

### STREET RAILWAY SECTION.

A new number of our "Street Railway" section, revised to date, is sent to our subscribers to-day. The editorial discussions in the same embrace the following topics: "Street Railway Statistics," "Pleasure Traffic on Street Railways," "The Record of Alternating Current to Date."

### THE FINANCIAL SITUATION.

Precisely the same influences that attended financial affairs and security prices last week have been in evidence the current week. As a consequence the course of the Stock Exchange market has been downward, with the liquidating tendency increasingly positive, prices fluctuating, however, day by day. It has seemed as if our legislators at Washington, as the moment for separation approached, were becoming more instead of less confused as to the wisdom of the laws they have been constructing, and which must be disposed of before adjournment is possible. The windingup process appears to show as much friction as at any stage the enactments have had to pass through. Agreement on all but one or two bills has been finally reached, the two Houses being forced into a pro forma accord as to the most of them and not by any means reaching a cordial or hearty acceptance.

The trouble about the matter is that the statutes as constructed were intended to meet evils in chief part imaginary; they override the natural rights of individuals as long understood; they taboo economic truths heretofore accepted by the great body of the people, classifying as crimes the violation of any provision punishable by imprisonment. Others of these measures take possession of some of our largest industries (as, for instance, the railroad-rate law), transfer their management from the officials elected by the owners to commissioners who are made regulators of the companies' business (although having no property interest in the concerns)transfers made with the express purpose of reducing the net revenue of these organizations, notwithstanding stock in them has furnished up to this time the chief instruments for the investment of the public savings. The point of greatest concern, however, is that the country just now is about to face a period during which these high-handed laws are to be put into operation. Washington telegrams tell us in a careless, glib way that the larger the industry the earlier will it be to feel the full force of the prosecution, the more conspicuous among them and the highest and chief officials being pursued with special rigor and diligence. Indeed, if the Washington telegrams of the leading daily papers represent correctly the proceedings to be taken, officials, the companies they represent and stockholders are to be alike handled with not a little virulence.

Strange to say, amid it all we appear to have no conservative party. Here and there, to be sure, one and another leading individual speaks out in clear tones the old-time truths. There is, though, no grand general protest from any organized body of men. Even the ordinary differences between party policies no longer exist—they having been absorbed in the rivalry between political advocates of every stripe to espouse the most radical view. One spirit or State railroad commissions in reducing railroad rules all. It is dominated (1) by the head of the rates, either freight or passengers, or both combined,

Government; (2) by the king of yellow journalism; (3) by the twice-defeated apostle of a silver-standard currency. These three would seem to have formed a triple alliance. On their banner is inscribed every economic error afloat in any land. Each stands for the whole thing, the most conservative among them, as generally acknowledged at the moment, being Mr. Bryan, the old standard bearer for free-silver coinage.

As to foreign exchange, the activity in the market this week seemed to indicate that there was more or less speculative selling, presumably with the object of maintaining a low range of rates which would be favorable to the resumption of gold imports. When the fall in sight sterling to 4 8485@4 8490 was recorded on Tuesday, it was reported that tentative inquiries were being made in London having for their object the procurement of gold for import to New York. As the result of such inquiries, it appeared that the London market was not well supplied with the metal. Indeed, the advance in the market price of bars on Monday to 77s. 91/4d. per ounce-which was in response to the maintenance of the rate of 25f. 16c. for exchange at Paris on London, indicating the possibility of withdrawals of the metal by French bankersreflected a scarcity, or at least a disposition to check a movement from London.

At the same time, although it was regarded as likely that, should exchange at New York on the British capital further decline there might be imports of gold as an exchange operation, there appeared to be important obstacles which could be interposed tending to make the movement unprofitable. The device of counting the metal while in transit as part of the reserve of a national bank-which was resorted to last March and in April, until the Secretary of the Treasury intervened to facilitate gold imports through advances of Government money to the importing bank—could not be employed, it being prohibited by the Comptroller of the Currency. Again, interest rates in our market on call, though at the moment easy, were likely to become firmer, thus increasing the time-cost of an importation effected this week before the metal arrived; and it seemed clear that an effort to bring gold out from London at this time, when there was no apparent need for importations, would have the effect of further advancing the price of the metal in the London bullion market. Moreover, there existed a large unliquidated indebtedness by our bankers to those of London in the form of finance bills which should be settled instead of increasing it through imports of gold for the mere profit of the operation. Still, as next week there would be an arrival at London of about \$3,000,-000 gold from South Africa it was thought possible that some of this metal might be procured—if exchange conditions were favorable, and if obstacles to its shipment hither in the form of a premium on the metal were no greater than those now existing. On Friday a London cable announced the sale by the Bank of England of £102,000 for shipment to New York; this gold is reported to have been bought for the account of the Hanover National Bank.

In view of the action of so many State legislatures.

a move made this week to enjoin the Texas Commission from carrying into effect one of their rate-reducing orders will attract a great deal of attention. On May 30 the Texas Commission issued one of its numerous orders, this one known as "Circular No. 4," promulgating a new schedule of passenger rates on the Houston & Texas Central RR., and requiring a reduction in the rate per passenger per mile from 3 cents to 2½ cents. The reduction was to have gone into effect on July 1 but the company went before the Circuit Court of the United States for the Western District of Texas and secured a restraining order from Judge Andrew P. McCormick. In its petition to the Court the company contends that the deprivation of revenue resulting from the lowering of rates would be tantamount to confiscation, and hence that the action of the Commission is in violation of the provisions of the Federal as well as of the State Constitution.

The point was also made that one of the Commissioners was disqualified from sitting in the case because he had prejudged it, as shown by public expressions wherein he promised to reduce the passenger rates on the Houston & Texas Central. It was urged that such public expression from a commissioner who was also a candidate for the office of Governor amounted to an agreement to reduce the rate. On these allegations Judge McCormick granted the prayer of the petition. The temporary restraining order will hold good until the hearing for a permanent writ of injunction. The hearing has been set down for July 16 and the case is to come before Judge Maxey or some other Judge of the Western District of Texas. The restraining order applies only to the proposed cut in passenger rates, but the complainant asks that all of the Commission's rates, both freight and passenger (the Commission has reduced freight tariffs as well as passenger) shall be permanently enjoined upon a final hearing. The practice in this case is said to be different from that observed on former occasions. In the previous cases, and particularly the injunction case of 1899, all of the Commission's rates were set aside pending a final hearing. In this case none of the present rates are set aside but only the proposed passenger rate is held in abeyance pending a determination of the matter by the courts. It is stated in the Texas papers that all the leading Texas roads will join in the application asking perpetual injunction of the Commission's rates but not effective until final trial.

We hope the banking community will act in accordance with the suggestion made by Alfred H. Curtis of the National Bank of North America of this city, in his address last week before the Massachusetts Bankers' Association. Mr. Curtis is concerned, as are all theughtful citizens, over the harm to business interests ng from the continued hoarding of cash by the Un States Treasury—the constant absorption by the National Government of money that ought to be allowed to remain in the channels of circulation, available for the needs of industrial interests. He makes a pertinent statement when he says that every form of tax due from the people to the various States in our Union, from all the great cities, with their millions of inhabitants, from every county, town or village, on being paid to the collector is immediately redeposited in some financial institution, and finds its ducing States, Ohio, Indiana and Illinois, the men had

uses of the one who is taxed. Suppose that when the revenues are due to the City of New York, amounting to about \$200,000,000, our city officials should decide that it was not wise to trust the banks and should place this immense sum of money in a big safe and slam the door, what would happen? Mr. Curtis well says that the situation of the U.S. Government is no different in that regard from any of the State or municipal governments, and there seems no valid reason why a different course of action should be pursued with respect to its collections.

The evils growing out of the present system are also plainly pictured. In periods of stringency in the money market, the Secretary of the Treasury usually takes a train, not to Boston or to Chicago, but to New York, on a visit to Wall Street. Mr. Curtis describes what happens in the following words: "There he has an interview with certain leaders of finance, usually the same gentlemen he saw on his previous visit; but to the credit of our present Secretary it may be said that, when the necessity occurs, he is prompt to take some action which, as a rule, always helps the situation. But will we always have a Secretary who has the courage of his convictions? And then again, is it not a dangerous power to place in the hands of any one man? These periodical visits to Wall Street have an effect on some sections of the country like the waving of a red flag before a bull, and the old cry of 'Wall Street influence' is heard again."

These thoughts are in line with those often urged by us and they merit careful consideration. What is Mr. Curtis's plan for securing action to bring about a change? He makes the suggestion, which it appears to us is a good one, that the various bankers' associations throughout the country take the matter up, each association selecting one of its members to meet other carefully chosen bankers representing each one of the forty-two State bankers' associations at a meeting to be held at St. Louis a few days previous to the annual convention of the American Bankers' Association next October. Whatever this collective body or a majority of the same should agree upon, it is urged, could be laid before the national association for endorsement. With such an endorsement it would be possible to go before Congress with a demand representing the bankers of the whole United States, and which could not be charged as having emanated from any one section. This advice of Mr. Curtis should be heeded. It will not be long before the monetary problem, owing to the autumnal demand to move the crops, will again be a pressing one, and, furthermore, additional timeliness is given to the idea by the announcement yesterday afternoon that the Secretary of the Treasury has just issued a formal circular calling for the repayment of \$10,000,000 of Government deposits now held by the national banks-payment to be made on various dates from July 10 to July 20.

The labor troubles and strikes in the soft-coal regions, which have been so disturbing, promise soon to be a thing of the past. We noted a week ago the great progress that had been made in effecting adjustments with the miners in the different sections of the country -one State after another falling into line. We referred to the fact that in those three great coal-proway back into the channels of trade for the business already returned to work, and that in the Southwest

mining. deadlock still continued. It so happened that on the afternoon of the same day with the issue of our paper an agreement was reached in that State also. The basis of settlement in Michigan was the same as in the other States, namely the granting of the wage scale of 1903-the miners, however, making concessions on other points. The only section now where trouble between the miners and operators still exists is, we believe, Western Pennsylvania. Here, too, however, the difficulties are in course of adjustment. As a matter of fact, some of the strikes have already been settled. For instance, the miners along the lines of the Buffalo & Susquehanna Railroad returned to work on Monday of this week. The men in the Beech Creek region and at the mines of the Buffalo Rochester & Pittsburgh Railroad are still holding out, but a settlement is looked for at almost any moment. Probably soon after the first of July the men still on strike will vote against further prolongation of the period of idleness.

Quite a flutter in bank circles has been created this week by the issue of a circular directed to the National banks by the Comptroller of the Currency at Washington. The circular deals with the new law just enacted by Congress regulating the loans of national banks. This measure became a law on Friday last with the approval of the President. The nature of the change is familiar to our readers. We give the text of the law in our column devoted to bank items, and all that need be said here is that whereas previously the banks could make loans only to the extent of 10%of their capital, now they can loan to the amount of 10% of capital and surplus combined. There is an important proviso, however, which very materially restricts the operation of the law as a relief measure. For it is provided that though the banks may loan to the extent of 10% of capital and surplus combined, this 10% must not in any event exceed 30% of the capital alone. Take the case of the Chemical Bank which, with a capital of only \$300,000, has a surplus fund of \$7,200,000. If there were no limit to the 10% requirement, this bank could make loans up to \$750,000. With, however, the further qualification that the 10% of surplus and capital combined must not exceed 30% of the capital alone, this institution under the new law cannot make a loan in excess of \$90,000 in amount. Of course under the old law the limit was still smaller; but the fact is the condition was such an impossible one in these days of large operations that by general consent the requirement of the law in that respect was disregarded. Now, however, the banks are notified that the law as amended is to be enforced. Here is what the Comptroller of the Currency says on this point: "The officers and directors of banks are admonished that all excessive loans must be collected or reduced to the limit at the earliest possible date, and that it will be the policy of this office to enforce the law by requiring every bank, without exception, to keep its loans and discounts within the statutory limits." It is obvious that if this determination is rigidly adhered to, some very important changes will be necessary in bank circles. We give herewith the text of Comptroller Ridgely's circular in full:

TREASURY DEPARTMENT

*President:*—Inclosed is a copy of Section 5200, Revised Statutes of the United States, as amended by the Act of Congress approved June 22, 1906, relative to the limit of loans that may be made to any person, com-pany, corporation or firm by a national banking association. Under the terms of this amendment, a bank may now loan to any person, company, firm or corporation an amount equal to one-tenth part of its unimpaired capital, plus one-tenth part of its unimpaired sur-plus, but in no case shall the total of such liabilities exceed thirty per cent of the capital stock of the association. If a bank has an unimpaired surplus of less than its capital stock, it may make a loan equal to ten per cent of its capital and ten per cent of surplus.

may make a loan equal to ten per cent of its capital and ten per cent or surplus. If it has unimpaired snrplus equal to its capital stock, a loan equal to twenty per cent of capital may be made. If it has surplus in excess of its capital stock, a loan equal to ten per cent of capital and ten per cent of surplus, whatever it may be, may be made, not exceeding, however, thirty per cent of capital. In fixing the limit of liabilities for borrowed money under the law as amended, it will be necessary to deduct from surplus fund all losses in excess of net undivided profits on hand to ascertain the amount of unim-paired surplus available in determining the limit of loans. The officers and directors of banks are admonished that all excessive loans must be collected or reduced to the limit at the earliest possible date, and that it will be the policy of this office to enforce the law by re-quiring every hank, without exception, to keep its loans and discounts within the statutory limit. Respectfully, WM. B. RIDGELY, *Comptroller*.

WM. B. RIDGELY, Comptroller.

There was no change in official rates of discount by any of the European banks this week; compared with last week, unofficial, or open market, rates were steady at London,  $\frac{1}{8}$  of 1% lower at Paris and  $\frac{1}{8}$  of 1%higher at Berlin and Frankfort. The political situation in Russia does not indicate any improvement so far as this condition is reflected by the depression in Russian securities in the Continental markets.

The statement of the New York Associated Banks last week was favorable in that it showed the expected gain in cash, this item being increased by \$4,-162,100. The required reserve was augmented by \$322,550, as the result of a gain of \$1,290,200 in deposits, and the surplus reserve increased \$3,839,550 to \$10,912,925; loans decreased \$2,318,000. The bank statement of this week should reflect, among other items, the receipt of \$1,100,000 from San Francisco through Treasury transfer. It is announced that as soon as arrangements can be made the Secretary of the Treasury will deposit \$10,000,000 public funds in the San Francisco national banks, accepting as security therefor \$12,000,000 of State and municipal bonds. The \$10,000,000 above noted will be recalled by July 10 from the special depositories in New York and other cities where it was placed in March in order to relieve the tense situation which was then created through operations between the banks and the Treasury incident to the retirement of old circulation by banks which had extended their charters; upon the recall of this money it will be transferred to San Francisco.

The market for day-to-day money was comparatively easy early this week, reflecting loans of funds which had been temporarily placed with the financial institutions preparatory to their disbursement, beginning with next week, on account of interest and dividends. On Thursday and on Friday there was a slight flurry in the market, as the result of some calling of loans, but this was regarded as a natural incident of the situation. The time-loan branch of the market indicated some urgency in the inquiry for money, especially for the longer periods of maturity; and one feature was discrimination by lenders against certain classes of industrial collateral. Money on call; representing bankers' balances, loaned at the Stock Exchange during the week at 6% and at 2%; averaging about  $3\frac{1}{2}\%$ ; banks and trust companies loaned at 3% as the minimum. On Monday loans were at 3% and at 2%, with the bulk of the business at  $2\frac{3}{4}\%$ . On Tuesday transactions were at  $3\frac{1}{4}\%$ and at  $2\frac{3}{4}\%$ , with the majority at 3%. On Wednesday loans were at  $3\frac{1}{2}\%$  and at 3%, with the bulk of the business at  $3\frac{1}{4}\%$ . On Thursday transactions were at  $4\frac{1}{2}\%$  and at  $2\frac{1}{2}\%$ , with the majority at  $3\frac{3}{4}\%$ . On Friday loans were at 6% and at  $4\frac{1}{2}\%$ , with the bulk of the business at  $5\frac{1}{4}\%$ . As above noted, time loans were in somewhat urgent demand. Rates on good mixed Stock Exchange collateral were  $4\frac{1}{2}@5\%$  for sixty to ninety days, 5% for four to five,  $5\frac{1}{4}@5\frac{1}{2}\%$  for six and  $5\frac{1}{2}@5\frac{3}{4}\%$  for seven months. Commercial paper was dull, with the demand chiefly confined to the interior. Rates were  $5@5\frac{1}{2}\%$  for sixty to ninety-day endorsed bills receivable,  $5@5\frac{1}{2}\%$ for prime and  $5\frac{1}{2}@6\%$  for good four to six months' single names.

The Bank of England rate of discount remains unchanged at 31/2%. The cable reports discounts of sixty to ninety-day bank bills in London 31/8%. The open market rate at Paris is 25/8% and at Berlin and Frankfort it is 37/8@4%. According to our special cable from London, the Bank of England gained £394,-350 bullion during the week and held £37,567,502 at the close of the week. Our correspondent further advises us that the gain was due in the main to purchases of gold in the open market, although imports from Australia were of fair volume, the details of the movement into and out of the Bank being as follows: Imports, £578,000 (of which £228,000 from Australia and £350,000 bought in the open market); exports, £73,000 (wholly to South America), and shipments of £111,000 net to the interior of Great Britain.

The foreign exchange market has been active and lower this week, partly because of speculative selling and also for the reason that there was not, until Wednesday, much demand for remittance, owing to the fact that there was no fast mail steamer in the first half of the week. There seemed to be fairly liberal offerings of drafts other than finance bills, representing sterling and franc loans, the negotiation of which was encouraged by the firm rates for time money for the ninety day and six months periods. On Wednesday the declining tendency was temporarily checked by the absorption of offerings for the following day's mail, but when this requirement was satisfied rates again fell off and the market was generally heavy for the remainder of the week. There were some indications of drawings of bills by representatives in this city of foreign fire insurance companies whose adjustments of losses by the San Francisco disaster had been completed, but there were very few of the long franc bills which, as noted last week, were drawn against the early installments of the Pennsylvania loan. The decline in rates for sight exchange to points which seemed to make possible imports of gold under ordinary conditions-or without the elimination of the time-cost of the operation, through the now prohibited device of counting the metal as part of the reserve of the importing bank or through the procurement of advances from the Treasury-attracted much attention and towards the close of the week bankers were of the opinion that should exchange further decline and if gold could be obtained in London at a price not much above the normal, it might be desirable to import gold for the profit that would result therefrom. There was a rumor on Thursday afternoon that \$3,000,000 had been engaged in London for import hither, but this could not be confirmed; probably the only foundation

for the story was the fact that there would next week be an arrival of about that amount of gold in London from South Africa. On Friday it was announced from London that \$510,000 gold bars had been bought from the Bank of England for shipment to New York; rates for exchange then were low enough to afford a profit on the importation.

Nominal quotations for sterling exchange are  $4.82\frac{1}{2}$ @4 83 for sixty day and 4 851/2 @4 86 for sight. The market was dull and heavy on Saturday of last week at a decline, compared with rates on the previous day, of 5 points all around-long to 4 8225@4 8235, short to 4 8505@4 8510 and cables to 4 8535@4 8545. On Monday there was a fall of 10 points in long to 4.8220@ 4 8225, of 10 points in short to 4 8495@4 85 and of 10 points in cables to 4 8530@4 8535. On Tuesday long and short were 10 points lower, the former to 4 8210@4 8220 and the latter to 4 8485@4 8490; cables were 5 points off at 4 8525@4 8530. On Wednesday long fell 5 points to 4 8210@4 8215, short 10 points to 4 8475@4 8485 and cables 10 points to 4 8515@4 8525. On Thursday long declined 10 points to 4 82@4 8210, short 10 points to 4 8465@4 8475 and cables 15 points to 4 85@4 8510. The market was weak until toward the close, when there was a partial rally; the tone was steady on Friday.

The following shows daily posted rates for sterling exchange by some of the leading drawers:

### APATHETIC INVESTMENT MARKETS AND THE CAUSES.

There is general complaint over the sluggish condition of the investment markets. It seems to be very difficult to place new loans for large amounts, even those of the best character. Banking houses who make it a practice to finance the requirements of the railroads and other corporations, and who never fail to gauge accurately the temper of the market, are for the time being fighting shy altogether of long-term obligations. Hence, there is a return to the expedients used during the period of trade reaction and collapse in Stock Exchange values, in 1903 and 1904, and accordingly short-term loans are again coming into vogue.

The fact that the \$50,000,000 raised in this country by the Pennsylvania Railroad (before the placing of the French loan) had to be procured on short-time obligations—collateral trust notes running only eighteen months—is an extremely significant sign of the times. Furthermore, quite a number of recent bond underwritings have proved unprofitable, or at least the participants in the same have found it impossible to market their bond takings, and are left with a considerable part of the original issues still on their hands. A case in point is that of the block of \$24,000,000 bonds of the Chicago Burlington & Quincy RR., Illinois Division, sold in 1905 to a prominent banking syndicate. The bonds bear 4% interest and the proceeds went in large part to provide for maturing bond issues. They are a gilt-edged security—in fact, it would be difficult to designate anything better-and yet this underwriting, if current reports be correct, netted a considerable loss. At all events the syndicate was dissolved this week with a considerable portion of the bonds still undistributed.

Every one is concerned to know the reason for this state of things, and numerous explanations are offered, nearly all of them possessing a sub-stratum of fact; and yet practically all of them ignore some considerations of the highest importance in their bearing upon new capital flotations. Of course the country has been confronted with a similar situation many times in the past; but at least there was no obscurity as to the causes on these previous occasions. Some seek to draw a parallel with the conditions in 1903 and 1904 and there is talk of undigested securities, &c. Obviously all securities which have not found ultimate lodgment in the hands of investors must be regarded in a sense as "undigested," whatever their character. But there is manifestly a deal of difference between an undigested security of a new, untried venture or one whose standing has not yet been definitely determined, and a security of undoubted merit. The undigested securities of the 1903-04 period were largely of the former class, though later the distrust became so great that even high-grade obligations fell under the ban. On the other hand, the chief characteristic of the present period seems to be that the burdens carried by underwriting syndicates consist mainly of obligations of the very best sort, to which not a shadow of suspicion or discredit attaches.

There is another particular in which there is a complete absence of parallel with the 1903-04 era. This former period was marked and preceded by a longcontinued and tremendous shrinkage in prices on the

Stock Exchange, under which confidence in values was completely undermined,' destroying consequently, for the time being, the market for new bond issues. It should be remembered also that in this former period there was more or less reaction in general trade, and that the iron industry experienced one of the most sudden, violent and complete collapses in its entire history. At the present time everything is serene in industrial affairs. The volume of business in the iron and steel industry is unprecedented, and as far as general trade is concerned there has probably never been a time when it was more active or more prosperous. The railroads, too, are enjoying the largest tonnage and the largest earnings on record. In face of all this-in face of the creation of wealth in unexampled dimensions-there is, apparently, no demand for bonds, even of high-grade chraacter.

To what must the apparent anomaly be attributed.? As always happens on such occasions, numerous contributory causes can be assigned, but there appear to be a few of special force which lie right on the surface, and yet to which, in our estimation, not sufficient significance is being attached. Of course the hostile spirit shown against capital and against railroads and other corporate undertakings, and the new statutes which have been and are being enacted intended to fetter and restrain the activities of these all-potent agencies in the business life of the nation, are doing much to unsettle confidence. This, however, is not the matter we have chiefly in mind. There is one piece of legislation which is already an active, potent influence in affairs and which in current discussions is being almost entirely overlooked. We refer to the new laws put upon the statute books in this State which have shorn the great life insurance companies of their energies as reproductive agents in the financial markets. Formerly there was scarcely a financial undertaking of any consequence in which these big life insurance concerns did not directly or indirectly take an active part. · Many of such undertakings, indeed, were initiated by these concerns. They had large amounts of cash at command and almost unlimited resources. To have it known that one of these big companies was identified with or behind an underwriting was regarded as equivalent to an assurance of unbounded and unqualified success for the undertaking.

But now all this has been changed. The new law explicitly provides that "no such corporation shall subscribe to or participate in any underwriting of the purchase or sale of securities or property, or enter into any transaction for such purchase or sale on account of said corporation jointly with any other person, firm or corporation." We are not now concerned with the desirability or undesirability of such legislation, though our views on that point are well known. We are dealing simply with the fact itself. Furthermore, the life insurance companies are also restricted by the new law in the matter of their investments. Formerly, when banking-houses considered or undertook new capital flotations, they could go ahead with the assurance that they could find an abiding-place for the new issues, to an important extent at least, among these very life companies, and the banks and trust companies allied with or controlled by them. As an inducement for the co-operation of tions, they were all given syndicate participationsparticipations considered very desirable and in most cases yielding large profits. But, as we see, partnership with the insurance companies on the part of banking syndicates is no longer permissible, as the companies are expressly forbidden to engage in syndicate participations.

There are always adverse conditions of the money market or the security markets to be reckoned with by those undertaking to float new issues, and with the insurance companies as intermediaries it was possible to tide over periods of this kind, for these concerns were in position to hold their portions of the allotments until market conditions became more favorable; it might be a month or two months or three or four months, but whatever the period the companies and the financial institutions associated with them could carry the burden with ease and comfort. It was simply a question of waiting until times became more propitious—until opportunities for the sale of the holdings offered. Now the banking syndicates and underwriting syndicates must bear the This naturally makes them whole risk themselves. loath to engage in new underwritings, particularly at a time like the present when so many uncertainties hang over the business and financial world. Bond houses and bond dealers, on their part, are equally unwilling to load up, knowing that the support of the insurance companies is no longer present. And very naturally the spirit of caution has taken hold of the investor himself. Unless we are very much mistaken, the forced withdrawal of the insurance companies from the financial field in the way indicated means that the railroads and other borrowers will have to pay higher prices hereafter for the floating and underwriting of new capital issues.

We doubt that many persons have an adequate conception of the extent to which the financial resources available for syndicate underwriting have been curtailed through the elimination of the life insurance companies from the business. Note simply the change that has been wrought in the money holdings of the largest three of the life insurance companies, namely the Mutual Life, the Equitable Life and the New York Life. According to its report to the State Insurance Department, the Mutual Life Dec. 31 1905 held only \$9,270,513 eash in office and in bank, against \$17,973,159 at the corresponding date of the preceding year; the Equitable held only \$14,559,394, against \$22,651,666, and the New York Life held \$14,717,928, against \$17,694,109. Thus the three companies together had only \$38,547,835 of cash in bank and in office Jan. 1 1906 as against \$58,318,934 on Jan. 1 1905. But this by no means indicates the full extent of the difference. Testimony given before the Insurance Investigating Committee showed that it was the practice of the companies to reduce their cash holdings largely just before the beginning of the new year. As an illustration we may note that President Morton of the Equitable Life Company in February last stated that the bank balances of the Equitable had been reduced from an average of \$36,000,000 to an average of \$11,000,000. Here is a reduction in the case of one of the large companies alone of fully \$25,000,000. In the case of the other two large companies the change may not be quite so great and yet it is very considerable, as we have just seen. There is no object structive, changes will be evolved in conformity with

in keeping extensive balances when one cannot put the money to any good use. It must be remembered, too, that not only have the funds employed by the insurance companies themselves in this way been taken out of the field, but the other large amounts commanded by them through the ownership of trust companies and banks have also been withdrawn. This is so not alone because the insurance companies and their affiliated connections were wont to act together, but also because public opinion for the moment seems to frown upon syndicate participations even for banks and trust eompanies. Thus altogether enormous sums of money formerly available for new capital flotations are no longer available; and when one considers that these money resources were turned over times almost innumerable during the year, it can readily be seen that the loss is a very important one to the financial world and to all those who are obliged to have recourse to it.

There is still another particular in which conditions have changed to the detriment of the financial markets and the ready placing of loans. We refer to the fact that a public sentiment has been industriously fostered which seeks to divorce men of means and financial power and strength from connection with railroads and other corporate undertakings. It used to be considered evidence of wisdom and prudence to have influential names on the board of directors of a company. If the company needed advice and counsel, these men were able to give it. If it needed eash or other financial aid, they could supply the same. If they did not have the funds themselves, they knew where to apply for them. Now it is the fashion to decry men of that class. We are told that no one having even a remote connection with a company's financing should have any place upon a board or any of its committees or to take any active part in the management. According to this new doctrine members of banking-houses should not sit on the boards of directors at all, because in the event that the company succeeded in disposing of any new stock and bond issues to the banking-houses of which these directors were members, they would be sure to make a profit out of the transaction. The logic of such reasoning of course is that a director, if he be a member of a banking concern, must not think of reaping any profit out of dealings with the company, even if he subscribes millions of dollars himself and induces his clients and connections to subscribe many millions more.

Naturally, men of standing in the community have taken the hint. Some have refused to act altogether any longer in the capacity of directors, while many of those who are still exercising an influence in the management have ceased to proffer financial assistance. They do not wish to be charged with endeavoring to line their own pockets. The result is that whereas formerly when a company was in need of financial assistance, all that was required was for the executive to mention the matter at a board meeting, now it is necessary for the executive to have recourse to outside sources. In effect the corporation becomes a suppliant at the council chamber of the bankers-it appears before them like a beggar with hat in hand.

We do not doubt that, in the long run, an adjustment will take place. Where new statutes are obthe new requirements, and though the cost to the borrower may not unlikely become higher, in some way the matter will eventually work itself out and an equilibrium be restored. Similarly, when it is found that the absence of men of means from a governing board is a detriment, public sentiment will be modified, with the result that it will no longer be deemed disreputable to be known as having extended financial aid to a corporation and at the same time taken a seat on the board of directors of the company to which the loan was made, in order to see that the money was wisely and properly expended and the concern economically and carefully administered.

For the time being, however, all these are active, present disturbing agencies. When to this is added the possibility of a complete unsettlement of things in the railroad world through the passage by Congress of the new rate bill and the effort everywhere being made to harass and embarrass corporate undertakings of every kind, there would appear to be quite an array of reasons to account for the difficulties now being experienced in financing the new capital needs of railroads and other enterprises.

### RIGHT ATTACHING TO OWNERSHIP OF PROPERTY.

Five men connected with the management of ice companies have been sentenced by a court in Toledo to a \$5,000 fine and a year in the work-house, their offense being that they have been exacting extortionate prices for ice, in violation of the Valentine antitrust law, which forbids combinations in restraint of trade. In response to a supposed intimation by the Court that when the money illegally taken from consumers since the trust was formed on March 11 had been refunded, and prices had been restored to the level on that date, the mitigation of sentence as to imprisonment in the work-house might be considered, the price has dropped, we read, and an attempt is making to restore the overcharges—a process which is plainly impracticable to carry out with any accuracy.

We may admit, for the present purpose, that the Valentine law is plain and the conviction unavoidable under it; yet the case is one which may well set us seriously thinking. For however truthfully ice may be called a "necessity" in city life, it is an article of unlimited supply, because one of artificial as well as natural production. The process of making it is simple and certain, requiring no unusual facilities and subject to no unusual hazards. Ice may be produced at all seasons and in any climate. Less and less dependence is placed on the natural article, and in course of time ice-cutting on any large scale may be abandoned. That is to be determined by considerations of economy; suffice it that the article cannot be cornered and supply is as unlimited as demand can be. A short crop, as in the past winter, may find the people of a city temporarily obliged to bear high prices until they can construct new plants; but that is a penalty of their own lack of forethought. While a few men may be able to control the entire available supply for a brief time, that is only for a brief time; the article is one upon which monopoly is impossible.

In course of agitation in England about freight rates, fined ceases to be a right and converts into a wrong. a fish dealer went into print with a blunt declaration. To argue upon this would carry us too far for this occa-

for low rates and of indifference as to how the railways might be affected; they were in existence to serve the public and he did not care about them, he said—he demanded low rates. In this he rendered an unintended service by bluntly expressing the general buyer's wish to get things cheap and his indifference about the seller. The same argument might be used about fish as about freight rates, and there is no logical stopping-place, except that common carriers owe a certain (not an unlimited) duty to the public and that some limitations on the seller's liberty must be applied, as a compulsory incident of the social state, in respect to some articles of necessary consumption and naturally restricted supply.

In this Toledo case it is evidently assumed that the price on March 11 was both legal and just and any advance is illegal and extortionate. Illegal it may be, but making it so not only passes by the natural rights of property, but ignores the natural relation between supply, demand and price. Whether the convicted dealers raised their prices beyond the increased cost which a short supply imposed upon them does not appear; if they did not, the law would take no note of that; it forbids any "combination" or agreement in restraint of trade, and in so doing does not take account of financial possibilities or the contrary.

We are now in this country in course of a very earnest campaign of exposing and punishing people, especially corporations. Beginning with carrying corporations, it has extended to others, and there is nothing to keep it from extending to individuals. The movement of compulsion does not stop with subjects in respect to which monopoly exists or is possible. For years past there have been anti-compact laws leveled against insurance companies, forbidding them to agree on a schedule of rates, upon the unwarranted and unsound assumption that concurrent rates are naturally high and non-concerted action naturally tends downward. We have at this present time some State supervisors threatening that they will exclude any companies which do not pay the face of their policies in San Francisco, and one or two supervisors announcing that they will resist, to the utmost of their power, any attempt to advance rates within their States. Thus, while the law has not yet actually undertaken to prescribe insurance rates, this has been talked of, and is in the direct line of progressive interference, and a few States threaten to prohibit any advance.

All this movement—of which more instances could readily be cited—is really a movement of compulsion upon sellers. It is in human nature. Buyers and consumers always largely outnumber producers and sellers, as respects any particular commodity; and we all so naturally like to buy at the best advantage that there is a tendency for the buyers to turn their power of majority toward compelling the other side. Yet even if we waive the academic question of principle for its own sake—every one of us, rich or poor, except those supported at the public cost, is seller as well as buyer; therefore it behooves us to consider whither we are tending.

We are drifting toward a virtual assumption—and an assumption as the basis of law and court practice, too—that property beyond a limit not yet clearly defined ceases to be a right and converts into a wrong. To argue upon this would carry us too far for this occa-

### JUNE 30 1906.]

sion; suffice it that the right to own property must be treated as still acknowledged. If property cannot be used—or if it cannot be kept or sold on the owner's terms and not on the buyer's, then ownership is not full but partial; whatever one owns, he must have unabridged right to use or dispose of, subject only to the equal right of others. If this is denied, we are attacking the rights of property, since this right of use and disposal is an integral part of ownership. One who produces what the market does not want, or holds it at more than the market will pay, gets punished; the market passes him by; competition disciplines and brings him to reason. Yet what we are really driving at, without realizing the fact, is the practical proposition that the buyer, not the seller and buyer together, shall make prices; that the buyer, not by leaving the seller alone but by force of statute and court, shall compel him to sell on the buyer's terms.

This does not seem an overstatement. The great field of insurance is a very conspicuous instance, for dissatisfied buyers, instead of combining to furnish the article on what they allege are fair and practicable rates, attempt to force the existing companies. A legal contest has apparently established the right of a storekeeper to sell books at any cut prices which he chooses, if he can get the books; and there seems no doubt that he has such right as an incident of ownership. The proposition that publishers may set and try to maintain prices, and by any peaceful means may cut off the supply to any dealer who disregards such prices, has not yet been judicially established, but it is surely as clear an incident of ownership as the other. Whoever owns an article not in its nature a monopoly may put his own price on it, and may use all peaceful means to have that price maintained; this, of course, in ordinary circumstances, for some exigency which temporarily reduces the supply of a necessary, brings in another set of rules. And if any producer, from the owner of an important patented article down to the publisher of a journal, chooses for any good or bad reason, to keep his product from the hands of any person, the proposition that he has a full right to do so and the person has equal right to get it notwithstanding, by any peaceful means on either side, seems to follow as incidental to the right of ownership. Why not?

We are, we imagine, reforming things at a great rate at present; binding monopolies, depriving trusts of their powers, correcting the greed of capital, and clarifying and establishing the rights of the common people. In some degree this is true and is wholly proper. There are abuses, and they are in course of correction; but the pace is becoming too fast, and we are in danger of going too far. The practice of turning the powers of the majority to coercing one seller or set of sellers after another, so that the consumer may obtain things at what seem to him fair and are doubtless agreeable prices, is a tempting one, and is so agreeable in its apparent results that we are liable to fail to note to what it tends. After all, we must have broad and just and practicable general principles as a basis; society cannot long get on without them. Is there any principle as to property which can long endure, except that which we have attempted to lay down herein; that, aside from natural monopolies and public services which have received grants from the Commonwealth, whatever a man owns he owns absolutely;

and that the free play of competition is the only regulator which is possible in this imperfect world? The man owns his body and brain, to start with, as capital or tools for his own support and benefit; we all admit this as an inalienable right, although labor unions have been for many years in course of more and more completely alienating it. Now, after denying the full right to market labor, we are gradually denying the full right to market product; and if this goes on there is no stopping place short of breakdown by its own absurd impracticability. We may wisely pause and consider whether it is not quite time we turned back upon this path.

### LISTINGS ON THE NEW YORK STOCK EXCHANGE FOR HALF-YEAR ENDING JUNE 30 1906.

The listings on the New York Stock Exchange during the first six months of 1906, as compiled in our usual form, show in a striking fashion the deterrent effect of adverse money conditions upon the financing of enterprises, old as well as new. The extraordinary activity of general business throughout the United States, together with the state of foreign money markets, had already rendered the financing of large enterprises somewhat troublesome, when the catastrophe at San Francisco took place, bringing to a standstill numerous speculative projects, few of which, to be sure, would in any case have come to the notice of the Stock Exchange, and rendering inadvisable for the time being the undertaking of many highly respectable flotations, backed by strong Latterly the financial conditions have interests. improved, but not to an extent sufficient to produce during the late half-year the expected large listings of new American securities.

If from the amounts of bonds listed during the period under review, we deduct as unusual items the \$300,000,000 of Japanese bonds and the \$20,000,000 of New York City 4%s, we have left as representing other bond issues for new capital, etc., only 132 millions, and of this total about 79 millions were contributed by eight railroads and one industrial company. The corresponding total for the first half of 1905 was 342 million, including (and 182 million excluding) 160 million of Government-Japanese, Cuban and Mexican-and City of New York bonds; while for 1904 the aggregate, with no deductions, was 193 million; for 1903, 1151/2 million; for 1902, 157, and for 1901, 1615/8 million. The total amount of bonds of all classes added to the list during the half-year is 671 million, including the aforesaid 320 million; in 1905 the total was 642 million. The stocks representing new capital amount to 99 million, contrasting with 67, 30 and 86 million in the three years next preceding; but in this case, too, the bulk of the new issues has come from a few companies-the Great Northern, New York Central, Ch cago & North Western and the Chicago Great Western together making up 72 out of the 99 million. The total amount of stock of all kinds added to the list is 405 million but in this case the aggregate is swelled by the shares of the Interborough-Metropolitan consolidation (aggregating 112 million) and the Bethlehem Steel reorganization, the latter amounting to nearly 30 million.

Our usual compilation for ten years past follows:

For new construction, equipment and improvements the Atchison has listed about  $6\frac{1}{2}$  millions of its convertible 4% bonds of 1905, the Rock Island 5 million refunding 4s, the Minneapolis St. Paul & Sault Ste Marie (controlled by the Canadian Pacific), \$5,860,000 first consols, the Chicago & Western Indiana \$11,883,-000 consol. 4s, the M. K. & T. 31/2 million first refunding 4s and the Norfolk & Western 3 million "divisional first lien and general" 4s. The Delaware & Hudson has listed 14 million of convertible debentures, of which \$9,100,000 were used to acquire stock of the trolley roads in Albany and Schenectady and the remainder for additional equipment, the Wilkes-Barre cut-off, etc. The Southern Pacific Co. has listed 7¼ million of its 2-5-year collateral trust 4s to refund 41/2% bonds, and the Southern Pacific Railroad 75 million first refunding guaranteed 4s, 50 million of these for refunding and the remainder for "corporate purposes." Another issue of short-term obligations is seen in the 151/2 million of 5-year 41/2s of the St. Louis Memphis & Southeastern (a subsidiary of the St. Louis & San Francisco), which has employed this method of taking up constituent company bonds (never floated) and to complete its road. The Chicago Rock Island & Pacific Ry., which like the St. Louis & San Francisco is controlled by the Rock Island Co., adds to the refunding 4% bonds  $6\frac{3}{4}$ millions issued for refunding and 5 millions sold for improvements. Among the companies belonging to the Pennsylvania system we note additions as follows, chiefly for construction, improvements and new equipment: Long Island RR., 41/2 millions; Ohio Connecting, 2 millions; Pittsburgh Cincinnati Chicago & St. Louis, 1 million; Vandalia RR., 3 millions. Four outside street railway (and lighting) enterprises, namely, Manila, Buffalo, New Orleans and St. Louis companies, have brought to the list bonds to a total o  $46\frac{1}{4}$  millions.

The stock issues of leading railroads include 161/4 millions of Chicago & North Western common, sold to its stockholders to provide for extensions, equipment, etc.; 25 millions of Great Northern stock also sold to its stockholders to provide for capital requirements, and about 17 millions of New York Central stock, the proceeds of which will be used to complete the Grand Central terminal, to electrify a portion of its line, etc. The completion of the extensions of the Chicago & Great Western and the dissolution of the construction syndicates is marked by the listing of 14 millions of its preferred B stock. Substantially all of the remaining convertible bonds of the Union Pacific have been exchanged for stock, increasing the amount of share capital of that company, as listed on the Exchange, by \$6,855,000. The shares of the Manila and New Orleans trolley and light companies, which have been listed as well as the bonds, together aggregate nearly 35 millions. The United Railways Investment Co. of San Francisco, having acquired control of the Philadelphia Company of Pittsburgh (which in turn controls the trolley, gas and electric light enterprises of the last-named city), has listed \$9,400,000 common stock issued in connection with this transaction. Among the listings of miscellaneous stocks are the 77 millions share capital, common and preferred, of the Corn Products Refining Co., the recent consolidation, and the 131/4 millions of the American Pneumatic Service Co., consisting of common and preferred shares

previously dealt in only on the Boston Stock Exchange. The General Electric Co. has sold 6 millions of new stock for improvements and the United States Rubber Co. 73/4 millions for further acquisitions and the extension of its business.

### LABOR UNIONS AND FREEDOM OF CONTRACT

The attempt of the law-maker to prevent employers in hiring employees from stipulating that the employee shall not belong to a labor organization has been finally frustrated in this State. On May 25 the Court of Appeals declared unconstitutional that section of the Penal Code which attempted to make it a misdemeanor for an employer to impose a condition of that kind. The case was that of the People of the State of New York vs. Harry Marcus, and the decision affirms an order of the Appellate Division of the Supreme Court in the First Judicial Department entered last January, and to which reference was made in these columns in our issue of January 20 1906. The Appellate Division had reversed a judgment of the Court of Special Sessions, First Division, in this city, convicting the defendant Marcus of a misdemeanor lative intent in the use of the words "coerce or compel"

under Section 171a of the Penal Code. This reversal of the Trial Court the Court of Appeals sustains.

The facts leading up to the conviction were set out quite at length in the previous article to which we have referred, and a brief outline of the main features of the case must suffice on this occasion. It was charged that the defendant, Harry Marcus, on behalf of the H. Marcus Skirt Co., a corporation and an employer of labor, had compelled Hyman Scheinbaum to enter into a written agreement not to join or become a member of any labor organization as a condition of securing employment from said company and continuing in its employ. This was in direct contravention to Section 171a of the Penal Code, and the defendant pleaded guilty and was fined \$5. He paid the fine under protest and took an appeal to the Appellate Division, which, as already stated, reversed the judgment of conviction. Section 171a of the Penal Code reads as follows:

"Any person or persons, employer or employers of labor, and any person or persons of any corporation or corporations on behalf of such corporation or corporations, who shall hereafter coerce or compel any person or persons, employee or employees, laborer or mechanic, to enter into an agreement, either written or verbal from such person, persons, employee, laborer or mechanic, not to join or become a member of any labor organization, as a condition of such person or persons securing employment, or continuing in the employment of any such person or persons, employer or employers, corporation or corporations, shall be deemed guilty of a misdemeanor. The penalty for such misdemeanor shall be imprisonment in a penal institution for not more than six months or by a fine of not more than \$200, or by both such fine and imprisonment.'

The point made on behalf of Marcus was that this statute is unconstitutional in that it contravenes the 14th Amendment of the Constitution of the United States, and also that it contravenes the State Constitution by restraining the right of freedom of contract for a purpose "not calculated, intended, convenient or appropriate to protect the public health or to serve the public comfort or safety." Section 1 of the 14th Amendment of the Federal Constitution ordains that "no State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty or property without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws." By Section 1 of Article 1 of the State Constitution it is provided that "no member of this State shall be disfranchised or deprived of any of the rights or privileges secured to any citizen thereof unless by the law of the land or the judgment of his peers." And by Section 6 of the same article it is provided that no person shall be deprived of life, liberty or property without due process of law.

Judge Chase, who wrote the opinion, declares that the free and untrammeled right to contract is a part of the liberty guaranteed to every citizen by the Federal and State constitutions. Personal liberty is always subject to restraint when its exercise affects the safety, health or moral and general welfare of the public, but subject to such restraint an employer and an employee may make and enforce such contract relating to labor as they may agree upon. The legisapparent. They were not intended to refer to physical The Court in that case said that the arrangement was violence or interference with the person of the em- plainly the case of an agreement voluntarily made by ployee. There is nothing to show that there was any interference with the freedom of Scheinbaum in deciding whether he would enter into the contract with certain period of time upon certain conditions regulatthe corporation. The mandate of the statute is the ing the performance of the work to be done and resubstantial equivalent of an enactment that a person shall not make the employment or the continuance of employment conditional upon the employee not joining or becoming a member of a labor organization. The courts of this State have always recognized the right of employees and employers to organize and cooperate for any lawful purpose. Contracts for labor may be freely made with individuals or a combination of individuals, and so long as they do not interfere with public safety, health or morals they are not illegal.

The views of the court as to what constitutes freedom of contract in relation to the purchase and sale of labor and as to what contracts relating thereto are lawful and enforcible were expressed quite fully in two cases, namely National Protective Association vs. Cumming (170 N.Y., 315) and Jacobs vs. Cohen (183 N.Y., 207), and these are held to be controlling and binding in this instance. In National Protective Association vs. Cumming the doctrine was laid down that a person may refuse to work for another on any ground that he may regard as sufficient, and the employer has no right to demand a reason for it. But even if the reason is that the employee refuses to work with another who is not a member of his organization, it does not affect his right to stop work or to refuse to enter upon an employment. The converse of this is also true, and an employer of labor may refuse to employ a person who is a member of any labor organization, or he may make employment conditional upon the person employed refraining from joining or becoming a member of a labor organization. It is a well-known fact that combinations of employees and also of employers require their members to do or refrain from doing many things which they deem to their individual and combined advantage, while a person not a member of such an organization can act in accordance with the terms of such agreement as he may choose to make. A person employing labor may decide that it is to his advantage to employ only union labor and be willing to enter into an agreement necessary to secure such labor, or he may decide that it is to his advantage to employ non-union labor, in which case he may also decide that it is to his advantage to make the employment conditional upon an agreement that such employee will not join or become a member of a labor organization.

In the case of Jacobs vs. Cohen, to which reference was made in our article of Jan. 20 last, the Court of Appeals, in consonance with the foregoing views, declared entirely lawful an agreement by employers with a labor union to employ only union men. The Court held in that case that a promissory note given by employers to a labor union of their employees as liquidated damages for violation by the employers of an agreement with the union whereby its members bound themselves to give their services for a certain period to the employers, and the latter agreed not to retain or employ any one not in good standing in the union, was a valid instrument. Such an agreement,

in the section of the Penal Code referred to is quite it was declared, was not violative of any public policy. an employer with his workmen. This agreement bound the latter to give their skilled services for a stricting the class of workmen which should be engaged upon it. The Court reasoned, in sustaining the validity of that agreement, that an employer should be unquestionably free to enter into such a contract with his workmen. True, it might operate to prevent some persons from being employed by the firm, or possibly from remaining in the firm's employment; but that was an incidental feature. Its restrictions were not of an oppressive nature operating generally in the community to prevent such craftsmen from obtaining employment and from earning their livelihood.

> So in the present case that freedom to contract which entitles an employer to place his business wholly within the control of the labor union entitles him, if he so desires, to require of his employees that they be wholly independent of any labor union. It remains to be said that in this reasoning of Judge Chase all his associates with only one exception, namely Edward T. Bartlett, concurred. In other words, Chief Judge Cullen and Judges Gray, Haight, Vann and Willard Bartlett all join in the opinion and judgment of the Court.

#### ITEMS ABOUT BANKS, BANKERS AND TRUST CO.'S.

-The public sales of bank stocks this week were limited to 50 shares of stock of the American Exchange National Bank sold at auction at 250, and 10 shares of National Bank of Commerce stock sold at the Stock Exchange at 183. The transactions in trust company stocks aggregate 170 shares and include 1651/2 shares of stock of the Bowling Green Trust Co. sold at 2421/2-an advance of 241/2 points as compared with the last previous sale in May.

-The Mutual Life Insurance Company has disposed of its holdings of stock (1,000 shares) in the Bank of America, this city, an offer above the market price having been made The stock, we understand, has been purchased for the same. by William H. Perkins, President of the bank. The statement that the Mutual has sold its holdings of Lawyers' Mortgage Company stock is, we are positive, incorrect.

-President Roosevelt on the 22d inst. approved the bill lately passed by both branches of the Congress amending the National Banking Law governing the extent to which banks may loan. As heretofore noted, the bill permits the banks to loan to 10% of capital and surplus combined (instead of to only 10% of capital as formerly), such loans, however, not to exceed 30% of the capital stock. The bill, in full, is as follows:

In 1ull, 18 as follows: An Act to Amend section fifty-two hundred, Revised Statutes of the United States, relating to national banks. Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section fifty-two hundred of the Revised Statutes of the United States be, and the same is hereby, amended to read as follows: "Section 5200. The total liabilities to any association, of any person, or of any company, corporation or firm for money borrowed, including in the liabilities of a company or firm the liabilities of the several mem-hers thercof, shall at no time exceed one-tenth part of the amount of the capital stock of such associations, actually paid in and unimpaired and one-tenth part of its unimpaired surplus fund; *Provided*, however, That the total of such liabilities shall in no event exceed thirty per centum of the capital stock of fuch association. But the discount of bills of exchange drawn in good faith against actually existing values, and the discount of commercial or business paper actually owned by the person negotiating the same shall not be considered as money borrowed." Approved June 22, 1906.

A circular issued to the banks by Comptroller Ridgely with regard to the enforcement of the new law is referred to in a paragraph in our article on "The Financial Situation."

-The Broadway Bank of Brooklyn has declared a semiannual dividend of 7%, payable July 2, an increase in the amount from 6% paid each half-yearly period since July 1903.

-The directors of the Importers' & Traders' National Bank of this city have definitely decided to erect a new building on the site at present occupied by the bank, corner of Murray Street and Broadway. J. H. Freedlander of 244 Fifth Avenue is the New York architect chosen to draw up the plans. As noted in these columns May 12, the bank's new home will be six stories high and have a total floor space of 15,000 square feet, or 2,500 on each floor.

-John Alvin Young, Vice-President and active head of the Windsor Trust Company of this city, was elected President on Wednesday, to fill the vacancy existing since the death, in May 1905, of Justice Charles H. Van Brunt.

-Plans are under way for the purchase of the Williamsburgh Trust Company by the Jenkins Trust Company of Brooklyn Borough. In circulars issued to the stockholders regarding the terms of the absorption, it is stated that the Williamsburgh Trust, which has a capital of \$700,000 and surplus of \$445,000, will declare a cash dividend of 28%, reducing its surplus to \$350,000; the Jenkins Trust will increase its capital from \$500,000 to \$1,200,000, and its surplus from \$300,000 to \$650,000, and will give its new capital in exchange for the stock of the Williamsburgh Trust Company.

—Alexandre Weill, one of the members of the banking firm of Lazard Freres, died in Europe on the 24th inst.

-Robert B. Armstrong, President of the Casualty Company of America, New York, and formerly Assistant Secretary of the Treasury, has consented to deliver an address at the convention next week (July 5 and 6) of the New York State Bankers' Association, to be held at Hotel Champlain, Bluff Point, N. Y. David H. Pierson, Chairman of the Committee of Arrangements, announces that Mr. Armstrong will take the place of J. A. S. Pollard of Fort Madison, Iowa, who finds it necessary to withdraw his acceptance of an invitation to address the delegates.

—The Dealers' Bank of Brooklyn Borough was formally taken over by the Union Bank on the 22nd inst., the stockholders of the respective banks on that day having ratified the plan for the merger of the two. The price paid for the stock of the Dealers' Bank (which becomes the Dealers' Branch of the Union) is said to be \$180 per \$100 share. The Union Bank also lately took over the Market Branch of the People's Trust, and the business of this branch is to be transferred to the Dealers' Branch.

-The matter of placing the Old National Bank of Providence in voluntary liquidation will be acted upon by the stockholders on July 20. Control of the bank was recently obtained by the Industrial Trust Company of Providence.

-The Merchants' National Bank of Providence, R. I., in its statement for June 18, shows deposits of \$4,060,620, comparing with \$3,839,445 on April 6 last and \$3,975,701 on April 24 1905. The bank, which was established in 1818 and became a national institution in 1865, has a capital of \$1,000,000. The surplus and profits, now amounting to \$619,819, have increased from \$584,798 since the April call of the Comptroller of the Currency. The management consists of Royal C. Taft, President; Samuel R. Dorranee, Vice-President; Moses J. Barber, Cashier, and Frank A. Greene, Assistant Cashier.

-The fiftieth anniversary of the Manufacturers' & Traders' National Bank of Buffalo occurred on Tuesday, the 26th inst., and was marked by the distribution to the stockholders of a dividend of 20% in addition to the regular quarterly dividend of 3%. Organized as the Manufacturers' & Traders' Bank, with \$200,000 capital, articles of association were filed on June 26 1856. Shortly after the eapital was increased to \$500,000, and subsequently the amount beeame \$900,000; in March of 1902 the eapital was raised to the present figure of \$1,000,000, and at about the same time the bank was converted to the national system. In May of 1902 it absorbed the Merchants' National Bank of Buffalo.

Throughout the fifty years of its existence the Manufacturers' & Traders has had but three Presidents. The present executive, Robert L. Fryer, was chosen to the office in 1901, upon the resignation of Pascal P. Pratt, one of the founders of the institution, whose death occurred a year ago. The payment of dividends was commenced by the bank in 1860, and, exclusive of the amount declared this week, total dividends of \$3,052,031 have been paid. Besides the capital of \$1,000,-000, the institution also has a surplus of the same amount and undivided profits of over \$400,000.

--The directors of the Germantown Trust Company of Philadelphia have elected John Gates, formerly Title and Trust Officer, to the post of Second Vice-President; William T. Murphy, Secretary and Treasurer, has been elected Third Vice-President; and E. T. Tingley has been chosen Assistant Treasurer.

-The statement published by the Philadelphia National Bank of Philadelphia for June 18 1906 indicates a material increase in its business. The deposits are now reported at \$37,030,979, as against \$30,751,410 for April 6 1906, while aggregate resources foot up \$42,399,220, as against \$36,-124,601.

-John B. Parsons, President of the Philadelphia Rapid Transit Company, has been elected a director of the Tradesmen's National Bank of Philadelphia.

-A charter has been issued to the Republic Trust Company of Philadelphia, which is to have a capital of \$200,000 and surplus of \$50,000. The institution will locate on Chestnut Street, and is expected to begin business in the fall. Its projectors are John Williams, Joseph S. Williams, Samuel A. Kensil, Thomas Allen, W. W. Colliday, William H. Hensel and George C. Allen.

-The subject of uniform bills of lading, discussed by William Ingle, Cashier of the Merchants' National Bank of Baltimore, under the title of "The Questionable Value as Collateral of 'Order' Bills of Lading," was one of the principal topics on the program at the convention of the Maryland Bankers' Association, which opened at Ocean City on the 19th inst. Mr. Ingle spoke at length on the matter, pointing out the defects of the present methods. In suggesting a remedy he stated that "uniform State legislation would be most helpful, but most difficult to secure, for the reason that in many sections the use of the bill of lading has not, under present conditions, become common enough to enlist much attention, while in other directions attempts would be made to cover local conditions to the prejudice of the larger matters. By far the greater value in such bills," he said, "pertains to inter-State commerce," and he contends that the only way in which to obtain practical results is through the enactment of a Federal law applying alike to the entire country. "Such a law," he added, "to be effective must be framed upon lines to be suggested by its proposed beneficiaries, the shippers and the banks upon which they depend." A resolution in which the American Bankers' Association was urged to devise a plan for a uniform bill of lading was adopted by the Association. B. Howell Griswold Jr., of Alexander Brown & Sons of Baltimore, gave an extended discussion of "The Torrens Land System" at the convention; Prof. George E. Allen, of the New York University, spoke on "Financial Education," and John V. L. Findlay, of Baltimore, devoted his remarks to "Greater Baltimore."

-It is reported that the Cleveland Trust Company of Cleveland, Ohio, has secured a controlling interest in the Pioneer Savings & Trust Company of Painesville, capital \$50,000.

-The proposed Citizens' Savings Bank & Trust Company of Hamilton, Ohio, is to be under the management of Henry Rentschler, President; Allen Andrews, Vice-President; W. G. Huber, Secretary; G. A. Rentschler, Treasurer, and Charles I. Anderson, Cashier. The institution is to have a capital of \$100,000.

-H. M. Merriam has become Cashier of the Illinois National Bank of Springfield, Ill., succeeding B. R. Hieronymus, who has advanced to the vice-presidency. John Hartmann replaces Mr. Merriam as Cashier.

-The Englewood State Bank of Chicago, which commenced business on November 4, 1905, taking over the private banking business of C. H. Vehmeyer, has declared a first dividend of  $1\frac{1}{2}\%$ , payable July 1. The directors have also voted to transfer to surplus on July 1 the sum of \$10,000, increasing that item to \$20,000. The bank has a capital of \$200,000, and undivided profits of \$5,000.

At the convention of the Minnesota Bankers' Association, held at Lake Minnetonka on the 20th and 21st inst., a resolution was adopted favoring the enactment of a law compelling all private banks to incorporate as either State or national institutions. President E. S. Lacey of the Bankers' National Bank of Chicago and ex-Comptroller of the Currency was among the speakers at the meeting. There was also a debate between the Minneapolis and St. Paul chapters of the Ameriean Institute of Bank Clerks, in which the Minneapolis Chapter was the successful contestant. The retiring Secretary, Joseph Chapman Jr. (Cashier of the Northwestern National Bank of Minneapolis), who had held the office since 1899, and had declined re-election because of the demands upon his time as a member of the executive council of the American Bankers' Association and as a trustee of the American Institute of Bank Clerks, was presented with a silver loving-cup, the presentation being made by the new President, W. E. Lee of Long Prairie, in behalf of the bankers of the State. Ernest C. Brown, Assistant Cashier of the First National Bank of Minneapolis, has succeeded Mr. Chapman as Secretary of the association.

-The Burnes National Bank of St. Joseph, Mo., which commenced business within the present year, already has deposits of over a million dollars, its statement of June 18 reporting total deposits \$1,404,888, of which \$50,000 represents United States deposits. The aggregate resources are \$1,713,275. The capital, paid in, is \$200,000, and there are undivided profits of \$8,390. L. C. Burnes is President; James H. McCord, J. A. Johnston and James N. Burnes are Vice-Presidents, and George A. Nelson is Cashier.

—James B. Brown has been elected Cashier of the First National Bank of Louisville, Ky., to succeed J. B. Lewman, who resigned to become identified with the Columbia Finance & Trust Company.

-The capital of the First National Bank of Richmond, Va., will be increased from \$600,000 to \$1,000,000 by the issuance of 4,000 new shares, which will be disposed of to the present shareholders at par—\$100. The stockholders will meet on July 26 to vote on the proposition.

—The payment of the final 10% due the depositors of the defunct Merchants' Trust Company of Memphis, Tenn., has been authorized. This dividend brings the total amount returned to the depositors up to the full 100%, and besides this the stockholders, it is said, will receive about 40% of their holdings. The company suspended on Dec. 27 last.

-E. W. Hughes and B. A. Hagood, receivers of the Columbian Banking & Trust Company of Charleston, S. C., have been authorized to pay to the creditors of the institution a dividend of 25%. The concern, which had a capital of \$50,000, made an assignment in February.

-The Exchange National Bank, recently organized in Montgomery to take over the commercial accounts of the Union Bank & Trust Company, is to begin operations July 1. With the opening of the new bank the trust company will confine itself solely to a savings bank and trust business. The Exchange National has a capital of \$300,000 and surplus of \$75,000, and will be under the management of Michael Cody, President; Joseph Norwood, Vice-President, and Sylvain Baum, Cashier. All of these officials hold similar offices in the Union Bank & Trust. While President Cody will be the presiding officer in both institutions, Messrs. Norwood and Baum, it is expected, will be identified only with the bank.

—The officials of the American Exchange National Bank of Dallas, Texas, are the incorporators of a new Dallas institution, to be organized as the Commercial Bank & Trust Company, with a capital of \$150,000.

-The Scandinavian American Bank of Scattle, Wash., is completing arrangements for the opening of a branch at Tacoma. George H. Tarbell will have charge of the Tacoma office. The bank has for some time past operated a branch at Ballard, Wash. DEBT STATEMENT MAY 31 1906.

The following statements of the public debt and Treasury cash holdings of the United States are made up from official figures issued May 31 1906. For statement of April 30 1906 see issue of May 19 1906, page 1134; that of May 31 1905, see June 24 1905, page 2601.

see issue of May 19 1906, page 1134; that of May 31 1905, see June 24 1905, page 2601.

### MonetaryFCommercialEnglishNews

#### [From our own Correspondent.]

### London, Saturday, June 16 1906.

Business has continued throughout the week as inactive as it has been for a month or more now, and according to all present appearances it is likely to continue inactive for some time yet. Nevertheless there has been a new issue this week of Irish land stock, amounting to seven millions sterling. It has been applied for nine or ten times over and has surprised everybody by the greatness of its success. The stock, it is true, is very attractive. Being guaranteed by the Imperial Government, it has the same security as consols, and though it bears interest at  $2\frac{3}{4}\frac{4}{0}$ , it is issued at so low a price that practically it gives the applicant  $3\frac{6}{0}$  on his money. It is not surprising, therefore, that it has been a marked success.

Moreover, the Bank of England is rapidly gaining strength. In the week ended Wednesday night its reserve increased by somewhat over a million and a half sterling. And yesterday the India Council set free £945,000 which had been "earmarked" to its account in the Bank of England. This sum will now be added to the Bank of England's reserve,

raising it in very little more than a week by 21/2 millions sterling. As there is no foreign competition for the gold offering in the open market, the Bank is likely to go on adding to its reserve, and therefore in [a very short time the reserve will be quite equal to what it was at this time last year. If the Bank can go on buying all the gold that offers in the open market until the end of July or the beginning of August, its reserve will be so large that the business public can look forward to the pecuniary demands of the autumn with an untroubled mind.

with an untroubled mind. The success of the Irish land stock issue and the im-proved position of the Bank of England would undoubtedly have had a very stimulating influence upon the stock mar-kets were it not for unfavorable reports respecting the grow-ing crops telegraphed from New York and the fall in securi-tics that took place in the Stock Exchange there. Another disturbing influence was the very sharp fall in Russian bonds, conceilly in the four per cents. the that took place in the stock Exchange there. Another disturbing influence was the very sharp fall in Russian bonds, especially in the four per cents. At one time on Thursday the fours fell, both in Paris and St. Petersburg, to 72. The causes of this fall are two. The first is that the new Russian loan, which bears interest at the rate of 5%, was issued at S9, giving the applicant about  $5\frac{1}{2}\%$  upon his money. The four per cents, in consequence, appeared entirely too high. They have been gradually declining in value since. This week there has been a very sharp fall, bringing them down to about the parity of the fives. The sharp fall this week was the result also of heavy selling on German account, both in Paris and in St. Petersburg. Money is very scarce and dear in Berlin. Everybody anticipates that at the end of this month there will be a scramble for money. Usually the close of the first half of the year is attended by a certain strin-gency. This year, whether rightly or wrongly, the strin-gency is expected to be very severe. Consequently, it is said that Germans who are looking ahead have been selling Russian fours on a very large scale to get command of capi-tal. Nevertheless the sharp fall did make people uneasy all over the Continent, and the uneasy feeling on the Continent checked business in London. One other cause of the inactivity in London is the report

Checked business in London. One other cause of the inactivity in London is the report that the French Government is about to issue a loan for 20 millions sterling. That the French Government will borrow is almost certain, for the expenditure largely exceeds the revenue and in some shape or other the deficit must be cov-ered; but nobody knows when the borrowing will take place nor how large it will be. In Paris and Berlin business has been nearly as slack as in London. In St. Petersburg the week has been agitated, the heavy fall in the four per cents causing alarm. causing alarm.

The general expectation is that money now will become comparatively easy. That it will not be very easy is reason-ably certain, because trade in the manufacturing districts is very active and the demands of trade are taking money in ably certain, because trade in the manufacturing districts is very active and the demands of trade are taking money in large amounts from London, and because, secondly, there is so much foreign money, particularly Japanese and French, employed in London at present that if rates were allowed to fall much there would be a danger that gold would be with-drawn and that rates then would be sent up with a bound. In all reasonable probability, then, rates will not be allowed to fall unduly. But there are good grounds for expecting, as stated above, that the Bank of England's reserve will now steadily increase, that it will reach the level of last year in a few weeks, and that before long it will become so large that the fears now entertained respecting gold shipments in the autumn will disappear. In Paris money continues as plen-tiful as ever, and it is not thought likely that even if the French Government borrows 20 millions sterling soon any gold will be withdrawn from London. In Berlin money, as already said, is exceedingly dear and scarce and is likely to become more so as the month draws to a close. But Ger-many is indebted to the rest of the world and it is doubted very much whether she can take gold from London. Still, if there were to be serious stringeney, doubtless the great banks could borrow here and thereby could obtain the gold needed. In any case, the Imperial Bank of Germany has it in its power to issue notes to any extent it pleases by pay-ing 5% upon all notes exceeding the gold held and the auit in its power to issue notes to any extent it pleases by pay-ing 5% upon all notes exceeding the gold held and the au-thorized circulation.

The India Council offered for tender on Wednesday 30 laes of drafts and the applications amounted to 313 lacs at prices ranging from 1s. 3 31-32d. to 1s. 4 1-16d. per rupee. Appli-cants for bills at 1s. 4d. and for telegraphic transfers at 1s. 4 1-32d. per rupee were allotted about 9% of the amounts applied for.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &e., compared with the last four years:

Statement of New York City Clearing House Banks .-The following statement shows the condition of the New York City Clearing House banks for the week ending June 23. It should be distinctly understood that as to all items except capital and surplus the figures are the averages of the daily results, not the totals at the end of the week. In other words, in reporting loans and deposits and holdings of specie and legal tenders, the practice is to take the aggregate of the amounts for the several days of the week and divide this aggregate by the number of days.

Wall Street, Friday Night, June 29 1906.

The Money Market and Financial Situation .- The volume of business at the Stock Exchange has been larger this week

than for some time past. Over 1,200,000 shares were traded in on Thursday and the average for the week is well above 1,100,000 shares and therefore much larger than usual at this season. This ac-tivity is chiefly due to a desire to sell stocks, however, the

tivity is chiefly due to a desire to sell stocks, however, the pressure having been almost continuously in that direction. General conditions have changed very little during the week. The estimate of a well-known expert places the winter-wheat crop as the largest on record and although it is too early to form a close estimate of the spring-wheat crop, there is no reason at present to suppose it will be below the average. Other crops are reported in good condition, so that the average. the outlook from an agricultural standpoint is highly promising

The Bank of England's weekly statement shows a con-siderable increase of loans, which is doubtless a result of the subtraction increase of loans, which is doubtless a result of the lower disocunt rate established last week, and a percentage of reserve larger than usual at this season. The local money market is somewhat firmer, a condition incident to the monthly and half-yearly settlement. At the same time foreign exchange rates are easier and very close to the point at which gold could be profitably imported. The open market rates for call loans on the Stock Ex-bage during the work on stock and colluterals have

The open market rates for call loans on the Stock Ex-change during the week on stock and bond collaterals have ranged from 2 to 6%. To-day's rates on call were  $4\frac{1}{2}@6\%$ . Prime commercial paper quoted at  $5@5\frac{1}{2}\%$  for endorse-ments and  $5@5\frac{1}{2}\%$  for best single names. The Bank of England weekly statement on Thursday showed an increase in bullion of £394,350 and the percentage of reserve to liabilities was 47.44, against 49.04 last week. The discount rate remains unchanged at  $3\frac{1}{2}\%$ . The Bank of France shows an increase of 500,000 frances in gold and a decrease of 575,000 frances in silver.

NEW YORK CITY CLEARING-HOUSE BANKS.

Less: a1-16 of 1%. d1-32 of 1%. h3-32 of 1%. Pus: k1-16 of 1%. d1-32 of 1%. y3-32 of 1%. The following were the rates for domestic exchange at New York at the undermentioned eitics to-day: Savannah buying 50c. per \$1,000 discount; selling 75c. per \$1,000 pre-mium. Charleston 12½c. per \$1,000 premium. New Or-leans bank 35c. per \$1,000 discount; commercial 60c. per \$1,000 discount. Chicago 15c. per \$1,000 premium. St. Louis 35c. per \$1,000 premium. San Francisco 30e. per \$1,000 premium. State and Bailroad Pure backs

State and Railroad Bonds.-Sales of State bonds at the Board are limited to \$55,000 Virginia 6s deferred trust receipts at 22.

The market for railway bonds has been dull and weak, the latter in sympathy with the stock market. Only a few issues could be classed as at all active. These are generally lower and include Steel 5s, Wabash debentures and Inter-borough-Metropolitan 4½s. The last two and a few less active issues are down 2 points or more. Delaware & Hudson conv. 4s have been somewhat conspicuous, and are also down 2 points. Other changes are less important.

United States Bonds .- Sales of Government bonds at the Board include \$1,500 2s reg., 1930, at  $103\frac{1}{2}$ , \$1,000 3s reg., 1908-18, at  $103\frac{3}{4}$ , \$1,000 4s coup., 1907, at  $104\frac{1}{4}$  and \$13,-500 4s coup., 1925, at  $1295\frac{1}{8}$ . The following are the daily closing quotations; for yearly range see third page following.

\* This is the price bid at the morning board; no sale was made.

Railroad and Miscellaneous Stocks .-- The stock market has again been more active, as noted above, and prices gen-erally dropped to a lower level. As a result of continued weakness a liquidating movement of considerable magnitude weakness a liquidating movement of considerable magnitude set in on Thursday, which carried practically the entire list down from 3 to 17 points. After the movement had spent its force a general recovery took place, averaging about 2 points, but liquidation was resumed to-day with even more pronounced effect in some cases, and many new low records were made. Some of the high-priced issues were notably weak, including Great Northern, which declined 21½ points, Northern Pacific, which lost 14 points, and St. Paul, Reading, Delaware & Hudson and Interborough-Metropolitan, which lost about 10 points. On the other hand, Atchison, Balti-more & Ohio, Canadian Pacific and Southern Pacific have been relatively strong. The miscellaneous and industrial list presents no unusual

been relatively strong. The miscellaneous and industrial list presents no unusual features. Anaconda Mining declined over 17 points, but was still well above the low May quotation, and partially re-covered. Amalgamated Copper and Colorado Fuel & Iron showed a loss of about 8 points, from which they substan-tially recovered. Consolidated Gas and New York Air Brake have held relatively steady. The United States Steel issues, both common and preferred, made new low records for the year and close near the lowest. For daily volume of business see page 1490. The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

Outside Market.-Continued weakness and a general de-**Outside Market**.—Continued weakness and a general de-cline in prices throughout the list have been the chief char-acteristics of the outside market this week. Business in all departments has been restricted, this being attributed in part to the action of the Stock Exchange in ruling that the transfer tax on sales must be paid at the rate of \$2 per 100 shares, even though the par value be less than \$100—a cir-cumstance which militates against shares of small denomina-tions. United Conner common dropped from 6616 to 59 shares, even though the par value be less than \$100-4 chr-cumstance which militates against shares of small denomina-tions. United Copper common dropped from  $66\frac{1}{2}$  to 59, advancing later to  $64\frac{1}{2}$  and ending the week at  $61\frac{1}{4}$ . Bos-ton Consolidated Copper sank from  $27\frac{1}{6}$  to  $24\frac{1}{8}$ , and closes at  $24\frac{3}{4}$ . Mitchell Mining lost about 2 points to  $5\frac{3}{4}$ , recov-ering to 6. Greene Consolidated Copper weakened from  $24\frac{3}{6}$  to  $23\frac{7}{8}$ , but closes at  $24\frac{1}{4}$ . Utah Copper fell from  $27\frac{1}{2}$  to  $24\frac{7}{8}$ , with a recovery to 26. Butte Coalition from  $30\frac{1}{2}$  went down to  $28\frac{1}{6}$  and reacted to  $29\frac{7}{3}$ . An incident of the week was a slump in Chicago Subway, which dropped from  $52\frac{7}{8}$  to 40 and ends the week at  $45\frac{1}{4}$ . Standard Oil was conspicuous for the heavy selling for this stock, the price falling from  $610\frac{1}{4}$  to 593, the close to-day being at 599. Mackay Companies common was decidedly weak, and from  $74\frac{7}{8}$  broke to  $70\frac{1}{4}$ , closing at  $71\frac{1}{2}$ . American Can preferred in the beginning of the week advanced from  $55\frac{1}{4}$  to  $56\frac{3}{4}$ , but closes at  $54\frac{3}{4}$ . International Mercantile Marine preferred moved down a point to  $29\frac{1}{2}$ , and closes at  $29\frac{3}{4}$ . International Salt declined from  $34\frac{3}{8}$  to  $31\frac{1}{2}$ , rallying to 33. Lehigh Valley RR, shares sank from  $77\frac{7}{8}$  to  $72\frac{3}{4}$ , but reacted to  $73\frac{1}{2}$ , ex-dividend. Outside quotations will be found on page 1490.

### RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the street railways are brought together separately on a subsequent page.

period.

a Mexican currency. b includes earnings of Gulf & Chicago Division. c includes the Houston & Texas Central and its subsidiary lines in both years. d Covers lines directly operated. c includes the Chicago & Eastern Illinois in both years. h includes earnings of Col. & South., Ft. Worth & Denver City and all affiliated lines. k Atlanta Knoxville & Northern included in both years since April 1; it had previously been included in 1905 since Jan. 1: earnings of Transylvania Railroad included from Jan. 1 1906 and of East Division of Tennessee Central from Dec. 1 in 1905 only. I Figures prior to April 10 1906 are those of the Indiana, Illinois & Iowa and Ind. Harb, of Indiana.

Latest Gross Earnings by Weeks .- In the table which follows we sum up separately the earnings for the third week of June. The table covers 42 roads and shows 14.13% increase in the aggregate over the same week last year.

Net Earnings Monthly to Latest Dates .- The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of June 23 1906. The next will appear in the issue of July 21 1906.

a Figures for the month in both years include operations of the Scranton Ry., acquired Jan. 1 1906. b Total is from March 1. c These figures are for consolidated company d These are results for main line.  $f^{4}Decrease$  in 1905 due to strike and boycott. y Figures for 1906 are in American currency; in 1905 they are Spanish silver.

Street Railway Net Earnings.—In the following we show both the gross and the net earnings to latest dates of all STREET railways from which we have been able to procure monthly returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as received, and once a month we bring together all the roads reporting, as is done to-day.

the loads reporting, as is done to-day.

-V. 81, p. 1191. (The) William Cramp & Sons Ship & Engine Building Co.

(Report for Fiscal Year ending A pril 30 1906.)

President Henry S. Grove, under date of June 20 1906, says in substance:

In substance: The following is a statement of the affairs of the company and its sub-sidiaries, including the I. P. Morris Co. and the Kensington Ship Yard Co., as well as a combined balance sheet of the same companies as of April 30 1906. In submitting this statement I wish again to call attention to the extremely unsatisfactory condition of the shipbuilding business in the United States. This condition is due to the small volume of business of fered and the number of yards competing therefor. We have been for-tunate in securing a large share of the important contracts. Entering the fiscal year under review, there were ten vessels yet in various stages of completion, of which three were for the United States Navy.

Navy.

#### Barney & Smith Car Co.

(Report for Fiscal Ycar ending March 31 1906.)

President J. D. Platt, Dayton, Ohio, June 5 1906, says:

President J. D. Platt, Dayton, Ohio, June 5 1906, says: New business for the ensuing year already on the books is largely in excess of the total business of the past year, and at satisfactory prices. The company has erected during the year large steel and cement buildings for the manufacture of all-steel freight cars, all-wood freight cars and composite (part steel and part wood) freight cars. This plant can be used also for the manufacture of steel passenger equipment as required. The area covered by these new buildings is as follows: Main building, 738 by 181 feet; paint shop, 738 by 75 feet; mill, 288 by 100 feet; storage room, 127 by 38 feet. The company has also erected a complete power plant equipment for furnishing electricity and compressed air. We also have lumber sheds, railroad tracks, &c., on this property. Our former freight shops, have been rearranged, and now form a very important and much needed addition to our passenger equipment shops. The former capacity of the whole plant was about \$5,000,000 per annum. With the additions which have now been completed, it will have a capaeity of \$10,000,000 per annum. The number of employees at present is about 3,000. The results for five years compare as below:

The results for five years compare as below:

a Includes \$68,026 increase in value of Southern Pine Timber al Milltown,

The expert accountants report:

We have audited the books for the year ending March 31 1906 and report net profit from operation of \$471,238, an increase value of South-ern pine timber at Milltown, Georgia, \$68,026, making a total for the year of \$539,264 No reduction has been made for depreciation for the reason that it has been offset by repairs and betterments, which have been charged against earnings, and which have more than main-tained the efficiency of the plant."

See bond offering on a following page and compare finan-cial plan recently carried out in V. 82, p. 694, 1042, 1158.

#### Central & South American Telegraph Company.

(Report for Fiscal Year ending Dec. 31 1905.)

The report for fiscal fear enang Dec. 31 1905.) The report for the current quarter (partly estimated) will be found on a subsequent page. President James A. Serym-ser, under date of March 23, issued a report saying: The laying of the duplicate cable between Valparaiso, Chile, and Choril-los, Peru, was completed Feb. 6. The company's lines are now dupli-cated and duplexed throughout and are provided with the latest and most approved instruments and apparatus, in view of the requirements of the growing traffic with Central and South America It is estimated that the surplus for the quarter ending March 31 1906, after providing for the usual dividend of 1½%, will be \$123,116. Following exhibits the business of the company for the past year: 1906. 1905.

### GENERAL INVESTMENT NEWS.

#### RAILROADS, INCLUDING STREET ROADS.

Alaska Central Railway.—Issue of Bonds Authorized— Construction.—The stockholders on June 15 authorized the signing of an agreement with the Tanana Construction Co. to complete the road to the Chicalon coal fields, approxi-mately 185 miles north of Seward, and the delivery therefor of \$8,500,000 bonds and a like amount of stock. Of the amount stated, \$3,500,000 is to be issued for construction work completed, which includes 46 miles in operation and the construction of seven tunnels, and considerable work on the following 60 miles. The balance is to be issued at the rate of 90% of the actual cost of the work as it progresses. rate of 90% of the actual cost of the work as it progresses. Compare report in V. 82, p. 756, 748.

Buffalo & Susquehanna RR.—Earnings for Year.—See Buffalo & Susquehanna Railway below.—V. 82, p. 1322, 627.

Buffalo & Susquehanna Railway.—Equipment Trust Bonds. N. W. Harris & Co., New York, Boston & Chicago, are offering at a price to net the investor 4.9% an issue of \$871,000 5% equipment trust bonds, dated July 1 1906, maturing \$44,000 semi-annually January 1 1907 to January 1 1912 and \$43,000 semi-annually July 1 1912 to July 1

1916. Coupons payable January and July, in New York, at the office of N. W. Harris & Co. Denomination \$1,000. United States Mortgage & Trust Co., Trustee. President F. H. Goodyear, Buffalo, N. Y., June 22 1906, writes in substance:

writes in substance: A thoroughly modern and substantial extension, now nearly completed, is being constructed by the company from Wellsville to Buffalo, a dis-fance of 86 miles, and, it is confidently believed, will be in operation on or before Sept. 1, at which time the company will control a railroad ex-tending from Buffalo, N. Y., to Sagamore, Pa., which, with its several branches, will have a mileage of 365 miles. The main line of the system extends from Buffalo (population 400,000), through agricultural and fruit-growing districts, oil-producing territory, hemlock and hard-wood forests, into the heart of the bituminous coal fields of Pennsylvania, where, through ownership of the entire capital stock of subsidiary com-paties, coal lands estimated to contain over 125,000,000 tons of coal are owned. Six mines are already in operation, which when fully de-veloped will have a capacity of 3,000,000 tons a year. The valuable terminal property of the Railway Company in Buffalo is located directly on the lake front, and adjoining the plants of the Lackawanna Steel Co. und the Buffalo & Susquehanna Iron Co. The same interests which con-rule the Railway Company are large stockholders in the Buffalo & Sus-guehanna Iron Co., the Buffalo & Susquehanna Steamship Co. and the mathematic of the Railway company of the Buffalo & Susquehanna *Railroad* (whose entire common stock, \$4,456,900, except directors' shares, is owned by the *Railway* company) for the three years ending June 30 (April, May and June 1906 being estimated): Year—

Total net income \$7,076,475 Balance, deficit \$1,895,726 Note.—For the nine months ending March 31 1906 the gross earnings compared with the corresponding period of 1904-05 increased \$851,273 and the net earnings increased \$435,265.

Call.—Notices, it is stated, have been sent to the mem-bers of the syndiacte formed to support the stock at 50, requiring them to pay 90% of their subscriptions. The syndicate, it is rumored, was organized to purchase if neces-sary not exceeding 300,000 shares of the stock, and it is supposed had accumulated nearly that amount when the decision to let the merket take over of itself was nearbed decision to let the market take care of itself was reached. The circular, it is said, states that the stocks paid for under the call are to be held untransferable.—V. 82, p. 1438, 1323.

International Traction Co., Buffalo, &c.—Listed.—The New York Stock Exchange has listed \$17,940,000 50-year 4% collateral trust coupon bonds of 1949 for \$1,000 each, the committee being empowered to add to the list from time to time before Jan. 1 1907 \$300,000 additional, making the total authorized to be listed \$18,240,000. See V. 82, p. 624.

Kanawha & Michigan Ry.—Circular from Minority Stock-holders' Committee.—George D. Mackay, Chairman of the minority stockholders' committee, has issued a letter to the stockholders describing the condition of the property in part as follows:

part as follows: I visited every portion of the road and was immensely pleased with the physical condition of every part of it from Corning to Charleston. Immense sums of money have been spent on it and the physical condition is as high as almost any Eastern line with which I am acquainted. There still remains 40 miles of road south of Charleston, running into the coal district to Gauley Bridge, which has a very light rail on it, about 60 pounds to the yard, and should be relaid at the earliest possible moment with heavier rail, not less than 90 pounds to the yard. Plans for this change to be changed from wood to steel; much of this will doubtless be done in the coming year at the cost of about \$85,000. There still remain 22 bridges to be changed from wood to steel; much of this will doubtless be done in the coming year. The estimated cost for this is about \$8,000 to each bridge. When these two large improvements are made, there will still remain some changes in alignment, for the railway has a number of short curves which wind around the bases of small hills. As the trains which are in common use to carry coal are in the neighborhood of 2,500 feet long, the necessity of straightening these short curves will easily be seen. The best thing is the outlook for increased business. The gross earn-ings have run as high as \$196,000 in one month, previous to the strike in the coal fields this spring, and I am informed will run over \$200,000 per month this summer.

The arrangement for the exchange of the minority for Hocking Valley "is being completed as far as the necessary consents of the corporations concerned can be officially obtained, and we hope to see it made public before July 1." Compare V. 82, p. 1268, 1102.

Kansas City Railway & Light Co.—Report.—The results for the year ending May 31 were:

During each year dividends of 5% on preferred stock (\$476,105) were paid. *New Director.*—Geo. W. Bacon of New York has been elected a director in place of P. A. Valentine.—V. 81, p. 1723.

Key West (Fla.) Electric Co.-Sold.-Stone & Webster of Boston have acquired the company which does the entire electric railway and lighting business of the city. All the outstanding securities will be retired and the new capitali-zation will be:

 zation will be:

 First mortgage 50-year 5% gold bonds, amount authorized \_\_\_\_\_\$1,000,000

 Present issue
 450,000

 Preferred stock 6% non-cum., to be authorized and issued \_\_\_\_\_\_\$20,000

 Stock 6% non-cum., to be authorized and issued \_\_\_\_\_\_\_\$20,000

New money will be provided to re-equip the present power station, purchase new cars and equipment, extend the lighting system, develop the gas business under the franchise owned, and put the entire property in the best operating condition.—V. 78, p. 2334.

Lehigh Valley RR.—Decision as to Preferred Stock Divi-dends.—Justice Potter in the Supreme Court on June 27 handed down a decision sustaining the Common Pleas Court No. 5, which held that the preferred stockholders are entitled to dividends at 10% per annum from Oct. 1893 to June 1904, during which no dividends were paid. Compare V. 82, p. 161.—V. 82, p. 1438, 1379.

Memphis (Tenn.) Street Ry. Co.—Bonds Offered—Status.— Isidore Newman & Son, New York and New Orleans, are offering at 101½ and interest a block of the consolidated mortgage 40-year 5% gold bonds of \$1.000 each, dated July 1 1905 and due July 1 1945. Interest payable Jan. 1

and July 1 at Central Trust Co. of New York, trustee. The company recently issued \$1,500,000 of these bonds for im-provements; of the proceeds ''\$1,000,000 has been expended during 1905 and \$500,000 will be used for improvements already approved for the year 1906." The improve-ments include additions to ear barn and shops, extensions of track and line, improvements to power house, additional ears, &c. The total issue is limited to \$10,000,000, of which \$5,594,000 is now outstanding; \$906,000 is reserved to retire Citizens' Street RR. 6% first mortgage bonds, due Jan. 1 1916, and the remaining \$3,500,000 is held in the treasury for future improvements, &e. (Compare V. 82, p. 628.)— V. 82, p. 1438. and July 1 at Central Trust Co. of New York, trustee. The V. 82, p. 1438.

V. 82, p. 1438. Mexican Central Ry., Ltd.—Rejunding Plan.—To provide for the payment at or before maturity of the three issues of notes and bonds \$29,000,000, maturing in 1907 and 1908, and for other corporate purposes, the company, under a col-lateral trust agreement dated July 2 1906, has made pro-vision to issue a series of four-year 5% gold notes of the par value of \$1,000 each, maturing July 1 1910, limited as to principal to an amount not to exceed \$35,000,000, with interest payable semi-annually on Jan. 1 and July 1, and redeemable at the option of the railway at par and accrued interest on any interest date. The trust agreement pro-vides that upon the issuance of \$33,000,000 of said notes and the cancellation of the agreements securing the aboveand the cancellation of the agreements securing the above-mentioned obligations, there will be deposited, under the terms and subject to the provisions of said trust agreement, the following securities:

	Total Executed.	Pledged Hercunder,

The new notes are to bear the coupon (\$25) maturing Jan. 1 1907 and all subsequent coupons. Holders of the above-mentioned obligations desiring to accept this offer must deposit their securities on or prior to July 16 1906 with the aforesaid firms in New York, or with Dank for Handel & Induction Deriver Devices Handelmeet to July 16 1906 with the aforesaid firms in New York, or with Bank fur Handel & Industrie, Berlin; Berliner Handelgesell-schaft, Berlin; Hope & Co., Amsterdam; J. Henry Schroder & Co., London; Swiss Bankverein, London and Basle, who will be prepared to receive the securities for the purpose of transmission to New York, to be exchanged for new notes and eash on the above basis as soon after Aug. 1 1906 as may be practicable. See alsok advertisement on another page.—V. 82, p. 1438, 628. Missouri Kansas & Tayas By Bands Ottaged H. W.

**Missouri Kansas & Texas Ry.**—Bonds Offered.—H. W. Poor & Co., New York and Boston, are offering, by an ad-vertisement on another page. at a price to yield over  $4\frac{1}{2}\%$ upon the investment, a block of the "first and refunding mortgage" 4% bonds, due 2004. The firm say:

upon the investment, a block of the "first and refunding mortgage" 4% bonds, due 2004. The firm say: The bonds are adequately secured by terminal property, track and equipment purchased with the proceeds of this issue. While there are but \$5 182,000 bonds outstanding, the issue is further secured by a first and only lien on \$10,000,000 of rolling stock, which, the mortgage pro-vides, must be kept in the highest condition of efficiency. In addition the bonds are a second mortgage on 600 miles of road bearing a first mortgage debt of only \$20,000 per mile. By the recent sale of \$10,000, 000 general mortgage  $4\frac{1}{2}\%$  bonds (V, 82, p. 692, 334) there has been an additional contribution to the property in cash of nearly equal to the whole amount of "first and refunding" 4% bonds outstanding. The bonds are listed on the New York Stock Exchange and have an international mar-ket, being payable in New York, London, Berlin or Paris. Payment of Car Trusts.—The company has retired, from the proceeds of the aforesaid bonds all of its \$4,000,000 car trusts with the exception of a small amount (at last accounts \$220,000) to provide for which it has deposited with the trustee cash to the full amount of principal and interest to maturity.—V. 82, p. 1323, 1269. New Orleans Railway & Light Co.—Official Statement on Subsequent Pages.—The New York Stock Exchange , as stated last week, has listed this company's outstanding bonds and stock, namely \$13,643,000 general mortgage  $4\frac{1}{2}\%$ bonds of 1935, \$10,000,000 5% non-cumulative preferred stock and \$20,000,000 common stock. On subsequent pages of this issue of the "Chronicle" will be found the official state-ment made to the Exchange, only slightly abridged, describ-

ment made to the Exchange, only slightly abridged, describ- Exchange.-V. 82, p. 1213, 988.

ing at length the company's securities and financial condition and reporting its earnings and balance sheet.-1438, 925.

1438, 925.
New York Ontario & Western Ry.—Annual Dividend.— The directors on June 27 declared a dividend of 2% upon the common stock "out of the earnings for the year ending June 30," payable on July 30 1906 to stockholders of record on July 20 1906. In July 1905 a dividend of 1½% was paid from earnings and in January 1905 3% from accumulated surplus.—V. 81, p. 1792, 1044.
Norwich & Westerly (Electric) Ry.—Bonds Offered.— Clarence E. Thompson & Sons, New Haven and Bridgeport, offer for sale \$100,000 5% first mortgage bonds of \$1,000 each, dated March 1 1906, due March 1 1936, but redeemable at option of company at 115 and interest. Interest payable March 1 and Sept. 1 at the Thames Loan & Trust Co., Norwich. A circular says in substance:

Inc. from other sources. 35.395 Total deductions. 53,084,170Total net income.... \$4,499,946 Surplus earnings .... \$1,415,771"If the company should pay a dividend of 4% on the \$23,900,000 of S. A. L. Railway preferred stock outstanding, there would still be left a net surplus for the twelve months of \$459,771, which is equal to about 1.25% on the \$37,000,000 common stock. If the system had been operated as it should have been, at an expense ratio of 62.5%, instead of 71.3%, with the above actual gross earnings, the net surplus would have been \$2,839,015, which would have enabled the railway to pay 4% on common stock and have a balance of more than \$164,000. The first annual meeting of stockholders of the "Seaboard Company" (the holding company, which now contains in its treasury a large majority of both the preferred and common stock of the Seaboard Air Line Railway), held on June 5 1906, revealed the fact that there is still outstanding more than \$10,000,000 of the preferred and common stock of the Seaboard Air Line Railway which refused to participate in the Ryan-Blair sealing plan. Most of this \$10,000,000 of stock has been deposited with the protective committee (International Trust Co. of Md., depositary) under a five-year agreement.-V. S2, p. 1213, 806. Seaboard Company.-Earnings, & c.-See Seaboard Air

Seaboard Company.—Earnings, &c.—See Seaboard Air Line Ry. above.—V. 81, p. 778.

Tri-City Railway & Light Co., Davenport, Rock Island and East Moline,—First Dividend.—The directors have de-clared a quarterly dividend of 1½% upon the preferred stock, payable July 2 to holders of record June 27. See V. 82, p. 696, 753, 988, 1213. Reade All Sold - Machan & Convert N. W. Holmer & C.

Bonds All Sold.—Mackay & Co. and N. W. Halsey & Co., having sold all the \$6,000,000 "collateral first lien 5% bonds" advertised in our issue of May 26, have closed the syndicate account. The issue will be listed on the New York Stock

■ Wabash RR.—Offering of Equipment Bonds—Status.—The \$6,180,000 4½% equipment trust bonds which were sold to Lee, Higginson & Co. of Boston about the middle of the month are now offered for sale, through advertisement on another page, by Lee, Higginson & Co. and Clark, Dodge & Co., jointly, at prices to yield 5%. These bonds are a direct obligation of the Wabash RR. They are dated July 1 1906 and mature serially at the rate of \$309,000 each six months from Jan. 1 1907 to July 1 1916, inclusive, but all or any part are subject to redemption at 101 and interest on any interest date upon 90 days' notice. Interest payable Jan. 1 and July 1 at the office of Lee, Higginson & Co., Boston. Trustee, City Trust Co., Boston. Denomination, \$1,000 each. President F. A. Delano, under date of June 21 1906, writes: These bonds (\$6,180,000) are issued for the acquisition of 60 freight **T** Wabash RR.-Offering of Equipment Bonds-Status.-The

City Trust Co., Boston. Dehomination, \$1,000 each. President F. A. Delano, under date of June 21 1906, writes: These bonds (\$6,180,000) are issued for the acquisition of 60 freight engines of the heaviest type; 20 switch engines, of the heaviest type; 4,000 steel-underframe coal cars, 50 tons capacity each; 2,000 40-foot box cars, 40 tons capacity each. Deliveries of this rolling stock are to be made during the six months ending Dec. 31 1906. The total par value of the bonds is 90% of the cash cost of the equipment. Large expenditures from earnings have improved the condition of the property so that it is now in a position to take care of the further increased traffic which it will be called upon to handle during the coming year. The Wheeling & Lake Erie road and the Wabash-Pittsburgh Terminal, which properties the Wabash RR. controls, and which have some 560 miles of road extending from Toledo to Pittsburgh, with lake connections at Huron, Lorain and Cleveland, have developed to a point where the Wabash is beginning to realize the benefits of a large traffic in coal and iron products. In the fiscal year ending June 30 1905 the Wabash earned close to \$25,000,000 gross. In the fiscal year previous—notwith-standing the previous year was the year of the St. Louis World's Fair. In the present fiscal year the company will show upwards of \$2,000,000 over and above its operating expenses, taxes and fixed charges (rentals, coupon interest, sinking fund payments and payments for equipment.). This entire sum has been appropriated for necessary betterments and for new equipment. Before the end of 1908 annual payments on account of car trust obligations now outstanding will be reduced by the amount of \$\$40,000 per annum. I believe in normal years the raliroad will earn in excess of \$3,000,000 over and above the present fixed charges. By the end of the year practically all the important mileage will have been laid with 80 and 85-pound steel rails. The company has good terminals in all the important cities reached by the sy D. 1440, 1324.

#### INDUSTRIAL, GAS AND MISCELLANEOUS.

Allis-Chalmers Co.—Meeting July 16.—The shareholders are notified by advertisement on another page of this issue that a special meeting will be held July 16 for the following purposes:

(1) To authorize an issue of not exceeding 15,000,000 bonds, to be secured by mortgage or pledge upon the real estate and manufacturing plants now owned and hereafter acquired and all shares of stock of other corporations a majority whereof shall at any time be held by the com-pany; also to authorize the offer to both classes of stockholders of 12,000,-000 of such bonds at 80% and interest, the remainder (3,000,000) of said authorized issue of bonds to be issued at such times and for such pur-poses as may be provided in the mortgage; (2) to approve the conditional contract dated June 25 1906 with Shearson, Hammill & Co. of New York, acting on behalf of a syndicate, for the acquisition of so many of said 12,000,000 bonds as shall not be taken by the stockholders. See further particulars in V 82 p. 1440

See further particulars in V. 82, p. 1440.

See further particulars in V. 82, p. 1440. *Official Statement.*—An elaborate circular has been pre-pared showing the strong position of the company and the abundant security for the new bonds. The company, it is stated, upon the sale of \$12,000,000 of the issue and the ap-plication of their proceeds as proposed, will have over \$10,000,000 of *net* working capital, while the West Allis extensions, which it is expected will be in full operation soon after Oct. 1 next, will increase the total floor space of the company's plants from 2,463,500 square feet to 3,199,500 square feet.—V. 82, p. 1440. **Amalgamated Compare Co**—Subsidiary Increases Dividend

Amalgamated Copper Co.—Subsidiary Increases Dividend. —See Anaconda Copper Mining below. Report.—See "Annual Reports" on a preceding page.— V. 82, p. 1373, 1320.

American Hard Bubber Co.

American Hard Rubber Co., New York.—*Capital Stock.*— This company was incorporated at Albany in 1898 with \$2,500,000 capital stock (V. 66, p. 809). In June 1905 the Hard Rubber Co. of America was organized by the same interests with \$7,500,000 of authorized capital stock

of which \$2,500,000 was 8% cumulative preferred and \$5,000,000 common stock. The new company has passed out of existence by merger with the American and the American Hard Rubber Company's capitalization has been increased to the amounts above shown for the Hard Rubber Co. of America. At auction on March 21 1906 fifty-seven shares of the preferred, par \$100, were sold at 80, and 114 shares of the common at 55. President, Fritz Achelis; Secretary, E. W. Belcher; Treasurer, Wm. W. Weitling. Office, No. 9 Mercer Street, New York City.—V 74, p. 153.

American River Electric Co. of California.-Bonds Offered. -Status.—E. H. Rollins & Sons, Boston, &c., in offering at 101 and interest a block of the first mortgage 5% sinking fund 30-year gold bonds of \$1,000 each, dated July 1 1903 and due July 1 1933 (interest payable Jan. 1 and July 1 in San Francisco, Union Trust Co. of San Francisco, trustee), or in brief. say in brief:

San Francisco, Union Trust Co. of San Francisco, trustee), say in brief:
Capitalization: Capital stock, par \$50, \$2,500,000. Bonds authorized, \$1,000,000; bonds issued, \$654,000. The remaining \$346,000 unissued bonds may only be issued for improvements and then only when the net earnings are twice the interest on all bonds outstanding and proposed to be issued. The sinking fund will retire about 80% of the bonds before maturity. Earnings for calendar year 1905: Gross, \$114,353; expenses, including insurance and taxes, \$32,618; net, \$81,735; total interest charges, \$25,685; balance, surplus, \$56,60.
Has been doing a growing business for two years and supplies electricity for lighting in Placerville and about half the current consumed in Stockton; also sells electric power to railroads, mines, gold dredges and other concerns under long-term contracts. The company's power house is situated at Placerville, on the American River in El Dorado County, Cal, and it has the exclusive right to use all of the water flowing in the American River at its intake dam, situated about 7 miles above this power house, with which it is connected by a flume and ditch 7 miles in length; watershed of about 294 square miles. Power house is of concrete; main generating units two Westinghouse 1,500 K. W. generators, driven by double Pelton wheels; total present capacity of generating machinery, 4,000 horse power, which can be increased by 1,500 horse power at comparatively small expense. Three separate transmission lines run from the power house, one to Stockton, 80 miles; one to Folsom, 30 miles; and one supplying the lights in Placerville, distant 4 miles from the power house, a total of 114 miles now in service. A new transmission line is now under construction form Folsom to a point near Sacramento, and thence to Stockton, to cost about \$60,000, and will give the company a double transmission line which will insure against the suspension of service due to accidents. The proceeds of these \$150,000 bonds is to

tive.-V. 77, p. 1295; V. 81, p. 1102. **American Screw Co., Providence, R. I.**-Dividend In-creased.-A quarterly dividend of 2% and an extra dividend of  $\frac{1}{2}$ % has been declared, payable on June 30 to holders of record on June 20. In June 1905 the annual dividend rate was raised from 4% to 6%, and along with the distri-bution of 1 $\frac{1}{2}$ % paid Sept. 30 there was distributed an extra dividend of one-half of 1%; also a dividend of 2% and one extra of  $\frac{1}{2}$ % was paid on Dec. 30. In March last 2% was paid. The capital stock is \$3,250,000, in \$100 shares. Dividend Record 1888 to 1905. '88.'89.'90.'91.'92.'93.'94.'95.'96.'97.'98.'99.'00.'01.'02.'03.'04.'05. American Sugar Refining Co.—Brooklyn Cooperage Co.— See that company below.—V. 82, p. 1324.

Anaconda Copper Mining Co.—Dividend Increased.—This company, a majority of whose \$30,000,000 stock is owned by the Amalgamated Copper Co., has declared a quarterly dividend of \$1'37½ a share (par \$25), payable July 18 to holders of record July 7. In January last a dividend of 87½ cents was paid and in April \$1 12½. The present declaration is at the rate of 22% per annum, contrasting with: with:

Calendar year ..... 1898. 1899. 1900. 1901. 1902. 1903. 1904. 1905. Total dividend (%) 10 13 16 13 4 4 4 8

Dividends in 1905 were: May 18, 75 cents, and Oct. 19, \$1 25. See report under Amalgamated Copper Co. on an-other page of this issue and in V. 82, p. 1373.—V. 82, p. 1153, 754.

Atlanta (Ga.) Steel Hoop Co.-New Plant-Mortgage. This company's new steel plant has been placed in full opera-tion. A mortgage was recently made to the Trust Co. of Georgia, as trustee, to seeure an issue of \$400,000 bonds.

Georgia, as trustee, to secure an issue of \$400,000 bonds. The company started in business in 1901 and has produced hitherto hoops, cotton ties, bars, bands and light steel rails, its total annual ca-pacity in 1905 being reported as 20,000 tons. The new plant includes two 35-ton open-hearth steel furnaces, Morgan rod mill, numerous wire nail machines, &c. The site and plant are said to have cost over \$1,000,-000, according to descriptive article in the "Manufacturers' Record" of Baltimore for June 14 1906. S. T. Weyman is President and G. W Conners Secretary and Treasurer.

Battimore for June 14 1906. S. 1. Weyman is President and G. W Conners Secretary and Treasurer. **Barney & Smith Car Co.**, **Dayton**, **Ohio**.—Bonds Offered.— P. J. Goodhart & Co., Cincinnati and New York, are offering at 102½% a block of the \$2,000,000 first mortgage 30-year 5% gold bonds of \$1,000 each, to be dated July 1 1906, due July 1 1936, redeemable at any interest period at 110%; interest July 1 and Jan. 1. A circular says in substance: Capital Stock: \$2,500,000 8% cumulative preferred stock and \$2,000,-000 common stock. Incorporated May 31 1892 under the laws of West Virginia, and acquired the entire property of the Barney & Smith Manu-facturing Co., of Dayton, Ohio, established in 1849. Manufactures passenger, parlor, sleeping, dining, freight of all kinds, both wood and steel, or part wood and part steel, coal, refrigerator and other cars, and also car wheels and castings. The property covers 53 acres of ground at Dayton, Ohio. The buildings, 68 in number, are of stone and brick. A new modern steel car plant has been built during the last year, and the first cars were completed in January. The investment in timber land, saw milks, etc., in Georgia will supply the company with yellow pine for years to come. In 1849 the total output was two cars. The present capacity is from 25 to 35 freight cars per day, and the passenger car capacity is from 40 to 50 cars a month. In the Jyear 1900 1,800 men were employed and at the present time about 3,000

are on the pay-roll. The output for the year ended March 31 1906 was about \$5,000,000, as against \$2,000,000 in 1893, and with the added capacity of the new steel car plant the prospects for the present fiscal year are for a much larger volume of business. The net profits for the past five years have averaged over \$450,000 per annum. President, James D. Platt; Vice-President, A. M. Kittredge; Superintendent, H. M. Estabrook; Secretary-Treasurer, J. F. Kiefaber.

*Report.*—See "Annual Reports" on a preceding page and compare V. 82, p. 694, 989, 1042, 1158.

compare V. 82, p. 694, 989, 1042, 1158.
Bethlehem Steel Corporation.—Listed.—The New York Stock Exchange has listed \$14,908,000 7% non-cumulative preferred stock and \$14,862,000 common stock; also \$3,500,-000 first extension mortgage 5% guaranteed sinking fund coupon bonds of 1926 for \$1,000 each, the committee being empowered to add from time to time, before Jan. 1 1907, \$8,500,000 additional, making the total amount authorized to be listed \$12,000,000. See V. 82, p. 1039, 1050. New Officers.—At the annual meeting on June 27, General Superintendent Archibald Johnstone was elected Vice-President to succeed E. M. Mellvain, and H. S. Snyder, formerly Secretary and Treasurer, was made Second Vice-President in place of A. E. Borie. B. H. Jones, Auditor, was promoted to the office of Treasurer and Secretary. E. G. Grace was elected General Superintendent. Charles M. Schwab is President and Chairman of the board.—V. 82, p. 1050, 1039. p. 1050, 1039.

Blue Ridge Knitting Co., Hagerstown, Md.—Bonds.— This company has made a mortgage to secure 6% 10-year first mortgage gold bonds, of which \$100,000, it is said, will

first mortgage gold bonds, of which \$100,000, it is said, will be issued.
Stock authorized \$150,000; issued, \$125,000, all of one class; par, \$100. Bonds dated July 1 1906, due July 1 1916, but subject to call July 1 1909 at par; denomination \$1,000. Trustees, Norman Scott and Koger T. Edmonds, attorneys, and M. P. Moller. Threrest payable July 1 and Jan. 1 at Mechanics' Loan & Savings Association. No underlying bonds. Company incorporated in Maryland in 1899 to manufacture hosiery Mills at Mcchanicsburg Pa., and Hagerstown, Md. President, Jacob Boessner, Secretary and Treasurer, S. H. Weihenmayer.
Boston Wharf Co.—Dividend.—A regular semi-annual dividend of 71/2% (\$1 50 per share) is payable to-day (June 30) to stockholders of record June 23. The same rate was paid in 1905. Compare V. 82, p. 1441.
Brooklym (N. Y.) Cooperage Co.—Status.—This company, which, it is understood, has passed under the control of American Sugar Refining Co. (V. 82, p. 571), held its last annual meeting Dec. 30 1905, and on Feb. 8 1906 filed the following with the Massachusetts authorities: Assets (\$2,600,603)—Land, bldgs. & machinery.\$100,000

**Cambria Steel Co.**—*Official Statement.*—Chairman Effingham B. Morris has kindly revised the following:

fingham B. Morris has kindly revised the following:
It is desired to spend at least \$5,000,000 in betterments and extensions before any dividend increase is considered. These expenditures will cover all parts of the plant, so that each department may be balanced in proper relation to the other. If during the next two years earnings should increase so phenomenally as to warrant an increased dividend, after paying for these expenditures, it would, of course, be considered, but it is the first wish of the managers to put and keep the plant in proper condition. It is proposed to build the eighth blast furnace at Johnstown, costing \$1,000,000; additions to the water plant will cost \$2,000,000. Other improvements will cost another \$2,000,000. It is understood that of the required \$5,000,000 about \$3,000,000 cash is now in bank. These expenditures will be made out of earnings.—V. 82, p. 689.

Chicago Edison Co.-Report.-The results for the year ending March 31 were:

This company and its ally, the Commonwealth Electric Co., have announced a reduction in rates for electric light to take effect on July 1, averaging, it is said, 11.8% as compared with the rates for 1905, and making the total reduction as compared with 1904, 25.4%.

biold with the latest 1904, 25.4%.
Clinton (Ia.) Sugar Refining Co.—New Enterprise Controlled by National Candy Co.—This company was incorporated in Iowa on June 7 1906 with \$1,100,000 of authorized capital stock, of which \$500,000 is to be 7% cumulative preferred, to manufacture glucose, grape sugar, starch and resulting by-products, such as corn oil, oil cake, &c. The capital stock, except a very few shares held by directors, will be owned by the National Candy Co. of St. Louis (V. 80, p. 1062, &c.), heretofore a customer of the Corn Products Refining interests. The \$600,000 common stock is all outstanding; no preferred issued as yet; par, \$100. A mortgage has been made to the Mississippi Valley Trust Co. of St. Louis, as trustee, to secure an issue of \$400,000 of 6% gold bonds.
Bonds dated June 1 1906, due June 1 1916, subject to call at any interest period at 102½. Interest Dec. 1 and June 1 at Clinton, Ia. Sinking fund \$10,000 yearly, beginning Dec. 31 1907. These bonds are not guaranteed by the National Candy Co. He plant will be located on the Mississippi River and several railroads. It will be of brick, mill construction, capacity about 8,000 bushels of corn per day, and is expected to be in operation by the end of the year. President, O. H. Peckham; Vice-Pres., V. L. Rice; Sec., A. J. Walter; Treas., I. D. Seward; Gen. Man, A. H. Kersting, formerly Vice-President of the Warner Sugar Refining Co., the stock of which was recently acquired by the Corn Products Refining Co.

Rates.—See Chicago Edison Co. above.—V. 82, p. 1441. **Consolidated Electric Light Co., Portland, Me.**—Change in Control—Hydro-Electric Plant.—A syndicate including A. B. Leach & Co. of New York and several Maine capi-talists, it is understood, have arranged to acquire control of this company on the basis of \$600,000 for the \$500,000 capital, and, it is said, will acquire for \$500,000 all the outstanding bonds (V. 82, p. 1214). Carl P. Dennett, of Portland, who negotiated the purchase, is quoted as saying: We propose to build a modern power plant within 18 miles of Portland on the Saco River, at a cost of something over \$500,000. We propose also to bring into Portland 3,000 additional electric horse-power for commercial purposes. We have not purchased the Portland Electric Co., although we are in negotiation for it. we are in negotiation for it. The directors of the Consolidated Electric Light Co., in a

circular recommending the shareholders to sell, say in substance:

A proposition has been made for the purchase of the stock at the rate of \$12 per share (par \$10), provided there be deposited in the Portland National Bank a majority of all the stock on or before noon of June 29 1906. Further deposits of stock may be made up to July 20 1906. Payment for the stock will be nade on or before Aug. 15 1906. Stock-holders depositing stock will receive the July 1906 dividend.—V. 82, p. 1214.

**Consolidated Indiana Coal Co.**—*Listed.*—The New York Stock Exchange has listed \$2,500,000 first mortgage 30-year sinking fund 5% bonds of 1935 (see V. 80, p. 2401, 2623), guaranteed as follows:

guaranteed as tollows: "For a valuable consideration, the receipt whereof is hereby acknowl-edged, the Chicago Rock Island & Pacific Ry. Co. hereby guarantees to the holders of the coupons attached to the within bond, or, if said bond be registered as to interest as well as to principal, to the registered holder of said bond, due and punctual payment of the interest payable upon the within bond according to its tenor and effect. In witness whereof, said company has executed this guaranty. (Signed.) - V. S2, p. 454. **Corona (Cal.) Power & Water Co.**—*Guaranteed Bonds.*— In offering a block of the first mortgage gold 6% bonds at 92 and interest, the Merchants' Trust Co. of Los Angeles, last February, said:

last February, said:

last February, said:
Capital stock, \$250,000. Bonds authorized, \$250,000; outstanding, \$220,000, dated Feb. 28 1903, due March 1 1923, denomination \$1,000. Non-optional. Interest payable March 1 and Sept. 1 at Los Angeles Trust Co., Los Angeles, Cal., trustee. Secured by a first mortgage on 3,162 acres of water-bearing hand in Riverside County, a modern steam and electric power plant of 600 horse-power, several inles of power-transmission lines, and pumping stations operated from the central power plant. Guaranteed, both principal and interest, by the Temescal Water Co., to which corporation the property was sold by the Corona Power & Water Co., and the guarantee is secured by a second mortgage on all the property of the Temescal Water Co. The first mort. (6%) bonds, \$20,000 being due and payable in 1907, and \$20,000 a, are serial bonds, \$20,000 being due and payable in 1907, and \$20,000 ayear for the next succeeding four years, then \$25,000 a year for the next ten years. In 1921 the bonds of the Corona Power & Water Co. will be a first lien, not only on the original property, but upon the entire system of the Temescal Water Co. as well. (Temescal interest is payable Apr. and Oct.—Ed.) -V. 76, p. 754.
Delaware River Transportation Co.—Purchase—Mortgage.

Delaware River Transportation Co.-Purchase--Mortgage. Delaware River Transportation Co.—Purchase—Mortgage. —This company, incorporated in New Jersey on April 3 with \$350,000 capital stock, as successor of the Delaware River Navigation Co., operating four steamboats on the upper Delaware, recently made a mortgage to the Fidelity Trust Co. of Philadelphia, as trustee, to secure au issue of \$225,000 5% gold bonds of \$500 caeh, dated April 2 1906, all out. 5% gold bolds of \$500 chell, ditted April 2 1900, all odd. The capital stock, all of which is outstanding, consists of \$200,000 common and \$150,000 6% emmilative preferred; par of shares, \$100. The bonds will mature in annual instalments on Apr. 1 as follows: 1907, \$5,000, 1908, \$5,000, 1909, \$10, 000; 1910, \$10,000; 1911, \$15,000; 1912 to 1921 to 1921, \$15,000 verify; but subject to call on any Interest day at 105 upon 60 days' notice. Officer: President, David Van Cleat; Secretary and Treasurer, M. B. Perkins. Office, Chestnut St. Wharf, Phila-delphia. The company last year handled over 300,000 passengers. The line connects at Trenton with the electric railway for New Brunswick, Elizabeth, Newark, Jersey City and New York; at Philadelphia? with the Boston Steamship Co., the Merchants' K Miners' Transportation Co., the Ericsson Line, the Winington Line, the Balti more & Ohlo RR, and the Kanawha Dispatch. Freight is billed from Trenton and

other points on the Upper Delaware through these connections to all points East and West.

Diamond State Steel Co.—Plan Fails.—The receivers have sent out circulars to the assenting shareholders announcing the failure of the intending purchasers to consummate their plan for taking over the property. It is hoped that a

their plan for taking over the property. It is hoped that a reorganization plan can be arranged before the property is sold under order of the court.—V. 82, p. 1442. **Dominion Iron & Steel Co.**—*Report.*—The results for the fiscal year ending May 31 1906 compare with those for the 5 months ending May 31 1905 and the calendar year as follows:

 Calendar year 1904..... 124,755 9,408 134,163 643,167 Def. 509,004 Profit and loss deficit May 31 1906 was \$369,114, against def. \$1,021,709 in 1905. President Plummer is quoted as saying at the annual meeting on June 28 that no plan of reorganization is contemplated, and that he expects that the company will soon be able to resume dividends on the 7% cumulative preferred stock.—V. 81, p. 1549.

Duluth Edison Electric Co.—Dividend.—The company has declared a quarterly dividend of  $1\frac{1}{2}\%$  on its preferred stock, payable July 1 to holders of record June 25. See par-ticulars in V. 82, p. 572, 989, 1442.

**Eastern Parkway Co.**, **Brooklyn**.—*Called Bonds*.—Eleven first mortgage 5% bonds, aggregating \$2,000 (sic), have been called for redemption on July 1 at the New York Trust Co. Compare V. 79, p. 682.

Compare V. 79, p. 682. Federal Telephone Co.—Subscription Rights, &c.—The shareholders will meet July 2 to correct a mistake in the cir-cular which was cited in V. 82, p. 1442, the subscription price "per portion" having been stated as \$166 75, whereas \$1,667 50 is the correct amount. This proposed sale of the remaining assets to a syndicate (to which the shareholders are allowed to subscribe) will be made at a price just sufficient to pay the outstanding debts, so that the stockholders who do not take part in the syndicate will, it is stated, receive nothing in the liquidation. A circular issued by Secretary and Treasurer James B. Hoge on June 21 says in part: Upon the completion of Mr. Brailey's contract, the Federal Telephone Co. will owe approximately \$1,667,500, payment of which must be pro-vided for in installments at the times indicated in circular letter of June 15. Unless the stockholders join in the proposed underwriting, it will be necessary to dispose of the retained securities in the open market, which it is believed would materially lessen the amount that would be realized. Compare V. 82, p. 1442, 1271. Furnace Creek Copper Co., Cal.—Stock.—Of this com-

Furnace Creek Copper Co., Cal.—Stock.—Of this com-pany's capital stock, authorized issue \$1,250,000, \$500,000 has recently been sold for betterments and improvements. The company's new machinery was put in operation June 20. The stock, we are informed, is dealt in at New York, Boston, Spokane, Los Angeles and San Francisco, but it is not listed, as erroneously reported to the "Chronicle."—V. 82, p. 1215.

Globe-Wernicke Co.—Increase in Common Stock—Stock Dividend.—The stockholders on June 26 ratified the increase in the common stock from \$1,500,000 to \$2,500,000. Of the new stock, \$500,000, it is reported, will be issued as a stock dividend of 33 1-3% to the holders of the outstanding common stock, the remaining \$500,000 to be held for future purposes.—V. 82, p. 1272. Illinois Brick Co.—Dividend Passed.—The directors on

June 26 decided to declare no dividend at the present time. June 26 decided to deciare no dividend at the present time. This is the result of increased competition and the cutting of prices. A circular signed by President Prussing, showing the present status, will be issued next week. See National Brick Co., V. 82, p. 933.—V. 82, p. 390, 337. Iowa Light, Heat & Power Co., Des Moines.—Sold.—At the adjourned forcelosure sale at Des Moines on June 20 the property was bid in by L G. Bounds, one of the boudholders

property was bid in by J. G. Rounds, one of the bondholders, for \$13,540. Compare V. 81, p. 1852.

Lehigh Coal & Navigation Co.-Petition to Increase Minimum Selling Price.—A paper has recently been circulated among the stockholders petitioning the voting trustees to raise the minimum selling price of the property from \$135 a share to \$200. One of the trustees heartily favors such a change. Sold.-

-The sale of the Tamaqua & Lansford Street Ry. as a Sold.—The sale of the Tamaqua & Lansford Street Ry. as a part of the consolidation of street railway, electric light and gas properties in and around Pottsville, Pa., under the name of the Eastern Pennsylvania Railways, was noted in the "Chronicle" last week. The Lehigh Coal & Navigation Co., it is reported, will receive for its holdings in cash all it origi-nally paid and in addition \$500,000 in securities of the new consolidated company.—V. 82, p. 1044, 566.

Lehigh-Northampton Gas & Electric Co. of Catasauqua, Pa.—Forcelosure.—The People's Bank of Wilkes-Barre, as trustee for the bondholders, on June 20 filed a bill in equity against the Lehigh-Northampton Co. and its controlled properties—the Lehigh County Electric Co.; the People's Gas Co. of Lehigh Co.; the Northampton Co. Electric Co., and the Consumer's Gas Co. of Northampton Co.—to foreelose the several mortgages made in 1900, aggre-gating \$250,000. A. N. Ulrich is now receiver. Com-pare V. 80, p. 166; V. 71, p. 33. Mankato (Minn.) Gas & Electric Light Co.—Bonds Offered.

Mankato (Minn.) Gas & Electric Light Co.—Bonds Offered. —Mason, Lewis & Co., Boston, Chicago and Philadelphia, recently offered at par and interest \$50,000 "consolidated and refunding mortgage" 5% gold bonds. A circular says:

Dated Nov. 1 1905; maturing Nov. 1 1935; optional upon any interest day at 105 and interest on 60 days' notice. Denomination \$1,000. In-terest payable May 1 and Nov. 1 at the First Trust & Savings Bank, Chicago, trustee. Financial Statement: Capital stock, \$150,000. Bonds: total authorized issue, \$400,000; reserved to retire underlying lien (V. 70, p. 1098), \$200,000; reserved for future benefits, \$150,000; now issued, \$50,000. Earnings for year ending Jan. 31 1906; Gross, \$97,698; net, \$26,570; interest charges, 1905, \$10,000; surplus, \$16,570. Based upon the present carnings, the net earnings for the year ending Nov. 1 1906 will be in excess of \$30,000. The interest charges for the corresponding year will be \$12,500, leaving a surplus in excess of \$17,500. The city has a population of about 15,000, and is located in the midst of Minnesota's best wheat section. Compare V. 70, p. 1098.

Merchants' Refrigerating Co., Kansas City, Mo.—Bonds Offered.—The H. P. Wright Investment Co., Kansas City, Mo., is offering at par and interest by advertisement on an-other page a block of the \$200,000 first mortgage 6% bonds dated Oct. 30 1905 and due Oct. 30 1920 but optional after 1907 at 1021/2. Capital stock \$300,000; not compiler for 1005. \$12,847

Capital stock, \$300,000; net earnings for 1905, \$43,847. Net earnings for first 5 months 1905, \$27,183; interest on bonds for same period, \$5,000. President J. E. Brady under date of June 11 writes:

President J. E. Brady under date of June 11 writes: This bond issue was made necessary by the demand both for cold stor-age and for pipe-line refrigeration in the district covered by the company's franchise. It was thought better to build a large new plant with capacity ample for many years rather than to make additions to the old plant, which for a number of months has been loaded continuously to its abso-lute limit. We have been supplying refrigeration to customers for nearly three years in the territory covered by our pipe system, and we are now supplying in that district about 98% of the entire refrigeration used, having replaced the use of ice almost entirely. Our present warehouse at 550-552 Walnut St, contains cold storage rooms which we rent for the storage of all sorts of perishable produce. This warehouse is filled at all times. We have also contracted for all of the available space in our new five-story cold storage warehouse on Third and Wyandotte streets, be-ginning as soon as we are prepared to furnish service, which will be not later than Oct. 1 next. (This new warehouse, it is stated, is being built under a 25-year lease and will cost about \$150,000. It contains 1,200,000 cubic feet of cold storage.—Ed.) Our new power plant has a capacity of three times the present requirements. Both warehouses are as nearly freproof as can reasonably be made and our power plant is supposed to be absolutely fireproof. A full line of insurance is carried and deposited with the Pioneer Trust Co., assigned for the benefit of the bondholders, Our franchise runs until 1932 and covers the district bounded by the Missouri River, the State Line, 23rd St, and Troost Are.; we pay the city 2% of our gross revenue from pipe line service as a franchise tax. Our distributing system contains about 8 miles of underground pipes.—V. 82, p. 573. p. 573

Mexican Petroleum Co.-New Stock.-The shareholders, it is announced, were recently offered the right to subscribe for  $8\frac{1}{8}$  additional capital stock, in other words, \$406,250, on the basis of  $81\frac{1}{4}$  shares of the new stock for each 1,000 shares owned. The stock was to be taken at par (one dollar per share), 10% to be paid with the subscription and the rest when needed; probably 25% every 60 days, thereafter until paid for. Compare V. 79, p. 788.

Mexican Telegraph Co.—Quarterly.—The results for the quarter and the six months ending June 30 (partly estimated) compare as follows:

3 mos.	Gross.	Net.	Mex.Gov.	Dividends.	Bal., sur.
1906 (est.	) \$193,500	\$165,500	\$7,500	$(2\frac{1}{2}\%)$ \$71,747	\$86,253
1905 (est.	$)_{}$ 154,500	127.500	6,000	$(2\frac{1}{2}\%)47,815$	73,685
6 month	8.				
1906 (est.	$)_{}$ \$377,500	\$322,000	\$15,000	(5%)\$119,562	\$187,438
1905 (est.	$)_{} 326,600$	275,600	12,000	(5%) 95,630	167,970
Total	surplus on	June 30-1	906 (esti	mated) was \$2,	193,734.
Report	.—See a pr	eceding p	age V.	82, p. 1382, 1	104.
	-			-	

Michigan State Telephone Co.-Listed.-The New York Stock Exchange has listed \$3,500,000 common stock voting trust certificates, \$5,653,000 first mortgage 20-year 5% bonds of 1924 for \$1,000 and \$500 each and \$2,285,000 6% cumulative preferred stock. Compare V. 82, p. 1382, 1378.

Mishawaka (Ind.) Woolen Manufacturing Co.—Sale.-See United States Rubber Co. below.—V. 82, p. 573.

National Candy Co., St. Louis.—New Subsidiary.—S Clinton (Ia.) Sugar Refining Co. above.—V. 80, p. 1061. -See

National Carbon Co.-Dividends on Common Stock.-The directors have declared a dividend of 1% on the common stock, payable July 14 to stockholders of record July 3.

On Jan. 15 1906 2% was paid and on April 14 1%, making 4% thus far declared for the calendar year, or 2% on account of the fiscal year com-mencing Feb. 1 last. In 1905 3% was paid, viz.,  $1\frac{14}{3}$ % each in January and July, being the only previous dividends. No regular periods are men-tioned in making distributions on the common stock, but the fact that the dividend paid in January 1906 was understood to be a semi-annual one and two dividends of 1% each have been declared at quarterly inter-vals since, seems to indicate a policy of paying quarterly dividends, the present rate being 4%, ----V. 82, p. 1326, 508.

National Gas & Electric Co. of Detroit.-Mr. Bioren a Director.—John S. Bioren has been elected a dierctor to rep-rcsent the interests of the newly-issued 1S-months con-vertible gold notes recently purchased by Bioren & Co. and Townsend Whelen & Co., both of Philadelphia. See V. 82, p. 1382.

National Refining Co., Cleveland.-New Stock.-The shareholders of this independent oil company are to vote to-day (June 30) on increasing the capital stock from \$2,000,000 to \$5,000,000, viz.: the common stock from \$750,000 to \$2,000,000 and the preferred from \$1,250,000 to \$3,000,000. Compare V. 80, p. 716, V. 73, p. 960.

Ohio & Indiana Consolidated Natural & Illuminating Gas **Co.**—All in Default but only one in Receiver's Hands.—The Fort Wayne (Ind.) Gas Co., as stated last week, was on June 21 ordered to be turned over to Henry C. Paul of Fort Wayne, as receiver, the interest due Jan. 1 on its \$2,000,000 bonds being in default. All the other subsidiary companies have defaulted on interest payments, but our impression that they were in receivers' hands was incorrect.—V. 82, p. 1443 p. 1443.

Osceola Consolidated Mining Co .- Dividend Increased .-

Osceola Consolidated Mining Co.—Dividend Increased.— The company on June 25 declared a seni-annual dividend of \$6 per \$25 share, payable July 27 to holders of record July 5. On Jan. 31 1906 \$4 per share was paid.—V. 82, p. 513; V. 81, p. 1853. **Peoria (III.) Gas & Electric Light Co.**—Change in Control. —The interest of John R. Walsh in this property, including a majority of the \$2,500,000 capital stock, has been purchased at a price said to be 60 cents on the dollar, by a syndicate represented by Hodenpyl, Walbridge & Co. of New York. Possession will be taken about July 1. Compare V. 79, p. 216.—V. 82, p. 51. **Portland (Me.) Electric Light Co**—Ontion

**Portland** (Me.) Electric Light Co.—Option.—See Conse dated Electric Light Co. of Portland above.—V. 69, p. 554. -See Consoli-

**Republic Iron & Steel Co.**—*Listed.*—The New York Stock Exchange has listed \$8,625,000 5% first mortgage and col-lateral trust sinking fund bonds of 1934. The net earnings for the nine months ending March 31 1906, after deducting each month the expenditures for ordi-

nary repairs, renewals and maintenance of plants, were:

July 1905\$ 82,840   December 1905\$284,796
August 1905 199,396 January 1906 392,330
September 1905 225,121 February 1906 377,357
October 1905
November 1905 337,165
Total net earnings for 9 months\$2,623,379
Deduct

Surplus for 9 months\_\_\_\_\_\_ -V. 82, p. 1215, 1045.

Riverside (Cal.) Home Telephone & Telegraph Co.-

-v. 82, p. 1215, 1045.
Riverside (Cal.) Home Telephone & Telegraph Co.— Finances.—First mortgage 5% sinking fund gold bonds were offered last February at 85 and interest by the Mer-chants' Trust Co. of Los Angeles, which said: Bonds authorized, \$500,000; outstanding, \$215,000, dated Nov. 1 1904; due Nov. 1 1934. Denomination \$500. Interest payable May 1 and Nov. 1 at National Bank of California, Los Angeles, Cal., or First National Bank, Riverside, Cal. Trustee, Title Insurance & Trust Co., Los Angeles, Cal. Beginning Nov. 1 1909, a sinking fund out of net earnings (and before dividends upon stock) shall receive a sum annually not less than 2% of then outstanding bonded debt. Franchise dated April 9 1895, and running for 25 years, exempts the company from the payment of any percentage of its income to the city. The company is paying 4% dividends on its stock (stock authorized \$500,000; issued, \$220,000; dividends payable quarterly in March &c.
Rockwood & Co., Brooklyn, N. Y.--New Stock.—The shareholders were to meet at the office, No. 88 Wash-ington Av., Brooklyn, N. Y., June 27 1906, to vote upon a proposition to increase the capital stock from \$525,000 to \$750,000, by increasing the amount of the first preferred from 1,000 shares to 3,250 shares of the par value of \$100 each. The 'company manufactures chocolate. Wallace T. Jones is President, C. T. Pierce Secretary.

Southern States Lumber Co.—Called Bonds.—Thirty-four first mortgage bonds are payable at \$1,025 per bond, with accrued interest, at the Knickerbocker Trust Co., No. 66 Broadway, on July 1 1906.—V. 81, p. 1796.

Spring Valley Coal Co.-Called Bonds.-Fifty of the first mortgage 5% gold bonds of 1889 will be paid at the New York Trust Co. at 102½, ex-July 1 1906 coupon, on and after July 1 1906, interest ceasing on that day.—V. 81, p. 1796.

(The) Surbrug Co., Tobacco Manuf., N. Y.—Stock Offered. —T. W. Stephens & Co., 2 Wall St., are offering at par (\$100 per share) \$100,000 7% cumulative preferred stock, recently issued to provide "for the rapidly increasing business and to enable the company to discount its obligations." This stock is redeemable after 5 years at 105; preferred as to dividends and assets, but without voting power. Capitalization: Common stock \* \$200,000 referred stock \$100,000;

dends and assets, but without voting power. Capitalization: Common stock, \$200,000; preferred stock, \$100,000; bonds, none. Formed in 1895, taking over the business started by the late John R. Surbrug. Leading brands, "Golden Sceptre" smoking to-bacco (introduced nearly fifty years ago), "Arcadia" brand and "Milo" and "Arab" cigarettes, all staples. Net earnings for 1905 over \$56,000; sales for the first four and a half months of 1906 fully double the sales for the same period in 1905. Has paid dividends for many years of 6% and accumulated a surplus of \$126,000. Total Sales

Estimated gross earnings for calendar year 1906, \$125,000; estimated net earnings at least \$70,000, or double the bond-interest charge. The company's mains now cover but a com-paratively small zone of the city, and the new management is taking active and energetic steps to add to the sale of its product. Charter runs until 1945. The franchise was granted for a period of 50 years, or until 1934, and is broad and liberal in its terms, with no restrictions whatso-ever. Population 1900 (U. S. Census), 37,714; 1905 (local enumeration), 74,870; 1906, 80,000 (estimated). (The company recently succeeded to the gas plant, &c., of the Tacoma Gas & Electric Light Co. (V. 80, p. 1001), and \$441,000 of the above-mentioned bonds are reserved to re-tire at or before maturity a like amount of bonds of that company, known as "gas extension" first mortgage 5% gold bonds dated May 1 1905.—Ed.) Tamarack Mining Co.—Dividend.—A dividend of \$2 por

Tamarack Mining Co.-Dividend. -A dividend of \$2 per share has been declared, payable July 31 to stockholders of record July 2, comparing with \$3 paid on Jan. 25 last and \$2 in July 1905. The last preceding dividend was \$1 50, paid in Jan. 1904, none having been paid prior thereto since 1901.—V. 82, p. 808.

1901.—V. 82, p. 808. **Tri-State Telephone & Telegraph Co.**, Minneapolis.— Merger.—This company, incorporated under the laws of Maine in 1903 with \$6,000,000 of authorized capital stock (par value of shares \$10), of which \$5,000,000 is to be 6% non-cumulative preferred, to construct telephone lines in North and South Dakota and Minnesota, recently took over the franchises and property of the Twin-City Telephone Co. of Minneapolis and St. Paul, having arranged to acquire its stock (\$1,500,000 outstanding) by exchange, \$1,000 Twin City for \$1,167 Tri-State. The companies were closely allied, E. H. Moulton of Minneapolis

City for \$1,107 In-State. The companies were closely allied, E. H. Moulton of Minneapolis being President of both. The Twin City Company had paid 17 quarterly dividends at the rate of 7% per annum. The Tri-State Company in June 1906 had paid 12 quarterly dividends on its preferred shares. The Twin City Company had outstanding \$1,000,000 bonds (compare V. 76, p. 51); the Tri-State Company has issued no bonds. There is at present, it is stated, \$1,000,000 of the preferred stock of the Tri-State Co. out-standing; the \$1,000,000 common stock is in the hands of a trustee for some purpose. The total number of 'phones in the two cities is 20,541; with 2,500 miles of pole lines. Amalgamation for sake of economy, saving estimated by the officials at \$25,000 per year. **United Conper Co.**—*Extra Dividend*—The directors, hay-

**United Copper Co.**—*Extra Dividend*.—The directors, hav-ing previously set aside the amount necessary for the pay-ment of the regular dividends on the preferred stock during the year 1906, have declared from the profits the regular quarterly dividend of  $1\frac{1}{4}\%$  and an extra dividend of  $\frac{1}{2}\%$ on the common stock, payable July 31 1906 to stockholders of record July 20 1906.—V. 82, p. 1320, 991. United States Long Distance Telephone Co. California

**United States Long Distance Telephone Co., California.**  *—Bonds Offercd—Status.*—The Merchants Trust Co., Los Angeles, recently offered at 92 and interest a block of 5% sinking fund gold bonds, authorized issue, \$1,000,000; out-standing, \$550,000. A circular says: Dated Dec 1,1002 due lan 1,1024. Denomination \$1,000. Interest

standing, \$550,000. A circular says:
Dated Dec. 1 1903, due Jan. 1 1934. Denomination \$1,000. Interest payable Jan. 1 and July 1 at National Bank of California, 1.os Angeles, Cal., and National City Bank, New York. Trustee, Title Insurance & Trust Co., Los Angeles, Cal. From Dec. 1 1904 to June 30 1905 inclusive, gross earnings, \$37,284; operating and maintenance expenses (including taxes, \$14,308; net earnings, \$22,976; interest on outstanding (\$450,-000) bonds, \$13,125; balance, surplus, \$9,851. Two per cent of the net earnings are set aside each year, beginning Jan. 1 1909, for the redemption of the bonds. "Bonds can be redeemedfat the price of 105 and interest, or at a higher price if in the judgment of the trustee it is desirable." The company owns the lines counceting 110 towns in Southern California, It is paying a quarterly dividend at the rate of 4% per annum on its (\$500,000) pref. stock (quarterly in February, &c.) Has exclusive contracts with various home companies.

United States Rubber Co.-Purchase of Competitors.-The "Boston News Bureau" says:

Boston News Bureau" says: We are informed that the purchase of the Mishawaka Woolen Manu-facturing Co. (compare V. 82, p. 573) for the United States Rubber Co. was made through the Meyer Rubber Co., one of the subsidiary com-panies of the United States Rubber Co.; \$7,000,000 was the price paid. A suit against the leading stockholders of the Mishawaka Co. for a com-mission in negotiating the deal to the United States Co. was recently brought in Indianapolis by D. B. Shepp, Horace Rhawn and N. A. Flood of Philadelphia, to recover a commission of \$500,000 covering the sale. We understand that in the purchase of the Atlantic Rubber Shoe Co., for which \$400,000 was paid, tile to the property was taken by Assistant Treasurer McGuffog of the Rubber Goods Manufacturing Co.-V. 821 p. 1216, 1100.

United States Telephone Co., Ohio.—New Stock.—The shareholders on June 18 voted to increase the issue of com-mon stock from \$2,000,000 to \$4,000,000 and the preferred mon stock from \$2,000,000 to \$4,000,000 and the preferred stock from \$500,000 to \$1,000,000. There is now outstand-ing all the \$1,000,000 preferred and \$3,100,000 of the \$4,000,-000 common. Par value of sharcs is \$100 each, the proposal to change this having been abandoned. Bonds \$2,500,000; outstanding \$2,100,000. The stock is to be pooled for a period of five years and pending the issue of the voting trustees' certificates interim certificates for both classes of shares have been listed on the Cincinnati Stock Exchange. See V. 82, p. 1274, for recent acquisitions, which, it is said, have in operation over 17,000 telephones. *Common Stock on 3% Basis.*—The directors on June 11 de-elared a first quarterly dividend of  $\frac{34}{4}$  of 1% on the common stock, payable July 1 to holders of record June 21. This places the common stock on a 3% basis. (Compare V. 82, p. 1327.) The usual quarterly dividend of  $1\frac{12}{2}\%$  on the pre-ferred shares is payable July 10 to holders of record June 28.

ferred shares is payable July 10 to holders of record June 28. -V. 82, p. 1327.

For other investment News, see page 1504.

# Reports and Documents.

# NEW ORLEANS RAILWAY & LIGHT CO.

OFFICIAL STATEMENT TO NEW YORK STOCK EXCHANGE.

New York, May 1 1906.

New York, May 1 1906. New Orleans Railway & Light Co., a corporation duly incorporated under the laws of Louisiana, hereby makes application to have placed on the regular list of the New York Stock Exchange its \$13,643,000 par value general mortgage  $4\frac{1}{2}\%$  gold bonds for \$1,000 each, numbered 1 to 13,357, 14,886 to 14,987, 14,992 to 15,000, 27,851 to 28,000, and 28,101 to 28,125, all inclusive, and \$10,000,000 par value 5% non-cumulative preferred stock (100,000 shares), and \$20,000,000 par value common stock (200,000 shares). The total authorized amount of the capital stock, 100,000 shares being preferred stock and 200,000 being common stock, has been duly issued and is now outstanding. The preferred stock is entitled in preference and priority over the common stock to dividends at the rate of, but not exceeding, 5% per annum, such dividends being non-cumulative, and the preferred stock is entitled to no other or further share of the profits. In the event of dissolution or liquidation, the holders of the preferred stock are cutitled to be paid in full the par value of their shares, the remaining assets to be divided among the holders of the common stock. Both elasses of stock have equal voting power. Dividends of  $1\frac{1}{4}\%$  each have been paid for the quarters ending December 31 1905 and March 31 1906, on all said preferred stock. Said general mortgage  $4\frac{1}{2}\%$  gold bonds are dated July 1 1905 and mature July 1 1935, bear interest, payable semi-

ending December 31 1905 and March 31 1906, on all said preferred stock. Said general mortgage 4½% gold bonds are dated July 1 1905 and mature July 1 1935, bear interest, payable semi-annually on January 1 and July 1 in each year, and both principal and interest are payable at the office of The New York Trust Co. in the City of New York, or, at the option of the holder, at the office of the New Orleans Railway & Light Co. in the city of New Orleans, in gold coin of the United States of America of or equivalent to the present standard of weight and fineness, without deduction for any tax or taxes which the New Orleans Railway & Light Co. may be required to pay thereon or retain therefrom under any present or future law of the United States of America, or of any State, County or Municipality therein. Said bonds of the New Orleans Railway & Light Co. are seeured by a general mortgage, dated July 1 1905, made by said Company to The N. Y. Trust Co., as trustee, mortgaging, pledging and transferring all the property, real and personal, rights, titles, franchiscs, interests, privileges, immunities, rents, issues, profits, revenues and income of the Railway Co. Said bonds are coupon bonds, but they are subject to regis-tration as to principal. The transfer agent of said bonds in the city of New York is the New York Trust Co. The New Orleans Railway & Light Co. has the right to redeem any or all of the said bonds on the 1st day of January or July in any year prior to their maturity upon 60 days' notice at 105% of their par value and accrued interest. The total authorized issue of said bonds is \$30,000,000, and said bonds are issuable under Sec. 1, Article first, of mortgage as follows: Subdivision (a). To fenable 'the company to satisfy its obli-

mortgage as follows:

Subdivision (a). To lenable the company to satisfy its obli-gations and for its general corporate purposes\_\_\_\_\_\_\$15,000,000 Subdivision (b). For underlying bonds of subsidiary compa-nics\_\_\_\_\_\_\_12,814,000 Subdivision (c). For acquisitions, extensions, betterments, improvements, &c., and other lawful corporate purposes\_\_\_\_\_\_2,186,000

Total \_\_\_\_\_\$30.000.000

Of the aforesaid general mortgage bonds, the following, pursuant to provisions contained in the mortgage securing the same, have already been issued, being the bonds in respect of which application to list is herewith made:

Subdivision (a) of section 1 of article first of said mortgage\_\_\$13,357,000 Subdivision (c) of section 1 of article first of said mortgage\_\_ 286,000 Total . --\$13,643,000

The underlying bonds of the subsidiary companies re-ferred to in the foregoing table, as they now exist—\$32,000 par value in the aggregate having been retired since the execution of said general mortgage—are as follows:

Besides owning stock of the New Orleans City RR. Co. to the extent shown in the above table, the properties of the latter company are leased to the New Orleans Railway & Light Co. until December 31 1955 by instrument dated March 31 1902. The lease provides for:

(a) The guaranty by the lease provides for.
(a) The guaranty by the lease of dividends as follows on the stock of the New Orleans City RR.:
(1) Five per cent annual dividends upon the \$2,500,000 preferred stock for the term of the lease;
(2) Three-quarters of 1% annual dividends upon the \$5,000,000 common stock until January 1 1908, and 1% annually thereafter.
(b) The assumption of the payment of the principal and interest of the New Orleans City & Lake RR. Co. Consolidated 5% bonds, the New Orleans Traction Co., Limited, first mortgage 4-5% bonds, and the New Orleans Power House, Limited, first mortgage 5% bonds.

Besides owning all the stock of the New Orleans Lighting Co. and the stock of the New Orleans Gas Light Co. to the extent shown in the above table, the properties of the New Orleans Gas Light Co. are leased to the New Orleans Light-ing Co. for a term of years ending March 1 1925. The lease provides: provides:

(a) For the guaranty by the lessee of dividends at the rate of 6% per annum on the \$3,750,000 of stock of the New Orleans Gas Light Co.
(b) For the assumption of the payment of the principal and interest of the first mortgage 5% bonds of the New Orleans Gas Light Co.

The New Orleans Railway & Light Co. owns and operates directly or indirectly, by owning or controlling securities of the companies as aforesaid, the following:

Railway.—There are about 190 miles of track, occupying most of the principal streets of the city. Track extensions of about 4 miles additional are contemplated. About 500 cars are operated.

Main Station,—Occupying the entire square, bounded by Richard, Water, So. Peters and Market Streets, upon which is constructed a modern steam and electric station in which the machinery now installed and under contract approximates 25,000 h. p., one-half of which capacity is used for railway purposes and balance for supply of electric light and power for commercial service and city lighting. Baranne Station.—Located between Baronne and Dryades streets. A steam and electric plant, of a capacity approximating 6,500 h. p., used for commercial lighting and power purposes. The building also contains the executive offices of the company. Claiborne Station.—Located between No. Peters and Marigny streets on Elysian Field Avenue, occupying about half of the square. A com-bined steam and electric plant of which machinery now installed and under contract approximates 6,000 h. p. St. Charles Station.—Located between Marigny and Manderville streets on No. Peters Street. A steam and electric plant of 1,500 h. p. capacity. Nanolean then the square of the streets on No. Peters Street. A steam and electric plant of 1,500 h. p.

Napoleon Avenue Station,—Located on Napoleon Avenue and Tchoup-toulas streets. A combined steam and electric plant of over 1,000 h. p.

Capacity.
 Mapoleon Avenue Station.—Located on Napoleon Avenue and Tchoup-toulas streets.
 A combined steam and electric plant of over 1,000 h, p. apacity.
 The combined generating capacity of the above described plants is in excess of 40,000 h, p., exclusive of converting apparatus for railway and lighting purposes in such stations and in sub-stations. The two electric sub-stations have a combined capacity of 4,000 h. p. The figures respecting capacity can be greatly exceeded under overload conditions.
 Gas Plant.—A water-gas plant occupying the square bounded by adjoining squares. The generating plant has a daily capacity of 3,000,000 cubic feet per day and holders aggregating 2,000,000 cubic feet.
 Real Estate.—This includes a large number of valuable parcels of real estate situated in various parts of the city. Among these are 4 squares of ground located on Canal Street, the main street of the city. Each square comprises about 90,000 quite feet, of which area approximately one-half is occupied by car barns; 2 squares of ground on Arabella Street, on one of which is located a large car barn, the second being used for storage of cars.
 There are car houses and shops as follows: Arabella barn, magazine shops, Canal barn, Orleans barn and Marias barn. These barns have ample capacity to accommodate the rolling stock owned by the company. *Pranchises*.—The gas franchise is perpetual and is also exclusive until 1925. The electric light franchise is perpetual and is also exclusive until 1925. The electric light franchise is perpetual, and the street railway franchises are generally for from thirty to fifty years.
 Generol.—The company now supplies all the gas, electric lighting and three streets of the city. Serving at present a connected load equivalent to 500,000 16 c. p. incandescent lamps, which may be increased 50% when apparatus now on order and under construction is installed. The present and inmediately prospect

The New Orleans Railway & Light Co. was incorporated pursuant to a certain plan dated Feb. 8 1905, for the re-organization of the New Orleans Railways Co. [This plan was outlined in the "Chronicle" of February 11 1905, page 651.—Ed.] Under said plan there were deposited with The New York Security & Trust Co., as depositary, all of the outstanding bonds of the New Orleans Railways Co. except \$7,200, par value, and all of the preferred stock ex-cept 111 shares, and all of the common stock except 3 shares of said Railways Co. On June 12 1905, pursuant to said plan, the New Orleans

Shares of said Rahways Co. On June 12 1905, pursuant to said plan, the New Orleans Railway & Light Co. was organized under the laws of Lou-isiana for the period of 99 years, and, after foreelosure sale, acquired all the properties of the New Orleans Railways Co. by instrument of conveyance and deed of sale dated July 18 1905, and in consideration of such sale and transfer issued -- <u>#</u>-

99,985 shares preferred stock of a total authorized issue of 100,000 shares; 199,985 shares common stock of a total authorized issue of 200,000

199,985 shares common stock of a total authorized issue of 200,000 shares; 13,357,000 general mortgage  $4\frac{1}{2}\%$  gold bonds secured by the mort-gage aforesaid, dated July 1 1905, executed by said company to the New York Trust Co. covering the property so acquired, \$46,000 in cash.

The balance of the preferred and common stock—to-wit, 15 shares of each—were issued to the incorporators in eash for the full par value thereof, \$3,000, so that all of said stock, preferred and common, is now outstanding. In addition to the \$13,357,000 of the bonds issued as aforesaid, there were issued at the same time or subsequent thereto bonds aggregating \$2,643,000, of which \$286,000 have been sold, and the proceeds thereof, as provided in said plan of agreement and reorganization, have been applied to the expenses of the reorganization, the payment in part of the floating debt of the New Orleans Railways Co., and for additions, improvements and ex-tensions, as contemplated in the mortgage securing the same. \$2,357,000 have not yet been sold and are partly in the treasury of the New Orleans Railway & Light Co., or are hypothecated as collateral for loans to the said Company. All of the said bonds issued under the mortgages of the New Orleans Railways Co. dated July 1 and November 1 1902, except \$7,200, the holders of which did not deposit same under the plan of reorganization, together with \$3,-\$43,000 treasury bonds, which had been executed by the New Orleans Railways Co. and errified by the trustee, as well as all the balance of said bonds engraved for issue under said

Orleans Railways Co. and certified by the trustee, as well as all the balance of said bonds engraved for issue under said mortgages, have been duly canceled and cremated, and no further bonds can be issued under said mortgages dated July 1 and November 1 1902.

The balance sheet of the New Orleans Railway & Light Co. as of December 31 1905, the close of its last preceding fiscal year, is as follows: Rund England England and the

REW ORLEANS RAILWAY & LIGHT CO. By E. C. FOSTER, President.

The Committee on Stock List recommends that the above-described \$13,643,000 general mortgage  $4\frac{1}{2}$ % coupon bonds of 1935, for \$1,000 each, Nos. 1 to 13,357, inclusive, 14,886 to 14,987, inclusive, 14,992 to 15,000, inclusive, 27,851 to 28,000, inclusive, and 28,101 to 28,125, inclusive; \$10,000,-000 5% non-cumulative preferred stock and \$20,000,000 common stock be admitted to the list.

	.``	WM. V	V	HEA	TON,	Chairman.
the state of the		GEOR	GE	W.	ELY,	Secretary.

Adopted by the Governing Committee June 13 1906.

United States Steel Corporation .- Proposed Plant of Indiana Steel Co. at Gary, Ind.—See description in "Iron Trade Review" of Cleveland for June 21 and compare V. 82, p. 991, 701, 575.—V. 82, p. 1383.

p. 991, 701, 575.-V. 82, p. 1383.
Wells, Fargo Co., Express. - Dividends Increased. - The directors on Thursday declared a semi-annual dividend of 5%, payable July 16 to holders of record on July 14. This increases the annual rate to 10% per annum, contrasting with 6% and 2% extra, paid regularly since 1902. Circular. - Walter C. Stokes & Co., 66 Brodway, in a circular dated June 26, addressed to the shareholders, say: We are informed that proxies are being sought by parties who accuse us of attempting to manipulate the stock for speculative purposes. We repeat our assurance that our only purpose is to gain for ourselves and the other stockholders a larger distribution of the earnins. A person who is canvassing for proxies in the East, and pon his failure to get proxies) offering to purchase the stock itself at 0, has made the present time, although he admits that the earnings are lupwards of 30% per annum. He claims that a deal is in prospect with he Union Pacific; that it is proposed to pay the Union Pacific cash for the excusive use of that the existing surplus is necessary to enab it his plan to be carried out. We do not ask a cash distribution of the surplus, and we do not think, on the statements made, that a stock or scrip dividend sufficient to put the present stock on a 16% dividend basis is at all unreasonable.-V. 82, p. 809.

Whittier (Cal.) Home Telephone & Telegraph Co.-Status. —The Merchants' Trust Co. of Los Angeles early in the year, when offering a block of the first mortgage 5% sinking fund gold bonds at 94 and interest, reported:

Winona (Minn.) Gas Light & Coke Co.—Bonds Offered.— F. L. Fuller & Co., Cleveland, and Bartlett, Frazier & Car-rington, Chicago, are offering at par and interest \$275,000 first mortgage 5% 20-year gold bonds, dated July 1 1905, due July 1 1925, but subject to call on and after July 1 1915 at 105 and interest. Denomination \$1,000c\*. Interest payable Jan. and July at the Cleveland Trust Co., trustee, Cleveland, or its fiscal agency in New York City. A cir-cular says in substance:

Cleveland, or its fiscal agency in New York City. A cir-cular says in substance: Capitalization—Stock, authorized and issued, \$300,000 (par of shares, \$100). Bonds, authorized, \$300,000 in treasury, \$25,000: outstanding, \$275,000. Or-ganized under laws of Minnesota in July 1905 as successor of Winona Gas Co., which had exclusive control of the gas business in Winona. Present franchise, granted in May 1904 for 25 years, permits the company to charge for gas \$2 per 1,000 cubic feet. The company now has 240,000 cubic feet holder capacity and more than 25 miles of mains. The gross output of gas for the year ending May 1 1906 was 27,190,719 cubic feet, with the benefit of the increased capacity and extended main service, only since April 1 1906. Gross earnings for five years ending May 1: 1902, \$36,082; 1903, \$42,080; 1904, \$43,217; 1905, \$45,318; 1906, \$43,245. With prices of gas established, voluntarily at \$1 50 per 1,000 cubic feet for light and \$1 25 per 1,000 cubic feet for fuel and power, and a market for all of its coke available at \$6 per ton n summer to \$7 per ton in winter, the company expects for the year ending, \$30,240; bond interest, \$13,750; surplus, \$16,490. After July 1 1910 10% of the net earnings must go into a cumulative sinking fund, the bonds to be purchased at not to exceed 105, or selected by lot and declared due at 105 and interest. The city in 1900 had a ponulation of 19,714, but a census recently taken gives a population of over 23,000. Directors: W. B. Parsons, Winona, Minn., is President; H. E. Mann, Cleveland, Ohio, Vice-President; C. A. Boalt, Winona, Minn., Secretary and Treasurer; F. P. Frazier, Chicago, Ill.; M. S. Greenough, C. W. Fuller, Esq., and F. L. Fuller, Cleve-land Ohio.

—H. W. Poor & Company, New York and Boston, are offering to investors in our advertising pages Missouri Kansas & Texas Railway Co. first and refunding mortgage 4% bonds due 2004, at a price to yield over 4½% upon the in-vestment. These bonds are secured by terminal property, track and equipment purchased with the proceeds of this issue. The bonds are listed on the New York Stock Ex-change and have an international market, being payable in New York, London, Berlin and Paris. For further de-tails see page 0000 in to-day's issue. Messrs. Poor & Co. will furnish special circular and quote price upon request. —The New York accounting firm of Wilkinson Beckitt.

will furnish special circular and quote price upon request. —The New York accounting firm of Wilkinson, Reckitt, Williams & Co., 52 Broadway, announces that Harold Benington, A. C. A., William Aitken Milligan, C. P. A., and Albert Warren Rugg, C. P. A., have been admitted into its partnership. The firm name will remain unchanged, George Wilkinson and Ernest Reckitt continuing as senior members. The concern has a specially organized department for con-ducting bank examinations. This department is under the management of a former National Bank Examiner. Its Philadelphia offices are located in the Stephen Girard Bldg. and the Chicago offices in the Marquette Bldg. —The New York Stock Exchange house of Ball & Whicher

-The New York Stock Exchange house of Ball & Whicher, whose main offices are at 111 Broadway, have this week opened a branch at Sheepshead Bay. The firm's new office is conveniently located at the Sheepshead Bay Club and is under the management of Mr. Robert Morison.

-William H. Flagg, formerly of Flagg & Worcester, which partnership has expired by limitation, announces the removal of his office on the 21st inst. to 44 Pine Street, this city. Mr. Flagg deals in bonds and guaranteed stocks. city.

-A voluntary petition in bankruptcy has been filed by S. A. Kean of Chicago, dealer in municipal and corporate bonds. Mr. Kean was President of S. A. Kean & Co., which assigned in 1890.

-Geo. Eustis & Co., Mercantile Library Building, Cin-cinnati, are distributing copies of the hand-book issued by the Finance Publishing Co., entitled "Cincinnati Securities."

# The Commercial Times.

#### COMMERCIAL EPITOME.

Friday Night, June 29 1906.

While sales of some commodities have diminished, as usual at the beginning of the warm season, the state of trade in this country is still good. Manufacturers in a number of industries have sold their production ahead for some little time to come. The grain crops on the whole seem promising and the labor situation has noticeably improved. Speculation almost everywhere is quiet. Prices, taken as a whole, are well maintained.

LARD on the spot has been in light demand; Western 8.85@8.871/2c. and City 8.621/2c. Refined lard has been dull with the trade mostly supplied by deliveries on old contracts; refined Continent 9.20c., South American 934@10c., Brazil in kegs 10.75@11c. The speculation in lard futures at the West has been active with prices irregular. On the whole, however, the trend of prices has been downward, owing to reactions in the grain markets, larger receipts of live hogs, liquidation and a lessened demand from commission houses.

PORK on the spot has been dull and steady; mess \$17@ \$17 50 for old and \$18@\$18 75 for new; clear \$16 75@\$18 75, family \$18@\$19. Cut meats have ruled steady with trade light; pickled shoulders 8¼c., pickled hams 12c. and pickled bellies, 14@10 lbs., 11@121/2c. Beef has been dull and steady; mess \$8@\$8 50, flank \$8 50, packet \$9 50@\$10, family \$10 50@\$11, extra India mess \$15@\$15 50. Tallow has been dull and steady; City 47/8@5c. Stearines have been dull and lower; oleo 834@914c., lard 101%c. Butter has been fairly active and steady; Western extras 201/2@21c. Cheese has been in fair demand and firm; State factory, fancy, 11c. Eggs have been quiet and steady; Western firsts 17c.

OIL Cotton seed has ruled steady with the trading light. OIL Cotton seed has ruled steady with the trading light. Prime summer yellow 36@37c. and prime winter yellow 40@41c. Linseed oil has been steady with a better jobbing trade; City, raw, American seed, 39@40c.; boiled 40@41c.; raw, Calcutta seed, 68c. Lard, prime, 70@72c. Olive, yellow, 56@60c.; green  $58\frac{1}{2}@60c$ . Cocoanut, Cochin,  $7\frac{3}{4}$ @8c.; Ceylon  $7@7\frac{1}{2}c$ . Cod, domestic, 35@36c.; New-foundland 38@40c.

COFFEE on the spot has been more active and firmer for Brazil grades; Rio No. 7,  $7\frac{3}{4}$ @ $7\frac{1}{8}$ c.; Santos No. 4,  $8\frac{1}{2}$ @  $8\frac{1}{8}$ c. West India growths have been quiet and steady; fair to good Cucuta  $8\frac{3}{4}$ @ $9\frac{1}{2}$ c. The market for future contracts has been quiet and somewhat firmer. An absence of offer-ings has been a feature of the speculation of late. A better spot demand has also contributed to impart a firmer tone to the future market. The receipts are smaller than expected. The closing prices were as follows:

The closing prices were as follows:

June	6.35c.	October	6.55c.	February 6.90c.
				March 7.00c.
				April 7.05c
September	6.50c.	January	6.80c.	May 7.15c.

SUGAR, raw, has advanced of late, owing to an increased SUGAR, raw, has advanced of late, owing to an increased demand and light offerings; centrifugal, 96 degrees test,  $3.9-16@3\frac{5}{3}c.$ ; muscovado, 89 degrees test,  $3.1-16@3\frac{1}{3}c.$ ; molasses, 89-degrees test,  $2.13-16@2\frac{1}{3}c.$ ; Refined sugar has been in good demand and firm; granulated 4.60c. Spices have been firm with a moderate jobbing trade. Teas have been quiet and steady. Hops have been firm with a mod-erate inquiry from brewers, though actual sales have been light. Wool has been quiet and firm. TOBACCO has been quiet but firm.

TOBACCO has been quiet but firm. There has been no noteworthy development in the general situation. Interest has centered largely in Sumatra. Kentucky advices state that the new crop looks well. Planting of burley, dark and Green River, has been completed under favorable weather conditions conditions

PETROLEUM has been in active demand at unchanged quotations. Refined petroleum, barrels 7.80c., cases 10.30c., bulk 4.70c. Naphtha has been active and firm at 13c. for 71 degrees test, in 100-gallon drums. Gasoline, 86 degrees, 15c. in 100-gallon drums. Spirits of turpentine has been in fair demand and steady at 60<sup>3</sup>/<sub>4</sub>@61c. Rosin has been quiet and steady at \$3 95 for common to good stained.

COPPER has been dull and easier; lake 185%c., electrolytic 183%c. Lead has been quiet at 5.80c. Spelter has been easier and dull at 6@6.10c. Tin has declined to 38.80e. for Straits. Iron has been quiet and steady; No. 1 Northern \$18 50@\$19, No. 2 Southern \$17@\$17 50.

# COTTON.

Friday Night, June 29 1906.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. the week ending this evening the total receipts have reached 30,637 bales, against 31,573 bales last week and 29,858 bales the previous week, making the total receipts since the 1st of September 1905 7,575,328 bales, against 9,427,254 bales for the same period of 1904-05, showing a decrease since Sept. 1 1905 of 1,851,926 bales.

The speculation in cotton for future delivery has been quiet and, owing largely to more favorable weather in Texas and Louisiana, where copious rains have fallen, and liquidation of July contracts in the fear that notices of delivery due June 29 might have a depressing effect, prices have declined. An announcement early in the week by a leading operator that he would issue July notices for 48,000 bales, was the signal for considerable selling and some decline. Subsequently large "spot" sales and a possibility that the "notices" might be for a smaller quantity of cotton than was at first supposed had a steadying effect on prices for a time. But renewed liquidation, generally favorable weather and selling of October and December by the South helped to bring about a further decline later on. Other contributory causes were selling for the decline by board room traders, selling of the next-crop options by Liverpool and also by prominent local operators, depression in the July delivery both here and in New Orleans and a sharp fall in the stock market. Besides, the speculation continued dull, few taking any part in it except what are termed "professional" operators. During the week Liverpool people have bought August here very heavily, at times against sales of July-August in the English market, such arbitrage trading being encouraged by the abnormally wide differences—roughly, 140 to 145 points—between New York and Liverpool quotations, differences nearly twice as large as the normal. Of late this arbitrage business, as already intimated, has taken the form of sales of October and December. Large spot interests, it is supposed, have bought a good deal of July and sold December against it. The leading local operator, it is understood, has at times sold July with a certain freedom and bought the next-crop months heavily. He has also sold a large quantity of spot cotton. To-day the July notices, which amounted to some 50,000 bales, had at first a weakening effect on the market, prices falling 6 to 9 points. Bu

week. Middling uplands closed at 10.80c. On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the grades would be as follows:

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

including in it the exports of Frid	ay only.

The above totals show that the interior stocks have creased during the week 15,816 bales, and are to-night 19,723 bales less than at the same period last year. The receipts at all the towns have been 21,973 bales less than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

		05-06		04-05
June 29.		Since		Since
Shipped—	Week.	Sept. 1.	Week.	Sept. 1.
Via St. Louis	_ 5,691	472,610	7,526	613,390
Via Cairo	_ 979	199,972	2.794	325.970
Via Rock Island	_ 70	44,151	643	51.926
Via Louisville	. 433	99,759	1,403	99,225
Via Cincinnati	_ 306	57,224	534	57,239
Via other routes, &c	- 3,792	256,861	6,143	335,720
Total gross overland Deduct shipments—	_11,271	1,130,577	19,043	1,483,470
Overland to N. Y., Boston, &c	_ 359	141,052	1.970	182.217
Between interior towns	_ 47	19,581	349	31.786
Inland, &c., from South	_ 1,401	58,082	1,156	56,319
Total to be deducted	1,807	218,715	3,475	270,322
Leaving total net overland_a	9,464	911,862	15,568	1,213,148

a Including movement by rail to Canada

The foregoing shows the week's net overland movement has been 9,464 bales, against 15,568 bales for the week last year, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 301,286 bales.

WEATHER REPORTS BY TELEGRAPH.—Our tele-graphic reports from the South this evening indicate that on the whole the weather has been satisfactory during the week. Reports from Texas are to the effect that the drought has been broken, and that there has been rain in almost all other localities. Many of our correspondents report im. provement in the crop. It is claimed that, although the drought in Texas has been broken, further rains would be beneficial in localities. beneficial in localities.

Galveston, Texas.—The drought has been broken in Texas and the condition of the crop is improving in conse-quence, but further rains would be beneficial in some lo-calities. We have had rain on one day of the past week, the rainfall reaching one inch and seventy-one hundredths. The thermometer has averaged 80, the highest being 88 and the lowest 72

the lowest 72. Abilene, Texas.—There has been rain on one day

Abutene, Texas.—There has been rain on one day of the past week, the rainfall reaching one inch and two hundredths. Thermometer has averaged 82, ranging from 62 to 102. Brenham, Texas.—We have had showers on five days dur-ing the week, the precipitation reaching one inch and sixty-five hundrdedths. The thermometer has ranged from 67 to 101.

New hundrdedths. The thermometer has ranged from 67 to 101, averaging 84. Corpus Christi, Texas.—It has rained on three days of the week, the rainfall being sixty-four hundredths of an inch. Average thermometer 82, highest 99, lowest 65. Cuero, Texas.—We have had rain on five days of the past

Cuero, Texas.—We have had rain on five days of the past week, the rainfall reaching three inches and fourteen hun-dredths of an inch. The thermometer has averaged 87, the highest being 105 and the lowest 68. Dallas, Texas.—There has been rain on two days of the week, the precipitation being one inch and ten hundredths. The thermometer has averaged 81, ranging from 65 to 97. Fort Worth, Texas.—There has been rain on two days dur-ing the week, the rainfall being fifty-four hundredths of an inch. The thermometer has ranged from 66 to 98, aver-aging 82.

aging 82.

aging 82. Henrietta, Texas.—It has rained on one day of the week, the rainfall being sixteen hundredths of an inch. Average thermometer 79, highest 97, lowest 60. Huntsville, Texas.—We have had heavy rain on three days during the week, the rainfall being three inches and twenty-five hunddreths. The thermometer has averaged 83, the highest being 99 and the lowest 66. Kerrville, Texas.—There have been showers on four days of the past week, the rainfall reaching seventy hundredths of an inch. The thermometer has averaged 84, ranging from 69 to 98. Lampasas. Texas.—We have had rain on two days during

Lampasas, Texas.—We have had rain on two days during the week, the precipitation reaching one inch and sixty hundrdedths. The thermometer has ranged from 64 to 102, averaging 83.

Longview, Texas.—The week's rainfall has been one inch and three hundredths on two days. Average thermometer 84, highest 98, lowest 69. Luling, Texas.—It has been showery on three days during

the week, the precipitation being fifty-eight hundredths of

an inch. The thermometer has averaged 84, the highest being 101 and the lowest 68. *Nacogdoches, Texas.*—There have been showers on four days of the week, the precipitation being one inch and fifty one hundredths. The thermometer has averaged 81, rang-

ing from 68 to 93. Palestine, Texas.—Rain has fallen on four days during the week, the rainfall reaching one inch and twenty hundredths.

week, the rainfall reaching one inch and twenty hundredths. The thermometer has ranged from 66 to 94, averaging 80. *Paris, Texas.*—Rain has fallen on one day of the week, the rainfall being eight hundredths of an inch. Average ther-mometer 82, highest 96, lowest 67. *San Antonio, Texas.*—There has been rain on one day the past week, the rainfall being thirty-six hundredths of an inch. The thermometer has averaged 83, the highest being 100 and the lowest 66.

100 and the lowest 66. Weatherford, Texas.—We have had rain on one day of the week, the precipitation being seventy-seven hundredths of an inch. The thermometer has averaged 83, ranging from 65 to 100.

65 to 100. New Orleans, Louisiana.—There has been rain on three days during the week, the rainfall being two inches and thirty-two hundredths. The thermometer has averaged 84. Shreveport, Louisiana.—Rain has fallen on two days of the week, the rainfall being seventy-three hundredths of an inch. Average thermometer 82, highest 94, lowest 69. Leland, Mississippi.—There has been rain on one day of the week, the precipitation being twenty-three hundredths of an inch. The thermometer has averaged 75.9, ranging from 63 to 88

of an inch. The thermometer has averaged 75.9, ranging from 63 to 88. Vicksburg, Mississippi.—Weather favorable for cotton. We have had rain on three days during the week, the pre-cipitation reaching two inches and fifty-nine hundredths. The thermometer has ranged from 69 to 93, averaging 79. Helena, Arkansas.—Crops are in good condition and there are no complaints of insects. We have had beneficial rain on two days of the past week, the rainfall reaching one inch. The thermometer has averaged 78.8, the highest being 92 and the lowest 67. and the lowest 67.

and the lowest 67. Memphis, Tennessee.—Heavier rain in the immediate terri-tory; crop reports continue good. There has been rain on one day during the week, the precipitation being thirty-three hundredths of an inch. The thermomter has ranged from 65.3 to 91.1, averaging 78.7. Nashville, Tennessee.—It has rained during the week, the rainfall being fifty-seven hundredths of an inch. Aver-age thermometer 80, highest 93, lowest 65. Mobile, Alabama.—Heavy rains in west sections of the interior middle of the week. Cotton condition is generally very favorable, although there are some complaints of grassy fields and scarcity of labor. There has been rain on three days of the past week, the rainfall being one inch and thirty-four hundredths. The thermometer has averaged 81, the highest being 92 and the lowest 71. Montgomery, Alabama.—Weather favorable this week; average condition of cotton good. There has been rain on one day of the week, the precipitation being fifty-four hundredts of an inch. The thermometer has averaged 82, ranging from 69 to 96.

ranging from 69 to 96.

ranging from 69 to 90. Selma, Alabama.—Crop shows improvement since the rains. Fields are grassy, however, and labor scarce. Rain has fallen on two days during the week, the rainfall reaching seventy-five hundredths of an inch. The thermometer has

has fallen on two days during the week, the rainfall reaching seventy-five hundredths of an inch. The thermometer has ranged from 72 to 95, averaging 80. *Madison, Florida.*—The plant is small and many fields are grassy. Rain has fallen on one day of the week, the rain-fall being seventy-five hundredths of an inch. Average ther-mometer 81, highest 92, lowest 70. *Augusta, Georgia.*—We have had rain on one day of the past week, the rainfall reaching two hundredths of an inch. The thermometer has averaged 83, the highest being 96 and the lowest 70.

and the lowest 70.

Savannah, Georgia.—There has been rain on four days of the week, the precipitation being one inch and thirty-one hundredths. The thermometer has averaged 84, ranging hundredths. from 71 to 95.

Charleston, South Carolina.—The week's rainfall has been cighty-eight hundredths of an inch, on five days. Average thermometer 83, highest 94, lowest 71. *Greenwood, South Carolina.*—It has rained on two days

Greenwood, South Carolina.—It has rained on two days during the week, the precipitation being thirty-nine hun-dredths of an inch. The thermometer has averaged 81, the highest being 93 and the lowest 69. Stateburg, South Carolina.—The condition of cotton has decidedly improved during the past four dry days. There has been rain on three days of the week, the precipitation being one inch and forty-six hundredths. The thermometer has averaged 81, ranging from 67 to 95. Charlotte, North Carolina.—With hot nights, the plant is growing finely. There has been rain during the week, the precipitation being one inch and thirty-nine hundredths. The thermometer has ranged from 66 to 92, averaging 79. The following statement we have also received by tele-graph, showing the height of rivers at the points named, at 8 a. m. of the dates given:

#### BREADSTUFFS.

Friday, June 29 1906.

Prices for wheat flour have shown little change during the week. The trading has been on a very small scale, with an absence of noteworthy developments. In the main it is a waiting market. Millers show as little disposition as ever to shade quotations, while buyers continue to take only sufficient flour to satisfy immediate requirements. Exporters and sellers are still far apart and the clearances for Europe show no increase. At the Northwestern milling centres some mills report a slightly better demand, but the majority see no change. Buyers are bearish and take flour in a small way as they have to have it. It is impossible to do any foreign business in patents, though a few lots of clears have been sold for shipment to Holland and London, low through freight rates having facilitated such transac-tions. Corn meal has been dull but firm. Rye flour has Wheat has not fluctuated within wide limits.

It has alter-Wheat has not intertuated within wide limits. It has alter-nately moved up and down within a comparatively moderate compass, affected now by unfavorable crop reports and now by a better outlook. Of late the drift has rather been downward, owing mainly to more favorable weather condi-tions in the Southwest, where harvesting is in full progress. A private estimate of the winter-wheat crop of 420,000,000 ibushels has also had a depressing effect. Northwestern prices have latterly declined and July wheat, which a year ago was at a considerable premium 'at Kansas City over September, is now at a discount there. The "Modern Miller" says that returns from the threshing of winter wheat generally show a good yield of grain of excellent milling quality, that few reports of deficient yields are received, that crop conditions in Nebraska have improved since the recent rains, and that a good crop prom'se elsewhere is maintained. Rains have impeded the harvest and delayed the movement to market, but the prospects are that the movement will be free if the weather continues favorable. To-day prices fur-ther declined, mainly owing to favorable weather, weaker Northwestern markets, indications of increasing arrivals of new wheat at the West, and favorable reports in regard to weather, plowing and seeding in Argentina. Export trade has been quiet all the week. DAILY CLOSING PRICES OF WHEAT FUTURES IN NEW YORK. nately moved up and down within a comparatively moderate

Indian corn futures have been active and irregular, with the trading largely for quick turns pending further develop-ments in the crop situation. Bulls have been favored at ments in the crop situation. Bulls have been favored at times by smaller country acceptances, a good cash demand at the West, a revival of export buying and an absence of any very aggressive selling for the short account. Cash interests have been good buyers at times. On the other hand, the weather conditions have been more favorable, good rains have fallen and temperatures have been higher. The erop news has been better and this has naturally led to considerable liquidation. The demand to cover has been less urgent and the receipts at the primary markets have been large. To-day prices advanced, owing to the strength of oats, light country acceptances and covering of shorts.

Oats for future delivery in the Western market have been active and strong. Recessions have taken place at times in sympathy with declines in other cereals, but on the whole In sympathy with declines in other cerea's, but on the whole the tendency of the market has been towards a higher plane of values, owing mainly to unfavorable crop reports. It seems to be party generally accepted in the trade that the crop will be a short one. Many of the reports state that it will be materially below an average yield. The each demand of late has been active, at advancing prices. To-day the market advanced, owing to "bullish" crop reports, covering of shorts, light offerings and active commission house buying of shorts, light offerings and active commission house huying.

GOVERNMENT WEEKLY WEATHER REPORT.— Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the weather in the various States for the week ending June 25, summarizing them as follows:

for the week ending June 25, summarizing them as follows: The droughty conditions prevailing in the previous week in the upper Mississippi and lower Missouri valleys have been largely relieved, but drought continues generally unbroken in Louisiana and southern and eastern Texas, while portions of northwestern Missouri and southern Mississispipi and central and western Tennessee, Oklahoma and western South Dakota need rain. In the Southern States and Pacific coast districts the week averaged warmer than usual, but throughout the central and northern portions of the country it was abnormally cool, frosts occurring in the Rocky Moun-tain region and in portions of Washington and Oregon, with freezing tem-peratures in Wyoming. Numerons local storms of considerable severity, in places accompanied by hail, occurred in the Ohio<sub>4</sub>Valley and Middle Atlantic States during the latter part of the week.

For other tables usually given here see page 1478.

# THE DRY GOODS TRADE.

Friday Night, June 29 1906. The half-yearly clearance sales in the large jobbing houses ave been the chief feature of the week. These sales are have been the chief feature of the week. These sales are held without regard to current market conditions, reduced held without regard to current market conditions, reduced prices being made to clean up generally broken stocks and make room for new season supplies. At the same time market conditions exercise some influence over the clearance sales, determining the extent of the price reductions and the celerity or sluggishness with which the goods are purchased. When jobbers, therefore, report that this week their con-cessions on prices were more conservative than usual, and that in spite of this clearances were completed with greater ease and rapidity than generally experienced with such sales. that in spite of this clearances were completed with greater ease and rapidity than generally experienced with such sales, the results may reasonably be held to fully confirm current re-ports of satisfactory conditions prevailing throughout the dry goods trade as a whole. The market at first hands has not, however, thrown much new light upon the situation. The aggregate business for the week has exceeded the total for the preceding week, but the increase has been too moderate to be taken as an indication of any change in the policy of buyers. The goods in greatest demand are the most difficult to secure, while those of which sellers have most liberal supplies are not easy to move, and in them buyers, as a rule, hold out for concessions. The continued absence of export business of moment is an unfavorable buyers, as a rule, hold out for concessions. The continued absence of export business of moment is an unfavorable feature of the situation in heavy cotton goods, and the pro-duction of these is being further curtailed. Business in the woolen and worsted goods division has been on an extended scale, and buyers have operated liberally in some of the new lines of men's wear fabrics for next spring.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending June 25 were 4,242 packages, valued at \$265,010, their destination being to the points specified in the table below:

*		906			
		Since		Since	
New York to June 25.	Week.	Jan. 1.	Week.	Jan. 1.

4,242 150,672 10,012 166,005 Total\_\_ The value of these New York exports since Jan. 1 has been

The value of these New York exports since Jan. 1 has been \$8,531,290 in 1906, against \$8,882,099 in 1905. Business has been reported in heavy brown cottons at irregular prices, some transactions showing further conces-sions granted to buyers without drawing out any marked increase in the home demand or securing business from ex-porters for the China market. Goods bought for the latter some time ago but not shipped are reported being quietly offered for re-sale, contributing to the irregularity of the situation in heavy brown sheetings and drills. The market is well sold ahead in leading lines of bleached cottons, and scattered advances of  $\frac{1}{36}$ c. per yard show the prevailing tendency. There is no change in the medium and low grades, which are in moderate request. Coarse, colored cottons of the order of denims, tickings, &c., are selling in about

WOOLENS AND WORSTEDS .- It was noticed last week that the new lines of serges opened for spring trade had met with a favorable reception at the hands of the trade, and this week's experiences have been quite in keeping thereand this week's experiences have been quite in keeping there-with. The new orders placed have been on such a liberal scale that already agents are announcing the withdrawal of lines, and this without the attendance of buyers here being other than of an ordinary character. The proceedings so far are significant of an uncertainty on the part of buyers as to what are likely to prove favorites outside of such goods as staple lines in worsteds, and further that, up to date, they fail to confirm the belief held in some quarters that spring trade would show a diversion in the direction of woolen fabrics to a greater extent than in recent seasons. It is early yet to speak with any assurance on the latter point, but fabries to a greater extent than in recent seasons. It is early yet to speak with any assurance on the latter point, but initial proceedings have not been encouraging to manu-facturers of woolens. The re-order demand for heavy-weights has been without special feature in suitings and trouserings, and has been slow in overcoatings. Fair orders are coming forward for fall lines of woolen and worsted dress goods, grays, plain and fancy, predominating. Spring business has not really opened, but some advance orders of considerable extent are reported quietly placed, chiefly in considerable extent are reported quietly placed, chiefly in broadcloths. The production of carpets is reported cut down to some extent by the difficulty of securing adequate supplies of carpet wool

FOREIGN DRY GOODS .- Woolen and worsted dress goods continue in fair request in the better qualities, and satisfactory orders are reported in high-grade worsteds for men's wear for the light-weight season. Silks and ribbons are quiet without special feature. Linens are very firm, with sellers reserved on all but goods in stock or known to be com-ing forward; new business in future shipments still being held in shear to are extend by the attitude of callers. in check to some extent by the attitude of sellers. Burlaps are quiet with sellers at last week's prices.

Importations and Warehouse Withdrawals of Dry Goods. The importations and warehouse withdrawals of dry goods at this port for the week ending June 28, 1906, and since Jan. 1 1906, and for the corresponding periods of last year, are as follows:
