WILLIAM B. DANA COMPANY, PUBLISHERS,

PINE ST. CORNER OF PEARL ST., NEW YORK.

REVIEW OF JANUARY.

Easier monetary conditions developed during January, and this brought with it the train of circumstance to which we have become more or less accustomed in the opening month of the year. Foreign exchange rates moved sharply upward, and there was discussion of the possibility of an export of gold to Europe: some amounts of the metal were actually shipped to Mexico and Argentina. On the Stock Exchange the speculation for higher prices made further progress, but on the advance enormous realizing sales occurred, causing decided weakness the last few days, which was accentuated by the action of the House of Representatives in calling upon the President for information concerning the relations between the Pennsylvania and the Baltimore & Ohio and other roads dominated by it. With easier money there were some large public offerings of bonds, as is usually the case in January. An incident of the month was the speech of Jacob H. Schiff at a meeting of the Chamber of Commerce January 4, declaring the money market conditions which had prevailed the previous sixty days a disgrace to the country, and saying also that unless our currency system was reformed, a panic would sooner or late result compared with which all previous panics would seem as child's play.

Early in the month the Imperial Bank of Russia raised its rate of discount from 7 to 7½% and later to 8%; but that was a state of things peculiar to the country, and did not reflect monetary conditions elsewhere in Europe. The Bank of Germany on the 18th reduced its rate from 6 to 5% and the Bank of Sweden about the same time reduced from 5½ to 5%. At the close open market discounts were quoted at Berlin and Frankfurt at 3¼ @ 3⅜%. At London rates were pretty well maintained and there were apprehensions lest the Bank of England official minimum might have to be advanced. The Bank, however, was able very largely to increase its bullion holdings (the addition for the four weeks ending January 25 being no less than £3,910,899), the improvement following mainly as the result of the return flow from the interior of Great Britain.

The overwhelming victory achieved by the Liberal Party at the parliamentary elections, together with the large vote polled by the Labor candidates, apparently had no special effect upon affairs except that it made speculators on the London Stock Exchange rather more timid than usual. The Russian political situation very greatly improved but the Russian Government had difficulty in renewing £20,000,000 sterling of treasury bills negotiated a year ago. Even-

tually German bankers agreed to take £16,000,000 of new bills, besides which 10 2-3 millions sterling of the same class of bills was placed in France. The terms were hard in both instances. The Moroccan conference at Algeiras attracted wide attention. Fears of a possible clash between France and Germany gradually diminished, but were not entirely dispelled.

In the cotton market an incident was a convention at New Orleans of the Southern Cotton Association, at which it was resolved to reduce acreage for the coming crop 25 per cent, and planters were again urged to hold the remainder of their crop for 15 cents a pound. Middling upland cotton in this market was quoted 11.75 cents Jan. 2d; by the 18th the price was 12.25 cents. The close January 31 was at 11.35 cents. There were two ginning reports from the United States Census during the month—the first, showing less cotton ginned than expected, served to strengthen the price, while the later report, revealing a somewhat larger total than had been looked for, had the opposite effect.

The foreign exchange market, except at the opening of the month, when the tone was easy and rates lower, was quite generally strong. The strength was due to an urgent and a quite persistent demand for remittances in settlement for maturing finance bills and also for sight drafts that had been speculatively sold. On occasions there was likewise a demand in settlement for stocks sold here for European account. With the advance in sterling rates there was talk of the possibility of gold exports to Europe, but the refusal of the Bank of France to allow interest on gold in transit, owing to its disinclination to accumulate gold—because the limit of its note circulation had been nearly reached—served to prevent the outflow. The fact that money rates here, though having returned to nearly normal conditions, nevertheless ruled higher than at Paris, also acted as a check upon shipments. The latter part of the month there was an export of \$1,850,000 gold to Mexico on French account and an export of \$500,000 to Argentina on London account. The shipments to Mexico are understood to represent payments for Mexican silver purchased on French account.

In the stock market there was considerable disappointment at the beginning of the month because easier monetary conditions did not at once develop,

and the remarks of Jacob H. Schiff at the Chamber of Commerce meeting also exerted an adverse effect. But as money rates declined the feeling quickly improved, and great activity and buoyancy ensued. In many cases the advances were sensational, particularly as they followed such a long-continued rise in 1905. The latter part of the month the market became ragged and irregular on enormous sales to realize profits, and a considerable portion of the previous advance was lost. With the tendency already downward, the passage of a resolution by the House of Representatives on Monday, Jan. 29, requesting the President to submit to the House any information which the Inter-State Commerce Commission might possess as to the existence of a combination in restraint of trade between the Pennsylvania Railroad, the Baltimore & Ohio, the Norfolk & Western, the Chesapeake & Ohio, &c., caused a severe tumble in prices. This resolution was interpreted as an attempt to upset the community-of-interest arrangements between the trunk lines. Reading common was conspicuous all through in the downward movement; after having touched 164 Jan. 23, it dropped to 134 1/4 Jan. 30, closing at 141 1/8 Jan. 31.

As stated above, some large new loan issues were brought out during the month. Kuhn, Loeb & Co. purchased \$20,000,000 Pennsylvania Company 4% bonds and also \$4,500,000 Long Island RR. refunding 4s. The Westinghouse Electric & Manufacturing Co. offered \$15,000,000 convertible gold 5s to its shareholders, the sale being guaranteed by a syndicate. Banking interests offered for sale \$6,000,000 Missouri Pacific 2-year 5% notes. The Missouri Kansas & Texas Railway in a circular announced that shareholders would be asked to authorize \$20,000,000 general mortgage 4 1/2s and that \$10,000,000 of the issue would be offered to shareholders at 87 1/2, payable in instalments, the whole issue being guaranteed by a syndicate. The Norfolk & Western Railway sold \$3,000,000 divisional first lien and gen. mtg. 4s and \$3,000,000 4% equipment bonds. Tennessee Coal Iron & Railroad Co.'s shareholders on Jan. 31 voted on a proposition to increase the common stock from \$23,000,000 to \$30,000,000, the proceeds of the new issue to be used for improvements and extensions.

In the money market there was a gradual return to normal conditions, though the first few days of the month, before the distribution of the large January interest and dividend payments, rates still ruled high. Both the money holdings and the surplus reserves of the Clearing House banks were heavily increased. Early in the month the Secretary of the Treasury ordered the prepayment without rebate of the interest due Feb. 1 on Government bonds, but the amount involved was only small—about \$1,800,000.

GENERAL QUOTATIONS

—OF— BONDS AND STOCKS.

1. In the following twenty-eight pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.
2. Quotations from all Stock Exchanges are as near as possible for the *last day of January*. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.
3. Bond prices marked (\$) indicate that the purchaser must pay accrued interest *in addition to the price given*. The method of quoting on the New York Stock Exchange is to quote the price flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.
4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.
5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.
6. The following abbreviations are often used, viz: "M." for mortgage, "g." for gold, "g'd" for guaranteed, "end." for endorsed, "cons." for consolidated, "conv." for convertible, "s.f." for sinking fund, "l.g." for land grant, "op." for optional.
7. The black-faced type in the letters showing the interest period indicates the *month* when the bonds mature.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (*).

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

BANKS AND TRUST COMPANIES.

Quotations for the stocks of banks and trust companies are given per share, not per cent, with the exception of New York City, Brooklyn and Canadian bank stocks.

Prices marked thus (*) indicate sales. The dagger (†) prefixed to a price indicates that the figures show the book value.

Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.
