NEW YORK.

OLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, June 10, have been \$2,410,860,287, against \$2,411,740,360 last week and \$1,763,169,926 the corresponding week last year.

$\begin{array}{c ccccccccccccccccccccccccccccccccccc$	Clearings-Returns by Telegraph. Week Ending June 10.	1905.	1904.	P. Cent.

The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, June 3, and the results for the corresponding week in 1904, 1903 and 1902 are also given. Contrasted with the week of 1904 the total for the whole country shows a gain of 47.5 per cent. Outside of New York the increase over 1904

THE FINANOIAL SITUATION.

The most encouraging incident of the week was the favorable change of weather conditions in our agricultural sections. We are now passing through the critical state when each succeeding day of the suspension of cold rains and the recurrence of warmer temperature go far towards establishing strong and healthy cotton stands and stocky wheat and corn plants. As to foodstuffs, there never was a season when so much depended upon an abundant outcome. We do not speak of large crops of cereals in their bearing on railroad earnings. Of course they are an important feature in that problem. Most people do not need to be told, for they are clever enough to see, that railroad prosperity is the centre of the most vitalizing industrial force in the country, and that full wheat and corn crops are an important item in producing that result.

There is, though, another aspect of the food supply which is much more serious. The short yield of wheat and flour has had a leading influence in producing the high cost of living which prevails to-day. If the United States crop of wheat this season should be again short, it might in many ways prove greatly to our disadvantage. Fortunately there is good promise of a larger yield than we have had in several years. Our last full wheat acreage followed by a good yield was in 1901, when the planting was reported at 49,895,514 acres and the yield at 748,460,218 bushels. Last year (1904) the land under wheat was only 44,074,875 acres the wheat crop only 552,399,517 bushels; and that indicates a falling off last summer in the acreage in wheat compared with that of 1901 of about 53 million acres and in crop of nearly 200 million bushels. The average yield the last three seasons has been only 620,094,786 bushels, or 128 million bushels less than the good year of 1901 quoted above. This material decrease in our product, coming at a time when home consumption was abnormally high-due mainly to the prosperity of our railroads and full employment of labor at good wages -has almost left the country bare of stocks, and hence in condition to feel intensely another year of dearth. \mathbf{A} short cotton crop would also prove a decided setback to the expansion of the cotton-spinning industry now so vigorously under way. These facts suggest some of the reasons why the week's reports as to the more favorable weather situation are likely to prove of special interest and why a long continuance of unfavorable weather might be very harmful.

The statement has been frequently expressed of late that the United States can no longer be depended upon as a source of supply to help make good the deficiencies of the wheat crops of European nations; that our own

to the results stated shows that there is no force whatever in the claim. The figures already cited explain that the drop of our wheat supply during the current fiscal year to very little more than sufficient to meet our home consumption was due to special circumstances. In the first place, the crop, instead of being a large crop or even an average crop, was the smallest since 1900, and only two crops in the last ten years have been as small. Furthermore, as to capacity of production the crop of 1904-5 has furnished no proof whatever that it could be taken as the limit of possible yield. The fact stated, that it was an unusually small crop, would be enough to discredit the idea.

But we have conclusive evidence in the falling off of the figures of acreage. According to the Government report, the planting in 1904-5 was only 44,074,875 acres, against 49,464,967 the year previous. But as we are discussing the country's capacity for production, another feature may be included, and that is the natural development from year to year of lands suitable for raising wheat, which has by no means reached its limit. We have seen that in the previous year cited (1901) there was in wheat about 5½ million acres more than in 1904-5, whereas in 1895, six years previous, the acreage was only 34,047,332 acres, or nearly $15\frac{1}{2}$ million acres increase in six years, or over $2\frac{1}{2}$ million acres a year. Of course that increase is not regular in wheat planting or in any other sort of grain or staple acreage. It is more apt to go by jumps when some favorable incident occurs to stimulate progress, such as higher prices, business activity, immigration, railroad development, etc. The grand truth respecting this country is that no crop has reached the limit of possible production, and will not for a very considerable time to come. Moreover, in the future as in the past, new appliances and facilities for the production and marketing of our products will be introduced, so that we will not only increase the volume of crops but lessen the cost. We well remember during the war with the South, when over a million of young men were taken from the North and sent into the army (we had a population of only $31\frac{1}{2}$ millions of individuals, men, women and children at that time), the pessimist's cry came up—that not enough hands will be left at home to till the ground. Who is going to raise our food? We shall starve and so will our army. Instead of starvation the crops continued to increase. The possible limit of the wheat product is still a long way off. All that is wanted to prove the truth of that statemen are the two conditions, a year of propitious weather and a paying price.

There has been no little talk during the week with regard to an arrangement being made to end the war between Russia and Japan, and it has no doubt had an influence on affairs. It seems to be a fact that President needs for consumption will take all we can raise. That Roosevelt has reached the ear of the Czar and that a

claim is based chiefly upon the export figures for the current year (1904-5)-which will close with the last day of this month; the latest report was for the 10 months ending April 30th, indicating an export of wheat and wheat flour up to that date to the entire outside world of only 37,275,-857 bushels and smaller stocks visible and in farmers' hands April 30th than at the same date of any of the previous eight years. Those figures, together with a population of about 83 million individuals against about 70 millions ten years ago, made up the data used to prove that we could no longer be looked upon as a wheat-exporting nation. A further examination of the facts relating

response has been made by Russian authorities so far as to express a desire to have Japan's peace terms. Encouragement is felt by the President because his effort has been successful to the extent of bringing the belligerents together. There must always be a first step in such a negotiation, and it can but partake somewhat of the character this one has already assumed. It is obvious however that confidence in the disposition of Russia will be of a halting kind until a full settlement has been actually reached, although as we go to press there seems to be enough reported from Washington to establish the fact in an ordinary case. The initiative

having been a suggestion from the President to the Czar, the courteous answer returned by Russia may be merely a diplomatic way of meeting a friendly nation; or possibly the expression of a real desire by the Czar to have Japan's terms spread before the Russian public, that he may use them to convince his own subjects of the impossibility of accepting them and thereby quieting the present public clamor for peace. However that may be, it is evident that Japan is too wary to be led into a trap by Russia. She will require, she says, some guaranty of good faith before disclosing her position. It seems to us that past experience justifies Japan's We have written more fully on the "Eastern caution. Peace Question" ou a subsequent page.

There has been distributed this week among local banks and trust companies \$56,000,000, the proceeds of the final instalment of the recently negotiated Japanese That circumstance seems to set at rest all quesloan. tion as to what disposition will be made of this money. It was intimated in the CHRONICLE of May 27 that the funds would probably remain on deposit with the syndicate until opportunity was offered for their final disposition. It now appears that such opportunity has been offered, and that the money has, by direction of the Japanese Government, been placed ou call with local financial institutions to await requisition from such Government whenever it may be needed. This statement of the disposition of the fund seems to be important because it has been regarded as probable that it would be remitted to London, as was the money paid in by subscribers on application and for the first instalment of the loan. Such remittances were distinctly traced, while they were in progress, to one of the banks in the syndicate, and the volume of exchange bought for this purpose was so large that it was considered as probable that much of it was purchased in anticipation of the payment of the final instalment. It is now stated, however, that the excess of exchange covered a balance resulting from the negotiation of a previous loan and was not on account of the last issue.

The announcement that the running time of the fast trains between New York and Chicago is to be reduced to 18 hours means much to business men and at the same time is an illustration of the progressive spirit that dominates the management of our leading railroads. The Pennsylvania Railroad, according to its published advertisements, will begin the running of trains ou the 18-hour schedule to-morrow, June 11, and the New York Central will reduce the time of its Twentieth Century Limited on Sunday June 18, when its summer schedule goes into effect, to the same basis. At present the Central's Twentieth Century Limited is the fastest train between the two cities, it covering the distance in 20 hours. The Pennsylvania Railroad also at one time had a 20-hour train, but withdrew it in 1903 on account of the congestion of traffic on its lines and because it was doing a large amount of new construction work. With this work completed the company finds itself able to put on a train which will excel by two hours the fastest trains at present run on the Central. Speed tests made this week to demonstrate what could be done in the way of making time show conclusively that there will be difficulty in inaugurating no the 18-hour service and maintaining it. On Monday a through run was made in 16 hours and 3 minutes. miles an hour messages were forwarded by President

.

This was done with two special trains, one covering the distance from New York to Pittsburgh in 8 hours and 50 minutes and the other the distance from Pittsburgh to Chicago in 7 hours and 13 minutes. On Thursday another train made the distance between Chicago and Pittsburgh, 468 miles, in 7 hours and 20 minutes, including all stops. This latter was an average of 63.53 miles an hour. As the train was standing still 28 minutes, the speed per hour while in motion was 68.1 miles. It is claimed that the distance between New York and Pittsburgh can easily be covered in 7 hours.

In the matter of distance between New York and Chicago the Pennsylvania will have the advantage over the Central. According to General Passenger Agent Daniels of the latter road, the distance via the Pennsylvania lines between the two points is 904.4 miles and the distance via the Central lines 959.15 miles. On the other hand, the Central is claimed to possess somewhat easier grades. Obviously, however, the difference against it of 55 miles in the total run will make it necessary for the Central to maintain a higher average rate of speed. This, it is claimed, can readily be done. The Central people claim that they have long held held the record in this country for fast trains. They point to their Empire State Express running between New York and Buffalo, 440 miles, as having been, for fourteen years, the fastest train in the world for its distance, and to the Twentieth Century Limited as having been for three years the fastest 1,000-mile train. They further note that in 1893twelve years ago-they ran their "Exposition Flyer" for 180 days of the Columbian Exposition in 20 hours. They assert that the proposed schedule of 18 hours is simply extending the time now made by the Empire State Express to the system west of Buffalo, to Chicago. The time to St. Louis, Cincinnati and other points is also to be quickened. The fare on regular trains between New York and Chicago is \$20 and on the Twentieth Century Limited the extra charge has been \$8. On the 18-hour trains the extra fare on the Pennsylvania will be \$10. As the cost of a sleeper is \$5 the aggregate cost of a trip on the 18-hour trains will be \$35. This looks marvelously cheap, considering what is accomplished. Going West, an hour will be saved on account of the difference in time, so that the Pennsylvania trains which will leave at 3:55 in the afternoon will be in Chicago at 8:55 the next morning. In other words, the business man after attending to his duties in New York one day is placed in position to spend practically the whole of the next day in Chicago. Whether such splendid service furnished so cheaply pays (from the railroad standpoint we mean) we need not discuss on this occasion. That it is a distinct gain to the traveling public admits of no question.

In speaking of improvements in railroad service, refer-

ence can hardly be omitted to another development of the week. We allude to the announcement made on Thursday by the Chicago & Alton Railway Company that it had perfected arrangements for the establishment of a wireless-telegraph system on all trains running between Chicago and St. Louis and that eventually the scheme would be extended to the entire system. Experiments have demonstrated the feasibility of the arrangement. An observation car was equipped with wireless apparatus and attached to a train, and while this train was running at a speed of fifty Felton from the general offices in Chicago and replies sent back from the train, without any hitch. It is stated that this is the first time the wireless system has ever been used to communicate with persons on a moving train. Through such a wireless arrangement the train dispatcher will be able to reach any train on any part of his division, rendering collisions, it is thought, almost impossible, no matter what the weather conditions. The newspapers also state that it is the intention of the Alton Company to handle commercial messages for its patrons to and from moving trains. This, it will be seen, presents the possibility of a man traveling on fast trains and yet at the same time keeping in constant touch with his business.

Contrary to expectations, no falling off in pig iron production occurred during the month of May. The "Iron Age" of this city makes the output for May 1,967,-586 tons, as against 1,922,041 tons in April, though of course it must be borne in mind that May comprised 31 days while April had only 30 days. The increase was due to the enlarged output of the steel companies, which produced 1,289,583 tons in May, against 1,222,710 tons in April and 1,232,255 tons in March. The so-called merchant furnaces curtailed their product to some extent, having made only 680,072 tons in May, against 699,-331 tons in April and 704,009 tons in March. A very considerable drop in output had been looked for, owing to the reaction in the iron and steel trades and the great falling off in new orders. During June it seems certain that the expected contraction in the make of iron will be realized. The "Age" states that some falling off in capacity had already occurred by June 1 and that further reductions have taken place since then. The merchant furnaces show a further augmentation in the total of their unsold stocks, but considering the marvelous extent of the output-to figures never previously even approached—the additions to stock must be regarded as surprisingly small and indicative of a very extensive consumption. For June 1 the aggregate of these merchant stocks is given as 399,754 tons, against 336,-649 tons May 1; 319,257 tons April 1; 350,746 tons March 1 and 376,440 tons February 1. The apathy of buyers in the market still continues, almost a deadlock being reported between purchasers and sellers of pig iron. But declines in prices continue moderate, and as regards the increase noted in merchants' stocks, it is pointed out that this may to an extent be misleading-that consumers are forcing the producers to bear the burden and are drawing down their own reserves to the lowest point.

There was no change in official rates of discount by any of the European banks this week, and unofficial, or open market, rates were easy at all of the principal centres. The indications on Thursday that pourparlers having for their object the opening of negotiations for peace were making satisfactory progress, through conferences between the American Ambassador at St. Petersburg and the Russian Government, stimulated a buoyant rise in the European markets, in which Russian and Japanese securities participated.

of the Japanese syndicate bond operations. Loans decreased \$9,720,300 and deposits were reduced by \$18,-651,500. This week's bank statement should reflect, among other items, the transfer hence to San Francisco, through the Sub-Treasury, of \$2,000,000 on Tuesday, also of \$300,000 on Friday of last week, as was then noted in the CHRONICLE, and of \$250,000 on Thursday to New Orleans. The San Francisco transfers last week and in the current week were not on Japanese account but for an industrial enterprise. There was a transfer hither on Friday of \$1,000,000 from San Francisco for a bank settlement. The bank statement will be further influenced by the distribution on Thursday among local banks and trust companies of about \$56,000,000, the amount of the final instalment of the recent Japanese bond issue, which was paid over to the Kuhn-Loeb syndicate on May 25. Such distribution was made by direction of the Japanese Government, and the money will be held on call awaiting requisition therefrom.

The market for call money was firm on Monday, influenced by the unfavorable bank statement, but it subsequently grew easy and it so continued until Thursday afternoon, when, because of the calling of loans incident to the above-noted distribution of the proceeds of Japanese bonds, there was a firmer tone. Money on call representing bankers' balances loaned at the Stock Exchange during the week at 3 per cent and at 2 per cent, averaging about $2\frac{1}{2}$ per cent; banks and trust companies quote 24 per cent as the miminum. On Monday loans were at $2\frac{3}{4}$ per cent and at $2\frac{1}{4}$ per cent, with the bulk of the business at 23 per cent. On Tuesday and on Wednesday transactions were at $2\frac{1}{2}$ per cent and at 2 per cent, with the majority at $2\frac{1}{4}$ per cent. On Thursday loans were at 3 per cent and at $2\frac{1}{4}$ per cent, with the bulk of the business at $2\frac{1}{2}$ per cent. On Friday transactions were at $2\frac{3}{4}$ per cent and at $2\frac{1}{2}$ per cent, with the majority at $2\frac{1}{2}$ per cent. While time loans were easy for the shorter dates, owing to the light demand, they were firm for all periods beyond six months. Rates on good mixed Stock Exchange collateral were 3 per cent for sixty to ninety days, 34 per cent for four to five, 34 per cent for six and $3\frac{3}{4}@4$ per cent for seven to eight months. Commercial paper was in good request, with moderate offerings, and quotations were $3\frac{1}{2}@4$ per cent for sixty to ninety-day endorsed bills receivable and for four to six months choice single names; good paper running for these periods of maturity was quoted at 41,25 per cent.

The Bank of England rate of discount remains unchanged at $2\frac{1}{2}$ per cent. The cable reports discounts of sixty to ninety-day bank bills in London 2 per cent. The open market rate at Paris is $1\frac{1}{2}$ per cent and at Berlin and Frankfort it is $2\frac{1}{4}$ @ $2\frac{3}{8}$ per cent. According to our special cable from London, the Bank of England gained £387,238 bullion during the week and held £38,273,644 at the close of the week. Our correspondent further advises us that the gain was due to imports of £811,000 (of which £11,000 from Australia and £800,000 bought in the open market), to exports of £15,000 to South Africa and to shipments of £409,000 net to the interior of Great Britain.

Last week's statement of the New York Associated Banks was quite unfavorable because of the reduction of \$5,415,525 in the surplus reserve. The cash decreased \$10,078,400, which was due to the transfer of \$3,000,000 to San Francisco and also to the closing out

creased \$10,078,400, which was due to the transfer of The foreign exchange market was extremely dull this \$3,000,000 to San Francisco and also to the closing out week and without special feature. The inertia was

chiefly due to the pendency of peace negotiations, which contributed to hold in check transactions involving either the drawing or offering of bills except for ordinary purposes. Arbitrage trading in stocks was in limited volume, the business on both the London and the New York Exchanges until Thursday being small, and there were no indications of other transactions, such as Commercial bills were in investments in securities. only moderate supply and bankers' drafts representing finance operations were few. The easier discounts in London made long sterling preferable to short for such remittance as was required, and there appeared to be an entire absence of demand, either for short or for cables. Continental exchange was unaffected by the slight tension which developed at Paris over the revival of the Moroccan incident and fluctuations were within a narrow range. Those of the foreign bankers who were disposed to express an opinion regarded it as probable that even if peace negotiations should result from the preliminary conferences which are now in progress, there would be little probability that they would cause much activity in exchange unless there were very decided indications of a successful issue of such negotiations, in which case speculation would most likely become buoyant and broad, resulting in large absorptions of American securities by Europeans and consequently in low exchange rates. The course of this market would, however, depend largely upon the relative rates for money here and abroad. Gold received at the Custom House for the week \$97,412.

Nominal quotations for sterling exchange were $4.85\frac{1}{2}$ @ 4.86 for sixty day and $4.87\frac{1}{2}$ @4.88 for sight. Rates for actual business opened on Monday 5 points higher all around, compared with those at the close on Friday of last week, at 4.8505@4.8515 for long, 4.87@4.8705 for short and 4.8725@4.8735 for cables. On Tuesday there was a further rise of 5 points in long and in cables to 4.8510@4.8520 for the former and to 4.8730@4.8735for the latter; short was unchanged. On Wednesday the market was inactive and steady at unaltered rates. On Thursday the tone was easy at a decline of 5 points for long to 4.8505@4.8515 for long and of 5 points for cables to 4.8725@4.8735. Short was unchanged. The market was easy on Friday and 5 points lower for long and for short.

The following shows daily posted rates for sterling exchange by some of the leading drawers.

THE QUESTION OF EASTERN PEACE.

Numerous indications in the diplomatic world, such as usually precede a termination of hostilities, have undoubtedly been in evidence this week. We may mention the activities of our own Government, and the signs that its good offices were at any rate not peremptorily rejected; the understood co-operation of the German Emperor in the pressure brought to bear upon the Czar; the relinquishment of the French Foreign Office by M. Delcassé-who, along with his other achievements, has been a recognized partisan of the stronger Franco-Russian pact-and his replacement by M. Rouvier, whose sentiments towards that alliance are known to be governed by the circumstances of the day. If the report was true, circulated towards the week's close, that the Czar had consented for his neutral friends to draw out the Japanese peace proposals, it might readily be assumed that the end of the Eastern War was near.

We shall indulge in no predictions on this point save what we have said already-that however bold a face she may put upon it, Russia's fighting power is reduced to such impotence that continuance of the struggle can mean nothing but brief postponement of the inevitable. The obvious tendency of diplomatic discussion in the direction of peace, however, brings up for consideration two important phases of the matter-what the broader political results of Eastern peace, on the lines of submission of Russia to the inevitable, will be, and what outcome may be looked for on the financial markets. It is quite safe to say that the diplomatists have not yet got their bearings in the matter. For the desperate valor, the ready sacrifice of life which have marked the Japanese campaigns, all Foreign offices were prepared. Those qualities have been displayed by Oriental armies from Genghis Khan downward, and were abundantly displayed by the Japanese themselves in the Chinese war of 1895. But for the supreme military and naval generalship which has taken positions supposed to be impregnable, has completely shattered opposing armaments equal in numbers and power and has developed the fighting machinery of Western civilization to an efficiency never approached in any Western

The following gives the week's movements of money to and from the interior by the New York banks. war, the diplomats were not prepared; and it is on these terms that Japan takes its new place in the ranks of modern States. To-day she stands forth as an ally to be courted, an enemy to be feared, and a power which must be reckoned with in every movement hereafter in the East. This, speaking generally, is the recognized situation. What does it signify in its particular application? The question is of interest, not only as bearing on the broader problem of Asiatic history in the future but on the actual settlement of this war with Russia.

Japan, in the first place, has undoubtedly won the right to apply a species of Monroe Doctrine in the East. Like our own more or less undefined political maxim of that name, Japan's future attitude, as to the coast of Asia, will necessarily ignore what has happened already by right of cession or conquest. She will hardly prepare to snatch Cochin China from the French or Hong Kong from the English or the Philippines from the United States, any more than our own extreme doctrinaires insist on dislodging France from the islands in the Gulf of St. Lawrence or Great Britain from Cana-Jamaica. But there will, we imagine, da and no more "partitioning" of China between be European Powers which have no right or title to a foot of land except from the fact that China cannot defend herself. With Japan serving plain notice as to her feeling in the matter, we should say that little will be heard hereafter of the "spheres of influence" of various European States in Asia. The phrase, and the disputes which came with it, were merely a sequel to similar episodes of a few years before on the coast of Africa, when existence of a pre-empted coast-line, a savage population and an unexplored interior gave at least a valid excuse for diplomatic concern over the "shore possessions" and the "hinterland." The attempt to apply the same principle to China was grotesque; it involved unscrupulous treatment of the rights of an old and highly-civilized Power; it led directly, and not in all respects illogically, to the Boxer outbreak of 1900, and it is now, in our judgment, wholly incompatible with the present position of Japan.

This is one necessary outcome of the war. We certainly do not look, with Count Cassini, for such a reorganized Chinese army, under Japanese suzerainty, as shall menace the Western world; people who have heard Continental Europe declaiming hysterically about the "American peril" can afford to smile at the talk of the "yellow peril." But it is perfectly plain that hereafter, following her show of power, Japan must have as much a hand in Europe's relations with the East as the United States has in her relations with the West. The first plain inference from such an attitude is that Russia's wings must be permanently clipped of power on the coast of Asia. Port Arthur she must, of course, relinquish; it was never hers at all, except by the meanest act of fraud. Vladivostock will probably have to be reduced to the status of an unfortified port, and some provision for international supervision or control of the Siberian Railway will probably be inevitable. This much appears to us unavoidable as a part of the Japanese stipulations; the particular reason being that Russia, which has abundantly proved in the whole Manchurian episode, that she will not keep her word save under actual compulsion, must be placed, in the interests of peace, in a position where she cannot again do mischief. The question as to the probable influence of return of peace on the financial situation is less readily answered

by the financial community to-day than it would have been two weeks ago. In fact, the markets' reception of the news of the Russian ffeet's destruction-which was quite generally assumed to foreshadow the end of the Eastern War-has been exceedingly disappointing. A momentary revival in the general security market and a rapid advance in Japanese Government bonds (in the course of which, for the first time in their history, Japanese old 4 per cents in London reached and passed above the price of Russian 4s) was followed by a wavering movement, suggesting either that the event was "discounted " beforehand or that its financial importance had been overestimated. There is some truth in each hypothesis. Undoubtedly one factor in the advance of home and foreign money markets, after Port Arthur's fall on January 1, was confidence that Russia was near the end of its fighting power. It has also been plain enough, since Europe became convinced that no third Power would be embroiled in the Eastern conflict, that the war was exerting, even on European finance, no such paralyzing influence as the Boer War, for instance, which blockaded the richest gold-mining district of the world and exhausted the ready capital of the world's greatest money market. At the same time investment capital looks askance, to some extent, at the problem of post-bellum finance. The world learned at the Transvaal peace of June 1902 how ending of war sometimes may fail to end the financial strain of war. Regardless of the mooted question of an indemity, it is admitted on all hands that Japan will need a period of financial recuperation, and that Russia must rebuild from the bottom, and will have to begin its rebuilding by borrowing.

These considerations may very probably have been in the mind of investment interests during the market's cautious reception of the Eastern news. Perhaps the definite news of peace, when it really comes, will be greeted with more enthusiasm. At all events it is to be remembered that the attitude of the Russian court cabal has hung like a pall over every peace conjecture. That the settlement of this struggle, however, on the only lines upon which it can be settled will bring a certain security into the view which may be taken of international politics, we entertain little doubt. A few years ago there was reason to believe that the situation on the coast of China was full of diplomatic fire brands. To-day the question is very largely settled. With the relations of Japan, Great Britain and America what they are towards one another and towards China, the urgent problem of a decade ago is close to its solution.

THE AMALGAMATED COPPER REPORT.

A TRANSPORT OF TRANSPORT

The issue of a report by the Amalgamated Copper Company must be accepted as marking a distinct advance in the policy of the management in dealing with its shareholders and the public. The report is very meagre in its details, the whole of it being contained in a four-page circular, and it is evident that the management are alive to that fact, for they do not really call it a report, but merely a "statement, together with balance sheet." But though the "statement" leaves much to be desired, it should be remembered that previously no official information whatever has been given out concerning the company's affairs since the flotation of the shares under what seemed such promising auspices, and with such a display of eminent names, in April 1899 six years ago. In other words, the company has made

2371

a very noteworthy departure, and there would hence seem warrant for the hope that the present marks simply the beginning of the new policy—that more extensive and more comprehensive returns are among the probabilities of the future.

We are certain that there would be no dissent from this conclusion had the report come unheralded. As it happens, though, the public mind had been prepared for the event by semi-official announcements that some step of the kind was contemplated—that the company intended furnishing definite data concerning its affairs for the information of the shareholders. For some months rumors to that effect have been current and several times it had seemed as if the appearance of the promised disclosure was actually impending. Under the circumstances, rather exaggerated notions gained ground as to what the report was to contain. Had the document come without previous notice satisfaction at the appearance of any report at all, even though its contents were limited, would have been the dominant feeling.

Of course it is natural to contrast the circular statement of the Amalgamated Company with the elaborate and comprehensive report issued by that other prominent industrial concern, the United States Steel Corporation. But the policy dominating the management of this latter concern has from the first been wholly different.and the standard set up an unusually high one. And we imagine it will be many a long day before the course of the Steel Corporation in that respect will be duplicated by the Amalgamated Copper Co., even though the reports of the latter shall be very greatly improved. Really, however, the taking of such a step would be by no means very difficult, and if the Amalgamated Copper Company should fall in line, it would be following not merely the policy of the Steel Corporation but that of nearly every other of the copper-producing companies in the United States. There are in truth much fewer facts to give in the case of the copper companies than in the case of almost any other class of industrial corporations.

Most of the copper concerns are controlled by Boston people, and these have always pursued an enlightened policy in dealing with their proprietors and the public. Publicity has been the rule, secrecy and concealment the exception. The disposition generally has been to act on the idea that the rights of the shareholders should be guarded and protected and that full official facts and returns furnished the best means to that end. The notion that the interests of the small owners could be ignored or treated with contempt has never found support in that part of the country. The newspapers have contributed their share towards bringing about such a situation, and accordingly for many years past copper shares have been in high favor in the Boston market, both for investment and speculation. The present "statement" of the Amalgamated Copper Company contains no income account for the year, that is, no figures showing receipts or expenses, this being one of the deficiencies of the report. Such an omission would be considered a decided anomaly in the case of the smaller copper companies dealt in on the Boston market, for no matter how meagre such reports may be, they are certain to give at least these essential facts, namely the number of pounds of copper produced and sold during the twelve months, the average price realized for the sales, and the total receipts; also more or less itemized statements of expenditures. Take the Tamarack Mining Company, a small concern, with \$1,500,000 capital, for illustration. This furnishes

a statement of receipts and expenses of the kind indicated, and gives various other facts, such as the tons of rock stamped, the pounds of mineral obtained, the percentage of refined copper in the mineral, the product in fine copper, the cost per pound at mine, besides numerous further data and quite extended remarks by the Superintendent—the whole making a pamphlet of fourteen pages. Coming to cases hke the Greene Consolidated Copper Company or the Copper Range Consolidated Company, we have reports quite out of the ordinary—the former making a pamphlet of twenty-four pages folio size, with numerous inserts, and the latter a pamphlet of forty-eight pages ordinary size.

But it is not merely in their annual statements that these various copper companies excel. By far the most of them also furnish monthly statements of their copper product, these monthly figures being given at length in the Boston newspapers. Having the amount of copper produced in pounds, and knowing the current market price of the metal, the investor in any company really has all the essentials necessary to a close approximation as to current results (the cost of turning out the metal at the different mines being a more or less constant factor which can be ascertained from past reports), and thus he is in position to determine for himself the dividend prob-The Amalgamated Company has not yet abilities. reached the point where monthly figures of production are furnished or allowed to come out. Indeed, it will be recalled that the Copper Producers' Association two years ago had to abandon the practice, which theretofore had been in vogue, of issuing monthly returns showing current copper production in the United States, simply because the Amalgamated Company, the largest producing interest in the country, had decided to withhold the needful information as to its own mines.

However, in the circular statement now submitted the managers of the Amalgamated Company have turned face in the other direction and there is no reason to think that they will again take any steps backward. Perhaps in time they can be got even to resume giving the monthly estimates of production. The present report, as far as it goes, reveals satisfactory results. The balance sheet is a condensed one-very much "condensed"-but it shows one thing at least, the existence of a "surplus and reserve" of \$8,942,712 after the payment of all past dividends and allowance for the dividend which was due May 29 1905-the balance sheet being of date April 29 1905. Weight is given to these figures seeing that the statement is accompanied by the certificate of a well-known firm of public accountants, namely Pogson, Peloubet & Co., who certify that they have examined into the affairs of the companies in which the Amalgamated Company owns stock, and have verified the fact that all dividends received therefrom by the Amalgamated Company have been paid out of current net earnings, after making ample provision for depreciation, dismantlements, depletion of coal and timber lands, and the adjustment of copper on hand to cost. To be sure the existence of the surplus referred to is qualified by the circumstances that on the other side of the balance sheet there is an item for the large sum of \$7,350,090 which is put down as a loan to the Washoe Copper Company for smelter construction. As the Amalgamated owns the entire stock of the Washoe Company, this is a good deal like owing that much money to itself. With this item deducted the surplus mentioned would be reduced to that extent. On the other hand elimination of the item would mean that the company had devoted no less than \$7,350,000 out of surplus earnings in the construction of a smelter plant. In the end therefore the result would be the same except that out of the \$8,942,712 surplus \$7,350,000 would not exist in the form of a cash asset.

Another statement in the report bearing upon the company's earnings is of interest. After referring to the extensive litigation with which the company has been harassed, the remark is made that the heavy expenses incurred in this litigation and the cost of building the new reduction works at Anaconda (which latter cost over \$9,000,000), opening and developing new coal mines and making settlements for damage claims have all been paid out of carnings. The new concentrating and smelting plant at Anaconda was erected in 1901 and 1902, and is said to be the most complete and up-todate copper reduction works in existence. At these works, we are told, are treated the ores of the Anaconda, Washoe, Parrot, Colorado and Butte & Boston mining The ores of the Boston & Montana companies. Company are treated at its own smelter in Great Falls.

We are not particularly impressed by the comparison made in the report between the capitalization of the Amalgamated Company at its selling value and the capitalization of the Calumet & Hecla Company and the Rio Tinto Company at their selling values-indicating that the Amalgamated Company has a market capitalization of only 76 cents per pound of copper produced as against a market capitalization of S0 cents for the Calumet & Hecla and of \$1 56 for the Rio Tinto Company. There is something very suggestive of an attempt to promote speculation in such comparisons and there has been altogether too much speculation in Amalgamated affairs in the past. Obviously, too, every tub must stand on its own bottom, and we imagine the general public is not yet entirely convinced that the Amalgamated is the same kind of a tub as the Calumet & Heela or the Rio Tinto. If the Amalgamated shall develop the same degree of merit as the other two worldrenowned concerns, market values will in the end adjust themselves to a like basis.

As already stated, there is no income statement in the return. Shareholders are told, however, that the companies owned wholly or in part by the Amalgamated Company produced in 1904 252,000,000 pounds of refined copper, of which the Amalgamated Company "received the benefit" from 202,000,000 pounds, and that this is about 25 per cent of the total production of copper in the United States. As to the Amalgamated's ownership in other companies, the facts which were pretty well known before are confirmed and the points about which there

of the copper mines, the assets of the company (consisting of timber lands, coal mines, reduction works, sawmills, railways, real estate, buildings, copper and cash) controlled through the ownership of other companies are estimated to have a value exceeding \$50,000,000 over all liabilities of the company. It is also pointed out that the company, directly or indirectly, employs in Montana 12,000 men, and expends annually for wages \$14,000,000.

RIGHTS OF A GAS COMPANY IN PUBLIC STREETS.

In making improvements or other changes to promote the comfort, the safety or the convenience of the inhabitants of a municipality, and through which public service corporations are forced to move gas pipes or wires, or mains or conduits, in the subsurface of the streets from one part of the street to another, the questisn frequently arises whether the companies holding the franchises can be made to bear the outlays incurred on that account, or whether the municipality is obliged to compensate them for such expenses. A case of that kind came up in the United States Supreme Court a few weeks ago, and that tribunal upheld the conclusion of the State courts that the company itself must bear the expense of making the changes imposed upon it. In effect, the Court decides that franchises for the use of streets are taken subject to the right of the city authorities to require changes of that nature whenever necessity calls for them.

The case arose out of the suit of the New Orleans Gas Light Co. against the New Orleans Drainage Commission. By an Act of the Louisiana Legislature approved July 9 1896, the State created a board known as the Drainage Commission of New Orleans, which board was given the power to control and execute a plan for the drainage of the City of New Orleans and also the power to appropriate property, according to the laws of the State, by legal proceedings, for the purpose of constructing a drainage system. In the course of the construction of this drainage system it was found necessary to ask the New Orleans Gas Light Co. to change the location in some places in the streets of the city of its mains and pipes. By stipulation between the parties it was agreed that the charges should be paid by the Gas Company, and that its right to recover for the amount expended by it should be submitted to the courts for final adjudication. The present action was brought to recover the cost of the changes so made. In the State Court of original jurisdiction there was a judgment in favor of the Drainage Commission. On appeal to the Supreme Court of Louisiana this judgment was reversed. A reheating, however, was granted and then the Supreme Court changed its position and rendered a final decree affirming the judgment of the lower court rejecting the claim of the Gas Company. The case was thereupon carried to the U.S. Supreme Court, with the result already noted. It was the contention of the Gas Company that the judgment of the State Court, in compelling it to pay for the cost of the changes imposed upon it, impaired the contract rights of the company and had the effect to take its property without compensation, in derogation of rights secured by the Federal Constitution and Fourteenth Amendment. It was urged that, having acquired the franchise and availed itself of the right to locate its pipes

was doubt are left in doubt. For instance, it is stated that the company owns the entire stock of the Washoe Copper Company, the Colorado Smelting (now the Trenton Mining & Development) Company and the Big Blackfoot Milling Company, and all but a few shares of the Boston & Montana and the Butte & Boston companies. Then it is added that it owns a majority interest in the Anaconda and Parrot companies. It is precisely on this latter point that information was desired, that is, how much of the stock of the Anaconda and the Parrot companies is owned in each instance. It will no doubt be encouraging to Amalgamated shareholders to hear that, exclusive final dec rejecting that Supplement is stated the Supplement is stated the Supplement is stated the rejecting the rejecting the stock of the Anaconda final dec rejecting the stock of the Anaconda and the Parrot companies is owned in each instance. It will no doubt be encouraging to Amalgamated shareholders to hear that, exclusive that information was desired to hear that, exclusive

2373

under the streets of the city, the company had acquired a property right which could not be taken from it by a shifting of some of its mains and pipes from their locacation to accommodate the drainage system, without compensation for the cost of such changes. It was not contended that the Gas Company had acquired such a property right as prevented the Drainage Commission, in the exercise of the police power granted to it by the State, from removing the pipes so as to make room for its work, but it was insisted that this could only be done upon terms of compensation for the cost of removal. In support of the company's claim, reference was made to a previous decision of the U.S. Supreme Court upholding the claim of the New Orleans Gas Light Co. to exclusive privileges in furnishing gas in the city. Justice Day, however, who delivers the opinion in the present case, points out that the exclusive privilege which the U.S. Supreme Court in its former decision upheld was the right to supply the city and its inhabitants with gas for the term granted. There was nothing in the grant of the privilege which gave the company the right to any particular location in the streets.

In the original grant to the New Orleans Gas Light & Banking Co. (the predecessor company) the pipes were to be laid in the public ways and streets, " having due regard to the public convenience." And in the grant to the Crescent City Gas Light Co. (a company merged in the New Orleans Gas Light Co.) the pipes were to be "laid in such manner as to produce the least inconvenience to the city or its inhabitants." In the very terms of the grant, says Justice Day, there is a recognition that the use of the streets by the Gas Company was to be in such manner as to least inconvenience the city in such use thereof. Except that the privilege was conferred to use the streets in laying the pipes in some places thereunder, there was nothing in the terms of the grant to indicate the intention of the State to give up its control of the public streets—certainly not so far as such power might be required by proper regulations to control their use for legitimate purposes connected with the public health and safety.

Justice Day also observes that in the earlier decision of the U.S. Supreme Court sustaining the company's right to supply gas in the city, it was expressly said that the grant of exclusive privileges to the company did not restrict the power of the State, or of the Municipal Government of New Orleans acting under authority for that purpose, to establish and enforce regulations which are not inconsistent with the essential rights granted by the company's charter, and which may be necessary for the protection of the public. The constitutional prohibition upon State laws impairing the obligation of contracts does not restrict the power of the State to protect the public health, the public morals, or the public safety, as the one or the other may be involved in the execution of such contracts. Rights and privileges arising from contracts with a State are subject to regulations of this character in the same sense and to the same extent as are all contracts and all property, whether owned by actual persons or corporations. The drainage of a city in the interest of the public health and welfare is one of the most important purposes for which the police power can be exercised. The Drainage Commission in carrying out this work, it was held by the Supreme Court of the State, is engaged in the execution of the police power of the State. It was admitted that in the exercise of this power there had been no more in-

terference with the property of the Gas Company than had been necessary to the carrying out of the drainage plan, and there was no evidence that the value of the property of the Gas Company had been depreciated nor that the company had suffered any deprivation further than the expense which was rendered necessary by the changing of the location of the pipes to accommodate the work of the Drainage Commission. Furthermore, it has been held in numerous cases that the police power, in so far as its exercise is essential to the health of the community, cannot be contracted away. It would be unreasonable to suppose, Justice Day goes on to say, that in the grant to the Gas Company of the right to use the streets in the laying of its pipes it was ever intended to surrender or impair the public right to discharge the duty of conserving the public health. The Gas Company did not acquire any specific location in the streets; it was content with the general right to use them; and when it located its pipes it was at the risk that they might be at some future time disturbed when the State might require for a necessary public use that changes in location be made.

The right to regulate the use of the surface of the streets by the city had not been denied and the opinion declares that there appears to be no reason why the same principle should not apply to the subsurface of the streets, which, no less than the surface, is primarily under public control. The need of occupation of the soil beneath the streets in cities is constantly increasing for the supply of water and light and the construction of systems of sewerage and drainage; and every reason of public policy requires that grants of rights in such subsurface shall be held subject to such reasonable regulation as the public health and safety may require. Accordingly the conclusion is that there is nothing in the grant to the Gas Company, even if it could be legally done, undertaking to limit the right of the State to establish a system of drainage in the streets. Whatever right the Gas Company acquired was subject, in so far as the location of its pipes was concerned, to such future regulations as might be required in the interest of the public health and welfare.

RAILROAD GROSS EARNINGS FOR MAY. Our early statement of railroad gross earnings for the month of May reveals very satisfactory results. Circumstances and conditions were quite generally favorable, and besides this there was an absence of a number of disturbing influences which in the corresponding month of last year had had a serious adverse effect on both traffic and revenues. Furthermore, the month contained one more working day than the same month of last year, May 1905 having had only four Sundays as against five Sundays in May 1904. The iron and steel trades, as is known, displayed a reactionary tendency, after the wonderful activity and growth of the months preceding, but of course, as compared with May 1904, when the steel industry was still in a state of great depression, the advantage was all in favor of the present year. Among the chief adverse features existing last year and with which the railroads did not have to contend the present year was the strike of the Masters and Pilots on vessels plying on the Great Lakes. Lake navigation had been late in opening any way in 1904, and this strike operated to tie up lake shipping almost completely. The effect was really guite widespread. It

THE CHRONICLE.

VOL. LXXX.

operated to check the shipments of coal over the roads to the Lower Lake ports; it served to cut off the ore shipments over the roads to the Upper Lake ports and it stopped the shipments of grain by lake vessels, and in this way deprived the great East-and-West trunk lines of much of the traffic that they get from the lake lines for transportation to the seaboard. The present season lake navigation has been entirely free from any extraneous influence of the kind. At this time in 1904 Colorado roads were also still suffering from the ore miners' strike. On the other hand there was one advantage which existed in May 1904 and did not exist in that month of 1905-we refer to the Louisiana Purchase Exposition, which increased passenger traffic last year over the roads running to or connecting with lines to St. Louis.

Our compilations cover, as is usual at this early date after the close of the month, only the roads which furnish prompt preliminary returns. On these roads the comparisons show an improvement of \$3,823,386, or 8.58 per cent, over the corresponding month last year. From what has been said above, it will have been gathered that in 1904 our early statement for May showed a loss. The loss then, however, was only \$1,866,181, or 3.44 per cent. Thus the present increase is more than double the 1904 decrease. Moreover, prior to 1904 May had shown exceptionally large gains-the improvement in May 1903 having been \$7,462,602, or 11.92 per cent, following \$4,619,627 gain, or 9.17 per cent, in 1902; \$5,236,185 gain, or 10.03 per cent, in May 1901, and \$4,934.647 gain, or 10.29 per cent, in May 1900. Obviously, there. fore, the 1905 earnings must be regarded as very large, even after allowing for the falling off sustained in 1904. In the following table we carry the comparison of the totals back to 1896.

As regards the Western live-stock movement the increase here was on the whole quite considerable. Taking the combined markets of Kansas City, Chicago, Omaha, St. Louis and St. Joseph, the receipts of cattle in May 1905 comprised 651,086 head against 558,693 head in May 1904, the receipts of hogs 1,460,371 head against 1,354,492 head, and the receipts of sheep 777,240 head against 573,369 head.

The Western grain movement was decidedly irregular. The receipts of corn fell off over 3,000,000 bushels, but on the other hand this loss was in part offset by increased deliveries of wheat, oats and barley. Combining the four cereals mentioned, with rye, the deliveries for the four weeks ending May 27 1905 foot up 22,412,964 bushels, as against 23,914,285 bushels for the corresponding four weeks of 1904. Below we give the details of the grain movement in our usual form.

Very naturally the improvement in earnings on the							
roads as a w	hole is :	effected	in the	returns	of the	e sepa-	
rate compani	rate companies, and there is a large list of roads distin-						

operations of the anthracite coal roads are included in this table.

It should be added that besides the favorable influences already noted, the railroads the present year, speaking of them as a whole, had the advantage of a heavy cotton movement and a larger live-stock movement, though the grain movement was smaller. At the Southern ports the receipts of cotton in May 1905 aggregated no less than 626,431 bales, as against only 100,727 bales in May 1904. Moreover the shipments overland were 103,953 bales, as against but 18,281 bales in May 1904. The cotton movement in detail at the Southern outports for the last three years is shown in the subjoined table.

Very naturally the improvement in earnings on the roads as a whole is reflected in the returns of the separate companies, and there is a large list of roads distinguished for very noteworthy increases. Nor are the gains merely a recovery of the losses sustained in 1904. The New York Central will serve for illustration as ro-

vealing the general trend. This system, whose figures cover simply the New York Central proper and not any of the controlled lines west of Buffalo, reports the present year a gain of no less than \$767,503. In 1904 the loss was only \$342,480. Or take another case-the Missonri Kansas & Texas records \$335,878 increase now, as against \$63,438 decrease in May last year. In the following we show all changes for the separate roads in excess of \$30,000, whether increases or decreases. As a matter of fact, there are only two decreases of this kind, namely the Illinois Central, which has lost \$152,-340 (following a loss, too, of \$249,231 in the same month last year), and the Grand Trunk of Canada, which has a loss of \$71,979.

-The Superintendent of Banking at Albany yesterday made the first call upon the trust companies of New York State for a statement of their condition under the Act approved by the Governor on April 22, by which the old law relative to reports of State banks was amended to include trust companies among the institutions required to furnish quarterly returns to the Superintendent of Banking. The reading of that portion of the old law relating to such quarterly statements was that "In the case of a bank or individual banker, the Superintendent shall, at least once in every three months, designate some day therein in respect to which the report shall be made." As amended, this provision now extends to trust companies. Under the present call a statement is requested of date June 7.

-It is reported that a membership in the New York Stock Exchange was transferred this week for a consideration of \$72,500.

-The Fifth Avenue Bank of New York on the 8th inst. declared a regular quarterly dividend of 25 per cent on the capital stock of the bank and also a special dividend of 120 per cent out of the earnings of 1903 and 1904. Both dividends will be payable July 1st 1905. Transfer books will be closed from June 23d at 12 m. until July 1st.

-The sale this week of the property at No. 1 Wall Street, this city, which has attracted considerable attention because of the high figure at which the transfer was effected, was made through the Mercantile Trust Company of St. Louis in the interest of a syndicate of St. Louis capitalists. The site is on the southeast corner of Broadway and Wall Street, and at the figure realized at the sale is considered the highestpriced piece of real estate in proportion to its size in the country. The plot is 30 feet by 39 feet 10 inches and the price paid was \$700,000, or \$598 20 per square foot. It is the intention of the new owners at some future date to erect a "sky-scraper" on the plot in keeping with its value and the importance of its location. The sale was made by the executors of the estate of the late Benjamin D. Silliman.

of Pittsburgh and the Mellon National Bank of that city, with both of which concerns Henry C. Frick is identified. The resignations were accepted by the respective boards on Monday.

-Henry C. Frick resigned on Thursday from the boards of two Philadelphia financial institutions with which James H. Hyde is connected, namely the Franklin National Bank and the Commercial Trust Company. Mr. Hyde is a Vice-President and a director of the latter institution and a director of the Bank. The vacancies occurring through Mr. Frick's resignation have not been filled. Mr. Frick gave press of business as his reason for resigning.

-Governor Lanham of Texas on May 26 signed the new State banking bill passed at the special session of the Legislature. The law gots into effect ninety days from May 13.

-A bill reducing the tax on Connecticut savings banks from $\frac{1}{4}$ of one per cent to 3-16 of one per cent, which had ocen tavorably reported by the Committee on Finance, was r-j-cted by a large majority in the House of Representatives of the Connecticut Legislature on Tuesday.

-The Guaranty Trust Co. of New York, 28 Nassau Street, has prepared an index to the *Mortgage Tax Law*, with the provisions briefly stated. It is a very timely publication, and the officials tell us they have had much call for the pamphlet. It may be had without charge on application.

-The Battery Park National Bank, 24 State Street, this olty, started business Nov. 21 1904, about six months ago, with a capital and surplus of \$800,000. Its deposits, which were \$315,262 on Jan. 11 1905 and \$459,390 March 14, increased to \$527,929 on May 29, the date of the last bank call. Since then the daily average of deposits has been \$544,000. Mr. E. A. De Lima is President and Mr. Elwin B. Day Cashier.

-The trustees of the Frankila Trust Company of Brooklyn on Wednesday elected Clinton W. Ludlum Secretary, to succeed the late Crowell Hadden Jr. Frederick W. Richt has been appointed to the office of Assistant Secretary, which Mr. Ludlum vacates.

-With a view to opening another branch, the North Side Bank of Brooklyn has leased a plot on the corner of Broadway and Lorimer Street, upon which a one-story building will be erected. It is expected that the proposed branch will be opened in the fall. The bank since July 1904 has been operating a branch at 710 Grand Street, Brooklyn.

-At a meeting on the 3d inst. the stockholders of the First National Bank of Albany, N. Y., voted to amend the bylaws so as to provide for the proposed increase in the number of directors from 11 to 20 members. It is believed that some of the additional directors for which places have been made will be elected at a meeting to be held a month hence.

-A bond department has been opened by the First National Bank of Utica, N. Y., with Assistant Cashier F. A, Bosworth in charge as Manager. In inaugurating the new department the bank not only displays its progressive spirit, but gains the distinction of being the first financial institution in Utica to include in its business such a feature. The bank has a capital of \$1,000,000 and combined surplus and profits of slightly over that amount.

-The Merchants' National Bank of Waterville, Maine, whose business has been absorbed by the Waterville Trust Company, was placed in voluntary liquidation on the 1st inst.

-Payne Whitney has been elected a director of the United States Trust Company of this city to replace the late Edward Cooper.

-As a result of the controversy in the Equitable Life As surance Society, James H. Hyde, its Vice-President, this week tendered his resignation as director of the Union Trust Co. -The National Newark Banking Company of Newark, N. J. (which is the oldest bank in New Jersey, having been in existence since 1804), in its new statement under the call of May 29 1905 shows deposits of nearly six millions of dollars - \$5,977,655. Surplus and undivided profits are reported at \$1,453,827 and total resources at \$3 481,186. Mr. Edward S. Campbeil is President, Messrs. David H. Merritt and Albert H. Baldwin, Vice-Presidents, and H. W. Tunis, Cashier.

-The recently organized Jefferson Trust Company, Jefferson and First streets, Hoboken, N. J, to which we have previously referred, opened for business June 1st. The new institution is Hoboken's fourth trust company and is located in a new but very busy section of the city, convenient to Jersey City, Jersey City Heights, Union Hill and West Hoboken. Its officers are: J. C. Gahagan, President; Leo Stein, First Vice-President; Charles H. Focht, Second Vice-President; H. C. Steneck, Treasurer and S. M. Moore, Secretary,

—In the month from April 29 to May 29 the Girard Trust Company of Philadelphia added almost \$142,000 to undivided profits, the amount having increased in that period from \$1,749,806 to \$1,891,624. A notable gain is also shown in the deposit account, the total on May 29 being \$33,144,618, against \$30,485,671 on April 29. The aggregate resources now of \$45,036,242 compare with \$42,242,654 the previous month.

-The Hamilton Trust Company of Philadelphia plans the erection of a new banking structure at the southeast corner of Fortleth and Market streets, lately purchased for the purpose. The building will be of the Italian renaissance type of architecture and of fireproof construction.

-The appointment of John W. Mink to the assistant cashiership of the Union National Bank of Philadelphia is announced.

-David E. Evans has been elected the successor of the late Charles W. Hatter as Vice-President of the Old Town National Bank of Baltimore, Md.

-The two most conspicuous architectural improvements in Columbas, Ohio, during the past year are the new bank buildings of the First National Bank and the Columbus Savings & Trust Company. These are situated on the opposite sides of High Street, the main business thoroughfare of the city, less than two blocks apart. The First National block is built of granite and pressed brick, is 10 stories in height and of striking architectural beauty. The bank occupies the entire first floor (which, in fact, embraces two stories), an area of 42x187 feet, and the interior fittings and decorations are beautiful and tasteful. The Italian marble counters are surmounted by handsome brass work, with which the cherry woodwork and the floor mosiacs fitly harmonize. The safety vaults and all other appliances about the bank are of the latest patterns. The investment in ground and building is over a quarter of a million dollars. In addition to its large commercial business, the First National of Columbus has built up an extensive trade in high-grade investment bonds in all parts of the country. Charles R. Mayers has for years been its President.

The new building of the Columbus Savings & Trust Company is much larger than that of the First National Bank, its dimensions being 62 feet on High Street by 188 feet on Long Street. It is twelve stories in height and of the most modern type of steel construction; the exterior of the lower portion is brownstone, of the middle portion pressed brick and of the upper portion artistic terra-cotta. All above the first two stories (occupied by the bank) will be used for offices. The cost of the ground was \$250,000 and of the building when completed will be \$500,000 more. As noted May 20, the stockholders at a recent meeting voted to increase the capital stock of the company \$500,000 (making \$1,000,000 total), practically to cover the cost of new building. An elaborate book descriptive of the new structure is issued by the company. The bank expects to occupy its new quarters early in July. The roster of officers is now: I. B. Cameron, President; H. M. Daugherty and C. M. Wambaugh, Vice-Presidents, and H. W. Backhus, Secretary and Treasurer.

-The application to convert the City Deposit Banking Company of Columbus, Ohio, into the City National Bank received the approval of the Comptroller at Washington on May 31. As a national bank the institution will have a capital of \$300,000 instead of \$500,000 as at present. The stockholders will on the 12th inst. formally act in the matter of the bank's conversion to the national system.

-Depositors and creditors of the failed Canton State Bank of Canton, Ohio, have commenced suit to enforce the stockholders' liability. The payment of the unpaid 40 per cent on each share and the enforcement of the double-liability law is asked in the petition. The bank had an authorized capital of \$300,000, of which 60 per cent (\$180,000) was paid in.

-The executive council of the Indiana Bankers' Association has fixed upon October 11 and 12 as the dates for the annual convention, which is to be held in Indianapolis.

-The changes in the officers of the American Trust & Savings Bank of Chicago incident to the consolidation with the Federal Trust & Savings Bank were made at a meeting of the directors this week. The staff is now as follows : President, E. A. Potter; Vice-Presidents, T. P. Phillips, J. R. Chapman and John Jay Abbott; Cashier, Charles S. Castle; Assistant Cashiers, F. J. Scheidenheim, O. C. Decker and E. L. Wagner; Secretary, Frank H. Jones; Assistant Secretaries, W. P. Kopf and Irving J. Shuart. The following former directors of the Federal are now on the board of the American: E. H. Gary, E. J. Buffington, Norman B. Ream and T. P. Phillips. Nathan G Moore, Honorary Vice-President of the Federal, and Joy Morton, Honorary Vice-President of the American, have retired. Three directors of the American, namely A. Montgomery Ward, Charles T. Trego and F. W. Peck, have also resigned.

-In the official bank statements of May 29, as compared with those of March 14, the Chicago National Bank shows a gain in deposits of \$4,400,000; the National Bank of the Republic, Chicago, three quarters of a million, and the Hamilton National, Chicago, a half-million. That prodigions infant of the Chicago First National Bank, viz., the First Trust & Savings Bank, made a gain of nearly \$2,000,000 deposits for the three months, the aggregate May 29th being \$20,584,000. The American Trust & Savings Bank shows increased deposits of nearly \$8,000,000, but this is owing to the absorption during the past month of the Federal Trust & Savings Bank.

-At the annual election of the Chicago Stock Exchange on Monday, Benjamin R. Cahn was elected President for the ensuing year, succeeding Granger Farwell; John J. Mitchell has been re-elected Treasurer; Sidney C. Love, Alfred L. Baker, Charles C. Adsit, Robert Pringle, Granger Farwell and Charles B. Eggleston have been elected members of the Governing Committee to serve three years; J. W. H rton, the member of the Governing Committee to serve two years, and Solomon Sturges (Cnairman), S. R. Jewett, George H. High, Walter S. Brewster and A O. Sianghter Jr constitute the Nominating Committee to serve one year.

-Articles of incorporation for the Standard Trust Company of Omaha, Neb., have been filed. The institution is capitalized at \$100,000. It will open on July 5 and will conduct a regular trust company business. E. F. Pumphrey is to be the President; J. H. Conrad, Vice-President, and E. M. Martin, Secretary.

-In submitting its statement under the last Comptroller's call (May 29), the First National Bank of Omaha contrasts the deposits on that date with those recorded in Ostober in the years 1904, 1903, 1893, 1883, 1873 and 1864. The deposits now verge closely on the ten-million-dollar mark, the amount on the 29th ult, being \$9 800 474. Tois compares with \$8,547,386 on October 1 last, \$7,709,891 Ostober 1 1903, \$3,034,886 on October 2 1893, \$2,651,265 October 1 1883, \$1,122,-935 on the same date in 1873 and but \$16,914 on Ostober 3 1864. The bank has a capital of \$500,000 and combined surplus and undivided profits of \$329,358. Herman Kountze is President of the institution and F. H. Davis the Cashier.

-A consolidation of two Youngstown, Ohio, banking institutions is planned—the Dollar Savings & Trust Company, oapital \$1.(00,000, and the Wick National Bank, capital \$500,000. The merger will be consummated under the firstnamed title, the capital of the institution being increased to \$2,000,000. It is expected that A. E. Adams, President of the Dollar Savings & Trust, will head the list of officers of the enlarged bank.

-The stockholders of the Commercial National Bank of Zanesville, Ohio, on the 1st inst. authorized the voluntary liquidation of the institution, effective on the 5th inst. The bank has been absorbed by the Security Trust & Savings Company of Zanesville.

-At a special meeting on June 24 the stockholders of the First National Bank of Deadwood, South Dakota, will act on the proposition to increase the capital from \$100,000 to \$150,000, and on an amendment to the articles of association providing for an addition of six members to the board, making the total number eleven. D. A. MaPherson is Cashier of the bank.

- Edwin W. Zea, recently elected Cashier of the Union National Bank of Kansas City, Mo., entered upon his new duties on the 23d ult. Mr. Zea is said to be one of the largest stock owners of the bank and in the cashiership succeeds C. H. V. Lewis, who retired on account of iii-health. -In its statement for May 29th the Mercantile Trust Company of St. Louis reports deposits of \$17,585,386, representing an addition of almost $1\frac{1}{3}$ million dollars in two-and-a-half months, the figures on March 14 having been \$16,265,061. The latest report shows the company's aggregate resources to be \$27,737,400, as compared with \$26,\$74,913 on the earlier date. The distribution of an extra spring dividend of \$4 per share on the institution's \$3,000,000 capital was referred to in this department last week, as well as the reservation out of undivided profits for the extra Christmas dividend of the same amount. The company, after providing for both these disbursements, has surplus and undivided profits of \$6,708,501.

-The liquidation of the Mechanics' National Bank of St. Lonis, Mo., went into effect on May 28 As noted heretofore, the bank consolidated with the American Exchange National Bank, also in process of liquidation, forming the Mechanics'-American National Bank of St. Louis.

-The Bankers' Trust Company of Memphis opened its doors for business on Monday, the 5th inst., and had a most encouraging beginning. This company, in its organization, is patterned somewhat after the Bankers' Trust of New York, in having the names of bankers principally on its directorate. Its anthorized capital is \$1,000,000, most of which has been subscribed and paid. R. F. Fant, a prominent lawyer of Memphis, is President; First Vice-President, R. E. Lee Wilson, an Arkansas capitalist; Second Vice-President, E. C. Chapman of Columbus, Miss.; Third Vice-President, J. N. Parker, who was formerly President of the Citizens' Bank of Dyersburg, Tenn.; Cashier, George T. Webb, for five years President of the Whiteville (Tenn.) Savings Bank; Assistant Cashiers, L. C. Dodson and E. S. Atkinson. Henry C. Meyers is Manager of the bond and trust department.

-The Knoxville (Tenn.) Banking Company has recently purchased one of the finest business corners in that city—the southeast corner of Gay and Clinch streets—upon which it is contemplated to erect during the summer and fall an attractive six-story office and bank building, the ground floor being for its own use and that of an affiliated trust company, to be organized by interests closely connected with the bank. The architectural plans of this new building promise one of the most ornamental structures in the city, admirably adapted in every way to the requirements of the financial institutions which will be its principal occupants.

-In the immediate vicinity of the proposed new building of the Knoxville Banking Company the old Mechanics' National Bank intends to build during the next six months a new home for itself—a massive, ten-story office structure the plans of which are now in the hards of contractors for bids. The old bank building of the Mechanics will be torn down and the new one erected on the same site. There has been allotted for the cost of the structure \$200,000, besides the value of the lot.

-The East Tennessee National Bank of Knoxville is also possessed with the desire for improvement that seems to permeate all business circles in that thriving city in the 'Land of the Sky." There has been set aside \$50,000 by its directors to enlarge and thoroughly reconstruct its banking office. The enlarged quarters will be 30 by 180 feet and fitted up with all modern banking appliances and conveniences, including extensive and costly safety deposit vaults. The work of reconstruction will be fully accomplished during the summer months.

-An amendment to the charter of the Fidelity Trast

Savings Bark & Trust Company of Birmingham, is President and Mr. J. D. Dabney Jr. is Cashier.

-The stockholders of the Provident Bank & Trust Company of New Orleans on May 31 ratified the proposition to consolidate their institution with the Canal Bank & Trust Company. Similar action had previously been taken by the stockholders of the latter. As was stated in these columns April 22, when particulars regarding the union were given, 'he Provident will lose its identity through the consolidation, and will exist only as the saving department of the Canal. A banque, given by the directors of the Provident Bank to the stockholders, employees and others, followed the shareholders' meeting held on the 81st ult.

-The stockholders of the Trust Company of Dallas at Dallas, Texas, lately voted to increase the capital from \$100,000 to \$200,000. While it is said to be the intention of the company to take advantage of the new banking and trust law, it will not, according to local advices, engage in a commercial banking business.

-The Security Savings Bank & Trust Company is undergoing organization in San Diego, Cal., with \$125,000 capital. Those interested are said to be George W. Marston, John D. Spreckels, I. W. Hellman, Grabam Babcock, V. E. Shaw, W. Clayton, H. L. Titus, R M. Gowers, M. A. Campbell, Daniel Meyer, J. S. Cravens, W. C. Patterson and R. J. Waters.

-The death is announced of Alexander R. Metcalfe, President of the First National Bank of Pasadena, Cal. Mr. Metcalfe was also counsel for the Pacific Electric Ry. Co., Vice-President of the California Portland Cement Co., a director of the Pasadena Savings & Trust Company and associated with other important enterprises. He was about fifty years of age.

MonetaryfCommercialEnglishDews

[From our own correspondent.]

LONDON, Saturday, May 27, 1905.

Business in the stock markets has, if possible, been more stagnant than ever this week, and the Continental bourses have been practically as lifeless as the London Stock Exchange. The first immediate cause, no doubt, is the fall in New York. People in Europe had come to the conclusion that the prosperity of the United States was so great and the prospect of good crops was so promising that in spite of somewhat reckless speculation the setback would not last long or go far. It has lasted longer than people were prepared for and there is, in consequence, much discouragement. Perhaps the discouragement would be much less and a more reasonable view of what has happened in New York would be taken were it not for the uncertainty respecting affairs in the Far East.

There is a report once more beginning to circulate that negotiations are about to be opened for raising another Russian loan in Paris. In Paris the rumor is quite disbelieved. It is said that the syndicate which brought out former loans has definitely decided not to raise another loan for Russia until peace is made. In Germany and Holland, however, it is thought possible that other groups of bankers may decide to bring out the loan. Whether they will be able to succeed remains to be seen.

Meantime there is a nervous feeling in Paris. It was believed a week ago that the Moroccan incident had practically been settled. It is now found that the belief was unfounded; that the German mission to Fez is acting so as to make all sorts of difficulties for France. Moreover, the vegotiations going on between this country, France and Italy for the settlement of all the difficulties between them in Abyssinia are displeasing to Germany. It is said that France will not communicate to Germany officially the result of the negotiations, just as she did not communicate the result of the Anglo-French arrangement. Germany, in consequence, is offended, and in Paris it is feared that the relations between the two countries will become further strained. Beyond this there is, of course, grave uneasiness lest the Russians should be defeated by land and sea, and, in consequence, there should be renewed disturbances in Russia. In consequence of all this there has been during the week constant selling in this market on French account. Particularly

Company of Louisville, Ky., creating the office of Chairman of the board, has been recommended to the stockholders by the directors. Under the proposed arrangement it is stated that John Stifes, the present executive, will be given the new office; John W. Barr, First Vice President, will be made President, and John T. Malone, Second Vice-President, will become First Vice President.

-The Comptroller of the Currency on May 81 approved the application to organize the American National Bank of Chat_ tanooga with \$250,000 capital. The officials of the Bank of Chattanooga are the promoters of the new enterprise.

-The Commercial State Bank of Birmingham, Ala., lately organized by the younger business men of the city, opened for business June 1 with a paid-up capital stock of \$100,000. John D. Elliott, formerly Cashier of the People's there has been heavy selling of Sonth African gold chares. In Berlin there is, of course, less anxiety than in France. Still there is almost equal disinclination to engage in new risks. Everybody appears determined to wait and see what will be the result of the expected battles on land and sea.

A week or two ago when the apprehensions raised by the Moroccan incident were being allayed, the French banks, which had been reducing the balances they were employing in London on a very large scale previously, discontinued doing so, and indeed began to increase those balances. This week they have again stopped increasing their balances and the Paris exchange upon London has moved somewhat downwards, from which there is a doubt whether the French banks may not once more begin to withdraw balances from London. Everything, of course, will depend upon whether the anxieties in Paris increase or not. Since the Paris exchange upon London recovered, a couple of weeks ago, all the gold offering in the open market in London has gone into the Bank of England. There is a very considerable amount on the way, and it is expected that the whole of that will likewise go into the Bank of England. Should there be a scare in Paris, Paris might compete for gold. Otherwise all of it will go into the Bank of England, for no other country is in a position to take gold. In fact, the money markets of the whole of Europe are so fully supplied with funds and rates are so very low that there is no object in taking gold. Unless, then, there should be a renewai of apprehension in Paris sufficiently strong to make the banks think it wise to increase their reserves, money seems likely to become plentiful and cheap. Just now, as the end of the month is approaching, there has been some little rise in the rates of interest and dis count; but that will end in the middle of next week, and throughout June there is every probablility that money will be cheap unless, of course, something entirely unforescen happens,

The India Council offered for tender on Wednesday 3) lace of drafts and the applications amounted to 298 lacs at prices ranging from 1s. 3 15-16d, to 1s. 4d, per rupee. Applicants for bills at 1s. 8 31-82d, and for telegraphic transfers at 1s. 4d. per rupee were allotted about 14 per cent of the amounts applied for.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c. compared with the last three years:

WALL STREET, FRIDAY, JUNE 9, 1905.-5 P. M. The Money Market and Finascial Situation.-Influences tending to restrict the volume of business in Wall Street have again been effective this week, the transactions in stocks having been the smallest since the week ending Angust 6th last year. As this is the first entire week when the new law taxing the transfer of shares has been in force, a considerable part of the reduction is readily traceable to that source. An action has been instituted to test the constitutionality of the law, but pending a decision of the matter it will no doubt continue to restrict operations at the Stock Exchange.

On the other hand there have been influences tending in the opposite direction. There is a stronger hope, freely discussed, that peace negotiations may soon be considered by the belligerents in the Far East. Weather conditions and crop reports are decidedly more favorable, and, as is well known, the crop situation is an increasingly dominant factor in Wall Street affairs. In this connection in Wall Street affairs. In this connection it is interesting to note that while the transactions in stocks have decreased day by day to the smallest of the year, activity in the bond market has as steadily increased and the market has had a

broadening tendency. The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2 to 3 p. c. To-day's rates on call were $2\frac{1}{2}a2\frac{3}{4}$ p. c. Prime commercial paper quoted at 31/2 @4 p. c. for endorsements and for best single names.

The Bank of England weekly statement on Thursday showed an increase in bullion of £387,238 and the percent-age of reserve to liabilities was 50.02, against 50.32 last week, the discount rate remaining unchanged at 2½ per cent. The Bank of France shows an increase of 775,000 francs in gold and 1,800,000 francs in silver.

The New York City Clearing-House banks in their statement of June 3 showed a decrease in the reserve held of \$10,078,400 and a surplus over the required reserve of \$6,050,275, against \$11,465 800 the previous week.

	1905 June 3	Differences Irom previous week	1904 June 4	1903 June 6					
Capital	\$ 115,972,700		\$ 115,972,700

Reserve held 25 p. c. of deposits	290,169,700	Dec 10,078,400 Dec 4,662,875	306.460.600	229,431,900					
Surplus reserve		Dec 5,415,525		224,656,250					

* \$12,768,500 United States deposits included, against \$12,752,400 last week and \$23,380,500 the corresponding week of 1904. With these United States deposits eliminated, the surplus reserve would be \$9,242,400 on June 3 and \$14,653,900 on May 27. NOTE.—Returns of separate banks appear on the preceding page.

Foreign Exchange.-The market for foreign exchange was estremely dull this week and fluctuations were within

a very narrow range. To-day's (Friday's) nominal rates for sterling exchange were 4 851/ @4 86 for sixty day and 4 871/2@4 88 for sight. Towere $485\frac{1}{6}(a4\,86$ for sixty day and $487\frac{1}{6}(a4\,88$ for sight. To-day's (Friday's) actual rates for sterling exchange were $48505\ a4\,8510$ for long, $48695(a4\,87)$ for short and 48725(a)48735 for cables. Commercial on banks, $48480(a4\,8490)$, and documents for payment, $481\frac{1}{6}(a4\,85\frac{1}{4})$. Cotton for payment, $484\frac{1}{6}\ a4\,84\frac{1}{4}$; cotton for acceptance, $48480(a4\,8490)$, and grain for payment, $485\frac{1}{6}(a4\,85\frac{1}{4})$. To-day's (Friday's) actual rates for Paris bankers' franes were $518\frac{1}{6}\frac{1}{6}$ for long and $516\frac{1}{6}\frac{1}{6}\frac{1}{6}$ for short. Germany bankers' marks were $94\,13\cdot16(a)4\frac{1}{6}\frac{1}{6}$ for long and $95\frac{1}{6}\frac{1}{6}a95\frac{1}{6}$ for short. Amsterdam bankers' guilders were $40\frac{1}{4}$ (($a40\frac{1}{4}$) for short. Exchange at Paris on London to-day, 25 f. $18\frac{1}{6}$ c; week's

Exchange at Paris on London to-day, 25 f. 18½c.; week's range, 25 f. 19c. high and 25 f. 18½c. low.

The market for other bonds has been generally firm and the transactions were relatively large towards the end of the week Japanese issues continue prominent, although the list of railway and industrial bonds traded in is a long one. Central of Georgia issues have been strong features, the 2d incomes having advanced 3½ points. Rock Island bonds are als, higher on a better demand Northern Pa-cific 3s are nearly a point higher, although Union Pacific convertible 4s have declined over a point. Other changes in the active list are less important. the active list are less important,

United States Bonds .- Sales of Government Bonds at the Board include \$2,000 3s, coup., 1908-18, at 104 to 10434; \$3,000 3s, reg, 1908-18, at 10334, and \$2,000 4s, reg., 1907, at 104. The following are the daily closing quotations; for yearly range see third page follouing.

* This is the price bid at the morning board; no sale was made.

Railroad and Miscellaseous Stocks - The stock market has been generally firm on a volume of business so small that one must go back many months in the record to find its counterpart. On the most active day only 485,400 shares were t aded in and 'rom this the transactions gradually diminished to about 186,000 to-day. There have been few special features and almost no

change in the general characteristics of the market. The local transportation stocks have continued strong and the Southern group, led by Atlantic Coast Line, moved up Southern group, led by Atlantic Coast Line, moved up rather sharply during the latter part of the week. Northern Pacific has covered a range of 4 points, closing with a frac-tional net gain. Chicago & Alton also advanced nearly 3 points on sales of a few shares. Union Pacific and Reading have been the most active railway is ues, fluctuating nar-rowly and closing without material change. Amalgamated Copper has been the most active stock throughout the week. It declined nearly 7 points on the issuance of its annual report but recovered about half the loss The United States Steel issues are fractionally higher

loss The United States Steel issues are fractionally higher on relatively liberal transactions. American Sugar Refining has advanced over a point on bids which brought out only a few shares.

For aany volume of business see page 2389.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow.

Ontside Market -- Conditions in the market for unlisted securities this week have shown no improvement. Trading has continued more or less languid, and, outside of a few prominent issues, price fluctuations have been narrow and unimportant. Chicago Subway was one of the few stocks that displayed animation; these shares advanced from $70\frac{1}{8}$ to $73\frac{1}{2}$ in the early part of the week, then fell to $66\frac{1}{2}$ and later recovered to 72; the close to-day was at $71\frac{3}{4}$. Northern Securities stock is gradually disappearing from the market; only about 2,500 shares changed hands during the week; the price ranged price ranged from 1611% to 164, and closes to day at 163; the "stubs" moved irregularly between 250 and 275, and ended the week at 26216. Interborough Rapid Fransit, after a decline of 11/2 points to 199, advanced sharply to 205 on the announcement of an increase in the dividend rate; the final sale to-day was at 204. Fethlehem Steel common was strong the price advancing from 29¼ to 315% New York Transporta-tion rose 34 to 834. Standard Oil gained 2½ points to 606½ and ends the week at 606. United tates Leather, or entral Leather, as the new stock will be called, displayed considerable strength; the common moved up from 391% to 411/2 and closes to-day at 41; the preferred rose 2 points to 101, british olumbia Copper advanced from 73% to 8, but later fell to 7; the last sale to-day was at $7\frac{1}{8}$. Greene Consoli-dated Gold sank from $5\frac{3}{4}$ to $4\frac{7}{8}$. Greene Consolidated op-per fluctuated between $23\frac{1}{8}$ and $24\frac{1}{2}$; the close to-day was at 231/4. Outside quotations will be found on page 2389,

The following were the rates for domestic exchange on New York at the under-mentioned cities to-day : Savannah, buying 50c. per \$1,000 discount; selling 75c. per \$1,000 pre-mium: Charleston, 121/3c. per \$1,000 premium; New Orleans, bank, 50c. per \$1,000 discount; commercial, 75c. per \$1,000 discount; Chicago, par; St. Louis, 30c. per \$1,000 premium; San Francisco, 40c. per \$1,000 premium.

State and Railroad Bonds .- Sales of State bonds at the Board include \$16,000 Virginia fund. debt 2-3s at 973% and \$5,000 Virginia deferred trust receipts at 11½.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from **July 1** to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the street railways are brought together separately on a subsequent page.

Spanish silver.

These are results for properties owned. a Decrease due to a strike and boycott.

b These are the combined earnings of all the constituent companies. c These are results for main line.

d Figures here are from July 1. n These earnings include the Detroit United Ry., Detroit & Port Huron Shore Line and the Sandwich Windsor & Amberstourg Ry e Decrease due to the fact that the Louisiana Parchase Exposition was open last year.

Street Bailway Net Earnings .- The following table gives the returns of STREET railway gross and net earnings received this week. The last general summary which we furnish once a month, and in which we bring together all the roads from which monthly returns can be procured, was given May 27, the next will be given June 24.

ANNUAL REPORTS.

Annual Reports.—The following is an index to all annual reports of steam railroads, street railways and miscellaneous companies which have been published since the last editions of the RAILWAY AND INDUSTRIAL and STREET RAILWAY Sections. Full index for last quarter was in V. 80, p 1475. This index does not include reports in to-day's CHRONICLE

pecially in the electrical field, that the most experienced observers of the market were of the opinion that the price of the metal would not again fall under 14 cents a pound, nutil new and extensive sources of supply were developed, of which there was then no present indication. Mr. Marons Daly was the first President, but unfortunately his health b came seriously impaired, preventing him from taking any active part in the management, and his death occurred in the second year of he company's existence.

In 1901 the authorized capital stock was increased to \$ 55,000,000. and the new stock was issued for that of the Boston & Montana and the Butte & Boston companies. This has proved to be a very advan-

and the new stock was issued for that of the Boston & Montana and the Butte & Boston companies. This has proved to be a very advan-tageous investment. DIVIDEND RECORD.—During the last eight months of 1899 and throughout 1900 the company was able to sell its product at over 16 cents per pound. Dividends at the rate of 1 b p. c. regular and b p.c. extra were paid quarterly from October, 1899. to October, 1901, when the rate was made 1 b p. c. for the quarter. In January, 1902, a divi-dend of one per cent for the previous quarter was paid, and from May, 1902, to January, 1905, quarterly dividends of one-half of one p. c. were paid In Jav uary, 1905, the dividend rate was increased to one per cent. The average rate of dividend for the total period from Oc-tob-r. 1899. to June, 1905, has been 37g p. c per aunum. New SMELTER —In 1901 and 1902 a new concentrating and smelt-ing plant was erected at Anaconda at a cost of over \$3,000,000. This is now the most complete and up-to-date copper reduction works in existence, and i has effected great savings in the cost of production. At these works are treated the ores of the Anaconda, Washoe. Parrot, Colorado and Batte & Boston mixing companies. The ores of the Bos-ton & M utana Co, are treated at its own smelter in Great Fails. LITIGATION – The state of affairs in recard to litigatioo during the last few years in some of the District courts of Montana has been de-plorable. The so-calle "law of the apex" passed by Congress in 1872 gives the right, under certain conditions and within certain limits, to follow a vein from its apex into adjuining ground. This law has given rise to a vast amount of litigation; as under it the owner of a property adjoining a rich mine, even if he has no vaild claim, may assert ownership in the ore of the latter. The companies controlled wholy or in part by the Amalgamated Co, have been haves had to contend constantly with this and other litigation to preserve their existence. The heavy expenses incurred in this litigation, and the cost of bu igation of this nature on an enormous scale and have had to contend constantly with this and other litigation to preserve their existence. The heavy expenses incurred in this litigation, and the cost of build-ing the new reduction works, opening and developing new coal mines, and making settlements for damage claims, have been paid entirely out of the earnings. Matters in Montana are now in much better condition. The Supreme Court has passed upon the legality of the company's standing in that State, and the "fair trial bill" prevents the hearing of cases by district judges against whom prejudice or bias can be shown. blas can he shown.

the hearing of cases by district judges against whom prejudice or blas can he shown. PROPERTIES OWNED AND CONTROLLED.—The company owns the entire stock of the Washoe Copper Co., the Colorado Smelting (now the Trenton Mining & Development) Co. and the Big Blackfoot Mill ing Co., all but a few shares of the Boston & Montana and Butte & Boston companies, and a majority interest in the Anaconda and Par-rot companies. The Big Blackfoot Milling Co. owne more than one million acres of timber lands (npon which there is essimated to be over four billion feet of standing timber) and sawmills turning out 85,000,000 feet of lumber per annum. The company also owns all the stock of the Dlamondville Coal & Coke Co., which mines and ships 600,000 tons of coal per annum; and its mines in Wyoming are esti-mated by experts to contain an available supply of 73,500,000 tone. The company, through its ownership of all the Washoe Copper Co. stock, holds ',900 acres of the Bear Creek coal lands in the vicinity of Red Lodge. Mont, and also all the coking coal property at Storre, Mont, now under development, as well as a controlling interest in the Cokedale Coal Co, owning coal lands and a plant which is equipped with 100 coking ovens. The company's coal lands at Beit, Mon-tona, are mined and shipped 375,000 tons of coal per annum, and coal experte estimate that there still remain 3,100,000 tons of available supply. The Anaconda Co. also owns a hotel in Anaconda and one in Han ilton, and has a very large interest in the stock of the Butte, An-aconda. It also owne 27,000 acres of timber lands. Its asawmills in Hamilton, Mont, turn out 30,000,000 feet of umoer annually. The principal asset of the company consists in the ownership, through the companies above mentioned, of o pper mines, the value of which is largely dependent upon the duration of their productive-ness. The mines look as well at the present time as at any period of the company's existence, and there are no indications that they have not a long productive life before the

the company sensitience, and there are no indications that they have not a long productive life before them. Excitative, however, of the said copper mines, the assets of the com-pany (consisting of timber lands, coal mines, reduction works, saw-mille, railways, real estate, buildings, copper and cash) controlled through the ownership of other companies are of vers great value, ex-ceeding, in the opinion of experts in whom the officiens have entire confidence, \$50,000,000 over all liabilities of the company. OPERATIONS - The company, directly or indirectly, employs in Mon-tana 12,000 men and expends annually for wages \$14,000,000. The companies owned wholly or in part by the Amaigamated Com-pany produced in 1904 252,000,000 pounds of refined copper (includ-ing only a small amount from enstom ore). Of this amount the Amai-gamated Company received the benefit from 202,000,000 pounds, which is about 25 p c. of the total production of the United States. As the outstanding capital stock of the company is \$153,887,900, each pound of copper produced is capitalized at 76 cents per pound, with-out taking into consideration any earnings from other sources than mining. The Calumet & Heola Co's stock, selling at a market valua-tion of about \$64,0,0,000 and producing annually \$0,0,0,000 pounds of copper, has a market capitalization of 80 cents per cound of copper produced, and the Rio Tinto Co. has a market capitalization of \$1.56 per pound produced.

producted, and the Kio Thito Co. has a market capitalization of \$1 50 per pound produced. A fluctuation in the price received for the product of one year be-tween 11.70 cents and 16.50 cents per pound (the highest and lowest prices during the past five years) means a difference to a copper com-pany of the magnitude of the Amaigamated Co. of \$9,700,000 in an-nual net earnings, or over 6 p. c. on the capital stock. At the present time the status of the company and the position of the most perfect one more catieffectory then at any time since the the mo al market are more satisfactory than at any time since the early part of 1901.

Amalgamated Copper Company.

(Statement of June, 1905, with Balance Sheet of Apr. 29, '05)

At a meeting of the board of directors in June, 1905, Secretary A. H Melin was authorized to issue to the stock. holders the following statement, together with the condensed balance sheet of the company as of April 29, 1905:

ORGANIZATION. - The company was organized in April, 1899, with a capital stock of \$75,000,000. For three months prior thereto copper was selling at between 16 and 17 cents a pound, and there was no accommission of stocks in the hands of the producers. Scarcely any new discoveries of copper had been made in the United States for sev-eral years, and the uses of the metal were so rapidly increasing, eseral years, and the uses of the metal were so rapidly increasing, esCONDENSED BALANCE SHEET OF THE AMALGAMATED COPPER CO. CERTIFICATE OF POGSON, PELOUBET & CO., AUDITORS.

"We have examined the books and accounts of the Amalgamaied Copper Co. for the six years ending April 29, 1905, and have verified the assets and liabilities shown above. We hereby certify that the foregoing balance cheet correctly thows the financial condition of the company on April 29, 1905. "We have also examined into the affairs of the companies in which the Amalgamated Copper Co. owns stock and have verified the fact that all dividends received therefrom by the Amalgamated Copper Co.

have been paid out of current net earnings, after making ample provision for depreciation, dismantlements, depletion of coal and timber lands and the adjustment of copper on haud to cost."—V. 80, p. 2221,

United Copper Co.

(Report for the Fiscal Year ending May 31, 1905.)

President F. Augustus Heinze says,

President F. Augustus Helpze says, STATUS — While during the past three or four years the companies controlled by you have anfi-red a great diminution of their normal operating profits, due to controversies with business competitors, in-volving not only litigation in the courts but even practical interfer-ence in the operation of your properties, such as the blowing up of your underground stopes and your mining shafts with dynamite, we are glad to report that coullions recently have become much more satisfactory. The contending factions having reached amutual under-standing, which has resulted in a cessation of controversies under-ground, enables your mining foremen and other employees to devote their entire energies to making profits for the stockholders. Orders have been recently placed for compressors, increasing your present capacity by 40 per cent. The smelter is also undergoing en largement, and it is confidently expected your product for the next fiscal year will reach 50,000,000 pounds.

LITIGATION.—The recent decision of the Supreme Court in the Min-nie Healy case has now finally and irrevocably settled the question of this title favorably to your interests. There is no appeal from the Supreme Court of the State in this controversy. The ore bodies ex-posed in the Minnie Healy and available for in mediate extraction are among the largest over discovered in the Butte mining district, and in grade compare favorably with the best ore bodies of the Boston & Montana Consolidated Copper & Silver Mining Co., of which they are

extensions. This decision of the court of final resort is in line with every previ-cue final decision by the same tribunal in controversies between the Amalgamated subsidiary companies and your own, sustaining the po-sition of your management as to your rights in most of these contro-

The United States Court, in its recent decision graving an injunc-tion against the Parrot Company in the controversy with the Nipper Consolidated Copper Co., has also sustained the position of your man-agement that the title to the ore bodies extracted by the Parrot Co. is at least doubiful.

American (Bell) Telephone & Telegraph Co.

(Reports of Sub-Companies for Calendar Year 1904.)

Below will be found the reports of the several sub-companies which issue printed annual statements. These companies are all controlled by the American Telephone & Tele-graph Co through ownership of a majority of their issues of capital stock, except the Southern New Eigland Telephone Co., in which only a minority interest is held. The proportion of the share capital owned in each case, together with a description of the ontstanding securities, will be found in V. 76, p 596; also see V. 69, p. 1149; V. 73, p. 446; V. 80, p. 1978 and 1731.

BELL TELEPHONE CO. OF PHILADELPHIA.

There has been a gratifying increase in the number of patrons of your company and its controlled and sub-licensed companies in all parts of the territory. The extent of this growth is shown by the fol-lowing figures: Stations in service Jan. 1, 1904, 67,268; net gain in stat ons for the year, 15,229; stations in service Jan. 1, 1905, 82,4 97. New stock to the par value of \$1,065,400 was issued during the year. Of the stock heretofore authorized, 40,000 shares (par value \$2,000, 000) remain unissued.

COMPARATIVE STATEMENT.

1904.

196,357

82,497 {

CENTRAL DISTRICT & PRINTING TELEGRAPH (BELL TELEPHONE) Co., PITTSBURGH, PA.

The report gives the following information :

During the year toll stations were established in 39 additional towns, making a total at the close of the year of 980 cities and towns in which stations are operated. There was expended during the year \$657,881 for real estate and for extensions to the plant. To care for these and similar expenditures contemplated for the year 1905, we contemplate offering to the shareholders some amount of new stock.

CENTRAL UNION (BELL) TELEPHONE CO.

No report has been received since that for 1803, in V. 78, p. 341.

CHESAPEAKE & POTOMAC (BELL) TELEPHONE CO.

The report, signed by President U. N. Bethell, says:

The report, signed by President U. N. Betheil, says: Construction.—The additions to construction account have aggre-gated #884.884, viz.: Exchange aerial, \$88,269; underground con-duits, \$39,005; underground cables. \$143,114; equipment, \$488,282; toll lives, \$35,212. The work of reconstructing and enlarging the plant in Washington has progressed satisfactorily; a loss of \$60,000, incident to the abandonment of magneto apparatus, has been charged to surplus earnings accrued during previous years. The company has largely extended its underground line plant, and, as required by Con-gress, has removed its pulse and overhead wires from the streets and avenues in a large section of the city. RATES.—In April, 1904, Congress enacted a law fixing rates for certain classes of service at private residences and for the official use of the District of Columbia, and at the same time republed the 'tele-phone rate law of 1898. The litigation growing out of the law of 1898 was tatisfactorily disposed of during the year. A loss of \$2,589 in uncollectible accounts, incident to this litigation, was charged to surplus earnings of previous years. Upon the ensement of the rate law of 1904 your directors decided to comply with it, believing that Congress would afford relief if the law proved to be unjust. THE.—The Baltimore confliggration of February 7.8 resulted in a serious loss to the company. Out of about '5,000 telephones in Baltimore some 7,500 served by the St. Paul Central Office (3,000 of them in burned district) were put out of service. The loss above insurance incident to this fire amounted to \$145,642, which was charged to surplus earnings of previous years. (Compare V. 78, p. 1547.) It will be necessary in the near future to establish a central office of large dimensions in the St. Paul Building or elsewhere in the burned district.

CUMBERLAND TELEPHONE & TELEGRAPH CO.

President James E. Caldwell says in part:

ADDITIONS. Thirty new exchanges were equipped and opened dur-ing the year. The net gain in subscribers was 17,569, making the total at the close of business Dec. 31, 1904, 121,313 subscribers, covering the greater part of six States-an area of 1,000 miles long by 400 wide.

400 wide. FAVORABLE DECISION.—The case decided by the local Chancellor at Nashville in May, 1904, has been decided unautmously in our favor by the Court of Appeals, which says: "We find that the allegations in the bill that the defendant company's charges were upr-asonable and extortionate are not enstained by the proof. We find no unjust dis-crimination between citizens of the State, the localities and circum-stances all considered." stances all considered."

HUDSON RIVER (BELL) TELEPHONE CO.

President U. N. Bethell says in part:

President U. N. Bethell says in part: IMPROVEMENTS, ETC.—The additions to construction account during 1904 aggregated \$527,916, viz.: Real estate, \$36,945; underground conduits and cables, \$65,227; aerial exchange lines, \$146,192; aerial toll lines. \$127,322; central office equipment, \$54,422; station equip-ment, \$88,210; other equipment, \$9,598. Real estate was purchased in Newburgh and Saratoga and new buildings at these places were commenced. New subway systems were constructed at Saratoga and Newburgh and additions were made to the existing subway systems at Troy, Albany, Glens Falls, Pouchkeepsie and Schenectady. The Lansingburgh and Glens Falls exchanges were equipped with new central energy apparatus. The cost of repairing damages caused by the severe storm of Nov. 13, 1904, amounting to \$34,689, was charged to surplus earnings of previous years. New SuB-LICENSEES.—A satisfactory sub-license and traffic agree-ment was made with the Glen Telephone Co., covering all of Fuiton and Montgomery counties (except Amsterdam and vicinity) and the southern half of Hamilton County. A similar agreement was made with the Orange County Telephone Co., operating at Middletown (al-though in this case the papers were not signed until after the close of the year), and with various other companies operating in thirty-three ment was made to the the counter of the sector of the year is the sector of the sector of

the year), and with various other companies operating in thirty-three smaller places throughout the territory. These contracts will bring some three thousand or more stations into our system.

MISSOURI & KANSAS (BELL) TELEPHONE CO.

President Alonzo Bart says in substance:

President Alonzo Burt says in substance: EXTENSIONS, ETC.—At the close of the year the company had 57 exchanges, including branches, an increase for the year of 3; 35,570 exchange stations, increase 5,327; 6,973 miles of toll pole line, in-erease 210; 34,736 miles of toll wire, increase 2,102; 7,427 private line and sub-license stations, increase 1,392. At the end of December 82 p. c of all stations were metallic cloud; by the end of another year practically all should be so equipped. Progress has also been made in the sub-licensing of independent telephone plants operating in towns where the company has no exchanges. Company. As at present organized they are not ikely to retard the development of your company to a substantial extent. Early in the year the Kansas City Home Telephone Co. opened its exchanges in Kansas City, causing temporarily a considerable loss to your company both in subscribers and revenue. During the latter months of the year your company has regaled many of those subscribers and a sub-stantial recovery both in revenues and stations has already been made. It is believed that at an early date we shall recover whatever ground thas been lost by researce of the sub-matice in the sub-researce of the sub-stantial recover whatever ground It is believed that at an early date we shall recover whatever ground has been lost by reason of this compatition in Kansas Jiry.

PENNSYLVANIA (BELL) TELEPHONE CO.

President A. R Sheilenberger says in substance:

PENNSTLVANIA (BELL) TELEPHONE CO. President A. R. Sheilenberger says in substance: GENEBAL RESULTS.—The total expenditure for maintenance was \$363.828, being an increase of \$70,746 over 1903. The net increase in the number of subscribers during the year was 1,800. The require-ments of the mortgage as to sinking funds, aggregating \$32,525, were satisfied from current revenue. The surplue was affected during the year by the charge for depreciation on switchboards replaced since worn out or obsolete. A considerable amount of new and reconstruc-tion exchange work was done, and its cost charged to expense. CONSTRUCTION, ETC.—The expenditures for new plant, equipment and real estate during the year aggregated \$329,983, viz : Exchange plant and equipment, \$218,018; underground conduits, \$22,860; un-derground cables, \$25,009; toll lines, \$: 9,725; real ectate. \$9,371. The following various kinds of work was completed during the year, viz: 79 miles of new toll pole line; 72 miles of toll pole lines re-built and 383 miles of from wire replaced with copper wire; 625 miles of new toll wire was strung; 5,650 feet of additional underground conduit, embracing 49,350 feet of duct, was laid at Altoona, Lancas-ter, Soranton and Williamsport; 55.787 feet of additional underground conduit, embracing 49,350 feet of duct, was laid at Altoona, Lancas-ter, Soranton and Williamsport; 55.787 feet of additional aerial cable was erect-d; central office equipment of improved type was installed at 16 exchanges; central offices of eight exchanges were changed to new and better locations. The reconstruction of the Soranton plant has been completed. The damage from the storm of Nov. 13 cost your company about \$40,000 and was the cause of new stock were so d. and the proceeds (\$323,983) applied to the extension and devel-opment of the plant and business. INCOME ACCOUNT. 1904. 1903.

ROCKY MOUNTAIN (BELL) TELEPHONE CO.

See CHRONICLE of March 11, 1905, p. 1061.

SOUTHERN NEW ENGLAND TELEPHONE CO.

President Morris F. Tyler says in part:

GENERAL.-We have added to our number of stations 6,589, making the total number on Dec. 31, 1904, 33,208. Ten years ago we had 5,536 stations. Our average yearly rental from each telephone has, however, been dropping for a number of years. On Dec 31, 1903, it was \$31 80; on Dec. 31, 1904, \$30 31, and we have sent something over 1,750,000 messages over our toll line wires in the twelve months. Our policy for the last few years of extending as fast as we can will be continued. Our work is done on the theory that we shall some time, within the not very distant future, have 100,000 stations to manage.

WESTERN (BELL) TELEPHONE & TELEGRAPH CO.

President Frederick P. Fish says in substance:

STATIONS — The Cleveland (O.) Tel. Co., the Northwestern Tel. Ex. Co., the Southwestern Teleg. & Felep. Co., and the Wisconsin Tel. Co., whose scontities constitute our principal assets, show a satis-factory gain, both in the number of stations and in gross and net revenue. The number of exchanges at the end of 1904 was 325; stations connected therewith 149,431; increase, 17,094. To this num-ber should be added 51,459 stations of subsidiary companies, some controlled by and the rest under contract with our companies and operating in the smaller towns and rural districts, making a total of 200,890 stations.

200,890 stations. The increase of the number of stations of the latter class, something over 11,000, is an indication of the growing disposition in all direc-tions, on the part of the independent companies, to make use of Bell instruments and avail themselves of the advantages afforded by con-

nection with our system. New CONSTRUCTION.—At the end of the year there were in operation 96.314 miles of toli wire, as compared with 91,847 miles Dec. 31, 1903. The expenditure for extensions has been \$1,739,271, of which \$639,-832 was for aerial construction; \$233,159 for underground conduit and cables; \$360,419 for equipment; \$280,324 for toli lines; \$76,774 for land and buildings, and \$198,763 for exchanges and other property acquired.

EARNINGS, ETC.—The dividends received by this company for the year were \$873,894. In the case of each of our companies there was a substantial surplus of earnings after payment of dividends. The dividends paid by this company, at the rate of 5 p. c. on the preferred stock, have amounted to \$800,000.

County, Outario, on June 20, 1905, for the purpose of author-izing the issue of bonds, debentures or other securities, and the execution of a mortgage securing the same. Edwin Bell is Secretary.

Chicago & Alton Ry.-Descriptive Pamphlet. - N. W. Halsey have compiled a valuable pamphlet of thirty-one pages, including illustrations, describing in detail the properties, bonded debt, income account, etc., of the Chicago & Alton Ry. Co. - V. 80, p. 649, 471.

Chicago City Ry.-Proposition to Sell-Suit by State.-See Chicago Union Traction Co., V. 8), p. 2342.-V 80, p. 1727.

Chicago & Eastern Illinois RR.-Dividend Action -The regular quarterly dividend of 1½ per cent on the preferred stock has been declared, payable July 1; books close June 14 and reopen July 3. No action has been or will be taken regarding a dividend on the common stock, as the entire issue has been exchanged for St. Louis & San Francisco stock trust certificates, which latter will receive divider ds in regular course without formal declaration. The same course will be pursued in reference to the dividends on the 'Frisco stock trust certificates issued for the Kansas City Fort Scott & Memphis Ry. preferred stock.-V. 80, p. 2219, 1856.

Chicago Great Western Ry.-Subsidiary Increases Stock. -See Mason City & Fort Didge RR, below.

Special Meeting of shareholders.-A special meeting of the shareholders has been called for Sept. 7, but the purpose of the meeting has not yet been made public.-V. 80, p. 2219, 1970.

Chicsgo Indianapolis & Lonisville Ry.—Dividend In-creased.—A semi-annual dividend of 1½ p. c. has been de-clared on the common stock, payable June 28 to stockholders of record June 7. This contrasts with 14 p. c. semi-annually in 1904. The Louisville & Nashville and the Southern Railway own 93 p. c. of the 10.500,010 common stock and 77 p. c. of the 5,000,000 preferred stock -V 80 p. 221.

Chicago Rock Island & Pacific Ry. - pecial Distribution. -This company, whose stock is nearly all owned by the Chicago Rock Island & Pacific Railroad (subsidiary of Rock Island Co.), will, it is aunounced, make on June 17 to stock-holders of record June 16 a special dividend of \$1 63 cash per share, by way of distribution of the item "stockholders' improvement loan, \$1,222,941," which appears among deferred liabilities on the balance sheet of June 30, 1904. An official statement says:

statement says: The item consists of \$750,000 transferred in 1885 from income ac-count to the cr-dit of addition and improvement account, #463,000 similarly transferred in 1886 and certain small inpaid balances upon addition and improvement bonds Nos. I to 4, hereinafter referred to. For the amount so transferred in 1835 (\$750,000), the company in June, 1885, issued its improvement bond No. 5, wherein it acknowl-edged itself to be indebted to the Treasurer in the sum of \$750,000, which sum it promised to pay twenty years thereafter with lawful money of the United States, or with full-paid shares of capital stock, as the company should at the time elect. The bond further provided that when the same should be paid the proceeds should be distributed pro rats to those who should at the time be stockholders of the com-pany. This bond was of like tenor with addition and improvement bonds Nos. I to 4 previously issued, aggregating \$7,000,000, all of which were paid by the distribution to stockholders on Joly 1, 1898, of shares of capital stock aggregating 10 p c. of the then holdings of all stockholders, and by the payment for the period from July 1, 1898, to Jan. 1, 1903, of a special quarterly dividend of 14 of 1 p. c. on the capital stock then outstanding. *Coal Properties - Guaranty of Interest*, —See Consolidated

Coal Properties-Guaranty of Interest. -See Consolidated Indiana Coal Co. under "I idustrials" below .-- V. 80, p. 1856, 1728.

Chicago & South Shore (Electric) Ry.—Sold.—At the foreclosure sale on May 26 the property was bid in for \$450,000 by A. D. Mallory of Batavia, Ill., and T. W. Spence of Milwaukee, Wis., representing the bondholders, who have organized the Laporte & Michigan City Traction Co. with \$400,000 of authorized capital stock and \$350,000 bonds. This stock will be assigned to the Indiana Railway Co., work corporation will guarantee the bond issue. A press which corporation will guarantee the bond issue. A press despatch states that the Indiana Railway Co. has caused the corporation of the South Bend & Western Ry., with \$100,000 capital stock, to construct an interurban line from South Bend to Laporte.-V. 80, p. 1728, 1362.

Cincinnati Inter-Terminal RR.-Stock Offered.-Rudolph Kleybolte & Co. are offering at 1081/2 and accrued dividend the issued portion, \$650,000, of a total authorized issue of \$1,000,000 guaranteed first preferred 4 p. c. cumulative stock. par of shares \$100, non-taxable in Onio, subject to call at company's option at any dividend period after Feb. 1, 1915, at 105 on six months notice; dividends payable Feb 1 and Aug. 1 at the office in Cincinnatl. An advertisement says: Divide: ds on this issue of stock are unconditionally guaranteed by the Covington & Cincinnati Elevated RR. & Transfer & Bridge Co. and are further secured by contract obligations of the Onesspeake & Ohio Ry. Co. and the Louisvillo & Nashville RR Co. The Covington & Cincinnati Elevated RR. & Transfer & Bridge Co. has total assets of over \$5,498,000, against which it has a funded debt of \$3,500,000; the Chesapeake & Ohio Ry. Co. owns all the stock and all the bonds. The lands owned in feesimple by the Cincinnati Inter-Ferminal RR. Co. represent an expenditure of approximately \$450,000, while the structures in process of erection will cost between \$200,000 and \$250,-000, bringing the total outlay up to \$650,000 to \$700,000. The prop-erty consists of an overhead structure of steel with concrete founda-tions, extending from the Oincinnati end of the Onesapeake & Ohio bridge to the Cincinnati terminus of the Cincinnati Hamilton & Day-ton Ry., and the necessary surface tracks connecting the Chesapeake & at the office in Cincinnatl. An advertisement says: ton Ry., and the necessary surface tracks connecting the Chesapeake ∞ Ohio main line with the Inter-Terminal's freight yards.—V. 80, p. ζ Cincinnati New Orleans & Texas Pacific Ry. - Dividend Increased.—A dividend of 3 p. c. has been declar-d on the common stock, payable Jane 15 to holders of record Jane 9. Previous distributions to the common shareholders were 2 p. c. Dec. 1, 1908; 2 p. c. Sept. 1, 1904.-V. 79, p. 2143.

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET ROADS.

Alabama Great Southern RR.-Dividend.-The directors have decided to pay an interim dividend of £4 per cent (8s. per share), less tax, on the "A" preference shares to holders registered on June 10, 19)5.-V. 79, p. 2641.

Aurora Elgin & Chicago (Electric) Ry.-Pool Dissolved.-The \$8,000,000 bond pool expired by limitation on May 31, the eff ints to extend the agreement having failed. - V. S0, p. 2219, 1284.

Chatham Wallaceburg & Lake Erle Ry .- Securities Proposed .- The shareholders will meet at Chatham, Kent

Cleveland Cincinnati Chicago & St. Louis Ry.-Circular Regarding New Stock Issue.—A circular states that the holders of both classes of stock of record April 29 will be per-mitted to subscribe and pay for at par from June 22 to July 3, inclusive, for \$7,600,000 of the (\$11,300,000) new common stock to the extent of 20 p. c. of their respective holdings, Certificates of stock will be issued after June 22 for all full The meeting to authorize the new stock was adshares. journed from May 31 to June 21 in order to extend to the preferred shareholders the right to subscribe. See V. 80, p. 1911, 2343.

Colorado Southern New Orleans & Pacific RR.-Officers. -The following officers are apnounced:

President. C. C. Cordill; Vice-President, Frank B. Hayne; Secretary-Treasurer, H. Generes Dufour, New Orleane, La.-V. 80, p. 1971.

Columbus New Albany & Johnstown Traction Co.-New Mortgage. - This company has canceled the mortgage for \$200,000 made in December, 1900, to the Cleveland Trust Co., trustee, and has made a new mortgage to the Columbus (O.) Savings & Trust Co., as trustee, to secure \$450,000 of 5 p. c. first mortgage bonds payable Jan. 1, 1925: denominations, \$500 and \$1,000.-V. 80, p. 117.

Denver & Rio Grande RR.—Results for Year 1904-05.— An official statement reports the surplus over charges for the ten months ending April 30, 1905, as \$2,316,445; estimated surplus for May and June as \$454,484; total, \$2,770,9?9; 5 p. c. on pref. stock, \$2,250,000; balance, surplus, \$520,929. This compares with previous years apparently as follows:

(1905 partly estimated.) 1905. 1904. 1903 1902. Surplus over charges... \$2,770,929 \$2,454,413 \$2,405,764 \$2,582,625 5 p. c. on preferred etock 2,250,000 2,220,000 2,220,000 2,220,000

Bal'oe, surp. for year. \$520,929 \$234,413 \$185,764 \$362,625 -V. 80, p. 2219, 871.

Detroit Toledo & Ironton Ry.-President.-George M. Cumming, President of the United States Mortgage & Trust Co., has been elected President of the Detroit Toledo & Ironton

Acquisition.-The legal details are being arranged for turning over the Ann Arbor RR. to the Detroit Toledo & Ironton. -V. 80, p. 2344.

Interborough Rapid Transit Co., New York City.—Divi-dend Increased.—The directors on Wednesday declared a quarterly dividend of 2 p. c., payable Jaly 3 to holders of record Jane 12. The dividend paid on April 4, 1935, was 134 p. c.-V. 80, p. 2844, 1912.

Kansas City-Leavenworth (Electric) Ry.—Change in Control.—Fi-k and Robinson, for themselves and associates, have recently purchased substantially all of the bonds and stock of this company. The name of the corporation will be changed to Kansas City-Western Railway Co. The total length of line, including mileage in Leavenworth and Kansas City, but excluding trackage rights, is 34'3 miles. The line will terminate at the Viaduct, between Kansas City, Mo., and Kansas City, Kansas, to be constructed within two years by the Kansas City Viaduct & Terminal RR. Co., the railway company having the right to use this viaduct. The bonded debt will consist of \$1,500,000. out of an au-

thorized issue of \$5,000,000, 20-year 5 p. c. gold bonds; capital stock, \$2,500,000. The new bonds are for the purpose of refunding outstanding bonds, liquidating floating debt and providing capital, under careful restrictions, for betterments, equipment and extensions. The only official thus far se-lected is the President and General Manager, Conway F. Holmes.--V. 74, p. 94.

Kansas City Outer Belt (Steam) & Electric RR.-Bonds Offered.-This company has an authorized issue of \$3,000,000 first mortgage 4 p. c. 50-year gold bonds, dated April 1, 1903; \$2,250,000 4 p. c. preferred stock and \$3,500,000 common stock. The United States & Mexican Trust Co. is now offer-ing \$590,000 of the bonds at par, "the proceeds of which, with the bonds already sold, will be sufficient to build the main double-track line and the bridge over the Missouri River." This will leave \$1,000,000 face value of bonds in the treasury for extensions and betterments, as the demands of the future may require. Subscribers will receive with each \$1,000 bond \$150 in preferred stock and \$150 in common stock. It is estimated that not over \$2,000,000 of the bonds will be needed to finish and equip the entire road. See prospectus, V. 76, p. 331.-V. 80, p. 871.

in the city and suburbs and 5 miles to Malabon. The company is also supplying light and power for private, municipal and Government use from the same power house.

The corporation is chartered in Connecticut and is capitalized for \$6,009,000 common stock, all issued, and \$5 000,000 first mortgage 40 year 5 p. c. gold bonds. Of the bonds, about \$4,300,000 have been issued to date. Directors (and officers):

Charles M. Swift. Detroit. President: George C. Smith. Pittsburgh, Vice-President; Fred H. Reed, New York, Secretary and Treasurer; Frank H. Buhl. Sharon, Pa.; J. G. White and Henry J. Conant, New York; Richard T. Laflin, formerly the General Manager of the Worces-ter Consolidated Street Railway system, 2d Vice President and Gen-eral Manager eral Manager.

The system was designed and constructed by J. G. White & Co., New York, who are engaged in much other construction work in Manila and elsewhere, including :

An electric road between Alton and East St. Louis, Ill.; also between Edwardsville and Granite City, Ill., and Rochester and Syraouse, N.Y.; the London (Eng.) tramways, and enterprises at Wilkesbarre. Pa.; Monterey Mexico; San Juan, Puerto Rico; Belfast, Ireland, and in South America.-V. 77, p. 36.

Mason City & Fort Dodge RR.—New Bonds.—Simon Borg & Co. and Blair & Co. are understood to have placed a considerable amount of the \$12,000,000 50-year 1st mort. 4% gold bonds among customers at 92 and interest. The road forms an integral part of the main line of the Chicago Great Western system from Chicago and Minneapolis to Council Bluffs, en-tering Omaha over the tracks of the Union Pacific. It has important terminals in Omaha, Council Bloffs and elsewhere. Its first mortgage debt amounts to only \$31,735 per mile of road, while the total cost of the property per mile, including terminals, rolling stock and interest during construction, is reported as \$46,712.

President A. B. Stickney of the Chicago Great Western Ry., under date of April 17, says :

The line between Council Bintfs and Oelwein has been constructed in a most substantial manner to carry the large traffls of a through main line. One steel viaduot 3,300 feet long, spanning the Des Moines River, cost about \$500,000. In connection with the Chicago dreat Western, the road makes the lowest grade line between Omaha and Chicago. The Chicago Great Western Ry. Co. owns all the outstand-ing common stock of the M. C. & Ft. D. RR., and the latter will be operated for a period of 100 years under lease, by the terms of which the M. C. & Ft. D.RR. is to receive 60 p. c. of joint passenger and traf-fic receipte.

fic receipts. The net earnings of the Mason City & Fort Dodge RR C). under this The pet earnings of the Mason City & Fort Dodge RR C). under this contract shall constitute a fund, to be carried in the accounts of the Great Western, for the benefit of (1) the first mortgage bonds and (2) junior eccurities and preferred stock issued by the M O & Ft D. RR. Co. The sum to which the junior eccurities and preferred stock shall be entitled in any one year shall not, however, exceed \$313,600, and any portion paid to the Great Western upon any junior scentities or preferred stock held by it shall be re-or-dited to the trust fund. From operations during construction up to Dec. 31, 1904, \$778,019 had ac-cumulated in this fund, and it is estimated by June 1, 1905, when in-terest commences on these bonds, that the amount will be about \$1,000,000. The gross earnings during construction averaged \$3,700 per annum per mile operated, and it would seem conservative to esti-mate that the completed line will shortly earn \$5,000 gross per mile; net earnings at least \$2,000 per mile. It requires only \$1,250 a mile to pay interest on the first mortgage bonds. to pay interest on the first mortgage bonds.

Increase of Capital Stock.—The company has filed a certificate increasing its authorized issue of capital stock from \$20,000,000 to \$34,000,000,-V. 80, p. 1368.

Memphis (Tenn.) Street Railway Co.-New Directors.-This company, which recently passed under the control of a syndicate represented by Isidore Newman & Sons of New Orleans and New York and Ford, Bacon & Davis of New York, has been re-capitalized on a plan which will largely inorease the present bond and stock issues, in ord r to provide for extensive improvements to the property. The board of directors now includes :

Thomas H. Tutwiler, Memphis, Tenn., President and General Man-agor; John R Pepper, Memphis, Tenn.; John H. Watkins, Memphis, Tenn.; W. B. Mallory, Memphis, Tenn.; Dr. W. B. Rogers, Memphis, Tenn.; J. K. Newman, New York City; Geo. W. Bacon, N Y. City; Geo. H. Davis, N. Y. City; A. H. Ford, N. Y. City; Peroy Warner, Nashville, Tenn.-V. 80, p. 1058.

Mismisburg & Germantown Tractiou Co.—Bonds Offered. -Claude Ashbrook of Cincinnati is offering at 1031/2 and interest, by advertisement on another page, the entire issue, \$50,000, of first mortgage 5 p. c. bonds, due December, 1911. The Cin. Day. & Tol. Traction Co. owns the entire capital stock and has assumed both interest and principal of these bonds. The C. D. & T. Traction Co. is leased to the Cincinnati Northern Traction Co. at an annual rental sufficient to guarantee the interest on all outstanding bonds, including those of the constituent companies and dividends on C. D. & T. stock.-V. 80, p. 2345.

Kansas City-Western (Electric) Ry.-New Name.-See Kansas City-L-avenworth RR, above.

Lehigh Valley Traction Co.-Purchase of Subsidiary Company Bonds,-The reorganization committee has purchased substantially all of the minority bonds of the Philadelphia & Lehigh Valley Traction Co. and the outstanding bonds of the Allentown & Slatington Co. at prices reported as 45 and 75, respectively.-V. 80, p. 1971, 1912.

Little Kanawha RR.-Wabash May Buy.-Joseph Ramsey

Jr. is quoted as saying: I have no doubt that the Wabash is going to buy the syndicate out. Mr. Gould, it should be remembered, is one of the largest stockholders in the Little Kanawha syndicate. This syndicate was formed to build an eastern extension for the Wabash Railroad. It still is intended that it he need for their number of an from there being a break in that it be used for that purpose, and so far from there being a break in the negotiations between the two parties. I can say that arrangements for the transfer of this property are being made at the present time.— Compare V. 80, p. 2219.

Manila Electric RR. & Lighting Corporation. -Road in Operation,-This company commenced on April 11 the operation of its electric road in the city of Manila and by July 1 will have in operation about 40 miles, of which 35 miles are

Oregon Short Line RR.-Abstract of Mortgage.-On pages 2403 to 2406 of this issue of the CHRONICLE will be found an abstract of the refunding mortgage of Dec. 1, 1904, authorized issue, \$100,000,000; present issue listed on New York Stock Exchange, \$15,000,000. These bonds were made chiefly to refund the 4 p. c. and participating bonds called for payment at 1021/2 and interest Feb. 1, 1905, See V. 80, p. 1913.

Balance Sheet.—See V. 80, p. 1916, 1913.

Pennsylvania RR.—Eighteen-Hour Trains to Chicago.— Both this company and the New York Central & Hadson River RR, announce a reduction in the time between New York and Chicago on their limited trains from twenty to eighteen hours, enabling the traveler to have practically the entire day in either city and return home at night. The Pennsylvania train will begin running on the reduced time schedule to-morrow and the New York Central train on June 18. See page 2367.-V. 80, p. 2220, 1913.

Raleigh & Southport By .- Consolidation .- This new ourporation, it is annonnced, has taken over by consolidation the property of the Raleigh & Cape Fear RR, in operation from Raleigh to Lillington, N. C., 34 miles, of which 2 miles trackage. An extension to Fayetteville, 30 miles, is pro posed. The stock of the Raleigh & Cape Fear RR. has been exchanged for the stock of the new company, doltar for dol lar, the latter's share capital being issued at the rate of \$10,-000 a mile.

Bonds will be issued at \$7,000 a mile, with \$1,000 a mile additional for new equipment, and a block of \$30,000 for bridge over the Cape Fear River. There will also be \$167,-000 of the bonds reserved to take care of two issues of Raleigh & Cape Fear bonds. The new mortgage is suthor ized for \$2,000,000; dated June 1, 1905; due 1965; 5 per cent gold; interest June and December; Kuickerbocker Trust Co., trustee. The first issue under the mortgage will be \$300,000, to be a first lien on 30 miles of new road, the bridge The bonds will also be a lien on the 32 and equipment, miles of old road, subject to the underlying bonds above mentioned. The new bonds have been taken by F. J. Lis man & Co. President and General Manager, John A. Mulle; Sec. and Treas., F. T. Ricks, both at Raleigh, N. C.-V. 79, p. 2589.

Rock Island Company.-Special Dividend by Subsidiary-Coal Property and Bonds.—See Chicago Rock Island & Pacific Ry, above -V. 80, p. 118.

(The) L. A. Thompson Scenic Ry. Co. of New York. - Stock Offered.-This New Jersey incorporation, whose total capital stock is \$1,000,000, is offering for sale at par (\$100 per share) \$300,000 treasury stock, "to cover cost of numerous new systems now being installed throughout the country and others projected." An advertisement says:

The company has paid 10 p. c. cash dividends for eight years, and recently 100 p. c. stock dividend to cover the accumulated assets that have quadrupled in ten years. The company has no debts or bonds other than the cost of properties under construction this year. Offices, 302-304 Broadway, New York.

President, La Marcus A. Thompson; Secretary, Gerald Berry; Treasurer, Albert N. Harris.

Toledo & Western (Electric) Ry.-Purpose of New Stock and Bonds. - Touching the call for a stockholders' meeting to be held June 24, a circular says: "If the capital stock be increased from \$1,800,000 to \$2,500,000, as suggested, the additional shares would remain in the treasury unissued, and be issued only in connection with the construction or acquisition of new lines, so that there would be no stock increase upon the present mileage."

The \$2,500,000 new bonds are to be used only as follows :

400,000 obligations. Reserved issuable only for the acquisition of new lines, or the extension and equipment of lines by the rail way com'y 600.000

The official circular in explanation says :

The official circular in explanation says: Within the past two years many business enterprises have been established along the road, such as grain elevators, stave and heading factories, brick-making plants, stone quarries, canning factories, eaw mills, lumber and coal yarde. The Continental Sugar Co is now en-gaged in building sugar works at Blissfield, Mich., at a cost of \$900, 000, with a capacity for slicing 600 tons of beets per day. This im-portant industry will require the daily use of many cars not only during the sugar-beet season in hadling beets, but throughout the year in shipping the finished product and bringing the necessary supplies. By reason of the foregoing, the railway company has been obliged to install numerous sldings and purchase freight equipment far in excess of anything contemplated when the road was con-structed. The business, and for additional power. The present western terminus of the road is at Ploneer, in Williams county, Ohio, about 60 miles west of Toledo. At this time varions electric railway lines are in process of construction in the territory between that point and Chicago, and it is reasonably certain that in the near future we shall be able to make a western connection (which would be of u questionable advantage), either by the extension of our line or by acquisition of some line already in operation --V. 80, p.2221. Twin City Rapid Transit (.o. -Right to Subscribe, --All

Twin City Rapid Transit Co.-Right to Subscribe.-All shareholders of record on June 7 are offered the privilege of subscribing at par from June 20 to July 5, inclusive, for \$1,-000,000 new common stock to extent of 5 p. c. of their respective holdings. Subscriptions must be paid in full at once at Farmers' Loan & Trust Co., New York. The new stock certificates will be issuable at the office of the trust company on and after July 1. Full-paid warrants not exchanged for stock certificates prior to Aug. 1, 1905, may, at the option of the company, be redeemed in cash at the face value thereof.—Compare V. 80, p. 1914, 2221, 1973. Youngstown & Southern Railway.-Bond Offering.-The control of this property was recently purchased by a Youngstown, O.. syndicate. Baker, Ayling & Co. of Bos-ton, who are offering (at 97 and interest) a block of first mortgage 5% sinking fund gold bonds of \$1,000 each, dated Oct. 1, 1903, due Ost. 1, 1928 (interest payable April and October at New York Trust Co., New York, truste-), say:

situated upon a private right of way, 51 miles; second treak and epure, 10 mile; total, 61 miles; and coal lands owned or leased, over 7 000 acres. This road will establish a direct connection between two important manufacturing ofties- Youngstown and East Liverpool-and will develop a tertile territory now handicapped by the tack of rail-road advantages. Tributary population about 200,000. The com-pany's coal lands amount to over 7,000 acres constaining bituminous and cannel coal, and are situated at North Lims. 8 miles from Youngs-town, and at West Point, 11 miles from East Liverpool; 1,000 acress now being mined. The coal properties at North Lima are held under perpetual leases while those at West Point are owned by the com-pany. The company is acquiring additional mining rights and ex-pects to own or have under perpetual lease over 8,000 acres in the bear future. All coal lands and rights, as well as the railway, are covered by the morrgage. The first 16 miles of the road, from Youngstown to Columbiana, are now in operation, and a regular schedule for the handling of both paseenger and freight business is being maintained, with connections at Youngstown with five through railroads and the locat electric lines and at Columbiana with the main line of the Pennsylvania RR. The mine has been developed to a present capacity of about 300 twois per day, which can be rapidly increased as necessity requires. Estimated not freight, express or mail business, or other sources of income. The normal coal production after the first year or two is expected to be from 400,000 to 500,000 tons. City Gas & Electric Co. of Paris, Ill.-Status.-This company's bonds are offered for sale as stated below under title of National Light, Heat & Power Co. A circular says:

of National Light, Heat & Power Co. A circular says: First mortgage 5 p. c. 20-year gold bonds dated Oct. 1, 1904, die Oct. 1, 1924, but redeemable at 102 and interest a'ter Oct. 1, 1905; interest payable October and April at American Trnet & Savings Bank of Chicago, one of the mortginge trustees. Denomination. \$500. Au-thorized capitalization: 5 p. c. bonds (insued \$130,000), \$150,000; 5 p. c. preferred slock (all issued). \$60,000, common stock (all issued), \$150,000. Organized in fall of 1904 to own the plants supplying electric-lighting gas and hot-water heating in city of Parls, which had been operated for a year by a receiver. The electric plant is being entirely rebuilt, the gas plant greatly improved, and the hot-water plant made more efficient; \$55,000 bonds were sold to complete these improvements, and \$20,000 bonds remain in treasury for fature ex-tensions and improvements. The bonds have both principal and interest guaranteeo by National Light, Heat & Power Co. Gross earn-ings for the five months ending Dec. 31, \$15,868; net profits, \$3,581. Population of Paris about 8,000. Population of Paris about 8,000.

Consolidated Indiana Coal Co.-Consolidaton.-This company was recently incorporated under the laws of Maine with \$4,000,000 authorized capital stock, of which \$3,400,000 is the amount represented in Indiana to take over a number of coal properties purchased in the interest of the Rock Isl-and system, viz.: Some 11,000 acres of coal land with nine shafts in operation in Sullivan County, Ind., on the lines of Evansville & Terre Haute RR., and the Indiana Southern Ry.; also over 5,0 0 acres in Franklin County. Iil., traversed by the Chicago & Eastern Illinois RR. The Indiana properties include those formerly owned by the following companies:

North Jackson Hill Coal Mining Co., Sullivan County Coal Mining Co., Union Coal Co., T. C Keller & Co., Harder & Hoter Coal Mining Co., Hymera Coal Mining Co., W. S. Bogle Coal & Mining Co.

Bonds Sold.—The company has made a mortgage to the Guaranty Trust Co. and E. C. Hebbard, trustees, to secure an issue of \$4,0 0 000 first mortgage 30 year sinking fund 5 p. c. gold bonds due June 1, 1935. Of this issue \$1,500 000 bonds are reserved for future requirements and \$2,500,000 have been sold to Speyer & Co. These last have their interest (December and June) unconditionally guaranteed by the Chicago Rook Island & Pacific Railway Co. by endorsement on the bond. There are no underlying liens.

The bonds have a cumulative sinking fund of five cents per ton of coal mined, under which bonds have to be bought in the market up to 110 and accrued interest, and if not so ob-tainable will be drawn at 110 and accrued interest. The Chicago Rick Island & Pacific Railway Co. owns a controlling interest in the capital stock.

Consumers' Park Brewing Co., Brooklyn, N. Y.-Stock Offered.-Thomas J. Nugent, Times Building, New York, is offering a block of the 7 p. c. preferred stock at par. The ad vertisement on another page says:

Incorporated under laws of New York. Financial condition Jan. 1 1905: Assets, all depreciations charged off, and not including good will, \$1,850,000; liabilities (all), including bonded indebtedness of four breweries, \$900,000; net worth, \$950,000. Capital stock, \$500,-000 preferred and \$500,000 common stock. The common is all held by consumers (saloon keepers) in the trade. The cale of the preferred stock will increase the assets by an equal amount. The company now owns four (4) breweries, and proposes to acquire others. The present sales assure a profit of over \$100,000 per annum. Office, No. 964 Franklin Ave., Brooklyn.

Equitable Life Assurance Soclety.-Frick Report -The report of the Frick Investigating Committee, together with the replies of President Alexander and Vice-President Hyde, were given in full in the New York 'Times' of June 4, and other daily papers. The directors at their meeting on June 2 voted down the proposition to approve the report, Several of the board having thereupon resigned, Mr. Hyde renewed his offer to trustee his majority interest in the stock on terma to be satisfactory to the board. A committee also was ap-pointed to select a Chairman of the board, who shall have plenary powers. On Wednesday the directors voted to reduce the salarles of the executive officers. Directors Resign.-Of the fifty two directors, the following thirteen have resigned, while Messrs Ripley and Baldwin have died. It is hoped, however, that some of those resigning will be induced to reconsider their action:

Growth of Business, Etc. - President Alexander says:

The outstanding business, Etc. =1 resident A texadder SAVS. The outstanding business of the Society has been increased during the past five years nearly five hundred million doilars, and now amounts to a billion and a half. The assets have been increased from \$280,000,000 to \$413,000.000, and the surplus from \$61,.00,000 to \$-0,000.000, notwithstanding the fact that during that period we have paid out in dividends more than \$23,000,000. Income has in-creased from less than \$54,000,000 to \$80,000,00, and the excess of income over disburgements has increased from \$19,300,000 in 1899 to \$27,600,000 in 1904. Take the one significant item of total distributive or dividend earn-

\$27,600,000 in 1904. Take the one significant item of total distributive or dividend earn-ings, the Equitable shows in five years \$35,000,000. The ratio of its gross ontstanding surplus to total liabilities was at the end of the year 1904 24 23 p. c. The percentage of expenses to income for the five years from 1900 to 1901, inclusive, was 19:26.—V. 80, p. 2347, 2222.

Georgia Car & Manufacturing Co.-Sold.-At the recent foreclosure sale the property was bid in for \$40,000 by E. B. Leaf & Co. of Philadelphia.-V. 80, p, 475.

Hoesick Falls (N. Y.) Illuminating Co.-Consolidation, Etc.-This company, whose refunding and improvement mortgage 5 p c. gold bonds are mentioned under caption of National Light, Heat & Power Co., are described as below:

National Light, Heat & Power Co., are described as below: Bonds dated 1905; due April, 1935; redeemable at 105 and interest after April 1. 1915; interest payable April 1 and Oct. 1 at Knicker-bocker Trust Co. of New York, trustee. Kanawha & Hocking Coal & Coke Co.—Purchase Price.— The circular sent by J. P. Morgan & Co. to the shareholders of this company is identical in terms with that sent under date of May 18 to the shareholders of the Continental Coal Co., which says:

It is proposed that a new corporation be organized to acquire, either

Number Says.
It is proposed that a new corporation be organized to acquire, either by purchase or lease, the properties of several important coal compaules in West Virginia and Ohio, and also valuable dock facilities at the bead of the Lakes We have been in negotiation with the view of obtaining the opportunity to include the properties of the Continental Coal Co. in the arrangement, and to that endfit is contemplated that the new company will offer to purchase any or all of the trastees' certificates representing the baneficial interests in the capital stock of the Continental Coal Co. on the following terms:
It will issue in payment therefor, to the amount of 60 p. c. of the par value of said trustees' certificates, its collateral trust notes or debentures, dated July 1, 1905, and payable 39 years after da e, drawing interest at the rate of 5 per cent per annum, payable semt annually, which notes or debeniures are to be subject to retirement in amounts see eored by lot each year, at par and accrued interest, by the application of a sinking fund sufficient to retire the entire issue prior to maturity. The same will be secured by a deposit of the trustee's certificates to the note or debenture holders in the event of default in the payment of principal, interest or sinking fund. In order to meet their share of the organization expenses and coats, including counsel fees and our own compensation, a commission of not to exceed 5 p. c. of the par value of collateral trust notes or debentures, approximately 55 p. c. of the par value of his trustees' certificates. We not company to company the effect of the secure of the to a strustees' certificates. A supervisione for the reture, approximately 55 p. c. of the par value of his trustees' certificates. A supervisione for the supervision holder of a supervisione for the payment of payable and on the secure of his trustees' certificates. A supervisione for the return of the certificates to the organization expenses and coats, including counsel

Marshall (Ia.) Light. Heat & Power Co.-Financial Statement.-This company's bonds are offered for sale, as stated below, under caption of National Light, Heat & Power Co. The bonds are dated June 1, 1905. A circular says:

A. J Caseatt, John Sloane, D. O. Mills, John A. Stewar', E. H. Har-iman, M. E Ingails, T Jefferson Coolidge, Jacob H Schiff, Corne ius N. Bliss, Henry O. Frick, Joseph T. Low, Marvin Hughitt and Robert T. Lincoln.

Surplus.-Touching the surplus, the Frick report says :

The Society's published report shows a surplus as at Dac. 31, 1904, of \$80,794,269; and popular sentiment demands that this enormous sum be divided among the policyholders. There is even a sen a dis cussion of the ownership of the surplus—as between policyholders and stockholders. As a matter of fact, the actual surplus of the soci-ety on Dec. 31, 1904, was approximately \$10,200,000. Of the bal-ance, \$6,750,000 was apportioned for divid-nds payable in 1905 and \$63, 00,000 is merely a reserve against a future contingent liability. That is, it is the amount which has been carned by the total number of deferred-dividend policies, and which becomes a direct liability as each individual policy matures. each individual policy matures.

Power Co. The bonds are dated June 1, 1905. A circular says: First mortgage 5 p. c. sinking fund gold bonds, due June 1, 1935, but redeemable at 105 and interest after June 1, 1915; interest pay-able Dec 1 and June 1 at Knickerbocker Trust Co., trustee. New York Denomination, \$500. Authorized capitalization: 5 p. c. bonds (\$ 00,000 issued). \$150,000; 5 p. c. preferred stock (all issued), \$25,000; common stock (all issued), \$125,000 Of the bonds \$100,000 will be used in acquiring the properties of Marshall Electric Light & Power Co. and Marshall Gas Light Co., and in making immedia e im-provements; \$50,000 bonds remain in treasury for future improve-ments and extensions, being issuable to 85 p. c. of value of such future improvements. Both principal and interest guaranteed uncon-ditionally by National Light, Heat & Power Co. Annual sinking fund, 1 p. o. of bonds outstanding, 1910 to 1914; after 1914, 2 p. c. Operates under favorable city contracts; there are no other competing plants. under favorable city contracts; there are no other competing plants. Population of city, 6,500 Total gross earnings of plants in 1904, \$20,984; net profile, \$9,600. Thomas Boatright, President.

Montreal Light, Heat & Power Co.-Report.-The results for the year ending Apr. 80 were:

Gas & Electric Co.-Finances. -This company, mentioned above in statement for National Light, Heat & Power Co., is being organized with capitalization as follows: First mortgage 5 p. c. sinking fund gold bonds. Authorized issue, \$150,000; present issue, \$-5,000; dated June 1, 1905 and due in 30 years, but subject to call in or after 1915 at 105 and interest. De-nomination, \$500. Interest payable Dec. 1 and June 1 at Kulcker-bocker Trust Co., trustee, New York. No underlying liens. Capital stock, 5 p. c. non-cumulative pref., \$25,000; common stock, \$125,000.

Robinson (Ill.) Water & Light Co.-Status.-This company, whose bonds are guaranteed as to principal by the National Light, Heat & Power Co. (which see above) is capitalized as follows:

Capital stock, all issued, \$70,000; par of shares, \$100. First mort-gage 20-year 5 p. c. bonds dated May 15, 1901, authorized \$70,000; outstanding, \$45,000; denomination, \$500 and \$1,000; interest pay-able May 1 and Nov. 1 at American Savings & Trust Bank (mortgage trustee), Chicago, Ill. No sinking fund; no option to call.

Rochester (N. Y.) Telephone Co.-Acquisiton.-A controlling interest has been purchased in the Independent Telephone Securities Co., which in turn holds a controlling interest in the following independent telephone companies: Utica Home Telephone Co., County Telephone Co. of Her-kimer, Black River Home Telephone Co., Clinton Home Telephone Co., Otsego Home Telephone Co. The sale was consummated by the transfer of 460 shares of the authorized and unissned stock of the Rochester Home Telephone Co. and unissued stock of the Rochester Home Telephone Co. on the basis of \$120 per share for 2,200 shares of the Securities Company on the basis of \$25 per share [see latter company, V. 80, p. 1733, 2347; V. 79, p. 2150].

Total number of telephones in operation, 7,822; increase for quarter, 414.-V. 80, p. 2224.

St. Joseph Lead Co.-Consolidation -This company proposes to absorb the allied Bonne Terre Farm & Cattle Co., organized in 1891, giving for the \$500,000 capital stock one share (par \$10) of the St. Joseph Lead Co. for two shares (par \$10 each) of the Bonne Terre Co. The St. Joseph Lead Co. has an authorized capital stock of \$6,000,000 [of which at last accounts \$3,750,000 was outstanding] and has paid quarterly dividends at the rate of 6 p. c. per annum in March, etc. A sorip dividend of 25 p. c., it is stated, will be paid, bringing the stock nearly up to \$5,000,000.-V. 75, p. 1208.

Southern Bell Telephone & Telegraph Co. of Virginia.-New Stock — This company, chartered in Virginia early in the year for the purpose of taking over the property of the Lynchburg Telephone Co., and also the plant of the Beli interests, and to extend and improve the same, has obtained permission to increase its anthorized issue of capital stock from \$2(0,000 to \$2.5(0,000. W. T. Gentry is President; Fairfax Montague, Vice-President; D. T. Carson, Treasurer. Submarine Signal Co.-Sale of Stock.-All the company's treasury stock, amounting to \$200,000, has been sold to J. P Morgan, who has been using the company's submarins signal on his steam y acht "Corsair." The outstanding share capital is now \$1,000 000, ail of one class; par, \$25; no bonds. The company was incorporated in Maine in July, 1901, with \$1,000,-The company was incorporated in Maine in July, 1901, with \$1,000, 000 authorized capital stock, in shares of \$25 each, to introduce a pat-ented system of submerged belis for use in connection with light-houses and light-ships for notifying vessels of the location of points of former. We was a submerged with the companying reactions for here the danger. Vessels equipped with the company's receivers can hear the tolling of the bells for a distance of not less than 5 miles and at times over 10 miles, and can determine the exact direction from which the over 10 miles, and can determine the exact direction from which the sound comes, the transmitter carrying the latter direct to the pilot-house. The bells are being used at various points along the Atlantic Coast, and the North German Lloyd and Hamburg-American trans Alantic lines, as well as the Metropolitan (coastwise) line, have their versels equipped with the receivers. The Lucanla of the Cunard (Line

will be equipped on her next arrival in New York. Of the company's

Will be equipped on her next arrival in New York. Of the company's total assets on Sept. 1, 1904, aggregating \$303,616, the development of patents represented \$6:6.373.
Directors.-Henry L. Higginson. President. Boston; Harry Burnett, Treasurer; J. P. Revnolds Jr., R. M. Burnett. Robert F. Perkins, Joseph B. Millett. Sir William C. Van Horne, H. M. Sonle, Thomas Allen and Robert Bacon. Office, Boston, Mass.

Taylorville (111.) Gas & Electric Co.-See page 2406.

Union Bag & Paper Co.-Bond Issue.-The directors have issued a circular recommending that an issue of \$5,000,000 bonds be authorized to provide for funding floating debt, acquiring additional timber lands and other property, in-creasing working capital, etc. The new bonds will be 5 p. c. 25-year gold bonds, redeemable at 105 and interest upon 60 days' notice, and provided with an annual sinking fund equal to 2 p. c. of the aggregate principal amount of all bonds then outstanding, plus interest on bonds retired thereby. The circular proposes the issue forthwith of \$3,000,000 of the bonds for the purposes aforesaid; the remainder. \$2 (100,000, will be retained for the future uses of the company, if so required, all properties acquired therewith to be made subject to the mortgage. Of the amount now to be issued, \$2,200,000, will be underwritten and the remaining \$800,000 given in payment for timber properties. The circular further says:

payment for timber properties. The circular further says: The great advantage of acquiring sufficient timber lands to provide for the company's uses is beyond question. In 1901 purchases thought to be sufficient were made, but since then the company's annual con-sumption of wood has risen from 18,000 cords to 73,000 cords -largely because the company now makes its own sulphite—and the amount estimated for the present year is 100,000 cords. Without the acquisi-tion of additional timber lands it would be necessary to obtain at least two-thirds of this by purchase—an unsafe and expensive method. The price of wood has increased and is increasing rapidly. The com-pany's purchases in 1904 average \$2 per cord over those of 1902. A contract has recently been made for the purchase of 600 square miles of timber adjoining our present properties, and negotiations are pending for the purchase of another similar tract of 1,300 square miles. These purchases, when completed, will secure to the company a permanent wood supply sufficient for all needs that now can be fore-seen, and the cost should be at least \$150 per cord less than the pres-ent prices. A concentration of our manufacturing operations will surely result

ent prices. A concentration of our manufacturing operations will surely result in material benefit, and to this end it is proposed to add one or more large paper machines to the Sandy Hill plant, with a view to disposing of outlying plants. The undeveloped water power at Hadley can profitably be employed through the construction of another wood-pulp mill there, as the company needs the product of such a mill. It is estimated that \$3,000,000 in aggregate principal amount, of bonds will retire the present floating debt, complete the purchase of said timber tracts, provide for additional paper mechinery and for the proposed construction at Hadley, and increase the working capital. A careful estimate establishes beyond reasonable doubt that the addi-tional net income to be obtained from the expenditure of this money will not only take care of all interest and sinking fund charges, but will substantially increase the surplus earnings. The sinking fund will retire substantially the whole issue of bonds at their maturity.

The preferred shareholders will vote June 20 on making the issue. -V. 80, p. 1422.

United Batton Co.-Reorganization Plan.-A committee consisting of Edwin S. Schenck (President Citizens'-Central National Bank), Chairman ; Walter E. Frew (Vice-President Corn Exchange Bank), Henry H. Bowman (Pres. Springfield National Bank) and Charles R. Connell (Treas. Scranton Button Co.), with F. N. B. Close as Secretary, 7 Wall St., has issued under date of June 1 a plan of reorganization, which has received the approval of the Industrial Trust Co. of Providence, Charles E. Stickney of Springfield and other bondholders; also of the Corn Exchange Bank and the Citizens' Central National Bank of New York and other creditors.

The plan provides that a new company be organized under the laws of New York, with capitalization as follows:

par for par.

Capital stock, all to be issued to four trustees (the present re-organization committee) as collateral security for the pay-

ment of the income bonds and general mortgage bonds and to ensure the application of the earnings to the redemption of both said classes of bonds as rapidly as shall seem wise

\$800.000

to the trustees. Estimated amount. Negotiable certificates representing this stock, and upon payment of all onteranding bonds the stock certificates themselves shall be distributed among the bondholders and general oreditors in proportion to the amount of their respective claims.

d The new mortgage shall contain a clause providing that the existwith the said trust mortgages may be retired by consolidating the same to pay the existing underlying mortgages, the lien of the same to be prior to the present new mortgage.

NOTE. - The holders of outstanding "service contracts" shall be treated as unsecured creditors and their claims liquidated by agree-ment or arbitration.

Participating holders of the floating, debt secured by deposit of bonds as collateral shall receive income bonds upon the claim as if unsecured, together with general mortgage bonds in an amount equal to their present holdings, respectively, the latter to be held as collat-eral security for the income bonds and to pass into the treasury of the new company when the income bonds shall have been redsemed.

The bondholders and creditors, to participate in the plan, must deposit their bonds and claims with the Bankers' Trust Co., depositary, New York .- V. 79, p. 2592.

United Electric Light Co. of Springfield, Mass.- New Stock.-Massachusetts Gas & Electric Light Commission has authorized the company to issue \$200,000 new stock at \$160 per share (par, \$100), \$82,000 to provide for notes and \$118,-000 for further additions and improvements.-V 77, p. 255.

Reports and Documents.

OREGON SHORT LINE RAILROAD COMPANY.

ABSTRACT OF MORTGAGE OF DEC. 1, 1904 SECURING FOUR PER CENT REFUNDING TWENTY-FIVE YEAR GOLD BONDS, DATED DEC. 1, 1904, DUE DEC. 1, 1929.

No.

PARTIES.

OREGON SHORT LINE RAILROAD COMPANY, (hereinafter called "Rallroad Company"), party of the first part, UNION PACIFIC RAILBOAD COMPANY, party of the second part, and THE EQUI-TABLE TBUST COMPANY OF NEW YORK, (hereinafter called "Trustee,") party of the third part.

PREAMBLE.

WHEBEAS, for the purpose of paying the principal of and the interest and premium upon its Four Per Cent and Participating Twenty-Five Year Gold Bonds, and for other corporate purposes, the Railroad Company, party of the first part, by resolution adopted by its Board of Directors, has deter-mined to issue a series of bonds (coupon and registered) for an aggregate principal sum not exceeding \$100,000,000, to be designated as its "Four Per Cent Refunding Twenty-Five Year Gold Bonds," to be payable in gold coin of the United States of America of or equal to the present standard of weight and fineness on Dec. 1, 1929, at the office or agency of the Railroad Company, in the City of New York, to bear interest at the rate of 4 per cent per annum from Dec. 1, 1904, payable semiannually at said office or agency in like gold coin on June 1 and Dec. 1 in each year, and to be redeemable at the option of the Railroad Company, or its successors, at a premium of 21/2 per cent and accrued interest on Dec. 1, 1907, or on any semi-annual interest day thereafter upon previous notice in the manner hereinafter provided.

FORM OF COUPON BOND.

<text><text><text><text><text><text><text>

FORM OF INTEREST COUPON.

On the first day of , 19, Oregon Short Line Railroad Company will pay to bearer, at its office or agency in the City of New York, Twenty Dollars in gold, without any deduction for taxes, being six months' interest then due on its Four Per Cent Refunding Twenty-Five Year Gold Bond No. unless said bond shall have been previously redeemed.

Treasurer.

\$20.00

FORM OF TRUSTEE'S CERTIFICATE.

This is to certify that this bond is one of the bonds described in the within mentioned mortgage and deed of trust dated De-cember 1, 1904, executed by Oregon Short Line Railroad Com-pany to the undersigned, as Trustee.

THE EQUITABLE TRUST COMPANY OF NEW YORK, Trustee.

Secretary.

AND WHEREAS, the payment of the principal of said coupon and registered bonds and of the interest thereon as the same shall mature is to be guaranteed by the said Union Pacific Railroad Company, party of the second part hereto, pursuant to the provisions hereinafter contained, such guaranty to be endorsed on each of the said bonds in the form, or substantially the form, following, viz.:

By

FORM OF GUARANTY.

For Value Received, Union Pacific Railroad Company uncon-ditionally guarantees to the owner of the within bond the punctual payment of the principal and interest thereof as the same mature, and agrees itself punctually to pay the said principal and interest if default in the payment thereof be made by Oregon Short Line Railroad Company. In Witness Whereof, Union Pacific Railroad Company has caused these presents to be signed by its President, or one of its Vice-Presidents, and its corporate seal to be hereunto affixed and to be attested by its Secretary or an Assistant Secretary, as of December 1, 1904.

as of December 1, 1904.

Assistant Secretary.

DECLARATION OF TRUST.

BUT IN TRUST NEVERTHELESS for the equal and proportionate benefit and security of all present and future holders of the bonds issued and to be issued under this indenture, without preference, priority or distinction, viz.:

ARTICLE FIRST.

EXECUTION OF BONDS.

The coupon bonds shall be of the denomination of \$1,000 each, and the registered bonds \$1,000 each, or of such multiples thereof as the Board of Directors or Executive Committee shall from time to time authorize. The coupon bonds shall be numbered consecutively from 1 to 100,000, inclusive. The coupon bonds shall bear date Dec. 1, 1904, and the registered bonds shall bear date of the time of their issue.

In case the officers who shall have signed any of said bonds shall cease to be such officers of the Railroad Company, such bonds, nevertheless, may be sold by the Railroad Company as though the persons who signed or sealed such bonds had not ceased to be officers.

The coupons to be attached to coupon bonds shall be authenticated by the engraved fac-simile signature of Frede. V. S. Crosby, the present Treasurer of the Railroad Company, and the Railroad Company may adopt and use for that pur-pose the engraved signature of the said Crosby, notwithstanding the fact that he may have ceased to be such Treasurer at the time when such bonds shall be actually certified and de-livered or sold. The first coupon shall be payable June 1, 1905, and shall represent interest to that date from Dec. 1, 1904. The registered bonds shall bear interest only from the first day of June or December as the case may be, next preceding their respective dates of issue.

Only such bonds as shall bear thereon endorsed the Trustce's certificate substantially in the form hereinbefore set forth, excented by the Trustee, shall be secured by this indenture, and such certificate shall be conclusive evidence that the bond so certified has been duly issued hereunder. Before certifying or delivering any coupon bond, all coupons appertaining thereto then matured shall be cut off and cancelled.

REGISTRATION OF BONDS.

The Railroad Company shall keep at an office or agency, to be maintained by it in the City of New York, books for the registration and transfer of bonds issued hereunder, which shall at all reasonable times be open for inspection by the Trustee and any holder of bonds issued hereunder.

REGISTRATION OF COUPON BONDS.

The holder of any coupon bond may have the ownership thereof registered on said books and such registration noted on the bond. After such registration no transfer shall be valid unless made on the company's books by the registered holder in person or by his duly authorized attorney, and similarly noted on the bond; but the same may be discharged from registration by being in like manner transferred to bearer, and thereupon transferability by delivery shall be restored; and such bond may again from time to time be registered, or transferred to bearer as before. Such registration, however, shall not affect the negotiability of the coupons.

EXCHANGE OF COUPON AND REGISTERED BONDS.

The holder of any coupon bond may at any time surrender the same for cancellation with all unmatured coupons thereto appertaining and receive in exchange therefor a like amount of the principal thereof in registered honds without coupons, as hereinafter provided; and, the registered holder of any registered bond or bonds, at his option, may at any time surrender the same for cancellation and receive in exchange therefor a like amount of the principal thereof in coupon bonds as hereinafter provided. The registered bonds shall be transferable by the registered holder thereof, in person, or by his duly authorized attorney, on the said books of the Railroad Company at its said office or agency, upon surrender and cancellation thereof; and, thereupon a new registered bond, having endorsed thereon the same serial numbers of coupon bonds as are endorsed on the registered bonds so surrendered will be issued in exchange therefor.

TRANSFER CHARGE.

For any exchange of coupon bonds for registered bonds, or of registered bonds for eoupon bonds, and for any transfer of registered bonds, the Railroad Company, at its option, may require the payment of a sum sufficient to reimburse it for any stamp tax or other governmental charge connected there-with which the Railroad Company may be required to pay thereon, and also of the further sum of One Dollar for each new bond issued upon such transfer or exchange.

NEW BONDS ISSUABLE FOR BONDS MUTILATED OR DESTROYED.

In case any bond shall become mutilated, or be destroyed, the Railroad Company, in its discretion, may issue, and therenpon the Trustee shall certify and deliver, a new bond of like tenor and date, bearing the same serial number as the one mutilated or destroyed. In case of destruction, the applicant shall furnish to the Railroad Company evidence to its satisfaction, of the destruction of such bond or coupons, and also such security or indemnity as may be required by said Railroad Company.

bonds secured hereby equal in face value to the par value of the shares of the Northern Securities Company and to 80 per cent of the appraised value of the shares of the Southern Pacific Company and The Oregon Railroad & Navigation Co., such value to be ascertained by appraisement in the mode provided in Section 4 of this Article.

ADDITIONAL BONDS-OTHER COLLATERAL.

SECTION 3. Whenever the Railroad Company from time to time hercafter shall deliver to the Trustee, to be held under this indenture, certificates for additional shares of any of the issues of stock hereinbefore described or for any of the shares of stock, bonds or other securities issued or which hereafter may be issued by any corporation owning or operating by lease or otherwise any line of railroad or line of ships or engaged chiefly in leasing or otherwise furnishing rolling stock to railroad companies or in furnishing by lease or otherwise terminal facilities to railroad companies (said securities, except bonds payable to bearer being endorsed for transfer, or accompanied by instruments of transfer, in blank), the Trustee shall deliver to the Railroad Company an amount of bonds of the issue secured by this indenture equal in face value (1) to the par value of any additional shares of stock of the Northern Securities Co. so deposited upon which no distribution shall have been made, or (2) to 80 per cent of the value of any other shares of stocks, bonds or other securities so tendered and received to be ascertained by appraisement as provided in Section 4 of this Article.

APPRAISEMENT OF COLLATERAL.

SECTION 4. Every appraisement of any shares of stock, or of any bonds or other securities, whether upon delivery thereof to the Trustee or upon the withdrawal and substitution thereof as provided in Article Sixth hereof shall, except as herein otherwise provided, be made as follows:

The Railroad Company shall deliver to the Trustee an instrument in writing under its corporate seal, appointing some person as its appraiser, and within five days thereafter the Trustee shall deliver to the Railroad Company an instrument in writing under its corporate scal, appointing another person as its appraiser; and the two appraisers thus appointed shall appoint a third appraiser. The appraisement signed by any two of such appraisers shall be deemed final and binding and shall be full warrant to the Trustee for the certification and delivery, under Sections 2 and 3 of this Article, of bonds of the issue secured by this indenture equal in face value to 80 per cent of the value of the stocks, bonds or other securities as so appraised by said appraisers, and received by the Trustee.

ARTICLE THIRD.

RAILROAD COMPANY, COVENANTS TO PAY PRINCIPAL AND INTEREST PUNCTUALLY, TAX FREE.

SECTION 1. The Railroad Company will punctually pay the principal and interest on said bonds, according to the true intent and meaning thereof, without deduction from either principal or interest for any tax or taxes which the Railroad Company may be required to pay thereon, or to retain therefrom, under any present or future law of the United States of America, or of any State, County or municipality therein. When and as paid all coupons shall forthwith be cancelled.

INTEREST PAYMENTS NOT TO BE EXTENDED.

SECTION 2. The Railroad Company will not, directly or indirectly, extend or assent to the extension of the time for payment of any coupon or claim for interest upon any bonds secured hereby, and it will not be a party to any arrangement therefor by purchasing or funding said coupons or claims for interest or in any other manner. Coupons or claims for interest so extended shall not be entitled, in case of default hereunder, to the benefit or security of this indenture, except subject to the prior payment in full of the principal of all bonds issued hereunder, and of all coupons and claims for interest, the payment of which has not been so extended; the intention of this agreement being to prevent any accumulation after ma-turity of eoupons or of claims for interest upon registered bonds.

TAXES AND ASSESSMENTS TO BE PAID.

ARTICLE SECOND.

ISSUE LIMITED TO \$100,000,000.

SECTION 1. The aggregate amount of all bonds which may be issued and ontstanding under this indenture shall never at any one time exceed the principal sum of \$100,000,000.

LIMIT OF PRESENT ISSUE.

SECTION 2. The Railroad Company shall deliver to the Trustee, to be held under this indenture, the certificates hereinbefore in the granting clause hereof described, and the Trustee shall deliver to the Railroad Company an amount of or trust company in said city for such purposes.

SECTION 3. The Railroad Company will from time to time duly pay all taxes, assessments and other governmental charges lawfully imposed, the lien of which might be held prior or superior to the lien of this indenture, so that the priority of the lien of this indenture shall be fully preserved.

SECTION 4. The Railroad Company covenants that this in-denture is and will always be kept a first and prior lien upon all the shares of stock described in the granting clauses hereof, and upon all other shares of stock, bonds and other securities which at any time may be subject to the lien hereof.

AGENCY IN NEW YORK.

SECTION 5. The Railroad Company will either keep an agency in the City of New York, where bonds and coupons may be presented for payment and where demands in respect of said bonds and coupons may be served, or designate by written notice to the Trustee, and by advertisement, a bank

NOT TO INVOKE STAY OR REDEMPTION LAWS.

SECTION 6. The Railroad Company will not at any time take advantage of any stay or extension law, nor of any law providing for valuation or appraisement of the shares of stock, bonds or other securities, at the time subject to the lien of this indenture, prior to any sale to be made pursuant to any provision herein; nor will it claim any right to redeem the shares of stock, bonds or other securities so sold; and it hereby expressly waives all benefit of any such laws, and covenants that it will not impede the execution of any power herein granted and delegated to the Trustee.

FURTHER ASSURANCE.

SECTION 7. The Railroad Company will also execute such further deeds for the better confirming unto the Trustee all and singular the shares of stock, bonds and other securities mortgaged and pledged hereunder, as the Trustee or a majority in amount of the holders of bonds issued hereunder shall reasonably require.

ARTICLE FOURTH.

DEFAULT, TRUSTEE TO COLLECT INCOME FROM SECURITIES PLEDGED.

SECTION 1. In case of default in the payment of any instalment of interest or in the payment of the principal of any bond, then, during such default, all interest, dividends and iucome upon the deposited shares of stock, bonds and other securities subject to the lien of this indenture shall be collected by the Trustee and shall be applied as follows:

FIRST.—To pay any sum which at the time may be due to the Trustee for expenses or advances made or incurred pursuant to this indenture.

SECOND.—To pay the semi-annual interest which shall be due or payable on the bonds hereby secured, with interest on overdue instalments of interest, at the rate of 4 per cent per annum in the order in which the said interest shall have be-come due, ratably and without discrimination among the holders of the bonds and coupons entitled thereto.

THIRD.—To pay to the Railroad Company any balance; pro-vided, however, that if the Railroad Company be at the time in default in the payment of principal any such balance shall be disposed of in the same manner as proceeds of the sale of the pledged shares of stock, bonds and other securities.

DEFAULT FOR THREE MONTHS, PRINCIPAL MAY BE DECLARED DUE.

SECTION 2. In case of default for three months (1) in the payment of interest on any bond hereby secured; or (2) in the due performance of any other covenant herein, after written notice thereof to the Railroad Company from the Trustee or from the holders of 5 per cent of the bonds then outstanding; then, and in either of said cases the Trustee may, and upon the written request of the holders of a majority in amount of the bonds hereby secured then outstanding shall, by notice in writing delivered to the Railroad Company. declare the principal of all bonds secured hereby then outstanding to be due and payable immediately.

If at any time after the principal shall have been so declared due and payable, all arrears of interest (with interest at the rate of 4 per cent per annum on overdue instalments of interest) and the expenses and compensation of the Trustee, and all advances made or incurred by the Trustee pursuant to this indenture, shall be paid by the Railroad Company or be collected out of the accrued dividends and interest upon the securities then on deposit hereunder before any sale thereof shall have been made, then and in every such case the holders of a majority in amount of the bonds hereby secured then outstanding, by written notice to the Railroad Company and to the Trustee, may waive such default.

DEFAULT-TRUSTEE MAY SELL COLLATERAL OR BRING JUDICIAL PROCEEDINGS.

SECTION 3. In case of default made and continued as aforesaid; or in case of default in the payment of the principal of any bond hereby secured, then, and in each and every such case, the Trustee may, and upon the request in writing of the holders of a majority in amount of the bonds hereby secured at the time outstanding shall, sell at public sale in the manner hereinafter provided, the shares of stock, bonds and other securities subject to this indenture, either in one lot or in several lots, as may be directed in writing by the holders of a

interest and to be credited therefor on the purchase price to the extent of the value of such bond and interest, upon a distribu-tion among the bondholders of the net proceeds of such sale after making the deductions allowable under the terms hereof for the expenses of the sale and otherwise. At any such sale the Trustee or any bondholders or their agents may bid for and purchase such shares of stock, bonds or the deductions and purchase such shares of stock, bonds or

other securities. The proceeds of any such sale, together with any other sums which may then be held by the Trustee, shall be applied by the Trustee as follows:

First. To the payment of the costs of sale, and to the dis-charge of all liabilities (including taxes, if any, subject to which such sale shall not have been made) incurred and advances or disbursements made by the Trustce.

Second. Any surplus then remaining, to the payment of the whole amount owing or unpaid upon the bonds hereby secured for principal and interest, with interest at the rate of 4 per cent per annum on the overdue instalments of interest ratably ac-cording to the aggregate amount of principal and interest with-out preference or priority. In case of default as aforesaid, the Trustee shall be entitled to recover judgment against the Railroad Company for the whole amount due and unpaid; and, in case of a sale of the securities, the Trustee shall be entitled to recover judgment against the Railroad Company for any portion of the debt remaining unpaid, with interest.

DEFAULT-PROVISIONS CUMULATIVE.

Except as herein expressly provided to the contrary, no remedy herein is intended to be exclusive of any other remedy, but every remedy herein provided shall be cumulative, and shall be in addition to every other remedy now or hereafter existing at law or equity.

ARTICLE FIFTH.

CONTROL OF PLEDGED SECURITIES.

So long as there shall be no default in the payment of the principal or interest of any of the bonds hereby secured, the Railroad Company shall have the right (1) to vote said stock, for any purpose not inconsistent with the provisions of this indenture; (2) to receive for its own use all dividends and income in respect of any shares of stock held by the Trustee hcreunder; (3) all interest paid on any bonds pledged hereunder, but no portion of the principal of any bond; nor any interest paid out of the proceeds of any sale of property.

PRINCIPAL OF SECURITIES PLEDGED TO BE COLLECTED BY TRUSTEE.

SECTION 4. In case any sum shall be paid on account of the principal of any bonds held by the Trustee hereunder, or on account of the interest on any such bonds out of proceeds of property, or in case, upon the dissolution or liquidation of any company, any sum shall be paid upon any shares of stock, bonds or other securities held by the Trustee hereunder, then, in any such case, any such sum, unless applied to the purposes specified in Sections 7 and 8 of this Article, shall be received by the Trustee and applied as provided in Section 6 of Article Sixth hereof to the purchase or redemption of bonds hereunder.

SECTIONS 5-9. These sections contain provisions respecting the foreclosure and reorganization of companies whose bonds may be pledged hereunder.

PLEDGE NOT TO PREVENT CONSOLIDATION.

SECTION 10. The pledge of stock or other securities shall not prevent the consolidation or merger with the Railroad Company, or with any other corporation whose shares are held by the Trustee hercunder, of any corporation whose shares of stock, bonds or other securities are so pledged, or the lease, sale or transfer by any of such last-mentioned corporations of its properties, to the Railroad Company or to any such corporation whose shares are held hereunder as aforesaid; provided that such consolidation, merger, lease or transfer shall be made only upon such terms as not to impair security for the bonds issued hereunder.

ARTICLE SIXTH.

WITHDRAWAL OF PLEDGED SECURITIES.

SECTION 1. The Railroad Company shall have the right at any time so long as it shall not be in default hereunder to withdraw, subject to the provisions of Section 4 of this Article, any stocks, bonds or other securities held by the Trustee by lodging with the Trustee a copy of a resolution of its Board of Directors or Executive Committee, signed by its Secretary or an Assistant Secretary under its corporate seal, and by paying to the Trustee in cash, or in bonds issued hereunder taken at their face value, or in shares of said Northern Securities Company taken at the par value thereof, an amount equl to 80 per cent of the value of such stocks, bonds or other securities specified in said resolution for withdrawal as ascertained by appraisement at the time of their delivery to the Trustee hereunder. Provided, however, that if any distribution of assets shall have been made upon any shares of the Northern Securities Company, then such shares shall be receivable only at the value thereof ascertained by appraisement in the manner provided in Section 4 of Article Second hereof.

majority in amount of said bonds, or, in the absence of such direction, as may seem best to the Trustee.

Or the Trustee may forthwith proceed by suits in equity or at law, either for the specific performance of any covenant or agreement contained herein, or for the foreclosure of the lien and pledge herein, provided for, or for the enforcement of any other appropriate legal or equitable remedy, as the Trustee shall deem most effectual.

PROVISIONS RESPECTING SALE AFTER DEFAULT. Then follow sundry provisions respecting sale after default,

among them the following:

Notice of sale shall be published not less than once in each

Notice of sale shall be published not less than once in each week for at least four successive weeks prior to such sale in a newspaper published in the City of New York. In case of such sale the whole of the principal sum of the bonds hereby secured shall, at the option of the Trustee, or of the holders of a majority in amount of the bonds hereby secured then outstanding, become immediately due and payable. In case of any sale as in this Article provided, the purchaser shall be entitled to apply towards the payment of the purchase price any bonds issued hereunder and any matured and unpaid

SUBSTITUTION OF COLLATERAL.

SECTION 2. Also on similar resolutions and conditions the Railroad Company shall have the right to deliver to the Trustee in exchange therefor shares of stock or securities of the corporations mentioned in Section 2 of Article Second hereof or of any corporation of the character mentioned in Section 3

of Article Second hereof, to an amount equal in value to the value of the stocks, bonds or other securities withdrawn.

SECTION 3. Upon the distribution by the Northern Securi-ties Company of the shares or property or money held by it upon its liquidation or partial liquidation the Trustee may, and upon request of the Railroad Company shall, receive the portion thereof to which the shares pledged hereunder entitle it.

RE-APPRAISEMENT REQUIRED.

SECTION 4. When any withdrawal or substitution of securities hereunder shall be requested the Trustee shall require an appraisement of the remaining stocks, bonds or other securities held by it; and if it shall be found that the outstanding bonds hereunder, taken at their face value, exceed in amount the sum of (1) any cash held by the Trustee, and (2) the par value of any shares of said Northern Securities Company upon which no distribution shall have been made then held by the Trustee hereunder, and (3) 80 per cent of the value of the remaining stocks, bonds or other securities held by the Trustee, then the Railroad Company shall forthwith, and prior to any withdrawal or substitution of securities hereunder, make good the deficiency.

SECTION 5. In appraising stocks, bonds or other securities actively dealt in upon the New York Stock Exchange, the appraised value thereof may, in the discretion of the appraisers, equal, but shall not exceed, such a value as shall be reached by averaging the last reported sale thereof each day upon such exchange during the then last preceding twelve calendar months.

CASH TO BE APPLIED TO RETIREMENT OF BONDS.

SECTION 6. Any cash received by the Trustee under any of the provisions of this Article may, and at the request of the Railroad Company shall, be used for the purchase and cancellation of bonds issued hereunder at a price satisfactory to the Railroad Company, not exceeding $102\frac{1}{2}$ per cent. of the face value thereof and accrued interest; but after Dec. 1, 1907, all such cash not so applied to the purchase of bonds shall be applied to the redemption of bonds in the manner provided in Article Seventh hereof.

ARTICLE SEVENTH.

BONDS SUBJECT TO CALL AFTER DEC. 1, 1907, AT 1021/2.

SECTION 1. The Railroad Company, at its option, may re-deem all or any of the bonds secured by this indenture at a premium of $2\frac{1}{2}$ per cent and accrued interest on Dec. 1, 1907, or on any semi-annual interest day thereafter. Not less than three months' previous notice of the numbers of the bonds drawn for redemption, or (as the case may be) of the redemption of all of said bonds then outstanding shall be given by mail to the holders of registered bonds and to the holders of coupon bonds by publication at least once a week for twelve successive weeks in a newspaper published in the Borough of Manhattan, in the City of New York.

The bonds so redeemed may be used by the Railroad Company at their face value, in payment for any stocks, bonds or other securities withdrawn as provided in Article Sixth, of this in-denture. In case of the cancellation of any bonds on the redemption thereof or the use thereof in payment for securities so withdrawn the issue entitled to the security of this indenture shall be correspondingly reduced.

ARTICLE EIGHTH.

CONCERNING THE TRUSTEE.

The provisions respecting the trustee, like all the other provisions of the deed of trust, are most explicit. The following are some of these:

NOTICE OF DEFAULT.

The Trustee need not take any action to enforce the trusts hereby created, unless furnished reasonable indemnity against all expense or liability; nor take notice of any default hereunder, unless notified in writing by the holders of at least 5 per cent in amount of the bonds then outstanding, nor take action in re-spect of any default unless requested by instruments in writing signed by the holders of not less than 25 per cent in amount of the bonds the bonds.

25 PER CENT OF BONDS REQUIRE ACTION.

Upon the written request of the holders of 25 per cent in amount of the bonds, in case of any continuing default as pro-vided in Article Fourth hereof, it shall be the duty of the Trus-tee, upon being indemnified as herein provided to take all need-ful steps for the protection of the bonds hereby secured, as coun-sel learned in the law shall deem most expedient.

75 PER CENT OF BONDS CONTROL ACTION.

The holders of 75 per cent in amount of the bonds then out-standing shall have the right to control the method and place of conducting all proceedings for any sale of the shares of stock, bonds and other securities at any time subject to the lien of this indenture or for the foreclosure of this indenture, or for the appointment of a receiver, or any other proceedings here-under. under.

TRUSTEE MAY BE REMOVED BY 75 PER CENT OF BONDS.

The Trustee may be removed at any time by instruments in writing under the hands of the holders of 75 per cent in amount of the bonds hereby secured and then outstanding.

NEW TRUSTEES TO BE APPOINTED BY MAJORITY OF BONDS.

New IROSIEES TO BE APPOINTED BY MAJORITY OF BONDS. In case at any time the Trustee shall resign or be removed or otherwise become incapable of acting, a successor or successors may be appointed by the holders of a majority in amount of the bonds then outstanding, by instruments in writing; provided, nevertheless, the Railroad Company, while not in default here-under, may, by order of its Board of Directors, appoint a trus-tee to fill such vacancy until a new trustee shall be appointed by the bondholders. Every trustee shall be a trust company in good standing, doing business in the Borough of Manhattan, City of New York, and having a capital and surplus aggregating at least \$2,000,000, if there be such a trust company willing and able to accept the trust upon reasonable or customary terms.

INDIVIDUAL BONDHOLDERS CANNOT SUE.

No holder of any bond or coupon shall have any right to in-stitute any suit for any remedy hereunder, except upon written notice of such default; nor unless, also, the holders of 25 per cent in amount of the bonds shall have made written request upon the Trustee to institute such action and have offered adequate indemnity; it being intended that no one or more hold-ers of bonds and coupons shall disturb the lien of this indenture, or enforce any right hereunder, except in the manner herein provided and for the equal benefit of all holders of such out-standing bonds and coupons.

ARTICLE NINTH.

MISCELLANEOUS PROVISIONS.

This article treats of the making and proving of bondholders' instruments and other matters of detail.

ARTICLE TENTH.

GUARANTY OF UNION PACIFIC RAILROAD COMPANY.

In consideration of the benefits and advantages to be derived by the said Union Pacific Railroad Company, party of the second part, from the issue and sale of the bonds to be issued under and secured by this indenture and in consideration also of the sum of One Dollar to it paid by the party of the third part, and of other valuable considerations to it moving, the said Union Pacific Railroad Company has covenanted and agreed and by these presents does covenant and agree to and with the Railroad Company and to and with each and every of the holders of the Four Per Cent Refunding Twenty-Five Year Gold Bonds to be issued under and secured by this indenture, and to and with the party of the third part, for the benefit of such holders from time to time of such bonds, or of the coupons thereto, as follows, viz.:

SECTION 1. The Union Pacific Railroad Company eovenants and agrees to and hereby does unconditionally guarantee to the owners thereof the punctual payment by the Oregon Short Line Railroad Company, party of the first part, or its successors, of the principal and interest of all bonds of said party of the first part, or its successors, which may be issued or reissued under this indenture, as the same mature, and agrees itself punctually to pay the said principal and interest if default in the payment thereof be made by the Railroad Com-pany, and further covenants and agrees that it will cause its covenant of guaranty, duly executed by one of its Vice-Presidents, under its corporate seal, attested by its Secretary or one of its Assistant Secretaries, to be placed on each of said bonds in the form, or substantially the form, following [see the guaranty under the form of bond above.—Ed.]:

Light, Heat & Power Co., are described as follows:

Light, Heat & Power Co., are described as follows: First mortgage 5. p. c. sinking fund gold bonds of \$500 each; dated Feb., 1905; due Feb., 1935, but redeemable at 105 and interest after Feb. 1, 915; interest payable Feb. and Ang. at office of Knickerbocker Trust Co., New York. Mortgage trustees, Frederick L Eidridge and W. B. Randall, officers of said trust company. Authorized capitaliza-tion: 5 p. c. bonds (fasued \$92,000), \$105,000; 5 p. c. preferred stock (fasued \$22,500), \$27,500; common stock, \$100,000. The \$13,000 bonds unissued can only be sold to provide 85 p. c. of value of exten-sions and improvements. A consolidation of Citizane' Gas. Lt. & Fuel Co., Taylorville Electric Co. and the steam-heating plant of Taylor-ville. Annual sinking fund, 1 p. c. of bonds outstanding 1910 to 1914; after 1914 2 p. c. Estimated population of Taylorville 6,000. This fesue is guaranteed, both as to principal and interest, by National Light, Heat & Power Co. [which see for guaranty] Net earnings of the two companies in 1904 aggregated over \$10,000. Daily output of gas 18,000 cubic feet; there are 7 miles of mains. Supplies to the city 20 arc lights of 2,000 o. p. and 180 32 o. p. lamps; there are 3,270 incandescent lights in stores and residences on meter system. Westminster Heights Co. Brookive N. V. Mortgage

Westminster Heights Co., Brooklyn, N. Y.-Mortgage.-This company has made two mortgages covering property at Avenues J, K, L and M, Nostrand Ave. and East 38d St. to

Co., as trustee, to secure \$450,000 bonds, and (2) the other, a second mortgage, to the D. & M. Chauncey Real Estate Co. for \$85,000, Capital stock, \$300,000, all outstanding. Directors: William H. Reynolds, President; Cornelius E. Donnellon, Vice-Pres., Horace C. DuVai, Treasurer; Francis V. Greene and Eversley Childs. William J. Duane is Sec. and Aest. Treas. Office, 59 Wall St.

Westmoreland Coal Co.-Notes Authorized.-The shareholders on May 25 duly approved the issue of the \$1,000,000 4½ p. c. ten-year notes which were sold some months ago to the Provident Life & Trust Co. The notes are payable in series, \$100,000 maturing each year. They were issued in connection with the purchase of the Penn Gas Coal Co. See V. 80, p. 1427, 1289, 717.

-J. S. & R. D. Farlee, 11 Wall Street, advertise in this issue an attractive list of investment bonds in lots of from \$25,000 to \$150,000 each, and embracing a number of steam railroad bonds, some street railway issnes and a block of New York City bonds. Detailed information and special circulars can be had from them on request,

Commercial Times.

COMMERCIAL EPITOME FRIDAY NIGHT, June 9, 1905,

A quiet condition of business has been experienced in many lines of merchandise. Climatic conditions over a considerable area of the Eastern States have not been favorable for a full development of the trade demand, unseasonably cool weather holding buyers in check. The iron and steel trades have been reported quiet, practically the only exception being in structural steel; but with an indicated decreased production of pig iron, future prospects for the market are considered more encouraging. A feature of the week that is receiving general attention is a move on the part of the Powers looking for peace between Japan and Russia. The reports from the West and South have reported favorable progress of the growing crops the past week.

Lard on the spot has continued to meet with a slow demand, and as there have been freer offerings there has been an easier drift to values. The close was flat at 7'80c. for prime Western and 7c. for prime City, The demand for refined lard has been quiet and prices have declined, closing at 7.40c. for refined for the Continent. Speculation in lard for future delivery has been moderately active. Larger receipts of hogs and a dull cash trade have prompted selling, under which prices have declined. The close was lower under selling by packers.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Rei.
July del'y			7.4212	7.35	7.30	7.20
Sept. del'y			7.80	7.55	7.50	7.40

The demand for pork has been of a small jobbing character and prices have been easier, closing at \$18 25@18 75 for mess, \$13 00@15 00 for short clear and \$15 02@15 50 for family. Cut meats have been quiet, but prices for pickled bellies, owing meats have been quiet, but prices for pickled bellies, owing to light stocks, have been well maintained, closing at $5\frac{3}{4}$ @6c. for pickled shoulders, $10010\frac{1}{5}$ c. for pickled hams and $7\frac{3}{4}$ @ $8\frac{3}{4}$ c. for pickled bellies, 16010 lbs, average. Beef has been quiet but steady at \$10 50011 50 for mess, \$12 00013 00 for packet, \$13 00014 00 for family and \$21 50022 00 for extra India mess in tcs. Tallow has been quiet but steady at $4\frac{1}{5}$ c. Stearines have been quiet and slighly easier, closing at 8c. for lard stearine and $7\frac{1}{2}$ @ $7\frac{3}{4}$ c. for oleo stearine. Cotton-seed oil has been fairly active, and closed firmer at $29029\frac{1}{5}$ c. for prime vellow. Butter has and closed firmer at 29@2914c. for prime yellow. Butter has been in fairly active speculative demand and firmer for the better grades, but the close was quieter at 17(@20) c. for creamery. Cheese has declined but the close was steady at $8\frac{1}{2}$ @9c. for State factory, full cream. Fresh eggs have held fairly firm for the better grades, closing at 17½@18c. for best Western.

Brazil grades of coffee have had only a light sale and as there have been freer offerings, Brazil appearing in the market as a seller of forward shipments at lower prices, there has been a slight yielding in prices. The close was dull at $7\frac{3}{4}$ c. for Rio No. 7 and 81-16c. for Santos No. 4. The demand for West India growths has been quiet and prices have been slightly easier, closing at $9\frac{1}{4}$ c. for good Cucuta and $10\frac{3}{4}$ @11c. for good average Bogota. Trading in the specula-tive market has been moderately active. Discouraged specu-lative holders have been sellers to liquidate their accounts. lative holders have been sellers to l'quidate their accounts, and there has been selling against purchases of coffee for shipment from Brazil; prices have declined. The close was (asy. Following were the closing asked prices:

June 6.15c. Sept. 6.35c. Dec. 6.65c. July 6.20c. Oct. 6.45c. Jan. 6.70c. Aug. 6.30c. Nov. 6.55c. March 6.80c.

Raw sugars have been quiet, both buyers and sellers being indifferent; prices have declined, closing at 45-16c. for centri-fugals, 96 deg. test, and 3 11-16c. for muscovado, 89 deg. test. Refined has had only a limited demand, but prices have held steady at 5.65c, for granulated. Pepper has been in fair de-mand and firm. Rice has been fairly active at advancing

prices. Teas have been quiet but steady. Kentucky tobacco has been in fairly active demand and has sold at firm prices. No large sales have been reported in the market for seed-leaf tobacco; still there has been a steady cemand for old stock, and with only limited supplies offerings, prices have ruled firm, Sumatra tobacco has been in better demand and at firm prices. Havana tobaoco has had a aoderate sale and prices bave been well maintained

COTTON.

FRIDAY NIGHT, June 9, 1905.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 101,681 bales, against 130,614 bales last week and 126,587 bales the previous week, making the total receipts since the 1st of Sept., 1904, 9,187,790 bales, against 7,009,114 bales for the same period of 1903-4, showing an increase since Sep.1, 1904, of 2,178,676 bales,

A quiet market has been reported for Straits tin, but London advices have been firmer and prices have advanced slightly, closing at 30@30 10c. Ingot copper has had a good sale to both exporters and the home trade, closing steady at 15c. for both Lake and electrolytic. The demand for lead has been quiet; prices have been unchanged at 4.50@4.60c. Spelter has been quiet, closing at 5'30's. Pig iron has been quiet, and with stock accumulating prices have been easier, closing at \$16 25@16 75 for No. 2 Northern and \$16 25@16 75 for No, 2 Southern,

Refined petroleum has continued in fair demand and steady, closing at 6'90c. in bbls., 9'60c, in cases and 4c, in bulk. Narhtha has been easier at 11c, for 71 degrees and 11c. for 76 degrees. Credit balances have been steady, closing at 1.270. Spirits turpentine has declined sharply but the close was steady at 651% o. for machine bbls. Rosins have declined, closing quiet at \$3 50 for common and good strained. Hops have been quiet and unchanged. Wool has been in moderate demand and firm,

THE CHRONICLE.

In addition to above exports, our telegrams to-night also give us the following amounts of cotton on shipboard, not cleared, at the ports named. We add similar figures for New York, which are prepared for our special use by Messrs. Lambert & Barrows. Produce Exchange Building.

Speculation in cotton for future delivery has been moderately active. During the first half of the week there was an easier tendency to prices. The private reports received from the South reported the weather conditions more favorable for the crop and this induced selling for the account of recent buyers to realize on their purchases. Bear interests also were reported more aggressive seliers. Wednesday the market showed a steadier tone and on Thursday prices made a fair advance. Reports were received on the market of too hot weather in Texas, and aggressive buying from New Orleans and local interests developed, which carried prices up and brought some shorts into the market to cover contracts. Considerable stress was placed on the large export movement of cotton during the week, and factors continue to report a good, steady demand for desirable spinning grades of cotton. Friday there was a fairly active and higher market. Liverpool advices reported a much greater advance in prices than expected, due, it was understood, to buying to cover short contracts in that market over the Whitsuntide holidays, from Saturday to Monday, inclusive. Continued reports of too hot weather in Texas and builing by New Orleans interests also were factors in the advance. Under profit-taking sales part of the advance was lost. The close was steady at a net gain for the day of 6@11 points. Cotton on the spot has advanced, closing at 8'70c. for middling uplands,

The rates on and off middling, as established Nov. 18, 1903, by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows.

Fair	Good Middling Tinged Even
Middling Fair 0.96 on	Strict Middling Tinged 0.06 off
Strict Good Middling 0.62 on	Middling Tinged 0.12 off
Good Middling 0.44 on	Strict Low Mid. Tinged 0.34 off
Strict Low Middling 0.14 off	Low Middling Tinged 0.50 off
Low Middling 0.38 off	Strict Good Ord. Tinged 0.84 off
Strict Good Ordinary 0.72 off	Middling Stained 0.50 off
Good Ordinary 1.00 off	
Strict Good Mid. Tinged 0.30 on	Low Middling Stained 1.50 off

On this basis the official prices for a few of the grades for the past week—June 3 to June 9—would be as follows.

MARKET AND SALES.

The total sales of cotton on the spot each day during the week are indicated in the following statement. For the convenience of the reader we also add columns which show at a glance how the market for spots and futures closed on same days.

	SPOT MARKET OLOSED.	FUTURES MARKET CLOSED.	Ex-	OF SPOT Oons. & spec.	0on-	TRACT. Total.
Tuesday Wednesday Thursday Friday	Quiet. Quiet, 10 pts. dc. Dull Dull. Quiet, 15 pts. ad. Quiet, 15 pts. ad.	Steady Quiet Very steady Very steady, Steady	4,000		200 100 300	500 133 4,253 100 4,986

The above figures for 1905 show a decrease from last week of 107,638 bales, a gain of 1,402,961 bales over 1904, an excess of 1,229,575 bales over 1903 and a gain of 1,006,129 bales over 1902.

AT THE INTERIOR TOWNS the movement-that is the receipts for the week and since Sept. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1903-04-is set out in detail below.

WEATHER REPORTS BY TELEGRAPH.-Telegraphic reports we have received this evening from the South denote that the weather has been favorable as a rule during the week. Over much of the cotton belt dry weather has prevailed, and where rain has fallen the precipitation has been light quite generally. Rapid progress has been made in clearing fields of grass, and improvement in the crop is noted by many of our corre-

spondents. At a few points rain is now claimed to be needed. Galveston, Texas.—The week's weather has been very ben-eficial to crops in Texas. Farmers are rushing chopping cotton and bringing it to a stand. Dry here all the week. Average thermometer 83, highest 87, lowest 77. Abilene, Texas.—We have had no rain during the week.

The thermometer has averaged 80, the highest being 94 and the lowest 86.

Brenham, Texas.-Rainfall for the week only a trace on The thermometer has averaged 81, ranging from one day. 71 to 91,

Corpus Christi, Texas.—There have been showers on two days during the week, the rainfall reaching twenty-four hundredths of an inch. The thermometer has ranged from 74 to 86, averaging 80.

Nagodoches, Texas.—There has been no rain during the week. Average thermometer 73, highest 95 and lowest 61.

Palestine, Texas.-We have had rain on one day during the week, to the extent of sixteen hundredths of an inch. The thermometer has averaged 82, the highest being 94 and the lowest 70.

Paris, Texas.-Dry weather has prevailed all the week. Thermometer has averaged 83, ranging from 72 to 94 San Antonio. Texas.—There has been rain on one day dur-

ing the week, the rainfall reaching twenty-six hundredths of an inch. The thermometer has ranged from 68 to 92, averaging 80.

Cuero, Texas.-The weather has been dry all the week. Average thermometer 82, highest 95, lowest 68.

Dallas, Texas.-We have had no rain the past week. The hermometer has averaged 82, the highest being 96 and the owest 68,

Henrietta, Texas.-We have had a trace of rain on one day luring the week. The thermometer has averaged 82, ranging from 68 to 96.

Kerrville, Texas .-- There has been no rain during the week. Average thermometer 79, highest 90 and lowest 68. Lampasas, Texas.-We have had no rain the past week.

The thermometer has averaged 78, the highest being 94 and the lowest 62.

Longview, Texas.-It has been dry all the week. The thermometer has averaged 83, ranging from 70 to 96. Weatherford, Texas.—There has been no rain during the

week. Average thermometer 84, highest 97 and lowest 70.

Fort Worth, Texas .- There has been no rain during the week. The thermometer has averaged 81, the highest being 94 and the lowest 68.

New Orleans, Louisiana.-There has been rain on one day during the week, the rainfall reaching one inch and nine hundredths. The thermometer has averaged 82.

Shreveport, Louisiana.-It has been dry all the week. The thermometer has ranged from 70 to 96, averaging 83

Leland. Mississippi .- We have had rain during the week, the precipitation reaching twenty five hundredths of an inch. The thermometer has averaged 75'1, the highest being 89 and the lowest 63.

Vicksburg, Mississippi.-Weather favorable for work and good progress made in getting crops in shape. We have had rain on one day of the past week, the rainfall being thirty-two hundredths of an inch. The thermometer has averaged 80, ranging from 69 to 92.

Helena, Arkansas.—Crops now need rain. Farming is progressing rapidly. Cotton is getting clean, and some looks well. There has been rain on one day of the week, the precipitation reaching ten hundredths of an inch. Average thermometer 77, highest 91 and lowest 63.

Little Rock, Arkansas.—Crops very much improved by hot weather and cultivation. We have had rain on one day of the week, the rainfall reaching three hundredths of an inch. The thermometer has averaged 80, the highest being 92 and the lowest 68.

Memphis, Tennessee. — With favorable weather for cultiva-tion, the condition of cotton is much improved. We have had heavy local rain on one day during the week, to the ex-tent of one inch and ninety-four hundredths. The ther-

mometer has averaged 78, ranging from 63 8 to 89 8. Nashville, Tennessee.—Crop is making good progress. There has been rain during the week, the rainfall reaching thirty-nine hundredths of an inch. The thermometer has ranged from 62 to 92, averaging 77.

Mobile, Alabama.-Fine weather has prevailed in the interior and cultivation and growth have made good prog-ress. Cotton fields are being rapidly cleared of grass. There has been no rain here during the week. Average thermometer 80, highest 95, lowest 66.

Montgomery, Alabama.—Present continued dry weather helps cultivation remarkably. Prospects good. We have had no rain during the week. The thermometer has aver-aged 79, the highest being 92 and the lowest 61. Selma, Alabama.—Fields are fast being cleared of grass and farmers are more cheerful. There has been no rain the

past week. Thermometer has averaged 87, ranging from 75 to 95.

Madison, Florida.-With improved weather conditions fields are being cleared of grass. There has been no rain dur-ing the week. The thermometer has ranged from 60 to 94, averaging 77

Augusta, Georgia.-Crops are improving. There has been rain on two days during the week, to the extent of two hundredths of an inch. Average thermometer 80, highest 96, lowest 65.

Savannah, Georgia.-Dry all the week. The thermometer has averaged 78, the highest being 95 and the lowest 67.

Charleston, South Carolina. - It has been dry all the week. The thermometer has ranged from 69 to 91, averaging 77.

Greenwood, South Carolina.-It has rained on two days of the week, the precipitation being sixty hundredths of an inch. Average thermometer 76, highest 87, lowest 66.

Stateburg, South Carolina.-No rain this week. Moisture is generally needed for cotton, which is beginning to suffer. The thermometer has averaged 79, the highest being 96 and the lowest 61.

Charlotte, North Carolina.—Conditions have been ideal the past week and farmers are rapidly getting rid of grass. There has been rain on one day of the week, the precipitation being seven hundredths of an inch. Thermometer has averaged 74, ranging from 55 to 92.

The following statement we have also received by telegraph, showing the height of the rivers at the points named, at 8[°]₄. M. June 9, 1905, and June 10, 1904.

GOVERNMENT WEEKLY COTTON REPORT. -- Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the following telegraphic reports on the crops in the Southern States for the week ending June 5:

Week ending june 5: NORTH CABOLINA —Excellent progress made in cultivating crops, which are slowly improving; cotton, where cultivated, has attained good stands and is regular, but many fisids are grassy and poor. SOUTH CAROLINA. - Cotton improved somewhat and is fine in p laces, though generally poor, lice prevalent, chopping unfinished, much cleaned, but considerable remains foul and some will be abandoned owing to the scarcity of labor, squares forming. GEORGIA.—Cotton being cultivated rapidly, growing nicely; bloom-ing in a few localities in south, chopping nearing completion in north, many fields still grassy, some complaint of lice, labor scarce. FLORIDA—Too much rain over part of cotton counties and some cotton still grassy, but bulk of crop worked and put in better condi-tion, plants growing nicely and taking on fruit, early planting shows bloom.

bloom.

ALABAMA.-Cotton grassy, but improving, cleaning active, though bor scarce, few more fields abandoned, some fields lousy, squares be-

Cotton Exchange was held on Monday June 5. The regular ticket was elected with very little opposition as follows: President, Walter C. Hubbard; Vice President, Henry H Wheeler; Treasurer, Albert L. Rountree; Board of Managers-James F. Maury, Hermann Hagedorn, Richard A. Springs, Edward M. Weld, John E. G. Higgins, Lamar L. Fleming, Charles W. Lee, John Grierson, William P. Jenks, James Riordan, Charles A. Shearson, John Tannor, Frank H. Wiggin, James W. Wenman, William Witherspoon. Trustee of the Gratuity Fund to serve three years, Otto Arens.

INDIA COTTON MOVEMENT FROM ALL PORTS .- The receipts of cotton at Bombay and the shipments from all India ports for the week ending June 8 and for the season from Sept. 1 to June 8 for three years have been as follows.

Receipts at-	190	4-05.	190	8-04.	1902-03.		
	Week.	Since Sept. 1.	Week.	Since Sept. 1.	Week.	Since Sept. 1.	
Bombay	62,000	2,394,000	42,000	1,990,000	44,000	2,283,000	

coming general, some blossoms. Mississippi —General improvement noted in cotton that has been worked, but many fields still grassy and plants small, cool nights retarded growth, many complaints of lice, chopping not finished, labor scarce.

LOUISIANA.—Cotton,¹ where cleaned, is improved, cultivation pushed but much of orop still in grass and some bottom land under water, llce damaging plant in some localities, squares forming on early cotton, planting continues in some sections. TEXAS. - Farm work pushed and much needed cultivation accom-

plished; crop prospects generally improved; favorable weather im-proved cotton in central and northern counties, cultivation and chop-ping progressing, but much cotton still foul and some to be planted, some fields will be abandoned, worms causing some damage, showers delayed work locally in sonth, but crop generally in promising condi-tion, mosily chopped and equares forming quite generally; boll weevel

and other pests causing some damage. <u>ABKANSAS.</u>—Cotton not ali planted, stand fair, plant small and dying in some sections, needs cultivation, chopping general. <u>TENNESSEE</u>.—Work progressed rapidly, cool nights injurions to cot-ton; cotton in western counties suffering from effect of wet, cool weather and lack of cultivation, and looks unhealthy, cleewhere fairly good.

OKLAHOMA AND INDIAN TERRITORIES.—Ootton being onlivated and chopped, but very weedy, with poor to fair stand, much damaged by overilow, some dying. MISSOURI.—Cotton healthy, good stand.

These reports are summarized by the Crop Division as follows:

A general improvement in the condition of cotton is indicated. With A general improvement in the condition of cotton is indicated. With the exception of Sonthern Texas and portions of the East Gult and Sonth Atlantic States, where heavy rains have failen, the weather has afforded opportunity for much needed cultivation, which has been actively carried on, although a large part of the orop is still in grass, with insufficient labor. Cool nights over the northern portion of the central districts have checked the advance of cotton, but as a whole, growth has been satisfactory, especially in the eastern districts. Some planting remains unfinished in portions of Arkansas, Louisiana and Zexas. and Zexas.

NEW YORK COTTON EXCHANGE - THIRTY-SIXTH ANNUAL MEETING .- The thirty-sixth annual meeting of the New York Cotton Exchange was held on Wednesday, May 31. The annual report submitted by Mr. Henry H. Schaefer, the President, was in part as follows :

The anuual report submitted by Mr. Henry H. Schweier, the President, was in part as follows: The year under review, although witnessing a sharp decline in the price of cotton. has not produced the violent fluctuations of the pre-ceding year. * * The demand for memberships in the Exchange, in spite of the somewhat reduced volume of transaction4, has kept pace with the supply, and almost throughout the year memberships have been selling at about \$:0,000. * * The contracts with the telegraph companies were improved upon further by obtaining increased compensation to the Exchange for the privilege of controlling its ac-called incoming information. * ** The very industrious work of the preceding Board of Managers with regard to the compliation and amendment of the by-laws and rules has necessitated but very few changes. The Exchange has given its approval to a plan contemplating the immediate erection of an addition to the Exchange building, in place of the adjoining old building located at No. 64 Beaver Street. * * The Exchange has given its approval to a plan contemplating the building will show a lose of \$2,650 and the Exchange a profit of \$13,555. The latter based on annual dues of \$75. The trustees of the gratuity fund report assets of \$32,325 58-lia-bilities of \$14,095-leaving a balance to the credit to the fund of \$65,230 83. This shows an increase over last year of \$6,555 52. * * * Two special committees have been at work perfectint the details for an amendment to the by-laws allowing delivery of cotton on con-tract here from licensed Southern warehousees. Your board, having considered the reports of these special committees, has instructed the Committee on By-laws and Rules to draft the necesary amendments. When this is done the subject will receive the furthey earnest consid-eration of the board preparatory to submission to the members. A method of clearing contracts has also been under constant invos-singation by a special committee. Its is abore have thus far been un productive of final results, owi

mittee. The Treasurer's report shows a balance on haud of \$33,407 31, as compared with \$3,014 99 iast year. During the past year 48 mem-berships have been transferred and 46 new members have been ad-mitted. The total number of memberships outstanding is 450. The board recommends that the annual dues be again placed at \$75 for the coming year, as the Exchange should always have a fair cash surplus on hand, especially with the new building about to be erected and the various improvements contemplated in our present building.

EGYPTIAN COTTON CROP.—Through the courtesy of Messrs. Choremi, Benachi & Co. of Boston and Alexandria. Egypt, we have received a copy of the Alexandria General Produce Association report for April as follows:

Association report for April as follows: Sowing has taken place as usual during March and April. Although the generally cool temperature and rather frequent showers were not very propitious to the cultures, the young plants are showing a healthy appearance. Some backwardness, however, may be remarked. Re-sowing has been trifling in many localities, rather frequent in other quarters, but always partial only. In the average it was not more important than other years, and materially less than last season. The acreage is considered to be almost the same as last season, showing only a slight increase of newly cultivated lands. Mitafi continues to occupy the largest proportion, whereas Abbasei and Joannovich have been slightly reduced this season. With the exception of some dis-tricts in the north of Behera and Garbieh, the water has been suffi-cient. With the amelloration and development of the irrigation system, hopes are entertained that it will remain sufficient during the summer months, although the level of the Nile is very low and appli-cation of the rotation system has already commenced. In the Fayoum province cotton appears to occupy the same area as last year. A fur-ther increase is reported from Upper Egypt, especially in the Beni-Souef and Minieh provinces. Hitherto Upper Egypt has been ecwing exclusively Achmonrary cotton, but we are informed that larger trials of Abassi and some of Mitafif will be made this year. Outpres are in good condition but rather backward. The water is sufficient.

SHIPPING NEWS,-As shown on a previous page, the exports of cotton from the United States the past week have reached 190,964 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

VOL. LXXX.

JUTE BUTTS, BAGGING, &C.—There has been nothing doing in jute bagging during the week under review, and prices are unchanged at $6\frac{5}{6}$ c. for $1\frac{3}{4}$ lbs. and $6\frac{7}{6}$ c. for 2 lbs., stan-dard grades. Jute butts dull at $1\frac{1}{2}@1\frac{3}{4}$ c. for paper quality and 2@21/4 c. for bagging quality.

BREADSTUFFS.

FRIDAY, June 9, 1905.

During the first half of the week business in the market for wheat flour was dull, buyers generally being reported indifferent; but sellers held steady, influenced by the firmness of the wheat market. Subsequently, however, when values for the grain declined, there was an easier turn to prices for wheat flour, particularly for winter wheat flours, and a moderate amount of business was transacted at the decline. City mills have been quiet. The demand for rye flour has been light, but prices have held steady. Corn meal has been firmer with the grain.

Speculation in wheat for future delivery has been moderately active. Early in the week prices declined. The weekly statistical developments reported from Europe had a bearish influence, the world's exports to European importing ports being unusually heavy and in excess of expectations. Weather conditions in both the winter and spring-wheat belts were reported favorable, and this operated against values. On Tuesday the market turned, recovering most of the decline. Buying for European account, stimulated by unfavorable crop prospects on the Continent, was reported, and this started buying for the account of local shorts to cover their sales. Subsequently, however, the market again turned weaker. Weather reports from the interior continued generally favorable, and there was a growing bellef that the report of the Governm-nt's Agricultural Bureau, to be issued on Saturday, June 10, will show a high average condition of the spring-wheat crop and a favorable condition of the winterwheat crop. The spot market has been firm but quiet. Today there was a quiet and unsettled market, closing slightly higher. The spot market was easier.

prices have advanced. The receipts of old-crop corn at primary markets have been reported as comparatively light. There has been a good trade demand and stocks are being rapidly depleted, which has had a bullish effect upon values. Weather conditions during the week have been reported more favorable for the growing crop, but owing to the recent adverse climatic conditions crop prospects at present are not considered promising. One authority, in reviewing the developments for the week, states that there has been some betterment in the corn crop but that conditions are irregular, they being no better than, and possibly not fully equal to, the average. The spot market has been firmer but quiet. To-day the market was quiet but steady.

Exports of Grain and Flour from Pacific Ports.-The exports of grain and flour from Pacific ports for the week ending June 9, as received by telegraph, have been as follows: From San Francisco to various South Pacific ports, 4,476 bbls. flour, 700 bushels wheat, 6,000 bushels corn and 85 bushels oats.

Combining these figures with those for previous weeks, we have the following, which covers the exports to foreign countries for the period since July 1, 1904, comparison being made with the corresponding period of 1903-04.

Exports from- San Fran. Puget S'd. Portland		Wheat, bush: 1.624,641 1,388,165 1,483,760	29,422	Oats, bush. 178,546 533,784 310,001	Barley, bush. 3,312,165 1,163,685 863,874	Rye, bush. 854 412

GOVERNMENT WEEKLY GRAIN REPORT.-Mr James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the grain crops in the various States for the week ending June 5, as follows:

CORN.-In the States of the Missonri and Central Mississippi valleys

CORN.—In the States of the Missonri and Central Mississippi valleys corn is much improved and good progress with cultivation bas been made. In the Upper Ohio Valley much planting remains to be done, and in the Middle Atlantic States considerable replanting will be necessary on account of outworms. In the Southern States early corn is being laid by in good condition. WINTER WHEAT — Winter wheat has advanced favorably, fewer re-ports of injury from rust being received from the greater part of the area previously affected. In Ohio and Nebraska, however, although in promising condition. damage from rust and insects has increased somewhat. Winter wheat harvest is in progress in the Southern States, and is beginning in Oklahoma and extreme Southern Kansas, and wheat is ripening in the Lower Ohio and Central Mississippi val-leys. Harvest has also begin in California, where wheat is maturing rapidly. On the North Pacific Coast winter wheat is in promising con-dition, having experienced decided improvement in Washington.

leys. Harvest has also began in California, where wheat is maturing rapidly. On the North Padific Coast winter wheat is in promising con-dition, having experienced decided improvement in Washington. SPRING WHEAT.—Under decidedly better temperature conditions in the spring-wheat region, spring wheat has made good progress and is stooling well. In portions of the Dakotas, however, the crop is thin and weedy in localities. In Washington spring wheat is in splendid condition and has made rapid growth; and while the outlook in Oregon is favorable, low temperatures have been detrimental. OATS.—The general condition of the oats crop is very promising, an improvement being reported from the Middle Atlantic States and Mis-souri Valley. Oats are heading as far north as Kansas. Missouri, and Central Illinois, and harvesting is in progress in the South Atlantic and East Gulf States.

and East Gulf States.

The movement of breadstuffs to market as indicated in the statements below is prepared by ns from figures collected by the New York Produce Exchange. The receipts at Western lake and river ports for the week ending June 3 and since Aug. 1, for each of the last three years have been:

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., June 9, 1905.

The inherent strength of the cotton-goods market has again been demonstrated during the week, and, in spite of the fact

particularly 4-yard sheetings, have become so scarce that the position of buyers is serious. Quotations are advancing, and there is no possibility of securing certain lines for months to come. Lighter-weight sheetings are also higher. The export inquiries during the week have included 3.50 and 4-yard sheetings, but practically no business has been consummated. Bleached goods have been bought with some freedom, and the firmness in gray goods is causing medium and low counts to be firmly held. Wide sheetings have been advanced and are in good demand. Osnaburgs have practically been cornered and buyers are having difficulty in securing enough of the fabric to fill their requirements. Ticks have been advanced, and denims, plaids and other coarse, colored cotton goods are firm and in good request. Cotton linings have been advanced but business is very quiet. The print situa-tion is uncertain and very few purchases of either staple or fancy goods have been recorded. Ginghams are in moderate demand. Print cloths are tending upward, and, while the volume of business has not been very large, yet it is difficult to obtain goods at recent quotations. Narrow goods, which have not been so firm as wide goods, are now hardening.

WOOLEN GOODS. - While there are still a number of orders to be received for men's wear heavy-weight woolen and worsted goods, yet the season is distinctly drawing to a close and preparations are being pushed forward for the opening of light-weight goods. Some complaints are heard of the heavy-weight season but on the whole mills have little to find fault with. A number of them are so well sold up that they are forced to work over time to fill their orders and there are only a few that are still open for new business. A number of lines of low-grade, light-weight goods have been opened during the week although it will be another month before the season is well under way. The buying up to date has been light and prices for the most part have been on the same basis as last season. Lines of serges are being shown at considerably higher prices and it is believed that the demand for these during the season will be of very large proportions. The biggest demand will of course be for the ordinary blue, but it is expected that fancies will also be popular. When the medium and higher grades of goods are opened it is practically certain that the whole level of prices will be much above that of last season and that the same policy will prevail of opening goods cheaply and advancing them from time to time as the demand develops. The dress goods market is in a healthy position and agents report a satisfactory business. Trade was somewhat unevenly distributed at first but has improved since and many lines are being withdrawn from the market. Duplicate orders are being received in fair volume, and while initial business was not heavy, the reorders that are being received will make the aggregate of more than ordinary proportions.

FOREIGN DRY GOODS,-Imported woolen and worsted dress goods have fared well and importers are satisfied. Silks are quieter and ribbons slow. Linens are firm but not in very large demand. Burlaps are firm and moderately active. Importations and Warehouse Withdrawals of Dry Goods

CITY DEPARTMENT. State and

Index.

An index to all the news matter appearing in this Depart-ment for the period from Jan. 7, 1905, to April 15, 1905, in-clusive, was published in the CHRONICLE of April 22, 1905, pages 1500, 1501, 1502 and 1503.

MUNICIPAL BOND SALES IN MAY.

The number of separate bond issues floated during the month of May was exceptionally large. According to our records, no less than 352 of such issues were placed. The amounts, however, were generally small, the aggregate being \$16,331,283. In May 1904 the aggregate was over 55 millions, but this abnormal figure was due to the 37-million-dollar sale made by New York City.

Among the larger issues placed in May 1905 may be men. tioned \$2,000,000 by Pittsburgh, Pa. (\$630,000 at public offering and \$1,370,000 to sinking fund); \$1,500,000 bonds of Chicago South Park and \$1,000,000 bonds of Hartford, Conn.

The number of municipalities emitting bonds and the number of separate issues made during May 1905 were 242 and 352, respectively. This contrasts with 189 and 261 for April 1905 and with 227 and 860 for May 1904.

For comparative purposes we add the following table showing the aggregates for May and the five months for a series of years :

· ·	Month of	For the		Month of	For the
	May.	Five Mos.		May.	Five Mos.
1905	\$16,931,283	\$94,483,297	1898	\$7,031,926	\$34,978,622
1904	55,110,018	113,443,246	1897	8,258,927	56,590,312
1903	14,846,227	62,619,815	1896	10,712,538	30,884,656
1902	20.956.404	59,211,223	1895	11,687,766	41,084,172
1901		47,754,962	1894		50,067,615
1900		58,273,539	1893		30,774,180
1899		33,996,631			36,814,291

Owing to the crowded condition of our columns, we are obliged to omit this week the customary table showing the month's bond sales in detail. It will be given next week.

News Items.

North Carolina.—Committee Solicits Deposits of Defaulted State Bonds.-The committee of North Carolina bondholders has issued a circular submitting a proposition for the settle-ment of the special-tax debt. The proposition is to accept new 2% bonds for the amount of the principal of the present debt, canceling the accrued interest, which amounts to twice the sum of the principal. The methods proposed for coercing the State into this arrangement are also set forth. Onethird of the securities, it is contended, could be transferred to the State of New York or to foreign governments and judgments obtained by those authorities in the Supreme Court of the United States. As North Carolina owns about \$4,000,000 of unpledged railroad securities, such judgments would be readily collectible, it is urged, from this source, as well as from the special taxes provided to secure the bonds. After all this depletion of her resources the State would re-main subject to two thirds of this liability still unsatisfied, and which in time could be sold or disposed of to foreign governments. By the acceptance of the bondholders' proposi-tion, the total of North Carolina's liability on the special tax bonds would be at once absolutely reduced to one-third of its present amount, being the sum of the principal alone.

Bond Calls and Redemptions.

Indianapolis, Ind,-Bond Call.-J. P. Dann, City Comptroller, calls for payment July 1 at the office of Winslow, Lanier & Co., New York City, \$45,000 funding bonds of Jan. 1, 1890, payable Jan. 1, 1910, but subject to call after 1900.

The official notice of this bond call will be found among

Amherstburg, Ont.—Debenture Offering.—Proposals will be received until 8 P. M., June 12, by J. H. C. Leggatt, Town Treasurer, for \$12,000 5¢ consolidated debt debentures and \$6,200 5% electric-railway-bonus debentures. Securities ma-

ture part yearly for twenty years. Arcadia, Fla.—Bond Offering.—Further details are at hand relative to the offering on June 15 of the three issues of 5% gold bonds aggregating \$30,000. Proposals for these securities will be received until 6 P. M. on that day by W. H. Simmons, Secretary of Board of Trustees. Bonds were an-thorized at an election held April 6, when the vote was as follows:

\$12,000 5% gold school-building bonds, vote 85 to 13. 13,000 5% gold water-works bonds, vote 88 to 11. 5,000 5% gold street-improvement bonds, vote 86 to 13.

Denomination, \$1,000. Date, when issued. Interest annu-ally at the office of City Treasurer. Maturity, 30 years, sub-ject to call after 20 years. Certified check for \$500 required. Bonded debt, this issue. Assessed valuation, \$238,577.
