THE FINANCIAL SITUATION.

The week has been notable for the extreme pessimism which has prevailed with reference to the prospect of peace growing out of the deliberations of the present Russian and Japanese Congress; the expectation of a settlement has appeared more doubtful in general estimation than at any previous moment. As the week ends, however, and Japan's proposals have been delivered, the idea of breaking up within a few days and going home with nothing accomplished is less popular. Indeed, it is quite possible now that the discussion will be prolonged, and if the war situation should for any reason look more desperate to the Russians, and the revolutionary spirit in Russia become more uncontrollable-both of which may happen at any time-better progress towards a settlement may be quickly attained.

If asked why has the feeling of pessimism been so general, we should answer that the two belligerents are wrongly placed and do not appear here in their correct characters. That seems to be the result of the circumstance that neither party is suing for peace. A desire to settle differences has not brought the antagonists together. It was the opinion of the nations of the world that the war had been continued long enough; that and the initiative of the United States have led up to and induced the conference. Russia has not the remotest idea that she has been whipped-her thought is that Japan is nearing that situation. Exhaustion, she urges, is her test of the struggle, and Japan is strenuous for peace because she is nearing that state. Russia's reliance and boast is that she has millious upon millions of undeveloped resources which she has not touched yet, and that her people are ready to sacrifice all if the need arises. Her claim of these boundless resources reminds one of the Southern colored man our readers have all probably heard about who was upbraided for not finishing his job. The reply was, there's plenty of time for that, massa. Why, it is only noon now, the day is only half gone, and there is to-morrow "that is not even tetched yet." One can readily see that the offer in each of these cases is equally unsubstantial and visionary, the promisor back of the offer being in both cases without credit, while the securities proposed lack the exchangeable and mobile qualities—incidents inseparably appertaining to the money market.

We have said above that the pessimism prevailing at of individuals, and these can be interpreted not by simple addition, subtraction and averages, but by a the opening of the Russo-Japanese Congress and the belief in a speedy end of the deliberations is much less controlling mind—an individual of good judgment, thoroughly familiar with the kind of information he is handgeneral since the substance of Japan's offer of settlement has become known. The truth is, those proposals deling. Very likely the kind of work we refer to has not livered to the Russian envoys on Thursday are a marvel. Coming, as they do, from a belligerent who has never lost been the system supposed by some to be in use in the a battle on land or sea, and made to its antagonist, who Department. Many people not in the trade very likely has in the struggle become incapacited for further warhave assumed that letters of inquiry were sent out to a fare by its losses in men, material, and credit, they seem vast number of correspondents, and that the report made like an actual harbinger of peace. Japan has thus proved herself not only first in war and first in clearing the way to an honorable arrangement, but that its diplomacy is that of a master. One very important point she has gained is that she has deprived Russia's representatives of the We have in mind the statement which claimed that letopportunity to fire that nation by pronouncing the conditions harsh and by going home in a week, declaring peace on such proposals impossible. That seemed to be the intention, but it has been thwarted. and issued for the public use. If that is the present pro-

Government crop reporting, so far as it relates to cotton, is in a transition state. The old channels for imparting information to the public from month to month respecting that staple have been in a considerable measure put aside and substitutes adopted which do not meet the conditions of the problem and give results incapable of intelligent comparison with former years. The change is a laudable attempt to eliminate evils that established themselves, and before discovered had got a lusty growth inside the department. In the excitement over this discovery and when the wrongdoing by employees was believed to be more widely extended and of a worse type than has as yet been proved, the new arrangement was establised. No doubt making merchandise of the figures about to be given to the public and furnishing previous knowledge of them for a consideration to dealers and speculators is thoroughly vicious and calls for treatment radical enough to put an absolute end to the practice. That has been accomplished, and if it covered the whole situation no criticism would be required. In making the new arrangements, however, the old forms have been so completely exterminated as to put the new results out of relation to the figures of past years. This is a great loss and was done because the iconoclasts had in mind the existence of another practice--even worse than the one described-which they wished to reach; we mean the preparation and issue of false cotton crop reports with the intention of deceiving the public. That, we are pursuaded, never was done; there is no real proof of it and no temptation for such work could exist. The Government figures are merchantable because they possessed the known quality of being correct; and to intentionally make them false would make them unmarketable and valueless.

We would not lay stress upon this point were it not that the individual judgment-the personal element which is essential to correct cotton-crop reporting-had been put out of existence by the Department's new arrangements. Moreover, it seems probable that the new system was designed for and intended to remove the feature of personality in crop reporting, it being assumed that it would lead, or had led, to the production and issuance of untrue reports. The truth is, cotton-crop reporting never was and never can be demonstrable like a problem in Euclid. Put it into that shape and it has no value. It must be a live thing. It is based only on opinions

to the public was an exact aggregate or average of the contents. There have been statements recently issued by the Government which seem to warrant that interpretation as the new system now in use. ters for information were sent out to seven classes of citizens in the South and the responses from these seven sources were separately aggregated, which aggregates were again brought together and a final result obtained

cess, why should not the seven separate aggregates be given to the trade ? Buyers and sellers of cotton are as fully capable as the Department is of adding or averaging them as the need may be; the report, too, would seem in that way to become far more luminous. We do not suppose that any significance attaches to the fact that the mysterious number seven was made the divisor of the population of the Southern States. We presume it was accidental. It imparts a cabalistic air to the arrangement which the curious might find a certain interest in following up.

The boycott in China on American goods has come as a great surprise at all industrial centres of the world. Kicking back in that quarter was the last thing any white man had anticipated. We and the other nations of the world had become by long habit accustomed to say to China do this and do that and they have done it; to establish at our own sweet will within her borders spheres of influence, and even to occupy and take possession of the best of her domain, until these depredations under a longcontinued custom, submitted to by China, grew into a kind of right inherent in the leading nations of the world. Suddenly and without any warning China has startled Western rulers and people by declaring in that most emphatic way, by a boycott, that she is no longer to be trodden upon; that she will treat other nations no better than they treat her.

This modus vivendi, new for China, has assumed shape in her relations with the United States by taking issue with the barbarous methods that have been used in enforcing the Exclusion Act. She virtually says that if the United States wants her trade it must no longer treat her people visiting our country in the manner it has been doing. Wu Ting Fang, formerly the Minister of Ohina at Washington, in an interview at Pekin published in the "Sun" of August 10, states that the movement against Americans was thoroughly organized, and participated in by the best and most representative Chinese. He adds that the extent of the movement and the depth of feeling manifested not only included mercantile classes but others, and even women, on all of whom the existing regulations pressed with severity. Merchants, travelers for pleasure and others, who, while nominally admittable under the Act, are forced to undergo examinations, have been detained by the anthorities while credentials are being examined, compelled to consort with a low class of coolies in a common shed, unable to communicate with friends, without being even allowed to secure the services of any one to protect their interests which were being invadedin a word, subject to indignities which no American would submit to. We hope the boycott will be successful not only in correcting the method of executing the Exclusion Act but also in correcting many features of the Act.

be inclined to take exception to what he said, either from an ethical or an economic standpoint. He laid great stress upon the advantage and merit of self help—a favorite theme of his, and good doctrine, too. In the last analysis, he argued, the factor most influential in determining any man's success must ever be the sum of that man's own qualities-his knowledge, foresight, thrift and courage. The wage-earners belong in the same category as other classes of the population in that respect, and everything possible should be done to encourage a spirit of self respect, self restraint and self reliance. The individual "must stand up manfully for his own rights; he must respect the rights of others; he must obey the laws and he must try to live up to those rules of righteousness which are above and behind all laws." The only remark that can be construed as having even a remote reference to the miners' organization and its work was his declaration to the following effect: "I strongly believe in trade unions wisely and justly handled, in which the rightful purpose to benefit those connected with them is not accompanied by a desire to do injustice or wrong to others. I believe it the duty of capitalist and wage-worker to try to seek one another out, to understand each the other's point of view; and to endeavor to show broad and kindly human sympathy, one with the other." It will be observed that there is nothing militant in all this. In fact it is the kind of advice that might come from a mildmannered dominie any Sunday morning. It would not be at all strange if strike talk should be at a discount hereafter. At any rate, the public mind is now greatly relieved. with wither with a second at a state of a state shaft a

There is occasion for felicitation over the bright prospects of abundant harvests the present season. The new Crop Estimating Board of the Bureau of Statistics of the Department of Agriculture, which now makes up the monthly report of condition, issued its August report at noon Thursday, bringing the results down to the first of the current month. The figures foreshadow very large yields of those three leading cereals-corn, oats and wheat, provided that no untoward developments occur between now and harvest time. Of course there is still time for considerable damage to corn, but as regards wheat and oats large yields would seem to be practically assured. Even as concerns corn, the period of most serious damage (judging by past experience) would seem to be past, except that an early killing frost is always among the possibilities. The Bureau report confirms the advices of private parties in showing that the condition of corn improved during July, the average August 1 being stated 89, against 87.3 July 1, which latter was also the average August 1 1904. On August 1 1903 the average was only 78.7, and yet that season the United States harvested a corn crop of 2,244 million bushels. On the basis of the higher average of condition the present year, it is estimated that the 1905 yield will be between 2,600 and 2,700 million bushels. Last year's corn crop, it may be recalled, was reported as 2,467 million bushels. Whether or not the extreme figure given shall be realized, present indications are that the 1905 corn yield will be one of the very largest on record if there are no adverse developinents.

On the whole President Roosevelt gave sound, temperate and sensible advice to the anthracite coal miners the in his speech at Wilkesbarre on Thursday. The matter main is of some importance because apprehensions had existed can lest some unguarded utterance of his might be used by or the Miners' Union as the pretext for the inauguration of another strike like that which proved so disturbing in 1902. The From the newspaper accounts of the speech, it would appear that the President took particular pains not to give ground for anything of that kind. His remarks were the all general in their nature, and we doubt if any one will be

ground for anything of that kind. His remarks were all general in their nature, and we doubt if any one will being given as 90.8, against 86.6 August 1 1904, 79.5

August 1 1903 and a ten-year average of 83.7. Last year's oats crop approximated close to 900 million bushels. The present season, it would appear, the yield will be well above that figure. The winter-wheat yield is estimated by the Department itself at 424,400,000 bushels, which compares with an actual harvest (according to the Agricultural Bureau) of 332,935,346 bushels. This shows an increase of over 91,000,000 bushels. But the spring-wheat crop also promises to be much larger. The Bureau gives the lie to the reports of damage from rust, so industriously circulated during July, when it indicates only a slight impairment of condition in spring wheat during the month, giving the average August 1 89.2 against 91.0 July 1. Last year the average August 1 was 87.5, but subsequently prospects were seriously blighted and September 1 1904 saw the average down to the extraordinarily low figure of 66.2. Thus far in August nothing has occurred to suggest the likelihood of any serious impairment the present season. The agricultural prospect is favorable, too, in nearly all other respects—for instance, the condition of pasture August 1 being 96.1. We need say nothing as regards cotton, as the Bureau makes no report on that crop at this time.

Substantial reduction occurred in July, as in June, in the output of iron, and this circumstance no doubt lies at the basis of the renewed activity in the iron and steel markets which is now again noted. The "Iron Age" computes the make of pig iron for July at 1,741,935 tons, as against 1,793,289 tons in June and comparing with 1,963,717 tons in May, 1,922,041 tons in April and 1,936,264 tons in March. What looks like an unfavorable feature on the surface is that stocks of the so-called merchant furnaces have again increased, notwithstanding the reduced output. But comparisons of this kind may be easily misleading on occasions like the present. The addition to stocks was smaller than in the month immediately preceding. Allowing for that fact, the apparent consumption of the iron made by the merchant furnaces was really larger in July than in June, the comparison standing 601,618 tons against 569,140 tons. Moreover, we see the "Iron Trade Reof Cleveland notes that while there has view" been an increase in the stocks held by the merchant furnaces, reports indicate that large sales have been made for future delivery and both the "Iron Age" and the "Iron Trade Review" regard it as a factor of considerable importance that the United States Steel Corporation has announced it may re-enter the market as a purchaser of pig iron for September delivery. The "Age" says it is understood that with its furnaces running at the present rate, the Steel Corporation is drawing upon its stocks at the rate of about 20,000 tons per week, and that if this continues, the level of what is

union at Hartford that it compel a sub-contractor to discharge his non-union men. While this strike may delay building operations in certain directions for a time, it is not expected that it will otherwise have any serious consequences. The defeat of the strikers is accepted as a foregone conclusion.

New dividend and interest distributions are still the feature in railroad affairs, and we have an indication the present week of the prosperity which Southern roads are enjoying, in the action of the Central of Georgia Ry. with reference to dividend distributions on its different issues of income bonds. There are three classes of these incomes, the first preference incomes for amount of \$4,000,000, second the preference incomes for \$7,000,000 and the third preference incomes for \$4,000,000, making, therefore, \$15,000,000 altogether. The first preference incomes have had dividends of larger or smaller amount for many years, but it was not until October 1904 that the first payment was made on the second preference incomes, and this amounted to only 2 per cent. The third incomes have never had any return. Now the company has declared the full 5 per cent on the whole three classes of incomes, calling for \$750,000. Earnings of course fully justify the step. In fact the income of the company has increased in a very noteworthy way the last three years. Thus gross earnings for the twelve months ending June 30 1905 were \$10,135,-055 against only \$7,750,691 three years before, in 1901-02, while the net income in the latest year was \$2,965,453 against \$2,151,855 in 1901-02. After allowing for the fixed charges, a surplus for dividends remained on the operations of 1904-05 of \$854,517. The dividend call for the three classes of incomes, as already stated, is \$750,000, leaving, therefore, a balance over and above the requirement for the purpose of \$104,517.

There was no change in official rates of discount by any of the European banks this week, and, compared with last week, unofficial or open market rates were firmer at London, easier at Paris and steady at Berlin and Frankfort.

The notable features of the statement of the New York Associated Banks last week were the large loss of \$3,797,-100, instead of the expected gain, in cash; an expansion in loans to the maximum on record, and a decrease in the surplus reserve of \$3,142,450, to \$12,163,525. The statement of this week should reflect, among other items, the transfer hither from San Francisco of \$210,000 and hence to New Orleans of \$350,000.

There were this week indications in the payment by New York banks to the Sub-Treasury of considerable sums for account of their correspondents that the indirect movement of money for crop purposes had begun. In order to considered safe as to its stock of iron will be passed. The avoid the expense of the transportation of currency from New York, early in the crop-moving season, banks who whole matter, therefore, resolves itself into the question of the probable continuance of the demand for the finished are depositories of Government funds instead of remitforms of iron and steel, which constitute the chief ting to the New York Sub-Treasury their receipts from collections of internal revenue, in excess of the amount products of the steel companies. Here there are no for which the banks are bonded, retain such excess and signs of any let-up. An unfavorable development, of satisfy the Government's requirements by directing their course, is the strike which has just been ordered by the International Association of Bridge and Structural Iron correspondents in this city to pay over, out of their balances on deposit therewith, the sums representing the. Workers against the American Bridge Company, and which, it is estimated, will involve about 10,000 workingexcess receipts. The cash is thus made available to meet requisitions from the interior banks' correspondmen. The strike had its origin in a refusal of the American Bridge Company to obey the demand of a local ents in the agricultural sections, and its indirect transfer

hence, in the manner above indicated, constitutes part of the season's movements of currency.

Money on call, representing bankers' balances, loaned at the Stock Exchange during the week at 2 per cent and at 12 per cent, averaging a fraction more than 13 per cent. Banks loaned at 13 per cent as the minimum, but no business was reported by trust companies. On Monday loans were at 2 per cent and at 13 per cent, with the bulk of the business at 2 per cent. On Tuesday transactions were at 2 per cent and at $1\frac{1}{2}$ per cent, with the majority at 13 per cent. On Wednesday loans were at 2 per cent and at 13 per cent, with the bulk of the business at 2 per cent. On Thursday transactions were at 2 per cent and at $1\frac{1}{2}$ per cent, with the majority at 13 per cent. On Friday loans were at 2 per cent and at 13 per cent, with the bulk of the business at 2 per cent. Time contracts on good mixed Stock Exchange collateral were quite freely offered for all periods until Thursday, when a firmer tone developed as the result of a better inquiry from speculative interests, and the feature was a rise in the rate for over-the-year loans to 4 per cent, against 33 per cent early in the week. Quotations at the close were 3 per cent for sixty days, 31 per cent for ninety days, 31 per cent for four and 4 per cent for five to six months. Commercial paper is in good supply, with a moderate demand, and rates are $4@4\frac{1}{4}$ per cent for sixty to ninety-day endorsed bills receivable, 41a41 per cent for prime and 41a5 per cent for good four to six months' single names.

The Bank of England rate of discount remains unchanged at 23 per cent. The cable reports discounts of sixty to ninety-day bank bills in London at $2@2\frac{1}{8}$ per cent. The open market rate at Paris is 14 per cent, and at Berlin and Frankfort it is $2\frac{1}{5}a2\frac{1}{4}$ per cent. According to our special cable from London, the Bank of England lost £586,826 bullion during the week and held £36-297.329 at the close of the week. Our correspondent further advises us that the loss was due to imports of $\pounds 160,000$ (of which $\pounds 100,000$ from Egypt and $\pounds 60,000$ from Malta), to exports of £150,000 (wholly to South America) and to shipments of £597,000 net to the interior of Great Britain.

The foreign exchange market was dull and heavy early in the week, growing more active and stronger on Thursday, influenced by a better demand. The closing on Monday of the London market will account for the inactivity on that day, and the business was chiefly confined to commercial bills against cotton, of which there was the usual good supply early in the week. These, however, were promptly absorbed, and, in the absence of a demand for reinittance, rates for all classes of exchange fell off on the following day, and the tone was heavy on Wednesday, influenced by offerings of security drafts and also by a renewal of operations in finance bills encouraged by a firmer rate for over-the-year money. On Thursday the market recovered and then there was a noticeable demand for short which was partly attributed to requirements for the remittance of the proceeds of the Japanese loan that was negotiated in April, some of the bills which were bought having been traced to bankers acting for Japan. It was stated in the CHRONICLE of June 10 that the balance of this loan which was turned over by the syndicate after its negotiation had been temporarily placed in our market on call with banks and trust companies. The decline in the rates for call loans has now made the reten- the principal European banks.

tion of this money here less desirable and it is asserted that it is being transferred through exchange drafts to London. where it can be employed to better advantage. Bankers who have observed the movement do not regard it as important, for the demand for exchange for this purpose seems to be intermittent, indicating that it is dependent chiefly upon market conditions, purchases being generally made when rates are low and the inquiry relaxing when rates recover. There was some demand this week for sight drafts incident to the extension of maturing finance bills, and it is expected that such operations will become important towards the close of the month. Gold received at the Custom House during the week \$19,107.

Nominal quotations for sterling exchange are 4 851 for sixty day and 4 871 for sight. Rates for actual business on Monday were unchanged, compared with those on Friday of last week, at 4 8480@4 8490 for long, 4 8655@4 8660 for short and 4 8680@4 8690 for cables. On Tuesday the tone was heavy at a decline of 10 points for long, to 4 8470@4 8480, of 5 points for short, to 4 S650@4 S660, and of 10 points for cables to 4 S675@4 8680. On Wednesday, while long was unchanged short was 10 points lower at 4.8640@4.8655 and cables were off 5 points, to 4 8670@4 8680. On Thursday there was a recovery, long advancing 5 points, to 4 8475@4 8485, short 15 points, to 4 8655@4 8660, and cables 10 points to 4 8685@4 8690. The market was firm on Friday at an advance of 10 points for short and for cables.

The following shows daily posted rates for sterling exchange by some of the leading drawers.

THE INOREASE IN NATIONAL BANK CIRCULATION.

No feature of modern financial history in the United States is more noteworthy than the way in which the outstanding circulating notes of the national banks has been added to in the last few years. The fact that the increase has been going on month by month and year by year is of course a familiar one. We imagine, though, that to most persons it has come as a surprise to find that in face of the large previous additions the upward movement is still continuing in progress at the same rate as before—in fact, at a somewhat larger rate. In the month just passed—July—the further increase, for illustration, was almost nine million dollars, raising the total of outstanding notes to over 500 million dollars-\$503,971,395. This covers both the notes secured by bonds and those secured by legal tenders; but as the latter really represent notes in process of retirement (for the taking up of which the legal tenders have been deposited), the latter must be deducted in order to get at the total of circulation voluntarily being maintained. On July 31 the amount of legal tenders held by the Government for the redemption of notes in process of retirement was \$32,-355,624, leaving, therefore, \$471,615,771 of live circulation. On this last basis comparisons with previous years furnish a true guide to the course of the movement.

Going back to the first of January the present year, we find that the aggregate of notes secured by bonds at that time was only \$431,841,785, making it apparent, therefore, that in the seven months since then the addition has been almost 40 million dollars. Extending the comparison still further back, the contrast becomes yet more striking. Taking, as a starting point, March 14 1900----the date when the new gold-standard bill became a law-it is discovered that at that date the aggregate of outstanding bonds was no more than \$216,374,795, as against the present total of \$471,615,771. In other words, in this period of less than five and a half years the volume of the outstanding circulation based on bonds has more than doubled, the addition reaching over 255 million dollars.

Secretary Shaw is quite generally considered as entitled to chief credit for this great expansion in bank circirculation. culation, and he has certainly sought in every conceiv. able way to stimulate the taking out of new notes. In reality, however, the contributing causes have been many. At the outset it should be observed that the Act of March 14 1900 just mentioned furnished itself the basis and the inducement for the subsequent expan-That Act made some very material changes in Asior the mus with regard to the organization of national banking institutions and the requirements concerning circulation. In the first place, one of the amendments sought to encourage the formation of small banks, authority being given for the incorporation under certain used as security for additional circulation, &c. conditions of national banks with minimum capital as

low as \$25,000. In the second place, the Act provided for the refunding of a good part of the public debt of the United States by the issue of the new two per cent consols. This change was favorable to the growth of circulation, since it furnished new bonds as the basis for the notes carrying a relatively low premium in place of the old issues of bonds, many of which had commanded a very high premium—that is, less of the investment now has to be tied up in premiums. In the third place the new law allows the banks to issue notes up to the par value of the bonds deposited, whereas before the limit was only 90 per cent. Finally-and this was the most important change of all—the 1900 enactment provides that on deposits of the new twos the tax on circulation shall be only one-half of one per cent per annum, as against the one per cent previously imposed.

It will be seen that we have here some broad and farreaching alterations in the conditions affecting the banks and the desirability and profitableness of the operation of taking out notes. As national associations are obliged to deposit Government bonds as a preliminary to organization, the increase in the number of such associations made an expansion in circulation inevitable in any event and the added inducements offered under the new law for taking out notes furnished a still further stimulus in the same direction. One hardly appreciates the extent to which new banks have been organized except when confronted by the actual facts upon an examination of the figures. On March 14 1900 the aggregate number of national banks in the United States was only 3,617. To-day the number is 5,772, showing an addition of over two thousand -2,155. At the earlier date the authorized capital was \$616,308,095. Now it is \$807,622,875.

To all this has been added the influence of the action of the Secretary of the Treasury. It will be remembered that in 1902, when stringency developed in the money market and the Government was at a loss how to reduce its accumulating cash, Mr. Shaw so construed the statutes as to find permission to accept other classes of bonds besides those of the United States as security for Government deposits in the banks. The purpose of course was to enlarge the volume of these Government deposits in the banks, thereby returning to the channels of trade some of the moneys which the Government was withdrawing from them by reason of the large excess of its receipts over its current disbursements. The other classes of bonds referred to, however, were only accepted on one express and distinct condition. The Secretary announced that he would allow the substitution of bonds other than U.S. bouds for part of the two per cents held as security for Government deposits, provided that the U.S. bonds thus released should be made the basis of new bank-note

The policy then inaugurated has been undeviatingly pursued ever since, and Mr. Shaw has lost and is losing no opportunity to get the banks to add to the total of their outstanding notes. For instance, in the official announcement inviting bids on August 25 for \$1,500,000 4 per cent coupon gold temporary certificates of indebtedness of the Philippine Islands, there is repeated the declaration contained in previous offerings of Philippine bonds-namely that the new obligations will be accepted at par by the Treasury Department in substitution for United States bonds now held as security for deposits on condition that the Government bonds thus released be

There has been still another circumstance operating to promote the increase in bank circulation and which latterly has been an extremely potent element in the same. We refer to the diminution of Government deposits in the national banks. This diminution is the result of the changed aspect of Treasury finances. The Government is no longer contending with accumulating revenues. On the contrary, the problem which it now faces is how to provide for recurring deficits. That is to say, the demands upon its cash resources have for some time been running in excess of the new supplies of cash coming into the public exchequer, making it hence necessary for the Treasury to draw upon its deposits in the banks. With the drawing down of these deposits a large amount of Government bonds previously held as security for the same has been released, and the banks finding them no longer available for obtaining Government deposits have used them as the basis for the issue of new notes. The importance of this circumstance will be understood when we say that on August 1 1905 the aggregate of Government deposits held by the national banks was only \$65,-715,119, against \$168,047,061 so held on December 1 1903, a decrease, it will be observed, of over 102 million dollars.

Naturally, the question which comes up is whether, in view of the tremendous expansion in circulation that has already taken place, the Secretary will be justified in continued resort to extraneous methods, so as to add still further to the volume of notes. Some erroneous ideas prevail as to the effect of the drawing down of Government deposits. A notion prevails quite widely that a call upon the depositary banks for a portion of their Government funds means the permanent transfer of a corresponding amount of money from the banks to the Treasury, diminishing to that extent the moneys in the channels of commerce; and that hence an increase in bank notes is necessary to offset the loss incurred by commerce through the operation. If Government receipts were running in excess of Government disbursements, as was the case a few years ago, that might be the effect. With Government revenues, however, falling below the expenditures, the money withdrawn quickly comes back to the banks again. As a matter of fact, while Government deposits between December 1 1903 and August 1 1905 were reduced, as already stated, from \$168,047,061 to \$65,-715,119, the aggregate of cash held by the Treasury in its own vaults was increased only about 6 million dollars, Goverument money holdings being now \$151,034,309, against \$144,793,558 on December 1 1903.

In the same interval the addition to national bank followed strike, and thousands were voluntarily idle. Incirculation has been \$88,597,287. Moreover, through stead of putting money in bank they were drawing new gold production, and in other ways, there have been money out. It also refers to the large number of trades further additions to the volume of money afloat, so that, unions which have been dissolved because of their nonaccording to the Treasury compilations, the aggregate of success, and points out that savings bank deposits apmoney in circulation August 1 1905 was \$2,604,902,301, parently thrive when unions languish. as against only \$2,449,168,418 on December 1 1903. There is force and logic in what our contemporary says, Taking the figure at March 1 1900 (which was just and hardly too much emphasis can be laid upon this before the enactment of the law of March 14 1900) we aspect of the matter. There can be no doubt that the find that the aggregate of money in circulation then absence of strikes the present year on the scale in which was no more than \$2,002,931,791. Thus, in less than they have existed in previous years, with the decline in five and a half years the addition has been over union membership, has been a feature distinctly favor-600 million dollars. Obviously, these are stupendous able to the growth of savings deposits. Nor can it be figures. Is there anything in them to suggest the denied that labor conflicts are always detrimental and need of continuing artificial measures to still further involve large losses to the wage earning classes. swell the amount? There are indications of congestion It is nevertheless true that there have been other conin various directions, and it should be remembered that tributing causes to the growth in deposits besides the redundancy in the circulating medium is not an unmixed | diminishing prominence of strikes. Not the least of

blessing. It tends to promote speculation, both on the Stock Exchange and in commodities, and it makes the country peculiarly liable (as events have demonstrated) to a drain on its stock of gold by Enrope whenever the latter finds it necessary to replenish its supplies of the metal. Moreover, it is as true now as when the doctrine was first announced that the poorer currency tends to expel the better, even though for one reason or another the operation of the law may for long periods of time be held in abeyance.

GROWTH OF SAVINGS BANK DEPOSITS IN NEW YORK STATE.

It is a gratifying fact that the deposits of the savings institutions of this State keep steadily growing, the totals rising to larger and still larger proportions. The official returns for July 1 have just come to hand and they establish new high records in all directions. The aggregate of deposits is now in excess of $1\frac{1}{4}$ thousand million dollars (\$1,252,928,300), while total resources reach \$1,367,692,595.

Of course, no one any longer seriously contends that the deposits of the savings banks represent exclusively or even principally the savings of the poor. The facilities of these institutions are extensively used by the more prosperous classes, many of these carrying accounts in several banks, owing to the requirement which limits deposits in any one bank to the sum of \$3,000. But whatever their source or ownership, these deposits unquestionably constitute accumulations of wealth, and in this sense their continued expansion is a feature of the highest encouragement.

The fact which attracts particular attention in connection with the latest returns is the magnitude of the increase recorded for the last twelve months. The addition to the deposits during that period has been no less than \$86,836,856. In no previous twelve months has the gain reached anywhere near so large an amount. For the year ending July 1 1904, for instance, the increase was only \$53,672,892, and for the preceding two years ending on the same date the additions were, respectively, \$60,729,366 and \$64,067,378. Many theories have been advanced to explain the exceptional amount of gain in 1904-5. The "New York Times" sees a connection between it and the decline in trades union membership and the diminution in strikes. It says that savings in preceding years were smaller because the opportunities were not availed of. Strike

these favoring agencies has been the change in business Activity and prosperity are and industrial conditions. now the dominant characteristics, where in the preceding twelve months all our industries were in a state of inactivity, and the country was passing through a period of trade reaction. Look back two years and see what the situation was on July 1 1903. A great shrinkage in values was taking place on the Stock Exchange and the railroads found it almost impossible to negotiate new loans. As a result of these circumstances and the strikes in the buildings trades, the iron and steel industry a few months subsequently suffered an almost complete collapse. Other branches of business also experienced a set-back, though not to the same extent. In the last half of the calendar year 1904, however, a turn for the better occurred. Revival developed in the iron industry and also in other branches of business-at first slowly but soon with accelerating pace, and when 1905 came business was in full swing again in every direction and the old spirit of activity and buoyancy was once more in the ascendant, and has held sway since then.

With business increasing in every direction and strikes diminishing, the wage-earning classes, as also the well-to-do, found it possible to lay by some more money and add to their accumulations. The effect is seen in the very notable increase in the deposits of the savings banks already referred to. The contrast in the particular mentioned between the twelve months just passed and the twelve months preceding is really very much more marked than appears from the face of the returns. The mere fact that the late year's increase exceeds that of all previous years would not in itself signifiy much. It must not be forgotten that there is a natural increment from year to year representing the dividends received by the depositors on their deposits, and that with the aggregate of the deposits steadily and largely advancing, this increment concurrently increases. The importance of that fact is apt to be overlooked. While the deposits now are \$1,252,928,300, eight years ago on July 1 1897 they were only \$741,474,845. The yearly increment has advanced in an almost equal ratio. We have prepared the following table to emphasize that feature. It shows, it will be seen, that while in 1896-97 the interest credited for the twelve months was only \$25,881,032, for 1904-05 the corresponding credit was no less than \$41,748,445.

adequate employment, the fact is sure to be made manifest through such a method. With this purpose in mind we add another table, constructed to show (1) the aggregate increase in deposits for each of the last twelve years; (2) the interest credited and paid during each of the years, and (3) the net increase over and above the interest credited. In this way the influence of the varying conditions from year to year—of prosperity or adver sity—can be traced with almost absolute accuracy. The result is really very striking, as will appear from the annexed statement.

Let the reader ponder well the significance of the foregoing computations. In the twelve months ending July 1 1904, when the Stock Exchange was in the dumps, when business was depressed, the addition to the deposits of the New York State savings institutions over and above the amount of interest credited was only \$15,596,-724. On the other hand, in the twelve months ending July 1 1905, with business once more active and Stock Exchange values again on the up grade, the increase in deposits over and above the interest credited was nearly three times as great, reaching \$45,088,411.

1896	45,816,883	24,958,727	20,858,156
1895	38,321,867	23,394,269	14,927,598
1894	_Loss_11,987,228	22,386,365	Loss 34,373,593

Labor agitators and politicians often affect indifference to the state of affairs on the Stock Exchange, claiming that transactions in that mart are of no consequence to the business and laboring world. In the figures just given we see how close the connection really is, for there can be no doubt that the reaction in trade in 1903-04 followed directly as the consequence of the great shrinkage in values on the Stock Exchange, with the accompanying loss of confidence in the stability of things on the part of financial and mercantile classes, while on the other hand the restoration of confidence in 1904-05 had its origin in the recovery in values on the Stock Exchange with the inauguration of a new era of activity and prosperity.

The table given also depicts in an interesting way the characteristics of previous years, and shows that the presence of trade depression is almost immediately reflected in the savings bank figures. Take the earliest year in the foregoing table, namely 1893-94. That was the period of panic, following prolonged debasement of our currency through silver additions. In the year referred to there was no increase at all in the deposits, but actually a decline of \$11,987,228, notwithstanding the crediting of \$22,386,365 of interest during the twelve months.

It is thus obvious that if we would trace the influence of prosperity and adversity, of strife and of concord, in the laboring and the business world, we must make allowance for this expansion in the yearly increment. In other words, it seems desirable to deduct from the aggregate increase in deposits each year the amount of said yearly increment. Of course some depositors regularly draw out each six months the interest which their account has earned, this constituting their means of livelihood and support, but if the draft in that way has been larger in any given period, by reason of strikes or in-

THE ORGANIZATION OF OCEAN COMMERCE.a

J. Russell Smith, Ph. D., Instructor in Commerce at the University of Pennsylvania, has recently published a treatise on the organization of ocean commerce which condenses into the brief space of 147 pages ' practically the whole theory of sea trade. In England, where merchant commerce has played so vital a part in the his-

tory of the country, the subject is better understood than It is here, although the literature on it is scarce. Such excellent books as Lindsay's "History of Merchant Shipping" treat rather of the physical growth of the lines than of the theory on which they are worked, while the charter traffic, which moves a vast tonnage of raw materials, is scarcely treated of at all from a theoretic standpoint.

Dr. Smith does not make the mistake of dividing up his discussion of ocean commerce country by country, but he keeps the entire world and all its oceans constantly before the mind of the reader, and shows logically the causes that lead the owner of a chartered vessel, or tramp ship as it is more commonly called, to accept a cargo from India or Java to New York at a relatively lower rate than he will to London, and the effect of a bad harvest on charter rates from New York. If every port in the world had a large trade, made up of a wide variety of articles, shipped in fairly even quantities throughout the year, there would probably be no vessels operated singly; but such an even and dependable commerce only exists, so far as it exists at all, in the great commercial ports like New York, Liverpool, London and Hamburg, where the percentage of traffic in the line vessels is increasing and that in independent vessels is decreasing.

In a vast majority of the many hundreds of ports upon the world ocean the bulk of the commerce is limited to a very small variety of articles-often to a single article; while that, again, may be shipped only during a part of the year. It is most likely to be a raw product, cheap and heavy, which must be carried at an extremely low rate in order to move at all; and this class of work cannot be done by the carefully erganized line of vessels, but falls to the charter ship that is for hire and works as a unit wherever there is work to be done. Such vessels carry a large share of the world's trade, and are utilized for any freight that may go in ship-load lots. This is true of a long list of commodities, of which grain is the most important; then come minerals, ores, coal, nitrate of soda, lumber, raw sugar, etc.

The economies of the charter steamer fall under three classes—construction, navigation and management. The steamer is built on a sort of general average model, designed to hold much cargo and burn little coal rather than to make high speed. The modern charter steamer in her model bears a strong resemblance to the cubical form of a section of a squared log, instead of having the fine bows and curved ribs of the fast line steamer.

For freight carrying, there is a point of equilibrium in and New York Bay as the origin of the American speed above which additional speed costs more in outlay routes. As North America is also the greatest exporter than it adds in income and below which a lessened speed of food and raw materials to Europe, the most important costs more in loss of earning power than it saves in of the ocean trunk routes connects Eastern North. operating expenses. At present the usual speed for America with Northwestern Europe. tramp steamers is about nine knots an hour, and a Next to the North Atlantic in importance is the Medcharacteristic ship cited by the author carries as cargo iterranean-Asiatic trunk route, passing from the Straits some 5,500 tons of freight on a coal consumption of 22of Gibraltar around the Continent of Asia to Japan. tons a day. Compared with this economy the Kaiser This route-the great thoroughfare between the East Wilhelm II. burns 750 tons a day in carrying 20,000 and the West-has many feeders; from Africa to the tons of freight and 1,888 passengers. The coal con-East Indies and Australasia, Spain, Italy, Greece, the sumed by the Kaiser Wilhelm II. in one day would Black Sea, etc. At Colombo vessels for Calcutta, Madrun the tramp ship, with more than one-fourth as much ras and Burma turn northward into the Bay of Bengal freight and one-twentieth the crew, for 34 days, and and the Australian mail steamers turn southward across carry her from New York to Liverpool and back to New the Indian Ocean. The South American trunk route Orleans. The tramp boat carries no passengers, sweeps around the two longer sides of that Continent although she could do so without greatly reducing her from Cape St. Roque to Panama, and on up the coast of freight capacity if there were any demand for so slow America to British Columbia. Like the other trunk and irregular a mode of conveyance. routes, it is fed from two sources. Atlantic America

It is a complicated world puzzle to bring together the ships and the freight so that the one may be most profitably employed and the other most economically carried. The work is done by a complex structure of shipbrokers and steamship agents so bound together by telegraph and cable that, like a spider's web, if touched by anything of importance at any point the whole structure vibrates with the news. The successive moves of each ship the author compares to the game of chess, because of the watchful planning for the future. The shipowner is glad to arrange a voyage that will release the ship in a good location to secure freight, but he is loath to send her to regions that are devoid of freight, and rates are made accordingly. Thus the possibilities of two, or even three, voyages enter into the decision of the rates for one. Lacking cargo, the vessel must take ballast to steady her, but rather than do so the tramp ship can afford to carry bulky cargo very cheaply; so it happens that coal, and sometimes ores, are carried practically as ballast substitutes at, or even less than, the actual cost of running the ship. Under these conditions, the product of the Welsh mines has been carried from Cardiff to San Francisco for eight shillings a ton, while the return cargo of wheat paid fifty shillings and gave the shipowner his profit.

Dr. Smith shows that the distribution of coal by ocean carriage may in most cases be considered a by-product of the charter traffic. Cheap coal is sure to come by the semi-ballast method to countries that export a good deal more than they import. Cardiff coal is lower at Constantinople than at the Madeira Islands, and very much lower at Buenos Ayres than at Cape Town. The author devotes an entire chapter to this question of coal supply.

Because of the prevalent steamer traffic of the present day, which has supplanted the former sailing vessel services, there are ocean routes, like those of the land, consisting of trunk lines and branches, or feeders, which leave the main ocean thoroughfares and reach out to the islands or to the ports of the more isolated arms, gulfs and bays that indent the continents. The great basis of international trade is the exchange between the regions producing manufactures and those producing raw inaterial and food; hence, Western Europe and Eastern North America, as the great manufacturing centers for the rest of the world, lie at the end of the leading ocean routes. The English Channel can, in an almost literal sense, be considered as the origin of European routes

and Europe, the two parent streams, unite at Oape St. Roque.

The freight routes of the Pacific are of less importance than those of the Atlantic. The heaviest commerce in the Pacific waters passes up and down the coasts of East Asia and of South America bound for the exits at Singapore and the Straits of Magellan. By far the most important route entirely upon the Pacific is that connecting North America and Asia. This route starts on the American Pacific Coast, and has its principal termination at Yokohama, by way of the Aleutian Islands, except in the case of the steamers that go out of their way to call at Hawaii. It is usually, but not always, true that the line steamers go and return by nearly the same route, while the charter boats depart from the trunk routes where more freight is imported than exported. By this process the South African trunk route is a heavy loser, and the South American and the Mediterranean-Asiatic are gainers.

The author has also plotted out the sailing routes and shows how the important consideration with sailing vessels is not the direct line between ports, but the line which will enable them best to carry the trade wind, the monsoon, or the prevailing west wind of the North Atlantic and North Pacific. But sailing vessels have greatly declined in importance in recent years. The author estimates that they are now doing but 8.8 per cent of the world's ocean carrying. As recently as 1890 the tonnage of sailing vessels of the world's merchant marine exceeded that of steamers; now the tonnage of the steamers is some two and a half times as great as that of the sailing vessels, in addition to their higher efficiency. The traffic upon which the sailing vessel has the strongest hold is some irregular and spasmodic trade, both coasting and foreign, which cannot be organized and handled as line traffic. The beginning of a new trade may be the occasion of departure of a sailing vessel. Such a trade is now arising between the Gulf ports of the United States and the La Plata ports. If it grows, a line of steamers will take it over and most of the sailers will be displaced.

Steamer freight may go in full cargo or in partial-cargo shipments. The latter are generally called figures (embracing the present year 75,398 miles of line), and they show an increase over the earnings of berth shipments, and are characteristic of the line the same roads for the corresponding month last year in steamer, while full-cargo charters are characteristic of the sum of \$3,485,443, or 7.47 per cent. In June the the tramp. The line steamer must leave at the apincrease on substantially the same roads was \$3,177,541, pointed time whether she has her cargo space filled or or only 6.23 per cent. not. For that reason it often happens that at a port like That continued improvement should be the rule should New York, where there is a vast amount of line traffic, occasion no surprise. During July practically all the shipowners may offer berth space at an extremely low rate rather than have the ship sail light. The rates for conditions were favorable to large traffic and earnings. General trade was active and the volume of tonnage chartering for a full cargo depend primarily upon the number of ships within reach. If ships are abundant, from the iron and steel industries was immensely larger than a year ago. Then there was a decided advantage they are very cheap and may be had below actual running expenses. If they are scarce and freight is plentifrom a heavier agricultural and live-stock tonnage-that ful, they are very dear. An actual example of temporary is, in the South the roads had a greatly increased cotton fluctuations in charter rates was afforded during the war traffic and in the West the roads had a decidedly en. between China and Japan in 1894. Ocean traffic larged traffic in grain and in live stock, comparisons in all was dull, rates were low and idle ships were common. these cases being with unusually small figures in 1904. At the outbreak of hostilities some were engaged to Furthermore, there was an absence of certain adverse features which had played an unusually prominent part carry supplies to the Orient and many others were sent East in the hope of securing service in the transportation in results last year. Thus in that month of 1904 the of war supplies. In September the European markets strike at the beef-packing establishments throughout the demanded heavy grain increment from the United country, which proved so seriously disturbing to many of the railroads, was precipitated. Both the live-stock and States and the supply of available vessels was so deficthe dressed-beef shipments at that time were heavily reient that the rates in some ports rose 300 per cent in two weeks. Then the unemployed vessels hurried back duced, and adverse effects were experienced in many other ways. This year of course there was nothing of from the Pacific and Indian oceans and in two months

rates in the Atlantic had declined almost as much as they had advanced. At the present time, following the demand for merchantmen during the South African war and the consequent overproduction of vessels, the business is extremely dull.

The author also devotes a long chapter to a studious discussion of the probable effects of the Panama Canal upon ocean trade routes and coaling stations. In view of the wide publicity which the Panama project has had, it is unnecessary here to do more than summarize the conclusions arrived at. Dr. Smith gives reasons for believing that the toll charge in the canal will not be likely to exceed a dollar a ton (net register) and at this rate be plots out ocean distances, the cost of coal, etc., and estimates that the routes of Australasian trade will be materially changed by the opening of the canal and that there will be a long steamer route worthy to be classed with the world's trunk routes-the Australasian trunkconnecting Australia, New Zealand and the Isthmus of Panama. This new route will draw commerce from four of the existing trunk routes, but none of these will be entirely replaced. The heaviest loser will be the South African trunk route. The Mediterranean-Asiatic route will lose some of the traffic now passing to Australia via the Red Sea. Other contributors to new routes will be the American Pacific Coast-Australasian, and possibly the New Zealand-Cape Horn branch of the South America trunk route. Of the two canal routes from New York to the Orient (the Suez and the Panama), that by Panama promises to have the four advantages of cheaper tolls, more way-freight, cheaper coal, and less insurance. For the commerce between Europe and Eastern Asia the Panama Canal affords no advantage of distance.

RAILROAD GROSS EARNINGS FOR JULY. Returns of railroad earnings are of the same encouraging character as heretofore. If there is any change, it is in the direction of still larger improvement. We present to-day our preliminary compilations for July, covering, of course, only the roads which furnish early

that kind. The only disadvantage which the roads (or at least some of them) encountered the present year was that they did not have the extra passenger travel which they enjoyed last year from the World's Fair at St. Louis. This year's losses in earnings on the Wabash RR. and the Illinois Central are no doubt attributable entirely to that circumstance-these being among the very few roads obliged to record a falling off in earnings.

It will have been gathered from what has been said above that in July 1904 our compilations showed diminished earnings. That was the fact. And yet the loss at that time was relatively small considering the many adverse influences with which our railroad transportation lines had to contend. In brief, our table then (comprising merely the roads making early returns then as now) recorded no more than \$1,004,582 decrease, or only 1.80 per cent. The present year's increase, therefore, of \$3,485,443 is over three times the amount of last year's loss. Prior to 1904, of course, there had been successive large gains year by year. In the following table we furnish a comparison of the totals back to 1896.

		1	lileage.		Gross Earnings.

Note .- Neither the earnings of the Mexican roads nor the mining operations of the anthracite coal roads are included in this table.

As already stated, on many of the leading items of tonnage the advantage to the roads the present year was very decided. In the case of cotton, comparison was with the insignificant remnant of the poor crop of the preceding season, while the present year the left-over amount of the crop was large and high prices furnished a further stimulus to a large and free movement. As a result, the contrast on that item between the two years is very striking. At the Southern ports the receipts in July 1905 aggregated 367,244 bales, as against only 50,709 bales in July 1904 and 30,288 bales in July 1903, while the shipments overland were 50,769 bales, against 17,047 bales and 9,842 bales in 1904 and 1903. respectively.

RECEIPTS OF COTTON AT SOUTHERN PORTS IN JULY, AND FROM JANUARY 1 TO JULY 31 1905, 1904 AND 1903.

Ports.	1905.	-July	1903.		e January 1904.	1-1903.

regained. Taking the five leading markets, namely Kansas City, Chicago, Omaha, St. Louis and St. Joseph, the cattle receipts for July 1905 were 648,315 head against only 381,177 head in July 1904, the hogs receipts 1,148,841 head against 647,188 head and the sheep receipts 641,179 head against 333,791 head.

The Western grain movement the present year increased in an equally pronounced way. For the four weeks ending July 29 the receipts of wheat at the Westorn primary markets were 17,634,514 bushels in 1905 against 10,851,747 bushels in 1904; of corn, 14,171,926 bushels against 8,797,502 bushels; of oats, 11,893,439 bushels against S,169,548 bushels. Adding barley and rye, the aggregate of the receipts of the five cereals for the four weeks in question was 45,710,950 bushels against 29,166,541 bushels in 1904, an increase, it will be seen, of over $16\frac{1}{2}$ million bushels. The Western grain movement in detail, in our usual form, is shown in the table which now follows.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

-The public transactions in bank stocks this week were limited to sales of 57 shares, 50 of which were sold at the Stock Exchange and 7 shares at auction. Only one small lot of trust company stock, amounting to 4 shares, was sold. The following table shows the sales of bank and trust company stocks made during the week either at the Stock Exchange or at auction :

Shares. BANKS-New York.	Price.	Last previous sale.
x50 Commerce, Nat. Bank of	20436-20636	Aug. 1905-204
7 Gallatin National Bank	4111/4	Mar. 1905-4201/2
TRUST COMPANY-New	York.	
4 N. Y. Life Ins. & Trust Co	1037	May 1905-1076

r Sold at the Stock Exchange.

-It is reported that a membership in the New York Stock Exchange was transferred this week for a consideration of \$80,000. This is an unchanged price from the last previous sale.

-Brooklyn's newest trust company, the Home Trust Company at 1S4 Montague Street, has completed the first four months of existence with over \$2,000,000 deposits to its credit. The company commenced business April last with \$500,000 capital and \$250,000 surplus. The institution is located on the old Academy of Music site, which, since the disastrous fire, has become the center of Brooklyn's financial district. Two of the Home Trust's unique features are opening the bank at 8:30 a. m. for the convenience of early customers and maintaining a business men's library of ready reference, fully equipped with geographical, railroad and city atlases, guide and reference books, time tables and directories, financial books and periodicals. A doorway, noticeable for its fidelity to the old quaint colonial style, forms an imposing entrance into the banking offices. The Home Trust is under the active direction of J. Edward Swanstrom, President; William C. Redfield and James M. Brown, Vice-Presidents; Harold A. Davidson, Secretary, and Andrew H. Mars, Assistant Secretary.

-The stockholders of the Union Bank of Brooklyn and the Merchants' Bank of the same borough have been notified that the proposition to consolidate the two institutions will be submitted for their approval on the 22nd instant. With the completion of the plan the Merchants', as previously announced in these columns, will be conducted as a branch of the Union, into which it will be merged.

-The First National Bank of Gouverneur, N. Y., issues a booklet containing a brief sketch of its history, as well as a description of its fire and burglar-proof steel vault. The bank dates from 1881 and was the third national bank organized in St. Lawrence County.

-It has been voted to reduce the capital of the Mcrchants' National Bank of St. Johnsbury, Vt., from \$300,000 to \$150,000.

-An application for a charter for the All Nations Deposit Bank of Pittsburgh has been filed. The institution will locate on the South Side, catering principally to the foreign element in that section, of which the majority is Polish. The capital will be \$75,000. R. F. Schmitt, for many years with the German Savings & Deposit Bank of Pittsburgh, will be the new bank's Cashier.

-The Hoboken Trust Company, corner of Washington and 14th Street, one of Hoboken's newer financial institutions, whose progress we have previously noted, continues to enlarge its business. Its growth has been uninterrupted since starting three years ago. Deposits reached \$839,814 on June 30 last, which contrasts with \$744,504 six months ago, \$385,254 Dec. 31 1903, and \$178,082 Dec. 31 1902. In the same interval (2 years and 6 months) surplus and profits have advanced from \$51,024 to \$69,237 and total resources from \$359,106 to \$1,009,052. The managing staff consists of: Charles Falls, President; A. Riesenberger, Vice-President; F. A. Schwartz, Secretary and Treasurer, and B. F. Hartzel, Assistant Secretary and Treasurer.

it is said, a one-third interest. J. C. McKinney has become a Vice-President, succeeding Frank DeL. Hyde. The bank has a capital of \$300,000 and the transfer is understood to have involved about \$400,000. The new President, Mr. Fertig, and J. L. McKinney are identified with the management of the Commercial National Bank of Titusville.

-A new banking institution is organizing in Washington, D. C., under the title of the National City Bank. P. A. Drury, of the Mcrchants' & Mcchanics' Savings Bank of Washington, is one of the principals in the projected bank, the capital of which will be \$300,000.

-Attractively designed advertising matter in the form of pamphlets and leaflets comes to us from the Citizens'. Savings & Trust Company of Cleveland, Ohio. The most pretentious of the present array is styled "Heroism of Everyday Life," and depicts the successive steps in the life of the successful business man starting with an ordinary education. The growth of the institution during its thirtyseven years of existence is shown in one of the leaflets, and we may note here that the assets in 1905 of \$41,071,527 compare with \$33,888,815 in 1903, \$11,238,700 in 1900, \$7,661,819 in 1890 and \$1,009,824 in 1870. Deposits July 10 1905 were \$34,833,005. J. H. Wade is Chairman of the board and H. R. Newcomb is President of the company. The other officers are D. Z. Norton, William G. Mather, D. Leuty and H. B. Corner, Vice-Presidents; J. R. Nutt, Secretary; E. V. Hale, Treasurer; O. C. Nelson, H. S. Newberry and F. F. Sanford, Assistant Secretaries; George Lomnitz, W. M. Baldwin and W. H. Fowler, Assistant Treasurers.

-A dividend of 15 per cent is being paid to the creditors of the defunct Produce Exchange Banking Company of Cleveland, Ohio, by the Cleveland Trust Company of Cleveland as receiver. The institution suspended in January 1904. A 50-per-cent dividend was distributed several months ago.

-In noting last week the proposed increase to be made in the capital of the Provident Savings Bank & Trust Company of Cincinnati, we stated that one-half the additional stock would be allotted to present shareholders at par. This, we learn, is an error. The plan outlined by the directors calls for the disposal of the entire new issue of \$500,000 at \$16.50 per share of \$10, the proceeds over par going to swell the surplus. This will give the bank a capital of \$1,000, 000 and create a surplus fund, with that already on hand, of over \$400,000. The stockholders will take action in the matter of the intended increase on September 6. It is suggested that present shareholders be allotted one-half the new stock, the remaining half to be sold only to such persons who have or will open an account with the bank.

-H. R. Huggit has been elected Cashier of the People's Banking Company of Columbus, Ohio, to succeed Charles F. Johnson, resigned.

--The contemplated change of name of the Holcomb National Bank of Toledo, Ohio, to the National Bank of Toledo, heretofore referred to, became effective on the 1st instant.

-A consolidation has been arranged between the First National and the White National banks of Fort Wayne, Ind. The institutions rank among the larger of that city, the First National having a capital of \$300,000 and surplus and profits of nearly \$200,000, while the White National has a capital of \$200,000 and surplus and profits of about \$130,000. The White National will lose its identity in the consolidation, the enlarged bank continuing under the name of the First National. John W. White, President of the White National, was also its founder. It is stated that it is his intention to remove to California on account of his health. H. A. Keplinger, Cashier of the White National, will become Second Vice-President of the First National. It is said that the consolidation is on the basis of \$220 a share for three-fourths of the stock held by the shareholders of the White National, or \$200 per share for the entire holdings. The proposition to consolidate has not as yet been approved by the stockholders.

-A change in the control of the Second National Bank of Titusville, Pa., has occurred recently, the ownership now being vested in ex-State Senator John Fertig, John L. Mc-Kinney, J. C. McKinney and others. Mr. Fertig replaces Louis K. Hyde as President of the bank. The latter rc-

-The People's State Bank is the title of a projected State banking institution, with \$100,000 capital, which will locate in Anderson, Ind. Among those interested are Joseph I. Schumacher, John R. Page, George Mathes, Stephen Markt, mains as a director of the institution, in which he retains, John Striker, Martin Gruenwald, Adam Zwickel, Joseph Hennings, R. N. Williams, N. J. Pilger, H. J. Bronnenberg, A. C. Davis, P. G. Decker, M. A. Chipman, W. J. Jackson, E. S. Albright, George Greyer, Henry Myer, J. M. Blacklidge, A. J. Schumacher, John Lux and H. C. Callaway.

--The Colonial Trust & Savings Bank of Chicago is enjoying a marked increase in business in its beautiful new quarters at 205 La Salle Street. The growth is notable both in commercial and savings accounts. The bond and mortgage department of this bank is under the management of J. H. McCortney, with A. F. Struckmann as Assistant Manager.

-The Swedish-American National Bank of Minneapolis now has a capital of \$500,000, having lately issued the additional stock (amounting to \$250,000) authorized by the stockholders early last year. The selling price of the new shares, \$160, added to the surplus \$150,000, increasing it to \$250,000. A portion of the issue was taken by old stockholders, while the remainder went to new interests.

-The Western Bank of Denver, Colo., closed its doors on Wednesday. The action, it is stated, was taken through fear that the run, which began earlier in the week on the Denver Savings Bank, might extend to the Western, owing to the fact that L. O. Imboden (one of the stockholders of the Denver Savings it is reported) was said to be interested in the Western. The latter has a capital of \$100,000 and was established in 1892. H. M. Beatty, Assistant Cashier, has been appointed assignee. The Denver Savings Bank (paid in capital \$250,000), on which a run started Tuesday, at noon of that day, decided to permit the entrance of depositors one at a time and allowed the withdrawal of but 10 per cent of their accounts. While the run continued on Wednesday, Vice-President F. P. Jones made the announcement that "there is absolutely no occasion for any uneasiness as to the bank's condition."

--According to the Denver papers, James H. Hyde of this eity has disposed of his holdings in the First National Bank of Denver, Colo., amounting to about 1,500 shares. The purchaser is Charles M. MacNeill, Vice-President and Manager of the United States Reduction & Refining Company, who has become a member of the bank's board, succeeding Mr. Hyde.

-A statement of the condition of the City National Bank of Kansas City, Mo., based upon the report of Bank Examiner E. E. Ames in charge as receiver, was made public this week. It shows liabilities of \$1,190,057 and assets divided as follows: good, \$849,549; doubtful, \$551,899, and worthless, \$71,586.

--The resignation of Lawrence B. Pierce as Vice-President of the Commonwealth Trust Company of St. Louis, recently tendered, becomes effective October 1. Mr. Pierce relinquished his post in the trust company, of which he was one of the organizers, to take the presidency of the new Toledo Indianapolis & Southwestern Ry. A substantial sum in recognition of the services of Mr. Pierce is understood to have been voted him by the board of the Commonwealth. Mr. Pierce retains his holdings in the trust company and continues in its directorate.

-The City National Bank of Austin, Texas, no longer exists as a separate institution, its entire business having been transferred to the Austin National Bank on the 4th inst. The particulars of the absorption have not been made public. The respective institutions had a capital of \$150,000 each. The Austin National, prior to taking over the City National,

stockholders of the new bank will control absolutely the Metropolitan, besides maintaining a controlling interest in the Los Angeles Trust.

Of the \$1,250,000 stock of the new First National, 5.000 shares will go to the stockholders of its predecessor, 2,500 shares to the stockholders of the Los Angeles National and 1,000 shares to those of the Southwestern. The remaining 4,000 shares will, it is said, be disposed of to several capitalists who have become interested in the merger plan. A large proportion of the stockholders of the Los Angeles Trust have signified, it is understood, their intention to exchange their holdings for some of the stock of the proposed bank, and, according to the Los Angeles papers, it is believed that the stock thus exchanged will be held by trustees in the interest of the First National. It is also expected that the stockholders of the Metropolitan will avail of a similar offer of exchange of stock. The two trust companies will continue as distinct institutions, as in the past, the Los Angeles in its quarters at Spring and Second streets and the Metropolitan at Sixth and Spring streets. The officers of the new First National as now arranged will be as follows: President, J. M. Elliott; Vice-Presidents, W. C. Patterson, G. E. Bittinger, John S. Cravens and Stoddard Jess, and Cashier, W. T. S. Hammond. H. E. Huntington, it is reported, will be connected with the enlarged bank as stockholder and director. Special meetings to ratify the consolidation are expected to be called shortly.

-The California Safe Deposit & Trust Company of San Francisco will increase its capital \$1,000,000, making the amount \$2,000,000. The new stock will be issued at \$150 (par value \$100), netting a premium of \$500,000, which is to be added to the surplus. D. F. Walker of Salt Lake City has succeeded R. D. Fry as President, the latter becoming a Vice-President of the institution.

-Through action recently taken by the stockholders of the First National and the Colfax National banks of Colfax, Wash., the savings departments of the two institutions have been acquired by the First Savings & Trust Bank of Whitman County, at Colfax, the latter being the successor of the First National. The Colfax National has increased its capital to \$200,000 and has taken over the commercial business of the First National. Edwin T. Coman, formerly Cashier of the First National, has been elected a Vice-President of the Colfax National.

--It is reported that the First National Bank of Port Townsend, Wash., has been purchased by N. H. Latimer, Manager of the Dexter Horton Bank at Seattle, and his associates.

-The Sovereign Bank of Canada is now occupying its attractive new building on St. James Street, Montreal. The building is a very imposing one, constructed of granite and Kentucky limestone. The interior of the main banking room is entirely of white Italian marble, with verde antique marble trimmings. A unique feature is that the office fixtures throughout are of steel. While the head office of this institution is in Toronto, the executive offices are in Montreal, with D. M. Stewart General Manager in charge. W. Graham Browne is manager of the main office in Montreal. The bank has a capital and profits of \$2,100,000, deposits of \$9,000,000 and total assets of over \$12,000,000.

-The Traders' Bank of Canada has commenced the crection of a handsome building at the corner of Yonge and Melinda streets, Toronto, Ontario. The new building will be the head office. It is to be fifteen stories in height, built of stone and brick with terra-cotta trimmings. The Traders'. Bank was incorporated by Act of Parliament in 1885 and has a subscribed capital of \$3,000,000 and a reserve fund of \$1,100,000. C. D. Warren is President; Hon. J. R. Stratton, Vice-President; H. S. Strathy, General Manager, and J. A. M. Alley, Chief Inspector.

had deposits in the neighborhood of a million and a half dollars. The City National's deposits May 29 were \$401,657.

-A bank consolidation of more than ordinary size is contemplated in Los Angeles. Three institutions, all of them important banks, are directly concerned in the amalgamation, namely, the First National Bank, capital \$500,000; the Los Angeles National, capital \$500,000, and the Southwestern National, capital \$300,000. As now planned, the consolidation will go into effect under the name of the First National and the capital be increased to \$1,250,000. Besides this consolidation, an alliance is also proposed between the new First National, the Los Angeles Trust Company and the Metropolitan Bank & Trust Company, the last named chartered about six months ago. By this latter proposition the

DEBT STATEMENT JULY 31 1905.

The following statements of the public debt and Treasury cash holdings of the United States are made up from official figures issued July 31 1905. For statement of June 30 1905 see issue of July 15 1905, page 191; that of July 31 1904, see Aug. 6 1904, page 606.

MonetaryFCommercialEnglishRews

London, Saturday, July 29 1905.

The quite unexpected meeting of the German Emperor and the Czar off the coast of Finland has engrossed a good deal of attention on the Stock Exchanges and Bourses this week, and has given rise to a considerable amount of speculation. But, whatever may have been the motive of the meeting, and whatever may result from it, it has had little

tial financial personages in Paris also; but they followed the lead of the Prime Minister. They could not recommend a Russian loan to their friends at the present time, but If Russia makes peace, they will be ready to assist her as far as possible. Consequently, the hope is very strong throughout Europe just now that peace will result. Even influential Japanese are of the opinion that peace will come from the negotiations. They base their opinion on the moderation of Japan, the statesmanship of M. Witte and the urgent need of Russia for peace.

But although everybody is much more hopeful as regards peace, there is little increase in activity upon the Stock Exchange. Money here has grown both abundant and cheap. For the last day or two it is true that the outside market has had to apply to the Bank of England for advances. But that is due to purely temporary and artificial causes. At the end of every month the joint-stock banks are in the habit of calling in loans for the purpose of showing that they keep larger reserves than they actually do. During the last three or four days of the month, the market is disturbed in this way, and people who are called upon to repay to the banks have to go to the Bank of England. As soon as August sets in the money will come out again and the market will be as plentifully supplied as before. If peace is concluded there will be probably, in consequence of the great abundance of money, a marked improvement in business. Even this week there has been a decidedly better feeling. In Paris, international securities have been supported, and Paris has even bought in this market to a considerable extent, the result being that the "bears" have grown alarmed and in most departments of the Stock Exchange there has been an improvement. It is improbable, however, that the improvement will be carried much further. It is doubtful, indeed, whether it can be maintained; for the holiday season is now setting in, and as the weather is very warm, all who can are getting away to the country or the sea-side. Moreover, few people care to engage in new risks until it is seen whether peace is to be actually concluded.

In Germany, trade is very good, as is proved by the Prussian railway traffic returns. For the three months April, May and June, the receipts of the Prussian railways this year exceeded those of the corresponding period of last year by 4³/₄ per cent. Even on the Bourse there is more activity, especially in coal and iron mining shares and also in iron and steel shares. There would probably be a further improvement were it not for the stagnation in London and Paris and the anxiety that is caused by the internal condition of Russia.

Money, as already said, is abundant and cheap, and is likely to continue so for a considerable time. The fall in the rates of interest and discount is leading the great French banks to decrease the balances which they have so long been employing in this market. Rates, indeed, are so low here that the money can be employed to equal advantage in Paris, and it can be employed to much better advantage elsewhere-for example in Italy. Steadily, therefore, the balances are being reduced; and in consequence the French banks are buying most of the gold offering in the open market. If nothing happens to increase the demand for money here at home, the French banks will probably continue reducing their balances; and in doing so they will go on buying gold in the open market. Hence a very considerable part of the gold arriving here cannot be expected to go into the Bank of England. Yet some of it will go in as, for example, the gold coming from India. And after a time the French banks may perhaps cease, temporarily at all events, taking gold. In Paris and Berlin money is also very abundant and cheap, and is likely to continue so. Of course if peace is concluded there will have to be raised large Russian loans which, for a while at all events, will change the aspect of the market. But as long as the war continues, money will probably remain abundant and cheap all over Europe. The India Council offered for tender 60 lacs of drafts, and the applications exceeded 545 lacs, at prices ranging from 1s. 4d. to 1s. 4 1-16d. per rupee. Applicants for bills at 1s. 4 1-32d. and for telegraphic tranzfers at 1s. 4 1-16d. per rupce were allotted about 40 pw cent of the amounts applied for.

effect upon the stock markets.

In Paris, where the action of the German Emperor is naturally followed with keenness and suspicion, creditable calinness was maintained. The public refused to be alarmed by the rumors set afloat, and rightly judged that Ru sia is not in a position just now to do anything that would offend France. Perhaps the presence of M. Witte in Paris at that time helped to prevent alarm. It is generally understood that M. Rouvier refused to encourage the floating of a Russian loan in Paris while the war continues, but that he assured M. Witte that if peace is made, France will be ready to prove her loyalty to her ally by raising whatever may be necessary to pay the indemnity which Japan is expected to insist upon. M. Witte saw several of the influen-

Julv 27:

July 27: GOLD.—Although the Cheque rate has come no lower, the competition amongst buyers has hardened the quotation to 77s. 9%d., and all arrivals have been taken for Paris. £1 1000,000 arrives from India this week, and it it reported that a further £500,000 is being shipped. There are no arrivals to report at the Bank of England, and £270,000 has been withdrawn for South America. Arrivals-South Africa, £318,000; Australia, £112,000; West Africa, £7,000; West Indiee, £79,000; River Plate, £12,000; total, £528,000. Shipments—Bombay, £51,200; Madras, £5,500; total, £55,700. SILVER.—There have been no features of importance. The Eastern inquiry has been practically nil, the rates having ruled under our parity. On the other hand supplies have been small, America having been a moderate seller, and, with some continental orders, there has been sufficient demand to absorb all on offer. Forward has ruled 5-16d. under spot, but closes at ½d. under. The Indian price is Rs. 6834 per 100 Totahs. Arrivals—New York, £100,000; Australia, £6,600; West Indies, £9,000; total, £15,000. Shipments—Bombay, £58,200; Hong Kong, £26,600; Shanghal, £35,000; total, £119,800. MEXICAN DOLLARS.—There are no dealings in these coins. The quotations for buillion are reported as follows;

amounted on August 5 to \$1,415,000; on July 29 to \$1,431,000.

Imports and Exports for the Week.-The following are the imports at New York for the week ending for dry goods Aug. 3 and for the week ending for general merchandise Aug. 4; also totals since beginning first week January.

FOREIGN IMPORTS.

For week.	1905.	1904.	1903.	1902.
Dry Goods. General Merchandise	\$2,756,762 12,443,100		\$2,576,650 7,430,480	
Total	\$15,199,862	\$11,282,423	\$10,007,130	\$12,134,705
Since Jan. 1. Dry Goods General Merchandise	\$83,226,923 335,469,350			
Total 31 weeks	\$418,696,273	\$352,442,655	\$359,882,139	\$331,363,833

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Aug. 7, and from January 1 to date.

EXPORTS FROM NEW YORK FOR THE WEEK.

	1905.	1904.	1903.	1902.
For the week Previously reported	\$7,659,223 305,910,133	\$9,628,450 278,079,641	\$8,052,861 293,583,302	\$9,513,910 277,910,350
Total 31 weeks	\$313,569,356	\$287,708,091	\$301.636.163	\$287,424,260

Note.—As the figures of exports as reported by the New York Oustom House from week to week frequently show divergence from the monthly totals, also compiled by the Custom House, we shall from time to time adjust the totals by adding to or deducting from the amount "previously reported."

The following table shows the exports and imports of specie at the port of New York for the week ending Aug. 5 and since Jan. 1, 1905, and for the corresponding periods in 1904 and 1903.

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK

WALL STREET, FRIDAY, AUG. 11 1905 .- 5 P. M. The Money Market and Financial Situation .-- The ordinary routine of a mid-summer heated term at the Stock Exchange has again been disturbed. We referred last week to an unexplained advance of 45 points in Delaware Lackawanna & Western stock and we have now to record a fur-ther advance of 30 points, or 75 in all, within 15 days. There also occurred during the same period an advance of 33 points in Delaware & Hudson shares. Other noteworthy advances, nearly all of which took place on Thursday, were those of Great Northern 19 points, Central of New Jersey 10 points, Illinois Central 9½ points, New York New Haven & Hartford and Lake Shore each 7 points.

Naturally such movements in a previously rather narrow and featureless market have excited considerable curiosity outside as well as inside the circle of ownership, and further developments are awaited with interest.

Other events which have absorbed attention are the meeting and opening negotiations of the peace envoys at Ports-mouth, and crop reports. The former has been accomplished satisfactorily and the latter are more favorable than had generally been expected. They indicate that the corn crop may be the largest in the history of the country and that the wheat yield bids fair to be next to that of 1901, which was the largest. These facts have stimulated a feeling of confidence in all departments, and, barring any adverse de-velopments, a season of general activity seems well assured.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1½ to 2 p. c. To-day's rates on call were 1¾ @ 2 p. c. Prime commercial paper quoted at 4@4¼ p. c. for endorsements and 4¼@4½ p. c. for best single names. The Bank of England weekly statement on Thursday showed a decrease in bullion of £586,826 and the percent-are of reserve to liabilities was 46.72 against 47.45 last

age of reserve to liabilities was 46.72, against 47.45 last week, the discount rate remaining unchanged at $2\frac{1}{2}$ per cent. The Bank of France shows an increase of 19,700,000francs in gold.

The market for railway and industrial bonds has been relatively steady, although such changes as have occurred are generally to a higher level. The volume of business has averaged nearly \$3,500,000, which was fairly well dis-tributed. The Japanese issues have been less active than of late and cased off fractionally during the early part of the week, but are firmer on the more cheerful feeling.

United States Bonds .- No sales of Government bonds have been reported at the Board this week. The following are the daily closing quotations; for yearly range see third page following.

	Interest Periods		Aug 7	Aug 8	$egin{array}{c} Aug \\ g \end{array}$	Aug 10	Aug 11

Railroad and Miscellaneous Stocks.-The stock market has again been unusually active for the season, the transactions averaging over 600,000 shares per day. Interest has centered largely in a few issues, as noted above, al-though these were not the most active. Naturally the remarkable advance in these stocks had a hardening influence on the whole market, but the upward movement was checked before the close to-day and in some cases a substantial decline was recorded.

Union Pacific has been the most active railway stock and closes 2 points higher than last week. Atlantic Coast Line has continued its upward movement on limited transactions. St. Paul has been in request, presumably on crop prospects, and, with North West., Great Northern, Atlantic Coast Line and New York Central, is on the list of stocks that have advanced from 3 to 6 points within the week. The local transportation issues have been steady and a considerable portion of the active list has advanced only a point or less.

No special interest has been manifested in miscellaneous and industrial stocks. The iron and steel shares have been active and generally steady, although Colorado Fuel & Iron is lower. The copper stocks, including American Smelting & Refining, have been strong, and General Electric is about 7 points higher. Central Leather issues, on the other hand, have lost a part of the advance recorded soon after they were listed.

For daily volume of business see page 608.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow.

Outside Market.—There have been some interesting fea-tures in the market for unlisted securities this week, chief of which was the activity and strength displayed by the Al-bany & Susquehanna new 40-year 3½-per-cent bonds. The sharp rise in the price of Delaware & Hudson stock on the Board had the effect of advancing the price of these 3½s (they being convertible into stock of the Delaware & Hud-son Co on the basis of one \$1000 bond for five \$100 son Co. on the basis of one \$1,000 bond for five \$100 shares of stock) from 107 to 116; the final sale to-day is at 115. The upward movement in Interborough Rapid Transit was continued during be early part of the week, the price advancing $3\frac{1}{4}$ points to $222\frac{1}{4}$; later, however, there was a decline to $217\frac{1}{2}$ on profit-taking sales; the close today is at 218. On transactions aggregating about 10,700 shares, Northern Securities rose from 177 to 184%, and ends the week at 183½. The "Stubs" sank from 262½ to 250. Otis Elevator common jumped from 57 on Tuesday to 67 to-day. Dealings in Chicago Subway have been on a somewhat smaller scale this week; prices ranged from 84 to $86\frac{3}{8}$, with the final sale to-day at the high figure. Bethlehem Steel common declined from $34\frac{1}{2}$ to $31\frac{3}{4}$, but to-day reacted to $32\frac{3}{4}$; after a gain of 2 points to 92, the preferred fell to 8934 and closes the week at 9014. Consolidated Rubber Tire common rose from $2\frac{3}{8}$ to $3\frac{5}{8}$, with the last sale to-day at $3\frac{1}{4}$; the preferred moved up $3\frac{1}{2}$ points to $12\frac{1}{2}$. Greene Consolidated Copper advanced from $2\frac{4}{4}$ to $25\frac{5}{8}$ and closes to-day at 251%. Greene Gold ran up from 41% to 434, and after a reaction to 414 recovered to 41%. Outside quotations will be found on page 608.

The following were the rates for domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying 50c. per \$1,000 discount; sclling 75c. per \$1,000 pre-mium; Charleston, 121/2c. per \$1,000 premium; New Or-leans bank,35c. per \$1,000 dis.; commercial, 50c. per \$1,000 dis.; Chicago, 15c. per \$1,000 dis.; St. Louis, 40c. per \$1,000 dis.; San Francisco, 30c. per \$1,000 prem.

State and Railroad Bonds .--- Sales of domestic State bonds at the Board are limited to \$30,000 Virginia 6s deferred trust receipts at 14 to 141/4.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from **July 1** to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the street railways are brought together separately on a subsequent page.

Net Earnings Monthly to Latest Dates.—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of July 22 1905. The next will appear in the issue of Aug. 19 1905.

Brunswick (Ga.) Dock & City Improvement Co.

(Official Report-Balance Sheet March 31 1905.)

A report, signed by President Henry E. Howland, Vice-President Howel H. Barnes and Secretary and Treasurer A. G. Kraetzer Jr., has been sent to the stockholders, with maps of the property and a statement of its condition and outlook, in part as follows:

Of late it has become so plain that the city and its interests have actually entered upon the epoch of stable expansion anticipated for so many years that new associates have connected themselves with the ownership and management of the corporation, and it therefore seems due that the following detailed report should be made. Real estate holdings in Brunswick and on St. Simon's Island:

Real Estate in City. Houses18		Acreage Property.		Ł
Houses 18		West bank Back River_1,128	acres	
Old Town lots 414	lots	West bank, $\frac{1}{2}$ interest in		Ł
New Town lots1,083				{

				1

equalty interprotect, lequalty interprotect, Neptune Park, equalto... 50 lots Brosston, Fendig & Co., a leading real estate firm in Brunswick, and the company's agent, under date of May 19 1905, write: "The holdings of the company consist of about 1,500 city plots and lots, some of which are business lots and others residence lots. Many of these are located in the very best residence portion of the city and, being 90x180 feet in the very best residence portion of the city and, being 90x180 feet in the very best residence portion of the city and being 90x180 feet in the very best residence portion of the city and using 90x180 feet in the very best residence portion of the city and using purposes, and which, when subdivided, will make about 1,000 more lots. "The company owns water front in the heart of the city, which if improved would bring a handsome return in rents. Near the city and with deep-water front the company owns one-half interest in a 720-acre aso about a mile on Terry's Creek. Immediately south of this tract the company owns another tract of 128 acres, with a deep-water frontage of about 3^w mile on Terry's Creek; immediately south of this tract another tract of about 1,000 acres, with a deep-water frontage of about 3^w mile on Terry's Creek; immediately south of the stract another tract of about 1,000 acres, with a deep-water frontage of about 3^w mile of water front, immediately across the river from the terminals of the A. C. L. RR. On East River the company has probably 13^w miles of water front, which, although it is not deep water, can be easily dredged and made available. Immediately south of these about 3^w of the fact that almost all the available water front outside of the deep water terminals of the Southern Ry, upon Turtle River, it has over a mile of water front, and immediately north of theses terminals about 3^w of a mile of deep-water front, both tracts valuable. "The own pays of your company has been taken up; of the great pros-prospects which we

"Real estate has gone up at least 33 1-3 p. c. over what it was six months ago. There are two applications for a street railway franchise before the Council. Providence, R. I., capitalists (the Providence Cotton Mills Corporation) are contemplating the erection of a large cot-ton factory, which would mean an addition of about 2,500 to our popu-lation. Our people feel good over our bright prospects." (The officers of the company devote the remaining eleven pages of the report to further details concerning the property and its prospects.)

BALANCE SHEET MARCH 31 1905.

\$5,009,838 .35,009,838 otai

Total ______\$5,009,838 Total ______\$5,009,838 The Secretary and Treasurer, under date May 1 1905, says: "Our indebtedness was \$225 for commission on real estate sale, which has since been paid—thus leaving the company free of all debts. The Atlantic & Birmingham Ry. Co. \$5,360 preferred and \$12,000 common stock is carried in account at 50 and 20; Its present value is 60 and 30. During the year we have sold to the Atlantic & Birmingham Ry. Co. sundry lots for a depot, also right of way through certain of our new town lots for \$4,500. Since the above statement was made the same railroad company has purchased from us one and one-half plots for \$11,000. This will give us cash assets of about \$19,000, and our quick assets will be increased to about \$30,000. We also have sold, since April 1 1905, three lots on St. Simon's Island for improvement." Directors—Henry E. Howland, Howel H. Barnes, William O. Allison, Douglass Green, Silas B. Dutcher, Charles Gregory, William H. Burger, Leroy W. Baldwin and E. C. Stedman.—V. 76, p. 1357.

shares of £1 each, making the total authorized capital

snares of $\pounds 1$ each, making the total authorized capital $\pounds 1,000,000$, of which $\pounds 715,000$ is outstanding. The Vancouver Power debentures were fully described in V. 77, p. 768; 60 of the first mortgage debentures redeemable each year by drawings; interest on this issue (V. 75, p. 1030) is payable at the office of Sperling & Co., London. The officers are: Chairman, R. M. Horne-Payne; Secretary, B. H. Binder; Managing Director, J. C. H. Buntzen. Compare V. 81, p. 558 558.

Buffalo & Susquehanna RR.-Bonds Called.-Twentyfive of the 1st mortgage 5 p. c. bonds of \$1,000 each and three of \$500 have been called, and will be paid at par and accrued interest on Oct. 1 1905 at the office of Harvey Fisk & Sons, New York City .-- V. 80, p. 710.

Buffalo & Susquehanna Ry.-Application to List.-The New York Stock Exchange has been requested to list \$2,-216,000 additional 1st refunding $4\frac{1}{2}\frac{7}{0}$ bonds of 1951, making the total amount \$6,521,000.—V. 80, p. 710.

Central of Georgia Ry .- First Distribution on Third Preference Incomes.—The directors on Aug. 7 declared the full 5 p. c. dividend on all three classes of preference incomes, 5 p. c. dividend on an three chaster 000,000 second prefer-viz.: \$4,000,000 first preference \$7,000,000 The first divience and \$4,000,000 third preference, \$1,000,000 second preference dend on the second income bonds was paid Oct. 1 last, and was 2 p. c. The dividend record of the first preference incomes has been:

Diridends ______ 1896. 1897. 1898. '99. '00. '01. '02. '03. '04. '05. On 1st pref. incomes_____ 1½ 2¼ 2 2 3¼ 5 3 5 5 5 Report.-See page 611 of this issue.-V. S1, p. 210.

Chateaugay & Lake Placid Ry.—Modified Lease.—The modified lease of the property, running until Dec. 31 2403, has heen filed with the Secretary of State, providing that the Delaware & Hudson, as lessee, shall, from the net earnings of the demised property, pay:

(1) Operating expenses and taxes; (2) bond interest; (3) 4 p. c. on any advances made by the D. & H., either for insufficiency of the earnings to pay the aforesaid expenses, or for improvements; (4) all necessary or proper improvements; (5) dividends at rate of 4 p. c. per annum, payable semi-annually, on the \$2,000,000 new preferred stock; (6) until Jan. 1 1908 and thereafter until this provision is modified, any earnings remain-ing after the aforesaid payments shall be turned over to the C. & L. P. This provision may be modified at five-year intervals after Jan 1 1908 by arbitration.—V. 80, p. 1362.

Chesapeake & Ohio Ry.-Guaranty.-See Big Sandy Ry. above.-V. S0, p. 2219.

Chicago & North Western Ry.-Suit.-Benjamin Wells has brought suit to compel the company to issue to him 70 shares of common stock of Milwaukee Lake Shore & Western in exchange for 7 Milwaukee Lake Shore & Western 5% 20-year convertible debentures of 1907.—V. 81, p. 558, 30.

Chicago Southern Ry.—Guaranteed Bond Notes Offered. —King, Hodenpyl & Co., New York and Chicago, arc offer-ing at par and interest this steam railroad's two-year 5 p. c. gold coupon bond notes; authorized issue \$4,000,000, dated July 1 1905, due July 1 1907, denominations \$1,000 and \$5,000 interest payable Jan. 1 and July in Philadelphia. The road The road is nearing completion and is to be in operation by Jan. 1 1906, from the State Line between Illinois and Indiana to a connection with the Chicago Terminal Transfer Co., Chicago, 114 miles, as an extension of the Southern Indiana Ry., which guarantees these bond notes unconditionally, principal and interest. The notes are further secured by deposit with the trustee of all the capital stock of the Southern Indiana Railway Co. (\$11,000,000) and \$600,000 of the capital stock of the Chicago Southern Ry. Co. The capitalization of the Chicago Southern Ry. is: Com-

mon stock, \$1,500,000; gold coupon bond notes, \$4,000,000; bonded debt, none, and no mortgage can be made prior to the payment of these notes Girard Trust Co., Philadelphia, trustee. See map on page 419 of our "Railway and Indus-trial" Section.

A circular says in part:

A circular says in part: The road, which is much shorter than any other line between Terre Haute and Chicago, conforms to the most modern standards; 80 lb, steel rail is used and all culverts and bridges are built of concrete and steel; maximum grade is one-half of one per cent. The demand from Chicago and the Northwest for Southern Indiana coal necessitated the construction of the Chicago Southern Railway, and business which the Southern Indiana Railway will transfer to it—consisting principally of coal and stone from the famous Bedford quarries—assures its success. The bond notes are secured by a trust agreement executed by the two railway companies to the Girard Trust Co. as trustee. Under this agreement, as collateral for the security and payment of the bonds, there have been deposited with said trust company, certificates of capital stock to the extent of \$11,000,000 of the Southern Indiana Ry. Co. and of \$600,000 of the \$1,500,000 outstanding stock of the Chicago Southern Ry. Co. These shares of stock have been de-posited by John R. Waish under an agreement between himself and the railway companies; but the shares of the Southern Indiana Ry. Co. are held as absolute security and the shares of the Chicago Southern Ry. Co. are held for the purpose of guaranteeing the non-creation by that com-pany of any mortgage or lien antecedently to the payment of the bond notes in question. The law of Illinois requires the vote of two-thirds of the capital stock to create a mortgage lien. John R. Walsh has executed a paper in binding legal form, which obliges him to see to the application of the proceeds of the \$4,000,000 of bonds in and about the payment of construction of said railway, thus releasing it from a possi-bility of mechanics' liens. The Southern Indiana Railway Co. for the year ending June

The Southern Indiana Railway Co. for the year ending June 30 1904 reported surplus over fixed charges of \$307,435. The report for the year ending June 30 1905 is not yet completed, but shows increase in gross earnings of \$887,374 and in net earnings of \$27,919. (See Southern Indiana Ry. V. 79, p. 1327; V. 80, p. 1480).—V. 79, p. 1331.

Cleveland Cincinnati Chicago & St. Louis Ry .- Listed .-The New York Stock Exchange has listed \$1,000,000 addi-tional general mortgage 4 p. c. bonds of 1993, making the total listed \$20,749,000.—V. 81, p. 558, 264.

Dayton & Muncie Traction Co.—New President.—Fred. J. Ach has been chosen President to succeed the late Dr. J. E. Lowes.

Delaware & Hudson Co.—Modification of Lease.—See Chateaugay & Lake Placid Ry. above.—V. 80, p. 2343.

Denison & Sherman (Electric) Ry.-Increase of Capital Stock .- The shareholders will vote Sept. 18 on increasing the capital stock from \$200,000 to \$300,000.-V. 76, p. 1192.

Detroit United Ry.—Application to List.—The New York Stock Exchange has been requested to list \$7,392,000 addi-tional 1st consolidated 4½% bonds of 1932, making the total amount \$10,842,000.—V. 80, p. 2620.

Duluth Virginia & Rainy Lake Ry.—Change in Control.— See Virginia & Rainy Lake Co. under "Industrials" below and V. 81, p. 558.

Gainesville & Gulf RR .- Sold .- Control of the road has been sold to new interests, represented by F. M. Simonton of Tampa, Fla., and A. P. Stucky and B. W. Blunt of Ocala, The following officers have been elected: Fla.

President; S. F. Parrott; Macon, Ga.; 1st Vice-President, A. P. Stuckey; 2nd Vice-President, B. W. Blunt; Treasurer, H. E. Taylor, Gainesville, Ga.; Superintendent, L. E. Barker; Auditor, W. S. Banks.

An extension to Tampa, it is reported, is proposed.-V 73, p. 783.

Grand Trunk Pacific Ry.—Mortgages.—The following have been filed with the Secretary of State of Canada:

have been filed with the Secretary of State of Canada:
(a) Mortgage dated June 10 1905 to the Royal Trust Co., trustee, His "Majesty the King, acting in respect of the Dominion of Canada, being guarantor," securing 3 p. c. first mortgage sterling bonds, due 1962, to the extent of £14,000,000, issued and to be issued thereunder pursuant to chapters 71 and 122, Statutes of Canada 1903, and chapters 24 and 80. Statutes of Canada 1904. (See V. 80, p. 996, 1234, 1363; V. 81, p. 507)
(b) Mortgage dated March 15 1905, made to the National Trust Co., Limited, trustee, the Grand Trunk Railway Co. of Canada being guaran-tors, securing 4 p. c. mortgage sterling bonds, due 1955, to the extent of £4,150,000, issued and to be issued thereunder pursuant to chapters 71 and 122, Statutes of Canada 1903, and chapters 24 and 80, Statutes of Canada 1904. (See V. 80, p. 996.)
(c) Mortgage dated March 15 1905, to the National Trust Co., Limited, trustee, The Grand Trunk Railway Co. of Canada being guarantors, securing Lake Superior Branch 4 p. c. first mortgage sterling bonds, due 1955, to the extent of £1,550,000, issued and to be issued thereunder pur-suant to chapter 122, Statutes of Canada 1903, and chapter 80, Statutes of Canada 1904. (See V. 80, p. 996.)
Hartford (Conn.) Street Ry.—Sale.—The shareholders

Hartford (Conn.) Street Ry .- Sale .- The shareholders will meet Sept. 6 "for the purpose of acting upon a proposition to sell the contracts, property, rights, powers, privil-eges and franchises of this corporation to the Consolidated Ry. Company and distribute the net proceeds of said sale among the stockholders of this company." The Connecti-cut Legislature recently granted authority to the Hart-ford Street Railway Co. to increase its capital stock from \$2,000,000 to \$5,000,000 and to the subsidiary East Hart-ford & Glastonbury Street Ry. Co., to increase its capital stock to \$1,000,000.—V. 80, p. 1479.

Illinois Tunnel Co.—Physical connection made with all the Steam Roads entering Chicago.—The company, it is an-nounced, completed on Aug. 1 underground connection with the freight houses and yards of all the steam roads entering Chicago. "The company is now handling about 7,000 tons of freight daily, and its engineers estimate that the completion of the connections with the steam railways means immediately a doubling of that haulage."-V. 80, p. 600.

La Fayette Ry., Alabama.—Being Torn Up.—This 22mile road extending from La Fayette, Ala., to Opelika, is being torn up.

Lake Shore & Michigan Southern Ry.-Listed.-The New York Stock Exchange has listed \$7,500,000 additional 4 p. c. 25-year debenture bonds of 1928, and has authorized the list-ing of an additional \$2,500,000 when sold and delivered. These bonds, the remainder of \$50,000,000, were issued for "corporate purposes."—V. 81, p. 559.

Louisville & Nashville RR.—Called Bonds.—Thirty-nine (\$39,000) Henderson Bridge Co. first mortgage bonds called for payment will be redeemed by the Central Trust Co. of New York on Sept. 1 at 105.—V. 81, p. 265, 211.

Marion-Bucyrus Electric Ry.-Mortgage.-A mortgage was recently made to the Cleveland Trust Co. securing an issue of \$250,000 bonds to provide for the construction and equipment of the company's proposed line from Marion to Bucyrus via Caledonia. President, Ellis Bartholomew. Missouri Kansas & Texas Ry.—Bonds Offered.—H. W. Poor & Co., New York and Boston, are offering at 89½ and interest \$3,000,000 first and refunding mortgage 4 p. c. gold bonds, due Sept. 1 2004; authorized issue \$40,000,000, of which \$1,484,000 are already issued. The \$3,000,000 now offered are being issued for the acquisition of additional real estate and rolling stock, the balance of the authorized amount to be used as follows: \$12,037,000 to refund outsanding bonds and \$23,479,000 for future issue for railroads at the rate of \$25,000 per mile and for terminals or rolling stock as acquired or constructed. Both principal and interest are pay-able in gold dollars in New York, or in pounds sterling in London, or in marks in Berlin or in francs in Paris. De-

Cleveland Short Line Ry.—New Enterprise.—Arrange-ments are being completed for the construction of an elevated double-track electric belt line to encircle the city of Cleveland, connecting with the various steam roads entering that city. Entrance to the city ,it is stated, will be had over the right of way of the New York Chicago & St. Louis from Rocky River to Wickliffe, with a downtown passenger station at Ontario St. The company was incorporated Nov. 24 1902 with nominal capital stock (\$10,000, since increased to \$250,-000) and it is said will make a bond issue of probably \$10,-000,000. M. H. Hanna, a brother of the late Senator Hanna, W. R. Hopkins and J. G. W. Cowles are promoting the enterprise.

Consolidated Ry., Connecticut.—To Purchase Outright.-See Hartford St. Ry. below. V. 81, p. 210, 155.

nomination \$1,000, or, at option of holder, £205 15s. 2d., or marks 4,200 D. R. W., or francs 5,180.

The \$4,484,000 bonds issued and now being issued were certified for the following purposes, as stated by Chairman Henry C. Rouse under date of Aug. 1 1905:

 To refund, retire and cancel \$337,000 Missouri Kansas & Oklahoma first extension 5s, which has been done and the mortgage extinguished
 To acquire terminals at Kansas City on which the bonds \$421,000

750,000

313,000

500,000

(2) To acquire terminals at Kansas City on which the bonds are a first mortgage.
(3) For shops and terminals at Parsons, Kansas, and Sedalia, Mo., on which the bonds are a first mortgage.
(4) To pay for additional land for machine shops, with buildings thereon, at Parsons, Kansas, on which these bonds are to be a first mortgage.
(5) For the purchase of equipment, on which these bonds are to be a first mortgage. 2,500,000

Property Pledged as Additional Existing Security for said Bonds:

Property Pledged as Additional Existing Security for said Bonds:
(1) All rolling stock in schedule "A" of the mortgage (free)_____2,500,000
(2) Rolling stock and equipment as per schedule "B" of the mortgage already paid for (free)______3,000,000
(3) Rolling stock and equipment as per schedule "B" subject to car trust notes (amounting to \$4,591,536) which are to be liquidated out of carnings as follows: year 1905-06, \$1,134,005; 1906-07, \$1,032,205; 1907-08, \$953,634; 1908-09, \$706,712; 1909-10, \$590,-864; 1910-11, \$174,116.
"The result of which will be that in five years from this time an underlying security of over \$10,000,000 of rolling stock will secure \$4,484,000 of these bonds, in addition to the security that will have been created in the meantime through the acquisition of new railroad properties, terminals and additional equipment purchased with the proceeds of this last issue of \$3,000,000 bonds."

The gross earnings for the year 1904-05 were \$20,041,095, contrasting with \$17,766,595 in 1903-04.—V. 81, p. 265.

New Orleans Railway & Light Co.-New Mortgage.-This reorganized company has made its new general mortgage to the New York Trust Co., as trustee, securing not to exceed \$30,000,000 of $4\frac{1}{2}$ per cent gold bonds, dated July 1 The bonds are due July 1 1935, but are subject to 1905. call at option of company on Jan. 1 or July 1 at 105 and interest, upon four week's notice after drawing by lot. Of the authorized issue, \$12,814,000 is reserved for the purpose "of acquiring at par a like amount of bonds of the constituent companies" and \$2,186,000 is held to acquire additional companies" and \$2,186,000 is held to acquire additional amounts of the outstanding stocks of the constituent companies, or any additional bonds or stocks which may be issued by any of those companies for improvements or ex-The remaining \$15,000,000 bonds are issuable tensions. forthwith.

Bonds Called.—New Orleans City & Lake RR. consol. 1st M. 5s due Jan. 1 1943 to the amount of \$23,500 have been called for payment at 110 and interest at the Columbia Finance & Trust Co., Louisville, Ky., on Mar. 1 1906.— <mark>V. 81</mark>, p. 508.

Northern Pacific Ry.—James N. Hill Elected Vice-Presi-dent.—James N. Hill (son of J. J. Hill, President of the Great Northern Ry.,) was recently elected a director and has now been made Vice-President of the company.-V. 80, p. 2220.

Northern Ry. of Costa Rica.-In Possession.-All points arising out of the agreement with the company having been settled, the Costa Rica Ry. has been handed over to this com-pany as from 1st July.—V. 80, p. 223.

Penobscot Central (Electric) RR.—Successor Company.— See Bangor & Northern RR. above.—V. 79, p. 2086.

Petaluma & Santa Rosa (Electric) Ry., California.— Status.—This company, which owns a trolley line 30 miles in length, extending from Petaluma to Sebastapol, and thence to Santa Rosa, Cal., with a steamer connection between Petaluma and Pier No. 5, San Francisco, has recently filed a second mortgage, making its capitalization as follows:

Par. Date. Outstand'g. Interest. Maturity. 100 \$1,000,000 Stock and Bonds-

 Stock (common)_______100
 100 ______\$1,000,000

 1st M., \$1,000,000, gold,
 sinking fund______1,000 1904
 632,000 5M-S Mar. 1,1924

 Subject to call at company's option at 110

 2nd M., \$250,000, gold____1,000 1905
 160,000 6

The interest on the first mortgage is payable at the Mercantile Trust Co. of San Francisco (the mortgage trustee) and at the United States Mortgage & Trust Co., New York. The unissued first mortgage 5s (\$368,000) are reserved for extensions at not exceeding \$17,500 per mile and 75 p. c. of cost. Present road is laid with 70-lb. T rail. Officers:

President, John A. McNear: Vice-President, W. F. Kelley; Secretary, Thos. Archer: Treasurer, B. Corbet. E. H. Rollins & Sons are interested.—V. 81, p. 508.

tions for this company's \$7,500,000 stock and \$5,500,000 5 p. c. first mortgage bonds of \$500 each. See page 2573 of "Street Railway Section."—V. 80, p. 1969.

Savannah & Statesboro RR.-Guaranty.-The first mortgage gold 5s of 1953 are endorsed with the following:

For value received, the Scaboard Air Line hereby guarantees the prompt payment of principal and interest coupons on the within bond as the same shall become due and payable. SEABOARD AIR LINE RAILWAY. -V. 79, p. 2148. By J. M. BARR, President.

Shreveport Bridge & Terminal Co.—Guaranty.—See St. Louis Southwestern Ry above.—V. 76, p. 266.

INDUSTRIAL, GAS AND MISCELLANEOUS.

Acetylene Heat, Light & Power Co., Philadelphia.—Assessment .- Judge Beitler in the Common Pleas Court at Philadelphia early in the year handed down a decision in the equity suit instituted by Receiver Robert W. Findletter, holding that some thirty-nine stockholders were liable for unpaid instalments on their holdings of treasury stock. The assessments subsequently levied against the foregoing, as reported in the daily papers, aggregated \$15,480.

The company was incorporated in 1895 with \$1,000,000 stock, in shares of \$50 each, which it offered for sele at par. The outstanding stock was subsequently in-creased to \$1,744,450. In 1898 the plant at Niagara Falls was closed and taken possession of by the Niagara Falls Power Co. for rentals due, and the Electro Gas Co, forcelosed three chattel mortgages, aggregating \$83,000. Robert W. Findletter was thereupon appointed receiver and suit brought to collect from the shareholders the money needed to meet the claims against the company, which were said to aggre-gate about \$60,000. Judge Beitler held that there was no claim against the pro-moters, the original syndicate, or the original subscribers to the stock who paid all calls while they held the stock.—V. 66, p. 708; V. 64, p. 234. American Palace Car Co.-Incorporated.-This company has been incorporated under the laws of Maine with \$10,-000,000 of authorized (common) stock, presumably as successor of the American Palace Car Co. of New Jersey. President and Treasurer, Geo. F. Gould, Portland. The company is advertising its make of cars, but has no plant. N. Y. office, 27 Willliam St. See V. 74, p. 328. American Steel Foundries Co.—Meeting to Authorize Bonds. -The shareholders will meet Sept. 6 to vote (1) on authorizing the issue of \$6,000,000 bonds, to be secured by a mortgage on the plants of the company, and also upon the entire capital stock of the Simplex Railway Appliance Co. and about 55 p. c. of the capital stock of the Commonwealth Steel Co. of New Jersey; (2) on authorizing the offer to the preferred and common stockholders of \$3,500,000 of such bonds at 80, the balance of \$2,500,000 of bonds not to be issued at the present time; (3) on approving the conditiona

St. Joseph & Grand Island Ry.-Report.-The results for the year ending June 30 were:

Year. Gross. 1904-5......\$1,299,031 Int. & taxes. Bal., sur. \$255,886 \$48,148 Net. \$304,034 237,576 **903-4** -V. **79**, p. 2201. 234,473 1903-4. 3,103

St. Louis Southwestern Ry .- To Authorize Guaranty and Operating Agreement.—The shareholders will meet Oct. 4 for the following purposes: (1) To authorize the company to guarantee the payment of the principal and interest of an issue of first mortgage 5 p. c. fifty-year gold bonds of Shreve-port Bridge & Terminal Co. to an amount not exceeding the principal sum of \$500,000. (2) To authorize an agreement with Shreveport Bridge & Terminal Co. providing for the use and occupancy of the bridge and other works of said last-mentioned company for a period of 50 years from Aug. 1 1905 (see V. 76, p. 266).—V. 80, p. 872.

Sao Paulo Tramways, Light & Power Co., Ltd.-Listed in London.-The London Stock Exchange has granted quota-

^{\$668,002} extension 733,477

contract entered into between the company and Shearson, Hammill & Co., acting on behalf of the syndicate, which includes several directors of the company, for the purchase of such part of the \$3,500,000 issue as shall not be taken by the stockholders. Compare V. 81, p. 560, 267, 33.

American Water Works & Guarantee Co., Pittsburgh.— Guaranteed Bonds.—See City Water Co. of East St. Louis, etc., abovc.—V. 79, p. 2644.

Baltimore Electric Power Co .- New Electric Power Plant in Operation .- Mayor Timanus on Aug. 3 formally set in operation the steam turbines in the company's new plant at the foot of Covington St., Baltimore. "Baltimore Sun" says:

The first installation consists of three 2,000 kilowatts units, a total capacity of 6,000 kilowatts. The total amount of underground cable used for the distribution of current is about 370,000 feet, occupying over 55 miles of subway. Wherever the city has not provided conduits over-head, wires have been erected, requiring the use of about 2,500 poles owned by the Maryland Telephone Co. The Baltimore Electric Power Co. began taking contracts for light and power in November, and up to date has secured over 1,900 contracts, equivalent to over 96,000 of 16-candle-power lights.—V. S1, p. 267.

American Woolen Co.—Banner Scason.—The following, from the "Boston News Bureau," has been officially revised for our columns: "The company opened its 1906 spring lines of staple goods on July 17, and in a few days it sold \$15,000,000 worth of goods, of which \$8,000,000 is the entire product of the Washington Mills up to next March and \$7,000,000 represents the sale of mercerized worsteds. Practically the entire production of the American Woolen Co.'s 6,800 looms is now sold up to March 1. The Washington Mills' product was sold so quickly that prices were immediately advanced 10 per cent, notwithstanding the fact that this year's prices represented an advance of from 12½ to 25 p. c. over last year. An official says: 'The sale was apparently only limited by our productive capacity. I figure we could have sold \$25,000,000 of goods as quickly

as we sold \$15,000,000 worth.' "There is still another opening of 1906 spring goods to be held, generally amounting to about 50,000 pieces. Last year the company sold about 90,000 pieces of woolen goods of all kinds, amounting to about 5,000,000 yards, but this year woolens are going slowly, the call being almost entirely for worsteds."—V. 81, p. 267.

Boston Consolidated Copper & Gold Mining Co.-Option to Subscribe.-Shareholders of record Aug. 14 are offered by circular sent out by the Federal Trust Co. of Boston the option of subscribing for the £250,000 6 p. c. debenture bonds at the rate of \$48 70 for each $\pounds 10$ bond. Subscriptions are payable 25 p. c. on allotment, 25 p. c. Nov. 1, 25 p. c. Jan. 1 1906 and 25 p. c. March 1 1906. See V. 80, p. 2623.

Bryant & May Co., Ltd.—Dividend.—This English subsidiary of the Diamond Match Co. has declared a semiannual dividend of 21/2 p. c. on deferred shares for half-year to 30th June 1905, making 5 p. c. for year After writing off $\pounds 238$, balance of debenture issue expenses, $\pounds 11,377$ was carried forward. Last year, dividend same; $\pounds 10,488$ forward.-V. 79, p. 2590.

Buffalo & Susquehanna Iron Co.—Second Furnace in Use. —The second furnace was "blown in" on July 6 and will increase the output of the plant from about 350 tons to 700 tons of pig iron per day. The results of the company's operations have "thus far exceeded the expectations of the management."—V. 79, p. 1463.

Butte (Mont.) Electric & Power Co.—Guaranteed Bonds. This company guarantees the principal and interest of the 30-year first mortgage 5% bonds of its subsidiary companies the Madison River Power Co. and the Montana Power Transmission Co. The interest on these bonds is payable Feb. 1 and Aug. 1 at company's office, No. 30 Broadway. See Electrical Securities Corporation below. The Madison River Power Co. was incorporated in New Jersey on Jan. 27 1905 with \$6,000,000 of authorized capital stock. The Transmission company, it is understood, took over the plant of the Montana Power Co., located on Big Hole River, 20 miles from Butte (see description "Engineering Record" of March 5 1898.).

Montana Power Transmission first mortgage bonds are sinking fund gold 5s, dated Aug. 1 1903 and due in 1933, but subject to call in any amounts on August 1 1908 at 105 and interest; denominations \$500 and \$1,000. Authorized issue, \$750,000; amount outstanding understood to be \$600,000. Madison River first mortgage bonds are dated Feb. 1 1905 and due Feb. 1 1935, but subject to zcall in any amounts on February 1 1907 at 105 and interest. Authorized issue, \$5,000,000; amount outstand-ing said to be \$1,000,000.—V. 80, p. 713.

June 1 1905. The first mortgage for \$1,400,000 was made Sept. 1 1896 by David A. Slattery to the New York Life Insurance Co., interest rate 4 p. c.

Charlestown (Mass.) Gas & Electric Co.-Reduction in Price of Gas.—The Massachusetts Gas & Electric Light Commission on Aug. 1 recommended that on and after Sept. 1 the net price charged for gas by the company shall not exceed 90 cents per 1,000 cubic feet, contrasting with \$1 recently asked and \$1 10 prior to May 1 1902. The "Boston News Bureau" says:

News Differing Sitys: Since Oct. 1 1900 more than 60 p. c. of the Charlestown Co.'s gas has been pur chased from the Massachusetts Pipe Line Gas Co. for 30 cents per thousand feet under a contract expiring July 1 1906. The Boston Consolidated Gas Co., owning the Pipe Line Co., has refused to renew this contract. The company is making extensive alterations to its plant, in anticipation of the termination of the present contract, and when these are completed, an increased capacity and a reduced cost of manufacture will result. A cash surplus of \$70,000 has been accumulated by the company aside from the payment of 7 to 10 p. c. divi-dends and the cancellation of a doating debt. This surplus will, it is expected, be exhausted by the changes at the company's works, but the board believes that the cost of production will be low enough to permit a reduction as recommended. On June 20, 1001 the company at cost works \$500,000 (no boards)

On June 30 1904 the capital stock was \$500,000 (no bonds) and for the year 1903-04 dividends aggregating 9 p. c. were paid.

Chattanooga (Tenn.) Electric Co.—See Electrical Securities Corporation in V. 81, p. 510., V. 79, p. 2644.

Citizens' Telephone Co., Grand Rapids, Mich.—New Stock.—The shareholders on Aug. 1 voted to increase the capital stock from \$2,000,000 to \$3,000,000, to provide for additions and extensions.-V. 75, p. 1256.

City Water Co. of East St. Louis and Granite City, Ill.-New Mortgage.—This company, controlled by the Ameri-can Water Works & Guarantee Co. of Pittsburgh (V. 79, p. 2644), has made a new mortgage to the Farmers' Loan & Trust Co. of New York, as trustee, to secure an issue of \$4,000,000 5 p. c. gold bonds dated Jan. 2 1905.

These bonds are due Jan. 2 1945, but are subject to call in whole or in part before 1915 at 105 and interest, and thereafter at par; also in case of municipal purchase or condemnation, the issue is subject to redemption at any time at par. Denominations \$1,000 and \$500. Outstanding \$572,000, guaranteed by American Water Works and Guarantee Co. Reserved to cover a like amount of underlying bonds, \$2,062,000. In-terest payable Jan. 2 and July 2 at office of trustee. President, W. K. Dunbar; Secretary, A. M. Lynn. Capital stock, \$1,500,000.

Commercial Telephone Co., Texas.-Sold.-At the foreclosure sale in Austin, Texas, on Aug. 1, the property was bid in for \$110,000 by the bondholders' committee, consisting of J. A. Quizinberry of Danville, Ky., Chairman; J. H. Goeke of Wapakoneta, Ohio, and Fred. Binel of Portland, Ind. The franchise sold for \$60,000, and the apparatus, fix-tures, lines, etc., brought \$50,000.—V. 80, p. 653.

Consolidated Electric Light Co., Portland, Me.-Divi-dend Increased-New Stock.-With the quarterly distribution to the shareholders on July 15, the annual dividend rate was increased from 4 to 5 p. c. Shareholders until Aug. 15 have the right to subscribe to \$100,000 new stock, increasing the outstanding share capital to \$500,000; par of shares \$10. This stock is offered to stockholders at \$7.50 per share. The company has paid quarterly dividends since July 1st 1889, and the business has steadily increased from \$82,310 in 1900 to \$138,860 in 1905. There are \$400,000 bonds outstanding, viz:

(1) \$200,000 of 5s maturing June 1 1906; (2) balance $4\frac{1}{2}$ s authorized issue \$500,000, due Jan, 1 1925, 'denominations \$500 and \$1,000; trustee, Union Safe & Deposit Co. (\$200,000 of new $4\frac{1}{2}$ s held to retire the bonds due June 1 1906). President, Leander W. Fobes; Sec. and Treas., George E. Raymond.—V. 70, p. 232.

Consumers' Electric Light Co., Ottawa.—Property Transferred to City.—This company's property has been trans-ferred by deed to the city of Ottawa and the purchase price, \$200,000, has been paid.—V. 80, p. 2460.

Consumers' Gas Trust Co. of Indianapolis.—City's Right Questioned.-Byron C. Quinby has filed an ancillary bill in the Federal Court asking for a decree holding that the city has no right to purchase the property within the city limits by wirtue of the ordinance of June 27, 1887, and remaining by virtue of the ordinance of June 27 1887 and removing "the cloud cast on the title by the assertion of the city that it had such right." George J. Marott has announced his desire that some one else be selected to act with the presidents of the Board of Trade and the Commercial Club as the third grantee of the proposed 60-cent fuel franchise. Compare V. 81, p. 33; V. 80, p. 2222.

Central Lighting Co., New Jersey.—Receivership.—This company, incorporated in New Jersey in December 1901 with \$1,000,000 authorized capital stock, to manufacture a patented gas-burner, was on Aug. 3 placed in the hands of John H. Hartpence, of Trenton, as receiver, by Vice-Chan-cellor Bergen, on application of State Attorney-General McCarter on the ground of insolvency, and failure to pay franchise tax for 1904 and 1905 amounting to \$2,163.-V. 74, p. 480.

Central Syndicate Building Co., New York.-Second Mortgage .- A 2nd mortgage has been made to the New York Trust Co., trustee, covering the property Nos. 320 to 324 Broadway northeast corner of Pearl St., 75x150 feet, to secure an issue of \$300,000 second mortgage 4 p. c. bonds of \$1,000 each.

• The new bonds are dated Mar. 1 1905 and mature Mar. 1 1925, but are subject to call at option of company on any interest date at par and interest; denomination \$1,000; interest payable quarterly beginnin g

Corn Products Co .- Stockholders' Committee Requests Information.—A stockholders' committee, consisting of H. William Moeller, William Henry Hays, F. W. Duryea, M. D. Chapman and J. W. Hardenburgh, has through its counsel, Louis H. Newkirk, of the law firm of Newkirk & Stevens, sent to the officers of the company a formal request for full information in regard to the finances and business of the company and of its subsidiaries.

Meeting.—A meeting of the shareholders was held on Aug. 9 in New York, at the instance of the aforesaid cominittee at which Attorney L. H. Kirk read a long statement

criticizing the management, analyzing unfavorably the last annual report (V. 80, p. 1853, 1365), and saying also in part:

annual report (V. 80, p. 1853, 1365), and saying also in part: We are aware that many of the company's plants are idle, and have been idle for the past year or two, and we are told that these idle plants are depreciating in value; that the following plants are closed: Peoria, III.; Rockford, III.; Marshalltown, Ia.; Wankegan, III.; Venice, III.; Geneva, III.; Sioux City, Ia.; Argo, Nebraska City; Fox plant; Er-kenbrecker, Cincinnati. O. Burned: Kingsford, Oswego, N. Y.; Glen Cove, L. I.' and twelve other plants are shut down. Plants open: Chicago, III.; Davenport, Ia.; Pekin, III.; and one or two others are running intermittently. That only 60,000 to 65,000 bushels daily grind is all the company is now doing out of a total capacity of 150,000 or more bushels per day. It appears that competition has sprung up within the last few years now having a daily total capacity of 76,000 bushels, as follows: Bushels.

	2001000000
New York Glucose Co., Shady Side, N. J. (Corn Products Co.	
owns 49 p. c. of capital stock. V. 80, p. 1366.)	30,000
Warner Sugar Refining Co., Waukegan, Ill	28,000
St. Louis Syrup & Preserving Co., Granite City, Ill	10,000
Piel Starch plant, Indianapolis, Ind	4,000
Douglas Starch plant, Iowa	-4.000

These competing plants are in active operation and are furnishing glucose and starch to the trade. Their output and the 60,000 daily grind of this company fills the demands of the trade, as we are informed. This company had a surplus in 1903, according to its annual report, of \$3,327,-511. Now that surplus is all gone.—V. 80, p. 2623, 1853.

Dakota Central Telephone Co.-Status.-This company, organized Aug. 30 1904 under laws of South Dakota, as a consolidation of the Dakota Central Telephone lines, Southern Dakota Telephone Co., Southern Minnesota Telephone and Central Dakota Telephone Co., reports:

and Central Dakota Telephone Co., reports: Stock authorized: Common, \$3,000,000; preferred, 6 p. c. cumula-tlve, [\$2,000,000. Stock outstanding, common, \$1,085,650; pre-ferred, \$9,000; par of shares, \$100. Authorized bond issue, \$500,000 of 5 p. c. first mortgage bonds dated June 1 1905 and due June 1 1915, with-out option of earlier redemption; denominations \$500 and \$1,000. In-terest payable Dec. 1 and June 1 at Aberdeen (S. D.) National Bank, of which John C. Bassett, the mortgage trustee, is President. Amount of these bonds outstanding, \$100,000, covering 68 exchanges, about 9,000 telephones, 4,000 miles of pole lines and 7,000 miles of circuit wire. No prior liens are outstanding. President, J. S. W. Zietlow; Secretary-Treasurer, W. G. Bickelhaupt.

Diamond Match Co.—Dividend of English Subsidiary. See Bryant & May Co. above. Chicago advices state that the earnings of the Diamond Match Co. for the current year are eminently satisfactory .-- V. 80, p. 715.

Dominion Copper Co.-Reorganized Company.-See Montreal & Boston Consolidated Mining & Smelting Co. below.

East St. Louis Water Co.—Correct Name.—See City Water Co. of East St. Louis, etc., above.

Edison Portland Cement Co.-Status.-The "Philadelphia News Bureau'' quotes a "large local interest" as saying:

News Bureau" quotes a "large local interest" as saying: The plants of the company have been running satisfactorily for the three months since the shut-down for enlargement and the present output is over 3,000 barrels a day. After some minor improvements now in progress are completed, we will turn out 4,000 barrels per day. The operation of the plant to date has clearly demonstrated two things. First: The cement is of a better grade than any on the market: 80 per cent will go through a 200 mesh screen, which no other will do. Second: Our cost of production is cheaper than that of other companies The demand for cement is good at present because this is the best season of the year. Some companies have orders for more than they are producing and are drawing on the supply accumulated during the dull period last winter. The price has advanced from 65 to 93 cents a barrel and may go higher before cold weather.—V. 80, p. 2624. **Electrical Securities Corporation**.—Third Series Bands

Electrical Securities Corporation.—Third Series Bonds Offered .- Harvey Fisk & Sons, having sold a large part of the \$1,000,000 third series collateral trust sinking fund 5 p. c. gold bonds, are offering \$500,000 thereof at 101 and in-terest. These bonds are "tax free" and are dated May 1 1905 and are due May 1 1935, but are subject to call at 103 and interest at company's option on any interest day on 21 days' notice. Interest payable May 1 and Nov. 1 in New York. These bonds are secured by deposit with the Standard Trust Co. of New York, trustee, of the following bonds, aggregating at par \$1,265,000, all 5 p. c. bonds except as otherwise indicated.

Since May 1 1905 the corporation has sold at a substantial profit \$225,-Since may 1 1905 the corporation has sold at a substantial profit \$225, 000, par value, of bonds which were held as security for its first series bonds and has purchased and canceled \$212,000, par value, of such first series bonds. It has also sold at a substantial profit \$175,000, par value, of bonds which were held as security for its second series bonds and has purchased and canceled \$167,000, par value, of such second series bonds. Compare V. 81, p. 510; V. 80, p. 715.

General Asphalt Co.-Decision Affirmed.-The High Federal Court (of Cassation) of Venezuela on Aug. 7 affirmed the decision of the President of the Court, rendered May 20, which annulled the concession of the New York & Bermudez Asphalt Co., and allowed damages to the Venezuelan Government for expenses incurred in the Matos revolution by reason of the alleged complicity of that company's officials. A formal protest against the decision has been made to the United States Government with a view, it is supposed, of later asking the latter to renew its request for an arbitration of the dispute. Compare V. 80, p. 2223 .- V. 81, p. 214.

Georgia Car Manufacturing Co.—See South Atlantic Car & Manufacturing Co. below.—V. 80, p. 2401.

Gilbert & Bennet Manufacturing Co. of Georgetown, Conn. New Stock.—This Connecticut corporation has filed a certificate of its action in increasing its capital stock from \$750,-000 to \$1,000,000. A press dispatch from Hartford says:

The increase is in the form of a stock dividend of 33 1-3 per cent, made by capitalizing \$250,000 of the company's surplus and issuing therefor 5,000 additional shares of stock. The concern manufactures wire cloth and netting. A year or two ago it made a large addition to its capital stock by capitalizing a part of its accumulated surplus.

Gorham Manufacturing Co .- Suit Settled Out of Court .--The suit of Vice-President George H. Robinson against Presi-dent Edward Holbrook, "relative to an agreement for the transfer of certain shares of stock of the company, has been settled on private terms and the suit and attachments have been duly discontinued and discharged." It was alleged that Mr. Holbrook agreed to transfer to Mr. Robinson 15,500 shares of the common stock at \$175 a share on June 29, and also to tender the resignations of himself and his son as officers and directors of the company. See V. 81, p. 214.

Grand Rapids-Muskegon (Mich.) Water Power Elec-tric Co.—New Securities—New Enterprise.—This company, incorporated under the laws of Maine Nov. 16 1904, has authorized an increase of its capital stock from \$1,000,000 to \$2,000,000 and the making of a bond issue to an amount not exceeding \$5,000,000. The company is at work erecting dams at different points on the Muskegon River in order to develop power for transmitting electricity for commercial use in Grand Rapids, Muskegon, Big Rapids and other places in western Michigan.

Officers: Thomas Hume, Muskegon, Mich., President; Thomas Mon-roe, Muskegon, and W. A. Foote, Jackson, Vice-Presidents; George L. Erwin, Muskegon, Secretary, and John G. Emery, Treasurer.

Hodge Iron Co., Houghton, Mich.-Bonds Offered.-David J. Kennedy, No. 218 La Salle St., Chicago, is offering, by advertisement on another page, this company's \$100,000 of 30-year 6 p. c. first mortgage gold bonds, inter-est payable semi-annually; sinking fund \$3,000 yearly, with accumulations. The company was incorporated Aug. 1 1900 under the laws of Illinois and acquired the business established in 1869 by Samuel F. Hodge, embracing chiefly mining machinery now in use by the Calumet & Hecla and other prominent mining companies. The capital stock is \$100,000 in \$100 shares. A circular states that in 35 years of successful operation the net profits have never fallen below \$18,000, and in some years have been between \$40,000 and \$50,000. For the past 15 years "the average net profit has exceeded \$25,000." The total live assets are estimated at \$334,500.

Honolulu Gas Co., Ltd.—Bonds, Etc.—This company, organized Aug. 2 1904, has erected a gas plant at Honolulu, and has issued:

Stock \$200,000, all common; par of shares \$100. Bonds \$115,000, part of an authorized \$200,000 of gold 6 p. c. bonds, dated Jan. 1 1905 and due Jan. 1 1925, but subject to call in whole or in part after Jan. 1 1915 at par; denominations \$1,000, \$500 and \$100. Mortgage trustee, Henry Waterhouse Trust Co., Ltd. Interest payable at Honolulu. President, W. R. Castle; Secretary, D. L.Withington; Treasurer, A. N. Campbell.

Hudson River Water Power Co.—Temporary Receivership Ended.—Judge Ray, sitting in the United States Court for the Northern District of New York at Utica, on July 21 vacated the temporary receivership and dismissed the proceedings connected therewith.

000 Power for Utica & Mohawk Valley RR .- On July 1 the 000 company began supplying the Utica & Mohawk Valley RR., one of the trolley subsidiaries of the N.Y. Central, with some 4,500 h. p. from the new auxiliary steam plant at Utica. 000 The power company, it is understood, has a contract with 1,500,000 the N.Y. Central interests to supply their trolley roads up $3,000,000 \\ 750,000$ to a maximum of 25,000 h. p., as from time to time required. -V. 81, p. 268.

The corporation has the right to redeem all or any part of the third series collateral trust bonds on any interest day upon 21 days' notice, and, beginning with May 1 1910, is required to gradually retire said bonds either by purchase or redemption. In other respects the terms are as stated for the second series in V. 81, p. 510. A circular says:

The corporation began business with a surplus carefully appraised by its executive committee at \$500,000. During its first six months of business, that is to May 1 1905, it earned a net profit over and above fixed charges and semi-annual dividend on its preferred stock of \$11,860. Its surplus on May 1 1905 was \$511,860.

Ingersoll-Rand Co.—New Office.—The company has taken possession of its new offices on the fourteenth floor of the Bowling Green Building, 11 Broadway, N. Y. See particulars regarding organization in V. S1, p. 562, 34.

Johnson Company.-Called Bonds.-See United States Steel Corporation below.-V. 80, p. 1974.

(Frank) Jones Brewing Co., Ltd.-Reduction of Capital Stock.—The shareholders at a meeting held in London on July 3 voted: "That the capital of the company be reduced from $\pounds 800,000$ (divided into 40,000 7½ p. c. cumulative preference shares of £10 each and 40,000 ordinary shares of £10 each) to £600,000, divided into 40,000 71/2 p. c. cumulative preference shares of £10 each and 40,000 ordinary

shares of £5 each. The directors propose to write £86,770 off the good-will account, along with £113,230 from assets for loss in assets at the Bay State Brewery, which has been closed and is to be sold.'

Payment of all Accumulated Dividends.—The shareholders voted also on July 3: "That the report for the year ended Feb. 28 1905 as presented be adopted, and the dividends on the £400,000 preference share capital recommended by the directors be declared—viz., $3\frac{3}{4}$ p. c. (making $7\frac{1}{2}$ p. c. for the year ended Feb. 28 1905) and 1 p. c. in payment of final arrears of dividend on cumulative preference shares." Including the aforesaid dividends, the report shows:

Gross profits£80,101 Debenture interest£25,0	00
(An inc. of £9,000 over 1903-04.) Preference dividend (as	
Net profits£60,902 above), 81/2 p. c 34,00	00
(An increase of over £8,000).	
Bal., surplus for year£1,90)2

Total sales of ale and porter for year (all at Portsmouth brewery), 218,407 barrels.-V. 77, p. 199.

Kingston Lumber Co., Laurel, Miss.-Further Facts. This company, a block of whose bonds is being offered by the Inter-State Trust & Banking Co. of New Orleans, as the last week, is incorporated under the laws of New Hampshire. The bond issue is limited to \$500,000, of which \$203,000 is outstanding. No prior liens, it is stated, remain outstanding. Herbert Lampe is now Secretary. Compare V. 81, p. 562.

Lancaster (Pa.) Water Filtration Co.—Bonds Offered.— Flint, Bacon & Co., New York and Philadelphia, are offering at 104½ and interest \$250,000 (the total issue) of first mortgage 6 p. c. sinking fund bonds of \$1,000 each, dated July 1 1905 and due July 1 1935, but subject to call, at company's option, at parand interest on Jan. 1 1911, 1916, 1921, 1926 and 1931; interest payable Jan. 1 and July 1; free of tax in Pennsylvania. A circular says:

Pennsylvania. A circular says:
The sinking fund provisions require that there shall be deposited with the trustee (the West End Trust Co. of Philadelphia), semi-annually, from July 1 1906 to July 1 1910, \$2,700; from Jan. 1 1911 to July 1 1915, \$3,500; and each six months thereafter until maturity, \$4,000. These payments will provide for the retirement of \$25,000 bonds on Jan. 1 1911, \$35,000 on Jan. 1 1916 and \$20,000 on Jan. 1 1921, 1926 and 1931, respectively, and for the remainder at maturity. Bonds retired by the sinking fund will be drawn by lot. The eity has the right under the ordinance authorizing the contract with the company to pay all of the outstanding bonds not retired by the sinking fund at any five-year period heginanter January 1911, and become the owner thereby of all of the property. This company operates under a 35-year exclusive contract with the city of Lancaster, authorized by ordinance, to filter all of the water for the city at \$15 per million gallons, and the city guarantees to the Lancaster Water Filtration Co. to consume a minimum of 5,000,000 gallons per day, which will give the company a guaranteed income of \$75 per day, or \$27,375 per year. The operating expenses are conservatively estimated at \$5,000, and interest charges will be \$15,000, leaving a surplus of \$7,375 in the guaranteed income. The city is now using about 6,500,000 gallons per day, and on some days runs as high as 7,500,000, and under the contract all water consumed is to be paid for at the rate of \$15 per million gallons, indicating for the first year: Gross earnings, \$36,000; net, \$31,000; interest charge, \$15,000; sinking fund, \$5,400; balance, surplus, \$10,600.

This plant is the Maignen system of patent scrubbers and slow sand filtration, which, it is said, the Bethlehem City Water Co. has found so efficient.-V. 81, p. 562.

Lane Mills .- Bonds Called .- Forty mortgage bonds have been drawn and will be paid at the Germania Savings Bank & Trust Co., New Orleans, on Sept. 1 1905.

Lehigh Coal & Navigation Co.-Listed.-The Philadelphia Stock Exchange has listed \$1,500,000 additional funding and improvement 4s, issued for refunding 41/2s due Sept. 1, making the total listed \$3,533,000. See V. 80, p. 1061.— V. 80, p. 1858

Madison River Power Co.-Guaranteed Bonds. - See Butte (Mont.) Electric & Power Co. above.

Metropolitan Steamship Co., Boston.-New Vessels.-The company has awarded to the Roach Shipbuilding Co. contracts for two 400-foot, 20-knot steamers for the proposed passenger line between New York and Boston. Each steamer will have three turbine engines, aggregating 10,000 horse-power, and will cost over \$750,000. See V. 80, p. 1916.

Montana Power Transmission Co.—See Electrical Se-curities Corporation, V. 81, p. 000 and 510.—V. 69, p. 1251.

Montreal & Boston Consolidated Mining & Smelting Co.-New Securities .- The sale of the company's properties to the Dominion Copper Co., Ltd., under agreement dated May 11 1905 having been completed, all stockholders are urged to send in their stock for exchange immediately to the National Trust Co., Ltd., Toronto, Canada. See V. 80, p. 2625.

common; \$60,000 7 p. c. cumulative pref. and \$90,000 "service." Stock outstanding, common, \$168,240; preferred, \$60,000; "service," \$25,545. Par of shares, \$30. President, J. S. Bellamy, Knoxville, Ia.-V. 81, p. 35.

National Enameling & Stamping Co.,-No Dividend on Common stock .- The directors at their meeting on Wednesday failed to declare the dividend on the 15,591,800 common stock. The regular dividend of 7% per annum was declared on the preferred stock, payable in four quarterly instalments of 134% each, Oct. 1 1905, Jan. 1 1906, April 1 1906 and July 1 1906. The cumulative preferred, now \$8,546,600, has received its 7 p. c. per annum regularly since organiza-tion in 1889. The common received from 1902 to Oct 1904 inclusive 4 p. c. yearly, but last fall there was declared a 9 months' dividend of $1\frac{1}{2}$ p. c., payable $\frac{1}{2}$ p. c. each on Jan. 1, April 1 and July 1 1905 (V. 79, p. 2646)

Report.—See p. 612 of this issue. New Treasurer.—A. M. Steinhardt has been elected Treas-urer in place of J. E. Ingram—V. 81, p. 215.

Nevada Power, Light & Water Co.-Successor.-See Reno (Nev.) Power, Light & Water Co. below .- V. 78, 1909.p

New England Cotton Yarn.—Acquisition.—The following, from a Boston paper, is confirmed:

The company has practically acquired all of the capital stock of the Lambeth Rope Corporation, par value \$50,000, and will operate the rope factory as a part of its plant. For some time the Cotton Yarn Company has owned a majority of the stock and now it becomes sole owner. The Lambeth Rope Co. has not paid dividends for several years.—V. 79 p. 2204.

New River & Pocahontas Consolidated Coal Co.—Acquisition.—The "Iron Age" says:

This company, an allied interest of the Berwind-White Coal Mining Co., has recently purchased from Col. W. P. Rend a large body of New River coal near Thurwood, W. Va., on the Chesapeake & Ohio Railway. This property has four well-developed mines in operation and the capacity of these will be largely increased.—V. 80, p. 2462.

Niagara Lockport & Ontario Power Co.-Control Sold.-The control of this company and of the Iroquois Construction Co., which has hitherto been vested in Joseph G. Robin and his associates, together with the Westinghouse Co., has passed by sale of the individual interests to a new syndicate headed by Mr. Westinghouse and John J. Albright of Buffalo. The purchasing syndicate is understood to represent a combination of the Westinghouse, Albright, New York Central and Vanderbilt interests, together with those of Horace E. Andrews of Cleveland, and others. The financing of the companies will hereafter, it is understood, be directed by interests connected with the Marine National Bank of Buffalo, S. M. Clement, the President of that institution, succeeding Mr. Robin on the board of syndicate managers for the underwriting of the securities. H. H. Westinghouse succeeds Mr. Wicker as a director of the Power Company, and Gen. Francis V. Greene becomes President of the Iroquois Construction Co., the holding company for the enterprise. The executive offices will be in Buffalo. Mr. Robin and his associate, C. M. Wicker, will, it is said, receive profits aggregating \$750,000.

The company has a contract to obtain electric current from the Ontario Power Co. of Canada (see V. 81, p. 158; V. 80, p. 1427, 119), pending the construction of its own plant, and a transmission line has already been built from the Niagara River three-quarters of the way to Lockport and is now being rapidly pushed towards Rochester. An authoritative statement says that a long-term agreement has been made to supply electrical power to the New York Central & Hudson River RR. Co., and contracts have been made to supply power to local railroads and private consumers at almost every town from Niagara Falls to Syracuse, including the latter city. By the middle of next spring it is expected that most of the electrical railroads of Syracuse will be run by Niagara power transmitted by this company. ·V. 80, p. 2348.

Oklahoma (City) Gas & Electric Co.—See Electrical Se-curities Corporation, V. 81, p. 616, 510.—V. 81, p. 215.

Philadelphia Electric Co.-New Trustec.-The Fidelity rust Co. of Philadelphia has been appointed trustee and registrar for the Edison Elecric Light stock trust certificates, succeeding the City Trust Safe Deposit & Surety Co.-V. 80, p. 1427.

Moran Bros. Co., Shipbuilders, Seattle.—Status.—N. W. Halsey & Co., in offering at par \$40,000 of the company's 5 per cent bonds, subject to call at 105 (authorized issue, \$500,000), say:

A first mortgage on city real estate worth for building lots \$1,200,-090; plant, equipments and other assets, \$1,940,000. Net earnings, average six years, ten times interest charge. See V. 73, p. 1267.

Mutual Telephone Co., Des Moines, Ia.-New Bonds.-The \$400,000 of 6 per cent gold bonds dated May 1 1905 are known as improvement bonds and are secured by mortgage to the Equitable Insurance Co. of Iowa, as trustee; \$36,500 of these bonds are outstanding and \$36,000 are reserved to cover a like amount of bonds of May 23 1903 and \$100,000 for future extensions.

The new bonds are due May 1 1925, but are subject to call at company's option after Nov. 1 1909 in any amount at 103; no sinking fund. Inter-est payable Nov. 1 and May 1 at office of trustee. Denominations \$1,000, \$500 and \$100. Total authorized capital stock, \$450,000, viz., \$300,000

Pneumatic Transit Co., Philadelphia.—New Stock.—The shareholders on Aug. 5 authorized the increase of the capital stock from \$500,000 to \$1,000,000, the new stock to be preferred. The proceeds will be used for extensions.-V. 81, p. 508.

Putnam-Hooker Co., Cincinnati.-Stock Offered.-Frank W. Burgoyne, 41 East 14th St., Cincinnati, recently offered at 110 \$140,000 6 p. c. cumulative first preferred stock, dividends June and December, non-taxable in Ohio; par of shares, \$100.

The company was incorporated in West Virginia in November 1902 to deal in cotton goods. Authorized share capital, \$650,000, viz.: common, \$250,000; first preferred 6 per cent cumulative, \$200,000; second preferred 6 per cent non-cumulative, \$200,000. All of the com-mon and second preferred is owned by the men who are active in the

management. Of the first preferred \$70,000 is now outstanding. No bonds. Officers: President, James J. Hooker; First Vice-President, Benj. W. Putnam; Second Vice-President, Asa B. Morgan; Secretary, Kenneth R. Hooker; Treasurer, Lang S. Doggett. Headquarters, Cincinnati.

Reno (Nev.) Power, Light & Water Co.—Bonds Offered.— Julius Christensen & Co., Philadelphia, are offering at 105 and interest, by advertisement on another page, \$238,000 of this company's 6 per cent sinking fund gold bonds of 1904, all issued to acquire a controlling interest in the Washoe, Power & Development Co. and the Nevada Transit Co., neither of which has any bonds outstanding nor will issue The bonds offered are due July 1 1944, but are subject any. to call at company's option at 110 and interest after July 1 to call at company's option at 110 and interest after July 1 1909; interest payable Jan. 1 and July 1 at San Francisco or Philadelphia, at the option of holder. Trustee, Mercantile Trust Co., San Francisco, Cal. Limit of issue, \$750,000. of which \$212,000 previously sold, \$238,000 now offered and \$300,000 reserved to retire \$300,000 bonds of the Nevada Power, Light & Water Co. on optional date (V. 78, p. 1909). Capital stock, \$1,000,000. The mortgage covers the following property owned and

The mortgage covers the following property owned and the controlling interest to be acquired, viz.:

The mortgage covers the following property owned and the controlling interest to be acquired, viz.: Owned—(a) Water works supplying the clties of Reno and Sparks, Nev., with a combined population of about 15,000. Franchlses per-petual. (b) Water power plant, supplying power to consumers in the cities of Reno and Sparks. The present output is about 750 horse-power, which will be increased to 2,000 horse-power by the installation of addi-tional machinery. (c) Electric-light plant, supplying electric light to the two municipalities and for commercial purposes to the cities of Reno and Sparks. Franchises perpetual. (d) Gas plant, supplying gas to the cities of Reno and Sparks for lighting and heating purposes. Franchlses per-petual. (e) Ice plant and cold-storage plant, which constitute a large in-come to the company with comparatively small expense. (f) About 5,000 acres of land in and about the city of Reno, all susceptible of irrigation, for which the company has perpetual water rights. The value of the land is at least, say \$30 per acre, or \$150,000. To be acquired—The controlling interest in (a) the Washoe Power & Development Co., having a power plant located on the Truckee River (the only available power site left within 200 miles), dams solid masonry, buildings stone, equipment modern. While all the units have not been installed, the plant is in operation and developing 2,000 horse-power, all readily salable; (b) Nevada Transit Co., owning 4 miles of track and 5 cars, connecting the cities of Reno and Sparks. The operation of this road has been very profitable. The company acquires the Washoe Power & Development Co. on a basis of \$200,000 for its entire capital stock, and the Nevada Transit Co. on a basis of \$100,000 for its entire capital stock. The earnings for the year ending March 31 1905 were: Gross, \$156,597; net, \$94,944; total interest charges on \$512,000 (being the total amount of bonds outstanding during said period), \$30,720. It is confidently ex-pected that the acquirement of the Washoe Powe

Shippan Point Land Co., Stamford, Conn.—Bonds.— The Chas. W. Scranton Co., New Haven, Conn., is offering at par and interest the small unsold portion of a block of this company's \$200,000 first mortgage 6 p. c. gold bonds, dated April 1 1905 and due April 1 1910, but subject to call at option of company upon any interest day on or after Oct. 1 1906 at 106 and interest, or on or after April 1 1908 at 103 and interest. Interest, of on on after April 1 1908 at 105 and interest. Interest coupons, April and October, payable at Stamford Trust Co. (trustee), or at the Bank of the Man-hattan Company, New York. The company was incor-porated under the laws of Connecticut in April 1904; ap-praised valuation of property is over \$580,000. James S. Lapking 26 Bark Bar Stamford Corp. is Dradient and Jenkins, 36 Park Row, Stamford, Conn., is President, and Edward McVickar, 37 Pine Street, New York, General Manager.

President Jenkins on June 5 1905 wrote, saying-

The company has acquired a large tract of land on Shippan Point in town of Stamford, in quantity over 110 acres; 30 acres lie upon the extreme southern and southwesteru end of the Point, having a frontage on Long Island Sound of nearly a mile, the greater part of which is sandy beach, and the remainder a rocky shore. The company acquired this property from 26 different owners, and pald for it \$340,000. The work of installing a system of sewerage and of introducing city water and electric lights has progressed steadily since the property was purchased in April 1904, and new streets are now in process of completion. The capital stock is \$400,000, in shares of \$100 each; about one-half has been issued and the balance remains in the treasury. The money for improvement is obtained through the sale of this stock at par. The directors have decided to place a certain portion of the land on the market this year. A high-class residence development is pro-posed, and all proper restrictions will be placed upon each piece of land.

South Atlantic Car & Manufacturing Co., Waycross, Ga. -Purchase.-This company has purchased the plant of the former Georgia Car Manufacturing Co. at Savannah (V. 80, p. 2401) for an amount said to be \$65,000, payable in stock. -V. 79, p. 156.

Sunday Creek Co., Columbus, Ohio.-Capitalization.-President John H. Winder of Columbus, O., replying to a Thomson-Houston Trust Securities, Boston. — Term-ination of Series "D" Trust.—The trustees of series D, having disposed of all the securities held in trust, will make a final division of the funds in their possession on Aug. 28 1905 to holders of record Aug. 10.

United Button Co.—Reorganized Company.—This com-pany has been incorporated under the laws of New York with \$700,000 capital stock, all of one class (par of shares \$100), as successor of the old United Button Co., per plan in V. 80, p. 2402. The Bankers' Trust Co. of New York will probably be trustee under the new mortgage.—V. 80, p. 2402.

United Fruit Co.-See Northern Ry. of Costa Rica under "Railroads" above.-V. 81, p. 216.

United States Steel Corporation.—Called Bonds.—One hundred (\$100,000) first mortgage bonds of the Johnson Company called for redemption will be paid at the United States Trust Co. of this city on Sept. 1 at 105 and interest. -V. 81, p. 504.

United Telephone & Telegraph Co., Pennsylvania.— Status.—H. P. Taylor & Co., Pittsburgh, Pa., who, as stated last week, are offering bonds of the company, and its lessor, the Cumberland Valley Telephone Co., have issued a circular, saying-

The united system is operating 123 exchanges, equipped with central energy or magneto switchboards, and owns and had in operation on March 1 1905 18,251 telephone instruments, approximately 2,500 miles of pole lines, conduits in the cities of Altoona and Harrisburg, modern cable construction, and 20,000 miles of wire. The system is directly In connection with approximately 75,000 independent telephones not covered by its system in Pennsylvania. Connections are being made with long distance telephone companies operating in Ohio, New York, New Jersey Delaware and surrounding States. New Jersey, Delaware and surrounding States.

New Jersey, Delaware and surrounding States. Purchased by United Company: Keystone Telephone & Telegraph Co. (Montgom-ery County); Chester County Telephone & Telegraph Co. (Chester County); Dela-ware County Telephone & Telegraph Co. (Delaware County); Independent Tele-phone Co. (Lancaster County); Montour & Columbia Telephone Co. (Montour and Columbia counties); Shamokin Valley Telephone Co. (Northumberland Coun-ty); Home Telephone Co. (Union County); Schuylkill Telephone Co. (Schuylkill County); North & West Branch Telephone Co. (Lycoming County); Altoona-Phoenix Telephone Co. (Blair County); Central Commercial Telephone Co. (Cen-tre, Clinton, Huntingdon and Clearfield counties); People's Telephone & Telegraph Co. (Lebanon County), all in Pennsylvania. Purchased by Cumberland Valley Telephone Co. and leased to United Com-pany for 999 years: (1) In Pennsylvania—Dauphin County Telephone Co. (Dau-phin County); Hanover Telephone Co. (York County); Cumberland Valley Tele-raph & Telephone Co. (Franklin County); Adams County Telephone Co. (Adams County); Southern Pennsylvania Telephone Co. (Cumberland County); Juniata & Susquehanna Telephone Co. (Perry, Juniata, Mifflin and Snyder counties); (2) In Maryland—Maryland Telephone Co. (Mashington County); Boyds Telephone Co. (Carroll County); (3) Winchester Telephone Co. In Frederick, Clarke, Warren and Shenandoah counties in Virginia and Berkeley and Jefferson counties in West Virginia. The united system covers the central, southern and southeastern portions of

Shenandoah counties in Virginia and Berkeley and Jefferson counties in West Virginia. The united system covers the central, southern and southeastern portions of Pennsylvania, through the Cumberiand Valley into Maryland, West Virginia and Virginia, with main exchanges in Hollidaysburg, Altoona, Beiletonte, Lockhaven, Jersey Shore, Williamsport, Milton, Lewisburg, Sunbury, Danville, Bloomsburg, Middleburg, Lewistown, Miflintown, New Bloomfield, Pottsville, Mt. Carmel, Ashland, Tamaqua, Mahanoy City, Shamokin, Lebanon, Lancaster, Fphrata, Lititz, Coatesville, Downingtown, Phoenixville, West Chester, Chester, Media, Norristown, Pottstown, Harrisburg, Steelton, Mechanicsburg, Carlisle, Shippens-burg, Chambersburg, Greencastle, Gettysburg, Hanover, all in Pennsylvania: Hagerstown, Westminster, Damascus, Boyds, all in Maryland; Martinsburg, Charles Town and Shepherdstown, West Virginia; and Winchesre, Virginia.

Secretary S. R. Caldwell, on April 10 1905, wrote: "From the time of the purchase of the several plants in 1901 to Jan. 1 1905, the company has expended for the betterments of the property, extensions of its lines and combined system, and the connections by toll lines of its sep-arated parts, upwards of \$800,000. The work of rehabilitation and reconstruction is practically completed and we now have a modern and thoroughly well equipped telephone system in successful operation. During the past year our net earnings over fixed charges show a surplus of \$57,147 (V. 80, p. 1427). United Telephone & Telegraph Co —Incorporated in Pennsylvania

of \$57,147 (V. 80, p. 1427). United Telephone & Telegraph Co.—Incorporated in Pennsylvania Jan. 30,1901. Capital stock, \$2,000,000, par, \$100; first mortgage bonds of 1901, \$2,000,000 authorized, \$1,706,000 sold and \$204,500 reserved to cover following underlying bonds, viz.: Shamokin Valley Telephone Co., \$48,500; Montour & Columbia Telephone Co., \$40,000; Schuylkill Telephone Co., \$116,000. (See also V. 78, p. 829). Cumberland Valley Telephone Co.—Incorporated in Pennsylvania on Nov. 7 1901. Capital stock, \$1,000,000 (par \$100), of which a part is in treasury of United Telephone & Telegraph Co. 1st M. of 1902, \$1,500,000 auth., \$1,199,000 sold and \$95,000 reserved to cover under-lying bonds, viz.: Juniata & Susquehanna Telephone Co. \$95,000. (See also V. 79, p. 2752). Guaranteed by United Telephone & Telegraph Co., the total issue of \$100,000 North & West Branch Telephone Company's bonds.

Richard G. Park, Philadelphia, Pa., is President; W. D. Barnard, St. Davids, Pa., Vice-President; and S. R. Caldwell, Philadelphia, Secretary and Treasurer.

New Bonds.-The shareholders will vote Sept. 29 upon a proposed increase of the indebtedness from \$2,000,000 to \$2,350,000. See also V. 81, p. 564; V. 80, p. 1427.

Utah Copper Co.-Convertible Bonds.-The shareholders will meet Sept. 5 to sanction an increase in the authorized capital stock from \$4,500,000 to \$6,000,000; also to authorize an issue of \$3,000,000 10-year 6% bonds, each for \$1,000 principal, convertible at the option of the holders within five years from the date thereof into the stock, each bond into 50 shares of the stock, par value \$10. President C. M. MacNeill in a circular says:

letter of inquiry, says:

The capital stock is \$4,000,000, and is actual and not nominal. The company is the lesse of the Kanawha & Hocking Coal & Coke Co., the Continental Coal Co., the Buckeye Coal & Railway Co. and the Ohio Land & Railway Co. The stock of the Sunday Creek Coal Co. is substantially all owned by the new company, the Sunday Creek Company. The Sunday Creek Company does not take over the St. Paul & Western Coal Co. or the Boston Coal Dock & Wharf Co. These two companies will be operated independently as heretofore. Preparations are being made for a bond issue. See V. S1, p. 512.

Taylor Grain Co., Topeka, Kansas. - Mortgage. -- This compony has made a mortgage to the United States Trust Co., Kansas City, as trustee, to secure \$125,000 6 p. c. bonds of \$500 each, due June 1915. "Topeka Capital" June 28 said:

5000 each, due June 1915. "Topeka Capital" June 28 said: The company will now absorb the Gyrator Milling Co. and the two will be oper-ated as one. The capital stock of the Taylor Grain Co. has been increased from \$100,000 to \$150,000. According to the new trust deed, the mill shall be operated to its full capacity, which is 2,000 barrels a day. The mortgage also provides for the expenditure of about \$40,000 in improvements, which includes the bullding of a freproof warehouse. A sinking fund of \$10,000 a year is provided. The outstand-ing bonds for which T. B. Sweet is trustee, will be retired. This will leave the Tay-lor Grain Co. about \$75,000 in cash and one of the best milling plants in the State. The new Gyrator mill was built last year. About three years ago W. L. Taylor, President of the Taylor Grain Co., purchased the old Capital elevator and has been doing a grain business in Topeka ever since.

The operations of the company have already demonstrated the great extent of its ore deposits and the capacity of the present mill is wholly inadequate to treat the tonnage of ore which it is desirable and prac-ticable to produce. The proceeds from the sale of the proposed issue of convertible bonds are to be utilized in the erection of another mill of a capacity of at least 3,000 tons per day, and the probabilities are the capacity may ultimately be greatly in excess of said amount; to the retirement of the present issue of 7 p. c. bonds, amounting in the aggre-gate to \$750,000 (V. 79, p. 906); to providing working capital and for the general purposes of the company in carrying out its enlarged opera-tions. The bonds are to be convertible at the option of the holder at any time within five years from their date into the stock of the company at the rate of \$20 per share, or 50 shares of the par value of \$10 each for each \$1,000 bond. It will thus be seen that it is necessary to authorize an increase of the stock to provide for the retirement of the bonds. Under negotiations now in progress the company has assurances of dis-posing of its bonds when authorized.—V. \$1, p. 564. The operations of the company have already demonstrated the great

Virginia & Rainy Lake Co.—Purchase.—A press despatch to the "St. Paul Pioneer Press" on Aug. 1 announces that this company "has purchased for a consideration of nearly **\$5**,000,000 the properties (or the control) of the Rainy Lake Co., the Virginia Lumber Co. and the Duluth Virginia & Rainy Lake RR. The Rainy Lake Co. earries with it the Minnesota Land & Construction Co." William O'Brien of St. Paul is President, and D. G. Jones of Wausau, it is stated, is Secretary and Treasurer of the Virginia & Rainy Lake Co. See Duluth Virginia & Rainy Lake Ry. in V. 81, p. 558.

Wagner Electric Manufacturing Co., St. Louis.-Increase of Capital Stock .- The shareholders will meet at the office of the company, No. 415 Locust Street, St. Louis, on Oct. 4 1905, for the purpose of voting upon a proposition to in-1905, for the purpose of voting upon a proposition to in-crease the capital stock from \$500,000 to \$800,000. Among the directors are President S. M. Dodd, J. C. Van Blarcom, James W. Bell, Albert Blair, W. A. Layman. The company in January last resumed the payment of dividends (which had been suspended in 1900), making on Jan. 24 a quarterly distribution of 134 p. c., which, it was stated, would be the rate maintained during the year 1905.

Wilkesbarre Lace Manufacturing Co. of Wilkesbarre, **Pa.**—Stock Offered.—Subscriptions are being received through the People's Bank and the Wyoming Valley Trust Co., both of Wilkesbarre, Pa., for \$100,000 6 p. e. eumu-lative preferred stock. An advertisement says:

The only lace curtain plant in the world completely equipped to trans-form through a continuous process the raw cotion into a perfected curtain ready for use; now produces 55,000 pairs of lace curtains weekly. Cap-ital: common stock, \$500,000; preferred stock, 6 p. c. cumulative, \$500, 000; surplus, \$400,000. The common stock has paid semi-annual dividends of 3 p. c. for many years, and since 1900 has paid 5 p. c. semi-annually. Par value \$100 per share. J. W. Hollenback is President; Geo, S. Bennett, Vice-President; Clarence Whitman, Treasurer; H. A. Dunning, Secretary.

Windsor (Print) Co., North Adams.—Sale Aug. 23.-The sale of this company's plant at North Adams, it is announced, will take place Aug. 23 under order of the bank-ruptey court of the Southern District of New York.

(Walter A.) Wood Mowing & Reaping Machine Co., Hoosick Falls, N. Y.—Mortgage.—This company, which has outstanding \$2,500,000 stock (all common)—par of shares \$100, has made a mortgage to the Security Trust Co. of Troy, trustee, to secure an issue of \$1,500,000 5 p. c. 20-year gold bonds, to refund about \$900,000 of present 6 p. c. bonds sold bonds, to retaind about \$900,000 of present 6 p. c. bonds and debentures maturing Dec. 1 next, and to provide about \$500,000 for extensions of the plant and business. The company was incorporated in 1865 to carry on the business of manufacturing harvesting machinery established in 1852 by Walter A. Wood at Hoosick Falls, N. Y. It has recently commenced the manufacture of a full line of harrows and cultivators, the patterns and patent rights for which were purchased from the Buffalo Pitts Company.

The bonds are dated June 1 1905 and are due June 1 1925, but are all subject to call on any interest date at company's option at 105; also for [sinking fund at par, \$25,000 yearly. Interest payable Dec. 1 and June 1 at office of trustee and at First National Bank, New York. De-nomination \$1,000 and \$500.

The President is Seymour Van Santvoord; Vice-President and Secretary, Danforth Geer; Treasurer, L. Carroll Root.

-The Western Bank Note Co. of Chicago, having recently sold its building on the corner of Madison Street and Michigan Avenue, in which its offices are located, will, early in November, remove to the corner of 20th Street and Indiana Avenue, where it is erecting a handsome five-story and basement brick manufacturing plant, 50x160 feet in size, with one-story annex 100x160 feet for the printing department. The company is putting in a most modern and complete equipment of machinery for engraving, lithographing, em-bossing, printing, etc., and will be better than ever prc-pared to execute the highest class of bank and bond work. Mr. H. Victor Keane is President of the Western Bank Note Co. A new branch office has recently been opened at 515 Equitable Building, Baltimore, under the management of La Rue R. Coppage.

-T. A. McIntyre & Co. advertise in this issue a number of selected investment bonds suited to the needs of individuals or corporations. While the list is composed largely of steam railroad issues, there is also a block of guaranteed steel company 5s and a lot of electric railway and lighting 4s, the latter legal for [Connecticut Savings banks. They are offered at prices to yield from 3.63 to 4.75 per cent. Special circulars and additional information will be furnished on application to H. C. Wright, in charge of the firm's bond department.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, Aug. 11 1905. Encouraging reports of the condition of business have been quite general. As the fall season approaches the activity of buyers is increasing, and in a number of lines they have begun contracting with some show of freedom against their prospective requirements. Market prices quite generally have been firm, and in some instances advances have been reported paid. Increased activity has been reported from the iron and steel markets, and reports on the statistical situation are construed as showing an improving situation. Unusual activity has been experienced in raw sugars, the leading refiner being a large buyer at firm prices for both cane and European beet sugar. The monthly report of the Government's Agricultural Bureau reported favorable erop prospects and foreshadowed a record-breaking yield from the corn crop. The reports from Portsmouth, N. H., are interpreted as indicating that progress is being made towards peace by the plenipotentiaries of Japan and Russia.

Lard on the spot has had a good sale to both exporters and refiners. The market has been firm and prices have advanced rather sharply. At the higher prices the demand appears to be halting. The close was firm at 8.15c. for prime Western and 7.25c. for prime City. Refined lard has been in fair demand and higher, closing at 8.85c. for refined for the Continent. Sneuletion in lard for future delivery has the Continent. Speculation in llard for future delivery has been fairly active. Packers have been aggressive buyers and prices have advanced. The close was firm.

Pork has been in fairly active demand and higher, closing at \$14.75@15.75 for mess; \$13.50@15.75 for short clear, and \$16.00 @16.50 for family. Cut meats have advanced, and at the higher prices asked buyers are holding back. The close was firm at $6\frac{1}{2}c$. for pickled shoulders, $10\frac{3}{4}$ @11c. for pickled hams and $8\frac{1}{2}$ @10c. for pickled bellies, 16 @10 lbs. average. Beef has been quiet but steady at \$8.50 @9.00 for mess; \$10@10.50 for packet; \$12@12.50 for family and \$17.50@25 for extra India mess in tierces. Tallow has been dull but steady at 4½c. Stearines have been steady, closing at 8½c. or lard stearine and 8½c. for olco-stearine. Cotton-seed oil closed with a firmer tone, with prime yellow quoted at $30\frac{1}{2}$ @31c. Butter has been firmer, but yielded during the latter part of the week under full receipts. The close was steady at $17\frac{1}{2}$ @21c. for creamery. Cheese has been quiet but steady at $10\frac{1}{2}$ @11 $\frac{1}{4}$ c. for State factory full cream. Fresh eggs have been in fair demand and firm for desirable grades, closing at 20½ @21c. for best Western. Brazil grades of coffee have been in moderately active

trade demand, and as there has been no especial pressure to sell, prices have been well maintained, closing at 85% e. for Rio No. 7 and 9@91% c. for Santos No. 4. West India Rio No. 7 and 9@9%c. for Santos No. 4. West India growths have been in increasing demand and prices have been firmer, closing at $9\frac{1}{2}@9\frac{3}{4}c$. for good Cucuta and $11\frac{1}{4}$ @11½c. for good average Bogota. Speculation in the mar-ket for contracts has been fairly active, but it has been largely transferring holdings of September contracts to the more distant deliveries. Prices show only slight changes. The close was slightly easier under liquidation. Following The close was slightly easier under liquidation. Following are the closing asked prices:

		7.25c. March	
Sept 7.05c	Dec	7.35c. May	7.70c.
Oct 7.15c	Jan	7.40c. July	7.80c.

Raw sugars have been firmer and an unusually large volume of business has been transacted at a slight advance in prices, closing at 4½ c. for centrifugals, 96-degrees test, and 3½ c. for muscovado, 89-degrees test. Refined sugars has been fairly active and firm at 5.20c. for granulated. Spices have been in more active demand and firm. Teas have been in better demand and steadier.

Kentucky tobacco has been steady at unchanged prices, with a fair demand for low lugs and common leaf. Seed leaf tobacco has been fairly active. Samples of new crop to-bacco are beginning to be shown and fair sales have resulted at full prices. Sumatra tobacco has been more active and firm. Fairly large sales have been made of Havana tobacco and at firm prices.

-A. N. Chandler & Co. have issued an interesting circular containing a brief statement in each case regarding a long list of underlying or guaranteed bonds of New Jersey electric railway companies. There is also given a schedule showing the growth of population per mile between New York and Philadelphia.

-J. S. Bache & Co. of New York and Houston, Fible & Co. of Kansas City, Mo., offer at par and accrued interest \$500,000 Kansas City (Mo.) School District 3½% coupon gold bonds, issued July 1st of this year and due July 1st 1925,

Early in the week prices for Straits tin declined. Subsequently, influenced by stronger foreign advices, the market turned firmer, recovering most of the declines. The close was steady at 32.50@33c. Ingot copper has been firm but quiet, closing at 15.40@15.75c. for Lake and 15.40@ 15.75c. for electrolytic. Lead has been firm, closing at 4.60@ 4.70c. Spelter has advanced, closing firm at 5.75c. Pig iron has been in fair demand and firm at \$16 00@\$16 25 for No 2 Northern and \$15 50@\$15 75 for No. 2 Southern

Refined petroleum has continued in good demand and firm, closing at 6.90c. in bbls., 9.60c. in cases and 4c in bulk. Naphtha has been steady at 11c. for 71 degrees and 11c. for 76 degrees. Credit balances have been steady, closing at 1.27c. Spirits turpentine has advanced on light offerings, with interest payable January and July 1st, and both prin- \$3 60. Hops have been quiet but steady. Wool has been cipal and interest payable in New York. in fair demand and firm.

[VOL. LXXXI.

COTTON.

Friday Night, August 11 1905.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 62,871 bales, against 74,337 bales last week and 97,193 bales the previous week, making the total receipts since the 1st of September 1904 9,912,222 bales, against 7,123,266 bales for the same period of 1903-4, showing an increase since Sept. 1 1904 of 2,788,956 bales.

Speculation in cotton for future delivery has been on a limited scale and no important changes have occurred in prices. Outside speculative interests have done comparatively little in the market and the operations of regular traders have been largely of a scalping character. Early in the week, on reports of hot, dry weather in the South, prices were advanced a few points. Subsequently, however, advices were received showing good general rains over the cotton belt east of the Mississippi River, and the private crop reports during the latter part of the week were of a more favorable crop outlook in this section of the cottongrowing territory. Reports from Texas were that rains were needed. The demand for actual cotton has continued to drag. European buyers, it was stated, were doing practically nothing and domestic spinners were light buyers; in fact, reports enotinued to be heard that spinners are better supplied than it was generally believed. To-day there was a quiet market, but on continued dry-weather reports from Texas there developed limited buying, principally to cover short sales, and prices made a moderate advance, closing 11@13 points up for the day. Cotton on the spot has been quiet and closed at 10.75c. for middling uplands. The rates on and off middling, as established Nov. 18 1903

The rates on and off middling, as established Nov. 18 1903 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

Fair	e. 1.	.30 on!	Good Middling Tinged	E	ven
			Strict Middling Tinged		
			Middling Tinged		
			Strict Low Mid. Tinged		
			Low Middling Tinged		
			Strict Good Ord. Tinged		
			Middling Stained		
			Strict Low Mid. Stained		
Strict Good Mid. Ti	lnged 0.	.30 on	Low Middling Stained	1.50	off

On this basis the official prices for a few of the grades for the past week would be as follows:

· WEATHER REPORTS BY TELEGRAPH.-Reports to us by telegraph from the South this evening are on the whole of a satisfactory character. Rain has fallen in almost all localities but the precipitation has been light as a rule. In Texas cotton is reported to be improving slowly, although there are complaints of dry weather in the southern portion of the State. Elsewhere the crop is doing well in the main. New bales are moving quite freely.

Galveston, Texas.-In general the cotton crop of Texas is improving slowly, but there are complaints of dry weather from the Southern portion of the State. Rain has fallen on two days of the week, the rainfall being one inch and twenty-seven hundredths. The thermometer has averaged 83, the highest being 91 and the lowest 75. Abilene, Texas.—There has been rain on one day of the

week, rainfall reaching ten hundredths of an inch. The

thermometer has averaged 81, ranging from 66 to 96. Brenham, Texas.—It has rained on two days during the week, the rainfall being twelve hundredths of an inch. The thermometer has ranged from 72 to 95, averaging 84.

Corpus Christi, Texas.—There has been light rain on two days during the week, the precipitation reaching eight hun-dredths of an inch. Average thermometer 83, highest 90 and lowest 76.

Cuero, Texas.—We have had showers on two days during the week, the rainfall being seventy-four hundredths of an inch. The thermometer has averaged 87, the highest being 100 and the lowest 74.

Fort Worth, Texas .- It has rained on one day during the week, the rainfall being two hundredths of an inch. The thermometer has ranged from 68 to 98, averaging 83. Henrietta, Texas.—Rain has fallen during the week to

Nacogdoches, Texas.-We have had heavy rain on one day of the week, the rainfall being two inches and ninety-seven hundredths. The thermometer has averaged 82, ranging from 69 to 95.

Palestine, Texas.—We have had rain on two days of the past week, the rainfall being sixty-six hundredths of an inch. The thermometer has ranged from 70 to 94, averaging 82.

Paris, Texas.—The week's rainfall has been eighty-three hundredths of an inch, on one day. Average ther-mometer 85, highest 100, lowest 69.

San Antonio, Texas.-We have had rain on one day during the week, to the extent of ten hundredths of an inch. The thermometer has averaged 85, the highest being 100 and the lowest 70.

Weatherford, Texas.—We have had rain on one day during the week, the rainfall reaching eighteen hundredths of an inch. The thermometer has averaged 83, ranging from 66 to 100.

New Orleans, Louisiana.-We have had rain on three days during the week, the rainfall being forty-nine hundredths of an inch. The thermometer has averaged 83.

Shreveport, Louisiana.—The week's rainfall has been thirty-six hundredths of an inch, on two days. Average thermometer 84, highest 97, lowest 71.

Helena, Arkansas.—Crops are doing well, the rain coming as needed. First open boll was received on the 9th. There has been rain on two days during the week, the precipitation reaching one inch and twenty-four hundredths. The ther-mometer has averaged 80.3, the highest being 92 and the lowest 71

Little Rock, Arkansas.-Weather good for cleaning and maturing of crops. We have had no rain during the week.

The thermometer has averaged 83, ranging from 71 to 95. Memphis, Tennessee.—Cotton condition good. First open boll received on Thursday. We have had rain on three days of the past week, the precipitation reaching three inches and fifty-four hundredths. The thermometer has ranged

from 67.2 to 93.4, averaging 79.8. Nashville, Tennessee.—Cotton is doing fairly well. The week's rainfall has been one inch and seventeen hundredths.

Average thermometer 82, highest 95, lowest 68. Mobile, Alabama.—The crop is making fair progress, though there are some complaints of rust and shedding. There has been rain on four days during the week, the pre-cipitation reaching two inches and thirteen hundredths. The thermometer has averaged 81, the highest being 92 and the lowest 71.

Montgomery, Alabama.—Cotton is improving on lowlands, but on uplands is shedding some. Prospects, however, con-tinue satisfactory. We have had rain on two days during the week, the rainfall reaching one inch and thirty-five hundredths. The thermometer has averaged 81, ranging from 68 to 96.

Madison, Florida.-It has rained on three days of the

week, the rainfall reaching two inches and fifty hundredths. Average thermometer 80, highest 91, lowest 69. Smyrna, Georgia.—We have had rain on four days of the past week, the rainfall being two inches and sixty-one hun-dredths. The thermometer has ranged from 66 to 94, averaging 78.

Augusta, Georgia.—It has rained on four days of the week, the precipitation being four inches and fifty-four hundredths. Thermometer has averaged 81, the highest being 99 and the lowest 68.

Savannah, Georgia.—We have had rain on three days of the week, the rainfall being one inch and thirty-two hun-dreciths. The thermometer has averaged 81, ranging from 70 to 93.

Stateburg, South Carolina.—Plentiful and very beneficial rains have fallen on four days of the week, the precipitation reaching three inches and ten hundredths. The thermom-

eter has averaged 81, ranging from 68 to 97. Charleston, South Carolina.—It has rained on three days of the week, the rainfall reaching one inch and nine hun-dredths. Average thermometer 80, highest 90, lowest 72. Charlotte, North Carolina.—The week's rainfall has been five inches and twenty-nine hundredths, but no damage so

far reported. The thermometer has ranged from 66 to 96, averaging 78. The following statement we have also received by telegraph, showing the height of the rivers at the points named, at 8 a. m. of the dates given the last two years:

extent of sixty-five hundredths of an inch, on two days. Average thermometer 85, highest 103 and lowest 66.

Kerrville, Texas.-Rain has fallen during the week, to the extent of fifteen hundredths of an inch, on one day. The thermometer has averaged 83, the highest being 99 and the lowest 66.

Huntsville, Texas.-Rain has fallen on one day during the week, to the extent of ten hundredths of an inch. The thermometer has averaged 85, ranging from 69 to 100

Lampasas, Texas.—We have had rain on two days during the week. The rainfall reached twenty-five hundredths of the week. an inch. Thermometer ranged from 65 to 99, averaging 82. Longview, Texas .- It has rained on three days of the week, the rainfall reaching eighty-two hundredths of an inch. Average thermometer 85, highest 100, lowest 70. Luling, Texas.—We have had rain on one day during the

week, with rainfall of thirty-two hundredths of an inch. The thermometer has averaged 86, the highest being 98 and the lowest 73.

GOVERNMENT WEEKLY COTTON REPORT .- Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the crop in the Southern States for the week ending August 7 as follows:

North Carolina.—Cotton in west and central districts generally doing well, some not fruiting satisfactorily and is rusting and shedding; in east portion cotton is poor and turning yellow in sections. South Carolina.—Cotton deteriorated over whole State, due to rust, and plants are turning yellow and shedding leaves, squares and young bolls, some damaged by insects, opening in southern counties, first bale ginned on 1st.

Arkansas.—Cotton small and not fruiting well, being injured locally by Insects, but shows improvement generally. Tennessee.—Cotton improving and fruiting better. Oklahoma and Indian Territories.—Fair and hot, with heavy rains on 6th, caused cotton to improve to fair to good condition and fruit and boll better. better

Missouri.-Cotton good, except on lowlands, where it is grassy and turning yellow.

These reports on cotton are summarized by the Department as follows:

Cotton shows some improvement in Tennessee, western North Caro-lina, northern Alabama, Mississippi Arkansas, Oklahoma and Indian Territories, northeastern Texas and portions of Louisiana, but elsewhere over the cotton belt the crop has deteriorated. The prevalence of rust is very generally reported from the eastern districts, and also from portions of the central and western districts. Boll-weevils and boll-wormsjare doing considerable damage in Texas and western Louisiana, but in the first-named State they are less numerous. Picking is general in southern Texas and in some central counties of that State, and has commenced over the southern portion of the eastern districts.

COTTON CROP CIRCULAR.—Our Annual Cotton Crop Review will be ready in circular form about Wednesday, Sept. 6. Parties desiring the circular in quantities, with their business card printed thereon, should send in their orders as soon as possible, to ensure early delivery.

SEA ISLAND COTTON MOVEMENT.-We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (Aug. 11) and since Sept. 1 1904, the stocks to-night and the same items for the corresponding periods of 1903-04, are as follows:

	1904-05.		1903	3-04.	Stock.

JUTE CROP OF BENGAL.—Preliminary Forecast, Season 1905.—Under date of Calcutta, July 13, the Depart-ment of Land Records and Agriculture issued the preliminary forecast of the jute crop of Bengal for the season of 1905, which was in part as follows:

which was in part as follows: The area under jute last year, as worked out by Mr. Maddox, was 2,850,000 acres. (The detailed district returns according to the fig-ures which he accepted came to 2,850,900). In the present season the district returns show an area of 3,161,400 acres. In arriving at this figure 1 have reproduced the area reported by the District Officers, ex-cept in the case of Rangpur. It will be remembered that in 1904 the Collector of Rangpur estimated the jute acreage of his district at 428,900 but Mr. Maddox reduced the figure to 387,000. The earlier reports from this district for the current year pointed to a figure approximating to the Collector's figure of 1904. I have, however, received a telegram from the Collector's present estimate is somewhat below the mark. On the whole it will, I think, be safe to take the figure of Mr. Maddox, namely 387,000, until further information can be obtained. Turning to the collector's present estimate is somewhat below the mark. On the whole it will, I think, be safe to take the figure of Mr. Maddox, namely 387,000, until further information can be obtained. Turning to the outturn per acre, I find that the district figures work out to be-tween 86 and 87 per cent, and Rangpur only 66 per cent. On the one hand the tendency to under-estimate must be discounted; and on the other hand the damage done by caterpillars in certain districts, after the preparation of the returns, must be taken into consideration. On the whole I think it safe to take 87 per cent as the provincial outturn per acre. This is slightly larger than the figure accepted by the district last season, and the general similarity between the climatic conditions of the two seasons points to a somewhat similar outturn per acre. To sum up, if the climatic conditions of July, August and September 1904 are approximately reproduced in 1905, we may expect an outturn per acre in the current year 2 per cent greater than the outturn per acre of the pre-ceding year; but the ceding year; but the area under jute will be 11 per cent greater.

bolls, some damaged by insects, opening in southern counties, first bale ginned on 1st.
Georgia.—Crops seriously injured by drought; cotton deteriorating, badly da.naged by rust, complaints of black root and shedding of forms, leaves and young bolls continue, picking begun in southern section.
Florida.—Heavy to damaging rains over greater part of State, causing much damage to cotton, which is shedding and rusting badly on low lands, crop deteriorated generally, picking and other work delayed.
Alabama.—Cotton fruiting well in northern and castern counties, though still deteriorating over half the State, rust prevalent and shedding general, opening slowly, plcking started, first bale marketed on 3d.
Mississippi.—Cotton generally improving slowly and making good growth, early fruiting better, bolls opening in south: late cotton small, but doing fairly well, some laid by in grassy condition, rust, shedding, and boll worms damaging neat.
Louisiana.—Cultivation of crops pushed vigorously: cotton improved where cultivated prior to late rains, but much of crop ls in bad condition and is not growing, fruiting poorly, boll-weevil damaging crop in extreme west, scattered complaints of rust, shedding and caterpillars.
Texas.—Cotton much improved northeast, but average condition not much changed elsewhere; cotton has deteriorated slightly in some countles, cultivation active in northeast and crop is fair where clean, shedding in many localities, boll-weevil and boll-worm doing considerable damage in localities, but dry weather reduced numbers; picking general in south and some central countles.

NEW YORK COTTON EXCHANGE.—By a vote of 82 to 4, the members of the New York Cotton Exchange have decided to make Saturday, Sept. 2, a holiday in addition to the Labor Day holiday Sept. 4.

SHIPPING NEWS .- As shown on a previous page, the exports of cotton from the United States the past week have reached 73,889 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows: 17-1-2.1-1--

BREADSTUFFS.

Friday, Aug. 11 1905.

 $\frac{60}{512}$ Influenced by the declining prices for the grain there has been an easier market for old-erop spring-wheat flour, and the lower figures quoted by sellers have resulted in fairly good-sized sales of spring patents. New-crop winter-wheat 78 25 56 flours have had only a moderate sale and they have held steady. City mills have been quiet and easy. The demand for rye flour has been light, but prices have held about steady. 81 03 00 51 65 Corn-meal has been in moderate demand and steady.

2 - 7

Speculation in wheat for future delivery has been moderately active, but the tendency of prices has been towards a lower basis, they showing a considerable loss for the past week. The favorable crop outlook in the United States and Canada has been the principal depressing factor. The pri-vate reports received during the week have been quite gen-erally favorable. The monthly report of the Government's Agricultural Bureau, issued at noon on Thursday, was interpreted as foreshadowing a wheat crop for this country of about 700,000,000 bushels, which has been only once exceeded. Cable advices have continued to report unfavorable crop prospects in Russia, and it is understood that the indications are for a wheat crop below the average in India. These reports have had a steadying effect upon the foreign markets and have served to hold the declining tendency to prices in the American markets in check to some extent. the spot market has been quiet and easier. To-day the market was firmer on shorts covering and reports of crop-damage in Russia. The spot market was quiet.

Indian corn futures have been quiet and only fractiona changes have occurred in prices. Early in the week there was a fractional advance in prices on less favorable crop reports, coming principally from Illinois. The unfavorable outlook for the corn crop in Southeastern Europe also had some influence in favor of the market. The monthly report of the Government's Agricultural Bureau, issued on Thursday, confirmed the prevailing opinion that the outlook for the corn crop of this country at present is for a record yield, indicating, it was figured, a crop of close to 2,700,000,000 bushels. The spot market has held steady and a moderate volume of business has been transacted with exporters. Today the market was higher on reports of hot, dry weather in the corn belt. The spot market was firmer but quiet.

Oats for future delivery at the Western market have been quiet. Only slight fluctuations have occurred in prices, and they show only slight net changes for the week. The new crop has been coming to market with considerable freedom, the receipts at the primary markets being slightly in excess of those for the same week last year. There has been a good demand from both here assume and exporters, and this demand from both home consumers and exporters, and this has held prices fairly steady. To-day the market was quiet but steady.

AGRICULTURAL DEPARTMENT'S REPORT ON CER-EAL CROPS, &C., TO AUGUST 1.—The Agricultural Department issued on the 10th inst. its report on the cereal crops for the month of July as follows:

The Crop-Estimating Board of the Bureau of Statistics of the Depart-ment of Agriculture finds from the reports of the correspondents and agents of the Bureau as follows: The condition of corn on Aug. 1 was 89, as compared with 87.3 last month, 87.3 on Aug. 1 1904, 78.7 at the corresponding date in 1903 and a ten-year August average of 85.4. The following table shows for each of the States having 1,000,000 acres or upward in corn the conditions on Aug. 1 in each of the last three years and that on July 1 1905, with the ten-year August averages:

Preliminary returns indicate a winter-wheat crop of about 424,400,000 bushels (254,640,000 centals), or an average of 14.3 bushels (8.6 centals) per acre, as compared with 12.4 bushels (7.4 centals) per acre last year, as finally estimated. The following table shows the estimated average yield per acre in bushels and in centals in each of the eleven principal winter-wheat States in 1905 and 1904, the figures for 1904 being the final estimates issued Dec. 28: 78.7 85.4

GOVERNMENT WEEKLY GRAIN REPORT .-- Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the grain crops in the various States for the week ending August 7 as follows:

CORN.—Over the central and western portions of the corn belt and the greater part of the Middle Atlantic States corn continues in excellent condition, and, while needing rain in the Ohio Valley, the condition of the crop in that district is generally promising.

WINTER WHEAT.—Threshing of winter wheat is largely completed in the principal wheat States. This work has, however, been inter-rupted by rains in Kansas, and complaints of injury from moisture con-tinue from portions of Tennessee and the Middle Atlantic States. Plow-ing for fall seeding is in progress in the southern portion of the central valleys valleys.

SPRING WHEAT.—While rust in spring wheat is more or less prev-alent in the Dakotas and to a slight extent in Nebraska, Iowa and Minne-sota, the reports generally indicate that the crop has not sustained serious injury. Harvest is nearly finished in Iowa and is in progress in Nebraska and the southern portions of South Dakota and Minnesota, but has not yet begun in North Dakota, where the crop is generally in excellent con-dition, with long heads which are filling well. In Oregon harvesting is active, with yields below expectations: in Washington spring wheat is ripening rapidly and is beyond further injury from hot winds.

OATS.—Nearly all reports indicate that a good crop of oats has been secured. Harvesting is now finished, except in extreme northerly dis-tricts, where it is well advanced.

Exports of Grain and Flour from Pacific Ports.-The exports of grain and flour from Pacific ports for the week ending Aug. 10, as received by telegraph, have been as follows: From San Francisco, to China, 7,017 bbls. flour; to various South Pacific ports, 10,477 bbls. flour, 6,500 bushels barley and 2,000 bushels corn.

Combining thesefigures with those for previous weeks, we have the following, which covers the exports to foreign countries for the period since July 1, comparison being made with the corresponding period of the previous year.

THE DRY GOODS TRADE.

New York, Friday, Aug. 11 1905.

There has been a larger number of buyers in town during the past week than for some time, and buying of cotton goods has been on a rather more extensive scale. The majority of these buyers has been surprised to find that the scarcity of goods is more real than they had imagined, and it has only been by active canvassing and by paying full asking prices that they have been able to supply their needs at all. A good many have not been willing to do this, and have con-sequently gone away disappointed. The market has gone entirely beyond their control, and sellers are masters of the situation. Further advances have been recorded in many

business transacted earlier in the year, and it is maintained in some quarters that manufacturers are scarcely in a position to accept further business of this character. Bleached goods cannot be secured in large quantities, and agents are compelled to dole out their supplies in two and three-case lots. Bleacheries also are suffering from a shortage of labor. Wide sheetings, sheets and pillow cases are all firm and in fair demand. Ticks have been further advanced during the fair demand. week, and all lines of coarse, colored cotton goods are well-sold ahead, and are difficult to secure. Linings have been moderately active, and prices have been advanced. Prints have been moving in fair quantities, and those agents who anticipated the present situation and have goods on hand have been reaping their reward. Prices are higher, but are not yet on a parity with grav goods. Ginghams, both staple and fine grades, have been in moderate request, and are firmly held. Print cloths have been very firm, without any quotable change in prices. A fair business has been passing, wide goods, particularly, being in request.

WOOLEN GOODS .- The question of the relative merits of woolens and worsteds in men's wear light-weight goods is still causing a good deal of discussion, and the action of buyers of the higher grades of goods is being keenly watched. The belief is fairly general that woolens will regain a good deal of their lost prestige before the season is over, this being based to a certain extent on the supposition that as the great majority have shown a decided preference for worsted goods, buyers of the higher grades will naturally turn to woolens. It is also felt that the largest part of the worsted orders have been on initial business only, and that buyers will later turn their attention to woolens. A large business has been transacted in all lines during the week and advances have again been recorded. These are expected to be general before very long, particularly as lines that have been sold out are being withdrawn from the market day by day. These withdrawals have been to a certain extent offset by the opening of fresh lines. In view of the fact that many agents have oversold the production of the mills they represent expecting numerous cancellations, and that these cancellations now show signs of not materializing, it is expected that there will have to be a general scaling down of orders. There have been practically no developments in the dress goods market.

FOREIGN DRY GOODS .- Imported woolen and worsted dress goods have been featureless. Silks have been quiet and ribbons have not been active. Linens have been firm, with some fair orders placed for spring. Burlaps are strong, with further advances expected.

Importations and Warehouse Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending Aug. 10 1905, and Since January 1 1905, and for the corresponding periods of last year, are as follows:

lines, but the general impression now exists that they have gone high enough for the present and that a further raising of prices would be taking unjust advantage of the situation and would in the end react against sellers. A good many agents find that they are unable to fulfil promises made in the matter of delivery and are having a hard time to pacify cus- tomers. Mills have had to contend with the difficulty of securing adequate labor, and with a curtailment of produc- tion during the recent hot weather, while agents have over- sold the normal output. In spite of this, buyers still continue to act with great conservatism, and all are confining their	WAREH WAREH MPORT
purchases to fall requirements. Many still believe, in spite of the lessons of the recent past, that the price of cotton is fictitious, and that they will be able to purchase lower later	FOR Wee Auge Auge 1,314 2,333 1,427 448 440 185 2,349 2,349 185 185 185 185 185 185 185 185 185 185
on. Export business has been practically nil. Further ad- vances have been recorded in men's wear light-weight woolen and worsted fabrics, and business has been active. DOMESTIC COTTON GOODS.—The exports of cotton	00 MP 01 MP 024 044 044 044 044 044 044 044

weight sheetings are in urgent request, and asking prices are paid without question when goods for near-by delivery arc obtainable. A few inquiries from export sources have been received, but practically no business has been consummated. This is causing little comment in view of the large volume o	

STATE AND CITY DEPARTMENT.

News Items.

Maryland.-Constitutional Amendments.-At the coming general election on Nov. 7 two amendments to the State Constitution will be submitted to a vote of the people for approval. The first of these amends Section 1 of Article 1 in relation to the qualifications of a voter in the State. The second amends Section 34 of Article 3 by permitting the General Assembly to appropriate out of funds in the treasury not otherwise provided for not exceeding \$400,000 yearly and distribute the same to the city of Baltimore and the various counties in the State for the construction and maintenance of public highways.

Paterson, N. J.—Action on Bonds, Franchises, etc., Post-poncd.—Owing to the recent disappearance of the Mayor and the confusion resulting therefrom, the Board of Aldermen on Aug. 6 passed a resolution not to grant any fran-chises nor issue any bonds until a new Mayor be elected. The resolution follows:

Whereas, in view of existing conditions in the office of Mayor of the City of Pater-son, be it *Resolved*. That this board grant no franchises, incur no bonds and issue no liability upon the city whatsoever than that actually needed to economically maintain the expenses of the city government until such time as the citizens of this community shall select a chief magistrate to represent them in the government of the city.

It is stated that this resolution prevents for several months the granting of franchises to the New York & New Jersey Rapid Transit Co. and to the Paterson Light, Heat & Power Co., the former a high-speed electric road to New York City and the latter an electric company formed in opposition to the Public Service Corporation.

Philippine Islands.—Bond Offering.—The official notice of the offering on Aug. 25 of \$1,500,000 4% certificates of indebtedness will be found among the advertisements elsewhere in this department. For details of bonds and terms of offering see page 573 of last week's issue.

Santa Fe County, N. Mex.-Bonds and Interest Ordered Paid.-The following is taken from the St. Louis "Globe-Demoerat'':

SANTA FE, N. M., August 1.—Judge John R. McFie of the First Judicial District. Court to-day, upon petition of Levi Spiegelberg of New York, issued a temporary mandamus to the Santa Fc County Board of Commissioners directing them to levy a tax to pay the principal and interest on county bonds of 1852, upon which the county has defaulted. The county's outstanding indebtedness is \$1,000,000, while its assessed valuation is less than \$2,000,000.

See comments on page 2139 of our "State and City" Section for May 1905.

Bond Proposals and Negotiations this week have been as follows:
