Lutered socording to Act of Congross, in the year 1903, by Whblanth. Dana Company, in the ollice of Libririan of Congress, Washington, D. C.

## The clumatile. PUBLISHED WEEKLY.

Terms of Subscription-Payable in Advance

WILLIAM B, DANA COMPANY, Publishers,
Pont Pine Street, Corner of Pearl Street,

## CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, Nov. 28, have been $\$ 1,724,433,550$, against $\$ 2,065,545,62 \geqslant$ last week and $\$ 2,092,191,611$ the corresponding week last year.

| Clearings-Ret Week En | $\begin{aligned} & \text { Yesegr } \\ & \text { v. } 28 . \end{aligned}$ | 1903 |  | 1902. |  | P.Cen |

| The full details for the week corered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night. <br> We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, Nov. 21, and the results for the corresponding week in 1902, 1901 and 1900 are also giren. Contrasted with the week of 1902 the total for the whole country shows a loss of $22 \cdot 3$ per cent. Outside of New York the decrease from 190\% is $3 \cdot 3$ per cent. |  |  |  |  |  |  |

THE FINANCIAL SITUATION.
Congressman Hill of Connectiout introduced a bil ${ }^{1}$ in the House of Representatives on Tuesday which not unlikely embodies the chief features of the currenoy leglalation to be undertaken by the party in power darlag the coming sesslon. That is a fair inference from the ramors aflost durlng past months emanating from conferences of Sonators \&c., indl. cating that a more limited scopo of action than las year was to be attempted thts year with regard to carrency matters. Then too Mr. Hill's position in his party as a leader in the lower House on all such ques. tions and the chauge of position his present proposals indicate compared with thoss he favored a year ago suggest the ssme conclusion. It will be remembered that he advocated in the last Congress a measure which contained provisions leading to an assetcur rency plan, whereas in the bill he has introduced this week no attempt is made to remodel oar bank-note system or other paper-money devices now in use. On the contrary the aim of the measure is simply the curlngin existing laws of demonstrated defects, which are aseless or actually mischievons.

Of this character most promicent is the llmit fixed by statute of $\$ 3,000,000$ to the wilhdrawals from circulation of bank notes in any single month. Our people have quite generally expressed a want for an elastic currency, but that want can never be secured unless the device the statate creates is by its very na ture free to expand and contract according to the demands of commerce. As the outstanding volume of our present bank.ncte system can vary only as it may be profitable or unprofitable for banks to bay or sell United States bonds, and as the other klnds of currency we have are rigldly fixed in amount, of course a fundamental defect stands in the way of the attain. ment of the boon of currency freedom so long as our rellance is upon our present devices. For good rea. sons, however, that greater reform, calling for heated debate and long consideration by Congress, is not sought on this occasion; the removal of the $\$ 3,000,000$ statatory limit-which is a restriction standing in the forefront of any change in the volume of the eurrency afloat-Mr. Hill seeks by his proposed blll to have removed throngh a repeal of the provision. We cannot think that any volce will be raised in opposition to the removal of that troublesome piece of legislation, enacted at a moment of deep prejudice and excite. ment.
Another section of Mr. Hill's measare seeks to strike out the words "except receipts from Customs" in Section 5153 of the Revised Staintes, which enacts that "all national banking assoolations designated for that purfose by the Seoretary of the Treasury shall be depositaries of pablic money, except recelpta from Customs," etc. The alm is to ellminate this ex ception as to Customs recelpts, which, as the law now stands, cannot be trarsferred to dopositary banks. That clause is really a rellc of war times when gold was at a preminm and Customs revenue pald in gold was required to be kept in the Treasury to meet the Interest on Government bonda, payable in that metal. In accord with that idea, the United States national banking law, which was passed in 1863, was so framed with reference to deposits of pablic funds in deposit. ary banks as to hold inviolable gold revenue. It is hardly necessary to say that such a restriction is no onger aseful; indeed it became truly archaic and

Without any reason for 1 ts recention loug ago. One wonld sappose that, at least after s!lver Treasury notes in 1890 were made legal tender for Customs dues, the retention of this exception as regards deposits of pablic funds in depositary banks would find no advocate. Besides that, time and again the regulation has proved a great inconvenience and source of embarrassment to general business when surplus revenue $\pi$ as raplaly increasing and the Sub-Treasury was consequently absorblng the gross bank reserves; for thls absorption has often ocourred when the money market was already aotive and rates high. In such a contingency tho Secretary of the Treasury has at times found it quite difficult, because of this provision, to prevent withirawals to pay Customs duties exhausting bank reserves. Altogether, whether to repeal the exception would seem, therefore, to have ceased to be a debatable question.
Several other important advantages will be gained If this proposed bill should bocome a law. The section which provides that subsidlary colnage may be increased by the re-colnage of silver dollars after all the sllver bullion in the 'Ireasury has been converted, is one of these; the authority it confers is obvlously needed for,one reason, among other reasons which will occur to the reader, that it will obvlate the purchasing of more sllver bullion, a needless exponditure that would in the contingenoy mentloned become neoassary. The remaining portions of the proposed measare are strictly administrative, dovised to facilitate currency movements and to meet the monetary demands of the pablic for certain denominations of notes. Thas the ratio of printing the different denominations of sllver certliticates and greenbacks will be thereby changed to meet the demands of business; a now $\$ 10$ gold certificate will take the place of the $\$ 10$.greenback; the restriction on the issuance of $\begin{gathered}\text { b bank notes will }\end{gathered}$ be removed, and also a uniform tax of one-half of one per cent por annam will be laid on all national bank circulation, regardless of what lssue of bonds it is. based upon. These of conrse are minor matters, but all are desirable.

The close hollday on Thursday has given the week a broken character, interrupting of course all basiness. So far as Wall Street is concerned the surfaoe appearance has continued ansettled; prices havo fluctasted materlally. The storm centre has rested over the smaller industrials, signalized eapocially by declines In the steel organizations other than the United States Corpora. tlon; as to that property, though ylelding from day to day under attack, it has worn au aspect of increased stability, indlcated by the reslstance enconatered by the bears in their attacks and from the rebound which followed. At the same time it is worthy of remark that some of the outside steel stocks were still standing higher than the large corporatlon's stocks, judged by the dividends heretofore distributed. It woald, howover, be quite natural for the bears, If they found the former avenues for attack closing or becoming less effective in helping them to carry out their parposes, to plek out and strike at the emaller industrials, as not likely to have supporters on the flyor of the Exohange and so presamed to yield more readily.
A prominent feature in the situation which has served in some messure to add to the onerousness of carrying stocks has been the higher rate for money. This acted as a partioularly adverse circumstance the early half of Wednesday, when the question arose of
carrying holdings over to Frid ; later, however, on the same day the rate declined to $\delta$ per oent and even lower, and the stock market that day closed stronger, recoverles in price being quite general. With the higher money, rates for forelgn exchange have again declined, and some additional withdrawals of gold have been made. This situaflon has ayain encouraged the view of easier money after the first of Janu-ary-a recurring wish, and therefore a recurring thought, which may be or may not be reallzed.

Fullowing thelr action of last week with reference to other steel products, the trunk lines between Cinlcago and the seaboard have thls week reduced frelght rates on rails also. The lower frelght charges stherefore now extend to all steel products in the so-called "special" and "officlal" classifications where the shipments are intended for export. The reduction on rails is perhaps of more immediate importance to the steel producers than the reduction on the other classes of products. Ralls are a staple finlshed article for which a market abroad can be more readily found than for any other article, provided always a low enough price can be made so as to get the orders away from forelgn producers. The rallroads, too, are certaln to be benefited by the stop, because export tonnage of this kind will be practically new traffic. It is true that the United States has been exporting rails for some years, but generilly in small amounts, on special occasions and for special purposes. It is now intended to compete for the export trade on a large scale. It is thought that a market abroad can be found altimately for several handred thousand tons of ralls. At present the freight charge from Buffilo and Pittsbargh to this city is $\$ 262$ a ton. The new rate will be only $\$ 175$ a tou, a saving of 87 cents a ton-an important item where competition is on a very close marglu of profit, as it necessarlly must be in bidding for forelgn orders for steel. It is a mistake to assume that the United States Steel Corporation wlll be the only one benefited by the lower rates. The Independent producers, like the Pennsylvania Steel Company and the Lickawanna Steel Company, the latter of which has its plant in the Buffalo district, will be advantaged in the same way.
It does not seem oversanguine, either, to think that this forelgn buslness if once secured can be retained to a large extent. The Steel Corporation was formed with the view of produclng finished materials at a minimum of cost, and the independent concerns also have modern plants, the Lackawanna Steel Company, Indeed, having just completed its works. Tne fact that very little has been done hitherso in the way of bullding up an export trade does not militate against the ldea. Up to within the last few months there was no incentive to cultivate the foreign markets, the domestic demand being so large that producers had all they could do to meet it. Now the situation in that regard has changed, and producers find it neces. sary to have an outalde markst for a part of their out. pat. They are accordingly devoting their fall energles to that end, and we may be sure that a large measure of success will attend their efforts.

An event of the week has been the completion of what is known as the Ogden-Lucin "cut-off" across Great Salt Lake on the Central Pacific line. This "cut-off" means a saping of 45 miles in distance, the new route being 102 miles in length as against 147
miles by the old route. It alvo mesns a reduction in running time between Oyden and the Paclic Coast of two hours, and, what is of no less importance, it will effect a saving in expenses estimated at halt a million dollars a $y$ "ar. The work attracts attention because of lis costly nature, an expendlture of somemhat over four million dollars having been required, and also because the new line in part extends across Great Salt Lake in Utah. The "cut-cff" runs from $O_{8}$-den west for 16 miles over level country, then across the east arm of the lake, a width of 9 milles, to Promontory Point, then 18 miles across the west arm of the Lake, thence across the desert to Lucin, Nev. Approprlato ceremonles attended the formal completion of the line, President E H. Harriman of the Southern Pacifiz being one of those present. The oponing of this plece of difficult road furnishes new evidence of the way in which the present owners of the Union and Southern Pacific have been spending money in the way of providing improvements intendod to promote the convenlerice of the public and effect economiles in operation. The scheme was one which originated with the late Mr. C. P. Hantington, and we made reference to it in the issue of the Chronicle of July 14 1900, page 84. It was not, however, until March 1902 that work was actually commenced, and slnce then it has been prosecuted with so mach vigor by the Harriman management that the task, though an extremely difficult one, has been completed in about twenty months.

Oae occurrence this week was the surrender on November 24 of the City of Santo D jmingo, the capital of the Republic of that name, to the revolutionists. As recently reported to the Nivy Department, the revolution had its origin in the disappontment of General Morales, Guvernor of Puerto Plata, at his fallure to secure a cablnet office; with other malcontents, he organized the insurrection. It has been reported that one basis of the insurrection was an agreement by the Ministry of Wos y Gll, the President, to sell Samana Bay to the United States but the State D spartment has denled that there was any such agreement or even any recent offer of that character. Wos y Gll, it may be noted, had been the Constitutional President of Sinto D omingo only seven months. He led a revolution against President Vasquez, who had come Into power through the overthrow of the administration of General Jiminez.

There was no change in official rates of discount by any of the European banks this week, and, compared with last week, unofficial or open market rates were steady. The striking feature of the statement of the New York Associated Banks last week was the nuexpected loss of $\$ 3,747,500$ in cash reserve, whereas the preliminary estimatez of the week's movements of money, prepared by the Chronicle, ahowed a loss of only $\$ 1,699,000$. The deposits decreased $\$ 5,081,700$ and the required reserve was consequently reduced $\$ 1,5500$, 425, deducting which from the loss of cash, left $\$ 2,227,075$ as the reduction in surplus reserve-to $\$ 3,911,350$. Calculated apon the basis of deposits less those of $\$ 36,801,100$ of public funds, the surplus is $\$ 13,111,625$. Loans deoreased $\$ 2,620,700$, and they are now only $\$ 15,592,200$ above the minimum of the year, which was recurded January 10. Specie, legal tenders, deposita and public deposits are the low.
est of the gear, while the surplus rezerse 18 \$3,244,375 sbove the minimam. The bank statemeat of this week shonld reflect the recelpt on Saturday last of $83,591,623$ and on Taeaday of 8730,000 gold from London, a total of *4,321,623; also smong other movements, the transfer hence to New Orleans, through the Sub-I'reasury, of 600,000 and to San Francisco of $\$ 250,000$. The arrivals of gold from London this week make the total thas far recelved $* 7,021,584$. There is now supposed to be in transit *2,578,416, inclading 240,000 engaged on Friday and exclusive of $81,000,000$ not hitherto reported, which was engaged by the Shammut National Bank of Boston. It was rumored on Wednesday that $\$ 5,000,000$ gold had been engaged abroad for shipment hither, but thls could not be confirmed. It was stated on Friday, however, that $£ 500,000$ gold was expected to arrive in London in a few days which would probably be shlpped to New York. Bar gold declined in London early in the week to 77e. 11d. per ounce, sabsequently recoverling to 77 . $11 \frac{1}{2}$ pence; this woald seem to indleste that the demand for gold in the London ballion market continues, and probably further imports of the metal will be made as long as they shall be profitable. The exchanges of refundable bonds for 2 per cent consols have thas far amounted to $\$ 10,485,700$, and the redemption of $\Sigma$ per cents of 1904 to $\$ 11,214,750$.

Money on call, representing bankers' balances, loaned on the Stock Exchange durlng the week at 9 per cent and at 2 par cent, averaging about $6 \frac{1}{2}$ per cent. On Monday loans were at 7 per cent and at 3 per cent, with the bulk of the basiness at 6 per cent. On Tuesday transactions were at 9 per cent and at 6 per cent, with the majority at $7 \frac{1}{2}$ per cent. On Wednesday loans were at 7 per cent and at 2 per cent, with the bulk of the bualness at $6 \frac{1}{2}$ per cent. Borrow ers on that day eupplled their wants ${ }_{8}$ in the morning, expeotling higher rates before the close; the lighter demand in the afternoon, however, cansed balances to be freely offered, with the resalting fall to 2 per cent, at which rate considerable money was losned. Thursday was the annual Thankzgiving hollday and on Friday transactions werd at 7 per cent and at $5 \frac{1}{2} \mathrm{p} \theta_{\mathrm{r}}$ cent, with the majorlty at $6 \frac{1}{2}$ per cent. Braks and trast companies have losned at 6 per cent as the minimum. Very little business is reported in time loans, borrowers being indiaposed to maise contracts for short periods, and the rates for longer maturities are regarded as too high. Quotations on good mixed Stock Exchange collateral are 6 per cent for thirty to ninety days and $5 \frac{1}{2} @ 6$ ber pent for four to six months. No local transactions are recorded in commercial paper and there is only a little basiness with out-of-town bayers. Rates are nominally 6 per cent for sixty to ninety-day endorsed bills receivable, 6@6 $6 \frac{1}{2}$ per cent for prime and 62 $\mathbf{1}^{\text {© }} 7$ per cent for good four to six monthe' slagle names.

The Bank of Eogland minimam rate of disconnt remalns anchanged at 4 per cent. The cable reports discounts of sixty to ninety-day bank bills in London, 4C44 per cent. The open market rate at Parls is $2 \frac{7}{5}$ per cent and at Berlinand Frankfort it is $3 \frac{3}{3}$ per cent. According to our special cable from London, the Bank of England lost $£ 153,436$ ballion during the week and held $£ 31,893,236$ at the close of the week. Oar correspondent farther adyliser ne that the loge was due to
exports of $£ 285,000$, of which $£ 250,000$ to E $2 q$ pt a Lad $£ 35,000$ to Soath Amerlca, and to recelptz of $£ 132,000$ net from the interior of Great Britain.

The forelgn exchange market was weak natil Wednesday, Influenced by dear rates for money and by large receipts of commerclal billa agalnst cotton and grain. In the afternoon of that day, however, the unerpected fall in money rates cansed a recovery, and the market was also affected by a good demand for remittance by Saturday's ateamer. Compared with the highest prices early in the week, the fall in rates by Wednesday morning was 75 polats in long, 90 points in short and 75 polnts in cables. The recovery in the afternoon of that day was, compared with the lowest prices, 25 points in long and short and 15 points in eables, indicating the sensitivenaas of the market to monetary conditions. Baylng of long sterling for lnvestment was practically euspended early in the weels, owing to the high money rates, and bankers loaned their balances freely; if long sterling shall be obtainable below 480 , it is thought likely that baying for investment will be resumed. Commerclal billa against cotton and grain rule at high prices, responding to a demand for these bills for the establishment of credits in antlcipation of the early transfer of the Panama Canal payment of $\$ 40,000,000$, which is expected to be effected with exchange draftz. Pending this transfer the accumulated credits will be available for the procarement of whatever gold can be profitably lomported for meeting such bankerz' long eterling drafts as may be purchased for lavestment or for drawlags for current remittance. As above noted, the arrivals of gold from London daring the week have amonnted to $84,321,623$, and there is now est1mated to be in transit for this port $\$ 2,578,416$. The Aseay Office pald 890,28365 for domestlc and 81 , 038,134 63 for forelgn ballion from Earope. Gold recelved at the Castom Hoass daring the week, *4,05c, 739 , of which $3,350,129$ was forelgn bullion, *294, 219 was forelgn coln and 8936,000 A merican gold coln from Earope.
Nominal quotations for sterling exchange are 481 @ $481 \frac{1}{2}$ for alsty-day and $484 \frac{1}{2}$ @ 485 for sight. Rates for actual basiness on Saturday of last week for long and for cables were unchanged, compared with those on the previons day, at $48040 @ 48060$ for the former and 48460 @ 48475 for the latter; short was 15 points lower at 484 ©c 4825 . On Monday long was 20 pointa higher at $48060 @ 48075$, short 10 points lower at 484 @ 48415 and cablez were 10 points off at $48450 @$ 48460. On Thesday long fell 35 polnts to 48025 @ 48050 , ahort 25 polnts to 48375 @ 48385 and zables 20 points to 48430 ©4 4446 . Oa Wednesday long declined 25 polnts to $480 @ 48025$, short 40 polnts to 48335 @ 48360 and cables 30 points to 484 @4 8415. The market was weak antil the atternoon, when there was a rally, as above noted, cansed by easler rates for raoney, and by a demand for remiltance by Sitarday's mail. Thursday was a hollday and on Friday the market was easy at the close, inflaenced by the satisfactlon of the demand for remittance and by a good supply of bills. The market closed at 480 @(4) 4015 for long, 48350 @ 48360 for short and 484 @4 4410 for cables. Commerclal on barks 4796 @ 47970 and documents for payment 4 79@4 80. Oottoa for payment 479 @ 4 79t, cotton for acceptance $47960 @ 47970$ and grain for payment 479 © 480 . The following shows
dally posted rates for oxchange by some of the leadiug drawers.

## RUSSIA AND JAPAN.

Raaders of dispatches from the forelgn financial markets cannot have falled to notice that the RussoJapsnese imbroglio continues to hang as a vague and indefinite, but none the less formidable, cloud on the horlzon. The tronble does not appear to be that hostillities are deemed imminent-on thls point there are positive and apparently conclasive denials by the responsible anthorities of both sides. Bat the uncertalnty in political and financlal circles seems to have its basis in an aneasy feellng that the mere drift of clecumatances may create what diplomatists call an impasse; a s!tuation in which retreat of one party or the other would be necessary to avold collision, and get in which retreat of either would involve hamilia. tlon.

Such a situation does not now exist, and it may never arise. It would, we think, have been fitily impossible If the other Earopean Powers had taken a firm and dignified stand on the treaty arrangements with which the Buyer eplsode ended. Bat these Puwers have been so slagularly inert that Rassia, whose forte in diplomacy has almaye been obstinate persistence in a given purpose, in the face of any and all obstacles,
has ilterslly been encoaraged to matatain its grasp on China's northeastern provinces, though the hour solemnly pledged for withdrawal of the Rassian troops has long since passed.
Rusels has judged this part of the situation coolly and parhaps sagaclously. Eagland, not yot wholly recovered from the oxhaustion ot its South Afrleau contest, was not at all likely now to pick another quarrel. France was nominally committed to sapport of Russia. Germany, with Rassia toaching its domain on one side and Franco on the other, would scarcely take the initlative without the active support of other Earopean States. There were left, to be reckoned with, the United States and Japan. But an ultimatum from the United States, backed by a threat of armed intervention, was something hardly conceivable in our present geographical remoteness and in the present posture of affairs. There remained, therefore, only the lictle Empire of Japan; but the attltude of this Island State has been of aufficient firmness to go far towards connterbalsocing the inertla of the rest of the treaty Puwers.

Japan's position, in its steadfast and sometimes menacing opposition to the Rassian forward movement, has in one particular been strong. While, as we have shown, it has had no active ally in its efforts to blockade Rassia's policy of permanent occapation, it is assared of the moral support of nearly all the neatral States and of the actlve hostility of none. This la a strong point to begin with, because many would-be afgressive States are kept from a positive demonatration at a crisis by fear of hostile Intervention by other Powers. But Japan has a positive as well as a nega. tive advantage. The Anglo-Japanese treaty lately drawn up and ratified pledged Eagland to a close allianoe, not offensive bat at least defensive, and Japan has therefore at all events an anchor to windward of the first importance. Against this Rassia has merely the more or less shadowy French alliance, whose practical value in a real emergency still remains to bo tested.

Oa the other hand, the Japanese Government is perfectly well aware that a collislon on the coast of China is deprecated by the other Powers, which would not welcome either the disturbsace sach an event would bring to international finance and international politics, nor the position on the Eastern coast which the victorlous party would necessarily enjoy. It has seemed, from what has been made pablic of the various diplomatic maneavers, that the neatral Powers have encoaraged Japan to the extent of its positive resistance to actual formard moves by Rassia, but no farther.

It is somewhat difficult to foresee exactly the outcome of this odd position. Russia is determined to protect its Siberian rallway, Japan to guarantee the immunity of Corea. Neither of these two questlons could become serlously involved without making active hostilities altogether probable. Bnt for that very reason the contending partles are endeavoring to avoid a clash on these two questions. Rassia in par. ticular has again and again declared its own purpose of ensuring the integrity of Corea. Its assumptions regarding the rallway undertaking, however, are of a character which the other Powers cannot posalbly recognize. The Rassian diplomatists have assumed that the rallway concession carried with it concession of the right to occapy adjacent territory if it considered the rallway property to be threatened by a
hostile population. But, obriously, since Russia reserves the right to judge for itself when the rallway enterprise is threstened, it follows that Russia alone can declde when Its occapation of Manoharia is no longer necessary. It would be easy enough to allege perpetually that the safety of the railroad would be jeopardized by the withdrawal of the Rassian soldiers and the surrender of Manoharia. Clearly, this is a position which the other Powers could not recognize. If they were to do so they would slmply be recogniz. lng Rassia's right to occapy Mancharia Indefinitely if it should so desire.

It seems to as that the situation cannot continue in its present state. We do not apprehend an armed collision, for reasons which we have heretofore set forth. Bat we do belleve that Rasssia will have to declare more definitely its parposes in the occapation and give some pledge which it must respect as to $\mathrm{it}_{\mathrm{s}}$ fature policy.

## UNION PACIFIC ANNUAL REPORT.

When the prellminary income statement of the Union Paclicic Rallroad Company for the late fiscal year was lissued last Argast, we adverted to it as a capital illustration going to show that prevalling values on the Stock Exchange were not governed by considerations having reference to the intrinslc merit of the propertles. Now that we have the complete annual report of the company the same remark ap. plles, only more omphatically than before. In common with the securities of other companies, the market value of Union Paclic shares has undergone striking depreciation since the appearance of the previons report. Yet in its income resalts, its flnancial resoarces, its physical condition, and its traffic development alike, the showing made by the company in the document before us is extremely gratifying and encouraging.

Nolwithatanding that there was in the late year comparatively little farther addition to net earnings (owing mainly to the heavy increase in expensesgross earnings having continued to expand in a satis factory way), the company has a surplus on the operations of the twelve months, over fixed and contingent chargee, in the large sum of $\$ 15,276,842$. The available income before deducting charges was no less than $\$ 26,975,816$. As fixed and contlingent charges were $\$ 11,699,174$, it is evident that net inoome was equal to almost two-and-a-half times the sum required to meet the same. Out of the $\$ 16,276,642$ surplus remaining after charges, dividends of 4 per cent on the common and preferred shares; of the company were paid, calling altogether, however, for only \$8,333,168, leaving a balance above dividend requirements in the sum of almost seven million dollare- $\$ 6,943,474$. This last is equivalent, roughly, to $6 \frac{1}{2}$ per cont on tie $\$ 108,770,900$ of common stock outstanding. It is thas evident that the net income of the late twelve months was equal to about $10 \frac{1}{2}$ per cent on the common stock. And this, it may be stated, has been the result for the year withoutany income whatever from the company's holdinge of $890,000,000$ Southern Paclic stock,"all the available surplas from the operation of the latter property having been spent apon improvementa and additions. Accustomed as we have become within the last few years to exoeptionally favorable income reaults on United Stater railroads, thls exhiblt of the Union

Pacific is extremely noteworihy, and we think we are safe in saying there are fer other (companles in the country that can equal or excel its record.

Out of the $\$ 6,943,474$ surplus above dividends, $\$ 2$,000,000 was appropriated for betterments, improve. ments, additions, new equipment, etc., this belng precisely the same as the amount appropriated out of income for the same parposes in the previous year, but comparing with $\$ 1,500,000$ in 1900.01 . We have referred above to the comparatively small addition to net earnings made in the late year. Gross increased in amount of $\$ 3,574,909$, but the improvement in net was only $\$ 386,930$. The report states that a conslderable part of the augmentation in operating expenses was caused by the conditions whioh increased expenses on all other roads throughont the country. Briefly stated, these conditions were: The increase in wages and additional cost which generally results from an angettled condition of labor; the higher price of material and smpplies used in operation, and the increase in expenses which always attends a congestion of traffic such as existed on the rallways last fall. In addition to all this, floods (resulting from heavy rains and some cloudbursts) did enormous damage in Kansas, Southern Nebraska and parts of Missourl during June 1903. About 247 miles of the maln track of the Kansas Division were sab. merged, the roadbed and bridges undermined or serlously damaged, and much of the ballast washed a way practically snspending operations on the Kansas Divlsion for three weeks. A considerable part of the injury done was repaired durlng June and included in operatlng expenses, aud a further half-million dollars has been set aside (forming part of the $\$ 2,000,000$ appropriated from income for betterments, addltions, etc.) to complete the reconstruction of the property destroyed.

A table is given in the report showing the growth in earnings for the last five years on substantlally the same roads as those now included in the report-that is with only such increase in milleage as has resulted frcm new extensions or acquisitions-and this tells in a graphic way the story of the company's development during that period of time. In the five years from 1898 to 1903 recelpts from passenger tralns increased from $87,689,466$ to $812,776,282$; receipts from frolght trains from $\$ 24,206,095$ to $\$ 36,261,679$, and total transportation recelpts from $\$ 32,631,769$ to $\$ 51,075,189$. Net earnings in the same interval rose from $\$ 13,051,478$ to $\$ 22,327,973$. The extent of road operated incressed from an average of 5,337 miles to $5,762 \mathrm{miles}$. In other words, with less than 8 per cent addition to mileage, gross transportation receipts were augmented in the sam of nearly $18 \frac{1}{2}$ million dollars, or $56 \frac{1}{2}$ per cent ; and net earnings in amount of over $9 \frac{1}{4}$ million dollars, or 71 per cent. This notable gain in revenues, the report tells us, has been achleved mainly through the large expenditures made for additional equipment and increased facillties generally for the prompt handling of bunlness; also in the revision of grades and allgnments and throngh other expenditure for the purpose of cheapening the cost of maintenance and operation.

We monder if the resder has anyldes what the maguitude of these outlays has been? From a summary In the report we, find that since the acquisition of the varlons propertio by the present owners there has been expended in betterments, improvements and additions to the existing roads, in ohanges of line
and for new equipmont, no les3 than $* 26,369,009$ on the Union ${ }^{[ }$Paclic proper, $\$ 3,272,132$ on the Oregon Short Line and \$4,532,282 on the Oregon 12 sllrosd \& Navigation Company, making $\$ 39,223,423$ on the three propertles comblned-whioh, however, does not Include erpenditures for the construction of new lines and for equipment amounting to $\$ 11,873,542$, and whioh, when comblned with the $\$ 39,223,423$, glve a grand aggregate in excess of 61 million dollars.
No less interesting or slgaificant is the story as to how the money for those vast expenditures was provided. Only $\$ 11,303,664$ out of the $\$ 39,283,423$ came from new bond lesues-ihat is, from boads reserved, ander provisions of the mortgage liens, for the payment of expenditures for betterments, additions and equipment; net recelpts of Improvement and Eqaipment Fands, unexponded balances of Batterment Funds, and proceeds from sale of proporty, provided *3,218,296 more; then there were direct appropriations from fncome aggregating $\$ 6,500,000$; the remainder of the $\$ 39,223,423$ spent, amounting to $\$ 18$,201,463, was provided mainly fromincome. Ia other worde, out of total outlays of $39 \frac{1}{4}$ million dollars, 25 million dollars, roaghly, came from income, either directly or indirectly.
The finsncial operations of the twelve months were of large magnitude and extrome importance, and they leave the company in a position of unusaal strength. In the first place, it may be noted that $\$ 36,000,000$ of Oregon Short Line Raliroad Oompany 4-per-cent and Participating gold bonds were put out daring the year. The total issue of these Partlolpating bonds was $832,491,000$. The wholo amount was sold to the Union Pacific Ritlroad Oompany at 90 for the parpose of retiring the entire lisue of O regon Short Lue Northern Paclic purchase money certificates, amount. ing to $: 61,000,000$, owned by the Union Paclic Rasil road Company, and to discharge other indebtedness of the O: egon Short L'ne Company. Of the $\$ 82,491,000$ bonds thus issued $331,000,000$ was disposed of by the Union Pacific Ratlroad Company at 90 to its share. holders under its circular to them of July 18 1902, while $85,000,000$ more was subsequently sold by the Union Pacific. The other $\$\{6,491,000$ on June 30 1903 remained in the Unlon Paclic treasury, bat $\$ 13,800,000$ have since then been deposited as collateral for the $\$ 10,000,000$ U. P. notes lasued after the close of the fiscal year.
The prevloas annual report had shown loans and bills payable on June 301902 a mounting to $\$ 28,750$, 000. These loans were all paid off from the proceeds of the sale of the Oregon Short Line Rallroad 4 par cent and Particlpating bonds, thus discharging the floating debt. The report states it was deemed ex pedient, kowever, to ald the Southern Paclific Com. pany in temporarily financing its large expenditures for reconstruction, betterments and improvements to Its property, and for much-needed equipment. For this purpose $15,396,119$ altogether was advanced by the Union Pacific to the Suathern Puclic, repayable on demand. Of thls sum the Union Pacific provided * $1,146,119$ from its surplas cash funds sud incurred loans for the remsinder, so that on June 301903 there was a floatingedebt represented by loans and bills payable amounting to $\$ 14,250,000$. It is stated that the work in hand on the lines of the Southern Pacific will be fialshed bafore the end of the year, and it is ex pocted that it will resalt in a satigfactory saving in the cost of operation and in other directions. Sinoe
the close of the fiscal year the Uaton Paolfic, as stated above, has sold $\$ 10,000,000$ face value of lta 5 per cent collateral notes maturing Fobruary 1 1905. The grester part of the proceeds of thls sale was also loaned to the Southern Pacific Company. With the exception of these loans and short-term notes the parlous companies, it is stated, have no floating debt.
As showing the financial strength of the Union Paclicic in the matter of free assets, it may be pointed out that In addition to the demand loans made by the company to the Southern Pacific to the extent of over fifteen million dollars and of advances made by the Uulon Paclfic to auxillary and allied companles to amount of nearly twelve million dollars ( $\$ 11,873,842$ ) these latter advances being represented by 442 milles of now lines, by modern steamers and by a large amount of equipmont purchased, for all of which no securitios have thus far been lissiaed-there were in the treasary of the Ualon Pactific system on June 301903 \$90,000,000 of Soathern Pacific stock unpledged and \$46,491,000 Orogon Short Line Partiolpating bonds, besides many minor amounts of nupledged stocks and bonds.
In all calculations as to the per-mile indebtedness of the Unton Paclic, allowanoe should be made for the fact that a large part of ite funded debt has been incurred in acquirlng Northern Paticic and Sonthern Pacific stock, etc., both belng independent companies, the one of which is paying dividends on its shares and the other of which it is reasonable to suppose may soon be expected to do so. The total funded debt in round numbers amounts to 280 million dollars ( $8279,272,000$ ); if we deduct the 123 million dollars, roughly, Incur red in acquirlng Northern Paclic stock and Southern Paclicic stock (as represented by the $\$ 87,257,000$ first lien convertible and $\$ 36,000,000$ four per cent and participating bonds outstanding), the net amount of fanded debt is found to be bat 156 million dollars, which is at the rate of only about $\$ 25,000$ a mille.

## Mr. CHAMERLAIN'S Propaganda and BRITISH PUBLIC OPINION*. <br> Manchester, Not. 11th, 1903.

The mutations in Mr. Cuamberlain's fiscal plans and his disregard of all criticism and correction of his many erroneous and misleading statements are andoabtedly thinning the ranks of his supporters. He can still command very large andiences wherever he goes and an enthuslastic reception. Partly these advantages may be attributed to the fact that the machinery of the local conservative organizations is In every case placed at his disposal, and partly because he is an able and dauntless platform fighter who never knows-or at least never shows-that he is beaten. Vast numbers of peopie, too, believe in his sincerity, and many of them forgive his blunders and inconsistencies in consideration of what they belleve to be his intense patriotism. Some of the more thoughtful, however, confess that his cause is becoming weaker, and that, as sober reflection succeeds to excltement, he will further steadlly lose ground. Hitherto the fact that he has found no active supporters among prominent statesmen has rather strengthened than weakened his influence amongat many of his foilowers who have admired his "pluck" and his invinclb'g energo. Another and a very im-

[^0]portant canse of his hoid apon popular attention is the prevalent bellef that Mr. Balfour and his reconstructed ministry are with him in heart, and that there is something heroic in his resignation of office in order that he might have a free hand for his self imposed mission to convert the country.

But what is the bauner under which he is fighting? At first it was an Inperlal Castoms compact, a system of preferential import dutlee, based upon a moderate degree of Protection agaiost foreign productions in every part of the Empire. To it was added at a later stage the project of retallatlon, 'and this has ap. parently ripened into unadulterated Protectionism. The initial proposals were duties on forelgn food for the purpose of gradually substituting supplies from the Colontes for those now recelved in the mother country from foreign countries. The popular opposi sition to taxes on food was to be averted by the promise of higher wages and an old-age pension scheme. The latter fell exceedingly flat, and the notion that dearer food would be compensated by higher wages was scouted by the trade unlons. The ground was again changed; the old-age pensions were dropped and Mr. Chamberlain produced calculations to prove that by remission or reduction of duties on tea, cof fee and sugar, the additional cost of bread and meat in a workman's famlly would be more than' counter balanced. These statistics, put forward in a speech in Liverpool, were accnmpanied by an expression of regret that for so noble an object as the weld ing together of the component parts of the Empire the Brttish wage-earner would not be called upon for any sacrlfice. This sentiment has of course pro roked a good deal of satire, pictorial and other. All these proposals have been accompanied by gloomy forebolngs of the consequences of disregarding them. The self-governing Colonles will part company with the rest of the Empire, and the Industries of the mother country will be rained by foreign com petition.

Meanwhile, Mr. Balfour has gone no further than to declare in favor of a pollcy of retallation. His views on this subject, set forth in a pamphlet prepared at first for the edification of his Oabinet, have since been pablished for general information. It ls a remarkable document. It examines at considerable length the industrial and commercial condition of the Unfted Kingdom and comes to the following col. clusion: "Jrdged by all available tests, both the total wealth and the diffused well being of the country are greater than they have ever been. We are not only rich and prosperoas in appearance, but also, I belleve, in reality. I can find no evidence that we are 'living on our capital,' though in some respects we may be investing it badly. Why, then, it is asked, do we trouble ourselves to disturb a system which has been so fruftful in bappy results? I Will not take up the barren challenge contained in the last phrase, or add to the profitless and incon clusive dispute as to whether the growth in our pros perity is due to a gcod financial system and the still greater growth in the recent prosperity of some other nati.n has been reached in spite of a bad one. The polnt to which I desire to direct attention is a different one. I ask the optimists to stady tendencies -the dynamice, not the atatics, of trade and manafactures. The oceain we are navigating is smooth enongh, but where are we belng driven by its tides?"

Mr. Balfour then dilates upon the iujury which forelgn Protection Inficts apon a Free Trade country, its need for open marketg, the threatened contraction of existing areas to which British productions have access on equal terms with others, the dangerous consequences of the trust system, and so forth. He contends that the theory of Free Trade would, on grounds of self-interest, have prevented forelgn natlons from setting ap Protectionist tarlff, but it did not; and now that powerful vested interests have been created by them the theory ls not likely to be - ffective. What then ls to be done? Nothing remains bat to do to forelgn nations what they do to each other-to retaliate. This, then, is his plan. He dissociates himself for the present from Mr. Chamberlaln's scheme and from projects of permanent Protection, and claims only a policy of retallation andertaken for the purpose of promoting Free Trade or rather of removing extreme Protection abroad.

This manifesto announcing the policy of the Prime Minister, comblned with some other causes, led to the secession from the Cablnet of Mr. Ritchle, Chancellor of the Exchequer. Sir Michnel Hlcks-Beach, his prede. cessor in that office; Lord Goschen, Lord George Hamilton, Lord Balfour of Barleigh and one or two minor members of the Government. These resignathons were followed a llttle later by that of the Dake of Devonshire. Thus the Cabinet has been denuded of its most prominent and influential members, save the Prime Minister himself. Mr. Chamberlain had surrendered office a day or two before any of the others, but his letter announcing his decision had not been communtcated to his colleagues by Mr. Balfour. The letter was written in most friendly terms, and the separation was assuredly understood by the sender and by the reciplent as designed for the purpose of giving Mr. Cbamberlain free scope to start apon his enterprise of converting the country to his views apon the preferential policy. In the course of it he has developed into a pure Protectionist.

From the first he gathered the support of a large number of men in basiness and aristocratic ranks who have long been doubtful about or dlesatisfied with the practical results of Free Trade. Hls meetIngs in Glasgow, Liverpool, Birmingham and other places have been crowded and enthusiastic in support of his progressingly Protectionist vlews. It is known that he was invited by a few of his admirers in Manchester to risit this city. This occurred about three weeks ago, bat the invitation has not yet been accepted, possibly because there is some risk of a much less sympathetic reception in the birthplace and home of British Free Trade. At first Mr. Chamberlain seemed to carry all before him, but the speeches made at various places by his late colleagnes, now his opponents, Lord Goschen, Sir Michael Hicks.Beach, the Dake of Devonshire, Lord Balfour of Barleigh, Lord George Hamilton and Mr. Ritchle, as well as other Conservatives-Lord James of H reford among them-not to spoak of such Liberal leaders as Mr. A!quith, Sir William Harcourt, Mr. John Morley, and othern, all of thom staunch Free Traders, have ralled those who opposed any change in our fiscal policy, and have induced many who were inclined to foliow the reactionary movement to pause, or to set themselves against it. The trade untunist leaders are, without exception, determinedly opposed to any ohange, and they are confident of the support of their
constituents. The co-operative socleties, too, are decisively in favor of continulng the present pollcy Jn short, the opinton ls growing that as time goes on the force of the first impetuous rash of sapport with which the propagation of the new gospel-now at least in modern England-was weloomed, is meet. Ing with obstacles whtch by acoretion will altimately prevent it from haring any serions practical effect. The agitation is not anwelcome, however, to many whose fidelity to Free Trade has been life-long and is founded on conviction and experlence. They regard it as the revealer of a good deal, indeed an enormous amount, of real ignorance amongst maltitudes who have accepted the present British Flscal pollcy without question and without thought as to its theorettcal and experimental foundations. They have faith in an issue of the present controversy favorable to its preser. vation, and in Its fature continuance on a basis all the firmer because the present generation will in the end accept as a matter of intellectual conviction a doctrine which they have hitherto recelved only as an nuverlifed tradition.

## CHANGES IN CONNECTICUT SAVINGS BANK INVESTMENTS.

The oplaion rendered last month by Attorney-Gen. eral William A. King, of Oonnecticat, as to whecher the refunding 4 per cent sinking fund gold bonds of 1953 of the Terminal Railroad Assoctation of St. Louls can be considered a legal investment for Connecticut savings banks, brlags to view again the changes made by the Connecticat Ligislatare at its sersion thls year in the savings bank investment laws. It also gives prominence to the fact that the Connect. icat law in this respect, like the New York law, em. bodles many lncongruitles, and also lacks clearness. As in the case of our own State, the Oonnecticut statnte has been repeatedly amended in the direction of en. larging lts scope and broadening its provisions. The result has been that the different parts of the Act do not fit together well, and that the intent of the law. maker is not always plainly apparent. Attorney Gen. eral King describes the statate accurately when he says "'lt is the resultant of an Act ortginally well defined in parpose, amended so repeatedly and diversely that its present meaning has become to some extent a matter of considerable donbt."
The changes made in 1903 have tended to empha. size the featare referred to. Two amendments were really passed at the 1903 session, and the fact that they were not both embodied in one bill shows the lack of uniformity and of consistent parpose which has marked leglasation in this respect. By Chapter 147, approved June 9 1903, the old law as it had been amended from time to time was re-enacted bar with amendments enlorging the permissiole list of Investments by the addition of the Terminal Rallrosd Assoclation 4 per cent refunding bonds of 1953 already referred to; the St. Louls Iron Mountain \& Southern Rallroad, River \& Gulf Divlsion first mortgage 4 percent bonds, due May 1 1933; the Bufilo \& Susque hanna $R$ sill road first mortgage 4 per cont gold bonds due 1951, and the Luaispille \& Nashallle general or consolidated mortgage bonds. Two days later, that is on June 11 1903, the Governor approved a little threeline bill (Caspter 171, Lsws of 1903), endowing 88v. ings bauks with the right to invest their deposits and surplus in the first mortgage bonds of the Hartford

Struat Railway Company aud the Falrhaven \& Westville Rallroad Company. Previously street rallway bonds had been expressly excluded from the list of investments of the savings banks, the words prohibiting their parchase baving been repeated in the Act approved Jane 9. Hence by the three-line Act approved two days later, the whole leglslative pollcy of the State in this particular was ohanged.
But doabt as to the meaning of the law did not arise out of this latter circumstance. The point on which views ald difier was as to whether the Terminal Railroad Assoclation of St. Louls bonds already referred to and specifically named by the Act of June 9 1903 could be held legal investments in plew of the subsequent requirements of the Act which these Terminal bonds would not fulfl. No such question arose with reference to the other additions made to the seourity list in 1903, namely the St. Louls Iron Mountain \& Southern bonds, the Buffalo \& Susquehanna bonds and the general or consolidated mortgage bonds of the Loulsville \& Nashville Railroad, since they all meet sald requirement. In re-enacting the old law the Leglslature repeated the words: "No bond of any rallroad corporation named in this section shall be a legal investment for a savings bank when such corporation, or the system of which it is a part, shall fall to pay divldends on all of lts capital stock."

The matter of uncertainty was as to how this provision was to be construed in its application to the bonds of the Terminal Railroad Association of St. Loals, inasmuch as the stock of that concern is not paying dividends. Mr. King, the AttorneyGenersl, is forced to the conclusion that it does not apply at all. He passes in review the whole legislation of the State with reference to sarlags bank investments in recent years, and shows how change after change was made, until now there are several distinct classes of bonds allowed as investments, all differing in some of their essential requirements. One class, for example, is made a legal investment "provided (among other quallications) that in every case such company shall have pald each year for a period of not less than five years next previous to sach investment * * dividends of not less than 4 per cent per annum apon its entire capital stock outstanding." Olearly the restriction already mentioned and which for convenience the Attorney-Gteneral designates "Restriction A" does not apply as to that class of bonds, (1) because the dividend payment qualification has been already affixed to those bonds and (2) such dividend qualification has been fixed at 4 per cent per annum, while "Restriction A" has no limit on the per cent that is to be pald.

It also appears that "Restriction A" Was made part of the statate in 1901. At the same session the Leglslature amended the statute by authorizing investments In what is termed "securities," the designation under which the Terminal bonds of 1903 are embraced. The word "securities" was a new one; nuder that heading the Legislature admitted as legal investments specific lssues of bonds of certaln rallroad corporations. Theretofore the bonds admitted had not been speclfically described as to the particular issue, the date of maturity and the interest-bearing rate. These "securities," however, were all thas minately described. In other words, the Leglslature, ander the term "securities," made a selection of particular lssues of bonde instead of a selection of the
bonds of partloular rallroads or groaps of rallrosds; and thls Legislative selection seems to have been based on the real or apparent strength of the particular issue of bonds, rather than on the general and financlal strevgit of the corporations issuing the bonds as meas. ared by some of the standards 'appearing in the Act relative to other classes of bonds previously admitted. Thas the five-jear 4 per cent dividend record, as a quallication preceding admission, was wholly discarded so far as these "securlties" were concerned; so also the qualification that the capital stock must be equal to at least one-third of the total mortgage indebtedness of the corporation was thrown aside. In short, these bonds, denominated "secarlties," were confessedly admitted as legal investments, and to continue as legal investments, subject only to the limitations embodied in "Restriction A."

It should be observed, however, that the "rgecurities" so admitted at that time were all those of corporations paying dipldends on their capital stock. It follows therefore that as to these "securities," " $\mathrm{R}_{9}$ striction $A^{\prime \prime}$ has a spectic and distinct purpose. As to them it is to be considered as if the words read: Corporations which are not subject to the special dividend-paying quallication for admission (as for instance, the five-year 4 per cent qualification), whose bonds were admitted when the corporation was in fact paying divldends, must continue up to the standard on which they were admilted; if they "shall fall" to keep ap to that standard, "Restriction A" operates and removes from the list the bonds of such corporation 80 falling.
Continuing his analysis along these lines, Mr. King then reaches the conclusion that in including the Terminal Railroad Association of St. Luals refunding bonds the Laglslature mast be regarded as having gone a step further and dispensed altogether with the dividend quallication, even though the words in "Restriction A" continne in the Act. The stock of the Terminal Rillrosd Association of St. Luals is owned in equal shares by fourteen rallway companies, including the Missouri Pacific, the Illinois Central, the Burlington \& Qaincy, the Loulspllle \& Nashville and other prominent companies. Under a guaranty agreement between these fourteen companies 80 holding the stock, the Terminal Association and the trastees, each of these companies binds itself forever to make use of the properties of the Terminal Assoclation for all passenger and freight traffic within its control through, to and from St. Louis and destined to cross the Miss. isalppi at St. Louls, and farther agrees that the tariff rates of the Terminal Association shall be 80 fixed by it as to insure the production at all times of sufficient revenue tu enable it to meet and discharge the interest on all its bonded debt, rentals, alnking fund inctalments, taxes, and all expenses of every natare incurred in the maintenance, operation and renewal of its system and properties. Under this arrangement, also, each of the proprietary companies to the extent of its proportionate interest (one fourteenth) in the Terminal Association guarantees the payment of all Interest on the terminal bonds and the payment of the instalments of the sinking fand.

Commenting on thls arrangement, Mr. King reasons as follows: "Now, bearing in mind that the Terminal Association never has paid dividends on lts stock, there is sarely nothing in the nature of the corpo ration or its bonds, as above outlined, that would in.
dicate that it was to become a dividerd-payer. The fourteen holding companies practically fix the charges against themselves for using the terminal facilities; if dividends were paid ont of the revenue thas determined, they would go back to the compsnies from whose treasuries they had come in the shape of charges. Moreover, it is a presmmption of law that a condition once shown to exist continues to exlst antil evidence to the contrary appears. I think it is olear, from the legitimate evidence, that the law-making power, when inserting the Terminal bonds, considered, and will by the law be presumed to have considered, the Terminal Association as a non-dividend paying rallroad corporation."
Mr. Klog well says that it is difficult to imagine what the law-making.power could have intended by naming the Terminal bonds in the list, other than to make the bonds of a non-dividend paying corporation a legal investment. If this was not intended, why were the bonds named at all? The law-maker was engaged in naming bonds that were to be legal investmentsnot in naming bonds which were not to be legal investments. As previous Legislatures had in relation to certain bonds, discarded qualifications previonsly thought necessary, 80 the Legislature of 1903 discarded the dividend-paying capacity so far as it related to the Terminal bonds. Whether the guaranty contract connected with the Terminal bonds equals the provlous dividend-paying restriction as a safeguard or test of excellence in a bond may be a matter of opinion. The Lagislature by its decision has closed that discussion so far as the Terminal bonds are concerned.
In conclusion Mr. King well says that any other interpretation would reduce the legislation concernIng the Terminal bonds to an absurdity; on one page the bonds are admitted; on the next page, while possessing every attribate with which they were ondowed when admitted, they would be excluded. Such in. congruons results ought not to be imputed to the langnage of the Act if they can bo fairly and reavon. ably avoided.

We have gone thus at length into the matter because the Terminal Association bond lasue, with reference to which this question has arisen, is a very large and important one. The mortgage securing the bonds provides for the ultimate emission of $\$ 50,000,000$ bonds, of which $\$ 18,000,000$ have alreads been sold and are outstanding and $\$ 17,500,000$ are reserved to retire prior bonds in whioh the Connecticat savinge banks, according to the wording of the statate, are also allowed to invest-that 18 , the statute mentions not only these refunding bonds, but says that banks may invest in "the mortgage bonds heretofore issued which sald general mortgage bonds are to retire at maturity." It seems to ns that Attorney. General Klng's construction is correct, more particalarly as during the time when the 1903 bill was under discassion in the Logisla. ture conslderable hostility to the proposed incorporation of the bonds added by it was manifested, and the precise status of the Terminal refunding bonds was hence well known. What a comment, however, the situation which has now arisen furnishes on plecemeal legislation of this oharacter. As we have already shown, the state of things in Connecticut in that re. gard is no difforent from that existing in New York and some other Siates . Is it not time that reform in the method of amending the savings bank laws in the different States be inaugurated?

## A HISTORICAL PRECEDENT AS TO PANAMA.

General Daniel E. Sickles, now 78 years old, who will be romembered as having been directly pitted against General Longstreet at Gettysburg forty years ago, and who is now the most pictarosque of the very ferw surviving veterans of the Civil War, gave an Informal address in Plymouth Church during the past week, consisting of personal reminiscences of the administration and inargaration of Lincoln. Apropos of the present situation on the Isthmus, however, he narrated some old experlences of his own in Colombla, which attracted slight attention at the time even if they were publicly known, but now seem to have a special interest and suggestiveness.
Daring the Clvil War, he said, the Oolomblan Gov ernment showed some unfrlendiness and unfairness in relation to our troops on the Isthmas, this belng in direct contravention of the now memorable treaty of 1846. The Colomblan Government was, he clalmed, instigated to this by France under Napoleon III, General Sickles did not enter into particulars as to that matter, but it was in the troubled time that Napoleon III. Intervened in Merican affairs, the 111. starred Maximillan having landed at Vera Craz early In 1864. This Government, as will be remembered, refused to recognize the government set up for hlm, and on urgent demand from Washington the French troops were withdrawn in 1866.

After the war General Sickles sald that he was sent to Colombis as a special diplomatic agent to take up the sutject of its unfriendly action. He spent some months on the Isthmus; then made hls way to Bogota via the Magda'ena $R \in v e r$, and spent three months at the capital. Explanation of the unfriendly conduct and sufficient assurance of intentions for the future were sought, and delay $\epsilon$ d and parried, in the manner of diplomacy; and no satisfactory reply as to the future carrying.ont of the provislors of the treaty could be obtained untll he stated unmistakably that, un!ess suitable assurances were given, thls Govern ment would dispose of the question of Isthmian tran sit by forthwith taking poseession of the Isthmus.

Letting thls statement stand apon the authority of General Sickles, which ought to be good in such a case, the point of interest which it possesses now is that the action of our Government lmmediately fol. lowing the secession of Panama clearly appears lesa distinctly related to present circumstances as to the canal, and more in line (in a sense) with precedent, than it might have appeared before. There may also be a significance in noting that at the time of this declaration- in the nature of an ultimatum made to Colombla-Mr. Seward was Secretary of State, and that it was Mr. Seward who said, as already quoted, that this country will hold itself in readiness to protect Isthmian transit against "elther domestic or forelgn disturbers of the peace of the State of Panama." This langaage clearly meant then, and has meant ever since, that the United States will not permit any distarbance of the peace, by whomsoever or on whatsoever account, on or near the tranait atrip, bat that quiet and order shall be maintained there. If our Government, nearly forty years ago, was so determined apon this policy that it was ready, if necessary as a mears of carrying it out, to take possession of the Isthmus, we clearly have a preoedent which is strongly confirmatory of lis pollcy under the treaty and in line
with what the Government actaally did lately to the ssme end.
As illustrating the character of South Americans, General Sickles told a story substantially thus: At Bogota he met a typical South Amorlcan general, scarred of face from sabre-cuts and bedecked with plumes and gold lace, who rolated how, after he had set up a government in Bogota, he asked for a mission to Earope and falled to get it to hls satlafaction ${ }^{6}$ whereupon he hired a handful of men; having thom he successively got more recrults until ho had quite a little army; he marched then from the Pacific to the capltal, engaged and overcame the Government forces and put the Government and Congress in jall; he kept them there untll they acceded to his terms, whioh prudently included advance payment of four years' salary as diplomat; then he released them, and set up again the Government which he had just overturned after having previously set it ap.
However embellished this tale may have been, it is not intrinslcally improbable when contrasted with the late revolution in San Domingo, for instance. But General Slckles distinguished the one ln Panama as the most respectable he had ever known on the Continent. The treaty of 1846, in his view, was made in distinct contemplation of both railroad and canal, and ever slnce that date the people of Panama have been living $\ln$ and upon the hope and expectation of the canal. Here again is confirmation, from an evldently competent source, that to the people of Panama the canal was a "cause;" that separation was therefore an inevitable result of the rejection of the treaty; and that the outbreak, instead of having been fominted by anybody, was really the spontaneous act of the people. Considering it to have been such, in vlew of the long fixed determination of this country, In pursuance of the treaty, to permit no breach of the peace apon the Isthmus, under any circamstances, the success of the movement in becoming a do facto government was assured from the start; and it seems to grow more credible that the course of events durlng the last slx months has been from natural and lreesistible forces.

ITEMS ABOUT BANK8, BANKERS AND TRUST CO'S
-The public sales of bank stocks this week aggregate 380 shares, of which 230 shares were sold at the Stock Exchange and the remainder at auction. No sales of trust company stooks were,made and no transactions in either banks or trust company shares were reported from the "curb" market.

| Shares. Sank-New Pork. | Price. | Last previous sale. |
| :---: | :---: | :---: |
| "230 Commerce, Nat. Bank of. | 195-199 | Nov. 1903-19818 |
| I30 Federal Bank | $98^{1} 8$ | Nov. 1903- 99 |
| 20 Northern National Bank. | 119 | Nov. 1903- 120 |
| 100 Phenix National Bank. | 100 | Nov. 1903-101 |

## 斤Assessment unpald, * Sold at the Stook Exohange.

-A Cleering Honse Association has been organized in Lebanon, Pa., and will begin operations December 1st. Its membership includes the five national banks of the city, viz. Lebanon National, capital, $\$ 200,000$; Farmers' National People's National and Valley National, capital, $\$ 100,000$ each,' and First National, $\$ 50,000$, and the Lebanon County Trust Co., capital, $\$ 125,000$.

- Mr. George S. Lancon of 25 Broad Street has sold his membership in the New York Stock Exchange for $\$ 55,000$. The reported bayer is Herbert B. Smithers. Mr. Smithers is the son of F.S. Smithers, who is a member of the Governing Committee of the Exchange.
-Mr. William Eagene Kimball, of R. J. Kimball \& Co., his city, has been chosen to succeed his father, the late Robert J. Kimball, 8 a trustee of the People's Trust Company of Brooklyn. Mr, Kimball was also elected to membership in the Now York Stock Exchange this weok.
-Interests identified with the drug, iobacco and jewelry trades in the neighborhood of Maiden Lane, this city, are arranging to organize the Maiden Lane National Bank. While the project was originally set on foot in July (as announced in these columns at the time), when its application to organize was approved by the Comptroller, the present preliminaries are virtually the resalt of a movement by entirely new intereste. The members of the organization committee are Messrs. Robert D. Kent, Seth E. Thomas, William M. K. Olcott, L. W. Sweet, William M. Perkins, Henry J. Braker and George E. Fabys. T The new institution will have $\$ 350,000$ capital at $\$ 105$ per share, over $\$ 100,000$ of which has already been subscribed. The bank's oflices will be located in the immediate vicinity of Maiden Lane and William St.
-The plans for the organization of the new Lexington Trust Company have reoently been abandoned. As previously announced in these columns, Lyman G. Bloomingdale, of Messre. Bloomlogdale Bros, of this city, was largely Interested in the proposed institation, which.was to have had $\$ 500,000$ cspital and $\$ 250,000$ surplas, with oftices at 748 Lex. ington A venue, between 59 th and 60 th streets.
-C. G. Alford, ex-President of the 'Jewelers' Board of Trade, was at a special meeting this week elected Presldent of the Maiden Lane Safe Deposit Company of this city in place of Mr. Bird S. Coler, resigned. Mr. Coler, who had been President of the oompany since its organization one year ago, withdrew on account of the pressure of other busi. ness activities. Louis Windmuller succeeds Mr. Alford as Second Vice-President.
-The Nassau National Bank of Brooklyn shows continued growth, according to its latest statement to the Comptroller on November 17. Its deposits have increased to $\$ 4,545,819$, a gain of $\$ 258,822$ since September 9th, while its total resources now reach $\$ 5,859,820$ and its sarplas and profits $\$ 662,255$. The institution was organized Janaary 1859, and has \& working capital of $\$ 300,000$. Besides Thomas T. Barr and William A. Nash (of the Corn Exchange Bank of this city), who are President and Vice-President, respectively, of the Nassau National, the management includes Edgar McDonald, Cashier, John W. Sesman and Daniel V. B. Hegeman, As' sistant Cashiers. The board of directors consists of Alexander M. While, William M. Ingraham, Robert H. Woodward, William A. Nash, Frank Bailey, Crowell Hadden, Carll H. De Sllver, Frank Lyman, James H. Taylor, Alexander M. White Jr, and Thomas T, Barr.
-Mr. James Gascoine, President of the People's Bank of Brooklyn, died yesterday at the age of sixty yeara, Mr. Gascoine furthered the organization of the bank, and has been President of the institution since its opening in 1893. Mr. Gascolne took an interest in the political life of Brooklyn, although he held bat one municipal office, that of Excise Commlasioner, ander Mayor Wurster.
-The Sprague National Bank of Brooklyn has a new Cashier in Mr. W. Condit Varlch, who saccoeds Mr. James M. Doremus, the latter retiring to enter private buslness. Mr. Varich has for the past two years been a nationsl bank examiner for New York City, Brooklyn and Jersey City, previons to which he was for eleven years with the Fourth National Bank of this city.
- -Plans to eatablish a national bank in Jamaica, L. I., are now belng considered. The institution will be designated the First National Bank of Jamaica, and will have a capital of $\$ 200,000$ and sarplus of $\$ 50,000$. Mr. John L. Sutphin, President of the Jamaica Savings Bank, is interested in the movement.
-The directors of the London \& River Plate Bank, Lim. ited, London, have declared a dividend of eighteen per cent to the shareholders for the year ending on 30th September last.
-Mr. James P. Phllip has been elected Presidant of th $_{\theta}$ Catakill National Bank at Catskill, N. Y., to succeed Mr. Isasc Prayn, who on account of advancing age resigned on Nov.9. Mr. Pruyn in point of service was one of the oldest Presidents, havlng served continnously thirty-one years. Mr. Philip is a lawyer and formerly practiced law in the Borough of Brooklyn.
-The increase in the business of the Plainfield Trust Com pany of Plainfield, N. J., has led to the appointment of an Assistant Secretary. Mr. Edward F. Feickert, formerly
with Mesrrs. Kountze Brothers, Bankers, New York, has been elected to that office. The company began business in June, 1902, with a capital of $\$ 100,000$, and in a little over one year its deposits have reached $\$ 750,000$. Its officers are: O. T. Waring, President; A. V. Heely, Vice-President; H. A. McGee, 2d Vice-President; J. Herbert Case, Secretary and Treasurer; Edward F. Feickert, Assistant Secretary.
-The program to ba presented at the first annaal meeting of the New Jersey Bankers' Association, to be held in January at Atlantic City, is being prepared. Secretary of the Treasury Shaw is to be one of the speakers on this occasion.
-Mr. Austin Saider has resigned the post of Cashier of the Trenton Banking Company of Trenton, N. J., on account of ill-health. Mr. Snider had been in the bank's service for thirty-three, years.
-Mr. Bertram D. Blaisdell has been elected an Assistant Cashier of the First National Bank of Boston, with which, it will be remembered, the Massachusetts National was merged the latter part of June.
-In a statement bearing date October 8 the Merrill Trust Company of Bangor, Me., reports deposits of $\$ 284,628$. The company succeeded on June 1 the private banking firm of Merrill \& Company, and the October return is the first made since the conversion. The institution has a capital of $\$ 100$,. 000 and sarplas of $\$ 25,000$. Mr. Edwin G. Merrill is the President and Mr. W. B. Hassard Treasurer.
-Mr. Andrew Wheeler, a director of the Central National Bank of Philadelphia and one of its most trasted advisers, died recently in that city. Mr. Wheeler was intimately identified with the bank's success, having during his thirty-six years' connection with the institation taken an active interest in its affairs.
-Mr. John Dickey, one of the founders of the Ninth Nstional Bank of Philadelphia, died on the 20th inst. at the age of seventy-nine years. Mr. Dickey became President of the bank in 1885, but retired several years ago. He was still one of its directors at the time of his death.
-At a recent mesting, the directors of the Merchants'Savings \& Trust Company of Pittsburgh elected Mr. Elmer E. Batchelor Assistant Secretary and Tressurer.
-On December 7 an application for a charter will be made for the Foreigners' Doposit \& Exchange State Bank of Pittsbargh. The incorporators are Mr. T. Hartley Given, Hay Walker Jr., James H. Reed, M. K. McMullin and Harry Alvan Hall. The capital is to be $\$ 200,000$. The institation will engage in a general banking basiness.
-Mr. V. W. Boyd will on December 1 aesume the duties of Secretary of the Wilkinsbarg Real Estate \& Trust Company of Wilkinsburg, Pa, having recently been elected to that office. Mr. Boyd resigns as Secretary and Treasurer of the Pradential Trust Company of Pittsburgh, where he will be succeeded by Mr. James L. Lowrie.
-The bailding to be erected by the Diamond National Bank of Pittsbargh is to be twelve stories, instead of twenty, as was announced in the early reports, although the foundstion is to be of such strength as to permit of cioht adjitional stories if it should later be decided to carry the bailding to that height. The contract for its constraction was awarded on the 12th inst; work, however, will not begln antil April next, and the expectation is that the building will be completed the following December. The stracture will replace that now occupied by the bank at the intersection of Fifth Avenue, Union Street and Liberty Avenue. The exterior will be of simple and imposing design, while the interior will be richly furnished, marble, mosaic and solld bronze entering into the constraction. The Diamond Savings Bank will aleo be housed in the same bailding.
-A recent issue of the "Pittsburgh Gazette" contains the information that the stock of the Fidelity Title \& Trust Company of Pittsburgh has now been placed on a $16 \cdot$ per cent basis, the recent quarterly dividend announced being 4 per cent. This is an increase of 4 per cent per annum over last year's rate, when the amount had in tarn been advanced from 6 per cent to 12 per cent. The company's capital was increased the present year from $\$ 1,000,000$ to $\$ 2,000,000$, the final payment on the new stock (roted last Dacember) having been made on October 1. The surplus is now $\$ 3,000,000$.

Undivided profite, it is stated, are $\$ 1,280,714$, while net profits for the year ended October 31, it is reported, wero $\$ 388,250$. Mr. William 日. Staske was chosen a direotor of the company at the annual meeting on the 12th inst., to succeed Mr. J. Levering Jones.
-Mr. Harry A. Johnston has been appointed Assistant Cashier of the Lincoln National Bank of Pittsburgh. Mr. Johnston was previously the paying teller of the bank.
-The Third National Bank of Cincinnati, Ohio, which may lay claim to possessing one of the baudsomest bank buildings in the West, moved into its new howe (located on West Fourth St.) several weeks ago. Designed exclnsively for the bank's own use, the quirters are most commodions. The main bsaking roous, $63 \leq 115$ feot in size and 67 feet high, is well lighted from the roof, and splendidly equipped in every particuiar. Safety-deposit boxes to the number of 3,500 are contained in the immense steel vanalt in the rear of the bank. The present officials of the institation are : Presídent, Mr. J. D. Hearne; Vice-President, Charles G. Kıllogg; Cashier, Wiliam A. Lemmon; Assistant Cashier, C. T. Perin.
-On November 1, with the payment of a dividend of $11 / 2$ per cent to the depositors of the Cincinnati Savings Sociely of Cincinnati, Ohio, the last step was taken in the matter of the absorption of that institution by the Union Savinge Bank \& Trust Company of Cincinnati.
-Preparations are being made to open the Euclid Avenue Truet Company of Cleveland on Dacember 7. A call for twenty-five per cent of the $\$ 500,000$ was recently issued, the amount being payable a week ago. The instítution will looate at 84 Euclid Avenue, and will have as its officers Mr. W. H. Crafts, President ; I. N. Pennock, Vice President; and R. S. Thomas, Secretary and Treasarer.
-An incresse in the capital of the Citizens' Banking Company, of Norwalk, Ohio, was suthorized at a meeting of the stockholders held on the 19 th inst. The addition is $\$ 50,000$, raising the capital to 100,000 . The stockholders bave waived their right to fifty per cent of the new issue, which will be held in the treasury and disposed of to new interests from time to time as the board may direct.
-The first dividend to the depositors of the commeroial department of the City Savings Bank of Detroit, Mich., amoanting to $121 / 2$ per cent, was recently authorized, payable on or before the 10 th inst. At the same time a 15 per cent dividend to the savings depositors of the company was directed. The dividend to the ssvings depositors is the second, one for 20 per cent having been paid them a year ago. The Union Trust Company of Detroit is the receiver of the bank, which suspended in February 1902.
-Battle Creek's (Mich.) now bank, the Central National, opened on Friday of last week. As heretofore noted, the capital is $\$ 200,000$ and the surplus $\$ 50,000$. Mr. E. C. Hinman is President and his associates are Frank Woolfo and Carroll L. Post, Vice-Presidents, and Frank G. Evans, Cashier.
-Mr. William A. Pungs, who was succesded last January as President of the Contral Savings Bank of Detroit by Mr. William Reid, sold his holdings in the bank on the $12 t \mathrm{th}$ inst. to Mr. Samuel T. Douglas, The bank has a capital of $\$ 100,-$ 000 , of which Mr. Pange held aboat $\$ 35,000$. A portion of this was re-sold by Mr, Douglas to some of the bark's patrons.
-Announcement of the saspension of the First National Bark of Dandee, Ill., was made on Monday. Alleged discrepancles in the accounts, it is said, led to the closing. The capital is $\$ 50,000$ and the deposits (Sept. 9) $\$ 143,222$. Mr. D. A. Cook, National Bank Examiner, is in charge as receiver.
-Finley Barrell \& Company, Chicago brokers, will open a branch office at 11 Jactson Boulevard, on the ground floor of the superb new Railway Exchange Building, as soon as it is completed, which, it is now expected, will bo early in 1904.
-Everez, Follansbee \& Company of Chicago have emplosed as Cashier Mr, W. E. Wright, formerly Assistant Cashier of the First National Bank of Aarora, Ill.
-The banking house of J. B. Russell \& Company of Chicago annonnces the ongagement of Mr. C. L. Hardman, until lately Cashier of the Fourth National Bank of Dayton, Ohlo, as Mansger of their Dayton office, with headquarters at 905 Conover Building,

- Mr. E. C. Cooke has adranced from the position of Secretary to that of President of the Minneapolis Trast Company of Minneapoiis, Minn. Mr. Samnel Elli, Mr, Coote's prede. cessor as head of the institation, reliuquishes the office to make his home in Seattle,
-Jonathan Rice, a director and Vioe President of the Mercantile Trust Company of St. Lonis, died at his home on the 33d inst. Mr. Rice was a Bavarian by birth, but came to this conntry when he was 17 gears old, and, by a career of industry and thrift, attained a commanding position in the commercial ciroles of St. Louis and the West. His age at the time of his death was 60 years.
-The annal meeting of the Atlanta (Ga.) Chamber of Commerce was held on Tuesday, at which the following officers were elected: President, Mr. Robert F. Maddox of the Maddox-Rucker Banking Company; Vice-Presidents, Samnel D. Jones and Frank M. Inmun, and Treasarer Joseph T. Orme, Cashier of the Lowry National Bank. Mr. J. F. Beck is Third Vice-President. The choice of President is an excelient one, Mr. Muddox being exceptionally qualified to meet the requiremonts of his latest office. He is Vice-President of the Maddox-Racker Banking Company, and in addition holds several other positions of trust.
-The stockholders of the Germania Savinge Bank of Charleston, S. C., took favorable action on Taesday on the proposition to surrender the present charter for the purpose of obtaining a new one giving to the company more liberal powers than are now conferred.
-The Oblahoma Bankers' Association met at Gathrie on the 17th and 18 th inst. for its annual session. Mr. H. P. Hilliard, Cashier of the Mechanics' National Bank of St. Louis, Mo., was present, and addressed the delegates on the sabject of "The Clearing House." "The Banker and Politios" was discussed by Mr. Frank Craig, Cashier of the City National Bank of Soath McAlester, I. T., while extemporaneous remarks were made by Ex-Attorney General of Oklahoma J. C. Strang. The officers for the ensaing year are President Mr. Frank J. Wikoff, President of the National Bank of Commerce of Stillwater; First Vice President, Charles E. Billingsley, President of the Capitol National Bank of Guthrie; Second Vice-President, H. A. McCandless, Cashler of the Exohange Bank of Perry; Secretary (re-elected), H.W. Painter, of Gathrie; and Treasurer Charles W. Brewer, Cashier of the First National Bank of Arapaboe.
-The opening of the new building of the City National Bank of Dallas, Texas, occarred on the 16th inst. Daring the construction, which had been in progress since Aagust 1902, the bank was domiciled in the North Texas Bailding Its new home has been equipped with every contrivance now found in modern banking stractures, and has been fitted out in a correspondingly attractive style. The bank is managed by Mr. E. O. Tenison, President; J. C. O`Connor and J. E, Schneider, Vice-Presidents; C. R. ${ }_{0}$ Baddy, Casibier, and B. D. Harris, Assistant Cashier.
-The creation of the Arizons Bankers' Association was effected at a meeting of the bankers of the territory held on the 13th inst. at Prescott. All bat three of the banking institutiors in the territory were represented at the meating, at which Mr. R. N. Fredericks, Cashier of the Prescott National Bank of Prescott, was chosen President for the first year. The other officers are: Vice-President, A. G. Smith, Cashier of the Gila Vailey Bank \& Trast Company of Clifton; Secretary, J. J. Sweeney, Assistant Cashier of the National Bank of Arizona at Phonix; and Treasurer, John M, Ormsby, Assistant Cashier of the Arizona National Bank of Tucson.
-As befits a bank of its size, the Oakland Bank of Savinge at Oakland, Cal,, which not only stands first among the banking institutions of that city in the matter of capital, surplus and profits, but in the amonnt of deposits as weli, has most commodions and attractively farnished quarters. An inspection of a pamphlet issued by the bantr gives some idea of these quarters, considerable space being devoted to views of the various departments. The pamphlet contains also interesting data regarding the several branches of the bank's business-commercial, savings, real estate and safe deposit. The institation was incorporated in 1867 with a capital of $\$ 150,000$, which was increased in March 1889 to $\$ 300,000$. The amount was again increased in May 1871 to $\$ 1,000,000$,
of whioh $\$ 40,000$ (representing 9,600 shares at $\$ 50$ a share) has been paid in. The officers are Mr. Isaac L. Requa, President; Eenry Rogers, Vice President; W. W. Garthwaite, Cashier, and E. C. Hagar, Assistant Cashier.
-The Atlas Loan Company of St. Thomas, Ontario, has accepted the terms offered by Messrs A. E. Ames \& Company of Toronto in settlement of the former's claim. The company suspended in June, its failure being in part due to the difficulties of the Toronto house. The settlement provides for the payment to the loan company of $\$ 34,000$ in instalments, as follows: 25 per cent within fifteen days after the acceptance of the offer, 25 per cent on January 15 next, 25 per cent on July 151904 and 25 cent on January 151905. This is similar to the terms of settlement made last June by Ames \& Co. with their general creditors.

Municipal accounting.-An important conference of Comptrollers, Treasarers, Auditors and other financial officers or representatives of the principal cities in the United States was beld at the invitation of the Director of the United States Census Burean in Washington, D. C., on the 19th and 20th insts. The conference was called by the Director to consider, 1st, the work of compiling mrnicipal statistics now being prosecated by the Census Barean; 2nd, the form in which the annaal reports of cities (from which the statistical dats are derived) should be expressed so as to convey the maximam of desired intelligence and ultimataly lead to uniformity in municipal accounting.
The new plan for reporting the manicipal finances of New York City, recently submitted by Messrs. John R. Sparrow, Richard M. Chapman and Duncan McInnes, Certified Pablic Accoantants, to Comptroller Grout, occupied considerable attention. It was made clear to the conference that one of its chief features, distinguishing it from the plans pursued by all other cities, was the facility with which receipts could be related with the purposes to which such receipts are applicable. This is a feature which, in the opinion of the Census Statistician, will prove of great value and enlarge the scope of statistical compilations beyond what has hitherto beon contemplated,
Considerable time was devoted by the conference to the discussion of aniform manicipal reports, and, as a means to that end, of aniform systems of city accounts, entailing as farther considerations the classifications of cities according to population; the prescribing of anbstantially similar forms of budgets for;each class designated; the classification of manicipal expenses in proper groups and in accordance with univereal nomenclature; the systematizing of the forms and procedure of departmental estimates; the regulating of the collection of manicipal revenues and the institation of proper legislation in the several States to effect sach ends.

Among the papers read were those by John $R$, Sparrow on "Manicipal Reports and Accoants-the work of the Cenas Bureau, a potent factor in the fartherance of uniformity"; by Richard M. Chapman on "Mnaicipal Statistics," and by Dancan McInnes on "The Manicipal Balance Sheet-what are to be regarded as its purposes; what ele ments should it display, and what is the significance of ite balance." An advisory committee was appointed to continue in connection with the Cenens Bureau the work begnn by this conference. The committee is composed of the following members: L. E. McGann, Comptroller Chicago, Chairman; Edward M. Grout, Comptroller New York; H. B. Henderson State Examiner of Accoants, Cheyenne, Wyoming; John R. Sparrow, C. P. A., Superintending Accountant and Statistician, Department of Finance, New York City; Edmard M. Hartwell, Secretary Statistical Department, Boston; Joseph T. Tracy, Depaty Commissioner Burean of Uniform Accounting, Columbas, Ohio; George Forman, City Anditor, Newark, N. J.; H. L. Anstin, Chief Accountant, State Comptroller's Office, Albany, N. Y.; Allen Ripley Foote, Editor Pablic Policy, Chicago, and Harry T. Upham, City Auditor, Csmbridge, Mass.

## IMPORTS AND EXPORTS OF GOLD AND SILTER AT'SAN FRANCISCO.

Throagh the caurtesy of the Collector of Customs at San Francisco, we have received this week the details of importand exports of gold and silver through that port for the
month of October, and they are given below in conjanction with the figures for preceding months, thas completing the results for the ten months of the calendar year 1903. The imports of gold were of considerable volume, reaching $\$ 1,723$,617 , mainly coin. Of silver there came in $\$ 522,376$, mainly ballion and ore. Daring the ten months there was received a total of $\$ 3,262,128$ gold and $\$ 2,236,057$ silver, which com pares with $\$ 7,351,880$ gold and $\$ 8,044,147$ silver in 1902 . The shipments of gold during October were of very emall volume, reaching $\$ 5,880$, all coin, and the exports of silver were $\$ 75,203$, mainly bullion. For the ten months the exports of gold reached $\$ 1,775,748$, against $\$ 2,189,519$ in 1902 , and 1,6S3,192 silver was sent out, against $\$ 6,884,078$ in 1902. The exhibit for October and for the ten months is as follows:

## 

## [Fronl our own corresponaent.」

London, Saturday, November 14, 1903.
Markets have been utterly stagnant throughout the week, jet there is a fairly good andertone. But the withdrawals of gold from the Bank of England for shipment to New York naturally excite apprehensions, Nobody knows how mach gold may be taken, and therefore everybody is apprehensive that the Bank rate may have to be raised; that in consequence money may become both scarce and dear; and as a result everybody is afraid to engage in new risks. Moreover the long-expected report of the Labor Commission sitting in the Transvaal has not yet been issued. The legislative body will meet on the last day of the present month, and everybody assumes that the report will be issued before the Legislatare meets.

And the relations between Russia and Japan furnish a reason for cantion. Early in the week ramors circulated that a hitch had occurred in the negotiations at Tokio and that the danger of war was materially increased. The rumors, however, have been oontradicted, and the later report that Admiral Alexleff has been ordered to St. Petersbarg gives a hope that more peacefal conncils have prevailed. The Czar himself, everybody is aware, is strongly desirous of peace; bat he is kept in the dark by his entoursqe, and his wishes, therefore, count for very little. Those who are best acquainted with what is going on at St. Petersburg believe that Count Lamsdorff is as eager for the maintenance of peace as the Czar himself, whereas Admiral Alexieff is eager for wars and he is supported by the military party and even by some members of the Imperial family. There has been a report this week that Count Lamsdorff has lost favor with the Czar. Indeed, the report went so far as to say that hle resignation or dismissal is imminent. If he goes the general impression in Europe will be that the last chance of maintaining peace bas gone with him:

On the Continent markets have been decidedly better than in London. In Germany the improvement that set in some months ago is making steady progress. This week, it is true, there has been some decline in the prices of industrial
securities, bat they are very mach higher even now than they were a couple of months ago, and consequently the Stock Exchange has made a fair amonat of money. Everybody is looking hopefally forward to the fatare, and as manufacturers had immensely increased their factories and machinery before the crisis, they believe that they are now in a position to trade mach more successfally than ever before. In France the Boarse also has made money in Tarks, in Spanish, in Italian and in Sonth Amerioan securities, and there is a more hopefnl feeling. Just at the mowent, however, there is a panse in business, partly becanse of the ntter stagnation in London and partly in preparation for two important loans abont to come out. On the 24th of this month there will be lasued a loan of the Credit Foncler for 300 million francs or 12 millions sterling, and a little later a loan of the Clty of Paris will be broaght. The terms of the loan and its date are not yet fixed, but it is bslieved that it will amonnt to 100 million francs, or 4 millions sterling, and that the date of issue will be early in December.

The Directors of the Bank of England, althongh they knew that a considerable amount of gold was being withdrawn for shlpment to New York did not make any change in their rate of discoant on Tharsday. Apparently, they hope that the amount taken for New York will not be inconveniently large. If, however, their opinion proves wrong, they will doubtless raise the rate promptly. They have made the 4 per cent rate quite effective, and they seem to be borrowing once more, evidently for the purpose of forcing up the rate in the open market should they find it necessary to advance their own rate to 5 per cent. It is not thought probable that much gold would be obtained from Germany if the American demand were to prove larger than the :Bank of England conld afford to lose. But the best opinion isjthat if the Bank of England had to ralse its rate to 5 per cent, it would be possible to send two or three millions sterling from Paris to New York. Unless the rate is to rise to 5 per cent, however, it is not probable that gold will go from Paris, for the Paris exchange apon London is entirely too low at present, and money is in better demand in Paris than it has been for some time past. To a large extent this is due to the prepara. tions already being made for the Credit Foncier loan. It is expected that the applications will be very large, and that in their eagerness to get allotments many persons will withdraw balances from London. For a few days, therefore, it is possible that the London money market may be distnrbed by those withdrawals, But the disturbances cannot last long. In addition to the preparations for the two loans, gold is still going from France to Italy, and moreover the with. drawals from the French savings banks continue. In consequence of all this, it is improbable that gold conld be ob tained from the Bank of France anless the Bank rate in London is raised to 5 per cent. Were it pat up to that, the best opinion in Paris is that 2 or 3 millions sterling in gold conld probably be obtained from the Bank of France for shipment to the United States.

The Indis Council continaes to sell its drafts well. It offered for tender on Wednesday 50 lacs and the applications amounted to nearly 380 lacs, at prices ranging from 18. 4d, to 18. 41 -16d, per rupee. Applicants for bills at 18. 41 18d were allotted abont 30 per cent of the amounts applied for. Later in the day the Conncil sold two lacs in bills at 1s. 4 8-32d, per rupeo.
The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, \&c* compared with the Iast three years :

WALL ETREET, FRIDAY, NOV. 29, 1903.-3 P.M.
The Money Market and Financial Situatlon.-The security markets have been very largely in the hands of professional traders this week. Encouraged, no doubt, by the recent decline in United States Steel shares, they raided some of the allied issues and were successful in forcing several sharp declines. There seems to have been very little resistance to such efforts. On the other hand, some of the industrials advanced in the fuce of the depression noted, and the railway list was generally strong throughout the week.

The morement first noted was made somewhat easier by a firmer money market, call-loan rates having been quoted as high as $S$ per cent. This rate, however, was temporary and its inflnence in part offset by further engagements of gold for import. Otherwise there have been no developments directly affecting security values.

There is an increasing interest in financial circles as to the probable action of Congress in the matter of currency legislation, and this interest will probably continue until our present system is succeeded by a better one, or one better adapted to the needs of the country.
The open market rates for call loans on the Stook Exchange during the week on stock and bond collaterals have ranged from 2 to 9 per cent. To-day's rates on oall were $51 / 2$ to 7 per cent. Prime commercial paper quoted at 6 per cent for endorsements and 6@61/2 p.c. for best single names.
The Bank of England weekly statement on Thursday showed a decrease in bullion of $£ 153,436$ and the percentage of reserve to liabilities was $49 \cdot 52$, agalnst 49.92 last week, the disconnt rate remaining unchanged at 4 per cent. The Bank of France shows an increaso of 875,000 francs in gold and $6,450,000$ franos in siiver.
The New York City Clearing-House banks in their statement of Nov. 21 showed a decrease in the reserve beld of $\$ 3,747,500$ and a surplus over the required reserve of $\$ 3,911,35$ ), against $\$ 3,138,425$ the previous week.

The following were the rates for domestio exchange on New York at the inder-mentioned cltles to-aay: Savannah, 621/2c. per $\$ 1,000$ discount; Charleston, 50 c . per $\$ 1,000$ disconnt; New Orleans, bank, $\$ 125 @ 1$ per $\$ 1,000$ discount;
oommerolal, \$1 50@1 25 per \$1,000 discount; Chioago, 10c @1כ̌. per $\$ 1,000$ premium; St. Louts, 10c. per $\$ 1,000$ discount; San Francisco, par.

State and Railroad 13onds.-No sales of State bonds have been reported at the Board this week.

The market for railway bonds has been generally steady, although there were a few exceptional features. Daily transactions areraged nearly $\$ 3,300,000$, and were better distributed than they have generally been of late.

United States Steel is have been the active feature and declined 2 points. Colorado Fuel \& Iron convertible 5 s were notably weak, having declined over 5 points. Rock Islaud issues have also been weak. Green Bay \& Western debenture certificates liave been unusually active, and, with St. Louis Southwestern consol 4 s , advanced over a point. The active list also includes Union Pacific, Atchison, Burlington \& Quiney, Baltimore \& Ohio and Wabash bonds.
United Stntes Bonds. - Sales of Government bonds at the Board include $\$ 6,0004 \mathrm{~s}$, reg., 1925 , at $1341 / 4$, and $\$ 7,000$ 3 s , cout., 1908-18, at $107 \frac{1}{2}$ to 10 S . The following are the daily closing quotations; for yearly range see thrara page following:

Railroad and Miscellaneons Stocks.- On a somewhat smaller volume of business than last week, the stock market has bren highly irregular, especially in the miscellaneous department. The railway list, with few exceptions, shows farther recovery, notwithstanding a general weakness and some rather sharp declines on Tuesday.
Union Pacifio, Southern Pacific and Pennsylvania bave been the active features, and each is fractionally higher than last week. The grangers have been inclined to weakness, but Louisville \& Nashville made a net gain of over 2 points, and the local transportation issues have been active and notably strong. Otherwise the list has been dull and featureless.

The miscellaneous list received special attention from the trading element, during which several usually inactive issues were brought into prominence. Republic Iron \& Steel preferred was the most active of these and sold down to within a fraction of 36 , a decline of nearly 16 points. At the same time Corn Products declined $71 / 2$ points, General Electric $51 / 2$ points, Pressed Steel Car $51 / 2$ points and Colorado Fuel \& Iron nearly 5 points. On the other hand American Ice preferred advanced 3 pointa, a part of which it has lost. American Sugar Refining and the copper stocks have been strong. The United States Steel issues have fluctuated within a narrow range and close without important change.

## For daily volume of business see page 2087.

The following sales have oocurred this week of shares not represented in our detalled list on the pages whioh follow

Ontaide Market-Extreme dulness has prevailed in the market for unlisted securities this week, and the tendency of prices generally has been downward. To-day values recovered somewhat in the early trading, but reacted again at the close. Northern Securities stock lost a point to 87, and to-day, after reaching $887 / 8$, it fell back to $881 / 8$; the last sale was at $883 / 8$; total transactions for the week in this stock aggregated less than 2,000 shares. Interborough Rapid Transit shares were severely depressed; this stock on Monday sold at $881 / 2$, a decline of $61 / 2$ points from the close on last Friday; to day the price advanced to $901 / / 3$ but the close was at 891,4. Seaboard Air Line common sold down from $143 / 8$ to $131 / 8$, but to-day it rose to $137 / 8$; the preferred shares have been very quiet, the only sale reported being on Saturday at $243 / 3$. Standard Oil stock moved down 15 points to 649. An interesting incident of the trading was the sharp rise on Tuesday in the price of Cuban 6 per cent bonds of 1896, due to rumors that the Cuban Government would make a favorable readjustment of its debt. The price of these bonds advanced from 42 to 50 ; the last previous sale reported was last week at $371 / 2$. Greene Consolidated Copper dropped $11 / 2$ points to $121 / 2$, bat to-day it recovered to 13 ; the close was at $127 / 8$. Tennessee Copper declined from 30 to 283/4, while United Copper lost 31/2 points to 12.
Outside quotations will be found on page 2087.

## Alabsma Great Southern Railroad.

(Report for the year ended June 30, 1903.)

## President Samuel Spencer says in substance

DIFIDENDS. - Current dividende (aggregating 6 p. o.) declared during the gear on preference sharts whe oharged againet income, and the

 pald darlif the jear argiegate \& pe
oent of nnfanded arrears still unpsir.
Financlal - Thrre has been no ohange in the amount of stook or funded deht ontstanding. The total charges to capital acoount were $\$ 182,650$, reprarenting the cost of 190 rreluht cars and 5 locomotives. Equipmant ib igationa inourr-d during year onvering part cost of to reserve ancount for replacemannuent
OpRRATIONS- I he increane of 18.93 per oent in maintenance of way and strutures was due to: Reduction of grade and donble-tracking betwetn Birmingh mand rondale, Ala., \$28.450; new ining8, \$30,465; Dew ard adaitinal balldinga and repalrs, \$7,977. The expense due princlpaly to it crease in wares. higher price of material, ohiefly in the cost of fuel, and to the huavy incraase in train mileape
There was an incrrase in revenue from passengers of \$109.013, or 17.68 per oent, as oompared with the previ,us fear. The number of
passenkers ourrled 11 mile inoreased $3, t 68,321$, or 14.24 par cent. The passenkers currled 1 mile inorexued 3, 68,321 , or 1424 par cent. The
 2.37 oents, an in iease if a.38 per cont. The average earninga of
paseengertralns per mile run were $\$ 1 \cdot 13$, as compared with $\$ 1 \cdot 13$ for the previons year
There was an increase in revenue from frelehts of \$149.609, or 936 per oent. The number of tons of comm-rclal frelght carried one mile increaned $24,588,945$, or $11 \cdot 10$ per ount. The average rate per ton
per mille was 0.71 of $\&$ ornt, as compared with 0.72 of s oent for the previous var; average earnings of frelght tralon per mile run were $\$ 2 \cdot 35$, as compared with $\$ 2 \cdot 37$, a deoreara ol 083 par cont.
The arrape numb-r of ions of freluht in $\theta$ sh train (inolading oompans's materjal) increased from 338.80 in 1902 to 34216 in 190.3 , 2,288,939, an increase of 378,417 1ons, or 1981 per cent. new 7 -1b. steel rall and 665 threlald furing the year 4, 758 tons of

 wih $75-1 \mathrm{~b}$. tteel rall. The net inereuse in length of side tracks was 8.58 miles.

Durice the past Aleven years the cross-tles pat in the track averaged
 The number ${ }^{\prime}$ my a
 urea, \%,i10; whonen ilestles, $3 \because, 891$.
NEW INDUSTEIES. - During ihe year 72 new induatries, with a capltal inventweut ut nearly $\$ 5,000,000$, were onmpleted and put in opero es Datraction at ine ond of of theal sear. the invertunent in which will annant to $\$$ sinoo, (100 Addilona to 37 plante already eacablisheu represent an investment of about $33,355,000$.

Earnings.-The earnings, balance sheet, etc., of the American company are as follows:

## Alabama \& Vickaburg Railway.

(Report for the year ending June 30, 1903.)

## President C. C. Harvey eays in substance

Opehations. -There is an increase in gross earnings of $\$ 130,703$, or 12.82 per cent; an ilcrease in operating expenses and taxes of \$83, 18.60 per ount passenger arnings ahow an increase of ${ }_{29} 9,291$, or $10 \cdot 24$ per cent. Freight earnings bhum an lucrease of $\$ 80,910$. or 12.64 per cent; the principal increaras being $\$ 28.853$ in lumber, $\$ 11,044$ in grain and hay, $\$ 7,486$ in flour and meal, 86,218 in provinions. $\$ 8,210$ in machinery and casting8, $\$ 5$, 681 in ste日l ralls, $\$ 20,220$ in merohandise and $\$ 6,42 \mathrm{H}$ in coiton sead and hulls. There were decreases of $\$ 12,9 \pm 7$ in cotion and $\$ 9.597$ in cosl.
deparimente and to the enhanced cost of coal. The poliey of thes all ing the physical condition of the property and increasing the eq ipment has also been continued. Malnienance of-way expenses inolnde $\$ 10,07$ i for permanent oulverta and replacement of trestice; $\$ 11,365$ for replaolng 1298 milles of $60 \cdot \mathrm{db}$. ralla with $75 \cdot \mathrm{lb}$. rails; $\$ 8.979$ for
additional sidinga and passing tracka; $\$ 11.821$ for ballaating; $\$ 17,157$ additional sidings and pasing traoka; \$11.821 for balla for ralsing grade and the cost of smaller improvements Maintenance of quipment include $\$ 11,000$ for redewal of engines; and $\$ 511,000$ part cost of 100 new box ears. The expenses 8 iso inclinde the cost of 10 box, 1 froit, 2 coal and 10 flat cars credited to rewlacement fund to take the ulace of a llke number of cars broken ap. Twenty-four box, 5 cosiland is flat cars were nilt and oharged to replacement fund, to take the place of a like number of eara, genfrally of a hyit oapaolty, destroyed. One new freight engine was
puichased and charked to renewal fand. The compan no 0 owns 22 purchased and charked to renewal fand. The compan now owns 21
locomotives, 22 cars in paseenger servioe and 810 freight and other lucomo
cara.
PHYSICAL PROPERTIES. - Of the 142.78 millos of main track, 115.02 malls Durlng whe ${ }_{75} 16$. During the year there wore lald in that $20,3 j 0$ lineal font ( 3.86 miles) of bridge structure, of which 1,487 Itheal fert are fron and 18.903 ilneal Peet are wooden trostie. During ne jear firteen treaties were exiended an aggregate of 1.344 fott. one now trestle, 200 teet. loag. Was bailt and 224 foet of treat, e ware feer in leny permanent embankment. ## GENERAL INVESTMENT NEWS,

## RAIKROADS. INCLUDING STREET ROADS.

Altoona \& Phillpsbarg Connecting RR.-Bonds.-At auction in Philadelphis last week $\$ 34,000$ of the $\$ 400,000$ bonds sold for $\$ 700$ for the lot.-V. 67, p. 123
Atchison Topeka \& Santa FeRR.-Purchase.-See Cane Belt RR, below.
Projected Lines.-President Ripley is quoted as saying in substance:
We contamplate the building of a line to be callod the Eastern Rail Way or Mexleo, Which will be abont 500 miles $10 n g$ and oost $\$ 13$,-
000,000 to $\$ 14,000,000$; aiso a line north from San Franolsoo. For thees the company must naturally become a borrower, but $1 t$ will not borrow exerpi so far as necessary for the acquisition of new properthes and thy oonstruotlon of needed lines. Oousuruotion is not to take
place for two or three years, and will be contingent upon the buineas and financial bicuation.一V. 77, p. 1294, 1224.

Baltimore Ohio RR.-Listed.-The New York Stock Exchange has listed the following bonds, being a portion of those recently sold to Speyer \& Co, and Kahn, Lueb \& Co
 First mortgage su-year 4s, of 19
Bouthweateru Div. 3 lag, of 1925.

The statements to the New York Stock Exchange show that the expenditares on the properties covered by the 'Prior lien and first mortgages from Jaly 1, 1898 to March 31, 1003, for improvements, betterments and enlargement, have been the gross sum of $\$ 30,348,553$," against which $19,000,000$ bonds have been issued, leaving a balance of $\$ 11,848,553$, gainst which the company is entitled to issue fartber bonds. The $\$ 9,000,000$ bonds were withdrawn from the trustee as follows:
Prior lifn. Feb. 5, '02.. $\$ 1,000,000 \mid$ First mort. Jaly 2, 01 . $\$ 1,500,000$
 P1rst mort. Feb. 13,000 . 1,5000000
Note - Additional bonds of said iseues over and above those now 1sted remaln avallable for improvements, viz.: Prine lien iesue. ©l,00,000 eath July 1, $1904-1906$, Incluaive; total, $\$ 3,000,000$; irst mortgage bonds. $\$ 1,000000$ on Julyl1, offeach year trom 1904|to|1923,
The said $\$ 20.348,553$ has been distributed as follows:

##  Philadelphia branoh. fow pler, Phuadelphta Main 1 lne Balumore BeitrR attrrs's Cheltro <br> 300,012 Wheel.Pitts \& Balt. RR. Qaemahoning braneh Balt. \& Ohtn \& Chic.RB Arron \& Chlo.Jnio. RR 27 branohes, eta

Under the Soathwestern Division mortgage the bond with drawals have aggregated $83,600,000$, viz.: Jane 1, 1900, $\$ 1$,000,000 ; Ang. 1, 1900, \$1,000,000; Aug. 1, 1901, \$1,000,000; Aag. 1, 1902, $\$ 600,000$. These withdrawals were made on ac count of expenditares aggregating $\$ 3,609,690$ upon the property covered by the mortgage, namely:
From Jan. 1, 1899, to May 31, 1902, for equipment.......... $\$ 1,658,107$ rom jaly $\begin{gathered}\text { betterments and enlargemonts............................... 1,621,182 }\end{gathered}$ From May 1, 1901, to May 31,1902, for improvements, 330,401
$-\mathrm{V} .77, \mathrm{p} .2040,2032$.
Boston Elevated Ry,-Route Fixed. -The Massachusetts Railroad Commissinn on Nov. 19 upheld the company in its contention for a Washington Street tunnel as against the Devonshire roate selected by the Rapid Transit Commission. $-\nabla .76, ~ p . ~ 918,809$.
Boston \& Worcester Street Railway.-Bonds-Descrip tion of Property - E, H. Gay \& Co., in their circular offering the $\$ 1,250,000$ of $43 / 2$ per cent first mortgage twenty-year gold bonds at 105, say in part:
Carnings.-The road has earned on an average over $\$ 1,000$ a day since Jaly 1, 1903, and on Labor Day the recelpts were $\$ 2,825$. By had earned net more than the Interest oharge on all outistanding bonds for the entire year. It is conservativelvestimated on the present basis of revenue hat he road will earn for the fret year about $\$ 350,000$
grose, from whioh will be derived a net inoome of $\$ 150,000$ or nearly three tla es the interest on the booded indebtedness.
Capitalization. Capital stock (fully paid, in accordance with Mass8.husetts 1aw8), \$1.250.000; first mortgage bonds authorized and
18sued, $81,250,000$. In addition to the above $\$ 1,250,000$ bond on the $188 u e d, 81,250,000$. In addiltion to the above $\$ 1,250,000$ bond on the property, there are held in esorow by the trustee an adaitional 000 , no part of whioh may, nuder the street rail way lawn of Masea000, no part of Whioh may, under the street railway lawn of Massa-
ohusetts, be 1seued except for one half of the actual certifed cost of additions to the present property, and then only by exprese aathorlty the sald cost must Hret be supplied by the stockholdera in compliance with law. An appraisal by engineers of their own seleotion has been made for the Massachnsetts Rallroan Commission, and certifies that the property and assets aggregate q $_{2}, 595,813$
The company owns $4 \theta$ miles or track and operates through oars at Ifteen-minate intervals from Park Square, Boston, over the tramks of the Boston Elevated Railway, thrcugh the popnions oities and towns of Brookline. Newton, Wellesiey, Nalick, Framingham, south Frambury, to City Hall square, Worcester. The company takes passencers at Park square, Boston, from all points on the Boston Elevated Railway, and iranefors them froe of charge to any oars of the Woroestar Coneolldated system, making a total ride of 10 mlles for 40 oents, 44 miles. There is now being bult a branch line abont 1 mile long. over privato right of was, Into the center of Natiok whloh has a popuof abont 9,500
Of the rosa's traftic about 65 per cent 16 through business between ingham and the remaining 15 per oent local. A considerable portion of the road rang over its own private right of way, whtoh 18 owned by the Boston \& Worobster Srreet Railway Oo. in fee simple. The franchises granted by the different oittes and townt throach whioh the rozd runs are broad and liberal in their terms. The construction and Tne ralls are of the most substantial oharacter and modern type. station, located in Framingham, and sub-stationg at Weatboro and Marlboro and at Wellesley Hills, provide all the power required.-V. 27, p. 1745. 823.

Brockville Westport \& Northwestern Ry. - In Possession. -This company, on Nov. 23, took over the property of the old Brockville Westport \& Sualt Ste. Marie Railway (V.76. p. 809), and elected the following officers:

Fresident, John Gerken. New York: Vloe-President. Clarence P. retary, Carsten Helleborn. New York 8ohmitt. M. Zimmerman. W. H. Comstook and R. Bowore of Brockville; James Cumming. of Lyn, and W. O. Fredenbarg, of Weotprrt. Counsel,
The road is to be brought up to the Government standard and extended 20 miles to Sbarbut Lake, on the Canadian Pacific Ry. The anthorized issue of capital stock is $\$ 2,000$.000 , of which $\$ 1,000,000$ is to be 6 p . c. non-camulative preferred ; amount now to be issaed, $\$ 500,000$ of each class ; par of shares, $8100 .^{-}$The rosd is 45 miles in length, extending
from Brockville to Westport, Ont., and it will be bonded at $\$ 10,000$ per mile. The bonde will be 20 year gold 4 per cents dated Dec., 1903, and secared br a mortgage that is limited to $\$ 450,000$; interest payable June 1 and Dec. 1. To build the 20 -mile extension there will be issued bonds at $\$ 25,000$ per mile under a separate deed of trust. The purchasing syndicate is represented by Holm \& Smith, World Building this city. Compare original reorganization plan in V. 76, p. 101.

Brockvillo Westport \& Sanlt Ste. Mario RR.-See Brockville Westport \& Noithwestern Ry. above- - V. 76, p. 809.
Causda Sonthern Ry.--No Parallel Line.-See Pere Mar quette RR. below.-V. 77, p. 950.

Cane Belt RR.-Atchison the Purchaser. -The officials of the Atchison Topeka \& Santa Fe annoanoe that their company bas parchased the entire capital stock $(\$ 100,000)$ of this company, whose road extends from Sealy to Matagorda Texas, 93 miles, with branch 9 miles.

President Ripley of the Atchison is quoted as saying:
The line runs througle a oonntry devoted to the rateing of rice and oane, and has on Its 110 uiles of line flve larke rice mills and a sugar There aro onlv $\$ 750,000$ of bando ont, and these are held by a St
and Louls party. - V. 77, p. 1873.

Chesapeake Transit Co., Norfolk, Va.-New Stock,-The sharebolders will vote $\mathrm{N} \cap \mathrm{v}, 30$ on a proposition to increase the capital stock from $\$ 600,000$ to $\$ 2,500,000$, with a view to new acquisitions. The compsny operates a trolley line from Norfolk to Cape Henry and Virginia Beach. The officers are: A. H. Flint of Flint. Jones \& Co., 15 Broai 8t., President; J. C. Chaplin of Pittsburgh, Vloe-President; s. W. C. Jonee, Treasurer, and
T. Grammont, Not York, Seoretary.-V, 76, p. 211.

Chicago City Ry.-Strike Settlement. -The employees returned to work on Wednesday, having agreed to arbitrate the wage scale on the basis of actual worth of service, as shall be determined by conslderation of wages in other cities; also that the company shall continue to have the right to employ non-anion labor and to discipline, hire and discharge its men without interference in any way.-V. 77, p. 1873.

Chicago General Ry.-Proposition.-The efforts of the owners of the property to readjust its finances by means of the Chicago Midland Transit Co. with $\$ 100,000$ stook and $\$ 600,000$ bonds (see V. 77, p. 1878, ) have led to the sending of the following letter by Secretary Emil A. Basener of the Transit Company to Orson Smith, Chairman of the committee of bondholders:
This company has purchased the transforable recelpts lesned by your oommittee and another oommitte whioh represent more than onepurchases being at the rate of 75 cents on the face of prinolpal for Towre Company bonds and 10 oents on face of General Oompany
bonds, these ratios beiog based on the report of 8. P, Jamieson, Master bonda, these ratios belig based on the report of 8. P, Jamieson, Master in Ohancery in the foreolosure oase. We wonld be glad to arrange a meeting with ynur committee or with the individual depositore of the balance of the outstandíng recelpts issued by the various bond committees.-V. 77, p. 1873,510.
Chicago Midland Transit Co.-Bonds, - See Chicago General Ry. above, - V. 77, p. 1873.

Chicago \& Western Indiana RR.-Called Bonds.-Sixtythree ( $\$ 63,000$ ) general mortgage bonds of 1882 have been drawn and will be pald Dac, 1, at 105 and interest, by J. P. Mīorgan \& Co.-V. 77, p. 400.
Cincinnati Hamilton \& Dayton Rallway Co.-First Dividend on Common Stock.-A dividend of 2 per cent on the common stock hrs been declared, payable Dec, 24. Books close Dec. 14,-V. 77, p. 1290, 1225.
Cincinnati New Oriaans \& Texas Pacifle Ry.-First Dividend on Common Stock.- A dividend of 2 per cent, the first deolared on the common stock since the recapitalization of the company, will be 1 aid on Dec. 1 , ont of the net earninge accumalated prior to Jane, 1903.-V. 77, p. 1743, 1294.
City Street Ry. of Memphis.-Franchise. -The Legislative Conncll of the city on Nov, 20 adopted as a whole the report of the special committee granting this company a 35 -year franchise, conditional upon the deposit, by Jan. 1, 1904, of $\$ 30,000$ earnest money in cash or negotiable secarities, and the beginning and completion of constraction within cer tain periods. The ordinance anthorizes a 5 -cent fare and requires the laying of a pavement 18 feet wide along all streets occupied; also the payment to the city of 1 per cent of gross earnings for the first five jears of franchise, 2 per cent for the following ten years and $21 / 2$ per cent for the remaining twenty jears. The company was incorporated in Tenneesee on Aug. 19 with (nominal) $\$ 50,000$ capital stock. The leading stockholders are Corwin H. Spencer and L, G. McNair of St. Lonis, Mr. Spencer being Vice-President of the Mercantile Trust Co. of that city. The directors of the railway are:

Fletoher R. Harris, Rhen P. Oary, M. M. Bosworth, L. G. MoNair and William Bnokner
Colorado \& Southern Ry. Co.-Listed.-The New York Stock Exchange has listed $\$ 300,000$ additional first mortgage 4 per cent bonds of 1929, making the total listed $\$ 18,803,000$. The new bonds were issued to relmburse the company for the amounts expended during 1902 for additions, improve ments, etc. The nnissned bonds, $\$ 1,050,000$, can only be issued at the rate of $\$ 300,000$ bonds in any one year. Bonds for $\$ 147,000$ have beon retired and canceled, the total an thorized issue having been $\$ 20,000,000$. V. 77, p. 2035, 1870.

Denver \& Rio Grande RR.-Listed. -The New York Stock Exchange has listed $\$ 215,000$ additional improvement mortgage bonds, making the total listed $\$ 8,318,500$. These $\$ 215$,

000 bonds were issaed in part pasment at the rate of $\$ 5,000$ per mile npon 43 miles of completed mileage known as the North Fork brsach, extending from Dilta, Col., up the valley of the Gnanison River, and the Nurth Furk Branch of the Gannison R'ver, into the Coanty of Gannisan, Col.V. 75, p. 1294, 704.

Eastern Trank Liaes.-Retuction of Rates on Exeport Rails. - It was learned on Taesday that the reduction of 331/3 per cent in rates on steel produets, aunouncad by the Trank Line and Central Traftio associations after the meating on Nov. 19, has bэen extended to cover steel rails for ex. port. - V. 77, p 2035.

Goffis Falls Litchfield \& Hadson Elecirle Ry.-Mortgage. -The company recently filed a mortgage to the American Losn \& Trast Co, of Boston, as trnstee, to secare $\$ 300,000$ 5 per cent 25 year golत̉ bonds dae Jaly 1, 1923. A newspaper report states that Wallace D. Lovell, who promotyd the New Etmosbire Tracrion Co, of Eseter, N. H. (page 1931 of Street Railifay Section), is backing the enterprise as part of a proposed tarongh line from Concord, N. H., to Boston.

Grecutleld Daerlield \& Northampton Street Railway. The Massachasetts Railroad Cummission recently ap. proved the proposition to issae $\$ 15 \mathrm{~J}, 000$ of 5 p o. 20 - year bonds for pasment of flating debt incurred in the con struction and equipment of the railway and in the parchase of real estate etc. A mortgage to secure the boads has been made to the Mercantile Trast C 0 . of Buston, as trastee. Tae issue is dated July 1, 1903, denominations $\$ 500$ and $\$ 1,000$, gold, interest payable in Janary and Juls at office of tratee. The company was incorporated in Ostober, 1902, with $\$ 180$,000 of authorized capital stook, and began operation Mirch 18, 1903, of a trolley line from Greenfi-ld to Northampton, 28 miles. T rails. The road is operated by the same officisls and is owned by practically the same persons as the Green. field \& Tarner's Falle Street Ry, Co. Sge Street Railitay Section.
Greenfleld \& Turners' Falls Street Ry.-See Greenfiald Deerfield \& Northampton Streat Ry. above.-V. 77, p. 1225 ; V. 63, p. 76.

Illinols Central RR.-Purchase.-The shareholders on Nov. 14 anthorized the purchase of the following subsidiary lines: Rantoal RR., Illinois \& Indiana RR. Chrisropher \& Herrin RR., Monnds \& Olive Branch RR, and Groves \& Sand Ridge RR, Compare V. 77, p. 1746, 1294.
Indianapolls \& Easteru Ry.-Bonds Offered.-The Central Trust Co., Indisarpolis, Inā, is offering at par and interest $\$ 150,000$ of the first and consolidated mortgage sink. ing fund 5 p.c. gold bonds of 1902 , total issue $\$ 1,00 \mathrm{~J}, 000$, of Which $\$ 300,0 c 0$ are reserved to rotire an anderlying issue on 17 miles of the road, A circular says in part:
The rallway oommenced operation more than three years ago, from
Indianspolls to Groenfleld, 17 milea, with $\$ 300,000$ bonds 1 ABned. In Jane, 1802 , an extension of 13 mille was completed to Knightstown, and on June 25, 1903. a farther extension of 20 milles was placed in operation to Dablin, where oonnection is made with the Rlohmond
8treet RF., making a total of so milleg, with $\$ 300,0 \nu 0$ bonds $188 u e d$. In 8eptember, 1y03, a branch ilne of $101_{2}^{2}$ mlles was placed 10 operatlon from Dnarelth to Newoastle. All the extenelons ontemplated are to day tulehed and tu operation. The oumpleted property inclade $602_{3}$ miles. Wih $\$ 1.000,0 n 0$ bonds outotanding (an average of less than $\$ 16.5$ ( 0 per mile), which 18 the toral anthorized amonnt of the mortrage. Pere Marquette RR.-Trackage Instead of New Construc. tion.-On Tuesday the directors of the New York Central, the Canada Soathern, the Michigan Central and the Lake Shore \& Michigan Sonthern companies ratified two contracts granting joint trackage rishts for 99 vears to the Pere Marquette RK. Co. over 218 miles of road. These contracts will enable tne Pore Marquotte to establish throngh train service on Dec. 15 to Chicago, and by Jan. 1 to Buffalo, without the constraction of 218 miles of new track paralleling the existing lines, as proviously contemplated.
One contract provides for the juiut ase of the Lake Shore \& Michigan South ra tracks between Porier and Clark Junction, Indians, a distance of 18 miles, and affords entrance to Chicago and the Grand Contral Station of the Chicago Terminal Transfer Co. (V. 77, p. 948). Property rights have also been acquired for a freight house adjacent to the station.

Tne other contract applies to the Michigan Contral's tracks bstween Courtright Junction and the west portal of the International Bridge, and also to Niagara, N. Y., inclnding the cantilever bridge. thas complating the connecrion of the Pore Marquette to Baffslo. This contr ict is sabjact to the approval of the Governor and Conncil of Canada; its life is restricted by the Cansdisn law to 21 years, bnt extensions thereof to the full 99 year limit are provided for, sabject to like approval by the Govarnment.
The Pere Marquette h 48 heretofore been a local line, but ander the new arrangement mach of the freight originating
on its system of over 2,000 miles will be carried direct to Buffalo or Cbicago. In preparation for the new service the company has recently added 4,800 freight cars and 74 locomotires to its equipment. Sea mrp on rage 1437 of our Railwar and INDústrial Section,-V.77, p. 1875, 1717.
Pablic Sprilce Curporatlon.-Lease.-Combtroller P. S Young coufirms the report that the company has leased the property of the Orange ie Passaic Valley Rallway Co, for 900 jears from Nov. 1, the rental to be $\$ 3,000$ on May 1, 1904 , and each six mooths thereafter until Nov. 1, 1905; on that date and each six months following, $\$ 3,750$, until Nov. 1, 1906, when it will be $\$ 4,500$; therealter to be increased by $\$ 750$ aunaally until May 1, 1918; on and after which date \$9,000 will be paid semi-snanally antil the lease expires.-V. 77, p. 1875, 884.

Reuding Cumpany.-Listed.-The New York Stock Ex change has liatud $\$ 1,500,000$ additional general mortgage 4 p.c. bonds of 1997, issaed for new acquisitions sad bettorments. masing tat total listed $\$ 86,0: 28,000$. The aforesaid se8,028, 000 bonds were issued as folluws:

American Realty Co.-Called Bonds.-This company-a subsidiary organization of the International Paper Co.-has called twelve ( $\$ 12,000$ ) mortgage bonds of 1901 for payment on Jan. 1, 1904, at the Union Safe Deposit \& Trast Co, in Portland, Me.-V. 75, p. 1205.

American Steel Founaries Co.-New Stock-Purchase.The New York Stock Exohange has been requested to list $\$ 500,000$ additional common stock issued in connection with the acquisition of the entire capital stock $(\$ 500,000)$ of the American Steel Bolster Co., an Illinois corporation owning patents for the manufaoture of cast steel bolsters for railway cars.-V. 77, p. 787, 695

Bolse-Payette River Electric Power Co.-Receiver.-The Mercantile Trust Co. of Boston, mortgago trustee, has applied to the United States Circuit Court at Boise, Idaho, for the appointment of a receiver, the interest due Oct. 1 on the bonded debt being in default. The power company was incorporated late in 1800 with $\$ 1,000,000$ of anthorizad capital stock, and in October, 1902, was reported as expecting to complete by Dec. 1 in that year an electric power plant on the Payette River, whence 1,300 horse-power would be transmitted to Boise, 20 miles distant. Electric light and power are now being sold in Boise and vioinity. There is said to be a considerable floating debt, and over $\$ 350,000$ outstanding 6 p. c. bonds of Oct. 1, 1901, due 1921, part of a block of $\$ 500,000$. The bondholders' committee consists of Samuel C. Bennett of Bjston, Frederic S. Pevear of Lynn and G. Henry Whitcomb of Worcester,

Cure (J. I.) Plow Works, Racine, Wis.-New Stock.-The capital stock was recently increastd to $\$ 050,000$, of which $\$ 400,000$ is common stnck and $\$ 250,000$ preferred. Officers: H. M. Wallis, President and Trabarer: A. H. Harris, First Vloeoy, Se00n Vice-President and Superintendent: R. U. Anderson, Secretary.

Calumet \& Hecla Kining Co.-Dividend.-The quarterly dividerd deolaret on Monday was $\$ 10$ per share, or 40 per cent on the $\$ 2,500,000$ capital stock. masing 140 p. c. in all for the calendar year 1903, contrasting with 100 p. c. in 1902 -V. 77, p, 193.
Caturba Power Co.-See York Haven (Pa,) Water \& Power Co. below. - V. 77, p. 402.
Central Californis Electric Co. - Field of Opsration.- A San Francisco paper calls in question some of the statements made concerning this company in our issue of Ot. 24. We have referred the article to the official who furcished the information, and his only comment is as follows:
The etatement that we are exteuding onr lines to Rodding was an unintentional error, and shonld have been Orovile. This latter line
has ofeu provided for and will soon be iu operatin. I \&m very sorry his mistake was made as we have at no time contemplated entering he fleld at Redding. - V. 77, p. 1295.

Chemical building Co.. St, Louls.-Bonds Offered.-The Lincoln Trast Co. ot St. Louis is offering at 106 and interest a block of consol mortgage 6 p. c. bonds dated July 1, 1902: due July 1, 1922; subject to call 5 vears from date at 105; coapons payable January and July. These bonds are secured by a 16-story building situated at the northeast corner of Eighth and Olive Sts., in the basiness distriot of 'it. Loais. Further facts follow:
Total cost of baliding as reoently enlarged, $\$ 350,000$. Partiy eati-

Chester (111.) Light, Water \& Ice Co.-Receiver.-Upon application made to the United States Circuit Court at Springfield, Don E. Detrich, Master in Chancery, was on November 20 appointed receiver of this company, whose plant was bailt in 1893. The company is reported to have bonded debt, $\$ 35,000 ; \$ 5,000$ preferred stock, $\$ 35,000$ common stock; local indebtedness sbout $\$ 16,000$, on which suits have been broaght. The Union Trast Co. of New York, the trustee ander the mortgage, applied for the $\mathrm{r} \theta$ ceivership.
Chicago Railway Terminal Elevator Co.-New Trustee. The first mortgage bondholders will meet at the office, No. 71 Broadway, New York, on Dec, 17, to elect a new trustee to succeed the Illinois Trust \& Savings Bank, resigned.-V. 77, p. 629.

Citizens' Heat \& Light Co. (Elwood, Ind.)-Bonds Offered, -Mason, Lewis \& Co, are offering at par and iuterest \$100,000 tirst mortgage 5 per cent sinking fand gold bonds, dated Jan, 1, 190ふ. maturing Jan. 1, 1923, optional after Jan. 1, 1908 , at 105 and interest; denomination, $\$ 1.000$; intarest pajable July and Jan. 1 at the office of the American Trast \& Savings Fank, trustee, Chicago, or the First National Bank, Now York City. A clrcular says:
Capital stock. $\$ 200.000$; bonds, total authorized $188 n e, \$ 350,000$; reserved for betterments and extensions at 85 p. o. of the oost thereor,
$\$ 100,000 ;$ total present $188 u \theta$, $\$ 25 u, 000$. For year ending Oot. 15 , $\$ 100,000$; total present 188ue, $\$ 25 u, 000$. For year endling Oot. 15 ,
1902 ( sio ), the groas earnings were $\$ 71,637$; net earnings, $\$ 48,214$; interest on $\$ 250,000$ bondt. $\$ 12,500$; surplas earninge, $\$ 35.714$. The bonds offered are the ansold portion of a total ontstanding issue of $\$ 250,000$ secured by frat mortgage on the entire property, rights and
franchlees of the Citizens Heat \& Light Co. of Elwood, Ind., a consolldation of the Citizens' Gas \& Mining Co. and he Elwood "Natural Gas \&oll Co., eontrolling all the gas bosiness for fael and liphting in the City of Elwood. The company agrees to pay $\$ 100,000$ of its bonds
before matarlty as follows: $\$ 6.000$ J8n. 1. 1904 , and $\$ 6,000$ annually thereafier antil and includine Jan. 1, 1913 , and $\$ 4,000$ Jan. 1,1914 , and $\$ 4.000$ annaally thereaiter until and including Jan. 1, 1925; said bonds to be drawn by lot by the trustee at 105 and interest, or the
company mayin lleu thereof accuire bonds on the martet and surrender the same to the erustee for eancellation. The company is operatiog under a perpetual franchise for both natural and artificial gas, With nusually favorable terme and no restriotions as to the price that may be oharged
Cleveland Cliffs Iron Co., Cleveland,-Purchase.-This West Virginia corporation, which owns at Cleveland a blast furnace with a capacity of 45,000 gross tons annually, has come into tull legal possession of the Taylor tract, near Presque Isle on the Maumee River, 10 miles southwest of Tolero. The "Toledo Blade" says:
The parchase inciudes 227 acres sitnated in Orecon townahip. The consideration is said to be in the nelghborhood of $\$ 135$ per aore. The company has execated to the Taylor estate a mortgage for $\$ 111,662$, Taylor until Jaly 11 next. It 18 ysanmed that 100 mediately aiter that date the work of oonstructing another big blast farasee will begin.
As to recent ore acquisitions, compare V. $7 \tilde{\%}, \mathrm{p}, 1748$.
Colorado Fuel \& Iron Co.-Financial Plan.-Those in interest decline to explain the precise natare of the financial plan mentioned in the circular cited last week (page 2037). The circular, however, informs as that within the year the company has "found it necessary, in order to meet its obli gations ander contracts previously made and for the extensive work of construction and betterments apon which the company entered a year or two ago, and also for ita general corporate parposes, to ralse money from persons interested aither as stockholders or directors, or both, by means of loans and eales (the asles, however. being subject to a contract permitting re-purchase by the Fuel Company within a speci fied time." The circular also states that the intending purchasers of said properties (namgly, the G juld-Rockeller interests) intend to offer to all the shareholders the privilege of pirticipating pro rata in the parchase.
The compsny is precluded by the terms of its debenture bonds from issuing additional bonds, and it therefore appears probable that the transaction will be financed by an jssue of 6 per cent "participation notes," to be issaed by some outside party, to represent an nadivided interest in the parchase of the properties in question, which are, it is learned, the company's coal and irou lands and mines. It the com pany exercises its right of re-purchase, the holders would in such case receive back their principal sum: otherwise they would, presumably, get their ratable share in a company to be formed to take title to the properties and to supply the Colorado Fael \& Iron Co, with its necessary raw materials.
regarding the participation certificates issued on account of the purchase of Hocking Valley common stock by the Van derbilt-Pennsylvania interests). According to carrent ramor. the Colorado Fael \& Iron Co, needed about $\$ 7,000,000$ on account of floating debt and abont $\$ 6,000,000$ more to complete the construction of its great flnishing plants, A portion of its needs mnst have been met by the sale of railroad properties to the Denver \& Rlo Grande RR. (V. 77, p. 684).

Vice-President E. Parmeleo Prentice says:
We have ralsed snifflent money, we think, by the sale of coal and iron properties during the last anmmer and Withln the last few weeke to take eare of all the Indebtedness of the company. We now propose
to hold a meeting to settle the azles and converances and at the same thwe glve the rest of the stockholders an opportunity to oome in with ne on the transaotion. At least those who want to oome in oan do so.
During the fiscal year ending Jane 30, 1903, the company produced: Coal, $5,271,942$ tons (of which $3,128,073$ tons sold). ygainst $4,281,701$ tons in 1901-02; coke, 991,753 tons ( 602,585 sold), agaivst 728.198 tons in 19ul-02; iron ore, 533,951 tons (of which 12,888 sold), against 456,117 in 1901-02; limestone, 217,784 tons (of which 8951 sold), against 192,984 tons in 1901-02.-V. 77, p. 2037, 1876.
Consolidated Tobacco Co.-Extension of Syndicate. -The life of the syndicate which underwrote the company's bonds in 1901 has been extended antil December, 1904. In spite of the payment in January last of a cash dividend of 20 per cent on the capital stock, the price of the boand, which bear 4 per cent interest, has never been above $697 / 8$, while it is now about $55 .-\mathrm{V}, 77$, p. 772, 300.
Danville (Pa.) Bessemer Co.-Offered for Sale.-The "Iron Age" of Nov. 26 contains an advertisement briefly describing and offering for sale the various properties of this company. Sce V. 77, p. 1876
Denver-HIghlands Electric Co.-No Mortgage Bonds.President and General Manager R. H. Porrer, Arbuckle Bailding, Denver, Col., replying to an inquiry from the Chronicle regarding the report of a bond issue, says:
$\$ 220.000$ of the has lisaued no mortgage bonds, but it has bonded pany in the East, whith guarantces the fall face value or the atoor. thereby making the Investment min absolutelv bafe and sure one to al who purehase the atock. The Denver-Highlanis Electric Oo. has never lasued any morigage bonds and 18 entiroly free from debt of any nature whatever; on the contrary, it 18 maklag money and has the greatest and most promising prospecta ahead of it.
Eastern Steel Co, Pottoville, Pa.-New Plant.-The "Iron Age" says: "This company shlpped last week its first foreign order of any size, consisting of ten car-loads of steel to Havana, to be used by the Government for the improvement of Havana harbor. The company is rushing its new mills, and hopes to have them in operation by early spring of next year,"-V. 76, p. $185 \%$.

Empire Coal \& Coke Co.-Receiver.-At Birmingham, Ala, on Nov, 20, John H. Wallace was appointed receiver for the company on application of the Wimberley \& Thomas Hardware Co.-V. 71, p, 1271.
Fayette County Gas Co.-First Dividend.-This company, controlled by or in the same interest as the Ohio Fael Supply Co. (V. 77, p. 773,) has declared its first dividend, viz., 6 p. c., pavable one-half per cent monthly beginning Jan. 20, 1904. The company's new plpe line from a noint near Fairmont, W, Va., to Masontown, supplying Uniontown, Connellsville, Danbar and Mt. Pleasant, was completed recently, having cost, it is said, $\$ 500,000$. The capital stock was increased last May from $\$ 1,000,000$ to $\$ 1$, 600,000 ; par of shares, $\$ 100 .-\mathrm{V} .76$, p. 1195.
General Electric Co.-Contracts.-See New York Central \& Hadson Hiver RR. Co., nuder "Railroads" above.-V. 77, p. 826 .

Gaanajato (Mexico) Power \& Electrle Co.-Bonds. The traste of thls company's mortgage is the United States Mortgage \& Trust Co. of this clty, which paya the interest A pril 1 and Oct. 1. The bonds are for $\$ 1.000$ each, and are dated Oct. 1, 1902, and are due Oct. 1, 1932, but are subject to call in whols or in part on any interest date beginning Oct. 1, 1907 , at 105 and interest, when drawn by lot; $\$ 1,200$,000 are now outstanding; the remaining $\$ 300,000$ can be issued only after Oct. 1, 1905, to an amount not excoeding 75 per cent of the actual cash cost of additions, re-construction or permanent improvements under stringent provisions, Sinking fand, 1907-1916, one per oent of total bonds issued; 1817.1926, 2 p. c.; 1927-1931, 4 p. c. The previous item was officially revised, bat should be changed to conform with what precedes.-V.77. p. 772
Honston (Tex.) 011 Co. - New Directors, - At the annual meetlng in Houston, Tex., on Nov. 11, the following directors, a majority of whom, it is claimed, represent the Kirby inter ests, were elected:
New men-Oharles G. Sanndera, Boston, Mares; Wilson D. Wing, Bangor. Maine; A. T. Smith, New Ynrk; Kenry o oke, Dallas, Texae
Pabriok Calhonn, New York; T. H. Frankin, San Antonio; Jay O. Mosb New York.
Re-eleoted. Flinis E. Marshall, St. Lonis, Mo.; S. B. Cooper, Bean-
mont, Tex.-V. 75, p. 137.
Hadson Consumers' Ice Co., Hoboken, N. J.-Mortgage. A mortgage has been made on the nlant and land, 400x100 feet, at Monroe and $13 t \mathrm{t}$ streets, Hoboken, and all personal property now owned or hereafter acquired, to the Ho boken Trust Co., as traste日, to secure $\$ 150,000$ of 6 per cent gold bonds, denominations $\$ 1,000$ and $\$ 500$, dated Nov. 1 1908, and due Nov. 1, 1933. The company was incorporated in New Jersgy last May with \$j00,0110 of anthorized capital stock in $\$ 10$ shares (of which $\$ 250,000$ was to be

7 p. c. cnmalative preferred), to baild an artificial ice plant. Its stock was pabllcly offered at par. The plant, which is now being built, will have a capacity of 200 tons of ice a day and 100,000 oublo feet of cold storage. The President is $F$. William Bender. 47 Newark St., Hoboken, N. J.; Soeretary and Treasurer, P. J. Krentzig.
Illinols Brick Co.-Action Deferred One Month.-Secretary W. E. Schlake made the following announcement on Monday:

The direcors postponed consideration of the dividend on tho preferred slock [ $83,5 \mathrm{si} 0,000$ ] nntill the December meetling. The dividend
has been abous earned, but the fands of the oompany and ite aurplus has been abous earned, bat the funds of the oompany and its arplus
are tied ap in the supply of oriok made durlag the sumaner. whith is
 mones. It was deolde to wat a month later before that time, wo will have muoh more ready oash and be better able to make the dishurse. ment. This does not inean in the lessit that the dividend will not he
paid. The direotors are merely making the paymont as easy for the paid. The directors a
company as posilule.

The dividend is 6 per cent, cumulative.-V. 77, p. 298, 199.
Illunis Fnel \& Power Co., Sparta, IIl.-Injunction.Judge Hamphrey at Springfield, Ill., on Nov. 12 enjoined Charles M. Forman et al, of Nashville, from prosecatine the action brought in the aame of the Farmers Loan \& Trust Co. of N. Y., as nominal piaintiff, against W. S. Ingraham, W. A. Ingraham and E. E. Stockton, to compel the latter as directors to pay the amount due under the second mortgage bonds. The action was brought after the foreclosure sale (see V. 69, p. 909), as an attempt to establish the personal lisbility of the directors, on alleged irregularities, the trust company having no real part in the matter.-V. 69, p. 909.

International Fire Englne Co.-Proposed Securities.-The following is a full description of the secnrities which it is proposed to create under the reorganization plan (see V. 77, p. 952):

1. General first mortgage (sinking fund) or per oent twenty-5ear cold donds, to be subjeot to oall at option of oompany after the firat tive jeare at 105 p . c., and secored upon all the real and personal
property acquired and to be acquired, and by sinklag find annual parnent of $\$ 25.0 c 0$ af er the fret tive yeare........ $\$ 1,000,000$

Voting Trust.- In order to assure the oontianity of an effictent and proper tanagement for a sufficient length of time to rehabilitate the new corporation will be created. The Voting Truste日e will consiat in the first ingtance of the present members of the Reorganization Com mitree (nee above). Any vacanoy caused by death or resignation malng Voiling Trustees. The stock ehall be held in the voting trast for tlve fears, although the Voting Traitees, in their diecretion, may deliver the stook at an earlier date.-V. 77, p. 1585
Interaational Mercantlle Marine Co.-Syndicate Extension. - It has been arranged to extend the life of the syndicate which anderwrote the $\$ 50,000,000$ of $41 / 2$ p. c. debenture bonds from Jan. 1, 1904, when it would otherwise expire by limitation, to March 1, 1905. The syndicate has paid in its entire $\$ 50,000,000$ of cash, for whioh it was entitled to receive, in addition to the $\$ 50,000,000$ debentares, $\$ 2,500,000$ of preferred stock and $\$ 25,000,000$ common stock. The txtension will give it further time for disposing of its holdings. - V. 77, p. 826, 301.

International Paper Co.-Profts, Etr.-Preaident Chisholm is quoted as saying
The profte for the foar months ending Nov. 1 are greater than they have been for any like four months eince the company was formed. The paper on hand was all made on oontraot and the amount is only A porulon of the milis is shut down for tive daye, one of whto
ollday, the reason bsing a ehortage of gruand wood pulp. on acconnt of the extreme dronght which has prevalled for the late three or four months and a desire to acoumalate a reserve in antiolpation of its winter sapply.
Called Bonds.-See Amerlcan Realty Co. above.-V. 77, p. 1749

International Steam Pamp Co.-Listed.-The New York Stock Eschange has listed $\$ 2,500,000$ of the authoriz 3 d issue of $\$ 9,500,000$ ten-year 6 p. c. convertible, debentare bonds of 1913.-V. 77, p. 145.

Iron Steamboat Co.-Earnings.-The report for the jear onding Oct. 31, 1903, shows

The balance of Oct. 1, 1803, includes: Cash, \$42,007; due on open acconnts, $\$ 1,865$; repair shop cost, $\$ 1,200$. The reorganization plan provided for the issue of capital stock, $\$ 400,000$; prior lien $58, \$ 100,000$ : genersl or second mortgage $4 s, \$ 500,000$. Compare V. 74, p. 887, 778.-V. 75, p. 397.
Kirby Lamber Co.-Directors.-At the snnaal meeting on Nov. 13 the following directors were elected:
Jolin H. Kirby of Honston. Jas. L, Kirbr of Kountze, B. F. Bonner of IINAnton F. M. Aldildge of Houston, V. A. Longhker of Hoanton,
H. B. Rice of Gounton. F. A. Rolohardt of Houston, Wlilam Weles of H. B. Rice of Hounton, F. A. Rolohardt of

Compare Houston Oll Co. above; also see V. 76, p. 885.
Lombard Investment Co.-Salc Dec. 22. -The Metropolitan Trust Co., trastee, as successor of the Atlantic Trust Co. ander trast indentare of Sept. 1, 1830, announces that on Dec. 22 , in accordance with a decree of the Circnit Court of the United States for the District of Kansas, R. V. Harnett \& Co. will sell at anction at the Real Estate Salesrooms, No, 161 Broadway, New York, the securities pledged and then remaining with the trastes for secarity of the debentares (sll in defanit) in Serias US-1, US-A, US-B, US-C, US-D, US-E, US-G and US.I.- $\nabla .75$, p. 909.

Lonisiana Rice, Prairle \& Canal Co.-Bonds Offered.This company, incorporated in Loalaians last Angust with $\$ 9,000,000$ of authorized [common] stock in shares of the par value of twenty doliars, has been advertising extensively $\$ 1,000,000$ of its suthorized issue of $\$ 4,500,000$ tirst mort. 6 p. c. gold bonds, with a bonus of 100 per cent in stock. An advertisement says in part:
These bonds are secured by $\mathbf{3 0 0 . 0 0 0}$ acres of the riohest rioe, oorn and ellgar lande in Lousiana. The money recelved from the sale of the bonds 18 used to irrigate, drain and tmprove the property and
wholly for the beneflt of the property. The boande are $\$ 15$ an aore; oapital stook $18 \$ 30$ per aore. One-halif of the stook 18 given free with the bonds. The land will be sold only as fast as it 18 improved, but not at lesa than $\$ 30$ per acre. The holdera of bondi can belect anj of the land and when it is irrigated and ready for oultivation can pay for it in full or in part with bonde, and will be allowed g125-that in, we will take a $\$ 100$ bond and allow him $\$ 12 \kappa$ for it on hls parohase. The oompany offre to do thls only on the frst $\$ 1,000,000$ of bonde sola.
Bonds are in denominations of $\$ 20 . \$ 10, \$ 100$ and $\$ 1,000$; draw interest at 8 p . o. вemlannually. The Hibernta Bank \& Trast Co. ts trueteo for the hondnolderg. Title perfect with warranty deed free from inoumbrances.
The stock is issued only as fast as the bonds are sold and is always twice the amonnt of bonds sold.
George G. Metzger, Toledo, Ohio, is President; J. M. Dresser is Vice-President; Edward Foorster, Secretary and Emile Godchanx and O. W. Crawford, directors. Office, Hennen Building, New Orleans.
Manhattan Transit C0.-Agent for Diesel Engine.-This company, announcing itself the sole agent for the State of New York for the "Diesel engine," quotes a letter from the Cramp Shipbailding Co, to the effect that the engine is now saving about 50 p . c. in the generation of power for the particular part, of the works in which it is being opersted. See American Diesel Engine Co. in V. 77, p. 2036.-V. 77, p. 2038.

Manistique Iron Co., Detroit.-Acquisition.-See National Car Wheel Co, below. The iron company's plant was put in operation in 1891. Its prodnct is car wheel and malleable iron; annual capacity 40,000 gross tons. President, Joseph H. Berry.

National Car Wheel Co.-Plants.-Among the plants which this company originally expected to acquire were those owned by the New York Car Wheel Works of Buffalo, the Lobdell Car Wheel Co. of Delaware and the Ramapo Car Wheel Co. of Hillburn, N. Y. At the bankruptcy sale, however, in Buffalo on Nov. 5, the property of the New York Car Wheel Works was sold to Joseph H. Berry of Detroit. Mich., President of the Manistique Iron Co., who bid $\$ 152,000$. The National Car Wheel Co. was incorporated this week at Albany with $\$ 300,000$ of anthorized capital stock, Mr. Berry being one of the incorporators to take over the properts, which was appraised at $\$ 394,226$.
Judge Holt, of the United States District Court, recently appointed Benjamin Barker as receiver for the Ramapo Car Wheel Co; the liabilities are stated as $\$ 118,000$, and assets $\$ 78,000$.
In the Federal Court at Wilmington, Delaware, on Oct. 19, Andrew C. Gray, counsel for Percy H. Bradage, of New York City, brought suit against the Lobdell Car Wheel Co to show cause why it should not become a member of the National Car Wheel Co. as per contract to do so. It is said that ander the will of the late George C. Lobdell the plant cannot be sold to the consolidated concern.-V. 77, p. 826.
National Salt Co.-Called Bonds. -Twenty bonds,isoued in 1892 by the Kansas Salt Co. (Hatchinson-Kansas Salt Co.) have been called, and will be paid at 102 and interest at the Merchants' Trast Co., 320 Broadway, N. Y., Jan, 1. 1904 The holders of Kansas Salt Co. bonds will mest Dec. 15 to elect a new mortgage trustee to sacceed the Holland Trast Co., resigned.-V.77, p. 1297, 1228.
New York Car Wheel Co.-See National Car Wheel Co. above.
Ohio Fael Supply Co.-See Fayette County Gas Co. above. -V. 77, p. 773.
Panama Canal Co.-Treaty.-See full text of treaty in "New York Sun" of Nov. 21. William Nelson Cromwell, General Connsel of the new Panama Canal Co., is quoted as saying: "The treaty is just as the Canal Company desired, and most satisfactory in every respect."-V. 77, p. 2038.

Patten Vacnum lee Co．－Receiver．－Jndge Holt of the Uaited States Distrlct Court recently appointed Howard Man：feld receiver in bankruptcy of this New Jersey cirpora． tion，with quarters at 45 Broadway and 315 to 325 East 97 tb Street，ou application of the Jobn Simmons Co．，\＆creditor for $\$ 479$ ．It is said that the liabilities exceed $\$ 75,000$ und the assets consist of equity in factory property，$\$ 30,000$ over a mortgage of $\$ 40,010$ ；plant，$\$ 20,000$ ，and ontstanding ac－
counts．$\$ 10,000$ ．The company mannactures machines for making ice by the vacuum process under patents orrned hy a West Virginia corporation of a similar name．The Presi－ dent owns a controlling intereat in the West Virginis cor－ poration sud has began proceedings to have the patents re vert to the West Virgidis corporation．The Perple＇s Co operative Ice Co．，an ally of the New．Jersey company，is also in receiver＇s hands（V．77，p．1536．）－V．72，p． 441 ．

Peninsular（Beet）Sagar Reflning Co．－Sale of Stock．－ At Detroit last week $1,5 u 0$ shares of stock in the Sanilac Sugar Refining Co．and 1，879 shares of the Peninsular Com－ pany，par value 10 a share，which had been pledged by a private party for a lnan，were sold at anction．Truman B， Newberry bid in 1,067 shares of the Peninsular Compsny at $\$ 9$ a share，and George Peck obtained 802 shares of the Penin－ sular at $\$ 925$ a share． 750 Sanilac at $\$ 950$ and 750 Sanilac at $\$ 925$ ．Compare V．76，p． 1252.

Pennsylvania Cosi \＆Coke Co．－Bonds Offered．－The Title Guaranty \＆Trust Co．of Scranton，Pa．，the mortgage trastee，offers for sale at 85 and interest $\$ 1,000,000$ of the anthoriz d issue of $\$ 12,000,000$ consolidated first and collater－ al trast mortgage 50 －year 5 per cent coapon gold bonds， free of State tax in Pennsylvania，interest payable September and March，prinoipsl payable Sept．1，1953，Coapon bonds， denomination，$\$ 1,000$ and $\$ 500$ ．Sahject to registration as to princlpal．By the terms of the mortgage a sinking fuad of 3 cents per ton on all coal shipped or converted into coke． beginning Jan．1．1910，is provided；when the sinking fund amonnts to $\$ 27,500$ it shall be used by the trustee in the parchase，in the open market，of bonds of this issue at the lowest rate at which they may be obtained，not exceeding 110 and accrued interest
W．A．Lathrop，the President of the Penneylvania Coal \＆ Coke Co．，writes under date of Oct．1，1903，as follows
Thls corporation was oreated in 1902，under the laws of Pennajl－ Fania．It original oapital stook oonsisted of an 18840 of $\$ 40,000$ of $\$ 1,200,000$ s8oursd by a mortgage upon tita lands and olher prop－ erty．On 88pt． $1,1903,1$ he stook Was inoreased to $\$ 7.000 .000$ oom－

$\$ 5.694 .000$ han beau pald ont to preferred stoosholders in divldends, $\$ 5.694 .000$ han beau pald out to preferred stoch holders in hividends,
 seonrities, anle
and fron sharte.

The directors, are to meet next week, but President Thomp son, when questloned yesterday as to the adverse ramors respecting dividends and new secarities, is reported as saying:
"I must decline 10 speak of such matters. They are for the board to consider. I do not know what will be done. You may say, however, that I personally have the utmost confldence in the Repablic Iron \& Steel Co."-V. 77, p. 455, 352.
San Frauelsco Gas \& Electric Co.-Dividend Declared. The direotors on Nov. 18 declared a dividend of $21 / 2$ per cent (\$850 per share), pasable Dec. 24. The "San Francisco Commercial News" zays that "if the present profitable conditions continue, regular dividends of at least 5 per cent per annum will be paid quarterly on March 15, Juqe 15, Sept. 15 and Dec. 15 of the coming year."

Dissolurion of Pool. -The stock pool having been dissolved, the stock certificates are being issaed in exchange for the trastees' certificates at the Mercantile Trust Co., San Francisco, Cal.

Merger.-The formal transfer of the property of the Independent Electric Light \& Power Co. and the Independent Gas \& Power Co, to the San Francisco Gas \& Electric Co. was made on Nov, 17.
Bonds Offered. -The company has filed its $\$ 10,000,000$ mortgage to the Union Trust Co. of San. Francisco, as trustee. Isaias W. Hellman, as syndicate manager, received subscriptlons on Nov. 19, at par and interest, through the trustee for $\$ 1,200,000(\$ 8,200.000$ ? ) of the issae. The only an derlying bonds are $\$ 623.000$ Edison Light \& Power Co. 6s, due Nov. 3, 1921 (Interest Q.F), and $\$ 1,190,000$ Pacific Gas Improvement Co. 4s, due Sept. 1, 1920 (sinking fund, $\$ 20.000$ annaally), interest Q M. Of the new bonds, the $\$ 2,000,000$ not now to be iesued inclade $\$ 1,813,000$ reserved to retire theas existling bonds and $\$ 187,000$ retained by the company. See farther data in V. 77, p. 1877, 1536.
Swett (A. L.) Eleetrlc Light \& Power Co, Medina, N.Y. This company was organized in 1898 with $\$ 50,000$ capital stock, which was increased in 1908 to $\$ 300,00 \mathrm{n}$, to enlarge and establish a water-power plant at Medina, N. Y. It has issued $\$ 250,000$ mortgace bonds, a portion of which will be used for the enlargement of the plant. President A. L Swett says:
The oompany has a well-establlehed plant ( $600 \mathrm{H} . \mathrm{P}$. Water power and 250 H . $\mathbf{P}$ steam power) and does a local buaineas, street lighting to sbout $\frac{25}{25}, 000$ thts Jesr and the basinese 18 gradually growing. The proceeds of tlie bouda wlll be used to balld a dam and new power$2,400 \mathrm{H}$. P. Wuter-power bad ereate s storage dam of about 150 aores The total Infertmant with thla piant completed will beahout $\$ 450,000$. A. L. Swert in Presinent and
ana F. M. Poler, Beoretary.
A. L. Swett owns a majority of the $\$ 40,000$ stock of the Medina Gas Co. (organized in 1900) and is President also of the gas company, but the companies are two separate cor porations and have no connection whatever with each other
Thompson-Starret (Construction) Co., New Yort.Status - This company, orga aiz↔d in May, 1903, ander the laws of New York, has outstanding $\$ 1,000,000$ capital stock all of one class, of which twa-thirds is owned by interests identified with the Title Gaarantee \& Trast Co. of Nem Tork. Some of the company's principal contracts com pleted and in progress are anthoritatively reported as follows: Completed.- Atlantio Balld!ng, Wall and Whli sm atreets; Kaho Marie Antoloerta Gocel. NAW Y Ork; Kesitonm Bink. Pittaburkh; Delta Bulldiag, Buaton; Oltver Ballding, Boston, and the Hotel Tonraine, Brooziyn
Dotoc Book of Conada Bannaylvania's new station at Washlngton, Bullding to Brooslyn, and nearly a dozzn other balldinga.
A statement for which confirmation is withheld has been published as follows: E, cimated gross earnings in 1903, based on business in hand, $\$ 510,000$; expenses, $\$ 140,000$; dividends, 8 p. c., $\$ 00,000$; surplas, $\$ 280,000$, of which one-half for working capital and the other half available for extra dividends. p. 653.

Topeka (Kan.) Water Co.-Notice to Bondholders. - The resdjastment committre, Caarles F. Street ( 44 Wall St.), Charman, notifies the holders of the third mortgage income bonds as follows :13

Negotatlous are pending for the bale of the plant and property to the elity of Toneka. The onumitten myy onnelude to aocent a suma to payment for the property whilh will be insumbleut to pay off the seo third mortake fooome bnods. The holdera of thane third mortgage Income bonde are therefore requested to withira w them romm the Metropilitan Trust Oo. Where they havo basu depoalted. The cota
 of anch bonda whose intereats the compitteo can uo lonker represent The Metropolltan Trust Lo. has rhblgoed ib trustoe of the third mort Kage and the United Btates Croatt Uourr, wll he requented to appolnt

Tarner, Disy \& Wonfmorth Handie Co, -Re-Incorporated - This company, of late a Wert Virginia curporation, filed articles of incorporation in Kentucky on Sppt. 30. Tbe con cern began business in 1850 as Turner \& Day. The capita atook (amonnt anchanged by the re-Incorporation) is $\$ 867,800$ in $\$ 100$ shares, of which $\$ 780,000$ is common stock and $\$ 137,800$ is 7 per cent cumulative preferred stock, the latter being subject to call at any time at $\$ 110$ a share. The indebtedness must not exceed $\$ 500,00$ ? There are no bonds out atanding. President, Cbss. D, Gates; Treasurer, C. F. Tar ner, Loulsville, Ky. The directors and their stockholdings follow
Charies D, Gatea, 1,390 oommon and 34 preferred shares; O. F Tarner, 1,801 common and 80 preferred eharea; B. W. Marr, 1,075 onminon and 20 preferred ehares; Henry Giover, 1,075 common an 50 pref
shares.

Uuited States Light \& Heating Co.-Contracts. -The com pany confirms the report that it has been awarded contracts by the New York Central for equipping the cars for ase on the Twentieth Centary Limited and the Empire State Ex press with their automatic system of electric lighting and ventilating.-V. 77, p, 206.
United States Realty \& Construction Co.-Re-purchase. The company, it is stated, has arranged to re-purchase the Trinity Bulding, No, 111 Broadway, which it purchased last January for $\$ 2.218,232$ and subsequently sold to the Equitable Life Assurance Society at a profit reported as about $\$ 100,000$. The site is a vsluable one for an office structure, and it will probably be atilizsd by the Constraction Company for a large modern offioe bailding,-V. 77, p. 2039, 958.

Unitad States Steel Corporation.-Correctly Quoted. James H ward Bridge, replying to our Inquiry. states that he "meant to say that the revenues of the corporation coald be reduced by one-third (not to one-third) without necessitat ing a reduction in the present rate of dividend on the pre ferred stock.
The profit-sharing plan which was annoanced to the employees last January (V, 76, p. 51) was based on the fact that "in round figares it requires $\$ 75.000,000$ to pay the interest on the corporation's bonds, dividends at the rate of 7 per cent on its preferred stock, dividends at the rate of 4 per cent on its common stock and to make sinking fand deposits; no distribation was to be made to the employees when the net earnings fali below $\$ 80000,000$. For the year 1902 the net earnings were $\$ 133,308,764$, bat of conrse there has lately been a considerable contraction.-V. 77, p. 2039.
Warren Bros. (Asphalt) Co., Boston.-Offering.-Radolph Kleybolte \& Co. are offering $\$ 5,000$ of the company's $5 \mathrm{p} . \mathrm{c}$. debenture bonds and 100 shares of stock ( $\$ 50$ per share); price 80 p. c, and accrued interest for bonds with stock as bonus.
Wellman Stone Co., Henley, Ohio.-Bonds.-The Central Trust Co. of Cleveland some weeks ago conntersigned $\$ 450$, 000 bonds, denomination, $\$ 50$ each
York Haven (Pa.) Water \& Power Co.-Electric Power Transmission. - In connection with the offering of Catawba Power Co. bonds (V. 77, p. 402,) by Morris Bros. \& Chris tensen, it is interesting to note the facts regarding the transmission plant at York Haven, Pa., the bonds on which were sold eome months ago by Morris \& Whitebead, bankers, the predecessors of Morris Bros, \& Christ nsen, th + se bonds baving been offered at 105 and interest and since selling, it is stated, considerably higher.
The bonds are first mortgage 5 per cents. total issue $\$ 1,500,000$, dated June 1, 1901; due Jane 1, 1951, without np ion of earlier redemption; semi-annual interest payable at office of trustee, Land Title \& Trust Co., Poiladelphia. Bonds are free of taxes in Pennsylvania. A circular concerning the uffering said
The oorporation 18 organzed under the lawe of Penarplvania for the purpose of developlik the power of the gnaquenanna River, here mofer nwned by thy York Haven Paper Co. The plat if looated 16
 and ab iut 18 mites from Lancaater, Pa. It 1s, therafore. within easy transmitting distanoe of a popula' ion of not lese than 200,000 people
and unlug over 50,000 horse power per annam for rallway, light and manufaoturiog parnoses.
The plant 18 bult to develop $20,000 \mathrm{hnrse}$ power, all of whioh, and much more. oan be onntraoted for at a miniraum prioe of 850 per
 power at $\$ 30, \$ 1,000,001$; net income par ennum, $\$ 930,000$; interest
on $\$ 1,800,000$ bonde, $\$ 75,000$; net income appliosble to dividende $\$ 875,000$.
from large oorporation, loosted in the neighborhood and ueing at least $\$ 100$ to 12,000 horso power per annum, oalculates that it cost apon runnlag 24 hours per dar orae phoently, at $\$ 5$ per horeo power per annam, the cost of power to the consumaer is roduced one-half.
The Power company, we are inturmel, has been able to secare contracts for its power at a price averaging considerably over $\$ 50$ ( $\$ 55$ to $\$ 72$ ) per horse power per year. Its gross income will therefore exceed that shown in the preceding estimate.

-Includes mileage of Leavenworth Kanas \& Western Railway Co.. $165 \cdot 65$ miles of insin track and 10.90 miles of sidings. The entire oapital stock of this company is owned by the Uulon Pacifio Railroad Company, but it is operated by its own organization, and its earnings and expenses, other than adranoes made for its operation, are not inoluded in the statement of earulngs and expenses of the Union Paclac

Details of the mileage of the railroad and water lines are shown in Table No. 1 of Comptroller's report [pamphlet].
There were added since the last report, by the construction of new lines, $226 \cdot 32$ miles of main track, as follows:
Union Pacific Railroad.-From Cedar Rapids to Spalding, Nebraska, 13.86 miles, opened for business in Dec., 1902.
Oregon Short Line Railroad. - The line from Salt Lake City to Leamington, Utah, 116.69 miles, was completed and opened for business July 1. 1803. There was also built and opened for business July 1,1903, a line in Utah from Brigham to Corinne, 3.98 miles in length.

Malad Valley Railroad.-Corinne to Garland, Utah, $14 \cdot 78$ miles, opened for business July 1, 1903.
Oregon RR. \& Navig. Co.-Extension from Dayton to Turner, Wash., $11 \cdot 16$ miles, opened for business in July, 1902.
Snake River Valley Railroad.-This line extends from Wallula to Grange City, Washington, 65.85 miles. The earnings and expenses hare been included in those of the Oregon Railroad \& Navigation Company, which is operating. the property for account of the owners.

The mileage of main tracks was reduced 51.39 miles by the following changes:
On the Oregon Short Line RR, there were abandoned, by the building of the line from Salt Lake City to Leamington, 39.74 in . of $\mathrm{n} \uparrow$ rrow-gauge line and $11 \cdot 65 \mathrm{~m}$. of broad-gauge line. By re-measurement there was a net gain in length of 21 m .

The average number of miles of railroad operated for the year, for which the accompanying statements of earnings and expenses are submitted, was $5,762 \cdot 28$ miles.

There was appropriated from the year's income the sum of $\$ 2,000,000$ for betterments, improvements and equipment, and for the repairs of the damages caused to the property of the Union Pacife Railroad Co. by the exceptional floods in Kansas in May and June, 1903. Of the total monnt appropriated, $\$ 1,000,000$ was credited against the year's expenditures for betterments, improvements aud additions; $\$ 500,000$ was set aside as a reserve fund for future betterments and additions; and $\$ 500,000$ was reserved for the reconstruction of property destroyed by the floods.

Compared with the preceding year:
Gross earnings inereased.
$\$ 3,574,90936$, or $7 \cdot 53$ por cont Operating expenses inoreased 150,41840, or 13.02
37,57123, or 2.74
 Recelpts orer operating expenses and taxes increased. Surplus applioable for dividends after paymont
surplus after varment of dividends inoreased.

The increase in interest on funded debt ontstanding in the hauds of the publio, amounting to $\$ 1,094,48041$, was caused by the sale of the Oregon Short Line Railroad Company Four Per Cent and Participating Twenty-five Year Gold Bouds referred to in the last annual report, but this increase was, however, more than offset by a decrease of $\$ 1,408,25069$ in interest on loans and open acconnts.

4,954,000 00
Amount of bonds ontstanding in the hands of the Public June 30, 1903. $. \$ 279,272,00000$
Increase during the jear
The Oregon Short Line Railroad Company, under an Indenture dated July 17, 1902, issued $\$ 82,491,000$, face value, Four Per Cent and Participating Twenty-five Year Gold Bonds, pledging uoder said Indenture the $\$ 82,491,000$, face value, Capital Stock of the Northern Securities Company owned by it. These bonds were sold to the Union Pacific Railroad Company at ninety per cent of their face value for the purpose of retiring the entire issue of Oregon Short Line Railroad Company Northern Pacific Purchase Money Vertificates, amounting to $\$ 61,000,000$, owned by the Union Pacific Railroad Company, and in the discharge of other indebtedness of the Oregon Short Line Railroad Company. The discount on the entire issue of these bonds, amounting to $\$ 8,249,100$, was charged to Unfunded Discount and Premium on Capital Issues, and the net amount remaining to the debit of this account on June 30, 1903, was written off to "Profit and Loss." Of the $\$ 82,491,000$ bonds thus issued, bonds to the amount of $\$ 31,000,000$ were sold by the Union Pacific Railroad Company to its shareholders under its circular to them of July 18, $190 \%$; bonds to the amount of $\$ 5,000,000$ were subsequently sold, and bonds to the amount of $\$ 16,491, n 00$ remain a free asset in the treasury of the Union Pacific Railroad Company. The diridends received from the stock of the Northern Socurities Company for the calendar year 1903 have amounted to ${ }^{*} 3,7 / 2,13102$, and eoual four and one-half per cent on the stock. The increase in dividends will accrue to the holders of the Oregon Short Line Railroad Company Four Per Cent and Participating Bonds, and on February 1, 1904, there will be payable to them an additional one half of one per cent over and above the regular semi-annual coupon of two per cent, making the entire interest for the year four and one-half per cent

Under the provisions of the Union Pacific Railroad Company's First Lien Convertible Four Per Cent Gold Mortgage, there were canceled First Lien Convertible Four Per Cent Gold Bonds to the amount of $\$ 12,743,000$, face value, and a corresponding amount of collateral was withdrawn and added to the Company's free assets.

The total amount of bonds issued and outstanding and tine amount owned by the Union Pacific Railroad Company and Auxiliary Companies are shown in detail in Table No. 6.

## agsets and liabilities.

The assets and liabilities of the Union Pacific Railroad Company and Auxiliary Companies are shown in detail in Table No. 4. Tue value of the lands belonging to the Union Pacific Railroad Company remaining unsold at the close of the fiscal year is not included in such statement of assets. The securities of the Auxiliary Companies owned, as well as all offsetting accounts between the companies, are eliminated, thus dealing only with the securities in the hands of the public.

The loans and bills payable, outstanding at the beginning of the year, and amounting to $\$ 28,750,000$, were paid off from the proceeds of the sale of Oregon Short Line Railroad Company Four Per Cent and Participating Twenty-Five Year Gold Bonds, thas dischurging the floating debt which had been incurred by the companies. It was deemed expedient, however, to aid the Southern Pacific Company in temporarily financing its large expenditures for reconstruction, betterments and improvenents tu its property and for much needed equipment. For this purpose $\$ 15,396,11912$ was advanced by the Union Pacific Railroad Company to the Southern Pacific Company re-payable on demand; of this sum the Union Pacific Railroad Company provided from its surplus cash funds $\$ 1,146,11912$, and incurred loans for the remainder. The work in hand on the lines of the Southern Pacific Company will be finished before the end of the year, and it is expected that it will result in a satisfactory saving in the cost of operation and in other directions.

Since the close of the fiscal year the Union Pacific Railroad Company has sold $\$ 10,000,000$, face value, of its Five Per Cent Collateral Notes, maturing February 1. 1905. The greater part of the proceeds of this sale was loaned to the Southern Pacific Company; the remainder was used to re-pay in part the Union Pacific Railroad Company for outlays amounting to $\$ 11,873,84234$, incurred by is in advancing funds to Auxiliary and Allied Companies for the construction of new lines, the purchase of two new steamships and for other equipment. With the exception of these loans and short-term notes the companies have no floating debt, and they have a large excess of assets in the demand loans to the Southern Pacific Company, in 4 dvances for account of construction of new lines and equipment, and in free assets in the form of unpledged stocks and bonds, as shown in Tables Nos. 5 and 6.

## LAND DEPARTMENT.

The net proceeds from the sale of lands belonging to the Union Pacific Railroad Co., after payment of expenses and taxes appertaning thereto, aud all sums of money received ou account of interest or principal of the bonds, or dividends upon the stock of the Uuion Pacific Land Company, are under the provisions of the Mortgage of the Union Pacific Railroad Compaur's First Rilroad and Land Grant Four Per Cont Gold Bonds set apart and held by the Crustee as a Cash Improrement and Eutipment Fund to reimbarse the Railroad Company for any expenditures for betterments, improvements, eqnipment, or other properties not paid for out of other funds or charged to operating expenses or cost of maintenance.

For the year enling June 30, 1903, the transactions in respect of the above-mentioned lands were as follows:
Fet proceeta appled daring the year nutor provislons of mortgage.
$\$ 915.58710$

Total a mont revetred (oash and prinolpal of deferrod payments)
Arerdse blwe recalved per acre
Funber uf tores of laud remalulag insold june 30,1903
 $813,230.53$
$1,491,68256$

13. 15 and 16 of pamphlet report.

$1,390,77150$
684,20002

## Amount remaining charged to capital asset.

In addition to the copita expenditures for account of the properties covered br the outatanding bonds of Pacific Railroad Company and Auxiliary Companies, there was expended during the year for construction of new lines, new stea uships and other equipment the sum of $\$ 6,765,55473$. The total sum advanced for this account to June 30, 1903, amounts to $\$ 11,873,842$ 34, and still remains due from the respective companies and is carried as a free asset in the Companies acconnts. This expenditure represents the cost of $442 \cdot 20$ miles of completed main track with $55 \cdot 76$ miles of sidiugs, 15 freight locomotiv s, 11 passenger cars, 300 freight cars and payments for account of the ocean steamships "Manchuria" and "Mongolia," each of a gross tonnage of 13,500 tons, and having accommodations for 350 . first cabin, 68 second cabin and 1,300 steerage passengers.

## BETTERMENTS AND IMPROVEMENTS.

The character of the betterments and improvements made during the year was as follows:

|  | Total. | Union Paciflc Raitroad Oompany. | Oregon Short Line Railroad Oompany. | Oregon Railroad a Narigation Oompany. |
| :---: | :---: | :---: | :---: | :---: |
| Miles of track ballasted with gravel | 183.57 | $47 \cdot 56$ | 13300 | 3.01 |
| " " 0 rock | 13.00 |  |  | 13.00 |

|  |  |  |  |  |
| Miles of roadben widened. - ........ ............. | $270 \cdot 19$ | 11859 | $151 \cdot 60$ |  |
| Cubic jards material moved widning embankments and filling trestles | 1,219,284 00 | 79,635 00 | 920,558.00 | 219,091 00 |

There was a total reduction in the length of pile and timber bridges of 14,660 feet and an increase in the total length of permanent bridges of 5.169 feet.

There was expended during the year for account of the additional shop facilities at Omaha, referred to in the last report. $\$ 501,1888 \%$. These shops, involving extensive changes in grade and yard tracks, are about completed, and the machinery and equipment have been installed therein. At Pocatello there has been erected a building, $146 x 477 \mathrm{ft}$., containing a boiler and tauk shop, a machinery-erecting shop, a blacksmith shop and a wheel and truck shop; there has also been builta power-house, $75 \times 40 \mathrm{ft}$. an oil-house, 50 x 50 ft ., an office and store-hnuse, $70 \times 180 \mathrm{ft}$., and part of a 30 stall engine house. The expenditures for account of these shops, yard and tracks to June 30,1903 , have amounted to $\$ 534.47043$. The buildings are all of a permanent character and have been supplied with machinery, tools and appliances of the best designs.
Wood- reserving plants for the purpose of burnettizing or creosoting timber have been established on the lines of the Union Prcific Ratroad and the Oregon Railroad \& Navigation Company. They have a capacity for treating anuually about 1100,000 ties.

There was expended for recount of changes in line $\$ 358,74998$, of which $\$ 331,89730$ was expended on the lines of the Union Pacific Railroad. Work on some minor changes is progressing and will be carried on as rapidly as conditions will permit.

EQUIPMENT.
Tbe changes in the equipment duriog the $y \theta+1$ were as follows :

|  | Destroyed or Condemued ant Orelbedt to Re-placement Fund. placement Front | Admed during the leali. |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Oharged to Rollung Stork lic plucement Fitnd. | Ohar ged to Impravem't and Rstuipm' Fund. $^{\text {. }}$ | Oharged to Oapilul Account | Total. |
| Locomotives. | 17 | 5 3 | 15 | 32 | 52 |

[^6]MAITENANCE OF WAY AND STRUCTURES. - (Decrease, $\$ 654,43117$, or 11.00 per cent.) Repairs of roadway increased $\$ 191,50964 ;$ repairs of bridges, culverts and riaducts decreased $\$ 117,54703$, partly as the result of the increase in the number of permanent bridges; renewal of ties decreasel $\$ 71,48067$, and renewal of rails, frogs, switches and fastenings decreased $\Sigma 606.2=003$, the etfect of the large renewals made in the precedingyear.

The following rails, ties and tie plates were used duriug the year in making renewals and the cost thereof charged to operatiog expenses:

|  | Last Year. |
| :---: | :---: |
| Miles of new 70 lb . steel ralls. | $259 \cdot 17$ |
| Mlles of new so-1l), steel rails. | 291.00 |
| Total miles of news stedy ruls | 55017 |
| Total mumber of cross ties.... | 1,810,17000 |
| Percentage of renewal of all tles in | 645.02 9.05 |
| Nomber of new tle plates....... | 720,044.00 |
| Equal to miles of contlumons track | 128.58 |

The weight of rails per yard in main lines and branches at the close of the year was as follows:

| Mileage of Dened and Leased Mainand second Track at the close of the year. | Total. | 90 Lb . | 85 Lb . | 80 Lb . | 75 Lb . | 70 Lb . | 67 Lb . | 60 Lb . | 56 Lb . | $\begin{aligned} & \text { Uxder } \\ & 56 \mathrm{Lb} . \end{aligned}$ |

| Total................... Per centof total miles of traob | $\begin{array}{r} 5,95199 \\ 100.00 \end{array}$ | $20 \cdot 20$ $\cdot 34$ | $\begin{array}{r}43 \cdot 41 \\ \hline 73\end{array}$ | $\begin{aligned} & 965.06 \\ & 16.21 \end{aligned}$ | $\begin{array}{r} 500.69 \\ 8.41 \end{array}$ | $\begin{array}{r} 1,637 \cdot 67 \\ 27.52 \end{array}$ | 43.15 .73 | $\begin{array}{r} 1,50697 \\ 25 \cdot 32 \end{array}$ | $\begin{array}{r} 543.03 \\ 9.12 \end{array}$ | $\begin{array}{r} 691.81 \\ 11.62 \end{array}$ |

Expenditares for maints nance of way and structures have averaged $\$ 006 \geqslant 6$ per wile of main and second track as against $\$ 1,02733$ for the preceding year.

MAINTENANCE CF EQUIPMENT,- (Increase, $\$ 1,456,94080$, or 31.89 per cent). Repairs and renewals of locomotives increased $\$ 129,40760$ : repairs and renewals of freight equipment, $\$ 144,40690$; shop machinery, $\$ 155,05071$, and superintendence and other expenses, $\$ 571,43836$. There was, however, a decrease in repairs and renewals of passenger equipment of $\$ 103,-$ 4035.5 , and in work and service equipment of $\$ 39,95922$.

Including in the charges to repairs and renewals of locomotives and cars the difference between the original cost or inventory value of old locomotives or cars sold, destroyed, broken up or condemned during the year, and the price obtained for them dismantled or otherwise disposed of, the repairs per locomotive and per car owned have averaged the following cost per annum:

The equipment owned by the respective companies is skown in Table No. 17 of pamphlet report, and the capacity, the service and the arerage cost of maintenance are shown in Tables Nos. 22,23 and 24 of pamphlet report.

CONDECTING TraNsfortation.- (lncrease, $\$ 2,140,60365$, or $18 \cdot 32$ per cent.) Fuel for locomotives increased $\$ 728,83540$, resulting in part from an increase amounting to 10.41 per cent in the nomber of miles run by loconotives in revenue service and in patt from an increase in the cost of coal. Locomotive zervice, otber than fuel, and train service increased $\$ 737.696$ 38. Payinents for the use of cars, switching payments and other expenses appertaining to conducting transportation increased $\$ 6 \pi 4,67187$.

Compared with the results of the preceding year, the work done by the transportation departments shows the following gain

Gross trauspertation receipts.
Expenses condieting transportation.
Passengers carrled one mile.
Car milles-passenger trains.
Locomoivo miles- passenger trains, ineluding light and helping
Tons-commerclal freight-carried one mile
Tons-comoereal and company frelght-carrled one mile
Locometive miles-freight
Locomotire miles-rreight and mixed trains, ineluding light and helping

The average number of tons of freight per train, tons per lcaded car and the percentage of loaded freight car mileage to total freight car mileage (including caboose), for the respective properties for the year, were:

A review of the general operating results by which these expenses are affected will be found in Table No. 20 of pamphlet report.

GENERAL EXPEASES. - (Increase, $\$ 180,18693$, or 16.74 per cent.) Expenses for general administration increased $\$ 78,31241$; for insurance, $\$ 7.713$ 79, and for $r$-ntals and other expenses, $\$ 94,13073$.

Water Lises - (Increase, $\$ 2 \tau, 11819$, or 2.98 per cent.) Charges for maintenance of floating equipinent and property increaserl $\$ 3,3,41253$; general expenses increased $\$ 10,79617$. There was, however, a decrease in expenses for condacting transportation of $\$ 17,09051$.

## GENERAL.

The Insurance Fund shows a gain in the year's transactions of $\$ 8,4.5100$. The operations of this Fucd from its beginning to Jnne 30, 1903, are shown in Table No. 14 of pamphet report.

For the benefit of the employees of the several companies there was put in effect January 1, 1903, a Pension System, similar in its general provisions to those established by other loading railways of this country.

In Jnne, 1903 , following a poriod of continned heavy rains and some cloudbursts, floods of a disastrons character occurred in Kinsss, Southern Nebraska and parts of Miesouri. The floods were particulirly severe and destrictive in the valleys of the Kansis and the Smoky Hill rivers, along which the Union Pacific Railroad Compeny's Kansas line runs for a distance of over two hundred miles; also in the valleys along the Blue, the Republican, the Solomon and the Saline rivers, which are traversed by said company's branch lines. About 247 miles of the main track were subinerged, the
roadbed and bridyes washed ont or serionsly damagel, and much of the ballast was washed away. The compuny s fards tracks and buildings at Kansas City, Armstrong. Lawrence, Topokn, Manhattan and other points, together with cars and merchandise therein, were badly dimaged; 37 freight cars, with their contents, were lost or destroyed, and the joint Union Pac:fic-Missonri Pacific domble track iron brilgo over tho Kansas River at Kansas City was carrica away. Operations on the Kansas Division were practically suspentoil for nearly three weeks. The estinate for the replacement of the property damaged amoments to abont ono half million dollars. Although a cousiderable part of tho damages was repaired during Jume and included in the operating ex.jenses, it was thonght best to set asido out of the year's income ono half million dollars to completo the recoustruction of the property destroyed.

Although the transportation operations of tho Companies were attended with more than an umsual combination of unfavorable circmmstances, there still remained a qain over the preceding year of $\$ 773,393 \% 0$, or $5 \cdot 33$ per cent, in tho sur plus applicable for dividends after the parm-nt of all charges.

As a matter of information concerniug the trimsportation operations of the present properties, the following statemont of the transportation receipts and expenses for the past six yours is submitted. The Union Pacific Railroad Company did not commence operations until Febrary, 1898, and the oprations of the Quegon Short Line Railroad Company ind Tho Oregon Railroad \& Navigation Company were not taken over until the following year, but for the purpose of comparison the receipts and expenses for the years 1398 and 1599 have been re-stated to include the operation of the properties subsequently taken over.

Year ending.

Comparing the operations for the year 1903 with those of the year 1898:

## Miles of road rperated incroased

Gross transportation receipts horeas.
424.84 miles or 796 per cent Operatluy expeuses and taxos luereased 9,166,419 81 " 56.52 Recelpts over operatiug expenses aud taxes inereased 9,166,925 10 " 46.82

This gratifying increase in receipts, both gross and net, has been mainly achieved through the large expenditures by the companies for additional equipment, and in providing other facilities for the prompt handling of the business offered by the Public: also in the revision of grades and alignments and through other expenditures for the purpose of cheapening the cost of maintenance and operation.

Since the acqnisition of these properties by the present owners, there have been expended in betterments, improvements and additions to the existing lines, in changes of line, and for new equipment, the following sums :

These expenditures were met from:

Total (written off against the cost of rallways, equipment and appurtenanees)
\$9,718,296 00 11,303.664 4
Tis reserved, under prorisions of the mortgage, for the payment or expenditures for betterments, additions \& equipment. Remainder, provided mainly from Inc 3 m 18,201,462 86

## Cotal

$\overline{\$ 39,223,42327}$
The above statement does not include expenditures for the construction of new lines and for equipment amounting to \$11,8i3,842 34 referred to under "Capital Expenditures.

The Board regrets to announce the death, cn March 31, 1903, of Mr. H. W. Corbett, a member of the Board of Directors of The Oregon Railroad \& Navigation Company. Mr. Corbett has been identified with the Company almost from its beginning and his counsel will be missed in the affairs of the Company.
prot The accompanying report of the Comptroller shows in detail the property of the Union Pacific Railroad Company and Auxiliary Companies and their combined financial and other transactions.

## UNITED FRUIT COMPANY.

EUURTH ANNUAL REPORT-FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 1903.

## REPORT OF THE PRESIDENT,

To the S'ockioters Unite E Fru:t Cmpany
The fourth year of the United Fruit Company"s business hats shown a continuation of the sam healthy growth that has characterized its oparations from the start, in spite of the devastation cansed in Aurust hast bj the severe hurricane which swept the Ishad of Jamaica, damaging the cultivations aud baidings belongine to the Company to the extent of $\$ 168,300$, which was promptly charged to profit and loss account.

In June last the Company purchased extensive high-grade bunana fields on the Isthmus of Panama, which are reached by means of the Changuinola Canal, and which until its construction had been inaccessible. The canal, which is some twelve miles long, is owned by your Company, and absolutely controls. by rirtue of a Government con ession, all trausportation facilaties between that section and the seaboard.

These lands ire adjacent to the Company's properties at Bocas del Toro, and the bananas which are now being shipped from that section comp are farorably with the fruit obtained in Costa Rica. Considerable development work is being clone in the way of planting new fields and equipping them with local railways.

Shipnients of bananas and other tropical products to Eng. land have been regularly made from the West Indies and Central America during the latter portion of the past year, and demonstrate that this is likely to prove a very profitable brancli of your Company's business. It returned for the year a satisfactory income upon the capital invested, besides strengthening the Company's position by furnishing another outlet for fruit. Three additional steamers are now being built especially for the European service. The business is haudled by a Company organized under the laws of the United Kingdom, in which your Company owns fifty per cent of the capital stock, and is managed by offici ls who thoroughly understand the local cunditions and how to secur the most satisfactory results.

## Income.

Total earnings from the oprations for the year amounted to $\$ 2,077,14797$ net. Dedncting interest and Miscellaneous Charges of $\$ 229.59483$, consisting mainly of intere $=$ on the convertible bonds, leares a balance of net income for the year a counting to $\$ 1,818,15314$, out of which there has been paid to the stockholders $\$>77,15$ ) in four regular dividends of one and one-balf per cent each, and one extra dividend of one per cent, making a total of seven per cent for the year. The surplus for the year of $\$ 971,00314$ after payment of dividends, plus the surplus of $\$ 2,003,376$ 38, brought for ward from Septembar 30, 1902, makes the total surplus on September $30,1903, \$ 2,974,3795 \%$. Against this has been cliarged direct the loss of $\$ 168,300$ occasioned by the hurricane in Jamaica, and expenditures and losses incurred of $\$ 41,26451$ in settlement of court julgiuents rendered during the year, which were inherited liabilities arising through the operations of constituent companies. These expenditures complete the settlement of all contested liabilities pending against the Company:

The balance of surplus after making these direct charges stands at $\$ 2,764,81501$.

Banañas - The number of bunches of bananas handled by the United Fruit Company for the fiscal year reached a total of $23,413,892$, including shipments to the United Kingdom. Duriny the preceding twelve months the Company handled 19,636,572 bunches. This large incroase in shipments has been accompanied by a flight though appreciable reduction in the co-t of transportation and distribution, as compared with the cost for the preceding year, and in addition the consumer has been provided with a better quality of fruit at an actually 1 ,wer price, thus demonstrating the success of the company's policy to improve the quality of the fruit and reduce the price to the consumer. Three new steamers, especially built for the banana trade, have been added to the Company's chartered fleet within the year, and contracts have been closed for four additional chartered steamers to ply between the United Scates and Central A merica.
SUGar.-The suger business for the past season resulted in a loss of $\$ 10,599$ 3il, due to the low prices ruling for Cuban sugar in this market. The operations and output of the mill for the season were exceedingly satisfactory. The production of sugar reached a total of $44,000,000$ pounds, which found a ready sale at highest market prices among the refiners in this country.

Cocuasuts and Orasges, -Shipments of cocoanuts for the year aggres sated approximately $2 \overline{5},(000,000$, this being a gratifying increase over the figure for the preceding twelve months, which was $19,000,000$. Shipments of oranges for the same periods increased from 23,093 to 264.703 boxes.
Fruit Dispatch Company. - Sales by the Fruit Dispatch Company, which handles the products of the United Fruit Company in the interior of the United States and in Canada, reached a total of over $\$ 8,000,000$. This Company, through its mans branches, which cover all the principal interior
cities in the country, has disposed of nearly 25,000 car-loads of tropical fruit during the year, increaring its business more than ten per cent. As all sales are made with a limit of ten days' credit, losses from poor accounts are an almost inappreciable factor and amount to approximately one thirti eth of one per cent.

## AS8ETS.

During the year the policy of the Company to charge all improvement expenditures to operating expenses has been observed, and few changes have been miade in the book cost of the tropical investments, the most important item being the cost of the properties purchased in tho Isthmus of Panama, referred to abore. No material changes have been made in the Jamaica investments, as the damaged farms and binildings are to be restored as soon as practicable, and the loss was accordingly credited to a suspeuse account, to which the repair expenses are being charged.
The inventories of the tropical properties, based on actual appraisals mado by the Company's local representatives, indicate that the value of the farms and equipment exceeds by $\$ 243,29021$ the amount at which they are carried on the books. Total cxpenditures for new properties and improvements aggregated for the year $\$ 1,349.75539$. Of this amount $\$ 808,96349$ was charged to the cost of lands and equipment and the balance, $\$ 540,79190$, representing cost of such $\mathrm{im}-$ provements as railway extension and new cultivations and buildings, was charged to operating expenses.

From this it will be apparent that a safe margin has been provided to insure the maintenance of the properties in soand physical condition.

LiABILities
Boston Fruit Company Bunds. - The balance of the Boston Fruit Company Bonds has boen retired within the year and the mortgage has been satisfied and discharged.
Convertible Ten Year Bonds. An additional issue of $\$ 250,000$ Convertible Bonds was wade in September. Bonds to the amount of $\$ 206,000$ were exchanged for stock during the year and $\$ 100,000$ bonds were purchased for the sinking fund aud cauceled. This together with the retirement of the Boston Fruit Company Bonds, results in a nel reduction of $\$ 68.500$ in the Company's bonded debt.

Insurasce Fund. - The fruit cargoes are insured through the Insurance Fund, which during the year has paid claims of $\$ 31,08605$ and has added to its surplus $\$ 73,86261$. The Fund now has resources of $\$ 294,20392$, which are not included among the assets reported in the Company's balance shoet.

It is especially gratifying to note the untiring zeal with which all members of the staff, wherever located, have met the responsibilities of their respective positions, and to them is due an expression of apprectation and thanks, which, by this means, it is my privilege to tender.

Respectfully submitted,
ANDREW W. PRESTON,
Boston, November 18, 1903.
President.

## COMMERCIALEPITOME

## Friday Niabt, Nov. 27, 1908

The observance of a national mid week Thankgiving holl day has had a tendancy to interrnpt business operations to ? limited extent. First hands have quite generally experi enced a quiat week, bacera as a rule being disposed to wait antil "atter the hollday" before placing new orders. Gen eral basiness is also feeling the effect of the holiday trade. Jobbers, as a rule, have their attention and capital centered largely in holiday goods. The movement of mercbandise into the hands of the retail trade has heen on a liberal scale. The climatic conditions have given a stimulus to trade in sessonable goods, and there is also a heary demand for snpplits for the holiday season. There has been a subsidence of the spec ulative sctivity in ootton, sifsiting the Agricultural Burean's estlmate of the cotton crop to be pablished daring the comIng week.
Lard on the spot has been offered at lower prices and at the decline a moderate volume of business has been trans acted. Exporters have been slightly better bayers, and there has been limited bnring by refiners. The close was quiet at 8.85c. for prime Western and $8.25 @ 6 \cdot 50 \mathrm{c}$, for prime Clty Refined lard has had a moderate sale at lower prices, closing at 7.200 . for $r \in f i n e d$ for the Continent. Speculation in lard for fatare delivery has been moderately active, Full receipts and declining prices for hogs and selling by packers have forced values to a lower basis. The close was dull bat steady.
Following are the closing quotations
dATK OLOBDG PRIONE OY LABD FUTUREE IN OHIOAGO.

|  | 8ab. | 40n. | Tues. | Wea. | TALrs. | 4. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| December del'v'. | 6.6212 | $8 \cdot 45$ | $6 \cdot 35$ | 6.35 |  | $6 \cdot 25$ |
| Januars del'J. | 6.624 | 645 | 6.3718 | $6 \cdot 271_{3}$ |  | $6.22{ }^{1} 3$ |
| May del'r... | $6 \cdot 62{ }^{1}$ | $6 \cdot 50$ | 6.45 | 6.872 | day. | $6.321_{2}$ |

Pork has had a moderate sale, reducing stoces slightly and prices have held steady at $\$ 1300 @ 1835$ for mess, $\$ 1325$ @1500 for short clear and $\$ 1700$ for family. Cat meats have been in slow demand and prices have shown an easier tendency, olosing at 53/4@6c. for pickled shoulders, 101/4@111/2c for pickled hams and 9@10c, for pickled bellies, 14@10 1bs average. Beef has held steady at unchanged prices; busi ness has been moderately active, closing at $\$ 875 @ 9$ ro for mess, \$950@1025 for packet, $\$ 1000 @ 1050$ for family and $\$ 1600 @ 1750$ for extra India mess in tes. Tallow has been quiet but steady at 41/2c. Stearines have been dall and easier, olosing at $73 / 4 \mathrm{a} 3 \mathrm{c}$. for lard stearine and $61 / 4 \mathrm{c}$, for ole stearine, Cotton-seed oil has been in moderate demand and firmer, closing at 34@341/2c. for prime yellow. Batter hss ad vanced, especially for the better grades, closiog at $16 @ 243 / 4 \mathrm{c}$. for creamery. Cheese has advanced slightly and the close was steady at 9@12c. for State factory, full oream. Fresh eggs have been quiet, and with moderate cfferings, the market closed easier at 33 c . for best Western.
Brazil grades of coffee have continued to mest with only a small trade demand, but owing to speculative support, in duced by a light movement of the crop, prices have been well maintained. The close was firm at $61 / \mathrm{c}$ c. for Rio No, 7 and $71 / \mathrm{c}$ c. for Santos No, 4. West India growths have had only a limited sale, but values have held firm with good Cacuta at 81/2c. East India growths have had a slightly better sale at steady prices. Speculation in wheat for fature delivery has been fairly active. Decrezsing Brazll receipts have stimulated buying and prices have advanced slightly, The close was firmer on moderate baying
Following are the closing aeked prices:

Raw sugar hare had at $33 / 4 \mathrm{c}$. for centrifugals, $96 \cdot \mathrm{deg}$. test, and $31 / 4 \mathrm{c}$. for musco จado, $89 \cdot d e g$, test. Refined sugar has been dull and weak, closing at 4.45 c , for granulated. Spices have been dall, Teas have been quiet but steady.

Kentucky tobacco has been moving freely on old purchases, but oulp s limited volume of new basiness has been trans acted. Seed-leaf tobacco has been firmly held for desirable selections, for which there has been a fair inquiry, with stocks steadily decreasing. Financial trouble in tobacco trade had a tendency to unsattle the market to some extent. Eavana tobacco has been quiet but steady. Samatra tobacco has had a mojerate sale at steady prices,
Straits tin has been more active and higher on reports of some interests defaulting on their contraots for shipment, The close was firm at 25.75@26'25c. Ingot copper has declined, but at the lower prices basiness has improved, export ers being fairly good bayere. The close was steady at 12.50c. for Lake and $12 \cdot 25 \mathrm{c}$. for electrolytis. Lead has besn dull and easy, closing at 4.25 c . Spalter has declined, closing flat at $5.621 / \mathrm{c}$ c. Pig-iron has been in fair demand and steady at $14 @ 15$ for No. 2 Northern, snd $\$ 13 @ 1350$ for No. 2 Sonthern. Refined patroleum has been firmer, closing at 9.50 c . in bbla., $12 \cdot 20 \mathrm{c}$. in cases and $6 \cdot 60 \mathrm{c}$. in bulk. Naphtha has been anchsnged at 104Cc. Credit balances have beon anchanged, closing at $\$ 182$. Soirits turpentine has weakened slightly, cloeing quiet at 59 @593/2c. Rosins have been quiet and easier, closing at $8255 @ 200$ for common and good strsined. Hops have boen in fair demand and firm for deairable selections. Wool has been quiet but well held.

Specalation in cotton for future delivery has been less active and no important changes in prices for the week have rean, which will be issaed on Tharsday, Dec, 3, is the devei opment toward which all speculative interest centres, and, untll this estlmate is announced, there is a general disposition shown by the rank and file of traders to take no decided stand on either side of the market; consequently mach of the trading that has been going on the past Week has been in the pature of evening ap. The popabales. Several private estimates of the yield of the crop hare b-n circulated daring the week, and they have ranged from slightly over $10,000,000$ bales to in excess of $11,000,000$ bales. The aversge estimate of the members of the New York Cotton Exchange is $10,724,000$ bales, and cable advices from Liverpool report that the rverage estimate of the members of the Liverpool Cotton Exchange is $11,004,000$ bales. The movement of the crop has continaed fall, the amonnt "in sight" for the week showing a fair gain as compared with the corresponding week last year. The advices received from the South have reported quieter markets for actual cotton, the boying by exporters being on a limited scale only, and the demand from domestic spinners bas dragged. Despite the falling off in the demand, prices in the Sonthern spot market have been well maintained, there beivg no pressure to sell cotton. To-day the market was moderately active and, based on stronger advices from Liverpool than expected, prices advanced. Notioes were issued for the delivery of 15,000 bales of catton on Decemter contracts; they circulated ratner freely and had something of a depressing influence apon prices for this delivery. The close was steady at a net gain for the day of $6 @ 10$ points. Cotton on the spot has held steady, olosing firmer at $11 \cdot 35 \mathrm{c}$. fcr middling apland.

On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the grades would be as follows:

Weather Reports by Telegraph - Our advices by telegraph from the south this evering audicate a continastion of favorahle weather conditions at the South during tho week; for although temperature has been rather low at many points, there has, as a rule, been little or no raid. Picking is making very satisfactory headway, and marketing of cotton has been on a liberal scale.
Galventon, Texas. - There has been no rain daring the week. The thermometer has averaged 55, the highest being 68 and the lowest 42.
Corpus Christi, Texas.-There has been no rain daring the week. The thermometer has averaged 55, ranging from 42 to 68.

San Antonio, Texas.-It has been dry all the week. The thermometer has ranged from 34 to 78, averaging 56

Palestine, Texas.-Rain has fallen on one day of the week, the rainfall being one hundredth of an irch, Average thermometer 49 , highest 70 snd lowest 28.

Abilene. Texas. - There has been no rain during the week. Average thermometer 52, highest 74, lowest 30.

New Orleans, Louisiana.-Dry weather has provailed all the week. The thermometer has averaged 50

Shreveport, Louisiana. - Tnere has been no rain the past week. The thermometer has averaged 49, the highest being 67 and the lowest 32.

Columbus, Mississppi. - We have had no rain during the week. The thermometer has ranged from 20 to 68, averaging 44.

Leland, Missis sippi. - There has been nu rain during the week. Average thermometer $98 \cdot 6$, bighest 58 and lowest 21.
Vickshurg, Mississippi.-There has been no rain the past week. The thermometer has averaged 45, the highest being 65 and the lowest 26.

Little Rock, Arlcansas.-The weather is fine for mataring and picking cotton. There has beon but a trace of rain dur. ing the week. The thermometer has averaged 41, ranging from 24 to 59.
Helena, Arkansas.-Cotton nearly all picked. We have had rain on one day of the week, the rainfall being six handredths of an inch. The thermometer has ranged from 20 to 58, averaging 41.

Nashville, Tennessee. -There has been rain on one day daring the week, to the extent of one hundredth of an inch. The thermometer has averaged 37, the highest being 56 and the lowest 18.

Memphis, Tennessee.-Picking and marketing are active Picking in many places finished. There has been rain on one day during the week, the precipitation being six handredths of an inch. Average thermometer $40 \cdot 1$, highest $55^{\circ} 6$, lowest 26 . 8
Montgomery, Alabama. - It has rained on two days during the week, the rainfall being fourteen hundredths of an inch. The thermometer has ranged from 36 to 64 , averuging 44.

Selma, Alabama. -The weather has been dry all the weet.
Average thermometer 48, highest 75 and lowest 80.

Mobile, dhbuma.-Cotton picking is completed in most sections. Rain has fallen on one day of the week to 8 n ia appreciable extent. The thermometer has areraged 50 , rang ing from 24 to 69
-Survanrah, Georgia. - There has been rain on four days of the week, the precipltation reanhiag ninety-tive handredths of 8 inch. The thermometer has averaged 49, ranglng from 32 to 71.

Augusta, Grorgia. - We have had rain on two days of the Week, the precipitation reschiug eleren haudredths of an inch, The thermometer has rangəd from 19 tu 66, avaraging 44.

Chrrleston South Carjlina. -Tne $\boldsymbol{T} \rightarrow \boldsymbol{k}$ 's raiafall has been forty-3evan huadredihs of an inoh, on foar days, Average therm smater 47, thy highest baing 61 sad the lowost 35.

Statebu-g, Sjuth Carol $n$ r. - Wenek mostlv cold a ad inclem. ent and nufarjrabe for farm $\pi$ ork. Wo had light rain two days daring the weok, the precipitation reaching twenty-eight handredths of an inch. The thermometer has areraged 44, ranging from 27 to 66.

Greenteood, South Curolina. - We have had no rain during the week. The thermometer has ranged from 32 to 55, averaging 43 .

Charlotte, North Carolina.-There has bsen but a trace of rain during the week. Aperage thermometer 40, highest 63 and lowest 18

| Oharl't'n, \&o |  |  |  |  |  |  | 130 | 1,314 |
| Florida, \&o. |  |  |  |  |  |  | 1,004 | 4,358 |
| New York. | 828 |  | 828 | 1,903 | 273 | 2,176 |  |  |
| Boston |  |  |  | 387 |  | 387 |  |  |
|  |  |  |  |  |  |  |  |  |
| Tota | 828 | 75 | 903 | 6,929 | 3,610 | 10,539 | 1,912 | 12,147 |
| Total 1902.. | 3,278 | 380 | 3,65 | 13,042 | 3,273 | 10,31 | 866 | 12 |

A considerable portion of the Sea Is'and cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of inclnding this cotton for the week in which it leaves the Soathern outports, we follow the same plan as in our regular tabl $\theta$ of including it when actually exported from New York, \&c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a substquent page.

Quotations Nov. 27 at Savannah. -For Goorgise, extra fine, $201 / 2 \mathrm{c}$.; choice, 22 c. ; fancy, 23 c .
Charleston for Carolinas,-Fine to fully fine, $23 \frac{1}{2} \mathrm{c}$.; fully to extra fine, 25 c

New York \& New Orleans Spot Quotations.-The com mittee on revision of sput quotations uf toe New York Cotton Exchange, at their meeting on Novamber 18, decided to make no change in the rates on and off middling as then in force. The rases now prevailing are therefore those estab. lished Nov, 19, 1902. Ia the meantime there have been fieque it, changes in the rates in the New Orleans market, the differences between midding and most of the other grades showing radical changes within the year. How the New Yors rates compare with those at New Orleans Nov. 19, 1902, and Nov. 18, 19 J 3 , is sh jwn in the following

Cotton Crop Estimates. - Estimates on the cotton orop of 1903.04 have bien made by various cotton exchanges and firms as follows:

New Yorlc. - Announcement was made on the Cotton Exchange Wednesduy that the average estimate of 163 members of the Exchange placed the present cotton crop at 10,724,000 bale 3, the highest eatimate being $11,500,000$ bales and the lowest $9,875,000$ bales.

Norfolk. - The avarage estimate of the members of the Norlolk Cotton Exchange is 10,732,577 bales, the highest being $11,150,000$ bales and the lowest $10,250.000$ bales.
Mesers. Latham, Alexander \& Co., New York, made pablic on Monday their estimate of the cotton crop of 1903-04, the total reached being $10,300,000$ balea,
Messrs. J. H. Parker \& Co., New York, estimate the crop at $10,648,0,0$ bales.
Mr, R. L. Thompen, West Darhim, N. C., issued on Nop. 20 an estimale which placed the crop of $19 \mathrm{~s} 3-44$ at 10,805,000 bales.

CXPORTS UE JOTTUN GOUDS FHOM UHEAT BKITAIN．－BOLUW we give the exports of cotton yarn，goods，\＆c．，from Great 1903 and 1902，as compiled by us from the British Board of Trade returns，It will be noticed that we have reduced the movement all to pounds．

## BREADSTUFPS．

Friday，Nov．27， 1903.
Business for the week in the local market for wheat flour has been quiet．Bayers generally in placing orders have operated on a hsnd－to mouth basis，but，reflecting the steadi－ ness of the market for the grain，mills have held firm in their views，and prices have been well maintained．The North－ western mills have reported a fair business transacted．City mills have been quiet but steady．Rye flour has been in moderate jobbing demand at about steady prices．Buck－ wheat ilour has been quiet and unchanged．Corn meal has had only a limited sale；prices have held steady．
Speculation in wheat for future delivery has been fairly active，but fluotnations in prices have been within a narrow range and the net change for the week is unimportant．Early in the week there was a fractional loss．Enropean cable advices were tame，reporting quiet and slightly easiar markets．The movement of the apring．Wheat crop did not show the falling off expected，the recelpts at the primary Northwestern markets being fairly fall． Tuesday the market turned stronger and all of the loss in prices was recovered．Prominent interests in the West were reported aggressive on the bull side of the market and their buying was the principal factor in advanoing prices．The export movement of wheat flonr to Earope was continued on a liberal scale，bat the saipments of wheat have been onily moderate．It is understood that the reports of a heary demand from interior millers and only moderate sapplies of cash wheat have been the factors which have in－ flaenced the bull interests in their operations．The spot market has held steady，and a moderate arnount of export business has been transacted here and at outports．To－day he market was firmer on reports of damage by rains to the crop now being harvested in Argentina．Estimates of the exportable surplus from that country have been reduced $32,000,000$ ，bushels，to $80,000,000$ bushels．The spot market was firmer bat quiet．

Indian corn futures have been moderately active bnt at declining prices．Receipts of new－crop corn have been received and predictions of a freer movement of corn to market has had a tendency to create increased selling pressure in the market for futares．The advices received from the interior have reported only a light demand for actual sapplies， with large interests showing a disposition to push sales，which has been an important factor in depressing prices．The local spot market has been quiet，only smali sales boing made to exporters，and under freer offering＂prices have decilined． To－day the market held steadier in sympathy with the advance in the values for wheat．The spot market was quiet and nuchanged．

## THE DRY GOODS TRADE,

New York, Friday, P. M., Nov. z\%, 1903,
The market this week has ruled quieter than for several weeks past, with business interrupted by the Thanksgiving hollday. Only a limited number of buyers has been in attendance, and from the moderate force of salesmen on the road the orders coming in have not been up to recent average. This has not cansed any change in the attitude of sellers in the cotton goods division. Where there are. goods on band purchases can be made for prompt delivery at previous prices, but for goods to be made the tendency"is against buyers in most staple lines, although it does not amount to an actual advance in quotations. There has been little disposition shown this week to anticlpate requirements, although reports coming in from various distributing points show that with more seasonable weather both the jobbing and the retail basiness have improved to some extent. The manufacturing altuation is without material change. There have been sometime idle mills resaming work, but this has probably been offset by others shatting down or laying off part of their machlnery, and production can have gained but little, if any, in volume since last week. Stocks in first hands are thas kept well down and there are few quarcers in which it is possible to make spot purchases of auy slze. In the woolen goods division quist conditions prevail througbout. The tone in the ailk market is ateadier than of late, but the volume of basiness continues unsatisfactory.

Domestic Cotron Goods.-The exports of cotton goods from this port for the week ending Nov. 23 were 4,643 packages, valued at $\$ 245,369$, their destination being to the points specified in the tables below :

| NEW YORE TO Nov. 23. | 1903. |  | 1908. |  |

| Totm | 4,643 | 282,017 | 11,432 | 264,457 |

[^9] ass been $\$ 12,923,137$ in 1903, againet $\$ 12,191,238$ in 1902.

Inquiries after brown abeetings and drills for China are noted, bat the margln between bid and asking prices is too wide for the transaction of business of any moment. The home demand has been quieter than last week, and fer for ward contracts have been made. Sellera are very firm and are occasionally raising their limits for other than spot goods. In such coarse, colored cottons as denims, tickings and plaids only a moderate amount of business is passing, bat sellers have no difflculty in securing full prices for spots and are reserved over forward deliveries. A quiet demand is re ported for all grades of bleached maslins and camorics, but it is sufficient to take officurrent unsold prodaction and to keop the market very firm. Widel sheetings, sheets and pillow cases show no new feature, s quiet demand, small ready supplies and very firm prices being the cbaracteristics. Cot ton flannels are in limited request at previnas prices. Cotton blankets, generally well sold up, are firm, bat carrent bosiness is indifferent. Printers report only limited atocks on hand of both staple and fancy calicoes and that in face of quiet buying they are easily able to maintain prices. Fine wash fabrice and the better grades of white goods sre steady. Buying of ginghams is restricted by ehort supplies. The demand for regular print cloths is slow, bat prices very firm at $81 / 4 \mathrm{c}$. Odd goods are strongly held at full prices, with a moderate demand.

Woolen Goods. - There has been a slight improvement in the re-order demand for men's-wear woolen and worsted fab rics in light-weights for spring, but the volume of business in progrees is atill below what sellers have been looking for The lower temperature prevailing during the past ten days should prove beneficial to thelwoolen-goods business, as the pre vious nnseasonably mild weather undoabtedly told against it. Clothlers still appear to be quite unsettled in their views of the apring trade in made-np garments and are, as a result reluctant to parchase anything for whioh they have not an assared outlet. This tells against previous slow selling fabrics and in favor of lines which have been most popular since the beginning of the season. The situation, therefore shows considerable irregularity, with more sellers complsin ing than expressing gatisfaction. The market for overcoat ings is still dull,but in an occasional quarter a slight increase in baylng is reported. Cloakings are in indifferent demand in both plain and fancy lines. For woolen and worsted dress goods the demand is moderate in the aggregate and chiffly for fancy specialties. The general tone is steady
Foreign Dry Goods.-A moderate business is reported in fine grade specialties for spring at firm prices in the dressgoods division. Buying of silks is quiet and mainly of fancies in good grades. Ribbons continue in indifferent request Linens are quiet and unchanged. Barlaps against bayers, with a moderate demand.
Importationsand warohonse Withdravals of Dry Gooda
The importations and warehouse withdrawals of dry goods at this port for the wook ending Nov, 26, 1803, and since January 1, 1903, and for the corresponding periads of last vear are as follows:

## Index.

An index to all the news matter appearlng in this Department for the perlod from July 4, 1903, to Sept. 26, 1803. inclasive, was pablished in the CHroniche of Oct. 3, 1903, pages 854,855 and 856.

Oregon.-Special Session of Legislature. - Governor G. E. Chamberlain on November 21 iscued a call for an extra ses. sion of the State Legislature to convene December 21 for the parpose of enacting laws providing for a levy of taxes on the assessment rolls of 1803. The Legislature, at the regular 1903 session, passed an Act known as the "Phelps Law," which prescribed the method of making assessments and the collection of taxes, but in repealing the old law did not, it is olaimed, provide for a tax levy for 1903 , thas leaving the State and conaties therein withoat revenue for an entire year. It is to correct this defect that the Legislature is now called in extraordinary session.

## Bond Calls and Redemptions.

Allfgheny Connty (P. O, Pittsburgh), Pa.-Bond Call. The Sinking Fand Commission calls for payment Jan, 1, 1904, at the office of the County Comptroller, $\$ 25,0005 \%$ compromise bonds of $\$ 1,000$ each. Bjads called are Nos, 734 to 789 , inclusiv $\epsilon 748,750$ to 764 , inclusive; 768,763 and 769 . Bonds called are dated Jan. 1, 1863.

Multnomah Connty (P. O. Portland), Ore, -Warrant Call.-John M. Lewis, County Treasurer, has called for payment all warraots on Class "C," drawn on the road fand ap to and including Oct. 31, 1902 ; also warrants on Class " 36 " drawn on the general fand ap to and inclading Nov. 30 , 1903.

## Bond Proposals and Negotiations the

 week have been as follows :Akron, Ohlo.-Bonds Defeated.-Although a majority of the voles was cast in favor of the bonds at the election November 3, the proposition failed to receive the necessary twothirds vote and the bonds were therefore defeated.

Alexandria, La. - Bonds Not Yet Sold.-No dlrposition has yet leen made of the $323,0005 \%$ street-paving bonds offered but not sold on October 6. Bonds are described in V. 77, p. 787.

Allegheny, Pa.-Bcnd Ordinarces.-The Select Council on November 18 passed an ordinance providing for the issuance of $\$ 20,607$ Chester Averue bonds. At the same meeting ordlnances were introduced anthorizing $\$ 21,487$ Saperior Avenue grading, paving and curbing bonds and a $\$ \$ 8,000$ temporary loan to meet expenses of the Barean of Public Lighting.

Allentown, Pas-Description of Bonds. - We are advised that the $\$ 125,0 c 0$ water bonds voted at the recent election will carry i $1 / 2 \%$ interest, payable semi-annually on March 1 and Sept. 1. Denominations, $\$ 100, \$ 500$ and $\$ 1,000$. Ma. tarity, one series falling due in 5 , in 10 , in 15 , in 20 , in 25 and in 30 years after date of issue, there belng six series in all. Bids for these bonds will probably bereceived the latter part of Febraary.

Alliance, Uh10.-Bonds Authorized.-The City Council on November 2 prseed \& resolation a athorlzing the issuance of $\$ 21,0004 \%$ refanding bonds. Denomination, $\$ 500$, except one bond for $\$ 800$. Date, Jan. 15, 1804. Interest $\varepsilon \in \operatorname{mi}$-annually at the office of the City Treasurer. Matarity, ten years.

Am-terdam (N. Y.) Sclinol Distrlct.-Bonds Voted.-This district has voted to lsene $\$ 76,000 \mathrm{high} \cdot \mathrm{sch} o \mathrm{l}$ bonds. These
bonds, we are adviced, will not be issued before May, 1904, at which time bailding operations will commence.

Anderson Conuty, Tenn. - Bonds Not to be Issued Until Surirg. - We are advised that the matter of issuing the $\$ 100,0004 \%$ road-improvement bonds voted at the election held Sept. 5, 1903, will not come up for action untll the spring.
Arlington, Mass.-Bonds Voted,-At a town meeting held November 16 the citizens of thls place authorized the issuance of $\$ 14,000 ~ \$ \%$ bonds fcr a new school house.

Ashtabnla, Ohio.-Bonds Authorized.-The City Council on Novenubr 2 passed an ordinance providing for the iacuance of $\$ 1,6005 \%$ Washington Street and Tyler Avenue assessment bonds. Denomination, $\$ 320$. Date, Nov. 1, 1903. Interest, April 1 and Oct. 1 at the office of the City Treasurer. Matarity, $\$ 320$ yearly on Oct. 1 from 1904 to 1908, inclasive.

Barbonrsville, Cabell Conity, W. Fa.-Bonds Not Sold.The $\$ 1,500$ o\% coupon bonds offered on November 9 were not sold, the only bid recelved being 101 for part of the bonds made by Thomas King. This bid was taken onder advisement. Bonds were desoribed in V. 77, p. 1554.

Bellaire, Ollo.-Bond Offering.-Proposals will be received antil 12 m , Decemtor 17, by F. A. Jackson, City Auditor, for the following bonds :
80,741 582 yerr debt-extenslon bond undor Section 2701 , Revised Statutes of

Date of bonds, Dec. 15, 1903. Interest, semi-annual. Accraed interest to be paid by purchaser. Certified check for $1 \%$ of bonds bid for, payable to the City Treasurer, required.

Belleville, Ont.-Debenture Election. - A by-law to ralae $\$ 50, C 00$ for the purchase of the gas works is to be eubmitted to a vote of the electors at the regular municipal election in January.

Berea, Ohio.-Bond Sale.-Following are the bids received November 16 for the $\$ 3,5005 \%$ water and the $\$ 1,0005 \%$ elfctric-light bonds desoribed in V. 77, p. 1315

Bonds were awarded to P. S. Briggs \& Co., Cincinnati.
Blggs, Cal.-Bonds Voted. -This place on November 14 voted in favor of issuing $\$ 12,000$ water and electric-llghtplant boads.
Big Sandj (Texas) School District.-Bonds Doted.-This district on November 16 voted to issue $\$ 5,000$ school-house bonds.
Backe Township (P. O. Haileybury), Ont.-Debenture Sale.-On November 12 the $\$ 2,5006 \%$ debentares mentioned in V. 77, p. 1554, were awarded to the Traders' Bank for $\$ 2,501$.

Boffalo, N. F.-Temporary Bond Issued.-This city has issued to the Bertel Avenue Sewer Sinking fund a $\$ 15,81802$ monthly local- work jond due Nov. 1, 1904,
Temporary Lcan.-The Common Council on November 23 anthorized a temporary loan for $\$ 125000$, payable July. 1, 1904, the Mayor and Comptroller to vegotiate same on an interest basis of not exceding $41 / 2 \%$.
Cantoll, Ohio.-Bond Sule. - The snccesffal bidders on Novemker 23 for $\$ 12,000$ refunding, $\$ 1,100$ street and $\$ 2, \varepsilon 00$ Market Place bonds described in V. 77, p. 1761, were Denison, Prior \& Co. of Cleveland. Following are the bids

[^6]:    The rail lines were operated for 53.58 per cent of their gross receipts, against 49.91 per cent in 1902. The average for both rail and water lines was 53.53 per cent, against 50.92 per cent in 1892. Expenses for "maintenance " were 22.54 per cent and for "operation" 30.04 per cent of the gross receipts of the rall lines.

    Transportation receipts and operatiog expenses are shown in detail in Table No. 19 of pamphlet report, and the details of passenger and freight traffic in T'ables Nos. 20 and 21 of pamphlet report.

    A considerable part of the increase in operating expenses has been caused by the conditions which have increased these expenses on all other railways of this country. Briefly stated, these conditions were: The increase in wages and additional cost which generally results from an unsettled condition of labor; the greater cost of material and supplies used in the operation of the roads, and the increase in expenses which always attends a congestion of traffic such as existed on the railways last fall.

    The increase or decrease in the operating expenses has been principally in the following items:

[^7]:    Totals.
