### THE FINANCIAL SITUATION.

Politics, political conventions, and Presidential candidates are getting to be among the prominent interests in business circles. Both parties have now fixed upon the place and time for holding their conventions. Until the nominations have been made, it is consequently natural that the developments as to candidates likely to be selected, their character and views on matters pertaining to business affairs, should be a source of more or less solicitude. This could not be otherwise, since the choice of voters is restricted to the two representatives selected at these conventions. The presumption at present is that President Roosevelt will be renominated by his party, but gossip has recently thrown around the event just enough dissent to give the result a shadow of ambiguity. As to the opposition party, there is no one as yet named who has the field. It is highly important that the selection should be among those belonging to the more conservative wing of that organization. The general opinion is that it will be, because the presumption is that the nominee will be a representative of the party favored by New York State. If that view turns out to be correct, the canvass would be much less disturbing than have been those of recent years.

Very many people appear to be less hopeful because of the recent lack of activity at our Stock Exchange. Sales of bonds as well as of stocks at the Board have been in the aggregate not much more than half as large this year since the first of January as they were at the same time last year. Disappointment ought not to be felt on that account. Chief among the reasons for this condition is the previous exhaustion of cash balances usually carried by the moneyed class and first of January dividend disbursements received by them--balances and dividends which have been in good part appropriated to the purchase of securities from time to time during the last half of 1903, when prices of stocks were believed to be at their lowest, and therefore an attractive bargain. Very many even used their credit, and borrowed money to make further and larger purchases; now, if they have surplus revenue, instead of appearing in the market as buyers, they are employing such surplus to pay up their borrowings. Besides these classes there are many others who not only spent their balances in the way indicated, but also used their credit freely, and finally came to grief and suffered large losses; or, as we explained in our article last week on the causes of the increased liabilities in the 1903 failures, they became bankrupts and were numbered among the casualties, chiefly in the last quarter of the year. A very moderate rise in values has been secured up to this date. It has not been sufficient to let out at a profit any considerable number of those who made large purchases then and who have consequently been compelled to retain what they bought even if they had wished to be relieved. As a rule, however, the purchases made at that time were made by the stronger buyers, and were taken by way of investment or for a much more substantial recovery than has hitherto been achieved. This situation in some part explains the lack of buying since the first of January-evidence of a mere temporary decrease of surplus funds among those who usually at this date have money to invest.

extreme loss of confidence and pessimistic state to which public opinion had fallen when the recovery from last year's disaster set in. Looking back, one can see that the turn from utter demoralization towards some little degree of stability made a beginning early in November; that is to say, about that time the security market in tendency turned, though in a fitful way, towards a better condition, and has, with fluctuations, been improving in tone and gaining in confidence ever since. At the same time the phenomenally low estate to which our security market fell and the progress towards a normal condition have been so incomplete that a certain proneness still exists thitherward, which is easily provoked into a considerable degree of activity. How actual and acute this retroactive tendency is becomes clearly observable in the quick response the market makes to the least rumor whispered across the water of the increasing imminence of the war outlook between Russia and Japan. There could hardly be a war anywhere that would touch Wall Street interests less adversely. Cotton and cotton spinners would be likely to suffer a decrease in the consumption of that staple and its products for a time. There never was an occasion, however, when such a stoppage could be endured with less fembarrassment. In the present condition of the supply of the raw material, mill owners would be attaining by force of circumstances restriction in spinning—an end which British spinners have been seeking to bring about by agreement on the part of the world of spinners. Other than in that industrial department, our business interests are not closely identified with either party to the anticipated struggle.

The profit-sharing plan of the United States Steel Corporation, which was made public on the closing day of 1902 (see OHRONICLE January 3 1903, page 2), has been followed by another offer at the close of 1903 similar to the original proposal, with one exception. The proposal made a year ago was an offering of the company's preferred stock to its employees at \$82 50 a share, each individual getting as much as he elected to take up to a fixed percentage of his annual salary. On that occasion that stock was quoted on the market at  $86\frac{1}{4}$  to  $87\frac{1}{4}$ ; consequently the employees secured it at about 4 spoints below the ruling price. This year the market value Dec. 31 1903 was  $57\frac{3}{4}$  to  $58\frac{1}{2}$ ; but the employee receives it at \$55 per share; in all other respects the second year is on the same basis as the first year. In connection with the foregoing, it should be remembered that at almost the darkest period of 1903, the first week of October, when the preferred stock was selling 20 points below the price at which the employees had bought it, the Finance Committee of the Steel Corporation announced that they would protect their employees against loss. The circular issued at that time stated that the Committee saw no reason to change its opinion as to the intrinsic value of the preferred stock, notwithstanding the large decline. It recognized, however, that the much lower selling price might occasion anxiety in the minds of the subscribers. It therefore made this additional proposal-that it would at any time during January and February 1908 pay to every subscribing officer and employee who shall have retained his stock for the full period of five years, and otherwise complied with the terms of the circular etc., 821 for the Another condition adverse to a quick recovery and a free investment demand at this time has been the stock, provided he wishes to sell the stock for that

price at that time. This proceeding scarcely needs to be commended by us. The whole affair speaks for itself.

It is unofficially reported from Washington that definite arrangements have been made by the Treasury Department for the payment of the \$40,000,000 which will be payable to the Panama Canal Company immediately after the ratification by the Senate of the treaty between the United States and the Republic of Panama. These arrangements provide for the payment by the Treasury Department to J. P. Morgan & Co., who will act as the financial agents of the Canal Company, this firm depositing the money in the banks upon which the Treasury warrants will be drawn, thereby avoiding derangement to the money market through the transaction. It is understood also that, preparatory to the payment, the Secretary of the Treasury will increase (through transfers from interior depositories), by an amount sufficient to meet between \$20,000,000 and \$30,000,000 of the payment, the deposits of public funds in those banks in this city or elsewhere upon which he will later draw the warrants; and that the remainder of the sum will be drawn from the Sub-Treasury and likewise be deposited in these banks. Most likely the warrants will be executed in instalments and issued at sufficient intervals to enable J. P. Morgan & Co. to accumulate exchange credits abroad preparatory to the transfer of the money to Europe, thus avoiding derangement to the foreign exchange market. These credits are presumably being accumulated by the purchase of commercial sterling, which will be forwarded for discount or collection, and the proceeds will be held with their correspondents, awaiting the drafts which will be later made for the final payment of the \$40,000,000.

We have written on a subsequent page with reference to our foreign trade for the calendar year which has just closed. The December totals issued Thursday of this week are so unprecedentedly favorable that we also call special attention to them here. It seems that the value of our merchandise exports in that month was \$174,734,368. This is an aggregate never previously attained in any month of any year. The closest previous approach to this figure was in October 1900, when the amount of the merchandlese exports reached \$163,389,680. As compared with the corresponding month of the preceding year the increase is \$26,741,965. Our readers, of course, are familiar with the reason for these extraordinary exports. It is found in the fact that our cotton shipments have been exceptionally large, and that they have been made at unusually high prices. Briefly stated, the cotton exports had a value of \$72,313,871 for December 1903, as against only \$46,715,462 for December The improvement here corresponds pretty 1902. closely with the increase in total merchandise exports. But not alone have exports increased ; there has at the same time been a marked contraction in the imports. Such a contraction followed necessarily from the set-back which our domestic trade experienced. The merchandise imports for December 1903 were only \$77,750,284, as against \$94,356,987 for December 1902, the decrease thus being over  $16\frac{1}{2}$ million dollars. The result of the lower imports combined with higher exports is reflected in a that has trde balance

history-amounting country's to less than no This compares with a balance on **\$**96,984,084. the merchandise movement in December 1902 of only \$53,636,416. If we add the \$3,000,589 excess of silver exports over silver imports, the balance falls but a trifle short of \$100,000,000. Under such circumstances it can be no surprise that we should have imported during the month \$15,765,642 gold, net, and that foreign exchange rates should have been decidedly weak most of the month-particularly bearing in mind that the balance on the November movement had also been of unusual proportions.

The monthly statement of iron and steel production published the current week by the "Iron Age" of this city throws an interesting light on the conditions prevailing in that important industry at the close of 1903. As every one expected would be the case, there was a further great curtailment in the output of both iron and steel. Our contemporary makes the production of pig fron for December only 898,380 tons, comparing with 1,078,628 tons in November, 1,462,193 tons in October, 1,596,703 tons in September and with 1,614,128 tons in August. Similarly, the weekly capacity of the furnaces in blast Jan. 1 1904 was only 197,931 tons, as against 398,139 tons (the maximum reached) on June 1st last. It will be observed that both these comparisons show production reduced about one-half. The "Age" thinks that on January 1st the output was probably at its lowest ebb, seeing that a considerable number of the furnaces of the United States Steel Corporation have been started since the opening of the year, with others to follow.

But the most interesting fact brought out by the "Age's" compilations is that the brunt of the falling off has been borne by the larger concerns. It says that the production of the furnace plants of the large steel companies, which reached a maximum in May with 1,037,325 tons, was only 406,730 tons in December. The furnaces outside of those controlled by the steel companies suffered very much less than the latter. Contrasting July with December, the production of the outside furnaces declined only from 558,329 tons, to 445,845 tons. The explanation of this disparity no doubt is that the large companies being managed by far-sighted men, recognized the change in the situation, and decided at once to conform to it, while the smaller companies kept on producing to nearly the full capacity. The steel output is given by the "Age" as only 406,730 tons for December, as compared with 553,067 tons for November; 829,215 tons for October; 956,363 tons for September; 993,564 tons for August; 987,855 tons for July, and 1,021,839 tons for June. It will be seen that there has been a continuous falling off month by month, each month showing a lower total than the month preceding, and that in December the steel output of the companies reporting to the "Age" was barely 40 per cent of what it had been in May and June. In view of all these facts the very small net earnings reported by the United States Steel Corporation for the month of December are not difficult to understand. Obviously, however, the situation prevailing at the close of 1903 cannot long be continued. Already we see that many of the plants of the Steel Corporation have resumed operations.

no parallel in the ing Co. had some features of general interest. Presi-

dent Havemeyer referred to the statement made by him at last year's meeting that the average price at which reflued sugar had been sold during 1902 had been 4.55 cents per lb., and that this included 1.81 cente a pound to the Government, thus reducing the net price to 2.74 cents, as against a net price which in 1877, at the time of the formation of the Sugar  $\mathbf{R}$  )fining Co., was 3.50 cents. The point of this remark is that the result of the operations of the Sagar Refining Co. had been to cause a material reduction in the price of sugar to the consumer. These figures, as already stated, related to the previous year. With slight modification, Mr. Havemeyer said, the same statement could be repeated this time. The average price of refined sugar during 1903 had been 4.64 cents a pound, including 1.84 cents a pound to the Government, making the net price 2.80 cents. Mr. Havemeyer also made some remarks concerning the company's policy in furnishing information to stockholders and the public which do not strike us in the same favorable way. He stated that the company at the present time had 13,000 stockholders, and that any information about the company's affairs which these stockholders as a body might ask for, the directors would at all times be prepared to furnisb. This sounds fair and plausible, but is it not reaily specious? For it is well known that Mr. Havemeyer and his friends, either through actual ownership or through proxies obtained by them, control absolutely the affairs of the corporation. So, when Mr. Have meyer says that the stockholders can have any infor mation which they as a body ask for, he is really saying that they can have what he, acting as their representative, is willing to give them.

There was no change in official rates of discount by any of the European banks this week and open market or unofficial rates were, compared with those of last week, easier. The statement of the New York Associated Banks last week showed, as the most striking feature, a gain of \$10,028,700 in cash reserve, of which \$5,726,100 consisted of specie and \$4,302,600 of legal tenders. The deposits were increased \$19,534,-400 and consequently the reserve requirements were augmented by \$4,883,600. Deducting this sum from the increase in cash left \$5,145,100 as the gain in surplus reserve, to \$14,686,975; computed upon the basis of deposits less those of \$36,698,600 of public funds, the surplus is \$23,861,625. Loans were increased \$7,421,700. The bank statement of this week should reflect, among other movements, the trans. fer hither from San Francisco of \$541,400 and the arrival of \$3,061,030 gold from Europe. This arrival, it may be noted, makes a total of \$23,371,479 received from London and Japan during the import movement which began in November last year. No new engagements of gold in London were reported this week, and \$500,000 which was announced last week as having been engaged was canceled; a lot of \$425,000 in Japanese yen was shipped from Tokio for San Francisco during the week. A small amount of refundable bonds which was in transit at the end of the year was received at Washington this week and exchanged for 2 per-cent consols, making the total exchanges \$15,826,600. Redemptions of 5-per bonds of 1904 have thus far amounted to \$13,260,500.

and also by the almost delly large disbursements by the Sub-Treasury, as shown in the Idebit balances of that office at the Clearing House. Bankers' balances have loaned on the Stock Exchange during the week at 3 per cent and at 11 per cent, averaging about 24 per cent. On Monday loans were at 3 per cent and at  $2\frac{1}{4}$  per cent, with the bulk of the business at  $2\frac{1}{4}$  per cent. On Tuesday transactions were at  $2\frac{1}{2}$  per cent and at  $1\frac{1}{2}$  per cent, with the majority at  $2\frac{1}{4}$  per cent. On Wednesday loans were at  $2\frac{1}{2}$  per cent and at 2 per cent, with the bulk of the business at 24 per cent. On Thursday transactions were at 24 per cent and at  $1\frac{1}{2}$  per cent, with the majority at 2 per cent. On Friday loans were at  $2\frac{1}{4}$  per cent and at 2 per cent, with the bulk of the business at 2 per cent. Banks and trust companies have loaned at 2<sup>1</sup>/<sub>2</sub> per cent as the minimum, though it is reported that some loans have been made by the former at 2 per Time contracts are freely offered on good cent. mixed Stock Exchange collateral at 4@44 per cent for sixty to ninety days and at  $4\frac{1}{4}$   $04\frac{1}{2}$  per cent for four to six months. The business for the shorter dates is small, while that for six months is reported as good. Commercial paper is more active and a fairly large business is done with local institutions and with Western banks. Quotations are  $4\frac{3}{4}$  per cent for sixty to ninety-day endorsed bills receivable;  $4\frac{3}{4}$ @5 per cent for prime and 5@5 $\frac{1}{2}$  per cent for good four to six months' single names.

The Bank of England minimum rate of discount remains unchanged at 4 per cent. The cable reports discounts of sixty to ninety day bank bills in London  $3\frac{3}{8}$  per cent. The open market rate at Paris is  $2\frac{3}{4}$  per cent and at Berlin and Frankfort it is  $2\frac{3}{5}$  per cent. According to our special cable from London the Bank of England gained £1,392,325 bullion during the week and held £31,388,418 at the close of the week. Our correspondent further advises us that the gain was due to the import of £333,000 wholly bought in the open market, to exports of £200,000 to Egypt and to receipts of £1,259,000 net from the interior of Great Britain.

The foreign exchange market has been generally strong this week, influenced by a good demand for current remittance and for stocks sold for European account, and also by a very moderate supply of bankers' bills. The noticeable scarcity of commercial drafts in the market seems to indicate the private absorption of these bills by those bankers who are accumulating credits abroad, through the negotiation of the drafts, in anticipation of the operations incident to the transfer of the Panama Canal purchase money when this payment shall be made, as is expected, about ninety days hence. There also appears to be a good demand for bankers' long sterling for investment, which is another form of accumulating foreign credits in anticipation of future requirements for remittance. Though the payment of the Panama Canal purchase money cannot be made until after the ratification of the treaty now pending in the Senate, the magnitude of the sum, \$40,000,000, which will then be disbursed to the stockholders abroad, seems to make it desirable that preparations for its transfer shall begin as soon as possible. Moreover, the exchange market is now in such a comparatively easy condition for the season as

Money on call has been very easy this week, influenced by the favorable bank statement of the last week to make the accumulation of the necessary oredits advantageous to the bankers who will conduct the operation of transfer. Even if the treaty should fail to be ratified, which may be regarded as scarcely possible, the credits would be available for other purposes, and therefore no risk would be incurred by their accumulation. As above noted, the arrivals of gold from Europe this week were \$3,061,030, making a total of \$23,371,479 from London and Tokio thus far on this movement. Not only were no new engagements announced during the week, but \$500,000 which had previously been engaged was canceled, and there is now only a small amount reported in transit from London; \$425,000 in Japanese ven was, however, shipped this week from Tokio. The canceling of the above noted engagement and the fact that no attempt was made by American im porters to secure the gold which arrived in London this week would seem to indicate that the import movement from Europe is at an end for the present. The Assay Office paid \$992,174 46 for domestic bullion, and the office advanced \$2,870,000 on account of foreign gold from Europe. Gold received at the Custom House during the week \$3,171,462, of which \$3,061,030 was from Europe.

Nominal quotations for sterling exchange are 4 83 for sixty-day and 486 for sight. The market was active on Saturday of last week, and while there was no change in rates for long, compared with those on the previous day, short advanced 10 points to 4 85@ 4 8510 and cables 5 points to 4 8535@4 8545; long was 4 82@4 8210. On Monday the latter was unchanged, while short rose 15 points to 4 8515@4 8525 and cables 20 points to 4 8555@4 8565. The market was strong, and it so continued on the following day, when long advanced 40 points to 4 8240@4 8250, short 25 points to 4 8540@4 8550 and cables 30 points to 4 8585@4 8595. On Wednesday long rose 10 points to 4 8250@4 8260, short 10 points to 4 8550@4 8560 and cables 5 points to 4 8590@4 86; the tone was firm in the morning and easier in the afternoon. On Thursday a relaxation in the inquiry caused a fall of 10 points in long to 4 8240@4 8250, of 15 points in short to 4 8535@4 8545 and of 15 points in cables to 4 8575@4 8585. The market was strong on Friday, when long rose 20, short 15 and cables 10 points. The following shows daily posted rates for sterling exchange by some of the leading drawers.

### RUSSIA AND THE WAR QUESTION.

In several respects the sequence of incidents in what is commonly called the Far Eastern crisis has differed from those in any parallel episode. For most of this week's phenomena there is ample precedent. The conflicting rumors; the assertion of one day followed by the denial of the next; the assurances by each party to the quarrel that it is laboring for peace and its simultaneous urgent preparations for war; the violent upward and downward movements of the markets—all these occurrences are familiar preliminaries to every outbreak of international war. But it is not very often that the markets witness such diplomatic shifts and such alternate attitudes of ready concession and of scarcely-veiled defiance as have characterized the Russian Government's policy.

Nor has the attitude of neutral States often been so equivocal as it has seemed this week to be. Usually such neutral Powers allow their own general sympathies, as between colliding governments, to be clearly known, and then make it equally manifest that they do not propose to interfere. It is in this regard that the situation this week has been most curious. France was assumed to be the natural backer and friend of Russia; but on this occasion France has confined its good offices to the most formal and perfunctory expression, while the one tangible evidence of good-will which Russia sought-the floating of a war loan on the Paris market-has apparently been blocked, and according to bankers' information here has been directly discouraged by the French Government. This, on the face of things, would appear to reflect a coolness on France's side towards Russia. It might be interpreted as a disapproval by neutral European Powers of any Far Eastern contest, were it not for the totally different attitude of England. Where France gives no assurance as to its position in the event of war, Mr. Balfour, speaking at Manchester last Monday, went out of his way to declare that England "would carry out to the fullest extent her treaty obligations with Japan." Nor has London made any effort to conceal its active sympathy with the Japan-

The market closed at 4 8260@4 8270 for long, 4 8550 @4 8560 for short and 4 8585@4 8595 for cables. Commercial on banks 4 8215@4 8225 and documents for payment 4  $81\frac{1}{2}$ @4  $82\frac{2}{3}$ . Cotton for payment 4  $81\frac{1}{2}$ @ 4  $81\frac{2}{3}$ , cotton for acceptance 4 8215@4 8225 and grain for payment 4  $82\frac{1}{3}$ @4  $82\frac{2}{3}$ .

The following gives the week's movement of money to and from the interior by the New York banks. ese side of the controversy or its willingness to take care of Japan's financial needs.

This ordinarily, we would say, is a strange situation, but we think the clue to the mystery is simple. Whatever the various European Powers mean to do in case of actual war, it is perfectly plain what position they occupy to day. So far as regards the merits of the Russo-Japanese controversy, all the commercial European States are in sympathy with Japan's demands. They are so inevitably, by the nature of the case. Russia asserts the right to control Manchuria and Corea, and to grant commercial facilities to other States as a favor, not as a right. This much is true, despite the fact that Russia, under the threat of war, has this week asserted that China, not herself, controls Manchuria, and has offered Japan to divide up Corea into spheres of influence with a "neutral zone." Japan, on the other hand, asserts no control whatever, except the right to veto the seizure, by any other Power of so near-by a territory as Corea.

This is tantamount to saying that Japan puts in the claim of equal rights for the entire commercial world, while Russia claims the position of arbiter and proprietor in distributing those rights. As to the natural interests of any commercial State in such a controversy, there can be no possible question. Even this week's assurances by Russia are diminished in value to precisely the extent that she has broken earlier pledges regarding Manchurian occupation. Nothing, for instance, could more clearly define the true nature of the situation than the openly-expressed annoyance of official Russia over the swift and effective ratification of the treaty of commerce between the United States and China. This treaty, which is itself no new proposal in the situation, contains a grant by China to our merchants of trading rights in the Manchurian ports. If, as Russia alleged this week in its circular to the Powers, China is sovereign in Manchuria, and therefore the proper dispenser of commercial privileges, then nothing could be more proper and regular than the conclusion of our treaty, and nothing more certain than that Russia had no right to question it. Instead, the semi-official Russian press has accepted the treaty as an unfriendly act by the United States and an unwarranted act by China. The Government organ at St. Petersburg is quoted as saying that the Chinese concession is improper because "entirely ignoring the position created at the present time in Manchuria by the presence of our troops, who are guarding a railroad owned by us." We have no wish to give undue importance to newspaper utterances which may reflect the feeling of a faction rather than of a nation; but such state. ments as that just quoted must be read in the light of the well-known Russian governmental methods of censorship and "inspiration" of the metropolitan press. We have stated some of the curious departures from precedent in the diplomatic incidents of the Russo-Japanese imbroglio. Perhaps more remarkable than any of those recited was the Czar's personal statement to the assembled ambassadors on last Thursday, the Russian New Year's day: "I intend to do all in my power to maintain peace in the Far East." That these words voice the wish and purpose of the enlightened sovereign who uttered them, will not be questioned by any one who recalls the previous good offices of the Czar in the way of international peace. But the question must inevitably arise, in the minds even

of people most anxious for a peaceful issue of this controversy, Can the Czar, single-handed, break through the notoriously tight-bound red tape of Russian diplomacy and bureauoracy? Whether intentional or not, the reservation in his public statement at St. Petersburg-"I will do all in my power"points out the true difficulty of the situation. Russian officialdom has very lately effected, in the face at times of resistance by its humane sovereign, the betrayal of the Finns and the massacre of the Jews at Kishinev. It is now engaged in a most tortuous diplomatic policy in the East, whose penalty has been, not the disapproval of the Czar, but the entanglement of Russia itself, so that, confronted by a simple, straight-forward demand for statement of its purposes, it can only retreat from one evasion to another.

### THE NEW HAVEN CRITICISM.

The letter—it is not in the form of a petition which has been addressed to the Senate by a score of citizens of New Haven, and for some unexplained reason has been withheld from publication for a fortnight after its date, deserves respectful consideration because of the eminence of some of its signers. Its propositions that international and moral law is applicable to all and binds all, and that this country cannot afford to do any wrong, are in the nature of truisms; nobody proposes, and it must be assumed that nobody wishes, to forget them.

The suggestion that the line of conduct towards Colombia would not have been taken against a strong Power has been made before, and in a literal sense may be true; but a fair reply is, that no strong Power would have given occasion. As with individuals, some nations are responsible and others irresponsible. The strong nation ought to use all care not to convert might into right; on the other hand, in the view of reason and morals, weakness is no more of a defense and justification than strength is. If the strong nation is morally estopped from following its own earnest convictions because it is strong, its strength is handicap and injustice; the weak nation is equally charged with obligation to do justly and not attempt to make its feebleness excusatory. The presumption or the suggestion that this country has done wrong because it had power to do so, is no more sound than that Colombia's weakness proves her in the right and gives her license.

If complaint attempts to be specific, it must allege that the secession of Panama was procured or assisted by this Government, or that Colombia was forcibly prevented from reasserting authority. The first is without evidence and has been so authoritatively denied that it must be considered abandoned. It is true that the existing relations of this country to Isthmian transit probably did encourage the movement; but those relations are nearly half a century old, and cannot be laid to the charge of anybody now on the stage. It is true that disturbance on the canal strip was prevented-that is, was forbidden; but the alternatives, one of which this Government was compelled to take, were clearly stated in our article of last week. The circumstances which seemed to forbid such delay as would ordinarily be permissible have also been stated. This ground need not be gone over again, but whoever thinks dispassionately must see that mere general talk about interference and deprivation of sovereignty, and wrongs done, and the like, is irrelevant and inappropriate; the case must be viewed according to the circumstances and alternatives presented early in November, and those who criticise the course the Government took ought to say just what in their opinion ought to have been done at that time; this they seem carefully to avoid.

Such a statement as in the Bacon resolution, offered a few days ago, is objectionable, not merely because it assumes and in effect declares that this Government has done wrong, but because the proposed reference is vague and impracticable. Compensation to Colombia for loss of Panama is suggested, "so far as the same may be shown to be due to any action of the United States through the land or naval forces of the same." How, or to whom, is this to be "shown?" Neither the Senate nor the Hague Court nor anybody else can know what would have followed had not the prohibition of fighting on the Isthmus been given. Whether reassertion of sovereignty over Panama was, in fact, prevented by the United States can never be ascertained; it is a matter for assertion and opinion, doubtless, but not for proof and knowledge. A case which cannot be brought to proof and cannot even be put into distinct specification is clearly not one over which any human tribunal can take jurisdiction.

There is is a similar vagueness in the letter of the eminent citizens of New Haven. They do not even say that they share the belief which they think "has arisen in the minds of many in this country and abroad" that this country has done wrong, and they only suggest that the matter "be subjected to careful and deliberate investigation." The first step to inquiry has already been taken in furnishing what we are bound to assume to be the complete facts of the record. The case is really made up, and however the talk about it may be prolonged in the Senate, there is neither a way of establishing, nor a judge to decide, that any wrong has been done, although men's opinions may be swayed by their wishes as respects the natural results of what has been done. Besides all this, the petition bears date December 24. Since then President Roosevelt has sent his special message to Congress, dealing with the matter at great length. As pointed out last week, his facts and arguments ap pear unanswerable, and it seems to us, therefore, that the controversy ought to be regarded as closed.

### THE COUNTRY'S FOREIGN TRADE IN 1903.

The foreign trade statement for December 1903, showing the very largest exports of any month in the country's history (\$174,734,368), serves to emphasize an important fact in the affairs of 1903, namely the circumstance that our foreign trade pretty nearly all through the twelve months continued very satis-

the largest of any year in the trade records. Two main circumstances contributed to bring about the noteworthy increase in 1903. One of these was the excellent grain harvests raised the previous season, contrasting with the exceptionally poor harvests in 1901. The short grain crops produced in 1901 had caused a considerable shrinkage in merchandise exports in 1902. In like manner the splendid crops of 1902 brought enlarged merchandise shipments in 1903.

The other cause mentioned as having contributed to the improvement in merchandise exports during 1903 was really the most important of ail. We have reference to the large cotton shipments at high prices that characterized the year. It cannot be said that these large cotton export values were the result of a larger cotton yield. Rather they were caused by fears of a diminished crop, engendered by unfavorable reports and estimates coming from the Department of Agriculture at Washington, and which led to one of the most remarkable speculations in the price of the staple of which there is any record in trade annals. In the summer months, owing to the corner which had been engineered in the staple and the short remnant of the 1902 crop remaining on hand, cotton exports dwindled to small proportions. In September, owing to the lateness of the new crop, there was nearly 300,000 bales falling off in the shipments as compared with the same month of 1902, but during October, November and December the outward movement of cotton proceeded on an enormous scale. The result is that for the full calendar year cotton shipments aggregate over 400,000 bales more than for the calendar year 1902, the total being 7,094,408 bales, against 6,687,-441 bales for the calendar year 1902. In truth, however, the increase in quantity shipped was hardly so important as the increase in the price received. The shipments of 1903 were made at an average of 107-16 cents per pound, as against only 84 cents per pound, the average for 1902. As indicating what a high price 10 7-16 cents is, it should be noted that in the calendar year 1899 the average was but 6.47 cents and in the calendar year 1898 but 5.57 cents.

As a result of the increase in price, combined with the gain in quantity shipped, the aggregate value of the cotton shipments in 1903 exceeded those of 1902 in the sum of over \$88,000,000, the totals being \$378,662,454 for 1903, as against \$290,491,225 for 1902. We have already stated that the improvement in merchandise exports of all kinds for the year was \$123,982,194, and thus cotton alone counts for \$88,000,000 of the amount. The following table, summarizing the exports of leading products for the last six years, shows in a graphic way the conspicuous

factory. While the December outward movement was of extraordinary proportions, there were really only three months in which the exports fell below the totals for the corresponding months of 1902, namely May, August and September, when the shipments of cotton were, for well-known reasons, reduced.

Taking the twelve months as a whole, the merchandise exports of 1903 surpassed the merchandise exports of 1902 by \$123,982,194. It is true that in 1902 there had been over \$104,000,000 loss from 1901, which qualifies to that extent the significance of the increase in 1903; but it will noticed that the gain in 1903 amounts to more than a recovery of what was lost in 1902. As a matter of fact, [the 1903 exports are stated to be a stated to

part in the year's results played by the cotton shipments and also serves to indicate how the other main staples compare.

EXPORTS OF LEADING PRODUCTS FOR SIX CALENDAR YEARS.

e I	standing	the larg	ger grai	n crops,	export	values	or cue

provisions shipments were about \$1,500,000 smaller in 1903 than in 1902, but that the shipments of cattle, sheep and hogs increased \$13,000,000. That the better crops are not reflected in a more striking way in the export shipments of these products, is no doubt due to the fact that it takes time to convert grain into meat and provisions. Perhaps, however, the most surprising feature of all is the small recovery shown in the breadstuffs values. After a falling off of nearly \$81,000,000 in the breadstuffs shipments in 1902 because of the disastrous failure of the crops in 1901, the increase in 1903 following the excellent yield of 1902 has been barely \$4,500,000.

Analysis of the breadstuffs figures shows that the unsatisfactory comparison follows chiefly from a great shrinkage in the exports of wheat and flour. We shipped altogether of wheat and flour in 1903 only 162 $\frac{1}{2}$  million bushels against  $212\frac{1}{2}$  million bushels in 1902 and 266 million bushels in 1901. In values the comparison stands, 135<sup>1</sup>/<sub>2</sub> million dollars for 1903 against 165 million dollars for 1902 and 201 million dollars for 1901. The average price received was much better, being 80% cents per bushel for 1903, against 75 cents for 1902 and 721 cents for 1901. But perhaps if the price had not been so high, the shipments would have been larger.

With the wheat and flour shipments reduced by \$30,000,000, it is certainly gratifying that total breadstuffs shipments increased even in the small amount of \$5,000,000. Fortunately the loss in wheat was overcome by an increase in the shipments of corn showing that the good crops were of decided benefit, in that way at least, in enlarging exports. Corn shipments did not reach the dimensions of some of the earlier years, when they aggregated over 200 million bushels, but they amounted to 91,700,000 bushels, valued at 511 million dollars, as compared with less than 182 million bushels, valued at 112 million dollars, in 1902. We subjoin a table furnishing comparisons for the last six years of the leading items in the breadstuffs shipments—in quantity and in value. We also add at the end of the table the quantity and value of the cotton exports.

Wheat and flour-	1903.	1902.	1901.	1900.	1899.

From the table first above given, it appears that what are called the "other exports,"-meaning all exports outside the leading staples specifically mentioned-increased some \$17,500,000 over the year preceding. The improvement here is the more noteworthy as there was a considerable falling off in some leading items like cotton manufactures, copper, tobacco, etc. The iron and steel exports did not differ greatly in the two years, which is the same as saying that there was no substantial recovery after the falling off in 1902 and 1901. There was, however, a marked increase in the exports of wood and its manufactures, and in agricultural implements, in coal, in leather and in some other items. In the case of these separate articles no figures are yet available for the full twelve months. We have, however,

for such items as show important changes, and give the statement herewith.

EXPORTS 11 MONT	THE ENDING	NOVEMBER 30.	
Exports-	1903.		1901.

Seeds.	. 3,726,455	7,198,811	5,263,325
Tobacco, not incl. manufactur'd	27,485,039	32,419,623	25,573,751
Wood and manufactures	57,619,235	47,432,330	45,770,236

As regards the merchandise imports, these also further increased in 1903, bringing the total up to \$995,473,101-a figure never previously attained in any calendar year, and comparing with 969 million dollars in 1902, 880 million dollars in 1901, 829 millions in 1900, and very much lower figures in the years immediately preceding. A sharp distinction must, however, be made between the first two-thirds of the year and the last third. From January to August, both inclusive, the total each month ran ahead of the same month of 1902-the increase for the eight months being \$62,568,297-but in the last four months, when trade conditions at home became so very much unsettled, the foreign imports into the United States each month showed a decline from the corresponding month of 1902, the aggregate decrease for the four months reaching \$36,412,066.

In the following table we have brought together the imports for the eleven months to November 30 of the articles showing the principal changes. It will be noticed that iron and steel is one of the items showing an increase-due no doubt to orders given before the severe depression in the iron and steel trades came the latter part of the year. Coffee is an article recording an important decrease, and this makes it important to note that the quantity imported was also less, being 859,572,302 lbs. for the eleven months of 1903, against 872,491,437 lbs. for the corresponding period of 1902 and 967,969,585 lbs. for the eleven months of 1901. The value of the sugar imports increased, but this was in face of a diminution in the quantity brought in, the imports for the eleven months of 1903 having been 3,172,764,157 lbs., against 3,612,701,314 lbs. for 1902 and 3,522,315,475 lbs. for 1901—indicating very clearly an increase in price.

Notwithstanding the large merchandise balance in the country's favor, there was an important gold outflow in May, June and July, the net gold shipments for those three months having been \$27,252,009. In August the gold current was reversed and in November and December, with cotton exports on such an enormous scale, the gold inflow was of large proportions, the net imports for these two months amounting to \$26,132,835. Taking the twelve months together there was a net influx of gold in the sum of \$20,920,-862. The statement appended gives the gold and silver imports and exports for each year back to 1870. A notable feature in this statement is the decline in the silver movement, the net exports of silver for 1903 having been only \$15,224,425, the smallest of any calendar year since 1892.

* Excess of exports.				

In this way, we get a total balance in favor of the United States on the merchandise and specie movements combined of \$483,498,589 for 1903, \$406,076,356 for 1902, \$612,469,585 for 1901, \$662,303,259 for 1900 and \$493,162,816 for 1899.

### RAILROAD GROSS EARNINGS FOR DECEMBER.

Comparisons of railroad gross earnings are no longer so good as was the case a short time ago, but in the final result the balance is still on the right side of the account. We shall defer until another week the publication of our tables and summaries for the calendar year, in order to be able to include roads which have not as yet published figures for the full twelve months, and shall therefore in the present article confine ourselves entirely to the preliminary figures for the month of December.

The showing for December on the roads making preliminary returns accords pretty closely with that for the month of November for the same roads. For November we had \$2,333,435 increase, or 4.03 per cent, on 86,742 miles of road. For December the increase is \$2,754,259, or 4.66 per cent, on 89,279 miles of road. Aside from the depression in the iron and steel trades and the unsettled state of general trade, certain roads suffered from special drawbacks. For instance, in Colorado the roads had to contend with strikes at both the coal mines and the ore mines, and in some districts the situation proved so serious that martial law was declared by the Governor of the State. As far as crop movements were concerned, Southern roads as a rule had a greatly increased cotton traffic. The grain movement in the West was rather irregular, but on the whole does not seem to that of December 1909 while

still, however, greatly outnumber the losses. In fact, Nore.—For years 1886 to 1903, inclusive, the figures embrace gold and silver in ore; in the years preceding both were included in the merchandise movement.

-----

### THE CHRONICLE.

fifty-one record gains and only twenty losses. The table we now present indicates the changes on the separate roads for amounts exceeding \$30,000, whether gains or losses. It will be observed that the number of roads reporting decreases above the amount named is very brief, comprising simply the Great Northern System, together with the Denver & Rlo Grande and the Colorado & Southern, the latter two of which suffered from the miners' strike in Colorado.

Includes Lake Erie & Detroit River Ry. in both years.

We have stated that the grain movement in the West had been irregular. This applies both to the different cereals and to the different markets. Of wheat the receipts were some  $2\frac{1}{4}$  million bushels larger than the previous year. In the case of the other cereals, there was a falling off of about  $5\frac{1}{2}$ million bushels. Taking wheat, corn, oats, barley and rye together, the aggregate of the receipts for the four weeks ending December 26 were 54,152,799 bushels in 1903, as against 57,333,251 bushels for the same four weeks of 1902. The following shows the grain movement in detail in our usual form.

RECEIPTS OF FLOUR AND GRAIN FOR FOUR WEEKS ENDING DEC. 26 AND THE 52 WEEKS OF THE YEAR.

#### RECEIPTS AT CHICAGO DURING DECEMBER AND SINCE JANUARY 1.

		December.			Year.		
	1903.	1902.	1901.	1908.	1902.	1901.	
Wheat bush.	2,774,341	2,619,441	3,189,694	23,874,485	37,051,578	51,980,580	
Cornbush.	5,891,791	6,403,893	3,470,919	91,778,543	50,019,577	84,136,547	
Oatsbush.	6,318,453	8,275,400	5,787,650	87,861,386	78,793,820	90,632,162	
Rye bush.	264,165	601,245	442,232	8,000,849	3,169,541	3,844,321	
Barley.bush.	2,894,273	2,350,047	2,998,500	23,278,419	14,904,673	16,046,670	
Total grain	18,046,983	20,156,018	15,840,045	282,788,682	185,498,184	245,440,873	
Flour bbls.	1,006,864	690,704	1,247,999	7,667,624	7,285,209	10,243,917	
Porkbbls.	100	528	521	4,194	9,824	4,681	
Cut m'ts.lbs.	20,504,704	17,241,019	P,914,345	150,272,034	111,957,981	162,157,289	
Lardlbs.	6,071,343	4,584,445	7,311,498	35,793,474	41,256,866	71,481,863	
Live hogs No	953,360	956,905	1,030,519	7,841,364	8,394,261	8,903,223	

The foregoing also shows the movement of provisions and of live hogs at the same point. The receipts of hogs comprised, it will be seen, 953,360 head in 1903, against 956,995 head in 1902 and 1,030,-519 head in 1901. Taking the five principal markets together, namely Chicago, Kansas City, Omaha, St. Louis and St. Joseph, as furnishing a more conclusive indication of the movement, the hog receipts were 1,566,411 head, against 1,570,213; the cattle receipts at the same markets, 663,018 head against 739,394, and the sheep receipts, 677,599 head against 849,203indicating on the whole a decided contraction in the live-stock deliveries at Western primary points.

The cotton movement in the South ran well ahead of that for the corresponding period last year-at least as far as the receipts at the Southern outports are concerned. The shipments overland did not come up to those of the previous year, aggregating only 227,549 bales, against 268,588 bales for 1902 and 278,595 bales for December 1901. The receipts at the outports aggregated 1,398,165 bales in December 1903, against 1,204,607 bales in December 1902, per the following: RECEIPTS OF COTTON AT SOUTHERN PORTS IN DECEMBER, AND FROM JANUARY 1 TO DECEMBER 31, IN 1903, 1902 AND 1901.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'8. -The public sales of bank stocks this week aggregate 539 shares, of which 303 shares were sold at the Stock Exchange and 236 shares at auction. The transactions in trust company stock were limited to the sale at auction of one lot of 8 shares. Forty shares of National Park Bank stock were sold at 481 and two shares at 500, these prices comparing with 425 in October 1903, when the last previous sale was made. A sale of two shares of Mercantile National Bank stock at 232 shows an advance in price since the last previous sale, in October 1903, of 17 points.

\* Sold at Stock Exchange.

-The National Shoe & Leather Bank of this city at its annual meeting on Tuesday elected Mr. Sylvester C. Dunham and Mr. John Hubbard as directors, thus increasing the board from eighteen to twenty members.

-The many friends of Edwin S. Hooley were pleased to

hear of the re-instatement of his firm ou the New York Stock Exchange this week. Business will be resumed at the old address, 49 Wall Street, the firm having retained these quarters. The composition of the firm remains as before-Edwin S. Hooley, Frank E. Brumley, the Board member, and Norbert Heinsheimer.

-At the annual meeting of the stockholders of the New York National Exchange Bank on Thursday, the board of directors was re-elected. At a subsequent meeting of the board Mr. Lewis E. Pierson (formerly Vice-President) was elected President, Mr. James E. Nichols of Austin, Nichols & Co. Vice-President and Mr. Rollin P. Grant reappointed Cashier.

-The Liberty National Bank stockholders, at their annual meeting this week, re-elected the old board of directors and added the name of Frederick G. Bourne to the list.

-The stockholders of the Leather Manufacturers' Nat. Bank, located at 29 Wall St., this city, elected Mr. Thomas P. Fowler, President of the New York Ontario & Western RR., a director. to fill the place made vacant by the death of Mr. Henry Steers. The complete list of directors of this institution for 1904 comprises: Wm. M. Kingsland, Wm. Rockefeller, John T. Willets, Nicholas F. Palmer, Wm. C. Sturges, Geo. W. Quintard, Gates W. McGarrah, Anton A

Raven, Henry B. Stokes, V. Everit Macy, Thomas P. Fowler. At the following meeting of the board Mr. Gates W. Mc-Garrah was re-elected President, Mr. Nicholas F. Palmer, Vice-President: Mr. Frank O. Roe, Cashier, and Mr. A. H. Voorhis, Assistant Cashier, all unanimously.

-Messrs. A. E. Ames & Co. of Toronto-who, it will be remembered, failed last June-announce that they are unable to meet the second payment under the settlement made with their creditors. The firm states that the liabilities, which at the time of suspension were over \$10,000,000, have been reduced to \$3,307,S95, but of which \$1,784,908 are secured. They propose to form a new company, to be known as the Securities Holding Company, the new company to issue \$600,000 of 6 per cent cumulative preferred stock, this stock to be given to holders of the \$523,991 unsecured liabilities. The new company will also issue \$45,000 of common stock, this to receive no dividends until the preferred has been redeemed. Upon organization of this company, A. E. Ames & Co. are to turn over all their assets to it, with the exception of one Stock Exchange seat, the whole to be sold from time to time and the proceeds applied to the stock. The firm announces that if the creditors do not accept this proposition "it will be impossible for them to continue the conduct of the business with any hope of working out the problem successfully."

-Mr. Edward J. Baldwin was advanced this week to the Cashiership of the National Park Bank of this city, Mr. Gecrge S. Hickok having resigned. Mr. Baldwin has been connected with the National Park Bank for the past twentyfive years, for sixteen of which he held the position of Assistant Cashier. Mr. Hickok has seen forty-seven years service with this institution. He will still remain a director, and has also been appointed to the honorary title of Secretary of the board. Mr. Maurice H. Ewer, Anditor, has been made an additional Cashier, and Mr. Lewis Cass Ledyard has been added to the board of directors, making seventeen in all.

-Paul D. Mills and S. Frederic Mills, members of the New York and Philadelphia Stock Exchanges, have recently formed a cc-partnership, to be known as Mills & Company, 36 Wall Street. Mr. J. H. Hurlburt, formerly of Messrs. Hurlburt, Hatch & Company, is Cashier.

-Mr. Henry C. Frick and Mr. James A. Stillman, the latter being a son of the President of the bank, were on Tuesday elected directors of the National City Bank of New York.

-The Hanover National Bank of this city, at its annual meeting on Tuesday, increased the number of directors from eighteen to twenty-one members by the election of Messrs. William C. Duncan, William Logan and William Woodward.

—The stockholders of the Mercantile National Bank of this city, at the annual meeting on Tuesday, increased its board by the election of Messrs. Charles P. Armstrong, Harry F. Morse and Frederick L. Eldridge as directors. The \$2,-000,000 new stock—issued at the time of consolidation with the National Broadway and the Seventh National, in April last—has been listed on the New York Stock Exchange.

day to the board of the Consolidated National Bank of New York.

-Mr. O. H. Harriman, a nephew of Mr. E. H. Harriman, was this week elected an Assistant Cashier of the First National Bank of this city, succeeding Mr. W. G. Snow, lately retired.

-The Palisades Trust & Guaranty Co. of Englewood, N. J., is evidently filling a need in the community which it serves, and is at the same time doing a lucrative business for itself. Its statement for December 81 1903 shows deposits close to half a million (\$476,049) and total resources but little ehort of seven hundred thousand dollars-\$694,648. Deposits now, we are informed, have passed the half million mark, being \$512,000. The company was started June 2 1902 with \$100,000 capital and \$100,000 surplus, and has accumulated undivided profits (net) of \$18,601. Its board of directors comprises many prominent names, the list being Frederick B. Schenck, President Mercantile National Bank, New York; Thos. Thacher (Simpson, Thacher, Barnum & Bartlett); Frank R. Ford, N. J. & H. R. Ry. & Ferry Co.; Wm. O. Allison, publisher and capitalist; Geo. S. Coe (A. M. Kidder & Co., bankers); Oliver Drake-Smith, lawyer; D. Fellows Platt, President N. Y. Corporation Co.; J. C. Anderson, N. Y. O. & W. RR. Co.; Frank Hall (Hall, Jagels, Bellis Co.), Geo. R. Dutton, lawyer; Percival Kuhne (Knanth, Nachod & Kuhne); Walter Christie, real estate and insurance; D. A. Currie, M. D., Mayor of Englewood; Delos Bliss (Dodge & Bliss Box Co.); A. B. Westervelt (with Harvey Fisk & Sons); Edmund W. Wakelee, Senator Bergen County, and Abram De Ronde. The officers are: Abram De Ronde, President; A. B. Westervelt, Treasurer, and J. F. McKinney, Cashier.

-In showing the growth of the Brooklyn Trust Company in these columns last week we inadvertently took the figures from the June 30 statement instead of from that of December 31, which records a still further increase. The correct figures are: Undivided profits, \$1,908,621; deposits, \$13,738,417, and aggregate resources, \$16,741,409.

-A new trust company for Staten Island is being organized by local business men and an application for a special charter will be made. It is expected that the new company will have a capital of \$150,000. Mr. A. M. Harris, of N. W. Harris & Co., is interested.

-Mr. Joseph B. White, who has been connected with the Hamilton Trust Co. of Brooklyn since its incorporation in June 1891, died at his home in Brooklyn on Thursday of this week at the age of 50 years. Mr. White was formerly Secretary of the Kings County Trust Co. of Brooklyn, but resigned that post to become Secretary of the Hamilton Trust Co. He was appointed a Trustee in 1895 and elected Second Vice-President of the Hamilton Trust Co. in August 1902, which position he held at the time of his death. The flags on the various trust companies in Brooklyn were flying at half-mast yesterday in token of respect to Mr. White's memory.

-The Mount Vernon Trust Co. of Mount Vernon, N. Y., has been appointed by the United States District Court a depositary for bankrupt estates. Only two trust companies and one bank in New York City, it is claimed, have been so designated.

-At the annual meeting of the board of directors of the People's Bank of Brooklyn held on January 12th 1904, George W. Spence, formerly Cashier, was elected a director and President to succeed to the vacancy caused by the death of James Gascoine.

-At the Mechanics' National Bank of New York's annual election Mr. A. A. Knowles was elected a director to succeed Mr. Granville W. Garth, the late President. Mr. Garth's successor as President was not chosen,

-Messrs. William P. Minor, George H. D. Mitchell and Henry W. McVickar were on Tuesday elected directors of the Phenix National Bank of New York, to succeed Messrs. Anton A. Raven, John H. Pool and W. H. H. Moore, resigned.

-The Oriental Bank of this city on Tuesday added Mr. W. D. Putney and Mr. Isadore Hernsheim to its board of directors.

-Mr. William O. Allison, publisher of the "Oil, Paint and Drug Reporter," is one of the new directors elected on Tues-

-The board of directors of the First National Bank of Jersey City was, on Tuesday, reduced from nine to seven members.

-The Bayonne Trust Co. of Bayonne, N. J., at its annual meeting on Tuesday, increased the number of directors from thirteen to twenty members. The new directors are: James Benny, W. J. Brown, James E. Hulshizer, J. M. Johnson, M. V. Stringham, S. W. Seeman and John M. Smith.

-As announced in our issue of December 19, the directors of the Merchants' National Bank of Newark, N. J., met on Tuesday to ratify the increase in the capital from \$200,000 to \$500,000. The proposition was approved.

-At the annual meeting on Tuesday of the Orange National Bank of Orange, N. J., the board of directors was in-

creased from eight to fifteen members. The board now consists. of Charles M. Decker, George Spottiswoode, John N. Lindsley, John D. Everitt, Simeon H. Rollinson, Oscar L. Gubelman, Edward T. Perine, John Crosby Brown, George W. Young, William Read Howe, Dumont Clarke, James Timpson, Philip F. Timpson, J. Warren Hardenbergh and George W. Boggs, the eight last named being new. The institution is controlled by the United States Mortgage & Trust Company.

-The Second National Bank of Orange, N. J., at its annual meeting on Tuesday, increased its board of directors from five to eleven, the board now comprising the following : H. L. Pierson, H. D. Williams, Charles A. Lindeley, George H. Hartford, A. W. Burnett, L. M. Meeker, H. A. Potter. A. W. Harrison, Dr. J. H. Bradshaw, E. M. Burnett and E. H. Bonnell. Mr. Elias H. Bonnell was on Thursday elected President to succeed Mr. H. L. Pierson, resigned. Mr. Horton D. Williams was re-elected Vice-President, and Mr. A.W. Barnett, formerly Assistant Cashier, was elected Cashier to succeed Mr. Bonnell.

-The Plainfield Trust Company of Plainfield, N. J., in its statement of condition for December 31st, shows deposits of \$806,359, comparing with \$567,050 in July, \$490,828 in April, \$288,754 in October 1902 and \$163,379 in July 1902. The institution is officered by O. T. Waring, President; A. V. Heely and Henry A. McGee, Vice-Presidents; J. Herbert Case, Secretary and Treasurer, and Edward F. Feickert, Assistant Secretary.

-Mr. Joseph G. Robin, President of the Bank of Discount of New York, also President of the Washington Savings Bank of New York, was elected a director of the American Exchange National Bank of Syracuse on Tuesday, January 12 1904.

-At the annual meeting of the Traders' National Bank of Lowell, Mass., Mr. Amos F. Hill was elected Cashier to succeed Mr. Frederic A. Holden, resigned.

-Mr. H. A. Willis, for thirty years President of the Rollstone National Bank of Fitchburg, Mass., resigned on Tuesday and State Senator George R. Wallace was elected to succeed him. The new State law separating national and saving banks, which goes into effect on July 1, is the cause of Mr. Willis's resignation, as he is Treasurer of the Worcester North Savings Institution.

-At the annual meeting of the Leicester National Bank of Leicester, Mass., on Tuesday, the proposition to go into voluntary liquidation was formally ratified. Parkinson T. Denny and Frank H. Drury were appointed agents in liquidation. The reason for the liquidation-as stated in our issue of December 26th—is that the new Massachusetts law which goes into effect July 1 requires the separation of national and savings institutions.

-At the annual meeting on Tuesday of stockholders of the Marblehead National Bank of Marblehead, Mass., it was decided to place the institution in voluntary liquidation on March 4 1904. This institution is nearly one hundred years old, having been chartered as a State bank in 1804. It was created a national bank in 1865. The reason given for winding up the institution is that the deposits have declined exceedingly of late. The capital is \$120,000. A committee has been appointed to arrange for the liquidation, and, it is stated, depositors will be paid in full.

-Ex-Governor W. Murray Crane resigned as President of the Agricultural National Bank of Pittsfield, Mass., on Tuesday and was succeeded by Mr. Irving D. Ferry, formerly Cashier. Mr. Crane was elected Vice-President, to succeed Mr. William R. Plunkett, deceased, while Mr. Frank W. Dutton will occupy Mr. Ferry's old place as Cashier. Mr. E. H. Kennedy was elected Assistant Cashier.

tion for President was deferred until February 29. General E. S. Greeley will continue to act as President until that time, when, it is reported, he will be succeeded by Mr. John T. Manson, who is now Vice-President.

-At the annual meeting on Thursday of the stockholders of the Union National Bank of Philadelphia, Mr. David Faust was elected President emeritus of the institution, and Mr. W. H. Carpenter, for many years Vice-President and Cashier, was elected President to succeed Mr. Faust. Mr. Faust, who is now 90 years of age, has been President of the institution since 1865 and a director since the organization of the bank in 1858.

-Mr. H. Gordon McCouch has tendered his resignation as Second Vice-President and Secretary of the Fidelity Trust Company of Philadelphia, to take up the practice of law.

-Mr. Morton McMichael, formerly Vice-President of the First National Bank of Philadelphia, was on Tuesday elected President to succeed Mr. George Philler, who resigned on that'day. Mr. E. W. Clark Jr. was elected Vice-President in place of Mr. McMichael.

-The following-named five gentlemen were on Tuesday elected directors of the Girard National Bank of Philadelphia to fill vacancies caused by the rotation system: John A. Catherwood, W. F. Snyder, J. M. Rhodes, R. E. Griscom and B. W. Fleisher.

-The Franklin National Bank of Philadelphia at its annual meeting on Tuesday increased the board of directors from twenty to twenty-one members by the election of Mr. Frederick L. Bailey to the board.

-Mr. Wesley M. Oler, for the past six years President of the Citizens' National Bank of Baltimore, resigned on Jan. 12 to devote his attention to other interests, and was succeeded by Major John S. Gibbs.

-It is stated that depositors of the City Trust & Banking Co. of Baltimore-which, as will be recalled, went into the hands of a receiver early last June-will probably receive 50 cents on the dollar, and, if it is not necessary to pay a disputed claim for \$100,000, they may realize 69 cents on the dollar.

-Allan McLane, receiver of the failed Maryland Trust Co. of Baltimore, has issued a statement of condition of the institution which shows assets of \$10,746,554 and liabilities (exclusive of capital stock) of \$5,726,894. The assets include \$7,398,077 of loans, of which \$6,224,588 represents the Vera Cruz & Pacific RR. loan. Receiver McLane was authorized by Judge Gobler in the Circuit Court at Baltimore to borrow \$2,000,000, giving as collateral the securities of the Vera Cruz & Pacific RR., providing creditors are given an opportunity to agree to the loan. Further particulars will be found in our "Railway Investment News" on a subsequent page.

-As foreshadowed in these columns on December 26th, the Commercial & Farmers' National Bank of Baltimore, at its annual meeting on Tuesday, ratified a plan for the reorganization [of the institution. The plan provides for the reduction of the capital stock to one-half the present amount, which would make the stock \$256,280. The stock is now being deposited for this purpose. This plan also provides for the charging off of every doubtful asset, including \$115,000 from the first cost of the new banking premises on South St. After marking off these assets the capital will be increased to the original amount -\$512,560-and the new stock disposed of to local interests. It is expected that the bank will remove after the reorganization to its old quarters at Howard and German Sts. The present board of directors is a temporary one and will be replaced by a new board after the reorganization has been completed. Charles E. Rieman is the temporary President. -The Mellon National Bank of Pittsburgh at its annual meeting on Tuesday increased its board of directors from eighteen to twenty-one members by the election of Messrs. B. F. Jones Jr., A. C. Knox, W. G. Park, Henry Phipps and Robt. Pitcairn, two of whom succeeded Messrs. Frank J. Hearne and James McCrea, resigned.

-At the annual meeting on Tuesday of the stockholders of the Safety Fund National Bank of Fitchburg, Mass., Mr. Henry Allison, who had been President of the institution for the past thirty years, was succeeded in that position by Mr. Albert M. Lowe. It is understood that a majority of the directors opposed Mr. Allison's policy regarding the management of the bank.

-The Yale National Bank of New Haven, Conn., at its annual meeting on Tuesday elected Mr. Charles C. Barlow Cashier to succeed the late Mr. Asa C. Bushnell. The elec- for the increase are being considered by the Executive Com-

-It is stated in the local press that the Union Trust Co. of Pittsburgh is contemplating an increase of its capital stock from \$1,500,000 to \$15,000,000, by the declaration of a s'ock dividend of 1,000 per cont. It is reported that plans

mittee, consisting of H. C. Frick, A. W. Mellon and H. C. McEldowney, the last-named gentleman being President of the institution.

-Mr. George S. Ward, President of the Franklin Savings & Trust Co. of Pittsburgh, states that the proposed consolidation of his institution with the Central Savings & Trust Co. will not be effected.

-According to Pittsburgh papers, the Farmers' Bank of Indiana, Pa., will increase its capital from \$100,000 to \$225,-000, the new stock to be sold at \$150 per share.

-Mr. Isaac P. Roberts, who has been Cashier of the reorganized Doylestown National Bank since its reopening last October—as stated in our issue of October 17th—has resigned, owing, it is said, to differences with the board of directors. He will be succeeded by Mr. W. Henry Garges. At the annual meeting on Tnesday Mr. William Fretz and Mr. George E. Closson were elected directors, thus increasing the board from nine to eleven members.

-A despatch to the "Cleveland! Leader" states that control of the Farmers' National Bank of Findlay, Ohio, has changed hands, having been purchased by Messrs. David T. Davis and John M. Barr of Findlay and William F. Coons of Cleveland. Mr. Davis was elected President to succeed Mr. Jndson Palmer. The institution has a capital of \$100,000 and deposits of \$500,000.

-Plans for the rumored consolidation of the Ohio Valley National Bank and the Merchants' National Bank of Cincinnati have, according to Cleveland papers, been definitely abandoned.

-At the annual meeting of the Merchants' & Manufacturers' National Bank of Columbus, Obio, Mr. E. J. Vaughan was elected Cashier, to succeed Mr. Howard C. Park, who resigned on account of ill health. The other officers were reelected. Mr. Park served the bank for twenty-one years, having risen from messenger to Cashier.

-Still another consolidation of Cleveland banks is annonnced, the participants this time being the Union National Bank and the Colonial National Bank of that city. The new institution, which will be known as the Union National Bank, will have a capital of \$1,600,000, surplus of \$640,000 and deposits of about \$10,000,000. The Union National now has \$1,000,000 capital and the Colonial National \$1,500,000. Stockholders of the old Union National will receive \$1,000,000 in new stock, share for share, and those of the Colonial National will receive \$600,000 of the stock of the new bank. The remaining \$900,000 of Colonial stock is to be retired at \$120 a share, payment to be made in certificates of deposit in the new institution drawing 4 per cent interest and payable one-half in six months and one-half in twelve months. "The balance of the liquidation will be adjusted at the end of one year from the date when the consolidation shall become effective." The building formerly occupied by the Savings & Trust Co. at No. 44 Euclid Avenue will be the quarters of the new bank. The board of directors for the consolidated Institution will be made up of nine directors of the Union and six of the Colonial, the officers being: Hon. M. A. Hanna, President; Messrs. Lee McBride, H. C. Christy, E. H. Bourne and J. F. Harper, Vice-Presidents; Mr. E. R. Fancher, Cashier; Messrs. C. A. Coulton, W. E. Ward and E. H. Cady, Assistant Cashiers.

-Governor Myron T. Herrick of Ohio, in his inaugural address on the 11th inst., recommended, in the following words, the establishment of a State banking department:

Under the provisions of the national banking law, frequent examinations are made by competent examiners of the condition and soundness of banks established under the laws of the United States. These

undivided profits to surplus, making the latter account \$400,000 and still leaving abont \$50,000 in the former account. With upwards of eleven millions deposits, the present book value of the stock is practically 145. Two new directors have been added to the board of the State Bank, viz.: George E. Rickords, formerly President of the Security Title & Trust Company, and William A. Peterson, a capitalist and proprietor of the Peterson Nursery.

-In the transmission by wire last week of the statement of the Western Trnst & Savings Bank of Chicago, two errors occurred in the figures given. The item of "Loans and Disconnts" should have been \$2,557,374 52 instead of \$1,557,-374 52; and the item "Cash and Sight Exchange," \$917,442 69 instead of \$1,917,442 69 as given. The footing of the "Resources" column was correct, but the bank undonbtedly prefers to have the million dollars in question loaned at a good rate of interest than to have it lying idle in its vaults.

-The January disbursements for interest in the savings department of the Illinois Trust & Savings Bank, Chicago, will amount to \$1,400,000.

-Deposits of the Union Trust Company'of Chicago reached high-water mark last Monday, viz: \$8,412,000, showing a gain of over \$1,200,000 during 1903, or about 17 per cent. \$50,000 was added by vote of the directors to the surplus out of the last six months earnings; \$50,000 had been also added in the first half of the year, making a total surplus now of \$400,000.

-Profits of the Commercial National Bank of Chicago for 1903 were equal to, approximately, 19 per cent on the capital stock, after reserving \$40,000 for taxes.

-The Continental National Bank of Chicago shows profits above 16 per cent on the capital for 1903, being the most prosperous year in the bank's history.

-George P. Bent and W. B. Conkey were added to the board of directors of the National Bank of America, Chicago.

-Kinney Smith was chosen a new director on the board of the Hibernia Banking Association of Chicago; and the following official changes were made in that institution, caused by the recent death of General Hamilton B. Dox, for many years its Cashier: John W. MacGeagh was promoted from Assistant Cashier to succeed General Dox as Cashier and Adam F. Frazer becomes Assistant Cashier.

-Mr. G. D. Coney has been elected Assistant Cashier of the Colonial Trust & Savings Bank of Chicago.

-Oswald J. Arnold, Secretary of the Illinois Life Insurance Company, has been chosen as Chairman of the board of directors of the Jackson Trust & Savings Bank, Chicago.

-Mr. J. H. Cameron, formerly Cashier of the National Bank of the Republic of Chicago, resigned to become *Vice-President* of the Hamilton National Bank of Chicago and not Cashier, as erroneously stated in our issue of January 2d. The Hamilton National Bank has been in existence for about nine months and has made most gratifying progress.

-The Western Trust & Savings Bank of Chicago, in its statement of Dec. 30th, shows an increase of \$1,273,598 deposits over that of Nov. 1902, a gain of nearly 75 per cent. The present deposits exceed three millions. The growth of this bank has been most marked ever since the beginning of President Otis's administration last July, as has also that of the Chicago Savings Bank, of which Mr. Otis is Vice-President. At the annual meeting of the stockholders W. O. Johnson, a director of the Erie Railroad, was added to the bank's board of directors. The old officials were all re-elected.

- The Jackson Trust & Savings Bank of Chicago, which

examinations, after a trial of forty years, seem amply to justify this method of governmental supervision over banking institutions. Unfortunately institutions established under the laws of the State of Obio for banking purposes have, in some instances, met with disastrous failure, which might have been prevented and the public warned if a similar system should be established for them. In this connection I recommend either the establishment of a State Banking Department or the enlarging of the powers of the State Auditor, so that all banking and trust companies incorporated under our State laws shall be subjected to thorough and confidential examination, to the end of affording protection alike to depositor and stockholder.

-In the year 1903 the State Bank of Chicago (whose successive statements appear regularly in our columns) earned the 18½ per cent on its capital of one million dollars. At the fractional directors' meeting it was voted to transfer \$200,000 from The statement of the statement o

began business on November 2 1903, has in two months secured deposits approximating \$100,000, a good showing.

- On Tuesday and Wednesday of this week the First National Bank of Superior, Wis., experienced a "run" on the part of its savings depositors. The President, Mr. William B. Banks, states that the bank has ample funds to pay all these depositors in full, and is in a perfectly solvent condition. He also says that the commercial deposits are as large as usual, only the savings accounts having been withdrawn.

-At the annual meeting on Monday, the stockholders of the Des Moines Savings Bank decided to increase the capital from \$400,000 to \$500,000, the surplus remaining at \$100,000. The old officers and directors were re elected.

-At the annual meeting on Tuesday of stockholders of the Third National Bank of St. Louis, Messrs. W.'B. Wells, B. A. P. Cooke and John B. Arnold were elected Assistant Cashiers.

-At the annual meeting on January 6th of the Western Bank of Louisville, F. A. Henry Jr. was elected Vice-President to succeed C. Jenne, resigned. The other officers were re-elected. Mr. Jenne's retirement, which was voluntary, is ascribed to a desire to effect a partial reorganization, with the view to the infusion of new blood.

-The American National Bank of Nashville. Tenn., at its annual meeting on Tuesday, elected Mr. J. C. Bradford a director, thus increasing the board from 12 to 13 members.

-At the Fourth National Bank of Nashville, Tenn., annual election on Tuesday, Mr. L. H. Davis was elected a director to succeed Mr. R. Lancaster Williams.

-The Bank of Louisa, Louisa, Virginia, increased its capital stock on January 2d 1904 from \$15,000 to \$30,000; the new \$15,000 of capital stock having been sold at the book value, 223'24 per cent, raises the capital and surplus of the Bank to \$66,972. The issue was taken by twenty-seven merchants and citizens of the town and county.

-Col. William S. Thompson was on Tuesday elected President of the City National Bank of Greensboro, N. C., to succeed Mr. J. M. Walker, resigned.

-The Savannah papers report that the Citizens' Bank of that city contemplates changing to a national institution, the capital to remain at the present figure -\$500,000. The plan provides for the organization of a new State bank to be called the Citizens' Bank, while the name of the old institution will be changed to Citizens' National Bank, the latter bank to have the same stockholders and place of business as at present. The new State bank to be organized will have a capital of \$100,000-all of which is to be held by the national institution-and will occupy the quarters at Liberty and Mont. gomery streets, now used as a branch of the Citizens' Bank. The advantage arising from conversion to the national system would be in the right to issue circulation. A committee of directors has been appointed to investigate as to the feasibility of the proposed arrangement and to report at a future meeting of the board.

-Mr. James W. Little has been chosen Cashier of the People's Bank of Mobile, Ala., to succeed Mr. T. S. Bidgood Jr., deceased. Mr. Little has been in the employ of the bank for over 25 years, and at the time of his promotion was Assistant Cashier. Mr. B. W. Padgett will in future occupy Mr. Little's post as Assistant Cashier. The bank in its semiannual statement of December 31st shows deposits of \$1,868,-433, with capital of \$150,000 and surplus and undivided profits of \$490,489. Gen. Julian W. Whiting remains President of the bank.

-At the meeting of directors of the Germania Savings Bank & Trust Co. of New Orleans, Mr J. Edmond Merilh, formerly Vice-President, was elected President of the institution, to succeed the late Mr. Jacob Hassinger. Mr. G. A. Blaffer, at present Cashier, will become Vice-President, retaining, however, the post of Cashier, which he has filled for the past twenty years.

-Announcement appears in the Dallas, Texas, papers that the banking business of Messrs. Gaston & Ayres of that city will shortly be taken over by a new institution to be called the Gaston National Bank. The interested parties are Capt. W. H. Gaston, John H. Gaston, R. K. Gaston and R. C. Ayres.

-The Texas National Bank of Dallas, to which we referred

-The \$200,000 new stock of the Western National Bank of San Francisco-to which we referred in our issue of Jane 13-was issued on January 2, making the capital now \$500,-000. A semi-annual dividend at the rate of 5 per cent was paid on that date.

-According to the San Francisco "Commercial News," a new trust company has been organized in San Francisco, to be known as the Federal Trust Co. The new company will have an authorized capital of \$5,000,000 (par value of shares, \$100), of which only \$1,000,000 will be issued at present. The new institution, it is said, will confine itself strictly to a general trust business and will not receive deposits or do a general banking business. It is stated that agencles will be established at numerous points on the Pacific coast. The officers of the new company are: R. D. Hume, President; Geo. H. Collins, First Vice President; Charles Nelson, Second Vice-President; W. A. Irwin, Third Vice-President and Manager; George C. Brooke, Treasurer.

-President I. W. Hellman, of the Farmers' & Merchants National Bank of Los Angeles, Cal., has signed the new stock of the institution, which brings the capital up to \$1,500,000 and the surplus up to \$1,000,000.

### IMPORTS AND EXPORTS FOR DECEMBER.

The Bureau of Statistics at Washington has issued the statement of the country's foreign trade for December, and from it and from previous statements we have prepared the following interesting summaries.

FOREIGN TRADE MOVEMENT OF THE UNITED STATES. (In the following tables three cinhers (000s) are in all deses omitted ]

in our issues of October 24th and 17th, opened for business on January 2d in its handsome offices on Main Street. The new institution commences with a capital of \$250,000, of which \$155,542 is paid in. Deposits on the day of opening were \$421,318. The bank is officered by William C. Padgitt, President; W. G. Scarff, Vice-President; D. E. Grove, Vice-President; J. W. Blake, Vice-President and Cashier; B. C. Barrier and A. C. Wilson, Assistant Cashiers.

-The annual convention of the First District of the Texas Bankers' Association will be held at Houston on January 20. An interesting programme has been arranged. The address of welcome on behalf of the banks of Houston will be delivered by Mr. J. E. McAshan, Cashier of the South Texas National Bank,

### IMPORTS AND EXPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

Through the courtesy of the Collector of Customs at San Francisco, we have received this week the details of imports and exports of gold and silver through that port for the month of November, and they are given below in conjunction with the figures for preceding months, thus completing the results for the eleven months of the calendar year 1903. The imports of gold were of comparatively small volume, reaching \$269,719, mainly bullion and ore. Of silver there came in \$358,524, mainly bullion and ore. During the eleven months there was received a total of \$8,524,842 gold and \$2,594,581 silver, which compares with \$8,884,933 gold and \$2,195,025 silver in 1902. The shipments of gold during November were of small volume, reaching \$10,745, almost all coin, and the exports of silver were \$88,495, mainly bullion. For the eleven months the exports of gold reached \$1,787,188, against \$2,199,651 in 1902, and \$1,766,687 silver was sent out, against \$7,561,773 in 1902. The exhibit for November and for the eleven months is as follows:

### Monetary Commercial English News

#### From our own correspondent.]

#### LONDON, Saturday, January 2, 1904.

Fears of war between Russia and Japan have depressed the stock markets this week very seriously. Indeed, at one time on Thursday quotations were almost as low as at the worst of the recent liquidation. Later in the day somewhat more reassuring rumors circulated, and there was a recovery. But the market is exceedingly nervous. That Japan is moderate in her demands is the general feeling here. That she is justified in fighting, that indeed it is a matter of selfpreservation if Russia does not give way, is also almost universally held. Whether Russia will give way nobody here is able to form an opinion.

In Paris there is more anxiety than there was, but there is still no serious apprehension, as is evident from the fact that compared with September last the fall in Russian bonds in Paris is only about 3 per cent. Many competent observers in Paris are of opinion that even if war breaks out, there will be no great selling by French holders. The best French estimate is that French investors at present hold very nearly seven milliards of Russian Government bonds, or 280 million pounds sterling, and that about four milliards more of Russlan industrial securities are held, making a grand total of about 11 milliards, or 440 million pounds sterling. Even if there be some exaggeration in the estimate, it cannot be very great, for French investments of all kinds in Russia are enormous. Obviously the French cannot hope to sell a very large proportion of these. Russian investors are not wealthy enough to take a great many, British investors are

not willing enough, and German and Dutch investors already hold very large amounts. It is argued, therefore, that the wiser and better informed holders will not attempt to sell. and that the less well informed will depend upon the good offices of their own Government. They look to their Government to protect their material interests. And they furthermore remember that during the Crimean war and the Russo-Turkish war Russia continued to pay the interest upon its debt punctually.

For all these reasons very many well-informed persons in Paris think that the sale will not be large, and consequently that there will be no great depression in Russian bonds. Many others, of course, are of a different opinion. Only experience can tell which are right. But it is obvious that if war does break out the effect upon the stock markets of Europe will very greatly depend upon the action of French holders of Russian bonds. If they remain calm, the scare in markets will be short-lived. If they lose their heads, the scare will be serious.

Unlike London, Berlin has been fairly active; indeed surprisingly active for the last week in the month, when the money market is always much disturbed. The German banks, like the British banks, call in large amounts of loans at the end of every year so as to make it appear that they hold much heavier reserves than they really do. Therefore the money market is always disturbed and immense sums have to be borrowed from the Imperial Bank. This year, as usual, the disturbance was very great. Nevertheless the market was cheerful and looks forward to the future with much hope. In Paris business has been much quieter than in Berlin. In fact there has been exceedingly little doing. But unlike London, there has been no material fall. People have refused either to buy or to sell.

During the week short loans have been in exceedingly strong demand; so strong that the market has had to borrow immense amounts from the Bank of England. On the other hand, the rate of discount has fallen steadily. The fall does not seem to be justified, remembering, firstly, that gold may have to go to New York and to Buenos Ayres; and, secondly, that if war breaks out, the money market is sure to be more or less disturbed. But everybody in the city has come to the conclusion that money will be very abundant and cheap for the first two or three weeks in January, and consequently discount rates have been recklessly put down. It is quite true that if peace is maintained and nothing untoward happens, money will accumulate at all the great European centres, and in all reasonable probability the leading French and German banks will increase the balances they are employing in London. On the other hand, if war breaks out nobody can foresee what may happen in Paris. As pointed out above, the French investments in Russia are so enormous that French investors may take fright. If they do, the French banks may find it necessary to withdraw a large part of the balances they are now employing in London. It would seem, therefore, exceedingly rash to put down discount rates as they have been put down this week.

One of the influences acting upon the market is the certainty now that Chinese labor will be imported into South Africa. On Wednesday evening the vote was taken on Sir George Farrar's motion in the Legislative Council of the Transvaal, and the motion was carried by 23 to 4, the motion being, in fact, a request to the British Government to authorize legislation with a vlew to importing foreign labor. The British Government has always announced that it would act according to the wishes of the people, and there is no doubt that the wish of the great majority of all classes in the Transvaal is that Chinese' labor shall be admitted. For instance, every Boer member of the Legislative Council voted for Sir George's motion. The bill, then, will no doubt be introduced, but it will be published, so as to allow the entire community to criticise it for a whole month before it is discussed in Legislative Council. In all probability legislation will not take place until some time in February. And after the bill passes, the actual hiring and importation of Chinese laborers must take place. It does not seem probable, therefore, that the influence upon the mining industry will be very great for several months. Indeed, Sir George Farrar himself does not venture to hope that more than 10,000 Chinese will be imported during the present year. But the mere fact that Chinese labor is to be admitted has had a remarkable influence upon the market here, and people are

already talking as if there would be an almost immediate increase in the gold production,

The India Council continues to sell its drafts well. It offered for tender on Wednesday 60 lacs, and the applications exceeded 474 lacs, at prices ranging from 1s. 4 3-32d, to 1s. 41/2d. per rupee. Applicants for bills at 1s. 41/2d, per rupee were allotted about 81 per cent of the amounts applied for.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c. compared with the last three years :

Messrs. Pixley & Abell write as follows under date of

Messrs. Fixley & Aberl withe as follows dutor date of Dec. 31, 1903: Gold.—With harder exchanges from New York, America for a few days ceased to be a buyer, and in this interval a few German orders were filled. Exchange having again failen the bulk of this week's ar-rivals have been bought for the States. At the Bank  $\pounds 57,000$ has been received from Australia and  $\pounds 40,000$  has been with-drawn,  $\pounds 30.000$  of which goes to South America. Arrivals: South Africa,  $\pounds 657,000$ ; Australia,  $\pounds 85,000$ ; River Plate,  $\pounds 11,000$ ; total,  $\pounds 753,000$ . Shipments: Bombay,  $\pounds 42,750$ ; Madras,  $\pounds 7,000$ ; total,  $\pounds 49,750$ .

**2753,000.** Shipments: Bombay, 242,700; Bradras, 27,000, total, 249,750. Silver. - Indian Government orders have for the most part absorbed all the eilver offering for near delivery, and with the Paris tender to be eupplied at an early date the market has been extremely steady in tone. We close firm at 26<sup>1</sup>gd. for each, and  $25^{13}$  lgd. for two months delivery. The nearest price in India is Rs.  $65^{14}$ s. Arrivals: New York, 2155.000; Cape Town, 210.000; Australia, 213.000; total, 2178,000. Shipments: Bombay, 2232,000; Singapore, 225,000; total, 257,000. tal, £257,000

Mexican Dollars.—There is no business to report, a rise in the Straits exchange preventing sales from that quarter. Arrivals: Straits,  $\pounds 222,000$ ; Mexico,  $\pounds 9,000$ ; total,  $\pounds 231,000$ . Shipments: Bombay, £60,500.

The quotations for bullion are reported as follows:

### For Dividends see page 211.

WALL STREET, FRIDAY, JAN. 15, 1904.-5 P. M. The Money Market and Financial Situation.-Business at the Stock Exchange has been restricted this week. This has been in some part due to the foreign diplomatic situation, whose depressing influence at the principal European financial centres has been reflected in Wall Street. An-other cause for the non-appearance of the usual investment demand at this season may be found in the depressed condition of the stock market during recent months and the concurrent absorption of investment funds.

An event of the week which has attracted attention in local financial circles has been the announcement of a pro-posed new bond issue by the Rock Island Company. This issue if approved by the stockholders is not to exceed \$163,-000,000 in the aggregate, is to be issued as required during the next thirty years for retiring outstanding obligations, and for improvements, extensions and betterments.

The money market is exceptionally easy, under an abundant supply of loanable funds. Rates for time loans are the low-est reported for many months and call loans have been readily negotiated at or near minimum rates. Foreign exchange market steady to firm, although the offerings of bankers as well as commercial bills have been liberal. The open market rates for call loans on the Stock Exchange

during the week on stock and bond collaterals have ranged from 1½ to 3 per cent. To-day's rates on call were 2 to 2¼ per cent. Prime commercial paper quoted at 4¾ per cent for endorsements and 4¾ @5 p. c. for best single names. The Bank of England weekly statement on Thursday showed an increase in bullion of £1,392,325 and the percent-age of reserve to liabilities was 43'47, against 37'50 last week, the discount rate remaining unchanged at 4 per cent. The

the discount rate remaining unchanged at 4 per cent. The Bank of France shows a decrease of 5,250,000 france in gold and 300,000 francs in silver.

Railroad and Miscellaneous Stocks.-The stock market has been dull and irregular, although fluctuations in railroad issues have generally been within narrow limits. The daily transactions averaged about 350,000 shares, with the list of active stocks unusually small and the exceptional features limited. The market was notably weak on Tuesday, was firmer in tone and slightly more active on Thursday, and dull and narrow to-day.

Chicago & Alton preferred continued the upward movement heretofore noted until it reached 85, a gain of 10 points within ten days. It has reacted, however, and closes 2<sup>3</sup>4, points below the highest. The "Soo Line" issues have been notably strong on gossip regarding its dividend status, showing an advance of from 3 to 5 points. Wabash preferred has been unusually active, and advanced nearly 3 points. Brooklyn Rapid Transit has lost 3½ points of its recent ad-vance. Other local transportation issues have been steady. The anthracite coal carriers have been relatively firm, and it is interesting to note that the shares of Pennsylvania and New York Central have sold at practically the same price for several successive days. Rock Island issues advanced on the bond announcement.

There have been some rather wide fluctuations in industrial stocks, but these are not unusual, and have attracted but little attention. United States Steel preferred has advanced  $1\frac{1}{2}$  points and the common is fractionally higher.

For daily volume of business see page 222.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow.

Outside Market.-Trading in the market for unlisted securities has been on a limited scale this week. Considerable irregularity has been displayed in the movement of prices; though some declines have occurred, the majority of stocks show advances. The most active stock was Greene Consolidated Copper; the price of these shares fluctuated between 12½ and 13¾, closing to-day at 13. On transactions aggregating about 5,500 shares, Northern Securities stock gained 1% points to 90%, then reacted to  $89\frac{1}{4}$ , and to-day sold ex-dividend of 1% per cent at 90. Seaboard Air Line issues have been depressed: the common on Saturday gained  $\frac{1}{2}$ point to 10<sup>1</sup>/<sub>2</sub>, but subsequently it sold down to  $8\frac{7}{8}$ ; the pre-ferred lost  $3\frac{1}{2}$  points to 16. The new 3-year 5 per cent col-lateral trust bonds of the Seaboard Air Line were traded in "when issued" for the first time on Saturday at 80 and 83; to-day there was a drop to 781/2 and a reaction at the close to 79; the rights sank from 1 to  $\frac{3}{6}$ . Interborough Rapid Transit gained  $4\frac{7}{8}$  points to  $97\frac{1}{6}$ . Electric Vehicle stocks have been active and strong; the common advanced from have been active and strong; the common advanced from  $7\frac{3}{4}$  to 10, but to-day it dropped to  $9\frac{1}{3}$ ; after a decline of  $3\frac{3}{4}$  of a point to  $11\frac{3}{4}$ , the preferred stock advanced to 16. Brooklyn Ferry stock lost  $\frac{1}{4}$  point to  $6\frac{3}{4}$  on Tuesday, but on Thursday it sold up to  $9\frac{1}{2}$ ; to-day there was a reaction to  $8\frac{7}{3}$ . Buffalo Gas moved down 2 points to  $4\frac{1}{2}$ . International Mercantile Marine  $4\frac{1}{2}$  per cent bonds sold on Thursday at 86 and interest: the last previous reported sale Thursday at 86 and interest: the last previous reported sale was at 100; to-day the bonds sold at 85 flat. Cuban 6s of 1896 gained 4 points to 68 on Tuesday; the following day on the report that the Cuban Government had decided to pay the back interest on the bonds, the price jumped up to 95; to-day there was a reaction to 90 with the close at 901/2. Outside quotations will be found on page 222.

\$1,000 premium; Chicago, 20@30c. per \$1,000 premium; St. Louis, par@10c. per \$1,000 premium; San Francisco, \$1 75 per \$1,000 premium.

State and Railroad Bonds .- Sales of State bonds at the Board are limited to \$10,000 Virginia def. trust receipts at 7. The market for railway bonds shows some slight improvement. The demand is reported to be increasing, and the

### RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. The returns of the street railways are brought together separately on a subsequent page.

Latest Gross Earnings July 1 to Latest Date

J Week ending Jan. 2.

Net Earnings Monthly to Latest Dates.-The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of Dec. 19, 1903. The next will appear in the issue of Jan. 23, 1904.

### Swift & Company.

### (Report for the year ending Dec. 31, 1903.)

Treasnrer Laurence A. Carton is quoted as saying in his report:

The tonnage transported aggregated in round numbers 3,500,000,-000 pounds, requiring the capacity of 175,000 cars of 20,000 pounds each, or an average equipment during the 12 months of over 6,500 cars, to handle the product from the packing house to the branch house or seaboard, as eccasion required. To dispose of this product we controlled 341 separate branch houses at homs and abroad. Of these we own 189 in this country and own or control 60 in foreign constries. conntries.

The directors feel very confident of the permanent character of our business and of its earning capacity. If in a year like that from Oct-ober, 1902, to October, 1903, we could earn \$3,000,000, we certainly feel warranted in saying we can do better the coming year. We paid you 1% p. c. quarterly ou your stock, or an aggregate of 7 p. c., equivalent to \$1,750,000, and added 5 p. c., equivalent to \$1,250,000, to surplue, making the book value of the stock over \$125 per share. The balance cheet Dec. 21 mes an follows:

The balance sheet Dec. 31 was as follows:

### Alabama Consolidated Coal & Iron Co.

(Report for the year ending Oct. 31, 1903.)

President T. G. Bush, under date of Dec. 1, 1903, gives the following facts regarding the operation of the furnaces lo-cated at Ironaton and Gadsden, Ala., and the coal mines lo-cated at Brookwood, Milldale, Hewitt, Searles and Lewisburg, Ala., together with the ore mines, etc.:

CoAL MINES.—All of the mines have been in continuous operation except when shut down by strike by the ooal miners in July last. Our total output for the year shows 518,623 tons, as compared with 475,106 tons the previous year. The mines are better equipped than over before, and with a normal demand could be brought to an out-put of 650,000 tons a year without material additional improvements. COKE OVERS.—We produced 207,803 tons of ooke, as against 200,-597 tons the year previous. One hundred new ovens were constructed at our Lewisburg mines but were not put in service. These new ovens, added to those already existing, make a total of 765, with a yearly cauacity of 250,000 to 275,000 tons of coke. ORE MINES AND QUARRY.—The capacity of our ore mines has been much increased to meet the demands of the new furnace at Gadaden. The output of the red ore mines has been increased nearly 50 p. c. We have also increased our resources for brown ore at Ironaton by the erection of additional washers and pipe lines. The improvements at the limestone quarry have been completed, and have not only in-creased the capacity to more than our needs, but will decrease the cost of the limestone something like \$15,000 per annum. IMPROVEMENTS.—While these improvements have required a very large outlay, they have greatly increased the strength of the company. Our situation as to our capacity and resources sums up as follows: Three furnaces with capacity of 150,000 to 180,000 tons of iron per annum. Coal unines with a capacity of 600,000 to 650,000 tons of iron per

annum. Ocal mines with a capacity of 600,000 to 650,000 tons per annum. Seven hundred and sixty-five coke ovens, with a capacity of 250,000 to 275,000 tons of coke per annum. Ore mines with full capacity for the furnaces. Limestone quarry with ample supply of flux for our furnaces, and

Beven induced and skety-live solutions, while a capacity of 250,000
Dre mines with full capacity for the furnaces.
Limestone quarry with ample supply of flux for our furnaces, and also furnishing a large quantity of stone for sale.
There has recently been sold a piece of unproductive property known as the Mary Pratt property, in Birmingham, for \$80,000, which will shortly be paid for.
RESERVE FUND.-We set aside the usual 25 cents per ton of iron made (in all, \$26,822) as a reserve fund for repairs to furnaces. [This increased the fund to \$37,998. For improvements to furnaces. [This increased the fund to \$37,998. For improvements to furnaces. [This increased the fund to \$37,998. For improvements to furnaces. [Amount set aside (rom \$46,473 at the beginning to \$74,237 at the end of the year.-ED.] and made a monthly charge for depreciation. [Amount set aside (ror depreciation Oct. 31, 1903, \$59,790.-ED.]
IRON MARKET.-The price of iron began to decline about the first of March, and the decline became so rapid and pronounced that consumers refused to buy for their needs for the last half of the year, and would only buy for the first half to cover contracts in hand. These conditions became more acute as the year advanced, so that the iron dore the last half of the year, but with a very large tonnage of iron due on orders held up by request of buyers which should have heen shipped previous to that time. There has been a large reduction in the output of the furnaces of this country within the last stry days, but consumption has been se small, comparatively, that buyers have not been inspired with great contidence, even when they they had reason to believe they could buy iron for less than cost. This very rapid decline to each allow proves that labor and the cost of emples must be adjusted to the present value of iron or production must be greatly curtailed. It is the polog of the directors to operate the furnaces, endeavoring to produce iron at the lowest possible co

### American Graphophone Company.

(Report for the year ended Sept. 30, 1903.)

FURNACES.-The furnaces at Ironaton were in continuous operation, with the exception of nineteen days for No. 1 furnace and thirteen days for No. 2. Notwithstanding the interruptions due to the installdays for No. 2. Notwithstanding the interruptions due to the install-ing of new engines and boilers, building new stove, etc., the two fur-naces produced during the year 70,108 tons, as against 61,234 tons for the previous year. These furnaces, as improved, are now pro-ducing 250 to 275 tons per day, or on a basis of 85,000 tons per an-num, allowing say thirty days in the year for repairs, etc. The Gadsden furnace was operated until June 23, 1903, when it was blown out for the purpose of making connections with the new fur-nace [of which it became a part.—ED.] Delays by the contractors prevented the blowing in of the new stack before the last of August. 1903. The new furnace appears to be one of the best, if not the most madern furnace in the Southern district. It is showing a consister of

prevented the blowing in of the new stack before the last of August. 1903. The new furnace appears to be one of the best, if not the most modern furnace, in the Southern district. It is showing a capacity of 225 to 250 tons per day, and has caused a great reduction in the cost of iron. We may expect an annual output from this furnace of 75,000 tons, making the total product for our three furnaces about 160,000 tons per annum. The cost of the new furnace exceeded our original estimates, but it is felt, however, that the investment will prove a most valuable one. most valuable one.

President Edward D. Easton says: As clearly appears from the figures submitted, this has been the best year in every respect in the history of the company. There have been further large additions to the factory buildings, machinery, stock, etc., made necessary to provide for the continually increasing busi-ness; and additional and valuable patents have been acquired. As is shown by the accompanying statement, a substantial amount of the surplus earnings has been carried to reserve account for depreciation, etc., and the asset valuations carried forward are very conservative. The following unofficial statement further explains the year's changes:

year's changes: The net earnings for the late year were two and a half times those of 1902, the most favorable previous year. In view of the rapid growth of the business the eurplus earnings of \$191,000 beyond the dividend of \$78,000 on the preferred stock were carried to surplus account. increasing the same to \$522,000. There was an increase in investment of \$240,000 in factory plants, and the working capital was increased about \$100,000. The conversion of over \$350,000 in outstanding debenture 5s into preferred stock was effected during the year, reducing the fixed charges over \$17,000 per annum, and leaving outstanding only about \$100,000 in debentures. The current liabili-ties for material purchased, bills payable, etc., are \$467,000, an in-crease of about \$150,000, but on the other hand, merchandise, mate-rials, accounts and cash amount to over \$1,400,000.

#### The earnings, expenses, charges, etc., were as follows: EARNINGS, EXPENSES AND CHARGES.

Net from operations Miscellaneous.	1902 03. \$594,638 64,875	1901-02. \$261,168 15,610

### Bethlehem Steel Company.

#### (Report of Expert Accountant.)

Alfred Rose, of the Audit Co. of New York, who examined the books of the Bethlehem Steel Co. for James Smith Jr., receiver for the United States Shipbuilding Co., gave in his testimony before Special Examiner Oliphant in the Shipbuilding case, the following facts :

**OPERATIONS IN 1903.** 

Year ending July 31. \$8.739.107	8 mos. end- Oct. 31. \$1,979,483	
Net earnings	542,534	
Interest charges	130,608 411,925	
	· · · · -	£.

Of the net earnings for the quarter ending Oct, 31, 1903, \$182,107 was expended for additions to plant and \$316,625 in the purchase of stocks and bonds. Of the latter amount \$313,625 were set aside to buy stock of the Juragua Iron Co. of Cuba (V. 77, p. 1227, 2341). The amounts expended for new construction, etc., were for

the years ending July 31:

From July 31, 1902, the date of the purchase of the com-

pany by the Shipbuilding Company to Oct. 31 of this year Mr. Rose said that the net earnings were disposed of as follows:

Additions to plant, real estate, stocks and bonds	,391
	589
Decrease in extraordinary charges	523
	000

In making up the above figures, the inventory materials on hand as between July 31, 1902, and Oct. 31, 1903, had in-creased by \$1,358,075. Mr. Rose's examination covered the fifteen months ending with the latter date and verified the figures for that period. The floating debt on July 31, 1903, it is said, was \$764,337.-V. 77, p. 2341, 1227.

### Keystone Telephone Co. of New Jersey (Philadelphia). (Report for the year ending Dec 31, 1903.)

The report shows for the year 1903 gross earnings of \$481,524, and net, \$232,515, and for the month of December, \$50,444 and \$27,003, respectively, against \$27,595 and \$10,900, respectively, in January, 1903. President John M. Mack says in substance:

The net earnings for December exceed the earnings for January by \$16,103. The average net increase of each month over the previous month for the year 1903 was \$1,454 and there is every indication that the increase will be even greater this year. We are receiving contracts for new business at the rate of over twenty per day and are 2,800 behind on installations. Since Dec. 31, 1902, the company has expended on extensions and increase of the plant \$947.590; net in-crease in number of telephones, 5,200; conduit installed during the year (duct foot), 1,116,499; cable installed during the year (lineal feet), 450,206.

The outlook to-day is brighter than at any time since the company was incorporated. The principal expenditure has been made and it will only be necessary in the future to make such additions as will enable us to reach additional business along the lines of our conduits already established.

x Authorized issue, \$5,000,000, of which \$3,063,200 unissued.

On Jan. 17, 1903, besides the \$2,500,000 each of stock and first mortgage bonds which were owned by the parent company, the Keystone Telephone Co. of Philadelphia (the Pennsylvania corporation) had outstanding \$1,670,296 of notes payable. Compare V. 76, p. 869. -V. 77, p. 772.

#### Obio & Indiana Consolldated Natural & Illuminating Gas Company.

(Statement of earnings for year ending Dec. 31, 1903.)

The following is a statement of earnings for the calendar year 1903. The data, as here shown, should be studied in connection with the remarks concerning the conditions prevailing in 1902, as published in the CHRONICLE of Feb. 21, 1903 (page 432), substantially the same conditions having continued during 1903. A very large sum of money has been expended in the installation of meters, but as they were not in use till December, 1903, when the cold weather, as usual, curtailed the flow of gas, they have not as yet shown their full effect in increasing the company's receipts.

RESULTS FOR CALENDAR YEAR 1903.

Operating expenses	97,787
Net earnings Interest on bonds	\$152,748
Profit over interest	\$36,348
Deficit, deducting construction As to charges, etc., compare V. 75, p. 432.	

### GENERAL INVESTMENT NEWS.

### BAILBOADS, INCLUDING STREET BOADS.

Alabama New Orleans Texas & Pacific Junction Ballways.—Payment of Coupons.—On Jan. 1, 1904 (upon surrender of coupons Nos. 25 and 26, due April 1 and Oct. 1, 1903), interest in respect of the profits of the year 1903 avail-able for the "C" debentures was paid at the full rate of 5 per cent, less income tax, by Glyn, Mills. Currie & Co., 67 Lombard St., London, E. C.-V. 77, p. 2279.

Atchison Topeka & Santa Fe Ry.-Listed.-The New York Stock Exchange has listed \$7,000,000 additional general mortgage 4s and has authorized the listing from time to time, but prior to Feb. 1, 1904, of a further \$3,000,000 of said issue when sold, making the total listed \$148,155,000.

The bonds covered by this listing were issued as follows:

To take up a like amount of bonds of other companies embraced in the system under Section 3 of Article One of

embraced in the system under Section 3 of Article One of the general mortgage.
To cover payment of equipment bonds retired in 1901 and 1902 in accordance with Section 4 of Article One. The entire amount (\$2,500,000) of equipment trust bonds has now been cremated. There are no equipment bonds of this company outstanding.
On account of improvements to Dec. 31, 1902, inclusive, in accordance with Section 5 of Article One. The company is entitled to \$3,000,000 bonds annually under this section. The amount now listed covers in part bonds that were available for the years 1901, 1902 and 1903.
To cover amounts paid to Dec. 31, 1902, in connection with the acquisition of the Atlantic & Pacific RR.
On account of improvements and betterments of the Santa Fe Pacific RR. to Dec. 31, 1902. \$70.000

520,652

8,815,289 121,878

472.184 The total amount of general mortgage bonds anthorized under the mortgage of Dec. 12, 1895, is \$165,490,500.-V. 77, p. 2338.

Atlantic & North Carolina RR.-Lease Matters.-The meeting of the stockholders for the consideration of the proposition to lease the road was called to order Dec. 10, 1903, but there being no quorum present no business was transacted. The matter of the lease rests with the Board of Internal Improvements of the State of North Carolina. The Board has not given its consent to the lease or given any opinion on the subject. The Atlantic RR. Co. was incor-porated in December last with \$250,000 of authorized capital to build a line from Goldsboro west to Raleigh, 50 miles, connecting with the Atlantic & North Carolina at Golds-boro, and to lease that company's line, provided the proposition of W. W. Mills, one of the incorporators of the new company, be accepted, namely, to pay as annual rental a sum equal to 3.1 p. c. on the stock for 50 years; then 2 p. c. for 15 years; then 3 p. c. for 15 years; then 4 p. c. for 20 years. V. 77, p. 1873.

The increase during the year has been such that the board deemed it wise to anthorize the purchase of additions to the switchboard at main exchange, and also at Race exchange, which will provide for an increased capacity of 1,600 additional lines in each of these exchanges. Since the last annual meeting, Exchange No. 4 has been opened, sup-plying the territory from Front St. west, and from Fairmount Ave. to Erie Ave.; also Exchange No. 5 has been opened, supplying all of the territory east of Front St., in Kensington and Frankford. During the coming week Exchange No. 6 will be opened, supplying the territory north of Erie Ave., including Germantown, Chestnut Hill and Mana-yunk. These six exchanges will cover the entire city and no further

yunk. These six exchanges will cover the entire city and he investment in real estate or buildings will be necessary. Very substantial progress has been made during the year in connecting with other cities. At the present time we are able to reach over our own and connecting lines Baltimore and nearly all points in Maryland; Wilmington and points in Delaware; Chester, Norristown, Harrisburg, Altoona, Reading, Allentown, Wilkesbarre, Lancaster, Harrisburg, Altoona, Reading, Allentown, Wilkesbarre, Scranton, and in fact all points in eastern and northern Pennsylvania; Trenton, Atlantic City, Millville, Vineland, and all points in central and southern New Jersey.

Buffalo Frontier Terminal RR.-Proposed Belt Line. This company was incorporated at Albany on Jan. 11 with \$3,000,000 of authorized capital stock in shares of \$100 each. to build and operate a steam railroad 30 miles long around the city of Buffalo from the shores of Lake Erie in the town of Hamburg to the Nlagara River in the town of Tonawanda, following a course distant not more than two miles from the The directors are: city llmits.

Charles W. Goodyear, Frank II. Goodyear, John H. Ince, Arthur D. Bissell, William B. Cutter, Frank S. McGraw, Charles R. Huntley and George S. Field, all of this city, and Henry H. Persons of East Aurora; Daniel O' Day of New York and George H. Jones of Brooklyn.

A director is quoted as saying:

The railroad will be constructed from the lake shore in the town of Hamburg and will encircle the city on its land side, tapping every railroad out of Buffalo. This means railway connections with every one of the 15 steam roads entering the city, and 10 trolley lines in ad-dition. The company is an entirely non partisan company, the inter-ests of no road being paramount. There are within the city limits a number of belt lines, but all of them are operated in the interest of some single system. A manufacturer locating anywhere along the line of our tracks can have the benefit of every railroad in Buffalo, while the lake and river at both ends will give water facilities to all our shippers. The proposed improvement of the Niagara River will bring us into communication with all the industries on the river front. The Goodyneys are the leading interests in the Buffalo &

The Goodyears are the leading interests in the Baffalo & Susquehanna, which is extending its line to Buffalo.

Buffalo Rechester & Pittsburgh Ry.-Option to Subscribe to New Common Stock.—Pursuant to a resolution of the di-rectors adopted April 21, 1903, the privilege is given the hold-ers of preferred and common stock to subscribe at par between Feb. 1 and Feb. 10, 1904, inclusive, to \$700,000 additional common stock, being approximately 5 p. c. of their respective holdings as registered at 3 P. M. on Jan. 25, 1904. This \$700,000 of common stock is the remainder of the \$3,000,-000 authorized by the stockholders in November, 1901. It will make the share capital outstanding \$6,000,000 preferred and \$9,000,000 common stock. The proceeds of the stock offered are to be applied to pay for the construction of 19 miles of railway from Ernest, Pa., on the Indiana branch, to lands near Elders's Ridge, Pa., owned by the Pittsburgh Gas Coal Co. This line will be shortly completed, and a contract has been entered into with the Pittsburgh Gas Coal Co. securing to the road the transportation of all its output. Subscriptions will be payable at the office of A. Iselin & Co., No. 36 Wall Street, New York, on Feb. 10, 1904, when the new certificates will be issued. The new stock will be entitled to participate in dividends payable after Feb. 15, 1904. No fractional stock certificate will be issued.-V. 77, p. 1745.

Central Pacific Ry.-Listed.-The New York Stock Ex-change has listed \$2,027,000 additional first refunding mortgage 4 p. c. guaranteed bonds of 1949, making the total listed to date \$64,781,000. These additional bonds were held by the United States Government as collateral security for two notes of the company for \$2,940,635 78 each, maturing Feb. 1, 1903, and Aug. 1, 1903, which have been paid.

STATEMENT OF ISSUANCE OF \$64,781,000 FIRST REFUNDING M. 4 PER CENT GUARANTEED BONDS.

Less bonds canceled by provisions of sinking fund	
Total	
-V. 77, p. 1532.	

Chicego Indianapolis & Louisville Ry.-Listed.-The New York Stock Exchange has listed \$300,000 additional 5 per cent cent refunding mortgage bonds of 1947, issued for im-provements and additions, making the total listed to date \$4,442,000. The last-named amount was issued on account of the following: Retirement of L. N. A. & C. equipment bonds, \$709,000, and general mortgage 5s, \$700,000; to syndicate for cash, \$1,500,000; for betterments, improvements, etc., \$1,533,000.-V. 77, p. 764.

Chicago Rock Island & Pacific Ry .- New Bond Plan. -On page 284 of to day's CHRONICLE will be found the amended plan for refunding the company's obligations and providing for its present and future requirements. An earlier scheme for its present and future requirements. An earlier scheme contemplated the refunding of bonds maturing within the next 85 [years, including the \$61,000,000 of outstanding general mortgage 4s due in 1988. The present plan restricts the re-funding operations to the next thirty years, during which time no underlying bonds can be extended. The bonds of the Chicago Rock Island & Pacific *Railroad* Co. and the St. Louis & San Francisco RR. also are not covered by the refunding proposed.

new equipment and new shops at Moline, costing in all \$18,-564,000; and on railway lines aggregating 629 miles and on first mortgage bonds on 518 miles of road. It will also be 'a junior lien, subject to existing mortgages, on all the railways of the Rock Island system, aggregating, exclusive of leased lines and trackage, 5,689 miles.

The plan will be presented for the approval of stockholders at the meeting on March 21, 1904. It is generally understood

that Speyer & Co. will handle the financial end of the plan. Debt Per Mile.—The following statement has been con-densed from an elaborate table compiled by White & Kemble, the statisticians, showing the comparative mileage (including trackage over lines of other companies), also funded debt and fixed charges per mile thereof of a number of leading railroad companies. In the case of the Chicago Rock Island & Pacifio Railway the debt was taken as of Jane 30, 1903, and to it was added the \$15,000,000 of proposed new bonds issuable forthwith under the plan above mentioned, their interest also being included in the fixed charge per mile. The statements for the other companies are based on the annual reports of June 30, 1903, except the Chic. & North-West. (May 31, 1903). the Southern Pacific (June 30, 1902) and the Missouri Pacific (Dec. 31, 1903).

-V. 78, p. 102.

Cleveland Cincinnati Chicago & St. Louis Ry.—Earn-ings.—The results (partly estimated) for the six months ending Dec. 31 were:

6 mos. 1903......\$11,070,132 1902......10,263,108 Net. \$2,547,497 2,524,539 Oharges. \$1,428,828 1,427,975 Bal. for div. \$1,118,669 1,096,564 Dividends of 2½ per cent on the preferred call for \$250,000 during each of the 6 months and dividends on the common (2 per cent) for about \$560,000.-V. 77, p. 2280, 1533.

Cleveland Electric Ry.—Bond Sale.—This company re-cently sold \$200,000 of its 5 p. c. bonds due in 1913, through Denison, Prior & Co. of Cleveland. The amount of this issue now outstanding is \$4,550,000. There are also outstanding \$2,026,000 Cleveland City Cable Ry. Co. 5 p. c. bonds, which were assumed by this company under consoli-dation. The proceeds of the sale of the \$200,000 bonds were applied to the purchase of additional equipment and the construction of extensions of track.-V. 77, p. 769, 628.

proposed.

It is deemed advisable to limit the amount of the new issue to a sum which will make the new bonds available for investment under the New York savings bank laws. The total authorized issue is therefore limited to \$163,000,000. The bonds are to bear interest at not exceeding 4 per cent per annum and will mature on April 1, 1934, but are subject to call at the company's option prior to April 1, 1911. The amount of bonds "issuable forthwith" is \$15,000,000, but the company, being in no haste to obtain funds, will market these only as conditions are favorable. The remainder of the bonds is reserved for refunding and for new acquisitions, additions, improvements, etc., as shown in the circular on another page.

The new mortgage, it is stated, will be made a first lien on terminal property at St. Paul, Minneapolis and St. Louis;

Concord & Montreal RR.-New Stock.-The \$150,000 additional class four stock recently authorized by the New Hampshire Railroad Commission will be sold in Boston on Jan. 20. This will make \$5,647,600 of that issue outstanding. Compare V. 77, p. 2338.

Copper Range RR.-Bonds.-The company in the last half of 1903 issued an additional \$615,000 of 5 p. c. bonds, which are now held in the treasury of the Copper Range Consolidated Co. This increases the bonded debt of the railroad from \$1,410,000 to \$2,025,000. The latter company on Dec. 31, 1902, was indebted to the Copper Range Co. (which owns all of the railroad's 26,051 shares) to the amount of \$616,617, and the Copper Range Co. in turn owed \$951,173 to the Copper Range Consolidated Co., indebtedness which in each case

was reduced through the transfer of the aforesaid bonds .--V. 70, p. 230.

Erie RR.-Listed.-The New York Stock Exchange has listed \$1,000,000 additional first consolidated mortgage 4 per cent prior lien bonds of 1996, making the total listed to date \$35,000,000. The new bonds were issued on account of improvements and additions prior to April 1, 1901.

Earnings.—For the five months ending Nov. 30:

Dividends on the \$47,892,400 first preferred stock for five months at the rate of 4 p. c. (increased from  $1\frac{1}{2}$  to 2 p. c. semi-annually made last August) calls for \$795,014.  $-\nabla$ . 77, p. 2889.

Fonda Johnstown & Gloversville RR.-Purchase.-Con-trol of the Adirondack Lakes Traction Co. (which operates a trolley railroad from Gloversville to Mountain Lake) has been purchased by or in the interest of the F. J. & G., and John Shannahan, employed by the latter. has been elected President of the Traction Company. -V, 76, p. 265.

Huntingdon & Broad Top Mountain RR. & Coal Co.-The company on Wednesday declared the usual preferred dividend and a semi-annual dividend of 1 per cent on the common stock. Dividends on the common shares were resumed in 1903 after an intermission of five years, 5 p. c. in all being paid during the year.-V. 77, p. 146.

Indianapolis & Eastern Ry.—Report.—The earnings for the calendar years 1903 and 1902 were:

Year. 1903 1902 	Gross. \$165,889 101,994	Net. \$33,749 45,953	Interest. \$37,493 19,583	Surplus. <b>\$46,256</b> 26,370	
---------------------------	--------------------------------	----------------------------	---------------------------------	---------------------------------------	--

International & Great Northern RR.-Bonds.-Applica-tion has been made to the Texas State Railroad Commission for anthority to issue \$445,000 bonds of the Houston Oak Lawn & Magnolia Park Ry. The latter line extends from Houston to Magnolia Park, 5½ miles, and, it is understood, will be developed as a terminal property.-V. 78, p. 48.

Lake Street Elevated RR.-Deposits.-An advertisement dated Dec. 28 gives the deposits under the plan as follows: Eighty per cent of the first mortgage bonds, 83 per cent of the income bonds and 90 per cent of the stock. These figures differ materially from those previously given (on the authority of a Chicago paper) as coming from the depositary.-V. 77, p. 2390.

Lake Superior & Ishpeming Ry.-Called Bonds.-A block of \$145,000 bonds, called for payment, was redeemable at the Farmers' Loan & Trust Co. on Jan. 1, reducing the amount drawing interest \$310,000.—V. 76, p. 1248.

Lebigh & New England RB.—Purchase of Minority Interest.—The Lehigh Coal & Navigation Co., it is understood, has purchased a minority interest in the stock of this compapy. The control remains as heretofore.-V. 77, p. 951.

Los Angeles By.-New General Manager.-Howard E. Huntington, son of Henry E. Huntington, has been ap-pointed General Manager of the company, vice J. A. Muir, deceased.-V. 75, p. 443.

Louisville & Nashville RR.-Earnings.-For the halfyear ending Dec. 31, partly estimated:

6 mos.— Gross. Net. Other inc. Oharges. 1903.....\$18,816,765 \$5,010,438 \$665,517 \$3,305,538 1902.....17,488,195 5,855,329 581,549 3,159,045 Balance. \$3,370,417 3,277,833

Dividends of 21/2 per cent call for \$1,500,000 during each of the six months, leaving surplus of \$1,870,417 in 1903, against \$1,777,833 in 1902.

Dividend on Stock Owned .- The dividend received on the \$5,500,500 Nashville Chattanooga & St. Louis stock owned at the yearly rate of 4 per cent, resumed again as noted below, will net the company \$220,020 annually, or about one-third of one per cent on the \$60,000,000 outstanding stock.-V. 78, p. 103.

Nashville Chattanooga & St. Louis Ry.—Dividends Re-sumed.—The directors on Jan. 12 declared a semi-annual dividend of 2 per cent on the capital stock, payable on and after Feb. 1 to holders of record Jan. 22. This dividend calls for \$200,000. For the five months ending Nov. 30, 1903, the company earned \$389,897 in excess of fixed charges, as against \$407,100 for the same period in 1902. Dividends were suspended in 1898; from 1895 to 1898 they were 4 p. c.

per annum. Listed.—The New York Stock Exchange has listed \$154,000 additional first consolidated mortgage 5s of 1923, making the total amount listed to date \$7,566,000. Of the additional issue, \$54,000 refund Tracy City branch bonds and \$100,000represent a 5-mile extension of the Bon Air Branch RR. The outstanding first consols (\$7,566,000) were issued as follows: for prior liens, \$2,250,000; for increasing original mortgage debt to \$20,000 per mile, \$2,197,000; for additional mileage. \$3,119,000. - V. 78, p. 103. Norfolk & Western Ry .- Listed .- The New York Stock Exchange has listed \$1,000,000 additional first consolidated mortgage 4 per cent bonds of 1996, making the total listed to date \$38,710,500. The additional bonds were issued for second track, including tunneling, for branches and extenslons, for yards, sidings and terminals, and for improvements, etc. The existing \$38,808,719 first consols were issued on account of the following:

1	STATEMENT OF ISSUANCE OF \$38,80	08,719 1ST CONSOL. MORTOAGE 48.
1	Incorporation\$23,322,500	Yards.sidings &terms \$1 996 605

K.—Dividend.—The "Chicago Inter-Ocean" on Jan. 13 said:

At the annual meeting yesterday the officers announced that the earnings had been only \$77,000 the last quarter. They urged that it was unwise to pay more than \$74,000 in dividends, which is at the rate of 14 per cent. After the meeting Judge Grosscup was asked to pass upon a recommendation of the directors that the quarterly divi-dend be reduced from 2 per cent to 14 per cent. -V. 77, p. 1875.

Philadelphia & West Chester Traction Co.-Bonds-The shareholders on Jan. 11 voted to authorize the making of a mortgage for \$1,000,000, to provide for the retirement of the existing 5 percents (\$400,000) to pay floating debt and for future extensions and improvements. This mortgage no doubt replaces the \$600,000 issue authorized a year ago, but not sold. Compare V. 76, p. 266.

Pittsburgh Cincinnati Chicago & St. Lonis Ry.—Listed. -The New York Stock Exchange has listed \$4,802,900 additional preferred stock and \$432,000 additional common stock, making the total amounts listed to date \$27,452,100 and \$24,-780,000, respectively, and has authorized the listing from time to time of \$47,900 additional preferred stock and \$220,-000 additional common stock when issued in exchange for stocks of old companies outstanding. The total amount of preferred shall not exceed \$37,500,000, and of common stock \$25,000,000. Of the new preferred stock \$4.750,000 was sold to pay "floating debt of about \$6,000,000 incurred during the last two years for betterments, consisting of real estate, second track, equipment, etc." Compare V. 77, p. 1747.

Rock Island Co.-Bonds.-See Chicago Rock Island & Pacific Ry. above.-V. 78, p. 104.

St. Louis Iron Mountain & Sonthern Ry.-Further Particulars.—Townsend Whelen & Co., Philadelphia, give the following information regarding the Iron Mountain Car Trust 5s, Series "N," to which allusion was made last week:

Trust os, Series " N," to which and show was made last week: Total issue, \$2,768,000, secured by lease to the St. Louis Iron Moun-tain & Southern Ry. Co. of rolling stock to the value of \$3,075,136. Of this issue \$1,000,000 has been sold to three prominent New York financial institutions and we offer for sale the balance, \$1,768,000, maturing \$196,000 or \$197,000 yearly on Sept. 1 from 1904 to 1912, both inclusive. Cartificates \$1,000 each. Interest payable at our office in Philadelphia, quarterly, March, June, September and Decem-ber 1st. The rolling stock is of the first grade, consisting of freight and passenger locomotives, passenger coaches and parlor cars, and oars for the transportation of grain. All of these are absolutely neosesary for the largely developing business and for the very large traffic which is expected during the Louisiana Purchase Exposition which is to be held in St. Louis next year. which is to be held in St. Louis next year.

These car trusts, it appears, were issued last June.-V. 78, p. 104, 49.

Seaboard Air Line Rallway.—Security for New Bonds.— The shareholders will vote Feb. 10 on authorizing the \$5,-000,000 bonds described last week. As security for these bonds it is proposed that a mortgage and collateral trust agreement shall be made to the Continental Trust Co. of the

agreement shall be made to the Continental Trust Co. of the City of New York, as trustee, constituting: (a) A lien upon the \$20,000,000 of first mortgage bondenow pledged with the Central Trust Co. to secure \$10,000,000 refunding collateral trust 5 per cent bonds, subject to the existing liens thereon. (b) A lien upon certain of the securities now pledged with the Morton Trust Co., under the agreement dated Dec 1, 1903, and sup-plements thereof, said agreements securing not to exceed \$2,500,000 of collateral notes due June 1, 1904, but subject to extension at com-pany's option till Dec. 1, 1904. (c) A lien upon certain of the securities now pledged with the Con-tinental Trust Co. of the City of New York, under an agreement dated Dec 31, 1903, covering temporary advances, subject to existing liens thereon (the notes secured by this pledge are to be paid off out of a portion of the proceeds of the new bonds, and this lien will then cease).

(d) A general mortgage upon all the property of the railway com-pany, real or personal, now owned or hereafter to be acquired other than securities specially excepted.  $-\nabla$ . 78, p. 104.

Southern Pacific Co.—Bonds.—This company, as already announced in the CHRONICLE (V. 77, p. 2160), made not long since a supplemental mortgage bringing under the lien of its 2-5-year  $4\frac{1}{2}$  p. c. gold bonds of 1900 various stocks and bonds and four ocean steamships. On account of this col-lateral the outstanding issue of the  $4\frac{1}{2}$ s was increased to \$29,-315,000, the greater part of the additional \$7,315,000 having been placed in Europe. A second supplemental mortgage has been recorded, covering a large amount of equipment, against which a further issue of the bonds is contemplated. The equipment was acquired by the company at a cost of \$7,219,849 and includes: In use on lines of Central Pac. Ry. Co., 49 locomotives, 25 cars in passenger service and 2310 cars in freight service; (b) also the following equipment now in use on the lines of the Southern Pacific RR. Co. : 91 locomotives, 43 cars in passenger service and 2789 cars in freight service. Against this equipment the company is authorized to issue \$5,775,000 of the 2-5-year  $4\frac{1}{2}$  p. c. bonds, making the total amount of said bonds issued or issuable at any time \$28,090,-000, the total authorized issue being limited absolutely to \$30,000,000.-V. 77, p.2160. Southern Ry.-Listed.-The New York Stock Exchange has listed \$2,000.000 additional first consolidated mortgage 5s of 1994, making the total listed to date \$39,208,000 and the total authorized to be listed under this and previous applications \$40,588,000. Of the new bonds \$1,580,000 are the balance of the \$2,000,000 issued during 1902 and \$420,000 are part of the \$2,000,000 issued during 1903. The remaining \$1,580,000 of bonds issued during 1908 are still owned by the

company. The \$2,000,000 bonds just listed were issued on account of the following expenditures, aggregating \$2,208,486:

\$781,793

510,898 206.408 ..... 481,567 New and additional equipment..... STATEMENT OF ISSUANCE OF THE \$39,209,000 FIRST CONSOLS OUT-STANDING.

.\$21,911,000 2,100,000 8,420,000 For purposes of reorganization ... Cincinnati Exten. bonds and Ala. Great South. Ry. stock. Construction, equipment and branch line securities. Redemption or acquisition of prior lien bonds. 3.891.000 2,886,000 Retirement of equipivent trusts.

Called Bonds.-Fifty (\$50,000) Richmond & Danville RR. equipment mortgage bonds dated Sept. 3, 1889, have been drawn, and will be paid with the coupons maturing March 1, 1904, on the 1st day of March, 1904, at par, at the Central Trust Co.-V. 77, p. 2340.

Toledo St. Louis & Western RR.-Elected -T. P. Shonts has been formally elected President and is now acting in that capacity.--V. 78, p. 49.

Trentou & New Branswick RR.—Bonds Offered.—A. N. Chandler & Co. of Philadelphia are offering the small unsold balance of the \$750,000 bonds outstanding at 98 and interest. -V. 76, p. 867.

Union Pacific RR.—New General Manager.—Wm. H. Bancroft, recently Vice-President and General Manager of the Oregon Short Line, his been made General Manager of the Union Pacific. -V. 78, p. 104.

Vera Cruz & Pacific RR.-Loan on Company's Securities. At Baltimore, on Jan. 8. Judge Dobler in Circuit Court No. 2, announced that he would authorize Allan McLane, receiver of the Maryland Trust Co., to borrow not exceeding \$2,000,000 on the securities of the railroad company, to complete the construction and equipment of the road and to meet any loss in operating pending the completion of the line. his petition Mr. McLane asked permission to borrow \$1,500,-Colonel Talcott estimated the amount necessary as about 000. \$855.000 and Captain Pegram placed the amount at about \$1,000,000. To cover all possible contingencies, however, it was finally agreed to increase the limit to \$2,000,0(0. All the securities of the road are held by the trust company and constitute its most important asset, no less than \$6,224,528 of its \$7,398,077 loans having been made to further the enterprise. See V. 77, p. 2391, 1534.

Waterloo & Cedar Falis Rapid Transit Co.-Bonds Of-fered.-The First National Bank of Chicago is offering at par and interest \$75,000 of the company's authorized issue of \$800,000 first mortgage 5 per cent gold bonds, dated Oct. 1, 1902. The company, it is stated, "operates in close connec-tion with the Chicago Great Western system under long time contract extending beyond the life of the bonds. This contract insures permanent and steady business in addition to the local traffic pertaining to the company itself."

#### INDUSTBIAL, GAS AND MISCELLANEOUS.

American Beet Sugar Co.—Stock Ownership.—See American Sugar Refining Co. below.-V. 76, p. 812.

American Car & Foundry Co.-Reduction in Wages.-The company has reduced the wages of its men 10 per cent. General Manager W. J. McBride says :

During the past three years business has been good and the wages of the employees have been raised 25 to  $33_3$  per cent. The re-duction will be only temporary. When business revives the old wages will be restored. The officers of the company have voluntarily ac-cepted a temporary reduction in wages also.—V. 78, p. 104.

American DeForest Wireless Telegraph.—Consolida-tion.—Negotiations have been completed by which the own-ership of the control of "more than 100" wireless telegraph patents owned by the DeForest Wireless Telegraph Co. (parent company) (V. 76, p. 215), the International Wireless Telegraph Co. (see V. 76, p. 1304) and the Greater New York Security Co. will be acquired by the American DeForest Wireless Telegraph Co. The International Co., it is stated, has nine land stations located from Quogue, L. I., to Washington, D. C.

The American DeForest Wireless Company, in order to merge the other companies, will increase its common stock from \$7,000,000 to \$11,500,000 and its preferred stock from \$500,000 to \$3,500,000. The preferred shares are "7 p. c. cumulative and participating." Par value of all shares \$10.

cerns would, on the above basis, require \$15,000,000 of new common, the issue of which is by the plan limited to \$11,500,000, including \$2,-100,000 to be held in the treasury. Those in interest fail to explain the discrepancy.

The shareholders of the constituent companies will also have the right for thirty days to subscribe for a certain amount of the preferred stock at \$8 a share, a bonns of 100 p. c. in common stock to be given with the preferred.

"In addition to the patents, rights, stations and contracts, the American DeForest Wireless Telegraph Co. will have in its treasury \$750,000 of preferred stock and \$2,100,000 of com-mon stock, which can be used in securing additional funds for the extension of the business. Also \$700,000 of the stock of the Canadian DeForest Wireless Telegraph Co., and will own a large interest in the foreign subsidiary companies now in course of formation or that may hereafter be organized."

The Greater New York Security Co., 100 Broadway, New York, has the consolidation in charge.-V. 78, p. 104.

American-Hawailan Steamship Co.—Called Bonds.— Seventy-seven (\$77,000) 6 p. c. 15-year gold bonds, Series "B," dated Feb. 1, 1901, drawn for redemption, will be paid at the Colonial Trust Co., this city, on and after Feb. 1, 1904, at 105 and interest. Quarterly dividends at the rate of 6 per cent per annum have been paid since January, 1902. The authorized issue of capital stock is \$3,500,000; outstanding, \$2,875,000; par value of shares, \$100. The company has a considerable surplus, and with the above-mentioned payment will have reduced its bonded debt from \$2,300,000 to \$2,034,000.-V. 76, p. 655.

American Ice Co.-New Committee.-Position of Bonds. -A committee consisting of John Greenough and C. I. Hudson of this city, and John J. Bright of Boston, has sent out circulars asking for proxies to be used at the annual meeting on March 8 to elect a new management. The board of directors, by circular, opposes this new committee and John A. Sliecher, Chairman of the stockholders' committee appointed at the last annual meeting to investigate the company's affairs, also expresses disapproval of its action. President John D. Schoonmaker says:

**Freshent John D.** Schoonmaker says: **Mr.** Greenough was one of the gentlemen associated with Mr. Morse in the organization of the American Ice Co. I do not know that he has any connection with Mr. Morse now and I am inclined to believe that he is seeking control of the company rather in his own interests, for he claims that the American Ice Co. is responsible for \$250,000 of bonds of the Maryland Ice Co., a claim which we distinctly repudiate. At the time the Maryland company was sold by Mr. Greenough to the Knickerbocker, or to the people who sold it to the Knickerbocker, there was a bonded debt of \$250,000 on the plant. Those who know all about the transaction insist that at no time did the Knickerbocker or the American Ice Co. [into which the Knickerbocker was consolidated] guarantee these bonds. The property was taken over as an individual might take over a piece of real estate, subject to a mortgage, without giving a bond to pay the mortgage. The Greenough Committee says that the present board of

The Greenough Committee says that the present board of directors "is made up exclusively of employees, every one of whom, perhaps with one exception, receives a salary."-See V. 77, p. 2337.

American Sugar Refining Co.—Annual Meeting.—At the annual meeting on Wednesday President H. O. Havemeyer read a report saying in substance:

A year ago I report saying in Substance: A year ago I reported to the stockholders that the average price at which refined had been sold during the year was 4.55c. per pound and that this included 1.81c. a pound to the Government, thus reduc-ing the set price to 2.74c. per pound, as against a net price which in 1877, at the time of the formation of the Sugar Refineries Co., was 3.50c. a pound. With slight modifications the statement can be re-peated for this meeting. The average price of refined during the year has been 4.64c. a pound, including 1.81c. a pound to the Government, making net price 2.83c. We have at the present time 13.000 stockholders. Any information

making net price 2.830. We have at the present time 13,000 stockholders. Any information about the company's affairs which they as a body ask for, the directors will at all times be prepared to furnish. Up to the present time the stockholders have determined that special information shall not be given to individual stockholders. The directors have conformed to this. They will continue to do so unless instructed differently by the stockholders. The dividend for the past year has been continued at the 7 p.c. rate, any surplus of earnings or accumulated profits being reserved as working capital. The stockholders have heretofore approved this. They are asked to do so at this time.

The stockholders adopted several formal resolutions, including the ratification of the following resolution of the board of directors: "Resolved, That the accumulated profits, less dividends, which have been declared up to this time, including the dividends of Jan. 2, 1904, be reserved as working capital, less such amount as the directors shall see fit from time to time to declare as dividends."-V. 77, p. 2341.

Beet Sugar Interests.—The report that this company has secured the control of the American Beet Sugar Co. is again denied by R. Fulton Cutting and others. The "Journal of Commerce and Commercial Bulletin" says:

The basis of exchange is as follows:

			Ana is ex	cn. for
	Present	Pay	New	New
Each \$10 share of-	amount.	cash.	com.	pref.
American DeForest pref	. (\$500,000)	Nil	\$10	\$10
do do common,	. (\$4,500,000)	NII	10	
International stock	(\$7,000,000x)	Nil	10	
DeForest Wireless-				
Special treasury shares	000 000 5 5	5 Nil	10	10
Other shares	5 3,000,000	2 \$1	10	

x "The remaining \$500,000 International stock has been obtained by the President of the American DeForest Co. and will be canceled by him without any cost whatever to the said company, for the pur-pose of carrying out this consolidation on the plan of capitalization described herein."

Note.-The amounts of the old issues are here given as stated in the plan, but apparently either the entire stock of the two DeForest complan, but apparently there the entire stock of the two Der breat some panies is not outstanding (the International shares, it is known, have all been issued) or one of the two companies holds a large amount of the other company's stock. This appears from the fact that the exchange of all the \$15,000,000 stock of the three constituent con-

It is neverthelees the belief of a large number of well-informed per-sons in Wall Street, and the sugar trade as well, that the American Beet Sugar Co. has ceased to be a genuine rival of the cane sugar trust. It has been persistently reported that either the American Sugar Refining Co. as a corporation or leading interests in that company have obtained a substantial block of American Beet Sugar stock, though possibly not an actual majority. One estimate was put out yesterday to the effect that the American Sugar Refining Co. held about one-quarter interest in the beet sugar trust.—V. 77, p. 2341.

American Water Works & Guarantee Co., Pittsburgh. – Guaranteed Bonds. – See Huntington (W. Va.) Water Works Co., Granite City Madison & Venice Water Co., New Phila-delphia Water Co. and Racine Water Co. below. At last accounts, 1897, the American Company had \$1,000,000 of cap-ital stack authorized and poid in W 75 n 020 ital stock anthorized and paid in.-V. 76, p. 920.

Arkansas Valley Town & Land Co.-Sale - A majority of the \$125,000 stock has been sold at \$15 per \$25 share, and the Kansas National Bank of Wichita, Kan., will purchase at the same price all the minority stock offered on or before

March 1, 1904. Certificates can also be deposited for collection with the Boston Safe Deposit & Trust Co., 87 Milk St., Boston, Mass. Dividends of from 2 to 4 p. c. yearly have been paid in recent years, partly in liquidation. Lands were on the line of the Atchison RR.

Asphalt Co. of America. - Distribution. - The Land Title & Trust Co. of Philadelphia is paying to the registered holders of collateral gold certificates which have not been deposited with the receiver the following amounts, being the pro rata amounts to which the same are entitled under the decree

..\$52.0098 32.8772

Total..... -----\$84.8870

This distribution, possibly the last, makes the amount paid on each \$1,000 certificate \$195 82, the previous distribution having been as follows:

Atlantic Flour Mills, Philadelphia.-Sale.-This com-pany's plant at Delaware Ave. and Beach St., Philadelphia, was purchased at sheriff's sale on Jan. 4 by Richard C. Dale for \$150. The amount due on the mortgage was \$419,350.-V. 77, p. 2392.

Atlas Tack Corporation.—Distribution to Bondholders.-From the proceeds of the foreclosure sale the bondholders have recently received a second dividend of about 25 p. c. on account of the principal of their bonds, making the total amount paid to date approximately 50 p. c. A small additional distribution, it is thought, may be made later on .-**V**. 77, p. 629,

Bay State Gas Co. of Delaware.—Suit.—Receiver George Wharton Pepper on Jan. 11 brought suit in the United States Circuit Court at Philadelphia against J. Edward Addicks for alleged misapplication of funds of the company to a large aggregate since April 11, 1890.

Decision.-Judge Lacombe, in the United States Circuit Court, has granted to Edward Cooper, surviving partner of Cooper & Hewitt, a judgment against the company for \$135,000, being the remainder due on the purchase price of \$160,000 for the capital stock of the Trenton Water Power Co. (Compare V. 76, p. 812.)—V. 77, p. 2341, 771.

Chicago Bailway Terminal Elevator Co.—Bonds.—North cote, Dudley & Maitland, 307 Monadnock Block, Chicago, announce that having sold substantially all of the holdings of their foreign clients, they now invite offerings of these bonds from holders in the United States.-V. 77, p. 2100.

Cincinnati Gas & Electric Co.—*Earnings.*—The net earn-ings for October and November in 1908, it is stated, were \$16,488 and \$26,000, respectively, in excess of those for 1902. The total output of gas for the first half of December increased 10.966,000 cubic feet as compared with the same period of 1902; on Dec. 17 there were 417,785 incandescent lamps in use, as against 344,776 in December, 1902, being an increase of 21 p. c. Plans have recently been under consideration for the lease of coal lands sufficient to supply the fuel needed for a considerable number of years.-V. 77, p. 1296.

Colorado Fael & Iron Co.—Meeting Again Adjourned.-The shareholders' meeting has been postponed until Feb. 1.

Time Extended.—The time for deposits under the plan has

been extended to Jan. 23, inclusive. Listed.—The New York Stock Exchange has listed \$11,026,-000 Continental Trust Co. engraved certificates of deposit for 5 p. c. 10-year convertible debenture bonds of 1911, this being the amount thus far deposited under the plan, and has authorized the listing from time to time of additional certificates of deposit up to \$14,068,000, on official notification of the deposit of further debenture bonds .--- V. 78, p. 50.

Columbus (0.) Iron & Steel Co.-New Stock.-The company has increased its capital stock from \$750,000 to \$1,000,-000.-V. 76, p. 544.

De Forest Wireless Telegraph Co.-Consolidation.-See American De Forest Wireless Telegraph Co. above.-V. 76, p. 215.

contract granted in 1871 was originally for 50 years, but has been extended to 1934 by action of the Mayor and Common Council. There are two holders, with a capacity of 91,000 feet, both in good condi-tion, with brick buildings for office and manufacturing purposes. In 1898 the company sold 25,222,500 feet of gas and in 1903 it sold 40,000,000 feet. The company has 25 miles of mains, nearly 2,000 customers, and has installed 1,921 meters and 950 stoves. This service will be largely increased by extensions of mains and additions and modern improvements. President, Hon. William Alden Smith of Grand Rapids. Mich.; Treasurer and General Superintendent, George T. Murdock. Earnings for year ending July 1, 1903: Gross. \$51,222; operating expenses and taxes, \$31,129; net earnings, \$20,092; bond interest, \$12,500. For the fiscal year ending Dec. 31, 1903, it is esti-mated that the net earnings will amount to \$26,000, or more than double the interest charges. The company was recently incorporated as successor to the

The company was recently incorporated as successor to the Elkhart Gas Light & Coke Co., whose capital stock at last accounts was \$50,000.

Empire City Subway Co., New York.—New Stock.—This company, controlled by the New York Telephone Co., has filed a certificate of an increase of capital stock from \$2,750,-000 to \$3,500,000.—Compare V. 76, p. 268.

Faultless Bubber Co., Akron, Ohio.—Further Facts.— The stock is all of one class; par value of shares, \$100; authorized issue, \$325,000; outstanding, \$300,000; no bonds or mortgage. The company manufactures rubber special-ties. See V. 78, p. 105.

Federal Telephone Co.—Sale of Stocks Owned.—This company has recently sold its controlling interest in the Lima (Ohio) Telephone & Telegraph Co., whose capitaliza-tion is said to consist of \$150,000 common stock and \$75,000 preferred stock and \$118,000 5-p.-c. bonds.

Late in 1903 the company sold to Mansfield (Ohio) parties a part of its holdings in the Mansfield Telephone Co. The last-named company bad outstanding at last accounts \$800,000 capital stock and \$200,000 bonds, and was supplying telephone service to 1,075 exchange-line subscribers and 500 farm-line subscribers.--V. 77, p. 1296.

Granite City, Madison & Venice Water Co., Madison County, Ill.-Guaranteed Bonds.-The Colonial Trust Co. of Pittsburgh is offering at par and interest a small amount of the first mortgage gold 5s due March 1, 1931, "guaranteed by the American Water Works & Guarantee Co." of Pittsburgh. Coupons payable March 1 and Sept. 1. Company organized in 1892, and present name adopted in 1894. Capital stock authorized at last accounts (1897), \$500,000.

Hartford City Gas Light Co.—Change of Control.—See Hartford Gas Securities Co. below.—V. 77, p. 2161.

Hartford Gas Securities Co.-New Company.-This company has recently been organized under the laws of the State of Connecticut, with powers to hold the 30,000 shares, par value \$25 each of the Hartford City Gas Light Co., the con-trol of the latter company having recently been acquired by Messrs. Bertron & Storrs and Strong, Sturgis & Co. of this city. It is stated that over 80 p. c. of the Hartford City Gas Light Company's stock has passed into the hands of the holding company (compare V. 77, p. 2161). The capitaliza-

p. 2163).

Hudson River Electric Power Co.—New Subsidiary En-terprise.—This company was incorporated in Albany on December 27, with \$1,000,000 authorized capital stock, in the interest of the Hudson River Water Power Co. (V. 78, p. 106). No one interested is prepared to discuss the company's plans, but they they are said to include a dam across the Hudson River at Gay's Falls (5 miles above Glens Falls), in order to supply Glens Falls, Sandy Hill and Fort Edward with light, heat and power.

Mortgage.-A mortgage has been made to the Knickerbocker Trust Co. of New York, as trustee, to secure \$5,000,-000 of \$1,000 5 per cent 40-year gold coupon bonds.

Hudson River Water Power Co.—New Subsidiary.—See Hudson River Electric Power Co. above.—V. 78, p. 106.

Huntington (West Va.) Water Works Co.—Guaranteed Bonds.—The Colonial Trust Co. of Pittsburgh is offering at par and interest a small lot of first mortgage gold 5s due Nov. 1, 1940, "guaranteed by the American Water Works & Guarantee Co." of Pittsburgh, which owns control; coupons rayable May 1 and Nov. 1. The works were built in 1887.— V. 72, p. 143.

International Fire Engine Co.-Deposits.-Regarding the ceivership, Sullivan & Cromwell, counsel to the reorganization committee. says:

Denver (Col.) Union Water Co.—New Reservoir—Bonds.— The new reservoir recently completed, and which will supply the city of Denver with water, we understand is owned by a constituent company which is controlled by the Denver Union Water Co. The reservoir is some ten miles long and has a capacity of 35,000,000,000 gallons. It is about 45 miles distant from Denver. The whole cost of the work has been about \$2,000,000, and the money has been provided locally, Mr. D. H. Moffat being largely interested. A bond issue for \$2,000,000 is proposed, -V, 78, p, 104.

Elkhart (Ind.) Gas Co.-Bonds Offered.-George A. Fer-nald & Co., Boston, are offering at par and interest this company's \$250,000 first mortgage gold 5 p. c. bonds, dated Jan., 1904, due Jan., 1924: interest payable at American Loan & Trust Co., trustee, Boston, Capital stock authorized, \$800,-000. A circular says:

This plant was established in 1871 by the business men of Elkhart and has been in successful operation since that time. An exclusive

The stockholders/have entered into a plan of reorganization intended to provide the amount necessary to pay all creditors, but owing to the importunity of certain creditors it was found necessary

The plan of reorganization has been declared effective and has been approved by over 80 per cent of the preferred stockholders and 68 per cent of the common stockholders The appointment of the receivers will in no way retard the plan. The committee is preparing to make its first call for the cash subscriptions.

Mr. Clarke, one of the receivers, is and has been the President of the company since last August and has the confidence of the stockholders and creditors alike. Mr. Kimball is a resident of Summit, N. J., and is well known in business and financial circles, but has had no previous identification with the company.—V. 78, p. 106.

International Heater Co., Utica, N. Y.-New Stock.-The new stock referred to last week is "issuable for debts at par, and when issued the company will be practically without any liabilities." There is no bond issue or mortgage.-V. 78, p. 106.

International Power Vehicle Co.-Bonds.-This company was incorporated under the laws of West Virginia May S, 1899, for the purpose of manufacturing and selling the International Kerosene Oil Engine. Until recently the company has not entered extensively upon the manufacture of vehicles, but this branch is now being developed. One of the company's delivery wagons of ordinary size, it is claimed, can be run at a total cost of thirty cents a day. The company's capital stock of \$5,600,000 (in \$100 shares) was issued in payment for patents and for working capital. The \$250,000 bonds anthorized some months ago were never issued, and a proposition has recently been made to float instead \$150,000 of gold 5 per cents secured by a new mortgage to the Eastern Trust Co. of New York, as trustee. A prospectus regarding the issue first proposed said:

The only lien upon the property consists of a real property mort-rage for \$11,000, which will be paid and canceled. The present facilities of the plant, which is at Stamford, Conn., are adequate for an output of twenty-five engines per week, which net an average profit of \$100 each. By the expenditure of a moderate amount the output can be doubled. Directors: W. P. Hatch (President), Stamford, Coun.; J. H. Jarman (lat Vice-President), Hartford, Conn.; Theo-dore H. Goodrich (2d Vice-President), Hartford, Conn.; C. W. Hatch (Secretary), Stamford, Conn.; James W. Chency, South Manchester, Conn : Ohas. E. Thompson, Hartford, Conn.; C. O. Isbell, Manager Sales Dept., Stamford, Conn.

Lincoln Trust Co.-See Lincoln Trust Co., St. Louis, below.

Lincoln Trust Co., St. Louis .- The bond offering mentioned last week was made by this company, and not by the New York company of similar name.-V. 78, p. 106.

Mansfield Telepone Co.—See Federal Telephone Co. above.

Mattoon (III.) Clear Water Co.-Status.-George A. Fernald & Co., Boston, who are offering \$18,000 of the refunding first mortgage gold 5s at 103 and interest, say :

hrst Mortgage gold bs at 103 and interest, say : Bonds dated Feb., 1903; due Feb., 1923; semi-annual interest pay-able at American Loan & Trust Co., Boston, trustee. Amount author-ized, \$125,000, of which \$100,000 is now issued to refund \$80,000 bonds now maturing and to provide for betterments, etc. The remain-ing \$25,000 bonds authorized can only be issued for extensions and additions at the rate of 85 p. c. of the actual cash cost of the new con-struction. The franchise and the contract for hydrants have just been renewed for 20 years. Earnings for calendar year 1902; Gross in-come. \$16,966; expenses, \$7,269; net income, \$9,697; bond interest. etc., \$4,159; surplus, \$5,538. The cost of the plant is shown by the company's books to have been \$174,161. For eighteen years the com-pany has demonstrated its ability to earn a surplus over and above its fixed charges, with constantly increasing earnings. Monongahela Water Co., Pittsburgh.-New Stock.-The

Monongahela Water Co., Pittsburgh.—New Stock.—The shareholders voted on Jan. 5 to increase the capital stock from \$2,300,000 to \$2,600,000, to provide for extensions and additions. The company supplies the South Side wards of Pittsburgh and suburbs.-V. 77, p. 1877.

National Asphalt Co.-Distribution.-See Asphalt Co. of America above.-V. 77, p. 2393.

New London (Conn.) Gas & Electric Co.-Bonds Offered.-Flint, Jones & Co., New York, are offering at 102 and interest \$140,000 first consolidated and refunding mortgage 5 p. c. gold bonds dated July 1, 1903, and due July 1, 1933, without option of prior redemption; Colonial Trust Co., New York, trustee; denominations, \$500 and \$1,000 each; interest payable Jan. 1st and July 1st in New York City. The com-pany's capital stood is \$300,000. President Robert Colt, under date of Dec. 7, says in substance:

pany's capital stood is \$300,000. President Robert Coit, under date of Dec. 7, says in substance: This company was formed in March, 1897, by the merging of the electric and gas interests of the City of New London. The company owns a valuable piece of real estate in the heart of New London, which is admirably adapted for rail and tide-water deliveries, and the plant has now been brought to the highest possible point of efficiency. The mortgage provides for the issue of first consolidated and refund-ing mortgage bonds, aggregating \$750,000; of which \$650,000 are for \$1,000 each and \$100,000 for \$500 each. Of these bonds, \$140,-000 are now sold to pay for certain extensions, improvements and betterments made during the last eighteen months; \$450,000 bonds are to be retained by the trustee to retire the bonds now out-standing, amounting to \$425,000. The balance, \$160,000 bonds, are to be retained by the trustee to be delivered from time to time only for extensions and additions, or in payment of obligations incurred by leases, purchases or consolidation. They can only be delivered to an amount equal at par value to the actual amount expended. The franchises are perpetual, very broad in their powers, and with-out restriction. New London has an estimated population of more than 20,000, and showed an increase of over 40 p. c. in population (according to the Census) from 1890 to 1900. The company's earnings for the present year are at the rate of about \$20,000 above all operat-ing expenses being almost 1% times the interest on the total bonds electric plant from the new installations which have just been com-pleted. The business, moreover, is growing very rapidry, the gas busi-ness showing an increase of about 40 p. c. Over the same period of the electric plant from the new installations which have just been com-pleted. The business, moreover, is growing very rapidry, the gas busi-ness showing an increase of about 40 p. c. Over the same period of the previous year and the electric business about 30 p. c. The T

The outstanding bonds, amounting to \$425,000, are being exchanged for the new bonds.-V. 78, p. 976.

New Philadelphia (0.) Water Co.-Guaranteed Bonds.-The Colonial Trust Co. of Pittsburgh is offering at par and interest a small lot of the first mortgage gold 5s due June 1, 1931, "gueranted by the American Water Works & Guar-antee Co" of Pittsburgh, which owns control. Coupons June 1 and Dec. 1. The company built its works in 1886.

Pacific Steel Co.-Receiver.-This company has been placed in receiver's hands by the Federal Court at Tacoma. Wash., on application of the First National Bank of Seattle, a creditor to the amount of \$23,000. There are said to be ontstanding \$700,000 of the \$1,000,000 stock and \$200,000 of the \$500,000 first mortgage 6s. President Homer H, Swayne-was lost in the recent wreck of the steamer Clallam. See V. 78, p. 295; V. 72, p. 343.

Peavey Steamship Co.-Bonds.-The First National Bank of Chicago is offering at 101 and interest \$40,000 of the first mortgage 5 per cent bonds, datel Aug. 15, 1901, due serially in 1909 to 1921; interest payable Feb. and Aug. 15 in Chicago. An advertisement says :

Secured by first mortgage on the boats of the Peavey Steamship Co., costing about 50 per cent more than the bonded indebtedness on each boat. Statement for the year 1902: Gross earnings, \$464.257; operating expenses, \$289.985; other income, \$501; net earnings, \$174,773; fixed charges, etc., \$52,542; net profits available for divi-dends, \$122,231.

Pennsylvania Fael Supply Co.—Consolidation Approved. The proposed consolidation was ratified on Dec. 23. It is said that the combined company will have \$1,000,000 of anthorized capital stock. The properties supply gas to Emlenton, Edenburg, Foxburg, Parker, St. Petersburg, New Bethlehem, Fairmont, Oakridge, and some smaller places. Office, Emlenton, Pa.-V. 77, p. 2283.

Pittsburgh Coal Co.-New Bonds.-President Francis L. Robbins on Jan. 12 gave out a statement saying: "By unanimous vote of the directors this afternoon the company was financed by a contract with the Union Trust Co. of Pitts-burgh for the purchase and sale of \$25,000,000 50-year 5 per cent bonds, to be used as required for indebtedness and working capital." This issue, we learn, consists of first mortgage and collateral trust 50-year gold bonds, free of State tax in Pennsylvania, dated Jan. 1, 1904, and due Jan. 1, 1954, but subject to call after one year at 110 on any Jan. 1st. These bonds will have a sinking fund of 5 cents a ton on run-of-mine coal, with a yearly minimum of \$600,000 to be paid to the trustees. Their interest dates are Jan. 1 and July 1. They will be used to fund the floating debt and to furnish additional working capital. The issue is authoritatively stated to be an absolute first mortgage on 160,000

acres of coal lands and appurtenances and a collateral trust on all other securities held by the company. Scrip Dividend.—The directors on Tuesday also declared a quarterly dividend of 1<sup>3</sup>/<sub>4</sub> per cent on the preferred stock from the earnings of the company, payable in 6 per cent in-terest-bearing dividend scrip, payable Jan. 25th, 1905, or at any time previous at the company's option. The dividend any time previons, at the company's option. The dividend will be mailed by the Treasurer on Jan. 25, 1904, to all stockholders of record on Jan. 14, 1904.-V. 77, p. 2399.

**Power & Mining Machinery Co.**—Consolidation.—The Holthoff Machinery Co. was incorporated in Wisconsin, Oct. 19, 1901, with \$600,000 of authorized capital stock and erected a plant at Cudahy, a suburb of Milwaukee, Wis. Recently the company merged into itself the Loomis-Pettibone Gas Machinery Co., changed its name as above, and increased its capital stock to \$2,500,000 in shares of \$100 each (\$1,000,000 being 8 p. c. cumulative preferred), of which \$2,300,000 (full paid) is outstanding. The remaining \$200,000 (pref.) stock will be taken up for each by Mr Guggenheim as soon as further funds are required for the business of the company. The following announcement is made:

Benjamin Guggenheim of New York, a member of the well-known firm of M. Guggenheim's Sons, having acquired a controlling interest in this company, the Holthoff Machinery Co. has now been merged with the Loomis-Pettibone Gas Machinery Oo. under the new corpo-rate name of the Power & Mining Machinery Co., of which Mr. Gug-genheim is the President. We are maying extensive improvements to one Miller and the set of the power of the power to be a set of the power of the pow

gennem is the Freshent. We are making extensive improvements to our Milwaukee plant to meet the increasing demand for the American Crossley gas engines. Loomis-Pettibone gas apparatus and Holthoff mining machinery, We shall continue, under Mr. Holthoff's personal supervision, the manufacture of mining, smelting and milling plants and machinery. Berjamin Guggenheim is President; Cyrus Robinson, H. C. Holthoff and Burdett Loomis Jr., Vice-Presidents; B. T. Leuzarder, Secretary; Leon P. Feustman, Treasurer; Hawley Pettibone, Consulting En-gineer. gineer.

The firm named reports the gross earnings and the surplus over operating expenses and interest charges (including the bonds just (ffered) as follows, for four years ending Mar. 31 and for the seven months ending Oct. 31, 1903:

Year.	<i>Year.</i>	Year.	Year.	7 months
1899-00.	1900-01.	1901-02.	1902-08.	1903.
Gross\$65,902	<b>\$74,2</b> 70	\$87,859	\$107,860	\$68,193
Surplus 3,062	9,968	17,045	16,842	11,596
Surpius	0,000	17,040	10,044	11,990

Note.—The earnings in the year ending March 31, 1903, would have shown an ample increase over 1902, but that year the company dis-carded some old machinery, replacing it with new, charging to its operatings xpense about \$4,000.

The Holthoff Co. in August last, before the merger, made a mortgage to the Citizens' Trust Co. of Milwaukee, as trustee, to secure \$213,000 bonds. The Loomis-Pattibone Co. was incorporated in New Jersey last spring with \$2,000,-000 of authorized stock, Burdette Loomis of Hartford and Hawley Pettibone of New Rochelle being incorporators. Outside of the aforesaid bonds of the original Holthoff Company, the consolidated company "has no other bonds or mortgage and is using its own funds entirely." The Holthoff bonds are 5 per cents, dated July 1, 1903, and due July 1, 1913, but subject to call on any interest day; interest due semi-annually July 1 and Jan. 1. New York office, 52 William St.

Racine (Wis.) Water Co.-Guaranteed Bonds.-The Colonial Trust Co. of Pittsburgh is offering at par and interest a small block of the first mortgage gold 5s due Nov. 1, 1981, "guaranteed by the American Water Works & Guarantee Co." Coupons May 1 and Nov. 1. The Recine Company built its works in 1886-87.

San Francisco Gas & Electric Co.—Description of Bonds.— The \$10,000,000 of 41% p. c. gold bonds secured by the mortgage of Nov. 1, 1903, to the Union Trust Co. of San Francisco are for \$1,000 each and are numbered consecutively from 1 to 10,000, interest payable May 1 and Nov. 1. The issue is due Nov. 1, 1938, but bonds numbered from 1 to 4,000, inclusive, are subject to call for payment on Nov. 1 of each year, be-ginning Nov. 1, 1906, at 105, at the rate of \$100,000 bonds yearly; the bonds to be paid are to be drawn by lot and their numbers advertised in San Francisco. Bonds numbered from 4001 to 10,000 are not subject to call. Compare V. 77, p. 2287, 2103, 1877, 1536.

Saxton (Pa.) Furnace Co.—Receivership.—Judge Wood at Lewistown, Pa., on Dec. 12, appointed General Manager William Lauder and President Charles H. Scott receivers of this property, which includes blast-furnaces, with an annual capacity of 90,000 gross tons of pig iron daily at Saxton, Pa., ore and coal mines in Bedford and Huntingdon counties and the Valley Iron Mills at Coatesville with an annual capacity of 10,000 tons of plates. The company's cap-ital stock was increased in December, 1902, from \$450,000 to \$650,000 for the purchase of the last-named property from the Coatesville Iron & Steel Co. Main office, Manhattan Building, Philadelphia.

South Atlantic Car & Manufacturing Co., Waycross, Ga. First Dividend.—This company, which was organized last March under the laws of Georgia, with \$500,000 of authorized capital stock (\$497,000 full paid), and whose new plant was put in operation during the summer, recently declared a dividend of 4 per cent. The factory has a capacity of from six to ten freight cars a day, and is turning out 500 cars for the Mexican National RR., and has an order for 200 cars from the Atlantic & Birmingham. The stock is all of one class; par value of shares, \$100. No bonds. The divi-dend will be paid on Feb. 1, but it is not for any specified time, no definite periods for paying <sup>s</sup>dividends having been arranged. Directors:

George Dole Wadley, President; W. A. Price, Vice-President; F. H. McGee, Second Vice-President, and Wm. G. Raoul, Secretary and Treasurer; George W. Deen, C. M. Sweat and J. E. Wadley.

Standard Rope & Twine Co.—Meeting Adjourned.—The annual meeting, already several times adjourned for want of a quorum, was further adjourned on Jan. 8 until Wednesday, April 6. A resolution was also adopted requesting the officials to ascertain if it is not possible to have the meeting held at No. 17 State St., New York City, instead of at Elizabeth, N. J.

New Director.-G. W. Montgomery, of Montgomery & Co., has been elected a director to succeed Senator Kean as representative of the first mortgage bondholders.-V. 77, p. 2894.

Stillwell-Bierce & Smith-Vaile Co., Dayton, O.-Bank-rupt.-The United States District Court at Cincinnati on Jan. 14, on the application of three creditors, adjudged this company, a large manufacturer of machinery, an involuntary bankrupt.-V. 74, p. 684.

Swift & Co.-New Stock.-The shareholders on Jan, 7 approved the propositions to increase the stock from \$25,000,000 to \$35,000,000, and to purchase various retail market com-panies and transportation lines handling Swift products. The entire \$10,000,000 new stock will be issued Feb. 8, stockholders of record Jan. 16 having the privilege of subscribing and paying for new stock at par before Feb. 8 in the proportion of two shares for each five now held. An underwriting syndicate has been formed among the directors to take all the stock not subscribed for. The circular regard-ing the new stock issue and the properties to be purchased was cited in V. 77, p. 2287. Swift & Co. will presumably assume the obligations of the merged properties, including the \$900,000 car trust 4½ s of the Swift Refrigerator Co. (see V. 74, p. 991, 941). The old officers and directors were reelected, the directors being :

Edwin C. Swift of Boston, Mass.; Louis F. Swift of Chicago, Du-mont Clarke of New York, Laurence A. Carton of Chicago, John R. Redfield of Hartford, Conn.; Edward F. Swift of Chicago and E. Henry Barnes of New Haven, Conn.-V. 78, p. 50.

Union Carbide Co., Richmond, Va.—New Plant Com-pleted.—This company's new plant at Sault Ste. Marie, Mich., was put in operation on Dec. 28, the necessary power being obtained from the Michigan Lake Superior Power Co. (Consolidated Lake Superior Co. Compare Vol. 77, p. 194.) The plant, it is stated, covers about twenty acres of ground. The contract with the Power Company calls for the furnishing of ten thousand horse power at a rental of \$100,000 per annum, and for an additional ten thousand horse power later on for a further annual rental of \$100,000. The company was incorporated in Virginia in 1898, with \$6,000,000 authorized capital stock in shares of \$100 each. In 1900 a mortgage was made to secure \$2,000,000 fifty-year 6 per cent bonds, Central Trust Co., trustee. At auction on Dec. 16 thirty of the company's shares sold at \$25 each and \$2,000 of the 6 per cent herds? \$2,000 of the 6 per cent bonds for \$1,400. Compare Vol. 77, p. 1546. Union Oil Co., California.—*Pipe Line.*—This company re-cently completed and put in operation a 4-inch pipe line from its wells at Lompoc, Cal., to Santa Maria, connecting with the line leading from that place to tidewater at Port Harford. The company has several tank vessels in commission. An allied company, the Union Oil Co. of California, was incorporated in October last with \$5,000,000 of author-ized capital stock in shares of \$100 each. -V, 76, p. 1147.

United Gas & Electric Co. of New Jersey.-Guaranty.-See Hartford Gas Securities Co. above.-V. 77, p. 2163.

United States Realty & Construction Co.-New Control. At a meeting yesterday a number of the directors resigned. to give place to the representatives of the large stock holdings recently acquired by H. L. Black and associates. These holdings, at least in conjunction with the considerable interest represented by James Stillman, are said to constitute a majority of the entire share capital. The following resignations were announced yesterday :

Resigned Yesterday-Charles Francis Adams 2d; E. C. Converse, James H. Hyde, Charles F. Hoffman. Bradish Johnson, Augustus D. Juilliard, William H. McIntyre, James Speyer, Charles H. Tweed and Cornelius Vanderbilt. Resigned Recently-G. G. Haven, Hugh J. Grant and Henry Mor-

genthau.

Resignations Presented Last July. Not Yet Accepted-R. G. Bab-bage, Byron M. Fellows, Faulkner Hill and Morris B. Mead.

The remaining old directors are :

H. S. Black, Henry Budge, George C. Clark, Robert E. Dowling, Al-bert Flake, John W. Gates, Henry L. Higginson, S. P. McConnell, Kenneth K. McLaren, B. Aymar Sands, Charles M. Schwab, James Stillman and P. A. Valentine.

Mr. Black and Mr. Dowling issued a statement in which, after giving the resignations as above, they said :

The following men have been elected to fill vacancies : F. H. Ray, Edwin Hawley and H. E. Huntington. The other vacancies will shortly be filled by interests which will work in harmony with the balance of the board. It is the intention of the interests now in con-trol of the corporation to proceed with its business and develop its properties. The unfair and upjust criticism of the corporation's alleged connection with labor unions has already been refuted, and the present board has already taken steps to remedy any detects which existed. The corporation has great elements of strength and under an intelligent and harmonioss management will have a suc, cessful career.-V. 78, p. 101, 57.

United States Shipbuilding Co.-Insolvency Confessed.-Charles M. Schwab, who has heretofore been contesting the receivership, filed on Jan. 18 through his counsel, Mr. Guth-rie, a confession of the insolvency of the company and a prayer for a permanent receivership. Mr. Untermyer, representing the bondholders' protective committee, contends that the confession of insolvency does not terminate the action, which he asserts is based as much upon the charge of fraud against Charles M. Schwab and the directors as upon the appeal for a receivership.

Earnings of Steel Company .- See Bethlehem Steel Co. above.

Mr. Schwab's Testimony.-Charles M. Schwab, former President of the United States Steel Corporation, was quoted on Jan. 7 as making the following replies to questions put to him at the hearing before United States Examiner Oliphant :

him at the hearing before United States Examiner Oliphant: Q.--What proportion of United States Steel preferred and common which you owned at the time of its organization do you now own ? A.--I was the owner of more of the stock of the United States Steel Corporation three or four months ago than when the corporation was formed. I have recently sold some of the stock, but I think that the books of record will show that I am now the largest individual stock-holder of record of the United States Steel Corporation and have more than when it was organized. Q.--Have yon parted with any of the Shipbuilding stock you re-ceived ? A.--I have not parted with a single share received after the sale of the Bethlehem Company. Q.--How much stock did you receive? A.-Something more than \$1,000,000 of each kind of stock. Q.-How much of the bonds do you own? A.--Iown over \$9,250,000 at this time, I think; I can't be sure of it. I control the whole \$10,-000,000.--V. 7S, p. 51.

United States Steel Corporation.—*Employee's Option.*-The plan of issuing preferred stock to employees under the profit-sharing policy outlined about a year ago is still in force, and employees are subscribing for the second year on the same basis as the first year, except that the price fixed for the second year is \$55 a share. The price a year ago was \$82 50. About 27,000 employees subscribed at that time for nearly 50,000 shares. Compare V. 76, p. 51, and V. 77, p. 827.

Listed in London.-The London Stock Exchange has admitted to quotation the 10-60-year 5 per cent sinking fund [second mortgage] gold bonds. Mr. Schwob's Interest.—See United States Shipbuilding

Co. above.-V. 78, p. 108, 51.

Vincennes (Ind.) Light & Power Co.-Further Facts.-A circular gives the following information regarding the bonds offered by Edward M. Deane & Co., Grand Rapids, Mich., as stated last week:

The company is organized under the laws of Indiana to acquire the business, franchises and property of the Citizens' Gas Light Co. and the Vincennes Electric Light & Power Co. Financial Statement-Capital stock, \$200,000; bonds, 20-year first mortcage 5 p. c. gold bonds, dated Oct. 1, 1903, due Oct. 1, 1923, but subject to call at 105 and interest after Oct. 1, 1908; denomination, \$500; authorized issue, \$200,000, of which \$56,000 reserved for future extensions and betterments and \$150,000 issued for purchase, betterment and exten-sion of properties. Earnings of combined properties for the year ending Dec. 31, 1902; Gross, \$36,686; operating expenses, including maintenance, insurance and taxes, \$25,760; net earnings, \$10,926; interest on proposed issue of \$150,000 of bonds at 5 p. c., \$7,500; surplus, \$3,426. The present plants are inadequate, and extensive improvements and additions will be made which will greatly enlarge their capacity. It will probably require the remainder of the year 1903 to complete the improvements and extensions. For the year end-ing Oct. 1, 1905, it is estimated that the gross earnings will be \$60,000; net earnings, \$24,000; interest on bonds. \$7,500; balance, surplus, \$16,500. The company pays only \$1 90 per ton delivered for ocal for gas-making purposes and 50 cents to 75 cents per ton for steam ocal used in generating electricity. The company operates under very The company is organized under the laws of Indiana to acquire the used in generating electricity. The company operates under very favorable franchises—the gas franchise running for 30 years and that of the electric light and power plant for 25 years. It will be under the same management as the Albion Gas Light Co., whose earnings are already showing an increase of 38 p. c.—V. 78, p. 108.

## Reports and Documents.

#### CHICAGO ROCK ISLAND & PACIFIC RAILWAY COMPANY.

CIRCULAR TO THE STOCKHOLDERS IN RELATION TO A PROPOSED BOND ISSUE.

#### To Stockholders:

NEW YORK, January 14, 1904.

Since the issue of a call for a meeting of Stockholders for October 8, 1903 (since adjourned without action), your Board has given careful consideration to, and conferred with bankers and friends of the Company concerning, the character of the new bonds which under existing circumstances it would seem desirable, in the interest of the stockholders, to issue for the purpose of refunding existing obli-gations and maintaining and protecting the strong position of the Company and its properties.

The conclusion which we have reached is that, in lieu of the adoption of the plan formerly proposed, which contem-plated a refunding covering a period of eighty-five years, it is preferable now to restrict the refunding operations to the

requirements for the ensuing thirty years. It has also been thought advisable to limit the aggregate amount of the proposed issue to a sum which should make the new bonds available for investment under the New York savings bank laws.

The immediate purpose in providing for a bond issue now is the partial reimbursement of the treasury of the Company for expenditures recently made. There has been disbursed between January 1, 1901, and October 31, 1903:

For acquisition of new lines, shops and

equipment.....\$42,493,006 24

For retiring bonds and equipment notes. 2,013,000 00

-\$44,506,006 24 Estimated expenditures as of October 31, 1903, to com-

plete work under construction...... \$7,653,548 74

The Company has no floating debt; the following statement shows the current assets and liabilities as of October 31, 1903, (including those of the Choctaw Oklahoma & Gulf RR. Co., the Chicago Rock Island & Gulf Ry. Co. and the Chicago Rock Island & El Paso Ry. Co., all of whose capital stock, except directors' shares, is owned by your Company). The current assets and liabilities of the Burlington Cedar Rapids & Northern Ry. Co. and the Rock Island & Peoria Ry. Co. were merged with those of your Company on July 1, 1902; they also, therefore, are represented in the following statement:

#### ASSETS.

The general features of the proposed bond issue, as now contemplated, and which will be presented for your approval at the meeting called for March 21, 1904, are as follows: Total issue not to exceed \$163,000.000.

Date of maturity April 1, 1934, subject to redemption prior to April 1, 1911.

- \$25,900,000 Chicago Rock Island & Pacific Ry. Co. Gen oral Mortgage Fours, hereafter to be issued at a rate not exceeding \$1,000,000 per year, for additions, improvements and betterments to the property covered by the General Mortgage;
- \$8,405,000 Burlington Cedar Rapids &Northern Ry. Co. Consolidated Fives, hereafter to be issued for retiring-
  - (a) \$6,500,000 Burlington Cedar Rapids & Northern Ry. Co. First Mortgage Fives of 1906, and
  - (b) \$1,905,000 Ccdar Rapids Iowa Falls & Northwestern First Mortgage Fives of 1921;
- \$5,500,000 Chootaw Oklahoma & Gulf RR. Co. Consolidated Fives, hereafter to be issued for retiring \$5,500,000 Choetaw Oklahoma & Gulf RR. Co. General Mortgage Fives of 1919;
- \$22,410,000 Chicago Rock Island & Pacific Ry. Co. Gold Fours of 1902 (Choetaw Oklahoma & Gulf Stock Collateral, which will come under the new mortgage), maturing in equal annual instalments until 1918;
  - \$2,250,000 Six Per Cent Notes of 1905 of D. R. Francis, secured by pledge of one-half of all bonds and stock of St. Louis Kansas City & Colorado RR. Co.;
- \$2,250,000 Six Per Cent Notes of 1905 of John Scullin, secured by pledge of one-half of all bonds and stock of St. Louis Kansas City & Colorado RR. Co.;
- \$450,000 Rock Island & Peoria Ry. Co. Consolidated Mortgage Sixes of 1925;
- \$2,360,000 Choctaw Oklahoma & Gulf RR. Co. Equipment Trust Certificates maturing in series until 1910:

All bonds retired, taken up or acquired by the issue of \$82,025,000 new bonds reserved for the purposes above stated are to be either paid off and canceled or deposited as further security for the new issue.

- \$13,500,000 are reserved to be issued to provide funds to the amount of 75 per cent of the purchase price of securities of other companies which may here-after be acquired by the Railway Company, and which are to be pledged as further security for the new issue.
- \$27,475,000 are reserved to be issued (but not to exceed in the aggregate \$2,500,000 per annum, from January 1, 1904, cumulative) to the amount, at the then market value of the new bonds so issued, of the cash cost of future improvements or better-ments, including equipment, to the properties covered by the new mortgage.
- \$25,000,000 are to be held by the Trustee, to be issued from time to time as the Company shall furnish to the Trustee certificates stating that it has, subsequent to January 1, 1904, expended an amount of cash equal to the then market value of the new bonds so issued for the acquisition of property which the Railway Company may lawfully acquire, or in permanent improvements or betterments, in-cluding equipment, on the railroads subject to the new mortgage.

It is proposed to make the new mortgage a first lien (either directly or through pledge of the entire issues of bonds of the same) on the following now unthe companies owning

Rate of interest not to exceed 4 per cent per annum. No bonds under existing mortgages are to be extended during the life of the new bonds.

The Company will make no additional mortgage upon property covered by the new mortgage during the life of the new bonds.

The new bonds are to be issued as follows:

\$15,000,000 are to be issued forthwith.

\$82,025,000 are to be reserved for retiring, taking up or acquiring, at or before maturity, the following issues:

> \$12,500,000 Ohicago Rock Island & Pacific Ry. Co. General Mortgage Fours, hereafter to be issued for retiring at maturity \$12,500,000 Chicago Rock Island & Paoifio RR. Co. First Mortgage Sixes of 1917;

mortgaged and unpledged property:

Total first lien mileage..... 1,148.47 It is proposed to make the new mortgage a junior lien (subject to existing mortgages) on all other rail-ways of the Rock Island System, aggregating (exclusive of 861.17 miles of leased lines and trackage).....5,689 98 

W. B. LEEDS, President.

West Virginia Steel Co., Wheeling, W. Va.-Sale.-The Dollar Savings & Trust Co. of Wheeling, the mortgage trustee (as successor of the Wheeling Title & Trust Co.), advertises the sale of the greater part of this company's property at Wheeling on March 12 under foreclosure of mortgage of June 8, 1899. The company was incorporated in West Vir-ginia on Jan. 8, 1899, with \$1,000,000 of authorized capital stock, the incorporators being the following Wheeling men: George Hook, W. A. Wilson, George E. Stifel, Charles W. Franzheim and Frank G. Caldwell.

World's Columbian Exposition.—Final Distribution.— Secretary H. O. Edmonds (Post Office Drawer X, Chicago,) announces the declaration of a final dividend of 4.65 per cent on the capital stock, equal to  $46\frac{1}{2}$  cents per share, paya-ble March 1, 1904, to stockholders of record Jan. 2. This will make the total amount paid on account of principal and interest of each of the shares of \$10 each, 14.65 p. c. There is outstanding: stock, \$5,616,002; bonds held by "city of Chicago participating in dividend," \$5,000,000; total, \$10,616,002.

-The fourty forth annual report of the Home Life Insurance Company of this city, which will be found on another page, shows this conservative institution to be in a strong financial condition, notwithstanding that the stocks and bonds owned by the company are given at a very low market valuation. The character of the securities is best indicated by the fact that there has been no default in interest payments, and that the ratio of interest and rents received to invested funds is 4.57 per cent. It is the invariable practice of the company to show the deferred dividend funds in the liability instead of in the surplus account. If it did not do so, the net surplus would be augmented by \$1,142,219, making the surplus \$2,268,988, against a liability—principally consist-ing of a re-insurance fund—of \$12,833,851.

Attached to the report is a table of percentages, which enables one at a glance to see the excellent results accomplished within the year just closed. The payments to policy-holders were 15'74 per cent greater than the year before; and yet, after setting aside for the insurance reserve \$\$70,465, and for the deferred dividend account \$159,159, there remained from the insurance part of the business a balance for the net surplus account. The paid-for insurance in force has been increased by over \$6,000,000, and the annual premium income has been increased over \$223,000 has been increased over \$223,000.

The annual statement of the Manhattan Life Insurance Company, which has just been published, shows that the insurance written last year was 28 per cent larger than for 1902. The gain in total insurance in force was the largest in the history of the company. The net income over disburse-ments was over \$500,000 and consequently the assets and re-serve fund show substantial increases. The total amount paid policy-holders since organization, plus the amount now held for their benefit, is almost \$70,000,000. See statement in another column.

-The Home Insurance Company, New York, has issued its one hundred and first semi-annual statement. and a summary appears in our advertising department. The net surplus is now \$6,574,751, over \$138,000 more than last year, and the surplus as regards policy-holders is now \$9,574,751. The company's assets foot up the large total of \$18,040,794. The usual semi-annual dividend of 7 per cent has been declared.

-Rear-Admiral Melville, ex Chief of the Bureau of Steam Navigation, U. S. Navy, has consented to act as Engineer-in-Chief of the Audit & Appraisemnt Co. of America. Admiral Melville has a wide reputation as a consulting engineer in all branches of engineering science, and his connection with the Audit & Appraisement Co. of America will give increased value to the company's examinations and reports.

-We have received from MacDonald, McCoy & Co., Chicago, their January circular of municipal and corporation bonds, announcing \$100,000 Sioux Falls (So. Dak.) 5s, \$50,000 DeKalb (III.) School 4s, \$43,000 Northwestern Gas Light & Coke Co. 4s, \$73,000 Fort Dodge (la.) Light & Power Co. 5s, \$21,000 Fort Scott (Kan.) Gas & Electric Co. 5s, and numerous other attractive investments.

-Rudolph Kleybolte & Co., through their Chicago house, announce, among other January investments, \$134,000 5 per cent first mortgage gold bonds of the North Shore Electric Company, \$182,000 Freeport (Ill.) Railway, Light & Power Co. 5s and \$83,000 Toledo St. Louis & Western Railway Co. 3½ per cent prior-lien mortgage gold bonds.

## The Commercial Times.

#### COMMERCIAL EPITOME.

FRIDAY NIGHT, Jan. 15, 1904.

A general resumption of business activity has been experienced the past week. The congestion of local traffic resulting from the recent severe wintry weather has been relieved and merchandise has been moving freely into the hands of the consuming trade. A favorable view of the future has appeared to be taken by merchants in a number of lines of trade, and has been reflected in a fair amount of contracting for supplies for forward deliveries. The information from the Far East bearing on the existing political relations between Russia and Japan has continued to be closely followed by the business world, and has been an important factor in governing fluctuations of prices in the speculative markets.

Lard on the spot was dull and easier early in the week. Subsequently prices rallied, and there was a moderate improvement in the demand. The close was firm at 7.20c. for prime Western and 6.50c. for prime City. Refined lard has declined, but rallied following the raw product. The close was firm at 7'30c. for refined for the Continent. Speculation in lard for future delivery has been fairly active. Prices weakened under full receipts of hogs, followed by a rally on commission-house buying. The close was firmer.

 7:00
 Pork has had a limited sale at steady prices, closing at \$14 25@15 00 for mess, \$14 00@16 00 for short clear and \$15 00@16 25 for family. Cut meats have been quiet but steady, closing at 5½@5¾c. for pickled shoulders, 9¾@10c. for pickled hams and 71/4@8c. for pickled bellies, 14@10 lbs. average. Beef has held steady at unchanged prices. Business has been quiet, closing at \$8 00@8 50 for mess, \$8 00@ 10 00 for packet, \$10 50@11 50 for family and \$15 00@16 00 for extra India mess in tcs. Tallow has been quiet, closing easier at 5c. Stearines have been firmly held at unchanged prices, closing at  $8@8\frac{1}{4}c$ , for lard stearine and  $6\frac{3}{4}@7c$ , for oleo stearine. Cotton-seed oil has been dull, with prime yellow quoted at 36@361/2c. Butter has been quiet and easier, closing at 15@221/4 c. for creamery. Cheese has had a fair sale and prices have held steady at 9@12c. for State factory, full cream. Fresh eggs have been unsettled under increased receipts, closing at 30@31c. for best Western.

Brazil grades of coffee have been well held. The trade demand has been more active, buyers coming into the market n a manner to indicate exhausted supplies. Prices for the ower grades have shown especial firmness, closing at 7% c. tor Rio No. 7 and 8% c. for Santos No. 7. West India growths have been in moderate demand and firm, closing at 9½c. for good Cucuta. Speculation in the market for contracts has been fairly active and there has been a slight advance in prices on bullish crop news. The close was steady.

Following are the closing asked prices:

Raw sugars have been dull and weak, but the close was steadier at 3% c. for centrifugals, 96-deg. test, and 2% c. for muscovado, 89-deg. test. Refined sugar has been quiet but steady at 4.45c. for granulated. Teas have been active and higher on the war talk.

Kentucky tobacco has been quiet in the way of new busiпеве out there have been tair denveries on contracts. 1000 U leaf tobacco has had a slightly better sale, although practically all of the business transacted has been limited to small lots. Prices have held steady. Foreign grades of tobacco have been quiet and unchanged, Only a limited amount of business has been transacted in the market for Straits tin, but prices have held steady, closing at 29.25@29.371/2c. Ingot copper has been firm but quiet at 123/4@18c. for Lake. Pig lead has been scarce and for spot supplies prices have advanced to 4.50c. Spelter has held steady at 5@5.10c. Pig iron has been in moderate demand and steady at \$14 50@15 for No. 2 Northern and \$18 75@14 for No. 2 Southern. Refined petroleum has been unchanged, closing at 9'10c. in bbls., 11'80c. in oases and 6'20c. in bulk. Naphtha has been unchanged at 12.40c. Credit balances have held steady, closing at \$1 85. Spirits turpentine has been firm and higher, closing at 66½@67c. Rosins have advanced, closing firm at \$2 80 for common and good strained. Wool has been firm but quiet. Hops have been dull and unchanged.

-A quarterly dividend of one per cent, being common stock dividend No. 4, on the capital stock of the Gulf & Ship Island Railroad Co., has been declared, payable Jan. 15, 1904.

-Cornelius P. Rosemon offers to investors a choice selection of high-grade stocks and bonds.

The Hand-Book of Bailroad Securities, compiled by the publishers of the CHRONICLE, is now ready. The book contains in small compass a vast amount of information concerning the various railroads and a number of the industrials whose securities are dealt in on the leading Stock Exchanges. It shows their earnings, dividends, etc., for a series of years, their present fixed charges, and also the amounts of the different issues of bonds outstanding, their rates of interest, etc. There is also given the monthly range of stocks and bonds for 1902 and 1903and a yearly range for the past four years. Price one dollar, or to CHBONICLE subscribers, seventy-five cents.

#### COTTON.

#### FRIDAY NIGHT, January 15, 1904.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 179,459 bales, against 295,918 bales last week and 291,855 bales the previous week, making the total receipt. since the 1st of Sept., 1903, 5.654.412 bales, against 5,412,379 bales for the same period of 1902-3. showing an increase since Sept. 1, 1903 of 243,083 bales.

Speculation in cotton for future delivery has been fairly active. The undertone of the market has been unsettled, but for the week prices show a moderate advance. Early in the week, influenced by more pacific news relative to the political situation in the Far East and the sharp falling off in the crop movement, prices had a good rally, May delivery selling np to 14.10c. and July at 14.18c., which were close to the high-record quotations for the season. At the advance, however, free profit-taking sales by speculative holders developed and during the latter part of the week talk was heard in the trade to the effect that part of the bull interest was unloading on those of the bull clique remaining true to the market. Under the profit-taking sales the full advance in prices was not maintained. Arguments are heard to the effect that as the late advance in cotton was based largely on an expected decreased movement of the crop, now that the smaller receipts have materialized the speculative holders were endeavoring to take advantage of them to realize profits. Sonthern spot markets have been reported as dull, both domestic spinners and exporters being mentioned as light buy-ers. Some of the trade maintain that the smaller crop movement of the last ten days is due as much to the apathy of the trade demand for actual cotton as exhaustion of sup-To day the market opened higher on stronger advices plies. from Liverpool, that market, it was stated, being advanced by buying for New Orleans account. Under war talk from the Far East part of the advance was lost. During the after-noon trading prices again rallied on the comparatively small "in sight" movement for the week. The close was steady at a net gain in prices for the day of 12@23 points. Cotton on the spot has advanced, closing at 13.80c. for middling uplands.

The rates on and off middling, as established Nov. 18, 1908, by the Revision Committee, at which grades other than 

On this basis the official prices for a few of the grades for the past week-Jan. 9 to Jan. 15-would be as follows,

RECEIPTS FROM THE PLANTATIONS.—The following tabl<sup>e</sup> indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

	reek		ts at the	Ports.	St'kat	Interior	Towns.	Rec'ptsfrom Plant'ns				
Enc	ding—	1903-01	1902-03	1901-02	1903-04	<b>1902-0</b> 3	1901-02	1903-04	1902-03	1901-02

8.6	15 .	179,459	226.091	228,486	177,520	504.878	667.341	163,422	207,584	213,100		

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1903, are 6,120,330 bales; in 1902-8 were 5,854,177 bales; in 1901-2 were 5,936,883 bales.

2.—That although the receipts at the outports the past week were 179,459 bales, the actual movement from plantations was 163,422 bales, the balance being taken from stocks at interior towns. Last year receipts from the plantations for the week were 207,254 bales and for 1902 they were 213,100 bales.

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic ad. vices from the South this evening denote that the weather has been favorable in the main during the week. In Texas dry weather has prevailed, and our Galveston correspondent remarks that a general rain is needed over the entire State. Elsewhere rain has fallen as a rule, but at most points the precipitation has been light or moderate. Some correspondents note the beginning of farm work.

Galveston, Texas.-A general rain is needed over the entire

Vicksburg, Mississippi.—There has been rain during the week to the extent of fourteen hundredths of an inch, on one day. The thermometer has ranged from 30 to 66, averaging 48.

Columbus, Mississippi.—There has been rain on two days of the week, the precipitation being thirty-five hundredths of an inch. Thermometer has averaged 44, highest being 68 and lowest 20.

Helena, Arkansas.—Farm work has commenced, but labor is somewhat scarce. There has been rain on two days during the week, the rainfall being seven hundredths of an inch. Tha thermometer has averaged 44, the highest being 64 and the lowest 25,

Lettle Rock, Arkansas.—There is considerable cotton yet to be picked on river lands. Rain has fallen on one day of the week to an inappreciable extent. Average thermometer 45, highest 65, lowest 25.

Memphis, Tennessee.—We have had rain on two days of the past week, the rainfall being ten hundredths of an inch. The thermometer has averaged 44.6, ranging from 29 to 62.9.

Mobile. Alabama.—Plowing is making fair progress in some sections of the interior. Rain has fallen on one day of the week, the rainfall being seventy-one hundredths of an inch. Average thermometer 52, highest 69 and lowest 83.

Montgomery, Alabama.—There has been rain on one day of the week, the precipitation reaching twenty-six hundredths of an inch. The thermometer has averaged 47, the highest being 64 and the lowest 29.

Selma, Alabama.—We have had rain on two days of the past week, the rainfall being one inch and twenty-five hundredths. The thermometer has averaged 45, ranging from 26 to 61

Madison, Florida.—We have had rain on two days during the week, the rainfall being two inches and fifty hundredths. The thermometer has ranged from 34 to 72, averaging 47.

Augusta, Georgia.—Rain has fallen on three days of the week. the rainfall being forty-four hundredths of an inch. Average thermometer 46. highest 62 and lowest 28.

Average thermometer 46, highest 62 and lowest 28. Savannah, Georgia.—We have had rain on four days of the past week, the rainfall being sixty-two hundredths of an inch. The thermometer has averaged 51, ranging from 32 to 66.

Stateburg, South Carolina.—It has rained on two days of the week, the precipitation reaching nineteen hundredths of an inch. The thermometer has averaged 45.5, ranging from 27 to 62.

Greenwood, South Carolina.—We have had rain on two days during the week, the rainfall being twenty-two hundredths of an inch. The thermometer has ranged from 31 to 48, averaging 39.

Charleston, South Carolina.—There has been rain on five days of the week, the precipitation reaching twenty-nine hundredths of an inch. The thermometer has averaged 49, the highest being 67 and the lowest 33.

The following statement we have also received by telegraph, showing the height of the rivers at the points named, at 3 o'clock Jan. 14, 1904, and Jan. 15, 1903.

State of Texas. We have had no rain the past week The thermometer has averaged 65, the highest being .86 and the lowest 44.

Corpus Christi, Texas.—It has been dry all the week. The thermometer has averaged 56, ranging from 40 to 72.

San Antonio, Texas.—There has been a trace of rain on one day during the week. The thermometer has ranged from 36 to 74, averaging 55.

from 36 to 74, averaging 55. *Palestine, Texas.*—No rain all the week. Average thermometer 50, highest 68 and lowest 32.

Abilene, Texas.—There has been no rain the past week. The thermometer has averaged 57, highest being 72 and lowest 32.

Shreveport, Louisiana.—We have had rain on one day of the week, the rainfall being nine hundredths of an inch. Average thermometer 48, highest 65 and lowest 32.

New Orleans, Louisiana.-There has been no rain during the week. The thermometer has averaged 54.

According to the foregoing, Bombay appears to show a *decrease* compared with last year in the week's receipts of 27,000 bales. Exports from all India ports record a gain of 2,000 bales during the week and since Sept. 1 show a *decrease* of 16,000 bales.

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON .-Through arrangements we made with Messrs. Choremi, Benachi & Co., of Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt January 13.	190	3-04.	190	2-03.	190	1.02.
Receipts (cantars)*— This week Since Sept. 1		50,000 57,754		00,000 78,361		80,000 63.061
Exports (bales)-	Thi <b>s</b> week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
To Liverpool To Manchester		123,843 74,398	5,452		6,815 4,004	68,273
To Continent To America	13,750 1,000		<b>10,550</b> <b>4,435</b>	163,240 49,865	6,447 4,125	192,854 51,274
Total exports	18,500	383,253	25,279	434,154	21,391	428,539

\* A cantar is 98 pounds.

This statement shows that the receipts for the week ending Jan. 13 were 250,000 cantars and the foreign shipments 18,500 bales.

MANCHESTER MARKET.-Our report received by cable to-night from Manchester states that the market continues quiet for yarns and steady for shirtings. Manufacturers are resorting to short time. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page. Quotations Jan. 15 at Sayannah.—For Georgias extra fine

#### BREADSTUFFS.

FRIDAY, Jan. 15, 1904.

Business in the local market for wheat flour has reached only very moderate proportions. Jobbers in making purchases have operated along very conservative lines, limiting their orders to such supplies as have been needed to keep them with an ordinary working stock. Price changes have been unimportant, the general market holding steady. Ryeflour has been firm but quiet. The demand for buckwheat-flour has been limited to small jobbing orders with prices holding to a steady basis. Corn meal has been firm but quiet.

Speculation in wheat for future delivery has been fairly active, but for the week prices show only a slight change. Immediately following our last review there developed a re-actionary tendency. The reports current of the political situation in the Far East were interpreted as being of a more pacific tenor, and they had a weakening influence upon val-The movement of the orop was fairly full and ues. The movement of the crop was running the the visible supply statement showed a considerable in-crease in stocks, which also operated against values. **U08.** Subsequently, however, the market turned There was moderate foreign buying, eviden There was moderate foreign buying, evidently in-fluenced by less favorable news from Argentina, the marketing of the crop being interfered with by wet weather. Advices from some sections of the winter-wheat belt also complained that conditions were not favorable, the weather being reported as too dry. The information from the Southwest also was to the effect that reserve stocks of wheat were comparatively small, due to the fact that the Northwestern millers had been liberal buyers of winter wheat. The spot market has been firm, but only a limited volume of business has been transacted. To day the market was fairly active and higher on war talk. The spot market was firm but quiet DAILY OLOSING PRICES OF NO.2 BED WINTER WHEAT IN NEW YORK.

Prominent interests have been reported good buyers in the Chicago speculative market. The feature has been the comparatively small movement of the crop and the fact that only a small percentage of the receipts is of contract grade. The poor grading of the supply of corn coming to market has been such as to create uneasiness on the part of shorts in the speculative market, and they have been fair buyers to cover con-tracts. During the latter part of the week prominent longs took advantage of the advance in prices and sold to realize profits. The spot market was fairly active, exporters being more active buyers, and at advancing prices. To-day the market was fairly active and prices advanced. The spot market was moderately active and firm.

Oats for future delivery at the Western market has been fairly active and higher. The movement of the crop has been light, reflecting the reduced yield from the past season's crop. There has been good support given to the market by prominent bull interests, and shorts have bought to cover contracts. The local spot market has been fairly active and higher. To-day the market was firm and higher.

#### THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., Jan. 15, 1904. It is evident that business in the cotton-goods division of the market is still governed, so far as buyers are concerned,

There has been a general upward movement in the market for prints this week, staple lines having been advanced 1/4c. per yard. The market for staple cotton linings also is higher by  $\frac{1}{6}$ c. to  $\frac{1}{4}$ c. per yard. These advances are the outcome of the strong print-cloth situation rather than the result of demand. In heavy brown cottons the demand from jobbers and converters has been moderate only, with exporters still practically out of the market. Prices have not been openly changed, but are tending upwards for both sheetings and drills. In denims, tickings, plaids, cheviots, etc., the tend-ency is upwards also. The general demand for quick deliveries shows some increase, but forward demand is indifferent, Ducks are very firm, but this week's business has been quiet. Cotton flannels and blankets are in limited request, but prices are easily maintained. Business in bleached cottons has been on a less restricted scale and at full prices. Wide sheetings are quiet but very firm. Business in ginghams is on a moderate scale, buyers having but limited unsold sup-plies to draw upon. There has been little doing in regular print cloths, sellers declining bids of 35%c. Odd goods are in fair request, with a strong tone prevailing.

WOOLEN GOODS.-The market for men's-wear woolen and worsted fabrics has been unsettled this week by the American Woolen Company opening its lines of staple piece-dyes for fall at reduced prices. The decline from a year ago ranges from five to ten per cent. This has been responded to by other sellers making lower prices, some of them showing an even greater reduction than the American Woolen Co. It is reported that good orders have been taken in some quarters, but as a rule buyers are in a state of uncertainty as to further developments in the near future, and are operating with reserve. There has been no material expansion of the supplementary demand for light-weight woolens and worsteds, and the situation in these is practically unchanged. In the overcoatings division the demand continues below expectations on most lines, and the majority of sellers regard the situation as unsatisfactory. The demand for cloak-ings is quiet and prices show no change of moment. Woolen and worsted dress goods for next fall are being opened up, and with wider opportunities buyers are placing more orders. The tone of the market is steady. The de-mand for flannels and blankets is moderate, at firm prices. Carpets are very firm and generally in a well sold condition.

FOREIGN DRY GOODS.—High-grade dress goods for the new season are being shown in some quarters and attract a fair amount of business. The demand for quick deliverles is quiet. Raw silk has advanced and piece silks and ribbons, although quiet, are steady. Linens are very firm in tone, with a quiet demand, Burlaps are strong and in fair demand.

#### Importations and Warehouse Withdrawals of Dry Good

The importations and warehouse withdrawals of dry goods at this port for the week ending Jan. 14, 1904, and since January 1, 1904, and for the corresponding periods of last year are as follows:

the market is still govern	iea, so	iar as buye	rs are	concernea,	_										_

The figures do not include special franchise assessments estimated at about \$250,000,000. A feature of the rolls this year is the dividing of the real estate value into "land values" and "buildings and improvements" thereon. Of the \$4,798,344,789 real estate values for 1904, the land values aggregated \$3,-697,686,935. The books remain open until April 1 for in-spection and correction, and in the meantime the "swearing off" of personal taxes will wipe out the greater part of the personal property valuations the same as in past years.

New York State.-Taxes to be Refunded to Counties.-By a decision of the Court of Appeals on January 12, the State will be compelled to refund to numerous counties, it is stated, about \$880,000, with interest—a total estimated at about \$1,250,000. The snit was one brought by Ulster Coun-ty under Chapter 336, Laws of 1899, to compel the refunding of taxes collected from railroads aided by the issuance of bonds and paid to the State. In 1869 the Legislature passed an Act providing that all taxes (except school and highway) collected on the assessed valuation of railroads aided by the issuance of bonds should be paid into the County Treasury and held as a sinking fund for the redemption of the railroad-aid bonds. The suing county and others failed to take advantage of this law and continued to pay to the State their proportion of the taxes so collected. Under the Act of 1899 the counties were authorized to bring action in the Court of Claims to recover the money so paid. The Court of Claims decided against the counties, but the Appellate Division subsequently reversed this opinion, and this latter decision has now been affirmed by the Court of Appeals. The counties involved in the suit, and the amount of claim in each instance is given as follows :

#### Bond Calls and Redemptions.

Lake Borgne Basin Levee District.-Bond Call.-N. H Nunez, Secretary Board of Commissioners, calls for pay-ment Feb. 8, at the office of the State Treasurer, bonds Nos. 11 to 18, inclusive, and No. 20, of \$1,000 each, dated Dec. 1, 1892.
