EF Table Clearings by Telegraph and Canadian Clearings on pages 2323 and 2324.

CHICAGO STOCK MARKET.

Our record of the transactions on the Chicago Stock Exchange for the week and year, which is now a regular feature of the CHRONICLE, will be found to day on page 2334.

THE FINANCIAL SITUATION.

That "last battle" Russia has so long looked forward to, which was designed to be a victory and held out the promise of being followed by peace, has been fought. The first half of the object the coveted conflict sought has resulted not in victory but in a most inglorious and disastrous defeat for the nation; the other, and the better half, still remains open to its choice, and if acted upon as stated, Russia might even yet snatch victory from defeat. Instead of showing a disposition to carry out this part of the contract with the public, the same unpoised assurance that controlled Admiral Rojestvensky's movements from start to finish, until he had stuck the nose of his fleet into the very jaws of the Corean Straits, bristling with Japanese guns, possesses the St. Petersburg authorities. That spirit was, we may assume, correctly expressed by Count Cassini, the Russian Ambassador. These are the words he is reported to have used at Washington Wednesday evening: "The idea that Russia will be forced to seek peace at this time or surrender to Japan is ridiculous. With the resources at her command Russia can continue the war for years. I do not say that this will be the final decision of the Government, but my firm personal opinion is that in this moment Russia cannot think of suggesting peace to her adversary."

The object of every war is peace. There is only one way left in which Russia can secure that end. Never by battle. Her cause by the sword is lost. That is the verdict of the world of nations. Besides, it is clear to even the less informed that, with Japan's navy reinforced by the vessels taken in this latest contest and with Russia possessing hardly a nucleus for a new navy to raily around, no reasonable hope can be. entertained of recuperating that arm of the service within the period of pressure the occasion has given rise to. Under such circumstances, rejecting efforts for peace can only mean that Russia's army, already crippled, is to be kept by this defeated and virtually blockaded nation for slaughter; after that another army is to be recruited, to be in like manner disposed of; that process to be continued so long as Europe will furnish the cash, or else until the victorious nation will lay down its arms and as a suppliant appear before the helpless Czar and accept such terms as His Gracious Majesty may see fit to offer. There is another suggestion made by Judge Brewer at a conference at Lake Mohonk Tuesday of this week at a convention of delegates on arbitration. We might call it a way to end a war when the ruler of a nation is so obtuse as not to know that it is irretrievably whipped. The Judge's idea is not to use physical force to compel acceptance by a nation of a decision of the Hague Tribunal, as some have proposed, but to use moral force, isolating the nation from every other, and so ostracising it in the commercial, industrial and diplomatic world.

page 2315. It was issued in circular form to the trade on Thursday, June 1st. The results, as we find them, show a smaller decrease in acreage than we anticipated and smaller than any figures that have been issued, and yet had the weather proved as favorable as a year ago a very large crop would have been a possibility. But the season has, until within a very few days, been in large sections unfavorable, and the crop was consequently late, and as a rule badly in grass and weeds. The Government acreage report seems to agree quite nearly with our own; it will be found with comparisons for former years in our cotton report to-day (page 2353). All other crops are either in promising shape, or else in a condition which favorable weather from this day on would render promising. Wheat, both winter and spring, and oats, as we stated a week ago, look well, though less free from complaints than last month. Corn planting is backward, while the cold and rain have retarded growth and made replanting necessary in sections. It is, however, by no means assured that a large crop of corn will not be the outcome, for the rain has left the ground full of moisture, suitable for rapid growth if the weather changes so as to favor the crop in other particulars.

Trade does not in some departments give promise of being as active as in 1904. The complaint is that consumption has in many directions shortened, and consequently retail merchants, having considerable stocks left over, are not buying largely. This we get mainly from commercial travelers. Cotton goods are in demand, and as that seems to be the situation at all manufacturing centres the world over, the activity is likely to continue unless speculation in raw cotton should go on and not be followed by corresponding rises in goods. Steel and iron we have reported fully in previous weeks; no considerable change appears except disruptions of the pools, threatening, but without as yet disturbing, market prices; we see also that a falling off in the production of iron is reported. This latter is a very natural incident, and, indeed, is reassuring. It suggests that consumption, if it should continue to decrease, may not fall much if any below the output, and hence that prices will be kept remunerative. The general conclusion is also true that every record of the trade movements indicates a volume of transactions of all kinds still very large. This is especially shown by the weekly clearings reports. Looking them over for a series of weeks, it will be found that clearings not only show increases in New York, but that the aggregate of exchanges at other cities continues in excess of a year ago. Railroad earnings up to the present time lead to a similar conclusion.

The Stock Exchange has had only one source of exhilaration the current week, and that merely temporary.

Crops and trade are not at all in a discouraging shape; nor are they in a first-class condition. We give our an nual cotton aereage investigation and review to-day on

When the news came of the overwhelming victory of Admiral Togo, prices advanced. The event and its results were so complete that a feeling of elation was a spontaneous creation which nothing could resist; at the same time the foreign buying of American stocks became a feature. All that which was emotional soon passed; then came the question, What next? Peace or simply more war? Rumors of a settlement were afloat in Europe and America, the report being current here that President Roosevelt was taking a leading part. It is generally admitted to-day that there is no immediate prospect of an end to hostilities. When the heavy rains in Manchuria cease, which have for the moment put an embargo on the movement of large armies, then the slanghter is expected to begin again. That certainly is not a buoyant prospect; but peace is possible at any time. So it is with all the influences which to-day act upon the Stock Exchange. The waiting attitude the market has assumed is a direct reflection of this general Yesterday the State stamp-tax situation of affairs. bill went into effect. The Governing Committee of the Stock Exchange has ruled that any member of the Exchange who assumes any part of the tax, or relieves his principal from it, is guilty of a violation of the Exchange Constitution with regard to commissions. With such an important change awaiting the business operations of that body, it is natural that its first effect should be to excite more or less friction. So, too, it is with the crops, with steel and iron, and with other markets. They are all in a process of change, and, as a result of that general state of hope mixed with uncertainty, many classes restrict dealings.

The sensational position which began in Philadelphia with the removal of two city officials by Mayor Weaver, followed by a court injunction that ousted his appointees and reinstated the men removed, was again changed when a higher court vacated the injunction and reinstalled the Mayor's men as appointees awaiting confirmation. Then the ring either lost courage or thought a temporary retreat would be prudent, for they publicly abandoned the gas lease, which desertions in the Councils had shown to be hopeless for the present. The more complete surrender followed on Monday in the public announcement that the injunction proceeding will be discontinued and that no opposition to the confirmation of the new appointees will be made.

Thus is once more illustrated the fact that corrupt organizations, though they may bear one party name in one city and in another city a different name, are sure to be overthrown when long-continued submission to them has led them to forget what is the real seat of power. When they grow so bold as to defiantly ask what is going to be done about it, and to consider themselves to be the people for all practical intent, something *is* done, and the corrupt machine is broken.

Gov. Folk of Missouri sent a reminder to Mayor Weaver of Philadelphia that he had behind him "the strongest machine in the world, the hearts and consciences of the American people." Public opinion, unfortunately, differs from a machine in that to really arouse it, much more to organize it towards any definite end, is exceedingly difficult. As an example, take the now-forgotten attempt, something more than a year ago, of a young clerk in this city to rally support on behalf of the principle of the right of labor as against the tyranny of unions. He simply began individual effort, stating

ened by them; it is the corrupt or self-aggrandizing scheme which always has pushing adherents, just as public administration always tends to fall into the hands of the worse instead of the better elements of society. As we all know, this is because those who have something to get by it can always afford to give their time to practical politics, and they find the work congenial, while really public-spirited persons find this disagreeable and even repulsive, and they have their living to earn in their regular business.

It is idle to dream of a Utopia in which these conditions and tendencies shall be reversed; we have to take the drawbacks and drift of democracy as we find them and do the best we can. The most serious fault is the lack of a sufficiently serious, quick and determined public opinion. When observation and current news suggest to the young man that to get on for one's self is the first law of Nature, and the eleventh commandment, which forbids being found out, is the most important, it is no proper matter for jest. Instead of talking pleasantly about graft and repeating stories of Senator Sorghum (the typical manipulator in politics), there should be such a white heat of public scorn and indignation as would blast corruption.

The Pennsylvania Railroad return of earnings for the month of April was issued this week and reflects a continued large volume of traffic, as indeed would be expected considering that the lines of the Pennsylvania system gridiron the iron and steel districts of the Middle and Middle Western States. The amount of increase in gross earnings is not as large, either on the Eastern lines or on the Western lines, as for the mouth immediately preceding, but it is to be borne in mind that results in April 1905 were based on one less working day than the corresponding results for April 1904, due to the fact that the month this year contained five Sundays as against only four Sundays in April 1904. On the lines directly operated East of Pittsburgh and Erie the addition to gross receipts, notwithstanding this loss of a day (which loss is an important item with so large a system), was \$487,400, while on the lines directly operated West of Pittsburgh & Erie there was a further increase of \$273,900, making the gain in gross for the combined system \$761,300. It is to be noted that this improvement is larger than the loss in gross receipts sustained in April 1904, when the combined lines reported \$577,-700 decrease. The year before (in April 1903) there had been no less than \$2,289,500 improvement in gross receipts, making it evident that comparison is with large totals.

In the net earnings the results are not so favorable, there being a loss on both the Eastern and Western lines following a loss in the year preceding, too. The smaller net is due of course to augmented expenses and the inference would seem to be warranted that with traffic and earnings large, the Pennsylvania is pursuing its old-time policy of making extensive improvements and charging the cost to operating expenses. At all events expenses for the month were added to \$665,000 on the Eastern and \$414,600 on the Western lines, or \$1,079,600 together, leaving \$318,300 decrease in net for the combined system. In the following table we furnish a comparison of the gross and net earnings for the last six years on the liues operated east of Pittsburgh and Erie-the only portion of the system for which we have the data for such a comparison.

his own feelings and inviting expression by others; the thing caught and spread until the development of an informal league seemed possible; but for lack of leadership, a specific present object, and the self-interest which keeps up a steady work, the movement gradually slipped out of mind.

۹.

There is, though, an irresistible power in public on the East opinion when the exigency becomes grievous enough to arouse it. It is the reserve weapon of popular government. Unhappily, things which are intrinsically right and of public advantage do not, for that reason alone, gather an active support, but, on the contrary, meet the active opposition of those whose selfish plans are threathave the d

LINES EAST OF PITTSBURGH.	1905.	1904.	1903.	1902.	1901.	1900.

Net earnings	8,709,594	7,799,694	10,110,794	10,462,994	10,039,694	7,867,528

NOTE .- These figures include the Buffalo & Allegheny Valley Division for 1901, 1902, 1903, 1904 and 1905. In Apr., 1901, the earnings of this division were approximately, gross, \$604,405; net, \$114,971. From January 1 to April 30 the earnings of this division in 1901 were \$2,810,770 gross and \$611,667 net.

It will be seen from the foregoing that for the four months to April 30 the company is \$2,585,600 ahead of last year on its gross earnings for the Eastern lines and \$909,900 ahead on its net earnings. We may say, too, that on the Western lines there has been a further addition for the four months of \$1,613,200 in gross earnings and \$391,700 in net earnings.

Foreign bankers, and especially those with Continental connections, look with some hope that negotiations for peace will be opened not long hence on behalf of Russia. It may be noted that there was nothing in the movements in foreign exchange which could be regarded as indicating the pendency of peace negotiations. On the contrary the short sales and the increase in offerings of finance bills would seem to show that continued ease in French discounts was looked for, whereas if peace was expected the natural inclination would be to restrict future commitments in exchange in anticipation of activity and higher rates for discounts at Paris, which would be disadvantageous to operations of this character.

There was uo change in official rates of discount by any of the European banks this week, and unofficial or open market rates were easy at all the principal centres. The news of the victory of the Japanese fleet under Admiral Togo over that of the Russians under Admiral Rojestvensky in the Straits of Corea caused a buoyant advance in Japanese bonds in London and a fall in Russian securities in Paris; the latter, however, partially recovered on rumors of the probability of the opening of peace negotiations.

The feature of last week's statement of the New York Associated Banks was a decrease of \$9,423,400 in loans. The cash reserves increased \$740,200 and the deposits decreased \$10,022,500. The surplus reserve increased \$3,245,825 to \$11,465,800. The bank statement of this week should reflect, among other items, the transfer hence on Monday to San Francisco, through the Sub-Treasury, of \$3,000,000 for the bank of California; an additional sum of \$300,000 was transferred on Friday.

Wednesday transactions were at 4 per cent and at 24 per cent, with the majority at 2½ per cent, and after the higher rate was recorded money fell to $2\frac{1}{2}$ per cent. On Thursday and on Friday loans were at 3 per cent and at $2\frac{1}{4}$ per cent, with the bulk of the business at 2½ per cent. Time contracts were freely offered by banks, trust companies and foreign bankers, the latter placing the proceeds of finance bills quite generally at 3½ per cent for the six months' period; the inquiry for short dates was insignificant. Quotations for loans on good mixed Stock Exchange collateral were $2\frac{3}{4}$ a 3 per cent for sixty to ninety days; $3\frac{1}{4}$ per cent for four to five months; $3\frac{1}{2}$ per cent for six, and $3\frac{3}{4}$ per cent for seven to eight months. Though some choice double-name paper has been sold at 31 per cent, dealers quote $3\frac{3}{4}$ @4 per cent for sixty to ninety-day endorsed bills receivable and for the best four to six months' single names; good paper for these periods of maturity is $4\frac{1}{2}$ to 5 per cent.

The Bank of England rate of discount remains unchanged at 21 per cent. The cable reports discounts of sixty to ninety-day bank bills in London 21 per cent. The open market rate at Paris is $1\frac{1}{4} @1\frac{3}{8}$ per cent and at Berlin and Frankfort it is $2\frac{3}{8}$ per cent. According to our special cable from London, the Bank of England gained £335,867 bullion during the week and held £37,886,406 at the close of the week. Our correspondent further advises us that the gain was due to imports of $\pounds 403,000$ (of which $\pounds 8,000$ from Australia and $\pounds 395,000$ bought in the open market), and to shipments of £67,000 net to the interior of Great Britain-

The foreign exchange market was easy this week, influenced by a comparatively light demand for remittance and by fairly liberal offerings. There were large purchases early in the week of stocks for London account, stimulated by the buoyant tone of that market as the result of the Japanese naval victory, and this buying contributed to a good supply of security bills. Expectations that discounts abroad would grow easier, now that preparations for possible emergencies arising out of the Far Eastern situation would be no longer necessary, and that money rates here would be firmer, at least in the cropmoving season, encouraged the drawing of finance bills and the negotiation of sterling and franc loans. There was some selling of 90-day sterling bills, with the proceeds of which commercial drafts were bought or contracted for, and cotton bills were in good supply. The demand for exchange appeared to be chiefly confined to that for mercantile remittances and for traveler's credits, and it is reported that the latter are absorbing about £1,000,000 to £1,500,000 sterling per week. Some bankers are of the opinion that through short selling and the large volume of finance bills an overdrawn market will be developed early in the crop export season which will tend to the maintenance of comparatively steady rates, even though exports of commodities shall be free. Other bankers somewhat confidently look for an early ending of the Russo-Japanese war, which will have an important influence upon all commercial markets and upon that for foreign exchange. Gold received at the Custom House during the week \$32,073. Nominal quotations for sterling exchange are 4 853@ 4 86 for sixty day and 4 872@4 88 for sight. Rates for

8

The market for call money was easy early in the week, influenced by the favorable bank statement and by liberal offerings. On Wednesday afternoon, however, calling of loans preparatory to the disbursement of June dividends and interest caused an advance in the rate to 4 per cent, and though there was a recession on the following day, money was in fairly good demand to the close of the week; the range was from $1\frac{1}{2}$ per cent to 4 per cent and the average was $2\frac{1}{4}$ per cent, at which rate banks and trust companies generally placed their funds. On Monday money on call, representing bankers' balances, loaned at 24 per cent and at 12 per cent, with the bulk of the husiness at 2 per cent; Tuesday was a holiday. On actual business on Monday were easier, compared with

2311

those on Friday of last week, at a decline of 5 points for long to $4 \ S510 @ 4 \ S520$ and of 10 points for short to $4 \ S7@ 4 \ S710$; cables were 5 points higher at $4 \ S735 @$ $4 \ S740$. Tuesday was a holiday. On Wednesday long and short fell 5 points to $4 \ S5@ 4 \ S515$ for the former and to $4 \ S695@ 4 \ S7$ for the latter, while cables were 10 points lower at $4 \ S725@ 4 \ S730$. On Thursday the market was dull at a decline of 5 points for long, to $4 \ S5@ 4 \ S510$ and of 5 points for cables to $4 \ S720@ 4 \ S730$; short was unchanged. The market was steady on Friday at unchanged rates.

The following shows daily posted rates for sterling exchange by some of the leading drawers.

ADMIRAL TOGO'S GREAT VICTORY.

With a quite unanimous voice, the world has agreed in pronouncing the battle of last Saturday and Sunday in the Corean Straits one of the great naval conflicts of history. Such a position of pre-eminence may be enjoyed for either of two reasons-because of the extraordinary completeness of a victory itself or because of the epoch-making character of the political results which follow. To very few naval battles can such a place be awarded on both grounds. The celebrated sea fight of Salamis, which put an end to the Persian ambitions for conquest of Greece; the battle of Lepanto, which forever. excluded the Turkish power from Central and Western Europe; the destruction of the Spanish Armada, which was the crushing blow to the ambitions of the great empire bequeathed by Charles V., and the battle at Trafalgar, which disposed of Napoleon's aspirations to naval supremacy-these are perhaps the only past events of the sort worth a foremost place in the list. The battle of last Saturday may certainly be ranked with them so far as regards the magnitude of the victory; whether its direct political consequences will be equal cannot yet be said. It is not even certain that this crushing defeat will lead to immediate peace; nor if it did, could it be ; said that it was as great a single influence in that direc-, tion as the land battle at Mukden last March.

Briefly summarized, the story of Saturday's sea fight was as follows: In number of ships, large and small, the two opposing fleets were fairly balanced; but the Russian fleet was clearly pre-eminent in powerful vessels of the battleship type. As we have hitherto pointed out, the Russian fleet was undoubtedly hindered by the presence of many ships of the old and obsolete type; it is needless to add, even without accepting the Paris stories of landsmen serving in the crews of Rojestvensky, that the morale of the Russian fleet was wholly inferior to that of the Japanese. On the other hand, several of the Russian battleships were of the newest type, having in fact been completed within a year. Togo had to rely, first, on the trained capacity of his men; next, on the large equipment of torpedo boats and smaller boats, thoroughly prepared and disciplined for the conflict. The high strategic qualities shown by the Japanese Admiral himself and the proven excellence of his lieutenants were properly reckoned as the paramount factor in the calculation.

In view of what has happened, there is little doubt that the Russian Admiral intended to challenge his antagonist to fight. Whether his purpose was or was not to break through to Vladivostock, in case he was not opposed, it must at all events be admitted that he selected the one route where encounter with Togo was most probable. But in so doing he chose the route which the Japanese Admiral would undoubtedly have wished him to select-a narrow strait, with a hostile shore on each side and with dangerous rocks ahead in one direction. So far as particulars have reached us, the Japanese Admiral, sailing forth from his concealment, detached his chief assistant, Admiral Kamimura, to double on the Russian fleet and obstruct its retreat from behind. Then, attacking the fleet in front and on the side, he assailed it first with the heavy battleship fire. then with a furious attack of torpedo boats and probably submarines. The result appears to have been that the Russian fleet, wholly demoralized by this encircling fire, then forced to close in upon itself, lost at once the opportunity either to maneuver or to reply effectively to

* The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, increly reporting the total gold and silver; but we believe the division we make is a close approximation.

† The Austro-Hungarian Bank Statement is now issued in Kronen and Heoer instead of Gulden and Kroutzer. The reduction of the former currency to storling \pounds was by considering the Gulden to have the value of 50 cents. As the Krone has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to \pounds , has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

the enemy's fire, and at length, when the Admiral's ship had sunk, was reduced to a state of panic. It was at this time, after nearly forty-eight hours of fighting, that Admiral Nebogatoff, his advance and retreat cut off by the Japanese cordon, his flanks assailed by a vicious torpedo boat attack, and his ships drifting toward the rocks, hauled down his flag. The result of this famous battle was that the Russians lost practically all their fleet. Of the eight battleships which entered the China Sea a few weeks ago, six have been sunk and two captured, five other powerful vessels have been taken by the victors and of the remaining smaller vessels, less than half a dozen have escaped. Nearly 7,000 men were lost, not including some 4,000 prisoners. Four of the Russian Admirals, including the Commander-in-Chief, were captured; one was killed in battle. The Japanese lost three torpedo boats and three or four hundred men.

Of the great naval battles in history, we know no other to which this victory can be compared for its completeness save that between Sir Francis Drake's English fleet and the Spanish Armada in 1588 and Nelson's victory over Villeneuve's combined French and Spanish fleet at Trafalgar in 1805. It may, indeed, be said that the victory in the Corean Straits, all things considered, was more complete than in any of these famous engagenents. Trafalgar ended with a larger proportion of the thirty-three hostile ships captured than happened in this week's Eastern fight; but in the enemy's total losses Nelson's victory was less thoroughgoing than Togo's. The defeat of the Armada, on the other hand, while accompanied with terrific loss, resulted in practically no captures. In some of its separate aspects the Japanese victory resembles each of these two celebrated conflicts. Like Nelson, Togo appears to have laid a somewhat complicated plan of action, with absolute confidence that the enemy would so blunder as to render the plan of maneuver feasible. So perfectly had Nelson provided for every contingency that his death long before the battle was over did not for a moment interrupt the carrying out of the battle program. Similarly, Togo's lieutenants acted with absolute precision, in harmony with the general plan of action, long after the commander's vessel was cut off from view by fog. No such perfect plan of action could be claimed in the fight with the Armada. But, on the other hand, the destruction of that Spanish fleet in the English Channel was made possible largely by the clumsy huddling together of too many great ships over-crowded with untrained men-which is almost exactly what must be said regarding Rojestvensky.

It is still too early to answer the two pregnant quesadmitted that it would be regrettable, may we not say tions arising from the sea fight—one, as to what it proves reprehensible, if in seeking to secure said object existing regarding the relative merits of battle-ships and torpedo equities were jeopardized or disregarded. Justice Maddox boats; the other, how it will probably result in hastening finds that there are such equities, that these equities peace. The torpedo-boat question is of high interest, not would be disturbed, and he accordingly grants the relief less so because of the general tendency of naval critics, prayed for. before and since the battles at Port Arthur, to pronounce Whether or not one likes the decision, this is an aspect these vessels a comparatively ineffective form of armaof the matter that will appeal to thoughtful persons. In ment. It will be necessary to await more particulars, a controversy involving so many sensational featuresespecially as to the use of submarines and mines last such a series of charges and counter charges-one's Saturday, before passing judgment finally on the quessympathies are very apt to run away with one's judgtion. We are bound to say, however, that the nature of ment. We dare say that to the vast majority of outthe victory was hardly such as to impress us with Presisiders the interests of the policyholders, with their 1,500 million dollars of insurance, will seem superior to the dent Roosevelt's comment that it proves conclusively our need for a larger navy, and especially for more battle-\$100,000 of stock which has thus far held control of ships. Had the Russians won the fight, or had it re- the company; and so in one sense they are. But this sulted in a drawn battle, leaving both fleets crippled, should not blind us to the circumstance that the stock some such interence might be admissible. But on this has certain rights and is entitled to full protection in the

occasion it was the smaller fleet which won-discipline, morale, and the smaller vessels carried the day.

As we write, the Russian diplomatic authorities at St. Petersburg and at Washington are protesting that peace is now impossible, since Russia cannot afford to yield after so humiliating a defeat. It strikes us, however, as it undoubtedly strikes the rest of the civilized world, that if the court cabal at St. Petersburg proposes to go on fighting until Japan's commanders can no longer defeat the Russians, their plan must contemplate fighting until there are no Russians left. The position is absurd and we trust will be so recognized when sober sense has returned to the Imperial councils after this stinging blow. To-day the perfectly plain situation is that Russia's seapower is annihilated; what is left of its Manchurian army is conducting a hopeless fight to save Vladivostock; domestic revolt is so formidable that the home troops could scarcely be spared for foreign service; while the Government's power to finance the war, through further foreign loans, is probably now destroyed. When to this is added the fact that the body of Russian public opinion -voiced in its newspapers, its provincial assemblies, its labor unions, its professional societies, and in the Council of the Czar himself-has for months denounced the war and demanded peace, we confess our inability to see how continued fighting, after this week's crushing blow, is open to sane consideration. If the clique of grand dukes does succeed in forcing the unhappy occupant of the throne to defy this rising wave of outraged national feeling, it can only be because the gods are making mad those whom they mean to destroy.

JUSTICE MADDOX'S EQUITABLE DECISION AND PROPERTY RIGHTS.

There has been so much that is unsavory, so much that offends the moral sense, in the various developments connected with the affairs of the Equitable Life Assurance Society—the disclosures seemingly getting worse with each succeeding week—that it is a welcome relief to find one act to which genuine approval may be given. To our mind the decision rendered by Justice Maddox on Friday of last week at Special Term in the Supreme Court must be regarded in that light. In saying this we do not overlook the fact that the effect of that decision necessarily is to defer the time when the policy holders shall have participation in the management of the Society. But granting that such participation is desirable, there are considerations which must be held as transcending in importance even that end. It will be admitted that it would be regrettable, may we not say reprehensible, if in seeking to secure said object existing equities were jeopardized or disregarded. Justice Maddox finds that there are such equities, that these equities would be disturbed, and he accordingly grants the relief assertion of these rights. More than that, the minority holders also have rights as against any attempt on the part of the majority holders to impair the value of their property, and the protection of such minority interest is a consideration of equal if not of greater importance, for a minority is always in a more or less helpless condition and in peculiar need of the protection which it is the function of the courts and the laws to throw around the same. In the present suit it was the minority stockholders who appealed to the Court for redress.

We are particularly impressed with the opinion of Justice Maddox because it holds fast to a vital principle the protection of vested rights. The foundation of society, as now constituted, rests on that basic element. Of course a judge is not supposed to be swayed by popular prejudices; but even judges, being human, would rather render judgment, we must suppose, in accord with public desires than the contrary, provided this can be conscientiously done—especially where, as in the case under review, such serious scandals and abuses have grown out of the old order of things. Hence the fact that in the present instance the judge found himself obliged to run counter to current sentiment in a matter which has excited the community to so high a degree must give additional weight to the conclusions reached.

The suit, it will be recalled, was brought by Franklin B. Lord, who sought to enjoin the so-called plan for the mutualization of the company; that is, the plan for conferring upon the policyholders the right, in person or by proxy, to vote for and to elect a majority of the directors of the company, thus working a change in the manner of control of the corporate powers of the company. The plaintiff claimed that there was no authority or power in the corporation to amend its charter in the form as contemplated-that any statutory or constitutional reservation of power (if there be any applicable to the company) to so amend the charter of a stock company would be subversive and in derogation of the vested property rights of the stockholders; hence in conflict with the provisions of the Federal and State constitutions. Justice Maddox goes into an extended discussion of the question of the right to alter, amend or repeal the company's charter, but this part of the argument will be found rather abstruse for lay minds, and we shall not, therefore, attempt to cover it here.

The Equitable charter provides that in the election of directors each stockholder shall be "entitled to one vote for each share of stock held by him" in person or by proxy, and that each policyholder insured for not less than \$5,000 may by action of the board of directors be accorded one vote, to be given in person but not by proxy. But Justice Maddox points out that at the time of the company's incorporation (the company was incorporated under the General Laws of 1853) the law expressly provided that at "every election of directors * * * no persons shall be admitted to vote except those in whose names the shares of stock shall stand" on the corporation's books. He therefore asks, is not a grant of the right to vote at an election of directors to a person who is not a stockholder, not a member of a stock corporation, but is a policyholder thereof, inconsistent with the plain language of the provision that "no persons" except stockholders "shall be admitted to vote" thereat. If so, the charter must be considered with that provision eliminated. Nor does Section 52 of the Insurance Law give authority for the proposed mutualization plan. This Section contemplates corporate action by the board

of directors only, "a vote of a majority" thereof, and not the corporate action of the stockholders. Here there has been no opportunity afforded the stockholders to act as such upon the proposed change, no stockholders' meeting has been called or held for that purpose, and the subject was not presented for consideration at the annual meeting for the election of directors held in December 1904.

Justice Maddox says that the suggestion that the assent of the majority of the shares of stock, no corporate meeting having been held, is sufficient to bind the minority stockholders, is without merit. The action of stockholders, where necessary, must be had at a stockholders' meeting, otherwise it is the act and expression of the individuals only, though it is undoubtedly true that where a stockholder or a member of a corporation expressly consents to or tacitly acquiesces in any corporate act he will afterwards be estopped from impeaching such act.

Passing to consideration of the question whether the proposed amended charter is violative of the protection accorded by the Federal and State constitutions, it is pointed out that the stockholders of the Equitable are members of the corporation, are the equitable owners of the corporate property, and the right of a stockholder to vote upon his holdings of stock is a property right, "one of the essential rights of ownership;" hence, the right of a stockholder to participate in the selection of those who are to be vested with the exercise of the corporate powers, the board of directors, is an attribute to his shares of stock which has been "defined as a right which its owner has in the management, profits and ultimate assets of the corporation." In an election for directors of a stock corporation, unless the charter otherwise provides, the share of stock is the voting unit, and, in the absence of some controlling statutory, charter or by-law restriction, the right of the stockholder "to vote his shares at corporate elections is an incident of the ownership of the shares; it inheres in the legal holder of them under the principles of the common law and is in the nature of property." Thus it was held in Kinnan vs. Sullivan County Club, that "the right to vote upon stock of a corporation is essential to the protection of its owner. It is one of those inherent rights which go with the purchase of, the stock. * * * The power to take away the franchise of a stockholder stands upon the same footing precisely as the power to prevent the transfer of stock."

The persons who originally subscribed and paid for shares of the defendant company's capital stock did so, it is to be presumed, Justice Maddox urges, upon the faith of the declaration of incorporation, the provisions of the law under which the company was formed, and also the provisions of the Revised Statutes applicable thereto, which assured to the stockholder, by reason of his right to vote for all the directors, that measure of participation in the control and management of the corporation, its property and affairs. Those to-day holding such shares of stock have the same right to rely upon such provisions of law and of the charter, save as they have been within constitutional limitations, amended or repealed. By such declaration of incorporation and such provisions of law. each stockholder has the right to vote for all the directors, each of whom shall be the owner of at least five shares of such capital stock. The board of directors is to elect annually "from among their number a President," and this insures the selection of a stockholder as Presi-

dent. It is now proposed, Justice Maddox continues, that the stockholders shall have the right to vote for and to elect but six-thirteenths in number of the directors hereafter to be elected, and if the board shall consist of fifty-two persons, then the stockholders may, by a plurality of their votes, in person or by proxy, elect twenty-four only, and in that ratio if the number be diminished. Thus the stockholder has lost the right to vote for all, and as well a majority, of the directors, and that would prevent him, as said in Sullivan vs. Parkes, from exercising one of the essential rights of ownership, viz., that "of voting on his' stock" for all directors to be elected.

By the present charter, as already stated, a policyholder insured in not less than \$5,000 may be accorded in an election for directors (who shall be stockholders, however,) one vote "to be given personally and not by proxy," but by the proposed amended charter each director may be either a policyholder or a proprietor of at least five shares of the capital stock, and all policyholders are to be entitled, in any such election for directors, each to one vote, in person or by proxy, and to have the right to vote for and to elect seven-thirteenths of the number of directors to be elected each year. The board of directors is likewise, annually to elect from among their number a President, who may be either a policyholder or a stockholder having at least five shares.

On the argument it had been asserted by both sides that there were upwards of six hundred thousand policy holders scattered all over the world. That being so, the right to vote by proxy relieves those not living conveniently near to the place of annual meetings from the necessity of travel. But assume, for the sake of the argument, the opinion goes on to say, that a majority of the policyholders availing themselves of the voting privilege (waiving for the time the question of legality) vote by proxy, and such proxies are controlled by persons whose interests and desires may be inimical to the rights and interests of the stockholders, and the opportunity for the absolute loss of control by the stockholders is presented. "Consider the possibility; there would be the policyholders' majority, twenty-eight to twentyfour, as the board is proposed to be constituted, with the selection by that majority of a policyholder for President and the filling of the offices of the .company with policyholders or persons not stockholders, and then calmly answers the question: Have the property rights of the stockholders been invaded or destroyed?"

It is not to be argued, continues Justice Maddox, that the years since then to show what has been going on. The population of the States and Territories named at such a situation is probable; but it is possible, and then the right of dominion over the management, profits and the close of 1904 he finds to have been no less than ultimate assets of the company would be lost to those 19,354,451, an increase of practically fifty per cent in who can only look for that which their shares of stock fourteen years. The corn crop of this section in the represent, after every debt and liability of every nature, same term of years has risen from S11,259,500 bushels to contingent included, have been fully paid and discharged. 1,253,223,020 bushels, the wheat crop from 164,821,000 It is undoubtedly true that the law now is that, unless so to 321,893,517 bushels, the oats crop from 279,699,000 to provided and required by statute or by charter, a direc-404,512,675 bushels, and the cotton crop from 2,900,000 tor of a corporation need not be a stockholder therein; bales to almost 6,000,000 bales. Moreover, the people have been getting out of debt. State debts have been but in the Equitable case the requiof the charter is that the directors shall each be the proprietor of five reduced fully one-half. The late Bob Ingersoll, after shares at least. Thus, the conclusion is that, as to deprive traveling through Kansas in the year 1889, stated on an owner of property of any one of "its essential attrihis return East that the farms of the State were so butes is depriving him of his property," the contemplated heavily mortgaged the farmer at night could "hear the change of charter by the Equitable must be regarded as interest grow on his mortgage." Were the Colonel depriving the Equitable stockholder of his property. On still alive, says Mr. Wade, and should he travel through these various grounds the motion for an injunction was not only the State of Kansas, but any of the States and granted. Territories enumerated, he could truthfully declare that

DEVELOPMENT OF THE MIDDLE WEST.

At the annual convention of the Missouri Bankers' Association held at Kansas City last week, very naturally the wonderful development experienced by the Middle Western States in recent years formed an interesting theme of discussion. Nearly all the different speakers dwelt upon some phase of the subject, and we think a useful purpose is served in bringing together every now and then in such a prominent way the facts with reference to this development of the remoter parts of the country. We use the word "remoter" in the sense in which it is commonly employed in this part of the country, meaning remote from the Atlantic seaboard, for, as a matter of fact such are the dimensions of the United States that those living in the Middle Western sections could themselves very appropriately speak of the territory further west as being "remote."

One of the addresses which dealt with the subject of the growth of the Middle Western States perhaps more fully than any other, and in a decidedly interesting way, was that of Mr. Festus J. Wade, President of the Mercantile Trust Co. of St. Louis. The title of his paper was "Financial Strength of the Middle West." The paper was replete with facts and figures pertinent to the occasion and which help to throw light on the many questions to which the growth and development of the country are always sure to give rise. After noting that surprise has often been expressed in financial circles in the East at the decrease in the demand for money for the movement of crops in the Middle Western States, he seeks to give some of the reasons for such diminution. By the Middle Western States he refers to that section of the country west of the Mississippi River which embraces Arkansas, Louisiana, Texas, the Indian Territory, Oklahoma, Missouri, Iowa, Kansas, Nebraska, North Dakota, South Dakota and Minnesota. He says the fact is that people of the States and Territories mentioned have been acquiring wealth at such a rate that with the continuance of present prosperity it is only a question of a comparatively few years until banks and trust companies will be obliged to invade the Eastern and New England States to loan their money at profitable rates. Already banks and trust companies in the section referred to have purchased commercial paper of Eastern manufacturing, industrial and commercial corporations in order to keep their money employed. He gives statistics for the Census years 1890 and 1900 and

the tables had been turned, and that now the farmer, the merchant and the manufacturer could "hear bountiful crops grow."

In aggregate bank and trust company resources, the increase has been most noteworthy of all-from \$630,-975,671 in 1891 to \$1,704,700,000 in 1904. Mr. Wade thinks the financial strength of the States and Territories enumerated is fairly reflected by these increased bank resources. It is his opinion that for every dollar the Western merchant and manufacturer owes the financial institutions east of the Mississippi River, the banks and trust companies of the States and Territories named have more than a dollar on deposit with Eastern institutions.

The reader will note with interest what Mr. Wade has to say with reference to the railroads and the subject of railroad legislation. Judging from the arguments made by those who are conducting the present agitation against the railroads, one would suppose that the whole West was up in arms demanding relief from the alleged oppression of the people by the railroads. There is not a trace of any such sentiment or feeling in the address under review. On the contrary, Mr. Wade takes particular occasion to say that if those gentlemen who are endeavoring to legislate for the Western country in the Halls of Congress will allow the people of the West to deal with their railroads in the future as in the past, working hand-in-hand for the development of the new and non-exploited territory, they will confer an infinitely greater blessing upon that section of the United States than they may bestow by any law they put upon the statute books looking to the regulation of railroad rates. It has been the experience, he observes, of those who have grown up in the West that the most enterprising and energetic class of people in the Western country are railroad managers, whose every endeavor is to create along the lines of their roads, or adjacent thereto, sufficient tonnage to aid in the operation of the roads at a fair rate He declares very emphatically that any of profit. interference in the next ten or fifteen years with the present system of railroad building is bound to be prejudicial to the interests of the States and Territories concerned.

The subject of speculation also received a good deal of attention at the convention of the Missouri bankers. Mr. D. A. Moulton, Vice-President of the Corn Exchange National Bank of Chicago, made an excellent address dealing with the matter, his theme being "Prosperity and Speculation." Speaking from a banking experience covering a period of thirty-two years, he cautioned particularly against borrowing by banks and borrowing by bank officials. He explained that he did not mean that a bank official having proper collateral should be prohibited from borrowing. What he had in mind was the bank official who lends his personal credit by endorsing notes, etc., given to support outside companies and institutions with which he is connected, and who asks the correspondents of his bank to make him personal loans to be used for the purposes of assisting such outside enterprises. He well says that such a course if persisted in is sure to cause trouble in the end. A man who engages in the banking business must either close the door on speculation and outside schemes of the least doubtful character or he will invite serious results.

periods which in current discussions is often disregarded and which yet is a factor of great moment in the situation. He notes that the signs of reaction from the prevailing prosperity are few, though the rise in the volume of trade to the highest figures ever known suggests something like culmination, and the recent declines in the stock market are even more suggestive of what may happen. But one thing should constantly be borne in mind when comparing the present time with any preceding epoch in the country's history. We now have, avowedly and unmistakably, a gold standard, which we did not have pricr to 1900. He well says that few people appreciate the importance of this fact in forecasting business probabilities. It gives steadiness and confidence where once distrust and apprehension prevailed. It allies us closely with the rest of the civilized world and relieves us of a thousand and one complications which harassed the country during the paper-money and silver regimes.

COTTON ACREAGE AND CONDITION JUNE 1 1905.

Both in production and marketing of cotton the season now drawing to a close has proved epochal. A crop of unprecedented proportions-the yield exceeding previous records by from 2 to $2\frac{1}{2}$ millions of bales and showing an increase of about 3¹/₂ millions over the previous yearhas been marketed without excitement and on a basis of values at all times remunerative to the planter. Heretofore in years of full outturn the almost universal experience has been the rushing of cotton to market without regard to the demand for it, with the result that prices steadily receded until in many cases a point was reached that left practically nothing for the farmer beyond the cost of production, if indeed an actual loss was not entailed. Notable instances of such a situation were the seasons of 1897-98 and 1898-99, when the crops were approximately 11¹/₄ millions of bales. On Sept. 1 1897 middling uplands in the New York market was quoted at 7 13-16 cents, dropped below 7 cents before the close of the month and was down to 5 13-16 cents by November 20th. Some time later the price advanced moderately and reached 69-16 cents June 11, but fell off again and closed the season at $5\frac{3}{4}$ cents, the average for the year having been only a little above 6 cents. In 1898-99 prices were even lower, the extreme range having been from 5 5-16 to 6 9-16 cents, with the average barcly 6 cents. There are probably few crops where so many items of expense are incurred in production and preparation for market as in cotton. And when it is remembered that the average product of cotton from an acre of land has never yet (except possibly in the current year) reached half a bale (250 lbs.), and that the cost of bringing it to New York is anywhere from 1 cent to 1 cent per pound, it can easily be conjectured that on

In dealing with the country's present strong industrial and financial conditions, Mr. Moulton laid emphasis on a

any such basis the producer must fare poorly.

The experiences of the periods mentioned and others of like import we might recall have been improved by Southern planters, as the developments of the current season demonstrate. They have displayed noteworthy sagacity in disposing of this season's product. Instead of forcing cotton upon the market as soon as it could be made ready, they have let supply wait upon demand. and, as inferred above, have been in receipt of fairly remunerative prices all along. Naturally, quotations have ruled much below what they were in the closing point of difference between the present period and past months of last season and the first quarter of this, but

those prices were based upon a decidedly depleted world's supply. On the present occasion considerable supplies of cotton were disposed of by planters at the high level of values which ruled during September to November, inclusive, while during the January slump they displayed no anxiety to part with any material portion of their holdings. A recent remark of one of the members of the New York Cotton Exchange aptly illustrates the changed condition at the South. His remark, made at a moment when the speculative market was without definite tendency, was to the effect that "the South is paying no attention to speculative ups and downs; they hold their stuff-even the low grades-and wait for buyers to make overtures. There is no pressure anywhere." The success of this season's method of marketing may be of use on future occasions. The mere fact that the crop is bountiful is not of itself reason why the planter should part with his staple at prices below cost of production. He has virtually sold on a fair basis and has demonstrated his ability to market the crop so as to conserve his own interests without working injury to others. In this respect, if in no other, the season of 1904-05 is unique in the history of cotton.

As regards the aereage planted in cotton this spring, our investigations indicate a general tendency towards a decrease, but to a less radical extent than early reports seemed to warrant. Last year, it will be recalled, there was every incentive to increase the planting of cotton. As a result of a series of moderate crops, the available floating or visible supply in the world had reached a low ebb before time of planting, and prices, partly in consequence thereof, had risen to a phenomenal level. The high prices naturally restricted consumption, but still supplies rapidly shrunk, and it became clear that an appreciable increase in the American crop was needed to prevent a cotton famine. Southern planters took advantage of the situation and put under cotton a much greater area than in the previous season. Increased acreage, however, does not always insure larger crops, but in this instance nature assisted the effort with almost ideal weather conditions, and hence it turned out that a crop about 2,500,000 bales in excess of any previous record was raised in the United States.

This year, as already stated, the area devoted to cotefforts with the hope of final success. ton has been quite generally reduced, but in varying CONCLUSIONS. degree in different sections. In the first place, it is safe From the details by States given on subsequent to assume that much if not all of the speculative acrepages, we sum up our conclusions briefly as follows: age-land taken from other crops in the spring of 1904 FIRST, Acreage.-Notwithstanding the modification and put in cotton solely because prices were high-has of early intentions in some sections, the general inclination been eliminated: moreover, in those districts where has been towards a material reduction of the area deweather conditions have been particularly adverse there voted to cotton. This is only what could be expected as has been some cutting down, and finally there has been the natural decrease which self-interest has dictated. planting were begun. From a condition of restricted These influences, working together, have resulted in a return to a planting about on a par with 1903-04, or ago, and which induced as full a planting as possible, approximately 29 million acres. What the yield from the current spring opened with every indication that that planting will be is at this time a matter of mere conjecture. With excellent conditions it could reach in would be carried over. Under the circumstances, to the neighborhood of 14 million bales, or unfavorable weather could reduce it to near 10 millions. For the ten years 1895-96 to 1904-05, inclusive, the heaviest average product per acre for the whole belt was 240 lbs. (in 1898-99), the smallest 170 lbs. (in 1903-04), the average for the period being about 199 pounds. Applying these averages to this spring's indicated area, we find that on the basis of the highest a crop of 14 million

est would give a yield of about 10 million bales, and the average would point to an outturn of about 113 million bales. These calculations indicate the folly of making any crop estimates until the critical growing period has passed. And even then the time of occurrence of killing frost has to be reckoned with. We can recall years when early frost reduced the outturn materially, and there are not wanting instances where, with an open winter, cotton remained to be picked in April.

We must of course not lose sight of the fact that this season over much of the area which has been given to cotton planting was delayed by unsatisfactory conditions of weather-excess of moisture, particularly in April and May, in Texas, Louisiana, Arkansas, Mississippi and the Territories. The chief effect is to make the start of the crop later than in a normal year. That, however, is a defect that a favorable season can subsequently repair. In our returns we here and there come across complaints of scarcity of labor, but there are not enough of such complaints to warrant discussion. As regards fertilizers, especially of the commercial sorts, our reports indicate that they have not been used quite as freely as in the spring of 1904. In other words, the takings of fertilizers appear to show a slightly greater decrease than the falling off in acreage. It is not necessary, perhaps, for us to state that their use in important volume is confined to the Atlantic section and Alabama. The Mexican bollweevil, the particular bug-a-boo of the past two or three seasons, we have heard little of as yet. It may be because planting was delayed over most of Texas by rain, giving a late start to cotton; but it is a fact that in but very few reports from that State do we find any reference to the pest.

The efforts of foreign spinners to foster the production of cotton in countries other than America, with the ultimate object of rendering themselves to some extent independent of this conntry as a source of supply, have thus far met with no important measure of success. Experiments have been and are being made in different directions and some supplies have been obtained from sections of Africa and the West Indies, although the aggregate amount of cotton thus secured has been less than one large plantation in the South would contribute. At the same time, the British Cotton Growers' Association and kindred organizations are continuing their

a result of the situation at the time preparations for supply of cotton and high prices that prevailed a year from the record yield of 1904 a considerable surplus plant as freely this year as last, with the possibility, if not the probability, of another abundant harvest, would obviously appear unwise. Farmers who have learned much from recent experiences were quick to see the logic of the situation, and acted accordingly. It will be remembered that before preparations for the crop were begun, attempts were made by agitation to bring bales of the last season's weights would be possible; the low- about a very radical decrease in all sections,

but we doubt very much whether those who were instrumental in starting the movement ever expected to see their predictions of a 25-per-cent cut realized. The decline as made up from our reports approximates less than half of that figure, leaving the aggregate cotton area of the country a little below what it was two years ago. In percentage of decrease, Arkansas leads with 14 per cent, being followed closely by North Carolina, 13 per cent, Mississippi, 13 per cent, and Texas, 13 per cent. In Alabama, where planting operations have been carried on under more favorable auspices than elsewhere at the Sonth, the loss is only 4 per cent. As in former years, we deem it essential to state that absolute accuracy is not claimed for the percentages of each State in this compilation; to reach such a result an actual census would be required. We do believe, however, that they are approximately correct. The changes as we have made them up are shown in the subjoined table:

	Amanag	Estimated for 1905.				
STATES.	Acreage, 1904.	Increase.	Decrease.	<i>Acres</i> , 1905.		
Virginia	37,005		9 per cent.	33,675		
North Carolina	1,240,774		13 per cent	1,079,473		
South Carolina	2,658,509		12 per cent.	2,339,480		
Georgia	4,545,530		10 per cent.	4,090,977		
Florida	327,756		8 per cent.	361,536		
Alabama	4,341,667		4 per cent.	4,168,000		
Mississippi	3,682,971		13 per cent.	3,204,185		
Louisiana	1,731,880		11 per cent.	1,541,373		
Texas	9,106,326		13 per cent.	7,922,503		
Arkansas	2,101,145		14 per cent.	1,806,985		
Tennessee	841,412		12 per cent.	740,442		
Indian Territory	956,255	*********	10 per cent.	860,630		
Oklahoma	726,349		9 per cent.	660,978		
Missouri	66,111		12 per cent.	58,178		
Total	32,363,6 90		10.99 per ct.	28,808,415		

This compilation shows that there is a net decrease compared with 1904 of 10.99 per cent, the total acreage reaching 28,808,415 acres in 1905, against 32,363,-690 acres in 1904. We add the acreage for previous years for comparison, giving at the foot of the table not only the acreage but the total crop for each year, with the percentage of increase or decrease in area or production compared with the previous year and the product per acre.

times excessive rains have been a wide complaint. In Northern Texas, Arkansas and the Territories they have been an adverse feature a large portion of the season, the main effect being to delay the putting in of the seed. Temperature has averaged a little lower than a year ago. There was likewise a cold spell with frost about the middle of April, from which limited damage occurred in some localities. In recent weeks the rains have been excessive in the Atlantic States. Telegraphic advices as we go to press indicate that latterly there has been some improvement in the weather in those sections where rain has been such a prominent feature.

(2) Cultivation has been well attended to wherever conditions of weather have permitted. In districts west of the Mississippi River, except Southern Texas, this work has met with great hindrance from wet weather, and as a result there is much grass and weeds in the fields. Moreover during the last two weeks of May rain is claimed to have interfered seriously with cultivation in many sections east of the river, leaving crops grassy as the month closed. Fertilizers have been less extensively used than a year ago; our reports in fact indicate the decrease in takings of commercial sorts has been in greater ratio than the decline in acreage.

(3) Condition of the plant east of the Mississippi, where up and not deeply in grass, was on June 1 fairly satisfactory in the main. Stands were fair to very good, but west of the river the start was less favorable. In Alabama and the Atlantic States the present outlook is best, but there is nothing in the situation in other portions of the belt to cause apprehension unless excessive rains continue. The fact that in some sections west of the Mississippi seed is only now coming up injects, of course, an element of uncertainty into the consideration of the crop as a whole. Nevertheless, with good weather from now on there is no reason why any belated seeding should not germinate; the fields should not be made clean; and, as we look at it, why a good yield from the area planted should not be realized.

Our summaries by States are as follows:

VIRGINIA.-Adverse weather conditions-excess of moisture and low temperature-delayed the work of preparing land so that planting operations did not begin until later than in a normal season and were not completed until near the close of May. Latest planted seed is not yet up, but with that exception germination has been satisfactory as a rule, and no important replanting has been required. Recent weather has been fairly favorable, and stands thus far secured average good. We hear of no complaints of lack of cultivation, farmers meeting with no special hindrance in olearing fields of weeds and grass. Acreage-Virginia's cotton area is decidedly limited and has suffered an average reduction of about 9 per cent this season. Fertilizers-Greater use has been made of home-made manures this spring, but takings of commercial varieties appear to have fallen off about 15 per cent.

NORTH CAROLINA.-Farm work was hindered in the early spring by wet weather and low temperature, and consequently planting operations, which were started in some localities by the first of April, did not become general until after the 15th, and have only been completed within a day or two. Of course some seed has not yet come up, but with regard to the remainder our returns are quite uniformly satisfactory, germination being described as well to very well. Furthermore, development has apparently been of an encouraging nature, notwithstanding the fact that at times there has been rather more moisture than seemed to be desirable for the welfare of the plant. Temperature, however, has been mainly favorable and little or no replanting has been necessitated. stances Subject to the exception no.ed above of seed not yet up, a stand ranging from good to excellent delayed germination. Furthermore, continuous and at has been secured. Rains during mid-May prevented neces-

SECOND.—With regard to maturity, cultivation and conditions, the conclusions we reach are as follows:

(1) In maturity this crop varies materially in differ-In Alabama and Southern Texas it ent localities. would seem to be more advanced than in an average year. Along the Atlantic it is little if any behind a normal season. Over the remainder of the belt it is backward as a result of the cool, wet weather, which appreciably hindered planting operations and in sections sary field work and brought many complaints of a grassy condition, and it was further reported from some points that labor was scarce. The last few days, however, the weather has favored work of clearing fields of foreign vegetation. Speaking generally, the present crop promise in this State is fairly good. Acreage has been appreciably decreased. In fact the falling off this year more than offsets the addition in 1904. No increases are to be noted in our returns, and in only one or two instances has last year's area been adhered to. The losses as reported range from 2 to 30 per cent, giving a general average of about 13 per cent. Fertilizers — Commercial sorts show a decreased use about on a par with the decline in acreage. Home-made varieties have received normal attention.

SOUTH CAROLINA .- Weather conditions materially hampered preparatory work over much of this State. In the most favored districts planting operations were commenced before the middle of March, but no general activity was displayed until fully three weeks later. Furthermore, continuous rains during the first two weeks of May acted as a hindrance in a number of sections, with the result that seeding was not finally completed until near the close of Despite the somewhat unsatisfactory early con-May. ditions seed is reported to have germinated well in the main, a contrary opinion being expressed by but few of our ccrrespondents. Frost on April 17 did some damage, and to that occurrence as well as to injury by cut-worms and wet weather the necessity for more than a normal replanting is ascribed. We have heard no serious complaints on the score of temperature since the frost referred to above, but almost every return claims that rainfall was excessive the first half of May, inducing a rapid growth of grass and weeds. Conditions then improved, but toward the close of May there were further complaints of too much moisture. Stands.—On this point there is some diversity of opinion. In cases poor stands are reported, but generally they are stated as good to unusually good, and in one instance the best in years. Fields, however, are still grassy and labor is said to be scarce. Acreage.-Replies under this head are of uniform tenor-they denote that the tendency has been towards a decrease of upland crops. The area under Sea Island cotton, however, has been increased. A careful analysis of our returns leads us to place the loss for the State at 12 per cent. Fertilizers.-If the number of tags sold by the State officials furnished a safe basis to go by it would seem that there had actually been an increase in the takings of commercial fertilizers this year. Our reports, however, indicate such an assumption as regards fertilization of land devoted to cotton would be erroneous. At the same time the use of commercial sorts has not decreased in as great a ratio as the reduction in acreage.

GEORGIA.-Much the same influences were at work in Georgia as in the Carolinas to make the planting period later than in a normal season. Cold and rainy weather in February and March checked preparation of the soil, so that even in most southerly sections, where seeding begins generally in the early days of March, little was done until near the beginning of April. The finish on the whole, however, was only a few days behind a year ago. Since seed was put in the ground, temperature has been favorable in the main and germination is referred to as satisfactory. Some go so far as to say that seed came up promptly and perfectly. Whatever replanting is said to have been necessary is reported to be due to injury caused by rain, but we do not find evidence in our returns of more than a limited amount. During early May-in fact down to about the 15th and at some points even later-the rainfall was claimed to have been excessive, preventing much needed field work and consequently putting cotton badly in grass Furthermore, the fear was expressed that labor would be insufficient to cope with the foreign vegetation. This fear does not seem to have been justified by events, as our latest advices denote that stands are good almost universally (a few reports say perfect, splendid and best ever seen), but the fields are yet rather foul in localities. With average conditions from now on, Georgia should raise a satisfactory crop. Acreage.-The tendency has been quite clearly towards reducing area this season. In a fair number of instances no change is reported, but otherwise reductions of 2 to 20 per cent are noted, a fair average of which would seem to be approximately 10 per cent. Fertilizers of the home-made varieties have been a little more

freely used, but the decline in takings of commercial sorts has been quite marked.

FLORIDA.—The time of planting varied but slightly, if at all, from an average year. In a few districts work is reported to have started about a week later than usual, but it was generally completed before the close of the first week of May, or from a week to ten days earlier than in 1904. We hear no complaints whatever about the manner in which seed germinated. They came up very well as a rule, the early development of the plant was satisfactory, and only a limited amount of replanting is reported. May conditions of weather were about as desired, no complaints of excess of moisture or lack of warmth in the atmosphere having come to hand until recently. The plant has therefore progressed and good stands have been secured practically everywhere. Fields, however, are in need of cultivation. Acreage has been conservatively treated in Florida. In some sections moderate additions have been made, in others last year's area has been adhered to, and the remainder of the State reports decreases. Altogether we feel justified in placing the average loss at 8 per cent. Fertilizers are never freely used, but last year an increase in the takings of commercial sorts was reported. The current season there has been a slight decrease.

ALABAMA.-The situation in Alabama has been more satisfactory this spring than in any other considerable section of the South. Early farm work was impeded somewhat by wet weather and consequently putting in of seed was delayed a little, but on the whole planting was only slightly behind an average season beginning about the middle of March, being general by April 10 and finishing in most districts the first week of May. Seed came up well to very well--in instances never better-and development is reported to have been eminently satisfactory, barring the fact that killing frost of April 17th damaged early seedings and rendered necessary a moderate amount of replanting. We have rarely ever received such favorable reports as those at hand covering the weather conditions since growth began down to the middle of May. They of course incidentally refer to the frost of April 17th mentioned above, but aside from that adverse factor nothing was found to complain of, rainfall and temperature having been satisfactory to a degree, and cultivation has been well atteaded to. In fact everything united to give the plant an excellent start. Recent rains, however, are claimed to have put crops badly in grass in some districts. Stands reported nevertheless are very good. According to the returns they range from good to perfect - some correspondents regard them as the best they have ever seen. The present outlook is therefore for a full crop on the area planted. Acreage.-Farmers in Alabama seem to have taken full advantage of their opportunities this season. There has been less land put in cotton than in 1904, but the decrease has been noticeably moderate as compared with the reductions in most other States. At the same time the changes made vary widely in different sections, some reports indicating losses as great as twenty per cent and others gains as high as ten per cent. For the whole State, however, the average falling off would appear to be approximately 4 per cent. Ferturzers.- Official reports issued by the State denote that the sale of fertilizer tags has been greater this year than last, but returns from planters themselves indicate that the amount of commercial sorts used shows a much greater decrease than does acreage. Home-made composts, however. have received slightly greater attention.

MISSISSIPFI.-The adverse conditions which interfered with farm operations in the States already reviewed caused much greater hindrance in Mississippi. No inundation of land is reported, but an unusually wet spring delayed planting in many sections as much as three or four weeks, rain continuing for days at a time during the period from April 1st to the middle of May. Under the circumstances planting operations were unduly prolonged and have been barely completed at this writing. Owing to the facts outlined above, much seed is not yet up, but such as is up is reported to have germinated well as a rule. Fortunately the conditions so far as temperature is concerned have apparently been favorable, otherwise the start would likely have been less satisfactory than as indicated by our replies. Wet weather has been the contributing cause for a moderate amount of replanting. The last ten days of May the weather was a little more favorable and farmers were able to make

fair progress in needed field work; but crops are still very grassy. Stands, where secured average good. The crop is late in this State on account of the wet weather, but has suffered no permanent injury. creage.-'Three causes are mentioned in our returns for the quite pronounced tendency to reduce cotton area this season. They are, first, agitation and agreement between planters, which has resulted in increased acreage devoted to corn, hay and stock raising; second, scarcity of labor, and, third, the unusual backwardness of planting, which caused the abandonment to other crops of some land originally intended for cotton. So far as we can judge the second cause has had but very limited effect. Bat it appears to be a fact according to our advices, that area has been appreciably reduced, and at some points radically. We do not believe we overstep the mark in making the loss in the State as a whole 13 per cent. Fertilizers.-Many sections of Mississippi, particularly bottom lands along the river, pay no attention to fertilizers of any kind, and elsewhere they have not been largely used, although last season a marked increase in the takings of commercial varieties was reported. The current spring an equally marked decrease is indicated.

LOUISIANA.-Probably to a greater extent than in any other State in the cotton belt, except Texas and Arkansas, wet weather has been a deterring influence in Louisiana this spring. Rainfall has been excessive from time to time ever since the opening of the year, interfering first with preparation of land for crops and later on with the actual putting in of seed. Ordinarily some planting is done in this State by or before the first of March, but the current year practically nothing was done until fully a fortnight later, and it was well on in April before operations could be said to be general. Furthermore, continued excess of moisture delayed the completion of seeding until May 15 to 31, according to locality. The start was a very irregular one; some seed is not yet up and altogether germination is reported below the average of recent years. Moreover local floods did considerable damage to fields in localities, and from that cause and others a greater replanting than normally required was found to be necessary. Since the middle of May the weather, as we are advised, has been more satisfactory, the cessation of rains having permitted planters to get actively at work, where ground was not too wet, clearing the fields of foreign vegetation. Temperature has likewise been favorable to development and growth. Stands-Reports on this point lack uniformity, but on the whole we should infer that stands are fair, although some correspondents say poor and, as stated above, a portion of the crop has not yet been brought to a stand. Cultivation is backward, but with favoring conditions no difficulty should be ex. perienced in getting rid of grass and weeds. Acreage has been decreased pretty much everywhere. The amount of land taken from cotton runs as high as 20 per cent in some districts and would seem to average about 11 per cent for the whole territory. Fertilizers are not extensively used and have been less freely taken than a year ago.

TEXAS. - The planting season has been quite unsatisfactory over much of Texas this year, and distinctly so as compared with 1904. The principal, in fact we might say the only, hindering influence has been the rather continuous rains, which put the ground in such condition practically everywhere except in South Texas that plowing was materially delayed, and after this work had been completed interfered with the sowing of the seed. Furthermore, the situation was complicated by overflowing of bottom lands along a number of the rivers, notably the Brazos, San Marcos and Guadalupe. In South Texas planting was prosecuted at about the usual time, but elsewhere dragged along from March until the close of May, and there is still a limited amount to be done. Under these circumstances our returns as to germination vary widely From southern and western districts and from a few sections in the extreme east the reports denote that seed came up well, but elsewhere the start is stated to have been poor, with much seed yet to come up Where floods have occurred very much replanting has had to be done, and in other sections more than the usual amount has been required on account of washing rains, etc. Telegraphic reports as we go to press denote that more favorable weather has prevailed lately, but a succession of favorable seasons would appear to be neces-

sary to bring the crop outside of favored districts up to an average condition. Stands have improved somewhat recently, but for the whole State average only fairly good. Grass and weeds are plentiful in the fields, but work of cultivation is now going on steadily and rapidly. Acreage has been appreciably decreased. In sections where virgin soil is being brought under cultivation the tendency has been to give some land to cotton, and as a result some correspondents report additions running as high as twenty five per cent. In older districts, however, reductions have been the rule. The weight of evidence seems to indicate an average loss of 13 per cent. Ferintizers are very little used.

ARKANSAS. - The planting season in Arkansas this year compares unfavorably with even last year, when operations were considerably hindered by wet weather. The current season has been conspicuously adverse in this respect, as a glance at the weather tables will clearly demonstrate. In many sections it has been impossible to do any outdoor work for days at a time, owing to continuous rains, and even during the spells of fine weather but little could be done on bottom lands as wet weather would set in again before the ground had got into fit condition for plowing. Moreover. in some parts of the State overflows occurred, which further aggravated an unsatisfactory situation. Naturally, therefore, the time of planting has been unduly prolonged and final seeding is only now in progress. Consequently, as regards germination, our returns are less conclusive than is usually the case. Where seed is up, however, the plant starts off fairly well as a rule, but much replanting has been required. There has been very little complaint of low temperature, but moisture continued in excess until subsequent to the middle of May. Stands, where secured, are fair to good over most of the State, being best, of course, on uplands. Fields on the whole are grassy yet, although the work of cleaning them is now being vigorously prosecuted. The present outlook for a crop, while not unpromising, is somewhat uncertain, so much depending upon future conditions, especially as regards late plantings. With average weather from now on, however, a good yield can be secured. Acreage shows reductions all along the line, large percentages in some districts being in part incidental to the delay occasioned by the rains. Some correspondents report declines as low as five per cent, and others make the decreases as great as 25 per cent. A fair average for the State would be approximately 14 per cent. Fertilizers are used in only limited quantities, and this season the ratio of falling off in takings of commercial sorts has been greater than the loss shown in area.

TENNESSEE.—Returning to the country east of the Mississippi, River we find a better condition of affairs, although in Tonnessee, as elsowhere, farm work has suffered some hindrance from wet weather. But as most of the crop was put in before the close of the first week of May, the delay involves but a small percentage of the aggregate planting. Nearly all seed, however, was in the ground before the end of May, and such as is up (much the greater part) has geiminated well to very well, and in a few instances reports say perfect and the best in years. Frost in April damaged cotton over limited areas, and from that cause alone has any replanting been required. In May a too copious rainfall militated somewhat against cotton, but aside from that there has been nothing to seriously interfere with satisfactory growth and development of the pl nt, although at times recently temperature has been claimed to have been a little too low. Stands are reported upon satisfactorily from all directions - good, perfect, and the best ever known being the characterizations used by our various correspondents. The May rains put fields in the grass over a large part of the State, but cultivation is now being well attended to. Acreage.—In a few sections near the Mississippi and to * limited extent elsewhere, the previous season's area has been maintained. Over the remainder of the State, however, reductions are the rule, and in some cases they go above twentyfive per cent. After carefully considering the returns, we are led to adopt 12 per cent as a conservative estimate of this year's dec ine. Fertilizers are not extensively used, and this year's takings of all kinds exhibit a decrease.

INDIAN TERRITORY.—Hindered by adverse conditions in the form of excessive moisture, the planting of cotton was delayed a week to ten days in some localities. In other words, the work which was begun April 15 was not generally completed until about May 27, whereas a year ago all seed was in the ground by the middle of that month Germination is reported upon favorably as a rule, and replanting was necessitated to only a very moderate extent on low lands, being due to wet weather wishing out seed. Since growth began there have been a few complaints of low temperature, and at times rainfall has been excessive; but in the main conditions have been fairly favorable. Stands range from fair to good, but fields are rather foul in some localities, and continued dry weather is needed. Acreage.-In all States heretofore reviewed, only excepting Alabama, the decrease in area this year has been in excess of last year's addition; but in the Indian Territory much of last season's augmentation is undisturbed. Suffice it to say that there has been a reduction, but it will not average more than 10 per cent. No use is made of fertilizers.

OKLAHOMA.-Our correspondents' reports with regard to the planting season in Oklahoma denote that here, as elsewhere in the South, wet weather militated against the prosecution of work at the usual time. Practically nothing was done until the first of May, and the finish was at the close of the month, or two weeks later than a year ago. Early plantings germinated well as a rule, but late-planted seed is not yet up. Replanting has been done to a moderate extent. Frequent rains during May down to the 20th of the month, while stimulating the growth and development of the plant, prevented much needed work of eradicating grass and weeds which came along with the cotton. A fair to good stand, however, has been or is being secured, and with the better weather now prevailing the plant is doing well and cultivation is receiving proper attention. Acreage.-Some new land has been put in cotton this spring, as was to be expected, but much, if not all, of the area taken from wheat a year ago, owing to damage by winter drought, and given to the staple, has been returned to the cereal. There has, therefore, been a moderately large falling off in cotton acreage this season, averaging we should say about 9 p. c. Fertilizers play no part in the agriculture of Oklahoma.

MISSOURI.-The planting season differed but little, if any, this year from last year in Missouri. In 1904 the overflowing of much bottom land retarded operations and this season continnous rains had the like effect. From about the middle of April to the close of May was the period during which planting was done. Consequently some seed is not yet up, but such as has germinated starts off fairly well, doing best in sandy soil. Moisture continued somewhat in excess until the middle of May and a few complaints of lack of warmth have been received. Replanting has not been a feature, although a small amount has been done as a result of wet weather. Recent meteorological conditions have favored the plant, encouraging expectations of a fairly good yield. Stands, as far as secured, range from fair to good, and fields are generally in a fairly satisfactory state of cultivation. Acreage has been decreased on the average approximately 12 per cent. Fertilizers of home-made sorts have been more freely used. Commercial varieties are never availed of.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

-The public sales of bank stocks this week aggregate 145 shares, of which 135 shares were sold at auction and 10 shares at the Stock Exchange. The transactions in trust company stocks reach a total of 302 shares. The table below, given in onr usual form, shows the actual sales of New York City bank stocks made during the week at auction and at the Stock Exchange. Extensive tables showing the bid and asked quotations, deposits, surplus, &c., of banks and trust

-The International Banking Corporation of this city moved last Tuesday to the new building, No. 60 Wall Street. With the International Bank, which it controls, the corporation occupies the greater part of the second floor. The new office is large, well arranged and attractively finished. Elevators open directly into the room and a gallery along the easterly wall supplements the working space. The building "Sixty Wall Street" ranks as one of the tallest and best constructed in the city, and extends through to Pine Street on ihe same block with the Bank of New York, the Central Trust Company, the Seamen's Bank for Savings and Kuhn, Loeb & Co.

-The directors of the Van Norden Trust Co., Fifth Avenue and Sixtieth Street, at a meeting held May 25, declared a dividend of 2 per cent on its capital stock for the quarter ending 'June 30, payable June 30 to stockholders of record at the close of business June 20. This is at the rate of 8 per cent per annum, and consequently puts the company's stock on that basis.

-Much interest will be manifested in the report made by the Phenix National Bank of this city to the Comptroller of the Treasury under the last bank call, May 29. This bank, it will be remembered, changed control the latter part of April, when new interests were introduced into its management under the leadership of Mr. Finis E. Marshall, its present executive. From its recent report it will be seen that deposits, which were \$5,104,805 on March 14, 1905, had increased on May 29 to \$7,228,605, a gain of \$2,124,300 in two and a-half months. The bank's capital is \$1,000,000, and the surplus and profits were \$218,789 on the date named.

-Governor Higgins on Monday dismissed the charges which had been brought against State Bank Superintendent Frederick D. Kilburn for failing to close the Merchants' Trust Company of this city two years ago when it was first known to be in difficulties. With regard to the matter Gov. Higgins said : "Reading Superintendent Kilburn's statement in connection with the charges, and after consultation with the Attorney-General and the counsel to the Governor on the legal questions involved, I have decided that the Superintendent of Banks acted in the matter in accordance with law, and exercised proper judgment and prudence in so doing."

-A booklet entitled "The Certificate of Deposit" and describing the advantages of such certificates comes to us from the Lincoln Trust Company of this city. Devised especially to serve individuals, firms, corporations, estates, etc., in placing idle funds at interest while awaiting reinvestment, these certificates will be issued by the Lincoln Trust Company for sums of \$100 or more, and will bear interest at a rate depending upon the condition of the money market and the form of the certificate. Full information regarding the subject is given in the pages which make up the pamphlet.

"Cumulative Trust Estates" is the title of another booklet issued by the Lincoln Trust Company. The adaptation of what is perhaps the oldest legal provision for the financial future of dependents—namely the trust estate—to the needs of the present rank and file of people is treated of in this brochure, which should be read by those contemplating availing themselves of the facilities and advantages possessed by cumulative trust estates.

-The organization of two new financial institutions-a trust company and a bank-is under way in Brooklyn, N. Y. The company, which has been designated the Cltizens' Trust, is to have a capital of \$500,000 and surplus of \$125,000, and will make its headquarters at or on Broadway between Bedford and Myrtle avenues. In its notice of intention to organize, published last week, the following appeared as the proposed incorporators: Nathan S. Jonas, Thomas F. Magner, Julius Strauss, Andrew R. Baird, Herman Reiners, Alex. J. McCollum, Aaron Westheim, John Welz, A. N. Bernstein, John R. Thompson, David Michel, Dr. James E. O'Donohue, A. Sterzelbach, Martin Derx, Conrad V. Dykeman, Joseph Michaels, H. B. Rosenson, Benj. R. Meserole and Louis Newman. The projected bank referred to will be a State institution. and is to be known as the Home Bank. It is to have a capital of \$100,000 and surplus of \$50,000. Fifth Avenue and Forty eighth Street, Brooklyn, is to be the location for this institution.

companies in all important cities of the United States are published monthly in the BANK AND QUOTATION Section, the June issue of which accompanies to-day's CHRONICLE. Bid and asked quotations for all New York City bank and trust company stocks are also published weekly in another depart ment of the paper, and will be found to-day on pages 2328 and 2329.

-The Plainfield Trust Company of Plainfield, N. J., has started work on the site secured by it last fall at Park Avenue and Second Street, where a modern banking house, to be its future home, will be erected. The building planned is to be entirely of Indiana limestone, and marble, copper and mahogany will figure largely in the interior furnishings. The company began business just three years ago-on June 4 1902. It has a capital of \$100,000, and contains among its board of directors many influential names. O. T. Waring is is President and J. Herbert Case its Secretary.

-The Mercantile Trust Company of New Jersey, to operate in Jersey City, has filed articles of incorporation. The capital, \$100,000, will be in shares of \$100 each.

-The charter of the National Bank of Cohoes, at Cohoes, N. Y., was extended for a third term of twenty years on May 25. The bank was organized in 1865 as a National institution to succeed the Bank of Cohoes, and in the forty years has never missed a semi-annual dividend payment. The distribution has averaged over $7\frac{1}{2}$ per cent yearly, the lowest being 5 per cent and the highest amount 11 per cent per annum. A scrip dividend of 75 per cent was also paid when the capital was increased from \$100,000 to \$250,000. Besides its capital, the bank on the 25th ult. also had surplus and profits of \$259,170. On the same date it showed deposits of \$1,122,088. John L. Newman is President; Thomas Breslin, Vice-President, and George R. Wilsdon, Cashier.

-Frank Miller has become President of the City National Bank of Bridgeport, Conn., succeeding the late Edwin G. Sanford.

-The petition to organize the Mechanics' Trust Company of Boston, Mass., was granted by the Savings Bank Commissioners of that State on the 26th ult. The institution will have a capital of \$500,000, and, as reported in our issue of May 18, will take over the business of the Mechanics' National Bank of Boston.

-The Monument National Bank of Boston was placed in voluntary liquidation on Saturday, the 27th ult., its business having been taken over by the Bunker Hill National Bank of Boston. The Monument National was incorporated in 1854. It had a capital of \$150,000 and on March 14 last showed surplus and profits of \$128,436. The officials of the bank, it is stated, estimate that the stock will liquidate in the neighborhood of 170. The Bunker Hill has a capital of \$500,000 and surplus and profits (March 14) of \$457,672. Both institutions were located in the Charlestown district. With the closing of the Monument National the Banker Hill is the only National bank now operating in that section. Charles R. Lawrence and Frederick K. Brown continue as President and Cashier, respectively, of the Bunker Hill. Warren Sanger, Cashier of the Monument National, will be a Vice-President of the consolidated bank.

-George W. Roydhouse has been elected President of the Girard Avenue Title and Trust Company—one of the newer of Philadelphia financial institutions. The other officials elected are Thomas Reilly and John H. Gay, Vice-Presidents; Harold E. Beatty, Secretary and Treasurer; John T. F. Green, Title and Trust Officer, and Michael J. Ryan, Counsel. The bank will locate at 1846 Ridge Avenue.

-A new number of the "Handy Holiday Calendar," issued yearly by the Central National Bank of Philadelphia, is now available, showing holidays for 1906 in Pennsylvania. The calendar is in cardboard form and comes into immediate use in the handling of paper due in 1906. Black numerals are used to denote "dead days" as to the maturity of notes and red to show the dates of payment of notes maturing on such "dead days." The States which have enacted the Negotiable Instruments Law are shown on the calendar, as well as the States which have abolished days of grace. The bank has a capital of \$750,000, and since it began, in 1865, it has paid \$3,435,000 in dividends. The yearly rate since 1876 has been 12 per cent. Theo. Kitchen is the President; T. L. De Bow, Cashier, and William Post, Assistant Cashier. -The Fidelity Trust Company of Philadelphia has issued in pamphlet form the address on "The Rise and Business of the Modern Trust Company" delivered on March 21, by William P. Gest, its Vice-President, before the Century Current Topic Club of the Y. M. C. A. Mr. Gest's remarks are enhanced through the use of a chart and tables prepared for the purpose of showing the comparative growth of national banks and trust companies in Pennsylvania from 1892 to 1903.

-The proposition to increase the capital of the Maryland National Bank of Baltimore from \$200,000 to \$500,000 was unanimously voted by the stockholders on the 25th ult. In order to bring new interests into the bank, the stockholders were asked to waive their right to the additional stock. Representation will be given the new interests on the bank's board as soon as the new capital is issued.

-The East Washington Savings Bank of Washington, D. C., has filed articles of incorporation. The capital is \$'00,000, the shares having a par value of \$10 each. John E. Herrell has been elected President, and Thomas W. Smith and M. I. Weller, Vice-Presidents.

-"The Bank That Has Grown Up with Pittsburgh" serves as the name for the latest pamphlet emanating from the Bank of Pittsburgh, N. A., at Pittsburgh. The pamphlet is conspicuous for the attractive style of its typography and illustrations. In most concise and readable form it gives facts and figures connected with the bank's history since its establishment in 1810. Perhaps the most interesting of the contents is a comparative statement showing the growth of the institution in the ninety-five years. The stock then at \$85,000 contrasts with \$2,400,000 now; deposits of \$17,155 with \$15,275,509, and total liabilities of \$127,909 in 1810, with \$22,206,834 at the present time. Wilson A. Shaw is President of the bank and W. F. Bickel, Cashier.

-The Guardian Savings & Trust Company of Cleveland expects by the 1st of Ostober to occupy sumptuous quarters in its new 18 story granite and terra-cotta building now approaching completion on Euclid Avenue, in the heart of the retail business district. The building is of the Renaissance style of architecture and very imposing, as it towers far above everything in its vicinity. The banking room will be in the rear portion of the main floor, about 30 feet by 120 feet in dimensions, and will be prismatically lighted from the roof. Its equipment and furnishings will be complete and elegant, with every modern appliance in each department for facilitating business. In its published statement of April 1 the Guardian Savings & Trust Company shows deposits of nearly \$11,000,000, with surplus and profits of almost \$900,000. The new bank building will represent an investment of about \$350,000.

-Suit has been brought against the directors and officers of the East Ead Savings Bank Company of Columbus, Ohio, for \$170,039 damages by W. H. English, receiver of the institution. It is stated in the petition that the total liabilities of the bank on January 23 last (the date of the suspension) were \$837,267, while the assets were \$157,828, including \$16,500 unpaid stock. It is charged, among other things, that at the time of the failure and for some time previous the bank was hopelessly insolvent and that the directors had not, since 1899, held any annual or special meetings; that they had had no examinations made as to the bank's condition or the conduct of the officers, and that they had made no report to the stockholders as required by law. It is also stated that at least \$10,000 had been wrongfully appropriated by the Cashier, whose suicide precipitated a run, leading to the bank's closing. The institution had a capital of \$25,000.

-The Huntington National Bank of Columbus, Ohio, began business on Thursday, the 1st inst. The institution has a capital of \$400,000, and is the outgrowth of the conversion to the National system of the banking house of P. W. Huntington & Co. The officers are: P. W. Huntington, President; F. R. Huntington, Vice-President; Theodore S. Huntington, Cashier, and B. G. Huntington, Assistant Cashier.

-H. P. Boyden, formerly City Auditor of Cincinnati, has

been appointed receiver for Holzman & Co., the Cincinnati brokerage house which made an assignment on the 25th ult. The liabilities of the concern, according to Mr. Holzman, are about \$190,000.

-Charged with embezzlement, former Vice-President W. L Davis and Cashier C. D. Bachtel of the failed Canton State Bank of Canton, Ohio, were placed under arrest this week. Both were later released on bail in the sum of \$7,500 each.

-It is reported that the directors of the Central Savings Bank Company of Toledo, Ohio, have decided to reduce the capital from \$300,000 to \$150,000. The announcement was made in January that the bank would in future accept no commercial accounts, confining itself to a savinge bank business.

-As stated in our issue of April 8, the First National Bank of Toledo, Ohio, now occupies its new and beautiful white marble building on Summit Street near Madison. The entire building is devoted to the bank's uses. The interior is finished in Vermont marble and cherry, all the appointments being most complete and convenient. The light comes from prismatic skylights in the roof. The First National's statement of March 14 showed total resources of \$3,680,521 33the deposits being 2¼ millions. Mr. S. C. Schenck has been President of this bank for many years.

-A law lately enacted in Indiana abolishes in that State days of grace and provides that all paper maturing on legal holidays shall be due and payable on the business day next succeeding the holiday.

-A third dividend of 10 per cent (making the total 30 per cent) has been declared by the Comptroller in favor of the creditors of the Indiana National Bank of Elkhart, Ind. The bank has been in receiver's hands since November 1903.

.- The consolidated American Trust & Savings Bank and the Federal Trust & Savings Bank of Chicago opened on Monday under the title of the first-named institution. The list of officers and directors of the enlarged bank has not as yet been arranged.

-The Colonial Trust & Savings Bank, now located at the northwest corner of La Salle and Washington streets, Chicago, has secured the lease of the banking room at the northeast corner of La Salle and Adams streets, lately occupied by the Federal Trust & Savings Bank. The Colonial will remove to its new quarters July 1.

-Hartman Baker, Vice-President of the Merchants National Bank of Philadelphia, was one of the speakers at the convention of the Missouri Bankers' Association, to which was devoted two days of last week. Mr. Baker discussed "The Banker's Stock in Trade-an Inventory." E. F. Swinney, President of the First National Bank of Kansas City, and head of the American Bankers' Association, addressed the delegates on "The Development and Promise of the Southwest." We have referred in a previous article to the paper prepared by Mr. Festus J. Wade, President of the Mercantile Trust Co. of St. Louis, on the "Financial Strength of the Middle West," and to the address of D. A. Moulton, Vice-President of the Corn Exchange Bank of Chicago, on "Prosperity and Speculation."

-What is termed an "extra spring dividend," amounting to \$4 per share, was paid to the stockholders of the Mercantile Trust Company of St. Louis on Monday. The dividend is in addition to the regular 1 per cent monthly dividends and also in addition to the customary 4 per cent Christmas dividend. The current year's return to the stockholders is thus 20 per cent, which on the capital of \$8,000,000 represents a distribution of \$600,000. At the meeting at which was declared the dividend just paid, the Christmas dividend was also ordered to be reserved out of the undivided profits, Both dividends, aggregating \$240,000, are taken from the net profits for the last five months. Besides its capital of \$3,000,-000, the company has a surplus of \$6,500,000.

-During the month of March the Louisville Stock Exchange was opened, for the purpose of facilitating bond and stock transactions among the brokers and investors of that city. There is in Louisville a large clientele of bona fide investors in good securities, local and foreign, and before the establishment of the Exchange stocks and bonds were dis. posed of on the carb for the best price obtainable by each trader. The Stock Erchange furnishes the much-needed regulator of prices and a convenient clearing house. The price for membership at the outset was fixed at \$250, but in less than three months the cost of a seat has advanced to \$750. The last two purchasers paid this price. The officers are: President, W. L. Lyons, of Goldsmith, Wolf & Lyons; Vice-President, J.W. Green, of D. S. & J. W. Green; Secretary, Mr. Hilliard, of J. J. B. Hilliard & Son; Treasurer, W. D. Webb, of Campbell, Webb & Co.

to close and more intimate financial relations between the South and New England were pointed out, in the belief that with a fuller understanding means to overcome them would be found.

-At Chattanooga, Tenn., on the 25th ult., preliminary arrangements were completed for a merger between the only two national banks in that city-the First National and the Chattanooga National, President Chas. A. Lyerly of the latter institution and his associates bought from President T. G. Montague of the First National his entire holdings of stock (which was a considerable majority of its capital), and thus effected a combination of interests. The consolidated bank will have a capital of \$500,000, surplus and undivided profits of nearly \$300,000 and gross deposits of \$4,160,000 (approximately), according to the last official published statements. If the bulk of these deposits is held, the business of the new bank will rank almost first in the State of Tennessee. Only the State National of Memphis (\$4,156,000 deposits) the Fourth National of Nashville (\$3,820,000) and the Memphis National Bank of Commerce (\$3,576,500) approximate this sum. The name to be chosen for the consolidated bank will probably be "The First National Bank of Chattanooga," to be determined within the next 30 days. The present quarters of the First National will be the home of the new bank, being much larger and better adapted for an increased business than the offices of the Chattanooga National. All of the officers of the First National have tendered their resignations, and the executive staff of the new institution will probably be as follows: President, Charles A. Lyerly; First Vice President, H. S. Chamberlain; Second Vice-President, J. T. Lupton; Third Vice-President, C. C. Nottingham Cashier, J. P. Hoskins. Hewlitt De Witt and J. W. Faxon are also mentioned as officers with title. The liquidation of the Chattanooga National Bank will commence at once, its stockholders receiving \$1 50 cash for each dollar of their holdings. The First National Bank of Chattanooga has for a great many years been a progressive and prosperous institution, and the sole reason for its sale to a vigorous competitor is because of the impaired health of both its President, T. G. Montague (who for forty years has been an official of the bank and for twenty years its President), and its Cashier, Mr. J. H. Rathburn.

-The First National Bank of Nashville, Tenn., whose last statement was the best issued in its history of over 40 years, has commenced the erection of a modern 12-story, fire-proof office building in one of the best locations in that city, the ground floor of which will be the bank's future home. The total investment will be in excess of \$350,000, of which \$225,-000 will be furnished by the bank in exchange for 20-year first mortgage 5 per cent bonds, the remainder being supplied by local capitalists holding the stock of the building company.

-The site on the corner of Union Street and Third Avenue, acquired by the Union Bank & Trust Company of Nashville, Tenn., the past winter (CHRONICLE March 11) is generally regarded as the best business corner in Nashville. The object of the purchase was to provide a site for a monumental building in the near future to be the home of this comparatively young but thoroughly progressive bank. The comparative statement of deposits for the past five years shows the progress made: On January 1 1901 these were \$572,283 31; on January 1 1902, \$640,750 06; on January 1 1903, \$804,177 86; on January 1 1904, \$921,708 81; on January 1 1905, \$1,130,-212 30. The officers of the company are: Edgar Jones, President; A. H. Robinson and Eastice A. Hail, Vice-Presidents; Watkins Crockett, Cashier, and E. R. Burr, Asst. Cashier.

-At the convention of the South Carolina Bankers' Association, held at Anderson on the 23rd and 24th ult, an address on "New England and South Carolina" figured as one of the chief numbers of the program. The remarks were by Daniel G. Wing, President of the First National Bank of Boston, and dealt principally with the development of the cotton ¹ndustry of the South. Some obstacles, as seen by Mr. Wing, ¹ lation of the backing business in Alabama, was "passed in

-The Knoxville Trust Co. of Knoxville, Tenn., has been granted a charter. The incorporators include W. K. Mc-Clure, James Maynard, P. J. Briscoe, R. S. Hogan, W. B. Townsend, R. H. Sansom, William W. Carson, Thomas R. Price, Hugh G. Kyle, Peter E. Blow and S. H. Keener. The institution is capitalized at \$210,000.

-At its annual convention held in Mobile, Ala., on the 26th and 27th ult., the Alabama Bankers' Association adopted a resolution recommending the legislative committee to take up the matter of amending the State Bank Examiners' Law, following the suggestions of Thomas J. Rutledge, Alabama Bank Examiner. The latter, in his address on "Safety in Banking," stated that the statute in operation since January 1904, providing for the examination and reguthe face of strong opposition and is at best a compromise measure." In his opinion the law is defective in many respects and should be amended by the next Legislature. One of the changes suggested was a penalty against any bank making a false statement of its condition. No provision for any such penalty, he stated, is embodied in the present law. E. J. Buck, President of the City Bank & Trust Company of Mobile, has been re-elected Secretary and Treasurer of the association.

-Meetings of the stockholders of the Whitney National Bank, the Germania National Bank and the Central Bank, Savings & Trust Company of New Orleans, will be held on July 1 to act in the matter of the consolidation of the three institutions referred to in this department last Saturday. In the case of the Whitney National its stockholders will consider the proposition to increase its capital from \$400,000 to \$2,500,000; to decide as to the acquisition of the business and assets of the Germania National and Central Bank, Savings & Trust; whether the name Whitney National shall be changed ; to determine whether the number of directors shall be increased, and to designate the number of its officers. The stockholders of the other two institutions, namely the Germania National and the Central Bank, Savings & Trust, will vote on the proposition as to whether the respective con. cerns shall be dissolved and liquidated for the purpose of con. solidating with the Whitney National.

-J. M. Snerrouse lately succeeded E. S. Woodfin as President of the Merchants' National Bank of New Orleans.

-The Union Trust Co. is the name of an institution whose organization is now under way in Houston, Texas. The company will have a capital of \$500,000 and surplus of \$100,-000. According to present plans, the concern will open some time in August. It is now occupying temporary quarters at Franklin Ave. and Fannin St.

-The list of officials of the San Antonio National Bank of San Antonio, Texas, has lately been enlarged, E. A. Stribling having become Second Vice-President and M. E. Brackenridge, Third Vice-President. H. D. Brown is a new Assistant Cashier.

-A 10 per cent dividend, payable on or about July 1, has been declared to the creditors of the Citizens' National Bank of Beaumont, Texas. With this disbursement the creditors will have received in all three dividends, aggregating 85 per cent. The amount still due is said to be about \$43,900. The bank suspended in August 1903. C. L. Williams is the receiver.

—The Citizens' National Bank of San Francisco, mentloned in these colums April 22, opened for business on the 23rd ult. in temporary quarters at 1207 Polk Street. The institution has a capital of \$200,000.

-The Security Savings Bank of San Francisco is now installed in its new building at 316 Montgomery Street. The institution has an outstanding capital of \$500,000.

-John U. Calkins was lately elected Cashier of the Mechanics' Savings Bank of San Francisco, to replace Frederick H. Clark, who retired on account of impaired health. Mr. Calkins was formerly Cashier of the University Savings Bank of Berkeley, Cal.

-It is reported that a branch of the Bankers' Loan & Trust Company of San Francisco has been organized in Sacramento, with officers as follows: President, Louis F. Breuner; Vice-President, William McLaughlin, and Secretary, Morris Brooke. per share. Surplus and profits are now \$210,000 and deposits \$4,250,000. R. Lea Barnes, Cashier, and W. A. Holt, Assistant Cashier, of the Portland branch of the Wells Fargo Bank are now on the staff of the United States National-Mr. Barnes as Second Vice-President and Mr. Holt as an Assistant Cashier.

-The Imperial Bank of Canada, at Toronto, is to issue the remaining \$1,000,000 of its authorized capital, increasing the paid-in amount from \$3,000,000 to \$4,000,000. The stock will be allotted to shareholders pro rata at a premium of \$100 per cent, which will be added to the reserve fund. Payment will be made at intervals extending over the next seventeen months.

-The Bank of Montreal purposes to increase its capital from \$14,000,000 to \$14,400,000 to carry out the agreement with the People's Bank of Halifax at Halifax, Nova Scotia. The stockholders of the latter, it will be remembered, lately voted to amalgamate with the Montreal institution.

-F. J. Gosling, for over twelve years Manager of the Toronto branch of the Bank of Hamilton, has resigned, owing to ill health. F. E. Kilvert wlll succeed Mr. Gosling.

-The Dominion Trust Company of Halifax, Nova Scotia, has been incorporated with a capital of \$100,000, in shares of \$100 each. The company will carry on a general trust company business, acting as executor, administrator, trustee, receiver or assignee.

- The stockholders of the Banco Central Mexicano of Mexico City, on Wednesday, May 24, voted to increase the capital of the institution from \$10,000,000 to \$21,000,000. The increase is \$1,000,000 more than originally proposed. It is understood that 60 per cent of the new issue will be taken by an influential Paris syndicate, while the remaining 40 per oent will be offered to present stockholders at \$120 per share. The premium (\$20 per share), less the expenses attendant upon the issuance of the new stock, will go into the treasury of the bank. Payment of the new stock will be in two instalments-\$70 on the date of the subscription and the remaining \$50 June 30. It is stated that 15,000 shares of the new \$11,000,000 stock will be issued to retire 5,000 founders' shares now outstanding.

Canadian Bank Clearings.—The Clearings of the Canadian Banks for the month of May, 1905, show an increase over the same month of 1904 of 23.5 per cent, and for the five months the gain reaches 27.9 per cent.

-Henry Rogers has been elected President of the Oakland Bank of Savings of Oakland, Cal., to succeed the late Isaac L. Requa. The office of Vice-President, heretofore filled by Mr. Rogers, has been assigned to W. W. Garthwaite, while the cashiership, lately filled by the last named, is taken by J. Y. Eccleston. F. A. Allardt and S. Breck are the Assistant Cashiers.

-Beginning Tuesday next, the 6th inst., the combined business of the United States National Bank of Portland, Ore., and the Portland branch of the Wells Fargo & Co. Bank will be conducted fat the office of the former. Arrangements for the transfer of the business of the Wells Fargo Bank to the United States National were made the latter part of April. The capital of the United States National has been increased from \$300,000 to \$500,000, and the new issue placed at \$160

Clearings by Telegraph.—Sales of Stocks, Bonds, &c.— The subjoined table, covering clearings for the current week, asually appears on the first page of the CHRONICLE, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1904, there is an increase in the aggregate of 46.6 per cent. So far as the individual cities are concerned, New York exhibits a gain of 69.5 per cent.

VOL. LXXX,

Boston 23.0 per cent, Philadelphia 44.5 per cent, Chicago 8 6 per cent, Baltimore 9.5 per cent, St. Louis 14.7 per cent, and New Orleans 16.4 per cent.

MonetaryFCommercialEuglishNews

[From our own correspondent.]

LONDON, Saturday, May 20, 1905.

Business has continued very stagnant, but as the week draws to a close there is a better feeling, due partly to the abatement of apprehension in Paris and partly to the expectation of cheap money. In Paris people generally have now come to the conclusion that the Moroccan incident will be amicably arranged. Indeed, there are rumors that practicably a settlement has been arrived at. Most people expect that M, Delcasse will resign and that Germany will practically be satisfied with that and an exchange of views. The belief amongst the best informed in Paris is that Germany is working much more for concessions from the Moorish Sultan than for a quarrel with France. Moreover, it looks now as if there would be no serious disorders in Russia, even if the Russian fleet should, as expected, he vanquished. And it is thought probable that operations in Manchuria will not become active for some time yet.

Altogether, therefore, there is a much more hopeful feeling in Paris than there has been for a considerable time. Paris in consequence has been buying on a fairly large scale in London throughout the week. There has been some revival also in Berlin, although not much, for Berlin had speculated extensively in American securities, and business is therefore checked by the fall in the American market. In London the better feeling in Paris has helped to strengthen the market, though the Stock Exchange has not recovered from the losses suffered in consequence of the fall in American railroad securities. The speculation here in American securities was large and the operators were financially weak. Consequently very many were unable to meet their differences, and it will therefore take some little time before the Stock Exchange quite recovers. At the same time money has become much more plentiful and the feeling is again growing that we are about to enter upon a period of cheap money. That usually brings a recovery in markets, and in fact there has been as the week advances some advance in high-class securities.

In consequence of the better feeling that prevails in Paris, the French banks no longer think it necessary to strengthen their reserves. On the contrary, they have not only stopped withdrawing money from London, but during the present week they have somewhat increased their balances and have been much freer takers of bills. The Paris exchange apon London has in consequence risen considerably over the point at which it would pay to take gold from London. And as a result all the metal now offering in the open market in London is going into the Bank of England. If nothing happens to create fresh alarm in Paris, France, will not buy gold here. Therefore the Bank of England ought to be able to increase very largely its stock of the metal. A million sterling is now on the way from South Africa, which will, in all reasonable probability, go into the Bank if there is not a sudden revival of some foreign demand. There are other large amounts on the way from Australia, and it hence looks as if money would become very plentiful before long. If this expectation is fulfilled and nothing politically untoward happens, the present improvement in high-class securities will doubtless make further progress.

Moreover, cheap money would help the trade improvement that has set in. The cotton trade is already exceedingly active and prosperons, and there are signs of improvement in the iron and steel trades. Indeed, generally, a more hopeful

eeling exists, although there is some apprehension that the sharp rise in wool due to the extraordinary demand for America at the Colonial wool sales here may give a setback to the wool industry in Yorkshire. American buying of cross-bred wool until quite lately had been very small and the prices of the article had been moderate, being well in lavor of Yorkshire. During the past couple of weeks, however, the American demand has become extraordinarily large, and there has been a rapid rise of from 25 per cent to 50 per cent in different kinds of cross-bred wools. It is understood that the Yorkshire manufacturers have refused to give the higher prices; and consequently most of the wool offered has been taken for the United States. It is feared that the refusal of the Yorkshire manufacturers to pay the higher prices will lead to such a scarcity as will compel short-time before long, unless, of course, the Yorkshire manufacturers change their tactics.

The India Council offered for tender on Wednesday 30 lacs and the applications amounted to nearly 235 lacs at prices ranging from 1s. 3 15-16d. to 1s. 4d. per rupee. Applicants for bills at 1s. 3 31-32d. and for telegraphic transfers at 1s, 4d. were allotted about 14 per cent of the amounts applied for.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

amounted on May 27 to \$1,711,000; on May 20 to \$1,709,000. Imports and Exports for the Week.-The following are

the imports at New York for the week ending for dry goods May 25 and for the week ending for general merchandise May 26; also totals since beginning first week January.

FOREIGN IMPORTS.

For week.	1905.	1904.	1903.	1902.
Dry Goods.	\$1,924,769			
General Merchandise	10,044,130	9,457,743	9,022,972	7,168,849
Total	\$11,968,899	\$11,487,046	\$11,000,720	\$9,154,978
Since Jan. 1.	****			
Dry Goods General Merchandise	\$60,288,779 242,171, -62		\$59,675,970 192,949,299	
Total 21 weeks	\$302,460,641	\$251,752,102	\$252,625,269	\$228, 670, 421

The imports of dry goods for one week later will be found in our report of the dry goods trade. The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending May 29, and from January 1 to date.

EXPORTS FROM NEW YORK FOR THE WEEK.

	1905.	1904.	1903.	1902.
For the week Previously reported	\$11,693,500 \$212,159,782		\$7.461,643 206,194,543	
Total 21 weeks	\$223,853,282	\$201,615,722	\$213,656,186	\$202,258,105

NOTE.—As the figures of exports as reported by the New York Custom House from week to week frequently show divergence from the monthly totals, also compiled by the Custom House, we shall from time to time adjust the totals by adding to or deducting from the amount "previously reported."

The following table shows the exports and imports of specie at the port of New York for the week ending May 27 and since Jan. 1, 1905, and for the corresponding periods in 1904 and 1903.

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK

	EXPO	DRTS.	IMPO	ORTS.
Gold.	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain France.		\$1,500 20,899,553		\$330,922 3,880,093
Germany	\$64,000 12,000	58,300	6,526	
South America All other countries		7,250,000 3,000		611,715 38,756

WALL STREET, FRIDAY, JUNE 2, 1905,-5 P. M. The Money Market and Finaucial Situation.-Aside from news of the great battle in Far Eastern waters, which has been looked for for some time past, nothing has occurred to stimulate interest in the security markets this week. The celebration of Memorial Day, with its usual out-of-town engagements, has been a factor in making the week a dull one in Stock Exchange circles, and other events have doubt less contributed to the same end.

An immediate result of the news mentioned has been great activity and a sharp advance in Japanese securities, and incidentally a firmer tone in the stock markets here and abroad. The advance in stocks recorded during the early part of the week has not been maintained, however, and, except in the case of Japanese securities, the volume of business is about the smallest of the year.

At this writing the crop situation is not all that could be desired, but it is too early to form any approximate estimate of final results. Latest and most reliable information in regard to cotton acreage is to the effect that it is about 11 or 11½ per cent smaller than last year—a smaller decrease than has previously been suggested.

Call-loan rates have been quoted at 4 per cent on one or more occasions this week, but this advance was evidently due to the month end settlements and not to any real change in money-market conditions.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1½ to 4 p. c. To-day's rates on call were 2½@3 p. c. Prime commercial paper quoted at 3¾@4 p. c. for endorse-

ments and for best single names. The Bank of England weekly statement on Thursday showed an increase in bullion of £335,867 and the percentage of reserve to liabilities was 50.32, against 52.15 last week, the discount rate remaining unchanged at $2\frac{1}{2}$ per cent. The Bank of France shows a decrease of 4,525,000 francs in gold and 300,000 francs in silver.

* \$12,752,400 United States deposits included, against \$13,150,600 last week and \$24,877,800 the corresponding week of 1904. With these United States deposits eliminated, the surplus reserve would be \$14,653,900 on May 27 and \$11,507,625 on May 20. NOTE.—Returns of separate banks appear on the preceding page.

Foreign Exchange.—The market was easy this week, in-fluenced by offerings of bills against purchases of stocks for London account, by short sales of long sterling, by draw-ings of finance bills and negotiations of sterling loans, and

by a comparatively light demand for remittance. To-day's (Friday's) nominal rates for sterling exchange were 4 851/2@4 86 for sixty day and 4 871/2@4 88 for sight. Today's (Friday's) actual rates for sterling exchange were 4 85 24 8510 for long, 4 8695 24 87 for short and 4 8720 2 4 8730 for cables. Commercial on banks, 4 8475 24 8480, and documents for payment, $4 84\frac{1}{6}@4 8525$. Cotton for payment, $4 84\frac{1}{6}@4 84\frac{1}{4}$; cotton for acceptance, 4 8475@4 8480, and grain for payment, 4 8520@4 8525.

To-day's (Friday's) actual rates for Paris bankers' francs were $5.18*@5.18\frac{1}{6}$ for long and $5.16\frac{1}{6}2@5.16\frac{1}{6}*$ for short. Germany bankers' marks were $94\frac{3}{4}@94.13-16$ for long and 95 1-16@951/8† for short. Amsterdam bankers' guilders were 40/4@40/4** for short.

Exchange at Paris on London to-day, 25 f. 19c.; week's range, 25 f. 19c. high and 25 f. 18c. low.

The week's range for exchange rates follows:

Enormous sales of Japanese bonds, as noted above, has been the conspicuous feature of the bond market. Otherwise there has been less activity than usual and the marketwas generally firm. A noteworthy advance occurred in sev-eral issues, including Union Pacific convertible 4s, Central of Georgia 2d and 3d incomes, Green Bay & Western de-benture Bs, Wabash-Pittsburgh Terminal 21s and Brooklyn Rapid Transit 4s, which advanced from 2 to 5 points. Bur-lington & Quincy joint 4s have been in request and made a new high record above 103. Several other issues are frac-tionally higher and a few are lower. tionally higher and a few are lower.

United States Bonds.-Sales of Government Bonds at the Board include \$2,000 2s, coup., 1930, at 1041/2; \$14,000 2s, reg., 1930, at 1041/2, and \$1,000 3s, coup., 1908-1s, at 1043/4. The following are the daily closing quotations; for yearly range see third page following.

* This is the price bid at the morning board; no sale was made.

Railroad and Miscellaueous Stocks — The stock market opened strong on Monday and the trend of prices continued upward until Thursday, when the tone became easier. The volume of business has been moderate throughout the week and special features have been much less conspicuous than of late.

Union Pacific has been the most active stock, and after recovering 3½ points of its recent decline closes with a net gain of over 2 points. The local transportation group has been the feature of the market, although the transactions in it have been on a limited scale. Metropolitan Street Railway, when at its highest, near which it closes, showed an advance of nearly 5 points. Reading made a more remarkable rec-ord on large transactions. Other coal carriers have been strong. Great Northern fluctuated over a range of 7 points, closing at the lowest. North West. was in demand early in the week, but an advance of 7 points failed to bring out any considerable number of the shares. The market for industrial and miscellaneous stocks has

been dull and narrow. Several issues are about 1 point higher than last week, while a few are fractionally lower, including the United States Steel issues and Consolidated Gas.

For daily volume of business see page 2335.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow.

Gatside Market.-Very little interest has been manifested in the market for unlisted securities this week, dealings being extremely light and price changes in most instances confined to narrow limits. Total transactions in Northern Securities on the five business days of the week have aggregated, it is estimated, only about 16,000 shares; the price of this stock rose from 16334 to 166 in the early part of the week, but on Thursday, in sympathy with the downward movement of values on the Stock Exchange, the price dropped to 162; later there was a recovery to 163. The "Stubs" ran off from 300 to 2621/2 and close to-day at 275. Interborough Rapid Transit was another weak feature; after a gain of a point to 203 the price of these shares fell to 1983; a gain of a point to 205 the price of these shares fell to 1983; the final sale to-day was at 199. Chicago Subway was one of the few issues that displayed strength; this stock advanced from $64\frac{1}{2}$ to $69\frac{5}{3}$. Electric Vehicle issues made their appearance again this week after a long period of absence; the common gained $2\frac{1}{2}$ points to 15 while the preferred moved up a point to 21. Electric Boat pre-ferred rose 5 points to 80, but subsequently fell back again to 75. United Copper common fluctuated between 2534 and to 75. United Copper common fluctuated between 25% and 231/2, closing to-day at the low figure; the preferred lost 25/8 points to 70 in the early part of the week, but later it re-covered to 72. After an advance from 24 to $25\frac{1}{4}$, Greene Consolidated Copper reacted to $24\frac{1}{4}$. British Columbia Copper rose from $6\frac{1}{4}$ to $7\frac{1}{2}$, and the final sale to-day was

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from **July 1** to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the street railways are brought together separately on a subsequent page.

	Latest	tiross Ear	nings	July 1 to	Latest Date.		Latest	Gross Ear	nings	July 1 to	Latest Date

Net Earnings Monthly to Latest Dates .-- The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of May 20, 1905. The next will appear in the issue of June 17, 1905.

ANNUAL REPORTS.

Annual Reports .- The following is an index to all annual reports of steam railroads, street railways and miscellaneous companies which have been published since the last editions of the RAILWAY AND INDUSTRIAL and STREET RAILWAY Sections. Full index for last quarter was in V. 80. p 1475.

This index does not include reports in to-day's CHRONICLE.

United States Realty & Improvement Company.

(Report for Ten Months Ending April 29, 1905.)

President H. S. Black, under date of May 29, says :

STATUS.—The company was formed for the purpose of acquiring the stock of the United States Realty & Construction Co. Since such acquisition the business of its subsidiary companies has been con-tinued on the same lines as formerly. As the company did not com-mence active business until July 1, 1904, the present report covers only the operations from that date to April 29, 915. The net profit earned in June, 1904, amounting to \$45,069, which was not shown in the last report of the United States Realty & Construction Co. as it covered only the period to May 31, and the surplus at May 31, 1904, amounting to \$1,091,334, have been treated in this statement as re-ducing the good will.

COMPANIES WHOSE ACCOUNTS ARE INCLUDED IN CONSOLIDATED STATEMENTS HERETO APPENDED.

George A Faller Co., Sixth Avenue Realty Co., Island Really Co, Cedar Street Co.

All the capital stock of the subsidiary companies is now owned or controlled by this company, with the exception of 4,140 shares of the preferred and 5,493 chares of the common stock of the United States Realty & Construction Co.

Realty & Construction Co. REAL ESTATE.—No changes have been made in the book valuations of the properties carried over from last year, and those acquired since then are entered at cost. The amount of productive property has been largely increased; the Breslin, formerly the Sturtevant Hotel, the Trinity Building at 111 Broadway and the New York Hippodrome have been rendered productive. The Trinity Building is admittedly the handsomest and best equipped office building is admittedly the bandsomest and best equipped office building in the world; al-though only just completed, over 90 p c. of the efficient world; al-though only just completed, over 90 p c. of the efficient enter prior to May, and the vacancies are being rapidit fitted. Plans have been prepared for improving the Boreel Building site, and the block in its rear, by the erection of another large office building, and the work on it will be begun shortly. The New York Hippodrome has leased the Sixth Avenue, 43d and 44th St. property for a long term of years at a substantial ground rent, and erected on it a high-class theatre building. The rent rolls for the coming year of the other buildings of the company, particularly the Fuiler (F atir. n) Building and the Mercantile Building on 23d Street have been also increased.

JUNE 3, 1905.]

BUILDING DEPARTMENT .- The unsettled conditions in the building

BUILDING DEPARTMENT.—The unsettled conditions in the building trades during the past year have discouraged building operations. As a result, the volume of business in this department has been less than in previous years. A substantial profit has, however, been earned. A better understanding now exists between the employers and the unions, and the indications are that strikes in the building trades will be less common than in former years. This not only applies to New York but to the other cities in which the company is operating. REGULAR INCOME - As already stated, our income from fixed in-vestments has been largely increased during the past year, and will be still for the rinity. Mercantile, Breelin and Hippedrome proper-ties, some of which yielded little or no income during the period cov-ered by this report. The annual income during the coming year from real estate, mortgages, stocks, bonds and other cash investments now owned will amount to over \$1,100,000, after deducting all interest on mortgages and bills payable, taxes and carrying charges of unpro ductive properties. This income from investments alone will be am-ple to pay the interest on the debenture bends outstanding amount-ing annually to \$664,200, and leave a surplus which may be applied to dividends on the stock. This surplus, of course, will be locerased by the net profits made in the other earning departments and by the im-provement of the other properties which are at present unproductive. The earnings during the ten months have been at the rate of over s. o per annum on the amount of the capital stock. ESERVES.—The reserves, which amount to \$658,402. consist of amounts set aside to cover possible losses on doubtful debts, building accidents, and for depreciation of buildings. Escurities —The valuations of securities in realty companies car-ried from last year have not been changed, although some of them have indoubtedly appreciated in value. Other stocks and bonds which are quoted on the Stock Exchange are priced at their realizable va

The consolidated income account for the 10 months ending April 29, 1905, compares with that of the United States Realty & Construction Co. (predecessor) and subsidiary companies for the 11 months ending May 31, 1904, as follows:

Pacific Mail Steamship Company.

(Advance Statement for Fiscal Year Ending April 30, 1905.)

President Harriman says in substance:

President Harriman says in substance: The increase in receipts resulted entirely from the addition to the company's carrying tonnage by the charter of the stramships "Mon-golia" and "Manchuria," which were put in service in May and August, 1904, respectively; these steamships have a displacement of 26,530 tons each. In order to provide for the increasing traffic and for the handling of large ships at San Francisco, the company secured a lease of 2 new piers, 600 feet long by 120 feet wide each, for a period of 15 years from the completion of the piers; the rental, \$371,673, is to be used in providing suitable buildings and facilities, which, on the ex-piration of the lease, are to become the property of the State. The sum of \$495,633 was credited to the fund for general and extra-ordinary repairs of steamers and charged to the year's expenses. After charging this fund with the payments made for its account, \$1,228,902 remained to its credit at the close of the year. The insur-ance on the company's steamers was renewed and \$140,018, the pro-mium chargeable to the year's operations, was charged to the year's expenses. With the exception of an indebtedness to the Southern Pacific Co. for advances which, on April 30, 1905, amounted to \$617, 122, the company is free from floating debt other than current expenses. The cash on hand in New York, San Francisco and London, April 30, 1905, amounted to \$181,952. The receipts and expenses were as follows:

"From a conservative estimate the gross earnings for the ensuing year should be at least \$1,700,000; the total expense, including drill-ing of wells, land and well rentals, should not exceed \$700,000, leav-ing net earnings, \$1,000,000; deducting interest on \$2,600,000 bonds, amounting to \$156,000, leaves a net balance of \$844,000 applicable for retirement of bonds."-V. 80, p. 1734, 1061.

Columbus & Hocking Coal & Iron Co.

(Report for Fiscal Year Ending March 31, 1905.)

President N. L. C. Kachelmacher, under date of May 17, 1905, writes at much length regarding the property, in part as follows :

GENERAL —In spite of the hard work performed, the net results have not proved satisfactory. We have had to overcome, not only the serious conditions in which we found the affairs of the company, but prices have been on the decline, our list prices during this period averaging \$1.43 for domestic lump against \$2.03 during the same period the preceding year and \$2.50 during the year prior to that, which was the boom year in the soft-coal district. When the soft-coal trade improves we shall be in better shape than ever before to dis-pose of our output to advantage. Our hopper at the new opening of our Kinkald field will be completed in a faw weeks. The upbuilding of our sales department has required temporarily increased expenses. of our sales department has required temporarily increased expenses. In fact this has been a period of reform wherefrom the benefits will be realized in the future.

realized in the future. CLAY DEPOSITE.-Much has been done but more remains to be done -especially in regard to one of the company's greatest assets-our clay lands. We firmly believe that a larger revenue can be derived from the company's clay deposite than in the past from all its other resources, and that when these have been properly developed the company will be able to pay handsome dividends. NEW PROPERTIES.-Recognizing the necessity of acquiring new coal lands, we have been negotiating for additional properties of considera-ble size, some of which are adiagent to the territory in which we are

ble size, some of which are adjacent to the territory in which we are now working. As soon as the right moment arrives definite propositions will be submitted.

Consolidated Rubber Tire Co.

(Report for Fiscal Year Ending Dec. 31, 1904.)

No printed report is obtainable, but President and General Manager Van H. Cartmell was onoted as saying :

Notwithetanding the fact that we were engaged in sharp competi-tion, we were able to procure a very large portion of the business. There is reason to believe, from present indications, that a larger volume of business will be done in 1905 than during the past year, but on account of the unprecedented high price of crude rubber and continued keen competition, it will necessarily have to be done on a very small margin of profit. We do not look upon the patent situa-tion as hopeless and have began a new suit in this district which we shall mush to a final hearing shall push to a final hearing.

ivesuits for three years have been :

Electric Co. of America.

(Report for Fiscal Year ending Dec. 31, 1904.)

The annual report is not printed for distribution, but chiefly from the accounts of the annual meeting which was held on April 24 we have the following data:

COMPANIES OWNED AND OPERATED.

Atlautic Elec. Lt. & Pow. Co. and Elec. Light Co., both of Atlantic City, N.J. Scranton (Pa.) Elec. Lt. & Heat Co. Suburban Elec. Lt. Co., Scranton, Pa. Columous Colliery, Scranton, Pa. Dunmore (Pa.) Elec. Lt. & Power Co. Wheeling (W. Va.) Electric Lt. & Power Co. Bridgeport (O.) Elec. Lt. & Power Co.

The last-named company was purchased during 1904.

With the semi-annual dividend in Jan., 1905, the Electric Co. of America increased its annual dividend rate to 7 p. c.; from July, 1901, to July, 1903, 5 p. c., and from Jan., 1903, to July, 1904, 6 p. c. was paid.

The results for three years past and the balance sheets of Dec. 31, 1904 and 1903, follow:

	1904.	1903.	1902.

UNARACTER OF COMPANY'S COAL LANDS -The borings around New Biraitaville prove conclusively that the company owns an extended field of the very best coal that is to be found in the Hocking district. At Doanville, however, the results have not been so satisfactory; a great, portion of our field being too thin to work profitably for the present. Our borings in Vinton County prove that we have coal there of the famous No. 2 Jackson seam, but not in sufficient quantities to justify us in opening up this property, at least for the present.

The earnings and balance sheet have been:

United Gas Improvement Company.

(Report for Fiscal Year Ending Dec. 31, 1904.)

The financial results for the year were published in the CHRONICLE of May 6, p. 1856. President Dolan further says:

CONNECTIOUT RAILWAY & LIGHTING CO .- During the summer of 1904 the Connecticut Railway & Lighting Co. – During the Summer of 1904 the Connecticut Railway & Lighting Co. proposed to issue to your company its first and refunding 412% morigage bonds to the amount to which under the laws of Connectiont bonds may be sold to meet the cost of extensions, and to convert \$2,500,000 of its common stock held by your company into 5 p c. preferred stock, upon the condition that the United Gas Improvement Co. guaranteed the pay-

American Waltham Watch Co.

(Balance Sheet of March 31.)

The company has filed the following balance sheet with the Massachusetts State authorities. The company does not publish its net earnings and the newspaper deductions as to profit and loss comparisons are officially pronounced untrustworthy on account of various amounts written off from surplus. The company is paying dividends at the rate of 10 p. c. per annum and is understood to be earning about twice that sum.

information: Dine maid 1 Notogenainge

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET ROADS.

Baltimore & Ohio RR.-Exchange of Bonds.-See Pitts-burgh & Western Ry. below.-V. 80, p. 1911, 1856.

Benton Harbor & St. Joseph Electric Railway & Light Co.—Change in Control.—The controlling interest in this company has been acquired by James G. McMichaels, Presi-dent of the St. Joseph River Traction Co.; C. K. Minary of Springfield, Ill., and associates. One of those interested in the purchase writes:

The complete transfer, change in directory and officials will not take place immediately. J. G. McMichael of the Atlas Raiiway Snp-ply Co., Chicago, will probably be the President. It is possible that there will be a consolidation with the St. Joseph River Traction Co., which is controlled by the purchasers of this company, and this com-pany or both companies financed anew. The South Bend & Michigan Ry. will enter St. Joseph over our lines. We are now securing right of way from Benton Harbor to Kalamazoo over lines recently sur-veyed. Considerable work has been done in this county on St. Joseph River Traction Co. lines from Benton Harbor to Eau Claire, Niles and Dowagiac.-V. 72, p. 282.

Brooklyn Repid Transit Co.-See "Franchise Taxation in New York State" below.-V. 80, p. 1485, 1478.

Canada Atlantic Railway.—Mortgage Filed.—This com-pany has filed its new mortgage to the Royal Trust Co., trustee, the Grand Trunk Railway Co. of Canada being guarantors, securing £3,292,200 in 4 p. c. consolidated first mortgage sterling bonds.—V. 80, p. 1727, 1058.

Canada Southern Ry.-Tunnel.-This company, with the Michigan Central, is organizing two corporations, one under the laws of Canada and the other in Michigan, and also a construction company for the purpose of establishing a third-rail electric tunnel road under the Detroit River from Windsor, Ont., to Datroit, Mich. There will be two tubes run-ning parallel under the river, about 30 or 35 feet apart, and each about two miles long. No definite action has been taken regarding the financing of the project, but the present inten-tion is to proceed at once with the preliminaries for putting the plan into execution. "It is estimated that two and a half years will be required to complete the enterprise, the cost of which will approximate \$7,500,000."—See V. 80, p. 1911.

Chicago Union Traction Co.—Proposition to Sell.—The representatives of the company and of the Chicago City Ry. have, it is reported, submitted to Mayor Dunne a rough draft of a proposition for the sale of their properties to the city, providing in effect as follows:

The two systems to be turned/over to the city at once, to be operated either by it or under its supervision; in the latter case the city to be represented on the boards of directors of the operating companies; the rehabilitation (of roads by their present owners, the city ulti-mately paying for whatever outlay is necessary in order to establish a first-class and np-to-date service; the value of the intangible prop-erty, the franchises, to be left in abeyance until all rights under the "99-year Acts" have been definitely decided by the court of last re-sort; the acceptance of Mueller law certificates in payment.

Suit by State.-Judge Chytraus in the Superior Court on May 26, in quo warranto proceedings instituted by Attorney-General Stead and State Attorney Healy against the Chi-cago Union Traction Co. and Chicago City Ry., to test the rights of the street railways in the streets occupied by them, granted orders requiring the companies to answer on June 3. Among other questions, the right to use electricity or cable power, or other than animal power, is raised, it being claimed that the ordinandes referred to in the special legislative Acts provide only for operation by animal power, thus placing the railroads in the position of usurpers of the streets. The de-cision in these cases will, of course, have an important bearing on the placing of values on the franchises in the event of a sale to the city.—V. 80, p. 1911, 1728.

Cincinnati Dayton & Toledo Traction Co.-Guaranteed Bonds Offered.-See Miamisburg & Germantown Traction Co. below.-V. 80, p. 1728, 1478.

Cincinnati Hamilton & Dayton Ry.—Control Acquired.— See Toledo Railway & Terminal Co. below.—V. 80, p. 1856.

Cincinnati Milford & Lovelake Traction Co.-Extension -Readjustment.-President Kroger writes :

We are now extending our lines to Blanchester. The present bond issue will be canceled and another bond issue will be made of 30-year 5s for \$500,000, of which not more than \$275,000 will be issued for the extension to Blanchester. The new bonds can be called any in-terest period after five years at 110; they will be dated July 1, 1905. Present bondholders will take preferred stock for their bonds. Road will be completed about Sept. 1, 1905, almost all the grading having been finished.—V. 77, p. 250.

NOTE.-Not included in above statement of assets for 1904 were "45,931 shares of the capital stock of water companies, par value, \$3,601,500; sundry bills receivable, not immediately collectible, amounting to \$90,420; patent rights, factory buildings, machinery, office furniture and fixtures."-V. 78, p. 1277.

Cleveland Cincinnati Chicago & St. Louis Ry.-Right to Subscribe.-The directors have voted to permit the preferred shareholders as well as the holders of the common stock to subscribe for the new common shares authorized as stated in V. 80, p. 1423. - V. 80, p. 1911, 1728.

Cleveland Electric Ry.-Mayor's Proposition Rejected.-The company, on May 22, notified the city authoritles that it would not lease its property to any such lessee as was sug-gested by Mayor Johnson. The alternative proposition of the company to give "a substantial reduction in fare if the future earnings should make such reduction practicable," the dividends on the stock issued or to be lesued to be also limited to 5 p. c. for 25 years, was tabled by the City Council. -V. 80, p. 1970, 996.

Delaware & Hudson Co.-Option to Subscribe.-Shareholders of record on June 10 are offered the privilege of subscribing pro rata at par, on the company's warrants, on or before July 25 for the \$10,000,000 new 40 year $3\frac{1}{2}$ p. c. gold [refunding] bonds of the Albany & Susquebanna RR. Co., to be dated April 1, 1906. These bonds will bear the guaranty of this company, both as to principal and interest; and this guaranty wil contain a provision giving to the holder of each bond the right to convert the same into five shares of the stock of this company at any time prior to April 1, 1916 Each stockholder will have the right to subscribe for one such \$1,000 bond for every 41 shares of stock held by him.

No warrants will be sub-divided after July 20, 1905. No rights will be either soid or purchased by this company. No subscription will be received for iess than a \$1,000 bond. Subscriptions will be payable 20 p. c. on or before July 25; 40 p. c. on or before Jan. 10, 1906; 40 p. c. on or before Feb. 20, 1906. All payments will bear interest from the respective dates upon which they are payable until April 1, 1906, at 3¹/₂ p. c. per annum.

Upon surrender of full-paid purchase certificates at the office after April 1, 1906, the bonds will be delivered. At the same time the interest upon the several payments will be paid. See V. 80, p. 1911, 1362.

Det oit Sonthern RR.—Payment of Receiver's Certificates. —Holders of receiver's certificates are notified to present them for payment on or before June 30, 1905, at the office of H. B. Hollins & Co., New York City.

New Company.-See Detroit Toledo & Ironton Ry. below.-V. 80, p 1971, 1856.

Detroit Toledo & Ironton Railway.—Mortgages.—This company, recently organized as the successor of the Detroit Seuthern RR. foreclosed, has filed its two new mortgages. viz., general lien and divisional first mortgage for \$4,253,000 to the New York Trust Co., trustee, and the o nsolidated mortgage for \$22,500,000 to the Knickerbocker Trust Co., trustee. See Detroit Southern RR, in Railway and Industrial Section; also V. 80, p. 1971, 1856.

Fort Wayne Van Wert & Lima Traction Co.—See Lima Findiay & Toledo Ry. bsiow.—V. 80, p. 222.

Franchise Texation in New York State.—Law Finally Upheld.—The United States, Supreme Court on May 29, the opinion being written by Justice Brewer, unanimously affirmed the decision of the New York State Court of Appeals upholding the validity of the special franchise tax law enacted in 1889.

The total amount now due the City of New York under this decision, as determined by the City Comptroller, is \$24,008,-863, of which \$20,131,063 is for principal of tax for the five years 1900 to 1904, and \$3,877,800 for interest (approximate) to June 1, 1905, viz.:

It is understood that the Consolidated Gas Co., the Brooklyn Rapid Transit Co., the Manhattan Ry. Co. and other leading companies have each year largely. if not fully, provided for the payment of the amounts so due. No overdue franchise tax is reported against the New York Telephone Co. and the New York & New Jersey Telephone Co. A representative of the Metropolitan St. Ry. Co. is quoted as saying:

Transit Co., \$25,552,000 to \$29,500,000; New York Street Railway system, \$74,860,000 to \$79,233,000; Brookyn Union Gas Co., \$10,-565,000 to $$12,4^{\circ}0,000$; Edison Electric Illuminating Co. of Brooklyn, \$3,644,000 to \$4,900,000; New York Telephone Co., \$5,015,000 to \$6,610,000; Joney Island & Brooklyn R3. (including Brooklyn City & Newtown RR.), \$2,189,000 to \$2,900,000. —V. 79, p. 1266.

Geneva Waterloo Seneca Falls & Cayuga Lake Traction Co.-Sold.-See Rochester & Eastern Rapid Ry. below.-V. 60, p. 562.

Groton & Stonington (Conn.) Street Ry.—Status.—Bonds. —This company's line was placed in operation on May 6 from Groton to Westerly, 20 miles. Clarence E. Thompson & Sons, of New Haven, last March when offering a block of the first mortgage bonds at 105 and interest, said in a circular.

first mortgage bonds at 105 and interest, said in a circular. Flve per cent bonds dated July 1, 1904, due July 1, 1924; interest payable Jan. 1 and July 1 at the International Trust Co., Boston, Mass. Denomination, \$1,000. A first mortgage on all the property and franchises now owned or hereafter acquired. Company organized to build and operate an electric railroad from Groton, Conn., to Westerly, R. L. passing through the towns of Groton, Noank, West Mystic, Mystic. Stonington and Pawcatuck, of approximately 20 miles in length, connecting by ferry with New London. Population served, including terminals, about 48,000. Binds, total authorized and issued, \$375,000; preferred stock, \$200,000; common stock, \$400,000. Entire preferred stock has been paid in at par in ca-h, and about \$150,000 will be paid in on common stock. Cost of property about \$725,000. The road runs over its own right of way except through towns, and is built in best manner, as is the power station, which cost about \$80,000. It is estimated that the gross earnings for the first full year will be over \$80,000 and the net earnings about \$30,000. President, Thomas Hamilton, Groton, Conn; Vice President, B. F. Williams, Mystic, Conn.; Secretary, E. W. Higgins, Norwich, Conn.; Treasurer, Costello Lippitt, Norwich, Conn.

Hudson Vailey (Electric) Ry.—Receivership.—At Ballston on May 27 Justice Henry T. Kellogg appointed Jarvis P. O'Brien of Troy receiver of the property on application of Daniel P. Halpin, who, as holder of \$5,000 consols, seeks the foreclosure of the consolidated mortgage. Of the \$3,518,000 consols outstanding, the bankrupt Merchants' Trust Co., it is stated, holds among its assets about \$1,140,000, either as collateral against loans or as actual holdings; also \$110,000 bonds of the North River Railway Co.—V. 80, p. 2219.

Interborough Bapid Transit Co.—Agreement with Projectea Line. See New York & Portchester Ry. below.—V. 80, p. 1912, 1479.

Kansas City Southern Ry.—New Officers.—J. A. Edson has been elected President to succeed Stuart R. Knott, resigned; H R Daval Vice-President in place of Hormann Sielcken, resigned. Mr. Sieicken will be Chairman of the board of directors, also Chairman of the executive committee, the other members thereof being Samuel Untermyer, Ernst Thalmann, H. R. Daval and D. G. Boissevain, See V. 80, p. 1971, 1921.

Licking River RR.—Sale.—This Kentucky road, 28½ miles in length, was recently sold with the property of the Yale Lumber Co., including 12,000 acres of timber land in Kentucky, to stockholders of the Licking River Co. of Farmers, Ky., among them R. H. Lanyon, Frederick Pischel and Fred. J. Pischel of Chicago, respectively its President, Vice-President and Treasurer.—V. 69, p. 1193, 955.

Lima Findiay & Toledo (Electric) Ry.—New Enterprise.— This company, which is building a trolley road in the interest of the Western Ohio Ry. from Lima to Findlay, O., 31'9 miles, has made a mortgage to the Citizens' Saving & Trust Co., Cleveland, trustee, to secure \$600.000 first mortgage sinking fund 5 p. c. gold bonds, of which \$400,000 have been sold to Denison, Prior & Co.; \$200,000 are reserved for future requirements.

Bonds dated Apr. 1, 1905, and due July 1, 1925, but subjact to call at company's option at 105; sicking fund \$10 000 yearly, beginning in 1911. Interest payable at office of trustee or in New York. Capital stock, \$900,C00; viz., \$500,000 common, owned, it is understood, by Western Ohio Ry. Co., and \$400,000 6 p. c. cumulative preferred, the latter, it is said, sold to M. J. Mandlebaum & Co. The Western Ohio Ry. Co. will supply power and rolling stock. Frank Butler is President.

Upon the completion of the new road, late in 1905, through trolley service will be possible between Toledo and Cincinnati, and Cleveland and Cincinnati.

Local papers have recently reported regotiations by the interests back of the Ohio Traction Co. of Cincinnati (see V. 80, p. 2220) for the acquisition by purchase and lease of the Dayton & Troy Electric Ry., the Western Ohio Ry., the Lima Electric Railway & Light Co., the Ft. Wayne Van Wert & Lima Traction Co. (V. 80, p. 223), and the Lima Findlay & Toledo.

The Fort Wayne Van Wert & Lima Traction Co. is building from Lima to Fort Wayne, of which about 30 miles, between Lima and a point beyond Van Wert was at last accounts completed. D. J. Cable, Lima, O., is interested in this last-named company, which has contracted with the Western Ohio for electric power.—V. 80, p. 1424.

We have taken it as a foregone conclusion that the decision of the United States Supreme Court would be adverse to the corporations involved in the case. The Metropolitan Street Railway Co. has already charged off part of the sum involved in the franchise taxes, but provision has not yet been made in the accounts for paying the full amount I suppose all that now remains is the final settlement of the amount due.

The Consolidated Gas Co. (Consolidated Telegraph & Electrical Subway Co.) and the Brooklyn Rapid Transit Co. ask for certain deductions or allowances from the foregoing.

Franchue Valuations for 1905.—The franchise valuations for New York City corporations as announced for 1905 by the State Tax Commission on March 31 shows an increase for the entire city of about \$50,000,000, viz : from \$251,158,450 to \$802,193,550, some of the important increases being reported:

Consolidated Gas Co. system, from \$53,314,500 to \$69,625,000; Manhattan Ry. Co., from \$46,700,000 to \$55,750,000; Brooklyn Rapid

Louisville & Nashville RR.—Purchase Sustained.—See Shelby RR. below.—V 80, p. 1918, 1729.

Massachusetts Electric Companies.—Bonds.—The Massachusetts Railroad Commission has approved the issue of an additional \$500,000 bonds of the Boston & Northern Street Railway Co., also \$500,000 bonds of the Old Colony Street Ry. Co., under the mortgages of 1904.—V. 80, p. 1971, 1729. Massachusetts Securities Co.—See statement in last

week's CHRONICLE, p. 2196, touching the failure of Burnett, Cummings & Co.-V. 78, p. 1907.

Metropolitan Street Rallway, New York City.—Called Bonas—In our advertising columns will be found the numbers of certain bonds which are called for payment at par and int-rest on July 1 at the Morton Trust Co., viz.: 42d St. & Grand St. Forry RR., 50 bonds; 23d St. Ry., 50 bonds. Proposed Subways-Secretary Morton in Charge.-Paul

Morton, Secretary of the Navy. apnonnces that he will re-tire from the Cabinet on July 1, 1905, will go to New York to live, and will become associated with Thomas F. Ryan, taking "active charge of the plans for the construction of the proposed comprehensive system of underground rapid transit posed comprehensive system of underground rapid transit lines in New York City for operation in connection with the existing surface lines." [Compare "Rapid Transit in New York City" below and V. 80, p. 1972, for possible routes.] Earnings.—See page 2340 of this issue. Liability for Taxes.—See "Franchise Tax in New York State" above.—V. 80, p. 1913, 711.

Miamisburg & Germantown Traction Co.-Bonds Offered. -W. E. Hutton and Claude Ashbrook, both of Cincinnati, recently offered the \$50,000 first mortgage 5 p. c. bonds due Dec., 1911. See Cincinnati Dayton & Toledo on page 759 of STREET RAILWAY Section for February.

Michtgan Central RR.—Proposed Tunnel.—See Canada Southern Ry. above.—V. 80, p. 1913, 1852.

Midland Valley R.B.—Extension.—The Cherokee Construc-tion Co. has increased its capital stock from \$2,500,000 to \$3,500,000, for the purpose of extending this road, of which it owns all the stock and bonds, through the Ostge Indian reservation to Arkansas City, Kansas, a distance of 80 miles, making the line 300 miles in length. The Construction Com-pany last D-cember sold through Drexel & Co. \$3,500,000 3-year 6 p. c. gold notes, the security for which are the stock and bonds of the Midland Valley RR. and a mortgage on its own coal properties.

own coal properties, The Cherokee Construction Co. was incorporated under the laws of Oklahoma on May 28, 1903; its total authorized stock (all common) is \$3,500,000; par of shares, \$100. The company owns in fee about 13,000 acres of coal land and controls through its ownership of the American Sm keless Coal Co. 5,500 acres additional; no bonds ont-standing. It owns all the stock and bonds of the Midland Valley RR. Co, which have been issued by that company in payment for its com-pleted line of railroad. The mortgage on the coal estate of the Con-struction company, which is deposited as additional collateral for the 3-year 6 p. o. gold notes sold through Drexel & Co. covers the 18,500 acree of coal land above mentioned. The officers of the Construction Company are: Wm. H. Jenks, President; Charles E. Ingersoll, Vice-President; H. E. Yarnall, Secretary and Treasurer; office, Girard Building, Philadelphia.-V. 80, p. 1729, 472. New Orleans Railways.-Foreclosure Decree.-The fore-

New Orleans Railways.-Foreclosure Decree.-The foreclosure decree was entered in the United States Circuit Court in New Jersey on June 1. The upset price is 10.(0). 000. The new company will be incorporated about July 1, under laws of Louisiana.

Payment of Coupons.-Under instructions from the reor-ganization committee, notice is given that coupons of the New Orleans Railways Co. 4½ p. c. bonds which matured prior to Jan. 1, 1905, will be paid upon presentation to the Hibernia Bank & Trust Co., New Orleans,-V.80, p. 2220, 1175.

New York & Long Island Traction Co.-Change in Con-trol.-Sanderson & Porter have purchased this property from its Cleveland owners.-V. 74, p. 1356.

New York Ontario & Western Ry.-Dividend.-President Charles S. Mellen of the New York New Haven & Hartford is quoted as saying: "It is true that a dividend will be de-clared upon the stock of the New York Ontario & Western in June. I cannot state what the rate per cent will be, and the dividend when declared must not be taken as the basis of future dividends." -V. 80, p. 1368, 1112.

New York & Portchester (Electric) Rg.—Agreement for Interchange of Iraffic with Subway — E. P. Bryan, Vice-President of the Interborough Rapid Transit Co., under date of May 31, outlines as follows the terms on which his company has agreed to interchange traffic with this projected road:

The Interborough to provide station facilities for interchange of pass-magers at 177th St. and Boston Road and at Sonthern Boulevard and Westchester Ave. Also to carry New York & Portchester passengers from those points for a 5 cent fare for a continuous ride over any or all of the ele-vated and subway lines now existing or to be built in the boroughs of the Bronx. Manhattan and Brocklyn by the I. R. T. Oo. A single fare to be received by the New York City Interborough Rall way Co. [the allied surface lines] of not more than 4 cents for one continuous ride from eaid junction pointe over its lines.

Application for a franchise has been made to the Board of Estimate, under the law passed by the last Legislature, which took the power of granting franchises away from the B ard of Aldermen, who for two years past had blocked this enterprise. The constitutionality of this law is likely to be tested in the courts .- V. 80, p. 1972, 1479. Norfelk & Sonthern BR.-Sale.-Advices from Pittsburgh "confirmed" report that the controlling interest in the road which was acquired last year by Henry Sproul & Co. and James C. Chaplin of that city has been sold for a cash con-sideration. President A H. Flint of New York states that he is increasing rather than lessening his holdings; nothing can be learned from him tonching the destination of the Pittsburgh shares. The bankers who are financing the Vir-ginia & Carolina Coast RR. project below mentioned deny that the N. & S. has anything to do with their line.-V. 80, p. 1112, 478 Pittsburgh & Western RR.-Option of Exchange.-J. P. Morgan & Co. give notice by advertisement on another page that the holders of the firm's certificates of deposit for the first morigage 4 p. c. gold bonds are offered for 39 days

Ohio RR. Co.'s new Pittsburgh Lake Erie & West Virginia System refunding mortgage 4 p. c. gold bonds of 1941, bond for bond, with a cash payment for adjustment of interest. All deposited bonds, the holders of which have not elected to take the new bonds, will, at the expiration of said thirty days, be sold to the Baltimore & Ohio for par and interest in cash. Of the total issue of \$10,000,000 of first mortgage 4s of 1917 more than 75 p. c. have already been acquired and deposited as part security for the Pittsburgh Lake Erie & Western system mortgage.-V. 74, p. 268,

Providence & Burrillville Street Ry.-Mortgage -This company, which is building a 10-mile trolley road between Providence and Woonsocket, R. I., has made a mortgage for \$750,000 to the Rhode Island Hospital Trust Co. of Providence as trustee

The bonds are gold 5 per cents of \$1,000 each, dated Jan. 1, 1905. and due Jan. 1, 1925, but subject to call at company's option at any interest period after 1909 at 105 and intersist; am unit outstanding, \$200,000. Sinking fund must retire \$5,000 yearly after 1909. Inter-est payable July 1 and Jan. 1 at office of trustee. Of the authorized issue, \$550,000 is reserved for double tracking, etc. Authorized capi-tal stock \$750,000; outstanding, \$297,000; par of shares, \$100. Presi-deut, E H Rathbun, Woonsocket; Secretary, F. E. Holden, Woon-socket; Treasurer, E K. Bay, Franklin, Mass.

Rapid Transit in New York City.-Additional Routes Ap. proved,-The Rapid Transit Commission on May 24 and June 1 decided on the following additional snoway routes :

Four-track cross-town line on 14th St. from the Hudson River to a point between Avenues B and C, where a connection will be made with the bridge loop which is to connect the Williamsburgh, Manhattan and Brooklyn bridges. This loop will tunnel the East River to Wil-liamsburgh opposite 14th St. The 14th St. line will also have two double track spurs, viz: (1) Through 9th Ave., Greenwich, Liberty and William streets to the proposed Old Slip tunnel under the East River to Brooklyn; (2) down University Place, Wooster, Canal and Centre streets to connect at Brooklyn Bridge with the bridge loop. Also the following: First Ave. subway; West St. and Ninth Ave. subway; Jerome Ave. subway and elevated extensions in the Bronx; Gerard Ave. subway in the Bronx; extension along West Farms and White Plains Road; also along Southern Boulevard and Westchester Ave. in the Bronx.

Ave. in the Bronx.

The commussion also approved the Brooklyn routes reported by the committee on plan three weeks ago, namely, along Fourth Ave. to Fort Hamilton; along Eastern Parkway to Brown*ville; from Green-point to the Blackwell's Island Bridge, and another to J-maios, with various spure. The main tunnels come together at the Bor-jugh Hall Park and can be connected with any of the proposed extensions under the East River -V. 80, p. 1972, 1236.

Rochester & Eastern Rapid (Electric) Ry.-Change in Control. - Tae control of this property and also the control of the Geneva Waterloo Seneca Falls & Cayuga Lake Traction Co. were recently sold. it is supposed, to New York Central interests. - V. 78, p. 1963.

Rochester Syracuse & Eastern (Electric) RR -New Securities — The New York State Railroad Commission on April 25 authorized the company to increase its capital stock to \$6,000 000, consisting of \$3,500,000 common stock and \$2,500,000 non-cumulative preferred. Of these amounts there is outstanding all the common and \$1,130 000 preferred; par of shares, \$100. The Commission also authorized the making of a mortgage for \$7,500,000, but not more than \$2,000.000 of the bonds to be issued without further consent. The company is now building a double-track trolley road from Rochester to Lyons, N. Y, a distance of 37 miles. Total length of proposed line, 80 miles; total track, including second track and sidings, 165 miles. Rail 70-1b. and 90-1b. T.

President, L. O Smith; Vice-Presidents, F. W. Roebling and W. A. Holden; Secretary, C. A Lux; Treasurer, A. K. Hiscock; Manager C. D Beebe. See V 80, p. 601.

St. Joseph River Traction Co.—Alliance—Possible Consolidation .- See Benton Harbor & St. Joseph Electric Ry. & Light Co. above.

Seaboard Air Line Ry.—Reorganization.—J. L. Williams & Sons, Richmond, have issued a circular stating their reasons for disapproving the plan of the Ryan Blair Committee.

The following Baltimore men and firms have sent a letter to the reorganization committee assuring it of their hearty co-operation, and their belief that " when the many improvements proposed by the plan are carried into effect, the Seaboard system will be so developed that in the course of a short time it will show results similar to those of other railway systems operating in the same territory :" Gustavus Ober. Townsend Scott & Son, Stein Bros., Hambleton & Co. and Henry A. Orrick.

New Company. - See Seaboard Company below. -- V. 80, p. 2220, 1972.

Seaboard Company.-Successor Company.-This company

on Thursday filed in New Jersey an amended charter increasing its capital stock from \$4,000 to \$72,000,000, preparatory to carrying out the modified financial plan of the Seaboard Air Line Ry. See V. 80, p. 1972.

Seattle Electric Co.-Called Bonds.-First mortgage 5 per cent bonds to the amount of \$55,000, drawn for redemption, will be paid on Aug. 1 at 110 and interest at the Boston Safe Deposit and Trust Co. in Boston.-V. 77, p. 2160.

Shelby B.R.-Decision Sustaining Sale.-The Court of Appeals of K-ntuckey on May 26, Judge Barker delivering the opinion, reversed the judgment of the Jefferson Coancery Court, First Division, which held that the Louisville & Nashville, the holder of 11,864 of the 12,016 shares, could not, without the consent of all the minority stock, purchase the road.

The case is remanded to the lower court for further proceedings, the Chapcellor to look into the contract of sale and determine whether the price paid, \$162,000, is adequate. The Court says that, especially from June 1, 1905, the option of taking for their deposited the price paid, \$162,000, is adequate. The Court says that, especially bonds either par and interest in cash, or the Baltimore & in the case of transportation corporatione, the few minority stockholders of a branch line should not be allowed to block its progress and the development of the country by refusal to join with a larger trunk line.

Toledo Railway & Terminal Co.—New Officers.—The control of this company has been formally transferred to the Cincinnati Hamilton & Dayton interests and the following new officers are announced:

Eugene Zimmerman, Chairman of the board; Russell Harding, President; T. B Fogg, Vice-Pr-sident and General Manager; Thomas J. Walsh, Scoretary, and J. E. Howard, Treasurer. Directors—Eogene Zimmerman, Russell Harding and F. A. Wann, Cincinnati; Thomas H. Tracy, W. F. Robison, J. J. Robison and Edward Ford, Toledo; H. B. Hollins and R. R. Govin, New York; and L. B. Pierce, St. Louis.— V. 80, p. 164.

United Rallways & Electric Co., Baltimore.—No Income Interest.—The directors on May 29 voted that no payment be now made on account of the interest on income bonds and that no dividend be declared on the preferred stock. This decision is based on the report of an expert accountant covering the earnings and expenses of the company for the six months ending May 31, showing:

After deducting the amounts required for fixed charges, necessary repairs and maintenance of the railway system, including the amounts required to be reserved to pay for losses occasioned by the fire of February, 1904, the company will not have money derived from the net earnings sufficient to justify the payment of such interest or dividend at this time.

Suggested Plan.—Hambleton & Co. of Baltimore in their monthly circular state that the negotiations looking towards the adoption of a compromise financial plan have apparently come to a standstill. They therefore submit what they believe to be a feasible solution of the difficulty.—V. 80, p. 1725, 1425.

Virginia & Carolina Coast RR.—New Project.—Rudolph Kleybolte & Co. are the managers of a syndicate which has "practically closed" the underwriting for \$4,250,000 of this projected company's 5 per cent bonds, the price being cur rently reported as par, 100 p. c. in stock accompanying the bonds as bonus. The plan is (1) to purchase 450,000 acres of real estate, more or less (estimated to contain 2.000,007,000 feet of standing timber), owned by the John L. Roper Lumber Co., the Allegheny Lumber Co. and Alexander Sprunt & Sons; also their lumber mills, etc.; (2) to increase the output of the mills 75 p. c., and through the property to acquire by constructing, or constructing and purchasing, a standardgauge railroad 150 miles in length between Norfolk, Va., and Beaufort, N. C., via Edenton, Mackey's Ferry, Belhaven, etc., The with ferries and floating equipment for water ways. new line, it is stated, will traverse the same character of ter-ritory as the Norfolk & Southern (which see above), but for the most part will be distant some 15 miles therefrom. Authorized capitalization, \$7,500,000 each of stock and first mortgage 53.

Virginia & Trackee RR.—Sale.—The shareholders will vote June 24 on selling the road, presumably to one of the Southern Pacific companies.

Walikill Transit Co., Middletown, N. Y.—Capitalization. —This company will have \$350,000 capital stock, all common; also an issue of \$350,000 bonds, \$50,000 of which is not to be issued presently; \$150,000 will be expended immediately in reconstruction. See V. 80, p. 1425.

Western Ohio Ry.-Subsidiary-Possible Amalgamation.-See Lima Findlay & Toledo Ry. above.-V. 79, p. 682.

INDUSTRIAL, GAS AND MISCELLANEOUS.

American Radiator Co.-Canadian Plant.-This company has taken a five years' lease of the Cockehutt factory plant in Brantford, Ont., with option of purchase.-V. 80, p. 1973.

Arlington Mills, Lawrence, Mass.—New Stock.—The shareholders on May 9 anthorized an increase in the capital stock from \$3,000,000 to \$5,000,000—\$1,000,000 to be issued as a stock dividend of 33 1.3 p. c. and the remaining \$1,000,000 is offered to stockholders of record on May 9 for subscription at par (\$100 per share), payable July 10.

Associated Oil Co., California.—First Dividend Paid Feb 1.—For record it should be stated that a first dividend, said to be semi-annual, was paid on Feb. 1, 1905.—V. 80, p. 1060.

Battle Creek Coal & Coke Co., Orme, Tenn.—Bonds Offered.—Lawrence Barnum & Co. are offering at 102½ and interest \$100,000 1st mortgage 6 p. c. gold bonds of \$500 each. dated April 1, 1905; due April 1, 1935; subject to call at 110 and interest after 1906. Interest payable (April and Ostober) at International Trust Co., trustee, Baltimore, Md., and at the banking house of Lawrence Barnum & Co., New York City. A circular says:

\$125 per share new stock in the proportion of one share for every eight shares now held. The right to subsoribe will expire at 1 P. M. June 24. Subscriptions are payable \$25 per share on July 3, 1905; \$25 Oct. 2. 1905; \$25 Jan. 2, 1906; \$25 April 2, 1906; \$25 July 2, 1906.—V. 80, p. 1176.

Booklovers' Corporation.—Lease.—This company, incorporated in New Jersey on May 8 with \$150,000 capital stock, has taken a 15-year lease of the Booklovers' Library and Tabard Inn Library.—V. 80, p. 2221.

Bristol (Conn.) Water Co.—Bonds.—This company, incorporated in 1884, has made a mortgage to the Colonial Trust Co., of Waterbury, Conn., trustee, to secure \$100,000 20-year 4 p. c. gold bonds of \$1,00) each, subject to call, in part at least, in 1914, interest payable J. & J. et office of trustee. Bonds dated 1904. Capital stock, \$100,000. President, A. L. Sessions; Secretary and Treasurer, C. L. Wooding. The company, it is stated, will construct a new reservoir at Gridley Pond in Harwinton and will lay about two miles of pipe.

Baffalo & Nisgara Falls Electric Light & Power Co.— Increase of Capital Stock.—This company on May 16 filed with the Secretary of State a certificate of increase of capital stock from \$500,000 to \$2,500,000. Compare V. 80, p. 1731.

By-Products Paper Co. of Niagara Falls.—Sale Ordered. —At Buffalo on May 11 on application of Herbert P. Bissell, Justice Kenefick in Special Term of the Supreme Court granted an order permitting the receiver to sell the property. The land upon which the buildings at Niagara Falls stand is owned by the Niagara Falls Power Co. Uowards of \$625,-000, it is claimed, has been expended in efforts to make a success of the Benjamin F. French patent for making fine paper from tow.—V. 75, p. 292.

Cherokee Construction Co.—See Midland Valley RR, under "Railroads" above.

Childs Company.—Regular Dividends.—Quarterly dividends of $1\frac{3}{4}$ p. c. on the preferred stock and $\frac{3}{4}$ of 1 p. c. on the common stock have been declared, payable on June 10 to stockholders of record on June 3, 1905. See full statement in V. 80, p. 2222.

Clinchfield Corporation.—Purchase.—A press despatch from Bristol, Va., on May 26, announced the purchase by this company of the coal properties of the Inter-State Coal & Iron Co., aggregating 75,000 acres, in Russell, Dickinson, Buchanan and Wise counties, Virginia, for something over \$1,500,000.—V. 80, p. 2222.

Clinton (N. Y.) Home Telephone Co.—Mortgage.—A mortgage has been made to the Citizens' Trust Co. of Utica, trustee, to secure \$100,000 bonds. The company is controlled by the Independent Telephone Securities Co. of Utica (V. 80, p. 1733), and it is possible that the bonds will be used as part collateral for that company's collateral trust mortgage, authorized issue \$15,000,000.

Colton (Cal.) Gas Co.—Bond Issue.—This company has made an issue of \$50,000 of 30-year bonds, of which \$30,000 were to be issued forthwith.

Incorporated in California in 1933 with \$100,000 of authorized capital stock. Incorporators: Geo, B. Ellis and H. H. Sinclair of Los Angeles, Henry Fisher, Frank A. Morrison and Halsey W. Allen of Redlands. Address last named.

Columbus (0.) Public Service Co.—*Preferred Stock.*— This company has recently made an issue of \$1,000,000 preferred stock, 6 p. c. cumulative, of which \$750,000 applicable to retirement of a like smount of 6 p. c. gold bonds of 1904, due Feb. 1, 1924, but subject to call on Feb. 1, 1906, at par; denomination, \$100, \$500 and \$1,000; Columbus Savings & Trust Co., mortgage trustee. The proceeds of the remaining \$250,000 preferred, it is understood, will be used for enlargement of plant at 17th and Mound streets and extension of hot water mains. The "Ohio State Journal" says:

Circulars announce that after May 27 all of the unsold bonds of the \$750,000 issue will be withdrawn from sale and all unsold bonds will be returned to the New York office and canceled; also that beginning May 29 the preferred stock will be on sale in place of the bonds and that the quota of common stock given as a bonue with the preferred will be reduced from 100 p. c. to 50 p. c.

Authorized issue of common stock, \$1,500,000. President. Charles L. Kurtz; Secretary, W. H. Sharp; Treasurer, Paul A. DeLong. See V. 78, p. 1111.

Consolidated Cotton Duck Co.—Plan Operative.—The holders of income bonds of the Mt. Vernon-Woodberry Cotton Dack Co. and the holders of preferred and common stock of the United States Cotton Duck Corporation are notified by the reorganization committee—S. Davies Warfield, Chairman—that "upwards of three-fourths of each class of securities having assented to the plan dated May 8, 1905, the committee has declared the plan operative and has caused a new company to be duly organized to take over the deposited securities." The time for the deposit of securities under the plan has been extended to and including June 8. No deposits will be received after June 8, 1905, except under such penalty as the committee may prescribe. The new company, the Consolidated Duck Co., has been incorporated under the laws of Delaware. See advertisement on another page of this issue and plan in V. 80, p. 1915.

City. A circular says: Sinking fund 10 cents per ton, but not less than \$7,500 annually to retire bouds. Stock: Common. \$400,000; preferred 7 p. c. onmulative, \$300,000. Bonds authorized, \$325,000; ontstanding, \$300,000; a first mortgage on 2.378 acres of valuable coal lands, located at Orme, Marion Connty, Tenn., a plant capable of handling an output of 1,000 tons daily, and all of the buildings and improvements in Orme, which town is entirely on the property of the company. Property purchased from Campbell Coal & Coke Co., which has been in successful operation for over two years, having earned net over \$60,000 each year. Orme is located on a branch of the Nashville Chattanooga & 8t. Louis RR., about 10 miles from Bridgeport, Ala., 30 miles from Chattanooga, Tenn., and 100 miles from Atlanta, Ga., Nashville, Tenn., and Birmiogham, Ala. For year 1904: Gross income, \$242,-771; expenses, taxes, renewals, etc., \$182,539; net income, \$60,232; interest on bonds, \$18,000; sinking fund, \$7,500, surplus applicable to dividend on stock, \$34,732. Belt Telephone Co. of Canada.—New Stock.—In order to

Beli Telephone Co. of Canada.—New Stock.—In order to increase the capital from \$8,000,000 to \$9,000,000, each stockholder of record on June 15 is offered the right to take at

Consolidated (las Co., New York.—See "Franchise Taxation in New York State" under "Railroads," above.—V. 80, p. 2222, 1915.

Consolidated Telephone Co., Baffalo, N. Y.—Acquisition. —This company recently acquired a controlling interest in the \$3,000,000 capital stock of the Frontier Telephone Co. of Buffalo, an independent company which has been in operation for about two years and is said to have nearly 8,000 telephones in use. (Compare V. 74, p. 880.)

The Consolidated Telephone Co. was organized in 1901 with \$10, 000,000 authorized capital stock, of which \$4,500,000 is outstanding. Its President is Burt G. Hubbeli; Secretary and Treasurer, Chas. E. Austin. Arthur E Bisseli is a Director. It owns a controlling interest in the following-named telephone companies operating or in process of development, their authorized issues of capital stock being as shown:

development, their anthorized issues of capital stock being as shown: Inter-Ocean Telephone & Telegraph Co. stock, \$2,000,000; Century Telephone Construction Co., \$500,000; Hornellsville Telephone Co., \$100,000; Corning Telephone Co., \$100,000; Ithaca Telephone Co., \$75,000; Geneva Telephone Co., \$75,000; Salamanca Telephone Co., \$30,000; Wellsville Telephone Co., \$50,000; Watkins Telephone Co., \$25,00; Penn Yan Telephone Co., \$25,000; Bath Telephone Co., \$25,000; Canisteo Telephone Cc., \$5,000; Valley Telephone Co., oper-ating Waverly, N. Y., and Sayre and Athens, Pa., capital stock, \$75,000; Cone-wango Valley, Valley Telephone Co., \$5,000; Livingston County Telephone Co., \$200,000, operating in Dansville, Geneseo, Mt. Morris, Moscow. Avon, and toli ines in Livingston County; Clifton Springs Telephone Co., \$6,000.

The Frontier Telephone Co. has outstanding \$1,455,000 1st mortgage bonds of 1902, issue limited to \$2,500,000; due 1922, but subject to call at 105 and interest after July 1, 1912; inter-est payable Jap. 1 and July 1 at Trust Company of America, N. Y. City, and at office of Buffalo Agent.-V. 76, p. 481.

Consumers' Gas Trust Co. of Indianapolis.—Distribution. -The certificate holders this week received a distribution of 40 per cent (\$10 per share), amounting to \$315,463, from the cash on hand. Further distribution will be made on sale of the property in Indianapolis. Compare V. 80, p. 2222, 1731.

Detroit Portland Cement Co.—Payment of Overdue Cou-pon.—The company on May 25 deposited with the Metropolitan Trust Co., New York, the funds needed to pay the conpons due Dec. 1, 1904, together with the interest thereon from that date. The June coupons will not be paid at present.-V. 79, p. 2207.

Dominion Textile Co., Limited, Montreal.-Amalgamation .- This cotton-manufacturing company was organized under the laws of the Dominion of Canada on Jan. 4, 1905, with an authorized capital stock of \$10,000,000 in shares of \$100 each, of which \$2,500,000 is non-cumulative 7 p. c. preferred and the remainder common stock; ontstanding, \$5,-000,000 common and \$1,820,800 preferred. The new company has recently taken over the management of the following mills by the purchase of a controlling interest in their capital stocks on the basis shown:

x Total amount issuable if entire stock acquired on basis stated. y The underlying bonds of the Colonial Bleaching & Printing Co., amounting to \$150,000, are to be exchanged for a like amount of the 6 p. c. bonds of the Dominion Textile Co., which will make the total bond issue of \$450,000 on that property a first mortgage bond. z Series A is subject to call at company's option at any time at 10 p. c. premium; series B at par after five years; series C and D at any time at 5 p. c. premium.

The bonds of the new company were given in exchange for the capital stock of the four constituent companies and are known as Series A, B, C and D, respectively. They are dated March 1, 1905, and are due March 1, 1925, interest 6 p. c. per annum, payable Sept. 1 and March 1 at office of Royal Trust Co., trustee, Montreal; denomination, gold, \$1,000, \$500 and \$250. Each series is secured by deposit with the trustee of the capital stock acquired in the company for which that caries was issued and will become a mortgage which that series was issued, and will become a mortgage bond upon the properties of that company as soon as the en-tire capital stock of the same has been transferred to the Textile Company. Arrangements have been made whereby the underlying bonds of the Colonial Bleaching & Printing Co., \$150,000, are to be exchanged for a like amount of 6 p. c. bonds of the Dominion Textile Co., which will make the

Goodwin Car Co.-Called Bonds.-Bonds Nos. 52 to 68, inclusive, for \$1,000 each, issued under mortgage of Dec. 15, 1908, will be paid at 102 and interest at the office of Knickerbocker Trust Co. on June 15.-V. 80, p. 1060.

Great Lakes Coal Co., Pittsburgh.—Bonds Offered.—The Commonwealth Trust Co., James Carothers & Co. and Morris, Brown & Co., all of Pittsburgh, are offering at 971/2 and interest this company's 5 p. c. bonds of 1904, authorized issue, \$2,500,000; present issue, \$1,500,000. See full particulars in V. 80, p. 715.

Great Lakes Towing Co.-Report.-The annual report of President Edward Smith says in part:

President Edward Smith says in part: The net profits for the year were the largest in our history, with the exception of 1903 [which was but a little more], and averaged more per day's actual operation than any previous season. A small plant especially adapted for tug work has been established at Fair-port, Obio, at a cost of about \$12,500. At organization it was deemed necessary to purchase with the other property a number of ture un-suitable for business. Most of these tugs have been dismantled or sold under conditions restricting their use, and the apparent loss shoce the company began business from this cause, including tugs lost, amounts to \$93,916. The sum of \$125,190 (being the same as the amount paid from profits for property) has been charged to "profit and loss" to cover this loss and other depreciation. The Treasurer's report of Jan. 1, 1905, shows that the company is in excellent condition financially, with approximately \$100,000 on hand. \$127,000 accounts due the company and no bills payable or bills audited outstanding. Payment of dividends was resumed Jan. 1 of this year. No new competitors have entered into the business, and 1 have reason to believe that a large majority of our customers are well satisfied with their dealings with us.-V. 79, p. 2750. Home Telephone Co., Los Augeles.-Earnings.-For the

Home Telephone Co., Los Angeles.-Earnings.-For the year ending Oct. 1, 1904:

International Mahogany Co.-New Receiver.-Jndge Holt of the United States District Court appointed Edward R. Finch receiver in place of John B. Lord.-V. 80, p. 1365.

Jefferson City (Mo.) Light, Heat & Power Co.-Bond Issue.—This company has made an issue of \$150,000 5 p. c. 5-20-year bonds, dated May 1, 1905. to provide for improve-ments, additions, etc.—V. 79, p. 2591.

Kansas City Home Telephone Co.—Listed in St. Louis.— This company's \$2.000,000 capital stock has been listed on the St. Louis Stock Exchange.—V. 80, p. 1974, 1733.

Kingston (N. Y.) Gas & Electric Co.—Earnings.—T. W. Stephens & Co., when recently offering \$30,000 of the com-pany's first mortgage gold 5s at 101 and interest. reported for the year ended Jan. 31, 1905, gross income, \$122,038; operat-ing expenses, maintenance and 'taxes, \$74,765; net profits, \$47,273. The net profits from Jan. 1 to April 1, 1905, as com-pared with same period for 1904 it is stated, increased \$4,057. pared with same period for 1904, it is stated, increased \$4,057. See V. 79, p. 273.

(The) Lake Superior Corporation.—Interest Payment.— The interest due June 1, 1905, on the first mortgage and collateral trust bonds was paid upon presentation of the coupons at the American Exchange National Bank, New York City.-V. 80, p. 1858, 1482.

Lockport (N. Y.) Gas & Electric Light Co.—New Stock.— This company has filed a certificate of increase of capital stock from \$150,000 to \$300,000. The new stock is all common and all in the treasury.—See V. 70, p. 282.

Metropoliitan Steamship Co.-Bonds Offered.-George A Fernald & Co., Boston, are offering at 103 and int. \$1,000,000 1st mort. sinking fund gold 5 p. c. bonds dated May, 1905, due May, 1930; interest payable May 1 and Nov. 1 at the First National Bank, Boston; American Loan & Trust Co., trustee. These bonds are a first lien upon all the steamships, lighters, car floats, etc., of the company, and are further secured by the valuable equity in the Union Wharf, Boston, (See V, 80, p. 1916) The predecessor company paid divi-dends upon its \$500,000 stock for the past thirty years at rates varying from 8 p. c. to 27 p. c.; in all \$2,240,000. An annual sinking fund beginning Jan. 1, 1908, is provided to rate all of the bands of matrices and annual division of the bands of the retire all of the bonds at maturity by annual drawings at 110 and interest, if not purchasable in open market.

President Calvin Austin says in substance :

The company owns four steel screw steamships of about 2,700 tons each, five lighters and two car floats with capacity to transport 17 loaded freight cars, together with Union Wharf, which when completed will have a value exceeding \$850,000; insurance, marine and fire, exceeds \$1,000,000. The company has the right to issue \$2,000,fire, exceeds \$1,000,000. The company has the right to issue \$2,000,-000 additional bonds upon the acquisition of new property in real es-tate or steamships, but only upon the basis of 80 p. c. of the actual cost thereof. The steamers ply between Boston and New York, carry-ing freight only, a large proportion being from interobange of business with the Boston & Maine BR. Two new large turbine steel steamers for passenger service, as well as freight, should be ready for service during 1906, probably doubling the earning capacity of the company. Total receipts for calendar year 1904 were \$919,409; net revenue, \$104,892, available for payment of boud interest, -V. 80, p. 1916.

total bond issue of \$450,000 on that property a first lien.

Besides the stocks and bonds which were given in exchange for the capital stocks of these four companies, the sum of \$500,000 of the preferred stock has been taken at par by a syndicate, who have also subscribed and paid in an additional \$500,000, for which they have taken common stock.

National Lead Co.-New Stock.-The shareholders will vote June 26 on increasing the preferred stock from \$15,000,-000 to \$25,000,000 and the common stock also from \$15,000,-000 to \$25,000,000. A circular dated May 29 says in substance:

Since the organization of this company in 1891 the tonnage of its business has increased 40 p. c., necessitating the employment of larger working capital than was originally believed to be necessary. This increase in tonnage has only been made possible by remodeling existing plants, constructing othersjentirely new and of the highest type, by purchasing outright other desirable related businesses and proverting and corrying larger stocks of raw material and manufact. properties, and carrying larger stocks of raw material and manufactured products. The money employed in these investments has been made available only by withholding dividend distributions from the common stockholders.

common stockholders. The result of past experience has been to convince the Board that the acquirement of additional manufacturing properties would result in a larger percentage of net profits earned. For this reason your directors have decided that it is advisable to enlarge the business, and to that end to purchase additional properties from time to time and to increase the working capital correspondingly; but with the under-standing that the whole increased capital stock now proposed will not be issued at once, and that none of it will be issued at any time except for the purchase of additional properties or the further increase of the working capital. the working capital.

This action is supposed to be preparatory to consummating the long pending deal for the purchase of the United Lead Co. (V. 79, p. 217, 2152).-V. 80, p. 1421.

Niagara Lockport & Ontario Power Co.-Bill Fails.-The bill intended to give this company the right to sell electric power in all portions of the State and to use water from Niagara River sufficient to create 400,000 horse-power daily, was killed in the Ascembly Committee by a vote of 5 to 1.

Mortgage.-In January last the company filed a mortgage to the Standard Trust Co. of New York, as trustee, to secure

Paducah (Ky.) Gas & Electric Co.-Sold.-The control of this company has been sold by Thomas Coffee to James C. Utterback (Cashier of the City National Bank of Paducah) and associates for a sum said to be \$135,000.-V.73, p. 1013.

Pittsburgh Oil & Gas Co.—Bonds Offered.—J. L. D. Speer & Co., Pittsburgh, Pa., are offering at 101 and interest the unsold portion of \$1,000,000 collateral trust 6 p. c. gold bonds of \$1,000 each. Total issue, \$2,600,000. Principal pay-able \$200,000 Oct. 1 each year from 1907 to 1919, both in-clusive; interest April 1 and Oct. 1. See annual report, etc., on page 2341 of this issue, \$2,00 on page 2341 of this issue.—V. 80, p. 1734, 1061.

Pope Manufacturing Co.-Liquidation of Subsidiary Company.—The Federal Manufacturing Co. of Cleveland, which recently disposed of its steel-ball plants (compare V. 80, p. 1734), has transferred the plant and business of the Columbia Steel Works at Clevelaud and Elyria to the Garford Company, a new corporation organized with \$400,000 authorized stock, Arthur L. Garford being its President.-V. 80, p. 1734.

St. Louis National Stock Yards Co.-Earnings.-For the year ending Dec. 31, 1904 : Gross earnings, \$883,624, operating expenses, \$362,629; net earnings, \$520,994. Quarteriy dividends at rate of 6 p. c. per annum have been paid for the past eleven years in January, etc. Stock outstanding, \$4,-300,000; par of shares, \$100. The \$2,500,000 first mortgage 4 p. c. bonds are listed on the Boston Stock Exchange.-V. 74, p. 1095,

Sand Spring Water Co. of Meyersdale, Pa.-Bonds Of-fered.-Bids are asked until June 15 for \$15,000 of 4½ p. c. bonds, denomination \$500. S. B. Philson is Secretary

Springfield (Mass.) Gas Light Co.-Stock Option.-Shareholders of record Jan. 19, 1905, had the right until May 29 of subscribing \$159,000 new stock at \$200 a share (par \$100) to the extent of three new shares for each eleven shares now held. Subscriptions are payable, \$50 June 1, \$100 July 1 and \$50 Aug. 1. A circular recently sent to customers said :

The work of modernizing the manufacturing plant of the company. In which \$300,000 has been expended, is now nearly completed, and the plant is to-day probably the best equipped gas plant of its size in the United States.

An extension to the village of Indian Orchard has been authorized.-V. 80, p. 1916, 655.

State Telephone Co. of New Jersey.—Protective Commit-tee.—At a meeting of the holders of a large number of the mortgage bonds held on May 20, 1905, the following were appointed a provisional committee in connection with the pending receivership proceedings. All holders of bonds are invited to communicate with the committee or its counsel.

Harvey F. Carr, Chairman, 314 Market Street, Camden, N. J.; Hed-ley V. Cocke, 96 Broadway, New York; M. T. Rosenberg, 1 Exchange Place, Jersey City; Dittenheofer, Gerber & James, Counsel, 96 Broad-way, New York City.--V. 80, p. 1738.

Swedesboro (N. J.) Gas & Electric Co.—Sold.—This company's property is reported to have been sold out under sher-iff's sale to J. T. Sickler for \$860, subject to a mortgage in the sum of \$35,000.

annum. The summary of the net results to city of proposed lease shows for the 75 years to Dec. 31, 1980, a total of \$437,281,227, viz.: \$25,000,000 cash, with interest compounded at 3¹2 p. c. \$310,714.446 Estimated expenditures for additions and extensions.... 60,000,000 Amount now due United Gas Improvement Co...... 14,863,881 60,000,000 14,863,881 4,911,600 Gas to public buildings. Supply of gas to and maintenance of street lamps...... -V. 80, p. 1977, 1862. 46,791,300

United States Cotton Dack Corporation.—Operative.— See Consolidated Cotton Dack Co. above.—V. 80, p. 1916.

United States Gas, Coal & Coke Co.—Purchase—Sale Prob-able.—President T. A. Nevine has purchased the plants of the Tradewater Coal & Coke Co. and the Baker Company of Wheatcroft, Ky., owning together about 25,000 acres of coal lands. It is understood that the combined interests will later be acquired by the North American Co. of New York, chiefly as a source of fuel supply for its trolley, electric light and gas properties in St. Louis and elsewhere. The output may be increased to 3,000,000 tons of coal a year, requiring six large shafts.-V. 79, p. 108.

United States Packing Co., Chicago.—Bonds Offered.— This company, which has obtained "special concessions from the United States of Mexico and the States of Michoacan and Vere Cruz," and is now building at Uruapan (west of city of Mexico) the first of its three projected packing plants, is offering at par, with a bonus in common stock, \$200,000 6 p.c. 20-year gold bonds.

These bonds are issued in denominations of \$100, \$500, \$1,000; in-terest payable semi-annually Jau. 1 and July 1 (beginning Jan. 1, 1906), at Knickerbocker Trust Co., New York, trustee; bonds dated July 1, 1905, and due July 1, 1925. Issue limited to \$600,000; pre. viously sold \$350,000. President, John Wesley DeKay, Chicago-Pittsburgh office, 54 Fidelity Building.-V. 78, p. 1501; V. 76, p. 814.

Vandergrift Land & Improvement Co.-Listed in Pittsburgh.-The Pittsburgh Stock Exchange has listed this company's capital stock of \$550,000 (par of shares \$100), on which quarterly dividends are paid at the rate of 7 p. c. per annum. No bonds or debts. Surplus, \$7,853.

The company was organized July 26, 1825, for the purchase and sale of real estate, and for holding, leasing and selling real estate at Van-dergrift, Pa. E. W. Pargny is President; S. A. Davis, Vice-President; Joseph Murphy, Secretary, and H. W. Pratt, Treasurer. The company owns the Vandergrift Fuel Gas. Vandergrift Water, Vandergrift Electric Light & Power, Vandergrift Telephone and Gas companies. The financial statement shows assets of \$694,733, of which unim-proved acreage is valued at \$181,646; bonds of companies owned are put in at \$347,000, and United States Steel Corporation 5 per cent bonds, \$27,957.

Vicksburg (Miss.) Gas Co.—Contract — Control. – - See United Gas Improvement Co. on page 2343.-V. 79, p. 2090.

Wiggins Ferry Co.-Decision.-Presiding Judge Brace of the Supreme Court of Missouri on May 25, in the suit brought by Louis Newman, trustee, against the Mercantile Trust Co. of St. Louis, handed down an opinion sustaining the lower courts, holding that the defendant did not unlawfully convert his stock which was deposited under the agreement of April 24, 1902, for which it paid the plaintiff \$500 per share. The transaction was sought to be annulled because the trust company, before a majority of the stock was secured, was compelled to purchase some at a higher price. The decision, it is stated, will result in disposing of practically all of the pending suits growing out of the sale of the Wiggins Ferry Co.-V. 75, p. 851.

-Redmond & Company's June investment list appears on the page facing the first page of reading matter in this issue. Always full of suggestions for buyers of high-grade investments, this month's issue maintains its position as a guide for investors, whether they be institutions, trustees or private, and particular attention is given by the firm to suiting special requirements through correspondence and by specially-prepared lists, detailed circulars, &c. In addition to a number of round lots of steam railroad, municipal and other bonds, there are offered in the June list a selection of odd lots, consisting mainly of mortgages on steam and electric roads, that are worthy of attention.

-Charles S. Baxter, of the firm of Hyde & Baxter, recently attorneys for the Boston Elevated Ry. Co., and Mayor of the city of Medford. Mass., for the past four years, has become connected with Pfaelzer & Co. He will act as attorney for the firm and make his headquarters in New York.

-T. W. Stephens & Co., 2 Wall Street, have prepared a special circular on Kingston Gas & Electric Co. of Kingston & Rondout, N. Y., first mortgage fifty year five per cent bonds. that will be sent on application. These bonds are guaranteed by the American Gas Company of Philadelphia.

Toledo (0.) Home Telephone Co.-Listed in St. Louis.-The St. Louis Stock Exchange has listed this company's \$1,290,000 bonds and \$1,250,000 stock.-V. 80, p. 2324, 1062.

United Gas Improvement Co.- Application Withdrawn.-In view of the strong public opposition aroused against the acceptance of the company's proposition to extend the lease of the Philadelphia Gas Works, which led Mayor Weaver to remove from office the Directors of Public Safety and Public Works, the company on May 27 formally withdrew its application for the extension of the lease, and stated that should the pending ordinance become a law, the company would not accept it.

The official letter of withdrawal gives the following:

According to the reports filed with the City Comptroller each year, the amounts expended by the company in additions, extensions, im-provements, etc., under the lease have averaged \$1.498,000 per annum, making the total now due this company, therefor, \$14,963,881. During the year 1904 this company furnished without charge 107,-358,000 cubic feet of gas to public buildings. The street lamps in service Dec. 31, 1904, all of which were furnished with gas, lighted and cared for without charge, were 21,436. The lease provides that the company shall furnish and light free 300 additional lamps per

-An interesting feature of the June circular issued to-day by T. A. McIntyre & Co is the description of the three issues of Japanese bonds which have been made since the outbreak of the war. It will be valuable for ready reference for the details relating to the respective issues.

-Spencer Trask & Co., 52 William St., have issued a cir-cular giving a list of 31 short-term notes aggregating in amount \$347,642,000. The rate of interest and due date is given for each issue.

-Knight, Donnelley & Co. of Chicago have opened a branch office in the Merchants' Exchange, St. Louis, with private wires to Chicago, New York, Philadelphia and Boston. Mr. William C. Lamping is resident manager.

-On pages xix, xx, xxi and xxii of this issue of the CHRONICLE will be found the business cards of a number of the prominent cotton commission houses of New York and other cities.

The Commercial Times.

COMMERCIAL EPITOME FRIDAY NIGHT, June 2, 1905.

An irregular condition of business activity is being experienced. In a few lines merchants report the run of new orders and the takings on outstanding contracts fairly well up to expectations. The more general report, however, has been of an unsatisfactory demand, the consuming trade operating along conservative lines, keeping purchases close to current requirements, and the call for shipments on old purchases has not shown the spirit expected. The returns from the iron and steel trades have reported a quiet market in a number of lines, with prices favoring buyers. Weather conditions in the West and Sonth have been reported more favorable for the growing crops the last few days.

Lard on the spot has been dull, and under moderate offerings prices yielded slightly. The close was steady at 7 30c. for prime Western and $634@67_{3}c$. for prime City. The demand for refined lard has been light, and prices have been lowered a few points. The close was quiet at 7.45c. for refined for the Continent. Speculation in lard for future delivery has been quiet. Early in the week prices were easier under full receipts of hogs and dull cash trade, but rallied on support from packers. The close was steady.

DAILY CLOSING PRICES OF LARD FUTURES IN OHIOAGO.

Cut meats have been firmly held. Tallow has been firmly held at 41/4c. Cotton-seed oil has been fairly active and firmer, closing at 29@29/4c. for prime yellow. Butter has been arriving freely and prices have been easier. Cheese has been freely offered and prices have weakened. Fresh eggs have been in liberal supply and have sold at lower prices.

Raw sugars have been in moderate demand and prices have held steady, closing at 43% c. for centrifugals, 96-deg. test, and 33% c. for muscovado, 89-deg. test. Refined sugar has been in more active demand; prices have been unsettled, but the close was steady at 5.65c. for granulated. Rice has been in good demand and firm. Teas have been steady.

Kentucky tobacco has been firmly held, and the limited sales that have been made have been at full values. Offerings of seed-leaf tobacco have continued limited due to small available supplies, and the business transacted has been at firm prices. Sumatra tobacco had a moderate sale and prices have been firm. Havana tobacco has been firm but quiet. The market for Straits tin has been quiet and prices weakened slightly. The close was at a slight recovery, with prices quoted at 29.871/2@31.121/2c. Ingot copper has been in fairly active export demand, closing steady at 15@15'10c. for Lake and 14'90@15c. for electrolytic. Lead has been quiet but steady at 4'50@4'60c. Spelter has been easier, closing at 5.85c. Pig iron has been quiet and quoted prices have been lowered slightly, closing at \$16 25@16 75 for No. 2 Northern and \$16 25@16 75 for No. 2 Southern. Refined petroleum has been in fair demand and steady, closing at 6.90c. in bbls., 9.60c. in cases and 4c. in bulk, Naphtha has been steady at 12c. for 71 degrees and 12c. for 76 degrees. Credit balances have weakened slightly, closing steady at 1.27c. Spirits of turpentine has been firm and higher, closing at 81c. for machine bbls. Rosins have been in light supply and firmer, closing at \$4 15 for common and good strained. Hops have been quiet and slightly easier. Wool has been in fair demand and firm.

COTTON

FRIDAY NIGHT, June 2, 1905.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 130,614 bales, against 126,587 bales last week and 138,316 bales the previous week, making the total receipts since the 1st of Sept., 1904, 9,086,109 bales, against 6,994,666 bales for the same period of 1903-4, showing an increase since Sep.1, 1904, of 2,091,443 bales.

Speculation in cotton for future delivery has been fairly active. Early in the week there was a moderate advance in prices, based on unfavorable crop news, it being reported that owing to the recent wet weather interfering with cultivation, there were many complaints of grassy fields. Subsequently, however, weather conditions in the South were reported more favorable, and this had a tendency to check the upward movement in prices. Reports of the new crop acre-age, made public on Thursday, also operated against higher prices, as they did not show the decrease in plantings that many had been expecting. Recent speculative buyers in both the English and American markets became fairly free sellers to realize profits, and more aggressive selling for the account of bear interests was reported. Friday the market opened easier, reflecting weaker advices from Liverpool and the improved weather conditions in the South. At noon the monthly report by the Government's Agricultural Bareau was made public, showing a decrease in acreage from last season of 11.4 per cent and an average condition of the crop of 77.2 per cent. Through an error the condition as at first reported to New Orleans was 75 per cent, and this created some irregularity to prices immediately following the Bureau report; but when the error was corrected prices sagged, as the report was somewhat better than generally expected. The close was steady at a net decline for the day of 31@34 points. Cotton on the spot was higher during the week, but to day declined_25 points, closing at 8'50c. for middling uplands.

The rates on and off middling, as established Nov. 18, 1903, by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows.

middling may and	
Fair	Good Middling Tinged Even
Middling Fair 0.96 on	Strict Middling Tinged 0'06 off
Strict Good Middling 0.62 on	Middling Tinged 0.12 off
Good Middling 0.44 on	Strict Low Mid. Tinged 0.34 off
Strict Low Middling 0.14 off	Low Middling Tinged 0.50 off
Low Middling 0.38 off	Strict Good Ord. Tinged . 0.84 off

WEATHER REPORTS BY TELEGRAPH.—Advices to us by telegraph from the South this evening are on the whole of a much more favorable tenor. While rain has fallen in most sections, the precipitation has been light or very moderate as a rule, and temperature has been quite satisfactory. An improvement in the crop is noted by many of our correspondents, the better weather having enabled farmers to make good progress with much-needed work of cultivation, Galveston, Texas -- There has been very light rain on one

day of the past week, the rainfall being two hundredths of an inch. The thermometer has ranged from 76 to 87, averaging 82.

Abilene, Texas.-We have had rain on one day of the week, the rainfall reaching one inch and twelve hundredths. Average thermometer 81, highest 98 and lowest 64. Brenham, Texas.-Rain has failen lightly on one day of the

week to the extent of twenty hundredths of an inch. The thermometer has averaged 80, the highest being 89 and the lowest 70.

Corpus Christi, Texas .- We have had heavy rain on one day of the week, to the extent of one inch and twenty-six hurdredths. Thermometer has averaged 79, ranging from 72 to 86.

Cuero, Texas .- We have had rain on two days during the week, the precipitation being one inch and fifty-seven hun-dredths. The thermometer has ranged from 70 to 96, averdredths. aging 83.

Dallas, Texas .- There has been rain on one day the past week, the rainfall being thirty eight hundredths of an inch. Average thermometer 79, highest 92, lowest 66.

Fort Worth, Texas. - We have had no rain during the week. The thermometer has averaged 77, the highest being 88 and

the lowest 66. Henrietta, Texas.—We have had heavy rain on three days of the week, the rainfall being three inches and fifty-seven hundredths. Thermometer has averaged 77, ranging from \$1, to 92

Huntsville, Texas.-There has been no rain the past week. The thermometer has ranged from 68 to 93, averaging 80. Kerrville, Texas.-We have had rain on four days of the week, the rainfall reaching two inches and sixteen hun dredths. Average thermometer 75, highest 89 and lowest 61. Lampasas, Texas. - Rain has failen on one day of the week, to the extent of forty-six hundredths of an inch. The thermometer has averaged 77, the highest being 96 and the low-Est 64.

Longview, Texas .- We have had no rain during the week. The thermometer has averaged 79, ranging from 65 to 93. Nagodoches, Texas .- There has been no rain the past week. The thermometer has ranged from 65 to 89, averaging 77. Palestine, Texas .-- There has been no rain the past week.

Average thermometer 72, highest 88, lowest 64.

Paris, Texas.-We have had rain on two days during the week, the precipitation being one inch and fifty five hun-dredths. The thermometer has averaged 76, the highest being 90 and the lowest 62.

San Antonio, Texas.-We have had showers on three days

during the week, the rainfall being sixty-four hundredths of an inch. The thermometer has averaged 79, ranging from 66 to 92.

Weatherford, Texas.-We have had a trace of rain on two days of the week. Average thermometer 79, highest 93 and lowest 65.

New Orleans, Louisiana.-We have had rain on one day of the week, the precipitation being twenty-five hundredths of an inch. The thermometer has averaged 80. Shreveport, Louisiana.—There has been rain on two days

the past week, the rainfall being forty-six hundredths of an inch. The thermometer has ranged from 64 to 91, averaging 78.

Leland, Mississippi.-We have had rain during the week, the rainfall reaching sixty-five hundredths of an inch. Aver-

age thermometer 74'1, highest 87 and lowest 60. Vicksburg, Mississippi.—Weather decidedly more favorable and considerable farm work done. We have had rain on one day during the week, to the extent of ten hundredths of an inch. The thermometer has averaged 78, the highest being 90 and the lowest 65.

Helena, Arkansas.-There has been no rain this week. Farmers are now progressing with work, but some cotton not yet planted. The thermometer has ranged from 60 to 89, averaging 75.

Little Rock, Arkansas.-Weather good and farmers are making rapid progress in clearing out their crops. Condi-tions much improved. Rain has fallen on two days of the week, to the extent of two hundredths of an inch. Average

thermometer 75, highest 90, lowest 63. Memphis, Tennessee.—Weather conditions greatly improved this week. Cleaning cotton and corn progressing actively. We have had rain on one day of the week, the precipitation being fourteen hundredths of an inch. The thermometer has averaged 74.4, the highest being 88.2 and the lowest 61.2.

Nashville, Tennessee,-There has been rain on one day during the week, the precipitation reaching four hundredths of The thermometer has averaged 74, ranging from an inch. 56 to 92.

Mobile, Alabama.-Scattered rains in the interior but weather generally favorable for cultivation. There are some complaints of excessive grass however. First bloom was reported in Clarke County on May 31. Last year it appeared in Wilcox County May 30. No rain here. The thermometer has ranged from 71 to 91, averaging 81.

Montgomery, Alabama.—Sunshine again. Crops are get-ng cleaned out; are doing fairly well. The outlook is ting cleaned out; are doing fairly well. promising. We have had rain on two days during the past week, the rainfall being three inches and seventy one hunpromising. dredths. Average thermometer 78, highest 94 and lowest 66.

Selma, Alabama.-First blooms were reported yesterday, six days earlier than last year. Crops are good on uplands but very grassy on lowlands. We have had rain on one day during the week, to the extent of twenty-five hundredths of an inch. The thermometer has averaged 80, the highest being 92 and the lowest 67.

Madison, Florida.-Fields are grassy generally. We have had rain on one day during the week, to the extent of fifty hundredths of an inch. The thermometer has averaged 79, ranging from 66 to 92.

Augusta, Georgia.-Crops are poor; grass is very troublesome. Rain has fallen on one day of the week, to the ex-tent of forty-six hundredths of an inch. The thermometer has ranged from 66 to 95, averaging 78. Savannah, Georgia.-We have had rain on four days of

the week, the precipitation being one inch and sixty-two hundredths. Average thermometer 79, highest 90, lowest 69.

Charleston, South Carolina. - Rain has fallen on three days of the week, the precipitation being one inch and ninety hundredths. Thermometer has averaged 78, ranging from 69 to 92.

Greenwood, South Carolina.-Dry all the week. The thermometer has ranged from 65 to 85, averaging 75. Stateburg, South Carolina.—Cultivation is now being rap-

idly pushed and prospects are encouraging for fair weather for some days to come. We have had rain on four days dur-ing the past week, the rainfall being eighty-five hundredths of an inch. Average thermometer 77, highest 95 and lowest May rainfall six inches and forty-five hundredths. 65.

Charlotte, North Carolina.—Conditions are improving very much. Plant is healthy. It has rained on two days of the week, the rainfall being twenty-two hundredths of an inch. The thermometer has averaged 76, the highest being 90 and the lowest 62. The following statement we have also received by telegraph, showing the height of the rivers at the points named, at 8 A. M. June 2, 1905, and June 3, 1904.

INDIA COTTON MOVEMENT FROM ALL PORTS,-The receipts of cotton at Bombay and the shipments from all India ports for the week ending June 1 and for the season from Sept. 1 to June 1 for three years have been as follows.

According to the foregoing, Bombay appears to show an increase compared with last year in the week's receipts of 14,000 bales. Exports from all India ports record a loss of 38,000 bales during the week and since Sept. 1 show a decrease of 668,000 bales.

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.-Through arrangements we made with Messrs. Choremi, Benachi & Co., of Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

COTTON ACREAGE. - MESSRS, A. NORDEN & CO.'S ESTIMATE -Under date of May 31 Messrs. A. Norden & Co. issued their annual estimate of cotton acreage. The estimate is based upon 958 replies of average date of May 25, and makes the average decrease in acreage 12.22 per cent, the area this year being placed at 27,852,838 acres, against 31,730,371 acres in 1904, a decline of 3,877,533 acres.

AGRICULTURAL DEPARTMENT'S REPORT ON ACREAGE, &C .--The Agricultural Department at Washington issued on June 2 its report on cotton condition and acreage. The following is what it says on the subject of acreage:

Returns to the Chief of the Bureau of Statistics of the Department of Agriculture show the total area planted in cotton in the United States up to May 25 to be about 28,120,000 acres, a decrease of about 3,610,000 acres, or 11.4 per cent, from the total acreage planted last year. The percentage of increase in acreage in the different States (the comparison being with the area planted last season) is as follows:

The Friday of Contraction of Contrac

COTTON ACREAGE REPORT.-In our editorial columns will be found to-day our annual Cotton Acreage Report, with an account at length of the condition of the plant in each section of the South. The report has been prepared in circular form, and the circulars may be had in quantity with business card printed thereon.

GOVERNMENT WEEKLY COTTON REPORT.-Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the following telegraphic reports on the crops in the Sonthern States for the week ending May 29:

NORTH CAROLINA.—Planting cotton finished, chopping continues, some grassy fields abandoned, plants small and growth slow. SOUTH CAROLINA.—Cotton doing well in places, but generally un-promising, plants small and some dying on sandy lands, cuitivation and sunshine needed, chopping not finished, lice appearing, crop foul, reports indicate probability of some fields being abandoned. GEORGIA.—Cotton chopping unfinished in north, some fields abandoned, plants generally healthy and growing fast, lonsy in few districts, acreage reduced about one-fifth, labor scarce. FLORIDA.—Much late cotton grassy and needs work, but the early-planted is generally in good condition, though frequent rain is retard-

planted is generally in good condition, though frequent rain is retarding cultivation and labor is scarce.

ALABAMA.-Ootton very grassy, some fields abandoned, some dying. labor scarce, some lice, outlook better southern portion, squares forming.

MISSISSIPPI.-Crops grassy, cotton stands good, chopping in pro-gress, needs cultivation and sunshine, lice reported in west, some squares forming south.

JUTE BUTTS, BAGGING, &C.-There has been a very inactive market for jute bagging during the week under review, and prices are unchanged at 6% c. for 13/4 lbs. and 6% c. for 2 lbs., standard grades. Jute butts still dull at 11/2@13/4c. for paper quality and 2@21/4 c. for b agging quality.

SHIPPING NEWS.-As shown on a previous page, the exports of cotton from the United States the past week have reached 141,918 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

Equares forming south. LOUISIANA.—Cotton improved in some localities and deteriorated in others, planting now completed, chopping progressing slowly, bulk of orop badly in grass, and some low land reported abandoned, plant sickly in most sections, crop two to four weeks late. TEXAS.—Damage by washing and flooding; cotton prospects deteri-orated in central and northern counties, whore much is to be planted, and that up is generally not promising, though good in localities, fields fonl, cultivation and ohopping delayed; cotton generally good in south and southwest and has made good growth, but work pre-vented by showers and some fields foul, chopping general, much com-pleted, squares forming, area affected by boll-weevil increased, and cut-worms and other pests active, ARKANSAS.—Cotton not all planted, stand fair to good, some dying. chopping begun, but not general, crop badly in grass and making slow progress.

slow progress. TENNESSEE.-Cotton needs cultivation and sunshine, much injured

by wet weather and much is dying. OKLAHOMA AND INDIAN TERRITORIES.—Cotton made small growth, but little chopping or cultivation done, some damage by worms, rot-ting and overflow, but crop up to poor to good stands.

These reports are summarized by the Crop Division as follows:

Throughout nearly the whole of the cotton belt cotton is much in need Throughout nearly the whole of the cotton belt cotton is much in need of onlivation, and reports of abandoned fields are received from the Carolinas, Georgia. Alabama and Louisiana. Good stands are gen-erally reported, but much planting remains to be done in Northern Texas, and planting is unfinished in Arkansas. In Southern Texas and in portions of the central and eastern districts the situation is improved, and the crop is doing well in localities. Squares are now forming in the southern portions of the central and eastern districts. Boll-weevils are increasing in Texas.

The prices of futures at Liverpool for each day are given below. Prices are on the basis of Uplands, Good Ordinary clause, unless otherwise stated,

BREADSTUFFS.

FRIDAY, June 2, 1905,

Basiness for the week in the market for wheat flour has been quiet. Bayers generally have been reported showing indifference, they preferring to hold off and await more settled conditions in the cash wheat market before making additional purchases of importance. Country mills were reported offering spring-wheat flour at lower prices than last week, but standard brands were held at steady prices. Winter-wheat flours were a shade lower. City mills have been quiet. The market for rye flour has been firm but quiet. Corn meal has been duil but steady.

Speculation in wheat for future delivery has been moderately active, but the tone of the market has been unsettled. Early in the week prices declined sharply. Weather reports from the interior were more favorable, higher temperatures being reported from the Northwest and a cessation of the rains in the winter-wheat belt. Foreign statistical develop-ments were reported unfavorable for higher prices, the exports to European importing ports for the previous week being large, and the European markets were reported easier. The closing of the May deals also withdrew a supporting factor from the market. On Thursday, however, the market again turned stronger, and prices made a fairly sharp advance. Owing to the lateness of the new crop, reports were being circulated that a deal in July delivery was contemplated, creating nervousness among shorts, and they were fairly free Weather and crop reports from buyers to cover contracts. both the winter and spring-wheat belts continued more favorable. The spot market has held firm, but business has been quiet. To day the market was firmer on unfavorable crop reports and shorts covering. The spot market was firm.

Indian corn futures have been moderately active. Early iu the week there was a slight yieldidg in prices, due to the large receipts at primary markets. Subsequently, however, there developed a stronger tone and there was a sharp upturn to values. A brisk trade demand was reported for old-crop corn and the ontlook for the new crop was not promising, the continued cool weather and excessive moisture being unfavorable for the growth of the plant, and reports were current this week that much re-planting will be necessary. A limited volume of business has been transacted in the local spot market and at steady prices. To-day the market was firmer on light receipts and shorts covering. The spot market was firmer.

GOVERNMENT WEEKLY GRAIN REPORT. - Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the grain crops in the various States for the week ending May 29, summarizing them as follows:

CORN .- Corn planting is largely fluished, except in the Lake region, CORM.—Corn planting is largely hulened, except in the Lake region, Ohio Valley and northern portion of the Middle Atlantio States. Throughout the principal corn States germination and growth of corn have been very slow, owing to cool weather, and more than the usual amount of replanting will be necessary. In the Central Gult States part of the crop has been laid by. In this region corn has suffered considerably from overflows. In Northern Texas, Oklahoma, Arkan-eas and Tennessee corn is much in need of cultivation. WINTER WHEAT.—Winter wheat has suffered slight deterioration in portions of the central and western districts of the winter wheat

WINTER WHEAT. - Winter wheat has suffered slight deterioration in portions of the central and western districts of the winter wheat belt, but it continues promising in the eastern districts, an improve-ment being reported from Ohio. Reports of injury from rust con-tinue from Kentucky, Tennessee, Missouri, Oklahoma and Texas, and rust and black heats are appearing in Illinois. Generally the reports indicate that wheat is heading low. In California the crop is ma-turing rapidly and an average yield is indicated. In Oregon and Washington growth has been rapid, too rank growth being reported from Oregon, where it is in danger of lodging. SPRING WHEAT.-Although freezing temperature occurred in the northern portion of the spring-wheat region, spring wheat is reported as in good condition in Minnesota; and while frost in North Dakota proved injurious, the crop in that State has not been seriously damaged. Over the southern portion of the spring-wheat region the crop has made more favorable progress, although growth has been slow. On the North Pacific coast spring wheat is much improved in Washington, but in Oregon it has advanced slowly. OATS.-In the Dakotas, Minnesota and Nebraska oats have made slow growth, and the crop has suffered deterioration in Texas and portions of the Middle Atlantic States, but elsewhere and in the prin-cipal oat-producing States the outlook continues very promising.

The movement of breadstuffs to market as indicated in the statements below is prepared by us from figures collected by the New York Produce Exchange. The receipts at Western lake and river ports for the week ending May 27 and since Aug. 1, for each of the last three years have been:

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., June 2, 1905.

With Tuesday a legal holiday and the majority of houses closed also on Monday, business in the dry goods market has been considerably interfered with during the past week. The number of buyers in town has been small but during the latter part of the week a fair volume of orders was received. The principal feature of the market has been a further advance in the price of prominent lines of bleached goods, which may be taken as an indication that the whole tendency of the market is still upward. Lines are becoming more and more sold up day by day and in this connection the trade is in a much better condition than it has been for a very long time. In spite of this, however, buyers are for the most part confining their purchases to goods for immediate delivery, preferring to run the risk of having to pay higher prices later on rather than contract far ahead at the present time. The advance in the price of cotton has still futher strengthened the position of sellers but certain buyers are convinced that cotton prices are too high and maintain that any de-cline in these must be followed by a decline in the price of piece goods. Export business has been at a standstill, although hopes are entertained that as a result of the Japanese victory in the Far East China may soon re-enter the market on a large scale. Woolen goods have again been firm and have met with a good demand.

DOMESTIC COTTON GOODS .- The exports of cotton goods from this port for the week ending May 29 were 11,119 packages, valued at \$579,920, their destination being to the points specified in the tables below:

NEW YORK TO MAY 29.		1905.	1904.		
MAN IVAL IV MAI 23.	Week.	Since Jan. 1.	Week.	Since Jan. 1	
Great Britain	50	522	4	315	
Other European	28	292	2	442	
Uhina	5,088	62,271		25,333	
India	70	7.810	202	3,608	
Arabia	2.149	11.077		10.456	
AITIOS	445	4.296	17	3.691	
West Indies.	524	12,047	497	8.486	
Mexico.	70	1.080	36	807	
Central America	238	7.311	374	6.119

Other Countries	667	8,339	145	6,951	
Total	11,119	139,941	1,832	90,137	

asked. Coarse, colored cottons continue very firm and advances have been recorded, although business has not been very heavy. Duck continues to be taken for export in small quantities and values have a hardening tendency. Cotton linings have been in fair request and sellers are firm in their views. A few transactions in staple prints have been recorded, but fancy prints continue quiet with a disappointing demand. Staple and fine grades of ginghams are fairly well sold ahead, but the amount of current business passing is not large. Print cloths are firm but unchanged, with neither buyers nor sellers willing to operate very extensively at pres-ent prices. Wide goods have been moderately well taken but narrow goods are slow and the market featureless. Regulars are quoted at 2 11-16c.

WOOLEN GOODS -The number of re-orders that have been received during the week for men's wear heavy-weight woolen and worsted goods has been sufficient to make the situation look even brighter than it was a week or so ago. It is evident that clothiers have not yet fully covered their requirements, and as re-orders from jobbers naturally come in later than those from clothiers, the prospects are for a continuance of activity for some time to come. Many lines have been withdrawn from sale, but on the other hand there are reports that lines which were supposed to be sold up earlier in the season are still on the market. Inquiries reveal the fact that woolens have not been neglected to the extent that many thought, and when the season is ended it may still be found that they are in a satisfactory condition. With the exception of staple fabrics the stocks of goods in the mills not under orders are light, the cost of raw material being too high to allow manufacturers to turn out fancy goods on speculation. A satisfactory volume of duplicate orders on overcoatings has been received and staple goods have been better taken than was thought possible some time ago. Some business is reported on low-grade light-weight men's-wear goods, but no considerable volume of orders is expected just yet. As has already been stated, the fall dress-goods demand is principally for plain staple goods, and these continue in increasing demand. Many manufacturers of these are so well sold up that they cannot contract for any more except for very late delivery. The strength of the wool market has made sellers even more independent, and has rendered it difficult for them to approach old quotations. In many instances advances have occurred, and no shading of prices is regarded as in any way possible.

FOREIGN DRY GOODS.-High-grade imported woolen and worsted dress goods are still in fair demand, with mohairs the most popular. Silks are still being freely bought. Ribbons are in moderate request. Linens are quieter. Burlaps are firm and higher,

Importations and Warehouse Withdrawals of Dry Goods

Theimportations and warehouse withdrawals of dry goods at this port for the week ending June 1, 1905, and since January 1, 1905, and for the corresponding periods of last year are as follows:

The value of these New York exports since Jan, 1 has been \$7,429,012 in 1905, against \$4,987,872 in 1904.

Converters have taken a fair quantity of heavy brown goods, and in most instances their orders have been accompanied by requests for prompt shipment, although it has not always been possible to carry these out. Prices are very firmly held, and sellers are not particularly anxious to contract for any large quantities at the current level. Lightweights are becoming scarcer and have met with a moderate demand. Bleached goods have again been advanced $\frac{1}{6}$ c., bringing Fruit of the Loom up to $7\frac{1}{4}$ c. and Lonsdale to $7\frac{1}{6}$ c. Business has been fairly active and the market is well sold ahead, buyers not being too inclined to question the prices

NEW YORK,

Index.

An index to all the news matter appearing in this Depart-ment for the period from Jan. 7, 1905, to April 15, 1905, in-clusive, was published in the CHRONICLE of April 22, 1905, pages 1500, 1501, 1502 and 1503.

News Items.

Maryland.-Bid for Bank Stock.-The Board of Public Works received on May 31 from the officials of the Easton National Bank a bid of \$48 per share (par value \$25) for the 1,054 shares of the capital stock of that institution owned by the State of Maryland. No definite action was taken on the bids, Governor Warfield opposing the sale of the stock at that figure.

Massachusetts.—Legislature Adjourns.—The Legislature of this State adjourned at 6:12 P. M., May 26. The session lasted 143 days. Sessions in Massachusetts are always long, but it is stated that the present year's term was the shortest of any since 1881.

Sterrett Township, Pa.—Annexation to Pittsburgh Voted. —This township on May 16, by a vote of 138 to 17, decided to become a part of the City of Pittsburgh. The annexation, it is stated, will take place Jan. 1, 1906.

Bond Calls and Redemptions.

Decatur, Tex.-Bond Call.-J. P. Hayter, Mayor, calls for payment Aug. 2 street-improvement bonds Nos. 8 to 15, inclusive. Payment to be made at the Hanover National Bank, New York City. R. L. Thompson is City Secretary and Treasurer.

The official notice of this bond call will be found among the advertisements elsewhere in this Department.

Bond Proposals and Negotiations this week have been as follows:

Albany (Mo.) School District.—Bond Sale.—On May 27 the \$8,000 6% funding bonds described in V. 80, p. 2232, were awarded to R. C. Peters & Co. of Omaha at 104 and interest. Following are the bids:

Bonds mature in 1914 but are subject to call \$1,000 in 1912

to the City Treasurer, required. Purchaser pays accrued interest.

Alliance, Ohio.-Bonds Awarded.-We are advised that the \$15,000 4% fire-department bonds, bids for which were received on May 22, were awarded to the Central Trust & Safe Deposit Co. for \$15,027, and the \$74,500 4% refunding bonds to W. R. Todd & Co., Cincinnati, at par. See last week's CHRONICLE, page 2232, for list of bidders and their bids. Arcadia, Fla.—Bond Offering.—Proposals will be received until 6 P. M., June 15, by W. H. Simmons, Secretary Bond Trustees, for \$30,000 5% gold bonds, issued for the following

purposes:

\$13,000 for water-works. 12,000 for schools.

\$5,000 for street improvements.

Interest annually at the office of the City Treasurer. Maturity, 30 years, subject to call after 20 years. Certified check for \$500 required.

Auburn, Me.-Rate of Interest.-We are advised that the \$20,000 water-extension bonds recently awarded to the First National Bank of Auburn (see V. 80, p. 2232,) carry 4% interest.

Avalon, Pa.-Bond Election.-An election will be held to-day (June 3) to vote on the question of issuing \$40,500 bonds for the following purposes :

\$30,000 for street improvements, 5,000 bonds for health department. 5,000 bonds for bridges. 2,000 bonds for borough hall improvements.

Present debt of borough, \$148,500; sinking fund, \$22,210.

Assessed valuation, \$2,889,040. Baton Rouge, La.—Bonds Voted and Sold.—This city on May 16, by a vote of 218 (property value \$910,972) for to 2 (property value \$2,600) against, authorized the issuance of \$300,000 4% 10-40 year (optional) refunding and public-improvement bonds. Bonds have been sold to the Hibernia Bank & Trust Co. of New Orleans. These securities take the place of the \$240,000 bonds awarded last January to the same institution. The reason for the re-anthorization is interesting. It seems that the ordinance anthorizing the former election (which was held on Oct. 4, 1904,) provided that all of the outstanding bonds of the issue of July, 1899, had to be refunded or refired by purchase or exchange before any of the new bonds could be floated. The city, we are advised, obtained an option on all the bonds except one, and could not ascertain its whereabouts. Consequently the new bonds could not be issued. To overcome this difficulty a new ordinance was adopted repealing all former action and providing that if the city could retire or purchase 75% of the issue of 1899 the new bonds could be floated "by reserving new bonds to the amount of all that could not be bought or exchanged."

Battle Creek, Mich.—Bond Offering.—Proposals will be received until 8 P. M. June 12 by Thomas Thorne, City Recorder, for \$15,000 sewer bonds at 3%, 8½%, 4% or 5% interest. Bay City, Mich.—Bond Sale.—On May 29 the \$75,000 4%

5¹/₃-year (average) local-improvement bonds described in V. 80, p. 2232, were awarded to R. L. Day & Co., Boston, at 100.329 and interest—a basis of about 3.933%. Following are the bids:

Bedford (Ohio) School District.—Bond Sale.—On May 27 the \$20,000 41/2% school-building bonds described in V. 80, p. 1981, were awarded to Hayden, Miller & Co., Cleveland, at 105.44—a basis of about 4.05%. Following are the bids:

A bid was also received from N. W. Harris & Co., Chicago, too late to be considered, and was therefore returned unopened.

Belding, Mich.-Bond Sale.-On May 19 the \$65,000 4% water bonds offered but not sold on May 5 were awarded to the People's Savings Bank of Belding at par and interest less \$200. Denomination, \$1,000. Date, Aug. 1, 1905. Interest, annual. Maturity, Aug. 1, 1935, subject to call after Aug. 1, 1925.

Bennettsville, S. C.-Bonds Not Yet Sold.-No sale has yet been made of the \$5,000 41/27 gold coupon electric-light bonds described in V. 80, p. 1747. Bids for these bonds will be re-ceived at any time by H. L. McColl, Chairman.

\$1,000 in 1918. and

Albert Lea, Minn.-Bond Election.-A special election will be held June 6 to vote on the question of issuing \$10,000 5% bonds in aid of the Duluth St. Cloud Glencoe & Mankato Railway.

Allegheny, Pa.-Bond Offering.-Proposals will be received until 3 P. M., June 12, by James Brown, City Comptroller, for the following bonds:

- 1.16 Iollowing bonds:
 \$420,000 4% street-improvement bonds. Maturity, \$16,800 yearly on June 1 from 1911 to 1935, inclusive.
 225,000 4% water system-extension bonds. Maturity, \$7,500 yearly on June 1 from 1906 to 1935, inclusive.
 125,000 4% bonds to pay cost of abolishing grade crossings. Maturity, \$4,100 yearly on June 1 from 1906 to 1915, inclusive, and \$4,200 yearly on June 1 from 1916 to 1935, inclusive.
 90,000 4% park-improvement bonds. Maturity, \$3,000 yearly on June 1 from 1906 to 1935, inclusive.
 25,000 4% city-home bonds. Maturity, \$800 yearly on June 1 from 1006 to 1925 inclusive; \$900 June 1 from 1926 to 1935, inclusive.
 25,000 4% public-safety-bonds, maturing in like amounts as the city-home bonds abovo.

Denomination, \$100 or multiples. Date, June 1, 1905. In-terest semi annually at office of City Comptroller. Certified check on a national bank for 5% of the bonds bid for, payable

Berkeley School District, Alameda County, Cal.-Bond Sale.—On May 22 the \$150,000 416% gold bonds described in V. 80, p. 1870, were awarded to the Adams-Phillips Co., Los Angeles, at 105'566-a basis of about 4'104%. Following are the bids:

The bid of the Adams-Phillips Co. was held by the Board of Supervisors to be the highest unconditional bid.

Beverly, Mass.-Bond Sale.-An issue of \$25,000 4 per cent sewer bonds has been awarded to Jose, Parker & Co., Bostop.

Bonlder (Colo.) Sch. District No. 3.-Bids.-We give be-low the bids received May 20 for the \$80,000 41/2 per cent 5-15-year (optional) school bonds. As stated last week, all these blds were rejected.

* Immediate delivery of bonds. † Bonds to be delivered in instalments.

As stated last week, new bids are asked for these bonds until 4 P. M. to day (June 3). Denomination, \$500. Date, 1905. Interest, semi-annual. Maturity, 15 years, June 1, subject to call after 5 years. Bids are asked for 4 per cent and for 41/2 per cont bonds. Successful bidder furnishes blank bonds,

Breitung Township, Dickinson County, Mich.-Bond Sale.-This township has sold an issue of \$6,000 fire-department bonds to the Commercial Bank of Iron Mountaio.

Broxton, Ga.-Bond Sale.-On May 20 the \$10,000 6% 1-20-year (serial) coupon school-building bonds, described in V. 80, p. 1931, were awarded to MacDonald, McCoy & Co., Chicago, at 104.32-a basis of about 5.451/2%.

Cambridge, Ohio.—Bond Offering.—Proposals will be re-ceived until 12 M., June 26, by T. R. Deselm, City Anditor, for \$1,000 41/2% 5-year street bonds. Denomination. \$500. Date, June 1, 1905. Interest semi-annually at the office of the City Treasurer. Accrued interest to be paid by purchaser.

Canton (Ohio) School District.-Bond Sale.-On May 29 the \$15,000 20-year refunding bonds described in V. 80, p. 1871, were awarded to Hayden, Miller & Co., Cleveland, at 102.55 and interest for 4 per cents-a basis of about 3.817g. Following are the bids:

Hayden, Miller & Co., Cleve. \$15,392 50 | Weil, Roth & Co., Clncin..... \$15,092 00 Seasongood & Mayer, Cincin. 16,275 25 | F. L. Fuller & Co., Cleve..... 15,013 50 N. W. Harris & Co., Chicago. 15,165 00 | W. J. Hayes & Sons, Cleve... 15,011 00 R. Kleybolte & Co., Clncin... 15,108 00 | Denison, Prior & Co., Cleve., W. R. Todd & Co., Clncinnati. 15,100 00 | Lenison, Prior & Co., Cleve., 15,011 00 | Lenison, Prior & Co., Cleve., No. R. Todd & Co., Cleve., 15,011 00 | Lenison, Prior & Co., Cleve., 15,011 |

Central (ity, W. Vs.-Bond Offering.-Proposals will be received until 12 M., Jane 22, by the Finance Committee of the Common Council for \$23,000 5% paving bonds. Denomination, \$500. Interest annually at the American Bank & Trust Co. of Huntington, W. Va. Maturity, thirty years, subject to call after ten years. The city has no bonded debt at present.

Centralia (Mo) School District.-Bond Electron.-A special election will take place on June 6 to vote on the question of issuing \$11,000 high school bonds.

Purchaser

pays accrued interest. Oneida County, N. Y.-Bonds Authorized.-The Board of \$520,000,3144 Supervisors has authorized the issuance of \$520,000 31/2 court-house bonds. Denomination, \$1,000. Interest, Feb. 1 and Aug. 1. Maturity, \$22,000 yearly on Feb. 1 from 1906 to 1923, inclusive; \$24,000 Feb. 1, 1924; \$25,000 yearly on Feb. 1 from 1925 to 1928, inclusive

Feb. 1 from 1925 to 1928, inclusive. No Action Yet Taken.—We are advised that no action has

yet been taken towards the issuance of the \$31,650 improve-ment bonds mentioned in V. 80, p. 179. Pasadena, Cal.—Bonds Sold in Part.—Of the four series of 4% 1-40-year (serial) bonds, aggregating \$931,250, offered on May 16, only \$25,000 were sold, the price obtained for these being 101.544.

Pawnee City (Neb.) School District.-Bond Sale.-This district has sold an issue of \$6,500 41/2% refunding bonds to the Lincoln Safe Deposit & Trust Co., Lincoln, at par. De-

nomination, \$100. Date, April 28, 1905. Interest, Jan. 1 and July 1. Maturity, July 15, 1915, subject to call on any interest paying date.

Payson City, Utah .- Bonds Not Sold .- No bids were received May 8 for the \$12,000 10.20-year (optional) electric-light-improvement bonds described in V. 80, p. 1878.

Pembina County (P. O. Pembina), N. Dak.—Bond Offer-ing.—Proposals will be received until 4 P. M., June 5, by Swain Thorwaldson, County Auditor, for \$35,000 Pembina County Drain No. 20 bonds, at not exceeding 7% interest. Denomination, \$1,000. Date, June 15, 1905. Interest annually in Pembina. Maturity, June 15, 1912. Successful bidder must furnish lithographed bonds free of charge.

Piermont, N. Y.-Bids.-The following bids were received on May 27 for the \$2,000 5% 5-8-year (serial) gold village-hall bonds:

We are advised that the bonds were awarded to Geo. M. Hahn. The authorities, however, evidently misunderstood the bid of that firm, which was 100.53 and interest, for in reporting the same to us they gave the Geo. M. Hahn bid as \$100 53 premium, instead of 100'58-a percentage bid. This view of the matter has been confirmed by Mr. Hahn.

Pittsburgh, Pa.-Bond Sale.-On May 29 the \$630,000 31/2 filtration bonds described in V. 80, p. 1988, were awarded to the Union Trust Co. of Pittsburgh at par and interest. Following are the bids :

Union Trust Co., Pittsburgh..... Par | Firemen's Relief & Beneficial As-sociation (for \$90,000)..... Par

These bonds, as already stated, are part of an issue of \$2,000,000, of which \$1,370,000 will be taken by the sinking fund as an investment.

Pleasant Ridge, Ohio.—Bond Offering.—Proposals will be received until 12 M., June 21, by J. B. Hayden, Village Clerk, for \$2,500 5% 25-year debt extension bonds. Denomination, \$500. Date, day of sale. Interest annually at the First National Bank of Cincinnati. Certified check on a national bank for 5% of bonds bid for, payable to the Village Treas-urer required urer, required.

Portland, Ore.—Bond Sale.—An issue of \$34,851 16 6% 10-year street-improvement bonds was awarded on May 24, \$500
