PINE ST CORNER PEARL ST. NEW YORK

REVIEW OF APRIL.

Quite a few of the leading influences were unfavorable during April, and as a consequence the financia markets were decidedly unsettled. The appalling disaster at San Francisco, through earthquake and fire, was of course the event of controlling importance. The earthquake, as is known, occurred at 5:13 a. m., Wednesday, April 18, and the upheaval, after doing enormous direct damage through the collapse of numerous buildings, finally led to one of the most extensive conflagrations on record, the area burnt comprising about four square miles of territory. The business section, with all the bank buildings, was completely destroyed and over 200,000 persons were rendered homeless. Congress appropriated $2,500,000 for the relief of the inhabitants of the city, and the private contributions amounted to many times that sum. The property loss is still a matter of conjecture, but is believed to run in excess of $300,000,000. The loss of lives also has not yet been definitely ascertained, though the number, it is thought, will not exceed 1,000. At the close of the month all the banks still remained closed (owing to the difficulty of getting at their books and vaults in the ruins), and general business likewise remained suspended, the Governor of California having declared legal holidays from day to day as a matter of legal protection to the banks during the period of enforced closure.

The train of events following this disaster has been a long one. In the first place, enormous amounts of money had to be sent or transmitted to the stricken city. In the second place, the loss sustained by the fire insurance companies, both domestic and foreign, has been a very serious matter. Even though none of the companies might become absolutely insolvent, the loss was of such dimensions that necessarily it must leave some of them in a crippled condition from which it will take a considerable time to recover. A third development has been the fact that to meet the losses incurred the companies are being obliged to sell heavily of their holdings of securities, and such sales coming at a time when the Stock Exchange was already depressed caused very great demoralization in prices.

We have alluded to there having been other depressing influences. The negotiations with regard to the labor differences at the coal mines throughout the country have not at all taken a satisfactory turn. In the anthracite regions mining remained suspended throughout the entire month. Modified proposals were submitted by the miners, but the close of the month found the operators still holding firm, with a miners'

convention scheduled to be held May 3 to determine whether a strike was to be definitely declared. In the bituminous regions the situation was more assuring, not a few operators granting a return to the wages of 1903; but this still left a good many sections where miners and operators had failed to come to terms and the men remained in idleness.

It is also to be noted that the various bills for the regulation of the affairs of life insurance companies in this State proposed by the Armstrong Investigating Committee became laws. The precise effect of these measures cannot be determined thus early, but that they will have some effect is undoubted. They materially restrict the scope of the financial operations of these large concerns and they also limit their investments. Furthermore, they make it necessary within a prescribed period of time to dispose of considerable amounts of securities now held by these institutions.

Monetary conditions have also been such as to excite much concern. New York Clearing House banks April 7 reported a deficiency of $2,560,625 below the 25% ratio of cash to deposits and call loans upon the Stock Exchange the early part of the month got as high as 30%. The reserve was restored the next week, but the calamity at San Francisco subjected the banks to new and very heavy demands. The Secretary of the Treasury took quite unusual measures, both before and after the earthquake, to ease the pressure upon the banks. On Saturday, April 14, he made official announcement of a plan for facilitating gold imports. The plan then, however, had already been in effect for two days and had been availed of by the institutions that knew of it. Previously the banks had been allowed to count foreign gold in transit as part of their reserve; now the Secretary went a step further and made the money immediately available to the banks by allowing the importing institution additional Government deposits to amount of the gold engaged for shipment—by which operation, of course, the loss of interest on the metal while in transit for this country was avoided. The Secretary originally fixed the limit of deposits of public funds to facilitate gold imports at $25,000,000 On April 30, however, he removed all limit. It was estimated that $32,870,000 had actually been engaged during the month; the arrivals of the metal at this point were not quite $15,000,000. The Secretary also extended every facility at his command to ensure the immediate transfer of funds to San Francisco. Altogether, the transfers and direct shipments during the month to San Francisco and elsewhere, incident to the disaster, aggregated $28,419,000. Notwithstanding this extraordinary demand for funds the monetary situation (largely through the relief measures extended by the Secretary) eased up considerably the latter part of the month, the range for call loans April 30 being only 3½@4¾%.

a The commission paid, in addition to the legal rate, brought the rate up to this figure.

One of the events of the month was the passage by the Legislature at Albany of what is known as the Trust Company Reserve Bill, requiring trust companies in this State to keep a definitely stated cash reserve against their deposits.

The course of prices on the Stock Exchange is pretty well indicated in the remarks above. There was an absence of spirit to the dealings even in the early part of the month, and the latter part the weight of accumulating adverse influences finally caused general demoralization, resulting in large losses throughout the list. The monetary tension, the strikes and suspension of mining in the coal fields, and the fear that large amounts of securities held by the fire and life insurance companies would come upon the market, were doubtless the most potent factors in the collapse. The Amalgamated Copper Co. further increased its dividend rate and the Missouri Kansas & Texas Ry. declared its first dividend on its preferred shares; but this did not prevent these properties from sharing in the general downward movement.

January 1 to April 30	136,823 900	158,499,100	261 086 250	163 734 950

Foreign exchange early in the month was utterly demoralized as a result of the monetary tension here and easier discount rates abroad and also the negotiation of sterling and franc loans representing borrowings of foreign capital by stock operators. There was then an almost entire absence of demand for remittance. Between the 1st and the 11th rates declined fully 2@2½ cents per pound for the different classes of bills. On the 12th there was a sudden upward reaction of 1½@2 cents, which at first was not fully understood but later appeared to have been caused by the inauguration of Secretary Shaw's plan for facilitating gold imports and which was not publicly announced until two days later. The recovery then begun was continued for several days, when the market again weakened. The latter part of the month the course of rates was irregular, with the market considerably unsettled, it fluctuating under the influence of the varying conditions prevailing from day to day. The Bank of England on the 5th reduced its rate of discount from 4% to 3½%.

NEW YORK STOCK EXCHANGE

MONTHLY AND YEARLY RECORD

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month an the year 1906. They need no extended introduction, as they are self-explanatory. The tables embrace every securit (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the officia list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed *"Prices about January* 2 1906" were made on that date, except those in italics, which are the nearest in January 1906. The black-faced letters in the column headed *"Interest Period"* indicate in each case the month when the bonds mature.

☞*For foot notes to tables see last page of Bonds and last page of stocks.*

GENERAL QUOTATIONS
OF
BONDS AND STOCKS.

1. In the following thirty pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.

2. Quotations from all Stock Exchanges are as near as possible for the *closing day of the month preceding the date of issue.* **Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.**

3. Bond prices marked (*a*) indicate that the purchaser must pay accrued interest *in addition to the price given.* The method of quoting on the New York Stock Exchange is to quote the price flat (that is, to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.

4. Stock prices marked thus (*d*) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "g'd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "s f" for sinking fund, "l g" for land grant, "op" for optional.

7. The black-faced type in the letters showing the interest period indicates the *month* when the bonds mature.

d This price is per share, not per cent. *n* Nominal. *s* Sale price. *x* Ex-dividend *y* Ex-rights.
z On account of the earthquake and fire have been unable to obtain quotations.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is, where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (*).

The figures in the column *"to net"* indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

Bonds.	Bid.	Ask.	To Net.

* Flat price. *b* Basis. *d* Stamped 2½% until Dec. 1 1906.

BANKS AND TRUST COMPANIES.

Quotations in this department are given per share, not per cent, except for stocks of New York City, Brooklyn and Canadian institutions, and are as near as possible for the *closing day of the month preceding the date of issue*, though often are nominal. An asterisk (*) denotes sales. The letter (*h*) prefixed to a price indicates that the figures show the book value.

Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing-House banks of New York, Philadelphia and Boston, deposits are taken from the latest weekly statement.

ALABAMA—*Nat. banks last call Ayril 6; State institutions latest returns.*
