THE FINANCIAL SITUATION.
Oar Stock Exchange markot has had another week of rery limited transactlons, with no new definito dorelopments. Prices bave raried slightly from day to day, the general outlook belng still of a walting character. No material incldont has been roported from the seat of war; nor have affairs in Europe affected by the war shown any marked change except that the disturbed feeling, which had been a little less tense, was on Frlday reported feverish again on the Parls Bonrse, and prlces lower. Should Japan secure fur ther successes they would possibly be followed by a recurrence of general nervonsness. That result, however, would probsbly depend apon the effect of the news on Rasaian credit.

It is reported from Paris that Great Britain and Rasaia have reached an agreement as to Thibet, and hence that source of irritation between those governments is for the time being removed. Great Britain, the report ssys, has bound herself not to menace the Independence of Thibet, and Rassia has given a like assurance. Nothing, however, is stated in relation to the withdrawal of Colonel Younghusband's expedition to Thibet. That mission did not at all seek saneration, as we understand lis object; it was put afoot ostensibly 'becanse Thibetars, as is claimed, are occapying a corner of British territory to which they bave no right, and have thrown down the frontler pillars which were erecied. Moreover, whenever the Governor General of India has sought redress, the commanications sent have been refused and the Governor. General treated with dis. courtesy; whlle at the same time the Thibetans pub. licly send a mission to Rassia and a good deal of display is made at St. Petersburg over the event. Rus sia recently protested against Great Britain's Thibet expedition and the agreement now sald to have been entered into by Great Britain and Rassia is the result of the protest. Any such settlement at this moment helps in some degree, we presume, to keep Earopead Powers out of the Rassian and Japanese straggle, and hence makes for peace.

It was announced from Washington on Wednesday that according to the Attorney General's opinion the pending suit in the French courts presents no occasion for delay in the payment of the sum stipulated in th Panama Treaty to the Repablic of Panama; also that the Goveroment is anthorized to pay to the Panama Canal Company the sum agreed upon for its interest In the Canal. Consequently, Tharsday the Secretary of the Treasary directed the New York Oity deposit. ary banks forthwith to deposit with the ten specially designated depositarles in this city, which, as we announced February 13 (page 668), had been selected for this parpose, the sum of 20 per cent of their deposits of pablic money, amounting as estimated to $\$ 7,681,000$. At the same time the Secretary notified each of the depositaries elsewhere than in this city to deposit with the specially designated depositaries on or before March 25 the sam of 20 per cent of its Government deposits, the notification specifically directing in which of these depositarles the sum from each bank was to be placed. The bank so addressed was advised that upon making this deposit and forwardlng to the Treasurer of the United States the recelpt given by him for the bonds pledged by the bank to secure pablic deposits, accompanied by a copy
of a resolution of the bank's board of directors authorizing their withdrawal and disposition, the amount of bonds securing the specific sum of deposits surrendered will be released; a similar statement was made to the Now York Olty banks. The text of the letter of the Secretary is as follows:

Wasuington, Marci 31904.
Cashier - National Bank:
SIr: - Parsaant to advice contained in the Department letter of the 4th ultimo, you are hereby directed to deposit with the _National Bank of New York, N. Y., on $\mathrm{O}_{\mathrm{r}}$ before the 25th instant, on account of "Transfer of funds" from your bank, the sum of 20 per cent of the Government deposits. This will reduce your anthorized balance to $\$$ -

Upon your making this deposit and forwarding to the Treasurer of the United States the receipt given you by him for $\$$ - of the _- bonds held to secare pablic deposits with your bank, accompanied by a copy of a resolution of your board of directors anthorizing their withdrawal and disposition, that amount of the bonds will be released.

A blank form for the resolution is herewith enclosed,
Respectfully,
L. M. Shaw, Secretary.

Thursday afternoon, it having been thought best not to pay the $\$ 10,000,000$ to the Republic of Panama until the Treasury was ready to pay the $\$ 40,000,000$ to the Canal Company, the plan was so far modified that the call upon the New York banks was changed so as to make it effective on March 25, when the country banks will be required to surrender their deposits. Of the $\$ 10,000,000$ which will be paid to the Republic of Panama, the sum of about $\$ 7,681,000$ will be sapplled by the New York Oity depositaries, and the remainder, or about $\$ 2,319,000$, will be drawn. from the New York Sub.Treasury.
The process of payment of this sum as well as of the 40 millions to the Canal Company, will, so far as concerns the banks, it is understood, be as was described in our colamns February 13 (page 668).

We are glad that the voting trustees of the Erie. Raillroad Company (Messrs. J. Plerpont Morgan, Louis Fitzgerald and Charles Tennant) have finally given their consent to the efforts making to extend the Voting Trust for another term of five years. It will be remembered that the terms of the original Voting Trust were that the trustees ahould have control for five years and thereafter antil the first preferred stock should have received 4 per cent cash dividends in one year. On Jandary 19 the company declared a second semi-annaal dividend of 2 per cent, payable February 29, thus bringing about the contingency which was to operate to dissolve the Trast. In view of this situation the Voting Trustees had been arranging for the delivery of stock of the Erie KR. Co. In exchange for the stock trast certificates now outstanding. They felt that their obligation to the shareholders had been fulfilled, and that therefore they were entitled to be relieved from farther responsibllity. So many and such argent requests, however, have come to them to continue thelr old functions that they now feel it their duty to bring the matter to the attention of the holders of the stock trast certificates. They accordingly announce that if before the 1st of May holders of a sufficient amount of stock shall algnify their desire that the Voting Trust be continued, they will arrange to extend the agreement.

We say we are glad that they have ylelded to these earnest solicitations, because we think it is the part of wisdom when one has a good steward in possession of one's property to retain him. Under the control
of the Voting Trastees the Erle property has thrived and prospered as never before in its eventful history. One does not need to have a long memory to recall how thoroughly discred. Ited the Erle property formerly was. If there was any rallioad system in the country that seemed to have absolutely no future, the Erle was that one. To show what a wonderful transformation has been effected in this partlcular during the last fem years, it is only necessary to point ont that in the company's report for the lateit fiscal year-namely the twelve months ending June 30 1903-earnings were actually sufficient to leave a balanoe for the common stock, though of course the company's needs and requirements rendered it out of the question that any distribution on these com mon shares should be made. In other words, after allowing for full 4 per cent dividends on both the first preferred stock and the second preferred stock, there remained a balance on the operations of the twelve months of $83,499,714$-equal to just abont 3 per cent on the $\$ 112,378,900$ common stock. Every one, also, who has had occasion: to travel over the lines of the Erle knows what a great improvement has been effected in recent years in the physical condition of the property. In brlef, the Erle has been raised to up-to-date standard and now has great possibilitiles open to It . Under these circumstances, why should not those who have served it so well in raising it to this position be asked to gulde its affiairs for another stated period, thereby insuring a continuance of the existing policy, under which so much has been accomplished, and at the same time enable the management to carry to completion their extensive plans for the farther development of the property.
There is another standpoint from which it seems equally desirable that the Voting Truatees should be continued in power. We refer to the fact that with the present management in control the aystem is in no danger of losing its identity while yet being operated in harmony with the other large trunk lines. We deem this a consideration of the highest importance. A stage has been reached in our industrial development where the Indications for the time belng point to some falling off in basiness. At such a time it is especially desirable that undue friction between competing interests should be avoided. Imagine the Erie in the hands of a lot of free-booters, bent upon making thelr profits in the stock market instead of out of the proper management of the road. What havoc thls would oreate in the whole trank line situation and how disastrous it would be to the Erle itself. Does the suggestion seem extravagant? If so, consider that control of the property in effect lies with the $\$ 112,378,900$ of common stock oatstanding, the total of the first and second preferred stocks belng only $\$ 63,892,400$. There are, it is trae, alsotwolarge issues of bonds which now wlll have voting power, bat these may be diaregarded since experience sho what bondholders as a rule do not to any extent avall of their voting privileges. With control thus resting in the $\$ 112,378,900$ of common stock, consider further that the market price of the common shares at the present time stands in the neighborhood of 23 and could doubtless be depressed very mach lower if there were any organized effiort to that end. Then figure out the relatively small amount of money that would be required at
these low prices to gain control of this important trunk-line system extending all the way from the Atlantic seaboard to Chicago. Erle shareholders will be consulting their own best interests and promoting the welfare of the whole rallroad world, if they insist upon an extension of the voting trust for the period agreed upon.
If the reason for the falling off were not so well known, the present large losses in earning reported by our rallroads would furnlsh occasion for real alarm. Every one knows, however, that we have had a winter of anusual severity, both the extreme cold experienced and the snow blockades having added greatly to the operating cost of the rallroads. By reason of the same circumstances their traffic and gross revenues have been serlously curtailed. Such have been the interraptions that some of the larger systems have scaroely been able to earn their operating expenses. The Erle Rallroad, for instance, In its atatement for January shows net of only $\$ 187,279$ thls year, against $\$ 1,112,019$ in Jannary 1903. We have previously referred to the loss of \$919,21\% reported for the same month by the Baltimore \& Ohio, its net for January 1904 being only $\$ 787,717$, against $\$ 1,706,934$ for January 1903. The Cleveland Cinclnati Chicago \& St. Louls, ,with gross earnings of $\$ 1,368,419$, had expenses of $\$ 1,364,896$, leaving net of only $\$ 3,523$, which compares with 317,719 in January last year. The anthracite coal roads all make unfavorable comparisons for reasons peculiar to themselves-that is last year they were mining cosl at a tremendons rate to make up for the deficiency cansed by the long strike in 1902, while now for 1904 conditions have dropped back to the normal again.
Perhaps the most striking exhbiblt, however, is that furnished by the Pennsylvania Railroad. That system on the lines directly operated east of Pittsburgh and Erle reports for January $\$ 1,093,300$ decrease in gross and $\$ 1,223,000$ decrease in net, with an additional decrease of $\$ 332,800 \mathrm{in}$ gross and $\$ 384,400$ in net on the lines directly operated west of Pittsburgh and Erie. On the combined lines, therefore, there has been $\$ 1,426,100$ loss in gross and $\$ 1$, , 607,400 loss in net. If we should add the decrease ( $\$ 141,100$ ) for the same month on the Philladelphia Baltimore \& Washington, the decrease ( $\$ 168,500$ ) on the Northern Central and the decrease ( $\$ 11,500$ ) on the West Jersey \& Seashore, we would get an aggregate loss in net for the month close to 2 million dol-lars- $\$ 1,928,500$. Last year the lines directly operated East and West of Pittsburgh recorded $\$ 1,259,000 \mathrm{ln}$. crease in gross, with $\$ 6 \% 8,600$ decrease in net. In the following we show the Jannary gross and net earnings for the last six years on the lines directly operated East of Pittsburgh and Erie-the only portion of the system for which we have the data for such a com parison.

| LINES KAST OT Pitte. \& Erie. | 1904. | 1803. | 1902. | 1901. | 1800. | 1889. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| January. | \% | \$ | 1 | \$ | \$ | \$ |
| Gross earnings..... | 8.473.774 | 9,587,074 | 8,582,674 | 8,040,474 | 6,424.271 | 5,312,171 |
| Operat'g expenses | 7,329,140 | 7,198,440 | 8,853,810 | 5,351,140 | 4,617,274 | 4.129.47 |
| Net earnings... | 1,144,834 | 2,367,634 | 2.728.834 | 2,688,334 | 1,776,997 | 1,182,69 |

We have been favored thls week with an advance copy of the annual report of the Delaware \& Hudson Company for the calendar year 1903. Being an anthracite coal property, every one of course looked for a very favorable statement, and expectation in
tha. resatil is so: deappolnted. The company is peylon $\boldsymbol{i}$ por cesat dishands on its stock. Actually the smount rembluing for the stook on the operations of the twalve monthe was $\$ 3,914, f 94$, or $11 \cdot 18$ per cant. Is the calynder year 1902 the balanco avail able for the s'ock was only $8:, 497,8 i 5$ or $7 \cdot 13$ per cent. But this does rio show the full extert of the lmprore metat which tas taken plase. The figures, as glven, are accarding to the comprag's method of sta'ing the accourlis. If spresm, though, thet the amoust carnid for the meck in 1923 was isfer allowlog almost 4 million dollare $(\$ 3,963,4 \% 1)$ for bettorments and deprec'aslow charged to oparaing wpenses ard genersl proflat as law. In the provious fear the amount applid in the same way was only $51,378,562$. Siated It tuths, hut, eartiogs were $\$ 3,914,794$ plus $\$ 3,963$, 42), wakly 87.6 , 5,265 tngether-cqual to over 22 per colt w the oatstaudiug stock. The call for the diridends at 7 per cent was only $82,450,000$. It bas been the pelicy of the Delarare \& Hudeon for a good many years to replace maturing indebtedness on its parlons lines by new lssues of stock, and with this end in rlew stockholders are to meet March 7 to act on a proposition to issue $\$ 7, \mathrm{COO}, \mathrm{COO}$ new stock with which to take ap $\$ 5,000,000$ of New York \& Canada Rallroad gnarantecd bonds fallicg due May 1 19C4 and to pay for the expenditures incurred in standard.ganging the Cbateangay \& Lake Placid RR, and to take up an underlylng lssue of bonds on the same property.

There was no change in official rates of discount by any of the Europesn banks this week, and unofficial or open market rates were, compared with lust week, steady at London and Par's and firm at Berlin and Frankfort. Consols were affected in London on Tnursday by exaggerated reports of the lllness of Elig Edward. The striking features of the state ment of the New York Asscclated Banks last week were tho maximum of specle and cash holdings and a new high record for the sear ard eince 1899 in surplus reecrive. The cash gain was $\$ 4,617,300$, of which 3 , 746,000 was specie. Deposits increased $\$ 105,200$ and the rcquired reserve was thereby sugmented $\$ 26,300$, which sum, added to the gain in cash, made $\$ 4,6 \leq 3$, $6 C 0$ as the increase in surplas reserve, to $\$ 32,150,200$. Calculated upon the basis of deposits less those of $\$ 38$, i61,900 pabllc funde, the surples is $\$ 41,840,675$ loars decreased $\$ 4,229,700$. The bank statement of thls wetk should refict, among other liens, the tra efer to Chlcago of $\$ 300,000$ and of $\$ 500,000$ hither from Baltimore.

Morey on call repreber ting bankers' balances loaned on the Soock Exchange during the $=6 \mathrm{ck}$ at 2 per cent and at $1 \frac{1}{2}$ per cent, for reging about $1 \frac{3}{4}$ per ceat. On Monday and Tuesday loans were at 2 per cent and at $\frac{3}{4}$ per cent, with the bulk of the businces at 2 per cent. Oif Wedvceday and Thureday tranenctions were at $1 \frac{8}{2}$ fer ocnt and at $1 \frac{1}{2}$ pur cent, with the majority at $1 \frac{8}{\text { s }}$ por cent. On Friday loans wese at 2 per cent and at $1 \frac{1}{2} \mathrm{ptrcIt}$, with the balk of the bueiness at $1 \frac{3}{4}$ per c.nt. Batks ard trust compautes loar at 2 per cent as the minimun. Time loaxs tere quite freely offered on Mcndey it the exceptionaliy now ratus of $2 \frac{1}{2}$ @ $2 \frac{3}{4}$ per cent for thir $\mathrm{g}, 3$ for mxty and $3 \frac{1}{4}$ for ninety days, $3 \frac{1}{2}$ for four, $3 \frac{3}{4}$ @ 4 for five to alr and $4 \frac{1}{2}$ for nine months. Even these low quelations did not, however, attract businees, and later in the week the market grew firmer. Quotatlons then pere 3@3
cent for slxty to ninoty days, $3 \frac{3}{3}$ (a) 4 for four to five, $4+$ for slx, $4+$ @ $4 \frac{1}{2}$ for nlne, $4 \frac{1}{2} @ 4$ 腬 for eleven and 5 per cent for twelve months on good mixed Stock Ex. chango collateral. Commerclal paper was qulet at the nuchanged rates of $43 ⿻ \begin{aligned} & \text { ab } \\ & 5\end{aligned}$ por cent for sixty to ninetyday ondorsed bills recelvable, $1 \frac{3}{4} @ 5 \frac{1}{4}$ for prime and $5 \frac{1}{2} @ 6$ por cent for good four to six months' single names.

The Bank of England minimum rate of discount remalns unchanged at 4 per cont. Tho cable reports diseounts of slaty to ninety-day bank bills in London $3 \frac{1}{\frac{1}{8}}$ per cont. The open market rate at Paris is $2 \frac{1}{2}$ per cent and at Borlln and Frankfort it is $3 \frac{1}{2}$ per cent. According to our special cable from London the Bank of England lost $£ 420,343$ bullion during the week and held $£ 35,063,679$ at the clcse of the week. Oar correspondent further advises us that the galn was due to the import of $£ 275,000$, of which $£ 12,000$ from Australla, £12,000 from miscellaneous sources, $£ 251,000$ bought in the open market, to exports of $£ 426,000$ to S suth America, and to shlpments of $£ 269,000$ net to the interlor of Great Britain.

The foreign exchange market has been irregular. though generally strong, this week. There appeared to bo some evidence of manipulation early in the week, with the object of depressing the market, bat the disclosure of a remarkably firm andertone led to the abandonment of further efforts in this directlon, and prices recopered. There did not seem to be any special demand for remittance, bat there was a unlformly good inquiry, supposed to be In anticlpation of the Panama transfer, and the strength of long sterling indicated purchases for investment. Commercial bills were promptly absorbod for thls purpose as rapidly as they were offered, "and, as has recently been the case, there were lndications that drafts agalnst grain and provisione were belng largely bought in Western markets. A few bankers' short bllls which were supposed to be drawn agalnst the engagements of gold for shlpment to Buenos Ayres were offered on Wednesday. One lot of $\$ 500,000$ gold was eecured early in the week for export to that point, and this was followed on Wednesday by two more lots, one of $\$ 250,000$ and another of $\$ 500,000$, making a total of $\$ 1,250,000$. The shipments were stated to ba on London account to pay for graln which had boen shipped to Great Britain. One noticeable foature was that the an. nouncement on Wednesday that the Panama payment could be made wlthout further delay did not seem to bave any stimulatigg effect upon the market, indicating that speculators were apprehensiva of loss if they bought in expectaiion of resale to the bankers who would conduct the operatlou of transfer. Moreover, there seems to be some uncertaluty as to the amount of the Panama pryment which will bereo milted to Europe, it belng roported that considerable sums of the Cazal stock are held in this country, bar. ing been jrarchased in Pariz about tho time that the shares were deprossed because of the rofusal of Colombis to ratip the first treaty. If mach of the stock is hold here the sum required to be remitted to French owners will of course berefuced by the amount of the Amorican holdings, aid suffiolent exchange or credils may have already been recared to (ffict the transfer. Therefore purchases of exchiunge on speculation might provo to be anprofitable. So far as the pay-
ment to Panama is concerned, it is understood that $\$ 8,000,000$ of the $\$ 10,000,000$ will be invested in ihls country and the remainder of the money may be shipped direct to Panama. The Assay Ofice paid $\$ 1,208,15268$ for domestic bullion. Gold received at the Castom House during the week, $\$ 116,310$.

Nominal quotations for sterling exchange are $484 \frac{1}{2}$ for sixty day and $487 \frac{1}{3}$ for sight. The market was easy on Saturday of last week, and, compared with rates at the close of the previous day, long fell 15 points, to $48350 @ 48360$, and short and cables 10 polnts, to 48640 @ 48650 for the former and 48690 @ $48 \%$ for the latter. On Monday there was a recovery of 40 points in long, to $48390 @ 484$; of 25 polnts in short, to $48665 @ 48675$, and of 20 polnts in cables, to 48710 @c 4725 . On Tuesday the tone was easy at a fall of 20 points for long, to $483 \%$ @ 48380 ; of 10 polnts for short, to $48655 @ 48665$, and of 10 polats for cables, to 487 © 48710 . On Wednesday there was a further decline, long being 5 points lower at $48365 @ 48375$; short 5 points at 48650 @44 8660 , and cables 10 points, to $48690 @ 48 \%$ There was a recovery on Thursday of 10 polnts all around, long to 48375 @ 48385 , short to $48660 @ 48670$ and cables to $487 \times 48 \% 10$. The tone was steady on Frlday.
The following shows daily posted rates for exchange by some of the leading drawers.

## A LONG OR A SHORT WAR?

Rassia apparently expects no favorable results at present in her contest with Japan; she seems to pin her faith wholly on a long war. Writing in our "Financial Situation" last week on the chances of that hope boing realized, and reasoning in favor of a short contest, we asked: What more does Japan need than simply to retain what she has already elther gained or is cbrlously in process of gaining? In oxplanation of the question me sald, in substajce, that she had at this time enforced her pre-eminence in Corea, she had taken possession of the more substars. thal parts of its territory, and had made a treaty with its Emperor--then just executed, but since published In full--guaranteeing the independence and integrity of that Power, and in consideration of that gaaraniy had obtained a protectorate of Corea with extensivg privileges of a millitary character permitting the occu. pation of Oorean territory with troops and the building of fortifications at strategic points, that is whenever circumstances required it. These gains we stated put Japan in position to secure all that she asked respect. ing Corea before the war began. Let the war, we added, progress for another brief perlod along the same lines it has hitherto developed, it would seem as if a sltuation would be reached which would leave nothing in that direction for Japan to fight for. Of course Manchuria, so far as it obstructs the open door or threatens Japan's autonomy, are likewlse at issue ; but Japanese movemonts for acquiring security in those directions are proceeding well and are even now in a stato promising successful results.

The purpose we had in mind in maklng those sug gestions was to enforce, as the correct polioy for Japan, the confining of the war strictly to the removal and permanent termination of the causes of irritation Which gave rise to it. The Czar and his milltary advisers, ever since Russis's early losses on the water, have been buoying themselves up and quieting public fears by visions of successes sure to be obtalned in the far future through a typo of strategy in vogue in 1812. What has Japan to do with all that? We have been greatly pleased to see thls week the opinton on this point of the military correspondent of the "London Times" published in that journal Febramery 29 aud cabled to the "New York Timees" for its lsaue of the same date. That correspondent wisely aske and answars the question-if Rassla is determined to fall back on Harbln ( 400 miles from the sea), which at the moment seems prebable, what is the proper coure for Japan to pursue? Would it be wise for her to follow and attack Russia on her chosen ground? No, he sayz; let Russia be undisturbed at her new base, gathering, if ahe wills, 5,000 milles away from her true base, an immense arme. In that case the only propor course for Japan, according to thls milttary expert's judgnent, is to take and hold Port Arthur, Corea, Visdivostok. That, he says, pould nud Rassian dominion in East Asia. "Esiablished at these three points the Japanese can make themselves si strovg that so long as they retain command of the sua and hold their army in leash they can consider heir position impregaable." Thus sitanted the relativo plight of the two armes would be with " 1812 reversed." That fe, with Rassia "cursed with all the disudvatages of Napolcon's fatal smbition. The Japanese army remaius fatact and the navy anspent, and take what couree Ruseia mav, she remains expcised
to su offensive return along all her wide frontage of ses by the concentrated welght of her onomy's arme."

If we place theas anggestions in connection with the vulnerable financial position which wo have shown on preflous occasions Rasala just now helds, a long war would soem to be rery improbable. Looking at the combatants through the extont of torritory possessed by each and tholr relatiro population atatistica, as many do, it is donbtless natural to fall into a belief that the war will never end oxcept with the exhaustion of one of tho belligerente, and that, in the matter of enduranoe, the chances are decidedly on the side of the bulkler Power. So far as the affair has developed up to this date, the idea that success follows size finds no encouragemont. Moreover, even the proposal to try the 1818 strategy exposes Rassia to the suspicion of decrepitude, suggesting no growth in ideas during the last century; and if pat into practice would, as we have seen, prove a source of exhaustion to Russia and, if wissly used by Japan, the opportnnity for a fuller victory over her enemy.

Then again the command of the sea, which it is belleved Japan has already secured, is a factor the lmportance of which can hardly be over. estimated. This is pre-eminently the age of napies. A wider extent in square miles of territory or much larger capabilities for recruiting an army do not count for mach when the sea has passed to the other belligerent's control. Oar war with Spain was practically decided May 1 1898, when Dewey took Manila and destroyed the better part of the Spanish navy whlch was collected there. Had it not been for the daring and completeness of that operation, judging from the character of the futare events by land and sea, which make up the eubsequent history of that contest, the war would have been no hollday affair. After Dewey's success of conrse there remained the Oape de Verde fleet, bat its only chance of survival lay in keeping concealed and avolding a fight. Russia and Japan as sea powers are believed to be situated on the water to-day very similarly to the United States and Spain subsequent to May 1898.

## TAXATION OF BANR FRANCHISES IN CALIFORNIA.

A decision of grest importance to all the financial interests in California has just been handed down by the Supreme Court of that State. The case related to the taxation of bank franchises, bat covers virtually every sort of corporation franchise. It is known as the "Bank of California vs. the Clity and County of San Francisco," and was decided February 181904. The decision is to the effect that the franchise of a banking corporation, that is its mere right to be a corporation, is taxable as property, and that the valuation of such a franchise for purposes of taxation is a matter entirely withln the discretion of the assessor and not subject to revlew by the conrts. The case in. volved an assessment of three-quarters of a million on the franchise of the Bank of Callfornia. This as sessment was contested by the bank on the ground that fta franchise was not taxable property, and even If it were could not be valued justly at such a large a mount.
The case arose from the peralstent endeavors of the assessors to reach the personal property represented by money and credits and in the main by deposits in the banks. Under the tax law of Callfornia, money
in bank is taxable to the depositor. But as the de. positor usually refraine from declaring the amount he has in bank, thls sort of property escapes taxation almost entirely. Moved by a desire to get some representation of this elusive property on the tax-rolls, the assessors for some years past have been assessing the banks apon their tazable property with ever Increasing severity. Thus, while real estate in San Francisco is assessed at not over 60 per cent of its value, the banks are assessed upon the full value of all their taxable property.

Owing to the fact that bank-notes, like other forms of paper monoy, have a very limited circulation in Callfornia, there has been little inducement for the banks to enter the national banking system, and many of the largest banks were incorporated under State charters. The effect of this decision may be to drive some of these to become national banks. A similar outburst of severity againgt the banks a few years ago had that result. In and about the year 1896 a number of banks took refage under Federal law to escape the assessor. At that time the tax laws made rather inadequate provision for the taxation of national banks, and thls movement led to an amendment of the law making it possible to tax national banks in California according to that method which is prescribed by Federal statate and sanctioned by the United States courts. The assessment of franchise, therefore, affects only those banks which still retain their Slate charters.
The Constitution of the State contains a list of things lncluded ander the head of taxable property, and in this list are franchises. It further provides that all property shall be "taxed in proportion to its value." It was orlginally sapposed that this provision applied only to the valuable franchises of a monopolistic character held by public service corporations and the Hke. In one of the earlier cases the Supreme Court had defined "franchise" so as to include only this sort, and there never has been until the present case a clear-cut decision as to whether the simple right to be a corporation was a taxable franchise. Hence the importance of this decision. It represents a decided innoration in taxation in Callfornla, and if enforced in a logical way will very materially cut down the earnings of corporations.

The method heretofore approyed by the courts for the assessment of the valuable franchises of public service corporations and the like was to deduct from the market value of the stocks and bonds together the assessed value of all tangible property. The same method was proposed as the correct method for determining the assessable value of the simple right to be a corporation. It was the method followed by the assessor in this case. He found the tangible property of the bank to be, in round numbers, $85,000,000$; its stock to be worth $\$ 8,000,000$, the difference being $\$ 3,000,000$, the value of the franchise, although assessed for parposes of taxation at but $\$ 760,000$. It was contended on behalf of the bank that its corporate franchise was not so valuable as this, as it could be duplicated by any four or more persons for fthe relatively small fees for incorporation, and was not vendible. Nevertheless, the Court decided that [it "could not say that the amount at which the franchise was assessed was either anjust or excessive." In a strong dissenting opinion the Chief Justice called attention to the faot that this was virtually an assessment on the good-will of a corporation, and as the
good-wlll of natural persons engaged in business was not to be rssessed, it was unjust to discriminate against that of corporations.
The decision was not ananimous, two out of the six Justices who heard the case dissenting, and it is posslble that a rehearing may be granted.

## THE PENNSTLVANIA RAILROAD REPORT.

The full report of the Pennsylvania Railroad for the late calendar year confirms the favorable impres. sion created by the early preliminary statement to which we made brief allusion last week. The strong feature of the income exbibit for the twelve months is the fact that the company was able to meet the heavier requirements for dividends and interest and yet make a very large appropriation for improvements and sinking funds out of the year's earnings. The call for the 6-per-cent dividends was $\$ 14,792,931$; over and above the requirements for this parpose there remained a balance on the operations of the twelve months large enough to allow an appropriation of $\$ 9,472,728$ for extraordinary improvements and for payments of $\$ 3,240,849$ on account of principal of oar trusts and for sinking fands. Stated in another way, $\$ 14,792,931$ was paid out in dividends and $\$ 12,713,575$ was applled in debt reduction and towards improvements. As was pointed out last week, special sig. nificance is given to this favorable ontcome, because of the great increase in ordinary operating expenses, which consumed almost the whole of the large gain in gross ( $89,963.089$ ), leaving the net from operations on the llnes Esst of Pittsbargh only \$241,104 larger than it had been for the precedling year.

It appears from the detalled income account for the twelve months that the Pennsylvania Rallroad realized $\$ 1,343,708$ more than in the twelve months preceding as interest on Its investments in the securities of other companies. It also received $\$ 365,048$ interest from general account, which apparently means that it was plentifully supplied with cash throughout the jear. There were some important changes in the details of the investments, bat the aggregate cost, or book value, remained substantially unchanged. In other words, the entire cost of the securities of other corporations beld by the company December 311903 was $\$ 224,817,095$, as against $\$ 225,948,825$ for December 31 1902. The direct revenue received from the securities held was $\$ 8,118,861$ for the calendar year 1902 and $\$ 9462,569$ for the calendar year 1903. The retarn on the cost value was $3 \frac{1}{2}$ per cent in 1902 and 4t per cent in 1903. The fact of importance in these figures is that as a result of the recent large acquisitions of other properties the rate of retarn on the investments has risen, whereas a good many persons had supposed it might decline.

The total of Pennsylvania Railroad stock was in. creased during the twelve months in amount of \$92, 043,400 , besides which there is $\$ 4,764,750$ of stock on which 75 per cent has been paid, the remaining Instalment falling due June 25 1904. In brief the addition for the twelve months may be sald to have been 97 million dollars. The two princlpal items in this increase of 97 million dollars were the 75 million dollars stock allotment made March 251903 at 120, and the conversion of $\$ 29,302,500$ of $\cdot 3 \frac{1}{2}$ convertible bonds into $\$ 20,911,650$ stock. It is a noteworthy ciroumstance that of the $\$ 75,094,750$ of stock offered under the allotment of March $251903 \$ 70,249,550$
had been subscribed and paid for in full ap to December 31 1903, notwithstanding the much longer period of time over which the payments might have been ex. tended.
The report tells us that through the funds thas secured the company was able to prosecate vigorously during the year the construction of new lines and branches, the extension of its four-track system, the establishment of additional freight yards and the further revision and improvements of the grades of existing lines, and also to acquire a large amount of addltional motive power and equipment. President Cassatt says that the facilities throughout the whole system were constantly overtared, and thls brought about not only undue expense in the handling of the freight, but also the diversion of a large amount of tonnage to other lines.
Taking merely the lines directly operated between New York and Pittsburgh and the branches connected therewith, the expenditures for new work reached over 44 million dollars- $\$ 44,006,386$-which included 811,830,781 for equipment and shop tools and machinery and $\$ 4,385,71 \%$ for right of way and real estate. The wise methods in vogue on the Pennsylvania Railroad are well illustrated by the fact that only about one half the amount-in exact figures $\$ 22,171,107$-was charged to capital account. Of the remainder $\$ 9,472,728$ was charged against the income of the year and $\$ 12,362,551$ was charged against the preminm realized upon the issue of new stock. Ont of the residue of the premilum realized the sum of $\$ 5,000,000$ was appropriated towards the cost of real estate purchased for the terminal passenger station at New York Clty and the balance was applied in redaction of value of securities and outstanding accounts.

Upon the branch and auxiliary lines there was a further expenditure of $\$ 6,897,188$, which was met by the several companies out of their own resources. It is pointed out that the same conditions whilch necessltated liberal expenditures on the main line also compelled the lines west of Pittsburgh to make large outlays; and this was equally the case with the Northern Central, the Philadelphia Baltimore \& Washington and the Long Island rallroad companies. Large advances were made by the Pennsylvania Rallroad to these roads; and in order to repay these advances and provide for the important work now in progress on their respective systems, the Philadelphia Baltimore \& Washington and the Long Island Railroad each mače an issue of $\$ 10,000,000$ of 4 per cent bonds, those pat out by the Long Island Railroad being guaranteed by the Pennsylvania Railroad.
On the lines west of Plttsbargh the capital expenditures for the twelve months aggregated $\$ 16,222,651$. We also observe that the Pennsylvania Company, through which the affairs of most of the lines west of Plttsburgh are carried on, inoreased the book value of its securities held during the year by $\$ 18,628,163$. The total cost of securlties owned by the Pennsylvania Company now stands at the large figure of $\$ 118,620,328$. Unllke the practice in the case of the Pennsylvania Rallroad's own holdings of securities, no list of the securities held by the Pennsylvania Company appears in the report. In order to relmburse the Pennsyivania RR. for lits advances to the Pennsylvania Company and to put the latter in funds to complete the important work now in progress on its system, that company, as it will be remembered, recently negotiated a loan through

Mespre, Kutu, Lusb it Co. for 18 mouths to the amout of to mlifou dollars. Tho littsburgh Oinctnrat! Cblcago if St. Louls, which forms one of the essleme wett uf Plttsburgh, increased its preferred stock duing the jese in the sum of $\$ 4,750,000$ and a'so cribited Sciles " $F$ " of its consolldated mortgage bowie is the $\varepsilon$ aun of $\$ 10,000,000$, bearing intorcst at 4 parchat add runuing for fifty years from December 1 1:0 3 -ot shlel serles $*$ ? $\mathrm{CCO} 0,0 \mathrm{C} 0$ had been lasucd up to the elcue of 1903.

No deube the tapital expelditures made by the P'uraltena la vilroad and its allied and controlled lines in recese fears seem large. It is large. But it must be remonitrid that the system's traffic and rovenues are of cqual magnitude. In fact cversthing oonnected with the Peldeyleasia is of rast prorortions, and, moreover, the growth of traffic and carnings the last few jcars han been slmply extraordinary. Durlug $19(3$ slone tho further sdaltion to the tonnago movemeut cuo mile was almost 2,000 million toces, this referrirg to all the lices of the system, both those direcily operated ind these controlled but operated throaula 0 inarsle organizstions. Here is a little table showity the rolume of the frolght and the pissenger traftic for mach yeat back to 1898

- nus Mr ight Movement.- Tans One Mile.
1903.... 1902......105,920,398 $25,712,964,290 \quad 123,632,203 \quad 2.857,841,164$ 1902.......260.*17,8:9 $23,327,005,331115,84^{2}, 84112,667,215.343$ $1901 \ldots \ldots .243,463,950 \quad 21,229,565,519 \quad 105,427,321 \quad 2,399,937,055$ $1900 \ldots \ldots 219,07 €, 377 \quad 20.364,663,756 \quad 83,676,446 \quad 1.987,816,698$ $1589 \ldots \ldots 210,101,653 \quad 19,615.028,998 \quad 76,769,080 \quad 1,801,597,048$ 1595........175,565,406 16,320,379,632 71,814,642 1,642,715,043

If will be eeen that in the five years slnce 1898 the tonngge morement one mille has rieen from $16,3 \% 9$ milli n toas to 25,712 million tons and the passenger morment one mile from 1,642 millions to 2,857 millione.

The aggregate length of read now embraced in the $e$ whele Pen $\frac{s}{}$ givania R illroad system falls but little short of elertn thousand miles- 10,914 miles. In 1903 the aggregate gross earnings of this mileage reackid over $242 \frac{1}{2}$ million dollars, being an increase for the twelve months of $22 \frac{1}{2}$ million dollarz on top of succeasive large increases in the years preceding. Only five jara before the aggregate of these groas earnings w-s bat 136 million dollars, so that in the five jears there has been cuiccrease of over 106 mil. lion loliare, ihe ratio of improvement having been reaty 80 per ceat. H!gher rates of course have played to m mortant part in thla great improvement in grose reverues. We do not have the figures for the whole sjs om on. this polut, bat taking the lines directly operated etst LI Pittsburgh and Erle, the average per ton por mile hss increascd from 4.99 mills in 1898 and 4.73 mills in 1899 to 6.05 mills in 1903. In the net earnings the improvement since 1898 has also been very noteworthy, but the ratio of lacrease kere is \#uch emaller than in the cise of the grose, being but litile more than 60 per con:. In the following we give die grosi and net carnings for each of the last six yeare.

|  | $G r .$ |
| :---: | :---: |
| 1902. | 220,4.9 230 |
| 1901 | 130,626,578 |
| 1900 | 175,236,353 |
| 1599 | 152,39 ,083 |
| 1893. | 136,1£0,2- |

addition of ${ }^{2} 22,438,528$ in gross carnings there was actually a falling off of $\$ 401,191$ in net. We all know of course the principal causes of this higher operating cost. They are found in the advanoes in wages and the higher prices of fuel, materlals and, in fact, of almost everything enterlng into the oporating acconnts of the railroads. President Caesatt also lays great stress upon the fact that the facilities for handling and moving the traffic wore constantly overtaxed. Speaking with reference to this point, he says:

The conditions most favorable to an economical movement of traffic existed in 1899, when, although the volume of basinees upon the line between $\mathrm{N}_{\mathrm{tw}}$ York and Pittsburgh was larger than in any preceding year, and 19 per cent in oxcees of that of 1898, the faciliti en, though not overtaxed, were yet fully employed. As a result, tho records show that the cost per ton mille was the lowest in the experterce of the company, having been less than $3 \frac{1}{2}$ mills. But with the continued increase in tonnage since 1899 it has become evident taat the limit of your capactity for reguiar and economical movement was then reached, and that largely increased facllities mast be provided. In 1.903 there ls an increase of 31 por cent over the tonnage of 1899, and while cars and locomotives can generally be procured with reasunable promptness, considerable time is required to baild tracks, yards, shops and other terminal facilities. Ponding the completion of these additional facilities, the congested condition of your system has brought about a large lacrease in the ton-mile cost, which for 1903 was 25 per cent greater than that for 1899. Whi'e the greater portion of this Increase is due to the advance in the rate of wages and the prices of fuel and materlals, the remalnder can only be attributed to the overtaxing of your present facllities and to the detention and loss directly resulting therefrom. It is only by bringing your facilities to the proper standard that an easy and steady flow of traffic can be assured and the minimam cost of movement attalned, and it is to this end that the large ezpenditures of the last two years have been mainly directed.

The n9w capital creations of the year have placed the Ponneylvania Railroad in easy financial condition. The balarce eheot for Dacomber 311903 reports ag. gregate current liabilities amounting to $\$ 43,278,359$ W.th current assets of $\$ 73,159,073$, not counting $\$ 10$, $49 \%, 416$ of matorlals on hand. Ot the $\$ 73,159,073$ of carrent asso s, no less than $\$ 17,191,156$ conslsted of actual cash. There was aiso \$44.57\%:363 due from controlled companies for adva.ces for construction and other parposee. The balance sheet of the Pennsylvan'a Company shows that \$31,827,0\%6 was due the Penngylvania Riilroad from that company alone. The 50 million dollar loan negotiated by the Pannsylvania Company will eaable the latter to make payment of the whole amount in cash, and addlng this to the $\$ 1 \%, 181,150$ cash roported by the Pennsylvanla Railroad in its own balance sheet would glve a total of cash of fully 49 million dollars.

## FAST' RAILROAD SERVICE-UNITED STATES AND GERMANY.

Nearly elzhtoun months ago (Sopi. 20 1902) wo misde some comment vpou an ar icle iu tho "Journal of Po. Hiticai Ecanomy," by Mr. George G. Tanell of Chicago, cuncerning the coinparative speeds of American and Germany railway trains, his article having been called out by recent contribations to an official pablicalion of the Prussida Ministry of Pablic Works by Mr. W. A. Schaizu, whose of juct was to counteract the 1 m pression made in Gormany by numeroas printed statements in Americs and Europa. These statemonts had cansed criticism in G ramany of the State railways
for fallure to keep up with the times on train movement, and were not alwaya careful or always correct. We have now received a reprint of a second article, in the latest issue of the same pablication, in which Mr. Tanell takes ap the subject again, in part replying to a reply of Mr. Schulze to his prevlons article. It is not worth while to go over the whole sabject anew, but Mr. Tunell furnishes something additional which may be examined.

He now andertakes to show the speed of the most famous trains in the world, and to contrast the service between the principal cities of the United States and Germany. He points out that travel between remote points is less heavy than between nearer points of equal importance, and therefore the former makes less demand or reward for high speed; also that mountain ranges to be climbod, ferries to be crossed, and large clties which must be traversed slowly, are on long routes rather than short ones. Hence, as dis. tances increase, speed usually decreases, so that it is jostifiable to exclude the very longest runs, ezpecially when comparing the service in different countries, as otherwlse the conditions would be too anequal. Mr. Tanell also draws now a diatinction which should have been made before and should bs always kept in mind : that between joarney-speed and running-speed. As he points out, the former 13 the more important really, for the traveler's desire is to reach his destination, and "rapid running between stations, assoclated with lounging at stations, does not bring him to the goal any sooner than more moderate bat more continuous ranning does, while it consider. ably increases the dangers of hils journey."

The table of world's famous trains includes 8 A meri. can and $2 \%$ Earopean, the former belng Chicago to San Franclsco by two routes, the Twentleth Century Limited, the Empire State Express, and two from Camden to Atlantic Clty, by two roads, with return trains. The foreign trains (not quite all German) in thls table are increased in number by a c̨ulte fair rule of Mr. Tunell'e, which divides thom into sections when they are in more than one country, so that good service in one country may not suffer by poorer service in its neighbor. The Atlantic Clity servico is at the head of this table, with rates of 64.44 to $67 \cdot 96$, journey-speed and ruuning-speed belag the same, as there are no stops; the Empire State is credited with 54.40 and 53.27 ; the Twontlath Oentury with 49.31 and $48 \cdot 12$. The fastest foreign thme is London to Edinburgh ovar the Great Northorn, 52 "\% 8 and 50.96 for running-speed and journey-speed. The longest runs (Chicago to San Francisco, 2,315 and 8,569 miles, ) maintain a rate of $33 \frac{1}{2}$ to $33 \frac{3}{4}$ running-spoed over the entire distance; from Oztend to Ss. Petars. burg $(1,599)$ the rates are $38 \cdot 60$ and $35 \cdot 30$; from Paris to Madrld (904) 38.49 and $33 \cdot 70$; Parls to Constantlnople $(1,932) 33 \cdot 43$ and $31 \cdot 36$; this Orlent Express, in crossing Turkey, stauds at the foot of the table with 24.94 and 23.81 . In this table the long runs from Chicago to San Francisco are tho only ones not in advance of the German trains.

Mr. Tunell compiles a table, occupylng 24 pages, of all trains in one direction between the chlef ten citien of this country and Germany, San Fraucisco being omitted; if these cities were in line, they would give nine groups of trains for each coantry; as they are, they give 24 Americau and 25 Ggrman. Groap 1 is Now York to Boston, over three lines; group 2, Boston to Buffalo, over two lines; group 3, New York to

Pailadelphla, over two; eto. The summary gives the groups in each country in the order of speed. In thls country, at the head are 55 trains between Nem York and Philadelphla, with average speeds of 43.52 and 41.38 ; at the foot, 7 trains, Buffalo to Pittsburgh, with $32 \cdot 55$ and 29.34 . At the head of the Grman list are 5 trains, Leipsic to Hamborg, $39 \cdot 46$ and $34 \cdot 12$; at the foot, 8 trains Dresden to Munlch, 28.04 and 21.36 . The superior average speed here is thus made very plein, and Mr. Tunell says that he has included the very fastesit trains of Germany but has omitted those betweon Camden and Atlantic City, which are the very fastest here. On the basis of running-spoed, we find, by count, that 37 Gsrmen trains equal or exceed $40 \frac{5}{8}$, which is the minimum that Mr. Schalz 3 considers "fast," and on the basls of juurney-speed there are 13; in this country, by the same somparison, there are 108 and 83 tralns. The summary of the table shows thus:

Toe sabjec: is not of the utmost importance, we must admit, and whether this country or Germany really leads in point of spoed, it is to be supposed that matters the world over would go on about the same as asual. Yet the subject is at least interesting, and perhaps especially so $\ln$ that wo now have brought out some data as to actual spoeds collated.

RAILROAD GROSS AND NET EARNINGS FOR THE CALENDAR YEAR.
Just four weeks ago we published our corapilation and revlew of the gross earnings of United States railroads for the late calendar jear, showing that 1903 had been distinguished for a very large further increase in the revenues of our railroad transportation lines, notwlthstanding the many adverse circumstances and conditions that had marked the course of the year. In amount the improvement was the largest in the whole series of gains that have followed anInterruptedly since the defeat of the Sliver Party in the Presidential election of 1896. In presenting these figures of gross receipts, we remarked that the showing as to net would be far less favorablo, owlag to the great augmenfation in expenses which had occurred. This assertion finds full corroboration in the exteuded compilations covering both gross and net earninge Which we furnish to-day in this article,

Our tables are exceedingly comprehensive, but do not quite cover the entire railroad system of the country. Among the large systems, the Chicago Burliogion \& Quincy, the Great Northern and the Northern Pacific cannot be included, since these, though making returns of gross earnings, do not supply statements of net except in theirannaal reports The Rock Island Company must also perforce be omitted, since in the cass of thas company mileage
has tieen so greatly changod as to make comparison with the preflous year valueless. Taklag tho roads for which wo have the proper comparative figures as to both gross and not, and which embrace an aggro. gate leagth for 1903 of $162,497 \mathrm{mlles}$, our totals show an Increase in gross in the lmposing smount of -186,024,638. Eularged exponses, however, have consumed no less than $8137,321,085$ of thls improvemont lu gross, learing only $848,703,553$ galn in net.
Bat this does not reflect to the fall extent the part plaged by highor operating exponses in the affairs of the roads. Abont one-half the lncrease in net has beed contrlbutod by the Authracite Coal group, which for a speclal reasou was farored by extraordinary galns in both gross a ad net. These rosds in the previous year (1902) suffered great losses by reason of the suthracite miners' strike, lasting for noarly six months, and for the greater part of 1903 the same roads were working their mines to almost full capacity, making sn unusually striking contrast between the two years. If we should eliminate this group of roads by deducting the $\$ 35,674,581$ increase $\ln$ gross and the $224,579,611$ lacresse in net which that group shows, then wo would have for the remaining roads $\$ 150$, 350,057 improvement in gross with only $\$ 24,123,942$ sddition to net. In other words, on that basis we would find that out of $150 \frac{1}{3}$ millions gain in gross $126\}$ millions had been consumed by augmented ex penses. The following comprises all the roads for which we have reports, includling tine anthracite coal roads. It wlll be seen that the grand aggregate of the grose for 1903 is $\$ 1,733,784,055$ and the grand aggregate of the net $\$ 552,260,59 \%$.

| January 1 to December 31. (167 roads.) | 1808. | 1808. | Increase. |  |
| :---: | :---: | :---: | :---: | :---: |
|  |  |  | Amount. | Per Cent |
| 3lles of rosd. | 162,487 | 169,174 | 8,329 | 2008 |
| Gross earnlagt................. | 1,733.784.055 | 1,547,759,417 | 186,021,633 | 1202 |
| Operating expenses | 1,161,523.458 | 1,041,202,373 | 137,821,083 | $13 \cdot 15$ |
| Not earnlngs....... | 552.280,607 | 503.557.04, | 48.703.553 | $8 \cdot 67$ |

What gives special emphasis to the small gain in net for 1903 is the fact that in the previons year rising expenses had already become an exceedingly Important feature. For 1902, Indeed, the addition to ex. penses had exceeded the increase in gross, leaving an actual loss in net. To be exact, our tables then showed $\$ 81,947,385$ Increase in gross, with $\$ 85,113,495$ aug. mentation in expenses, causing $\$ 3,166,110$ decrease in net. Prior to 1902 the results as to net were much more satisfactory. Here is a table showlng the grand aggregates for each of the years back to 1890, the fig. ures in each year covering all the roads contributing returns as to gross and net.

While the Increase in gross for 1903, according to tho table above, is $8186,024,638$, in a table which we present at the end of thls article, and whloh deals with gross earnings alone (enabling us to include roads roportlng iss to gross but not as to net), the Increase actually reaches $\$ 202,193,361$, though there are still some roads unrepresented. In our prevlous arthcle we had estimated the improvement for the twelve months (could we have had returns for all the roads in the country) at $\$ 200,000,000$. Obvlously we shall now have to ralse our estimate. We should judge that the increase in gross earnings for the whole United States system must have aggregated in the neighborhood of $\$ 210,000,000$. The improvement in net in that case would probably amount to $\$ 50,000$, 000 , this including the anthracite roads, with their $\$ 24,000,000$ increase in net. On prevlous occasions we have computed the gain for the whole Ualted States system of roads for 1902 at $\$ 10 \mathrm{~B}, 000,000$ in gross and at $\$ 2,000,000 \mathrm{in}$ net ; for 1901 at $\$ 165,000$, 000 ln gross and $\$ 70,000,000$ in net ; for 1900 at $\$ 120$, 000,000 in gross and $\$ 32,000,000$ in net ; for 1899 at $\$ 140,000,000$ in gross and $\$ 55,000,000$ in net; for 1898 at $\$ 90,000,000$ in gross and $\$ 30,000,000$ in net; and for $189 \%$ at $\$ 75,000,000$ In gross and $\$ 45$, 000,000 in net. Bringlng all these together, we get the following striking results covering the last seven years.

| Increase in- | Gross. | Net. |
| :---: | :---: | :---: |
| 1903 over 1902.. | 210,000, 000 | \$50,000,000 |
| 1902 over 1901.. | 105,000,000 | 2,000,000 |
| 1901 over 1900. | 155,000,000 | 70,000,000 |
| 1900 over 1899. | 120,000,000 | 32,000,000 |
| 1899 over 1898. | 140,000,000 | 55,000,000 |
| 1898 over 1897. | 90,00 1000 | 30,000,000 |
| 1897 over 1896 | 75,000,000 | 45,000,000 |
| 1903 over 18 | . $8895,000,000$ | \$284,000,000 |

It thus appears that in the seven years siace the Presidental election in 1896 there has been an addition to the gross earnings of Ualted States railroads In the prodiglous sam of $\$ 895,000,000$, and an increase in net in amount of $\$ 284,000,000$. In other words, Ualted States rallroads earned $\$ 395,000,000$ more gross and $\$ 284,000,030$ more net In 1903 than they did in 1896.
For the tlme belng of course we have reached the culmination of thls wonderful expansion in revenues. Indeed, the change was already observable towards the close of 1903. In November and Dycember the gains in gross recelpts fell to small proportions, and failed to equal the increases in expenses, so that both months recorded small losses in net, as may be seen by the followlng table.
arose and net earnings.

| NoTE.-The number of roads inoluded in January was 105; in February 106; in Maroh 107; in April 109; in May 101; in June 86; In Juiy 106; in Angust 114; in September 112; in Ootober 108; in November 106; in December 99. The Mexican roads are not included in any of the above comparisons, nor aro the oobl-mining operations of the anthracite coal roads included. |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |

In the case of the separate roads, the evidence of a higher operating cost is plainly manifest, except among the anthracite coal roads, which, for a special reason, as we have already shown, had extraordinarily favorable returns. The Pennsylvania Road, on its lines directly operated east and west of Pittsbargh, has $\$ 15,866,839$ increase in gross, with only $\$ 18,800$ increase in net; including the lines controlled but separately operated, the grand aggregate of increase in gross for that system is $\$ 22,438,528$, with $\$ 401,191$ decrease in net. The New York Central, with 87,995,879 gain in gross, has only 8493,281 gain in net; the Atchison, with $\$ 6,513,730$ addition to gross, has no more than $\$ 925,648$ addition to net; the Lake Shore \& Michigan Southern, though having 84,162,708 increase in gross, has but $\$ 137,984$ increase in net; the Wabash, with $\$ 2,585,414$ gain in gross, made $\$ 40$, 725 loss in net, etc., etc. In the following we bring together the principal changes in gross and net earnlngs for the separate roads. The table is intended to show all gains and all losses in elther gross or net exceeding $\$ 100,000$.
prinotral obanger in Gross and net babnings for 12 Mos.
 Y Covers lines diretil operated east and westof Pittsbarg and Erie Division) increased $\$ 9,963,039$ and the gross on Western lines increased $85,903,750$; the net on Eastern Ines inoreased $\$ 241,104$ and on Western lines deoreased $\$ 222,304$. Including the , lines controlled but operated separately. the aggregate increase in gross east snd west of Pittsburgh and Erie reaohes $\$ 22,438,528$, while net deoreased $\$ 401,191$
on Grand Trunk Western and Detroit Grand paven, but eleven months on Grand Trunk Western and Detroit Grand Haven \& Milwankee. eleven and a halt monthe in 1903, whioh lines were not included for any part of 1902 .
8 Figures are for ten months to Oot. 31 only in both years.
$z$
Flgures cover oleven monthe of the
$z$ Figures cover eleven months of the year only; June not included.
When arranged in groups, the prominent part played by higher operating expenses becomes still more manifest. It happens that no group records a loss in either gross or net, but in a great many of the groups the improvement in net is decidedly small slongside the gain in gross. The trank line roads seem to have fared worst of all, for with $\$ 54,604,188$
improvement in gross, they have only $\$ 5,251,003$ gain in net. The Middle States group, with 87,094,770 gain in grose, has added but $\$ 465,201$ to net. The Northwestern group is not altogether complete, since it lacks the Chicago Burlington \& Quincy, and the Northern Pacific group lacks the Great Northern and the Northern Paclif; but the general result on the roads reporting is the same as in the case of the other groups. The Southwest and Soath Paclic groap, with $\$ 25,031,116$ larger gross, has $\$ 4,890,666$ gain in net. The Anthracite Coal group of course stands in a class by itself, showing $\$ 35,674,581$ gain in gross (or 33 per cent) and $\$ 24,579,611$ gain in net, or 75 per cent.

As already stated, besides the roads which supply exhibits of both gross and net, there are some which furnish returns as to gross alone. These Include the Ohlcago Barllngton \& Qalncy, the Northern Paclic, the Great Northern, the Texas \& Pacific, and a few others. Starting with the total of the gross in the above, we add this additional set of roads, and thereby obtain a total comprising every road in the country from which we have been able to procure or to make up figures of gross earnings for the twelve months of the two years.

ITEMS ABOUT BANKS BANKERS AND TRUST CO'S
-The public sales of bank stocks this week aggregate 119 shares, of which 78 shares were sold at auction and 41 shares at the Stock Exchange. The transactions in trust company stocks reach a total of 450 shares. Seventeen shares of stock of the old Fulton National Bank of the par value of $\$ 30$ each, upon which 175 per cent has been raid in liquidation, were also sold at auction for three dollars, but are not included in the table below. In the curb market a lot of 100 shares of Merchants' Trust Co. stock was cffered on Wednes. day and sold at 150. The last anction sale of stock of this company was made on Feb. 10 at 235.

shares reduced to $\$ 50$ each.
-The respective boards of directors of the Leather Mannfacturers' National Bank, 29 Wall Street, and the Mechanics' National Bank, 83 Wall Street, have this week passed resolntions unanimousiy approving the proposed consolidation of these old institutions. At present the Leather Manufacturers' National's capital stock is $\$ 600,000$ while the Mechanics' is $\$ 2,000,000$. If the consolidation receives the sanction of the stockholders, at special meetings to be held April 11th, the combined banks will be known as the Mechanics' National Bank and have $\$ 3,000,000$ capital, $\$ 3,000,000$ surplus and average deposits of about $\$ 18,000,000$. It is understood that the terms of the merger coutemplate the exchange of stock on an absolute equality of assets, giving the stock holders of both institutions the privilege to subscribe for a certain amonnt of additional stock at par. We are informed on good anthority that the organization of the new Mechanics' National Bank will be about as follows: Garrett W. McGarrah, President; Alexander E. Orr, Nicholas F. Pal mer, Andrew A. Knowles, Vice-Presidents; Frank O'Roe, Cashier, and Robert U. Graff, Assistant Cashier.
-Mr. William Logan, Cashier of the Hanover National Bank of this city, died on Monday night at his residence in New York. Mr. Logan entered the employ of the bank in 1881 as a junior clerk and worked his way up through successive stages to the cashiership, which he attained in 1900.
-Messrs. Charles G. Gates \& Company, succeeding the old Stock Exchange firm of Harris, Gates \& Company, 18 Wall Street, commenced business on March 1. Charles G. Gatts is senior member in the new concern, while John W. Gates and John Lambert are special partners. The new firm was the recipient of several large and beantiful floral pieces from its well-wishers on Tuesday. One of these, an immense horse. shoe bearing the motto "Success," was a gift from the company's employees. It is understood that John W. Gates contributes $\$ 1,000,000$ and John Lambert $\$ 150,000$ to the new concern's capital.
Mesars. Charles G. Gates \& Company will maintain their present Chicago beadquarters in the "Rookery" bailding besides opening additional offices in the new "Railway Exchange Bailding" on Michigan Avenne and Jackson Boulevard, as soon as that structure is ready for tenants. The firm will occupy the ground-floor corner offices, and they hope to get possession before May 1 ,
-Messrs. H K. Burras \& Company moved this week from their old quarters in the Mills Building into larger and elegant offices on the ground floor of 52 Broadway. The firm, members of the New York Stock Exchange and the Chicago Buard of Trade, have recently established a grain department with private wires to all grain centres. Messrs. Howard K. Burras, A, Frank Beales and John S, Dickerson Jr. compose the co-partnership.
-The first annual convention of the New Jersey State Bankers' Association was held at Atlantic City on February 26 and 27 . There were about 250 representatives of various banks present and many interesting addresses were made, among them being one by Hon. Leslie M. Shaw, Secretary of the Treasury. Hon. William C. Heppenheimer, President of the Trust Co. of New Jersey at Hoboken, spoke on "Special Departments of Trast Companies" and Col.James R. Branch, Secretary of the American Bankers' Asscciation, addressed the convention on the sabject of "Advantages of Bankers" Associations," while Hon. Edward S. Campbell, President of the Nationsl Newark BankingCo., spoke on "Collections and Exchange; Should We Charge Oar Depositors'? Among the other speakers of note were Gov. Marphy of New Jersey, United States Senators Dryden and Kean, Congreseman Fowler, Attorney General R. H. McCarter and Mayor Mark Fagin of Jersey City. New officials were elected as followst President, Uzıl H. McCarter, President of the Fidelity Trus: Co. of Newark; Vice-President, Wilbur F. Rjse, Cashier of the National State Bank of Camden; Treasurer, Henry G. Parker, Cashier of the National Bank of New Jersey in New Branswick; Secretary, William J. Field, Jersey City. The Executive Committee consists of Edward C. Stokes and Wiliiam C. Heppenheimer.

- A trust company for Vineland, N. J., is being organized, a charter for one with $\$ 100,000$ capital having been applisd for. The incorporators are: Mesers. M. J. Kimbsll, D. Harry Chandler, L. Newcomb, L. H. Miller, Eli B. Hendee, H. C. Bartiett, E. M. Wallington, A. K. Richman, K, Hoffmann, H, H. Pond, John Northrop, J. M. Simkins, W. Macgeorge, William Chambers, and others.
- A trust company is also being organizsd for Irvington, N. J., the capital stook to be $\$ 100,000$. It is stated that application for a charter will be made in the near future. Among those interested are: Messrs, Edward D. Tattle, Nicholas Weber, Francis Green, Warren T. Frey, Josoph Walker, Frederick W. Tidey, E. Boerger, Joseph T. Castles and George Brandenburgh.
-Alfred C. Twining and David C. Cornell, respectively President and Treasurer of the Monmouth County Trast Co of Asbury Park, N. J., were again convicted on March 2, this time of making a false entry on the company's book concerning the parchase of 352 shares of atock of the First National Bank of Asbury Park, jast before the failure of the latter institation. This makes the third conviction of the men and seven indictments remain to be tried.
-Messrs. Estabrook \& Co. of Boston removed on March 1 to their new offices in the Easton Building, at No. 15 State Street, where they are occupying the entire ground floor and about half of the second floor.
-Mr. W. C. Williams, formerly Vice-President and Cashier of the National Suffolk Bank of Boston was on Tuesday elected a Vice President of the Boston Safe Deposit \& Trast Co.
-Mr. M. H. Lowe, Assistant Cashier of the Mechanics' National Bunk of Worcester, Mass., has resigned, and has been sacceeded by Mr. N. H. Keyes, who had been teller of the institation for several years. Mr. Lowe entered the em. ploy of the bank as an office boy in 1864.
-The Taunton Safe Deposit \& Trust Cumpany of Tannton, Mass., clossd its doors on Feb. 37 as a result of an injunction obtained by the Massachusetts Savings Bank Commission ordering the institution to discontinue basiness. At the hearing in Boston on Monday, Judge Loring appointed Mr. Fred. S. Hall as receiver, Mr. Hall to furnish a bond of $\$ 50$, 000. Total liabilities, it is stated, are $\$ 515,000$. It is thought that bad debts will wipe ont the entire capital of $\$ 20 c, 000$. The canse of the suspension, it is stated, is doe to anprofitable investments. The Taunton Safe Doposit \& Trust Company commenced business in 1897 and had on Oct. 81 1903 a capital of $\$ 200,000$, surplus and andivided profits of $\$ 11,154$ and deposits of $\$ 391,812$.
-As foreshadowed in our iesne of Janaary 10th, General E. S. Greeley has resigned as President of the Yale National llank of New, Haven, Conn., and Mr. John T. Manson has been electod to encceed him.
-It is ramored in Phlladelphia that a new bank is to be organized in that city with a capital of $\$ 250,000$ and that a charter will shortly be applied for. The new bank, it is stated, will cater eapecially to the smaller merchants of the city and will be a State iustitntion.
- In pursnance of its plan to reduce the capital from $\$ 2,000,-$ 000 to $\$ 1,000,000$ - as stated in these columas some time ago the Federal Natlonal Bank of Plttsbnrgh, according to local papers, snnonacesits intention of exchanging the present certilleates for the new certifioates after March 1. As the astional banking law requires the issaance of whole shares, the institution will buy or sell the odd shares at $\$ 100$ each.
-According to Cincinnati papers, 1,689 shares of stock of the Helvitis Sarings iE Banking Co. of that city have been sold by Messrs. B. H. Kroger and Leo Van Lahr to directors of the institution at $\$ 8150$ per share, the par value being $\$ 10$. Mr. Van Lahr will accordingly resign from the board, bat bis enccessor bas not yet been chosen. The bank has a capital of $\$ 50,000$ and a surplus of $\$ 60,000$.
-Stockholders of the Colonial National Bank of Cleveland on Monday ananimously ratified the proposed merger with the Union National Bank-details of which were given in onr issue of January 16th. The stockholders of the Union Nationsl will meet to vote upon the proposition on March 17th. It is expected that the enlarged institation will open for business about April 2.
-As indicated would be the case in our issue of Jan. 28, the consolidation of the Second National Bank and the Citizens' National Bank of Akron, Ohio, has been completed. The new institution will retain the name of Becond National Bank. Its capital is $\$ 350,000$, while deposits now, it is stated, amount to over $\$ 1,500,000$. The following officers have been elected : President, Henry Robinson; First Vioe-President, B. W. Robinson; Second Vice-President, C. I. Bruner; Cashier, Geo. D. Bates; Assistant Cashier, L. B. Brown.
-The "Chicago Tribane" will soon publish a small but complete hand-book of 52 pages, containing a clacsified directory of the varions financial institutions of the cityincluding principally banks, trast companies, bond houses, insurance companies, credit agencies, commercial paper firms, stock brokers, Board of Trade and commission houses generally. The title of the pamphlet will be "Financial and Insurance Index of Chicago," and it should prove a convenient pooket guide to many who have not ready access to the balky City Directory.
-The stock and bond house of S. B. Chapin \& Company, Chicago and New York, in view of the dallness on the Stock
 mission business, and to this end has taken three new memberships on the Chicago Board of Trade. These have been parchased by F. D. Countiss, Tracy L. Turner and William Ewald, members of the firm. Mr. S. B. Chapin already owns a membership.
-With the dissolution of the firm of Harris, Gates \& Company on March 1, John F. Harris and Samuel C. Scotten retire and continne in the grain commission business under the old firm name of J. F. Harrls \& Company, with offices on the fifth floor of the Chicago Board of Trade Bailding. It is reported that they will absorb the old commission house of Richardson \& Co. Mr. Rudolph Desjardius will remain as office manager with J. F. Harris \& Co.
-Beglnning March 1 the firm of Charles W. Gillett \& Co. will succeed Gillett \& Denniston, carrying on the brokerage busivess in grain and stocks in the National Life Building, Chicago, Mr. Denniston has acospted the management of the new grain department of S. B. Chapin \& Co.
-At a recent meeting of the directors of the Drovers' Deposit National Bank, Chicago, Edward Tilden was elected Vice-President to succeed John Brown.
-The National Bank of St. Joseph in St. Joseph, Mo., is mailing to its friends and patrons a very attractive little pamphlet entitled "Not Bailt in a Day." This book, which is beantifully illustrated, is 'descriptive of the bank's new home on Felix Street, which, if we may judge from the illustrations, compares favorably with the quarters of many of
the large financial institations in the East. The exterior, the style of architectare of which is an adaptation of the Roman Doric, is of buff Bedford stone, excepting the base course, which is of gray granite. The bailding, which is only one story in height, is ocoupied entirely by the bank. The main room is wainscoted with green marble and is decorated in green and gold, while the woodwork is entirely of selected mahogany. The basement of the building contrins a complete safe deposit vault department equipped with all modern protective devices. The officers of the institution are Mr. L. C. Barnes, President; Mr. Haston Wyeth, Vice ${ }^{-}$ President; Mr. James N. Burnes, Vioe-President, and Mr. E' D. Mcallister, Cashler.
-The Bankers' World's Fair National Bank of St. Lonis, which has been organized to do a general banking business during the Loalsiana Parchase Exposition-as stated in our issue of Febrasy 6-has completed its organization by the election of the following officers: President, H. A. Forman; Vioe-Presidents, C. H. Hattig, Augast Gehner, R. R. Hutoh: inson, William H. Thomson and N. A. McMillan. The Cashier and Assistant Cashier, who will be the only active officials, have not yet been chosen. It is planned also to have a safe deposit department, with a capital of $\$ 100,000$, the directora being the same as those for the bank. The safe deposit department will comprise 2,500 deposit boxes. The operations of both institutions will cease at the termination of the Exposition.
-Mr. Walter H. Doyle, President of the Citizens' Bank of Norfolk, Va, died in Norfolk on Febraary 29.
-Messrs. J. R. Perdue, Thomas B. MoAdams and George F. Keesee have been elected Assistant Cashiers of the Merchants' National Bank of Richmond, Va.
-The Commercial Natlonal Bank of New Orleans on March 1 took possession of its new quarters at Carondelet and Common streets. The new offices of the bank are finished in the most modern manner, the working space being enclosed with marble and bronze grille, while the entire room is finished in white.
-The Execntive Committee of the Texas Bankers' Association have set May 3, 4 and 5 as the dates for the annual convention of that body to be held in El Paso.
-The annual coavention of the California Bankers' Association will be held in Los Angeles on May 19, 20 and 21.
-Messrs, A. E, Ames \& Co. of Toronto, who, it will be remembered, failed some time ago, announce by circular letter that, as a large majority of the firm's creditors have consented to the plan to tarn all assets over to a holding company, they have accordingly made an agreement with the Securities Holding Company, Ltd.-which was organized for the parpose-to turn over all, or as much as may be necessary, of the net earnings of the firm for the next five years. The new company has issued $\$ 600,000$ of 6 per cent camalative preferred stock and $\$ 45,000$ of common stock, the preferred stock being distribated to the unsecured creditors in amount of $\$ 522,991$. Unseoured creditors may therefore now obtain preferred stock in settlement of their claims.
- Messra. D. Appleton \& Company have recently pablished their new book on "The Modern Bank," by Amos Kidder Fiske (Associate Editor of the "Journal of Commeroe"). The writer does not attempt a disoussion of "theories and principles or to give a history of banking or the different systems, bnt describes in the plainest terms the various functions of the present-day bank in the United States and the methods by which its work is done." For this purpose one of the largest banking institutions in New York City was taken as a model. After a few terse explanations on elementary principles and general banking methods, Mr. Fiske carefully considers the varions departments, methods and functions of the modern bank. There are also supplementary chapters on such kindred subjects as trast companies, saving banks, private'banking houses, foreign exchange, safe deposit companies, besides a short stetch of the development of banking and the British, German, French and other Earopean systems. The book contains thirty-six illustrations. The author consulted with the following well-known New York bankers in preparing his woris: Mr. James G. Cannon, Vice President of the Fourth National Bank; Mr. A. S. Frissell, President of the Fifth Avenue Bank; Mr. Charles A. Conant,

Treasurer Morton Trust Company; Mr. Beverly Chew, Second Vice President Metropolitan Trust Company; Colonel Charles E. Sprague, President Union Dime Savinga Bank, and Mr, Henry Goldman, of Goldman, Sachs \& Company. "The Modern Bank" is the seventh consecntive volume to appear in Appleton's "Business Series," The other books in the "Series" includes "Funds and their Uses," "The Work of Wall Street," "Trust Finance," Financial Crises," "Clearing Houses" and "American Railway Transportation."

Canadian Bant Clearings. The Clearings of the Canadian Banks for the month of February, 1904, show ${ }^{2}$ deorease from the same month of 1903 of $2 \cdot 6$ per cent and for the two months the loss reaches $5 \cdot 6$ per cent.

Clearings by Telegraph.-Sales of Stocks, Bonds, \&c.The subjoined table, covering clearings for the current week, usually appears on the first page of the Chronicles, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1903 there is a decrease in the aggregate of $21^{\prime} 0$ per cent. So far as the individual cities are concerned, New York exhibits a loss of 27.9 per cent, Boston 12.3 per cent, Philadelphia 9.0 per cent, Chicago 4.8 per cent and Baltimore 23.6 per cent. St. Lonis reoords a gain of $9 \cdot 6$ per cent and Now Orleans 31.9 per cent.

The foregoing figures show a gross debt on Feb, 29, 19(4, of $\$ 1,291,103,13939$ and a net debt (gross debt less net cash in the Treasury) of $\$ 918,034,68388$.
Treasury Cash and Demand Liabilities.-The cash holalags of the Government as the Items stood Feb. 29 we have prepared from the Treasury statement of that date.

## Zanctaryicommexialenglishaxaw

IFrom one own correspondent.]
London, Saturday, Febrnary 20, 1904.
The Stock Exchange has been exceedingly depressed all Feek, but the depression is much more due to selling from the Continent than to elther alarm or difficulties here at home. It is true that one great operator in the West Anstralian mining market got into difficulties, and that the closing on his account helped to knock down prices. Bat With that exception there has been little to call for notice here. On the Continent, however, the outbreak of war has completely surprised operators, bankers and investors, and has broaght about a severe fall. Both French and Germsn investors in Rassian securities have shown very commend. able calmness and pradence. They recognize that it would be impossible to sell any considerable amount of the immense Rassian investments they hold, and therelore they have not completely broken the market by wildly throwing stock aponit. Moreover, they remember that Russia has always kept faith with her creditors during past wars, and they fesl confident that they will recelve the divldends on their inrestments regularly. Still, there has been a fall in Rassian securities, and it is only too probable that if Rassia is really as unprepared upon land as she olearly was unprepared apon sea that the depreciation may go very mach farther.

The manifesto issued by the Raesian Government to the people seems to show that Russia is entirely unprepared. There is much fear, therefore, that there msy be such a breas in Rassian securities as may disorganize the Paris and Berlin bourses for a while. That is one of the reasons why all business is paralyzed in Lonāon for the moment. In addition to that there has been a great speculation in Paris daring the past eight or twelve months in Turkish, Bulgarian, Servian, Spanish and Portnguese securities. Paris refused to belleve that the danger of war was real. It continued speculation up to the last. When, therefore, hostilities broke out, the operstors were taken completely by surprise, and there has been a bad fall in all those securities. The insurrection of the Albanians has added to the alsrm in Paris, and there is great fear that in the spring the Macedonian revolt may be renewed, and that that may lead to war between Bulgaria and Turkey.

In Berlin also the confidence was complete that paace would be maintained. Consequently Berlin, whioh was jast recovering from the recent crisis, bad boen baying almost all kinds of securities upon a very great scale. Berlin bankers have been surprised just as Paris has been and there has been a very heavy fall. On the other hand there is s hopeful feeling amongst the more careful snd ehrewd observers in London. It is quite clear now that the war will be localized. And as Japan has secured command of the sea, there is no danger that the United Kingdom will bs called apon to protect Japan from invasion. Consequently it is concluded that it is now perfectly certain that this country will not be dragged into the fray. Cn the other hand, contrary to semi official statements from the two belligerents, and to the protestations of the bankers, the most careful observers in London are satisfied that before long both bslligerents will borrow, and they anticipate that the loans
wili be brought ont on terms that will be attractive. That is one reason why every carefal person just now is keeping his resources well in hand.
Oper and above this, it is certain that an arrangement has been arrived at between the British and Chinese governments to facliltate the importation of Chinese laborers into the Transvaal. In a very few weoks, therefore it seems certain that the first batch of laborers will sail, and in a short time afterwards the production of gold will rapidly increase. Lastly, it is not doubted that the pablic will soon become accustomed to the existence of war, and that basiness will resume its normal conditions. It is true that if Russia should suffer reverses on land, that would have a bad effect upon the Paris and Berlin bourses, but as it would remove still farther the danger of Great Britain having to interfere, ite inflatnce here woald be good.
Money has been fairly easy throughont the week, mainly because of the atter absence of speculation and the general check to businees that has been given by the political uneasiness. But the ease has been rather fitfal, belng interrapted every now and then by spasms of comparative tightness, The rate of discount is not so bigh as it was a week ago, as it is now belleved that there will be no more withdrawals by the French banks of balances from London. Their balances here are very large, and at one time it was feared that they might have to withdraw. They have not done so up to the present. On the contrary they have renewed this week all the bilis that fell due, but if there should be a Russian losn the danger of withdrawals will crop ap again. The supply of money in the market has been further increased by large additions being made to the Rassian balance in Lon. don. Russia has a very large expenditure in the Far East at present, and it is remitting the money necessary throngh London. Consequently, its balances here have had to be in creased. The more careful operators in the market, however, refnse to take a long view. They admit themselves incapable of jadging what may happen a week or two hence. But for the immediate future, they do not look for any rise in rates. There is a considerable amount of gold upon the way. There is a prospect of a large and early addition to the gold outpnt in South Africa. There is no reason at present to an ticipate withdrawals of balances by the French banks. On the other hand, the collection of the revenue is on a very large scale now and will prevent rates from falling anduly.
The India Council offered for tender on Wednesday 80 lacs of its drafts and the applicatlons exceeded 459 lacs at prices ranging from 18. 43 32d. to 18. 4 8-16d. per rapee. Applicants for telegraphic transfers at 18, 4 5.32d. were allotted about 68 per cent of the amounts applied for. Later in the day about 22 1-3 lacs were sold by special contract in bills at 1s, 41 -8d per rupeo.
The following return shows the position of the Bank of angland, the Bank rate of disoount, the prioe of consols, \&c. compared with the last three years

 The Money Market and Financlal situation．－Current events are not of a character to stimalate activity in Wan sireet．The agigregate transactions of the weck at the Stock Exchange hardy equml those often recorded daring a single morning session of the l3oard，and are the smallest in recent years．Moreover，the tone of the market，which has been one of tirmuess，has scarcely changed during the week，so that the histury of one day is practically a his－
tory of all other days，and may be brielly writtell．Activity tory of all other dsys，and may be brielly writtell．Activity
in railway securities is still hold in abeyance by the prospec－ tive decision in the Northern Securities case．by reports of rate cuttieg，by decreaced net esraings，and by the absence of mportant war news；all of these tend to restrict opera－ ion in the varions departments of the Stock Exchange．

Consulerable interest is manifest in banking and foreign exchange circles in the further preparations for the pay－ ments on acconnt of the Panarua Canal purchase．The Sec－ retary of the Treasury has notified banks holding Govern－ ment funds to deposit 20 per cent of such holdings on or before Marcb os in special depositaries for the payments mentioned．Nither this event，however，furtber gold shimments to South America nor the extremely easy condi－ tion of the money market seems to have any perceptible effect in the security markets．
The open market rates for oall loans on the Stook Exchange during the week on stook and bond collaterals have ranged Irom $1 / \mathrm{s}$ to 2 per cent．To－day＇s rates on oall were $11 / 2$ to 2 per cent．Primo commercial paper quoted at $43 / 4 @ 5$ per cent for endorsements and $43 / 4$＠ $51 / 4$ p．c．for best single names．

The Bank of England weakly statement on Thursday showed a deorease in bullion of $£ 420,343$ and the percent－ age of reserre to liabilities was $48 \cdot 88$ ，against 48.82 last week， the discount rate remaining unchanged at 4 per cent．The Bank of France shows a dearease of 6，175，000 francs in gold and an increase of $1,550,000$ franos in silver．
The New York City Clearing－House banks in their state ment of Feb． 27 showed an increase in the reserve beld of $\$ 4,6: 7.300$ and a surplus over the required reserve of $\$ 3,150,200$ ，against $\$ 27,506,600$ the previons week．

Foreign Exchange．－The foreign exchange market was irregular，thongh generally strong，this week，and there were some indications of manipalation；the announcement of a call by the Treasury apon the depositary banks prepar－ atory to the Panama Canal payment caused a slight advance on Thursday．
To－day＇s（Friday＇s）nominal rates for sterling exchange were $4811 / 2$ for sixty day and $4871 / 2$ for sight．．To－day＇s （Friday＇s）sctual rates for sterling exchange were $48330 \propto 48390$ for long， $48660 @ 486 \%$ for short and $487 @$ 48710 for cables．Commercial on banks， 48345 ＠ 4360 ，and documents for parment， $4823 / 4 @ 4831 / 2$ ．Cotton for nayment， $4823 / 4$＠ $4827 / 8$ ；cotton for acceptance， 48345048300 ，and grain for p\＆y ment， $4831 / 4 @ 4831 / 2$ ．

To－day＇s（Friday＇s）actual rates for Paris bankers＇francs were $5183 / 4 *$＠ $183 / 4$ for long and $5167 / 8 * @ 167 / 8$ for short． Germany bankers＇marks were 94 11－16＠943／4 for long and $951-16 a 951$ 夘 for short．Amsterdam bankers＇gailders were 40 1－16＠401－16厅 for long and 401／『＠405－16＊for short．
Exchange at Paris on London to－day， $25 \mathrm{f} .161 / 2 \mathrm{c}$ ；；week＇s range， $25 \mathrm{f}, 161 / 2 \mathrm{c}$ ，high and $25 \mathrm{f}, 16 \mathrm{c}$ ．low
The week＇s range for exchar ge rates follows

The following were the rates for domestic exohange on New York at the under－mentloned olties to－dsy：Savannsh $121 / 2 \mathrm{c}$ ．per $\$ 1,000$ premium；Charleston， 25 c ．per $\$ 1.000$ pre commercial， 50 c．per $\$ 1,000$ discount；Chloago， 20 c ．per
$\$ 1,000$ discount；St．Lnuls，20c．per $\$ 1,000$ premium；San Francisco，$\$ 175$ per $\$ 1,000$ premium．
Stato and Rallroad 13onds．－Sales of State bonds at the Board are limited to $\$ 2,000$ Tennessee settlement is at $951 / 4$ ．

The marlet for railway bonds has been less active than even that of last weok，and in sympathy with the stock market has been firm in tone．Transactions at the Exchange reached the small werage of only a little over $\$ 1,000,000$ par value per day，and were conspicuously devoid of inter est．A few relatively active issues have advanced a point， including Rock Island Railroad 4s，Pennsylvania converti－ ble 315 s and Consolidated Tobacco 4s．Fractional advances have been made by Baltimore \＆Ohio prior lien $31 / 2 \mathrm{~s}$ ，Mexi－ can Central 1st incomes，Orugon Short Line 4s，san Antonio \＆Aransas Pass 4s，Union Pacific convertible 4s and United States Steel Corporation 5s．
United Stater Bonds．－Sales of Government bonds at the Board include $\$ 10,00048$ ，coup．，1925，at 183；$\$ 1,500$ is，reg．， 1907，at $1063 / 4$ ，and $\$ 500$ 3s，coup．，1908－18（small bonds），at 1061／4．The following are the daily closing quotations；for yearly range see thira page following．

Railroad and Miscellaneous Stock8．－The stock market has been exceptionally dull throughout the week，transac－ tions at the Exchange having averaged only about 150，000 shares per day．The tone has been firmer than last week， however，and a larger number of shares show an advance each day than a decline．The result is a gain averaging about a point for almost the entire active rallway list

Delaware \＆Eudson was exceptionally weak until to－day， and other coal stocks evidently reflect the uncertain labor situation existing in the bituminous fields．There have been a few notably strong features，including Louisville \＆ Nashville．Chicago Great Western，the＂Soo＂Line issues， Chicago \＆Alton，Manhattan Elevated and Brooklyn Rapid Transit．Otherwise the trend of the market lias been fol－ lowed in most cases．

Some of the industrial stocks have been strong，al though the strength failed to produce any considerable activity．New York Air Brake advanced $81 / 2$ points on sales of a few hundred shares．Consolidated Gas was more active on bids that carried it up $53 / 4$ points．General Electric shows a gain of $41 / 4$ points on sales of only 760 shares．The iron and steel issues have all been dull，but showed a firm tendency，and U．S．Steel preferred is over a point higher than at the close last week．

For daily volume of business see page 977
The following sales have oocurred this week of shares not represented in our detailed list on the pages whioh follow．

## Inxuestment and iquaxtoad fantelligence.

## RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every Steam railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from dily to and including such latest week or month

The returns of the street railways are brought together separately on a subsequent page.

| ROADS | Latest Gross Earnings |  |  | July 1 to Latest Date $\mid$ |  | ROADS | Latest Gross Earnings |  |  | Juty 1 to Lalest Date |  |

\section*{Delaware \& Hadson Company.}

Report for the year ended Dec. 31, 1903.)
The report of the Board of Managers says in substance:
Grneral Results.-The net inoome for the year after all charges Was \(\$ 3,914,794\), being \(11 \cdot 18\) per cent on the oapital stook. From this ing to \(\$ 2,450,000\); in addition \(\$ 1,472,878\) has been oharged to protit and loss and oredited to the aocounts named, respeotirely: Equipment, \(\$ 1,000,000\); new rallroad oonstruotion, \(\$ 284,243\); mining plant. breskers, washeries, shops, eto., \$188,634.
Betterments and additions have aggreqated \(\$ 3,455,500\), viz.: Coal department, \(\$ 1,259,394\); rallroad department, \(\$ 571,914\); new equippaid from ourrent income. No addition on account thereof has been made to oapltal acoount bave that the additione to the equipment aocount have been \(\$ 1,624,193\) and the charges agsinst tha Bame for depreolation and the smount oharged off hsve been \(\$ 1,285,659\), making an inorease in the acoount amounting to \(\$ 335,534\). The equipment has been inoreased by the following new equipment: 32 looomotives, 12 paseenger coaches, 598 frelght cars and 52 aars abed in the oompany's servioe.
Debentures, ETC., Paid.-Daring the year \(\$ 810,000\) debentares trust certifiostes, \(\$ 150,000\) : Huquon Cos Co debentares inoluding \(\$ 25,000\) dae May 1, 1917, purohased and oanceled, \(\$ 260,000\). In addition, 1,000 shares of stook were purohased for the sinking fund and canoeled, belng at par \(\$ 100,000\). The ospitalization has therofore been diminished by pasmonts amounting to \(\$ 710,000\).
No seonrities have been issued by the company during the past year. It has expended in the parohsse of cosl lands and extingaishment of royalties upon ooal lessed by it the sam of sis
AOQUIsITIONs, ETC.-The Boheneotady \& Dusnesburgh RR. Co. was duly merged in this oompany on Ang. 4, 1903. The coustruction and stock aocount of the 8. \& D., amounting to \(\$ 167,955\), wse therenpon charged to proft and loss, and the property appears on the booke of this company at the amount of the bonas thereon-nsmely, \(\$ 500,000\). The entire oapltal stook of the Cooperstown \& Cbarlotte Vsiley RR. Co. has been pnrohssed daring the year. This oompany oontrols the oxtend from Davenport Junction to Cooperstown and thelr total mile 48e is 23.69 . The Ohatesugay \& Lake Pladd RR. has been leased; it extende from Blafí Point to Lake Placid, \(79 \cdot 81 \mathrm{mlles}\). The total addition to milleage is therefore \(103 \cdot 30\), mating the total mileage \(820 \cdot 89\) miles.

IMPROVEMENTS-NEW BTOCK.-During the Fear the wozk of stand
 \(\$ 1,500,000\) has been paid from the proceede of a temporary loan for the parpose and the balanoe from ourrent income. Since ihe Jear the amount of \(\$ 7,000,000\) for the purpose of paying the oost of this improvement and of paying underiying bonds npon the Ohateang y \& Laze Yla old property amonnting to \(\$ 344,000\), and also of payling the by this oompany, whloh amount to \(\$ 5,000,000\) and fall due Maj 1,1904 \(\$ 309,688\), as follows: Dividende on amount of stook horetofore to tired by operation of the ginking fund, 841,503 ; amount aiready charged in expenses of coal department, \(\$ 83,613\); amonnt chargeable agsinst net inoome of the Jear as above stated, \$184,552. This amount, now to the credit of lasio of new stock if the same onneo rized by the stockholders.
The total ontpat of coal, the amount prodaced by your company, and the amount transported for others, were:

\section*{Manufacturers' Light \& Heat Co.}

\section*{(Report for year erding Dec. 31, 1903.)}

This company issues no annual statement, and the only facts available concerning the year's operations are those obtained at the annual meeting by the representatives of the Plttsburgh papers. The operations for 1903 show gross for the year of \(\$ 4,500,000\); net, \(\$ 2,676,087\); surplus after the payment of 6 per cent on the stock and bond interest, and retiring \(\$ 202,000\) of bonds, \(\$ 1,011,741\). This statement has been officially revised:
Among the expenses were many that were rather unusual, such as merger oxpensen and rettlement of damage suits; also the cost of the new pipe line to Pittsburgh, whieh has been in operation about a The oompany has enpplied 48,634 consumers giln of over 20 per cent. A nniform inorease has beon made down the Ohlo Valley of 5 cents a thonsand to domestio consnmers and one cent a thoussnd to manufactnring oonsumers. The soguired companies einot the merger have shown a net increase in earnings of between \(\$ 600,000\) and \(\$ 700,000\) over their earnings for the provious year, When they were separate companiee. The Jannary dividend was pald to 1,726 otootholders, while the last previons operating 2,447 miles of plpo
The property of the compan
ohleas, is onneervatively tignred, withont counting its valuable franthan \(\$ 21,000,000\) etock je8pe and \(\$ 9,725,000\) of bonds outstanding. Among the franohlses are many of great value, partionlarly the Pittsburgh franohise. On an average for the year the company has been delivering over 100,000,000 feet of gae per day. and at the present time the gas la stronger than at anv previons time in the company's history. The company \(448,9,6\) acres or the gas lands. During the near, it has been necesary to develop only 110,000 of thle acreage whioh leaves 338,000 sores in reserve, or over three times the amount drawn apon in the last 18 years, -V. 76, p. 1411.

\section*{Rallway Steel Spring Company.}

\section*{(Balance Sheets of Dec. \$1, 1903 and 1902.)}

The balance sheets of Dec. 31, 1903 and 1902 compare as follows :

 Accounts stnck. \(13,600,00013,500,000\)

Total .......... \(\overline{28,455,809} \overline{28,249,214}\) Total ...........28,855,809 \(\overline{28}, 24 \overline{9}, \overline{214}\)
President French says: "The above statement shows the result of the operations of the steel tired wheel department, the spring department and the rolling mills since the organization of the company," A first dividend of \(2 \mathrm{p}, \mathrm{c}\), on the common stock was declared on Tharsday. The preferred stock has received \(13 / 4\) p. c. quarterly since June, 1902.-V. 76, p, 1033.

\section*{Consolidated Rubber Tire Co.}

\section*{(Statement for year ended Dec. 31, 1903.)}

\section*{President Cartmel says in substance:}

Daring a great portion of the year the market for flalshed product Was in a demoralized oondition through the continued aharp onmpetition; and in order to hold some of the largest odatomprs the company this fact the company overosine the deflolt of last vear uf \(\$ 8<535\) and made an additional protit of \(\$ 42,757\), equal to interest at the rate of \(1 \mathrm{I}_{\mathrm{g}} \mathrm{p}\). on the ontetanding debenture income bonds, and whioh in.
terest will be paid April1，1901．The shioments of rubber exoe日ded those of the previous year by 95.000 ponnds，ann notwithstanding this coroase 10 ． 1902 ． whioh，temporarily at least．wlll enable the oomosny to diapose of outpat at a ressonable profit，though at present oruide rabber is seling unusually high．The oompany has no debts other than the small monnt of current liabilities and it has ample cash assets with whioh o meet all business demands．
The Colonial Trust Co．will pay the \(11 / 2\) p．c，interest April 1．Bondholders are requested when presentivg their coupons to surcender for canceilution the coupons of April， 1903，which are null and void，the earnings fur 1902 not hav－ ing gnfficed for any payment thereon．

\section*{Spring Valley Water Company，San Francleco．}
（Report for year ending Dec．31，1903．）
President Howard is quoted as saying that the company is enconntering adother dry year，making the seventh suc－ cessive dry year，the average fall for the past six years being about 18 inches．The nnly years to compare with this was in the period of from 1855 to 1861 ，when there were eight years averaging less than 20 inches．Permanent improve． ments for 1903 sggregated \(\$ 680,767\) ，against \(\$ 785,584\) in 1902 ． A statement filed with the Sapervisors of San Francisco shows：
During the year there have been laid in San Franoleco about 10 miles of new pipe line ranging in diameter up to 24 in ohes，and the company has acquired a lot near the Clarendon Helghts tank，besides
3 lots on 41 at Avenne near H 8treot．The new Presidio Heighta tank， constructed of iron and with a oepaoity for 700,000 gallons，has aiso been completea，also a new measaring tank at University Mound， and another at sanol．Two new boilers have been put in at Belmont and the Belmnnt pa

\section*{Westinghouse Eiectric \＆Manufacturing Co}
（Report of President George Westinghouse F．b．5，1904．）
The Westinghouse Electric \＆Manufacturing Co．of Pitts－ burgh issues no annual statements，so that for information regarding the enterprise we are obliged to turn to the annual statements made to the shareholders of an auxiliary com－ pany，namely the British Wfstinghouse Electric \＆Manufac－ taring Co．The annual meeting of the latter company was held in London on Feb．5，on which occasion the sbarehold． ers voted to increase the anthorized issue of capital stock ers voted to incresse the anthorized issue of capital stock
from \(£ 2,750.000\) to \(£ 3.250,000\) by raising the preference iesue irom \(£ 2,000,000\) to \(£ 2,500,000\) ，there being also \(£ 750.000\) of ordinary ehares outstanding．At this meeting President George Westinghouse said in snbstance：
Constrodion－Dividernd．－The most potent factor in delaying the oompletion of your plant Was the phenomenal activity in hasinese measure those skilled in bullding plants and also oaneed great delay io the delivery of materials and machinery．Altogether ihis delay amonnted to lally one year，so that shlpmente of your own prodict in moderate amonnt onlo began during this present tisoal year，and it is not expeoted the production will reach a normal condition even this year．The Amerioan Westinghonse oompanies have in oonsequenoe of thia delay furutshed a large amount of apparatus and have wade a peolal allowanoe of \(£ 60,000\) as an offret to the manufactning proffit
Whioh ehould have resulted from an eariler completion of the works Th1s allowance has contributed to the profit required to pay the divi－ dends on preference shares for the year ending July 31，1903．The dividend for the present year mast depend unon the final resalts as shown by
dividend．
The fourth annual report，whioh you have recently received，indi－ cates the degree of success which has attended the efforts to becare amount to \(£ 1,608.258\) The patterns new tools and epecial maininery required in the exeortion of these orders and the great amonnt of labor and material involved befort any shipments of complete appar－ atus oan be made require working oapital in proportion．Yoar pactory is practioally in fall working order．During the past two years there have been nnder oonstruction and there were reoently completed new shops having 60 per cent of the aggragate oapailty of the oldsi
works．The several buildings oover almost thirty acres of land and at present give emp：oyment to about 7，000 operatives．The building have been go planned that extensions oan be made for a comparative－ If amall expenditare．Whlle at the moment the works have a surplas capacity，yet in the near futare there seems every reason to belleve that your present works will not be laree enough．
Boiness．－In Australia and New Zaaland basiness generally hab greatly improved and our sales show a satisfactory inorease daring the year under review．In south Arrica there has been a marked re Vival in onr basinese and we have recently arranged for extending rical apparatas for the mines In Tndis we have mede definite rangements for representines．In tnave reoently made derinte ar an extenive powtr installation，beside a oonsiderable amount of ap－ paratue for the mining diatriot．We believe that there la likely to be an inoreasingly aotive demand for elaotrical apparatue from the British Colonies all over the world．Not only does jour company manufaoture for the home trade and the Colonies，bat under the terme of the agreement in relation thereto it has furnished apparatus for everal large gotlatious．
New STock．－The Amerlcan Westinghouse companies．in return for ordinary bharea，\(h \rightarrow\) vo already given a value in exoess of ing par value of those ordinary sbares．Tiey have，with other Amerisan friende， already palp fur about 30 per cont of the ontatanding preference hares and I am now authorized by the dirtotors of the Westinghoase Electric \＆Manafaoturiog Co．to take 80 many of 100,000 new prefer－ noe share at par as may not bo taken by the other shareholders．
try，only one－the Mersey－has so far put its new servios into oper aliou．In the United States the resulti from the use of eleotrioity upon rallways excesd the most conflent prediotions．Take the Man－ hatian Elevated Rallway．leased by the Interborough Rapld Transit Co．；it is now earaing at the rate of nearly＇\(\$ 1.500 .000\) above the guar－ aty of per oent prr annam on the Mrahattan eharas．
Impurtant improvement－Direct Ube of Alternating Current． It is with mach satiofactioa that I refer to a developmeat by the Amerfoan Westinghonee Company of the very highent importanae， motor，whereby slagle paase alternating ourrents oan be so pilized as to dispense wilh mu h complioated machinery，and by reasnu of the deoreased cost make more probable the extenelve use of eleorriolty by the great railways．Untll now it has been the praotioe to use the direot ourrent fur the operation of motors upon raliwar trains，and beoanse of the prohlbitive coat of transmitting great quantities of dirat ourrent，it has become the practice to generate higa－tonsion al ternatiog current at oentral statious to be tranamitted to aubstations， os transiormed into of statio transtormers and rotary onnverters，to the only manner heretofora possible for the operation of rai waps． The aingle－phase alternatigg ourrent raliway system has been made posable by Chiel Engineer Benjacain G．Lamme of the Amerioan Westinghouse Co．，who has perfeated a motor which permita of ihe direot nee of the alternating oarrent．By diepensing with oostly aab－atations
and the namerons rotary oonverters and expensive switchboard ap－ paratus，not only la ihere a great reduction in the flret oost of instail－ ing the plant but also a saving in the cost of operation equal to the in－ terest on from 20 to 30 per oent of the aggregate oapltal expenditure Co．hss all of its plans ready to supply the new form of motore and has sant forward
Turbines．－The company is maklng the manufacture of steam tur－ England for 26 sets of this type of apparatus，aggregaing 101，500
 for the cheap yroduction of power.
proqjects of the business.
The operations of the British Westinghouse Electric \& Mannfactariug Co. for three years past were as follows (compare "London Statist" of Dec. 19, 1903):
oreations of hritise company for years ending july 31.

\section*{GENERAL INVESTMENT NEWS,}

\section*{RAILROADS. INCLUDING STREET ROADS.}

Atlantic \& North Carolina RR.-Receiver,-At Raleigh, N. C., on Feb. 24 Jndge Thos, R. Purnell of the United States Circait Court placed this property in the hends of Capt. V. E. McBee of Virginia as temporary receiver on appifcation of K. S. French of New York, who holds \(\$ 4,500\) of the stock. Mr. French alleges that the road is in "de. plorsble condition" and that the State of North Carolina, as majority stockholders, stands in the way of a profitable lease to the injury of the minority shareholders. Appltcation to make the receivership permanent will be heard Aprll 4. Capt. McBee has pending with the Governor a proposition to lease the road. See full particalars as to receivership in "Raleigh News \& Observer" of Feb. 26.-V. 78, p. 237.
Birmingham (Ala.) Rallway, Light \& Power Co.-Bonds. -The shareholders will vote March 31 on a proposition to issue \(\$ 10,000,000\) general mort. refunding \(436 \%\) bonds to retire the \(\$ 8,000,000\) outstanding 5 per cent bouds and provide for extenslons and improvements, and further to consider and determine a plan for such refnnding. It is proposed to issue \(\$ 1,000,000\) bonds for immediate improvements, \(\$ 3,000,000\) to be reserved for future improvements and extensions as requíred. A large number of the old bondholders, it is understood, have already agreed to exchange their bonds for those of the new issue. The Birmingham "Leāger" says:
The improvemente contemplated are extensive extenstons to the eleotric power honse, Inoreasing the oapacity by over 5,000 horse
power Installation of a amb-station to feed the Beaser lin p.- ng the capacity of the gas plant and extension of mains par uase of 20 convartible oara; rebailding old ilnenseapeof masing; parview line, and the construction of several entirely new lines.-V. 76 ,
p. \(65 \%\).

California Gas \& Electric Corporation.-Amalgamation that this compatch from San Francisco on Feb. 29 announced that this company (see page 932 of Street Railway Section) has obtained control of the Standard Eiectric Co. (V.70, p. 850; V. 72, p. 1088; V. 74, p. 534, 1041) and the United Gas \& Electric Co. (V. 74, p. 1041; V. 75, p. 81).-V. 76, p. 753.
Chesapeate \& Ohio Ry.-Sale of Bonds.-The company has sold \(\$ 500,000\) of the genersl mortgage \(41 / 28\) of 1992 to Blair \& Co, to provide for purchase of equipment.
Application of Bonds, -The company recently furnished the following information to the New York Stock
atatement of ibbuange of general mortoage 4h der oent bonds. Oorporate purpores. \(\$ 1,500,000\) Retircment of prior ilo io.

1,060,000

Constracton of seound uain iraok
\$37,073,000
Total ainount of bonde lesued.
Chicago Burlington d ()uIncy RR.-Notes.-The company will replace its \(\$ 5,000,000\) nine months' notes mataring March 15 with a new issue of the same amonnt of 5 per cent nine months' notes. It is reported that the new iseue has been taken by Chioago banks.-V. 77, p. 2389.

Chicago Great Western Ry. - Decision. -The United States Clrcuit Court of iAppeais at St. Loais, on March 2, affirmed the decision of the District Court permitting the company to ase the Union Pacific bridge over the Mississippi River and the terminal facilitios at Omaha and South Omaha, See V, 77, p. 849.-V. 78, p. 788, 286.

Chicago Rock Island \& Pacifle Ry.-To Lease or Pur-chase.-See Choctaw Oklahoma \& Gulf RR, below.-V. 78, p. 768, 342.

Choctar Oklahoma \& Gulf RR.-Lease or Sale.-The stockholders will vote March 24 on "confirmlng a sale or a lease of the railways and other property and franchises, or part thereof, of the Choctaw Oklahoma \& Gulf RR, Co. to the Chicago Rock Island \& Paclic Ry. Co." ; also on confirming the parchase or lease by the Choctaw Orlahoma \& Galf RR. Co. of the railways, property and franchises of the Searcy \& Des Arc RR. Co., the Hazen \& Northern RR. Co. and the Little Rock \& Southern RR. Co. -V. 77, p. 2336.

Des Moines \& Fort Dodge RR. - Purchase.-E. S. Hooley \& Co., 49 Wall St., who previoas to their temporary embarrassment last summer were largely interested in this property, have purchased a majority of the capital stock for a syndicate at \(\$ 25\) a share in cash. The fature of the line, it is said, has not been decided. There is no confirmation of the report that the Hawley interests, which control the Minneapolis \& St. Louis and Iowa Central railroads, are connected with the syndicate,-V. 77, p. 250.

Erie RR.-Proposed Five. Year Extension of Voting Trust. -J. Pierpont Morgan, Louis Fitzgerald and C. Tennant, as voting trastees, notify the stockholders that the payment on Feb. 29 of the semi-annal dividend of 2 p. c. upon the first preferred stock, making the second dividend of 2 p. c. paid during the jear, fulfills the condition limiting the period of the voting trast, and that therefore on and after May 1 next the voting trast will terminate, and the trastees will cease to transfer the present voting trust certificates. At the same time, if before that date holders of a sufficient amount of the present voting trust certificates shall signify their desire that the roting trust be extended for the period of five years, say until May 1, 1909, the trustees will consent to such extension. Holders of stock trust certificates who desire to have the voting trust extended will signify such desire to J. P. Morgan \& Co., No. 23 Wall Street, New York, at once, stating numbers and amounts of certificates held. Holders not desiring to unite in extending the voting trust will, upon surrender of their voting trust certificates, be entitled to receive in exchange certificates for stock of the Erie RR, Co, as soon as the same are prepared, of which due notice will be given.
The following explanation is made:
The holders of important interesta in the property have strongly urged ns to arrange for an extenelon of the voting trist for a period of five jears, during which it is hoped that most of the important oompleted. Erie atoors are widely held and thta makes a change of control a comparatively easy matter. The intereste desiring to continne the voting trast wish to gard against any nutoward movement. They belleve this oan beet we accomplished by continuing the voting trast.

See also advertisement on another page.-V. 78, p. 768, 287.
Fair Haren \& Westville RR.-Sale of Control.-See New York New Haven \& Hartford RR. below.-V. 76, p. 1406.
Guatemala Northern Ry.-American Concession,-Alfred A. Winslow, Consul-General of the United States at Gaatemala City, reports :
The Republic of Guatemala has granted a conoesoion to Whliam Van Horne of Montreal, Canada, Minor C. Kelth of New Orleans (VioePring the of United Frult Oo.) and several New York capltallate, cova period of 99 yeara Northern Reall way and valuable land grante 10 . forfelt of \(\$ 200,000\) if the road ts not completed within thrse jears. It also provides that no export duty shall be levled on anything shipped to port over this line with the one exoeption of ooffee. It 18 the inten as poselble. The 11 ne will bs 195 miles long [extending from Puerto Barrios, on the Bey of Honduras, to Guatemala Clty] of whioh 134 milea (Puerto Barrios to El Ranoho) was oomplete 1 Beveral 5eare ago, but has not beenkept ap, and 18 now almost impassable. The por tion to be ballt 18 through the mountalne and wlll require eome heavy grading.
The road when extended will form in connection with the Guatemala Central a continnous line across Gaatemala from the Atlantic to the Pacific Ocean. Upon the completion of the new line the Guatemala Northern will be tarned over by the Government to the syndicate. The contract requires
the ratification of the Guatemala Congress, which it is expected will be had shortly, so that the work of construction may be begun early in the year.-V. 76, p. 265.
Hocking Valley Ry.-Bonds.-The following table is from the recent statement to the New York Stock Exchange:
statement of igsue of firet consol. mort. 41 ² P. D. bonds.
Parohase of the rallway and ooal lands of Columbus
 Now oonstruction, adaitional equip. and other property..

4,438,000
Total bonds outstanding. . \(\$ 13,139,000\) V. 78, p. 702 .

Illinols Central RR.-Temporary Loan.-The short-time loan of \(\$ 1,000,000\) at 5 per cent contracted for last week, it is officially stated, is only one of those loans made a number of times each year in the ordinary conduct of the company's business and for no specific purpose. It "does not belong to the class of loans belng negotiated by some of the roads for improvements alreads made and to be made."-V.77, p. 2280.
International \& Great Northern RR.-Bonds.-Applica. tion has been made to the New York Stock Exchange to list \(\$ 549,000\) additional first mortgage 6 per cents of 1919, \(\$ 549,000\) additional seoond mortgage 5 per cents of 1909 and \(\$ 234,500\) additional third mortgage 4 per cents of 1931.-V. 78, p. 287, 229.
Internationsl Traction Co., Buffalo, Etc.-Common Stock Dertiflcates Now Being Issued in Exchange for Certificates of Interest. - The agreement for the issue of certificates of in. terest in respect of the common stock having expired on March 1, 1904, J. P. Morgan \& Co., as agents, give notice that they are prepared to deliver certificates of common stock, sharefor share, in exchange for the certificates of interest. See advertisement on another page.-V. 77, p. 296.
Lake Street Elevated RR., Chicago.- Time Extended.The time for deposit of securities under the reorganization plan has been extended to April 5.-V. 78, p. 702.
Manhattan Ry, Co.-Full Seven Per Cent Dividend for Year.-A quarterly dividend of 13/ per cent for the quarter ending March 31, 1904, and an additional dividend of 1 per cent for the year ending March 31, 1904, have been declared, in compliance with the lease of the railway to the Interborough Rapid Transit Co., payable at the Manhattan offioe, 195 Broadway, on April 1 to holders of record March 11.-V. 77, p, 2159.
Mexican Central Ry.-Equipment Bonds Called.-Equipment and collateral 5 per cent gold bonds due 1917, first series, to the amount of \(9 \$ 50,000\), will be paid at par and aocrued interest at the offices of either the Old Colony Trust Co., Boston; the Manhattan Trust Co., New York, or Messrs. Glyn, Mills, Currie \& Company, 67 Lombard Street, London, E. C., on or after April 1, 1904.-V. 77, p. 2159.

New York Central \& Hudson River RR.-Notes, -The company has sold \(\$ 5,000,000\) of \(41 / 2\) p. c. one-jear notes dated March 1, 1904, on a basls to net the purchasers 5 p. c. interest. -V. 78, p. 343.
New York New Haven \& Hartford RR.-Purchase of New Haven's Trolley System. -The company has arranged to obtain control of the entire electric railway system of New Haven and auburbs through a purchase of a majority of the \(\$ 4,832,800\) stock of the Fair Haven \& Westville RR., giving \(\$ 50\) in fifty-year \(31 / 2\) per cent debentures for each share of par value of \(\$ 25\). Minorlty stockholders of the trolley company are offered the same terms until March 20, 1904. Dividends at the rate of 5 per cent per annum have been paid by the Fair Haven \& Westville since 1900, and its business is constantly growing. The parchase, which includes 116 miles of track, largely elther paralleling or feeding the steam road, is considered important, since it places another obstacle in the way of the extension of through trolley service by interests antagonistic to the New York New Haven \& Hartford. The debentures are to be dated April 1, 1904, with interest payable semi-annually.
Sale of Stock.-A syndicate headed by Kidder, Peabody \& Co. has purchased \(\$ 500,000\) of the stock recently listed on the New York Stock Exchange. The list of the Exchange shows \(\$ 78,016,500\) stock outstanding. Compare V .78 , p. 584,-V.78, p. \(821,702\).
Nlagara St. Catharines \& Toronto Ry.-Bonds Offered.Æmilius Jarvis \& Co., Toronto, were recently offerlng \$100,000 of this company's \(\$ 710,000\) of first mortgage 5 of Nกv. 1 , 1929, at 101 and interest. Compare V. 75, p. 667, and V. 78, p. 343.

Old Colony RB.-Refunding Bonds.-The Massachusetts Railroad Comamission has approved the issae of \(\$ 498,0004\) per cent bonds matarlng Dec. 1, 1925, to refund an equal amount of \(41 / 2\) per cents which mature April 1 next.-V.78, p, 103.

Pittsbnrgh (Pa.) Traction Companies.-New Franchises. - Mayor Hays slgned on March 1 the four franchises, sought by Murray A. Verner of Pittsburgh, and associates, for some 25 or 30 miles of projected street railway on streets of the down-town district, and extending eastward to the clty limits, the most important franohise being that for Grant Boulevard. The vote in Select Councils on three of the ordinances was nnanimous and on the fourth there was only one negative vote. The franchises are for the Grant \& Liberty Street Ry., the Bates Street Ry., the Maln \& Miffin

Street Ry. and the Brereton Avenue Street Ry. It is asserted that last year the same persons secured a franohise for an elevated system and sold it to the Philadelphia Company. Mr. Verner is quoted as saying
We wrll start to work in two or three months. Our lines Will represent an Investment of abont \(\$ 4,000,000\). The Grant Boalevard line is oonsiderable preliminary work to be done, bat I think we will bo actually engaged in the oonstruotion of the road by May or Jnne.

The R, C. Hall syndicate is also seeking street railway privileges in Pittsburgh.
St. Louis Transit Co.-Bond Sale.-The directors have arranged with the Mercantile Trast Co. of St. Loals to form and manage a syndicate to purchase \(\$ 9,000,000\) of the 5 per cent refunding and improvement bonds of 1903. These bonds are part of an issue of \(\$ 20,000,000\), due April 1, 1923 (bat subject to call at par on and after April 1, 1905), and guaranteed by the United Railways of St. Louis as to principal and interest, as well as secured by collateral.
None of these bonds has heretofore been issued. The \(\$ 8\), 000,000 included in the present arrangement will provide for the floating debt and for construction and equipment for the year 1904. A further amount is reserved to refund \(\$ 5,776\), 000 outatanding 5 per cent collateral trust notes due Nov. 1,1904 , and the remainder is issuable only for future acquisitions, construction and equipment at not exceeding \$500,000 yearly after Jan. 1, 1905.

The life of the syndicate is for slx months, with the privllege of extending it for another similar period.
The position of the company as regards interest on funded debt, with the new bonds outstanding, is shown from the results of the last three jears as follows:

Net inoome \(\overline{\mathbf{8 2 , 0 9 1}, 512} \overline{\$ 2,484,498}\)
\(\overline{\$ 2,782,333}\) Deduct-

on 4 p. 0. Reneral nort. bonds of United Rys. Co. \(\quad 1,016,660\)
Balance for interest on \(\$ 8,000,000\) bonds now sold.... \(\$ 1,011,433\)
nnaal interest on the \(\$ 8,000,000\) new bonds will be....
400,000
The dividends at the rate of 5 p . c. per annum guarauteed on the preferred
stock of the United Railways of St. Louls are a oharge subsequent to the instock of the United Railways of St. Louls are a oharge subsequent to the interest on the bonded debt and are not included above. There has been lissued
\(\$ 18,30,300\) of this stock, but at last accounts a portion of it was owned by the Louls Transit Co.
It is estimated that the World's Fair earnings will increase the net income to not less than \(\$ 3,980,000\) this year, Upon this basis there would be a surplus applicable to interest on the \(\$ 8,000,000\) bonds which it is now proposen to issue of \(\$ 1,800,000\). The net earnings for 1905 are estimated at \(\$ 3,661,000\), which would show an amount available for interest of \(\$ 1,490,000\).
See description of bond issue on page 930 of Street RailWay Section; also see annaal report for 1902 in CHRONICLE, V. 77, p. 38.

Savannah (Ga.) Electric Co.-Oalled Bonds.-See Edison Electric Illuminating Co. of Savannah under "Industrials" below.-V. 76, p. 832.
Scranton (Pa.) Ry.-Listed in Philadelphia.-The Philadelphia Stock Exchange has listed \(\$ 100,000\) additional firsi consolidated 5 s, making the total listed \(\$ 900,000\)--V. 78, p. 49 .
Seaboard Alr Line Ry.-Subscriptions,-Blair \& Co. announce that about 40 per cent of the \(\$ 5,000,000\) of 5 per cent bonds recently authorized were subscribed for by the holders of stock trust certificates. The issue was underwritten. See V. 78, p. 104, 229, 704, 821.
Sonthern Indiana Ry.-Development of Coal Traffic. The "Engineering News" of Feb. 25 contains an article on the development of this road's coal traffic, which now, it is said, amonnts to from 150,000 to 200,000 tons per month. V. 77, p. 1743, 296

Uuited Railways of St. Lonis.-Earnings, Etc.-See St. Loais Transit Co. above.-V. 76, p. 1302.
United Traction Co. of Albany. - Meeting Adjourned. The meeting to authorize an issue of \(\$ 8,500,000\) consolidated bonds was postponed until April 2. See V. 78, p. 704.
Washington Coanty Ry.-Guaranty, Etc.-Ths bonds of. fered by Lee, Higginson \& Co., Boston, are describod in a circular as follows:
First mortgage 50-year 31, p. o. gold bonde, dated Jan. 1, 1904, due Jan. 1, 1954, but 8nbject to oall on Jan. 1, 1924, at 100 and inter est; Interest payable Jan. 1 and Jals 1 in New York or Boston; ooupon Contral Trust Co. of New York, truste日. Ospital stock, \(\$ 2,500,000\) (all owned by the Maine Central RR. Oo.); total bonds 1ssued, \(\$ 2\),500,000 ( \(\$ 250,000\) owned by the Maine Central RR. Co.). The mort gage provides that bonds may be issued at a rate not exoeeding \(\$ 20\),00u per mile of road, whioh on the present mileage ( 186 miles) would make the maximum issue \(\$ 2,720,000\). These bonds oover as a first mortgage the entire property of the Washingtun Ooanty Ry. Oo., inoluding 136 miles of road, extendiag irom Washington Junotinn, Me., the net earnings over operating expenses and taxes wore \(\$ 105,616^{\text {s }}\) the interest oharges on this entire ontstanding issue of bonds amounts to \(\$ 87,500\); the bonds are legal investments for the savings banks of Massachuetts, New Hampshire and Maine.
The bonds carry the following endorsement:
For value reoelved, the Maine Oentral RR. Co. hereby guarantees the punotual payment of the prinoipal and interest of the within bond In acoordanoe with the oontrait datod Jan. 1, 1904 . ( 51 gned ), Geo. F.

Muscogee (t. T.) Electrlo \& flas Co.-Incorporated.-This company was incorporsted In New Jersey on Feb, 23 witr \(\$ 500,000\) of anthorized capltal stock. Incorporators: Jos. F. Cobter, F. R. Hapeell. Geo. H. B. Martln

New Milford (Conn.) Power Co.-Deseription of Property. - In conneztion rith the bond offering noted last week, it is worth whlle to resd the lllastrated arttcle desoribing the property which was published in the "Engineering Record" of Feb. 18.-V. 7s, p. s2s.

Uregon Electrlc lower Co., Baker City, Ore.-Stock.The capital stozk anthorized and issued is \(\$ 350,000\) in \(\$ 100\) shares, all common.-V. 78, p. 824.

Panama Canal.-Commisaion.-On Tharsday the United Stat-s Sevate confirmed the following nominations for the Isthuisn Capal Commission

Uhalrman, Bear-Admiral John G. Falker, U. S. N., ratired, Distrint
 trici of Colnmbla; Willimu Barclay Parsona, New York; Willam H
Burr, New Yorti Bonjamla M. Marrod. Lonlelana; Carl Ewald Gran Bry. California, and Frauk J. Fucker, Michigan.

Attorney. General Knox on Wednesday advised the Preaident that the latter is authorized to pay at once to the Re pablic of Panama the \(\$ 10,000,000\) stipalated by the Treaty also to the new Panams Canal Co. the \(\$ 40,000,000\) for ite property. The detalls in connection with the transfer of the property, he says, shoald not require more than thirty daje. Regarding call made on Tharsday on the depositary banks for the funds to cover the aforesaid payment, see "Fibancial Sitaation," on a preceding page.-V. 78, p. 824.
Peonsylvania Salt Manufacturing Co.-Option to Sub scribe -The company proposes to iesne 20,000 ehares of new atock for Improvemente. Shareholders of record March 28 may subecribe for it at 75 (par \(\$ 50\) ) in the proportion of one abare to three beld. payment to be made in three instalments of \(\$ 25\) each, viz., May 2, 1904; Sept. 1, 1904, and Jan. 8, 1905, at which last named date the new stock certificates will be issued. The authorized stock is \(\$ 5,000,000 .-\mathrm{V} .72\), p. 823.

Penneylvanis Steel Co. - Contracts. - Outlook. - The "Philadelphia News Bureau" quotes President Felton as sasing
People who ask why the Penngylvania and Reading railroad companles cannot get the beneft of a steel rall price corresponding to that Whlch the Ponneylvania Ste日l Oo. 18 roported to have made to the
 ma Fe eell to Canada probably amonnt (if We inolude that on spieg-
ellesen) to 8150 per ion. Moreover such critios speal in ignorance of ellesen) to 8150 per ton. Morover such critlos speak in 1 gnoranee or RF. Co. It 15 quite grataitons to tell us that we made the sale at \(\$ 18\). for 80,000 tons of ralle additional at the 40,000 -ton price. The order was only for 40,000 tons. No option has been glven.
Our general business shows oncouraging improvement. Wilhin abont a week we have increared onr hands at work until now abont two-thirde of our full force are employed. During rebruary we shall turn out at least 30 p. c. more prod act than in Jannary. The most which in the recent past had almost ceased, now begins to assnme oonsiderabie proportione. As our onstomers are largely independent rolling mille, the indication is quite strong as to the general bettermen in that line. Wo are also getting out a good many trolley ralls and have orders for rome tonnage of eteam rails. The bulk, however, of our increased basiness is of the miscellaneons order
Mach of the company's iron ore comes from its mines in Cabs and hence the rebate possibility above noted.-V.77, p. 2038.

Pennsylvania Sugar Reflning Co.-See Metropolitan Sugar Refining Co. above,-V. 76, p. 1088,

Pittsburgh Coal Co.-Guaranty.-The shareholders at a special meeting on Wednesday adopted, by a vote of more than two-thirds of each class of stock, the proposition to amend the articles of incorporation 80 as to permit the guaranty of the \(\$ 25,000,000\) bonds to be issued by the Pennsyl vanis Mining Co. Compare V. 78, p. 824, 771, 765.
Qainey Granite Quarries Co.-Foreclosure.-Judge Colt in the United States Circuit Court at Boston on Feb. 26 ordered the foreclosure sale of this property. The amount due on the bonds is stated as \(\$ 1,576,100\) for principal and \(\$ 162,343\) for interest. W. B. Farr is made special master to conduct the sale.-V. 77, p. 2182.
Railway Steel Spring Co.-First Dividend on Common Stock. -The directors on Thureday declared a first dividend, on the common stock, 2 p. c., payable April 4 to shareholders of record on March 23. See annual statement on page 986. -V. 76, p. 1033.
Reserre Gas Co.-See report of Union Natural Gas Corporation on page 986.-V. 78, p. \(10 \%\).

Bichmond (Ind.) Light, Heat \& Power Co.-Mortgage. This company has made a mortgage in favor of the Continental Trust Co. of New York, as trustee, to secare \(\$ 800,000\) of first refunding 5 p. c. gold bonds, denomination, \(\$ 1,000\) and \$500, datod Jan. 1, 1904, and due Jan. 1, 1914, without option of earlier redemption; interest payable semi-annually at fitice of trustee; \(\$ 200,000\) of the bonds are outstanding, bsping boen issaed to retire a like namber of \(6 \mathrm{p} . \mathrm{c}\). bonds. Thero are no prlor liene.-V. 7\%, p. 1750.
Spring Falley Water Co-Bonds.-The mortgage of Dec, 1, 1908, Union Trast Co. of San Francisco, trastee, secures not exceeding \(\$ 28,000,000\) of 4 p. c. gold bonds of \(\$ 1,000\) esoh, dated Dec. 1, 1908, and due Dec. 1, 1933, with interest payable Jane 1 and Dec. 1 in San Franoisco or New York, or at Frankfort-on-the-Main at 4.20 marks to the dollar. The bonds are issuable as follows
Issuable at once for improvements and additions
. \(83,000,000\) Reserved to take np at matnrity a lika amonnt \(\qquad\)
ar
the Old Spring Valley Water Workg Oo. \(\mathrm{Vlz}: \$ 4.975,000\)
1st mortgage 68, the 8ept. 1 , \(1908 ;\)
1906; \(\$ 4,000.000\) inlrd mortgage 48, due Sept. 1, 1906....13,975,000 Reserved to be lsened upon resolutions of the board of direotors, dnly cercified by the Seoretary, to provide for new oonhtruotion, betterments and new acquisitionc. and to provide for tho barller redemption of the aforesaid first mortgage Gs of the Spring Valley Water-Works Oo., If losmed adrantageons
-V. 78, p. 107.
Standard Chain Co, Plttsburgh, Pa.-Board Decreased. - At the annual meetivg on Feb. 17 the board of directors was reduced from 13 to 9 members, to include :
John O. Schmidt, Prealdent; Robert Garland, Vloe-Preeident; Arthur E. Orockert, Seoretary; J. T. Davis, General Manager; Franz Kreln, Arslatant General Manager; William Robertson, Treasurer; Peter'Wertz. N. B. Marple and Oscar L. Gabelman,-V. 78, p. 483.
Standard Electric Co. of California,-See California: Gas \& Electric Corporation under rallroads above.-V. 74, p. 1312.

Standard Rope \& Twine Co.-Meeting.-A meeting of the directors and bondholders was held on Wednesday at the offices of the Manbattan Trust Co. As a result of the discussion, the Chairman of the meeting, Mr. James Talcott, was authorized to appoint a committee of five bundholders to confer with the trustee of the mortgage, the Manhattan Trust Co., and to report at a meeting to be held in three weeks.
A bondholders' protective committee, consisting of William Alexander Smitb, G. W. Montgomery and G. T. Bonner, has issued a circular criticizing the management, particularly as to the contract made with the Union Selling Company and also in not placing the Cannabis properties under the mortgages. The \(\$ 200,000\) stock of the Cannabis Mana facturing Co. (see V. 73, p. 615) is held by the Standard Rope \& Twine Co., and, it is claimed, has been used as collateral fo loan from the Union Selling Co., thas giving the latter lien on the properties abead of the mortgage.
A director is quoted as saying:
The contract with the Union Selling Co. is a hard one bat the Standard Co. is not in a position to demand better terms. If it were to borrow ali the money it could in the banks, it could not get more than 8400,000, Whereas the Unlon Selling Co. at timees advances \(\$ 1,000,000\) to \(\$ 2,000,000 \mathrm{at} 8\) per cent. If the bondholders were willing to waiv their interest for two years and to raise money to pay off the loans on Selling Oo. wonld be willing to arrange a new contract, gnarsnteatng 8ay, \(35,000,000\) ponnde 8 year Thls woald asenre the continnanee o the company in busineas and wonld lessen the risk to the Union Sell ing Co. The roet of the whole difficulty is that the Standard neve had enough working capital and, moreover, soon after its organiza
tion sastained losses, which made matters still woree. \(\boldsymbol{V}\). 78, p. 774 \begin{tabular}{l} 
tion \\

Susquehanna Electric Power Co.-See report of United Railwass \& Electric Co. of Baltimore, V. 78, p. 816; also United Electric Light \& Power Co., V. 77, p. 2894; V. 78, p. 346.V. 75, p. 1150

Tennessee Copper Co.-Report. -The report for the year onding Dec 81 shows results as follows:
\begin{tabular}{ccccc} 
Oalendar & Total & Int. \& & Deprecia’n & Net \\
year. & profts. & discount. & account. & profits. \\
1903...................... \(\$ 500,419\) & \(\$ 32,500\) & \(\$ 50,354\) & \(\$ 417,565\) \\
\hline
\end{tabular}

A dividend of 5 per cent ( \(\$ 1 \cdot 25\) per share) was paid July 30,1903 , calling for \(\$ 218,750\); the accumalated profits Jan. 1, 1903, were \(\$ 299,835\), leaving a profit and loss surplus Jan. 1 1904, as per balance sheet, of \(\$ 498,150\). From the last-named amount a second dividend of 5 per cent ( \(\$ 218,750\) ) was paid on Jan. 29, 1904. - V. 77, p. 93.
Toronto \& Niagara Power Co.-Progress Report.-See illustrated article in the "Engineering Record" of Feb. 13 1904.-V. 76, p. 598.

Union Oll Co. of California.-Dividends.-We learn that the following amounts have been distribnted in dividends during the past few years
In 1889, \(\$ 125,500\); in 1890, \(\$ 90,000 ; 1901, \$ 272,461 ; 1902, \$ 215\), 119; 1903, \$112,862. For the past year or more the company has ben paying 70 cents per ohare per quarter \((2.8 \mathrm{p}\). o. per Jear. The rate, on thls basis, wonld be something over \(4 \frac{1}{3}\) per cent per an num.-V. 78, p. 701.

United States Fireproofing Co., Pittsburgh.-Receiver. - At Trenton, N. J., on March 4, Judge Bradford, in the United States District Court, agreed to appoint a receiver for
this company in accordance with the appliostion of Robert C. Hall of Pittsbargh, the holder of \(\$ 12,000\) bonds, interest on which is in default. The company was organized auder New Jerssy laws in January, 1902, with \(\$ 1,250,000\) of anthorized capital stock, and made a mortgage to the Gaaranty Trast Co. of this city, as trustee, to secure \(\$ 500,000\) of first mortgage 20 -year \(6 s\) dated Feb. 15, 1902. These bonds, which it is asserted are aubject in part to \(\$ 30,000\) underlying bonds, cover varions properties incladed under the following heads:
(1.) Properties owned in fee, Viz.: (a) Farnace Flre Clay Plant in Ralineville, eto, Colamblana Coanty, O.; (b) Union FIre Clay \& Stone Plant in Center Township, Oolumblana Countr, O.; (o) land in said in perpetalty of Keystone Fire Clay Co. plant, including klling, maohlnery, eto.
C. K. Robinson was President of the company in 1902.

United States Glass Co.-Dividends Resumed on Common Stock.-The directors on Feb. 25 declared a dividend of i per cent on the \(\$ 3,200,000\) common stock, payable April 10, to stock of record April 1. This is the first distribation on the common stock for more than 10 years. The "Pittsbargh Gazette" says:
The stock was listed on the Pittabargh Exohange May 12, 1892. In the follonwing Angust initial dividends of 4 per cent 8 emil-annual on the preferzed and 3 per cent on the common were declared, which were pald sept. 1, 1892. Then came the panic of '93 and the oommon red stook was snenended. About two years ago dividends were resumed on the preferred. Now the oreferred etook has been retired, and all the aarninge if the plant will be avallable for interest upou a small iesue \([8770,000]\) of bonds and the common stook. The present
outlook for the company le better than for years.-See \(V\). 77 , p. 1229 , 1546.

United States Rubber Co.-Bonds Retired.-The oom pany has anticipated the payment of \(\$ 1,000,000\) of its 5 per cent notes due March 15, 1905, payment belng made on Monday of this week, As the same amount was retired last year ( \(\overline{\text { V. }} 76\), p. 1141), there are now only \(\$ 10,000,000\) of the orig inal \(\$ 12,000,000\) outstanding. - \(\nabla .78\), p. 587
United States Shipbnilding Co.-Modified Plan Effective -Deposits Until March 10.-The Sheldon committee announoes by advertisement on another page that the holders of over 80 per cent of the outstanding first mortgage sinking fund gold bonds and the holders of all of the collateral and mortgage (Bethlehem) bonds, having duly assented to the modifioations of the plan of May 25, 1903, filed Feb. 4, 1904. the said modifications and the original plan and agreement as so modified are declared effective and binding. Farther deposits will be received by the City Trust Co. of New York, as depositary, until March 10, 1904.

Only \(\$ 72,000\) bonds in all were withdrawn ont of the \(\$ 11,000,000\) first mortgage bonds previonsly on deposit with the committee, and nearly all of these only for delivery upon sales recently made. The Commonwealth Trust Co. not only assented in respeot of the bonds heretofore deposited by it, but is also arranging for the deposit of all the remaining bonds controlled by it.
Max Nathan of the bondholders' protective committee as been elected a member of the Sheldon committee.
A block of \(\$ 188000\) first mortgage bonds, "anthoritatively" said to be those owned by Gov. Odell, were advertised to be sold at auction on Wednesday, but were withdrawn from sale on Tuesday night.-V. 78, p. 505, 587.
United States Steel Corporation.-Purchase of Pig. The company has contracted to purchase about 100,000 tons (one account says 95,000 tons) of standard Bessemer pig Iron for March and April delivery at \(\$ 13\) at furnace, being an advance of 25 cents per ton, and hae, it is said, an option expiring March 10 on an additional 75,000 tons. There is much speculation as to the company's reason for the buying, rather than manufacturing, at this time such a large amount of pig. -V. 78, p. 774, 588.
Watanga Water Co--Bonds Offered.-This company, supplying Johnson City, Tenn., with water by gravity system, will sell \(\$ 125,000\) first mortgage 5 per cent gold bonds. The company began operations July 1, 1891. Capital stock authorized \(\$ 200,000\). Address R. A. Ayers, Treasurer, Big Stone Gap, Va.

Western Stone Co., Chicago.-New Officers.-The officers are as follows, the last two being new : President, Martin B Madden; Vice-President, G. H. Manroe; Secretary, T. A. Heineman; Treasurer, Daniel Foley.-V. 78, p. 701.
-Messrs. Fisk \& Robinson report the salo of a large block of 4 p. c. first mortgage bonds of the Baffalo \& Susquehanna RR, effected in Paris during February through the instru mentality of the French Finance Corporation, a company incorporated under the laws of the State of New York for the purpose of securing in the United States first-class bonds for account of French bankers.
It is understood that A. Poniatowski, formerly Vice. President of the Central Trust Co, of California, and President of the Standard Electric Co, and of the Sierra Ry Co., has had charge of the new corporation since January 1904. Interested with him in the French Finance Corporation are a number of his former associates, among those in this city being Messrs. Edwin Hawley and Clarence H. Mackay, The institution is said to be independent of any local bankiug infiuence, this being a condition exacted by the French !banks the business of which it will take care of in the fature.

\section*{The ©ommextial Times.}

\section*{COM MERCIALEPITOME.}

Friday Niget, March 4, 1904.
The condition of business in most lines of merchandise has appeared to be fairly satisfactory. Dealers and jobbers, as a general rule, have shown a disposition to keep fair working stocks on hand. There also has been fair baying of some lines of goods for forward deliveries, to keep prospective wants well covered, while in others buyers bave been parsuing a more conservative policy, as they antioipate a gradual sagging of valnes. Increased activity has been reported in the pig Iron market, large purchases belng made by the U.S. Steel Corporation, and prices have improved slightly. In the specalative markets prices for cotton have again shown an advancing tendency, but values for grain have broken badly under extensive liquidation by the recent specalative buyers.

Lard on the spot has been quiet: Stocks during the past month have shown a larger increase than expected, and under freer offerings prices have declined. The close was quiet at 7.50 c . for prime Western and 7c. for prime City. The demand for refined lard has been slow and prices have declined, closing at \(7 \cdot 60 \mathrm{c}\). for refined for the Continent. Speculation in lard for future delivery has been fairly active at a break in prices due to the unexpected large decrease in the world's stooks, liquidation and continued selling by packers. The close was quiet.
dATLY OLOSDG PRIOMS OT LARD PUTURES IN CHIGAGO.
May del',
Jaly aol's
Pork has had only a small sale and prices have declined, following the West, closing at \(\$ 1650 @ 1600\) for mess. Cat meats bave been quiet and easier. Tallow has been firmly held. Cotton-seed oil has been quiet, closing at \(891 / 4 @ 391 / 2 \mathrm{c}\). for prime yellow. Butter has been firm but quiet for choice grades, Cheese has been quiet and nnchanged. Fresh eggs bave been in full supply and prices have declined.
Brazil grades of coffee have continned to drag, and owing to the dall demand prices have shown a sagging tendency. The close was dull at \(65 / 8 \mathrm{c}\). for Rio No. 7 and \(71 / \mathrm{c}\). for Santos No. 4. West India growths have been in fuli supply and more freely offered; prices have declined to \(81 / 2 \mathrm{c}\). for good Cacata. Specalation in the market for contracrs has been moderately aotive, bat prices have declined under bear pressare and liquidation, due to disappointing statistical developments. The close was fiat.
Following are the closing asked prices:

Raw sugar has been in active demand and higher, olosing firm at 3 7-16c. for centrifugals, 96 deg. teat, and 215-16c. for mascovado, 89 deg, test. Refined sugar has been in fair de mand and firmer, closing at 4.55 c , for granalated. Teas have been firm
Basiness in the market for Kentacky tobacco has been quiet, but prices have been nnchanged and steady. Seedleaf tobacco has continued to meet with only a limited sale, the demand being for small lots, Offerings, however, have been light, and prices have held to a steady basis. Foreign grades of tobacco have been firmly held
A moderate :Volume of business has been transacted in Straits tin and prices have held steady, closing at 28@28.25c. Ingot copper has sold slowly, but there has been no pressare to sell and prices have been unchanged at \(: 21 / 2 @ 123 / 4 \mathrm{c}\). for Lake. Lead has been steady at \(4.60 @ 4 \cdot 650\). Spelter has been unchanged at \(5 \cdot 05 @ 5 \cdot 15 \mathrm{c}\). Pig iron has been in botter demand. The local market closed steady at \(\$ 1425 @ 1475\) for No. 2 Northern and \(\$ 13 @ 1350\) for No. 2 Sonthern.
Refined petrolenm has been easier, closing at 8.75 c . in bbls. 11.45 c . in cases and 5.85 c . in balk, Naphtha has been unchanged at \(12 \cdot 40 \mathrm{c}\). Credit balances have been weaker, closing at \(\$ 177\). Spirits of tarpentine has been dall and easier, closing at 62c. \(621 / 2 \mathrm{c}\). Rosins have declined but the close was steady at \(\$ 270\) for common and good strained. Wool has been in limited supply, moderate demend and firm. Hops have been dull.

The olosing quotstions to-dsy (Friday) at other Importsat Bouthern markets w'ere as follows,

NEW URLEANS OPTION MAREET.-The highest, lowest and olosing quotation for leading optlons in the Now Orleans cotton market the past week have been as follows.

Weather Reports by Telegraph.-Reporta to us by telegraph from the Suath this evening indicate a continuation of favorable weather conditions over the greater part of the area during the week. Where rain has fallen, the precipitation has been light as a rale and at a number of points dry weather ras prevailed. Farm work is making good progress in most localities.

Galveston, Texas. - We have had only a trace of rain during the week. The thermometer has ranged from 40 to 76 . averaging 58. Febraary rainfall ninety-nine handredths of an inch

Corpus Christi, Texas.-This week's rainfall has been only a trace on two days. Average thermometer 60, highest 80 and lowest 40. Month's rainfall one inch and thirty-seven bundredths.
San Antonio, Texas,-It has rained on one day during the week, the rainfall being inappreciable. The thermometer has averaged 62, the highest being 90 and the low \(\in 8 t 34\). February rainfall sixty-four handredths of an inch.

Palestine, Texas. - We have had no rain during the week. The thermometer has averaged 56, ranging from 30 to 82. Month's average three inches and filty hundredths.

Abilene, Texas.-There has been no rain during the week. The thermometer has ranged from 30 to 80 , averaging 55 , Month's rainfall twenty-six handredths of an inch.

New Orleans, Loussiana,-Dry weather has prevalleả all the week. Average thermometer 71.
Columbus, Mississippi, - There has been rain on two days the past week. The rainfall reached forty-five hundredths of an inch. The thermometer has averaged 54, ranging from 30 to 78 .

Vicksburg, Mississippi,-There has been rain on two days during the week, the rainfall being thirty-two hundredths of an inch. The thermometer has ranged from 32 to 81 , averaging 68.
Lhttle Rock, Arkansas.-Considerable cotton picked and much plowing done this week. We have had rain on one day of the week, to the extent of three handredths of an inch. The thermometer has averaged 55, the highest being 79 and the lowest 28. February rainfall three inches and thirteen handredths.
Helena, Arkansas,-Farm work is doing well. There has been rain on two days the past week, to the extent of seven handredths of an inch, and rain is now falling. The thermometer has averaged \(522^{\circ}\), ranging from 29 to 80 . Month's rainfall, one inch and sixty-one hundredths.
Memphis, Ternessee. -The week's rainfall has been eleven handredthe of an inch, on two days. The thermometer has ranged from 35.8 to \(78 \cdot 7\), averaging 57.8 , Month's ralnfall one inch and thirty-one handredths.

Mobile, Alabama.-Ralns in the interior during the week, Plowing makes good progress. There has been rain on one day daring the week, the precipitation being eight handredths of an inch. The thermometer has averaged 66, the highest being 79 and the lowest 49. February rainfall four inches
and one handredth.

Montgomery, Alabama.-Colder with light frost this morning, We have had rain on two days during the week, the precipitation being twenty-four handredths of an inch, The thermometer has averaged 67, ranging from 42 to 81. Month's rainfall, five inches and seventy-eight hundredths,
Madison, Florida. - The week's rainfall has been two inches, on one day. Average thermometer 75, highest 92 and lowest 42.
Savannah, Georgia.- We have had dry weather all the week. The thermometer has averaged 62, the highest being 80 and the lowest 46. February rainfall two inches and eighty-8even hundredths,

Augusta, Georgia.-There has been rain on one day during the weels, the preclpitation being two hundredths of an inch. The thermometer has averged 57, ranging from 48 to 79.

Stateburg, South Carolina.-The weather is milder bat windy. Plows are ranning.briskly. Rain has fallen lightly on two days of the week, the rainfall being thirty four hnndredths of an inch. Average thermometer 54, highest 72 , lowest 84. Month's rainfall three inches and seventy-five hundredths.
Greencood, South Carolina.-We have had rain on one day during the week, to the extent of twenty-eight hundredths of an inch. The thermometer has averaged 41. Febraary rainfall four inches and forty-three hurdredths.

Charleston, South Carolina. - There has been rain on three days during the week, to the extent of two handredths of an inch. The thermometer has ranged from 43 to 76 , averaging 57.
The following statement we have also received by telegraph, showing the helght of the rivers at the points named, at showing the helght of the rivers at the
3 o'clock March 3, 1904, and March 5, 1903.

T3 The prices are given in pence and 100th. TАмs: 7.58 meand

Jute Betts, BAGGNa, Etc,-The market for jute bagging has been extremely dnll daring the week ander review at the folluming prices: \(61 / \mathrm{c}\). for \(1^{3 /} \mathrm{lbs}\) and \(61 / \mathrm{c}\), for 2 lbs ., stanJard grades. Jate butts also dull at \(11 / 2 @ 13 / 4\) c. for paper quality and :(1021/2c. for bagging quality.

\section*{BREADSTURES}

Friday, March 4, 1904.
The break in prices for the grain has had an unsettling influence apon the market for wheat flour. Basers have been difficult to interest, they holding off for lower prices to conform with the break in the wheat market. Low-grade winter wheat flour has continued jn small supply and firmly held. Mills hare been willing to accept lower prices for spring-wheat flonr, but they have unt reduced their limits sufficiently to attract buyers. Rye flour has been in small suppls and well held. Corn meal has been quiet bat steady.
Specalation in wheat for future delivery hss continued active bnt it has been at a sharp breals in prices. Despite the hostilities in the Far East, the Rassian exports reported for the previons week were full and the supply of wheat \& float for Earope showed a considerable increase. European markets turned weaker, influenced by the more favorable statistical development. Liquidation by recent speculative hasers developed on an extensive scale in the local and Western markets, and ander the heavy pressure to sell. prices broke badly. Weather conditions in the winter. Wheat belt were rtported more favorable for the growing crop sud there was an increase in the crop movement in the Southwest. Wednezday there was a moderate recovery in prices. There was a subsidence of the pressure to liquaste long contracts. Foreign markets tnrned stronger, influenced by reports of a strike at Argenine ports, which it was bslieved would interfere with the export movement of grain from that country, and the monthly "Government Crop Balletin" for Febraary reported thet prospects for the winterwheat crop are anpromsing. On Thursday, however, the market again turned weak. Cuntrary to expectations the exports of wheat for the week from Arg nina weir large, and renewed gelling to liquidaio long contracts developad, A cold wave in the West, which it was feared may domage the growing crop, had a \(t \in m p o r a r y\) strengthening influence apon values. Only a small volume of butiness has bsen iransacted in the apot markets at the seaboar l, as exporters have continoed light buyers. Prices have declined. To-day the market was steadier. The spot market was quiet.
\[
\text { daily closing prices of whatit in } \mathbb{N} \text { ET Y Yefe. }
\]
 \(\begin{array}{llllll}\text { July delivery in elev..... } 1011_{8} & 99 s_{8} & 973_{8} & 49 & 973_{9} & 973_{8}\end{array}\)

Indian corn futures have bern fuirly active bat at lower prices The Loovement of toe crop has been reported as fairly fan, the trade demand has been limited and sucka tive element has turned a froe seller to realiz \(\rightarrow\) protits and as there has \(b_{9}\) ro Iy s:attered buying to abs rb the increased offerings, the m rket tarned meat, and prices gave way rather sharply. The depres ion in the wheat market also had ub. unfavorably irflaence. Basiness in th. seatoard marteis early in the \(\nabla\) ak was quict. At the decline is prices, however, an improy:d demand developed, exporters heing better bujere. To-day the market was firmer. The spot market was quiet.
dally closing prices of no. 2 mixed corn in Niew yorik.
 July delivers in elev
daily closing prices of no. 2 Mixed Conn in difllongo.

Oats for fature delivery at the Western market have been fairly active. The tendency ol prices has been towards a lower basis. The leading bull intereat was reported as hay. ing sold out, and this, with fall receipts and accumalating etccks, prompted general sslling, and the market declined Locally the epot market haspoen quiet and easler. To-day there was a moderato recovery in prices.

\section*{Exports of Grain and Flour from Pacifle Ports.-The} exports of grain and flour from Pacific ports for the week ending March 3, as received by telegraph have been as follows: From San Francisco, Feb. 29, to United Kingdom, 10,000 bu:hels wheat; from Purtland, March 1, to United Kingdom, 161,000 bushels wheat; from San Francisco, March 3, to United Kingdom, 25,000 bushels wheat.

Combining these fignres with those for previous woeks, we have the following, which covers the exports to forelgn coantries for the perlod since Jaly 1, 1903, comparison being made with the corresponding perica of 1902-03.

 The visible sapply of grain，comprising the stacks in granary at the principal points of accumulation at lake and goaboard portw，Feb，27，I9C4，was as follows：

\section*{THE DRY GOODS TRADE}

NEW York．Friday，P．M．，March 4． 1904. The primary market during the month of Febraary raled quiet in all divisions and the volume of business transacted failed in the aggregate to come up to the average．Cotton gonds were affected by violent flactuations in the price of raw material，the collapso early in the month ohecking an incipient digpositioni on the part of bayers to fall in with the advanced prices asked by manufacturers and for the rest of it keepiag the demand down strictly to a hand－to mouth basis．In woolen goods the results bave been dis appointing，the first round of baying of men＇s－wear fabrics tor fall failing to bear ont early promises，although prices in face of higher wool were lower than the previous season， and silks，while somewhat steadier in tone，were bought in but moderate quantities．The jobbling trade on the other hand showed up well in the majurlty of distribnting centers， reports from the South and Soathwest being particalarly en couraging，and at the close of the month stocks in second hands were sald to be reduced to a generally low level．This week has shown no material change in the character of business doing，buyers still operating within moderate limitis．There has，however，been a firmer tone noticesble in cotton goods，as sellers have，with the renewed apward mopd ment in cotton，held for fully as high prices as at any time this year，and show no anxiety to induce bayers to do baci－ ness thereat．
Domestic Cotton Goods．－The exports of cottck goode from this cort for the week ending Feb． 29 were 1,523
packages，valued at 102,831 ，their destination being to the points specified 1 a the tates below
\begin{tabular}{|c|c|c|c|c|}

\hline tal． & 1，528 & 46，806 & 1，703 & 92，049 \\
\hline
\end{tabular}

The value of these New York exports since Jan． 1 has been \(\$ 2,417,657\) in 1904，against \(\$ 3,873,538\) in 1903 ．

Business in heary brown cottons has beem on a limited scale，neither sheetings nor drills being in request for other than small quantities，whether for home trado or export． Prices are，however，firmer than they werd a week ago for future deliveries，sellers again taking a raserved attitude on these under the influence of bighar cotton，Scocks of sheet－ ings，drills，dncks and osnaburgs are all reported light in first hands，Blesched muslins also are in limited supply， some of the lower grades being repor：ted ont of the market for quick deliveries．Prices are without quotable change but the market wears \＆hardening apparance in face of quiet buying．There is no change in the qnotations for wide sheetings，shests or pillow cases，but，the tone is \(\nabla \in r y\) firm in all lines．The domand for coarse，colored cottons might bo larger if buyers found the market better supplied with goods and purchases essier to make，as it is，a moderate business only is doing at full prices．Kid－finished cambrics and other cotton linings are quietly firm．There has been no improvement in the demand for printed calicoes bat buyers pay full prices for what they trke in both staples and fancies． The gingham market continues very firm，with bnyers com． plaining of the scarceity of ready supplies．Print cloths are firmly held at 4c．for regulars，but the demand has ruled quiet tor all makes．

WOOLEN GOODS－This week＇s basiness in the men＇s．wear woolen and worsied goods division has not been of an encour－ aging character to sollers who have not already secured a satisfactory complement of orders．Buyers have attended in limited numbers only and their purchases have been con－ fined to limited quantities，even in the most popular lines． It is not likely now that there will be any improvement in the demand for some time to come or until such time as wholesale clothiers come forward with their supplementary orderg，and there is already some talk of machinery bsing thropin out of work in preference to marufacturing goods which must go iato stock．Staple woolons from 90c．to \＄1 35 and fancy woolone and worsteds from \(\$ 100\) to \(\$ 150\) per gard are reported to have sold bsst，and some lines of these hsve boen witharawn from the market．In some quarters a bet－ ter demand is reported for overcoatings，but business in the aggregate is still quite moderate．Prices are unchanged Cloakings are sterdy with a fair demand．Woolon and worsted dress goods are steadg in tone，with a fair gen． eral demand for both spring and fall lues．

FOREIGN DRY GOODS．－Imported aress fabrics are firm for both staple and fancy lines，with a fair dowasd coming for－ ward．Silks are generally steady，with a firmer tendency in Japanese silks，Ribbons are quiet and muchanged，Linens are tending against buyers．Burlaps continae very frm， with more buyers than sellers．
Importations and Warehouse Withdrawals of Hry Goods
The importations and warehouse withdrawals of dry goous at this port for the weok ending March 4，1904，and gince January 1,1804 ，and for the oorresponding periods of last year are as follows：

STATE AND CITY DEPABTMENT.

\section*{MUNICIPAL BOND SALES IN FEBRUARY.}

The manicipal bond market in Febraary was quiet and featureless. Offerings were comparatively few and generally for small amounts, The aggregate disposals for the month were \(\$ 7,799,954\), not including \(\$ 13,969,386\) temporary loans negotiated. In Janaary, 1904, the total of such sales Was \(\$ 24,198,801\); in February, 1903, \(\$ 5,150,926\); in February, 1902, \(\$ 12,614,459\), and in February, 1901, \$4,221,249.

New York City, which in January disposed of \(\$ 10,000,000\) bonds to brokers and investors at pablio sale and \$1,100,812 bonds to its own sinking fand, in Febraary had no pablic offer ings and only \(\$ 370,185\) sinking-fund takings, Salt Lake City, Utah, on the 23d awarded \(\$ 548,00041 / 2 \%\) 20- year refunding bonds to E. H. Rollins \& Sons, Chicago, at 102.56. The city of Mobile Als., on Febraary 18 sold at 10075 an issue of \(\$ 404,0005 \%\) paving bonds, the purchaser being F. B. Merrill of Mobile. Seattle School District No. 1 of King County and Spokane School District No. 81 of Spokane County both issned \(41 / 2 \%\) 20 -year bonds. The first-named district on the 20th awarded \(\$ 300,000\) bonds to N. W. Halsey \& Co., Chicago, at 105.91 , and the last named, \(\$ 200,000\) bonds on the 1st to N, W. Harris \& Co., Chicago, at 104.588.

The number of municipalities emitting bonds and the number of separate issues made daring Febraary 1904 were 115 and 194, respectively. This contrasts with 184 and 216 for January 1904 and with 111 and 185 for February 1803.

In the following table we give a list of Febraary loans to the amount of \(\$ 7,799,954\) issued by 115 municipalities. In the case of each loan reference is made to the page of the Chrontcle where an account of the sale is given.

> February Bond 8ales,

Total bond sales for Febraary \(1904(115 \mathrm{ma}\) Tipalities, \(\qquad\)
Average of dates of maturity, + subjeot to call in and after the earlier year and mature in the later year. \$Notinoluding \(\$ 13,969,336\) of temporary loans reported and whioh do not belong in the list. TT Taken by slaking land as an Investment. I And other comsiderations.

\section*{REVIBED TOTAL8 FOR PREVIOUS MONTHS.}

The following items, included in our total for prepious months, should be eliminated from the same, as the sales
have not been carried to completion. We give the page number of the issue of our paper in which the reason for the failure to consammate the sale mas be found.
Page. Name of Municipality.
838..Lawton, Okle. (January list).
Amount

We have also learned of the following additional sales for the month of January.

> ADDITIONAL JANUARY BOND BALES.

These additional issues-(less Lawton, Okla., and Manchester, Ohio, loans mentioned above)-will make the total sales (not including the temporary loans) for January 1904, \(\$ 24,198,801\).

\section*{News Items.}

Denver, Colo.-Charter Election.-The Charter Conven tion, delegates to which were elected on Dec. 8, 1903, fin ished its labors on February 6, and the proposed charter will be submitted to a vote on March 29. This is the second time a charter has been prepared and submitted, the first instrument drawn ap having failed to carry at tbe election held Sept. 22, 1803.

Des Moines (Iowa), West Des Moines Independent Schooi District. - Bill Lpgalizing Bonds, - The State Legislature has passed a bill legalizing the \(\$ 140,000\) school-building bonds voted at the election held March 10, 1902, and sold the same year to the Marquardt Savings Bank of Des Moines. This bill was passed for the reason that the bondholders feared that the pablication of the official notice of the election in one of the papers on Sunday might invalidate the issue. The measure was approved on February 18.
East Grand F'orks, Minn. - Bonds Illegal. - The Supreme Court has ruled illegal the \(\$ 15,00041 / 6 \%\) water bonds mentioned in the Ceronicle Aug. 15, 1903. The Court holds that the proposed issue, together with existing indebtedness, is in excess of the limit prescribed by law.
Newport (Ky.) School District.-Bonds to be Purchased. The Board of Edacation has accepted an offer made by the Newport National Bank to sell to the board \(\$ 11,000\) old \(4 \%\) bonds not yet matured at 105, the bank to have the privilege of purchasing \(\$ 10,000\) of a new issue at the highest price bid. As will be remembered, this district last fall awarded first \(\$ 50,000\) bonds to the Provident Savings Bank \& Trast Co. and then reduced the amount to \(\$ 35,000\). The issue, however, was subsequently refused by that institution, which claimed that even should only \(\$ 35,000\) bonds be put out the debt limit would be exceeded. The indebtedness of the district is stated to be \(\$ 76,700\) and the limit \(\$ 100,000\). By retiring the \(\$ 11,000\) old bonds ander the above offer, the district would reduce its debt sufficiently to allow the placing of the new issue as desired. See V. 78, p. 354; V. 77, p. 2060.
New York City.-Bill Affecting City Bond Sales,-Senator Dowling bas introduced a bill permitting bidders proposing to purchase "all or any part" of bonds offered for sale by New York City to also submit a different bid for "all or none" of the bonds, which bid may be accepted by the City Comptroller if he deems it best for the interests of the city to do so. At present "all-or-none" bids are barred.
Oh10.- House Passes Bill to Exempt Municipal Bonds fpom Taxation. - A resolation passed the House on Feb. 23 to submit to a vote of the peopie a Constitational amendment exempting from taxation all State, county, manicipal, township and school district bonds.
Rushville (Ind.) Schnol Dlstrict.-Bonds Invalid.-The State Supreme Court on February 18 handed down a decision holding invalid the \(\$ 35,0004 \%\) bonds awarded to W. J. Hayes \& Sons of Cleveland last May. As stated in the Chronicle Oct. 17, 1903, the Act anthorizing the bonds provides for the issuance of secarities in cities of not less than 4,540 and not over 4,545 inhabitants. This the Court decides is speoial legislation.
Seattle, Wash.-Annexation Election.-At an eleotion March 8, according to local papers, the question of annexing certain territory to the south of the city will be submitted to a vote of the people.
Soldier Iudependent School District. Monona County, Iowa.-Bill Legalizing Bonds.-The State Legislature has passed a bill legalizing an issne of \(\$ 2,500\) bonds of this district pat out on or abont Aug. 1, 1902. The bill was passed to remove all doubts as to the legality of the organization of this district and to validate all acts of the Board of Directors.
Superior, Wis.-Refunding Operation.-We have just received from Mr. J. J. Surch, City Comptroller, a letter explaining the present status of the refanding operations of this city. Mr. Surch says:

Regarding the refunding of the general bonded debt of the eity of Saperior under Chapter 228 of the Laws of Wisconsin for the year 1903 , I will say. so far the only definite arrangement made is that the
\(6 \%\) bonds held by the State of Wisoonein to the amount of \(\$ 272,000\) are to be exchanged for a like amount of \(34 \% 10,15\) and 20 -y ear bonds. (8ee last wek's Chroniole, page 840.) There have also been taken up under the refunding plan \(\$ 23,500\) of general bonds with \(\$ 2,462\) aocrued interest, for whioh the oity has paid \(\$ 21,075\). The
olly has also paid speolal bonds amounting to \(\$ 119,624,42\) and aocity has also paid speoial bonds amounting to \(\$ 119,824,42\) and ao-
orued interest on the same mounting to \(\$ 17,04671\), for which the city has pald \(\$ 76,83352\).
There are other transactions pending, bnt nothing more of a definite nature has been done up to the present time.
See V. 78, p. 840; V. 77, p. 1253; V. 76, p. 770.
