### REVIEW OF JULY.

While there were some unfavorable occurrences during July, among which, perhaps, chief place should be given to the breaking out of yellow fever at New Orleans, developments generally were of an encouraging nature. In the iron and steel trades renewed animation was manifested after the recent dull period and buying orders once more appeared in considerable numbers, while at the same time some advances in prices were established. The prospects for the growing grain crops also became decidedly assuring, the hot weather experienced, and which produced so much discomfort in this city (temperatures of 95 and 96 being recorded), proving very beneficial to the crops.

Another gratifying event of the month was the collapse of the teamsters' strike in Chicago. This trouble, it is true, had been on the wane for some time, but as it was an extremely disturbing and bitter labor struggle, its termination was a matter of importance. The strike, it may be recalled, began April 7, when the teamsters quit work in sympathy with the striking garment workers. On the night of July 20 the department store drivers and the railway express drivers voted against prolonging the struggle, and within a day or two thereafter the various other organizations which had participated in the strike took similar action, thus ending the contest. The men gained absolutely nothing as the result of their prolonged abstention from work.

New or enlarged dividends by railroad and industrial corporations were likewise encouraging features. The Baltimore & Ohio increased the semi-annual dividend on its common stock from 2 per cent to 2½ per cent. The Union Pacific RR. also enlarged the semi-annual distribution on its common shares from 2 per cent to 2½ per cent. The Illinois Central RR. Co., which the previous March had paid ½ per cent extra (in addition to the regular semi-annual dividend of 3 per cent) in commemoration of the fact that said dividend constituted the one hundredth semi-annual cash payment by the company, announced that the ½ per cent extra would be repeated in September. The Erie Railroad declared the first dividend on its second preferred stock, the amount being the full 4 per cent per annum to which this stock is entitled. Among the smaller companies, the Huntingdon & Broad Top Mountain RR. & Coal Co. paid 3 per cent on its preferred stock, against 2½ the previous January. The Vandalia Railroad, a newly consolidated company controlled by the Pennsylvania Railroad,

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (\*).

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

\* Flat price. † Now part of New York City

BANKS AND TRUST COMPANIES.

Quotations for the stocks of banks and trust companies are given per share, not per cent, with the exception of New York City, Brooklyn and Canadian bank stocks.

Prices marked thus (\*) indicate sales. The dagger (†) prefixed to a price indicates that the figures show the book value. Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.
