REVIEW OF OCTOBER.

The month of October was marked by a succession of unfavorable events. It cannot be said, however, that confidence was any further disturbed; on the contrary the tone was distinctly better at the close of the month, the feeling evidently being that with the adverse happenings out of the way the situation had measurably improved.

One of the earliest developments was the announcement which came after the close of business on Tuesday the 6th that the quarterly dividend on the common stock of the United States Steel Corporation had been reduced from 1 per cent quarterly to $\frac{1}{4}$ per cent quarterly. At the same time the company's quarterly income statement was submitted, showing that there had been a material falling off in profits as the result of the depression in the iron and steel trades. For the nine months to September 30 the loss was only about seven million dollars, the net earnings for 1903 being given as \$94,013,836, against \$101,323,004 in the nine months of 1902; but it appeared that over 4½ million dollars of the loss fell in the third quarter of the year—that is, the September quarter. Furthermore, of the \$4,642,668 decrease in this September quarter, almost three million dollars occurred in the last month, namely September. The shrinkage in profits, of course, furnished the occasion for the cutting of the dividend in two, but it also served as an indication of the change that had come over the iron and steel situation. Steel Corporation common stock dropped from 18½ on Oct. 3 to 12½ October 12 and the preferred stock from 66 October 6 to 57½ October 13. Later in the month there was some improvement in price, the two stocks closing respectively at 13½ and 58½. Rigid curtailment of output was practiced by iron producers and at the close of the month it looked as if an equilibrium between supply and demand would soon be established.

Another development of the month was the financial embarrassments reported in several different parts of the country. The earliest of these came on Thursday evening of the very first day of the month, when Messrs. John L. Williams & Sons of Richmond and J. William Middendorf & Co. of Baltimore gave out a statement saying that in view of the extraordinary and unexpected financial situation which prevailed they found themselves under the necessity of asking temporary indulgence of their creditors. The effects in this instance were not very marked, since the creditors of the two firms promptly came to their aid and granted the extension asked. On Monday the 19th two other suspensions were announced in Balti-

more, one the Maryland Trust Co. and the other the Union Trust Co. of the same city. Neither had any connection, near or remote, with the affairs of John L. Williams & Sons or J. William Middendorf & Co. Contemporaneously the International Bank & Trust Company of America, with branches in various parts of the country, was obliged to close its doors. The Mexican office was closed on Saturday the 17th and the Seattle and San Francisco branches on Monday the 19th, while later the New York office was also closed, a receiver for the company having been appointed on an application filed at Dover, Del.

Then Pittsburgh became the storm centre. The stock of the Federal National Bank of Pittsburgh had declined sharply on the 19th and 20th, leading to rumors of the embarrassment of the bank; on Wednesday the 21st the bank failed to open for business and a statement was given out saying that it had been closed by the Comptroller of the Currency. Simultaneously the First National Bank of Allegheny, which was affiliated in interest with the Federal National Bank, also announced its temporary inability to meet its engagements.

On Tuesday the 27th a run occurred on several of the St. Louis trust companies, namely the Mississippi Valley Trust Company, the Mercantile Trust Company, the Lincoln Trust Company and the Missouri Trust Company. In this case there was apparently no reason for the uneasiness manifested, unfounded rumors having been the basis of the run, which was confined mainly to the small savings depositors of these institutions. The companies, being entirely solvent, were able to meet all their obligations, and the excitement soon subsided.

Not all the developments were of an unfavorable nature. Labor matters still continued unsettled in several directions, and at the close of the month an attempt was made to involve the whole International Association of Bridge and Structural Iron Workers in a strike. This attempted strike, however, failed, and the second conviction of extortion of Samuel J. Parks, the walking delegate of the Housesmiths' & Bridgemen's Union (Local No. 2) on Friday October 30 put a final quietus on the matter. The disclosures in the United States Shipbuilding investigation were not of a nature to restore confidence in the industrial properties organized during the last few years. On the other hand the agricultural promise, at least as far as corn was concerned, decidedly improved. On the 10th of the month the United States Agricultural Bureau at Washington issued its report showing the condition of the crop October 1. This report actually made the average of the corn crop somewhat better than it had been on the first of the previous month, notwithstanding the frost experienced in the West during September. The average was given as 80.8 October 1, against 80.1 September 1 and against 79.6 October 1 last year. These figures indicate a crop of 2,300 million bushels where hardly more than 2,000 million bushels had been counted upon.

On the Stock Exchange a distinct revival of confidence occurred, notwithstanding all the developments noted above. The first part of the month the trend of prices was still downward, but the latter part a marked recovery ensued, though the volume of transactions dwindled to small proportions. The demand for bonds was much better than for some time, this applying perhaps more strongly to dealings over the counters of bankers and brokers than to transactions on the Stock Exchange. As a further indication of the improving tendency, mention may be made of the purchase by Messrs. Kuhn, Loeb & Co. of \$10,000,000 Long Island Railroad 4 per cent bonds and also \$10,000,000 of 4 per cent Philadelphia Washington

& Baltimore bonds. In both these instances the subscriptions to a syndicate organized to take the bonds from Kuhn, Loeb & Co. were largely in excess of the amount required. Union Pacific common stock advanced from 67½ on the 12th to 73½ on the 27th, and Baltimore & Ohio common between the same two dates rose from 72 to 76½ and Illinois Central from 127½ to 132½. New York Central moved up from 113½ on the 1st to 120½ on the 27th and Pennsylvania from 115½ on the 1st to 120½ on the 29th. These furnish a fair idea of the general course of the market.

The money market did not show much change in call loan rates (which remained very low) until the occurrence of the run by savings depositors on the St. Louis trust companies. Then, to meet the requirements of these institutions for funds, large shipments of currency were made from this point, with the result that call loan rates the last few days at times reached 5 per cent.

The rise in money rates, just narrated, had the effect of producing a decided weakening in foreign exchange the latter part of the month and coincidentally there was a very good supply of commercial drafts against cotton and grain. These occurrences brought a sharp decline in sterling to the lowest figures of the year, followed in November by importations of gold.

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1908. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "*Prices about January 2, 1908,*" were made on that date, except those in italics, which are the nearest in January, 1908. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

F For foot notes to tables see last page of Bonds and last page of Stocks.

GENERAL QUOTATIONS

—OF—
BONDS AND STOCKS.

1. In the following twenty-eight pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.

2. Quotations from all Stock Exchanges are as near as possible for the *last day of October*. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

3. Bond prices marked (\$) indicate that the purchaser must pay accrued interest *in addition to the price given*. The method of quoting on the New York Stock Exchange is to quote the price flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.

4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz: "M." for mortgage, "g." for gold, "g'd" for guaranteed, "end." for endorsed, "cons." for consolidated, "conv." for convertible, "s.f." for sinking fund, "l.g." for land grant, "op." for optional.

7. The black-faced type in the letters showing the interest period indicates the *month* when the bonds mature.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (*).

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

BANKS AND TRUST COMPANIES.

Quotations for the stocks of banks and trust companies are given per share, not per cent, with the exception of New York City, Brooklyn and Canadian bank stocks.

Prices marked thus (*) indicate sales. The dagger (†) prefixed to a price indicates that the figures show the book value. Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.
