## CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, May 13, have been \$2,526,511,946, against \$3,269,910,769 last week and \$1,996,400,349 the corresponding week last year.

Clearings—Returns vy Telegraph. Week Ending May 13.	1905.	1904.	P. Cent.
New York	\$1,336,843,409	\$964,970,480	+38.6
Boston	121,971,920	131,161,986	-7.0
Philadelphia	104,631,595	80,896,157	+29.3
Baltimore	17,115,276	16,241,730	+5.4
Chicago	148,783,879	146,948,191	+1.2
St. Louis	48,753,229	47,120.254	+3.2
New Orleans	13,603,353	11,352,631	+19.8
Seven citles, 5 days	\$1,791,682,461	\$1,398,691,429	+28.1
Other cities, 5 days	315,941,863	269,948,927	+17.0
Total all citles, 5 days	\$2,107,624,324	\$1,668 640.356	+26.3
All cities, 1 day	415.587.622	327,759,993	+27.8
Total all citles for week	\$2,526,511,946	\$1,996,400 349	+26.5

The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, May 6, and the results for the corresponding week in 1904, 1903 and 1902 are also given. Contrasted with the week of 1904 the total for the whole country shows a gain of 49.2 per cent. Outside of New York the increase over 1904 is 20.4 per cent.

## CHICAGO STOCK MARKET.

Our record of the transactions on the Chicago Stock Exchange for the week and year, which is now a regular feature of the CHRONICLE, will be found to day on page 1902.

## THE FINANCIAL SITUATION.

It is matter for general congratulation that President Roosevelt has reached his official home in safety, with health and strength renewed. His position and duties are severely trying and call for great patience and endurance, and also for absolute rest at times, which latter could be in no way so effectually attained as by the method he has just used. On his homeward journey he stopped long enough at Chicago to express himself in a clear and decisive way to the strikers in that city, and especially in condemnation of the lawlessness which has been such a conspicuous feature. In his choice of words and manner of speech the President appeared at his best, exhibiting great good judgment and seemingly so as to have met the approval of all classes.

Much less fortunate was the President's announcement at Denver, Colorado, in the matter of railroad freight rates and national supervision of corporations, at a dinner given him by the Chamber of Commerce of that city Monday night of this week. The President's sentiments were uttered in response to the toast—"The Nation." He is reported to have said (1) that the policy of this country should be to give not to the State, but to the National Government, increased power for supervising and regulating corporations; and (2) particularly to empower the Inter-State Commerce Commission to fix railroad rates and to enforce them at once. The President has been during his long outing so completely away from and out of touch with the drift of public opinion that he has uttered sentiments highly inharmonius, at least to the Eastern ear. Rumors, indeed, have been affoat in his absence which have given him the credit of a material change of mind; so that our people were prepared for and anticipated more conservative views on his return to official life.

We regret the keen disappointment which his unexpected expression of opinion and purpose has given rise to, and on this occasion in sections wider than the same sentiments would have met last win-Besides, added emphasis was imparted to this address because it was followed by a speech the next night by Secretary Taft at a dinner to the International Railway Congress at the Willard Hotel, Washington, echoing almost literally the President's proposal on the rate question. Mr. Taft said that not only must railway rate legislation come, but he threw in the unnecessary threat or pressure of something worse about to happen to the railroads if they attempted to protect the properties with the care of which they are entrusted. That kind of big talk or menace was well enough in the Bryan campaigns, but it does not fit conditions as they now exist.

We assert that the starting up into new life of this old source of disquietude through the strong utterances by the leading representatives of the Government, one in Denver and the other at Washington, on almost the same night, is unfortunate, and we may add also very untimely.

fully as they were, and it will not tend to improve business affairs to make every man who holds one or more railroad bonds or shares of stock tremble for fear of this attack, coupled as it is with the apparent menace that the whole force of the Administration has enlisted in the undertaking. While, however, making this attack, it is not wise to assume that railroads will not antagonize the Administration if it attempts it. We affirm that, not because we know the minds or intent of the managers, but because we know that as a body there is no class of men more truly honest than they are, and because they would be recreant to their duty and betray their trust if they did otherwise.

Moreover we know that the managers will succeed. That is inevitable for several reasons. One is, because the President's way does not hit the evils which are sought to be corrected—that is rebates, discriminations, private and refrigerator cars, and other devices for giving preferences to one shipper over another; two, because the railroad view does hit the real evils, and as a rule they are evils which the provisions of the law if not clear and wide enough now to catch them, the belief of the railroads is that they should be widened and made plain and the enlarged provisions enforced; three, because the right always will prevail and it is no more right for a shipper to use his neighbor's property for nearly nothing than it is right for the consumer to enter the farmer's wheat bin and compel the farmer to let him have his grain at less than its market value; finally (to descend from high moral grounds to a much lower level), it is not good politics, for the Republican Party has no reason for existence except it is to fight directly for the right or indirectly for it by antagonizing the wrong. If we are going to have the wrong prevail anyhow, we would much rather help put in office the real thing and not its counterfeit.

We have said above that the speeches referred to were a means of giving life and vigor to an old source of disquietude. It was not our intention to claim that the setback in the iron market and the variable character of the stock market this week were caused by this revival. Perhaps they were a contributory cause to the stock market reversion Tuesday; but there were other influences working adversely to activity and stability in stocks that day. As to iron, it has been for a week or more quivering on the edge of overproduction. Some such contingency was due. In previous weeks, notwithstanding the rapid strides that had been for many months making in iron production, no little talk of importing iron became a current feature; this for the moment seemed to be an approaching necessity to supply the demand, which had become so extreme. When in any country a trade gets into that position, it is generally followed by a check to the uses of the commodity, and that seemed to be the more likely course on this occasion. other words, affairs had reached a turn, and it does not require any great supply of brain power to see that if these threats of the Administration were pushed, every holder of securities-which means a large army of persons all over the country—would soon be in a shiver at the losses which a persecution of railroads would entail to every holder of that class of investment.

But it is by no means the owner of stocks only that would suffer by a setback in the prosperity of our carrying industry. It is the largest employer of labor in the United States, and it is only when all the idle men find Things are not going in an industrial way quite as hope- work that the farmers' products sell at their best. We

have a notable illustration in the experience of the current year. It is well known that it was not the export demand which gave to wheat its extremely high price. We sent hardly any wheat abroad. Indeed, quotations in Chicago and New York were much higher than in the Liverpool market. The magnificent return the farmer secured for his wheat this year was, as every one knows, chiefly due to the fact that labor was fully employed and that producers of all sorts of manufactures were able to pay high wages; and this resulted largely from the great activity in the carrying industry and its allied branches of trade, resulting in railroad expenditures never before reached, fructifying the whole land and imparting to this highly favored country a reproductivity seldom before enjoyed. As a consequence, home consumption of bread was so largely increased that it became the dependence of the farmer for his profit. Had he this year been compelled to look to the foreign demand for purchasers of his surplus products, it would have been a sorry year for him.

An interesting financial incident of the week was the sharp recovery of three centimes on Monday, compared with Friday of last week, in the rate for exchange at Paris on London. This movement appears to have been partly in response to advance information, which was probably received on the Bourse, of the issuance by the French Government of perem ptory orders to the Governor of French In do-China and to the Admiral on that station to request Admiral Rojestvensky, commanding the Russian fleet, to leave the territorial waters of that province, thus relieving the political tension which had developed between France and Japan as the result of Rojestvensky's abuse of the hospitality of France. Though the recovery in Paris exchange may have been partly due to other influences, such as re-buying of securities in London and an easy tone for discounts at Paris, the advance in the check rate seems to have been regarded as an indication of the restoration of normal market conditions, which had been greatly turbed, not only at Paris but at London, by the somewhat acute political tension between France and Japan. The compliance by Rojestvensky with the request of the Indo-China authorities and the subsequent avoidance by him of cause for complaint through the arrangement for effecting a junction with Negobatoff's squadron outside French territorial waters, not only contributed to the maintenance of the restored Paris check rate, but it relieved apprehensions of renewal of Though a coincident event the the political tension. recovery in the above-noted check rate has apparently served to allay any fears of further depletion of the British gold stock, and the almost unprecedented accumulation of more than \$570,000,000 gold by the Bank of France would seem to make it probable that no effort will be made again to draw the metal from London, at least at present. Consequently there will be most likely no such derangement of the discount market at that centre as was caused last week in great part by French withdrawals of gold and less apprehension than was then felt of a movement of the metal from New York to Paris.

There is reason for gratification in the fact that the promise for a large wheat crop the present season is exceedingly favorable. The Agricultural Bureau at Washington has this week issued its monthly report, bring-

ing the data down to the 1st of May, and it bears out fully our remarks of a few weeks ago to the effect that not only is the condition very much better than at this time in 1904, but at the same time there is a substantial increase in the area of wheat to be harvested. The Department shows that the area of winter wheat under cultivation is only 1,432,000 acres (or 4.6 per cent) less than the area planted last autumn. The previous year, on the other hand, an exceptionally large amount of winter wheat had been killed by the severity of the weather and the fact that the plants had not enjoyed an adequate covering of snow. The result is that 29,723,000 acres of autumn-sown wheat are now in cultivation, against only 26,865,000 acres in 1904, the increase therefore being 2,858,000 acres or 10.6 per cent. The average of condition is reported higher even than a month ago, namely 92.5 against 91.6. On May 1 last year the condition of the area remaining under cultivation was only 76.5 and the mean of the May averages of the last ten years is given as 83.7. Barring unfavorable developments in the future, the prospect is, hence, for an unusually good crop—a crop considerably above the average.

It is important to note, too, that the agricultural situation as a whole is exceptionally satisfactory at this date. The Agricultural Department makes the condition of meadow-mowing lands on May 1st 93·3, against 85 on May 1 1904 and 90 the mean of the May averages of the last ten years. The condition of spring pastures May 1 is given as 92·3, against only 80·5 on May 1 1904 and 80·1 the mean of the last ten years. Furthermore, of the total acreage of spring plowing contemplated, 71·5 per cent is reported as having been actually finished up to May 1, as compared with but 57·3 per cent at the corresponding date last year and a ten-year average on May 1 of 67·7 per cent.

We have made allusion above to indications of some reaction in the iron and steel trades. That there should be some reaction can not be deemed at all strange, for production has been progressing at a really tremendous The "Iron Age" of this city has the present week published its usual monthly blast-furnace statistics, and they give full emphasis to this point. Our contemporary finds that in April the make of iron aggregated 1,922,041 tons, which was really greater proportionately than the make in March, when the output reached 1,936,-264 tons—for April contained only thirty days, whereas An additional day March had thirty-one. April would have carried the production up to 1,986,000 tons. The "Age's" statistics never include the output of the charcoal furnaces, which average about 34,000 tons per month. Adding these on and allowing for the difference of a day, production and consumption alike during March and April have averaged about 2,000,000 tons a month. As was pointed out by us in reviewing the figures for March, this is a marvelous total. It is an average of 24,000,000 tons a year, whereas the very largest make of iron in the past in any period of twelve months was in the fiscal year ending June 30 1903, when the output reached 18,720,000 tons. In other words, production now is at a rate nearly one-third larger than at the most pronounced previous period of buoyancy and activity in the iron industry. Moreover, there seems no likelihood of any immediate lessening of the output, for the "Age" points out that the further additions to active plants make it a praccharcoal pig, will overrun 2,000,000 tons. The important fact of course is that for the first time since August of last year there has been an increase in the stocks of iron being carried by what are known as the merchant furnaces. The increase, however, is surprisingly small considering all the circumstances, being hardly more than 17,000 tons. Indeed, the whole amount of these furnace stocks still remains quite insignificant. After the increase just noted the amount of the same was only 336,649 tons May 1. This compares with 319,257 tons April 1st, 350,746 tons March 1st and 403,034 tons January 1st. If, therefore, a setback in the iron trade is really under way, as some maintain, it certainly has not yet reached large proportions.

Hardly too strong commendation can be given to what was said by Comptroller of the Currency William B. Ridgely, when speaking at the dinner of the National Bank Cashiers' Association of Massachusetts at Boston this week, with reference to the evils of speculation. Mr. Ridgely pointed out that the ruin of a bank is practically always the result of fraud or the use of the bank's funds in undue and unlawful amount by its officers and directors. The money is sometimes lost in legitimate enterprises, through bad judgment and mismanagement, but far the most frequent cause for actual stealing or defalcation in banks is speculation. What he says with reference to the speculative mania becoming more common, is also true. Where it was formerly confined to a few large cities, it now extends to almost every little country town. Men are tempted by it into the use of other people's money to save themselves. Mr. Ridgely does not at all exaggerate when he says that no one knows until he is subjected to it how great that temptation is nor can be sure he can resist it. He is also right when he urges that the only safe way is to avoid speculation. He lays down the rule that no man who assumes the responsibility of the custody of funds belonging to others should take the risk of subjecting himself to this temptation or allow others with whom he divides such a trust to do so. We would go still further and extend the prohibition even to those not directly concerned in the management of financial institutions—to clerks and minor officials. We regard drink and speculation as the twin curse of mankind, and both are to be avoided. Speculation is only another name for a desire to acquire sudden wealth without giving an equivalent in the shape of industry and application, and if it does not actually lead a man astray, persistence in it unfits him for the ordinary vocations of life. He eannot be chasing rainbows and attend to his work at the same time.

We are of course entirely in accord with Mr. Ridgely when he urges that no man should be made President or Cashier or managing officer of a bank or trust company who does not expect to make it his sole business. He should have no connection with outside enterprises which require large amounts of the funds of the institution. Above all, as Mr. Ridgely insists, he should under no circumstances be allowed to use his position in the bank or its credit and influence to linance and promote outside enterprises from which he is to derive a profit personally instead of the bank. Those controlling financial institutions or holding positions of trust should heed this advice.

There was no change in official rates of discount by any of the European banks this week; unofficial or open market rates were firm at London, at Berlin and at Frankfort, and exceptionally easy at Paris, owing to the large accumulations of gold in the Bank of France, these amounting to the almost unprecedented sum of £114,-122,428. The most interesting feature of the statement of the New York Associated Banks last week was the contraction of \$5,780,200 loans. The cash showed a net increase of \$1,406,500 and deposits decreased \$2,630,700. The surplus revenue was augmented by \$2,064,175, to \$18,729,425. The bank statement of this week should reflect the transfer hence to New Orleans of \$100,000 through the Sub Treasury.

The first instalment, amounting to \$14,268,000, of public deposits, called on April 5 by the Secretary of the Treasury, will probably be surrendered on Monday of next week, and the second instalment of \$14,821,000, making a total of \$29,089,000, will be payable on July 1. Already \$4,477,000 on account of both instalments, but chiefly for the first, have been turned over to the Treasury.

The market for money has been easy again this week influenced by the lighter demand resulting from the depressed condition of the stock market and the small commission house business. Money on call, representing bankers' balances, loaned at the Stock Exchange during the week at 3 per cent and at 2 per cent, averaging a fraction below 21 per cent; banks and trust companies loaned at  $2\frac{1}{2}$  per cent as the minimum. On Monday loans were at  $2\frac{3}{4}$  per cent and at  $2\frac{1}{2}$  per cent with the bulk of the business at  $2\frac{1}{2}$  per cent. On Tuesday transactions were at  $2\frac{3}{4}$  per cent and at 2 per cent with the majority at 2½ per cent. On Wednesday loans were at 3 per cent and at 2 per cent with the bulk of the business at  $2\frac{1}{2}$  per cent. On Thursday transactions were at  $2\frac{1}{2}$  per cent and at  $2\frac{1}{4}$  per cent with the majority at  $2\frac{1}{4}$  per cent. On Friday loans were at  $2\frac{1}{2}$  per cent and at  $2\frac{1}{4}$  per cent, with the bulk of the business at  $2\frac{1}{2}$  per cent. Time contracts were in only moderate request even for the longer dates and scarcely any business was reported for short periods. Quotations for loans on good mixed Stock Exchange collateral were 3 per cent for sixty days, 3\frac{1}{4} per cent for ninety days, 3\frac{1}{2} per cent for four to six months and  $3\frac{3}{4}$  per cent for seven to eight months. One feature was the offering of Boston and Chicago money for six months at rates fractionally above those ruling for that period. Commercial paper continues dull, with limited supplies in the market. Rates are  $3\frac{3}{4} \otimes 4\frac{1}{4}$  per cent for sixty to ninety-day endorsed bills receivable, 4@41 per cent for prime and 4½@5 per cent for good four to six months' single names.

The Bank of England rate of discount remains unchanged at  $2\frac{1}{2}$  per cent. The cable reports discounts of sixty to ninety day bank bills in London  $2\frac{1}{4}$  per cent. The open market rate at Paris is  $1\frac{1}{2}$  per cent and at Berlin and Frankfort it is  $2\frac{3}{8}$ @ $2\frac{1}{2}$  per cent. According to our special cable from London, the Bank of England gained £455,749 bullion during the week and held £36,035,430 at the close of the week. Our correspondent further advises us that the gain was due to imports of £218,000 (wholly bought in the open market), to exports of £45,000 (of which £30,000 from South America and £15,000 from South Africa), and to receipts of £283,000 net from the interior of Great Britain.

The foreign exchange market was strong this week, influenced by a limited supply of bankers' bills and by a good demand to remit for stocks sold for European account, for mercantile settlements and for the payment or extension of maturing finance bills. The unsettled stock market in London early in the week, caused chiefly by the embarrassments of a prominent speculator in Mexicans and Americans, partly by the political tension growing out of the Franco-Japanese incident, and to some extent by the development of a large bull account for the bi-monthly settlement on the London Stock Exchange, resulted in almost continuous liquidation in Americans in London and in our market for European account, and hence a steady demand for remittance against such sales. There was also an inquiry for exchange to remit for mercantile settlements usual at this period of the year and for traveler's credits. The easy rates for money in our market and the dearer discounts in London not only discouraged the negotiations of new finance bills but tended to induce the payment or renewal of those which were maturing; the extension of such bills for another period of three months necessitated the procurement of sight exchange for this purpose. The possibility of the transfer to London of the proceeds of the recently negotiated Japanese loan for \$75,000,000, after final payment therefor amounting to \$59,131,500, shall have been made on May 25, may have led to the accumulation of exchange this week in anticipation of its requirement for such transfer. Commercial bills were in only moderate supply and they were promptly absorbed. The somewhat urgent demand for exchange on Monday was due to the fact that there would be a fast steamer on the following day. This inquiry seemed to have been easily satisfied, for on Tuesday rates fell off, though there was a recovery on Wednesday, and the tone was strong thereafter. Though the London bi-monthly settlement occurred on Friday, there did not appear to be any special demand for cables, probably because of the comparatively small interest which our bankers had in the bull side of the account. One feature of the week was a sharp recovery in the rate for exchange at Paris on London from 25 francs 14½ centimes on Friday of last week to 25 francs 16 centimes on Saturday and to 25 francs  $17\frac{1}{2}$  centimes on Monday, and, as the result of this advance, the price of bar gold and of American Eagles in London was reduced on Monday to 77 shillings 9 pence for the former and to 76 shillings 4 pence for the latter. This rise in exchange at Paris on London may have been due to assurances on Saturday of last week that the Franco-Japanese incident would be satisfactorily closed; to re-buying of securities in London by French bankers, or to the declining tendency for discounts at Paris. The advance in the check rate at Paris was an important factor in the situation, and its maintenance after Monday at 25 francs 17½ centimes reflected confidence. With this rate established there was, of course, no need for maintaining an abnormal price for gold in London, that market being no longer threatened from Paris; hence the decline, as above noted, in the quotation for bars and for American Eagles. Gold received at the New York Custom House during the week, \$29,222.

Nominal quotations for sterling exchange are 4 85@ 4 85½ for sixty day and 4 87@4 87½ for sight. Rates for actual business on Monday were, compared with those on Friday of last week, 10 points higher all around—long at 4 8460@4 8470, short at 4 8670@4 8675 and cables at

4 87@4 8705. On Tuesday the tone was easier and long fell 5 points to 4 8455@4 8465, while short and cables declined 10 points to 4 8660@4 8665 for the former and to 4 8690@4 87 for the latter. The market recovered on Wednesday, when long was 10 points higher at 4 8450@4 8475 and short and cables 15 points better at 4 8675@4 8680 for the former and at 4 8705@4 8715 for the latter. On Thursday the tone was barely steady; long rose 10 points to 4 8460@4 8475 and cables fell 5 points to 4 87@4 8710, while short was unchanged. The market was dull and steady on Friday at entirely unchanged rates.

The following shows daily posted rates for sterling exchange by some of the leading drawers.

\* The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver; but we believe the division we make is a close approximation.

† The Austro-Hungarian Bank Statement is now issued in Kronen and Heoer instead of Gulden and Krentzer. The reduction of the former currency to sterling  $\pounds$  was by considering the Gulden to have the value of 50 cents. As the Krone has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to  $\pounds$ , has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 26.

## THE LAW OF NEUTRALITY.

The comment which we suspect most people made, on the agitation last Monday over the Franco-Japanese neutrality dispute, was that the demonstration was belated. Nothing really new had happened; the abuse of neutral provisions by the Russian fleet, seemingly with the connivance of the French, had been going on for many weeks before diplomatic circles and the markets appeared to take fire about it last Monday. It is possible that the outburst which then occurred was planned for the purpose of forcing, from the French Government, a distinct and unequivocal statement of its attitude. Some such unqualified stand was really needed; for the semi-official outgivings of the Paris Foreign Office, through the diplomats or the inspired press, were not all of a very They consisted, as voiced by the agreeable nature. "Temps," of reference to the fact that England is the main beneficiary of strict construction of the rules and of the twenty-four-hour limit of asylum for warships in a neutral port; that England, provided as it is with convenient harbors of its own throughout the world, would be placed at a distinct advantage compared with other Powers with whom hereafter it might be at war; and, therefore, that the French Government could not accept as an inviolable rule the twenty-four-hour provision.

It was not easy to determine just how much of this statement of the case was mere journalistic argument and how much represented the Government's official position. That there was no possibility of the serious breach of which Monday's market talked, was shown by the fact that France and England were engaged in paying unusual diplomatic civilities to one another at the very time when this dispute was pending. And in fact, when the French Foreign Office made its statement of the case of the Russian fleet, it at once became evident that, whatever view that Government might in the abstract hold as to the harboring of belligerents, it has conducted itself with entire propriety in this case.

Briefly summed up, the case reduces itself to thisthat the Russian Admiral presumed on the hospitality of his ally, deliberately broke the neutrality laws until France was compelled to insist upon his going, and even then, after promising immediate departure, broke his word, and remained until virtually driven out. This is a strong indictment; we should not accept it as a sure statement of the case but for the fact that all its unpleasant allegations-including that of violation of his word by the Russian Admiral—are made in an official paper published last Tuesday by the French Foreign Office. This statement of the case will convince most reasonable men that France was placed in an awkward and painful position. She was Russia's ally; other things being equal, it was her natural instinct to favor Russia to the limit of international law. This caused an awkward situation when the unbidden guest refused to leave at the first hints by his host. To turn out the Russian fleet by violence would have been, in any case, no easy matter, and it was hardly to be expected that, except in the last emergency, such recourse as firing from a French vessel at the Russian fleet would have been adopted. The most that can be said, we think, is that the whole performance is of a piece with the insolent defiance of law and precedent which has been shown by Russia in this contest from the first-beginning when she broke

tinuing to the episodes of the Red Sea seizures, the Dogger Bank affair and the use of the French colonial harbors. One cannot wonder that Japan should have shown great irritation; that it should not have betrayed even more of hasty temper is much to the credit of its intelligence and self-control. We doubt if our own people would have come out of such a test so creditably.

Whatever may be said as to the French Government's responsibility, it appears that the two Russian fleets have now effected junction. The despatches calculate that, with the re-enforcement of the second Baltic fleet, Rojestvensky now has under his command some twentyfive more vessels than can be numbered by Admiral Togo. Conjecture is naturally rife as to just what bearing this re-enforcement has on the chances of a naval contest. So far as we can judge, the views of experts are not materially altered as a result of the second fleet's arrival. In firing capacity and weight of metal, the Russian Admiral doubtless stands at a great advantage. But it must also be observed that, beyond a certain point, accumulation of extra vessels may be a source as much of weakness as of strength. The typical case in point is that of the Spanish Armada. It had been reckoned by the Spanish Government that with the immense preponderance in number, weight and carrying power of the fleet sent to the English Channel, the small and quick-sailing English vessels would be simply crushed. How different was the eventual result, every one knows. The Spanish fleet proved unmanageable simply because it was so large. It became impossible to maneuver effectively; crowded together, its vessels provided a mark which the most indifferent gunner could not miss; demoralization of its crews ensued; and, in the end, mere accidents of wind and wave gave the final coup-de-grace to the expedition.

It is not altogether safe to draw close comparison between a belligerent fleet to-day and one of three hundred years ago. Nevertheless, there are certain principles which apply in the one case as in the other. It is recognized, for instance, by all experts, that the arrival of the new Russian fleet, which consists of slow and weak vessels of the most obsolete type among European navies, will reduce the Russian Admiral to the necessity of moving slowly, maintaining enormous coal supplies, and keeping always in such close formation as will prevent aggressive work against the enemy. It is a well known maxim in the navy that no fleet in the presence of the enemy can sail faster than its slowest ship. In the Russian fleet as now constituted are the type of vessels which, a month or two ago, the British Admirality was selling for old junk. Our judgment is that a situation of this sort deprives the Russian fleet of practically all its power as a dangerous offensive force. It certainly cannot safely divide its forces to perplex the enemy.

To what extent it retains defensive power, is the more doubtful question. That the Russian fleet would now be violence would have been, in any case, no easy matter, and it was hardly to be expected that, except in the last emergency, such recourse as firing from a French vessel at the Russian fleet would have been adopted. The most that can be said, we think, is that the whole performance is of a piece with the insolent defiance of law and precedent which has been shown by Russia in this contest from the first—beginning when she broke her word to us as to retiring from Manchuria, and con-

intends to invite a battle, under all the circumstances, we have been tempted seriously to doubt. One theory not lacking in plausibility is that Rojestvensky's purpose has been from the first to reach Vladivostock, where his fleet, while sheltered from the Japanese Admiral, might do some service in preserving that city from the land movements of Oyama. It cannot now be longbefore the question of destination is definitely settled.

# BOARDS OF TRADE AND PROPERTY RIGHTS IN QUOTATIONS.

The decision of the U.S. Supreme Court this week in the Chicago Board of Trade cases establishes very clearly two propositions. In the first place, the Court puts its seal of condemnation on the contention that this influential body possesses anything in common with bucket shops or that dealings on the same are gambling transactions or wager contracts, making them illegitimate and contrary to law. Such a view of the character of the business of that organization the Court rejects absolutely. In the second place, the ruling of the Court upholds the claim advanced on behalf of the Board that there is a property right in quotations, and that this being so proper means can be taken to protect such right. It will readily be seen that these are doctrines of the highest importance and of wide application, for throughout the country there are numerous mercantile exchanges which differ in no essential particular from the Chicago institution. The attitude of the U.S. Supreme Court on the questions raised has long been awaited with keen interest.

The litigation which has brought this declaration of the views of the U.S. Supreme Court on the questions involved—an authoritative expression from the highest judicial tribunal—had its origin in the crusade which the Chicago Board of Trade has been conducting for some years against the bucket shops. These concerns had been appropriating without the consent of the Board the prices made on the Board. The matter reached the U. S. Supreme Court on appeal in two cases, and it is rather noteworthy that the decisions in the lower courts in these two cases were directly in conflict, leaving the law and the course of judicial construction under it confused, though no one acquainted with the real character of the business of the Board of Trade had any doubt what the final outcone would be. The Board supplies its quotations to the telegraph companies under a contract not to deliver them to bucket shops, and both suits were instituted to prevent the use of the figures by outside concerns without contracts with the Board.

The first case was that of the Chicago Board of Trade against the Christie Grain & Stock Co. of Kansas City. In that case a bill in equity was filed April 18 1901 in the Circuit Court of the United States for the Western District of Missouri against the concern mentioned and also against the Western Union and other telegraph companies. The telegraph companies had advanced the proposition that they were common carriers and could not refuse the quotations to any applicant. The relief prayed for was the granting of an injunction restraining the Christie Co. from receiving or surreptitiously acquiring from the telegraph companies the market quotations representing the dealings on the Board of Trade, and also restraining the telegraph companies from entering

into any contracts with the Christie Co. for the delivery to them of the quotations furnished the telegraph companies by the Board of Trade. The Circuit Court granted a decree in accordance with the prayer of the petition. When this case, however, reached the United States Circuit Court of Appeals for the Eighth Circuit, in 1903 (before Sanborn and Van Devanter, Circuit Judges, and Shiras, District Judge), the decree of the lower court was reversed. The Court of Appeals in that case (speaking by District Judge Shiras) contended that the Board of Trade did not come with clean hands, nor for a lawful purpose, and for these reasons its prayer for aid must be denied. Judge Shiras asserted that the evidence showed that much the larger part of the transactions on the Board were deals wherein it was not expected or understood that there would be any delivery of the article nominally dealt in, but the same were carried through and settled by methods clearly devised to avoid the need of actual delivery.

No one believed that such an erroneous notion of the dealings on the Chicago Board of Trade could long prevail, and it required only about seven months to show that this confidence was not mistaken. In April 1904 there came a decision in a precisely similar case (to which reference was made in these columns in our issue of April 30 1904), this time by the U.S. Circuit Court of Appeals for the Seventh Circuit, in which the conclusion was reached that the dealings on the Board of Trade were legitimate in every way, and that, therefore, the complaint of the Board of Trade must be sustained. The action here was that of the Board of Trade against the L. A. Kinsey Co. et al., commonly known as the Indiana bucket-shop case. In this instance the lower court had dismissed for want of equity the bill of complaint to enjoin the Indiana defendants. The claim set up was like that in the earlier case, the contention being that the Board of Trade had no standing in a court of equity, because its quotations were contraband and might be seized by any one with impunity; that the Board of Trade, even if the quotations themselves were not contraband, came into court with unclean hands in this, that it sought to exclude all others from using property (the quotations) in order that it might aid its members in maintaining gambling in grain and provisions which it permitted to be carried on in its Exchange hall. This, it will be seen, was the view which the U.S. Circuit Court of Appeals for the Eighth Circuit had sustained in the Christie case. The second case, however, on appeal went as already stated to the U.S. Circuit Court of Appeals for the Seventh Circuit (before Jenkins, Grosseup and Baker, Circuit judges), and there a contrary conclusion was arrived at-a conclusion in consonance with the real facts of the case, That appellate tribunal reasoned that while it might be true that a large proportion of the no-delivery transactions were "speculative," speculation itself was not unlawful. One may buy any sort of property to hold for a rise; one may contract to buy or sell property not in possession or in existence at the time; and lawful contracts may lawfully be settled in advance of the time of performance. Furthermore, Judge Baker, who delivered the opinion in that case, said that news may be an object of lawful ownership though nine-tenths of the things reported be unlawful. Nor should the property in this case (the news-the continuous quotations of prices) be adjudged contraband because it was susceptible of baa uses as well as good.

It is this last view that has now found full endorsement in the U.S. Supreme Court. Justice Holmes, de. livering the opinion of the Court, says: "People will endeavor to forecast the future and to make agreements according to their prophecies. Speculation of this kind by competent men is a self-adjustment of society to the probable. Its value is well known as a means of avoiding or mitigating catastrophies, equalizing prices and providing for periods of want." He referred to the Chicago Board of Trade as a great market where, through its 1,800 members, is transacted a large part of the grain and provisions business of the world. He thinks it is not to be doubted that when the Board of Trade was organized it was expected to afford a market for future as well as present sales, with the necessary incidents of such a market; and so long as the State of Illinois allows the charter of the Board to stand, it cannot be maintained that the pits, as places where future sales are made, are forbidden by law. "The Supreme Court of Illinois has recognized in the fullest terms the value and necessity of the knowledge which the plaintiff [the Board of Trade] controls. It must have known, even if it did not have the evidence before it, what was the course of dealings on the Exchange. Yet it was so far from suggesting that the plaintiff's work was unmeritorious that it clothed it with a public use."

The agreements made on the Exchange are in the nature of contracts, and the fact that contracts are satisfied by set-offs and by the payment of differences detracts in no degree, Justice Holmes contends, from the good faith of the parties; and if the parties know when they make such contracts that they are very likely to have a chance to satisfy them in that way, and intend to make use of it, that fact is perfectly consistent with a serious business purpose and an intent that the contract shall mean what it says. "It seems to us," argues Justice Holmes, "an unlikely and extraordinary proposition that the dealings which give its character to the great market for future sales in this country are to be regarded as mere wagers, or as pretended buying and selling, without any intention of receiving and paying for the property bought or of delivering the property sold, within the meaning of the Illinois Act. The sales in the pits are not pretended, but are meant and supposed to be binding. A set-off is in legal effect a delivery." will be seen that the language in affirming the legitimate character of the transactions is broad and compreliensive.

But Justice Holmes not only holds that future dealings do not constitute gambling; he goes further and asserts (just as did Judge Baker when delivering the opinion of the Court of Appeals for the Seventh Circuit) that even if the Board of Trade did maintain a place where unlawful transactions are permitted, it would not follow that it should not be protected in its suit. The Board has a right to keep the work which it has done, or paid for doing, to itself. Three members of the U.S. Supreme Court (namely Justices Harlan, Brewer and Day) dissented from the conclusions announced, but both the decision and the opinion would appear to be sound and wholesome. As the ruling makes it unlawful for any one to use the quotations without the direct consent of the Board of Trade, it is thought that it will now be possible for the Board of Trade to wage to a successful conclusion its warfare against those permicious concerns, the bucket shops.

# DOES THE PUBLIC DEMAND RATE LEGISLATION?

On a previous page, in our article on "The Financial Situation," we deal at considerable length with the remarks made the present week by President Roosevelt and the members of his Cabinet on the subject of Government control of railroad rates. We show that the renewed agitation in favor of drastic legislation is both unfortunate and ill-timed. We also indicate some of the dangers that are sure to attend action along those lines. But it seems to us that current discussions hardly lay stress enough on another very important point. The existing agitation is based on the assumption that there is an insistent general demand on the part of the public for repressive legislation—that shippers are imperatively demanding action by Congress. tary Taft in his address gave expression to this view when he declared that the "sentiment" of the country was such that failure of new legislation meant a campaign on the subject against the railroads. And the President himself is quoted in an interview with a representative of the "Omaha Bee" as saying: "I will not be satisfied with any compromise that does not bring relief to the people from the conditions that now exist in regard to transportation affairs in the country." Obviously this is taking a good many things for granted. What evidence is there of the "sentiment" to which Mr. Taft refers, and what are the transportation "conditions" existing from which "relief" is, in the opinion of the President, demanded. We know of no better place to look for a convincing answer than in the complaint book of the Inter-State Commerce Commission.

Now what does this complaint book show? It shows an entire absence of any general or widespread dissatisfaction or feeling of injury or wrong on the part of shippers. To our mind the report of the Inter-State Commerce Commission, reviewed in these columns last week, is absolutely conclusive on the point in question. That report indicates that in the whole of the period since the organization of the Commission, from April 5 1887, down to March 1 1905, or almost eighteen years, only 770 formal complaints in the aggregate had been filed with the Commission, making an average of less than 43 complaints a year, or not quite four a month—this for a railroad system comprising over 200,000 miles of road, with annual gross earnings of 2,000 million dollars and having a traffic movement one mile (figures for the fiscal year 1902-3—the latest available) of 173,221,278,993.

Furthermore, the present week the Senate Committee on Inter-State Commerce has had before it many shippers and users of the roads who have declared their strong opposition to the idea of granting increased powers to the Commission. Oliver L. Garrison of St. Louis, Chairman of the Illinois Coal Operators' Association, is represented to have taken the ground that present rates are fair and to have asserted that there were no complaints among the coal operators. He declared that he had made particular inquiry among men engaged in other lines of business and had found general satisfaction with present rate conditions. J. Allen Smith, of Knoxville, Tenn., presented a resolution of the Manufacturers' & Producers' Association of that city opposing any change in Inter-State Commerce laws but favoring vigorous enforcement of the present laws. J. R. Powers, of Knoxville, Tenn., representing the Commercial Club of tha

city, expressed himself to much the same effect, and so did Clarence W. Barber, a Knoxville attorney. I. M. Bean of Milwaukee, President of the Northwestern Iron Co.; Frank Slosson of Kenosha, Wis., and Z. T. Simmons Jr. of the same point, representing manufacturing interests, and E. C. Finkbine of Des Moines, Iowa, and H. M. Hill of Minneapolis were some others who opposed placing rate-making powers in the hands of a few men—not to mention any New York parties like James F. Parker of the New York Produce Exchange.

It does not follow from all this that the Inter-State Commerce Commission is a superfluous body or has no useful functions to perform. On the contrary, it possesses great capacity for usefulness if it will only avail of the powers conferred upon it under existing law. It has on occasions rendered important services in unearthing reprehensible practices and methods—methods which the law forbids, which it is the purpose of the carriers themselves to extirpate, and which the Government should not tolerate for a moment. A recent illustration of this kind of service was furnished in the matter of the preferences allowed the Colorado Fuel & Iron Co. in shipments of coal over the Atchison Topeka & Santa Fe Ry. The decision of the Commission in that case was rendered on February 1 but the text of its opinion The testimony in has come to hand only this week. that case (as summarized by the Commission) showed that for a period of a good many years the Colorado Fuel & Iron Co. received rebates from the published rates varying from \$1 10 a ton to \$1 25 a ton, which rebates were not allowed other shippers. The Commission absolves the Santa Fe from any intention to build up one coal concern at the expense of another. The Freight Traffic Manager of the road testified that these special arrangements had been entered into for "business reasons," and the Commission says it sees "no reason to doubt that they were prosecuted by the Santa Fe Company upon that basis." But the Commission, with proper emphasis, points out that the Inter-State Commerce law requires that tariffs shall be in all cases published and observed, and that it is made a crime to depart from those provisions for the reason that otherwise a railway might drive out of business every comp etitor and then insist that there had been no discrimination, since there are no other shippers.

This is the work to which the Commission should address itself, and this is the work President Roosevelt should insist it must perform, or else make "short shrift" of the members. It will be found, too, that complaints and allegations against the railroads are almost entirely based upon acts that in their tendency or effect give one shipper an advantage over another shipper—the rate per se being seldom complained of, but the allegation being that some other shipper has been treated more favorably. In a word, the object should be to do away with secret rebates and preferences of all kinds and unjust discrimination of every nature. We think Mr. Stuyvesant Fish of the Illinois Central RR. was entirely right when, answering Secretary Taft at the International Railway Congress, he took the view that the law to prevent discrimination, double-dealing and secret rebates was ample as it stood, and should be vigorously enforced. However, if the law is not adequate in that regard it should be amended. Sentiment is absolutely unanimous on that point. Whatever popular demand for legislation may exist seems to be limited to a desire to geometre removal of these particular evils.

## RAILROAD GROSS EARNINGS FOR APRIL.

We have another favorable monthly statement of railroad gross earnings. The amount of the increase is not as large as for the month immediately preceding—the gain being \$4,103,262 or 8.7 per cent for April, against \$5,199,940 or 10.21 per cent for March—but there was one disadvantage in the latest month which alone accounts for the whole of this difference. We refer to the fact that there was one less working day—April 1905 having contained five Sundays, as against only four Sundays in April 1904. As in the case of our preliminary compilations for previous months, the results are based merely on the roads which furnish early returns, comprising in this instance \$0,740 miles of road.

Except for the loss of one working day, conditions and circumstances the present year were quite generally favorable. The country's industries remained in a state of activity, insuring a large volume of merchandise traffic and miscellaneous freight, and also affording a full volume of passenger traffic. Then, Southern roads enjoyed considerable benefits from a increase in the movement of cotton, noteworthy while the Western grain-carrying roads were favored by an enlarged movement of grain. The livestock traffic, however, in the West, except as to one item, fell below that for the corresponding month in 1904.

We need hardly say that comparison is with figures of earnings last year which had shown (speaking of the roads as a whole) a decrease from the totals of 1903. In other words, while now we have a gain of \$4,103,262, or 8.70 per cent, in April 1904 our early report recorded \$2,425,402 decrease, or 4.51 per cent. Still, the fact must not be overlooked that up to 1904 there had been successive increases for large amounts year after year ever since 1897, and that the 1903 gain in particular had been of important dimensions, reaching \$8,398,980, or 13.67 per cent. The following carries the comparisons back to 1897:

	J		1				

Note.—Neither the earnings of the Mexican roads nor the mining operations of the anthracite coal roads are included in this table.

As far as the separate roads are concerned, there are few that have not participated in the general improvement. The trunk lines, Southern, Southwestern, Middle Western, Northwestern and Pacific roads, all tell practically the same story. Of course the increases in most cases represent in part or in whole the recovery of losses suffered in April 1904, but as against this the fact to which reference has already been made should not be

lost sight of, that earnings for April 1905 are based on one less working day than the earnings for April 1904. In the table we now give we bring together all the changes in the case of the separate roads, whether increases or decreases, for amounts in excess of \$30,000. It will be seen that the list comprises only increases, there being no road with a loss for that amount.

With reference to the part played by the cotton movement in swelling the revenues of Southern roads, it is only necessary to say that the receipts of cotton at the Southern ports during April 1905 aggregated 686,558 bales, whereas in April 1904 the aggregate was no more than 168,016 bales. The shipments overland were also heavier, the amount so forwarded in the month this year having been 167,044 bales, as against but 36,610 bales in April last year.

The gain in the Western grain movement extended to all the leading cereals, namely wheat, corn, oats and barley, though having been particularly noteworthy in the case of corn. Adding rye, the aggregate of the receipts of the five cereals for the four weeks ending April 29 1905 was 31,680,598 bushels, against only 25,248,787 bushels in the corresponding four weeks of 1904. Below we furnish the details of the Western grain movement in our usual form.

RECEIPTS OF FLOUR AND GRAIN FOR FOUR WEEKS ENDING APRIL 29 AND SINCE JANUARY 1.

As regards the Western live-stock movement, the arrivals of sheep at the five leading markets—Chicago, Kansas City, Omaha, St. Louis and St. Joseph—comprised 777,744 head in April 1905, against 631,133 head in April 1904; but on the other hand the receipts of hogs at the same markets were only 1,168,831 head, against 1,271,856 head, and the receipts of cattle 584,957 head, against 585,060 head.

To complete our analysis, we add the following sixyear comparisons of the earnings of leading roads arranged in groups according to their locations.

A SUMMARY OF SAVINGS BANKS THAT HAVE FAILED IN THE STATE OF NEW YORK. By Willis S. Paine, LL. D., author of "Paine's Banking Laws," "Paine's Building & Loan Associations," etc. 151 pages 5x7. New York: The Financier, 1901.

The author, formerly Banking Superintendent in this State, explains that he complies with requests to write a summary of the savings banks in this State which have failed, because he thinks there is a good end which may be furthered by so doing, while the publication of such matter cannot injure existing banks, since the failed ones which he has to mention were all organized under special charters and were under statutes very different from those now in force. An amendment to the State constitution and the resulting legislation notably what is generally known as the Act of 1875, whereby all savings banks were brought under one law-have very materially changed the condition of affairs. Another and more positive reason given is that the anthor perceives a tendency throughout the United States to tax savings deposits, which should be corrected. Three years ago the Legislature of New York did lay a tax on surplus, without realizing how dangerous to the general welfare it is to weaken savings banks by anything which operates to reduce or discourge surplus. At the current session of the Legislature an attempt to repeal this law proved unsuccessful.

A tabular statement of rate of dividends declared and of amounts of unclaimed dividends deposited with and paid out by the Banking Superintendent is given in case of 32 banks, also detailed sketches in case of 25, these sketches comprising a considerable part of the small volume. Of these we refer particularly to two, which are especially remarkable and instructive. One was a bank in Rochester, incorporated in 1854 and failing in 1857, pulled down with the Secretary and Treasurer, who had been using its funds in his own private banking business, giving to the trustees collaterals which did not realize their face value. This transaction violated the charter provision, common to all savings banks, which forbade any officer or trustee from borrowing or in any manner using the funds; the trustees were consequently held liable, and therefore of the \$69,000 deposits 95 per cent was repaid by the receiver, besides recovery in full by some forty depositors who directly sued the trustees,

The other institution was in this city, chartered in 1871 and closed in 1877. Nothing was considered by its managers unworthy to count as assets in the sworn statements, says Mr. Paine. The charter restriction above mentioned was systematically violated, as was the complementary restriction on the making of investments. A discount business and business as a money changer through third parties were actually carried on in direct contravention of law. A variety of "kiting" and other tricks were played by some of the trustees, and the Bank Examiner declared that "a more outrageous system of swindling was never planned and carried out." Without going further into particulars, suffice

it that this one case seems to have furnished the extreme example of how bad savings bank administration can become when statute and prudence are defied together.

The author names three great causes of savings bank failures: a careless or incompetent board of trustees, with some outcroppings of positive fraud, and general dishonesty by officers and trustees. The other cause named is the pernicious "available fund" clause in the special charters of these failed institutions. This clause was an indefinite omnibus provision to the effect that assets might be invested in securities other than those expressly authorized in terms, in "such available form as the trustees might direct," but not exceeding a maximum amount. This threw the door wide open to anything which the discretion of the trustees or their lack of discretion might deem "available."

In partial explanation of his deprecating what he thinks the tendency to tax deposits and as argument for strong surpluses, the author disapproves holding trustees personally responsible. He cites the case of one failed bank in this city where the courts held that where a trustee had exceeded his authority he was responsible, though not guilty of intentional wrong doing and also acting under advice of counsel; in this case the trustees paid over \$113,000 in settlement of suits against them. The author urges that the office of trustee is without gain and that it is becoming increasingly difficult to induce desirable men to accept its responsibilities. Therefore he would have the law strict and the surpluses large.

We can congratulate ourselves upon the strength and record of the savings banks of this State in the last twenty years, not to go farther back; and this little uncovering of past disasters, done by a competent man who had personal knowledge of them, may be of great and timely service if its lessons are considered.

THE LEGAL TENDER PROBLEM. By Percy Kinnaird, of the Nashville Bar. 338 pages 5x7½. Price, \$1 00. Chicago: Ainsworth & Company, 1904.

The author of this book is intensely and bitterly opposed to gold and silver as a measure of value and the basis of the circulating medium. Through the centuries, he says, these met als have never been abundant enough to supply the coins needed in the usual proportion of the total volume of business for which they are used. This has been made to inure to the advantage of the metal owners. Hesays:

Under the banking system the owners of gold and silver supply the demand by the issue of bank notes, as representatives of the "money of account," upon the theory that they are substitutes for gold and silver coins and will be redeemed in the coins on demand. Since the Government grants them, as bankers, the right it withholds from the people, the people are under the necessity of purchasing the bank notes from the gold and silver owners in order that they may make a living. It is well known, however, that only three per cent of the volume of the business of the country is conducted with the use of the gold and silver coins and bank notes.

The balance, 97 per cent of the volume of business, it is equally well known, is conducted without the use of legal-tender gold and silver coins, and their assistants, bank notes. This 97 per cent is conducted by the aid and use of the representatives of the "money of account" that the people have issued at their labor expressions of value, but which are not given legal-tender value. Without the use of these non-legal-tender representatives, people could not transact 97 per cent of their business, and stagnation, starvation and death would soon visit them.

The periods of prosperity are due to what is called excessive issues of these representatives at their expressions of labor value. It is contended that these excessive issues are the cause of the panics which bring loss and suffering upon the people.

It seems unnecessary to quote further in this vein. The above is somewhat confused in its use of terms—for example, the term "representatives"—but the drift of it is only old fallacies with which we have long been familiar.

Nearly the entire volume is occupied with a historical account of the money systems of the United States from the beginning, in which the author traverses ground over which many financial historians have preceded him; but the historical value of his labor is lessened by the partisan bias and purpose with which it is tinctured. For example, in the first paragraph of the chapter recounting the Dartmouth College case, we read, on page 170, that "the Supreme Court of the United States would be embarrassed in its desire to aid the money power," etc. Writing of President Jackson's

contest with the United States Bank, the author says (page 286) that "the President had courageously stepped in between the financial wolves and their prey, the American people." On page 322 it is declared to be accepted history that "the same vicious greed of the East which has dominated our finances originally introduced chattel slaves into this country." This chapter is on "the negro in finance," meaning his involuntary relation to the course of the public finances; and it is followed by the concluding chapter on "the political duty of the negro," who is told in terms which we omit to quote, as unnecessary, that his political as well as industrial salvation can be accomplished only by turning out the present dominant party, "and this can be accomplished by the negro vote."

The book seems to have no noteworthy merit as a piece of financial history, and otherwise, we regret to say, its influence can only be to rekindle racial and sectional hostilities.

LETTERS FROM AN OLD RAILWAY OFFICIAL TO HIS SON, A DIVISION SUPERINTENDENT By Charles De Lano Hine. With a postscript by Frank H. Spearman. 16mo.; pp. 180. Price, \$1 50. Chicago: The Railway Age, 1904.

Just at this time—when railroads and railroad men seem as a class to be put, in a sense, on the defensive—the dedication of this little volume, which is brief, terse and unusual is well worth quoting. It is: "To the railway officials and employees of America. Their intelligence is an inspiration; their steadfastness a psalm."

This ascription, it must be admitted, is by one of their own body, and his own career thus far is striking enough to be worth stating. He was a West Point graduate, a graduate also of the Cincinnati Law School, a member of the bar, and a civil engineer, holding also a lieutenant's commission in the 6th U.S. Infantry. But he must have had an irresistible bent towards railroading, for he threw up this commission and went to work as brakeman on a freight train. In 1898, being then on the staff of a superintendent on the same road where he began as brakeman, he went to Cuba for the war; after the fall of Santiago he came back to the railroad. He has been brakeman, switchman, yardmaster, trainmaster, assistant superintendent and general superintendent; he is now on the staff of the Second Vice-President of the Burlington.

Some of the topics of these letters are: handling a yard; safety of trains in yards; preventing wrecks before they happen; the supply train; what the big engine has cost; unionism; handling the pay roll; standardizing administration; wrecks and block signals; the new trainmaster and civil service. No attention has been paid to literary style, this bazing evidently been sacrificed deliberately to the snappy, direct, conversational mode of address which was judged best to fit the purpose. The colloquialisms which are scattered through the pages include not only phrases character. istic of railroads but many which are classed as slang, none of them, however, being chargeable with anything worse than lack of elegance of diction; yet criticism is disarmed when we remember that the book is a tool made for a purpose, and it was judged (doubtless correctly) that the class of readers desired would be more surely attracted, and the impressions sought would be stronger and more durable, by direct talk of this sort than by a more literary manner. In topics and treatment the little book is so extremely practical that it may be heartily commended as good for railroad

THE ACCOUNTANCY OF INVESTMENT, INCLUDING A TREATISE ON COMPOUND INTEREST, ANNUITIES, AMORTISATION AND THE VALUATION OF SECURITIES. By Charles Ezra Sprague, A. M., Ph. D., C. P. A. Professor in the New York University School of Commerce, Accounts and Finance; President of the Union Dime Savings Institution; Chairman of the Savings Bank Section of the American Bankere' Association. 91 pages, 6x9. Price, \$2 00. New York, 1904. The Business Publishing Company.

This is one of the best treatises on interest, discount, annuities, sinking funds, amortisation and valuation of bonds which has come to our notice. It is the aim of the author to encourage more scientific methods of accounting than those ordinarily employed in business and to provide intelligible rules of computations for that purpose. He does not discard mathematical formulas altogether, but his discussions are never abstruse. His demonstrations are arithmetical and

illustrative rather than algebraic and will be found all the more useful on that account. In many respects his treatment of his subjects is original. His definitions are clear and exact. Observe his remarks concerning interest and rent:

Interest and rent do not essentially differ. Both are stipulated payments for the use of capital; but in the latter the same physical asset must be returned on the completion of the contract. If you borrow a dollar you may repay any dollar you please; if you hire a house or a horse you may not return any house or any horse but must produce the identical one you had.

Or note what he has to say with reference to investments:

While we often speak of a man's capital as being invested in the business, yet when we use the word more strictly we confine it to the non-participating sense. Thus we say, he not only owns the business, but he has some investments besides. In the strictest sense, then, investment implies divesting one's self of the possession and control of one's assets and granting such possession and control to another.

There are a number of very useful tables in the book. The work is in a line of practical helps which as yet are in somewhat short supply. The competence and authority of the suther are not to be doubted; and his work can be heartily commended to those who have occasion to apply the principles and rules of calculation in the course of business, and to any whose inclination or whose course of study takes them in this direction.

EXTENDED BOND TABLES. GIVING ACCURATE VALUES TO EIGHT FLACES OF DECIMALS OR TO THE NEAREST CENT ON \$1,000.000. By Charles Ezra Sprague, A. M., Ph. D., C. P. A. New York, 1905. Business Publishing Co. Price, \$1000.

This is a compact little book in flexible covers by the same author as the above. It meets a long-felt want. Any one who has occasion to seek the rate of return on a bond and who consults books of bond values for the purpose knows that the fact that the computations are carried out only to a very limited number of decimal points (usually only two decimals) is a drawback of some importance when the calculations relate to large sums. The author shows the inadequacy of the ordinary tables by referring for illustration to the value of \$1,000,000 5 per cent bonds, running for ninety years, to yield a net income of 2.96 per cent. This value on the authority of one of the ordinary tables would be \$1,640,620. The exact value, as given in the book under review, is \$1,640,227 41, a difference of \$392 59. In the present work the author has carried the process of computation to eight places of decimals. He points out that in order to assure the exactnesss of the last figure to the nearest cent, and to furnish periodical tests, it was necessary to carry all the results to twelve places and the basis figures for each rate to eighteen places—making it evident that the labor of compu tation must have been enormous.

The tables show the values at half-yearly intervals for all dates of maturity from one-half year up to 50 years, and for five-year intervals after that up to 100 years. The rates of income are given only five one-hundredths of one per cent apart, namely 2.50, 2.55, 2.60, 2.65, where most tables give them ten one-hundredths apart. Moreover, supplementary tables are furnished, making it easy to compute the four intermediate points—2.51, 2.52, 2.53 and 2.54, etc. There can be no doubt that the book will be found very useful.

## ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

—The public sales of bank stocks this week aggregate 98 shares, of which 87 shares were sold at auction and 11 shares at the Stock Exchange. The transactions in trust company stocks reach a total of 256 shares, and were all auction sales.

<sup>\*</sup> Sold at the Stock Exchange.

—The stockholders of the Phenix National Bank, 49 Wall | 16—at 186 Montague Street. It started with a capital of Street, will amend its articles of association at a special | \$100,000 and surplus of \$10,000 and was backed by local meeting June 14th, enabling the institution to increase its | building and loan associations. According to report, the

board to twenty-one members, if desired. There are at present fourteen directors. Since the advent of the new management, the bank's business has grown steadily. According to the weekly statements of the New York Clearing House, its deposits were \$2,757,000 April 22d, \$3,927,000 April 29th and \$4,454,000 May 6th.

-Mr. Herbert L. Griggs, President Bank of New York, N. B. A., of this city, and Chairman of the New York Clearing House Conference Committee, was chosen Chairman of Group VIII., New York State Bankers' Association, at its recent annual meeting. Mr. Francis Halpin, Cashier Chemical National Bank, was also elected Secretary and Treasurer. Mr. Griggs has just returned from a Mediterranean trip.

—Albert B. Kerr was on Wednesday elected a director of the Coal & Iron National Bank of this city. Mr. Kerr is Secretary of the Beech Creek Coal & Coke Company, Treasurer of the North River Coal & Wharf Company, and represents his father, who has extensive coal interests throughout Pennsylvania.

—At a special meeting last Monday, the stockholders of the Fourteenth Street Bank of this city voted in favor of increasing its capital stock from \$100,000 to \$500,000.

The Mechanics' National Bank, No. 33 Wall Street, this city, of which Mr. Gates W. McGarrah is President, is making some alterations in its banking room. Since the institution was united with the Leather Manufacturers National Bank, it has utilized the latter's old offices at 29 Wall Street, next door. These offices were connected by a small door through the wall. It is now planned to build several entrances, which will afford better communication with the Mechanics' main banking room.

—Mr. David Nevius of the National Bank of Commerce of this city has been appointed Cashier of the Union Exchange Bank, at 21st Street and 5th Avenue. Mr. Nevius succeeds Mr. W. A. Davies, resigned.

—Mr. Frederick B. Adams has resigned his office as Secretary of the Union Trust Company of Albany, N. Y., to associate himself with the bond department of Messrs. Kinnicutt & Potter, 1 Nassau Street, this city. Mr. Adams was at one time connected with the National Commercial Bank of Albany.

-The consolidation of the North American Trust Company, City Trust Company and Trust Company of America, under the name of the latter, became effective last Monday. The headquarters of the new institution will be in the old offices of the North American Trust Company, at 135 Broadway; the former offices of the other two concerns at 149 Broadway and 36 Wall Street are being operated temporarily as branches. The officers elected at Tuesday's meeting of the temporary board were: Oakleigh Thorne, President; John D. Crimmins, Honorary Vice-President; William H. Leupp, G. M. Wynkoop, Heman Dowd, Vice-Presidents; Raymond J. Chatry, Secretary; Frank L. Hilton, Carleton Bunce, W. W. Lee and Francis C. Prest, Assistant Secre taries; S. D. Scudder, Treasurer; Albert L. Banister, Assistant Treasurer. S. R. Harbert, London Secretary; E. J. Chappell, London Treasurer, and J. G. Boston, Solicitor. These officials will have charge of the concern's various New York and London offices. The combined company commenced business on Monday with a capital of \$2,000,000, surplus \$9,600,000, undivided profits \$27,956, deposits \$54,864,153, and total resources of \$68,121,542. The temporary board of directors, as provided for in the merger agreement, includes: John D. Crimmins, James Ross Curran, Hosmer B. Parsons, Charles W. Morse, George W. Perkins, Frank H. Platt, E. R. Chapman, George R. Sheldon, Warner Van Norden, P. A. B. Widener, B. F. Yoakum, H. B. Hollins, Wm. H. Chesebrough, Henry F. Shoemaker, Edwin Thorne, Charles T. Barney, Emerson McMillin, James M. Donald, Ashbel P. Fitch, William H. Lengp, W. K. Vanderbilt Jr., James S. Kuhn, Samuel Spencer and Oakleigh Thorne.

—The Bank of the Commonwealth, Brooklyn Borough, has decided to retire from the field, and notice has been sent to the depositors asking them to withdraw their accounts. The bank began business about three months ago—February 16—at 186 Montague Street. It started with a capital of \$100,000 and surplus of \$10,000 and was backed by local building and loan associations. According to report, the

deposits never went beyond \$50,000, and the directors at a meeting last Saturday decided that it would be unbusiness-like to continue the life of the institution any longer under present conditions. Rumors current a month ago that the bank had been offered for sale were denied at that time by the management.

—Nathan Haines, Cashier of the Mechanics' National Bank of Burlington. N. J., since 1869, has been elected President of the bank to succeed the late J. H. Pugh. A. Snowden Haines is the new Cashier. Mr. Pugh had also been President of the Burlington City Loan & Trust Company, and his successor in that office is Henry J. Irick.

—The Weehawken Trust Company, which will operate at 427 Bergenline Avenue, Weehawken, N. J., has been incorporated. The institution has a capital of \$100,000. It was originally intended to designate the concern the Hamilton Trust Company. The incorporators are H. J. Gordon, W. J. Epyar, John C. Watson, Fred. Walker, E. H. Smith, J. C. Justin, Joseph Stilz, John Callery, H. Frank Jr., Albert C. Eppinger and Louis Emmerich.

—The depositors of the Navesink National Bank of Red Bank, N. J., are receiving a dividend amounting to 10 per cent, making the total thus distributed since the suspension in August, 1903, 70 per cent.

—A petition for a charter for the Mechanics' Trust Company of Boston has been filed with the Savings Bank Commissioners of Massachusetts. The proposed institution is to take over the business of the Mechanics' National Bank of Boston. The stockholders of the latter, as far as canvassed, have, it is stated, agreed to an exchange of stock in the bank, share for share, for that of the trust company. The capital of the new institution will be \$500,000-double the amount of the capital of the bank. The officers will be the same as at present, with the addition of another Vice-President. Besides the directors now composing the board of the bank, the incorporators of the company also include John H. Gibbs, Frederick L. Walker, Franklin E. Huntress, Frank A. Schirmer, Henry F. Miller, Charles H. Olmsted, William L. Terhune, George H. Billings, David Cummings, Hiram M. Burton, William J. Fegan, William H. Hartshorne and Edwin Wilcox. That it was the intention to convert the bank into a trust company became known a month ago. Just when the change was to occur, however, was not cer-

—The growing needs of the Bay State Trust Company of Boston have been provided for in the recent enlargement of its quarters at 222 Boylston Street and 62 Park Square. This is the second time since 1900, it is stated, that the company has been obliged to meet the demands of increasing business in the remodeling of its offices. A paneled glass ceiling admits daylight into the attractively furnished banking room. Ample provision has been made for the comfort of the women patrons and for the storage of silver and valuables. T. Jefferson Coolidge Jr. is the President of this institution.

—The name of the Adams National Bank of North Adams, at North Adams, Mass., has been changed to the North Adams National Bank.

—The Merchants' National Bank of Providence, R. I, re-extended its charter on April 24. On that date its deposits were \$3,975,701, which compared with \$1,854,305 on April 24 1885. The bank was established in 1818, and reorganized as a national institution on April 24 1865. The present capital is \$1,000,000, the surplus \$200,000 and the undivided profits \$362,693. The shareholders of the bank have received, in 174 consecutive semi-annual payments, dividends amounting to \$4,563,255. The surplus and undivided profits reported above have been earned, it is stated, not paid in ly the stockholders. Royal C. Taft is President; Samuel R. Dorrance, Vice-President; Moses J. Barber, Cashier, and Frank A. Greene, Assistant Cashier.

—Frederick G. Sexton, Cashier of the United States Bank of Hartford, Conn., died on the 6th inst. He was forty-nine years of age, and had held the cashiership of the bank since 1894.

-W. M. Foulkrod Jr. has been elected Cashier of the Southwark National Bank of Philadelphia, to succeed Clarence H. Steel, whose resignation takes affect on the 15th inst

-J. Hampton Moore, ex-City Treasurer of Philadelphia, has been elected President of the City Trust, Safe Deposit & Surety Company of Philadelphia. Mr. Moore has been chosen to succeed Gen. Louis Wagner, who accepted the office temporarily last December, after the withdrawal from the presidency of Henry M. Jenks on account of the rumors connecting the name of the bank with that of Appleyard & Co. Mr. Moore will enter upon his new duties as soon as his resignation as Chief of the Bureau of Manufactures in the Department of Commerce and Labor has been accepted. Six new directors, besides Mr. Moore, have been elected to the board of the trust company. They are George F. Bartol, William H. Carpenter, Harrison S. Gill, J. B. Harper, J. D. McConnell and William T. Tilden. The other directors making up the board are B. F. Banes, Stephen Farrelly, William Clarke Mason, Cyrus N. Pierce, William H. Pfahler, Charles J. Swain, Joseph A. Sinn and Louis Wagner. It is sald to be the purpose of the directors to reorganize the company and improve it in many ways, although no new officers, other than Mr. Moore, will be elected.

—The management of the National Deposit Bank of Philadelphia, one of the newer institutions of that city, will be under the direction of Major John F. Finney as President and William B. Vrooman as Cashier.

—The stockholders of the Central National Bank of Cleveland assented unanimously on Monday to the increase in the capital from \$800,000 to \$1,000,000. The new issue will go to outside interests, the present shareholders having waived their rights to the same, thus broadening the basis of the institution. The stock will be disposed of at \$175 per \$100 share, so that besides adding \$200,000 to its capital, the bank will enlarge its surplus by \$150,000.

—The Cleveland Trust Company of Cleveland, Ohio, has lately acquired the Lorain Savings & Trust Company of Lorain, Ohio, and the Lakewood Savings & Banking Company of Lakewood, Ohio. The Lorain institution was organized in 1891 and had a capital of \$100,000. The entire capital stock, it is reported, has been purchased, payment being made in Cleveland Trust stock, one share of the latter being given for two shares of the Lorain bank. A. V. Hageman will be the manager of this branch. The Lakewood institution which the Cleveland Trust takes over was organized in 1902. It had a capital of \$65,200, 98 per cent of which has been acquired. As a branch of the Cleveland Trust, it will be in charge of L. B. Kennedy as Manager.

—The lately organized Capitol Savings & Trust Company of Columbus, Ohlo, of which State Auditor W. D. Gullbert is President, began business on Monday in its temporary quarters in the Harrison Building. The company has a capital of \$400,000.

—Cashier A. B. Spear, of the Citizens' National Bank of Oberlin, Ohio, on the 3d inst. pleaded guilty in the U. S. District Court at Cleveland to one count of the indictment charging him with making false entries in the bank's books. He was sentenced to seven years' imprisonment in the Ohio Penitentiary. The false entries were made in connection with the operations of Mrs. Chadwick.

—George H. Beckwith has been elected Vice-President of the Holcomb National Bank of Toledo, Ohio, to fill the vacancy occurring through the death of John V. Shoemaker. George M. Ransom has been appointed Assistant Cashier while Cashier R. B. Crane has been elected to the directorate.

—It is announced that after June 1 the Commercial Bank of Tiffin, Ohio, will be known as the Commercial National Bank and the capital increased to \$150,000. S. B. Sneath will retire from the presidency with the bank's entry into the national system.

—The stockholders of the First National Bank of Calumet, Mich., will on June 1 act on the proposition to increase the capital from \$100,000 to \$150,000. The stock, par value \$100, will be sold at \$200 per share and the premium added to the surplus account.

—Preparations are being made to open the City Trust & Savings Bank of Grand Rapids (an adjunct of the National City Bank of that city) next month in the Porter block. The directors of the two institutions, as noted in our issue of February 18, are identical, and practically the same officers in charge of the national bank will manage the affairs of the new concern. James R. Wylle is President of the latter-

Lester J. Rindge and Thomas M. Peck are Vice-Presidents and Hugh Blair is the Cashier.

—At a directors' meeting of the Northern Trust Company of Chicago on Tuesday, Solomon A. Smith, a son of President Byron L. Smith, was elected Second Vice-President. He has served in the bank as Assistant Cashier for several years. First Assistant Cashier Thomas C. King was elected Cashier to fill the vacancy caused by the resignation of George F. Orde, who has assumed the duties of his new position as Cashier of the First National Bank of Minneapolis. George J. Miller, Chief Clerk of the Trust Department of the Northern Trust Co., was made Assistant Cashier, to take Mr. King's place, and Robert McLeod was also advanced to an Assistant Cashiership.

—The name of the new Chicago financial institution organized as the "First Mutual Trust & Savings Bank" has been changed by vote of its directors to the "Mutual Bank" to avoid confusion of title with that of the First Trust & Savings Bank, the prosperous ally of the First National Bank. The \$300,000 capital stock of the Mutual Bank has all been subscribed at par, and its doors will be thrown open for business about June 1. The directors are contemplating making it an all-night bank, as well as observing the customary banking hours of the day.

—It is reported that another dividend in liquidation—8 per cent—is being paid to the stockholders of the National Bank of North America of Chicago. With the \$125 per share previously paid, the aggregate is thus brought up to \$133 per share. Ex-President of the bank Isaac N. Perry was acquitted on the 5th inst. of the charge of arson which had been brought against him.

—The Woodlawn Trust & Savings Bank opened in Chicago on the 1st inst on Sixty-third Street near Woodlawn Avenue. The bank was incorporated under the State laws with a paid-up capital of \$200,000 and a surplus of \$20,000, and was organized to take over the private banking business of McKey & Poague. The officers of the new institution are William D. McKey, President; Charles M. Poague, Vice-President, and Fred. C. Bell, Cashier.

.—The name of the Wisconsin Trust & Security Company of Milwankee has been changed by vote of its directors to the Wisconsin Trust Company. This title would have been chosen at the time of the organization of the company but for the fact that an old corporation of the same name, long out of business, had not until recently filed its resolution of dissolution.

—Henry G. Goll, formerly Assistant Cashier of the First National Bank of Milwaukee, who is charged with being implicated in the defalcation of President F. G. Bigelow, has been released from jail on bail to the amount of \$15,000—\$10,000 in bonds and \$5,000 in cash.

—The executive ccuncil of the Wisconsin Bankers' Association has accepted the invitation extended by the bankers of Ashland to hold the present year's meeting at that point. The convention will take place on July 12 and 13.

-The North Dakota Bankers' Association will gather in annual convention on July 7 and 8 at Grand Forks. Mr. M. F. Murphy of Grand Forks is President of the association, and W. C. Macfadden, President of the Commercial Bank of Fargo, is the Secretary.

—The German-American Trust Company recently began business in Denver as successor to the Schirmer Investment & Insurance Company. The company has a paid-in capital of \$800,000 and will engage in a general trust and banking business. Godfrey Schirmer is President and William F. Dieter is Secretary and Treasurer. The offices of the institution are in the Inter Ocean Hotel Building, at Sixteenth and Blake streets.

—The Western National Bank of Oklahoma City, Okla., reported deposits of \$1,081,591 on Mar. 14 last—the largest, according to President M. L. Turner, of any bank in Oklahoma or Indian Territory. Although but six years old, the institution has paid dividends aggregating \$187,000. The capital is \$100,000. F. R. Holt is Cashier and C. M. Bosworth the Assistant Cashier.

—At the coming meeting of the Missouri Bankers' Association, to be held at Kansas City on the 23d and 24th inst., addresses will be delivered by Festus J. Wade, President of the Mercantile Trust Company of St. Louis; Hon. John E.

Swanger, Secretary of the State of Missouri; Prof. Jesse E. Pope of the University of Missouri; Hartman Baker, Vice-President of the Merchants' National Bank of Philadelphia, and J. A. S. Pollard, Cashier of the Fort Madison Savings Bank of Fort Madison, Iowa.

—The City National Bank is the title of a financial institution about to be established in St. Louis. The bank will have a capital of \$200,000, and will make its headquarters on Franklin Avenue, between Seventh and Fifteenth Streets. Maurice Landau is to be the President.

—A new national bank is being organized in Bowling Green, Ky., under the title of the Bowling Green National Bank. The institution is to have a capital of \$100,000. J. F. Cox, Cashier of the Clay City (Ky.) National Bank, is prominent in the movement.

—The Virginia National Bank of Petersburg, Va., which, as stated last week, opened on the 1st inst., succeeds the Petersburg Banking & Trust Company. Besides President Augustus Wright, the officers are Joseph W. Seward, Vice-President and Walker Sparklin, Cashier.

—An application to organize the Wilmington National Bank of Wilmington, N. C., was approved by the Comptroller on the 29th ult. The capital is \$100,000. Those interested are: J. V. Grainger, C. E. Taylor Jr., F. W. Dick, H. Lacy Hunt, Charles S. Grainger and H. C. McQueen.

—Work is now in progress on improvements to be made in the building of the American National Bank of Macon, Ga. The changes contemplated include the addition of three stories to the present structure of four stories, and the building will in other respects be remodeled. When the improvements [are completed there will be 120 offices in the building, with tiled floorings and steel ceilings. A line of vaults with steel locker accommodations will be installed for the individual tenants of each floor, sufficiently large for the safe deposit of books, etc.

—A new financial institution, designated the Central Bank, Savings & Trust Company, is being formed in New Orleans. The capital has been fixed at \$1,000,000 in \$100 shares and, according to the charter, the whole amount of the capital is to be paid in cash on or before July 1. A savings, safe deposit and trust business will be conducted by the new concern. The organizers of the company are also the projectors of the Central Investment & Mortgage Company, and the two boards will be the same. The latter institution has been chartered with \$500,000 capital. Charles Godchaux Pearl Wight, Sol. Wexler, Maurice Stern, L. S. Clarke and Frank B. Williams are among those interested in the ventures.

—H. T. Hays formerly Cashier of the defunct Orange, Growers National Bank of Riverside, Cal., has been acquitted by a jury in the U.S. Circuit Court at Los Angeles of the charges of embezzlement brought against him in connection with the troubles of the bank. The institution suspended a little over a year ago.

The officers of the Bank of California at San Francisco have, it is announced, received notice that a dividend or distribution of what will amount to \$73 50 per share has been declared on the stock of the London & San Francisco Bank. The latter, it will be recalled, was lately taken over by the first-named institution. It is expected that a final distribution of the cash assets of the bank will be made in August.

—The Seaboard Bank of San Francisco, Cal., located at 18 California Street, opened on the 2nd inst. The institution has a capital of \$200,000 and a surplus of \$25,000. It is proposed to increase the capital to \$250,000 and a meeting of the stockholders will be held on July 11 to authorize the contemplated addition. The management consists of C. M. Goodall President, Robert J. Tyson Vice-President and W. A. Houts Cashier.

—The directors of the Bank of Toronto, at Toronto, Ont., have elected W. H. Beatty to the presidency to succeed the late George Gooderham. W. G. Gooderhain has been chosen to replace Mr. Beatty as Vice-President, and Albert E. Gooderham has been elected to the board of the bank.

—The stockholders of the People's Bank of Halifax, at Halifax, Nova Scotia, ratified this week the proposition to merge their institution with the Bank of Montreal. The basis of amalgamation is approximately 115 per cent of the issued capital of the People's Bank, the Bank of Montreal

stock to be given in exchange being figured on the basis of 253. The People's Bank has a paid in capital of \$1,000,000 and reserve fund of \$440,000, and most of the shareholders, it is stated, had expected to receive more for their holdings. The basis of consolidation, however, is said to have been reduced \$250,000 through a shrinkage of that amount disclosed in the assets—a number of old accounts carried forward for several years having turned out to be of doubtful va'ue.

Branches of the Canadian Bank of Commerce, head office Toronto, have been opened at Port Arthur, Ontario, and Penticton, British Columbia. A. W. Robarts, late Manager at Sault Ste. Marie, has been appointed Manager at Port Arthur.

The directors of the Sovereign Bank of Canada, head office Toronto, have decided to issue additional stock to the amount of \$325,000, making the total capital \$1,625,000. The stock will be put out at \$125 per share, \$25 being added to the reserve fund. At the end of the fiscal year (April 29) the bank held deposits of \$8,3:6,000, representing an addition of over a million dollars since October 31 last, when the amount was \$7,196,74i. Total assets now at \$11,669,000 con trast with \$10,201,954 six months ago and \$8,604,000 twelve months ago.

## **H**anetary Commercial English News

[From our own correspondent.]

London, Saturday, April 29, 1905,

The promulgation of letters patent creating the new Constitution in the Transvaal is the most prominent feature of the week. The Executive Government will remain very much as at present, but a Legislative Assembly with a minimum of 30 members and a maximum of 35 is to be created. The franchise is confined to the white races, and so far as the British and all new voters are concerned is fixed upon the property basis. Burghers who had votes under the late Mr. Kruger's regime will be allowed to vote under the new system, however impoverished they may have become.

The announcement has had no effect upon the mining market, either in London or in Johannesburg. Its reception has been generally favorable. The great majority who have accepted the state of thing as they are in the new colonies are satisfied to receive this as an earnest of complete self government to be conferred by the Imperial Government in due time. Of course the malcontents and those who have never gotten reconciled as the result of the war see nothing good in the measure. But it is doubtful whether any scheme short of restoring the situation that existed under Mr. Kruger would be likely to satisfy them.

Private advices in the city received from Johannesburg give a far more favorable account of the cutiook than for some years past. The experiment of employing Chinese labor on the Randt has proved a great success. The mining magnates and their advisers were never at any time in doubt on that point. But it was admitted that it was an experiment; that the Chinese were not accustomed to work in South Africa, and only experience could show whether they were qualified for employment in the mines. As a matter of fact they appear to have adapted themselves to their new conditions with extraordinary rapidity. They have learned the comparatively simple process required of them to accomplish their task, and they seem to be doing considerably better than the Kaffirs who have had a partial training.

So far as the Chinese thems lves are concerned, it is stated on high authority that in spite of the very low wages they are paid, the fact that they are provided for in the compounds enables them out of those modest wages to save what in their opinion is a considerable sum of money for their eventual return to China. In the present state of the colonies the prosperity of the mining industry is of course the main consideration. But it is reported that with the improvement at the mines, there is also increased prosperity in the general trade of the Transvaal. The outlook amongst traders is said to be decidedly optimistic-indeed, more so than at any time since before the war. These remarks wend appear to clash with various reports which have been cabled home from Cape Town. With the acquisition of the Netherlands Railway by the Government, traffic has largely been diverted from Cape Town, and much of the tusiness formerly done in the neighborhood of Table Bay

now goes by the more direct route through Natal or Delagoa Bay and over the Netherlands Railway.

The situation in Russia, although continuing to cause the gravest alarm all over the Continent, but particularly in France, shows no change, and the great markets of the world are still awaiting a battle between Admiral Togo and the Baltic Fleet. As if the French had not sufficient anxiety in their enormous holdings of Russian stock, the attitude of the German Government with reference to Morocco has added greatly to the feeling of apprehension that naturally already existed. The situation itself, although it will probably be amicably settled, is not whol'y without anxiety, and in periods of tension like the present the wildest rumors are not only circulated but are believed in responsible quarters, This week absurd rumors concerning the proposed action of Germany in Morocco led to what some correspondents have not hesitated to describe as a little panic on the Paris Bourse. Certainly it caused a serious fall in prices and added to the general state of uneasiness in that market,

Business upon the stock markets this week has been exceedingly quiet and prices, with the exception of those of American railroad securities, have almost without exception tended in a downward direction. The state of the political atmosphere being as described above, such a result is not surprising. In fact it would not be an exaggeration to say that business in the stock markets has hardly been resumed this week since the Easter holidays if we except the purely routine matters connected with the end of April settlement which was completed yesterday. Moreover, in spite of the fact that a large sum of money is en route for this country from India and elsewhere, and very large sums of money have from time to time of late arrived in London, money is certainly not plentiful. Nor can it be described as cheap. In connection with the Easter holidays a large sum went into provincial circulation. At the settlement upon the Stock Exchange rates were not as high as last time, and so far as the money market is concerned it has had to borrow largely from the Bank of England. The official rate naturally remains unchanged at 2½ per cent and the reserve at somewhat over 25½ millions sterling.

The India Council offered for tender on Wednesday 40 lacs and the applications amounted to 324½ lacs, at prices ranging from 1s. 8 15-16d. to 1s. 3 31-32d. per rupee. Applicants for bilis at 1s. 3 15 16d. per rupee and for telegraphic transfers at 1s. 8 31-32d. per rupee were allotted about 10 per cent of the amounts applied for.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

† Including for Boston and Philadelphia the item "due to other banks," and also Government deposits. For Boston these Government deposits amounted on May 6 to \$2,013,000; on April 29 to \$2,017,000.

Imports and Exports for the Week.—The following are the imports at New York for the week ending for dry goods May 4 and for the week ending for general merchandise May 5; also totals since beginning first week January.

#### FOREIGN IMPORTS.

For week.	1905.	1904.	1903.	1902.
Dry Goods. General Merchandise	\$2,451,820 11,429,115		\$1,812,128 8,492,191	\$2,062,651 8,226,771
Total	\$13,883,935	\$11,777,869	\$10,304,319	\$10,289,422
Since Jan. 1. Dry Goods General Merchandise	\$54,432,915 212,126,695	\$46,332,974 168,908,594		
Total 18 weeks	\$200,559,610	\$215,241,568	\$220,472,506	\$199,345,911

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending May 8, and from January 1 to date.

EXPORTS FROM NEW YORK FOR THE WEEK.

Ì		1905.	1904.	1903.	1902.
	For the week Previously reported			\$9,215,194 177,131,579	
ĺ	Total 18 weeks	\$189,593,463	8174,928,716	*186,346,773	\$174,214,479

Note.—As the figures of exports as reported by the New York Custom House from week to week frequently show divergence from the monthly totals, also compiled by the Custom House, we shall from time to time adjust the totals by adding to or deducting from the amount "previously reported."

The following table shows the exports and imports of specie at the port of New York for the week ending May 6 and since Jan. 1, 1905, and for the corresponding periods in 1904 and 1903.

## EXPORTS AND IMPORTS OF SPECIE AT NEW YORK

	EXP	ORTS.	1MPC	ORTS.
Gold.	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain		\$1,500 20,899,553		\$330,92 <b>2</b> 3,880,093
West Indies	\$20,318 6,000	4,451,772 46,300 7,250,000	\$563 2,687 14,813	61,941 481,816
Total 1905 Total 1904 Total 1904	\$26,318 9,301,263 1,430,200	\$32,652,125 31,256,670 4,460,039	\$18,133 107,774 207,086	4,576,309
Silver. Great Britain. France. Germany	\$307,720	, ,	•	\$20
West Indies Mexico South America All other countries	3,907	55,350 679,999 6.907	\$700 20,770 14,610 326	280,115 776,553
Total 1905 Total 1904 Total 1903	$\$311,627 \\ 332,940 \\ 555,960$	16,032,037	\$36,406 3,688 42,320	321,662

Of the above imports for the week in 1905, \$295 were American gold coin and \$851 American silver coin. Of the exports during the same time, \$26,318 were American gold coin and \$—— were American silver coin.

Anction Sales.—See page preceding.

WALL STREET, FRIDAY, MAY 12, 1905.-5 P. M.

The Money Market and Financial Situation .- Business at the Stock Exchange has been in greatly reduced volume this week until to-day, and when compared with the late records the markets appear narrow and featureless. Not since the week ending January 14th, and with rare exceptions since last summer, have transactions in the shares department been on so small a scale. Public interest in Wall Street matters lacks the keenness which recently characterized it, and with the few exceptions noted below the movement of prices is without significance.

One cause for the less favorable sentiment and restricted operations noted may be found in the attitude of high Government officials towards corporations and especially towards the railroads of the country as expressed in public utterances of these officials early in the week. There has been renewed activity at the Exchange to-day, however, and prices have again had an upward tendency.

Latest statements of railway earnings show that the volume of traffic continues large and the Government crop report in regard to winter wheat is decidedly favorable. There have been no developments in the Far East affecting matters here, and other features in the general situation, including the money markets at home and abroad, remain practically unchanged.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2 to 3 p. o. To-day's rates on call were  $2\frac{1}{4}$ @ $2\frac{1}{2}$  p. c. Prime commercial paper quoted at  $3\frac{3}{4}$ @ $4\frac{1}{4}$  p. o. for endorse-

ments and 4@41% p. c. for best single names.

The Bank of England weekly statement on Thursday showed an increase in bullion of £455,749 and the percentage of reserve to liabilities was 50.21, against 47.56 last week, the discount rate remaining unchanged at 2½ per cent. The Bank of France shows an increase of 54,050,000 francs in gold and 125,000 francs in silver.

The New York City Clearing-House banks in their statement of May 6 showed an increase in the reserve held of \$1,406,500 and a surplus over the required reserve of \$18,729,425, against \$16 665,250 the previous week.

\*\$16,445,100 United States deposits included, against \$16,818,800 last week and \$56,097,400 the corresponding week of 1904. With these United States deposits eliminated, the surplus reserve would be \$22,840,700 on May 6 and \$20,869,950 on April 29.

NOTE.—Returns of separate banks appear on the preceding page.

Foreign Exchange.—The foreign exchange market was generally strong this week, influenced by a demand to remit for stocks sold for European account and also for mercantile settlements.

To-day's (Friday's) nominal rates for sterling exchange were 485@4851/2 for sixty day and 487@4871/2 for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8460@4 8475 for long, 4 8675@4 8680 for short and 4 87@ 4 8710 for cables. Commercial on banks, 4 8440@4 8450, and documents for payment, 4 831/2@4 85. Cotton for payment, 4 831/2@4 835/8; cotton for acceptance, 4 8440@4 8450, and

grain for payment, 4 8475@4 8485.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 18½\*@5 18½† for long and 5 16½\*@5 16½† for short. Germany bankers' marks were 94¾@94 13-16† for long and 95½†@95½ for short. Amsterdam bankers' guilders were 40¼@40¼¶ for short.

Exchange at Paris on London to day 25 for the long and 1 paris on London to day 25 for the long and 1 paris on London to day 25 for the long and 1 paris on London to day 25 for the long and 1 paris on London to day 25 for the long and 1 paris on London to day 25 for the long and 1 paris on London to day 25 for the long and 1 paris on London to day 25 for the long and 1 paris on London to day 25 for the long and 1 paris on London to day 25 for the long and 1 paris on London to day 25 for the long and 1 paris on London to day 25 for the long and 25 for the long

Exchange at Paris on London to-day, 25 f. 17c.; week's

range, 25 f. 171/2c. high and 25 f. 17c. low.

The week's range for exchange rates follows: -Cables.--Long.-Sterling Actual High.... 4 8460 @ 4 8475 | 4 8675 @ 4 8680 | Low.... 4 8455 @ 4 8465 | 4 8660 @ 4 8665 | 4 8705 @ 4 8715 4 8690 @ 4 87 Paris Bankers' Francs— 5 167<sub>8</sub>\* 5 167<sub>6</sub>\* Germany Bankers' Marks-@ 9518 ...... ·Less: \*116 of 1%. † 132 of 1%. ‡ 322 of 1%. Plus: \$116 of 1%. \*\* 132 of 1%. The following were the rates for domestic exchange on New York at the under-mentioned cities to-day: Savannah,

buying 50c. per \$1,000 discount; selling 75c. per \$1,000 premium; Charleston, 10c. per \$1,000 premium; New Orleans, bank, 40c. per \$1,000 discount; commercial, 75c. per \$1,000 discount; Chicago, par; St Louis, 15c. per \$1,000 discount; San Francisco, 50c. per \$1,000 premium.

State and Railroad Bonds.—Sales of State bonds at the Board are limited to \$37,000 Virginia 6s deferred trust receipts at 11 to 111/2.

Transactions in the market for railway and industrial bonds have been restricted to a much smaller average than has recently been the case. Only a few issues could rightly be classed active and even a smaller number of price changes are worthy of note.

Conspicuous among the exceptions are Union Pacific convertible 4s, which have advanced 3 points. Colorado Industrial issues have recovered somewhat, and Baltimore & Ohio gold 4s, Northern Pacific 3s and Wabash debentures are

higher.

United States Bonds .- No sales of Government Bonds have been reported at the Board this week. The following are the daily closing quotations; for yearly range see third page

	Interest Periods		May 8	May 9	May 10	May 11	May 12

\* This is the price bid at the morning board; no sale was made.

Railroad and Miscellaueous Stocks - The stock market has been much less active than for some time past; the toue has changed but little from day to day and fluctuations have generally been within a narrow range. The Northern Securities group has been an exceptionally strong feature, Great Northern and Northern Pacific having advanced from 14 to 15 points, and Union Pacific and Southern Pacific about 3 points. Illinois Central, St. Paul, Baltimore & Ohio and Delaware & Hudson are nearly 3 points higher than last week. On the other hand the local transportation issues declined on pending legislation at Albany. Otherwise the active railway list has been steady until to-day, when there was renewed activity and a general upward movement in prices.

Miscellaneous and industrial stocks have been more irregular. Consolidated Gas lost 13 points of the advance noted last week and People's Gas of Chicago has declined 8 points, while American Smelting & Refining and General Electric have advanced from 2½ to 5 points. The copper stocks, Sugar Refining and Colorado Fuel & Iron are 2 to 3 points higher. The United States Steel issues have been relatively dull and

are fractionally lower.

For daily volume of business see page 1903. The following sales have occurred this week of shares not represented in our detailed list on the pages which follow.

Sales STOCKS Week Ending May 13 Range since Jan. 1. for Week Range for week | 29\(^12\) May 9 | 30 May 9 | 24 Jan | 34\(^12\) Mar | 100 | 32 May 8 | 300 May 9 | 100 May 9 | 1 Amer Beet Sugar.

Ontside Market. - Quiet conditions have ruled in the market for unlisted securities this week, there being no disposition to do business on an active scale except in one or two issues. Price changes, with few exceptions, have been narrow and unimportant. Northern Securities displayed the greatest activity, total transactions for the week approximating 70,000 shares; the price of the stock advanced from 160 to 171 and closed to-day at 170. The "stubs" did not participate in the advance in the stock after a rise from 162 to 175 and 175 and 175 and 175 are in the advance in the stock after a rise from 165 and 175 and 175 and 175 are in the advance in the stock after a rise from 165 and 175 are in the advance in the stock after a rise from 165 and 175 are in the advance in the stock after a rise from 165 and 175 are in the stock after a rise from 165 are in the stock afte pate in the advance in the stock; after a rise from 425 to 450, they sank to 3621/2 and to-day recovered again to 4371/2; the last sale was at 400. Interborough Rapid Transit fluctuated between 201 and 205, closing to-day at 203. Standard Oil gained 5 points to 620 but later fell back to 618. New Orleans Railways stocks "when issued" have been strong; the common advanced from 29 to 32 while the preferred ran up from 76½ to 78. International Mercantile Marine preferred declined from 29 to 26¾, but to-day it recovered to 28. After a gain of a point to 34¾, Bethlehem Steel common dropped to 31¾, but to day sold up again to 32¾. United Copper continued as the prominent feature of the mining group; the price of the common shares of this company moved irregularly between 21¾ and 25½; the final sale to-day was at 25½; the preferred advanced from 71 to 74 and closes toat 25%; the preferred advanced from 71 to 74 and closes today at the high figure. Greene Consolidated Copper fell from 261% to 2534 in the early part of the week, but subsequently it rose to 27. Arizona Consolidated sold up from 29½ to 30¾. Outside quotations will be found on page 1903.

## RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July I to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the street railways are brought to year separately on a sequent page.

	Latest	Gross Lar	ninas	July 1 to	Latest Date.		Latest	Gross Ear	ninas	Intel 10	Latest Date

Net Earnings Monthly to Latest Bates.—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of April 22, 1905. The next will appear in the issue of May 20, 1905.

1800. The next will appear in the 1880e of may 20, 1900.

i Spanish silver.

These are results for properties owned
b These are the combined earnings of all the constituent companies.
c These are results for main line.
d Figures here are from July 1.
n These earnings include the Detroit United Ry., Detroit & Port Huron Shore Line and the Sandwich Windsor & Amherstburg Ry

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings received this week. The last general summary which we furnish once a month, and in which we bring together all the roads from which monthly returns can be produced, was given April 29, the next will be given May 27.

			Net Earnings.

## Grand Truck Railway of Canada.

(Report for Half-Year Ended December 31, 1904)

At the stockholders' meeting in London on April 13 President C. Rivers Wilson said in part:

GENERAL RESULTS.—The gross receipts for the half-year were £3,-129,814, as compared with £3,135,468 for the corresponding period of 1807, a decrease of £2,654, or a trifls more than a quarter of 1 p. c. The receipts from passenger traffic increased £56,234, due to some extent to the St. Lous Exhibition; but principally to the increase in local traffic. The receipts from freight traffic show a decrease of £6,810, caused entirely by the falling, off in through traffic, owing principally to the practical failure of the wheat harvest in the Northwestern States, which not only left no wheat for export, but was insufficient for their own requirements, wheat having to be imported into the United States from the Northwest part of Canada in order to Keep the mills going. While the through traffic showed a decrease of 331,157 tons, there was an increase in the number of tons of local traffic carried of 635,831, which is a satisfactory indication of the general prosperity of the country. The average rate received per ton showed a decrease of 54d, from 5e, 104d, in 1903 to 5s, 5d, in 1904, but this was attributable to the shorter average distance each ton of but this was attributable to the shorter average distance each ton of

but this was attributable to the shorter average distance each ton of freight was carried.

The total working expenses for the half-year, including taxes, which have been largely increased (viz., by £11,842), amounted to £2,205,091, compared with £2,214,084, a decrease of £8,993, and the proportion to gross receipts was 70.45 p. c. as against 70.55 p. c. in 1903.

Dividends.—The total amount available for distribution, £1,046,029, compares with £1,013,719, an increase of £32,310. This amount of £1.046,029 is the highest net revenue balance the company has ever had in any one half-year. The net revenue charges amounted to £613,926, leaving a surplus of £432,103 available for dividend out of the working of the half-year, which, added to the balance of £4,363 brought forward, makes the total net amount available £436,466, out of which we ark you to author/ze the payment of the dividend for the half-year on the 4 p. c. guaranteed stock, and dividends for the whole year on the first and second preference stocks, which will absorb £429,848. The first half of the year was only able to earn sufficient to pay the dividend upon the guaranteed stock, so that it threw the burden of the entire year's dividend on the first, and second preferences on the second half-year, leaving no margin for the third preference atock. It is satisfactory to observe that the first three months of the present year show a gross increase of receipts over the corresponding quarter of 1904 of nearly a quarter of a million sterling—although we are somewhat the highest and in comparison with 1908.

ence steek. It is satisfactory to observe that the first three months of the present year show a gross increase of receipts over the corresponding quarter of 1904 of nearly a quarter of a million sterling—although we are somewhat behindhand in comparison with 1908, which, as you know, was an exceptional year.

GRAND TRUNK PACIFIC RY., ETC.—To consolidate and broaden the foundation of the company so as to permit of its availing itself to the fullest extent of the growing development of the Dominion, we have acquired the Canada Atlantic Railway, and have recently promoted, as you know, the Grand Trunk Pacific Ry. Co., taking every precaution for minimizing the fluancial risk and responsibility of the Grand Trunk. With reference to the latter, we have thought it our duty to avail ourselves of the remarkably favorable condition of the money market by securing the whole of the new undertaking, that is to say, the Lake Superior branch, and the 1,200 miles running from Winnipeg to the Rocky Mountains. [Reference is here made to the sale of bonds to Si eyer & Co. and N. M. Rothschild & Sons. See bond offerings in V. 80, p. 996, 1363.] Whatever, therefore, may happen during the next three or four years while the line is under construction, we may be perfectly sure of the funds for completing the whole of the Prairie section and the Lake Superior branch. It is confidently anticipated that the work of construction of the Lake Superior branch will commence in June next, and that the construction of the Prairie section will commence not later than next July. section will commence not later than next July,

The President further dwells at length on the remarkable improvement which has been effected in the physical and financial condition of the property during the past ten years.

The usual report for the last six months of 1904, says:

The actual expenditure on capital account was £239,001, as follows; new works, £65,107; double track, £153,311; land purchased, £20,582. While there is an apparent deficiency of 409 freight cars, the carrying capacity of the cars in service has been increased by 129,633 tons, the equivalent of 5,064 cars of the present average capacity. The doubling of the line between Hamilton and Sarnia has been completed during the past half-year. Instructions have been given to proceed with the work between Kingscourt Junction and Komoka (27.43 miles) during the current year. On the completion of this section of the line there will only remain about 30 miles of single track between Montreal and Chicago via Hamilton, a distance of 845 miles.

The results for four full years past compare as follows:

## United Railways Investment Company of San Francisco. (Report for Fiscal Year ending Dec. 31, 1904.)

President Arthur Holland of the United Railroads (the

operating company) says in substance:

Operating company) says in substance:

General Results.—The gross earnings show a satisfactory increase, a period of moderate growth being now apparently followed by more favorable conditions. The total number of passengers (revenue and transfer) carried during 1904 increased 5,563,946, or 9.44 over the previous year; the percentage of transfer to revenue passengers carried was 43.72 p. c. While an increase is noted in operating expenses and taxes, due to extensive repairs and renewals of rolling stock and power plants. track and overhead lines, as also to increased pay of car and house men, etc., for the full year in line with the arbitration award, yet on the basis of gross earnings a reduction is shown as compared with the preceding year.

Provision has been made for the first time for the sinking fund of the 4 p. c. gold bonds of this corporation, amounting for the year to \$133,052. The balance sheet shows an increase in additions and betterments of over \$520,000, mainly for rolling stock, though additions have also been made to track, structures and power-plant equipments. During the year all outstanding titles to Western Addition Block 251 have been acquired, giving us full, title to said block, as also to the adjoining block No. 250, upon which is located the North Beach power station. Of our unused real estate, the following pieces have been sold at satisfactory prices: Pacific Av. and Polk St.; Folsom St. and Precita Av.; Carl St. near Willard; Central Av. and Sacramento St. The disposition of other pieces at auction sale at an early date has also been determined upon.

Improvements. Etc.—No extensions have been made during the

The disposition of other pieces at auction sale at an early date has also been determined upon.

IMPROVEMENTS, ETC.—No extensions have been made during the year, the work having consisted of renewals and betterments of existing tracks. Much attention has been given to track special work, npwards of \$182,500 having been expended upon work of that character. Cast frogs and switches, with hardened steel centers of 7 in. and 9 in. standard girder rails have been used, thoroughly installed upon concrete foundations, contributing toward a rigidity that both obviates unnecessary noise and will effect a material saving in future repairs to both track and rolling stock. As with the previous year's work, some of this has been of a betterment character, to which account a due proportion of same has been charged.

The Cliff House steam line will probably be opened as an electric line at an early date, not only doing away with the last of our steam lines and the many inconveniences arising therefrom, but creating an extremely popular line. Much attention has been given to the reconstruction of the Sutter St. and Polk St. cable lines, realizing that they do not meet the present requirements of the traveling public. The conduit system, being considered impracticable from both an operating and a financial standpoint, and a prejudice having arisen against

conduit system, being considered impracticable from both an operating and a financial standpoint, and a projudice having arisen against the overhead system, the company has been considering the reconstruction of these roads as modern cable lives. This has resulted in sundry protests and petitions for an overhead electric system.

ROLLING STOCK.—A great improvement can be reported in the rolling stock equipment. The 50 standard pattern 40-ft, double truck cars, equipped with air brakes, etc., for city use, referred to last year, have been put into operation on various lines and were insufficient for the company's traffic requirements, resulting in the purchase of 25 additional cars of the same pattern.

company's traffic requirements, resulting in the purchase of 25 additional cars of the same pattern.

FUEL CIL.—The cost of the fuel has been reduced by the contract entered into with the Associated Oil Co. for fuel oil. The present contract will expire on Dec. 31, 1905, and a new one has already been made on favorable terms with the same company for such fuel oil as the company will thereafter require.

RAILWAY LIEES.—South San Francisco Railroad & Power Co.—The operation of this road, the opening of which was referred to in previous report, has shown a satisfactory return, with promise of considerable increase in net receipts in the near future through the construction and operation of the Southern Pacific bay shore line through South San Francisco.

South can Francisco.

Power Contract — contract has been recently entered into with the California Gas & Electric Corporation of San Francisco to furnish all of the electric power required to operate the various electric lines of this corporation and such cable lines as may be operated by electric motors for a term of years to date from Jan. 1, 1906, your company to provide sub-station equipment which will involve an ou lay of about \$105,000 within the present year. The arrangement is one of material herefit to this company as the price for the electric current is satisfactor. \$105,000 within the present year. The arrangement is one of material benefit to this company, as the price for the electric current is satisfactory and outlays for future additional power station equipments will be reduced to a minimum. The producing company is to erect nearby an electric generating plant of sufficient capacity to insure this company's requirements should by any possibility the ordinary supply be interrupted in transmission.

CARMEN'S CONTRACT.—During the early part of the last year the company was threatened with labor tropbles involving a strike, but wiser councels prevailed and a year's contract was entered into involving about the same rates of pay as those awarded by the Board of Arbitration the year previous. The renewal of the present contract for a two years' period has since been executed.

The operations of the United Railroads of San Francisco for the years 1904, 1903 and 1902 compare as follows:

## Alaska Paekers' Association.

(Report for Fiscal Year Ending Dec. 31, 1904.)

At the annual meeting on Jan. 17, Secretary C. W. Dorr said in substance:

GENERAL RESULTS.—The year 1904 will long be remembered as the most trying season in the history of the Association. It opened with large uncoid stocks of caused salmon in packers' hands, of which the association held at least its full share. [It is said about 600,000 cates.—Et ] Among the chief causes of the demoralized market may be mentioned an unnatural boom in the salmon business, an enormous be mentioned an unnatural boom in the salmon business, an enormous over-production of canned salmon during the three preceding years, especially in 1901, when the coast output was abnormally increased from 3,000,000 cases to 5,000,000, and the attitude of certain salmon packers who were either going through bankruptcy or for other causes became persistent price cutters. By reason of an unprecedented ice jam in the Berling Sea, the 1904 pack was made more costly than that of any previous year. It is, however, gratifying to note that the clouds seem to be rapidly breaking and in due course of time the association may be expected no regain its old-time vigor.

BETTERMENTS AND REPAIRS. The statement is as follows: (1) Canneries and fieling stations—For new work and improvements, \$218,042; repairs, \$88,166; (2) Fleet—New steel steamer "Nuchagak"

completed, costing \$180,570; eight launches, \$29,040; improvements and repairs, \$52,790. Written off from—Values on plants, \$88,166; on floating property, \$52,780. The ship Balciutha was also acquired as a wreck and successfully floated. The Association now owns 8 thips, 6 barks, 2 schooners and 65 steamers; total, 81. Canneries operated—Alaska, 20; Poget Sound, 1; total, 21.

Dividends—There has been paid during 1904 ten consecutive monthly dividends of \$1 per share and two monthly dividents—Nos. 131 and 132—of 750, per share, aggregating \$552,000.

131 and 132-of 75c. per share, aggregating \$552,000.

Operations, profits, etc., have been as follows:

## American Beet Sugar Co.

(Report for Nine Months Ending March 31, 1905.)

The press accounts of the annual meeting which was held n Jersey City on May 9 give the following data from the reports that were presented to the stockholders, for the 9 months ending March 31, the fiscal year having been changed to end on that day.

President Oxnard said in substance:

President Oxnard said in substance:

GENERAL RESULTS.—We have received good average prices during the past year, but the agricultural returns were disappointing, principally owing to lack of rainfall in California, which resulted in closing down our factories at Chino, Cal., and in only partial runs for our factory at Oxnard. In Colorado we had an average crop, although the anticipated results were realized neither as to tonnage nor sugar contents of the beet, due to the unusual rains. The condition in Nebraska was somewhat better than in the past, but on account of large freight rates, because beets had to be transported from the irrigated section of the State (some 400 miles away), the result was not as satisfactory as would appear from the tonnage worked.

REMOVAL OF NEBRASKA PLANT.—After exhausting every means at our disposal during the past ten years, we have been unable to obtain at remunerative prices a sufficient supply of beets for our factory at Norfolk. Neb., and we have decided on the removal of that plant to Lamar, in the Arkaness Valley, where we are practically assured of a full supply of good beets at fair prices. As a result of this move, your company will have during the next campaign another dividend-paying plant. It was also decided to increase the capacity of this factory, and to make several improvements to bring it up to date.

CERTIFICATES OF INDEBTEDNESS.—The company has during the past year sold \$2,700,000 of its errifficates maturing March, 1905; purchased the Lamar Canal and land (some 5,000 acres) and paid for the removal, remodeling and enlargement of the Norfolk Lamar factory, as mentioned above.

OUTLOOK,—The prospects for the coming year from all agricultural stindpoints are the best in the history of the company. In California stificient rain has fallen, and in Colorado Springs rains, with the snow stored in the monutains, will insure full crops of beets. In round figures we have contracted for the coming year for about 20,000 acres in California, 19,000 acres in Colorado and 5

Cleveland Cincinnati Chicago & St. Louis Ry.—Improvements.—Chairman M. E. Ingalls on May 4 outlined the plans for improvements and additions which are to be provided for from the \$12,000,000 new stock to be authorized on May 31. The new line from Danville to the neighborhood of Chicago, he states, will be built by the Lake Shore and the Michigan Central. In substance he says:

Michigan Central. In substance he says:

There will be extensive improvements in the freight terminals at Cincionati, Columbus and Indianapolis; also a new union station at Springfield, Ohio. The road between Cincinnati and Dayton will to a large extent be double-tracked; also a section south of Dayton and one north of Carthage. The remainder of the curves between Cincinnati and Indianapolis will be eliminated, and double-track laying, when completed this fall, will make 100 of the 110 miles on this line double track. The greatest improvement will be on the Cairo-Danville division. The work planned there will take three years to complete, making practically a new road between those two points.

The Lake Shore & Michigan Southern and the Michigan Central will build a line from a connecting point outside of Chicago to Danville, Ill., where connections will be made with the Blg Four. The new line, about 100 miles in extent, will be pushed to completion as rapidly as possible, as it is the intention to have the road in operation this fall.

The new equipment of the Blg Four will consist of 50 locomotives and 3,000 freight cars. These additions to the road's equipment will cost about \$3,500,000.

"It is the intention after the extension to Danville is com-

"It is the intention after the extension to Danville is completed to supply all the coal necessary for use on all of the New York Central lines west of Buffalo from the mines on the Cairo Division. The item in saving of fuel alone will justify the building of the line from Chicago to Danville." Compare V. 80, p 1728, 1423.

Colorado & Southern Ry.-New Bonds.-The shareholders will meet Jane 15 to act on the proposition to make a mortgage to secure not exceeding \$100,000,000 of refunding mortgage 4½ p. c. 30-year gold bonds, of which \$17,000,000 have been sold, as already announced, in order to extend the road to the Gulf of Mexico, and for other purposes. Compare V. 80, p. 1423, 1856.

New Director.-J. N. Wallace, Fourth Vice-President of the Central Trust Co., has been elected to the board in place of F. P. Olcott, resigned.—V. 80, p. 1856, 1423.

Connecticut River RR .- New Stock .- The shareholders on April 29 authorized the issue of \$30,000 new stock to provide for the construction of an extension, 11/2 miles long, connecting with the Fitchburg RR. in Deerfield.—V. 80, p. 1478.

Consolidated (Electric) Ry., Conn.—Offering of Guaranteed Shares.—See Springfield Ry. Co., below.

Balance Sheet.—See page 1910 of to-day's Chronicle.

Acquisition.—See Saffield Street Ry. below.—V. 80, p, 1362, 1234.

Delaware & Hadson Co.-Ratified-New Director.-The shareholders on May 9 approved the proposition to increase the limit of capital stock issued from \$43,990,000 to \$48,990,-000, to provide for the convertible feature of the proposed \$10,000,000 3½ p.c. refunding bonds of the Albany & Susquehanna. They also ratified the modified lease of the Chateaugay & Like Placid Ry., and elected William S. Oodyke a director of the Delaware & Hudson in the place of the late R. Somers Hayes. Compare V. 80, p. 1362, 1174.

Duluth-Superior Traction Co.-Decision.-Judge Vinja, in the State Circuit Court at Superior, Wisconsin, April 22, held that the 12-year extension of the franchises in Superior, obtained by the Duluth Street Ry. in 1901, under which such franchises are made to expire in 1931, are invalid, because the company is a foreign corporation and had not filed its articles with the Secretary of State of Wisconsin. He hoids, however, that the present interests had the right to acquire the original franchise, which expires in 1919. The decision, we are informed, covers all the franchises in Snperior. An appeal will be taken to the Sapreme Court.—Y. 72, p. 627.

El Paso (Tex.) Union Passenger Dapot.-Bonds -The

Erle RR. - Quarterly. - The earnings for the quarter and the nine months ending March 31 were:

9 mos. 9,020,800 233,476 8,216,478 226,899 1904-5...30,586,572 1903-4...30,490,393 —V. 80, p. 1362, 711. 8,462,898 8,413,258 sur. 791,377 sur. 30,114

Farmville & Powhatan RR.—Sale Adjourned.—The foreclosure sale has been adjourned until June 7. -V. 80, p. 1234.

Galveston Harrisburg & San Antonio Ry.—Merger Bill Signed —Governor Lanham on May 8 signed the bill authorizing this company to purchase other Southern Pacific lines aggregating some 387 miles of road. Compare V. 80, p. 1434.

Hartford Manchester & Rockville Tramway Co .- Sale, -A controlling interest in the stock has been purchased by interests identified with the Boston & Worcester Electric Cos., with a view to securing a direct line from Hartford to Boston by way of the projected Stafford Springs Street Ry. It is said that 2,000 of the 3,000 shares of stock of the Manchester road have been purchased at \$205, the par value being \$100. The deal was put through by the American Loan & Trust Co. of Boston.

The Rockville company has outstanding \$300,000 capital stock and \$200,000 bonds and operates about 18% miles of track, extending from Burnside, in East Hartford, to Manchester and to Rockville. It has an arrangement with the Hartford Street Ry. Co. whereby it utilizes the tracks of the latter between Hartford and Burnside.

The allied Stafford Springs Street Ry. Co. is authorized to build from the terminus of the Hartford Manchester & Rockville Tramway in Rockville to the Massachusetts State boundary in Stafford, 18 miles; also numerous side lines. The authorized capital stock is said to be \$700,000. The project is being promoted by James F. Shaw Co. of Boston. Work will be started, probably, this month.

Havana Central RR.—See Havana Electric Ry. below.

Havana Electric Ry.—Right to Subscribe.—All stockholders of record May 20 will have the right to subscribe on or before June 12 for bonds of the Hayana Central RR. Co., a company recently incorporated in New Jersey with \$5,000,000 of authorized capital stock (par of shares \$100), to build about 120 miles of electric railway radiating from the city of Hayana. The total amount of bonds to be issued at present is \$5,000,000 of first mortgage 5 p. c. gold bonds, and they are offered at 9) and interest, with a bonus of \$75) stock with each \$1,000 bond, the shareholders of the Havana Electric Ry. having the right to take a \$1,000 bond for every \$2,500 attack held by them respectively. stock held by them respectively. Subscriptions are payable as follows: 20 p. c. of par value plus interest from May 1, 1935, at 5 p. c. per annum, to be paid on application, and 5 p. c. on the first of each of the following 14 months. The prospectus says in substance:

It is proposed to create a mortgage to secure \$10,000,000 of 5 p. c. bonds, of which one-half will be retained in the treasury and only issued under certain restrictions for future capital expenditure requirements. The bonds will be 50-year gold bonds of the denomination of \$1,000 each, redeemable by the operation of a sinking fund

tion of \$1,000 each, redeemable by the operation of a sinking fund commencing in 1908.

Arrangements have been made to acquire the rights of the Insular Ry. Co. (V. 76, p. 705), to construct 120 miles of general service lines radiating from Havana and covering the only practical railroad entrance into the harbor and business center of the city. It is proposed to use part of the city tracks of the Havana Electric Railway Company for terminal purposes. The railroad will carry all kinds of freight and will also provide a frequent passenger service. Its electric locomotives will be capable of hauling at 10 miles per hour a train of ten standard box cars loaded with 20 tons of freight each. In addition the road will have cars equipped to operate independently. The equipment will be in all respects as serviceable as the best equipped steam railroad. It is also proposed to use the company's power plant for furnishing light and power to many of the towns located along the lines.

The approximate cost, ready for operation, is calculated at an average of \$30,000 per mile, distributed as follows: Track and line construction, \$14,500; electrical equipment, \$6,000; cars and trucks, \$3,500; power station. \$2,000; sub-stations and feeders, \$1,500; shops, \$500; general expenses and terminale, \$2,000. It is estimated that the average receipts will be at least \$9,000 per mile, as follows: Gross receipts, \$1,030,000; less operating expenses, \$40,000; interest and sinking fund, \$275,000; balance surplus earnings, \$265,000, being equivalent to over 5 p. c. dividend on the stocks.

The first board of directors is to be composed principally of

The first board of directors is to be composed principally of men largely interested in and connected with the board of directors of the Havana Electric Ry. Co. For every 10,000 of population, the Province of Havana, it is stated, has only five miles of railroad, contrasting with an average of 25 miles in the United States. Officers of Havana Central RR.: Edwin Hanson, President; William L. Bull, Vice-President, and C. W. Van Voorhis, Secretary and Treasurer. A contract for 15,000 tons of steel rails for the new line is reported r the new line is reported to have been placed, -V, 80, p. 1424, 657.

Indiana Illinois & Iowa RR.—Operation of Lessed Line Transferred.—The operation of the leased line, the St. Joseph South Bend & Southern RR., South Bend to St. Joseph (86 miles), passed to the Michigan Central RR. Co. at midnight of April 14, 1905.—V. 80, p. 1863.

Indlana (Electric) Ry.—Acquisition.—This company, it is announced, has arranged to purchase the Chicago South Shore Ry. (V. 80, p. 1728, 1362), La Porte to Michigan City, 15 miles, which will be sold under foreclosure on May 26; also, it is said, the Michigan City Electric Co., consisting of the city street rsi way line at that place and the electric-light works. The Indiana company will, it is reported, build from La Porte to South Bend.—V. 79, p. 2796.

Indianapolis & Western Traction Co.—New Enterprise.—
This company, which Tucker, Anthony & Co. have arranged to finance, will build a 54-mile high-speed electric railway between Indianapolis and Terre Haute. The capital stock is \$3,000,000, of which \$750,000 is 5 p. c. preferred and \$1,250,-

000 common. The mortgage is for \$2,000,000, of which \$1,500,000 will be issued in part payment for building and equipping the line; the bonds are first mortgage 20-year 5 p. c., gold. The firm is actively at work in the construction of the line and hopes to have the first section in operation some time in the early fall and the entire line completed by July 1, 1906. The following is pronounced correct:

The cars of the new company will enter Terre Haute over the lines of the Terre Haute Traction Co., controlled by Stone & Webster, and enter Indianapolis over the tracks of the Indianapolis Railway & Terminal Co., which is owned by the United Gas Improvement Co. of Philadelphia. From the centre of Indianapolis to the centre of Terre Haute the distance will be 72 miles. P. L. Saltonstall of Boston will be President of the new company and S. Reed Anthony Treasurer, Randal Morgan, Vice President of the United Gas Improvement Co., is largely interested in the new company. is largely interested in the new company.

Tucker, Anthony & Co. also control in Indiana the Indianapolis & Northwestern Ry., running from Indianapolis to Lafayette, with a branch line to Crawfordsville, a total mileage of 90 miles.

Insular Railway, Havana.—Sale.—See Havana Electric Ry. above. - V. 76, p. 705.

Interborough Rapid Transit Co., New York.—Sale of Notes.—The company recently sold to August Belmont & Co., Wm. A. Read & Co. and Lee, Higginson & Co. \$10,000,000 8-year 4 p. c. gold notes, due May 1, 1908, all of which have been re-sold notes and the procedure of the company (the non-few additional procedure will be used by the company "to pay for additional equipment, new properties acquired, extensions, improvements, and other general requirements of the property." The issue is limited to \$15,-000,000 and the entire amount at any time outstanding is subject to call for payment at company's option at par and interest on any interest date on 60 days' notice; interest payable Nov. 1 and May 1 in New York.

The notes are issued under a trust agreement to the Windsor Trust Co. of New York, as trustee, under the terms of which the notes will be equally secured in the event of the company executing a mortgage covering the leasehold interest in the Manhattan Ry, or the Rapid Transit Subway Construction Co. stock.

Increase in Wages.—The following was posted on Apr. 28: Effective May 1, 1905, the rate of pay of all the first-year gatemen will be increased from \$1.40 to \$1.50 per day. All first-year guards on the rolls on May 1, 1905, will be advanced to second-year rate, \$1.70 per day. Men employed as, or promoted to, guard after May 1, 1905, will receive \$1.55 per day, the regular first-year guard rate.

Four-Tracking in Brooklyn.—The Board of Aldermen on May 2 authorized the four tracking of the tunnel road in Brooklyn from Joralemon St. to the junction of Flatbush and Atlantic avenues, the city to meet one-half of the additional cost. Total estimated cost \$2,000,000.

Extens on to Battery.—It is now expected that the line down Broadway to the Battery will be ready for operation about July 1. The road to Wall St. may be opened two or three weeks earlier.—V. 80, p. 1479, 1234.

Kanawha Valley Traction Co., Charleston, W. Va.—Change in Control.—This property, purchased some two years ago by a syndicate headed by W. O. Johnson and Judge Peter Grosscup of Chicago, has been sold by them to a syndicate of Pennsylvania capitalists composed of State Senator W. C. Sproul, of Chester, Pa., and others. -V. 78, p. 1781.

Kansas City Southern Ry. Official Statement—Earnings.

On page 1921 will be found a statement, approved by the board of directors and signed by Secretary Alexander Millar, farnishing additional information regarding the conduct of the company's affairs under the voting trust (compare V. 80, p. 1370-1373). This statement contains the following report of earnings for the nine months ending March 31:

9 mos.— Gross. Net. Cth.income, Charges. Improve'ts. Bal., sur\* 1904-0..\$4,972,318 \$1,451,809 \$77,029 \$717,423 \$226,105 \$585,310 1903.4.. 4,945,111 1,392,067 57,565 718,221 275,324 456,087

The statement summarizes the capital expenditures since organization, and adds:

The resources of the property have been aggressively and successfully developed. The results of operations for the nine months ending March 31, 1905, shows an increase of \$1,895,760, or 61.62 pc., in gross receipts, and \$942,482 or 150.66 p. c., in net earnings over the earnings on practically the same mileage of operated road during the nine months ending March 31, 1900, the last nine months of operations prior to the present owners assuming charge of the property.—V. 80, p. 1424, 1370.

Lake Shore & Michigan Southern Ry.—Bonds Sold.—The company recently sold to J. P. Morgan & Co. the last \$10,-000,000, of the authorized issue of \$50,000,000 4 p. c. gold de-

bentures of 1903 due Sept. 1, 1923 New Line.—See Cleveland Cincinnati Chicago & St. Louis Ry. above.-V. 80, p. 1856, 1852.

Lehigh Valley Traction Company.—Foreclosure Ordered.
—Judge McPherson in the United States Circuit Court
at Philadelphia on May 5 ordered the foreclosure sale of the properties of this company and the allied Philadelphia & Lehigh Valley Traction Co.; upset prices \$2,000,000 and \$1,000,000, respectively. The amounts due and payable under this decree are stated for the Lehigh Valley Company as \$3,124,888 and for the Philadelphia Co. as \$2,712,633. foreclosure suit has also been brought under the \$500,000 mortgage of the Allentown & Slaington Street Ry Co. The "Philadelphia News Bureau" has the following regarding the Philadelphia & Lehigh Valley Traction Co.:

Negotiations which were recently broken off when the minority refused to take 41 in cash for their bonds and hold out for 45 have been resumed and there is stated to be likelihood that a settlement on near this basis may be arrived at, doing away with competition bidding at the sale. The minority bondholders are represented to be \$1,004,000, out of the total \$2,500,000 bonds, so that at 45 a sum of \$150,000

would have to be paid by the reorganizers. The upset price, \$1,000,000 fixed by the court would represent 40 for the bonds, but out of this would have to come foreclosure expenses and costs.—V. 79, p. 2642.

Louisville & Nashville RR.—New Mortgage Recorded.-The new Atlanta Knoxville & Cincinnati division mortgage securing not to exceed \$50,000,000 4 p. c. gold bonds due May 1, 1955, has been filed for record, the United States Trust Co. of New York being trustee. Compare V. 80, p. 1235, 872. – V. 80, p. 1729, 1424.

Lonisville (Ky.) Traction Co.—Bond Offering.—Blds for \$200,000 4½ per cent 2d mortgage bonds of the Louisville Railway Co. (suthorized issue \$2,000.000, outstanding, \$800.— 000) will, it is stated, be received until noon May 17.-V. 79,

Metropolitan Street Ry. - Tax Decision. - Justice B schoff, in the Supreme Court in this city on Wednesday of last week, confirmed the report of Hamilton Odell, as referee, holding that the company's stock is exempt from taxation for the year 1897, and that the assessment for taxation by the city at a valuation of \$10,134,951 should be vacated. The court finds in effect as follows:

That taxable assets are exceeded over \$16,000,000 by deductible liabilities. In round numbers, the referee holds that the assets, in the form of recurities, cash in bank, tangible personal property and real estate, consisting of tracks in the streets and other property, lessened by the assessed value of real estate, aggregate \$3,625,000, and the outstanding liabilities deductible under the statute, consisting of accounts payable, together with the indebtedness represented by bonds issued by several railway companies, liability upon which was assumed in the course of consolidation of the debtor companies, aggregate a little of \$20,000,000.

The bonds issued by the corporations consolidated, at least to the extent of \$9,400,000, represent a deductible indebtedness within the meaning of the statute. While the city's contention may be correct, that the first and second mortgage bonds of the Broadway Surface Ry., the bonds of the South Ferry RR, and the guaranteed bonds of the Broadway & Seventh Ave, RR, aggregating \$10,400,000 (the latter, perhaps, to be regarded as a contingent liability), should not be deducted, "the question becomes immaterial in view of the condition of the assessable assets in relation to the accually deductible liabilities."

The city contended that the tayable assets should be increased by

of the assessable assets in relation to the account ties."

The city contended that the taxable assets should be increased by the value of certain leases of railroad property under which the company operates its railroad, and that the deductible items should be lessened by striking out every item of indebtedness upon the bonds of the consolidated companies, leaving for deduction only \$400,754 accounts payable. No proof was presented of value of the leases or of the property covered by them.—V. 80, p. 711.

Michigan Control RR.— Operation Taken Over.—See

Michigan Central RR. — Operation Taken Over. — See Indiana Illinois & Iowa RR above.

New Line.—See Cleveland Cincinnati Chicago & St. Louis Ry. above.—V. 80, p. 1852, 600.

New Orleans Great Northern RR.—New Stock for Allied Company.—See Great Southern Lumber Co. under "Industrials," below.—V. 80, p. 1729, 1235.

New York Westchester & Boston Ry .- Opinion as to Validity .- Ex-Chief Judge Parker, at the request of certain financial interests, recently made an examination into the question of the legality of the company's charter and rendered an opinion thereon. The opinion, which has been printed in pamphlet form, is adverse to the company, giving many grounds for the belief of the author that the company never possessed a valid franchise.—V. 80, p. 872, 118.

Northern Securities Co.—Replacement of Stock Pleaged. See Oregon Short Line RR. below.-V. 80, p. 1857, 1479.

North Shore RK., Cal.—Second Default.—Cash Deposited for Principal and Interest.—The company on May 1 defaulted for the second time on its interest payments on the \$2,000,000 first mortgage 5 p. c. bonds of 1902. Cash to the amount of \$2,100,000, representing the entire principal and interest of the outstanding bonds, has been deposited with the Mercantile Trust Co., San Francisco, which, under the terms of the mortgage, has declared the bonds due and payable, and gives notice that holders will receive their principal and interest upon surrender of the bonds at its office.— V. 79, p. 2148, 681.

Ohio River & Western Ry.—End of Receivership.—The foreclosure suit and receivership of this road, we learn, were terminated by order of court on March 31. On April 1, 1905, S. L. Mooney, President, issued a circular saying: "The Ohio River & Western Ry. Co. has this day taken charge of said railway and all its property, except the earnings, income, money and credits due and owing the receiver." The mortgage for \$2,750,000 made early in 1903 has been satisfied of record. The \$600,000 50 year 4 p. c. gold mortgage of Sept. 1, 1903, under which the foreclosure suit was brought, has presumably passed, at least for the most part, into the hands of the new management, for the defaulted interest, we understand, has not been paid.—V. 80, p. 600, 473.

Oregon BR. & Navigation Co. -Stock Fledged. -See Oregon Short Line RR. below. - V. 75, p. 290.

Oregon Short Line RR.—Listed—Replacement of Northern Securities Stock as Collateral.—The New York Stock Exchange has listed \$45,000,000 4 p. c. guaranteed refunding twenty five-year bonds dated Dec. 1, 1904, authorized issue limited to \$100:00 0,000. These bonds were created to refund the \$82,491,000 4 p. c. and participating bonds (called for payment at 1(21/2 and interest on Feb. 1, 1905), and for other purposes, viz.:

The \$82,491,J00 4 p. c. and participating bonds were secured by deposit of an equal par value of Northern Securities

stock. The new bonds are now secured by a pledge of the following blocks of stock:

"For value received, Union Pacific RR. Co. unconditionally guarantees to the owner of the within band the punctual payment of the principal and interest thereof as the same mature, and agrees itself punctually to pay the said principal and interest if default in the payment thereof be made by the Oregon Short Line RR. Co.

"In witness whereof, Union Pacific RR. Co. has caused these presents to be signed by its President, or one of its Vice-Presidents, and its corporate seal to be hereunto affixed and to be attested by its Secretary or an Assistant Secretary, as of Dec. 1, 1904.

[Seal]

UNION PACIFIC RR. CO.,

By , Vice-President."

Attest: Assistant Secretary. GUARANTY ENDORSED ON EACH REFUNDING BOND.

, Assistant Secretary. Attest:

EARNINGS FOR SEVEN MONTHS ENDING JAN. 31, 1905. (Average miles operated, 1,108.66)

Expenses-Earnings-Passenger, mail and express \$1,886,972 Freight 5,904,507 Maintenance of way Miscellancous ..... General expenses..... Total transportation 

Total earnings ..... \$8,951,769 Balar 00, surplus...\$1,864,002 Note.—No dividends upon stock of the Northern Securities Co., of which \$52,491,000 par value is owned by this company, have been received since Feb. 1, 1904.—V. 80, p. 1857, 1175.

Panama RR.—Steamship Service.—Secretary of War Taft, in a letter addressed to James J. Hooker, Chairman of the executive committee of the Receivers' and Shippers' Association of Cincinnati, says that there is no intention on the part of the Government to lower rates on the Panama RR. and its steamship lines to an extent that would prove injurious to the transcontinental railways, adding

rious to the transcontinental railways, adding:

The policy of the Government is to charge such rates as will pay a reasonable return on the investment of the Government and nothing more. It will permit no discrimination against or in favor of any connecting steamship lines. The Panama RR. Co. owns three steamships, which ply between New York and Colon. The Government is not running, and does not expect to run, a line between New York and San Francisco, or between San Francisco and New York; hence the relation of its policy to transcontinental rates is only indirect. The policy of the company heretofore has been to monopolize the trade between New York and Panama on the one side, while its arrangement for exclusive through billing between New York and San Francisco with the Pacific Mail S eamship Co. produced a monopoly for the Pacific Mail between Panama and San Francisco on the north, and a monopoly for the Chilean and Pacific steamships from Panama to the south. So far as the action of the Panama RR. Co. can break up these monopolies, it is being taken.

it is being taken.

Nevertheless, it is possible that the position of advantage that the Pacific Mail has with respect to Mexican and Central American trade, and its ownership of a dock at Colon, may enable it to establish lines on both sides which will do all the through business and fix the rates without or joying any discrimination in its favor by the Panama RR If so, the Government could not prevent this except by running a line from Panama to San Francisco for the purpose, which it cannot do.

The Chamber of Commerce of San Francisco on May 9 submitted to the authorities of Washington, D. C., a report regarding what appears to be the proper course to pursue in order to make the Panama route more advantageous for the movement of freight. See New York "Evening Post" of May 9.—V. 80, p. 1479, 1235.

Pennsylvania RR.—Subscriptions to New Bonds.—The subscriptions received from the shareholders for the \$100,-000,000 of 31/2 p. c. bonds (convertible into stock at the rate of \$:50 bonos for \$100 stock), it is announced, have aggregated something less than 10 p. c. of the issue. The remaingated something less than 10 p. c. of the issue. der of the bonds will be taken by the underwriting syndicate

headed by J. P. Morgan & Co. and Kuhn. Loeb & Co.

Called Bonds.—Sunbury Hazleton & Wilkesbarre Ry. first
mor gage Series A bonds of 1878 to the amount of \$17,700
have been called and will be redeemed at par and interest on May 31 by the Fidelity Trust Co. of Philadelphia. - V. 80, p. 1729, 1235.

Petaluma & Santa Rosa (Electric) RR.—New Mortgage.— A second mortgage has been made to the Mercantile Trust Co. of San Francisco, trustee, to secure \$250,000 bonds. Compare V. 78, p. 103.

Philadelphia Co. of Pittsburgh.—Earnings.—The earnings for the three months ending March 31, including controlled companies, were:

Other Balance. Charaes 1905.....\$4,249,683 \$1,954,665 \$150,018 \$1,056,688 \$1,047,995 1904......4,205,505 1,931,723 166,567 1,030,484 1,067,806 -V. 80, p. 1729, 652.

Philadelphia & Lehigh Vailey Traction Co.-Foreclosure. Etc.—See Lehigh Valley Traction Co. above.—V. 79, p. 2086.

Pitts. McKeesport & Connellsville Ry.—See West Penn Railways below.—V. 77, p. 2890.

St Joseph South Bend & Southern RR .- Operation Transferred. - See Indiana Illinois & Iowa RR. above. - V. 73, p. 554.

St. Louis St. Charles & Western Electric Ry.—Receiver-sh p Terminated.—Judge Adams, in the United States Circuit Court at St. Louis on April 29, terminated the receivership of this road on application of Eleneious Smith, attorney for the Illinois State Trust Co. of East St. Louis.—V. 79, p. 213.

St. Louis & Suburban Ry.—Sale of Bonds.—To provide for double-tracking and other improvements, \$500,000 general mortgage bonds were recently sold to Ladenburg, Thalmann & Co. of New York, who have largely re-sold the same, and now quote them at 1011/2 and interest. A representative of the firm is a member of the board of directors. There are outstanding. we are informed, \$4,500,000 of the bonds named. -V. 80, p. 872, 652.

San Pedro Los Angeles & Salt Lake RR.—New Line Opened.—The company's line from Salt Lake City to Los Angeles was opened for through traffic on May 3, and is now in full operation carrying both freight and passengers. Through cars are run from Chicago and St. Louis to the Paclific coast. A half interest in the company is held by the Union Pacific RR. Co.—V. 80 p. 1480, 872 Union Pacific RR. Co.-V. 80, p. 1480, 872.

Seaboard Air Line Ry.—Plan to be Modified.—The holders of about 15 p. c. of the stock have persistently refused to come into the reorganization on the basis heretofore proposed, and the committee therefore, to avoid litigation and delay, announce their intention shortly to issue a modified plan providing as follows: "A holding company shall be formed on substantially the lines of the original consolidation, having the same amount of capital as was provided for the consolidated company, divided into the same classes of securities, which will be issued on substantially the same terms. With the money to be realized from the sale of the first preferred stock of the holding company, it will buy 5 p. c. mortgage bonds of the railway company, thus supplying the latter with the money it needs. In order that there should be no chance of affecting the present status of stockholders of the railway company, it will be provided in the charter of the holding company that its indebtedness can at no time exceed \$500,000, and that the stocks of the railway company that are to be acquired shall be held intact free from any right of the new company to hpyothecate them."-V. 80, p. 1480, 713.

Southern Pacific Co.—Stock Pledged.—See Oregon Short Line RR. above.—V. 80, p. 1857, 998.

South Side Elevated RR., Chicago.—Bonds Offered.—The company recently sold to a syndicate \$2,500,000 of its 41/2 p. c. first morfgage bonds of 1904, authorized issue \$8,000,000, now outstanding \$5,500,000. The Illinois Trust & Savings Bank, Chicago, is offering \$1,000,000 of the syndicate's bonds at 10334 and interest. The proceeds of the new issue are to be used for the building of a third track from 12th St. to 43d St. for express service and for extensions to Englewood and the Stock Yards. The company has paid dividends on its capital stock at the rate of 4 p. c. per annum for several years.—V. 80, p. 1480, 872.

Southwest Pennsylvania RR.—Offer for Minority Shares. The Pennsylvania RR., owning \$1,057,250 of the \$1,499,900 capital stock, is affering two and one-half shares (\$125) of its own stock for each \$50 share of the Southwest company. The latter has long paid dividends of 10 or 11 p. c. yearly.— V. 49, p. 654.

Springfield (Mass.) Railway Companies.—Stock Offered.— Lee, Higginson & Co., Boston, and William C. Simons, Springfield, recently effered, at 1011/2 and interest, a limited amount of the 4 p. c. cumulative gnaranteed preferred shares, par value \$100; dividends payable semi-annually, July 1 and Jan. 1; first dividend of 2 p. c. July 1, 1905. Subject to call on Jan. 1, 1906, or on any dividend date thereafter at 105 and accrued dividends. Non-taxable in Massachusetts.

These shares are secured primarily by deposit (with trustees) of a large majority of the capital stock of the Springfield Street Ry. Co. at rate of one share of latter for each \$150 par value of these preferred shares. The purchase price of the stock so pledged was \$225 per share, thus exceeding by 10 p. c. the par value of these preferred shares. The Ry. Co. has paid for many years 8 p. c. dividends on its stock. They are further secured by guaranty of the Consolidated Ry. Co. endorsed upon each certificate, both as to the payment of semi-annual cumulative dividends and as to the redemption of the principal at 105 in the event of liquidation or call. The Consolidated Ry. Co. owns or controls about 451 miles of electric railroads, in addition to the Springfield purchase, the earnings from which are at the rate of about \$400,000 per annum above fixed charges.

Of the \$1.958.400 capital stock of the Stringfield Street Ry.

Of the \$1,958,400 capital stock of the Springfield Street Ry. some \$1,910,100, it is stated, was received under the recent offer of purchase.—V. 80, p. 1363, 1234.

Stafford Springs (Conn.) Street Ry.-New Project.-See Hartford Manchester & Rockville Tramway above.

Suffield (Conn.) Street Ry.—Sale.—The stockholders of this company and also the stockholders of the Village Water Company of Suffield have generally accepted the offer of the Consolidated Railway Co. of Connecticut (owned by N. Y. N. H. & H. RR) for their holdings as follows:

Take in payment 4 p. c. bonds of the Consolidated Railway Co of Connecticut, viz.: fifty-year debentures of \$1,000 each, dated Jan. 2, 1905, with semi-annual coupon due July 1, 1905, attached. Price \$150 for each share of Suffield Street Railway Co., and \$125 for each share of the Village Water Co. Each Suffield company has \$50,000 capital stock and pays dividends of 4 p. c. per annum.

Twin City Rapid Transit Co.—New Stock, Etc.—The shareholders will vote May 31 (1) on increasing the limit of capital stock issue from \$20,000,000 to \$25,000,000, by raising the common stock from \$17,000,000 to \$22,000,000, the preferred stock to remain as now, \$3,000,000; (2) on amending the certificate of incorporation so as to extend the life of the corporation perpetually; (3) on dividing the board of directors into three classes, the term of office to be three years and one class to be elected annually.

Of the new common stock it is proposed to offer \$1,000,000 to the present shareholders pro rata at par during the current fiscal year, the proceeds to be used for extensions of the system recently authorized in St. Paul and Minneapolis.—V.

80, p. 1233, 1175.

Union Pacific RR.—Stocks Pledged.—See Oregon Short Line RR above.—V. 80, p. 1857, 1729.

United Railways Investment Co. of San Francisco.—New Directors.—At the annual meeting held at Jersey City on May 5 Ernst Thalmann, Benjamin S. Guinness and George W. Bacon were elected to the board. The other directors are: Eugene Delano, Arthur E. Newbold, Patrick Calhoun and W. Gerard Vermilye.

Report.—See page 1909 of to-day's Chronicle.—V. 80, p.

Vandalia RR.—Listed.—The New York Stock Exchange has listed \$7,000,000 consolidated mortgage 4 p. c. bonds, Series A. Compare official statement in V. 80, p. 1243, 1236.

Wabash RR.-Resignation of Fresident Ramsey.—President Ramsey is quoted as saying that he has finally determined to resign the presidency in October next, at which time, it is supposed, George Gould will assume the office.-V. 80, p. 1729, 1480.

Washington Baltimore & Annapolis Electric Ry.—Reorganized Company-Mortgage. - The Cleveland syndicate, headed by George T. Bishop and John Sherwin recently paid its first instalment of 20 p. c. on the underwriting of the reorganized company. Actual construction on the proposed high-speed short route electric railway between Baltimore and Washington, a distance of 31 miles, is expected to begin at an early day. The company has filed to the Cleveland Trust Company, as trustee, its new first mortgage securing 30-year 5 p. c. gold bonds of \$1,000 each. Mr. Bishop writes as follows:

There is not much to be said at the present time in regard to the proposed Washington Baltimore & Annapolis Electric Ry. A company has been organized to build it with a capital of \$4,000,000, with a first mortgage bond issue of \$3,000,000 and a second mortgage bond issue of \$1,000,000. The syndicate which has financed the road is known as the Washington Baltimore & Annapolis Electric Railway Reorganization Syndicate, and George T. Bishop and John Sherwin are the Syndicate managers. The officers of the company are George T. Bishop, President; John Sherwin, Vice-President; W. A. Kappler, Assistant Secretary and Treasurer, Cleveland, Ohio, and John Masterton, Secretary and Treasurer, Baltimore, Md. When the line is completed the company will own 100 miles of track.—V. 80, p. 223, 118.

Washington (1), C.) Reilway & Electric Co.—See Potomac.

Washington (D. C.) Railway & Electric Co.—See Potomac Electric Co. under Industrials below.—V. 80, p. 1232, 1176.

Western Maryland RR.—Listed.—The New York Stock Exchange has listed \$1,155,000 additional 1st mortgage 4 p.c. fifty-year bonds, making total listed \$30,522,000. Of the bonds just listed, \$1,109,000 are part of the amount (originally \$14,518,700, now reduced to \$11,484,700,) reserved for construction of branches and extensions, for equipment and improvements, and for completion of Pledmont & Cumberland Ry. and Coal & Iron Ry. The remaining \$46,000 is a portion of the \$3,000,000 set aside for Baltimore terminals. Compare fall statement to New York Stock Exchange in V. 79, p. 2692, V. 80, p. 473, and balance sheet of Oct. 31, 1904, in V. 80, p. 468.

Total net income...\$1,231,169 Balance, surplus......\$1,035,886
-V. 80, p. 1857, 1480.

West Penn Railways.—Further Facts.—Referring to the bond offering of N. W. Halsey & Co., which was mentioned last week, President W. S. Kuhp, under date of April 22, writes in part substantially as follows:

writes in part substantially as follows:
Company organized Feb. 17, 1904, under laws of Pennsylvania, a consolidation of Pittsburgh McKeesport & Connellsville Ry. Co. (V. 77, p. 2390), Uniontown & Monongahela Vallsy Ry. Co., Connellsville Suburban Street Ry. Co., Greensburg & Southern Electric Street Ry. Co., and 10 lighting companies operating in various important cities and towns in the Connellsville coke region. The franchises of the company run for 999 years. The consolidated system has a length of 94 miles, three-fourths on private right-of-way, and comprises two groups, viz: (a) 25-mile city and interurban system serving McKeesport and vicinity and connecting with electric traction lines extending to Pittsburgh, 15 miles distant; (b) system extending through the coke region and reaching such important towns as Connellsville (12,000), Uniontown (12,000), Mt. Pleasant (7,000), Greensburg (12,000), Scottdale (8,000), etc., etc.

Main power station at Connellsville supplies current for entire cokeregion system; capacity double present requirements of railway and lighting plants, leaving a large surplus available for commercial purposes. High tension lines iransmit the current from this station to 6 sub-stations. All bulldings are of brick, and the cost of this generating and distributing plant was over \$1,200,000. Track practically of heavy steam railway construction, 2,650 standard oak and chestnut ties to the mile, stone and slag baliasted, and laid with 70-lb. Trail in the country and with heavy girder-rail in cities and towns; principal bridges, steel and masonry.

Through ownership of entire capital stock of the corporations hold.

bridges, steel and masonry.

Through ownership of entire capital stock of the corporation Through ownership of entire capital stock of the corporations holding the municipal lighting frauchises, controls the lighting of Irwin, Manor, Jeanette. Greensburg, Mt. Pleasant, Scottdale, Connelisville, Dawson and Uniontown. In this field it is without competition, and the earnings are rapidly increasing. Aiready supplies current at several points for the lighting of coal mines and for the operation of mining machinery, pumps, etc.

The bond issue (\$6,000,000 authorized) is issuable only as follows:

Reserved to retire underlying liens, due 1909 to 1927...... \$504,000 For extensions [at 90 p. c. of oost]......2,470,000

Vapitat	Slock
Total Issuc.	Deposited.
West Penn Interurban Ry. Co\$1,000,000	\$999,600
Pittsburgh McK'sport & Connolleville Rv. Co., 3,000,000	2,999,600
Greensburg & South'rn Electric Street Ry. Co. 150,000	149,600
West Penn Electric Co. (V. 80, p. 1239) 500,000	499,200
Wostmoreland Light, Heat & Power Co 500,000	239.500
11 Antimor Adams and	

Total.....\$5,150,000 \$4,886,500

Also secured by 990-year leases of Pittsburgh McKeesport & Connelsville Ry., West Penn Interurban Ry. and Greensburg & Southern Electric Street Ry Co., subject to the bonded debt of subsidiary companies not assumed or guaranteed by the West Penn Railways Co., amounting to \$3.454,500 [chiefly some \$3,000,000 bonds of Pittsburgh McKeesport & Connelsville Ry.—ED.].

EARNINGS OF WEST PENN SYSTEM FOR YEAR ENDING MARCH 31, 1905. Gross earnings.......\$934,916 | Bond interest (sub cos.)..\$174,325 Op. expenses and taxes.. 522,644 | Bond inte't (West Penn). 151,300

Balance, surplus..... \$86,647 Net earnings.....\$412,272 The earnings of the railway for the past two years have been at the rate of \$7,000 per mile. The year 1904 was one of extreme business depression in the Pittsburgh district and Connellsville coke region. The current year shows an increase of more than 11 p.c.

The owners, who have invested in the property \$2,750,000 above the total outstanding bonded debt, are successful business men who know the Pittsburgh district intimately. Directors:

E. C. Converse, Chairman of Board (President Bankers'Trust Co. and Liberty National Bank, New York); W. S. Kuhn, President (Pittsburgh); James S. Kuhn, Vice-President; John E. Borne (President Colonial Trust Co., New York); Alfred Jaretski, New York; Charles E. Speer (President First National Bank, Pittsburgh); W. H. Graham (President Mercantile Trust Co. of Pittsburgh); Charles A. Palnter (of Henry Sproul & Co., Bankers, and President Pittsburgh Stock Exchange); W. A. Shaw (President Bank of Pittsburgh N. A., Pittsburgh). Pittsburgh).

J. B. Van Wagener is Treasurer; Robert P. Watt, Secretary.

"The 94 miles of track serve a population of approximately 200,000; the lighting service can immediately serve a population of 140,000, although the lighting districts of ar developed covers only about 90,000."—V. 80, p. 1857.

#### INDUSTRIAL, GAS AND MISCELLANEOUS.

Acme Steamship Co.—See "Lake Steamship Bonds" in V. 80, p. 1733.

Alaska Packers' Association.—Exchange of Certificates.-Reserve funds having been transferred to the capital stock account in the amount of \$35 per share to make the outstand. ing shares full paid, the company began on May 1 the issue of the full paid certificates in exchange for those heretofore (\$65) paid, which should be promptly surrendered.

Report.—See p. 1910 of to day's CHRONICLE.—V. 80, p.

473, 999.

American Compound Bearing Co.—Receiver Discharged.—At Newark, N. J., on April 25, Vice-Chancellor Pitney discharged Channey G. Parker as receiver, the affairs of the company having been amicably settled.—V. 80, p. 1176.

American Malting Co.-New Plan Suggested.-Director John G. Jenkins, who is also President of the First National Bank of Brooklyn, has sent a circular to the shareholders suggesting a reorganization on the following lines:

(a) Reduce the capital stock from \$15,000,000 preferred and \$15,000,000 common to \$9,000,000 preferred and \$6,000,000 common.

(b) Make the preferred 6 p. c. non-cumulative.

(c) Exchange the old preferred for 60 p. c. of its par value in new preferred and the old common for 40 p. c. of its par value in new common.—V. So, p. 1480, 1060.

American Smelters' Securities Co.—New Name and Stock Increase Ratified.—The shareholders of the American Smelters Exploration Co., recently organized, voted unanimously on Tuesday to change the name of the corporation to the American Smelters' Securities Co., and the authorized issue of capital stock as follows. (Compare V. 80, p. 1730.)

From .....\$24,500,000 .....22,500.000 \$30,000,000

The Securities Company, it is understood, will control:

The Tacoma (Wash.) Smelting Co., operating lead and copper smelters; the Selby Smelting & Lead Co. of San Francisco, and the Puget Sound Reduction Co., which owns a lead smelter and refinery at Everett on Puget Sound; a contract with the Bunker Hill and Sullivan mines for their entire output of 50,000 tons of pig lead yearly; the Central Smelting Co. of Missouri; a \$3,000.000 copper emeiter now being erected near Salt Lake, Utah; a proposed copper smelter in California to cost \$2,500,000. and two large copper smelters now being built in Mexico. (See American Smelting & Refining Co. in V. 80, p. 1730.)—V. 80, p. 1730.

The friends of the company will say nothing regarding the report that a large, if not a controlling, interest has been or is about to be acquired in the Federal Mining & Smelting Co.-V. 80, p. 1730.

American Window Glass Co.—See American Window Glass Machine Co. below.—V. 79, p. 2644.

American Window Glass Machine Co. - Bonds Authorized. -The stockholders have authorized an issue of \$5,000,000 6% debenture bonds, due \$1,000,000 yearly, beginning Feb. 1, 1908. The bonds, it is said, have been underwritten. A director is quoted as stating that all the plants are running full and that all the factories are being operated with machines. A. E. Braun has succeeded William Loeffler as director.-V. 79, p. 2644.

Associated Merchants' Co.-Listed.-The New York Stock Exchange has listed the first preferred 5 p. c. cumulative stock certificates, with the following provision printed upon them. New engraved certificates will be issued embodying this provision.

For valuable consideration, the receipt whereof is hereby acknowledged, the holder hereof hereby agrees with The Associated Merchants' Co. and its stockholders that whenever the rate of distribution upon the common stock shall exceed 7 p. c. per annum, then for each additional one per cent beyond 7 p. c. in the rate paid on the common stock, the preferred stocks shall be entitled, at their next ensuing dividend date, to additional dividends at the rate of one-haif of one per cent per annum beyond their present fixed rates - V. 20. p. 1721 cent per annum beyond their present fixed rates.-V. 80, p. 1731,

Birmingham Realty Co.—Called Bonds.—Bonds to the following amounts have been called for redemption at the \$1,000,000 to \$10,000,000.-V. 80, p. 1237.

Union Trust Co. of New York on July 1, viz., prior lien bonds, \$67,000; 81-year mortgage bonds, \$38,000.—V. 79, p.

Brooklyn Union Gas Co.—Dividend Reduced.—The directors yesterday declared a quarterly dividend of 2 per cent, payable June 1. This reduces the annual rate to 8 p. c., contrasting with 10 p. c. since June, 1904. From 1896 to Dec., 1900, the rate was 6 p. c. yearly; March, 1901, to March, 1904, 8 p. c. yearly. See report V. 80, p. 1853.

Buffalo & Susquehanna Steamship Co.—See "Lake Steamship Bonds."—V. 80, p. 1733.

Cleveland (0.) Furnace Co.—First Dividend.—An initial dividend of 3 p. c. is announced. V. 75, p. 735.

Consolidated Cotton Dack Co.—Proposed Reorganized Co. -See United States Cotton Duck Corporation below.

Consolidated Gas Co., New York.—Dividend Reduced.— The quarterly dividend, which in November last was increased from 2 to 2½ p. c., was reduced yesterday to the old rate, a distribution of 2 p. c. being declared payable June 15. The previous dividend record follows:

Year....1892 1893 1894-98 1899 1900 1901-03 1904 1905 Total, %. 6 7 8 yearly 5½ 6 8 yearly 8½ Mar., 2½

Extensions:-The New York Edison Co. has filed plans for a three-story and basement power station, to be built on the block bounded by First Ave. and Marginal, 39th and 40th streets, to have a frontage of 1971/2 feet and a depth of 347.2 feet, and to cost \$1,500.000.

Report.—See page 1910 of to-day's CHRONICLE; also V. 80,

p. 1854, 1858.

Danville Bessemer Co.—Plant Sold.—At the Sheriff's sale at Danville, Pa., on April 24 the company's property was bid in for \$56,500 by a Danville syndicate headed by Thomas J. Price, which intends to form a company to operate the shovel works,—V. 80, p. 1481.

Distillers' Securities Corporation.—Called Bonds.—The company has called for redemption at par and interest, at the Mercantile Trust Co., New York, on July 1, all the remaining \$19,000 5 p. c. collateral trust bonds of the Distilling Co. of America.—V, 80, p. 1481.

Dominion Coal Co.--Cver-Subscribed. — Boston advices state that the \$5,000,000 new bonds were one and one-half times, and the \$3,000,000 preferred stock twice, over-subscribed.—V. 80, p. 1732.

Duluth Steamship Co.—See "Lake Steamship Bonds" in V. 80, p. 1733.

Eastern Steamship Co. - Alliance. - See Metropolitan

Steamship Co., below.

New Boat.—The company recently ordered a new steamship, which will be equipped with turbines and ready for service early in 1906; total cost about \$350,000.—V. 80, p. 873.

Erle Canal, New York.—Reconstruction Begun.—Work on the new \$100,000,000 barge canal was begun on April 28 at Fort Miller, Sandy Hill Township.-V. 80, p. 1177, 715.

General Electric Co.—New Director.—T. K. Henderson of New York has been elected a director to succeed George Foster Peabody, resigned.—V. 80, p. 1785, 1726.

Globe Steamship Co.—See "Lake Steamship Bonds" in V. 80, p. 1733.

Great Southern Lumber Co.—Increase of Capital Stock.—A certificate has been filed at Harrisburg, Pa., increasing the authorized issue of capital stock from \$5,000,000 to \$8,000,000 See V. 80, p. 1237.

Houston (Tex.) Oil Co.—Receivers' Certificates.—Judge Burns, amending his previous order (V. 80, p. 1237), has increased from \$235,000 to \$255,000 the amount which the receivers are authorized to borrow to redeem outstanding vendors' liens. The vendors' liens, it is stated, cover 109,269 acres of land, valued at \$218,539 and containing lumber estimated to be worth about \$1,000,000. These receivers' certificates are specifically secured by an assignment of the above cates are specifically secured by an assignment of the above liens and are not a lien on the general assets of the company. -V. 80, p. 1237, 1178.

Hudson River Water Power Co.—Receivership Pending Decision as to Contractor's Claims.—At Saratoga, N. Y., on May 3, Justice Kellogg of the Supreme Court, appointed Chas. H. Peddrick Jr. of Glens Falls receiver for the company on application of the Hudson River Electric Co., an allied corporation holding a mortgage for \$2,000,000, interest on which, it is stated, has not been paid. The receivership was sought, it is said, in order to prevent the execution of the judgment of \$554,680 recently obtained by the National Contracting Co., pending an appeal to have the judgment set aside. company, it is stated, is not insolvent, and its friends wish to protect it until the settlement of the dispute with the contracting company can be reached in the courts.

Mortgage.—Collateral mortgage No. 1, recently made to the Knickerbocker Tinst Co., trustee, secures the guaranty by the Hudson River Water Power Co. of the principal and interest of the 5 p. c. bonds of 1904 of the Hudson River Electric Power Co., anthorized isene \$5,000,000 (V. 78, p. 231, 1277). Press dispatches, possibly in error, also speak of new mort-gages for \$2,000,000 and \$300,000, respectively, as having been made in behalf of the Hudson River Electric Co. (V.78, p.106).

New Stock.—The Hudson River Electric Co. recently filed at Albany a certificate of increase of capital stock from

International Steam Pump Co.—Called Bonds.— One hundred and sixty-nine of the 6 p. c. debentures issued in 1903 by the Blake & Knowles Steam Pump Works will be drawn for redemption on May 15 and paid July 1 at probably the International Trust Co., Boston, at par, viz., \$485 per bond.-V. 79, p. 1026, 210.

Jones & Laughlin Steel Co.- Furchase of Iron Mine. - The company has purchased the Leetonia Mine in the Mesaba region at a price reported as about \$1,500,000. "It is said this purchase marks a new high era in prices paid for Mesaba ore property, the mine having about 10,000,000 tons of ore in eight."

Willis L. King, Vice President; J. B. Langhlin, Treasurer, and W. C. Moreland, Secretary.—V. 76, p. 1088.

Lackawanna Steel Co.-Purchase of Iron Ore Property.-This company has purchased the Brotherton and the Sunday Lake mines in the Mesaba region. The company, it is stated, also controls, through lease, the important Scranton mine at Hibbing.

General Manager Resigns.—George L. Reis, Vice-President and General Manager, resigned on May 1.-V. 80, p. 654, 475.

Metropolitan Steamship Co.-Successor Company .- This company was incorporated at Augusta, Me., on May 3, with \$3,0(0,000 an horized capital stock (par of shares \$100) to take over the Metropolitan Steamship Co. (operating six iron freight steamers between New York and Boston) recently purchased by C. W. Morse & Co., who are largely interested in the Eastern Steamship Co. (Compare V. 30, p. 873). Several new steamers, it is said, will be ordered.

The old Metropolitan Steamship Co. has long paid dividends at the rate of 8 p. c. per annum on its \$500,000 stock. The purchase price was \$300 per share, or at the rate of \$1,500,000 for the entire issue. On May 31, 1904, there were outstanding bills payable \$678.580, and the assets were valued as follows: Union Wharf, property in Boston, \$706,598; steamers and lighters, \$461,333; leases, \$15,092, cash and debts receivable, \$39,812; total, \$1,222,836. A mortgage for \$500,000 was recently made to the Massachusetts Hospital Life Insurance Co. covering the Union Wharf as recently equipped for the accommodation of the company's steamers.

Montreal Light, Heat & Power Co.-Listed in Toronto.-The \$'7,000,000 of common stock has been listed on the Toronto Stock Exchange. A plan to issue \$1,000,000 bonds is said to have been indefinitely deferred.

Offering in London.-The Bank of Montreal recently offered in London, on behalf of the holders, 7,500 shares of \$100 each at £18 8s. per share (92 p. c.).—V. 80, p. 475.

Mt. Vernon-Woodberry Cotton Duck Co.—See United States Cotton Duck Corporation below.—V. 72, p. 1240.

New Orleans Water-Works Co.—Retirement of Bonds.— Judge Theard of the Civil District Court at New Orleans on May 2 authorized G. Ad. Blaffer, the liquidator, to issue not exceeding \$350,000 receivers' certificates with which to retire the bonds and settle the expense of the receivership.—V. 78, p. 1553.

Pacific Mail Steamship Co.— See Panama RR, under "Railroads" above. - V. 80, r. 874.

People's Gas Light & Coke Co., Chicago.—Oity to Vote on Gas Bill,—On Saturday last the Illineis Legislature passed a bill giving the City of Chicago (1) the power to regulate the price of gas, (2) the right to sell to private consumers for heating purposes surplus electricity from municipal electric lighting plants. The new law affects only Chicago and is subject to a referendum to the people which will be voted upon at the autumn election. Friends of the company believe the law is not constitutional and can be successfully fought in the courts.— $\nabla$ . 80, p. 709, 655.

Pittsburgh Coal Co.—Statement to Stock Exchange.—The preferred and common stocks of the Pittsburgh Coal Co. were listed this week on the New York Stock Exchange. The very full statement prepared for the Excharge by President Rob-bins in connection with the listings will be found at length on pages 1919 to 1921.—V. 80, p. 1482, 1427.

Potomac Electric Power Co., Washington, D. C.—Bonds Offered.—Brown Brothers & Co., in offering at 1061/2 and interest a block of the first mortgage gold 5s of 1904 (anthorized \$4,000,000, issued, \$1,700,000), report for calendar year:

Oharges. \$140,372 Net. \$423,514 Bal, sur \$283,142 ......

Procter & Gamble Co.-Reincorporated in Ohio.-This company, heretofore a New Jersey corporation, has been reincorporated under the laws of Ohio with the same capital stock.-V. 80, p. 655.

Pullman Co.-New Officers.-General Counsel J. S. Runnels has been elected Vice-President, to succeed the late E. H. Wickes. George F. Brown, recently General Manager of the manufacturing department, has been made Treasurer and R. Dean General Manager. - V. 79, p. 2083.

Republic Bank Note Co., Pittsburgh .- Organization .-This company has been incorporated under the laws of Pennsylvania, with headquarters at Plttsburgh, to do a general bank-note business, such as the engraving of bank notes, bonds, stocks, and securities generally.

Officers.- F. J. Pope, President; Edward Kneeland, Vice-President; A. L. Chave, Sec. and Treas.; Geo. W. Goldsworthy, Gen. Mgr.; Jno. W. Harrington, New York Representative.

Riverside Bridge Co.—New Stock.—The shareholders voted on April 25 to increase the capital stock from \$200,000 to \$500,000.—V. 80, p. 1238, 874.

Robbins Transportation Co.—See "Lake Steamship Bonds" in V. 80, p. 1733.

San Francisco Gas & Coke Co.—Bonds Authorized.—The shareholders on April 27 formally approved the proposed bond issue for \$2,500,000. Compare V. 80, p. 1238, 1062.

Shelby Iron Co.—Dividends Resumed.—The company has declared a dividend of 5 per cent, payable June 1 to holders of record May 25. Dividends were discontinued in 1903, the last payment having been 5 p.c. on Nov. 16, 1903.—V. 79; p. 274.

(L C.) Smith Transit Co.—See "Lake Steamship Bonds" in V. 80, p. 1733.

Springfield (Mass.) Gas Light Co.—New Stock.—The Massachusetts Gas Light Commission on May 2 anthorized the issue of \$150,000 additional stock at \$200 per share (par \$100), to provide for extensions and additions made subsequent to March 1, 1905. This will make the total stock \$700,000.

Price of Gas.—On July 1 the net price of gas will be reduced to 95c.—V. 80, p. 655.

Superior Steamship Co.—See "Lake Steamship Bonds" in V. 80, p. 1733.

United Copper Co.—Subsidiary Increases Dividend.—The trustees of the Montana Ore Purchasing Co. have declared the regular semi-annual dividend of \$2 a share and an extra dividend of \$2 a share, payable May 15, 1905, to stockholders of record May 2, 1905. The United Copper Co. is understood to own about 95 per cent of the \$2,500,000 outstanding stock. -V. 80, p. 1486.

United States Cotton Duck Corporation.—Reorganization Plan.—A committee consisting of the following:

S. Davies Warfield, Chairman; Douglas H. Thomas, G. Clem Goodrich, Harry A. Orrick, George K. McGraw, S. Sterett McKim, Edward H. Thomson, John E. Borne, A. E. Lehman, Elbert A. Brinckerhoff, H. A. Beasley, Secretary, Baltimore and Calvert ats., Baltimore, Md.; Continental Trust Co., depositary, Baltimore, Md.; Colonial Trust Co., sub-depositary, 222 Broadway, New York City.

has prepared a plan for the reorganization of this company and its ally, the Mt. Vernon-Woodberry Cotton Duck Co. The plan provides for the organization of a new company under the laws of Delaware, to be known as the Consolidated Cotton Duck Co., which will at its inception acquire the securities of both existing corporations, but which is expected eventually to acquire by direct conveyance the legal title to the properties.

The new company will be capitalized as follows:

Leaving in treasury of new company......

Common stock, \$50 shares......\$7,000,000
For income bonds of Mt. Vernon Co......\$1,000,000
For pref. stock of U. S. Cotton Duck Corp... 2,000,000
For com. stock of U. S. Cotton Duck Corp... 4,000,000

The terms of exchange will be as follows:

be as follows:

Amount
Outstanding.

y:\$6,000,000

2,750,000

1,000

727311

400 Holders for Each \$1,000 of Amount
Existing Securities. Outstanding.
Income bonds Mt. Vernon Company:\$6,000,000
Pref stock U. S. Cotton Duck Corp... 2,750,000
Com. stock U. S. Cotton Duck Corp... 10,000,000

In addition to the old stock and bonds provided for as above stated, the companies have outstanding securities (undisturbed), bills payable as of April 1, 1905 (other than current accounts), and net assets as of Dec. 31, 1904, as follows:

1st M. Bonds Underl'g Bills Net Quick Outstanding. Bonds. Payable. Assets.

Mt. Vernon Company....\$7,000,000x \$250,000 \$1,248,000y
U.S. Cotton Duck Corp........... 175,000 None \$983,348

x (\$1,000,000 in treasury pledged for loans) part of a total authorized issue of \$8,000,000.

y Part of this is secured by treasury bonds as collateral.
Capital stock of Mt. Vernon Company, \$9,500,000, of which \$9,031,800 is owned by United States Company.

The plan makes the following statements:

The average net profits of the U.S. Co. for 3½ years ended Dec. 31, 1904 (its entire corporate existence), were \$158,000 per year, after payment of interest on the underlying bonds. Those of the Mt. Vernon Co. for the 3½ years averaged \$145,000 per year after payment of interest on the outstanding first mortgage bonds and on the underlying bonds, and for the entire four years, 1901-1904, about \$38,000 (sic.). We are convinced that satisfactory results can only be obtained if the securities be readjusted on a more conservative basis and the properties and businesses assembled under a common ownership. At present these two companies have separate organizations, ship. At present these two companies have separate organizations, and are subject to increased taxation. It is expected that with a harmonious operation of all the mills the manufacture of the various

harmonious operation of all the mills the manufacture of the various styles of goods can be concentrated and segregated at the various mills, thus enabling the company to produce better goods at a lower price, as certain mills are equipped to make a specialty of given fabrics and have the advantage of location in marketing them.

The mills of the Mt. Vernon Co. are 14 in number, located principally in the neighborhood of Baltimore, with mills in Alabama, Sonth Carolina and Connecticut. They include valuable brands, notably the "Mt. Vernon" and "Woodberry" During the early period their profits were unusually large, presumably due to the Spanish Am. War. The U. S. Co. owns substantially all the capital stock of the Mt. Vernon Co., also the Stark Mills with the well established Stark brand, and two smaller uits in the Sonth, su'ject only to underlying bonds on the two Southern mills, amounting to \$175,000. We are advised that the three mills of this company are conservatively worth, exclusive of the \$175,000 bonds, \$2,200,000; in addition to which the company has approximately \$983,000 of quick assets.

Upon a consolidation of the two companies, it is believed that the liquid assets in the treasury of the U. S. Co. will furnish sufficient working capital for both companies.

Assenting stock and incomes should be deposited not later

Assenting stock and incomes should be deposited not later than May 29. Compare V. 80, p. 874.

# Reports and Documents.

### NATIONAL RAILROAD COMPANY OF MEXICO.

THIRD ANNUAL REPORT-FOR THE YEAR ENDED DECEMBER 31, 1904.

NEW YORK OFFICE: No 30 PINE STREET. MEXICO OFFICE: PASEO DE LA REFORMA.

March 14, 1905.

To the Stockholders-

The Board of Directors begs to submit the following report for the year ended December 31, 1904:

		1	لانظمللك	AGE.	
NE A	TAT	TINE	ANTO	BBA	NCHI

MAIN LINE AND BRANCHE	DS.

Increase	134.017

#### EARNINGS AND EXPENSES. Gross earnings

The gross earnings from all sources for the year have been (Mexican)	\$11,569,247.50
The total expenses of operation have been (Mexican)	7,704,671.52
Net earnings	\$3,864,575.98
(gold)	1,786,883.92
As compared with the preceding year the Gross revenues of your company have increased	9995 990 C9

(Mexican)	\$225,228.62
Expenses have increased (Mexican)	70,082.48
Net earnings have increased (Mexican)	155,146.14
The increase in gross earnings is gratifying, especia	ally as the
earnings in 1903 included \$1,082,808.64, earnings on	construc-
1	

tion freight, as against \$444,637.98 in 1904. Eliminating construction earnings, we have an actual increase in commercial business of \$863,399.28 or 8.41 per cent. As compared with the previous year,

_	-	•		Dor	Cent.
				Ter	Cerre
Freight earnings from	i commercial	sources	increased.		5.92
Passenger earnings in	ncreased				26.19
Baggage earnings inc	reasea				24.06
Express earnings inc					
While					
Mail earnings decrea	has				12 99
Man carinings decrea	bed	• • • • • • • • •			10.00
Telegraph earnings	decreased				13.72
Miscellaneous earning					
222000000000000000000000000000000000000	, a der earle				

The percentages of these various sources of revenue to the total gross earnings during 1903 and 1904, were:

	Per Cent.	Per Cent.
	1903.	1904.
Commercial freight	. 67.27	69.87
Construction freight	. 9.54	3.84
Passenger	. 14.47	17.90
Baggage	. 0.18	0.21
Express	. 4.35	5.18
Mail	. 0.14	0.12
Telegraph	. 0.14	0.12
Miscellaneous	. 3.91	2.76
Total	. 100.00	100.00

A comparison of the commercial freight tonnage moved for the years 1903 and 1904 results as follows:

The state of the s	re v	
	Per Cent.	Per Cent.
	1903.	1904.
Forest products	. 17.22	18.26
Agricultural products	. 18.52	21.78
Live stock and animal products	. 2.39	2.17
Mineral products	. 49.73	46.77
General merchandise	. 12.14	11.02
Total	. 100.00	100.00

The following statement shows the growth of commercial traffic on your property since its organization in 1902:

	1902.	1903.	1904.
Earnings—	Mexican.	Mexican.	Mexican.
Freight, ordinary	\$6,278,767.31	\$7,630,731,10	\$8,082,795.40
Freight, construction	783,399.36	1,082,808,64	444,637.98
Passenger	1,517,442,12	1,641,019.45	2,070,760.79
Baggage		19,982.07	24,790,60
Express		493,300,46	599,676.62
Mail	17,467,75	16,304.89	14.035.46
Telegraph	12,564.62	15,864.87	13,688.78
Miscellaneous		444,007.40	318,861.87
_			3=1,001.01

Total earnings.... \$9,262,859.61 \$11,344,018.88 \$11,569,247.50 The amounts expended in its operation during the same period

Expenses—	1902. Mexican.	1903. Mexican.	1904. Mexican.
Maintenance of way and structures Maintenance of equip-	\$723,088.22	\$930,787.89	\$962,732.60
ment Conducting transporta-	946,528.80	1,157,096.38	1,198,844.81
tion General	3,975,686.70 403,380.35	5,054,368.64 492,336.13	5,015,025.68 528,068.43
Total expenses	\$6,048,684.07	\$7,634,589.04	\$7,704,671.52
Leaving net earnings	\$3,214,175.54	\$3.709,429.84	\$3,864,575.98

#### OPERATING EXPENSES.

The current repairs and renewals necessary to the proper maintenance of the physical condition of your property have received due attention.

The cost of operating the property shows a slight decrease in percentage as compared with 1903.

The comparative percentages of the sub-accounts are as follows:

	1903.	1904.
	Per Cent.	Per Cent.
Maintenance of way	. 12.19	12.49
Maintenance of equipment	. 15.16	15.56
Conducting transportation	. 66.20	65.09
General expenses	. 6.45	6.86
Total	100.00	100.00

The high cost of fuel when delivered your lines accounts for the apparently high percentage of conducting transportation expenses, this item representing fifty per cent. of total amount of the expenses of conducting transportation. Arrangements are now being made, however, to furnish this company from the mines of the Coahuila Coal Company with all the coal which may be necessary for the operation of its lines, and the resultant lessening of the cost of fuel should materially decrease the percentage of conducting transportation to the total operating expenses.

For details of operating expenses see Statement No. 8.

### COMPARATIVE STATEMENT OF OPERATIONS.

Your attention is invited to the statements of accounts prepared by the Comptroller and included in this report, showing in detail the results for the year, as well as the financial condition of the property. The balance sheet, income account and net revenue account have been examined by Messrs. Price, Waterhouse & Co., of London and New York, whose certificate is appended thereto.

Briefly summarized and compared with 1903, they show as

follows:

Į		Mexican.		Mexican.		Inc. or
	Gross earnings	1903. 311,344,018	88	1904. \$11,569,247	50	Dec. % *1.98

\*Increase, †Decrease.

An additional issue of \$1,191,000 of First Consolidated Mortgage Four Per Cent. Bonds has been authorized to reimburse expenditures made for account of:

Purchase of Vanegas, Cedral y Matehuala Railroad; Purchase of Salamanca al Jaral Railroad; Construction of branch from San Juan de la Vega to Salamanca; Construction of line from San Luis de la Paz to Pozos, and Additions and betterments as per list shown under that heading.

Miles.

Of these bonds \$302,500, issued in respect of the Vanegas, Cedral y Matchuala Railroad, are pledged under the Trust Agreement securing the Five Per Cent. Gold Notes.

#### CHANGE OF GAUGE.

The accounts pertaining to the change of gauge of the main line and the construction of the El Salto cut-off, have been closed, and the amounts transferred into the account "Cost of Property," as follows:

	G010.
Change of gauge proper	
Improvements on main line (strengthening bridges,	
building tunnels, etc)	452.161.90
Construction of El Salto extension	
New equipment	2.691.152.19
Change of equipment	193,778.96

From which deduct amounts received from sale of salvage 

Some additional credits will yet be made to "Cost of Property" account of this work from sale of salvage still on hand.

#### ADDITIONS AND BETTERMENTS.

Statement No. 7 of last year's report showed amounts expended to December 31, 1903, on additions, betterments and improvements corresponding to the open account carried on the general balance sheet. Said list comprised work then completed as well as in progress.

To reimburse the Company for the outlays on this source up to May 31, 1904, the issue of Consolidated Mortgage Bonds has been authorized as stated above covering the following items, which, as will be noted, includes certain of the work shown on the statement referred to above, as well as several new additions.

*	Mexican Cy	. U. S. Cy.
Additional well, San Luis	. \$4,045,75	\$1.881.74
Am. Furn. Co. sidetrack, Colonia	. 1,510.72	702.66

Spur track, Kilo. 2½	. 1.008.76	469.19
Uruapan packing house track	. 10,800.93	5,023.68

\$713,071.00 \$331,660.93

Following out the policy of gradually improving your properly, certain additional betterment work has been authorized, and statement No. 5 shows amounts expended thereon to December 31, 1904.

In changing the gauge of the main line one half of the narrow gauge ties were left in the track on the curves, and twothirds on the tangents. Since the change of gauge and in the ordinary course of renewals all of the short ties have been removed from the curves and a large number from the tangents, the charge for which has been made to operating expenses. On December 31, 1904, there still remained in the track some 930,000 of these short ties, and, under normal conditions, these would be removed by renewals during the next four years. Experience, however, with the use of our heavy rolling stock, demonstrates the desirability of removing these short ties as soon as practicable, in order that additional bearing surface may be given the rails, and arrangements have been made to replace all of these ties in the course of the next two years.

The necessity for additional permanent ballast in the main line has also developed, and steps to that end have been taken. looking to the completion of the work within a period of five years.

### NEW LINES.

The change of the gauge of the Vanegas, Cedral y Matchuala Railroad, referred to in last report, was completed on March

The connecting link between the main line and the Salamanca al Jaral road, mentioned in the last report, was completed and opened for service on July 1, 1904. In place of building from Gonzalez, it was found more advantageous from en engineering, as well as from an operating standpoint, to run the line from San Juan de la Vega (5.4 kilometers south ci Gonzalez on the narrow-gauge line), to Salamanca, a distince of 45.047 kilometers, or 27.991 miles. The construction of this new line presented no special features calling for particular mention.

A third rail has been laid between San Juan de la Vega and Gonzalez, thus affording service for both standard-gauge and

narrow-gauge equipment.

For more economical operation, your Board has authorized the changing of the gauge on the San Luis de la Paz y Pozos Branch, which work is now in progress, and it is expected will be completed in the course of the next two or three months. With the completion of this change, all branches connecting with that portion of the main line between Conzalez and Laredo will be standard gauge.

The second of th	en Monterey and Matamoros is rapidly a	n n -
Drogening completion. The following details are given.	ion. The following details are given:	D.

Monterey to the junction point with the old narrow-gauge line near San Miguel de las Cuevas.  Length of narrow-gauge line, Matamoros to junction	130.546
near San Miguel de las Cuevas, in the act of being changed to standard gauge	73.778
Total, main lineLength of permanent side tracks, new line	204.324 5.172

Length of new line from junction of main line near

Weight of rails used in construction:

In Main Line. Miles. 49.310 28.967 In Sidings. Miles. 0.480 0.714 45 lb. 40 lb. 3.978

130.546 5.172

that date.

The junction point is 2.367 kilometers east of the old station of San Miguel de las Cuevas.

With the exception of the bridges over the rivers Pesqueria and San Juan, and over the Arroyo Lobos, the new work was

light in character, and offered no serious difficulties in construction. Serious delays, however, were experienced, first, by reason of the scarcity of labor; and second, the altogether exceptional rainy season:

These bridges are:

Pesqueria—Kilo. 69.527 from junction of main line; 360 feet in length (consisting of two spans of 100 feet each, and one span of 160 feet); 60 feet in height, spanning the river

San Juan—Kilo. 132.927 from junction of main line; 425 feet in length, two spans 125 feet each, and one span of 175 feet; 65 feet in height, spanning the San Juan River.

Arroyo Lobos—Kilo. 151.327 from junction of main line. One span 153 feet; 55 feet in height.

All bridges are of masonry and steel of a substantial nature; all station houses and section houses of stone, and, in gencral, the work may be considered as of a superior character.

To December 31, 1904, we have expended \$2,854.382.66 Mexican Currency on the new work and \$22,796.09 Mexican Currency on the change of gauge.

Under the concession granted by the Mexican Government, your Company is entitled, on completion and acceptance of the work, to a subsidy of \$2,000.000, of Five Per Cent. Silver Bonds.

### IN GENERAL.

### EMPLOYES.

The number of employes in your service at December 31, 1904, was 8.250, made up:

ment on hand at December 31, 1904, are appended. (See pamphlet report.) NEW TRACK, HUEHUETOCA TO GONZALEZ.

Notwithstanding the severe strain put upon the new line from Huchuetoča to Gonzalez by reason of the exceptionally heavy rainy season, but little trouble was experienced in its successful operation.

MEXICAN TRAFFIC ASSOCIATION. Notice having been served by one of the lines party to the agreement entered into on December 17, 1898, of its intention to withdraw therefrom, a new agreement has been reached which became effective January 1, 1905.

WORKING ARRANGEMENT WITH INTERNATIONAL AND INTEROCEANIC ROADS.
In the direction of more efficient and economical operation, steps have been taken to consolidate such of the departments as could profitably be combined, and the expenses of these departments have been prorated among the three lines.

MONETARY REFORM.
On November 18, 1904, a bill was sent to the Mexican Congress by the Minister of Finance dealing with monetary reform and aiming at imparting a fixed value to the Mexican silver dollar, and the bill having received the approval of Congress the President of the Republic, under date of December 9, 1904, remitted the bill to the Treasury Department that the necessary consideration and action might be taken to make the law effective. Since the bill was promulgated, the rate of exchange on New York has ranged around 202. That your Company will benefit from this measure is apparent, as apart from the advantages your property will reap from greater purchasing power in the payment of supplies purchased abroad and in remittances for account of interest, your company may also reasonably expect its share of the increased traffic of the country which is confidently expected to follow the establishment of the currency on a more stable basis.

The Board records with deep regret the death of one of its members, Señor Doctor Juan N. Navarro, which occurred on September 24, 1904. Señor Don Cayetano Romero was elected By order of the Board. to fill the vacancy.

E. N. BROWN, President.

### PITTSBURGH COAL COMPANY (OF NEW JERSEY).

OFFICIAL STATEMENT TO THE NEW YORK STOCK EXCHANGE IN CONNECTION WITH THE LISTING OF THE CUMULATIVE PREFERRED STOCK AND COMMON STOCK.

PITTSBURGH, PA., APRIL 17, 1905.

Application is made to the Committee on Stock List of the New York Exchange to list the stock of the Pittsburg Coal Company (of New Jersey) as follows: \$29,423,700 Seven Per Cent. Cumulative Preferred (294,237 shares); \$28,709,600 Common (287,096 shares). The Company's total authorized issue of stocks is \$32,000,000 Seven Per Cent. Cumulative Preferred and \$32,000,000 Common, par value \$100 each.

The Preferred Stock is preferred as to dividends only at the rate of Seven Per Cent. per annum cumulative; has no preference as to distribution of assets in case of liquidation; it has equal voting power with the Common Stock. Dividends have been paid quarterly on the Preferred Stock on the 25th days of January, April, July and October since the organization of the Company. No dividends have as yet been paid on

The Pittsburgh Coal Company was incorporated under the laws of the State of New Jersey on August 31, 1899, and began business on September 1, 1899, at the time taking over through stock ownership and directly by deed or bill of sale to the Pennsylvania Mining Company (now Pittsburgh Coal Company of Pennsylvania), the mines, plants, machinery, equipments and real and personal property of 103 individuals, partnerships and corporations engaged in mining and marketing "Pittsburgh" bituminous coal (i.e. the upper vein of the coal fields of Allerbeau ous coal (i. e., the upper vein of the coal fields of Allegheny, Washington, Fayette and Westmoreland Counties, Pa.), for shipment by rail. The Company owns all the Capital Stock of the Pittsburgh Coal Company of Pennsylvania, to-wit: \$50,-

The properties acquired by the Company at its organization were conveyed free and clear of incumbrance, except that in several cases by reason of bonds and mortgages not yet due at time of sale, cash deductions of equivalent amounts were made in settlement with vendors and the funds were turned over to the Company, in addition to working capital of \$2,500,-000 hereinafter mentioned, for use in meeting said obligations at maturity. In payment for the properties acquired and for a working capital of \$2,500,000 cash, the Company issued \$32,000,000 (320,000 shares) Preferred Stock, and \$32,000,000 (320,000 shares) Common Stock, fully paid and non-assessable. Since such issuance the Company has acquired and there is now held in its treasury \$2,576,300 Preferred Stock and \$3,290,400 Common Stock. (The amount of Common Stock in the treasury has been increased 15 shares since date of Balance Sheet given herewith.)

Since the organization of the Company it has through its Constituent Companies acquired additional coal lands and mine equipments in the Pittsburgh District and the Hocking District of Ohio, and docks and yards on the Great Lakes; it also acquired in November, 1903, a controlling interest in the Capital Stock of The Monongahela River Consolidated Coal & Coke Company, a Pennsylvania corporation which was organized at about the same time as the Pittsburgh Coal Company, acquiring at that time practically all the mines in the Pittsburgh District which were equipped and operated for shipment by Monongahela, Ohio and Mississippi Rivers.

The expenditures for the new properties, including the stock of The Monongahela River Consolidated Coal & Coke Company, were about \$41,000,000; these (in excess of the amounts paid out of the Company's undivided earnings and sinking funds) were funded on January 1, 1904, by the issue of \$25,000,000 First Mortgage Fifty-year Five Per Cent. Sinking Fund Gold Coupon and Registered Bonds, due January 1, 1954 (the Union Trust Company of Pittsburgh being Trustee for the bond-holders), issued by the Pittsburgh Coal Company of Pennsylvania and guaranteed by the Pittsburg Coal Company of New Jersey. Under the sinking fund provisions of said Mortgage, five cents for each ton of 2,000 lbs. of Run of Mine coal taken from the mortgaged premises (and in no case less than \$600.000 per annum) is deposited with the Trustee semi-annually for the retirement of bonds at not exceeding 110 and accrued interest. The entire issue, or any part of it, may be retired at 110 and accrued interest on any interest-paying date, namely: January 1 and July 1 each year, if the mortgagor 30 elects. This Mortgage is a lien on all the coal and surface lands owned by the Pittsburgh Coal Company of Pennsylvania, aggregating about 160,000 acres of coal and about 13,000 acres of surface; and also assigns and transfers to the Trustee all of the stocks of Constituent Companies owned by the Pittsburgh Coal Company of Pennsylvania, as follows:

25,000 shares of the aggregate par value of \$2,500,000 of the Capital Stock of The New Pittsburgh Coal Company, a corporation of the State of Ohio, being all of the Capital Stock of said

company.
20.000 shares of the aggregate par value of \$1,000,000 of the Capital Stock of the New York & Cleveland Cas Coal Company, a corporation of the State of Pennsylvania, being all of the Capital Stock of said company.

Balance Sheets and Statements of Earnings and tonnage of

The Monongahela River Consolidated Coal & Coke Company will be found published with those of the Pittsburgh Coal Company in Schedules "E" and "F."

Map showing coal lands in Pittsburgs District owned in fee by Pittsburgh Coal Company and the Monougahela River Con-

solidated Coal & Coke Company is filed herewith.

In accordance with action of Executive Committee of the Board of Directors, taken May 4, 1905, the following agreement was made by the Company with the New York Stock

Pittsburgh, Pa., May 4, 1905.

Whereas, The Pittsburgh Coal Company of New Jersey is about to apply to the New York Stock Exchange to list its outstanding Capital Stock; and

Whereas, The Pittsburgh Coal Company (of New Jersey) now owns and holds in its treasury \$2,576,300, (par value) of its Preferred Stock, and \$3,290,400 (par value) of its Common Stock;

Now, therefore, This agreement witnesseth as follows:

That, in consideration of the listing of said Capital Stock on said Exchange, the Pittsburgh Coal Company (of New Jersey) agrees that it will not purchase any additional shares of its own Capital Stocks, except for cancellation and retirement, nor will it dispose of the shares now owned and held in its treasury, as above stated, except for the acquisition of new property, or additional working capital. If the herein mentioned treasury stock, or any part of it, be so disposed of by the Company, application in due form will be made to the New York Stock Exchange for the listing of the stock so disposed of.

It is further agreed, that the Company will not sell any stocks of other Companies which it may now own or subsequently acquire until it is authorized so to do by a vote of the Stockholders of the Pittsburgh Coal Company (of New Jersey).

This Committee on Stock Lists recommends that the above-described \$29,423,700 Preferred Stock and \$28,709,600 Common Stock be admitted to the list.

Adopted by the Governing Committee May 10, 1905.

### KANSAS CITY SOUTHERN RAILWAY COMPANY.

#### RECORD SINCE REORGANIZATION—CIRCULAR BY MANAGEMENT.

NEW YORK, May 11th, 1905.

To the Stockholders of

The Kansas City Southern Railway Company:

In view of the adjourned annual meeting of the stockholders of your Company, to be held at Kansas City on May 17, 1905, the Board of Directors deem it proper to submit a statement of the operations of the property from the beginning of the present fiscal year, July 1, 1904, to March 31, 1905, as follows:

Average miles of road operated	1905. 838.97	1904. 838.97	Increase.
Gross transportation receipts	\$4,972,318.50	\$4,945,111.08	\$27,207.42
taxes	3,520,509.70	3,553,043.34	†32,533.64
Receipts over operat- ing exp. and taxes Other receipts	\$1,451,808.80 77,028.83	\$1,392,067.74 57,565.05	\$59,741.06 19,463.78
Total receipts		\$1,449,632.79 718,221.00	\$79,204.84 †798.44
Balance, surplus Betterments and addi-	\$811,415.07	\$731,411.79	\$80,003.28
tions	226,104.91	275,324.47	†49,219.56
Balance, surplus †Decrease.	\$585,310.16	\$456,087.32	<b>\$129,222.</b> 84

The receipts and disbursements of the Company from April 1st, 1900, the date on which the property was turned over to the present owners, to March 31st, 1905, covering practically the entire period of the Voting Trust, were as follows:

### RECEIPTS.

1.	Receipts from Reorganization Committee: (a) Cash and cash items	.\$2,734,011.69
2.	(b) Proceeds from sale of \$3,802,000, face value, Three Per Cent. Bonds sold in December, 1901, and January, 1902  Proceeds from sale of securities received from Arkansas Construction Co. in settlement of that company's claims, etc.:  \$754,000 Three Per Cent. Bonds	
	sold in September, 1903) \$619,200 face value Preferred Stock sold in December, 1904 \$1,230,000 face value Common Stock sold in December, 1904 \$219,000 face value Common Stock	
	sold in January, 1905 63,673.25	3,756,784.50
ð.	Net profits from operation of the Railway, viz.: Gross transportation and miscellaneous receipts	
	fixed charges	3,203,171.02
	Total receipts	\$9,693,967.21

Total receipts	\$9,693,967.21
Disbursemen'ts.	
Payments by Railway Company for car trusts, receivers' certificates and other liabilities, and expenses in connection with the reorganization of the Company (in addition to the payments made by the Reorganization Committee under modified plan for reorganization).  Surveying, engineering and other expenses incurred in acquisition of property.  Payments for betterments and additions to roadway and structures and for new equipment.  Advances to Port Arthur Canal & Dock Co., Arkansas Western Ry. Co. and for increase in current assets	\$3,249,468.42 110,865.97 5,459,269.47
Total dishursements	\$9.602.967.21

From the above statement it will be seen that the cash received from the Reorganization Committee did not provide by \$515,456.73 for the payments made by the Railway Company for car trusts, receivers' certificates and other liabilities and expenses necessary to be paid in connection with the reorganization of the Company. The Reorganization Committee also did not provide the eash working capital for the operation of the property, contemplated under the plan of purchase, which sum, as well as the deficiency of \$515,456.73, had to be provided by the Railway Company.

The securities reserved under the plan of Reorganization for future needs, together with those received in the settlement with the Arkansas Construction Co., etc., were sold from time to time to meet the Company's requirements in the payment for new equipment (mainly contracted for during the receivership), and for improvements and additions to the property.

The credit of the Company has been supported by the Chairman and members of the Executive Committee who were charged with its financial arrangements, enabling the Company to negotiate its loans at rates of interest as low as or lower than were at the same time being paid by other companies of long established credit. The Chairman used his personal credit in securing funds for the Company's needs at times when they could not readily have been obtained elsewhere on as favorable terms.

Commissions have not been paid for the negotiation of loans by the Company; the rate of interest on loans ranged from 4 per cent. to 6 per cent. per annum, the latter rate never having been exceeded even in times of great monetary stringency, and even though in many cases loans were obtained without collateral security.

The Voting Trustees have accepted no compensation for their services. The compensation of the Chairman of the Executive Committee was not accepted by him until the results from operations had reached what promised to be a permanent basis warranting the same.

Annual reports for each of the fiscal years during which the Trustees have been in charge, have been submitted to the stockholders by the Board of Directors. The resources of the property have been aggressively and successfully developed. The policy of the management as originally inaugurated and consistently pursued has been approved by the results obtained. The results of operations for the nine months ending March 31, 1905, show an increase of \$1,895,759.99 or 61.62 per cent. in gross receipts, and \$942,481.79 or 150.66 per cent. in net earnings over the earnings on practically the same mileage of operated road during the nine months ending March 31, 1900, the last nine months of operations prior to the present owners assuming charge of the property.

The election of Directors, under the by-laws, should have taken place at the annual meeting of the stockholders held at Kansas City on Tuesday, the 14th of March. In view, however, of the short time to elapse between that date and the date of the expiration of the Voting Trust, on April 2, 1905, the Trustees decided to adjourn such annual meeting and postpone the election of the Board of Directors until some convenient date, by which time the holders of the Trustees' certificates who desired to do so could have the same exchanged for the stock certificates of the Railway Company, and participate in the election. The meet was therefore adjourned until May 17, 1905.

Approved by the Board of Directors.

ALEXANDER MILLAR.

Secretary.

United Shoe Machinery Co.—Earnings and Surplus.—The "Beston News Bureau" gives the following official figures for the years ending March 1:

1904-05. 1903-04. 1902-03. Net earnings.......\$3,035,352 \$2,802,792 \$2,722,331 Earned on come stock. (22.7 p. c) (20.5 p. c.) (19.8 p. c.) 1901-02. \$2,606,872 (18.7 p. c.) Dividends paid—
On common, 8 p. c... \$357,648
On preferred, 6 p. c.. 596,190 \$857,648 596,190 \$857,648 596,190 \$857,644 596,190

Balance, surplus. \$1,584,514 \$1,348,954 \$1,268,493 \$1,153,038 Total surp. end year.. \$6,710,000 \$5,126,399 \$3,777,445 \$2,508,952

The policy of the new company, it is said, will be to declare extra dividends on the enlarged common stock when earnings warrant it. See V. 80, p. 1862.

United States Steel Corporation.—Called Bonds.—Ninetyfive (\$95,000) bonds of the Ohio Steel Co. have been drawn by lot for redemption on June 1, 1905, and principal and interest will be paid at the Dollar Savings & Trust Co., Youngstown, Ohio, on that date.—V. 80, p. 1738, 1725.

United States Telephone & Telegraph Co., Waterloo, Ia. —Sold.—This company's property was sold at auction on April 20 under order of the United States Court to Thomas Cascaden of Waterloo for \$55,000. The property is said to include over 1,500 miles of telephone wire in fourteen counties in Northeastern Iowa.—V. 79, p. 2700.

Railways under Railroads above.

West Penn Electric Co.—See West Penn Railways under Railroads above. - V. 80, p. 1239.

-A selected list of choice investment bonds is offered investors by T. A. McIntyre & Co. by advertisement in this issue. Among the larger amounts mentioned in the list are \$500,000 C. R. I. & P. 1st and refunding 4s, offered at a price to yield 4'20 per cent, a similar amount of Southern Pacific RR.

1st refunding 4s to yield 4½ per cent and Clairton Steel 1st
5s to yield 4¾ per cent Several other railroad mortgages
and a block of Newark Passenger 1st consols gold 5s are also
included. The firm's bond department has been moved to more roomy quarters in new offices just added to those in use, giving that department increased facilities and conveniences. The usual descriptive circulars and detailed information can be had from H. C. Wright, in charge.

-Messrs. Courtlandt Babcock & Co. of 44 Pine Street, this city, are offering at par and interest \$820,000 5 per cent cash bonds issued by the Banco Central Mexicano (Bank of Central Mexico, City of Mexico), in lieu of circulation. The bonds are payable in U. S. gold coin within two years, and are a first lieu on the assets of the bank, prior to shareholders or apposition, and a constitution of the bank of the or depositors; second only to Government or municipal deposits. The bank has now a capital of \$10,000,000, but it is proposed to increase it to \$20,000,000 at a stockholders' mesting to be held on May 24 next. Deposits on Dec. 31, 1904, were over \$14,000,000.

The banking and brokerage house of Marshall, Spader & Co. will open a branch office in Chicago at No. 216 LaSalle Street, a part of the suite just vacated by Tracy & Co., who have removed to the ground floor of the First National Bank Building. Prince Nicholas W. Engalitcheff will be man-ager of Marshall, Spader & Co.'s Chicago office. He has had much practical experience in the brokerage business, and has high social standing.

—Attention is called to the offering by I. F. Megargel & Co., Scranton, Pa., of \$10,000 Beech Creek Coal & Coke Co. first mortgage 5 per cent bonds. Particulars regarding the issue will be found to the advertisement on an office times the which it will be noted that the earnings are five times the interest requirement. See also CHRONICLE April 8, p. 1364. The bonds are offered at  $97\frac{1}{2}$  and interest.

-Dann & Robinson, Marine National Bank Building, Buffalo, have issued a convenient pamphlet for reference concerning the stocks and bonds of various local and miscellansous corporations dealt in on the Buffalo market. The firm has exclusive wire to Dann & Robinson, Trinity Building, 111 Broadway, New York.

-The firm of Cochran, Duryea & Co., bankers and brokers, has been succeeded by Duryea & Co., 20 and 22 Broad Street. The partners in the new firm are: Frank W. Duryea (member New York Stock Exchange), Harry H. Duryea and Chas. 8. Gaubert.

-F. J. Lisman & Co. offer at par and interest 1,000 shares Detroit & Mackinac Railway 5 per cent preferred stock. Interesting details as to earnings, dividends, tax-exempt features, etc., are contained in the advertisement on page viii.

-Rhoades & Co., dealers in investment bonds, 7 Wall St., have issued a circular offering for sale, at prices to yield from 3.45 to 41/8 p. c., blocks of bonds of some sixteen particularly choice issues.

-On Monday of this week Messrs. W. R. Holligan & Co. took possession of their handsome quarters in the new Trinity Building, 111 Broadway. The firm's Chicago office is No. 15

-To day Messrs. Mackay & Co. are removing to the old banking rooms so long occupied by Vermilye & Co. at 16 Nassau Street, cor. Pine. Extensive improvements have been

# The Commercial

### COMMERCIAL EPITOME.

FRIDAY NIGHT, May 12, 1905. Seasonable activity has been experienced in most lines of merchandise. Jobbers and dealers have reported the retail trade taking supplies with a reasonable show of freedom, and they, in turn, have been calling for fairly full deliveries on their outstanding contracts with manufacturers. Reports from the iron trade show that for the first time since last summer the production of pig iron is in excess of the consumption, and there has been a slight yielding of prices. In many lines of trade, however, prices have been well maintained, with light stocks reported in both consumers' and producers' hands. The monthly report of the Government's Agricultural Bureau showed promising prospects for

a good yield for the winter-wheat crop.

Lard on the spot has met with only a limited demand, but offerings have been light and prices have been advanced slightly. The close was steady at 7.253, for prime Western and 6 50c, for prime City. The demand for refined lard has continued light, but prices have been steadier with the raw product, closing at 7.50c, for refined for the Continent. Speculation in lard for future delivery has been moderately at the lation in lard for future delivery has been moderately active, and on light receipts of swine and baying by packers, prices have advanced. The close was steady.

have advanced. The close was steady.

Pork has had only a small sale but prices have been steady, closing at \$13 12½@13 62½ for mess, \$18@15 for family and \$14 50@15 for short clear. Cut meats have had a slightly better sale, particularly pickled bellies. The close was steady at 5½@6c. for pickled shoulders, 9½@10½c. for pickled hams and 7½@8c, for pickled bellies, 16@10 lbs. average. Beef has been in light supply, firm and higher, closing at \$10 50@11 50 for mess, \$12@13 for packet, \$18@14 for family and \$21@23 for extra India mess in tcs. Tallow for family and \$21@23 for extra India mess in tes. Tallow has been quiet and slightly easier, closing at 4½@15%2. Stearines have been quiet, closing at 8@8½c. for lard stearine and 8@8½c. for oleo stearine. Cotton-seed oil has been in good demand and firmer, closing at 27½c. for prime yellow. Butter has had a good sale at firm prices, closing at 21@27c. for creamery. Cheese has been in steady demand, closing at 10¼@14¼c. for old and 11½@13c. for new State factory, full cream. Fresh eggs have been in fair demand and find for choice grades, closing at 18¼@18½c. for best Western.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

Tues. Wed. Thurs. Fri.
7:15 7:17½ 7:20 7:20
7:30 7:35 7:37½ 7:85

Brazil grades of coffee have continued in brisk demand and there has been an unusually free movement of supplies into the hands of consumers. Prices have advanced slightly. The close was easier at 8c. for Rio No. 7 and 85% c. for Santos No. 4. West India growths have been in more active de mand and at firm prices, closing at 9½c. for good Cucuta and 10¾@11½c. for good average Bogota. Speculation in the market or contracts has been moderately active. Early in the water on the improved trade demand, and degrating in the week, on the improved trade demand and decreasing stocks, prices advanced. Subsequently, however, reflecting weaker European advices and liquidation, the market turned easier. The close was easier under selling by speculative holders. The following were the closing asked prices:

Raw sugars were steadier early in the week but closed easier, reflecting weaker advices from Europe, with centrifugals 96-deg. tes: at 47-16c. and muscovado 89-deg. test at 818-16c. Refined sugar has been quiet and list prices have been lowered 30 points, to 5.75c. for granulated. Teas

have been quiet. Rice has been sparingly offered and firm.
Kentucky tobacco has been firmly held, and the moderate
volume of business transacted has been at full values. Seedleaf tobacco has been in steady demand, but no sales of important quantities have been reported. The trade is now waiting for the 1904 crop, which is going through the process of fermentation. Sumatra tobacco has continued to meet with a good sale at full values. Havana tobacco has been quiet.

An unsettled market has been experienced for Straits tin The close was slightly lower in response to weaker foreign advices, with prices quoted at 29.70@39.93c. Ingot copper has been in fair demand for June shipment, closing at 15@ 151/4c. for Lake and 15.05@15.10c. for electrolytic. Lead has been quiet but steady at 4.50@4.60c. Speiter has weakened slightly, closing at 5.60@5.70c. Pig iron has been reported soid at slightly lower prices; quotations were unchanged at \$16.75@17.25 for No. 2 Northern, and \$16.75@17.25 for No. 2

Southern.

Refined petroleum has been in fairly active demand, closing at 6.95c. in bbls., 9.65c. in cases and 4.05c. in bulk. Naphtha has been steady at 12c. for 71 degrees and 12c. for 76 degrees. Credit balances have been unchanged, closing at 1'293. Spirits threentine has been in fair demand and higher, closing firm at 64@64½2. for machine bbls. Rosins have been in fair demand at advancing prices, closing with sales at \$3 47½ for common and good strained. Wool has been in moderate demand and firm the sales. moderate demand and firm, Hops have been dull but

### COTTON.

FRIDAY NIGHT, May 12, 1905,

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 148,575 bales, against 164,209 bales last week and 163,326 bales the previous week, making the total receipts since the 1st of Sept., 1904, 8,690,592 bales, against 6,927,627 bales for the same period of 1908-4, showing an increase since Sep.1, 1904, of 1,762,965 bales.

Total 1903	6,193	1,680		15,552			273,067

Speculation in cotton for future delivery has been moderately active and the tendency of prices has been towards a higher basis. Prominent interests have given their support to the market, being fair buyers, but the speculative public has done comparatively little. The basis of the upturn to prices has been the unsatisfactory weather conditions over a considerable area of the cotton belt, particularly the Western section, where continued wet weather is delaying planting and making a late season. The movement of the crop has continued large for the season of the year, but there has been a fairly good demand for the actual cotton, it being believed by many that the forward engagements of the mills for cotton goods and yarns for delivery after Sept. 1 have been sufficiently large to absorb the remaining supplies of cotton that will come on offer from this crop. To-day there was a firmer market early, in response to stronger advices from Liverpool. During the day, however, there was a reaction. Weather conditions in the South were reported more promising, and there was selling for the account of recent speculative buyers to realize profits. The close was steadier at a net gain for the day of 3 to 6 points. Cotton on the spot has advanced, closing at 8 15c. for middling uplands.

The rates on and off middling, as established Nov. 18, 1903, by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows.

Ì	Fair	Good Middling Tinged c. Even
ļ	Middling Fair 0.96 on	Strict Middling Tinged 0.06 off
ľ	Strict Good Middling 0.62 on	Middling Tinged 0.12 off
ı	Good Middling 0.44 on	Strict Low Mid. Tinged 0.34 off
ļ	Strict Low Middling 0.14 off	Low Middling Tinged 0.50 off
ļ	Low Middling 0.38 off	Strict Good Ord. Tinged 0.84 off
ı	Strict Good Ordinary 0.72 off	Middling Stained 0.50 off
ı	Good Ordinary 1 00 off	Strict Low Mid. Stained 1.06 off
ı	Strict Good Mid. Tinged 0.30 on	Low Middling Stained 1.50 off

On this basis the official prices for a few of the grades for the past week—May 6 to May 12—would be as follows.

WEATHER REPORTS BY TELEGRAPH.—Our reports received by telegraph from the South this evening indicate that while on the whole the weather has been more favorable during the week, rain has been quite general and there are complaints of excess of moisture from portions of Texas, Arkansas, Mississippi and sections in the Carolinas. At some points where the crop is up grass is claimed to be troublesome. It is furthermore stated that the wet weather has interfered with planting operations. Advices from Alabama are as a rule very satisfactory.

Galveston, Texas.—Rain has fallen to an inappreciable extent on two days of the week. Average thermometer 79,

highest 82, lowest 75.

Abilene, Texas.—Rain has fallen heavily on one day of the week, to the extent of one inch and sixty-eight hundredths. The thermometer has averaged 72, the highest being 84 and the lowest 60.

Brenham, Texas.—There has been light rain on two days the past week, the rainfall reaching eight hundredths of an inch. The thermometer has averaged 80, ranging from 72 to 87.

Corpus Christi, Texas.—Rain has fallen on four days during the week, to an inappreciable extent. The thermometer has ranged from 76 to 84, averaging 80.

Cuero, Texas.—Dry weather has prevailed all the week. The thermometer has ranged from 66 to 89, averaging 78.

Dallas, Texas.—It has rained excessively on three days of the week, the rainfall being three inches and seventy-two hundredths. The thermometer has averaged 77, the highest being 88 and the lowest 65.

Fort Worth, Texas.—It has rained on four days during the week, the rainfall being two inches and two hundredths. The thermometer has averaged 75, ranging from 64 to 86.

Henrietta, Texas.—We have had no rain during the week. The thermometer has ranged from 59 to 88, averaging 74.

Huntsville, Texas.—We have had showers on two days during the past week. Average thermometer 79, highest 90, lowest 67.

Kerrville, Texas.—It has been dry all the week. The thermometer has averaged 79, the highest being 89 and the lowest 69.

Lampasas, Texas.—We have had rain on three days of the past week, the rainfall being one inch and sixteen hundredths. The thermometer has averaged 76, ranging from 64 to 88.

Longview, Texas.—Rain has fallen excessively on two days during the week, the precipitation reaching two inches and thirty-four hundredths. The thermometer has ranged from 68 to 89, averaging 79,

Nagodoches, Texas.—There has been heavy rain on two days during the week, the precipitation reaching two inches and eighty-nine hundredths. Average thermometer 76, highest 86, lowest 66.

Palestine, Texas.—Rain has fallen heavily on one day the past week, the rainfall being three inches and thirty-six hundredths. The thermometer has averaged 75, the highest being 86 and the lowest 64.

Paris, Texas.—We have had showers on two days during the week, to the extent of forty-nine hundredths of an inch. The thermometer has averaged 75, ranging from 64 to 85.

San Antonia, Texas.—It has rained lightly on two days of the week, the rainfall reaching thirty-six hundredths of an inch. The thermometer has ranged from 70 to 88, averaging 79.

Weatherford, Texas.—We have had rain on three days during the past week, the rainfall being seventy-eight hundredths of an inch. Average thermometer 77, highest 89 and lowest 64.

New Orleans, Louisiana.—It has rained on three days of the week. The thermometer has averaged 80.

Shreveport, Louisiana.—There has been heavy rain on three days the past week, the rainfall reaching five inches and two hundredths. The thermometer has averaged 77, ranging from 66 to 88.

Vicksburg, Mississippi.—With favorable weather, the crop is up and stands are good. Rain has fallen on two days of the week, to the extent of six hundredths of an inch. Average thermometer 77, highest 88, lowest 67.

Leland, Mississippi.—Rain has fallen the past week, to the extent of six inches. The thermometer has averaged 69.3,

the highest being 84 and the lowest 62.

Little Rock, Arkansas.—There has been too much rain. About one-fourth of the crop is not yet planted. We have had rain on three days during the past week, the rainfall teing one inch and eighty-one hundredths. Average thermometer 75, highest 85 and lowest 64.

mometer 75, highest 85 and lowest 64.

Helena, Arkansas.—While considerable farming has been done, there yet remains much ground unbroken. It has rained on two days of the week, the rainfall reaching one inch and thirty-five hundredths. and rain is falling now. The thermometer has ranged from 68 to 88, averaging 76.

Nashville, Tennessee.—There has been rain the past week, the rainfall being one inch and ninety-four hundredths. The thermometer has averaged 75, ranging from 63 to 88.

Memphis, Tennessee.—Rainy, cloudy and threatening weather all the week has interfered with farm work. Rain has fallen on three days the past week, the rainfall being two inches and five hundredths, and it is raining now. The thermometer has averaged 74.2, the highest being 85.8 and the lowest 63.8.

Mobile, Alabama.—The weather has been very favorable in the interior. Cotton planting is practically completed, stands are good and growth rapid. Dry all the week. The thermometer has ranged from 71 to 84, averaging 78.

thermometer has ranged from 71 to 84, averaging 78.

Montgomery, Alabama.—Weather and crops cannot be improved upon; all doing finely so far. We have had rain on one day during the past week, the rainfall being one inch and ninety-two hundredths. Average thermometer 78, highest 92, lowest 66.

Selma, Alabama.—Stands perfect, but there are some complaints of grass. Rain has fallen on two days of the week, to the extent of one inch and twenty-five hundredths. The thermometer has averaged 85, the highest being 92 and the lowest 72.

Savannah, Georgia.—There has been rain on four days during the week, the precipitation reaching two inches and thirty five hundredths. Average thermometer 78, highest 90, lowest 68.

Augusta, Georgia.—Grass is troublesome and labor scarce. We have had rain on two days during the week. The thermometer has ranged from 65 to 93, averaging 78.

Smyrna, Georgia.—It has rained on two days of the week, the rainfall being four hundredths of an inch. The thermometer has averaged 69, the highest being 74 and the lowest 64.

Greenwood, South Carolina.—Rain has fallen on three days during the week, the rainfall reaching one inch and nine hundredths. The thermometer has ranged from 65 to 82, averaging 73.

Stateburg, South Carolina.—Thunder-storms in all directions on three days of the week have resulted in too much rain and grass is gaining on crops. The precipitation reached one inch and ninety-nine hundredths. Average thermometer 75, highest 89, lowest 64.

Charlotte, North Carolina.—There are some complaints of grass. Planting is not completed. There has been rain during the week, to the extent of one inch and seventy-seven hundredths. The thermometer has averaged 74, the highest being 87 and the lowest 61.

The following statement we have also received by telegraph, showing the height of the rivers at the points named, at 8 A. M. May 12, 1905, and May 13, 1904.

Since

1904-05.

Since

According to the foregoing, Bombay appears to show an increase compared with last year in the week's receipts of 20,000 bales. Exports from all India ports record a loss of 40,000 bales during the week and since Sept. 1 show a decrease of 616,000 bales.

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.— Through arrangements we made with Messrs. Choremi, Benachi & Co., of Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria. Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, May 10.	1904-05.		190	3-04.	1902-03.		
Receipts (cantars*)— This week Since Sept. 1		40,000 19,143	6,4	7,000 18,648	700 5,733,813		
Exports (bales)—	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.	
To Liverpool To Manchester		193,175 134,886	750	206,337 123,309		191,501 139,242	
To Continent	7,000 1,750	265,327 63,791		299,081 46,803		285,499 77,388	
Total exports	15,250	657,159	16,150	675,530	5,675	693,625	

\* A cantar is 98 lbs.

This statement shows that the receipts for the week ending May 10 were 40,000 cantars and the foreign shipments 15,250 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market continues firm for both yarns and shirtings. The demand for both yarn and cloth is improving. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

GOVERNMENT WEEKLY COTTON REPORT.—Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the crops in the Southern States for the week ending May 8, summarizing them as follows:

Much cotton remains to be planted in Arkansas, Northern Mississippi, portions of Louisiana and in Northern and Central Texas, and planting is unfinished in the Carolinas, Northern Georgia, Tennessee and Okiahoma. In Central and Northern Texas a large area requires re-planting and that up is not in very promising condition and is in need of cultivation. In Southern Texas the crop is in better condition, although damaged by rain. Good stands are reported from the Central and eastern districts of the cotton belt, where the crop is making favorable progress, although needing cultivation in Georgia.

New York Cotton Exchange.—Nominations.—The nominating committee of the New York Cotton Exchange has selected the following ticket to be voted for at the annual election, which will be held on Monday, June 5: For President, Walter C. Hubbard; Vice President, Henry H. Wheeler; Treasurer, Albert L. Rountree; Board of Managers—Edward M. Weld, James F. Maury, Richard A. Springs, Hermann Hagedorn, J. E. G. Higgins, Chas. W. Lee, L. L. Fleming, Fred. E. Story, James W. Wenman, James Riordan, Wm. Witherspoon, William P. Jenks, Frank H. Wiggin, John Grierson and Charles A. Shearson. Trustee of the Gratuity Fund to serve three years—Otto Arens. For Inspectors of Election—Henry W. Hanemann, William A. Boger and William G. Carr.

SHIPPING NEWS.—As shown on a previous page, the exports of cotton from the United States the past week have reached 167,378 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

### BREADSTUFFS.

FRIDAY, May 12, 1905.

A fair volume of business has been transacted in the market for wheat flour. Mllls have offered supplies less freely, and with buyers showing more interest, prices have improved slightly. Fairly full sales of winter-wheat flour for both prompt and forward deliveries have been made, and there has been moderate buying of spring-wheat flours, particu larly bakers'. City mills have been in moderate demand and steadier. Rye flour has had only a limited sale and prices have been barely maintained. Corn meal has been in better demand and firm.

Speculation in wheat for future delivery has been quiet but there has been a moderate improvement in prices. Early in the week the reports of the strained political situation in the Far East was a market factor having a bullish influence upon values. Statistical developments were favorable to higher prices, the visible supply statement showing rapidly decreasing stocks. Crop news has been less favorable, too low temperatures and wet weather in the spring-wheat States being reported, which have been un-favorable for the completion of the seeding of the spring-wheat crop. Conditions in the winter-wheat belt, however, have been generally favorable. The monthly report by the Government's Agricultural Bureau issued after the close of business on Wednesday showed that there had been a larger area of winter-sown wheat abandoned than had been expected, and with the resumption of business on Thursday prices were advanced. The condition of the crop, however, was reported unusually high, and the outlook was considered promising for a large yield. The spot market has been firmer but quiet. To-day the market advanced early on crop news but reacted at the close. The spot market was quiet.

Indian corn futures have been quiet and there has been a moderate advance in prices. The movement of the crop has been light, and there has been some buying by shorts of May delivery in the Chicago market to cover contracts. The

weather conditions in the corn belt, particularly the Eastern section, have not been favorable for progress with the new crop, heavy rains having prevented planting. The spot market has been firmer, following the advance in futures, but business has been quiet, there being only a light demand from exporters. To-day the market was easier under predictions of more favorable weather for the completion of seeding and a light cash demand.

Oats for future delivery at the Western market have been quiet, but there has been a fractional advance in prices. The crop movement has been light, the receipts at the primary points being limited. Weather conditions have been reported too cool for the favorable growth of the new crop and has had a bullish influence. Locally the spot market has been fairly active; exporters have been buyers at steady prices. To-day the market was quiet and easier.

AGRICULTURAL DEPARTMENT REPORT ON CEREALS, ETC .-The report of the Department of Agriculture, showing the condition of the cereal crops on May 1, was issued on the 10th inst., and is as follows:

Returns to the Chief of the Bureau of Statistics of the Department of Agriculture made up to May 1 show the area under winter wheat in cultivation on that date to have been about 29,723,000 acres. This is 1,432,000 acres, or 4.6 per cent, less than the area sown last fall, and 2,858,000 acres, or 10.6 per cent, more than the area of winter-wheat harvested last year. Of the area abandoned or plowed under, 356,000 acres are reported from Kansas, 205,000 acres (including cutting for hay) from California, and 102,000 acres from Missouri.

For the 29,723,000 acres remaining under cultivation the average condition on May 1 was 92.5, against a condition of 91.6 on April 1 for the entire acreage sown; of 76.5 for the area remaining under cultivation on May 1, 1904, and of 83.7, the mean of the May averages of the last ten years.

The following table shows for the principal winter-wheat States the percentage of the acreage sown last fall that is now reported as abandoned; also the averages of condition on May 1, 1905, 1904, 1903, 1902, 1901 and 1900, and the mean of the May averages of the last ten years:

C	CONDITION	OF W	INTER	WHEA	T MAY	I.

Virginia		89	73	16	59	99	100	86
United States	4.6	92.5	76.5	96.2	76.4	94.1	88.9	83.7

The average condition of winter rye on May 1 was 95.5, as compared with 92.1 on April 1, 1905; 81.2 on May 1, 1904; 93.3 at the corresponding date in 1903, and 88.5 the mean of the May averages of the last ten years.

The average condition of meadow-moving lands on May 1 was 93.8, against 85 on May 1, 1964, 92.8 at the corresponding date in 1903, and 90 the mean of the May averages of the last ten years.

The average condition of spring pastures on May 1 was 92.3, against 80.5 on May 1, 1904, 92 at the corresponding date in 1903, and 89.1 the mean of the May averages of the last ten years.

Of the total average of spring playing contemplated 71.5 per cent

Of the total actuage of spring plowing contemplated, 71.5 per cent is reported as actually done up to May 1, as compared with 57.3 per cent at the corresponding date last year and fa ten-year average on May 1 of 67.7.

Exports of Grain and Flour from Pacific Ports.—The exports of grain and flour from Pacific ports for the week ending May 12, as received by telegraph, have been as follows: From San Francisco to Japan and China, 6,093 bbls. flour; to various Pacific ports, 6,452 bbls. flour, 1,800 bushels barley and 25,000 bushels corn.

Combining these figures with those for previous weeks, we have the following, which covers the exports to foreign countries for the period since July 1, 1904, comparison being

made with the corresponding period of 1903-04.

GOVERNMENT WEEKLY GRAIN REPORT.-Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the grain crops in the various States for the week ending May 8, summarizing them as follows:

CORN.-Heavy rains have prevented rapid progress with corn plant-

CORN.—Heavy rains have prevented rapid progress with corn planting over a large part of Missouri, Illinois and Indiana, but elsewhere this work has advanced satisfactorily, planting having begun as far north as the southern portions of South Dakota, Minnesota, Wiscousin and Michigan. In the Southern States the general condition of the crop is reported as promising, but it is suffering for cultivation over a large part of the South Atlantic and East Gnif States and in Texas. Winter Wheat.—Winter wheat is now heading as far north as the southern portions of Kansas and Missouri and in Kentucky. The general condition of this crop continues highly favorable in the States east of the Rocky Mountains, although some reports of injury by rust are received from Texas and Oklahoma Territory and Indian Territory. On the Pacific coast winter wheat continues promising, although some unfavorable reports respecting lowland wheat are received from Oregon and recent heavy rains and high winds caused

although some unfavorable reports respecting lowland wheat are received from Oregon and recent heavy rains and high winds caused lodging to some extent in California.

SPRING WHEAT.—The weather conditions of the past week were not favorable for the completion of wheat seeding over the northern portions of North Dakota and Minnesota and early-sown spring wheat over the central portion of the spring-wheat region and in Iowa is making only fair progress. In Nebraska and Colorado and on the North Pacific coast the condition of the crop is promising.

OATS.—The reports from Kansas, Nebraska and Iowa respecting oats indicate that this crop in these States is in fair condition only, but elsewhere the reports generally range from good to excellent. In the Southern States oats are heading and seeding continues in North Dakota and the northern portion of the Middle Atlantic States.

For other tables usually given here see page 1893.

### THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., May 12, 1905.

The cotton goods market has assumed a decidedly firmer tone during the past week, and while business has not been particularly active, a fair number of orders has been received. In several instances prices have been advanced and manufactures are so convinced that the whole level will be higher in the near future that they are not pushing their goods for future delivery to any extent at the present time. Buyers have purchased a moderate amount of goods for fall delivery, but the advances have caused them to withold some of the business contemplated. The statistical position of many lines is so strong that early deliveries are impossible and it is believed that this fact will soon cause buyers to extend their operations. For the moment they are not always willing to pay sellers' prices, but it is thought that when they realize the position more thoroughly they will pay full asking prices without question. The advance in the price of raw material has still further strengthened the attitude of sellers, but in the present condition of the market a decline in raw cotton, unless it should be very severe, could not affect the price of goods. Export business is slow following the recent activity and agents are looking foward to the end of the war in the Far East, when they believe that Chinese buyers will once more enter the market actively and renew their operations. Buying of fall dress goods has been on a rather larger scale during the week.

Domestic Cotton Goods.—The exports of cotton goods from this port for the week ending May 8 were 2,177 packages, valued at \$157,192, their destination being to the points specified in the tables below:

NEW YORK TO MAY 8.		1905.	1904.		
HEW KORK TO DIAL 6.	Week.	Since Jan. 1.	Week.	Since Jan. 1.	
Great Britain.	107	452	1	241	
Other European	8	238		429	
China		49.882		23,161	
India	230	7,238		3.328	
Arabia		6,718		9.155	
Africa		8.527	20	3.123	
West Indies	723	10.314	264	7.081	
Mexico	11	925	8	800	
Central America	166	6.472	239	5,172	
Bouth America	612	21,210	514	20,040	
Other Countries	320	6.839	299	8,529	
OUTHOUSE CONTRACTOR	320	0,000	200	0,020	
Total	2,177	113,815	1,345	79,129	

The value of these New York exports since Jan. 1 has been \$6,036,300 in 1905, against \$4,343,707 in 1904.

Heavy brown drills and sheetings still keep particularly firm, owing to the scarcity of supplies, and manufactures of these are well sold ahead for some time to come Buyers have shown a greater disposition to anticipate future needs and the volume of business during the week has been satis-

factory. Light-weights are in better request and early deliveries of these are becoming more difficult to obtain. There have been a few export inquiries for these but the amount of business consummated has been small. There has been a moderate business in bleached goods, particularly in low counts. Fine counts have been well purchased for future delivery and prices are firm with the prospect of further advances shortly. Export business has included some fair orders for duck at recent figures. Coarse, colored cottons are firm and have been in fair request. There has been an improved demand for cotton linings and sellers are satisfied with current business. Canton flaunels and cotton blankets have been freely purchased and are becoming difficult to obtain. The demand for staple and fancy prints has not been large, and both staple and fine grades of ginghams have been without particular feature. Print cloths were active early in the week but became quieter later, although prices have held firm. Buyers are not speculating, owing to the light demand for prints. Wide goods are firmer than narrow and attempts of buyers to secure concessions are actively resisted.

Woolen Goods.-The strength of the raw wool market has been responsible for a further advance of from 2½ to 10 cents per yard in men's wear heavy-weight woolen and worsted goods during the week and buyers are beginning to wonder when the top will be reached. As it is, they are hurrying forward duplicate orders as soon as possible to avoid having to pay more later on. A number of duplicate orders has already been received and many lines which had not been sold out during the period of initial buying have now been withdrawn from the market. Supplementary lines have met with a fair degree of success and great efforts are being made to push the, green fabrics, in which much interest has been shown. Preparations for the new lightweight season are well under way and there have been unconfirmed reports that some lines of cheap goods have already been shown. The only thing that can be said about the coming season with any degree of certainty is that prices will be materially higher than they were last. Purchasing of dress goods has been on a fairly heavy scale during the week and agents handling worsteds report in many instances that they are in a better position now than they were in July last year. Handlers of woolen goods, however, are complaining of the business done this season. The popularity of silk dress goods is making itself felt in the woolen and worsted goods market.

Foreign Dry Goods.—Imported woolen and worsted dress goods have been in fair demand and prices are very firmly held. Silks have been active and firm. Ribbons have sold well. Dress linens continue in good demand, but households are neglected. Burlaps are strong.

### Importations and Warehouse Withdrawals of Dry Goods

Theimportations and warehouse withdrawals of dry goods at this port for the week ending May 11, 1905, and since January 1, 1905, and for the corresponding periods of last vear are as follows:

### Index.

An index to all the news matter appearing in this Department for the period from Jan. 7, 1905, to April 15, 1905, inclusive. was published in the CHRONICLE of April 22, 1905, pages 1500, 1501, 1502 and 1508.

### MUNICIPAL BOND SALES IN APRIL.

We present herewith our detailed list of the municipal bond issues put out during the month of April, which the crowded condition of our columns prevented our publishing at the usual time.

The review of the month's sales was given on page 1870 of the CHRONICLE May 6. Since then several belated April returns have been received, changing the total for the month to \$40,094,157. The number of municipalities issuing bonds was 185 and the number of separate issues 255. In the

bonds was 185 and the num	ber of separate	issues 255. In the	1933. Marion, S. C		†1925-1945 1906	20,000	103 100°3

We have also learned of the following additional sales for previous months:

Name. Page. Rate, Maturity. Amount. Price. 1435..Brawley School Dist., Cal. 1435. Charlotte County, Va. 1908-1912 \$2,500 100.20 †1925-1935 15,000 38,000 103 03 432,500 ¶100 1954

All the above sales, except as indicated, are for March. These additional March issues will make the total sales (not including temporary loans) for that month \$17,931,597. It is also proper to add that New York City issued in March \$25,017,104 74 revenue bonds of which we had no report at the time our March totals were published. These, however, being temporary securities, do not appear in our bond tables.

### News Items.

Arkansas.—Notice to Holders of Levee Bonds.—H. C. Brannin of Louisville requests the holders of 30-year Arkansas State levee bonds dated March 23, 1871, to communicate with him. See advertisement elsewhere in this Department.

Legislature Adjourns.—The General Assembly of Arkansas adjourned sine die on May 4.

Greensburg, East Greensburg, Ludwick, Southwest Greensburg and Southeast Greensburg, Pa.—Greater Greensburg.—The Councils of all of the above boroughs have passed resolutions to submit to a vote of the people the question of consolidating to form a "Greater Greensburg

Illinois.—Legislature Adjourns.—The Forty-fourth General Assembly of this State adjourned May 6.

Meridian, Miss.—Bond Decision.—We take the following

from the Memphis "Appeal:"

MERIDIAN, Miss, April 28.—Judge Niles of the United States District Court has just han fed down decisions in the Meridian water works cases, which he reserved at the recent term of court here.

He sustains the Farmers' Loan & Trust Co. at all points. The alleged failure of the water works company to faill its contract with the city was the basis of a suit in Chancery, which rendered a decree annulling the contract, which decree, on appeal, was affirmed by the State Supreme Court.

The city proposed building water works of its own and voted bends for the purpose. The Farmers' Loan & Trust Co., which had inanced the water-works company, obtained an injunction from Federa! Judge Niles on exparts showing restraining the city from selling bonds and constructing the water works. The city flied motion to dissolve injunction. The motion is now overruled. The loan and trust company also, after the decision of the State Supreme Court, asked leave at the March term to fite an amended bill, which was granted. The city yoted to issue 5150,000 bonds and awarded the

The city voted to issue \$150,000 bonds and awarded the same late in 1903 to John Nuveen & Co. of Chicago. Delivery was prevented by litigation.

Phonix, Arlz.—Status of Litigation.—The Phonix Water Co. has filed its bond and perfected its appeal to the Supreme Court in the suit brought to restrain the city from issuing \$300,000 water bonds. The case will probably come up in the Supreme Court in the near future. See V. 80, p. 885; V.

79, p. 2709; V. 78, p. 1237.

Rhode Island.—Legislature Adjourns.—The General Assembly of Rhode Island adjourned at 6:30 P. M, May 11.

St. Clair County, Mo.—Revival of Judgment.—The following regarding the long-standing litigation over bonds of this county appeared in the Kansas City "World" of May 2:

John H. Overall Jr., administrator of Joseph M. Douglass, in the United States Circuit Court to-day secured a revival of the judgment against St. Clair County, which, with interest, amounts to \$465,055.08. Suit in the cases was originally started in 1870 and since then at no regular intervals the matter has been dragging through the courts.

The original bond issue of St. Clair County for the construction of a railroad which was never built was for \$250,000. With interest this now amounts to \$2,000,000, and Mr. Overall said to day that the matter may be settled in the near future.

near future.

near future. For years the County Court of St. Clair County was elected with the understanding that the debt for the bond issue would never be paid, and it was incumbent on the members of the Court to hide in the woods as soon as they took the oath of office. From secluded places they performed their official  $\frac{1}{2}$ 

Of late years the Judges of the Court have worked in the open and the judgment may be settled by compromising on the amount due.

Santa Ana, Cal.—Bond Litigation.—Suit has been instituted by W. S. Whitney against the city of Santa Ana to prevent the issuance of the \$60,000 electric-light bonds voted at the election Sept. 28, 1903, of which \$57,000 were offered for sale on May 8. See V. 80, p. 1751. It is claimed among other things that the issuance of these bonds would bring the city beyond its debt limit.

South Omaha, Neb.—Litigation.—Magdalena Pivonka of South Omaha has instituted suit to prevent the sale of the \$70,000 city-hall and \$40,000 park bonds voted at the election held April 4, 1905. It is claimed that the ordinances provid-

ing for the special election were not properly passed.

West Virginia.—Debt Limit.—The Legislature of 1905
passed the following Act fixing the limit of indebtedness of

municipal corporations at 21/47:

BE IT ENACTED BY THE LEGISLATURE OF WEST VIRGINIA.

No county, city, school district, or municipal corporation, except in cases where such corporations have already authorized their bonds to be issued, shall hereafter be allowed to become indebted, in any manner, or for any purpose, to an amount, including existing indebtedness, in the aggregate exceeding 2½ per centum on the value of the taxable property therein, to be ascortained by the last assessment for State and County taxes, previous to the incurring of such indebtedness, nor without, at the same time, providing for the collection of a direct annual tax sufficient to pay, annually, the interest on such debt, and the principal thereof, within, and not exceeding thirty-four years; Provided That no debt shall be contracted under this section unless all questions connected with the same shall have been first submitted to a vote of the people, and have received three-fifths of all the votes cast for and against the same. fifths of all the votes cast for and against the same.

This Act goes into effect Jan. 1, 1906. The wording of this Act is exactly the same as Section 8, Article X, of the State Constitution, except that in the Constitution the debt limit is fixed at not "exceeding 5%" instead of 21/2%, as pro-

vided for by the Legislature.

Tyler, Tex.-Bonds Valid.-The State Supreme Court on May 1 rendered a decision sustaining the validity of all the bonds of this city, thus reversing that portion of the opinion of the Court of Civil Appeals wherein it was held that the bonds of 1899 were invalid. See V. 79, p. 2163; V. 75, p. 751

### Bond Calls and Redemptions.

Greene County (P. O. Springfield), Mo.—Bond Call.—County Treasurer R. A. Bowland called for payment on May 1, 1905, at the Merchants-Laclede National Bank (the Laclede National Bank having been the place designated for their payment), St. Louis, the following 5% 15-20-year funding bonds dated August 1, 1887, and in denomination of \$1,000 each. Interest ceased April 30, 1905: Bonds Nos. 187, 188, 189, 201, 203, 205, 209 and 230.

Hamilton County (P. O. Cincinnati), Ohio.—Bond Call.— This county calls for payment May 1 at the office of the County Treasurer \$55,000 tax-duplicate bonds dated April

30, 1885, due May 1, 1915, subject to call May 1, 1905.

Lawrence County, So. Dak.—Bond Call.—The following bonds were drawn by lot on April 24 and will be paid on June 1, 1905, at the Fourth National Bank in the city of New York, or at the office of the Treasurer of Lawrence County

in Daadwood: Bonds Nos. 58, 60, 67, 77, 90, 96, 106, 130, 131, 132, 136, 140, 158, 62, 173, 183, 184, 187, 221. 244, 264, 265, 276, 301, 302, 338, 338, 348, 371, 428, 431, 464, 467, 556, 569, 586, 588, 589, 612, 615, for \$500 each.

Interest on above bonds will cease May 31, 1905.

Madison County (P. O. Fredericktown), Mo .- Bond Call. This county has called for payment on June 1, 1905, courthouse bonds Nos. 85 to 100, inclusive. Denomination, \$100. Interest rate, 6 per cent.

Milwaukee, Wls.—Tenders of Bonds Requested.—Peter Pawinski, City Comptroller, requests tenders until 10 A. M. June 1 from holders of city bonds subject to retirement by tot to surrender their holdings for carcellation at par or less to an amount not greater than the sinking fund on hand. If a sufficient amount of bonds be not presented, a drawing will be made and bonds called in accordance therewith.

Roanoke, Va. -Bond Call. - W. E. Thomas, City Clerk, calls for payment on or before July 1, 1905, at the office of the City Treasurer, \$30,000 6% bridge bonds. Denomination, \$500. Date, July 1, 1890.

### Bond Proposals and Negotiations this week have been as follows:

Aberdeen, Miss. - Bond Sale. - On April 26 the \$25,000 5% 15 year refunding bonds described in V. 80, p. 1494, were awarded to F. R. Fulton & Co., Chicago, at 104 04 and interest—a basis of about 45%4.

Acton, Ont.—Debenture Sale.—On May 1 this town awarded to Wood, Gundy & Co. of Toronto, for \$5,811 20, an issue of \$6,000 4% local-improvement debentures payable in twenty

Alliance (Ohio) School District.—Bond Offering.—Proposals will be received until 12 M., June 5, by C. E. Harsh, Clerk Board of Education, for \$8,000 4% bonds. Denomination, \$1,000. cash for \$500 required.

Angelics, N. Y.—Bond Offering.—Proposals will be received until 8 P. M., May 15, by Edwin P. Mills, Village Clerk, for \$10,000 registered water-works extension and improvement bonds. Denomination, \$500. Date, July 1, 1905. Interest, not exceeding 5%, payable semi-annually in New York. Maturity, \$500 yearly on July 1 from 1909 to 1928, inclusive. Authority, Chap. 414, Laws of 1897. Bonded debt at present, \$24,000; floating debt, \$1,500. Assessed valuation, \$284,174.

Arcanum, Ohio.—Bids.—The following bids were received on May 8 for the \$38,000 5% water and light bonds awarded, as stated last week, to the Farmers' Bank Co.:

Ashe County (P. O. Jefferson), N. C.—Bond Sale.—On May 2 the \$20,000 5% court-house bonds described in V. 80, p. 1495, were awarded to J. M. Holmes, Chicago, at 102. The following are the bids received:

J. M. Holmes, Chicago.......102.00 | Wachovia Loan & Trust Co.....101.25 L. W. Coeper, contractor......101.70 | And other bids at par.

Bay City, Mich.—Bonds Authorized.—It is stated in local papers that the City Council has authorized the issuance of

Bedford (Ohlo) School District.—Bond Opering.—Proposals will be received until 12 M., May 27, by Mrs. Ella F. Senter, Clerk Board of Education, for the \$20,000 4½ school building bonds mentioned in V. 80, p. 1747. Denomination, \$1,000. Date, day of sale. Interest payable at the Cleveland Trust Co. of Cleveland. Maturity on Oct. 1 as follows: \$3,000 in 1910, \$5,000 in 1915. \$3,000 in 1920, \$3,000 in 1925, \$3,000 in 1930 and \$3,000 in 1935. Authority, Sections 3991, 3992 and 3993, Revised Statutes of Onio. Certified check for 104 of amount of bid. payable to the Treas-Bedford (Ohio) School District.—Bond Offering.—Protified check for 10% of amount of bid, payable to the Treasurer of Bedford School District, required, and the successful bidder must pay accrued interest.

Beiding, Mich.—Bids Rejected.—A bid of \$67,631 and interest for 4½ per cents was received on May 5 from Denison, Prior & Co., of Cleveland, for the \$65,000 3½% 30-year water-bonds described in V. 80, p. 1495. The bid was re-

jected.

Beres, Ohio.—Bids.—The following bids were received May 8 for the \$3,000 5% 6-year (average) drain bonds described in V. 80, p 1434:

Prov. Sav. Bk. & Tr. Co., Cln...\$3,107 10 | W. J. Hayes & Sons, Cleve... \$3,095 00
Denison, Prior & Co., Cleve- | Hayden, Miller & Co., Cleve... \$3,093 00
land and Boston........ 3,107 00 | Sec. Sav. Bk. & Tr. Co., Toledo. 3,088 00
W. R. Todd & Co., Cincinnati... 3,105 00 | Bank of Berea Co., Berea..... 5,078 00

The award was postponed until May 15.

Big Timber Township, Rush County, Kan.—Bonds Voted.
On April 25 this township voted to issue bonds in aid of

the Gulf Hutchivson & Northwestern Railroad.

Bishopville, So. Caro.—Bonds Voted.—This district on April 26, by a vote of 107 for and none against, authorized the issuance of \$20,000 20-40-year (optional) water-works bonds. Date of sale not yet determined.

Blackfoot, Idaho.—Bonds Voted.—At an election recently held in this village, 225 votes were cast in favor of and 118 against a proposition to issue bonds for street-improvements. Bluffton, Ulilo.—Bonds Defeated.—This village on May 8

defeated a proposition to issue \$5,000 sewer bonds by a vote of 71 to 273.

Boulder (Colo.) School District No. 3.—Bond Offering.— Proposals will be received until May 20 by Albert A. Reed,

Secretary, for \$30,000 41/18 bonds.
Bristol Township, Pa.—Bonds Authorized.—It is stated that an issue of \$50,000 road bonds has been authorized.

Brackville, Ont. - Debenture Sale. - This city has sold to H. O'Hara & Co. of Toronto for \$38,575 an issue of \$30,000 4% "Canada Carriage Co. loan" debentures and an issue of \$9,202 94 4% local-improvement debentures. Interest will be payable in April and October. Maturity, varying amounts yearly for twenty years.

Broxton, Ga.-Bond Offering.-Proposals will be received until 3 P. M., May 20, by Quitman Halton, Mayor, for the \$10,000 6% coupon school-building bonds recently voted. Denomination, \$500. Date, June 15, 1905. Interest, annually in June at the National City Bank of New York or at the Broxton Banking Co., Broxton. Maturity, \$500 yearly on June 15 from 1936 to 1925, inclusive. Bonds are exempt from city tax. The city is three years old and has no debt at present. Assessed valuation of real estate in 1995, \$168,315

Bacyras, Ohio.—Bond Offering.—Proposals will be received until 12 M., June 5, by W. H. Iams, City Auditor, for

\$12,000 5% Sandusky Avenue improvement bonds. Securities are part of an issue of \$19,200, of which \$3,400, due 1906 and 1907, will be retained by the city, and \$4,800, due 1918, 1919, 1920 and 1921, have been purchased by the sinking fund. Denomination, \$1,200. Date, April 1, 1905. Interest, semiannual. Maturity of bonds to be sold, \$1,2°0 yearly on Apr. 1 from 1908 to 1917, inclusive. Authority, Act of the General Assembly passed Oct. 22, 1902; also Act passed April 29, 1902, as amended April 22, 1904. Certified check for \$100, payable to the Treasurer of the city of Bucyrus, required with each bid, and the successful bidder must pay accrued interest. We presume that this issue of \$19,200 is the same as awarded on April 26 to Seasongood & Mayer, Cincinnati.

The reason for the re-sale is not known to us.

Buffalo, N. Y.—Bond Issue.—The issuance of \$3,761 48 3% Department of Public Works bonds has been authorized. These bonds have been taken by the city of Buffalo in trust

for the bond premium account.

Caston, Ohio. - Bond Offering. - Proposals will be received until 12 M., June 5 (postponed from May 22), by Armstrong Ashbrook, City Auditor, for the following bonds at not exceeding 5% interest:

\$9,000 1-5-year (serial) Third Street bonds of \$1,800 each.
15,500 1-5-year (serial) Fourth Street bonds of \$3,100 each.
35,000 1-5-year (serial) Mahoning Street bonds of \$7,000 each.

All the above bonds are dated April 22, 1905. Interest, semi-annual. Accrued interest to be paid by purchaser. Certified check for 5% of the amount of bonds bid for, drawn on some bank in Canton, payable to the Treasurer of the city, required. Bids are to be made on blank forms prepared by the City Auditor. Purchaser must furnish blank bonds free of charge.

elina, Ohio.—Bond Offering.—Proposals will be received until 12 M., May 15, by F. H. Kreusch, Village Clerk, for \$40,000 41/2 coupon Main Street improvement bonds. Denomination, \$1,000. Date, May 1, 1905. Interest, semi-annually at office of Village Treasurer. Maturity, \$4,000 yearly on May 1 from 1906 to 1915, inclusive. A cash deposit of \$1,000 required with each bid and the successful bidder must pay accrued interest and furnish blank bonds.

Central City, W. Va.—Bonds Voted.—By a vote of 841 to 96, this city on April 29 authorized the issuance of \$23,000 5%

street-paving bonds. Date of sale not yet determined.
Cincinnati, Ohio.—Bond Sale.—On May 8 the \$350,000 31/28 30-year coupon sewer-construction bonds described in V. 80, p. 1435, were awarded to Denison, Prior & Co. of Cleveland and Boston at 100.67—a basis of about 3.461/2%. Following are the bids:

Denlson, Prior & Co., Cleve. | Prov. Sav. B'k & Tr.Co., Cln. \$350,612 00 and Boston..........\$352,345 00 | W. R. Todd & Co., Cin...... \$50,500 00

Clarksburg (W. Va.) School District.—Bonds Voted.— This district on May 2, by a vote of 552 to 137, authorized the issuance of \$60,000 5% 5-20-year (optional) school-house bonds. Date of sale not yet determined.

Clay Township, Morgan County, Ind.—Gravel Road Election.—The County Commissioners have decided to hold an election in this township on May 13 to vote on the question of building gravel roads at an estimated cost of

\$25,870 17.

Cleveland (Ohio) School District.—Change in Date of Bonds.—As per resolution of the Board of Education passed May 8 the date of the \$300,000 4% coupon bonds, proposals for which will be received until May 15, was changed from April 1, 1905, to the "date of sale." See last week's issue, page 1871, for details of offering.

Cohees, N. Y.—Bond Offering.—Miller Hay, City Chamber-lain, will sell at public auction at 12 M., May 20, \$50,450 77 4% registered public-improvement bonds. Date, May 10, 1905. Interest semi-annually on Jan. 1 and July 1 at the United States Mortgage & Trust Co., New York City. Principal will mature as follows: \$2,802 83 May 10, 1906, and \$2,802 82 yearly on May 10 from 1907 to 1923, inclusive. Authority, Chapter 227, Laws of 1898.

Columbus, Ohio.—Bonds Authorized.—On April 24 the City Council authorized the issuance of \$60,000 41/26 coupon special-assessment bonds dated not later than July 1, 1905. Denomination, \$1,000. Interest, March 1 and September 1 in New York City. Maturity, Sept. 1, 1915.

Bond Sate.—On May 12 the sinking fund awarded the five

issues of bonds described in V. 80, p. 1871, as follows:

\$40,000 3\%\\$ library-site bonds, E. H. Rollins & Sons and Geo. A. Fernald & Co., \$700 discount.

50,000 4\%\\$ public-improvement bonds (city's proportion), Blodget, Merritt & Co., \$2,910 premium.

18,000 4\% electric-light-supply bonds, E. H. Rollins & Sons and Geo. A. Fernald & Co., \$316 68 premium.

142,000 4\% water-purifying and softening-works bonds, Blodget, Merritt & Co., \$4,316 80 premium.

Certified check for \$1,000 on a

taxes. These bonds have been variously offered as 31/2 and 834 per cents without success.

Manila, Philippine Islands.—Bond Offering.—As stated last week, subscriptions will be received until 3 P. M., May 25, by Col. Clarence R. Edwards, Chief of Bureau of Insular Affairs, War Department, Washington, for \$1,000,000 4% gold registered sewer and water-works construction bonds. Denominations, \$1,000 and \$10,000, as desired. Date, June 1, 1905. Interest payable quarterly. Maturity, 30 years, subject to call after 10 years. Securities are exempt from all taxation, Federal, State or local, either in the United States or in the Philippine Islands.

These bonds are part of an authorized issue of \$4,000,000. \$2,000,000 of which will be dated Jan. 2, 1907, and \$1,000,-

000 Jan 2, 1908.

The Secretary of the Treasury authorizes the statement that these sewer and water bonds of the city of Manila will be accepted by the Treasury Dapartment as security for deposits of public money of the United States in national banks whenever further deposits may be made; and may be substituted for United States bonds now held as security for deposits on condition that the United States bonds thus released be used as security for additional circulation, when in the judgment of the Secretary of the Treasury it is desirable to stimulate an increase in national bank circulation.

The legality of this issue has been passed upon by the Attorney General of the United States. Certified check for 2% of the actual amount of bid required. The official circular says that the city of Manila has no bonded debt at present. Assessed valuation 1905, \$62,375,000, of which \$38,875,000 is subject to taxation and \$23,500,000 exempt. Value of real

estate and improvements owned by city, \$3,530,000.

Mansfield, Ohio -Bonds Authorized. - The issuance of

\$16,000 41/2% bonds has been authorized.

Marion, S. C.—Description of Bonds.—We are advised that the \$20,000 5% sewer bonds recently sold to N. W. Harris & Co. of Chicago (see V. 80, p. 1436) were purchased by that firm at 103. The details of the bonds have been changed somewhat since our last published report. They are now as follows: Denomination, \$1,000. Date, May 1, 1905. Interest, semi-annual. Maturity, May 1, 1945, subject to call after May 1, 1925.

Marion (Ohio) School District.—Bond Vote.—The vote at the election May 2 on the proposition to issue \$60,000 schoolbuilding bonds was 254 for and 202 against the question.

Massilion (Ohio) School District.—Bond Offering.—Proposals will be received until 12 M., May 17, by W. P. Fox, Clerk Board of Education, for \$27,000 4% building and improvement bonds. Denomination. \$500. Date, June 1, 1905. Interest semi-annually in New York. Maturity, \$500 each interest semi-annually in New York. six months from March 1, 1906, to Sept. 1, 1932, inclusive. Authority, Section 3991, R. S. of Ohio and election held April 22, 1905. Certified check for 5% of amount of bid required, and the successful bidders must satisfy themselves as to the legality of the bonds before bidding. The printed advertisement of this offering states that this district has never defaulted on its principal or interest, and that there is no litigation threatened or pending affecting the legality of these securities.

Bonds Voted and Defeated.—The election April 23 resulted in the defeat of the proposition to issue \$23,000 funding bonds, while the question to issue \$27,000 improvement bonds received a favorable vote. These latter bonds are being offered for sale May 17—see offering above.

Melrose, Ohio.—Bonds Not Sold.—No bids were received on May 8 for the \$3,904 24 5 per cent 1.8-year (serial) side-walk bonds described in V. 80, p. 1873.

Springfield, Ohio.—Bonds Defeated.—At the election held May 2 2,028 votes were east in layor of and 1,928 against the proposition to issue \$225,000 sewer bonds. A two-thirds vote being necessary to carry, the bonds will not be issued.

### NEW LOANS.

\$1,000,000

# Sewer and Waterworks Construction Bond Issue JERSEY CITY, N. J.,

# CITY OF MANILA.

May 8th, 1905.

By direction of the Secretary of War and with the authority of the Government of the Philippine I lands, the Burean of Insular Affairs of the War Department invites bids for \$1,000,000 of the sewer and waterworks construction bonds of the city of Manlla, authorized by an Act of the Congress of the Uniteo States, entitled "An Act temporarily to provide for the administration of the affairs of civil government in the Philippine Islands, and for other purposes," approved July 1, 1902.

The Act of July 1, 1902, authorized an issue of \$4,000,000 bonds of that municipality to provide fands for the construction of adequate systems of waterworks and sewerage. Surveys having been so far completed as to bermit work to begin within a short time, on April 14, 1905, the Philippine Commission passed an Act authorizing, subject to the approval of the President, the issue of said bonds as follows:

\$1,000,000 to be dated June 1, 1905.
\$2,000,000 to be dated January 2, 1908.

This Act, which has been approved by the Presideut, makes permanent appropriations for the quarter payment of interest and also appropriates out of the insular treasury the sum of \$19,370 annually for each \$1,000,000 of bonds outstanding, which amount, together with the interest thereon, is to be invested by the Treasurer of the Philippine Islands for the purpose of constituting a sinking fund for the retirement of the bonds.

The city of Manila is without any bonded indebte one \*\*118 form of municipal government is modeled after that of Washington, D. C., and the Philippine Government contributes 30 per cent of the annual expenditures.

The bonds are to be issued in registered form in the denominations of \$10,000 and \$1,000, in propor-

relbutes 30 per cent of the annual expenditures.

The bonds are to be issued in registered form in the denominations of \$10,000 and \$1,000, in proportions to suit the purchaser or purchasers.

The bonds will be registered and transferable at the Office of the Register of the Trensary Department at Wishington.

They will be dated June 1, 1905, and will bear interest at the rate of 4 per centum per annual, payable quaterly.

The bonds will be redeemable at the pleasure of the Philippine Government after len years, and will be payable in thirty years after date of issue, in gold coin of the United States, principal and interest pnyable at the Treasury of the United States.

Under the terms of the act of Congress approved fully 1, 1902, "all bonds issued by the Government of the Philippine Islands, or by its nutrourly, shard be exempt from 19xalion by the Government of the Poilippine Islands, or by its nutrourly, shard be exempt from 19xalion by the Government of the Covernment of the United

States, or by the Government of the Philippine Islands, or of any political or municipative build islands, or of any political or municipative build islands, or of any political or municipative or many county, municipatity, or other municion subdivision of any prate or Territory of the United States, or by the District of Columbia."

Subscriptions will be payable after polification of acceptance by this Office on June 1, 1905, at the Subtreasury in New York City, in checks or bank drafts made payable in said city, and delivery of bonds will be made at said Sub-Treasury.

The secretary of the Treasury authorizes the statement that these sewer and waterworks construction bonds of the City of Manilla will be accepted by the Prensury Department as security for deposits of the public money of the United States in National banks whenever further deposits may be made; and may be substituted for United States bonds now held as security for deposits on condition that the United States bonds thus released be used as security for additional circulation, when, in the judgment of the Secretary of the Treasury, it is desirable to stimulate an increase in national bank circulation.

The legality of this issue has been passed upon by the Attriney-General of the United States, and the form of bond as drafted has been approved by the Secretary of the Treasury and the Attorney-General.

All bids must be received in the Bureau of Insular Affalrs. War Department, Washington, D. C., not later than 3 o'clock P. M., May 25, 1905, at which time they will be opened in the presence of the bidders. No bids received after that day and honr will be considered.

The responsible subscribers offering the highest premium will be those accepted up to the amount of \$1,000,00.0.

The Secretary of War reserves the right to reject any and all bids.

Each bid must be accompanied by a certified check of 2 per cent of the actual amount of the bid.

The Secretary of War reserves the right to reject any and all bids.

Each bid must be accompanied by a certified check of 2 per cent of the actual amount of the bid.

Delivery on the 1st day of June will be made by Interim certificates, for which it is anticipated the perfected engraved bonds will be substituted on or before the 1st day of September.

Envelopes containing bids must be marked "Subscriptions for Manila Sewer and Water works Construction Bonds," and addressed to the Burens of Insular Affairs, War Department, Wushington, D. C.

Full and detailed information, especially as to the financial statement of the City of Manila, will be turnished on application.

turnished on application.

C. R. EDWARDS, Colonel U. S. Army, Chief of Bureau.
