THE RAIL WAY AND INDUSTRIAL SECTION.

The quarterly number of our RAILWAY AND INDUS-TRIAL Section is issued to-day, and is sent to all our subscribers. It contains editorial articles on the following topics-

GOVERNMENT RAILWAY POLICY IN CANADA. THE RAILWAY CLEARING-HOUSE PLAN.

THE FINANCIAL SITUATION.

An announcement, reported to be official, of an extra session of Congress beginning November 11 has been an incident of the week. We should question the truth of the statement had it not been put afloat with such an air of confidence in its accuracy. The day fixed is so late as to give very little additional time for legislation and to be hardly worth the muss and fuss which necessarily attends the getting together of our national law-makers. They can do but little more assemble before \mathbf{New} England \mathbf{the} and than Middle State members will become unrestful, anxicus about getting home to eat their Thanksgiving turkeys. That feast will be no more than well digested before the Christmas recess will loom up and hosts of excuses for leave of absence begin to be presented and granted. Then comes the recess, with almost nothing done. Besides, it would require a long search to find a man connected with industrial affairs who ever hails an extra session or even the regular annual gathering as a harbinger of business activity. As the force of a lightning flash is often displayed in the heart taken out of the robust tree, so a gathering of Congressmen abreast of a business revival might be well represented by a heart pierced with arrows.

Of course it is quite possible that the President may need most urgently some legislation with reference to the Panama Canal. Something of that kind has been stated as a leading purpose for the call; and as both parties are interested in the progress of the work, it is reasonable to assume that amendments to the law can be quickly agreed upon and passed. There are large questions, however, connected with that enterprise to be settled; and if the subject is once before Congress, it may force lengthened discussion, exposing wide differences in views-as wide as the difference in cost and time needed to build a sea-level canal and the lock proposal. Hence it is by no means clear that the President can get anything out of a hurry call, even on that question.

We can find less to recommend the extra session in the other excuse urged in the paragraph announcing its coming-that it would hasten the rebate legislation. There is no doubt need for action in that particular, not for the fact that the Government endorsement covers but all the power required to secure a complete the results the Department gives out, and on that acremedy is granted in the Statutes as they already count leads the public to assume exactness for them, Instead of using that power our Railroad stand. Commissioners, we say it with all due respect, have Government endorsement imparts to each report great money value-worth on occasions to speculators folded their arms and are waiting for a blessing to fall from heaven, when nothing of the kind is promised in the inspired book except to the man who is wide awake public issue, immense sums. It has very naturally doing his utmost with the advantages he already pos-SO sesses. Therein is a common error. We know no official board so apparently and irrevocably afflicted with this disease as our Inter-State Railto whom they sold it, have made fortunes through the road Commissioners. They conceived years ago the idea of making rates and enforcing them on railroads, whether just or unjust, according to their

should ever go to work so long as they think they see a fair prospect of attaining their purpose. They have a big plum in stew which, if they can secure, would make them the most arbitrary and powerful body in the world, having at their feet all the railroad systems of the United States. "Give me your money or I will put you into a hole and perhaps into a position that will force you into a receivership," is the language the law would utter, whether spoken in words or only in winks-and the railroad managers would per necessitate have to resign or crawl.

How strange it is that worthy men will vote for, and excellent officials help push through, a law which creates a situation inviting peculation. It of course is not done for any such purpose, but for some other object which for the moment seems desirable. The case which we have just referred to is one well in point. To grant to any individual or body of men the right to make and put into operation any rates it elects would, if Constitutional, compel a road often to run at a loss. That means ruin to the property and hence enforces dishonesty. The managers of the road are thereby reduced to the alternative of submitting to being blackmailed or having their property greatly impaired in value, its position among its rivals endangered if not lost, and the property possibly thrown into bankruptcy. The officers of a railroad are simply trustees, and in the case cited they would be in the condition of being robbed of their trust estate under cover of an unjust law. It may be said that our assumption impeaches the honesty of the Commission. No commission is beyond the danger of degeneration. Such a body may be proof against temptation at the start; but experience has over and over again made it clear that it is not safe to bank on a continuance of that state. For a like reason we are very sorry that our excellent Governor has seen fit to have a committee appointed by the Legislature to examine all our life insurance companies. That Act has already led to the rumor and claim that this is to be done to gather a fund for the next election. We make no such charge; but the State has had experiences which, if they do not justify the suspicion, give color to it. Our Insurance Commissioner already has as much power over large accumulations of insurance capital as it is wise to entrust to any official. Make him do his duty, if he fails of it at present.

Our Agricultural Department has gotten into trouble because it has been given work to do which no body of men, however astute, can do with accuracy. If it were they would do no harm. But that situation of quasi who can gain knowledge of its character, before its happened that there have been found insiders with this valuable commodity within their knowledge who have made merchandise of it, and those shrewd use of the figures. All this is possible simply because the body of men, we repeat, accept what is called the Government report as if it were the truth, the sweet will, and it is a moral impossibility that they whole truth and nothing but the truth. That this

1

claim is contrary to fact, the Department itself has It has taken the same week proved. rethis ports obtained from its Southern correspondents near the first of June, and which were used as the basis of its acreage report made public June 2, of 11.4 per cent decrease on the previous year's planting-it has taken those reports, revised the former estimates, correcting the error in each State so as now to make them figure out a total reduction in the planting the current season of 14.9 per cent instead of 11.4. per cent. We have given this revision in full in our cotton report to-day. It merely stultifies the Department without convincing or satisfying any one.

Had it simply acknowledged its error, and then made a clean breast of it by stating unequivocally that it was not within the reach of the powers of any man or body of men to figure out in June a percentage as to acreage which could be accepted as correct, it would have told the whole truth and exonerated itself. We began the com. pilation of cotton acreage reports in June years before the Government did. It has from the first been our custom to state in the issue of nearly every year that the figures given could be no more than approximations. We have likewise said over and over again that we could find out and disclose the character of the trend or tendency of the planters to increase or decrease the area put down to cotton, and we could also in some degree measure the force of that tendency; but the exact result, we admitted, never could be estimated by us or by any one short of a census. It seems almost disingennous to say "that Mr. Hyde, with Mr. Holmes at his elbow prompting him, made the estimates lower than the facts taken from the reports in his hands warranted him." If such a loose, guessing system as that exists, the case with its results is worse than we supposed it was.

A Berlin cable on Thursday stated that in view of the probability of an early peace between Russia and Japan, the terms of which are presumed to involve the payment of a heavy indemnity by Russia, the financiers of Europe have been conferring as to how this indemnity can be raised and paid with least friction in the monetary markets of the world. The Mendelssohns of Berlin have, it is asserted, communicated with the leading financial institutions, both on the Continent and in England. They are about, it is said, to send their representatives to New York with the object of enlisting the cooperation of the larger financiers of the United States. The same dispatch added that Mr. J. P. Morgan, prior to sailing for New York, conferred with a number of financiers in London with reference to the same matter.

There is as yet no movement in the discount markets at any of the great European centres that would indicate active preparations such as would be necessary for the accumulation of funds for such a negotiation. Of course the amount that will be required is as yet unknown and could not be disclosed until Japan's demands are announced and Russia's acceptance is proclaimed. Yet, the probable magnitude of the payment would seem to make it especially needful that Russia should have some assurance beforehand, through the preliminary formation of syndicates, that when her assent shall be asked for to the payment of the indemnity the terms to be exacted by such syndicates will be known and will be reasonable; otherwise Russia might, because of that uncertainty alone, hesitate to comply with Japan's demand. Bankers here

who are willing to express an opinion are satisfied that when the amount of the indemnity shall be settled upon and the details of the loan negotiations are announced, it will be found that the syndicates are of a character and have such ample resources as will enable them to place the bonds with a minimum of disturbance to the markets. Indeed, it will be to their interest so to arrange the terms of payment for the securities, and of the indemnity, as promptly to restore to the markets the amount withdrawn therefrom on the maturity of the several instalments.

Agricultural developments in the West have latterly been quite favorable and the outlook for the leading grain crops is very promising. Last Friday and Saturday there were sensational reports of damage from black rust to spring wheat, and as a consequence wheat prices sharply advanced and stock prices declined. But by Monday it became apparent that there was little real ground for alarm, and grain prices receded again, while the stock market recovered and has been steadily gaining strength and developing buoyancy ever since then. On Tuesday there came the usual weekly report of the Climate & Crop Division of the United States Weather Bureau having this to say concerning the damage to spring wheat: "Spring wheat has continued to advance favorably. Although black rust is reported in scattered localities in Minnesota and the Dakotas, no material damage is shown, and with favorable weather conditions, semious injury is not anticipated." The Bureau also reported rapid growth of corn as the result of last week's extremely hot weather and stated that the corn crop, as a whole, was in "excellent condition." Harvesting of oats was stated to be well advanced with that crop also generally in "promising condition." The tenor of the advices since then concerning these crops has been equally assuring.

After the recent lull in the iron and steel trades, signs of decided activity are again apparent and all the accounts speak of a large influx of orders. The best evidence of the change which has occurred is furnished in the advances that have been established in prices. In a subsequent article we review the statistics of iron production for the first half of the current calendar year, and point out that the figures show a total of unprecedented proportions. The favorable report submitted this week by the United States Steel Corporation for the June quarter is further evidence of the great activity of the iron and steel industry in 1905. The Steel Corporation reports net earnings (after deducting expenditures for ordinary repairs and renewals and also the fixed charges of the subsidiary companies) for the June quarter this year of \$30,305,116, as against \$23,025,896 in the March quarter and \$21,466,632 in the December quarter, and comparing with only \$19,490,725 in the June quarter of last year. In fact, the amount does not fall so very much short of the extraordinary total of net made in the June quarter of 1903, namely \$36,642,308. Considering the results by months it is seen that there has been steady progress towards higher totals all through 1905. In January and February the amount of the net was respectively \$6,810,847 and \$6,629,463; in March and April, \$9,585,586 and \$9,037,925; while for May and June the amounts are respectively \$10,602,187 and \$10,665,004. When the figures for the March quarter Bankers here were issued it will be remembered that Judge Gary, the

THE CHRONICLE.

Ohairman of the company's board of directors, was quoted as saying that the March net (\$9,585,586) might fairly be taken as indicative of what the monthly results were likely to be in the June quarter. Actually it will be seen the March figures have been considerably exceeded.

We notice a disposition in certain quarters to lay stress on the fact that the aggregate of unfilled orders on hand June 30 was smaller than on March 31, the comparison being 4,829,655 tons, against 5,597,560 tons. In view of the quieting down of the iron trade in May and June the fact would have little significance in any event, now that the iron and steel trade is again reviving. But on looking into the matter we find that a diminution in the aggregate of unfilled orders is a quite usual occurrence in the June quarter and in much larger degree than the decrease now reported. Last year, for instance, there was a decline between March and June in the unfilled orders from 4,136,961 tons to 3,192,277 tons. But perhaps this will not be accepted as conclusive, since 1904 was a year of depression in the iron trade. Going back, however, to 1903 the same falling off is observable, the decline in that year between March and June having been from 5,410,719 tons to 4,666,578 tons. The really noteworthy fact with reference to the unfilled orders for June 30 1905 is that at 4,829,655 tons the amount is the largest for that date of any year in the company's history.

With the net earnings on such a large scale, the Steel Corporation has followed its usual policy of making large special appropriations out of the same for improvements, additional property, etc., etc. Besides the regular provision of \$5,009,563 for depreciation and reserve funds and contributions of \$1,649,523 to the sinking funds, the company has this time placed \$1,000,000 to the credit of the special improvement and replacement fund and set aside \$5,000,000 on account of "appropriations for additional property, construction and discharge of capital obligations" and \$2,500,000 more for contemplated appropriations and expenditures. In other words, the special appropriations for the quarter amount to no less than \$8,500,000. This is more than the amount represented by the quarter's dividend on the preferred stock, which is only \$6,304,919. After deducting both the special appropriations and the preferred dividend, a surplus still remains for the quarter in the sum of \$3,070,681.

The prosperity which our railroads are enjoying is strikingly indicated in the action taken this week by the management of the Erie Railroad in declaring a cent for good four to six months' single names. dividend on the company's second preferred stock. The new or increased dividend declarations by other companies in previous weeks were all significant of the general trend, but we think the Erie case will attract more attention than any of the others, since it is not so long ago that the Erie was a thoroughly discredited property, giving, therefore, to its present dividend record greater importance. The first preferred stock of the company has had larger or smaller dividends for several years, though not until 1904 was the full 4 per cent paid even on this stock. The declaration just announced on the \$16,000,000 of second preferred stock is for 4 per cent and is the first ever made on these £16,000 net from the interior of Great Britain. shares. As a matter of fact, however, this dividend could have been paid the previous year, too, if it had been deemed prudent to do so. The report for the fiscal year ending June 30 1904 showed a surplus of \$1,096,-

036 over and above the requirements for the 4-per-cent dividend on the first preferred stock, and after an appropriation, moreover, for additions and improvements in amount of \$1,540,320. For the eleven months to May 31 1905 net earnings have been better by \$264,731 than for the corresponding months of 1904.

There was no change in official rates of discount by any of the European banks this week, and, compared with last week, unofficial or open market rates were firmer at London and in Germany and easier at Paris.

The most notable feature of the statement of the New York Associated Banks last week was the quite small net gain of \$21,700 in cash. The loans were expanded \$19,058,600 and the deposits were augmented \$18,380,-000. The surplus reserve decreased \$4,573,300, to \$14,-949,950. This week's bank statement should reflect, among other items, the transfer hither of \$260,000 from San Francisco through the Treasury, and hence to New Orleans of \$300,000.

The surrenders of public funds to the Treasury in response to the call of April 5th appear now to have been entirely completed, there remaining unpaid at the last report only \$71,000 of the last instalment, which was due on July 15th.

The money market was easy this week, not only for loans on call but for those for fixed periods. Transactions at the Stock Exchange on call, representing bankers' balances, were at 2 per cent and at 13 per cent, and principally at the former rate. Banks loaned at 2 per cent as the minimum, but no loans were reported by trust companies, these institutions being out of the market because of inability to place their balances at better rates than they were receiving therefor from the bank depositories. Loans were made each day at the abovequoted rates, with the bulk of the business at 2 per cent. There was no inquiry for loans for sixty or for ninety days, it being expected that the market would be amply supplied with money on call for these periods; therefore quotations were nominally $2\frac{3}{4}$ per cent for the former and 3 per cent for the latter dates. Quotations on good mixed Stock Exchange collateral for four months were $3\frac{1}{4}$ $\overline{a}3\frac{1}{2}$ per cent; for five months, $3\frac{1}{2}$ $\varpi 3\frac{3}{4}$, and for six months $3\frac{3}{4}$ $\varpi 4$ per cent, with some loans for the last-named period on choice dividend security at $3\frac{3}{4}$ per cent. Commercial paper was in good demand, while the offerings were moderate, and rates were $4@4_{\frac{1}{2}}$ per cent for sixty to ninety-day endorsed bills receivable, $4@4\frac{1}{4}$ per cent for prime and $4\frac{1}{2}@5$ per

The Bank of England rate of discount remains unchanged at $2\frac{1}{2}$ per cent. The cable reports discounts of sixty to ninety-day bank bills in London 13/017 per cent. The open market rate at Paris is $1\frac{1}{2}$ \Im 15 per cent and at Berlin and Frankfort it is $2\frac{1}{8}\varpi 2\frac{1}{4}$ per cent. According to our special cable from London the Bank of England lost £254,232 bullion during the week and held £38,-021,410 at the close of the week. Our correspondent further advises us that the loss was due to exports of £270,000 (wholly to South America) and to receipts of The foreign exchange market was strong early in the week, influenced by cheaper money, a demand for remittance and also to cover short sales of exchange and by a

JULY 29 1905.]

limited supply of bankers' and commercial drafts. After Wednesday, when the highest figures of the week were recorded, there was a sharp decline, due, it was reported, to manipulation of the market, followed by a partial recovery. The firmer tone began to develop on Monday as the result of smaller offerings of commercial bills against cotton than were expected, the decreased supply indicating the absorption of those which had been drawn in the previous week against sales for export of the staple that had been held for higher prices. There were very few finance bills offered on that day or thereafter, and this decrease in their volume was attributed to the easier tone for money on time for the three and six months' periods, and also to the fall, in the previous week, in ninety-day drafts, which, together with the easier money rates, induced bankers to retrain from drawing finance bills. The firmer tone for exchange on Monday was accompanied by a demand for remittance, and this condition of the market appeared to cause those bankers and others who had made speculative sales of exchange for a temporary turn to be apprehensive of loss and they promptly covered their short contracts, contributing to a sharp rise on the following day and to a very strong tone on Wednesday. After the subsidence of the urgent demand, the market was subjected to manipulation, which resulted in a somewhat feverish decline on Thursday, though the tone later grew steadier. Cables were affected, partly in sympathy with the movement in sight but chiefly because of a demand incident to the semi-monthly settlement on the London Stock Exchange. It was reported that a few finance bills which had been emitted in May and would mature early in August were extended for another period of three months, such extension involving the purchase of sight bills for cover. Gold received at the Custom House during the week, \$46,976.

Nominal quotations for sterling exchange were $4.85\frac{1}{2}$ for sixty day and 4 871 for sight. The market opened firm on Monday and, compared with rates at the close on Friday of last week, there was an advance of 5 points all around-long to 4 8475@4 8485, short to 4 8645@ 4 S650 and cables to 4 S665@4 S675. On Tuesday the market rose sharply, long 5 points to 4 8480@4 8490, short 10 points to 4 8655@4 8660 and cables 15 points to 4 8680@4 8690. On Wednesday the tone was quite strong, with long 15 points higher at 4 8495@4 8505, short 25 points to 4 8680@4 8685, and cables 20 points to 4 S7@4 S705. On Thursday rates fell off, long 5 points to 4 8490@4 85, short 15 points to 4 8665@ 4 S675, and cables 10 points to 4 S690@4 S7. The market was barely steady on Friday, closing 10 points lower for short and for cables.

The following shows daily posted rates for sterling exchange by some of the leading drawers.

The following gives the week's movements of money to and from the interior by the New York banks.

Week ending July 28 1905.	Received by N. Y. Banks.		Net Interior Movement.	
Currency	\$6,125,000 1,101,000	\$ 5,200,000	Gain. \$3,919,000 Gain. 410,000	
Total gold and legal tenders	\$7,229,000	\$2,000 000	Cain \$4,329.000	

With the Sub-Treasury operations the result is as follows.

Week ending July 28 1905.	Into	Out of	Net Change in

THE CONFERENCE OF THE EMPERORS.

The conference between the Czar of Russia and Emperor William of Germany, on the meeting of their respective yachts in the Baltic Sea, has naturally provided a topic of nine days wonder to diplomatic Europe. The suddenness with which the meeting was arranged, the selection of a spot remote from outside interference, the manifest effort to produce the impression of a frank exchange of views unrestrained by diplomatic formalities -all of these circumstances give wide range to political conjecture. Nor is such interest diminished by the peculiar situation in which each Imperial conferce at present stands. What must impress the imagination, as regards the Czar's participation in this conference, is the picture of an Imperial autocrat, hopelessly isolated from the world's real knowledge and judgment of events, breaking impulsively away from his surroundings and seeking the only individual of his own rank and traditions on whose advice he can rely. As regards the Kaiser's participation, that is peculiarly interesting for this reason, if for no other, that the German sovereign has already shown his determination that Germany shall have a larger hand than has lately been apparent in diplomatic rearrangements. When Emperor William went to such lengths as he did a few weeks since, in checking the French movement in Morocco and displacing Deleasse, it would be strange if rather broad inferences were not drawn regarding his possible purposes in an interview with the Czar.

Austria and Italy on the one hand, Russia and France on the other, represented Continental affiliations-England being more or less in a state of isolation-to-day a wholly different grouping of the nations is in progress, if not already definitely effected. England itself was probably convinced, by incidents at the close of 1895 and the beginning of 1896, that it behooved her to lose no time in providing against the isolation which at that time confronted her. Threatened at that period with the illwill alternately of the United States, of Germany, of France and of Russia, with "war-talk" actually indulged in by all four, it is not to be wondered at that British statesmen set themselves carefully at work regaining the good offices of the neighboring States. How slowly, patiently and deliberately this policy was pursued, is known to every reader of recent diplomatic history. The upshot is that England has shaken the Triple Alliance through its own new understanding with Italy; that it has replaced the already weakened Franco-Russian alliance by its entente with France, and in addition has entered on more or less formal relations of amity with Japan and the United States.

These are the fruits of a definite and unswerving policy. Much of them would no doubt have been impracticable but for the Russo-Japanese war. But however this may be, it could hardly escape the notice of so experienced a diplomat as the German Emperor that, in the disintegration of these old alliances, Germany's position of influence in the balance of power in Europe was visibly slipping from her. The demonstration against France a month ago, though successful in its immediate purposes, was abortive in regard to these international relations. The Anglo-French entente, for instance, was only strengthened by it. Whether more will be accomplished through a closer affiliation with the Russian Government is another question; but the question is not so simple as has been taken for granted in discussions of the Baltic conference.

For one thing, it depends very largely on the nature of that conference. As to what was actually the gist of that exchange of confidences the world is still in ignorance. Versions have, it is true, been given out, even semi-officially, by the Foreign Offices. They are somewhat conflicting and obviously diplomatic. St. Petersburg declares that the German Emperor asked the Czar to meet him; Berlin reports that the Czar had applied for the interview with the Kaiser. The German capital gives out the report that the German Emperor strongly advised the Czar to yield to Japan's demands-advice which we should call, under existing circumstances. somewhat superfluous, more particularly t hat he strongly recommended large concessions to disaffected statesmen at home and an urgent effort to restore by broad concessions Russia's internal equilibrium. If this was the burden of the German Emperor's advice, its results may be entirely useful. With all his faults, chiefly arising from an impulsive nature, the German Emperor has throughout his reign displayed two admirable qualities-one, the same willingness which the great Frederick always showed to learn from any source what the real opinion was among his own people and in the world at large; the other, to direct his own policy always, in such matters, along the line of least resistance. These are the qualities which are conspicuously lacking in the unlucky Czar. It would be clearly, then, a matter of no small importance if advice on problems which the German Emperor, were he in power at St. Petersburg,

would probably solve more effectively than any living monarch, should be given in confidential intercourse by that sovereign to the occupant of the Russian throne. For ourselves, we strongly incline to the belief that the unhappy Czar sought the interview in a kind of desperation; that he had utterly lost faith, as well he might, in himself, in his advisers, and in the entire circle immediately about the throne, and that this recourse to his Imperial neighbor was an impulsive and not unwise procedure to obtain the truth from some one who was sure to know it, and whose opinion, under the circumstances, could be trusted.

Suppose, as we believe to be entirely probable, that the German Emperor did advise the Czar to yield to Japan's requirements and to the reasonable demands of his disaffected subjects-what outcome should one look for? It is always possible that the irresolute Russian Emperor, once back again at his Imperial headquarters may again fall under the influence of the Court cabal, which has already used him to such evil purposes. This is a possibility, but its probability we greatly doubt. Events have for the time quite superseded individuals, and it is hardly conceivable that the perplexed and bewildered monarch, when once the veil is fairly torn aside which hid from him the real panorama of the outside world, and when he could not fail to see that the view thus gained explains the very facts which had previously perplexed him, would of his own choice fall back into the mental fog which seems so long to have beset him. It may reasonably be supposed that conclusion of peace pretty much on the terms exacted by Japan and a genuine grant of political reform to internal Russia would have come without the interview with the German Emperor. Both might have been delayed, however; whereas, taken in connection with the movement of events, the interview has probably made the matter certain.

As to what will be the future bearing on the question of international alliances, of the cordiality between the German and Russian sovereigns, that is something which cannot so easily be determined. Russia, let it be noticed, still remains bound by her treaty with the French Republic, and, indeed, by the immense financial favors which the bankers of France have extended to Russia's Government. Actual transfer of these formal diplomatic pledges by the Russian Government from France to Germany would be an act of questionable faith which at the present juncture is quite inconceivable. Nevertheless, the European situation is of a nature so peculiar that the diplomatic mind will watch with keenest interest for the new developments.

METHODS FOR ASCERTAINING THE

PROFITS OF CORPORATIONS.

There is again considerable discussion of the question of the proper way to prepare a statement to show the profits of industrial and manufacturing corporations. With the growth in number and in magnitude of this class of concerns and the prominence assumed by their securities on the Stock Exchanges and other public markets, the subject is an ever live one and the accounting methods to be pursued in the computations of their profits become a matter of great moment.

It has been obvious from the very first that in this regard industrial corporations must be considered as belonging in a wholly different category from railroad

The fact that publicity is the ruling policy companies. with the latter, where more or less secrecy is the custom with the former, is not the whole or the only reason for the distinction. In the case of a railroad company, statements of receipts and expenses would alone and in themselves furnish a pretty fair guide to the condition of things-the location of the road and the character of its traffic and the rates received being already known in a general way. In the case of manufacturing corporations, however, while on the one hand returns of gross receipts are not infrequently withheld-sometimes because the management does not believe in dealing frankly with the public and the security holders, but more often because of a desire to guard business secrets-on the other hand, even where the gross receipts are furnished, it would be venturesome to predicate much on them alone or on the relation disclosed between them and the net receipts.

Particularly are comparisons with other years unsafe because variations are certain to be found in so many other elements that enter into the accounts-for instance in the prices of the raw material, the prices of the products, the depreciation or appreciation in the market value of the goods on hand, &c., &c. In brief, with a railroad concern any person of sound sense and average intelligence can judge pretty well for himself from the printed reports as to what any given company may be doing and what its general situation is. Quite the contrary with an industrial corporation; there he will probably always have to rely very largely upon the accountants for enlightenment-barring of course companies like the United States Steel Corporation, where information is voluminous and where the course of the trade itself is a matter of daily and widespread discussion. This makes it of great consequence that the underlying principles to govern the work of the accountants should be thoroughly understood and clearly defined.

Perhaps the most comprehensive recent discussion of the subject is that contained in the paper read before the Congress of Accountants at St. Louis last September by Arthur Lowes Dickinson. This treats the subject in an instructive way, while not being at all dogmatic in its conclusions or in enunciating rules. The paper has been reprinted in pamphlet form and contains many interesting suggestions and reflections. In a broad way it may be said that if the balance sheet at the beginning and end of a period are entirely accurate, the increase or decrease of the surplus, after allowing for distributions of profit during the interval, represent the true profit or loss for the period. But the question whether the balance sheet has been accurately prepared is precisely the matter upon which the whole case hinges. Has there been adequate allowance for depreciation? Has there been proper valuation of the assets? Has there been allowance for possible bad debts? Have the products upon which profits are computed actually passed out of the hands of the producing company and been taken over by a purchaser or has there been simply a calculation of the profits which it is expected to realize later on when purchasers may be found? It will be remembered that the American Malting Company pursued this latter coursewith what result every one knows.

On this very question as to what extent it is vation. permissible, if at all, to anticipate profits, the reasoning is sound and conclusive. Of course, cases where the goods have already been contracted for at an agreed price are not analagous to those where the profits are entirely contingent upon a possible sale in the future. But even where there are definite contracts, the writer of the paper suggests caution, deeming it best not to count profits until they have been actually realized. He notes that it is quite a frequent practice where contract work extends over long periods of time, to estimate and bring into account some portion of the profit proportionate to the cost for any period, and in principle he thinks there cannot be any objection to the adoption of this practice. On the other hand, it is undoubtedly more conservative, he ventures to assert, not to take credit for any such profit until the whole contract is completed. An added reason for this course is that unforeseen contingencies are continually arising during the progress of the work, with the result that what was originally expected to realize a profit may, in the end, result in a loss. It is admitted that the more conservative course may cause large inequalities in the amount of profits shown for successive periods; but if the accounts are stated on a basis of total work completed less cost thereof, the reasons for the fluctuations will be apparent. Still if estimates of profits on pending contracts are to be taken into the account, then they should be made on an ultra-conservative basis and, further, estimated losses should be fully provided for. Neglect of this precaution, it is well said, may easily lead to disaster.

Another question that comes up is as to the treatment of accounts and bills receivable. Profits cannot be definitely ascertained until they have been converted into cash or into some recognized form of negotiable instrument of definite and fixed value; but as the usual practice is to consider the profit realized when a sale takes place, and the amount of the sale price is charged to the purchaser, it is essential to an exact determination of profits to ascertain, as far as possible, if the purchaser's obligation is good for the face value of the charge made. Mr. Dickinson urges that the conservative and safe course is to make a reserve sufficient to provide for all debts known to be of a doubtful character, or to build up a general reserve fund against such losses on the basis of a percentage on the sales of each year.

Still another question concerns the valuation to be put on stocks on hand, including raw materials, work in progress and partly finished and finished products. Mr. Dickinson does not exaggerate when he says that one of the most difficult questions which accountants have to decide is the correct enumeration and valuation of stocks on hand. He lays down the rule, which is generally accepted as sound and which also prevails quite generally in practice, that the cost value or the market value is to be taken, whichever is the lower. He also goes into a consideration of what expenditures may with propriety be charged to capital account rather than against profits, and he deals quite at length with the matter of the revaluation of capital or fixed assets. He takes the position that it is not proper for a corporation to take credit for a profit on real estate, buildings, plant, machinery and tools, nor on the other hand is it necessary for it to charge itself with a loss arising out of a re-valuation of such items as long as they are in actual use for the purposes of the business. Of course, if the business includes among its objects the purchase and sale of

Obviously, in the present article it will not be possible to pass in review all the contentions in the paper referred to, but there are certain general conclusions of universal application which it is possible to accept without reserassets of this class, they should then be considered not as Fixed, but as Current or Circulating Assets, being, in fact, stock in trade, the turning over of which is expocted to result in profits or losses to the company.

Speaking generally, the following accounting principles are laid down as sound for the determination of profits.

(1) All waste, both of Fixed and Circulating Assets, incident to the process of earning profits by the conversion of Circulating Assets must be made good out of the profits earned.

(2) Profits realized on sales of Fixed Assets should be first applied to make good estimated depreciation (if any) in other Fixed Assets not resulting from the ordinary conduct of the business. If there is no such depreciation, such profits may be distributed as dividends, but should be distinguished from operating profits.

(3) A sufficient surplus should be accumulated (in addition to the provisions required to maintain Wasting Capital Assets under Clause 1) for the purpose of making good losses due to shrinkage in values of Fixed Assets arising from causes other than the ordinary operations of the company.

We do not believe that objections will be seriously raised againtst any of the foregoing principles, and if they shall be consistently and faithfully adhered to, definite standards will be provided for gauging the value of in. dustrial securities, thereby promoting confidence in such securities and placing them in public estimation on a more enduring basis than any yet reached. At the same time some of the scandals and disappointments experienced in the past will be avoided in the future.

COUNTRY'S ENORMOUS IRON PRODUCTION AND CONSUMPTION.

The official statistics of iron production for the first half of the current calendar year in their usual elaborate form have this week been made public by Mr. James M. Swank. And a remarkable story they tell. Every one knows that the iron industry in this country has been advancing with rapid strides, and that during the last six months new records have been made time and again, only to be broken with still higher records at the next succeeding period. But one hardly appreciates the extent and magnitude of the progress made until one obtains and examines the combined figures for the whole six months. So much stress has been laid upon the disappearance during May and June of that extremely buoyant spirit which prevailed in the earlier months, that one is very apt to overlook the fact that notwithstanding this temporary lull the make of iron has been proceeding on a tremendous scale-far in excess of all previous periods. The matter is of increased importance, now that accounts regarding the iron and steel trades are again getting favorable, a pretty good buying demand and considerable orders being once more noted.

Mr. Swank states that complete reports of the produc-

very best previous half-year, namely the first half of 1903, the output was only 9,707,367 tons. With that exception there has been only one other half-year when the make of iron reached as much as 9,000,000 tons, as against the 11,163,175 tons produced in the first half of the current calendar year. In brief, the make of iron in the first six months of 1905 was much the largest of any half-year in the country's history and larger than that of any whole year prior to 1898. In the following we show the output by half yearly periods back to 1896.

PRODUCTION OF PIG IRON IN HALF-YEARLY PERIODS.

	Gross Tons.	Gross Tons,
1896—1st half	4,976,236 1901-1	st half7.674.613
2d half	. 3,646,891 2	d half
1897—1st half	4,403,476 1902-1	st half8,808,574
2d half	5,249,204 2	d half 9,012,733
1898—Ist half	5,869,703 1903-1	st half 9,707,367
2d half	5,904,231 2	d half
1899—1st half	6,289,167 1904-1	st half
		d half8,323,595
		st half11,163,175
2d half		

With it all, and particularly considering the reactionary tone observable in the closing months of the halfyear, there has been no large accumulation of stocks. Mr. Swank's statistics of unsold stocks do not include pig iron manufactured by rolling-mill owners for their own use nor do they include pig iron in the hands of consumers. The stocks which were unsold in the hands of manufacturers or their agents, together with the iron stored in the yards of the American Pig Iron Storage Warrant Company, amounted altogether on June 30 1905 to 539,269 tons, which compares with 446,442 tons on December 31 1904, 623,254 tons June 30 1904 and 598,489 tons December 31 1903. While the amount is 92,827 tons more than at the close of 1904, it is smaller, it will be observed, than at any of the other dates named. There was a time, it is true, during the active period from 1901 to 1903 when stocks were almost nil. But it is to be remembered that these figures relate simply to visible stocks. It is generally admitted that during May and June consumers refrained from buying to a considerable extent and from replenishing depleted supplies, so that now stocks in consumers' hands are at a low point. And this, after all, is the chief consideration bearing upon the immediate future of the market. Or, to put the situation in the way stated by the "Iron Age" a few weeks ago, the furnaces are now carrying as a visible supply a considerable amount of metal which, under ordinary circumstances, would be in consumers' hands. We furnish below a statement to show the production of pig iron according to the fuel used in making it and furnishing also comparisons of the visible stocks for a long series of years past.

PRODUCTION OF IRON ACCORDING TO FUEL USED.

First Six Months.	1905.	1904.	1903.	1902.	1901.
Bitum. coal & coke_	10,162,488	7,337,279	8,401,001	7,882,732	6,597,379
Mixed anthracite and coke	815,028		$1,046,461 \\ 26,261$		865,024
Anthracite alone Charcoal	15,147 170,512			186,098	

Mixed charcoal&c'ke 927 6,004 17,979 ---------tion of pig iron have been received by him from every Total 11,163,175 8,173,438 9,707,367 8,808,574 7,674,613 blast furnace except one small charcoal furnace the out-Unsold stocks-374,129 73,647 put of which had to be estimated. He gives the produc-30,861 49,951 June 30 539,269 623,254 126,301 December 31 598,489 446,441 tion for the first half of 1905 at no less than 11,163,175 gross tons of 2,240 pounds. The magnitude Note .- In above stocks are included amounts reported held by the American Pig-Iron Storage Warrant Company. of this total can be judged when we say that in the last half of 1904 the output had been only 8,323,595 tons The foregoing illustrates in a graphic way how striking and large the increase in the output has been the and in the first half of 1904 but 8,173,438 tons. In other words, as compared with the second half of 1904 the last six months. The expansion has followed in very large degree from the great increase in the output of iron increase has been 2,839,580 tons and as compared with by the steel companies. The "Iron Age" gave some the first half of 1904 2,989,737 tons. Indeed, in the

figures on this point two weeks ago which are worth reproducing. The aggregate of the "Age's" monthly totals of production agrees very closely with the results furnished for the half-year by Mr. Swank, allowing for the fact that our contemporary's compilations never include the make of iron by the charcoal furnaces. Hence, these figures of the "Age" bearing upon the make of iron by the steel companies will answer very well for purposes of illustration. Here is the table referred to, as given by our contemporary. Besides the production of the steel companies it indicates the consumption of the merchant furnaces (arrived at by taking the production of such furnaces and allowing for the changes in their stocks) for the same half-yearly periods.

	Iron Output of	Consumption of
Tons of 2,240 lbs.	Steel Companies.	Merchant Product.
First half of 1904	4,863,028	3,090,124
Second half of 1904	5,332,628	3,183,214
First half of 1905	- 7,048,786	3,878,517

It will be seen from this that as against 4,863,028 tons in the first half of 1904 and 5,332,628 tons in the second half of 1904, the output of the steel companies in the first half of 1905 was 7,048,786 tons. The consumption of the merchant furnaces (all the iron made by the steel companies is for their own use) has progressed at a much slower rate. Moreover, as was pointed out by the "Age" at the time, the production figures alone do not reflect in full the increased activity of the business of the steel companies. Not only did their own iron product increase from 4,863,028 tons in the first six months of 1904 to 7,048,786 tons in the first half of 1905, but in addition, during the greater part of this latter period the steel companies purchased very considerable quantities of merchant iron to supplement their own output. In the light of such figures the very favorable report submitted the present week by the United States Steel Corporation is not difficult to understand.

To what may the wonderful increase in activity of the 81 millions in the later eighties. steel companies be attributed? The answer would appear to be simple. The transformation is due to the revival in the demand on the part of the railroads. These latter are the largest consumers of iron and steel in the country. When the railroad industry is depressed, so is the iron and steel industry. During 1903 the railroads were forced to practice extreme economy, and by reason of the great shrinkage in the value of their securities which occurred during that time, and which so seriously undermined confidence, they were unable to float new loans to any extent or to borrow freely-even the strongest and best of them. During 1904 the situation 15 per cent. again changed. The railroads no longer have any trouble in securing the funds necessary for new capital needs and are once more enjoying great prosperity, with traffic and revenues steadily expanding. Hence, orders by the railroads have for many months been large-not so much so for rails, perhaps, but certainly for cars, for locomotives, for materials and supplies, and for the hundreds of things in which iron and steel are used in the operation and construction of the railroads. The renewed expansion in the iron industry has followed be is always a fair and timely question. directly as the consequence of this return of confidence in the railroad world. May we not expect, therefore, that the iron trade will remain active with both production and consumption on a very large scale (though, possibly, not with a repetition of the exceptional buoyancy which distinguished the early months of 1905) so long as the railroad carrying industry does not experience any serious set-back ?

EXTRAVAGANCE IN GREAT BRITAIN.

Before the Institute of Bankers in London, Mr. Edgar Speyer delivered an address some weeks ago on aspects of national finance as they presented themselves to him. He confirms the opinion he expressed when inquired of in New York, some eighteen months ago, that the root of present English financial troubles and one of the main reasons for the growing excess of imports over exports, is extravagance-national, municipal and individual. He finds that the national expenditure in the last decade was 1,440 millions sterling, in contrast with 902 millions in the last decade previous; further, that the net expenditure for purposes not reproductive was 728 millions in, the decade ending March of 1886, 754 millions in the decade ending March of 1896, but in the decade ending March of 1906 it will be not less than 1,291 millions. Municipalities and individuals have in their turn been extravagant, the aggregate expenditures of the former having been approximately 1,270 millions in the last ten years, against 737 millions in the previous ten. The money has been spent on the army and navy, in beautifying towns and houses, on eating and drinking, and on luxuries generally. This statement might be made more strikingly dismal by adding to it (what Mr. Speyer does not mention) the very recent declaration of Lord Roberts that "the lessons of South Africa have been forgotten and I have no hesitation in saying that our armed forces as a body are as absolutely unfitted and unprepared for war as they were in 1899-1900." The result of extravagance, Mr. Speyer goes on to say, is that there is little margin left for investment in the colonies and elsewhere. The capital investments abroad which have been returning so large an income have stopped of late, because the money has been spent at home. The excess of imports over exports in 1903 reached the huge total of 183 millions, compared with

Mr. Speyer believes Great Britain is spending more per capita than any other great nation except France. He finds an instructive example of the bad effect upon trade in the fact that while in 1870 the railways paid in rates and taxes about 2 per cent of gross earnings and 2.81 per cent in 1890, the ratio was 4.23 in 1901, and will be still higher in 1905; compare rates and taxes with net instead of gross receipts, and the ratio was 3.82 in 1870, 4.70 in 1880, 8.58 in 1890 and 10 in 1904, and if income tax is included the last ratio will rise to

This is a pessimistic view. So far as it is sound it may serve, possibly, to console us in a negative fashion by indicating that the disposition of governments to increasing extravagance is not confined to this side of the world, and is not a defect of democratic forms particularly. And yet is this not perhaps an incomplete view of the case? Without doubt, public expenditures, like private ones, ought to be well directed, so that value is had for the money; whether this is the obtained result so far as might But is it clearly a matter to be deplored that imports exceed exports? Certainly millions of people cannot eat their cake and sell it any more than one person can; and so far as a decline of exports results from increased consumption at home, nothing more or worse is necessarily proved from such increase than that the people are able to live and are living on a better scale. The doctrine that a nation ought to skimp to the utmost, in, order to have the utmost surplus product to sell abroad, cannot be sounder than that an individual should do the of same.

Money and capital are not justly to be regarded as the end, but only as means to an end, and that end is national well-being.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

— The public sales of bank stocks this week aggregate 115 shares, of which 110 shares were sold at auction and 5 shares at the Stock Exchange. The transactions in trust company stocks reach a total of 43 shares.

Share	es. BANKS—New York.	Price.	Last previous	sale.

-We are able to give some details concerning the preliminary program arranged for the entertainment of delegates to the approaching convention of the American Bankers' Association in October. Some of the features are to be: A reception at the White House by President Roosevelt; reception at the Corcoran Art Gallery, with music by the Marine Band; exhibition drill by U.S. cavalry at Fort Myer; arrangements for all-day visits to George Washington's old home at Mount Vernon; theatrical performances in the evening; and probably an excursion down the Potomac River as far as the United States Proving Grounds at Indian Head, if time permits. The Council will be entertained at the country residence of Mr. Charles C. Glover. Besides the many noted drives and the entertainments of a private nature, trips are contemplated to the famous show-places in and about Washington, many of which possess national interest. The expected address of President Roosevelt gives added significance to the occasion. All the banks, trust companies and bankers in Washington are making elaborate plans for the pleasure and comfort of the delegates and their families.

-If the arrangements under consideration by the Phenix National Bank of this city (Mr. Finis E. Marshall, President) are consummated, the institution will quite likely locate in the new building which will be erected by the present owners at No. 1 Wall St., corner Broadway. This valuable property, only 29.10x39.10 feet, our readers will recall, was recently sold by the executors of the Benjamin D. Silliman estate for \$700,000 cash (nearly \$600 a square foot) to the Mercantile Trust Company of St. Louis, representing a syndi. cate of St. Louis capitalists. Lately the property was transferred to a company known as the Number One Wall Street Corporation, of which Mr. Festus J. Wade, President of the Mercantile Trust Co. of St. Louis, is the executive. The matter, though still in a tentative state, is being carefully considered by the Phenix National, and the outcome depends largely on the sort of building the owners may decide to erect on the site.

Mr. Clark Williams, the well-known Vice-President of the United States Mortgage & Trust Company of this city, resigned his office this week. Mr. Williams joined the company in 1894, one yeur after its organization, and has been successively Assistant Secretary, Assistant Treasurer, Treasurer, and then Vice-President. He is the Chairman of the Trust Company Section of the American Bankers' Association, and has always taken a prominent and active interest in trust company affairs. While Mr. Williams will not disclose his plans at the present time, rumor says he is to accept the vice-presidency of the Equitable Life Assurance Society.

-The absorption of the Concy Island & Bath Beach Bank of Brooklyn by the Jenkins Trust Company of Brooklyn has been completed, and the bank, which is located at Coney Island, is now, with its Bath Beach branch, conducted as the trust company's branch.

-The Utica Trust & Deposit Co. of Utica, N. Y., is publishing a statement showing assets in 1905 of \$4,484,492, which compares with \$3,715,583 in 1904, \$3,046,045 in 1902, \$1,321,859 in 1900 and \$564,180 in 1899—a gain of nearly four million dollars in six years.

-The \$100,000 capital of the new Hyde Park Nationa Bank of Boston-to which we alluded in these columns on June 17—has now been subscribed, and the following directors elected: Eugene N. Foss, Fred. L. Childs, Artemus S. Raymond, John E. Eaton, Harry R. Stone, Frank B. Rich, Harry A. Colins, Samuel E. Blanchard, Franklin C. Graham, Fred. J. Kennedy, C. L. Alden, John G. McCarter, Thos. F. Fallon, M. H. Barker, A. S. Lovejoy and C. H. Dwinell.

-The Mechanics' Trust Co. of Boston, which, as noted in these columns from time to time, was lately incorporated as successor to the Mechanics' National Bank, will open for business on Monday next, the 31st instant, in the quarters so long occupied by the bank. The new institution will have a capital of \$500,000 and a surplus of \$100,000.

--Mr. Arthur M. Heard, formerly Cashier of the Amoskeag National Bank of Manchester, N. H., has been elected to the presidency of the institution, to succeed the late Hon. George Byron Chandler.

--Action on the plan for the readjustment of the affairs of the Maryland Trust Company of Baltimore, which was to have been taken by the stockholders on Wednesday, has been laid over until September 6, not enough stock having been represented at this week's meeting.

-The increase in capital of the Cosmopolitan National Bank of Pittsburgh has become effective, and the bank now has a paid-up capital of \$500,000. The stockholders author ized the additional stock (\$300,000) in January.

-It is reported that the directors of the Fourth National Bank of Cincinnati have under consideration a plan for increasing the capital of the institution from \$500,000 to \$1,000,000 and the surplus from its present amount-\$700,-000-to \$1,000,000.

-The National Bank of Commerce of Columbus, Ohio, removed from its old location at the corner of High and Chestnut streets on Monday to its handsome new quarters in the Chittenden Hotel block.

—Three new Assistant Cashierships have been created in the new First National Bank of Columbus, Ohio, and Messrs. Chas. R. Shields, Henry Pausch Jr. and Edgar L. Abbott have been appointed to the positions.

-McKeen's Bank of Terre Haute, Indiana, which is one of the oldest banking institutions of that city (having been organized in 1854), has been converted to the national system. Its successor, to be known as the McKeen National Bank, has organized with \$400,000 capital. The incorporators are: Wm. R. McKeen (who is also President of the Terre Haute Traction & Light Company), Herman Hulman, Chas. Minshall, Frank McKeen and Samuel C. McKeen.

—The Peninsular Savings Bank of Detroit, Mich., is sending out a card calling attention to the fact that days of grace have been abolished in that State. It quotes Section 145 of the Uniform Negotiable Instruments Bill, recently enacted

-Mr. William A. Hawes, formerly Cashier of the Greenwich Bank of this city, has been appointed Auditor of the institution, and Mr. Clarence Foote, manager of the William Street branch, will succeed Mr. Hawes as Cashier. Mr. Frank Hammond, paying teller of the main office, and Mr. Harry A. Golding, manager of the Broadway branch, were appointed Assistant Cashiers.

in Michigan, as follows:

"Every negotiable instrument is payable at the time fixed therein without grace. When the day of maturity falls upon Sunday or a holiday, the instrument is payable on the next succeeding business day. Instruments falling due or becoming payable on Saturday are to be presented for payment on the next succeeding business day, except that instruments payable on demand may, at the option of the holder, be presented for payment before twelve o'clock noon on Saturday, when that entire day is not a holiday." The law becomes operative on September 16.

—The board of directors of the First National Bank of Milwaukee on Thursday, the 20th, adopted a resolution recommending an increase in the capital of the institution from \$1,500,000 to \$2,000,000. Present shareholders will be allowed to take the new stock in the ratio of one share of new for each three shares now held. A special meeting of stockholders to ratify the proposition will be called for n the near future.

-The Omaha National Bank of Omaha, Neb., has just ssued an attractive little folder entitled "Thirty-Nine Years of Successful Banking." In the following we show the growth the institution has enjoyed during this period.

Omaka Nat, Bank.	apital, Surplus & Undiv.Prof.	Deposits.	Resources.
October 1 1866	\$54,221	\$120,670	\$219,891
October 1 1876	224,940	934,453	1,339,993
October 1 1886	775,354	3,496,199	4,316,553
October 1 1896	1,050,654	3,362,846	4,458,501
July 1 1905	1,230,371	9,310,514	11,140,885
		.1 . 13.1.	

The Omaha National was chartered in February 1866 and began business the following July. The first President was Mr. Ezra Millard and the first Cashier Mr. J. N. Field. Mr. Joseph H. Millard, who is now President, became Cashier of the institution on Jan. 1 1867 and was elected President in 1884 to succeed Mr. Ezra Millard, who resigned at that time to erganize a new bank. Mr. William Wallace, who now occupies the post of Vice-President of the Omaha National, was its first bookkeeper—in 1866. The present officials, in addition to President Millard and Vice-President Wallace, are Mr. C. F. McGrew, Vice-President; Mr. Chas. E. Waite, Cashier, and Mr. Frank Boyd, Assistant Cashier.

-In speaking in these columns last week of the proposed consolidation of the United States National, the Union National and the Commercial National banks of Omaha, Neb., we inadvertently gave the location of the banks as Denver, Colo., instead of Omaha. The stockholders of the three institutions having ratified the proposition, the new bank, which is known as the United States National, opened for business on Monday of this week in the quarters formerly occupied by the Commercial National, at the corner of Sixteenth and Farnam streets. The consolidated institution has a capital of \$600,000 and a surplus of \$200,000. Its officers are: Messrs. M. T. Barlow, President; G. W. Wattles and V. B. Caldwell, Vice-Presidents; A. Millard, Cashier, and W. E. Rhoades, L. M. Talmage and G. E. Haverstiek, Assistant Cashiers.

-The following letter, received from Colin S. Campbell, Assistant Cashier of the United States National Bank of Denver, is self-explanatory.

July 21 1905.

Editor Commercial and Financial Chronicle.

I understand that a number of banking magazines have mentioned the organization of The Colin Campbell Investment & Security Co., at Goldfield, Nevada. I am not the party, nor do I know who that Colin S. Campbell is.

I have had a number of inquiries asking me if I am engaging in mining speculations and similar questions along this line. As an impression of this kind might possibly injure my standing with my banker friends, I would appreciate mention on your part in reference to the recent notice of the organization of that company, and a statement that the Colin S. Campbell is not the Assistant Cashier of the United States National Bank of Denver, as he has nothing whatever to do with the company at Goldfield, Nevada, and does not engage in the mining business or speculation in any way whatever.

Yours very truly,

COLIN S. CAMPBELL, Asst. Cashier.

-The receiver of the First National Bank of Topekawhich closed its doors on July 3, as noted in these columns at the time-has submitted his first report to the Comptroller of the Currency. It shows total liabilities of \$1,660,-557 and assets of \$2,118,275, of which \$756,684 are described as good, \$1,222,435 as doubtful and \$139,156 as worthless. The principal difficulty of the receiver has been in determining the value of the C. J. Devlin collateral, and he is unable to state what may eventually be realized from the same. --The Union Trust Company of Little Rock, Ark., has increased its paid-up capital stock from \$100,000 to \$250,-000. Of the increase \$50,000 was by the way of a stock dividend to the old shareholders and the balance of the increase, \$100,000, was new stock, sold at \$1 25, the par value being paid into the company and a premium distributed among the old stockholders. The directors are E. G. Thompson, A. N. Johnson, C. E. Neeley, C. T. Abeles, J. T. W. Tillar, John F. Boyle, George B. Rose, Moorhead Wright and S. W. Reyburn. The last named is President of the company.

-The Broadway Savings Trust Company of St. Louis took possession of its own new building, at Broadway and Chambers Street, on July 17. The company was organized last November and has a capital of \$100,000. J. H. Price is the President. Its board of directors is composed of the following: E. L. Adreon, First Viee-President of the American Brake Co.; Joseph D. Baseom, Secretary and Treasurer Broderick-Baseom Rope Co.; Charles S. Brown, President of the Hall & Brown Wood-working Machine Co.; George F Cottrill, Secretary Green's Car Wheel Manufacturing Co.; George D. Dana, Vice-President Charter Oak Stove & Range Co.; Benjamin F. Edwards, Vice-President National Bank of Commerce of St. Louis; S. W. Fordyce Jr.; Henry C. Haarstick, President Mississippi Valley Transit Co.; Thomas H. McKittrick, President Hargadine-McKittrick Dry Goods Co.; W. J. McBride, Vice-President American Car & Foundry Co.; J. H. Price, President; Charles M. Polk, Thomas H West, President St. Louis Union Trust Co.; George Wiegand Jr., Vice-President Standard Stamping Co., and Thomas H. West, Jr., Secretary and Treasurer.

-The Chiekasaw Savings Bank & Trust Company of Memphis, Tenn., last week filed an amendment to its charter by which the word "Savings" is dropped from its title, leaving the new name of the institution the Chiekasaw Bank & Trust Company.

-Mr. Clinton C. McClarty, who was recently elected Vice-President of the First National Bank of Louisvilleas mentioned in our issue of May 27—has again been promoted, and is now President of the institution, succeeding Dr. George B. Lewman, who resigns, owing to ill-health. Mr. C. C. Bickel, who gave up his position as Vice-President upon Mr. McClarty's election to that office, has again been elected to fill that post, and Mr. J. B. Lewman, formerly Assistant Cashier, has been chosen Cashier. Mr. C. N. Matthews will occupy Mr. Lewman's place as Assistant Cashier.

-The Capitol Savings Bank of Richmond, Va., has removed its offices from No. 1111 East Main Street to newly equipped and more commodious quarters on the ground floor of the Mutual Assurance Building, at No. 907 East Main Street. The officials are: Messrs. S. G. Fairbank, President; C. D. Larus, Vice-President, and R. M. Kent Jr., Cashier.

-The State Savings Bank of Charleston, S. C., has called a special meeting of its stockholders for August 14 to vote upon a proposition to increase the par value of the shares from \$25 to \$100 each and to reduce the number of shares from 1,200 to 300. Thus the capital stock (\$30,000), instead of being divided into 1,200 shares of \$25 each, will be composed of 300 shares of the par value of \$100 each.

-The First National Bank of Vieksburg, Miss., has awarded the contract for its new eight-story fireproof steel and brick bank building to F. J. McGraw of Vieksburg. It will cost \$183,335. The institution has a capital of \$200,000, surplus and undivided profits of \$104,677 and deposits of \$697,779. Its officers are: Mr. B. W. Griffith, President; Mr. J. M. Phillips, Cashier, and Mr. J. F. Whitfield, Assistant Cashier.

-Organization of the German-American National Bank of New Orleans-reference to which was made in these columns on July 15-has now been completed, and the following officers elected: President, Mr. W. R. Irby; Vice-Presidents, Messrs. W. P. Burke, T. H. McCarthy, A. Breton, S. E. Worms and G. W. Clay; Cashier, Mr. W. W. Bouden, and Assistant Cashier, Mr. F. Dietze Jr. It was originally planned to fix the capital at \$1,000,000 and the surplus at \$500,000, but, owing to the great demand for shares in the new institution, it was decided to increase the capital to \$1,200,000 and surplus to \$600,000, the shares being sold at \$150 each. A call for 25 per cent of the allotments is to be made on or before July 31, and it is expected that the bank will be opened for business between August 15 and September 1.

-Mr. J. D. Jackson has resigned as Assistant Cashier of the Gaston National Bank of Dallas, Texas, owing to ill health. He is succeeded by Mr. J. Howard Ardrey. Mr. W. T. Henderson was elected an Assistant Cashier.

-The Western Bank & Trust Company of Dallas, Texas, has secured a ten-year lease on a piece of property on Elm Street immediately in the rear of its present quarters on Main Street. Possession of this property will be taken on September 1, when the bank will immediately begin the construction of a modern two-story bank building, and, in addition, it is proposed to build a basement under the Main Street building, to be used for the installation of safe-deposit vaults. It is expected the improvements will be completed by the first of next January.

-The new trust company for Houston, Texas-to which reference was made in these columns on June 3 last—is to be known as the Union Bank & Trust Company and will have a capital of \$500,000 and surplus of \$125,000. It is expected to open for business about August 21. Captain J. S. Rice, it is stated, will be President, and Mr. Homer N. Tinker, who is prominently identified with the banking business in the South, will be Secretary and Cashier.

-In our issue of May 13 last, in referring to the opening for business of the Seaboard Bank of San Francisco, we stated that the stockholders would vote July 11 upon increasing the capital to \$250,000. The bank has now filed a certificate announcing the increase.

-The tenth annual convention of the Washington State Bankers' Association was held at the Lewis & Clarke Exposition Grounds at Portland, Ore., on July 20, 21 and 22. A variety of interesting subjects were discussed and papers read on some timely topics. Among the latter may be mentioned one on "Railroads from the Banker's Standpoint," by Mr. Walker Hill, President of the Mechanics' American National Bank of St. Louis, and one by Mr. J. H. Cameron, Vice-President of the Hamilton National Bank of Chicago, on "The Growth of Commercial Centers in this Country and the Relation of Country Banks thereto." Under the head of "Practical Questions for Discussion," the subjects were: "Shall National Banks Loan on Real Estate," "Taxation Affecting Banks," "Shall We Have a State Law Regulating Banks." Saturday, July 22, was designated as "Bankers' Day" by the management of the Lewis & Clarke Exposition, and in the evening of the same day the delegates were tendered a complimentary banquet at the American Inn by the Portland Clearing House Association. The following were elected officers to serve for the ensuing year: President, E. T. Coman (Cashier of the First National Bank of Colfax); Vice-President, M. F. Backus (President of the Washington National Bank of Seattle); Secretary, P. C. Kauffman (Second Vice-President of the Fidelity Trust Company of Tacoma); Treasurer, Robert Moody (Cashier of American Nat. Bank of Everett).

Mr. A. L. Mills, President of the First National Bank of Portland, Ore., announced that the Oregon banks would also form an association. Subsequently an organization of banks of that State was effected, and the new body adopted the constitution of the Washington Bankers' Association.

-The semi-annual statement of the Union Discount Co. of London is at hand. The gross profits for the six months ending June 30 were \$919,490, which with the balance of \$251,225 brought forward from Dec. 31 1904 shows a total to credit of profit and loss account of \$1,170,715. A dividend was declared for the half-year at the rate of 11 per cent per annum, calling for \$206,250, and after this and other deductions, a balance of \$265,144 was carried forward. The loans and deposits, including provision for contingencies and bills re-discounted, aggregated \$91,444,008.

Dean of the Evening School of Accounts and Finance of the University of Pennsylvania. The directors chosen for the first year simply represent the members of the two committees, and they will all resign in October next, when the amalgamation between the Federation and the American Association goes into effect, and new directors will be chosen at that time, and a committee will be appointed to look after the work of the Journal.

IMPORTS AND EXPORTS FOR JUNE.

The Bureau of Statistics at Washington has issued the statement of the country's foreign trade for June, and from it and from previous statements we have prepared the following interesting summaries:

FOREIGN TRADE MOVEMENT OF THE UNITED STATES. (In the following tables three ciphers (000s) are in all cases omitted.)

ACCOUNTANTS TO HAVE AN OFFICIAL JOURNAL.

At a recent conference between committees representing the Federation of Societies of Public Accountants and the American Association of Public Accountants, it was decided to arrange for the publication of an official journal for the profession, to be known as "The Journal of Accountancy." A corporation has been formed for the purpose under the name of "The Accountancy Publishing Company," and sufficient funds, it is stated, have been subscribed to carry on the work contemplated. The Journal will be under the direct control of the American Association of Public Accountants, as the majority of the capital stock will be held by it. It is proposed to engage as editors Professor Joseph French Johnson, Dean of the School of Commerce, Accounts and Finance of the New York University, and Dr. E. S. Meade,

FAILURES FOR SECOND QUARTER AND SINCE JAN. 1.—The following figures, prepared from Messrs. R. G. Dun & Co.'s statement, show the number of failures in the United States and Canada during the quarter ending June 30, 1905, and for the six months ending with the same date. For purposes of comparison like figures for the corresponding periods of the preceding year are given:

		905

IMPORTS AND EXPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

The Collector of Customs at San Francisco has kindly furnished us this week the details of imports and exports of gold and silver through that port for the month of June, and they are given below in conjunction with the figures for preceding months, thus completing the results for the fiscal year, 1904-05. The imports of gold were of unimportant volume, reaching but \$120,911, of which \$4,949 was in coin. Of silver there came in \$194,437, almost wholly bullion and silver in ore. During the twelve months there was received a total of \$15,590,873 gold and \$3,003,796 silver, which compares with \$35,376,472 gold and \$3,492,900 silver in 1903-04. The shipments of gold during June were very light, reaching only \$1,950, all coin, and the exports of silver were \$318,321, of which \$314,500 was bullion. For the twelve months the exports of gold reached \$5,832.748, against \$715,777 in 1903-04, and \$6,799,502 silver was sent

Ronetary Commercial English News

London, Saturday, July 15 1905.

There has been a decided improvement in the Stock Exchange during the last couple of days, although business continues almost as inactive as ever. The great fall in South African mining shares that has been going on for a considerable time now induced the fear that there would be some serious failures at the fortnightly settlement on the Stock Exchange this week. It was well known that one or two large houses in the Stock Exchange had lost heavily, and it was doubted whether they would be able to tide over their difficulties. They, however, have received help, and there has, in consequence, been no failure. The belief is that the stocks held by the weak operators have now been taken over by large houses here and in Paris, and that the market, therefore, is really sounder than it has been since the South African War.

The improved feeling has been strengthened by the conelusion of the arrangement between France and Germany. The general impression is that M. Rouvier has conducted the negotiations with Germany with great skill and success, that he has yielded on no fundamental point, and that he has safeguarded French independence. At the same time, there is an exceedingly sore feeling throughout France. And there is a latent fear that in the conference Germany may attempt some other coup which will disconcert the French Government. Over and above all this, there is an unacknowledged feeling amongst the majority of Frenchmen that the politicians were too easily frightened. M. Deleasse, in an interview with one of the Paris papers, has openly declared that he never believed that Germany meant war; that if he had remained in office, with the support of the Republican Party he would have refused to enter into a conference; and that he was convinced that Germany would not fight. For he declares that France would have been supported by England, and that Germany would not have ventured to face the combined British and French fleets. It was generally understood that this was M. Delcasse's view, but his open admission of it has made a very considerable impression, and there is going on a revulsion from the alarm that recently existed. In consequence, the entente cordiale with this country has gained greatly in favor in France. This week the British fleet has visited Brest, and is being received quite as cordially as the Russian fleet was when it visited France. Thus the recent tussle between France and Germany has very materially strengthened the entente cordiale.

Over and above all this, the appointment of M. Witte as Russian plenipotentiary to negotiate for peace has made the very best impression all over Europe. It is notorious that from the very first M. Witte was opposed to war; that he did his utmost to prevent it; and that it was his bitter opposition to the War Party which eaused his downfall. Now that he has been appointed plenipotentiary, he will, of course, use all his efforts to conclude peace, and it is hoped that his appointment affords proof that the Czar sees that M. Witte was his really good adviser, and that probably, therefore, M. Witte will be given a far more influential place than he has yet held. That he may be appointed chief Minister is the wish of all who desire to see order and good government established in Russia. The probability that peace will be concluded and that M. Witte may return to power has improved feeling, not only here at home but all over the Continent. For all that, there is no increase of activity in business. In the first place, the weather is exceedingly hot; in the second place,

out, against \$4,513,792 in 1903-04. The exhibit for June and for the twelve months is as follows:

we are now fast approaching the holiday season; and, in the third place until peace is actually concluded, and until the coming conference is held, it is hardly probable that Frenchmen will engage in new risks. In the meantime, however, trade here at home is steadily improving, and a very confident feeling is growing up.

Money is abundant and cheap, and the general belief is that it will continue so for some months. While the seare caused by the Moroccan incident continued, France withdrew gold from London as well as from New York and Berlin. And it was feared that she might go on doing so and thus prevent the Bank of England from accumulating such a gold reserve as would ensure easy money for the rest of the year. Now, however, the best opinion in Paris is that France will not take more gold. She has an immense stock of the metal. The danger of war with Germany is over. The hope that peace will be concluded grows stronger. And, for the time being at all events, the danger of revolution in Russia is less than it was. Consequently, the great French banks do not feel it necessary to increase their reserves. Indeed, it is possible that they may reduce their reserves by employing some of the surplus balances in London and else- | September 1): where. For some time past Italy has been taking a consid erable amount of gold from France, Italy being very pros perous just now, and there being a very active speculation going on. It is believed, though, that Italy has now received as much gold as she requires, and hence that she Italian demand for the metal will not continue.

The Japanese loan has been a very marked success. Every body knew it would be successful; but few were prepared for so remarkable a success. The subscription list was closed at half-past two on the day on which it was opened, and the total subscriptions amount to about 100 millions sterlingthat is, in about half a day the portion of the loan allotted to London was subscribed ten times over. It is understood moreover, that the applications for small allotments, that is for allotments of £100 of stock, amounted to between two and three millions sterling. Of course a great deal of the over-applications were factitious. Nobody expected to ge the whole. But the figures, for all that, show how popular the loan was and how eager the public was to get the allotments. In Germany, the applications somewhat exceeded those in London.

The India Council offered for tender on Wednesday 40 lacs of drafts and the applications exceeded 370 lacs at prices ranging from 1s. 4d. to 1s. 4 1-16d. per rupee. Applicants for bills at 1s. 4 1-32d. per rupee were allotted about 47 per cent of the amounts applied for.

The following return shows the position of the Bank o England, the Bank rate of discount, the price of consols, &c. compared with the last three years:

SILVER.—On buying orders from the Continent, and in spite of some selling on China account, the quotation for spot silver has risen to 27 5-16d. At this figure the market is a steady one, as offerings are small. India has given no support to the market during the week. Forward silver is now quoted 3/d. under cash. The Indian price is Re. 69 per 100 Tolahs. For the week. Arrivals—New York, £174,000; West Indies, £4,000. Shipments—Bombay, £81,700; Hong Kong, £44,400; Shaughal, £5,000; Madras, £2,500; Egypt, £1,200. For the month of June. Arrivals—Russia, £194,500; France, £35,500; U.S. A., £908,750. Ship-ments—Russia, £240,000; France, £53,000; China, £126,400; India, £676,500. MEXICAN DOLLARS.—There is no business doing in these coins.

Imports and Exports for the Week.—The following are the imports at New York for the week ending for dry goods July ×0 and for the week ending for general merchandise July 21; also totals since beginning first week January. FOREIGN IMPORTS.

1905. For week. 1904. 1903. 1902. \$2,468,358 7,924.851 Dry Goods. General Merchandise \$2,326,186 8,294,769 \$2,303,097 8,117,391 Total..... \$10,393,209 \$10,620,955 \$10,676,111 \$10,420,488 Since Jan. 1. \$67,367,859 265,089,261 Dry Goods. \$77,863,424 315,321,311 \$75,888,254 261,993,528 \$69,099,418 239,779,761 General Merchandise Total 29 weeks...... \$393,184,735 \$332,457,120 \$337,881,782 \$308,879,179

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of, specie) from the port of New York to foreign ports for the week ending July 24, and from January 1 to date.

EXPORTS FROM NEW YORK FOR THE WEEK.

	1905.	1904.	1903.	1902.
For the week Previously reported	\$8,829,914 286,942,759			
Total 29 weeks	\$295 772 673	\$269 718 365	\$2\$4 174 538	\$270 906 772

NOTE.—As the figures of exports as reported by the New York Custom House from week to week frequently show divergence from the monthly totals, also compiled by the Custom House, we shall from time to time adjust the totals by adding to or deducting from the amount "previously reported."

The following table shows the exports and imports of specie at the port of New York for the week ending July 22 and since Jan. 1, 1905, and for the corresponding periods in 1904 and 1903.

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK

	EXPO	ORTS.	IMPORTS.			
Gold.	Week.	Since Jan. 1.	Week.	Since Jan. 1.		
Great Britaln France		\$1,500 25,236,526		\$330,922 4,266,136

WALL STREET, FRIDAY, JULY 28 1905 .- 5 P. M. The Money Market and Financial Situation .- It became generally known in Wall Street early on Monday that last week's reports of extensive damage to spring wheat by rust had been greatly exaggerated. In response to this information and also on a fuller appreciation of the importance of recent and prospective dividend announcements the tone of the security markets has steadily improved and the volume of business has increased. The latter, however, is still limited and will doubtless continue to be relatively small until the crop situation is more definitely fixed and the midsummer vacation period has ended. Of course the dividend announcements referred to have

been foreshadowed by traffic reports given out from time to time during recent months, but they are undoubtedly one of the most potent factors in the present situation.

If the harvests should prove as abundant as they now promise, the prospect of general business activity and pros-perity during the coming season seems good, in which case railway earnings, as is well known, will continue large. It should be borne in mind, however, that security prices are now in many cases very high and it is quite possible that a realization of the best results now in prospect will be required to maintain these prices at their present level.

The peace envoys from Japan have arrived in this city and arrangements for the conference are progressing. A firmer market for Russian securities in Europe is supposed to reflect a strong hope abroad that the negotiations will end successfully.

Money market conditions are practically unchanged and the low rates noted last week have generally prevailed.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from $1\frac{3}{4}$ to 2 p. c. To-day's rates on call were $1\frac{3}{4}(22 \text{ p. c.})$ Prime commercial paper quoted at $4\frac{3}{4}\frac{4}{4}$ p. o. for endorse-ments and $4\frac{3}{4}\frac{4}{4}$ p. c. for best single names. The Bank of England weekly statement on Thursday showed a decrease in bullion of £254,232 and the percent-age of reserve to liabilities was $48^{\circ}67^{\circ}$ against $48^{\circ}43^{\circ}$ last week

age of reserve to liabilities was 48.67, against 48.43 last week, the discount rate remaining unchanged at 2½ per cent. The Bank of France shows an increase of 10,150,000 francs in gold. NEW YORK CITY CLEARING-HOUSE BANKS.

	1905 July 22	Differences Irom previous week	1904 July 23	1903 July 25

Surplus reserve	14,949,950	Deo 4.573,300	50,609,600	18,915,400

* \$8,526,500 United States deposits included, against \$11,398,800 last week and \$23,343,200 the corresponding week of 1904. With these United States deposits eliminated, the surplus reserve would be \$17,081,575 on July 22 and \$22,372,950 on July 15. NOTE.—Returns of separate banks appear on the preceding page.

Foreign Exchange.—The foreign exchange market was generally strong this week until Thursday, influenced by a good demand for remittance and to cover shorts, and by lighter offerings of bills; then there was a sharp decline and the tone was easy at the close.

To-day's (Friday's) nominal rates for sterling exchange were 4 85½ for sixty day and 4 87½ for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8490 @4 85 for long, 4 8655@4 8660 for short and 4 8680@ 4 8690 for cables. Commercial on banks, 4 8450@4 8460, and documents for payment, 4 84@4 8434. Cotton for pay-ment, 4 84@4 84¼; cotton for acceptance, 4 8450@4 8460, and grain for payment 4 8454@4 8434

ment, 4 54@4 84½; cotton for acceptance, 4 8450@4 5400, and grain for payment, 4 845%@4 8434. To-day's (Friday's) actual rates for Paris bankers' francs were 5 18½*@5 18½ for long and 5 16½@5 16¼‡ for short. Germany bankers' marks were 9434@94 13-16 for long and 95 1-16@95½\$† for short. Amsterdam bankers' guilders were 40 5-16@40 5-16¶ for short.

Exchange at Paris on London to-day, 25 f. 131/2c.; week's range, 25 f. 14c. high and 25 f. 13½c. low. The week's range for exchange rates follows:

discount; Chicago, par; St. Louis, 250, per \$1,000 discount; San Francisco, 50c. per \$1,000 premium.

State and Railroad Bonds.-Sales of domestic State bonds at the Board are limited to \$25,000 Virginia 6s deferred trust receipts at 1234 to 131/2

There has been steadily increasing activity in the market for railway and industrial bonds, the business has been better distributed than of late, and nearly all changes in quota-tions are to a higher level. These changes are, however, in most cases fractional.

There are a few exceptional features. Union Pacific convertible 4s and some of the Eries advanced in sympathy with the shares of those companies. Northern Pacific, Norfolk & Western and Colorado Industrial issues have been relatively strong. Wabash debentures are fractionally lower. Other changes in the active list are unimportant.

United States Bouds.-Sales of Government Bonds at the Board include \$22,000 3s, coup., 1908-18, at 103% to 1044; \$5,000 4s, coup., 1907, at 1041_8 , and 14,0:0 2s, reg., 1930, at 103%. The following are the daily closing quotations; for yeariy range see third page following

Railroad and Miscellaneous Stocks - Under the influence of less unfavorable crop reports and additional dividend announcements, as noted above, the stock market has been somewhat more active than last week, and a stronger tone has developed. The largest volume of business was recorded to-day, when the list of stocks that advanced from 1 to nearly 3 points was a long one.

Erie has been conspicuous, the 2d preferred moving up 41/2 points on being added to the dividend-paying list. Illinois Central has been a notably strong feature, closing over 7 points higher than last week. Union Pacific, Northern Pacific and St. Paul are also higher, but Great Northern has lost a part of its recent advance. Lackawanna, by far the highest-priced stock dealt in on the Exchange, advanced nearly 10 points to $404\frac{1}{2}$ on bids which brought out a limited number of shares.

Miscellaneous and industrial issues have not been prominent in the week's operations. The United States Steel issues responded feebly to the favorable quarterly report, the latter having evidently been anticipated and its effect discounted. They advanced a point or more to-day, how-ever. Fittsburgh Coal preferred added nearly 5 points to the decline noted last week but recovered the loss to-day: General Electric has fluctuated widely. Consolidated Gas and New York Air Brake have declined.

For daily volume of business see page 499. The following sales have occurred this week of shares not represented in our detailed list on the pages which follow.

Outside Market .-- Trading on the curb outside the dealings in several of the leading securities has again been light this week. The movement of prices on the whole has been towards a higher level. Chicago Subway continued as the leading attraction and established a new high record at 841/2, a gain of 5% points over the close last Friday; the final sale to-day was at 841%. International Mercantile Marine issues displayed strength on the report of large increase in earnings since the close of the fiscal year December 31 19 4: after a decline of 5% to 11, the common advanced to 1414, but at the close to day reacted again to 13; the preferred lost a point to 261/2 in the early part of the week, but subsequently it ran up to 311/4 and ends the week at 301/2. On transactions aggregating only about 1,250 shares, Northern Securities stock fluctuated between 171% and 175, and closes to-day at 174%. After a drop of 1½ points to 2031%, Interborough Rapid Tran-sit rose to 211%. Hackensack Meadows gained 5 points to 27. Greene Consolidated Copper was one of the prominent features of the copper group: these shares moved up from 22¹/₄ to 26¹/₄. Greene Consolidated Gold advanced a point to 5. but to day fell back to 4³/₄. United Copper common fell from 31¹/₈ to 29¹/₄ in the early part of the week, but later it rose to 32¹/₄; the close to day is at 31¹/₄. Granby moved up a point to 7¹/₄, but to day reacted to 7¹/₈. Union Copper made a further gain of 3% to 2; subsequently, however, it fell back again to 15% and cuded the week at 134. Ontside quotations will be found on page 499.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July I to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the street railways are brought together separately on a subsequent page.

	Latest	Gross Earn	nings	July 1 60	Latest Date		Latest	Gross Kar	nings	July 1 to	Latest Date

AGGREGATES OF GROSS EAKNINGS-Weekly and Monthly.

t Mexican currency. ò Includes the Hous. & Tex. Cent. and its subsid. lines in both years. e Covers lines directly operated. g Includes the Chicago & Eastern Illinois in both years. k Atlanta Knoxville & Northern included in both years since April 1; it had previously been included in 1905 since Jan. 1.

Latest Gross Earnings by Weeks .- In the table which follows we sum up separately the earnings for the third week of July. The table covers 36 roads and shows 10.68 per cent increase in the aggregate over the same week last year.

Interest Charges and Surplus .- The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus above or deficit below these charges.

Calumet & Hecla Mining Company.

(Report for Fiscal Year Ending April 30 1905.)

President Alexander Agassiz, under date June 15. says:

(Report for Fiscal Fear Ending April 30 1905.) President Alexander Agassiz, under date June 15. says: The new openings of the past year on the conglomerate belt in the violatity of the Red Jacket shaft in the five forties. Work on the slope reaching into the five forties has continued uninterruptedly during the year. The southern openings in the Heola and South Heola branches remain of about the same character. The work of opening three shafts on the Kearsarge lode has progressed satisfactorily and the quality of the ground passed through in one of the shafts is promising. Owing to the nature of the ground above the solid rock the collars of these shafts were built of concrete with iron supports in place of the ordinary timber sets. Since July about 75,000 tons of amygdaloid rock have been stamped from the O-colo lode. An extraction of twenty two pounds of copper per ton of rock has been obtained. It is proposed to increase the product from this amygdaloid by openings from one or more of the shafts already opened on the lode. The building operations at the mile location have been limited to the remodeling of the Calumet mill has been completed. The mill's running most satisfactorily and is making a marked saving of copper as compared with the results obtained with the old machinery. This gives us now seventeen heads equipped with economiasi milling and washing machinery. We have size the the remodeling of the Hecia mill and hope to have six additional heads running on the new asstem by May 1905, leaving only five heads to be remodeled in the excellent results as to the quality of opper protented. At the Baff sto ameling works we have put into active service two waste heat boliers and built a new and larger refining furnace in place of an old one, we have completed our concrete docks and replaced one of the wooden trestles with a steel one. Excellent progress has been made in the erection of two large engines for driving the additions to our electric power plant at Lake Linden. We expect to have this plant in

The "Chicago Economist" says:

The directors declared a semi-annual dividend of 2's p. c. on the preferred stock, payable Angust 15. This is the third payment of a similar amount distributed by the company since it resumed divi-dends. When the disbursements were discontinued two or three years ago, the stock paid at the rate of 7 p. c. It is said to be the policy of the company to keep a fair surplus in reserve. The preferred stock is non-cumulative.

The company's new wire mills will soon be completed, Special machinery for the manufacture of steel wire springs will also be installed. -- V. 80, p. 1734,

The West India Electric Co., Ltd., Kingston, Jamaica. (Report for Fiscal Year Ending Dec. 31 1904.)

President F. L. Wanklyn, under date of Maroh 8, 1905, says in substance:

The operations of the railway for the year and of the lighting plant in St. Andrew since its installation show a net surplus, after provid-ing for interest on bonds and all other oharges, of £2,780, or \$28,131, a decrease, as compared with the previous year, of £2,343, or \$11,401. This result is due to a decrease in the receipts owing to the bad eco-nomic condition on the island arising from the destruction of the plantations by the hurricane in 1503. The directors, however, are glad to be able to report that the plantations have been restored, the fruit exports are increasing, and during the coming year should be as large as formerly. A heavy expense was also incurred by a lamenta-ble accident in the conduit place at the Rio Cobre, whereby, as the result of a panic, thirty-three lives were lost. The Coroner's jury ac-quitted the company and its officials of all blame; notwithstanding this the company was compelled to face a heavy and unforesseen ex-pense, all of which has been charged to operating expenses. The result from the lighting system in the parish of St Andrew have been most encouraging, and the directors believe that their expectations in this respect will be anstained. The power plant at the Rio Cobre and the transmission line, which was recently reconstructed to give increased capacity, continue to give satisfactory results in operation. The road-bed, rolling stock and all the plant have been efficiently maintained. The operations of the railway for the year and of the lighting plant maintained.

BAILROADS, INCLUDING STREET ROADS.

Alberta Bailway & Irrigation Co.—Interest Poyment.— A London periodical says:

Warrants have been issued for an interim payment of 1 p. c. on the Warrants have been issued for an interim payment of 1 p. c. on the 5 p. c. debenture stock, and it is announced that the balance of the in-terest for the period from Oct. 1 1904, when the company commenced business, to June 30 1905, will be payable after the net revenue for the nine months has been ascertained. It is the intention of the board to make on July 1 in each year an interim payment of 2 p. c. on the 5 p. c. debenture stock, if in their opinion that can safely be done; the balance of 3 p. c., if earned, will be payable after the accounts to June 30 are made up, about Ost. 20 in each year.—V. 77, p. 2946.

Beaver Valley Traction Co.-Change of Control.-The Philadelphia Company of Pittsburgh or its subsidiary, the Pittsburgh Railways Co., has purchased from Sydney L. Wright, W. Redwood Wright and W. Frederick Snyder, all of Philadelphia the hulk of the \$1,075,000 stock of the Par of Philadelphia, the bulk of the \$1,075,000 stock of the Bea-ver Valley Traction Co. The following have been elected: President, J. D. Callery; Vice-Presidents, Sydnsy L. Wright and S. L. Tone; Secretary, W. B. Carson; Assistant Secretary and Treas-urer, J. C. Lightfoot Jr.-V. 77, p. 2158.

Buffalo Lockpart & Rochester Ry.—Consolidation—Ac-quisition.—This company was incorporated in June 1905 and is a consolidation of the Albion Electric Ry., the Albion & Lockport Ry. and the Albion & Rochester Ry. Capital, \$4,000,000, all common. The Railroad Commissioners have mortgage is made to the Lincoln Trust Co, of this city as trustee and secures an issue of \$4,000,000 of 50-year 5 p. c. gold bonds, interest payable February and August, of which \$1,000,000 are reserved for future extensions and acquisitions. There are no underlying liens.

The company intends to build 54 miles of track from Rochester to Lockport, at which latter point connection will be made over the tracks of the International Traction Co. into Buffalo, Also has trackage rights into Rochester over the tracks of the Rochester Ry. Co. Road is entirely on private right of way except in cities and towns, where franchises for 99 years or perpetual have been granted. The road is now under construction and is expected to be completed and in operation to Branchport this year. Entire road will be in operation in about a year.

Central Railroad of New Jersey.-See New Jersey Terminal RR. below.-V. 79, p. 2642.

Chicago Bariington & Qaincy RR. -Call: d Bonds - The New England Trust Co. of Boston will pay at par on Aug. 1 Denver extension 4 per cent bonds due Feb 1 1923 to the fol-lowing amounts, viz.: \$102,000 in \$1,000 bonds and \$2,200 in \$100 bonds. - V. 80, p. 2620.

Chicago City Ry .- New President.-First Vice-President Mitten has been elected President. Syndicate Profits.-The "Chicago Inter-Ocean" says:

The \$36,000.000. syndicate which took over the company's stock at \$200 a share the first of the year paid a dividend on July 1 at the rate of 41 per cent on the stock of the syndicate at par. So far the assessments on the underwriting syndicate have aggregated only 95 per cent.

Compensation to City.-The city transportation committee on July 20 approved the company's offer to pay the city of Chicago \$85,400 in full settlement of all claims for overdue compensation and a flat rate of \$5.003 per month in the future, beginning Jaiy 1.-V. 80, p. 2398.

Chicago & Western Indiana RR.—Bonds Ofered.—Harvey Fisk & Sons are offering at par and interest, by advertisement on another page, \$500,000 consolidated mortgage 4 p. c. gold bonds, due July 1 1952.—V. 80, p. 2619.

Cincinnati Flemingsburg & Southeastern RR.—Pur-chase — This company, incorporated in Kentucky June 1 1905 with \$125,000 capital stock, in \$100 shares, of which \$25,000 is 8 p. c. cumulative preferred, has purchased the narrow-gange road of the Covington Flemingsburg & Ashland RR., extending from Johnson via Flemingsburg to Hillsboro, 17 miles. A first mortgage has been made to the Columbia Finance & Trust Co. of L uisville, Ky., as trustee, to secure \$30,000 of 5 p. c. 20-year gold bonds, dated June 1 1905, in-terest Dec. 1 and June 1 at office of trustee. Denomination \$500 and \$1,000. Sinking fund, \$1,500 yearly. Officers:

Attilla Cox. President, Louisville, Ky.; O. D. Lanier, Vice-President, New York; W. N. Cox, Scoretary and Treasurer; Attilla Cox Jr., Gen-eral Counsel; S. S. Bush, General Manager; all with offices at Louisville.

Cincinnati Hamilton & Dayton Ry.-Joint Bonds.-The \$3,500,000 Cincinnati Hamilton & Dayton-Pere Marquette joint notes recently mentioned in this column are not a new obligation of the system, but merely take the place of an equal amount of Pere Marquette notes issued last year to secure control of the Chicago Cincinnati & Lonisville RR. Co. It is not expected that any of these notes will come on the market, as they are closely held by the small group of men who were the builders of the Chicago Cincinnati & Louisville Railroad.-V. 81, p. 264.

Cleveland & South-Western Traction Co.-Bonds Offered -F. L. Fuller & Co., Cleveland, are offering at 971/2 and interest \$300,000 first and consolidated mortgage 5 p. c. gold bonds due Feb. 1 1923, but subject to call at company's option Feb. 1 1913 at 105 and interest. Total anthorized issue \$3,000,000, of which outstanding (including bonds now offered) \$1,400,000; held to retire underlying bonds, \$1,600,000. The bonded debt of the system is \$22,000 per mile.

EARNINGS FOR FIRST SIX MONTHS OF 1904 AND 1905.

1905. \$237,375 Increase \$32,622 28,205 88,483 "The income shows a steady growth from year to year, and the comparative statement shown above assures a net surplus earning for the year 1905 of approximately \$100,000 after paying all bond interest."-V. 76, p. 1299.

Colorado & Northwestern R.B.-Status.-President Sam'l B. Dick, Meadville, Pa, under date of July 21, writes :

B. DIOK, Meadville, Pa, under date of July 21, writes: The compons hereafter will be paid at the United States Trust Co., the trustee under the mortgage. The entire issue of \$1,000,000 bonds, with the exception of \$37,000, are held by Mr. Culbertson and myself, and, as we were wanting to use additional money in putting in sidings to meet the growing demands of the business, we carried our own coupons over, which is the reason why they were not paid at the trust company. The balance of the coupons were taken care of. We have been very much delayed by the unusual season prevailing in the mountains, as there was snow up to the first of June. The property looks better than it ever looked, and since we got our third rall into Denver, allowing us to run our solid trains, both passenger and freight, our passenger earnings for the first ten days of July averaged \$300 a day. Mines are statting up in every direction, machinery is going in, and we anticipate in the next six months to evern a handsome surplus over and above our interest requirements.— V. Sc, p. 650.

Columbia (S. C.) Electric Street Railway, Light & Power Co.-Increase of Capital Stock.-This company on July 5 filed a certificate of increase from \$203,000 to \$1,600,000, \$600,-000 to be 6 p. c. preferred and \$1,000,000 to be common stock. The additional stock is issuable in connection with the purchase of the Columbia Water Power Company's property. S.e V. 80, p. 1971, 2620.

Lonway Coast & Western RR.-New Officers.-James H. Chadbourn has teen elected President and E, P. Schulken Secretary and Treasurer.-V. 79, p. 1266.

\$1,000 each. These bonds are dated July 1 1905, due July 1 1935, without option of earlier redemption; interest payable July 1 and Jan. 1, free of tax in Pennsylvania. They are to be a first mortgage on the entire property, equipment, franchises and private rights of way now owned or to be ac-quired. Trustee, N. Y. Tr. Co., N. Y. City. A circular says: quired. Trustee, N. Y. Tr. Co., N. Y. City. A circular says: The company is a Pennsylvania corporation, chartered Dec. 6 1901; capital stock, \$1,000,000; par of shares, \$50. Franchises are per-petnal and include the right to transport persons, light freight, express and mail. The company proposes to build a modern electric interurban raliway between the city of Erie and the towns of Water-ford, Union City and Corry, with a branch to Cambridge Springs; total system 42 miles in length, all in Pennsylvania, and entirely on a private right of way except in crossing public highways and in cities or towns. The ralis except on paved, etc., streets; substantial steel bridgee. The motive power will be four 50-horse power motors, capable of a speed of 40 miles per hour. Population tributary, 1,500 per mile, will supply a profitable passenger and freight business. Estimated cost of construction \$800,500, including rights of way, franchises, organization, etc., \$100,000.

The majority of the capital stock has been pooled for a period of three years to ensure careful management.

Erie RR.-First Divid n! on Second Preferred Stock.-The directors on Wednesday declared a first 4 p. c. annual dividend on the \$16,000,000 second preferred stock, payable 2 p. c. on Ost. 9 to stockholders of record Sept. 11 and 2 p. c. on April 9 1906 to stockholders of record March 12. The company's dividend record, which has heretofore been confined to the first pref. stock [20w \$47,892,400], being, like the second preferred, 4 p. c. non-cumulative, is as follows:

DIVIDENDS, p. c. ?	1901.	1902.	1903.	1904.	1905
On let preferred §	112	3	3_{12}	4	4

Improvements.-President Underwood makes this statement:

"The necessary legislation on municipal ordinances having been obtained to enable the company to proceed with the extensive im-provements which have been in contemplation for a year or more, it is now proposed to pash the work vigorously. The improvements of the terminal at New York and Jersey City will be taken up immedi-diately and work will be pushed rapidly on the new line to avoid the heavy grada encountered on the New York Division. Important additions to the company's equipment will also be made. These im-provements should enable the company to better care for the increas-ing business which has now outgrown its present facilities and to ma-terially add to comfort and convenience of its patrons." -V. 81, p. 31.

Fort Wayne Bluffton & Marion Traction Co.-Mortgage. A mortgage has been filed with the Guarantee Trust & Safe Deposit Co. of Philadelphia, as trustee, to secure an issue of \$400,000 of 5 p. c. gold bonds, denomination \$1,000 each, dated June 28 1905, interest Jan. 1 and July 1 at office of trustee. The company was incorporated in April last with \$550,000 capital stock in \$100 shares, of which \$250,000 preferred. to build an inter-nrban electric railway from Fort Wayne to Bluffton and Marion. Directors: President, Frank H. Cutshall, Samuel L. Morris, Harry E. Verdermark, Fred. C. Baade and F. H. Schmidt.

Grand Trank Pacific Ry.-Dates of Maturity and Interest Payments.-- Under the provisions of an amendment to the Act to incorporate this company it is required that the railway shall be completed on or before Dec. 1 1911. In prepariog the mortgage securing the 3 p. c. mortgage sterling bonds guaranteed by the Government of the Dominion of Canada, it was agreed that definitive bonds should be issued from the beginning and that they should cover the period of con-struction and fifty years thereafter. The maturity of these bonds was therefore fixed at Jan. 1 1962. It was also agreed with Messrs. Rothschilds subsequent to the issue of their prospectus that the interest payments should be as of July 1 and Jan. 1, which would make a better distribution of the payments of the company's interest obligations, the interest payments under the mortgages securing the 4 p. c. mortgage sterling bonds to be issued on the Western Division and on the Lake Superior branch having previously been fixed as of April 1 and Oct. 1.-V. 80, p. 2457.

Guays quil & Quito (Equador) Ry.—Extension—A press dis-patch from Guayaquil announces that the company on July 24 began train service to Riobambs, capital of the Province of Chimborazo, 9,064 feet above the level of the sea and 150 miles from Gaayaquil.-V. 81, p. 155.

Hampton Roads Ry. & Electric Co., Newport News, Va.-Foreclosure Sale. -Ju ige Edmund Waddill Jr., in the United States Court at Norfolk, Va., on July 24 ordered the sale of this company's property at auction.-V. 80, p. 1058.

Hartford & Springfield St. Ry.-Authorized.-The shareholders at a meeting last week authorized the increase of the capital stock from \$500,000 to \$700,000 through an issue of \$200,000 6 p. c. preferred. Of the new stock \$100,000 will be used to retire \$100,000 of outstanding notes, and the remain-der will be used to purchase the stock of the Rockville Broad B:ook & East Windsor Street Ry. Co., which is building 14 miles of new road from Rockville to Warehouse Point, Conn.-V. 81, p. 31.

Cortiand County (N. Y.) Traction Co.-Bonds.-The New York State Railroad Commission recently authorized the company to issue bonds to the amount of \$320,000 for new construction at Homer and other purposes. The new mortgage will secure \$500,000 of 5 p. c. 3)-year bonds, dated Ang. 1.1905, of which \$180,000 will be reserved for retirement of existing first mortgage bonds and the remaining \$320,000 will cover cost of new power house, Little York extension and various additions and betterments. The company was organized in 1901 as successor of the Cortiand & Homer Traction.-V. 72, p. 1187.

Electric City Ry., Niagara Falls, N. Y.-Bonds.-The New York State Railroad Commission recently authorized the company to issue bonds to the amount of \$500,000 for new construction.

Erle Cambridge Union & Corry Ry. Co.—New Enterprise. —H. P. Taylor & Co. of Pittsburgh, together with their friends, are underwriting this company's authorized issue of \$1,010,000 first mortgage 5 p. c. 30-year gold coupon bonds of

Hocking Valiey Ry.—Allied Coal Company.—See Sanday Creek Co. under "Industrials" below.—V. 81, p. 211.

Lansdale & Norristown Electric Ry.-Successor.-See Montgomery Traction Co. below. - V. 81, p. 211.

Lehigh Valley Traction Co.-Reorganization.-As a preliminary to the consummation of the reorganization plan, all of the properties and franchises of the Lehigh Valley Traction Co. and its subsidiary companies, recently foreclosed, were on July 25 turned over to the Lehigh Valley Passenger Railway Co., the Philadelphia & Lehigh Valley Passenger Railway Co. and the Allentown & Slatington Passenger Railway Co. The directors and officers in each case are:

Directors: Tom L. Johnson, Arthur E. Newbold, Harry O. Trexler, E. B. Smith, George O. Albright, William F. Harrity and George H. Frazler.

President, Harry O. Trexler; Vice-President, Edward M. Young; Sec. and Traas., George H. Frazler; Gen. Man., Warren S. Hall. These new companies. is is stated, will presently be con-solidated as the Lehigh Valley Transit Co.-V. 80, p. 2621

Long Island RR.-E ectric Train Service.-The line from Flatbush Avenue Station to Rockaway Park was placed under el :ctric service on July 26, and it is expected that by Sept. 1 there will be in all about 25 miles of the road, including the line from Flatbush Ave. to Jamaica, prepared for electric trains.-V. 81, p. 211, 31.

Macon (Ga) Ry. & Light Co.-Earnings.-The results for the month of Jane and the half-year ending Jane 30 follow:

June	Gross	Net	Fived ch'ges.	Balance,	1
(1 month)	earnings.	earnings.	int. & tuxes.	su-plus.	
1905		\$11,145	\$4,904	\$6,241 5,219	.1

Massachusetts Electric Companies.— Refunding Notes Approved. The shareholders yesterday duly approved the proposition to issue \$3,500,000 4½ p. c. 5-year go'd notes, of which \$2,700,000 to refund the issue due Jan. 1, 1906. See V. 81, p. 265.

Metropolitan West Side Elevated Ry., Chicago.-Ordinance Not Accepted -The board of directors on July 17 decided not to accept the ordinance passed by the City Council giving the company the right to carry express and milk on account of its burdensome features.-V. 81. p. 212.

Mexican Gulf Coal & Transportation Co.—Sale —At the foreclosure sale the property, including, it is said, several large mines and 50 coke ovens at or near Howe, I. T., and 200 coke ovens at Alderson, I. T., was acquired, it is stated, for \$80,000 by the Degnan & McConnell Coal Co., recently incorporated with a capital stock of \$20,000. The sale is understood to have been made in foreclosure of a \$200,001 mortage and the Devident Saving Rank & Trust mortgage, under which the Provident Savings Bank & Trust Co. of Cincinnati was trustee.-V. 81, p. 35.

Montgomery Traction Co., Pennsylvania.—Successor Company.—This company was incorporated in Pennsylvania on July 6 1905 with \$250,000 capital stock, as successor of the Lapsdale & Norristown Electric Ry., foreclosed. (V. 81. p. 211). The new company has made a mortgage to E. P. Wil-bur Trust Co. of South Bethlehem, Pa., as trustee, to secure an issue of \$250,00) of 5 p. c. 30 year gold bonds of \$1,000, dated July 15 1935, subject to call at the com-pany's option at 1021/2 on or before July 15 1908, and there-after at 165. W. A. Hay of Easton, Pa., is President, and George A Reed of Bethlehem, Secretary and Treasurer.

Morris County (N. J.) Traction Co.-Mortgage.-This company, incorporated in New Jersey in 1898 with present authorized capital stock of \$3,000,000, of which \$400,000 is outstanding, par of shares \$100, has made a mortgage to the Trust Company of America, New York, trustee, to secure an issue of \$3 0/0,000 5 p. c. gold bonds of \$1,000 each, dated June 15 1935 and due in 1935, but subject to prior redemp tion at 110; interest payable D to. 15 and Jane 15 at office of trustee. The road is in operation for a distance of about 71/2 miles from Wharton via Dover to Rockaway, N. J., and re mainder is under construction; total extensions proposed, 6) milles. The mortgage covers the road constructed as $ab \forall y \Rightarrow b$ described and the road now building in the townships of Springfield, Union and Milburn, as well as all road, equip ment and other property now owned or hereafter constructed or acquired. President, Robert D. Foote; Secretary and Manager. F. H. Alleman.

New Jersey Terminal RR.- Soll.-This property has been sold to the Central RR. of New Jersey. Compare V. 80, p. 1174

New Mexico Railway & Coal Co.-Bond Offering.-See advertisement of Kunicutt & Potter of New York on page xiii of last week's CHRONICLE, -V. 81, p. 208.

New Orleans Railways & Light Co.-New Securities Ready.-The reorganization of the New Orleans Railways Co. having been completed, the New York Trust Co. d-positary, is now delivering the securities of the New Orleans Railways & Light Co. (the new company) in exchange for certificates of deposit. Temporary bonds are being distributed pending the completion of the engraved bonds. -V. 80, p. 282).

New York New Haven & Hartford RR.-Rebuilding of Poughkeepsie Bridge.-Contracts for the re-enforcement of the Poughkeepsie bridge, involving an expenditure of about \$1,500.000, have been awarded, and it is expected the work

man of Philadelphia. Wilbur F. Sadler Jr. of Trenton, N. J., is a director.

Oklahoma City Henrietta & St. Louis RR.-Mortgage.-This company, which was incorporated in Oklaboma in December last with \$3,000,000 capital stock, since increased to \$6.000,000, has made a mortgage to the Trust Company of Am-rica, New York City, trustee, to secure an issue of \$6.000,000 40-year 5 p. c. bonds. The company proposes to build from Woodward, O. T., via Oklahoma City, to Checotah, I. T., 280 miles, and thence possibly to St. Louis. Incorporators:

H. W. Clegran, John H. Dibble, J. H. Wheeler, J. W. Pryor and John W. Shartell of Oklahoma City, O. T.

Petaluma & Sinta Rosa (Electric) Ry.—In Operation.— The first car ran into Santa Ross on June 30,-V. 89, p. 1913.

Philadelphia Company, Pittsbargh.—Furchase.—See Beaver Valley Traction Co. above.—V. 80, p. 1913.

Philadelphia & Western (Electric) RR. - Sale of Bonds.-This company has let contracts, or partial contracts, for its proposed high-speed, double track electric railway between 63rd and Market streets, Philadelphia, and Bryn Mawr, and expects in the near future to build to Parkesburg, Pa., 44 miles, and later, if results justify, to York. A block \$1,600,-00) bonds, it is announced, has been sold to a St. Louis party at or about 90. W. P. Van Brunt is President and L. N. Downs (President of the projected Philadelphia & Schuylkill Valley Ry., chartered to build to Norristown) is Treasurer. George J Kobusch of St. Louis and associates are reported as backing the enterprise.

Pnoumatic Transit Co.-New Stock.-The shareholders of this New J-rsey corporation will meet Aug. 4 at No. 106 Market St., Camden, N. J., for the purpose of increasing the capital stock from \$500,000 to \$1,000.000, "of which total amount \$500,000 will be issued as preferred stock." George J. Murray is Secretary.-V. 75, p. 736.

Rochester & Eastern Rapid Ry.-Change in Control.-A press dispatch from Syracuse on July 22 says: "Horace E. Andrews of the New York Central Andrews trolley syndicate announced here to day that the syndicate had acquired the Rochester & Eastern Rapid Ry." On July 27 the following directors and officers were announced:

Directors: E V, W. Rossiter, W. C. Brown, John Carstensen, W. Day Wilgns, W. K. Vanderbilt Jr., Albert H. Harris, all of New York: H. E. Andrews and J. Stanley of Cleveland O., and Walter N. Kernan of Utica, N. Y. Officers: President, H. E. Andrews; Vice-President, W. K. Vanderbit Jr.; Secretary, Walter N. Kernan, and Treasurer, Charles B Rogers of Utica.-V. 80, p. 2345.

Rulland Street Ry.—Receivership. -At Burlington, Vt., on July 20 United States Circuit Court Judge Hoyt H. Wheeler appointed General Manager Divid Fox as receiver of the property on petition of Douglas Robinson of New York, receiver of the Merchants' Trust Co. The railway, it is stated, is proving profitable, but the receivership is thought desirable in order to protect the large interests of the trust company in the property. $-\nabla$. 80, p. 2220.

St Louis St. Charles & Western (Electric) RR.-Sold.-At the trustee's sale on July 24 this electric railway was bid in for a syndicate of St. Louis capitalists. headed by Festus J Wade and Thomas W. Crouch, for \$495,000.-V. 80, p. 2200.

St. Louis & San Francisco RR.-Exchange of Trust Certificates .- The company has issued a circular announcing that the holders of a satisfactory majority of the trust certlficates representing the common stock of the Chicago & Eastern Illinois RR, have agreed to exchange the said certificates for new certificates for \$1,000 each to be issued in respect of four shares each of the common stocks of the C. & E. I. RR. Too new certificates have been engraved and will be deposited before Jaly 31 with the Colonial Trust Co. for exchange for the present outstanding certificates within ninety days of July 31. See V. 80, p. 1857 - V. 81, p. 266.

St. Louis Watkins & Guif Ry.-New Officers.-This road, having passed under the control of the St. Louis Iron Mountain & Southern (Missouri Pacific system), the following directors and officers were elected :

President, George J. Gonld, Vice-Presidents, C. S. Clark and H. B. Kan., Treasurer, D. S. Smith; H. G. Bernstein, F. C. Hudston, T. T. Taylor and J. B. Watkins, directors.-V. 80, p. 1236.

Southern Ry.-Favorable Decision.-Judge Pritchard in the United States Circuit Court at Asheville, N. C., on July 20, in the action brought by Henry M. Cummings of An-gusta, GA, as owner of 100 shares of Southern Ry. stock, denied the application for the appliatment of a receiv-r of the South Carolina & G orgia Ry. The complainant alleged that the S. C. & G is a competing line to others owned and controlled by the Southern and that its operation results in a loss and is a burden, instead of a benefit, to the stockholders of the Southern Ry.-V. 81, p. 156, 32.

will be completed within 16 or 18 months.-V. 81, p. 265.

New York Central & Hudson River B.R.-Troll y Acquisi tion -See Rochester & East. Rapid Ry. below.-V. 81, p. 31.

Norfolk (Va.) Railway & Light Co.-Earnings.-The results for the half-year ending Jane 30 are reported as follows:

Proportion Fixed ch'ges, Balance. Go's owned. int & taxes. surplus \$12,490 \$115,72) \$30,162 Half Gross Net year. earnings. 1905.....\$323,475 1904..... 296,380 -V. 79, p. 968 earnings. \$123,332 105,417 surplus \$30,162 27,427 \$115,720 20,325 98,315

Northamberland County Ry. & Light Co., Sunbary, Pa. -Consolitation.- This company was incorporated in New Jersey on June 8, 1905, with \$1,000,000 authorized capital stock, of which half is 5 p. c. cumulative preferred, to merge the Edison Electric Illuminating Co. and the Sunbury & Northumberland St. Ry. Co.; length of road, 4 miles; par of shares, \$100; no bonds issued. President, T. J. Callahan; Treasurer, William W. Hepburn; Secretary, George Park-

Toledo Urban & Interurban Ry.-Description of Frop-erty-The "Engineering Naws" of July 13 1905 contained an illustrated article regarding the perminent way and structures of this 60-mile trolley road. -V. 80, p. 718.

Utica & Mohawk Valley Ry.-Power.-See Hudson River Electric Power Co. under Industrials below.-V. 80, p. 1236.

Vandalia RR.-First Dividend.-The directors of this con. solidated company on July 21 declared a dividend of 2 p. c. upon the stock, payable in cash on Aug. 5 1935 to stockhold-ers of record July 27th. Crecks for the above dividend will be mailed to all stockholders who have filed permanent dividend orders with the Farmers' Loan & Trust Co., New York. -V. 81, p. 213, 32.

Virginia & Truckee KR.-Successor Company.-A press dispatch from Reno, Nev., announces the incorporation of this company with \$5,000.000 authorized capital stock as successor of the Virginia & Truckee Ry. The new company, which has taken a deed to the property, is authorized to build the Gardnerville branch in Douglass County, 23 mi'es. Directors:

D. O. Mills, President; H. M. Verington, Vice-President and General Mar ager; W. F. Deal, W. E. Sharon, K. W. Eckley, James Newlards Jr., J. M. Ardery and George T. Mills, directors. The Back of California is named as the corporation's depository.-V. 81, p. 266.

Western Mary'and KR.-Consolidation of Subsidiary Reads with Parent Company.-As foreshadowed last week (p. 266), the consolidation of the system will be effected by merger into the Western Maryland RR. of the following subsidiary companies, meetings for this purpose to take place early in the fall, viz :

Potomac Valley of Maryland, Potomac Valley Railroad of West Vir-ginia, Western Maryland Tidewater Railroad, Piedmont & Oam' or land Railroad of Maryland, Piedmont & Cumberland Railroad of West Virginia, West Virginia Central & Pittsburgh of Maryland, West Vir-ginia Central & Pittsburgh of West Virginia and the Coal & Iron RR. Compare V. Sl. p. 266. Compare V. 81, p. 266.

Wheeling & Lake Erie RR.—Bon is—Connecting Line,— The issuance of the first block of bonds under the new mortgage, it is understood, has been deferred and will prohably not take place until some time next year, after the Wabash system has demonstrated the earning capacity of its Pittsburgh connection. President Delano is quoted as approving ench action and as saying:

The fact that the Little Kanawha syndicate has disposed of its prop-erties to other interests will in no way interfere with the Wabash's plane for getting to the scaboard. There are many ways to build to our Eastern connections, and these plans are to be taken up this fall. The work will probably be started on the line next epring. Just now, however, I am not in a position to make public the movements of the Wabash in this direction, but it is a certainty that a route brough Greene County, which will give us a connection with the Weet Vir-ginia Central and Pittsburgh, can be obtained and will be. [Compare Little Kanawha RR. in V. S1, p. 264.]-V. S0, p. 2221.

Yosemite Valley RR.—Bond Issue.—The shareholders will vote Sept. 18 on making an issue of \$2,000,000 bonds. The Secretary is Julius H. Ellis, Mills Building, San Francisco.

INDUSTRIAL, GAS AND MISCELLANEOUS.

Alabama Steel & Wire Corporation, Birmingham, Ala.-New S ock .- This Connecticut incorporation has filed a certificate of increase of capital stock from \$5,000,000 [half preferred] to \$6,500,000.-V. 79, p. 2749.

Allegheny Steel Uo.- Successor Company.-See Allegheny Steel & Iron Co, below.

Allegheny Stell & Iron Co., Pittsburgh.-Sale.-This company's property. it is annourced, was sold on Jane 22 to the Alleghery Steel Co. for the purpose, as stated, of eliminating some of the smaller stockholders of the old corporation at d of extending the plant. The company is oper ating two 50-ton and one 35-ton open-hearth furnaces, blooming mill, billet and sheet bar mills, a 72-inch plate mill and seven hot and five cold sheet mills. The Inter-State Steel Co. is a subsidiary concern.

The (fficers of the Allegheny Steel Co. are Capt. Alfred Hicks, President; H. E. Sheldon, Treasurer, and R. D. Campbell, Secretary. Geo. A. McLean, Vice-President of the old company, has sold his stock and retires. The new company has cutstanding \$300,000 of capital stock, all cf one class; par of shares, \$100; no bonds, -V. 78, p. 1277.

Amalgamated Copper Co.-Favorable Decision. - The Su preme Court of Montana on July 24 reversed the decision of District Judge Clancy, rendered two years ago, awarding to the United Copper interests certain ore bodies under the surface of claims owned by the Washoe and Anaconda Copper companies on the theory that they were lateral portions of the Nipper vein. The evidence, it is held, does not sustain the verdict of the lower court, which, it is stated, also erred in excluding material testimony tending to prove the contention of the defendant that the vein crossed the Nipper claim in a north ard south, instead of an east and west direction. "These being side lines" the plaintiffs would have no extralateral rights. A new trial was granted. Compare V. ??. p. 513.-V. 81, p. 266.

American (otton Co.-Plan Modified. -The reorganization committee, Cornelius N. Bliss, Chairman, has issued a modi-fied plan dated July 25 1905. This plan annuls articles III to VII, inclusive, of the plan of Aug. 19 1904 (V. 79, p. 787), regarding the capitalization of the new company, the terms of explanation of other plan of any other plan. of exchange of old for new securities, and of subscription for new first mortgage bonds. It also anthorizes the committee, in its discretion, to acquire the assets and good-will, and all or part of the capital stock and indebtedness of the subsidialy companies and the American Cotton Co. The committee is empowered to obtain the funds necessary for this by underwriting syndicates, loans, subscriptions from depositing stockholders, or by any other means. To further the interests of the depositors the committee may, if required, borrow not exceeding \$1,500,000, including the sums already borrowed by it.

tion to the amount of their respective deposits, and, next, to the depositors of preferred stock of the American Ootton Co., and any surplus to the depositors of the common stock."

The Metropolitan Trust Co. is made depositary in place of the Bankers' Trust Co. D-positors who do not withdraw their scourities on or before Aug. 12 1905 will be bound by the modified plan. Operations, it is understood, have been curtailed within narrow limits.-V. 80, p. 1973.

American Glue Co.-New Management.-At the annual meeting in Trenton, N. J., on July 25, the following directors were elected, the opposition to the old management casting 12,7(9 shares out of a total outstanding issue of 21,000 shares:

New directors: John R. Morron, formerly Vice-President of the Dla-mond Gine Co., Chicago; John M. Graham of International Trust Co., Foston; J. P. Lyman, Ashby, Mass; Charles Delanoy, Philadelphia, Pa; H. I. Thayer, Wakefield, Mass; Roger Upton, Secretary of the company; E. H. Talbot of Boston. Re-elected: Frank W. Stanley, Bostamin Tenney, C. O. Whitten and Ransom B. Fuller. [Elected for three years except: For two years, Charles Delanoy, Jesse P. Lyman. For one year-Ransom B. Foller, H. L. Thayer.] Lohn B. Morron was elected President. Evaratt I. Stevens

John R Morron was elected President, Everett J. Stevens and Roger Upton were re-elected respectively Treasurer and Secretary.

Report.-See page 505 of this issue.-V. 79, p. 625.

American Hide & Leather Co.-Third Quarterly D.vidend on Freferred Stock.-The directors on July 25 declared the hird regular quarterly dividend of 1 p. c. upon the \$12,548,-3(0 preferred stock, payable Aug. 15 1905 to stockholders of record July 31 1905.

The following official statement was given out :

At the meeting to-day of the board of directors all the directors were present and voted for the declaration of the dividend, the same having been earned. Messre, Jones, Caesar, Dickinson Wilmot & Oo., the public accountants, are at present at work on their annual andit, and when the same has been completed the annual report, in the usual form, will be presented at the annual meeting and mal'ed to each shareholder of record. The President says that to-day the com-pany's accounts payable are \$575,000 and the entire amount on importation credits is \$36,880. Cash and accounts receivable are over \$2.000,000. over \$2,000,000.

The extremely high price for light hides which has recently been ruling led some to fear that the dividend might be omitted or reduced. The "Boston News Bareau" on July 6 published the following Chicago quotations for buff hides during June in each of the last fourteen years:

PRICE OF BUFF HIDES IN CHICAGO [CENTS].

1905, '04, '03, '02, '01, '00, '99, '98, '97, '56, '95, '94, '93, '82, 12 9 5_{14}^{1} 8 3_{25}^{1} 8 3_{25}^{1} 9 3_{25}^{1} 10 3_{25}^{1} 8 3_{4}^{1} 6 3_{25}^{1} 9 3_{4}^{1} 3 3_{25}^{1} 4 4_{24}^{1} -V. 80, p. 474.

American Pipe Manufacturing Co.- Sub idiary.- See North Springfield (Pa.) Water Co., below.-V, 80, p. 2343.

American (Beil) Telephone & Telegraph Co.-Collateral for Binds.-The securities pledged as collateral to secure qually this company's \$78,000,000 4 per cent bonds due 1929 [of which \$25,000 00 are pledged as collateral for an issue of \$20,000,000 5 p. o three-year gold coupon notes, due May 1, 19 7] and the \$10,000,000 bonds (4s) of the American Bell Telephone Co. are as follows:

"The value of this trust property ascertained in accord-

ance with the terms of said indenture is \$118,328 052 See also total capitalization of subsidiary companies in 1903, V. 76, p. 596.-V. 81, p. 33.

A. Booth & Co. (Fish).-Guaranteed Bonds Offered.-See

Midland Cold Storage Co. of St. Paul, Minn., below. Dividents.-The company has set aside the regular dividends of 8 p. c. on the preferred and 3 p. c. on the common for the present fiscal year ending April 30 1906, payable semi-annually, namely Sept. 1 and March 1 on the preferred stock and Jane 1 and Dec. 1 ou the common. These are the same amounts as declared last year. Compare balance sheet V. 81, p. 262.

Branswick Hotel Co.-See Branswick Site Co, below,-V. 78, p. 1087.

The committee may transfer the properties acquired to a new cor-poration, retaining control notil the latter's stock be disposed of or dis'ributed. "The committee shall be sole judge of the time and manner in which distribution, partial or final, of the proceeds of reorgan'zation shall be made among its depositors, provided that all such proceeds shall be divided pro rata among the depositors of debenture bonds of the American Cotton Co. and of notes of and claims against said company and its subsidiary companies, in propor-

Branswick Site Company of New York.-Incorporated.-This company was incorporated at Albany on July 13, with \$2,000,(0) anthorized capital stook, by the underwriters of be Brunswick Hotel Company's bonds, interest on which is in default, the plan for building the new hotel never having been carried out. (V. 75, p. 1205; V. 76, p. 1087.) On July 27 Brunswick S to Co. begin an action in the Supreme Court against the Brunswick Construction C., to foreclose a mortgage for \$150,000 on the block between 26th and 27th streets, which was to have been the site of the new structares. The directors of the new company are:

George H. Robinson, G. Louis Boissevain, Alfred G. Evans, Walter Geer, Wilhelmns Mynderse, John S. Hoyr, of New York City, B. P Cheney of Boston.

& Steel Co., Harrisburg, Pa - Sile of Central Irou Bonds .- The \$1,500,000 first mortgage bonds which were authorized by the shareholders on July 20; have been sold to Henry & West of Philadelphia. The bonds are to be sinking fund 5 p. c. gold bonds, dated Aug. 1 1905, due Aug. 1 1925. Harrisburg Trust Co., Harrisburg, Pa., trustee. A circular says in substance:

The Central Iron & Steel Co., next to the United States Steel Corpor-ation, is one of the largest producers in the United States of fluished plates of all kinds, such as boiler, tark, fire-box, ship and bridge plates. The company has an authorized oapital stock of \$5,000,000, of which \$7,180,000 is issued and outstanding, and on which dividends over the past seven years have averaged 5½ p. o. The average net earnings for the same period have been in excess of \$200,000 per annum. The proceeds of the c bonds will be used to retire the flusting debt created by the purchase of the Paxton furnaces, and the erection of a steel plant, and for a controlling interest in a large Lake Superior ore mine, from which the company will shortly be receiving ore. The balance will be used for betterments and extensions to the property, which when spent will make a total investment in the property of approximately \$3,200,000. The company, incorporated in Pennsyl-vania, was organized in 1853 and employs about 1,500 men. Edward Bailey is President; James M. Cameron, Vice-Pres'l; S. B. Boude, Sec; James B. Chicago & Northwestern Telegraph Co.-Successor Com-pany.-See Chicago & St. Paul Telegraph Co. below.-V. 80, p. 1974.

Chicago & St. Paul Telegraph Co.-Reorganiz d Com. pany.—This company has been incorporated under the laws of Wisconsin, with \$100,000 capital stock (no bonded debt), as successor to the Chicago & Northwestern Telegraph Co. (V. 80, p. 1974), whose property was recently bid in at fore-closure sale by the bondholders' committee. The property of the new company has been leased for 99 years at 3 p. c. per annum on the capital stock, payable Mar. 1 and Sept. 1, to the Western Union Telegraph Co., which guarantees dividends at the rate named.

Diamond State Steel Co.- Reorganization Plan.- The shareholders are requested to deposit their certificates with receivers Wallace and Winchester under the terms of a reorganization plan which provides for the organization of a new company which shall purchase the property, subject to approval by the court, for a sum sufficient to pay the unse-cured debts, receivers' expenses and defaulted bond interest. The new company will have \$8,000,000 common stock, \$1,000,-000 preferred stock and \$500,000 working capital, and it will assume the existing mortgage debt. "The stock of the pres-ent company will be purchased at the rate of 1214 p. c. of the ent company will be purchased at the rate of 12½ p. c. of the par value of the common stock and 33 1.3 p. c. of the par value of the preferred stock, payment to be made in the common stock of the new company."— ∇ , 80, p. 474.

Eastern Telephone & Telegraph Co. of Philadelphia.-Consol:dated Mortgage.-The shareholders have authorized an issue of \$1,000,000 consolidated mortgage bonds, a portion of which, it is stated, will be used to extend the company's line in Southern New Jersey.-V. 69, p. 1195.

Electric Bond & Share Co.-Preferred Slock Offered.-Harvey Fisk & Sons are offering at 921/2 and interest \$500,000 of this company's \$2,000,000 5 p. c. cumulative preferred stock, subject to call at 110-par of shares \$100. This stock also has preference in case of any distribution of assets and is tax exempt in New York State. Its dividends are payable quarterly, February, May, August and November, a quarterly distribution of 1¼ p. c. having been declared pay-able Aug. 1 to stockholders of record July 15. The company was incorporated at Albany on Feb 28 1905 as a subsidiary of the General Electric Co., which owns the entire \$2,000,000 common stock. A circular says:

of the General Electric Co., which owns the entire \$2,000,000 common stock. A circular says: The company is organized with power to purchase bonds, stock or other forms of securities resulting from electrical developments, such as electric street railways and electric light and power plants. It begins business with its capital stock [as ab yve] fully paid up and with a surplue estimated by its offleers, after a careful appraisal by a spe-cial committee appointed for the purpose, to be of the value of \$440,-000. All of the common stock is owned by the General Electric Co. The preferred stock has a 5 p, c. cumulative preference as to divi-dends, is also preferred in any distribution of assets, and is further protected by a provision in the certificate of incorporation that no dividends shall be paid upon the common stock unless there shall remain, after the payment of such dividends, a surplue equal to at least 15 p. c. of the par value of the then outstanding preferred stock. The preferred stock can never be increased to such an amount as to exceed the amount of the then outstanding common stock, and may be retired upon any dividend date, upon ninety days' notice, at 110 p. c. of par. The corporation is forbidden by its certificate of incorpora-tion to mortgage, pledge or in any way hypotheoats any of its assets without the assents of three-fourths of the preferred stock. It is also forbidden by Article VII. of its By-laws (which Article cannot be amended except by a nine-tenths vote of all stock then outstanding to buy or contract to buy any securitize unless the corporation at the time of making such contracts has call its off. It is the preferred stock as the securities or has made provision by which it will have cash to pay for such securities or has made provision by which it will have cash to pay for the same at the time the same may be delivered. It is the intention of the company to keep out of dott, and these restrictions are designed to carry out this intention and thus preserve the present positio

Fisk & Sons (V. 80, p. 715,) is secured by deposit with the Standard Trust Co. of New York, as trustee, of the following bonds, all except as indicated bearing 5 p. c. interest:

General Electric Co.- Allied Security Companies. - See Electric Bond & Share Co. and Electrical Securities Corporation, above.-V. 80, p. 1915,

Georgetown (Ky.) Water, Gas, Electric & Power Co.—See Georgetown Water, Light, Heat & Power Co. below.—V. 74, p. 382.

Georgetown (Ky.) Water, Light, Heat & Power Co.— Status — This company was incorporated in Kentucky on April 27 1905 with \$250,000 capital stock as proposed suc-cessor of the Georgetown Water, Gas, Electric & Power Co, (V. 74, p. 382,) and made a mortgage to the Union Savings Bank & Trust Co. of Cincinnati, as trustee, to secure \$250,000 bonds, of which \$100,000 were reserved to cover a like amount of underlying bonds of the old company. The remaining \$150,000 bonds, on resolution of the board of directors of the new company, were turned over to the Sec-retary and Treasurer, Ross Holzman, of the now bankrupt firm of Holzman & Co., and pledged, in part at least, as collateral for loans which Col. J. P. Jackson, as head of the old corporation, states were unauthorized. The merger, moreover, Col. Jackson asserts, was never consummated, he having withheld his signature, and a quorum of the directors of the old company not having been present.—V. 74, p. 382.

(B. F.) Goodrich (Rubber) Co., Akron, O.-Increase of Capital S'ock, to Provide for the Manufacture of Rubber Boots and Shoes. – The company has filed at Columbus, O., a certificate of increase of capital stock from \$5,000,000 to \$10,-000,000. The company is making rapid progress towards the completion of its new rubber boot and shoe plant, adjoining its present building in Akron, and expects to begin operations in September. The Akron "Beacon Journal" says :

The entrance of the company into the rubber boot and shoe business is the primary cause of the increase of stock by the great corporation. This added feature of the plant will necessitate a large amount of ad-ditional capital to allow it to enter into competition with the great rubber boot and shoe industry of the United States. The business of the company as a whole has also increased greatly and more money is eccuted to conduct the husiness. The pustee how required to conduct the business. The new stock will all be taken by the present stockholders. The company's plant in March 1904 was described in an advertisement as follows: Number of buildings 25, floor space 12 acres, capacity of electric power plant 3,854 horse power, boiler capacity 5,000 horse power. The company was then engaged in the manufacture of mechanical rubber goods, golf balls, druggists', stationers' and surgeons' rubber sundries, and tires for automobiles, bicycles, etc. President, G. T. Perkins; Secretary, R. P. Marvin; Treasurer, W. A. Folger. An officer of the company to whom the foregoing statement was submitted says: "We cannot give any information regarding condition, profits or dividends."

Hartford (Conn.) City Gas Light Co.-Bon ls Offered .-Francis R Cooley, Hartford, Conn., is offering at 104½ and interest \$600,000 first mortgage 4 p. c. gold bonds of \$1,000 each (free from tax in Connecticut), dated July 1 1905 and due July 1 1935; interest Jan. 1 and July 1; Connecticut Tr. & Safe D posit Co., trustee, Hartford. A circular says:

Capitalization: Capital stock (par \$25), \$750,000; first mortgage bonds ontstanding, \$600,000. The amount of the mortgage is limited absolutely to \$1,000,000; bonds in excess of \$600,000 cannot be issued for more than 30 p. c. of the cost of actual extensions, and can never exceed the amount of paid in capital stock. The present issue of bonds is for the sole purpose of refinding entire existing debt. The security is the entire property, rights and franchises [now owned or hereafter acquired], which is valued at about \$2,150,000, or nearly four times the bond issue, and subject to no other lien whatever. Dividends of 8 p. c. per annum have been paid on the entire capital stock for many years. Company serves a population of over 100,000 in Hartford and adjacent towns.-V. 81, p. 157.

Illinois Brick Co.-Suspension of Reports.-The directors on July 24 decided to suspend making public financial state-ments, such statements being "for the shareholders alone."-V. S1, p. 34.

Independent Cotton Oll Co., Darlington, S. C.-Receiver ship — This company, incorporated in December 1902 with \$1,0.0,000 capital stock, was on July 8 placed in the hands of President Bright Williamson, R. B. Labby and R. H. Sass as receivers by Judge Brawly in the United States District Court at Charleston. The company's indebtedness, it is said, Is \$520,000. At organization \$500,000 stock was subscribed for; subsequently, it is stated, 100 p. c. in stock dividends was paid; also some cash dividends, the last of these being 6 p. c. The Darlington Trust Co. also closed its doors 6 p. c. The Darlington Trust Co. also closed its doors as a result of the failure.

Independent Telephone Co. of Syracuse, N. Y.-Successor Company.-This corporation was organized under the laws of New York on June 29 1905, with \$1,000,000 outstanding [sommon] stock, with authority to operate telephone lines in Syracuse and 17 counties in Central New York, and acquired the entire stock of Syracuse Telephone Co., which had been purchased by a syndicate, viz.: John J. Cummings, President of the Syracuse Lighting Co., former Mayor Jacob Amos, Gates Thalheimer, Albert K. Hiscock, former Corporation Counsel Alexander H. Cowie, Hendrick S. Holden and Charles Warner of Syracuse, Eugene Satterlee of Pittsford and Thomas W. Finncane, George R. Fuller, Frederick W Zoiler and Carl Lomb of Rochester. The new company also owns all the stock of the Columbia Long-Distance Telephone Co. and the People's Subway Co. of Syracuse. Mortgage.—A mortgage to the Trust & Deposit Co. of Oa-

ondaga, N. Y., as trustee, secures \$3,000,000 first mortgage 5 p. c. gold bonds, of which the present issue is to be \$1,000,000; bonds dated July 1 1905 and due in 1925; interest payable Jan. 1 and July 1 at office of trustee. "No prior liens." President, Hendrick S. Holden; Vice-Pres., Geo. R. Faller; Sec., Alexander H. Cowie; Treas., Albert K Hiscock.

Kansas Natural Gas Co.-Kansas Charter Obtained. -This company, which as a foreign corporation was recently for-bidden by the State Supreme Court to do business in Kansas, was granted on July 19 a charter by the Kansas State Char-ter Board and paid a charter fee of \$2,500 on its \$12,000,000 capital stock. The "Kansas City Star," apparently from official statements made to the Charter Board, says :

official statements made to the Charter Board, says: The Kansas Natural Gas Co. has the contract for supplying gas to Kansas City, Kan., Leavensworth, Topeka, Garnett, Olathe, Parsons, Pittsburg, Galena, Columbus, Independence, Atchison and other places in Kansas; Joplin, Mo., 8t. Joseph, Mo., and has a prospect of secur-ing the contract for supplying Omaha, Neb. Up to this time, outside of the locality of Independence, Kan., the company has not sold any gas at all. Its pipe lines from the Neosho and Montgomery county fields to the great consuming sections of Kansas are just finishing. Its pumping stations are building at various places along the line. It is now employing more than 2,000 men and 1,000 teams on construc-tion work alone. It is spending \$350,000 for one pumping station four miles north of Chanute and \$350,000 more for five pumping stations between Independence and Kansas City, Kan. It is spending more than \$200,000 in pumping stations on the line between Belton and Joplin. Its lines gridiron the southeastern corner of the state. There is carcely a polling precinct in which it does not own a gas lease or in which it has not a producing well. Of its 3,000 miles of pipe line, more than 2,990 miles are in Kansas. Its extensive lease acreage in Indian territory and Oklahoma has never been touched.

The Kansas Natural Gas & Oil Pipe Line Improvement Co. is the subsidiary concern which is piping natural gas from the southern Kansas fields to Topeka by way of Lawrence. A press despatch from Pitttburgh, Pa., states that financial interests in that city are back of a plan for combining the

St. Louis, subject only to the lien of its \$3,000,000 of bonds.' Secretary W. Roy McCanne, under date of July 21, writes:

St. Louis, subject only to the lien of its \$3,000,000 of bonds.' Secretary W. Roy McCanne, under date of Jaly 21, writes: Incorporated in Missouri Jane 9th 1900, and has qualified to operate aiso in fillinois, Indiana and Kansas. Since November 1900 has paid not lees than 4 p. c. dividends, and in 1904 5 p. c. dividends. Through its own lines and connecting companies, it reaches almost all the principal cities and towns in Kansas, Missouri, Central Itinois, Indiana, Kentucky and Western Ohio. On the east its own incessering to Terre Haute, Ind.; on the north to Springfield, Iii. (and through its connecting companies to Moberly and Hannibal, Mo.); on the west to Sedalla, M. (connecting with the Kansas City Uong Distance Co. for Kansas City, St. Joseph. Atchison, Leavenworth and Topeka); on the southwest, to Joplin, Mo., and Pittsburg, (Hrard, Columbus and Cherokee, Kan. Has recently installed an upto-date toll-board in the Century Building, St. Louis, Mo.; owns and operates 2,100 telephones in its exchanges and toll stations, and has approximately 1.073 miles of pole line carrying 10,925 miles of copper wire, chiefly in Missouri, but new lines are planned throughout Illinois. In addition, has recently and and three branch exchanges in St. Louis, Mo., and East St. Louis, Iii., and having under construction a modern fire proof building of six stories (the three upper floors of while will be cocapied by the two companies) at 10th and Locent streets, St. Louis. The local company operates 15,000 telephones. The local company operates 15,000 telephones in a defined and arial cable, 350 miles of underground and aerial cable, 350 miles of rolear operities of or calan- ender year 1904 was: Gross revenue, \$778,548: operating expanses, maintenance, taxes, etc., including 5 p. c. of the gross revenue paid to revenue of both the local and long distance companies is constantly increasing, and it is conservatively estimated that the combined properties ston combinded properties will earn during the caladar year 1905 a

Kinloch Telephone Co. - Consolidation. - See Kinloch Long Distance Telephone Co. above.-V. 79, p. 1333.

Lake City Water Co., Himmind, Ind. -Bondholders Win. -We have been favored with the following official state-ment, touching the new contract which, with the approval of the court, has been entered into with the city, thus settling favorably to the bondholders the pending litigation:

favorably to the bondholders the pending litigation: On July 1 an election was held in Hammond for the purpose of deter mining whether or not the city should lease the Lake City Water Co. plant, and the same was carried by about 233 majority. Subsequently the City Council passed an ordinance authorizing the lease, and the matter was then presented to Judge Anderson of the U.S. District Court at Indianapolis, before whom foreclosure proceedings have been pending. Judge Anderson confirmed the lease and directed the city to pay the company the amount of rentals past due; the leases was executed and the city paid \$29,500 on that account, and acrees to pay balance due—\$8,960—on or before Nov. 15 next. The city further agrees to pay a rental sufficient in amount to liquidate the principal and interest of the bonds promptly as it fails due. On this basis of settlement the bondholders suffer no loss of principal and only a por-tion of the past-due interest through expenses incurred in litigation. The questions involved from the inception of the litigation were purely legal, the Supreme Court of Indiana having reversid a long line of decisions upholding the form of contract originally made by the company with the city. The new lease contract jist made was authorized by an Act passed by the last session of the Indiana Legislature.

Legislature.

The company was incorporated in 1901 for the purpose of building an intake and water supply for the city of Ham-mond, Ind., under a contract the legality of which was approved by Wood & Oakley, Chicago. The plant was com-pleted and turned over to the city for operation. Litigation ensued and Judge Anderson in the Federal Court at Indianapolis appointed a receiver on application of the bondholders through the American Trust & Savings Bank of Chicago, trustee. As stated above, the present settlement not only cails for the payment by the city of the overdue rental, but of sufficient sums annually to discharge the principal and interest of the bonded debt as they mature. The bonds were handled by the Trowbridge & Niver Co. and MacDonald, McCoy & Co., Chicago, the total issue being \$194,800, inter-est 5 p. c., principal payable serially; denomination, \$500, gold, dated Nov. 1 1901.

Lake Torpedo Boat Co., Bridgeport, Conn.-First Divi dend.-This company, which has been in existence for about three years, has declared a dividend of 10 p. c., covering no fixed period. The corporation has a large plant and contracts ou; with other plants.

The company was incorporated in New Jersey in 1901 with \$1,000,000 capital stock, in shares of \$10 each, to manufacture submarine boats under the patents of Simon Lake, the Presilent of the company. No bonds outstanding. Last spring the company received an order from a foreign government for boats aggregating \$2,000,000. The French Government also, after exhaustive tests, it was stated, approved the company's type of boats. The Treasurer is L B. Miller, Gen. Mgr. of the Singer Manufacturing Co. of the Singer Manufacturing Co.

independent oil companies and building a pipe line from the Kansas oll fields, tapping the oil fields of Texas, to the Gaif of Mexico, and proposes in connection therewith to float an issue cf \$7,0.0,000 bonds.-V. 81, p. 214; V. 79, p. 906.

Kinloch Long D.atance Telephone Co., Missouri.-Con-soli lation.-This company has increased its outstanding capital stock to \$2,800,000 (?), giving \$2,000,000 thereof in ex-change, share for share, for the stock of the Kinloch Telephone Co., the local independent company operating in St. Louis, whose property has been acquired.

Bonds Offered. - The Mississippi Valley Trust Co. of St. Louis is offering a block of the first mortgage 5 p. c. gold bonds at 97 and interest. Anthorized issue, \$5,000,000, of which outstanding, \$1,500,000; subject to issue when needed, \$300 (00; meaned for botters at 00 p. of setup! cost \$300, '00; reserved for extensions at 90 p. c. of actual cost, \$3.20,000. Bonds dated Jan. 2 1904; due Jan. 1 1929. "Tnese bonds are a first lien on all the property and fran-chises of the Kinloch Long Distance Telephone Co., and a lien appendix of the Kinloch Long Distance Telephone Co., of this bankrup; company. -V. 76, p 922. lien upon all the properties of the K nloch Telephone Co. of

Lehigh Iron & Steel Co., Allentown, Pa. -Bonds Offered. -Tne J. Aiden Gaylord Co., No. 35 Wall S., are offering at 921/2 the company's 15-year 6 p. c. first mortgage gold bonds of 1905, part of a proposed issue to be lim ted to \$ 300,-000, interest payable semi-annually.

Capital stock, \$250,000, "full paid"; par of shares, \$100. Plant es-tablished, 1870; remodeled 1902; present company incorporated 1903. Of the new bonds, \$100,000 will be used to take up the rem ain-ing \$100,000 of the old issue (of \$150,0.0) due in 1905 and \$200,000 to balld a new 200-ton furnace, etc. The company has in operation a 75-ton furnace, which in the four months ending April 1, 1905, pro-duced 8,387 tons of pig, making gross extrainge, \$135,709; net carn-ings, \$12,116. Officers: Win H. Alney, President and Treasurer; F. J. Remmei, of Allentown, P.s., Secretary; F. W. Edwards, of New York City, Vice-President. The company was formerly known as the Le-high Steel & Iron Co.

this baakrup; company.-V. 76, p 922.

Middlesex Banking Co., Middletown, Conn.-Prepayment of Debentures.—This company will pay upon presentation, with interest to date of payment, debentures of Series "D 33" and "D 42," which mature Oct. 1 1905, and Series "D 37" and "D 43," mainring Nov. 1 1905.—V. 79, p. 2460.

Midland Cold Storage Co. of St. Paul, Minn.-Bonds Of-fered.-H C. Barroll & Co., bankers, First National Bank Building, Chicago, offered last week in our advertising colnmns, at par and accrued interest, \$250,000 5 p. c. first mort. gage serial gold bonds of this company, both principal and interest guaranteed by A. Booth & Co. of Chicago, a corpor-ation having a capital and surplus of \$6,850,000 and a mer-cantile rating of "AAA1." The bonds are in denomination of \$500 each, dated June 1 1905, interest payable semi annually; \$12,500 of the principal is payable each year beginning June 1 1906, and all or any part is redeemable after June 1 1909 at 102 and accrued interest upon 90 days' notice. Both principal and interest are payable at American Trust & Savings Bank, trustee, Chicago. A circular says :

The mortgage is a first lien on a large, modern cold-storage ware-house now in course of erection in St. Paul, covering a plot of ground at corner of St. Peters and West Third streets. measuring approxi-mately 135x100 feet. The building will be of brick, nine stories, prac-tically fireproof; building is divided into three distinct sections each of 5,000 square feet of floor area and each used for storage of different kinds. A spur of the C. St. P. M. & O. Ky. enters the building. The plant will include two 100-ton refrigerating machines with all neces-eary appurtenances. eary appurtenances.

A. Booth & Co., the guarantors of these bonds, control the entire expital stock of the Midland Cold Storage Co. A. Booth & Co. are the foremost fish, oyster and poultry merchants of the United States, and have carried on this business successfully for the past fifty years. The business was founded by Alfred Booth in 1856. About fifty branches are now established in various parts of the United States. Canada and Cuba. Capital stock, \$5,500,000; surp., \$1,349,634. (See V. 81, p. 262.)

GUARANTY ENDORSED ON EACH BOND.

GUARANTY ENDORSED ON EACH BOND. A Booth & Company, a corporation of the State of Illinois, having become the owner of the within bond in the due course of Its corporate business, and now being desirous of selling the same, in consideration of the purchase there-of from it and the payment to it of the purchase price therefor, the receipt whereof is hereby acknowledged, and of other good and valuable considera-tion by it received, does hereby guarantee payment of all and singular the amounts due and to become due on said bond, and each and all of the conpons issued therewith, both principal and interest, at the time, in the manner and according to the terms of the said bonds and coupons, respectively. In witness whereof, said A. Booth & Company has caused this endorsement of guaranty to be signed by its President and attested by its Secretary, under its corporate name and seal, this 15th day of June A. D. 1905.

New England (Bell) Telephone & Telegraph Co.- New Siock.- Stockholders of record Aug. 19 are offered the privilege of subscribing at par, on or before Sept. 16. for \$3,086,000 new stock to the extent of one share for every eight shares now held by them, respectively. The proceeds will be used for extensions and additions and for payment of the \$500,000 third series bonds due April 1906. Subscriptions are payable 50 p. c. Nov. 16 and 50 p. c. Feb. 16 1906. - V. 80, p. 2397.

(J. E.) North Lumber Co.-Bonds Offered -Baker & Crab-tree and the Missouri-Lincoln Trust Co., both of St. Louis, are offering for sale at par and interest the unsold portion of this company's authorized issue of \$1,000,000 first mortgage 6 p. c. gold bonds, quite fully described in the CHRONICLE, V. 79. p. 1333. The property includes lumber mill and 20 miles of standard-gauge railroad.-V. 80, p. 2625.

North Springfield (Pa.) Water Co.-Underlying Bonds Offered.-Ristine & Conklin, 808 Chestnut St., Philadelphia, are offering at 101 and interest the unsold portion of the issue of \$150,000 first mortgage 4½ p. c. gold bonds of \$1,000 each, dated Jan. 26 1903, due Jan. 1 1933; interest payable Jan, 1 and July 1 at Columbia Avenue Trust Co., trustee, Philadelphia, A circular says:

Secured by an absolute first mortgage upon all the rights, property and privileges of the company, which company has been merged into the North Springfield Water Co., the bonds now constituting an under-lying or prior lien to the \$2,000,000 issue of that company. The North Springfield Water Co. is, in turn, owned and operated by the American Pipe Manufacturing Co., a corporation paying dividends at the rate of 12 p. c. upon \$4,000,000 capital stock. (V. 80, p. 2343.) The Wayne Water Works supplies water to Wayne and St. Davids, with a combined population of from 4,000 to 5,000, and has the right of eminent domain. of eminent domain.

O'Gara Coal Co.—Consolidation —This company was in-corporated at Albany on July 22 with \$6,000,000 capital stock, of which \$1,000,000 is 5 p. c. cumulative preferred, to take over extensive coal properties in Illinois, including ten going concerns. The authorized bond issue is \$3,000.000 of sinking fund 50-year 5 p. c. bonds of \$1,000 each, subject to call at 105. The present issue of these bonds is \$1,500,000 and the remaining \$1,500,000 is held awaiting expert opinion as to whether the value of the properties justifies their issue. The properties are located on the line of the Iudian Harbor RR., under which title, it is understood, the Lake Shore & Michigan Sonthern and the Michigan Central are building from Indian Harbor on Lake Michigan to Darville on the Cleveland Cincinnati Chicago & St. Louis $R_{\mathcal{F}}$. (See V. 80, p. 1911.) Persons identified with the Vanderbilt roads are supposed to be interested in the coal company. Books for the underwriting were opened on July 20 at the banking house of J. B. Russell & Co., 46 Wall St., and were closed the next morning, the amount desired, it is stated, having been over-subscribed. The property acquired, it is said, will aggregate some 40,000 acres of coal land and will have an annual ontput of about 3,000,000 tons. T. J. O'Gara of the coal firm of O'Gara, King & Co. of Chicago will be Presi-dent and Walter B. Kerr, New York, Treasurer.

on July 6, 1901. The Power & Ice Co. was incorporated in New Jersey in June, 1901, with \$200,000 authorized capital stock to dam the Paulinskill River at Columbia and to build power house, etc. No interest, it is said, has been paid on the bonds. The Trust Co denies the priority of a mechanics' lien for \$32,870 filed by David L. Emanuel.

Pittsburgh Coal Co.—Bo ids Canceled.—The company has purchased and canceled from the proceeds of the sinking fund provided therefor \$907,000 of the \$25,000,000 Pittsburgh Coal Co. of Pennsylvania guaranteed first mortgage and col-lateral 5 per cent bonds of 1904, reducing the amount out-standing to \$24,093,000. Compare V. 78, p 1965. Tonnage of Monongahela Company.—The semi-annual pay-

ment made this month (\$171,000) on account of the purchase of the \$2,500,000 Monongahela River Consolidated Coal & Coke Co. preferred stock shows that there was mined from the Monongahela properties during the six months ending June 30 1905 about 2,850,000 tons of coal. In the fiscal year ending Oct. 31 1904 4,666,278 tons were mined; in 1902-3, 7,842,424; in 1901-2, 6,275,579 tons. -V. 81, p. 269.

Santa Clara Water & Irrigating Co.-New Bond Issue.-The shareholders were to vote July 15 on authorizing an issue of \$100,000 bonds. E. P. Foster, Ventura, Cal., is Secretary.

Savannah Gas Co.-Called Bonds.-Fourtsen first mortgage 5 p. c. bonds drawn for redemption will be paid at 105 and interest on Sept. 1 1905 at the Pennsylvania Company for Insurances on Lives & Granting Annuities, Phila-delphia.-V. 78, p. 1278.

Southern Textile Co.-Sold.-At the bankruptcy sale on Jaly 25 the company's property was bid in as a whole for \$110,500 by the International Trust Co. of Baltimore. -V. 81, p. 216.

Spring Valley Water Co., San Francisco.-Dividend -The San Francisco "Commercial News" on July 22 said: "This company on the 20th paid a regular quarterly dividend of 63 cents per share on the capital stock, amounting to \$176,-400. The company will not pay another dividend until Jan. 20, it having been decided to omit the October dividend." -V. 78, p. 2446.

Standard Rope & Twine Co.-Sale Ordered.-The Court of Caancery at Trenton, N. J., on July 25 ordered the fore-closure sale of the property. The amounts stated by the decree as due to the mortgage trustees on account of the first mortgage and the consolidated mortgage, respectively, are reported as follows: Manhattan Trust Co., \$2,893,700; Can-tral Trust Co., \$6,805,305. - V. 80, p. 1183.

Sunday Creek Co.—Consolidation.—This company, incorporated in New Jersey on June 30 1905 with nominal (\$4,000,-000) capital stock, the Corporation Trust Co. being its New Jersey representative, will, it is announced, take over on Aug. 1 the following seven corporations, mostly allies of the Hocking Valley Ry. Co., and embracing extensive coal properties in Ohio and West Virginia on which some 16,000 men are said to be employed.

Kanawha & Hocking Coal & Coke Co. (V. 80, p. 2401; V. 74, p. 271); Continental Coal Oo. (V. 80, p. 2460; V. 75, p. 500); St. Paul & West ern Coal Co. and Boston Coal, Dock & Wharf Co.; Sunday Creek Coal Co. (V. 72, p. 92; V. 66, p. 334); Buckeye Coal & Railway Co.; Ohio Land & Railway Co. (V. 68, p. 823).

DIRECTORS OF NEW COMPANY.

John H. Winder, President and General Manager, Columbus; C. W. Watson, President Fairmont Coal Co., Baltimore; S. P. Busch, Vice-President and Manager Buckeye Steel Casting Co., Columbus; C. L. Poston, Athene, O.; E. A. Cole, Columbus; H. H. Heiner, Vice-Presi-dent, Columbus; Alfred Hicks, President Allegheny Steel & Iron Co., Pittsburgh; Louis B. Dailey of New Jersey.

Texarkana Gas & Electric Light Co., Texarkana, Texas and Arkansas.—Bonds Offered.—Charles S. Kidder & Co., 184 La Salle St., Chicago, are offering at par and interest, by advertisement on another page, \$132,000 first mortgage 5 p. c. gold bonds of \$500 each, dated July 1 1905, and due July 1 1980, but subject to call at company's option at 105 and interest on any interest day; interest payable Jan. 1 and July 1 at the Central Trust Co. of Iilinois, trustee, Chicago. Financial statement shows: Plant and equipment, \$229,668; capital stock, \$100,000; bonds outstanding, \$132,000. A circular says:

Incorporated under laws of Arkansas on Feb. 8 1839 and author-ized as a foreign corporation to carry on business in Texas. Direc-tore: Rufus C. Dawes, President; B. G. Dawes, Vice-President; Edwin F. Brown, Scoretary; Charles G. Dawes, Edward F. Lacey, William B. Ridgely, W. Irving Osborne, Samuel Insull, E. J. Buffington, Edward Olifford, W. H. Pyle and W. W. Mills.

Paulinskill (N. J.) Consolidated Power & Ice Co. -Foreclosure .- The Kulckerbocker Trust Co., as mortgage trustee, has brought suit to foreclose a mo:tgage for \$200,000 made

EARNINGS FOR YEARS ENDING DEC. 31.

1904.	1903.	1902.	1901.	1900.

Operat. exp. and taxes. 34,250	36,245	28,893	23.436	22,609
Net earnings\$22,634		\$18,318	\$10,683	

Net earnings.......\$22,634 \$20,321 \$18,318 \$10,683 \$7,585 At rate of increase shown for the first six months of this year the net earnings for 1905 will be not less than \$25,000 or four times the interest charge. Population of city, over 18,000, having shown a rapid growth in past five years. Company's property consists of mod-ern brick electric station [the street railroad taking its current from the company], and gas plant, also thoroughly modern. The present management is rapidly installing meters and gas stoves. Operates under long term franchises for both gas and electricity which are without objectionable features. The bonds offered are an absolute first mortgage on all the property and franchises now owned or here-after acquired; \$132,000 are outstanding, and the balance [\$86\$,000, the authoriz 3d issue being limited to \$1,000,000.-ED.] may be issued for additions, betterments or extensions only, under carefully guarded restrictions of the trust deed. The company is owned and operated by the Union Gas & Electric

The company is owned and operated by the Union Gas & Electric Co. [of Delaware], a corporation controlling about a dozen similar

properties throughout the Middle West, all of which are in a most prosperous condition. The Union Gas & Electric Co. has invested in addition, and subject to these bonds, a large sum of its own money in this property, insuring to the investor the best of expert management.

Among the directors of the Union Gas & Electric Co. are Charles G. Dawes and W. Irving Osborne, respectively President and Vice President Central Trust Co. of Illinois, Chicago, and Samuel Insull, President Chicago Edison Co., Chicago. Compare V. 79, p. 2751.

Texas Company.—Great Oil Fire.—The tanks of this company in the Humble oil fields were set on fire by lightning on July 23 and the pumping station and over 2,000,000 barrels of oil in 11 tanks were burned, causing a loss estimated at from \$500,000 to \$550,000. A fire at Sour Lake on July 25, also resulting from lightning, is thought to have done \$50,000 damage to the company's property.—V. 80, p. 1427.

Toledo Portland Cement Co., Manchester, Mich.—Bonds. —The International Savings & Trust Co. (the mortgage trustee) and the Corporation Underwriting & Trust Co., both of Pittsburgh, Pa., cffered for sale on Apr. 2 \$800,000 first mortgage 6 p. c. 40-year gold bonds dated Apr. 1 1905; denomination, \$1,000; issue limited to \$500,000.

The company, it was stated, had then enclosed the five principal buildings (steel construction) and had expended over \$100,000. Its maximum capacity was 1,200 bbls, per day, average capacity 1,000 bbls. The company, it was said, owned in fee and without other encumbrance 2344 acres of mari and clay lands, 5 miles of railway right-of-way and 23 acres of land for factory site. Total value of property was expected to exceed \$1,000,000. Company incorpora'ed in Michigan in January 1903. Capital stock then anthorized \$500,000.

Union Gas & Electric Co., Delaware.—See Texarkana Gas & Electric Light Co. above.—V. 79, p. 2751.

United Copper Co. - Decision. - See Amalgamated Copper Co. above. - V. 81, p. 216, 36.

United Electric Securities Co., Boston.- Called Bor.ds.-The American Loan & Trust Co., trustee, has called for redemption at 103 and accrued interest to August 1 1905 the following amounts of collateral trust 5 p. c. bonde, viz: Third series, the entire outstanding issue; tenth series, entire outstanding issue; fifteenth series, 197 bonds; sixteenth series, 139 bonds; seventeenth series, 230 bonds; eighteenth series, 148 bonds; nineteenth series, 140 bonds. These bonds, aggregating, it is understood, \$1,131,000, will be paid, the Boston papers say, from the proceeds of a recent sale of \$1,067,000 of the bonds deposited as collateral, and the redemption of \$289,000 Portland General Electric bonds called for payment.-V. 80, p. 655.

United Gas Improvement Co.—Results in Philadelphia.— See Equitable Illuminating Gas Light Co. of Philadelphia telow.—V. 80, p. 2848.

United States Leather Co.-Froperties Owned, Etc.-See Central Leather Co. above.-V. 81, p. 159.

Washington (D. C.) Gas Light Co.—Extension of Registered 6s.—Holders of the \$600,000 of Series A and B registered 6s, now subject to call, will, we are informed, be permitted after Jan. 1 1906 to present the same for extension for twenty years at 4 per cent interest.—V. 76, p. 1200.

Wheeling Potteries Co.-Cli Bonds.-In addition to the \$80,000 new bonds referred to on July 8, the company has carried a bond issue of \$125,000 for a number of years secured by a mortgage on two of its factories. These bonds are 5-20 5 per cent gold bonds, and were in force at the time of the consolidation Jan. 1, 1903. The new issue of bonds of \$60,000 is to be secured by a mortgage on one of the other plants now entirely free from indebtedness. These bonds have already been underwritten, but no arrangements have yet been made for their issue, and in all probability, we are informed, it will not be necessary to do so. The company operates four plants, known as the Avon Department, the Wheeling Department, the Riverside Department and the La Belle Department. See V. 81, p. 159.

Worenoco Paper Co., Bussell, Mass.—Colled Bonds — Five bonds, viz: Nos. 1, 16, 71, 77 and 145, drawn for the sinking fund will be paid Oct. 1 1905 at the Springfield (Mass.) Safe Deposit & Trust Co.—V. 79, p. 108.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, July 28 1905.

Considering the season of the year there has been a fair amount of business activity during the past week. A relief from the recent unusually hot weather has been experienced and in some lines buyers have been operating more freely. There also has been some improvement in the call for shipments on outstanding contracts. The reports from the pigiron markets have reported a subsidence of the active buying experienced carlier in the month, but there has continued a fairly active condition of business in the steel markets. The grain erop prospects have been reported generally favorable and have had a depressing effect upon values. A revised report of the Government's Agricultural Bureau on the cotton acreage makes the decrease from last year 14.9 instead of 11.4, as originally reported. It has been announced that a special session of Congress will be called to meet on Nov. 11. Lard on the spot has been steadier. There have been

Lard on the spot has been steadier. There have been moderate offerings, but trade demand has been better and prices have advanced. The close was quiet at 7.35c. for prime Western and 6.75c. for prime City. Refined lard has had only a limited sale, but prices have held steady, closing at 7.45c. for refined for the Continent. Speculation in lard for future delivery has been quiet, but prices have advanced on limited offerings and light receipts of hogs. The close was quiet.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
July delivery	7.00	$7.07\frac{1}{2}$	7.10	7.10	7.15	7.15
Sept. delivery		$7.17\frac{1}{2}$	$7.22\frac{1}{2}$	7.20	7.30	7.271/2
Oct. delivery	7.20	$7.27\frac{1}{2}$	$7.32\frac{1}{2}$	7.30	$7.37\frac{1}{2}$	7.35

Pork has been in moderate demand and steadier, closing at \$13 50@14 50 for mess, \$13@15 50 for short clear and \$15@15 50 for family. Cut meats have held steady at unchanged prices, closing at 6c. for pickled shoulders, $10\frac{1}{4}$ @ $10\frac{1}{2}$ for pickled hams and $7\frac{3}{4}$ @ $9\frac{1}{4}$ for pickled bellies, 16@10 lbs. average. Beef has been quiet but steady at \$10@10 50 for mess, \$11@11 50 for packet, \$12@12 50 for family, \$19@25 for extra India mess in tes. Tallow has been firm but quiet at $4\frac{3}{8}$ c. Stearines have been quiet and unchanged at 8c. for lard stearine and $7\frac{3}{4}$ c. for oleo stearine. Cotton-seed oil has been fairly active and firmer, closing at 29c. for prime yellow. Butter has been in fairly active demand and firm, closing at 17@21c. for creamery. Cheese has been in brisk demand and prices have advanced, closing at $9\frac{3}{4}@10\frac{1}{2}c$. for State factory, full cream. Fresh eggs have been firm for choice grades, closing at 19@20c. for best Western.

Brazil grades of coffee have been in fairly actianve demd, trade interests being better buyers, and with offerings limited prices have advanced. Brazil markets have been firmer. The close was steady at 8½ c. for Rio No. 7 and 9c. for Santos No. 4. West India growths have been in fair dcmand and firmer, closing at 93%@9½ c. for good Cucuta and 11@11½ c. for good average Bogota. East Indian growths have had a limited sale at steady prices. Speculation in the market for contracts has been moderately active and prices have advanced on a continued comparatively light Brazil crop movement and reports of disappointing crop returns from Brazil. The close was unsettled.

Following were the closing asked prices :

July6.95c.Oct7.15c.Jan7.45c.Aug6.95c.Nov7.25c.March7.55c.Sept7.05c.Dec7.35c.May7.70c.Raw sugars have been in active demand and firmer, clos-

ing at $4\frac{1}{8}$ e. for centrifugal, 96-deg. test, and $3\frac{1}{2}$ c. for muscovado, 89-deg. test. Refined sugar has been unsettled, elosing steady at 5.05@5.10c. for granulated. Pepper has been fairly active and firmer. Teas have been quiet.

Kentucky tobacco has been firmly held and a limited volume of business has been transacted. A few small lots of new-erop seed-leaf tobacco have come on the market and have been quickly absorbed at firm prices. The few offerings of old-crop tobacco also have found buyers at firm prices. There has been a fair inquiry for Sumatra tobacco at firm prices. Havana tobacco has been firm. Prices for Straits tin advanced on the strong statistical

par and accrued interest \$500,000 Chicago & Western Indiana RR. Co. consolidated mortgage 4 p. c. gold bonds, due 1952, interest payable January and July. Both principal and interest of these bonds is guaranteed under the terms of a 999-year lease by the following railroad companies: Chicago & Eastern Illinois RR. Co., Wabash BR. Co., Grand Trunk Western Ry. Co., Chicago & Erie RR. Co. and Chic. Indianapolis & Louisville Ry. Co. These bonds are offered, subject to sale, at 100 and accrued interest, and the bankers recommend them as an investment of undoubted charactef.

-An analysis of the New York State law relative to savings bank investments has been prepared by White & Kemble, 56 Pine Street. It gives a list of railroad bonds that are legal investments under the law, a second list of bonds that may become legal and a third list of municipal issues that meet the requirements. In addition to these lists there is an explanation of the application of the law to 492 issues of railroad bonds of 54 systems. The work was done by direction of the New York State Savings Bank Association. Price, \$15.

Prices for Straits tin advanced on the strong statistical position, but the close was at a moderate reaction from top prices, with 32.55@32.85e. quoted. Ingot copper has been fairly active and firm, closing at 15.20@15.30c. for Lake and 15.25@15.35e. for electrolytic. Lead has advanced, closing at 4.60@4.70c. Spelter has been firmer at 5.55@ 5.60e. Pig iron has been less active but steady, closing at \$15.25@15.75 for No. 2 Northern and \$15.75 for No. 2 Southern.

Refined petroleum has been in fair demand and firm, elosing at 6.90c. in bbls, 9.60c. in cases and 4c. in bulk. Naphtha has been steady at 11c. for 71 degrees and 11c. for 76 degrees. Credit balances have been steady, closing at 1.27c. Spirits turpentine has declined, but the close was steadier at $60\frac{1}{2}c$. for machine bbls. Rosins have been slightly easier for common and good strained, closing at \$3 55; pale grades have been firm and higher. Hops have been in moderate demand at steady prices. Wool has continued firm.

COTTON.

Friday Night, July 28 1905.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 97,193 bales, against 104,182 bales last week and 81,598 bales the previous week, making the total receipts since the 1st of September 1904 9,775,014 bales, against 7,105,480 bales for the same period of 1903-4, showing an increase since Sept. 1 1904 of 2,669,534 bales.

Speculation in cotton for future delivery has continued fairly active, but the tone has been unsettled, and for the week prices show only a slight net change. Crop-damage reports of a sensational character from the western section of the cotton-belt have been issued by interested parties, of the cotton-belt have been issued by interested parties, and forecasts of a low average condition to be issued by the Government's Agricultural Bureau next week have been given out by bull interests. The revision of the report on acreage by the Agricultural Bureau, making the decrease 14.9% instead of 11.4% as originally reported, also attracted considerable attention, but it had little influence as a mar-ket factor. Early in the week, on bull support and reports of unfavorable weather conditions in the Southwest prices of unfavorable weather conditions in the Southwest, prices were advanced. The improvement, however, was not maintained. A prominent bull interest in the market was understood to have sold out at least a considerable part of his holdings, and this, coupled with selling by other interests, including a prominent spot house, resulted in lower prices. To-day there was only a limited amount of activity to the trading. The opening was steadier, but during the day prices yielded. It was stated that a large bull operator issued notices for the delivery of about 50,000 bales of cotton on August contracts, which were taken by a large spot house. Private crop reports received from the South were generally of a more favorable tenor. The close was steady at a net loss in prices for the day of 5@7 points. Cotton on the spot has been quiet, closing at 11.05c. for middling uplands.

The rates on and off middling, as established Nov. 18 1903 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

FairC	1.30	on Good Middling Tingedc.	Even
Middling Fair	0.96	on Strict Middling Tinged	0.06 off
		on Middling Tinged	
		on Strict Low Mid. Tinged	
		off Low Middling Tinged	
Low Middling	0.38	off Strict Good Ord. Tinged	0.84 off
Strict Good Ordinary	0.72	off Middling Stalned	0.50 off
Good Ordinary	1.00	off Strict Low Mid. Stained	1.06 off
Strict Good Mid. Tinged	0.30	on Low Middling Stained	1.50 off

On this basis the official prices for a few of the grades for the past week would be as follows:

WEATHER REPORTS BY TELEGRAPH.-Reports to us by telegraph from the South this evening are of a fairly satisfactory tenor. Rain has been quite general, and at some points in Texas, Louisiana and Alabama excessive; but on the whole the precipitation has been moderate. From Texas and Alabama and districts along the Atlantic we have advices of improvement in the crop, but from sections of Mississippi and Arkansas there are complaints of grass.

Galveston, Texas .- As a whole the crop in Texas is improving and with continued dry weather would do so ma-terially. More frequent complaints of boll-weevils come from Southern parts of the State. There has been a trace of rain on four days during the week. The thermometer has ranged from 81 to 88, averaging 85.

Abilene, Texas.-Rain has fallen on four days of the week, the rainfall being one inch and four hundredths. Average thermometer 81, highest 96 and lowest 66. Brenham, Texas.—We have had very light rain on one

day during the week, the rainfall being one hundredth of an inch. The thermometer has averaged 83, the highest being 93 and the lowest 72.

Corpus Christi, Texas.-There has been no rain during the week. T 74 to 88. The thermometer has averaged 81, ranging from

Cuero, Texas.—There has been no rain the past week. The thermometer has ranged from 70 to 90, averaging 80. Dallas, Texas.—Rainfall for the week five inches and

ninety-two hundredths, on four days. Average thermometer 82, highest 96 and lowest 68. Fort Worth, Texas.—There has been rain on four days of the week, the rainfall being one inch and thirty-three

Luling, Texas.—We have had light rain on two days during he week, the rainfall being nine hundredths of an inch.

The thermometer has ranged from 70 to 94, averaging 82. Nacogdoches, Texas.—Rainfall for the week two inches and thirty-four hundredths, on four days. Average ther-

mometer 85, highest 89 and lowest 70. Palestine, Texas.—The week's rainfall has been one inch and seventy-four hundredths, on four days. The thermometer has averaged 79, the highest being 90 and the low-

est 68. Paris, Texas.—It has rained on four days during the week, with rainfall of sixty-four hundredths of an inch. The thermometer has averaged 75, ranging from 68 to 91. San Antonio, Texas.—We have had rain on one day during

San Antonio, Texas.— We have had rain on one day during the week, the rainfall being sixty-two hundredths of an inch. The thermometer has ranged from 70 to 94, averaging 82. Weatherford, Texas.—Rain has fallen on three days of the week, the rainfall being seventy-five hundredths of an nch. Average thermometer 83, highest 97 and lowest 69. New Orleans, Louisiana.—We have had rain on two days of the week, the rainfall being fifty-nine hundredths of an inch. The thermometer has averaged 82 inch. The thermometer has averaged 82.

Shreveport, Louisiana.-It has rained on six days of the week, the precipitation reaching nine inches and ninety-three hundredths. The thermometer has averaged 82, ranging from 70 to 92.

Leland, Mississippi.—Rain has fallen on one day of the week, to the extent of one inch and twenty hundredths.

Average thermometer 75.7, highest 86 and lowest 64. Vicksburg, Mississippi.—Rains have interfered with cul-tivation. Little, if any, improvement. Crop very spotted. We have had rain on four days during the week, the rainfall being seventy hundredths of an inch. The thermometer has averaged 78, the highest being 89 and the lowest 70. *Helena, Arkansas.*—Cotton is now nearly clear of grass, is growing rapidly and fruiting tolerably well. There has

been rain on one day of the week, the rainfall being eleven hundredths of an inch. The thermometer has ranged from 66 to 88, averaging 71.

Little Rock, Arkansas.—Very little if any improvement in condition. Crops are very grassy and late. Rainfall for the week seventy-three hundredths of an inch, on two days.

Average thermometer 75, highest 90, lowest 68. Memphis, Tennessee.—Cotton condition is improving. There has been rain on three days of the week, the rainfall being thirty-eight hundredths of an inch. The thermometer has averaged 76.9, the highest being 85.3 and the lowest 65.7

Nashville Tennessee.-There has been rain during the week to the extent of fifty-three hundredths of an inch. The thermometer has averaged 75, ranging from 60 to 89.

Mobile, Alabama.-The crop has made fair progress in the interior, but there is some complaint of want of moisture, the rains of the past week having been confined to the coast. Rain has fallen on five days of the week, the rainfall being four inches and twenty-nine hundredths. The thermometer has ranged from 72 to 91, averaging 81. Montgomery, Alabama.—The weather is getting too dry

and hot. Moisture is needed; otherwise progress and condition are good. Rain has fallen on two days of the week, the precipitation being thirteen hundredths of an inch. Average thermometer 81, highest 94 and lowest 68.

Selma, Alabama.—The crop shows decided improvement. We have had rain on one day of the week, the rainfall being seventy-five hundredths of an inch. The thermometer has

averaged 82, the highest being 95 and the lowest 70. Madison, Florida.—There is considerable complaint of shedding. It has rained on one day during the week to the extent of one inch and twenty-five hundredths. The thermometer has averaged 79, ranging from 68 to 90. Augusta, Georgia.—We have had rain on two days during

the week, the rainfall being twenty-four hundredths of an The thermometer has ranged from 72 to 95, averaginch. ing_82.

Savannah, Georgia.-Rainfall for the week one inch and thirty-nine hundredths, on three days. Average thermometer 82, highest 95 and lowest 71.

Charleston, South Carolina.-It has rained on four days during the week, with rainfall of two inches and eleven hundredths. The thermometer has averaged 82, ranging

from 72 to 95. Stateburg, South Carolina.—Cotton is beginning to open. Rain has fallen on three days of the week, the rainfall reaching fifty-three hundredths of an inch, which was very good for the crop; but more is needed. Average thermometer S1, highest 95 and lowest 70. Charlotte, North Carolina.—Conditions have been favor-able and the plant is healthy and fruiting nicely. We have had rain the past week, the rainfall being one inch. The thermometer has averaged 78, the highest being 92 and the lowest 65.

hundredths. The thermometer has averaged 81, the highest being 94 and the lowest 64.

Henrietta, Texas .- There has been rain on four days during the week, the precipitation being two inches and three hundredths. The thermometer has averaged 82, ranging from 69 to 95.

Huntsville, Texas.-Rain has fallen on one day of the week, the rainfall being fifty hundredths of an inch. thermometer has ranged from 70 to 96, averaging 83. The

Kerrville, Texas.—Dry all the week. Average ther-mometer 80, highest 93 and lowest 67. Longview, Texas.—We have had rain on five days of the week, the rainfall being three inches and eighty-eight hundredths. The thermometer has averaged 83, the highest being 95 and the lowest 71.

Lampasas, Texas.-It has rained on one day during the week, to the extent of sixteen hundredths of an inch. The thermometer has averaged 83, ranging from 68 to 98.

The following statement we have also received by telegraph, showing the height of the rivers at the points named, at 8 a.m. of the dates given in the last two years:

Total exports	7,900	781,293	9,150	775,023	1,929	753,238

a A cantar is 98 lbs

This statement shows that the receipts for the week were 4,500 cantars and the foreign shipments 7,900 bales.

SEA ISLAND COTTON MOVEMENT .-- We have re erived this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (July 28) and since Sept. 1 1904, the stocks to-night and the same items for the corresponding periods of 1903-04, are as follows:

:	1904-05.		1903	3-04.	Stock.		
Receipts to July 28.	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1905.	1904.	
Savannah Charleston Florida, &c	3 79	54,033 12,189 32,776	508	48,739 9,357 • 17,494	3,283 122 566	9,625 116 702	
Total	82	98,998	508	75,590	3,971	10,443	

the telegraphic reports on the crop in the Southern States for the week ending July 24 as follows:

the telegraphic reports on the crop in the Southern States for the week ending July 24 as follows: *North Carolina*.—Cotton making strong growth, fruiting slowly, some damage locally by shedding, rust, lice and boll-worms. *South Carolina*.—Cotton grew rapidly, though not fruiting satisfac-torily; less damage from insects, but more rust and shedding, and much turning yellow, some beginning to open. *Georgia*.—Cotton growing fast, fruiting well in some localities, making too much weed and few forms in other sections, being laid by, opening in South, some fields grassy, damage by lice, rust and shedding in scat-tered districts. *Florida*.—Complaints of rust and shedding in cotton more numerous, thongh damage not pronounced, few caterpillars reported, early-planted cotton opening, considerable laid by. *Alabama*.—Cotton irregular in size and condition; considerable shed-ding; some fields poor, but generally clean and fruiting moderately well; few open bolls. *Missispipi*.—Improvement in cotton general, although not marked; much early cotton laid by; plants large, but fruiting slowly; yogng cotton growing slowly; somewhat injured in removing grass; still many grassy fields; some blight and rust. *Louisiana*.—Good growing weather; cotton improved in some local-ities, but generally deteriorated; some fields abandoned; plant ir regular in size, mot finiting well; some complain to boll-worm, rust and shedding. *Texas*.—Cotton improved over much of State, but damaged by rain in northeast and east, where much needs cultivation badly; too much stalk in many counties, but now fruiting better; shedding in scattered counties; damage by boll-weevils and boll-worms considerable in localities, but generally not great; picking in south and bolls opening in South- *Certal* counties. *Arkansas*.—Cotton small; considerable grassy; where clean doing fairly well, but not making many forms; some injured by insects and rust; some land abandoned. *Tennessee*.—Cultivating late crops, progressed favorab

prospect.

Oklahoma and Indian Territories.—Cotton improved and in poor to good condition, but damage locally by worms and shedding; too rank growth and not fruiting well. Missouri.—Cotton blooming and fruiting well; some rust; fields fairly

clean.

These reports are summarized by the Crop Division as follows:

Although improvement is indicated in parts of nearly all of the cotton States, it is neither general nor marked. While the staple has grown rapidly, and is generally fruiting, well in portions of Georgia, Alabama, Texas and Missouri, complaints of unsatisfactory fruiting are received from the Carolinas, Mississippi, Alabama, Tennessee and Okhahoma, and rust or shedding from all sections. Insects are causing considerable damage to cotton in localities in Texas, but generally no great injury is reported. The crop is opening in the Southern portion of the belt and picking is under way in Southern Texas.

JUTE BUTTS, BAGGING, &C.—There has been no activity in the market for jute bagging during the week. Demand has been almost nil, but prices are nominally unchanged at 65% c. for 13/4 lbs. and 67% c. for 2 lbs., standard grades. Jute butts continue dull at $1\frac{1}{2}@1\frac{3}{4}$ c. for paper quality and 2@21/4c. for bagging quality.

THE AGRICULTURAL DEPARTMENT'S REVISED ACREAGE REPORT .- The following revised report on this year's cotton acreage was issued by the Department of Agriculture at noon July 26. The report is self-explanatory.

The Crop-estimating Board of the Department of Agriculture has con-sidered the report issued by the Bureau of Statistics on June 2, relative to the acreage planted in cotton in the Southern States in 1905 as com-pared with that planted in 1904, and has concluded: *First.*—That a new estimate should be made on · acreage planted, and that the figures in Mr. Hyde's hands when making his estimate should be used as the basis. *Sccond.*—That Mr. Hyde, with Mr. Holmes at his elbow prompting him, made the estimate lower than the facts at his hand from the re-ports from the seven classes of reporters employed by the Burcau war-ranted. *Third.*—The Board finds upon careful consideration of the reports of

ranted. Third.—The Board finds upon careful consideration of the reports of all classes of correspondents and agents that the acreage planted in cotton this year, including the entire season, should have been esti-mated at 85.1 per cent of that planted last year, equivalent to a reduc-tion in planted acreage as compared with last year of 14.9 per cent (in-stead of 11.4 per cent), or 4,731,000 acres—the estimate of the total acreage planted this year being 26,999,000 acres. The estimated percentage of the decrease in each of the cotton-grow.-ing States is as follows:

Virginia	18	· Louisiana	17
North Carolina	16	Texas	16
South Carolina	14	Arkansas	19
Georgia	14	Tennessee	13
Florida	12	Missouri	15
Alabama	11	Oklahoma	15
Mississippi	16	Indian Territory	11
The averages more made for	ooob	State by each of the four member	ore

The averages were made for each State by each of the four members of the Board, and the comparatively small disagreements were harmon-ized almost wholly by averaging, and the above results are fully agreed to by each and every member of the Board. Respectfully submitted,

illy submitted,	
VICTOR H. OLMSTEAD,	
STEPHEN D. FESSENDEN	ľ
GEORGE K. HOLMES,	
W. W. LONG,	

Crop-Estimating Board

The exports for the week ending this evening reach a total of 200 bales, of which 200 bales were to Great Britain, — to France and — to Bremen, and the amount for-warded to Northern mills has been 252 bales. Below are the exports for the week and since Sept. 1 in 1904-05 and 1903-04.

GOVERNMENT WEEKLY COTTON REPORT .- Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday

The above findings and report made under my supervision have my entire approval.

W. M. HAYS, Ass. Scc., in charge Burcau of Statistics.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is quiet for both yarns and shirtings. Manufacturers are generally well under contract. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

BREADSTUFFS.

Friday July 28, 1905.

The market for wheat flour has continued to drag, Buyers generally have shown indifference, they being adversely influenced by the favorable outlook for the growing wheat crops and appeared to be holding off for more attractive prices before placing orders for quantities of importance. The tendency of prices has been towards a lower basis. Rye flour has had a fair jobbing sale at steady, prices. Corn-meal has been firm but quiet.

Speculation in wheat for future delivery has been fairly active but at a decline in prices. The reports of extensive damage to the spring-wheat crop by black rust, which were freely circulated last week, lacked confirmation; in fact, the crop reports for the week have been generally favorable, the present outlook being for good yields from both spring and winter-wheat crops. The movement of the new winterwheat crop has been steadily increasing, the receipts at the primary markets during the week being fairly heavy and the increasing supplies of actual wheat have been a factor which has operated against values. On the recent sharp up-turn to prices the speculative short interest was fairly well eliminated and during the past work speculative fairly well eliminated and during the past week speculative interests who had gone long of the market on the black-rust, crop-damage reports have been sellers to liquidate their accounts, and bear interests have again become more aggressive. The spot market has been quiet and easier. To-day the market was lower, reflecting favorable crop prospects and easier foreign advices. The spot market was lower.

Indian corn futures have received only a limited amount of speculative attention and the tendency of prices has been towards a lower basis. The feature has been the continued promising outlook for the growing crop. Weather condi-tions in the corn-belt have been reported highly favorable, and the present indications are for a large yield. Receipts of old-crop corn at the primary markets have been moderately full, and this, too, has had some influence against the market. Prices for cash corn have declined. At the lower prices the demand, particularly from exporters, has improved, and this had a steadying effect upon values. Today the market was easier under favorable crop prospects. The spot market was quiet and easier.

Oats for future delivery at the Western market have been quiet and prices have declined. Crop reports as a general rule have continued favorable, and they, together with sympathy with the decline in values for other grains, had a depressing effect. Small quantities of new-crop oats are beginning to be received at the interior markets and they grade high, showing a good quality of new crop. To-day the market was quiet and easier.

GOVERNMENT WEEKLY GRAIN REPORT .- Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the grain crops in the various States for the week ending July 24 as follows:

CORN.—Favorable weather has caused rapid growth of corn and, with very few exceptions, the crop is in excellent condition. Corn is beginning to need rain in Kausas and Alabama, the late needs cultiva-tion in Arkansas and Kentucky, and some was damaged by high winds

beginning to need rain in Kansas and Alabama, the late needs cultivation in Arkansas and Kentucky, and some was damaged by high winds in Louisiana.
 WINTER WHEAT.—Winter-wheat harvest is nearly completed in the principal winter-wheat States, and threshing, which is well advanced, shows grain of good yield and quality in Indiana. Illinois, Missouri and Nebraska, with fair yield and good quality in Kansus. Rains have deayed threshing in Virginia and Maryland and eaused further damage to grain in shoek or stack in Virginia, Kentucky, Missouri, Oklahoma and Texas. On the North Pacific Coast winter wheat is ripening rapidly in Washington, where harvesting is in full progress, and harvest is general in Oregon, with good yields indicated.
 SPRING WHEAT.—Spring wheat has continued to advance favorably in the spring-wheat region; the early-sown is headed and filling well and the late-sown heading in North Dakota; the early is maturing in South Dakota and Wisconsin, and the erop is nearly ready to cut in Iowa. Although black rust is reported from scattered localities in Minnesota and the Dakotas, no material damage is shown, and, with favorable weather conditions, serious injury is not stored. Complaints of smut are received from South Dakota, red rust in Colorado and nost fields of North Dakota, and some lodging in Wisconsin, while in the filling stage and caused shriveling.
 OATS —In the principal oat-producing States harvesting of this crop is well advanced, while in the more northerly districts oats are heading, the early-sown are maturing rapidly, and harvest will be general during the coming week. The crop generally is in promising condition, though bad'y lodged in Ohio, and some complaints of lodging are received from Wisconsin.

Exports of Grain and Flour from Pacific Ports .--- The exports of grain and flour from Pacific ports for the week ending July 27, as received by telegraph, have been as follows: From San Francisco to China, 7,540 bbls. flour, to various South Pacific ports, 12,079 bbls. flour, 500 bushels wheat, 10,000 bushels corn, 6,000 bushels barley and 50 bushels oats.

Combining these fgures with those for previous weeks, we have the following, which covers the exports to foreign countries for the period since July 1, comparison being made with the corresponding period of the previous year

		~ x		~		
Exports	Flour,	Wheat,	Corn,	Oats,	Barley,	Rye,

THE DRY GOODS TRADE.

New York, Friday, P. M., July 28 1905.

The number of buyers that have been in town during the past week has been large and the volume of business done by cotton goods jobbers has considerably increased. In spite of this, however, the market at first hands keeps quiet, with buyers still confining their purchases to goods for early delivery. When they are able to secure these at all, they are obliged to pay sellers' full asking prices, which in nearly every case have been advanced still further during the past week; but it very often happens that the goods they want are unobtainable. Jobbers' stocks are so low that they are forced to continue purchasing small quantities right along to supply the requirements of their customers and, although they have to pay prices for these that leaves them with practically no margin of profit, and, further, are sometimes unable to get them at all, yet they still prefer to run the risk rather than purchase ahead, in the belief that they will be able to purchase more cheaply later on. The market at the present time is entirely governed by supply and demand and the course of the raw material market has very little influence. Manufacturers are growing increasingly independent, and agents are using their influence against any undue raising of prices, in order to prevent the consequent natural reaction. The woolen goods market has again been active with advances expected almost daily.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending July 24 were 2,223 packages, valued at \$151,127, their destination being to the points specified in the tables below:

Value.	ND 1904.

is continuous for goods at prices and for shipment that cannot possibly be complied with. Sheetings lighter than 4-yards are still advancing, and many buyers have missed the opportunity of securing these at reasonable prices. Export business has been insignificant during the week, except with South America. Local merchants haver eceived advices of the Chinese boyeott against American goods and are anxiously waiting to see what effect this is really going to have. Bleached goods have again been advanced in some instances, but purchases have not been heavy. Prominent lines are well sold ahead and are difficult to secure except for late shipment. Wide sheetings, sheets and pillow eases are firm and in fair demand. Coarse, colored cottons are well conditioned and many lines are unobtainable at the present time. Denims have been advanced to 133/4c. for 9-ounce. Kidfinished cambries have been advanced to 33/4 c. for 64 squares. The demand for prints continues, especially from the West, where the advance business has been larger than antici-Ginghams have been in fair demand and prices are pated. firmly held. Print cloths, regulars, are now quoted at 3³/₈e., and 3¹/₄e. has been bid for 28-inch 64x60s. There has been a moderate business in other narrow goods but there has been comparatively nothing doing in wide goods, which are firmly held at recent prices.

WOOLEN GOODS.—Business has been unusually active in the men's wear light-weight woolen and worsted division during the week, and buyers have freely placed orders, especially for some of the lines which were not opened until this week. These included representative staples and fancy worsteds, and the advances in price were not as large as many had expected. Advances have already taken place in certain lines over the prices at which they were opened, and while some buyers who have not had an opportunity of placing their orders for these have felt dissatisfied, yet sellers are so confident of their ability to oversell their production that they are not worrying. The market is generally re-garded as a rising one and for that reason the majority of buyers have placed their orders as quickly as possible to make sure of getting in cheaply. For this reason many agents are expecting the cancellations to be heavier than usual, as a good deal of the purchasing has been of a more or less speculative nature. Production, however, is very little ahead of consumption, and it is expected that all the goods that can be manufactured will be well taken care of. There is still very little doing in woolen and worsted dress goods, but preparations are being pushed forward for the opening of the new light-weight season.

FOREIGN DRY GOODS.-Imported woolen and worsted dress goods are quiet and without particular feature. Silks are quieter and ribbons have not been active. Linen manufacturers are holding for higher prices for goods ordered from the mills, but agents are selling stocks on hand at the old Burlaps are steady but quiet. figures.

Alessandro Irrigation District, Cal.—Dissolution of Dis-trict.—Judge Oster, presiding in the Riverside County Supe-rior Court. on July 19 signed a decree dissolving the Alessan-dro Irrigation District. The bonds put out by this district, aggregating over \$750,000, were declared invalid several years ago. See our issue of Feb. 8 1902, page 339.

Iola, Kan.-Bonds Valid.-The Topeka "Capital" of July 20 says:

Attorney General Coleman yesterday ruled that an issue of \$46,000 worth of refunding bonds of Iola were valid and should be registered. Auditor Wells refused to register the bonds until be had the opinion of the Attorney General regarding their legelity.

fused to register the bonds until he had the opinion of the Attorney dealer the their legality. Some time ago the people of Iola wanted to make some improvements on their water plant. They had no money for that purpose, so the city council issued city warrants to pay the bill, although the city could not redeem the warrants. They then had the proposition to vote refunding bonds to take up the warrants before the people and it carried. The Attorney General held that while the city could not legally issue the warrants as it did, the city is liable for the costs of the improve-ments which it had made and that therefore the issue of refunding bonds is valid.

New York City.—Tax Rates for 1905.—The Board of Aldermen on July 25 fixed the rates of taxation for 1905. The figures for 1905 (per \$1,000 of valuation) as well as those for 1904 are as follows:

Boroughs 1905.	1904.	Decrease.
Manhattan and The Bronx\$14.9051	\$15.1342	\$0.2291
Brooklyn 15.6264	15.7296	0.1032
Queens. 15.5523	15.7228	0.1705
Richmond 15.5821	15.9281	0.3460

Salt Lake City, Utah.—Bond Issue Valid.—We are ad-vised that the action of Joseph W. Houston (a member of the Salt Lake City Real Estate Association) vs. Salt Lake City, instituted in the District Court of Salt Lake County on June 7 for the purpose of preventing the issuance of the \$1 000,000 4% water and sewer bonds awarded on Feb. 27 to the Mutual Life Insurance Co. of New York City, has never come to a hearing, having been abandoned by Mr. Houston. Another suit, however, was instituted in the State Supreme Court on the same day by the State of Utah ex rel. George E. Ellerbeck, this action also being taken to prohibit the city from issuing the bonds in question. On June 20 the Supreme Court denied the writ of prohibition prayed for by the plaintiffs and held that the city had a lawful right and authority to issue the bonds. Our informant adds that all litigation has now ceased and that the bonds are being issued to the purchasers in accordance with the agreement made at the sale of Feb. 27.
