WILLIAM B. DANA COMPANY, PUBLISHERS,

P NE ST.. CORNER OF PEARL St. NEW YORK.

REVIEW OF MAY.

Conditions in May were much the same as in the month preceding. Trade was inactive, the season backward, the volume of dealings on the Stock Exchange small, exports of gold on an enormous scale (in part as a result of the transmission of money to pay for the Panama Canal and in part independent of that cause), while at the same time some further large new loan negotiations were noted, indicating considerable confidence in the situation and the existence of a plethora of investment capital.

The gold shipments continued throughout the month and were of really extraordinary proportions. In one week the amount sent out was, roughly, \$14,000,000 and in another week over \$15,000,000. The total for the month was in excess of \$41,000,000, and would have been still heavier, except that the stock of gold bars at the New York Assay Office became completely exhausted, and thereafter shipments were limited by the capacity of the Assay Office in converting bullion into bars.

The Japanese loan for £10,000,000 was brought out May 12, one-half of the loan being offered in London and the remainder in this city. The loan was at 6 per cent and was over-subscribed many times both in London and in this city. It was offered at 93½ per cent and accrued interest. In France the terms for a £32,000,000 Russian Government 5 per cent loan were announced. It is understood the syndicate gave 95½ for the bonds, taking £16,000,000 firm, with an option for the other £16,000,000. The French banks composing the syndicate received, it is stated, subscriptions privately from their ordinary clients for nearly the whole amount at the price of 99. Only a very small portion of this Russian loan was placed on this side. Another foreign loan which was offered in this market as well as abroad (in London, Frankfurt and Amsterdam) was the unsold remainder of the \$35,000,000 Republic of Cuba 5 per cent gold bonds of 1904. The price was 97, and these bonds also were largely over-subscribed both here and abroad.

The Panama Canal payments were conducted by the U. S. Government through J. P. Morgan & Co. On Monday, the 9th, the Government delivered its warrant for \$40,000,000 to that firm. The warrant was presented and paid the same day—\$25,000,000 by Sub-Treasury orders aggregating that amount, which orders were deposited by J. P. Morgan & Co. to their credit in the specially designated depositary banks; \$13,000,000 was paid in cash directly from the Treasury, and the remaining \$2,000,000 presumably came out of the

other depositary banks. In this way the operation was carried through without effecting any disturbance in monetary conditions. On Thursday, May 19, another money warrant for \$9,000,000, drawn to the order of the fiscal agents of the Panama Republic, was delivered to J. P. Morgan & Co. By May 10 the depositary banks had to turn over about \$12,000,000 of public funds under a call made by the Secretary of the Treasury April 30. By May 25 they were required to surrender \$10,000,000 more of public deposits under a call issued May 11.

As in the month preceding, many new railroad and industrial loans were negotiated during May. A syndicate headed by J. P. Morgan & Co. took \$30,000,000 4 per cent 30 year gold debenture bonds of the New York Central, which it is expected to offer to the public shortly. The Union Trust Co. of Pittsburgh and the Mellon National Bank of the same city offered \$7,000,000 of 5 per cent bonds of the Pittsburgh Coal Co. The Northern Central Railway Co. (one of the controlled properties of the Pennsylvania Railroad) offered \$5,700,000 of new stock to shareholders at \$62 50 per \$50 share. The Consolidated Gas Co. of New York offered \$20,000,000 6 per cent coupon debentures at par to shareholders of record June 8th. The Virginia-Carolina Chemical Co. offered \$6,000,000 of new preferred stock at par to its stockholders.

Another important new loan negotiation during the month was the placing of \$37,000,000 3½ per cent bonds by New York City.

The season, as already stated, continued backward. The Agricultural Department at Washington, in its report issued on the 10th, showed the condition of winter wheat May 1 as being only 76 5, as against 92 6 on May 1 last year and at the same time reported that about 5,000,000 acres (4,932,700 acres) planted to wheat last fall had been abandoned and ploughed up. Weather conditions during May, however, improved, and it is believed that at the end of the month the situation was better than at the beginning, whereas last year there was a steady decline after May 1.

A very disturbing feature in the general situation was the strike of the masters and pilots on vessels plying on the great lakes. This almost completely tied up water transportation on these inland seas at a season of the year when shipments between the various Lake ports are usually of very large dimensions.

There was a further sharp decline in the price of cotton. For spot delivery the quotation in New York was 12.75 cents May 31 against 13.65 cents May 2, and as against 13.90 cents on the 6th, which was the high point of the month. The July option closed May 31 at 12.49 cents, against 13.66 cents May 2. A development in the cotton market at this center was the suspension on May 31 of S. Munn, Son & Co., owing to the disappearance of the firm's cashier, leaving the firm's books in a tangled condition. The Louisiana Purchase Exposition was opened with appropriate ceremonies on May 1.

In the money market the chief feature was the continued ease and low rates, notwithstanding the large gold exports and the operations of the United States Treasury in connection with the \$49,000,000 payments for the Panama Canal. We have already shown that these payments on the part of the Government were conducted in such a way as to cause no friction in the money market. The transfer to this centre of Government deposits held by the banks in the interior and a heavy return flow of currency from the same sections (the latter presumably due in great part to the activity of trade and business) served in large degree to make good the loss in money holdings caused by the shipments of gold abroad. Surplus reserves fell from \$33,144,250 April 30 to \$12,827,250 May 14, then increased to \$13,004,275 May 21st and to \$29,-

692 325 May 28th. Early in the month call money on the Stock Exchange got down to the lowest point reached in ten years, namely one-half of 1 per cent. The subsequent decline in reserves brought some improvement both in money at call and on time, but call loans on no day were quoted higher than 2½ per cent.

The foreign exchange market was strong throughout the month, except for a brief period from the 18th to the 20th. Gold shipments reached, as already stated, over 41½ million dollars; but there was little evidence of any offering of bills against the same, the gold having gone out chiefly in lieu of exchange. About the middle of the month the negotiation of finance bills drawn in expectation of a profit to result from covering the sales later in the year was noted. The exchange market then sharply declined, but next week, with time loans lower again in this market, the negotiation of further finance bills was checked and sterling sharply recovered, advancing to the highest figures of the month on the closing day.

The stock market was exceedingly dull, the dealings for the month aggregating only 5,290,110 shares, against 12,467,588 shares in May 1903, 13,532,303 shares in May 1902 and 35,292,303 shares in May 1901, the latter the period of the corner in Northern Pacific stock. The tendency of values was towards a lower level, though there were no serious breaks except in special cases—such for instance as in Detroit Southern, common and preferred, on the announcement of the company's inability to meet the interest due June 1 on its bonds.

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1903. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "Prices about January 2, 1904," were made on that date, except those in italics, which are the nearest in January, 1903. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

For foot notes to tables see last page of Bonds and last page of Stocks.

GENERAL QUOTATIONS

—OF— BONDS AND STOCKS.

1. In the following twenty-eight pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.
2. Quotations from all Stock Exchanges are as near as possible for the *last day of way*. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.
3. Bond prices marked (§) indicate that the purchaser must pay accrued interest *in addition to the price given*. The method of quoting on the New York Stock Exchange is to quote the price flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.
4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.
5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.
6. The following abbreviations are often used, viz: "M." for mortgage, "g." for gold, "g'd" for guaranteed, "end." for endorsed, "cons." for consolidated, "conv." for convertible, "s.f." for sinking fund, "l.g." for land grant, "op." for optional.
7. The black-faced type in the letters showing the interest period indicates the *month* when the bonds mature.

STATE AND MUNICIPAL BONDS.

It is the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (*).

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

BANKS AND TRUST COMPANIES.

Quotations for the stocks of banks and trust companies are given per share, not per cent, with the exception of New York City, Brooklyn and Canadian bank stocks.

Prices marked thus (*) indicate sales. The dagger (†) prefixed to a price indicates that the figures show the book value.

Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.
