Post Office Box 958.

NEW YORK.

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, May 21, have been \$2,035,501,643, against \$1,995,025,109 last week and \$2,245,731,963 the corresponding week last year.

Clearings—Returns by Telegraph. Week Ending May 21.	1904.	1903.	P. Cent
New York	\$1,027,898,472	\$1,141,180,801	-9.1
Boston	104,734,110	104,227,651	+0.5
Philadelphia	85,181,428	107,280,314	-20.6
Baltimore	16,509,065	19,769,753	-16.5
Chlcago	135,106,365	152,843,627	-11.6
St. Louis	47,529,248	45,926.293	+3.2
New Orleans	11,127,064	12,653,629	-12.1
Seven cities, 5 days	\$1,428,085,752	\$1,583,882,038	—9·8
Other citles, 5 days	278,469,018	280,109,843	-0.6
Total all cities, 5 days	\$1,706,554,770	\$1,863,991,881	-8.4
All cities, 1 day	328,946,873	381,740,082	-13.8
Total all cities for week	\$2,035,501,643	\$2,245,731,963	-9.4

The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, May 14, and the results for the corresponding week in 1903, 1902 and 1901 are also given. Contrasted with the week of 1903 the total for the whole country shows a loss of 6.8 per cent. Outside of New York the decrease from 1903 is 3.6 per cent.

THE FINANCIAL SITUATION.

The uncertainties which beset the outlook have been somewhat added to this week by a wave of low temperature which passed over almost the entire country. It started with a spring snow storm in the extreme Northwest, followed in that section by heavy rains and developing severe frosts at points in the Lake region and lighter frost in the Middle West and Middle Atlantic States. This cool wave is chiefly regrettable because crops, as a rule, are already, late, and the tendency of cold rains and lower temperature is to delay seeding and farm work as well as progress in growth where a start had been secured. As to cotton, an early harvest is especially needful this year, the cotton manufacturer, as is well known to our readers, being everywhere greatly crippled on account of the unusually deficient surplus of the raw material; an incident favorable to this staple has been needed rains in the Atlantic States and elsewhere, relieving in part the sections which have been complaining of drought. Spring-wheat planting, according to the weekly weather report, was delayed in portions of North Dakota and Northern Minnesota by the cold. wet weather, but seeding of wheat is practically completed elsewhere; planting of corn, also, and for the like reason, has been checked in parts of Nebraska, Iowa and Missouri, and deferred in other States where it had not gotten under way. Altogether, it seems that an interruption to the crop development recorded the previous week has occurred, but that it is not likely to prove serious, since as the week closes the reports received indicate better conditions for farm work, spring wheat making fair progress.

A good many find a soothing tonic for feelings disturbed by recent large gold exports in the foreign trade statement for April and for the ten months ending with April, made public this week by the Bureau of Statistics. That report is marvelously favorable. It shows an excess of merchandise exports from the United States during the ten months of the current fiscal year of \$448,856,321. There have been only four fiscal years during the period covered by the country's trade record in which the corresponding balance in the same months has equaled the current year's total, while last year the excess of exports for that period was only \$359,304,919—or an increase the current year of \$89,551,402. These figures consequently show that there can be no explanation for the current gold exports in an adverse trade balance. Though that idea has been widely urged, the conclusion will not bear examination. But we fail to see the force of the other claim, that these gold exports are being engineered by our banks and bankers, and can and will be stopped when their purpose has been accomplished. On the contrary the shipments have been made because it is profitable, and will be continued as long as it remains profitable, and no longer. In our opinion the outflow is nothing more than another illustration of an old-established principle, of which this country has had previous severe lessons-3 better currency being crowded out and displaced by an inferior one.

It is, we repeat, a natural result of the quasi antagonism always existing between gold and a forced paper currency, and which has been given special vitality by various devices recently made to the order of the fiscal agents of the Panama Republic

no power to contract or to retire. Note expansion in such a case may temporarily work agreeably to the public, but only as long as business is growing in activity and exchanges are multiplying, so that increasing transactions find a use for, and consequently absorb, the enlarging volume. In that state of affairs and under the buoyant influence of this currency inflation, an uplifting tendency of the whole industrial organism may possibly be encouraged. Not unlikely it has been one among the influences which have led to the extravagances that have accompanied our recent term of prosperity and brought it to a close through a bitter liquidation. These forced note issues might go on unobserved (1) so long as no accident happens which destroys confidence in the stability of things or (2) until a situation had developed out of the intrinsic proneness of nature to enforce relief through a curative process of its own. This latter is what is in progress to day. Gold is flowing out because paper money has been forced into circulation until it has filled to repletion the channels of commerce, and hence is displacing gold. Every sort of paper note we have fails in the retiring quality, and so fails to respond to a period of industrial inactivity. Now that business is finding reduced use for paper currency, the surplus has no recourse but to collect at our monetary centres. As a consequence, interest rates are nominal and discriminating; gold, which can go anywhere for a market, goes where it can do better than our abnormal condition offers. What aids the outflow is that confidence in the stability of our securities was lessened—that is, "loss of confidence in the security of things happened"-more than a year ago and has been a feature ever since. This loss of gold, though, is curative and in itself harmless. Our gold standard is in no degree jeopardized. The outflow of that metal only proves that forcing into circulation note issues that inflate but do not contract is hurtful, not even satisfying the expansionists' desire. What is forced into circulation of paper is in the end always paid for by a loss of gold.

The demand for commercial gold bars has been so urgent during the recent export movement of the metal to Paris as to reduce the stock of these bars in the New York Assay Office to the lowest since bars were made exchangeable for coin, and on Wednesday the supply was practically exhausted, making necessary the shipment of \$2,500,000 gold coin on the following day. The office sought to meet the demand for the later steamers by manufacturing the bars to the full capacity of the plant, which is about \$500,000 per day, but shippers secured in advance all that could be turned out by Saturday, and engaged further indefinite amounts for next Tuesday's steamer. There are about \$8,000,000 of bullion in the office which is available for conversion into bars, requiring only the finishing process, and this, it is assumed, will probably be sufficient to meet present requirements. If, however, the demand should be so great as to exceed the capacity of the plant, more or less gold coin will have to be shipped. It was stated on Wednesday, on apparently good authority, that the transfer of the \$40,000,000 to Paris has been substantially effected, and that but little more gold will be needed on that account.

We notice that the money warrant for \$9,000,000 to expand paper money freely of a sort that has was delivered on Thursday to J. P. Morgan & Co., by them deposited in the First National Bank, and that it passed through the Clearing House Friday morning for collection. This warrant, together with other payments, caused the Assistant Treasurer to be debtor at the Clearing House in the amount of \$9,815,178. It is of interest also to note that the cash balance at the Clearing House on the same day was \$26,111,397, the largest on record.

The strike inaugurated by the Masters' and Pilots' Association has continued through the week, and is exercising a disturbing influence on affairs, as its effect has been to tie up more or less completely shipping and transportation on the Great Lakes. The railroads are doing what they can to alleviate the situation. Eastern railroad managers announced at the close of last week that they would take business from Chicago to the seaboard at Lake rates until the strike is ended. Many of the Lake lines are controlled by the railroads, and therefore these latter have a double interest in coming to the rescue of shippers. However, this action of the Eastern trunk lines can furnish at best only partial relief. There are many classes of commodities that cannot pass over the trunk lines; for instance at this season of the year there are usually large shipments of iron ore from the upper Lake ports to the lower Lake ports and equally large return shipments of coal from the lower ports to the upper ports. Transportation of freight of this description has been brought almost to a standstill. Such bulky materials are moved very cheaply by water, where the cost by rail is practically prohibitory. It is therefore to be hoped that some means may be found of speedily settling the trouble.

It is not easy to see however how the matters in dispute can be adjusted without a complete backdown on the part of the masters and pilots. The position of the vessel-owners seems to be absolutely correct. The men are asking for increased wages and the owners contend that conditions are such that higher wages at this time are out of the question. The status of the matter was clearly set forth in a signed statement issued on Friday last by W. Livingstone, the President of the Lake Carriers' Association—the body representing the vessel-owners. stated that the executive committee of the Carriers' Association had adjourned, after having been in session in Cleveland about four weeks, during which time they had met six labor organizations and had completed satisfactory contracts with five of them. The sixth one of the unions, the Masters' and Pilots' Association, was the only one that had not been willing to recognize the existing business situation, but insisted upon a material advance in wages over last year, with more stringent conditions. The committee of the Carriers' Association tried to make it clear to the advisory board of the Masters' and Pilots' Association that the operating cost of boats had been advancing every year, until to-day the vessel-owner is confronted with the highest expenses on record, with a very dull season ahead, and with indications of reduced gross earnings, so that it is not possible to entertain any proposition that would further increase expenses that are already too high. On the contrary, it was urged that the situation and the outlook are such that wages ought to be reduced. As, however, the representatives of the masters and pilots could not see things in this light, the executive committee of the Carriers' Association was willing to agree to a com-

promise, binding all members of the Association to pay last year's wages. This was accepted as fair by the advisory board of the Masters' and Pllots' Associa. tion, and they consented to go back to their different lodges or harbors and use every effort to have the proposed arrangement accepted. Unfortunately the result of the referendum vote was that the compromise proposition was rejected. The masters and pilots insist that they will not sail any boat except on an increase in wages of masters of almost 14 per cent on the larger vessels and a much greater increase on the smaller vessels; also that wages of the mates shall be increased so as to give pay for a full season regardless of when they report for duty. Of an average crew of about twenty, only three men are masters and pilots, and thus this small proportion of the whole is tying up the whole shipping trade. The course of the men being so wholly unjustifiable, we are inclined to think they will soon be forced to yield by public sentiment.

Another event of the week bearing on labor matters has been the annual meeting of the National Association of Manufacturers, at which President D. M. Parry of Indianapolis made one of his customary em. phatic addresses. There can be no doubt that this Association has accomplished a great deal of good. It has been contending for the "open shop," where union and non-union men could find employment side by side, and it has fought such objectionable measures that have come up in Congress as the Anti-Injunction Bill and the Eight-Hour Law. The Manufacturers' Association has also done everything that could be done to foster the growth of local assoclations of employers and business men, for the purpose of opposing arbitrary and unjustifiable acts on the part of labor unions, in which object they have been successful almost beyond expectation. Mr. Parry took occasion to state that so far as the Manufacturers' Association is concerned, he is positive that any crusade having for its object the grinding-down of labor would meet with the determined opposition of practically the entire membership. The policy of the Association, he declared, was primarily one of peace; but he added, very significantly, "while we are for peace we cannot afford to purchase peace by the surrender of constitutional rights. Our policy is not one of aggression but one of defense. We are not looking for strife and we wish to avoid strife; but if strife is forced upon us by organized labor, we cannot be expected to hand over our profits and the management of our affairs in order to have peace. The only alternative left is to resist the encroachments upon our rights of property, and surely a reasonable public will not construe our efforts of defense as being inspired by a desire to oppress labor." We think nothing can be said in criticism of the policy here outlined, and so long as the Manufacturers' Association adheres to the same, it will have the support of the entire community.

There was no change in official rates of discount by any of the European banks this week, and unofficial or open market rates were, compared with last week, steady at London and firmer at Paris, Berlin and Frankfort. The striking features of the statement of the New York Associated Banks last week were a new high record for loans; a reduction in the surplus reserve to within \$3,285,375 of the lowest of the year, which was recorded on Jan 1479 2; a net

loss of \$10,421,300 cash, due to the large exports of gold; and a reduction of \$23,184,600 in public depos its, reflecting the surrender of these fands to the Treasury early in the week. The loans were expanded by \$7,898,600, specie decreased \$12,476,400, while legal tenders increased \$2,055,100, making the net loss of cash \$10,421,300, as above; and general deposits decreased \$2,097,400. The reserve require. ments were reduced by \$524,350, deducting which sum from the net loss of cash left \$9,896,950 as the decrease in surplus reserve, to \$12,827,250. Calculated upon the basis of deposits less those of \$32,912,800 public funds, the surplus is \$21,055,450. The bank statement of this week is expected to re flect the full amount of the export of \$4,949,658 85 gold to Paris on Saturday of last week, and the averages of the shipment of \$8,221,366 14 on Tuesday, of \$4,882,687 23 on Thursday and of \$2,259,756 15 withdrawn on Friday for export to-day (Saturday.) Also the receipt on Saturday of last week of \$2,191,000, representing Japanese gold, which was transferred hither on May 14 through the Treasury.

It is reported that the Treasury Department will, soon after the beginning of the new fiscal year, issue a fourth call for the surrender of about \$15,000,000 of public deposits; the third call for about \$10,000,000 will mature on the 25th.

Money on call representing bankers' balances was firm this week, loaning on the Stock Exchange at 2½ per cent and at 1 per cent, and averaging about 2 per cent. On Monday loans were at 2½ per cent and at 1 per cent, though only small amounts were placed at the lower rate, and the bulk of the business was at 21 per cent. On Tuesday transactions were at 21 per cent and at 12 per cent, with the majority at 24 per cent. On Wednesday and on Thursday loans were at 2 per cent, and at 13 per cent, with the bulk of the business at 2 per cent. On Friday transactions were at 2 per cent and at 13 per cent, with the majority at 13 per cent. Banks and trust companies have loaned at 2 per cent as the minimum. Time loans on good mixed Stock Exchange collateral have also been firm this week, influenced by the comparatively low bank reserves. Quotations are 3@31 per cent for sixty to ninety days, 3½ per cent for four to five months, 3¾@4 per cent for slx, and 4½ per cent for eight months. The offerings of commercial paper were only moderate. while the demand, especially from the interior, was good. Rates are 34@4 per cent for sixty to ninety day endorsed bills receivable, 4@41 per cent for prime and 41@5 per cent for good four to six months' single names.

The Bank of England minimum rate of discount remains unchanged at 3 per cent. The cable reports discounts of sixty to ninety day bank bills in London 2 per cent. The open market rate at Paris is $2\frac{1}{7}$ per per [cent and at Berlin and Frankfort it is $3\frac{1}{7}$ per cent. According to our special cable from London the Bank of England lost £404,812 bullion during the week and held £32,972,474 at the close of the week. Our correspondent further advises us that the loss was due to the import of £13,000 from Australia, to exports of £10,000 to Bavaria and to shipments of £408,000 net to the interior of Great Britain.

The foreign exchange market was irregular and the for Hava tone generally easy early in the week and apparently \$213,836.

uninfluenced by the gold exports. On Thursday the market became heavy with sight at the lowest since gold exports began, reflecting the negotiation of finance bills which seemed to have been drawn in considerable volume since the beginning of the week. Binkers conducting these negotiations appear to be encouraged by the high rates prevailing for long sterling, by the firm tone for money on time in this market and the low discounts ruling in London, and also by the expectation of a profit resulting from the covering of their sales of long sterling with drafts against the credits which will be established with cotton bills when that staple begins to move in volume in October or November. The operation involves the drawing of sixty or ninety-day bankers' bills against credits with London correspondents and the sale of these bills on the New York market, the proceeds of these drafts being loaned on time at from sixty days to six months; should this money be placed for the larger periods renewals of the finance bills will be necessary, but these renewals can, it is expected, be arranged. The profits resulting from the operation will, it is assumed, be obtained partly from the difference in the discount rate paid the banker's correspondent in London on the borrowed credit and the rate of interest which will be realized in this market from the proceeds of the bill, less commissions and stamps. When the draft matures at the expiration of the period for which it is drawn, renewal will be effected through the drawing of a new bill, with the proceeds of which the original draft will be paid; this renewal will involve payments for further commissions and stamps. With two renewals of a sixty-day bill, final settlement of the transaction can be deferred until November, when a further profit will presumably be realized from the difference between the net cost of the original and the renewed bills and the price paid for the draft which will then be bought to cover the matured bill. The direct effect upon the market of negotiations of finance bills will be to increase the supply of long sterling. The banker who buys the bill will forward it for acceptance and discount and then he will draw a sight draft against the proceeds of the discounted bill; thus the supply of short sterling will be increased.

The practical exhaustion of the stock of gold bars in the Assay Office made necessary the reduction in the amount of gold which was partially engaged last week for shipment on Tuesday and only \$8,221,366 14 was On Wednesday the engagement of forwarded. \$2,382,687 23 in bars for shipment on Thursday entirely exhausted the supply, and in addition to this sum \$2,500,000 gold coin was shipped, making \$4,882,687 23 by Thursday's steamer. The exporters then engaged in advance of their manufacture all the gold bars that could be supplied for Saturday's ship, and \$2,259,756 15 in bars was delivered on Friday for shipment on the following day; further advance engagements were also made for export on Tuesday of next week, the amount depending upon the ability of the Assay Office to supply. The total shipments of the week were \$15,363,809 52, the largest weekly export on this movement, making \$57,470,093 49 since April 7. It may be noted that about \$600,000 gold, in francs, arrived at this port from France during the week in transit Gold received at the Custom House, for Havana.

Nominal quotations for sterling exchange were 4 85½ @4 86 for sixty day and 4 87½ @4 88 for sight. Rates for actual business on Saturday of last week were unchanged for long, compared with those on Friday, at 4 85@4 8505, while those for sight and for cables were 5 points lower at 4 8690@4 8695 for the former and 4 8715@4 8720 for the latter. On Monday long was unaltered, but short and cables were 5 points higher at 4 8695@487 for the former and 4 8715@4 8725 for the latter. On Tuesday long was 10 points higher at 4 8505@4 8515, influenced by easier discounts in London; short and cables were unchanged. On Wednesday the market was easier at a decline of 5 points all around—long to 4 8505@ 4 8510, short to 4 8690@4 8695 and cables to 4 8715 On Thursday the tone was heavy, influenced by offerings of finance bills and also of sight drafts, and long fell 15 points to 4 8490@4 85, short 10 points to 4 8680@4 8685 and cables 10 points to 4 8705@4 8710. The tone was weak on Friday and 25 points lower for long and 15 points for short and cables.

The following shows daily posted rates for exchange by some of the leading drawers.

DAILY POSTED RATES FOR FOREIGN EXCHANGE.

The following gives the week's movement of money to and from the interior by the New York banks.

Week ending May 80, 1904.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency	\$10,820,000	\$4,356,000	Gain. \$6,464,000
Gold	2,041,000	1,139,000	Gain. 902,000
Total gold and legal tenders	\$12,861,000	\$5,495,000	Gain. \$7,366,000

With the Sub-Treasury operations and the gold exports, the result is as follows:

Week ending May 20, 1904.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks interior movement, as above		\$5,495,000	Gain. \$7,366,000
Sub-Treas. oper. and gold exports.	33,300,000	44,800,000	Loss. 11,000,000
Total gold and legal tenders	\$16,161,000	\$49,795,000	Loss. \$3,634,000

The following table indicates the amount of bullion in the principal European banks.

THE CRISIS OF THE EASTERN WAR.

The Resso-Japanese War is likely to go down in history as a campaign of surprises—not the less so in that the chapter of what may be called accidents has played so large a part. At the present moment it is difficult to say exactly how the extraordinary occurrences of last Sunday, whereby a first-class Japanese cruiser and the finest battleship in the Japanese fleet were utterly destroyed, will affect the outcome of the campaign. On general principles it is usually assumed that each successive weakening of the fighting force of belligerent States, whether on sea or on land, brings nearer the possibility of peace. But the present case is peculiar. Had the disaster to the Hatsuse and the Yoshino occurred a month or two ago, its significance would have been more immediate and obvious. Happening at that time, it would possibly have enabled the Russian fleet to make a concerted demonstration against the Japanese war ships, and would at all events have made possible obstruction by Russia of the various landing operations of the Japanese army. As the matters stand, Admiral Togo's fleet has already attained its main objective. The transports, or most of them, have already landed their military forces without interference, and even if the Port Arthur fleet is not absolutely locked in that harbor, the existing Russian naval force is still insufficient to threaten the Japanese coast or to meet the enemy's fleet on equal terms. It is an interesting but of course a profitless matter of conjecture to imagine what events would have followed had the Japanese ships been blown up earlier in the campaign. and the Petropavlosk, with the gallant Russian admiral, escaped disaster.

The main reason, however, why this week's Japanese loss at sea can hardly exert a final influence on the fortunes of the war is that the centre of stategic interest has been definitely shifted to the land It is hardly possible at this stage manoeuvres. that the operations of General Kuroki and General Kuropatkin should be in any way affected by the loss of a Japanese battleship. That occurrence will alter in no respect the relative strength of the two armies confronting one another in Manchurla. It is now a problem of military tactics on which will depend the question whether the Russian general will be able to achieve his acknowledged purpose of drawing northward, concentrating his own lines as the Japanese are forced to extend theirs, and thus delay the real crisis until he is better prepared to fight, or until circumstances might conspire in his favor. At this time of writing his plan seems to have proceeded successfully. The extension of the Japanese lines away from their centre—a manœuvre which might under certain conditions have flanked his army or cut off his retreat—appears to have been checked either by the aggressiveness of the Russians or by the prudence of the Japanese commander, and the Japanese forces have drawn back from their advanced posltion. What now remains to be tested is the question how far the Japanese have progressed with their main army and their heavy artillery. The facts as to this point are likely to be disclosed at any moment; in the meantime indications seem to favor the theory that the week has been favorable to the Russians.

One rather odd result has followed the achievements of the Japanese army since the opening of this month. Their successes on the

remarkable demonstra. mainland, their with discipline, military skill and tion of served rather curiously to bring again into public discussion the well-worn topic of the "yellow peril." A fraquently quoted comment by the "London Spectator" on the battle of the Yalu is at hand by this week's mail and may profitably be quoted in this connection. The article remarks:

"It seems to us, therefore, that the proof of the capacity of Japanese to defeat European troops given on the Yalu may involve hereafter very serious consequences, even though the first consequence, which all Europe begins to perceive, should not immediately follow. The restlessness of China is becoming marked, and if the war party there, which grounds its hopes on the success of Japan, should suddenly become active and supreme, every suggestion of caution we have advanced will be invested with a new gravity. The Chinese population, guided or controlled by men of the calibre of those who have won the battles on the Yalu, will represent a mass of power over which the statesmen of Europe—and we may include America—may yet have to ponder with deep anxiety. It is as a cause of anxiety that we, who admire both the skill and the daring of the Japanese, but who cannot forget that Europe and Asia have not precisely the same interests, cannot help regarding the battles on the Yalu."

This rather curious outgiving by a London journal follows, it will be observed, precisely on the lines of the attitude for some time maintained in Russia and in France regarding the Eastern situation. The theory thus entertained has been lately set forth with great clearness by Count Cassini, the very intelligent Russian Ambassador at Washington, who puts the matter thus in an article contained in the current "North American Review:"

"It is not a thoughtless statement that were Japan to obtain supreme control in Manchuria, the dominant military spirit of the Japanese would lead them to organize the Chinese into a modern army of such proportions that Europe and America would stand aghast at this menace to their peace and well-being. That is a phase of what has been called the "Yellow Peril" that it would be well for the thoughtful and intelligent classes to consider carefully. The Chinese make good soldiers. To suppose them to be pusillanimous in character is erroneous. They are easily trained by competent instructors, and with a population of more than four hundred and thirty millions to draw from, an army could be raised that, co-operating with Japan, might, with a reasonable show of confidence, defy the civilized world.

You in America should pause to contemplate the result of a union of the two great Mongol races—one progressive, aggressive, alert, over-ambitious, dreaming dreams of standing dominant not only in the Far East, but in the councils of the Powers; the other imitative, easily influenced, ready if not anxious to have a stronger hand mould its flaccid character into whatever shape would be best suited to carry out a scheme of national aggrandizement. You of America, as well as we of Europe, have this to confront. It is not Russia alone that the danger threatens, but the whole family of Caucasian races.

The first comment which an unprejudiced observer will make on these two views of the Japanese success is, that a good deal seems to be assumed as to the purposes of the Japanese at the end of the war. We have seen this assumption pushed so far, in pro-Russian articles published in Paris or elsewhere, as to assume outright that immediately on subduing Russia in the Far East Japan would plan to wrest Siam from France, Hong Kong from England and the Philippines from the United States. The theory is doubtless interesting, but can hardly be adopted without some inquiry into the grounds which exist for entertaining it.

What reason have we to suppose that Japan's designs reach any further than the defeat of Russia's

attempt to appropriate Corea? For ourselves, we have been unable to discover any such evidence. It has appeared to us from the start that the successive moves of the Japanese people and Government were in the highest degree self-protective. Both Ministry and people—the people indeed even more than the Ministry-had become convinced of the fact, quite evident to any one who studies the map of Northeastern Asia carefully, that the position of Japan would never be safe if once the Russian Power had secured an absolute foothold on the coast immediately opposite to it. Stated in this way, it may easily be argued that the attitude of Japan from first to last has been nothing more than the application in her own behalf of what in this hemisphere we call a Monroe Doctrine. Certainly all the documents and all the official acts which are on record on the part of the Japanese Government point to nothing more than this attitude and these motives. We repeat, the entire policy of Japan is, in our judgment, explicable on that simple supposition.

But waiving this, let us assume for a moment that it is the purpose of Japan, in the words of the "Spectator," to "guide or control the Chinese population," or that, in Count Cassini's words, they aspire to "organize the Chinese into a modern army." What should we infer from that? Would even this more or less improbable result prove that Japan is on its way to "defy the civilized world"? The unblased student of this problem will, we suspect, reach the conclusion that something is assumed in the argument underlying both the statements which we have quoted —that assumption being that both China and Japan are uncivilized, incapable of attending to their own affairs, and incidentally dangerous to the rest of the world if they should acquire such capacity. Stated thus bluntly, nothing could be in our opinion more monstrous than such a proposition. The truth of the matter, in our judgment, is, that the danger of the whole situation—the firebrand, so to speak, in the Eastern problem—has been the degeneracy shown by the Chinese Government. We do not believe it can be shown that the situation has in that regard been remedied or improved by the establishment of what in 1898 were called "European spheres of influence." On the contrary, a perpetual quarrel, first between China and the intruding Powers, then between these Powers themselves, seemed to befor an indefinite time foreshadowed. The culmination of this imbroglio in the Russian advance through Manchuria, and in the collision with Japan, was in many respects a logical outcome of what had gone before.

Suppose, then, that Japan were to succeed in infusing into China something of the modern spirit which the Japanese themselves have notoriously acquired; why should this mean the destruction of European and American interests in China, or the invasion by the yellow races of the outside world? We fail to see any reason for drawing such an inference. Chins, in the course of a national career older by very many centuries than that of the oldest European State, has displayed consistently a disposition toward the arts of peace. By nature traders, it is not in the least unreasonable to suppose that the Chinese would have welcomed cordial commercial relations with the outside world were it not for the suspicion, very early and very logically created by the course of events, that the encroaching Europeans had other motives than the simple development of trade. It is

our own opinion that a modernized China would contribute more to trade development, by what we have come to call the "open door in Asla," than any As for the notion that other conceivable event. Japan will be either able to organize its Oriental neighbor into a first-class and menacing belligerent Power, or will be desirous of doing so, it seems to us merely preposterous.

LAKE SHORE'S RECORD UNDER NEW YORK CENTRAL MANAGEMENT.

The appearance of the annual report of the Lake Shore & Michigan Southern Railway Co. calls atten. tion anew to the noteworthy record achieved in the management of this important and well-known prop erty. Especial interest attaches to the results for the last five years. This is so for a double reason. In the first place growth and development have been more active during these five years than during any previous similar period in the company's history. In the second place these years cover the time during which the property has been under the management of the New York Central & Hudson River Rallroad Co., and it will be useful and instructive to see what has been accomplished under such management and what has been the policy dominating the new owners in their control and administration of the road. It was in February 1898, it will be remembered, that the New York Central acquired the greater part of the \$49,466,500 stock of the Lake Shore, giving its 31 per cent bonds in exchange at the rate of \$200 in bonds for \$100 in stock.

It appears that the expenditures during 1903 for new equipment, construction, betterments, etc.-all paid for out of earnings-were even larger than had been indicated by the early preliminary statement issued last December; \$1,788,140 was spent for new equipment, \$219,229 for new side tracks and \$4,527,-136 for so-called "construction and betterments," the latter comprising a great variety of items, such as new shops, new stations, new main tracks, new bridges, yard improvements, changing of grades, etc., etc. Altogether it will be seen that the appropriations for the twelve months out of earnings exceeded 61 million dollars—\$6,534,505.

The Lake Shore had acquired distinction for its large improvement expenditures even before the New York Central undertook the management of The road had been practically doubletracked its entire length in this way and other improvements, besides additions to equipment and plant, made. Many persons supposed that under Central control this policy might be modified, at least to some extent, with a view to enabling the Lake Shore Company to pay larger dividends on There would have been an inducement for this in the fact that larger dividends would have meant increased returns to the Central as the owner of over \$45,000,000 of Lake Shore stock. But the Central people made no change whatever in the old policy; rather, they have carried it to greater lengths than before. Their plan evidently has been to still further strengthen the position and condition of the property-not to seek to gain advantage in the way of increased profits from their ownership of the shares. The semi-annual dividend in January this year was 4 per cent, but all the previous semi-annual payments were 3½ per cent, or at the rate of 7 per cent a yearat which latter figure the dividends received just took increase in gross earnings during the five years, the

care of the interest on the Central bonds issued in exchange for Lake Shore stock on the basis of \$200 in bonds for \$100 in stock.

We have shown that in the calendar year 1903 no less than \$6,534,505 was applied out of the Lake Shore's earnings for improvements, additions, etc. This is in excess of the amounts appropriated in any other period of twelve months, and yet the amounts so appropriated have been very large in all the years since the Central has been managing the road. In 1902 \$4,395,605 of income was applied to equipment, construction, side-tracks, etc. In 1901 the corresponding appropriation out of income was \$4,336,336. The exhibit for the last five years in this respect is a most interesting and significant one, and we have accordingly prepared the following statement covering that period of time. The table shows not only the amount of income directly applied in that way each year, but likewise the surplus available after the making of such appropriations and after the payment of dividends, for such surplus also remained at the disposal of the company in any manner that might be deemed expedient.

	Income applied to	Surplus available	Total applied
	equip., construction,	after such appropri's	out of
Tear-	side-tracks etc.	and dividends.	income.
1899	\$2,099.890	\$1,594,607	\$3,694,497
1900	3,071,939	3,195,775	6,267,774
1901	4,336,336	3,692,470	8,028,806
1902	4,395,605	3,272,868	7,668,473
1903	6,534,505	761,044	7,295,549
5 years	\$20,438,335	\$12,516,764	\$32,955,099

From the foregoing it will be seen that during the last five years income to the imposing aggregate of \$20,438,335 has been directly applied for new construction, new equipment, etc., and that in the same period of five years the further sum of \$12,516,764 remained available after dividends to use in the same way or to apply in the acquisition of other properties. It is known, of course, that the company has acquired a large amount of stock in other companies in recent years, more particularly in the Lehigh Valley, the Reading, the Indiana Illinois & Iowa and the Lake Erie Alliance & Wheeling, and that a part of the cost of these acquisitions was met out of surplus income. Altogether, it appears from the above statement that \$32,955,099 of income was used or was available for additions, improvements and new acquisitions. What a remarkable aggregate this is, the average for the five years being over 61 million dollars a year, or at the rate of 13 per cent per year on Lake Shore stock—in addition to the dividends actually paid on the shares!

But the facts here disclosed are not the only features in the affairs of the Lake Shore during the last five years which attract attention. The expansion in earnings and volume of traffic and the advance in operating efficiency attained are circumstances of no less importance and significance. Comparing the calendar year 1903 with the calendar year 1898 we find that in the interval gross earnings have risen from \$20,753,-683 to \$34,768,082. This is an increase for the five years of over 14 million dollars, or not far from 70 per cent. In the case of the Lake Shore such an expansion in revenues is particularly noteworthy, in view of the fact that the increase was made with substantially no addition to length of road operated, the augmentation following directly from the enlargement of the volume of freight without the aid of any new mileage. It is no less a commentary that with \$14,000,000

addition to net earnings has been only trifling—just \$231,263—the amount of the net for 1903 being \$7,056,926 and for 1898 \$6,825,663. Stated in another way the ratio of expenses to earnings in 1903 was almost 80 per cent against only about 67 per cent in 1898.

The higher operating cost has occurred in face of a marked advance in operating efficiency, as we shall presently show, thus giving added emphasis to it. The reasons, of course, lie on the surface. penses for 1903 included \$6,534,505 appropriated for additions, new constructions, etc., while those for 1898 included only \$322,471, and, furthermore, enhanced prices had to be paid for all the various items entering into the ordinary operating accounts, more particularly labor, fuel, materials and supplies. Not counting the extraordinary expenditures at all, the ordinary expenses in 1903 exceeded the whole total of the gross earnings for 1898. As still another way of illustrating the magnitude of the growth in gross revenues during the five years, we may point out that gross earnings per mile have advanced from \$14,716 in 1898 to \$24,307 per mile in 1903. These and other interesting facts are brought together in the follow. ing table, comparing results for 1903 with those for 1898.

Calendar Year— Miles of road operated (average)	1903. 1,430	1898. 1,410
Gross earnings	\$34,768,082	\$20,753,683
Expenses-ordinary	\$21,176,651 6,534,505	\$13,105,549 822,471
Total expenses	\$27,711,156 (79·70%)	\$13,928,020 (67·11%)
Net earnings	\$7,056,926	\$6,825,66 ³
Gross carnings per mile Net earnings per mile	\$24,307 4,934	\$14,716 4,840
Tons of freight	26,960,950	15,551,976
Tons one mile4	1.610,710,625	2,771,978,098
Rate per ton per mile	5.21 mills	5.02 mills
Freight train mileage	7,499,568	7,866,833
Average train-load	615 tons	352 tons
Freight earnings per train mile	\$3.22	\$1.78

The statistics contained in the latter half of the above table show in a graphic way how, through the large expenditures made from year to year and the practice of economical methods, the operating efficiency of the property has been steadily raised. As indicating the increase in transportation service rendered, it should be noted that the number of tons of freight moved increased from $15\frac{1}{2}$ million tons in 1898 to 27 million tons in 1903, and the number of tons moved one mile from 2,771 millions to 4,610 millions—the one a gain of over 70 per cent, the other a gain of almost 70 per cent. Yet, with 1,839 million tons more of freight carried one mile, the freight train mileage for 1903 was actually less than for 1898, the comparison being 7,499,568, against 7,866,833. This simply means that average train-load has been enlarged in a way that is nothing short of marvelous

The Lake Shore has always had a good record in the matter of train-load. But though in 1898 the average was considered satisfactory at 352 tons, for 1903 the amount is up to 615 tons. The latter is an exceptionally high figure and there are few railroad systems in the country that can equal it, and still fewer that can surpass it. The advantage resulting from the higher train-load is seen when we proceed a step further and discover that with only a very small change in the rates received per ton per mile, the freight trains earned an average of \$3 22 per mile run in 1903 as against only \$1 78 per mile in 1898. Altogether, therefore, while the outlays for improvements and now mark the course of the iron market would be

additions have been of extraordinary proportions the accruing benefits are seen to have been equally pronounced and to have followed directly as a result of the same.

THE PLAN FOR STORING PIG IRON.

Very active efforts are again being made on the part of the American Pig Iron Storage Warrant Company to enlist interest in its plan for storing pig iron and to promote dealings in the company's warrants to be issued against the pig iron so stored. Under date of last Saturday the company issued a circular on the subject addressed to the pig-iron producers of the United States. The circular states that the company has received the signatures of officials of merchant furnace companies, with an annual capacity of 3,900,-000 tons, in favor of a movement to establish a market for daily Exchange dealings in pig iron warrants. It is furthermore stated that officials of additional furnace companies representing 1,200,000 tons have agreed to lease to the Warrant Company ground and deliver on same, graded and welghed, any iron for which their customers may wish to take out warrants. Attention is directed to the fact that the merchant furnaces produce only about one-third of the pig Iron manufactured, and that hence the figures given indicate that the sentiment favoring warrant dealings is almost unanimous among them.

The announcement is made that warrants have been listed by the Pittsburgh Stock Exchange and that the work of inaugurating Exchange sales is progressing satisfactorily, rules for the government of such sales being now under consideration. In New York, we are told, arrangements have been made for dealing in warrants on the New York Produce Exchange. The movement is to be conducted by Rogers, Brown & Oo. and a number of other metal houses, all of whom are, or will, it is stated, become members of the Exchange for that purpose. The circular is written in an optimistic tone and says that everything points to the fact that after years of preparation a condition of sentiment among the interested parties has grown up which indicates that the time has arrived to make the movement a success. It concludes with the following words: "The details of preparation for selling on Exchanges have now occupied several weeks; in a few days everything will be ready. When it is, we wish to have iron warrants to sell. The object of this circular is to ask you to consider what amount of iron you wish to sell by warrant for spot or forward delivery and to put authority to make said sales into the hands of some one of the houses which have elected to take part in the selling movement. The Warrant Company will make favorable terms to the furnace companies on all such iron."

We see no indications of public excitement over this new attempt to revive interest in the scheme for storing pig iron. The theory, of course, is that through the issue of warrants and dealings in the same on the Exchanges a market for a considerable amount of stored iron can be provided, and that stocks of iron which might thus be accumulated in times of depression would be available when buoyancy returned and productive capacity fell short of consuming requirements. It is argued that the effect would be to ensure greater stability of prices and that the exceedingly wide and extreme fluctuations whichavoided. Mr. George H. Hull, the President of the American Pig Iron Storage Warrant Company, has long been an earnest advocate of the system and has written many papers on the subject. The following extracts from a pamphlet just issued by him will serve to indicate in a general way what it is hoped to accomplish by the system.

If we have no warrant system, supplemented by Exchange sales, in this country, iron will again go down to \$6 in Alabama and \$9 in Pennsylvania. If we have such a system, there is no reason why it should go down to these absurdly low prices. There is no reason why Exchange sales will not do for iron what it has done for every other commodity which has been introduced to Exchange dealings. When iron went down to \$6 in Alabama and \$9 in Pennsylvania, it did not yield enough to pay royalty to the land owner, interest to the furnace owner, and yielded only a bare subsistence to the laborer. This was because there was but one buyer for iron. If we had two buyers, the dealer and the consumer, one buying all he needed and the other needing all he could buy, prices would never have sunk to such ridiculous figures. No one can study this subject and escape these conclusions. Probably \$8 to \$9 in Alabama and \$12 to \$13 in Pennsylvania is as low as these irons would have gone at that period, if there had been two buyers instead of one. * * * Does not every thinking man know that if we were to accumulate a reserve stock of 10,000,000 tons in the United States before that date [some date between 1900 and 1913, when, according to mathematical calculations the country is to consume 40,000,000 tons of pig iron per annum] it would all be consumed during the first year of prosperity, and does he not know if such a stock is not accumulated, we shall have a repetition of the same woeful experiences which the iron business has gone through eight times within the last 75 years.

We do not intend to go into a discussion of the feasibility of the scheme. The reasoning is plausible enough. Iron producers just now are having difficulty in keeping their furnaces in full operation and finding a market for their product. If, therefore, they could be assured that, through the pig iron warrant system, an avenue for ten million tons of iron could be found the next few years, to constitute a reserve stock, it appears likely the iron trade would at once begin to improve, whatever might happen after the reserve stock of ten million tons had been created. To the ordinary layman it seems rather a large proposition to find lodgment for warrants representing ten million tons of iron, which at \$12 to \$15 a ton would mean an investment of \$120,000,000 to \$150,000,000. Mr. Hull's answer is "that money can be readily borrowed on the warrants in probably every city in the United States, Canada and Great Britain." Possibly, but how much could be borrowed?

Every one will admit it would be a great point gained if the violent flactuations in prices experienced in the past could be obviated; but there have been some pretty large fluctuations in Scotch pig iron, notwithstanding the existence of the warrant system in Scotland. It is just possible, too, that the piling up of a reserve stock of large amount—ten million tons or there abouts-in sight of the whole world might have just the opposite effect of that intended, intensifying business depression instead of alleviating it. Farthermore, the plan would hardly be available to the large steel-producing companies, which are at once the largest producers and the largest consumers of pig These steel companies turn out everything needed in the manufacture of their wares, from the ore to the finished forms of iron and steel, and they

certainly would have little inducement to produce iron to sell to dealers or speculators in pig iron warrants. Their object is to convert the iron into steel of one form or another, for it is in this operation that they make their profits. And with the steel companies left helpless, what hope for general improvement could there be? The absorption of the surplus product of the merchant furnaces certainly could not under such circumstances furnish an adequate measure of relief.

RAILROAD GROSS AND NET EARNINGS FOR MARCH.

We present below a summary of the gross and net earnings of United States railroads for the month of March. The showing is like that for the month preceding—unfavorable. In the gross there is an increase (only, however, \$287,426, or a fraction of 1 per cent), while in the net there is a loss of \$3,662,363, or 10.68 per cent, as will appear from the following.

	March. (101 roads.)		January 1 to Mar. 31. (101 roads.)			
	1904.	1903.	Inc. or Dec.	1904.	1903.	Inc.or Dec.
	8	8	8	8	*	8
Gross earn's	110,945,053	110,657,629			367,987,332	
Oper. exp	80,316,258	76,366,469	+3,949,789	274,744,003	261,641,584	+13,102419
Net earn's	30,628,797	34,291,160	-3,662,363	90,083,071	108,845,748	-16,262,677

We have so often of late set out the causes responsible for the unfavorable results that it is unnecessary to go into the details again at length. Suffice it to say, therefore, that weather conditions over a large section of the country were extremely adverse, that general trade was less active than a year ago, that the cotton movement in the South was smaller, and that the anthracite coal roads were comparing with the period of exceptionally large tonnage last year. Farthermore, in Colorado the roads still suffered from the effects of the coal miners' and the ore miners' strike, and there was also a strike at the copper mines in Michigan, the Copper Range Railroad referring particularly to this circumstance as one of the reasons for its decreases.

Finally the fact should not be lost sight of that comparison is with exceptionally large earnings in 1903. In that year our statement for March showed no less than \$14,667,126 increase in gross or 16.02 per cent and \$4,559,843 or 15.81 per cent increase in net. Considering the magnitude of last year's gains and also the continuous gains in the years preceding, and considering likewise the many adverse circumstances and conditions encountered the present year as outlined above, the surprise must be that the showing is not a great deal worse than it has actually turned out to be. In the following we give the totals back to 1893, both for March and for the three months ending with March. The figures for the latter period include a number of roads which furnish quarterly returns but not monthly.

Note.-We no longer include the Mexican roads or the coal-mining operations of the anthracite coal roads in our totals.

Notwithstanding the general result is unfavorable, at least as concerns net, there is quite a fair number of roads which report increases—some in gross and net alike. The improved results come mainly from roads in the South and Southwest, though there are also a few from other parts of the country. It is not necessary to enumerate any of them by name. The following statement in our usual form will show them at a glance. It comprises all roads showing changes in excess of \$30,000, whether increases or decreases, for both gross and net earnings. TOU THO Pennsylvania RR	. the ne	et on lines directly operat.	nd sage he

Baitimore & Ohio..... † On the Pennsylvania RR. the net on lines directly operated east of Pittsburgh and Eric (including Buffalo & Allegheny Division) decreased \$673,600 and the net on Western lines decreased \$481,000.

1 Does not include results for Lehigh Valley *Ocal* ()c. and other controlled coal companies, which latter show an increase of \$56,048.

The best idea of the general character and tendency of the returns is furnished when the roads are arranged in groups. In the gross three of the eight groups record an increase, viz., the Southern, the Southwestern and the Middle Western. When we come to the net, however, it is found that every one of the groups has fallen behind with the single exception of the Southern-thus reflecting the higher operating cost occasioned by bad weather and other influences.

Following our practice of previous months, we add one other table, giving roads which have made returns as to gross for March but which do not furnish returns as to net. In this way we are enabled to present a still more comprehensive exhibit than the one above, but confined entirely to the gross results. We start with the totals of the gross in the foregoing table, and then add the roads for which we have figures as to gross alone.

¶ Figures are for five weeks to April 2.

It will be observed we get a total of gross earnings reaching \$133,218,211 for March 1904 as against \$133,294,034 for March 1903, showing a trifling loss—

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

-The public sales of bank stocks this week aggregate 451 shares, of which 263 shares were sold at the Stock Exchange and 188 shares at auction. The transactions in trust company stocks reach a total of 70 shares. A sale of six shares of the stock of the United States Mortgage & Trust Company made at anction on Tnesday is not included in the table below, as the price paid-\$100 per share-does not nearly represent the fair market value of the stock. The shares made one of several lots of securities offered for sale "for account of whom it may concern," which for some reason were not protected by interested parties. The stock is quoted to-day at 390 bid.

*Sold at the Stock Exchange. ¶ Of this amount 258 shares were sold at the Stock Exchange.

—It is the intention of a large number of the leading trust companies in this city and vicinity to form a Trust Company Association of the State of New York. To this end an invitation has been sent to every trust company President in the State to meet on Friday, May 27th, in the trustees' room in the Mutual Life Insurance Co. building in this city to formulate plans for the Association. The following well-known names appear on the invitation: Otto T. Bannard, President New York Security & Trust Co.; Charles T. Barney, President Knickerbocker Trust Co.; John E. Borne, President Colonial Trust Co.; Julian D. Fairchild, President Kings County Trust Co., Brooklyn; George H. Sonthard, President United States Mortgage & Trust Co., and Grange Sard, President Union Trust Co., Albany.

Mr. George W. Yonng, President of the United States Mortgage & Trust Company, who, we understand, is taking a leading part in the organization of the Association, in an interview, refers to its advantages as follows:

The 81 trust companies of New York State represents cash capita and surplus of over \$200,000,000, deposits of over \$800,000,000 and assets of over \$1,000,000,000, and are at a great disadvantage in not having an association similar to that of the national, State and savings banks.

The rapid growth of trust companies in this State during the past few years, and their position in the financial community, justifies an organization in their common interests. Under existing conditions and regulations of the State Bankers' Association, it is impossible to form a section of that association devoted to the interests of trust companies.

It has been assumed that this movement on the part of the trust companies is the direct result of Clearing-House legislation as to the reserve and has some connection with the withdrawal of the trust companies from the Clearing House. This is not the fact. Few trust companies are opposed to a reasonable reserve. We feel that banks and trust companies are co-ordinate institutions, and an association of the trust companies such as is proposed throughout the State will enable these two classes of financial institutions to work more closely together than has been possible in the past, and will be of material assistance in promoting harmony of action between such interests throughout the State. It will be possible through such an association to obtain the real sentiment and opinion of the trust companies on any specific subject and lead to united action in the general interest.

We believe that the financial fabric will be materially strengthened by centralizing the influence and strength of all the trust companies of the State in an organization through which action involving the common interests can be taken. Such an association should be a protection and safeguard in the time of financial distress.

-The National City Bank of this city has just issued an attractive cloth covered book entitled "National Bank Organization," which should prove useful to bank officials everywhere and also to those contemplating the formation of new banks. It gives every detail relating to the organization of a bank, and also extensive data regarding the various functions appertaining to national institutions. Copies of official forms and documents with reference to articles of association, organization certificate, form of stock certificate, oath of director, by-laws, certificate of payment of capital stock, forms for conversion of State banks, outline of resolutions authorizing withdrawal of one issue of bonds and substitution of another, order for plates and circulation, notice of shareholders' meetings, amendments of articles of association, extension of charter, resolution to reduce capital stock, certificate for voluntary liquidation, and a whole host of other official forms, constitute one of the features of the book. In the text there is a vast amount of information concerning all the affairs in which national banking institutions are interested, or in which they take any part. The mechanical make-up of the book is in the same attractive style as the various circulars and documents which the National City Bank sends out from time to time. The book is from the press of Robert Grier Cooke, 307 Fifth Avenue. We presume it is for distribution among the friends and patrons of the institution. Those who have not already received a copy will do well to apply for one.

-Mr. Henry W. Reighley has been elected Second Vice-President of the Real Estate Trust Company of New York, which office he will hold as well as that of Secretary, and Mr. Charles M. Van K'eeck has been appointed Assistant Secretary of this company.

-Negotiations looking to the merger of the North Ameri can Trust Company and The Trust [Company of America of this city, mentioned in these columns some time ago, have this week assumed definite shape. Under the proposed plan of consolidation each company is to contribute \$3,000,000 in cash assets, together with all its business and good-will, thus making a total of \$6,000,000 cash. The remainder of the assets, approximately about \$4,700,000, is to be distributed among the stockholders of both companies. The last statements of these two institutions show that The Trust Company of America has a capital of \$2,500,000, surplus and profits of \$3,074,850 and deposits of \$14,498,408, while the North American Trust Company has a capital of \$2,000,000, surplus and profits of \$3,143,606 and deposits of \$12,562,332. The new company will assume the title of The Trust Company of America and will have a capital of \$1,000,000 and a surplus of \$5,000,000. The present offices of the North American Trust Company, corner of Broadway and Cedar Street, will be used. Mr. Oakleigh Thorne, now President of the North American Trust Company, it is expected, will be at the head of the new company. A meeting of the stockholders of the Trust Company of America is called for June 8th and of the North American Trust Company for June 9th to vote upon the plan of merger.

—Thirty-nine years of service at the Sub-Treasury is the enviable record held by Mr. George W. Marlor, Cashier of the New York Sub-Treasury and Deputy Assistant Treasurer of the United States. Mr. Marlor's first appointment dates from 1865, his fortieth year with the institution having begun this week.

—The board of the Bowling Green Trust Company of this city at a meeting last Thursday elected Adolph Goepel, of Messrs. Goepel & Trube, 11-17 William Street, a director in place of the late Ashbel P. Fitch.

—On the 19th inst., the stockholders of the newly Consolidated Empire Trust Company met for permanent organization and elected directors succeeding the temporary board. The gentlemen chosen were: Messrs. Henry W. McVickar, William E. G. Gaillard, Francis Burton Harrison, Frederic R. Coudert, Thomas B. Hidden, Henry A. Robbins, Walter T. Rosen, William Salomon, James Henry Smith, Egerton L. Winthrop Jr., Percival Kuhne, Le Roy W. Baldwin, Archer Brown, Clement A. Griscom Jr., George L Nichols, Adolph Obrig, Duncan D. Parmly, J. Frederick Talcott, Henry P. Talmadge, H. H. Harrison, William E. English, E. D. McGreal and Roger S. Baldwin. The directors will meet next Monday for the election of officers and executive committee.

—The Franklin Trust Company, located at the corner of Montague and Clinton streets, Borough of Brooklyn, "with a view to increased facilities and greater accommodation to its customers and in its business," has decided to establish a branch office in the Borough of Manhattan. The new branch will be located at 140 Broadway, corner of Liberty Street. The Franklin Trust Company has a capital of \$1,000,000, surplus and undivided profits of \$1,562,421 and deposits of over \$8,000,000. Mr. George H. Southard is President, Messrs. Wm. H. Wallace and Gates D. Fahnestock, Vice Presidents; Mr. Crowell Hadden Jr., Secretary; Messrs. Clinton W. Ludlum and George H. Southard Jr., Assistant Secretaries, and Mr. Wm I Frothingham, Trust Officer.

Mr. George H. Sonthard was also elected on Wednesday last President of the Safe Deposit Company of New York.

—The resignation of four members of the board of the Stuyvesant Heights Bank of Brooklyn is announced. The retiring directors are Mr. Rudolph Reimer Jr., Solomon Rubin, N. Willard Curtis, and Louis L. Firuski. According to one of these the resignations were occasioned by the fact that the retiring members are not entirely in accord with the policy of the bank. The vacancies will remain unfilled until the next meeting.

-Mr. Henry B. Endicott, who became a director of the National Shawmut Bank of Boston in January; 1902 has retired from the board of that bank. Mr. Endicott had pre-

viously been a member of the board of the Third National Bank of Boston, which was merged with the Shawmut in

-A new plan to rehabilitate the Nashua Trust Company of Nashua, N. H., was voted upon by the stockholders on Tuesday of this week which it is expected will enable the institution to reopen on the 27th inst. As may be recalled, the company suspended on January 25, owing to the alleged embezzlement of some of its funds by Secretary and Treasurer Goggin. Some weeks later it was voted to sell for cash \$50,000 additional stock (the capital had been \$150,000), and then to reduce the aggregate amount to \$75,000. As a result of Tuesday's meeting it has now been decided to reduce the capital from \$150,000 to \$10,000, the amount then to be increased by new subscriptions to \$50,000. Old stockholders are to be given the preference, pro rata, and will be called upon to surrender their certificates on the 26th inst, receiving in return a certificate amounting to one-fifteenth of their present holdings. The full amount of the \$35,000 bond of Secretary Goggin was paid by the City Trust, Safe Deposit & Surety Company of Philadelphia on the 17th inst.

The Franklin National Bank of Philadelphia has, through the purchase of the entire foreign exchange business of Messrs. Peter Wright & Sons (of New York and Philadelphia), materially enlarged the scope of its operatious. The bank is now placed in direct connection with all parts of the British Empire, Continental Europe and the Orient, and is prepared to issue circular letters of credit and commercial credits available throughout the world, as well as to perform other functions incident to foreign banking. Mr. William Wright has been appointed Manager of the new department.

Mr. J. R. McAllister, the well-known Vice-President and Cashier of the bank, was on Thursday elected ito the post of President, Mr. Henry Tatnall, the present executive, having been chosen Sixth Vice-President and Treasurer of the Pennsylvania RR. Mr. E. P. Passmore has been chosen Cashier of the Franklin, and Mr. Charles V. Thackara succeeds Mr. Passmore as Assistant Cashier. All will assume their new positions on Jane 1. Mr. McAllister, the newly-elected President, was appointed Cash'er of the bank when it was organized early in 1900, prior to which he was Cashier of the Corn Exchange National Bank of Philadelphia. The office of Vice-President, which was especially created for him in January 1903, remains vacant for the present.

-At the meeting of the stockholders of the Commonwealth Title Insurance & Trust Company of Philadelphia, held on the 16th inst., approval was given to the proposition to reduce the capital from \$2,000,000 to \$1,000,000, and to increase the par value of the shares from \$50 to \$100. As stated in our issue of March 19, only half of the original capital of \$2,000,000 has been paid in—that is, \$25 on each share. It is the intention of the officials to call in this old stock and to issue one full paid \$100 share for each four shares of \$50.

—A proposition to consolidate the National Bank of Baltimore and the National Union Bank also of Baltimore is now, according to the local papers, under consideration, and it is stated that negotiations have arrived at such a stage that the purchase price for the shares of the bank to be merged has already been agreed upon. No authentic information on the subject is yet available, but it is understood that the Bank of Baltimore, capital \$1,210,700, will be taken over by the National Union, which recently decided to increase its capital from \$900,000 to \$1,000,000. The buildings of both institutions were damaged in the Baltimore fire, the Bank of Baltimore since making its home at Charles and Pleasant streets, and the National Union at 212 North Charles Street.

-The contemplated reduction in the capital of the Baltimore Trust & Guarantee Company of Baltimore was author. ized by the stockholders on the 6th inst. As heretofore mentioned, the company is to have a capital of \$800,000 instead of \$1,000,000, as at present, the 2,000 shares to be canceled at \$800 each.

-Mr. Robert Wardrop, President of the People's National Bank of Pittsburgh, has been elected a Vice-President of the Safe Deposit & Trust Company of Pittsburgh, to succeed the late Mr. William T. Howe. The latter had also held the office of Secretary, to which Mr. E. G. Normecutt was elected several weeks ago, as noted in the CHRONICLE of the 7th inst.

People's Savings Bank and the Safe Deposit & Trust Com pany. Another new director of the last-named institution is Mr. James K. Duff, Secretary and Treasurer of the People's Savings Bank.

-Mr. Herman H. Niemann, a Pittsburgh financier, died suddenly in Philadelphia on Sunday, the 15th inst. Besides being President of the Fifth Avenue Bank of Pittsburgh, Mr. Niemann was also at the head of the German-American Fire Insurance Company of Pittsburgh, President of the Parkersburg Iron & Steel Company, and a director of the Germania Savings Bank of Pittsburgh, in which latter concern his son, A. E. Niemann, is Secretary and Treasurer. The deceased was seventy-three years of age.

-The directors of the Chicago Savings Bank of Chicago have recommended to the stockholders an increase in the capital of the institution from \$250,000 to \$500,000. A meeting of the stockholders has been called for June 7 to vote on the proposition. The growth of this institution has been rapid since its organization less than two years ago. It is temporarily occupying the old banking quarters of the Merchants Loan & Trust Company, corner Dearborn and Washington Streets, but within a year will remove to its elegant new building now in process of erection on the southwest corner of State and Madison streets.

-In compliance with a demand from several of its bond customers, the Western Trust & Savings Bank of Chicago, subscribed for \$250,000 of the recent Japanese loan.

-The death occurred in Washington, D. C., on the 13th inst of Mr. Henry M. Knox, who for many years had been identified with the banking interests of St. Paul. Mr. Knox had at one time been Cashier of the First National Bank of St. Paul, and had aided in the bank's organization. He was the first public examiner of the State of Minnesota, having been appointed in 1878. Later he became Cashier and Vice-President of the Security Bank of Minnesota at Minneapolis, which posts he was obliged to relinquish, illness in his family necessitating his removal East.

-The Mercantile Trust Company of St. Louis, Mo., has acquired control of the American Central Trust Company of St. Louis, and the business of the latter became a part of the Mercantile on Thursday, the 19th inst. The American Central was organized in January 1902, with a capital of \$1,000,000 and surplus of \$500,000. In its last statement it showed deposits of nearly \$2,000,000. Mr. Edward Buder, the Secretary and Treasurer, with others of the employees of the absorbed company, is now associated with the Mercantile.

-The Indian Territory Bankers' Association, whose annual meeting was held on the 10th and 11th inst., at Sulphur, I. T., already has a membership of 147 banking institutions out of a total of 232 banks, of which 100 are national. This is an excellent showing, especially when it is remembered that the association is less than three years old, its organization dating only from the Fall of 1901. The principal speakers at the present year's gathering were Mr. Frank Craig, Cashier of the City National Bank of South McAlester, who spoke on "The Signs of the Times," and G. A. Murphy, of Muskogee, whose remarks dealt with "Commercial Paper." Banking legislation was also discussed, and a legislative committee appointed to work for more stringent banking laws, no definite action, it is stated, having been taken in the matter of last year's resolution requesting Congress to extend to the Territory the banking laws in force in Oklahoma. For the ensuing year the following officers will serve: President, Mr. Frank Craig, Cashier of the City National Bank of South McAlester; Vice-Presidents, F. R. Hedrick, Cashier of the First National Bank of Madill; and Dr. Oliver Bagby, President of the First National Bank of Vinita; Secretary, N. T. Gilbert, Cashier of the Bank of Commerce of Wetumka; and Treasurer, C. J. Webster, Cashier of the First National Bank of Sulphur.

-The closing on Monday of the banking house of I. C. Piant's Son, of Macon, Ga., brought with it the suspension of the First National Bank of that city, the failure of the latter being attributed to a heavy loss sustained by the suspension of the private bank. Both institutions were in charge of Mr. R. H. Plant as President. The capital of the First National is \$200,000; its deposits at the date of the last call were \$581,856. National Bank Examiner W. F. Albertsen is now in charge as receiver of its affairs. Mr. N. B. Mr. William Rea has been elected to the boards of both the Corbin acting in a similar capacity for the business of

I. C. Piant's Son. With the issuance of a statement by Mr. L. P. Hillyer, Secretary of the Clearing-House Association, to the effect that the two institutions were not in any sense indebted to any of the other banks in the city, public confidence was in a measure restored and anxiety abated. A preliminary report of the condition of I. C. Plant's Son's Bank shows total liabilities of \$2,243,229 and total assets of \$1,399,178.

—Mr. Oscar E. Dooley was appointed Manager of the Macon (Ga.) Clearing House Association on Tuesday to succeed Mr. L. P. Hillyer. Mr. Dooley is Assistant Cashier of the American National Bank and Cashier of the Home Savings Bank of Macon.

—The death is announced of Mr. Joseph L. Bilisoly, Cashier of the Bank of Portsmouth, at Portsmouth, Va. Mr. Bilisoly was sixty-four years of age.

-Although a number of diversions had been arranged for the bankers of Alabama at the annual session recently closed at Montgomery, much business, too, was accomplished before adjourning. Aside from the customary addresses of the officers several others on various subjects had been prepared. The report of Mr. Louis B. Farley (Cashier of the Merchants' & Planters'-Farley National Bank of Montgomery) on the proceedings of last year's meeting of the American Bankers' Association was an elaborate one, dealing with the principal features of that convention, at which he was present as Alabama's representative. Mr. W. P. G. Harding, President of the First National Bank of Birmingham, who had been expected to address the bankers on "Official Letter Writing," was unable to be present. The address of Mr. J. H. Cranford (President of the Bank of Jasper of Jasper, Ala.,) on "Trials of a Country Banker" proved entertaining, as did that of Mr. A. F. Armstrong (Cashier of the Marion Central Bank of Marion) on "The Country Banker." The new President of the association is Mr. Louis B. Farley, who last year held the office of Vice-President. Mr. E. J. Buck, President of the City Bank & Trust Company of Mobile, has again been elected Secretary and Treasurer. Mr. Joseph F. Johnson, President of the Bank of Greenville, at Greenville, Ala., is the Vice-President. The next meeting place will be Mobile.

-Tupelo, Miss., was the scene of the current year's convention of the Mississippi Bankers' Association, the meeting covering two days, the 11th and 12th inst. During the course of the proceedings a resolution was adopted petitioning the State Auditor to make his calls for the condition of State banks on the same dates as those made by the Comptroller for the statements of the national banks. The paper of Mr. T. R. Roch on "Forty Years of Banking" was read in his absence by Secretary B. W. Griffith, President of the First National Bank of Vicksburg. Another paper was "The Banker in Politics," by Mr. John W. McGrath, President of the Commercial Bank of Brookhaven, Miss. The meeting closed with the election of the following officials: President, Mr. F. W. Foote, Cashier of the National Bank of Commerce of Hattiesburg; Vice-President, B. M. Potts of Koscinsko, and Secretary and Treasurer (re-elected), B. W. Griffith.

—Receiver John W. Wilson of the Orange Growers' National Bank of Riverside, Cal., has been authorized to sell the assets of that institution to the Citizens' Bank of Riverside, which latter, it is stated, will pay the depositors of the failed bank in full. The Orange Growers' National was obliged to close its doors on March 22 last owing to a run due to the alleged defalcation of about \$100,000 by its Cashier.

THE CUBAN LOAN.—The \$35,000,000 Republic of Cuba 5 per cent gold bonds of 1904 which were recently bought by Speyer & Co. have been privately sold to a considerable amount. But it is understood that there will be a public offering early next week, in this country as well as in Europe.

This is the first loan issued by Cuba since the acceptance by the Cuban Republic of the so-cailed Platt Amendment. This amendment, which was accepted in an Appendix to the Constitution of Cuba, provides in Article II. that the Cuban Government "shall not assume or contract any public debt to pay the interest upon which and to make reasonable sinking fund provision for the ultimate discharge of which the ordinary revenues of the Island of Cuba, after defraying the current expenses of the Government, shall be inade-

quate." It is also provided in this Appendix that "the Government of Cuba shall never enter into any treaty or other compact with any foreign Power or Powers which will impair or tend to impair the independence of Cuba," and "that the Government of Cuba consents that the United States may exercise the right to intervene for the preservation of Cuban independence (and) the maintenance of a Government adequate for the protection of life, property and individual liberty."

The Government of the United States has been advised by Speyer & Co. of the conclusion of the loan and of the security therefor, and has replied that it does not consider that there is occasion to object to such issue of bonds by reason of Article II. of the Appendix of the Constitution of Cuba, adopted pursuant to the requirements of the so-called "Platt Amendment."

In issuing the new loan, the Republic of Cuba, besides the usual pledge of good faith and credit, created a special permanent tax upon different articles, which tax is to remain in force during the life of the loan or any part thereof.

By the contract which the Government of Cuba concluded with Speyer & Co., the Government assigned, as special security for the loan, fifteen per cent of the Customs receipts of the Republic of Cuba, an amount equal to which is to be paid weekly to Speyer & Co. of New York or to their agent in Havana. The amortization of the loan is to begin on March 1 1910, the sum to be annually contributed to be \$1,020,000 United States gold, to be paid by the Government to Speyer & Co. in monthly instalments of \$85,000 each. These amounts are to be applied to the purchase of bonds at or below par,or to drawings for redemption at par and interest.

The Cuban Government also agrees, should the pledge of Customs receipts be insufficient, to fulfill the interest and the sinking fund requirements of the loan, to set aside and pledge such additional percentage as may be necessary. The bonds bear 5 per cent interest, and the principal becomes due on March 1 1944.

Public Accountants.—The movement to organize the profession of the public accountant in the United States on uniform lines, by securing the formation of societies incorporated under State laws, which has been actively promoted by the Federation of Societies of Public Accountants in the United States, is being pushed steadily forward.

The Missouri Society of Public Accountants, organized in St. Louis last September, has been elected a member of the Federation, which now comprises ten State societies, while the initial steps have been taken in Wisconsin and Indiana by organizing local societies of public accountants in Milwaukee and Indianapolis.

Up-to-date societies, exclusively composed of practicing public accountants, have been organized in seventeen different States, the object of all this work being to secure for the future a uniform standard of professional efficiency, and, as far as possible, uniform laws providing for the examination of accountants and the issuance of certificates authorizing them to style themselves "Certified Public Accountant."

The Society of Certified Public Accountants of the State of New Jersey will give a banquet to its members and several invited guests, among whom will be the members of the newly appointed State Board of Public Accountants, also the Presidents of several State societies and the Executive Officers of the Federation. The object of the banquet is to commemorate the passage of the C. P. A. law in the State of New Jersey.

The Pennsylvania Institute of Certified Public Accountants, which has recently been incorporated under the laws of the State of Pennsylvania, will hold its annual meeting on the 25th inst., when the by-laws will be amended so as to give greater scope to the society and incidentally to admit to membership accountants holding certificates as Certified Public Accountants issued by other States than Pennsylvania. On May 27th the Pennsylvania Institute will give a banquet to its members and invited guests at the Bellevue Hotel in Philadelphia. These annual banquets have always been most enjoyable and instructive occasions, and have been well attended. The educational work done by the Pennsylvania Institute has placed it in the foremost rank of public accountant societies, a large proportion of its members being very active in the educational field.

† Including for Boston and Philadelphia the item "due to other banks," and also Government deposits. For Boston these Government deposits amounted on May 14 to \$4,532,000; on May 7 to \$4,912,000.

Imports and Exports for the Week.—The following are the imports at New York for the week ending for dry goods May 12 and for the week ending for general merchandise May 13; also totals since beginning first week January.

FOREIGN IMPORTS.										
For week.	1904.	1903.	1902.	1901.						
Dry Goods. General Merchandise	\$1,096,993 11,845,995		\$1,911,4 0 5 8,733,378							
Total	\$12,942,988	\$10,927,088	\$10,644,783	\$11,741,669						
Since Jan. 1. Dry Goods General Merchandise	\$47,429,967 180,754,589		\$48,947,155 161,043,539							

Total 19 weeks|\$228,184,556|\$231,399,594|\$209,990,694|\$213,901,443

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending May 16, and from January 1 to date.

EXPORTS FROM NEW YORK FOR THE WEEK.

	1904.	1903.	1902.	1901.
For the week Previously reported	\$8,594,312 174,928,716	\$10,248,387 186,346,773	\$10,496,643 174,214,479	\$8,238,956 194,762,064
Total 19 weeks				

NOTE.—As the figures of exports as reported by the New York Custom House from week to week frequently show divergence from the monthly totals, also compiled by the Custom House, we shall from time to time adjust the totals by adding to or deducting from the amount "previously reported."

The following table shows the exports and imports of specie at the port of New York for the week ending May 14 and since Jan. 1, 1904, and for the corresponding periods in 1903 and 1902.

WALL STREET, FRIDAY, MAY 20, 1904.-5 P. M. The Money Market and Financial Situation.—Business at the Stock Exchange shows an increasing tendency to indifference on the part of investors and the general public. Leading bond houses report that a feature of the present situation is an inquiry for high-grade bonds, but business in the bond department at the Exchange, which recently showed signs of improvement, and expanded somewhat, has this week diminished in activity day by day and lapsed into a state of extreme dulness. Some of the causes of dull markets at the moment may be of short duration. Undoubtedly a period of seasonable weather in the agricultural districts, more favorable reports of railway earnings and a cessation of gold exports would result in a decided change of sentiment in Wall Street. Gold exports for the week \$15,363,800, bringing total of current movement up to \$57,470,100.

Notwithstanding this outflow, the local money market remains easy: call-loan rates have been quoted at 21/2 per cent

and under and time money is abundant on reasonable terms.

The money market has been but slightly disturbed by passing events. Call-loan rates have been quoted as high as 25 but the bulk of actual business has been at lower rates.

The open market rates for call loans on the Stock Exchange The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1 to 2½ per cent. To-day's rates on call were 1¾ to 2 per cent. Prime commercial paper quoted at 3¾ @4 per cent for endorsements and 4@4½ p. c. for best single names. The Bank of England weekly statement on Thursday showed a decrease in bullion of £404,812 and the percentage of reserve to liabilities was 48.09, against 48.72 last week; the discount rate remaining unchanged at 3 per cent. The

the discount rate remaining unchanged at 3 per cent. The Bank of France shows an increase of 45,500,000 francs in gold and 4,650,000 francs in silver.

*\$32.912,800 United States deposits included, against \$56,097,400 last week and \$37,252,400 the corresponding week of 1903. With these United States deposits eliminated, the surplus reserve would be \$21,055,400 on May 14 and \$36,748,550 on May 7.

Note.—Returns of separate banks appear on the preceding page.

Foreign Exchange.—The market for foreign exchange was irregular and barely steady until Thursday, when it grew easier all around, influenced by negotiations of finance bills, and it closed weak. Gold exports for week \$15,363,809 52.

To-day's (Friday's) nominal rates for sterling exchange were 485½@486 for sixty day and 487½@488 for sight. To-day's (Friday's) actual rates for sterling exchange were 48465@48475 for long, 48665@48670 for short and 48690@ 4 87 for cables. Commercial on banks, 4 8440@4 8450, and documents for payment, 4 8334@4 84½. Cotton for payment, 4 8334@4 83½; cotton for acceptance, 4 8440@4 8450, and grain for payment, 4 843/6@4 841/2

To-day's (Friday's) actual rates for Paris bankers' francs were 5 17½@5 16½* for long and 5 15½*@5 15½† for short. Germany bankers' marks were 94 15-16@95 for long and 95 7-16@95½† for short. Amsterdam bankers' guilders were 40 1-16@40½ for long and 40 5-16@40 5-16** for short.

Exchange at Paris on London to-day, 25 f. 10½ c.; week's range, 25 f. 10½ c. high and 25 f. 10½ c. low.

The week's range for exchange rates follows: Bierling Actual -Short.--Cables.-High... | 4 8505 Low... | 4 8465
 @ 4 8515
 | 4 8695
 @ 4 87

 @ 4 8475

Plus: | 118 of 1%. ** 129 of 1%.

The following were the rates for domestic exchange on New York at the under-mentioned cities to-day: Savannah, 12½c. per \$1,000 premium; Charleston, 25c. per \$1,000 premium; New Orleans, bank, 25c. per \$1,000 premium; commercial, 15c. per \$1,000 discount@par; Chicago, 30c. per \$1,000 premium; St. Louis, 50c. per \$1,000 premium; San Francisco, 50c. per \$1,000 premium.

State and Railroad Bonds.—Sales of State bonds at the Board are limited to \$60,000 Virginia 6s deferred trust receipts at 6½ to 6¾.

On a steadily declining volume of business, the market for

railway bonds has been generally steady. Daily transactions averaged only about \$1,500,000, par value, in which but few issues were prominent. Such fractional price changes as

have taken place are about evenly divided between higher and lower quotations.

Of the exceptional features, Chicago Terminal Transfer 4s were conspicuous for a decline of 2 points on limited offerings. Wabash debenture Bs were weak in sympathy with the shares—a movement offset by an advance in United States Steel 5s, Norfolk & Western 4s, Northern Pacific 4s and Central of Georgia 2d incomes, the latter showing a net gain of over a point.

United States Bonds.—Sales of Government bonds at the Board are limited to \$1,500 4s, reg., 1907, at 106¾, and \$700 3s, coup., 1908-18 (small), at 105¾. The following are the daily closing quotations; for yearly range see third page following:

This is the price bid at the morning board; no sais was made

Railroad and Miscellaneous Stocks.—There was a fair volume of business in stocks on Monday, the transactions aggregating 465,000 shares. This, however, was the result of more or less persistent selling and prices generally declined. Since Monday the market has been dull, narrow and featureless, the transactions on Wednesday falling below 163,000 shares, and to less than 150,000 shares to-day, while changes in the railway list are in most cases unimportant.

Kansas City Southern issues are exceptional in an advance of 1½ and over 3 points for the common and preferred, respectively. Pennsylvania and the local traction issues have been relatively strong, showing fractional net gains. The coal carriers, on the other hand, have been notably month. bly weak. Lackawanna covered a range of 4 points and closes near the lowest. Wabash preferred, on more liberal sales than usual, has declined 2 points, and St. Paul and Louisville & Nashville also declined.

Industrial stocks have been irregular. Consolidated Gas covered a range of nearly 6 points and closes with a net gain of 1½ points. The copper stocks have been weak, Amalgamated Copper and Anaconda Mining each losing nearly 2 points. Colorado Fuel & Iron also declined, but the United States Steel issues and Tennessee Coal, Iron & Railroad have advanced, Steel preferred gaining over a point.

For daily volume of business see page 1951.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow.

Outside Market - Conditions in the market for unlisted securities have shown no improvement this week. Trading has continued more or less languid, and the movement of prices, while decidedly irregular, has been towards a somewhat lower level. The most activity was displayed by the bond department, of which the new Japanese 6 per cent bonds (when issued) furnished the overshadowing feature; the price of these bonds advanced in the early part of the week from 94% to 95, but on Wednesday it sauk to 935; the following day it rose to 94%, but at the close to-day it dropped again to 94%. Brooklyn Union Gas debenture 6s declined from 190 to 185, and to-day, though no sales were reported, bonds were offered down to 172, with bids at 166. The price of Standard Oil stock moved down from 6271/2 to 6201/4, and to-day sold at 612 ex-dividend of \$8 per share. Interborough Rapid Transit on Saturday declined from 108½ to 106¾; later, however, the price advanced, and on Wednesday reached 11½; the following day there was a drop to 111½. The price of Northern Securities stock ranged irregularly between 96¾ and 98, closing to-day at 97½. Total transactions for the week aggregated, it is estimated, about 2.000 shares. International Mercantile Marine preferred lost 1¾ points, to 14¾. Consolidated Gas "rights" sold on the "curb" market for the first time on Thursday; the price advanced from 16 to 17½, and the close to-day was at 17½. General Electric "rights" the close to day was at 171%. General Electric "rights" gained a point on Saturday to 5, but on Monday reacted to 41%. Subsequently, however, there was a recovery to 43%. Greene Consolidated Copper ranged between 14% and 1514; the last sale to-day was at 15.

Outside quotations will be found on page 1951.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month.

	Latest	Gross karı	ings	July 1 to	Latest Date		Latest	Gross Lar	ninys	July 1 to	Latest Date

thesults on Monterey & Mexican Gulf are included from March 1, 1802. [Mexican currency. [Includes trans-Missouri lines since Feb. 16, 1903, making length of road on which earnings are now reported 7,357, against 5,876 miles previously. b Includes the Hous. & Tox. Cent. and its subsid, lines in both years and for both periods. c Covers lines directly operated. g Includes the Chicago & Eastern Illinois in both years. t Including Sav. Flor. & West, and also Florida Sonthern and Sanford & St. Petersburg Rys. in both years. w Includes Lake Erie & Det. Riv. Ry. from Jun. 1 both years. Approximate for June. a These figures are for the consolidated company, including Tifton Thosy, & Gulf and Tifton & Northeastern.

Latest Gross Earnings by Weeks.—In the table which follows we sum up separately the earnings for the second week of May. The table covers 40 roads and shows 2.72 per cent decrease in the aggregate from the same week last year.

2d week of May.	1904.	1903.	Increase.	Decrease.

Net Earnings Monthly to Latest Dates.—The following shows the gross and net earnings to latest dates of all STEAM railroads furnishing monthly statements. The compilation includes every road from which we can get returns of this character, and in that form is given once a month. Early returns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings—say about the 20th of the month. Besides the companies furnishing monthly returns we have added this time the roads which make

quarterly returns.

After allowing for other income received.

† These figures are after allowing for other income and for discount and exchange. The sum of \$10,000 is deducted every month from surplus and placed to credit of Renewal Fund.

! Includes Rio Grande Western for both years.

§ These figures include \$880,796 appropriated for betterments and additions to properties and equipment in March, and \$10,576,051 during period from July 1 to Mar. 31.

¶ Included in the fixed charges in this fiscal year are expenditures for renewals, additions and improvements amounting to \$43,615 for March and to \$495,944 for the period from July 1 to March 31. There were no charges to this account the previous year.

a Charges here include road-rental (paid by lessees) and other deductions.

deductions.

g These are not charges after allowing for other income received.

i Houston & Texas Central and its subsidiary lines are included both for the month and for the period from July 1.

x Dividends guaranteed as rental on Manhattan Elev. stock included in fixed charges this year. Dividends not included in figures for previous year, lease not going into effect until April 1, 1903.

y Earnings decreased on account of strike at some of the mines during half of March, and expenses increased owing to severity of weather.

i Spanish silver.

I These are results for properties owned.

c Results for main line.

diThese totals are from July 1.

n These earnings include the Detroit United Ry., Detroit & Port Huron Shore Line and the Sandwich Windsor & Amherstburg Ry.

n Decrease due to boycott by colored patrous.

v These figures are for period from June 1 to Mar. 31.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings received this week. The last general summary which we furnish once a month, and in which we bring together all the roads from which monthly returns can be procured, was given April 80, the next will be given May 28.

	80, the next will be gr			Not Ea

New Mexico Railway & Coal Company. (Report for year ending Dec. 31, 1903.)

President C. D. Simpson says in substance:

New Lines.—The railroad of the El Paso & Rook Island Ry. Co. was turned over to that company for operation on April 1st, 1903. The properties of the Dawson Railway Co. and Dawson Fuel Co. were turned over to those companies for operation on July 1st, 1903. While the above properties were, at the dates named, completed sufficiently to transfer them from the construction company to their own company to their own company. panies for operation—considerable amounts have been expended since those dates on El Paso & Rock Island Rallway and Dawson Rallway for sidings, water stations and other necessary improvements, and on the Dawson mines for houses, equipment, etc. The efficient operation of the various properties requires further considerable expenditures after Dec. 31-2 after Dec. 31st.

Attention is called to the large excess of expenditures on the El Paso & Rock Island Railway and the Dawson properties, over the bond issues to meet these costs, and to the large amount expended by

this company in equipment.

COAL MINES.—The Dawson Fuel Co. mines are now producing 50,000 tone of coal per month, and when the improvements under way are completed, will be equipped for a monthly output of 75,000 tone. The capacity of the coal ovens already built is about 5,000 tone of coke per month.

GENERAL RESULTS.—The total mileage of the system, all standard

gauge, and onleny /0-10. elect rane, is as follows,	
Main tine.	Sidinas, etc.
El Paso & Northeastern RR. 19:32	15.90
KI Paso & Northeastern KV 145'50	20 00
A. & S. M. Ry	2.83
El Paeo & Rock Island Ry	7.16
Dawson Railway 132.94	22.83

In the course of the year the traffic of the main line has been adversely affected by the flood in June, which interrupted the traffic of our connections—a fire in September in the Dawson mines, and the labor troubles in the West in November and December which curtailed their output. The maximum of efficient operation of the various properties has not been reached, but the income of the New Mexico Railway & Coal Co., as appears from the etatement, will, I think, be found quite satisfactory for a new railroad, which, principally on account of bad water conditions, has not yet reached a point where it can be operated as cheaply as other roads in the same part of the country which have had time to overcome these difficulties. The water conditions have been much improved by the digging of new wells and chemical treatbeen much improved by the digging of new wells and chemical treatment when necessary.

Compare map of system on page 1669 of RAILWAY & IN-DUSTRIAL Section.

Vulcan Detinning Company.

(Report for the year ending March 31, 1904.)

President Joseph B. Bloomingdale says in substance:

The operations during the earlier months continued to show the successful results of the preceding year, and enabled us to deciare dividends of the aggregate amount of \$61,250. Subsequently the depression in the steel business affected our earnings in common with those of all other steel industries. The company experienced a severe loss through the total destruction of its factory and plant at Streator, Ill. by a cyclone on July 17, 1903. The plant was speedily rebuilt and started operations again on Sept. 21, 1903, the entire cost of the reconstruction having been paid out of our earnings and surplus.

Notwithstanding these various drawbacks, our company finds itself to-day in excellent financial condition. In the face of increased competition, we have been able to make advantageous contracts for the purchase of our raw material for this year, and to enlarge our business over that of last and of preceding years. If present conditions continue, barring reactions or accidents, the operations of the present year promise to prove quite satisfactory. Our sources of supply are increasing, and the establishment of a number of new open-hearth furnaces at various points in the East and the Middle West has, on the other hand, opened additional opticate for our products. other hand, opened additional outlets for our products.

General Asphalt Company.

(Report for the 13 months ending Jan. 31, 1904.)

The report of President Mack refers to the process of consolidation by which the underlying companies are being eliminated, four active companies having already replaced the 54 sub-companies of the Barber Asphalt Co. He shows that during 1903 181,076 tons of crude asphalt were mined at Pitch Lake, an increase of 37,324 tons compared with 1902; and that at Bermudez Lake 23,264 tons were mined, an increase of 14,845 tons. The amount of sheet asphalt pavements laid in 1903 (exclusive of maintenance), as compared with 1903, is given as follows:

SHEET ASPHALT PAVEMENT CONSTRUCTED.

In 1903 the amount of brick, stone, macadam and bituminous macadam pavement constructed was 338,327 yards for all companies, against 114,521 for 1902. The amount of sheet asphalt pavements carsied over by all companies for 1903 to 1904 was 1,022,632 yards, against 1,099,134 yards carried over from 1902 to 1903.

GENERAL INVESTMENT NEWS,

RAILBOADS, INCLUDING STREET ROADS.

Auburn & Syracuse Electric RR.—New Stock.—The New York State Railroad Commission has authorized the company to increase its capital stock from \$1,300,000, of which \$500,000 is preferred, to \$1,500,000, of which \$500,000 shall still be preferred.—V. 77, p. 768.

Bismarck Washburn & Great Falls Ry.—See Minneapolis St. Paul & Sault Ste Marie Ry. below.—V. 70, p. 1248.

Boston & Worcester Street Ry.—Bonds Offered.—E. H. Gay & Co. offer at par and interest \$500,000 of the company's first mortgage 4½ p. c. bonds, of which \$1,850,000 are now outstanding, along with \$107,000 of divisional 5 per cents. For the six months ending March 31, 1904, the gross earnings are reported as \$132,810 and the net earnings as \$28,503. For the year ending Sept. 30, 1904, the gross earnings, it is estimated, will be \$400,310; net \$182,003, from which deduct taxes \$28,000 and interest on all bonds now outstanding, \$66,100, leaving a surplus for the year on this basis of \$92,903. Compare V. 77, p. 2097.

Dividend.—Advices from Boston state that it is understood that the Boston & Worcester Electric Companies (the parent company) contemplates the beginning of semi-annual dividends on its \$2,258,000 of cumulative preferred stock in July at maximum rate of 4 per cent per annum.—V. 78, p. 1781.

Canada Atlantic Ry.—Report of Sale Denied.—Director J. F'. Booth, at Ottawa on May 12, emphatically denied the rumor of an agreement for a sale of the property, adding that no sale and no offer to purchase had been made, nor had McKenzie & Mann made any overtures looking to a purchase. -V. 77, p. 2157.

Central Indiana Ry.—Guaranteed Bonds.—The issue of \$750,000 first mortgage 50-year 4 p. c gold bonds, guaranteed principal and interest by the Cleveland Cincinnati Chicago & St. Louis Railway Co., were recently purchased from the company by Pfaelzer, Walker & Co. and Dominick & Dominick. The bonds have all been disposed of at 971/2 and interest.-V. 78, p. 1906.

Central RR. of New Jersey.—New Fast Freight Route.— It is announced that on June 1 the New York Central, Lake Shore, Michigan Central and the Jersey Central lines will

of New Jersey is controlled by the Reading, in which the New York Central is interested through its subsidiary, the Lake Shore & Michigan Southern, which owns a large block of Reading stock (compare V. 78, p. 1904,) as does also the Baltimore & Ohio RR.—V. 77, p. 775.

Chattanooga Rapid Transit Co., of Chattanooga, Teun.— New Mortgage.—The management is reported to have de-cided on making a new bond issue for \$250,000, and to bring under the name of the parent company all the subsidiary corporations. There have been rumors from time to time of steps to merge the system with the Chattanooga Electric Ry. Co., but at last accounts the officials of the Rapid Transit claimed that they had abandoned the merger idea and were proceeding to develop their own line, the new bond issue being for this purpose.—V. 70, p. 430.

Chicago Burlington & Quincy RR.—Bonds Oversubscribed.—Clark, Dodge & Co. and Lee Higginson & Co. announce that the \$5,992,000 Illinois Division 4 per cent bonds which were offered by them at 1021/2 and accrued interest have all been sold, largely to savings banks in New England, New York and vicinity, the applications being in excess of the amount offered. These bonds are exactly like the \$41,885,000 3½ per cent Illinois Division bonds now outstanding except as to the rate of interest, and with them are subject to call as an entire issue at 105 and interest on any interest day after July 1, 1929, on six months' notice.—V. 78, p. 1891, 988.

Cincinnati Dayton & Toledo Traction Co.—Change in Rates, Etc.—This company, it is announced, has readjusted its schedule of rates between Dayton and Hamilton, making them uniform at about 134 cents per mile; the rate from Hamilton to Cincinnati remains about 2 cents per mile. General Manager Sloat is quoted as estimating that the increase will add about \$75,000 per annum to the company's receipts. The Cleveland "Leader" understands that a considerable sum (it is said \$1,100,000) will be expended in improving the road and eliminating curves; also removing most of the road between Hamilton and Dayton, a distance of 40 miles, from the highway to a private right of way. The road from Hamilton into Cincinnati is already practically on private right of way, the company having acquired in fee simple the rights of a turnpike company.—V. 77, p. 510, 450.

Cincinnati Indianapolis & Western RR.-Application to List.—The New York Stock Exchange has been requested to list \$4,722,000 first refunding mortgage gold 4 per cent bonds of 1953.—V. 75, p. 1353, 1202.

Cincinnati & Muskingum Valley RR.—Electric Equip-ment.—Plans, it is stated, are being prepared for the opera-tion by electricity of the portion of this company's line extending from Trinway to Lancaster, a distance of 59 miles.-

Cincinnati New Orleans & Texas Pacific Ry.—City Bonds for Terminals.—This company is lessee of the Cincinnati Southern Ry., which is owned by the city of Cincinnati, and will benefit from the sale of the city's bonds, offered for sale on another page, to provide terminal facilities and betterments for said line. See "Cincinnati" on page 1976.—V. 78,

Cleveland & Pittsburgh RR.—New Stock.—The share-holders on May 19 ratified the proposition to increase the authorized capital stock from \$11,261,865 to \$22,000,000. See V. 78, p. 1222.

Colorado & Northwestern Railway .- Reorganization .-This company was incorporated in Colorado on May 11 with \$1,000,000 of authorized capital stock as successor of the railroad company, whose property was sold under foreclosure and bid in on May 4, under decree of the United States Court, by Samuel B. Dick and W. C. Culbertson. In the future reorganization the entire control and management becomes vested in Samuel B. Dick, who is now reorganizing the company. Besides the \$1,000,000 capital stock, the new company will be authorized to issue \$1,000,000 of 5 p. c. first mortgage bonds. This capitalization covers the present line, car trusts, and all liabilities of the company, and provides for about 30 miles of extensions reaching the various ore fields. -V. 78, p. 1781, 820.

Consolidated Railway, Connecticut.—See Fair Haven & Westville RR. below.—V. 78, p. 1906.

Danville Urbana & Champaign (Electric) Ry.—Control. See Illinois Traction Co. below.—V. 78, p. 1906.

Decatur (III.) Railway & Light Co.—See Illinois Traction Co. below.—V. 77, p. 2388.

Deepwater Ry.-Status.-See Tidewater Ry. below.-V.

Detroit Monroe & Toledo (Electric) Short Line Ry.—In Operation.—On May 10 this company began operating its trolley cars from Toledo to Sibleys, a point about nineteen miles from Detroit, connecting with the cars of the Detroit United By for the left named city. The reproint time from United Ry. for the last-named city. The running time from Toledo to Sibleys is two hours and the fare is 70 cents. From Sibleys to Detroit City Hall the fare is 20 cents. Compare V. 75, p. 1854.—V. 77, p. 1746.

Fair Haven & Westville (Electric) RR., New Haven.— Consolidation.—A meeting of the shareholders has been called to on consolidating the company with the Worcester & Connecticut Eastern Ry., which this week was establish a new fast freight service between Chicago and the authorized to have its name changed to the "Consolidated East to be called the "Jersey Central Dispatch." The Central Railway Co." The New York New Haven & Hartford RR.

Co. controls both companies, and proposes to include in the merger its other Connecticut trolley companies—the Meriden Electric RR. and the Stamford Street Ry.-V. 78, p. 1497, 988.

Ft. Wayne & Wabash Valley Traction Co.—Bonds Offered.—Chandler Bros. & Co. of Philadelphia are offering \$1,875,000 of this company's first consolidated mortgage 5 p. c. 30 year bonds, part of an authorized issue of \$7,500,-000. The bonded debt is about \$36,800 per mile. The earnings for the first quarter of 1904, March partly estimated, compare with the first quarter of 1903 as follows:

The estimated surplus for 1904 is \$90,955.—V. 78, p. 1549,

Gainesville Jefferson & Southern RR.—Sale July 5.— This company's property is advertised to be sold under foreclosure at Gainesville, Ga., on July 5 under a decree entered by the Superior Court of Hall County, Ga., on July 1, 1903, in the suits of Julius M. Alexander et al. and W. A. Brown et al. vs. the company. The property will be first offered as a whole, the upset price being \$195,000, or \$3,000 per mile. It will then be offered in two parcels, the first including the road from Gainesville to Jefferson and Monroe, including all the company's rolling stock. For this parcel no bid less than \$165,000 (\$3,000 per mile) will be received. For the other parcel from Monroe to Social Circle, with appurtenances, but will be received. For the other parcel from Monroe to Social Circle, with appurtenances, but will be a social circle is \$30,000, also \$3,000 per mile. All the property will be sold free from liens and incumbrances except certain rights and easements. As to guaranteed bonds, whose interest is regularly paid, see RAILWAY & INDUSTRIAL SECTION, p. 1632; also V. 78, p. 1549,

Grand Trunk Ry., Canada.—Sale of Stock.—The shareholders of this company in August last authorized the directors to issue additional 4 p. c. guaranteed stock under the act of 1903 (Vol. 76, 919-972), which sanctioned an increase thereof from £5,220,000 to £10,000,000. Subsequently a block of £750,000 of the new stock was efforced at London a block of £750,000 of the new stock was offered at London for subscription at 97½. (Compare V. 77, p. 950). On Dec.

31, 1903, there was outstanding of the issue £6,019,172.

There has now been offered for subscription in London at 96½ a further block of £500,000 of the same guaranteed stock, payable £10 per £100 on application; £25 per £100 on allotment; £30 per £100 June 17, 1904; £31 10s. per £100 July 18, 1904. The stock will be entitled to the full dividend for the half-year ending June 30, 1904, after payment of the final instalment on July 18, 1904.

final instalment on July 18, 1904.

The official advertisement says:

The gross receipts of the system, including the Grand Trunk Western and the Detroit Grand Haven & Milwaukee companies, for the year 1903 showed an increase of £921,618 over the receipts for the year 1902, and, in order to efficiently and economically handle this large increase in the business of the company, it is necessary to continue the double-tracking of sections of the line, and to provide other additional facilities for dealing with the traffic. The proceeds of this issue will be applied to these objects.

The decrease in the receipts during the first three months of the current year has been due to the unprecedented severity of the winter in that part of Canada served by the company's system, and is not attributable to any failing off in the volume of traffic toble moved. The traffic was entirely satisfactory up to the end of December, 1903, when the exceptionally severe weather set in, and since the return of normal climatic conditions at the end of March, the receipts have been fully equal to those of last year.

fully equal to those of last year.

The London Stock Exchange recently granted quotation to \$4,740,765 of additional 4 p. c. Consolidated Debenture stock, making, £15,134.731 of said debenture stock listed to

date.—V. 78, p. 1109, 820.

Illinois Traction Co.-Status. - This Maine corporation with an authorized capital of \$4,000,000 owns all the capital stock and controls and operates the Danville Urbana & Cnampaign Railway Co., the Urbana & Champaign Railway, Gas & Electric Co., the Danville Street Railway & Light Co. and the Decatur Railway & Light Co. All reports hereafter will include all the above named companies in one aggregate amount. The Illinois Traction Co. was incorporated on May 13,

Lehigh & New England RR. -Officers.—The following officers have been elected:
Lewis A. Riley, Vice-President; J. R. Sager, Secretary and Treasurer; J. R. Whitney, General Manager; Daniel Hardy, General Superintendent, and F. S. Fowler, Anditor.

President W. Jay Turner is quoted as saying that no proposition has been presented to lease the line to the Jersey Central or any other company, nor are negotiations pending, so far as he is aware, for the purchase of the interest in the property controlled by him, which, it is said, amounts to one-half of the capital stock.—V. 78, p. 1781, 229.

Mexican Central Ry .- Protective Measures .- By advertisement on another page, Kuhn, Loeb & Co. and Speyer & Co. of New York and Speyer & Co. of London announce that in conjunction with the Mexican Central Ry. Securities Co. (the English company which owns \$37,500,000, or more than a majority, of the consolidated mortgage 4 p. c. gold bonds), they have for some time past been making efforts to protect the interests of the bondholders. These interests they believe are seriously jeopardized, and they therefore propose to act as formal representatives of the bondholders, and to undertake, should it become necessary, the preparation of a plan for the reorganization of the company. Hold

provides that holders of certificates of deposit shall be en titled upon surrender of their certificates to withdraw with out charge the securities represented thereby within twenty days after publication of notice that a plan and agreement has been approved and lodged with the depositary.

A number of the leading stockholders, including L. C. Pierce, are understood to object to the adoption of any plan involving an assessment of the stock.—V. 78, p. 1782, 1109.

Minneapolls St. Paul & Sault Ste Marie Ry .- Acquisition.—This company, having acquired the Bismarck Washburn & Great Falls Railway, extending from Bismarck to Underwood, N. D., 58 miles, began on May 15 to operate it as part of the system.—V. 78, p. 820, 769.

New York Central & Hudson River RR.—Debenture Bonds.—The interest on the new debentures, we are informed, will be payable in May and November instead of March and September, as originally announced. No other change has been made in the plans as officially stated to us

and given in the CHRONICLE last week.

New Freight Route.—See Central RR. of New Jersey al ove.—V. 78, p. 1907, 1223.

New York New Haven & Hartford RR .- New Director .-Robert W. Taft of Providence has been elected a director to succeed his father, Royal C. Taft, resigned.

Quarterly Report of Earnings.—See page 1956. Further Improvements.—The directors are said to have authorized the four tracking of the road through the cut in the center of New Haven.

Consolidation of Trolley Lines.—See Fair Haven & West-ville RR. above.—V. 78, p. 1549, 1447.

New York Ontario & Western Ry.—Committee on Voting Trust.—The committee of stockholders appointed as a result of the meeting on May 12 in opposition to the continuance of the voting trust includes:

James B. Clews, of Henry Clews & Co.. Chairman; Donald Mackay, of Vermilye & Co.; J. A. Butherford, of J. A. Rutherford & Co.; M. M. Belding Jr., President of the Broadway Trust Co., and Horace L. Hotchkiss. R. H. Portsmore is Secretary.—V. 78, p. 1907.

Northern Pacific Ry.—Meeting Again Adjourned.—The annual meeting was again postponed this week, this time until July 7, since, owing to the decision of the United States Courts, the Northern Securities Co., owning nearly all of the stock, cannot vote the same. The suit brought by the Harriman-Plerce interests to prevent the pro rata distribution of Northern Securities assets came up in the New Jersey courts yesterday.—V. 78, p. 1550, 1392.

Old Colony RR.—Stock.—The company has petitioned the Massachusetts Railroad Commission for authority to sell 4,625 shares of new capital stock to pay off \$750,000 in bonds which mature July 1, 1904, and to retire floating debt of \$175,000.—V. 78, p. 1110, 989.

Orange County Traction Co., Newburg, N. Y.—Mortgage.
-The New York State Railroad Commission has authorized the company to make a mortgage for \$100,000. -V. 77, p. 1747.

Peekskill (N. Y.) Lighting & RR.-New Stock.-The New York Railroad Commission has granted the company permission to issue \$150,000 of 6 p. c. cumulative preferred stock in addition to the \$500,000 common stock already authorized.—V. 77, p. 850.

Pennsylvania RR.—New Treasurer.—The directors have elected Henry Tatnall, President of the Franklin National Bank, a Vice-President and Treasurer of the company. Robert W. Smith retires as Treasurer owing to ill-health.— . 78, p. 1782, 1278.

Philadelphia & Lehigh Valley Traction Co.—Coupons in Default.—This company, which in 1903 extended the time for the payment of the March coupons until March 1, 1904, paid the Saptember, 1903, coupons at maturity, but on March 1, 1904, defaulted both on the extended coupons and on the coupons then due according to their terms. Payments in this city have been made by the Guaranty Trust Co.—V. 77, p. 2390.

Rochester (N. Y.) & Eastern Rapld Ry.—New Stock.— The New York State Railroad Commission has authorized the company to increase its capital stock from \$500,000 to \$1,500,000.—V. 77, p. 2099.

South Penusylvania Ry .- Sold .- At the foreclosure sale on May 18 this company's property was bid in for \$7,500 by Wm. W. Wood and Herbert R. Preston of Baltimore, representing, it is understood, the Baltimore & Ohio RR. Mr. Preston being an attorney for that company in Baltimore end Mr. Wood one of its industrial agents. Payment of \$5,000 on account of the purchase was made by a certified check for \$5,000, bearing the heading Baltimore & Ohio RR. The sale was under foreclosure of the mortgage of 1885 to the Union Trust Co., as trustee, on which \$9,927,120 was due for principal and interest. "Philadelphia Ledger" says:
The South Penn. RR. was started by the Vanderbilts, with the intention of blaceting the rich soft coal fields in the southern section of the

State. The Pennsylvania RR. waged war against the other Vanderbilt lines, and it was only stopped when the Vanderbilts decided to stop work on the South Penn. road. Although tunnels had been started and much grading done, the road has been practically of little value to any one since. It was thought the Wabash might be bidders, in order to get a short line from the Western Marylandinto Pittsburgh.

—V. 78, p. 1499.

Tidewater Ry.—New Company.—This company was Incorers of all the company's bonds are requested to deposit the same with the Equitable Trust Co., No. 15 Nassau St., New York, or with Speyer Brothers, No. 7 Lothbury, London, under an agreement dated May 12, 1904. The agreement miles. Surveys are in progress. The Deepwater Ry. (V. 77, build from the West Virginia State line, at a point in Giles Co., Va., to tidewater at or near Norfolk, Va., about 835

p. 1746), controlled by the same interests, has a line under construction from Deepwater, West Va., to the Bluestone River, 85 miles, of which 55 are under construction and expected to be completed about Jan. 1, 1905, and a brauch 25 miles in length is now being located from Bluestone River to a connection at the Virginia State line with the proposed Tidewater Ry. It is intended to consolidate the two companies. The project, if carried out, will result in a new lowgrade line from the West Virginia coal fields to deep water on the Atlantic coast of Virginia. No bonds have yet been authorized by either company. William N. Page, President of the Ganly Mountain Coal Co. of Fayette Co., West Va., and Chief Engineer of the Deepwater Ry., is President of the Tidewater Ry.; J. B. Ranson, Secretary, and Geo. H. Chavels, Treasurer. Office, Ansted, W. Va.

Toronto Hamilton & Buffalo Ry.—New Securities.—The shareholders will meet on May 31 to vote on a resolution authorizing the directors "to issue bonds, debentures or other securities, as provided by the Railway Act, or, at their option, debenture stock, to the extent of \$1,000,000, to be subject to the lien and priority of the outstanding first mortgage bonds of the company." See V. 77, p. 351.

Vera Cruz & Pacific Ry.—Consummation of Sale.—A telegram from Receiver McLean on May 11 announces the signing of the final deed for the sale of the stock of this company to the Mexican Government per plan already described. The road extends from Vera Cruz on the Gulf of Mexico via Tierra Blanca, a distance of 207 miles, to Santa Lucrecia, a station on the Tehnantepec National Ry., by which connection is had with Selina Cruz on the Pacific Ocean, 114 miles distant, forming a through line from the Atlantic to the Pacific, 821 miles in length. The Vera Cruz & Pacific also extends from Tierra Blanca to Cordoba, 58 miles. The new bonds, which are to be guaranteed by the Mexican Government, are now being engraved. See V. 78, p. 1783, 1168.

Wabash Railroad.—Increase in Capital Stock.—The company has filed at Jefferson City, Mo., a certificate of increase of the authorized issue of common stock from \$28,000,000 to \$78,000,000. Of the new stock \$10,000,000 has been issued in exchange for the entire capital stock of the Wabash-Pitts-burgh Terminal Ry. Co. (see V. 78, p. 1908, 1748, 1551) and the remainder is available for future requirements.

Debenture Interest.—The Continental Insurance Co. has asked the Mercantile Trust Co., as trustee of the mortgage securing the debenture "B" bonds, to procure an accounting to determine whether earnings applicable to the payment of interest on these bonds has been properly credited. V. 78, p. 1908, 1784.

INDUSTRIAL, GAS AND MISCELLANEOUS.

American Ice Co.- Purchase. - This company's subsidiary, the Boston Ice Co., recently purchased the control of the Independent Ice Co. of Boston, and it is understood guarantees that company's 5 per cent bonds of 1923. The interest on these bonds is payable in May and November at the American Loan & Trust Co., Boston.—V. 78, p. 1111, 1107.

American Pig Iron Storage Warrant Co.-Warrants, -This company, which was incorporated in New Jersey in 1888, has come into prominence through the listing of its warrants on the Pittsburgh Stock Exchange. It is also proposed to list the warrants on the Produce Exchange in New York City. The company's authorized capital stock is \$1,500,000, in \$100 shares; paid in 10 p. c. No shares have been issued, only receipts for 10 p. c. of capital. No stockholder can transfer stock until it is fully paid, except after acceptance by the board of the new stockholder, who must be fully responsible for the unpaid balance of the subscription. No funded debt.

The officers of the company, a partial list of its stockholders, and various facts regarding its warrants, follow:

ers, and various facts regarding its warrants, follow:
President, George H. Huil; Secretary. Frederick A. Libbey; Treasurer, August Heckscher. New York office, No. 44 Wall St. Stockholders liable for the full amount of their stock. Jacob H. Schiff, G. H. Seeley (Pres't Ivanhoe Furnace, Va.), P. J. Goodhart (estate Henry McCormick, Harrisburg), John J. McCook, S. Neustadt (of Hallgarten & Co.). J. D. Probst, estate of General Samuel Thomas. estate of H. O. Armour, A. Hecksher (President of the New Jersey Zinc Co.). H. C. Fownes (furnace owner, Pittsburgh), Oliver Bros. & Phillips, Pittsburgh, E. W. Rucker (President Alabama National Bank, Birmingham), Hendricks Bros., (Metals, New York), and the estate of John H. Inman, formerly of Inman, Swann & Co., est. George S. Coe. Wm. C. Sedden, Baltimore, Casimir Tag (Pres't German-American Bank, New York), and others.

and others.

The company receives iron through a sworn yardmaster, who certified the iron. The company receives iron through a sworn yardmaster, who certifies that he personally has received, weighed and inspected the iron. The owner also certifies its delivery to the company and directs the issuance of warrants for it. On these two certificates the warrant is eigned by the President and Secretary of the Warrant Company and countersigned by the Farmers' Loan & Trust Company, which files the yardmaster's certificate and registers the warrant. An irrevocable power of attorney is then endorsed upon it by the Iron owner, to whose order it is made, and the warrant is ready for issue. The yardmaster is sworn to deliver the iron only on an order signed by the trust company and the President and Secretary of the warrant company, and this order must be upon the original yardmaster's certificate, which is held by the trust company during the life of the warrant, and is only surrendered after the warrant has been canceled.

In the trading on the Pittsburgh Exchange each warrant will represent 100 tons, and the warrants will be classified as follows: A, Southern coke iron; B. Northern coke iron; C, Virginia coke iron; D, standard Bessemer iron; E, Southern charcoal iron; F, Northern charcoal iron.

The commission for buying or selling warrants on the

Pittsburgh Exchange will be 61/4 cents a ton.

In New York the warrants will be dealt in by the following firms, who will become members of the Produce Ex-

change, on which the warrants are to be listed: Rogers, Brown & Co., Dalton, Nash & Co., Charles Child Wheeler, J. J. Archer. Howard M. Hooker and Pope Metal Co.

President Hull makes the following statement:

We have received the signatures of officials of merchant furnace companies with an annual capacity of 3,900,000 tons; and officials of additional furnace companies, representing 1,200,000 tons, have agreed to lease to the Warrant Company ground, and deliver on same, graded and weighed, any iron which their customers may wish to take out warrants for. The warrants will probably be listed on the Royal Exchange of Glasgow as soon as sales on Exchanges in the United States have reached proportions which will admit of daily official quotations being furnished by Exchanges in the United States to the Glasgow Exchange: to the Glasgow Exchange:

Compare remarks in editorial columns.

American Smelting & Refining Co.—Called Bonds.—The company has called and will pay at par on July 1 at the Massachusetts Loan & Trust Co., Boston, the \$191,000 6 p. c. bonds of the Pueblo Smelting & Refining Co., which, if not called, were to be due in 1913.

New Steamers.—Through its subsidiary company, the American Smelters' Steamship Co., which was formed in 1903 with \$200,000 capital stock, there were recently chartered for three years four steamers each of about 6,200 tons capacity to run between United States ports and Mexico. The "Engineering and Mining Journal" says:

These vessels will load fuel at Norfolk, Va., for Tampico, to be used These vessels will load fuel at Norfolk, Va., for Tampico, to be used at the Mexican smelters of the company. As return cargo they will carry lead and copper bullion to the refinery at Perth Amboy, N. J., and then go back in ballast to Norfolk. It is expected that the steamers will make three voyages regularly every month. This change in business methods has been adopted in preference to making freight contracts as required at fluctuating rates. Besides realizing a substantial saving in the cost of freight, there is assured more regularity in delivering supplies to and from Mexico. The officers of the steamship company are: President, Solomon Guggenheim; Vice-President and General Manager, S. W. Eccles.—V. 78, p. 1169, 770.

American Telephone & Telegraph Co.—Output.—The output of instruments for the month and four months ended April 30 was:

1904. 404,475 253,150 4,032,667 8,400,573

American Writing Paper Co.—New Directors.—T. A. Jones of Franklin, O., has been elected a director to succeed the late C. H. Harding, and W. H. Taylor, who is associated with Edwin Gould in the Bowling Green Trust Co., New York has been elected a director religion. Mr. Gould who York, has been elected a director, relieving Mr. Gould, who could not spare the time to attend the meetings of the directors.—V. 78, p. 1221, 818.

Atlantic Coast Lumber Co.—Successor.—See Atlantic Coast Lumber Corporation below.—V. 77, p. 1295.

Atlantic Coast Lumber Corporation.—Reorganized Company.—This company has been organized under the laws of South Carolina, with \$1,000,000 of authorized (common) stock (par of shares, \$100), as successor, per plan in V. 77, p. 197, of the Atlantic Coast Lumber Co. The new first mortgage, securing \$1,000,000 series A and \$2,000,000 series B 5 p. c. bonds, dated Nov. 1, is made to the Industrial Trust Co. of Providence, as trustee. The interest on these bonds is payable in May and November. The series C bonds, \$500,-000, and series D bonds, \$1,000,000, are issued under an indenture to the Industrial Trust Co. of Providence and T. Moultrie Mordecai of Charleston, as trustees. The interest on these bonds is payable in January and July. Officers and directors:

President, Freeman S. Farr, Georgetown, S. C; 1st Vice-President, E. C. Benedict, New York; 2d Vice-President, W. A. Tatt, New York, Secretary and Asst. Treas., Frank J. Saxe, New York; Treasurer, E; J. Hathorne, New York. Directors, Freeman S. Farr, E. C. Benedict. Jas. B. Ford, Lester Leland, Francis Lynde Stetson, Chas MacVeagh.

New York office, 17 Battery Place.—V. 77, p. 1295.

Bay State Gas Co. of Delaware. - Decision. - See Massachusetts Gas Companies below.-V. 78, p. 1277, 289.

Brush Electric Illuminating Co., New York.—Foreclosure.—The Central Trust Co., as mortgage trustee, has brought suit in the New York Supreme Court to foreclose the first mortgage securing \$275,000 bonds, in default. The United Electric Light & Power Co. (a subsidiary of the Consolidated Gas Co.) owns a large majority, but not all, of the company's \$1,000,000 capital stock, and it is understood purchased the bonds in 1899 and guaranteed them. As no official explanation is obtainable touching the foreclosure, the natural assumption is that one of the companies above named owns all or a majority of the bond issue and is taking this means to obtain clear title to the property.

Chemung Iron Co.-See "Oliver Estate" below.

City & Saburban Homes Co., New York.—New Stock.— This company, which was organized in July, 1896, as a philanthropic undertaking, but which has also proved a profitable enterprise, offers for subscription, at par, by advertisement on another page, \$1,000,000 of additional capital stock, 50 per cent payable on application, 25 per cent on Nov. 1, 1904, and 25 per cent on Feb. 1, 1905. Interest at the rate of 4 per cent will be allowed on instalments to Feb. 1, 1905, when regular share certificates will be issued. The authorized capital is \$4,000,000, of which \$1,730,000 is outstanding, "all of which was paid up in cash except \$256,675 issued for land after appraisal;" par of shares \$10. The advertisement says:

The company owns three large groups of model tenement buildings for white people and one smaller modern tenement building for colored people in Manhattan, accommodating in all 1,238 families,

and a suburban estate called Homewood, in the Thirtieth Ward, Borough of Brooklyn, thirty five minutes from New York City Hall, comprising about 32 acres, upon which 112 houses and two stores with apartments have been erected. In all approximately 6,000 people are already housed by the company. In 1898 3 p. c. dividends were paid, in 1899 3 p. c. and since that time 4 p. c. Interest and taxes on unimproved property have been deducted from earnings before dividends were paid and no account has been taken of the increase in the value of the ground. The proportion of vacancies in all the company's model tenement buildings is only 1 p. c.

The capital stock has recently been increased from \$2,000,000 to \$4,000,000. Out of the increase it is proposed to issue approximately one-half during the current year, this amount to be employed in developing unimproved property now owned by the company and in the acquisition and development of two or three new sites which can be acquired upon advantageous terms. It has been the policy of the company since its inception to borrow on mortgages on its improved tenement estates to an extent not exceeding 50 p. c. of their cost. Under the laws of New York State the company's shares are non-taxable in the hands of the holders.

able in the hands of the holders.

Directors: Elgin R. L. Gould, President; Charles Stewart Smith,
Vice-President; R. Fulton Cutting, Chairman; Isaac N. Seligman,
Treasurer; Joseph S. Auerbach, Frederick G. Bourne, John D. Crimmins. W. Bayard Cutting, Robert W. De Forest, Adrian Iselin Jr., D.
O. Mills, Alfred T. White, George W. Young.

Office, No. 281 Fourth Avenue, New York.-V. 78, p. 1111.

Colorado Electric Power Co., Canon City, Colorado.— Foreclosure.—The District Court, at Colorado Springs, on May 17, ordered the foreclosure sale of this company's property under mortgage of which the Union Trust Co. of Pittsburgh acts as trustee, the amount due thereon for principal and interest being stated in the press despatches as \$205,280. Compare V. 78, p. 770.

Colorado Fuel & Iron Co.—Payment of Coupons.—On May 16 the Knickerbocker Trust Co. of New York began paying on presentation coupons No. 5, due Feb. 1, 1904, of the Colorado Fuel & Iron Company's \$14,068,000 of convertible debantures.—V. 78, p. 1784, 1500.

Columbus & Hocking Coal & Iron Co.—New Management.—At the annual meeting this week the following new board (and officers) were elected without opposition, Lathrop & Smith voting over 55,000 shares:

A. A. Brownlee, President; L. C. Lathrop, Vice-President; A. L. Thurman, Secretary and Treasurer; R. F. Little, James R. Blake, Henry Gumble, Nathan Gumble, C. M. Voorhees, Talfourd P. Linn,

Report.—The results for the year ending Mar. 31 were:

Fiscal Total Net Interest Taxes, sink. Div. on Bal. Year. income earnings. on bonds. fund, etc. com. stock. sur. 1903-4..\$543,800 \$148,703 \$50,000 \$26,680 (1%)\$889,004 \$3,019 1902-3.. 618,872 179,087 50,000 30,504 (1%) 68,986 29,597 -V. 78, p. 1448.

Consolidated Gas Co. of Baltimore.—New Mortgage.— The directors on Wednesday announced that in view of the rapidly increasing business it was deemed advantageous to prepare a comprehensive financial scheme for enlarging the plant and extending the field of the company's operations. For this purpose it is proposed to authorize a mortgage to the Fidelity & Deposit Co. of Maryland, as trustee, to secure \$15,000,000 fifty-year general 4½ per cent bonds, dated April 1, 1904, of which \$1,000,000 has been sold to a syndicate of Baltimore bankers to provide for expenditures already made or to be made, viz:

\$283,500 extensions and improvements to date, including construction to Sparrows Point.

\$716,500 to go for improvements until July 1, 1906.

The \$15,000,000 bonds are to be used as follows: 7,000,000

Reserved to retire outstanding certificates of indebtedness. 1,500,000 Issuable from time to time after July 1, 1906, for not exceeding 80 per cent of the cost of extensions and permanents.

nent improvements... The directors state that the net earnings, after deducting fixed charges, for the fiscal year ending June 30, will show large increase over previous year, and it is confidently expected that for the year ending June 30, 1905, they will be not less than 7 per cent on the \$11,000,000 capital stock.— V. 78, p. 1500.

Consolidated Gas Co. of New York .- Convertible Debentures.—The directors have authorized an issue of \$20,000,000 6 per cent coupon debentures payable on July 1, 1909, the holders to have the privilege after three years of converting the same into capital stock, the authorized issue of which will be increased from \$80,000,000 to \$100,000,000, to provide for the conversion feature. These debentures are offered at par to shareholders of record June 8, subscription books closing June 25; payments are to be made in three instalments, the first, of 80 p.c., payable July 1, 1904; the second, of 80 p.c., payable Oct. 1, 1904, and the third, of 40 p.c., payable Dec. 81, 1904. The resolution adopted by the directors on May 17 is substantially as follows:

That the capital stock be increased from \$80,000,000 to \$100,000,000. If such increase in the capital stock be authorized, the company shall forthwith issue its 6 per cent coupon debentures to the extent of \$20,000,000 par value, payable on July 1, 1909, and the holders thereof shall have the privilege upon the expiration of three years from the date thereof, namely, on July 1, 1907, and on any subsequent interest date prior to July 1, 1909, of converting the same into the capital stock of the company at its par value, and the increased capital stock shall be reserved for that purpose.

That the \$20,000,000 of debentures, to be issued forthwith as aforesaid, shall be offered, ratably, to the stockholders of record at par, payable in three instalments, the first two of 30 per cent each and the last of 40 per cent.

A special meeting of the shareholders will be held on True.

A special meeting of the shareholders will be held on June

2 to ratify this action of the directors.

New Construction.—The "Engineering News" gives the fol lowing touching the proposed gas plants of the subsidiary

company, the Astoria Light, Heat & Power Co., which will be constructed in Astoria, L. I., on space bounded by the East River, a canal, the East River channel to the entrance of Long Island Sound and by Winthrop Avenue. [Compare V. 78, p. 105.]

All the gas plants on Manhattan Island are to be removed to Astoria, where the central plant will produce 120,000,000 cu. ft. of illuminating gas and 6,000 tons of coke, besides large quantities of ooal tar and ammonia a day. Six coal storage houses, with a combined capacity of 1,000,000 tons, will be erected. The 12 retort houses will each have a capacity of 10,000,000 cu. ft. There will be aix gas holders, each 300 ft. in diameter, with a capacity of 15,000,000 cu. ft each. Adjoining the gas holders will be 12 purifying buildings, 300x105 ft. each. Between each pair of these buildings will be a tank tower 60 ft. high and a meter house 50x70 ft.

Suit.—See Brush Electric Illuminating Co. above.—V. 78, p. 1909, 341.

Consolidated Lake Superior Co.—See Lake Superior Corporation Co. below.—V. 78, p, 1909.

Detroit (Mich.) Iron & Steel Co.—Output.—This company's furnace was blown in Feb. 15th, 1904, and has been operating continuously since, producing, we are informed, an average of 250 tons daily. R. C. Ireland is now Vice-President.—V. 78, p. 1785.

Excelsior Gas & Coke Co., Topeka, Kan.—Favorable Decision.—The Supreme Court of Kansas on April 9 handed down a decision against the City of Topeka in its suit to annul the company's franchise. The suit was brought on the ground that, although franchises for longer than twenty years were forbidden by the laws of the State, the City Council on July 16, 1889. granted the company a franchise which was not to take effect until June 7, 1890, and to run twenty years from that date. The Court holds that the franchise was properly dated ahead because the company acquired no rights under the terms of the franchise until it went into effect.—V. 77, p. 1228.

General Electric Co.—Option to Subscribe.—Stockholders of record June 15 are offered the right to subscribe to new stock at par on the basis of one share of new to ten shares of old stock. Subscriptions will be closed on July 15 and payments for subscriptions must be made on or before July 20, -V. 78, p. 1909, 1554.

Hackensack (N. J.) Water Co.—Additions.—This company confirms the report that between now and May, 1905, it proposes to expend about \$1,100,000 in important improvements. These will include a relay pumping station, a large filtration plant which will be created at the New Milford pumping station, and an impounding reservoir with a storage capacity of 30,000,000 gallons per day of 24 hours. The demand for the company's water is increasing so rapidly that it is thought best to provide against emergencies such as a long summer drought; for this purpose it has begun the erection of a dam 1,500 feet long across the Pascack River, a tributary of the Hackensack River. This dam will provide a reservoir containing 125 acres of water shed, the water of which will be held in reserve and drawn upon only when circumstances require. The filtration system will insure the water's being at all times as clear as crystal. The new pumping station is being built at New Darham; it will contain two pumps of 900 horse power each, thus doubling the company's capacity for supplying water. The places now supplied are:

City of Hoboken, the townships. towns, villages and boroughs of Bergenfield, Bogota, Carlstadt, Cliffside, Englewood Cliffs, Fair View, Guttenberg, Hackensack, Hasbrook Heights, Leouia, Little Ferry, Lodi, Maywood, North Bergen, Overpeck, Palisades, Palisades Park, Ridgefield, Riverside, Ratherford, Secaucus, Teaneck, Tenafly, Union, Wallington, Weehawken, West Hoboken, West New York, Westwood and Woodridge.

It is hoped to have the improvements completed by May, 1905.—V. 75, p. 1205.

Independent Ice Co., Beston.—Sold—See American Ice Co. above.

Lake Superior Corporation.—Successor Company.—A certificate of incorporation for this company which will succeed the Consolidated Lake Superior Co. (per plan in V. 78, p. 1784, 1909, and V. 77, p. 1296) was filed in New Jersey on Thursday. The nominal capital stock (\$2,000) will shortly be increased to \$40,000,000.

Nine of the 12 directors of the new company have been

selected as follows:

J. Tatnall Lea. President of the First National Bank, Philadelphia; J. Tatnall Lea, President of the First National Bank, Philadelphia; Charles H. Hinchman, a Philadelphia capitalist; Francis B. Reeves, President of the Girard National Bank, Philadelphia; John G. Terry, Vice-President of the Mercantile Trust Co., New York; Charles P. Orvis, President of the Canadian Improvement Co., New York; Dumont Clarke, President of the American Exchange Bank, New York; G. B. Turrell, President of the Mutual Trust Co., Orange, N. J.; C. D. Warren, President of the Traders' Bank, Toronto, and Thomas J. Drummond, Montreal. [Four to represent the interests of the Philadelphia shareholders and bankers, four to represent the bankers and stock-holders in New York and four to represent the Canadian interests.] holders in New York and four to represent the Canadian interests.]

The main office, it is stated, will be in Toronto, with a branch in New York. C. D. Warren will probably be President and Thomas Drummond Vice-President, Cornelius Shields will be General Manager.

Instalment.—Subscribers to the \$10,000,000 new bonds are required to pay another instalment of 25 p. c. on their subscriptions at the Fidelity Trust Co. in Philadelphia, or at the Morton Trust Co. in New York on or before May 28. This will make 75 p. c. paid on the subscriptions. About 70 p. c. of the stock is understood to have paid its assessment.

(T) Leffler Electro-magnetic Ry., Chicago.—Mortgage.— This Illinois corporation recently made a mortgage on its plant at 153 Jefferson St., Chicago, to the Royal Trust Co. and H. E. Ambler of that city as trustee, to secure an issue of \$600,000 first mortgage bonds. These bonds are dated Jan. 15, 1904, denomination, \$1,000, and mature Jan. 15, 1934, but are subject to call at company's option on any interest day at 105. The company manufactures electro-magnetic railway cars and motors.

Lexington (Ky.) Hydraulic & Manufacturing Co.—New Mortgage. — The shareholders were to meet in Laxington, Ky., on May 18, to vote on a proposition to Issue \$600,000 refunding mortgage gold bonds, dated June 1, 1904, payable in twenty years from date, with interest coupons at 5 per cent per annum, payable on June 1 and Dec. 1; denomination \$500 and \$1,000. Of these bonds, \$400,000 will be used in the redemption of two former issues of \$250,000 and \$150,000, respectively, and the remaining \$200,000 in payment for additional water-shed recently purchased, for an additional principal main from the pump house to the city already laid, for extensions and additional fire hydrants in the city, and for such other improvements and betterments as its rapid growth may render necessary. These bonds will be secured by a mortgage to the American Loan & Trust Co. of Boston, Mass. Boston, Mass., on all the property now owned or hereafter acquired by the water company, and on all its franchises. An official statement says:

An official statement says:

We have now over 350 fire hydrants in use and ordered by the city, with more to come, the rental being \$50 per annum on each hydrant. Our income from private customers for the past year was a trifle over \$46,000, and increases from \$3,000 to \$5,000 per annum. Our property consists of pump house and filter plant, all in first class condition; over 1,100 acres of land, about 38 miles of water mains, 350 fire hydrants and 300 valves. The plant we believe to be one of the best in the country (not largest, but best).

In March, 1902, the company filed a mortgage to the American Loan & Trust Co. of Boston as trustee to secure

American Loan & Trust Co. of Boston as trustee to secure \$400,000 of 20-year 5 per cent first consols dated Feb. 1, 1901. Of these bonds \$250,000 were reserved to retire the first mortgage bonds for the same amount dated Feb. 1, 1896. The President of the company is Alex. Pearson; Vice-President, W. H. Cassell; Secretary, John Pew.—V. 74,

Los Angeles Electric Co.—Merger.—See Los Angeles Gas & Electric Co. below.—V. 76, p. 922.

Los Angeles (Cal.) Gas & Electric Co.—Merger.—This company, which was recently organized in California with \$5,000,000 capital stock, called a meeting of its stockholders to be held at the office, No. 645 South Hill Street, Los Angeles, on April 27, to vote upon a proposition to purchase the business property and franchises of the Los Angeles Lighting Co. and the Los Angeles Electric Co. These lastnamed companies have for many years been controlled by the Pacific Lighting Co. The incorporators of the new com-pany include W. B. Cline, President of the Los Angeles Lighting Co., Wm. M. Van Dyke, and others. Title has been taken to the property and franchises of the Lighting Co. The shareholders of the new corporation will vote June 15 on making a mortgage for \$4,000,000. Compare Vol. 76, p. 922

Los Angeles (Cal.) Lighting Co.-Merger. - See Los Angeles Gas & Electric Co. above. - V. 77, p. 254.

Massachusetts Gas Companies. — Favorable Decision.— Judge Barker, in the Supreme Judicial Court at Boston on May 18, dismissed the bill of equity in the action brought by George W. Pepper, receiver of the Bay State Gas Co. of Delaware, to set aside the sale in foreclosure on Feb. 11, 1903, to Kidder, Peabody & Co. (representing the Massachusetts Gas Companies) of the stocks of the Boston Gas Companies which were deposited as security for the Boston United Gas bonds. [See V. 77, p. 39, 199; V. 78, p. 1277.] The Court, in a voluminous opinion, sustains the validity of the foreclosure and the propriety of the various acts of the defendants complained of helding the various acts of the defendance of helding the various acts. plained of, holding there was no evidence of collusion, as charged, to bring about or continue default of the sinking fund payments under the mortgages securing the Boston United Gas bonds.—V. 78, p. 1449, 106.

Midland Portland Cement Co., Bedford, Ind.—Receiver-ship Suits.—Suits were filed in the Superior Court of Indianapolis on May 2 by two stockholders, asking for the appointment of a receiver on the ground of insolvency.—V. 76, p. 755.

Milwaukee (Wis.) Coke & Gas Co.-New Enterprise.-Early in April twenty-four of this company's new ovens of the Semet-Solvay type, located in the southern part of Milwaukee, were put in operation; the remaining 56 were to be completed and in use on or about May 1. The 80 ovens, it was said, would have a daily capacity of between 450 and 500 tons of coke, and were expected to produce a surplus of about 3,000,000 cubic feet of gas a day, available for sale as soon as the company obtains its desired franchise. The company declines to give out any information for the reason that there is no stock in the market and none to be sold, and that they have no mortgages or bonds of any kind outstanding.

President Ferdinand Schlesinger was quoted on Apr. 15 as

saying:

"If we obtain our franchise, we will begin work within a few months on eighty more ovens. The plant we now have represents an investment of about \$1,300,000. Our plans contemplate the erection in the next three years of a total of 320 ovens, and the ultimate investment will be about \$3,000,000.

"We have just finished the plans for the erection of a new \$50,000 coke handler, which will crush and sort the product and then load it into bags, wagons or cars. We also have ordered a 5,000,000 cubic-

foot capacity gas reservoir to cost \$250,000, which will be put up at once. In six weeks we will be ready to pipe our gas to consumers if the franchise is granted us. So far we have used about 33,000 tons of coal, which we shipped before navigation closed. It was mined in the Boomer mines in West Virginia, which are owned by the same persons who control the Coke & Gas Company. We expect to ship to Milwaukee about 225,000 tons of this coal this summer to last us until the opening of navigation in 1905."

Niagara Lockport & Ontario Power Co.—Bill Vetoed,— Gov. Odell, on May 15, gave out a statement explaining his disapproval of the bill to extend the time for the beginning of work by this company and changing its powers so as to eliminate the water supply feature and to enable it to furnish electric power throughout the entire State instead of confining its operations, like the original charter, to the counties of Niagara, Orleans and Erie. The company was incorporated by the Legislature in 1894 and was required to begin construction on or before some day this month, its water to be derived from the Niagara River at a point about 12 miles above Niagara Falls. It is claimed that sufficient work to keep the charter alive was done last week.

Oliver Estate.—Stock Holdings.—The appraisement made by Andrew W. Mellon and George Tener states the value of the holdings of the late Henry W. Oliver in the securities of the following corporations as below:

Appraised value.
Pittsburgh Coal Co., common stock\$1,257,250
" " preferred "
U. S. Steel Corporation preferred stock
Standard Steel Car Co
Oliver Iron & Steel Co. stock
Calumet & Arizona Copper stock
Calumet & Pittsburgh Copper stock 213,740
N. Y. Shipbuilding Co. stock. 137,500
Harvey Iron Co. stock. 275,000
Interest in Cheming iron ore leases
Notes of Chemung Iron Co
The total value of the personal property is estimated by

the appraisers at \$16,246,327.

Pittsburgh Coal Co.—Bonds Offered.—The Union Trust Co., the mortgage trustee, and the Mellon National Bank, both of Pittsburgh, are offering at par and interest, by advertisement on another page, \$7,000,000 of the guaranteed first mortgage 5 per cent sinking fund gold bonds of the Pittsburgh Coal Co. of Pennsylvania. These bonds are for \$1,000 each, dated Jan. 1, 1904, due Jan. 1, 1954, but subject to call at 110 and interest on either of the interest days (July 1 and Jan. 1) as provided in the mortgage; total authorized issue, \$25,000,000. The security for these bonds is briefly described as follows:

(1) An absolute first lien on about 160,000 acres of Pittsburgh coal and 13,000 acres of surface, which is shown by map to be within 25 miles of Pittsburgh, and by collateral trust are further secured by 7,000 acres of Hocking Valley coal and 8,400 acres of Pittsburgh coal held under leases, thus making a total of over 175,000 acres of coal.

(2) By collateral trust these bonds are further secured by
(a) 4.300 railroad cars.
(b) Pittsburgh & Castle Shannon RR. Co., Montour RR. Co. and Pittsburgh & Moon Run RR. Co.
(c) Properties, docks and distributing stations of subsidiary companies at Duluth, Minn; Milwankee, Achland, Mauitowoc and Sheboygan, Wis., and Escanaba, Mich.; Achtabula, Ohio, and other points.
The mortgage provides for a sinking fund of 5 cents per ton for each

The mortgage provides for a sinking fund of 5 cents per ton for each ton of run-of-mine coal mined, and the minimum payment must amount to \$600,000 in each year, whether any coal is mined or not, and this sinking fund can be used only for the purchase of the bonds of the company.

President Francis L. Robbins writes to the bankers in part as follows:

DEAR SIRS:—The \$25,000,000 of bonds issued by the Pittsburgh Coal Co. of Pennsylvania and guaranteed by this company have for security the following property:

	Oash Value.
Net cash assets, after providing for all bonds,	
counts, and other outstanding liabillies	\$6,000,000
160,000 acres of Pittaburgh coal at \$300	48,000,000

2,000 shares of Montour RR. Co.	
1,000 shares of Pittsburgh & Moon Run RI	R. Co.

\$83,976,663

These shares constitute either the controlling or the entire interest

These shares constitute either the controlling or the entire interest in each of the companies named, and by their ownership of railroads, docks, properties and distributing stations, the company is enabled to mine, ship and market its coal to the best advantage. No other company in this country possesses the same advantage in this respect.

In addition to the coal acreage above mentioned, the company holds and operates under leases from the Shaw Coal Co. and Midiand Coal Co. 8,400 acres Pittsburgh coal and all of the coal of the company, except the Hocking Valley coal, is situated within 25 miles of Pittsburgh. The production and the net earnings of the company have been as follows:

I0110W8:			
	Coal Mined	Coke Mfad.	Net Earn-
	Tons.	Tons.	ings.
1900	12.824.559	30.004	\$3.181.567
1901	11,929,501	19,987	3.099.588
1902	14,908,351	67,730	4,706,587
1903	15 514 618	149.842	6.751.025

We expect in the near future to get our output up to 20,000,000 tone per annum, and when we do so the company should easily earn, after deduction of all sinking funds, \$10,000,000 per annum. In the above figures of acreage, production and earnings, no account is taken of the Monongahela River Consolidated Coal & Coke Co., a controlling interest of which is owned by Pittsburgh Coal Co. interest of which is owned by Pittsburgh Coal Co.

Each of the aforesaid bonds carries the endorsed guaranty of principal and interest of the Pittsburgh Coal Co. (the parent company), and this guaranty is secured by a mortgage of the last-named company covering its entire property. This latter mortgage is made to the Union Trust Co. of Pittsburgh as trustee. It covers, as already said, "all of the property and estate of the corporation—real, personal and mixed of every kind and description and wheresoever situated—now owned or hereafter acquired, and including especially the following:"

Total Issued. \$50,000,000 20,000,000 9,995,000

x Subject to a prior pledge under agreements of purchase dated Oct. 14, 1903. [This stock is also included above.—ED] The guaranty endorsed on each coupon bond is as follows:

FORM OF GUARANTY.

Pittsburgh Coal Co., a corporation created and existing under the laws of the State of New Jersey, for value received, does hereby guarantee to the holder, or if registered to the registered owner, of this bond, the punctual payment by the Pittsburgh Coal Co. of Penneylvania of the principal and interest of the said bond, as the same shall become or be made due and payable, according to the terms of said bonds and of the indenture therein mentioned, dated Jan. 1, 1904, made by the Pittsburgh Co. of Pennsylvania to the Union Trust Co. of Pittsburgh to secure the same. In witness whereof the said Pittsburgh Coal Co. has caused its corporate seal to be hereunto affixed and to be attested by its Secretary or an Assistant Secretary, and these presents to be signed by a Vice-President as of the first day of January, 1904. Pittsburgh Coal Co. by ——, Vice-President. Attest: ——, Secretary. , Secretary.

The parent company has capital stock outstanding as follows: Preferred stock, \$30,716,200; common stock, \$30,135,000. The company was organized in 1899 and has since paid regularly quarterly dividends of seven (7%) per cent per annum upon all of its preferred stock.—V. 78, p. 1449, 1278.

Pittsburgh Plate Glass Co.—Report of Committee.—Andrew W. Herron, J. I. Buchanan and Geo. I. Whitney, the committee appointed at the stockholders' annual meeting Feb. 11, 1904, to determine whether the book value of the properties owned "are as a whole reasonable and fairly represent the true worth of the properties," report that they have visited three of the company's works and have received full information from the officers of the company,

The plants composing the reorganized company at its organization on April 1, 1895, when it absorbed most of the independent com-

panies were:

PLANTS ACQUIRED AT ORGANIZATION APRIL 1, 1895.

Pittsburgh Plate Glass Co.'s plants at Creighton, Pa., (Works No. 1);
Tarentum, Pa., (Works No. 2); Ford City, Pa., (Works Nos. 3 and 4.)
xHoward Plate Glass Co.'s plant at Cochran, Pa., Works No. 5.
Charleroi Plate Glass Co.'s plant at Charleroi, Pa., Works No. 6.
xDiamond Plate Glass Co.'s plant at Elwood, Ind., Works No. 7.
Diamond Plate Glass Co.'s plant at Kokomo, Ind., Works No. 8.
Crystal Plate Glass Co.'s plant at Crystal City, Mo., Works No. 9.
Subsidiary companies belonging to the above-named plants:
Charleroi Coal Co. at Charleroi, Pa.
xFredonia Coal Co. at Fredonia, Mo.
xMillington Sand Co. at Millington, Ill.
x8andusky Gypsum property, near Sandusky, O. xSandusky Gypsum property, near Sandusky, O.

xSince sold or otherwise disposed of, see below.-ED.

Afterwards the plants at Ottawa, Ill., and at Walton. Pa., were purchased at figures representing what would be considered at the present time an abnormally high valuation.

As was to be expected, it was soon discovered that some plants were much better adapted for producing cheap glass than others were, and it became necessary not only to cheapen the cost in the best factories, but to improve the others. This plan was intelligently carried out excepting at Works No. 5, at Cochran. After lying idle for some years the property on which this plant was located was sold to the Carnegie Steel Co. and the buildings, most of which were of steel, were taken down and erected at other plants, as additions and renewals were required, the result being a loss of 50 per cent on the investment. Large sume of money were spent for repairs and substitution of modern machinery. One chief expense was the installation of new steam plants at every factory in the combine excepting at Charleroi and Works No. 4, at Ford City, owing to the failure of natural gas and the impracticability of the old-style boller. New water-tube boilers with stokers and automatic coal and ash handling machinery were erected; in addition electric motors were substituted for old-style steam engines for the distribution of power. The failure of natural gas made necessary the installation of gas producers and the construction of more economical furnaces, etc.

Great advancement has been made in the manufacture of plate glass. struction of more economical furnaces, etc.

struction of more economical furnaces, etc.

Great advancement has been made in the manufacture of plate glass of late years. Plants that were modern, or fairly so, in 1895, are now obsolete, or nearly so, being only profitable when glass is at an abnormally high value. Some have had to be abandoned or suspended, such as Works No. 7, at Elwood, Ind., ou account of natural gas failing. Others had to be completely torn down and rebuilt on modern lines, as No. 4, at Ford City, and others almost entirely remodeled, as at Walton, Pa. As the business developed, it was found advisable to dispose of certain properties as the Fredonia Coal Co., the Millington Sand Co. and the Sandusky Gypsum property, which were unprofitable to operate, and which caused a considerable shrinkage of investment.

of investment.

The committee is convinced that the amount charged to keep the The committee is convinced that the amount charged to keep the property in good condition is reasonable as compared with ordinary depreciation and that the increase of "construction" account represents a fair estimate of the expenditures in excess of the amount needed for mere maintenance. The coal properties and plants are kept on the books at their actual cost price, which we consider a proper estimate of their value. Any possible undervaluation of the coal properties and natural gas plants is overbalauced by possible overvaluation on other properties; so that taken as a whole the one may be considered a factor of safety for the other. Other assets stand at actual cost, which we approve as conservative. We are of the unanimous opinion that the values of the various properties as shown on the companies books are as a whole reasonable and fully represent the true and panies books are as a whole reasonable and fully represent the true and full worth of said properties.

The intelligence with which the repairs and substitution of machinery and the new construction have been carried forward, while

not increasing the legitimate investment, except as we have indicated, nevertheless have diminished the cost of production and placed the company in a position to successfully meet competition.

The report contains no figures.—V. 78, p. 1390, 1227.

Pope Manufacturing Co.—Description of Property.—This company has issued an illustrated booklet describing its various plants for the manufacture of bicycles and automobiles. The total factory area is 2,321,807 square feet, and the total number of employees (full force) is stated at 11,450. The company owns and operates as:

POPE MANUFACTURING CO.

Eastern Depart., Hartford, Conn. | Western Department, Chicago, Ili. Columbia Factory, Hartford, Conn. | Orescent Factory, "Westfield Factory, Westfield Mass. | Rambler Factory, " Westfield Factory, Westfield, Mass. Rambler Factory, Crawford Factory, Hagersto'n, Md. Imperial Factory POPE MOTOR CAR COMPANY.

| Waverley Fact'y, Ind'napolis, Ind, Toledo Factory, Toledo, Ohio. FEDERAL MANUFACTURING CO.

Smith Stamp'ga Fact'y, Milwaukee | Columbia Steel Work, Elyria, O. Diamond Chain Factory, Indian | Cleveland Ball Factory, Cleveapolis, Ind. Garfield Factory, Elyria, O. land, O. Thompson Factory, Chicago, Ill.

The floor area of the various plants, the number of hands employed (full force) and the products of the works are

briefly as follows:
Factory. Sq. Products.

x Bicycles and automobiles.

"Cleveland" bicycles, etc.
Bicycles and automobiles.

"Crescent" bicycles.

"Rambler" bicycles.

Note.—The company's output includes "Columbia," "Hartford" and "Vedette" bicycles; motor bicycles; "Pope-Hartford" automobiles; "Cleveland," "Weetfield," "Tribune" and "Stormer" bicycles; "Crawford" and "Fay Juvenile" bicycles; "Pope Tribune" gasoline automobiles; "Crescent," "Rambler," "Imperial" and "Monarch" bicycles; "Pope-Toledo" two-cylinder and four-cylinder gasoline touring cars; "Pope-Waverley" electric automobiles of fifteen models, including station and physicians' wagons, stanhopes, surreys, delivery wagons and trucks. Also a full line of automobile and bicycle parts and various hardware specialties. various hardware specialties.

The officers and directors are:

Officers: Albert A Pope, President; Albert L. Pope, Vice-President; George Pope, Treasurer; Paul Walton, Secretary.
Directors: Albert A. Pope, President and Albert L. Pope, Vice-President, New York City; George Pope, Treasurer, Orange, N. J.; William A. Read, of Vermilye & Co., Colgate Hoyt, of Colgate Hoyt & Co., F. S. Smithers, of F. S. Smithers & Co., George F. Crane, of Baring, Magoun & Co.. New York City; Charles Hayden, of Hayden, Stone & Co., and Arthur W. Pope. of A. W. Pope & Co., Boston, Mass.; G. T. Hollister, of Vermilye & Co., Rutherford, N. J.

A director is quoted as saying:

A director is quoted as saying:

A syndicate of bankers, represented by the present directors, subscribed \$2,400,000 and received therefor \$2,400,000 of first preferred 6 p. o. stock. The old bondholders received second preferred stock, and the old common and preferred stockholders a small amount of common stock. Naturally the people who put up the new money required voting trustees for the present time, but so far as the ownership of the stock is concerned, Colonel Pope is not only a large owner of the first pref. stock, but by far the largest owner of the second preferred stock, and the owner of nearly all of the common stock. It is the one ambition of his life to restore that company to the prestige formerly occupied by the original Pope Mfg. Co. of bicycle days. Interests close to Mr. Rockefeller are undoubtedly represented on the board, and possibly a subscription may have been made for Mr. Rockefeller, but to state that he in any way controls the company is absurd. The company has had a wonderful business this year. While it had planned to make a large number of Toledo touring cars, it has already on its books orders for more than it can manufacture and deliver previous to Aug. 1, working day and night.

Princeton (N. J.) Lighting Co.—Receivership.—Vice-Chancellor Reed at Jersey City on April 20 appointed Richard Stockton as receiver for this company on application of W. A. Squire, a creditor. The company's liabilities are said to aggregate about \$300,000, including all bonds not pledged. A mortgage made in February, 1903, to the North American Trust Co., as trustee, secures an issue of \$850,000 of 5 p. c. gold bonds, denominations \$500 and \$1,000, dated Feb. 28, 1903, and due March 1, 1933, but subject to call after five years at 110 and interest; of these bonds, \$268,000 have been certified. \$70,500 being reserved to retire underlying bonds (of the Hopewell Electric Light & Power Co., the Princeton Electric Works and the Princeton Gas Light Co.), and about \$200,000 pledged as collateral. The coupons on these bonds are payable in March and September, and none, it is stated, have been defaulted, though at auction this week \$100 thereof sold for \$10. Chas P. Fitch is President, O. A. Parker, Vice-Pres., and S. H. Blackwell, Treas. Office, Princeton, N. J. See also University Lighting Co. below.

Sweetser, Pembrook & Co., New York.—Liquidation— Auction Sale .- This company's stock of dry goods, etc., to an estimated value of over \$1,200,000, is advertised to be sold at peremptory auction sale on the premises, beginning on Monday next, at 10:30 A. M.—V. 78, p. 1913.

Tampa (Fla.) Electric Co.—New Stock.—The shareholders will vote May 80 on increasing the capital stock from \$500,000 to \$600,000. Dividends are being paid at the rate of 10 per cent per annum. The company is one of those managed by Stone & Webster, Boston. See page 937 of STREET RAILWAY Section.—V. 70, p. 180.

Reports and Documents.

UNITED STATES RUBBER COMPANY.

TWELFTH ANNUAL REPORT-FOR THE YEAR ENDING MARCH 31, 1904.

NEW BRUNSWICK, NEW JERSEY, May 17th, 1904. To the Stockholders of the

UNITED STATES RUBBER COMPANY:

This is the third annual report of the present President of your Company, and at the outset I cannot refrain from saying that it is the first report which it has given me pleas-

ure to make and submit for your consideration.

Upon assuming the Presidency of your Company three years ago, the existing conditions were far from satisfactory. Owing to the abnormally high prices for our manufactured products which had prevailed for some years, many new rubber companies had come into existence. The result was an intense competition, in which the output of this Company had declined to a net of \$20,800,000. By January and February, 1901, this competition had resulted in a reduction in prices averaging about 23 per cent., and in the sale by all concerned of goods at or near the actual cost of production. Under these conditions, as always, the evil supplied its own remedy, and only the stronger companies found themselves able to survive the strain of such competition. At the present time not only have we regained our full share of the trade but we have actually doubled the gross sales of our product without any advance in prices except to compensate for the advance in the cost of raw material—the larger product enabling us to run our Mills to their full capacity, which decreases materially the cost of production. The gross sales of the Company for the year ending March 31st, 1901, were \$32,000,000, whereas the gross sales for the present year were \$64,000,000. The "gross" is measured by the list prices which are nearer uniform than the net prices.

In my annual report for 1902 reference was made to the fact that the present management was called upon to adjust a large indebtedness to the Company. In the settlement of this claim in the Spring of that year, the Company was obliged to take over certain interests in other corporations. In consequence the present Officers and Directors of your Company have been obliged to manage not only the business of this Company, but also these various outside interests. In a previous report, I stated it to be my opinion that "serious loss has been avoided," and I can now say that through re-organization, realization and adjustment, I feel that statement has been practically made good, although, as a matter of precaution, (as will be seen by the Treasurer's report) \$500,000 out of the past year's earnings has been reserved for depreciation upon these securities.

Three years ago, after re-adjusting the affairs of the Company to meet the lower range of prices for goods, and giving rebates to Jobbers for the goods they had on hand, in compliance with a custom which then prevailed, the balance sheet showed a deficit. In the statement of two years ago, this deficit had been changed to a surplus of \$42,011.75. In the statement of a year ago, this surplus had increased to \$1,384,460.07. By this year's statement, after carrying to reserve for depreciation of securities, as before stated, \$500,-000 and providing for dividend of 1½ per cent. on the Preferred Stock, payable June 15th, 1904, requiring \$352,882. 50, there will remain a surplus of \$2,107,218.86.

VOLUME OF BUSINESS.

The volume of business done by the Company during the past year is the largest in its history. Three years ago the annual net sales of boots, shoes and miscellaneous goods were \$20,853,633.94. This year the net sales amount to \$33,-396,918.88. This shows an increase of \$12,543,284.94 net, of which \$5,120,288.30 is the increase of last year over the previous year.

ADVANCE IN SUPPLIES.

During the past year there has been a material advance in the price of crude rubber and other supplies which compose or enter into the manufacture of our goods. This rise in the cost of raw materials has necessitated the recent advance in the prices of our goods, in order that in the future we may realize a legitimate profit upon our very large sales.

EMPLOYEES PROFIT-SHARING PLAN.

During the low prices for our stocks members of your Executive Committee thought it wise to accumulate a block of the Preferred Stock and a block of the Common Stock. These stocks are now to be distributed among about 150 of our principal employees under a plan, of which the main features are as follows: A certain number of shares of both the Preferred Stock and Common Stock will be transferred to the name of the employee, thereby making him a stockholder in the Company. The certificates are then endorsed by him in blank and held by the Meyer Rubber Company, a Subsidiary Company of the United States Rubber Company, the employee receiving a Certificate of Agreement to the effect that provided he remains in the employment of the United States Rubber Company or one of its Subsidiary Companies till January 1st, 1908, he may at his option acquire such stock by paying \$45 a share and interest for the Preferred, and \$10 a share and interest for the Common, which option, under the same conditions, continues till February 1, 1910. The employee may pay into the Treasury of the Meyer Rubber Company from time to time on account of the purchase of such stock, and in the event of his decision not to take such stock, he shall be entitled to receive his money back with 6 per cent. interest. All dividends upon the stock shall, as declared, be paid over to the employee without his accounting therefor, whether he eventually takes the stock or not, and in no event shall the amount of interest charged on the purchase price of the stock exceed the amount of dividends declared thereon. The full text of this agreement is attached to this report marked exhibit "A."

The object of this plan is not only to give the Company's employees a pecuniary benefit, but to bring them in closer touch with its management, and by sharing the gains to be derived from its success, to stimulate them to greater interest and energy in its affairs.

FUNDED INDEBTEDNESS.

On March 15th, 1902, the indebtedness of the United States Rubber Company, and of its Subsidiary Companies, amounting to \$12,000,000, was funded into three year 5 per cent. Collateral Trust Notes. From the earnings of the Company since that time \$2,000,000 of these notes have been paid and cancelled, and it is the intention of your management to pay \$2,000,000 more from earnings at or before their maturity, March 15th, 1905. In this connection, it gives me pleasure to state that there has already been consummated with the same bankers who financed the original loan an agreement for refunding the balance of \$8,000,000 when it becomes due, for a further period of three years. The terms of this agreement we regard as fair and reasonable, and owing to our improved conditions are much more favorable to the Company than those upon which the original loan was secured. It is believed that during the three years of the extension the indebtedness will be so far reduced that no further funding of this loan will be necessary, since the quick capital of the Company now is such that during some portions of each year it has on hand as much as \$5,000,000 cash. The Company and its Subsidiary Companies then being entirely out of debt a portion of the year could readily borrow on their notes for temporary requirements. Prior to the funding of 1902 their indebtedness of \$12,000,000 was all borrowed in this way.

BOSTON RUBBER SHOE COMPANY DEBENTURES.

The only other obligation of the Company to be provided for in the future is the \$4,800,000 5 per cent. Debentures of the Boston Rubber Shoe Company, due August 1st, 1908. These Debentures (originally \$5,000,000) were given to the former Stockholders of the Boston Rubber Shoe Company as part of the purchase price for the splendid properties of that Company. By the terms of the Debenture, the Boston Rubber Shoe Company at all times must have on hand net quick assets in an amount equal to the outstanding Debentures, and now the Company has on hand in such net quick assets an amount in excess of such Debentures. To provide for the reduction of such Debentures between now and the date of their maturity, I would recommend applying annually a certain percentage of the earnings of the Boston Rubber Shoe Company to such reduction. There can be no difficulty whatsoever, with the very high credit of the Boston Company, in extending the balance, if any, that may remain unpaid at maturity.

CRUDE RUBBER.

Your management has given much attention to the subject of crude rubber during the past year, and has consummated arrangements for the establishment of our own purchasing agencies at Para and Manaos. We also have laid the foundation in another direction for acquiring and handling generally our very large requirements of crude We are confident that these steps will give us special advantages and facilities never before possessed by this Company and not enjoyed by any other consumer of rubber.

STOCKS OF MERCHANDISE ON HAND.

Your Company is unusually well stocked with merchandise required for the manufacture of its product, and at prices materially below the present market prices. This will account for the increase of the item in the Treasurer's Report, "Inventories, Manufactured Goods and Materials \$16,801,876.28, March 31st, 1904," as against \$11,480,783.18, March 31st, 1903, and for the decrease in cash—\$1,660,852.62 March 31st, 1904, as against \$4,823,830.91 March 31st, 1903. This is done in conformity with the policy of your management of purchasing, so far as possible, crude rubber and other materials sufficient to cover all goods that are sold in advance at fixed prices. This action cannot but prove of great advantage to the Company and its shareholders, since it secures beyond any doubt a reasonable profit upon all sales of the Company's goods.

NON-RESTRICTED SYSTEM OF SELLING GOODS AND EXPORT TRADE.

The plan of selling our product, which went into effect January 1st, 1903, whereby no attempt is made to regulate the prices of our goods after we have parted with the title to them, has been found to work successfully, even beyond our expectations. While some of our Directors were in doubt as to the expediency of the change, all are now agreed that the result has proved the wisdom of the action taken. This is evidenced among other things by the record of the past year, which shows by far the largest volume of business ever transacted by the Company.

Our Export Trade likewise shows an increase over any previous year.

MANUFACTURE OF BY-PRODUCTS.

The Company manufactures all its reclaimed rubber, which gives it an article of uniform and superior quality. It also manufactures, under its own patents, all its buckles, the Company's consumption of which last year amounted to 11,464,704 pairs, and which are far cheaper and better than any other in the market. It also makes its felt linings for boots, lumbermen's, etc.

CONCENTRATION AND ECONOMIES.

During the year much progress has been made in promoting the efficiency of the Manufacturing, Selling and Accounting Departments of the Company. A complete system of comparison of costs of the different factories has been inaugurated by the Assistant General Manager, which already shows a saving of large sums without detracting in any degree from the quality of the goods manufactured. In the Selling Department, under the Manager of Sales and Manager of Branch Stores, far greater efficiency and energy prevails than ever before. In the Accounting Department, under the Assistant Treasurer, matters have been so systematized that each month the exact result of operations of the Company and its Subsidiary Companies is presented to the Directors, and great advantage is derived therefrom, especially through comparisons of the results of the operations of the different mills. This latter will enable the Directors to make statements of earnings to the stockholders at each dividend period.

CONDITION OF FACTORIES AND INVENTORIES OF MATERIALS.

The high efficiency of our factories has been fully maintained. During the year we have replaced the power plants of several mills, and made extensive improvements in others.

All of our inventories this year are taken very much below cost, and had they been taken at cost a much larger profit would have been shown.

FUTURE OUTLOOK.

The continued and permanent prosperity of the United States Rubber Company seems assured. The property of the Company comprises the finest rubber plants in the world. The difficulties which confronted the management three years ago have been overcome. The underlying conditions all point to the continued and permanent prosperity of the Company. Not only have we regained our lost trade, but our output has assumed proportions far beyond our expectations. We produce a staple and necessary product, the consumption of which increases, and will continue to increase with the growth of our country. Our production for the year has been over 48,000,000 pairs of rubber boots and shoes. Our credit is the best. Our indebtedness is comparatively small and decreasing. Our mills are maintained at the highest degree of efficiency. Our employees are loyal, and interested in the work of promoting the success of the Company. During the past year, as already pointed out, we have introduced important improvements and economies into our Manufacturing, Purchasing, Sales and Accounting Departments. These, and other advantages which we possess, will, we feel confident, enable the Company to continue low prices, and still to make a fair margin of profit. We believe this policy is wise and conservative, and that it will secure to the Company permanently the great volume of business it now enjoys.

As bearing upon the future, I would call special attention to the fact that notwithstanding our very large business of last year, the detailed orders for the first three months of this year show a marked increase over the same period of last year.

Our net profits of the past year of about \$1,500,000 would have been double that amount had it not been for the extraordinary and unlooked for advance in prices of crude rubber and other materials after the prices for goods had been fixed at the beginning of the year. This year we have advanced prices to correspond with the advance in materials.

After the most careful and conservative consideration of the subject, your Directors last month determined that they were safe in resuming dividends upon our Preferred Stock, and declared the first dividend of 1½ per cent. payable June 15th, the books closing for this dividend May 31st. This step was not taken without the firm conviction on the part of your Directors that the Company would be able to continue quarterly dividends hereafter, and at the same time gradually to reduce its indebtedness until it is entirely wiped out. We helieve the resumption of dividends has come to remain, and we see no reason why, without abandoning the policy of low prices for its goods, the net profits of the Company should not from the present continue year by year to increase, and thereby give the fullest satisfaction to all classes of our stockholders.

Respectfully submitted,

SAMUEL P. COLT,

President.

EXHIBIT "A."

UNITED STATES OF AMERICA. UNITED STATES RUBBER COMPANY.

EMPLOYEES' STOCK OPTION NO.....

PREFERRED SHARES.

COMMON SHARES.

THIS AGREEMENT, Made and entered into this......day of......A. D. 1904, by and between the MEYER RUBBER COMPANY, a New Jersey corporation, hereinafter called the "Company," and......hereinafter called the "Employee,"

WITNESSETH:

Whereas, Said Employee is at present employed by the United States Rubber Company, a New Jersey corporation, or by one of the Subsidiary Companies of said United States Rubber Company, and said Meyer Rubber Company, being a Subsidiary Company of said United States Rubber Company, desires in behalf of said United States Rubber Company to encourage continuous and faithful service to said United States Rubber Company or to its Subsidiary Companies, and to induce the best efforts on the part of the leading employees of such Companies,

Now, Therefore, It is mutually agreed as follows, namely: First: In consideration of one dollar to it in hand paid by said Employee, the receipt of which is hereby acknowledged, and of the acceptance by said Employee of the terms and conditions hereinafter set forth, the said Meyer Rubber Company has assigned, transferred and delivered, and by these presents does assign, transfer and deliver, shares of the fully-paid preferred stock and shares of the fully-paid common stock of said United States Rubber Company, to said Employee, upon the following terms and conditions:

1. Said stock shall at once be transferred into the name of said Employee, who shall endorse the transfer thereon, and return the certificates representing said stock to the Company.

2. At any time during the month of January, 1908, the Employee, if he shall have continued and shall then be in the service of the United States Rubber Company or of some one of its Subsidiary Companies, upon payment of forty-five dollars (\$45) per share for all or for any of said shares of the preferred stock, and of ten dollars (\$10) per share for all or for any of said shares of the common stock, together with interest on said amounts from April 1, 1904, at the rate of six per cent. per annum, may receive certificates for so many of such shares of stock so transferred into his name and theretofore held by the Company, as at said prices shall be equal to the sum by him then paid therefor. It is, however, expressly stipulated that in case no dividends shall be declared upon such stock, or in case the aggregate dividends declared upon such stock shall amount to a sum which shall be less than the interest above provided for during the period before such stock shall be acquired by such Employee, then and in every such case the amount of interest chargeable against such Employee shall be so reduced that the same shall not be in excess of the amount of the dividends so received.

3. In case any part of said stock is not taken up on or before February 1, 1908, the Company will, upon the request in writing of such Employee, and the payment by him of the interest due to January 1, 1908, calculated on the basis above set forth, extend the time for taking up the balance of said stock, or of any part thereof, to February 1, 1910, or any time prior thereto, such taking up to be upon payment of the prices above named for the shares of preferred or common stock so taken up with interest thereon, calculated as aforesaid, from January 1, 1908, to the date

of such taking up; provided that at the time of such taking up, the Employee shall be still in the employ of the United States Rubber Company or of one of its Subsidiary Companies. But if such request is not received, and such interest is not paid prior to February 1, 1908, or in case such extension is granted and said Employee shall not take up the entire balance of said stock on or before February 1, 1910, his rights with respect thereto shall cease and determine, except that all payments on account theretofore made by him shall be refunded to him with interest on such payments at the rate of six per cent. per annum.

4. All rights of the Employee or of his representatives hereunder or in or to the said stock, except the right to the return of any payments by him made hereunder, shall forthwith cease and determine, and the Company shall be freed and discharged of and from all liability or accountability hereunder or in respect of said stock, in case the said Employee shall die at any time before October 1, 1905. If the said Employee shall die after the first day of October. 1905, and before the first day of February, 1908, or after January 1, 1908, and before February 1, 1910, in case the period of this contract shall have been extended for two years, then and in every such case, if such Employee shall have continued in the employ of the United States Rubber Company or of one of its Subsidiary Companies up to the time of his death or of his last sickness, the Company will permit the personal representatives of such Employee at any time within one year after the death of such Employee to complete the purchase of such stock standing in the name of such Employee on the same terms and conditions as hereinabove provided for the acquisition of such stock by the Employee himself; but if such purchase of such stock shall not have been completed within such period of one year, then and thereupon all rights of such Employee or of his personal representatives to complete such purchase or to receive such stock shall cease and determine; but if such purchase shall not have been completed within such period, or in case the personal representatives of such Employee decline in writing the opportunity to complete such purchase, then, after the expiration of such period or upon such declination being filed with the Company, the Company will upon demand refund to the personal representatives of such Employee all payments made by such Employee under the terms of this agreement with interest upon such payments at the rate of six per cent. per annum, and thereupon every right of such Employee or of his personal representatives hereunder in or to said payments and in or to said stock shall forthwith cease and determine.

5. On the first day of any month, during said first-mentioned period, or of said additional period (if such extension shall have been claimed and secured by him), the Employee may pay to the Company ten dollars (\$10) or any multiple thereof, and in such case such Employee shall receive interest thereon at the rate of six per cent. per annum, and such payments with the interest thereon shall be credited against the purchase price to be paid for said stock. No part of said stock can be withdrawn by said Employee prior to January 1, 1908, whatever the amount of his prior payments thereon. In case the employment of the Employee by said United States Rubber Company or one of its Subsidiary Companies shall for any reason be terminated prior to January 1, 1908, or thereafter and prior to January 1, 1910, if the time for taking up said stock shall have been extended as above provided, such payments on account with the interest thereon shall be refunded to him and thereupon every right of the Employee hereunder or in said stock shall forthwith cease and determine.

6. The rights granted to the Employee herein are strictly personal, and, except as herein otherwise provided, depend upon his continuing in the employment of the United States Rubber Company or of some one of its Subsidiary Companies during all of the times hereinabove mentioned. His rights hereunder or to said stock are not transferable. In case any assignment thereof shall be attempted or any attachment shall be placed thereon, and also in case of the bankruptcy of such Employee, every right of the Employee hereunder or in said stock shall forthwith cease and determine except to the extent of any payments on account theretofore made by said Employee to the Company with the interest thereon, provided, however, that in case of such determination, the Company may take such action as it may see fit for the benefit of the family of said Employee.

7. Any period during which the Employee's continuance in the service of the United States Rubber Company or of any one of its Subsidiary Companies, shall have been suspended not by reason of any fault of his own, but solely by illness of such Employee or for the convenience or business purposes of the United States Rubber Company or of some one of its Subsidiary Companies, shall for the purposes of this agreement be deemed as a part of the continuous term of employment of such Employee, provided that he shall not have entered the service of any competitor, without the express consent in writing of the United States Rubber Company.

SECOND: The Employee for himself and his personal representatives hereby accepts the transfer of said stock upon

and subject to the terms, conditions and covenants herein set forth.

IN WITNESS WHEREOF, The Meyer Rubber Company has caused these presents to be signed and its corporate seal

to be hereto affixed by its President and to be attested by its Secretary, both hereunto duly authorized, and said Employee has hereto set his hand and seal, the day and year first above written. MEYER RUBBER COMPANY. (President.) Attest: (Employee's Signature.) (Witness to Employee's Signature,) (Secretary.) JAMES B. FORD,

Union Power Co., Los Angeles.—New Enterprise—Mortgage.—This company, incorporated in California in February last with \$2,000,000 of authorized capital stock, of which \$15,000 was subscribed, has called a meeting of the stockholders to be held on June 15 at the Los Angeles Trust Co., to vote upon a proposition to issue \$1,000,000 of 5 per cent 30-year bonds of \$1,000 each, dated July 1, 1904. Charles Forman is Secretary. The incorporators include J. B. Miller, J. C. Drake, A. C. Balch, F. Forman and K. Cohn. We understand that active construction work has not yet been begun, and will probably not be at present; possibly not for

United States Rubber Co.—New Director.—At the annual meeting this week, A. N. Brady was elected a director to fill a vacancy; the other directors were re-elected. Officers were subsequently chosen as below:

Samuel P. Colt, President; James B. Ford, Vice-President; Lester Leland, Second Vice-President; John J. Watson Jr., Treasurer; Samuel Norris, Secretary; Wm. G. Parsons, Assistant Treasurer; John D. Carberry, Assistant Secretary. Executive Committee—Samuel P. Colt, James B. Ford, Lester Leland, E. C. Benedict, Walter S. Ballou. Annual Report.—See pages 1961, 1967-1969 of to day's issue.

-V .78, p. 1501, 1449.

University Power Co, Princeton, N. J.—Bonds.—The New York Security & Trust Co. paid on May 1 the semi-annual coupons, then due, on the \$300,000 of 5 p. c. gold first mortgage bonds dated Nov. 2, 1903, and due Nov. 1, 1928; denomination, \$1,000 and \$500. Trustee, Continental Trust Co. (now merged in N. Y. Security & Trust Co.) The company was organized last August. Authorized capital stock reported as \$500,000. H. C. Bunn is Treasurer.

Virginia-Carolina Chemical Co.—New Stock Authorized.— The shareholders at the meeting on Wednesday almost unanimously ratified the proposition to increase the preferred stock to the amount of \$8,000,000, of which \$6,000,000 to be issued at present, as stated in V. 78, p. 1503, 1558, 1786.

Option to Subscribe.—The shareholders of record on May 31 are offered, by advertisement on another page, the option to subscribe at part to the \$6,000,000 new preferred stock on

to subscribe at par to the \$6,000,000 new preferred stock on or before June 15 at the New York Security & Trust Co. to the extent of 15 p. c. of their respective holdings (both common and preferred). Subscribtons will be payable in three conditions will be payable in three equal instalments, viz., on June 15, July 15 and Ang. 15, at said trust company.—V. 78, p. 1786, 1558.

Washington & Oregon Power Co. -Mortgage. - A mortgage for \$250,000 has been filed at Walla Walla, Wash., in favor of the Baker Loan & Investment Co. of Walla Wall, as trustee. The mortgage covers the power company's rights of way, water right on the south fork of the Walla Walla River in Umatilla County, and proposed power plant on the Walla Walla to supply Walla Walla, Pendleton and intervening towns.

Western Union Telegraph Co.—Pool Rooms.—Agreeably with the public crusade against pool rooms, the company this week sent messages to its general superintendents at New York, Chicago, San Francisco and Atlanta, Ga., informing them that "it has been decided to discontinue forthwith the collection and distribution by this company of race-horse reports." Telegrams, it is stated, will continue to be despatched from public offices for all senders as heretofore, but in future the company will not maintain private wires or private offices for pool room service. This service has in the past yielded the company a substantial revenue, but its loss will presumably be offset to no small extent by the resulting increase of regular messages.—V. 78, p. 1415, 1251.

Westinghouse Electric & Manufacturing Co.—Business.— An official of the company is quoted as saying:

We are as busy to-day as ever before in our history, the increased activity in our street railway department making up for all falling off in other departments. Since we put our single-phase motor on the market less than a year ago, our orders have greatly increased, and it is this department that we are pushing and which is pushing us. Interurban roads are substituting this system for others, because of its economy and speed in operation. We are employing to-day 10,800 workmen in our East Pittsburgh plant aione, and we have not laid off any men on account of a lack of business. We have full employment for our normal force, and from the present ontlook we will be able to keep that force busy for the remainder of the year. V. 78, p. 987, 51.

Wheeling Steel & Iron Co.—Dividend Declared.—The quarterly dividend of 3 p. c., which was not paid as usual in April, has now been declared, payable May 28 to stockholders of record May 24.—V. 78, p. 1918, 847.

-The "London Statist" has issued the 1904 edition of "Mines of the Transvaal." The work gives late information as to the various companies in the Rand mining fields, with some brief particulars of Transvaal and other South African companies. The matter is very conveniently arranged for reference, and makes a very useful book. Price, with postage, sixteen shillings.

-The Cambria Steel Co., Philadelphia, have issued a handsomely illustrated book showing the various designs which they make of steel cars with structural shapes. The company has made during the last three years about 5,000 of these cars for the leading railway and coal companies.

-Spencer Track & Co., William and Pine streets, New York, offer the guaranteed first mortgage five per cent gold bonds of the Milwankee Light, Heat & Traction Company to yield about 4.75 per cent income. Descriptive circular can be had on request.

The Commercial Limes.

COMMERCIAL EPITOME.

FRIDAY NIGHT, May 20, 1904.

A moderate amount of merchandise appears to be passing into the hands of the consuming trade in the way of deliveries on outstanding contracts, but as a general rule the volume of new business transacted has reached only limited proportions. Buyers, with few exceptions, have appeared to be operating along very conservative lines and have confined their purchases to such supplies as have been needed to cover current wants only. A dragging condition of business has been reported in the iron and steel markets, and prices have shown a tendency to sag. In the speculative grain markets prices for the near-by deliveries have advanced sharply owing to a "squeeze" of shorts. Crop news from the interior has, since the early part of the week, been generally favorable. Complaints of low temperature prevailed at the opening of the week. Weather reports from the cotton belt have been more favorable, desired rains being reported from the Gulf and Atlantic States.

Lard on the spot has had only a small sale, both exporters and refiners pursuing a hand-to-mouth policy in making purchases. Prices have been unsettled, closing easier under freer offers, with prime Western at 6.70c. and prime City at 6.66.25c. Refined lard has been quiet, closing at 6.75c. for refined for the Continent. Speculation in lard for future deliveries has been moderately active. Early in the week prices advanced, but at the close packers became freer sell-

ers and the market weakened.

DAILY OLOSING PRICES OF LARD FUTURES IN CHICAGO.

May del'y-..... 6:30
July del'v..... 6:4212
Sept. del'y..... 6:55 Tues. Wed. Mon Thurs. 6.35 6.47¹9 6.62¹2 6.3212 6.45 6.60 6·37¹9 6·47¹9 6·65 6·25 6·35 6·52¹3 6.20 6.3219

Pork has had only a slow sale and at the close prices were easier at \$12.75@18.25 for mess, \$13@14.50 for short clear and \$14 for family. Cut meats have been quiet, the demand being limited to jobbing orders. The close was easy at 614@6140. for pickled shoulders, 914@9140. for pickled hams and 614@7340. for pickled bellies, 14@10 lbs. average. Beef has been quiet and unchanged at \$7.50@8.00 for mess, \$9@9.50 for packet \$10@10.50 for family and \$18@15 for \$9@9 50 for packet, \$10@10 50 for family and \$13@15 for extra India mess in tes. Tallow has been easier, sales being made at 4c., closing at that price bid. Stearines have been more active, closing at 7c. for lard stearine and 5½05¾c. for oleo stearine. Cotton-seed oil has declined, but the close was steady at 27½@28c. for prime relies. yellow. Butter has been in fair demand and steadier, closing at 13@201/c. for creamery. Cheese has been in fair export demand and steady at 51/2@101/c. for old and 5@73/c. for new State factory, full cream. Fresh eggs closed quiet and easy at 18@1814c. for best Western.

Brazil grades of coffees have been dull, both jobbers and roasters being slow buyers. Offerings from Brazil have been freer and at easier prices, and this has had a weakening influence. The close was quiet but steady at 7c. for Rio No. 7 and 73/4c. for Santes No. 4. West India growths have been quiet but steady at 9c. for good Cucuta. East India growths have been unchanged. Speculation in the market for contracts has been moderately active. Early in the week prices advanced, but the improvement was not maintained.

The close was quiet.

Following are the closing asked prices:

Raw sugars have been in active demand and higher, based on sn indicated smaller Cuban crop than expected and an increasing European consumption. The close was firm at 3 15-16c. for centrifugals, 96-deg. t-st, and 3 7-16c. for muscovado, 89-deg. test. Refined sugar has been in fair dehand and higher, closing at 4.80c., less one per cent cash. for granulated in bbls. Other staple groceries have been quiet.

Kentucky tobacco has been in moderate demand and firm; seed-leaf tobacco has received a fair amount of attention and sales include 1902 Pennsylvania broad leaf at 131/4@14c. and 1902 crop Gebharts at 12½@13½c. Sumatra tobacco nas been in fairly brisk demand and at firm prices. Havana

tobacco had a fair sale at steady values.

During the week there was a steadier market for Straits tin, but at the close prices broke badly, reflecting weaker foreign advices, closing at 27.60@27.80c. Ingot copper has sold slowly and prices have declined, closing at 131/20131/4c. for Lake and 18@131/8c. for electrolytic. Lead has been quiet and unchanged at 4.60@4.65c. Spelter has weakened slightly, closing at 5.15@5.20c. Pig iron has been quiet at \$14 75@15 00 for No. 2 Northern and \$13 25 for No. 2 Southern.

Refined petroleum has been unchanged, closing at 8:15c. in bbls., 10.85c. in cases and 5.25c. in bulk. Naphtha has been nuchanged at 12.40c. Credit balances have been steady, closing at \$1.62. Spirits of turpentine has been slightly easier, closing at \$3.05 for common and good strained. Hope have been dull. Wool has been firm at unchanged prices.

COTTON.

FRIDAY NIGHT, May 20, 1904.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 24,691 bales, against 25,512 bales last week and 34,774 bales the previous week, making the total receipts since the 1st of Sept., 1903, 6,952,318 bales, against 7,479,954 bales for the same period of 1902-3, showing a decrease since Sept. 1, 1903, of 527,636 bales.

Speculation in cotton for future delivery has been moderately active but at declining prices. The unsatisfactry condition of business in actual cotton has been the principal factor against the market. Both spinners and exporters have continued difficult to interest as buyers, and with the Whitsuntide holidays at hand a particularly flat week is expected in the foreign markets. Holdings of spot cotton have ap-peared to be concentrated in a few hands, with New Orleans carrying a stock of 175,000 bales. It is from that market that the weakness largely comes, and is the result, it is believed, of the efforts of the holders of actual cotton to hedge against the stocks. Reports also have been heard to the effect that held cotton is being offered more freely from uncounted interior towns, and that, owing to the absence of demand from spinners and exporters, the only market remaining for the sale of this cotton is the speculative one. According to the information received by the trade, the weather conditions for the week for the crops have been generally favorable, needed rains having fallen in the eastern section of the cotton belt. To-day there was a weaker market. The continued reports of a flat demand for cotton, the slowness of the cotton goods trade and liquidation for the account of tired holders have a depressing influence. The close was easy at a net decline for the day of 28@38 points. Cotton on the spot has declined, closing at 13@15c. for middling uplands.

The rates on and off middling, as established Nov. 18, 1908, by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows.

ı		COMPTENDED (CARO HD ROLLO WS)
l	Fair	
ı	Middling Fair 0.96 on	Strict Middling Tinged 0.06 off
۱	Strict Good Middling 0.62 on	Middling Tinged 0.12 off

WEATHER REPORTS BY TELEGRAPH.—Telegraphic advices to us this evening from the South indicate that rain has been quite general during the week and has been of benefit to the cotton plant. In some districts of the Atlantic States, however, moisture is still claimed to be needed. Many of our correspondents complain that low temperature at night is causing slow germination and development.

Galveston, Texas.—We have had rain on two days the past

week, the rainfall being fifteen hundredths of an inch. thermometer has averaged 73, ranging from 65 to 80.

Abilene, Texas.—There has been rain on one day during the week, the precipitation being six hundredths of an inch. Thermometer has ranged from 52 to 86, averaging 69.

Brenham, Texas.—Rainfall for the week sixty-seven hundredths of an inch, on one day. Average thermometer 74, highest 90, lowest 57.

Corpus Christi, Texas.—There has been rain on four days of the week, the rainfall being seventy-three hundredths of an inch. The thermometer has averaged 78, the highest being 82 and the lowest 64.

Cuero, Texas.-It has rained on three days of the week. The precipitation reached one inch and thirty-five hundredths. The thermometer has averaged 76, ranging from

Dallas, Texas.—There has been no rain during the week. The thermometer has ranged from 49 to 85, averaging 67.

Henrietta, Texas.—Rain has fallen on one day of the week, the rainfall being thirty-three hundredths of an inch. Average thermometer 67, highest 87, lowest 47.

Huntsville, Texas.—We have had no rain during the week. The thermometer has averaged 72, the highest being 94 and

Kerrville, Texas.—Rain has fallen on two days of the week, the rainfall being eighty-six hundredths of an inch. The

thermometer has averaged 69, ranging from 48 to 90.

Lampasas, Texas.—We have had rain on one day during the week, the rainfall being seven hundredths of an inch. The thermometer has ranged from 49 to 90, averaging 70.

Longview, Texas.—Rain has fallen on two days of the week. The rainfall reached fifty-four hundredths of an inch. Average thermometer 68, highest 86 and lowest 49.

Luling, Texas.—There has been heavy rain on two days of the week, the precipitation reaching two inches and seven hundredths. The thermometer has averaged 73, the highest being 89 and the lowest 57.

Palestine, Texas.—We have had no rain the past week. The

thermometer has averaged 67, ranging from 50 to 84. Paris, Texas.—Rain has fallen on one day of the week, the precipitation being one inch and two hundredths. The ther-

mometer has ranged from 49 to 83, averaging 66. San Antonio, Texas.—It has rained on two days during the week, the rainfall reaching sixty-two hundredths of an inch. Average thermometer 74, highest 90 and lowest 54.

Weatherford, Texas. - We have had rain on one day during the week, the precipitation reaching eight hundredths of an inch. The thermometer has averaged 70, the highest being 87 and the lowest 53.

Shreveport, Louisiana.-Rain has fallen on two days of the week, the precipitation being sixty-seven hundredths of The thermometer has ranged from 54 to 83, averan inch. aging 69.

New Orleans, Louisiana. - There has been rain on one day during the week, the precipitation being five hundredths of

an inch. The thermometer has averaged 71.

Columbus, Mississippi.—Rain has fallen on one day of the week, the rainfall being twenty-two hundredths of an inch.

Average thermometer 56, highest 75, lowest 37.

Vicksburg, Mississippi.—Nights cool but weather generally favorable. There has been rain on three days of the past week, the rainfall reaching seventy-five hundredths of an The thermometer has averaged 66, ranging from 54 to 79.

Little Rock, Arkansas.—Farmers are well up with their work. It has rained on three days of the week, the rainfall being twenty-eight hundredths of an inch. Average ther-

mometer 63, highest 78, lowest 48.

Helena, Arkansas.—Weather has been too cold for crops, but warmer this morning. The river is falling rapidly and planting has commenced on overflowed land. The crop that is up is not doing well. Rain has fallen lightly on three days of the week, the precipitation being thirty-eight hundredths of an inch. The thermometer has averaged 62.2, the highest being 77 and the lowest 48. being 77 and the lowest 48.

Memphis, Tennessee. - With the exception of cool nights the weacher has favored the cotton crop. Rain has fallen on three days of the week, the rainfall being twenty-five hundredths of an inch. The thermometer has averaged 61.7, ranging from 50.8 to 76.

Nashville, Tennessee.-There has beed rain during the week, the precipitation being fifty-seven hundredths of an inch. Thermometer has ranged from 41 to 74, averaging 58.

Selma, Alabama.—Cool nights continue to cause complaints of poor stands. We have had rain on two days the past week, the rainfall being seventy-five hundredths of an inch. Thermometer has averaged 62, ranging from 50 to 85.

Mobile, Alabama.—General and beneficial rains in the interior the early part of the week, but complaints of cool nights and slow development continue. We have had rain on three days of the week. The rainfall reached eighty-four hundredths of an inch. Average thermometer 69, highest 81 and lowest 55.

Montgomery, Alabama.—Condition better, but nights too col. We have had beneficial rain on three days of the week, the rainfall being thirty-six hundredths of an inch. The thermometer has averaged 67, the highest being 84 and the lowest 50.

Madison, Florida.—Cold nights continue. We have had rain on two days during the week, the rainfall being seventy-five hundredths of an inch. The thermometer has ranged from 50 to 78, averaging 64.

Savannah, Georgia.—Rain has fallen on one day of the week, the rainfall being one hundredth of an inch. Average thermometer 72, highest 86, lowest 60.

Augusta, Georgia.—Drought is becoming distressing in many localities. There has been rain on two days of the week, the precipitation reaching twenty-five hundredths of an inch. The thermometer has averaged 65, the highest being 82 and the lowest 50.

Charleston, South Carolina,—Rainfall for the week fortyeight hundredths of an inch, on four days. Average ther-

mometer 71, highest 82 and lowest 59

Stateburg, South Carolina. - Conditions are favorable, except that nights continue rather too cool. Rain has fallen on three days during the week, the precipitation being ninety-two hundredths of an inch. The thermometer has averaged 68, the highest being 83 and the lowest 51.

Greenwood, South Carolina.—It has rained on two days of The precipitation reached forty-two hundredths the week. of an inch. The thermometer has averaged 66, ranging from

54 to 79.

OUR COTTON ACREAGE REPORT.—Our cotton acreage report will probably be ready about the 3d of June. Parties desiring the circular in quantities, with their business card printed thereon, should send in their orders as soon as possible, to ensure early delivery.

NEW YORK COTTON EXCHANGE.—Nominations.—The nomnating committee of the New York Cotton Exchange have selected the following ticket to be voted for at the annual election, which will be held on Monday, June 6: For President, Henry Schaefer; Vice-President, George A. Chapman; Treasurer, George Brennecke; Board of Managers—E. A. Fachiri, Henry H. Wheeler, Edward M. Weld, James F. Maury, Richard A. Springs, J. Frank McFadden, Marcus J. Parrott, Albert L. Rountree, Hermann Hagedorn, George W. Baily, William Ray, J. E. G. Higgins, Chas. W. Lee, Arthur Lehman and L. L. Fleming. Trustee of the Gratuity Fund to serve three years, Charles Stillman.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts of cotton at Bombay and the shipments from all India ports for the week ending May 19 and for the season from Sept. 1 to May 19 for three years have been as follows.

GOVERNMENT WEEKLY COTTON REPORT.—Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the crops in the Southern States for the week ending May 16, summarizing them as follows:

Cool weather has been unfavorable for cotton throughout the cotton belt, and drought in portions of the eastern districts has proved detrimental. Complaints of poor stands continue from nearly all sections in the central and eastern districts, but good stands are the rule in Lonisians, Okiahoma and Texas. In the last-named State the fields are generally clean, and the plants are beginning to fruit in the coast districts. Chopping is well advanced and cultivation in the southern districts is general. Boll weevils have appeared and are increasing in a number of southwest and south-central cotton counties of Texas.

COTTON MOVEMENT OVER GULF & SHIP ISLAND RR, AND LOUISIANA & ARKANSAS RY.—During the ten months ended April 30, 1904, the Gulf & Ship Island Railroad Company handled 50,711 bales of cotton, as compared with 47,108 bales for 1902-03 and 52,589 bales for 1901-02.

In the ten months of the current fiscal year the Louisiana & Arkansas Railway Company handled 24,950 bales of ootton, as compared with 15,375 bales for 1902-03 and 16,279 bales for 1901-02.

New England Cotton Mill Situation.—Curtailment of Production.—Advices from Fall River to-day indicate a lack of uniformity in curtailment of production. Some ten mills are running in full, two are on a five-day schedule, six operate only four days, and expect to so continue for a time; six are closed half the week and two are closed entirely. Two others which have done little or no curtailing thus far expect to start short-time this week, one on a five-day and the other on a four-day schedule. It is further stated that the managers of seven corporations have said during the week that they hope to arrange their contracts so that they can close the whole of Memorial Day week, and it seems likely now that the shut-down for that week will be quite general.

SHIPPING NEWS.—As shown on a previous page, the exports of cotton from the United States the past week have reached 37,352 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

BREADSTUFFS.

FRIDAY, May 20, 1904.

Reflecting an advance in prices for the grain, there has been a better tone to the market for wheat flonr. There has been more activity to the demand, although as a general rule the orders received have been for small lines, few of the trade showing a disposition to purchase supplies much in advance of immediate wants. Rumors have been current of fairly large export sales of flour. Rye flour has been in more active demand and steady. Corn meal has been quiet but

steady at unchanged prices.

Speculation in wheat for future delivery has been moderately active and prices have advanced sharply, especially for the near-by deliveries. Belated shorts in May contracts, who have held off until the last moment to cover their sales have been badly squeezed, prices being forced up rapidly in both the local and Western markets. Limited receipts, decreasing stocks, small supplies of contract grades and improving demand from millers have been factors that have given the market a stronger undertone for old-crop deliveries and the advancing tendency to prices for this crop has had a strengthening influence upon new-crop deliveries. Buying for European account of September and December deliveries on a fairly liberal scale also has been an important bull factor of the week. Weather conditions in the interior the past week have been generally of a favorable character. One authority reports that the wheat crop is progressing favorably. The spot market has been firm and higher and a limited amount of business has been transacted with exporters, shipments to be made via outports. To-day the

market opened higher on stronger foreign advices, but reacted during the day under profit-taking sales. The spot market was moderately active; sales were made to exporters of 200,000 bushels for shipment via outports.

Indian corn futures have been moderately active and prices for the near-by deliveries have advanced. As in the wheat market, May shorts have been rutting off covering their sales and are now being forced to cover at advancing prices. Weather conditions in the corn belt have continued to be reported somewhat cool for the growth and planting of corn, but it is reported that there is still ample time to plant a full acreage. Shipments from the interior markets to the seaboard the past week have been large, and this has had a tendency to strengthen the interior cash markets. The local spot market has been firm but quiet. To-day the market was easier under reports of more favorable weather. The spot market was quiet.

Oats for future delivery at the Western market have received a moderate amount of speculative attention. Prices for May delivery have made a fair advance on buying by shorts to cover contracts, and other deliveries have made a fractional advance in sympathy. Weather conditions for the crop have been favorable and it is reported in good average condition. Locally the spot market has been steady. To day the market weakened under profit-taking sales.

GOVERNMENT WEEKLY GRAIN, ETC., REPORT—Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the grain crops in the various States for the week ending Manual Communication that we were the week ending Manual Communication to the week ending the week ending Manual Communication to the week ending the for the week ending May 16, summarizing them as follows:

CORN.—While corn planting has been delayed in portions of Nebraska, Iowa and Missouri, this work, as a whole, has made favorable progress in the States of the Missouri and upper Mississippi valleys, and has proceeded uninterruptedly in the Ohio Valley. Pianting is in progress in the Dakotas, Minnesota, Michigan and New England, but has not begin in Wisconsin and New York. In Taxas, the oron is in progress in the Dakotas, Minnesota, Michigan and New England, but has not begun in Wisconsin and New York. In Texas the crop is in time condition and well cultivated, and is tasseling in the southern part of that State. In the South Atlantic and Central and East Gulf States corn is generally backward and making slowgrowth, the stands being unsatisfactory.

WINTER WHEAT.—In Nebrasks. Kansas and Missouri the advancement of winter wheat has been favorable, and an improvement is generally reported eisewhere east of the Rocky Mountaine; but the condition of the crop in the States of the Ohio Valley continues very poor. Wheat is now heading as far north as the southern portions of Kansas

Wheat is now heading as far north as the southern portions of Kansas and Missouri, and harvest has begin in Southern Texas. On the North Pacific coast the bulk of the crop is in promising condition, and while a fair crop is indicated in California the outlook in that State is not as

a fair crop is indicated in California the outlook in that State is not as good as earlier in the season.

SPRING WHEAT.—Heavy rains prevented the completion of spring-wheat seeding in portions of North Dakota and Northern Minnesota, but teeding is practically completed elsewhere. The early-sown is coming up and growing nicely in the Dakotas and Southern Minnesota, but variable conditions are reported from Iowa. In Washington the error has suffered from sold, but the outlook in Oregon is more the crop has suffered from cold, but the outlook in Oregon is more

favorable.

OATS.—With the exception of variable conditions in Iowa and unpromising in Missouri, the general outlook for oats in the principal oat-producing States is promising. In the South Atlantic and East Gulf States the crop is generally poor. Harvesting has begin in the Southern States, while seeding is unfinished in the northern portion of the Middle Atlantic States and the Red River of the North Valley.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., May 20, 1904, Conditions in the market for cotton goods have shown no change of any moment so far as the home trade is concerned, but an export demand for China taking several thousand bales of brown cottons has attracted attention. A considerable part of these goods has been bought, it is believed, for markets in China where American cottons have hitherto had little representation. The business has also attracted attention by reason of the prices at which it has been done, these being lower by about 10 per cent than the top level reached in the market some time ago. The general trade demand has again been quite indifferent at first hands, with buyers still showing an indisposition to place orders for forward deliveries, although there is a considerable number of inquiries made from day to day. Sellers are making no special efforts to attract buyers, and reports show continued spread of the curtailment of production, both North and South. In the woolen goods division of the market business shows an increase this week, re-orders for men's wear fabrics being more numerous. The new season in carpets opened Monday with unexpected declines in prices in most lines, and no advances. Jobbers here are pushing seasonable goods for sale, at special prices in many instances, in anticipation of the Sweetser-Pembrook auction sale to be held next week. Complaints are heard of slow collections.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending May 16 were 6,287 packages, valued at \$328,984, their destination being to the points specified in the tables below:

NEW YORK TO MAY 16.		1904.	1903.		
NEW TORK TO MAY 16.	Week.	Since Jan. 1.	Week.	Since Jan. 1.	
Great Britain	19	333	6	990	
Other European		449	19	606	
China	2,172	25,340	3,488	99,845	
India	8	3.612	355	5.949	
Arabia	1,301	10.456	3,033	17.903	
Africa	547	3.727	620	4.441	
West Indies	596	7,800	527	12,456	
Mexico.	38	869	80	1.117	
Central America	328	5.684	563	4.626	
South America	1,189	21.830	903	25,096	
Other Countries.	39	6.845	305	4,293	
Other Countries	33	0,040	303	4,200	
Total	6,237	86,945	9,899	177,322	

The value of these New York exports since Jan. 1 has been

\$4,774,986 in 1904, sgainst \$7,383,884 in 1903.
The market for brown sheetings and drills has again been slow, outside of the business done for export, which is reported at from 6,000 to 8,000 bales this week, with inquiries still being put forward. As noted above, sellers met the demand on a low price level, but at the close some of them are declining to continue operations thereat, having cleaned up whatever stocks they had on hand and sold somewhat ahead. The home demand for both sheetings and drills continues slow in an irregular market. There has been no increase in the business doing in coarse, colored cottons, such as ticks, plaids, denims, etc., and the market shows considerable irregularity in prices. Bleached cottons are also irregular, but there have been no open changes in quotations. The demand is of limited dimensions in all grades. The market for wide sheetings is featureless and quiet for cotton flannels and blankets, without change in prices. Kid-finished cambrics and other cotton linings are dull and tending in favor of buyers. There has been a slight increase in the call for staple prints, but new business in them is still of limited extent. Prices are unchanged. For fancy prints there is little request, and in fine printed and woven patterned wash fabrics new season business is quite moderate. A quiet demand comes to hand for ginghams at previous prices. Print cloths are inactive; regulars are quoted unchanged at 3½c., with 3¾c. bid for small quantities. Odd goods are generally on the basis of 3¾c. for regulars.

WOOLEN GOODS.—There has been a better tone in the market for men's wear woolen and worsted fabrics this week consequent upon an increase in the volume of business doing. The demand has shown buyers placing orders for supplementary requirements somewhat earlier than sellers, from the recent character of the market, had been looking for. Upon this they are basing expectations of a considerable volume of business in the near future. The orders are not, as a rule, for individual quantities of any moment, but are for quick delivery, and likely to be followed by "repeats." Staple lines have been most called for, but medium grades of fancy woolens and worsteds have also received increased attention. In some quarters slight advances have been demanded on reorders. An occasional line of kerseys has also been advanced about 5 per cent in the overcoatings division, but the general demand continues quiet. Business in cloakings is dull and without special feature. For woolen and worsted dress fabrics moderate orders are reported in fall lines for both staples and fancies, but little doing in spring fabrics. A limited business is reported in fiannels and blankets. Buyers have operated conservatively in carpets since the opening of the new season this week.

Foreign Dry Goods.—The foreign division of the market has been quiet throughout. Dress goods are in quite moderate demand, with some irregularity in prices. Silks and ribbons are steady, with fanoy eilks again in better request than staples. Linens sell indifferently but are firm, Burlaps are dull at unchanged prices.

STATE AND CITY DEPARTMENT.

News Items.

Cuba.-Loan.-It is understood that Speyer & Co. of New York City will shortly offer at public sale in this country and in Europe the unsold portion of the \$35,000,000 5% Cuban loan contracted for by them last February. A considerable amount of this loan has already been placed by private subscription. For details and other interesting facts, see page 1941 elsewhere. See V. 78, p. 781.

Bond Proposals and Negotiations this week have been as follows:

Alliance School District (P. O. Northampton), Pa.— Bond Sale.—On May 14 this district sold \$22,000 41/2% 5-30year (optional) school-building bonds to local bidders, prices

,	Feder, Holzman & Co., Chleage		25,437 50
	Fuller, Parsons & Snyder, Cleveland		25,375 00

For description of bonds see CHRONICLE, April 23, p. 1511. Columbus, Ohio. - Temporary Loan. - This city has negotiated a loan in the amount of \$77,500 with the Onio National Bank, Columbus. Of this amount \$70,000 is for street cleaning and sprinkling and \$7,500 for smallpox emergencies.

Colombus Grove, Ohio.—Bonds Refused.—It is stated that the \$12,300 5% Sycamore Street improvement bonds awarded on April 12 to the Western German Bank of Cincinnati, have been refused by that institution.

Detroit, Mich.—Bond Sale.—On May 16 the \$200,000 31/2% water bonds described in V. 78, p. 1511, were awarded to

Denison, Prior & Co., Cleveland and Boston, at 100.87 and accrued interest. Following are the bids:

Denison, Prior & Co., Cleve-land and Boaton \$201,740 00 Biodget, Merritt & Co., Bost. 201,340 00 E. H. Rollins & Sons and Farson, Leach & Co....... 201,307 42

Eagle Bend Independent School District No. 73, Todd County, Minn.—Bond Offering.—Proposals will be received until 7:30 P. M., May 25, by the Board of Education—E. V. Moore, Secretary—for \$8,000 5% 10-15-year (optional) school bonds. Certified check for 5% of amount of bid required.

Findlay, Ohio. -Bond Sale. - On May 2 the five issues of 5% bonds, aggregating \$21,500, described in V. 78, p. 1511, were awarded to the Security Trust & Savings Co. of Toledo at

102.46. Bonds are coupon in form.

Galesburg (III.) School District.—Bond Sale.—We are advised that this district on April 27, by a vote of 1198 to 160, authorized the issuance of \$100,000 4½% high-school bonds. Maturity, \$10,000 yearly on September 1 from 1907 to 1916, inclusive. These bonds have already been sold.

Garfield, N. J.—Bond Sale.—On May 18 the \$15,000 5% 20-year improvement bonds described in V. 78, p. 1798, were awarded to O'Connor & Kahler, New York City, at 104'11 and interest. A bid of 102'50 was also received from Lawrence Barnum & Co. of New York City.

Gloucester, Mass.—Bond Sale.—On May 12 the \$90,000 4% water bonds described in V. 78, p. 1798, were awarded to Jackson & Curtis, Boston, at 105.451. Following are the bids:

Grand Rapids, Mich.—Bond Offering.—Proposals will be received until 4 P. M., May 29 (this day falls on Sunday, but it is the date given in the published ordinance), by the City Clerk, for \$200,000 4% street-improvement bonds. Denomination, \$1,000. Date, May 2, 1904. Interest, sami-annual. Maturity, \$40,000 yearly on May 2 from 1905 to 1909, inclusive.

Grand Rap'ds (Mich.) School District .- Bond Election .-The Board of Education has decided to again submit the question of issuing \$200,000 bonds to a vote of the people. This proposition failed to carry at the election held last month.

Grayson County, Tex.—Bonds Registered.—The State Comptroller on May 6 registered an issue of \$1,999 3% 5-20-

year (optional) bridge-repair bonds of this county.

Greenville (Ohlo) School District.—Bonds Not Sold.—
The \$34,500 41/4 school bonds, the sale of which was advertised to take place on May 3, were not sold, as the new school law requires an election before the bonds can be issued.

Hamilton (Mo.) School District.—Bond Sale.—On May 2 the \$25,000 4% school building bonds described in V. 78, p. 1567, were awarded to N. W. Harris & Co., Chicago, at par.

Hartford City (Ind.) School District.—Bonds Refused.— The Royal Trust Co. of Chicago, it is stated, has refused to take the \$40,000 5% school bonds awarded to them on April 1.

Helena, Ark.—Bond Sale.—On May 16 the \$155,000 20-year

funding bonds described in V. 78, p. 837, were awarded to N. W. Harrls & Co., Chicago, as 5 per cents.

Herkimer (N. Y.) Union Free School District No. 1—

Bond Offering.— On May 28, at 10 A. W., C. M. Batchelder,
Clerk Board of Education, will offer at public sale \$20,000 5%
refunding school non-taxable coupon gold bonds. Authority,
Title 7. Articles 2 and 18. Consolidated School Law. Date Title 7, Articles 2 and 18, Consolidated School Law. Date. July 1, 1904. Denomination, \$1,000. Interest semi-annually in Herkimer. Maturity, \$1,000 yearly on July 1 from 1905 to 1924, inclusive. Bonded debt of the district, exclusive of this issue, \$16,000. Assessed valuation, \$3,084,000.

Hudson County, N. J.—Bond Sale.—On May 19 the \$500,-000 4% county park bonds described in V. 78, p. 1799, were awarded to E. H. Rollins & Sons, Boston, at 106.335 and accounted interest.

crued interest. Following are the bids:

Johnson School District No. 47, Whitman County, Wash. —Bond Offering.—Proposals will be received until 2 P. M.,

NEW LOANS.

SALE OF MUNICIPAL BONDS

FOR THE LINE OF THE

Cincinnati Southern Railway.

SEALED PROPOSALS will be received at the office of the Board of Trustees of the Cincinnati Southern Railway until 12 o'clock noon of MONDAY, THE 20th DAY OF JUNE, 1904, for the purchase of 500 coupon bonds, each of the face value of \$1,000, bearing 3½ per cent interest, issued by the Board of Trustees of the Cincinnati Southern Railway.

These bonds are issued in accordance with and under the provisions of an Act of the General Assembly

These bonds are issued in accordance with and under the provisions of an Act of the General Assembly of the State of Ohio, passed April 23, 1898, (93 O. L., 637) entitled 'An Act supplementary to an Act relating to cities of the first class having a population exceeding one hundred and fifty thousand unhabitants, passed May 4, 1869." (66 O. L., 80) and the resolution of the Board of Trustees of the Cincinnati Southern Railway passed the 16th day of May, 1904.

The said bonds being one of a series of \$500,000 each, issued, or to be issued, each year, for a period of five (5) years, under the corporate seal of said city, for money borrowed there in the aggregate not to exceed \$2,500,000, authorized by the above Act to be borrowed by said Board of Trustees as a fund for terminal facilities and permanent betterments for the line of railway of the Cincinnati Southern Railway and of railway of what the said City of Cincinnati and extending from said city to the City of Chat. -a line of railway owned by the said City of Cincinnati and extending from said city to the City of Chat tanoogs, in the State of Tennessee—and each bond is equally secured by a pledge of the fath of the said City of Cincinnati, and a tax in addition to all other taxes for municipal purposes which shall be annually levied by the Council or Board of Legislation of said city on the real and personal property returned on the grand levy sufficient to pay the interest and provide a sinking fund for their final redemption.

levied by the Council or Board of Legislation of said city on the real and personal property returned on the grand levy sufficient to pay the interest and provide a sinking fund for their final redemption.

The Trustees have heretofore issued a manuscript bond to the amount of \$500,000, of dare July 1, 1902, payable July 1, 1965, and redeemable July 1, 1942, under authority conferred by said Act of April 23, 1898, which bond, on being offered to the Trustees of the Sinking Fund of Cincinnati, Ohio, under the laws of said State, was taken and is now held by said Trustees of the Sinking Fund.

The Trustees have also issued dive hundred (500) bonds in the amount of one thousand (\$1,000) dollars each, of date July 1st, 1903, payable July 1st, 1965, and redeemable July 1st, 1943, under authority conferred by said Act of April 23, 1898, and which bonds on being advertised for sale under the statute in such cases ma ic and provided were sold as an entirety.

The said bonds are to be issued under date of July 1, 1904, and are payable on the first day of July, 1965, at the American Exchange National Bank in New York City, with interest thereon at the rate of 3% per cent per annum, payable semi-annually on the first days of January and July in each year, upon the presentation and surrender, as they severally mature, of the interest coupons attached thereto; payable both as to principal and interest in lawful money of the United States. Said bot das are redeemable at the cyliou of the City of Cincinnati on the first day of July, A. D. 1944, or at any time thereafter, upon payment of the principal and accrued interest; all of said bonds are to be signed by the President of the Board of Trustees of the Cincinnati Southern Railway and attested by the Anditor of the City of Cincinnati and registered in his office and also to be recorded in the office of the Tustees of the Railway in the provisions of his bid or to take the ponds at the amount bid.

No bid for less than par and accrued interest to the day of Jule 1944, at 12 o

Chicago Bonds For Sale

Proposals for Sale of Bonds.

Department of Finance, City of Chicago. Office of the Comptroller, Chicago, May 17, 1904.

Sealed bids will be received at the office of the City Comptroller until 2 o'clock FRIDAY, MAY 27, 1904. for \$5,500,000 of municipal bonds issued for the purpose of supplying means to retire and satisfy an equal amount of judgments outstanding. Bonds will be in denominations of \$1,000 each and dated Jan. 1, 1904, and will mature 20 years thereafter. Bids will be received on either one of the following alternative plans: (a) a straight 20-year issue, (b) a serial issue, the first series maturing January 1, 1907; series equal in amount maturing annually thereafter until Jan. 1, 1924. Each bid shall state upon which of the above plans it is based, and the rate of interest payable semi-annually, which will be accepted at the price offered (not less than par), and whether or not the bid includes the accrued interest; both principal and interest being payable in gold of the present standard of weight and fineness at the fiscal agency of the city of Chicago in New York and at the office of the City Treasurer in the city of Chicago. Other things being equal, that bidder shall be deemed the highest and best bidder who shall offer to pay the highest price (not less than par) for said bouds at the lowest rate of interest. Bids will be received for the whole or any part of said issue and each bid shall be accompanied by a certified check on a Chicago bank payable to the city of Chicago or order, for the sum of \$100,000. Bonds will be delivered to the successful bidder or bidders 30 days after acceptance of their proposition by the City Council at its next meeting after May 27. These bonds may be registered, if desired, in the office of the City Comptroller. All Information pertaining to these bonds, including copies of the proposed ordinances, may be had on application to the City Comptroller.

L. E. MCGANN, Comptroller

NEW LOANS.

\$60,000

PLAINFIELD, N. J., SCHOOL BONDS.

Notice is hereby given that on MONDAY, THE SIXTH DAY OF JUNE, 1904, at the Council Chamber, No. 149 North Avenue, in the City of Plainfield, N. J., at 8 o'cleck P. M., the Common Council of said City will receive and open sealed proposals for the purchase of sixty school bonds of \$1,000 each, being part of an authorized issue of not exceeding \$125,000 of school bonds, pursuant to the ordinance of said City entitled "An Ordinance to appropriate and borrow money, and to secure the repayment thereof by the issue of school bonds, for the purchase of lands and erecting a school house in the City of Plainfield," approved April 6, 1904. The bonds, proposals for which are now invited, are in denominations of \$1,000 each, will bear date June 1st, 1904, and be payable in gold coin of the United States of the present standard of weight and fineness, and bear interest at the rate of four per centum per annum, payayble semiannually according to the terms of interest coupons annexed to the bonds, and the bonds shall, respectively, mature as follows: on December 1, 1912, three

ively, mature as follows: on December 1, 1912, three bonds; on June 1 in each of the years 1913 to 1922, both inclusive, five bonds; on June 1, 1923, six bonds, and on June 1, 1924, one bond. The form of bond and coupons is on file in the office of the City Clerk and there open to inspection by bidders.

All bids shall provide that the bidder will, in addition to the amount specified in his bid, pay accrued interest on the bonds from the day of their date to the time of their delivery. The time of delivery of the bonds and payment of the purchase money is June 15, 1904, at two o'clock P. M., at the Barking koom of the City National Bank, Plainfield, N. J., provided that the City shall nave the option to extend the time for not more than twenty days thereafter if the bonds are not ready for delivery on June 15th.

Every bidder, as a condition precedent to the re-

June 15th.

Every bidder, as a condition precedent to the reception of consideration of his proposal, shall deposit with the City Treasurer, in money or by certified check drawn to the order of the City Treasurer of the City of Plainfield. N. J., One Thousand Dollars. No proposal shall be received or considered which is not accompanied by such deposit. All such deposits except the deposit made by the party or parties whose bids shall be accepted shall be promptly returned by the City Treasurer to the persons making the same.

Each proposal, together with the security deposit, shall be enclosed in a sealed envelope, endorsed "Proposal for School Bonds," and addressed "The Common Council of the City of Plainfield, N.J.," and delivered to the City Clerk on or before June 6, 1904, at 8 o'clock, P. M.

Upon receipt of the bids or proposals, the Council will immediately proceed to unseal the same, and publicly announce the centents in the presence of the parties bidding, or their agents, provided said parties or agents choose to be then and there present, and also to make proper record of the prices and terms upon the minutes of the Council.

The right to reject any or all bids is expressly reserved.

By order of the Common Council of the City of Plainfield.

WM F. ARNOLD,

Dated, May 2, 1901.

WM F. ARNOLD, City Treasurer.

NEW LOANS.

\$124,000

PEEKSKILL, N. Y., WATER BONDS.

Notice is hereby given that, pursuant to the authority of Chapter 19 of the Laws of 1904, passed on the 1st day of March, 1904, the Board of Water Commissioners of the Village of Peckskill has resolved to issue bonds for the purpose of refunding the bonds heretofore issued by the Board of Water Commissioners of the Village of Peckskill and faling due on July 1st, 1904.

Notice is further given that there will be issued one bundred and twenty-four (124) bonds each of the denomination of \$1,000. That they will bear date July 1st, 1904, and that the interest thereon will be made payable on the first days of July and January of each year; that said bonds will run for the term of thirty years and be payable on the 1st day of July, 1934, at the Union Trust Company in the City of New York.

The party to whom the bonds shall be awarded will be required to take the bonds and to pay the money for the same at the Union Trust Company in the City of New York at twelve o'clock noon on the 1sT DAY OF JULY, 1904, and in default of such payment will be held for any damages that may accrue to the Village of Peckskill by reason thereof.

The bids for the said bonds pursuant to Section (1) of said Act will be for the lowest rate of interest at which the said money will be furoished and no other bids can legally, or will, be received by the Board of Water Commissioners.

Sealed bids must be filed with the Superintendent of the Water Board of the Village of Peckskill at the Municipal Building in the Village of Peckskill on or before 12 o'clock noon on the 20th day of May, 1904.

Notice is further given that the Board of Water Commissioners of the Village of Peckskill will meet at the Municipal Building. Peckskill, N. Y., on the 26th day of May, 1904, at 5:30 o'clock in the evening, and will then and there proceed publicly to open said bids and award the furnishing of the said money for the said bonds to the person or corporation offering to take the same at the lowest rate of interest, and furnish the money as hereinbefore set forth

interest, and furnish the money as hereinbefore set forth.

Bidders will be required to state whether their bid is for the whole amount or for a portion of the issue, and if for a portion, what amount will be taken at the rate of interest bid, and, further, if the bid shall be for the whole amount of the issue, whether the bidder will accept a portion of the bonds only at the same rate of interest.

The Board of Water Commissioners reserves the right to reject any and all bids.

Dated Peekskiil, May 5, 1904.
