### THE FINANCIAL SITUATION.

Crops, very late in maturing and consequently late almost beyond precedent in being marketed, are making all comparisons with a year ago and previous years misleading. We referred several weeks since to the movement of currency for crop purposes to the inte. rlor, which many then thought was very nearly if not entirely completed for the season. The figures and facts we gave on that occasion showed on the contrary that the movement up to that date had been less than in former years, because the crops had been abnormally late in maturing, and that as the yield was good and values high, especially of cotton, the tiow of money to the interior would necessarily be larger, instead of less, in the succeeding month. That statement has been fully confirmed by recent experience.

To-day the latest Government figures of exports of agricultural products, those for October, are being altogether misjudged through a similar mistake. The more important point the public has overlooked is that the movement of that staple to Europe was when October opened very backward—the season's movement had indeed hardly begun. That is to say, the September 1903 exports were only 379,859 bales, against 677,-392 bales in September 1902; consequently, to even up the outflow on the first of November to the similar total November 1 1902, the October exports should have been about 300,000 bales larger than in October 1902; moreover, as the price for middling uplands was October 1 about 18 cents a pound higher than at the same date in 1902, and the average for the whole month of October showed very nearly 14 cents better, this higher value ought to have put an extra stimulus on the marketing. Besides that, stocks were short in Europe October 1, and consumption, especially on the Continent, active, which gave an eagerness in the demand from those sources not equaled a year ago. In spite of these differences tending to hasten the movement, it is found that the outflow of cotton to Europe the current season (that is since Sept. 1) had not even last Friday night brought the total bales so moved up to the total at the same date in 1902.

It is important to get this matter right, because it is a kind of basic feature in discussions of this season's cotton movement; a good many deductions may be mere perversions if one is astray in this particular. For instance some writers, taking the value of the October cotton exports (\$60,477,437 as the official figures state the item) and pointing to the two million dollars a day it averages, use it as if it were an indication of the rapid development of this country's commerce and crops, or as if two million dollars a day for cotton exports was to be repeated all through the year. The truth is, the daily average value of cotton exports in November will be considerably larger than in October, and it is possible, but not likely, that this average value in exports of that staple may continue down to the middle of December; after that the total will rapidly decrease. The first fact then to remember, in considering this total, is that it is special, due to delayed shipments because of late maturity; to a short supply of the last crop and uncertainty as to the extent of the current crop; to an active demand growing out of a short supply and large consumption in Earope, and a constitutional disposition of Continental spinners to make early provision for their wants, whatever be the current price.

Another misleading tendency the present free marketing is liable to leave on the mind is to accept it as evidence of a large crop. What we have already said indicates that no such conclusion is at present authorized. Until the current week, the amount of bales that had come into sight this season aggregated less than the amount recorded during the same period last year. When one remembers the higher prices now raling, it becomes reasonable to look for more rapid marketing than was last year in progress. Indeed, at this time in 1902 there was some disposition evident to hold cotton back for advances in price which were confidently promised. To day there is a decided disposition among planters to let consumers have at least a considerable portion of the product. It seems to us, with prices as they now rule, it would be wise if this course were continued. We never looked upon high prices of cotton with so much complacency as now, because to day the producers are getting the benefit of it, while usually the advance comes toward the end of the season, when only the remnant of the year's yield is left and almost all of that has passed into the hands of speculators. Of course we do not intend in what we have said to give any opinion as to the size of the crop now being marketed. We only wished to make it clear that the large October exports and the very full movement since November began have no significance as a guide to the country's industrial development or even of the year's yield.

The Panama incident, although a long time incubating, has made swift progress since the bringing forth of a new nation to be added to the world of nations began. It is likely, however, to become distinguished, even among South American political changes, for the speed with which its object and purposes have been carried through. First came the transactions of last week-the secession from Colombia, the completed revolution, the formation and organization of the Government of the Republic; all that occupied only about two or three days. Immediately thereafter special Commissioners of the new State were appointed, sailed for New York in the steamship City of Washington, arriving here on Tuesday morning. Thursday morning it was announced that the Treaty providing for the construction and control of a ship canal across the Isthmus had been completed and was signed by the two contracting parties Wednesday evening at Washington. It is said that the terms of the Treaty are very satisfactory to the President and his Cabinet and to the leading members of the Administration in the Senate. There seem to be differences in the newspaper reports of the contents of the instrument. But all appear to agree that (1) the grant is of control in perpetuity for all police, judicial and sanitary requirements of a canal zone ten miles wide; also (2) the grant of all lands within the Republic which the United 'States shall find necessary in connection with the building or the operation and maintenance of the canal; (3) the cities of Colon and Panama are to retain their municipal autonomy so long as they maintain public order and sanitary conditions to the satisfaction of the United States, but on failure to do this it becomes the right of our Government to force strict compliance with its wishes in these respects; (4) the \$10,-000,000 which was to be given to Colombia for the grant goes to Panama, with the annual payment of \$250,000 beginning nine years after the ratification of the treaty. It should be further stated that a report has also been received of the secession from Colombia of the States of Cauca and Antioquia and that they desire union with Panama; but Panama, the same report says, prefers to "go it alone."

A great success for the President has been the passage of the Cuban Reciprocity Treaty through the House on Thursday by a vote of 335 to 21. Mr. Roosevelt has pressed this subject on the attention of Congress most persistently, but received only halfhearted support from even his own party in the last Congress. There is no doubt of the obligation to which we became subject, to give Cuba a chance for trade revival, and yet that country's industries have been languishing while Congress has been hesitating. But so far as the House is concerned, both parties are found now joining hands in passing the measure after the opposition party had made a record of its desire to have the scope of the Treaty widened. We notice, however, that Senator Teller is reported to have said that the measure could not pass the Senate at the extra session, as the number of Senators desiring to be heard on the question was so great that there was not time to reach a vote. Perhaps Mr. Teller has been misquoted, or if not we hope he is mistaken in his forecast. It may be that he did not reckon on so expeditions a passage of the bill in the House. There would seem to be abundance of time to dispose of the matter before the regular session opens. The Senate met yesterday that the bill might be received and sent to the Committee. As the regular session begins December 7 it can make very little difference to the party in power whether the measure becomes a law at once or a few weeks later. But factitous or unnecessary delay would be to the disadvantage of the opposition. After the Democratic Senators have offered the amendments which were shut out in the House, the difference in the position of the two parties is clearly defined. What more can be needed ?

Among the incidents of the week affecting favorably the Wall Street market, other than what has been noted above, may be mentioned the official announcement made Thursday by E. H. Gary, Chairman of the board of directors of the United States Steel Corpor ation. It stated in substance that by unanimous agreement between the finance committee of the Corporation and J. P. Morgan & Co., the managers of the syndicate having the matter in charge, the conversion of preferred stock into second mortgage 5 per cent bonds has been terminated and canceled beyond the amount of \$150,000,000. At the date of the notice \$146,388,500 bonds had already been issued in exchange for stock received and canceled. Other trans. actions made and to be made for cash and otherwise will bring the total outstanding up to \$170,000,000, leaving a balance of \$30,000,000 available for sale for cash, which when paid for will make the total of bonds issued \$200,000,000. The \$50,000,000 remaining available for exchange for preferred stock will be held subject to the exclusive right of the Corporation. It is not the present intention of the Corporation to make any further conversions. Another incident affecting favorably the Wall Street market is the amicable arrangement made between the various interests in the Seaboard Air Line Railroad Company. According to this arrangement a fair representation new rate from Chicago will be only \$3 50 a ton. From

has been secured to each interest on the board of directors and in the voting trust, and the offer of Blair & Company and Thomas F. Ryan accepted, which included sufficient money to cover the company's floating indebtedness and \$700,000 additional to complete the Atlanta-Birmingham extension.

That confidence in financial circles is now reviving is evident from the large loan negotiations which have been carried through within the last few weeks. A couple of months ago such extensive negotiations would have been deemed out of the question on account of the unfavorable market conditions prevailing and the difficulty of floating new stock and bond issues, even those of high character and merit. But since then the situation has changed decidedly for the better. Ingour issue of October 31 we referred to the announcement that Messrs. Kuhn, Loeb & Co. had purchased \$10,000,000 of Long Island Railroad 4 per cent bonds and also \$10,000,000 of Philadelphia Baltimore & Washington 4 per cents, and that subscriptions to the syndicate formed to place the bonds had genceeded the amounts of the issues. A little later came the news that Messrs. Speyer & Oo. and Kuhn, Loeb & Co. had also taken \$9,600,000 of various issues of Baltimore & Ohio 3 and 4 per cents, in the company's treasury. On Thursday of last week Messrs. Kidder, Peabody & Co. offered certificates of participation in a £1,500,000 5 per cent two-year sterling loan made to the Great Northern Rilway Company by Baring Brothers & Co. (Ltd.), Kidder, Peabody & Co. and Baring, Magoun & Co. This week we have the most important loan negotiation of all, namely the purchase by Messrs. J. P. Morgan & Co. of \$40,000,000 out of \$50,000,000 of twenty-five-year 4 per cent debentures recently authorized by the Lake Shore & Michigan Southern<sup>°</sup> Railway Co. In acquiring its interest in the Reading Co. early in the year and its various other purchases, the Lake Shore incurred and has been carrying alconsiderable floating debt. Of the \$40,-000,000 of debentures now placed, it is stated that \$25,000,000, or the equivalent thereof, will be used to pay off that amount of notes falling due in January next. It is also stated that there will probably be no underwriting syndicate. Developments of this kind at the present time are suggestive and significant. In view of such indications, what force, we may be permitted to ask, attaches to the intimations so freely given out during the last twelve months that leading banking and financial interests were so tied up with "undigested" securities that they were not in a position to take new offerings of any kind?

The trunk-line railroads have acted in a broad and liberal manner, and have acceded to the request of the iron and steel interests for a reduction in transportation rates to]the seaboard from the interior on iron and steel products intended for export. The reduction granted, too, is a substantial one. The steel manufacturers had asked for a 50-per-cent decrease; what the railroads grant is somewhat over  $33\frac{1}{3}$  per cent. It is stated, too, that the reduction applies to all articles on the so-called "special list," including steel billets, but not including steel rails. Action on the list embracing rails has been deferred until December. As an illustration of the changes made, it may be noted that while the old rate from Chicago to New York was \$5 50 a ton, the

Buffalo and Pittsburgh to New York as against the present rate of \$2 90 a ton, the new rate will be only \$1 90 a ton. The same rates are to apply via Boston, while the other ports are to receive the usual The new rates differentials. are to go into Action on effect on the first of December. the part of the trank line managers seems to have been unanimous. The effect certainly cannot be otherwise than highly beneficial. With the coincident reduction in wages it ought to be possible for the United States Steel Corporation, and for that matter the other large steel manufacturers, to compete in foreign markets with the products of other countries. This we have always claimed would happen as a result of the consolidation of the various steel properties when domestic consumption fell off. The developments of the last few days and the fact that some orders from abroad have already been secured look like a fulfilment of this prediction.

The business activity of the last few years has induced capitalists and banking interests to undertake the construction and extension of various small roads throughout the country. Some of these, according to present appearances, seem likely to prove decidedly profitable to the projectors of the enterprises, while being a boon to the communities which the new roads are intended to serve. This thought is suggested by the appearance the present week of the annual report of the Louisiana & Arkansas Railway Company. The total gross earnings of this little road in the late fiscal year were but slightly in excess of half a million dollars, but the enterprise attracts attention by reason of the further extensions under way, and which, when completed, will make the road a link in a line connecting New Orleans and the lower Mississippi Valley with Oklahoma, the Indian Territory, Kansas, and the country generally west of the Missouri River. At the beginning of the fiscal miles, year the road comprised 125 extendon the St. Stamps, Ark., Louis ing from Southwestern Railway, to Winnfield, La. During the year the road was carried northward from Stamps to Hope, Ark., making the total mileage 148 miles. The chief object in building to Hope, the report tells us, was to establish connections with the St. Louis Iron Mountain & Southern Division of the Missouri Pacific Railway System and with the Rock Island-'Frisco system. The St. Louis & San Francisco is not as yet in operation to Hope, but has been building a branch to that point, on which, according to press dispatches received this week, track-laying has now been completed.

The Louisiana & Arkansas runs through a heavily timbered country, and has been doing a good local business thus far. With the new connections made it is calculated that very extensive markets for the yellow pine cut along the line will be found in Kansas and the prairie sections of that vicinity, which are without timber of their own. At the Southern end an extension in a southeasterly direction from Winnfield to Jena, La., about 39 miles, is now being built, and should be finished early in 1904. Further extensions are proposed from Jena easterly to Natchez, on the Mississippi River, 47 miles, and from Packton southerly to Alexandria, 36 miles.

The authorized capital stock of the company is \$7,000,000, and there is also an authorized bond issue

for the same sum, these amounts, however, having reference only to the ultimate dimensions of the road. should the project be carried out in its entirety. Up to the present time only \$2,625,000 of stock is outstanding and \$2,449,000 of bonds, the latter equivalent to \$16,600 per mile of completed road. In the late fiscal year, with an average of 127 miles of road in operation, gross earnings were \$532,534 and total net income \$178,670, while the interest accruing for the period was but \$70,027, leaving a surplus of \$108,643. On the present funded debt of the company, \$2,449,000, the annual interest charge at 5 per cent is \$122,450, as against the late year's net income of \$178,670. The report states that the annual interest charge on the funded debt is equivalent to \$830 per mile of road now in operation, as against net income available for interest of \$1,405 per mile operated in 1903 and \$1,645 per mile the average of the last two years. For the protection of the interests identified with the property the stock is held in a voting trust for ten years, the voting trustees being William Buchanan, Edward D. Porter, Benjamin F. Yoakum, Harvey E. Fisk and Charles L. Pack.

There was no change in official rates of discount by any of the European banks this week and, compared with last week, unofficial, or open market, rates were easier at London and steady at Paris, Berlin and Frankfort. Among the political incidents of the week was the signing on Wednesday at the State Department by Secretary Hay on behalf of this Government, and by Mr. Bunau-Varilla, the Minister of the Republic of Panama, for his Government, of a Treaty providing for the construction and control by the United States of a ship canal across the Isthmus of Panama. There was a report of the secession from the Republic of Colombia of the Departments of Canca and Antioquia.

One feature of the statement of the New York Associated Banks last week was the decrease of \$10,240,-500 in loans, supposed to be chiefly the result of liquidation in the stock market. The cash reserve decreased \$2,913,200 net, and through a reduction of \$14,629,600 in deposits, the required reserve was diminished by \$3,657,400. Consequently the surplus reserve was increased \$744,200, to \$6,138,425. Computed upon the basis of deposits less those of \$36,-921,700 of public funds, the surplus is \$15,368,850. The bank statement of this week should reflect, in addition to other movements, the transfer through the Sub-Treasury to New Orleans of \$1,730,000, to San Francisco of \$500,000 and to Chicago of \$300,000; also the receipt of \$1,849,270 gold from Europe. The amount now supposed to be in transit is about \$6,-460,000, including \$2,350,000 which was engaged this week. There was an arrival, this week of \$326,000 Yukon gold, represented by Seattle Assay Office checks, consigned to the Bank of British North America; this makes \$5,000,000 of Yukon gold received by the bank through its agents during the season. The Canadian Bank of Commerce has received in this period \$4,500,000. On October 25 the steamer Oregon left Nome, Alaska, with \$2,000,000 gold bullion and it is reported that the output of the Alaskan fields this season has been between \$8,000,000 and \$10,000,000. The exchanges of refundable bonds for the 2 per cent consols have thus far amounted to \$10,063,350 and the redemptions of the 5 per cents of 1904 to \$10,930,350.

Money on call, representing bankers' balances, has loaned at the Stock Exchange this week at 8 per cent and at 4 per cent, averaging 5 per cent. On Monday loans were at 6 per cent and at 4 per cent, with the bulk of the business at 42 per cent. On Tuesday transactions were at 6 per cent and at 41 per cent, with the majority at 5 per cent. On Wednesday loans were at 53 per cent and at 5 per cent, with the bulk of the business at 54 per cent. On Thursday transactions were at 5% per cent and at 5 per cent, with the majority at 51 per cent. On Friday loans were at 8 per cent and at 6 per cent, with the bulk of the business at  $6\frac{1}{2}$  per cent. The advance then was due to the calling of about \$12,000,000 loans by two of the large banking institutions. Banks and trust companies have loaned at 5 per cent as the minimum. Time contracts on good mixed Stock Exchange collateral are quoted at 5½ per cent for sixty to ninety days, though little business is done, commission houses being disposed to rely upon the call loan branch of the market instead of borrowing for these short periods. It is reported that some loans have been effected for two to three months at 5 per cent upon long sterling which has been bought for investment. The rate on Stock Exchange security for four to six months is 5@51 per cent; offerings have been more liberal though without resulting in much business. Commercial paper is quoted at 6 per cent for sixty to ninety day endorsed bills receivable,  $6@6\frac{1}{2}$  per cent for prime and  $6\frac{1}{2}@7$ per cent for good four to six months single names. The buying continues to be confined to Eastern institutions; the local banks are out of the market.

The Bank of England minimum rate of discount remains unchanged at 4 per cent. The cable reports discounts of sixty to ninety-day bank bills in London  $4\frac{1}{5}$  per cent. The open market rate at Paris is  $2\frac{7}{5}$  per cent and at Berlin and Frankfort it is  $3\frac{3}{4}$  per cent. According to our special cable from London, the Bank of England lost £117,695 bullion during the week and held £32,046,672 at the close of the week. Our correspondent further advises us that the loss was due to exports of £933,000, of which £203,000 sold in the open market, £700,000 shipped to Egypt and £30,000 to various countries, and to receipts of £815,000 net from the interior of Great Britain.

The foreign exchange market has been strong this week and, compared with the low rates last week, those for long and for short rose one cent per pound sterling by Thursday, and this, too, notwithstanding the continued liberal supply of commercial bills against cotton. The market was influenced by prrchases of bankers' long sterling for investment, with the intention of holding these bills until they ran to sight, and there was also a demand for short sterling to remit for settlements, buyers taking advantage of the comparatively low rates ruling to pay off foreign indebtedness. It is reported that large amounts of credits have been established in London by our bankers through the purchase of commercial bills, and that the cotton drafts now being bought are promptly forwarded for discount with a view to the accumulation of credits, subject to future drawing. The new engagements of gold reported this week amount to \$2,-350,000. The arrivals for the week were \$1,849,270, leaving in transit, as far as can be traced, \$6,460,000. The price of gold bars in the bullion market at London was reduced this week to 77s. 111d. and of American gold coin to 76s. 6<sup>1</sup>/<sub>2</sub>d. per ounce. Gold arrivals reported at the Custom House were \$1,854,251, including \$1,849,270 from Europe. The Assay Office paid \$1,898,704 54 for domestic and \$1,016,960 for foreign gold bullion, the latter from London.

Nominal quotations for sterling exchange are 4 81 @4 811 for sixty day and 4 841 @4 85 for sight. Rites for actual business on Monday were 30 points higher for long, compared with those at the close on Friday of last week, at 4 7990@4 8010, 35 points better for short at 4 8360@4 8375 and 35 points higher for cables at 4 8410@4 8425. On Tuesday there was an advance of 25 points for long and short to 4 8015@4 8030 for the former and to 4 8385@4 8395 for the latter; cables rose 15 points to 4 8425@4 8450. On Wednesday long was 10 points higher at 4 8025@4 8035 and cables 5 points better at 4 8430@ 4 8440; short fell off 5 points to 4 8380@4 8390. Long was only slightly firmer on Thursday, selling at 4 8025@4 8040, but short was strong at a rise of 15 points, to 4 8395@4 8410 and cables were 20 points higher at 4 8450@4 8460. The market was firm on Friday morning, when there was a good demand to cover shorts; in the afternoon the tone was easier, affected by dear money. The market closed, however, at an advance of 15 points for long, of 20 points for short and of 10 points for cables.

The following shows daily posted rates for exchange by some of the leading drawers.

• The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it elaimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver, but we believe the division we make is a close approximation.

+ The Austro-Hungarian Bank Statement is now issued in Kronen and Heperinstead of Guiden and Kreutzer. The reduction of the former currency to sterling \$ was by considering the Guiden to have the value of 50 cents. As the Krone has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen \$, has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20. THE CHRONICLE.

The following gives the week's movement of money to and from the interior by the New York banks.

Week ending November 20, 1908.	Received by N. Y. Banks.	Shipped by N. T. Banks.	Net Interior Movement.	
Currency	\$3,641,000	\$5,988,000	Loss. \$2,292,000	
Gold	692,000	1,092,000	Loss. 407,000	
Total gold and legal tenders	\$4,336,000	\$7,035,000	Loss. 2,699,000	

With the Sub-Treasury operations the result is as follows.

Week ending November 20, 1908.	Into Out of Banks. Banks.		Net Change in Bank Holdings.	
Banks interior movement, as above Sub-Treasury operations	\$4,3\$3,000 24,300,000	\$7,035,000 23,300,000	Loss. \$2,699,000 Gain. 1,000,000	
Total gold and legal tenders	\$28,638,000	\$30,335,000	Loss. 1,699,000	

## THE BRITISH MOVEMENT TOWARD THIBET.

London despatches at the opening of the week contained intimations of a curious step in the maneuvers of the various Powers in the Far East. The statements were somewhat vague, but it seemed to be generally agreed that some sort of a clash had occurred, on the southern frontier of Thibet, between the Government of that country and the British authorities in India, and that a military expedition had set out from India toward the Thibetan capital. It was further intimated that the dispute had arisen over questions of hindrances to trade between India and Thibet.

The interest of the general public in this announcement was doubtless heightened by the curious traditional position of the country involved in this dispute. It is said that no foreigner has really penetrated Thibet in nearly a century, and as it is known that the religion, government and manner of life of the Mongol community which inhabits the country are peculiar, and in some ways primitive, curiosity has always been excited when its affairs were discussed, and the possibility of a European invasion was certain to arouse interest.

Observers of the tendencies of the time in high diplomacy will be equally interested, but for a very different reason. Thibet lies along nearly the whole of the northeastern boundary of India. A direct land route from upper India to Pekin and the populous northern districts of China would necessarily cross it. This is the country's strategic position as regards, in particular, England's Asiatic trade. There have been numerous conjectures as to the country's own commercial possibilities—among them travelers' vague tales of wealth in gold deposits—but of all this there is very little proof; the most anthentic testimony being to the effect that the people occupy a sterile region and are themselves poor.

But the country's position, first as a border state to India and next as a highway for the Indo-Chinese trade, has always made it a possible field for international dispute. The place it occupies in relation to Northeastern India is precisely that which Afghanistan occupies with relation to India on the northwest. Now in the case of Afghanistan the reasons why the country became involved in such disputes were very plain. Not only was Afghanistan wedged between India and the important markets of Persia, but Russia had, during the first half of the nineteenth century, been slowly pushing her own border southward along the Caspian Sea in the direction of India. Eventually, plain evidence reached the British and Indian

governments of Russian intrigues with Afghanistan itself. The inference drawn was that with Afghanistan's unsettled and rapidly shifting dynasties, Russia might before many years extend its sphere of influence, if not its actual territorial possession, over that country, and thus squarely up the northern frontier of India. As far back as 1842, the year of the famous Cabul massacre, the British Government and army were involved in the internal affairs of Afghanistan. Forty years later, a similar armed collision occurred, that episode being signalized by General Roberts's famous march to Candahar. On each occasion the shadow of counter negotiations on the part of Russia was over the whole affair; in 1882 actual war between Russia and Great Britain over the Afghan matter was for months believed to be imminent.

Eventually the British Government effected the security of this buffer between its Indian dominions and the southern territory of Russia. So long as China remained in undisputed control of the vast tract of territory stretching from Thibet northward and eastward to Siberia and the ocean, there could be no question regarding control of the Thibetan dominion. Chinese aggression there was no reason to apprehend, and the more general problem of trade facilities and privileges was allowed to rest dormant. The question which will suggest itself to persons familiar with the story of European diplomacy in Central Asia is whether the progress of Rassia eastward and southward into Manchuria may not explain this week's reports of Great Britain's movement to extend its own sphere of inflaence more positively into regions lying in that direction along its own Indian frontier.

The question is curious and interesing; it interweaves itself with the other problem of the day-Rassia's obstinate maintenance of its hold on Northern China, in the face of treaty abnegations and diplomatic protests that it is ready to withdraw. The Boxer outbreak seemed at its start to foreshadow sure and early disintegration of the Chinese Empire; the agreement of the Powers, when the uprising was suppressed, appeared to have had, for the time at least, the odd result of postponing the grasping of covetous European States at the crumbling empire's territory. But the pause may have been only temporary, and the British effort to gain a diplomatic foothold in Thibet may, conceivably, be a move in anticipation of the resumption of the process. Like most movements in that section, the English advance would in any case be gradual, and heard from only at intervals. It should be watched with interest, however.

### BALTIMORE & OHIO'S PROGRESS.

Progress and development are written all over the report of the Baltimore & Ohio Railroad Company; and the record for the past year (we mean the twelve months ending June 30 1903) is simply a continuation of the record in this respect of the years immediately preceding. We think we are within the mark when we say that next to the Pennsylvania Railroad itself which dominates the Baltimore & Ohio—there is no other railroad property in the country on which the new capital expenditures in recent years have been on so large a scale. These expenditures, too, have brought the return expected in an enormous enlargement of the volume of traffic, both freight and passenger.

Caspian Sea in the direction of India. Eventnally, plain evidence reached the British and Indian began while Mr. Cowen was still receiver of the company, and it has continued without interruption up to the present time, the outlays increasing in magnitude rather than diminishing. Much was accomplished while Mr. Cowen was in control in the way of improving grades, alignment, etc., and providing additional facilities. Much more has been accomplished in the same way since then. The object of these outlays was not alone to provide for a steadily growing volume of business, but to enable the company to handle it with economy and efficiency—which it was not able to do before the time of the receivership.

As illustrating the magnitude of the capital outlays we need refer only to those of the late year-bearing in mind that these new capital creations for 1902-03 follow notable additions in previous years. During the twelve months referred to \$42,316,860 of new stock was issued (being sold to shareholders at par) and in addition \$5,984,000 of new bonds was put out, making over 48 million dollars of new capital in this one year. The Pennsylvania Railroad managers are generally commended for having displayed much foresight and wisdom when they sold their \$75 000,000 of Pennsylvania Railroad stock to shareholders at 120 (yielding \$90,000,000) early in the year, before con ditions in Wall Street had become so depressed as to render the sale of new railroad securities, whether stock or bonds, on any large scale practically out of the question. Much the same remark may be made with reference to the action of the Baltimore & Ohio in disposing of the \$42,000,000 of stock, as already mentioned, in a lump in September of last year.

The proceeds of this large issue of stock, so wisely provided beforehand, put the company in possession of all the funds needed for its various extensive new undertakings. When the announcement of the new issue was made last year, it was stated that of the \$42,316,860 of cash to be provided, about  $20\frac{1}{2}$  million dollars would go towards the acquisition of additional equipment and 93 million dollars towards providing additional double track and to pay for miscellaneous construction, while the remaining  $12\frac{1}{2}$  million dollars was to be used to acquire stocks, bonds, etc., to be placed as security under the mortgage of the Pittsburgh Lake Erie & West Virginia System. We are not sure that the amount has been apportioned in exactly that way. The important fact, however, is that the company was put in possession of enormous amounts of cash, and as a consequence its treasury has been in a plethoric condition just at the time when general financial conditions made such a situation particularly desirable.

The aggregate expenditures for construction and betterments for the twelve months ending June 30 1903 were \$8,999,309, of which, however, \$3,500,000 was provided for out of an appropriation from the surplus income of the year. Besides this, \$9,636,028 was spent during the twelve months for new equipment (covering 6,000 freight cars, 54 passenger equipment cars and 154 locomotives), supplied through the agency of the South Western Equipment Company. Altogether, equipment costing \$18,508,352 has been provided up to June 30 1903 through the South Western Equipment Company.

Perhaps the most important operation of the year was the acquisition of a large amount of the stock of the Reading Company, this being part of the general plan by which control of the Reading Company is being held in the joint interest of the Pennsylvania Railroad and Vanderbilt interests. The report before

us snows that the Baltimore & Onio acquired altogether \$27,555,000 par value of the stock of the Reading, \$7,500,000 being common stock. \$6,065,000 first preferred stock and \$13,990,000 second preferred stock. The total outstanding stock of the Reading Company (including the whole three issues of shares of that company) is \$140,000,000. The Baltimore & Ohio has to rely upon the Reading Company and its controlled line, the Central Railroad of New Jersey (forming the Bound Brook route), for its outlet to New York City and to connect its New Jersey and S aten Island terminals with the parent system of the Baltimore & Ohio. The report says that for this reason it was deemed essential to the interests of the Baltimore & Ohio that "the business relations between the companies should be secured in the most substantial manner, and favorable opportunity having offered to secure a large block of the Reading stock, your company availed itself of the same." At just what figure the stock was obtained we are not informed, but the result of this and other operations. has been that the book value of stocks owned by the Baltimore & Ohio was increased during the twelve months \$22,231,313. We may say, too, that the company's holdings of bonds in other companies was likewise increased \$6,139,913 during the twelve months.

It is evidence of the financial strength of the company and of the wise provision made in advance for its needs, that at the close of the year, with the various large financial transactions mentioned above carried through, its financial condition should be one of extreme ease-no less emphatically so than at the end of the previous year, when the same characteristics distinguished the accounts. In other words, the balance sheet shows no less than \$15,858,691 of cash on hand, with total cash assets (including this cash) of \$28,391,317, while the aggregate of current liabilities, including interest accrued but not due, and also dividends declared and not yet paid, was only \$18,224,979, leaving an excess of current cash assets in amount of over 10 million dollars. This is irrespective of stock and bond holdings in other companies and also irrespective of its own bond holdings in the company's treasury. We observe that of these latter there were \$2,060,843 of the Baltimore & Ohio prior lien 3<sup>1</sup>/<sub>2</sub> per cents, \$3,023,317 first mortgage 4 per cents, \$1,644,-950 of Baltimore & Ohio South Western Division 31 per cents and \$2,884,000 of Baltimore & Ohio, Pittsburgh Lake Erie & West Virginia refunding 4 per cents. In brief, in addition to the large excess of cash assets the company held \$9,613,110 of its own bonds in its treasury. These are in large part, we presume, the treasury bonds which Messrs. Speyer & Co. and Kuhn, Loeb & Co. have now contracted to take.

As to the growth in traffic, exact comparisons with previous years are not possible because of the additional road absorbed by the company. An idea of the enormous expansion that has occurred, however, is obtained when it is observed that while in 1895-96 the number of tons of freight moved one mile was 2,836 millions (and this the maximum reached up to that time) for 1902-03 the corresponding item was up to the enormous total of 8,584 million tons. It will be seen that in the seven years the tonnage more than trebled; length of road in the same interval increased only from 2,090 miles to 3,935 miles. The much heavier gain proportionately in traffic than in mileage is the more significant in view of the fact that the additional road acquired must have had relatively a much lighter traffic than the parent system. In the actual number of tons handled the increase in the seven years was from 17,861,927 tons to 44,178,943 tons. Simultaneously there has also been marked growth in the passenger traffic, the number of passengers moved having risen from 8,567,194 to 15,021,671, and the number moved one mile from 297 millions to 626 millions.

The 3,935 miles of road reported on do not cover the whole mileage of the Baltimore & Ohio 'system as it now exists. In addition there are 462 miles of controlled or affiliated lines which are still operated separately. Including the results for these 462 miles, total gross earnings in the late year reached \$68,178,-676 and the net earnings \$25,438,674. This is in the one case an improvement of \$5,960,973 and in the other an improvement of \$3,196,257 over the results for the twelve months preceding. With wages, fuel and everything else costing so much more than in the year preceding, the Baltimore & Ohio management are to be congratulated in having been able to carry over to the net such a large portion of the increase in gross. The expenditures for maintenance of way and structures, it is true, were reduced somewhat over a million dollars, they having been very heavy the previous year. But, on the other hand, the outlays for maintenance of equipment were a full million dollars larger. Oost of conducting transportation increased \$3,282,246, and would doubtless have increased still more except for the high efficiency obtained in operations. This improving efficiency reflects the benefits resulting from the large expenditures made the past few years for improvement of grades, curves, etc.

We note a further small gain in the train-load in the late year, bringing it up to an average of 416 tons In 1897-98 the average train-load was only 314 tons, and in 1896-97 still smaller. The company realized a further increase in freight rates, which have been steadily rising since 1898-99. In the last-mentioned year the average per ton per mile on the entire traffic of the system was only 3.90 mills; in 1899-1900 there was a rise to 4.55 mills; in 1900-01 to 4.98 mills; in 1901-02 to 5.15 mills, while for 1902-03 the average is up to 5.56 mills.

The income showing for the twelve months is found to be satisfactory in the extreme. After allowing \$513,596 for discount and commission on securities sold and \$66,255 for sundry adjustments, the available net income for the twelve months was \$13,751,908. Out of this an appropriation of \$3,500,000 was made for additions and improvements, while the 4 per cent dividends on common and preferred stock called for \$7,-370,481. These dividends are calculated on the enlarged amount of stock-that is, including the \$42,-316,860 of stock sold in September of last year. In brief, then, after appropriating \$3,500,000 out of income for additions and improvements, a surplus on the operations of the twelve menths remains of, roughly, three million dollars (\$2,881,426) over and above the full requirement for dividends at present rates on both classes of stock. The appropriation out of income for improvements, it is proper to say, was a mil lion dollars larger than in the two years preceding, when 24 million dollars was each year appropriated in this way. Taking the three years together, no less than 84 million dollars of income has been directly applied to improvements.

## ANDREW H. GREEN.

The tragic death of Mr. Green by what appears to have been, as respects himself, as truly accidental as if he had fallen a victim to one of the casualties which lark in crowded streets, brings into mention again a man whose name had formerly been familiar in men's mouths, but of late years had in a sense dropped out of mind. For nearly a half century he was active in the public affairs of the city. First as a member and the head of the Board of Education; then Treasurer and head of the Park Department; then Controller of Central Park for many years; Controller of the city, 1871-77; Park Commissioner again, Commissioner on Tax-laws revision, head of the commission that created the park at Niagara; head of the "consolidation" commission; connected meanwhile with various minor commissions; probably originator of the Tilden library trust, as he was always closely associated with Mr. Tilden and at one time his law partner. We may enumerate in a single sentence most of his public positions, but a long narrative could not more than do justice to the character and far-reaching influence of his public services.

Probably the most noted of these he rendered as fiscal officer of the city when Comptroller Connolly, who had long disregarded the law requiring public statements of accounts, turned to him as a sort of refage from public indignation and made him deputy 32 years ago. The same journal which pursued the ring with effective cartoons had formerly published a fullpage portrait of "Hon. William M. Tweed," and it is not conceivable that Tweed was ever supposed to be in any reputable and worthy sense a public man. The ring had methods, which availed for a time, of quieting inquiry, among these methods being arrangement of tax assessments and distribution of corporation advertising. In the words of Mr. Tilden "the Aldermen, who were vested with the statutory power of compelling disclosures, were allies of the ring; for a iong time there was no Grand Jury capable of making the necessary inquest which had not been packed; the local authorities which had power to order civil actions, if such would lie in their behalf, were in complicity with the wrongdoers; the officials who would conduct such actions were their appointees, the juries would be selected in their interest and the judges who dominated in the courts were their instruments."

Entering upon work in such circumstances, Mr. Green of course found a heavy task before him—the finances in confusion, a mass of unliquidated demands of all sorts, amounting to over 20 millions, revenues anticipated, the city credit temporarily impaired, and himself embarrassed for funds with which to meet just and urgent claims for salaries as well as in sifting out and repelling the dishonest ones.

He was not only active and influential in the consolidation scheme, but was really its author, so that he came to be known as "Father" of Greater New York. He had held to the plan almost alone for years, and it was a very old dream of his, for he spoke of it when first concerned with public parks, before 1860. For one who visits Central Park now and recalls its appearance in, say 1864, and still later, its artificial character as compared with such parks as Prospect in Brooklyn, where Nature had so greatly aided by preparing the way, it is easy to recognize how the artificial construction which was necessary on a site of rubbish, shanty and ledge, gradually ceased to show as the transformation grew in course of time from artificial into natural. But it is also easy to fail to realize and do justice to the foresight which could devise the transforming steps, for Central Park was not merely set aside-it was conceived and "made." The landscape gardeners, Olmstead and Vaux, did their work to their lasting honor; but Mr. Green was the impelling force; and not the least of his services was that he succeeded in keeping out of the Park what we now call graft, and held the work to the standard of merit; not of politics and favor.

Still earlier, while even then looking forward to consolidation as a certainty of the future, Mr. Green outlined plans for. plers and bulkheads adapted for construction of warehouses, so that cargoes could be moved by machinery from and to vessels lying along the water-front and to and from railway cars. Such plans are now and then mentioned, and if the resources of the greater city are to be fully developed it is plain that the costly and obstructive trucking of freight must give way to modern methods. Mr. Green must have had at least a better foresight than other men of the future growth of great cities, and of this greatest one, for in respect to bridges-a subject which engaged his earnest attention with others-he is said to have pointed out that if Manhattan Island and Long Island ever came to be connected, the distance between the Battery and Ward's Island would require 22 bridges, if placed as near together as the bridges of London are. The distance along the East River is about seven miles, and some of the Thames bridges are not more than a quartermile apart, so that the statement is literally correct; but the parallel between New York and London may not be quite close in other respects, and it is rather a relief to the mind to dismiss so startling a suggestion as belonging to the future, and be glad of the four bridges and two or three tunnels now in sight. Yet there is no denying that the problem of local transportation has thus far grown and is growing in magnitude of demands faster than the means of satisfying them have grown, so that we seem to be still not far beyond the beginning; on the other hand, it is encouragement as well as admonition to remember that Mr. Green always contemplated and based his calculations upon an honest administration of affairs, a government which helps, and not one of rapine and obstruction.

And when we consider his career as a whole, doubtless including human errors of judgment but never a low ideal or a taint of self-seeking, the most remarkable characteristic of it is that he grew with the city and even in advance of it, and the chief encouragement is that he embodied and illustrated the civic spirit. That spirit goes beyond regarding the city merely as a favorable field in which either to gather a fortune or to spend one, and obligation to it as ended with obedience to statute and the payment of unavoidable taxes. We are not without examples of this civic spirit, and each one tends to make more, since, happily, good as well as evil possesses a power of reproduction and expansion.

In the present year the CHRONICLE has had the duty of paying tribute to the memory of Mr. Hewitt and Mr. Dodge, and it is not yet eleven years since Peter Cooper passed on, and we now lose the last of a peculiarly notable four, eminent neither alike in kind Railroad, and also include the 340 miles of road opernor in degree, but all so distinguished in and so iden-

tified with the metropolis that at the moment we seem to be at the end of the class. Yet it is cheerfully certain that this cannot be so. It is only in the exaggeration of eulogy that it can be said that Nature breaks the die in moulding any man; each new occasion brings the one to fit it, and the sincerest tribute to men of service to their time is to emulate their virtues.

### THE ATLANTIC COAST LINE RAILROAD.

The Atlantic Coast Line Railroad is now one of the large and important railroad properties of the country. This is so not merely because it holds control of the Louisville & Nashville Bailroad Company (which it acquired in 1902 from Mr. Morgan after the latter had taken Mr. J. W. Gates's purchases of the stock off the hands of Mr. Gates), but because of the large autecedent absorptions and consolidations of other roads. The previous annual report of the Atlantic Opast Line Railroad Company-which by the way is distinct from the Atlantic Coast Line Company, the railroad being the operating company and the "Company" the holding concern-was based on only 1,756 miles of road. The present report, on the other hand, covering the year ending June 30 1903, embraces the operations of 4,139 miles of road, this being independent of the mileage of the Louisville & Nashville Railroad.

The fact is, the Atlantic Coast Line Railroad as it exists to-day is a totally different property from what it was eighteen months ago. This gives special interest to the company's annual report, with advance sheets of which we have been favored the present week. On the 1st of July 1902 the Coast Line Railroad acquired by consolidation the Savannah Florida & Western Railway, or Plant System OÍ roads, which had previously been an important combination by itself. At the same date it came into possession of the St. Johns & Lake Eastis Railroad and of the Sanford & Lake Eastis and of the Florida Midland, all of which it acquired by purchase. The Florida Southern Railroad and the Sanford & St. Petersburg Bailroad were likewise acquired, but considerably later-not until April 1 1903. On the books of the company these latter, however, are treated as dating from July 1 1902, and in that way the report is made to cover the full year for the whole 4,139 miles of road already referred to. The comparisons with the previous year, where any are given, are also for the same basis of mileage, the earnings and operations of the separate roads having been combined for this purpose.

The system as enlarged gridirons the whole of the South Atlantic Coast, extending from Richmond and Norfolk on the North to Panta Gorda near the ex. treme southern end of Florida. At the latter point an extension of 28 miles, to be completed in 1904, will carry it to Fort Myers. Nearly all the important coast cities are reached, including among others Wilmington, Charleston and Savannah, and the system extends inland as far as Augusta, Ga., and Montgomery, Ala.

The Louisville & Nashville, which, as the reader knows, remains a separate and distinct property (we having reviewed its report in these columns a few weeks ago), comprises directly and indirectly 6,133 miles of road. If we add this to the 4,139 miles covered by the present report of the Atlantic Coast Line ated by the Charleston & Western Carolina, which

the Atlantic Coast Line Railroad controls, we get a grand total of over 10,600 miles of road under the domination of the Atlantic Coast Line Railroad Company. The latter and the Louisville & Nashville had previously been joint lessees of the Georgia Railroad Company, connecting Augusta with Atlanta and embracing various branches, the whole consisting of 307 miles of road. Chairman Walters refers to this fact, and also to the further fact that the Louisville & Nashville and the Atlantic Coast Line have for years interchanged business with each other at various points on a large scale, having really been operated as connecting lines and allies.

Under these circumstances, he says, it was deemed of the first importance that such interchange of business should be permantly secured; it was furthermore felt that this could be accomplished in no other way so completely as by the acquisition by the Atlantic Coast Line Railroad Company of a majority of the stock of the Louisville & Nashville Railroad. When, therefore, the opportunity came to acquire 306,000 shares out of the 600,000 Louisville & Nashville shares outstanding, the purchase was accordingly made. The price paid for this \$30,600,000 stock, as is known, was \$35,000,000 in collateral trust bonds of the At lantic Coast Line Railroad, \$5,000,000 in stock of the latter and \$10,000,000 in cash, making the total cost \$50,000,000. The cost on the books has since been reduced to \$45,554,220 by the application of \$5,000,-000 of accumulated surplus of previous years. It is a significant fact that, even after taking \$5,000,000 from surplus in this way, the balance sheet June 30 1903 still shows \$11,464,977 of profit and loss surplus remaining, the amount including, of course, the net surplus of \$1,278,953 accruing from the operations of the late year.

The 6,133 miles given as the mileage of the Louisville & Nashville includes the Chicago Indianapolis & Louisville, owned jointly by the Louisville & Nashville and the Southern Railway Company, and which gives a line to Chicago. It may therefore be said that the Louisville & Nashville and the Atlantic Coast Line Railroad combined comprise 10,000 miles of road, covering the whole of the Southern States east of the Mississippi River and south of the Ohio, with an arm reaching north to Chicago. The Louisville & Nashville is at present paying 5 per cent yearly dividends, and in the twelve months ending June 30 1903, as we showed in our review of its report, really earned twice that sum for the stock. At 5 per cent the Atlantic Coast Line gets \$1,530,000 a year on its \$30,600,000 of stock.' This is more than sufficient to meet the 4 per cent per year on the \$35,000,000 of Atlantic Coast Line collateral trust bonds given in part exchange for such stock, the yearly call for interest on the same being only \$1,400,000.

As for the Atlantic Coast Line Railroad itself, its surplus for the twelve months of 1902-03, as we have already stated, was \$1,278,953. This is the surplus remaining after paying dividends of 5 per cent on Atlantic Coast Line RR. stock, and also after including in income only 2½ per cent on the Louisville & Nashville Railroad stock owned (one semi-annual payment of 2½ per cent), while including in fixed charges nine months' interest to June 30 1903 on the entire issue of \$35,000,000 of collateral trust bonds issued by the Atlantic Coast Line Railroad. The company's net income for the twelve months, after deducting charges, but *before* the payment of dividends, was

\$3,993,028. The dividends on common and preferred stocks at the rate of 5 per cent on both, called for \$1,714,075, leaving the surplus of \$1,278,953 already mentioned. Only the second semi-annual dividend of  $2\frac{1}{2}$  per cent was paid on the present total of stock. With the whole year's dividend on the enlarged amount (\$36,650,000), the call for dividends would have been \$212,500 more, still leaving, however, a surplus for the twelve months in excess of a million dollars.

Speaking with reference to the stock, the amount of the common shares outstanding July 1 1902 was \$23,150,000. During the year \$5,000,000 was issued in part payment for the 306,000 shares of Louisville & Nashville stock acquired and \$8,500,000 was sold to shareholders at \$125 per share to provide the cash payment on the same account, thus bringing the total of outstanding common stock up to the figure already mentioned, \$36,650,000.

Not counting the \$35,000,000 of collateral trust bonds issued for Louisville & Nashville stock; or the 4 per cent certificates of indebtedness issued in exchange for the old preferred stock (interest on which certificates is dependent on earnings and is non-cumulative), the bonded debt possessing a lien on the railways owned by the company aggregated on June 30 1903 \$72,569,275, or \$18,146 per mile of railway owned by the company. The fixed charges resulting from such bonded debt, the report tells us, amount to \$3,059,227 per annum, or \$765 per mile. The gross earnings per mile of road in the late year were \$4,-755 and the net receipts \$1,800. Ohairman Walters points out that the company has no floating debt and has no equipment trustobligations outstanding except the amount of \$136,666 which it became liable to pay by reason of consolidations with other companies, and which amount is being paid at the rate of \$40,000 per year.

Gross earnings on the 4,139 miles were close to twenty million dollars-\$19,682,455—and the net earnings were \$7,070,119. Both of these indicate substantial gains over the earnings of the same propertles in the preceding year, the increase in the gross earnings having been \$2,042,000, and in net earnings, \$1,085,000. This is satisfactory as showing growth in the business and traffic of the system. There is evidence, too, of increasing efficiency in operations, in part as the result of consolidation and in part as the result of efforts directed to that end. Very naturally, in the case of a system like the Atlantic Coast Line Railroad, where the mileage operated covers such a wide extent of territory, the train-load is not very heavy. Still, it is worth recording that with 15.59 per cent increase in the number of tons of freight moved one mile, the increase in freight train mileage was only 9.92 per cent. The accounts have been audited by Haskins & Sells and their certificate is attached to the report.

## GOLD AND SILVER PRODUCTION OF THE WORLD IN 1902.

Mr. George H. Roberts, Director of the United States Mint, has favored us with a copy of the Bureau's compilation of the world's production of gold and silver in 1902, and from it the subjoined tables have been prepared. The present total does not differ materially from the results we gathered and made public last January. In other words, the Mint returns for 1902 make the amount of gold mined in the world 14,313,660 fine ounces, valued at \$295,889,600; whereas in the CHRONICLE of January 31st, page 239, we placed the yield at 14,734,269 fine ounces, valued at \$304,-589,862.

The final official total of gold yield for the United States is a little less than the estimated result made public by Director Roberts in January last. The various States, however, occupy practically the same relative positions as indicated in our January compilation. The gain over 1901 for the whole country is shown to have been 64,500 fine onnces. The United States has relinquished to Australasia by a small margin the leading position in the world as a gold producer. The details of the output of our mines by States are as follows :

#### GOLD PRODUCTION IN UNITED STATES.

Gold-	1	900,	]	.901	1	002
Production.	Fine ozs.	Value.	Fine ozs.	Value.	Fine ons.	Value.
Colorado	1,391,622	\$28,829,400	1,339,673	\$27,698,500	1,377,175	\$23,468,700
California	765,109	15,816,200	817,121	16,891,400	812,319	16,792,100

For other countries the Bareau's results indicate in most cases a continuing tendency toward enlarged production. Africashows a decided gain over 1901, but compared with 1899 the yield records a decline of nearly 50 per cent; the African production is, however, increas. ing from month to month, the October 1903 total being reported at 275,664 fine ounces. Australasia's output also increased materially in 1902, but Canadian production continues to decline, 1902 exhibiting a considerable decrease from 1901. Russia, although giving a total slightly below 1901, has passed Canada. The smaller producing countries show no important changes. The details for 1902, re-arranged by us so as to give the countries in the order of their prominence as producers, are herewith appended, comparison being made with 1900. Only those countries producing a value of about \$2,000,000 or more in the last year are stated separately.

The silver production of the world in 1902, according to the Bureau, was 166,955,639 ounces, or 6,055,. 644 onnces less than in the year 1901. Production was 173,591,364 ounces in 1900 and 167,224,243 ounces in 1899. Mexico leads in silver production, being by an improvement of only \$901,152 in net. Prior to

followed by the United States. Next in order are Bolivia, Australasia and Germany, all of which, with the exception of Australasia, have done better than in 1901. The details for 1902 make the following comparison with the results for 1901. We give separately only those countries producing more than 2,000,000 ounces in either year.

#### GROSS AND NET EARNINGS RAILROAD FOR SEPTEMBER.

Increasing expenses remain a most conspicuous feature in the returns of earnings of United States railroads. There are roads which form notable exceptions to the rule, and in this respect the returns of the separate roads show more irregularity than for a long time past. Notwithstanding these exceptions, however, the conspicuous, the dominant characteristic, treating the roads as a whole, is the continued great augmentation in the expense accounts.

Our compilations this time cover the month of September. The improvement in gross earnings for this month reaches gratifying proportions, the increase on the roads reporting being \$13,372,963, or 12.31 per cent. The showing appears the more satisfactory when cognizance is taken of the fact that business activity has been slackening, and that in the South there was a large contraction in the cotton movement, owing to the lateness of the crop. But with \$13,372,-963 gain in gross, the increase in net is only \$4,370,-652. This, however, is only part of the story. By far the greater portion of the increase in net has been contributed by the anthracite coal group, where comparison is still with the strike period last year. Out of the \$4,370,652 total increase in net earnings, no less than \$2,683,656 has been contributed by the anthracite coal group. If we eliminate the anthracite coal group altogether from the results, both in gross and net, we get \$10,118,820 increase in gross, with only \$1,686,996 addition to net. In that way a better idea is afforded of the part played by augmented expenses.

	September. (112 roads.)			January 1 to Sept. 30. (128 roads.)		
	1903.	1902.	Increase.	1903.	1902.	Increase.
	\$	\$	\$	\$	\$	\$ 1
Gross earn's	121,941,903	108,568,340	13,372,983	1022929407	890,150,782	192,778,625
Oper.exp	80,159,790	71,157,479	9,002,311	704,678,183	611,267,493	93,410,690
Net earn's	41,781,513	37.410.801	4.370.652	318,251,224	278,883,289	89,867,93

Another fact which should not be lost sight of, since it gives additional significance to the small gain in net the present year, is that augmenting expenses already were a striking feature of the returns in this month of last year. Thus for September 1902 our compilations showed \$8,614,917 gain in gross, attended

last year increases in gross earnings nearly always meant correspondingly satisfactory increases in net. In the following we give the September totals, and also those for the nine months to September 30, back to 1893. The nine months' figures cover a somewhat larger number of roads, since they include companies which make quarterly statements but not monthly statements.

NOTE.—We no longer include the Mexican roads or the coal-mining operations of the anthracite coal roads in our totals. Figures for previous years have been revised in accordance with this change.

As showing the trend of expenses on some of the larger systems, the Pennsylvania Railroad remains preeminently distinguished, as heretofore, for its great increase. Taking the lines directly controlled, both east and west of Pittsburgh, there is \$1,299,600 addition to gross with only \$70,300 addition to net. But that system by no means stands alone. The Iilinois Central, with \$269,507 gain in gross, has \$131,512 loss in net; the Canadian Pacific, with \$285,520 gain in gross, has \$208,489 loss in net; the Rock Island, with \$363,072 increase in gross, has \$283,872 decrease in net, and the Southern Pacific System, with \$211,012 increase in gross, sustained \$121,629 decrease in net.

We have alluded above to certain roads forming exceptions to the rule of large expenses and to the irregularlty in the returns of the separate roads resulting from that circumstance. This irregularity is observable even in the returns of roads located in the same section of country. The Southwestern group furnishes a conspicuous illustration of this kind. We have already adverted to the losses in net with gains in gross displayed by the Rock Island system and the Southern Pacific Company. On the other hand the Atchison, in much the same part of the country, reports for September \$729,743 improvement in gross, attended by the large increase of \$538,841 in net. The Missouri Pacific has also done quite well, show ing \$747,030 enlargement of gross with \$301,676 enlargement of net. The St. Louis & San Francisco occupies a sort of mean between these extremes, and with \$431,961 gain in gross has \$30,077 gain in net. The Union Pacific has added \$625,417 to its gross and \$153,278 to its net. In another part of the country we have a case where the increase in net exceeds the increase in gross, which means that a heavier business was done on a smaller expense outlay. We are allud.

crease in gross and \$121,378 increase in net. In the following we show all changes, whether gains or losses, in gross and net for amounts exceeding \$30,000 in the case of the separate roads.

¶ Four weeks to Sept. 26. ∥ Includes proprietary roads in both years.

Inolduce propriotary roade in both years.

It will be seen from the foregoing that when we include the roads which report only as to gross we get an aggregate increase in gross for the month of September in the sum of \$14,555,156, or 10.93 per cent that is, the gross earnings for September 1903 foot up \$147,574,436, against \$133,019,280 for September 1902.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S —The auction sales of bank stocks this week aggregate 731 shares. The transactions in trust company stocks reach a total of 55 shares. No sales of either class have been made at the Stock Exchange. Among the bank stocks offered at auction was a block of 407 shares of stock of the old Seventh National Bank, which went into voluntary liquidation last spring as a step in its merger with the Mercantile National Bank. The bidding commenced at \$2 for the lot and halted for a time at about \$300, but eventually reached \$17,150, at which price the lot was sold.

¶Subscription to surplus unpaid. §Subscription to surplus paid t Closing up its business.

-At the meeting held yesterday the stockholders of the National Bank of Commerce in New York took favorable action on the proposition to amend the articles of association, to which we referred in these columns on October 24. These amendments provide that the annual meeting shall hereafter take place in January; that the directors, instead of being a self-perpetuating body, shall be regularly elected by the stockholders, and that the bank may have more than one Vice-President.

-After a week's run, the Indiana National Bank of Eikhart, Ind., closed its doors on Thursday. The bank was organized in 1893 and had a capital of \$100,000. In its statement for September 9 last deposits were given as slightly over \$600,000. National Bank Examiner C. H. Bosworth is in charge of the institution.

-The Comptroller has closed the Farmers' National Bank of Henrietta, Tex. Mr. Miller Weir, National Bank Examiner, has been appointed temporary receiver. The capital is \$50,000.

-Mr. Francis A. Chapman has been appointed receiver of the First National Bank of Victor, Colo., which suspended on the 4th inst.

-Messrs. Albert O. Brown & Company of 25 Broad Street this city, have admitted Lewls Ginter Young into the firm. Mr. Young's father, the late Albert Young, was for manyyears a member of the New York Stock Exchange. Mr. Lewis Ginter Young is also a nephew of the late Major-Lewis Ginter, the Southern tobacco man.

-The Bank of the Metropolis will to day move into handsome offices on the ground floor of its newly erected sixteen. story modern office building on the northwest corner of Broadway and Sixteenth Street. The bank, organized in 1871, has been located for the last seventeen years on the southwest corner, opposite its new quarters. The interior decorations are of polished marble, bronze and mahogany, -The institution has installed a first-class modern safe deposit establishment in the basement. The vaults, conveniently situated underneath the main banking room near the Broadway entrance, are thoroughly equipped with the latest devices and facilities. The Bank of the Metropolis has \$1,000,-000 capital, \$1,349.244 surplus and profits, besides \$8,571,900 deposits. C. H. Hackett is President, while George McNeir is Vice-President, Edward C. Evans Cashier and E. S. Laffey Assistant Cashier.

-Mr. Alexander D. Seymour was elected Vice-President of the Manufacturers' National Bank of Brooklyn at a meeting of the board of directors this week. Mr. Seymour, who is Superintendent of the Hanover Safe Deposit Company of New York City, and was chosen a director of the Manufacturers' National only a week ago, succeeds Mr. William Dick as Vice-President. As announced in the CHRONICLE of October 24, Mr. Dick was elected President in place of John Loughran, deceased. Mr. F. D. Mollenhauer was also made a member of the bank's board.

-Major Charles Eiliot Warren, Cashier of the Lincoln National Bank of this City, and also Secretary and Treasurer of the New York State Bankers'Association, was the recipient of a beautiful loving cup tendered by the returning party of bankers making up the "New York Bankers' Special" train which left New York on October 13th for the American Bankers' Convention at San Francisco and arrived home November 5. On behalf of the bankers, Congressman C. A. Pugsley, President of the Westchester County National Bank of Peekskill and Mr. Joseph G. Brown, President of the Citizens' National Bank of Raleigh, N. C., both made presentation speeches commending Major Warren in warm terms for his able services in the organization and direction of the party. The bankers also drafted fitting resolutions thanking Mr. Milton C. Roach who accompanied the party en route as the representative of the New York Central RR., and that company for the comforts and courtesies received during their journey. The bankers gave Mr. Roach a further testimonial of good-will in the shape of a handsome cut glass decanter.

-The Fidelity Title & Trust Company of Stamford, Conn., which was enjoined about the middle of July from paying out any funds within ninety days (which order was renewed for another month at the termination of the three months), has been granted a fifteen days' extension of the order, with the consent of the State Bank Commission. The four-months' period expired on the 14th inst., and it was expected that the institution, which was closed on account of its alleged connection with the Inter-State Trust Company of New Jersey, would immediately resume. The fifteen-days' extension, it is stated, has been asked for chiefly for the purpose of ar ranging details which the directors feel should be completed before resuming.

-Mr. Josiah H. Goddard has been chosen Vice-President of the South End National Bank of Boston to succeed the late Mr. Nathan B. Goodnow.

-Mr. Pierre Jay has become a Vice-President of the Old Colony Trust Company of Boston, succeeding Mr. George P. Gardner.

-The directors of the West Philadelphia Title & Trust Company of Philadelphia at the annual meeting on Tuesday elected Mr. Augustus I. Wood First Vice-President and Treasurer. Mr. Wood had previously been Secretary and Treasurer, and the former Assistant Secretary, Mr. Ralph I. Levering, was chosen for the office of Secretary. Mr. J. P. Collins was appointed Second Vice-President and Title Officer. The President, Mr. H. Z. Ziegler, was re-elected.

-Mr. Andrew P. Spamer has been elected Treasurer of the Safe Deposit & Trust Company of Baltimore, Md., succeeding Mr. Francis M. Darby, whose death occurred recently.

-The Manufacturers' National Bank of Baltimore is about to consolidate with the First National Bank of Baltimore Rumors had been prevalent for several weeks that such a consolidation was about to take place, but all negotiations to this end were believed to be at an end with the announcement on Saturday of last week that the offer made by the First National had been declined by the directors of the Manufacturers.' Negotiations, however, appear to have been resumed, the local papers stating that at a meeting on Thursday of this week the directors agreed to accept the First National's offer of \$122 a share. As the Manufacturers' has a capital of \$500,000 (in shares of \$100 each) this will call for \$610,000. It is reported that a bid for the stock was also made by the National Exchange Bank of Baltimore, which sought to obtain the same at \$120 per share. The Manufacturers' was organized in 1882. Besides the capital of \$500,000, it has surplus and net profits, according to a statement of November 11, of \$105,818. The deposits on that date were \$1,103,861. It is expected that the consolidation will go into effect in December. The purchasing bank, the First National, has a capital of \$1,000,000. The amount was increased in July 1903 from \$550,000, one-half of the new issue going to Mr. James T. Woodward, President of the Hanover National Bank of this city, and the other half to the Mercantile Trust & Deposit Company of Baltimore.

-A run on the savings department of the Pennsylvania Trust Company of Reading, Pa., was started on Tuesday of this week, but with the reassuring statement issued by the officers, and the prompt payment of moneys called for, the excitement soon subsided. The Clearing House Association, too, proffered aid, having adopted resolutions offering the com pany any assistance it might need in the demands made upon it. But the company did not find it necessary to enlist out side support. All demands were promptly met, no attention being paid to the thirty-days' notice allowed by law. By Wednesday afternoon normal conditions had been practically restored.

-The new Cleveland bond firm of Hayden, Miller & Co. has opened offices on the fifth floor of the Citizens' Building. The firm is composed of W. S. Hayden and Otto Miller, both of whom were identified for several years with the Lamprecht Bros. Company. Mr. Hayden was with the latter firm as the manager of its bond department, while Mr. Miller was in charge of the loan department. The new firm of Hayden, Miller & Co. will engage in a high-class investment business, devoting special attention to the higher grades of municipal and corporation bonds.

-The Lincoln Savings & Banking Company, another new duties of which Cleveland institution, opened on the 9th inst. at Pearl W. R. Stewart.

Street and Wade Avenue. The company has a capital of \$100,000.

- Notification of the consolidation of the Security Trust Company and the State Savings Bank of Toledo was sent to the Secretary of State on the 18th inst. The consolidation, as noted in these columns last week, has been effected under the name of the Security Savings Bank & Trust Company, the officers of the new institution being: Chairman of the board, Mr. N. H. Swayne; President, C. F. M. Niles; Vice-Presidents, A. D. Gilmore, O. A. Browning and J. D. Robinson; Cashier and Manager of Bond Department, F. C. Hoehler; Secretary and Treasurer, H. W. Cummings.

-The First National Bank of Chicago, Ill., is now perfecting arrangements for the organization of the First Savings & Trust Bank, although it is probable that the new institution will not engage in business until the completion of the new First National Bullding. The proposed bank is to have a capital of \$1,000,000, which will be created by the declaration of a dividend of 12½ per cent on the \$8,000,000 capital of the First National, to be paid out of the latter's surplus. A unique feature is that by special agreement the savings bank stock is to remain attached to the national bank stock so long as the latter shall continue to do a banking business, and no disposition of any cf the savings bank stock shall be made without the approval of two-thirds of the stockholders of the First National. As a further evidence of the union, dividends on the stock of the savings bank are to be paid through the First National and the directors of the two banks are to be identical. The capital of the savings bank is to be trusteed with Messrs. James B. Forgan, David R. Forgan, George D. Boulton, Howard H Hitchcock and Richard J. Street, all officers of the First National.

-The Jackson Trust & Savings Bank of Chicago opened for business on the 3d inst. at No. 53 Jackson Boulevard, near State St. The location is outside of the recognized banking district, but at the same time it is a busy retail business center, where a sound and accommodating bank ought to prove a great convenience. Possessing as it does experienced officers and a strong body of directors, this new banking institution should score a success from the start. The officers are: President, William H. Eagan; Vice-Presidents, Raymond W. Stevens and Louis M. Stumer; Cashier, Charles T. Champion.

-The new firm of Northcote, Dudley & Maitland, 307 Monadnock Block, Chicago, succeeds the well-known firm of Aldis, Aldis, Northcote & Watson, dealing in mortgages, bonds and other high-grade investment securities. Mr. Northcote, as in the past, will reside in London, and be in charge of the foreign office.

-George E. Rickords, private banker, and William Peter son have been elected directors of the State Bank of Chicago

-The death from pneumonia on the 13th inst. of General Hamilton B. Dox removes one of the best known figures in Western banking circles. General Dox was born in Albany, N. Y., in 1820, and went to Chicago in 1854, where he assumed an official position in the Marine Bank. He served a brilliant career throughout the civil war successively as captain, lieutenant-colonel, colonel and brigadier-general, and upon the organization of the Hibernian Banking Association in Chicago in 1866 he was made Cashier, which position he had filled ever since, a period of 38 years. He had for some years enjoyed the distinction of being the oldest active bank Cashier in the country. He was a man of attractive personality and rare mental endowments.

—The deposits of the St. Paul National Bank of St. Paul, Minn., are expected to be increased considerably, the bank having recently added a savings department to its other branches. The bank will pay interest on these savings deposits at the rate of  $2\frac{1}{2}$  per cent. Special provision has been made for the women patrons, a writing-room having been set apart for their convenience.

-Mr. H. J. Rosencrans, one of the organizers and a director of the Union National Bank of Kansas City, Mo., died on the 16th inst. at the age of sixty-one years.

-The directors of the Memphis Trust Company of Memphis, Tenn., have elected Mr. S. M. Williamson Secretary, the duties of which office were heretofore performed by Cashier W. R. Stewart.

## IMPORTS AND EXPORTS FOR OCTOBER.

The Burean of Statistics at Washington has issued the statement of the country's foreign trade for October, and from it and from previous statements we have prepared the following interesting summaries.

FOREIGN TRADE MOVEMENT OF THE UNITED STATES.

[In the following tables three ciphers (000s) are in all cases omitted.]

		<u> </u>

## MonetaryFCommercialEnglishNews

[From our own correspondent.]

LONDON, Saturday, November 7, 1903, Business upon the Stock Exchange has been exceedingly quiet throughout the week. For a fortnight or more the public here has been expecting the report of the Labor Commission appointed by the Transvaal Government; but the report has not yet appeared, and this has caused much disappointment. It had been confidently predicted by those who were supposed to be in a position to know that the evidence given before the Commission was so overwhelmingly strong that enough of native labor could not be procured that the members of the Commission were all convinced, and that therefore they would report unanimously to that effect. Therefore the public had come to believe that the import of Asiatic labor would be very soon permitted, and consequently there were hopes that the output of gold from the mines would very soon be immensely increased, and thus that the difficulties entertained here in London would speedily be brought to an end. Now it is feared that there is a strong difference of opinion amongst the members of the Commission that consequently the report will not be of such a nature as to practically make it necessary for the Government to yield; and therefore people are beginning to doubt whether the permission to import Asiatic labor will be given so soon and so freely as we had all expected.

It is not the mining market alone which is discouraged by this. Every kind of business in the city is suffering becauae the supply of gold from South Africa is so much smaller than it used to be immediately before the outbreak of the war. Markets, too, are depressed by the continued liquidation in New York, and still more by the reports from time to time of runs upon trust companies and the like. There is a fear that in consequence the outflow of money from New York to the interior may become so large that gold will have to be shipped from London, and if that happens the Bank of England may be compelled to raise its rate to 5 per cent. Whether a raising of the rate would cause a renewal of the liquidation may be well doubted. Those who are in the best position to judge think that the liquidation here has been completed, and that people have now become prepared for a 5-per-cent rate, so that even if it came it would not have the bad influence expected. However that may be, the fear of a 5 per-cent rate undoubtedly does depress business, and members of the Stock Exchange are complaining that during the present week orders have been scarcer than even in the preceding weeks, which were supposed to be the worst known for many years.

In Paris business on the other hand is fairly good. There has been a recovery in French rentes, and foreign stocks in general have likewise advanced. The fear that the Bank rate in Paris would be raised has been dissipated, and money has become easier than it was. At the same time apprehension is rising that the Government may be upset, and that is tending to check business. In Germany the improvement which has been evident for some months now is making steady progress. Trade is decidedly better. Investment continues at a satisfactory rate, and even speculation is more active than it has been since the crisis began. There has been a decided rise in the prices of industrial securities and of bank shares.

. All over the Continent the belief is universal that there will be no war between Russia and Japan, and that though the Sultan may make objections and try to avoid the reforms demanded by Austria-Hungary and Russia, he will have to yield in the last resort. The condition of the Paris market has been greatly strengthened by favorable reports from Russia. It is said that the long depression there is getting less than it was, and that at last there are signs of a revival in the industrial department. French capitalists are largely interested in industrial enterprise in Russia, and that has strengthened the Paris market.

In the latter part of last week the Bank of England borrowed a good deal of money from the outside market, and consequently made the 4-per-cent rate almost effective. At the beginning of this week, however, the Government paid out very large sums, and for two or three days the market consequently was well supplied with funds. On Thursday the Bank of England began once more to borrow, and now

the 4-per-cent rate is again effective. Some gold has been bought for American account in the open market, but none has been taken from the Bank of England. The best opinion in Paris is that if gold should be really required for New York, and if the amount needed should be such as would compel the Bank of England tolraise its rate of discount to 5 per cent, the Bank of France would come to the relief and would allow two or three millions sterling to be shipped to New York. It is not thought, however, that the Im. perial Bank of Germany would help; for, amongst other things, the Agrarian and 'anti-Semitic press are so bitterly opposed to all shipments of gold abroad that they would certainly attack any one who withdrew the metal; and therefore it is believed that no important house will incur hostility of the kind.

The India Conncil continues to sell its drafts well. It offered for tender on Wednesday 40 lacs, and the applications exceeded 378 lacs at prices ranging from 1s. 4d. to 1s. 4 1-16d. per rupee. Applicants for telegraphic transfers at 19. 4 1-16d., and for bills at 1s. 4 1-32d. per rupee were allotted about 13 per cent of the amounts applied for. Later in the day the Council sold 3/4 of a lac in bills at 1s. 4 1-16d. per rupee. Next week 50 lacs will be offered for tender.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c. compared with the last three years:

Messrs, Pixley & Abell write as follows under date of Nov. 5:

Nov. 5: Gold—The demand has shifted from the Continent to New York, and of this week's arrivals nearly one-half has been bought for the States. The Bank has received no gold this week, and has lost £300,000 to Egypt, £5,000 to Batavia and £103,000 to South America. Arrivals: South America, £353,500; Biver Plate, £19,500; Bombay, £120,500; Australia £1,000; total, £498,500. Shipments: Bombay, \$48,000; Madras, \$7,500; total, £55,500. Silver—The market has been dull in the absence of any Eastern in-quiry. After falling to 27'ad., we recovered 'ad., to 275gl., on some Indian orders, but with considerable sales from the East of bar silver and Mexican dollars the demand was soon satisfied and to day, on some forced eales, we have fallen to 27'ad. for eash. Forward has bren the better market of the two, and we quote only 3c. difference. The market closes steady. Arrivals: Australia, £27,500; U. S. A., £161,000; total, £183,500. Shipments: Bombay, £29,000. Mexican Dollars—Dollars still remain at melting value and a fair amount has been sold from Singapore. Arrivals: U. S. A., £104,000. Shipments: Bombay, £59,500; Hong Kong, £8,000; total, £67,500.

The quotations for bullion are reported as follows:

Imports and Exports for the Week.—The following are the imports at New York for the week ending for dry goods Nov. 12, and for the week ending for general merchandise Nov. 13; also totals since beginning first week January.

Ì		FUREIG	N IMPORTS	) v	
	For week.	1903.	1902.	1901.	1900.
1	Dry Goods. General Merchandise	\$1,808,621 8,225,281	\$2,23 <b>3,41</b> 6 9,799,230		\$1,683,685 7,927,945
	Total	\$10,033,902	\$12,032,646	\$10,062,166	\$9,611,630
	Since Jan. 1. Dry Goods.		\$111,120,145 388,825,564		\$102,022,734 369 591 403

Total 46 weeks...... \$525,298,499 \$499,945,709 \$490,843,398 \$471,614,137

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Nov. 16, and from January 1 to date.

EXPORTS FROM NEW YORK FOR THE WEEK.

	1903.	1902.	1901.	1900.
For the week Previously reported	\$11,488,728 432,923,093	\$11,257,635 415,161,785	\$8,758,199 442,276,042	\$10,060,847 466,675,362
Total 46 weeks	\$444 411 821			

NOTE.—As the figures of exports as reported by the New York Custom House from week to week frequently show divergence from the monthly totals, also compiled by the Custom House, we shall from time to time adjust the totals by adding to or deducting from the amount "previously reported."

The following table shows the exports and imports of specie at the port of New York for the week ending Nov. 14 and since Jan. 1, 1903, and for the corresponding periods in 1902 and 1901.

					-		
EXPORTS	AND	IMPORTS	OF	SPECIE	$\mathbf{AT}$	NEW	YORK

WALL STREET, FRIDAY, NOV. 20, 1903.-5 P. M. The Money Market and Financial Situation,-Activity at the Stock Exchange has this week assumed a more normal and healthful tone than has characterized it for some time The erratic tendency has been eliminated for the past. moment at least, and a steady movement towards higher prices is in progress. This situation is presumed to reflect a general belief that the bottom has been reached and any further change must be for the better. There are grounds for such belief, prominent among which are the improved monetary outlook, the foreign trade situation and the prevailing low prices for securities.

There were further engagements of gold in London for shipment to New York during the early part of the week, but an advance in foreign exchange rates here and a higher price for gold on the other side have resulted in a suspension of the movement. As a consequence the money market is firmer, especially for call loans, although time money is in fairly liberal supply.

Of events in which Wall Street is not especially inter-ested, the progress made by Congress in the matter for which it was convened and the rapid development of affairs in Panama have attracted considerable attention.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 4 to 8 per cent. To-day's rates on call were 6 to 8 per cent. Prime commercial paper quoted at 6 per cent for endorsements and 6@614 p. c. for best single names. The Bank of England weekly statement on Thursday showed a decrease in bullion of £117,695 and the percent-age of reserve to liabilities was 49.92, against 48.75 last week, the discount rate remaining unchanged at 4 per cent. The

the discount rate remaining unchanged at 4 per cent. The Bank of France shows an increase of 1,900,000 france in gold and 275,000 francs in silver.

The New York City Clearing-House banks in their statement of Nov. 14 showed a decrease in the reserve held of \$2,913,200 and a surplus over the required reserve of \$6,138,425, against \$5,394,225 the previous week.

1	1903 Nov. 14	Differences from previous week	1903 Nov. 15	1901 Nov. 16
Chaltal	\$ 115,572,700		\$ 100.672.700	\$ 200 700

Circulation Net deposits		Inc 105.800 Dec 14,629,600 Dec 2,994,100	878,219,400	946,084,300
Legal tenders	63,050,400	Ino 80,900	66,852,900	70,035,400
Beserve held 35 p. c. of deposits	219,492,200 213,353,775			

Burplus reserve 6,138,425 Inc 744,200 18,328,350 10.103,825 \* \$36,921,700 United States deposits included, against \$37,182,200 last week and \$40,259,700 the corresponding week of last year. With these United States deposits eliminated, the enrolus reserve would be \$15,368,850 on November 14 and \$14,689,775 on November 7. Norm.- Beturns of separate banks appear on the preceding page.

Foreign Exchange.-Influenced by purchases of long sterling for investment and by a demand for short bills for remittance, the market for exchange advanced this week. Gold engagements reported for the week were \$2,300,000 and

arrivals from Europe were \$1,849,270. To-day's (Friday's) nominal rates for sterling exchange were 4.81@4.81½ for sixty day and 4.84½@4.85 for sight. Today's (Friday's) actual rates for sterling exchange were 4 8040 @4 8060 for long, 4 8415@4 8430 for short and 4 8460@4 8475 for cables. Commercial on banks, 4 8020@4 8030, and documents for payment, 4  $79\frac{1}{4}@4 80\frac{3}{4}$ . Cotton for payment, 479 $\frac{1}{4}$ @479 $\frac{3}{8}$ ; cotton for acceptance, 4 8020@4 8030, and grain for payment, 4 80 $\frac{1}{2}$ @4 80 $\frac{3}{4}$ .

To-day's (Friday's) actual rates for Paris bankers' francs were 5 22½\*@5 22½ for long and 5 20\*@5 20 for short. Germany bankers' marks were 94 3-16@94¼ for long and 94 11-16@94¾ for short. Amsterdam bankers' guilders were

89%@39% for long and 40% @40% for short. Exchange at Paris on London to-day, 25 f. 18 c.; week's range, 25 f. 18 c. high and 25 f. 17½ c. low.

The week's range for excharge rates follows:

The following were the rates for domestic exchange on New York at the under-mentioned cities to-day: Savannah, 62½c. per \$1,000 discount; Charleston, 75c. per \$1,000 dis-count; New Orleans, bank, \$1 25@\$1 per \$1.000 discount; commercial, \$1 50@\$1 25 per \$1,000 discount; Chicago, par@ 10c. per \$1,000 premium; St. Louis, par; San Francisco, par. State and Railroad Bonds.-No sales of State bonds have

been reported at the Board this week. The market for railway bonds steadily increased in activity from less than \$2,000,000 par value on Monday to over

\$4,000,000 on Thursday, and prices have held steady to firm in most cases.

United States Steel 5s have again been the feature. They sold up to 72 to-day, an advance of nearly 6 points within the week, and the activity in them has rarely been exceeded. Wabash debenture Bs also showed a gain of 3 points. Toledo St. Louis & Western 4s advanced between 3 and 4 points on limited sales. Rock Island Railroad collateral trust 5s have also been strong features. In addition to the above the active list includes Baltimore & Ohio, Northern Pacific, Burlington & Quincy and Union Pacific issues.

United States Bonds.—Sales of Government bonds at the Board include \$1,000 4s, coup., 1925, at  $134\frac{1}{4}$ ; \$7,000 8s, coup., 1908-18, at 108 to  $108\frac{1}{6}$ ; \$100 ditto, small bonds, at  $107\frac{1}{2}$ ; \$21,000 2s, coup., 1930, at  $106\frac{3}{6}$ , and \$10,000 2s, reg., 1930, at  $106\frac{3}{6}$ . The following are the daily closing quotations; for yearly runge see third page following.

Railroad and Miscellaneous Stocks.—The stock market has been moderately active and irregular. The transactions averaged nearly 500,000 shares per day, but were very unevenly distributed.

On Monday the general list was neglected, a few issues only being active, and there was a tendency to weakness. Beginning on Tuesday and continuing through the week there has been a broader market and increasing firmness, resulting in a substantial recovery in many cases, notwithstanding to day's reaction noted below.

Pennsylvania has continued to be by far the most active stock and made slow but steady progress towards a bigher level until near the close to day, when a reaction set in that carried a large portion of the list down about a point. The Chicago & Alton issues have been notably active and strong. Delaware & Hudson advanced 5 points on limited transactions. Otherwise the active railway list has followed the general trend of the market, and has advanced an average of nearly 2 points. The United States Steel issues have also continued active

and sold fractionally higher than last week. General Electric advanced over 11 points on bids that brought out a limited number of shares. American Sugar Refining has been in demand on benefits expected to accrue when the new Cuban Treaty becomes operative, and advanced nearly 2 points. Colorado Fuel & Iron, Tennessee Coal, Iron & Rall-way, Westinghouse and New York Air Brake have been strong.

For daily volume of business see page 2023.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow.

STOCKS Week Ending Nov. 20	Sales Jor Week		Range since Jan. 1.

Outside Market.-Much greater interest was evinced in the market for unlisted securities this week and, with few exceptions, a general upward tendency in quotations was apparent until this afternoon, when the market developed weakness in sympathy with the movement on the Stock Exchange. Interest in the railroad group centered almost entirely in the Seaboard Air Line issues, both of which advanced on the announcement that arrangements had been made to supply the road with needed capital and to give representation to new interests in the directorat; of the company; following this advance, however, prices again relapsed. In the common there was a gain of  $1\frac{5}{8}$  points to 15%, with a drop to-day to 14, the closing price being  $14_{4}^{1}$ ; the preferred stock moved up  $3_{56}^{56}$  points to 26%, but dropped back to-day to 25. On transactions aggregating less than 3,000 shares, Northern Securities stock rose 4 points to 8934, but reacted late to-day to 88. Interborough Rapid Transit shares advanced from 95 to 991/2, but subsequently fell off again to 95. Standard Oil stock rose 30 points Thursday to 680, closing at 675; the strength displayed was due to the increase in the dividend for the last quarter. American Can preferred gained  $2\frac{7}{8}$  points to  $30\frac{5}{8}$  and closed to-day at  $30\frac{1}{2}$ . Greene Consolidated Copper moved up  $\frac{1}{2}$  a point to 15 in the early part of the week, but on Thursday it fell off to 13; to-day there was a recovery to  $141_4$  and the last sale was at 14. Tennessee Copper lost  $11_{42}$  points to 27 in the early trading, but to-day there was a recovery to 30.

Outside quotations will be found on page 2023.

## RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. The returns of the street railways are brought together separately on a subsequent page.

Net Earnings Monthly to Latest Dates.—The following shows the gross and net earnings to latest dates of all STEAM railroads furnishing monthly statements. The compilation includes every road from which we can get returns of this character, and in that form is given once a month. Early returns are published from week to week, as soon as issued, byt for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings—say about the 20th of the month. Besides the companies furnishing month. ly returns we have added this time the roads which make quarterly returns.

\* After allowing for other income received.

† These tigures are after allowing for other income and for discount and exchange. The sum of \$10,000 is deducted every month from surplus and placed to credit of Renewal Fund.

t Includes Bio Grande Western for both years.

5 These figures include \$1,323,008 appropriated for betterments and additions to properties and equipment in September, and \$4,267,395 during period from July 1 to September 30.

I Includes Lake Erie & Detroit River Railway for both periods.

These figures include \$769 appropriated for betterments and additions to properties and equipment in September, 1903. and \$663 in September. 1902. From July 1 to Sept. 30 figures include \$2,198 for betterments and additions this year, against \$1,777 last year. f Includes dividend on Manhattan Elevated stock.

g These are net charges after allowing for other income received.

i Houston & Texas Central and its subsidiary lines are included, both for the month and for the period from July 1. Interest on advances by Southern Pacific not taken into account but figures include \$11,851 appropriated for betterments and addi-tions to properties and equipment in Apr., 1903, and \$101,305 from July 1 to date.

y Includes guaranties on certificates issued for Chic. & E. Ill. stock. I BRIGH VITTRE PITTROID COMPL

Fort Worth & Denver City Railway.

(Report for the fiscal year ending June 30, 1903.)

President Frank Trumbull says in substance:

Fresident Frank Trumoull says in substance: GENERAL RESULTS. —The gross earnings have increased \$232,464, or 10.28 p. c.; the net earnings have decreased \$98,062, or 16.31 p. o. The deficit for the year, after meeting interest on bonds, was \$18,040. As an offset to this amount, mention should be made of "rail renewal" fund \$58,772." shown in balance sheet. During the first six months of the fiscal year the som of \$100,000 was charged to expenses and oredited to rail renewal fund for steel rails, which it was expected would be received and laid by June 30, 1903. Deliveries were, how-ever, delayed, and therefore expenses for the fiscal year include \$58,-772 for replacements which had not actually been made. On June 30, 1903, 5,310 tons of seventy-five pound rails, sufficient for laying 45 miles, were on hand, and the relaying is now in progress. These rails and the necessary fastenings have been paid for, and the \$58,772 just referred to will be applied on the monthly expenditure scoounts as the relaying progresses. It is expected that by Dec. 31, 1903, the rails on hand will all have been placed in track. If this \$58,772 were deducted from expenses, the report would show a surplus of \$40,732 for the fiscal year, instead of the deficit above mentioned. EXPENSES.—The increase in cost of operation was due to a number of causes, among which may be mentioned: (1) Increased prices for material and labor; (2) Unprecedented storms in February and March; (3) Inadequate equipment and track capacity to handle promptly the traffic offered. Revenue tons carried one mile increased from 159,437,386 last year to 180,686,473 this year, or 13:33 p. c. More significant, however, was the increase of 193:40 p. c. as com-pared with 1897, the first year after receivership, while the increased in tractive power of locomotives was almost nil until the latter part of the fiscal year ended June 30, 1903. (4) An additional through passenger train between Fort Worth and Denver, only one having been run before. (See Colorado Southern Ry. GENERAL RESULTS .- The gross earnings have increased \$232,464, or

US2 / Ģ

The congestion amonnted during the winter to almost a paralysis of business. The difficulty and cost of doing business were seriously angmented in every direction, including a larger expense for car service under the per diem basis, which went into effect on July 1, 1902. Ut der normal conditions this basis of settling for use of cars is favorable to your company, as there are no branch lines. The con-gestion referred to was relieved some time since, and with the addi-tional power and cars received during the year, together with 10 ad-ditional locomotives received since June 30th, and new passing tracks built, the company is at present in better position than ever before to handle maximum train-loads expeditiously. The tables (in the pamphlet report), showing the age and tractive power of locomotives, taken in connection with the large increase in tonnage, speak for themselves, and cullciently indicate the necessity for the purchase of locomotives described in this report. Maintenance of WAY.—The number of cross-ties laid for mainte-nance of existing tracks was 213,808, as compared with 228,806 dur-ing the preceding year; 11:54 miles of seventy five pound rails were laid from the Canadiau River sonth. The general physical condition of the property was well maintained during the year. Auntr —The accounts have been verified by the Audit Company of New York. On June 30, 1903, the company had 51 locomotives, total

On June 30, 1903, the company had 51 locomotives, total tractive power 1,018,066 lbs., against 87 locomotives, with 688,656 lbs. tractive power on June 30, 1902. Of the 51 locomotives, 39 were 14 years or more old and weighed less than 80,000 pounds each. Total freight cars, 1,168; average ospacity, 23:23 tons; increase of total capacity as compared with last year, 24:39 per cent. Total cars in passenger service, 27.

### **Rutland Bailroad.**

(Report for the year ending June 30, 1903.)

President W. Seward Webb says in substance:

GENERAL RESULTS.—The mileage of road operated during the past year was 415.11 miles; reduction, 1.22 miles, caused by re-measure-ment. The increase in gross earnings was \$242,181, freight traffic contributing \$140,829, due principally to longer haul and a higher rate per ton per mile. The increase in passenger traffic was \$89,578, due to the continuance of heavier local business and through travel. Also, in part to the extension of train service, under screement, between in part, to the extension of train service, under agreement, between White Creek and Albany. The revenue from other sources decreased

White Creek and Albany. The revenue from other sources decreased \$53,443. The increase of \$287,504 in operating expenses is accounted for mainly as follows: Maintenance of way and structures, \$32,925, to the continued increased cost of labor and material; maintenance of equipment, \$57,549, to increase of wages and heavier repairs to a larger number of engines and cars; conducting transportation, \$171,-893, to the general increase in wages, the cost of fuel and additional rental paid for use of tracks and terminals; general expenses \$25,137, to higher insurance premiums covering a greater amount of property and additional compensation to employees. First charges have increased \$66,941, due to somewhat larger taxes and the increase in the sinking fund for the payment of new equip-ment funds.

ment fonds. IMPROVEMENTS.-While much has been done in the way of perma

nent improvements, resulting, for the time being, in a reduction in the net earnings, the necessity for creating a higher standard of efficiency is essential, and expenditures in that direction should be continued, in order that the greatest economy in operating may ultimately be realized.

at the commencement of the year the special improvement fund amounted to \$809,424. During the year there have been expended \$721,557 from this fund, leaving a balance June 30, 1903, of \$87,867.
The leading items were: Ballastinz, \$56,125; new steel, \$152,247; new bridges, \$135,909; rebuilding equipment, \$66,433; new machin-ery and tools, \$24,443: new yards and sidings, \$24,764; ties, \$49,965; grading, \$11,320; new facilities, coal and water, \$5,413: suits, Cham-plain Construction Co. and contractors of Rutland Canadian RR., \$158,837; new buildings, \$14,391; etc., etc.
SECURITIES.- There were no changes in the capital stock during the past year. The increase of \$967,000 in the funded debt is due to the issue of \$1,000,000 equipment bonds and the retirement of \$33,000 equipment bonds of 1901.
DIRECTORE.-IN October, 1902, four additional directors were elected viz: H. Henry Powers, Fletcher D. Proctor, A. G. Spaulding and E. F. Gebhardt, and on June 27, 1903, George T. Jarvis was elected a director to succeed George Bird; he was also elected Vice-President.

Louisville Henderson & St. Louis Railroad. (Report for the year ending June 30, 1903.)

President Attilla Cox says:

During the year the following improvements have been made; 400 tons of new 70 pound steel rails laid in main track; 22 miles of track re-ballasted and 1<sup>1</sup>g miles of track newly ballasted; 2.76 miles of new side-tracks constructed; 52,000 cross ties renewed; 39 sets of switch ties renewed; 55,645 feet of piles driven in treatles and 956,438 feet B. M. of timber used in renewing bridges and treatles; 14.4 miles of new fence built along the right of way and 7<sup>1</sup>g miles of old fence re-built.

built. One locomotive purchased has been added to motive power equip-ment during the year. Fifty new 80,000-pound capacity coal cars have been purchased and added to freight equipment; 85 old box cars, unfit for further service, have been sold. A large portion of the freight cars being old, extensive repairs have been necessary; 18 cars have been rebuilt and 357 cars repaired at the shops. The earnings for three years past and the balance sheet fol-low:

### Indiana Illinois & Iowa Railroad.

(Report for the year ended June 50, 1905.) President W. H. Newman says in substance :

(Report for the year ended June 50, 1903.)
President W. H. Newman says in substance:
RESULTS.—In comparison with previous year, gross earnings in oreased \$40,252, or 3.28 per cent, and operating expenses and taxes increased \$40,252, or 3.28 per cent. The freight traffic decreased 156,582 tons, mainly in packing-house products, coal and coke. This loss was partially made up by Increase in manufactured products, westbound, and earnings recompensed by increase in average rate per ton mile from 602c to 643c. The coal traffic originating on the line greatly decreased by recomposition of mines at Cardiff, Iil., by fire. New mines are being opened and will begin shipping coal scon. The expense of conducting transportation decreased \$78,947. Passenger earnings increased \$7.351, or 6.26 per cent.
There are on order three for maintenance of way and structures having increased \$99,939, or 43.16 per cent, over last year. The roadway has been greatly improved by ditching, raising tracks and ballasting several bridges have been rebuilt and a number extensively repaired. A new plate-girder bridge over the Kantakee River at Kankakee River at the construction, about one third the cost being included in this year's expensed. The sum of \$21,971, principality for side-tracks, interlocking plants and fuel stations.
There has been expended for new work during the year and charged to cost of road, less credits, the sum and attended, in Bareau County, Ill., to a point near Loadd, in Bareau County, Ill., to a solitant near Loadd, in Bareau County, Ill., a distance of 1.99 miles, at an annual rental of \$17,000 and the proportion of the cost of maintenance, operation, taxes, etc. The Roothelie & Southern line will be completed to a connection with this company has leased trackage rights from the Chicago & Norther

### Texas Central Railroad.

### (Report for the year ending June 30, 1903.)

Total.....11,037,451 10,836,959

Vice-President Charles Hamilton says under date of Aug. 1:

Vice-President Charles Hamilton says under date of Aug. 1: Dividends.-A dividend of 5 per cent on the preferred stock, to-gether with a dividend of 2<sup>1</sup>g per cent on the common stock, was paid out of the earnings for the fiscal year ending June 30, 1903. CLOUDBURST.-The year was the most trying that we have encoun-tered. On July 25 last an unparalleled rainfall visited our territory, covering our readway in many places to a depth of from 1 to 6 feet, washing several miles of track entirely off the embankment, obliterat-ing a large amount of embankment and carrying off several small and two quite important iron bridges spanning Steele's Creek, one of the latter quite recently erected, and each 125 feet in length. As these two bridges had been washed out before. It was determined to build a new line, avoiding the two creek crossings without increasing the new line, avoiding the two creek crossings without increasing the length of the road, which was done at an expense of \$15,000, or less than it would have cost to have replaced the two bridges and to have repaired the road, thereby securing a permanent roadway entirely above the highest water mark.

above the highest water mark. In addition to the July downpour we have had to contend with an extremely wet winter. Since the first of October last it has rained almost continuously until the present time. The effect of so much moisture on an unballasted track was, to say the lesst, very trying, and caused a great deal of additional expense in maintenance. We are now engaged in ballasting our track with gravel. EXTENSION AND IMPROVEMENTS.—The 11<sup>1</sup>4 miles of road between Ross and Waco that were under construction the first of the year were completed and occupied, together with our own terminals in

were completed and occupied. together with our own terminals in Waco on Sept. 1 last. These 114 miles, together with 34 miles be-yond Boss, are laid with new steel rails, weighing 77's pounds per

yard. The entire line is now laid with steel rails of 774, 60, 56, and

aubstantial two-story brick building, the lower part of which is paseenger and freight station. The second story embraces spacious general offices.
Among the many permanent improvements since 1893 are the following: Ffity-eight ateel and iron bridges, of different lengths, aggregating 3,225 feet, all erected upon substantial maconry; 86 permanent enlyerts, some of stone, some of iron and some of vitrified ploe; 2 milee of wooden trestle bridges filled; air brakes and automatic complex spapiled to all the equipment.
WAGES, ETO.—The scale of wages has been advanced from year to year for the past several years; all enpiles and materials are much higher in price than in former years.
OUTLOOK.—A coal shaft has been sunk at mile post No: 158 in East-lend Connty, tapping the "Texas Coal Field" that is embraced in Erath, Paio Pinto, Stevens and Eastand counties. The mine owners are now installing their hoisting machinery.
The rapid growth of the country is plainly indicated by the following, viz: Passenger earnings in 1893, \$67,784; in year 1902-03, \$150,702; freight earnings in 1893, \$192,519; in year 1902-03, \$411,-475; number of bales of cotton handled in 1892-93 was 43,158, in 1902-03 was 86,543.
The year 1903, up to the present time, gives favorable promise of a very much more prosperous period than existed during the continuous rainfail during the year, resulted in a serious lose to the continuous rainfail during the year, resulted in a serious lose to the continuous rainfail during the year, resulted to nave than in any previous year. While the cloudburst on the 25th of July last, and the continuous rainfail during the year, resulted to nave that in any previous year. While the cloudburst on the 25th of July last, and the continuous rainfail during the year results at one be larger than in any previous year. While the cloudburst on the 25th of July last, and the continuous rainfail during the year, resulted to nave that in the production of grainfand octton m

Of the total tons carried (193,190 against 163,179 in 1901-02), cotton in 1902-03 represented 26,103, against 21,900 tons in 1901-02; coal. 24,164 tons, against 1,525 (sic); lumber, 41,262 against 40,749; live stock, 16,253 against 10,632; merchan-dise, 22,202 against 36,282; grain, 17,256 against 13,122; remainder scattering.

#### Montreal Street Railway.

(Report for the year ending Sept. 30, 1903.)

President L. J. Forget says in substance :

-V. 77, p. 770.

President L. J, Forget says in substance : The earnings continue to increase in a satisfactory ratio. The oper-ating expenses per cent of gross earnings show an increase, due to the heavy increased rate of wages paid in all departments, the in-oreased amount spent for maintenance and the increase paid to the city-per cent on gross earnings. An amount of #54,130 expended on apecial renewals has been charged against the contingent account. The road-bed, rolling stock, buildings and other property have been efficiently maintained. While the gross earnings from the Montreal Park & Island Rallway show a satisfactory increase, the working expenses have also in-oreased, and in consequence your company has not received any in-terest on the stock and conds of the M. P. & I Ry. Co., owned. During the year \$1,000,000 of new stock was issued to provide for extensions and new rolling stock and equipment. This stock was enbecribed for at par by the shareholders of record on Oct. 14. Several extensions have been completed and put in operation during the year and the rolling stock, equipments and feeder system have been in-oreased to keep up to the requirements of the traffic. Strikes among the motormen and conductors occurred in February and May, respectively, causing an interruption in the company's busi-nees for a short period. James Ross. Vice-President, resigned during the year and the board elected F. L. Wanglyn in his place. During the year the company has paid the city of Montreal: Tax on earnings and other taxees. \$12,299 : snow-clearing. \$47,168 : total.

During the year the company has paid the city of Montreal: Tax on

arnings and other taxes, \$121,299; snow-clearing, \$47,168; total, \$168.467.

American Soda Fountain Co.

(Report for the year ending Aug. 31, 1903.)

President James N, North says in substance:

President James N. North says in substance: The earnings the past year somewhat increased, enabling us not only to pay a 6 p. c. dividend upon the first preferred stock, but also to add to the surplus, increasing the same to \$276,459. We do not deem it judiclous, however, to pay more than the 6 p o. at present, as the growing volume of business demands additional working capital, necessitated by increased amount of customers' notes, accounts receivable and greater manufacture of atock in anticipation of sales. Bince the close of the business year more than two months have passed and we are pleased to state that our sales exceed those of the corresponding time of the previous year, with indications of increased prosperity. Changes made and under way will result in greater econ-omy of manufacture and of sale, and at the same time increase our selling facilities and our efficiency in competition. Attention is called to the changes in the by-laws. The balance sheet shows net profits for the year of \$125.

The balance sheet shows net profits for the year of \$125,-275, contrasting with \$108,589 for the year 1901-02 and \$146,418 for 1900-01. These earnings are chargeable in each case with dividends on the first preferred stock at the rate of 6 per cent per annum, viz., \$75,000. \$379,761 has been de-ducted from the value of the plant (as per balance sheet) for deterioration since the formation of the company.

Notes payable	866,968	367,395	182,335	
Sarplus fand	276,459	226,184	192,595	

Customers' notes indorsed by the company (transferred in pavment of indebtedness) Aug. 31, 1902, amounted to \$218,943. At the closing of the bocks Aug. 31, 1903, the amount was \$106,968. These notes are secured by liens which carry title to the property for which the notes were given, and the liability is therefore nominal. They have been charged off and are not included in the assets above. Ample re-serves have been made to cover possible losses.—V. 75, p. 1200.

### GENERAL INVESTMENT NEWS.

### BAILROADS, INCLUDING STREET ROADS,

Atlanta & Marietta Electric RR.-Mortgage.-This company, organized to build extensions to Marietta, etc., for the Georgia Railway & Electric Co., has made a mortgage to the Guaranty Trust Co. of New York, as trustee, to secure \$600,000 of 5 per cent 40-year gold bonds of \$1,000 each, due May 1, 1943, but subject to call at 110 and interest on any interest date; \$100,000 of the bonds are reserved for addi-tions and improvements. Frank L. Cooke is President.

Brigantine Transportation Co., Brigantine Beach, N. J. Receiver - Vice Chancellor Emery at Trenton, N. J., on Nov. 19 appointed Richard D. A. Parrott of Atlantic City re-ceiver for this company on application of the Continental Trust Co., trustee, preparatory to foreclosing both the first and second mortgages of \$50,000 and \$25,000, respectively. See "Street Railway Section," page 1907, and Philadelphia & Brigantine RR. below.-V. 64, p. 373.

Citizens' Railway, Waco, Tex.—Strike Over.—The strike that was inangurated on Sept. 27 was officially declared off by the motormen on Nov. 11, it having been a complete fail-ure. The cars had been in operation for three weeks.—V. 66, p. 84.

Colorado Midland Ry.-New Director.-Edwin Hawlew has been elected to the board.-V. 75, p. 665.

Colorado & Southern Ry.—New Director.—Jos. P. Cotton Jr. of New York has been elected a director to succeed J. Kennedy Tod.

Bonds.-The New York Stock Exchange has been asked to list an additional \$300,000 first mortgage bonds, issued for improvements, additions, etc.; this will increase the total bonds listed to \$18,803,000.-V. 77, p. 1870.

Consolidated Railway & Power Co., Salt Lake City.—Con-solidation.—See Utah Light & Power Co., under "Indus-trials" below.—V. 77, p. 628.

**Denver & Southwestern Ry.**—*Time Extended.*—The time for depositing the general mortgage bonds under the plan (V. 77, p. 1542) has been extended "until Nov. 28th."—V. 77, p. 1542, 1533.

Detroit Mackinae & Marquette RR.-Bids Accepted.-Bids for the sale of the entire \$500,000 bonds asked for were btained at prices averaging 83, with 86 as a maximum and 8 as a minimum.

Further Bids Asked.-Proposals for the sale of a further lock of \$426,000 bonds will be opened at 8 P. M. on Dec. 2 by Frederick E. Driggs and William W. Heaton, trustees, at No. 23 Telephone Building, Detroit, Mich. Compare V. 77, . 178, 1871.

Eastern Trunk Lines.—Export Rates on Iron and Steel Products Reduced One Third.—On Thursday at a joint meeting f the traffic managers of the Trunk Line and Central Traffic atlroads, virtually all of the roads east of the Mississippi River doing Atlantio export business being represented, it was voted to grant from Dec. 1 a reduction of 331/3 per cent in the rates on iron and steel products from interior points to the Atlantic seaboard for export, this applying to all the numerous articles on the so-called special list, including bil-lets, but not including steel rails. The reduction does not apply to Gulf ports, nor to shipments other than car-loads, nor to the rate already lower than the rest from Johnstown (Cambria Steel Co.) to New York.

A reduction of 50 per cent was asked by the iron and steel interests.

Action was deferred on steel rails and other items governed by the general classification, the question of a reduction of the export rate on these articles being referred to the Trunk Line Iron & Steel Committee, which will meet the second week in December.

The petition of the steel manufacturers says in part:

The petition of the steel manufacturers says in part: You are doubtless aware of the fact that the iron and steel business of the entire country is in a depressed condition, which has resulted in a large decrease in demand and a cousequent closing down of a number of furnaces and mills. We are hopeful of a better condition prevailing in domestic markets, and meantime we are looking beyond the limits of this country to secure a market for some proportion of our product; but we are met with competition from Great Britain and Germany, whose prices are based upon labor costs much below those prevailing in this country, and it will be necessary for us to make our prices approximately on a basis of our net costs, or a trifle above, and in some instances below net costs. We feel that it is but fair and right that the railroads should join with us in an effort to secure foreign businese by a sweeping reduction in the transportation cost from our mills to the seaboard, and we there-fore petition you to present this to your association, and we ask that for export traffic, rates should be established to the seaboard of not over 50 p. c. of the present domestic rates. The "Journal of Commerce & Commercial Bulletin" pub-

The "Journal of Commerce & Commercial Bulletin" pub-lished yesterday the list of products affected by the reduction. See also remarks in editorial columns of to-day's CHRONICLE. -V.76, p. 1800.

Erie & Central New York RB.—Reported Sale.—A press report states that J. S. Bull on Saturday last signed a contract for the purchase of the property, the purchase money, about \$100,000, to be paid this week.-V. 74, p. 1195.

Georgia Railway & Electric Co., Atlanta.—Extension.— See Atlanta & Marietta Electric RR. above.—V. 76, p. 1406.

Honolulu Rapid Transit & Land Co.-Earnings.-The company reports as follows for the years ending Aug. 31, 1903, and Aug. 31, 1902, separately and combined:

Period covered— 1902.03 1901-02	.\$246,236	income. \$5,568	\$136,427	Net income. \$115,377 66.643	charges.	Balance, surptus. \$76,541 41,504
1001-02						

Total.....\$102,594 \$6,725 \$227,299 \$182,020 \$63,975 \$118,045 Miles operated August, 1903, was 16.84; August 1902, was 11.09; Sept., 1901, was 4.40; average two years, 10.92. The wages paid to conductors and motormen are 50 cents an hour, being much higher than the average paid in the United States and Canada. "In May last we began the use of fuel oil for steam-generating purposes, with great success and a saving of about 15 p. c. over coal. The average cost of coal in this country is about \$7 50 per ton, and oil costs us in the tank at our power station \$1 48 per barrel of 42 gallons."-V. 76, p. 864.

Interocanic Railway of Mexico.-No Distribution.-The directors have issued a circular to the "A" debenture stockholders, stating that the accounts for the nine months to March 31st show that no amount is available for a dividend on the "A" debenture stock for that period.-V. 76, p. 1192.

Lake Shore & Michigan Southern Ry.—Notice to Bondholders.-A considerable amount of the \$6,098,000 second consolidated general mortgage 7 per cent bonds due Dec. 1, 1903, have been exchanged for the 3½ per cent gold bonds due June 1, 1997, and the right of exchange is now offered by Speyer & Co., bond for bond, until Dec. 1 to the holders of the remaining bonds. All 7 p. c. bonds to be exchanged must be delivered to Speyer & Co. on or before Dec. 1, coupons detached, and the  $8\frac{1}{2}$  per cent bonds to be received will carry the June 1, 1904, coupon. The 31/2s will after Dec. 1, 1903, have a direct 1st mortgage lien upon the main line from Buffalo to Chicago and on other properties described in the mortgage. The amount outstanding will be \$50,000,-000, and no further bonds can be issued under the mortgage. See advertisement on another page.

Sale of Debentures.-J. P. Morgan & Co. have contracted to purchase \$40,000,000 of the \$50,000,000 of 25-year 4-per cent debentures dated Sept. 1, 1903, which were authorized on Nov. 5 (V. 77, p. 1747). The remaining \$10,000,000 will be kept in the treasury. Of the \$40,000,000, \$25,000,000 or the equivalent thereof will be used to pay off that amount of notes falling due in January next. The loans and bills pay-able as shown by balance sheet of Sent 30 1903 aggregate able as shown by balance sheet of Sept. 30, 1903, aggregate

\$36,575,000, contrasting with \$5,875,000 on Sept. 30, 1903 There will probably be no underwriting syndicate.-V. 77, p. 1747, 451.

Lake Street Elevated RR.-Plan.-Notice.-The reorganization plan, of which we published a resume last week, also the official notice regarding the making of deposits, will be found in the advertising columns of to day's CHRONICLE.-**V**. 77, p. 1874.

Levis County Railway Co., Quebec.—Bonds Offered.— This company offers for sale the unsold portion of its issue of \$250,000 bonds, par value \$1,000 each.

New York New Haven & Hartford RR.-New Directors. Etc.-Hamilton McK. Twombly has been elected director in the place of the Hon. Channey M. Depew, resigned. Percy R. Todd has become First Vice-President, F. S. Curtis, Sec-ond Vice-President, and William E. Barnett, Third Vice-President V 77 p. 1747 1904 President.-V. 77, p. 1747, 1294.

New York & Ottawa RB.-Sale Postponed.-The foreclosure sale has been postponed to Deo. 29.-V. 77, p. 37.

North Carolina Midland RR.—First Dividend.—A first dividend of 21% p. c. has been declared on the \$924,000 cap-ital stock. The surplus earnings for the past year are re-ported as \$29,000. The Southern Railway C. owns all the road's \$301,000 first mortgage 6s and \$787,600 of its capital stock.-V. 67, p. 428.

Northwestern Elevated RR., Chicago.-New Director.-Walter B. Smith of John H. Wrenn & Co., Chicago, has been elected director to succeed Clarence A. Knight (President of the Lake Street Elevated), who resigned, but who remains General Counsel.-V. 76, p. 330.

Philadelphia & Brigantine RB.-Receiver.-Vice-Chan-cellor Stevens at Newark, N. J., on Tuesday appointed Richard D. A. Parrott receiver for the company on application by John O. Heald and other bondholders, on the refusal of the Holland Trust Co. of New York to seek foreclosure under the \$50,000 mortgage, interest on which, it is alleged, is in default.-V. 62, p. 547.

St. Joseph & Grand Island By.-Report.-The results for two years ending June 80 were:

St. Louis Iron Mountain & Southern Ry.—River & Gulf Divisions First Mortgage Bonds.-On pages 2049 and 2050 will be found the statement made to the New York Stock Exchange in connection with the listing of \$12,243.000 of the River & Gulf Divisions first mortgage 4 p. c. 80-year gold bonds, part of the block of \$20,000,000 which was sold last spring (V. 76, p. 543,) for the following purposes :

Miles. 

The aforesaid lines will complete a system extending from St. Louis to New Orleans "which is 48 miles shorter than the existing system, having maximum grades of 3-10ths of one per cent as against several sections of existing system reaching as high as two per cent; also a low-grade main line of dense traffic from Kansas City to Memphis of about 480 miles, which is shorter than any existing line between the same points, and which will have a maximum operating grade of 6-10ths per cent, as against grades of 2 per cent by any other existing line."

In addition to a first lien on the aforesaid mileage the bonds have as collateral security \$148,000 first mortgage bonds of the Union Ry. of Memphis and \$1,000,000 first mort-gage 5 p. c. bonds of the Western Coal & Mining Co., the latter covering 8,000 acres of coal lands in Illinois. The total authorized issue of River & Gulf Divisions bonds is \$50,000,-000, but bonds in excess of the aforesaid \$20,000,000 already sold or under contract of sale can be issued only for future requirements, in accordance with stringent provisions in the mortgage, as shown in the official statement on page 2049 (compare V. 76, p. 600, 1085,).-V. 77, p. 1875.

Seaboard Air Line Ry.-Funds Provided-New Directors. -After somewhat extended negotiations between the several parties concerned, it was announced on Thursday that Blair & Co., Thomas F. Ryan and T. Jefferson Coolidge Jr. had agreed to loan the company "the amount of money deemed necessary by the officers of that company to pay off its floating debt and to complete the Birmingham-Atlanta extension." In pursuance of this understanding, all interests agreed upon the following gentlemen as directors and they were duly elected as representatives, it is supposed, of the interests below named, unless, perhaps, Mr. Warfield, as he was instrumental in bringing about the deal, should be classed with the new element:

ORIGINAL SEABOARD INTERESTS.

John Skelton Williams, Richmond, Va. | James H. Doo'ey, Richmond, Va. J.William Middendorf, Baltimore.Md., J. M. Barr, Norfolk, Va. S. Davies Warfield, Baltimore, Md.

## LADENBURG-THALMANN-FRISCO INTERESTS. G. Sidney Shepard, New Haven, N. Y., | Ernst Thalmann, New York, N. Y. B. F. Yoakum, New York, N. Y., | Oakleign Thorne, New York, N. Y. 11. Clay Pierce, St. Louis, Mo.

NEW BLAIR-RYAN-OLD COLONY TRUST INTERESTS.

Thomas F. Ryan, New York, N. Y., James A. Blair, New York, N. Y., Norman B. Ream, Chicago, 111.,

President John Skelton Williams says :

President John Skeiton Williams says: The entrance into the management of this company of Thomas F. Ryan, Blair & Co. and the Old Colony Trust Co. of Boston, in conjunc-tion with Ladenburg, Thalmann & Co. and their associates, marks a new era in Seaboard affairs, and will place this company in an en-viable position both as to fluancial support and able, direction. The financial arrangements which the Seaboard Air Line Railway has just perfected provide among other things for the amount re-quired by the company to fully complete its line from Atlanta to Bir-mingham. At the time of the formation of the syndicate, of which Ladenburg, Thalmann & Co. are managers, the Seaboard obligated it-self to furnish out of its treasury, in addition to the proceeds of the sale of the \$6,000,000 bonds on the Atlanta & Birmingham Division, an amount sufficient to complete this extension; this has now been done. The loan obtained from the new interests is for short \$2.

The loan obtained from the new interests is for about \$2,-500,000, covering the money needed to pay the floating debt and \$700,000 to complete the Atlanta-Birmingham extension. No changes have as yet been made in the personnel of the voting trust, though some, it is understood, are contem-plated. The road, we are informed, will continue to be operated as an independent system.—V. 77, p. 1875, 1295.

Southern Pacific Co.-Annual Meeting. - The annual meeting, which was postponed last April on account of the Keene injunction, will, it is stated, be held in April, 1904, the old officers in the meantime holding over. The Keene suit was dismissed by consent some time ago, leaving the Union Pacific free to vote its Southern Pacific stock.

Interest in Oil Properties. — See San Joaquin Oil Co. under "Industrials" below and Associated Oil Companies in V. 77, p. 1748.—V. 77, p. 1747.

### INDUSTRIAL, GAS AND MISCELLANEOUS.

American Diesel Engine Co.—Status.—This company, with office at 11 Broadway, explains in a recently issued catalogue the difficulties which it has finally overcome in perfecting its internal combustion motor. The catalogue gives also the following information:

The company is now prepared to build Diesel engines of 75 to 225 H P. These engines use any type of oil from kerosene to Texas or California crude and a heat efficiency of fully 30 p. c. is claimed for them, or double that attained by other oil engines now on the market. In July last there were 27 Diesel engines, aggregating 1,605 H. P., in use in the United States, while 66 engines, aggregating 8,200 H. P., were under construction in the shops. The Augsburg Machine Works in Germany have built and have under construction 262 engines, aggregating 12,893 H. P.-V. 76, p. 867.

American Express Co.-See Westcott Express Co. below. -V. 76, p. 974.

American Rapid Telegraph Co.—Final Distribution.— The "Boston News Bureau" on Nov. 16 said:

The committee representing the bondholders are to-day distributing a final dividend of \$2.55 per bond, upon the \$2,894,000 bonds which many years ago foreclosed upon the Bapid Telegraph Co. property and sold the same to the Western Union Telegraph Co. This makes a total dividend distribution extending over several years of \$265.55 per \$1,000 bond. It was expected at one time that more than 30 per cent would be realized, but the suit against the Western Union Tele-graph Co. to recover rental previous to the sale was decided adversely and so the bondholders got only 26<sup>1</sup>5 p. c.-V. 54, p. p. 844.

American Shipbuilding Co.-Dividends on Common Stock Suspended-The directors at their meeting on Nov. 18 took no action on a dividend on the common stock. President W. L. Brown says:

Business restriction is observed in all lines besides our own, and it was simply good business sense that the stock disbursement be passed for a time at least. Shipbuilding on the lakes has by no meane met with disaster. It is true that very few contracts have been placed for new vessels, but this is a condition of the times. Capital is hesitating everywhere. The company has considerable work on hand and the fiscal year will show satisfactory earnings.-V. 77, p. 1535, 1224.

American Telephone & Telegraph Co.—Output.—The output of instruments for the month and the ten months ended Oct. 20 was:

	Mon	nth.——	10 m	onths.
<b>To</b> Oct. 20 -	1903.	1902.	1903.	1902.
Gross output (number)	111,749	92,601	923,978	900,935
Net output (number)			515,262	517,091
Total outstanding			3,665,582	3,042,697

Securities Owned.-In our issue of March 14, 1903, was given a table showing the capitalization of the several li-censee companies and the amounts thereof owned by the American Telephone & Telegraph Co. A recent statement to the New York Stock Exchange indicates that our table needs revision in the following items to bring it down to date in the particulars named :

I		Total	Owned by
I	Slocks—	capital.	A. T. & T. Co.
1	Beil Telephone Co. of Canada	\$5,987.420	\$2,314,700

	- 1. 10, p. 1130, 1000.		

City & Suburban Telegraph Association (Bell Telephone), Cincinnati.-New Name.-The shareholders voted on

Nov. 13 to change the name to the Cincinnati & Suburban Telephone Co.-V. 77, p. 1327,

City & Suburban (Bell) Telephone Co., Clucinnati.-New Name.—See City & Suburban Telegraph Association above. -V. 77, p. 1237.

Colorado Fuel & Iron Co.-Finances.-At a meeting of the directors on Nov. 11, 1908, substantially the following resolutions were unanimously adopted with a view to pro viding for the company's financial requirements.

WHEREAS. Since the last annual meeting the company has found it necessary. In order to meet its obligations under contracts previous'y made and for the extensive work of construction and betterments upon which the company entered a year or two ago, and also for its general corporate purposes, to raise money from persons interested either as stockholders or directors or both by means of loans and sales of the sales between the applied to a contract permitting re-upro-

The which the company entered is year of two ago, and also hold to be ago, and also contract permitting re-purchase by the Fael Company within a specified time): *Resolved*, That the board of directors call a special meeting of the tockholders to be held on Dec. 15, 1903, at 2 P. M., in Denver, Col., (stock transfer books to close Nov. 25).
1. For the purpose of enbiniting to the stockholders the question of amending the articles of incorporation by atriking thereform the following provision of article IV. as said article was amended on July 13, 1901, to wit:

"Bo long as any of eald \$15,000,000 of debentures are outstanding, no mortgage or other incombrance shall be placed upon any of the property of the company, nor shall any other debentures be authorized on face, in case the company may desire to refund the same or any of them, but in no event shall be provided for in the same or any of the par value of the books which they shall be issued to replace, nor shall any notes be books which they shall be issued to replace, nor shall any notes be issued or indebtednees created for any of the run shall be issued to replace, nor shall any notes be issued or indebtednees created for any of such resource of the company."
To the purpose of presenting to other purpose than the ordinary running expenses of the company."
To the purpose of presenting to other purpose than the ordinary running expenses of the opticate of the par value of the transactions by which this company has raised money as aforesaid, and copies of the application of the purpose of approving and directors to the furtherance of the work of contract permitting re-purchase, in order that the same many. If approved, be confirmed by said etockholders; and (3) for the purpose of approving and directors to the opticas money in the discretion of different the only method open to the company to provide for its into the same shall be approved by substantially the whole body of tocotholders.

"The intending purchasers state that it is their purpose as soon as possible to invite all stockholders of the company to participate on equal terms with themselves in purchases made from that company in proportion to their respective holdings of stock." The rights of the holders of the con vertible debentures were described in statement to New York Stock Exchange, V. 74, p. 731. The company's New York office is now at 35 Wall St.-V. 77, p. 1876, 771.

Columbus (Ga.) Automatic Telephone Co.-Mortgage.-A mortgage has been made to the Columbus Savinge Bank as trustee to secure \$200,000 of 6 per cent 20 year gold bonds, viz. \$100,000 issuable to complete the instalment of the first 700 telephones and the remainder at the rate of \$100 for each additional telephone, Jno. T. Norman is President and Frank Hart, Secretary.

Consolidation Coal Co. of Maryland. - Denial. - The "Providence Jonrnal" on Nov. 7 said:

President Robert B. Little, of the Eastern Coal Ca., declared em-phatically that no sale of the capital stock of his company to the Con-solidation Coal Co. had been made or is contemplated, and that no proposition of any sort for a sale of the capital stock had been sub-mitted by any one. Others in Providence who are familiar with coal affairs are inclined to believe that there have been some transactions in Eastern Coal Co. stock, although the stock book does not show any such state of affairs. The company was formed by a consoli-dation of smaller local dealers in coal.  $-\nabla$ . 77, p. 1748.

Consolidated Lake Superior Co.—Reorganization.--The reorganization committee announces that about \$50,000,000 of the stock having been deposited and many stockholders who have not as yet been able to pay their assessments having requested a further extension, the time for participating in the reorganization agreement has been extended until and including Dec. 1. The attention of the stockholders is called to the fact that the extension of sale obtained from Speyer & Co. expires Dec. 15, 1903, for which reason it is impossible for the committee to keep open the subscription list beyond Dec. 1, 19(3.

Thomas J. Drummond, of Drummond, McCall & Co., iron merchants, Montreal, has been added to the reorganization committee, increasing its membership to ten (V. 77, p. 1298, 1876). The Morton Trust Co. has been named as a depository in order to accommodate New York stockholders.-V. 77, p. 1876, 1748.

Consumers' Gas Trust Co., Indianapolis.-Final Payment on Certificates.-The directors on Nov. 13 voted to pay not later than Jan. 5, 1904, the final instalment of 5 p. c. due on the \$788,657 trust certificates. James W. Lilly, of the hard-ware firm of Lilly & Stalnaker, has been elected a director and Treasurer of the company. Compare V. 77, p. 1535.

Detroit Edlson Co.—Remaining Bonds Offered.—Vermilye & Co. and Spencer Trask & Co. are offering at par and ip-terest the remaining \$1,200,000 of the authorized issue of \$3,000,000 first mortgage 5 p. c. gold bonds, due Jan. 1, 1933. President C. W. Wetmore, under date of July 10, 1903, says:

The construction of the new generating station has advanced satis-factorily and promises to reach completion early in 1904; the exten-sions and additions to the underground conduits and distributing

systems are also progressing rapidly. For the five months ending May 31 the gross earnings were \$227,689 in 1903, against \$190,881 in 1902; total net income, \$89,832, against \$94,161; interest charges, \$38,301; balance surplus, \$51,531. After the completion of the new generating station the increase of business and gross in-come will, undoubtedly, be much more rapid, and at the same time a material decrease in operating expenses will result from the discon-tinuance of the operation of all the present plants, and from the much greater efficiency and economy of the new boiler plant and generating machinery. It is confidently anticipated that the net earnings for the years 1904 and 1905 will not be less than the estimates previously given. Compare V. 76, p. 868.

Dominion Iron & Steel Co.-Reduction in Wages.-Man-ager David Bakers has given notice as follows of a general reduction in wages:

Beginning with Dec. 1, 1908, all wages and salarles of employees of the Dominion Iron & Steel Co. will be reduced from 10 to 33<sup>1</sup>3 p. c.; common laborers will be paid \$1 26 per day.

It is explained that the company is compelled to reduce expenses in order to compete with the United States Steel Corporation, which also has undertaken important econo-mies.-V. 77, p. 1296, 826.

Dow Composing Machine Co., New York.—Equipment Sold.—This company's plant at 441 Pearl St. is being dis-mantled, the equipment having been sold last week, part of the machinery going to the Niles-Bement-Pond Co. and part to the Brown & Sharp Mfg. Co. Proceedings were recently brought against the former President for alleged conversion of funds. It is suggested that the business may be taken up by the American Standard Type Co., Park Row Building.-V. 74, p. 154.

Du Pont (E. I.) de Nemours Powder Company of New Jersey.-First Dividend.-This company, whose office is at Wilmington, Del., paid recently a quarterly dividend, No. 1. 1¼ per cent, on the preferred stock to stockholders of record Oct. 23.-V. 77, p. 1748, 1535.

Edison Electric Illuminating Co. of Brocklyn.—Further Distribution.—The stockholders' committee, George Foster Peabody, Chairman, gives notice that a further dividend of one-half per cent is now payable at the Central Trust Co. upon the certificates of deposit issued for stock under agree-ment of Aug. 25, 1898. Later on, some additional amount may be distributed.—V. 71, p. 493.

Granby Cotton Mills.—See Olympia Cotton Mills below.

Hammond Ice Co., BaltImore.-Compromise-New Mort. gage Trustee.—A compromise having been reached in the pending litigation, Judge Harlan at Baltimore on Nov. 12 signed an order allowing the City Trust & Banking Co. to resign, at its request. as trustee under the mortgage for \$1,-400,000 executed on Dec. 31, 1902, and appointing the Inter-national Trust Co. of Maryland as trustee in its place. The bonds, it is said, are a lien on plant No. 2. The "Baltimore Sun" on Nov. 13 said :

Sun<sup>T</sup> on Nov. 13 said : It is understood that the Receivers of the City Trust & Banking Co. agreed that the company should resign as trustee upon the con-dition that all the lawsnits should be settled ont of court and that no effort would be made to foreclose the mortgage. It is also understood that the compromise provides for the protection of the bonds. Two of the three suits involved in the iltigation were brought by the Knickerbocker Trust Co. and others for the appointment of a receiver for the Hammond Ice Co. and for the removal of the City Trust & Banking Co. as trustee under the mortgage. The other suit was brought by the Hammond Ice Co. to compel the Knickerbocker Trust Co. to bring into court certain bonds of the ice company.—V. 77, p. 1749, 772.

Hudson River (Bell) Telephone Co.-New President.-Charles F. Cutter, President of the New York and the New York & New Jersey Telephone companies, has been elected President, to succeed James H. Manning, resigned.-V. 77, p. 254,

Hudson River Water Power Co.—Status.—E. H. Gay & Co., in a circular dated October 22, say:

Co., in a circular dated October 22, say: The company and its constituent properties are at present in receipt of revenue on the basis of \$40,000 per month. By December next the monthly revenue will have increased to about \$50,000; by January, 1904, to about \$70,000, and in December, 1904, to about \$105,500. For the year 1904 the company's anditors report that the actual rev-enue based upon the earnings now being made and the increases which will follow the successive installation of generating apparatus in the power house and the delivery of the resulting increased power to cus-tomers [under existing contracts] will be \$1,181,678; deduct annual operating expenses, say \$100,000; interest on \$2,000,000 Hudson River Water Power Co. 5 p. c. bonds, \$100,000, and on \$3,000,000 Hudson River Eleteric Co. 5 p. c bonds, \$150,000; total deductions, \$350,000; eurplus for sinking fund and dividends, \$831,678. Com-pare V. 75, p. 137; V. 76, p. 161.

Controlled Company.—See Saratoga Gas Electric Light & Power Co. below.—V. 77, p. 453.

Kalamazoo Valley Electric Co.—Bonds.—Referring to the new bond issue, the "Jackson (Mich.) Patriot" says: This company, owning the water power electric plants on the Kala-mazoo River at Otsego, Plainwell and Allegan and the transmission

including to Jackern, has field a mortgage for the purpose of secur-ing a bond issue of \$1.0,000 upon all the property of the company, including the property recently acquired by purchase from the Battle Creek Power & Lighting Co. The bonds are in denominations of \$1,000 each, bearing interest at the rate of 6 per cent, payable semi-

President W. A. Foote informs the CHRONICLE that the President W. A. Foote informs the CHRONICLE that the \$100,000 bonds are for the purchase of additional property costing \$175,000. The company operates a steam plant at Edwards and Water Sts., Kalamazoo; No. 1 water plant, Trowbridge, Allegan Co.; No. 2 water plant, Plainwell, Allegan Co.; No. 3 water plant, Otsego, Allegan Co. S. S. Hulbert is Secretary and James B. Foote Treasurer. Office, 111 Chase Block, Kalamazoo, Mich.-V. 77, p. 1877.

Lackawanna Steel Co.-Fourth Instalment.-The fourth instalment of 20 p. c. on the stock has been called, payable next month.

Plant.-W. W. Scranton of Scranton. Pa., who was for many years General Manager of the old Lackawanna Iron & Steel Co., has written to the Scranton "Times" of Nov. 7 an interesting letter giving the results of a week's inspection of the new plant at Buffalo. He says that, as regards rumors of trouble with foundations of engines, machinery or buildings, he "could find no sign of any settling, nor did any one show me any." See letter in full in "Iron Age" of Nov. 19. The "Engineering Record" also has published a series of illustrated articles regarding the company's plant.-V. 77, p. 1297, 1228.

Maine Water Co.—Appraised Value.—The board of appraisers appointed by the court is reported to have fixed \$503,475 as the price at which the property of the company in Waterville, Benton and Winslow, Me., can be acquired by the Kennebec Water District. See V. 69, p. 1150.

Manhattan Transit Co.—New Directors.—At the annual meeting on Monday the following board of directors was elected, the last four being new mempers to fill vacancies caused by recent resignations:

W. H. Knight, J. W. Allison, G. H. Webb, J. H. Hoadley, W. R. Sheidon, W. M. Hoagland, R. G. MacDonald, E. K. Hill of the International Power Oo., C. L. Gulick of the American & Brittsh Manufacturing Co., G E. Bouchie, and A. D. Proctor Smith of Smith & Mabley, the automobile manufacturers.

J. H. Hoadley was elected President and W. M. Hosgland, former Treasurer of the Royal Baking Powder Co., was elected Vice-President and Treasurer.-V. 77, p. 772.

Missouri Land & Live Stock Co.—Reduction of Stock.— The shareholders were to vote in London on Nov. 5 on a proposition to reduce the capital stock from £105,000 to £90,000, divided into 30,000 shares of £3 each, by returning paid-up capital to the extent of 10s. per share, and by reducing the nominal amount of the shares from £3 10s. each, with £1 10s. paid to £3 each, having £1 per share paid.

National Fire Proofing Co.—No Common Stock Dividend at Present.—The directors passed the following resolution on Nov. 14:

Resolved, That while the dividends have been earned, it is deemed inadvisable for the present to declare a dividend on the common stock of this company, the best interests of the stockholders being subserved by placing these earnings to the surplus fund.—V. 77, p. 254.

Olympia Cotton Mills.—Bonds.—Under the reorganization plan, by which this company, the Granby Mills and the Richland Mills pass under the control of the same board of directors, provision is made for the acquisition of working capital and for the retirement of the existing indebtedness of each company by the creation of \$3,000,000 of 6 p. c. gold bonds of \$1,000 each, due Nov. 14, 1923, with interest payable quarterly on the first of January, April, July and October. These bonds are in three sets, viz., Olympia, \$1,750,-000; Granby, \$300,000; Richland, \$450,000; each set secured by a mortgage made by the issuing company to the Baltimore Trust & Guarantee Co. of Baltimore as trustee. The shareholders of the three mills voted on Nov. 14 to authorize respective bond issues. They also voted :

That should it appear to the said board, after the consideration of the subject, that the bonds so provided for are not sufficient to meet the whole indebtedness of the company after reservation for commercial capital, as stated, then the said board shall either distribute the bonds pro rate so far as they may go amongst those establishing indebtedness against the company and arrange for the scaling of the indebtedness so the said bond issue shall be sufficient, or they shall call to gether the stockholders of this company and provide an additional issue of second mortgage bonds, which shall likewise be distributedamongst those establishing indebtedness against this company. The common heard of directors is as follows.

The common board of directors is as follows :

Stephen A. Jenks, Pawtucket, R. I.; R. P. Snelling, Newton Upper Falls, Mass; Francis K. Carey, Baltimore; H. O. Fleitman, N. Y.; R-Goodwyn Rbett, Charleston; W. B. Smith Whaley, W. H. Lyles. Co. Inmbia, and Robert F. Herrick, representing the Draper Co.-V. 77, p. 1877.

Panama Canal Co.—*Treaty Signed.*—Secretary Hay and Philippe Bunau-Varilla, the Minister from the new Republic of Panama, on Nov. 14 signed the treaty for the construction of the Panama Canal by the United States. The treaty will be ratified by Panama probably between Dec. 7 and Dec. 10. The substance of the document, as reported by the Associated Press, was given in the "New York Times" of Thursday and Friday. The money consideration is the same as in the Hay-Herran convention. Compare remarks in editorial columns.—V. 77, p. 1877, 1536.

Pennsylvania Steel Co.—Orders.—This company's subsidiary, the Maryland Steel Co., has taken an order for 20,000 tons of rail for delivery at Beirut. The "Iron Age" says "the reported price is not confirmed, but it is stated that other makers who bid \$19, f. o. b. Atlantic ports, lost the order."

The contract for the structural steel to be used in the construction of the Blackwell's Island Bridge in New York City was awarded to the Pennsylvania Steel Co. by Commissioner Lindenthal on Nov. 9, at \$5,255,514.-V. 77, p. 1229, 773.

Pittsburgh Coal Co.—Purchase.—A Pittsburgh paper says: The directors have ratified the purchase of the controlling interest in the Manefield Coal & Coke Co. from John A Bell. The company was capitalized at \$250,000, \$50 par, but Mr. Bell paid \$200 a share for it. the dividend rate having been 30 per cent a year. The mine has an ontput of 2,000 tons a day, and this will probably be increased. —V. 77, p. 1877, 1750.

Procter & Gamble Co.—Option.—Common stockholders of record Nov. 24 will be entitled on or before Jan. 2, 1904, to subscribe for an increase in the common stock of \$750,000 at the rate of one share for every seven shares held, at \$150 in cash per share, the said additional stock being the remainder of the total increase heretofore authorized, to wit,

on or about May 28, 1902. The new stock will be issuable on Feb. 15, but no part thereof will be dividend-bearing until on and after April 30, 1904. Subscriptions must be paid "within the time above mentioned" at the office of the company, Cincinnati, Ohio.

Extra Divitend.—A dividend of 142.7 p. c. upon the outstanding common capital stock has been declared payable Jan. 2, 1904, to the common stockholders of record Nov. 24, 1903, who can obtain a credit of such dividend at any time within the period above mentioned for paying for the new stock.

New Treasurer.—Assistant Treasurer Herbert G. French has been appointed Treasurer to fill the vacancy created by the death of his father.—V. 77, p. 1750.

Pallman Company.— Favorable Decision.— The United States Supreme Court on Nov. 16 decided that the attempt of the State of Tennessee to impose a tax on the company's business in that State is a burden on inter-State commerce, and therefore unconstitutional. The Court holds, however, that the State can impose a tax on the cars which run wholly within the State.—V. 77, p. 1293, 1229.

Richland Cotton Mills.—See Olympia Cotton Mills above, San Joaquin Oil Co.—*Proceeds of Sale*.—The "San Francisco News Bureau" says:

The payment of \$225,000 which was made by the Southern Pacific RR. Co. to the San Joaquin Oil Co. on Nov. 2d will be distributed on Nov. 12th, in the form of a dividend of \$2 25 per share. According to the terms of the selling contract, the balance of \$400,000 yet to be received for the trust certificates representing Associated Oil Compaules stock will be payable on Jan. 2d and March 2d next. These payments will be promptly distributed in the form of dividends. The San Joaquin Oil Co. will be dissolved within the following year, as it will have no remaining property. The Associated Oil Co. has handled the oil properties ever since their sale to it about two years ago.

Saratoga (N. Y.) Gas, Electric Light & Power Co —Bonds Offered.—E. H. Gay & Co. offer at 102½ and interest \$40,000 of the outstanding (\$123,000) first mortgage 20 year 5 p. c. gold bonds, denomination \$500, dated Feb. 1, 1897; due Feb. 1, 1917; coupons payable Feb. 1 and Aug. 1 at New York Sscurity & Trust Co., New York. A circular says:

Capital stock, preferred, \$190.400; capital stock, common, \$30,500; first mortgage 5s, \$123,000. For year ending 3ept. 30, 1903, the gross earnings were \$114,117, an increase of \$27,569, about 30 p. c. over previous year; net earnings, \$52,941; interest on bonds, \$6,150; net surplus, \$46,792. The company, operating under a perpetual and exclusive franchise, has paid 5 p. c. npon its preferred and common stock for a long term of years.

The company is controlled by the Hudson River Water Power Co. See that company, V. 75, p. 137, and also above. -V. 66, p. 665.

Searchmont Automobile Co., Philadelphia.—Receivership.—Barclay H. Warburton was recently appointed receiver of this company by the Delaware County, Pa., courts on application of Spencer Trask, a creditor and holder of \$275,000 of the company's authorized issue of \$2,000,000 stock. The indebtedness (overdue) is stated as about \$100,-000. The plant was shut down several weeks ago. A \$100,-000 temporary bond of the Fournier Searchmont Autmobile Co. was sold at auction in Philadelphia last week for \$12,000.

Southern States Land Co.—*Called Bonds.*—Ten first mortgage bonds have been drawn and are being paid at \$512 50 per bond, with accrued interest to Nov. 1, at the Knickerbocker Trust Co. Interest on both the first and the second mortgage 6s is payable May 1 and Nov. 1 at the office of said trust company.—V. 67, p. 843; V. 65, p. 1072.

Standard Oil Co. — Dividend. — The quarterly dividend of \$12 per share (12 p. c.) declared this week, payable on Dec. 15, makes the total distributions for the current calendar year \$44, compared with \$45 in 1902, \$48 in 1901 and 1900, each; \$33 in 1899, \$30 in 1898, \$33 in 1897, \$31 in 1896 and \$12 a year from 1891 to 1895. The individual dividends have varied during the past four years from 5 p. c. to 20 p c. but the total result for these years, it will be observed, has been quite constant.—V. 77, p. 1536.

Stock Quotation Telegraph Co.—Called Bonds.—Twenty bonds of 1888 have been designated for redemption at the Central Trust Co. on Feb. 1, 1904, at their par value.—V. 75, p. 1090.

Suburban Gas Co. of Philadelphia.—Bonds Offered.—Dick & Robinson, of this city and Philadelphia, are offering for sale \$280,000 of the 5 p. c. bonds of 1902, the remainder of the present issue of \$1,300,000. The mortgage is limited to \$2,-500,000, of which \$700,000 is held by the trustee to retire an equal amount of bonds of constituent companies and \$500,000 is in the treasury for future acquisitions under suitable restrictions.

Earnings.—For the six months ending Sept. 30, 1903, the gross income from gas sales are reported as \$124,592, an increase of \$36,367 (41 p. c.) compared with the same period of 1902; net earnings. \$58,182; interest for same period on bonds outstanding, \$45,598; balance surplus, \$12,584. "The above earnings are extraordinary, in view of the tact that the company is not receiving any benefit as yet from the new works and the coke ovens, which will not be in operation until December." Compare V. 75, p. 796, 926.—V. 76, p. 1253.

Tin Plate Mills.—Number in Existence and in Operation. —The "Iron Age" of Nov. 5 printed the following semiofficial report, which had been recently issued at Pittsburgh, the first figure giving the number of mills in each plant and the second figure the number in operation:

Independent-Alcania, 3, 3: Carnahan, 6, 3; Griffith in Waynesburg, 9, 0; Griffith in Washington, 2, 0; Jackson, 8, 4; Lalance & Grosjean,

4. 4; National Enameling & Stamping Co., 6, 6; Pope, 12, 7; N. & G. Taylor, 8, 4; Washington, 6, 3; Wheeling, 4, 4; McKeesport, 10, 10. Total number of mille, 75; operating, 45.
American Tin Plate Co. (United States Steel Corporation)—American, 28, 28; Auderson, 7, 0; Beaver, 7, 0; Cambridge, 6, 0; Ohester, 7, 7; Orescent, 6, 0; Faicon, 6, 0; Humbert, 6, 6; Irondale, 4, 0; La Belle, 10, 0; Laughlin, 23, 0; Monongahela, 8, 8; Morewood, 8, 8; Ohampion, 6, 0; Monessen, 24, 24; Greer, New Castle, 20, 20; Pennsylvania, 6, 0; Pittsburgh, 7, 3; Sharon, 20, 15; Shenango, 30, 0; Star, 8, 0; United States, Demmler, 11, 11. Total, 258; operating, 130.

"These figures show that out of a total of 836 tin plate mills in the country, 178 are in operation." Quite a number of plants have since resumed work.

United Fruit Co.-Earnings.-The results for the year ended Sept. 30, 1903, compare with the 13 months ended Sept. 80, 1902, and the year ended Aug. 31, 1901, as follows:

Period	Net	Net	Int. and	Dividends	Surplus
covered.	earnings.	sub. cos.	miseel.	de lared.	for year.
1902-03 (12 mos.)		\$225,204	\$229,595	(7\$)\$877,150	\$971,003
1901-02 (13 mos.)		230,581		(816\$)1,051.407	1,134,411
1900-01 (12 mos.)	1,304,027	def.62,052	153,417	(9%)1.054,787	18,790
-V. 77, p. 717.					

United States Leather Co.-Time Extended to Jan. 1,-The time for assenting to the agreement of May 26 between the preferred stockholders and the Morton Trust Co. has been extended to and including Jan. 1, 1904.-V. 77, p. 827, 150.

United States Realty & Construction Co.-Protective Committee-Three Years' Voting Trust.-A stockholders' committee consisting of :

James H. Hyde, A. D. Jnilliard, F. P. Olcott, Ja James Speyer, Chairman of committee. James Stillman,

as owner and representative of owners of large amounts of the capital stock, requests the stockholders to confer upon it powers which will enable it "to secure some radical changes in the administration of the company, especially in its con-struction department, and [thoroughly] to establish an administration which will be advantageous to the interests of the stockholders and will secure for the company the confidence of the communities in which its business is to be transacted." The stockholders are accordingly asked to deposit their stock certificates on or before Dec. 15, 1908, with the Equitable Trust Co. of New York, No. 25 Nassau St., New York City, under an agreement which shall vest the same and the voting powers thereon in the committee until the expiration of three years from the next annual meeting of the stockholders unless the committee should determine upon an earlier dissolution of the deposit and return of the stock Upon the dissolution of the deposit the deposited stock cer-tificates will be returned free of charge. The committee is to act by vote of the majority of its members. See advertise-

ment on another page. Retrenchment,-Vice-President Robert E. Dowling is quoted as saying:

In other lines employers are cutting expenses, and there is nothing in the present reduction in our working staff more than other large contractors are doing. While securities have been going down, the cost of building has remained at the same high figure. While this state of affairs remains there will be little building done. This winter, I believe there will be from 30 to 40 per cent less than the normal amount of business done by building contractors. The entire organization was never in better shape. We will take only contracts that we know to be safe until the labor situation is more settled and contracts can be fulfilled on time. So far there has been no reduction in our construction department\_in Pittsburgh or in any of the other cities.

any of the other cities.

Labor troubles have of late pretty well tied up the contracts of the subsidiary Fuller Company, which operates in this oity.-V. 77, p. 953, 717.

United States Steel Corporation.-End of Conversion.-The following statement was given out on Thursday by E. H. Gary, Chairman of the board :

"At a meeting of the finance committee held yesterday It was by unanimous vote decided to suggest to Messrs. J. P. Morgan & Co. that the syndicate contract for the conversion of preferred stock into second mortgage 5 per cent bonds should be canceled and terminated beyond the amount of \$150,000,000, which figure has very nearly been reached. "Messrs. J. P. Morgan & Co. immediately acceded to the

request of the finance committee, and no further exchanges will be made for account of the syndicate beyond the amount stated,

"The matter now stands as follows :

OUTSTANDING BONDS.	
Bonds already issued in exchange for stock received and canceled	8146.388.500
Bonds remaining to be issued in exchange for preferred	
stock to be converted by the syndicate	3,611,500
Bonds sold at par for each and paid for in full Oct. 1 and	0,011,000
already issued	2,902,000
Bonds sold at par for cash upon which 25 per cent was	
paid to the corporation Oct. 1 and which will be issued	
whenever the remaining 75 per cent shall be called for	
and paid	17,098,000
	tangtan Derena
Total outstanding issue	<b>5170,</b> 000,000
ADDITIONAL BONDS.	
Balance of \$30,000,000 of bonds available for sale for cash	
will be executed as stinulated in the indenture and he	
placed in the treasury as an asset	30,000,000
This will make the total bonds issued	B200.000.000
The \$50 000 000 now similar a section bits	

he \$50,000 000 rem aining available for exchange for preferred stock will be held subject to the exclusive right of the corporation itself to deal with from time to time as the board of directors may see fit.....

50,000,000 Total authorized issue ......\$250,000,000 "It is not the present intention of the corporation to make

any further conversion of preferred stock into bonds." As \$20,000,000 of the bonds were taken by the syndicate at par, the total cash received by the company from the trans

action is \$20,000,000, from which must be deducted the syndicate's commission of 4 p. c., which if figured on the \$170,-000.000 of bonds outstanding would call for \$6,800,000, leaving the net return to the company \$18,200,000.

If the provisions of the mortgage are correctly construed to mean that the bonds issued for cash shall be sold only at par (the provisions in this regard are not explicit, but the preamble by implication seems so to intend,) the \$30,000,000 of bonds to be placed in the treasury will for a time at least be available only as collateral for loans.

Reduction of Freight Rates.—See "Eastern Trunk Lines" under "Railroads" above.

Prospects.-James H. Bridge, secretary formerly to Mr. Carnegie and anthor of a history of the Carnegie Steel Co., has written a letter to the editor of the "Boston Herald," replying to a recent article and claiming that so far from the property of the United States Steel Corporation being in jeopardy, through foreclosure, the revenues of the corporation would have to be reduced one-third (the context would seem to indicate that "to one third" or by 66% p.c. is meant) before the preferred dividends would be endangered. Compare Chairman Gary's estimate in V. 75, p. 139.

Mr. Carnegie's Holdings.-Mr. Bridge also makes the fol-lowing statement regarding Mr. Carnegie's holdings :

At the time of the transfer of the Carnegie properities to the United States Steel Corporation, Mr. Carnegie personally held \$85,147,000 of the Carnegie company's bonds. These were exchanged for the Steel company's bonds at par. He had also 86,382 shares of stock, for which he was paid in bonds at the rate of \$1,500 a share. He there-fore acquired \$217,720,000 of the bonds of the United States Steel Corporation out of a total issue of \$304,000,000. As has been duly and frequently announced in the newspapers, he has given away a good many of these bonds, so that at the present time he probably does not hold anything like two-thirds of the entire issue.

Tin Plate Mills.—See this caption above.—V. 77, p. 1877.

Utah Light & Power Co.—Consolidation.—The shareholders will meet Dec. 16 for the purpose of voting upon the proposition to either consolidate the company with the Consolidated Railway & Power Co. of Salt Lake City (see STREET RAILWAY SECTION, page 1977) and the Utah Power Co., or in some manner to amalgamate said companies; in either case stock in the consolidated or new company to be accepted in exchange on some basis for the stock of the Utah Light & Power Co. The "Salt Lake Tribune" says:

The companies will be incorporated as one, but the capitalization will not be changed, and there is no new bond issue proposed at pres-ent. Neither is paying dividends at present, except occasionally a small one on the preferred stock of the light company. The officials are looking forward to the growth of the city in the next ten years, and believe this step is one which will put both companies on a divi-dend basis.—V. 77. p. 630.

(The) Werner Co., Akron, O.-Reorganized.-This com-pany, recently incorporated in New Jersey with \$1,000,000 of issued common stock and \$250,000 pref. stock, ia a reorganiza. tion of the Werner Company, which was formed in 1899 with \$3,500,000 stock and \$1,000,000 debentures. All the property and business of the old company has been purchased. Par of shares, \$100. No bonds. Hon. George W. Sieber, Akron, Ohio, is interested. Compare V. 68, p. 333.

Warner Sugar Refining Co.-Incorporated.-This company, which in April last put in operation a plant at Wau-kegan, Ill., for the manufacture of glucose, corn syrups, grape sugar, starch and corn products, was incorporated dur-ing October in Maine with \$3,000,000 of capital stock (all common) in \$100 sbares, all outstanding; no bonds or debts of any kind. C. M. Warner, of Syracuse, N. Y., is the Presi-dent. A. H. Kersting is Vice President and General Man-ager, Albert A. Smith Secretary and C. B. Warner Treas-urer, General offices in the Rialto Building, Chicago. The plant is estimated to have a daily capacity of 20 000 husbels plant is estimated to have a daily capacity of 20,000 bushels of corn. Among the other competitors of the Corn Products Co. are the Piel Brothers Starch Co. of Indianapolis (V. 75, p. 786) and prospectively the Granite City (Mo.) Manufacturing Co., which has a plant under construction.

Westcott Express Co.-Control.-A certificate of reduction in the membership in the board of directors which was filed this week is signed by the American Express Co. as owner of \$608,700 of the capital stock, which consists of \$500,000 ccmmon and \$150,000 preferred. See V. 76, p. 982.

Westinghouse Air Brake Co.-Merger.-This company was re-incorporated at Harrisburg, Pa., on Nov. 5, with cap-ital stock unchanged (\$11,000,000), in order to absorb the Electro Magnetic Co., chartered under the Act of 1874 with \$5,000 capital.-V. 77, p. 1307, 768.

Weyerhaeuser Timber Syndicate. - New Stock. - The trustees, at the annual meeting in Tacoma on Nov. o voted to increase the capital stock from \$10,000,000 to \$12,500,000; par value of shares \$100. The certificate of increase filed with the County Auditor shows no debts or liabilities whatever. The new stock, it is said, will be taken by the trustees, who include:

Frederick Weyerhaeuser, William H. Laird, P. M. Musser, R. L. Mo-Cormick, S. T. MoNight, George S. Long, William Carson.-V. 75, p.

Willimantic (Conn.) Gas & Electric Light Co.-Earnings. -The company reports the following receipts for the year ending July 31, 1903: Gross receipts, \$43,853; operating expenses and taxes, \$28,792; net earnings, \$14,561; interest, \$11,-430; surplus earnings, \$3,131. The percentage of operating expenses was unusually large, owing to the reconstruction of the plant. There are ontstanding \$200,000 first mortgage 5s and \$40,000 consolidated and refunding  $4\frac{1}{2}$ s. See description in V. 76, p. 982.

# Reports and Documents.

### BALTIMORE & OHIO RAILROAD COMPANY.

SEVENTY-SEVENTH ANNUAL REPORT-FOR THE YEAR ENDED JUNE 30, 1903.

OFFICE OF THE BALTIMORE & OHIO RAILROAD COMPANY. BALTIMORE, MD., October 22, 1903.

To the Stockholders of the Baltimore & Ohio Railroad Company:

The President and Directors submit the following statement of the affairs of the Company for the year ended June 30, 1903.

The results from operation on the entire system were:

	Miles.	Earnings.	Expenses.	Net <b>E</b> arnings.	Percentage of Expenses to Earnings.
The Baltimore & Ohio RR., incl. Baltimore & Ohio Southwestern Controlled or Athiliated Lines	3,935·12 461·88	\$63,449,633 37 4,729,042 99	\$39,569,963 59 3,170,038 44	\$23,879,669 78 1,559,004 55	62·36 67·03
Grand Total	4,397.00	68,178,676 36	\$42,740,002 03	\$25,438,674 33	62.69

As shown in detail in the following tables.

On July 1, 1902, a revised Classification of Expenses was adopted by your company, in order to harmonize more closely with the distribution of expenses used by the Inter-State Commerce Commission; the principal changes involved being the charging of certain expenses, mainly the salaries and expenses of traffic officials, to Conducting Transportation instead of to General Expenses, as was the former practice, with some other minor changes. The expenses of Conducting Transportation are also shown sub-divided as between expenses incident to Operation and those of Traffic. To admit of accurate comparisons the figures for the year 1902 have been re-stated to conform to the above procedure, and also to meet the changed conditions due to including in the earnings and expenses of 1903 the following lines: Ohio River Railroad; West Virginia Short Line; Pittsburgh & Western Lines (P. & W., P. C. & T. and P. P. & F.) and the Pittsburgh Junction Railroad, which in the report for 1902 were not so included, but were embraced in the statement of the Operating Results of Affiliated Lines; therefore, in all instances where the figures for 1902 quoted in any of the statements or tables in this report differ from the figures appearing in the Annual Report of 1902, such differences are due to the above causes.

#### THE BALTIMORE & OHIO RAILROAD.

The General Income Account of the Company for the year shows the net income, after paying interest on the funded debt, taxes and all other fixed charges, to have been \$13,-818,163 42. Against this there were charged dividends of 4 per cent on the preferred and 2 per cent on the common stock (the dividend on the common stock of 2 per cent paid March 2, 1903, having been charged against the surplus as of June 30, 1902), together with \$3,500,000 for extraordinary expenditures in the way of additions and improvements made during the year, and certain miscellaneous improvements and expenses for topographical and right of way surveys and maps, which were not properly chargeable to the Expenses of Operation or Capital Account, leaving a net surplus for the year of \$5,432,922 22 to be carried to the credit of Profit and Loss Account.

of Profit and Loss Account. The discrepancy between the figures quoted for 1902 and those appearing in the Annual Report of that year is owing to the re-statement of the Income Account for 1902, for the purposes of just comparison as explained previously.

No extensive improvements have been undertaken at your cust Point terminals for many years, owing to the diffi-lty in continuing the operation while re-arranging the ilities. An opportunity having offered for substanially preasing your water front, a considerable amount of land s purchased during the past year, and the erection of a mmodious export and import pier was begun. This pier Il be 850 feet long and 160 feet in width, with a second ry to provide for the storage of flour and the handling of e large immigrant business at that point. About 60 per at of the work is completed. The provision of this pier Il permit your terminal facilities to be remodeled upon a nprehensive plan, the work upon which can be extended er a series of years.

to secure the more economical operation of your Belt Line ilroad at Baltimore, where electric power is used, a new rage battery house has been completed, the method of eration has been changed from the overhead trolley to the rd-rail system, and two additional motors of largely in-ased capacity for use on this line will shortly be deliv-

The extensive improvements on your Baltimore Division, ween Relay and Brunswick, referred to in the report of t year, have been completed, except the tunnels at Union m and llchester, where the work has been unusually diffit, but it is now expected will be finished by January 1st ĸt.

The construction work undertaken on the Cherry Run & tomac Valley Railroad line between Cherry Run and Wils, W. Va., is approaching completion, and considerable ht of way has been purchased looking to the extension of s line from Wilsons to Harper's Ferry, W. Va. By this e a grade of 15.8 feet eastbound is secured, obviating the cessity for the pusher engines now employed on the pres-line; and a westbound grade of 26.4 feet is also substi-ed for the present grade, which is virtually 52.8 feet.

Work is now in progress on the Marriottsville and Paw w tunnels, and when completed, the Doe Gulley tunnel Il be the only on the Main Line remaining to be remodeled meet the demands of the largest cars in use on the Trunk es. Plans for the improvement of this tunnel are under sideration in connection with the improvement of the de and alignment at that point.

The second track work on your Connellsville Division, rered to in the report of last year, is completed except at lian Creek, where difficulties have been encountered in construction of masonry work, due to the constant high ter in the Casselman River.

The Quemahoning Branch Railroad was completed and ned for operation on August 8, 1902.

The third and fourth track work between Connellsville Broadford has been completed, and work on the third fourth track work between McKeesport and Wheeling nction is being rapidly advanced. The second track on your New Castle Division between

w Castle Junction, Pa., and Struthers, O., a distance of 2 miles, is approaching completion. The work of revis-3 and improving the line between Hazelton, O., and Cuy-oga Falls, O., is well under way. This work, which comses the reconstruction as a double-track line of the Trum-ll & Mahoning Railroad between Hazelton and Niles, O., istance of 8.52 miles, and the construction of an improved able track line between Niles and Cuyahoga Falls, a dis-tice of 41.5 miles, is progressing favorably. Through this provement the present grades between these points of 6 west-bound and 26.4 east-bound will be reduced to 15.8 t in both directions, while the maximum curvature will reduced from 12 degrees to 4, the central angle lowered 2 degrees and the distance shortened about five miles.

he work of revising the grade and the construction of ond track, between Chicago Junction and Nova, a dis-

the of 23.5 miles, is approaching completion. At Bellaire a high level approach to the present Ohio over Bridge is being constructed to effect a direct connecn between your line and the Cleveland Lorain & Wheel-Railway at that point. When this work and that under-ten on the latter road between Bellaire and Holloway rd is completed, through freight train runs will be ablished between Fairmont and Holloway, thus greatly ilitating the handling of your business between the acou ilitating the handling of your business between the coal ds of West Virginia and the Lakes, Chicago and other stern points.

he work on the Medina Cut-off, on the Cleveland Lorain Vheeling Railway, is approaching completion, and exsive improvements have been undertaken south of Hollo-, consisting of the construction of 27 miles of second ck, the reduction of west-bound grades from 58.14 to 26.4 , lowering the central angle 1063 degrees, and saving 2 es in distance.

he extensive yard-work undertaken at the five terminal nts, Keyser, Fairmont, Connellsville, New Castle and loway, is approaching completion, and should effect a ked improvement in the handling of your traffic. In connection with these yards, large modern round houses have been erected, thoroughly equipped with machinery and facilities for coaling and caring for engines. Extensive improvements of a similar character have been commenced

at Glenwood on your Pittsburgh Division. At your Mount Clare Shops, further additions have been made to the buildings and machinery, and much new mach-inery has also be en installed in your other shops.

The work of strengthening bridges to bring them up to the demands of modern loading has been continued during the year

Considerable work has been done under a comprehensive plan to improve the water supply for locomotive use, by the construction of storage reservoirs, and the securing of water of a better quality from new sources of supplies.

New stations were erected during the year at Monrovia, Md., Confluence, Pa., Bruce, Pa., Thomas, Pa., Gypsy, W. Va., New Martinsville, W. Va., New Matamoras, W. Va., Vaughn, O., Olney. Ashland and Lebanou, Ill.

An arrangement was effected with the Pennsylvania Co. whereby their single track line between Massillon and Warwick, a distance of 12.4 miles, was combined with the single track line of your company between those points, the right of way of the two companies adjourning. The operation of the double track line thus established is under the charge of your company. No bills are to be exchanged between the companies because of capital charges, the expense of operation and maintenance being borne according to use, determined by the number of cars passing over the same.

This, in conjunction with a similar arrangement for the use of the single track line of the Cleveland Lorain & Wheeling Railway, in connection with your track between Warwick and Sterling, 11.6 miles, provides your interests with double track facilities between Warwick and Sterling, a distance of 24 miles, without any additional capital investment.

There were 578.15 miles of track ballasted; 56,359 70 tons of new steel rail laid, of 100 and 85 pounds to the yard; and 1,291,394 new crossties used in renewals and construction.

In order to meet the increased demands of industrial establishments on your lines, and to provide facilities for the movement of traffic, 81.22 miles of sidings were built, and several small branches have been built for the purpose of developing local traffic.

There were added during the year to your system:

36.37 miles of main track.

58.63 miles of second track.

3.71 miles of third track.

3.11 miles of fourth track.

### WASHINGTON TERMINAL,

The Washington Branch Railroad originally entered the District of Columbia under an Act of Congress which gave it an easement over certain streets and Government property to reach its station grounds. This Act provided for the occupancy of these streets until 1910, but by an Act passed December 3, 1900, the company was required to vacate the streets and Government property in 1905. As the period for vacation drew near, negotiations were had with the proper authorities for an extension of time, which resulted in the passage of the Act of Congress of February 12, 1901. Under this Act, considerable real estate was purchased, and the work of erecting new terminals was about being put under contract when a request was made by the District author-ities that your Company and the Pennsylvania Railroad Company, through its Philadelphia Baltimore & Washington Railroad Company, should re-consider the entire question of passenger terminals at Washington passenger terminals at Washington, with a view of making provision for a union station. The negotiations resulting therefrom culminated in the Act of Congress of Februa y 28, 1903, entitled: "An Act to provide for a union railroad station in the District of Columbia, and for other purposes.

Pursuant to the provisions and requirements of this Act of Congress, new union passenger terminals within the City of Washington are being constructed by the Washington Terminal Company, a corporation organized under said Act of Congress in the joint interests of the Baltimore & Ohio Rail-road Company and the Philadelphia Baltimore & Washington Railroad Company. The Washington Branch Railroad Company is constructing

a connection between its tracks near Montello and the tracks of the Terminal Company at Florida Avenue, and has secured new facilities for its anthracite coal traffic on Square 711. A new coach yard and other facilities for passenger traffic will be located adjacent to the new Washington Branch tracks, between Montello and Florida Avenue, to be con-structed by the Washington Branch alone, or jointly with the Philadelphia Baltimore & Washington Railroad Company. The new terminals and facilities for freight traffic, other than those for anthracite coal, are being constructed in connection with the Metropolitan Branch, to which they lie adjacent. All the facilities will be open to the traffic of either branch on such terms of compensation between them as the President and Directors may hereafter determine from time to 'ime to be just and equitable. The work of construction will extend over three years.

The contracts have not all been let, but the following are approximate figures of the cost, and the portions to be borne by the companies respectively:

Estimated cost of Terminal Station......\$7,800,000 00 Other expenditures estimated for com-pletion of elevated connection to Wash-ington Branch RR., Metr politan Br'ch and connection with Phila. Baltimore & Washington RR., together with coach yard, roundhouse, freight facilities, &c. 6,500,000 00

Deduct appropriation under Act of Congress for eliminating grade crossings, etc..... 3,000,000 00

\$11,300,000 00

- \$14,300,000 00

Chargeable to:

- \$11,300,000 00 Expenditures to June 30, 1903, on account of the above, amounting to \$1,757,058 36 have been made and charged as follows:

- \$1,757,058 36

### CHICAGO TERMINALS.

The temporary arrangement made on July 1, 1897, under which terminal facilities were leased at Chicago, was canceled by your company, and a new contract negotiated with the Chicago Terminal Transfer Railroad Company, which became effective April 1, 1903, under which your lines secure a permanent entrance into Chicago and increased terminal facilities at that point.

This Fund was established December 31, 1901, and the Assets of June 30, 1903, are valued at \$433,439 40, an increase of \$142,641 91 as compared with previous year.
As above stated, large additions have been made to your	Excellent results are expected from the operations of this fund in the way of increased protection to the Company's

power and rolling stock during the year, and your Board has authorized, for delivery during the coming year the purchase of additional locomotives and passenger equipment.

It will be noted that during the year a large number of cars have been put out of service. At the time of the Reor-ganization of the Company, in 1898, the equipment cont-ined many old and small capacity cars and locomotives. It was revalued as of June 30, 1899, by a special committee ap-pointed for the purpose. In determining the valuation, consideration was given to age, condition and service adaptability, and the old and light capacity equipment then standing on the books was written down to nominal values.

As it will take some time to complete the replacing of this low-value equipment, the effect of which is to reduce the normal credit to Capital Account and the charge to operations, the Management have deemed it wise, in order that the current years shall bear a proper proportion of the depreciation of equipment, to charge Operations for depreciation during the ensuing year, \$600,000.

### MARINE EQUIPMENT.

The amount at debit June 30, 1902, representing the value of Marine Equipment as shown on General Balance Sheet (page 18) of Seventy-sixth Annual Report. was....

hisıy's interests at minimum cost.

The contributions made to the Fund during the year have been charged to Operating Expenses.

RELIEF DEPARTMENT.

The report of the Relief Department for the twelve months ended June 30, 1903, will be printed for distribution to the members. The operations of the Department, covering the Relief, Savings and Pension Features are shown in the statement found on pages 38-40 of pamphlet report. The Pension Feature is entirely maintained by contributions from the Company and not by contributions of its employees.

Salaries and wages in all departments of the service were increased during the year to accord with the conditions prevailing throughout the territory served by your property. In making these increases not only were wages adjusted to agree with similar practice on adjacent roads, but adjustments were also made looking to a proper compensation hav-ing regard to the responsibilities of the position occupied and service performed.

The President and Directors take great pleasure in acknowledging the faithful and efficient services of the officers and employees during the past year.

By order of the Board,

L. F. LOREE, Fresident.

BALTIMORE, August 17, 1903.

### LOUISIANA & ARKANSAS RAILWAY COMPANY.

SECOND ANNUAL REPORT-FOR THE FISCAL YEAR ENDED JUNE 30, 1903.

### TEXARKANA, ARK., November 6, 1903.

To the Stockholders and Bondholders of the Louisiana & Arkansas Railwoy Company:

The Louisiana & Arkansas Railway at the beginning of the fiscal year 1903 extended from Stamps, Ark., on the St. Louis Southwestern Railway to Winnfield, La., a distance of 125.3 miles. Within the year the railroad was carried north-ward from Stamps to Hope, Ark., 22.47 miles, making 147.77 miles in operation at the close of the year June 30, and an extension in a southeasterly direction from Winnfield to Jena, La., 38.8 miles, was undertaken. The line from Stamps to Hope was completed and opened for business on June 1. 1903. The chief object in building to Hope was to establish connections with the St. Louis Iron Mountain & Southern Division of the Missouri Pacific Railway System and with the Rock Island-Frisco System. The extension gives your road increased competition for the profitable traffic that it controls for delivery to other companies, and the value of this additional mileage is demonstrated already. The St. Louis San Francisco & New Orleans Division of the Rock Island Frisco System should be completed into Hope by December 1, 1903, at the latest. In addition to giving to the Louisiana & Arkansas Railway these valuable connections, the extension has opened a valuable farming country, which should yield considerable traffic. Hope, the northern t-rminus of the railroad, is a town of about 4,000 inhabitants, and is the centre of a large farming country. It has many industries, among them a large cotton seed oil mill, a cotton compress, a planing mill, a handle factory, a hub and spoke factory, a foundry, a flour mill, a brick yard, etc. The alignment of the Hope extension is excellent, the

The alignment of the Hope extension is excellent, the maximum curve being two degrees and the maximum grade is one per cent. The right of way throughout is 100 feet. At Hope a good site was obtained for a yard, which has been laid out. The company probably will unite with the St.

Louis Iron Mountain & Southern Railway and with the Rock Island-Frisco System in building a joint passenger station. Independent connections with both of these systems have been made for the transfer of freight.

tems have been made for the transfer of freight. The southeasterly extension of the railroad from Winnfield to Jena, La., via Georgetown, is now well under way, and according to contract should be finished by January 1, 1904. From Winnfield to Georgetown the distance is 21.6 miles; from Georgetown to Jena, 17.2 miles. The grading is 90 per cent completed and the rails are being laid rapidly. This extension traverses a region heavily timbered with a virgin growth of long leaf pine. Most of this timber is owned by the same persons that own the railway. No special difficulties have been encountered in the construction. The only steel bridge required on this extension will be one of 150 feet span, over Little River, near Georgetown. At Winnfield 210 acres of land have been bought for terminal and yard purposes and at Georgetown 60 acres.

Much work has been done during the past year in improving the physical condition of the property, and the road should be practically unaffected by weather conditions the coming winter. The betterments, which are set forth in more detail below, have included among other things the ballasting of a considerable mileage with cement gravel found on the main line near Stamps, and the laying of heavier rails on the northern end of the line. When this work is finished the road will have 75-pound steel rails from Hope, Ark., to Sibley, La. (84 miles), and 60-pound steel rails south of Sibley. It may be mentioned that the 75pound rails are the heaviest used by even the larger railroads in the Southwest.

The country served by your road is experiencing much greater prosperity than it has previously known. In the last eighteen months many of the towns have doubled their population, and yet the greatest need of the region is immigration. Lumbering is the chief industry to-day and probably will remain so for the next twenty-five or thirty years. But as the land is cleared of timber, farming increases, and with it the output of cotton and its various manufactures.

At Winnfield, La., an oil well is being drilled, with favor-able indications. Whether oil will be obtained in paying quantities must remain a question till the well is completed. The State Geologist of Lousiana reports the formation to be the same as at Beanmont, Tex. Already the drill has reached small amounts of oil in crevices in the rock. Should oil be obtained it will mean much to the railroad, for the country is of similar formation for forty miles, or as far north as Alberta.

#### CAPITAL STOCK.

The authorized capital stock of the Company is \$7,000,000, of which \$2,250,000 was outstanding on June 30, 1903, and \$2,625,000 is now outstanding.

#### FUNDED DEBT.

The Company's First Mortgage authorizes the issue of \$7,00,000 of five per cent twenty-five year gold bonds, as follows, limited, however, to an average of \$20,000 per mile of completed railroad:

Section 2-For general purposes of the company and for satisfying its obligations Section 3 - For the purchase, construction or acquisition of extensions, branch lines and extensions thereof. Section 4-For the purchase and acquisition of additional rolling stock and to provide for improvements and beta \$1,500,000 4,000,000

rolling stock and to provide for improvements and betterments. Section 5-For the construction or acquisition of a bridge across the Black River and a bridge across the Red River. 1 000,000 500,000

Total......\$7,000,000 Including \$864.000 of bonds held in the Treasury on July 1, 1902, the \$1,500,000 of bonds authorized under Section 2 had been issued at the beginning of the fiscal year. Within the year the bonds in the Treasury were sold and the proceeds were expended for construction purposes; and additional bonds, amounting to \$408,000, were issued under Section 3, at the rate of \$18,157 per mile of new railroad, on account of the extension from Stamps to Hope, 22.47 miles, and bonds amounting to \$208,000 were issued under Section 4 for new rolling stock and improvements chargeable to cap-ital. The total amount of bonds thus issued in 1903 was \$616,000 and the total outstanding at the close of the fiscal year was \$3,116,000.

Since July 1, 1903, bonds to the additional amount of \$333,000 have been issued under Sections 3 and 4 of the mortgage, making the present aggregate issue \$2,449,000, or the equivalent of \$16,600 per mile of completed road.

#### IMPROVEMENTS AND ADDITIONS.

The actual expenditures for betterments and additions charged to capital accounts in the fiscal year 1903 amounted to \$189,954. During the year three important revisions of location were undertaken, one at Stamps, one at Spring Hill and one at Minden. The first two have been completed and the track is being laid on the third. The object of these betterments was to shorten the line and to reduce the grad-s and curves. All told, the improvements in alignment and grades extend over about 101-3 miles of road. The new track has been ballasted and laid with 75-pound rails. In addition to this, about 28 miles of road between Stamps and Sibley have been relaid with 75-pound rails. Upon the completion of the work now in hand a total of 65 miles will have been ballasted with cement gravel.

During the year water tanks, each of 35,000 gallons capacity, and with suitable pumps, have been erected at Hope, Taylor and Winnfield. Y's have been built at Hope, Cotton Valley and Winnfield, and sidings at Hope. Coler, Baker and Winnfield. Frame stations sufficient for the requirements of the traffic have been built at Spring Hill, Goldonna and Winn-field, and a new one will be built during the current year at Minden. Other new buildings include a frame car repair shop and a power house at Stamps. New machinery has been installed in the car repair and machine shops, and the road is now well equipped for making all of its repairs.

Bridges have been maintained during the year in excellent condition. The most important improvement was the renewal of the Dorcheat pile trestle bridge, which is 1,190 feet long.

The Company contracted during the year for eight new 70 ton locomotives. Of these two have been delivered and are doing excellent service. The others are expected in the course of a few months. The company also added to its rolling stock three passenger cars, two combination cars, 97 box cars, 200 flat cars, three cabooses and three boarding cars. The road is now well equipped for all requirements.

### MILEAGE.

	Miles.
In operation June 30, 1903, Hope, Ark., to Winnfield, La	147.77
Under construction, Winnfield, La., to Jena, La.	38.80

### INCOME ACCOUNT.

The income accounts of the fiscal years ended June 30, 1902, and June 30, 1903, respectively, are compared in the ov 1 g statement:

1903. Average miles operated 127 17 Gross carnings	1902. 97 \$478,531 295,574	<i>Increase.</i> 30·17 \$54,003 76,132	Increase Per Ot. 31·10 11·29 25·76
Net earnings	\$182,957	*\$22,129 17,842	*12.10
Total net income\$178,670 Interest	\$182,957 33,001	*\$4,287 37,026	*2·34 112·20
Surplus\$103,643	\$149,956	*\$41,313	*27:55

On the present funded debt of the Company, \$2,449,000, the annual interest charge of 5 per cent is \$122,450. This sum is equivalent to 68.53 per cent of the net income appli-cable to interest in the fiscal year 1903. The annual interest charge on the funded debt is equivalent to \$830 per mile of road now in operation, as against net income available for interest amounting to \$1,405 per mile operated in 1903 and \$1,645 per mile as the average of the last two years.

The Company's earnings have shown continuous gains for several years and reflect the prosperity and the uninterrupted development of the region. Comparing 1903 with 1902, the earnings of the passenger department increased about 41 per cent, those of the freight department about 9 per cent, and total earnings more than 11 per cent. The proportion of other freight than forest products to the total tonnage was somewhat greater than the previous year. Of the in-crease of \$54,003 in gross earnings, \$37,172 was derived from freight, \$15,778 from the passenger department and \$1,053 from miscellaneous sources. About 30 per cent of the total revenue is drawn from the passenger department and from other freight than forest products.

Freight earnings averaged 1.83 cents per ton per mile, or the same as in 1902, and passenger earnings averaged 2.85 cents per passenger per mile, as compared with 3.10 cents

the year before. The following comparative figures will be found of interest in this connection:

### PASSENGER TRAFFIC

### OPERATING EXPENSES.

In addition to the improvements charged to capital accounts, as mentioned above, the existi g property was duly maintained out of its earnings through charges to operating expenses. The amount expended for maintenance of way and structures, including reserve funds charged to operating expenses and set aside for renewals of rails and ties, was equivalent to \$921 per average mile of road operated, as against \$1,017 per mile in 1902.

All freight cars, except skeleton logging cars, are provided with automatic couplers and air brakes, and all of the equip-ment is in good condition. The amounts charged to operating expenses for repairs and renewals of rolling stock aver-aged per locomotive \$820 in 1902 and \$1,039 in 1903; per passenger train car \$349 in 1902 and \$474 in 1903, and per

freight and work car \$31 in 1902 and \$26 in 1903. The increase in cost of conducting transportation from 25.62 per cent of gross earnings in 1902 to 29.18 per cent in 1903 was due to several causes, among them the maintenance of adequate train service on the new mileage, higher wages and the operation of the per diem system of settlement for the use of borrowed freight cars. Of the increase in gross earnings 60 per cent was absorbed by increased cost of conducting transportation.

#### REPLACEMENT RESERVE FUNDS.

Proper amounts are set aside monthly out of income as reserve funds for the maintenance of ties, rails and equipment. Renewals when necessary are then made out of these funds. During the fiscal year 1903 the tie reserve fund was increased \$10,305, the rail reserve fund \$9,379 and the equipment reserve fund \$19,257.

#### TRANSPORTATION RESULTS.

Both in the passenger and in the freight service the work of the transportation department shows progress.

With an increase of 8.80 per cent in the number of tons of revenue freight carried one mile, the revenue freight train mileage increased 5.37 per cent and the average train-load of revenue freight increased 3.14 per cent. In 1902 the average revenue freight train-load was 159 tons; in 1903, 164 'ons. Including company freight, the train-load of 1903 was 174 tons, as against 161 tons the year before. Freight earn-ings per freight train mile averaged \$2.99, as compared with \$2.91 in 1902, an increase of 3.06 per cent.

Passenger train earnings per passenger train mile averaged 76 cents in 1903, as compared with 57 cents the previ-ous year, a gain of 34 per cent. The average number of passengers per train increased within the year from 16 to 23. The gain in the number of passengers carried one mile was 56 per cent.

In the Company's train statistics the mileage of mixed trains is added to freight and passenger train mileage, three-fourths to the former and one-fourth to the latter. No helping engines are employed. The following tables show comparative results:

### FREIGHT SERVICE.

### ATLANTIC COAST LINE RAILROAD COMPANY.

### SIXTY-NINTH ANNUAL REPORT-FOR THE YEAR ENDING JUNE 30TH, 1903.

### RICHMOND, VA., November 17th, 1903.

### To the Stockholders of Atlan!ic Coast Line Railroad Company:

The Atlantic Coast Line Railroad Company, a corporation having a Virginia charter, and also corporate powers under the laws of the several States in which it owns lines of railway, went into possession, on the 1st day of July, 1902, of the property acquired by consolidation with the Savannah Florida & Western Railway Company. At the same time it went into possession of the St. Johns & Lake Eustis Rail-road, which it had acquired by purchase from the Company of that name, and also of the Sanford & Lake Eustis Railroad and of the Florida Midland Railroad, which it acquired by purchase from the owner of the same.

The stocks of The Florida Sonthern Railroad Company and of the Sanford & St. Petersburg Railroad Company were ac-quired by this Company and the properties of said Companies were conveyed to it. While such consolidation only became effective April 1st, 1903, the accounts representing the earn-ings and operating expenses of The Florida Southern Rail-road Company and Sanford & St. Petersburg Railroad Company, from July 1st, 1902, to March 31st, 1903, were taken up on the books of this company, so that the statements in-corporated in this report include the three Companies, and the operations of 4,138.87 miles of railroad. The Florida Southern Railroad Company owned and op-

erated at the time of the consolidation about two hundred and forty-three miles of road, consisting of the line of railway extending from Palatka, Fla., to Gainesville, Fla., and to Fitzgerald, Fla., and Brooksville, Fla., and the line from Bar-tow, Fla., to Punta Gorda, Fla., at all of which points, except the last named, said lines of railway had connection with those of the Atlantic Coast Line Railroad Company. The Sanford & St. Petersburg Railroad Company at the time of the consolidation owned and operated the line ex-tending from Sanford, Fla., to St. Petersburg, Fla., a dist-ance of about 153 miles, and connecting with the Atlantic Coast Line at Sanford and Trilby. At the time The Florida Southern Railroad Company was consolidated with the Atlantic Coast Line Railroad Company, erated at the time of the consolidation about two hundred

consolidated with the Atlantic Coast Line Railroad Company, the former had under construction a line from Punta Gorda to Fort Myers, a distance of about twenty-eight miles, which it is expected will be completed and in operation early in the year 1904.

A line from a point in Decatur County, Ga., near Climax, on the railway between Climax, Ga., and Chattahoochee, Fla., was partially constructed in the fiscal year covered by this report, and is now in operation to Amsterdam, Ga., a distance of 10.5 miles.

The Company has not now under construction any other lines.

### MILEAGE.

The railways of the Atlantic Cost Line join those of the Louisville & Nashville Railway Company at Chattahoochee Junction, Fla., and Montgomery, Ala. The two Companies are the joint lessees of the Georgia Railroad; for years they have interchanged business with each other on a large scale have interchanged business with each other on a large scale, and have been operated as connecting lines and allies. Under these circumstances it was deemed of first importance by the stockholders and directors of the Atlantic Coast Line Railroad Company that such interchange of business should be per-manently secured, and it was considered that this could be accomplished in no other way as completely as by the acquisition by this Company of a majority of the stock of the Louisville & Nashville Railroad Company. The stockholders of this Company, by a vote representing ninety-one per cent of all the stock then outstanding, and being all the shares represented at the meeting on November 17th, 1902, ap-proved the purchase of 306,000 shares out of a total of 600,-000 shares of the stock of the Louisville & Nashville Railroad Company. These shares have been pledged as collateral for an issue of \$35,000,000 of bonds made by this Company, bearing date November 1st, 1902, payable October 1st, 1952, and carrying interest at the rate of four per cent per annum from October 1st, 1902, payable the 1st days of May and November. These bonds, together with \$5,000,000 in the stock of this Company, and \$10,000,000 in cash, were paid as the consideration for the 306,000 shares of Louisville & Nashville stock. Surplus profits of the company have since been applied to the cost of this stock, by which its book value has been reduced to \$45,554,220 58.

The mileage of the Louisville & Nashville Railroad Company owned and operated, or leased and controlled solely or jointly with other lines, on June 30th, 1903, aggregated 6,133.15. Its net earnings from operations and income, after paying all taxes, leases and fixed charges, were 6,211,047 74, from which was paid to stockholders in two semi-annual dividends of two and one-half per cent each in August and February, \$3,000,000, leaving a net surplus of \$3,211,047 74, all of which, however, was invested by the Board of Directors in additions to its equipment and property.

Earnings from operation increased 11.58 per cent. Operating expenses and taxes increased 8.22 per cent. Not income from operations increased 18.13 per cent.

In "Other Income" is included the six months dividend of two and one-half per cent on the Louisville & Nashville Rail road Company stock owned by this Company which was paid in February, 1903, while "Interest and Rentals" include nine months' interest to June 30th, 1903, on the entire issue of \$35,000,000 of bonds secured by the Louisville & Nashville stock as collateral.

The ratio of operating expenses and taxes to gross earnings from operations was 64.08 per cent.

### CAPITAL ACCOUNT.

The common stock of the Company outstanding on July 1st, 1902, amounted to \$23,150,000. Fifty thousand shares were issued in part payment for 306,000 shares of Louisville & Nashville stock and eighty-five thousand shares were sold at \$125 per share to provide the cash payment made on the same account, so that the outstanding common stock of the Company amounted at the close of the fiscal year to \$36,650,000.

On July 1st, 1902, the Company had outstanding \$18,850, 000 of 5 per cent non-cumulative preferred stock, of which \$17,105,900 were, by June 30th, 1903, converted into 4-percent Certificates of Indebtedness of the company at the rate of 100 per cent of stock for 125 per cent of Certificates; there were outstanding on the 30th of June, 1903, \$1,744,100 of preferred stock.

There were outstanding on the 30th of June, 1903:

 7% Certificates of Indebtedness of the Wilmington & Weldon Railroad.
 \$17,100

 4% Certificates of Indebtedness of the Atlantic Coast Line Railroad Company (of the issue of 1900).
 \$22,400

 New 4% Certificates of Indebtedness of the Atlantic Coast Line Railroad Co. (amount authorized \$25,000,000).
 \$21,382,300

Mention was made in the annual report of the Company to the stockholders for the year ended June 30th, 1902, of the consolidated mortgage of the Company to secure an issue of bonds not to exceed \$30,000,000. The amount of bonds secured by this mortgage outstanding on June 30th, 1903, was \$34,809,000.

Steps were taken in this fiscal year for paying, on January 1st, 1904, \$1,500,000 St. Johns River Division Bonds of the Savannah Florida & Western Railway Company, under the right reserved in the mortgage securing said bonds. When said bonds have been paid, the consolidated mortgage will have a first lien on 124 additional miles of railway, which will make it a first lien on about 713 miles. The entire bonded debt having a lien on the railways

owned by the Company amounted, on June 80th, 1903, to \$72,569,275, or \$18,146 per mile of railway owned by the Company, and the fixed charges resulting from such bonded debt amounted to \$3,059,227 63 per annum, or \$765 per mile of railway owned by the Company.

The Company has no floating debt, and has no equipment trust obligations outstanding except the amount of \$136,-666 65 which it became liable to pay by reason of consolidations with other companies, and which amount is being paid at the rate of \$40,000 per year.

### MAINTENANCE OF WAY AND STRUCTURES.

The charge to this account during the year amounted to \$2,995,369 50, an increase of \$271,126 95, or 9.95 per cent over the preceding year.

Six thousand and twenty-seven and five one-hundredths tons of new steel rail (70 and 80 los. to the yard) were laid, making 50.823 miles of track laid.

One million five hundred and sixteen thousand nine hundred and six cross-ties were used in renewal.

One hundred and five thousand nine hundred and one cubic yards of gravel ballast were placed in the track.

Fifty-nine and one-third miles of new side tracks and spurs were constructed and fifteen miles were taken up, making a net increase during the year of forty-four and one-third miles.

**INCOME ACCOUNT FO** 

The charge to repairs and renewal of buildings and fixtures amounted to \$438,291, an increase of \$89,880, or 25.8 per cent, over the preceding year.

#### MAINTENANCE OF EQUIPMENT.

The charge to this account was \$2,153,309 60, a decrease of \$6,189 98, or 29-100 of one per cent, as against the preced ing year.

Sixteen new locomotives were added at a cost of \$203,858, of which nine replaced the same number of old locomotives sold and seven were charged to New Equipment. The Company owned 451 locomotives at the end of the year. All the locomotives and passenger coaches of the Company are equipped with automatic couplers and air-brakes.

One thousand two hundred and fourteen new freight cars were purchased or built at the Company's shops during the year at a cost of \$6\$3.384 18, of which 291 took the place of the same number of freight cars destroyed, and 923 were charged to New Equipment. Freight train equipment at the close of the year consisted of 13,931 standard-gauge cars and 41 narrow-gauge cars. All freight cars of the Company are equipped with automatic couplers, and 82.9 per cent of them are equipped with air-brakes.

The passenger train equipment at the close of the year consisted of 496 standard-gauge cars and 6 narrow-gauge cars.

Road service equipment consisted of 399 cars.

#### CONDUCTING TRANSPORTATION.

The charge for Conducting Transportation amounted to \$6,194,359 07, an increase of \$577,313 09, or 10.28 per cent over the preceding year. The principal causes of increase were rise in the price of fuel, increased wages of employees and large increase in tonnage handled.

The amount charged to this account was \$567,298 42, an increase of \$71,964 50, or 14.53 per cent, caused principally

by increase in amount of insurance carried and in rate of premiums paid, and by expenses incident to the issue of four per cent First Consolidated Mortgage Bonds.

The Company acknowledges the faithful and efficient services performed by its employees during the fiscal year covered by this report. fully anhanitt  $\mathbf{R}$

### ST. LOUIS IRON MOUNTAIN & SOUTHERN RAILWAY COMPANY.

APPLICATION TO THE NEW YORK STOCK EXCHANGE TO LIST THE RIVER & GULF DIVISIONS FIRST MORTGAGE FOUR PER CENT 30-YEAR BONDS.

### NEW YORK, October 31, 1903.

St. Louis Iron Mountain & Southern Railway Company respectfully applies to have the following-described bonds, issued by it, placed on the regular list of the New York Stock Exchange, viz.: \$12.242,000 of its River & Gulf Divisions First Mortgage Four Per Cent Thirty-Year Gold Bonds, numbered from 1 to 12,242, inclusive.

These bonds are issued under and secured by a divisional First Mortgage dated May 1, 1903, excuted by a divisional First Mortgage dated May 1, 1903, executed by St. Louis Iron Mountain & Southern Railway Company to the Mer-cantile Trust Company of New York and William K. Bixby of St. Louis, Mo., as Trustees. The bonds are dated May 1, 1903, and mature May 1, 1933, and the principal and interest of the bonds are payable in the City of New York in gold coin of the United States of the present standard of weight and fineness. The bonds bear interest from May 1, 1903, at the rate of Four Per Cent per annum, payable on May 1 and November 1: both principal and interest of the bonds are payable without deduction for any tax or taxes which the company may be required to pay or retain therefrom under or by reason of any present or future law of the United States, or of any State, County or Municipality thereof. The bonds are in coupon form, with power of registration as to principal, and may be converted into full Registered Bonds without coupons, of the denomination of \$1,000 and such multiples thereof as the Board of Directors or Executive Committee of the Ry. Co. may from time to time prescribe Registered Bonds are exchangeable in turn for Coupon Bonds.

The Mortgage securing these bonds covers as a first and paramount lien thereon the lines of railroad of the Railway paramount lien thereon the lines of railroad of the Railway Company constructed and to be constructed, extending from a point at or near St. Louis, Mo.; thence by ferry to East St. Louis, Ill., and thence along the east side of the Mississippi River to the bridge of the Southern Illinois & Missouri Bridge Company at Thebes, Ill., and from a point of connection with said bridge at Grays Point, Mo., along the west side of the Mississippi River to a point of connec-tion with the line of railroad of the Texas & Pacific Railway Company at or near Clayton, Concordia Parish, La.; also from a point at or near West Memphis, Ark., to a point of Company at or hear Glayton, Concordia Parish, La.; also from a point at or near West Memphis, Ark., to a point of connection with the line of railroad of the Missouri Pacific Railway Company at or near Carthage, Mo., a total mileage of about 677 miles, of which 330.08 miles are now constructed and in operation; also all lines of railroad, extensions, branches, equipment, property, rights and franchises con-nected therewith, and all other property, real and personal, which may be constructed or acquired by the use of the which may be constructed or acquired by the use of the bonds issued thereunder or the proceeds thereof,

The Mortgage also covers the following-described obligations, which have been deposited with the Mercantile Trust Company, one of the Trustees of the Mortgage, and are all of said obligations issued and outstanding, viz.:

of said obligations issued and outstanding, viz.: \$148,000, par value, of the First Mortgage Bonds of the Union Rail-way Company, a corporation of the State of Tennessee and owning certain terminals, terminal facilities and railroads at or near Memphis in said State, out of an authorized issue of \$1,000,000 bonds; and pro-vision is made in the River & Gulf Divisions Mortgage for acquisition of the remaining authorized bonds. \$1,000,000, par value, of the First Mortgage Five Per Cent Gold Bonds of the Western Coal & Mining Company, a corporation of the State of Missouri, which owns and operates certain coal lands in Missouri, Arkansas, Kansas and Illnols; said bonds being all of the au-thorized bonds secured by a Mortgage dated April 28, 1903, to Edwin G. Merriam, as Trustee, which mortgage covers as a first lien about \$,000 acres of coal lands in the State of Illinois adjoining the line of railroad formerly belonging to St. Louis Valley Railway Company and now belonging to St. Louis Iron Mountain & Southern Railway Co., and subject to the lien of the River & Gulf Divisions First Mortgage. There are no liens upon property of company other than above stated. The total authorized issue of St. Louis Iron Mountain &

The total authorized issue of St. Louis Iron Mountain &

Southern Railway Company River & Gulf Divisions First Mortgage 4 Per Cent Thirty-Year Gold Bonds is \$50,000,000. All properties acquired by St. Louis Iron Mountain & Southern Railway Company and subject to the River & Gulf Divisions First Mortgage are free from lien except as herein stated.

Provision is made for the immediate issue of \$7,200,000, par value, of said bonds as applicable to the acquisition, and representing the value of all the railroad, property and tranonises formerly belonging to the St. Louis Valley Railway, including a line of railroad extending from East St. Louis to Thebes, with a branch line from Fordyce Station to a point near the north boundary line of Williamson County, all in the State of Illinois, a total distance of about 145 miles; also 7.2 miles of additional railroad in the County of St. Clair, in said State; a ferry line across the Mississippi River at or near East St. Louis, and ferry, terminal and yard facili-ties at or near the city of St. Louis, Mo., and the cities of East St. Louis and Thebes, Ill.

Bonds in the aggregate principal amount of \$1,000,000 are reserved to be certified from time to time for the acqusition of an equivalent amount of the First Mortgage Bonds of the Union Railway Company, a corporation of the State of Ten-nessee, and owning terminals, terminal facilities and rail-roads at or near Memphis in said State, and connected with the railroad subject to said River & Gulf Divisions First Mortgage.

\$148,000, par value, of this reservation of bonds are immediately issuable as applicable to the bonds of said Union Railway Company, deposited with the Mercantile Trust Company at the time of the execution of the Mortgage

\$15,700,000, par value, of said bonds are reserved to pro-vide for the actual cost of the acquisition and the comple-tion and extension of the lines of railroad formerly belonging to the White River Railway Company, the Memphis Helena & Louisiana Railway Company and the Memphis Helena & Louisiana Railroad Company, and may be certified at a rate not exceeding in the aggregate \$30,000, par value, for each completed mile of main line of said railroad.

\$2,175,000, par value, of said bonds are reserved to provide for the actual cost of double-tracking the line of railroad extending from East St. Louis to Thebes and formerly owned by the St. Louis Valley Railway, and may be certified at a rate not exceeding in the aggregate \$15,000, par value, for each mile of said double track.

\$2,500,000, par value, of said bonds are reserved to provide for the actual cost of additional terminal and ferry properties, facilities and equipment at St. Louis, East St. Louis and Thebes.

\$4,500,000, par value, of said bonds are reserved to provide for the actual cost of the construction or acquisition of second track, shops, depots, terminal properties, rolling stock and other additional property for use upon or in con-nection with the lines of railroad, branches, extensions or terminals of the Railroad Company subject to said Mortgage.

\$5,675,000, par value, of said bonds are reserved to provide for the actual cost of the acquisition of lines of railroad connecting the lines of railroad formerly owned by the St. Louis Valley Railway, the Memphis Helena & Louisiana Railway Company and the White River Railway Company, and said bonds may be certified at a rate not exceeding in the aggregate \$30,000 for each mile of said connecting lines of railroad constructed or acquired.

The remainder of said bonds, viz.: \$11,250,000 par value are reserved under careful restrictions to provide for the actual cost of lines of railroad constituting extensions or branches connecting with the railroad of the Railway Company subject to the lien of said Mortgage, and said bonds may be issued at a rate not exceeding in the aggregate \$30,000, par value, for each completed mile of main line of railroad, and not exceeding in the aggregate \$15,000, par value, for each completed mile of branch line railroad so constructed or acquired.

\$7,200,000, par value, of said bonds have been issued and delivered to the Railway Company as applicable to the acquisition and representing the value of the lines of rail-road, ferry and terminal property formerly belonging to the St. Louis Valley Railway. and hereinbefore specifically described.

\$148,000, par value, of said bonds have been issued and delivered for an equivalent amount of the First Mortgage Bonds of the Union Railway Company, hereinbefore described, which bonds have been deposited with the Mercantile Trust Company, subject to the terms and conditions of said River & Gulf Divisions First Mortgage, as part of the security for the honds issued thereunder.

\$3,089,251, par value, of said bonds, being a part of the reservation of \$15,700,000, have been issued and delivered to the Railway Company upon the terms and conditions con-tained in said mortgage, to provide actual reimbursement for expenditures made in the acquisition of portions of the lines of railroad mentioned in Section 3 of Article II of said River & Gulf Divisions Mortgage, and subject to the lien thereof, and aggregating 132.06 miles of constructed main line of the railroads mentioned in said section. \$1,208,937 60, par value, additional of said bonds, being a

part of the same reservation, have been so issued and delivered to the Railway Company in reimbursement of expendi-tures actually made in the construction by the Railway Company of extensions of the lines of railroad last above described, aggregating 45.82 miles of main line of such extensions.

\$489,142 86, par value, of said bonds, being a part of the reservation of \$4,500,000, have been issued and delivered in reimbursement of expenditures actually made in the acquisition of additional railway equipment for use upon the lines of railroad subject to said Mortgage, which equipment has been marked with the words "River and Gulf Divisions First Mortgage Equipment," as provided in Section 6 of Article Second of the Mortgage.

\$106,857 14, par value, of said bonds, being a part of the reservation of \$2,500,000, have been issued and delivered to the Railway Company in reimbursement of expenditures actually made in the acquisition of additional ferry facilities and equipment for use in connection with the lines of railroad subject to said Mortgage, at or near St. Louis and East St. Louis.

From the foregoing it appears that the amount of River and Gulf Divisions First Mortgage Bonds issued and outstanding at the date of this application and the purposes for which said bonds have been issued are as follows:

..\$12,242,000 00 188 60 Applied as follows

\$12,242,188 60

All of the bonds covered by the present application have been sold and disposed of by the Railway Company. Mercantile Trust Co. is Registrar of Transfers of said bonds.

The Mortgage has been duly recorded and there is handed you herewith a copy thereof, together with a Certificate of The Mercantile Trust Company certifying the said copy is correct, and that there are attached to the original counterparts of the Mortgage Certificates of Record showing the recording thereof.

T. Eckert, W. H. Thompson, C. G. Warner, Russell Harding.
There is also handed you herewith certified copies of
resolutions adopted by the Board of Directors and by the
Stockholders of the St. Louis Iron Mountain & Southern
Bailway Company anthorizing and approving the issue of Railway Company, authorizing and approving the issue of the River & Gulf Divisions First Mortgage Four Per Cent Thirty-Year Gold Bonds and the execution of the Mortgage securing the same.

There is also handed you with this a specimen of the River & Gulf Divisions First Mortgage Four Per Cent Thirty-Year Gold Bonds and a Certificate of The Mercantile Trust Company, as Trustee, acknowledging the acceptance of the trust and giving the numbers and amount of bonds certified

in accordance with the Mortgage; also Opinion of Counsel. Application is now made that the River & Gulf Divisions First Mortgage Bonds of this Company, in the aggregate principal sum of \$12,242,000, bearing numbers 1 to 12,242, inclusive, may be admitted to the regular list of the Exchange. Respectfully,

ST. LOUIS IRON MOUNTAIN & SOUTHERN RY. CO. By A. H. CALEF, Secretary.

The Committee recommends that the above described \$12,242,000 River & Gulf Divisions First Mortgage Four Per Cent Thirty-Year Bonds of 1933, for \$1,000 each, Nos. 1 to 12,242 inclusive, be admitted to the list. W. H. GRANBERY, Ohairman.

Adopted by the Governing Committee, Nov. 11, 1903. WM. MCCLURE, Secretary.

### The Commercial Times.

#### COMMERCIAL EPITOME.

FRIDAY NIGHT, Nov. 20, 1908. Climatic conditions over a considerable area of the country have been more seasonable; this, coupled with active preparations on the part of the retail trade for the coming holiday season, has been reflected in a fairly full distributing business, jobbers and dealers generally reporting a fairly satisfactory condition of trade. Business from first hands, however, has shown no material improvement, the spirit of conservatism still being the dominating influence. Another factor that has served to hold more liberal buying in check has been a general disposition shown to close the current calendar year with comparatively light stocks of merchandise on hand, due to the reactionary tendency of prices in many lines. The Cuban Reciprocity Treaty has been passed by the House of Representatives and now awaits the action of the Senate.

Lard on the spot has had only a very moderate sale, the buying by both jobbers and exporters being limited to small lines only; but as there has been no especial pressure to move supplies, prices have held to a steady basis, closing steady at 7'40c. for prime Western and 6'75@7c. for prime City. Re fined lard has been quiet, closing dull at 7.60c. for refined for the Continent. Speculation in lard for future delivery has been moderately active and prices have weakened slightly under full receipts of swine. The close was quiet.

lay del'y		6.62	6.65	6.6219	6.7219	6.70	
D 1 1 1			00 3				

Pork has been more freely offered and prices have declined, closing at \$13 00@13 25 for mess, \$13 25@15 00 for short clear and \$16 50@17 00 for family. Cut meats have been in light supply, with buyers operating on a strictly hand-to-mouth basis, closing at 5½@5¾c. for pickled shoulders, 10½@11½c. for pickled hams and 91/4@101/2c. for pickled bellies, 14@10 lbs. average. Beef has been quiet but steady at \$8 75@9 00 for mess, \$9 50@10 25 for packet, \$10 00@10 50 for family and \$16 00@17 50 for extra India mess in tcs. Tallow has held steady at 41/2c. Stearines have been quiet at 8c. for lard stearine and 6½c. for oleo stearine. Cotton-seed oil has been fairly active, closing steady at 33½@34c. for prime yellow. Butter has advanced for best grades, closing at 16@28c. for creamery. Cheese has been in moderate demand and steady, closing at 9@11<sup>3</sup>/<sub>4</sub>c. for State factory, full cream. Fresh eggs have advanced, closing at 83c. for best Western.

Brazil grades of coffee have been quiet so far as the trade demand has been concerned, complaint being general of a dull demand from the consuming trade. Speculative buying, however, has sustained the market, and the close was steady at 6½ c. for Rio No. 7. West India growths have been in moderate demand and firm at 8½ o. for good Cucuta. Specu-lation in the market, has been fairly active lation in the market for contracts has been fairly active. There has been fair buying, which has absorbed the offerings and held prices to a steady basis. The close was steady. Following are the closing asked prices:

Raw sugars have been dull but the close was steady at 3<sup>3</sup>4c. for centrifugals, 96-deg. test, and 3<sup>1</sup>4c. for muscovado. Refined sugar has been quiet and refiners are shading the list price of 4'70c. for granulated 5 points. Teas have been fairly active and firm.

Kentucky tobacco has held steady. New business has been quiet, but there have been fair deliveries on old pur-Business in the market for seed leaf tobacco has chases been quiet, but negotiations are reported under way on fairsized lines; prices have held steady. Fore tobacco have been in fair demand and steady. Foreign grades of

Straits tin has received increased attention from buyers, and prices have advanced in response to stronger foreign advices, closing firm at 25'40@25'60c. Ingot copper has been neglected and prices at the close were quoted nominally at 13c. for Lake and 12 871/c. for electrolytic. Lead has de-clined, closing quiet at 4 25c. Spelter closed easy at 5.621/2c. Pig-iron has been in moderate demand and steady at \$15@16 for No. 1 Northern.

Refined petroleum has been firmer, closing at 9.50c. in bbls., 12.20c. in cases and 6.60c. in bulk. Naphtha has been unchanged at 12'40c. Credit balances have advanced, clos-ing at \$1 82. Spirits turpentine has been quiet and slightly easier, closing at 59½@60c. Rosins have been easier, closing quiet at \$2 65 for common and good strained. Wool has been firm but quiet. Hops have been quiet but steady.

### COTTON.

FRIDAY NIGHT, November 20, 1903. THE MOVEMENT OF THE CBOP as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 429,063 bales, against 449,297 bales last week and 412,566 bales the previous week, making the total receipts since the 1st of Sept., 1903, 8,269,507 bales, against 8,286.978 bales for the same period of 1903, showing an increase since Sept. 1, 1903 of 32,529 bales.

Speculation in cotton for future delivery has been active. The tone of the market has been unsettled, the fluctuations in prices being frequent and violent, but for the week no decided net change has occurred in values. Early in the week there was a sharp decline, prices on Monday showing a loss of 24 to 32 points. The movement of the crop continued heavy, the Southern spot markets were slightly easier, and it was understood that the buying of actual cotton by exporters had fallen off to very moderate proportions. European advices also were reported easier. This array of bearish developments prompted active selling by speculative holders to realize profits and bear interests also became more aggressive. Tuesday the market again turned firmer, recovering about one-half of the decline. Bull interests were again aggressive, based on their confidence in the small-crop ideas. With the upturn to prices shorts became buyere to cover contracts, and this added to the firmness of the market. On Wednesday there was free selling by outside longs to take profits, induced by the continued heavy crop movement, and prices again declined. Thursday there was a slight advance in prices based on the cold weather reports from the Southwest. To day the market was active. The opening was at west. 10-day the market was active. The opening was at a decline, reflecting weaker foreign advices. Subsequently, however, bull interests became free buyers, it being under-stood that they were accumulating a large line of cotton in anticipation of a bullish estimate of the crop to be issued by the Agricultural Bureau on Thursday, Dec. 3. The amount of cotton in sight, while showing a large gain over the corresponding week last year, did not come up to expectations, and this, too, operated in favor of the market. During the late trading profit-taking sales was again a feature and prices reacted, closing easy at a net loss for the day of 7@10 points. Cotton on the spot has declined slightly, closing at 11.30c. for middling uplands.

On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the grades would be as follows:

	1 0 - +	1				1

WEATHER REPORTS BY TELEGRAPH.—Reports to us this evening by telegraph from the South indicate that on the whole the weather has continued very favorable for outdoor work during the week, but toward the close temperature has been lower with killing frost quite general. The gathering of the crop has made excellent progress and cotton has been marketed freely.

Galveston, Texas.—The freezing weather of the last few days has damaged late cotton in the northern portion of the State. We have had no rain during the week. Average thermometer 56, highest 78, low $\epsilon$ st 34.

Palestine, Texas.—The week's rainfall has been inappreciable. The thermometer has averaged 53, the highest being 84 and the lowest 22.

San Antonio, Texas.—We have had a trace of rain on one day of the week. The thermometer has averaged 60, ranging from 82 to 88.

Abilene, Texas.—Dry all the week. Average thermometer 51, highest 84, lowest 18.

Corpus Christi, Texas.—There has been rain on one day of the week, the precipitation being inappreciable. The thermometer has ranged from 38 to 84, averaging 61.

Shreveport, Louisiana.—There has been no rain during the week. The thermometer has averaged 52, ranging from 20 to 83.

New Orleans, Louisiana.—Rain has fallen on one day during the week ten hundredths of an inch. The thermometer has averaged 61.

Columbus, Mississippi.—There has been no rain the past week. The thermometer has ranged from 20 to 70, averaging 45.

Leland, Mississippi.-It has been dry all the week. Average thermometer 53.7, highest 80, lowest 15.

Vicksburg, Mississippi. — We have had only a trace of rain the past week. The thermometer has averaged 55, the highest being 81 and the lowest 22.

Little Rock, Arkansas.—Picking is making good progress. There has been rain on one day of the week, the precipitation being three hundredths of an inch. The thermometer has averaged 43, ranging from 20 to 76.

Helena, Arkansas.—The freeze finished cotton; but few bolls will open. About all picked. There has been rain on one day of the week, to the extent of seven hundredths of an inch. The thermometer has ranged from 17 to 79, averaging 48.

Nashville, Tennessee.—Picking is almost completed and marketing is free. It has 'rained during the week, to the extent of one inch and thirty two hundredths. The thermometer has averaged 54, the highest being 70 and the lowest 18.

Memphis, Tennessee.—Picking continues active and is nearing completion in many places. It has rained on one day of the week, the rainfall reaching one hundredth of an inch. Average thermometer 48.4, highest 77.8, lowest 20.

Selma, Alabama.-We have had no rain. Average thermometer 45, highest 68, lowest 22. Montgomery, Alabama.—Killing frost this week. Rain has fallen on two days the past week, the rainfall being thirtythree hundredths of an inch. The thermometer has ranged from 23 to 80, averaging 58.

Mobile, Alabama.—The weather has been clear in the interior during the week, with freezing weather the latter part. Cotton picking makes good progress and is nearing completion. There has been rain on one day of the week, the precipitation reaching twenty-seven hundredths of an inch. The thermometer has averaged 62, ranging from 26 to 78.

Madison, Florida.—There has been no rain the past week. The thermometer has averaged 65, the highest being 92 and the lowest 42.

Savannah, Georgia.—We have had only a trace of rain during the week. The thermometer has ranged from 33 to 81, averaging 64.

Stateburg, South Carolina.—Only scrappings of cotton now to be seen in best fields. Several killing frosts. Ice Thursday morning. It has rained on two days of the week, to the extent of twenty one hundredths of an inch. Average thermometer 61, highest 79, lowest 24.

Greenwood, South Carolina.—We have had rain on one day of the past week, the precipitation being ten hundredths of an inch. The thermometer has averaged 56.

Charleston, South Carolina.—Rain has fallen on five days of the week, to the extent of forty-three hundredths of an inch. Average thermometer 62, highest 79, lowest 31. Charlotte, North Carolina.—Picking is almost finished in

Charlotte, North Carolina.—Picking is almost finished in this section. It has rained during the week, the precipitation reaching thirty-eight hundredths of an inch. The thermometer has ranged from 21 to 72, averaging 48.

The following statement we have also received by telegraph, showing the height of the rivers at the points named, at 3 o'clock Nov. 19, 1903, and Nov. 20, 1903.

EUROPEAN COTTON CONSUMPTION TO NOV. 1.-By cable to-day we have Mr, Ellison's cotton figures brought down to November 1. We give also revised totals for last year that comparison may be made. The spinners' takings in actual bales and pounds have been as follows:

Oci. 1 to Nov. 1.	Great Britain.	Oontinent.	Total.
For 1903. Takings by spinnersbales	192,000	302,000	494,000
Average weight of balee.lbs		480	486-2
Takings in pounds	95,232,000	144,960,000	240,192,000
For 1902.			
Takings by spinnersbales	265,000	397,000	662,000
Average weight of bales.lbs	484	479	481.2
Takings in pounds	128,260,000	190,263,000	318,523,000

According to the above, the average weight of the deliverie: in Great Britain is 496 pounds per bale this season, against 484 pounds during the same time last season. The Continental deliveries average 480 pounds, against 479 pounds last year, and for the whole of Europe the deliveries average 486.2 pounds per bale, against 481.2 pounds last season. Our dispatch also gives the full movement for this year and last year in bales of 500 pounds.

Oct. 1 to Nov. 1.		1903.		1902.

Weekly Consumption. 000s omitted. In October	*50	100	150	85	99	164	

JU, ο**υ,** μ \*The average weekly rate of consumption in Great Britain is as given by Mr. Ellison, after allowing for stoppage of spindles in consequence of short supply of cotton.

The foregoing shows that the weekly consumption is now 150,000 bales of 500 pounds each, against 164,000 bales of like weights at the corresponding time last year. The total spinners' stocks in Great Britain and on the Continent have decreased 121,000 bales during the month and are now 22,000 bales more than at the same date last season.

COTTON FROM PORTO RICO, -The steamer Caracas, of the Red D Line, brought to this port last week from San Juan, Porto Rico, seven bales of cotton consigned to Messrs. Geo. H. Mc-Fadden & Bro. The cotton was raised from Sea Island seed, and, judged by the sample we have seen, is of strong fibre, fully two-inch staple, and possesses excellent spinning qualities. Further arrivals are expected in the near future; in fact the consignees state that they anticipate receiving something over 3,000 bales this season. The bales weigh about 400 pounds each,

MEMPHIS COTTON CROP ESTIMATE. - Under date of Novem. ber 14, 137 members of the Memphis Cotton Exchange submitted their estimates of the crop of 1903-04, the highest being 10,900,000, the lowest 9,475,000 and the average 10,258,316 bales.

SHIPPING NEWS,-As shown on a previous page, the exports of cotton from the United States the past week have reached 331,779 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

- Total bales. NEW YORK-To Liverpool, per steamers Armenian, 2,199 up-land and 287 Sea Island....Celtic. 320 upland and 50 Sea Island ..... 2,856

### BREADSTUFFS.

FRIDAY, Nov. 19, 1903. Prices for wheat flour have shown an advancing tendency, especially for springs, mills advancing their limits 10c. to 20c. per barrel from prices recently ruling. Business has been fairly active, sales of moderate-sized lines being reported. At the extreme prices asked, however, no trading of import. ance has been transacted. City mills have been in moderate demand and firmer. Rye flour has had a fair sale at steady prices. Buckwheat flour has been in fairly active demand

and steady. Corn meal has been steady. Speculation in wheat for future delivery has been fairly active and prices have advanced, the improvement being most pronounced for the near-by deliveries. Available supplies of contract grades have been light, and nervous shorts have been fair buyers to cover their outstanding contracts. Early in the week there was a temporary decline in prices, due to bearish statistical developments. Russian exports for the week to the European importing markets were unusually large, exceeding 6,000,000 bushels, and the principal re-ceiving markets in the West report substantial gains in Advices also were received from stocks on hand, Argentina, stating that it was estimated that the ex-port surplus from that country from the crop about to be harvested will be 112,000,000 bushels, or about double the quantity exported from last season's crop. Subsequently, however, following the lead of the interior mar kets, prices turned stronger, and advanced. The movement of spring wheat showed a considerable falling off, and it was stated that country offerings were small, indicating a continued lighter crop movement. The demand from millers for cash wheat was reported brisk, and this, too, had its influence in favor of the market. It was pointed out that while the export movement of wheat as compared with last year has been slow, the exports of flour have shown very little decrease from last season. The spot market has been firm. The business transacted with exporters here and at outports has been limited. To day the market was fairly active and higher on shorts covering and reports of decreasing country offerings. The spot market was firmer but quiet. DAILY CLOBING PRICES OF NO. 2 RED WINTER

134 14-3 74-4 7434 Indian corn futures have been moderately active. Early in the week there was a downward drift to values. Liquidation by speculative holders, prompted by reports of an unsatisfactory trade demand, was the principal depressing factor. Subsequently, however, the market turned firmer and the decline in prices was recovered. The advices re-ceived from the interior reported comparatively small country offerings and a decreasing movement of the crop. The weather in the West was reported decidedly colder, and this, too, it was thought, would adversely influence the crop movement. Shorts became buyers to cover contracts and their purchases advanced prices. The apot market has been quiet; prices have followed futures. To-day shorts bought

The tone of the Liverpool market for spots and futures freely, particularly in the near by deliveries to cover contracts, and prices advanced. The spot market was firmer, but quiet.

Exports of Grain and Flour from Pacific Ports.-The exports of grain and flour from Pacific ports for the week ending Nov. 19, as received by telegraph, have been as follows: From San Francisco, Nov. —, to the United Kingdom, 277,520 bushels of barley, and Nov. 19, to Japan, 13,000 bbls. of flour.

Combining these figures with those for previous weeks, we have the following, which covers the exports to foreign countries for the period since July 1, 1903, comparison being made with the corresponding period of 1902.

Axports from— 8an Fran. Puget 8'd. Portland	Flour, bbls. 426,256 554.000 327,700	Wheat, bush. 927,667 543,800 999,000	Oorn, bush. 7,398 7,400	Oats, bush.	Barley, bush. ,445,520 130,000 194,000	Rye bush. 363 344

### THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., Nov. 20, 1903.

The reduction in wages at Fall River will not be followed by any interruption to manufacturing, the operatives having agreed to accept it. It will therefore have no effect upon the market for cotton goods. The latter has not shown any new factor at work this week. There is a fair demand coming forward quietly, chiefly for ready supplies, but with business doing for future delivery equal in extent to what has been noted for two weeks preceding. Sellers are not easy to deal with, and are gradually working prices up to a higher level. The movement is an irregular one and is being fought by buyers; but outside influences and inside conditions are proving too strong for a successful resistance. Cotton maintains its high level, production of cotton goods is still below normal, stocks in first hands are well under control, and are not being added to to any noticeable extent. Cotton goods of the staple order are even at the highest limits yet reached below parity with the cost of production based on current cotton quotations, and sellers are cautious in committing themselves ahead. A number of inquiries after heavy brown cottons are noted coming from China, and although little business has been done, the impression is created that China is nearing the point where buying on a fair scale will be indulged in. Jobbing and ret-il distribution is quiet, but with the colder weather now prevailing, an improvement is looked for.

WOOLEN GOODS.—The chief feature in this division has been an auction sale of overcoatings and cloakings, mostly Kerseys, with the latter selling at low prices. The overcoatings market continues inactive and decidedly unsatisfactory, the regular demand being slow and prices weak. Business in men's-wear woolen and worsted tronserings and suitings has again been on quite a moderate scale, and below the usual average for this time of the year. Clothiers are complaining of business having been adversely affected by mild weather checking the distribution of heavy-weight garments and causing buyers to order cautionsly of light-weights for next

spring. Staple woolens are generally steady in price, as are most medium-priced fancies, but worsteds are fully as irregular as before. Business in woolen and worsted dress goods has been on a moderate scale for both quick delivery and for spring trade. There is no pressure to sell and prices are generally sterdy. Flannels and blankets are quietly firm.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending Nov. 16 were 1,308 packages. Volued at \$94,284, their destination being to the points spice ied in the tables below:

NEW YORK TO NOV. 16.		1903	1902.

Gener Constitutes sees sure san.		0,110	210	12,000	
Total	1,808	277,374	5,690	253,025	

The value of these New York exports since Jan, 1 to date has been \$12.677,763 in 1903, against \$11,702,429 in 1902.

Occasional transactions of fair extent are reported in brown cottons on home-trade account and sellers have secured in some instances an advance of  $\frac{1}{6}$ c. per yard. Stocks are light in all weights, and the market is practically bare of 3 yard sheetings and drills. Bleached cottons show an unmistakable upward tendenoy and several tickets have been put at value. The demand is not active, but stocks are limited and buying quite sufficient to take care of current output. A well-cleaned-up market is noted in wide sheetings, sheets and pillow cases, and numerous buyers are complaining of sellers being backward in making deliveries on existing orders. Canton flannels and blankets are quiet but firm. Business in ducks and brown osnaburgs is moderate at full prices. There is more inquiry for denims, plaids and other coarse colored cottons in a firm market, and sellers are careful in booking forward orders. The demand for printed fabrics has been of about average extent. Staple calicoes are very firm in price, and advances in some lines are being looked for in the near future. Fancy calicoes are dull and without special feature. The demand for ginghams continues in excess of ready supplies, and the market is strong. Sellers are declining bids of  $3\frac{1}{4}$ c. for regular print cloths and no business is reported in these. Odd goods are very firm, with moderate sales.

FOREIGN DRY GOODS.—A quiet market is reported in imported drees goods, with the best demand for fine-grade fabrics. Silks are in quiet demand but the tone is steadier. Ribbons are dull and irregular. Linens quiet but firm. Burlaps in better demand and advancing in price.

# STATE AND CITY DEPARTMENT.

### Index.

An index to all the news matter appearing in this Department for the period from July 4, 1908, to Sept. 26, 1903, inclusive, was published in the CHRONICLE of Oct. 8, 1903, pages 854, 855 and 856.

### News Items.

Texas.—Condition of State Funds.—We have had a number of inquiries lately with reference to the condition of the various permanent funds of the State of Texas, and in particular the State School Fund. We have accordingly had our correspondent obtain the figures and we present them below.

As far as the *investments* of the school fund are concerned, we have been giving the aggregate of the same in our STATE AND CITY SUPPLEMENT for a long time past. The total of such investments on Aug. 31, 1903, was \$11,532,102 05, just as given in the October 10th issue of the SUPPLEMENT on page 1176. The details of the investments are as follows:

FO	
State bonds, 48	\$229,500 00
State bonds, 58.	297,000 00

Bond Proposals and Negotiations this week have been as follows:

Adams County (P. O. Corning), Iowa.—Bond Offering.— Proposals will be received until 10 A. M., December 7, by Pierce Metz, County Auditor, for the \$30,000 bridge bonds mentioned in V. 77, p. 1314, and which were authorized at the election held Nov. 3, 1903, the vote being 1,464 in favor of and 1,083 against the issue. Denomination, \$1,000. Date, Dec. 1, 1908. Interest, not to exceed 57, payable semi annually at any bank in Chicago or New York designated by the purchasers. Bonds payable in 20 years, with option to take up \$1,000 or multiple thereof at any interest date after five years. Successful bidder must furnish blank bonds. Total taxable value in county, \$3,556,164. Bonded debt, including this issue, \$30,000.

this issue, \$30,000. Akron, Ohio.—Bond Sale.—We are advised that the \$35,-800 refunding bonds described in V. 77, p. 988, have been awarded to Denison, Prior & Co. as 4 per cents. The \$6,500 Rose Avenue assessment bonds mentioned on page 988, V. 77, have not been issued, owing to some complication between the property owners and the city.

tween the property owners and the city. Allegheny County (P. O. Pittsburgh), Pa.—Bond Sale.— On November 18 the \$550,000 4% road bonds described in V. 77, p. 1886, were awarded to N. W. Harris & Co., New York City, at 108.617 and interest. Following are the bids:

Allentown, Pa.—Bonds Voted.—The election November is said to have resulted in favor of issuing \$125,000 waterimprovement bonds.

**Appanoose County (P. O. Centerville), Iowa.**—Bonds Defeated.—This county has defeated a proposition to issue \$20,000 additional court-house bonds.

Augusta, Ga.—Bond Offering.—Proposals will be received until 12 M., Dec. 1, by the City Conncil for \$106,000 4% 30year refunding bonds. Denomination, \$1,000. Date, Jap. 1, 1904. Interest, semi-annual. Certified check for \$1,000, payable to Wm. A. Latimer, Chairman Finance Committee, required. Jacob Phinizy is Mayor of the city.

The official notice of this offering will be found among the advertisements elsewhere in this Department.

Ballston Spa, N. Y.—Bond Election.—An election will be held in this village November 25, when the question of issuing \$12,000 sewer bonds will be submitted to the voters.

Barberton, Ohio.—Bonds Not Sold.—All bids received November 16 for the \$15,000 5% fire-department and the \$60,000 5% water-works bonds, described in V. 77, p. 1554, were rejected.

Bardstown, Ky.—Bonds Voted.—This city on November 3 voted bonds for water-works purposes. No steps have yet been taken as to the issuance of these bonds. H. R. Cox, Assistant Cashier of the People's Bank of Bardstown, is also City Treasurer.

Bay County, Mich.—Bond Election.—The County Board of Supervisors has decided to submit the question of issuing \$150,000 court house bonds to a vote of the people at the spring election.

Bellaire, Ohio.—Bonds Defeated.—The question of issuing \$90,000 water-improvement bonds failed to carry at the election held November 3. The proposition received a majority

of the votes cast, but not the necessary two-thirds vote. It is stated that the proposition will again be submitted to the people.

Belle Fourche, S. Dak.-Bond Offering.-The City Auditor is fiering at private sale the \$7,000 gold-funding bonds tor is a ffering at private sale the \$7,000 gold-funding bonds offered but not sold on November 2. Denomination, \$500 or any sum not less than \$100, at option of purchaser. Date, Dec. 1, 1903. Interest, not exceeding 5%, payable semi-an-nually in Belle Fourche. Maturity, Dec. 1, 1913. Authority, vote of 24 to 0 at election held Sept. 24, 1903. Bonded debt, including this issue, \$7,000. Assessed valuation 1903, as equalized, \$269,475. Estimated real value, \$1,000,000. Bellevue (Ky.) School District.—Bonds Voted.—This dis-trict has voted to issue \$40,000 10-20-year (optional) school-building bonds. Interest will probably be 4%. Belzoni. Washington County. Miss.—Bond Offering.—

Belzoni, Washington County, Miss.-Bond Offering.-Proposals will be received until 7 P M., Dec. 1, by S. Castleman, Mayor, for \$20,000 6% 1-20 year (serial) water works and electric-light bonds. Certified check for \$500 required.

Bensalem, Pa.-Bonds Voted.-Road-improvement bonds to the amount of \$75,000 are said to have been voted at the recent election.

Benson, Swift County, Minn.—Bond Sale.—On November 9 the \$16,000 5% funding and the \$8,500 5% refunding bonds described in V. 77, p. 1251, were awarded to Stoddard, Nye & Co. of Minneapolis at 100'50. Bids were also received from G W. Williams and from S. A. Kean of Chicago.

Bloomfield, N. J.-Bonds Defeated.-By a vote of 136 for to 1,021 against, this town on November 10 defeated the propo-sition to issue \$150,000 bonds to purchase the water plant of the Orange Water Co.

Bloomington (III.) School District.-Bond Sale.-It is stated that the \$30,000 4% school bonds mentioned in the CHRONICLE October 17 have been sold to N. W. Harris & Co. of Chicago.

Britton, S. Dak.—Bond Offering.—Proposals will be re-oeived until 8 P M., November 24, by W. M. Jahing, Town Clerk, for \$4,500 5% refunding bonds. Denominations, \$500 and \$1,000. Date, Dec. 1, 1903. Interest, annual. Maturity, 20 years, subject to call after 15 years. Deposit of 5% required with bids.

Caddo Parish (P. O. Shreveport), La.-Bond Sale.-We are advised that the \$80,000 4% jail and the \$20,000 4% refunding bonds offered but not sold on July 23 were awarded on November 2 at par and interest to partles not named. Bonds are dated July 1, 1903.

Cambridge, Ohio.-Bond Sale.-The \$16,000 41/2% 20 year water extension bonds offered on Nov. 9 were awarded to S. Kuhn & Sons, Cincinnati, at 102.75. Following are the bids:

S. Kuhn & Sons, Cincinnati \$16,440 00	A. Klevbolte & Co., Cincin816,176 00
W. R. Todd & Co., Cincin,*16,441 00	Weil, Roth & Co., Cincinnati, 16,16500
N. W Harris & Co., Chicago, 16,342 00	Union Sav. & Tr Co., Cin 16,110 00
R. Kleybolte & Co., Cincin, 16,332 20 [	Feder, Holzman & Co., Cin., 16,040 50
Prov. Sav. & Trust Co., Cin., 16,265 60	Lamprecht Bros. Co., Cleve., 16,023 00
P. S. Briggs & Co., Cincinnati, 16.242 00	F. L. Fuller & Co., Cleveland, 16,021 00
S. A. Kean, Chicago 16,192 00 [	Denison, Prior & Co., Cleve-
Seasongood & Mayer, Cin 16,179 00	land and Boston 16,011 00

\* A condition attached to this bid cansed its rejection.

See V. 77, p. 1315, for description of bonds.

Camden, N. J.-Bonds Proposed.-The Board of Education on Nov. 16 passed a resolution asking the City Council to provide for the issuance of \$35,000 bonds for the erection of two new school-houses and for the purpose of making necessary repairs on existing school buildings.

Canton School District, Lincoin County, S. Dak,-Bond Sale .- We are just advised that the \$7,000 5% 5-15-year (optional) refunding bonds offered on Sept. 15 were awarded on Sept. 25 to John Nuveen & Co., Chicago, at 101.028, accrued interest and blank bonds free of charge. We give the sale as a matter of record.

Cascade County (P. O. Great Falls), Mont.-Bond Offer ing.-Proposals will be received until 10 A. M., December 15. by Fred. L. Hill, County Clerk, for \$10,000 41/2% 10-20-year (optional) coupon bonds. Securities are issued under authority of Article 3, Chapter 2, Title 2, Part 4, Political Code of Montana. They are in denomination of \$1,000. Interest will be payable Jan. 1 and July 1 at the office of the County Treasurer. A New York draft or a check certified by a Great Falls bank, payable to the County Treasurer, for \$500, must accompany proposals.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

Castile, N. Y.-Bonds Defeated.-The election held Nov. 12 to vote on the question of issuing \$40,000 bonds to pur-chase the plant of the Castile Water-Works Co. resulted in 117 votes being cast in favor of and 121 against the proposition.

Cedar Rapids. Iowa. -Bond Sale. - We are advised that an additional \$16,000 of the \$100,000 6% sewer bonds mentioned in V. 76, p. 878, and V. 77, p. 48 and 659, have been sold, making \$54,000 of the issue sold to date. The rest of the issue will be put out as the work progresses.

Chantauqua County School District No. 13 (P. O. Sedan), Kan.-Bond Sale -This district has sold an issue of \$1,200 5% school house bonds to the State School Fund Commissioners at par. Denominations, four for \$250 and one for \$200.

Date, July 1, 1903. Interest, annual. Maturity. July 1, 191<sub>co</sub> Chicago (III.) Sanitary District.—Bid Rejected.—The only bid received November 18 for the \$1,500,000 4% bonds de-

scribed in V. 77, p. 1554, was that of the Illinois Trust & Savings Bank of Chicago at par and interest. This bid, it is stated, was rejected.

Cleburne, Tex.—Bonds Defeated.—This place voted against the issuance of bonds at the election held Nov. 10. The vote was 81 for to 217 against.

Cleveland, Ohio.-Bonds Defeated.-The various bond issues voted upon at the recent general election were all defeated.

Cloquet, Minn.-Bond Offering.-Proposals will be re-ceived until 3 P. M., November 28, by J. F. Ryan, Village Recorder, for \$50,000 5% gold coupon water-works bonds. De-nominations, \$500 and \$1,000. Interest April 1 and October 1 at the American Exchange National Bank, New York City. Maturity, \$2,000 Sept. 1, 1906, \$2,500 on Sept. 1, 1907, and \$3,500 yearly on September 1 from 1908 to 1920, inclusive. Certified check or certificate of deposit on a national bank, payable to the village of Cloquet without condition, in an amount equal to 1% of the face value of the bonds bid for, required.

Columbus, Ohio.—Bonds Authorized.—The City Council on October 26 passed ordinances providing for the issuance of the following assessment bonds:

\$2,500 4% Garfield Avenue improvement bonds of \$500 each.
 4,000 4% Tenth Avenue improvement bonds of \$500 each.

Bonds are to be dated not later than Jan. 1, 1904. Interest, March 1 and September 1 at the office of the City Treasurer.

Maturity. March 1, 1915, subject to call after March 1, 1905. Bond Bids. — The following bids were received on November 18 for the two issues of 4% main-trunk-sewer bonds, aggregating \$140.000, described in V. 77, p. 1761: W. J. Hayes & Sons of Cleveland offered par, accrued interest and \$11 premium for the \$90,000 issue, and par, accrued interest and \$6 premium for the \$50,000 issue; Dr. Andrew Timber-man offered par and accrued interest for \$10,000 of bonds, and George W. Sinks offered the same for \$20,000 of the bonds. There were five other bidders, all asking commis-sions which reduced their offers below par.

Corluth, Miss.-Bond Offering.-The Mayor and Board of Aldermen will offer at public sale at the Mayor's office on December 7 \$55,000 5% water-works and sewerage bonds. Date, Jan. 1, 1904. Interest annually. Maturity, Jan. 1, 1924.

Dalhart (Tex.) Independent School District.—Bond Offering.—J. A. Hedrick, Secretary, is offering for sale the \$6,000 4% 10-20 year (optional) school bonds mentioned in the CHRONICLE Nov. 7. Denomination, \$500. Date Aug. 1, 1903. Interest, annually on Aug. 1 at the Hanover National Date Aug. 1, Secretary and at the Hanover National Bank, New York City, and at the First National Bank of Dalhart. Bonds are exempt from taxes. Bonded debt, \$6,-000. Assessed valuation, \$415,000.

Danville, Ky. -Bonds Voted.—The election held Novem-ber 3 resulted in favor of issuing \$20.000 4% 1-20 year (serial) water-works improvement bonds. Full details of this issue have not yet been determined.

Daviess County, Ky.-Bonds Defeated.-The proposition to issue \$250,000 free-turopike and gravel-road bonds failed to carry at the election held November 3.

Dayton, Ohio.-Bonds Authorized.-The City Council on November 2 passed an ordinance providing for the issuance of \$25,000 4% 1-25-year (serial) bridge bonds. Anthority, Sec-tions 2885, 2836, 2837, Revised Statutes of Ohio. Denomination, \$1,000. Date, Nov. 15, 1903. Interest semi-annually in New York City.

Delta County, Colo.—Bonds Voted.—This county has voted to issue \$36,500 refunding bonds. These bonds, we are ad-vised, will probably be issued at a meeting of the Board of County Commissioners to be held the first week in January.

Detroit, Mich.-Bond Issues.-We are advised that the Board of Estimates at a meeting held November 11 reduced the amount of the proposed issue of bonds for a city hall from \$4.0,000—the amount originally proposed—to \$120,000. The board also approved the issuance of \$50,000 Art Museum bonds conditionally upon the property being deeded to the city. The above bonds will carry 31/34 interest and will ma-ture in 30 years. It will probably be two or three months before these bonds will be advertised for sale.

Douglas School District No. 27, Cochise County, Ariz -Bond Offering. - Proposals will be received until 12 M.. November 30, by the Board of School Trustees, E. R. Pirtle. Clerk, for \$20.000 5% 20-year school bonds. Denomination, \$1,000. Certified check for 10% of the amount of bid required.

Dryden, Tompkins County, N. Y.-Bonds Authorized.-This village has voted to issue \$0,000 bonds for the purpose of installing an acetylene street lighting system.

Durand, Mich.-Bonds Defeated.-This village recently voted against the issuance of \$10,000 water and light bonds. Elyria, Ohio.-Bonds Authorized.-The City Council has

anthorized the issuance of \$15,000 Fifth Street, \$6,000 Earl Court and \$5,000 West Second Street paving bonds. Enterprise (P. U. Jackson), Minn.-Bonds Not Sold.-The

\$3,000 4% bridge bonds offered on Oct. 19 have not as yet been sold. The town, we are advised, has made application to the State for a loan of this sum, but up to date the application has not been approved. See V. 77, p. 1251, for description of bonds.

Fairmont, Minn.-Bonds Defeated.-This village recently voted against the issuance of \$16,000 5% water-works and electric-light improvement bonds.

Findiny, Ohio.-Bond Sale.-On November 2 the \$9,000 5% 1-3-year (serial) refunding sewer bonds dated Aug. 1, 1903,

and described in V. 77, p. 989, were awarded to D. T. Davis of Findlay at 100'14.

Fishkill Landing, N. Y.—Bond Sale.—On Nov. 17 the \$40,-000 2 26-year (serial) water bonds, described in V. 77, p. 1886, were awarded to the Mechanics' Savings Bank of Fishkili Landing, at par for 3'99 per cents. Bids based on 4% bonds were also received from N. W. Harris & Co. and from Farson, Leach & Co., of New York City.

Franklin, Ohio.—Bond Offering.—Proposals will be received until 13 M., December 7, by J. J. Gough, Corporation Clerk, for \$5,000 5% 25-year refunding bonds. Authority, village ordinance passed Oct. 15, 1903. Denomination, \$500. Date, Nov. 15, 1908. Interest semi-annually at the First National Bank, Cincinnati. Certified oheck for \$500, made payable to the Village Treasurer, required. Bonds are to be paid for within ten days from date of sale and the purchaser must pay accured interest. Bonded debt, \$68,000; floating debt, \$4,500: assessed valuation, \$1,039,990.

\$4.500; assessed valuation, \$1,039,990.
 Freedom Township (Ohio) School District.—Bonds Defeated.—This district recently voted against the issuance of \$4,000 building bonds.

Gary, S. Dak.—Bonds Not Sold.—The \$6,000 5% 10-15-year (optional) water bonds offered on October 21 have not yet been sold, although negotiations are now pending for their sale. Securities are in denomination of \$200. Interest semiannually at the office of the Town Treasurer.

Glenville, Ohio.—Bonds Authorized.—The Council has passed ordinances, according to local papers, authorizing the issuance of \$10,000 fire-department and \$10,000 police-station bonds.

Gloucester, N. J.—Bonds Authorized.—The City Council has passed an ordinance providing for the issuance of \$59,000 street and sewer improvement bonds.

Gioversville, N. Y.—Bonds Not to be Issued at Present.— We are advised that owing to difficulties in securing rights of way, there is small chance that anything will be done on the proposed trunk sewer and disposal plant this year. The \$250,000 sewage-disposal bonds anthorized by Chapter 193, Laws of 1903, and referred to in V. 76, p. 1155, will not therefore be ready for issuance for some time.

Greenville, Mich.—Bond Sale.—We are advised that the \$15,000 factory-building bonds mentioned in V. 77, p. 1316, have been sold.

Hardyston School District (P. O. Hamburg), N. J.—Bond Sale.— On November 14 this district sold \$8,000 5% schoolbuilding bonds at 104'45. Date of bonds, Nov. 14, 1903. Denomination, \$1,000. Interest, semi-annual. Maturity, \$2,000 yearly from 1904 to 1907, inclusive.

Hawali Territory.—Bond Sale.—The \$1.000.000 4½% 5-15year (optional) public-improvement bonds described in V. 77, p. 1252 were awarded on November 18 to Fisk & Robinson, New York City, at something over par.

Helena, Mont.—Bond Offering.—Edward Horsky, City Clerk, will sell at public auction at 12 M., December 7, \$614,-000 5% water-works bonds. Denomination, \$1,000. Date, Jan. 1, 1904. Interest semi-annally at the office of the City Treasurer or in New York City. Maturity, 20 years, subject to call—\$100,000 after five years, \$100,000 after ten years and \$100,000 after fifteen years. An unconditional certified check for \$2,000, payable to Edward Horsky, City Clerk, must be deposited by bidders at least one hour before the time set for the sale. These bonds were offered for sale on October 29, but no bids being received the sale was continued until December 7.

Hillsborough County (P. O. Tampa), Fla.—Bond Offering. —Proposals will be received until 2 P. M., December 1, by this county. for \$320,000 4% 30-year gold road bonds, dated April 1, 1902. Denomination, \$1,000. Interest, January 1 and July 1 in Tampa. Bonded debt of county, including this issue, \$445,500; floating debt, \$48,000. Assessed valuation 1903. \$8,200,000. These bonds are part of an issue of \$400,000, of which \$50,000 were awarded May 25 and \$30,000 on September 7. They were originally anthorized under Section 4711, Acts of 1899, but were declared void by the Supreme Court of Florida. In 1903 the State Legislature passed two Acta legalizing and validating the bonds, and these legalizing Acts have been held constitutional by the Supreme Court. Messrs. Dillon & Hubbard of New York City have given an opinion in favor of the validity of the bonds to the purchasers of that part of the issue already sold.

Horicon, Wis.—Bond Sale.—The 10,0005 gas-plant bonds voted on Oct. 10, 1903, have been sold to local investors on about a 4s-interest basis.

Ingram (Borough), Allegheny County, Pa.—Bond Offering.—Proposals will be received until 7:30 P. M., November 27, by William C. Wallace, Chairman Finance Committee, for \$30,000 4½4 coupon sewer bonds. Denomination. \$1,000. Date. Dec. 1, 1913. Interest semi-annually at the First National Bank of Crafton. Maturity as follows:

\$1,000 Dec. 1, 1907. 1,000 Dec. 1, 1911. 1,000 Dec. 1, 1914. 1,000 Dec. 1, 1916. 1,000 Dec. 1, 1918. 1,000 Dec. 1, 1920.	\$1,000 Dec. 1, 1921. 1,000 Dec. 1, 1922. 2,000 Dec. 1, 1923. 1,000 Dec. 1, 1923. 2,000 Dec. 1, 1924. 2,000 Dec. 1, 1925.	\$2,000 Dec. 1, 1927. 3,000 Dec. 1, 1923. 3,000 Dec. 1, 1929. 3,000 Dec. 1, 1930. 3,000 Dec. 1, 1931.
1,000 Dec. 1, 1920.	8,000 Dec. 1, 1926.	

Bonds are free from tax. Certified check for \$500, payable to F. E. Miller, Borough Treasurer, required. The above issue will be the only bonded debt of the borough. The assessed valuation is \$1,045,345 and the real value about \$1,500,000.

Jackson County (P. O. Scottsboro), Ala.—Bonds Not Yet Sold—We are advised by the County Treasurer that the \$62,-500 5% 20 30-year (optional) road and bridge bonds offered

but not sold on July 20 and again on September 30 have not as yet been placed. Some of the papers recently reported these bonds as having been sold.

Jasper County (P. O. Rensselaer), Ind.—Bond Offering.— Proposals will be received until 1 P. M., December 10, by R. A. Parkison, County Treasurer, for \$6,500 6% bonds for the construction of Nissius Ditch No. 563. Authority, Acts of 1903, pages 186 to 191, inclusive. Denomination, \$100. Date, Nov. 8, 1908. Interest semi-annually at the Banking House of A. McCoy & Co., Rensselaer. Maturity, \$1,200 yearly on November 3 from 1905 to 1909, inclusive, and \$500 on Nov. 8, 1910. Successful bidder will be required to make a deposit of \$500. The official circular states that there is no litigation pending or threatened affecting this issue, and that the county has never defaulted in payment on any bonds.

Jefferson County (P. O. Beaumont) Texas.—Bonds Registered and Sold.—The State Comptroller on November 14 registered an issue of \$100,000 6% 20-40-year (optional) road bonds of this county bearing date Oct. 10, 1903. These bonds, according to dispatches from Beanmont, have been sold to Floyd Shock of St. Lonis at par and interest.

Kansas City, Mo.—Bond Offering.—Proposals will be received until 2 P. M. Nov. 25, by John R. Ranson, Secretary of the Board of Park Commissioners, for \$102,996 17 7% "Series P," park fund certificates, payable in twenty annual instalments. Denomination, \$1,000. Interest January 1 and July 1. A deposit of \$5,000 required. The official circular states that there is no litigation pending or threatened in connection with the certificates above described. The above bonds are for the purchase of land taken for West Terrace Park in the West Park District, which district has a land valuation of \$9,776,380.

Keekuk County, Iowa.—Bond Election Not Held.—Some papers had it that this county would vote November 3 on the question of issuing bonds for a court house. Such a vote, we are advised, was not taken.

Lancaster County, Neb.—Bond Election Not Held.—The proposition to issue \$100,000 bridge bonds was not submitted to the voters on November 8, although some of the papers had it that such an election would be held on that day.

Lima, Ohio.—Bond Sale.—It is stated in local papers that the Sinking Fund Trustees have purchased at par an issue of \$4,600 5% paving bonds.

Lincoln County, Ky.—Bonds Defeated.—This county on November 3 voted against the proposition to issue \$40,000 court-honse bonds.

Long Beach, Cal.—Bonds Voted.—By a vote of 454 for to 15 against, this place on November 10 authorized the issuance of \$100,000 wharf bonds.

Lorain, Ohio.—Bonds Defeated.—The proposition to issue \$75,000 water bonds failed to receive the necessary two-thirds vote at the election November 3.

Louisville, Ky.—*Temporary Loan.*—This city on November 11 borrowed \$100,000 at 6% interest from the German Bank and the German Insurance Bank of Louisville. Loan is in anticipation of the collection of taxes.

is in anticlpation of the collection of taxes. Macedon, N. Y.—Bonds Defeated.—The proposition to issue \$10,000 town-hall bonds failed to carry at the election Nov. 3.

McComb, Pike County, Miss.—Bond Sale.—On November 6 the \$10,000 6% 1-10-year (serial) sidewalk bonds described in V. 77, p. 1816, were awarded to the McComb City Bank at 101.

McMinnville, Ore.—Bonds Proposed.—The question of issuing about \$70,000 to \$80,000 water bonds is being considered.

Macon, Ga.—Bond Election.—An election will be held December 8 to vote on the question of issuing \$60,000 4% bonds, of which amount \$40,000 will be used for sewers and \$20,000 to build a town hall. Denomination, \$1,000. Interest quarterly on the first days of January, April, July and October. Maturity yearly on January 1, \$1,000 from 1905 to 1909, inclusive; \$2,000 yearly trom 1910 to 1929, inclusive, and \$3,000 yearly from 1930 to 1984, inclusive.

Madison, Ga.—Bonds Defeated.—This city on November 3 voted against the proposition to issue \$40,000 water-works bonds.

Madison, Wis.—Bond Sale.—On November 18 the \$20,000 4% 20-year water-works bonds described in V. 77, p. 1555, were awarded to N. W. Harris & Co., Chicago, at 101.37 and interest. Following are the bids:

Madisonville, Unio.—Bonds Authorized.—The Council on November 11 anthorized the issuance of \$8,300 5% debt-extension bonds.

Manasquan, N. J.—Bond Sale.—We are advised that the \$35,000 4% 30-year water works bonds which were offered but not sold on August 25 have recently been awarded to the Trenton Saving Fund Society at 101.76. Bonds are dated Nov. 1, 1903.

Mason City (Iowa) School District.—Bond Sale.—It is stated that an issue of \$40,000 4½% school bonds has been sold to N. W. Harris & Co., Chicago, at 100.60.

to N. W. Harris & Co., Chicago, at 100.60. Middlesex County, Mass. -Bond Offering.-Proposals will be received until 10 A. M. to day (November 21), by Levi S. Gould, Chairman County Commissioners, at the Court House in East Cambridge, for \$35,000 4% Truant-School improvement bonds. Authority, Chapter 77, Laws of 1908. Date, Dec. 1, 1903. Interest, semi-annually at the Beacon Trust Co., Boston. Maturity, \$5,000 yearly on December 1 from 1904 to 1910, inclusive.

Milton, Ore.-Bonds Voted.-This city on November 9 voted to issue \$27,000 bonds for the following purposes: \$5,000 to refund outsta nding water bonds, \$10,000 to refund ontstanding water and light bonds \$5,000 for extension and improve ueut of water system and \$7,000 for improvement and extension of electri c light system.

Monroe County (P. O. Rochester), N. Y.-Bond Offering. -Proposals will be received until 12 M., November 25, by J. B. Hamilton, County Treasurer, for \$11,500 5% Lyell Avenue, town of Gates, sewer-assessment bonds. Authority, Chapter 370, Laws of 1898. Interest, semi-annual. Maturity, five years, subject to call \$3,000 in one year and a like amount in

two years and also in three years. New Rochelle, N. Y.—Certificate Offering.—Proposals will be received until S P. M. November 23, by Charles Kammermeyer. City Clerk, for \$75,000 6% certificates of indebtedness. Authority. Section 244, Chapter 128, Laws of 1899. Denomination. \$5,000. Date, Nov. 24, 1903. Maturity, July 24, 1904. 'Certified check for \$1,000, payable to the City Treas-nrer, required. Purchasers must pay accrued interest.

Newport (Ky.) School District.-Bond Issue Reduced.-The Board of Education on November 16 received a communication from Attorneys James C, and B. A. Wright advising that the \$50,000 4% bonds awarded October 19 to the Provident Savings Bank & Trust Co. of Cincinnati at 100.05 exoeeded the amount which the Board could legally issue by \$15,000. The board thereupon reduced the amount of the issue to \$35,000 and awarded the same to the Cincinnati institution at the price bid at the October sale.

New York City .- Bond Sale .- On November 19 sixty-five bids, aggregating \$25,581,090, were received for the \$7.500.000 81/2 gold corporate stock (six issues) described in V. 77, p. 1887. The average price realized was 101.05 and the interest basis about 3.456%. The allotments were as follows:

\$100,000 court house bonds at not exceeding 41/2% interest. Ottawa, Ohio.—Bond Offering.—Proposals will be received until 12 M., December 8, by B. H. Heringhaus, Village Clerk, for the \$50,000 5% water works bonds mentioned in V. 77, p. 1556. Date, Jan. 1, 1904. Denomination, \$500. Interest, semi annual. Maturity, Jan. 1, 1924. Certified check for 5% of amount of bonds bid for, payable to the Village Treas-urer, required, and the Council reserves the right to deliver the bonds in instalments of \$12,500 caseb. Arthemity Sec. the bonds in instalments of \$12,500 each. Authority, Sec-

tion 2835, Revised Statutes of Ohio. Ottawa (I11.) School District.—Bond Election.—An elec-tion will be held November 28 to vote on the question of issu-

ing \$45,000 school-building bonds. Parkersburg, W. Va.-Bonds Voted.-This city, it is stated, has voted in favor of issuing \$100,000 4% 10-20-year (optional). bonds.

Paterson, N. J.-Bonds Proposed.-The Board of Aldermen is considering the question of issuing \$40,000 4% policestation bonds.

Philadelphia, N. Y.-Bond Offering.-Proposals will be received until 12 M., November 24, by the Village President, for \$12,000 electric-light bonds. Denomination, \$500. Interest, to be named in bid, semi-annual. Maturity, one bond yearly, beginning five years from date of issue. C. T. Barr is Village Clerk.

Philadelphia, Pa.-Finance Committee's Action on Loan Bill.-The Finance Committee of the City Council on November 17 approved a loan bill of \$25,000,000 for the following purposes :

Filtration	\$9.000.000
Schools (new sites and buildings),	8,500,000
Sewers (main and branch)	2,000,000
Bridges	1,500,000
New Municipal Hospital	1,000,000
Insane Hospital	1,400,000
Home 'or the Indigent	1,000,000
Repaving	1,000,000
Northeast Boulevard	1.0 0.000
Central Boulevard	1.500.000
Purchasing and improving parks	1,000,000
Soutbern Boulevard	1.0 0.000
Fire. police and patrol houses	000,004
Intersections and grading,	500,000
Thirty five foot, channel, Delaware River	1.0(0,000
League Island Park	500,000

The above loans differ somewhat from the proposed issues mentioned in the CHRONICLE two weeks ago-the item for abolishing grade crossings along the Reading Railway being omitted altogether, while the amount for filtration purposes has been increased from 5 to 8 millions. The question of issuing the above bonds will go before the people at the spring election next February. Phœuix, Ariz.—Bond Election.—An election will be held

December 12 to vote on the question of issuing bonds for water purposes.

Plain City, Ohio.-Bond Offering.-Proposals will be re-ceived until 12 M., December 8, by the Village Council, for the \$4,000 5% sewer-assessment bonds mentioned in V. 77, p. 1763.
