.

THE FINANCIAL SITUATION.

The elections have served to be of absorbing interest the past week. There appears to have been no landslide of voters in New York City. The candidates for the more important offices whom the public had previously assumed as the successful nominees were all elected, but by a much smaller vote than anticipated. District Attorney Jerome's vote was, under the circumstances, a marvel, for although the plurality was less than anticipated, it reached the substantial figure of 11,400; Mr. Hearst's vote was probably larger than it had been estimated by any but his own followers; yet as a number of the Republican Assembly nominees were elected where Democrats usually have been, it was assumed that the ante-election report of a swap of votes between the party leaders had been carried out in that particular case. The most disappointment was, however, felt in the plurality announced for Mayor McClellan. His administration had proved for so many reasons unusually satisfactory that his plurality, which was only 3,400, had been reckoned as a minimum at as many thousands.

It was, however, hoped and supposed that after the votes had been counted and declared that the election excitement would come to an end. On the contrary, it seems that Mr. Hearst did not mean to have his campaign close with so short a record. The reaping of an aftermath of noxious weeds has proved to be a fitting sequel to a canvass that has been little else than the sowing of the seeds for just such a growth. A legal proceeding was begun by Mr. Hearst Tuesday evening and an order granted at 10:30 o'clock the same night. Whether the order was legal or not remains, of course, for the courts to decide. It seems certainly to have been very loosely drawn if its execution as carried out was allowable under it. The order, judged from the outcome, makes it appear as if the applicant for the order must have drawn it. For if there had been an evil spirit abroad tampering with ballot boxes, the execution of the order as described by the morning press would certainly be just suited for its rampant indulgence.

the people no thought but of violence and cruelty as a In the first place the order was drawn, signed and executed in the night. If there ever was an remedy and method of securing relief. order which should have been carried out in broad So it comes about that Count Witte has no condaylight it was one affecting the handling of boxes stituency—he has got to build up one. That is the eovering the evidence of the truth or untruth of the problem that confronts him. If the Cabinet has a fraud charged. These boxes likewise contained all the staying power there is a possibility of its gathering ballots for all the candidates running and used at the strength and stability by slow degrees, if it also shows election held on that day. Here were a large number special wisdom. Of course it cannot grant universal of parties equally interested with Mr. Hearst in the consuffrage at present. But omitting that, it can encourtents of these boxes and who in fairness ought to have age delay in some measure. One good and probably tranquilizing act has been reported as having grown had notice of the proceeding, and yet no one of them was notified. Even Mayor McClellan was not inout of the Cronstadt riot and its suppression; that is formed of the transaction, so that he might, like Mr. the removal of General Trepoff from the office of Gov-Hearst, have had the opportunity to send watchers ernor-General of St. Petersburg and Assistant Minister to look after the evidences of his election and see that of the Interior. If we judge rightly, his administrathe boxes were not tampered with while being transtion has been the personification of harshness and ferred to the Election Bureau. The New York cruelty, exciting the violent hatred of the people. The "Times" of November 9 reports that "scores of Hearst members of the Zemstvo Congress, which is to meet November 19, will, it is feared, bring with them no followers' gathered at his headquarters to receive orders for watching the removal of the boxes." spirit of compromise. Count Witte, however, is a power in a matter of conciliation, and as he has the It was reported by the same paper that it was about 1 o'clock in the night when the police began moving the Czar's ear, he may have the means for staying the harshboxes to the Bureau of Elections. No one was there ness of the demands of the Congress. We draw some to receive them, so that the reserves were ordered out optimism for the future of Russia out of the settlement

from the Tenderloin station to watch the boxes on the sidewalk till the Bureau opened." Indeed, "from midnight Wednesday until 5 o'clock Thursday afternoon Manhattan's vote stood in front of the headquarters of the Board of Elections." During all that time the ballots were either piled up in wagons or strewn along the curbs. What credence can be given to the contents of those boxes after such a midnight journey as that and such an opportunity during the subsequent hours of exposure for manipulation by Mr. Hearst's followers? Had Hearst's object been to hide the guilt of his own partisans, he could not have concocted a scheme more thoroughly suited to that purpose.

The state of Russian affairs seems to be fearfully disturbed and disheartening to those who had been anticipating a better outcome under the influence of the Czar's conciliatory course. The mutiny and riot at Cronstadt this week makes one almost despair of the future. This is especially true, when it is related that rapid-firing machine guns were used against the rioters while the rioters were marching through the town shooting and terrorizing the inhabitants; also butchering and burning the Jews without mercy. Perhaps these accounts are greatly exaggerated. We must hope so. Just now progress seemed to be making headway towards an organized reform movement. Of course what is being attempted there is beset by great difficulties, and after all may be futile. Count Witte had formed his Cabinet, and it was stated to be composed of men distinguished by integrity, devotion to work and administrative capacities of a high order. But he says: "I find myself confronted by a mighty ocean and with only a cockleshell on the shore. You say the boat will carry me across to the other shore, and I enter it because there is no other craft in sight." That probably expresses correctly the desperate character of the situation. Count Witte stands between the only two parties Russia seems to contain. No considerable growth of moderate conservative sentiment would be natural with such a government as has existed there. Violence and cruelty in the ruling classes produce in

of the Finland difference. That affair seemed full of \$5,294,537,140 tons. In other words, the service rendifficulties. They have been harmonized. The Rus- dered in 1905 formed 1,138% of that rendered in 1876 sian Government is not going to be changed by magic into a Constitutional Government with all its various discordant peoples at peace with one another and with it. That calls for time—probably a long time. In the meanwhile, the least gain towards that end will be looked at hopefully.

The election and the electoral contest (as Mr. Hearst calls it) have both of course had some effect on Stock Exchange values. The former was less important, but the latter disappointed speculators, as it kept the election an unsettled quantity. Other than stated. the situation in that particular is viewed differently by different people, according as each individual gives more or less weight to the hysterical work of the contestant. Passing these, both of which if alone would probably have but little influence on Stock Exchange business, we have the money market as the foremost incident of the week. After the election, at the opening Wednesday, money ruled at $6\frac{1}{2}\%$; from that figure the rate for call loans quickly rose to 10%, at which considerable money was loaned. Since then the highest rate has been 15% and the close vesterday was at 15%. These high rates seemed to have but little effect on foreign exchange, and consequently that feature was looked upon as a bad one, indicating, as assumed, that the foreign trade conditions were running decidedly against the United States, the argument being that if 10 and 15% could not force an inflow of gold from Europe the foreign situation, is more against us than has been generally believed. Probably the truth is that the extreme rates are generally thought to be temporary. When the public settles down to the view that high rates are required by the conditions and likely to stay for a time at least, foreign exchange may break. It must be remembered that our associated banks, so far as each is concerned, are in a poor state. Last Saturday's return only left a little more than \$2,000,000 surplus. This week the demand from the interior has come from every section, while the banks have also been losing by Treasury absorption.

sant Fish of the Illinois Central Railroad Company at the annual meeting of the stockholders on October 18 have been issued in printed form. The document is a very instructive one and merits wide circulation. each out of the late year's earnings, but even with We adverted to the address in our issue of October 21. but our comments were based on the telegraphic synopsis of the speech, and the full report now at hand discloses some further facts and features not touched upon by us at that time. Mr. Fish lays particular emphasis on the increased service rendered the public. average rate per cent per annum of interest paid on The comparison, it will be remembered, was between the funded debt in 1905 was only 3.78%, as against the results in the calendar year 1876 and those for the an average of 5.44% in 1876. But notwithstanding fiscal year ending June 30 1905. In the earlier year this lowering of the interest rate, only 14.89% of the the Illinois Central Railroad moved 51,238,031 passenentire gross receipts was available for distribution to gers one mile; in 1905 it moved 583,481,895 passengers the shareholders in 1905, as against 21.70% of the gross one mile, showing an increase of over 532 millions. receipts so available in 1876. On the other hand, the The number of tons of freight moved one mile has inemployees in the service of the company have been creased in an even greater ratio. In 1876 the movebenefited in the same way as the shipping and travelment was 264,602,314 tons; in 1905 it was 5,559,139,-454 tons, an expansion in the marvelous figure of ling public. The number of employees is now 31,223,

in the case of passengers and 2,100% in the case of the freight traffic. Of course, in the interval the road has been considerably enlarged, but even on the basis of the units of service rendered to the public per mile of road operated there has been a most marvelous expansion—that is, in 1876 the units of service (passengers and freight combined) were only 285,142 per mile of road, whereas for 1905 the average was 1,404,378 per mile.

Mr. Fish points out that in considering the increase in service rendered it must be remembered that at the end of 1876 the Illinois Central Railroad Company had been operating the whole of its lines in Illinois for twenty years and the lines in Iowa for more than nine years, and that the railroads which have since been taken over and are now operated by the company are of much later construction, and when taken over had a comparatively light traffic. That is to say, the increase in the density of the service rendered upon the old lines which were in operation in 1876 has been much greater than is indicated by the figures given, which cover all lines now operated. However, taking the figures as they stand, they show, it will be seen, that during the late year the company rendered to the public with respect to each mile of railroad operated a service which is nearly five times as intense as was the service rendered in 1876, while the volume of the service rendered has increased in respect to passengers carried one mile more than eleven-fold and in respect to tons of freight carried one mile fully twenty-one times. Mr. Fish concluded his remarks in these words:

As it has now become quite the fashion, even among those occupying high places in our Government, both State and Federal, to decry the railroads for failing to perform their duty towards the public, I want in this manner to demonstrate to you, who collectively own this property, that this company has done, and is doing increasingly, its duty to the public. Permit me to add that I believe this fact is appreciated in the territory served by the company in which so many of the stockholders live.

In the tabular statement presented by Mr. Fish The bank return of to-day will consequently require there are various other facts and figures revealing the further contraction in loans. same trend—showing, we mean, that the benefits from the operation of this large system have accrued The interesting remarks made by President Stuyvemainly to the public, to shippers and employees alike, and that the proprietors, the shareholders, have fared not nearly so well. The Illinois Central, as will be recalled, declared two extra dividends of $\frac{1}{2}$ % this extra distribution the total payments to the shareholders were only 7%, whereas in 1876 the rate of dividends per annum was 8%. The credit of the company, through the excellence of its management, has increased to such an extent in the interval that the

as against 4,573 in 1876. The amount paid out in 5%, at which it had stood since October 3d, to $5\frac{1}{2}\%$. wages in 1905 was \$20,902,737, as against but \$2,548,-047 in 1876. Most important of all, the amount paid in wages formed 42.22% of the gross receipts in 1905, as against only 36.19% in 1876. Furthermore, the average yearly wage of each person employed was \$669 47 in 1905, against \$557 19 in the earlier year. And the Illinois Central Railroad of course does not stand alone in this respect. Similar comparative figures for other large systems would in nearly all cases reveal the same result. Under these circumstances, is it any exaggeration to say that United States railroads have been in the highest degree public benefactors?

The statement made by the "Iron Age" of this city that the country's pig iron production has established a new high record occasions no surprise. The demand for the metal has been on an enormous scale. Orders for iron and steel products in all their various forms have been pouring in in such a way that producers have scarcely found it possible to take care of the same. And the activity and buoyancy have been 3 and 4% bonds for the 2% consols. apparently increasing with each succeeding week. The railroads have been the principal factors in this movement, there being, one would imagine, no limit to their orders for new equipment, for rails and for everything needed in the operation of a railroad. In part these extraordinary orders have followed from the fact that last year, owing to the antecedent trade depression, the roads restricted their purchases to absolute necessities. Now, with their facilities taxed to the utmost they find it imperative to arrange for these deferred purchases and for current wants at the same time. If anything should occur to disturb the prosperity of our railroad transportation interests, the whole outlook in the iron and steel trades would unquestionably change very suddenly. Fortunately no danger of this kind threatens. According to the statistics compiled by the "Iron Age" the production of pig iron in October, as already stated, exceeded all records, reaching 2,053,127 tons for the coke and anthracite furnaces, to which must be added, it is stated, about 30,000 tons for the charcoal furnaces. undesirable. This compares with 1,899,500 tons produced in September and 1,741,935 tons produced in July. The rate of production for the country is, therefore, close to 25 million tons per year. On November 1 1905 the capacity of the active furnaces in blast was 460,449 tons per week-of course, the very largest ever reported. What a contrast this presents with some very recent periods will appear when we say that on August 1 last year the production was only 246,092 tons per week, and on January 1 1904, which was the period of intense depression in the trade, the output was no more than 185,636 tons per week. These figures relate entirely to the make of pig iron-the raw material which lies at the base of all other forms of iron and steel. The record with reference to the finished products of iron and steel is much the same. As showing how enormous the output of the steel works is, our contemporary points to the record of the plants of the United States Steel Corporation, which alone in October produced 1,172,951 tons of steel ingots.

With this exception there was no change in official rates by any of the European banks this week. Compared with last week unofficial, or open market, rates were steady at London and at Paris and $\frac{1}{2}$ of 1%higher at Berlin and at Frankfort.

The striking feature of the statement of the New York Associated Banks last week was the reduction in the surplus reserve by \$10,076,650, to \$2,354,275, the lowest since April 4 1903, when it was 2,130,825. The cash loss last week was \$7,405,100; loans were \$16,453,000 and deposits \$10,686,200. increased Twenty-seven banks were below the reserve of 25%cash to deposits and one institution held as surplus a sum more than $1\frac{1}{2}$ millions greater than that shown by all the institutions. The bank statement of this week should reflect, among other items, the transfer hither from San Francisco of \$905,000 and the transfer hence to New Orleans of \$1,300,000, to Chicago of \$500,000 and to St. Louis of \$800,000. Refunding operations thus far, since they began in October, have resulted in the exchange of \$41,375,500

The quite unfavorable condition of the banks, as regards reserve, which was disclosed by last week's statement; apprehension lest the result of the municipal election might be of a disturbing character, and calling of loans by some of the larger banks, caused a sharp advance in call money to 8% on Monday. On Wednesday further calls of loans and an unsettled feeling due to preparations to contest the election influenced a rise in rates to 10%. On the following day expectations of another unfavorable bank statement this week which might carry the reserve below the 25% limit induced additional calls of loans and the rate rose to 15%—the highest since April 3 1903. Secretary Shaw was in the city on that day and it was reported that he would endeavor to relieve the situation by increasing deposits of public funds in the depository banks; it was stated, however, that he had, after consultation with leading bankers, decided that Treasury intervention was

Money on call, representing bankers' balances, loaned on the Stock Exchange during the week at 15% and at $4\frac{1}{2}$ %, averaging about 8%. Banks and trust companies loaned at 6% as the minimum, though the majority placed their funds at the higher rates ruling each day. On Monday loans on the Exchange were at 8% and at $4\frac{1}{2}\%$, with the bulk of the business at $6\frac{1}{2}\%$. On Wednesday transactions were at 10% and at 6%, with the majority at $7\frac{1}{2}$ %. On Thursday loans were at 15% and at 6%, with the bulk of the business at 8%. On Friday transactions were at 15% and at $7\frac{1}{2}\%$, with the majority at 12%. Time loans were in good request for the shorter dates and quotations on good mixed Stock Exchange collateral were 6% for sixty days, $5\frac{34}{0}6\%$ for ninety days, $5\frac{1}{2}\%$ for four and $5@5\frac{1}{4}\%$ for five to six months. Scarcely any business was done in commercial paper and rates were nominally $5@5\frac{1}{2}\%$ for sixty to ninety day endorsed bills receivable, $5@5\frac{1}{2}\%$ for prime and $5\frac{1}{2}@6\%$ for good four to

The Imperial Bank of Germany on Saturday of ast week advanced its official rate of discount from

The Bank of England's rate of discount remains

six months' single names.

unchanged at 4%. The eable reports discounts of weak, breaking heavily 50 points all around in the sixty to ninety day bank bills in London 4@41.5%. The open market rate at Paris is 21/2 @3% and at Berlin and Frankfort it is 47/3@5%. According to our special cable from London the Bank of England gained £378,945 bullion during the week and held £31,888,685 at the close of the week. Our correspondent further advises us that the gain was due to imports of £620,000 (wholly bought in the open market), to exports of £55,000 (of which £5,000 to Ecuador and £50,000 to the Continent), and to shipments of £186,000 net to the interior of Great Gritain.

Though money was active and higher early in the week, foreign exchange did not materially respond to this influence until Thursday. The market fell off on Monday, reacting, however, towards the close, owing to a good demand for remittance for the settlement of maturing finance bills and for stocks sold for European account; there was also some inquiry for bills for the transfer of Japanese balances. On Wednesday the tone was firmer because of a continued demand and a meagre supply of bills, both commercial and bankers, and though there was a slight decline in the afternoon, influenced by the 10% money rate, the market partially rallied at the close. On Thursday it opened heavy and fell off until the afternoon, when the rise in call money to 15% caused a withholding of the demand, bankers preferring to employ their funds in the loan market, and there was a sharp fall in all classes of bills to the lowest of the day. Franc finance bills were drawn to some extent and there were also fairly liberal offerings of sterling loans, both of which contributed to the decline in the market. Bankers express the opinion that the November maturities of finance bills have now nearly all been either settled or provided for through the procurement of contracts for cover, and therefore that this special demand for exchange will soon subside. So far as the remittance of Japanese balances is concerned it is regarded as probable that the untransferred sum will be retained for employment in our money market, at least so long as it can be used to as great advantage as it can be in London. Grain exports are now increasing in volume, and though this commodity does not add so largely to the supply of bills as does eotton, its export will have some influence in contributing to the current requirements of the market. There appear to be some indications that the cotton export movement will soon be resumed in normal volume for the season. But even then the large imports may keep the market bare of exchange. Gold received at the Custom House during the week \$77,521.

Nominal rates for sterling exchange are $4.83\frac{1}{2}$ @ 4 S4 for sixty day and $4 87@4 87\frac{1}{2}$ for sight. The afternoon. Long fell to 4 8250@4 8265, short to 4 8610@4 8625 and cables to 4 8665@4 8680. The market was weak on Friday, with long off 35, short 20 and cables 25 points, compared with the previous day.

The following shows daily posted rates for sterling exchange by some of the leading drawers:

THE ELECTIONS.

There are several ways in which the remarkable

market was steady on Saturday of last week and, results of last Tuesday's elections may be regarded. compared with the previous day, rates were 5 points The inference commonly drawn is that the vote higher for long and short at 4 8320@4 8325 for the represented an uprising of the people against what former and at 4 8675@4 8685 for the latter. On is known as "boss dictation." This view of the Monday the tone was generally heavy at a decline of case, so far as it goes, is undoubtedly correct. 30 points for long to 4 8290@4 8310, of 20 points for It is certainly true that the watchword of the short to 4 8655@4 8670 and of 15 points for cables to campaign which appealed most immediately and 4 8715@4 8730. Tuesday was the election holiday. forcibly to the people, from Maine to California, On Wednesday the tone was firmer at an advance was denunciation of political bosses. But while this phase of the campaign was of predominant importance, of 10 points for long, to 4 83@4 8325, of 5 points for we greatly doubt if it would have attained such a short. to 4 8660@4 8670 and of 5 points for cables, to 4 8715@4 8725. On Thursday the market was place without the coincidence of two other factors in

the canvass. One of these, beyond any question, was the popular resentment and indignation which have been growing rapidly during the past year, over the succession of scandals brought to light in public affairs and in the business world. Let us grant that many of these scandals have been exaggerated as to their significance on the general situation; nevertheless, the fact that investigations as to wrongful use of other people's money have been constantly in progress, affecting even the important executive departments of the Federal Government, and that the findings have been very severe, gives excuse for the popular feeling.

Along with this has come the wide publication of magazine articles dealing with the corruption of party governments in many, particularly of the larger, cities. The influence of these and similar articles would have been great on an electoral campaign, even had they not been reenforced by the wilder utterances against the "Money-Power" by magazine sensationmongers-utterances which caught the more ignorant portion of the public all the more quickly because they were so extravagant. And if this element in the situation were not enough to explain why this week's election was chosen for a rather general overturning of existing powers, the fact might well be alleged that the normal time for one of this country's habitual reactions in political sympathies was overdue. It theory, that at intervals of five years or thereabouts the mass of voters, including both ignorant and intelligent, swing away from the party which has previously received the bulk of their vote, and transfer enormous majorities to the other side. Of this nature were the famous political reactions of 1882 and 1890, each of which was as radical in its nature, as widespread geographically, as varied in the particular issues alleged in the different sections of the country, and yet as uniform in its general tendency as has been the political reaction of the present year. Indeed, we have even been inclined to think that some such reaction would have come in American politics a year or more ago but for the gravity of the minority party's blunder on the currency question in the campaigns of 1896 and 1900, and the business prosperity of the recent years.

Possibly because it was so long delayed, this week's large, was to throw a large majority back from the reaction has been proportionately violent. It is a party in power to another and equally conservative highly interesting fact, to be judged in the light of the party. In 1896, open avowal of Socialist propaganda on the Presidential platform and by the Presidential Republican Party's huge majorities of the past few candidate brought at the polls in November so indifferelections, that the struggle outside of New York City has been largely a struggle between contending eleent a response as to put wholly out of power, for many ments in that party itself. In Philadelphia, for exyears to come, the party which nominally stood back of such declarations. In short, it was the specific ample, party lines were so far obliterated that the contest against the Republican machine was led by the promises of individual gain and the spectacular way in which the whole campaign of the present season city's Republican Mayor. In Ohio, the man whose denunciation of the Republican "boss" of Cincinnati was carried through that, produced the anomaly referhad much to do with the party's overwhelming defeat red to. of Tuesday was Secretary Taft. In New Jersey, the Some of the grounds which were active in New York contest at the polls last Tuesday did not excite onewere the same as controlled in Pennsylvania and Ohio. half the interest that was converged on a contest The feelings of political unsettlement and resentment at boss dictation which pervaded all the United States at the primaries two months ago, when the power of the Republican leader in the north of the State was made the voters who entertained them follow contested and overthrown by a Republican who took what seemed the line of least resistance. That the field against him. We mention these considerathey were led astray by the specious promises tions largely by way of showing that there is al- of a demagogue and the appeals of sensational news-

ways a way out for the American people in a demonstration of political independence, even when they seem to have surrendered their destinics implicitly for the time to one or the other of the great political parties.

In most respects it may be readily discerned that the New York City election was governed by precisely the influences which we have described. There were, however, some peculiar elements in our own municipal struggle which call for separate comment. Mr. Jerome's extraordinary independent canvass for the District Attorneyship, and his equally remarkable success, may plainly be put down to the popular uprising against dictation of convention nominations by the "bosses" and to a general desire to have in the prosecuting offices men in whom the community at large has confidence. The case of the Mayoralty vote is, however, somewhat different. It is impossible to explain the extraordinary vote of Mr. Hearst except as a demonstration of popular unrest and class feeling. Let it be noticed that the vote polled for this candidate-225,166 out of 590,866, or much more than one-third of the total vote—was cast for the nominee of no established party and for a candidate running without a regular organization. It is perfectly plain, then, that the bulk of this vote must have been drawn from one or the other of the older parties, and the problem, what it means, may well be considered.

has been so frequent an occurrence as to become a Is this heavy vote in Greater New York such a sign recognized tradition in politics, and a truism in political of popular unsettlement as to warrant misgivings over our political and industrial future? We have no such belief. In the first place, the promises Mr. Hearst's partisans made were sufficient alone to attract all the elements of social discontent at present existing. The people were led to believe that everything was to be given them at half-price and labor was to be paid for at double the present price when Mr. Hearst was elected. A good illustration of the force and alluring power of such promises are found in the 3-cent ride on the Brooklyn Rapid Transit Railroad and the 15,000 plurality in Brooklyn for Hearst. Let it be remembered, however, in judging whetherthis outburst means a permanent political change, that the logical time for a Socialist explosion on election day arrived in 1894 and 1896, immediately after the period of depression and hard times. In 1894 the result, so far as concerned New York City and the country at

1405

papers is hardly to be wondered at. But that we have in the figures any indication of the rise of a Socialist party which is hereafter to control elections in this country, we no more believe than we believe that the similar overturn in Philadelphia means the rise of a new party, or than we believed in 1886 that the vote for Mr. Henry George which, like that for the third tieket of last Tuesday, was a strong second in the poll, meant that the single tax and socialistic reforms were on the way toward enactment. The nineteen ensuing years have shown whether they were or not.

NEW RAILROAD PROJECT'S AND THE PACIFIC COAST—ARTICLE II.

In the last issue of the "Chronicle" attention was directed to the new movement of railroads westward. In the following table we bring together the various Pacific roads now in operation and show the dates on which they severally were opened:

DATE OF COMPLETION OF PACIFIC LINES.

(1) Union Pacific-Central Pacific, to San Francisco, etc.

To San Francisco, via Union Pacific	10	1869
Via narrow-gauge lines of Denver & Rio Grande and Rio Grande Western (now members of the Gould		
system)May	18	1883
To Portland, Ore., via Oregon Short Line RR. (controlled)		
and Oregon Ry. & Navigation Co., northwesterlyDec. Via standard gauge of Denver & Rio Grande (also		1884
Colorado Midland, then controlled by Atchison, now	• •	E* 1
by D. & R. G. and Col. So.) and Rio Grande		
WesternNov.	16	1890
To Los Angeles, via San Pedro Los Angeles & Salt Lake Ry. (one-half owned)aApril	18	1905
(2) Southern Pacific to Los Angeles and Goshen (thence to		
San Francisco over Central Pacific), the Eastern con-		
nections being— Via Deming, N. M., and Atchison Topeka & Santa Fe Mar.	18	1881
Via Sierra Blanca, Tex., and Texas & PacificdJan.		
Via El Paso, Tex., and Gal. Har. & S. A. (controlled)hJan.	15	1883
(3) Northern Pacific RR. to Portland, Seattle and Tacoma-		
Via line of Oregon Ry. & Navigation Co. (then allied		
with Nor. Pac., now in Union Pacific system), Uma- tilla, Ore., to Portland, Ore., thence over line owned		
to Tacoma and SeattleSept.	8	1883
Via own switchback over Cascade MountainsJuly	1	1887
Via Cascade Tunnel (owned)	27	1888
(4) Atchison Topeka & Santa Fe, via the Atlantic & Pacific		
RR. (then partially, now fully, controlled) to the Needles, Cal.—		
Connection made at the Needles with Southern Pacific Oct.	21	1883
Trackage rights secured over Southern Pacific to San		
FranciscoOet.		
Via own rails to San FranciscokMay	I	1900
(5) Canadian Pacific Ry. trans-continental line (to	20	1996
Vancouver)xJune (6) Great Northern Ry., St. Paul to SeattleMay		
a Opened for through traffic May 3 1905. d Opened for	thr	ough

a Opened for through traine May 3 1905. a Opened for through traffic about Feb. 1 1882. h On or about this date. k Opened for freight traffic May 1 1900; for passenger traffic July 1 1900. x For passenger trains June 28; for freight trains a month later.

Examination of the foregoing data discloses a cycle of from twelve to fourteen years in the advent of new railroads to the shores of the Pacific. Twelve years, lacking seven weeks, elapsed between the opening of the Central Pacific-Union Pacific line— May 10 1869—and the establishment of the next through route, namely that via the Southern Pacific and the Atchison, passing through Deming, N. M., on March 18 1881.

In September of the same year (1883) the Northern Pacific reached the coast, using the line of the Oregon Railway & Navigation Co. (shortly thereafter allied with it, but now in the Union Pacific system), until its own switch-back over the Cascade Mountains was completed July 1 1887, this in turn being superseded a year later by the Cascade tunnel. In October 1883 the Atchison began running its trains to The Needles in California, and a year later under a trackage agreement with the Southern Pacific it was enabled to carry its passengers direct to San Francisco. This arrangement lasted until July 1900, when the Atchison laid its own rails through to San Francisco Bay. In December 1884 the Union Pacific commenced train service between Council Bluffs and Portland, Oregon.

In Canada the transcontinental line of the Canadian Pacific was opened in July 1886, or nearly twenty years ago. Passing by this event as ex-territorial, we reach the Great Northern Railway, which was opened through to the Pacific on May 5 1893. The sequence is therefore as follows: (a) The Central Pacific-Union Pacific, 1869; (b) the Southern Pacific, the Northern Pacific, the Atchison and the Union Pacific (Oregon Short Line) lines, 1881-1884; (c) Great Northern, 1893. And now after a similar interval still other roads are affording evidences of another progressive era.

As bearing on the position of the Pacific Coast with respect to railroad facilities, we have compiled the following tables. The first two of these gives the population and assessed valuation of California, Oregon and Washington for a series of years.

POPULATION OF PACIFIC COAST STATES

		0 001101	J # 4 # # # # # # # # # # # # #

Since the arrival in 1869 of its first transcontinental road, and the only one up to this time running direct from the East to San Francisco, California, we see, has tripled its population and has increased about six-fold in assessed valuation. In the meantime only two other independent roads and one semiindependent line (the San Pedro road) have reached the State from the East.

In 1880, three years before the Northern Pacific began its transcontinental service, the States of Oregon and Washington had an aggregate population of only 250,000 and a total assessed valuation of some 72 millions. In 1890, three years prior to the completion of the Great Northern, these figures had become, respectively, 663,000 and 331 millions, while to-day the population must considerably exceed a million, or four times what it was in 1880, and the valuation 486 millions, or nearly seven times the first year's total, although the two companies named, along with the Union Pacific, still afford to these States their only avenues to and from the East. As further indicating the development of this field for railroad service, note the growth in commerce and bank clearings.

The following three years was a period of extraordinary activity with respect to changes in and additions to the Pacific roads. In January 1883 the Southern Pacific made connection with its controlled line, the Galveston Harrisburg & San Antonio, at El Paso, Texas, forming an unbroken road under one control from the Gulf of Mexico to the Pacific.

x 9 months.

The export and import trade of San Francisco in 1870, just subsequent to the opening of rail communication with the East, aggregated less than 30 millions of dollars; in 1900 the total was more than 88 millions; for 1905 (the years end June 30) the amount was 96 millions and at the present time, we understand, the city's shipping business is expanding at a rapid rate.

The most striking gains on this score, however, are those shown by Puget Sound, Washington, which has now far outrun its formal rival, Willamette, Oregon; the ocean trade for the former in 1880 being only \$379,000 and for the latter \$4,390,000. In 1895, after the Great Northern had joined the Northern Pacific in serving these districts, these items jumped to 8 millions and $5\frac{5}{8}$ millions, respectively, while in 1905 they were no less than 51 millions and 10 1-3 millions. It is not surprising, in view of this record that at Seattle, the chief city of Puget Sound, one hears the belief expressed that that is to be the banner municipality of the Pacific Coast.

The figures of bank clearings are interesting as disclosing the condition of general business in the cities named, especially the remarkable increase in activity this current calendar year, and the particularly noteworthy advance in the case of Los Angeles, which, although its foreign commerce is small, being only \$810,291 for the late year, reports the total amount of its bank clearings for the first ten months of 1905 as over $3\frac{1}{2}$ times what it was for the same period of 1900, and in excess of 25%of the aggregate shown for San Francisco in 1905, contrasting with 12% in 1900. While the growth in population, wealth and business thus indicated for these Western States and cities offers no excuse for the promotion of poorly located roads, financially and strategically weak, the intermediate country traversed, as well as the termini, demand careful consideration for each and every railroad.

company in the fiscal year covered by the present report earned a very substantial sum over and above its requirements for fixed charges.

The location of the system is indicated in the name "Seaboard." It stretches along the South Atlantic seaboard from Richmond and Norfolk as the Northern termini through North Carolina, South Carolina, Georgia, down into Florida, in which last-mentioned State it has a large network of roads extending almost to the extreme southern end of the Peninsula. Then there are important latitudinal lines tributary to the main stem, including a line from Savannah to Montgomery, a line to Wilmington, N. C., and, perhaps most important of all, the line to Atlanta, which has now been carried to Birmingham and Bessemer, Ala., through the construction of the Atlanta & Birmingham Air Line, already referred to. Originally composed of heterogeneous and disjointed pieces of road, it has been welded together (through the construction in recent years of various connecting links and new feeders and tributaries), so as to make a well-knit and quite serviceable system of roads. Given adequate facilities and careful, energetic management, there seems no reason why its traffic should not steadily develop.

As already stated, the business of the system has, even as it is, been expanding in a satisfactory way. Not counting the Atlanta & Birmingham Air Line Ry., which comprises 194 miles, the system embraces 2,611 miles, and the aggregate of the mileage has not varied much from this figure for several years. With a further increase of \$890,534 in the late year, total gross earnings have been brought up to \$14,201,943, at which amount comparison is with only \$11,579,815 in 1901-02. Thus in the three years the addition has been almost 25%. In the late year, too, it was found possible to operate the road with greater economy. Excluding the water lines, the operating expenses of the rail lines (not including taxes) were 66.76% in 1904-05, against 71.47% of the gross earnings in the previous year. In other words, with \$890,534 increase in gross earnings, there was a reduction of \$51,063 in expenses and taxes, and an increase of \$1.838 in income from other sources, bringing the total gain in net income, as compared with the twelve months preceding, up to \$943,436. In brief, as against net income of 3,233,948 in 1903-04, the amount of such net income in 1904-05 was \$4,177,384. The call for interest and rentals and other charges was only \$3,005,-475, leaving, therefore, a surplus above the charges on the operations of the twelve months in the respectable sum of \$1,171,909. This is obviously a satisfactory showing at this stage of the property's growth. The results do not include the operations of the Atlanta & Birmingham Air Line Ry., which was opened for through freight traffic on Dec. 5 1904 and for local passenger traffic on April 16 1905, though not for through passenger traffic until after the close of the fiscal year, namely on July 2 1905. The report gives the results of the operations of this line for the period from December 1904 to June 30 1905, and though these show a deficit below the proportionate fixed charges for this period, the deficit was not largeonly \$93,271.

THE SEABOARD AIR LINE REPORT.

The annual report of the Seaboard Air Line Railway Company shows that the faith of the promoters of this undertaking in its success is being justified. Though the system is not yet getting anywhere near the full benefits from its various new extensions, and more particularly the extension from Atlanta, Ga., to Birmingham, Ala. (under the name of the Atlanta & Birmingham Air Line Ry.), traffic and earnings are rapidly developing, and—what is still more noteworthy—the

The reduction in expenses the late year followed entirely from a decrease in the cost of conducting transportation, more money having been spent upon maintenance account than in the previous year. The decrease in transportation cost was due in the main to a saving in the item of fuel. Coal was purchased at a lower price than in the previous year, while at the same time a smaller quantity was consumed of both coal and wood, notwithstanding that the volume of business done was larger. One reason for the economy in the use of fuel is found in the reduction of the train mileage in moving revenue freight. This reduction in train mileage in turn followed from the heavier lading of the trains, the average freight train-load having been brought up to 182 tons from 172 tons the previous year.

The road realizes quite high rates on freight—as rates go now-a-days-the average rate in the latest year having been 1.18 cents per ton per mile. But with the development of the mineral traffic through the Birmingham extension, this condition of things, we may suppose, is certain to be materially modified. 1tshould be understood that the average rate is relatively high, not because the charges per se are high, but because there is an absence of the classes of traffic which bear the lowest rates. Aggregate freight tonnage in the late year was no less than 5,347,713 tons. But of this only 698,986 tons was made up of products of the mines, and even of this, 345,813 tons consisted of a special traffic not ordinarily found in the traffic of railroads, namely phosphate rock. The largest single division of traffic consisted of forest products-lumber, logs, wood, etc.—which in the late year contributed 2,001,261 tons of freight. The agricultural tonnage amounted to only \$21,011 tons, and the aggregate of miscellaneous articles and manufactures was 1,757,262 tons. The character and composition of the traffic, we should judge, will be materially changed when the tonnage expected from the Birmingham extension begins to accrue.

The affairs of the road have entered upon a new stage with the organization of a separate company to finance the company's needs. It will be recalled that the Seaboard Company was incorporated in June 1905 as a holding company to provide for the liquidation of the floating debt of the Seaboard Air Line Ry. and to furnish means for needed improvements, extensions, Under this arrangement \$7,625,000 cash is to etc. be advanced to the Seaboard Air Line Ry. Co., the latter issuing new securities in payment for the moneys advanced. It is understood that the Seaboard Air Line Ry. will create a new mortgage at 5% for an ultimate amount of \$18,000,000, the present issue under the same to be limited to present needs. Under this plan, which has been declared effective, over $82\frac{1}{2}\%$ of the stock of the Seaboard Air Line Ry., common and preferred, had at latest date been exchanged at an agreed basis for the stock of the new Seaboard Company. Air Line Ry. shareholders had the right to subscribe for \$7,625,000 of first preferred stock of the Seaboard Company (by which means the \$7,625,-000 cash to be advanced to the Seaboard Air Line Ry. is to be raised) upon certain terms named in the agreement. The report makes no reference to this arrangement, nor is anything said concerning the floating debt; but from the balance sheet it appears that on June 30 1905 the company had notes payable outstanding to the amount of \$2,403,216. The occasion that called these temporary obligations into being is made plain on the other side of the balance sheet, where there is dence. Each borough is for this purpose to be deemed

an item showing that the amount due from the Atlanta & Birmingham Air Line Ry. aggregated June 30 1905 \$3,137,711. Moreover, the remarks of President Barr in the report evidence that the company will have need for considerable new capital in the immediate future. After pointing out that conditions are very prosperous and that the territory tributary to the lines of the system is rapidly developing, Mr. Barr states that the business of the road has outgrown its facilities. Heavy expenditures for rail renewals and replacement of equipment, he declares, must continue for several years to come. Besides, he adds, large capital expenditures must be made to provide the necessary facilities for economical operation and to secure to the system its share of the increased business and enable it to maintain satisfactory service. These improvements to the property have already begun and must be carried forward, it is stated, and the railroad gradually brought to a higher standard if the company is to reap the benefit of its position and participate in the growth of the territory which it serves—all of which, of course, is too self-evident to need any argument.

TAXATION OF PERSONAL PROPERTY HELD BY TRUSTEES.

The subject of the liability of trustees to assessment for taxation in this State has been plainly and definitely determined in two recent decisions of the Court of Appeals of this State. In People ex rel. Kellogg vs. Wells, decided last June, [the question raised was as to the extent to which one trustee, a resident, assessed jointly with another trustee, the latter a non-resident, could be taxed for the estate upon which he was administering. In the second decision, just rendered, the question raised was as to the relative assessments that might be made in the different boroughs of the Greater New York where one trustee resides in one borough and the second trustee in another borough. In both cases the rule laid down is that an assessment can be sustained only against the individual over whom the assessors have jurisdiction and he is liable only for his aliquot share of the total valuation.

In this latest case, as in the earlier case, the action was against the Commissioners of Taxes and Assessments of the City of New York. The title of the case was The People ex rel. Emma L. Moller and Isaac P. Smith, as Executors and Trustees under the last will and testament of Joseph H. Godwin, deceased, against the several individuals acting as Commissioners of Taxes and Assessments. The relator Moller resided in the Borough of the Bronx and the relator Smith in the Borough of Manhattan. In 1904 Smith as such executor and trustee, was assessed for personalty at the sum of \$150,000, the tax on which he paid. The same year both relators, as executors and trustees, were jointly assessed in the Borough of the Bronx at the sum of \$150,000. A writ of certiorari was thereupon obtained for the purpose of canceling or reducing the assessment made upon the trustees in the Bronx. The Court of Appeals decrees that in assessing cotrustees in the City of New York for personal property belonging to an estate, each trustee should be assessed for an equal share thereof in the borough of his resia separate tax district. The borough resident should alone be assessed for an aliquot part. If the assessment be against both the resident and the non-resident trustee, certiorari will lie to relieve the latter of the assessment, resulting in a reduction of the amount thereof by one-half. The opinion was written by Chief Judge Cullen, who argues that while it may be true that under the definition of a "tax district" found in Section 2 of the Tax Law, the whole city constitutes but a single district, since the assessments, in the several boroughs by the Deputy Tax Commissioners are made subject to the direction and supervision of the Board of Taxes and Assessments, it is nevertheless plain that under the provisions of the Charter of the City (Chapter 17) a valid assessment for personalty against a resident other than a corporation can be made only in the borough in which the taxpayer resides. It is pointed out that Section 892 of the Charter provides that in each borough office of the department there shall be entered in "the annual record of the assessed valuation of real and personal estate of the borough" the assessed valuation of the property within the limits of the borough, which book shall be open for public inspection, examination and correction. Previous to the time for opening the said books for inspection the fact that the books are to be opened must be advertised in the City Record and in one or more newspapers published in the borough. Furthermore Section 894 provides that there shall be entered in each borough the names of the persons or corporations subject to taxation, and that if at any time prior to the 1st of May in any year it shall appear to the Tax Commissioners that a person assessed for taxa- whole estate, and the trustee in the Bronx can be tion on personal estate on the books or rolls of one borough has been assessed therefor on the books or rolls of another borough, they shall forthwith cause the assessment to be canceled and a new assessment made in the proper borough, and within five days thereafter cause written notice of the new assessment to be mailed to the taxpayer at his residence or business address.

Judge Cullen says that ever since the case of Stuart vs. Palmer (74 N. Y., 183,) it has been the settled law of this State that for the imposition of a valid tax it is necessary that the taxpayer should have notice of his assessment in order that, if aggrieved, he may have a hearing and an opportunity to obtain relief. In the case of the ordinary annual taxes, the taxpayer must take notice of the provisions of the statute describing the time when the assessment books are open for inspection. He must examine separate tax districts within the provisions of Section the books and discover for himself whether he has 8 of the Tax Law, no sound distinction can be drawn been erroneously or excessively assessed for taxation. between that case and the present one. It was never intended, however, Judge Cullen declares, Answering the contention that there is an inconthat the citizen should be compelled to examine the assistency between the assessment of one half an estate sessment books of each of the five boroughs in order in one borough at \$150,000 and the other half in to protect himself from improper taxation. This is another borough at \$75,000, Judge Cullen replies made manifest by the provision of Section 894 already that such a result often follows. Had one of the quoted, which prescribes the course of procedure relators lived in Niagara County while the other lived when "a person assessed for taxation on personal in New York, it was not only entirely possible, but by no means improbable, that the assessments of estate on the books or rolls of one borough should have been assessed therefor on the books or rolls of the two counties would have been for different sums, though theoretically they should have been the same. another borough" which necessarily implies, Judge Cullen reasons, that there is only one borough in It is always possible, if not likely, this may occur which the taxpayer can be properly assessed for where the same fact is to be determined by tribunals personalty, that is to say, the borough of his residence. composed of different persons.

If an assessment in a different borough is valid, why the provision, it is asked, for a new assessment in the proper borough, and why the requirement for notice to the taxpayer of the new assessment.

Conceding, therefore, that for many purposes the whole city should be deemed to constitute but a single tax district, it is clear that each borough must be considered a separate tax district so far as are involved the provisions of Section 8 of the Tax Law, which enacts that every person shall be taxed in the tax district where he resides for all personal property owned by him or under his control as trustee or executor. The section further enacts that where the property is in the possession of two or more persons, as executors or trustees, each shall be taxed for an equal portion of the property held by them. Accordingly, it is held that Moller and Smith should each have been assessed in the borough of his or her residence for one-half the estate.

A somewhat curious anomaly attends the decision in this instance. The assessment against the relator Smith in the Borough of Manhattan is declared to have been regular and valid and is allowed to stand at \$150,000, since no issue concerning the same was raised, the tax thereon having been paid without question. The assessment, however, in the Borough of the Bronx is reduced from \$150,000 to \$75,000, and the reduction is made on the express grounds that the assessment was against Smith and Moller jointly, and not, as in the Manhattan case, against the resident trustee alone. The theory on which the assessment is cut, is that having been on the two trustees jointly, it was an assessment of the assessed only for his or her half of the total. Smith, residing in the Borough of Manhattan, the assessment against him in the Borough of the Bronx was invalid, and accordingly he was entitled to have the assessment canceled as to himself. On this phase of the matter reference is made to the decision mentioned above in People ex rel. Kellogg vs. Wells, where it was held that a joint assessment necessarily imports a valuation of the whole estate at the amount assessed, and can be sustained against the individual over whom the assessors had jurisdiction only to his aliquot share of the total valuation. In that case two executors, one of whom was a non-resident of the State, were jointly assessed for \$50,000. It was decided that the assessment could be sustained against the resident executor only to the extent of \$25,000. If the boroughs of the City of New York are to be deemed

Nov. 11 9 105. (

RAILROAD GROSS EARNINGS FOR OCTOBER.

It is becoming more and more evident as the weeks pass that the extra passenger traffic to the World's Fair at St. Louis played a very important part in swelling the earnings of many railroads last year. At all events the roads which were apparently most favored in this way in 1904 are now obliged in many instances to report heavy decreases. This fact is also redected in the general totals showing the results for the roads as a whole. At the end of this article we present our preliminary tabulations of the gross earnings for the month of October (comprising at this date. necessarily, only the roads which furnish early returns). and these reveal an increase as compared with the earnings of the same roads in October 1904 of \$3,421,673, or only 5.46 .

In the case of the separate roads there are, as already stated, some quite considerable losses. Among these may be mentioned the Missouri Pacific, which reports \$475.746 decrease; the Wabash, which has \$392,944 decrease; the Illinois Central, which has \$269.149 decrease; the Yazoo & Mississippi Valley, \$235,212 decrease; the Texas & Pacific, \$201,620 decrease; the Missouri Kansas & Texas \$195.461 decrease and the St. Louis & South Western \$65,645 decrease. Doubtless in some of these instances the yellow fever at New Orleans and some other points in the Gulf States has been an additional disturbing factor, but that the absence of the travel to the World's Fair has been the all-important factor in the falling off, is evident from the circumstance that most of these roads had large gains in earnings last year at a time when many others suffered decreases.

On the other hand, outside the class of roads where the World's Fair traffic has affected the comparisons there is this year a noteworthy record of improvement. Of course it is too early yet to have the figures for some of the very largest systems in the country, but we may mention as illustrations of such improvement the Canadian Pacific with its gain of \$978,000 and the New York Central with its gain of \$931,553, the Great Northern with its gain of \$\$90,894, and the Northern Pacific with its increase of \$853,137. In the South, the increase of \$221,775 on the Southern Railway might be mentioned. Contrariwise, the Louisville & Nashville in the same section has a trifling loss this time, comparison evidently being with heavy passenger earnings last year over its lines to St. Louis. In the following we show all changes for the separate roads for amounts in excess of \$30,000-whether decreases or increases. This brings out strikingly the contrast between the roads with decreases an I those

-and this fact should be borne in mind in considering the relatively small ratio of gain the present year. In other words, comparison is not with diminished totals of earnings in 1904 (as was the case of some of the early months of the year), but with increased earnings. And this increase in 1904 followed, of course, heavy and continuous gains in the same month of previous years. Below we furnish a summary of the October totals back to 1896.

Note,-Neither the earnings of the Mexican roads nor the mining operations of the anthracite coal roads are included in this table.

It deserves to be noted that there was another drawback the present year in addition to the loss of traffic to the World's Fair-at least as far as the Southern roads are concerned. We refer to the shrinkage in the cotton movement. Whether this shrinkage be ascribed to a smaller yield of the staple the present year or to the holding back of cotton from market by the planters, or to both causes combined, the fact is that the cotton movement was heavily reduced. The shipments overland were only 76,075 bales for the month in 1905 against 114,729 bales in October last year, while the receipts at the Southern ports footed up but 1,425,666 bales against 1,726,984 bales in 1904, the loss in this last instance being, it will be observed, over 300,000 bales. It is rather noteworthy, however, that while nearly all the large receiving points show a very decided contraction in receipts, Galveston got 545,180 bales as against only 495,472 bales in 1904. As only 190,017 bales eame into New Orleans during the month compared with 407,019 bales in 1904, the suggestion seems natural that the yellow fever at New Orleans caused a deflection of traffic from that point to Galveston, and this suggestion finds apparent confirmation in the losses in earnings sustained by certain prominent roads having lines to that point. We annex the following statement to show the cotton movement in detail.

RECEIPTS OF COTTON AT SOUTHERN PORTS IN OCTOBER, AND FROM JANUARY 1 TO OCTOBER 31 1905, 1904 AND 1903.

St. Louis, our total of earnings last year in October prosperous, while the iron and steel industry showed showed quite a good ratio of increase-namely 3.83% almost unexampled buoyancy. Western roads also

As a result of the extra traffic to the World's Fair at present year. General trade remained active and

THE CHRONICLE.

VOL. LXXXL

had an advantage from a larger live stock and a larger grain movement. At the five leading Western livestock markets, namely Kansas City, Chicago, Omaha, St. Louis and St. Joseph, the receipts of cattle in October 1905 were 1,134,229 head against 1,045,886 head in October 1904, of hogs 1,243,213 head against 1,050,-088, and of sheep 1,305,250 against 1,143,988 head. The Western grain movement, as stated, was also heavier. The wheat receipts were larger (though the increase did not extend to all points-some points, indeed, showing heavy decreases), and there was quite a marked gain in corn, and still more in oats. Combining wheat, corn and oats with barley and rye, it is found that aggregate receipts at the Western primary markets for the four weeks ending October 28 were 83,865,773 bushels in 1905 as against only 69,148,-088 bushels in the corresponding four weeks of 1904. The grain movement in detail in our usual form is set out in the following.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

-The public sales of bank stocks this week aggregate 138 shares, of which 105 shares were sold at the Stock Exchange and 33 shares at auction. No sales of trust company stock have been made. The details of the week's transactions are shown in the following table:

Shares. BANKS—New York. Low. High. Close. Last previous sale. 1 Chemical National Bank....4371 4371 4371 Nov. 1905— 4365 a110 Commerce, Nat. Bank of. 1993/4 200 200 Nov. 1905— 200 BANK—Brooklyn.

27 First National Bank...... 381 381 381 July 1905- 385

a Of this amount 105 shares were sold at the Stock Exchange.

-It is announced that arrangements have been made for an alliance between the banking firm of J. P. Morgan & Co. and the Dresdner Bank of Dresden. The Dresdner bank is one of the largest in Germany, having numerous branches in that country and Switzerland.

-George Leask, senior member of the firm of George Leask & Co., bankers, 35 Wall St., was this week elected a director of the Lincoln Trust Company of this city. The addition of Mr. Leask's name preserves the unique character of the company's directorate, which may be divided into distinct groups, comprising up-town merchants, presidents of mercantile corporations, executives of the leading savings banks of this city, heads of some of the more prominent banking firms, presidents of realty corporations and prominent capitalists and lawyers.

-At a special meeting on the 15th inst. the stockholders of the People's Bank of Johnstown, N. Y., will act on a proposition to increase the capital from \$125,000 to \$200,000. Of the \$75,000 additional stock, \$50,000 will be alloted to the present shareholders, according to the number of shares held by each, and the remaining amount of \$25,000 among the customers and prospective customers of the bank, with the view to increasing its business and prestige. The entire new issue will be sold at \$250 per share, which, in addition to placing the capital at \$200,000, will give a surplus of \$240,000. The increased capital will become effective on January 1 1906.

to act as the fiscal agents of that corporation in the United States. The Hollandsche Beleggings, or the Holland Investment Company, is controlled by several of the largest banking houses in Holland, including Hope & Co., and the Netherlands Handelsmaatschappy. It was organized about a year ago with a capital of 1,000,000 florins (\$400,000), but its authorized capital was recently increased to \$2,000,-000. It has already invested in American securities to some extent and it is proposed now to do so on a much larger scale. In addition to its capital stock, the Holland Investment Company is authorized to issue bonds to double this amount of its capital.

—The directors of the Veazie National Bank of Bangor, Maine, on the 2nd inst. elected Edwin G. Merrill President to succeed the late Charles V. Lord. Mr. Merrill is also President of the Merrill Trust Co. of Bangor. While his election to the head of the bank signifies the acquisition by the trust company of a substantial interest in the bank, no consolidation is contemplated, and the two institutions will be conducted separately under their present boards of directors. The Veazie National is one of the oldest banks in the eity; it was organized as a State institution in 1834, and in 1873 was converted to a national bank. It has combined eapital, surplus and profits of about \$245,000 and deposits of about \$600,000.

--The latest statement of the Lowell (Mass.) Trust Company is introduced in novel form, being printed on a folder having the appearance of a bank-book filled with paper eurrency, the ends of which protrude from both the upper and lower side of the book. The statement is of date Oct. 31 1905, and shows deposits of \$1,542,426. The company has a capital of \$125,000 and surplus (earned) of \$54,435. Total liabilities are \$1,721,931. The institution commenced business in February 1891, and has paid to date dividends aggregating \$92,500. George M. Harrigan is President and John F. Connors, Actuary.

—The directors of the Corn Exchange National Bank of Philadelphia on the 6th inst. declared a semi-annual dividend of 5%, free of taxes, this being an increase of 1% over the previous dividend. An addition of 50,000 was also made to the surplus, thus raising that fund to 850,000.

-It is announced that President Samuel R. Shipley of the Provident Life & Trust Company of Philadelphia has notified the directors that he will not be a candidate for re-election at the annual meeting in January. Mr. Shipley has been the only President of the institution since it was founded by him in 1865. He is quoted as stating that his action in declining re-election for the presidency does not signify that he will retire from participation in its affairs, nor of the affairs of other institutions in which he is interested.

-Bank Examiner R. H. Mattern of the Western Pennsylvania Examiner's District has been dismissed by Comptroller Ridgely because of "his failure to discover the conditions existing in the Enterprise National Bank of Allegheny. The official bulletin issued concerning the matter states that while "there is not the slightest ground for suspicion of any criminal intent on the part of Mr. Mattern, or any corrupt collusion with the officers of the bank, he was, however, entirely too credulous in his acceptance of their statements and careless and inefficient in his examinations." Owen T. Reeves Jr. has been assigned as successor to Mr. Mattern. The sum of \$376,744 14 has been turned over to the State by the three surety companies which had given bonds for

-In referring to the State banks existing in this country in 1795, when the National Bank of Baltimore was first chartered by the General Assembly of Maryland, we omitted to mention in our issue of Oct. 28th the National Union Bank of Boston, which was incorporated in 1792.

-Kuhn, Loeb & Co. have entered into an agreement Baltimore Trust & Guarantee Company, and authorized with the Hollandsche Beleggings Companie of Amsterdam their officers to enter into negotiations for the consummation

the State deposit held by the bank. It is claimed that the balance (\$655,255 86) of the State deposit must be made up by the directors.

-A change in the control of the First National Bank of McKees Roeks, Pa., occurred recently. The new interest is M. K. McMillin, who is said to have acquired 730 of the total 1,000 shares, at \$170 per share.

-If preliminary arrangements which have been entered into are carried into effect, the Central Trust Company of Maryland at Baltimore and the Baltimore Trust & Guarantee Company will consolidate. It is stated that stockholders of the Central Trust Company have accepted an offer of \$70 per share (par value \$50) for their holdings, made by the Baltimore Trust & Guarantee Company, and authorized their officers to enter into negotiations for the consummation of the sale. It is also stated that at least two-thirds of the stock of the Central Trust Company must be delivered to the Baltimore Trust & Guarantee Company on or before the 13th inst. The Central Trust has a capital of \$500,000, a surplus of \$125,000, and undivided profits slightly in excess of \$100,000. It is reported that the directors of the Central Trust have stipulated that all the stockholders shall have the right to come in on the same terms as those negotiating the sale, and the Baltimore Trust has guaranteed to buy all the stock at \$70 a share in cash. C. I. T. Gould is the present President of the Central Trust, which was organized in 1899. The name was changed in 1900 from the Old Line Real Estate & Trust Company to the Central Real Estate & Trust Company, and in April 1902, when its real estate department was abandoned, the present title was adopted.

—A one-story structure is to be erected by the Colonial Trust Company of Baltimore on a site lately acquired at Saratoga and Clay streets. The plot has a frontage of 66 feet on Saratoga Street and about 26 feet on Clay Street.

-A meeting of the stockholders of the Maryland Trust Company of Baltimore will be held on December 7 for the purpose of securing their authority for the issuance of preferred stock to the amount of \$1,000,000, in shares of \$100 each. They will also take action in the matter of canceling a part of the present stock, "the amount to which it is proposed to reduce said capital being \$425,000 as a minimum." These propositions are understood to be in accordance with the Bond plan for the rehabilitation of the company.

-Four new directors have been elected to the board of the Continental Trust Company of Baltimore. They are George J. Gould, Winslow S. Pierce, President of the Western Md. RR., H. Clay McComas and George F. Randolph.

-Under the name of the National City Bank, a new finaneial institution has been organized in Washington, D. C. The bank has an authorized capital of \$300,000, all of which has been issued, and through the sale of the stock at \$125 per share a surplus of \$75,000 has been created. Already 60% of the stock has been paid in, leaving but four payments of 10% still due. The next instalment is payable on the 15th inst. The bank's officers are P. A. Drury, President; Franklin T. Sanner, Vice-President, and A. G. Clapham, Cashier. In addition to the above the directors include Judge Martin F. Morris, William A. Hill, Henry Evans, W. G. Dunnington, Charles J. Walker, Charles Kraemer, H. H. Darneille, Robert M. Heth, Charles W. Darr and C. H. Ackert. The bank has purchased and will locate in the building now occupied by the American Security & Trust Company at 1405 G Street, and its opening is dependent upon the removal of the trust company to its own new building, which may possibly occur the latter part of this month.

—It is stated that the All Nations' Deposit Bank of Pittsburgh, for which a charter was lately obtained, will open in January. The bank's officers are: Jacob Breiding, President; George R. Jones, Secretary, and R. F. Schmitt, Cashier. The capital is \$75,000.

-The building committee of the Union National Bank of Pittsburgh has accepted the design of MacClure & Spahr for the new building which is to replace the bank's present home. The structure is to be twenty stories in height and will cover a sight measuring 86 feet on Wood Street and 84 feet on Fourth Avenue. Just when work on the proposed building will begin is not announced, but it is reported that all the leases in the old building have been secured by the bank and that the occupants will vacate as soon as April 1, if not before. It is understood that the cost of the new building will be at least \$1,000,000.

-President L. L. Sadler of the Stock Yards Bank & Trust Company of Cincinnati advises us that the institution is expected to open for business about January 1 next. The company was organized some months ago, and has an authorized capital of \$100,000; the amount thus far paid in is \$24,500. A building for the bank's use is now being erected.

-The United States Circuit Court of Appeals at Cincinnati this week sustained the action last March of Judge Robert W. Taylor, in the United States District Court at Cleveland, in imposing a sentence of ten years' imprisonment upon Mrs. Cassie L. Chadwick. Mrs. Chadwick was convicted in connection with the affairs of the failed Citizens' National Bank of Oberlin, Ohio.

-E. M. Pierce, formerly President of the Lorain Savings & Trust Company of Lorain, Ohio, acquired several months ago by the Cleveland Trust Company, is to be the Cashier of a new banking institution now being formed in Lorain. The name of the new organization is the Lorain Banking Company, and it has a capital of \$250,000. Richard Thew has been elected President and Orville Root and L. M. Moore, Vice-Presidents.

-It is stated that 1,400 shares of the capital of the Second National Bank of Toledo, Ohio, have lately been sold by the estate of George W. Davis, who, at the time of his death in June 1904 was President of the bank. The sale of the stock (a large portion of which was taken by the directors) s understood to have been effected at \$520,000. The capital is \$350,000.

-The Grand Rapids National Bank of Grand Rapids, Mich., now occupies its new banking rooms at Ottawa and Monroe streets. The new quarters are more commodious than the premises vacated, and are fitted up in an attractive manner.

-We are advised that the new capital of \$750,000 of the First National Bank of Detroit, Mich. (representing an addition of \$250,000), became effective on October 3. The increased stock was voted by the shareholders on September 5 and was made payable on October 2.

-The Englewood State Bank of Chicago formally opened its new banking quarters on the 4th inst. The bank was organized to take over the private banking business of C. H. Vehmeyer. It has a capital of \$200,000, surplus of \$10,000 and undivided profits of \$7,500. Mr. Vehmeyer is President and John R. Burgess, Cashier.

—The announcement is made of the opening of the new quarters of the Drexel State Bank, in the Drexel Bank Building at Cottage Grove Avenue and Oakwood Boulevard, Chicago. There are also safe deposit vaults in the new offices.

-The policy of remaining open daily from 10 a.m. to 6 p.m. has been introduced by the Mutual Bank of Chicago. While some of the banks keep open on special evenings, the Mutual is the first to begin the practice daily.

—As will be seen by the accompanying table the past year has been a prosperous one for the Merchants' National Bank of St. Paul, Minn.

1			Surplus		Aggregate
ļ	Date.	Capital.	& Profits.	Deposits.	Resources.
1	Aug. 25 1905\$1	000,000	\$385,746	\$6,984,818	\$8,980,564
1	March 14 1905 1	000,000	365,351	6,778,229	8,627,580
1	January 11 1905 1	1,000,000	350,490	6,368,112	8,178,602
i	September 6 1904 1	,000,000	337,803	5,839,362	7.637,165

A substantial gain is shown in deposits, which have risen from \$5,839,362 to \$6,984,818, while resources have ad-

—The Cosmopolitan National Bank of Pittsburgh has commenced making dividends, having lately declared a quarterly payment of $1\frac{1}{2}\%$. The bank began business in 1902 with \$200,000 eapital. The amount was increased to \$500,000 the present year.

-The Columbus Savings & Trust Company of Columbus, Ohio, is now located in its new building at Long and High streets. As mentioned in a previous issue (June 10), the bank occupies the first two floors of the new structure, which s twelve stories in height.

vanced from \$7,637,165 to \$8,980,564 (Aug. 25 1905). The management consists of Kenneth Clark as President; George H. Prince and C. H. Bigelow, Vice-Presidents; H. W. Parker, Cashier, and H. Van Vleck, Assistant Cashier.

-The total indebtedness of Frank G. Bigelow to the First National Bank of Milwaukee, of which he was formerly President, according to an amended petition recently filed, is \$1,553.234. It is stated that an additional shortage of \$19,000 has not yet been definitely located. The amount thus far realized from the sales of the F. G. Bigelow securities is said to be about \$250,000.

-The Merchants'-Laclede National Bank of St. Louis now has \$1,700,000 capital and \$1,600,000 surplus The increase of \$300,000 in the stock was recommended by the directors last June, and both the enlarged capital and surplus \$1,531,152, and aggregate resources from \$10,844,055 to became effective on September 1. \$13,908,226. The officials are: S. G. Murphy, President;

--We have before referred to the growth of the old Tootle-Lemon National Bank of St. Joseph, Mo., and as a further illustration append the following statement for 1905 up to and including the last official call:

		Surplus		Aggreg'le	(
Date.	Capital.	& Profits.	Deposits.	Resources.	
Aug. 25 1905	\$200,000	\$67.050	\$4,171,450	\$4,618,500	
March 14 1905		57,037	3,773,591	4,185,628	1
Jan. 11 1905.	200.000	56,318	3,431,258	3,842,576	

Deposits during the eight months thus increased from \$3,431,258 to \$4,171,450, and aggregate resources from \$3,842,576 to \$4,618,500. Milton Tootles Jr. is President; Graham G. Lacy, Vice-President; E. H. Zimmerman, Cashier; and W. A. Evans, Assistant Cashiet.

-The organization of a new trust company in St. Joseph, Mo., is announced. The institution has been designated the Empire Trust Company, and its officers are James N. Burnes, President: Robert W. Powell, Vice-President; and William P. Hoehn, Secretary. The board contains the names of John H. Van Brunt, Vice-President, General Manager and Assistant Secretary and Treasurer of the St. Joseph Ry. Light Heat & Power Company; John A. Johnston; Charles M. Carter; James Berlingett, General Superintendent of the St. Joseph & Grand Island Ry.; W. H. Curtin, H. L. Stevenson, Albert S. McGhee and Stoughton Walker. The company has a capital of \$100,000.

-Application for a charter for the Central Bank & Trust Corporation of Atlanta, Ga., has been filed. The capital stock of the new corporation will be \$500,000, in \$100 shares, but the privilege is asked for authority to increase the amount to \$2,000,000. While the principal office will be in Atlanta, the purpose is to establish agencies and other places of business elsewhere. A general trust company and banking business will be conducted. Asa G. Candler, of Atlanta, is one of the incorporators.

-The \$250,000 increase in the capital of the People's Savings, Trust & Banking Company of New Orleans, La., which we stated in our issue of July 8 had been recommended by the directors, will be voted by the stockholders on December 14. The proposed addition will give the company a capital of \$500,000. At the December meeting the stockholders will also act on amendments to the charter providing for an increase in the board of directors from nine to fifteen members, and for the creation of the office of Vice-President.

-The final details of the consolidation of the Gulf National and Beaumont National banks of Beaumont, Texas, were completed on the 2d inst. The Beaumont, which was taken over by the Gulf on September 29, has formally been placed in liquidation, while the stockholders of the Gulf National have approved the proposition to increase the capital of their institution from \$100,000 to \$150,000. The number of directors of the latter has also been increased from nine to fifteen members.

-The organization of the Citizens' Bank & Trust Company of Austin, capital \$100,000, is in progress. William R. Hamby, formerly Cashier of the American National Bank of Austin, is to be the President of the new company.

—A dividend of 10% has been declared to the depositors of the Bank of Commerce of Fort Worth, Texas, a private banking institution, which suspended early in September.

-The Los Angeles National Bank of Los Angeles, Cal., now forming part of the enlarged First National Bank, was placed in voluntary liquidation on the 21st ult. The South-Western National, which was also merged with the First National, was placed in liquidation on October 7. \$1,531,152, and aggregate resources from \$10,844,055 to \$13,908,226. The officials are: S. G. Murphy, President; James Moflitt and James K. Lynch, Vice-Presidents; James K. Moflitt, Cashier, and J. H. Skinner, Assistant Cashier.

—The California Safe Deposit & Trust Company of San Francisco also made noteworthy progress since 1900, as disclosed in the comparison herewith:

		Surplus		Aggregate
Date.	Capital.	& Profits.	Deposits.	Resources
March 31 1900	81,000,000	\$135,370	\$2,115.799	\$3,252,033
April 20 1901	1,000,000	152,325	2,844,137	4,076,986
April 30 1902	1,000,000	210,230	3,892,257	5,284,262
April 1903	1,000,000	269,100	4,866,165	6,135,265
June 30 1904	1,000,000	425,000	5,500,000	6,900,000
Jan. 1 1905	1,000,000	500,399	6,105,439	7,665,840

During the period covered by the above table, surplus and profits more than tripled, having risen from \$135,370 to \$500,399. Deposits likewise have advanced substantially, from \$2,115,779 to \$6,105,439. Since the first of the year combined capital and surplus has been increased to \$3,000,-000 and aggregate resources to \$10,500,000. David F. Walker is President, W. J. Bartnett Vice-President, and J. Dalzell Brown, Vice-President and General Manager.

-F. W. Zeile has resigned as President of the Mercantile Trust Company of San Francisco, owing to ill-health. Former Vice-President N. D. Ridcout has been elected Mr. Zeile's successor.

-Having secured the consent of the Bank Commissioners to resume, the United Bank & Trust Company of San Franeisco re-opened its doors on the 31st ult. The institution, as noted in our issue of October 28, was closed by the State Bank Commissioners on October 21. It is said that the board of directors has been reorganized, and I. Freeman has succeeded to the presidency. Besides this, the branch banks operated by the institution have been closed and its real estate business separated from the banking department It is also stated that in order to make good the impairment of the capital the directors have agreed to assess the stockholders whatever amount the accountants shall decide the capital is deficient.

-The Portland Trust Company of Oregon, at Portland, opened on Monday the 6th inst. in its new and permanent home at the southeast corner of Third and Oak streets. From 3:30 to 5:30 in the afternoons of Monday and Tuesday the banking rooms were open to the public for inspection. The building is of massive stone and equipped with modern vaults and every convenience for the conduct of the company's increasing business. Benj. I. Cohen is the President of the institution, which has a capital stock of \$300,000 and resources of over \$1,250,000.

-The Northwest Trust & Safe Deposit Company of issues a booklet telling its "Record of Pro-Seattle gress." The book is neatly gotten up and contains illustrations of the institution's banking quarters. At the time of the company's organization in 1900 its safe deposit department was its main feature, combined with the making of mortgage loans and the care of property. In 1901 a savings department was opened and the following year accounts subject to check were for the first time received, while a fire insurance and rental department have also been organized. The paid-in capital was at the start \$15,-000; the amount was subsequently increased to \$25,000, then to \$50,000, and an amendment to its charter has been made authorizing a further increase to \$100,000. On October 21 last the institution reported deposits of \$531,044,

-We have heretofore directed attention to the prosperity of the banking institutions on the Pacific Coast. Illustration of this is furnished in the following table, showing the growth of the First National Bank of San Francisco during the past five years:

SurplusAggregate

which compares with \$313,133 on December 31 1904, \$170 -786 on December 31 1903 and but \$95,664 on December 31 1902. The officers are: President, E. Shorrock; Vice-President, John P. Hartman; Secretary, Alcx. Myers and Cashier, J. V. A. Smith.

-The organization of the Northern Bank of Winnipeg. Manitoba, was perfected on the 1st inst., when Sir Daniel McMillan was elected President and Captain William Robinson Vice-President. The board of directors is as follows: Sir Daniel McMillan, Hon. R. P. Roblin, A. J. Adamson, J. H. Ashdown, D. C. Cameron, G. R. Crowe, Captain Robinson, F. W. Stobart, Hon. Dr. Montague, J. A. McDougall, F. Nation and A. Stamford White. Particulars of the bank were given in the "Chronicle" of July₄22.

GOVERNMENT REVENUE AND EXPENDITURES.— Through the courtesy of the Secretary of the Treasury, we are enabled to place before our readers to-day the details of Government receipts and disbursements for the month of October. From previous returns we obtain the figures for previous months, and in that manner complete the state-ment for the ten months of the calendar years 1905 and 1904. For statement of October 1904, see issue of Nov. 12 1904, page 2128.

INSOLVENT.

6,702—The Farmers National Bank of Kingfisher, Oklahoma, insolvent, was placed in charge of a receiver on November 1 1905.

MonetaryFCommercialEnglishNews

(From our own Correspondent.)

London, Saturday October 28 1905.

Stock markets have been dull and uninteresting all through the week. Mainly they have been influenced by money uncertainties. The 4% rate is now quite effective and the outside market has had to borrow largely from the Bank of England. Also it has had to discount short bills at the Bank. The supplies in the outside market are for the moment increased by this. But the Bank will have to be repaid by and by, and in real truth the supplies outside are very short. Moreover, the reserve of the Bank of England is low. Consequently, the fear continues that the Bank will have to put up its rate of discount to 5%, and that fear checks all business. Much will depend upon whether the Bank is able to obtain the gold expected to arrive in London in the near future. The French bankers have for a considerable time past been actively competing for gold and have bought a great deal offering in the open market. It is hoped now that they will cease to compete, as an advance in the Bank of England's rate would be unfavorable to the floating of the new Russian loan.

The depressing effect of the money uncertainties has, of course, been greatly aggravated by the grave internal condition of Russia. Here in London, the disposition at first was to attach no great importance to the strike. It was said that matters looked a great deal worse earlier in the year and yet that the work people were overawed and returned to work. But the strike has made a very unfavorable impression both in Paris and Berlin, and in consequence London has come to look upon it also with apprehension. London, of course, holds very little Russian stock, while in Paris and Berlin the holdings are enormous. Consequently London is not affected so long as Paris and Berlin do not become apprehensive.

Meanwhile there is going on an unquestionable improvement in trade, especially in the South of Scotland and in the North of England. There is, too, a more hopeful feeling. Generally, our manufacturers have been bettering themselves during the past few years. They have been discarding obsolete plants and providing themselves with the newest and most efficient machinery. There is greater confidence, therefore, that our manufacturers are in a position to compete successfully with all the world; and there is an inclination to look for a considerable expansion of trade in the new year. Especially the reports concerning the iron and steel trades, the cotton trade and the chemical industries are most encouraging. The directors of the Bank of England made no change in their rate of discount this week. It was not expected that they would. But, as already stated, there is much fear that unless they are able to get the gold arriving during the next few days they will have to raise their rate to 5%. During this week money has been in very strong demand, partly, of course, owing to the Stock Exchange settlement, which was concluded last evening. The account to be settled was large. A very considerable proportion of it,

circulation, on the dates given. The statement for Nov. 1 1904 will be found in our issue of Nov. 12 1904, page 2129.

a For redemption of outstanding certificates an exact equivalent in amount of the appropriate kinds of money is held in the Treesury, and is not included in the account of money held os a sits of the G for G of the G.

however, consisted of accounts transferred from America and the Continent to this eity, because here money could be obtained more freely and more cheaply. The scramble for money was increased also by some of the joint-stock banks ealling in loans for the making up of their accounts at the end of the month-a very objectionable practice which it is to be hoped the banks will drop soon and content themselves with giving the accounts as they normally stand, not as they artificially stand when loans are called in for the purpose.

But even allowing for the settlement and the "window dressing" by the banks, the supplies in the open market are small. The Bank of England unquestionably ought to do everything in its power to increase its reserve, for between now and the end of the year there will be a considerable demand upon it, owing to internal demands. If a foreign demand should arise in addition, the reserve might be reduced so much as to cause apprehension.

The India Council offered for tender on Wednesday 120 acs of drafts and the applications amounted to nearly 841 laes at prices ranging from 1s. 41-32d. to 1s. 43-32d. per rupee. Applications for bills at 1s. 4 1-32d. per rupee and for telegraphic transfers at 1s. 41-16d. per rupee were allotted about 12% of the amounts applied for.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last four years:

Messrs. Pixley & Abell write as follows under date of October 26:

GOLD.—Arrivals this week have been small, and the larger portion has again been secured by the Bank of England at slightly lower rates than last week. We expect about £800,000 to arrive in bar gold next week. The Bank has secured in bars £535,000, while £30,000 for South America, £5,000 for Gibraitar and £20,000 for Exppt has been withdrawn. Arrivals—New York, £7,278; South Arrica, £263,-755; Australia, £11,450; total, £282,483. Shipments—Bombay, £48,000; Calcutta, £10,000; total, £58,000.

SILVER.—The feature this week has been the demand for spot sliver, partly for immediate shipment to India and partly to cover sales for October, and we touched at one time 28 15-16d., closing now at 28% d., with a quiet market. Forward has not been in such good demand and is worth only 9-16d, under cash. The price in India is Rs. 72%. Artivals—New York £186.693

Statements of New York City Clearing House Banks .-The following statement shows the condition of the New York City Clearing House banks for the week ending November 4. It should be distinctly understood that as to all items except capital and surplus, the figures are the averages of the daily results, not the totals at the end of the week. In other words, in reporting loans and deposits and holdings of specie and legal tenders, the practice is to take the aggregate of the amounts for the several days of the week and divide this aggregate by the number of days.

We omit two ciphers (00) in all cases.

a including for Boston and Philadelphia the item "due to other banks," and also Government deposits. For Boston these Government deposits amounted on No-vember 4 to \$1,400,000; on October 28 to \$1,395,000.

Imports and Exports for the Week.-The following are the imports at New York for the week ending for dry goods Nov. 2 and for the week ending for general merchandise Nov. 3; also totals since beginning first week in January. FOREIGN IMPORTS AT NEW YORK.

For week.	1905.	1904.	1903.	1902.
Dry Goods General Merchandise	\$2,768,577 13,014.039	\$2,405,500 12,348,162	\$2,062,050 8,326,721	\$2,337,427 8,289,882
Total Since January 1.			\$10,388,771	
Dry Goods General Merchandise	\$120,141,201 473,818,033	\$102,236,725 404,880,258	\$111,804,795 391,243,520	\$106,187,177 371,528,201
Total 44 weeks	\$593,959,234	\$507,116,983	\$503,048,315	\$477,715,378

The imports of dry goods for one week later will be found

in our report of the dry goods trade. The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Nov. 6, and from January 1 to date.

EXPORTS FROM NEW YORK FOR THE WEEK.

······································	1905.	1904.	1903.	1902.
For the week Previously reported	\$13,927,002 441,674,980	\$10,799,004 409,216,486	\$11,361,909 420,648,495	\$7,613,201 405,655,593
Total 44 weeks	\$455,601,982	\$420,015,490	\$432,010,404	\$413,268,794

Note.—As the figures of exports as reported by the New York Custom House from week to week frequently show divergence from the monthly totals, also com-piled by the Custom House, we shall from time to time adjust the totals by adding to or deducting from the amount "previously reported."

The following table shows the exports and imports of specie at the port of New York for the week ending Nov. 4 and since Jan. 1 1905, and for the corresponding periods in 1904 and 1903.

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Banking and Financial

Spencer Trask & Co., Investment Bankers.

We transact a general banking business; sell and purchase invest-ment scenarities; issue circulars describing short-term and long term high-grade bonds; execute commission orders upon the New York Stock Exchange and in the financial markets of the leading cities. We also have special representatives in all of the principal cities.

Branch Office, Albany, N.Y. William and Pine St., New York.

MOFFAT & WHITE,

Members New York Stock Exchange. 5 NASSAU STREET, - HANOVER BANK BUILDING, Dealers in Investment Securities. COMMISSION ORDERS EXECUTED FOR CASH ONLY.

Nankers' Gazette.

For Dividends see page 1415.

Wall Street, Friday Night, Nov 10 1905.

The Money Market and Financial Situation .- Saturday's bank statement showed the surplus reserve of the Associated Banks reduced to a little over \$2,000,000, and as the flow of currency has since continued to be towards the West and South, call loan rates have steadily advanced. On Thursday and to-day they reached 15%, the highest quotation recorded since April 1903, and as a consequence there has been a steady decline in scenrity values. It is to be noted, however, that there is a better supply of time money, and practically all requirements for that class of loans have been met—at fairly reasonable rates. Moreover, the \bullet is a somewhat better feeling abroad. The principal foreign banks make a more favorable showing than last week and the situation over there is correspondingly relieved. The industrial outlook for the country at large is most promising, and aside from local money market conditions, and perhaps the distuibing influence of a contest over the late city election it is difficult to point out any logical reason for the decline in stocks referred to.

The foreign exchange market continues relatively firm notwithstanding the advance in call loan rates.

The open market rates for call loans on the Stock Exthe open market rates for can found on the Stock Ex-change during the week on stock and bond collaterals have ranged from $4\frac{1}{4}$ to 15%. To-day's rates on call were $7\frac{1}{2}$ @ 15%. Prime commercial paper quoted at $5@5\frac{1}{2}\%$ for en-dorsements and $5@5\frac{1}{2}\%$ for best single names. The Bank of England weekly statement on Thursday showed an increase in bullion of £378,945 and the percentage

of reserve to liabilities was 40, against 38.50 last week. The discount rate remains unchanged at 4%. The Bank of France shows a decrease of 1,550,000 francs in gold.

a \$8,549,600 United States deposits included, against \$8,521,900 last week and \$23,379,500 the corresponding week of 1904. With these United States deposits eliminated, the surplus reserve would be \$4,491,675 on November 4 and \$14,561,400 on October 28. Note.—Returns of separate banks appear on the preceding page.

Foreign Exchange.—Though heavy, the market did not fully respond to the higher rates for call money until Thursday. Then there was a sharp decline and the tone was weak at the close; offerings of finance bills and sterling loans and the absence of demand contributed to the decline.

To-day's (Filday's) nominal rates for sterling exchange were 4 $83\frac{1}{2}$ (4 84 for sixty day and 4 87@4 $87\frac{1}{2}$ for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8215@4 8225 for long 4 8590@4 86 for short and 4 8640@4 8650 for eables Commercial on banks 4 8134 @4 82 and documents for payment 4 811/2@4 823/4. Cotton for pay-ment 4 811/2@4 815/8: cotton for acceptance 4 813/4@4 82 and grain for payment 4 825/8@4 823/4.

To-day's (Friday's) actual rates for Paris bankers' frances were 5 20@5 193% a for long and 5 $17\frac{1}{2}a@5 17\frac{1}{2}d$ for short Germany bankers' marks were 94 7-16@941/2 for long and $95\frac{1}{8}@95$ 3-16d for short. Amsterdam bankers' guilders were 40 1.16x@40 $\frac{1}{8}a$ for short.

Exchange at Paris on London to-day, 251, 151/2c.; week's range, 25f. 151/2c. high and 25f 141/2e low.

The week's range for exchange rates follows:

noted throughout the list, and in several eases there has been a decline of from 1 to 2 points.

Consolidated Gas debenture 6s are nearly 3 points lower, in sympathy with the stock. Wabash debentures are down 2½ points, Erie convertible 4s 2 points and United States Steel 5s, Colorado Industrial, Distilling Securities and Brooklyn Rapid Transit issues are a point or more lower than last week. The Japanese issues have been active and are lower.

United States Bonds .- Sales of Government bonds at the Board include \$3,000 3s reg. 1908-18 at $103\frac{1}{2}$ to $103\frac{7}{8}$, \$2,500 4s reg. 1907 at $104\frac{3}{4}$, \$8,000 4s coup. 1925 at $133\frac{3}{8}$ and \$10,000 4s reg. 1925 at $133\frac{3}{8}$. The following are the daily closing quotations; for yearly range see third page following.

This is the price bid at the morning hoard; no sale was made.

Railroad and Miscellaneous Stocks.—In the stock market the offerings have been in excess of the demand, and in some cases the selling has been urgent, owing chiefly, as noted above, to money market conditions. These have brought about a general decline in prices, but have not resulted in a largely increased volume of business or any extensive liquidating movement. To-day's market has been steadier than that of Wednesday and Thursday, and there was a recovery averaging about a point in a long list of active shares. The sharpest declines occurred in issues that have recently

been aggressively strong, including Great Northern, North-ern Pacific, Delaware & Hudson and Lackawanna. These declined from $7\frac{1}{2}$ to 25 points, and almost the entire active list when at the lowest was from 3 to 6 points lower than last week.

Reading is exceptional in that it shows, at $2\frac{1}{4}$ below the highest, a net gain of over 3 points. Duluth South Shore & Atlantic has been unusually active. It advanced during the early part of the week and again to-day

Miseellaneous and industrial stocks declined with the general market, and in this list there was no exception to the downward movement. Consolidated Gas was conspicuously weak and closes nearly 6 points below its setling price on Monday. General Electric has lost a substantial part of its recent advance, and many other issues are from 2 to 3 points lower notwithstanding to-day's recovery

For daily volume of business see page 1425.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow.

Outside Market .-- Trading in the "curb" market this week has been affected by the election and by tight money. After Tuesday weakness developed and most of the active stocks suffered losses. Toward the close to-day the market grew firmer and a partial recovery ensued. International Mercantile Marine was a feature, the preferred gaining a point to 36½, dropping to 35, and advancing again to 36¾. It closes to-day at 36. International Salt declared its first dividend, 4%, payable 1% quarterly, and the stock rose from 37¾ to 40½, easing off to 38 and closing to-day at 39½. Standard Oil was conspicuous for its wide range, advancing from 690 to 695, and dropping to 675, recovering part of the loss and ending the week at 684. Interborough Rapid Transit, after a rise of 5³/₄ points to 212¹/₄; weakened to 205, closing to-day at 206. Chicago Subway was only fairly active, fluctuating between 47 and 4914, with the last sale to-day at 473/8. American Tobacco ranged between 375 and 385, closing to-day at 380. Considerable interest was shown in Mackay Companies stocks, the common selling up from 493% to 503% in the early part of the week. On Thursday it broke to 473% and closes to-day at 471%; the preferred was traded in between $72\frac{5}{8}$ and $73\frac{1}{2}$. American Writing Paper preferred, after opening down a point from last Friday's close at $33\frac{1}{2}$, rose to $34\frac{3}{4}$, declining to 34. In the copper group interest centered to a great extent in Boston Copper which advanced steadily from $16\frac{1}{2}$ to $20\frac{3}{4}$, later falling to $17\frac{7}{8}$. The close to-day was at $18\frac{3}{4}$. United Copper common opened the week at 3212 and rose to 34, falling back to 3314, ending the week at this figure. Outside quotations will be found on page 1425.

113: k 1-16 1%. x 1-22 c! 1%. y 3-32 of 1%

The following were the rates for domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying 50e. per \$1,000 discount; selling 75e. per \$1,000 premium; Charleston, 121/2e. per \$1,000 premium; New Orleans bank, \$1 per \$1,000 discount; commercial, \$1 50@\$1 25 per \$1,000 discount; Chicago, 10e. per \$1,000 discount; St. Louis, 65c. per \$1,000 discount; San Francisco. 50c. per \$1.000 premium.

State and Railroad Bonds .- Sales of domestic State bonds at the Board are limited to \$46,000 Virginia 6s deferred trust receipts at 161/2 to 171/4.

There has been a fair volume of business in the market for way and industrial bonds, but a tendency to weakness is

Investment and Kailroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July I to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the street raitways are brought together separately on a subsequent page.

Net Earnings Monthly to Latest Dates .- The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of Oct. 21 1905. The next will appear in the issue of Nov. 18 1905.

a Net earnings here given are after deducting taxes.

b Net earnings here given are before deducting taxes.

d Net after deducting taxes is \$92,824 for September 1905, against \$67,685 for September 1904, and from July 1 to September 30 it is \$242,-103 in 1905, against \$176,628 in 1904.

Interest Charges and Surplus .- The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus above or deficit below these charges.

Minneapolis & St. Louis Railroad.

(Report for Fiscal Year ending June 30 1905.)

President E. Hawley, under date of Oct. 3, says in substance:

President E. Hawley, under date of Oct. 3, says in substance: Acquisition-Lease.—Reference was made last year to the acquisition of a majority of the capital stock of the Des Moines & Fort Dodge RR. Co., and on Jan. 1 1905 the company leased from the latter for a period of thirty years the railway from Des Moines to Ruthven. 138.65 miles, with trackage rights over the Chicago Milwaukee & St. Paul Railway from Ruthven to Spencer. 12.45 miles, and over the Illinois Central RR. Irom Tara to Fort Dodge, 6.07 miles, making a total of 157.17 miles. Under the agreement this company is to operate the property of the lessor, paying all expenses of operation and maintenance, and applying the remaining earnings to maintaining its corporate organization, to the payment of taxes, the interest on mortgage debt and on certain other obligations then outstanding, also towards the payment of such betterments and additions as are required to accommodate the business, the balance then remaining to be paid over to the lessor. The property gives us direct entrance into Des Moines and enables us to compete for traffic we could not otherwise secure. As the lines also traverse rich agricultural sections they should prove valuable feeders. The average miles of main track operated for the year were 720.39 miles, an increase of 78.55 miles as compared with the preceding year. *General Results.—*The gross earnings increased \$226,191, or 7.93%, over the previous year. Conditions governing traffic were most unfavorable during the year, resulting from the partial failure of the crops in the territory served by these lines, and also from the continued inactivity in general business conditions which prevailed for the two previous years. In addition a heavy reduction was made in rates on grain and milling products by competitive lines, which the company was obliged to meet to secure a share of this important class of busines. The receipts from passenger traffic increased \$71,481 or 8.66%, of 9178%, in earnings per to

Toledo St. Louis & Western Railroad.

(Report for Fiscal Year ending June 30 1905.)

President T. P. Shonts says in substance:

President T. P. Shonts says in substance:
 General Results.—Compared with last year the earnings from freight traffic increased \$338.876, or 13.19%; the earnings from passenger traffic increased \$98,512, or 16.86%; the total gross earnings from operation increased \$443,517, or 13.27%. Our freight tonnage increased \$46,228 tons. Average earnings per ton of freight decreased 12.61 cents, and per ton mile 0.30 mills. Passengers carried one mile increased for by the World's Fair at St. Louis, Mo., while earnings per passenger mile decreased 3.8 mills. Gross earnings per raile of road are the largest in its history, being \$8,398, as against \$7,414 last year.
 Bands.—At the beginning of the year we had in our treasury bonds of the company as follows: Prior lien bonds, \$646,000; first mortgage on account of improvement, bonds amounting to \$250,000; total, \$996,000. There was sold during the year prior lien bonds, \$400,000; we have also in treasury preferred stock, \$47,40.
 During the year the company received \$108,000 first mortgage 4% vances to said company, making the total amount of said bonds now owned by this company \$144,000 (included in balance sheet at face value in "Investment and Advances, D. & T. Shore Line RR."

In 1904-05 "Agriculture" includes corn, 116,063 tons, decrease; 30,769; other grains, 115,564, increase, 3,128, "Animals" includes dressed meats, 186,107 tons, increase, 52,377, "Mines" includes coal, (mostly bituminous), 642,268 tons, increase 362,731. Maintenance, Etc.—The following materials were used in main tracks: 9.50 miles of new 70-pound rails; 179,062 cross-ties; 54.09 miles of track ballasted, being 37.95 miles of gravel, 13,37 miles of cinders and 2.77 miles of stone; 18.30 miles of new sidings and extensions. Equipment.—As compared with 1904 and 1903;

Alabama Great Southern Railroad.

(Report for Fiscal Year ending June 30 1905.)

President Samuel Spencer says in substance:

President Samuel Spencer says in substance: Financial.—There has been no change in the amount of capital stock or funded debt outstanding. The total charges to capital account were \$40,965, representing cost of real estate purchased for passing and side tracks at Trenton, Ga., Crudup, Ala., and Johnson Tank, Ala., and part cost of new yards at Birmingham, Ala. Equipment trust obliga-tions were incurred during the fiscal year covering in part the cost of 1,550 freight cars and 12 locomotives, \$1,000,000. Equipment trust notes paid during year, \$38,880. *Operating Expenses.*—The increase of \$18,237, or 3.59%, in main-tenance of way and structures, was due principally to cost of new and additional sidings, ballasting, fencing and water stations. Maintenance of equipment shows an increase of \$191,918, or 15.25%, due to increase in wages of employees and in cost of materials, and to increased re-newals of cars and engines. Conducting transportation increased \$124,355, or 10.57%, due principally to increase in wages, higher prices of materials, chiefly fuel, and to hire of equipment. *Traffic.*—There was an increase in revenue from freight of \$128,269, or 6.21%. The number of tons of commercial freight carried one mile increased 7.64\%. The average length of haul per ton was 112.25 miles, as compared with 111.77 miles during the previous year, an increase of 0.43%. The average rate per ton yet mile was 0.69 of a cent, as com-pared with 0.70 of a cent the previous year, a decrease of 1.43%. The average carnings of freight trains per mile run were \$2.19, as compared with \$2 10 for the previous year, a mincrease of \$1.43%. The average carnings of freight trains per mile run were \$2.19, as compared with \$2 10 for the previous year, a mincrease of \$1.43%.

average earnings of freight trains per mile run were 2.19, as compared with 2.10 for the previous year, an increase of 4.14%. The revenue train miles were 1.771,662, an increase of 20.351 miles, or 1.16%. The average number of tons of freight in each train (including company's material) increased from 307.53 in 1904 to 323.81 in 1905, or 5.29%.

Sale of Gadsden & Attalla RR.—The Gadsden & Attalla, extending Irom a connection with the main line at Attalla, Ala., to Gadsden, Ala., 5.90 miles, all of the bonds and stock of which were owned, was for some time operated as a branch to reach industries at Gadsden. During December 1896, the use of the line was discontinued, it being found more economical to use jointly with Southern Railway its branch be-t cen the same trip. The all with and adjacent to the tracks of G.

& A. The property of the G. & A. was conveyed to Southern Railway in consideration that your company be permitted to use jointly with Southern Railway forever the combined property between Gadsden and Attalla, upon payment of a user proportion of the cost of mainten-ance and joint operation of the combined lines, and also of a like pro-portion of interest at the rate of 5% per annum upon the excess value of the Southern Railway property and of the cost of any betterments to the combined property which shall hereafter be made for joint ac-count. All of the \$100,000 Gadsden & Attalla bonds owned have been canceled, the mortgage securing the same has been satisfied of record and the nominal book value of both the bonds and stock written off. *Earnings*—The carnings balance sheet etc. of the

Cincinnati New Orleans & Texas Pacific Railway.

(Report for Fiscal Year ending June 30 1905.)

President Samuel Spencer says in part:

President Samuel Spencer says in part: General Results.—Maintenance of equipment decreased 1.89%. Con-ducting transportation increased \$223,152, or 9.68%, with an increase in gross earnings of \$589,874, or 8.71%. The total number of tons of custom freight moved increased 4.29%; same one mile increased 6.14%. The average number of tons of freight (including company's material) per train mile was 410.47, an increase of 1.12%. *Charges.*—The increase of \$12,769 in rental paid to the city of Cincin-nati is due to the interest and sinking fund of 1% on terminal bonds issued by the trustees of the Cincinnati Southern Ry. for acquisition of terminals in Cincinnati, in accordance with the terms of the Supple-mental Agree nent dated June 7 1902. The \$145,990 charged to income for permanent improvements represents the cost of certain new and addi-tional second, side and passing tracks, water stations, etc., which will revert to the city of Cincinnati under the terms of the lease. *Equipment*—Payments during the year on account of equipment trust obligations amounted to \$209,005. The equipment at the close of the year consisted of: Locomotives, 165; passenger cars, 70; freight cars, 8.524; miscellaneous for the supplement of the cars and supplement of the cars and the cars and

Georgia Southern & Florida Railway.

(Report for Fiscal Year ending June 30 1905.)

President Samuel Spencer says in part:

Freshent Sander Spencer says in part. Financial.—Equipment obligations paid during the year amounted to \$78,000; standing at close of year, \$270,000. Equipment June 30 1905.—Locomotives, 46; passenger-train cars, 56, increase, 1; freight-train cars, 2,635, increase, 2; road service equipment, 13. Of this equipment 500 box cars, 25 stock cars, 99 flat cars and 40 coal cars are held under equipment trust, the balance being owned by the company. Renewals.—During the year 4.72 miles of new 75-lb, steel rail were laid, making total length of track relaid with 75-lb, rail 149.033 miles. There were placed in the track 148,825 cross-ties and 74 sets of switch-ties as compared with 139,882 cross-ties and 75 sets of switch-ties for the previous year.

the previous year

year consisted of: Locomotives, 165; passenger cars, 70; freight cars, 8,524; miscellaneous cars, 22. Of this equipment, 5 locomotives and 2.400 freight cars are subject to equipment liens. The remainder is owned by the company. Maintenance of Way and Structures.—Maintenance of way and struc-tures shows an increase of \$264,979 55, or 20.90%, as compared with last year. Of this amount \$248,742 represents increase in renewal of bridges and culverts. The large expenditures for renewal of bridges and culverts were necessary and must be continued for several years in order to fit the line for heavier motive power. The cost of these and other permanent improvements which will, under the terms of the lease, revert to the city of Cincinnati, cannot be capitalized in the accounts of the lessee company, and must therefore be borne by the expense accounts. It is estimated that the cost of bridge renewals alone, at present prices, will aggregate about \$3,000,000.

It is estimated that the cost of bridge renewals alone, at present prices, will aggregate about \$3,000,000. The cross-tie renewals for both main and side tracks averaged 353 per mile (average per year since 1895, 370); 5,521 tons, or 42.02 miles, of \$5-lb, steel rail were laid, replacing worn 75-lb, steel rail; 69,403 cubic yards of ballast has been placed in the tracks, as follows: Stone, 32,228 yards, slag, 23,575 yards; cinders, 13,602 yards; 43 signals have been added, making a total of 479 signals in use; protecting 324 miles of road. The total length of bridges and tunnels in lineal feet was as follows:

Toledo Peoria & Western Railway.

(Report for Fiscal Year ending June 30 1905.)

President E. N. Armstrong says in part:

President E. N. Armstrong says in part: General Results.—The earnings show a decrease of \$27,273, or 2,08%; compared with the preceding year the expenses increased \$1,021, or .09%. The freight traffic decreased 18,881 tons, or 1.94%; grain de-creased 31,554 tons, due to shortage of freight-car equipment available for this traffic in the spring months, and the increased movement of grain to Gulf ports; average rate per ton per mile was 13 mills, a de-crease of 6-10 of a mill and, the average cost decreased 1-10 of a mill; freight earnings per train mile, \$1.73, an increase of 6 cents. The number of passengers carried was 643,465, a decrease of 1.879; average rate per passenger per mile, 2.41 cents; earnings per passenger train mile, 90 cents. Maintenance of way expenses increased \$17,804, due chiedly to extensive renewals of cross ties and general repairs of the roadway. Maintenance of equipment decreased \$6,843 \$2 and conduct-ing transportation \$14,239; general expenses increased \$1,453 and taxes \$2,846; 2,094 tons of new steel rails and 107,557 cross ties were used in renewals; 7.73 miles of track ballasted with cinders, and 6.41 miles with gravel; 43.67 miles of fences rebuilt and 37.65 miles repaired. Extraordinary expenditures charged to operating expenses, \$124,624, include \$78,401 paid on principal of outstanding equipment obligations. Equipment.—There were 34 locomotives in service on June 30 1905.

Therefore \$15,401 paid on principal of outstanding equipment obligations, Equipment.—There were 34 locomotives in service on June 30 1905, one condemned locomotive having been sold and one torn up during the year; freight ears decreased 77, 28 hox, 12 coal and 2 stock ears having been destroyed, and 1 caboose, 7 box and 30 coal cars, no longer suitable for freight service, were transferred to miscellaneous equipment; 3 box cars were rebuilt at Peoria shop. Contracts were made for the purchase of 50 gondola cars to be delivered in Aug. 1905, and 5 locomotives in October 1905, the cost to be charged to operating expenses. Equip-ment in service: Locomotives, 34; passenger cars, 31; freight cars, 1,609; miscellaneous, 59. Coupon Serin Refired — The coupon serin of this company. \$220,275

Coupon Scrip Retired.—The coupon scrip of this company, \$220,275, issued Jan. 1 1895, matured on Jan. 1 1905, and was retired on the later date, the funds therefore being provided by the issue of demand notes bearing interest at the rate of 4% per annum. Claim Against Warsaw Branch Released.—A claim having been made by G. E. and N. W. Thornton to joint ownership in the Warsaw branch, the same was settled by a payment of \$9,000, and the deed of release obtained from them was duly recorded.

The earnings, expenses and balance sheet have been:

Maine Central Railroad.

(Report for Fiscal Year ending June 30 1905.)

President Lucius Tuttle says in substance:

Growth of Operations.—Gross earnings amounted to \$7,251,536, an increase over 1896 of \$2,210,917, or 44.72%. During the ten years operating expenses increased from \$3,271,673 to \$4.876,202, or 49.04%, and taxes from \$97,779 to \$260,400, or 166.31%; while total charges against net income for interest and dividends, rent of leased roads and sinking fund payments increased only \$55,4\$1. The portion of net income during this period not disposed of for operating expenses and betterment is held in reserve for future contemplated improvements.

Balance of Debt Charged Off.—The company owns the larger part of the stock of the Portland Mt. Desert & Machais Steamboat Co., which has not for many years earned sufficient to provide for operating expenses and natural depreciation of its marine equipment. It sold its only steam-boat, the Frank Jones, in May 1905 for \$100,000, and discontinued its transportation basiness. The cost of the stock of the steamboal com-pany was charged to profit and loss account in previous years. The steamboat company has paid \$100,000 of its indebtedness and the hal-ance, \$50,000, being probably uncollectible, has been charged off in the year's profit and loss account.

Bangor Terminal Facilities.—For many years the directors have de-sired to substitute, upon the Exchange Street property at Bangor a new and commodious union passenger station in place of the present two antiquated and insufficient stations. Owing to upeypected tech-nical difficulties in the matter of clearing up titles to certain lands re-quired, building could not be commenced until recently. It is now expected that it will progress continuously and that the whole plan of re-arrangement of the passenger and freight facilities will be carried out during the next year. The estimated cost will be between \$400,000 and \$500,000, and to provide a part \$300,000 has been set aside out of the income of the year.

Statistics.—The earnings, expenses and charges have been compiled for the "Chronicle" as follows:

Virginia & Southwestern Railway.

(Report for Fiscal Year ending June 30 1905.)

Fresheent Lucius ruttie says in substance: General Results,—Gross carnings increased \$344,647. The pay-rolls, making up 53.26% of total operating expenses and 35.82% of gross earnings, amounted to \$2.597.213. an increase of \$175,763 over the previous year. The more important items included in operating ex-penses for maintenance were: 5,040 tons of new steel rails laid in main tracks, and 2,774 tons of relay-rails in branches and sidings; 256,910 ties laid in main tracks and sidings; 59.46 miles of track raised and re-ballasted; 6.78 miles of new sidings built; 37.84 miles of fence replaced; 1,085 ft. of single track bridge renewed with from and steel structures; 351 ft. of highway overhead bridges renewed, and 7,029 cubic yards of masonry laid in bridges, culverts and other work. *Canital Accounts*—No additions were made to the construction or

Capital Accounts.—No additions were made to the construction or equipment accounts, the cost of all additions, improvements and re-newals having been included in operating expenses. Three shares of stock were issued for a like amount of stock scrip taken up and carceled. Funded delt was reduced \$600,000 by payment of the $4\frac{1}{2}c_{1}^{2}$ sinking fund bonds which fell due Feb. 1 1905.

Profil and Loss Account.—The amount standing to credit of profil and loss has been enlarged from \$283.114 to \$1.178.325, the increase arising mainly from placing to its credit the Washington County By, bond., \$250,000, received in part consideration for the guaranty of principal and interest of its debt, and \$600,000 representing the sinking fund issues retired on Feb. 1 1905.

President Henry K. MeHarg says in substance:

Improvements.—Five-hundred tons of S5-pound steel rail have been purchased with the fastenings, and additional yards and sldings were made at Bluff City, where connection is made with the Southern Rail-way; some 3 miles of track on the Stony Creek extension has been laid; some 12 miles of track ballasted with slag; new station erected at Big Stone Gap, and other improvements made amounting to \$41,306, all of which has been charged to operating expenses.

The physical condition of your property has shown vast improvement and our track on the Virginia end, by the first of January 1906, will com-pare—ballasted as it will be throughout with furnace slag, with the older lines with which we connect.

Cor Track.—Our coal business has shown a gratifying increase and we suffered so from lack of cars during the late fall and vinter months that 500 more new 40-ton cars have be a purchased at a cost of \$375,000, and a car trust made for this amount, 20% of the principal payable yearly, the whole amount being due in five years, at 5^c interest, and the same has been placed with investors without control sion of any sort, at par and interest

Outlook .-- The floating debt of which I spote in the last report has been decreased, and the outlook for the future of this property is most encouraging

Montreal Street Railway.

(Report for Fiscal Year ending Sept. 30 1905.)

President L. J. Forget says in substance:

-The gross earnings show an increase over the previous The operating expenses increased during the same General Results .-

General Results.—The gross earnings show an increase over the previous year of \$243,649. The operating expenses increased during the same period \$139,568. Several new extensions to the tracks of the company have been con-structed during the year and the rolling stock and equipments have been increased to keep up with the requirements of the traffic. The directors purchased a large block of land on St. Denis Street in order to permit of the construction of car sheds, sub-stations, and other necessary buildings to keep up with the growing business. An amount of \$107,604 expended during the year on special renewals has been charged against the contingent account, and \$60,000 has been carried to the credit of that account. *Power Contract.*—A contract was entered into with the Montreal Light Heat & Power Co. for the supply of 3,000 horse-power alternating cur-rent to be delivered at sub-stations at outlying points in the city. *Montreal Park & Island Ry.*—The gross earnings have shown a satis-factory increase, and while the operating expenses have also sbown an increase, the net results have been fairly satisfactory. A contract was made with the company to supply it with power. *Taxes, Elc.*—The company has paid to the City of Montreal the usual property and business taxes \$17,341, taxes on earnings \$147,724, ac-count snow clearing \$68,692, making a total sum of \$233,757. Results for four years were as below given:

Edison Electric Illuminating Co. of Boston.

(Report for Fiscal Year ending June 30 1905.) President Charles L. Edgar says in substance:

Office Building.—Just before the close of the fiscal year, property numbered 33 to 39 Boylston St. was purchased, and as soon as possession can be obtained it is proposed to erect a modern ten-story office building upon the site for the use of the company's entire office force, outside of the executive offices at State St. Action by City.—During the year preliminary steps have been taken by the City of Boston which, if carried to their conclusion, will enable the city to install a municipal electric light and gas plant, and your company bas taken such steps as have been deemed necessary to protect its rights in the matter. (See V. 81, p. 1102). New Stock.—In May a 10% increase in the capital stock was issued as outlined in last year's report. This increase, amounting to 10,450 shares, was offered to stockholders at \$200 per share, and, with the exception of 60 shares, was all taken. Certificates were issued on May 2 1905. Business.—The number of lamps connected to the company's cir-

Business.—The number of lamps connected to the company's cir-cuits, compared with the previous five years, is shown in the following table:

United States Finishing Company.

(Report for Fiscal Year ending June 30 1905.)

President J. H. Wright, under date of Oct. 19, says in substance:

History.—In submitting this report of the sixth year of the original and the first year of the re-incorporated company, the directors have deemed it proper to go somewhat more into detail than usual, as follows:

deemed it proper to go somewhat more into detail than usual, as follows: The original consolidated company, organized under the laws of New Jersey, began business July 1 1899, having acquired the property of the Norwich Bleaching, Dyeing & Printing Co. at Norwich, Conn., of the Dunnell Mfg. Co. at Pawtucket, R. I., and of the Reid & Barry Co. at Passaic, N. J. In 1901 the plant of the Sterling Dyeing & Finishing Co. at Sterling, Conn., was added through control of the capital stock of that company, and in 1903 the plant of the Silver Spring Bleach-ing & Dyeing Co. at Providence, R. I., was similarly added, under the name of Silver Spring Co. The existing Connecticut company, therefore, is legally the successor of the former United States Finishing Co. (of New Jersey), the Sterling Dyeing & Finishing Co. (of Connecticut) and the Silver Spring Co. (of New Jersey). The properties were taken over by the present company as of July 1 1904, and this report covers the fiscal year between that date and June 30 1905.

this report covers the fiscal year between that date and June 30 1905. General Results.—During the year the company finished 253,788,900 yards of goods (equivalent to 144,200 miles), an increase of more than 25,000,000 yards over the total finished by the separate companies the previous year. The income from production was \$4,147,831, an increase of more than \$500,000 over the total of the separate companies the pre-vious year. The cost of production was \$3,041,724, and the charges for maintenance and general expenses were \$706,211. Liberal disburse-ments for the maintenance and renewal of buildings, machinery, etc., were included in the charges for maintenance and general expenses, and there was also included under this head the sum of \$80,275 for interest on current bills payable.

The net earnings were \$425,889, and from this amount there has been paid interest on the outstanding bonds and dividends aggregating 7% on the preferred stock. The result is an excess of \$74,549, equal to 10% on the total outstanding common stock; and this amount has been carried to the aredit of surplus account increasing that account from \$1,522,776

ior the year in the number of lamps and motors con-

Of the increase for the year in the number of lamps and motors con-nected, 23,434 incandescent lamps, 251 arc lamps and 249 horse-power of motors were added in the purchase of the Wohurn Light, Heat & Power Co. The remainder, viz., 57,509 incandescent lamps, 493 arc lamps, and 2,017 horse-power of motors, is the increase in new business. Acquisitions.—The property of the Woburn Light, Heat & Power Co. has been purchased, and a contract entered into with the Newton & Watertown Gas I ight Co. for supplying that company with all its electricity until such time as the final purchase of its electric property is consummated.

electricity until such time as the final purchase of its electric property is consummated. *Plants.*—The new turbine power station has been in successful opera-tion since early last fall, the installation of two 5,000 K. W. units having been completed at that time. Another unit of the same size has re-cently been ordered, and will be installed during the summer of 1906. The sub-stations at No. 40 Summer St. and No. 56 Chatham St. have been completed, and a new sub-station has been contracted for in the basement of the Pavilion Building, Beacon and Tremont streets. The old generating station at Framingham has been discontinued and the property is for sale. The steam stations at Natick and Somer-ville have been turned into sub-stations, the steam apparatus being retained as a reserve. The steam stations and the apparatus disposed of; all of which is reflected in the decrease in the reserve for maintenance account shown in balance sheet.

NOTE.—During the year 1904-05 there were purchased for the sinking fund \$56,000 U. S F. Co. 1st mortgage 5% bonds at an average price of about 103.6 and accreded interest. An instalment of \$50,000 was paid to the sinking fund uig 1 1904, which, with interest accretions, \$8,700, and \$277 brought forward, made \$38,977 available for this purpose; deduct \$58,920 so expended; balance, \$57. Total redeemed bonds at par held by the trustees on July 1 1905, all of which are U. S. F. Co. 1st mortgage 5% bonds, interest on which is currently paid into and is added to the regular sinking funds, \$205,000. During the year \$110,000 bonds of the Silver Spring Co., Series A, 6% have been paid.

The total number of stockholders June 30 1905 was 596 viz.: Preferred, 452; common, 144.-V. 81, p. 1318.

Virginia Iron Coal & Coke Company.

(Report for Fiscal Year ending June 30 1905.)

President Henry K. MeHarg says in substance:

President Henry K. McHarg says in substance:
General Results.—Some gratifying progress has been made in the general results.—Some gratifying progress has been an unsatisfactor on ein many respects. The prices of iron were so low through July, August and September that the most of that time we had but one furnace in operation, and during October, owing to floods in the vicinity of our Dora furnace—the only one running—that furnace was banked, and during the whole month made but 1,720 tons of iron. From July 1 1905 to July 1 1905 to a support of the second state state sec

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET ROADS.

Atlantic Coast Electric RR.-Foreclosure Sale.-At the sale on Nov. 3 under forclosure of the general mortgage the property was bid in for \$700,000 by Adrian H. Joline, in the interest, it is understood, of Henry H. Rogers. George W. Norris of Philadelphia representing the general mort-gage bondholders' committee, bid \$675,000. The plan of reorganization is expected to be announced shortly.—V. 81, p. 974.

Bloomsburg & Millville(Electric) Ry.—Bonds.—This company, incorporated in 1901, has made a mortgage to the Commonwealth Trust Co. of Harrisburg, Pa., trustee, to se-cure an issue of \$250,000 of 5% gold bonds.

These bonds are dated Jan 2 1905 and due Jan. 2 1935, without option of earlier redemption; interest payable Jan. 1 and July 1 at office of trus-tee. Of the authorized issue \$50,000 is reserved for future extensions and improvements. The authorized eapital stock is \$250,000, in shares of \$50; amount outstanding, \$200,000. President, C. W. Miller; Seere-tary, L. E. Waller; Treasurer, C. C. Peacock.

California-Western Bailroad & Navigation Co.—Bonds Offered.—Peabody, Houghteling & Co., Chicago, are offer-ing at par and interest the unsold portion of this company's present issue of \$420,000 first mortgage 5% serial gold bonds, dated July 1, 1905; interest payable Jan. 1 and July 1 at office of trustee, First Trust & Savings Bank, Chicago; de-nomination \$1,000. The issue is limited to \$700,000, of nomination \$1,000. The issue is limited to \$700,000, of which the present block, \$420,000, matures in annual instal-ments of \$20,000 each from July 1 1906 to July 1 1926, both inclusive; the remaining \$280,000 bonds are reserved for future extensions (viz.: from Alpine to Head of Noyo River, 9 miles, \$90,000; from head of Noyo River to Willits on Cali-fornia & Northwestern RR., 9½ miles, 190,000), and when issued will be made payable in equal annual installments to and including July 1 1926. The bonds are redeemable in the reverse of their numerical order at the end of any year of the term thereof, on 60 days' notice, at 105 and year of the term thereof, on 60 days' notice, at 105 and interest. The President of the company is Frank Trum bull, President of the Colorado & Southern Ry. A circular says in substance:

bull, President of the Colorado & Southern Ry. A circular says in substance:
Security.—(a) 22½ miles of completed standard-gauge railroad extending from city of Ft. Bragg, Mendoeino County, Cal., eastward to Alpine, with branches to Glen Blair and Noyo Harbor; also wharf, shops and terminals at Ft. Bragg, and equipment; (b) railroad wharf, 43 feet wide, and extending 700 feet into deep water in Ft. Bragg Harbor, where ships drawing 18 feet, and carrying 600,000 feet of lumber, can load. Ft. Bragg is the best harbor between San-Francisco and Eureka Bay; (c) also a tract of 18,000 acres virgin redwood timberland on the Noyo River, now reached by the railroad. All of this timber will be directly tributary to the railroad as extended.
It is estimated that there are over 900 million feet of timber on this tract. This stumpage has been sold to the Union Lumber Co., which operates a large mill at Ft. Bragg, cutting 40 million per annum, at \$1 00 per M, and this company contracts, in any event, to pay minimum stumpage to the trustee equal to the annual maturities of bonds. All excess stumpage paid under this contract goes also to the trustee, to be applied at option of the railroad company, as follows: (a) To be invested for sinking fund; or (b) to purchase or call these bonds. The estimated annual stumpage income payable to the trustee to apply to sinking fund is \$48,000. *Guaranly.*—The Union Lumber Co., which receives these bonds as part payment for the sale of the railroad, amounting to over 48,000 acres, in the valley of the Noyo and Ten Mile Rivers, without paying to the trustee. It option.—The value and sold, to be applied by the trustee—its guaranty, by recorded contract agrees not to divest itself of any of its other timber land, amounting to over 48,000 acres, in the valley of the Noyo and Ten Mile Rivers, without paying to the trustee. On any 1 and sold, to be applied by the trustee.
in the valley of the Noyo and Ten Mile Rivers, without paying to the first. to th

Canada Atlantic Railway.-Bonds Ready.-The definitive bonds are now ready for delivery in exchange for the provisional scrip certificates and allotment letters at the offices of the Bank of Montreal, 22 Abehurch Lane, London, E.C. -V. 81, p. 1174, 840.

ore lands, \$16,595; depreciation of coal lands, \$50,532; depreciation of \$39,295; depreciation of improvements to leased properties, and repairs, \$35,827.

There was spent \$322,439 during the year for improvements to owned and leased properties, viz.: Improvements to owned properties, \$48,542; improvements to leased properties, \$8,850; fund for furnace repairs, \$265,-047.

Carolina Northern RR.—Successor.—See Raleigh & Charleston RR. below.—V. 81, p. 1241, 725.

Chatham Wallaceberg & Lake Erie Ry.-Mortgage.-Notice is given that a mortgage dated July 1 1905 has been filed in the office of the Secretary of State of Canada. The

National Trust Co., Ltd., is mortgage trustee. Edwin Bell, ership with C. A. Alderman having terminated.-V. 81, Chatham, Ont., is Secretary of the railway company.-V. 80, p. 2398.

Chicago Burlington & Quincy RR.—Extension.—This company, it is announced, has decided to build, under the charter of its subsidiary the Nebraska Wyonung & Western RR., a line from Bridgeport, Neb., the eastern terminus of the branch, to Guernsey, Wyo., southeast to North Platte, and thence to a connection with the main line east of the latter point, a distance of 250 miles. General Manager Holdrege was also quoted as saying that the company would shortly begin the extension of its line from Guernsey, Wyo., to Salt Lake City, but subsequently those higher in authority denicd that the extension would be built at this time. The "Railroad Gazette," however, of Nov. 3 says that although denied" the story does not down," it being "known that some years ago the survey for such an extension was made and that a practicable line was located through the unde-veloped territory north of the Union Pacific."-V. 81, p. 1380, 1369.

Chicago & Eastern Illinois E.R.-Listed.-The New York Stock Exchange has listed \$5,000,000 4% refunding and improvement bonds of 1955. These bonds represent additions and improvements, new stock and equipment, bonds and other obligations of connecting lines.

Earnings.-For 2 months ending Aug. 31 1905.

Chicago Great Western Ry.-Favorable Decision in Omaha Bridge Suit .- The United States Supreme Court on Monday (Judge Brewer writing the opinion) affirmed the decision of the United States Circuit Court of Appeals, rendered in March 1904, which sustained the right of the Mason City & Fort Dodge to use the Union Pacific bridge across the Mississippi River at Omaha and the terminal facilities in Omaha and South Omaha, as provided by Act of Congress, on payment of proper compensation. Compare V. 78, p. 988; V. 77, p. 349; V. 75, p. 1085.—V. 81, p. 974, 905, 897.

Chicage Milwaukee & St. Paul Ry.—Pacific Extension.— Regarding the incorporation of the Pacific RR., (V. 81, p. 1242, 1316), the "Railroad Gazette" of Nov. 3 says:

1242, 1316), the "Railroad Gazette" of Nov. 3 says: Perhaps the most persistent of the rumors is that the Chicago Mil-waukee & St. Paul will extend to the coast, which has recently been re-ported as an assured fact and as often denied by the highest officers of the road. The incorporation of the Pacific RR., which has made exten-sive purchases of terminal property in Tacoma and Seattle, and which plans to build east 250 miles from the Coast, has been taken as strong circumstantial evidence of the truth of this report, although it is denied that it has any connection with the St. Paul Company. The President of this new company is Mr. H. R. Williams, who recently, and with no explained reason, resigned as General Manager of the St. Paul, and the Chief Engineer is Mr. W. L. Darling, late Chief Engineer of the Chicago Rock Island & Pacific. Men of this stamp are not likely to be connected with a 250-mile road without cause. But this is no proof, of course, that it is necessarily the St. Paul which will ultimately get the road, although it looks as if that would be its ultimate disposition.—V. 81, p. 1241, 974.

Chicago & North Western Ry. - Extensions. Etc. -- The proposed new construction, aggregating 529 miles, is described:

Colorado Southern New Orleans & Pacific RR.-Plans.-

L. S. Berg, President of the New Orleans Terminal Co., is reported as giving the following facts regarding this company, in which he is interested:

in which he is interested: The new line of the Col. So. N. O. & Pac. R.R. Co. is to connect New Orleans, La., and Houston, Tex., paralleling the Southern Pacific. Con-nection can be made with the line which the Fort Worth & Denver City is to build southeast from Fort Worth, its present terminus, to Houston and Galveston. The C. S. N. O. & P. proposes to run from New Orleans to Baton Rouge over the Yazoo & Mississippi Valley tracks. From Baton Rouge construction work is soon to be begun on a line due west to De Quiney, La., on the Kansas City Southern, 47 miles from Beaumont. From that peint the new company expects to have trackage rights over he Kansas City Southern into Beaumont, and from Beaumont the plan is to run west to Houston, using the Beaumont Sour Lake & Western, which now runs from Beaumont west to Sour Lake, 22 miles. Between Houston & Fort Worth the Trinity & Brazos Valley will form part of the Fort Worth & Denver City extension. On completion of these plans, the Yoakum interests will have a line from New Orleans to Denver.— The C. S. N. O. & P., it is officially stated, is an

p. 1242.

Dayton Springfield & Urbana Electric Ry. Co.-Option.-The preferred shareholders are being asked for option.— their holdings at.\$40 a share. W. B. Jackson in the "Ohio State Journal" says:

One request comes from Buffalo, the other from Philadelphia. The old reorganization committee, headed by SicKipley of Illinois, seems to have dropped out of stati, and its plans for the reorganization of the Appleyard properties abandoned. As the preferred stock is a llability, it seems probable that the same interests are after it which purchased other claims. Loguiries are also being made for the pre-lerred stock of the Columbus London & Springfield, though no price is fixed on it. -V, 80, p. 1174.

Evansville & Mount Vernon (Electric) Ry.-Mortgage.-This company has made a mortgage to the American Trust & Savings Co. of Evansville, Ind., as trustee, to secure an issue of \$350,000 of 5% gold bonds of \$1,000 each.

These bonds are dated Oct. 2 1905 and mature Oct. 1 1925, but are subject to call after 5 years at 105 for the sinking fund of \$10,000 yearly; in-terest payable April I and Oct. 1 at office of trustee. Capital stock authorized, \$360,000 in shares of \$100 cach. The company owns in fee $17 \frac{1}{2}$ miles of road and sidings between Evansville and Mount Vernon. Ind. The road was financed by a syndicate composed of parties directly interested in the enterprise, and the bonds are held for future sale when conditions are considered sufficiently favorable. General Manager, W. L. Sonntag. Officers: Wm, M. Ford, President; John M. Funke, Vice-President; Fred. W. Reitz, Secretary-Treasurer.

Ft. Wayne Van Wert & Lima Traction Co.-Ft. Wayne-Lima Line in Operation.-This company on Nov. 1 began operating its entire main line between Fort Wayne and Lima, Ohio, a distance of 63 miles. making the trip in a little less than three hours, cars running at two-hour intervals. Better time, it is expected, will be made when ballasting is completed. Power is temporarily obtained from the Western Ohio Ry, pending the completion of the Fort Wayne power plant. We have been favored with the following:

plant. We have been favored with the following: Authorized capital stock, all issued, \$1,000,000 preferred 5% non-cumulative; \$1,000,000 common: uar of shares, \$100 each. Authorized bond issue, \$2,000,000 25-vear 5% coupon bonds, dated April 1 1905, with interest from July I 1905; can be registered as to principal and interest. Amount outstanding \$1,400,000; interest pavable at Fidelity Trust Co., Philadelphia, the mortgage trustee; principal and interest pavable in gold coin. There are no prior liens. The road extends from Fort Wayne to Lima, passing through the towns of New Haven, Monroe-ville, Convor, Van Wert, Middlepoint, Delphos, Elida, to Lima, 63 miles, with necessary sidings and passing tracks. Constructed with 70-pound "T" rail, standard gauge. Directors—James Murdock, President; D. J. Cable, Vice-President and General Counsel; J. D. S. Neelv, Sec. and Treas.; John B. Kerr, C. M. Murdock, Henry C. Paul and John B. Chapman. V. 80, p. 222.

Hampton Roads Railway & Electric Co., Newport News, Va.—Sale Confirmed.—The foreclosure sale of the property to the protective committee of the Philadelphia bondholders for \$250.000 was confirmed by Federal Judge Waddell at Norfolk, Va., on Nov. 4. The decree provides that \$152,350 in receivers' certificates, held by the purchasers, shall be reeeived on account of the purchase price.-V. 81, p. 1100, 668.

Illinois Central RR.—Extension to Birmingham.—The company, it is announced, will at once construct a line from Jackson, Tenn., southwesterly to Birmingham, Ala., 216 niles. The Mississippi & Alabama and Alabama Western railroad companies have been incorporated as auxiliaries in connection with the building of the extension.-V. 81, p. 1315, 1105.

Little Kanawha RR.-Sale of Syndicate Holdings.-The holdings of the Little Kanawha syndicate have been acquired by the Pittsburgh & Lake Eric RR. Co., which is controlled by the Lake Shore & Michigan Southern, and so by the New York Central. The securities held by the syndicate have recently been delivered to the purchaser, and plans for the development of the property are now under consideration. The syndicate owned:

The stocks of the Little Kanawha RR.; Parkersburg Bridge & Terminal Co.; Burnsville & Eastern; Buckhannon & Northern; Belington & North-ern; Zanesville Marietta & Parkersburg and Marietta Columbus & Cleve-land railroad companies. It also owned what is known as the Guffey tract of coal lands near Fairmount of about 50,000 acres, and also some other coal lands in that same region amounting to several thousand acres more. Compare V. 80, p. 2219.

The current report that the Pennsylvania interests will ultimately share in the purchase. while generally believed, is not confirmed.—See V. 81, p. 1376, 1044.

Long Island RR.—Only Electric Trains on Atlantic Avenue.—On Nov. 5 the last of the steam trains on Atlantic Ave-Atlantic Ave. Brooklyn, being superseded by the electric service.—V. 81, p. 1376.

Mason City & Ft. Dodge RR.—Favorable Decision.—See Chicago Great Western Ry. above.—V. 80, p. 2621.

The C. S. N. O. & P., it is officially stated, is an entirely distinct project and is not allied with the Colorado Southern or the St. Louis & San Francisco.-V. 81, p 1375.

Cripple Creek Central Ry.-Report.-The first report for the 9 months ending June 30 1905 shows:

Gross earnings of railroads controlled, \$718,329; net income of rail-roads over interest charges, etc., \$139.628; net earnings of other proper-ties controlled, \$802; interest on securities owned, \$9,333; total net in-come above general expenses (\$4.391), \$145,372. Dividends on the pre-ferred stock, 3%, call for \$90,000 for the 9 months. A dividend of 3%, calling for \$75,000, was paid Oct. 25 out of the earnings for the year end-ing Sept. 30 1905.—V. 81, p. 1241.

Dayton Lebanon & Cincinnati RR.—Sole Receiver.—On Great Northern Oct. 14 W. E. Moore was made sole receiver, his joint receiv-1041, 976, 971.

Massachusetts Electric Companies.—Exchange of Notes.— Parkinson & Burr, New York and Boston, are offering to redeem the $4\frac{1}{2}$ % notes of Jan. 1906 at 100 and interest, giving in exchange the new Massachusetts Electric Companies' $4\frac{1}{2}$ % gold notes, due July 1 1910 at 98 and interest, equivalent to about a 5%-income basis.

The price on the new notes is only to holders of old securities, it being the intention to offer them later to the public at a higher figure.-V. 81, p. 1242.

Metropolitan Street Ry., New York .- New Electric Lines .-Electric service was begun on the Grand & Desbrosses St. line from Desbrosses St. to Broadway on Nov. 6. The line will shortly be in operation to Grand St. Ferry and the Williamsburg Bridge.-V. 81, p. 1315, 81.

Missouri Kansas & Texas Ry.—Rumors.—The rumors of large purchases of the stock by J. J. Hill, President of the Great Northern Ry. Co., cannot be confirmed.-V. 81, p. . . . time East as

New York Philadelphia & Norfolk RR .- Dividend Inercase .- The directors on Nov. 8 declared the usual semiannual dividend of \$2 per share (4%) and an extra dividend of \$1 per share (2%), both payable Dec. 1 to stockholders of record Nov. 15. "Philadelphia Record" on Nov. 9 said:

It vas learned yesterday that the extra dividend is likely to be a fa-ture, in which event the stock can be classed as on a 12° , basis. The Pennsylvapia RR, and the Philadelphia Balthmore & Washington have an option on the \$2,000,000 capital stock, which is deposited in trust, under a traffic agreement made at the time of the reorganization, in January 1899 Edividends: 1901, 6°, ; 1902, 5°, ; 1903, 6°, ; 1604, 8°, V. S0, p. 872.

Pennsylvania RR, -Listed. The New York Stock Exchange has listed \$100,000,000 of $3\frac{1}{2}\frac{c}{c}$ 10-year convertible bonds of 1915. The purposes for which the said bonds were issued are:

To provide the necessary funds for the payment of the consol, mort-gaze bonds, which matured June 15 and July 1 1905, amounting to (2., 480,020); for subscription to a doitional capital stock of the Leanes Ivavia Company, under which authority \$19,000,000 of the stock of the bater company has been duly purchased; for the purchase of 400 locomotives, and increase of shop and terminal facilities; for construction extenditures on the turbed extension of the system into the city of New York, and on the ter final station therein; for the completion of the new low-grade freight here east of Columbia, Fenn, and for other construction and equip-nent expenditures upon the main line between Pittsburgh and New York, and for other corporate purposes.—V. 81, p. 1316, 1044.

Philadelphia Go., Pittsburgh .- Sale of Stock .- C. H. Bean & Co. were the purchaser of the \$1.045,000 treasury stock recently sold. The proceeds will be used for betterments, ad-ditions, etc.-V. 81, p. 778, 559.

Philippine Railroads.-Time for Bids Extended.-It is announced that bids will be received by the Bureau of Insular Affairs, War Department, Washington, D. C., until 9 a. m. Dec. 13. and by the Philippine Commission at Manila, P. I., until 10 p. m. Dec. 15, for concessionary contracts or grants with and by the Philippine Government in aid of the construction, equipment, maintenance and operation of lines of railway in the Philippine Islands, in all about 1,233 miles.— Cempare V. 80, p. 2622

Portland (Ore.) Railway.—*Ronds Ojjered.*—Redmond & Co., New York and Philadelphia, having sold the greater portion of their block of \$5,982,000 first and refunding mortgage 5% sinking fund gold bonds at private sale, are offering the remainder at par and interest. These bonds are dated Nov. 1 1905 and are due Nov. 1 1930, but subject to call at 105 and interest for the sinking fund. Denomination \$1.000; interest payable May 1 and Nov. 1. New York Trust Co., Trustee. The authorized issue was \$10,000,000, viz.: Reserved to retire prior liens, \$2,585,000; reserved for improvements, additions, etc., at not to exceed 80% of cost, \$2,415,000; outstanding, \$5.000,000. Of the \$2,585,-000 underlying bonds outstanding \$982,000, are payable Jan. 1 and an equal amount of the new bonds will be issued to retire them, leaving but \$1,603,000 underlying bonds outstanding upon the entire system. President F. I. Fuller on Oct. 19 wrote:

The properties owned and operated cover the principal streets in the city. The system consists of about 113 miles of track, on a single track basis, all elect ically equipped. The franchises are extremely favorable, and for the greater part of the system have 27 years to run. On various short lines the company has perpetual franchises, and the same is true on the greater part of its lines outside of the city limits. Portland, including adjacent territory served by this company, has a population of about 135,000 to 140,000 inhabitants.

cluding adjacent territory served by this company, has a population of about 135,000 to 140,000 inhal-itants. The earnings are showing large and steady increases. For the past five years the average annual gross increase has been about 20% per annum. The gross earnings for the year ending June 30 1005 were \$1,425,414 and the net earnings \$55\$,382, from which must be deducted about \$36,500 taxes. The entire interest charges will amount to but \$369,480. Both the net and gross earnings have this year shown large gains, partially owing to the Lewis & Clark Exposition, and the net earnings for the calendar year of 1905 (partly estimated) will exceed \$725,000 after payment of taxes. While this sum is in excess of the present normal earnings, on account of the Exposition, vet it is estimated that the net earnings for the calendar year of 1906 will not be less than \$650,000. The gross earnings for nine months ending Sep-tember 30th were \$1,413,426, against \$939,512 in 1904; net operat-ing earnings \$632.571, against \$353,673. The proportionate charge for interest and tax es for the 9 months amounts to approximately \$314,200. The company has no floating debt, and will have on Nov. 1 1905 in its treasury over \$400,000 net cash assets in excess of current liabilities. As a sinking fund, company will pay to the trustee annually not less than \$25,000 from 1907 to 1909 inclusive, \$40,000 from 1910 to 1919, and \$60,000 from 1920 to the maturity of the bonds, which payments are to be increased in the proportion additional bonds are issued. These sums are to be invested by the trustee in the "first and refunding tives" at or below 105 and interest. Bonds so purchased or drawn are to be kept alive in the sinking fund and the interest thereon added to the annual amount devoted to the retirement of the bonds. The management of the company is under the direct sup(r-

The management of the company is under the direct supervision of Messrs. E. W. Clark & Co. of Philadelphia.-V. S1. p. 1316

of the Reading Company. No agreement, however, has yet been reached with the company respecting the basis on which the cest of this work shall be apportioned between company and city.—V. 81, p. 1170, 978.

Sioux City Homer & Southern Ry .- New Enterprise .-Bonds .- This company, which is building a 17-mile road from Siour: City to Homer, Neb., has made a mortgage to the National Bonding & Guaranty Co. of Topeka, Knn., as trustee, to secure an issue of \$200,000 6°, gold bonds deted Oct. 2 1905 and due in 1915, without option of carlier redemption; sinking fund, \$15,000 annually. The line is com-pleted from Sioux City to Dakota City, the county sect of Dakota County, Neb., 7 miles, and was to be put in operation on Nev. 8. Secretary C. D. Smiley writes:

Construction work will continue until completed, and it is hoped it can be done this fall. The iron and tics have all been purchased and the roll-ing stock has been bought and will all be here by the 4th of this month. The road will be operated by steam power until completed, when it is proposed to put on gasolene-electric motors. The line traverses a thickly settled country and will pay from the start, as it will have all the business it can take care of. Capital stock, \$500,000, in \$100 shares. The Presi-dent is John H. Becker; Vice-Pres., Joseph Crow: Treas., P. A. Talbot.

South Shore Ry. of Canada.—Sale.—See Quebec Southern Ry. above.—V. 80, p. 713.

Tennessee Central RR.—Sale.—To cover some legal points, meetings of the Tennessee RR. Co. and the Nashville Terminal Co. have been called for Jan. 10. The stockholders of the Terminal Company will vote upon propositions to sell its bridge and approaches over the Comberland River and to purchase a portion of the railroad rights, properties, privi-leges and franchises of the Tennessee Central RR. The stockholders of the railroad company will consider a proposition to sell portions or all of the railroad, rights, properties, privileges and franchises of said company to one or more purchasers.-V. 81, p. 1376, 1316.

Wabash RR.-Listed.-The New York Stock Exchange has listed \$793,000 additional "first lien 50-year 4% terminal mortgage bonds" of 1954, making the total amount listed \$2,508.000. The additional bonds represent chiefly: New freight warehouse (865x25 feet) and an extension (360 x 42 feet) of one already erected, tracks, etc., on Block 70, St.

Louis, Mo______S Cost of land in Quincy, Ill., containing 10 517-1815 acres_____ Cost of passenger depot, freight house, tracks and other improve-ments on said Quincy property_____ Actual cost of land near Chicago, Ill., 64 293-3960 acres_____ Tracks, turn-table, engine house, repair shop, ice house, coaling plant, water tanks, pump house and other improvements on said Chicago real estate______ Engine For 2 months and ing Aug. 31 1905; \$132,597 209,945 165.746

Western Pacific Ry.-Authorized.-The shareholders yesterday approved the proposition to issue \$25,000,000 second mortgage bonds in case occasion for so doing arises; but see V. 81, p. 1316.

INDUSTRIAL, GAS AND MISCELLANEOUS.

American Brass Co.-Consolidation of Auxiliaries.-This company's subsidiaries, the Holmes, Booth & Hayden Co. and the Benedict & Burnham Manufacturing Co., have been consolidated under the title of the last-named company, the capital stock of which has been increased from 400,000 to 550,000.-V. 73, p. 901.

American Cotton Oil Co.-Report.-The results for the year ending Aug. 31 were:

 $\begin{array}{ccccccccccccc} Fiscal & Net & Deben, & Div, on & Div, on \\ Yeer, & profils, & int, & pref, (6\%) & com, (1\%) \\ 0 & -05 & & & & \\ 0 & -05 & & & \\ 0 & -05$ Bulance surplus. \$201,035 30,548 -V. 81, p. 32.

American DeForest Wireless Telegraph Co.-Statement .--- Viec-President Lee DeForest, in a letter challenging the Marconi interests to equal his company's record, says:

Last Friday night a message was received at New York from the steamship Havana, 1,030 miles south, direct and without delay. This boat carries a one-kilowatt transmitter. The same message was re-ceived at our Savannah station (of two kilowatts caparity) and trans-mitted thence to Cleveland. It is a common thing for Cleveland to read aerograms from one kilowatt transmitters on ships 100 and 200 miles at sea off Hatteras. Last week New York received several messages from the cruiser West Virginia, which was anchored of the mouth of the Mississippi, the 1,200 miles being almost entirely overland. Last Sunday night the United States Signal Corps at Fort Leavenworth, Kan., using DeForest receiving instruments, read a complete wireless message from the Concho, equipped with a one kilowatt DeForest trans-mitter, when that boat was off Key West, 1,100 miles, two-thirds over-land. land.

Quebec Southern Ry.-Sold.-Mr. Justice Burbidge, in the Exchequer Court at Montreal on Nov. 8, announced the acceptance of the offer of \$1,051,000 made for the company's entire system, including the South Shore, United Counties and East Richelieu Valley railways made by Senator Beique, in behalf of the Bank of St. Hyacinthe. Notice was given of appeals against the decision .- V. 81, p. 976.

Raleigh & Charleston RR.-Reorganized Company.-This company has been incorporated with \$850,000 of authorized capital stock as a reorganization of the Carolina Northern RR., which was recently sold under forcelosure. (V. S1, p. 1241).

Reading Company .- Philadelphia votes Loan to Abolish Grade Crossings .- At the municipal election in Philadelphia on Tuesday, it was voted by a large majority to authorize a loan of \$4,000,000 for the removal of crossings on the line

Decision.—The United States Circuit Court for the Southern District of New York recently decided in favor of the National Electric Signaling Co. (the owner of the Fessenden patents) its suit against the American DeForest Wireless Telegraph Co. for infringement of the Fessenden patent coverning the receiver known as the liquid barretter. See "Electrical World and Engineer" for Oct. 31, V. 80, p. 1113.

American Malting Co.-New Directors .- Wilberforce Sully and Marshall S. Driggs have been elected directors, succeeding E. M. F. Miller and Frederick Vullmahn.-V. SI, p. 1376, 1373.

American Shipbuilding Co.—Orders.—The company is unofficially reported to have 21 orders for vessels on its books, representing a total value of approximately \$8,750,-000.-V. 81, p. 1312, 1102.

Associated Merchants' Co.-Listed.-The New York Stock Exchange has listed \$1,800,000 of the new first preferred stock and has authorized the addition to the list from time to time prior to Jan. 10 1906 of a further \$450,000 when issued and paid for, making the total amount listed and authorized to be listed \$6,433,800.-V. 81, p. 1317,776.

Bell Telephone Co. of Canada.-Sale of Bonds.-The Dominion Securities Corporation was the recent purchaser with E. H. Gay & Co. of Montreal of \$500,000 Bell Telephone Company of Canada gold debenture 5% bonds, due Apr. 1 1925; denominations \$500 and \$1,000; interest payable Apr. 1 and Oct. 1 at Bank of Montreal, Montreal. The stock, now \$9,000,000, has paid 8% dividends for the past ten years. Outstanding bonds Dec. 31 1904, \$2,000,000; Nov. 1 1905, \$2,600,000. The new bonds are offered by the purchasers at 1081/4 and interest.-V. 80, p. 2395.

Bethlehem Steel Corporation.-Old Mortgage Satisfied.-A press dispatch from Allentown, Pa., announces the satis-faction of the \$10,000,000 mortgage made in 1902 by the United States Shipbuilding Co. to the Colonial Trust Co., as trustee.-V. 81, p. 267.

Borax Consolidated, Limited.-Listed in London.-The London Stock Exchange has listed a further issue of £55,301 5% second debenture stock.-V. 80, p. 474.

Buffalo General Electric Co.-Municipal Light Plant.-At the election in Buffalo on Nov. 6 the proposition for a municipal electric-light plant was carried by a vote of 7,691 to 1,950.—V. 80, p. 1731.

Cadillac Motor Car Co., Detroit, Mich.-Consolidation.-This company was formed on Oct. 26 with \$1,500,000 capital stock in shares of \$100 each, by the consolidation of the closely allied Cadillac Automobile Co. and the Leland & Faulconer Kanufacturing Co. Henry M. Leland is quoted as saying:

The business of both concerns has shown a remarkable growth. While the original companies were organized with a capital stock of \$300,000 and \$175,000, respectively, I can say that every dollar of the present capitalization is represented by something tangible. The Cadillac Automobile Co. did a larger business last year than any other automobile company in the world, its output being 4,000 machines.

Chattanooga & Tennessee River Power Co.—Description. -The "Engineering Record" of Nov. 4 contains a short article regarding this company's proposed plant. See V. 81, p. 1377.

Citizens' Water & Light Co. of Shelbyville, Ind.-Reorganized Company.—This company was recently organized with an authorized capital stock of \$230,000, of which \$80,-000 is common and \$150,000 5% preferred. The company has made a mortgage to the United States Mortgage & Trust Co. of New York, as trustee, to secure an issue of \$50,000 of 5% gold bonds, dated Oct. 2 1905, of which \$35,000 are now outstanding. The new company has taken over the property of the Shelbyville Water & Light Co. (V. 81, p. 731), which was sold at foreclosure sale on Sept. 12.

Crucible Steel Co. of America.-Acquisitions.-The company has purchased two pieces of property in Pittsburgh for \$390,000, viz.:

Three acres, part of Keystone Bridge Works, from American Bridge Co. for \$150,000; three acres occupied by old Pittsburgh Bridge Works, which was bought from the American Bridge Co. about two years ago by Epping, Carpenter & Co. The Crucible Company paid \$140,000 for this land.—V. 81, p. 1243.

Cudahy Pipe Line & Oil Refining Co.—Consolidation.— This company was organized on Oct. 16 under the laws of Delaware, with \$6,000,000 of authorized capital stock, of which \$1,000,000 is preferred; also an authorized issue of \$3,000,000 of 6% bonds; as a consolidation of the Cudahy Oil Co. and the Cherokee Oil & Gas Co. The new corporation is reported to have some 137 producing wells on the Cherokee property and 87 on the Cudahy, giving a total pro-duction of about 2,100 barrels daily. A large refinery will be built at St. Louis and a pipe line will connect the same with the company's oil lands in Indian Territory. The "St. Louis Globe-Democrat" says:

The main office of the company will be located in the Commercial uilding, St. Louis. A refinery of 6,000 barrels' capacity will be built

the six months ended September 30 1905: Gross income, \$161,003; expenses, \$24,266; surplus, \$136,737.-V. 81, p. 510.

Herring-Hall-Marvin Safe Co.—Further Deposits Until Nov. 18.—The reorganization committee announces that more than 91% of the total outstanding stock has assented to the plan of reorganization. Further deposit of stock under the plan will be received by the New York Trust Co. until Nov. 18.—V. 81, p. 1377, 1045.

Independent Light & Power Co. (Quincy, Ill.).—Fore-closure Suit.—Edwin B. Hillman of Quincy has been ap-pointed receiver in the suit of the Royal Trust Co., Chicago, trustee, to foreclose the mortgage made Dec. 1 1903 to secure an issue of \$175,000 5% bonds, all outstanding, the only coupon paid being No. 1, which matured June 1 1904. The amount owing for principal and overdue interest is \$183,993. Capital stock, \$150,000.

Kansas City Breweries Co.-Value of Property.-In the item in last week's issue regarding the organization of this consolidated company, it should have been stated that the value of the property, including supplies and current assets is \$592,980 "in addition to the brewery plants and equipment."-V. 81, p. 1378

Kansas Natural Gas Co.-New Mortgage Authorized.-The shareholders on Oct. 30 unanimously approved the issue of \$2,500,000 second mortgage 5-year 5% bonds to cover the cost of recent additions, the construction of the pipe line, etc. The bonds are dated Nov. 1 1905 and are due Nov. 1 1910, but are subject to call on any interest period at par in any amount; denomination \$1,000, gold; interest payable May 1 and Nov. 1 at the offices of Pittsburgh Trust Co., trustee. The company has outstanding \$12,000,000 capital stock in shares of \$100 each and first mortgage bonds for \$4,000,000. T. N. Barnsdall is President and John S. Scully Jr., Secretary. The "Pittsburgh Gazette" says:

Scully Jr., Secretary. The "Pittsburgh Gazette" says: Outside of the companies absorbed and the leases secured in the original scope of the company's plans, there have been secured the entire control of the People's Gas Co. of Coffeyville, with 40,000 acres of leases and a capacity of 500,000,000 cubic feet per day; the entire Parsons & Thayer plant, and the control of the Caney Gas Co. and the Caney Oil & Gas Co.. the entire interest of the Montgomery Oil & Gas Co.. the D. M. Robbinsl leases, the ssett-Irwin leases, and the Smith-Dean leases. The com pany's entire capacity with the new properties acquired is placed at 2,500,000,000 cubic feet per day. It will reach a population of 700,-000 and hundreds of industrial establishments.—V. 81, p. 1317, 843.

La Belle Iron Works, Wheeling & Steubenville.—Option.— The option referred to last week, it seems, was made out in the name of Edwin N. Ohl, who is a Vice-President of the Republic Iron & Steel Co., and also identified with some of the Mahoning Valley pig iron interests. The "Iron Age" says:

The "Iron Age" says: Edwin N. Ohl, Vice-President of the Cherry Valley Iron Co., Pitts-burgh, has sent letters to the stockholders of the La Belle Iron Works, of which there are about 600, asking for options on their stock on a two-to-one basis, or \$200 a share, these options to run from Dec. 1 to March 1. In case the options are not exercised prior to Jan. 1 the price is to be \$201 per share, if not taken prior to Feb. 1 the price is to be \$202 a share, and if not taken prior to March 1 \$203 a share. In addition present holders of the stock are to participate in the next quarterly divi-dend of 1½%, to be paid Feb. 1, if their stock is not transferred prior to Jan. 20. A number of the leading stockholders of the La Belle Iron Works are connected with Mr. Ohl in his plan to obtain control, and there is every probability that they will secure the property on the above terms. Their plans have not been made public and will not be for some little time. It can be stated officially that neither John W. Gates nor Charles S. Guthrie of the Republic Iron & Steel Co. is connected in any way with the project. The La Belle Iron Works has a very modern plant at Steubenville, comprising two large blast furnaces, an open-hearth [steel plant having mine 50-ton furnaces, and skelp, pipe and plate mills. An 84-inch plate mill has been recently added to the plant. The company also has a large cut-nail factory. In addition, it owns the Pittsburgh Mining Co., and has coal and coke properties and is self-contained in every way. Its capital is \$7,000,000 and in addition it has issued \$2,500,000 worth of bonds which bear 6% interest. The stock has been paying quarterly dividends of 1½%.-V. 81, p. 1378, 973. Lehigh Coal & Navigation Co.-Dividend Increased.-

Lehigh Coal & Navigation Co.—Dividend Increased.— The directors have declared a semi-annual dividend of 4% payable Nov. 27 to holders of trustees' certificates as regis-tered Nov. 3. This declaration increases the annual dividend rate to 8%, a similar dividend having been paid last May. The company's dividend record follows:

 $\binom{92}{5}$ $\binom{93}{94}$ $\binom{95}{96}$ $\binom{97}{98}$ $\binom{99}{90}$ $\binom{00}{01}$ $\binom{02}{03}$ $\binom{04}{04}$ $\binom{1905}{5}$ Dividends—

Licking Light & Power Co., Newark, O.-Mortgage.-This company has made a mortgage to the Capital Savings & Trust Co. of Columbus, O., as trustee, to secure an issue

The main office of the company will be located in the Commercial Building, St. Louis. A refinery of 6,000 barrels' capacity will be built at once along the river south of St. Louis, where a 60-acre site has already been purchased. A right of way for a 6-inch pipe line from Indian Ter-ritory to the refinery has been secured from the St. Louis & San Fran-cisco RR. Co. The pipe line course from Alluwe, where a big pumping station will be located for the Chelsea-Alluwe oil district, to the Missouri State line, has been surveyed. The pipe line from Bartlesville to the refinery will be 365 miles in length. There will be a pumping station at Bartlesville, one at Alluwe and four or five in Missouri. The company will construct twelve 35,000-barrel storage tanks in the oil fields and others at each pumping station. Distributing stations will be estab-lished at St. Paul and New Orleans. The latter point will be the com-pany's exporting depot. Orders will be given at once for the construc-tion of 30 bulk river barges and four steamers. It is the intention to have all this work completed and the plant in operation in twelve months. Officers—President, John Cudahy; Treasurer, M. Cudahy, Secretary, Albert J. Nathan of New York; Vice-President and General Manager, W. D. Todd, Warren, Pa. Directors—M. Cudahy, John Cudahy, Mr. Stauffer, a Chicago capitalist; J. B. Phillips, A. J. Nathan of News York; W. D. Todd of Warren, Pa., and one Delaware director. Messrs. Todd and Nathan will make their homes in the near future in St. Louis. Electric Bond & Share Co.—Earnings.—Lohrke, Rosen &

Electric Bond & Share Co.—Earnings.—Lohrke, Rosen & Co., who are offering a block of the preferred stock at $92\frac{1}{2}$ and interest, report as follows the company's, earnings for | Columbus, O., Stock Exchange has listed the \$1.250,000 6%

of \$300,000 20-year 5% sinking fund gold bonds of \$500 each.

The bonds are dated July 1 1905: interest payable Jan. 1 and July 1 at office of trustee. Amount outstanding, \$160,000. No prior liens. The company, which is a combination of the Citizens' Electric Light & Power Co. and the Newark Light & Power Co., has outstanding \$200,000 com-mon and \$100,000 5% cumulative preferred stock; par of shares, \$100 each. President. Mellville Gillet; Treasurer, J. K. Hamill.

Mackay Companies.—Completion of Company's Fifth Atlantic Cable.—This company's subsidiary, the Commercial Cable Co., completed and put in operation on Oct. 6 its fifth Atlantic cable, from Canso, Nova Scotia, to Waterville, Ireland. This makes seven trans-Atlantic cables worked in direct connection with the lines of the Postal Telegraph Cable Co. All of them are duplexed, so that their combined capacity is 14 messages at one time. Compare Commercial Cable Co. in V. 81, p. 976.-V. 81, p. 214.

Michigan Light Co.-Listed in Columbus, Ohio.-The

preferred and \$1,000,000 common stock. Richardson & Clark of Providence, who are offering a block of the preferred stock at par (\$100 per share) and accrued dividend, say:

stock at par (\$100 per share) and accrued dividend, say: The company has no bonded debt and its stock issues are secured by a deposit of all the capital stocks of the Jackson Gas Co., Kalamazoo Gas Co. and Pontiac Light Co., the preferred stock having preference as to principal as well as to dividends. The authorized bond issues of the con-stituent companies aggregate \$1,150,000, of which \$862,000 are ontstand-ing. These companies furnish the entire gas supply to their respective cities and serve a population amounting to 64,000. The combined annual output of gas is approximately 240,000,000 cubic feet per annum. The Pontiac Company also does all the commercial electric lighting busi-ness of the city. The franchise of the Jackson Company is perpetual; that of the Kalamazoo Company expires in 1916; of the Pontiac Company the electric expires in 1927 and the gas in 1929. The income account for the year ending Sept. 30 1905 is as follows: Gross earnings, \$443,002; met earnings, \$214,953; fixed charges and taxes, \$\$3,770; surplus, \$131,-183; 6% dividend on preferred stock of Michigan Light Co., \$75,000; balance, \$56,183,-V. 80, p. 655.

Middlesex Banking Co.—Reduction of Capital Stock.— The shareholders recently voted to reduce the capital stock 50%, each shareholder to surrender one-half the number of shares held by him. This will reduce the outstanding stock to \$338,400.

stock to \$338,400. The company was organized in Connecticut in 1875 under special charter and has issued about \$30,000,000 of debentures, of which about \$5,000,000, bearing 5% interest, is now outstanding, secured by deposits of real estate mortgages covering Western lands. The company some time ago discontinued the guaranteeing of bonds of other companies. No dividends have been paid for ten years past, it having been necessary in 1894-1895 to acquire at foreclosure sale a considerable amount of farm land in North and South Dakota. Judge William S. Case in the Superior Court at New Haven on Nov. 3, denied the application of Edward A. Bowers, a minority stockholder, for an injunction to restrain the reduction of the stock. We are informed that "the land mentioned has greatly increased in value, has paid all expenses of carrying, including interest, and taxes and a considerable profit remains on present holdings." President, Robert N. Jackson, Middletown, Con.—V. 81, p. 512.

Midwest Telephone Co.—Consolidation.—Mr. E. E. Collins of the American Securities Corporation, Cedar Rapids, Iowa, favors us under date of Oct. 31 as follows:

favors us under date of Oct. 31 as follows: We are reorganizing the Mid-Western Electric Co., which will here-after be known as the Mid-West Telephone Co., which corporation has for its objects the consolidating of all the independent telephone exchanges in lowa and Missouri. The company is capitalized at \$1,-000,000 and now owns a number of good exchanges operating good toll lines with over 1,800 telephones in use. We are receiving options daily from independent companies and now have enough secured to make the consolidation an assured fact. The company will soon place on the market \$1,000,000 of 5% thirty-year coupon bonds, redeemable after five years from date at 105 and accrued interest. Messrs, Crandall & Company of St. Louis are associated with us in this proposition. (The Midwestern Electric Co. in October 1904 had an authorized capitalization of \$750,000 common stock and \$250,000 preferred stock, of which \$500,000 common and all the preferred was in the treasury. There was also an authorized issue of \$350,000 1st mortgage gold 5s due Oct. 10 1924, but subject to call in and after 1907. The properties owned included four telephone systems, serving more than forty towns in Southern Iowa, including Bloomfield, Eldon, Moulton and New Sharon; total telephones, 1,800.—Ed.) Milwaukee Coke & Gas Co — Increases of Camital Stoch

Milwaukee Coke & Gas Co .- Increase of Capital Stock .-This company, which operates under the Semet-Solvay patents, has filed a certificate of increase of capital stock from \$1,000,000 to \$2,000,000. President Ferdinand Schlesinger is quoted as saying:

We shall have our second set of 80 coke ovens ready for use by the be-ginning of 1905. The new capital is for a further increase in the ca-pacity of the plant on Greenfield Ave. We expect to go right on build-ing and have a third set of 80 ovens done by the end of next year.

The daily output of coke when all of these 240 ovens are done, it is said, will be 1,600 tons. The shareholders in-clude: M. A. Hanna & Co., Cleveland, O., and Ferdinand Schlesinger and Charles Ray, Milwaukce. See V. 81, p. 1104

Missouri Land & Live Stock Co.-Reduction of Stock. The shareholders were to vote Nov. 2 on reducing the capital stock from £90,000, divided into 30,000 shares of £3 each, to £75,000, divided into 30,000 shares of £2 10s. each, such reduction to be effected by returning to shareholders paid-up capital to the extent of 10s. on each share, and by reducing the nominal amount of the said 30,000 shares from $\pounds 3$ each, with $\pounds 1$ paid, to $\pounds 2$ 10s. each, having 10s. per share paid. V. 78, p. 771.

Montreal Light, Heat & Power Co.-Listed in London.-The London Stock Exchange has [granted a quotation to the \$17,000,000 capital stock (Montreal certificates).--V. 80, p. 2625.

National Electric Signaling Co., (Fessenden Wireless **Telegraph**).—Favorable Decision.—See American DeForest Wireless Telegraph Co. above. (The National Electric Signaling Co. of New Jersey was incorporated in 1902 with \$100,000 capital stock, the incorporators including Robert T. Horn, Arthur F. Smith and J. Howard Boyd. The Fessenden system, it is stated, has for two years past been in constant working operation between Washington, Phila-delphia and New York. The Government purchased two sets of the apparatus with the liquid barretter for use in Alaska.) National Steamship Co.-Bonds Offered.-The Union Trust Co. of Detroit is offering at par a block of this company's issue of \$175,000 first mortgage 5% 10-year serial bonds to cover an 8,500-ton steel steamship now building. Bonds to be dated April 15 1906. Interest at $3\frac{1}{2}\%$ will be allowed until bonds are delivered. Hugh McMillan, Presi-dent and Treasurer; W. K. Bixby, Vice-President; M. B. McMillan Security. McMillan, Secretary.

Lockport & Ontario Power Co., to Lockport, to supply, under contract, the Lockport Gas & Electric Co., for use by manu-facturers and others. Denison, Prior & Co., who placed a block of bonds of the Ontario Co. (V. 80, p. 1427), write:

The distance from the Niagara River to Lockport is about 18 miles, and we understand the N. L. & O. P. Co. has a strip of land 300 feet wide for the 18 miles over which to carry its transmission lines. These lines are in duplicate, so that if one line should break down the power could be transferred to the other. We also understand that a good por-tion of the right-of-way and transmission line is under way to Rochester, which city will no doubt use a large amount of power.— V. S1, p. 671, 158.

Pacific Lumber Co .- Successor Company .- This corporation was organized Aug. 11 1905 under the laws of Maine with \$10,000,000 capital stock, all common, in shares of \$100 each (present issue about \$6,849,000), and on Sept. 1 took over all the business and properties, and assumed all of the liabilities, of the Pacific Company, a New Jersey corporation, with \$4,515,000 capital stock, the Freshwater Lumber Co. and the former Pacific Lumber Co. The company thus owns about 65,000 acres of land; also mills at Scotia, Hum-boldt Co., Cal., for the manufacture of Redwood lumber shingles, etc., and has yards at Sixth and Channel streets, San Francisco. President Eddy on Oct. 11 wrote:

San Francisco. President Eddy on Oct. 11 wrote: In taking over the business and properties named, we increased the capital and retired all the bonds and preferred stock of the other companies, and paid in con-siderable cash besides, for the purpose of working capital. There was a contract (with Santa Fe Land & Improvement Co.) on land amounting to \$500,000; a 5% mortgage on another piece of land for a like amount, covering about 12,000 acres of Freshwater timber hands; and about the same amount due our bankers. At the time this transfer was made we issued \$6,249,000 worth of stock. We are this day paying off the contract existing against a part of the land amounting to about \$600,000, and this is done by a sile of stock, which will increase the stock issued practically \$600,000. The \$500,000 mortgage (made by the Excelsior Redwood Co.) is not due for two years, but it can be retired at any time on thirty days' notice. We do not expect to retire this for at least another year. The present stock is owned almost entirely by the same interests as the old com-pantes, and the new stock that is to be issued will be taken by the same parties or their personal friends, so that there is practically no change in the management. When our debts are all paid, we shall probably have issued about \$8,200,000 worth of stock, and of this anount about \$1,500,000 will be in the nature of plants and quick assets, such as lumber, logs, etc., and the balance will be bills receivable and standing timber, about \$2,000 acres, or over 4,000,000 feet of redwood. We are strictly lumber manufacturers, owning everything about our properties except one railroad, and no stock is to be issued unless the proceeds go to finish paying off the remaining liabilities, which are small compared with the magnitude of our business. The principal stockholders are Michigan lumbermen of many years experience.

business. experience.

Directors: Selwyn Eddy, San Francisco, Cal., President; Wm. H. Murphy of Detroit, Mich., Secretary and Treasurer; C. E. Murphy, E. H. Flynn, G. E. Avery and F. A. Robinson of Detroit; Selwyn Eddy and G. Dorr of Saginaw, Mich.; E. D. Kenna of Chicago; W. H. Robinson of San Francisco, and F. M. Murphy of Prescott, Arizona. Office of com-pany, No. 308 Rialto Building, San Francisco.

People's Gas Light & Coke Co., Chicago.—Municipal Plant, E c.—The electors of the City of Chicago, by a vote of 124,545 in favor to 20,504 against, at the election on Tuesday ratified the Act of the Legislature approved May 18 1905, which confers upon the city the power to sell surplus elec-tricity and fix the rates for the supply of gas or electricity for power, heat or light by individuals or corporations to the city or its inhabitants.-V. 80, p. 1916.

Pillsbury-Washburn Flour Mills.—Payment of Income Certificates.—Notice is given in London that the company will on Dec. 1 redeem all of its £46,460 outstanding preference income certificates at par, together with a full year's interest thereon, through Glyn, Mills, Currie & Co., 67 Lombard St., London, E.C.-V. 75, p. 1305.

 Surplus Dividends include—Common (5%), \$298,109; preferred (7%), \$427,003. Sales in year 1904-05 aggregated 806,777 barrels, an increase of 5,616 compared with 1903-04.—V. 81,

p. 730.

Pittsburgh Investment Co.—Status.—This company, which was recently organized as a holding company to control various natural gas and oil properties in which Theodore N. Barnsdall is interested, has not yet, we are informed, commenced business.—V. 81, p. 844.

Republic Iron & Steel Co.-Report.-The report for the year ending June 30 last, issued late yesterday, shows gross sales for the year 1904-05 amounting to \$22,188,843, against \$17,242,569 and \$25,647,170 in 1903-4 and 1902-3, respectively. The gross profits, charges, etc., compare as follows: Dividends Bal., sur.

the company began transmitting 12,000 horse power, the veras and other counties product of one unit of its plant, via the lines of the Niagara bonds.—V. 81, p. 844.

-V. 81, p. 1379, 1244.

Rubber Goods Manufacturing Co.—Called Bonds.—Deben-ture bonds of 1891 of the New York Building & Packing Co. to the amount of £26,400 have been called for redemption on Jan. 1 1906 at the Knickerhocker Trust Co., No. 66 Broadway, at the rate of \$533 50 for each debenture of £100. –V. 81, p. 1318, 901.

Shelbyville (Ind.) Water & Electric Light Co.-Reor-ganized.-See Citizens' Water & Light Co. above.-V. 81, p. 731.

Sierra Nevada Water & Power Co .- Mortgage .- The Union Trust Co. of San Francisco is trustee under the mortgage re-Ontario Power Co.-Transmission of Power.-On Nov. 5 cently filed covering the franchises and rights of way in Cala veras and other counties, to secure \$3,000,000 of 5% 20-year

Singer (Sewing Machine) Manufacturing Co.-To Sell Wheeler & Wilson Product .- The following official statement was made on Nov. 6:

An arrangement has been made between the Wheeler & Wilson Manu-facturing Co. and the Singer Sewing Machine Co. by which the latter company will hereafter market the product of the former in this country. The Wheeler & Wilson Manufacturing Co. will continue its manufactur-ing constitute on the product of the former in the second ing operations as heretofore.

The Wheeler & Wilson Co. is a Connecticut corporation with \$1,000,000 stock in shares of \$25.. The Singer Sewing Machine Co. was incorporated in New Jersey on Nov. 24 1904 with \$3,000 capital stock, in shares of \$100 cach, to act as distributing agent for the Singer Manufacturing Co.-V. 81, p. 977.

Spring River Power Co., Missouri and Kansas.—Bonds Offered.—Devitt, Tremble & Co., Chicago, are offering at par and interest \$500,000 of this company's first mortgage 5% serial gold bonds of \$1,000 each, dated Nov. 1 1905 and maturing in annual instalments on Nov. 1, as follows: 1911-1914, \$8,000; 1915-1918, \$16,000; 1919-1922, \$25,000; 1923-1926, \$35,000; 1927-1928, \$40,000; 1929-1930, \$42,000; but subject to call at company's option upon 60 days' notice until 1915, at 110 and interest, and thereafter at 105 and interest; interest payable May 1 and Nov 1 at Merchants' Loan & interest payable May 1 and Nov. 1 at Merchants' Loan & Trust Co. of Chicago, trustee. A circular says in part:

Trust Co. of Chicago, trustec. A circular says in part: The company owns in fee simple near Lowell, Kan., about one mile of the entire bed of the Spring River (including frontage above and below its dam); a dam controlling a 28-foot head of water; a power house equipped with 8 turbine water wheels and electric generating apparatus capable of carrying a connected load of from 5,000 to 6,000 H. P.; a transformer house containing six 500 KW. transformers; four sub-stations, and a high-tension transmission line of 27 miles. In addition the company has under construction near Lowell a steam relay plant of 2,000 KW. (3,000 H. P.) capacity, for use at such times as the water-power plants are unable to take care of the demand for power. The company serves with power Galena, Empire City, Joplin, Webb City, Carterville and Oronogo, and smaller intermediate cities; total population about 125,000. The company is delivering 2,530 H. P. at prices averaging \$38 per H. P. per annum, at a net profit of \$75,374, and will have, beginning with 1906, not less than 2,470 additional horse power for sale, which should return additional net at least \$75,374, making the total net earn-ings for 1906 over \$150,000, or approximately six times the bond interest. The company has applications totaling nearly 8,000 H. P. for the re-maining 2,470 H. P. it has for sale. Capital stock authorized, \$1,500,000; outstanding, \$750,000. Among the stockholders are: President Francis W. Farwell, Sam Brown Jr., William Deering, William A. Holabird, Honore Palmer, Charles A. Bir-ney, Potter Palmer Jr., John V. Farwell Jr., Jamot Brown, Arthur L. Farwell, T. D. Whitney, Clarence A. Burley, Edgar M. Snow, John Milton Oliver, Jarvis Hunt, etc. The bond issue is limited to \$1,500,000; but \$1,000,000 in bonds are held in escrow to be issued for additional property, betterments and extensions, etc., but at the rate of only 80% of the actual cost of the same.

cost of the same.

Washington Match Co.-Liquidation.-A press dispatch from Tacoma on Nov. 3 says:

C. F. Reeves, trustee of the Washington Match Co. was yesterday ordered to distribute among the creditors the sum of \$310, all that remained of the concerns assets. Stockholders lost all they invested, approximately over \$100,000.—V. 81, p. 671,158.

Wellman-Seaver-Morgan Co., Cleveland, Ohio.-Bonds Offered.-Peabody, Houghteling & Co., Chicago, are offering at par and interest by advertisement on another page. \$1,100,000 first mortgage $5\frac{1}{2}\%$ serial gold bonds of \$1,000 each, dated Sept. 15 1905; interest payable March 15 and Sept. 15 in Chicago at First National Bank and in Cleveland at office of trustce, Cleveland Trust Co. These bonds mature as follows: \$100,000 Mar. 15 1907, the remainder in 25 semi-annual instalments of \$40,000 each, beginning Sept. 15 1907 and ending Sept. 15 1919. They are subject to redemption at option of company in the reverse of their numerical order after five years or any interest day there-after, at 90 days notice at 105 and interest. President S: T. Wellman, under date of Oct.1 1905, writes in substance.

The company designs and builds, in all parts of the world, complete plants, steel works, steel foundries, iron foundries, cement plants, ship yards, power plants, steam, electric, gas and hydraulic plants, hoisting and conveying apparatus, mining machinery and ore-handling machin-ery. It owns and controls more than 200 patents, including the Well-man charging apparatus, the Hulett automatic unloader, the American rights to the gas engines under the Cockerill patents, together with valuable patents covering gas valves and mining and hoisting machinery; 85% of the ore mined in Colorado to-day is hoisted by the company's machinery. It also makes specialties of Corliss engines and disappear-ing gun carriages.

machinery. It also makes specialties of Corliss engines and disappear-ing gun carriages. The company's office building and the Cleveland plant are located on a tract of six acres; the plant is built of steel and consists of a machine shop 500 feet long: structural shop, 540x60 feet; steel casting plant, 300x114 feet; pattern shop, 165x50 feet, and forge shop, 65x50 feet. The Akron plant is located on a tract of 47 1-4 acres and is of brick and steel construction; the gray iron foundry building being 300x110 feet, and the main erecting shop 440x110 feet, with three wings 150x80 feet each and one 200x80 feet. This issue of \$1,100,000 bonds is made for the purpose of refunding an existing mortgage, and also for the purpose of refiring the floating debt. The stockholders have recently paid into the treasury \$500,000 of additional cash capital: Balance sheet with these bonds issued: ASSETS

White Knob Copper Co.—Syndicate Purchase.—The transfer of the Balaklala copper properties to the White Knob Copper and other interests is announced. Press dispatches from Salt Lake City say:

(1) For a consideration of over \$2,000,000, the Balaklala copper properties in Shasta County, Cal., were transferred Oct. 24th by the Western Exploration Co. to J. A. Coram of Boston, the White Knob Copper Co. and W. S. and C. K. McCornick of Salt Lake. Mr. Coram gets a half interest and the White Knob and the McCornicks a quarter each. This ends the litigation begun by Mr. Coram in the Federal courts. Two millions, the purchasers say, will be spent in development and in the erection of a smelter. The Balaklala group includes 69 claims. (2) President J. A. Coram of Boston and his side has been given 51 p. c. of the stock. The White Knob Co. is men-tioned as having a one-fourth interest. The company will continue to do business as the Balaklala Consolidated Copper Co. Capital stock, \$10,000,000, in \$50 shares.—V. S0, p. 2225.

Williamson Iron Co. of Birmingham, Ala.—Redemption of Bonds.—This company, having sold a part of its real property for a sum sufficient to redeem all of its bonds, will redeem the latter on Jan. 1 1906 at the Birmingham Trust & Savings Co., trustees, Birmingham, Ala., o the Hanover National Bank, New York. The company owned one stack built in 1886, annual capacity 20,000 tons of foundry pig and an iron foundry with an annual capacity of 2,000 tons. President. F. D. Dimmick.

-The Bond Department of the Western Trust & Savings Bank of Chicago, in a recent circular, offers unique sugges-tions for the investment of sums of \$50,000 so as to yield 4, $4\frac{1}{4}$, $4\frac{1}{2}$, $4\frac{3}{4}$ and 5% interest, respectively, to the investors. They call this "diversified investments," and claim the plan has proved most popular. For instance, we illustrate with their list of securities netting 4%.

-The growing requirements of both the bond and stock exchange business of Aemilius Jarvis & Co. of Toronto have caused a dissolution of the firm and the formation of two new firms, as of the 1st inst. The names of the new firms are Aemilius Jarvis & Co. and Edward Cronyn & Co. The former is composed of Aemilius Jarvis and C. E. A. Goldman, and takes over the bond business of the old firm. Its stock business, which had been entirely managed by Mr. Cronyn for the past four years, is taken over by the new firm of Edward Cronyn & Co. The address of Aemilius Jarvis & Co. is unchanged, and for the present the address of Edward Cronyn & Co. will be care of Aemilius Jarvis & Co., McKinnon Building.

-The Security Audit Company of Illinois, a new institu--The Security Audit Company of Illinois, a new institu-tion, has opened offices in suite 408-9 Rector Building, Chicago. Hempstead Washburne, former Mayor of Chi-cago, is its President; William J. Louderback, of John C. King & Co., Secretary and Treasurer; and John Gowan-Stobo, Manager and Chief Accountant. The company has the following strong body of directors: Daniel W. Burrows, John V. Clarke, Charles W. Folds, W. W. Gurley, Adrian C. Honore, Harold A. Howard, Fred. S. James, W. J. Louder-back, James Hobart Moore, Erskine M. Phelps, Hempstead Washburne, and Walter H. Wilson. The judiciary board consists of Otto C. Butz, W. W. Gurley and John S. Miller.

-A new banking firm has been formed in this city, to be known as Clark, Grannis & Lawrence, with principal offices at No. 10 Wall St. The firm is composed of L. Vaughan Clark, of the bond-investment house of Clark & Chaffee, the business of this firm being taken over by the new partnership; Arthur E. Grannis, member New York Stock Exchange; Robert Cutting Lawrence, formerly of Coster, Knapp & Co. and William Clark Langley, special partner. The firm will do a general banking business, and will deal in railroad bonds, municipal and public utility securities, and execute orders on the New York Stock Exchange.

In their November circular of investments Messrs.

The net earnings for the last five years have averaged \$274,352 per annum and The Audit Company of New York reports that in the three years ending Dec. 31 1904 the net earnings were \$973,811, being at the average rate of \$324,604 per annum. In the above statement no value is given to good-will, or to valuable patents, over 200 in number, or to small tools which, at their actual weight value, without including the cost of labor, are worth \$111,779; and drawings and patterns are valued at less than one-fourth their actual cash cost. The company has also written off for maintenance and replacement during the years 1903 and 1904, \$159,251.-V. 81, p. 1122.

Libbey & Struthers, bankers, 30 Broad Street, offer the following bonds among others: Erie RR. first consolidated 7s of 1920; Central Branch first mortgage 4s of 1919; Mobile & Birmingham first mortgage guaranteed 4s of 1945; Chat-tanooga Division 4s of 1951; Seaboard Air Line collateral trust 5s of 1911 and others.

-Parkinson & Burr. New York and Boston, have issued a circular respecting New York New Haven & Hartford rights, in which they are prepared to execute orders.

-The growth of the Missouri Kansas & Texas Railway from 1887-1905 is set forth in a 20-page pamphlet prepared by P. H. Carey, statistician for H. W. Poor & Co.

Sidney C. Love & Co. of Chicago and New York on the 1st inst. opened a branch office in Milwaukee under the Management of E. C. Wall.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, Nov. 10 1905.

The holiday on Tuesday, election day, did not interfere to any extent with the general business activity, the reports from most lines being of a continued active condition of trade, although the tightening of the money market is receiving general attention from merchants and tends to create increased conservatism. Large sales at gradually hardening prices have been reported in the pig iron market, and the demand for steel, particularly structural shapes, continues brisk. Advancing prices have been reported in the cotton goods trade, with buyers making fair purchases at the increased cost. Advices from Europe intimating that the activity of export buyers of grain may be transferred from Russia to America has attracted much interest ia over grain markets.

Lard on the spot has had a better sale, a moderate business being transacted with refiners, and prices have held steady. The close was quiet at 7.50c. for prime Western and 7.20c@7.25c. for prime City. Refined lard has had a fair sale for export and the market has been steady, closing at 7.75c. for refined for the Continent. Speculation in lard for future delivery has been quiet, but prices have advanced slightly on reports of a better cash demand. The close was quiet and slightly easier.

DAILY CLOSING PRIC	ES OF	LARD	FUTURE	S IN C	HICAGO.
	Mon.		Wed.		
Nov. delivery 6.95		Holi-		7.00	
Dec. delivery 6.821/2	6.85	day.	6.871/2	$6.87\frac{1}{2}$	6.85
Jan. delivery 6.77½	$6.82\frac{1}{2}$		6.85	6.85	6.80
May delivery 6.95	$6.97\frac{1}{3}$		7.00	7.00	$6.97\frac{1}{2}$

Pork has been quiet, demand being of a jobbing character; prices have held fairly steady, closing at \$15.75@\$16 for mess; \$14.25@\$16.25 for short clear, and nominal for family. Cut meats have been quiet but steady at 65%c. for pickled shoulders, $9\frac{3}{4}$ @10c. for pickled hams and $8\frac{1}{2}$ c.@ $9\frac{1}{2}$ c. for pickled bellics, 16@10 lbs. average. Beef has had a fair rate and the close was steady at \$8.75@\$9.25 for mess; \$10.50@11.00 for packet; \$12.50@13.00 for family and \$17.50 @18.50 for extra India mess in tierces. Tallow has been firm but quiet with buyers at $4\frac{1}{2}$ c. Stearines have been firmer, closing at $7\frac{1}{2}$ @ $7\frac{3}{4}$ c. for lard stearines and $7\frac{1}{4}$ @ $7\frac{1}{2}$ c. for olco-stearine. Cotton-seed oil has advanced, closing at $28@28\frac{1}{2}$ c. for prime yellow. Butter has had a fair sale at steady prices, closing at $16\frac{1}{2}$ @ $23\frac{1}{2}$ c. for creamery. Cheese has been in fair demand and firm, closing at $12\frac{1}{2}$ @ $13\frac{3}{4}$ c. for State factory, full cream. Fresh eggs have advanced for choice trades, closing at 27@28c. for best Western.

Brazil grades of coffee have been in better trade demand, the general report being of a more active, distributing business, and the tone of the market was held steady at $8\frac{1}{4}$ c. for Rio No. 7 and $8\frac{5}{8}$ @ $8\frac{3}{4}$ c. for Santos No. 4. West India growths have been quiet and unchanged at $9\frac{1}{2}$ c. for good Cueuta and 11c. for good average Bogota. Speculation in the market for contracts has been quiet, but at the close the tone was steadier on a slight falling off in the Brazilian crop movement. The close was slightly easier under liquidation. The closing asked prices were as follows:

November	6.50c. February)0c.
December	6.55c. March	- 6.80c. July 7.2	20c.
January	6.65c. April	6.95c. September 7.3	5c.

Raw sugars have been quiet and prices have weakened slightly, closing at 3 7-16c. for centrifugal, 96-degrees test, and $2\frac{7}{3}$ c. for muscovado, 89-degrees test. Refined sugar has been quiet and unchanged, closing at 4.40c. for granulated. Teas have been quiet. Other staple groceries have been unchanged.

Kentucky tobacco has been in good demand and at firm prices; advices from the interior have reported light offerings. Business in the market for seed-leaf tobacco has continued fairly active, offerings being readily absorbed at firm prices. Sumatra tobacco has been in steady demand at unchanged prices. Havana tobacco has been in fair demand and firm.

Straits tin has been in moderately active demand and prices have advanced. The close was steady at 33@33.25c. Ingot copper has been in fair demand and steady at $16\frac{3}{8}@$ $16\frac{5}{6}c$. for Lake and electrolytic. Lead has continued in small supply and firm, closing at 5.35c. Spelter has weakened slightly, closing at 6.15c. Pig iron has continued in good demand and prices have advanced to \$17.75@18.25 for No. 2 Northern and \$17.75@18.00 for No. 2 Southern. Refined petroleum has been in brisk demand and firm, closing at 7.70c. in barrels, 10.40c. in cases and 4.75c. in bulk. Naphtha has been unchanged at 12c. for 71 degrees and 12c. for 76 degrees. Credit balances have been firm, closing at 1.61c. Spirits turpentine has been in slow demand and prices have declined, closing at 70½c. for machine bbls. Rosins have been quiet and unchanged at \$4.15 for common and good strained. Wool has been quiet and the tone of the market has been easier. Hops have been in active demand and firm for the better grades.

COTTON.

Friday Night, Nov. 10, 1905. THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 364,955 bales, against 344,600 bales last week and 292,460 bales the previous week, making the total receipts since the 1st of September 1905 2,937,318 bales, against 3,455,575 bales for the same period of 1904, showing a decrease since Sept .1 1905 of 518,257 bales.

Speculation in cotton for future delivery has been active. Early in the week there was a sharp advance in prices and heavy general buying. Bull interests were agres-sive and there was excited purchasing for the account of bear interests to cover short sales. Weather conditions in the South were reported unfavorable for the crop and small estimates of the yield continued to be freely circulated. Advices were received from abroad giving small estimates of the East India crop, and the reports of trade condition in the cotton goods market at Manchester were of a character to give encouragement to bull interests. Wednesday there was a sharp decline in prices. A report issued by the Census Bureau showed that the amount of cotton ginned to Nov. 1st was 6,483,646 bales, counting round bales as half bales; this was a larger quantity than had been expected by the bull interests and started free selling for the account of speculative holders to realize profits, under which the market weak-ened. Thursday the marked turned stronger. Liverpool cable advices came decidedly better than expected and reported fair sales of spot cotton. Bull interests in the local market followed the lead of Liverpool, and on their buying prices advanced. To-day the market was active and unsettled. The opening was higher in response to stronger foreign advices; then came a slight reaction under sales to realize profits. At noon the report of the Agricultural Bureau was made public, placing the average condition of the crop at 68.8. This started a free selling movement to liquidate holdings, as the report was better than expected, and prices yielded. Subsequently, however, support was given the market and there was a moderate rally. Toward the close there was renewed selling of long holdings and prices again yielded. The close was steady at a net loss in prices for the day of 15@22 points. Cotton on the spot was advanced, closing at 11.65c. for middling upland.

• On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the grades would be as follows:

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

The above totals show that the interior stocks have increased during the week 55,388 bales, and are to-night 38,445 bales less than at the same period last year. The receipts at all the towns have been 19,560 bales less than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give belowa statement showing the overland movement for the week and since Sept. 1. as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

		05		04
Nov. 10.		Since		P.7 0 P 0 0 0
Shipped-	Week	Sept. 1.	Weck.	Sept. 1.
Via St. Louis	. 9,968	55.474	23,097	86.683
Via Cairo		27,948	14,641	63,745
Via Rock Island		5,709	1,768	5.975
Via Louisville	3,049	17,173	1,959	14.701
Via Cincinnati		9,000	2,413	8.789
Via other routes, &c	5,287	26,496	9,374	37,342
Total gross overland	29,991	141,800	53,252	217,235
Overland to N.Y., Boston, &c.,	4.572	16.604	3,523	11.866
Between interior towns		3,433	327	1.928
Inland, &c., from South	3,361	10,353	729	7,624
Total to be deducted	8,280	30,390	4,579	21,418
Leaving total net overland $-a_{-}$.	.21,711	111,410	48,673	195,817

a including movement by rail to Canada.

The foregoing shows the week's net overland movement this year has been 21,711 bales, against 48,673 bales for the week last year, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 84,407

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below are the closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week anding	Cl	osing Quot	lations for	Middling	Cotton on-

Spot Options			Easier. Steady.	Quiet. Ba'iy s'y	Firm. Very s'y.	Steady.

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Wee end		Receip	ots at the	Ports.	Stock at	Interior	Towns.	Receipts	from Pl	antat'ns.
ing-		1905.	1904.	1903.	1905.	1901.	1903.	1905.	1004.	1903.
	$\frac{13}{20}$	344,925 321,919	384,830 393,639	302,997 324,280	300,261 345,950 401,743 456,802	329,075 422,250	$174,421 \\ 239,684$	390,614 377,712	448,745 486,814	341,327 389,543
	- 3	344,600	429,599	412,566	511,089 566,477	547,266	357,256	398,887	488,086	469,155

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1 1905 are 3,368,618 bales; n 1904 were 3,988,237 bales; in 1903 were 3,239,824 bales. 2.—That although the receipts at the outports the past

2.—That although the receipts at the outports the past week were 364,955 bales, the actual movement from plantations was 420,343 bales, the balance going to increase stocks at interior towns. Last year receipts from the plantations for the week were 426,423 bales and for 1903 they were 502,023 bales.

WEATHER REPORTS BY TELEGRAPH.—Our advices by telegraph from the South this evening denote that while in Eastern Gulf and Atlantie sections the weather has been favorable during the week, there has been rather too much rain in districts in the Southwest, interfering with the gathering of the crop. Where not interrupted, picking has progressed very well and is nearing completion

n some sections.

Galveston, Texas.—Reports continue to confirm previous advices as to crop shortage There has been rain on four days during the week, the precipitation reaching two inches and sixty four hundredths. The thermometer has averaged 66, ranging from 54 to 78.

Abilene, Texas.—Rain has fallen on three days during the week to the extent of one inch and four hundredths. The thermometer has ranged from 40 to 70, averaging 55. Fort Worth, Texas.—We have had rain on three days of the week, the precipitation being two inches and fifty hundredths. Average thermometer 59, highest 78 and lowest 40.

Palestine, Texas.—We have had heavy rain on four days during the week, the rainfall being four inches and six hundredths. The thermometer has averaged 67, the highest being 76 and the lowest 48.

Taylor, Texas.-We have had rain on four days of the past week, the rainfall being two inches and sixty-five hundredths. The thermometer has averaged 66, ranging from 48 to 78.

San Antonio, Texas.—We have had rain on three days of the week, the rainfall reaching two inches and twelve hundredths. The thermometer has ranged from 52 to 84, averaging 68.

Corpus Chrtsti, Texas.-It has rained on three days of the week, to the extent of forty-eight hundredths of an inch. Average thermometer 59, highest 82 and lowest 36.

New Orleans, Louisiana.-We have had rain on five days during the week, the rainfall being three inches and forty-two hundredths. The thermometer has averaged 68.

Shreveport, Louisiana.-We have had rain on four days during the week, the precipitation reaching two inches and fifty-nine hundredths of an inch. The thermometer has ranged from 48 to 76, averaging 62.

Vicksburg, Mississippi.—Weather unfavoable. We have had rain on four days the past week. tre rainfall being three inches and fifty-four hundredths. hhe thermometer

has averaged 61, ranging from 44 to 80. Little Rock, Arkansas.—Picking is making good progress and farmers are selling rapidly. Rain has fallen on three days of the week, the rainfall reaching two inches and eighteen hundredths. The thermometer has averaged 56, the highest being 78 and the lowest 38.

Helena, Arkansas.—Wet weather has interfered with picking and caused some damage to open cotton. The crop is mostly gathered and marketed. We have had rain on three days of the week, the precipitation being two inches and twenty hundredths. Average thermometer 55.3, highest 72 and lowest 38.

Nashville, Tenn.-Rain has fallen on one day of the week, to the extent of four hundredths of an inch. Average thermometer 52, highest 63, lowest 35.

Memphis, Tennessee .- Picking and marketing are progressing rapidly. We have had rain on four days during the week, the precipitation reaching one inch and seventy-three hundredths. The thermometer has ranged from 43.5 to 70.3, averaging 54.9.

Mobile, Alabama.—Weather in the interior fair and favorable most of the week, but heavy rains yesterday. Cotton picking will continue in some sections for several weeks. We have had rain on two days of the past week, the rain-fall being two inches and ten hundredths. The thermometer has averaged 64, the highest being 76 and the lowest 54.

Montgomery, Alabama.—The week's rainfall has been thirty-four hundredths of an inch, on two days. The thermometer has averaged 62, ranging from 46 to 79.

Selma, Alabama.—Picking is about completed in many sections hereabouts. We have had rain on two days of the week, the rainfall reaching seventy-five hundredths of an inch. The thermometer has ranged from 38 to 70, averaging 57

Madison, Florida .- We have had slight rain on one day the past week. Average thermometer 67, highest 74 and owest 40.

Savannah, Georgia .- Dry all week. Average thermometer 63, highest 80 and lowest 46.

Augusta, Georgia.—Cotton is being sold fairly free on the basis of eleven cents. There has been rain on two days of the week, the precipitation reaching forty-two hundredths The thermometer has ranged from 41 to 72, of an inch. averaging 59.

Charleston, South Carolina.—We have had no rain the ast week. The thermometer has averaged 65, ranging past week. T from 48 to 77

Greenwood, South Carolina.- There has been a light rain on one day of the past week, the rainfall being fifteen hundredths of an inch. The thermometer has ranged from 43 to 65, averaging 54.

Stateburg, South Carolina.-Weather has been fine for gathering the scattered remnants of cotton as well as harvest-ing other crops. We have had light rain on one day during the week, the precipitation being five hundredths of an inch. Average thermometer 59, highest 73, lowest 41. Charlotte, North Carolina.—The week's rainfall has been

only a trace. The thermometer has averaged 54, the highest being 67 and the lowest 35.

The following statement we have also received by tele-

INDIA COTTON MOVEMENT FROM ALL PORTS.-The receipts of cotton at Bombay and the shipments from all India ports for the week and for the season from Sept. 1 for three years have been as follows:

					<u> </u>			
November 9.	19	05.		1904.	11	1903.		
Receipts at—	Week.	Veek. Since Sept. 1.		. Since		Since Sept. 1.		
Bombay	14,000	000 93 000		00 102,00	00 16,000	65,000		
Exports from—	For	the Wee	k.	Sine	Since September 1.			
Exports from—	Great Britain.	Conti- nent.	Total.	Great Britain.	Conti- nent.	Totat.		
Bombay— 1905 1904 1903 Calentta—		3,000 1,000	3,000	10,000	80,000 3,000 24,000	90,000 3,000 26,000		
1905		1,000 1,⊂ fi ō	1,000 1,000	1,000	4,000 3,000 5,000	5,000 3,000 5,000		
1905 1904 1903 All others—		2,000 1,000	2,000 1,000	1,000	$10,000 \\ 2,000 \\ 4,000$	$11,000 \\ 2,000 \\ 4,000$		
1905 1904 1903		2,000	2.000		33,000 24,000 22,000	33,000 24,000 22,000		
1905 1904 1903			$8,000 \\ 2,000 \\ 1,000$	12,000 - 2,000	$127,000 \\ 32,000 \\ 55,000$	$139,000 \\ 32.000 \\ 57,000$		

According to the foregoing, Bombay appears to show a decrease compared with last year in the week's receipts of 11.000 bales. Exports from all India ports record a gain of 6,000 bales during the week; and since September 1 show an *increase* of 107,000 bales.

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.—Through arrangements made with Messrs. Choremi, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years:

Alexandria, Egypt, Nov. 8.	19	05	10	004.	1903.		
Receipts (cantars a) This week Since Sept. 1	310,000 1,527,125			90,000 95,225	$335,000 \\ 1,954,881$		
Exports (bales)—	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1	
To Liverpool To Manchester To Continent To America	$13,000 \\ 12,000 \\ 12,000 \\ 4,250$	29,437 55,539	11,500 13,000 1,500	$22,424 \\ 57,255$	9,250 6,250 10,250 2,250	25,360 59,703	
Total exports	41,250	146,381	26,000	130,446	28,000	139,44	

a A eantar is 98 lbs.

 $\stackrel{(a)}{=}$

 $9\frac{1}{2}6$ $1\frac{1}{2}09$ $9\frac{1}{2}6$ $3\frac{1}{2}09$

This statement shows that the receipts for the week were 310,000 cantars and the foreign shipments 41,250 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is strong for yarns and quiet for shirtings. Manufacturers are generally well under contract. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

AGRICULTURAL DEPARTMENT'S REPORT-The Agricultural Department's report on cotion for November 1 was issued November 10 as follows:

The Crop Estimating Board of the Bureau of Statistics of the Department of Agriculture finds from the reports of the correspondents and agents of the Bureau that the average condition of cotton on Oct. 25 was 68.8, against 71.2 on Sept. 25.

No report on the condition of the eotton erop was made at this time ast year, consequently comparative statistics are not available.

BRAZILIAN COTTON CROP.-Under date of Pernambuco Oct. 7, a correspondent of the Manchester (Eng.) Guardian wrote as follows with regard to the Brazilian cotton crop.

 $5.44 \\ 5.42$

The prospects of a considerably larger erop of cotton have distinctly improved during the past month. The Sertas crop is reported to be a very good one and the Matta crop has made excellent progress. It will be rather late, but has greatly benefited recently by frequent light rains, which have improved it both as to quantity and quality. Receipts here in August amounted to 17,168 bags, against 4,932 in the same month last year. In September 17,266 bags were received, against 6,425 last year. The shipments during September amounted to 4,000 bags to Rio de Janeiro, S00 to Santos, 672 to Rio Grande do Sul. 7,886 to Liverpool and 200 to S1. Petersburg. There has been a fair demand for Liverpool, but at prices below parity here. The purchases by the home trade have been small, as spinners both about here and in Rio seem to have ample supplies, and moreover goods are not selling as readily as they did some time ago. The prospects of a considerably larger erop of cotton have distinctly

NEW ENGLAND MILL SITUATION .- Following the action taken at Fall River increasing the wages of operatives, a similar movement has set in in other New England manufacturing centers. The advance accorded has been identical with that given at Fall River.

CENSUS BUREAU'S REPORT ON COTTON-GINNING. -The Division of Manufactures in the Census Bureau completed and issued on Nov. 8 the fourth of its series of reports on cotton-ginning the present season as follows:

Following is the report by States and Territories of the quantity of cotton ginned from the growth of 1905 to November 1 1905:

(Counting	Active		Counting	Active

Louisiana ______ 231,249 1.847 [Virginia ______ 7,479 110 The above statistics have been compiled from telegraphic reports of the special agents who canvassed the ginneries, and are subject to slight corrections when checked against the individual returns of the ginners being transmitted to the office through the mails. No report was made for November 1 1904 and comparative statistics are not available. The statistics of this report include 182,955 round bales and 49,685 Sea Island bales. The Sea Island cotton is distributed by States as fol-lows: Florida, 19,700; Georgia, 26,245; South Carolina, 3,740. The last report showed 4,940,728 bales, counting round as half bales, ginned to October 18.

to October 18

EGYPTIAN CROP .-- Messrs. Choremi, Benachi & Co. of Boston and Alexandria, Egypt, write under date of Alexandria, October 21, as follows:

There is already some disposition on the part of holders of finer grades to hold for high premiums as the latest crop reports foreshadow an early falling off in receipts.

JUTE BUTTS, BAGGING, ETC.-The demand for bagging during the past week has been very quiet, but prices are unchanged at 65% c. for 13/4 lbs. and 67% c. for 2 lbs. standard grades. Jute butts very dull at 11/2@13/4c. for paper quality and 2@21/4e. for bagging quality.

SEA ISLAND COTTON MOVEMENT. We have received this (Friday) evening by telegraph from the various ports the details of the Sca Island cotton movement for the week. The receipts for the week ending to-night (Nov. 10) and Since Sept. 1 1905, the stocks to-night and the same items for the corresponding periods of 1904 are as follows:

Receipts to Nov. 10.	19	05.	19	04.	Stock.	
Ассерья ю хог. ю.	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1905.	1904.

BREADSTUFFS.

Friday, Nov. 10 1905.

Business in the market for wheat flour has been quiet, and owing to the slow demand, prices quoted have been largely nominal, and they show very little change. According to some statements, buyers of important lines, had they shown a willingness to operate, could have obtained slight concessions in prices. As a general rule, however, dealers have their wants for the present well covered, and were holding back, awaiting developments. Rye flour has had a limited jobbing sale at unchanged prices. Buckwheat flour has been quiet but steady. Corn-meal has held steady.

Speculation in wheat for future delivery has been on a limited scale only, and the tone of the market has been somewhat unsettled, with prices showing only a slight net change for the week. Early in the week prices yielded under reports that the world's exports for the previous week reached the record-breaking figures of 14,144,000 bushels. These large exports had a weakening effect upon the European markets. Advices from the Northwest reported a free movement of the spring-wheat crop, and under liberal offerings the markets in the interior developed an easier tone. Advices received from the European markets predicting that the activity of exporters in the grain markets will be transferred from Russia to America received considerable attention, starting a speculative buying movement, and prices advanced. The improvement, however, was not maintained. quotations again yielding under sales from speculative hold-

fairly liberal scale. The spot market has held steady, but the volume of business transacted has been limited, exporters being light buyers, as they are well supplied for the present, owing to recent free purchases. To-day there was an easier market, under liquidation and the favorable Bureau report. The spot market was quiet and easier.

Oats for future delivery at the Western market have been moderately active. There has been a moderate amount of speculative buying, but there have been fair offerings, and only slight changes have occurred in prices, the undertone of the market holding steady. At the close, reports of renewed activity on the part of exporters operated in favor of the market. To-day there was an easier market, following the decline in other grains.

AGRICULTURAL DEPARTMENT'S REPORT-The Agricultural Department's report on the cereal and other crops was issued November 10, and is given below:

The Crop Estimating Board of the Bureau of Statistics of the Department of Agriculture finds from the reports of the correspondents and agents of the Bureau as follows: The preliminary returns on the production of corn in 1905 indicate a total yield of about 2,707,993,540 bushels (1,516,476,382 centals). or an average of 28.8 bushels (16.1 centals) per acre, as compared with an average of 26.8 bushels (15.0 centals) as finally estimated in 1904, 25.5 bushels (14.3 centals) in 1903 and a ten-year average of 24.9 bushels (13.9 centals).

The following table shows for the twenty-five principal corn States the preliminary estimates of average yield per acre, in bushels, in 1905. with the final estimates for 1904 and 1903 and the mean of the averages for the last ten years:

The general average as to quality is 90.6, as compared with 86.2 last year. S3.1 in 1903 and S0.7 in 1902. It is estimated that about 3.3^{1}_{4} of the corn crop of 1904 was still in the hands of farmers on Nov. 1 1905, as compared with 3.6 4 of the crop of 1903 in farmers' hands on Nov. 1. 1904, 5.2 of the crop of 1902 in farmer's hands on Nov. 1 1903, 5.2 of the crop of 1902 in farmers' hands on Nov. 1 1903, and 1.9 of the crop of 1901 in farmers' hands on Nov. 1 1902.

The preliminary estimate of the average yield per acre of buckwheat is 19.2 bushels, against an average yield of 18.9 bushels in 1904, 17.7 bushels in 1903 and a 10-year average of 18.2 bushels.

The average for quality is 93 per cent. against 91.5 last year, 91.4 in 1903 and SS.1 in 1902.

The preliminary estimate of the average yield per acre of flaxseed is 11.2 bushels, as compared with a final estimate of 10.3 bushels in 1904. S.4 bushels in 1903 and 7.8 bushels in 1902. The average as to quality is 94.6 per cent., as compared with 92 one year ago and 84.9 in 1903.

The preliminary estimate of the average yield per acre of potatoes is \$7 bushels, against an average yield of 110.4 bushels in 1904, \$4.7 bushels in 1903 and a 10-year average of 85.8 bushels. The average as lo quality is \$5.4 per cent, as compared with 93.4 per cent one year ago. 88.4 in 1903 211 00.2 in 1002.

The preliminary estimate of the average yield per acre of hay is 1.54 tons, against an average yield of 1.52 tons in 1904, 1.54 tons in 1903 and a 10-year average of 1.39 tons. The average as to quality is 89.8 per cent, against 92.7 one year ago, 91.3 in 1003, and 85.7 in 1902

The preliminary estimate of the average yield per acre of tobacco is \$13.5 pounds, as compared with the final estimate of \$19 pounds in 1904, 785.3 in 1903 and a 6-year average of 745.1. The average as to quality is 87.3 per cent, as compared with 89.5 per cent one year ago and 85.9 per cent in 1903.

The preliminary estimate of the average yield per acre of rough rice is 20.6 bushels, against an average yield of 31.9 bushels in 1904 and 32.7 bushels in 1903

The average indicated yield per acre of the various crops for a number of years is as follows:

AVERAGE YIELD PER ACRE.

1905.	1904.	1903.	1902.	1901.	1900.	1899.
Cornbushels 28.8	26.7	25.5	26.8	16.7	25.3	25.3

THE DRY GOODS TRADE.

Friday, November 10 1905.

While the election day holiday has interfered to a certain extent with business in the dry goods market during the week, yet there has been a good deal of activity apparent, and orders have been both numerous and for fair-sized quantities of goods. The tone of the market has been very firm, and while advances have been recorded in several directions there is a feeling on the part of both buyers and sellers that the upward movement has not yet ceased and that still higher prices will soon be reached. The continued advance in the cotton market has caused uneasiness among both buyers and sellers, coming as it does on top of a situation already acute by reason of the searcity of available goods. In many in_ stances it is impossible to secure anything for immediate delivery, and sellers are able to charge their own prices for near-by shipments of any kind. There is a decided disposition, however, not to unduly advance prices, and the advances that have been made have been in spite of the efforts of manufacturers rather than as a result of them. Buyers are not hesitating to pay the advances, and from all appearances will not do so as long as the cotton market continues on its upward course. There is no element of speculation in the situation but buyers are covering what they believe will be their legitimate requirements in view of the possibility of a still higher level. There have been a few sales for export reported during the week, but business in this department has not been heavy. Woolen goods have been fairly active.

DOMESTIC COTTON GOODS .- The exports of cotton goods from this port for the week ending Nov. 6 were 4,223 packages, valued at \$251,849, their destination being to the points specified in the tables below:

		1905	19	
		Since		Sinc
New York to Nov. 6.	Week.	Jan. 1.	Week.	Jan.1
Great Britain	_ 16	1,027	17	955

Total	$_4,223$	260,378	6.354	206.30

price has not yet been reported as having been paid.

WOOLEN GOODS .- The volume of business transacted in dress goods has been quite heavy, but there are evidences that the principal portion of the buying has now been completed. There is, of course, a good deal still to be done, but buyers have apparently temporarily covered their requirements. The extraordinary demand for broadcloths has continued right up to the present time, and certain buyers are now wondering whether it has not been overdone. Not only have the high-priced goods been freely bought, but there has been a heavy business in the cheap fabrics of broadcloth ideas. Cheviots of staple colorings have sold well, and for spring there has been a good demand for woolen panamas in mixtures and staples and cream-colored fancy worsted suitings. There has been a better demand for some seasonable cloths during the week, and fair-sized orders have been placed for certain lines of overcoatings. Fancy woolens for the medium and cheap trades have retained their popularity, and there has been more call for kerseys and other one-color fabrics. The lack of cancellations in the men's wear market is exciting a good deal of interest, and is likely to place those agents who did not hesitate to oversell their production in an awkward position It is, in fact, claimed that many mills will be wholly unable to fill all the orders that have been booked. The reports from clothiers' salesmen throughout the country have been fairly satisfactory, but their orders have not been as heavy as had been expected. This is due to the mildness of the season so far, which has prevented retailers from moving their heavy-weight goods as quickly as usual, and until they do they will not feel inclined to purchase light-weights with any degree of freedom.

FOREIGN DRY GOODS.—The first buying of imported woolen and worsted dress goods is practically over and the season has so far been more than usually satisfactory. Silks are still slow and ribbons quiet. Linens remain very firm and the demand continues in an unexpected manner. Burlaps are strong, and still very scarce.

Importations and Warehouse Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending Nov. 9 1905, and since January 1 1905, and for the corresponding periods of last year are as follows:

News Items.

Ashtabula County (P. O. Jefferson), Ohio. - Status of Bond Litigation.- We have received from P. C. Remick, County Auditor, the following relative to the litigation over \$200,000 bonds which the county proposes to issue to build a lift bridge at Ashtabula Harbor to take the place of a bridge condemned by the United States Government:

condemned by the United States Government: The Circuit Court of Ohio has recently rendered a decision in effect that the U.S. Government has no authority to order out the old bridge across As'atabula River and has ordered the lower court to issue an in-junction against the Commissioners issuing the proposed \$200,000 county bonds for a new lift bridge. The Common Pleas Court of Ash-tabula County has this very day. Nov. 2, issued the said injunction. The matter will rest where it now is until the U.S. Government takes further action. What action, if any, it may take we do not know, but the U.S. Attorney-General of this District has had his assistant here looking up the whole bridge situation and the matter now rests with the Attorney-General of the United States as to the future course of the Government.—See V. 81, p. 278. California—San Francisco.—Decision in Montaomery Are.

California-San Francisco.-Decision in Montgomery Ave. Bond Case.-The following is taken from the San Francisco "Chroniele:"

SACRAMENTO, Nov. I.—In the snit of the Union Trust Company of San Francisco against the State of California to recover over \$2,000,000 for money elaimed to have been advanced on Montgomery Ave, bonds in San Francisco, Judge J. W. Hughes of the Superior Court to-day sus-tained the demurrer of the State to the plaintiffs' amended complaint. —See V. 80, p. 483, 1070; V. 79, p. 925, 1659 and V. 78, p. 1565.

Chicago, Ill.-Referendum.-The City of Chicago at the general election Nov. 7 adopted several Acts passed by the State Legislature in 1905, each of which contained a referendum clause. Briefly they are as follows:

Amendment to the city charter relating to municipal officers. Vote 100,932 to 45,078. Act to confer upon the City of Chicago power and authority to scil surplus elec-tricity and to fix rates and charges for the supply of gas or electricity for power, heating and lighting furnished by any individual, company or corporation to said eity of Chicago and the inhabitants thereof. Vete 124,545 to 20,504. Act relating to municipal courts. Vote 96,363 to 18,375.

Portland, Me .- Offering of Railroad Stock .- The "Boston News Bureau" says:

News Bureau says: The City Treasurer of Portland, Me., will receive bids until Nov. 18 at 12 o'clock for the sale of 1.500 shares of the capital stock of Portland & Ogdensburg Ry. Stock is to be paid for and certificates of the same delivered Dec. 1. The stock is tax exempt, par value \$100, and returns 2% per annum. The proceeds received from the sale of these bonds will be used to retire \$100,000 6% bonds maturing in September 1907. The city of Portland is a majority stockholder in the Portland & Ogdens-burg Ry., which it leased in 1888 to the Maine Central R R. Co. for a term of 999 years. Bids for the stock will be accepted in order of rate offered; small orders will be given preference and residents of Portland will be preferred to non-residents.

non-residents

Rhode Island.—Constitutional Amendment Dejeated.— Returns published in local papers indicate the defeat on Nov. 7 of an amendment to the State Constitution relating to representation in the State House of Representatives.

Tensas Parish (P. O. St. Joseph) La.—Bonds not Entirely Legal.—Charles B. Wood, Esq., of Wood & Oakley, attor-neys for John Nuveen & Co. of Chicago, who recently were awarded \$50,000 5% court-house and jail bonds of this Parish has given an enjoin holding that the proceedings Parish, has given an opinion holding that the proceedings authorizing these bonds were insufficient to ensure their legality. The contract of the purchasing firm, we are informed, stipulates that the Parish is to take any further steps necessary to perfect the issue. This will now be done under the direction of the Chicago firm's attorneys and the proceedings will include the holding of a new election. The opinion of Mr. Wood, setting forth the defect in the bonds as now authorized, follows:

bonds as now authorized, follows:
Messrs. John Nuveen & Co., Chicago.
Gentlemen.—I decline to approve fifty thousand dollars court-house and jail bonds of Tensas Parish, Louisiana, dated Oct. 15 1905, because it appears that no additional tax was levied for these bonds for the years 1905 to 1926, inclusive. On the contrary, the record shows that there has been an attempt to appropriate a portion of the ordinary tenmill levy, for the purpose of paying the interest for those years. This emphatically cannot be done. The Supreme Court of Louisiana has expressly and in terms decided that bonds and interest must be paid from the extra five mill levy when voted, and not otherwise, and that a parish is powerless to appropriate out of its general ten-uill levy enough to care for the bonds. (Callaghan v. Town of Alexandria, 27th Southern Reporter 334).
The Supreme Court has also decided that the debt is void if no provision is made for the payment as the Constitution requires (Citizens' Bank vs. Town of Jennings, 32d Southern Reporter 66), and I feel bound to advise you that no provision such as the Constitution requires has been made for the payment of the principal and interest of these bonds, and they are, therefore, beyond dispute, void. Yours truly, (Signed) CHAS. B. WOOD.
Wisconsin.—Population of State.—The population of the

Wisconsin .- Population of State .- The population of the State of Wisconsin according to the census taken the current year has been officially announced as 2,228,949, as against 2,069,042 for 1900, a gain of 159,907 for the five years.

of Indianapolis; Weil, Roth & Co. of Cincinnati and Albert Kleybolte & Co. of Cincinnati.
