### REVIEW OF JUNE.

On the whole the tone of the markets improved considerably during the month of June. Perhaps the influences of most importance in that direction were the steps taken by our Government to facilitate peace negotiations between Russia and Japan, the sudden transformation effected in the Equitable Life Assurance Society affairs and the promising outlook for the growing grain crops. Late on June 9 the announcement came that a majority of the Equitable Company's capital stock of \$100,000 had been purchased from Mr. James H. Hyde by Thomas F. Ryan, who had at once placed the voting powers on the stock thus acquired in the hands of a board of trustees consisting of ex-President Grover Cleveland, Morgan J. O'Brien, Presiding Justice of the Appellate Division (First Department) of the Supreme Court of this State, and George Westinghouse of Pittsburgh, President of the Westinghouse Electric & Manufacturing Company. As part of the same arrangement, Paul Morton, Secretary of the Navy, was elected Chairman of the Board of Directors with plenary power over all the officers and affairs of the Society. These developments were so promising of the complete rejuvenation of this important life insurance company that, very naturally, the event encouraged new hope in financial circles.

Foreign developments played an unusually prominent part in affairs during the month. The Franco-German dispute over Morocco caused no little apprehension at times, mainly, however, at the European financial centers. There were some suggestions of the possibility of war between the two countries, but these were not taken seriously in the United States. Germany proposed an international conference on the question, to which France seemed unwilling to accede except on certain definite conditions. Towards the close of the month the indications were that all differences would be smoothed over. Affairs between Norway and Sweden also became disturbed, owing to the action of the Norwegian Storting June 7 in declaring the union with Sweden dissolved. But the controlling event of the month—overshadowing all others in importance—was the success of the efforts of President Roosevelt in getting Russia and Japan to agree to enter a peace conference, with the view to seeing whether terms of peace could not be arranged between themselves; and Washington was finally selected as the meeting place. These peace negotiations did not lead to a cessation of hostilities at the scene of war, but at least they held out the prospect that the war might be definitely ter-

minated before the lapse of many months. Internal affairs in Russia became more and more disturbed, notwithstanding the promise by the Czar of a popular assembly for his people, and one of the startling events of the month was a mutiny on the *Kniaz Potemkin*, a large Russian warship, which left the city of Odessa in the hands of a mob of rioters, who burnt pretty nearly everything in the harbor. The Black Sea squadron having been sent to bring the mutineers to terms, the crew of the *Georgi Pobiedonosetz* also mutinied, but subsequently repented and surrendered.

With reference to the crops, the Agricultural Bureau monthly report made public June 10, and giving the condition June 1, indicated less impairment of condition in winter wheat than had been feared, the average for the country being estimated at 85.5, as compared with 92.5 on May 1 1905, but comparing with only 77.7 on June 1 last year. At the same time the spring wheat condition was likewise reported high, namely 93.7. In cotton, however, a violent speculation again broke out, with suggestions (which were confirmed the next month) that the Agricultural Department at Washington would in its report July 3 show a very low average of condition. The price of middling uplands cotton in this market, after shading off from 8 85 cents May 31 to 8.40 June 5, subsequently sharply advanced and touched 10.15 cents June 30, with a further sensational rise early in July.

The stock market was very inactive the early part of the month, and transactions fell to a very low level. The new State law imposing a tax of \$2 per 100 shares on stock transfers went into effect June 2, and was in part held responsible for the dullness; but the latter part of the month there was a decided revival of activity and a pretty general and quite marked appreciation in values. The first noteworthy signs of a change occurred on Saturday, June 10, when the announcement came of a settlement in the affairs of the Equitable Life Society, and when also definite assurances were received that the efforts of President Roosevelt to get Russia and Japan to enter into a peace conference were likely to be crowned with success. After the close of business that day the Agricultural Bureau report, with its favorable prospects for wheat, was received. Nevertheless this spurt of activity quickly died out and business again dwindled to small proportions. About the 21st renewed animation became manifest and this time the movement continued until the close of the month. One of the favorable features was the announcement of new or increased dividends by a number of companies. Chief among these was the increase in the semi-annual dividend on Reading common stock from 1½ to 2½ per cent (placing this stock on a 4 per cent basis) and the declaration of a 1½ per cent dividend on New York Ontario & Western stock. Reading common was one of the strongest features of the market and advanced to 100½ June 29. United States Steel shares were also active and strong the latter part of the month. Amalgamated Copper stock was weak after the publication of the company's report (the first official information ever furnished by the concern), and declined from 84½ June 5 to 77½ June 7, but recovered again, and closed June 30 at 81½.

The money market remained easy throughout the month, though on the last day (June 30) there was a spurt in the call-loan rate to 6 per cent, occasioned by the preparations for the large 1st of July interest and dividend disbursements. Surplus reserves ruled low until June 24, when there was an increase to \$15,094,675, with a decrease again July 1 to \$11,658,875. The amount remaining here to the credit of the Japanese Government, namely \$56,000,000, on the recently negotiated Japanese loan, was on June 8 distributed among local banks and trust companies. The Secretary of the Treasury announced that the final instalment of the call of April 5 for moneys held by the depositary banks which would have been payable July 1 would not be required until July 15.

The course of foreign exchange was somewhat irregular, but fluctuations were confined within a narrow range. With few influences of moment at home, the market was very susceptible to developments at the European centres. The latter part of the month a fall in the rate of exchange at Paris on London and an advance in the price of bar gold in London led to engagements of \$3,328,596 gold for export to France. Before the whole of the gold had actually been shipped, an advance again in Paris exchange on London and a decline in the price of gold at London would have rendered the shipments unprofitable; but the Bank of France then agreed to pay interest on this special consignment of gold while in transit.

# GENERAL QUOTATIONS

## —OF— BONDS AND STOCKS.

1. In the following twenty-eight pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.
2. Quotations from all Stock Exchanges are as near as possible for the last day of June. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.
3. Bond prices marked (\$) indicate that the purchaser must pay accrued interest in addition to the price given. The method of quoting on the New York Stock Exchange is to quote the price flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.
4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.
5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.
6. The following abbreviations are often used, viz: "M." for mortgage, "g." for gold, "g'd" for guaranteed, "end." for endorsed, "cons." for consolidated, "conv." for convertible, "s.f." for sinking fund, "l.g." for land grant, "op." for optional.
7. The black-faced type in the letters showing the interest period indicates the month when the bonds mature.

# STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (\*).

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

# BANKS AND TRUST COMPANIES.

Quotations for the stocks of banks and trust companies are given per share, not per cent, with the exception of New York City, Brooklyn and Canadian bank stocks.

Prices marked thus (\*) indicate sales. The dagger (†) prefixed to a price indicates that the figures show the book value.

Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.
