REVIEW OF SEPTEMBER.

Great buoyancy and activity on the Stock Exchange was perhaps the most noteworthy characteristic during September. Yet there were also important developments in the industrial and business situation, the most of them, too, of an encouraging nature.

The labor troubles, previously so conspicuous, assumed a decidedly less disturbing aspect. The strike at the beef-packing establishments throughout the country was definitely terminated. The strikers were virtually beaten when, on the 3rd of September, the local unions in this city voted to end the fight as far as they were concerned and go back to work. On the 8th the Amalgamated Meat Cutters & Butcher Workmen's Union through its President, Michael J. Donnelly, declared the national strike at an end. In both cases the men gained absolutely nothing, the companies agreeing to take back only such of the strikers for whom they might be able to find work—that is, retaining their competent non-union help.

Another similar favorable development was the agreement reached between the Interborough Rapid Transit Co. and the Brotherhoods of Locomotive Firemen and Locomotive Engineers with respect to the wages and hours of work of the electric motormen to be employed in running trains through the new subway tunnel. The two Brotherhood organizations, backed by the Amalgamated Association of Street and Electric Railway Employees, had demanded the same pay for the motormen in the subway as had been granted the old locomotive engineers on the elevated roads under exceptional conditions, namely \$3 50 for a nine-hour day, and had threatened a strike when it appeared that the Rapid Transit Co. was willing to pay only the rate which ordinary electric motormen would be entitled to—that is, \$3 00 for a ten-hour day. Eventually, however, the matter was compromised, the Rapid Transit Co. agreeing to pay \$3 50, but for a ten-hour day instead of the nine hours demanded. The strikes in the building trades continued, but here, too, the indications became more hopeful as the weeks passed, more particularly in the fact that some of the unions connected with the Building Trades Alliance severed their connection with the latter body and made independent agreements with the Building Trades Employers' Association.

Another event of the month was the reduction in the price of steel and steel products. At first the reduction was only made unofficially, but on the 19th at a meeting of the Billet Association held at Pittsburgh, the price of billets was formally marked down from \$23 a ton to \$19 50, while at the same time the

schedule price on sheet steel and tin bars was reduced \$2 a ton; some other steel products had been reduced earlier in the month. The change was looked upon as a hopeful development, because it was a recognition of existing conditions, and because, furthermore, the effect was to induce purchases for consumption by parties who had been holding off awaiting the reduction in prices.

In the agricultural world there was some uneasiness as to the effects on the leading crops of unfavorable weather conditions. Estimates of the yield of wheat were further reduced, but chief concern was felt with reference to the corn crop. There were frosts over a good part of the corn belt on the nights of the 11th, 12th and 13th, and again on the 20th, 21st and 22nd, and very exaggerated reports of damage done from that cause were in circulation, leading to an excited speculation in wheat and corn. It later appeared, however, that the extent of the harm done in that way had been relatively small, though the precise amount of loss in total yield has not yet been determined. From \$1.09 per bushel, the price of December wheat in this market rose until it reached \$1.20 $\frac{3}{4}$ September 13. The close September 30 was \$1.15 $\frac{3}{4}$. The range for December corn was from 55 $\frac{7}{8}$ to 60, the close September 30 being 57 $\frac{5}{8}$. The reaction at the close shows to what extent early estimates of extreme damage were subsequently modified. In the case of cotton, likewise, the early estimates of deterioration were not borne out by subsequent investigations and reports. The plant suffered impairment of condition, as is evident from the fact that the Agricultural Bureau in its monthly report issued October 3 made the general average for the whole cotton region on September 25 only 75.8, against 84.1 on August 25. In September last year, however, the general average was given as only 65.1. Spot cotton in New York declined from 11.50 cents September 1 to 10.60 cents September 30.

In the Russo-Japanese war an important event was the receipt at the beginning of the month of the news of the decisive defeat sustained by the Russians in the great battle which raged at Liao-Yang for over a week at the close of August. At first it was supposed that this news meant the early termination of the war, but it later appeared that General Kuropatkin had managed to effect a retreat to Mukden, saving his whole army.

In the money market there was a decided stiffening of rates, both on call loans and on time. But even after the advance quotations ruled low, call loans at no time being quoted higher than 2 $\frac{1}{2}$ per cent. The money holdings of the Clearing-House banks were reduced from \$359,201,100 August 27 to \$323,112,700 October 1, and surplus reserve declined from \$57,375,400 to \$19,913,425. A noteworthy feature was that loans were increased rather than undergoing contraction, standing at \$1,143,033,900 October 1 against \$1,099,057,200 August 27.

The foreign exchange market was weak almost the entire month, and declined sharply. There was a good demand for bills to remit for stock sold here on European account, which, however, had little effect in interrupting the decline. Commercial drafts against grain were in only limited supply, the speculation in grain having checked the demand for these staples, but there were liberal offerings of drafts against cotton shipments, with expectation of a still larger supply of such bills in the immediate future as a result of the free export movement of the staple. At the same time the advance in money rates here encouraged the resumption of operations in finance bills. The sum of \$500,000 gold was sent to Argentina September 1, and a similar amount on September 3 and again September 15, but with the great decline in exchange there was talk at the close of the month of the possibility of early imports of the metal from Europe. The price of gold bars in London was raised to check possible withdrawals from the Bank of England. Later, however, as the result of considerable arrivals of gold in London, the price was lowered again.

The stock market, as already indicated, displayed great animation and much strength, with a pretty general and quite considerable advance in prices. The chief features were the Steel Corporation shares, transactions in which were enormous. The preferred rose from 61 $\frac{7}{8}$ to 74 $\frac{1}{8}$ and in the common shares from 12 $\frac{7}{8}$ to 18 $\frac{1}{2}$. The strength in this property gave tone to the whole market, and the close was at near the best figures in the case of a large majority of the more active stocks dealt in on the Exchange.

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1903. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "Prices about January 2, 1904," were made on that date, except those in italics, which are the nearest in January, 1903. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

 For foot notes to tables see last page of Bonds and last page of Stocks.

GENERAL QUOTATIONS

—OF— BONDS AND STOCKS.

1. In the following twenty-eight pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.
2. Quotations from all Stock Exchanges are as near as possible for the last day of September. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.
3. Bond prices marked (\$) indicate that the purchaser must pay accrued interest in addition to the price given. The method of quoting on the New York Stock Exchange is to quote the price flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.
4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.
5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.
6. The following abbreviations are often used, viz: "M." for mortgage, "g." for gold, "g'd" for guaranteed, "end." for endorsed, "cons." for consolidated, "conv." for convertible, "s.f." for sinking fund, "l.g." for land grant, "op." for optional.
7. The black-faced type in the letters showing the interest period indicates the month when the bonds mature.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (*).

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

BANKS AND TRUST COMPANIES.

Quotations for the stocks of banks and trust companies are given per share, not per cent, with the exception of New York City, Brooklyn and Canadian bank stocks.

Prices marked thus (*) indicate sales. The dagger (†) prefixed to a price indicates that the figures show the book value.

Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.
