CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, July 25, have been \$2,151,236,661, against \$2,307,265,811 last week and \$2,277,109,879 the corresponding week last year.

Clearings—Returns by Telegraph. Week Ending July 25.	1903.	1902.	P. Cent

Total all cities, 5 daysAll cities, 1 day	\$1,755,422,039 395,814,622	\$1,871,105,293 406,004,586	-6° -2°
Total all cities for week	\$2,151,236,661	\$2,277,109,879	-5

The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, July 18, and the results for the corresponding week in 1902, 1901 and 1900 are also given. Contrasted with the week of 1902 the total for the whole country shows a gain the week of 1902 the total for the whole country shows a gain of 5.8 per cent. Outside of New York the increase over 1902 is 8.6 per cent.

REPORTS OF TRUST COMPANIES IN NEW YORK AND BROOKLYN.

On pages 200 to 206 of this issue of the CHRONICLE will be found complete reports of the condition of all the trust companies in New York City and Brooklyn on June 30 1903, as compared with Dec. 31 1902 and June 30 1902.

THE INVESTORS' SUPPLEMENT.

The quarterly number of our INVESTORS' SUPPLEMENT is issued to-day, and is sent to all our subscribers. The Supplement contains editorial articles on the following topics—

MENACING INVESTMENTS.
PRACTICAL EDUCATION.
MODERN LOCOMOTIVE DEVELOPMENT.
SAFETY AT SWITCHES.

THE FINANCIAL SITUATION.

The current week's developments on Wall Street have only served to bring out in sharper lines the ac curacy of the view of the situation we took last Saturday. Common report, to be sure, still declared, at least during the first half of the week, that "big men" and "large syndicates" have continued turning all sorts of short corners in their efforts to wriggle out of their embarrassments; and yet, so far as these classes have representatives in New York, instead of wearing a look of solicitude, they continued to appear as calm and cool as "the morn, all unconcerned with our unrest." It is admitted, too, on every side, that even after most studious efforts put forth not a trace of a sale in those directions has been found. One unusually clever reporter thought on Tuesday he had his finger on a closed-out 5-million-dollar bank loan, the collateral said to be almost wholly Steel common and preferred; but before nightfall even that statement had proved, like all the rest of its kind, pure fiction.

The distinguishing feature of the market the earlyhalf of the week was the attack on the United States Steel stocks and the accompanying rumors put affoat. If anything could prove the origin of the raid, these rumors ought to have been sufficient. The claim was that the people very near the highest in the organization were compelled to liquidate. Accompanying this was the disclosure that false accounts had been discovered in the company's books and that a generally bad situation existed. The public was also told that the management had determined to begin the next quarter by reducing the dividend on the common stock, probably to discontinue it wholly soon thereafter. Not to prolong the list of indictments, it is enough to add one other statement among those put out, that the labor of the corporation was everywhere disgruntled and on the point of striking, which would throw into prolonged confusion the entire business of this vast corporation. These are given merely as specimens of the words passed from mouth to mouth; they obviously could not have proceeded from those who wanted to get the best price obtainable for their stocks. Clearly they were nothing less than the ear-marks of a most vicious bear attack. As the issues of the company are unusually large and as values had already dropped so low, especially of the common stock, it was easy for those who wished to further break the market to

gather in a large enough amount of the company's securities to work out their purpose.

Under these circumstances and in the present condition of public sentiment, it was the wiser course for all concerned that the worst pressure from the attack was allowed to exhaust itself, even though lower quotations were reached than ever before. The management has been from first to last more open and trustworthy in its methods and conduct than the management of any other large industrial corporation that has ever been formed, and during its entire existence has acted as an organization having nothing to conceal. Conscious therefore of the sound state of the company's business, of its stockholders' thorough acquaintance with that situation, of the large business it has been doing and profits making, of the promise of even larger profits according to the present outlook, of the certainty that no dividend was to be lessened so far as human ken could tell, that it was dealing, had always dealt and always would deal liberally with ite labor-conscious of these facts, the management of the United States Steel Corporation deserves to look with a good deal of equanimity on passing events, and every indication favors the idea that it has done so.

Another, though more moderate, liquidating movement at the Stock Exchange was an incident of Thursday, the chief influence used to give a general turn to the material decline of a few properties being unfavorable rumors respecting the crops. Corn in Kansas and Nebraska was on this occasion claimed to be materially damaged by high temperature and hot winds. The force of the rumor was very noticeable in the operations in grain, irregularity and great nervousness characterizing prices of not only corn but the other leading cereals. It was wholly reasonable that stocks should be similarly affected. The truth is, the crops are by long odds the most important factor in the situation of security values. A feeling of sensitiveness is never absent this season; the backward growth of corn, cotton and spring wheat is a source of constant anxiety. Among these an adverse rumor respecting corn would obviously and by far excite the greater fear. The public knows, too, what a scorching wind in the States mentioned means as a quick extinguisher of high hopes. There was probably very little of truth to support the rumor. But when the stock market gets into an acutely sensitive state such as now prevails, a suspicion suggested on so vital a point is enough to make general a decline which would otherwise have been confined to very narrow limits. It was comparatively large sales of Amalgamated Copper and of Realty preferred, added to quite unimportant failures in Boston and Toronto, that easily forced liquidation in the stocks named, the former declining 6 and the latter 5 points, the market closing with the set-back general. Yesterday, however, the bears, aided by a general hysteria, seemed to be in full possession of Wall Street business, and two failures were among the results, after which a sharp upward reaction ensued at the close.

Reports have several times come from Washington of late, and again this week, to the effect that President Received desires Congress as early as possible to prepare and pass a measure intended to provide for a more elastic currency. This appeal is substantially in accord with previous similar statements on the same subject, and we presume it represents the pur-

pose of the Administration to press the matter of an "elastic currency" on the attention of Congress. that is so, the proposal is likely to be heeded to the extent at least that some important currency change will be a foremost object of legislation.

Had not a paper money arrangement the faculty to derange as well as to facilitate industrial mevements, there would be little for discussion respecting the character of the device to be adopted to meet our present plight. In that case almost any one of the note contrivances we have could be used for tiding affairs over the special crop need and other emergencles-anything that served to enlarge the quantity affinat of our promises to pay would suffice. Of course, though, no intelligent authority to-day would suggest so disturbing a remedy as an emergency issue of greenbacks would prove. The more general proposal in Congressional circles would seem to indicate a new issue of national bank notes. The character they will take will presumably be such that if the need for the notes is not urgent, they will not be called into circulation, because always freighted with, say, a six-per-cent interest rate; for the same reason they will not stay out any longer than the money market rules at six per cent or higher, because it will not pay the bank to keep them out. That in substance is the theory. We cannot discuss to-day the feasibility of such a device, because there is no definite plan suggested by the committee of either House of Congress. The object is evidently desirable. As our currency exists at present, there is no means for increasing or decreasing the volume afloat except through the use of United States bonds; in that case expansion and contraction de pend wholly upon the price of the bonds and not at all upon the needs of commerce.

We have no reason to suppose that the currency revision contemplated will be radical. It will, we pre sume, be confined, as already indicated, to adding to our present systems a bank note contrivance intended to meet and relieve an emergency by a new issue of those notes. It is hardly probable that the well known defective kinds of note issue which we now have in use will be substituted by a new device in touch with commerce having the homing principle inherent. Unless the reform is thus thorough, we cannot feel any great confidence in its efficiency and permanence.

New York City officials are to be congratulated upon the successful outcome of the city's offering of \$3,500,000 3½ per cent gold bonds. Considering conditions in Wali Street and the difficulty other municipalities are having in disposing of bonds bearing higher rates of interest, it would have been no surprise if the authorities had failed to float the bonds at this juncture. The interest basis at which the sale was made is not of course as low as previously, but that was a foregone conclusion under existing The city realized circumstances. an average premium of 2 per cent on whole lot, making the interest basis about 3.418 per cent. The \$3,000,000 sold May 12 went on a 3 32 per cent basis, the \$2,500,000 sold in April netted the buyers 3 36 per cent and the \$2,500,000 disposed of in March were taken at 3.32 per cent. In June of last year the basis of the sale of \$4,667,000 was 3.28 per cent. Having regard to the shrinkage in the values of all classes of securities, the advance in the city's borrowing rate indicated by these figures must be looked upon as comparatively slight. In the reorganization agreement giving to these

not an easy matter now float a 31 per cent issue, and even 4 and 41 per cent bonds do not readily find takers. We pointed out in our issue f July 11 that in June no less than 55 municipal bond offerings had met with no bids or with bids which were unsatisfactory, and hence were rejected, and that in the month of May there had been 36 offerings that had met a similar fate. The experience the present month has been the same. Up to yesterday 36 July offerings in various parts of the country had failed to bring out satisfactory bids. Out of the 36 only four were 3½ per cents; the others were 4, 4½ and 5 per cent issues. Cincinnati this week sold \$500,000 3½ per cents, but got only par, and Hamilton County on the 15th disposed of \$250,000 3½ per cents at 100.52. Massachusetts on the 3d instant found takers for \$2,101,000 3½s, but the terms are not known, as the sale was a private one. Aside from these only two or three very small issues of 3½ per cents have been placed in July. Minneapolis has twice within the last sixty days endeavored to sell \$815,000 $3\frac{1}{2}$ per cents and failed, and is now offering \$300,000 of the amount as 4 per cents.

The anthracite coal roads are still mining coal at an extraordinary rate, and just now the contrast with a year ago is particularly striking, since at that time no coal was being mined, the strike beginning the 12th of May and lasting until the 23d of October. Some figures have been given out covering the output for the month of June and for the half year to June 30. It appears that for the month the shipments from the mines aggregated almost five and a-half million tons-5,436,497 tons. In June last year, with mining suspended nearly everywhere, the product was less than one hundred thousand tons-92,203 tons. For the half-year to June 30 1903 the shipments are given as 31,884,952, which compares with only 18,824,082 tons in the first half of 1902, thus showing an increase for the six months of over 13 million tons. Even this large increase suffices to make good only a part of the deficiency sustained in the calendar year 1902 by reason of the strike. In the whole of 1902 only 31,200,890 tons of anthracite came to market, or less than the amount shipped, as just shown, in the first six months of 1903. In the calendar year 1901, on the other hand, the shipments were 53,568,601 tons, showing that the falling off in the twelve months of 1902 amounted to over 22 million tons. Evidently, therefore, the present full rate of production can be continued for many months to come without danger of overstocking the market.

The increase in the dividend rate on Erle first preferred stock is one of the favorable events of the week. Beginning with August 30 1901 this first preferred stock has received $1\frac{1}{2}$ per cent each six months. Now the payment is to be 2 per cent, which is at the rate of 4 per cent a year. The matter is of importance not only as illustrating the prosperity enjoyed by the road, but also because of its bearing on the control of the property. The present Erle Railroad Company was organized on December 1 1895 as successor to the old New York Lake Erle & Western Railroad Company, sold in foreclosure, and the stock has been held since then by three voting trustees, viz., J. Pierpont Morgan, Louis Fitz. gerald and Charles Tennant, Bart., under a provision

trustees the voting power on all classes of stock for five years and thereafter until the new first preferred stock shall have received 4 per cent dividends in cash in any one year. Should the present payment of 2 per cent, therefore, be repeated at the time of the next semi-annual payment, the control of the voting trustees would be terminated.

The Erie company has been submitting very satis factory revenue statements for many months past. The company is both an anthracite coal carrier and an important trunk line. The anthracite miners' strike affected it adversely during the first quarter of the fiscal year 1902.03, but even at that time the road's losses in earnings were small alongside those recorded by the distinctively anthracite coal roads, and as soon as the strike was settled the company began rolling up noteworthy gains, which gains have continued every month since then. No income statement for the full twelve months to Jane 30 1903 has yet been given out, but for the eleven months to May 31 the gain in net earnings as compared with the same eleven months of the preceding year was over two million dollars-\$2,028,526. significance of this showing will be understood when we say that in the fiscal year 1901-2 the surplos above charges for the twelve months was \$4,384,677. Out of this, \$1,436,772 was paid in meeting the 3 per cent dividends on the \$47,892,400 of first preferred stock. With the dividend on this stock raised to 4 per cent the call would be \$1,915,696, instead of \$1,436,772. The second preferred stock amounts to only \$16,000,000, and 4 per cent dividends on it would call for no more than \$640,000. It is thus evident that in the late fiscal year a very substantial surplus must have been earned for the common stock of the company, though of course no one seriously entertains the thought of a dividend on this stock.

There was no change in official rates of discount by any of the European banks this week. The announce ment is made that a new 4 per-cent Russian loan for the equivalent of \$26,000,000, guaranteed by the Im perial Government, has been subscribed for by French capitalists. The feature of last week's statement of the New York Associated Banks was an increase of \$6,036,200 in the cash reserve. The deposits were angmented \$3,064,800, in consequence of which the required reserve was increased \$766,200. The subtraction of this sum from the gain in cash left \$5,270,-000 as the increase in surplus reserve, carrying this item to \$13,278,475. Calculated upon the basis of deposits, less those of \$37,268,800 of Government funds, the surplus is \$22,595,675; the loans were reduced by \$2,513,500. The Sub-Treasury paid this week \$1,123,101 Assay Office checks, representing Klondike gold deposited at Seattle and at San Francisco. The exchanges of refundable bonds for the 2-per-cent consols have thus far amounted since refunding operations began on April 1 to \$79,192,200.

Money on call, representing bankers' balances, loaned on the Stock Exchange during the week at 3 per cent and at 1½ per cent, averaging 2 per cent. On Monday, loans were at 3 per cent and at 2 per cent, with the bulk of the business at 23 per cent. On Tuesday, transactions were at 3 per cent and at 2 per cent, with the majority at 2½ per cent. On Wednesday, loans were at 21 per cent and at 12 per cent, with the bulk of the business at 2 per cent. On Thursday, influenced by offerings of finance and of security bills,

transactions were at 21 per cent and at 12 per cent, with the majority at 2 per cent. On Friday, loans were at 21 per cent and at 11 per cent, with the bulk of the business at 2 per cent. Banks and trust companies loaned at 2 per cent as the minimum. No large loans for railroad corporations were reported this week, though it was thought likely that some of such loans were being negotiated through foreign bankers. Rates for contracts on good mixed Stock Exchange collateral are quoted at 43@5 per cent for sixty to ninety days, 5½ per cent for four months and 6 per cent for six months and for longer periods; the business is almost wholly confined to loans for from four to six months. Rates for commercial paper are firmer and the offerings are increasing. The quotations are 51@53 per cent for sixty to ninety day endorsed bills receivable, with only very choice names selling at the lower rate; 5% @6 per cent for prime, and 6 per cent and above for good four to six months' single names.

The Bank of England minimum rate of discount remains unchanged at 3 per cent. The cable reports discounts of sixty to ninety day bank bills in London 23@21 per cent. The open market rate at Parls 18 25 per cent and at Berlin and Frankfort it is 35 per cent. According to our special cable from London the Bank of England lost £41,294 bullion during the week and held £36,555,691 at the close of the week. Our correspondent further advises us that the loss was due to imports of £68,000, wholly from Australia, to exports of £40,000, of which £20,000 to South America and £20,000 to Java, and to shipments of £69,000 net to the interior of Great Britair.

The foreign exchange market was firm at the beginning of the week, but comparatively liberal offerings of finance bills and also of those drawn against securities made the tone heavy, and after Wednesday the demand for remittance subsided and the market became dull. There was some selling of long sterling in expectation of covering at a profit if the export movement of grain and cotton shall become free, as is usually the case in September and October; but this selling was apparently not very confident because of the continued manipulation by speculators of the cotton market. The security bills resulting from purchases of railroad stocks and bonds for European account through the arbitrage houses and, also directly on foreign orders, were smaller in amount than in the previous week, but they were sufficiently large to make an impression upon the market. The majority of the finance bills which were offered this week are reported to represent the direct negotiations of loans through large banking houses. Continental exchange fell off after the middle of the week, reflecting a Commercial bills were lower, inlighter demand. fluenced, to some extent, by offerings of drafts for more or less prompt delivery. The Aspay Office paid \$787,914 55 for domestic ballion. Gold received at the Custom House during the week \$7,558.

Nominal quotations for sterling exchange are 4 841@ 4 85 for sixty day and 4 87@4 874 for sight. Rates for actual business opened on Monday firm at an advance, compared with those on Friday of last week, of 10 points for long, to 4 8420@4 8430; of 25 points for short, to 4 8650@4 8660, and of 35 points for cables, to 4 8685@4 87. On Tuesday the market grew easier, and though long was unchanged short feel off 20 points, to 4863 @48645, and cables declined 20 points, to 48665@48680. On Wednesday there was a fall all around and long receded 10 points, to 48410 @48420; short 5 points, to 48625@48635, and cables 15 points, to 48650@48665. The market closed dull and steady at the decline. On Thursday the business was quite small, though the tone was heavy in the absence of demand; long and cables were unchanged, while short was 5 points lower, at 48620@48630. On Friday the market was weak early in the day closing steadier; long was 25 points and short and cables 15 points lower.

The following shows daily posted rates for exchange by some of the leading drawers.

The division (between gold and silver) given in our table of colb and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver, but we believe the division we make is a close approximation.

† The Austro-Hungarian Bank Statement is now issued in Kronen and Hecerinstead of Guiden and Krentzer. The reduction of the former currency to starling 2 was by considering the Guiden to have the value of 50 cents. As the Krone has really no greater value than 20 cents, our cable correspondent in Loudon, in order to reduce Kronen to 2, has altered the basis of conversion by dviding the amount of Kronen by 24 instead of 20

THE MANCHURIAN ARRANGEMENT.

This week's intimations by England that it still expects Russia's withdrawal from Manchuria by October, and the rumors—not very well authenticated—of warlike threats and preparations by Japan, lend a peculiar interest to our own arrangement, just concluded with the Russian Government, regarding the Manchurian ports. We assume this arrangement for concession of the "open door" to have been concluded, because, despite Count Cassini's cautious denial of his own part in it, our State Department has clearly intimated that Russia has directly come to terms, and because, though China has not yet become directly a party to the trade agreement, it is assumed in all diplomatic circles that she will.

It is, in fact, recognized by all the world that an important diplomatic victory has been won by the United States over Russia in the matter of the Manchurian ports. We say a victory over Russia; probably it would be more correct to say a victory over Russian red-tape and diplomatic postponement. Secretary Hay has gained no victory through flourish of arms or threats of open hostility; bis success, as embodied in the written assurances of Russia that it will not stand in the way of an arrangement with China for open ports, has been secured merely by keeping up a patient and persistent pressure on the Russian Foreign Office, a pressure backed by assurances that it represented the strong feeling of the American people as a whole. Looking beyond the narrow horizon of professional diplomacy, we can detect, at least by inference, as it sometimes seems to us the foreign critic cannot, the reason why this pressure has been successful.

It does not seem probable to us that the Russian Government has ever seriously looked on the United States as a possible military antagonist, much less as a probable military ally. Its statesmen are not subject to delusions, and they are quite aware that the American people are a peace-loving people, whose chief wish, so far as outside nations are concerned, is to trade amicably with them all. The case of Spain, these statesmen undoubtedly are aware, arose primarily from the fact that another Power was maintaining a nuisance at our doors. Russia can hardly have failed, moreover, to grasp the salient fact that no two Powers have fewer points of friction or collision than itself and the United States. If it looks to future controversy over commercial rights in the Pacific, it is looking very far ahead.

But Russia has certain other purposes to serve quite as important in their way as offensive and defensive alliances; and we imagine that the very fact of our diplomatic isolation—so far at least as Russia is concerned-makes it essential to keep in America's good graces. For one thing, Russia is poor in capital and likely long to remain so; the United States is rich and growing richer. The time may come at some more or less distant period when Rassia may need money badly, and will be precluded through its political entanglements from raising it in the accustomed Euro. pean channels. Were such a situation to arise, the friendship of a State not involved in Europe's jealousies and suspicions would be of no small potential value. That Russian diplomacy does not ignore this unromantic factor in a diplomatic friendship, its relations with France during recent years provide abundant testimony.

Again, there is the ever present possibility in the wheels within wheels of European alliances that Russia might find itself confronted, before or after actual conflict, with so formidable a body of antago nists that it might have to sue for terms. This is a possible predicament to every European State, and nothing is more indispensable to a State in such a situation than the friendly good offices of a neutral power sufficiently strong to make its voice respected and sufficiently disinterested to disarm suspicion. It is certainly not without significance that this week's rumors have reported Secretary Hay as offering friendly mediation to avert a possible clash between Russia and Japan. Such mediation might, not incon celvably, become the means of committing Russia finally and formally as to her Manchurian policy; it might avert trouble with Japan this week and trouble with other powers in the longer future.

These are among the motives which, we fancy, govern to day and have always governed Russia's position in regard to the United States. It is these reasons which lead us to repose more faith than European critics seem to do in the sincerity of Russia's promises in Manchuria, and to entertain even more respect for the common sense and sagacity of Mr. Hay. Where another Minister might conceivably have blustered or threatened, and gained in reply nothing but clever evasions, Mr. Hay was wise enough to make a reasonable request, repeat it insistently, and prove to the other party that the American people were enough in earnest in the matter for its settlement to place their good-will at stake.

The arrangement entered on under these satisfactory circumstances is in some respects peculiar. Rassla is not the owner of Manchuria; she is not, in law at any rate, Manchurla's suzerain. On the contrary, her explicit agreement to withdraw from the Manchurian provinces when order is restored is in the hands of our State Department. Yet it is with the Russian Ambassador that our State Department deals in exacting a pledge that Manchuria's ports shall be kept open to the commercial world. We presame this curious fact is to be explained by further fact that Mr. Hay is in the habit of dealing with realities and taking the shortest road consistent with good faith towards reaching a given point. Good faith is not sacrificed in the pres ent instance, because the Chinese sovereignty of Manchuria is still formally recognized by both parties to the present arrangement and Chinese assent will be solicited and secured before any second step is taken. Russia is, beyond question, the most powerful influence at Pekin, and a request of this sort, backed by Russian indorsement, would hardly be defied. Thus our Department has moved straight to the point desired along the surest path.

As to the bearing of this whole negotiation on the Russian retention of power in Manchuria, that cannot possibly be in any way decisive. We demanded and received six months ago Russia's assurances that shwill withdraw; those pledges have not been revoked, and assent to the reopening of Manchuria cannot revoke them. Furthermore, the question of Russia's permanent occupation of Manchuria involves other principles and other problems than the open door. The resentment expressed in China over signs of unwillingness to withdraw, and the warlike mutterings of Japan, show how that phase of the question is regarded elsewhere. It may be intimated that

the United States has given its assent to Russia's continuance in Manchuria as the price of the open door. But this is clearly absurd. It would assume a Machiavellian policy which involved outright abandonment of a friendly State while still professing zeal to help it, and the discrediting of a position publicly taken by our Foreign Office as a leader among the Powers.

WITHHOLDING CURRENT RETURNS OF RAILROAD EARNINGS.

Some of our railroad managements are taking a backward step in the matter of keeping their security holders and the public informed as to the course of current revenues. Three important companies have within a short time decided to discontinue the weekly returns of earnings which they had previously furnished for many years. One of these companies is the Cleveland Cincinnati Chicago & St. Louis, which in May suddenly stopped sending out the weekly statements, both for the "Blg Four" (as the road is commonly known) itself and for the Peorla & Eastern Railway, which latter it leases and operates. On inquiry we learn that it has been determined to change the old practice and no longer furnish weekly figures of gross, or even early estimates of monthly gross. Another company which is about to enter on a similar policy is the St. Louis & San Francisco Rallroad; that company has made public no figures of earnings since the close of the fiscal year on June 30. The third company which has decided to cut off weekly returns of earnings is the Chesapeake & Ohio Ry. In this last instance the present is the first break in the continuity of the reports since the reorganization of the property in 1888.

It should be distinctly understood that none of these companies contemplate suppressing all returns of current earnings. Audited returns of gross and not are to be issued each month when ready—say from four to five weeks after the close of the month, but the plan of giving out weekly figures of gross is to be abandoned altogether. We also hear that another and still more prominent company in the Central Belt, and which for more than a quarter of a century has been furnishing early preliminary estimates of gross shortly after the close of the month (to be followed later by audited figures of both gross and net), has under consideration the advisability of dropping the early monthly estimates and making public only the later statements of gross and net.

In our opinion the policy of withholding the weekly figures is decidedly unwise. more, the present seems a peculiarly inopportune time for suppressing information of any kind concerning railroad revenues or railroad affairs generally. Probably the reader is not aware of the extent to which the retrograde movement—and retrograde movement it distinctly is-has gone. It is not so many years ago since our weekly compilations of gross earnings embraced close on to 100 separate roads. Even as recently as four years ago the number ran as high as 80. Now it has been reduced to but little more than 50 roads. To be sure, in the interval quite a number of roads have disappeared through absorption and consolidation, forming now portions of other systems; but entirely apart from this process, which would have reduced the number of roads reporting in any event, certain prominent roads

are now missing from our compilations for the simple reason that it is no longer possible to procure returns from them.

Up to the first of January 1902 the Chicago Milwaukee & St. Paul Railway posted up weekly returns of gross earnings with undeviating regularity. Since the date mentioned nothing but the audited returns of gross and net, issued usually about thirty days after the close of the month, have been available for that company. The Northern Pacific Company supplied weekly returns as recently as April of last year, and also audited returns of gross and net. weekly returns have been altogether dropped since the date mentioned and so have the audited statements of gross and net. The only information concerning this company now given out is a monthly estimate of gross, issued with considerable promptness say nine or ten days after the close of the month. It is to be noted, too, that the Chicago Burlington & Quincy, which prior to its absorption by the Northern Pacific and Great Northern companies furnished regular monthly statements of gross and net earnings, at present issues no monthly statements whatever, and the only knowledge concerning its affairs which comes to hand is that contained in the company's an. nual report, or such as is allowed to leak out from time to time in the remarks of one official or another.

The New York Ontario & Western for a good many years was also wont to supply weekly returns. A strike in September 1900 furnished occasion for omitting these weekly returns and the company has never since resumed their publication, though continuing to send out the monthly audited returns of gross and net, which usually are received about the close of the following month. The Lake Erie & Western, before it became a Vanderbilt property, also used to supply weekly returns of gross. The Chicago & Eastern Illinois had the same good habit until it was taken over by the St. Louis & San Francisco. Even the Atchison Topeka & Santa Fe at one time (and for a good many years, too,) sent out weekly statements, though its lapse occurred a considerable while agothat is in January 1896.

The tendency here outlined to restrict information concerning current revenues is to be distinctly deplored. The practice of furnishing data concerning current revenues varies greatly among the different roads, depending mainly upon the interests in control. Properties in which the Morgan influence dominates always supply full and complete data—weekly returns, early monthly estimates, and also audited returns of gross and net. Whatever the officials or directors get, the public is also allowed to see. The Gould properties likewise have an excellent record in this respect; weekly figures of gross are now and have for years been furnished concerning them all, while the more important companies, like Missouri Pacific, Wabash, etc., also furnish monthly exhibits of net; in the case of some of the minor roads, however, namely the International Great Northern and Texas & Paclfic, this latter feature does not obtain—that is, no monthly net is given out. Mr. James J. Hill has always made it a practice to furnish early estimates of monthly gross, but does not supply any returns of net. The Vanderbilt roads have no uniform policy, each management evidently being allowed to pursue its own course. The New York Central furnishes monthly gross and quarterly net. Properties in this day as those urged unsuccessfully twenty-five

system west of Buffalo, like the Lake Shore & Michigan Southern and the Michigan Central, supply complete half-yearly statements, and such of them as extend into New York State—the Lake Shore & Michigan Southern and the New York Chicago & St. Louisalso furnish the quarterly returns required by the New York State authorities. The "Blg Four" company for years furnished weekly figures of gross and monthly statements of gross and net, but as we have already shown the weekly returns have now been abandoned.

We can see no good reason why weekly returns which have been furnished in the past should now be withheld. What does the suppression of these weekly returns involve? It means that nothing can be known concerning earnings, say for the early part of July, until the end of August or in some cases the beginning or middle of September. Yet we think it will not be disputed that both those holding pecuniary interest in these properties and the public at large are entitled to know these results just as early and as promptly as officials themselves. The public interest in the weekly revenue returns is neither inconsequential nor ephemeral.

Railroad returns of earnings furnish one of the indications of the course of trade and business. They belong in the same category as the weekly reports of bank clearings and the records of mercantile failures. What would be thought of the manager of a clearing house who contended that the figures of bank exchanges were for the use only of the members of his own particular clearing house? At a time like the present, data concerning current earnings are of special importance. On the one hand, values of railroad properties on the Stock Exchange have undergone serious shrinkage with apparently no adequate cause for the depression, and on the other hand there are evidences of larger or smaller declines in commodity prices. Much depends upon the extent to which these influences shall affect the activity and prosperity of trade, which up to this time have been substantially uninterrupted. To know the part these influences are having upon affairs, the weekly returns of earnings are absolutely essential; they afford for obvious reasons a better guide to trade affairs than either bank exchanges or compilations of mercantile failures.

To the security holders the information of course belongs as a matter of right. They should not be obliged to wait till the end of August or the beginning of September for knowledge as to what the property may have been doing at the beginning of July. The argument applies with all the more force in the case of consolidated and amalgamated properties like the St. Louis & San Francisco, where past earnings furnish absolutely no guide to the future, the properties having been so greatly changed in all respects. As it happens too, in the St. Louis & San Francisco case all the various constituent companies now forming part of the parent system—the Kansas City Fort Scott & Memphis, the Kansas City Memphis & Birmingham and the Chicago & Eastern Illinois had always furnished weekly statements, making the present departure all the more disappointing.

We are of course familiar with the arguments usually advanced to justify withholding such information. These arguments are precisely the same to-

or more years ago. It is contended (1) that the weekly figures and also the early monthly estimates are simply approximations—subject to correction when the actual results are known; (2) that many other companies are withholding weekly returns, which it is claimed are intended merely for the information of officials and directors, and (3) that the weekly returns are often used by operators on the Stock Exchange for speculative ends. With refer ence to the first point, namely that weekly returns are merely estimates varying more or less from the actual results, making them sometimes misleading, it is to be said that the fact that they are estimates is well known—so much so that the practice everywhere is to use these estimates only until the audited returns come to nand; as soon as these latter are available the estimates are at once discarded. Moreover our experience, covering a period of nearly forty years, has been that the estimates do not vary enough from the truth to impair their usefulness. They are at all events the best that can be obtained, and if they are good enough for the use of the officials in making calculations and observations needful in the conduct of the road's business, are they not good enough for the public and the security holders?

The second argument, namely that many other companies I kewise refrain from making public their returns, also falls to the ground, for the fact that one concern is derelict, furnishes no excuse for delinquency on the part of another company. As to the final claim that the figures are likely to be used for speculative purposes, exaggerated importance being given to either gains or losses, that objection seems hardly more tenable than the others. It is not facts that do harm; it is rumors which cannot be disproved or affirmed, but which have sufficient of the air of probability in them to excite the fears or the cupidity of Stock Exchange operators. If a road's earnings are diminishing the circumstance is sure to leak out in some way and the rumor of the possible fact is certain to do more damage than the fact itself. And the same thing is true where earnings are expanding-speculators are more apt to gamble on rumors based on such increases than on reports open to all and clearly establishing the fact of the increase. Thus in whatever way looked at no justification can be found for discontinuing these current revenue returns.

MAGNITUDE OF ELECTRIC RAILWAY INDUSTRY.

The great development that has occurred within recent years in the construction of electric railways in this country is forcibly illustrated in a Census bulletin just issued devoted to "Screet and Electric Railways in the United States." Some advance figures from this bulletin were given out a few weeks ago, but the bulletin itself, containing full details, has only just become available.

No feature of our industrial advancement has been so striking or so noteworthy as that with regard to these electric railways. It is to be remembered that the terms "electric railway" and "street railway" are no longer synonomous. Nearly all street railways are now operated by electricity, but a new element has come into being in the fact that large numbers of electric interurban roads have also been built, par-

ticularly in the more densely populated States East of the Mississippi and North of the Ohio and Potomac rivers. In the sections referred to, interurban lines of considerable length have been built, and many of these lines intend to compete directly with existing steam roads. The Census bulletin referred to contains interesting facts and statistics bearing upon the extent to which street and electric railways have been provided in the aggregate, and the enormous investments now existing in the same.

The Census claims to have obtained substantially complete returns, from which it appears that the length of single-track street and electric railways in the United States on June 30 1902 was 22,577 miles. This, it will not be denied, is a large total. At the Census of 1890 the aggregate of street railway single track was given as only 8,123 miles. It is admitted that the 1890 figures were not entirely complete, a number of street railway companies in existence at that date having then failed to make reports to the Census office. In a general way, however, the increase from eight thousand to twenty-two thousand miles may be taken to indicate the growth that has taken place. Moreover, when the statistics are examined for particulars with reference to the motive power employed at each period, it is seen at a glance what a great transformation has taken place through the introduction of the trolley and the use of electricity.

At the time of the 1890 Census the employment of electricity as a motive power for running street railways was still in the experimental stages. Out of the 8,123 miles of track reported to the Census at that date, only 1,262 were operated by electric traction, while 5,661 miles were operated by animal power, 488 by cable and 711 miles by steam. For 1902, with 22,-577 miles of track, no less than 21,908 are given as operated by electric power and only 259 miles by animal power, 241 by cable and 169 miles by steam. The reduction in the twelve years from 5,661 miles to 259 miles in the length of street railways run by animal power indicates in a graphic way how great has been the change in this particular and how completely electric traction has displaced horses. Another striking fact is that of the whole 21,908 miles of track operated by electric power, 21,302 miles is of the overhead trolley type. The trolley has been the principal factor in the development of street railway traffic within the cities, and it has also been the chief inducement prompting the extension of street railways into the suburbs and the building of interurban roads connecting groups of cities and towns.

When we come to the statistics portraying stock and debt, earnings and traffic, a still more imposing demonstration is afforded of the magnitude of the street and electric railway system of the country. The aggregate of capital stock actually issued is given as over 11 thousand million dollars (\$1,315,572,960), and the amount of the outstanding funded debt is reported as but little less than a thousand million dollars—\$992,-709,139. This makes a total of over twenty-three hundred million dollars together (\$2,304,282,099). The contrast with the \$478,235,957 of stock and debt reported at the 1890 Census, even after allowance for the fact that the 1890 totals were somewhat below the actual results, is very striking. Adding some other items, such as bills and accounts payable, etc., the total in the balance sheet for 1902 actually exceeds twenty-five hundred militon dollare-\$2,. 533,847,258.

The street and electric railways in the fiscal year ending June 30 1902 carried no less than 5,871,957, 830 passengers. Of this number 4,809,554,438 were fare passengers and 1,062,403,392 were transfer passengers. It will give a better idea of the service represented by these figures if we say that the number of passengers carried during the same period of twelve months upon all the steam railroads in the United States was only 649,878,505.

A fact of considerable importance with reference to both the present and the future of these electric railroads is as to whether capitalization is or is not excessive, and whether revenues are going to be sufficient to sustain the capitalization. On this point there is little that can be said of a definite or reliable nature. We have stated that the aggregate miles of single track June 30 1902 was 22,577 miles; the length of line-meaning thereby the length of road bed or length of street occupied—is 16,651 miles. The \$1,315,572,960 stock would on this basis average \$79,009 per mile, and even the \$992,709, 139 funded debt would average \$59,619 per mile, making \$138,628 per mile together. The capitalization (stock and bonds combined) for the steam railroads of the United States at the same date averaged only \$62,301 per mile of line. Even on the basis of length of track (22,577 miles) which is the usual unit of measurement with street railways, the average of stock would be \$58,270 per mile and the average of bonds \$43,966 per mile. Such figures give plausibility to the contention that the capitalization of electric railways is heavier than it should be. But generalizations of this kind are really of little value. So far as the roads lying within the cities and towns are concerned the larger capitalization may be considered as in great part, if not entirely, offset by the larger volume of traffic. We have seen that on the 22,577 miles of street and electric railways, 4,809,554,43 paying passengers were carried in the twelve months ending June 30 1902 (and some of the newer roads were operated for only a part of the year), whereas the total number of passengers on two hundred thousand miles of steam roads in the same period of twelve months was only 649,878,505, though of course the steam railroads (outside the New England States) rely much more largely upon their freight traffic than upon their passenger traffic.

In the case of the electric interurban roads, which have been built in many instances for the purpose of competing with steam roads, the larger average of capitalization may prove of some consequence, ev n though these electric railways, like the steam roads, are, in numerous instances, undertaking to build up a freight traffic as well as a passenger traffic. already said, however, no general conclusions are pos sible; each specific case will have to be dealt with by itself. That the electric railways of to-day are capitalized very much higher than the street railways of twelve years ago is perfectly evident from the fact that the average of stock and debt for 1902 on the 22,577 miles of track at \$102,236 per mile compares with only \$58,874 per mile, the average of stock and debt reported for the 8,123 miles of track represented at the Census of 1890. A considerable increase was inevitable owing to the expense involved in converting the fact that electric construction in some of the 'costly.

cities has proved very coatly. The question is as to whether the increase in the averages is not larger than it should be after making allowance for all this.

The Census officials made attempts to procure returns as to the actual cost of the roads, with a view to seeing whether capitalization as represented by stocks and bonds was in excess of such cost. As might be expected, these efforts entirely failed of success. A number of companies stated it was impossible to give an itemized statement such as the Census blank called for. A number of other companies reported the cost of construction as equalized with the amount of capital stock, funded debt, bills and accounts payable, etc. Then the larger consolidated companies gave as their cost of construction and equipment the amount paid by them in cash or securities for the roads purchased. Thus the effort came to nothing.

The greater portion of the 22,577 miles of track is found in the North Atlantic States and in the North Central division, in both of which sections population is dense, affording assurance of a large volume of traffic and of continued growth in the same. The North Atlantic States contain 10,175 miles of the 22,577 miles for the whole country, and the North Central States contain 7,817 miles, making 17,992 for these two sections combined.

The gross earnings for the twelve months ending June 30 of the 22,577 miles of road are given as almost a quarter of a thousand million dollars (\$247,-553,999), and it is pointed out that some of the newer roads were in operation only a part of the year. The net earnings were \$105,241,402, and here we come to one of the favorable features arising from the operation of the roads by electricity. In other words, the percentage of operating expenses to earnings for 1902 was only 57½ per cent, as against 68.4 per cent, the percentage in the case of the returns made to the Census authorities in 1890. Income from other sources swelled the total of net income for the twelve months to \$108,192,030. Taxes, interest and rentals consumed \$77,595,053 of this sum, leaving \$30,596,-977 applicable to dividends.

The operating companies, it appears, paid dividends on only \$350,945,016 of stock, but part of the amounts paid as rentals by these operating companies went to meet dividends on the stock of leased lines. Neverthe ess, there was \$624,942,500 of common stock and \$42,936,124 of preferred stock on which no dividends were paid. This would appear to give further support to the idea that capitalization is excessive. The most that can be said with positiveness, however, is that such statistics suggest caution on the part of the investor. With so much of the electric railway mileage new, particularly the interurban portion, it would be natural that a large portion of the stock should not as yet have reached the dividend-paying point. Such roads have not been in operation long enough to show their earning capacity. Then, also, not sufficient time has yet elapsed to justify conclusions as to how far long-distance electric lines can compete successfully with steam roads. Nor can definite statements be made on the point of the actual economy with which it may be possible to operate electric railways, either in the cities or elsewhere. It will take time to gain knowledge on all these points, and of the old horse-car lines into electric roads, and also to course the experience may in some instances prove

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S

-The public sales of bank stocks this week aggregate 478 shares, of which 250 shares were sold at auction and 228 at the Stock Exchange. The transactions in trust company stocks, all auction sales, reach a total of 48 shares. No sales of either bank or trust company shares have been made in the "curb" market.

10 City Bank, National. *228 Commerce, National Bank of 20 Federal Bank	Price. 268 335-340 100 625	Last previous sale. July 1903— 265 July 1903— 350 July 1903— 100 June 1903— 676

174

-The severe and long-continued depression on the Stock Exchange led to the failure yesterday afternoon of W. L. Stow & Co. and of Talbot J. Taylor & Co. The first-mentioned house was prominently identified with the Mexican Central Railway, and the failure is ascribed to the firm's inability to realize on its large holdings of the securities of that company. The members of the firm of Talbot J. Taylor & Co. are Talbot J. Taylor, James B. Taylor and Foxhall P. Keene, and the failure of that concern is chiefly significant by reason of the fact that it was known as Mr. James R. Keene's brokers and that Foxhall P. Keene is Mr. Keene's son and Talbot J. Taylor his son-in-law. The firm was supposed to be burdened for itself and customers with large holdings of Southern Pacific and other stocks which have suffered heavy declines in the market.

-It was reported yesterday that a seat on the New York Stock Exchange had been sold for \$60,000. The purchaser was said to be Mr. John P. Grier and the seller the firm of Bartlett, Frazier & Co. We are advised that this was simply a transfer of membership from one member of the firm to another, and that there is no foundation for the report that \$60,000 was the consideration. The last actual sale was at \$67,000.

-The Market & Fulton National Bank of this city has issued the additional \$100,000 capital voted by the stockholders on February 17, making the total capital now \$1,000,000. The new shares have been listed on the Stock Exchange.

-The Mechanics' & Traders' Bank of this city will locate another branch at 46th Street and Broadway, to be known as the "Long Acre Square Branch." It will be opened about August 15 under Mr. Richard A. Purdy's management. The Mechanics' & Traders' Bank also has a branch on the corner of Madison Avenue and 59th Street, in charge of the Vice-President, Mr. Louis H. Holloway.

-The National Discount Company, Limited, London, England, balance sheet on 30th June gives deposits and loans, including over ten million dollars bills re-discounted, at over fifty-seven million dollars. The capital and reserve aggregate over six and a half millions; bills discounted forty-four millions; call loans over nine and a-half millions. The profit and loss account gives gross profits for the half year at nearly half a million dollars. The dividend for the term continues at the rate of ten per cent per annum on the paidup capital of over four million dollars.

-The Windsor Trust Company, at Fifth Avenue and Fortyseventh Street, which only commenced business on December 29 1902 reports for June 30 deposits of \$5,875,249. The company's total assets on June 30 1903 were \$6,920,736, comparing with \$2,787,488 on Dec. 31 1902. The management consists of Charles H. Van Brunt, President; Robert H. Mc-Curdy, James A. Burden Jr., and John Alvin Young, Vice-Presidents; H. Ward Ford, Treasurer, and A. Gordon Norrie, Secretary.

-The Trust Company of the Republic of this city is to change its name to the Commonwealth Trust Company instead of the "Waldorf-Astoria Trust," as originally contemplated. The State Banking Department has already given permission to make the change. The company will shortly move its main offices, now at 346 Broadway, to new quarters at 29 Pine Street. The branch in the Waldorf-Astoria Hotel will be continued.

-The list of incorporators named in the application to he Comptroller to organize the proposed National Maiden Dollar Savings Bank of Pittsburgh will meet to formally ap-

Lane Bank of New York (to which reference was made in this column last week) are: Messrs. G. H. Hendricks, S. Raives, L. W. Sweet, W. S. Ginel and Julius Bernstein. Mr. Hendricks, who is at 27 Pine Street, this city, has since withdrawn from the project, and we understand that some of the others mentioned above also contemplate similar action. Thus it would appear doubtful if the project is to be carried through. The new institution was incorporated with \$200,-000 capital. The intention of its organizers, we believe, was to locate near Maider Lane for the accommodation of jewelry dealers whose small balances might not be acceptable to the large banks in the vicinity.

-The stockholders of the Stuyvesant Heights Bank of Brooklyn authorized on the 17th inst. the proposed increase in the capital from \$100,000 to \$200,000. By the issuance of the 2,000 shares (par \$50) at \$85 each, \$70,000 will be added to the surplus.

-Circulars regarding the proposed consolidation of the National Newark Banking Company and the Essex County National Bank of Newark have this week been forwarded to the stockholders of the respective banks. The consolidated institution is to have a capital of \$2,000,000, with surplus assets worth substantially \$3,000,000. Each holder of stock in the present banks will be entitled to receive in exchange therefor stock in the enlarged bank of the same par value. The proposition to consolidate has been approved by the Comptroller at Washington, and only awaits the ratification of the stockholders of the two institutions concerned, each of which has a capital of \$1,000,000.

-Besides the regular semi-annual dividend of 8 per cent, the Fidelity Trust Company of Newark declared on the 13th inst. an extra dividend of 7 per cent, making the total distribution for the first six months of 1903 15 per cent.

-The officers of the Citizens' Trust & Deposit Company of Utica are practically the same as those who had charge of the affairs of A. D. Mather & Co.'s Bank, to whose business the trust company will succeed. Mr. Jacob Agne Jr. is President; Elon G. Brown and William I. Taber, Vice-Presidents, and E. Bushinger, Secretary. Mr. Warner M. Van Norden, President of the Van Norden Trust Company and the Nineteenth Ward Bank, both of New York, is a director in the Utica institution. The company has a capital of \$200,000 and a surplus of \$100,000.

-Messrs, Hambleton & Co. of Baltimore have moved into attractive new quarters at 10 South Calvert Street. The building is one story high and is to be used exclusively by

-Mr. J. Bernard Scott has resigned as Secretary and Treasurer of the Maryland Trust Company of Baltimore, in order to engage in business on his own account. Former Assistant Secretary and Treasurer Mr. Carroll Van Ness, has been appointed to succeed Mr. Scott, while Mr. Louis S. Zimmerman takes the position just vacated by Mr. Van Ness. Mr. Allan McLane has been elected to the newly-created office of Third Vice-President.

-The firm of Sperry & Company of Baltimore, Md., has been organized as successor to Sperry, Jones & Co., the latter company having been dissolved. Mr. R. B. Sperry, senior partner of the late firm, will have the active management of the new firm.

-Mr. Thomas N. Hart, President, and Mr. Benjamin F. Dyer, Vice-President, of the Mt. Vernon National Bank of Boston, Mass., have resigned their respective positions, but will remain as directors of the bank. Mr. John H. Allen has been elected as the new head of the bank and Mr. J. Adams Brown Vice-President; Mr. James A. Davis is a new director. As will be recalled, a controlling interest in the bank was secured several weeks ago by Messrs. Otls, Wilson & Co. of

-Mr. Robert H. Gardiner has been elected a member of the board of directors of the Adams Trust Company of Boston.

-Messrs. Charles E. Ingersoll and B. F. Clyde have been elected directors of the Glrard Trust Company of Philadelphia. One of the new members replaces Mr. Pemberton S. Hutchinson, who died June 26. The other is an additional member.

-On September 15 the stockholders of the Iron & Glass

prove the increase in capital from \$100,000 to \$200,000, made on July 1. Power to make the increase is conferred by the bank's charter, but to remove all doubt as to the legality of the proceeding a special meeting has been called for the date named to ratify the action.

—The Clearing House of the Pittsburgh Stock Exchange has suspended operations pending a report by the Clearing-House Committee on a proposition to reorganize the system along lines that will result in greater convenience to brokers.

—Arrangements have been made for the absorption of the Standard Security Trust Company of Pittsburgh by the Guarantee Title & Trust Company of Pittsburgh. The shareholders of the first-named company have been notified to deposit their stock by to-day (the 25th inst) at the Iron City National Bank in exchange for Guarantee stock. The terms of exchange are 100 shares of Standard Security stock for 80 shares of Guarantee stock. The Guarantee Title & Trust recently increased its capital to \$1,000,000. The capital of the Standard Security Trust is \$250,000. The local papers had reported some two weeks ago that the Standard Security was to be taken over by the Real Estate Trust Company of Pittsburgh. The announcements were later stated to have been premature, the negotiations to that end having failed.

—At special meetings to be held on August 5 the stock-holders of the American Trust Company of Pittsburgh and the Colonial Trust Company of Pittsburgh will take action on the question of the proposed consolidation of the two companies. The union will be consummated under the name of the Colonial Trust Company and the capital of the latter will be increased from \$2,000,000 to \$4,000,000. Each share of present Colonial, it is announced, will get one share of new Colonial, and each share of American will get twenty-twenty-thirds of a share of the new Colonial stock.

—The Mt. Washington Savings & Trust Company of Pittsburgh, with a capital of \$150,000, commenced business on Monday at Shiloh Street and Grandview Avenue. Interests identified with the Federal National Bank of Pittsburgh, it is stated, dominate the affairs of the new institution. Originally the report had been that it was to become a branch of the Colonial Trust Co. of Pittsburgh.

-The German National Bank of Pittsburgh, whose paidin capital is \$250,000, expects by September 1 to have a capital of \$500,000.

-Mr. Louis Rott, desiring to remain as President of the First National Bank of Homestead, Pa., has resigned as President of the new Homestead Savings & Trust Company, to which he was recently elected.

—By vote of the stockholders, the Monessen Savings & Trust Company of Monessen, Pa., has increased its capital from \$125,000 to \$150,000. The new issue was used to acquire a controlling interest in the First National Bank of Monessen.

—Mr. George E. Hardy has tendered his resignation as Vice-President of the Michigan Trust Company of Grand Rapids, having accepted a position with Messrs. Hodenpyl, Warbridge & Co. of New York. Mr. Anton G. Hodenpyl, a member of this firm and also of the firm of Messrs. King, Hodenpyl & Co. (occupying adjoining offices), had also been associated with the Michigan Trust, having several years ago held the position which Mr. Hardy now relinquishes.

-The banking house of J. B. Russell & Co., 68 William Street, New York, and the Rookery, Chicago, with branches in Wilkes Barre, Scranton and Carbondale, Pa., is just establishing new offices at Binghamton, N. Y., and Dayton, O. C. Frederick Hess, until recently Assistant Cashier of the First National Bank of Binghamton, is appointed Manager of the Binghamton branch office, and C. L. Hardman, Cashier of the Fourth National Bank of Dayton, will be Manager in that city. Russell & Co. have also in contemplation the opening of branch offices in three or four other prominent cities, which will soon be announced. Mr. A. G. Wheeler Jr, of the Chicago firm of Wheeler & Gearhart (lately dissolved), has been admitted into the partnership of J. B. Russell & Co. and has charge of their Chicago office. This banking house is the fiscal agent of the Illinois Telephone & Telegraph Co. and the Antomatic Electric Co., both of which enterprises it

-John McCarthy has been appointed an Assistant Cashier of the Continental National Bank of Chicago. This makes five assistant cashiers employed by this bank, but the posi-

tion of Cashier has been vacant since the promotion of George M. Reynolds to the Vice-Presidency over a year ago. No Secretary of the Bank has been selected since Mr. W. W. Hill retired from the position to assume the management of Redmond, Kerr & Co.'s Chicago office.

—The new American National Bank of St. Paul, Minn., which began business recently, is under the management of Mr. Joseph Lockey, President, Thomas Irvine, Vice-President and H. B. Humason, Assistant Cashier.

—The Lincoln Savings Bank, with a capital of \$100,000, is now being organized in Cleveland. A commercial and savings business will be conducted by the bank.

—A debate on the assets currency question will be a feature of the coming convention of the Wisconsin Bankers' Association. The debate will be between Congressman Charles N. Fowler and Mr. A. J. Frame, President of the Waukesha National Bank of Waukesha, Wis.,—the latter taking the negative side. The meeting will be held on August 5 and 6, at the Hotel Pfister, Milwaukee.

—Amended articles of incorporation have been filed by the Fidelity Trust & Safety Vault Company of Louisville, where by its name is changed to the Fidelity Trust Company.

—The Chattanooga Trust Company of Chattanooga, Tenn., has filed articles of incorporation in Delaware. The capital is \$250,000.

-The Loan & Exchange Bank of South Carolina, at Columbia, began business on Monday under its new title of the National Loan & Exchange Bank of Columbia, particulars regarding which we have before published.

—Mr. Thomas P. Denham has been chosen Cashier of the Atlantic National Bank of Jacksonville, Fla., lately organized with a capital of \$350,000. As previously announced, Mr. E. W. Lane is President.

—The People's Savings Bank & Trust Company of Memphis, Tenn., now has a capital of \$50,000. The stockholders voted to increase the amount from \$30,000 on March 13 by the issue of 400 shares of the par value of \$50. The new shares were sold at 165, the \$13,000 premium being added to surplus. The entire amount was paid on April 1st.

—A movement is on foot to establish another trust company in St. Louis. This latest organization, if carried out, will be known as the Guarantee Trust Company. The authorized capital is \$400,000. The company is also to have a surplus of \$200,000. In addition to a general trust company business, a specialty will be made of supplying fidelity and indemnity bonds. Mr. W. J. Atkinson seems to be the moving spirit in the enterprise.

—Denver, Colo., is shortly to have another national bank, to be styled the Second National. Offices have been leased in the Majestic Building at Broadway and 16th Street, where the new institution will start about September 1.

-Mr. H. W. Hellman, who resigned several months ago as Vice-President of the Farmers' and Merchants' National Bank of Los Angeles, has accepted the Presidency of the Merchants' National Bank of that city.

—At the special meeting on the 15th inst. the stockholders of the Bank of California, at San Francisco, voted to increase the capital from \$2,000,000 to 3,000,000. Stockholders of record August 1 will be permitted to subscribe to one-half the number of shares held by them, the stock being disposed of at a premium of \$200 per share, or \$300 each. The privilege to subscribe expires September 15.

—The City & County Bank of San Francisco on the 1st inst. called the remainder still due of its total authorized capital of \$250,000. The bank started about a year ago, at which time half the \$250,000 was paid in.

—The Mission Bank of San Francisco, Cal., opened for business on the 15th inst at 16th Street and Julian Avenue. The bank has an authorized capital of \$200,000, with a paidin amount of \$100,000, a majority of which is owned by the Bank of California. The building occupied by the Mission Bank is one story and basement, and was erected for the bank's sole uses. The institution is officered by Mr. James Rolph Jr., President; Frank B. Anderson, Vice-President; Stnart F. Smith, Cashier, and James M. Allen, Secretary.

—The stockholders of the California Title Insurance & Trust Company of San Francisco will take action at a special

meeting on August 17 on the proposition to increase the capital from \$250,000 to \$1,000,000. The shares are of a par value of \$100 each, so that 7,500 shares will be issued for the purpose.

—The semi annual statement of the Union Discount Co. of London has come to hand and may be found on another page of this issue. The gross profits for the first six months of 1903 were \$872,758, which, with balance brought forward from the previous statement, makes the total to credit of profit and loss account \$1,079,508. After deductions of \$90,757 for expenses, \$559,787 for rebate of interest on bills discounted not yet due, and \$206,350 for dividend at the rate of eleven per cent per annum, there is a balance of \$222,718 carried forward to new account.

IMPORTS AND EXPORTS FOR JUNE.

The Bureau of Statistics at Washington has issued the statement of the country's foreign trade for June, and from it and from previous statements we have prepared the following interesting summaries.

FOREIGN TRADE MOVEMENT OF THE UNITED STATES.
[In the following tables three ciphers (000s) are in all cases omitted.]

(Inthe fo	llowing ta	bles three	olphers (00	00s) are in al	l cases omi	ltted.]

Monetary Commercial English News

[From our own correspondent.]

London, Saturday, July 11, 1903.

No one who saw the reception given President Lonbet by the street crowds on his visit to the Lord Mayor on Tuesday last can doubt the satisfaction with which the ordinary publie have greeted the improved relations between this country and France. As in so many happy instances since his accession, the King in his visit to President Lonbet last spring voiced, if the expression may be used, the wishes of his people, and the return visit of President Loubet this week has given equal satisfaction here in London. There are in reality no serious points of difference between this country and France. France is our nearest neighbor; we do an immense trade with her, and the tourist traffic of the English people to France, as well as the visits of the wealthy classes, is a larger business than to any other European country. It has been happily said this week by the correspondent of one of the leading Paris journals that no living ruler would have been better received in London than was President Loubet, unless it were President Roosevelt. Did the exigencies of the American President's position permit of his visiting these shores, he would be assured of such a reception as would probably astonish even our warmest friends in America, who think with reason that they know England and English sentiment well.

The Bank of England directors again fixed their official rate of discount on Thursday at 3 per cent. The market made a strong offort to keep itself quite free of the control of Threadneedle Street, but with only partial success. Last week, it will be remembered, rates here showed alarming signs of slipping away, and as this market is largely dependent upon foreign supplies of gold, some anxiety was felt less the bill brokers and discount houses in their desire to do business would drive down rates so that gold would be exported, and when the autumn demands are felt next month or early in September there would have been more or less of a scare. It seems now evident, however, that the supply of surplus loanable capital is very much smaller than it was last week, and it is certain that upon one or two occasions borrowers in first-class credit had to go to the Bank and pay the full official figure for accommodation. The Bank return shows that no less a sum than 111/4 millions sterling of the money it required was repaid by Tuesday night. The reserve indicates only a comparatively small decline, being still within £100,000 of 25 millions sterling. Its proportion to the liabilities of the Bank is well over 51 per cent, as against 4814 per cent twelve months ago, when the reserve was practically 25½ per cent.

Upon the Stock Exchange business remains virtually as inactive as ever, but with the exception of that of American railroad securities, which fluctuates from hour to hour, according to the cable messages from Wall Street, the tone throughout has been firm. The slight check which the downward tendency of rates in the money market has received has been regarded by the shrewder operators rather favorably than otherwise. Money is cheap enough in all conscience, and no one desires to see a wild gamble which would end in onerous rates a few months hence, and of course embarrass-

ment. Consols hardened and most of the higher class of investment securities have been firm in sympathy. Home rails finctnated to some extent according to the varying forecasts of the dividends. American rails, as has been said, have been dependent wholly upon advices from Wall Street. In the South African market the dominant question remains and must continue to remain the difficulties regarding labor. The vast majority of what may be called the controllers of mines are in favor of importing Asiatic labor, and, so far as can be gathered, they are indifferent as to whether this labor be Chinese or Indian. The feeling of the Colonial Office here and of the ordinary colonist out in South Africa seems to be against this course (which is a quite natural attitude to adopt) unless it can be proved absolutely necessary. Of course the colonist well knows that the prosperity of the Transvaal depends upon the development of the mining industry, Goldmining is the great trade out there, though it is only reasonable to hope that eventually a great agricultural industry may spring up. If, therefore, it is proven to the satisfaction of the ordinary colonist that Asiatic labor is essential, he will of course give way; but until an understanding can be arrived at which will settle the labor difficulty, any arrangement of that difficulty seems to be unlikely.

As has been the case so long, the India Council continues to sell its drafts well. It offered for tender on Wednesday 50 lacs, and the applications exceeded 4,117 lacs at prices ranging from 1s. 3 81-32d. to 1s. 4 1-32d. per rupee. Tenders for bills at 1s. 4d. and for telegraphic transfers at 1s. 41-32d. were allotted in full. Later the Council made a special allotment of 4 lacs in bills at 1s. 4d. per rupee.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c. compared with the last three years:

Messrs. Pixley & Abell write as follows under date of July 9:

Gold—The Continent has continued to be a good buyer and all arrivals have been taken, chiefly for Paris The Bank has received 27,000 and has lost £40,000. For the week—Arrivals: Austra ia, £47,000; Cape, £133,000; Chile, £5,000; total, £185,000. Shipmente: Bombay, £27,250; Calentta, £5,000; total, £32,250 For month of June—Arrivals: Germany, £2,000; Belgium £78,000; France, £10,000; South Africa,£1,704,000; East Indies, £203,000. Shipments: Germany, £1,128,000; Belgium, £20,000; France, £225,000; East Indies, £164,000.

E164,000.

Silver The market generally has been a quiet one with small fluotuations only Offerings have been on a limited scale, whilst India has been but a moderate boyer. The market closes steady at the quotations. The Indian price is Rs. 62. For the week—Arrivals: New York, £130,000; Cape, £11,000; Chile, £2,000; total, £143,000. Shipments: Bombay, £25,900; Oalcutta, £15,000; total, £10,000. For month of June Arrivals: Germany, £32,000; France, £10,000; U. S. A., £438,000; East Indies, £413,000. Shipments: Russis, £20,000; Germany, £52,000; France, £99,000; East Indies, £264,000. Mexican Dollars—There has been a good demand for the Straits and the quotation has advanced rapidly to £13,000, at which price there are still buyers. Mexico has been a moderate seller. Shipments to the Straits, £57,200.

The following shows the imports of cereal produce into the Jnited Kingdom during the forty-four weeks of the season compared with previous seasons:

New York City, Boston and Philadelphia Banks.—Below is a summary of the weekly returns of the Clearing House Banks of New York City, Boston and Philadelphia. The New York figures do not include results for non-member banks.

We omit two ciphers (00) in all these figures.

† Including for Boston and Philadelphia the item "due to other banks," and also Government deposits. For Boston these Government deposits amounted on July 18 to \$6,329,000; on July 11 to \$6,340,000.

Imports and Exports for the Week.—The following are the imports at New York for the week ending for dry goods July 16, and for the week ending for general merchandise July 17; also totals since beginning first week January.

FOREIGN IMPORTS.

For week.	1903.	1902.	1901.	1900.
Dry Goods	\$2,732,309 10,860,540			\$1,973,496 6,528,522
Total	\$13,592,849	\$11,023,640	\$11,370,877	\$8,502,018
Since Jan. 1. Dry Goods General Merchandise	\$76,780,263 262,641,670			\$69,784,510 241,808,267
Total 29 weeks	\$339,421,933	\$309,655,376	\$314,710,251	\$311,592,777

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending July 20, and from January 1 to date.

EXPORTS FROM NEW YORK FOR THE WEEK

	1903.	1902.	1901.	1900.
For the week Previously reported	\$7,611,480 268,013,633			\$13,818,16 5 292,066,59 4
Total 29 weeks	\$275,625,113	\$263,769,726	\$292,063,320	\$305,884,759

Note.—As the figures of exports as reported by the New York Custom House from week to week frequently show divergence from the menthly totals, also compiled by the Custom House, we shall from time to time adjust the totals by adding to or deducting from the amount "previously reported."

The following table shows the exports and imports of specie at the port of New York for the week ending July 18 and since Jan. 1, 1903, and for the corresponding periods in 1902 and 1901.

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK

İ		EXP	ORTS.	IMPO	ORTS.
i	Gold.	Week.	Sinee Jan. 1.	Week.	Since Jan. 1.
	Great Britain France. Germany West Indies Mexico. South America All other countries.	\$14,000 300,333 16,500	3,076,535	\$17,479 8,477	\$2,929,115 123,690 170,805 373,324 35,008
	Tetal 1903	\$330,833 45,945 29,410	16,976,906	59,001	\$3,631,942 1,354,166 1,478,708
	Great Britain. France Germany West Indies Mexico South America	\$247,985 216,475 12,086	1,590,994 2,600	\$30	\$44,000 20,988 745,468 124,040
	All other countries Total 1903 Total 1902 Total 1901	\$476,546 343,745 947,750	\$18,184,988 18,261,157	\$1,930 4,615	2,839 \$937,335 738,945

Of the above imports for the week in 1903, \$2,876 were American gold coin and \$—— American silver coin. Of the exports during the same time \$16,500 were American gold coin and \$11,500 were American silver coin.

WALL STREET, FRIDAY, JULY 24, 1903.-5 P. m. The Money Market and Financial Situation.—The general tone of the security markets this week is similar to that which has existed for some time past. Liquidation and depression have continued to be the prominent features, resulting in the suspension of two Stock Exchange houses to-day. In addition to the causes, known and unknown, which have heretofore contributed to the market's depression, there has been a report of damage to the corn crop by hot winds and the failure of a construction company with headquarters in Boston and with operations in other cities. The former was no doubt untrue and the importance of the latter greatly exaggerated. Otherwise there is nothing new of importance in the general situation.

As is well known, the important feature of that situation is the crop outlook, and this will probably continue to be the case until the harvests are secured. No doubt cotton, corn and spring wheat are backward. The markets are therefore sensitive, and reports day by day from the agri-

cultural districts are regarded with interest.

Call-loan rates have been unusually low, but lenders are discriminating as to collateral, and for time loans rates firm. The open market rates for call loans on the Stock Exchange

during the week on stock and bond collaterals have ranged from 1½ to 3 per cent. To-day's rates on call were 1½ to 2½ per cent. Prime commercial paper quoted at 5½@t34 for

endorsements and 534 for the best single names.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £41,294, and the percentage of reserve to liabilities was 57.96, against 51.87 last week, the discount rate remaining unchanged at 3 per cent. The Bank of France shows an increase of 49,250,000 france in gold and 2,825,000 francs in silver.

NEW YORK CITY CLEARING-HOUSE BANKS.

	1903 July 18	Differences from previous week	1902 July 19	1901 July 20
Capital	\$ 109 922,700	\$	98.872.700	73.722 700
Surplus	129 168,900		113,074.600	95,357,400
Loans & discounts	907,015 500			856 199,500 80 710,100
Net deposite	43,908900		940,692,900	939,145 300
Specie	160 863.400		173,168 700	177 501 800
Legal tenders	76 217,100			78,313 900
Reserve held	237.080.500	Inc 6.036.200	250.882,500	255,815,700
25 p. c. of de posits			235,173 225	234 786,325
Surplus reserve	13,278 478	Ine 5,270,000	15,709.275	21,029,375

\$37,26,800 United States deposits included, against \$37,274,500 last week. With these United States deposits eliminated, the surplus reserve would be \$22,595,675 on July 18 and \$17,327,100 on July 11.

NOTE.—Beturns of separate banks appear on the preceding page.

Foreign Exchange.—The foreign exchange market opened firm, but it gradually grew easier, influenced by offerings of finance and of security bills and by a light demand for

remittance; closing prices were about the lowest of the week. To-day's (Friday's) nominal rates for sterling exchange were 4 84½@4 85 for sixty day and 4 87@4 87½ for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8385 @4 84 for long, 4 605@4 8615 for short and 4 8635@4 8645 for cables. Commercial on banks, 4 8330@4 8360, and documents for payment, 4 82%@4 83%. Cotton for payment, 4 82% ments for payment, 482% @483%. Cotton for payment, 482% @483; cotton for acceptance, 48330@48360, and grain for payment, 4834@483%.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 193 (\$\frac{193}{65}\$ 193 for long and 5 16% \$\frac{167}{695}\$ for short. Germany bankers' marks were 94 15-16@95 for long and 95% \$\frac{95}{7-16}\$ for short. Amsterdam bankers' guilders were 40¶@40 1 16 for long and 40 5-16†@40 5-16 for short.

Exchange at Paris on London to-day, 25 f. 14c.; week's

range, 25 f. 14 c. high and 25 f. 12 c. low.

The week's range for exchar ge rates follows: Sterling Actual_ -Cables .--High... | 4 8420 @ 4 8430 Low... | 4 8335 @ 4 84 4 8650 7 4 8660 4 8615 Paris Bankers Francs-High... | 5 1634 @ 5 1838" | Low... | 5 1938" @ 5 1938 | German Bankers Marks— High... | 94 b c @ 95 Lov... | 94¹⁵1a @ 95 95½† @ 95½ 95% * @ 95716 Amsterdam Bankers' Guilders-

The following were the rates for domestic exchange on New York at the under-mentioned cities to-day: Savannah buying 25c. per \$1,000 discount, selling 371/2c. per \$1,000 premium; Charleston, buying par, selling 252, per \$1,000 premium; New Orleans, bank, 50c. per \$1,000 premium; commercial, par @ 25c. per \$1,000 premium; Chicago, 15c. per \$1,000 premium; St. Louis. 25c. per \$1,000 premium; San Francisco 5c. per \$100 premium.

State and Rullroad Bonds.-Sales of State bonds at the Board are limited to \$5,000 Tennessee settlement 3s at 94.

The volume of business in railway bonds has been small, the transactions averaging only a trifle over \$2,00,000 par value per day. The market has had a tendency to weakness, although much less irregular and depressed than the market for stocks.

United States Bonds.—No sales of Government bonds have been reported at the Board this week. The following are closing quotations; for yearly range see third page

	Interest Periods		July 20	July 21	July 22	July 23	July 24

This is the price bid at the morning board; no sale was made.

Railroad and Miscellaneous Stocks.- The stock market has been much less active than last week and decidedly irregular. Liquidation was renewed on a fairly liberal scale, in the course of which a long list of active railway issues sold from 2 to 5 points below last week's closing prices. The t ne of the market for railways improved on Wednesday, and a part of the decline noted was recovered. Selling pressure appeared again to-day with increased force. In many cases new low records were established, but a sharp rally at the close carried prices up an average of about two points from the lowest. There has been practically no exception to the general trend of the market, the changes in quotations differing only in degree. Some of the Southwestern issues, including Mexican Central, St. Louis & San Francisco and Rock Island, were leaders in the downward movement, and the last-named, slow to respond to the reactionary tendency, close with a net loss of 7¼ and 6 points for the common and preferred, respectively.

The sensational features of the market are found in the

list of miscellaneous and industrial stocks. New York Air Brake led with a decline of 29 points, less than 3 of which it has recovered. Colorado Fuel & Iron follows with a loss of nearly 14 points, and Tennessee Coal, Iron & Railway has declined nearly 10 points. The United States Steel issues were under special pressure early in the week, and again today. The copper stocks were conspicuous, Anaconda having declined from 84 to 64 and Amalgamated from 49½ to 35¾. General Electric declined 12 points, a small part of which it has recovered. American Sugar has been relatively steady, covering a range of less than 5 points.

For daily volume of business see page 187.

The following sales have occurred this week of shares nct represented in our detailed list on the pages which follow.

Outside Market - In sympathy with the general slump in prices on the Stock Exchange, the market for unlisted securities this week experienced some very sharp declines. The feature of the trading was a sensational break of 46½ points in Standard Oil stock. The initial transaction was on Monday at 641½; from that figure the price declined almost steadily and to-day reached 595. Northern Securities stock has been considerably less active this week, total transactions amounting, it is estimated, to only about 10,500 shares. The price movement has been decidedly irregular, shares. The price movement has been decidedly irregular, the stock advancing 1½ points on Saturday to 91½, then reacting on Tuesday to 88½ and back again the following day to 91; to-day it sank to 86½ and closed at 86½. Seaboard Air Line issues were weak; the common lost 1¾ points, to 19½, but closed at 19½; the preferred declined from 35½ to 34, and ended the week at 34¼. American Can shares were severely depressed, but recovered somewhat late to-day. The common moved down from 4½ to 3¼ and closed at 3½; the preferred dropped 6½ points to 35, but recovered to 38. Ohio Elevator common fell off 6 points to 29. Manhattan Transit declined mon fell off 6 points to 29. Manhattan Transit declined from 2½ to 2½. Hackensack Meadows, which last week sold at 75%, fell off this week to 4, then moved back again to 51/2 and to-day dropped to 3. Seaboard Steel & Iron gained a point to 1834. The shares of the United Gas & Electric Co., the new company which is being organized for the purpose of acquiring the Bay State Gas Co. of Delaware, were traded in "when issued" for the first time on Tuesday; the price advanced from 1% to 2%. Greene Consolidated, which has been the feature of the copper group, advanced a point early in the week to 211/8, but subsequently fell off to 183/4; the close was at 19. Tennessee declined 4 points to 241/2 and closed at 25.

Outside quotations will be found on page 187.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

t Results on Monterey & Mexican Gull are included from March 1, 1902. Mexican currency. Includes trans-Missouri lines in 1903, beginning March 1, making length of road on which carnings are reported 7,357 in 1903, against 5.876 miles in 1902. b Does not include the Houst & Tex. Cent. and its subsid. lines for May either this year or last, but these lines are included for 10 months to April 30 in both years. c Covers lines directly operated. Includes the Chicago & Eastern Illinois in both years. Including Sav. Flor. & West. and also Florida Southern and Sanford & St. Petersburg Rys. in both years. vOther income not included in the gross either for month or from July 1. vo Includes Lake Eric & Det. Riv. Ry. from Jan. 1 both years. Approximate for June.

Latest Gross Earnings by Weeks.—In the table which follows we sum up separately the earnings for the second week of July. The table covers 49 roads and shows 14.81 per cent increase in the aggregate over the same week last year.

Net Earnings Monthly to Latest Dates.—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of July 18, 1903. The next will appear in the issue of Aug. 22, 1903.

1903. The nex	t will a	ppear in	the issue	of Aug. 22	3, 1903.

STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

- i Spanish silver.
- These are results for properties owned.
- c Results for main line.
- d Figures here are from July 1.

 n These earnings include the Detroit United Ry., Detroit & Port Huron Shore Line and the Sandwich Windsor & Amherstburg Ry.
- r These figures are from Mar. 1 to June 30. t Figures for 1902 cover only the Clev. Elyria & Western Ry. Co.

Street Railway Net Earnings.—In the following we show both the gross and the net earnings to latest dates of all STREET railways from which we have been able to procure monthly returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as received, and once a month (on the last Saturday of the month) we bring together all the reads reporting as is done to-day. Besides the roads furnishing monthly returns, we have added this time the roads which make quarterly

Calamet & Hecla Mining Co.

(Report for the fiscal year ended Apr. 30, 1903.)

President Alexander Agassiz says in substance:

The character of the new openings on the conglomerate belt tributary

The character of the new openings on the conglomerate belt tributary to the Red Jacket shaft has, as in former years, been unsatisfactory. We are preparing to sink a slope on the 57th level to work the northern part of the mine known as the five forties.

We are installing underground the pockets planned to serve the Kimberly skips now building to replace the cage and-oar system in use for holsting at the Red Jacket shaft. This we hope to have in or mmission by the close of navigation. The pockets have a capacity of nine tons. Our railroad tracks are connected with those of the Copper Range Railroad, to whom we have leased depot grounds on the outskirts of Red Jacket village.

The six additional heads in the extension of the Hecla mill are now in commission. The washing machinery, as well as the Chits mills used for regrinding, is driven by electric motors. The equipment of this new mill is most satisfactory. It shows an important reduction in the cost of a amping as well as a material saving in the tailings from the mill. We have planned to equip both our mills according to this new system; without unusual delays we should remodel four heads annually. heads annually.

The new 60-foot sand wheel has been erected and is running satis-

factorily; its capacity is sufficient to distribute the waste from 18 heads to a distance of 2,800 feet from the mile. The machinery for the electric power house has been erected and is in commission.

The results, assets, etc., for four years follow:

Consolidated Lake Superior Company.

(Report on the Properties by President Shields, May 5, 1903.)

Following are condensed excerpts from a report made under date of May 5, 1903, by President Shields regarding the condition of the properties and their probable earnings for the year 1908-04. (The full report is given in the "Iron Age" of July 25.)

IRON ORE PROPERTIES.—The Helen Mine, on the Michipicoten range, is the only iron ore property actually developed. Taking as datum the former level of Lake Boyer, now drained, there was a peak of ore which originally rose about 95 feet. This was removed and open workings were carried to a depth of about 25 feet. The first underground level was 85 feet below datum and the bottom of the open pit is now being broken down to this level. Ninety-five feet below talks level, or 185 feet below datum, is the second level, where a large amount of development work has been done. The walls between which the ore body lies are practically parallel, and, our engineers agree, probably continue thus to a considerable depth.

Above the lower level it is safe to count upon about 700,000 tons measured up. Present knowledge warrants the oa culation that every foot of additional depth within the walls now defined will add 7,500 tons to the present ore body. [Since this report was written the drill has been put down 107 feet below the lower level and is still going in good ore. July 11, 1903.] IRON ORE PROPERTIES .- The Helen Mine, on the Michipicoten range,

In three years the Helen Mine has shipped 534.000 tons of ore. The present output is from 1,000 to 1,200 tons per day, which we may be able to bring up to 1.500 tons during the season. We are counting upon the shipment of about 350,000 tons during the season. This will about represent the shipments during our fiscal year ending June 30, 1904, and allowing a profit of 30 cents per ton, the Helen Mine should yield a net profit of not less than \$105,000 during the year. Helen ore is of non-Bessemer grade and it will average for this season about: Iron, 59.00 p. c.; sulphur, 0.14 p. c.; phosphorus, 0.10 p. c. The quality is improving as the deposit deepens. The ore is of such physical structure as to make it in demand for use in mixture with soft and fine Bessemer ores.

On the Michipicoten range there are several other iron ore prospects

physical structure as to make it in demand for use in mixture with soft and fine Bessemer ores.

On the Michipicoten range there are several other iron ore prospects owned by your company, which are of sufficient promise to warrant thorough examination. The Josephine property is now being redrilled before proceeding further with the shaft, which has already been put down about 150 feet. [Since this was written, four drill holes have been put down on the Josephine, with satisfactory showing of ore that promises to come within the Bessemer limits.] On the hill above the Helen Mine there is a larce deposit of siderite—carbonate of iron—which has never been explored. On the Mesaba range we have one-quarter of section 16, which has been known as the Woodbridge Mine. Only a small portion of this tract has been explored with the drill, but within this limited area 2,500,000 to 3,000,000 tons of good non-Bessemer ore have been measured up. This property lies about four miles from a railroad and no development has been begun. In the Helen Mine there is one pocket of pyrites which our engineers estimate to contain about 150,000 tons.

IRON AND STEEL WORKS.—The iron and steel plant at Sault St. Marie, Ontario, includes two blast furnaces, with by-product retorts and beelive kilns for making charcoal; a Bessemer steel plant and a rail mill. The smaller stack, which is intended to use charcoal, is practically completed. The by-product plant of 20 retorts and 40 beelive kilns, with 16 more which are being built, will furnish the charcoal necessary for this furnace. The construction of the second furnace, which will make coke iron, is well advanced, and the ore-unloading and handling plant is approaching completion. We are counting upon having both furnaces in blast by July 1 and at present there is nothing to indicate that we shall fall in this. The Bessemer steel plant and rail will were run for several months last fall, and beyond some changes which have been suggested by this experience the works require no further constr

nothing to indicate that we shall fall in this. The Bessemer steel plant and rail utill were run for several months last fall, and beyond some changes which have been suggested by this experience the works require no further construction at present.

This whole plant is well designed and ought to operate with economy. At present we have no Bessemer ore. We can use part Helen, but shall have to buy Bessemer ore for this mixture. It will also be necessary to buy some pig iron to supplement our own production. Even under these conditions we can probably make a good profit on rails, particularly as the duty of \$7 per ton will go into effect when we show that we can make rails to meet reasonable requirements. [Since these estimates were prepared the Canadian Government has increased the pig iron and steel bounties 20 per cent, which will increase the estimated profits on steel rails about \$7 cents per ton.]

With 20 per cent of Helen ore at \$2.25 per ton, 80 per cent of old range Bessemer at \$4.25 per ton, coke at \$6 per ton and charcoal at 6 cents per bushel, the cost of charcoal pig iron is figured at \$12.66 per ton and ooke iron at \$13.73 per ton, credit being given for the bounty in both cases. With 250 tons per day of coke iron and 150 tons of charcoal iron from our own furnaces and 100 tons per day of coke iron from Midland furnace. in which we have a two-fifths interest (taking this iron at \$20 per ton), we have a daily supply of 500 tons of pig iron at an average cost of \$14.66 per ton. On this basis the mill cost of rails is estimated at \$22.47 per ton. Interest and depreciation have been allowed at 10 per cent on \$4,500,000, which represents the investment in the furnaces and mill, with all of their accessories, and the charcoal kilns and by-product plant. The product of rails for the fiscal year has been put at 125,000 tons, or 500 tons per day for 250 days. On this basis there would be a charge of \$3.60 per ton for interest and depreciation, and adding this to the mill costs makes the total cost of rails

Assuming that we shall get from \$30 to \$31 per ton at the mill for rails, which is allowing for only a small portion of the advantage accruing from the \$7 duty, there will be at least \$4 per ton profit, or \$500,000 on an output of 125,000 tons, but to be safe this has been

out down to \$400,000.

s500,000 on an output of 125,000 tons, but to be safe this has been out down to \$400,000.

LUMBER OPERATIONS.—The new saw-mill at Sault Ste. Marie. Ontarlo, has been running since the first of the year and has cut from \$0,000 to 125,000 feet per day, besides laths. The out is mainly pine, and the entire output for the season has been sold at \$22 per thousand for merchantable stuff, \$10 for culls and \$5 for dead culls. This mill ought to yield a profit of \$85,000 for the coming year, but this estimate has been reduced to \$75,000. The small mill at Goulais it will probably be found advisable to shut down. The veneer mill at the \$00 has been running only a few weeks and I do not feel safe on figuring on more than \$40,000 of profit from it, which is less than one-third the estimated earnings on eingle veneers alone without allowing anything for profit on glued-up stock.

PULP MILLS.—The Sault Ste. Marie Pulp & Paper Co. has been losing money heavily on its pulp. With logs at several dollars per cord below the prevailing price, these mills ought to be making good profits. The losses appear to have been due to the attempt to get gas from the roasting of pyrrhotite, which has not yielded enough gas to enable the mill to make more than 18 or 20 tons of pulp per day on a rated capacity of 50 to 60 tons. The fourth dry machine, just installed, completes the equipment of this mill as planned. Both the ground wood and sulphite mills have been gradually reducing their costs until they are now about equal to the prices obtained for the pulp. These mills I should say ought to earn not less than \$75,000 for next year.

RAILROADS AND STEAMSHIPS.—The four one steamers and two ore

RAILROADS AND STEAMSHIPS .- The four ore steamers and two ore

RAILROADS AND STEAMSHIPS.—The four ore steamers and two ore barges, and the three passenger steamers, can probably earn at least \$125,000, but it seems best to set aside \$75,000 of this sum for depreciation; this leaves \$50,000 as their net earnings for the coming year. With 350 000 tons of ore to move and large quantities of other materials, the Algema Central & Hudson Bay Ry. can probably earn \$200,000, but \$175,000 is surely a safe estimate. The Manitoulin & North Shore Ry. can be depended upon for not less than \$25,000. Street Railway and Ferry.—The two street railway lines and the ferry across the St. Mary's River have started off with good traffic, and the competing ferry has just come into our persession. While it seems probable that these lines will earn more than interest on the bonds, I have not counted upon more than the \$30,000 required for interest. interest

WATER AND LIGHT.—The Tagona Water & Light Co. has the water and electric-lighting franchise for the town of Sault Ste. Marie, Ontario, and leaving out all service rendered to our other companies, will earn the coming year \$35,000 or more.

MICHIGAN LAKE SUPERIOR POWER CO—The power contract of the

MICHIGAN LAKE SUPERIOR POWER CO—The power contract of the Union Carbide Co. will be due to yield something on July 1, 1903. At that time rental will commence on one-half of the 20,000-horse power which the Carbide Company is to take. The rental of this first 10,000 horse power will be \$100,000 per annum. The Trans-St. Mary's Traction Co. is the only other purchaser of power at the present time, and there will be an income of \$10,000 or more from this source. We have therefore \$110,000 as the assured income of the Michigan Lake Superior Power Co. during the year. This is not a profit, as interest on its bonds amounts to \$175,000 per annum.

Lake Superior Power Co.—The principal earnings of the Lake Superior Power Co. are accounted for in the income from the Helen Mine, which is owered and operated by this company. There are two power contracts, however, which will yield about \$20,000, viz: Canadian Electro-Chemical Co., \$12,500 per annum, and the International Transit Co. about \$8,000.

Transit Co. about \$8,000.

CAR SHOPS—The car shops of the Algoma Commercial Co., are profitably occupied on a contract for 500 flat cars for the Canadian Pacific Ry. These shops represent a small investment and can'turn out about six flat cars per day; \$15,000 is a safe estimate of the profits on new work during the year.

GRACE GOLD MINE.—This mine has yielded for several months a net profit of \$1,500 to \$1,800 per month, but the ore deposit is not likely to prove of large extent. It is entirely safe to count upon \$15,000 net profit from this mine for the year, as there is a large amount of ore on hand.

ore on hand.

The estimated earnings for the various undertakings for the fiscal year ending June 30, 1904, and the fixed charges to be met during the same period are summarized below:

	ESTIMATED	EARNINGS.	
Helen Iron Ore Mine	\$105,000	Street railway & ferry	830,000

The Consolidated Lake Superior Co, owns \$248,000 of these bonds, the luterest on which might be deducted; but it may be deemed desirable to dispose of these bonds and add the proceeds to our working capital.

"This statement may be accepted as a conservative estimate of the earnings for the coming fiscal year. Any change from these figures is likely to be in the direction of larger earnings rather than a decrease."

Directors Henry K. McHarg, Edward J. Berwind and Samuel Rea append to the report their opinion that its statements are conservative and trustworthy.—V. 77, p. 149.

Montreal Light, Heat & Power Co.

(Report for the fiscal year ending April 30, 1903.)

President H. S. Holt says in part:

Acquisitions.—Your company has acquired the Lachine Rapids Hydraulic & Land Co., the Citizens' Light & Power Co. and the Standard Light & Power Co. The cost of the purchase has been included in the Light & Power Co. The cost of the purchase has been included in the balance sheet submitted herewith, but the earnings and expenses of these plants will only form part of this company's operations from the beginning of the coming fiscal year. Your company is now supplying all the gas and electricity used in the city of Montreal and surrounding suburbs. To provide for the purchase of these properties the shareholders authorized an issue of \$4,000,000 "Lachiue Sinking Fund Bonds." (See V. 76, p. 923.)

REFUNDING.—During the year a further \$1,000,000 of the 4½ p. c. bonds were issued, of which \$243,334 was used to retire an equivalent amount of 4½ p. c. bonds of the Montreal Gas Co. and \$57,473 to retire in a like manner seventy-seven 4½ p. c. bonds of the Royal Electric Co., and there remains in the treasury \$240,000 unsold.

IMPROVEMENTS, ETC.—The stores and shops have been centralized in one building, and the company is now in a position to do all necessary repair work itself. The Queen St. station has been remodeled and made thoroughly fire-proof.

To provide for the increasing consumption of gas, contracts have been let for the operation and extension of the Elm Station Works.

During the year 17,806 incandescent lamps, and motors equivalent

been let for the operation and extension of the Elm Station Works.

During the year 17,806 incandescent lamps, and motors equivalent to 5,093 horse power, were added to the company's circuits, exclusive of the companies recently acquired. There were installed during the year 3,565 gas and 465 electric meters, 2,305 gas stoves and 1,338 new services, and 7.3 miles of new mains were laid. The increase in the output of gas was 122,014 cubic feet, equal to 16 p. c.

CHAMBLY DAM.—On Nov. 30's portion of the Chambly dam was carried away, causing a serious loss in property and revenue. The dam and power house foundations are now being rebuilt in such a manner that, we are assured, there will be no possibility of similar damage in the future. The changes made in the plans will give the company 1,600 additional horse power, which, if capitalized will pay for the reconstruction. Owing to the break in the dam, the company suffered a loss in revenue, and an increased operating expense, estimated at \$153,351 net earnings.

Virginia-Carolina Chemical Company. (Report for the year ending June 15, 1903.)

Secretary S. D. Crenshaw says:

Your management desires to say that at the beginning of the past fiscal year they deemed it wise to take advantage of the very large earnings of your company for the previous year to strengthen its position by substantially increasing its tonnage output within its terminant approach within the first that the large and within the terminant of the standard of the st tion by substantially increasing its tonnage output within its territory, especially in view of the fact that the large sums expended for the past few years on improvements of and additions to your plants have increased their productive capacity fully 33½ p. c.

It was realized that this program could be carried out only at the expense of some profit for the year, and that moreover your company was confronted with a very decided advance in the price of materials,

supplies and labor over the previous year. After considering the matter carefully your management reached the conclusion that the ultimate benefit to be derived for the stockholders by securing a greater percentage and volume of husiness and tonnage outweighed the question of working solely to the end of larger profits for this one

year.

As a result of working steadily on this line the business thas been pushed from 7.9,003 tons the previous year to a total of 983,634 tons the past fiscal year, an increase of 26.26 p. c. of actual business, in addition to which your company soid and had orders for 35,000 tons more (over 3½ p. o. additional), which they were unable to ship owing to the inability of the rairroads to furnish cars.

Your mangement is clearly of the opinion that the securing of this increased business and tonnage will prove of far greater benefit and value to the stockholders in the future than any additional profits for this year, especially as the earnings for the past two years considered together have given an excellent average outcome.

Your company commences its new fiscal year with a greatly strengthened position, and as far as humanity can see, the outlook has never been more promising for the future.

The results for four years past compare as follows:

Gross profits......\$3,231,377 \$4,143,471 \$2,139,509 charged off........635,060 PROFIT AND LOSS ACCOUNT YEAR ENDING JUNE 15. 1899-00. Total net profits..\$2,596,317 \$3,481,384 \$1,783,955 \$1,539,249

GENERAL INVESTMENT NEWS.

BAILBOADS, INCLUDING STREET ROADS.

Atchison Topeka & Santa Fe Ry.—See San Francisco & Northwestern Ry. below.—V. 77, p. 87.

Atlantic & Danville Ry.—Mortgage.—The company has made a second mortgage to the Trust Co. of America of New York, as trustee, to secure an issue of \$1,525,000 second mortgage \$1,000 four per cent gold bonds. Of the bonds \$775,000 cannot be issued until July 1, 1904, and \$750,000 not until July 1, 1909. The principal will mature July 1, 1948 without option of earlier redemption; interest payable Jan. 1 and July 1. These bonds will provide for the payment of the amount remaining due on the preferred stock (\$1,239,680), this being payable partly next year and partly in 1909. The rental from the Southern Railway under the lease will just cover the interest on these bonds when issued.—V. 73, p. 1061.

Bangor & Arcostook RR.—New Stock.—The Maine Rail road Commission has approved the proposition to issue \$500,000 capital stock for the purpose of buying the leased line, the Fish River RR., extending from Ashland to Fort Kent, 53 miles.—V. 77, p. 35.

Boston & Worcester Electric Companies.—See Boston & Worcester Street Ry. below.—V, 76, p. 211.

Boston & Worcester Street Ry .- Authorized .- The Massachusetts Railroad Commission has authorized the issue of \$1,000,000 5 p. c. 20-year bonds; also \$250,000 stock, making the total stock outstanding \$1,250,000. Compare V. 77, p. 86.

(The) Cambria & Clearfield Railway.—Merger.—The stockholders of the Pennsylvania & Northwestern RR. Co., Cambria & Clearfield RR. Co., Cresson & Irvona RR. Co., Millersburg RR. Co., Ebensburg & Black Lick RR. Co. and the Tyrone & Clearfield RR. Co., all controlled by the Pennsylvania RR. Co., voted on July 17 to merge these companies into a new company, to be known as "The Cambria & Clearfield Railway Co."—V. 77, p. 35.

Canadian Northern Ry.—Earnings.—A press dispatch re-

\$223,000. Gross earnings for the first week of July, \$51,200. an increase of \$26,200 over same week last year.—V. 77, p. 87.

Central Pennsylvania Traction Co.—President.—Frank B. Musser, Superintendent of the Harrisburg Traction Co., has, it is stated, been elected President of the lessee company, the Central Pennsylvania Traction Co.

Earnings.—See Harrisburg Traction Co. below.—V. 76, p.

Chattahoochee & Gulf RR.—Bonds Offered.—Secretary and Treasurer H. W. Johnson, No. 26 Bryan Street, East Savannah, Ga., will receive bids at or before 12 o'clock, noon, Aug. 22, 1903, for all or any portion of an issue of \$108,000 first mortgage 5 p. c. thirty-year gold coupon bonds of this company, said bonds, limited to \$4,500 per mile, being issued under the terms of the existing mortgage to The Citizens' Bank of Savannah, Savannah, as trustee, for the purpose of building an extension of the main line for a distance of about 24 miles beyond Sellersville, Ala. -V. 75, p. 1301.

Chicago Burlington & Quincy RR.—Called Bonds.—The New England Trust Co. of Boston will pay at par on Aug. 1 Denver extension 4 per cent bonds due Feb. 1, 1932, to the following amounts, viz.: \$51,000 in \$1,000 bonds and \$1,600 in \$100 bonds.

Notes.—This company's 5 per cent note for \$5,000.000 is to be dated Aug. 1, and will be payable March 15, 1904. It is secured by \$7,000,000 C. B. & Q. (Illinois Division) 3½ per cent bonds, with a 20 per cent margin in market value to be kept good. Denominations of participation receipts, \$5,000 and upwards. The notes are not subject to call before maturity.—V. 77, p. 146.

Chicago Great Western Ry.—Omaha Line Partly Opened. -The company on July 20 put in operation its Omaha line as far as Tenant, 30 miles from Council Bluffs. The remainder of the line to Omaha has been graded and the rails are laid, but the ballasting will not be finished and the road opened for traffic before Aug. 15. The distance from Chicago to Omaha by the Great Western is stated as 500, contrasting with from 488 to 499 mlles by the existing lines.

An official of the Great Western is quoted as saying:

We will run our own engines and cars to the packing houses at South Omaha over the tracks of the Union Pacific. Our line to Omaha will be first-class and will round out our system in fine shape. When the contract was made with the packers whereby we were guaranteed a certain share of their business for a period of seven years, our competitors claimed that the packers would not maintain the agreement; that they would give us the amount of traffic agreed upon for a short time and then ignore us. That prediction has not been verified. On the contrary, the packers have strictly adhered to their agreement with us, and they will continue to do so.—V. 76, p. 809.

Chicago Union Traction Co.-Franchise Rights Extended Until Nov. 30.—The City Council on Monday passed ordinances extending all the rights of the Chicago City Railway Co., the North Chicago Railway Co. and the Chicago West Division Railway Co. which the city claims expire July 30 until Nov. 30, with the proviso that neither party waives any rights thereby. John S. Miller, as personal representative of Judge Grosscup of the United States Circuit Court, will open up in the meantime negotiations with the city for a settlement of existing difficulties.

Reorganization.—A tentative scheme of reorganization

Reorganization. - A tentative scheme of reorganization has been drawn, and it is believed will in the main be adopted. Its proposal to change the terms of the leases of the North Chicago and West Chicago companies has occasioned a heavy fall in the prices of the stock of those companies. The Chicago "Tribune" says in substance:

The Union Traction Co. has been paying stockholders of the North Chicago Street RailwayiCo. annual dividends of 12 per cent and giving those of the West Side Company 6 per cent as rental. The proposed plan would preserve these figures, but these instead of being guaranteed would be in the nature of preferred dividends, the road paying the amount justified by the earnings. It is estimated that at the present rate of earnings this would allow payment of dividends of 8 per cent on the North Chicago stock and 4 per cent to the West Chicago stockholders. It is claimed the company is earning \$1,800 a day more than it did last year.

Bonds for the improvements which must be made if the road is to develop its full earning capacity must take precedence of all stock, whether of the Union Traction Co. or the underlying companies, if the sale of the securities is to be expected. After the interest on these bonds is paid, the dividends to underlying companies and later to those of the Union Traction Co. would be in order.

Under the peculiar terms of the leases which Yerkes made with the Union Traction Co. on behalf of the underlying companies then in his charge, it would appear that the title to the franchises and other rights of the underlying companies were sold outright to the Union Traction Co. instead of being merely leased to it. It is also claimed that in case of a forfeiture of the lease the \$10,000,000 in stock deposited as security for its faithful performance would go to the Union Traction Co. instead of to the underlying ones.

posited as security for its faithful performance would go to the Union Traction Co. instead of to the underlying ones.

The plan proposes to correct this by re-writing the leases so as to make the ownership of the underlying companies perfectly plain, as well as to vest in them any frauchisee which may be procured from the city; also that in case of forfeiture the guaranty fund shall go to the stockholders of the underlying companies.

The committees representing the stockholders of the North and West Chicago Street RR. Companies reached an agreement on Thursday with the legal representatives of the Union Traction committee providing that "the rentals reserved in the lease shall be a preferential charge up to 12 and 6 p. c. [and to the extent of 8 p. c. upon the stock of the North Chicago and 4 p. c. upon the stock of the West Chicago shall be a preferential cumulative charge], and shall be payports the gross earnings for the year ended June 30, 1903, as \$2,448.000, heirg an increase of nearly \$1,000,000 over 1902; Union Traction Co. or its successor." In other respects the net, \$860,000; fixed charges, \$637,000; balance, surplus, modifications are to be in line with the foregoing statement from the Chicago 'Tribune," except possibly as regards the bond issue. The stockholders of the North and West Companies will shortly be asked to ratify the changes. -V. 77, p. 146.

Choctaw Otlahoma & Gulf RR.—Listing.—The New York Stock Exchange has been requested to list \$349,000 additional bonds of 1952, issued on account of the extension from Haileyville to Ardmore, 115 miles.—V. 76, p. 1855.

Cincinnati Interterminal R.—New Stock.—The share-holders will mert Aug. 17, 1903, at the office of the company in the Boylan Building, 14 East Fourth St., Cincinnati, for the purpose of increasing the capital stock by the issue of \$400,000 in first preferred 4 percent stock. The company was incorporated in Ohio in January last with nominal capital stock (\$10.000 in \$100 shares), to construct at Cincinnati a railroad (not a steam line) from McLean Ave. and Hopkins St. to Third St. and Eggleston Av., for the transfer of freight and passengers between the various railroad and other depots of the city. Jas. H. Woodard is President and J. Gano Wright Secretary.

Cleveland Electric Ry.—City Receives Only Two Bids.—Of the eleven three cont-fare franchises offered by the city (this company being excluded from bidding) only two were bid for, viz:

One for a line on Devison Ave., a cross-town line, and the other was for a line on Seneca St., between Jefferson St. and the intersection of Scrapted Ave. The bid for the former was made by Albert E. Green, who offered a fare of three cents cash, with five tickets for lifteen cents, seventeen for fifty cents and thirty four for a dollar. J. R. Zmunt offered to construct the road on Seneca St. and charge three cents for a single cash fare, give seventeen tickets for fifty cents and thirty-five tickets for a dollar.

The matter, it is said, will have to be fought out in the courts in order that the question of the rights of the Council to grant franchises be determined.-V. 77, p. 35.

Detroit Southern RR. - Stock Increased. - The shareholders on July 22 approved the proposition to increase the authorized capital stock from \$17,000,000 to \$26,000,000. See V. 76, p. 1355.

Extension to Toledo.—The Toledo & Springfield Ry. has been organized to build an extension from Hamler, on the Detroit Southern RR., to Toledo, a distance of 30 miles. The latter company will guarantee the 5 per cent bonds to be issued by the Toledo & Springfield Ry. It is expected to have the line in operation by the end of year. The road, it is said, will be also used by the Baltimore & Ohio for an entrance into Toledo. - V. 76, p. 1355.

Erie RR.—Dividend Increased.—The directors on Tuesday declared a dividend of 2 per cent upon the first preferred capital stock out of the surplus earnings for the six months ending June 30, 1938, payable Aug. 31, to stockholders of record on Aug. 1. Dividends on the first preferred shares were begun on Aug. 1901, and have heretofore been 1½ p. o. semi-annually.—V. 76, p. 1084.

Gainesville Jesserson & Southern RR.—To be Sold —At Gainesville, Ga., on July 21, Judge J. J. Kimsey of the Northeastern Circuit Court ordered that the property be sold under foreclosure at Gainesville on Sept. 15. The upset price is \$195,000, viz., for the road from Gainesville to Jefferson and Monroe, \$165,000, and from Monroe to Social Circle \$30,000. Out of the proceeds of the sale of the line from Social Circle to Monroe there is to be paid as far as may be the principal and interest of the \$40,000 Walton RR. bonds. V. 76, p. 1406.

Guayaquil & Quito Ry.—Called Bonds -Nine bonds (\$9,000), special series, sinking fund No. 1, have been called for payment at the office of the Council of Foreign Bondholders, No. 17 Moorgate St., London. There is only one bond issue, that of 1899, but certain portions of this are subject to special sinking funds such as that mentioned above. -V. 76, p. 593.

Harrisburg (Pa.) Traction Co.-Dividends.-With the regular cash dividend of 3 per cent has been declared the promised scrip dividend of 5 per cent; both payable Aug. 1.

Earnings.—Results for the late fiscal year are currently reported as follows: Gross, \$481,422; net, \$218,280; taxes, rentals and interest, \$60,650; dividends, car equipment, etc. (including, it is understood, dividends 5½ p. c., or \$110,000), \$154,781; balance, surplus, \$2,849. In 1901-02 the gross receipts were stated as \$166,530.—V. 76, p. 1192.

Kansas City Fort Scott & Memphis Ry.-Listed-The New York Stock Exchange has listed \$1,744,000 additional 4 p. c. refunding guaranteed bonds of 1936, making the total listed to date \$14 099,000. The proceeds of these additional bonds have been used as follows: For the retirement of Birming. ham Equipment Co. bonds, \$1,113,000; for the retirement of Ozark Equipment Co. bonds, \$314,000; for improvements, betterments, new equipment, etc., \$417,000; total, \$1,744,000. -V. 77, p. 146, 36.

Lancaster County (Pa.) Rallway & Light Co.-New Directors.—At a meeting on July 1 a larger representation was given to certain interests by increasing the number of directors from eleven to fifteen. The following board was

Samuel R. Shipley and James Brown, Philadelphia; Lindley B. Morrison, New Jersey; H. C. Shook, Mount Joy; William B. Given, Columbia; P. B. Shaw, Williamsport; W. W. Griest, John Hertzler, P. Eckert Slaymaker, J. W. B. Bausman, R. H. Brudaker, Charles B. Keller, H. L. Trout, H. K. Myers and J. Frederick Sener, Lancaster.

William B. Given continues as President. His annual report, it is stated, showed an increase in the net earnings of the system of \$12,099.—V. 73, p. 236.

Lehigh Valley RR.—See Lehigh Valley Ry. of New York below.—V. 77, p. 147.

Lehigh Valley Ry. of New York.—Merger. -This company has increased its capital stock from \$5,90,000 to \$10,000,000, and taken leases of the Seneca County Ry., the Waverly & State Line Ry. Co., the Rochester Southern RR. Co, the Middlesex Valley Ry. Co., the Canal Ry. Co. and the Elmira Cortland & Northern Ry. Co. This is preparatory to merging the several companies, all of which are subsidiaries of the Lehigh Vailey RR. Co.-V. 63, p. 357.

Louisville (Ky.) Ry.—Official Circular.—A circular signed by President T. J. Minary of the Louisville Traction Co. says in substance:

The Louisville Traction Co. has an authorized capital of \$2,500,000 of 5 p. c. commlative preferred stock and \$12,000 000 of common stock, and makes the following offer for the purchase of the preferred and common stock of the Louisville Railway Co.

It will give for the preferred stock of the Railway Company an equal amount of the preferred stock of the Traction Company; also

equal amount of the preferred stock of the Railway Company an equal amount of the preferred stock of the Traction Company; also 20 p c. in its common stock.

For each stare of the common stock of the Louisville Railway Co., and in consideration of the additional payment to the said Traction Company of \$55, the Traction Company offers to issue to the holder three that es of the common stock of the Traction Co.

The stock of the Traction Co. wiit be delivered under the foregoing offer on April 1, 1904. Shareholders of the Railway Co. who accept this proposition and deposit their shares with either the Fidelity Frust & Safety Vault 'o. or the Columbia Finance & Tru-t Co., both of Louisville, Ky., shall be entitled to receive from such Trust Company an amount in cash equivalent to interest on the par value of the common stock deposited, at the rate of 5 p o. per annum from July 1, 1903, to April 1, 1904, oayable quarterly, and interest at the rate of 5 p.c. per annum on the cash payments which they shall make from the dates of payment up to April 1, 1-04, and to interest on the par value of the preferred stock deposited at the rate of 5 p. c. per annum from April 1, 1903, to April 1, 1904, payable semi-annually. The stock deposited must be duty endorsed in blank and witnessed for transfer. Payment of cash amounting to 55 p.c. of the common stock deposited shall be made as follows: 25 p. c. on Sept. 1, 1903; 15 p. c. on bec. 31, 1903; 15 p. c. on the let of April, 1904. Any shareholder may pay the full amount of cash at any time on or after Sept. 1, 1903, but the etook will not be cellverable unit. April 1, 1901. The Traction Co. chall be cutiled to all dividends that may be declared on the deposited stock after July 1, 1903.

This offer expires on Sept. 2, 1903, but the Traction Co.

This offer expires on Sept. 2, 1903, but the Traction Co. reserves the right to extend it.—V. 77, p. 89.

Louisville Traction Co.—Official Circular.—See Louisville Ry. above. - V. 77, p. 89.

Muscatine North & South RR .- Sale Aug. 19 .- The foreclosure sale is advertised for Aug. 19 at Muscatine, Ia.; upset price, \$100,000. The New York Security & Trust Co. is the mortgage trustee.—V. 76, p. 654.

National RR. of Mexico.—New Certificates Ready.—Certificates for second preferred stock and deferred stock will be issued on and after July 27 next in exchange for the outstanding common stock at the rate of two shares of second preferred and one share of deferred stock for every three shares of common stock, at the office of the company, No. 30 Pine St., New York.

Holders of deposit receipts for voting trust certificates for common stock, deposited under the Speyer circular of May 25 last, will, upon surrender thereof on or after July 27, receive certificates for second preferred stock to the amount of two-thirds of the common stock deposited and a cash payment at the rate of \$3 38 per share of such common stock.-V. 77, p. 87.

New Paltz Highland & Poughkeepsie Traction Co.-Successor Company.—This company was incorporated at Albany on July 20 with \$100,000 of authorized capital stock to operate as successor of the New Paltz & Poughkeepsie Traction Co., foreclosed, the electric road 9 miles long from the Poughkeepsie Ferry at Highland to New Paltz. Directors: J. A. Duff., T. G. Hinds of Jersey City and G. H. Patterson Jr. of New York City.—V. 77, p. 87.

New Paliz & Poughkeepsie Traction Co.-See New Paltz Highland & Poughkeepsie Traction Co. above.—V. 77, p. 37.

Northern Pacific Ry.—Listed.—The New York Stock Exchange has listed \$1,500,000 additional prior lien railway and land grant 4 per cent bonds of 1997, making the total amount listed to date \$101,392,500. The bonds just listed have been sold to pay for new construction, equipment, etc., being a part of the \$5,887,000 of prior lien bonds set apart for the purposes of the "cash fund" as provided under the mortgage.

Earnings.—For the 11 months ending May 31 earnings

Other inc., not taxes, rent. Bal., sur., incl. land sales. & improvits. main system. \$\\$959,856 & \$3, 49,907 & \$17,156 001 & \$699,511 & 3,982,711 & 15,\$10,077 Even Gross months. earnings. 19 2 18..\$12.029,744 1901 02.. \$7,873,8.6 —V. 77, p. 147. earings. \$20,146,052 18,543,277

Northern Pacific Terminal Co.-Called Bonds-The Farmers' Loan & Trust Co. will pay on Aug. 7, at 110 and accrued interest, twenty-five (\$25,000) first mortgage bonds drawn for the sinking fund.—V. 76, p. 159.

Pittsburg Johnstown Ebensburg & Eastern RR.—Receiver.—An application has been filed for a receiver for this company. The application, which was made by J. W. Thatcher of Philadelphia, and others, will be heard on Aug. 15.—V. 75, p. 442.

Rallways Company General.—Earnings.—The income from stocks and bonds owned for the year ending June 30, 1903, was \$75,533; expenses and taxes, \$7,445; surplus, \$68,-038. The railways controlled earned for the year ending June 80, 1903, \$297,972 gross, as against \$242,450 in 1902.

IGI

The light companies show gross earnings of \$23,214 for the fiscal year 1903, as against \$21,338 in the previous year.— V. 75, p. 1148, 667.

Raleigh & Cape Fear Ry.—Earnings—Bonds Offered.—The gross earnings for year ended June 80, 1903, are reported as \$36,479, an increase of \$11,239 compared with the year 1901-02; net over operating expenses and taxes, \$18,266, an inorease of \$6,532. Annual interest charge on the 32 miles now in operation (including 13 miles completed about July 15) is \$8,000. A block of the bonds (issue limited to \$5,000 per mile) offered by F. J. Lisman & Co. See V. 76, p. 752

St. Louis & San Francisco RR.-Listing.-The New York Stock Exchange has listed \$4,531,000 additional 4 p. c. refunding bonds of 1951, making the total listed to date \$52,717,000. The additional bonds have been issued in full payment for the entire issue of stocks and bonds of the Blackwell Enid & Southwestern Ry. Co., 239 68 miles in length, and the Blackwell Enid & Texas Ry. Co., 12 10 miles in length, these companies owning a continuous line of railroad from Blackwell, Okla., to Vernon, Tex., a distance of 251.73 miles. Said lines of railroad are completely constructed and equipped, and are in operation by the St. Louis & San Francisco. See also Kansas City Fort Scott & Memphis Ry. above.—V. 77, p. 148, 38.

San Francisco & North Pacific Ry.—Called Bonds.—The Mercantile Trust Co. of this city will pay on Feb. 8, 1904, twenty-two thousand (\$22,000) bonds of 1889 drawn for the sinking fund. - V. 75, p. 664.

San Francisco & Northwestern Ry.—In Possession.—This company, a subsidiary of the Atchison Topeka & Santa Fe, having purchased the property of the Eel River & Eureka RR. Co. and of the California Midlaud RR. Co., and also the railroad of the Pacific Lumber Co., formally took over the operation of the same on July 1, 1908. The officials are: A. H. Payson, President, Horace Pillsbury, Vice President, F. W. Zeile, Treasurer, and A. Moreton, Secretary. Office at San Francisco.-V. 76, p. 1086.

Scioto Valley Traction Co.-New Securities .- The capital stock of this company has been increased to \$3,000,000, divided as follows: \$1,200,000 preferred 5 p. c. cnmulative, \$1,800,000 common. It is proposed to issue \$900.000 preferred, reserving \$300 000 in the treasury to be issued for future extensions, betterments and equipment when needed. The company further contemplates making a bond issue of \$2,000,000 pring \$1,600,000 power and reserving \$400,000 for \$2,000,000, using \$1,600,000 now and reserving \$400,000 for future needs under strict conditions. It is not proposed to put any of these securities on the market at the present time, but to hold them intact until the property is completed and in operation and demonstrates its earning capacity. It is estimated that the property, completed and equipped, will cost \$2,500,000. The road is being built by a pool composed of Columbus and Cincinnati people, with no construction profits, and is expected to be in operation by Jan. 1, 1904.

The system will consist of three divisions, viz.: (1) South line of Columbus, O, to centre of Lancaster, O, 27 3 miles; (2) South line of Columbus, O., to centre of Circleville, O., 23.3 miles; (3) Circleville to Chillicothe, 21.6 miles; double track, 3.66 miles; total, 75.86 miles. A. W. Jones, Board of Track, Brilding, Columbus, is the Coursel Manager. Trade Building, Columbus, is the General Manager.

Seaboard Air Line Ry.—Further Consolidation.—President Williams announces that the Florida Central & Peninsular RR. system, embracing 806 miles of road in Georgia and Florida, has been formally merged with the Seaboard Air Line Ry Co. and is now included in the direct first lien of the latter's outstanding 4 p. c. first mortgage bonds.

The Seaboard has also purchased virtually all the outstanding minority stock of the Seaboard & Roanoke RR, and is arranging for its immediate merger, thus consolidating the entire system, embracing at present about 2,611 miles.

The Atlanta & Birmingham division is approaching completion, and, with the several branch lines under construction will increase its mileage to about 3,000.—V. 76, p. 1356.

Toledo Bowling Green & Southern Traction Co.—Dividends Deferred.—The company reported for the year closing Dec. 81, 1902, gross receipts of \$246,933 and net \$115.166, from which the fixed charges and 3 p. c. dividend to stockholders was paid. The first five months of 1903 show: Gross receipts, \$108,257; net, \$40,151, a gain of \$17,923 gross and \$1,468 net over the first five months of 1902. President G. B. Kerper makes the following statement:

The indications for the year 1903 are that the gross will be fully \$50,000 more than 1902, while the net will not be greatly increased. This is owing to the fact that taxes, labor insurance and fuel have greatly increased. The remedy for the reduction of expenses as to fuel and labor is in the hands of the directors, and should be carried out. The management has planned to spend considerate money during the present year in permanent improvements. The line will be straightened at Cygnet, and thereby shortened. A consolidated power plant will be built, and the entire line of railway and the light plant will be operated therefrom, which will make a saving in operation of at least \$4,000 net per annum. This entire work will be completed by or before May 1, 1904.

In view of the foregoing, the directors, at Findlay, Ohio, on June 25, 1903, passed the following resolution:

Whereas. The recommendation of the President will prove of great value to the property if carried out, therefore be it resolved that all earnings over and above fixed charges for the year be applied to making the changes and improvements as recommended.—V. 74, p. 152.

Wabash RR .- Maturing Bonds .- The \$264 500 first mortgage bonds of the Brunswick & Chillicothe RR. Co. due Aug. The next, 1, 1903, will be paid when due at the office of the Central securities:

Trust Co., No. 54 Wall St. The coupons will, until further notice, be paid by the National Bank of Redemption, Boston, -V. 77, p. 148, 38,

Washington County RR.—Foreclosure.—Judge Putnam at Portland, Me., has ordered the foreclosure sale of the property; upset price, \$2,300,000. Some months will elapse before the sale can take place. A bondholders' committee, consisting of F. W. Whitriage, G. B. Schley and W. K. Brice, represents \$3,232,000 of the \$2.820,000 bonds. The interest in default will amount on Nov. 14 to \$731,415. The Central Trust Co. is mortgage trustee.—V. 76, p. 1144.

Western Maryland RR.—New General Manager.—A. Robertson, Superintendent of the Middle Division of the Wabash, will on Aug. 1 be made General Manager of the Western Maryland and the West Virginia Central & Pittsburgh.

Construction.—A contract has been awarded for the construction of 22 of the 65 miles of the Cumberland extension connecting the West Virginia Central with the Western Maryland. The 22 miles extends from Cherry Run, West Va., west, and represents, it is said, an expenditure of above 15.00,000, there being five typesle and typesty three bridges. \$1,500,000, there being five tunnels and twenty three bridges; maximum grade three tenths of 1 per cent and curvature not to exceed six degrees.—V. 76, p. 544.

INDUSTRIAL, GAS AND MISCELLANEOUS.

Allegheny Coal Co., Springdale, Pa.—New Bonds.—The shareholders will vote Sept. 21 on a plan to increase the indebtedness from \$200,000 to \$300,000. C. L. Terry is Secretary. See V. 73, p. 288.

American Chicle Co.—Annual Meeting.—At the annual meeting this week the company reported that after paying \$900,000 in dividends. viz., 12 p. c. (\$720,000) on the common and 6 p. c. (\$180,000) on the preferred, it had total undivided profits of \$776,000. The company, it is stated, has built out of earnings during the year two modern factories, one at Louisville and one in Newark, N. J.-V. 74, p. 1141.

American Ice Co.—Official Statement.—President Schoonmaker says:

Onr company has no floating or current indebtedness that cannot be liquidated out of the current receipts this year. The summer has sufficiently advanced to justly me in stating that our entire crop of ice carried over from 1902 and that harvested during the past winter will all be sold this year Sales are ahead of last year and prices very much better. On the whole I feel justified in saying that the company will demonstrate to its stockhoiders that they own an industrial whose permanency is assured. The company's real estate alone is worth at auction prices \$10,000,000, and could not be duplicated for \$20,000,000. Leaving aside all questions of good will and business, the real estate alone would pay all the company's bonded and mortgaged ebts of less than \$4,000,000, and pay more than twice the present selling price on the preferred stock.—V. 76, p. 1037.

American Seeding Machine Co.—First Dividend.—This recent consolidation has declared a first quarterly dividend of 1¾ p. c. on its preferred stock, payable Aug. 1 to holders of record July 15.—V. 76, p. 596.

American Tubing & Stamping Co. Bridgeport, Conn.— New Plant.—The new open-hearth steel plant was started on July 18.—V. 75, p. 1255.

(D.) Appleton & Co.—New Stock.—The stockholders have voted to increase the capital stock from \$3,000,000 to \$3,500,-000, the increase to consist of 7 p. c. non cumulative preferred stock. Of the new stock, \$250,000 has been placed at par and will be issued at once; the balance will be held in the treasury to be issued if and as the needs of the company may require.—V. 71, p. 810.

Atlantic Coast Lumber Co.—Plan.—A committee consisting of E. C. Benedict, Samuel P. Colt, Costello C. Converse, Francis L. Hine and Francis Lynde Stetson, with Samuel Norris, Secretary, 9 Murray St., New York City, notifies the bondholders, stockholders and creditors of the Atlantic Coast Lumber Co, and creditors of Georgetown Lumber & Timber Co. and Georgetown & Western RR. that a plan of reorganization of the Atlantic Coast Lumber Co. has been adopted, and that in order to participate in such plan it will be necessary to make deposit of the bonds, stock or claims with the Industrial Trust Co. of Providence, R. I., or with Morton Trust Co. of New York City prior to Aug. 3. Deposits of stock must be accompanied by the payment of a sum equivalent to \$10 per share for stock so deposited, such payment to be made in cash or in claims against Atlantic Coast Lumber Co., approved by the reorganization committee.

The plan recites the existing assets and liabilities as follows:

North Carolina pine npon lands owned and leased, estimated to be in excess of 1,000,000,000 feet; plant at Georgetown, S. C., viz.: 3 sawmills, wharves, etc., total cost more than \$1,000,000; four fifths [\$200,000] of the capital stock of the Georgetown Lumber & Timber Co. [controls about 100,000,000 feet of North Carolina pine, and owns a completely equipped sawmill at Georgetown, S. C.]; \$250,000 of the \$400,000 stock [subject to pledge for \$65,000] of the Georgetown & Western RR Co. [there are also \$500,000 bonds outstanding]; steamships "Katahdin" and "Aragon," total estimated value of both, \$300,000, of which \$161,425 still unpaid.

Mortgage indebedness, first mortgage bonds, \$2,000,000 and unpaid 6 p. c., interest thereon since July 1, 1902; other secured indebtedness about \$550,000 (a censiderable part secured by lumber); receivers indebtedness, including \$300,000 receivers certificates, etc; unescured indebtedness, viz: (a.) direct liabilities, \$794,625 72, including debt to the Export Lumber Co. estimated at \$275,000, and (b.) contingent liabilities, \$615,276, including \$96,184 notes of the Georgetown & Western RR. Co.; capital stock, \$1,000,000 in \$100 shares.

The new company is to authorize the following new The plan recites the existing assets and liabilities as follows:

The new company is to authorize the following new

500,000

1,000,000

1,000,000

2,000,000

\$2,000,000 bonds of Atlantic Coast Lumber Company.

Debenture bonds, subject to call at par and interest on any interest day, with liberal sinking fund (probably \$50,000 a year for the first eight years and \$75,000 for the next ten years) to be applicable first to retirement of Series C. Said debentures to include:

Series C, payable in eight years and having preference as to principal and interest over Series D.

To be sold with \$500,000 stock for cash (\$500,000) to a syndicate now being formed to meet expenses of reorganization, for working capital.

Capital stock in \$100 shares.... To be sold with bonds Series A & C......\$750,000
To be exchanged for existing \$1,000,000 stock of
Atlantic Coast Lumber Co. on basis of \$100 of new
stock for \$400 of old stock upon the payment (in cash
or claims) of \$10 per each old \$100 share...\$250,000 -V. 77, p 91.

Bay State Gas Co. of Delaware.-Reorganization Plan. A committee consisting of Titus Sheard, W. J. Arkell and C. S. Drummond, with Maxwell Stevenson as Secretary, 74 Broadway, N. Y., and in conjunction with an English committee, including the Earl of Kintore and E. Hall Craggs, Middleboro, England, make the following announcement (see also advertisement on another page):

(see also advertisement on another page):

It is proposed to form the United Gas & Electric Co. under the laws of Delaware or of such other State as may be advised, with a total authorized capital of \$26,000,000, all common chares of \$10 each, and with power to carry on the business of lighting, heating and producing power. Ten million dollars stock of the new company will be used to acquire the capital stock of the United States Light & Heating Co. of New Jersey (not less than 80 per cent thereof to be acquired), and for all commissions, underwriting and syndicate compensation (compare V. 76, p. 870); and \$15,710,000 stock is offered to the shareholders of the Bay State Gas Co. of Delaware in exchange as follows: For three (3) shares of said Bay State Gas Co. stock and one dollar in money there will be delivered one chare of the stock of the new company. The total outstanding capital of Bay State Gas Co. is 4,713,000 shares of the par value of \$50 each. The remainder of the stock of the new company, together with all not taken in exchange as aforesaid, will remain in the treasury for further corporate uses.

pany, together with all not taken in exchange as aforesaid, will remain in the treasury for further corporate uses.

The stockholders of the Bay State Gas Company desiring to avail themselves of the privilege of such exchange will, on or before Sept. 1st, 1903, deposit their shares in the said Bay State Gas Co. with the Knickerbocker Trust Co., No. 66 Broadway, and pay to said trust company one dollar for each three shares of stock so deposited. The receipts will call for the return of the stock and money if the plan is not carried out by Sept. 10th, 1903, the committee on or hefore that date to determine whether the deposits are sufficient to warrant the carrying out of the plan. carrying out of the plan.

Receiver Pepper, who is seeking to recover the Bay State Gas Company's assets which were sold under foreclosure last February and were bought in by the Massachusetts Gas Companies (see that company below), says he does not approve of the plan, fearing that it may prejudice the claims of the shareholders in the suit that he has instituted in their behalf. The United States Light & Heating Co. (see V. 76, p. 914) has \$3,000,000 capital stock in \$10 shares, W. J. p. 914) has \$3,000,000 capital stock in \$10 shares, Arkell was interested in its flotation.—V. 77, p. 149

Bell Telephone Co. of Philadelphia.—New Stock.—The shareholders voted on Tuesday to increase the capital stock from \$12,000,000 to \$16,000,000, as from time to time necessary to provide for additions, etc. The directors, it is stated, will offer \$2,000 000 of the new stock to stockholders of record Sept. 25 at par. \$50 per share, one-half to be paid Oct. 20 and

the remainder Jan. 20, 1904.

New President.—U. N. Bethell of New York has been elected to succeed James E. Mitchell resigned.—V.76, p. 1194.

Central Foundry Co.—Report.—The results for the year ended June 80, 1903, compare as follows:

Fiscal Net Bond Replacement Deprec'n year. earnings. interest, etc., of equip. of plant. 1902-03..\$665,449 \$231,780 \$81,056 \$343,890 1901-02... 378,055 231,780 40,272 39,818 Miscel. Balance, items. surplus. \$8,723 None. 9,088 \$57,117

New Director.-Charles D. Alexander has been elected a director, to succeed R. A. Regester.-V. 75, p. 340.

Chicago Car & Locomotive Works.—Successor Company. -This company, recently incorporated with \$100,000 author-lzed capital stock, has acquired the plant of the Pease Car & Locomotive Works at Hegewisch, Ill. (compare V. 76, p. 755, 814), and placed the works in full operation. The capacity of the plant is being increased. L. H. Baldwin is President and Treasurer and E. Gaidzik, Secretary. Office 609 Fisher Building, Chicago.

Citizens' Electric Co. of Pekin, Ill.-New Stock.-The company has filed a certificate of increase of capital stock from \$50,000 to \$200,000.

Colorado Fuel & Iron Co.-Annual Meeting.-The notice of the annual meeting, which is set for Aug. 19 in Denver,

During the last year this company has found it necessary to raise money from persons interested as stockholders and directors by

means of loans and sales, and the transactions and conveyances by which this has been done will be presented to the meeting for approval.—V. 76, p. 1410.

Commercial Cable Co.—Pacific Cable Open for Business. The Pacific Cable will be opened for commercial business to-day.-V. 77, p. 91.

Consolidated Lake Superior Co.-Rail Mill.-William Conye, the President's assistant, is quoted as saying:

Everything is now in readiness for the opening of the steel rail mil. There is already a contract for rails for the Canadian Northern Ry. The damage done to our power house on the American side has now been remedied and the water will be let into the power canal at latest on Aug. 6.

President's Report.—See "Annual Reports."

Bonds.—The offer to the shareholders of \$12,500,000 of 4 p. c. collateral trust bonds at 60 was referred to at length in the Chronicle on July 11 and July 18 (pages 91 and 149). Subscriptions are payable 25 per cent at once; 25 per cent on Sept. 1, 1903, and 50 per cent on Sept. 15, 1903.—V. 77, p. 149.

Consolidated Water Co. of Utica.—New President.—John V. Bacot of Orange, N. J., having purchased the interest of George L. Record in the company, has succeeded him as President and director, and will move to Utica to live.—V. 75, p. 613.

Crystal Springs Water Co., Bethlehem, N. H.—Purchase by Village.—The village of Bethlehem, N. H., voted on July 18 to purchase this company's plant for \$49,500.

Cunard Steamship Co. - English Government Interest. - The shareholders will vote July 29 on two propositions (1) that none but an Englishman shall have the right to be a stockholder directly or indirectly or shall hold office as a director or executive officer or as commander of a vessel or his assistant, and (2) to issue shares to the face value of £2,000,000 to be called Government shares, and to be issued to a nominee of the Government. As to subsidy, see International Mercantile Marine Co. below.—V. 76, p. 1033.

Denver (Col.) Gas & Electric Co.—Reorganization Completed.—The reorganization has been successfully carried through, without foreclosure, all or practically all the old consols having been deposited. The new prior lien mortgage is made to the Bankers Trust Co. as trustee and secures \$1,000,000 of 6 p. c. \$1,000 gold bonds dated April 1, 1903, and due April 1, 1918, but subject to call after April 1, 1908, at par. The new general mortgage (Trust Co. of America, trustee), is for the total authorized sum of \$8,000,000, but only \$2,580,000 of the bonds are outstanding. They are gold only \$2,580,000 of the bonds are outstanding. They are gold 5 per cents dated May 1, 1903, and are due May 1, 1949, but subject to call at prices increasing 1 p. c. yearly from par on May 1, 1908, to 105 on May 1, 1913; after the latter date they may be retired on any interest day at 105. Of the unissued 5s, \$2,160,000 are deliverable by the trustee on vote of the directors of the company; \$2,260,000 are reserved to retire at maturity the old underlying bonds (viz.: \$1,500,000 Consol. Gas 6s due Nov. 16, 1911; \$590,000 Consol. Electric Co. 6s due Jan. 1, 1910, and \$170,000 Western Electric Construction Co. 6s due Oct., 1915), and \$1,000,000 are reserved to retire if at any time deemed desirable the new prior lien issue above described. scribed.-V. 76, p. 921

Denver Union Water Co.—Litigation.—Litigation which has long been pending touching the bonds of the Denver City Water Co., one of the foreclosed predecessors of the Denver Union Water Co., explains the application by the American Water Works Co. of New Jersey for a receiver for the Denver Union Water Co. The latter has always paid its coupons promptly (compare V. 62, p. 908).—V. 72, p. 285.

Depew & Laucaster Light, Power & Conduit Co.—Bonds Offered.—Walsh, Steele & Co., Buffalo, N. Y., are offering for sale a block of the outstanding \$50,000 first mortgage sinking fund 5 p. c. gold bonds. The total authorized issue is \$55,000, dated June 1, 1901, and due June 1, 1921, without option; interest payable June 1 and Dec. 1 at Fidelity Trust Co., Buffalo, N. Y., trustee. A circular says:

Capital stock, \$75,000; gross receipts for the year ended June 1, 1903, \$16,457; net earnings, \$6,426; interest on bonds, \$2,500; surplus, \$3,926. Ernest Feyier is President, Lancaster. N. Y.; Hon. George A. Davis, Vice-President, Lancaster, N. Y.; Philip A. Laing, Secretary, Buffalo, N. Y. Cash investment nearly twice the bonded debt; earnings now exceed 5 p. c. on the capital stock. The natural gas plant owned by the company did not start until December last, and, judging from the business done since, the net earnings of the company will be doubled the coming year. About 700 acres of the best gas land in Alden territory is controlled by this company and being developed in advance of present demands.

Egyptian Portland Cement Co.—Completion of Plant.—This company's large plant on Silver Lake, 2 miles from Fenton, Mich., is about ready for operation. The President is George A. Foster and Secretary C. B. Shotwell. See V. 74, p. 530.

Electric Co. of America.—Change in Par Value.—The shareholders will meet Oct. 15 to vote on a proposition to increase the par value of the stock from \$10 to \$50 by exchanging each five of the present shares for one new share. There will be no change in the total capital stock, only in the number of shares and par value. The authorized issue is \$5,000,000; outstanding \$4,078,780.—V. 76, p. 1190.

Great Western Cereal Co.—New Stock.—The shareholders will vote July 28 on a proposition to issue \$500,000 of 8 p. c. cumulative preferred stock, in order to pay floating debt and to increase the working capital, in view of the probable high price of corn and oats for the coming season. The new stock is offered to present shareholders pro rata, and over two-thirds of it is reported to have been subscribed. Outstanding stock April 30, 1903, \$2,510,400, all common. Compare V. 76, p. 1353.

Hudson River (Bell) Telephone Co.—New Stock.—The shareholders will vote July 30 upon a proposition to increase the capital stock from \$4,000,000 to \$5,000,000 to provide for extensions and improvements whenever found expedient .-V. 76, p. 105.

Illinois Brick Co.-Earnings.-For the half-year ended June 30, 1903, the earnings available for dividends, it is claimed, were, roughly. \$150,000, being \$40,000 in excess of the same period in 1902.—V. 76, p. 215.

Illinois Telephone & Telegraph Co., Chicago.—Ordinance Passed.—The Chicago City Council on July 16, by a vote of 50 to 14, passed the amendatory ordinance giving this compary the right to construct and operate until Feb. 19, 1929, not only wires and electrical conductors as in the original ordinance of Feb. 20, 1899, but also "any appliance or apparatus for the transmission and transportation of newspapers, mail matter, packages, parcels or merchandise." The "Chicago Record" says:

The "Chicago Record" says:

The grant will expire Feb. 19, 1929, and on that date all the tunnels and conduits are to become the absolute property of the city, free from liens and incumbrances. The city is given the right to use the conduits without charge for telegraph, electric-light and telephone wires. The city holds the right to insist upon reasonable regulations in respect to rates; also to terminate the franchise in twenty years, provided twelve months' notice is given, and purchase the property and operate it. Compensation to the city for these privileges will be: For the first ten years, 5 per cent; for the second ten years, 8 per cent; for the balance of the term, 12 per cent of the gross receipts.

The company is also compelled to have in operation 50 miles of tunnels in ten years, and must have facilities to operate telephones for 20,000 subscribers within five years or forfeit all its franchise rights. A fund of \$100,000 is to be filed with the city clerk to indemnify the city against any loss, damages or judgments for any liability which may result from the construction of the conduits.

President Wheeler states that the company which has

President Wheeler states that the company, which has about 20 miles of tunnels under the down-town district, plans not only to establish a large telephone exchange, but "to get the parcel freight traffic" of the city and to remove "the congestion from the down-town streets. For this latter purpose the project is said to include tunnels for small electric freight cars to connect the freight terminals of the city with the warehouses, shops, etc. An expenditure of \$15,000,000 is contemplated, and to this end a reorganization of the Telephone & Telegraph Company with greatly increased capital is proposed, its securities to be marketed by Russell & Co.—V. 73, p. 394.

International Mercantile Marine Co.—Subsidies.—The British Admiralty recently announced its intention to give on April 1, 1904, the one-year notice necessary for the with-drawal of all subsidies in 1905. This will cut off the sum paid annually to the White Star Line (whose stock is owned by the International Mercantile Marine Co.) for the right to use as armored cruisers the Oceanic, Majestic and Tentonic. The annual loss to the company, it is stated, will amount to only \$40,000 or \$50,000. It is intimated that the Admiralty does not intend entirely to abandon the payment of subsidies, and it is surmised that the intention may be to continue in some form a part of the £28,000 now paid annually to the Cunard SS. Co. See that company above.—V. 77, p. 92.

(Frank) Jones Brewing Co.-Proposition.-For the year ended Feb. 28, 1908, the gross receipts were, it is said, \$462,755, against \$314,310 in the previous year; net, \$372,980, against \$220,120. An English journal says:

The profits for the year to Feb. 28th last are sufficient, after paying the full dividend of 7½ per cent on the preference shares, to pay the arrears of dividend accrued on the preference shares, amounting to £16,000, but the directore, having regard to the requirements of the company, are not prepared to recommend the distribution of the full amount, and they offer certain proposals for the consideration of the shareholders. These if adopted will in three years' time give the company the benefit of additional working capital amounting to £26,000, and help to make a further improvement in the business. Amongst other auggestions it is proposed that of the arrears accrued on the preference shares, which amount to £16,000 (or 4 per cent on the £400,000 preference share capital), the preference shareholders shall agree to waive one-half, viz, £8,000, on the condition that that amount shall be applied as the nucleus of a special reserve account for the purposes above mentioned.

If the plan goes through there will be paid on the preferred

If the plan goes through there will be paid on the preferred shares out of the unwaived portion of said arrears 1 per cent (£4,000) in addition to the current dividend, in respect of the year ended Feb. 28, 1903, the remaining 1 per cent to be paid in respect of the year ending Feb. 28, 1904, or as soon thereafter as the profits allow.—V. 69, p. 227.

Keystone Coal & Coke Co.—Car Trusts Offered.—Henry & West, Philadelphia, are offering, at prices to net 434 p. c. on the investment, \$150,000 (unsold balance of \$500,000) 4 p. c. coupon gold car trust certificates; interest payable April 15 and Oct. 15 at the office of the Girard Trust Co., Philadelphia, trustee. These certificates are free of tax in Pennsylvania; they are dated Oct. 15, 1902, and mature \$50,000 yearly from Oct. 15, 1903, to Oct. 15, 1912. They are in coupon form of \$1,000 each, with the privilege of registration as to principal, and are issued to pay for 500 steel hopper gondola cars, class "GL," Pennsylvania RR. standard, built by the Pressed Steel Car Co. The above equipment cost \$607,500.

Robert K. Cassatt, Eastern Manager of the Keystone Coal & Coke Co., in a letter says:

The Keystone Coal & Coke Co. has been in business as an incorporated company since March 1, 1902, being a merger of eight coal companies then operating separately but controlled by the same interests. It has outstanding \$900,000 of 5 p. c. and 6 p. c. bonds, \$500,000 car trust certificates and \$2,500,000 stock. It owns about 10,000 acres of coal lands in Westmoreland County and operates thirteen fully

equipped coal mines, producing about 3,000,000 tons annually. The present earnings and the earnings of the constituent companies previous to the merger were sufficient to pay all fixed charges, to pay satisfactory dividends upon the capital stock and leave a considerable surplus at the ond of each year. The cars are repaired in Pennsylvania RR. shops and are kept up to P. RR. standard in every respect. Compare V. 74, p. 530.

Keystone Watch Case Co.-Dividend Increased .- The company has increased its semi-annual dividend from 3 to 3½ p. c.

New Stock.—The shareholders will vote Sept. 29 on a proposed increase of the capital stock from \$4,400,000 to \$8,500,-The general office of the company is at 19th and Brown streets, Philadelphia. Charles M. Fogg is Secretary. All of the new stock will be common and \$4,000,000 of it will be issued for the purpose, it is stated, of retiring all the outstanding trust certificates to pay off loans and increase working capital; \$100,000 stock will remain in the treasury. There is now outstanding \$4,400,000 share capital, of which \$2,200,000 is 5 p. c. non cumulative preferred. The earnings are said to be equal to about 10 p. c. on the increased capital stock.—V. 76, p. 1251.

Lackawanna Steel Co.—Listed.—The New York Stock Exchange has listed \$804,000 additional first mortgage 5 per cent convertible bonds of 1923, making the total amount listed to date \$4,202,000.—See V. 77, p. 34.

Massachusetts Gas Companies, Boston.—Status.—It being midsummer and the gas consumption relatively light, the company is able to supply the greater part of the gas consumed in Boston from the bi-product plant at Everett, only a small portion (perhaps 20 p. c) being obtained from a water gas plant. Touching this point and the position of the four Addicks companies pending the Bay State Gas Co. litigation, the "Boston News Bureau" says:

litigation, the "Boston News Bureau" says:

The Massachusetts Gas Companies is now supplying most of the gas consumed in the city of Boston from the Everett plant, where it is operating 300 ovens, turning out about 7,000,000 feet per day, as compared with a normal Boston consumption of about 12,000,000 ouble feet daily during the winter months. This is considered very satisfactory, as the efficiency of the Everett plant has been materially increased under the new management. The 300 ovens in operation are turning out about 1,100 tons of coke per day, for which there is a satisfactory demand at profitable prices.

The consumption of 7,000,000 feet of gas per day during the midsummer months is abnormally large; in fact, June consumption was 15 p. c. in excess of the same month last year. There is a considerable increase in gas consumption for fuel purposes. The management is preparing for the building of 200 additional ovens at Everett, which will increase the plant capacity 50 p. c., but it will take about 18 months to install them.

The net earnings of the four "Addicks" companies have been applied largely to the payment of their floating debts, aggregating between \$800,000 and \$1,000,000. These have all been taken care of and the companies are now ready to declare dividends to the Massachusetts Gas Companies. Such dividends would undoubtedly have been declared last week were it not for an agreement between coursel for the Massachusetts Gas Companies and the counsel for Receiver Pepper of the Bay State Gas Co. of Delaware. Rather than have the companies tied up by court injunction, an agreement was made between counsel, whereby pending the adjudication of the Whipple suit (to recover any equities in the Bay State Gas properties for the benefit of the Bay State incomes), no dividends will be paid by the four gas companies or any attempt made to take advantage of the Boston gas companies or any attempt made to take advantage of the Boston gas consolidation bill.

The unfavorable feature of this situation to the M

The unfavorable feature of this situation to the Massachusetts Companies is that the Bay State Gas litigation may be drawn out for a year or so. In the meantime the earnings of the Addicks companies will be accumulating and the position of the companies strengthened. The companies are even now preparing for the extension of their breitness.

In the meantime it is stated that the New England Gas & Coke Co. and the Brookline, Dorchester and Jamaica Plain companies alone are earning at the rate of almost \$1,000,000 net a year.

Reorganization of Bay State Gas Co.—See that company above. - V. 77, p. 39.

Monterey (Mex.) Iron & Steel Co.—In Operation.—President Ferrara was recently quoted as saying

The plant has been in operation for the past 20 days, and is turning out 350 tone of steel daily. At present we are only turning out structural beams and pig iron. The latter is being shipped to the United States in large quantities. We have many orders; in fact enough to keep the plant busy for six months. By July 15 we expect to begin turning out steel rails, which will be used by the various railroads of the republic, and possibly in the United States.

Contracts are said to have been closed for 5,000 tons of steel beams for delivery in December of this year. assessment of \$5 per share was recently made upon the \$100 shares of the capital stock, on which \$95 per share is now paid in, including the last call.—V. 75, p. 1403.

National Asphalt Co.—Suit.—Receiver Tatnall on July 21 brought suit in Philadelphia in the United States Circuit Court and in the Common Pleas Court against the following persons, living in that jurisdiction, to recover profits alleged to have been made by them in the organization of the Asphalt Co. of America and in the National Asphalt Co., viz.:

William J. Latta, Sidney F. Tyler, George D. Widener, George W. Elkins, William L. Elkins and E. Burgess Warren.

Judge Kirkpatrick, in the United States Circuit Court at Trenton, N. J., on July 20, authorized the bringing of suits such as the foregoing in any district of the United States or in the District of Columbia. This, it is supposed, marks the begining of a long litigation.—V. 77, p. 92.

New England Electric Vehicle Transportation Co.—Final Distribution.—The trustees in dissolution are paying a third and final dividend of 26 cents per share at the Old Colony Trust Co. in Boston or the Manhattan Trust Co., New York. This makes the total amount paid in liquidation \$3.76 per share. The trustees in dissolution are Francis R. Hart, James E. Hays and Charles L. Edgar.-V. 75, p. 552.

New York and Brooklyn Trust Companies.

We give below the reports of the trust companies in New York and Brooklyn for the six months ending June 30, 1903, compared with December 31, 1902, and June 30, 1902. Reports for preceding periods will be found in the CHRONICLE of February 7, 1903, and July 26, 1902.

New England Cotton Yara Co.—Option.—The reorganization plan contains one feature not already described in this column. The preferred shareholder, in addition to paying \$30 per share on his present holdings and receiving in exchange \$30 new preferred and \$70 new common, has the privilege, if he so desires, of paying an additional \$10, for which he will receive \$10 new preferred and \$8 new common. See V. 77, p. 149, 40.

Pease Car & Locomotive Works.—Successor.—See Chicago Car & Locomotive Works above. - V. 76, p. 755, 814.

Peninsular Stove Co., Detroit, Mich.—Increase of Stock. -This Michigan corporation has increased its capital stock from \$350,000 to \$3,000,000, of which \$1,500,000 is 6 p. c. preferred stock, subject to redemption at par at the expiration of 30 years from July 15, 1903; par value of shares, \$10 each. Of the total stock, \$1,602,020 (half preferred) is held by James Dwyer (for himself or as trustee) or by others bearing the name of Dwyer; \$1,221,620 (half preferred) is held by Fred. T. Moran for himself, or as trustee, and \$176,360 is held by others. held by ofters.
Vice President F. F. Palms is quoted as saying:

"Hitherto the stock has been closely held by the owners. The increase is for the purpose of making the stock of the company of value to the general public and stock markets of the country, carrying a guaranty of 6 per cent on the preferred stock."

The increase in part at least represents distribution of surplus.

Pressed Steel Car Co.—Earnings.—The earnings for the quarter and 6 months ended June 30 were:

Seaboard Cement Co.—See American Cement Co. above.

Sonthern Car & Foundry Co.—Receivers.—Judge Kirkpatrick in the United States Circuit Court at Trenton, N. J., upon the application of the Standard Steel Car Co. and others, has appointed Thomas G. Bush, of Birmingham, Ala., and Thomas Gillespie, of West Orange, N. J., as receivers of the company on the ground of insolvency. The outstanding company on the ground of insolvency. The outstanding capital stock is \$1,500,000 (half preferred) of which \$765,000, it is stated, is owned by the Standard Steel Car Co. There are no bonds but the floating debt aggregates, it is stated, about \$3,000,000, including:

Liability of \$500,000 on purchase price of Anniston plant; on loans obtained on pledge of proceeds that might arise from the sale of cars not yet completed, \$180,000; on company notes without endorsement, \$178,000; on notes secured by warehouse receipts. \$758,000; on unpaid vonchers, \$130,000; indebtedness to the Standard Steel Car Co., \$325,000 upon notes; and notes made by the Southern Car & Foundry Co. and endorsed by the Standard Steel Car Co., \$180,000; and according accounts and \$40,000 July pay rolls.—V. 75, p. 1044.

Standard Steel Car Co. - See Southern Car & Foundry Co. above. - V. 76, p. 1147.

Tennessee Coal, Iron & RR.-Earnings.-The earnings for the quarter and 6 months ended June 30 were:

United Electric Secorities Co.—Called Bonds.—The American Loan & Trust Co., as trustee, has called for redemption at 103 and accrued interest to Aug. 1, 1903, collateral trust 5s to the following amounts: Fourth and fifth series, all; tenth series, \$84,000; twelfth series, \$23,000; thirteenth series, \$9,000.

New President.—Gordon Abbott has been elected President to succeed Samuel Carr, resigned.—V. 75, p. 195.

United States Gas & Electric Co.—See Bay State Gas Co. above.

United States Light & Heating Co. of New Jersey.—See Bay State Gas Co. of Delaware above. - V. 76, p. 870.

United States Realty & Construction Co. - Official Statement.—The following was given out on Thursday:

ment.—The following was given out on Thursday:

The company had in bank this morning \$3,385.201: the Fuller Construction Co. had on deposit \$112,282, and the New York Realty Co. \$184,679, a total of \$3,982,162. These funds are in the City National Bank. Western National Bank, First and Second national banks, Central Realty Bond & Trust Co. and the Equitable Trust Co. The amonn's in trust companies are certificates of deposit running for several months and bearing \$1\frac{1}{2}\$ per cent interest. This shows that the company has no immediate use for a large part of these funds. It has no obligations outstanding in the shape of notes or bonds and its assets, making due allowance for any doubtful items, are in excess of \$22,000,000. These assets consist of stocks and bonds, \$6,080,000; mortgages on New York City real estate, \$4,190,000; real estate owned, \$8,995,000, upon which there are mortgages aggregating \$6,625,000, leaving the net \$2,370,000, and cash as stated above, \$3,982,162.

The company makes up a statement of its condition every month and the figures for the eight months ending May 30 are complete, but have not been published because it was thought desirable not to make a statement except for quarterly periods. The figures for the nine months ending June 30 have been made up and are being verified by two firms of expert accountants, namely, Marwick, Mitchell & Co. and Jones, Cæsar & Co. Their work will be completed in time to be submitted to the directors at their regular monthly meeting on Thursday, July 30, and will then be made public.—V. 77, p. 93.

United States Shlpbnilding Co.—Foreclosure.—The Mer-

United States Shipbuilding Co.—Foreclosure.—The Mercantile Trust Co., as trustee thereunder, has brought a suit to foreclose the first mortgage, the interest due July 1 being in default,—V. 77, p. 150, 41.

United States Steel Corporation.—Billet Pool.—The "Iron Age" says:

The principal steel works of the country, including the United States Steel Corporation, Jones & Laughlin Steel Co., Wheeling iron & Steel Co., Cambria Steel Co., Lackawanna Steel Co. and the Pennsylvania Steel and Maryland Steel companies, have formed a billet pool, which is to be handled in a manner very similar to the Steel Rail Association. While the base price is \$27 for billets at mill for Bessemer standard sizes, the usual practice will be to make uniform delivered prices. For open-hearth steel an advance of \$1 per ton is astablished. For carbons between 0.20 and 0.60 there is an advance of \$1 per ton, while billets above 0.60 carbon carry an extra of \$2 per ton. Sheet bar and tin plate bar tonnage are quoted \$1 above billets and blooms.—V. 77, p. 150.

Wakefield (Mass) Water Co.—Purchase by Town.—The

Wakefield (Mass.) Water Co.—Purchase by Town.—The citizens of Wakefield by a vote of 126 to 4 authorized the purchase of this company's plant and franchise for \$220,000.—V. 72, p. 884.

-The Engineering Company of America, 74 Broadway, New York, makes a specialty of the yearly management of plants and mines; also the supervision of installations requiring technical service. It also reports on existing and proposed railroads and other properties, and undertakes their construction. The company advertises that it is fully equipped for undertaking commissions in any and all branches of engineering, whether relating to these, or mechanical, electrical, hydraulic, or other features, in the United States, Alaska, British Columbia, Canada, Mexico and South America. The card of the company is on page xii.

-The San Francisco "Investment Guide" for 1903, giving a description, with income, price and dividends, of the companies whose stocks and bonds are listed at the Stock and Bond Exchange, has been compiled by Rehfisch & Hochstadter, bond and stock brokers, 413 California Street, San Francisco.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, July 24, 1908.

Midsummer dulness has continued to be experienced in many lines of trade, practically the only business experienced being the delivery of goods on outstanding contracts. Although recent developments in the speculative financial market have been such as to create increased conservatism on the part of some buyers, the existing confidence in the outlook for continued industrial activity has not been undermined. It is true that in the iron and steel trades buyers are holding back, but it is understood that they will come into the market freely if they can get prices to a basis more in accord with their ideas of values. Labor troubles have been steadily righting themselves, and another favorable feature is the promising outlook for the growing crops, both in the South and West.

Lard on the spot was easier earlier in the week, but on smaller receipts of hogs than expected the market turned steadier and recovered the loss. Demand, however, was quiet. The close was easier at 7.85c. for prime Western and 6.50@7.00c. for prime City. Refined lard was offered at lower prices, and at the decline business was more active. The close was quiet at Sc. for refined for the Continent. Speculation in lard for future delivery has been moderately active. Early in the week prices declined but later advanced on shorts covering and a falling off in the hog receipts. The close was easier.

DAILY GLOSING PRIORS OF LARD FUTURES IN CHICAGO,

Pork has sold slowly and prices have weakened to \$16 50 for mess, \$15 75@18 00 for short clear and \$17 50@18 00 for family. Cut meats have been quiet but prices have held steady at 61%c. for pickled shoulders, 12c. for pickled hams and 91/4@101/2c. for pickled bellies, 14@10 îbs. average. Beef has been dull and easier at \$8@8 50 for mess, \$8 50@9 50 for packet, \$10 00@10 50 for family and \$13 50@14 00 for extra India mess in tcs. Tallow has been easier, prices declining to 41/2c. Stearines have been quiet, closing at 9c. for lard stearine and 7½@7¾c. for oleo stearine. Cotton-seed oil has been firmer but quiet, closing at 43@431/4c. for prime yeliow. Butter has been in full supply and slightly easier, closing at 15@20c. for creamery. Cheese has been in fair demand and steady at 81/2@101/4c. for State factory full cream. Fresh eggs have been in fair demand and firm for choice grades, closing at 18@181/2c. for best Western.

Brazil grades of coffee have been dull and easy. The movement of the Brazil crop has continued heavy, but as there has been no pressure to sell from the primal markets prices have been slow in yielding, closing at 51%c. for Rio No. 7 and 51%c. for Santes No. 4. West India grawths have been freely offered at declining prices; stocks have been large, closing at 71/2c. for good Cucuta. Speculation in the market for contracts has been dull and prices have weakened slightly under a full Brazil crop movement. The close was dull. Following are the closing asked prices:

 July
 3.70c
 Oct
 3.85c
 Jan
 4.30c

 August
 3.70c
 Nov
 3.95c
 March
 4.45c

 Bept
 3.80c
 Dec
 4.25c
 May
 4.55c

Raw sugars have been quiet but steady; refiners have been holding off as buyers. The close was at 3 11-16c. for centrifugals, 96-deg. test, and 3 3-16c. for muscovado, 89 deg. test. Refined sugar has been in good demand and firm, closing at 5@5'15c. for granulated. China cassia has been active and higher. Teas have been steady.

Kentucky tobacco has been reported well held, but only a limited volume of business has been transacted. Seed leaf tobacco has continued quiet, the few buyers in the market limiting their purchases to small lots; prices have been barely maintained. Foreign grades of tobacco have continued in fair demand and firm.

Reflecting stronger foreign advices, the market for straits tin has turned firmer and prices have advanced to 27.60@ 28c., closing firm. Ingot copper has continued quiet and easy, closing flat at 13½@\3½c. for Lake. Lead has been advanced to 4.30@4.50c., but business has been quiet. Spelter has been quiet but steady at 5.87½c. Pig iron has been quiet and easter, closing at \$18.25@18.75 for No. 1 Northern.

Refined petroleum has been firm, closing at \$15.50 in balance.

Refined petroleum has been firm, closing at 8.55c, in bbls., 10.50c, in cases and 5.65c, in bulk. Naptha has been unchanged at 12.40c. Credit balances have advanced, closing at \$1.56. Spirits turpentine has advanced and the close was steady at 52½@53c. Rosins have been quiet at \$2.00@2.05 for common and good strained. Hops have been quiet but steady. Wool has been in moderate demand and firm.

COTTON.

FRIDAY NIGHT, July 24 1908.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 3 860 bales against 6 0 4 bales last week and 14,832 bales the previous week, making the total receipts since the 1st of Sept., 1902, 7,625,499 bales, against 7,419 890 bales for the same period of 1901-3, showing an increase since Sep.1,1902, of 205,609 bales.

Speculation in cotton for future delivery has been spiritless; in fact early in the week the market was dull. Only a small amount of outside speculative interest has been shown in the market, most of the trading being confined to operations by the New Orleans bull clique and by the regular traders. Early in the week only slight fluctuations occurred in prices, neither buyers nor sellers being disposed to be aggressive. On Tuesday the weekly recort of the Government's Weather Bureau was issued, and reported the prospects for the crop as promising, prompting moderate short selling for room traders. The bull clique, however, became aggressive and closed prices higher for the day. Liverpool made a good response to the improvement in the New York market and reported fair sales of spot cotton to spinners at higher prices. It also was stated that a preminent American operator in cotton who is now abroad took the bull side of the market in Liverpool on the theory that the re-shipment of actual colton back to America could not be spared. Reports from New England have reported further closing of cotton mills, due to the high price for cotton, and it is therefore claimed that the consumption of cotton from now on until the new crop begins to move freely will be much reduced. To-day there was a weaker turn to prices early. Beneficial rains were reported in the Southern Mississippi Valley. Subsequently, however, reports were heard to the effect that rains were needed in Texas and Oklahoma, and on bidding by bull interests prices were advanced. Towards the close the market again weakened and final prices were 2@15 points lower for the day. Cotton on the spot has advanced, closing at 13:50c. for middling uplands.

The rates on and off middling, as established Nov. 20, 1902, by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows.

Fair	Good Middling Tinged c. E	ven
Middling Fair 0.96 on	Strict Good Mid. Tinged. 0.80	
Strict Good Middling 0.62 on	Strict Middling Tinged 0.08	
Good Middling 0.44 on	Middling Tinged 0.12	
Strict Low Middling 0.14 off	Strict Low Mid. Tinged 0.84	
Low Middling 0.38 off	Middling Stained 0.50	of
Strict Good Ordinary 0.72 off	Strict Low Mid. Stained 1.06	of
Good Ordinary 1.00 off	Low Middling Stained 1.50	Of

On this basis the official prices for a few of the grades for the past week-July 18 to July 24-would be as follows.

WEATHER REPORTS BY TELEGRAPH.—Telegraphic advices to as from the South this evening denote that there has been a continuance of generally satisfactory weather conditions during the week and that the crop is developing well, and many of our correspondents report further improvement. Dry weather has prevailed over a large part of the cotton belt, and where rain has fallen the precipitation has as a rule been light. In Texas, as well as at some other points, it is claimed that moisture is beginning to be needed.

Galveston, Texas.—Cotton has grown rapidly during the past four weeks, but after three weeks of dry and forcing weather good general rains are needed. Rain has fallen on one day of the week, the rainfall being sixteen hundredths of an inch. Average thermometer 85, highest 91, lowest 79.

Abilene, Texas.—We have had a trace of rain on one day during the week. The thermometer has averaged 84, the

highest being 99 and the lowest 68.

Corpus Christi, Texas.—There has been no rain during the week. The thermometer has averaged 82, ranging from 74

Cuero, Texas. - Dry weather has prevailed all the week.

Thermometer has ranged from 72 to 97, averaging 89.

Dallas, Texas.—There has been rain on one day of the week, the rainfall reaching forty five hundredths of an inch. Average thermometer 82, highest 97 and lowest 66.

Henrietta, Texas.—We have had no rain the past week.

The thermometer has averaged 88, the highest being 108 and the lowest 68.

Huntsville, Texas. - It has rained on one day of the week to an inappreciable extent. The thermometer has averaged 79. ranging from 63 to 95.

Kerrville, Texas — We have had dry weather all the week.

The thermometer has ranged from 60 to 95, averaging 78. Paris, Texas.—There has been no rain during the 'week. Average thermometer 79, highest 100 and lowest 57.

San Antonio, Tex.—We have had no rain the past week.

The thermometer has averaged 82, the highest being 96 and the lowest 68.

Weatherford, Texas.-There has been no rain the past The thermometer has averaged 85, ranging from 69 week. to 101.

Brenham, Texas.—There has been a trace of rain on one day of the week. The thermometer has ranged from 68 to 99, averaging 84.

Longview, Texas.-We have had no rain the past week. Average thermometer 81, highest 104 and lowest 58

Lampasas, Texas.-There has been no rain during the

week. The thermometer has averaged 82, the highest being 100 and the lowest 61.

Luling, Texas.—Dry weather has prevailed all the week. The thermometer has averaged 82 and ranged from 70 to 94. Palestine, Texas.—There has been rain on one day of the past week, the rainfall being twenty two hundredths of an

The thermometer has ranged from 66 to 94, averaginch. ing 80.

New Orleans, Louisiana.—There has been no rain during the week. Average thermometer 85.

Shreveport, Louisiana. - We have had rain on one day during the week, to the extent of thirty-seven hundredths of an inch. The thermometer has averaged 84, the highest being 97 and the lowest 71.

Greenville, Mississippi.—The weather has been favorable

the past week.

Columbus, Mississippi.—There has been rain one day of the week, the precipitation being twelve hundredths of an inch. The thermometer has averaged 75, ranging from 54 to 96.

Leland, Mississippi.-We have had no rain during the week. The thermometer has ranged from 62 to 89, averaging

Vicksburg, Mississippi.—Crops are doing fairly well but are not fruitting as they should in July. There has been but a trac- of rain during the past week. Average thermometer 62, high-st 94, lowest 70.

Little Rock, Arkansas.—Crops are improving very much. It has rained on two days of the week, with rainfall to the extent of sixty-tbree hundredths of an inch. The thermom-

eter has averaged 83, ranging from 69 to 94.

Helena, Arkansas.—Crops are doing well. There is no complaint except that labor is scarce. There has been rain on two days of the week, the rainfall being eighty-taree hundredths of an inch. The thermometer has ranged from 65 to 95, averaging 80.

Memphis, Tennessee. - The crop, though late and backward, is clean, well cultivated and improving. We have had showers on two days of the past week, the rainfall being four hundredths of an inch. Average thermometer 82.1,

highest 93.9, lowest 72.3.

Selma, Alabama.—Crops continue to improve and are being well worked. Showers have fallen on one day during the Average therm meter 78, highest 95, lowest 65.

Mobile, Alabama.—Weather has been hot and dry in the interior and cotton is developing well. There has been no rain during the week. The thermometer has averaged 83, ranging from 70 to 96.

Montgomery, Alabama. - Crops continue to show satisfactory improvement. We have had rain on two days of the week, the precipitation being twenty-nine hundredths of an inch. The thermometer has ranged from 70 to 96, aver-

Smyrna, Georgia.—Crops are doing well. We have had rain on one day of the week, the precipitation reaching two hundredths of an inch. Average thermometer 78, higest 90,

lowest 65

Savannah, Georgia.—There has been rain on one day the past week, the precipitation reaching seventy hundredths of an inch. The thermometer has averaged 83, ranging from 71 to 96.

Augusta, Georgia.—Crops are progressing well. We have had only a trace of rain during the week. The thermometer

has ranged from 67 to 96, averaging 83.

Charleston, South Carolina.—The week's rainfall has been twenty-three hundredths of an inch, on three days. Average

thermometer 84, highest 95, lowest 74.

Stateburg, South Carolina. - There has been no interruption to larm work, but labor is markedly careless and ineffi cient, necessitating a closer watchfulness and more constant oversight than ever before. We have had rain on one day during the week, to the extent of thirty six hundredths of an inch. The thermometer has averaged 81.5, the highest being 95 and the lowest 69.

Charlotte, North Carolina. - There has been but a trace of rain during the week. The thermometer has ranged from 67

to 94, averaging 80.

The following statement we have also received by telegraph, showing the height of the rivers at the points named, at 3 o'clock July 23, 1903, and July 24, 1902.

According to the foregoing, Bombay appears to show an increase compared with last year in the week's receipts of 2,000 bales. Exports from all India ports record a gain of 21,000 bales during the week and since Sept. 1 show an increase of 540,000 bales.

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON. Through arrangements we made with Messrs. Davis, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria Egypt, July 22	190	2-03.	190	1-02.	1900-01.		
Receipts (cantare)*— This week. Since Sept. 1	1,000 5,741,000		6,4	68,000	10,000 5,442 000		
	This	sinci sept. 1.	IAL.	dince dept. 1.	TALE week.	Since Sept. 1.

Of which to America in 1902-03, 81,598 bales; ln 1901-03, 102,357 bales: in 1900-01, 54,321 bales.

This statement shows that the receipts for the week ending July 22 were 1,000 cantars and the shipments to all Europe 3,000 bales.

WEEKLY COTTON REPORT. -Mr. GOVERNMENT Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the crops in the Southern States for the week ending July 20, as follows:

NORTH CAROLINA.-Cotton still late, but doing well, blooming free

NORTH OAROLINA.—Cotton still late, but doing well, blooming free by, fi-los clean.

South Carolina - Cool nights checked growth of cotton, which, however, is generally improved and now blooming and fruiting, though still small and somewhat grassy.

Georgia.—Cotton continues small and late, but growing rapidly, many fields yet grassy but onlitivation pushed, very little bloom and truit, some shedding and black root in scattered sections.

Florida.—Cotton advanced, though some placts small and fields grassy; fruiting fairly well; few complaints of rust and shedding.

Alabama —Cotton comparatively clean, well-limbed, growing nicely, though finiting slowly; much cotton laid by.

Mississippi.—Cotton late but growing rapidly; blooming freely, looks heal-by; considerable laid by.

Louisiana.—Cotton generally clean and growing rapidly; fruiting well in some places, but irregularly in others.

Texas.—Cotton making very tapid growth and fruiting fairly well; bolls beginning to open in extreme southwestern portion; fields generally clean; boll weevil doing very little damage.

Arkansas.—Cotton growing rapidly, forming and blooming well, some being laid by.

Texas.—Cotton still small, but now growing rapidly.

ARKANSAS.—Cotton growing rapidly, forming and blooming well, some being laid by.

TENNESSEE.—Cotton still small, but now growing rapidly.

OKLAHOMA AND INDIAN TERRITORIES.—Rain needed for cotton in Okiahoma; cotton blooming and making fair growth, but mostly small and late.

Miscord — Cotton growing and making fair growth, but mostly

MISSOURI.-Cotton growing well and blooming.

These reports on cotton are summarized by the Department

Further improvement in the condition of cotton is general through-out the cotton beit, although it is grassy over a large part of the eastern districts. Cool nights were somewhat detrimental in the Carolinas, and need of rain is beginning to be felt in Oklatoma. While rapid growth is reported from nearly all districts, the crop con-tinues late; it is well cuttivated in the central and western districts. Boll weevit are reported as doing very little damage in Texas.

JUTE BUTTS, BAGGING, &c.—There has been an inactive market for jute bagging during the week, but prices are nominally unchanged at 5%c. for 1% lbs. and 6c. for 2 lbs., standard grades. Jute butts continue very dull at 11/4@13/4c. for paper grades and 2@21/4c, for bagging quality.

First Bale of 1905-04 Crop Sold at New York—The first bale of cotton of the new crop which was shipped from Zapata Co., Tex., July 14, arrived at New York, Tuesday, July 21, and at 12:15 o'clock was sold at the door of the Cotton Exchange for 26½c. a pound to Mr. Geo. W. Cummings. The bale was first sold in Galveston to W. D. Cleveland & Sons, of Houston, Tex., who shipped it to Latham, Alexander & Co., of this city. The cotton graded unusually high. Last year the first bale of the new crop reached this city on July 2.

JUTE CROP OF INDIA.—The following summary of the preliminary jute forecast was issued June 25 by the Bengal Chamber of Commerce:

Area sown this year, about 2,100,000 acres. Shrinkage in area is due to want of rain at the time of sowing. Ont turn in this area is estimated at 55 per cent. Gross out turn of 1902 is now estimated at 58 lakhs of bales. Gross out turn of present season is estimated at 54 lakhs of bales, or 76 is per cent of a normal crop. It is reported by all district officers that very small stocks of last year's crop are left.

SHIPPING NEWS.—As shown on a previous page, the exports of cotton from the United States the past week have reached 7,619 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

	bales.

BREADSTUFFS.

FRIDAY, July 24, 1903.

Prices for the grain have shown a sagging tendency during the week and they have been reflected in an easier market for wheat flour. The volume of business transacted has reached only very moderate proportions, buyers generally operating along very conservative lines and have not been disposed to purchase supplies in advance of well defined current requirements. Rye flour has been quiet but steady at unchanged prices. The demand for corn meal has been limited, but with light offerings due to small stocks prices have been well maintained.

Speculation in wheat for future delivery has been moderately active and the tone of the market has been unsettled. Early in the week, under favorable weather conditions in the interior for the growing crops and improved crop accounts from Europe, there developed increased pressure in the speculative market to sell. On Tuesday, however, reflecting a less favorable weekly report than expected by the Government Weather Bureau of the condition of the spring-wheat crop, shorts turned buyers to cover contracts, and prices advanced. On Wednesday there was renewed selling by speculative bear interests who were disposed to discredit the Bureau report and prices again weakened. Thursday there was a stronger market. Advices from the winter-wheat belt reported a small movement of the winter-wheat crop; weather conditions in England and France were less favorable, and the Cincinnati "Price Current" in its weekly review of the crop situation said that wheat-threshing returns continue to be under the early estimates. The spot market has been quiet and easier; exporters have been only light buyers. To-day the market was quiet and steady. The spot market was moderately active; sales were reported at outports of 160,000 bushels for export.

Indian corn futures have received only a limited amount of speculative attention. Early in the week prices showed a tendency to sag under private advices, reporting favorable climatic conditions for the crop. The weekly Bureau report on Tuesday, however, did not meet expectations and started a demand from shorts to cover contracts on which prices advanced. Wednesday there was a slight reaction, but on Thursday the market again showed an advancing tendency on renewed buying, stimulated by reports of hot winds in Kansas, damaging the crop. The spot market has been quiet and prices have fluctuated with futures. To-day the market was without important changes. The spot market was steady.

Oats for future delivery at the Western market have been moderately active. Under private advices reporting favorable crop prospects, and in sympathy with the decline in other grains, prices weakened early in the week. On Tuesday, however, the weekly Bureau report was issued saying that there was much rust in Ohio and upper Mississippi Valley and lake, resulting in a sharp upturn to prices. Locally the spot market has been quiet but steady. To-day the market was higher on shorts covering.

GOVERNMENT WEEKLY GRAIN REPORT. - Mr. James Berry. Chief of the Climate and Crop Division of the U.S. Weather Bureau, made public on Tuesday the telegraphic reports on the grain crops in the various States for the week ending July 20, as follows:

CORN.—Corn has made favorable advancement in all districts, but in CORN.—Corn has made favorable advancement in all districts, but in the principal corn States it is variable as to size and condition, being generally small, especially in the central and eastern districts of the corn belt. As a rule the crop is in a good state of cultivation, except in the upper Ohio Valley and Middle Atlantic States. In portions of Indiana, Missouri, Southwestern Kansas, Arkansas, Oklahoma and Texas, corn is in need of rain to a greater or less extent. High winds flattened considerable corn in the Lake region on the 17th and 1-th Winter Wheat—Winter-wheat harvest is practically completed, except in a few of the more northerly States. Weather conditions have been favorable for thrashing, which work is in general progress, the yields continuing light.

have been favorable for thrashing, which work is in general progress, the yields continuing light.

Spring *HEAT.—The reports respecting spring wheat are not favor able. The late-sown in the Red River Valley in Minnesota is believed to be beyond recovery, while heavy rains have kept the low ands in the southern portion of the State flooded and have caused longing in the uplands. Rains in southeast and extreme northeast portions of North Dakota have improved the crop, and in South Dakota spring wheat is filling well, except in the southeastern portion and in lows, where it is unfavorably affected by rust. In Wisconsin and Nebraska and on the North Pacific cast more favorable reports are received.

OATS Much rust in oats is reported from the Sates of the Ohio and upper Misslesippi valeys and Lake region, and upon the whole the condition of the crop is helow recent anticipations. Harvest is in general progress.

For other tables usually given here see page 178.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., July 24, 1903.

The market has presented little in the way of new features this week so far as the cotton goods division is concerned Business has again been quite moderate in extent at first hands, a condition contributed to by the reserved attitude of both buyer and sellers. The indisposition on the part of the former to go beyond hand to mouth buying is fully appronounced as at any time of late. The fact that the scaroity of ready supplies is extending does not apparently affect them; nor does the spread of the curtailment policy on the part of the mills, although that forbids the hope of any relief for some time to come. The market shows no marked advance in prices this week, but sellers are in all directions very difficult to deal with for ready deliveries, and in many instances keep on quickly raising their limits. The woolen goods division of the market has been disturbed by the nuexpectedly low prices made by the American Woolen Company on some of its leading lines of piece-dyes opened this week. Tn-y are practically back to the level of a year ago, or from 21/2c. 10 5c. per yard below last season's quotations. The trade had been looking for last season's quotations to be maintained at least. The jubbling trade has ruled quiet in all departments, but a fair retail business is generally reported.

Woolen Goods -The new lines of clay worsteds, serges, etc., opened by the American Woolen Company on Monday last show declines from the season just closing of from 2½c. to 5c. a yard. The prices are regarded as decidedly low and have caused some other sellers to reduce prices named by them on competing lines already opened. The attendance of buyers shows an increase this week and a fair amount of business has been done, chiefly in medium and low-grade wool goods. Business in heavy weights for immediate delivery is restricted to small lots. The demand for overcoatings has been quite moderate in extent and cloakings rule quiet throughout. Staple lines of woolen and worsted dress goods are being reordered more liberally than of late,

and at steady prices. Business in fancy woolen and worsted fabrics is quiet in both light weight and heavler goods. The market is firm for flannels and blankets, but quiet.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending July 20 were 1,878 packages, valued at \$113,136, their destination being to the points specified in the tables below:

NEW YORK TO JULY 20.		1903.	1903.

Other Countries.	97	6,129	532	8,041		
Total	1,873	211,468	16 910	167,123		

The value of these New York exports since Jan. 1 to date use been 69 242,272 in 1903, against \$7 +51 717 in 1903.

Reports from China show some improvement in cotton goods there, but there has been no ign of any China demand in this market. With the home demand coming forward for -mall quantities only, business in heavy-weight sheetings and drills has been quite limited. Prices are without quotable change. The scarcity of most descriptions of coarse colored cottons is causing buyers considerable trouble to secure even such moderate quantities as they are in the market for. Sallers are unwilling to do much torward business and are suffening in price for such goods as can be delivered prompily. Bleached cottons in all grades are in quiet request, but prices are very firm, there being but limited supplies on hand. Other lines of dom-srics are in a strong position. A fair demand is reported for staple prints and the tendency of the market is upwards, small advances being occasionally reported. Fancy calicoes are sleady, with a moderate business passing. Fine printed wash goods are quiet and unchanged. Staple and fine ginghams are very tirm in price, being in a well sold condition. The print cloth market has ruled dull throughout; the demand has been limited and sellers are reserved. Regulars are still quoted at 31/4 c.

FOREIGN DRY GOODS.—Business in foreign dress goods for spring is reported in some quarters with a firm tone prevailing. Silks and ribbons are quiet but firm. Linens are against buyers. Burlaps continue dull with no change in

importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending July 23, 1903, and since January 1, 1903, and for the corresponding periods of last year are as follows:

News Items.

New York City.—Tax Rates Adopted.—The Finance Committee on Ju'y 21 reported to the Board of Aldermen the rates of taxation for 1903. The report was adopted. The figures are as follows:

	On Property Liable	On Property Ex
	to Taxation for 1.0-	empt from Tax
	cal, Oity, County	ation for tate
Boroughs.	& State Purposes.	Purposes.
Manhattan and The Bronx	141 567	14 °05 \2
Brock sn	14'-945	14.8129
Queens	14.7508	14.6693
Richmond	14.9675	14.8859
7 11 0		

In the CHRONICLE July 11, on page 103, we gave the assessed valuation by boroughs for the year 1903. Of the \$5,432 398.918 total value, \$119,265,516 represents the assessment of property exempt from taxation for State purposes. The budget for 1903 is \$97,119.031 10, from which is to be deducted \$31,266,304 95, the estimated revenues of the general form. eral fund. The balance, \$75,852,726 12, together with \$257,728 75 (representing the amount paid by the counties during 1902 from the proceeds of special revenue bonds), plus 2% for deficiencies in collection. A total of \$77,632,663 94 represents the amount to be raised in Greater New York by taxation during 1903.

Bond Calls and Redemptions.

Astoria, Ore.—Warrant Call.—City Treasurer Dealey issued a call July 10 for all warrants drawn on the general fund and indorsed prior to June 1, 1903. The warrants included in the call amount to about \$6,000.

SALE OF MUNICIPAL BONDS

FOR THE LINE OF THE

Cincinnati Southern Railway.

Sealed proposals will be received at the office of the Board of Trustees of the Cincinnati Southern Railway until 12 o'clock noon of Monday THE 3D Day of August, 1903, for the purchase of 500 coupon bonds, each of the face value of \$1,000, bearing 31/2 per cent interest, issued by the Board of Trustees of

the Cincinnati Southern Railway.

These bonds are issued in accordance with and under the provisions of an Act of the General Assembly of the State of Ohio, passed April 23, 1898 (93 O. L., 637), entitled "An Act supplementary to an Act relating to cities of the first class having a population exceeding one hundred and fifty thousand inhabitants, passed May 4, 1869" (66 O. L., 80), and the resolution of the Board of Trustees of the Cincinnati Southern Railway, passed the 6th day of June, 1903.

The said board of June, 1903.

Nav 4, 1869" (66 O. L., 50), and the resolution of the Board of Trustees of the Cincinnati Southern Railway, passed the 6th day of June, 1903.

The said bonds, being one of a series of \$500,000 each, issued, or to be issued, each year, for a period of five (5) years, under the corporate seal of said city, for money borrowed thereon in the aggregate not to exceed \$2,800,000, authorized by the above Act to be borrowed by said Board of Trustees as a fund for terminal facilities and permanent betterments for the line of railway of the Cincinnati Southern Railway aline of railway onto by the said City of Cincinnati, and extending from the rail city to the city of the city of Cincinnati, and extending from the rail city to the city of Cincinnati, and ax in addition to all other taxes for municipal purposes, which said be annually levied by the Cuncil or Board of Legislation of said city on the real and tersonal property returned on the grand levy, sufficient to pay the interest and provide a sinking fund for their fund redemption.

The trustees have here fore issued a manuscript boud to the amount of \$500,000, of date July 1, 1902, payable July 1, 1903, and redeemable July 1, 1902, and redeemable July 1, 1902, and said to said the said bond, on being offered to the Trustees of the Sinku g Fund of Cincinnati, Ohio, under the laws of said State, was taken, and is now held by said Trustees of the Sinku g Fund.

The said bonds are to be issued under date of July 1, 1903, and are natable on the first day of July, 1905, at the Americas Exchance National Bank, in New York City, with interes theroon at the rate of 31/6 per cent per annum, payable semi-annually on the first days of January and July in each year, upon the presentation and surr note, as they everally manure, of the interest conton- a takeded thereto; payable both as to principal and accrued interest; all of said bonds are to be signed by the President of the Board of Trustees of the Cincinnati on the first day of July, A.D. 1943, or at any time therefore, payab

Interest will be payable semi-annually at office of the City Treasurer.

STATE AND CITY DEBT CHANGES.

Council Blnffs, Ia .- D. G. Morgan, Mayor; F. L. Evans, Auditor. Council Bluffs is in Pottawattamie County.

Regular Bonded Debt.

REFUNDING 1883—

4 28, A&O, \$30,000...Oct. 1, 1918

Subject to call after 1903.

Special bonds (all 10-20s).

FUNDING BONDS—

INTERSECTION IMPROV.—(5-208.)
^{10.55}.—, \$40,000.......1915

The special assessment bonds are secured by property certificates issued and held in trust for bondholders. A tax levy of \$5.00 (per \$1,000) is made each year for water purposes.

The total amount of cash in the various funds on April 1, 1903, was \$62,707.

NOTE—Decrease in valuation since 1899 is due to a change in the law. Property was formerly assessed at from 30 to 40% of its value, but under a new law all real estate is appraised at its supposed full eash value, of which, however, only 25% constitutes the listed or assessed value.

INTEREST on all the bonds is payable in New York City at the National Park Bank; also at City Treasury.
