REVIEW OF JUNE.

While there were some unfavorable happenings during June, the leading developments—those of most importance in their bearing upon the future—were on the whole encouraging. The crop situation, which previously had not looked very promising on account of the backwardness of the season, took a decided turn for the better. Then the strike of the masters and pilots on vessels plying on the Great Lakes, which had brought the business of freight transportation on these inland bodies of water almost to a complete standstill, suddenly collapsed about the middle of the month. On the night of the 14th the Masters' & Pilots' Association advised the men to return to work, admitting defeat. Then also shipments of gold to Europe were arrested. The holding of the Republican National Convention was one of the events of the month, but this attracted very little attention, as the nomination of President Roosevelt was a foregone conclusion. Senator Charles W. Fairbanks of Indiana was chosen for second place on the ticket.

In part as a result of the strike on the vessels navigating the Great Lakes, and in part as a result of the severe winter weather experienced, there came a number of dividend reductions on some of the smaller roads. Of course these reflected past conditions—not prevailing or future conditions. The Lake Erie & Western Railroad made the semi-annual declaration on its preferred stock only 1 per cent, as against the previous payments of 2 per cent. The Indiana Illinois & Iowa decided to omit the semi-annual dividend of 2 per cent due in August on its stock. The Minneapolis & St. Louis RR. suspended dividends on its common shares, the cause in this instance being last season's short crops in the local territory tributary to the road and the discontinuance of the traffic agreement previously existing with the Rock Island Company. The Wabash Railroad omitted the semi-annual dividend of 3 per cent due in July on its Class A debenture bonds, owing to the extensive improvements made on the system, the cost of which was defrayed in large part from earnings. On the other hand the Lehigh Valley RR. announced the first dividend on its stock since July 1893. The Chic. & East. Illinois RR. increased the semi-annual dividend on its common stock from 3 per cent to 5 per cent, putting the stock on a 10-per-cent basis. The new rate places the stock and the trust certificates issued by the St. Louis & San Francisco in exchange for the same on a common dividend basis. Substantially all the Eastern Illinois common is owned by the 'Frisco Company. It should also be

noted that the Interborough Rapid Transit Company declared its first dividend (2 per cent) payable July 1.

Further new loan negotiations were among the incidents of the month, attesting a continued active demand on the part of investors and capitalists for bonds of the better class. \$10,000,000 New York Central 4 per cent debentures were offered at 97½ by J. P. Morgan & Co., and the loan was largely over-subscribed. Clark, Dodge & Co. of New York and Lee, Higginson & Co. of Boston disposed of the unsold portion of \$9,500,000 Illinois Division 3½ per cent bonds of the Chicago Burlington & Quincy RR. at 92½ and interest. A syndicate headed by the First National Bank of this city and including J. P. Morgan & Co., Kidder, Peabody & Co. and Blair & Co. took a block of \$7,500,000 4½ per cent notes of the Chicago Rock Island & Pacific Railway Co. and sold them to investors at a price slightly less than par.

In railroad circles, the announcement of the plan for financing the capital needs of the Southern Pacific Co. was perhaps the most important occurrence of the month. The plan provides for the creation of a \$100,000,000 issue of 7 per cent preferred stock, only \$40,000,000 of which, however, is to be issued at the present time; the right to take the stock at par is given to existing shareholders. The arrangement was not favorably regarded at first, a decline in Southern Pacific stock taking place, but subsequently views were considerably modified. The rights have been selling in the market at above 3.

With a large increase in the South in the acreage devoted to cotton and with the prospects for the new crop on the whole favorable, the price of cotton continued sharply to decline. In this market the spot quotation for middling uplands was marked down June 1 from 12.75 cents to 12.40 cents, and though there were considerable fluctuations the remainder of the month, the price on the 11th being up to 12.85 cents again, the tendency throughout was decidedly downward, the close June 30 being at 10.85 cents, the lowest figure of the month. There was a further curtailment of production by the cotton mills and prices for many classes of cotton goods were heavily reduced. At a meeting, however, of mill officials at Fall River on June 3d, it was decided to abandon, for the time being at least, efforts to bring about a 10-per-cent reduction in the wages of mill operatives.

In the iron and steel trades production was also greatly reduced, owing to a lack of a sufficient demand to absorb current supplies. The Colorado coal miners' strike again came prominently to view owing to dynamite outrages in the Cripple Creek District, through which a number of lives were lost. The military then took vigorous steps to suppress further insurrection, and many of the offending strikers were deported from the district.

The foreign exchange market was more or less irregular, but the trend of prices on the whole was downward, and the close was at the lowest figures of the month. On Thursday, June 2nd, \$631,685 gold was exported to Paris, and some further engagements were then announced for shipment the following week. These latter, however, were subsequently canceled in consequence of the advance in the rate of exchange at Paris on London, and no further gold exports occurred the rest of the month. The rise in French exchange was ascribed to the monetary congestion at Paris (the

gold holdings of the Bank of France attaining a new high point) and to the fact that this led to the transfer of large amounts of capital to London for employment.

Extreme ease prevailed in the money market, call loans at the Stock Exchange ruling at 1@1½ per cent the entire month, with some small amounts reported loaned at one time as low as ½ of 1 per cent. Time loans were difficult to place even at 1½@2 per cent for sixty to ninety days. The money holdings of the Clearing House banks rose from \$304,430,700 May 28 to \$324,281,200 June 25. Surplus reserves moved up from \$29,692,325 May 28 to \$38,869,875 June 18 and \$38,452,675 June 25

Speculation on the Stock Exchange was extremely dull, but the improvement in crop prospects, the settlement of the strike on the Great Lakes, and the cessation of gold exports, all combined to keep the tone firm. The passing of the dividend on Wabash debenture Class A bonds caused a sharp break in the Class B bonds and a few special stocks were likewise weak at times. On the other hand there were also some sharp advances in certain directions. New York Ontario & Western stock was strong on a movement to terminate the voting trust in the shares.

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1903. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "Prices about January 2, 1904," were made on that date, except those in italics, which are the nearest in January, 1903. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

For foot notes to tables see last page of Bonds and last page of Stocks.

—OF—
BONDS AND STOCKS.

1. In the following twenty-eight pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.
2. Quotations from all Stock Exchanges are as near as possible for the *last day of June*. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.
3. Bond prices marked (\$) indicate that the purchaser must pay accrued interest *in addition to the price given*. The method of quoting on the New York Stock Exchange is to quote the price flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.
4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.
5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.
6. The following abbreviations are often used, viz: "M." for mortgage, "g." for gold, "g'd" for guaranteed, "end." for endorsed, "cons." for consolidated, "conv." for convertible, "s.f." for sinking fund, "l.g." for land grant, "op." for optional.
7. The black-faced type in the letters showing the interest period indicates the *month* when the bonds mature.

BANKS AND TRUST COMPANIES.

Quotations for the stocks of banks and trust companies are given per share, not per cent, with the exception of New York City, Brooklyn and Canadian bank stocks.

Prices marked thus (*) indicate sales. The dagger (†) prefixed to a price indicates that the figures show the book value.

Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.
