The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, April 8, and the results for the corresponding week in 1904, 1903 and 1902 are also given. Contrasted with the week of 1904 the total for the whole country shows a gain of 52.0 per cent. Outside of New York the increase over 1904

### CHICAGO STOCK MARKET.

Our record of the transactions on the Chicago Stock Exchange for the week and year, which is now a regular feature of the CHRONICLE, will be found to-day on page 1414.

### THE FINANCIAL SITUATION.

The neighboring city of Chicago is about making an effort to take possession of its street railroad systems and run them as a city institution. There are numerous roads there now, going concerns, but the newly-elected Mayor, Judge Dunne, speaking of the character of these roads and his plans at a mass-meeting held at Cooper Union Saturday night, said we have in Chicago the worst street railroad systems there are in the country. That is an encouraging condition for a reformer to start from. It will not consequently be difficult from that low level to make substantial progress early, and early and substantial progress is a highly encouraging circumstance in a reform undertaking of such large proportions; it gives hope to the people and cheers the leader in the work at the time of greatest need. We say "large proportions," because the Mayor tells the public, on the occasion of the mass meeting referred to, that he means to take hold of these systems, bring them up to a high standard, and run them in the interests of the people, indicating also that the "running of them in the interests of the people " means high wages and low fares. It is, therefore, seen that the proposal contemplates a big venture. This conception of the size of the idea is further confirmed when it is noted that the mayor claims even a more remarkable attainment-he says "we will accomplish this without one cent of taxation on the community."

It is the money question involved in the proposal as thus outlined that calls, we think, for further investiga tion. Facts enough have already been brought to the surface to make the inquiry appear interesting and desirable to every one seeking the success of the scheme. First of all a little deeper study is necessary to reveal the full outlines or frame-work of the undertaking. Mayor Dunne estimates in the following statement the book costs of the systems to the owners, the recent Stock Exchange values of the same, and the figures at which he expects to get the roads.

I estimate, and I may be a few millions out of the way, that we can acquire the street railway systems of Chicago for about \$27,000,000. It will take thirty to forty millions more to modernize them. The tangible value of the properties has been placed by experts at about \$30,000,000, and they are capitalized for about \$120,000,000. Their Stock Exchange value, just before my election, was about \$80,000,000, and this was kept up by manipulation and wash sales.

We have not sought to verify the above totals except the present capitalization statement, and that only poses to get money lenders to furnish him with all the

clusion from Mr. Dunne's words. He is Mayor, and proposes in that capacity to put the official screws on. He says he will attain his end by condemnation proceedings and upholds cutting down values by saying that the roads in the course of their existence have used the same statutory provision to get possession of private property for public use; a fact which he claims makes his threat just. That is odd reasoning. Confiscating all above 23 per cent of the book capital in this industry because certain of the roads may have condemned property at less than real value at some contingency in their career, is not a wise stand for the leader in an enterprise of the kind to take. The Mayor offers no proof, nor does he cite any particular proceeding; he puts the case in this harsh way.

We will accomplish this without one cent of taxation on the community simply by the power of condemnation which every railroad in the city has exercised for years against the owners of private property. You see that law was supported by the street railway companies. Now we are going to give them a taste of their own medicine. We will show them that a law can work both ways, and they surely cannot kick if we fairly apply to them the laws under which they have themselves acted so long.

The foregoing is sufficiently explicit for every individual's easy comprehension. Most people and most city of. cials undertaking so large a job would at this point in the work show a proper spirit and attitude at least by trying to conciliate the parties to be dealt with, and not antagonize them by harsh threats. Passing that feature, however, a further preliminary would be to count the cost and facilitate ways for getting the means to carry the work to a successful end. So far as our experience has gone, we have always found that raising the necessary capital is a difficult precedent to a successful issue. The money market is a somewhat fractious element; it needs to be humored and the confidence of money lenders in the enterprise cultivated; otherwise the struggle later will be in such deep water as to swamp the project and the projector. No caution whatever in these particulars is shown in the Chicago affair. Almost a miracle is promised by Mayor Dunne. He says, as we have seen, that the work is to be done without one dollar of taxation on the community. That is certainly a bold, brave statement, made no doubt with honest intent; but it shows enthusiasm, not an atom of discretion. Lead ing the public to believe so large an amount of money can be obtained as this enterprise calls for without putting any lien on the city's credit is raising hopes which are certain to be blasted; and yet the Mayor claims that; for if the municipality is bonded the principal of the bonds would have to be paid some time and the interest would have to be met annually, which could not be done without taxation.

We refer to this feature because Mayor Dunne pro-

roughly; judging, however, from the results we have capital needed for the enterprise he has in hand on a reached as to that single item, we should be inclined security that is tainted with repudiation. That is, he to believe that Mr. Dunne had materially understated tells us, in an arbitrary way, that he is going to repudiate it. Still we accept his totals and also the Stock Exthe franchise and cut down the value of these railroad change valuations as sufficient for this examination. It properties to not much more than one-fifth of the book will be noticed that these systems of roads (capitalized value; and after having by that method gotten hold of the property, he is to use the same as the basis, and only at \$120,000,000 and valued at the Stock Exchange at \$80,000,000) the Mayor expects to get for the city at dependence he has to suggest, for the successful con-\$27,000,000. Of course no private individual could duct of the financial side of his scheme. Without gain possession of the properties in question at those considering on this occasion the other unique featfigures; at least that seems to be the obvious con- ures of the warrants, by means of which Mr. Dunne proposes to float and work his financial miracle, it is enough to know that the warrant will be without credit among money lenders; for the only security back of them will not be the City of Chicago but fresh franchise-a kind of thing which having been once in part confiscated can just as easily be confiscated again. Going among capitalists with such a security so recently and notoriously dishonored to borrow money upon, would simply be courting failure. That is a kind of collateral which might be current in a noisy political canvass, but no banking house would take it. Hysteria and noise are good enough for the political arena, but they can never add salt to our porridge or butter to our parsnips.

In connection with the foregoing the reader will see even more clearly the dilemma facing the present attempt to secure and run the railroad utilities of Chicago, if we add the Mayor's explanation of the warrants with which he is to pay for the roads. We cannot discuss them at this time, but we add enough in the following extract from the Mayor's speech to indicate the absolute lack of standing these marvelous warrants would have in the markets of the world.

The only other serious objection urged in Chicago against the operation by the public of its own utilities was that the municipality had no money. There is no value whatever in the objection. The operation of these utilities is a privilege of priceless value. We in Chicago propose to raise all the money necessary to purchase an up-to-date street car system upon street car certificates, which are special or limited promises to pay out of the income collected from the system. They are not general promises to pay, which will entail taxation. They are secured under our law in three ways: First-By the pledge of all the income in perpetuity of the municipal street railway plant. Second—By a mortgage, which conveys all of the tangible property in the transportation department of the city. Third-These certificates are secured by twenty-year franchises, which become operative in the holder on default by the city for one year.

The most amusing, because so naïve a part, of the Mayor's whole address, is his ingenuous, simple, but, as he claims, clinching argument to prove that the money would be forthcoming as soon as wanted. "Private companies in the past," he says, "have been able to sell stocks and bonds aggregating in value \$117,000,000 when their tangible property was worth less than \$27,000,000." To that he adds: "If they could raise four times the value of the tangible property upon an expiring franchise, can any sensible man for a moment hesitate as to what amount of money the city of Chicago can raise upon the security heretofore mentioned ?"

One of the notable features in connection with the marketing of the current cotton crop is what might be called the skill displayed by planters in disposing of their product. At no time in the history of the staple has the policy of holding it off of the market been so judiciously applied. Up to within a very few years it had been the custom in seasons of bountiful harvest to rush cotton forward as fast as it could be gotten into shape for marketing, without regard to the demand for it, in such volume as to carry prices down to a practically unremunerative basis. Or, in years of presumably small yield, to hold for abnormally high prices, without regard to the ability of spinners to purchase at the figures demanded. There were a great many instances of this latter course being pursued in 1903-04, where planters

have the cotton. But this season, with the yield known to be far greater than ever before (approximating 14,000,000 bales, against about 111 millions as the previous high record), such methods have been used in turning the product loose that all along a fair profit has accrued to the planter.

It will be remembered that within a year or two a prominent New York operator, who later on went to the wall, started what was called "a campaign of education," ostensibly to educate the farmer up to the point where he would fix a certain high price for his cotton and not part with it for less; the real intention on that occasion was to help along a speculative bull movement in the staple. The farmers have certainly become educated, but not as a result of that campaign. They seem to have learned that they can obtain a reasonable price for what they have to sell if they will only study the conditions and apply the marketing of the staple to the demand as it occurs.

To say that any given article is worth all that you can get for it is true enough; but to carry the idea further and assume that a seller can get any price he chooses to ask has very frequently led to disaster. There is such a thing as "biting off the nose to spite the face." Conspicuous instances of this are not wanting. We have in mind a case mentioned to us by a cotton man recently returned from a trip to the South. In his travels he met a wealthy planter in Georgia who had still on hand all of his 1903-04 crop, having refused 17 cents per lb. for it; and had not disposed of any of his 1904-05 prod. This particular man doubtless was so much uct. impressed by the campaign of education that he believed he had only to fix his price and to hold on to get all he desired.

We recall a few instances where holding for higher prices proved a very expensive experience. In February 1882 four bales of cotton of the crop of 1860 were marketed at Columbus, Ga.; the market was then ruling about 11 cents per pound. These four bales were part of a lot of 100 bales in a planter's possession at the close of the war. He had been offered 471 cents in 1865, but refused to sell because he thought the revenue tax of three cents per pound was unjust. Later in the same year (1882) Charleston received a bale from Laurens, S. C., which was reported to have been raised nearly thirty years earlier (in 1853). As this bale was one of a lot of fourteen, the loss was very large, the cotton having been carried all through the war period, when fabulous prices could be obtained. In November of 1883 a bale reached Charleston from Batesburg, S. C., which had been held since 1859.

The cases cited above only emphasize the important truth that there are always natural limits to the holdingon policy. When they are observed, the retention is effective and useful; when they are purely arbitrary and speculative, they run counter to natural laws and are abortive and come to naught. On this occation, up to the present time the results have proved that whoever is directing the movement is gauging it closely and wisely in accordance with the spinning demand. Cotton is going into consumption rapidly and spinners are making money nearly everywhere. On the 6th of January the total visible supply in the world was 4,658,011 bales; on the 14th of April the visible supply had dropped to 4,173,-801 bales. In the meantime spinners' stocks of raw cotton at latest dates had increased, according to Ellison's demanded 17 cents per pound or higher, and they still record, but not to the extent of the loss in visible supply. All that shows management, and conservative management.

As the season advances other elements enter into the solution of the question at issue and the problem becomes more complex. At the moment it looks as if producers of this staple could at current prices depend upon a continuous increase in consumption the coming year. If the war between Japan and Russia closes, there can hardly be a doubt as to that development. But a more important inquiry will be the extent of the planting in the Southern States and the start and progress of the new crop there. That question must be of prime importance; a secondary matter will be the planting at other sources of supply.

There have been two developments or announcements this week of a highly significant character in their bearing upon the present and immediate future of affairs in the United States. Both are of a highly encouraging nature. One was the report of the Agricultural Bureau on the condition of winter wheat at the opening of the month and the other the monthly statement of pig-iron production. The wheat report is in sharp contrast with the corresponding report issued a year ago, and shows that the agricultural situation opens in a very auspicious way. The Bureau makes the condition of winter wheat for the country as a whole on April 1 high, viz.: 91.6, as against an average on April 1 1904 of 76.5 and against 83.1, the mean of the April averages of the last ten years. These figures, however, do not reflect full extent of the improvement as compared the with 1904. Twelve months ago not only was of the plant low, but a large the condition portion of the area devoted to wheat the previous autumn had to be abandoned, owing to the fact that the plants had been winter-killed. No less than 5,000,000 acres, or over 15 per cent of the whole area sown to wheat, had to be ploughed up for this reason. The present season, we should judge, comparatively little of the crop had been winter-killed, since in the more important wheatproducing States there was a satisfactory covering of snow the greater part of the winter. The outlook is thus doubly favorable, first in a very much better average of condition and secondly in the fact of an enlarged acreage. The Department last December reported the area seeded to winter wheat at about 31,155,000 acres, which was a decrease of 1.6per cent from the area sown in the fall of the preceding year, but compares with only 26,865,855 acres actually harvested in 1904. Of course, it is a good while yet before the crop will reach maturity and later developments may lead to impairment of the present decidedly promising prospect; but we need hardly say that a favorable start is of great importance in its bearing upon the final yield. Should the wheat crop prove abundant it will be a decided blessing. There was never more need of a bounteous wheat harvest than the present season, following last year's shortage in both the winter-wheat and the spring-wheat production.

import. The iron trade has in the past proved a pretty reliable barometer of the state of general trade, and these new record totals of iron output must hence be considered as indicating that industrial interests in the United States are passing through a period of great activity and prosperity. According to the figures compiled by the "Iron Age" of this city, the make of iron during March by the anthracite and coke furnaces aggregated 1,936,-229 tons. Adding to this the production of the charcoal furnaces, which is estimated at about 34,000 tons per month, the total is carried up to 1,970,000 tons. The capacity of the furnaces in blast April 1st 1905 is given as 439,564 tons, against 403,157 tons March 1st, 405,792 tons February 1st and 377,879 tons January 1st. A year ago on April 1st 1904 the capacity of the active furnaces was only 337,257 tons, so that over 100,000 tons more of iron is now being made per week than twelve months ago. On January 1st 1904, after the sudden relapse in the trade which occurred towards the close of 1903, the weekly capacity was but 185,636 tons, compared with which the present product per week of 439,564 tons marks a phenomenal advance.

The most important fact of all is that the whole of this extraordinary output of iron is apparently going into consumption, for there was a further reduction during March in the stocks of the merchant furnaces, bringing the amount of such stocks April 1 down to only 319,257 tons, as against 350,746 tons March 1st, 376,440 tons February 1st and 458,794 tons December 1st. Allowing for the decrease in stocks, the consumption of iron in March was in excess of 2,000,000 tons. This is a most noteworthy figure, being at the rate of 24,000,000 tons a year. The very largest make of iron in the past in any period of twelve months was in the fiscal year ending June 30 1903, when the output reached 18,720,000 tons. That figure was deemed extraordinary at the time, yet pres. ent production is nearly one-third heavier. The "Age" thinks that this large output warrants hopes that the country may avoid altogether the importation of foreign iron and steel on an extensive scale, which has been threatening of late. Furthermore, it tends to the stability of values and makes more remote the danger of a runaway market. We also agree with our contemporary that "the enormous consumption is another reminder of the extraordinary industrial expansion of the country, with the iron industry in the van, and justifies the unconquerable optimism of our people."

In these days, when there is such a general tendency to enlarge the functions of government and to have the State embark in enterprises which should be left to private initiative and private management, it is refreshing to note the act of an Executive who has had the courage to run counter to the prevailing spirit. Governor Mickey of Nebraska-the State which has given us William Jennings Bryan and Bryanism and all that that implies-returned with his veto last week a bill passed by the Nebraska Legislature, and which sought to launch the State in the business of manufacturing binder twine. The bill provided for an issue of State bonds to the amount of \$200,000, the proceeds to be used in the erection of a binder-twine plant at the Nebraska State Penitentiary. After pointing out that Nebraska was in no condition to take upon itself such an additional burden for the purpose of initiating what the Governor called with much force "a business enterprise of questionable merit and of very doubtful financial result," Mr.

In the matter of the country's iron production the results are nothing less than marvelous. To say that all records have again been surpassed is to repeat what is now becoming a commonplace, for output and consumption alike are each month mounting to higher and still higher figures. Yet the fact itself is a decidedly significant one, and the student of aflairs cannot safely ignore its merit and of ver-

Mickey drew some lessons from the experiments of other States. He averred that the experience of other States that have established twine factories is by no means encouraging and would not justify a prudent man in investing his money in such a venture upon the competitive conditions which exist to-day. Without exception, so far as he was able to learn, the States which have engaged in the business have operated without profit or at a loss, for a number of years after the installation of the respective plants. He also showed that it requires a very large sum to maintain the business, and he asserted that the State of Minnesota had invested last year about \$\$00,000, one of the items entering into this sum being personal notes aggregating \$667,000 received for the sale of twine. He laid emphasis upon the fact that the State is now receiving from the sale of convict labor more money than it could reasonably expect to make from the twine plant, at least for a number of years. Finally, he summed up his objections in the following words: "The condition of the State finances, the large amount of money required for the operation of which the initial appropriation is only a beginning, the unsettled question as to whether hard fiber or soft fiber is the preferable material for twine manufacture under present day conditions, and the uncertainty of results, are reasons which impel me to the belief that this is not an opportune time for the State to engage in such an enterprise, and which causes me to withhold my approval." Governor Mickey is to be commended for the stand he has taken in this matter.

There was no change in official rates of discount by any of the European banks this week, and unofficial or market rates were firm, especially at Paris. The feature at that centre was a sharp rise in the market discount rate on Monday to  $2\frac{1}{2}$  per cent and a fall in exchange at Paris on London to 25 frances  $14\frac{1}{2}$  centimes, and the Bourse was depressed on the news of the pendency of a naval battle between the Russian and the Japanese It was assumed that the above-noted rise in fleets. discounts and the fall in checks on London were due to apprehensions as to the results of the naval engagement. It was reported, however, that the monetary tension was chiefly caused by large French subscriptions to a \$30,-000,000 English Kaffir trust company and also by preparations for heavy loans which were to be brought out in connection with mining companies. The continuance of the tension in discounts and of the depression on the Bourse seemed to make it probable that they were in greater part caused by the pendency of the naval engagement, and this view was taken by some of the foreign bankers in this city, partly for the reason that the London and the Berlin markets were likewise depressed, and admittedly from that cause. On Thursday there was a relaxation in the tension in discounts at Paris, the check rate on London recovered 12 centimes and normal market conditions were restored not only at the French capital but at London. The German Imperial  $3\frac{1}{2}$  per cent consols loan for \$75, 000,000 was offered April 10, as was last week announced in the CHRONICLE, and it is reported to have been covered fifteen times. On Wednesday the Bank of England announced the issue of \$50,000,000 24 per cent ten-year Exchequer bonds, repayable at the rate of \$5,000,000 annually; tenders will be deliverable before April 18. It is now reported that the first internal loan of Russia

tends shortly to negotiate another internal war loan for \$125,000,000; this report is, however, officially denied.

The Comptroller of the City of New York will on April 24 receive proposals for \$25,000,000 of 34 per cent stock and bonds of the city to be issued for various purposes.

The feature of the statement of the New York Associated Banks last week was the very small increase of \$17,950 in the surplus reserve. Loans were decreased \$8,530,100, deposits were reduced \$10,560,600 and cash fell off \$2,622,200; the surplus reserve is \$8,682,525.

It is announced that the Treasury call for public deposits will amount to \$29,089,000, instead of about \$27,-000,000, as at first reported. The surrender of \$14,-268,000 of this sum will be required by May 15 and the remaining \$14,821,000 by July 1.

The money market was again easier this week, influenced by the completion of the distribution of April interest and dividends, by liberal offerings by foreign bankers and by large disbursements by the Sub-Treasury to railroads for the transportation of the mails. Money on call, representing bankers' balances, loaned at the Stock Exchange during the week at 4 per cent and at  $2\frac{3}{4}$ per cent, averaging about 34 per cent; banks and trust companies loaned at  $3\frac{1}{4}$  per cent as the minimum. On Monday loans were at 4 per cent and at 3 per cent, with the bulk of the business at  $3\frac{1}{2}$  per cent. On Tuesday, Wednesday and Thursday transactions were at  $3\frac{1}{2}$  per cent and at 3 per cent, with the majority at 34 per cent. On Friday loans were at  $3\frac{1}{4}$  per cent and at  $2\frac{3}{4}$  per cent. with the bulk of the business at 3 per cent. Time contracts were more freely offered, not only by domestic but by foreign lenders, and the demand was chiefly for money for long periods. Rates on good mixed Stock Exchange collateral were  $3\frac{1}{2}$  per cent for sixty days,  $3\frac{1}{2}@3\frac{3}{4}$  per cent for three to six months and  $3\frac{3}{4}$ @4 per cent for seven to eight months. Commercial paper was in better supply, but the inquiry was good and quotations were  $4@4\frac{1}{4}$ per cent for sixty to ninety-day endorsed bills receivable,  $4@4\frac{1}{2}$  per cent for prime and  $4\frac{1}{2}@5$  per cent for good. four to six months' single names.

The Bank of England rate of discount remains unchanged at 23 per cent. The cable reports discounts of sixty to ninety-day bank bills in London  $2a2_8$  per cent The open market rate at Paris is 2 per cent and at Berlin and Frankfort it is  $1\frac{7}{8}$ @2 per cent. According to our special caule from London the Bank of England lost  $\pounds 1,037,228$  bullion during the week and held  $\pounds 37,707,-$ 441 at the close of the week. Our correspondent further advises us that the loss was due to imports of  $\pounds 25,000$ (of which £5,000 from Paris, £10,000 from Australia and £10,000 from various countries), to exports of £385,-000 (wholly to South America) and to shipments of

£677,000 net to the interior of Great Britain.

The foreign exchange market was easy this week, influenced by a light inquiry for remittance, by a better supply of cotton drafts, fairly liberal offerings of security and of sterling loan bills, and by transfers of capital representing London balances for employment in our money market. Early in the week there was some buying of sight exchange for the purpose of covering maturing finance bills, but the effect of such buying seemed to be offset by sales of sight drafts against arbitrage purchases was not fully subscribed, and that the Government in- of stocks for European account. One feature was the

selling of long bills and buying of options on short for cover in expectation of renewal for another term of three months of the long draft so as to carry the period of its maturity over into the active season. cotton and grain export Though the monetary tension at Paris temporarily checked the financing of securities through their transfer abroad, there were some indications in the character of transactions in exchange which seemed to make it probable that such operations would soon be renewed. The above-noted transfers hither of foreign capital are reported to have been effected with sight drafts in order to take advantage of opportunities for loaning on call and for short fixed periods on securities which will be later shipped to Continental centres. The depression in the European markets early in the week caused by the pendency of the naval engagement in the China seas did not seem to be reflected in our exchange market, though it may have accounted in great part for the activity in Gold received at the Custom finance operations. House during the week \$234,270.

Nominal quotations for sterling exchange are 4 S5 for sixty day and 4 87 for sight. On Monday rates for actual business were, compared with those on Friday of last week, unchanged for long and for short at 4 8455@ 4 8465 for the former and 4 8630@4 8635 for the latter, but cables were 5 points lower at 4 8655@4 8665. On Tuesday there was a fall of 15 points all around-long to 4 8440@ 4 8450, short to 4 8615@4 8625 and cables to 4 8645@4 8655. On Wednesday the tone was easy at a decline of 5 points for long and short to 4 8435@4 8445 for the former and to 4 8610@4 8620 for the latter while cables were 10 points lower at 4 8635@4 8645. On Thursday there was a fall of 5 points in all classeslong to 4 8430@4 8440, short to 4 8610@4 8615 and cables to 4 8630@4 8640. The tone was steady on Friday at unchanged rates.

The following shows daily posted rates for sterling exchange by some of the leading drawers.

### REAPPEARANCE OF THE RUSSIAN FLEET.

From one point of view there is something a little. amusing in the turn of popular discussion, since the longforgotten "Baltic fleet" emerged from its winter quarters at Madagascar and came in sight of the telegraph stations around the China Sea. It had been known to. every one, since Rojestvensky brought part of this fleet around the Cape and another part through the Suez Canal, that a powerful hostile armament was, to use the naval phrase, "in being" on the outskirts of the area of con flict. Two months ago, all well posted people were as well aware as they are to-day how many ships the Russian Admiral had under him, how they compared in number and power with the fleet of Admiral Togo and what possibilities of reversing the Eastern military situation existed in connection with that fleet. It is, therefore, a subject of reasonable query why such sudden excitement should have accompanied the appearance of Russia's Admiral in the Malacca Straits, and why, in nota few quarters hitherto cocksure about the victory of the: Japanese, there should now be manifested symptoms of unwonted doubt and misgiving.

Expeditions involving naval combat are traditionally subject, in considerable measure, to the decree of chance. Accidents may happen and have happened, before battle, during battle, and after battle, which have had much to do with the result of such campaigns. Nevertheless, wehave yet to learn of an instance where a fleet sailed in, the enemy's direction with unanimous agreement that its attempt was futile and absurd, where the outcome has: been different from expectations. With armies on the land the case is not quite the same. Desperate resolution, familiarity with the country, use of the numerous maneuvers which may be employed against an enemy unacquainted with his immediate surroundings, sometimes mere physical endurance of individuals, have on more than one occasion led to the virtual overthrow of a powerful military force by what had been previously called a mere handful of opponents. On the sea it is not possible that the same situation should exist. Here are no defiles where a clever ambush may be laid, no broken ground opened for unexpected entrenchment, no traps into which an over-confident enemy may unwittingly be lured. So far as concerns the ground on which the two fleets must fight their battle, terms are equal as between the antagonists. The question of probable superiority reduces itself, first to the test of experience, valor and capacity; second, to the number and power of the vessels engaged on either side.

The following gives the week's movements of money to and from the interior by the New York banks.

Week ending April 14, 1905.	Receired by	Shipped by	Net Interior
	N. Y. Banks.	N. Y. Banks.	Movement.
Currency		\$3,717,000	Gain. \$4,180,000
Gold		746,000	Gain. 260,000
Total gold and legal tenders	\$8,009,000	\$4,463.000	Gain. \$4,446.000

With the Sub-Treasury operations the result is as follows.

9

On these two phases of the question much has been said and written since the Russian fleet came into sight of the world again, on Friday of last week. The status, as generally agreed upon, may be thus summed up: Admiral Rojestvensky's fleet, assuming his two squadrons to have joined and to have remained together, slightly exceeds in number the vessels under command of Togo. As an additional advantage, there exists the necessity for the Japanese Admiral to leave outside of Vladivostock enough of his vessels to keep bottled up within that harbor the three Russian cruisers which escaped from the naval battle of last summer. In point of numbers, therefore, Russia has a distinct advantage. In point of size and power of the vessels under him, the Russian cannot more than match the Japanese, even allowing for the handicaps referred to. Togo's fleet is comparatively new as navies go, while a good part of Rojestvensky's fleet, including even some of his most important battleships, belongs to old and practically obsolete naval models.

When, in addition to these considerations, one keeps in mind the fact that the Japanese fleet is manned by veterans trained in a previous naval war, in the eight or nine years between that war and the present conflict, and in three or four first-class naval battles during 1904, whereas Russia's crews are novices to battle, the element of disparity in this regard should be sufficiently obvious. We hardly need refer to the ridiculous episode on the Dogger Bank last autumn; what is more to the point is the fact that the Russian Government must have the closest actual information as to the fleet's efficiency and condition, and that if that Government had been confident in the power of its naval armament, it would most certainly have despatched the fleet direct to the harbor of Port Arthur, which it might theoretically have reached in time to save the fortress. That the Russian Admiralty, instead of \_oing this, deliberately detained its fleet in Southern waters until all else was lost, except what the fleet alone might win on the high seas, is to our minds sufficient proof that Rojestvensky's present forward movement is a counsel of desperation. And, indeed, one need not look very far to discover why such a policy should at this juncture have been adopted. The Russian Court cabal, cornered on every side by opponents of the war-losing successively the prestige of its army, the support of the people and the aid of foreign financiersis in precisely that position which would lead a body of desperate public men to throw down everything on one last stake, and for such a cast there remained to them only the fleet on the coast of Africa.

We do not, under such circumstances, feel wholly con fident even in the certainty of engagement of the Japanese and Russian fleets; though we should say that retreat, after this last advance, could hardly occur save with final and absolute ignominy such as a spirited commander would not readily contemplate. If the fleets should meet and the Russian naval armament be crippled or destroyed, it must be obvious to all that the war is at an end. Russia will then be forced to peace through literal inability to command any further material for fighting. It has, indeed, appeared to us that even in the highly improbable event of a victory for Rojestvensky, peace in the East would none the less even then be nearer. The Russian Government has all along let it be quietly understood that it might entertain a peace proposition if it could only win one victory. As we have pointed out at another time, there was an

element of absurdity in this intimation because of the easy possibility that one success might so restore confident feelings in the Russian Government as to encourage further prolongation of hostilities. But, on the other hand, the situation new is not what it was last autumn, or even what it was two months ago. The situation of the Russian Government is from every point of view very nearly desperate. We should say that a naval victory would be welcomed at St. Petersburg itself, chiefly because of the chance it would give for a less humiliating suit for peace. But it is a forlorn hope, in our judgment, on which such expectations are to-day being pinned.

### RAILROADS LIABLE FOR DAMAGES FROM COMPULSORY CHANGE OF STREET GRADES.

It does not often happen that the United States Supreme Court feels called upon to overrule the New York Court of Appeals in a matter relating to local affairs. This alone would invest with special interest the decision of the United States Supreme Court on Monday of this week reversing a judgment of the New York Court of Appeals on the question of the liability of New York railroads for damages to abutting property resulting from a change in street grade made by authority of law. Moreover, the case was itself a very important one, involving as it does large numbers of claims against the New York & Harlem RR. Co. and the New York Central & Hudson River RR. Co. for damages alleged to have been sustained by abutting property owners on Fourth Avenue through the series of improvements made by these companies in compliance with statutory requirements.

Perhaps it is not surprising, however, that the national and the State tribunals should be in conflict on the points raised, seeing that the Court of Appeals itself has not been entirely consistent in its views in this regard, having at one time held the railroads liable for damages and subsequently on the same state of facts having reversed its position and decided that the railroads could not be held liable. The case that went to the United States Supreme Court and on which an opinion of that Court has now been obtained was that of Henry Muhlker against the New York & Harlem Railroad and the New York Central Railroad. The New York & Harlem was incorporated in 1831 and in 1832 it took from one Poillon a deed to a strip of land 24 feet wide in the centre of Fourth Avenue. Subsequently, double tracks were laid thereon and trains operated, and this continued until after 1872. In that year an Act was passed (Ch. 702, Laws of 1872,) under which the tracks were increased to four and were laid, as will be remembered, in a subway or cut bounded on both sides by masonry walls

which rose to a height of 3 feet above the surface of the avenue.

In 1890 Congress passed an Act directing the Secre. tary of War to cause the bridges over the Harlem River to be replaced by other bridges which should be at least 24 feet above the high water of the spring tides. As the line of the New York & Harlem crosses one of these bridges compliance with the provisions of this Act made necessary a change in the grade of the railroad. In 1892 the New York Legislature passed an Act by which it undertook to accomplish the result aimed at by Congress and at the same time to improve the use of the street itself—that is, the law provided that the Harlem Railroad should operate its road upon a steel viaduct elevated above the ground, thus giving the public the use of the whole of the surface of the street, which before was impossible. Obviously what the Harlem Railroad did in this regard it was obliged to do by the express direction of the State. It simply carried out a mandate of the law. Moreover, no new or extra benefits were conferred upon the roads by the change. As was said in an opinion of one of the court cases, south of 125th Street the structure gave the roads up facilities which they did not have before. The stone structure of 1872 did away with grade crossings and gave them four tracks, which is all they have now.

Abutting property-owners, however, felt aggrieved, regarding the new structure as an encroachment upon their easements of light, air, etc. Henry Muhlker had become the owner in 1888 of property at the intersection of Park Avenue and 115th Street, and in 1891 had erected a five-story building upon the ground, the elevated road being constructed five years later. He began a suit for damages in the State court and in the trial court was awarded \$4,400; but when the case reached the Court of Appeals this ruling of the lower court was reversed. The Court of Appeals, as already stated, has now itself been reversed.

When the Court of Appeals was asked to pass upon the case in 1903, it was not at all certain that the judgment obtained by the plaintiff below would not be affirmed. There had been, as was stated in an article in these columns two years ago, two previous cases dealing with the subject of the injury to abutting property caused by the series of improvements made at different times in the condition of Fourth Avenue, and in the carrying out of which the Harlem Railroad was required to alter the character of its structure on that avenue. The first of these was the Lewis case (Mary J. Lewis vs. New York & Harlem Railroad) decided February 27 1900 by a unanimous vote, and was in favor of the contention of the plaintiff. The other was what is known as the Fries case (Fries vs. New York & Harlem Railroad) decided December 31 1901, in which the Court, by a majority opinion, became persuaded that the earlier view was in error and that no claim for damages could be maintained. The earlier view was that when the Harlem Railroad commenced to use the steel viaduct it started a new trespass upon the rights of the abutting owners for which it could properly be held liable. The later view, to which a majority of the Court of Appeals was com-

refuse to obey, to operate its trains upon the structure which the State had built.

This seemed simple justice to the railroad. On the other hand, it was manifestly hard on the abutting property owners, since the position taken by the Court was that where the property of an abutting owner is damaged, or even his easements interfered with, in consequence of the work of an improvement in a public street conducted under a lawful authority, such owner is without remedy or redress if no provision for compensation is made in the statute.

This was the stand in the Fries case. When the Muhlker case came before the Court of Appeals, the moot question, therefore, was whether the Court would adhere to this later ruling, reflecting the opinion of a majority of the bench, or whether it would revert to its stand in the Lewis case which was the judgment of a unanimous Court. Doubts were soon removed. In a broad and unqualified manner the Court re-affirmed the views expressed in the Fries or later case. Chief Judge Parker, who wrote the opinion in the Muhlker case, stated that the decision in the Fries case had been deliberately and carefully made, and reflected the view of a majority of the members of the Court of Appeals at that time and still did. He held very emphatically that the State had power to make an improvement of that kind without compensation to the abutting owners. He admitted that the State also had the power to provide in the Act for compensation to abutting owners and to apportion the expense incurred, in the acquisition of the easements destroyed, upon the Harlem Railroad and the City of New York, as it apportioned the expenses of building the viaduct and making the other changes in the street; and it still had the power, he asserted, to authorize ascertainment of the damages to the abutting owners through its Court of Claims and to provide for their payment; and it may well be, he said, that it would be equitable for it to do so. But that it possessed the power to improve the street, as it did, for the benefit of the public, in the manner that it did, compelling abutting owners to bear so much of the burden of the improvement as resulted from the partial destruction of their easements of air, light aud access, he declared there could be no doubt. He went further, and asserted that if in the judgment of the Legislature it had seemed wise and just to do so, it could have assessed a portion of the expense of the improvement upon the abutting owners instead of placing it all upon the Harlem Railroad and the city.

The United States Supreme Court, in reversing the mitted, was that the improvements made in Fourth Court of Appeals and upholding the plaintiff's claim for Avenue were for the benefit of the public and not for the benefit of the railroad. The State found the Hardamages against the railroad, does not seem to have been much concerned about these conflicting contenlem Railroad in possession of four tracks in the middle tions. We have not yet been able to obtain the full text of the avenue with the right to operate its trains upon them, which right it was enjoying. The State could of the opinion, but from the newspaper accounts of the not deprive the Harlem Railroad of this right to operate same the Court appears to have based its decision upo: its trains in the street, but it had the power in the pubthe broad ground that the abutting property has contract rights which the State cannot take away. It is rather lie interest to compel it to run its trains upon a viaduct noteworthy, though, that even in this instance the deciinstead of in a subway. So the State built the viaduct over the part of the street formerly occupied by the subsion is that of a divided Court, Chief Justice Fuller and Justices White, Peckham and Holmes uniting in a disway and compelled the railroad to stop running its trains senting opinion. Justice McKenna wrote the prevailing in the subway and to run them on the viaduct instead. The State had the power to do these things and the opinion, and said: "We are not called upon to discuss the power, or the limitations upon the power, of the Harlem Railroad, having the right to move its trains over the street, which could not be taken away from it, courts of New York to declare sales of property, or did not lose that right and become a trespasser because it change or modify their decisions, but only to decide that obeyed the command of the statute, which it could not such power cannot be exercised to take away any rights which have been acquired by contract and have come under the protection of the Constitution of the United States."

It had been urged on behalf of the plaintiff that the decisions laid down in the Elevated cases in this State were controlling in the present case and furnished authority for the claims to damages. In the Court of Appeals Chief Judge Parker had expressly said that these decisions in the elevated cases were not in point. "There no attempt was made by the State to improve the street for the benefit of the public. Instead it granted to a corporation the right to make an additional use of the street in the doing of which it took certain easements belonging to abutting owners which it was compelled to compensate them for." In contra-distinction to this view of the Court of Appeals, the United States Supreme Court lays great stress on the cases of the Elevated roads, Justice McKenna saying they were the law of New York when Muhlker acquired his property and "assured to him that his easements of light and air were secured by contract as expressed in those cases and could not be taken from him without payment of compensation." But the U. S. Supreme Court does not base its decision on that ground alone, as may be seen from the following additional extract: "The true relation and subordination of these rights, public and private, is expressed not only by the Elevated cases, but by other cases. They are collected in Lewis's 'Eminent Domain,' and it is there said 'established beyond question is the existence of these rights or easements of light, air and access, as appurtenant to abutting lots, and they are as much property as the lots themselves." Justice McKenna reasons that while ownership or control of the streets is vested in the city, such ownership or control is not absolute, but in trust for the benefit of the public, and neither the State nor the city has the power to direct that any use be made of them which would impair the contract rights of private individuals.

While justice is thus done to the abutting property owners, there is a manifest element of injustice to the railroad. The railroad built the steel viaduct not of its own motion or to promote its own convenience, but for the convenience of the public and in obedience to the requirements of the law. It had no alternative but to obey. It even had to bear a part of the expense of making the change, amounting to a considerable sum in the aggregate. It seems wholly unjustifiable to mulct it in the additional sums required to pay the damage claims of the abutting property owners, whose easements in air and light and access have been encroached upon and impaired. The Legislature, therefore, ought to come to its relief. As noted above, Chief Judge Parker, iu his opinion, expressly stated that the Legislature has the power to authorize ascertainment of the damages to the abutting owners and to provide for their payment, "and

haps from force of habit. It is only within five years that my sons and myself have been largely interested in cattle raising. I have built railroads and have done other big things, for which I have raised many millions of dollars in New York, am familiar with large affairs, and I imagine I am better able to look at both sides of the Beef Trust question than most men who happen to be interested in raising cattle. I therefore venture to address a few words to you suggested by a careful reading of your editorial of March 11th, entitled "Light On the Trust Question."

The Garfield report on the so-called Beef Trust is the text of your remarks.

That report states that 12,500,000 head of cattle are slaughtered annually in the United States, and that the "Big Six" slaughters of these 5,521,697 head, leaving 6,978,303 head slaughtered by all others.

You say the average net profit for the six companies for the twelve months ending June 30 1904, as shown by their "actual bookkeeping records" was 99 cents per head. This is exclusive of the excessive mileage obtained from the railroads for the use of refrigerator cars owned by the packers. You also show from the figures in the Garfield report that if the packers had depended alone on the money received for meat they would have lost over \$11 on every head of cattle slaughtered. But they received \$11 96 per head for the hides and by-products, and managed to make a profit of about 99 cents per head.

You also show that the average price received for hides in the two fiscal years ending with June 1902 and 1903 was \$6 36 each, leaving \$5 60 per head for the by-products other than hides. It is well known that all small butchers and slaughtering establishments of moderate size must throw away a very large share of the offal and other s uff out of which the big packers by their scientific methods realize over \$5 00 per head of cattle. In this respect it is safe to say that the "Big Six" have an advantage of fully \$4 per head over the average of their competitors. The cattle killed by the small butchers in cities and in country towns all over the country amount in the aggregate to several millions annually, and with most of them the by-products other than the hides are a total loss. Over this class of men the "Big Six" must have an advantage of fully \$5 per head on the by-products. To estimate their advantage over the average of their competitors, large and small, at \$4 per head, is certainly under the mark.

Another great advantage enjoyed by the big packers over their competitors is the lessened cost of operation per head of cattle due to their enormous business and to their employment of every mechanical and scientific method. The report states that the cost of labor, of administration and of all other  $\epsilon$ xpenses is \$1 90 per head of cattle in the "Big Six" establishments. The average cost of the same work done in the ordinary way, and which applies to a very large share of the 6,978,303 head slanghtered by others than the  $\Gamma$ rust, must be nearly, if not quite, double \$1 90 per head.  $\exists$  ny person who has seen a big packing establishment in operation, and who has compared its methods with those of the ordinary butcher, cr even with those of a packing house of moderate size, must know that this estimate of comparative cost is very conservative.

The ordinary butcher and small packing establishments have no advantage over the "Big Six" in buying cattle or in selling meat. In fact, the smaller men are at a disadvantage compared with the big ones in these respects, but to consider them on an even plane is over fair to the packers.

The conclusion seems inevitable that the "Big Six" must have an advantage of at least \$5 per head in by-products and expenses over the average of their competitors, even if it is true, as they claim, that they take no unfair advantage in buying cattle and in marketing meat.

it may well be that it would be equitable for it to do so." In common fairness this is what should be done.

### THE BEEF TRUST AND THE RAILROADS.

We have received the following letter, pregnant with facts regarding the Beet Trust question, from one of our subscribers in New Mexico whom we hold in high esteem.

THE SOUTHSPRING RANCH AND CAITLE COMPANY, ROSWELL, NEW MEXICO, March 25, 1905. Editor of the Commercial and Financial Chronicle, New York: I have been a reader of the CHRONICLE for 30 years, and read it now out here in New Mexico partly because I like to know what is going on in the busy world and partly perThe following conclusions, therefore, seem to be unavoidable.

First.—If it is true that the profits of the "Big Six" are only 99 cents per head on the cattle slaughtered, then those who kill and market the product of nearly 7,000,000 head must lose about \$5 per head, or \$35,000,000 annually. This is too absurd on the face of it to be possible of belief. Butchers generally are among the most prosperous men in the community.

Second.—If those who slaughter 7,000,000 head annually do it without suffering any loss—(that is, if they work year in and year out for nothing, but just come ont even)—then the "Big Six" must be making at least \$6 per head on the cattle they kill, instead of the 99 cents which they admit. If the packers have told the truth, and the whole truth, to the agents of Mr. Garfield, and if the conclusions in his report are a fair deduction from the facts they obtained, it is impossible that independent packers and butchers who do business on a moderate scale could continue in business without suffering ruinous losses every year. But they do not lose money as a whole. Some of them are being crowded to the wall by the Trust, but not by fair competition.

Since the six big packers have been working together in harmony (call it Trust or what you will), cattle have been lower in price, compared with the selling price of beef, than they ever were for any considerable period of time. There have in the past be n spasms of violent fluctuations, when cattle have been low, and beef high, or vice versa, due to transient causes, but there has never been in the history of the trade the chronic condition of low-priced cattle and high-priced beef that has ruled since the packers' Trust was formed. This well known and undeniable condition must have a cause, and what cause can there be other than the juggling of both sides of the market by the Trust?

The greater the difference in price between beef on the hoof and beef in the retail butcher's shop, the greater inducement there would naturally be for men of means to go into the business of killing cattle and selling meat. For several years this gap has been unnaturally wide - in fact, unprecedentedly wide. Why have not men taken advantage of it to make money? A very good reason indeed. The "Big Six," or its allied interests, own a very large percentage of the refrigerator cars in this country. Their business is so large that where there are competing lines of railroad they can play off one against the other, and bulldoze the whole of them into paying  $\epsilon$  xorbitant service for the cars and in giving them low rates and other favors besides. The unreasonable mileage amounts to such a large cut in the rate that independent packers find it impossible to compete on long haul business. Where the market for fresh beef is near the independent packing house, the disadvantage is not so great. The advantage of the "Big Six" on shipments from Chicago or Missouri River points to New York, Philadelphia, Washington and to the East generally, or to Europe, is so great as to be prohibitive to packers who do not own cars. The difference in the rate caused by the mileage drawback is not the only disadvantage the independent packer suffers. To successfully compete with the Trust on distant shipments he must ship bis meat every day. His customers must know on what they can depend. But the independent packers cannot get refrigerator cars with regularity as the men can who own them. The railroads own few of such cars and cannot often furnish them, and sometimes dare not even if they could, because they are afraid of the concerns which are forever swinging a big club over their beads. The fact is that in this respect the railroads should be considered the victims of the packers rather than their accomplices. Several attempts have been made in recent years to organize large packing establishments to compete with the Trust, but they have failed to attract the necessary capital. Why? Largely because of the advantage the Trust has in owning an enormous number of refrigerator cars, and through which their owners get what amounts to a big rebate on freight rates under the guise of car service. I am not guessing at this bulldozing of the railroads by the packers. I have, through my railroad experience and railroad acquaintance, known it for years, I have heard railroad Presidents and Traffic Managers in private roundly berate and curse the packers for their selfish methods. The owners of the roads in New York look for results, and woe to the President or Traffic Manager who does not get them. They cannot lose the packers' business and keep their heads on their shoulders. So, Mr. Editor, it seems to me that this Beef Trust question comes back largely to the question of rebates and special privileges unwillingly granted to the packers by the railroads. The concessions are the result of "stand and deliver" methods which few but railroad men can understand the force of. If by any fair and safe means all shippers could be put on absolutely the same plane, so far as the cost and facilities of transportation are concerned, it would solve the Beef Trust question, and God knows how many other evils.

Railroad managers would hail it as a deliverance. It would be a means of grace (as the preachers say) to many a sorely perplexed Traffic Manager who does not like to do wrong, but who must get the business or lose his head. Railroad owners would be vastly benefited, and those savings banks and widows and orohans who own railroad bonds, about whom you have so much concern, would be made safer.

This "equality of opportunity" is the only thing which is needed to induce capital to invest in the packing business on a scale large enough to successfully compete with the "Big Six."

The control of the railroads is getting into so few hands that it does seem that their owners and managers should be able to obliterate the rebate, private-car and kindred evils. They are able to jointly raise rates all over the West and to make many regulations onerous to the public, but profitable to themselves. It is hard to believe that they cannot enforce equity between themselves and all shippers, including the packers and the public generally. That means that they should charge every shipper the same price for the same service. They should deal with the public just as the Government deals with it in selling postage stamps. To this ideal it would be hard to attain, but they can, if they will try, come vastly nearer the goal than they do now. In their efforts to retain the good-will of the packers and other great shippers, they pay a terrible price in money, and they seem to forget that in doing so they are losing ten times as much in another direction-the good-will of the public.

If the railroad owners and managers have power to reform the evils which the best men among them admit and deplore, and if they fail to exercise that power, then they ought to be compelled to do so by some power greater than their own.

If they are so completely dominated by the Trust, or so distrustful of each other that they cannot reform the abuses without help, then they ought to welcome the help of Uncle Sam. If the railroads unitedly are not greater than the "Big Six," the only higher power on earth is the United States Government. Every consideration of justice and prudence should teach the railroads not to let the evils grow and fester until they cause some Bryan to be elected to the Presidency to play the role of a bull in a china shop.

Yours truly,

### J. J. HAGERMAN, (President).

There can be no doubt that our correspondent, by reason of his knowledge and experience, is, as he says, "better able to look at both sides of the Beef Trust question than most men who happen to be interested in raising cattle," and his letter is therefore deserving of careful consideration. As to his estimates of the profits made by the big packing establishments, it is easy to show that he is far astray. It will be observed that he adopts the reductio ad absurdum method. He argues that the large concerns, because of their scientific methods and the utilization of all waste, have an immense advantage over the ordinary packing concerns. This advantage he estimates at "five dollars per head in by-products and expenses over the average of their competitors, even if it is true, as they claim, that they take no unfair advantage in buying cattle and in marketing meat." Hence it follows that if the profits of the "Big Six" are only 99 cents per head on the cattle slaughtered, then the outside concerns on their product of 7,000,000 head of cattle must lose about \$5 per head, or \$35,000,000 annually. This, he well says, is too absurd for belief; no one will question his asserion that "butchers generally are among the most prosperous men in the community." Proceeding a step further in this process of reasoning, he reaches the conclusion that as the small butchers cannot be assumed to be suffering any loss "then the 'Big Six' must be making at least \$6 per head on the cattle they kill instead of the 99 cents which they admit."

But let us see where our correspondent's conclusions lead to. We need hardly say that the large packing concerns have not been in the habit of taking the public into their confidence and disclosing the aggregate amount of their profits from year to year. With one exception they are controlled in each instance by a few leading individuals, and their affairs are a scaled book. The exception is Swift & Co., the stock of which is listed on the Boston Stock Exchange; the company has a stockholders' list of over six thousand names. This concern, therefore, is obliged to furnish some information at times, though even in its case the details are of the most meagre description. There is no statement of profits for the twelve months, but this much is known, that \$2,100,000 was paid out in dividends on the company's capital stock in 1904, while at the same time there was an addition to surplus of \$1,750,000, making the apparent profits for the calendar year 1904 \$3,850,000; for 1903 the apparent profits arrived at in the same way were only \$3,000,000, and for 1902 the amount was \$3,-250,000. Now suppose that our correspondent is correct in his contention; suppose that instead of 99 cents a head the packing concerns are making \$6 per head; what follows? Swift & Co. in 1903 killed 1,578,215 head of cattle. With a profit of \$6 per head the aggregate of profit on this item of cattle-slaughtering alone would have been over \$9,000,000 (or three times the apparent profits on the entire business of the company of every description); and to this would have to be added the profit made by the same concern in slaughter. ing 4,079,756 hogs and 2,334,261 sheep in the same

On the basis assumed, we hence get profits of such huge proportions that the result is manifestly absurd showing clearly that the estimated profit of \$6 per head of cattle slaughtered is excessive in the extreme. On the other hand, if we allow a profit of 99 cents per head, as per the Garfield report, on the 1,578,215 head of cattle slaughtered by Swift & Co., and add similar modapproximates closely to the apparent actual total of profits as represented by the amount paid out in dividends and the sum added to surplus. And the result would be the same if we should deal with the combined

The Garfield report ascribes the success of the large cents per head derived from the possession of private-car facilities we need hardly say is an enormous advantage packing concerns in earning high dividends, notwithstanding the low rates of profit, to the enormous scale of as things stand to-day. As our correspondent well says, through the excessive allowances on these refrigerator their business, this having aggregated in 1903 no less cars the owners get what amounts to a big rebate on than \$700,000,000. On the other hand, the smaller concerns seem to do their business in the main in a freight rates under the guise of car service. His reference to the bulldozing tactics employed by large different field from that dominated by the "Big Six," a shippers-to the practice of playing off one railroad large proportion of their production going to minor against another for the purpose of obtaining low rates markets. For instance, in New York the "Big Six" furnished about 75 per cent of the beef consumed, in and other favors—uncovers another and still more serious Boston more than 85 per cent, in Philadelphia about 60 ill. The circumstance that the big concerns are able to per cent, in Pittsburgh more than 60 per cent, in Provido such an immensely preponderating proportion of the dence more than 95 per cent. On the other hand, business at the leading centres must be considered as Buffalo and cities west of Pittsburgh, such as Cleveland, supporting the contention that independent packers find it Cincinnati and Indianapolis, receive only from 10 impossible to compete on long-haul business because the to 333 per cent of their beef supply from these large shippers hold the whip-hand in transportation facilsix companies. The report says, with reference to the 'ities. No one cognizant of the facts will deny that the

supply coming from outside sources, that in most of the larger cities there are important establishments slaughtering from 10,000 to 40,000 cattle per year, which, while less efficient than the great Western houses, are probably not at a great disadvantage in this respect. Furthermore, a considerable portion of the cattle locally slaughtered in most cities is obtained from a moderate distance, giving the local concern a decided advantage over the Western packer in respect to transportation. In New England, in New York City, and in some other places where the local establishments are more largely dependent upon live cattle brought from the West, it is admitted that these establishments are at a decided disadvantage in competing with the Western packers, who pay freight only on the less bulky and more valuable commodity, dressed beef. But this disadvantage, it is claimed, is in some measure offset by the usual preference for home-killed beef. Again, though local butchers in cities and towns of less than 50,000 population are generally much less efficient in their methods than the large Western concerns, it is contended that such disadvantage is usually more than counterbalanced by the fact that in nearly all parts of the United States, except New England, they can usually draw practically their entire supply of cattle from the immediate vicinity. We are not concerned to defend the Garfield report, but its conclusions as to the profits of the "Big Six" are apparently fortified in so many different ways that we cannot see how the figures can be successfully controverted.

But our correspondent is on sure ground when he comes to deal with the evils and the iniquities of the year. private-car lines. There he leaves the field of conjecture and enters the realm of facts. Moreover, his previous experience as a railroad manager qualifies him to speak with authority. His statement as to the pernicious practices that attend the ownership and operations of these lines arc not one whit exaggerated. The facts are admitted by every one and have been brought out erate profits on the 4,079,756 hogs killed and the 2,334,by official investigation time and again. There is abso-261 sheep killed, we get an aggregate of profits which lutely nothing in the report of the Commissioner of Corporations to disprove the very serious charges which have been made against these private-car lines. ln fact it will be remembered that in this report it is estimated that in addition to the 99 cents profit per output of the whole six packing concerns instead of with head realized from the slaughter of cattle the equivalent of 25 cents more per head was real-Swift & Co. alone-that is, our final total would be of preposterous proportions, for the six concerns in 1903, ized from the ownership of the private refrigbesides 51 million head of cattle, slaughtered also over erator cars and a further 25 cents per head from 20 million head of hogs and sheep. elaboration of by-products. A profit of 25 the

railroads should be considered the victims of the packers rather than their accomplices.

This, therefore, is the evil to the redress of which Congress and Government officials should direct their efforts. Our correspondent puts the case in a nutshell when he insists that the Beet Trust question in its final analysis comes back largely to the question of rebates and special privileges unwillingly granted to the packers by the railroads. Very strangely, too, in all the plans for new legislation this most important matter of all-this, the crying evil of the day-is left wholly untouched. Has not the time arrived for striking at the real root of the trouble?

### RAILROAD GROSS EARNINGS FOR MARCH.

Returns ct railroad gross earnings for the month of March reveal quite satisfactory comparisons, and the results furnish evidence that the conditions which brought about decreased earnings in February were not permanent in their character. Our compilations comprise merely the roads which furnish early preliminary returns, covering an aggregate of S0,134 miles ot line. These roads show an increase of \$5,199,940 over the receipts in the corresponding month last year, the ratio of gain being 10.21 per cent. This is in sharp contrast with the showing for the month of February, when our early statement (covering substantially the same roads) recorded a decrease of \$1,263,458, or 2.81 per cent.

Weather conditions which had been one factor in the decline in February were decidedly improved. It is no doubt correct also to say that March weather this year was better than March weather in 1904. Furthermore, the situation as to the cotton movement in the South and Southwest was completely reversed. It will be recalled that in February planters were withholding their cotton from market on account of the low market price of the staple, this policy having been carried to such lengths that the receipts of cotton at the Southern ports actually fell very much below the receipts in February 1904, following the small crop of 1903. In March, on the other hand, cotton again came to market with considerable freedom, bringing a great increase in the movement, and it is significant of the bearing that this had on the traffic of the roads concerned that Southern and Southwestern systems are this time distinguished again for pretty general and quite large increases in earnings.

As it happens, too, the grain movement in the West increased over a year ago, and the receipts of swine were likewise heavier. Of course trade and business continued active, furnishing a good volume of merchandise freight, and the iron and steel industry continued buoyant in the extreme. In Colorado there was a decided advantage in the absence of the miners' strike, which was such a decidedly adverse feature in that State a year ago. Altogether, it will be seen there was quite an aggregation of favorable circumstances, and it is natural that the effects should be reflected in enlarged totals of earnings. Comparison is with diminished earnings a year ago, though on the whole the falling off then (treating the roads collectively) was inconsiderable. As far as the separate roads were concerned, there were some large losses at that time, but these were offset by improved results on other roads, and in the aggregate the decrease on the roads making early reports was hence only \$137,135, or but a small fraction of one per cent. The year before,

on the other hand-we mean in March 1903-the improvement had been very noteworthy, reaching no less than \$\$,021,817, or 14.12 per cent. In fact up to 1904 there had been large and continuous gains in March for many years, as the following table will show.

Note.-Neither the earnings of the Mexican roads nor the mining operations of the anthracite coal roads are included in this table.

The gains come from all parts of the country, but Southern and Southwestern roads are particularly prominent in that regard, which indicates the part played by the cotton movement in the traffic of these roads. The improved earnings upon these lines is the more significant as many of these roads also had increases in March last year, forming exceptions to the rule of decrease at that time. For amounts of increase the Northern transcontinental lines excel all others, Northern Pacific recording an addition of \$667,555, the Canadian Pacific an addition of \$560,813 and the Great Northern addition of \$378,071. The Canadian Pacific anin March 1904, on account of the severe experienced, reported \$83,565 decrease weather and the Northern Pacific \$23,789 decrease; but the Great Northern then had \$142,068 gain, to which the present year's increase is additional. The New York Central also stands near the top of the list with a gain of \$543,038, following \$186,662 loss in March 1904. There is only one road the present year out of the sixtytwo reporting which has a decrease in excess of \$30,000, namely the Hocking Valley with a loss of \$81,345; there was a loss last year on this road in amount of \$12,818. In the following we show all changes on the separate roads, whether increases or decreases, for sums in excess of \$30,000.

As indicating the extent of the change in the cotton movement, it is only necessary to state that at the Southern outports the receipts for March 1905 amounted to 693,262 bales, as against only 265,800 bales in March 1904. The shipments overland were also somewhat larger, aggregating 171,128 bales in March 1905, against 153,466 bales in 1904 and only 119,155 bales in 1903.

While the grain movement in the West was quite generally larger than a year ago, wheat formed an exception to the rule, reflecting in this last season's short crop. At the Western primary markets the wheat receipts for the five weeks ending April 1 were only 13,-655,435 bushels in 1905 as against 16,093,243 bushels in the corresponding five weeks of 1904. The corn receipts, on the other hand, increased almost 112 million bushels and there was also a considerable increase in the deliveries of oats. Taking wheat, corn, oats, barley and rye together, the receipts for the five weeks the present year were 63,701,513 bushels, as against only 53,247,263 bushels in 1904. The details of the grain movement in our usual form are shown in the following.

Bold at the Stock Exchange. § Of this amount, 10 shares were sold at the Stock Exchange.

-The details connected with another large trust company consolidation in this city were announced this week. The controlling interests in the North American Trust Company, which recently arranged a merger of that institution with the Trust Company of America, now propose uniting these corporations with the City Trust Company, The consolidated concern, of which Mr. Oakleigh Thorne is to be President, will be known as the Trust Company of America, with offices in the North American Trust Company building at 185 Broadway, and have \$2,000,000 capital and \$9,600,000 surplus. Together their present deposits exceed \$59,900,000. After reducing its capital from \$2,000,000 to \$1,000,000, the North American Trust will contribute \$4,350,000 to the new institution's surplus and capital fund, while the Trust Co. of America will furnish \$4,350,000 and the City Trust \$2,900,000, a total of \$11,600,000. By this plan the Trust Company of America stockholders and those of the North American Trust Compony will get (of the reduced stock) 71% shares of new stock for each 10 shares of their old holdings and the City Trust stockholders 5 shares of the new for 10 of the old. Over two thirds of each company's stock has been deposited with Messrs, George R. Sheldon and H. B. Parsons, representing the City Trust; William H. Leupp and Emerson McMillin, representing the Trust Company of America, and Charles T. Barney and Oakleigh Thorne, representing the North American Trust, who were appointed a committee to pass upon all the assets and conclude the final details. In passing upon the assets, five affirmative votes on this committee are necessary; the representative of either concern can object to any assets owned by the other two and require them to be replaced by cash. It is believed such an arrangement will incure the new institution starting only with the very best of assets. The action of the committee will be submitted for approval to the various boards of directors at meetings next Tuesday, and later the proposition will be placed before the stockholders of each company.

-The Governor of Nebraska has signed the Negotiable Instruments' Act, passed by the Legislature of that State, thus bringing the latter into uniformity with the other States already having the Act in their statutes.

-The price of Philadelphia Stock Exchange seats continues to advance in value, a transfer having been made this week at \$12,000 while bids are reported as high as \$18,750. A seat on the Montreal Stock Exchange recently sold for \$28,500, this being an advance of \$5,000 from the last previous sale.

-Since Mr. Alfred H. Curtis's accession to the presidency. the National Bank of North America of this city has gained

v These figures are down to the end of the third week of March only. T Figures are for period to April 1. • Figures are for four weeks ending March 25.

\$4,000,000 deposits. Lately some strong financial interests have become identified with the institution.

-The Coal & Iron National Bank of New York, which opened for business April 11 1904, has become a "non-member" bank, and its checks will in future pass through the Clearing House, the Mechanics' National Bank acting as its Clearing House agent. The Coal & Iron National Bank during the year of its existence has built up a deposit line of \$4,176,168 and passed \$33,627 to profit and less account. It has in addition written off the premium on its Government bonds and cost of furniture and fixtures. The Bank's of. ficers are: President, J. T. Sproull; First Vice-President, Anthony A. Lisman; Second Vice-President, David Taylor; Cashier, Addison H. Day.

-The New York Stock Exchange Governing Committee has voted to close the Exchange on Friday next-Good Friday. According to present indications the Exchange will remain open the next day, Saturday. The New York Coffee Exchange and the New York Cotton Exchange will, however, remain closed on both days.

-Jordan L. Mott Jr. was elected a director of the Twenty-third Ward Bank of Bronx Borough, at a meeting on Tuesday.

-Mesers. Edward Sweet & Co. announce to day the removal of their offices to 17 Nassau Street, Equitable Building. The new banking rooms are spacious, well appointed, attractively finished, and easily reached from Nassau Street by a private entrance. This is the fourth home this old established house has had since it was founded in 1854 by Edward Sweet. The firm commenced business on the corner of Wall and Broad streets, where the present offices of H B Hollins & Co. stand, moving next to 18 Wall Street, and later (in 1879) to its familiar quarters at 38 Broad Street. The concern has participated, with other well-known Wall Street honses, in many important financial transactions. The senior member, Mr. William Lanman Ball, formerly President of the New York Stock Exchange, commenced his connection with the firm in 1867. The other members are Messre. Frederic Van Lonnep, Frederic Bull, Henry W. Bull, R. M. Stnart Wortley and Frank L. Schoopmaker. The firm is actively represented on the New York Stock Exchange by Messrs. Wortley and Schoonmaker.

-Ferdinand R. Moeller has tendered his resignation as Secretary and Treasurer of the West Side Trust Company of Newark, N. J, to become effective May 1. Mr. Moeller will enter the brokerage business.

-Frank L. Luff, previously Assistant Cashier of the Merchants' National Bank of Newark, N. J., has become Treasurer of the Federal Trust Company of that city. John W. Crooks, heretofore Assistant Secretary and Treasurer of the company, is now its Secretary. The vacancies occurred through the resignation of Charles H Ely, the former Secretary and Treasurer.

-Charles Torrey, President of the Boylston National Bank of Boston, Mass., died on Sunday last. Mr. Torrey was also a member of the firm of Bowker, Torrey & Co., marble cealers, and of Torrey & Co., marble importers. He had been identified with the Boylston National for the past twenty years. He was seventy-nine years of age.

-A semi-annual dividend of 2½ per cent, payable April 25, has been declared by the Union Trust Company of Baltimore. Md., on its capital of \$1,000,000. This is the first return to the stockholders, it is announced, since the company's resumption in December 1903, after the discharge of the receiver, in whose hands it had been temporarily placed.

-Action regarding the proposed increase in the capital of the Central National Bank of Cleveland will be taken by the stockholders at a meeting on May 8. The question of amending the articles of association to provide for an increase in the number of directors will also be considered at the meeting. As noted previously in this column, new stock to the amount of \$200,000 is to be issued by the bank, glving it a capital of \$1,000,000.

-The consolidation of the American Trust & Savings Bank and the Federal Trust & Savings Bank of Chicago, which has been rumored for several weeks past, is, from present indi-

of the Federal will be retired. The new building the American Trust is to erect at the northeast corner of Monroe and Clark streets and upon which work is soon to begin, will be the home of the consolidated bank when completed a year hence.

-The Fort Dearborn National Bank of Chicago announces that the entire amount of its authorized capital of \$1,000,000 has been paid in. The stockholders voted in February to increase the capital from \$500,000.

-Two of the most prominent St. Louis banks, the American Exchange National and the Mechanics' National, are to be consolidated. The Mechanics'-American Exchange National Bank will evolve from the combination, the new institution having a capital of \$2,000,000 and a surplus of \$3,-500,000. Both banks, it is stated will close their separate affairs before the consolidation takes place and the consolidated institution will start with all the advantages of a new bank, in addition to having an established business. The basis of consolidation, it is annonoced, will be a 25-per cent interest in the new concern by the American Exchange National (capital \$500,000) and a 75-per-cent by the Mechanics' National (capital \$2,000, 00). R. R. Hutchinson, President of the Mechanics' National, will retire from active business, and Walker Hill, President of the American Exchange, will be the chief executive of the consolidated bank, the Vice Presidents of which will be H. P. Hilliard, Ephron Catlin and W. J. Kinsella.

-Frank Jay Gou'd and William H Taylor, the latter Vice-President of the Mercantile National Bank and the Bowling Green Trust Co. of New York, have been elected to the board of directors of the Bank of Richmond, at Richmond, Va.

-The Direction Der Disconto-Gesellschaft of Berlin, in its annual statement, shows net profiles for the year of £354,573, out of which a dividend of  $8\frac{1}{2}$  per cent was declared. The total turnover, including that of the Norddeutsche Bank in Hamburg, amounted, roughly. to £2,011,600,000, against £1,570,800,000 in 1903. The balances on deposit and current accounts are £14,198,075, against £12,436,160 in 1903.

-The thirty-fifth annual meeting of the Dautsche Bank was held at Berlin March 29th. The net profits for the year 1904 were £1,216,198, from which a dividend of 12 per cent was declared on £8,000 000 of capital stock. There was added £81,620 to the reserve, bringing that fund to a to al of £3,883,142, equal to 42.59 per cent of the bank's fully paid capital of £9,000,000. The turnover of the bank in 1904 amounted to £3,844,000,000 against £3,982,000,000 in 1903. The report has the following:

The growth of our business has again compelled us to enlarge the Bank's premi-es in Berlin by purchasing, at a cost of £226.500, the freehold of a fresh block of property separa ed from our main offices by the Franzoesische Strasse and comprising an area of about 44,445 square feet. The buildings at present on the site not being suitable for banking offices will in due conrase be replaced by new structures especially designed to meet our requirements, and which, it is hoped, will in part be ready for occupation in about two years' time.

### Monetary Commercial English News

[From our own correspondent.]

LONDON, Saturday, April 1, 1905.

As the week draws to a close, the peace rumors have given a fillip to business on the Stock Exchange. The French banks are nowilling to lend while the war goes on. But they offer any amount of money if peace is made. And some of the great German banks have also intimated to the Russian Government that they will be willing to bring out a loan in Germany as soon as peace is made. Probably the attitude assumed by Germany in regard to the Moroocan question, and the nervousness it has caused in France, has likewise strengthened the hands of the French Government in urging advice upon the Russian Government Up to Friday, business was very quiet in the Stock Exchange, although even then the tone was good and the hope of peace was general. But money was scarce and dear. It was found, for example, that the speculation here in American railroad securities was larger and weaker than had been expected. It was well known, of course, that there was a good deal of speculation. But apparently many very weak operators had bought far beyond what they were entitled to do. Moreover, just at the end of the quarter the financial

cations, to become a reality, the committees appointed by the directors of the two institutions having agreed upon a basis of consolidation. It is appounded that the capital and surplus of the new bank will be about \$5,000,000 and that its official staff will comprise all the officers of the two present institutions, with Edwin A. Potter as President and T. P. Phillips as active Vice President. The two institutions rank among the foremost in Chicago. The American Trust & Savings Bank has a capital of \$2,000,000, snrplns and profits of \$1,374,721, and deposits in the neighborhood of \$22,000,000. The Federal Trust & Savings Bank has \$2,000,000 capital, \$850,544 surplus and profits, and in less than three years (it began in June 1902) has accumulated deposits of over \$10,-000,000. It is understood that it was owing to the ill health of its President, T. P. Phillips, that negotiations for the consolidation were entertained. The American Trust is to issue \$1,000,000 of new stock as part of the plan, while the stock requirements are large, and the result was that money was both scarce and dear for the Stock Exchange settlement which ended on Thursday evening. Especially the charges were heavy in the American department.

In addition to this, the attention of the city was largely occupied with the Japanese loan. The applications approached twelve times the amount offered for subscription, and the subscriptions, not only from the United Kingdom but from the Continent, were very large. Applications were sent in from almost every part of the Continent-France, Germany, Holland, Belgium, Switzerland, Denmark and Norway and Sweden. The subscription list was opened on Wednesday morning, and it was closed in London at about half-past two the same afternoon. During the time it was open the rush to get applications was almost indescribable. The total applications, as already said, amounted to between 170 and 180 millions sterling. Five per cent had to be deposited on that total, which would make an aggregate deposit of from 81/2 to 9 millions sterling. Naturally the payment of so large a sum increased the tension in the market. But the three banks which brought out the loan acted with great judgment, for almost as soon as the deposits were paid in they were lent out in the market again. The stringency, therefore, was nothing like so great as it undoubtedly would have been if the affair had been managed with less skill.

In Paris business has been very quiet. The Russian reverses and the internal condition of Russia were bad enough. But the raising of the Moroccan question by Germany, the tone of the German press and the speech of Count Von Balow all tended to increase nervousness throughout France. Quickly, however, calmness was restored when it was known that the British Government had given assurances that it would act up to the spirit of the Anglo-French agreement. There is, hence, a much more hopeful feeling in France as the week draws to an end, since everybody hopes that Germany will not plunge into a controversy with both France and England regarding a matter which has been known to Germany for over a year. In Germany, also, business has been quiet all through the week, mainly, of course, owing to the condition of Russia and the opening of the Moroccan question, but partly, also, owing to the tightness of money, which is always great at the end of March.

For the reasons already stated, the outside market has had to borrow a large amount from the Bank of England this week. Consequently it is probable that money will continue in good demand until Wednesday, when the interest on the national debt will be paid out. After that the general expectation is that money will become abundant. If the hope is realized, and peace is quickly concluded, there will be an impetus given to business of every kind. Already trade in this country is distinctly improving. The cotton trade in particular is as prosperous as it ever has been, and almost all the other great trades are decidedly better. There is a much more confident feeling everywhere, and as the production of gold is increasing on a great scale, the public at the moment is looking forward to the future in high hopes. Nobody believes that the German Government will push matters to extremes in regard to Morocco. It can, of course, make the task of France in that country much more difficult than it otherwise would be, but when France is willing to give all the assurances that Germany may require, and all German interests in Morocco will be respected, nobody can believe that Germany will pursue a course which must end either in war or the humiliation of France. Little serious apprehension, therefore, is felt in this country respecting the German

Government loans. Therefore, they are not trustee stocks, which undoubtedly diminishes their value. In the last place, the Japanese loan was out at the same time, and the interest on that was really somewhat over 5 per cent, while the interest on the Canadian loans was only a little over 3%. The public just now pays a great deal of attention to the rate of interest. For many years the interest rate had been dropping until little more than 3½ per cent could be obtained on the money invested. Since the South African war all this has changed and people are very anxions to secure a good rate of return during the short time that it is likely to be possible.

The India Council continues to sell its drafts well. It offered for tender on Wednesday 70 lacs and the applications amounted to 498 lacs at prices ranging from 1s. 4d. to 1s. 4 1-16d, per rupee. Applicants for bills at 1s. 4d. and for telegraphic transfers at 1s. 4 1-32d. per rupee were allotted about 13 per cent of the amounts applied for.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

Messre. Pixley & Abell write as follows under date of March 30, 1905:

Gold-The demand for Paris has been just sufficient to absorb all this

£75,600. Silver-The market has been persistently dull, and we have been as low as  $257_{8d}$ . for cash, the fall being accentuated by tired holders trying to realize on a market devoid of buyers. At that level we found a good demand both for India and the Far East, and we recovered to  $261_{18}$ . for cash and  $2515_{16}$ d. forward, at which rates we close with an nucertain tendency. America has only been a moderate seller. For-ward silver has shortened to  $\frac{1}{8}$ d. under cash and is the better market of the two. The Indian price to day is Rs. 663 per 100 tolahs. Arri-vale: New York, 2207,000; Australia, 24,000; Chili, 23,000; total, 2214,000 Shipments: Bombay, 2109,500. Mexican Dollars-These coin are still nominal.

The quotations for bullion are reported as follows:

claims in regard to Morocco.

The number of new issues brought out lately has been very large. And many of them, though excellent, have not been very successful. Two issues, amounting together to nearly six millions sterling for railway construction in Canada, and guaranteed by the Canadian Government, have been fully taken. Of course they were underwritten and the money is, therefore, forthcoming. But the public subscriptions were not satisfactory. Partly this was due to the mistake made by the Canadian Government when it negotiated with two different houses that it did not let either of the two houses know what it was doing with the other, and therefore the public was rather confused and surprised to find two issues guaranteed by the Canadian Government suddenly brought out almost together. Partly, also, the Canadian Government brought the issues out as railway loans, not as Canadian

The following shows the imports of cereal produce into the United Kingdom during the thirty weeks of the season compared with previous seasons:

Imports and Exports for the Week.-The following are the imports at New York for the week ending for dry goods April 6 and for the week ending for general merchandise April 7; also totals since beginning first week January.

FOREIGN IMPORTS.

For week.	1905.	1904.	1903.	1902.
Dry Goods. General Merchandise	\$3,054,000 14,745,114	\$2,354,164 8,758,215	\$3,010,172 10,509,351	\$2,336,134 8,502,784
Total	\$17,799,114	\$11,112,379	\$13,519,523	\$10,838,918
Since Jan. 1. Dry Goods. General Merchandise	\$44,379,048 165,896,707			
Total 14 weeks	\$210,275,755	\$171,373,682	\$173,931,960	\$155,893,202

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending April 10, and from January 1 to date.

EXPORTS FROM NEW YORK FOR THE WEEK.

	1905.	1904.	1903.	1902.
For the week Previously reported	\$12,415,488 134,299,556		\$9,882,118 139,065,696	\$12,563,812 122,619,101
Total 14 weeks	\$146,715,044	\$137,551,843	\$148,947,814	\$135,182,913

NOTE.—As the figures of exports as reported by the New York Custom House from week to week frequently show divergence from the monthly totals, also compiled by the Custom House, we shall from time to time adjust the totals by adding to or deducting from the amount "previously reported."

The following table shows the exports and imports of specie at the port of New York for the week ending April 8 and since Jan. 1, 1905, and for the corresponding periods in 1904 and 1903.

EXPORTS AND IMPOBTS OF SPECIE AT NEW YORK

	EXP	ORTS.	IMPORTS.		
Gold.	Week.	Since Jan. 1.	Week.	Since Jan. 1.	
Great Britain France	••••••	\$1,500 20,899,553		\$330,922 3,010,406	
Germany West Indies	******	3,509,917	\$51,300	245,212	
Mexico South America All other countries	\$4,000	28,300 7,250,000 1,000	4,384 16,031		
Total 1905 Total 1904	\$4,000 3,246,107	5,945,381	\$71,715 23,219	\$4,030,214 4,371,252	
Total 1903 Silver.	29,780	2,432,725	7,193	2,381,174	
Great Britain France	\$359,625	308,000	*******		
Germany West Indies	2,006 942	9,000 32,414	\$20 477	\$20 24,911	
Mexico South America All other countries	*******	679,999 3,000	24,511 190,545	206,073 637,993 859	
Total 1905	\$362,567 746,905	13,856,477	\$215,553 30,131		
Total 1903	426,630	10,666,886	8,961	332,175	

Of the above imports for the week in 1905, \$51,300 were American gold coin and \$--- American silver coin. Of the exports during the same time, \$4,000 were American gold coin and \$---- were American silver coin.

WALL STREET, FRIDAY, APRIL 14, 1905.-5 P. M.

The Money Market and Financial Situation.-Practically no influences that are new have affected the security mar-kets this week. Noteworthy changes have occurred in a few cases, of which mention is made in our review of the stock market below, but these are the result of special causes which have not applied to the market as a whole.

Conspicuous among the special causes referred to has been the anticipated distribution of Northern Securities assets in the liquidation of that company, soon to take place. Another was rumors of an increase in Reading's dividend rate which accompanied an unusual advance in Reading shares while other coal stocks were weak or barely steady.

A feature of the present market situation is the fact that dealings in the bond department at the Exchange are relatively small when compared with the rather unusual activity in the shares department. This indicates a limited investment demand; but the open market may not be an accurate criterion of such demand when the absorption of new issues through other channels is as large as at present.

The foreign exchange market reflects easy money market conditions abroad and a somewhat firmer local money mar-ket—the rates for call loans being quoted at 4 per cent.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from  $2\frac{3}{4}$  to 4 p. c. To-day's rates on call were  $2\frac{3}{4}(3\frac{3}{4})$  p. c. Prime commercial paper quoted at  $4\frac{3}{4}$  p. c. for endorse-

ments and 4@4<sup>1</sup>/<sub>2</sub> p. c. for best single names. The Bank of England weekly statement on Thursday showed a decrease in bullion of £1.037,228 and the percent-age of reserve to liabilities was 52.97, against 51.95 last week, the discount rate remaining unchanged at  $2\frac{1}{2}$  per cent. The Bank of France shows an increase of 3,900,000 francs in gold and a decrease of 3,300,000 francs in silver. NEW YORK CITY CLEARING-HOUSE BANKS

\*\$16.967,300 United States deposits included, against \$16.903,200 last week and \$56,121,400 the corresponding week of 1904. With these United States deposits eliminated, the surplus reserve would be \$12,924,350 on April 8 and \$12,890,375 on April 1. NOTE.—Returns of separate banks appear on the preceding page.

Foreign Exchange.—The foreign exchange market was lower this week, influenced by offerings of finance and security bills and by a light demand for remittance.

To-day's (Friday's) nominal rates for sterling exchange were 4 85 for sixty day and 4 87 for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8430 @4 8440 for long, 4 8610@4 8615 for short and 4 8630@ 4 8640 for cables. Commercial on banks, 4 8390@4 84, and documents for payment, 4 8325@4 8430. Cotton for payment, 4 8325@4 8330; cotton for acceptance, 4 8390@4 84, and grain for payment, 4 8420@4 8430.

To-day's (Friday's) actual rates for Paris bankers' francs were  $5\,18_4^{3}$  and  $5\,17_{12}^{1}$  and  $5\,17_{12}^{1}$  for short. Germany bankers' marks were 94 11-16 a 94 11-16 for long and 94 15-16†@94 15-16 for short. Amsterdam bankers' guilders were 40 1-16@40 1-16\*\* for long and  $40\frac{1}{4}$  @40 5-16† for short.

Exchange at Paris on London to-day, 25 f. 15c.; week's range, 25 f. 16c. high and 25 f. 141/2c. low.

\* This is the price bid at the morning board; no sale was made

Railroad and Miscellaseous Stocks -- There has been almost no change in the general characteristics of the stock market. It has continued active, the transactions on Thursday and to-day amounting to over 1,500,000 shares, and interest is about evenly divided between railway and industrial stocks. There has been a good deal of irregularity in the movement of prices on both lists, and notwithstanding a strong market to-day not a large number of issues close higher than last week.

The exceptional features of the railroad list are Great Northern, Union Pacific, St. Paul and Reading. The former advanced 18 points on bids which brought out a limited number of shares. Union Pacific has been in constant demand, sufficiently urgent to carry it up 51/2 points. Reading was very prominent in Thursday's market, when nearly 300.000 shares were traded in, and on rumors of an increased dividend rate it sold over 4 points higher than on Wednesday. St. Paul has advanced 5 points to-day. Illinois Central, which was notably strong at the close last week, has this week covered a range 8 of points, and closes with a net gain of 61%. On the other hand, New York Central de-clined nearly 6 points on an adverse judicial decision; North West. lost 4 points and "Nickel Plate" 2.

Anaconda Mining, Am. Locomotive, Smelting & Refining and Amalgamated Copper have been the strong fea-tures of the industrials, showing an advance of from 5 to  $8\frac{1}{2}$ points. This is in part offset by a decline of 6 points in Westinghouse, nearly as much in General Electric, nearly 3 points in Colorado Fuel & Iron and about 2 in Consol. Gas.

For darly volume of business see page 1415.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow.

Ou'side Market,-Another striking advance to the high est price on record in Northern Securities stock, which was attended by considerable animation, was by far the overshadowing feature of the trading in the market for unlisted securities this week. From 16234, the initial transaction last Saturday, the price of these shares rose to 180, an advance of 15½ points over the high record made a m nth ago; the close to-day was at 1791/2; total transactions for the week have aggregated, it is estimated, about 220,000 shares. The "-tubs" advanced from 725 to 900 in the early pa t of the week but later reacted to 775. Another prominent feature was the sharp rise in United Copper common and preferred stocks on persistent reports that the property is to be taken over by the Amalgamated; the common ran up from 131/2 to 23% and ends the week at 23%, while the preferred gained 10% points to 71, closing to-day at 70. After a decline from 26934 to  $2051_8$ . Interborough Rapid Transit rose to  $2121_2$  and then dropped back to 2091/8; the final sale to-day was at 210. Japanese new 4½s (when issued) were weak, the price fall-ing from 89½ to 87¾. International Mercantile Marine issues were depressed: the common sank from 13¾ to 12¾ while the preferred dropped 2 points to 33¼. International Salt lost 4 points to 22 but subsequently it moved up to 29½. Colorado Fuel & Iton new stock declined from 551/2 to 51. Outside quotations will be found on page 1415.

Low......  $401_{16}^{16} \quad @ \quad 401_{16}^{16**} \quad 401_{4}^{16**} \quad @ \quad 401_{4}^{16}$ Less: \*116 of 1%. † 132 of 1%. ‡ 332 of 1%. Plus: ¶ 116 of 1%. \*\* 132 of 1%. The following were the rates for domestic exchange on New York at the under-mentioned cities to-day : Savannah, buying 50c. per \$1,000 discount; selling 75c. per \$1,000 pre-mium; Charleston, 121/2c. per \$1,000 premium; New Orleans, bank, 40c. per \$1,00) discount: conimercial, 75c. per \$1,000 discount; Chicago, 10c. per \$1,000 premium; St Louis, 15c. per \$1.000 discount; San Francisco, 75c. per \$1,000 premium.

State and Railroad Bonds .- Sales of State bonds at the Board include \$2,000 Tennessee settlement 3s at 96 and \$20,-000 Virginia 6s deferred trust receipts at  $10\frac{1}{2}$ .

The market for railway and industrial bonds has been relatively dull and narrow.

United States Bonds .- Sales of Government Bonds at the Board include \$6,000 2s, coup., 1930, at 104%, and \$1,000

### Investment and Kailroad Intelligence.

### RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from **July 1** to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the street railways are brought together separately on a subsequent page.

	Latest	Gross Ear	nings	July 1 to 1	Lates t Date		Latest	Gross Ear	nings	July 1 to	Latest D

### ANNUAL REPORTS.

Annual Reports.-The index to "Annual Reports," which is omitted to-day, will be found in CHRONICLE of March 18.

#### Baltimore Chesapeake & Atlantic Railway.

(Report for Sixteen Months Ending Dec. 31, 1904.)

The fiscal year having been changed to correspond with the calendar year, the present report embraces sixteen months ending Dec. 31, 1904. President S. M. Prevost says:

The operations compared with the previous sixteen months show a decrease in freight revenue of \$41,835 and a decrease in passenger revenue of \$490, due to the severe weather and ice conditions on the Bay in January and February, 1904, during which time the operation of the steamers was partially suspended, and also to the very short tomato crop, which was a very large one in the previous year, and to a decrease in the cyster traffic. The increase, \$52,183, in expenses is due mainly to the extraordinary repairs to maintenance of way and maintenance of equipment and the increased cost in conducting transportation caused by the increase in cost of coal, wages and provisions. visions.

After payment of fixed charges, taxes and extraordinary expenditures, amounting to \$96,206, there was left a net income of \$116,223, which was transfered to the credit of "Profit and Loke." All neces sary repairs and renewals required for the service and business of your system have been made to the railroad and equipment, steamers and wharves, and your property in general has been kept up in its usual good condition.

Earnings, expenses and charges for the sixteen months ending Dec. 31, 1904, compared with similar period in 1902 03, and the balance sheets, have been:

#### Grand Rapids & Indiana Railway.

(Report for Fiscal Year Ending Dec. 31, 1904.)

General James McCrea says in substance:

Cash... 98,704

GENERAL RESULTS-ROAD PROPER.-Freight earnings decreased \$26,861, or 1:34 p. c. The number of tons carried was 2,253,542, an increase of 0.7 p. c. The average rate per ton mile was 7.9 mills, a decrease of 0.4 mill. The increase in ton mileage was 4.3 p. c. The net earnings per freight train mile were 20.7 cents, a decrease of 18.5 p. c., notwithstanding a decrease of 8.5 p. c. in cost. The decrease in the average rate per ton mile was largely due to an increase of 23.7 p. c. in tonnage of coal and coke, which iwas necessarily moved [at a low rate. There was a decrease of 5 p. c. in tonnage of forest products. products.

Passenger carnings decreased \$46,526, or 4.1 p. c. The total num-ber carried was 1,574,876, a decrease of 5 p. c. The average rate per passenger mile was 2.07 cents, a decrease of one mill, or 4.6 p. c.

· After allowing for other income received.

miles in length, and on the west 3.1 miles of the Osceola branch, and the tracks removed, making a reduction of 16.18 miles in first track,

ETATISTICS OF ALL LINES.—The entire tonnage of all lines was 3,-265,520, an increase of 3.79 p. c. The average ervenue per ton was 761 cents, a decrease of 2.9 cents. The average ervenue per ton was 761 cents, a decrease of 2.9 cents. The average ervenue per ton was 761 cents, a decrease of 4.5 cents. The total number of passen-gers carried was 2,051,703, a decrease of 2.84 p. c. The average rate per mile was 2.03 cents. Net earnings decreased 0.1 cent per passen-gers carried was 2,051,703, a decrease of 2.84 p. c. The average rate per mile was 2.03 cents. Net earnings decreased 0.1 cent per passen-ger train mile. TAXATION.—Reference was made in the last annual report to the increased taxation of this company's property in Michigan, and to the fact that the taxes for 1903, compared with 1902, showed an in-crease of more than 100 p. c. This company, in common with most of the other railroad companies having property in the State, com-menced a suit in the Circuit Court of the United States for the West-ern District of Michigan in Equity, to compel a cancellation of the taxes for 1903 and permit a liability for only so much as would have accrued under preceding laws. The case is now in readiness for final hearing, and it is expected that it may be submitted during March next. Following out the theory of the suit in question, this company paid what would have accrued under the specific system. When the tax for 1904 became due, an arrangement was entered into by which this company was permitted to pay on the same basis as the year be-fore, leaving the excess to abide the result of the litigation. The valuation for the year 1905 has just been compiled and this company has secured a reduction of \$850,000, leaving it at \$10,150,-000, and there was also a reduction of \$850,000. The total railroad prop-erty of the State has been placed at \$150,000. The total railroad prop-erty of the State has been placed at \$150,000. The total railroad prop-erty of the State has been placed at \$150,000. The total railroad pr

bayond what it should be.

The results from operating the entire system, 573 miles (including 719 miles of trackage), were as follows:

Metropolitan West Side Elevated Railway, Chicago.

(Report for Fiscal Year Ending Feb. 28, 1905.)

The new multiple unit control allowed the placing of all high tension apparatus below the car body, thus enabling us to fireproof the bot-toms of the cars with asbestos and steel at small cost, and efficting a

toms of the cars with asbestos and steel at small cost, and eff.cting a large saving in our insurance charge. As it was necessary to provide some additional power, it was thought best to install two storage batteries, each of 988'8 k. w. capacity. Installing the new equipment involved re-equipping your 89 old motor cars with control wiring and new air-brake; placing control wiring and changing air-brake on your 262 coaches [from old straight air-brake to automatic brak:]; installing control cabs in 74 of these coaches, besides entirely equipping the 63 new motor cars. FIFTH AVE. TERMINAL STATION.—The terminal station at 5th Ave., between Van Buren St. and Jackson Boulevard, was not put into operation until Oct. 3, and then only with such equipment as we had in connection with our Canal St. service; consequently we did not have the full benefit of this station until late in the winter [Jan. 16, 1905], but so far as we have gone the results have been very satisfac-tory. We are now giving an express service on both loop and 5th Ave. trains. tory. We an Ave. trains.

Ave. trains. LOOP.—For some time past the capacity of the loop has been reached and on that account your company has been unable to send all of its trains around the loop railroad. Therefore, prior to the opening of the auxiliary terminal at 5th Ave., and on Aug. 2, 1904, your com-pany notified the Northwestern Elevated 8R. that we should make claim under the lease for an abatement of rental to the extent of one-balf or each passenger carried on trains which the loop half a cent for each passenger carried on trains which the loop railroad could not accommodate. AGREEMENT WITH AUBORA ELGIN & CHICAGO RY.-On Feb. 23,

AGREEMENT WITH ADRORA ELGIN & CHIORGO RY.-On Feb. 23, 1905, the Council passed an ordinance granting your company per-mission to run the trains of the Aurora Eigin & Chicago Ry. Co. into your 5th Ave. terminal. The operation of trains as above mentioned was commenced March 11, under an agreement ratified March 8. This secures to your company the right to the territory west of the 52d Ave. terminal on the Garfield Park line as far as the Des Plaines Piver a distance of about the miles your company to oncreate its River, a distance of about  $4^{1}$ s miles, your company to operate its trains over the tracks of the Aurora Elgin & Chicago, and obtain all of the traffic to and from this growing district, as well as obtaining from the A E. & C. very satisfactory returns for the use of our 5th Ave. terminal and tracks.

#### National Lead Company.

(Report for Fiscal Year Ending Dec. 31, 1904.)

President L. A. Cole says in substance:

GENERAL RESULTS .- On an increased volume of business in every department of manufacture the results show not earnings of \$1,595,-693. After payment of customary quarterly dividends on preferred stock aggregating \$1,043,280, a remainder of \$552,413 is added to surplus, which, at the close of the period under review, amounts to \$2,515,244, and is actively and necessarily employed in carrying the large stocks of materials, raw and in process, essential to the regular conduct of the business. Inventories have been taken on a basis so conservative that adequate provision is made for fluctuations in the

conservative that adequate provision is indec for additions in the value of raw material. The planis have been maintained at a cost of \$133,094 for ordinary repairs, and additions and enlargements made at an expense of \$197,-80%, both of which sums, aggregating \$335,903, have been charged to operating costs. We were never so well prepared for economical energies. operation.

President D. MacAllister says in substance:

GENERAL RESULTS.—The gross earnings have not shown much in-crease, due largely to the general depression in Chicago; the operat-ing expenses have been fairly satisfactory, particularly when you take into consideration that they show an increase over the previous year of \$22,323, or 2.14 p. c., divided as follows: Maintenauce of structure and equipment, an increase of \$56,951, or 26.72; conduct-ing transportation and general expenses, a decrease of \$34,629, or \*18 p. c. There was charged to maintenance expenses \$50,583, which was set aside as a reserve for maintaining the property. Had this reserve fund not been charged, operating expenses would have shown a decrease of \$38,269. In addition there was charged in the conducting of transportation expenses, \$5,250, due to the settlement of claims on account of the fog accident of Nov. 19, 1901. The number of passengers carried this fiscal year averaged 114,232 daily, an increase of 1,153, or 1.06 p. c. over the previous year. The mileage has increased on account of the opening of the terminal sta-tion at 5th Ave. GENERAL RESULTS .- The gross earnings have not shown much in-

EQUIPMENT.—In order to provide for the additional trains for the 5th Aye. service, and to meet the growing demands of our rush-hour business, it was decided to purchase 68 motor cars, in order that we might run our loop trains with two motor cars on every four or five car train. This makes a total of 157 motor cars and 262 coaches.

Active and aggressive competition continues and will continue, but with old established brands' whose standard of excellence is not only maintained but constantly improved, we can reasonably look for ex-pansion in the volume of business and continuance of pr. fits.

The constituent company conducting lead production completed a smelter in November which is now in profitable operation. That fea-ture of your business is now self-contained and provides a percentage of the raw material required. As opportunities are afforded, it will be wise to enlarge and extend our operations of this character. Propuers The your business is produce of the company are shown below.

PRODUCTS .- The various products of the company are shown below, but it is important to remember that its chief product is pure white lead, made by the old Dutch process:

White lead, dry and in oil, tinting colors, litharge, orauge mineral, red lead, colors, dry and in oil, glassmakers' oxides, varnisbers' oxides, colormakers oxides, enamelers' oxides, rubbermakers' oxides, potters' oxides, brown sugar of lead, white sugar of lead, lead pipe, glaziors' lead, block-tin pipe, bar lead, that head pipe, lead sash-weights, sheet lead, lead wire, solder, solder wire, lead traps and bends, solder ribbon, babbitt metal, nitrite of sods, castor oil, Ameri, can and Calcutta linseed oil, raw, boiled and refined varnish, linseed-oil cake and meal. and meal.

#### Union Bag & Paper Company.

#### (Report for Fiscal Year Ending Jan. 31, 1905.)

President Lucius G. Fisher says:

During the past year the company has reduced its bills payable \$415,000 and its accounts payable \$56,664; total reduction, \$471,664; and, after paying 7 p. o. dividends on its preferred stock, has added to surplus account \$136,419. The demand for our sulphite is greatly in excess of our capacity to supply, and we are now erecting an addi-tional digester which will be finished in June, giving us 6,000 tons a year more product. Our own necessities now absorb the entire pro-duct of our wood-pulp mills, and the coming year we shall probably have to increase our facilities in this line. Our paper trade (in special-ties) is growing at a satisfactory rate. The sales of bags show an in-orease of 150 million over the preceding year.

The profits for the year ended Jan. 31, 1905, contrast with the results for previous periods as follows:

		12 mos. end. Jan. 31, 1904.		11 mos. end.
Profits for year		\$812,498	\$961,036	
Dive. (7 p.c.) on pres		\$770,000	\$770,000	\$770,000
Depretation, etc	. X	38,013		
Sarplus	\$136,419	\$4,485	\$191,036	\$105,470

The "cost of properties" as per balance sheet was increased during the year \$48,550 for additions and \$24,083 for perfecting and experimenting on new machinery. It was reduced by \$72,258 on account of property sold and by \$163,809 on account of "extinguishment and depreciation fund."

### Pennsylvania Steel Co. (of New Jersey),

(Report for Fiscal Year Ending Dec. 31, 1904.)

The report, signed by E. C. Felton, President, and E. B. Morris, Chairman of Executive Committee, says:

Morris, Chairman of Executive Committee, says: IRON ORE PRODUCING COMPANIES. The Spanish American Iron Co., whose mines are located in Sanilago, Cuba, mined during the year 1904, 342,000 tons of iron ore, compared with 477,000 tons in 1903. The mines were uperated only to an extent necessary to meet the re-quirements of your blast furnaces. The newly-opened mines, which were made accessible by the railroad completed in 1903, produced 139, 000 tons in 1904, compared with 75,000 tons in 1903. These new mines are now fully developed and should produce the full amount of ore indicated. The end of 1904 finds all of these mining properties in sight than at the beginning of the year. Exploring operations, with a sight than at the beginning of the year. Exploring operations, with a sight than at the beginning of the year. Exploring operations, with a sight than at the beginning of the year. Exploring operations, with a sight than at the beginning of the year. Exploring operations, with a sight than at the beginning of the year. Exploring operations, with a sight than at the beginning of the year. Exploring operations, with a sight than at the beginning of the year. Exploring operations, with a sight than at the beginning of the year. Exploring operations, with a sight than at the beginning of the year. Exploring operations, with a sight than at the begin of the year is the off off the year steel Co., with plant at Sparrow's Point, Md. The year 1904 resulted in a large curtailment of output at all of these plants. They made in 1904 615,000 tons of plg iron compared with 665,000 tons in 1904 000 tons of plg iron compared with 665,000 The following items

They made in 1904 615,000 tons of plg iron compared with 665,000 tons in 1903. Of eteel ingots, 618,000 tons, compared with 837,000 tone, a decrease of 26 p. c. For the same period the total value of involces decreased 28<sup>1</sup>9 p. c., so that in 1904 your operating compa-nies had to contend with a decline both in volume of business and in prices reactive to of product nies had to contend with a decline both in volume of business and in prices received per ton of product. The bridge shop at the Steelton works, which in 1903 completed the Williamsburg suspension bridge between the cities of New York and Brooklyn, has secured a contract from the City of New York for an-other bridge across the East River at Blackwell's Island, and is now actively engaged in the manufacture of this great structure. At the Lebanon plant of the Pennsylvania Steel Co. the by-product coke-ovens were finished in July, 1904, and have been in successful operation since that time. These coke ovens make all of our blast furnaces independent so far as their supply of smelting fuel is con-cerned, excepting the plant at Steelton and the construction of by-product coke-ovens at that plant, is in contemplation. product coke-ovens at that plant, is in contemplation. The Maryland Steel Co. was operated during the year at about two-thirds its capacity. A careful canvassing of the foreign markets for rail orders resulted in the securing of a very considerable amount of

business for export. This company will complete and deliver to the United States Government in July next the largest floating dry dock in the world, for use in the Philippine felande. During 1904 the ship-yard completed several suction dredges for the United States Gov-ernment, besides other less important work, and now has under construction four high-power ferrybeats for the City of New York. BALTIMORE & SPARROW'S POINT RR. Co.—This company was suc-

BALTIMORE & SPARROW'S POINT RR. Co.—This company was suc-corrected during the year. DEPRECIATION, ETC.—The amounts which have been charged to special and general depreciation are in addition to the sums spent on the plants for ordinary repairs and maintenance. In comparing the charges to depreciation in 1904 with those for previous years, it should be noted that in 1904 the amounts charged to general and special depreciation have been combined, whereas in former years charges to general depreciation alone have appeared on the combined income accounts. During the year the subsidiary companies ex-pended \$474,477 for additions and improvements, principally for the completion of by-product coke-ovens at Lebanon, and charged the same to capital account. OUTLOOK—The outlook for the coming year is favorable.

OUTLOOK — The outlook for the coming year is favorable. CHANGE IN ANNUAL MEETING.—In order that your annual meeting may be held after the close of the fiscal year (May 1), your board rec-ommends that the date for holding this meeting be changed from the third Tuesday in April to the second Tuesday in May.

The combined statement of earnings by the operating com-panies for the *calendar* years 1904, 1903 and 1902; also the profit and loss account of the Pennsylvania Steel Co. of New Jersey for the years ending April 5, 1905, April 7, 1904, and April 9, 1903, and its balance sheets, are given below:

#### Rubber Goods Manufacturing Company.

(Report for Fiscal Year Ending March 31, 1905.) President Charles H. Dale says :

The report shows an increase in volume over the preceding year, notwithstauding the depression in business which existed from August, 1903, to July, 1904. During the year 1904, however, the price of crude rabber was from 12 to 14 per cent higher than at any time previous in the history of the industry, and this, of course, has

had its effect on the profits. Particular care and attention has been given to all the plants to maintain them in a condition of highest pos-sible efficiency. Business is now in a satisfactory condition and all the subsidiary companies show a surplue at the end of the year.

The operations of the controlled companies for four calendar years past (the year 1902 being charged with 15 months' dividende) were as follows :

STATEMENT FOR	CONTROLLED	COMPANIES.		
1904. \$	1903. 8	1902. \$	1901. \$

 3,755,000
 ......

A list of the stock and bonds heretofore owned and, like the bonds now acquired, pledged to secure the P. L E. & W. Va system refunding 4s was given in V. 79, p. 2793.

Earnings.—For 6 mos. ending Dec. 31:

The executive committee has authorized the Treasurer to receive bids until 2 P. M. April 17 for the \$7,500,000 4 p. c. 30 year bonds, dated May 1, 1905, and due May 1, 1935; de-nominations, \$1,000 and \$500.

Merger.-The proposed reference to the next General Court of the bill permitting the merger of the West End Street Ry.  $(\nabla. 80, p. 649)$  apparently hangs up the consolidation plan for some months to come. The leading stockholders of the West End are reported to be insisting that all the new stock to be issued by the Elevated Company for the West End shares [\$ for \$] shall be guaranteed 8 p. c. per annum, while the Railroad Commission has fixed the rate at 8 p. c. on the preferred and 7 p. c. on the common.—V. 80, p. 995, 871.

Boston Saburban Electric Companies.—Listed in Boston. The Boston Stock Exchange has listed the common and preferred stocks, viz.: Common stock, 47,969 shares; pre-ferred stock, 47,119 shares.—V. 78, p. 2441.

Brocklyn Rapid Transit Co.-Listed.-The New York Stock Exchange has listed \$1,750,000 additional refunding mortgage convertible 4 p. c. bonds of 2002, making total amount listed \$17,000,000.

Earnings.-For the year ending Dec. 31 earnings were :

-V. 80, p. 1362, 1174.

Chesapeake & Ohio Ry.-Listed.-The New York Stock Exchange has listed \$1,000,000 additional general mortgage 4168 of 1992, making total listed \$39,573,000. The proceeds of the new bonds have been or are to be applied as follows: Construction and additions, \$750,000; for 2nd track, \$250,000.

STATEMENT OF ISSUANCE OF \$39,573,000 GENERAL MORTGAGE 448. 

Earnings.-For 7 mos. ending Jan. 31, 1905, earnings were:

Gross earnings .......\$12,110,964 Fixed ch'ges, etc., less net Operating expenses, maint'ce and taxes. 7,962,746 Pelerec applies 01 470 564

Balance, surplus...\$1,472,564 Equipment Notes.—The company has sold to Blair & Co. \$1,800,000 equipment trast notes covering 18 locomotives and 1,500 steel cars. The notes bear 4 per cent interest and mature \$90,000 semi-annually. April and October, in from one to ten years. -V. 79, p. 2147, 915.

Chicago Rock Island & Pacific Ry.-Sale of Bonds.-The company has sold to Speyer & Co. \$7,000,000 of its first and refunding mortgage gold bonds, due 1934. These bonds are issued for improvements and betterments and for the acquisition of new rolling stock during the current year. It is understood that these bonds have been re-sold to L. Speyer-Ellisen of Frankfort-on-Main and the Deutsche Bank of Berlin for official issue and introduction in the German markets. The bonds just sold are additional to the \$25,558,000 now listed on the New York Stock Exchange. Only \$8,500,000 will be is-sned at once, and the proceeds will be used mainly to pay for equipment.—V. 80, p. 1362, 472.

Cleveland Cincinnati Chicago & St. Louis Ry.—New Com-mon Stock—Option.—The shareholders will vote May 31 on authorizing an increase of \$11,800,000 in the limit of common stock, viz., from \$28,700,000 to \$40,000,000. Of the new shares, \$5,600,000 will be offered to stockholders at par to the extent of 20 p. c. of their respective holdings on April 29, to provide for improvements and additions. The remainder of the new stock will be available for future requirements.— V. 80, p. 1358, 599.

Colorado & Southern Ry.-New Bonds.-Haligarten & Co. and the Berliner Handel-Gesellschaft and the Bank fur Handel & Industrie in Berlin and the Swiss Bankverien have purchased about \$17,000,000 of a new issue of refunding mortgage 41/2 30-year gold bonds, and have formed a syndicate to provide \$15,000,000 cash. Of these bonds \$8,000,000 are to be issued to take up the outstanding equipment trust and certain other obligations of the Colorado & Southern and the Fort Worth & Denver City, to pay for the Cripple Creek Short Line RR. and to provide working capital. The remaining \$9,000,000 of the bonds are to pay for a new exten-sion to the Gulf at a cost of from \$17,000 to \$22,000 a mile. The Trinity & Brazos Valley RR, has been acquired, and will form a part of the proposed new line. The mortgage provides that, with the exception of about \$1,000,000 a year for improvements and betterments, no further bonds can be issued under the mortgage before Jan. 1, 1909, without the consent of the syndicate managers. The total amount of the mortgage is \$100,000,000, of which \$38,-000,000 is reserved for the refunding of outstanding bonds, \$15,000,000 for improvements and betterments and the remainder for the acquisition of new properties as already stated. The refunding mortgage must be ratified by the shareholders not later than July 1, 1905. - V. 80, p. 1362, 1174. Colorado Springs & Cripple Creek District Ry.-Sale to Colorado & Southern Ry.-See that company above and V. 80, p. 472, 1111.

6 mos. — Gross. Net. Oth. income. Oharges. Bal., sur. 1904......\$34,544,733 \$12,900,107 \$1,375,805 \$6,194,070 \$8,081,842 1908......34,415,557 12,728,446 -V. 80, p. 1174, 995. 1908.

Boston Elevated Ry.-Bond Issue. - The Massachusetts Railroad Commission has authorized the company to issue \$7,500,000 of 30-year 4 p. c. bonds (part of an issue limited to \$11,000,000) to provide for the extension of the elevated road to Forest Hills, 2.334 miles, the payment of floating debt and for other corporate purposes, as follows :

The total amount expended on the enterprise to Dec. 1, 1904, was \$15,842,493, against which the company has been authorized to issue \$13,300,000 capital stock on \$3,300,000, of which a premium of \$1.815,000 was obtained, making total proceeds of stock \$15,115,000. The total cost of construction, equipment, etc., including the Forest Hills extension, is estimated at \$26,047,614, which the Boston papers figure would be equal to \$1,419,635 per mile on the entire 18:348 miles of elevated structure built and building, while of this about \$600,900 p.m. would be represented by the bond issue of \$11,000,000.

Columbus London & Springfield Ry.-Offer to Purchase Coupons Due April 1, 1905. - The Knickerbocker Trust Co., 66 Broadway, New York City, gave notice on March 80 that it would, on presentation, on and after April 1, 1905, purchase any or all of the coupons due April 1, 1905, on the first mortgage 5 p. c. bonds. This offer was made with the approval of the committee of security holders, William B.

McKinley, Chairman. A. E. Locke and Oscar T. Martin, who, under date of Mar. 11, 1905, have issued a circular letter to the holders of the notes and unsecured indebtedness. -V. 80, p. 1174, 117.

Forty-second Street Manhattanville & St. Nicholas Ave. Ry.-Litigation.-The Union Trust Co., trustee under the mortgage securing the second mortgage 6 p. c. income bonds (\$1,500,000 of the \$1,600,000 anthorized being outstanding), on behalf of the late firm of Vermilye & Co. and its clients, who, it reported, hold \$641,000 of the bonds, on April 8 applied to Justice Gildersleeve in the Supreme Court in this city for the appointment of a receiver and an injunction restraining the New York City Ry. from continuing to operate the road. The motion was made in the action pending for an accounting on the ground that earnings properly applicable to payment of such interest has been used for other purposes. The floating debt due to the Third Avenue RR., as appearing on the books, is reported to be \$5,917,486. The Third Ave. RR, at last accounts owned \$743,000 of the bonds, on which no interest has been paid, at least, for many years. President Vresland, in an affidavit, denied that any surplus has been earned available for interest on the income bonds. Decision was reserved. -- V. 72, p. 776.

Galveston Harrisburg & San Antonio Ry.-Consolida-tion.-The House at Austin, Tex., on Mar. 27 finally passed the bill authorizing this company to purchase the following allied Southern Pacific lines: The San Antonio & Gulf, 35 miles; New York Texas & Mexican, 189 miles; Gulf Western Texas & Pacific, 100 miles; Galveston Houston & Northern, 53 miles; Gonzales Branch RR., 11 miles, total, 387 miles. The bill is substantially the same as that presented a year ago except that it requires the company to build an extension from Stockdale to Cuero, about 50 miles, by Dec. 1, 1906. -V. 79, p. 2642.

Havana Electric Ry.-Listed.-The New York Stock Exchange has listed \$6,957,000 consol. mortgage 5 p. c. 50-year bonds of 1952, \$5,000,000 6 p. c. non-cumulative preferred stock and \$7,500,000 common stock. The consolidated mortgage is limited to \$10,000,000, the amount unissued being reserved as follows:

For the exchange of notes, coupon notes, etc..... For exchange of \$1,152,000 first 5s (of which amount \$66,000 have since been redeemed by sinking fund), and \$889

See page 777 of STREET RAILWAY Section and report in V. 80, p. 657, 647.

Kansas City Southern Ry.—Closing of Books for Election. -The stock books close May 5 for the election of officers on May 17 and re-open May 18. The committee will forward blank proxies upon application to the Chairman (Herman Sielcken) at No. 77 Broad St., New York City.-V. 80, p. 1370, 1358.

Lansdale & Norristown (Pa.) Electric Ry.-Sale Ordered. -The Court of Common Pleas at Norristown, Pa., on Mar. 29 set the foreclosure sale of this  $12\frac{1}{2}$ -mile road for May 4, upset price \$150,000; outstanding bonds \$299,000; date of issue Apl. 1, 1902; no interest paid, the amount due for prin-cipal and interest being \$341,358. The receivers are Alvin Hill and Robert B. Keys. -V. 78, p. 1906.

Lehigh Valley RR. - Consolidation of Subsidiaries. - The National Docks Ry. (see V. 78, p. 1782) has been merged with the Lehigh Valley RR. Co. of New Jersey, the stock of the latter company being increased by \$3,854,000, to \$2),303,-000, in order to take up the shares of the National Decks Co., dollar for dollar. Compare V. 77, p. 250; V. 80, p. 1111.

Lehigh Valley RR. of New Jersey.-See Lehigh Valley RR. above.-V. 77, p. 250.

Lima Findlay & Toledo Ry.—Sale of Bonds.—The com-pany has sold to Danison, P.lor & Co. \$400,000 first mortgage 5 p. c. bonds to provide for the construction of a trolley road between Lima and Findlay, O., as a connecting link in a Trans-State line from Cincinnati to Toledo. The other roads in the line, it is stated will be the Western Onio Ry. and the Toledo Bowling Green & Southern, the Cincinnati Northern and its leased road—the Cincinnati Dayton & Toledo.

Louisville & Nashville R.R.-Line Completed.-The connecting line between Knoxville, Tenn., and Jellico, 65 miles, was opened on April 13, completing the through route from Cincinnati to Atlanta, and forming the Atlanta Knoxville &

Mexican Central Ry.—Mexican Currency Reform.—The Mexican Government has fixed May 1 as the time when the act for the reformation of the currency shall go into effect. The free coinage of silver will cease after April 16.  $-\nabla$ . 80, p. 1174, 1059.

Middletown-Goshen (New York) Electric Ry.-Reorganiz:d Company .- See Wallkill Transit Co., below. V. 80, p. 1059.

Millen & Southwestern RR. -Bonds. -This company has recently authorized an issue of first mortgage fifty-year 5 p. c. bonds, due April, 1955; interest, April and O:tober; limit of mortgage, \$800,000; Knickerbocker Trust Co., trustee, of which \$4,000 per mile, that is \$210,000 bonds, are to be issued at once on the 53 miles now owned from Millen to Vidalia; \$1,000 per mile are reserved for betterments to present line and \$5,000 per mile are reserved for extensions.— V. 79, p. 1642.

Montgomery (Ala.) Traction Co.-New Mortgage.-This company, having passed under the control of Philadelphia men, has made a mortgage to the Real Estate Trust Co. of that city as trustee to secure \$3,000,000 of 5 p. c. sinking fund gold bonds of \$1,000 each, of which \$318,000 will be used to retire the \$318,000 bonds of 1903. R. D. Apperson is President and Charles R. Miller Secretary and Treasurer.-V. 80, p. 1059.

National Docks Ry.-See Lehigh Valley RR. above.-V. 78, p. 1782.

National RR. of Mexico.-Currency Reform.-S90 Mexican Central Ry. above.-V. 80, p. 1363.

New York Central & Hudson River RR.-Favorable Decision in Hirlem Suit.-The Appellate Division of the Supreme Court, First Department, on April 7, unanimously affirmed the decision of ex-Chief Judge Charles Andrews of the Court of Appeals, acting as referee, who dismissed the action brought by the Continental Insurance Co. and others to set aside the compromise agreement allowing to the New York Central \$220,000 of the annual saving through the re-funding of \$12,0(0,000 of Harlem 7 per cent bonds. See edi-torial, V. 78, p. 2305; V. 78, p. 2335; V. 76, p. 1144. Held Liable for Damages on Park Av.,—See remarks on page 1895 and editorial in V. 76, p. 892.—V. 80, p. 1230, 1235,

1240,

New York & Harlem RR.-Decisions.-See New York Central & Hudson River RR. above. V. 78, p. 2335.

Northern Securities Co.-Mr. Harriman Retires.-Amos Tuck French has been elected a director succeeding E. H. Harriman, whose term expired.—V. 80, p. 1363, 1059.

Ozark & Cherokee Central Ry.-Listed.-The New York Stock Exchange has listed \$2,880,000 first mortgage guaran-teed 5 p. c. bonds of 1913. See guarantee, etc., in V. 78, p. 2335.-V. 79, p. 1705.

Pennsylvania Company.—Offering.—The Guaranty Trust Co. of New York has been offering a block of the 31/24 40-year guaranteed gold trust certificates (series D) at  $93\frac{1}{4}$  and interest. These certificates are secured by deposit with the Girard Trust Co. of Philadelphia, at par, of guaranteed 7 p. c. special stock of the Pittsburgh Fort Wayne & Chicago Railway Co., all of whose outstanding bonds will be extinguished by the sinking fund at maturity July 1, 1912. Called.-The Girard Trust Co., Philadelphia, announces the

following eight certificates of the 31% p. c. gold loan of 1901, maturing Nov. 1, 1916, drawn for redemption as of November 1, 1904, are still outstanding, and should be presented for payment at once, as interest thereon has ceased, viz.: Nos. 12,053, 12,079, 12,100, 13,477, 14,643, 15,213, 15,814, 18,811, each \$1,000.-V. 80, p. 1175, 1112.

Pontiac Oxford & Northern RR.-Receivership.-Robert A. Lounsbury of Pontiac, Mich., has been appointed re-ceiver by Judge George W. Smith, of the Oakland County Circuit Court, in the action begun by certain minority stockholders in June, 1903, on the ground of mismanage-ment. Justice Gildersleeve in the Supreme Court in this city on April 13 appointed Quincy W. Boese ancillary receiver for the property in this State. The defendants contend that the company is solvent. All interest due on the \$400,000 out-standing bonds has been paid. See V. 77, p. 299.

Public Service Corporation of New Jersey.-New Stock. -The directors have voted to increase the outstanding capital stock from \$10,000,000 to \$12,500,000, for additions, etc.-V. 80, p. 652, 164.

Cincinnati division, which is covered by the mortgage recently authorized (V. 80, p. 872). Compare V. 79, p. 1474; V. 78, p. 1549, 702.-V. 80, p. 1235, 1174.

Massachusetts Electric Companies.—New Share Capital for Eubsidiary Company.—The Massachusetts Railroad Commission has authorized the O.d Colony Street RR. Co. to issue 5,000 additional shares of capital stock at \$100 per share, as follows: 4,250 shares to take up floating debt incurred for additions; 750 shares for further extensions.-V. EO, p. 1863, 1235.

Metropolitan West Side Elevated Railway-Chicago.-New Officers.-Howard G. Hetzler has been elected President and General Manager, vice Dickinson MacAllister, resigned. The board has also elected Director F. A. Delano Chairman of the board. George Higginson Jr. has resigned as Secretary and Treasurer.

Report.-See page 1421 of to-day's CHRONICLE.-V. 80, p. 1863, 1059.

St. Louis & San Francisco RR.-Earnings.-For the 8 months ending Feb. 28:

8 mos.— Gross. Net. Oth.inc. Ch'ges & taxes. Bal.for div 1904 05 ...\$26,086,562 \$3,831,474 \$34,297 \$7,805,226 \$1,060,545 1903 04 ... 24,624,150 8,132,645 -V. 80, p. 1363, 1112.

Southern Illinols & Missouri Bridge Co.-Completion of Bridge-Status of Bonds, Etc. - It is expected that this company's bridge across the Mississippi River at Thebes, Ill., will be ready for use by May 1 next. The entire capital stock of the company, \$57,000 (80 p. c. paid), is owned in equal parts by the following-named railroad companies:

Missouri Pacifio Ry., Chicago & East. Ill. (Frisco system). St. Lonis Iron Moontain & Southern RR, Illinois Central RR., St. Lonis Southwestern Ry.

These companies, except the Missouri Pacific Ry., which has no physical connection with the bridge (except through its subsidiary line, the Iron Mountain), have entered into a 50-year contract dated Nov.1, 1901, for the use of the bridge,

agreeing to provide the bridge company with the funds needed to meet the interest on its bonds and all its other charges, on the following basis:

It is agreed that for the use of the bridge, the four companies will pay to the bridge company on all their traffic moved over the bridge the rates and charges established by the bridge company, and in case the funds so derived are insufficient for the payment of expenses for maintenance, operation, taxes, interest. etc., each will pay its proportion of any deficit that may result. "The Bridge Company's tariff applied to the traffic of the railroad companies in question, now crossing the river, will more than provide for any sum that may be required for the payment of operating expenses, taxes, interest, etc."

The amount of the mortgage is \$3,000,000, and all of the bonds will be issued within the next two or three months, and within that time it is quite probable that the remaining 20 p. c. of the capital stock will be called.—V. 75, p. 78.

Texas & New Orleans RR.—Sale of Dallas Sabine Division Authorized,—Governor Lanham on Mar. 27th approved the bill authorizing this company to sell its Dallas-Sabine division, which runs from Dallas to Sabine Pass, a distance of 300 miles, to an independent company not to be identified in any way with the Southern Pacific. The Rock Island Co. or the St. Louis & San Francisco, it is supposed, will be the purchaser.—V. 79, p. 2797.

United Railways & Electric Co. of Baltimore.—Report. —The results for the year ending. Dec. 31 are given below. The figures for 1903 have been revised by the experts so as to include in operating expenses \$424,313 expended for reconstructing tracks charged to profit and loss as per report for 1903 (see V. 78, p. 817.)

Wabash RR.—Acquisitions.—A press dispatch from Springfield, Iil., stated that this company would take over on Apr. 1 the operation of the following companies: Athens Mining Co., Sangamon Coal Co., Central Co-operative Coal Co., Dawson Mining Co. and the Woodside Mining Co. An cflicer of the Wabash, replying to our inquiry as to the truth of the report, says "the Wabash RR. owns no coal properties," but fails to say whether or not control has been acquired in the interest of the Wabash. See also West Virginia Central & Pittsburgh Ry., below.—V. 80, p. 1364, 1236.

Wallkill Transit Co., Middletown, N. Y.—Reorganized Company—This company was recently incorporated at Albany with \$350,000 authorized capital stock as successor of the Middletown-Goshen El. Ry. Co. Directors: W. M. Ogelsby, Harrisburg, Pa.; H. R. Boyce and M. Benjamin, Middletown. Compare V. 80, p. 1059.

Washington Alexandria & Mt. Vernon (Electric) Ry.— Bonds Offered.—Graham & Co., Philadelphia, offered this week at  $102\frac{1}{2}$  and interest a block of this company's first mortgage 5 p. c. gold bonds. For particulars see V. 80, p. 1176.

West End Street Ry., Boston.—Merger Apparently Hung Up.—See Boston Elevated Ry. above.—V. 80, p. 652.

Western Maryland RR.—Acquisition.—See West Virginia Central & Pittsburgh below.

Description of Cumberland Extension.—See "Engineering Record" of Mar. 18 and previous issues.—V. 80, p. 1176, 1113.

Western Pacific Ry.—Reported Purchase.—Western advices state positively that this company has purchased the Boca & Loyalton RR. (see V. 76, p. 1191).—V. 80, p. 1364.

West Virginia Central & Pittsburgh Ry.—Acquisition.— On April 9 this company, which is controlled by the Western Maryland RR., took over, it is said, the control of the Belington & Beaver Creek Ry., 10 miles long, running from Belington to Weaver, W. Va., and the 10,000 acres of valuable upper Freeport coking coal and 400 coke ovens which were formerly owned by the Weaver Coal & Coke Co. but in 1904 were transferred to the Manufacturers' Fuel Co.—V.79, p. 787.

Wilmington & Northern RR.—Bonds.—The shareholders will vote May 1 on issuing \$249,000 general mortgage bonds of 1892 for the acquisition or construction of oranches or extensions. The mortgage is limited to \$1,000,000, of which \$4 6,000 is outstanding and \$354,000 reserved to retire the outstanding first mortgage bonds. The proposed issue, \$240,000, is the remainder of the authorized amount.—V. 72, p. 340.

Bemis Bros. Bag Co., St. Louis.—Increase of Capital Stock.—A certificate has been filed in M ssouri increasing the authorized issue of capital stock from \$3,200,000 to \$4,000,000, the new stock being described as full-paid 5 p. c. preferred. The certificate shows total assets \$6,658,569; liabilities, \$2,-886,609. The stock was increased from \$1,600,000 to \$3,200,000 in February, 1902.—V. 74, p. 480.

(A.) Booth Co.—Purchase of Steamship Line.—This company was recently reported to have purchased the property and good will of the White Line Transportation Co., operating a passenger and freight line between Daluth, Huncock and Port Arthur.—V. 76, p. 1145.

Cahill Electric Typewriter Co., Washington, D. C.— Sale Deferred.—Vice-Chancellor Emery at Newark, N. J., has temporarily suspended the order for the sale of the company's property, on application of E. Q. Keasbey, counsel for Thaddens Cahill. The company ceased doing business in 1903, and the sale was to take place under a chattel mortgage for \$18,000 held by Herbert S. Lafferty. William F. Carter is receiver. Compare V. 72, p. 45.

Central Leather Co.—Successor of United States Leather Co.—This company filed articles of incorporation at Trenton, N. J., on Apr. 12, as successor of the United States Leather Co., per plan in V. 80, p. 717, 1125. Authorized capitalization: \$40,000,000 common stock, \$40,000,000 7 p. c. cumulative pref. stock and \$40,000,000 first lien gold 5s. See page 411 of RAIL-WAY AND INDUSTRIAL Section for January. New Jersey representative, Corporation Trust Co.—V. 80, p. 1125, 875.

Chicago & Northwestern Telegraph Co.—Reorganization. The reorganization of the company is pending, but may not be completed for two or three months. The property has been operated by the Western Union Telegraph Co. under a lease which expired in 1904, the lessee paying 4 p. c. per annum on the \$100,000 stock and guaranteeing interest on \$100,000 of first mortgage 6s, due Sept. 1, 1904, of which \$40,000 are owned by the lessee. A plan which was proposed last January provided, we understand, for the organization of a new company whose capital stock, replacing the present stock and bonds, would be gnaranteed 8 p. c. per annum by the Western Union.

Clinton (Mass.) Gas Light Co.—Bonds.—The Massachusetts Gas Light Commission has approved the proposition to issue \$110,000 4½ p. c. 20-year bonds, viz., \$100,000, to take up 5 p. c. coupon notes and \$10,000 for additions.—V. 80, p. 714.

Colorado Fuel & Iron Co.-Listed. — The New York Stock Exchange has authorized the listing on Apr. 21 of \$6,200,000 additional common stock, making total amount listed \$30,-132,000.

Listing by New Subsidiary.—See Colorado Industrial Co. below.—V. 80, p. 1177, 474.

Colorado Industrial Co.—Listed.—The New York Stock Exchange has listed \$12,378,000 first mortgage and 'collateral trust 5 p. c. 30 year convertible bonds of 1934, series "A," and has authorized the listing from time to time, prior to Jane 1, 1905, of \$24,932,000 first mortgage and collateral trust 5 p. c. 30-year bonds, series "B" of 1934, when issued. The company was organized as a subsidiary of the Colorado Fael & Iron Co. per plan in V. 80, p. 1177; V. 77, p. 2282, 2341.

Dayton Electric Light Co.-Consolidation.-S:0 Dayton Lighting Co. below.-V. 79, p. 2645.

Dayton (0.) Lighting Co.—Consolidation.—The Dayton Electric Light Co., which recently changed hands (compare V. 79. p. 2645,) has been consolidated with the Montgomery County Electric Light Co. under the name of the Dayton Lighting Company with authorized capital stock of \$2,-500,000. The stock is all of one class; par of shares. \$100. It is proposed to make a new mortgage to secure \$2,500,000 of 5 p. c. gold bonds of \$1,000 each, of which sufficient will be reserved to retire at or before maturity all of the existing first mortgage bonds of the Dayton Electric Light Co.; authorized issue, \$500,000 (see V. 79, p. 2645). The company does all the electric lighting—municipal and commercial—of Dayton, Ohio. Dr. J. E. Lowes is President. Charles H. Werner, No. 82 Nassau St., New York, is interested.

Dominion Iron & Steel Co.—Sale of Bonds.—The directors, it is said, have voted to issue the treasury portion of the second mortgage 6 p. c. bonds; total amount authorized, \$1,500.030; heretofore taken by directors, \$500,000.—V. 79, p. 2203.

Eastman Kodak Co. of New Jersey.-Listed.-The New York Stock Exchange has listed \$5,890,700 preferred stock

### INDUSTRIAL, GAS AND MISCELLANEOUS.

American Smelters' Exploration Co.—Officers —The following directors (and officers) are announced:

Chairman of Board, Daniel Guggenheim; President, E. W. Nash; Vice-President, Barton Sewell: Treasurer, Murray Guggenheim; Seoretary, Eaward Brush; Isaac Guggenheim, A. Eilers, S. R. Guggenheim, Simon Guggenheim, E. L. Newhouse, Karl Eilers, S. W. Ecoles-M. Robert Guggenheim, J. B. Grant, Dennis Sheedy, Franklin Guiter, man and W. S. Morse. See V. 80, p. 1237, 873.

American (Bell) Telephone & Telegraph Co.—Listed.— The New York Stock Exchange has listed \$10,000,000 additional 4 p. c. collateral trust bonds of 1929 and \$7,000,000 additional capital stock, making total amounts listed \$38,000,000 and \$181,551,400 respectively. It has also authorized the listing from time to time, prior to Oct. 1, 1905, of \$15,000,000 additional collateral trust bonds. Compare report, etc., in V. 80, p. 1180, 1176, 1113.

York Stock Exchange has listed \$5,890,700 preferred stock and \$19,524,700 common stock. See V. 80, p. 1365.

Equitable Life Assurance Society.—Suit Delays Mutualization.—Franklin B. Lord, holder of 36 shares or the company's capital stock, applied on April 7 to Supreme Court Justice Maddox in Brooklyn for an order restraining the officers of the Society from carrying out the mutualization plan, chiefly on the ground that no provision has been made for "the incidental indemnification of stockholders." The Society has outstanding some 560,000 policies, most of which are for less than \$5,000, and therefore under the existing charter not entitled to receive the privilege to vote. The surplus exceeds \$80,000,000, some portion of which, the complainant contends, should go to the stockholders for rights to be surrendered, and the remainder, or a part of it, should go to the policyholders at the expiration of their Tontine periods, the stockholders first receiving their regular dividends of 7 p. c. per annum.—V. 80, p. 1365, 1178.

Evansville (Ind.) Gas & Electric Light Co.-Earnings.-The American Trust & Savings Bank, Chicago, recently offered at par and interest \$30,000 of this company's first mortgsge gold 5s of 1902; limit of issue, \$1,250,000; reserved for future extensions, \$180,000; total present issue, \$1,070,000; capital stock, \$600,000. The earnings are reported as follows for the fiscal years ending June 80:

Year - 1903-04.	Gross. \$208,024	Net. \$81,005	Interest. 852,587	Bal., sur. \$28,418
1902-03	. 188,302	76,722	*******	
Qoo full postion!	and in TT P	F m 100	TT MM - 1978	

See full particulars in V. 75, p. 188.—V. 77, p. 1876.

Fleischmann Co. Distilling & Refining, Cincinnati.-Incorporated.-This company was incorporated in Obio on Tuesday with \$6,000,000 authorized capital stock, of which \$3,000,000 is 6 p. c. cumulative preferred per plan in V. 80, p. 999, the incorporators being members of the family of the late Christian Fleischmann. Of the preferred, \$1,200,000, it is stated, was issued at 120, under the recent offer.—V. 80, p. 999.

Gold & Stock Telegraph Co.-Bonds to be Extended.-The \$500,000 of 4½ p. c. debenture (not mortgage) bonds which mature May 1, 1905, will, we are informed, be extended on the same terms for five years. The company's property is leased to the Western Union Telegraph Co.-V. 19, p. 351.

Gottlieb-Bauernschmidt Strauss Brewing Co.-Interest on Income Bonds.—The directors voted on Apr. 11 to pay 11/2 p. c. interest on the income bonds on May 1, being the same amount as paid Nov. 1, 1904.-V. 79, p. 1644.

Grand Rapids (Mich.) Hydraulic Co.—Repeal of Charter. -The State Legislature at Lansing, Mich., on Mar. 30 passed unanimously the Ellis bill repealing the company's charter. Governor Warren signed the bill on Apr. 6. The Grand Rapids "Post" of Mar. 22 contained a letter from Mayor Edwin F. Sweet touching the relations of the city to the company. The Mayor says in part:

During the past twelve years the Hydraulic Co. has been in the haads of a receiver. There is reason to believe that its supply has neither been ample nor pure, as required by its charter. The amount of its business has been so small that it has reither paid its debts, the interest on its bonds or dividends to its stockholders. And yet, such business as it has done has been subtracted from the business which would have been received by the city water-works.-V. 72, p. 1190.

Hudson Navigation Co.-Consolidation Approved.-The shareholders voted on April 11 to adopt the plan for absorbing the New Jersey Steamboat Co.-V. 80, p. 1865.

Haebner-Toledo United Breweries Co.—Consolidation.— This company has been incorporated under the laws of Ohio in accordance with the plan for the consolidation of the Toledo brewing companies which was published in the CHRONICLE of March 25, p. 1183, under the heading Toledo United Breweries Co. Common stock, \$1,500,000; preferred stock, 6 p. c. non-cumulative, \$1,500,000; first mortgage 6 p o. sinking fund 25-year gold bonds of \$1,000 each, \$3,000,000, subject to call at 107½ and interest for an annual sinking fund of \$25,000, beginning Sept. 1, 1906; Ohio Savings Bank & Trust Co., Toledo, trustee. All the Toledo breweries, except the Buckeye, were acquired as of April 1. The officers are:

James E. Pilliod, President; John Huebner, Vlee-President and General Man-ager; Louis F. Volk, Superintendent of Sales and Collections, and C. Rudolph Brand, Secretary and Treasurer. The directors are the aforementioned and Joseph Grasser, William J. Finley, John J. Huebner Jr., Generat C. M. Spitzer and James J. Robinson, of Toledo; F. W. Gehring and Emil Joseph, of Cleve-land; George P. Sohngen, Ed. C. Sohngen, Clarence Murphy and Charles E. Heiser, of Hamilton. Heiser, of Hamilton.

The \$1,000,000 bonds offered to the public were largely over-subsoribed. The Cleveland Stock Exchange has listed the outstanding securities, viz.: common stock, \$1,278,000; preferred stock, \$1,278,000 (par of shares \$100); bonds, \$2,556,-000, dated Apr. 1, 1904, and due July 1, 1930, but subject to call as above stated; interest payable Jan. 1 and July 1 at office of trustee. No prior liens.—V. 80, p. 1183.

International Mercantile Marine Co.-Steamship Agree-ment Off.-It was announced on Thursday that the Cunard Line had withdrawn from the steamship agreement because the International Marine Co. could not comply with one of the provisions thereof respecting, it is said, the change of sailing day of the American Line. Ocean travel is now so heavy that for the present at least no danger of rate-cutting is anticipated.—V. 80, p. 1000, 873.

International Paper Co.—Listed.—The New York Stock Exchange has listed \$5,000,000 consol. mortgage 5 p. c. con-vertible bonds of 1935. See V. 80, p. 225, 119.

Knickerbocker Steamboat Co., New York.-Foreclosure. -Supreme Court Justice Maddox in Brooklyn has ordered the foreclosure sale of the Grand Republic under the mortgage covering that vessel and the Gen. Slocum, which was burned last summer. The amount due is stated as \$150,000; no interest has been paid since July 1, 1904.-V. 79, p. 1957.

Laclede Gas Light Co., St. Louis.—Bonds Offered.—N. W. Harris & Co. have sold an additional \$1,000,000 5 p. c. bonds due April 1, 1934, making \$6,000,000 of the issue outstanding, Compare V. 79, p. 1644. Earnings.—The firm publishes the following earnings as

officially reported for the year ending Feb. 28, 1905; we annex for comparison the results for the calendar 1903:

Gross	Net	Interest	Balance.
Year- Earnings.	Earnings.	on Bonds.	Surplus.
1904.05 \$3,273,66	0 \$1,378,777	\$691,806	\$686.971
1903 2,425,44	8 1,148,533	500,000	648,533

The dividend rate was recently increased on the common stock from 4 p. o. to 5 p. o. per annum, calling for \$425,000 yearly; 5 p. c. on the preferred requires \$125,000; total dividends on present basis \$550,000, "The earnings reported for the six months ending Feb. 28, 1905, show an increase of 32 p. c. in gross and 35 p. c. in net over the cor-responding period of the previous year." -V. 80, p. 1061, 602.

(The) J. H. Ladew (Tanning) Co.—New Enterprise.— This company was incorporated in New Jersey on Feb. 28 with \$1,000,000 authorized capital stock, to tan leather, the incorporators including the President, J. H. Ladew, and Albert S. Wright both of New York City. Mr. Ladew was Albert S. Wright, both of New York City. Mr. Ladew was recently Treasurer of Fayerweather & Ladew, the well-known manufacturers of leather belting, whose business has just been taken over by Edward R. Ladew and is now conduoted by the latter personally under his own name, with office at 91 Liberty Street, New York City.

The J. H. Ladew Co. is a close corporation at present unbonded. Its directors are :

J. Harvey Ladew of New York City (President), Joseph C. Morse of Boston (Vice-President), Charles E. Krom of New York City (Treas-nrer), Jonathan H. Yooum of Newark, N. J. (Secretary), and Oliver L. Lockwood of Chattanooga, Tenn.

Manufacturers' Commercial Co.—Bonds Offered.—This company is offering for subscription by advertisement on an-other page \$1,000,000 20 year 5 p. c. bonds, denomination \$500 each, redeemable at par and interest, at holder's option, June or December in any year. The total amount of the issue is to be deposited in cash with Lincoln Trust Co., trustee, to be loaned only on guaranteed receivables, which turn continually into cash, that is loaned again on new securities of same form. The advertisement says :

Under the trust agreement, there must always be in the hands of the trustee for each \$500 bond outstanding \$500 in cash and \$600 in cer-tificates, representing valid accounts-receivable or j bills-receivable of manufacturers or merchants in good standing. The system of certif-icating accounts and trusteeing them for loans under which these bonds are issued has been in operation for five years, and banks and trust companies have loaned on \$25,000,0 '0 of these securities with-out loes. The Manufacturers' Commercial Co. has regularly paid 7 p.c. per annum on its preferred stock since its organization. Directors: Frank E. Anderson, President; R. Ross Appleton, Claude Barry, Sir Martin Conway, Herbert N. Fell, C. B. Jaqua, Arthur Lord, Robeson Lea Low, George D. Mumford, John C. Powers and E. T. Lloyd Williams.

Lloyd Williams.

The bonds will be issued June 1. Capital stock, common, \$500,000; preferred, \$545,100; par of shares, \$100. Office, No. 486 Broadway, N. Y. City.

Manufacturers' Fuel Co.-Sale-See West Virginia Cen-tral & Pittsburgh Ry. under "Railroads" above.-V. 78, p. 2445.

Minneapolis General Electric Co.—Re Financing.—The company has recently acquired complete riparian rights for the development of a 24,000 h. p. water power on the St. Croix River at Taylor's Falls. To provide funds for the de-velopment of this water power, the company has called in all of its present 5 p. c. bonds, and has made a new mortgage, under which it is authorized to issue a total of \$9,000,000 bonds. \$5,000,000 of these bonds will be issued immediately; \$715,000 will be held in the treasury to retire a like amount of underlying 6 p. c. bonds; the balance have been sold, and the proceeds will be used for retiring the present outstanding fives and for developing the water power. See V. 80, p. 1115.

Montgomery (Ala.) Light & Water Power Co.-New President.-Emerson McMillin of New York, one of the largest stockholders, has been elected President to succeed W. F. Vandiver, who has sold his stock. Superintendent R. J. Chambers has become Vice-President and General Manager. The Citizens' Light & Power Co. was organized several months ago as a competing company, but at last ac-counts had done no building.-V. 79, p. 2646.

Earnings.-The earnings for the six months ending Dec. 31 1904, compare with those of the fiscal years ending June 80, 1908 and 1904, as follows :

International Power Co.-Last Payment of Cumulative Dividend on Freferred Shares.-The directors declared on Monday a dividend of \$3 per share (8 p. c.) payable on May 15 to holders of record on April 10. This dividend, it is announced, completes the deferred dividend payments on this stock to April 1, 1905. Hereafter the dividends will be payable on Oct. 1 and April 1 in each year. The board also ratified the payment and cancellation of \$75,000 of bonds out of the total issue of \$200,000, leaving only now outstanding a bonded debt of \$125,000 bearing interest at 4 p. c. per annom.-V. 80, p. 654.

Morgantown (W. Va.) Tin Plate Co.-Re-Sold.-At Wheeling, W. Va., on April 4, the property was re-sold by order of Court and bid in for \$219,900 by John Frazier, representing, it is said, Pittsburgh attorneys of the United States Steel Corporation.-V. 80, p. 1288.

Mt. Hope Cemetery Association, New York.-Large Deposits .- A large majority of the stock has been deposited ander the shareholders' agreement noted last week, this including all the leading holdings. The assessment of \$1 50 per share will yield from \$50,000 to \$60,000, there being out-standing in all 40,000 shares of \$25 each (not \$10). After payment of the judgments, aggregating about \$23,000, there will remain a reasonable amount as working capital. No new cemeteries may be established in Greater New York, and this company's property, therefore, located near by in Westchester County, is expected eventually to become of onsiderable value.-V. 80, p. 1866.

National Steel & Wire Co.—Further Deposits to be Received Till May 1.—The time for the deposit of securities of the Safety Insulated Wire & Cable Co., the National Wire Corporation and the National Steel Foundry Co., for exchange for voting trust certificates (common and preferred) of the National Steel & Wire Co., has been extended to May 1, 1905. The terms of exchange are as follows (compare V. 77, p. 2161, 2393):

Each \$1,000 of -	Com. stock. Pref.7% stock.	
Safety Insulated Wire & Cable Co. bonds	\$1,000	i
ao do do do stock	\$1,000	
National Wire Corporation bonds	1,000	Ì

Ontario Power Co., Niagara Falls, Canada.—Bonds Of-fered.—Denison, Prior & Co., Boston, are offering at par and interest, by advertisement on another page, \$1,000.000 of this company's first mortgage sinking fund gold 5s of \$1,000 each; dated Feb. 2, 1903, due Feb. 1, 1943, but subject to call on or before Feb. 2, 1913, at 110 and interest; interest payable Feb. 1 and Aug. 1 at Canadian Bank of Commerce, Toronto, or its agency in New York City; trustee, Toronto Gen-eral Trust Corporation. A slnking fund of \$1 per horse power sold begins July 1, 1909. The outstanding bonds now amount to \$2,599,000. The turbine and generator for the fort 10,000 here been sold these for the second 10,000 first 10,000 have been set up and those for the second 10,000 are being rapidly put in place, while the power-house is now far along to enclose machinery for 40,000 h. p.

An official statement says in part:

An official statement says in part: The plant, which will ultimately have a development of from 180,000 to 200,000 horse power, is practically a reversal of the plan employed at the other Niagara plants, and a return to the old-factioned mill race of our country streams. From the mill pond, or forebay as it is called, located a mile above the Fails, and covering 10 acres, there will extend three 18-foot pipes, which form the mill race. One of these pipes is now in place and will pass 3,900 cubic feet of water per minute. The pipe extends 6,100 feet along the shore to a point below the Fails, and there the water is led off through eight penetocks with a perpendicular drop of 133 ft. into the power-house, which is on a ciff of rock near the river level. The drop from the intake to the center of the turbines is 202 feet, of which 175 is effect-ive, so that the capacity of each pipe will be 60,000 horse power. The turbines are of the Francis type, and on the shaft of each is the dynamo, with a capacity of 10,000 horse power at 12,000 volts. The power is then led to the transformer house situated high on the bluff overlooking the river, where the voltage will be increased to 60,000. President J. J. Albright writing to the bankers under date

President J. J. Albright writing to the bankers under date of Oct. 28, 1904, says:

The company is under contract to deliver 80,000 h. p. on or before July 1, 1905, and 30,000 h. p. (making 60,000 h. p. in all) on or be-fore Jan. 1, 1907, and the work is now progressing at a rate which leaves a safe margin of time for completion within the dates named. Under the mortgage the total issue of bonds cannot exceed \$60 per h. p. with the addition of \$700,000 for hydraulic development at the intake works and for preliminary expenses. The company has already sold, under a contract extending to April 1, 1950, with the privilege of three extensions of 20 years each, a sufficient amount of power to produce, after deducting rentals, taxes, operating expenses and all other expenses, a net income from and after July 1, 1905, estimated at nowards of \$275,000 per annum, and after July 1, 1907, at up-wards of \$570,000 per annum.-V. 80, p. 119.

Penn-Wyoming Copper Co., Grand Encampment, Wyo.-Stock Offered.-The Equitable Securities Co., Chicago, is offering a limited amount of this company's \$10,000,000 stock at 50 cents per share; par, \$1. An advertisement says:

The company's profits are 20 p. c. on the investment. The plant is being increased. Pays 12 p. c. dividends. The next dividend of 3 p. c. on the investment will be paid July 1.-V. 80, p. 476.

Philadelphia Electric Co.-New Director.-J. R. McAllister, President of the Franklin National Bank of Philadel-phia, has been elected a director in place of Charles M. Swain, deceased.

Report.-See page 1422,-V. 79, p. 2591.

Philadelphia Steel & Iron Co.-Receivership.-This company's plant, at Trenton Avenue and Margaret Street, Philadelphia, was on March 27 placed in the hands of Charles F. Walters and Thomas Hardir, as receivers, by the United as receivers, by the United States Circuit Court at Philadelphia.-V. 75, p. 552.

of Delaware by merger of the following independent coal

properties of the Birmingham district: Pratt Coal Co. (see V. 78, p. 1786), Ivy Coal & Iron Co., the Townley Mining Co., Gamble Mines Co., Globe Coal Co., Nunley Coal Co., McCormack & Ramsay Coal Lands, Crooked Creek Coal Lands, Lockhart Coal Lands.

The consolidated company holds in fee 66,000 acres of coal lands with improvements, and has a daily output of 8,000 tons which it proposes to increase to 12,000 daily within the next 18 months. The capital stock is \$5,000,000 in shares of \$100 each, all of one class; outstanding, \$3,600,000. A mortgage has been made to the Central Trust Co. of New York, trustee, to secure \$5,000,000 of 5 p. c. gold bonds of \$1,000 each, of which \$3,600,000 are outstanding.

The bonde are dated Jan. 1, 1905, and are due Jan. 1, 1955, but are subj-ct to call on (or after?) Jan. 1, 1910, in any amount at 105; in-terest payable July 1 and Jan. 1 at office of trustee; sinking fund 1's p. c. No prior liens, we are informed, remain outstanding; the mort-gage covers the entire 66,000 acres and improvements. G. B. McCormack is Chairman of the Executive Com.; T.

T. Hillman, President; Erskine Ramsay, Vice-President; J. A. Shook, Secretary and Treasurer, and H. E. McCormack, Vice-Pres. and General Manager.

Rubber Goods Manufacturing Co.-New Director.-Maurice I. Blanchard has been elected a director in place of W. T. Coles.

Report.-See page 1422.-V. 78, p. 1445, 1449.

Texas (Oll) Co., Beaumont. Tex.—Increase of Capital Stock.—An amendment to the charter has been filed at Austin increasing the capital stock from \$3,000,000 to \$6,000,-000 for the purpose, it is ramored, of absorbing several small oil concerns and to make improvements. -V. 79, p. 2090.

Toledo United Breweries.—See Huebner-Toledo Breweries Co. above.-V. 89, p. 1183.

Union Typewriter Co.-Capacity of Remington Works.-The capacity of the Remington Typewriter Works, con-trolled by this company, it is announced by advertisement, has been increased by the new addition to the works to a machine a minute. This increase refers only to the Reming-ton Works and is independent of the capacity of the other plants controlled by the Union Typewriter Co.-V. 80, p. 1125

United Fruit Co.—Listed.—The New York Stock Exchange has listed \$1,503,000 additional capital stock, making total amount listed \$17,482,000. See report in V. 79, p. 2453, and compare V. 80, p. 1062, 1001.

Western Union Telegraph Co.-Securities of Leased Properties.-See Chicago & North Western Telegraph Co. and Gold & Stock Telegraph Co. above. -V. 80, p. 1062, 655.

Westmoreland Coal Co.—New Stock.—The shareholders on April 5 approved the proposition to increase the capital stock from \$3,000,000 to \$5,000,000. Stockholders of record April 5, it is stated, have the privilege of subscribing at par for two shares of new stock for every three shares of old stock held. Compare V. 80, p. 1239, 717.

Whitaker-Glessner Co.—See Portsmouth Steel Co. above. -V. 78, p. 1121.

Youngstown Iron Sheet & Tube Co.-Bonds.-The shareholders will vote in May on issuing \$2,500,000 bonds for the purposes stated in V. 80, p. 1239.

-T. A. McIntyre & Co. advertise in to-day's issue a selected list of investment securities, comprising a block of \$500,000 of bonds legal for New York savings banks, a block of public-service bonds and a number of issues of high-grade railroad bonds. Descriptive circulars and detailed information can be had on application to the firm's bond department in charge of H. C. Wright.

Pittsburgh Coal Co.-Important Contract.-The contract with the United States Steel Corporation is outlined in part as follows in a special telegram from Pittsburgh to the "Iron Trade Review:"

The coal deal recently pending betweeen the Pitteburgh Coal Co. and the United States Steel Corporation has been closed, as officially announced by W. R Woodford, Vice-President of the Pitteburgh Coal Co. The Steel Corporation agrees to open no mixes additional to those it now operates, producing about 4,500 tons daily of steam and gas coals. To cover all additional coal required by the corporation in Pitteburgh, Valley and Cleveland districts, including lake vessels, probably ranging from 6,000,000 to 10,000,000 tons annually, the present contract is made. It is to run for 25 years. The price is a very moderate advance above cost of mining, as determined annually by wage scales.-V. 80, p. 1238, 1179. Pratt Coal Co. Birmingham Ala See Pratt Consoli-

Pratt Coal Co., Birmingham, Ala.—See Pratt Consoli-dated Coal Co., below.—V. 78, p. 1786.

Pratt Consolidated Coal Co., Birmingham, Ala.—Consoli-dation.—This company was recently formed under the laws & Light Co. stock as an attractive investment.

-The banking house of William Salomon & Co. will be represented in Chicago by Mr. Heman Gifford, for many years associated with the New York office, and Mr. Alanson Follansbee, who is well known in the bond business in Chicago. Their offices will be on the fifth floor of the Home Insurance Building, 205 La Salle Street.

-Bloomfield J. Miller, Vice-President and Actuary of the Mutual Benefit Life Insurance Company of Newark, N. J., died on Tuesday. Mr. Miller was fifty-six years of age, and had been in the company's service for thirty-five years. He became Actuary in 1871, and was elected Vice-President in 1902.

-The banking and bond house of E. H. Gay & Co. has established a Chicago office at 1046 First National Bank Building, with Mr. W. L. Folds as Manager.

-Mr. Claude Ashbrook of Cincinnati directs attention in our advertising columns to the claims of the Toledo Railways

EPITOME

FRIDAY NIGHT, April 14, 1905. The condition of business in most lines of trade has been active. There has continued a full movement of merchandise into the hands of the consumir g trade, and as a general rule manufacturers and dealers have been booking new or-ders with considerable freedom. The reports from the iron and steel trades have continued to chronicle exceptional ac-The production of pig iron is at record-breaking tivity. The production of pig iron is at record-breaking figures, but even with the large output the movement of supplies into consumption has been on such an extensive scale as to more than absorb the production, stocks during the past month having been reduced slightly. The Agricultural Bureau monthly report showed a promising outlook for the grain crops, although during the past few days colder weather in the interior has delayed preparations for the late crops. In the speculative markets declining prices have been experienced for coffee and sugar, due to the liquidation

of the speculative interest in May contracts. Lard on the spot has had a moderate sale (to exporters, but business with the home trade has been limited. Prices have advanced. The close was steady at 7.50c. for prime Western and 6.85c. for prime Uity. Refined lard has been in limited demand and firmer, closing at 7.55c. for refined for the Continent. Speculation in lard for future delivery has been moderately active and prices have advanced on light receipts of hogs and packers' buying. The close was slightly easier.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May del'y	7.221	7.224	7.25	7.271	7:35	7.30
July del'y.	7.40	7.40	7.4249	7.45	7.5212	7.4719
Sept. del'y		7 55	7.55	7.573	7.65	7'6212

Pork has been in moderate demand and firmer, closing at \$13 50@13 871% for mess, \$13@15 for short clear and \$14 50@ 15 for family. Cut meats have been in increased demand, closing firm at 51/2@6c. for pickled shoulders, 83/2@9c. for pickled hams and 71/2@73/40. for pickled bellies, 14@10 lbs. average. Beef has been firmly held, closing at \$9 50@10 for mess, \$10 50@12 for packet, \$12@13 for family and \$17@20 for extra India mess in tcs. Tallow has been dull but steady at 45% c. Stearines have been in more active demand and higher, closing at 8c. for lard stearine and 8c. for oleo stearine. Cotton-seed oil has had a fairly large sale but at lower prices. The close was steady at 25@2514c. for prime yellow. Butter has been in limited supply and prices have advanced. The close was steady at 21@32c. for creamery. Cheese has had a fair sale at steady prices, closing at 10<sup>1</sup>4@ 14<sup>1</sup>/4c. for State factory, full oream. Fresh eggs have been in active demand and firm, closing at 18<sup>1</sup>/<sub>2</sub>c. for best Western. Brazil grades of coffee have been dull. Jobbers and roast-

ers have complained of a slow distributing business and they in turn have been light buyers. Prices have yielded slightly. The close was steady at 7 11-16c. for Rio No. 7 and  $8\frac{1}{4}c$ . for Santos No. 4. West India growths have had only a limited sale, buyers withdrawing; prices have been slightly easler, closing at  $9\frac{1}{2}$ C. for good Cucuta and  $10\frac{1}{2}$   $010\frac{3}{4}$ C. for good average Bogota. Speculation in the market for coffee contracts has been fairly active. Wall Street speculative interests have been liquidating their holdings of May contracts and prices have declined. The close was steadier.

The following were the closing asked prices:

		Aug			
		Sept			
July	6·55c.	Oct.	6.85c.	Jan	7.02c.

Raw sugars have been easier, following a decline in the London beet sugar market, which weakened under the liquidation of the speculative holdings for May delivery. The close was steady at 4% c. for centrifugals, 96 deg. test, and 4% c. for muscovado, 89 deg. test. Refined sugar has been duil, closing at 6 05c. for granulated. Other staple groceries have had only a limited sale.

Kentucky tobacco has continued to meet with a fair de-mand and with offerings limited prices have ruled firm. Offerings of seed-leaf tobacco have been light, there being only a small supply of the 1904 crop remaining in farmers' hands to be marketed. Prices have continued firm. Sumatra tobacco has been firm, with fair sales of old-crop tobacco at full values. Business in Havana tobacco has been quiet, but

## COTTON.

FRIDAY NIGHT, April 14, 1905,

THE MOVEMENT OF THE CROP as indicated by our telegrams from the Sonth to-night is given below. For the week ending this evening the total receipts have reached 163,544 bales, against 183,920 bales last week and 198,762 bales the previous week, making the total receipts since the 1st of Sept., 1904, 8,052,754 bales, against 6,771,160 bales for the same period of 1908-4, showing an increase since Sep.1, 1904, o<sup>P</sup> 1,281,594 bales.

prices have been well maintained.

Early in the week prices for Straits tin were advanced, but at the close they broke sharply, reflecting weaker foreign advices and final quotations were 30.25@30.621/2c. Ingot copper has been quiet and prices were quoted at 15.2(@15.80c. for Lake and 15.10@15.20c. for electrolytic. Lead has been in moderate demand and steady at 4 50@4'60c. Spelter has been in improved demand and steady at 6c. Pig iron has continued in active demand, closing at \$17 25@17 50 for No. 2 Northern, \$17 25@17 50 for No. 2 Southern.

Refined petroleum for export has declined, but closed steady at 7 05c. in bbls., 9.75c. in cases and 4.15c. in bulk. Naphtha has been steady at 11%c. for 71 degrees and 12c. for 76 degrees. Credit balances have been easier, closing at 1.83c. Spirits turpentine has sold slowly and the close was lower with 63@64c. quoted for machine bbls. Rosins have been in small supply and higher for low grades, closing at \$3 15@3 20 fcr common and good strained. Hops have been flat. Wool has held steady; demand has been moderately active.

# THE CHRONICLE.

In addition to above exports, our telegrams to-night also give us the following amounts of cotton on shipboard, not cleared, at the ports named. We add similar figures for New York, which are prepared for our special use by Messrs. Lambert & Barrows. Produce Exchange Building.

	ON	ON SHIPBOARD, NOT CLEARED FOR-

Speculation in cotton for future delivery has been quiet and there has been a gradual sagging of prices. The movement of the crop has continued full. There is no pressure of cotton on the market as a result of the fall-crop movement, it passing directly into the hands of the consumers; nevertheless the large receipts have a tendency to discourage a speculative investment account. Some reports have been heard during the week that in some instances Southern holders of cotton have shown more of a desire to sell, and these statements have had their influence against the market. The private advices received from the South have continued to report crop preparations backward, owing to weather conditions, To day there was a more active market but at declining prices. Discouraged speculative holders were reported liquidating, and it was also stated that leading bear interests were more aggressive sellers. The close was steady at a net loss in prices for the day of 11@14 points. Cotton on the spot has been quiet and at the close prices were lowered 20 points to 7 85c, for middling uplands.

The rates on and off middling, as established Nov. 18, 1903, by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows.

Fair	Good Middling Tinged Even
Middling Fair 0.96 on	Strict Middling Tinged 0.06 off
Strict Good Middling 0.62 on	Middling Tinged 0.12 off
	Strict Low Mid. Tinged 0.34 off
Strict Low Middling 0.14 off	Low Middling Tinged 0.50 of
Strict Good Ordinary 0.72 off	
Good Ordinary 1.00 off	Strict Low Mid. Stained 1.06 off
Strict Good Mid. Tinged 0.30 on	Low Middling Stained 1.50 off
Strict Low Middling 0.14 off Low Middling 0.38 off Strict Good Ordinary 0.72 off Good Ordinary 1.00 off	Low Middling Tinged 0.50 off Strict Good Ord. Tinged 0.84 off Middling Stained 0.50 off Strict Low Mid. Stained 1.06 off

On this basis the official prices for a few of the grades for the past week—A pril 8 to A tril 14—would be as follows.

#### MARKET AND SALES.

The total sales of cotton on the spot each day during the week are indicated in the following statement. For the convenience of the reader we also add columns which show at a glance how the market for spots and futures closed on same days.

	SPOT MARKET	FUTURES	SALES OF SPOT & CONTRACT					
	CLOSED.	MARKET CLOSED.	Ex- port.	Oon- sump.	Oon- tract.	Total.		
Monday Tuesday	Dull.	Steady Quiet		<b>2</b> 5		25		
Thursday	Dull. Dull. Quiet, 20 pts. dc.	Steady		41		41		
	Quiet, 20 pts. dc.	5108dy		66	500	566		

The above figures for 1905 show a decrease from last week of 49,076 bales, a gain of 1,153,055 bales over 1904, an excess of 711,670 bales over 1903 and a gain of 349,284 bales over 1902.

18

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since Sept. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1903-04—is set out in detail below.

Columbus, Macon, Rome, Louisville, Greenvelle, Greenville, Greenville, Meridian, Vicksburg, Vicksburg, Vicksburg, St. Louis Raleigh, Gineinnati, Greenwood, Memphis, Nashville, Brenham, Clarksville Dallas, Honey Grovy Houston, Paris, Helena, Little Rc Albany, Atlanta, Augusta tle Rook Total, ala, tgomery, Grove, TOWNS, 33 TEXAS. WEATHER REPORTS BY TELEGRAPH.—Telegraphic reports to us from the South this evening are in the main of a favorable character. The weather has been satisfactory over the greater part of the belt, and farm work has made good progress. A few correspondents state that cotton planting is nearing completion, but in Arkansas, Louisians and Mississippi wet weather has interfered with work. From Texas we are advised that planting is nearly completed in South Texas and some cotton is up to a stand, but in northern sections of the State seeding is backward.

Galveston, Texas.—Planting is nearly finished in South Texas and some cotton is up to a stand. Seeding is behindhand in North Texas, dry weather being needed to complete preparation and planting. Land is in good condition, however, and with favorable weather the plant will grow rapidly. We have had rain on three days of the week, the rainfall being fifty hundredths of an inch. Average thermometer 68, highest 76, lowest 60.

Corpus Christi, Texas.—The week's rainfall has been four hundredths of an inch, on one day. The thermometer has averaged 66, the highest being 76 and the lowest 56.

San Antonio, Texas.—The week's rainfall has been fiftyone hundredths of an inch, on two days. The thermometer has averaged 68, ranging from 52 to 84.

Taylor, Texas.—There has been rain on two days during the week, the rainfall being thirty-four hundredths of an inch. The thermometer has ranged from 50 to 84, averaging 67.

Palestine, Texas.—We have had rain on three days the past week, the rainfall reaching thirty-eight hundredths of an inch. Average thermometer 67, highest 88, lowest 53.

Abilene, Texas.—We have had rain on three days of the week, the precipitation reaching forty-two hundredths of an inch. The thermometer has averaged 64, the highest being 88 and the lowest 40.

New Orleans, Louisiana.—We have had rain on two days of the week, the precipitation being one inch. Average thermometer 70.

Shreveport, Louisiana.-We have had rain on four days of the week, the precipitation reaching four inches and fortyseven hundredths. The thermometer has averaged 69, the highest being 84 and the lowest 58. Leland, Mississippi.-No work to amount to anything in the fields this week. We have had rain during the week, the rainfall reaching two inches and five hundredths. The thermometer has ranged from 41 to 81, averaging 58'3. Vicksburg, Mississippi.-Bad weather has prevented much preparation for the crop. We have had rain on two days of the past week, the rainfall reaching one inch and ten hundredths. Average thermometer 66, highest 80, lowest 50. Little Rock, Arkansas.-Too much rain for farm work. Rain

Little Rock, Arkansas.—Too much rain for farm work. Rain has fallen on three days of the week, the rainfall being one inch and thirty-two hundredths. The thermometer has averaged 67, the highest being 84 and the lowest 59.

Helena, Arkansas.—Rains hinder work; very little cotton has been planted and not much corn. The week's rainfall has been two inches and seventy-six hundredths, on three days. The thermometer has averaged 65.7, ranging from 51 to 82.

Nashville, Tennessee.—We have had rain on one day the past week, the rainfall reaching eight hundredths of an inch. Average thermometer 62, highest 82, lowest 40.

Memphis, Tennessee.—Cotton planting has commenced, but the season is backward. Rain has fallen during the week, to the extent of one inch and forty-nine hundredths, on three days. The thermometer has ranged from 45 to 80'7, averaging 63'7.

Mobile, Alabama.—Beneficial rains in the interior. Cotton planting is making rapid progress and good stands have been secured in some sections. The general opinion is that there is little change in acreage. The week's rainfall has been one inch and seventy eight hundredths, on two days. The thermometer has averaged 67, the highest being 79 and the lowest 53.

Montgomery, Alabama.—Planting is nearly finished and cotton is coming up well. We have had rain on two days during the week, the rainfall being eighty-nine hundredths of an inch. The thermometer has averaged 67, ranging from 39 to 84.

Selma, Alabama.—Planting is making good progress, and it is likely the acreage will equal last year. We have have had no rain during the week. The thermometer has ranged from 50 to 75, averaging 65.

from 50 to 75, averaging 65. Savannah, Georgia.—We have had rain on two days during the week, the rainfall being twelve hundredths of an inch. The thermometer has averaged 67, ranging from 41 to 81.

Smyrna, Georgia.—We have had rain on one day during the week. The rainfall reached eleven hundredths of an inch. The thermometer has ranged from 51 to 79, averaging 62.

Augusta, Georgia.—Crop conditions favorable. The week's rainfall has been one inch and ninety-three hundredths, on four days. The thermometer has averaged 64, the highest being 81 and the lowest 88.

Charleston, South Carolina. - We have had rain on two days of the week, the rainfall being nine hundredths of an inch. Average thermometer 66, highest 78, lowest 42.

Stateburg, South Carolina.—Cotton planting is becoming general. Sharp frost on low grounds on the 7th but no damage. We have had moderate and very beneficial rain on one day during the week, the precipitation reaching sixtysix hundredths of an inch. The thermometer has averaged 64.4, the highest being 84 and the lowest 36.

Greenwood, South Carolina.—It has rained on two days during the week, the rainfall being eighty-five hundredths of an inch. The thermometer has averaged 58, ranging from 47 to 70.

The following statement we have also received by telegraph, showing the height of the rivers at the points named, at 8 A. M. April 14, 1905, and April 15, 1904.

Cotton freights at New York the past week have been 38 follows.

GOVERNMENT WEEKLY COTTON REPORT. -- Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the crops in the Southern States for the week ending April 10, summarizing them as follows:

Very little cotton has been planted in Alabama, Mississippi, and Louisiana, but planting is becoming general over the southern portion of the eastern districts and in Texas, where germination has been satisfactory. Preparations for planting are unusually backward in the lowlands of Louisiana and Arkansas.

JUTE BUTTS, BAGGING, &c. — The market for jute bagging has been dull the past week. Prices continue nominally un-changed at  $6\frac{5}{3}$  o. for  $1\frac{3}{4}$  lbs. and  $6\frac{7}{3}$  s. for 2 lbs., standard grades. Jute butts dull at  $1\frac{1}{2}$ @ $1\frac{3}{4}$ c. for paper quality and  $2@2\frac{1}{4}c$ . for bagging quality.

# BREADSTUFFS.

FRIDAY, April 14, 1905.

A dull, dragging market has been reported for wheat flour. Bayers generally have appeared to lack confidence in the situation and have limited their purchases strictly to such supplies as they have needed to meet immediate and well defined wants. There has been, however, no pressure from the mills to market supplies, and prices have held to a fairly steady basis. Rye flour has been dull and prices have weakened slightly. Corn-meal has been quiet but prices have been fairly well maintained.

Speculation in wheat for future delivery has been moderately active. The May position at Chicago is receiving considerable attention from the trade. It is understood that large and powerful interests are opposed to each other in this delivery and that a squeeze of shorts is contemplated, although to carry through a deal it is believed that bull interests will have to take care of a considerable quantity of [VCL. LXXX.

Indian corn futures have received a limited amount of speculative attention, and there has been a slight advance in prices. Advices from the interior have reported light country acceptances, and there has been a sharp falling off in the crop movement. Stocks at interior markets have been re-duced considerably by full shipments to the seaboard with the opening of interior navigation. Foreign advices have reported firmer markets on shorts covering, due to the arrival of supplies from this country in poor condition. Progress in crop work the past week has been reported comparatively slow, weather conditions not being favorable. A limited export business has been transacted in the spot market and at steady prices. To-day the market was quiet and easier. The spot market was quiet.

Oats for future delivery at the Western markets have been quiet, but there has been a fractional alvance in prices. There has been a sharp falling off in the crop movement, re-ceipts being comparatively light the past few days. Weather conditions have not been favorable for good progress in spring work, and these two developments have had a strengthening inflaence upon values. The spot market has been moderately active at firm prices. To-day the market closed lower.

AGRICULTURAL DEPARTMENT REPORT. - The report of the Department of Agriculture, showing the condition of winter grain on April 1, was issued on April 10 as follows:

The monthly report of the Chief of the Bureau of Statistics of the Department of Agriculture will show the average condition of winter wheat on April 1 to have been 91.6, against 76.5 on April 1, 1904, 97.3 at the corresponding date in 1908, and 83.1 the mean of the April aver-ages of the last ten years. The following table shows for the principal winter-wheat States the averages of condition on April 1, the corre-sponding averages one year and two years ago and the mean of the corresponding averages of the last ten years:

wheat. The monthly report by the Government's Agricultaral Bureau was issued on Monday afternoon, and it the winter-wheat crop in a very pronshowed ising condition, and had temporarily a depressing deliveries. infi lence upon values for new-crop During the first half of the week the weather reports from the interior were favorable for the growing wheat crop and for progress in seeding the spring-wheat crop. Subsequently, however, climatic conditions turned unfavorable, freezing temperatures being reported from the spring-wheat belt. The "Cincinnati Price Current," in its weekly review of the crop situation, says that the winter wheat crop is rarely so uni-formly promising at this season. The spot market has been quiet and easier. To-day the market advanced early on the cold weather reported from the West, but weakened at the close under bear pressure. The spot market was quiet.

GOVERNMENT Weekly GRAIN REPORT.-Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Burean, made public on Tuesday the telegraphic reports on the grain crops in the various States for the week ending April 10, summarizing them as follows:

ending April 10, summarizing them as follows: Corn.— Preparations for planting corn have been active under favor-able soil conditions in the central valleys and have begun in the south-ern portion of the Lake region. A large part of the corn area in the Southern States has been planted and much is up to good stands. Planting is now general in Kansas and Missouri and has begun in Kentucky and Southern Illinois. Winter Wheat.—All reports indicate that the outlook for winter wheat throughout the country is unusually fine and that the crop has made satisfactory progress since the previous issue of the Weather Crop Builetin, Auril 1. In California the condition of the crop is excellent in all sections, and the heaviest crop in years is promised. Spring Wheat.—The seeding of spring-wheat is well advanced over the southern part of the spring wheat region, being nearly completed in Nehraska and portions of Southern Minnesota and South Dakota, and finished in Iowa, and in these States the early-sown is coming up well. In the northern portion of the spring wheat region delay in seeding was caused by the rains of April 1 to 3 and subsequent freezes. In Washington seeding is well advanced and the early-sown in both Washington and Oregon is coming up nicely. Oats.—Oat seeding is largely finished in the States of Lower Missouri Valley and is well advanced in the Upper Mississippi and Ohio valleys, seeding having b-gun in the Upper Lake region. Excelient germi-nation is generally indicated, and the situation respecting this crop is very nomising.

nation is generally indicated, and the situation respecting this crop is very promising.

Exports of Grain and Flour from Pacific Ports.-The exports of grain and flour from Pacific ports for the week ending Apr. 13, as received by telegraph, have been as follows: From San Francisco to various ports, 7,283 bbls. flour, 1,000 bushels wheat, 4,800 bushels tarley, 100 bushels oats and 8,000 tushels corn.

Combining these figures with those for previous weeks, we have the following, which covers the exports to foreign countries for the period since July 1, 1904, comparison being made with the corresponding period of 1903-04.

Axports from-	Flour, bbls.	Wheat, bush.	Oorn, bush.	Oats, bush.	Barley, bush.	Rye, bush
San Fran.	544.270	1,620,441	131.473	177,983	3,803.465	854
Puget 8'd.				256,429	963,685	412

For other tables usually given here see page 1405.

#### THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., April 14, 1905

The cotton-goods market has taken on an air of increased activity during the week, and with the statistical position inoreasing in strength prices generally have shown an advancing tendency. While there is still an entire absence of anything approaching speculation on the part of buyers, there has been a greater disposition among these to anticipate their future requirements. This has been brought about by the impossibility of securing early shipments on many lines that are needed and by the improvement in retail trade, which is more or less general, but is particularly noticeable in the South. Under these circumstances sellers have been placed in a more independent position than for a lorg time, and while they are not making use of this to unduly advance prices, they are holding firmly to the current level and refuse to accept concessions that are offered. Many mills are sold farther ahead than they have been in some time, and could transact a much larger volume of business if they had the goods on hand to deliver. This is very marked in the export division, where inquiries are still being received for goods, but few orders are being placed owing to the impossibility of agents guaranteeing the required skipment. A few sales to both China and the Red Sea have been reported, and these have been placed at full prices. There is little new business in men's wear woolen and worsted goods, but dress goods have been moving freely during the week.

Heavy brown drills and sheetings are quoted generally 1/80. higher than a week ago, and while home buying has not been active, yet converters and others have shown more disposition to purchase ahead. The scarcity on many lines is becoming more and more marked and as yet the diversion of machinery from other lines to these has not had any appreciable effect on the situation. Light-weights have been in fair demand and inquiries for 4.50-yard sheetings and upwards for prcmpt shipment have been large. Export inquiries have comprised 3 to 4.50-yard sheetings and a few sales have been reported at sellers' full prices. Coarse, colored cotton goods, which have been more or less neglected for some time, are expected to feel the effect of the turning of machinery to other lines, and higher prices are looked for in the near future. Ticks have been well sold ahead and denims are fairly well conditioned. Bleached goods orders have been coming in more freely and there is a scarcity of finer counts. Some export business in bleached goods has helped the statistical situation, particularly on low counts. Canton flannels are becoming scarce and some lines have been sold up and withdrawn. Prices are firmly held. Kid-finished cambrics show some improvement, but are without quotable change. Staple prints have been in fair demand but fancies are quiet. Staple ginghems continue to move elowly, but there has been a good demand for fine dress ginghams. Print cloths have been quiet, with some irregularity reported in low counts. On wide goods mills are well sold ahead. Regulars remain quiet and unchanged at  $2\frac{3}{4}$ c.

WOOLEN GOODS.-Little duplicate business of importance is expected in the men's wear woolen and worsted market before the middle or end of May, but clothiers are expected to place their orders fairly freely as soon as they have discov-ered the trend of buying. In the meantime mills are busy turning out sample pieces and agents are fully occupied in keeping buyers up to their contracts. Cancellations are still heard of but have not been so numerous as in the recent past. Plans are already being formulated for next spring goods but will not be definitely settled until some idea has been obtained of the trend of duplicate orders on heavy-weights. The dress goods situation is encouraging to sellers and with the advent of warmer weather business has show a decided improvement. Retail trade is expected to be heavy, owing to the general prosperity throughout the country, and this will be reflected in the primary market. There has been little developement in fall goods, but some fair-sized orders have been placed. It is as yet too early to determine the true position of the market. The tendency still is towards plain staple goods.

FOREIGN DRY GOODS.—Some fair orders for imported woolen and worsted dress goods have been placed during the week and salesmen report the outlook as being bright. Silks have been firmer during the week and business active. Ribbons have shown some improvement. Linens are quieter but steady. Burlaps are somewhat easier but moderately active.

The value of these New York exports since Jan, 1 has been \$4,739,874 in 1905, against \$3,596,093 in 1904.

#### CITY DEPARTMENT. STATE AND

#### News Items.

Colorado.-Legislature Adjourns.-The Legislature of this

State adjourned April 3. Kansas.—School District Bonds.—The State Legislature prior to adjournment passed a bill authorizing the Board of Education of any city of the second class to issue bonds to Education of any city of the second class to issue bonds to provide funds for the purchase of a school site or buildings thereon or to fund any bonded debt or any floating indebted-ness which may exist at the present time. Interest, not ex-ceeding 5%, payable semi-annually. Maturity, not more than twenty years. All issues under this Act, other than refund-ing bonds and bonds put out to take up present floating debt, must be submitted to a vote of the people. The Act also limits the total indebtedness of the board to 15% of the valu-ation of the district. ation of the district.

Mexican Loan.—Listed on Berlin Stock Exchange.—Cable advices from Berlin say that the Mexican Government 4% gold loan, recently negotiated through Messre. Speyer & Co.

of this city, has been officially listed on the Berlin Stock Ex-change. See V. 80, p. 234. Minnesota.—Water Bonds.—The Legislature of this State has passed a bill (Senate Bill No. 286) authorizing cities having a population of from 10 000 to 20 000 inhebitants to having a population of from 10,000 to 20,000 inhabitants to issue bonds to construct or acquire water works; also Senate Bill No. 289 anthorizing oities of from 5,000 to 10,000 and Senate Bill No. 282 anthorizing cities of over 50,000 popula tion to issue bonds for water works.

Electric-Light Bonds.—Senate Bill No. 416, authorizing cities of more than 50,000 inhabitants to issue bonds for an

electric light plant, has passed the Senate. County Bonds.—House Bill No. 177, authorizing county commissions to issue bonds to refund bonded and floating indebtedness, has passed the Legislature; also Senate Bill No.

402, authorizing court-house bonds. Village Bonds.—House Bill No. 113, authorizing villages to fund floating indebtedness, has passed the Legislature.

New York State.—Amendment to Proposed Savings Bank Investment Bill.—The Senate Committee on Banking, on April 7, reported the new Savings Bank Investment bill with an added amendment permitting investments in securities of the Chicago & Eastern Illinois Railroad Co., which road, it is stated, has had gross earnings equal to five times its fixed charges for only three years instead of five, as required in the proposed measure. The bill as it passed the General Assembly on March 22 was given in full on page 1033 of the CHRONICLE March 11, 1905. This amendment, or rider, would seem to be opposed to the general character of the bill, which is to provide certain general standards to which investments must conform in the future instead of continuing the old practice of adding specially named bonds from time to time. In the Senate on April 13 the bill with this new addition

was advanced to a third reading, several attempts to recom-mit the same with instructions having failed. The Governor is reported as being opposed to the proposed rider and

is quoted as having said: "While I am Governor of the State no special bill to be enacted legalizing the securities of any railroad as a proper investment for savings banks and trust funds will be approved by me.'

North Carolina.—Effort to Obtain Recognition for Special Tax Bonds.—A circular was issued on March 29 by a committee consisting of John G. Carlisle, Jefferson M. Levy, Henry H. Melville and L. E. Whicher requesting holders of special tax bonds to join in an effort to secure some recognition by the State of these bonds. The circular is as follows:

tion by the State of these bonds. The circular is as follows: To the Holders of Special Tax Bonds of the State of North Oarolina: The recent decision of the Supreme Court of the United States, in the case of South Dakota vs. North Carolina, has effected a ma-terial improvement in the position of the special tax bonds. The Court can now entertain suits to enforce these bonds against the State, at the suit of any other State in the Union, or of any foreign State. The bondholders have thus become enabled to subject North Carolina to heavy burdens by donations of any proportion of the bonds to such States. North Carolina may avoid such a result by eet-tlement with the present holders upon a lower basis than the amount of such prospective donations. It is proposed to eurrender all the accumulated interest and to accept a settlement bond for the principal, to carry two per cent (2%) until 1910. At that time the present four-per-cent bonds become due, when all the State debt could be funded into new three per cents, the rate paid by other Bonthern States of restored credit. This adjust-ment would be aided by the gradual reduction of the State.

Then would be also by the gradual reduction of the Stating pension tax, as well as by the increased prosperity of the State. To effect these results, the undersigned [as above] have been re-quested by the owners of a large amount of the bonds to forward the provisions of the agreement, dated March 29th, 1905. copies of which may be obtained at the United States Trust Company, No. 45 Wall Street, New York City. An editionial article reviewing the decision of the U.S. Supreme Court in the case of South Dakota against North Carolina appeared in the CHRONICLE of last Saturday, page 1882.

tion, \$500. Maturity, \$4,000 July 1, 1910; \$6,000 July 1, 1915; \$6,000 July 1, 1920; \$8,000 July 1, 1925; \$8,000 July 1, 1930, and \$8,000 July 1, 1935. Date of sale notyet determined. Adams County (P. O. Natchez), Miss.—Bonds to be Issued.

We are advised that \$98,000 of the \$104,000 7% bonds of this

county which will mature July 1, 1906, will be refunded. Aiamo School District, San Diego County. Cal.—Bonds Re awarded.—An issue of \$1,600 6% school-building bonds was sold on March 30 to M. T. Gilmore for \$1,603. These are the same bonds awarded on Jan. 5 to San Diego parties (see V. 80 p. 610). which sale was not compared. 80, p. 610), which sale was never consummated. # \$1,000,000

# City of Hartford, Connecticut,

#### Connecticut River Bridge Bonds.

Sealed proposals will be received by the City Treasurer, at his office in the City of Hartford, until WEDNESDAY, THE 3D DAY OF MAY, 1905, at two o'clock P. M., for the purchase of the whole or any part of the above-named bonds, amounting to one million dollars (\$1,000,000), to be issued June 1, 1905, and maturing June 1, 1955. with interest at three and one-half per cent (3%%) per annum, payable semi-annually (June and December). Principal and interest payable in gold coin of the United States, of the present standard of weight and finenees.

These bonds are authorized by the Legislature of the State of Connecticut, and by the Court of Common Council of the City of Hartford, and are for the purpose of providing funds for the building of a bridge across the Connecticut River at Hartford, and the approaches thereto.

These bonds will be issued as coupon bonds of \$1,000 each, and registerable at the option of the holder, both as to principal and interest, by surrender of unpaid coupons and registration endorsed on bond.

Payments in full to be made by certified checks and bonds to be delivered June 1, 1905, at the City Treasurer's office, or in case the bonds are not ready for delivery at such time, temporary receipts will be issued.

The right is reserved by the Mayor and Treasurer, acting jointly, to reject any or all bids. Bids less than par will not be considered.

Proposals must be accompanied by certified check, payable to the order of the City Treasurer, for two per cent of the par value of the bonds bid for, as

Stenbenville (Ohio) School District.-Bonds Voted.-Bond Offering.-The election April 8 resulted in favor of the proposition to issue \$80,000 4% high-school-building bonds. # STATE OF NEW YORK

FOR

## CANAL IMPROVEMENT.

#### EXEMPT FROM TAXATION.

Notice is hereby given that pursuant to the provisions of Chapter 147 of the Laws of 1903, sealed proposals will be received at the office of the State Comptroller, in the City of ALBANY, until THURSDAY, APRIL 20, 1905, at twelve o'clock, noon, of that day, for the purchase in whole or in part of

#### Two Million Dollars in Bonds

to be issued by the people of the State of New York, in either registered or coupon form, at the option of the purchaser, bearing interest at the rate of Three Per Cent per annum from January I, 1905, payable semi-annually on the first days of January and July of each year, and the principal payable on the first day of January in the year 1923. Principal and interest payable in gold coin of the United States of America, of the present standard of weight and fineness, at the Bank of the Manhattan Company in the city of New York.

Coupon bonds will be issued in the denomination of One Thousand Dollars and registered bonds in denominations of One Thousand, Five Thousand,

draft upon a bank or trust company of the city of Albany or New York, payable to the order of the Comptroller of the State of New York, for at least two per cent of the par value of the bonds bid for.

All proposals, together with the security deposits, must be sealed and endorsed "Loan for Canal Improvement" and inclosed in a sealed envelope directed to the "Comptroller of the State of New York, Albany."

The successful bidder or bidders will be required to pay for the bonds, on the acceptance of the proposal, by deposit in the Bank of the Manhattan Company in the City of New York to the credit of "Treasurer of the State of New York on account of the Canal Fund," of the amount of the award, together with premium and accrued interest from January 1, 1905, less the amount of the deposit of such successful bidder or bidders, which will be applied toward the payment for the bonds. All other deposits will be returned by mail to the respective bidders within three days after the bonds have been awarded, unless different instructions to the Comptroller as to the return of the deposit are duly

guaranty of good faith. On acceptance of bid or bids, all checks so deposited will be returned to the depositors except those of the successful bidders, which will be held, considered and accepted as part payment for the bonds as awarded or sold. CHAS 11. SLOCUM, City Treasurer. Hartford, Conn., April 12, 1605. ERVIN & COMPANY,	Ten Thousand and Firty Thousand Dollars. A sinking fund is established by said Act for the extinguishment of the indebtedness created by the sale of the aforesaid bonds and for the payment of the interest thereon as the same become due. The Bonds are exempt from taxation. No proposai will be accepted for less than the par value of the bonds nor unless accompanied by a deposit of money or by a certified check or bank	given. The Comptrolier reserves the right to reject any or all bids which are not in his opinion advantageous to the interests of the State. OTTO KELSEY, Comptroller. State Comptroller's Office, Albany, N. Y. March 27, 1905.
