mooks	4951 874 398	\$9.10 905 154	\$969 770 715	\$970 381 707				

NOTE.—As the figures of exports as reported by the New York Custom Honse from week to week frequently show divergence from the monthly totals, also compiled by the Custom House, we shall from time to time adjust the totals by adding to or deducting from the amount "previously reported."

The following table shows the exports and imports of specie at the port of New York for the week ending June 27 and since Jan. 1, 1903, and for the corresponding periods in 1902 and 1901.

WALL STREET, FRIDAY, JULY 3, 1903.-5 P. M. The Money Market and Financial Situation .- The security markets opened with a better tone and a largely increased volume of business on Monday. Transactions since Monday have diminished day by day, however, and the market for shares has lapsed back into the dull, featureless condition noted last week. The market for bonds is relatively broader and more active, a fact due, no doubt, to an investment requirement incident to the large semi-annual disbursements. Aside from this rather modest demand, commission-house business is again practically at a standstill.

Operations are restricted somewhat by immature and uncertain crop conditions, by a firmer money market, and perhaps by the near approach of the national holiday and its attendant week-end engagements. On the other hand some of the incidents of the week should have a tendency to inspire confidence in the general situation. Among these are an easier foreign exchange market and a cessation of gold exports, less aggressiveness and influence on the part of labor leaders and some very favorable reports of railway traffic. Call-loan rates have been quoted on more than one occasion as high as 6 per cent, but these were largely nominal, the bulk of actual business having been arranged at a much lower figure.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2 to 10 per cent. To-day's rates on call were 2 to $4\frac{1}{2}$ per cent. Prime commercial paper quoted at $5\frac{0}{2}$ for endorsements and $5\frac{1}{2}$ for the best single names.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £397,395, and the percentage of reserve to liabilities was 42.06, against 51.62 last week, the discount rate remaining unchanged at 3 per cent. The Bank of France shows a decrease of 9,075,000 francs in gold and 2,1(0,000 francs in silver.

To-morrow being Independence Day and a legal holiday, the Clearing House back statement was issued to day. It shows an increase in loans of \$3,697,300; decrease in circulation of \$179,50"; increase in deposits of \$173,100; decrease in specie of \$4,467,900: decrease in legal tenders of \$35,00"; and a decrease of \$4,546,175 in surplus reserve. In the following we give the figures for the previous week in our usual form in order to preserve the record.

	1903 June 27	Differences from previous week	1902 June 28	1901 June 29
Capital	\$ 109.822.700	\$	\$ 83,872,700	\$ 78,722,700
Surplus	129.059,300 913,746,900		105,458,000	95,357,400
Oirculation	44,088,600		31,456,000	30,535,800
Egal tenders	163,770 200 75,08 3 ,600	Ino 5,310,500	178,634 500	172,311,600 79.018,100
Beserve held	238.853.800	· · · · · ·		
15 p. c. of deposits			238,957,850	242,845,500
-	10.000.050	T 0.001.005	10 0 0 0 0 0 0	0.404.000

Surplus reserve 12,923,850 Inc 2,824,275 12,978,850 8,484,200 * \$37,226,300 United States deposite included, against \$37 301,700 last week. With these United States deposite eliminated, the surplus reserve would be \$22,230,425 on June 27 and \$19,425,000 on June 20. NOTH.— Betarns of separate banks appear on the preceding page.

Foreign Exchange.-The market for sterling exchange was easy early this week, influenc d by dearer rates for money and also by a better supply of security and other bills. Continental exchange fell off only slightly. After

the middle of the week the tone grew firmer. To-day's (Friday's) nominal rates for sterling exchange were 4851/2@486 for sixty day and 488@4881/2 for sight. To-day's (Friday's) actual rates for sterling exchange were 48520 @48530 for long, 48740@48750 for short and 48770@48785 for cables. Commercial on banks, 4845/3@4847/3, and docu-ments for payment, 4841/4@4851/4. Cotton for payment, 4841/4@4843/3; cotton for acceptance, 4845/3@4847/3, and grain for payment, 4851/3@485/4. To-day's (Friday's) actual rates for Paris bankers' francs were 5181/3*@5181/3 for long and 5155/3 for short. Germany bankers' marks were 95@951.16 for long and 959.161/@959.16 for short. Amsterdam bankers' guilders 401.16@401.16% for long and 403/3*@403/8 for short. Exchange at Paris on London to-day, 25 f. 13 c.; week's range, 25 f. 131/2 c. high and 25 f. 13 c. low. The week's range for exchange rates follows: Long. Sterling Actual were 4851/2486 for sixty day and 488@4881/ for sight. To-

Less: * 118 of 1%. † 139 of 1%. ‡ 839 of 1%. Plus: ¶ 118 of 1%. ** 138 of 1%. The following were the rates for domestic exchange on New York at the under-mentioned cities to-day: Savannah. buying 25c. per \$1,000 discount, selling 37%c. per \$1,000 premium; Charleston, buying par, selling 253. per \$1,000 premium; New Orleans, bank, 25c. per \$1,000 discount;

commercial, 50e. per \$1,000 discount; Chieago, 20c. per \$1,000 premium; St. Louis, 25c. per \$1,000 premium; San Francisco, 21/2c. per \$100 premium.

State and Railroad Bonds .- No sales of State bonds have been made at the Board this week.

The market for railway bonds has been irregular but relatively firm. A large decrease in the volume of business and an increase in the number of issues traded in has been an unusual characteristic of the market.

United States Steel Corporation new 5s have been the conspicuous feature and recovered about a point of the decline noted last week. Union Pacific convertible 5s have been the next most active bonds and close with a fractional gain. Colorado Fuel & Iron convertible 5s have been the strong feature of the active list, showing when at the highest an advance of 3^{3}_{4} points. Oregon Short Line 4s and participating advanced 2 points and Union Pacific convertible 4s about 1 point. Wabash debentures have been active and weak.

United States Bonds.-Sales of Government bonds at the Board are limited to \$1,000 3s, coup., at 108. The following are closing quotations; for yearly range see third page following.

"This is the price bid at the morning board; no sale was made.

Railroad and Miscellaneous Stocks .- The stock market opened more active on Monday than for some time past, and a large proportion of the active list advanced from 1 to 3 points. There was a further general advance on Tuesday, but less activity, since when transactions at the Exchange have steadily dwindled to about the smallest of the current dull period, and a large part of the advance noted has been lost. The Soo Line issues were again prominent, the common advancing nearly 4 points on a good demand. Hocking Valley has been decidedly weak. It moved up fractionally on the advance of Monday and sold to-day ex dividend over 15 roints below the highest. Pennsylvania advanced over three points on the success attending its new stock dis-tribution. Reading advanced 4 points on its excellent traffic report, and all the coal stocks have been relatively strong. Brooklyn Rapid Transit has been erratic, showing when at its highest an advance of nearly 4 points.

Colorado Fuel & Iron lost a large part of the advance noted last week. Other iron and steel stocks have been strong, notably the United States Steel issues. American Sugar Refining covered a range of 41/4 points and closes with a net gain of 2½. For daily volume of business see page 30.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow.

(Intside Market.-There has been some improvement in the market for unlisted securities this week. Transactions continued on a small scale, but values ruled higher until today, when reactions were recorded. Northern Securities held the place of greatest prominence on account of the sharp advance in the price of these shares. From 91 on Saturday, the price advanced to 951%, and then reacted to Saturday, the price advanced to $55\frac{1}{3}$, and then reacted to $93\frac{1}{2}$. The close was at 94; sales for the week are estimated at 10,000 shares. Standard Oil moved up from $640\frac{1}{4}$ to $648\frac{1}{2}$, but later declined again to 646. International Mercantile Marine common advanced $\frac{1}{2}$ a point to $6\frac{1}{2}$, but subsequently fell back to 6; after a slight gain to $25\frac{1}{4}$, the preferred reacted to $24\frac{1}{3}$, then sold up to 26, and to day fell back again to 25. 24%, then sold up to 26, and to day fell back again to 25. United States Shipbuilding s. f. 5s moved up 2 points to 25. Manhattan Transit moved irregularly between 3% and 3%, closing to day at 3%. Fuel Oil Power gained 1½ points to 28%. American Can preferred advanced from 42% to 44, but fell back again to 42½, the common was quiet between 5½ and 5%. There has been a much better demand for copper stocks this week. Greene Consolidated and Tennessee were more active than they have been of late and both stocks made substantial gains. Greene Consolidated rose 3½ points made substantial gains. Greene Consolidated rose 31/2 points to 231%, but reacted to-day to 223%. Tennessee advanced to 32, a gain of 3 points, but to-day moved down to 315%, and closed at 3134. White Knob gained 214 points to 1414. United declined ½ a point to 18. but later recovered to 185%. Outside quotations will be found on page 30.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from **July 1** to and including such latest week or month. The returns of the street railways are brought together separately on a subsequent page.

t Results on Monterey & Mexican Gulf are included from March 1, 1902. Mexican currency. Includes trans-Missouri lines in 1903, beginning March 1, making length of road on which earnings are reported 7,357 in 1903, against 5,376 miles in 1902. Includes the Honst. & Tex. Cent. and its subsid, lines. e Covers lines directly operated. Includes the Chicago & Eastern Illinois in both years. Including Sav. Flor. & West. and also Florida Southern and Sanford & St. Petersburg Rys. in both years. v Other income not included in the gross either for month or from July 1. W Includes Lake Erie & Det. Riv. Rv. from Jan. 1 both years. Latest Gross Earnings by Weeks.—In the table which follows we sum up separately the earnings for the latest week.

For the third week of June our final statement covers 54 roads, and shows 12.32 per cent increase in the aggregate over the same week last year.

Net Earnings Monthly to Latest Dates.—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of June 20, 1903. The next will appear in the issue of July 18, 1903.

Buffalo Gas Company. (Official Statement,)

The statement made under date of Mar. 30, 1903, to the New York Stock Exchange regarding the \$5,900,000 first mortgage gold 5s of the Baffalo City (las Co., says in part:

gold 5s of the Baffalo City (fas Co., says in part: The bonds are dated Oct. 1, 1997, payable on Oct. 1, 1947; interest payable in New York at the Continental Trust Co. April 1 and Oct. 1. They are embject to redemption before maturity at any interest date at 115 and interest on eight weeks' untice if drawn by lot by the trustee. There is no sinking fund. The bonds are all equally secured under mortgage to the New York Security & Trust Co. as trustee, by a first lien on all property of the Baffalo City Gas Co; they are further secured as below stated. The total anthorized issue is \$7,000,000, of which \$5,900,000 are a prior lien on the property. Of this amount \$5,805,000 bonds are in the hands of the public, and \$95,000 bonds are held in the treasury (representing extensions already made). The remaining \$1,100,000 bonds will not be issued, but instead thereof a new mortgage has been created by the Buffalo Gas Co. (present company) bearing date Oot. 17, 1899, to the New York Security & Trust Co., which mortgage covers all the property now owned or hereafter acquired by the Buffalo Gas Co. and is for the security in the dirst instance of the \$5,900,000 of first mortgage bonds of the Suffalo City Gas Co., and next and thereafter for the security of the \$1,100,000 bonds of the Buffalo Gas Co. abore referred to, known as the consolidated mortgage B bonds, which latter bonds are in all respects subordinated to the lien of the \$5,900,000 of Buffalo City Gas Co. bonds. None of the \$1,100,000 consolidated mortgage B bonds have as yet been issued. Anthorized capital stock, \$9,000,000, of which \$2,000,000 preferred. The common is all ontetanding, and of the preferred \$1,700,000 preferred.

Anthorized capital stock, \$9,000,000, of which \$2,000,000 preferred. The common is all outstanding, and of the preferred \$1,710,000 is out-

The common is all outstanding, and of the preferred \$1,710,000 is out-standing. The Buffalo Gas Co. was incorporated June 13, 1899, and owns in fee the properties formerly owned by the Citizens Gas Co. of Buffalo, the Buffalo Mutuai Gas Co., and the Buffalo Gas Light Co. and owns \$2,043,000 first mortgage bonds out of a total of \$2,100,000, and 26,894 shares of the capital stock out of a total of \$2,000 shares, of the People's Gas Light & Coke Co. of Buffalo, all of which securities are deposited with the trustee under the mortgage. The only existing company is the Buffalo Gas Co. All of the other companies have dis-appeared through merger or consolidation; the statute, however.

appeared through merger or consolidation; the statute, however. preserving enough of the identity of the consolidating company to support all of its securities. The company owns 371 miles of mains and 15,689 active meters. Output of gas cold and used year ending September 30, 1902, 564,845,235 onbic feet; for 5 months ending Feb. 28, 1903, 305,511,-413 cubic feet For the 5 months ending February 28, 1903, the gross income was \$308,478; expenses, \$106,305; gross profits, \$202,173; less compons accrued, \$120,937; surplus carnings, \$31,235. Officers: President, Alex. C. Humphreys, New York; Vice-President, Robert L. Fryer, Boffalo; Sec., Gen. Treas., Wm. S. Riselay, Boffalo; Directors are Alex. O. Humphreys, New York; Robort L. Fryer. Buffalo; J. Edward Addicks, Philadelphia; Robert C. Prayn, Albany; Franklin D. Locke, Buffalo; Frederic Strauss, New York; Pascal P. Pratt, Buffalo; J. Frank Alice, Dover, Del.; W. S. Riselay, Buffalo.-V. 76, p. 920, 707.

Central Coal & Coke Company.

(Report for the year ending May 31, 1903.)

President R. H. Keith says:

President K. H. Keith says: Our net earnings for the fiscal year are \$802,574. We charge off in the way of royalty on coal and timber lands for the year \$221,009. This goes into the expense accounts in the production of lumber and coal and does not show as a profit in the busineses; still, it is largely in excess of what the land is invoiced at. Our earnings would have been much greater if it had not been for bad weather and floods in the South and the shortage of transportation facilities. We have been building a new mill at Carson, La., to replace the one formerly operated at Texarkana, Tex., and the fact that we have had only one mill in operation during the year has cut our lumber business to a great extent. The new mill is now commencing to run, and our earnings will be largely increased during the coming year. We think we can make net earnings this year of \$1,000,000, as the business is in first-class shape, prices good both in lumber and coal and a large demand for both.

demand for both. We have declared the dividends for 1903 of 5 p. c. on the preferred stock and 6 p. c. on the common stock, payable quarterly as usnal. This will take about \$400,000 of our earninge, leaving about \$600,000 to pay our floating debt and purchase some of our bonds. The royalty and etumpage will maintain our investments.

Electric Storage Battery Co. (Official Statement.)

The statement made under date of May 23 to the New York Stock Exchange says in substance:

ORGANIZATION.—This company was incorporated under the laws of New Jersey in 1888, and has since secured control of valuable pat-ents for storage batteries in this country and Canada, as well as the exclusive right to manufacture in the United States and Canada un-der foreign patents. Its business is that of manufacturing, selling and der foreign patents. installing electric storage batteries and their accessories, and in tak-ing contracts for the installation of complete electric plants.

Ing contracts for the installation of complete electric plante. STOCK.—The authorized capital stock is \$18,000,000, in shares of \$100 each. viz: Preferred stock, \$453,700; common stock, \$17,546,-300. Of the latter there is in the treasury \$500,000, and unlashed, \$1,250,575, leaving outstanding, \$15,795,725. The preferred shares are entitled to a dividend of 1 per cent per annum, cumulative, before any dividend is set apart to or paid on the common shares, and upon liquidation to receive not exceeding \$10 a share before any part of the asects or of the proceeds thereof shall be paid to any common shares. In any year when the cumulative preferred dividends have been In any year when the cumulative preferred dividends have been paid and the common shares have also received a dividend of not less than \$1 per share, all balance of profits applicable in that year to div-idends and devoted to such purpose by the directors shall be distrib-uted as dividends, share and share alike, upon all shares at the time entitled to dividends without any distinction or preference.

The preferred shares are convertible into common stock at any time at the option of the holder thereof, share for share. In December, 1900, this company paid the dividend accumulated on its preferred stock to that time, amounting to \$270,000. Since then it has paid quarterly dividends without intermission, on both common and preferred stocks at the rate of 5 per cent per annum. PROPERTIES.

The following is a list of the companies whose patents and proper-

The following is a list of the companies whose patents and proper-ties have been seenred: ACCUMULATOR CO., Newark, N. J.—Patents and good will. BRUSH ELECTRIC CO., Cleveland, O.—Patents and good will. CONSOLIDATED ELECTRIC STOBAGE CO., Camden, N. J.—Plant, pat-ents and good will absorbed. PUMPELLY SORLEY STORAGE BATTERY CO., Chicago, Ill.—Plant, patents and good will acquired. HOPEDALE ELECTRIC CO., Milford, Mass.—Real estate, plant, equip-ment and patents acquired. The machinery has been disposed of, but this company still owns the buildings and part of the real estate origi-nally acquired. nally acquired.

PLANTE Co., Jersey City, N. J .- Plant, patents and good-will ac-

PLANTE Co., Jersey City, N. J.—Plant, patents and good-will ac-quired. GENERAL ELECTRIC Co., Schenectady, N. Y.—The battery business of this company was acquired, including the good-will and patents. CILORIDE ELECTRICAL STOBAGE Co., Ltd., Manchester, Eng. -The exclusive right to manufacture in the United States and Canada un-der the patents of the above company were secured. The Electric Storage Battery Co. now owns the controlling interest in the Chloride Electrical Storage Co., Ltd., representing an investment of \$298,841. Regular dividende of 6 to 8 per cent are received from this invest-ment. ment.

ACCUMULATOREN-FABRIK AKTIENGESELLECHAFT, Germany.—The Electric Storage Battery Co. entered into a contract with the Accu-mulatoren-Fabrik Aktiengeselschaft, by which it secured the right to manufacture in the United States under the patents of the Germany company.

BRADBURY STONE ELECTRIO STORAGE BATTERY CO., Lowell, Mass. —Piant, property, patent, stock and good-will acquired. EASTERN ELECTRIC LIGHT & STORAGE BATTERY CO., Maine.—The control of this company was scoured, including stock, patents, good-will, plant, etc. The company has no longer any corporate existence. In addition the Electric Storage Battery Co. controls many valuable foreign, United States and Canadian patents, secored by purchase and through services

foreign, United States and Canadian patents, second by purchase and through services. The company's manufacturing plant is situated in Philadelphia, at 19th St. and Allegheny Ave., consisting of mechanical equipment and buildings, a portion of the buildings being owned by the company, on leased land, and the balance being under lease. The company also owns stocks as follows: Electric Vehicle stock (par), \$6,364,600, \$3,152,300 preferred, book value, \$1,922,641; Ohlo-ride Electric Storage Co. (England) stock, \$234,837 (including ±1,158 shares preferred and 17,262 shares common), book value, \$298,841, and bonds, book value (par) Electric Vehicle Co., \$544,000; Chicago, Electric Traction Co., \$65,000; Cleveland & Eastern Ry., \$15,000; to-tal of all, par value, \$7,223,437; book value, \$2,845,482. officers and directors are: President and General Manager, Herbert Lloyd; First Vice-Presi-dent, George D. Widener; Second Vice-President, John R. Williams; Secretary and Treasurer, Walter G. Henderson. Directors: Herbert Lloyd, P. A. B. Widener, Thomas Dolan, Rn-dulph Ellis, Thomas J. Regan, George D. Widener, William L. Eikins, Grant B. Schley, George Philler.-V. 76, p. 1303, 921.

Lackawanna Steel Company.

(Official Statement of June 8, 1903.)

The recent statement to the New York Stock Exchange affords the following facts:

affords the following facts: The company was organized Feb. 15, 1902, under the laws of New York, and has made a mortgage to the Farmers' Loan & Trust Co.. as trustee, to scoure \$20,000,000 first mortgage 5 per cent convertible gold bonds maturing April 1, 1923, with interest from April 1, 1903, payable April 1 and Oct. 1. The entire series is redeemable at the option of the company on April 1, 1906, or on any interest day prior thereto, on 60 days' notice, at 107 kp. c. and interest; and, if not so re-deemed, the holder may, at his option, on any day after April 1, 1906, and not later than April 1, 1915, convert the principal of any of the bonds into an equal amount of stock. The capital stock has been daly increased from \$40,000,000 to \$60,000,000 to provide for such con-version. Of this total amount, \$19,971,400 has been issued, share for share, for stock of the Lackawanna Iron & Steel Co.. \$15,000,000 has been subscribed in cash, of which 60 per cent has been paid and 40 per cent is subject to two calls of 20 per cent oach on sixty days' notice, \$',000,000 is reserved for future issue and \$20,000,000 for purposes of conversion. '

The mortgage provides that the deposited stocks shall not be voted The mortgage provides that the deposited stocks shall not be voted to anthorize any secured indebtedness of any corporation, a majority of whose shares is deposited thereunder, nor any charge on its prop-erty, except (1) in substitution for other indebtedness; or (2) to pro-cure funds from the Lackawanna Steel Co. for betterments, etc.; or (3) in case of a purchase money lien applying only to the property purchased; nor can the deposited stocks be voted for the increase of expited stock or for margar sele or lease or in favor of a purchased. capital stock, or for merger, sale or lease, or in favor of a preference in stock; but the subsidiary corporations may be merged, a propor-tionate amount of the stock of the consolidated or purchasing com-pany being deposited under the mortgage. Under the provisions of the mortgage the \$5,000,000 of said bonds not already subscribed may be issued at any time after Jan. 1, 1904, only for property to be acquired, and not in excess of two-thirds of the actual cost of such property to the company; all property acquired by use of these bonds to become subject to the lien of the mortgage. The company's plant, which with appurtenant property is covered by the mortgage, is lo-cated in the towns of West Seneca and Hamburg, Erle Co., N. Y., and is now more than 50 p. c. completed. The mortgage covers also the following shares of stock of other cor-porations, which are owned (and pledged as security) by the Stoel Co., as below indicated.

North American Company.

(Report for the year ending May 31, 1903.)

The full annual report was given June 20 on pages 1360 and 1361, setting forth the facts regarding the disappearance from the balance sheet of the item of good-will and the net increase of \$1,010,617 in the value of assets as readjusted on May 31, 1903. Omitting this last exceptional item of profits, the income accounts for the last two years compare as follows:

GENERAL INVESTMENT NEWS,

BAILBOADS, INCLUDING STREET BOADS.

Atlantic Coast Line RR.—Called Bonds.—The \$1,500,000 Savannah Florida & Western Ry. Co.'s 4 per cent first mort-gage St. Johns River Division gold bonds, which are secured by a mortgage dated June 15, 1899, have been called for payment on Jan. 1, 1904, at the office of the City Trust Co. of New York, trustee.-V. 76, p. 971, 918.

Bangor & Aroostook RR.-New Stock.-The Maine Railroad Commission has been asked to approve an increase of \$500,000 in the capital stock for the purpose of buying the leased line, the Fish River RR., extending from Ashland to Fort Kent, 53 miles.-V. 75, p. 977.

Boston & Worcester Street Ry.-Operation.-The line from Boston to Worcester was formally opened by special car on June 26, and was opened for general traffic on Wednesday of this week.

Bonds.—The Massachusetts Railroad Commission will give a hearing July 6 at 12 M. on a petition for authority to increase the capital stock by \$250,000 and to issue $4\frac{1}{2}$ p. c. 20-year bonds to the amount of \$1,000,000. $-\nabla$. 76, p. 211.

Cambria & Ciearfield Ry.-Consolidation.-Under this title it is stated the Pennsylvania RR. Co. has arranged to merge the Pennsylvania & Northwestern, Millersburg RR. Co., Cambria & Clearfield, Creeson & Irvona, Ebensburg & Black Liok and Tyrone & Clearfield.-V. 52, p. 973.

Chicago Burlington & Quincy RR.—No Payment Re-quired.—J. P. Morgan & Co. announce that the syndicate which underwrote the extension of the \$21,500,000 of 7 p. c. bonds maturing on July 1 will not be called on for any payment, as the bonds have either all been extended by their holders, or purchased, extended and sold for account of the syndicate. $-\nabla$. 76, p. 1354, 1299.

Chicago St. Louis Memphis & New Orleans Ry.—Pro-posed 'Frisco Consolidation.—This company, mentioned be-low as one of the guarantors of the bonds of the New Orleans Terminal Co., is to be organized with \$10,000,000 au-thorized capital stock (all common) as a consolidation of several subsidiary corporations of the St. Lonis & San Francisco RR. Co. which have or will have a total of about 1,500 miles of road, and possibly more. While official information is lacking, it is believed that the new company will become the owner of the 'Frisco companies forming the through line from Chicago to New Orleans, particularly the Chicago & Eastern Illinois, the St. Louis Memphis & Southeastern and the extension to New Orleans.

Cincinnati New Orleans & Texas Pacific Ry.-City Bonds for Cincinnati Southern Terminals.—See page 48 of "State and City Department."—V. 76, p. 157.

Cleveland Electric Railway.-Consolidation.-The share-holders voted on June 29 to ratify the consolidation with the Cleveland City Railway and to increase the capital stock from \$18,000,000 to \$33,400,000, in order to purchase outright the Cleveland City lines. The merger became effective July 1. The shareholders of the Cleveland City Ry. Co. receive \$130 in stock in the Cleveland Electric Railway Co. for every share they now hold in the city company. Universal trans-fers have already been granted. The directors are :

H. E. Andrews, C. F. Emery, G A. Garretson, M. A. Hanna, R. A. Harmon, C. Morris, George G. Mulhern, C. A. Otis Jr., U. L. Pack, James Parmelee, L. W. Prior, R. R. Rhodes, W. B. Sanders, J. J. Stan-ey and J. H. Wade.-V. 76, p. 1247.

Columbus (0.) Railway & Light Co.-Officers -Robert E. Sheldon, having resigned as President of the Columbus Rail-

way Co., was recently elected President of the Columbus Railway & Light Co.; L. S. Steward was made Vice-President. Butler Sheldon succeeded his father as President of the Columbus Railway Co.

Decision.—The Circuit Court at Columbus, O., in the quo warranto proceedings brought in April, 1901. in the name of the State of Ohio, handed down on June 25 a decision sustaining the Columbus Ry. Company's claim to perpetual franchise rights in East Long, East Main, West Broad, State and Oak streets. The Court takes the position that prior to the Act of May 14, 1878, a railway franchise was a privilege granted by the State on condition that the city consent to its exercise, and, if without limitation of time, is perpetual nn-less revoked by Act of the State Legislature.—V. 76, p. 1142, 1084.

Franchise Tax in New York.—Appeal.—Formal notice has been given of appeal to the United States Supreme Court from the decision of the Court of Appeals declaring Constitutional the special franchise-tax law of this State. The appellants are the Metropolitan Street Ry., Brooklyn City RR., Coney Island & Brooklyn RR., Central Crosstown RR., 23d Street Ry., Consolidated Gas Co. of New York and New Amsterdam Gas Co. A final decision of the case is not expected before 1904. - V. 76, p. 1192, 972.

Gulf & Chicago Ry.-Bonds.-Road - Guaranty.- This company's \$5,000,000 of 5 p. c. 50-year gold bonds dated July 1, 1903, are subject to call at 110 and interest on any interest day, as a whole, or in part, when drawn by lot. The road is to extend from Decatur, Miss., at a junction with proposed branch of the Mobile Jackson & Kansas City northerly to Jackson, Tenn., about 250 miles, including present narrowgauge line from Middleton to Pontotoc, which is to be stand-ardized. Bonds are to be issued at \$20,000 per mile of standard-gauge road; pending standardizing of present road, bonds may be issued thereon at \$10,000 per mile. (Compare V. 76, p. 1143). The guaranty endorsed on the bonds follows:

For value received, the Mobile Jackson & Kansas CitylRR hereby gnarantees to the holder of the within bond the due and punctual pay-ment of the principal thereof and of the interest thereon. In witness whereof, the Mobile Jackson & Kansas City RR. has caused its corpor-ate seal to be hereunto affixed and this gnaranty to be signed by its President or Vice-President, and by its Secretary or Assistant Secre-tary, this..... day of......A. D. 19..... Mobile Jackson & Kansas tary, this.... day of......A City RR. Co. Attest:.....Secretary.

By.....President The Gulf & Chicago is lessed to the M. J. & K. C. for 99 years from July 1, 1903.-V. 76, p. 1143.

Hocking Valley Ry.—Sale of Block of Stock.—A large block of common stock (over \$5,510,000) deposited with J. P. Morgan & Co. (V. 75, p. 1801,) has been sold to five railroad companies, said to be the Pittsburgh Cincinnati Chicago & St. Louis (two sixths interest) and Baltimore & Ohio, Chesapeake & Ohio, New York Central and the Erie (each one-sixth interest. The amount of stock passed does not constitute a majority interest of the entire share capital, which includes \$11,000,000 of common and \$15,000,000 of preferred, both classes having voting power. To pay for the stock 3 year 5 p. c. guaranteed notes have been issued and sold, it is said, on a 6 p. c. basis.

J. P. Morgan & Co., in a circular addressed to the holders of H. V. RR. certificates of deposit, say :

"Referring to the syndicate agreement dated Dec. 4, 1902, we beg to advise you that pursuant to the authority therein contained, and with the approval of Messrs. Thomas F. Ryan, Balph W. Hickox and Robert M. Gallaway, the subscribers' committee therein named, we have sold the common stock of the Hocking Valley Railway Co. de-posited with us under said agreement at the price of \$105 per share. The sum realized upon said eale, after deducting therefrom actual disbursements and the compensation of one-fifth part of the net profit to be retained by us, aggregates an amount sufficient to pay \$103 per share.

we shall be prepared to pay the holders of our certificates of deposit for Hocking Valley common stock this amount on and after Monday, July 6, 1903, on presentation and surrender of said certificates of de-posit properly endorsed.—V. 76, p. 1192, 972.

Huron Erie & Buffalo Ry.-Incorporated.-This company has been incorporated in Canada to build from St. Thomas east to the Niagara River and west to Sarnia. The company is backed by the Pere Marquette RR. Co., which controls the Lake Erie & Detroit River Ry., and intends, if trackage rights over existing lines are withheld, to build a double-track road under the charter of the new company to extend its system to Buffalo,

Interurban Street Ry., New York.-Additional Transfer Stations.-See Metropolitan Street Ry. below.

Decision.—See Metropolitan Street Ry. in V. 76, p. 1407. Balance Sheet.—See page 33 under "Annual Reports."— V. 76, p. 1300.

Jackson Ann Arbor & Detroit Traction Co.-Incorporated.-This company has been organized under Michigan ated.—Inis company has been organized inder Michigan laws with \$2,500,000 anthorized capital etock, to carry out the consolidation plans of W. A. Boland, 31 Nassau St. The capital stock has all been subscribed; par value of shares, \$100. The company is a consolidation of the Jackson & Sub-urban Traction Co. (V. 76, p. 654), Wolf Lake Ry. & Resort Co., Jackson & Ann Arbor Ry. Co. and Detroit Plymouth & Northville Ry. Co. (V. 72, p. 1135). It will complete the line now under construction between Jackson and Detroit by man of Detroit Ann Arbor Plymouth to Detroit 81 miles way of Dexter, Ann Arbor, Plymouth to Detroit, 81 miles, including the local system in Jackson. The authorized bond issue is \$2,500,000, a block of which, we are informed, has been underwritten by New York and Michigan bankers. Further particulars follow:

The road will be operated with the third-rail system and will have a steam railroad roadbed. As the Jackson & Battle Oreek Traction Co., whose line was placed in operation last week through the cities of Jackson, Albion, Marshall and Battle Oreek (a distance of 45 miles), is one of the companies in which Mr. Boland and Spitzer & Co., the bank-ers, are interested, it is naturally supposed that the two companies will be consolidated in the near future, forming a continuous line from Detroit to Battle Creek, 122 miles. A test was recently made on a portion of the road in operation, when cars were run, it is said, at the rate of a mile a minute. It is claimed that this will be one of the most modern electric roads constructed up to the present time, Mr. Boland having embodied in it his experience of 15 years in electric railways. The board of directors is considered exceptionally strong. The power will be taken from Kalamazoo River, which has been success-fully developed by W. A. Foote, who furnishes power for his electric light plants at Kalamazoo, Battle Creek, Albion and Jackson; also to operate all electric roads in those cities. The incorporators are:

The incorporators are:

William Halls Jr., Vice-President of the Hanover National Bank of New York; Henry R. Oarse, New York; Bird S. Coler, New York; Leonard H. Hole, of W. N. Coler & Co., bankers, New York; W. N. Coler Jr., New York; W. A. Boland; N. S. Potter, Vice-President of the Jackson City Bank.

See "Boland Interurban Railway System" in V. 76, p. 971.

Kansas City Fort Scott & Memphis Ry.—Called Bonds.— Thirty-three (\$83,000) Fort Scott Equipment Co. 6 p. c. bonds were payable by the trustees at 50 State Street, Boston, on July 1, 1903.-V. 76, p. 435.

Lake Shore & Michigan Southern Ry.—New General Manager.—General Superintendent W. H. Marshall has been advanced to the position of General Manager of this road, also of the Indiana Illinois & Iowa, the Lake Erie & Western and the Lake Erie Alliance & Wheeling.-V. 76, p. 1355, 1030.

Lake Street Elevated RR., Chicago.-Interest.-The interest due July 1 on the first mortgage bonds was paid as usual, but part of the money, it is stated, had to be borrowed.

Protective Committee.-At a meeting in Chicago on June 22 at which about fifty stockholders were present, a com-mittee consisting of Charles F. Grey, James Bolton, E. A. Dicker, W. H. Colvin and R. H. Donnelley was appointed to take such action to protect the stockholders as in their judg-ment may be necessary and to call a meeting of the owners of stock at any time to take action on any plan that may be submitted. The meeting placed itself on record as opposed to an assessment of \$10 a share such as from time to time the Higipatham apprint as here around to have in Higinbotham committee has been reported to have in contemplation.-V, 76, p. 1248, 972.

Lehigh Valley RR.—Consolidated Mortgage.—At a meeting of the board of directors in Philadelphia on Wednesday the statement of earnings for the eleven months given on a previous page was presented, showing a surplus over charges of \$1,115,711. A special committee was appointed to consider the question of the readjustment of the company's finances and the making of a consolidated mortgage in amount sufficient to retire at maturity all ontstanding bonds, and to provide additional working capital. This committee is ex-pected to report on July 15, the details of the bond issue having been practically agreed upon.—V. 76, p. 972, 810.

Louisiana Bailway & Navigation Co.-Status-Bonds. This corporation, formed under the laws of Louisiana, May 9, 1903, as successor of the Shreveport & Red River Valley Ry. Co., whose entire property was purchased on June 22, 1903, has arranged to issue \$3,842,000 of first mortgage 41/2 per cent gold bonds dated July 1, 1903, and due July 1, 1953; interest January 1 and July 1. This company is authorized to issue first mortgage bonds at the rate of \$23,000 per mile. Of the amount of bonds issued, \$300,000 is to cover bridge; the balance of \$3,542,000 is to cover 154 miles, Shreveport to Mansura. The Farmers' Loan & Trust Company of New York is trustee. An official statement says:

YORK IS UTUSICE. An OMICIAL Statement Says: Road owned, Shreveport to Mansura, La., 154 miles. An extension is under construction, Mansura to Baton Rouge, La., 71 miles, and branches from Colfax to Winnfield, La., 28 miles, and Campti to Ohestnut, La., 14 miles. This company is empowered to build to New Orleans and south of that oity to the Gulf of Mexico. Equipment: Locomotives, 10; passenger cars, 12; freight cars, 274. The charter of the company contains provision for the ownership and operation of a line of ocean ateamships in conjunction with the road. The stock authorized is \$12,000,000; issued, \$3,842,000; par of shares. \$100. Officers-President, William Edenborn, New York City; Vice-Presi-dent, P. Molivried, Shreveport, La.; Secretary and Treasurer, Clar-ence Ellerbe, Shreveport, La.; Auditor, W. B. Helm, Shreveport, La. Directors-William Edenborn, P. Molivried, O. Ellerbe, W. F. Taylor, Sarah Edenborn, Otto Mann and J. E. Cole.

Main office, Shreveport, La.; President's office, 71 Broad-way, New York City.-V. 76, p. 1085.

Manila Electric RR. & Lighting Co.—Connecticut Cor-poration.—This corporation has been organized under the laws of the State of Connecticut; authorized capital stock, \$6,000,000; par value of shares, \$100 each. The officers and directors of the company will be announced later. A holding company of similar name was incorporated in New Jersey last spring, but the present company formed under the more liberal laws of Connecticut owns the franchise and con-forms to the Manila requirements. See V. 76, p. 657, 593.

Metropolitan Street Ry., New York.—Additional Trans-fer Stations.—On or before Aug. 1 between forty and fifty new transfer stations are to be established in Manhattan permitting the free exchange of passengers between the Metropolitan and Third Avenue system at nearly every important point of intersection. The company does not consider it safe point of intersection. The company does not consider it safe to give transfer at 23d St. and Broadway; the intersection of 125th St. and 8th Ave., about which much of the recent controversy centered, is also omitted from the proposed transfer points.—V. 76, p. 1407, 1355. Mobile Jackson & Kansas City RR.-Guaranteed Bonds. -See Gulf & Chicago Ry. above.-V. 76, p. 1143.

Nashville Rallway & Light Co.—Organized.—This com-pany on Jane 26 filed at Nashville its certificate of organiza-tion as successor of the Nashville Ry. Co., the sale of whose property was confirmed by the Court on Jane 24. The anthorized capital stock is \$6,500,000, of which \$2,500,000 is 5 p. c. cumulative preferred. The directors are:

Percy Warner, A. M. Shook, J. C. Bradford, Joseph H. Thompson, J. Horton Fall, F. O. Watts of Nashville, R. Lancaster Williams of Rich-mond, Va., E. O. Hovt and W. H. Brockway of Now York.

Percy Warner is President; J. H. Fall, Vice-President; and N. P. Yeatman, Secretary and Treasurer. Compare page 57 of STREET RAILWAY SUPPLEMENT and V. 76, p. 1356, 1144, 1085.

National Railroad Co. of Mexico.—On Unlisted.—The second preferred and also the deferred stock, both "when issued," have been admitted to quotation in the unlisted department of the New York Stock Exchange.-V. 76, p. 1408, 1801.

New Orleans Belt & Terminal Co.-Sale.-See New Orleans Terminal Co. below.-V. 76, p. 1249.

New Orleans & San Francisco Ry.-New Name.-See New Orleans Terminal Co. below.-V. 76, p. 1144.

New Orleans Terminal Co.—Change of Name-Guaran-teed Bonds.—The shareholders of the New Orleans & San Francisco Ry. (V. 76, p. 1144) have voted to change the name to the New Orleans Terminal Co. and to make a mortgage to the Standard Trust Co., as trustee, to secure not exceeding \$15,000,000 of 4 p. c. \$1,000 gold bonds, dated July 1, 1903, and due July 1, 1953; interest Jan. 1 and July 1. These bonds will cover the railroad and other property acquired under deed from the New Orleans Belt & Terminal Co., including the Chalmette terminals (see map in INVESTORS' SUPPLEMENT of October, 1897, page 45); also the right of way through the city and all other terminal property, rights and franchises heretofore owned by the Southern Railway and the St. Louis & San Francisco interests in New Orleans and now owned in fee by the new company; likewise all future additions and improvements. The bonds will be guaranteed jointly by the Chicago St. Louis Memphis & New Orleans Ry. Co. (see that company above) and the Southern Rallway Co., or possibly, we understand, one of its subsidiary companies. The first issue will be \$3.500,000, and further amounts may be sold from time to time under the terms of the mortgage, the limit of issue being placed at a large figure to provide for all future contingencies. The capital stock is \$5,000,000 in \$100 shares. The officers are:

L. S. Berg, President; R. D. Lankford, Vice-President; W. W. Lyford and Farrer, Jones & Kruttschnitt, General Counsel; C. W. Hillard, Tressurer; G. MoD. Nathan, Assistant Treasurer; Ivy T. Presion, Sec-retary; C. E. A. McCarthy, Assistant Secretary; W. C. Dotterer, Gen-eral Manager.

The Southern Railway and the St. Louis & San Francisco will of course use the terminals jointly.

Meeting .- The shareholders will take formal action Sept. 7 on the purchase of the railroad property, corporate rights and franchises of the New Orleans Belt & Terminal Co.

New Paltz & Poughkeepsie Traction Co.—Sold.—At the foreclosure sale on June 29 this company's road, which connects with the line crossing the Poughkeepsie Bridge, was bid in for \$20,000 by Charles J. Rowe, a New Jersey lawyer representing some bondholders. The Franklin Trust Co. was the trustee under the \$100,000 mortgage.—V. 76, p. 1085.

New York New Haven & Hartford RR.-Freight Rates Increased.—An increase in local freight rates of from 1 to 2 cents a hundred pounds went into effect on July 1. There will also be a readjustment of coal rates. President Hall makes the following statement to shippers:

also be a readjustment of coal rates. President Hall makes the following statement to shippers: The increase amounts to 2 cents per hundred pounds on the three higher classes and 1 cent per hundred pounds on the three lower classes. This action is taken to reimburse the road, to a small extent, for the enormous increases in cost of operation brought about during the past two or three years. Coal has cost us approximately \$2,000,-000 more for the year ending Jane 30, 1902, than for the previous year, and while it is true that "famine prices" for coal do not now pre-val, nevertheless at present prices it will cost the road for the year ending June 30, 1902. The abeen frequently stated that this company has not sufficient equipment. In response to this I would say that between 5,000 and 6,000 new freight cars have been purchased, about half of which are yet to be delivered, at prices averaging 65 p. c. per car more than the cost for the same car three years ago; 150 passenger coaches and some parlor sleeping cars have been ordered, at an increased cost, compared with three years ago, of about 65 p. c. Locomotives are about 40 p. c. higher. We are called upon to epend a large amount of money for the elimi-nation of grade crossings, which expense does not add at all to our earning power, and the saving in flagmen is such a very small per-centage of the interest on the cost of elimination that it cannot be figured. Also, in order to prevent a strike, increases in wages to em-ployes were made in May, which increases ad \$1,000,000 per annum to cur pay roll. It is estimated that the increased revenue obtained from this ad-vance in freight rates will not begin to offset the single item of in-crease in wages, and the road is still left in the position of paying manufacturers very largely increased prices for purchases made from them without making a sufficient advance in its freight rates to take care of such advances in the prices of manufactured articles.--v. 76, p. 1301, 973.

New York & Ottawa RR.—Receiver's Certificates Ex-tended.—Judge Lacombe, in the United States Circuit Court, has signed an order extending the date for the payment of the \$585,000 receiver's certificates from July 11, 1903, to Jan. 1, 1904.-V. 76, p. 1085.

Newton (Mass.) Street Ry.—New Stock.—The company has petitloned the Massachusetts Railroad Commission for authority to issue \$185,000 additional capital stock for im-provements and additions.—V. 73, p. 1112.

Omaha & Council Bluffs RR. & Bridge Co.-Mortgage.-A consolidated mortgage for \$2,000,000 has been made to the Central Trust Co., as trustee. Of the new bonds, \$900,000 will be pledged with the Morton Trust Co. as part security for the bonds issued in 1902 by the Omaha & Council Bluffs Street Ry. See page 67 of STREET RAILWAY SUPPLEMENT.— V. 69, p. 492.

Oneonta Cooperstown & Richfield Springs Ry.-Receiver-ship Suit.-The Knickerbocker Trust Co., as mortgage trustee, has applied to Justice Glegerich, in the Supreme Court, for the appointment of a receiver, pending foreclosure, inter-est on the \$1,500,000 bonds being in default.--V. 76, p. 1356.

Pennsylvania & Northwestera RR.-Consolidation.-The stockholders will meet July 17 for the purpose of ratifying the consolidation plan, which is referred to above under caption "Cambria & Clearfield Ry."-V. 74, p. 428.

Pennsylvania RR.—Stock Virtually All Taken by Share-holders.—The company announced on Monday that the \$75,000,000 new stock had practically all been taken by the shareholders (issue price 120) and that 90 p. c. of it had been paid for in full,

New Certificates.-The certificates for the new stock will be ready for delivery on the 15th inst. to holders of full-paid allotment securities at the office of the company in New York or Philadelphia, according to where the original subscription was made.

Payment of Loans .- From the proceeds of the new stock the company has been liquidating the \$40,000,000 notes due this month.

Consolidation.-See Cambria & Clearfield Ry. above.-V. 76, p. 1408, 1356.

Pere Marquette RR.—See Haron Erie & Baffalo Ry. above.—V. 76, p. 1356, 1249.

Philadelphia Rapid Transit Co.—Contract.—A contract has been closed with Westinghouse, Church, Kerr & Co. for 15,000 k.w. of steam turbine and approximately 50,000 k.w. of electrical generating and converting machinery. The steam turbines are to be used in the new central power station, which will be located near the foot of Green St., Delaware River. It is laid out for an ultimate capacity of 50,000 k. w. and will cost it is stated \$1,500,000. It will supply power to the Market St. subway and elevated and also, it is said, for most of the surface lines in the city.

Opposition .- A number of street railway companies have recently been incorporated in Pennsylvania to build and operate in Philadelphia. Among those asking charter rights is the South Broad St. Ry. Co, This enterprise is promoted by the Clarence M. Wolf syndicate that purchased the charter of the Philadelphia & Trenton Rapid Transit Street Ry. for a line to enter Philadelphia by way of Torres-dale ayenge. At Philadelphia on June 30 Judge Willson in dale avenue. At Philadelphia on June 30, Judge Willson, in Common Pleas Court No. 4, refused to grant the latter cor-poration a preliminary injunction restraining the Twentysecond Street & Allegheny Avenue Passenger Ry. Co., which is leased by the Rapid Transit Co., from extending its line out Torresdale Ave. The Judge holds that the plaintiff company is admittedly not in a position to begin the construction of any railway, for the reason that while it has a State charter, which may be exclusive, it has not obtained the requisite municipal consent to begin work. The question is left at issue for determination upon final hearing upon the

bill and answer in September. George D. Widener, Vice-President of the Philadelphia Rapid Transit Co. says: "We have enough franchises and do not fear this threatened competition." (Compare V. 76, p. 654). V. 76, p. 1301, 1144.

Pittsburgh & Lake Erie RR.-New Stock.-The shareholders have approved the proposition to increase the capi-tal stock from \$8,000,000 to \$10,000,000, to meet the cost of new equipment and improvements to the road bed. Stockholders of record July 31 are offered the right to subscribe pro rata to the new stock at par, payment to be made at the time of subscription.-V. 76, p. 1404, 973.

Presidio & Ferries RR., San Francisco.—Called Bonds.— The California Safe Deposit & Trust Co. of San Francisco will pay on July 15 the following bonds, viz.: Nos. 5, 16, 36 43, 48, 54, 102, 131, 143 and 147.—V. 76, p. 436.

Public Service Corporation, New Jersey.-Wages.-The time of work for motormen and conductors (on some lines heretofore as high as twelve hours a day) has been reduced to ten hours, and an increase of about 11 per cent has been granted in wages.

Power House.-The company is arranging to build a great power house, which will probably be located on made land near the Hackensack River in Jersey City. The Public Service Power Co., with headqurters in Newark, was recently incorporated under New Jersey laws with authorized \$1,250,-000 capital stock. Comptroller Young of the Public Service Corporation, however, replying to our request inquiring for data concerning the bonds and stock, says: "We have no information on this subject, as we do not know of any such company." The incorporators were: Charles A. Greene, Ger-ald A. Griffin and Joseph Gerrardt.-V. 76, p. 1249, 1143.

Quebec Bridge Co.-See Quebec Terminal & Railway Co. below.-V. 71, p. 603; V. 70, p. 946.

Quebro Terminal & Ry.-New Name, Etc.-The Railroad Committee of the Dominion Parliament has reported favorably on the application of the Quebec Bridge Co. for a charter, with authority to change its name to the Quebec Terminal & Railway Co.; also to construct a railway from the bridge to Quebec, and a connection with the Canadian Paoific, and on the south side of the river to a junction with the Intercolonial and Grand Trunk railways at Chaudiere.-V. 71, p. 603; V. 70, p. 946.

Raritan River RR.-New Trustee.-The New Jersey Title Guarantee & Trust Co. has been made trustee under the mortgage of 1889 (to succeed the Holland Trust Co.) and will pay the coupons at its office, No. 83 Montgomery St., Jersey City.-V. 68, p. 578; V. 48, p. 562.

Reading Company.—Possibility of First Dividend on 2d Preferred.—The Philadelphia "Ledger" on June 27 said: "The Reading Company, at its Angust meeting, will, it is said, declare a first dividend of 4 p. c. on its second preferred stock. This statement was made yesterday on the anthority of a heavy stockholder, who has been advised by the Read-

ing's officials that the dividend will surely be declared. "The earnings for the fiscal year, which will end on June 30, an official of the company said yesterday, will show a surplus of at least \$4,500,000 above all fixed charges. The first preferred stock amounts to \$28,000,000, and the second preferred to \$42,000,000, making \$70,000,000 upon which a 4 p. c. dividend cau be declared. The dividend would take only \$2,800,000, and this can be paid out of the earnings and yet leave at least \$1,700,000 as surplus. "One of the company's officials said yesterday:

"I can't see how the payment of a dividend on the second preferred stock can well be avoided. The money has been earned, and after the fixed charges are paid the surplus must go toward dividends. It cannot be spent on betterments, as the terms of the reorganization

cannot be spent on betterments, as the terms of the reorganization forbid any such expenditure. "The declaration of this dividend would not mean a dissolution of the voting trust and the handing over of the road to the stockholders. Under the terms of the reorganization, the voting trust is to be dis-solved after four successive semi-annual dividends of 2 p. c. on the first preferred shall be declared. "The reduction of the semi-annual'dividend on the first preferred from 2 p. c. to 1 p. c. last August was said to be due to the company's losses by the coal strike. The declaration of a dividend on the second preferred would not affect the voting trust or necessarily hasten its dissolution."—V. 76, p. 393, 332.

Rutland RR.-Dividend.-The directors, it is learned, have decided to pass the regular semi-annual dividend and to apply the surplus earnings to improvements.-V. 76, p. 47.

St. Clair Madison & St. Louis Beit RR.—Sale.—See Ter-minal RR. Association of St. Louis below.—V. 76, p. 811.

St. Louis & San Francisco RR.-New Orleans Terminals, See New Orleans Terminal Co. above.

Consolidation.-See Chicago St. Louis Memphis & New

Orleans Ry. above. Stock.—The company's common stock, issued or issuable. has been increased from \$29,000,000 to \$30,808,000, of which \$27,222,200, as shown last week, is owned by the Rock Island Company.

New Securities Ready .- The holders of deposit receipts for common stock deposited under the circular of May 12, 1903, are now receiving the new bonds and stock to which they are entitled at the office of J. P. Morgan & Co., 28 Wall St. Mortgage.—See Denver Enid & Gulf Ry. above.—V. 76, p. 1302, 1249.

St. Louis Transit Co.-Contract for Power.-See Union Electric Light & Power Co, under Industrials below.--V. 76, p. 1356, 1302.

San Pedro Los Angeles & Salt Lake RR.-Meeting.-The shareholders at a meeting in Salt Lake City on Wednesday were to ratify, first, the action of the board of directors indeciding to purchase certain lines of railroad from the Oregon Short Line RR. Co., the new East Tintic Ry. Co., the Utah & Pacific RR Co. and the Utah Nevada & California RR. Co.; second, the creation of a bonded indebtedness and the

co.; second, the creation of a bolded indeptedness and the execution of a deed of trust to secure the bonds. *Cregon Short Line Furchase, Etc.*—The negotiations for the transfer to this company of the portion of the Oregon Short Line south of Salt Lake City were concluded this week. The Union Pacific receives \$7,800,000 in cash for atout 550 miles of the Short Line, and \$10,200,000 is paid for the Los Angeles and San Pedro terminals and for the road heretofore completed and acquired extending from Los An-geles to Riverside, Cal., and for equipment, etc. The length of the entire line from Salt Lake to San Pedro will be about 850 miles, and branches will make the total mileage about 1,100 miles.

Under the authorized mortgage of \$50,000,000, there will be issued \$40,000,000 of bonds to fund the cash payment for the Short Line and the other properties mentioned, and to complete the system to Caliente, Nev. From San Bernardino to Daggett, Cal., 90 miles, the Atchison tracks will temporarily be need. (See V. 76, p. 1193.)—V. 76, p. 1356, 1193.

Sheboygan & Elkhart Lake (Electric) Ky.-Mortgage.-A mortgage has been filed to the Newark (N. J.) Loan & Trust Co., as trustee, to secure \$700,000 bonds.

Southern Ry.-Guaranteed Bonds.-See New Orleans Terminal Co. above.-V. 76, p. 1250, 866.

Southwest Missourl Electric Ry.—New Securities.—This company's lines connect Carthage, Carterville, Webb City, Joplin, Mo., and Galena, Kan. At the present time the capital stock is \$800,000 and the bonded debt \$800,000. After Sept. 1 the anthorized capital stock will be \$1,500,000 and the amount

outstanding will be \$1,150,000. A new mortgage securing an lssue of \$1,500,000 of refunding and extension bonds will be executed upon September 1. The bonds will be dated Sept. 1 and will be 20-year 5 per cents.

The Harrisburg (Pa.) Trust Co. will be trustee. Both principal and interest of the bonds will be payable at the National Bank of Commerce, New York. Of the authorized issue \$800,000 will be used to refund the present outstanding issues. The present \$800,000 of second mortgage bonds will be retired on Nov. 1. 1903, \$200,000 first mortgage divisional bonds on March 1, 1904, and \$800,000 first mortgage divisional bonds on July 1, 1904. The remaining \$700,000 will be issued for extensions and improvements from time to time. The company is building an extension of 3½ miles from Pros-perity to Duenweg and of 9 miles from Joplin to Carl Junction, and also is making extensive additions to its power plant equipment. The number of new bonds to be issued in connection with the above improvements has not yet been determined. A. H. Rogers is President and Treasurer, Joplin, Mo.: E. Z. Wallower, Vice-President, Harrisburg, Pa.; A. G. Knisely, Secretary, Harrisburg, Pa.-V. 76, p. 866.

Terminal RR. Association of St. Louis.—Purchase.—The question of purchasing the bridge across the Mississippi River at Alton, owned by the St. Clair Madison & St. Louis Belt RR., which would give to the Association complete control of the entrance to St. Louis from the East, has, it is stated, been referred to the board of directors of the Terminal Association for final action.-V. 76, p. 753, 480.

Toledo Railways & Light.—Expiration of Pool.—The Everett Moore pool, formed a year or so ago to hold 40,000 shares of the company's stock, expired on July 1, and it is stated will not be extended, the shares being now in strong hands.-V. 76, p. 436.

Vicksburg Shreveport & Pacific RR.—Status of Old Com-pany's Land Grant.—The lands were sold to C. C. Harvey for himself and associates, who have organized the Railroad Lands Co. The Circuit Court has confirmed the sale, but application for rehearing has been made and the cause goes over until the next term.-V. 75, p. 1199.

Wabash RR.-Interest on Debenture "As".-The regular semi-annual interest of 3 p. c. was paid July 1 on the de-benture "A" bonds, but nothing on debenture "B" bonds. President Ramsey is quoted as saying that the road has suffered a heavy loss recently through floods and through increased expenses, and that nothing need be expected by the debenture "B" holders before December.

Contracts.—President Ramsey was quoted on June 12 as follows:

Contracts amounting to \$10,000,000 will be awarded within the next 30 days for building new extensions and making improvements at Pittsburgh. This will include the building of the Greene County line from Pittsburgh to Belington, W. Va.; the extension to tide-water, the line from Oumberland to Cherry Run and the Sawmill Run branch of the local belt line. I confidently believe that trains will be running into Pittsburgh by Jan. 1.-V. 76, p. 1032, 974.

Wellington Grey & Bruce Ry.—Interest.—The directors announce that the estimated earnings for the half-year ending June 30th, applicable to meet interest on the bonds, will admit of the payment of £3 9a. 11d. on each £100 bond, viz.: £1 14s. in final discharge of coupon No. 43, due Jan. 1, 1892, and 15s, 11d. on account of coupon No. 44, due July 1, 1892.-V. 75, p. 1356.

Western Pacific RR.-Construction Company.-The West-ern Pacific Construction Co. has been organized under laws of Nevada with \$30,000,000 of authorized capital stock, to build this road. The incorporators were: James H. Swift of Oakland and E. H. Harmon, M. B. Maynard, D. K. McMur-ray and T. Otway Sadlier of San Francisco. See V. 76, p. 1194, 867.

INDUSTRIAL, GAS AND MISCELLANEOUS.

American Malting Co.-Amended Plan.-Under date of June 15, 1903, the reorganization committee, Frederick Uhlmann, Chairman, has amended its plan of reorganization (see V. 76, p. 595) in the following respects without disturbing its main features:

main features:
(1). While it has never been the wish or intention of the committee to interfore with any suits having for their object the recovery for the company of promoters' profits, or of sums alleged to have been improperly paid out in dividends, yet, in view of the arguments advanced to justify the opposition to the plan of March 5, the committee have deemed it proper to add to the plan a provision, expressly protecting all such suits against any possible prejudice or injury from the proposed reorganization.
(2). The committee having determined to accept no compensation for their own services, and the carrying out of this plan requiring no underwriting, the expenditures of the committee will be limited to the actual cost of the reorganization, the principal items of which will be the expense of printing, advertising, fees of counsel and trust company, and if a new company is formed, the expenses site nding its incorporation and organization and vesting it with the title to the Malting Company's plants and assets. These expenses will be plad by the new company, and thus the \$1,085,000 preferred stock and \$2,514,000 common stock remaining over as appears in the plan will be available for the purposes of the new company as its board of directors may determine.

may determine. (4). In lieu of the provision for a reorganization sinking fund, which is omitted, the amended than contains a provision permitting the new company, in the discretion of the board, from time to time, to pur-chase and cancel 6 per centgold mortgage bonds of the Maiting Co. (or bonds issued in their place or to provide for their payment), using for such purpose any funds which may, in the judgment of the direc-tors, be available, including enrying profits not required for the pay-ment of dividends in accordance with the provisions of the amended plan plan.

The time for making deposits of stock under the plan as amended has been extended to the 25th day of July, 1908.

Under the plan (see V. 76, p. 595), the present common stock will be exchanged for 25 p. c. of its face value in new common and the preferred shareholders will receive for their accumulated dividend 10 p. c. of their present holdings in new preferred and for the holdings themselves 25 p. c. in new preferred.

Opposition Continued. - The stockholders' committee, Joseph Leiter, Chairman, has sent a circular to stockholders objecting to the amended plan on the ground that the objections against it are the same as against the old plan. The committee contends that the company needs new man-agement more than anything else.—V. 76, p. 1409, 595.

American Pneumatic Service Co.—Proposed Bond Issue. -The Boston "Financial News" says:

-The Boston "Financial News" says: The statement that the American Phenmatic Service Co. is to shortly issue \$1,000,000 of bonds to provide money for new construction is only partially correct. The exact amount of the bond issue is \$1,-250,000, but the directors will not issue them for some time, perhaps not until the early antumn, unless conditions should materially im-prove between now and then. The passage of the bill providing for the construction of the pnen-matic mail tubes in the city of St. Louis by the Missouri House of Delegates brings the matter before (the Governor and the bill awaits only his signature. In all 8 miles of tube will be constructed in St. Louis, and connections will be made between the main Post Oilice, the Union Station and East St. Louis. Construction work on the Chicago service will be in operation by September and the entire service by January 1. The company is in daily receipt of contracts for the installation of pneumatic-tube services in the new buildings that are being constructed in New York and other cities. Balance Sheets.—The balance sheets of December 31, it is

Balance Sheets.-The balance sheets of December 31, it is said, compare as follows:

survey compare no		~~ ~		
	1902.	1901.	1902.	1901.

-V. 70, p. 333.				

American (Bell) Telegraph & Telephone Co.-Listing.-The New York Stock Exchange has listed \$5,018,700 additional capital stock, making the total amount listed to date \$109,700,100. This additional stock (with the exception of \$500) is a portion of the \$32,142,600 stock formerly held by the American Bell Telereone Co., which still holds the re-

mainder, viz., \$27,124,400. Earnings.—The earnings and expenses for the four months ended April 30, 1903, were:

Earnings- Dividends	Legal expenses 28,189
Total receipte\$5,926,646	Total

Net income\$4,179,525

Four months' dividend at the rate of $7\frac{1}{2}$ p. c. per annum on the \$109,700,100 stock listed as above calls for \$2,742,500 and on the stock as increased by the recent offering to about and on the stock as increased by the recent onering to about \$131,650,000 (CHRONICLE of June 20, page 1356) for \$3,291,0(0. Control of Independent Switchboard—A suit brought in Cleveland discloses the fact that this company, through the Western Electric Co., has obtained control of the Kellogg Switchboard & Supply Co., which, it is said, supplies the greater part of the switchboards used by the independent talebare companying. Prevident Kellogg and others are on telephone companies. President Kellogg and others are endeavoring to obtain an injunction from the United States Circuit Court to prevent the purchaser from voting the majority stock. on the ground that it was sold during the absence of Mr. Kellogg, the owner, in California, and without his knowledge, by the Vice-President of the company, in whose keeping it had been left.

Pupin Patents.—A recent issue of the "Scientific Ameri-can" contains an article on the "astonishing" results ob-tained by means of the Pupin device, which this company controls in the United States.—V, 76, p. 1356, 1145.

Bay State Gas Co. of Delaware.-Attachment.-Receiver George W. Pepper, in his efforts to recover control of this company's assets, which were sold under foreclosure and purchased for the Massachusetts Gas Companies, filed at Boston on June 23 an attachment for \$15,000,000 on the property of the several operating companies in a suit naming the latter, the reorganization committee and others as defendants.-V. 76, p. 1357, 1303.

British American Tobacco Co.—See Consolidated Tobacco Co. below.-V. 76, p. 1145, 868.

Chesapeake & Delaware Canal Co.—*Keport.*—The report or the years ended May 31, 1903 and 1903 compare as below: Fear. Tolls. 1902-03....\$127,778 1901-02.... 129,274 Oth. inc. Maint'nce. \$3,530 \$47,310 7,559 43,703 Deficil. \$15,118 10,987 Interest. \$104,118 104,118

The deficits were met from the contingent fund, which on May 31, 1903, amounted to \$43,280. The capital stock is \$1.903,238; mortgage loan, \$2,602,950; bills payable, \$10,000. -V. 69, p. 26.

City of Chicego Brewing & Malting Co.-Eusiness.-For the half-year ending March 31, 1903, the sales were 167,809 barrels, an increase of 4,555 barrels over 1901-02; but the directors deem it best not to declare an interim preference dividend.-V. 76, p. 1032.

Commercial Cable Co.- Opening of Pacific Cable.-The company's Pacific cable, extending from Manila, via Gnam and Midway Islards, to San Francisco, will be formally opened to-day, President Roosevelt and Gov. Taft, King

Edward of England and Emperor William of Germany par-ticipating in the ceremonies.-V. 76, p. 544, 541.

Consolidated Gas Co. of Baltimore.-Offering.-The Colonial Trust Co. of Baltimore is offering at 100 and interest, from July 1, \$500,000 5-10-year 4½ per cent gold certificates. These certificates are the final issue of \$500,000, completing the three authorized issues of \$500,000 each. They are coupon gold certificates of \$1,000 each, with privilege of regis-tration of principal, dated July 1, 1903, principal due July 1, 1913, redeemable at any interest period after July 1, 1908; interest payable semi-annually, January and July. The earnings of the company for the last fiscal year were double its fixed charges. The purpose for which these certificates were issued, the enlargement of the plant made necessary by the increased consumption of gas, is now nearly com-pleted, giving "one of the best equipped and most modern plants in the country, and ability to meet the heavy in-creased output of product—by far the largest in the com-pany's history."—V. 76, p. 50.

Consolidated Lako Superlor.-Loan.-The Speyer & Co. loan of \$5,350,000 fell due this week, and negotiations for au extension, it is understood, are in progress. Nothing defi-nite regarding the matter could be learned as we go to press, but it is said the company desires to increase the loan by \$2,000,000.-V. 76, p. 1410, 1032.

Consolidated Tobacco Co.—German Business.—An English linancial paper says:

inancial paper Says: The past year's trading of the Jasmatzi Company of Dresden, which is controlled by the American company, shows an increase in the company's inland sales of eigareites to the extent of 57 per cent and in the exports by 715 per cent, and a considerable advance was, also noticed in the turnover of tobacco; but after providing for the expense of advertising and propaganda, reserve and depreciation, the year shows net profits amounting to only £1,390, which does not allow of the payment of a dividend. It is expected that the daily output of oigarettes will be increased to over 3,000,000 on the completion next month of the constructional alterations at the factory.

Acquisitions.—A press dispatch from Louisville says:

The purchase of the tobacco rehandling plant of W. S. Mathews & Sons by the British American Tobacco Co. has been finally closed. The Mathews family received over \$150,000 in cash for the business, and also retained a large amount of stock in the new company, which was recently organized with a capital of \$400,000.

The T. C. Williams Co. of Richmond was reported as pur-chased by the British-American Co. (V. 76, p. 1145), but the Continental Tobacco Co., we understand, was the real pur-chaser.-V. 76, p. 1410, 921.

Eastern Milling & Export Co.—Default.—The semi-annual interest due July 1 on the \$800,000 of 5 p. c. bonds was not paid when due. President Locher expresses the belief that the payment will be met within the three months which must elapse before foreclesure can be begun,-V. 76, p. 1145,

Houston (Tex.) Water Co.—Offer Declined.—The company has declined the offer of the city to pay \$750,000 for the plant. President T. H. Scanlan, under date of June 19, says:

plant. President T. H. Scanlan, under date of June 19, says: Under the contract between this company and the city the property could be acquired by the city at such price as a board of appraisers might fix. The city selected one appraiser, the water company one, and these two selected the third man from a list of names furnished by the city. These gentlemen thoronghly investigated the value of the property, and, as \$750,000 is much less than the value fixed by them, this company could not, if it was so disposed, entertain your offer. The city can well afford to take the property at the value fixed by the appraisers, \$1,081,222. The bonded debt is \$467,000, bearing 6 per cent interest and having forty years yet to run. The property would of course be taken by the city subject to this debt. There would then be only necessary for the city to issue \$614,222 of 5 per cent bonds to pay for the plant. It was proven to the appraisers that from the earnings of last year this company paid all its operating ex-penses, including taxes, and paid 6 per cent interest on the \$467,000 bonded debt and had left \$41,000, which was epent in improvements. Not one dolar was paid by this company to its stockholders as divi-dends for thirteen years. All earnings have been invested in the bet-terment of the plant as fast as earned.-V. 75, p. 796. Independent Gas & Power Cc., San Francisco.-Sale-

Independent Gas & Power Ce., San Francisco.—Sale— Consolidation.—A press dispatch on July 2 says:

Clans Spreckels has sold the Independent Gas & Power Co. and the Independent Electric Light Co. plants and franchises to a local syndi-cate which has been working for consolidation of all the lighting com-panies of San Francisco for \$6,000,000. The completion of this deal brings all the gas and electric companies under one head, which will result in a great reduction of operating expenses.

The purchaser, according to another despatch, is the San Francisco Gas & Electric Co., which, it is stated, has de-posited \$500,000 as part payment.-V. 76, p. 975,

Ingersoll Sergeant Drill Co.-Mortgage.-The company has made a mortgage on its property to the City Trust Co., the Earl of Kintore and Henry James Lubbock, as trustees, to secure \$1,250,000 of 5 p. c. gold bonds. This issue secures the debenture stock offered last April.-Compare V. 76, p. 922.

Massachusetts Has Companies.—Litigation.—See Bay State Gas Co. above. - V. 76, p. 1358, 1304.

Miami & Erie Canal Transportation Co.-Trial Trip.-An inspection of the line was made on June 25 by a large party of public men in an open boat, which with two heavily laden freight boats was pulled by the "electric mule." Regular daily service is to be established at once between Cincinnati, Lockland and Hamilton, the speed of the boats being about four miles an hour.

Receivers.—At Cincinnati on July 2 Judge Hosea of the Superior Court on the application of Rueble Brothers, cred-itors, appointed W. Keeley Schoepf, President of the Cin-cinnati Traction Co., and Charles C. Richardson, receivers of the company. Eight months' delay in the delivery of the electric motors and lack of water in the canal for about three months are mentioned as contributing to the com-nancia embary W_{76} p 1088 pany's embarrassment.-V. 76, p. 1088.

Michigan Telephone.-Earnings.-The Treasurer's report for 1902 shows: Gross earnings. \$1,549,531; expenses, \$1,-632,230; deficit, \$82,699; total deficit to date, \$501,296; loans and bills payable, \$3,538,176. The expenses, it is understood, include large outlays for extensions and additions.-V. 76, p. 923, 657.

Missouri Edison Co.-Change in Control.-Consolidation. -See Union Electric Light & Power Co. of St. Louis, below. -V. 76, p. 923.

Nassau County fas Co. of Hempstead, N. Y.-Mortgage.-A mortgage has been made to the Union Trust Co., as trustee, to secure \$250,000 of 5 p. c. gold 30-year bonds. At last ac-counts the capital stock was \$100,000. The company supplies Hyde Park, Floral Park, Mineola, Garden City, Hempstead, Freeport, Baldwin's, Rockville Centre and East Rockaway. Annual output reported as about 16.000 000 c. f.; price, \$1 50 per thousand feet. President, M. F. Wood, 1406 Common-wealth Building, Philadelphia.

National Bread (o.—Receiver Applied for.—On applica-tion of Sylvanus J. Williams of Jersey City Vice-Chancellor Stevenson, at Trenton on July 1, granted a rule to show cause why a receiver should not be appointed. The total assets, including machinery and fixtures, it is alleged, are less than \$5,000; liabilities. \$3,333 The company was in-corporated in July, 1901, with \$3,000,000 authorized oapital stock (see V. 74, p. 330).—V. 74, p. 1811.

New England Cotton Yarn Co.—Plan.—A committee con-sisting of William W. Crapo, N. P. Hallowell and Richard M. Saltonstall announces a plan of reorganization which calls for the formation of a new company under the laws of Massachusetts to succeed to the assets of the existing New Jersey corporation.

The plan provides that the present bonded debt shall remain undisturbed, but in place of \$5.000.000 of 7 p. c. cumu-lative preferred stock there is to be \$2,000,000 of 6 p. c. noncumulative preferred, while the common stock is to be re-duced from \$5,000,000 to \$3,900,000. The stock of the new company will be applied as follows:

1,500,000

preferred on payment of 30 p. c. assessment. As part consideration for existing \$5,000,000 common stock on payment of 10 p. c. assessment..... 500,000

New common slock. Of which as part consideration for existing preferred 3,900,000 paying asseesment. As part consideration for existing common paying 3,500,000 assessment . 400,000 The terms of exchange are as follows :

	L'UIJ8	-Anto r	cucues
Euch \$100 of-	Asseess.	New pref.	New com.
Present pref. stock, \$5,000,000.	x\$30	880	\$70
Present com. stock, \$5,000,000 .		10	8
			Ŭ

x Payable within 30 days after request from the committee.

An underwriting syndicate has been formed to provide the \$2,000,000 cssh necessary to take up the floating indebt-ness and to make payments not made by the stockholders under the plan. The assessment, it is said, will save as in-terest on floating debt about \$100,000 per annum. The net earnings after all operating expenses, interest and taxes for the past four years have averaged over \$700,000 per year, which, on the basis of fixed charges of the new company would, it is said, mean surplus earnings of over \$840,000 per annum. The only fixed charge will be the interest on mortgage bonds, \$259,100, besides which, however, must be met the sinking fund and renewal payments. The new company, it is stated, will have about \$3,000,000 of net quick assets.

Stockholders have until July 14 to deposit their securities. Kidder, Peabody & Co. state that they own 5,000 shares of preferred stock, their holdings having remained practically unchanged for two years. They propose to accept the plan offered by the reorganization committee, believing that it will afford the relief the company now needs. Compare V. 76, p. 1358, 1304.

Norfolk-Hampton Roads Shipbuilding & Dry Dock Co.-Furniture Sold for Debt.—At Norfolk, Va., on June 29, the company's office furniture was sold at auction for \$103 to satisfy a debt of \$880 held by Ferdinand Haenselman, a surveyor, who plotted the tract bought by the company near Sewell's Point.-See V. 76, p. 658.

Public Service Power Co.—See Public Service Corpora-tion under "Railroads" above.

Rogers Locomotive Works, Paterson, N. J.-New Stock. -The capital stock has been increased from \$1,600,000 to \$2,000,000, both the common and the preferred being raised from \$800,000 to \$1,000,000. The new shares are to be of-fered at par, the proceeds (\$400,000) to reimburse the company for money spent on improvements, etc. The preferred is 6 p. c. cumulative, and after 6 p. c. on common shares pro rata with the common in any additional distributions.-V. 76, p. 814.

San Francisco Gas & Electric Co.-Purchase.-See Independent Gas & Power Co. above.-V. 76, p. 977, 970.

Standard Butterine Co.—Sold.—On June 28 this com-pany's property was sold at receivers' sale for \$71,000 at Langdon, D. C., to a syndicate of the security holders, who, it is said, will form a new company with a capital of \$100,-000. The factory is said to have a capacity of 1,000,000 pounds of butterine a month and the ice plant a capacity of 15 tons a day.-V. 76, p. 709.

Staten Island Ferry Co.-City to Purchase.-The Sinking Fund Commission of the City of New York, under the law passed at the last session of the Legislature, on Thursday de. cided to purchase the terminals and boats of the Staten Island Ferry. Commissioner Hawkes was directed to submit two plans by Sept. 15, one providing for operation of the ferry by the city and the other providing for a lease to an op-erating company for a term of years, to be fixed later. The plan as approved calls for an expenditure of \$3,200,000, of which \$2,000,000 is for boats and the remainder for the ter-minal and approach at St. George. -V. 76, p. 1412.

Suburban Gas & Electric Co., Revere, Mass.-New Stock. The Massachusette Gas Commission has authorized the issue of 1,590 additional shares of stock at \$110 per \$100 share, to provide for improvements and additions. This, it is understood, will make the outstanding stock \$453,000.-V. 73, p. 88.

Union Electric Light & Power Co. of St. Louis, Mo.-Bonds Offered.-N. W. Harris & Co., of New York, Chicago and Boston, own and offer at par and interest \$2,000,000 first mortgage 5 per cent 30-year \$1,000 gold bonds. dated Sept. 1, 1902, and due Sept. 1, 1932, without option of prior pay-ment; interest payable March 1 and Sept. 1 in New York or

St. Louis. Mississippi Valley Trust Co., S[†]. Louis, trustee. "Control of the Missouri Edison Electric Co. has been secured and consolidation proceedings instituted. The Union Electric Light & Power Co. will thus own and control prac-tically all of the electric lighting business of the city of St. Louis. The company is owned by interests represented by the North American Co. of New York and the Mississippi Valley Trust Co. of St. Louis, insuring a strong management

both financially and techically." Charles W. Wetmore, Vice President, in a letter to the bankers, says under date of June 15:

both financially and techically." Charles W. Wetmore, Vice President, in a letter to the bankers, says under date of June 15: The company is a consolidation of the Imperial Electric Light Heat 4 Power Co. and its allied companies with the Citizens' Electric Lighting & Power Co. Its present owners have acquired by purchase 53 p. c. of the capital stock of the Missouri Edison Electric O., and are arranging for a consolidation of the Missouri Edison Electric O., and are arranging for a consolidation of the Missouri Edison Electric O., and are arranging for a consolidation of the Missouri Edison Electric O., and are arranging for a consolidation of the Missouri Edison Electric O., with the Union Electric O., subject only to \$4,000,000 bonds closed mortgage) on the property of that company. The proceeds of the Missouri Edison Electric Co., subject only to \$4,000,000 bonds closed mortgage) on the property of that company. The proceeds of the bonds at present issued and to be issued during the year will be used for the purpose of reciting element of a large contraction them being the creasing the plant, the chief construction them being the creasing the plant, the chief construction them being the creasing the plant, the chief construction them being the creasing A2,000,000; common, \$5,000,000, of which \$5,300,000 is in the treasent; Atthorized bond issees, \$10,000,000, viz: present issue, \$2,000,000; to be issued during the year, \$2,000,000; the second additions, \$2,000,000; to be issued during the year, \$2,000,000; the second additions, \$2,000,000; to be issued at least \$600,000, with the dirive phylose of the company to supply the latter with approximately 12,-000 preserved to retive a like amount of Missouri Edison bonds, \$4,-000, preserved to retive a like amount of Missouri Edison bonds, \$4,-000, preserved to retive a third amount of Missouri Edison bonds, \$4,-000, onces, \$10,000,000; presentive phylose is the the second is a lower is a constructive 12, 12,-000 prese power. See advertisement on another page (xiv) and report of North American Co., V. 76, p. 1360.-V. 75, p. 1258, 851.

United Box Board & Paper Co.-Litigation.-Forrest G. Weeks, President of the Oswego Falls Pulp & Paper Co., Falton, N. Y., on June 80 brought a suit to cancel the deeds conveying its mills to the United Company, and for an order restraining the mortgaging of the property, on the ground that the acquisition of the Oswego company's plants was brought about by false representations. Lawrence & Hughes, counsel for the United Company, yesterday made a statement, saying in substance:

ment, saying in substance: The officers of the Box Board Company do not understand the atti-tude taken by Mr. Weeks and his friends, as they were perfectly cog-nizant of everything that took place at the time of the formation of the combination. Mr. Weeks received for his Oswego plant \$885,558 of preferred stock, which represents real estate, mills, factories and cash assets and \$738,785 of common stock representing earning power and good will. While the Oswego plant is splendidly equipped,

it is not as large as several others of the 25 plants that go to make up the Box Board Company. Mr. Weeks and his friends have been dis-satistical ever since the Box Board Company did not declare its quar-terly dividend on the preferred stock in April of this year. We are informed that while the company is doing an excelleni busi-ness it will not declare dividends for at least six months, or until a sufficiently large each working capital is accumulated. The company is now earning over \$75,000 net a month. Friends of the United Company believe that the suit will be dis-missed when it is called for trial in October.-V. 76, p. 1038, 977.

United Fruit Co.-Foreign Business-New Vessels-Bonds. The following from the "Boston News Bureau" has been

officially revised for the CHRONICLE :

officially revised for the CHRONICLE : President A. W. Preston has returned from a trip abroad. While there contracts were entered into in behalf of the Elder-Fylfes Ship-ping Co. (all of which stock is owned by the Elder & Fyffes Fruit Co. in which the United Fruit Co. owns 45 p. c. of the stock), for the con-struction of three new steamships to cost \$1,000,000. The transporta-tion of fruit between the tropics and England requires high grade vessels, capable of sustaining a high speed, and such vessels are dill-cult to obtain for long-term charters, except at a high cost. President Preston arranged for the Elder & Fyffes Shipping Co. to issue \$1,000,000 bonds to pay for the new vessels, 75 p. c. of which bonds will be taken by the shipbuilding company, and through the operation of the vessels a sinking fund will be provided which will pay for the boats in ten years. In chartering the boats, at the end of ten years the company would have nothing for their expenditure ex-oept the service rendered, whereas, under the present plan, at the end of ten years the company will have the service and will own the boats. With the building of three additional steamships, the Elder & Fyffes fleet will consist of 11 boats, which will permit of a weekly service, as compared with a fortuichily service at the present time. The English Co. has had a good year. The year ends June 30 and net earnings are estimated at 18 p c. upon the capital of £272,000. The company will probably pay a dividend of 6 p. c. upon its stock, devoting the balance to innorovements and extensions. As the United Fruit Co. owns 45 p. c. of the £272,000 stock of the Elder & Fyffes Co., it will receive as its share of the earnings \$36,740. President Preston says : We have exported to England over 2,000,000 bunches of bananas this year and this is but a drop in the bucket as compared with the possibilities of Europa as a consumer of bananas, now that we have demonstrated our ability to transport the fruit in good condi-tion.

United States Cotton Dack Corporation.—Readjustment Plan.—S. Davies Warfield, J. William Middendorf, Gustavus Ober, H. A. Orrick and Thomas M. Turner, as readjustment managers, announce the following plan, which is based on reported net earnings of the two companies from operations for the calendar year 1902 of \$1,050,739, to be verified by expert accountants. The features considered essential to a successful plan are :

That the companies should be merged and all securities issued by one and the same company.
 That sufficient cash capital should be raised to enable the prop-erties of the Mount Vernon-Woodberry Cotton Duck Co. to be operated economically and successfully.
 That the income bondholders and common stockholders should supply the capital necessary to give value to the new securities.
 That the new securities should have a recognized market value.

The plan provides for the creation of the following new securities :

500,000 825,000 To remain in treasury.. First preferred stock, 5 p. c. cumulative..... Of which as part consideration for income bonds (see 7,850,000 **6,000,000** 1,850,000 above). -----To remain in treasury 6,000,000

Second preferred stock, 5 p. c. non-cumulative..... Of which as part consideration for 60 p. c. of com-mon stock (see above, also below)

Common stock (40 p. c. of existing common) The terms of exchange are as follows :

Holders of each \$1,000 of-Mt. Vernon incomes (\$6,000,000)...\$250 U. S. pref. stock (\$2,750,000).....None U. S. common (\$10,000,600)..... 50 Out of the corriger for the And receives Bonds. 1st pref. 2d pr \$250 \$1,000 2d pref. Com. 1,000 \$600 \$400 50

6,000,000

4,000,000

Out of the earnings for the year 1902 (\$1,050,739), \$217,000 was paid for interest on floating debt and \$79,000 for extraordinary repairs to the hydraulic plant at the Tallassee Mills. With the \$2,000,000 of cash capital provided under the plan and with the reduction already made in the floating debt of the Mount Vernon-Woodberry Cotton Duck Co., it is esti-mated that the interest on bank loans should not exceed 550,000 per appund. There therefore remains 41,000 520 \$50,000 per annum. There therefore remains \$1,000,739 available for fixed charges and dividends. The fixed charges will aggregate \$614,250, as follows: Interest on underlying bonds U. S. Cotton Dack Corporation, \$11,750; interest on anderlying bonds Mount Vernon-Woodberry Cotton Dack Co. and \$7,000,000 1st mort. bonds outstanding, \$365,000; interest on new first mortgage bonds U.S. Cotton Duck Corporation, \$237,500. Interest at 5 p. c. on \$6,000,000 new first preferred stock would be \$300,000, leaving a final surplus of \$86,489.

The acquisition of the preferred stock of the capital Corporation will bring that company \$900,000 of net quick Corporation will bring that capital thus acquired. "Results from increased capital enabling the corporation to make effective contemplated improvements will follow, but they cannot be immediately expected." The necessary steps to a uthorize the issue of the new securities are now being

taken. When this has been done, holders of the above-named securities will be requested to deposit their securities in accordance with the plan. While it is proposed to use the charter of the United States Cotton Duck Corporation, with certain necessary amendments, it may become necessary to incorporate a third company, and provision to cover this contingency is therefore made part of the plan,-V. 76, p. 1359, 1253

United States Leather Co-Time Extended .- The time for depositing the preferred shares under the plan (V. 76, p. 1196,) has been extended to and including Oct. 1.-V. 76, p. 1253, 1196.

United States Shlpbuilding Co.—Receiver Appointed.— Judge Andrew Kirkpatrick at Newark on July 1 appointed ex-United States Senator James Smith Jr. as receiver for the United States Shipbuilding Co. Under the decree Mr. Smith will at the outset have no control of the management of the subsidiary companies. He will simply manage the Shipbuilding corporation.

In announcing his decision for a receivership, Judge Kirk-patrick states his conclusion that the "corporation is insolvent under the law, and that its directors have not shown where they are about to take any steps to remedy the present condition of affairs. With its credit gone, and without funds to meet presently matnring obligations, it seems to be to the interest of the company and its etockholders, among whom are these petitioners, that a receiver should be appointed." The statement of the Treasurer of the company made in connection with the reorganization plan (V. 76, p. 1197) the Judge says proves the necessity for a receiver-ship. (See decision in "New York Times" of July 1.)

The reorganization committee believes that the receivership will not interfere with the carrying out of its plan of reorganization.

Samuel Untermyer, who represented the plaintiffs in the receivership suit, says the plan might properly be called a "plan of confiscation." At the same time he expresses the opinion that a foreclosure of the first mortgage is in no sense necessary or inevitable, as the Shipbuilding Company is, he claims, earning more than the interest on its bonds, while the Bethlehem Steel Co., he says, is withholding the surplus profits which ought also to be applied to the purposes of the Shipbuilding Company, and will shortly be so applied to prevent foreclosure.

Deposits.—The time for the deposit of the securities of the company with the City Trust Co. of New York, as depositary under the plan of reorganization of May 25, 1903, has been further extended until July 15, 1903.

Default.—Interest was defaulted July 1 on the \$14,500,000 first mortgage 6s.

"Protective Committee."-A committee consisting of Roland R. Conklin (135 Broadway), Chairman, Max Nathan and Jacob W. Mack asks the bondholders to co-operate in opposition to the aforesaid plan of reorganization. When the receiver has reported on the condition of the property "a plan will be presented by a committee representing the inter-ests of depositing bondholders which will give fair consider-ation to all interests."—V. 76, p. 1419, 1359.

United States Steel Co., Everett, Mass.—Bonds, Etc.—At a meeting of the shareholders in Boston on July 2, about 250 being present, it was voted to issue circulars asking the shareholders to subscribe to an issue of \$150,000 6 p. c. 10-year first mortgage bonds, on which, it is said, the International Trust Co. has agreed to advance immediately \$30,000. President Miller is quoted as having said that if these bonds were not authorized immediately the company was liable to be placed in the hands of a receiver, as money must be had for carrying on the enterprise. Recent business, it is stated, has been done at a loss, and there is reported to be a floating debt of about \$190,000, of which 145,000 is due to officials of the company.—V. 76, p. 334.

United States Steel Corporation.—To Act as President.-On Tuesday, on account of the ill-health of President Schwab, W. E. Corey, President of the Carnegie Steel Co., was appointed assistant to the President with authority to perform the active duties of the office of the President of the corporation. The official statement follows:

In consequence of the continued ill-health of the President, he has requested the appointment of an assistant to perform the active duties of the Fresident, and at to-day's meeting of the finance committee Mr. W. E. Corey, President of the Carnegie Steel Co., was appointed to such position.-V. 76, p. 1361, 1253.

Universal Tobacco Co. of New Jersey.—Mortgage.—A mortgage has been filed at Baltimore to secure \$1,000,000 6 p. c. bonds dated July 1, 1903, and due July 1, 1913; Union Trust Co. of New York, mortgage trustee. - V. 76, p. 1038.

-The Yale Club of this city has a "committee on business information," which has for its object the bringing together of Yale graduates who are seeking positions, and employers who require the services of industrious, intelligent, collegebred men. Applicants for positions of all kinds, professional and non-professional, report to the committee from time to time. Employers interested are requested to address George Parmly Day. Secretary of the committee, at the Club House, No. 30 West 44th St., New York City.

-Lawrence Barnum & Co., 27 Pine St., this city, are dis-tributing copies of their July circular containing a description of the various bonds-municipal, railroad, street railway, etc., which they have for sale.

FRIDAY NIGHT, July 3, 1903.

Owing to the holiday character of the week, business being suspended by many interests from Thursday evening, July 2, until Monday, July 6, there has been a comparatively small volume of trading between first hands. Stock taking and preparing for the second half of the calendar year also has had a tendency to hold active business operations in check. Although business in first hands has been temporarily quiet, there has been a marked improvement in the distributing business in seasonable goods, reflecting more satisfactory weather conditions. A strike of coal miners in Alabama, it is thought by some, may have a tendency to stimulate the demand for pigiron, but thus far it has failed to materialize.

Lard on the spot has continued to drag, exporters being slow buyers, and the demand from refiners has been of a small hand-to-mouth character. The undertone of the market has been easy and prices have declined, closing at 8'40c. for prime Western and 7'25@7'50c. for prime City. Refined lard has had only a very moderate sale and values have eased to 8'55c. for refined for the Continent. Speculation in lard for future delivery has been moderately active, the continued full hog receipts prompting selling, under which prices have weakened.

DAILY GLOSING PRICES OF LARD FUTURES IN OHIOAGO.

The demand for pork has been quiet and prices have declined to \$17 50@18 00 for mess. Cut meats have been quiet at unchanged prices. Tallow has been quiet but steady at 5c. Cotton seed oil has been steady, closing at 42@42½c. for prime yellow for July delivery. Butter has declined about 1c. per pound for the better grades, but the close was steady. Cheese and fresh eggs have been steady. Brazil grades of coffee have been dull and easy. The new

Brazil grades of coffee have been dull and easy. The new Brazil crop is coming to market freely, and with an indifferent trade demand and full stocks on hand prices have weakened for the better grades, closing at 5¼ c. for Rio No. 7 and 5% @6c. for Santos No. 4. West India growths have continued in full supply and pressed for sale; prices have been easy, closing at 8c. for good Cucuta. Speculation in the market for contracts was spiritless and prices have declined under limited offerings, prompted by the large crop movement. Following are the closing asked prices:

Raw sugars have been in slow demand and easier, closing at 3½@3 9.16c, for centrifugal, 96-deg. test, and 8c. for muscovado. 89-deg. test. Refined sugar has declined 5 points, closing at 4.80@5c. for granulated. Pepper has continued firm. Teas locally have been quiet.

Kentucky tobacco has been in fairly active demand, both exporters and the home trade being buyers, and prices have been firmly maintained. The demand for seed-leaf tobecco has continued light, but prices have held to a steady basis. Sales for the week include 500 cases 1902 crop Connecticut Havana seed. Foreign grades of tobacco have been in good demand and firm. The sales include 750 bales Havana and 700 bales Sumatra.

Business in the market for Straits tin has been quiet, and under moderate offerings prices have yielded slightly, closing at 27.87½@28.12½c. The demand for copper has continued to drag. The tone of the market has been easy, and at the close prices were lowered to 14c. for Lake. Lead has been quiet at 4.10@4.12½c. Spelter has been in small supply and prices have advanced to 6.12½@6.25c. Pig iron has been quiet but steady at \$19.50@20.00 for No. 1 Northern.

Refined petroleum has been steady, closing at 8.55c. in bbls., 10.50c. in cases and 5.65c. in bulk. Naphtha has been unchanged at 12.40c. Credit balances have been easier, closing at \$1 50. Spirits turpentine has been fairly active and firm at 50@501½c. Rosins have weakened slightly to \$2 05@ 2 07½ for common and good strained. Hops have been dull and easy. Wool has had a moderate sale at firm prices.

COTTON.

FRIDAY NIGHT, July 3, 1908, THE MOVEMENT OF THE CROP, as indicated by our telegran s from the South to-night, is given below. For the week ending this evening the total receipts have reached 19,558 bales, against 14,339 bales last week and 17,772 bales the previous week, making the total receipts since the 1st of Sept., 1902, 7,597,466 bales, against 7,332,869 bales for the same period of 1901-2, abowing an increase since Sep.1,1902, of 215,097 bales.

Speculation in cotton for future delivery has been fairly active, but there has been a weaker drift to values, the decline in prices being most pronounced in the near-by de-liveries. Followers of the New Orleans bull clique have been sellers to liquidate long contracts, and rumors have been current to the effect that there has been some dissension among the interests composing the bull clique. The demand from English and American spinners for actual cotton has been practically nil, they generally showing a disposition to resist the bull manipulation of prices, and have practically withdrawn from the market as buyers. According to reports current in the trade, the holders of cotton have shown a willingness to make liberal concessions from openly quoted market prices to induce spinners to buy, but it is understood that they have found few purchasers. Another development that has received some attention has been communications received from Southern Texas asking for bids on new-crop colton for August shipment. Private crop reports received during the week have advised a rapidly improving condition, the weather for the week being highly favorable. Friday the market was slightly easier early, reflecting weaker advices from Liverpool and favorable weather reports from the South. At noon the monthly Bureau report was received, making the condition of the crop on June 26th 77.1, against 74.1 last month and 84.7 last year. This condition was slightly higher than many of the trade expected, and as it was the general belief that the condition had improved since the report was compiled, there developed fairly free selling for both long and short account, under which values for both long and short account, under weakened. At the decline the leading bull interest was reported supporting the new-crop deliveries. The close was barely steady at a net decline for the day of 16@29 points. Cotton on the spot has been easier, closing at 1234c, for middling uplands.

On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the grades would be as follows:

UPLANDE.	Sat.	Mon	Tues	Wed	Th.	Fri.

FUTURES.—Highest, lowest and closing prices at New York.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night 'July 3), we add the item of exports from the United States, including in it the exports of Friday only.

WEATHER REPORTS BY TELEGRAPH. - Our telegraphic reports from the South this evening indicate that, as a rule, the weather has been favorable during the week, and that the condition of cotton is improving. Rain has been quite general, but on the whole beneficial to cotton, although in the closing days of the week the precipitation was excessive over the southern portion of Texas.

Galveston, Texas. - The crop in Texas was improving up to within the past forty-eight hours, when excessive rains oc-curred over the southern portion of the State, which it is feared will cause damage. There has been heavy rain on four days of the week, the precipitation reaching eight inches and eighty-four hundredths. The thermometer has averaged 76, the highest being 84 and the lowest 68. June rainfall two inches and ninety three hundredths. Abilene, Texas.—Rain has fallen on one day of the week,

the rainfail being two hundredths of an inch. The ther-mometer has averaged 79, ranging from 66 to 93. Month's rainfail three inches and eighty-eight hundredths.

Brenham, Texas.-There has been rain on four days of the past week, the rainfall being two inches and seventy-eight hundredths. The thermometer has ranged from 69 to 91, averaging 80. June rainfali four inches and ninety-eight hundredths.

Corpus Christi, Texas.—There has been rain on four days during the week, the rainfail reaching five inches and fortyseven hundredths. Average thermometer 79, highest 90, June rainfall six inches and twenty-nine hunlowest 68. dredths.

Cuero, Texas.—There has been excessive rain on three days during the week, the precipitation reaching six inches and seventy-eight hundredths. The thermometer has averaged 82, the highest being 97 and the lowest 63. Month's rainfall two inches and sixty-eight hundredths. Dallas, Texas.—We have had rain on three days during

the week, the precipitation reaching three inches and fifty hundredths. The thermometer has averaged 77, ranging from 60 to 93. June rainfall four inches and ninety-six hundredths.

Henrietta, Texas.-We have had rain on one day of the week, the precipitation being eighteen hundredths of an The thermometer has ranged from 59 to 98, averaging inch. 79. June rainfall three inches and sixty-nine hundredths.

Huntsville, Texas.-We have had rain on two days of the week, the rainfall being two inches. Average thermometer 77, highest 91, lowest 62. Month's rainfall three inches and seventy hundredths.

Lampasas, Texas.-We have had rain on two days of the past week, the precipitation reaching thirty-six hundredths of an inch. The thermometer has averaged 80, the highest being 98 and the lowest 67. June rainfall four inches and three hundredths.

Longview, Texas.-We have had rain on two days of the week to the extent of one inch and twenty hundredths. The

thermometer has averaged 80, the highest being 98 and the lowest 68. Month's rainfall three inches and sixty-nine hundredtha.

Luling, Texas .- There has been rain on four days the past

Kerrville, Texas.-It has been dry all the week. Average thermometer 78, highest 92, lowest 64. June rainfall three inches and seventeen hundredths.

Palestine, Texas.-Rain has fallen on three days of the week, the rainfall being seventy hundredths of an inch. The thermometer has averaged 77, the highest being 88 and the lowest 66. Month's rainfall four inches and eighteen hundredths.

Paris, Texas.-There has been rain on two days of the week, the precipitation reaching one inch and forty hun-dredths. The thermometer has averaged 78, ranging from dredths. The thermometer has averaged 78, ranging from 60 to 98. June rainfall three inches and fifteen hundredths.

San Antonio, Texas.-We have had rain on three days of the week, the precipitation being two inches and sixty-six hundredths. The thermometer has ranged from 68 to 90, averaging 79. June rainfall four inches and sixty-six hundredths.

Weatherford, Texas.-We have had rain on one day of the week, to the extent of forty-five hundredths of an inch. Average thermometer S0, highest 96 and lowest 64. Month's rainfall three inches and sixty-eight hundredths.

Shreveport, Louisiana.-Further improvement in cotton is noted, though fields are generally spotted with poor or late growths. It has rained heavily on three days of the week, the rainfall reaching fifteen hundredths of an inch. The

thermometer has averaged 78, ranging from 63 to 92. Columbus, Mississippi.—There has been no rain all the week. The thermometer has ranged from 61 to 95, averaging 78.

Leland, Mississippi. - Rain has fallen during the week to the extent of one inch and thirty hundredths. Average thermometer 71.3, highest 89, lowest 59. Greenville, Mississippi.-Weather has been favorable and

crops improving.

Vicksburg, Mississippi.—The weather has been favorable to growing crops. There has been rain on two days of the week, the rainfall being fitty-eight hundredths of an inch. The thermometer has averaged 77, the highest being 90 and the lowest 64.

Little Rock, Arkansas.-The weather has been ideal and crops are improved. It has rained on two days of the week, the rainfall being twenty-five hundredths of an inch. The thermometer has ranged from 62 to 92, averaging 76

Helena, Arkansas.—Crops are improved. Much overflowed cotton was not damaged. There has been rain on one day during the week, the precipitation being four hundredths of an inch. Average thermometer 75.6, highest 91, lowest 64.

Selma, Alabama.-Cotton plant is fast overcoming the backward season. Prospects good. The week's rainfall has been only a trace on one day. The thermometer has averaged 80, the highest being 95 and the lowest 67.

Mobile, Alabama.—Heavy rains and cool weather in the interior early in the week, but latter portion warm and seasonable crops improving. We have had rain on two days during the week, the rainfall being ninety-seven hundredths of an inch. The thermometer has ranged from 70 to 87, averaging 79.

Montgomery, Alabama.-Crops show general improvement. Cotton blooms are plentiful. There has been rain on three days during the week, the precipitation reaching forty-six hundredths of an inch. Average thermometer 79, highest 91 and lowest 68.

Madison, Florida.—We have had rain on five days of the week, the rainfall being ninety-eight hundredths of an inch. The thermometer has averaged 85, ranging from 76 to 92.

Savannah, Georgia. - We have had rain on six days during the week, the precipitation reaching sixty-seven hundredths of an inch. The thermometer has ranged from 68 to 89, averaging 78.

Augusta, Georgia.-Cotton is still backward and very uneven. There has been rain on four days during the week, the rainfall being one inch and forty-one hundredths. Average thermometer 78, highest 92 and lowest 67.

Charleston, South Carolina.-We have had rain on four days of the past week, the rainfall being ninety-two hun-dredths of an inch. The thermometer has averaged 79, the highest being 89 and the lowest 69.

Stateburg, South Carolina.—The weather has been warm and dry the last three days—very beneficial. There has been rain on three days of the past week, the precipitation reaching one inch and fifty-seven hundredths. The thermometer has averaged 77.4, ranging from 65 to 92. June rainfall eighteen inches and forty hundredths.

Greenwood, South Carolina.—It has rained two days of the week, the precipitation reaching fifty-five hundredths of an inch. The thermometer has ranged from 69 to 86, averaging 77.

Charlotte, North Carolina.-There has been rain on one day during the week, the precipitation reaching five hundredths of an inch. Average thermometer 79, highest 94 and lowest 64.

Ardmore, Indian Territory.—The weather continues f avorable. There has been a decided improvement in the cotton crop the past two weeks.

INDIA COTTON MOVEMENT FROM ALL PORTS. - The receipts of cotton at Bombay and the shipments from all India ports for the week ending July 2, and for the season from Sept, 1 to July 2 for three years have been as follows:

GOVERNMENT WEEKLY COTTON REPORT .- Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the tele-graphic reports on the crop in the Southern States for the week ending June 29, summarizing them as follows:

The condition of cotton is very generally improved throughont the belt, but continues late and is suffering for cuitivation in the eastern districts, where low night temperatures have checked growth. Lice and rust have caused injury in North Carolina and Missouri, and in Texas boll weevil are spreading and are more injurious. The orop is also enffering for cuitivation in portions of Louisians and Central and Northern Texas. Sunshine and heat are generally needed, especially in the central and eastern districts.

COTTON CONSUMPTION AND OVERLAND MOVEMENT TO JULY 1. —Below we present a synopsis of the crop movement for the month of June and the ten months ended June 30 for three years.

	1902-03.	1901-02.	1900-01.

Rye flour has been in limited demand at unchanged prices. Corn meal has been quiet and without change. Speculation in wheat for future delivery has been fairly active, but at a sharp decline in prices, all of the previous week's improvement in values being lost. The feature has been the more favorable advices from the West for a full yield from the growing crops. Weather conditions in the spring-wheat belt have made a decided turn for the better, the threater ed drought being broken by good rains. The reports from the winter-wheat States have advised full yields, the crop in the State of Kansas alone being figured at about 90,000,000 bushels. Cable advices from Europe have reported, exclusive of too much rain in Russia, favorable weather conditions for the week for the growing European crops. The Cincinnati "Price Current," in its weekly summary of the crop situation, says that the weather has been

mary of the crop situation, says that the weather has been favorable for harvest, growth and cultivation. There are continued reports of disappointing wheat harvest returns from the Ohio Valley and Missouri. The heads in these sections are poorly filled, but elsewhere the results are favorable. The spot market has been easier and business has been quiet, the demand from exporters being light. Business in most of the leading grain markets of the country was suspended from Thursday evening until Monday morning.

Dec. delivery in elev..... 774 774 76 754 7458 day. Indian corn futures have been less active and there has been a weaker turn to prices. Weather conditions have been more favorable for the orop, and recent speculative buyers have turned sellers to liquidate their accounts. The advices received from the corn belt have reported a higher temperature and clea. or weather, and although the crop has had a late start, it is conceded that with favorable conditions for the balance of the season, a full crop can be raised. There has been a fairly free movement of old-crop corn, the visible supply statement showing an increase in stocks for the week. The spot market has been easier, and at the lower prices exporters have been slightly better buyers.

A sharp reaction in values for the grain has been reflected in a quiet and easier market for wheat flour. With an improved outlook for the growing wheat crop, buyers of flour have been indifferent, and in making their purchases have operated strictly on a hand-to-mouth basis. Mills have been more anxious to make sales and have lowered their limits to attract buyers. City mills have been quiet and easier.

Oats for future delivery at the Western markets have been moderately active, but at declining prices. The weakness of values for other grains, and the improving reports of the ontlock for the growing crop, have had a depressing influ-ence, and recent speculative buyers have turned sellers. The local spot market has been qulet and easier.

GOVERNMENT WEEKLY GRAIN REPORT.--Mr. James Berry, Chief of the Climate and Crop Division of the U.S. Weather Bureau, made public on Tuesday the telegraphic reports on the grain crops in the various States for the week ending June 29 as follows:

June 29 as follows: CORN.—Further improvement in the condition of corn is generally reported, and while the crop continues late, it is making good growth over the western portion of the corn belt, the condition of the crop in lowa now closely approximating the average. In the Middle Atlantic States corn has made slow growth, is very backward and much in need of cultivation. WINTEK WHEAT.—Except over local areas, the weather conditions have been very favorable for winter wheat harvest in the central val-leys, but this work has been interrupted by rains in the Middle Atlan-tic States. A marked improvement in the condition of winter wheat is reported from New York and Michigan, and the crop is maturing rapidly in good condition in Nebraska. BRING WHEAT.—In North Dakota there has been a decided deterio-ration in the condition of spring wheat, as a result of drought, which has also proved damaging in South Dakota and on uplands in Southern Minnesota the crop is in theifty condition and it continues promising in Wisconsin, lowa and Nebraska. A decided improvement is re-ported from Washington and Oregon, except in Central Washington, where drought is causing injary.

where drought is causing injury. OATS - Except in North Dakota and portions of South Dakota, Min-nesota and the Upper Ohio Valley, the oat crop has made very favora-ble advancement. Harvesting is in progress as far north as Southern Missonri.

For other tables usually given here see page 19.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., July 8, 1903.

General trade results for the month of June have been unsatisfactory. In the cotton goods division prices have shown a material rise in nearly all lines at first hands, but sellers have benefited little thereby. The volume of business transacted has been limited and in a number of instances the ad-vances, although held for, have not been realized. The volume of production also has been cut down materially, putting mills out of the market entirely for the time being and consequently out of position to take business on the higher level, even if forthcoming. In the jobbing trade June business has been quite moderate here and elsewhere and re-ports from different parts of the country show that the retail trade has fared quite indifferently. Bad weather has ad-versely affected both the retail and jobbing business and has thus enabled buyers at first hands to keep largely out of the primary market. This month opens with weather conditions much improved and this should have a favorable effect upon distribution to actual consumers and reduce the stocks held at different distributing points.

WOOLEN GOODS.-The additions made this week to the new lines of men's wear woolens and worsted fabrics for spring have not brought with them any change in the gen-eral situation. They have again been confined to low grades and the prices named have been on a parity with those made on lines previously opened. Standard goods such as may put the price situation on a definite basis are likely to be opened next week. The demand so far has been irregular

for these new lightweights, but fair in the aggregate. Business in heavyweights has been on a moderate scale only and such as shows buyers still in a conservative frame of mind with regard to their supplementary requirements. There has been no material change in prices. In overcoatings and cloakings the market is without new feature of importance. The woolen and worsted dress goods division is generally steady in tone, but the demand has been quiet for both staple lines and fancies. Sales of flannels and blankets are restricted by limited supplies. Prices are firm,

DOMESTIC COTTON GOODS .- The exports of cotton goods from this port for the week ending June 29 were 2,881 packages, valued at \$177,605, their destination being to the points specified in the tables below :

NEW YORK TO JUNE 29.		1903.	1902.			
NEW TORK TO JUNE 20.	Week.	Since Jan.1.	Week.	Since Jan. 1		
Great Britain	25	1,196	15	1,252		
Other Buropean.	10	765	1	681		
Ohina		105,872		67,057

OtherCountries.	668	5,899	486	7,308		
	-					
Total	2,881	204,679	1,896	146,355		

The value of these New York exports since Jan. 1 to date has been \$8,826,929 in 1903, against \$6,674,473 in 1902.

The tendency of prices in brown sheetings and drills continues upwards in face of a quiet home demand and very lit-tle doing for export. This tendency is less noticeable in three-yard goods and heavier than in the lighter weights. Further advances are reported in cotton duck outside of the "Combination's" lines. Brown osnaburgs are very firm. Prices are tending against buyers in bleached muslins. The demand is moderate, but stocks are light. Wide sheetings are strong, but not quotably higher. Coarse colored cottons are in fuller demand than supply and difficult to buy, particularly for forward delivery. Canton flannels and cotton blankets are scarce and tending upwards. I Staple prints are bardening and higher quotations are looked for in the near future. The demand is moderate, but stocks are well cleaned up. Fancy calicoes continue quiet throughout and without change in prices. Fine cotton wash fabrics are quiet also and irregular in price. There has been no change in the gingham situa-tion. Regular print cloths are quiet, but very firm at 31/4 c. Odd goods are occasionally $\frac{1}{8}$ o. higher.

FOREIGN DRY GOODS.-Business has been on a very moderate scale in all descriptions of dress goods, but the tone is firm. Silks are also firm, but current business is limited. Ribbons are quiet and unchanged. Linens are very firmly held. Burlaps are dull and in favor of buyers. tions and Warshonso With drewals of Dry Goode

STATE AND CITY DEPARTMENT.

News Items.

Fletcher, Colo.-Judgment.-We take the following from the Denver "Republican :"

the Denver "Republican:"
Owing to the absence from the court room of the attorneys for Saunel C Hickman, plaintiff, against the town of Fletcher, Judge Hallett in the Federal Court did not fix the amount which the town must pay the plaintiff, who was given a verded by the jury vesterday.
Hickman asked \$14,05, the amount of interest coupens on water bonds issued by the rown of Fletcher June S, 1891, together with interest at 05 on the coupons and costs of suit.
The suit was filed by Hickman June 3, 1902. In his complaint he set forth the fact that the trustees of the town of Fletcher passed an ordinance on June 5, 1891, coather works. The plaintiff acquired possession of 46 of these bonds, which were supposed to draw interest at the rate of ds, payable semi-annually. The bonds were made to be and the rows atter by the structure of the town of Fletcher years. The town of Fletcher was to levy a tax to pay the interest and extinguish the principal, but so far as the plaintiff and states.
Mr. Hickman is a resident of Pennsylvania. His attorneys are T, K. Skinker and Thomas, Bryant & Lee.

Greene County, Ky.-Bonds Invalid.-We take the following item relative to the bonds of this county from the Louis-ville "Courier-Journal :"

While "Courier-Journal:"
FRANKFORT, Ky., June 17.—The Appellate Court to-day reversed a judgment of the Greene Circuit Court in the case of Greene County against J. D. Shortell, involving the validity of \$250,000 worth of bonds of the Cumberland & Ohio Railroad Company. The bonds were issued in 1869 by vote of the county. The conditions imposed were not, it was alleged, complied with in the printing and issning of the bonds. Shortell sued to recover on a number of them that he held. He secured judgment in the Court below. The Court here, in reversing, sud: We therefore conclude that upon the tast shown the county of Greene is not llable upon the bonds sued on, and that the Court should have overraled the demurrer to the answer. As the case was submitted both on a demurrer and a motion for judgment, notwithstanding the answer we will not direct a judgment to be entered for the defendant. As the bonds in contest contain no recitals, no opinion is intimated on the conflict of anthority referred to by Judge Cooley as to whether municipal officers issuing bonds without authority can estop the municipality by reciting in the bonds that they have such anthority."

Kansas.-Legislature Adjourns -The State Legislature, which convened in special session on June 24, adjourned two days later.

Massachusetts.-Legislature Adjourns.-The State Legis-lature adjourned June 26.

New York City.-Tax Rates.-City Comptroller Grout on July 3 gave out the following as the estimate of the Depart-ment of Finance of the tax rate for 1903 in the several boroughs in Greater New York;

Long Re	
Manhattan and Bronx 1.4136	6 1.40552
Brooklyn 1.4894	13 148129
Queens	
Richmond	1.48859

The two estimates under the heads "Long Rate" and "Short Rate" were made because the Court of Appeals has not as yet handed down a decision in the franchise-tax case. If the law is found valid, then the "Short Rate" will prevail and if invalid the larger rate will rule.

Ohio.—State Clear of Debt.—The State on July 1, 1908, paid off the \$200,000 3% war loan then falling due. This is the last of the State's bonded indebtedness; the only obligations now remaining are \$1,665 bonds, interest on which ceased many years ago.

Bond Calls and Redemptions.

United States of Mexico.-Bond Call.-The following bonds were called for payment July 1:

14 bonds Series "A," £1,000 each.£14,000 | 210 bonds Series "D," £100 each.£21,000 43 bonds Series "B," £500 each. 21,500 96 bonds Series "C," £200 each. 18,000 | 363 bonds Series "E," £20 each. 7,260 Total.

.....£91,760 The numbers of the bonds called for payment may be obtained from Harvey Fisk & Sons, New York City.

Bond Proposals and Negotiations this week have been as follows:

Air Point School District, Santa Clara County, Cal.-Bond Offering.-Proposals will be received until 10 A. M, July 13, by John Roll, Chairman Board of Supervisors, for \$1,500 5% 2.6-year (serial) gold school bonds. Denomination, \$300. Interest annually on Jan. 1 at office of County Treasurer. Auborn, Me.-Bond Sale.-On June 26 the \$25,000 31/2% 20. year refunding bonds described in V. 76, p. 1368, were awarded to the First National Bank of Auburn at 100.26. Following are the bids:

First National Back, Anburn...100'28 | Lewiston Safe Dep. & Trust Co..100'05 S. E. May & Co., Lewiston100'25 |

Augusta, Me.-Purchase of Water Plant Authorized.-By a vote of 1.433 to 209 this city on June 22 authorized the purchase of the plant of the Maine Water Co., which company has for years supplied the city with water.

Aurora (S. Dak.) School District.-Bonds Voted-Money to be Borrowed from State.-This district recently voted to issue \$1,500 bonds. We are advised that this loan will be negotiated with the State.

Barnesville, Ga.—Bond Offering.—Proposals will be re-ceived by J. C. Collier, Chairman Finance Committee, for \$10,000 4% gold water-works and electric-light bonds. Authority, vote of 293 to 1 at election held for the purpose. Denomination, \$1,000. Date, March 1, 1603. Interest, Jan. 1 and July 1 at office of City Treasurer or at Importers' & Traders' National Bank. New York City. Maturity, \$2,000 yearly on Jan. 1. from 1928 to 1982, inclusive. Bedford (Ing.) School District.—Bond Sale.—This dis-

trict has sold to Feder, Holzman & Co., Cincinnati, an issue of \$30,000 bonds at 104.2525.

Berthold, N. Dak.—Bond Offering.—Proposals will be re-ceived until 8 P. M., July 13, by F. W. Pitsor, Village Clerk, for \$2,500 5% 20-year water bonds. Denomination, \$500. Interest, annual. Certified check for \$250 required. Authority for issue, vote 22 to 0 at election held June 2.

Bexar County (P. O. San Antonio), Texas.—Bond Offer-ing.—R. H. Wester, Connty Treasurer, is offering for sale the \$500,000 10-40 year (optional) gold road bonds voted at the election held June 16. Denomination, \$1,000. Interest

(not to exceed 4%) payable annually. Birnamwood, Wis.—Bond Bid.—We are advised that a bid of par for 4½ per cents has been received for the \$5,000 15 year water bonds offered but not sold early last May. The Village Board has not yet acted on this bid, and the sale,

therefore, has not yet been consummated. See V. 76, p. 1314. Boise City (Idaho) Independent School District.—Bond Sale. On June 27 this district sold \$28,000 5% 10.20-year school construction coupon bonds to Rudolph Kleybolte & Co., Cincinnati, at 103.05 and accrued interest. Following are the bide :

Denomination, \$500. Date, June 1, 1903. Interest, semiannual.

Builvar, Pa.-Bond Sale.-The \$10,000 5% bonds offered for sale on June 1 were not disposed of at that time. The securities, however, were placed with local investors subsequent to that date. For description of bonds see V. 76, p. 1208.

Bourbon County (P. O. Parls), Ky.—Bond Sale.—On June 23 the \$150,000 4½% court honse bonds described in V. 76, p. 1368, were awarded to N. W. Harris & Co., Chicago, at 102.07. Following are the bids:

Bowling Green, Ohio.-Bonds Authorized.-The City Council on June 1 authorized the issuance of \$2,500 5% Buttonwood Ave. improvement bonds. Denomination, \$500. Date, July 1, 1903. Interest. semi-annual. Maturity, \$500 on Sept. 1 of the years 1905, 1907, 1909, 1911 and 1913. Bremen, Ohio.—Bond Offering.—Proposals will be re-ceived until 12 M., August 10, for \$5,000 4% public-hall bonds, suthorized at election held June 15, 1902

authorized at election held June 15, 1903.

Caddo Parish (P. O. Shreveport), La.—Bond Offering.— Proposals will be received until 10 A. M., July 23, at the office of the Police Jury, for \$30,000 jail and \$20,000 refunding 4% bonds. Denomination, \$1,000. Date, July 1, 1903. Interest, semi-annually at the American Exchange National Bank, New York City. Certified check for 5% of bid required. Cedar Rapids, Iowa.—Bond Sale.—We are advised that an additional \$13,000 of the \$100,000 6% sewer bonds mentioned in V. 76 p. 878, have been sold making \$25,000 of the issue

in V. 76, p. 878, have been sold, making \$25,000 of the issue sold to date. The bonds disposed of are as follows :

\$7,000 dated Nov. 15, 1902, maturing Nov. 15, 1907. **5,000** dated Nov. 15, 1902 maturing May 15, 1907. **13,000** dated May 16, 1903, maturing May 15, 1908.

The rest of the issue will be put out as the work progresses. Champaign County (P. O. Urbana), Ohio.—Bond Sale.— On July 1 the six issues of 5% ditch bonds, aggregating \$8.436, were awarded to A. F. Vance Jr., Cashier of the National Bank of Urbana, for \$150 promine... Following are the hids: Bank of Urbana, for \$159 premium. Following are the bids:

For description of bonds see V. 76, p. 1314. Cheswick School District, Allegheny County, Pa.-Bonds

Voted.—This district has voted to issue \$15,000 school-house bonds.

Cheviot, Ohlo.—Bond Offering.—Proposals will be received until 12 M., July 11, by Charles Craig, Village Clerk, at the office of Louis Reemelin, Room 308, Bell Block, Cincinnati, for \$7,500 5% turnpike bonds. Authority, election held April 6, 1903. Denomination, \$100. Date, July 1, 1903. Interest, annual. Maturity, July 1, 1928. Accrued interest to be paid by purchaser.

Chicago (III.) Sanitary District.—Bonds Awarded.—The \$1,500,000 4% 20-year bonds offered on June 17 have been awarded to the Illinois Trust & Savings Bank of Chicago at their bid of \$2,050 premium or 100'136. As stated in the CHRONICLE two weeks ago, this was the only bld received at the sale.

Chisholm, St. Louis County, Minn.-Bond Sale.-On June 24 the \$15,000 51/2% 15-year funding bonds described in V. 76, p. 1155, were awarded to the Commercial Investment Co. of Duluth at par and interest. Securities are dated July 1, 1908.

Cincinnati, Ohio.-Bond Offering.-Proposals will be received until 12 M., Aug. 3, by Stanley Ferguson, Secretary Board of Trustees of the Cincinnati Southern Ry., for \$500,000 81/4% terminal bonds. Securities are part of an issue of \$2,-

500,000 bonds, of which \$500,000 were sold last year. Denomination, \$1,000. Date, July 1. 1903. Interest semi-annually at the American Exchange National Bank, New York City. Maturity, July 1, 1965; subject to call after July 1, 1948. Certified check on a national bank for 2% of the amount bid, payable to the Board of Trustees of the Cincinnati Sonthern Railway, required. Bidders must use printed form of proposal furnished by the Secretary.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

Clarke County (P. O. Athens), Ga.-Bond Election.-An election will be held in this county, most likely the latter part of July, to vote on the question of issuing \$100,000 gold road bonds. The bonds, if authorized, will probably answer to the following description: Denomination, \$1,000. Date, Jan. 1, 1904. Interest 4%, payable in Athens and New York City. Maturity, Jan. 1, 1984. Clarksville, Tenn.—Bond Sale.— On June 20 the \$28,000 4%

10-30-year (optional) refunding water bonds described in V. 76, p. 1314, were awarded to Seasongood & Mayer, Cincinnati

Clear Lake, S. Dak.—Bond Offering.—Proposals will be received until July 6 by G. E. Force, City Anditor, for \$9,000 4% 10 20 year (optional) water works bonds. Denomi-

nation, \$500. Interest, semi-annual. Cleveland, Ohio.—Bond Offering.—Proposals will be re-ceived until 12 M., July 27, by J. P. Madigan, City Auditor, for \$50,000 4% market-house coupon bonds. Denomination, \$1,000. Date, June 1, 1903. Interest, semi-annually at the American Exchange National Bank, New York City. Maturity, June 1, 1918. A certified check on a national bank for 5% of amount bid for, payable to the order of the City Treasurer, is required. Bids must be made on blanks obtained from City Auditor. Purchaser to pay accrued interest. Cody, Wyo.-Bonds Voted.-This town has voted to issue

bonds for a water plant. Cohoes, N. Y.—Bonds Not Sold—Bond Offering.—We are advised that the \$118,276 314% and the \$20,337 314% public improvement bonds offered for sale on July 3 were not disposed of, and that further bids will be received up to 12 m. July 10.

Columbus, Ga.-Bond Offering.-Proposals will be received until 12 M., August 8, by L. H. Chappell, Mayor, and the Finance Committee, for \$250,000 4% gold water-works bonds. Denomination, \$1,000. Date, Oct. 1, 1903. Interest semi-annually at the office of the City Treasurer. Maturity, \$10,-000 yearly on October 1 from 1904 to 1928, inclusive. In addition to the general credit of the city, the net revenue from the operation of the water works is pledged (in accordance with an Act of the General Assembly of Georgia) for the payment of the principal and interest on these bonds. Certified check for 21/2% of the par value of the bonds bid for required.

Colwyn, Pa.—Bond Offering — Proposals will be received by Joseph S. Fite, Clerk of Council, for \$2,500 4% 10 30 year (optional) bonds. Interest, semi-annual, free of taxes. De-

nomination, \$500. Concord, N. H.—Bids Rejected.—All bids received June 27 for \$17,000 police station and \$3,300 sewer 31/2% bonds were rejected.

Conshohocken, Pa.-Bond Election Not Held.-This place did not vote on June 23 on the proposition to issue \$150,000 street bonds, as the question was re-considered by the Council owing to opposition having developed because the ordi-nance did not specify what streets were to be permanently improved.

Cook County (P. O. Chicago), Ill.—Bond Offering.—Pro-posals will be received until 1:30 P. M., July 6, by the Board of Commissioners, at the office of William McLaren, Supertendent of Public Service, for the following bonds :

\$200,000 8%\$ gold bonds. "Series F." Securities are part of an issue of \$500,-'00 bonds voted at election held Nov. 4, 1902. Denomination. \$500. Date, Jan. 1, 1903. Interest semi-annually at office of County Treas-urer. Maturity, \$10,000 yearly on Jan. 1 from 1904 to 1923, Inclusive.
625,000 4% gold bonds, "Series G." Securities are part of an issue of \$1,000 each and 410 bonds of \$500 each. Date, July 1, 1903. Inter-est semi-annually at office of County Treas-urer. Maturity, \$10,000 yearly on Jan. 1 from 1904 to 1923, Inclusive.
625,000 4% gold bonds, "Series G." Securities are part of an issue of \$1,250,000 bonds voted at election held June 1, 1903. Denominations, 420 bonds of \$1,000 each and 410 bonds of \$500 each. Date, July 1, 1903. Inter-est semi-annually at office of County Treasurer. Maturity yearly on July 1, \$31,000 in even years and \$31,500 in odd years from 1904 to 1923, inclusive.

Certified check for 2% of bid, payable to Henry G. Fore man, President Board of Commissioners, required with bids for each issue.

Coopersville, Mlch.-Bonds Voted-Bond Offering.-This village, by a vote of 188 for to 33 against, recently authorized the issuance of \$11,500 5% gold water works bonds. Proposals for these bonds will be received until 8 P. M. July 10. Denomination, \$500. Interest annually on September 1 in Grand Rapids. Maturity, \$500 yearly on September 1 from 1908 to 1930, inclusive.

Dallas, Ore.-Bond Sale.-On June 20 the \$15,000 20-year gold water bonds described in V. 76. p. 1208, were awarded to A. O. Condit of Salem at 101.25 for 4 per cents. Following are the bids :

Dayton, Ohio.-Bonds Authorized.-The City Council on June 15 passed an ordinance authorizing the issuance of \$56,000 4% street-improvement bonds. Authority, Sections 2835, 2836 and 2837, Revised Statutes of Ohio. Denomination, \$1,000. Date, Aug. 1, 1903. Interest, semi-annually in New York City. Maturity, \$5,000 yearly on August 1 from

1908 to 1917, inclusive, and \$6,000 on Aug. 1, 1918. Under the law the bonds must first be offered at par to tho Trustees of the Sinking Fund and, if refused by them, they are to be advertised for sale.

Deer Lodge County (Mont.) School District No. 10.-Bond Sale.- On June 26 the \$3,000 10-20 year (optional) bonds described in V. 76, p. 1262, were awarded to E. H. Either cash or New York exchange for \$2,000 required with bids. for \$2,000 required with bids.

Prattville, Ala. -Bond Offering. - Proposals will be re-ceived until 8 P. M., July 25, by Will Anderson, Town Clerk and Treasurer, for \$15,000 5% 30-year gold bonds. Authority,-vote of 83 to 1 at election held May 25. Denomination. \$100. Date, July 1, 1903. Interest semi-annually at the office of the Town Treasurer or at the Merchants' & Planters'-Farley National Bank Montromery. All hids to be unconditional National Bank, Montgomery. All bids to be unconditional and must be accompanied by a certified check for 5% of the amount, payable to the Town Treasurer. Bonded debt, in-

cluding this issue, \$25,000. Assessed valuation, \$798,243. **Ripley, Tenn.**—Bonds Not To Be Issued at Present.—We are advised by the Mayor that the \$10,000 6% 30-year bonds voted at the election held June 15 will not be issued until next spring.

River Rouge (Mich.) School District No. 4.—Bond Offer-ing.—Proposals will be received until 8 P. M., July 6, by Henry E. Visger, Director, for \$42,000 4% school-district bonds. Denomination, \$1,000. Date, July 1, 1903. Interest semi-annually in Detroit. Maturity, July 1, 1933. Certified check for \$500, payable to C. A. Labadie, Treasurer, required. Purchaser must furnish blank bonds. St. Bernard Parish. La.—Bond Election.—The Police

St. Bernard Parish, La.-Bond Election.-The Police Jury of this parish has passed an ordinance providing for an election July 16 to vote on the question of issuing \$50,000 5% 40-year road bonds.

St. Charles, Winona County, Minn.—Bond Sale.—On June 27 the \$10,000 5% electric-light bonds described in V. 76, p. 1371, were awarded to the Citizens' State Bank of St. Charles at 102 90 and interest. Following are the bids:

Citizens' State B'k, St. Charles. 102'90 | H. C. Speer & Co., Chicago.....102'80 Stoddard, Nye & Co., Minn.....102'S5 | C. C. Gowran, Grand Forks.....102'44

St. Clair, Mich.—Bond Sale.—It is stated that this city has sold an issue of \$27,500 41/2% paving bonds to E. H. Rollins & Sons of Denver.

St. Cloud, Stearns County, Minn.-Bond Offering.-Pro-posals will be received until July 13 by Henry J. Limperich, City Clerk, for \$60,000 41/2% water-works bonds. Authority, Chapter E0, Laws of 1903, and election held May 7, 1903. Ma-turity, \$30,000 in 20 years and \$30,000 in thirty years. Cer-tified check for \$500, payable to Julius Dominik, required. These securities are part of the issue of \$100,000 bonds offered but not sold on June 15.

St. Louis, Mo.-Amendments 10 Charter.-This city on June 22, by a vote of 15,674 to 5,907, amended the city char-ter so as to permit the issnance of bonds for the following purposes : Completion of city hall, for water-works extension, for sewers, for fire-department buildings, for bridges and viaducts, for hespitals, asylums, &c., for court house, jails and work houses, for public parks and squares for public buildings and for refunding purposes. Before bonds can be issued, they must be authorized by a two-thirds vote at election held for the purpose.

St. Petersburg, Fla.—Bond Offering.—Proposals will be received until 13 M., August 15, by F. E. Cole, Chairman of Finance Committee, for \$13,500 6% 30-year refunding and \$10,000 6% 30-year water-works-extension bonds. Denomination, \$500. Interest semi-annually at the office of the City Treasurer.

Salem, Ohlo.—Bonds Authorized.—The City Council on June 16 passed a resolution to issue \$27,000 5% 1 27 year (serial) street-improvement bonds. Denomination, \$1,000. Interest, semi-annual

San Diego, Cal.-Bonds Not Sold.-We are advised that no bids were received June 22 for the \$381,000 41/2 bonds (five issues) described in V. 76, p. 1211. The Council will try to dispose of the bonds at private sale.

Santa Fe (N. Mex.) School District.—Bond Sale.—On June 15 the \$28,000 5% 20 30-year (optional) school building bonds described in V. 76, p. 1211, were awarded to C. M. Ellinwood & Co., Chicago, at par and blank bonds. Sawtelle (Cal.) School District.—Bonds Voted.—This dis-

trict has voted to issue bonds for a school building.

Seward, Neb.-Bond Election.-An election will be held this month to vote on the question of issuing \$7,000 electriclight-plant bonds.

Shawnee (Okla.) School District.—Bonds Not Sold.—No blds conforming to the requirements of the advertisement were received June 22 for the \$50,000 4% 30-year building bonds described in V. 76, p. 1318. These bonds were also offered but not sold on June 1.

Shreveport, La.-Bonds Not Sold.-No bids were received June 26 for the \$188,000 4% 30-year paving and the \$20,000 4% 30-year storm-sewer bonds offered for sale on that day. The matter of disposing of these bonds has been placed in the

NEW LOANS.

hands of the Finance Committee-E. B. Rand, Chairman.

For description of bonds see V. 76, p. 1265. Sulthfield, Va.—Bond Sale.—The \$5,000 5% street-improve-ment bonds described in V. 76, p. 1049, have been sold at par and interest to W. A. Warner. These bonds were offered on May 15, but the bids then received were rejected.

Somerville (N. J.) School District.-Bond Offering.-Proposals will be received until 10 A. M., July 21, by the Board of Education, at the office of Arthur P. Sutphen, District Clerk, for \$30,000 4% bonds. Donomination, \$1,000. Date, July 1, 1903. Interest, semi-annual. Maturity, \$2,000 yearly on January 1 from 1905 to 1919, inclusive. Certified check for 1% of the par value of the bonds bid for required. Bonds will be delivered to the purchasers on Aug. 15, 1903.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

Sonora (Texas) Independent School District,-Bonds Registered.—The State Comptroller on June 23 registered an

issue of \$7.000 bonds of this district. Southampton (N. Y.) Union Free School District No 2. —Bond Offering.—H. D. Bishop of the Board of Education (P. O. West Hampton) is offering for sale July 7 \$7,500 4% bonds. Denomination, \$500. Interest annually on Dec. 1. Maturity, \$500 yearly on Dec. 1 from 1904 to 1918, inclusive. The district has no bonded debt at present. Assessed val-uation 1902, \$691,362.

South Bethlehem. Pa.—Bonds Refused—Bond Election.— Rudolph Kleybolte & Co, who on April 7, 1902, were awarded \$100,000 4% sewer bonds (same to be delivered at pleasure of borough at any time between May 1, 1902, and Nov. 1, 1903.) have declined to accept the same upon advice of their attorney—John G. Johnson of Philadelphia. It seems that the notice of election at which these bonds were voted was not advertised for at least once a week for thirty days, as required by law. A new election has been called for August 18 and the indications are, we are advised, that the proposition will carry by a very large vote—the heavy rains of this summer having more than ever shown the great necessity for sewers.

SALE OF MUNICIPAL BONDS

FOR THE LINE OF THE

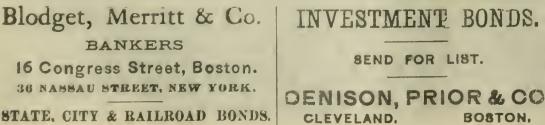

Cincinnati Southern Railway.

Scaled proposals will be received at the office of the Board of Trustees of the Cincinnati Southern Railway until 12 o'clock noon of MONDAY THE 3D DAY OF AUGUST, 1903, for the purchase of 500 coupon bonds, each of the face value of \$1,000, bearing 3½ per cent interest, issued by the Board of Trustees of the Cincinnati Southern Railway.
