REVIEW OF AUGUST.

Labor troubles, the cut in the prices of steel and of wire, the advance in the price of cotton, the sharp rise in wheat and the strength of the stock market were the principal features in affairs during August. The labor troubles comprised the continuation of the strike of the cotton-mill operatives at Fall River (in which contest no change occurred, the Fall River mills remaining closed throughout the month), the further extension of the conflict in the building trades and the developments in connection with the strikes at the beef-packing establishments.

In the last-mentioned contest, the strike against the local packers in this city was begun on August 10. The packers were able, however, to fill the places of large numbers of the men who quit work, and at the end of the month the indications were that the packers were going to gain a complete victory over the unions, not only in this city, but at Chicago and the various other points involved. At Chicago, indeed, the victory appeared to be already won. As a last desperate effort, orders were issued on the 31st for a general strike of all butcher workmen throughout the country. Previously the strike had been directed against the establishments embraced in the so-called "beef trust." The new move meant that the independent plants were also to be drawn into the conflict.

The troubles in the building trades assumed increasing dimensions. These troubles had their origin in the demand made on the 13th of the previous month on the contractor who is building the Rapid Transit Subway tunnel, and which demand was not complied with. As a consequence, strikes were called on numerous buildings throughout the city by various of the unions composing the Building Trades Alliance. This was done in violation of the arbitration agreement existing between the Building Trades Employers' Association and the Building Trades Alliance. In self-protection, the Board of Governors of the Employers Association on August 4 declared a lock-out against all the unions in the Alliance, to go into effect at once unless the men on strike should go back to work immediately. On August 13th this was followed by an ultimatum declaring that if by the 22d work was not resumed the members of the Employers Association would proceed to hire such mechanics as were willing to take the places of the strikers under a general arbitration agreement. Little improvement, however, occurred in the situation after the date mentioned. At the very close of the

month hope of an early settlement was encouraged by the election of William K. Nason, a more conservative man, as President of the Building Trades Alliance, to succeed Phillip Weinselmer, who had been indicted for extortion, and thereupon resigned.

The cut in wire and wire products arose out of the action of the Republic Iron & Steel Company in taking a large order for the conversion of pig iron for the Pittsburgh Steel Company at a price which would make the billets stand at only \$19 25 a ton, as against the schedule rate for billets of \$23 00. This was followed on the 16th by the announcement of a material reduction, amounting to from \$4 to \$7 per ton, in nails and wire products by the American Steel & Wire Company, one of the constituent properties of the United States Steel Corporation. As a result of these two moves the iron and steel market became quite demoralized. Nevertheless, a not unfavorable view of the outlook was taken, the belief prevailing that the lower prices would lead to increased consumption and at the same time oblige the less favorably situated mills to discontinue work, thereby tending to restore the equilibrium.

The rise in the price of cotton was occasioned in part, apparently, by operations directed against the "shorts" and in part by unfavorable reports regarding the growing crop. The spot price in this market, which August 1st was 10.50 cents and August 3d 10.45 cents, the latter part of the month sharply advanced, and August 30th reached 11.65 cents; on the 31st there was a slight reaction to 11.50 cents. The December option sold up from 9.70 cents August 1st and 9.47 cents August 3d to 11.16 cents August 30th, and closed at 10.72 cents August 31st. The rapid rise compelled the suspension of the firm of H. F. Page & Company, of New Orleans, on the 24th. The price of print cloths at Fall River advanced from 3 to 3½ cents, and then declined again to 3 cents.

In wheat a very active speculation developed and the most pronounced rise in recent years occurred. The speculation was based on reports of serious damage to spring wheat from rust and other causes, resulting in further reductions in the estimates of the probable yield in the United States. The estimates were exceedingly low, some of them prophesying a total crop not in excess of 500,000,000 bushels, showing a plain intent at exaggeration for effect on the market. In Chicago, wheat for December delivery advanced from 89½ cents Saturday, July 30th, to \$1 14 August 22d, the close August 31st being \$1 08½.

In the Russo-Japanese war an important event was the attempt of the Russian fleet at Port Arthur to escape. The attempt proved unsuccessful; the fleet was scattered, part of the ships being forced to return to Port Arthur and part being crippled and obliged to seek refuge in neutral ports. At the same time the Vladivostock squadron, in seeking to effect a juncture with the Port Arthur squadron, was seriously damaged, one of the ships being sunk. At the close of the month a great land battle between the Russian and Japanese forces was in progress before Liao Yang, it being estimated that between 400,000 and 500,000 men, counting both sides, were engaged in this battle.

The foreign exchange market was strong and higher the early part of the month, and some engagements of gold for Europe were announced, which engagements, however, were subsequently canceled. The market was influenced by the relatively higher rates for money in London than in New York, which encouraged remittances of balances for employment on the other side and discouraged the drawing of bills against credits existing there. After about the 10th, however, the market evinced a downward tendency. Purchases of

stocks for European account were then noted and there also appeared to be evidences of a disposition to renew the drawing of bills (previously suspended) against future exports of cotton. The market the rest of the month was rather irregular, but with the tendency downward, though an upward reaction occurred again at the very close. While there were no exports of gold to Europe \$7,658,000 gold (besides \$2,800,000 of U. S. currency) was shipped to Europe and \$1,000,000 of the metal was forwarded to Argentina.

The stock market showed increased animation and a very substantial advance in prices occurred all around. Neither the labor troubles, the demoralization in iron and steel prices, nor the unfavorable reports concerning wheat, exerted any dampening effect on the market. Early in the month Metropolitan Street Railway stock and Metropolitan Securities shares rose sharply on rumors of a combination with the Interborough Rapid Transit Company, and later the whole market developed buoyancy. United States Steel stocks continued very strong in face of the situation in the iron and steel trades. Many of the low-priced stocks were taken in hand and whirled upward, the advances running from 5 to 15 points, and even more.

GENERAL QUOTATIONS

—OF— BONDS AND STOCKS.

1. In the following twenty-eight pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.

2. Quotations from all Stock Exchanges are as near as possible for the *last day of August*. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

3. Bond prices marked (§) indicate that the purchaser must pay accrued interest *in addition to the price given*. The method of quoting on the New York Stock Exchange is to quote the price flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.

4. Stock prices marked thus (+) are per share All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz: "M." for mortgage, "g." for gold, "g'd" for guaranteed, "end." for endorsed, "cons." for consolidated, "conv." for convertible, "s.f." for sinking fund, "l.g." for land grant, "op." for optional.

7. The black-faced type in the letters showing the interest period indicates the *month* when the bonds mature.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (*).

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

BANKS AND TRUST COMPANIES.

Quotations for the stocks of banks and trust companies are given per share, not per cent, with the exception of New York City, Brooklyn and Canadian bank stocks.

Prices marked thus (*) indicate sales. The dagger (†) prefixed to a price indicates that the figures show the book value.

Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.

PINE STREET CORNER PEARL STREET. NEW YORK.

THE CHRONICLE is a weekly newspaper of 64 to 80 pages, published for the earliest mail every Saturday morning, with latest news by telegraph and cable from its own correspondents relating to the various matters within its scope.

A unique feature of the CHRONICLE is its

FOUR EXTRA SECTIONS:

1. The RAILWAY AND INDUSTRIAL SECTION, 180 pages, issued quarterly on the last Saturday of January, April, July and October, containing the latest available information respecting the property, stocks, bonds, earnings, dividends, interest payments, &c., of every Steam Railroad of importance and of the leading Industrial Corporations, &c., in the United States.

2. The STATE AND CITY SECTION, of 196 pages, issued semi-annually in May and November, containing among other things about 3,000 detailed reports of the indebtedness and general financial condition of States, Counties and Cities; also digests of laws relating to investments by Savings Banks, &c.

3. The STREET RAILWAY SECTION, of about 100 pages, issued three times a year, containing a complete description of Street Railways in the different cities of the country, their stock, dividends, bonded indebtedness, earnings, &c., &c.

4. The BANK AND QUOTATION SECTION, a monthly publication of 64 pages issued the first week in each month, giving the most complete and comprehensive tables of Quotations ever issued, embracing prices of Railroad Bonds and Stocks, Bank Stocks, Municipal Securities, Street Railway Stocks and Bonds and Miscellaneous Securities.

A FURTHER NOVEL FEATURE is that the publishers of the CHRONICLE *make no charge* for any of these extra Sections, but give them all to the CHRONICLE subscribers.

Investors wishing to keep informed with reference to their investments, *Buyers and Sellers* of Bonds and Stocks of Steam Railroads, *Buyers and Sellers* of Bonds and Stocks of Street Railways, *Buyers and Sellers* of Bonds of States, Cities, Towns, Etc,

EACH and all need the CHRONICLE and its added Sections.
