REVIEW OF JANUARY.

The improved tone in financial circles noted in December continued throughout January. Evidence of this was furnished in further large railroad negotiations (of which the offering of \$23,000,000 Louisville & Nashville 5-20 4-per-cent collateral trust bonds by Messrs. J. P. Morgan & Co. was perhaps the most conspicuous) and in the increased animation and rise in prices that occurred on the Stock Exchange. The news regarding the prospect of war between Japan and Russia was unusually conflicting, reports one day being encouraging and the next day the reverse, the predominant opinion, however, being that an early resort to arms was unavoidable. This fact at times exerted a depressing effect on affairs, but did not serve greatly to unsettle the improved feeling in financial circles.

The weather was unusually wintry, with severe cold in all parts of the country. This hampered railroad operations very materially, and in a number of instances railroad gross earnings for the current weeks of January showed losses as compared with the corresponding weeks of 1903. It was also surmised that operating expenses of the roads would be augmented by reason of the same circumstance. Simultaneously many of the returns for the month of December showed losses in net because of heavier expenses—this before the bad weather had come in to play a part in the results.

Perhaps the most striking feature of the month was the great ease which developed in the money market. There was a large return flow of money from the interior, besides which gold imports added to available supplies and the United States Treasury also paid out considerably more cash than it received. Money holdings of the Clearing House banks increased over \$50,000,000 in the four weeks to January 30, rising from \$231,086,600 Jan. 2 to \$281,115,000 Jan. 30. Surplus reserves rose from \$9,541,875 January 2 to \$26,072,675 January 23, but fell off to \$25,129,050 January 30. Both loans and deposits reached totals never previously attained, the deposits, indeed, expanding over 137 million dollars—being \$1,023,943,800 January 30, against \$886,173,900 January 2. Loans rose from \$908,570,500 January 2 to \$994,552,100 January 30.

Advancing prices in the mercantile markets were also a characteristic of the month. The commodities chiefly distinguished in that way were cotton, grain and coffee. Sensational though the advance in cotton had been in the months preceding, January was to see this daring speculation carried to even more noteworthy extremes. After a

drop at the beginning of the month from 13.50 cents to 13.20 cents on January 4, prices were moved up with great audacity until January 30 the spot price for middling uplands in this market stood at 16.75 cents. Transactions were on an enormous scale, and options for future months advanced even more than the spot price, the May option being pushed up from 12.80 cents January 4 to 16.79 cents January 30, closing the same day at 16.77 cents. The July option was advanced from 12.90 cents January 4 to 16.91 cents January 30, closing at 16.90 cents.

In the grain markets the likelihood of a conflict between Russia and Japan was an important influence in promoting the rise, but there was also talk of cornering operations in wheat at Chicago. The extremes for wheat in this market on contracts f. o. b. were 86½ and 101½, and for the May option 88½ and 93½. The rise was well maintained, too, closing prices being near the highest of the month.

As expected, the United States Steel Corporation at its meeting January 5 entirely suspended dividends on the common shares, though making the usual quarterly declaration of 1½ per cent on the preferred stock. What particularly attracted attention was the great falling off in net earnings in the last quarter of 1903, these being reported only \$14,845,042, against \$32,422,955 in the preceding quarter, and comparing with \$31,985,759 in the corresponding quarter of 1902.

On the Stock Exchange, after weakness at the beginning of the month, great activity and buoyancy developed. In the height of the movement the transactions on one day exceeded a million shares, but there was also great activity in the bond market. Indeed, the large bond purchases, both of speculative issues and of the investment grades of securities, were the most noteworthy features of the dealings.

	49,374,700	45,811,600	70,554,650	61,099,850

The Erie RR. Co. declared a dividend of 2 per cent on the first preferred stock, making the second consecutive semi-annual payment at that rate and bringing about the contingency mentioned in the Voting Trust, which was to operate to terminate the Voting Trust in the company's shares. The Nashville Chattanooga & St. Louis Rwy. Co. declared a semi-annual dividend of 2 per cent on its capital stock, this being the first dividend in about six years—that is, since 1898.

Until towards the close the foreign exchange market almost uninterruptedly advanced. Between the beginning and the 20th of the month the rise in prices for all classes of bills amounted to two cents or over per pound sterling. Money rates declined at the European centres, but they declined still more here. There was not a little buying of exchange for investment, and there was also, it is believed a considerable accumulation of credits in Europe in expectation of the early ratification of the Panama Canal Treaty and the making by the United

States Government of the \$50,000,000 payments required on account of the purchase of the Canal. It was likewise stated that, owing to the high rates for money in New York the last week of December, remittances of some amounts of January dividends and interest had been deferred and were now being made. The rise in exchange rendered further engagements of gold in Europe for importation into the United States out of the question, but there were continued arrivals of gold on previous engagements, and steamers from Japan also brought more or less gold up to the very close of the month, supposedly to pay for war supplies. The downward reaction in exchange which occurred in the last week of the month was attributed in part to the placing of portions of American railroad loans abroad, and also to purchases for European account of railroad bonds in this market.

As already noted, the money market was in a state of extreme ease. On Monday January 4 call loans on the Stock Exchange touched 6 per cent, this being incidental to the large January interest and dividend payments, but on Tuesday the 5th the highest figure was 4½ per cent and on Wednesday the 6th the maximum was but 3½ per cent. After that the rate did not go above 3 per cent, and on the last business day of the month the range was 1½ to 2 per cent. Time loans and commercial paper also sharply declined.

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1903. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

For foot notes to tables see last page of Bonds and last page of Stocks.

GENERAL QUOTATIONS

—OF— BONDS AND STOCKS.

1. In the following twenty-eight pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.

2. Quotations from all Stock Exchanges are as near as possible for the *last day of January*. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

3. Bond prices marked (§) indicate that the purchaser must pay accrued interest *in addition to the price given*. The method of quoting on the New York Stock Exchange is to quote the price flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.

4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz: "M." for mortgage, "g." for gold, "g'd" for guaranteed, "end." for endorsed, "cons." for consolidated, "conv." for convertible, "s.f." for sinking fund, "l.g." for land grant, "op." for optional.

7. The black-faced type in the letters showing the interest period indicates the *month* when the bonds mature.

BANKS AND TRUST COMPANIES.

Quotations for the stocks of banks and trust companies are given per share, not per cent, with the exception of New York City, Brooklyn and Canadian bank stocks.

Prices marked thus (*) indicate sales. The dagger (†) prefixed to a price indicates that the figures show the book value.

Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.
