REVIEW OF NOVEMBER.

The overshadowing event during November was of course the Presidential election and the tremendous majority obtained by Mr. Roosevelt, he carrying all the Northern States (barring only Maryland) and all the Western and Pacific States, and capturing even the electoral vote of one of the Southern States, namely Missouri. Mr. Roosevelt's election had long been regarded as a foregone conclusion, as was evidenced by the fact that wagers or bets showed increasing odds in his favor as the time for casting the popular vote approached, the odds on him the week before election being 10 to 2. Still his majorities surpassed all expectations. The immediate effect of the popular verdict was to stimulate the activity and buoyancy which had prevailed on the Stock Exchange for many months and to bring about a further large and general rise in security values.

There were, however, other highly favorable influences. The monthly report of the Agricultural Bureau at Washington, issued on the 10th, fully confirmed the sanguine reports previously current regarding the season's harvests. In particular the estimate concerning the corn crop was satisfactory, the total yield being placed at 2,453,000,000 bushels, comparing with 2,244,000,000 bushels in 1903 and 2,523,000,000 in 1902. Moreover in quality the crop far surpassed that of any recent year. The oats crop had previously been estimated at 888,500,000 bushels, as against 784,000,000 in 1903 and 987,000,000 in 1902. As the cotton yield is also known to have been abundant, this left wheat as the only leading crop where the production was deficient. Altogether, therefore, there was here the assurance at the end of the season that Agricultural interests had had a decidedly good year, and that therefore their purchasing and consuming capacity the next twelve months would be large.

At the same time the revival in the iron and steel trades continued to gain force and to spread in all directions. The demand was so large and active that sharp advances occurred in the prices of nearly all classes of goods. On the 15th the Steel Billet Association marked up the quoted price of billets (which had on Sept. 19 been reduced from \$23 a ton to \$19.50) to \$21 a ton. At meetings of the different associations of manufacturers advances were also made of \$2 a ton in steel wire and sheet-steel products and of \$3 a ton in tin plate, though on the other hand the Nat & Bolt Association decided to defer for the present increasing prices for its products. A conservative spirit dominated at these

meetings, and while the Eastern Bar Iron Association raised bar iron quotations \$2 a ton, the manufacturers of steel bars, plates and shapes, after a protracted conference, decided to make no change in the prices of these classes of goods for the time being. The activity in the trade continued unabated until the end of the month.

It should also be stated that the copper market displayed great strength, the price of the metal further advancing. This operated greatly to promote the speculation in copper shares, both in this market and Boston, which had been active for some time. Another development of the month was the settlement of the ocean steamship war and the restoration of rates (previously cut to low figures) on the various steamship lines—a matter of considerable importance to the International Mercantile Marine Company.

The cotton goods trade remained an exception to the general rule of prosperity, and an attempt made by the manufacturers at Fall River to resume work on the 14th after idleness of over four months failed because the operatives refused to return at the cut in wages which precipitated the shut down the previous July. The price of the raw material, cotton, tended to a lower basis, reflecting belief in a large crop. Spot cotton in this market, after moving up from 10 cents on the 1st to 10.25 cents on the 11th, steadily declined thereafter, and on November 30 was quoted at only 9.30 cents.

Gold exports on a considerable scale were a feature of the month, there being shipments both to Europe and to Cuba, but these had little influence on affairs. They did, however, occasion a stiffening of call loan rates in the money market. On the 18th the Secretary of the Treasury issued a call on the national banks throughout the country for 25 per cent of the Government deposits held by them, 10 per cent to be paid into the Treasury on or before January 15 and 15 per cent on or before March 15.

A Japanese loan for £12,000,000 was brought out, £6,000,000 being offered in this country through Kuhn, Loeb & Co. and £6,000,000 being placed in London. The bonds bear 6 per cent interest and the issue price was 88 and interest. The loan was largely oversubscribed, both in this country and in Europe. New York City placed \$25,000,000 of 50 year 3½ per cent bonds, and there were also some large new loan negotiations by railroads and other corporations. The most conspicuous of these latter was the sale to Speyer & Co. of \$25,108,000 1st and refunding 4 per cent gold bonds of the Chicago Rock Island & Pacific Ry., the announcement being made at the same time that Mr. Speyer would enter the board of directors of the Rock Island Company and become a member of the Finance Committee.

A severe storm on the night of Sunday the 13th, accompanied by rain, sleet and snow, interrupted telegraph and telephone service so seriously that on Monday the 14th New York was almost completely cut off from the West and South. In extent and severity the damage to the wires on this occasion finds its only parallel in the great sleet storm of Feb. 1902 and the blizzard of March 1888.

On the Stock Exchange conditions have had few parallels. Extraordinary activity and buoyancy had been noted the previous month, but in both particulars the month under review far surpassed its predecessor. On the day following the Presidential election the sales on the Stock Exchange aggregated 2,328,308 shares. At the beginning of the month there was some manifestation of weakness, owing to rumors of a hitch in the arrangement for the peaceable adjustment of the difficulties growing out of the North Sea incident. But this soon passed away, and the rest of the month, though

extensive reactions occurred, the course of the market was strongly upward. United States Steel common sold up from 19½ to 32½ and the preferred from 79½ to 95½, while General Electric moved up from 172½ to 194½. An incident was the publication of an advertisement by Thomas W. Lawson of Boston offering to pay \$70 per share for the outstanding minority stock of the Pacific Mail Steamship Co., provided he could get substantially the whole of it on or before Nov. 21. The stock was then selling at 42 and quickly advanced to 55, but it was soon seen that an impossible condition was attached to the offer, and the close Nov. 30 was at 4½.

The foreign exchange market was weak at the beginning of the month. It soon became stronger, however. Gold exports to Europe aggregated \$11,972,710, of which \$1,000,000 was in coin, the supply of gold bars at the New York Assay Office having been exhausted; the exports to Cuba were \$10,500,000 in coin. Higher money rates here weakened exchange at the close of the month.

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1903. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "Prices about January 2, 1904," were made on that date, except those in italics, which are the nearest in January, 1903. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

For foot notes to tables see last page of Bonds and last page of Stocks.

GENERAL QUOTATIONS

—OF— BONDS AND STOCKS.

1. In the following twenty-eight pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.
2. Quotations from all Stock Exchanges are as near as possible for the last day of November. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.
3. Bond prices marked (\$) indicate that the purchaser must pay accrued interest in addition to the price given. The method of quoting on the New York Stock Exchange is to quote the price flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.
4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.
5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.
6. The following abbreviations are often used, viz: "M." for mortgage, "g." for gold, "g'd" for guaranteed, "end." for endorsed, "cons." for consolidated, "conv." for convertible, "s.f." for sinking fund, "l.g." for land grant, "op." for optional.
7. The black-faced type in the letters showing the interest period indicates the month when the bonds mature.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (*).

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

BANKS AND TRUST COMPANIES.

Quotations for the stocks of banks and trust companies are given per share, not per cent, with the exception of New York City, Brooklyn and Canadian bank stocks.

Prices marked thus (*) indicate sales. The dagger (†) prefixed to a price indicates that the figures show the book value.

Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.
