The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, January 19, and the results for the corresponding week in 1906, 1905 and 1904 are also given. Contrasted with the week of 1906 the total for the whole country shows a loss of 8.4%. Outside of New York the increase over 1906 is 8.3%

Federal Reserve Bank of St. Louis

## THE FINANCIAL SITUATION.

Consider how much like previous weeks, if taken as a whole, the current week has been. Two distinct halves have stood as the rule for some time, one up and the other down; only in the first half of this last one, Wall Street affairs, took a deeper plunge than has previously been the custom, and the second half had reached apparently a much more stable resting-place because of decidedly larger banking facilities gained by our Clearing House institutions. This gain has been a prolonged feature-three weeks now. The present six-day cycle for work began not only after the \$10,578,900 gain in cash as shown by the bank returns of January 12 but on top of an \$18,198,000 increase in cash on January 19th. Thus those two weeks had completely changed the character of the loan market by additions of \$28,776,900 to the cash and of \$18,467,250 to surplus reserve. With these large gains already secured coming freely from the interior, and in considerable amount from the Sub-Treasury, and with evidence of further additions in progress the current week from the same sources, operators had reason to think they had good promise of relief from the strain so long felt because of the shortened conditions of the money market. Still, notwithstanding the more assured grounds the borrower had reached a week ago both in Europe and America, last week's Saturday markets for securities both at home and abroad closed in a gloomy sort of way. So it happened also, in spite of this better and stronger situation in money, both for call and time, having relaxed materially, the Monday and Tuesday opening of the Wall Street market the current week was far from cheerful.

A conspicuous feature of the two days, Monday and Tuesday, of the current week already mentioned was the large crop of rumors of various kinds put afloat and readily gaining belief. They related to coming disasters to leading firms, difficulties with railroads in getting cash, of declines in dividend payments, &c. Undefined fears are always provocative of more harm than the facts when they are fully developed. "Rumor doth double, like the voice and echo, the numbers of the feared." By Wednesday, however, these impending evils had substantially vanished and there was a good deal better feeling. The day previous it had been announced that the house of J. P. Morgan & Co. had provided the means President Finley indicated in his letter of last week was needed by the Southern Railway. The company issued its notes in the amount of \$15,000,000 and the bankers mentioned took them. These notes mature in three years, bear 5% interest, and are sold at 97 and interest. Another among the rumors of Monday and Tuesday was the announcement of the issue of a new large loan to be put out by the Pennsylvania Railroad; the following day the company denied that there was any such intention. About the same time rumor stated it to be the conclusion of the New York Central directors to curtail much of the construction and improvement work that had been planned for this year, the curtailment not, however, to include any part of the terminal work in this city. A letter to us from the company states that the rumor was "neither authorized nor correct." Still it suggests a good maxim for the new year. "Go slow" is cer-

tainly the principle which should govern the railroad world the current year. Not only wages, but everything that enters into construction, are abnormally high. If all the loans and projects which have been proclaimed in recent weeks be gotten under way as announced, it would involve so much money, the employment of so many men, and such a degree of activity in so many industries as not unlikely to precipitate a crisis.

But we are inclined to think that railroads will be slow in carrying out their plans, doing only what is absolutely needful. This is no occasion for getting more involved than that course will cause. It does not need to be said that all the roads that have been suggesting and making provision for new work are financially sound-no roads anywhere in Europe or America are in that respect in better condition. As a rule, if they have the power, their purpose has been to raise the money required on their stock, which all of them could at any time easily do because by giving stock at par, they virtually give an immense per cent for the money, though they do not add to the fixed charges. We plead, however, for conservatism in building operations, because in the present low moral state of opinion with regard to property, and especially railroad property, it is far safer to get into a fighting condition than a strained one. A decision at St. Paul restricting the Great Northern from bringing out its proposed stock issue of \$60,000,000, until the Minnesota Railroad Commission had given its consent-at first affected the stock unfavorably. Later it was looked at as being at the worst only a delay. If the management of the Great Northern thinks it must do certain things to save certain rights it will get the money in some way and do them, letting Minnesota and her sister States wait until the deprivation of getting along without the improvements projected shall open their eyes to the real situation. The order enjoining the proposed issue limits its action as follows -"without first making an application in writing to the Minnesota Railroad & Warehouse Commission and securing its approval." The Great Northern Railway claimed that under its original charter it could issue stock at will. The court holds that this is not the case.

As the current week closes, a matter of some consequence comes in to disturb the outlook. We have referred above to the strong condition of our Clearing House institutions and to the easy rates that situation has produced for call and time money. The incident which clouds this prospect somewhat is the reported announcement by Secretary Shaw that he will on and after February 1 call for the surrender of the 30 million funds which on September 27 he had agreed to distribute among banks in different localities for the purpose of relieving the monetary tension which then prevailed. It is stated in the same Washington telegram that "the Secretary will exercise leniency in calling for re-payments. For instance, a bank having \$200,000 may be asked to turn in \$100,000 early in February and may have until March 1 to restore the remainder." The Secretary's purpose is, it is said, to have all the money returned by March 4, when he retires from office, "and a considerable part of the money will accordingly remain in the banks throughout the - Andrew

month of February." It should also be remembered that there is likewise a \$12,000,000 item of public deposits which will have to be paid back to the Sub-Treasury February 1 and February 15. Consequently, as we understand the situation, the whole requirement is 42 million dollars which the banks must restore to the Treasury in February. It will be remembered that this last item became due one-half on January 21 and the other half February 15. On January 10 Secretary Shaw extended these payments one-half to February 1 and the other half to February 15. Of course this \$42,000,000 is not all held by our New York banks. Only a small part of it is so held. The interior depositaries, at least the most of them, we may presume, will adjust their indebtedness through their correspondents in New York instead of sending the money directly to the Sub-Treasury. This would require our banks to furnish the cash. However the liquidation is carried through, we cannot but feel that it is a very unwise and unnecessary requirement, and may possibly have some adverse effect on general business. We see no reason why the return of the money should not be prolonged into the summer. It is not needed for disbursement until the first of July.

An address on "The Growth of Corporate Wealth," delivered on Wednesday of this week before the Boston Chamber of Commerce by a Mr. Charles Stedman Hanks, has been accorded considerable space in the newspapers. The address is so full of crudities and half-baked facts that it would not merit notice except for the prominence thus given to it. Mr. Hanks tells us that since last June he has been at work in Washington, at the Inter-State Commerce Commission, and has "spent several thousand dollars of the good money of the United States in clerical services to show that the freight and passenger rates of this country can be reduced 10% without affecting the dividends on the stock of any railroad or the wages of any employee." This is an interesting statement, and if by practical and convincing demonstration he could make good his promise, he would be conferring a service which would be well worth any amount of money spent in reimbursing him for his preliminary work. Railroad rates in this country are admittedly low, but if Mr. Hanks could show us, as he claims, how they can be reduced 10% further without harming any interest, we would all fall in with the idea and hail him as a public benefactor.

But one looks in vain for enlightenment on this point in the address. Instead, Mr. Hanks spends his energies in arraigning the railroads-that is, the popular course now-a-days-and in so doing falls into a number of blunders which would be amusing if they did not deal with such a serious matter. For instance, he notes among the things he discovered in the process of his examination the case of a certain railroad corporation (he does not give the name) which obtained control of a small railroad line capitalized at \$5,000,000, and within two years this road, after being absorbed by the larger system, was capitalized at \$30,000,000. That the road was able to float this extra \$25,000,000 of bonds and stock may not interest us, he says (the calm disregard of the position of the investor implied in this statement is refreshing), but we are all interested, he continues, in the fact that whatever freight we ship over this system has to pay freight rates suffic-

ient to allow the road to pay interest on this overcapitalization. There are two curious errors in the assumption contained herein which cannot be overlooked in a person who is spending "the good money of the United States." Mr. Hanks's statement can have no force except it be assumed (1) that the railroads are allowed to make any rates they please, and (2) that as a result they are netting a return on their entire share capital, no matter how excessive or what its magnitude. The facts confute him on both points. We all know that it is competition, not capitalization, that controls rates, and furthermore we also know that even if this were not so, Government bodies, both State and National, are exercising extreme vigilance in seeing that rates are not too high-in fact, the criticism is that they often force them unjustifiably low. On the other point, as to whether the railroads are paying or earning dividends on their entire share capitalization-including the water in them which our critic so strenuously alleges exists-we would refer him to the last annual report of the Inter-State Commerce Commission, showing that of the total capital stock outstanding on United States railroads, no less than \$2,435,470,337, or over 37% of the whole, was paying no dividends at latest dates. This, too, is in face of unexampled prosperity through the whole range of industries in the land, including the transportation interests.

There is much other crude matter of the same kind in the address. Take, for example, the following illustration as to how capital watering is being indulged in: "The profits from such over-capitalization, by which vast sums are made, without giving anything in return, are obtained either by wiping out minority stockholders, by scaling bonds and stocks under reorganization schemes, by assessing majority stockholders, or by paying off floating indebtedness at dividend-paying periods, so that the market value of the stock still depreciates. Each is a successful graft proposition, and when all four are played at the same time, as many banking houses now play the game, it is time to call a halt, such methods having the same effect upon our country as when crops are harvested without ferti-lizing for new crops." This is a curious conglomeration. The main trouble with the diagnosis is that for a dozen years or more times have been so prosperous that there has been no chance to practice any of the "graft propositions" referred to. On account of the good times experienced, reorganizations have passed almost out of vogue. If we would find cases of the "wiping out" of minority stockholders, the scaling of bonds or stock, or the imposing of assessments, we would have to refer to an era long since past. And if "banking houses now playing the game" still rely for their profits on practices of the kind mentioned, we think it will be admitted that they must have been having a lean time of it, and it is a wonder they have been able to keep body and soul together.

But the most diabolical villainy of all is yet to be mentioned. Mr. Hanks makes the statement that "a certain railroad not far from Boston has each mile post 123 feet short, so that the road is a mile short in every 43 miles," and he says this makes one "inclined to sit up and think." We should imagine it would. But what will puzzle most of us is why it remained for Mr. Hanks to discover the fact, and why he did not \* at once rush to the State House at Boston and get the authorities to cite the managers of the railroad to appear and account for the offence. This would have afforded a fine opportunity for public officials to show their zeal on behalf of the people. Mr. Hanks should persist till these mile posts are set right, and we think no one will object to his using some more of the "good money of the United States" in the effort.

Preliminary figures have been given out at Albany this week showing the condition of the trust companies of this State on January 1. These figures are interesting as bearing out the statement made by us when reviewing the figures for November 14, namely, that the process of accumulation of cash made necessary under the law passed last year by the Legislature requiring the trust companies to keep stated reserves, had about reached its end. It will be remembered that under the law the maximum of the reserve requirement had to be attained by January 1. From the statement of November 14 it appeared that the trust companies held \$42,345,615 specie and \$8,920,029 legal tender notes and notes of national banks, or \$51,265,644 together. The statement for January 1 shows holdings of specie of \$43,861,609 and holdings of legal tenders and bank notes of \$11,675,393, or \$55,537,002. So the further increase has been a little over four million dollars. The aggregate of all kinds of deposits for all the trust institutions in the State on January 1 was \$1,084,376,517, and 5% on this would call for cash holdings of \$54,218,825 against the \$55,537,002 of cash now reported held. The excess above the requirement is really larger than this comparison would indicate, for outside of New York the cash requirement is less than 5%-is only 3%, though it is proper to state that the vast preponderance of the deposits is in the institutions in this city. To show the full effect of the new law on the cash holdings of the trust companies, it is necessary, of course, to compare with the figures on January 1 of last year. At that time the specie holdings were only \$20,733,816 and the holdings of legal tenders, &c., \$4,083,239, making \$24,817,055. Thus, as a result of the operation of the new law, \$30,000,000, roughly, has been added during the twelve months to the money holdings of the trust companies within their own vaults.

With the exception of a reduction by the Imperial Bank of Germany in its official rateof discount from 7%, at which it had stood since Dec. 18 1906, to 6%, there was no change in official rates of discount by any of the European banks this week; compared with last week, unofficial or open market rates were  $\frac{1}{8}$  of 1% lower at London, steady at Paris and  $\frac{5}{8}$  of 1% lower at Berlin and at Frankfort.

The striking feature of the statement of the New York Associated Banks last week was the remarkable gain of \$18,198,000 in cash and of \$9,820,000 in surplus reserves, which carried the latter to \$18,460,700. Loans were expanded by \$15,148,600 and deposits were increased by \$33,512,000. There was a transfer hither from San Francisco this week, through the Treasury, of \$1,000,000, and though Sub-Treasury operations have shown smaller gains to the banks than was the case last week, the return flow of money from the interior has been in important volume.

Influenced by the above-noted favorable bank return and by a comparatively light demand, due to continued liquidations of speculative accounts on the Stock Exchange and to the apathy manifested by investors and non-professional traders, the market for money has been easy this week, not only on call but on time. Though offerings of the latter, especially for the shorter dates of maturity, have been liberal, the business has been small; it is noteworthy, however, that the corporation notes which have been offered have been taken promptly, probably because of the high interest that they yield to investors. The statement on Wednesday, as elsewhere noted, that Secretary Shaw would postpone the call for the surrender of \$30,000,000 public funds-which, when the deposits were placed with the banks, were understood to be subject to calls beginning with Feb. 1-contributed to a reduction in the call money rate to about the lowest of the week. On the following day the absence of confirmation of this statement caused a recovery in the rate to the maximum for the week. On Friday Mr. Shaw denied the report of his intention to postpone the call and stated that on Feb. 1 he will begin to require the surrender of these special deposits, calls therefor being made gradually so that the banks may have until March 1 to return the funds to the Treasury.

Money on call, representing bankers' balances, loaned on the Stock Exchange during the week at 4% and at 2%, averaging about 234%; banks and trust companies loaned at 21/4 % as the minimum. On Monday loans were at 31/4 % and at 2% with the bulk of the business at 3%. On Tuesday transactions were at 3% and at  $2\frac{1}{2}$ % with the majority at  $2\frac{3}{4}$ %. On Wednesday loans were at 3% and at 21/4% with the bulk of the business at 234%. On Thursday transactions were at 4% and at 21/4% with the majority at 3%. On Friday loans were at 4% and at  $3\frac{1}{2}\%$  with the bulk of the business at 334%. Time loans on good mixed Stock Exchange collateral are 41/2@43/4% for sixty and 43/4 @5% for ninety days, 5@51/4% for four and  $5\frac{1}{2}\%$  for five to six months. Corporation notes running for one year have been placed this week on about a  $5\frac{3}{4}\%$  basis. Commercial paper is in good demand at 534@614% for sixty to ninety day endorsed bills receivable, 534 @614% for prime and 61/2% for good four to six months' single names.

The Bank of England rate of discount remains unchanged at 5%. The cable reports discounts of sixty to ninety day bank bills in London 45/8@43/4%. The open market rate at Paris is 31/8@31/4% and at Berlin and Frankfort it is 45%%. According to our special cable from London, the Bank of England gained £1,438,701 bullion during the week and held £33,601,525 at the close of the week. Our correspondent further advises us that the gain was due to continued heavy receipts from the interior of Great Britain and large purchases in the open market, the export movement being moderate, and exclusively to South America. The details of the movement into and out of the Bank were as follows: Imports, £625,000 (of which £7,000 from Austria and £618,000 bought in open market); exports, £275,000 (wholly to South America), and receipts of £1,089,000 net from the interior of Great Britain.

The foreign exchange market was strong early in the week, influenced largely by speculative buying induced by the easy rates for money and the prospect for a further decline in such rates in the near future. It was expected that there would be a good demand for remittances by Tuesday's mail, but the offerings were greatly in excess of requirements, because of the over-bought market, and after the demand had been satisfied, rates more or less sharply declined. Inasmuch as the steamer sailing on Thursday was slow, remitters gave preference to Saturday's vessel, and consequently the inquiry for bills for the remainder of the week until Friday was moderate, rates gradually fell off and the tone was heavy. There was some buying of long for remittance, owing to easier London discounts, and also purchases for investment to hold until maturity. Commercial bills, especially those against cotton, were in good supply, but at the same time the inquiry therefor was somewhat urgent, so that they were promptly absorbed. There seemed to be no evidence of remittances to pay for maturing finance bills, indicating either that these had been settled for or that provision had already been made for them in advance of their maturity. Reports of selling of American securities in London and on the Continent, as the result of the depression in the New York market, led to expectations of a demand for exchange to pay for these properties. As there was no indication of an inquiry for this special purpose, it was thought likely that payment for the returned securities would be deferred until their arrival. The lowering of the German Bank rate seemed to have only a slight effect upon marks, the reduction having been foreshadowed by easier open market discounts.

Nominal rates for sterling exchange are 4 82@4 821/2 for sixty day and 4 861/2 for sight. On Saturday of last week the market was quite strong, and, compared with the previous day, long rose 50 points to 4 8175@ 4 82, short 45 points, to 4 8595@4 8610 and cables 40 points to 4 8665@4 8675. On Monday the tone was strong until the afternoon, when it grew easier, and the market closed at a decline of 25 points for long to 4 8150@4 8155, of 15 points for short to 4 8580@ 4 8585 and of 20 points for cables to 4 8650@4 8655. On Tuesday long fell 5 points to 4 8145@4 8155, short 10 points to 4 8570@4 8575 and cables 15 points to 4 8635@4 8640. On Wednesday the tone was again heavy at a decline of 20 points for long to 4 8130@ 4 8135, of 10 points for short to 4 8560@4 8570 and of 5 points for cables to 4 8630@4 8635. On Thursday the market was steady, closing 40 points higher for long at 4 8160@4 8175, 10 points for short at 4 8570@ 4 8575 and 5 points for cables at 4 8635@4 8640. The tone was barely steady on Friday, with long and short 10 points and cables 5 points lower.

The following shows daily postal rates for sterling exchange by some of the leading drawers:

Manhaus main and	Fri.,	Mon.,	Tues.,	Wed.,	Thurs.,	Fri.,
	Jan. 18	Jan. 21	Jan. 22	Jan. 23	Jan. 24	Jan. 25

## THE GOVERNOR OF JAMAICA AND THE BRITISH NAVY.

There was no great reason to believe, at any time during the incident of Governor Swettenham and our warships at Jamaica, that serious consequences, even of a sentimental sort, would follow. Americans are, fortunately, possessed as a nation of a high sense of humor, and the absurdities of which Governor Swettenham had allowed himself to be guilty in his official correspondence with our Admiral appealed so strongly to that sense of humor as to overcome even the feeling of wounded pride which might under other circumstances have asserted itself. The truth is, this is one of the episodes in which the manner of doing a thing so far supersedes in popular interest the thing which was done, that it is judged at the time, and probbaly always hereafter will be judged, in the light of the language used by the Colonial Governor. This is in some respects fortunate, but in others unfortunate, because it is quite possible that a principle of some importance to the English, if not to us, lay behind the extraordinary document sent out on Sunday by the Governor to our Admiral.

Taken by itself, a communication by such an officer to the representative of the American Government—in which he remarks that "I find your working party was this morning helping Mr. Crosswell clean his store; Crosswell was delighted that the work was done without cost; if your excellency should remain long enough, I am sure almost all the private owners would be glad of the services of the Navy to save expense;" and that, "I may remind your excellency that not long ago it was discovered that thieves had

lodged in and pillaged the residence of some New York millionaire during his absence in the summer; but this would not have justified a British Admiral landing an armed party and assisting the New York police". is difficult to take seriously. Probably there would have been no occasion for serious treatment of it, and it might be simply put aside as the outbreak of an ill-natured and nervously exhausted provincial officer, but for the fact that even the responsible part of the London press, while denouncing the ill-breeding of the Governor of Jamaica, and regretting the occurrence of the episode, nevertheless takes the ground that there was something to say for Governor Swettenham's action in declining further assistance from our warships. The English point of view appears to be that the American bluejackets were landed for the ostensible purpose of guarding the American Consulate, which they were entitled by international law and practice to do. Once landed, it seems that the need for help by the people of devastated Kingston appealed to the plain human instincts of our sailors and officers, who thereupon devoted themselves to assisting where they could in the work of salvage and protection. It is a matter of record that the Governor of Jamaica had agreed to the use of our sailors as a guard to the Consulate; some dispute appears to exist as to whether the further actions in relief of the Jamaican people had been undertaken with the consent of the Governor or not.

Apparently, at all events, their scope of activity, greater than the Governor had contemplated, raised n his mind a feeling, first of irritation that no British warship had been near enough to be the first to give relief, and, second, of doubt as to the propriety of permitting a precedent of this sort to a foreign navy, unless under circumstances of absolute and hopeless emergency. So far as concerns this international view of the case, it is only fair to concede what force there may be in the objection, undoubtedly widely entertained in London, against the employment of armed foreign naval forces on the shore of a British colony. Under all ordinary circumstances, such a practice is contrary to the accepted rule of international diplomacy. This fact undoubtedly was recognized by Admiral Davis, whose attitude, however, was expressed in his letter to Governor Swettenham, stating that "as the only object of my being here is to render such assistance as I can, I trust you will justify me in this matter for the cause of common humanity." The difference between the positions thus taken by the Admiral and that undoubtedly held by many Englishmen arises from the divergent view of a precedent which, under slightly altered circumstances, would certainly not be tolerated. As we have said, there seems to us to be some force in this contention. If we may imagine that Governor Swettenham, instead of the clumsy and boorish letter which he actually wrote, had notified Admiral Davis in a friendly and dignified manner that his duties and instructions did not permit him to allow the presence of armed American sailors on shore, except as an inactive guard to the Consulate, and if he had followed this up by a simple statement of his own ability to cope with the situation, we do not see how any serious exception could have been taken to his attitude.

temper, however, and what bears very curiously on | in an international conference.

Federal Reserve Bank of St. Louis

the whole discussion, is the fact to which attention has instantly been called in England, that it was the business of the British Navy to have had at least some warships sufficiently near at hand to go to Jamaica on the first news of the Kingston disaster, and reach it in time to be of use. The London press has pointed out with no little force that, whereas the British Navy was at this time caught napping, so far as the West Indian colonies were concerned, by an accident of nature, it might be caught the next time by an insular insurrection or by invasion from some other State. While this supposed "other State" could hardly be any but our own, and while such a contingency is admittedly improbable, nevertheless the point of the London critics is not, on general principles, ill taken. What interests us chiefly in it is its clear recognition of the function of the modern navy as a police power for the ocean. This is by no means a novel conception of a navy's duties, but it has gone very considerably out of fashion during the last few years, under the growing idea that a navy must be primarily an enormous consolidated fighting armament. During the many years in which Great Britain's Navy was being built up to its recent supremacy over any other modern fleet, the argument was offered, and generally conceded, that in its isolated position, with its widely extended colonial possessions, and with its reliance on outside producing States for the food of its inhabitants, it was imperatively necessary for the country to provide a navy which should patrol the seas, keep open lines of communication, and be at hand in the case of need in the colonies.

Obviously, these purposes called first for numerous warships of a normal model, suited to swift sailing, and with good carrying capacity. Since the Japanese naval victories these ideas of a navy's functions have largely given place to the wish for ships of enormous size. As a consequence England, at the very moment when complaint is growing of "cheese-paring economy" in the navy, is planning the largest battleships ever built, while our own Government, not content with old-fashioned types and models, is following the same path. Thus the tendency grows among all the nations to put their surplus revenues, or more often the proceeds of their public loans, into a few of these extravagantly expensive vessels, when the same expenditure might greatly increase the numbers and efficiency of the navy as a maritime police.

The Kingston episode brings out the truth of the situation so strongly that we trust it will not in this direction be without its influence. The "fighting armament" idea has become a good deal of an obsession in the minds of present-day statesmen. The assumption that war is the normal state of nations, and that no nation can regard itself as safe without a full equipment of the very latest and most costly fad in naval architecture, is leading more than one Government well along the pathway of fiscal embarrassment. Yet in the face of this assertion of the hopeless outlook for a State not thus equipped, we have before our eyes the spectacle of Russia, with the bulk of her modern ships either in Japanese hands or at the bottom of the ocean, and with no hope of making good the loss within the next few years, nevertheless facing its fellow-States with perfect equanimity, and actually, as What undoubtedly intensified the Governor's bad | at Algeciras last spring, uttering the controlling voice

## LIABILITY OF TRUST COMPANY FOR CERTIFICATE ON CORPORATE BONDS.

Our Court of Appeals at Albany last month handed down a decision of considerable interest to trust companies and others who make it a practice to act as trustees for mortgage bond issues and place their certificates on the bonds for the purposes of identifying the same and to guard against spurious issues. In the case at bar the bonds had proved worthless because of the foreclosure of a prior lien, and the holder attempted to recover from the trustee on the strength of its certificate on the bonds, reading: "This bond is one of a series of bonds mentioned and described in the mortgage within referred to." The bonds so certified were each endorsed by the company issuing them as a "first mortgage" bond. The plaintiff contended that the trust company's certificate was broad enough to be a guaranty that they were first mortgage bonds. The Appellate Division decided against him, declaring that the complaint did not state a cause of action against the trust company, and the Court of Appeals now also rules against him and affirms the judgment.

It is to be noted that the certificate on the bond in this instance was in the phraseology and language which it is now customary to employ and which is advocated as freeing the trustee from responsibility or liability for any statement beyond the fact that the bond is one of the series to which it belongs. In a paper read before the Trust Company Section of the American Bankers' Association at its meeting in 1900, Andrew Squire, counsel for the Guardian Trust Co. of Cleveland, pointed out that another form of phraseology had involved some trust companies in litigation. The old form of certification read somewhat like this: "It is hereby certified that this bond is one of the series of bonds secured by the mortgage or deed of trust within mentioned." It was the use of the word "secured" that caused trouble, it being claimed that it implied that there was actually some security for the bondholders. On the present occasion, as already stated, the word "secured" did not appear and the certification was in the language quoted above, which in effect simply describes and identifies the bonds.

Moreover, the mortgage itself was apparently drawn in such a way as to absolve the trustee from all liability except its own gross negligence, and seems to have contained practically all the safeguards and precautionary clauses and phrases which Mr. Squire in the paper referred to suggested it would be well to include in mortgages, for the protection of the trustee. According to the description of it contained in the opinion of Justice Hirschberg, delivered when the case was before the Appellate Division (Second Department), it provided for the issue of a series of first mortgage bonds, to be certified by the trustee and returned to the mortgagor's officers, whose receipt for the bonds was to be "full acquittance and authority to the trustee for such certification and delivery." The mortgage further provided that the trustee should not incur any liability for permitting the mortgagor to retain possession of the property mortgaged, nor should it be responsible for any breach of covenant by the mortgagor, "nor for any cause, matter or thing except the trustee's own gross negligence or wilful default in the trust expressed," &c. The bonds contained a statement that they were secured by the mortgage conveying the property and franchises of the corporation, to which reference was made for a description of the property and franchises mortgaged. The Appellate Division, speaking by Justice Hirschberg, held that the trustee did not guarantee the truthfulness of the description of the obligation by the corporation, and was therefore not liable to a bondholder for loss occurring by reason of the fact that the mortgage securing the bonds was not a first mortgage on all the corporation's property and franchises.

The case was that of James Tschetinian against the City Trust Co. of New York, now merged in another company, and the bonds which were the cause of the litigation were those of the United States Carbonate Co., which on May 1 1900 executed a mortgage on its property for \$100,000. The plaintiff purchased twenty of these bonds, which were in denomination of \$500 each. It appears that at the time of the execution of the mortgage there existed a prior mortgage for \$15,000 on the property covered by it. The plaintiff asked judgment against the trust company for the amount of the purchase price of his bonds upon the theory that the certificate signed by it was a representation and guaranty that the bonds were in fact secured by a mortgage which was a first lien upon the mortgaged property. Justice Hirschberg, in sustaining the demurrer to the complaint, pointed out that the certificate certainly did not purport upon its face to create such a guaranty or to make such a representation. It was confined in apt language to the assertion that the bonds which the plaintiff purchased constituted a part of the issue mentioned and described in the mortgage, and there was no claim or pretense that such statement was not strictly true, both in substance and in spirit. Nor was there anything in the trust company's connection with the transaction at all calculated to deceive. Prospective purchasers of the bonds were fairly referred to the mortgage by the documents themselves for a disclosure of the nature and extent of the security, and the mortgage contained an explicit statement of the measure and the limit of the liability assumed by the trust company. The description of the bonds as first mortgage bonds by the words endorsed on them did not purport to be, and was not alleged to be, the act of the trust company, and no case had been cited. at least in this State, Justice Hirschberg urged, which holds that the guarded and limited terms of the certificate may be lawfully held to embrace a representation or guaranty of the truthfulness of the description of the obligation as made by the obligor. Continuing, Justice Hirschberg went on to say:

"Had the defendant been charged with knowledge of any material misstatement or misdescription calculated to deceive purchasers, a different question might have been presented, and the fact that the act complained of was that of another might not avail as a defense. But in view of the length of time during which it has been the custom of trustees of bond issues to act in that capacity for a comparatively trifling consideration, limiting their liability to their own acts of negligence and misconduct, without, so far as appears, a single adjudication extending the liability to even the implied guaranty of the securities whose mere identity they have authenticated, it would be unfair in the circumstances detailed in the complaint; to impose so serious a burden upon the office assumed by the defendant in the financial transaction in question. As in practice it would be almost impossible to prevent the bonds from containing some descriptive reference to the nature of the security purported to be created, the rule suggested would in effect make the liability of a trustee, who assumed only the discharge of duties of fiduciary administration, co-extensive with that of the principal debtor, who creates the obligation and receives the entire pecuniary consideration."

The Court of Appeals now takes substantially the same view of the liability of the trust company. The opinion in that court is by Judge Hiscock. He points out that there is no allegation in the complaint that the defendant was in any manner a party to or responsible for having the endorsement upon the bonds that they were first mortgage bonds or that it in any manner was guilty of fraud or misrepresentation in connection with said statement, or that it suppressed any knowledge, or in fact knew, that said bonds were not first morgtage bonds. On the other hand, it is to be noted, as bearing upon this point, that the resolutions passed by the mortgagor authorizing the execution of the mortgage and bonds expressly provided that the proceeds thereof should be applied to the payment and satisfaction of any existing indebtedness of the company. Judge Hiscock says if this resolution had been complied with the prior mortgage would have been retired when the bonds were issued and the latter would have been in reality first mortgage liens.

Under the circumstances, the question presented for the consideration of the Court narrowed down to the point whether the trust company, solely on account of the certificate which it had placed upon the bonds, should be held to have guaranteed the nature and extent of the security therefor, because the Carbonate Co. had placed upon them a statement purporting to be descriptive of the latter. Judge Hiscock thinks it would be unreasonable to impose any such liability upon the trust company. The language employed, when interpreted in its natural and ordinary meaning, simply amounts to a statement identifying the bonds whereon it is written as one of those mentioned in the mortgage, and the effect of this is an assurance to the purchaser that his bonds are among those entitled to the benefits and protection afforded by such mortgage. But the statement does not, upon any reasonable construction, in the absence of any allegation of fraud or deceit, active or passive, make the trustee a guarantor of the quality and extent of the security given by the mortgage, or responsible for the accuracy of statements endorsed upon the bond by the mortgagor purporting to describe the nature of such security.

The Court of Appeals did not think it necessary to consider the various clauses found in the mortgage and referred to by the trust company as exempting it from liability as a trustee. Judge Hiscock said that some of those clauses manifestly refer to duties entirely different from those which would arise in connection with the certificate on the bonds and the Court did not intend to determine how far such clauses might serve to relieve a trustee like the trust company from liability otherwise incurred. It remains to add that all the judges sitting in the case concur in this opinion, namely, Edward T. Bartlett, Werner, Chase and Chief-Judge Cullen. Judge Willard Bartlett was not sitting and Judge Gray was absent.

## THE GROWING MAGNITUDE OF THE COUNTRY'S FOREIGN TRADE.

The foreign trade statistics for the calendar year just published by the Government are interesting because the figures serve to give emphasis to the fact that our external trade was, in one particular at least. an exact duplicate of our domestic trade-that is, was of unexampled proportions. In another particular also there was close correspondence between the two, namely in that the growth was general and extended all along the line. By this we do not mean that there were not some articles in which there were decreases rather than increases, but that the general trend was upward and the expansion was participated in by all the leading branches and departments of trade and business, though in isolated instances there might be a falling off, for special reasons, of larger or smaller consequence. Both the merchandise imports and the merchandise exports considerably exceed the largest previous figures. As the same statement was true of the totals for 1905, we have another point of resemblance to the internal trade in the fact that growth has been cumulative and continuous.

As the best way to indicate the expansion which has occurred in our trade with the outside world, we will take the figures of imports and exports combined before dealing with either one separately. For 1906 this total trade for the first time reached 3,000 million dollars, the aggregate being \$3,119,172,649. In 1905 the aggregate trade was \$2,806,135,345 and in 1904 \$2,487,227,930. In two years, therefore, the values of imports and exports combined have risen over 25%. If we extend the comparison further back, the progress becomes still more striking. It was not until 1899 that the total trade for the first time reached 2,000 million dollars, being for that year \$2,074,435,381. The 1,000-million mark was reached as early as 1871, when the combined trade had a value of \$1,033,463,-187. In other words, it took from 1871 to 1899 (28 years) to add the first 1,000 million dollars and only the seven years from 1899 to 1906, to add the second 1,000 millions. This shows at what tremendous strides the country has been progressing in recent years.

Of course there has been a double influence at work in swelling values in such a tremendous way: not only have quantities of imports and exports risen decidedly, but in addition prices have advanced speaking of articles of merchandise generally and not of any particular kind or class. Doubtless prosperity in the United States alone would not have sufficed to bring such a general enhancement of prices. As a matter of fact, however, prosperity has been worldwide—in its sweep taking in those two other leading nations, Germany and England.

That our own imports and exports should have further increased in 1906 cannot be deemed at all strange in view of the favorable conditions ruling here. The merchandise exports continued to expand because of successive large crop yields and the imports were swelled by the activity and prosperity of all industrial interests. With labor more fully employed at better wages than ever before and with everybody making money, consumption of necessaries and of luxuries alike was necessarily promoted. And the fact that the country's productive capacity in all lines was expanding, obviously increased the call for the materials

### JAN. 26 1907.\

needed in such production and which had to be drawn in larger or smaller extent from abroad. The further fact that home production in many cases fell far short of home consumption, notwithstanding the increase in said production, made necessary an additional draft upon the foreign markets on that account too.

The value of the merchandise imports for the twelve months of 1906 was \$1,321,064,694. This compares with \$1,179,144,550 the previous year and with \$1,-035,909,190 in 1904, when for the first time the merchandise imports had a value of 1,000 million dollars. It is necessary to go back only to 1898 to find a total less than half that for 1906. In the year referred to the amount of the imports was \$634,964,448. In the eight years since then, therefore, we have more than doubled the imports. The further addition of 142 million dollars in 1906 is the more noteworthy as it was made in face of a considerable falling off, for special reasons, in certain large items of imports. The details regarding the separate items of imports are not yet available for the full twelve months, but from the figures for the eleven months to Nov. 30 it is evident that there must have been a large falling off in such items as sugar and coffee.

The coffee imports show a decrease both by reason of a diminution in quantity and a decrease in price. Brazil hopes to advance the price of coffee through its valorization scheme but thus far the effort has not borne the fruit expected-the price is lower rather than higher than it was six months ago-and consumers and dealers in this country apparently evince no disposition to lay in extra supplies in fear of a prospective advance. At all events, for the eleven months to Nov. 30 the imports of coffee into the United States from all countries were only 727,251,829 lbs., against 805.369.171 lbs. in the corresponding period of 1905 and 987,277,012 lbs. in the same period of 1904. Values were \$62,183,007 for 1906 against \$67,902,129 for 1905 and \$77,341,993 for 1904. In sugar the decline in import values is large and has followed in great part as the result of the decrease in price. The importations in quantity (eleven months) were 3,623,221,944 lbs. in 1906, against 3,566,058,529 lbs. in 1905 and 3,963,836,168 lbs. in 1904; the values were only \$73,834,027 against \$99,306,338 in 1905 and \$81,053,330 in 1904, the average price per pound having been 2.04 cents for 1906, 2.78 cents for 1905 and 2.05 cents for 1904. The falling off from the previous year, it will be seen, was over 25 million dollars. There was also a falling off in the imports of raw wool, apparently because the total had been rather larger than usual in 1905. But aside from the items here mentioned, the importations pretty generally increased and in many instances increased heavily, the growth being most marked in the articles most needed in manufacturing and in industrial pursuits as a whole-chemicals and hides, for example. The imports of cotton manufactures, too, were on an extensive scale in face of a considerable decrease in our exports of cotton manufactures. At the end of this article we give a series of tables, one of which shows the items of imports and exports where marked changes appear, and from this the import movement can be studied with greater detail.

As to the export movement, the agricultural exports still form a preponderating proportion of the whole. This is tantamount to saying that our merchandise

varying demand for the same by the outside world and the crop yields in other leading producing countries. The crop situation in the United States during. 1906 was, on the whole, favorable to a fair export movement. The grain yield was large in 1905 and was again abundant in 1906 and there was no such wild speculation in prices as had prevailed in some previous years. It is to be said, however, that, notwithstanding the large grain crops, the grain deliveries were small, and this feature was emphasized as the year progressed. Whether the reason why grain came forward relatively in such a slow way was that given in some quarters, namely that the railroads, because of freight congestion, did not supply cars fast enough to carry the grain to market, or whether farmers as a matter of policy held back supplies, the fact of a small grain movement remains. In the grain export trade the year was one of moderate proportions-better than the two years immediately preceding, which were poor periods in that respect, but falling far behind the years when the grain export movement was of exceptional extent. Thus the wheat and flour shipments for the twelve months aggregated 127,300,190 bushels as against only 71,788,579 bushels in 1905 and but 64,957,158 bushels in 1904, but as against 161,367,104 bushels in 1903 and 212,445,731 bushels in 1902. The values of the wheat and flour exports for the different years bear about the same relation to one another, having been \$107,549,749 for 1906, against \$67,101,166 for 1905 and \$61,231,117 for 1904, but as against \$134,517,491 for 1903 and \$165,346,005 for 1902. The corn exports were 102,000,000 bushels, which is somewhat less than in 1905, but there have been occasions when the corn exports for the twelve months reached 200 million bushels. Low prices have tended further to increase the disparity in values. The breadstuffs exports, as a whole, were valued at \$189,180,400 for 1906, against \$154,300,630 for 1905 and only \$98,307,-218 for 1904, but as against \$200,012,362 for 1903 and \$276,404,299 for 1901. Thus, in the case of these breadstuffs exports, the year 1906 was only of fair extent.

outflow is still dependent to a large extent upon the

out-turn of the crops-modified, of course, by the

In the matter of cotton, on the other hand, the state of things was reversed. Here there was another large increase on top of noteworthy increases in the years preceding. The better price received for the staple was the cause of the further expansion; in quantity the shipments fell below the exceptional total of the year preceding, reaching only 7,448,712 bales, against 8,009,374 bales in 1905. The average price, though, was 1034 cents per pound in 1906, against only 9½ cents in 1905. The 1906 yield of cotton was very good but this did not cut any great figure in the export movement until the last three months. The previous season's yield had been small and that circumstance controlled the export movement for the first nine months. On account of the higher price the reduced amount of cotton exported had a value of \$413,105,720 in 1906 as against \$392,600,644 in 1905.

As to the other leading staples, the exports of provisions also were higher in value for 1906 than for 1905, but whether a continuance of this condition in the case of that branch of the export trade can be depended upon would seem to be a matter of doubt. The allegations against the beef-packing concerns and the bitter attacks made upon them in Congress during the period of the discussion preceding the passage of the Meat Inspection Bill have left a deep impression in foreign countries, and in the closing months of the year many items of the meat exports were showing large decreases as compared with the corresponding dates of the year preceding. The cattle and live-stock shipments actually record a decline for the twelve months as a whole. With reference to the petroleum exports, these also have risen to still higher figures. The further expansion followed both as the result of another gain in the volume of the shipments and of better prices. In value the petroleum exports for the twelve months were \$85,300,400 in 1906, against \$79,640,929 in 1905, and in volume the shipments were 1,181 million gallons, against 1,165 million gallons.

188

From what has been said it will be seen that the situation was that there was an increase in the export values in the case of each one of the four leading staples. But that is not all. There was at the same time an increase in the exports in general. One exception to this statement must be made. The shipments of cotton manufactures fell off, owing in the main to the decreased demand for American goods in China and the East. Even the iron and steel exports increased heavily, notwithstanding the extraordinary consumption of iron and steel at home and the fact that domestic manufacturers were unable to keep up with the demand. The iron and steel exports in 1906 were about \$29,000,000 higher than in 1905 and \$39,000,000 higher than in 1904. To indicate the changes from year to year in the export aggregates of the leading staples and the relation of these changes to the merchandise exports as a whole, we introduce here the following table, covering the figures for the last six years.

EXPORTS OF 1	LEADING	PRODUCTS	FOR SIX	CALENDAR	YEARS.
--------------	---------	----------	---------	----------	--------

Exports.	1906.	1905.	1904.	1903.	1902.	1901.
Breadst'ffs	189,180,400 208,697,900 39,472, <b>5</b> 70	154,300,630 190,600,703 42,974,935	98,307,218 166,164,404		195,711,992	276,404,299 206,931,309 39,290,067
All other				871,686,075 613,067,008		
Total	1798107955	1626990 795	1451308 740	1484753 083	1360685933	1465375 860

It will be seen from the foregoing that the greatest gain has been in the general exports. Comparing 1906 with 1901, the value of the shipments of the five staples given has increased from \$896,395,970 to \$935,-756,990, but the "all other exports" in the same interval have risen from \$568,979,890 to \$862,350,965.

Notwithstanding the increase in the imports, the trade balance in favor of the United States for 1906 was in excess of that for either 1905 or 1904, the comparison being \$477,043,261, against \$447,846,245 and \$415,409,550. A much larger proportion, however, than usual was liquidated by shipments of gold to the United States. The net import of gold for the twelve months reached no less than \$108,990,369, against net imports of the metal in 1905 of only \$3,498,938 and a net gold outflow in 1904 of \$36,408,593. Combining the merchandise exports with the gold movement and also adding on the silver movement, we get the following comparative results with reference to the trade balance as a whole.

	YEAR	LY TRADE	BALANCE.		
Excess of— Merchan. exports4 Silver exports					1902. \$ 391,369,063 22,870,019
Total4 Gold imports1	91,728,705 08,990,369	469,420,212 3,498,938	439,457,753 a36,408,593		414,239,082 8,162,726
Grand total		465,921,274	475,866,346	484,973,728	406,076,356

a Excess of exports.

On the face of the returns there still remained an excess of exports for 1906 of \$382,000,000 after the large gold imports. How much of this would be left unliquidated after allowing for freights, for interest on American securities held abroad, for undervaluation of imports, for overstatement of the values of exports and the various other items that have to be taken into account in any such general reckoning we will not undertake to say.

As a matter of record and for the convenience of the reader, we append several additional tables which have been drawn upon very largely in the statistical references and illustrations contained in the remarks above.

MERCHANDISE EXPORTS AND IMPORTS (CALENDAR YEARS).

Note.--For years 1886 to 1906 inclusive the figures embrace gold and silver in re; in the years preceding both were included in the merchandise movement.

## COTTON SUPPLY AND CONSUMPTION IN EUROPE.

Mr. Ellison's "Annual Review of the Cotton Trade for the Year 1906" was issued in Liverpool on Wednesday of the current week, and the cable brings us all the results of interest given therein. We have received, as usual, not only the statistics of supply and consumption for the calendar year 1906 and the first three months of the new-crop season, but also such estimates as Mr. Ellison furnishes for the full season ending October 1 1907. The actual figures of spinners' takings, consumption and stock in GreatBritain and on the Continent for 1906, in bales of 500 lbs., have been as follows:

SPINNERS' TAKINGS, CONSUMPTION AND STOCKS IN 1906.

In 500-lb. Bales.	Gt. Brit'n.	Continent	Total.
Stocks January 1 1906 Takings	330,000 3,890,000	585,000 5,384,000	915,000 9,274,000
Supply Consumption	4,220,000 3,779,000	5,969,000 5,304,000	10189000 9,083,000
Stocks January 1 1907	441,000	665,000	1,106,000
Weekly consumption	72,673	102,000	174,673

It will be observed that the average weekly consumption of the mills in Great Britain is greater than in any preceding year, having been 72,673 bales of 500 lbs. each in 1906, or a gain of 1,558 bales per week over 1905 and an increase of 12,044 bales per week over 1904. Continental consumption, however, shows an augmentation over the 1905 rate of 2,500 bales, being at the rate of 102,000 bales per week. For the whole of Europe the 1906 average weekly rate, and consequently the total consumption, exhibits a satisfactory excess over 1905 and a decided gain over earlier years. Surplus stocks at all European mills at

the end of the year are placed at 1,106,000 bales, or 191,000 bales more than they stood at the opening.

In the above compilation the results for 1906 only are presented; to bring out clearly the relation the 1906 figures bear to those for previous years, we have prepared the following, which covers the period from 1897 to 1906, both years included:

Bales of 500 lbs. Each.	Spinners Stock Jan. 1.	Takings.	Supply.	Consump- tion.	Spinners' Stock Dec. 31.	Weekly Consump- tion.

Official returns from the mills of Great Britain made public since the close of 1906 confirm the periodical reports of the profitable nature of the year's operations. At the same time, the aggregate profit of all the establishments making returns has not been as great as in the preceding year. It is satisfactory to state, however, that all mills shared in the profits recorded. Our cable states that 104 companies in the Oldham dis trict exhibit an aggregate profit of £692,343 in 1906, or an average of £6,657 per mill, against a profit of £7,780 per mill in 1905, only £275 in 1904 and a loss of £658 per mill in 1903. The showing made by the Oldham mills since 1891 has been as follws:

	Com-	Profit + or	Profit or Loss
Years-	panies.	Loss -	per Mill.
1906	104	$+\pounds692.343$	$+ \pounds 6,657$

A feature of the year in Great Britain has been the decided increase in spinning capacity. For a number of years up to and including 1904 the yearly additions to the number of spindles were strictly moderate or unimportant, but in 1905 a gain of 1,000,000 spindles was reported by Mr. Ellison. In the year just closed, however, the augmentation of spindles has been on a comparatively radical scale. New establishments using Egyptian cotton exclusively, with approximately 2,000,000 spindles, have started in full or in part, and in new mills using American cotton about 1,500,000 spindles have got fully or partly to work. But even these important additions are not a full measure of the increase, as mills are now being erected with a further eapacity of over 3,000,000 spindles, of which two-thirds are to be used on American cotton.

We have also received separately by cable the figures of takings, consumption, &c., for the last three months of the calendar year 1906. Those three months are the first quarter of the current season, beginning with October 1 1906. For those three months the spinners' takings in *actual* bales and pounds have been as follows:

Oct. 1 to Jan. 1.	Great Britain.	Continent.	Total.
For 1906. Takings by spinnersbales Average weight of baleslbs. Takings in pounds		1,504,000 490 736,960,000	
For 1905. Takings by spinnersbales Average weight of baleslbs. Takings in pounds		$1,308,000\\488\\638,304,000$	

According to the above, the average weight of the deliveries in Great Britain is 505 pounds per bale this season, against 499 pounds during the same time last season. The Continental deliveries average 490 pounds, against 488 pounds last year, and for the whole of Europe the deliveries average 496.5 pounds per bale, against 492.9 pounds last season. Our dispatch also gives the full movement for the three months this year and last year in bales of 500 pounds.

	-	1906.		1905.

Fpinners' stock Jan. 1	441	665	1,106	330	585	915	
Weekly Consumption, 000s omitted. In October In November In December	74 74 75	$     \begin{array}{r}       105 \\       105 \\       105     \end{array} $	179 179 180	74 74 74	101 101 101	175 175 175	

The foregoing shows that the weekly consumption is now 180,000 bales of 500 pounds each, against 175,000 bales of like weights at the corresponding time last year. The total spinners' stocks in Great Britain and on the Continent have increased 284,000 bales during the month and are now 191,000 bales more than at the same date last season.

According to our cable, Mr. Ellison revises the figures given last October of estimated requirements for the season of 1906-07, increasing his previous total to the extent of 306,000 bales of 500 lbs. each. The revised estimate is as follows:

Estimated 1906-07. Bales.	Actual 1905-06. Bales.	Actual 1904-05. Bales.
2,371,000	11,967,000	11,768,000
1,400,000	1,288,000	872,000

## RAILROAD GROSS AND NET EARNINGS FOR NOVEMBER.

The course and character of the returns of railroad earnings at the present time are well indicated in the compilations we present to-day for the month of November. With \$9,573,502 increase in gross earnings, the gain in net earnings amounts to only \$1,559,127. Two features in this exhibit attract attention: (1) the gradual shrinkage in the amount and ratio of the improvement in gross and (2) the growing magnitude of the augmentation in expenses, which is serving almost to extinguish the improvement in the net. In the case of many separate roads gains in gross have actually been attended by losses in net, and the same is true with respect to certain groups of roads.

The situation appears to be that comparison is now with very large totals of earnings, and the railroads are no longer able to maintain the exceptionally heavy ratios of gain previously shown, while at the same time cost of labor and materials and supplies and all things that enter into the operating accounts of the railroads are steadily increasing. Worst of all, the railroads are so handicapped with a volume of business in excess of their ability to handle that they no longer find it possible to transport freight with due economy. In the case of the Great Northern and some other roads in the same section of the country (which, however, are not included in our presentation of net earnings, since the roads referred to do not furnish monthly reports of their net), the whole freight schedules were entirely deranged and congestion of freight increased by the hurrying through of coal trains on passengertrain schedule to relieve the fuel scarcity which developed in the Northwest. There was a large falling off during November in the Western grain movement, but this has itself been attributed to the failure of the roads to furnish cars for the purpose in sufficient number-with what truth cannot be said with great certainty. On the other hand, Southern roads were favored with a large increase in the cotton movement. The same roads had a still further advantage in the fact that a number of them were comparing with diminished earnings the previous year, the yellow fever quarantines at that time having served to curtail the traffic and revenues of such lines. Yet it is precisely these Southern roads that make the poorest showing as to net. The Southern group collectively has \$1,-367,765 gain in gross, with \$696,704 loss in net.

	November. (97 roads.)			January 1 to November 30. (92 roads.)			
	1906.	1905.	Inc. of	r Dec.	1906.	1905.	Inc. or Dec.
Gross Exp.	\$ 140,697,123 92,631,836	\$ 131,123,621 84,617,461	+9.57 +8.01	3,502 4,375	\$ 1,425,356,448 962,099,390	\$ 1,273,179,382 871,510,107	\$ + 152177066 +90,589,283
Net_	48,065,287	46,506,160	+1,58	59,127	463,257,058	401,669,275	+61,587.783

We need hardly say that United States railroads as a whole in November of the previous year showed very important gains in both gross and net, notwithstanding the embargo on traffic occasioned by the yellow fever quarantines. Our statement for November 1905 indicated \$12,412,497 gain in gross, or 10.28%, and \$5,187,518, or 12.28%, gain in the net. Moreover, these gains themselves followed large gains in the same month of preceding years, though the course of the net was not always the same as that of the gross, as will be seen from the following comparative exhibit.

	Gross Earnings.			Net Earnings.

Note.—In 1896 the number of roads included for the month of November was 127; n 1897, 134; in 1898, 130; in 1899, 122; in 1900, 122; in 1901, 109; in 1902, 107; in 1903, 106; in 1904, 102; in 1905, 96; in 1906, 97. From Jan. 1 to Nov. 30 1896 the number included was 117; in 1897, 123; in 1898, 100; in 1899, 113; in 1900, 122; in 1901, 99; in 1902, 104; in 1903, 98; in 1904, 98; in 1905, 91; in 1906, 92. We no longer include the Mexican roads or the coal-mining operations of the anthracite coal roads in our totals.

In the case of the separate roads, the characteristics already noted stand strongly revealed. The reader will understand that by this we mean that where there is large improvement in the gross it is often attended with a very small improvement in the net, and not infrequently with actual decreases in the net. As types, the Pennsylvania Railroad on its Eastern and Western lines combined shows \$1,137,200 increase in gross with \$2,700 decrease in net, the Illinois Central with \$42,275 increase in gross has \$271,555 decrease in net, the Canadian Pacific with \$493,040 gain in gross has \$98,188 loss in net, the Southern Ry. with \$126,605 increase in gross falls \$251,780 behind in net, and similarly the Atlantic Coast Line, though having added \$143,605 to its gross, has sustained a reduction of \$169,665 in the net. Exception must always be made of the Union Pacific and the Southern Pacific, which have strikingly good exhibits as to gross and net alike. In the following we have brought together all changes for the separate roads in excess of \$30,000, whether increases or decreases.

Total (24 roads) .....\$3,353,390

x These figures are for the Rallroad Co.; the Coal & Iron Company reports a decrease of \$125,495.

• When arranged in groups, three of the groups show losses in the net, though no group has fallen behind in the gross. The Southern group, as already pointed out, has suffered most seriously. Out of the 26 roads embraced in that group only three have decreases in the gross, while no less than 18 report decreases in net. The Southwestern and South Pacific group is the one

group that shows large improvement in gross and net alike. This group includes the Southern Pacific, which leads all other roads in amount of gain in gross and net, but aside from that fact Southwestern roads have very satisfactory returns as a rule.

Besides the roads which furnish monthly returns of both gross and net earnings, there is a considerable number of companies that make public only the gross earnings, the list including several prominent systems. Starting with the total of the gross in the foregoing, we add on these other roads in the table which we now present.

In this way the increase in the gross earnings is raised to \$10,971,289, but the ratio of improvement is not changed materially, being 6.24%. The present improvement, it is proper to state, follows \$15,571,442 gain (10.35%) in November 1905 over November 1904, according to the same method of computation.

TREASURY CURRENCY HOLDINGS.—The following compilation, based on official Government statements, indicates the currency holdings of the Treasury on the first of November and December 1906 and January 1907. Statements for corresponding dates in previous year will be found in our issue of January 27 1906, page 198.

## BUSINESS IN ENGLAND IN 1906. (Communicated by our London Correspondent.)

#### January 12 1907.

The improvement in trade which began a couple of years ago made marked progress during 1906. But the improvement was almost confined to the foreign and colonial trade. The home trade is still rather depressed. The crisis of 1890, accompanied as it was by a revolution in Argentina and by a general breakdown in all the South American countries, as well as by severe depression in Spain, Portugal and Greece, followed soon after by the silver crisis in the United States and by the banking collapse in Australia, caused investors in this country to withdraw from investment in foreign countries. For a very considerable time they confined themselves to home and colonial investment, and it used to be remarked with surprise that while the Baring crisis bore heavily upon the wealthy, the working classes seemed to be better off than ever and wages were exceedingly well maintained. As a matter of fact, there was very marked activity in all kinds of home enterprises. Building was, perhaps, exceptionally active and the towns grew at an extraordinary rate. Gradually, however, home enterprise was carried too far. There was a setback in the building and other trades, and a couple of years ago, in consequence, the investing public once more turned its attention to foreign countries. The result has been a very large investment, not only in our colonies, but in North and South America, Egypt, India and the Far East.

Our exports, in consequence, have grown at an extraordinary rate. For example, the exports of November 1906 show a gain of over 43% compared with the exports of November 1903. It is true, of course, that this very large gain is due to some extent to a marked rise in prices. Practically about half the increase may be ascribed to the rise in prices and half to the expansion in quantity. The largest expansion was in iron and steel and in machinery. The imports have increased during the year satisfactorily, but to nothing like the extent in which the exports have increased. In November, for example, the gain in the imports compared with November of three years before was only about 10%. Apart from the large investments abroad there has been a very marked increase in the purchases of British goods by other countries. Germany, in particular, has imported unprecedentedly large quantities of British iron, steel and coal. The United States, also, in the last three or four months of the year imported very large quantities of iron and steel. Mainly this was due of course to the extraordinary prosperity of German and American trade; but to some extent it was due, in the case of Germany, to great floods, which made it difficult to navigate the canals, and to the inability of the railways to find sufficient rolling stock to carry the goods. In short, it was found cheaper and more expeditious to get iron and coal from England for the northern parts of Germany than to get either from the German mines. There was a marked increase, likewise, in the re-exports. A considerable part of our imports was, in fact, brought here for the purpose of being sold to other countries.

The Board of Trade returns for December show that the value of the imports for the twelve months was £607,987,893, being an increase of £42,967,976 over the preceding year, or 7.9%. The value of the exports of British and Irish produce and manufactures for the year was £375,672,913, the highest on record, being an increase over the preceding year of £45,-856,299, or 13.9%. The total value of the re-exports was £85,163,386, being an increase of £7,383,473, or 9.5% Thus the net imports amounted to £523,000,000, and the excess of imports over exports to £147,000,000.

The traffic returns of the seventeen principal railways of the United Kingdom for the year show that the passenger receipts amounted to £43,163,000, being an increase of

£706,000 over the preceding year, or 1.6%. The goods receipts amounted to £52,409,000, being an increase of £1,-464,000 over the preceding year, or 2.8%.

The revenue returns for the year 1906 bear eloquent testimony to the prosperity of the country. The Chancellor of the Exchequer had estimated a decrease in the receipts for the year of £1,223,000 because of the remission of taxes. As a matter of fact, for the nine months of the financial year which have thus far elapsed, the receipts amount to £90,-834,838, being an increase over the corresponding period of last year of £1,497,763. This shows an increase over the estimates of nearly two and three-quarter millions sterling, even assuming that there is no further growth in the last quarter of the year. In this last quarter (which is only just beginning) the receipts always exceed those of any other quarter of the year, because the great bulk of the income tax is paid in those three months. Consequently it is reasonable to anticipate that the increase will be decidedly larger. Probably the total growth of revenue will exceed the estimates by more than three millions sterling. It is known that large economies have been effected. The returns issued on the last day of December and covering the preceding nine months show a very considerable decrease. But it is possible that much of the decrease represents a mere postponement of payments. Until the 31st of March it will not be possible to determine what the total savings are, but it looks as if the savings would be at least two millions sterling. It seems to follow, therefore, that the Chancellor of the Exchequer will have a large surplus to dispose of. In any case, the figures as they stand are an evidence of the activity of trade.

The London Clearing House returns show that the grand total of clearings during the year amounted to £12,711,-334,000, being an augmentation over 1905 of £423,399,000. The Honorary Secretary to the Clearing House states that for six successive years the annual totals of the paid clearings have exceeded all previous totals, a sequence only equaled in length by the years 1868 to 1873, in the last year of which the total was less than half of the total for 1905. The increase for the past twelve months is considerably less than the increase of 1905 over 1904. But there is a rise under every heading except on the Stock Exchange account days. In other words, owing to the political apprehensions and dear money, the Stock Exchange has been far less active than in 1905. The Hon. Secretary points out that during the first half of 1906 the gain in the clearings was greater than in the latter half, and that the slight falling off in the latter half has been contemporaneous with the rise in the value of money. Evidently, therefore, there has been some check to trade as well as to Stock Exchange business by the scarcity and dearness of money.

well as to Stock Exchange business by the scarcity and dear-ness of money. Agriculturally the year was checkered. In the south, southwest and east of England the latter half of March, the work of April and May and the first half of June were ex-pected ingly dry and cold. The weather was propilious enough of the sowing of spring crops, but it was exceedingly up and the first half of September were exceptionally hot and dry. The drought that ensued made the hay crop a very short on a seriously injured the root crops, feeding grass and green erops in general. The root crops were so bad, indeed, that particularly so. The latter half of September, however, rain the drought that ensued made the hay crop a very short on and seriously injured the root crops were so bad, indeed, that prices. Towards the end of September, however, rain hydro for the winter. They consequently sold their cattle at what prices they would fetch, which caused a serious fail in prices. Towards the end of September, however, rain be provided the over seast and prelam, where it was a flected what prices they would fetch, which caused a serious fail in prices. Towards the end of September, however, rain be provided and wet. Grass, green crops, root crops, and so on, were all abundant, especially the potato crops was affected by disease. Thus towards the end of the year cattle farming there would be abundance of feed. Nevertheless, prices hows a decrease of 41,279 acres, the total acreage now but slightly exceeding a million and three-quarter acres. The areage under barley, on the other hand, increased to just a little over a million and three-quarters acres, so that the areage under barley, on the other hand, increased to just a little over a million and three-quarters acres, so that the areage under the latter crop is now practically equal to that one wheat. There is little change in the acreage under otar, which again considerably exceeds three million acres.

18 Toral School warding

In the minor crops—rye, peas and beans—there is a very great increase in the cultivation of beans, and an almost corresponding decrease in the cultivation of peas. The total yield of wheat during the year was 59,091,772 bushels, being an average of 33.66 per acre. The yield of barley was 60,-553,977 bushels, or 34.58 per acre. The yield of oats was 123,383,857 bushels, or 40.55 per acre. Since the new wheat crop began to be marketed there has been an average fall of 4s, per quarter. The price in consequence is now 2s, per of 4s. per quarter. The price in consequence is now 2s. per quarter lower than this time last year. Home-grown wheat is, of course, so small a proportion of the total consumption

is, of course, so small a proportion of the total consumption of the country that the price of the home article is entirely regulated by the price of foreign. In the coal trade the year just closing has been one of the most active and prosperous for a very long time past. In recent periods the only year comparable to it is that of 1900. But the activity and rise in prices in 1900 was due in large measure to a war demand for shipping, whereas the demand of the year just closed was entirely due to the extreme pros-perity of trade all over the world, and more particularly to the extreme prosperity of the United States and Germany. The manufacturing industries of this country, as already observed, had become very active in 1905, and continued to increase in activity during the whole of the past year. Yet it was not until the second half that the coal trade seemed to feel the influence. In the second half there was a deit was not until the second half that the coal trade seemed to feel the influence. In the second half there was a de-cided rise in prices, and to a very large extent this was due to the demands of the United States and of Germany. The demand for house coal has been small, for the winter of 1905-06 was exceptionally mild; and, until Christmas, this winter was also warm and genial. The demand for all other kinds of coal, however, in the second half of the year became very marked, and prices in consequence rose con-siderably. The best anthracite was quoted 19s.  $4\frac{1}{2}$ d. on the last day of 1905; on the 1st day of 1907 the quotation was £1 1s. Steam coal at Cardiff was quoted on the last day of 1905 12s. 6d.; on the first day of 1907 it was quoted 17s. Steam coal at Newcastle in the interval has risen from 9s. 6d. to 12s. 6d.; steam coal at Glasgow from Ss. 9. to 10s. 98. 6d. to 12s. 6d.; steam coal at Glasgow from 8s. 9. to 10s. 3d.; best gas coal at Durham from 9s. 6d. to 11s. 6d.; and best foundry coke at Newcastle from 16s. 9d. to £1 4s.

95. 0d. to 125. 0d.; steam coal at Giagow from 5s. 9. to 105. 3d.; best gas coal at Durham from 9s. 6d. to 11s. 6d.; and best foundry coke at Newcastle from 16s. 9d. to £1 4s. Colliery shares have improved in consequence of the improved outlook of the coal trade. There was no very great activity in these shares, however, until the second half of the year; and even in the second half the rise was only moderate. The total exports of coal, coke and manufactured fuel amounted to 57,792.204 tons against 49,359,272 tons in the previous year, an increase of 8,432,932 tons, or 17.1%. The value was £31,504,291 against £26,061,120, being an increase of £5,443,171, or 20.9%. The iron and steel trades fared better even than the coal trade. The main feature of the trade was the enormous foreign demand, more particularly the demand for the United States and Germany. But the year was also remarkable for the largest importation of foreign iron ore, for the largest production of pig iron, for the largest shipments of pig iron, for the largest output from the steel works of this country. for the largest exports of manufactured iron and steel, and for the largest tonnage of shipping ever launched in one year. It will thus be seen that in every branch of the trade there has been extraordinary prosperity; so much so that com-panies which had paid no dividends to their shareholders for years have been able to distribute very handsome amounts. Prices of all kinds have risen, and there is great hope respect-ing the future. For a considerable time past the production of iron ore in this country had been declining. In the past year it increased. As the official figures are not yet accessi-ble, it is impossible to state how much, but there appears to be no doubt that there has been an increase. Furthermore, the imports of foreign iron ore have gained. It is noteworthy that the imports from Spain have increased, whereas until the past year it was feared that Spanish iron mines were be-coming exhausted. The manufacture of pig iron w The exports of iron and steel, raw and manufactured, amounted to 4,688,846 tons against 3,721,382 tons in the previous year, an increase of 967,464 tons, or 26.1%. The total value of the exports was £39,880,563 against £31,826,-438 in the previous year, being an increase of £8,054,125, or 25.3%

or 25.3%. The cotton trade in all its branches was prosperous through The cotton trade in all its branches was prosperous through-out the year. It was, perhaps, more prosperous in the second half than in the first, but it was very good all through the year. The demand, both home and foreign, for the manu-factured article was exceptionally large, and production, consequently, was on an augmented scale. In the spinning branch the demand was greater than the supply, partly because of the great outturn of the weaving branch, and partly because new spindles were not brought into operation as quickly as had been expected. Twelve months ago it was known that a very considerable number of new spinning mills were under construction and projected. It was ex-pected that a sufficient number of them would be at work during the past year to fully meet the demand for the weav-ing branch; but that has not proved to be the case. Ac-cording to one authority on the subject, there are just com-pleted, under construction or projected 195 new mills, with about eight and a half millions of spindles. "On the other

 Ind, the number of new looms is very moderate. The same authority estimates them at about 80,000. There is, however, much diversity of view on the subject. In consequence there is a feeling in some quarters that the limit of expansion of the Lancashire weaving branch is nearly reached, while the expansion of the spinning branch seems to have received a new stimulus. The best opinion, however, does not accord with this. It is pointed out that many of the new mills will not be fully equipped for a considerable time and that possibly during the new year the spinning branch seems to have received a new stimulus. The best opinion, however, does not accord with this. It is pointed out that many of the new mills will not be fully equipped for a considerable time and that possibly during the new year the spinning branch seems to have received a new stimulus. The best opinion, however, does not accord with this. It is pointed out that many of the new mills will not be fully equipped for a considerable type state that many of the new mark the spinning branch. However that may be, the prospect at present is for full activity for both branches during the new year.

 According to a calculation lately made, 70 or 80 spinning formanies, with a total capital of about five millions sterling, had declared profits averaging about 18% of the share equital and about 13% on the share and loan capital combined. Very many of the spinners do not make their accounts public; but it is believed that these 70 or 80 companies are fairly representative. The accounts of few of he weavers are published. There is not, therefore, the same the profits were at least as large and probably somewhat he profits were at least as large and probably somewhat he profits were at least as large and probably somewhat he lowest is 1.3d, whereas in 1905 the price ranged with other years, fairly steady. Middling Americe of the r

ployees and were fully justified by the results of the past year so far as the employers were concerned. The woolen industry has been as prosperous as the cotton. The receipts of raw wool from Australia exceeded those of 1905 by about 270,000 bales. Yet the price of the raw material rose steadily during the spring colonial auctions in London. In the summer the lamentable disaster at San Francisco, a great strike in the woolen district in France, and fears regarding dear money caused a setback which sent prices at the July and September auctions lower than they were at the beginning of the year. The settlement of the Continental strikes and the re-entrance of American buyers caused a marked recovery at the November sales, so that at the end of the year prices were about 5% higher than they had been at the beginning. Moreover, although, as already said, the receipts of wool from Australia exceeded those of the preceding year by as much as 270,000 bales, it is esti-mated that the supply in the hands of the growers' agents and of merchants is smaller now than it was at the end of 1905, when unquestionably it was very small. In the opinion of the trade, the supply at present is the smallest in recent times. Therefore, the prospect for the new year is very favorable and high hopes are entertained that a further rise in prices will take place. Against this, however, it is pointed out that the new Australian clip is larger even than the clip of 1905. It is estimated that it exceeds it by 170,000 bales. Consequently, in many directions it is thought that very little further rise can be counted on; but that every-thing points to a very active and a very good business admits of no doubt. The total receipts of colonial wool in London for the six colonial wool auctions amounted to 1,313,814 bales and the total catalogued for the sales was 777,443 bales.

of no doubt. The total receipts of colonial wool in London for the six colonial wool auctions amounted to 1,313,814 bales and the total catalogued for the sales was 777,443 bales. The official figures respecting shipbuilding are not yet published, but there appears to be no doubt that the new tonnage turned out was larger than in any previous year. The total tonnage is estimated by an exceedingly good au-thority at 2,002,571 tons, having 1,845,983 horse-power. Of this total, 1,193,881 tons was constructed in England 658,830 tons in Scotland and 149,860 tons in Ireland. It is noteworthy that the northeastern district of England is Of this total, 1,193,881 tons was constructed in England 658,830 tons in Scotland and 149,860 tons in Ireland. It is noteworthy that the northeastern district of England is now competing on almost equal terms with the Clyde for the very best kind of shipping. A little while ago the Clyde stood altogether the first shipbuilding district in the world. Now the northeast of England is running it neck and neck. Messrs. Doxford of Sunderland turned out last year 20 vessels of an aggregate tonnage of 86,632 tons; Harland & Wolff of Belfast turned out 9 vessels of 85,287 tons; Swan, Hunter & Wigham, Richardson, 21 vessels of 74,424 tons; Russell & Co., 18 vessels of 71,540 tons, and William Gray & Co. 19 vessels of 63,226 tons. The Clyde turned out a much larger quantity of work than in any previous year, yet has not constructed any large vessel to compare with those built by the preceding builders. The Cunard Com-pany's two turbine steamers were both completed in the year just closed. The Lusitania was launched in June and the Mauritania in September. They are each of about 33,000 tons, with 45,000 tons displacement and 72,000 horse-power. The White Star steamer Adriatic, of about 25,000 tons, was also launched last year, and the warship Dreadnought, of 18,000 tons displacement; the Lord Nelson, of 16,500 tons displacement, and the Agamemnon, of about the same size, were all launched in 1906. The prospects for the new year are far less bright than were those at the beginning of the year just closed. Then the orders were abundant; now they are few and far between, and the outlook is not encouraging unless freights rise considerably or the cost of new ships falls very materially.

very materially. The stock markets were kept down all through the year by disturbing politics and dear money. In December 1905 the Unionist Government resigned and a Liberal Government came into office. The following month the General Elections were held and gave an unprecedentedly large majority to the new Government. The city is intensely Conservative, and it therefore looked with much disfavor upon the new Government. Besides, the Ministers had strongly resisted the introduction of Chinese labor into South Africa, and had practically pledged themselves to put an end to it. Therefore it was feared that the new Government would proceed to action which would seriously injure the goldmining industry and plunge South Africa once more into distress. There is an immense amount of British capital invested in South Africa and the policy of the new Government offended very many who in other matters fully sympathized with it. There was, in consequence, a heavy fall in South African mining shares. The market for these securities continued very depressed until the issue the other day of the new Constitution for the Transvaal, when it was found that the Ministers were not quite so black as they had been painted. Since then there has been come slight recovery. The recovery, however, does not fully represent the change in popular sentiment. There is now an inclination to hope the best from the new Constitution and to expect that South Africa will very soon enter upon a period of great prosperity. The unfavorable effect of the change of Government was

The unfavorable effect of the change of Government was heightened by apprehensions respecting the relations between Germany and France. In the preceding year the two countries had agreed to the Algeciras Conference, and the British Government, though it had at first refused to attend, withdrew its objection at the request of France. The Conference met in January, and for a long time serious anxiety was entertained. It very soon became plain that the great majority of the governments represented at the conference were in favor of France; and, accordingly, it was feared that a decision would be arrived at to which Germany would refuse to agree, and that, in consequence, the conference would break up without doing anything. Happily, an arrangement was arrived at satisfactory to both parties; and since then a more hopeful feeling has prevailed. Still, the feeling was not allowed to translate itself into acts because of the condition of Russia. Early in the year that condition was grave indeed, and most people were prepared for a violent revolution. Gradually, however, the disturbances came to an end, and although the Duma was dissolved, there was no repetition either of the strikes or of the mutinies. Since then, the Army has continued to obey orders and quiet has been maintained. Still, the public looks on with a certain distrust because it is generally recognized that the revolution is only in its early stages and that at any moment something quite unexpected may happen. Anxiety was also occasioned during the year by the antagonism of the nationalities in Austria-Hungary and the fear that Austria and Hungary themselves might come into

Anxiety was also occasioned during the year by the antagonism of the nationalities in Austria-Hungary and the fear that Austria and Hungary themselves might come into collision. At one time, indeed, it looked as if the Magyar Party was prepared to face a quarrel both with the Emperor and with the Austrian Government. Happily, an arrangement between the Magyar Party and the Emperor has been arrived at and there seem now to be good grounds for hoping that a satisfactory arrangement will also be arrived at by Austria and Hungary, while in Austria itself the passing of the Universal Suffrage Bill gives hope that the quarrels of the nationalities are about to come to an end and that a Federal system will be introduced.

Other unfavorable influences were the separation of the Church and State in France, the condition of the Balkan States, the dispute between Great Britain and Turkey respecting the Egyptian boundary and the unrest of the Moe hammedans both in Africa and Asia. At the close of thyear, however, the apprehensions excited had greatly calmed down. Unfortunately, exceedingly dear money caused apprehensions of another kind and generally speaking brought about a heavy fall in securities. American securities were an exception and there has been a considerable rise in copper and diamond shares. On the other hand, nearly everything else is decidedly lower at the end than at the beginning of the year. British Government securities give about  $3\frac{1}{2}\%$  and foreign municipal securities from 4 to 5%. Foreign government securities, however, have been fairly well maintained. The most striking exception is that of Russia. In April a great international Russian loan of nearly 90 millions sterling was brought out at 89. The price fell at one time to 77. Nearly half the fall by the end of the year had been recovered, but the loan was still at a discount of about 8.

The dearness and scarcity of money referred to were due to the wonderful prosperity over all the world, the consequent strong demand of a great many countries upon London for gold, and the earthquakes at San Francisco and in Chili. The Bank rate at the opening of the year stood at 4% and because of the gold inquiry for South America,

France and the United States, it remained at that figure until the beginning of April. It was then put down to  $3\frac{1}{2}\%$ . But in May, owing to the American demand, it was raised again to 4%; reduced in June to  $3\frac{1}{2}\%$ ; raised once more in Sept. to 4%; early in October to 5%, and on the 19th of October to 6%, at which it continued to stand till the end of the year. The chief cause of the advance to 6% was undoubtedly the very large demands of New York upon London. Contributory causes were the strong demands for Egypt, and the fear of a large drain for Russia, Germany, Argentina and India. But for the rise to 6%, it is reasonably certain that a good deal of gold would have been withdrawn both for Argentina and for India. Moreover, the withdrawals for Egypt would probably have been larger than they were if the rate had not been raised. During the last two months of the year the fear continued that it would be necessary to put up the rate to 7%, for it was known that a considerable amount of gold was required by Brazil to carry out the conversion law in addition to what might be required by Argentina, Egypt and India. If there is not a revival of the American demand, it is hoped that the rate will soon be reduced, for it is believed that the Egyptian demand is now satisfied and that the Indian demand will be satisfied in a few weeks.

The new issues during the year have not been heavy. There has been a very large investment abroad, but it has only to an inconsiderable extent taken the form of public issues. The most noteworthy public offering was the bringing out of the international Russian loan here in April. For very many years before it would have been impossible to place a Russian loan here, for the political antagonism of the two countries was too pronounced to allow of success. Since the war with Japan, however, and more particularly since the establishment of the entente cordiale with France, there has been a drawing together of England and Russia. In this country, it is now believed that Russia will have to avold war-like enterprises for a long time, and it is desired to give her financial help in developing her resources. Of the total loan, somewhat exceeding 89 millions sterling, a little over 13 millions sterling were offered in London and were all subscribed for. The other loans were unimportant, being chiefly to the British Government, the colonial governments and the Indian Government, and to home and foreign municipal governments.

chiefy to the British Government, the colonial governments municipal governments. The imports of gold amounted to £46,042,590, against £38,567,895 in the preceding year, showing an increase of £7,474,695, or 19.4%. Of the total, £25,713,703 came from British South Africa, £6,901,086 from Australia, £3,227,792 from India, £151,956 from the Straits Settlements, £243,053 from Ceylon and £136,062 from New Zealand; so that of the total gold, exceeding 46 millions sterling, £36,373,652 came from British territory. The exports of gold amounted to £42,617,267, from which it would appear that there was retained £3,425,323 out of the total imported. It seems plain, however, that the demands for the arts was greater than the proportion of the imports retained at home. Of the total exports of the metal, £14,188,394 went to the United States; £6,285,046 to Egypt; £4,621,451 to France; £4,285,875 to Argentina and Uruguay; £2,802,490 to Brazil; £1,694,905 to Russia; £1,411,455 to countries unspecified; and £4,681,186 to India. The other exports were in small amounts, none of them reaching a million sterling.

and Uruguay; £2,802,490 to Brazi; £1,095,905 to Hossie, £1,411,455 to countries unspecified; and £4,681,186 to India. The other exports were in small amounts, none of them reaching a million sterling. The demand for silver, which was strong in 1905, became still stronger in the year just closed, and the price rose considerably. The highest point touched in 1906 was 33¼d. per ounce, which was 2 13-16d. over the highest price of the year before. The lowest price touched in 1906 was 29d., which was 3 9-16d. above the lowest touched in the preceding year. The principal demand was for India. The crops in India were all exceedingly good and trade was very active. The Government, moreover, had not coined very much recently, and therefore an exceptional demand for silver sprang up. So great was the demand that the exports of silver from England to India during 1906 exceeded those of 1905 by as much as £7,467,000, the value being £15,064,000 against £7,597,000. Moreover, the United States Government, having coined all the silver purchased under the Sherman Act, began to buy in the open market. This added very materially to the influence of the strong Indian demand. The French Government, likewise, was a purchaser of silver, and though, owing to the return of peace, neither Russia nor Japan bought on the scale that they did during the war, yet there was purchasing by both governments. The price of silver at the beginning of the year was 30 1-16d. per ounce. It continued to rise to 30 13-16d. at the end of February, when there occurred a sharp setback to 29d. in March. The price fluctuated until August. Then another upward movement set in, and with slight variations the price gradually reached 33¼d. in the middle of November. After that there was another setback, owing mainly to very dear money in India. The Indian Government, however, again began to purchase silver, and the price once more recovered, closing at 32 5-16d. From the Board of Trade returns it appears that the total imports of silver during the year imported. Of the total exports British India took £15,063, 927, against only £7,596,829 in the previous year. The imports of silver into India in the past year, in fact, are the largest ever recorded—are about twice the average during the 33 years immediately preceding the closing of the Indian mints.

In the table below we show the price of silver in London by months for 1904, 1905 and 1906:

PRICE OF SILVER FOR THREE YEARS.

### ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

-The public sales of bank stocks this week aggregate 200 shares, of which 110 shares were sold at the Stock Exchange and the remainder at auction. The transactions in trust company stocks reach a total of 95 shares. Eighty shares of stock of the National Park Bank were sold in two lots at 465 and 4651/8, an advance of 14 points over the price paid in December of last year, when the last previous sale was made.

-San Antonio, Texas, was designated a reserve city on the 2d inst. under the act of March 3 1887 as amended by the act of March 3 1903

-At the annual meeting of the Louisville Clearing House Association on the 15th inst, Logan C. Murray (President of the American National Bank) was elected President, to

Vice-President and Isham Bridges was re-elected Manager. A resolution was lately adopted by the Clearing House which requires the filing of monthly statements by all trust companies, the same as banks. In order to arrive at a better understanding of the new regulation, a conference was held, prior to the Association's annual meeting, between the Committee on Supervision and representatives of the trust companies. A report of this committee was submitted to the Association, but its consideration was postponed until the next meeting. It is stated that very few objections were made by the trust companies to the requirement, and these have been withdrawn.

-Miles M. O'Brien, Vice-President of the Mercantile National Bank of this city, yesterday resigned the presidency of the New Amsterdam National Bank, Broadway and 39th St., and was succeeded by F. W. Kinsman, late President of the Hamilton Bank, on West 125th St. Mr. O'Brien takes this step in order that he may devote all his time to the affairs of the Mercantile National. Since assuming direction of the New Amsterdam National about a year ago, he has had to divide his efforts in the Mercantile with the up-town institution. Mr. O'Brien remains a director in the New Amsterdam National, which he believes has a bright future, situated as it is in an increasingly important business district. Mr. Kinsman, President-elect, has sold out his in terests in the Hamilton Bank to E. R. Thomas and O. F. Thomas. Under Mr. Kinsman's direction the Hamilton Bank has prospered and grown until it now has several branches. The Mercantile National's net deposits have in-creased from \$15,624,247 to \$18,536,039 during the past week.

-The annual banquet of the Associated Banks of New York City, Group VIII., will be held next Wednesday evening in the grand ball room of the Waldorf-Astoria Hotel. By seating the guests at tables arranged for parties of eight and a few of sixteen, the effort will be to make the occasion as enjoyable as possible. The subjects of the speeches will be left entirely to the suggestion of the speakers.

The quarterly dividend to be paid Feb. 1 by the Astor National Bank of this city has been increased to 8%, 61/4% having been paid at each quarterly period heretofore. This is an increase in the yearly rate from 25% to 32%.

-The directors of the Hanover National Bank of this city, at a meeting on the 22d inst, elected E. Hayward Ferry a director and Vice-President. In the vice-presidency he succeeds Williams Halls Jr., who, however, remains a member of the board. To accept the office Mr. Ferry resigns as Vice-President of the National Shawmut Bank of Boston.

-The newly organized New Netherlands Trust Company of this city will soon make application to the courts for permission to change its corporate name to the Astor Trust Company. The new banking institution was formed last year by interests identified with the Bankers' Trust Company, 7 Wall Street, and will locate on the northeast corner of Fifth Avenue and 36th Street, when its quarters are ready for occupancy late in February .. As announced in these columns last September, Edmund C. Converse, who resigned the presidency of the Liberty National Bank two weeks ago, will take active executive charge of it, while Thomas Cochrane Jr. and Seward Prosser are to be Vice-Presidents.

-Howard E. Rank and Lamar Ross were appointed Assistant Cashiers of the Oriental Bank of this city at a meeting of the directors on Wednesday the 23rd inst.

-The Aetna National Bank of this city, which is shortly to increase its capital from \$200,000 to \$300,000, reports earnings a little in excess of 23% on its capital during the past year. The bank has not as yet paid any dividends, having pursued the policy of passing its earnings to the surplus account. It is the purpose, however, to commence the payment of dividends on an 8 or 10% basis on January 1 1908. The bank has been in business since October 1904.

-The business of the New York National Exchange Bank and the Irving National Bank of this city was merged on the 16th inst., with the adoption of resolutions by the boards of the respective institutions. The legal formalities of this consolidation, to which we adverted in our issue of January 12, will be completed on February 19, when the stockholders succeed Samuel Casseday. James S. Barret was elected of the institutions will hold special meetings to ratify the

action of their boards. The stockholders of the New York National Exchange Bank will also vote upon the propositions to increase the capital from \$1,000,000 to \$2,000,000, to change the bank's name to the Irving National Exchange Bank, and to amend the articles of association so as to provide for a board of twenty-four members, and the election of three vice-presidents. The new stock is to be issued at \$150 per \$100 share. The stockholders of the Irving National will take action February 19 with regard to placing their bank in voluntary liquidation.

—The New York Agency of the London and River Plate Bank, Ltd., has been advised by cable of the opening of a branch at Valparaiso, Chili. This agency, at 51 Wall Street, is hence now in a position to accept business for that port in addition to the already long-established relations with Brazil, Argentina, Uruguay and Paraguay.

—Arrangements have been perfected for the opening of a Manhattan office by the Brooklyn Trust Company of Brooklyn Borough on or about May 1st. The establishment of the new office, which will be located at 90 Broadway, corner of Wall Street, was decided upon by the board of directors last week. President Miller states that the opening of this branch is simply for the convenience of its many New York City patrons, the demand for such a step being imperative.

—The Home Trust Company of New York (Brooklyn Borough) will also open a Manhattan office about April 1 next, its quarters being in the new Evening Post Building at 20 Vesey Street. The interior fixtures and decorations of its banking room are to be of a unique character.

-The organization of the Mount Vernon National Bank of Mount Vernon, N. Y., has been completed, with the election of the following officers: President, Horace Loomis; Vice-Presidents, Herbert T. Jennings and D. M. Hopping, and Cashier, S. K. Raymond. As noted in an earlier issue, the capital is \$200,000.

-The First National Bank of Bayonne, N. J., which is a conversion to the National system of the Bayonne Bank, has commenced business under its new title. George Carragan continues as President and Frederick G. Perkins remains as Cashier. William H. Vreeland and De Witt Van Buskirk have been elected Vice-Presidents.

-At the late annual meeting of the board of trustees of the National Savings Bank of Albany, Egbert B. King resigned as Treasurer and was succeeded by Frederic B. Stevens. A vacancy in the board, occasioned by the resignation of J. Townsend Lansing, was filled by the election of Dr. Andrew S. Draper, Commissioner of Education, State of New York.

-The National Exchange Bank of Albany, N. Y., is to lose its identity through consolidation with the First National Bank of that city. Both banks have a capital of \$300,000, the First National having been increased to that amount from \$200,000 about six months ago. Negotiations toward consolidation have been in progress, it is stated, for some time past, and the desired end was made possible through the acquisition last week by President F. A. Mead of the First National of about 600 shares of National Exchange stock held by Mrs. John D. Parsons Jr., the widow of its former President. At meetings of the directors of the two banks on Wednesday, the proposed consolidation was recommended for acceptance by the stockholders. According to the plan, the First National is to take over the assets of the National Exchange, increasing its capital from \$300,000 to \$600,000 to pay for the stock of the Exchange bank. It is said that to place the banks on an equal basis it will probably be necessary for the National Exchange Bank to declare an extra dividend of 20% to its stockholders. While the consolidating banks each have a capital of \$300,000 and surplus of \$100,000, the Exchange Bank has also undivided profits of about \$60,000. The enlarged First National Bank will have, besides a capital of \$600,000, a surplus of \$200,000. Fred-erick A. Mead, who became President of the First National in May 1905, is to continue as chief executive. John J. Gallogly, Vice-President of the National Exchange, will have a similar office in the new bank. The uniting institutions have been in close relationship with the Albany Trust Company, President Horace G. Young of that company being a Vice-President of the First National and a director of the National Exchange.

-The directors of the Fidelity Trust Company of Buffalo, N. Y., at their recent annual meeting elected George D. Sears to the position of Trust Officer.

-Loran L. Lewis was recently chosen to replace the late Nathaniel Rochester as President of the Third National Bank of Buffalo, N. Y. R. B. Adam has become a Vice-President of the institution.

-The stockholders of the Old Colony Trust Company of Boston adopted an amendment to the by-laws on Wednesday, increasing the number of directors from twenty-four to thirty. With the exception of the late George F. Fabyan, the old board was re-elected, and the following chosen as new members: Charles S. Mellen, Robert T. Paine 2d, Philip L. Saltonstall and Charles W. Whittier.

—The name of the American Loan & Trust Company of Boston is to be changed to the American Trust Company as soon as legislative permission is obtained to that end.

-George F. Fabyan, a member of the dry-goods firm of Bliss, Fabyan & Co. of Boston, and one of the incorporators of the Old Colony Trust Company, of which he was a director, died on the 18th inst. He was also identified with numerous other corporations.

-Charles H. Dutton Jr. has been elected Second Vice-President of the Merrimack National Bank of Haverhill, Mass.

-Elisha J. Neall, previously Vice-President, has been elected to the presidency of the Appleton National Bank of Lowell as successor to Charles H. Allen.

-Wendell E. Turner has been elected Vice-President of the Fall River (Mass.) National Bank, succeeding Herbert Field.

-It is reported that interests in the Chelsea Trust Company of Chelsea, Mass., now in process of organization, have secured control\*of 7,000 shares of the stock of the Winnisimmet National Bank of Chelsea. It is stated further that an offer of \$165 per share (par \$100) has been made for the outstanding stock by F. S. Moseley & Co., who represent the purchasing interests. The acquisition is taken as an indication that the business of the bank will be taken over by the new trust company. The bank has a capital of \$100,000.

-The stockholders of the failed Pynchon National Bank of Springfield, Mass., have been notified of an assessment of 49% on their holdings, to be paid on or before January 26. To shareholders paying 25% of the assessment by that date, an extension to pay the remaining 24% by February 24 is granted. The bank (capital \$200,000) went into receiver's hands in June 1901. While it is stated that through the settlement of a patent suit now pending the amount of the assessment may be refunded, some dissatisfaction is expressed by the stockholders at the levying of the assessment. In March 1902, when arrangements were being perfected for the settlement of the bank's affairs, the stockholders took up at 95 bonds of the American Writing Paper Company (par \$100) to the amount of \$577,000, held by the bank at the time of its suspension. Those who bought the bonds at this price and sold them at 71 feel that with the present assessment they are being asked to pay more than the legal limit of 100%. The depositors have thus far received 98% of their claims, but besides the remaining 2% they are also entitled to interest on their claims.

-The Fidelity Trust Company of Portland, Me., which began business less than a year ago-that is, on April 9 1906 -reports deposits January 19 1907 of \$842,366. On October 17 the amount of the deposits was \$648,918. In the interval undivided profits have increased from \$8,866 to \$16,542 and aggregate resources have risen from \$960,209 to \$1,181,-334. The institution has capital and surplus of \$150,000 each. Its officers are Edward P. Ricker, President; Charles Sumner Cook and Frederick O. Conant, Vice-Presidents, and Ernest J. Eddy, Secretary and Treasurer.

-The one hundredth anniversary of the Farmers' & Mechanics' National Bank of Philadelphia was celebrated on the 17th inst. with a banquet at the Bellevue-Stratford. The event was marked by the delivery of several apt addresses, the principal speaker being Charles H. Treat, Treasurer of the United States. Other speakers at the gathering were Joseph Wharton, President of the American Iron & Steel Association; Edward T. Stotesbury; State Treasurer William THE CHRONICLE.

H. Berry, W. N. Ashman of the Orphans' Court, and John Weaver, Mayor of Philadelphia. President Howard W. Lewis, who presided at the affair, reviewed the history and development of the bank since its beginning on January 17 1807. During the hundred years it has handled \$563,000,000 for the nation, \$268,000,000 for the State of Pennsylvania and \$646,000,000 for the City of Philadelphia, and this without the loss of a single penny. The bank was nationalized in 1864, and in 1868 it was appointed loan and transfer agent for the State of Pennsylvania and the Philadelphia Clearing House Association; since 1872 it has acted in a similar capacity for the City of Philadelphia. The institution now has a capital of \$2,000,000 and surplus and profits of \$1,170,000. Altogether it has distributed \$12,497,000 in dividends during its existence.

-Henry Shetline has been elected Vice-President of the Sixth National Bank of Philadelphia to fill the vacancy due to the death of George May.

-Andrew Long, Cashier of the Exchange National Bank of Pittsburgh, was elected President of the Pittsburgh Clearing House Association at the annual meeting last week, succeding R. S. Smith. The Vice-President elected was Charles McKnight, President of the National Bank of Western Pennsylvania. W. W. McCandless was re-elected Secretary and Manager.

-E. M. Bigelow, who has been Vice-President of the Liberty National Bank of Pittsburg 1, has been elected President in place of Ira F. Brainard.

-Frederick A. Dolfield has resigned as Assistant Cashier of the National Howard Bank of Baltimore to take the presidency of the Canton National Bank of Baltimore. In his new offices he succeeds H. J. McGrath, whose re-election at the annual meeting on the 10th inst. was announced as only temporary, he having consented to accept the post until the selection of a suitable successor.

-The new American National Bank of Cincinnati, Ohio, opened for business in its quarters in the Harrison Building on the 21st inst. The capital, as before pointed out, is \$500,000 and the surplus \$50,000. Dr. J. M. Crawford, former Consul-General of the United States to Russia, is President of the institution; William Christie and J. M. Blair are Vice-Presidents; Herbert N. Winans, Cashier, and O. L. Ballinger and James M. Fisher, Assistant Cashiers. -C. C. Richardson has resigned as Vice-President and director of the Cincinnati Trust Company, of Cincinnati, Ohio. George H. Worthington replaces him on the board.

-The opening of the American Trust & Savings Company of Springfield, Ohio, lately formed, occurred on the 5th inst. N. H. Fairbanks is President of the new institution, which is domiciled in especially well-appointed banking rooms. The company has as Vice-Presidents Paul A. Staley and W. H. McCord, and H. E. Freeman is the Secretary and Treasurer.

-The new Mercantile National Bank of Evansville, Ind., formed several months since with \$200,000 capital, has commenced business. It is managed by James V. Rush, President; Louis A. Daus, Vice-President; Joel Bailey, Cashier, and Ezra H. Bauer, Assistant Cashier.

—The stockholders of the Grand Rapids Savings Bank of Grand Rapids, Mich., are interested in a new bank to be established at Madison Square—a suburb of Grand Rapids and incorporated under the name of the Madison Square Bank. Frank J. Cook will be manager of the institution.

-On charges alleging misapplication of the funds of the Chicago National Bank of Chicago, Ill., an indictment of 182 counts was returned on the 18th inst. against its President, John R. Walsh, by the special Federal Grand Jury of the Northern District of Illinois. Mr. Walsh gave bonds to the amount of \$50,000. Feb. 6 has been set as the date for the filing of pleadings to the indictment. The Chicago National, it will be recalled, and two other Chicago institutions controlled by Mr. Walsh-the Equitable Trust Company and the Home Savings Bank-closed their doors in December 1905. In a statement issued on Friday the 18th inst. by counsel for Mr. Walsh, namely, John S. Miller, Edward C. Ritcher and Samuel R. Hammill, suspension of public judgment is asked until there has been a fair and impartial trial. "An indictment," they state, "does not raise even a presumption of guilt. The presentation of the matter before

a grand jury was necessarily ex parte. Mr. Moxey, the Government expert, worked for eight months to acquaint himself with the accounts of the bank. Of course in the short time during which the jury considered the case Mr. Moxey could only testify to his conclusions, and not to the specific facts in detail-much less all the facts which would explain or justify the acts or transactions presented in part-and in the absence of an opportunity for Mr. Walsh to present any explanation or defence, it was natural for the jury to accept Mr. Moxey's statement." They add that Mr. Walsh looks forward to the opportunity of vindicating himself from these charges upon a fair trial. The basis of any offence defined by the National Banking Act, they state, is criminal intent. "The defence will be that in the whole course of his life John R. Walsh never did a criminal act or any act with a criminal intent."

-The American Guaranty Company of Chicago has added a new department to the regular lines of work which it has heretofore performed. In this department it will attend to the preparation of municipal and corporation bonds, secure the services of a trust company as trustee for bondholders, prepare the necessary deed of trust ready for execution by the officers of the corporation and the trustee, attend to all details of an issue of bonds, and certify to the genuineness of the bonds and the legality of the issue. The company claims to be the only one in the West to engage in this particular work. Its capital is \$500,000. Frederick M. Steele is President, Charles L. Furey Vice-President, Lewis W. Pitcher Secretary and James L. Bigelow Treasurer.

--Robert M. Wells, long identified with the hardware house of Wells & Nellegar Company, has been chosen Vice-President of the Bankers' National Bank of Chicago, and after Feb. 1 will actively engage in the banking business.

-The Monroe National Bank of Chicago will, it is understood, increase its capital on April 1 from \$200,000 to \$300,000. The bank now has undivided profits of \$22,000, and with the sale of the new stock at \$125 will create a surplus of \$25,000. This institution, formerly the Manufacturers' Bank, has been operating as a national bank since last March.

-The Citizens' Trust Company of Milwaukee, Wis., announces that it has secured the co-operation of Walter S. Denning in the management of its bond department, for the sale of bonds and investments of every description.

—On the 15th inst. Robert Camp was elected President of the Milwaukee Trust Company of Milwaukee, Wis., to replace the late J. H. Van Dyke Jr. David C. Green, Charles Allis and George P. Mayer have been elected directors of the company, and in addition Mr. Green has been chosen Vice-President and Treasurer, while Mr. Allis has also been elected a Vice-President. Scranton Stockdale is Secretary and P. O. Kannenberg Assistant Secretary.

-A. E. Nelson has been elected Cashier of the Union State Bank of Minneapolis to succeed L. Jaegar.

-The changes in the Minnesota National Bank of Minneapolis at the recent annual meeting were the election of Frank L. Williams<sup>\*</sup>as<sup>\*</sup>Vice-President, succeeding S. T. Johnson, and the election of J. D. Uttendorfer as Cashier, replacing H. G. Merritt, who remains a director of the bank.

—In our item last week regarding the increased surplus of the Swedish-American National Bank of Minneapolis, we stated that the bank had also increased its rate of interest from  $3 \text{ to } 3\frac{1}{2}\%$ . These remarks with regard to the increased interest rate concern the Swedish-American Savings Bank, a separate institution under the same management as the national bank.

-John Worthington, who is reported to have acquired an interest in the American National Bank of Kansas City, Mo., has been elected First Vice-President. O. L. Vanlaningham has been elected Second Vice-President and John C. Hughes (formerly Secretary and Treasurer of the Bankers' Trust Co. of Kansas City) has replaced C. B. Gray, resigned, as Cashier. C. S. Jobes has been re-elected President of the bank.

—The proposition to increase the capital of the National Bank of Commerce in St. Louis from \$7,000,000 to \$10,000,-000, acted upon by the shareholders on January 8, was carried by a vote representing nearly 60,000 shares of stock.

Of the 30,000 new shares, 10,000 are to be sold to present stockholders at \$300 per \$100 share, payable February 1 next, thereby increasing the stock to \$8,000,000. The remaining 20,000 shares are to be sold at \$100 each to stockholders of record February 4 1907, payable February 14. An extra cash dividend of \$25 per share, payable February 14, is to be declared on the \$8,000,000 stock, and this can be used to pay for the \$2,000,000 issue. The bank, it will be remembered, took over the Fourth National on December 11. When all transactions have been completed and the business of the Fourth National been paid for, the National Bank of Commerce will have a capital of \$10,000,000, surplus of \$5,000,000 and undivided profits of over \$3,000,000. At its annual meeting three new Assistant Cashiers were added to the bank's list of officers. They are J. W. Reinholdt, who formerly held the post, now discontinued, of Auditor; A. L. Weissenborn and George R. Baker. The re-elected officers are J. C. Van Blarcom, President; B. F. Edwards and Jno. Nickerson, Vice-Presidents; John A. Lewis, Cashier; C. L. Merrill, W. B. Cowan, Van L. Runyan, F. W. Wrieden and G. N. Hitchcock, Assistant Cashiers.

-E. S. Lee, formerly Cashier of the First National Bank of Covington, Ky., has been elected President of the institution. J. H. Becker has become Cashier and H. T. Reinke Assistant Cashier.

-The organization of a bank under the name of the Commercial National is under way in Covington, Ky. The capital is to be \$100,000. The incorporators are John R. Bullock, J. A. Downard, J. C. Brown, J. T. Scott, Charles S. Furber, L. D. Huffman and M. L. Kirkpatrick.

-Samuel J. Hinsdale has been elected Cashier of the Carolina Trust Company of Raleigh, N. C., succeeding H. F, Smith, resigned.

-The interest in the Union National Bank of Oakland, Cal., held by Thomas Prather, who retires as President, has been purchased by J. Dalzell Brown, Vice-President of the California Safe Deposit & Trust Company of San Francisco, and his associates. The change in control of the Oakland institution has resulted in the election of Charles E. Palmer, previously Cashier, as President; J. Dalzell Brown as Vice-President and W. W. Crane as Cashier. The bank was established in 1875 and has a capital of \$150,000.

-The recent death is announced of Andrew Thomson, President of the Unión Bank of Canada, head office Quebec.

—The banking business of John Curry & Co. of Windsor, Ontario, has been transferred to the Dominion Bank of Canada. The building in which the concern was located has also been disposed of to the bank, the purchase price of the site being, according to reports, \$60,000. The profit of the Dominion Bank for the year ending December 31 1906 were \$539,360, against \$490,495 the previous year, and the sum of \$400,000 has been transferred to the reserve fund, increasing it to \$3,900,000. The deposits are now \$36,876,-156, comparing with \$34,083,183 a year ago.

-The Royal Bank of Canada (head office Halifax) reports net profits for the year ending December 31 1906 of \$604,495. Adding the balance of \$37,162 remaining to the credit of profit and loss December 30 1905, and also the \$990,000 premium realized on new stock issued early in the year, the bank had available \$1,631,658. Of this sum \$323,783 was paid in dividends; \$20,000 was contributed to Officers' Pension Fund; \$150,000 written off bank premises account; \$73,000 appropriated in writing British consols down to 80, and \$990,000 transferred to the reserve fund (increasing it from \$3,400,000 to \$4,390,000), leaving a balance of \$74,875 to be carried forward. The bank has increased its dividend rate from 9% to 10% per annum, the January distribution (quarterly) having been 21/2%, against 21/4 % previously. From December 31 1905 to the same date in 1906 the deposits increased from \$26,435,659 to \$32,464,686, while the total assets advanced from \$36,-373,576 to \$45,437,517. The capital was increased during the year from \$3,000,000 to \$3,900,000.

-The Union Discount Co. of London, Ltd., has issued its semi-annual statement for the six months ending Dec. 31 1906. The gross profits were \$1,010,704. The deposits on Dec. 31 were \$78,207,549 and bills re-discounted \$30,566,989. The reserve fund was increased \$50,000 and now stands at \$2,250,000. The full statement appears in another column.

### Monetary Commercial English News

#### (From our own correspondent.)

London, Saturday, Janua ry 12 1907.

At the beginning of the week there was much cheerfulness in the stock markets, with the exception of the American, which, owing to the fluctuations in New York, puzzled operators. Soon, however, it got to be known that preparations were being made for withdrawing large amounts of gold for South America. As a matter of fact, two millions sterling were withdrawn on Wednesday and Thursday. For the moment this checked business and there was some setback in prices. But a quick rally followed and prices again advanced. There was special activity in the mining market. Several new mines have become gold producers, and a few mines that never hitherto have paid dividends have become dividend payers. Moreover, the monthly returns of the output show continuous increases. There is, therefore, a very much more hopeful feeling than there was. Moreover, it is believed that the Boers see that it would be unwise to get rid of the Chinese laborers until they are sure of replacing them by natives. Consequently the fear that labor would again become scarce is rapidly disappearing. Lastly, those who are best acquainted with the Transvaal are now hopeful that the elections will turn out favorably. Continental buy ing has helped British buying, and in spite of the gold withdrawals the feeling in the mining market is decidedly better than it has been for years.

For the moment activity in the market for British Government stocks and for British railway stocks is held somewhat in check. But the belief is almost universal that as soon as money becomes at all easy there will be an advance in both. Respecting the American market, there is great diversity of opinion, some fearing that the investigations into railway management and finance and the large issues of new capital will bring about a very bad state of things. Others argue, on the contrary, that if there was any real unsoundness it would have disclosed itself long before now, and that the railway traffic returns are so good and the general trade of the country so prosperous that there can be no serious setback. But the market here is waiting upon New York and follows the movements of New York slavishly.

In Paris there is a very hopeful feeling. Politically everything is regarded as most satisfactory, both internally and externally. Money is abundant, confidence is great. During recent months there has grown up a considerable speculation on the Bourse, and during the past few weeks there has been a decided increase in French investments in London, while the French banks have also added to their balances here. In Germany, in spite of the 7% rate, there is also a hopeful feeling. It is known that the Imperial Bank is desirous of reducing its rate to 6% as soon as possible. It is hoped that it will be able to do so next week. In the week ended Monday night over eight millions sterling of notes returned from circulation. It is believed that the reflux will be still larger in the current week. If so, the best opinion in Berlin is that the rate will be put down to 6%; and on the reduction the general impression is that there will be a decided increase in business on the Bourse. Trade everywhere continues most active, and the prospects for the new year are regarded as admirable. The Prussian Finance Minister, in his Budget statement at the beginning of this week, expressed the view that trade throughout Prussia is perfectly sound and most encouraging.

At the beginning of the week the market expected a re duction of its rate by the Bank of England. On what ground it based the expectation it is impossible to judge, for everything pointed to large withdrawals of gold. In addition, the fall in the New York Exchange upon London made it possible that a New York demand for gold might spring up again. Over and above this, it was known to the well-informed that the Burma rice export season had begun most actively, and that the demand for currency in consequence was so strong that the Indian Government would have to "ear-mark" gold. It was no surprise, therefore, to the wellinformed that the Bank of England made no change in its rate of discount this week. Next week a reduction seems more likely.

Rates in the open market have not stiffened as much as might have been expected. Loans for a short time are readTHE CHRONICLE.

ily made at 4%, and the discount rate is little better than 5%. If there is a fear of shipments to New York, the Bank of England probably will borrow in the open market. But hitherto it has not thought it necessary to do so, since the collection of the revenue is now upon a very large scale; and, moreover, the Bank holds a large number of bills which are falling due day by day. It seems certain, therefore, that in a very short time the Bank will obtain full control of the market.

The India Council offered for tender on Wednesday 100 lacs of drafts, and the applications exceeded 381 lacs, at prices ranging from 1s. 4 1-16d. to 1s. 4 5-32d. per rupee. Applicants for bills at 1s. 4 3-32d. and for telegraphic transfers at 1s. 4 5-32d. per rupee were allotted about 38% of the amounts applied for.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last four years:

Messrs. Pixley & Abell write as follows under date of January 10:

. GOLD. —The arrivals this week were small and the Bank of England has again taken all, amounting to nearly £300,000 after satisfying Indian requirements. Altogether the Bank has bought £567,000, almost entirely in bars, but, on the other hand, the withdrawals have been very large, namely, £2.182,000, of which £2.172, 000 goes to Brazil and Argentina and the balance to Egypt. Next week we expect £612,000 from South Africa. For the week: Arrivals—South Africa, £276,000; Bombay, £113,000; West Indies, £32,000; Brazil, £18,000; West Africa, £7,000; Australia, £6,000; Straits, £3,000; total, £455,000. Shipments—Bombay, £110,-650; Colombo, £13,750; total, £124,400. For the month of December; Arrivals— France, £1,530,000; West Africa, £57,000; South Africa, £2,007,000; India, £177,-000; South America, £55,000; U. S. A., £13,000. Shipments—France, £1,010,000; South America, £1,616,000; U. S. A., £40,000.

South America, £1,616,000; U. S. A., £40,000. SHLVER.—The course of sliver has been downward, special requirements for India have not been large, and though the Indian Bazars have bought fairly large amounts this demand has been met by forward sales, and we close 9-16d. lower on the week, at 213/4, with forward  $\frac{1}{2}$ d, over eash. News of a French tender for 20,000 kilos had little or no effect. The price in India is Rs. 81 II-16. For the week: Arrivals— New York, £263,000; Straits (coin), £362,000; West Indies, £17,000; Chile, £11,000 New Zealand, £5,000; total, £68,000. Shipments—Bombay, £26,780. For the month of December: Arrivals—Germany, £14,000; France, £16,000; U. S. A., £383,000. Shipments—Germany, £55,000; France, £151,000; West Africa, £141,-000; India, £555,000. £858,000. Shipmen 000; India, £585,000.

MEXICAN DOLLARS.-There have been some dollars on offer at their melting due. For the week: Arrivals-New York, £15,700. Shipments-Bombay, £6,700.

### Lomriercial and Miscellaneous News

Auction Sales.—Among other securities the following, not regularly dealt in at the Board, were recently sold at auction: By Messrs. Adrian H. Muller & Son:

\$2,000 Albany & Hudson RR. 1st 5s, 1943; M. & S. 79

#### DIVIDENDS.

We have changed the method of making up our weekly list of dividends. Heretofore our record has included only the dividends announced each week, but for the convenience of our readers we now enlarge the scope of the compilation so as to show also dividends previously declared, but the date of payment of which has not yet arrived. In the new form the statement indicates all the dividends announced for the future by all large or important corporations.

Dividends announced this week are printed in italics.

Statement of New York City Clearing-House Banks.— The following statement shows the condition of the New York City Clearing-House banks for the week ending Jan. 19. It should be distinctly understood that as to all items except capital and surplus the figures are the averages of the daily results, not the totals at the end of the week. In other words, in reporting loans and deposits and holdings of specie and legal tenders, the practice is to take the aggre-gate of the amounts for the several days of the week and divide this aggregate by the number of days.

Wall Street, Friday Night, Jan. 25 1907.

The Money Market and Financial Situation .- We referred last week to the easier money market conditions at all finan-cial centres. This important feature of the general situa-tion has continued in force, and thus one of the disturbing influences of recent months in Wall Street was removed As a result the security markets have assumed a more normal condition, although the volume of business continues limited. Reports from Washington to the effect that Secretary Shaw will carry out his original plan and have the special deposits in banks returned to the Sub-Treasury on February 1 gave a decidedly firmer tone to the money market to-day and led to a general decline in the stock market.

to a general decline in the stock market. Using and red to a general decline in the stock market. Some houses are reporting more inquiry from investors but actual sales show little, if any, increase. The latter is not to be wondered at, perhaps, when it is remembered that the average investor finds it hard to comprehend the atti-tude or course of reasoning which leads State or county officials to bring legal action to prevent, or hinder, a proposed issue of securities by a railway company sadly in need of ad-ditional rolling stock to handle the traffic pressing upon it. The matter is still harder to understand in view of the fact that the road in question traverses a section of the country where wheat is, or recently was, stored in open bins around the stations, and inhabitants of the towns along its line are suffering for want of fuel, all because the development of the country has been such as to render wholly inadequate the facilities of the road, which until recently were ample. The open market rates for call loans on the Stock Ex-change during the week on stock and bond collaterals have

The open market rates for call loans on the Stock Ex-change during the week on stock and bond collaterals have ranged from 2 to 4%. To-day's rates on call were  $3\frac{1}{2}@4\%$ . Prime commercial paper quoted at  $5\frac{3}{4}@6\frac{1}{4}\%$ for endorsements and  $5\frac{3}{4}@6\frac{1}{4}\%$  for best single names. The Bank of England weekly statement on Thursday showed an increase in bullion of £1,438,701; the percentage of reserve to liabilities was 48.91, against 45.30last week. The discount rate remains as fixed January 17 at 5%. The Bank of France shows an increase of 2,650,000 francs in gold and a decrease of 3,100,000 francs in silver. NEW YORK CITY CLEARING-HOUSE BANKS.

State and Railroad Bonds.—Sales of State bonds at the Board \$15,000 Virginia 6s deferred trust receipts at 20. The transactions in railway bonds have been on a limited scale throughout the week. A few issues showed a little activity but the list as a whole has been neglected. Price changes, are in most cases fractional and unimportant. Among the exceptional features are some of the industrial issues, including American Tobacco and United States Steel, which have advanced a point or more. United States Bonds.—Sales of Government bonds at the

United States Bonds.—Sales of Government bonds at the Board include only \$10,000 3s coup., 1908-18, at 103. The following are the daily closing quotations; for yearly range see third page following.

\* This is the price bid at the morning board; no sale was made.

**Railroad and Miscellaneous Stocks.**—The stock market was active and irregular during the early part of the week but later became dull and relatively steady. About 1,400,000 shares were traded in on Monday and fluctuations were wide in many cases. The volume of business steadily declined to but little more than 1-3 that amount on Thursday and the

In many cases. The volume of business steadily declined to but little more than 1-3 that amount on Thursday and the movement of prices was reduced to a much narrower range. To-day's market was weak, as noted above, on a firmer money market, a new legal action against Great Northern and liberal offerings for both long and short accounts. At last night's close St. Paul had recovered a considerable part of the violent decline noted last week. North Western had also been a notably strong feature. Great Northern and Northern Pacific were the prominent railway issues that fluctuated widely; Canadian Pacific showed a notable loss, closing 7 points lower than last week. Some of the industrial issues, notably the coppers, have been in favor. Anaconda Mining advanced over 10 points and closes with a net gain of 4. Virginia Iron, Coal & Coke has covered a range of 7 points, closing without net change. United States Steel preferred is up over a point. As a result of the week's operations, 12 active and promi-nent issues are higher and 12 are lower than last week. For daily volume of business see page 211. The following sales have occurred this week of shares not represented in our detailed list on the pages which follow: STOCKS. Sales Range for week. Range State Jan, 1.

## Investment and Kailroad Intelligence.

## RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the street railways are brought together separately on a subsequent page.

	Latest	Gross Earr	uings.	July 1 to 1	Latest Date.		Latest	Gross Earn	nings.	July 1 to	Latst Date.

Net Earnings Monthly to Latest Dates.—The following shows the gross and net earnings to latest dates of all STEAM railroads furnishing monthly statements. The compilation includes every road from which we can get a return of this character, and in that form is given once a month. Early returns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings—say about the 20th of the month. —Gross Earn'gs——Net Earnings—

#### ANNUAL REPORTS.

**Annual Reports.**—The index to annual reports is omitted this week because of the publication of the "Railway and Industrial" section, which contains references to the reports of the principal steam railroads and industrial companies printed in the "Chronicle," *not* including to-day's issue.

#### Toledo Railways & Light Company.

(Report for Fiscal Year ending Dec. 31 1906.)

President Henry A. Everett says in substance:

Earnings.—The gross receipts were \$2,047,611, being an increase over 1905 of \$134,155; oper, exp., \$1,071,773, being 52,34% of gross. Interest charges on funded and floating debt were \$509,607, leaving a net income of \$466,230, being 3.89% on stock. During 1906 there was operated 107.64 miles of track, earning \$1,536,525, being earnings per mile of track, \$14,275. Comparative Statement of Gross Earnings of Properties Now Owned.

each rotary converters for street railway system, one 1,000 K.W.
each rotary converters for street railway system alleys. There was installed
22 mlles of trolley will.

Made Power.—We are now supplying the city with 1,376 are lamps
for street lighting, an increase for the year of 45; are supplying current for
an equivalent of 167,080 16-C.P. incadescent lamps, an increase of 1,759
H.P. increase in meters installed during the year, 15,2%.

Mode the public streets, and will discontinue funishing any
free light or power after Jan. 1 1907, which under the previous contract
with the object for a street and. 1 1907, which under the previous contract
and moment as known as the 'magnetite are lamps,' which can be object for
prive light or power after Jan. 1 1907, which under the previous contract
and in the public streets, all show enter over the company's
tree if the optice doletawe been here the city not later than May 1
107, 205, This company's cars will enter the city not

1907. They are at present transferring passengers to the day that a Casino. During the year the Ottawa Park Street Ry. Co., whose entire capital stock is owned by the Toledo Rallways & Light Co., secured a franchise for 25 years on Upton Ave. to connect with the Toledo Rallways & Light Co. tracks at Dorr St. This Ottawa Park Street Ry. is operated by the Toledo Rallways & Light Co. from its Dorr Street Line. Stockholders.—The company now has 1,309 stockholders of record. Desults FOR LAST FOUR CALENDAR YEARS.

#### GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET ROADS. Alabama Central Ry.—Receivership.—Chancellor W. L. Parks at Montgomery on Jan. 21, on application of General Manager M. C. Stokes, appointed Major Bradford Dunham receiver for the road extending from Booth's Station, Ala., to'Autaugaville, 9 miles.

to Autaugaville, 9 miles.

Digitized for FRASER http://fraser.stlouisfed.org/ Federal Reserve Bank of St. Louis export for Galveston will be diverted over this route instead of being sent around Newton, Kan. The survey for the new line has been made and the company expects to begin construction in a short time.—V. 84, p. 101, 50.

Atlantic Coast Line RR.—Equipment Trust Notes Offered,
 —Brown Brothers & Co. and the Guaranty Trust Co., both of New York, are offering at prices to net the investor 5½% per annum, \$4,500,000 equipment trust 4% gold notes of \$1,000 each (c\*), dated March 1 1907 and maturing in 20 semi-annual installments of \$225,000 each on Sept. 1 from Sept. 1 1907 to March 1 1917 inclusive; interest payable March 1 and Sept. 1. Safe Deposit & Trust Co. of Baltimore, trustee. A circular says:
 These equipment notes are a direct obligation of the railroad company, and are secured by standard equipment is estimated in the safe transmitter of these notes are a direct obligation of the railroad company. These equipment to \$4,500,000, the balance, \$500,000, to be paid in cash. This equipment is retained by the trustee until the ast installment to \$40,000, the balance, \$500,000, to be paid in cash. This equipment is retained by the trustee until the set of these notes amounts to \$4,500,000, the balance, \$500,000, to be paid in cash. The vork Air Line RR.—Merger Approved.—

Boston & New York Air Line RR.—Merger Approved.— The stockholders on Jan. 23 voted to merge the road with the New York New Haven & Hartford RR.—V. 82, p. 1210.

the New York New Haven & Hartford RR.—V. 82, p. 1210. Chicago Burlington & Quincy RR.—Called Bonds.—The New England Trust Co. of Boston will pay at par on Feb. 1 Denver extension 4% bonds due Feb. 1 1922 to the follow-ing amounts, viz.: \$108,000 in \$1,000 bonds and \$1,700 in \$100 bonds.—V. 83, p. 1590, 1523. Chicago Milwaukee & St. Paul Ry.—Pacific Extension.— A map showing the Pacific extension of the St. Paul will be found in our "Railway and Industrial' Section, issued to-day.

found in our "Ranway and Industrial Structure day. Chairman Roswell Miller says: "The line will be 150 miles shorter from Chicago to Seattle than the Northern Pacific, and about 80 miles shorter than the Great Northern. Over the mountains the grades will be from 1.66% to 1.8% com-pensated. The Northern Pacific grades are in all cases 2.2%, and many of them are not compensated, and there-fore average as high as 2.4%. Aside from mountain grades, the St. Paul road has a much lower grade than the Northern Pacific and the mountain grades are so bunched that they will not impede traffic.

racine and the mountain grades are so bunched that they will not impede traffic. "The extension is compelled to run along the Northern Pacific for a considerable distance, and to cross the Northern Pacific several times by reason of the physical conditions. This, however, does not apply to much territory which pro-duces a large business, and therefore the competition will not "The estimated cost of the extension will be \$40,000 a

"The estimated cost of the extension will be \$40,000 a mile for the main line, which includes equipment, and \$30,000 a mile for branches. This contemplates a strictly first class road in all respects. It is expected to have the road in opera-tion to Butte, Mont., by the end of 1907 and the entire line in about three years."—V. 84, p. 101, 50. Chicago Cincinnati & Louisville RR.—Through Trains to Chicago.—Through connection to Chicago, it is expected, will be completed within two or three weeks. A technical paper recently said.

paper recently said:

paper recently said: The line is complete from Cincinnati to within 1,400 feet of Chicago Junction, two miles west of Hammond, Ind. Trains will run over the Chicago Junction Ry. Into Chicago. Three regular trains, with sleeping car service, will then be run each day between Chicago and Cincinnati each way. Compare V. 81, p. 1722.-V. 82, p. 750. **Chicago Rock Island & Pacific Ry.**—Listed.—The New York Stock Exchange has listed \$1,500,000 additional re-funding and extension mortgage 4% bonds of 1934, making the total listed \$45,842,000, and has authorized the listing of afurther \$8,500,000 from time to time before March 1 1907, on official notice that they have been sold. making the total

the total listed \$45,842,000, and has authorized the listing of a further \$8,500,000 from time to time before March 1 1907, on official notice that they have been sold, making the total authorized to be listed \$54,342,000. The bonds just listed and authorized to be listed include all except \$1,250,000 of the bonds [which the company in January 1906 reported to the New York Stock Exchange had been issued up to that time, but we se unsold, and in addi-tion \$2,500,000 since issued for improvements and additions. There have also been issued since January 1906, but have not been sold or listed, \$5,900,000 additional bonds to re-imburse the company for acquisitions of new property in the shape of \$5,605,000 4½% equipment gold bonds series "B" bonds of the Rock Island Improvement Co. (compare V. 83, p. 1227-28) and \$70,000 to retire Choctaw Oklahoma & Gulf equipment bonds. These amounts, together with the \$1,-250,000 above referred to as unissued (being the balance of the \$6,500,000 issuable against Burlington Cedar Rapids & Northern firsts due June 1 1906), make, with the bonds listed and authorized to be listed, the total of \$61,562,000 which the company, under date of Jan. 14 1907 speaks of as "issued." Included in this last total, however, are the \$11,250,000 pledged to secure the \$7,500,000 j 4½%] notes due July 1 1907. Issuance of \$4,342,000 Refunding and Extension 4s Listed and Authorized to be Listed.

chicago & Western Indiana RR.—Guaranteed Notes Offered.—Lee, Higginson & Co., Boston; Clark, Dodge & Co., New York, and the Illinois Trust & Savings Bank of Chicago (the trustee for the issue), offered this week at 98 and interest, and quickly sold, two blocks, together aggregating \$8,000,-000, of 3- ear 5% collateral trust gold notes dated Feb. 1 1907 and due Feb. 1 1910, but subject to call at par and interest on any interest day. Interest payable Feb. 1 and Aug. 1. These notes are in denomination of \$1,000, \$10,000 and \$50,000, and are secured by deposit of \$10,000,000 consolidated mortgage 50-year gold 4% bonds due July 1 1952, which, by the terms of a lease for 999 years, are substantially guaranteed, principal and interest, by the Chicago & Eastern Illinois RR. Co., Wabash RR. Co., Grand Trunk Western Ry. Co., Chicago & Erie RR. Co. and Chicago Indianapolis & Louisville Ry. Co.—V. 83, p. 1228.
Colorado & Southern Ry.—Listed.—The New York Stock Exchange has listed \$10,000,000 "refunding and extension"

Exchange has listed \$10,000,000 "refunding and extension" bonds of 1935, being the first lot issued under the \$100,000,-000 mortgage authorized in 1905.

Income Account of Company for Four Months ending Oct. 31 1906. 

-V. 83, p. 1170, 695. Denver City Tramway.—Franchise Sustained.—District Judge Allen on Jan. 14 dismissed the quo warranto pro-ceedings brought to test tl • validity of the franchise granted at the city election on May 15 last. The decision was based on that of Judge Palmer in the case of the Denver Gas & Electric Co. (V. 83, p. 1526), the same papers and evidence having been used in both cases.—V. 82, p. 1437. Dubth Missehe & Nathern Pa. Called Bonde —First

Duluth Missabe & Northern Ry.—*Called Bonds.*—First consolidated mortgaget bonds dated Jan. 1 1893, to the amount of \$111,000, have been drawn, and will be paid by the Central Trust Co. on Feb. 1 1907 at 105% and interest—say \$1,055 per bond.—V. 82, p. 1101.

Grand Rapids (Mich.) Railway.—New Director.—Jacob Kleinhaus of Grand Rapids has been elected a director, suc-ceeding A. Hodenpyl of New York.—V. 83, p. 1228.

Great Northern Ry.—Stock Issue Enjoined.—Judge Oscar Hallam in the Ramsey County District Court on Jan. 23, in the action brought by Attorney-General Young (V. 83, p. 1590,) made an order enjoining the company from issuing the proposed \$60,000,000 of additional stock, or any part thereof, during the pending litigation, without first applying in writing therefor to the Minnesota Railroad & Warehouse Commission and securing its approval as provided by the Commission, and securing its approval, as provided by the revised laws of Minnesota.

revised laws of Minnesota. The company's attorneys claimed that under its original charter it could issue stock at will, and that the law granting this power to the Commission (revised laws of 1905, originally enacted as Chapter 265 of the general laws of 1887) is unconstitutional. The court says that the State concedes that under the general laws the defendant may lawfully increase its stock subject to the regulation mentioned; that the injunction was asked to compel the company to submit to this regulation, which it does not propose to do, and that therefore there is but one issue raised, the ultimate right of the company to make the proposed issue of stock not being involved in the suit. The State Supreme Court has set the hearing of the appeal for Feb. 9.

The State Supreme Court has set the hearing of the appeal for Feb. 9. New Suit.—Attorney-General Young yesterday filed suit in the Supreme Court at St. Paul against the St. Paul Min-neapolis! & Manitoba RR. asking forfeiture of its charter. Again Postponed.—Owing to the above decision, the com-pany has again postponed the closing of the transfer books for the purposes of the new issue of stock and the time limit for the filing of subscriptions, this time until 3 p. m., Feb. 25. The time for filing assignments has been postponed until 3 p. m., Feb. 28, and the time for making the first and second payments has been postponed until March 4. Compare V. 83, p. 1469, 1590; V. 84, p. 51, 102, 158. Green Bay & Western RR.—Plan Withdrawn.—The pro-posed financial reorganization plan issued last October (V. 83, p. 969) has been withdrawn, and the bonds deposited

posed financial reorganization plan issued last October (V. 83, p. 969) has been withdrawn, and the bonds deposited under the agreement made in connection with the issuance of the plan have been returned to the holders. Jefferson M. Levy, one of the committee, in whose absence abroad the plan was made public, has, it is stated, always opposed a re-adjustment, but has favored keeping the committee intact as a protective committee merely, as originally contemplated, to insure concerted action in the interest of the B debenture holders. The bonds deposited under the earlier agreement, constituting the larger part of the bonds deposited with the committee for protective purposes, are still in its control. *Dividends.*—The usual dividends of 5% each on the \$2,500,-000 stock and \$600,000 "A" debentures have been declared, payable Feb. 1 to holders of record Jan. 28. The same amounts were paid in the two preceding years.—V. 83, p. 1037.

Hudson & Manhattan RR.—Operation to Begin Sept. 1907. The company announces that it is expected on or about

Sept. 1 next to operate the portion of the system extending from 14th Street and Sixth Avenue, this city, to Hoboken, N. J., using both tunnels under the Hudson River . The road from 14th Street north to the northerly terminus at 33d Street will not be ready for some time after the date named.—V. 84, p. 51.

Illinois Central RR.—New General Manager.—Frank B. Harriman has been appointed General Manager, succeeding I. G. Rawn.—V. 84, p. 102, 51.

Interborough-Metropolitan Co.—Mr. Shonts President-ew Officers.—The company on Wednesday issued a\_state-New Officers.

New Officers.—The company on Wednesday issued a\_state-ment, saying: The Interborough-Metropolitan Co. has secured, with the consent of President Roosevelt, the services of Mr. T. P. Shonts, who will come to New York and take the presi-dency of the Interborough-Metropolitan Co., assuming charge of the whole subject of transportation now covered and to be covered by the constituent companies of the system. Mr. Shonts will for the present give such attention to the work as his time will permit, and after the 4th of March, when the President will definitely release him, he will come to New York and take up his active duties. The following changes in officers are also announced:

The following changes in officers are also announced:

The following changes in officers are also announced: August Belmont and E. P. Bryan have been elected Chalrman of the board and President, respectively, of the Interborough Rapid Transit Co.. Mr. Bryan and Mr. H. H. Vreeland thus continuing to be the chief operating officers in charge of the two principal companies. John B. McDonald has been chosen Vice-President of the Interborough-Metropolitan Co. to have general supervision of the construction of new subways. *Increase in Wages.*—The directors of the Interborough-Rapid Transit Co. on Wednesday ordered a voluntary in-crease of wages to go into effect Feb. 1, affecting, it is said, about 10,000 employees of the elevated and subway lines, and adding \$400,000 to the yearly pay-roll. The increase in-cludes all important classes of workmen except the motor-men, who receive \$3 50 a day for between  $8\frac{1}{2}$  and  $9\frac{1}{2}$  hours' work. The percentage of increase yaries from a small amount work. The percentage of increase varies from a small amount up to about 16%, the number of hours of work not being changed.—V. 83, p. 1470.

Inter-State Railways, Philadelphia.—Purchase.—The pur-chase of the Philadelphia Bristol & Trenton Traction Co., it is announced, has been consummated, and the operation of See V. 83, the road by the Inter-State will begin on Feb. 1. p. 687.

Lexington (Ky.) & Interurban Railways.-Preferred Stock Lexington (Ky.) & Interurban Railways.—*Preferred Stock Authorized.*—By vote of the shareholders at a meeting held on Jan. 7 the charter has been amended so as to permit the issue at the discretion of the board of \$1,000,000 8% pre-ferred stock, cumulative from Jan. 1 1908, with preference as to assets in case of liquidation, subject to redemption at company's option after three years at \$60 per share (par \$50) and accrued interest, and convertible at option of holder, share for share, for common stock. Of such preferred stock 10,000 shares of the par value of \$500,000 shall not be issued or sold at a price less than \$55 per share. The issue of \$500,000 of said preferred stock has been authorized by the board of directors.—V. 82, p. 1380. Manila Electric Railroad & Lighting Connection—*Guar*.

Manila Electric Railroad & Lighting Corporation.—Guar-anteed Bonds Offered.—See Manila Suburban Railways be-low.—V. 84, p. 102.

low.-V. 84, p. 102.
Manila Suburban Railways.-Bonds Offered.-Rosen, Stillman & Co., 30 Pine St., New York, are offering, at 92½ and interest by advertisement on another page, a block of this company's present issue of \$500,000 first mortgage 5% 40-year sinking fund gold bonds, of \$1,000 each (c\*), guar-anteed unconditionally as to principal and interest by the Manila Electric Railroad & Lighting Corporation (V. 82, p. 218; V. 84, p. 102). These bonds are dated Sept. 1 1906 and due Sept. 1 1946, but are subject to redemption on any interest date after Sept. 1 1928, and to purchase for sinking fund on and after Sept. 1 1911, at not to exceed 105 and interest, at which price bonds can be drawn by lot. Interest payable March 1 and Sept. 1. Principal and interest pay-able in United States gold coin in New York City. New York Trust Co., trustee. Limit of authorized issue, \$2,-500,000. The advertisement says: The company has been organized with a capital stock of \$500,000 by the Manila Electric Ballroad & Lighting Corporation, which controls

500,000. The advertisement says: The company has been organized with a capital stock of \$500,000 by the Manlia Electric Railroad & Lighting Corporation, which controls absolutely the street railway. Iight and power system of the city of Manlia, to construct and operate suburban railway lines connecting with its present system and to furnish electric-lighting and power facilities in the tributary territory. All of the capital stock is owned by the Manlia Electric Railroad & Lighting Corporation, which has entered into an agreement to guarantee both the principal and interest of the bond issue. The bonds now issued are secured by a first mortgage on the electric railway connecting Manlia with Fort William McKinley, the United States Government reservation, and the city of Pasis. The population of the city of Manlia is estimated at about 300,000, and the population of the territory reached by the new line is estimated at over 40,000. *Earnings of Manlia Electric Railroad & Lighting Corporation, the Guarantor of these Bonds.* Fixed Balance,

New York New Haven & Hartford RR.—Amount of Notes Outstanding.—A press report from New Haven states that the company has finally made known the total amount of short-term notes outstanding, which is \$26,000,000. Repoted Purchase.—See Maine Steamship Co. under "Industrials" below.
Merger of Controlled Road.—See Boston & New York Air Line RR. above.—V. 84, p. 159, 103.
Norfolk & Western Ry.—New Director.—Joseph Wood has been elected a director in place of James McCrea (now President of the Pennsylvania RR.), whom he recently succeeded as Vice-President of the Pennsylvania Company.—V. 83, p. 1471. p. 1471.

Northern Ohio Traction & Light Co.-Report for year:

Results for Calendar Years, Including in both cases the Properties Purchased in 1906.

Pennsylvania RR.—Exchange of Stock.—See Philadelphia & Erie RR., below. Car Trusts Authorized but Not to Be Issued at Present.—It appears that the company last year authorized the organiza-tion of a new car trust to be known as the "Pennsylvania Freight Equipment Trust," for an amount not exceeding \$100,-000,000, to be issued from time to time in series of \$1,000,000 each as the company's requirements may make desirable on account of new equipment. The trust deed was filed last week, the Fidelity Trust Co. of Philadelphia being the trus-tee, but no new car trusts, it is stated, are to be issued at present, and none may be issued for the next three or four years. Some car trust leases were also filed last week but these applied to the "Pennsylvania Steel Equipment Im-provement Trust," limited to \$10,000,000, under which at last accounts no car trusts had been sold, and also apparently to supplementary leases applying to the Pennsylvania Steel Rolling Stock Trust, securing \$10,000,000 certificates, and long since sold, and partially paid off. New Director.—Chas. E. Ingersoll, of the law firm of Gowen, Hood & Ingersoll, of Philadelphia, has been elected a director to fill the vacancy caused by the death of President A J. Cassatt. Authorized to List.—The New York Stock Exchange has

From Woodward, Okla., to Guthrie and Oklahoma City, 220 miles, a road is projected by the same interests under title of the Canadian River Railway, and it is currently reported that the allied lines may be eventually consolidated as a single road, subject to \$14,800,000 of 5% 30-year bonds. As to the Yankee Coal Co., see that company under "Industrials" below...-V. 83, p. 891.
Seaboard Air Line Ry.-Extension of Bonds.-The announcement, attributed to S. Davies Warfield, President of the Continental Trust Co. of Baltimore, that a syndicate of bankers, mostly of Baltimore, had been completed to underwrite the extension of the \$4,665,000 3-year collateral trust an time of going to press.

time of going to press. It is reported that those consenting to the extension will receive \$20° or \$25 in cash, making the new bonds pay somewhat over 5%, the syndlcate taking up all the old bonds which the holders wish to surrender for cash at maturity.—V. 84, p. 104. Southern Ry.—Notes Sold.—The company has sold to J. P. Morgan & Co. \$15,000,000 3-year 5% gold debenture no tes to reimburse the treasury for cash heretofore expended or to be expended under existing contracts for the construc-tion and acquisition of additional tracks, equipment and other facilities upon the existing property of the company to enable it to handle economically the large volume of traffic now offered and expected, and to pay for new properties here-tofore acquired. All of these expenditures will be ulti-mately provided for by the issue and sale of developmens and general mortgage bonds which have been provided fot such purposes. The notes have all been re-sold to variour banking houses and are now being offered at 97 and interest. The notes are dated Feb. 1 1907, interest payable February and August, and are due Feb. 1 1910 without option of prior redemption. Denomination of coupon notes, \$1,000, \$5,000 and multiples thereof, convertible into registered notes in lots of not less than \$5,000. See official statement as to company's needs, V. 84, p. 159. Bouthern Electric Securities Co.—Suit.—James D. Thames, District Attorney last week instituted actions in the Chen

Southern Electric Securities Co.—Suit.—James D. Thames, District Attorney, last week instituted actions in the Chan-

cery Court of Warren County, Mississippi, against the com-pany, the Inter-State Trust & Banking Co. of New Orleans, and about twenty other defendants, charging them with violation of the anti-trust laws of the State. The controlling interests having been enjoined in the litigation from voting for officers of the Vicksburg Railway & Light Co., which was to have been held on Jan. 14, the minority interests, representing \$124,800 of the \$500,000 stock on that day voted for a new board of directors and officers, whose elec-tion is claimed by them to be legal. It is charged that the defendants have formed a voting pool or trust

It is charged that the defendants have formed a voting pool or trust to control the stock of the Vicksburg Rallway & Light Co. and other cor-porations. It is requested that the penalties provided by the anti-trust law be imposed. If the maximum penalties should be imposed on the vari-ous defendants, the total, it is reported, would aggregate about \$11,000,000. --V. \$3, p. 30.

Wages.—Settlement with Locomotive Engineers.—The "Rail-way Age" of Jan. 19 says:

way Age" of Jan. 19 says: After the extended conferences between rallway managers and repre-sentatives of the Brotherhood of Locomotive Engineers over questions of wages and hours, a settlement was reached at Chicago this week which will add several million dollars to the pay rolls. The territory covered by the settlement includes all the rallways west of a line taking in Fort William, Can., St. Paul, Chicago, St. Louis and New Orleans, west to the Pacific Coast and south to the Mexican border. and the terms of the agreement are summarized (in part) as follows: Freight engineers receive a flat increase of 40 cents a day of ten hours of less, 100 miles or less constituting a "run." Over-time pro rata. In work train and helper service, wages will remain the same, but the hours are reduced from 12 to 10 per day. In passenger service, engineers on engines having cylinders under 18 nohes in diameter receive \$3 75 per day of 100 miles or less; on engines having larger cylinders \$4 per day of 100 miles or less; In arriving at the settlement, the engineers finally surrendered their con-tention for an 8-hour day basis. "The railways will next be called upon to consider the de-

tention for an 8-hour day basis.
"The railways will next be called upon to consider the demands of the Brotherhood of Railway Trainmen, including conductors and brakemen, for increased wages, with the 8-hour day for through freight runs as the principal contention."
—V. 76, p. 1194, 974.

Washington Water Power Co., Spokane, Wash.—New Stock.—The shareholders will vote March 4 on increasing the authorized capital stock from \$5,000,000 to \$10,000,000 to provide for improvements and additions, including, it is said: <sup>#</sup>•At least 50,000 h. p. to the company's present water power development, making in all a total of 70,000 h. p. in Spokane; a 15,000 h. p. plant at Post Falls, Ida., and a steam auxiliary plant near Ross Park to develop 6,000 h. p. with a maximum capacity of 30,000 h. p. Part of the power will be transmitted to the Coeur d'Alene mining district through Fourth of July Canyon, practically duplicating the transmission line now running into the mining district, the rest being used for lighting purposes and operating street and interurban lines.—V. 82, p. 753.

Compare V. 78, p. 285. Interest Certificates Called.—Six per cent interest on the outstanding certificates of profits will be paid to the holders

Interest Certificates Called.—Six per cent interest on the outstanding certificates of profits will be paid to the holders thereof Feb. 5. The outstanding certificates of the issue of 1901 will be paid on Feb. 5 next, from which date all interest thereon will cease. A dividend of 40% has been declared on the net earned premiums for the year ending Dec. 31 1906, for which certificates will be issued on and after May 7. The total marine premiums for the year were \$3,772,434, including \$582,192 not marked off Jan. 1 1906. —V. 82, p. 220. Binghamton (N. W. Licht)

Binghamton (N. Y.) Light, Heat & Power Co.—Dividends Begun on Common Stock.—The company, it is announced, has begun dividends on the \$500,000 common stock with a declaration of 1½%, payable, with the regular semi-an-nual 3% on the preferred stock, on Jan. 15, to stockholders of record Dec. 31. Compare V. 83, p. 1592; V. 81, p. 1612; V. 75, p. 187.

V. 75, p. 187. British Columbia Copper Co.—New Stock.—The share-holders will vote Feb. 13 on increasing the authorized capital stock by 200,000 shares, par \$5 each, making the total capital \$3,000,000. Shareholders of record Feb. 20 may then subscribe for \$580,800 of the new stock to the extent of 30% of their holdings, subscriptions to be paid \$2 50 per share March 11 and \$2 50 May 10 1907. Members of the board have agreed to take all the stock at par not subscribed for by the shareholders. Of the \$2,000,000 stock at present authorized, \$64,000 is in the treasury.—V. 78, p. 990. British Columbia Packers' Association, Toronto.—Divi-dend —A dividend of 7% has been declared on the \$1.270.000

dend.—A dividend of 7% has been declared on the \$1,270,000 preferred stock, covering the period from Nov. 20 1904 to

May 20 1905, payable Jan. 31 1906 to holders of record Jan. 21.-V. 83, p. 753.

British Westinghouse Electric & Manufacturing Co., Ltd -Reduction of Capital Stock.-The shareholders at a special meeting held in London on Jan. 14 authorized a decrease in accordance with circular of Jan. 5 1907, which says in substance:

accordance with circular of Jan, 5 1907, which says in sub-stance: Owing to the development of the home electrical trade having been much slower than was anticipated, the scale of the works has so far proved to be too large, and since the works were designed there have been considerable changes in conditions of manufacture arising out of changes in types of apparatus. The directors therefore recommend a reduction in the capital to the extent of £1,375,000. Of this amount it is proposed to devote £1,053,816 13s. 6d. to the writing down of patents and good-will, works and equipment, material and stock in hand, &c., and to the provision of an adequate reserve in respect of developments, contracts and work in progress undertaken in previous years. It is proposed to devote the balance of £291,183 6s. 6d. to the extinction of the suspense account and of the balance at the debit of profit and loss account. To meet the above reductions in the capital assets, the directors recom-mend that the share capital be reduced by writing off £2 per share from the 500,000 preference shares and £5 per share from the 75,000 ordinary shares. At the same time, the directors recommend that the rate of divi-dend should be increased as follows: on the preference shares from 6% to 10% and on the ordinary shares from 5% to 12%; the division of any sur-plus profits between the two classes of shares. In the event, viz., ¼ thereof among the preference shares being entilled to the same amount of preferen-tial dividend as hercetofore and the ordinary shares to the same amount of lividend as a tresent being on them, before any division of surplus profits is made between the two classes of shares. In the event of liquida-tion the rights of the two classes of shares. In the event, stat the preference shares shall first receive £5 per share before any distribution is made to the ordinary shares. The voting power will not be affected compare V. 83, p. 320.

Calumet & Hecla Mining Co.—New Subsidiary.—See La Salle Copper Co. below.—V. 83, p. 438.

Salle Copper Co. below.—V. S3, p. 438.
Central Home Telephone Co. of Louisville, Ky.—Purchase.
—This company has purchased the Kentucky Telephone & Telegraph Co. of Winchester, Ky., for about \$100,000.
Bonds Offered—Status.—The Thompson-Brown Co., Cincinnati, and Lemon & Walther, Pittsburgh and Providence, are offering for sale \$110,000 25-year 5% gold bonds, denominations \$100, \$500 and \$1,000, dated Jan. 1 1906 and due Jan. 1 1926; interest payable Jan. 1 and July 1. Coupons payable at Columbia Trust Company, trustee, Louisville, Ky., and at Bank of America, New York City. Capital stock authorized, \$5,000,000; outstanding Nov. 1 1906, \$1,278,000. The outstanding amounts of a later date are not available pending the closing of the books for the year. The bonds are offered at 95½ and interest, with a bonus of 25% in stock.
A circular issued late in 1906 says in substance:
Long-distance toll lines now owned and controlled by the company

with a bonus of 25% in stock. A circular issued late in 1906 says in substance: A circular issued late in 1906 says in substance: Long-distance toll lines now owned and controlled by the company amount to 1,460 miles of pole line, comprising 4,380 circuit miles. These lines serve 264 exchange companies and nearly 100,000 telephones in Southern Ohio, Southern Indiana, Kentucky and Alabama, exclusive of its own 29 exchange companies and subscribers in these States, including Tennessee. Contracts have been closed for the construction of the long-distance line from South Bend, Ind., to Chicago, which will be completed by spring, giving the Central Home Telephone Co. direct communication from Birmingham, Ala., via Indianapolis, Ind., to Chicago. Plans have been consummated for the construction of the long-distance line from Birmingham to Mobile, Ala., where a new modern independent plant. costing several hundred thousand dollars, is in operation, and owned by those controlling the Central Home Telephone Co. Kansas City is now reached commercially by the company's lines via its Cairo, III., plant and St. Louis. Mo. The recent acquisition of the Cairo plant gives the Central Home Telephone Co. another entrance to Chicago and St. Louis over its own long-distance lines. The company owns or controls the Independent Long-Distance Telephone & Telegraph Co. of Kentucky & Indiana, the Loug-Distance Telephone and Tennessee, and the Central Home Telephone Co. also owns, controls and operates exchanges in the following States and places: (1) Indiana—Bioom-Ington, Bedford, Seymour, Washington and Vincennes; (2) Kentucky-Maysville, Carlisle, Cynthiana, Paris, Hopkinsville, Owensboro, Paducah, Benton, Mayfield, Frankfort, Carrolton, Lawrenceburg; (3) Illinois-Cairo; (4) Alama-Cuilman and Decatur; (5) Tennessee-Clarksville and Sringhela. With a meat few weeks a company has been formed with a \$15,000,000 of Chicago, III., in which the officials of the Central Home Telephone Co. cocupy important positions in office as well as d

x Contracts have been made under which additional exchange companies will be absorbed on Jan. 1 1907. The estimated annual net earnings for 1907 cover all properties, based on present conditions. [The additional ex-changes, which were taken over as expected, include the Home Telephone Co. of Cairo, III., with 900, and the Old Kentucky Telephone & Telegraph Co. of Winchester, Ky., with 1,000 telephones.—Ed.] y Plans have been consummated for enlarging the properties and for extending the long-distance lines into fresh territory which will cost \$646, 400, and these are the estimated resultant annual net earnings on all properties after deducting maintenance, operation, taxes, insurance and all expenses except bond interest. A circular issued several months are before control work

A circular issued several months ago before control was acquired of the Cairo plant and of the Long Distance Tele-phone & Telegraph Co. of Alabama and other properties gave further details as follows, but the total number of tele-phones operated by the several exchanges controlled is now reported as 17 520 reported as 17,530.

Long distance toll lines now owned and controlled amount to 850 miles of pole line, and serve 250 exchanges and 60,000 telephones in Kentucky

and Southern Indiana. The 400 miles of pole line under course of con-struction will serve direct in Kentucky, Ohio and Southern Indiana 14 ex-changes additional and 23,000 telephones additional. Over 90% of the stock, as issued, is embraced in a 10-year voting trust whereby the voting power is vested in the Columbia Trust Company of Louisville, Ky., as voting trustee, to be voted in accordance with in-structions of the committee of five, viz. E. L. Barber, Wauseon, O.; Heim Bruce, Louisville, Ky.; G. W. Lewman, Louisville, Ky.; Col. J. D. Powers, Louisville, Ky., and J. C. Monteith, Bioomington, Ind. Sinking fund of ½ of 1%, beginning July 1 1910; ¾ of 1% beginning July 1 1916; 2% beginning July 1 1921, continuing until maturity.

Total

a Undivided part of Ind. L. D. T. & T. Co. b Not companies. Form undivided parts of Central Home Telephone Co.

Colonial Telephone Co. of Newburg, N. Y.—Foreclosure Sale.—This company's property, it is stated, was recently bid in at foreclosure sale for \$15,000 by Howard Hendrickson, President of Albany Home Telephone Co. The Union Trust Co. of New York was mortgage trustee.

Consolidated Gas Co., New York .- Report .- See "Annual

Reports" on a preceding page. New Trustees.—At the annual meeting Walter T. Bliss and Louis M. Greer were elected trustees in place of Thomas F. Ryan and Frank Tilford.—V. 83, p. 1526.

**Consolidated Steamship Lines.**—*Merger Plan for Morse Lines.*—It is now said that the proposed merger plan omits the Hudson Navigation Co., as not being engaged in the coastwise business. The share capital of the four other companies (V. 84, p. 53) aggregating \$34,000,000, it is proposed, according to current reports, to exchange dollar for dollar for 4% bonds of the new company, with possibly a stock bonus.—V. 84, p. 53.

Consolidated Telegraph & Electrical Subway Co.—De-cision.—See Long Acre Electric Light & Power Co. below. See items under caption of Empire City Subway, V. 76, p. 268, and New York Gas & Electric Light, Heat & Power Co., V. 68, p. 773.

Co., V. 68, p. 173. Copper Range Consolidated Co.—Not to Be Included— Merger Plans Doubtful.—President William A. Paine is quoted as saying: "The Copper Range Consolidated Co. will not enter into any consolidation or merger of other Lake Superior copper companies. It will continue in the future as it has been in the past, entirely independent." In Boston it is rumored that \$150 per share in cash was asked for the controlling interest and refused. Doubt is expressed as to merger being concluded without the Copper Range Consoli-dated.—V. 84, p. 161.

**Crucible Steel Co. of America.**—*Payment of Notes.*—The last of the issue of \$5,000,000 6% debenture bonds of 1903 was recently paid off and the Union Trust Co. of Pittsbrugh, it is stated, has this week been canceling the issue.—V. 83, p. 1526, 971.

p. 1526, 971.
Dayton (O.) Gas Light & Coke Co.—New Officers.—On Jan. 17 Robert R. Dickey, son of ex-President Dickey, was elected to succeed his father; W. K. Callahan was chosen Vice-President and W. B. Gebhart, Cashier of the City National Bank, was elected Secretary. A press dispatch says: No action was taken on the discrepancies reported by expert Munster except to refer the matter to the Executive Committee. It is reported that this phase of the situation will be taken up later, as the deficiencies amounted to more than \$189,000 in five years. \$130,000 of which, it is claimed by the investigating committee, should be easily traceable, if spent for mulcipal or State legislation during the past two years. See V. 84, p. 162.

Electrical Development Co.—See Niagara Power Com-panies below.—V. 84, p. 53.

Great Northern Portland Cement Co.—Receiver's Certifi-cates.—Judge Swan in the United States Court at Detroit has authorized the Michigan Trust Co. of Grand Rapids, as receiver, to issue \$75,000 receivers' certificates and to start up the plant at Marlborough.—V. 83, p. 1350.

Granby Consolidated Mining, Smelting & Power Co., Ltd. —Listed.—The New York Stock Exchange has listed \$10,-308,100 capital stock, and has authorized the listing from time to time, but prior to July 1 1907, of \$3,191,900 addi-tional of said stock on official notice that it has been issued in exchange for outstanding \$10 par value certificates, making the total amount authorized to be listed \$13,500,000. Compare V. 83, p. 1349, 1095.

Home Telephone Co., Mobile, Ala.—New Stock.—This company, it is stated, has increased its authorized capital stock from \$350,000 to \$500,000. In April last the stock-holders authorized an issue of \$350,000 bonds. (Compare Central Home Telephone Co. of Louisville, above.)

Hudson Navigation Co.—Not Included in Merger Plan.— See Consolidated Steamship Lines Co. above.—V. 84, p. 162,

International Silver Co.-Injunction.-Vice-Chancellor Bergen has granted an injunction in the suit brought by

Edward R. Thomas in May last preventing the banks with whom was pledged \$8,010,500 of the common stock of the International Silver Co. from voting on the same.

International Silver Co. from. voting on the Same. The stock involved in the suit is part of the \$9,068,400 common and \$515,800 preferred stock of the International Silver Co. originally acquired by the U. S. Silver Corporation and at the time of the purchase of its entre stock by the International Company in Jan. 1903 in the treasury of the U. S. Silver Corporation. Compare V. 76, p. 106; V. 82, p. 1044. The court holds that the company was disqualified from voting on the stock; that the stock was not pledged as security, but simply to restore to it a voting power that the pledgees might exercise in the interest of the direc-tors in office. The court says: "It was a palpable attempt to evade the law and to secure the benefit of the votes which the stock would represent in the hands of a duly qualified owner." —V. 82, p. 1044.

Vice-President, and J. W. Perry, Secretary and Treasurer, all of St. Louis. See V. 83, p. 1350.-V. 84, p. 162.
La Salle Copper Co. -New Subsidiary for Calumet & Heela.
-This company has been incorporated under the laws of site company has been incorporated under the laws of site company has been incorporated under the laws of site company has been incorporated under the laws of site company has been incorporated under the laws of site company has been incorporated under the laws of site company has been incorporated under the laws of site company has been incorporated under the laws of site company has been incorporated under the laws of site company of the companies (under object to Calumet & Hecla) and certain lands contributed by the Calumet & Hecla and the Sheldon estate. The Calumet & Hecla Mining Co., will own a majority of the capital stock and manage the enterprise. Of the 54,959 shares of \$25 each of the Tecumseh Mining Co., over 48,000 shares, it is said, have been deposited with the Calumet & Hecla in exchange for the shares of the La Salle Copper Co. on the basis of four shares of new stock, total par value \$100, for three shares of the Tecumseh, total par value \$100, for three shares of the Tecumseh, total par value \$100, for three shares of the Tecumseh and cash contribute \$100,000 for trasary purposes and agrees to lend the Calumet & Hecla in exchange for the shares issued for the properties above referred to, leaving 97,023 shares in the treasury. The Calumet & Hecla the company in addition \$750,000 if needed. Stock control will rest with the Calumet & Hecla in return for land and cash contribute \$100,000 are consolidation are: Douglas and Sheldon estates 4.00 acres: total, 2,360 acres. The new company's present mineral expections are confined to the Kearsare lode, which has been demonstrated by damond drill on the Calumet Restary and by the sharts of the Tecumseh and and has contributed. The properties also developed in the net here hece and a sheldon estates. Another actions a

Lawrence (Mass.) Gas Co.—Dividend Increase.—A press report announces the declaration of a semi-annual dividend of 4%, payable to stockholders of record Jan. 25, thus increasing the annual rate from 6% to 8%. See V. 83, p.690.

Long Acre Electric Light & Power Co., New York.— Favorable Decision.—The Appellate Division of the Supreme Court, First Department, by a vote of 3 to 2 (Justice Scott writing the prevailing opinion), on Jan. 19 affirmed the decision of Justice Dowling granting a peremptory man-damus to compel the Consolidated Telegraph & Electrical Subway Co., to permit the Long Acre Co. to use its conduits for a cable containing three conductors in its subway from No. 548 West 42d St. east to 7th Ave. and north to the Cri-terion Theatre at 44th St. and Broadway. Compare Man-

No. 548 West 42d St. east to 7th Ave, and north to the Cri-terion Theatre, at 44th St. and Broadway. Compare Man-hattan Transit Co. item, V. 83, p. 894. The company claimed the right as successor to the American Electrical Manufacturing Co., the validity of whose franchise, which was granted in 1887, was disputed. The Court says: "If for any public reason there is a doubt as to the validity of the title, that question can be raised by the proper municipal authorities when application is made for a permit. If not then raised the question is of no concern to the respondent." The Long Arer Company, it is stated, is the only one not identified with the Consoli-dated Gas interests which has a franchise for furnishing electric light in Manhattan. The company's officials are quoted as claiming that the de-clsion opens the way to competition in a broader field with the Consolidated Interests, the suit being regarded as a test case.

Directors.-The directors include with others:

Mackay Companies.—Listed.—The New York Stock Ex-change has listed \$50,000,000 4% cumulative preferred stock and \$41,380,400 common stock. The company's statement shows that, besides holding stock in a large number of tele-graph and cable companies of the Commercial Cable-Postal Telegraph system, "it is the largest stockholder in the American (Bell) Telephone & Telegraph Co." and also owns stock in the following subsidiaries of that company (compare V. 82, p. 699.)

Stock in the following Scholard (Constraint) (Constrai

The Mackay Companies also owns stock in the following independent telephone companies: Citizens' Telephone Co. of Grand Rapids, Kansas City Home Telephone Co., Tri-

State Telephone & Telegraph Co. and Youngstown (O.) Telephone Co.

Profit and Loss Account of Mackay Companies for 111/2 Months Ending Jan, 15 1907.

The dividends as above include 4% on the preferred, or \$1,744,462, and 3% on the common, \$1,241,412; total, \$2,985,874. The dividend rate on the common shares, theretofore 1% semi-annually in January and July, was in October last changed to 4% per annum, with the payment of a quarterly 1% on Oct. 1, making 3% in all for the calendar year 1906. —Ed.]—V. 84, p. 163.

Manhattan Transit Co.—Favorable Decision.—See Lon Acre Electric Light & Power Co. above.—V. 83, p. 894. Long

Maine Steamship Co.—Reported Change in Control.—A press report from Portland, Me., states that the New York New Haven & Hartford RR. has bought control of this steamship line, plying between New York and Portland.— V. 83, p. 275.

Marion (O.) Manufacturing Co.-Bankruptcy.-At Toledo on Dec. 31 this company, manufacturing 60.—*Dankruptcy*.—At folded chines, filed a petition in bankruptcy. A press dispatch says: "The company, capitalized at \$340,000, has \$210,000 liabilities, with more than \$400,000 assets." Compare V. 83, p. 1174.

Massachusetts Lighting Co., Boston.—Acquisition.— This company, it is announced, has purchased control of the Northampton (Mass.) Electric Lighting Co., which, it is said, has a capital stock of \$117,400; surplus of \$75,000; no bonds, and income for year ending June 30 1906 of, gross, \$60,000; net, \$29,000; dividend, 10% per annum.—V. 83, n 99 p. 99.

Montreal Steel Works.—Dividend.—The company, it is stated, paid early this month a dividend of 4½% on the common stock, making with the interim dividend of 2½% paid on the stock last summer 7% for present fiscal year.— Compare V. 83, p. 216, 972, 1174.

Montreal Water & Power Co.—Listed in London.—The London Stock Exchange has listed the £252,200 first mort-gage 4% prior lien gold bonds of £100 each (Nos. 1 to 1,822 and 2,001 to 2,700 registered). See V. 78, p. 106.

National Supply Co., Toledo.—Stock Dividend.—This West Virginia corporation, which manufactures oil well and plumbers' supplies, its stock being listed on the Toledo Stock Exchange, has increased its capital stock from \$2,000,000 to \$4,000,000 by the addition of \$2,000,000 8% non-cumulative preferred stock, and will distribute the same as a 100% stock dividend for the purpose of dividing a portion of the accumulated surplus, provided the sharehold-ers at their meeting on Feb. 13 approve. The stockholders are requested to deposit their stock certificates with

The stockholders are requested to deposit their stock certificates with the Bankers' Trust Co., Wall Street, New York, on or before Jan. 26, receiving in exchange 100% of common stock and 100% of the new 8% non-cumulative preferred stock. The committee having the matter in charge consists of William Hardee, E. C. Converse, F. L. Potts, Arthur F. Luke and James H. Barr. The par value of the shares is \$100 and divi-dends of 8% to 10% per annum have been paid, quarterly in January, &c. At last accounts \$1,670,000 of the \$2,000,000 stock was outstanding. Officers: William Hardee, President; W. C. Hillman, First Vice-President; J. H. Barr, Second Vice-President; E. B. King, Treasurer; T. W. Pratt, Secretary.

J. H. Barr, second vice-rresident, E. B. units, "Our policy has been to President William Hardee is quoted as saying: "Our policy has been to accumulate a surplus in order to increase our resources, and now that this surplus has passed the two-million mark, we have decided to give the stockholders the benefit of it. As will be seen, under our \$4,000,000 capital we will still have a surplus of more than \$300,000."

New England Gas & Oil Co., Boston, Mass.—Liquidation. —For record it should be stated that this company, having failed to make money out of its oil properties, voted last August to go into liquidation.—V. 80, p. 1734.

New York & New Jersey (Bell) Telephone Co.—Listed.— The New York Stock Exchange has listed the company's \$18,930,500 capital stock and has authorized the listing of \$6,310,100 new shares recently offered for subscription (V. 83, p. 1595) from time to time on official notification of issue, making the total authorized to be listed \$25,240,600.

Earnings one toolar autointornet to be listed \$20,210,000 Earnings for Ten Months ending Oct. 31 1006. Gross. Net. Interest. Taxes. Dividends (3). Bal.,sur. See V. 83, p. 1595.

Niagara Falls Power Co.—See Niagara Power Companies below.—V. 84, p. 163.

Niagara Power Companies.—Authorized to Import Power from Canada.—Secretary Taft on Jan. 19 issued permits for the importation of 160,000 electrical horse power, generated on the Canadian side of Niagara Falls, into the United States, viz .:

viz.: Company— International Rallway Co. Company— International Rallway Co. Canadian Niagara Falls Power Co. Electric Development Co. (V. 84, p. 53) All these permits are revocable at pleasure, and, in the absence of further registation by Congress, will expire on June 29 1909. The permit to the International Rallway Co., will be held in reserve until a decision is made by the Canadian Government in a controversy between the company and the commissioners of Queen Victoria Park concerning the transmission of the power through the park. Compare V. 83, p. 159. Contaria Power Co. Contaria

Ontario Power Co .- See Niagara Power Companies above. -V. 82, p. 632

**Pennsylvania Salt Manufacturing Co.**—*Right to Subscribe to New Stock.*—Stockholders of record Feb. 14 are offered the right to subscribe at \$100 per share (par \$50) for \$1,000,000 new stock to the extent of one share for every four shares of their respective holdings, thus increasing the outstanding stock to \$5,000,000. A circular says in substance:

Stock to \$5,000,000. A circular says in substance:
 On April 24 1901 the stockholders voted in favor of increasing the capital stock from \$2,500,000 to \$5,000,000. In June 1901 10,000 shares were issued at \$100 per share, or \$1,000,000. In March 1904 20,000 shares were issued at \$7 per share, or \$1,500,000. The \$2,500,000 received for new stock was entirely absorbed in construction and improvements at the Philadelphia. Natrona and Wyandotte works, the aggregate expenditures amounting to over \$3,000,000. The additional sum was appropriated from the surplus earnings after providing for dividends. All our statements as to the probable success of the new works have been fully confirmed.
 To keep abreast of the times and to obtain the best possible results under extensions in the alumina, acid, copper and alkali departments, which, according to estimates, at life require an expenditure of meanly \$2,000,000.
 With this in view, the directors recommend that 20,000 shares of new stock be offered to the stockholders at \$100 per share, paysable 50% May 1 1907, 50% Nov. 1 1907. And interest at 6% per annum to Oct. 1 1907 will be allowed on all amounts paid prior to that date. Stockholders may anticipate all payments if so desired. The new stock will commence to earn dividends from Oct. 15 1907 and will participate in the regular dividend April 15 1908.—V.78, p. 1114.

**People's Gas Light & Coke Co., Chicago.**—6% Dividend Rate Restored.—The directors yesterday declared a quarterly dividend of 1½%, restoring the annual dividend rate to a 6% basis, from which it was reduced to 5% in February 1906 in connection with a reduction in the price of gas. (V. 81, p. 1796; V. 82, p. 284).—V. 83, p. 1595.

Rock Island Improvement Co.-Bonds Pledged.-See hicago Rock Island & Pacific Ry. under "Railroads" Chicago Rock Island & Pacific Ry above and also in V. 83, p. 1227, 1228.

**Springfield (0.) Light, Heat & Power Co.**—*Called Bonds.*— Bonds of Jan. 1 1892 of the Springfield Light & Power Co., numbered 9, 43, 63 and 84, have been drawn for payment at 106 and interest at the Mercantile Trust Co. of Boston on Feb. 16.—V. 82, p. 222; V. 76, p. 1412; V. 80, p. 224.

Standard Sanitary Manufacturing Co., Pittsburgh .-Stock.—This New Jersey corporation has filed a certificate of increase of common stock from \$2,500,000 to \$5,000,000. The preferred stock (7% non-cumulative) remains \$2,500,000. Par of shares, \$100.—V. 82, p. 338.

Standard Underground Cable Co., Pittsburgh, Pa.-Stock Dividend, &c.—The shareholders on Jan. 22 authorized an increase in the capital stock from \$2,000,000 to \$3,000,000, of which \$500,000 is to be issued as a stock dividend of 25% and "a portion" of the remainder for the establishment of a profit-sharing plan for "a limited number of leading em-

ployees." The annual report for 1906 showed gross business for the year amounting to "upwards of \$20,000,000." The com-pany was incorporated in 1889. See V. 84, p. 54.

Tecumseh Copper Co., Boston.—Sale.—See La Salle Copper Co. above.—V. 68, p. 525.

United Bank Note Corporation.—New Office Building.— This company's subsidiary, the American Bank Note Co., has let the general contract for the erection of the new office building, which is to be built at Nos. 70 to 72 Broad St., New York, at a cost of about \$300,000.—V. 83, p. 1102.

United Electric Securities Co., Boston.—Called Bonds.— The American Loan & Trust Co. of Boston, trustee, has called for redemption at 103 and interest on Feb. 1 1907 all of the outstanding 14th series collateral trust 5% bonds.—V. 81, p. 513.

United States Carbonate Co.—See editorial "Liability of Trust Company," &c., on a preceding page.—V. 75, p. 736.

**United States Rubber Co.**—*Advance in Prices Subject to Further Change.*—The company's new price list, made public last week, advances prices 5% over last year, but instead of being fixed for the entire year they are made "subject to change without notice."—V. 84, p. 54.

Western Canada Land Co., Ltd.—Listed in London.—The London Stock Exchange has listed 150,000 vendors, shares of £1 each, fully paid. Compare V. 82, p. 457.

Westinghouse Electric & Manufacturing Co.—Reduction of Stock by Subsidiary.—See British Westinghouse Electric & Manufacturing Co. above.—V. 83, p. 1361, 1234.

Manufacturing Co. above. - V. 85, p. 1361, 1234. **Yankee Fuel Co.** - Mortgage. - The company, incorporated in Colorado in 1906 with \$5,000,000 capital stock, all of one class, and all issued, full paid, has made a mortgage to the United States Mortgage & Trust Co. of New York, as trustee, to secure an issue of \$2,500,000 first mortgage 5% sinking fund gold bonds (denominations \$1,000 each c\*&r), dated Oct. 1 1906, due Oct. 1 1926, but subject to call at 110 and interest by a sinking fund described below. The bonds are offered by E. D. Shepard & Co. of New York. The bonds have an annual sinking fund beginning 191 of 10 cente are

Offered by E. D. Shepard & Co. of New 10rk. The bonds have an annual sinking fund beginning 1911 of 10 cents per ton of coal of 2.000 hs. mined, and in addition one-half of the net annual surplus, the proceeds to be invested in bonds at not over 110 and interest if not purchasable, the bonds may be drawn by lot at the same price, all bonds acquired, whether purchased or drawn, to be canceled. The bonds, it is stated, are secured by an absolute first lien on 11,384.70 acres owned in fee at Yankce. New Mexico, on the Santa Fe Raton & Eastern RR., part of the Santa Fe Liberal & Englewood RR. system (see item under that caption under "Railroads" above): also by coal rights in 16,373.44 acres 39-year lease on 1,579.00 acres, and all equipment of the mines, including town-site improvements, these latter being estimated to be worth \$1,556,316.

-William C. Ashwell, senior member of the New York Stock Exchange house of Ashw II & Co., at 30 Broad Street, was killed last Monday while boarding a trolley car uptown. Herbert H. Knox, his business partner, has organized the new firm of Herbert H. Knox & Co. at the same address to continue the old concern's business. Samuel Daughty will be associated with him. Mr. Ashwell, who was a native of New York and about sixty-six years of age, had an inter-esting career in the South African diamond fields, where early in life he and his brother Thomas w re engag d in the wool business at Cape Town. We are informed that Mr. Ashwell was on a hunting trip in the interior when th dis-covery of diamonds was made in 1868. Quitting the wool business, the Ashwells soon established themselves in the diamond fields. When the great Kimberly mine was found later, William C. and Thomas Ashwell were among the first arrivals to stake out claims, which they worked together until Thomas became critically ill and his brother found it necessary to take him out of the country to save his life. Previous to their departure, William Ashwell is understood to have secured an option on a large part of the lands in-cluded in the present Kimberly mine at a purchase price of \$6,000,000. After returning to this country, he tried to interest ex-Governor E. D. Morgan to finance a company to buy the lands. Failing in his endeavors, Mr. Ashwell allowed his option to lapse and in later years the Kimberly mine was bought by Cecil Rhodes for about \$27,000,000. Mr. Ashwell received several hundred thousand dollars for his own share in it. his own share in it.

mine was bought by Cech Rhodes for about \$21,000,000.
Mr. Ashwell received several hundred thousand dollars for his own share in it.
--Corporations desiring fidelity bonds for their officers and employees are referred to the annual statements for 1905 of The Guarantee Company of North America and of the United States Guarantee Company, presented in our advertising columns to-day. Each company has added materially to its surplus during 1906, besides paying its usual dividends. The surplus of each company has been accumulated wholly from earnings—no part of it having been contributed by stockholders. Both companies are under practically the same management, being that which introduced fidelity insurance on this continent over forty years ago. Each company avoids the transaction of a "surety" business, which so often involves large and hazardous risks, upon court, contractors' and depository bonds.
--The January edition of the Hand-Book of Railroad Securities, compiled by the publishers of the "Financial Chronicle," is now ready. The book contains in a small compass very full information concerning the various railroads and the leading industrials whose securities are dealt in on New York, Boston and Philadelphia Stock Exchanges. It shows their earnings, dividends, &c., for a series of years, present fixed charges, and also the amounts of the differen issues of bonds outstanding, their rates of interest, &c. There is also given the monthly range of stocks and bonds for 1905 and 1906, together with a yearly range for four years. Price \$1, or to "Chronicle" subscribers, 75 cents.
--A. O. Slaughter, one of the pioneer stock-brokers of Chicago, died of heart failure at San Antonio, Texas, on Tuesday evening last at 6 o'clock. Mr. Slaughter came to Chicago just after the close of the Civil War, and established a small brokerage office on Clark Street. By reason of his upright and courteous methods, his business rapidly increased, and Mr. Slaughter soon became identified with

its inception.

its inception.
—Mann, Bill & Co., dealers in collateral loans, notes and bonds, at 38 Wall Street, this city, are distributing a little cardboard folder, one of the pages of which contains a table showing Wall Street money rates for each week of the year 1906. The data are in part made up from the records given in the "Chronicle," and the statement in form is much like the annual money tables given in our "Financial Review," only more condensed. The folder should be convenient and useful to those interested in the money market.
—Messrs. Curtis & Sanger, 38 Wall Street, New York, and with offices in Boston and Chicago, are offering for investment \$250,000 Southern Railway Co. 3-year 5% debenture notes, due Feb. 1 1910, to net 6%, and \$250,000 Chicago & Alton RR. Co. 5-year 5% collateral trust notes, due Jan. 1 1912, to net 5¼%. A full description of these issues will be mailed upon request.
—Toby & Lamarche, investment bankers, at 25 Broad Street, this city, have prepared an interesting circular discussing the merits of "Gas, Electric Light and Street Railway Securities as an Investment." The firm will mail copies of this circular on application.
—The Casualty Co. of America, 52 William Street, shows

-The Casualty Co. of America, 52 William Street, shows gross assets on Dec. 31 of \$1,879,874. This is an increase for the year of \$233,676. The statement will be found in another column.

—The business of the old firm of Chas. S. Purinton & Co., Boston, which dissolved on Dec. 31 last, will be continued under the name of Collins, Spalding & Co. at 10 Post Office Square

-Denning & Magoffin, 49 Wall St., are buying Richmond Passenger & Power Co. 5s and the other issues connected with this property.

### The Commercial Times.

#### COMMERCIAL EPITOME.

#### Friday Night, Jan. 25 1907.

Friday Night, Jan. 25 1907. With more seasonable weather general trade is, if anything; better than recently, though snow blockades have occurred in parts of the West. Manufacturing industries have been decidedly active and iron and steel sales extend for a year ahead. Money is easier and the feeling generally confident. Speculation continues dull. LARD on the spot has declined, owing to increasing sup-plies and offerings, larger receipts of live hogs and a reaction in the market for futures at the West. Trade has been dull at the decline. City is quoted at 9.10c. and Western at 9.40@9.50c. Refined lard has been dull and easier in tone, though without marked change in quotations; refined Con-tinent 9.90c., South America 10.75c. and Brazil in kegs 11.75c. The market for futures at the West has shown a reactionary tendency of late. Early in the week the tone was stronger, owing to support from packers, commissionwas stronger, owing to support from packers, commission-house buying and covering of shorts. But the upward move-ment was soon checked by realizing and sales for a decline. Receipts of hogs have been increasing, the spot trade has been dull and bull speculation in futures has, for the time being, at any rate, been less popular.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO. Thurs. 9.22½

The closing prices were as follows:

	January February March April	5.40c.   May 5.40c.   June 5.55c.   July 5.60c.   August	5.70c. October 5.75c. November	5.80c. 5.95c. 6.00c. 6.05c.

In addition to above exports, our telegrams to-night also give us the following amounts of cotton on shipboard, not cleared, at the ports named. We add similar figures for New York.

### THE CHRONICLE.

Jan. 25 at—	Great Britain.	France	Ger- many.	Other Foreign	Coast- wise.	Total.	Leaving stock.
New Orleans_ Galveston Savannah Charleston Mobile Norfolk New York Other ports	51,027 62,809 750 8,260 2,000 11,000	1,200	26,565 34,135 9,500 4,800 1,800 13,000	100		2,000 16,460	$\begin{array}{r} 289,657\\ 259,087\\ 164,978\\ 12,233\\ 52,720\\ 20,992\\ 135,152\\ 28,525\end{array}$
Total 1907 Total 1906 Total 1905	135,846 54,354 35,589	41,730 14,070 14,360	89,800 37,925 43,365	35,401 24,529 46,970	18,287	359,136 149,165 156,614	963,344 793,211 665,088

Total 1905... 35,589 14,400 43,365 46,970 16,330 156,614 665,088 The speculation in cotton for future delivery has been on a very restricted scale, and, like last week, the opposing in-fluences represented by big receipts on the one hand and a big spot demand and consumption on the other have so nearly balanced each other that the net result of the fluctuations is that prices stand about where they were a week ago. Influences which have militated against improvement in prices have been a noticeable falling off in the spot business at Liverpool, some depression in the stock market, and, as already intimated, the large receipts, to which should be added the fact that the weekly statistics of late have not been of a kind to encourage higher prices. That is to say, world's supplies have on the whole increased quite noticeably as contrasted with a decrease at the same time last year. The Census Bureau's report of the ginning up to Jan. 16, which was issued on Jan. 23, was interpreted as bearish here and bullish in Liverpool. Here it was construed as meaning a crop of fully 13,000,000 bales, and some of the estimates are beginning to reach even higher figures. The report showed that the quantity ginned this season up to the 16th inst. was 12,167,873 bales, against 9,989,634 during the same time last season and 12,767,600 bales for the like period two years ago. Meantime the speculation continues as dull as ever. On the other hand, the spot markets have been uni-versally strong, particularly on the high grades, which still command big premiums. Lower grades, too, are meeting with a much better sale. The striking off of eleven grades from the list of grades tenderable on contracts here, as voted by the Exchange on the 23d inst., is expected ultimately to with a much better sale. The striking off of eleven grades from the list of grades tenderable on contracts here, as voted by the Exchange on the 23d inst., is expected ultimately to have a good effect. There is a new agitation, however, in favor of dropping the grades known as Good Ordinary, Strict Low Middling, Stained and Low Middling Tinged. The vigorous and widespread discussion of these questions has for the time being probably caused some reduction in business in futures here. Speculation, however, is playing a distinctly subordinate part this season, the real activity being in the actual cotton to meet the demands of what, to many, looks like an unparalleled consumption. Mr. Ellison has raised his estimate of the world's consumption of Ameri-can cotton to 12,371,000 bales, figures which, large as they has raised his estimate of the world's consumption of Ameri-can cotton to 12,371,000 bales, figures which, large as they are, seem to the bulls decidedly conservative. They also lay stress on the large weekly takings by spinners. Con-tinental spinners have been buying the distant months in Liverpool and Egyptian operators are also said to have been buying there of late. Some of the English mills are said to be sold ahead till April and May of next year. To-day prices were irregular, finally closing slightly lower on selling by local traders and spot interests. Spot cotton has been quiet but firm, closing at 11c. for Middling, an advance for the week of 20 points. The rates on and off middling, as established Nov. 21 1906 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

madning may be de	inversed on contract, a	are as follows:
		Middling tinged_c_ 0.12 off
		Strict low mid.ting 0.46 off
		Low mid. tinged 0.90 off
Barely mid. fair 1.25 on	Barely low mid 0.70 off	Strict g'd ord. ting 1.25 off
Strict good mid 1.00 on	Strict good ord 0.90 off	Fully mid. stained 0.42 off
Fully good mid 0.88 on		Middling stained 0.50 off
		Barely mid.stained 0.78 off
		Strict low m. stain 1.50 off
Strict middling 0.38 on	Good mid. tinged_ Even	Fully 1. m. stained 1.75 off
Middling Basis	Strict mid. tinged_ 0.06 off	Low mid. stained. 2.00 cff

On this basis the official prices for a few of the grades for the past week would be as follows:

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and conse-quently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

WEATHER REPORTS BY TELEGRAPH.-Telegraphic reports to us this evening from the South are, as a rule, of a satisfactory tenor. Rain has fallen in most localities, but the precipitation has been light as a rule; temperature has been lower. The movement of the crop continues on a free scale. Farm work is progressing well in earlier sections.

Galveston, Texas.—We have had rain on two days during the week, the rainfall reaching seventy-six hundredths of an inch. The thermometer has averaged 61, ranging from

the week, the rainfall reaching seventy-six hundredths of an inch. The thermometer has averaged 61, ranging from 48 to 74. Abilene, Texas.—Rain has fallen on two days of the week, the rainfall being thirty-one hundredths of an inch. The thermometer has ranged from 30 to 76, averaging 55. Fort Worth, Texas.—Rainfall for the week three hundredths of an inch on two days. Average thermometer 56, highest 78, lowest 34. Corpus Christi, Texas.—There has been rain on one day during the week, the precipitation reaching six hundredths of an inch. The thermometer has averaged 60, the highest being 76 and the lowest 44. Palestine, Texas.—We have had rain on one day during the week, the rainfall reaching thirty-eight hundredths of an inch. The thermometer has averaged 52, ranging from

inch. 5 34 to 78 The thermometer has averaged 52, ranging from

San Antonio, Texas.—There has been rain on one day of the past week, and the rainfall has been two hundredths of an inch. The thermometer has ranged from 36 to 80, averaging 58

Taylor, Texas.-Rainfall for the week eight hundredths of an inch on one day. Average thermometer 66, highest 80, lowest 32.

New Orleans, Louisiana.—We have had rain on two days the past week, the rainfall being fifty hundredths of an inch.

The thermometer has averaged 57. Shreveport, Louisiana.—We have had rain on one day during the week, the precipitation reaching six hundredths of an inch. The thermometer has ranged from 34 to 66,

of an inch. The thermometer has ranged from 34 to 66, averaging 50. Leland, Mississippi.—There has been rain during the week, the rainfall being thirty-five hundredths of an inch. The thermometer has averaged 51.4, the highest being 70

The thermometer has averaged 51.4, the highest being to and the lowest 32. *Vicksburg, Mississippi.*—It has rained on one day of the week. The precipitation reached forty hundredths of an inch. The thermometer has averaged 55, ranging from  $28.4 \pm 76$ inch. Th 38 to 76.

Helena, Arkansas.—Farm work has commenced. There is still a little cotton in the fields. The river is rising. Land outside the levee has been overflowed, but record high-water mark has not been reached. We have had rain on one day during the week, to the extent of thirty-two hundredths of an inch. Average thermometer 50, highest 74, lowest 32.

Little Rock, Arkansas.—The weather has been favoralbe for farm work the past week. Cotton is still being marketed freely, there being no indications of holding back. We have had rain on one day, the precipitation reaching one hun-dredth of an inch. The thermometer has averaged 52, the highest being 74 and the lowest 30. Memphis, Tennessee.—The river is thirty-four and two-tenths feet on the gauge, and rising. Rain has fallen on three days of the week, the precipitation being thirty-nine hun-dredths of an inch. The thermometer has averaged 50.7, ranging from 29 to 73.2. Mobile, Alabama.—Farm work is making good progress in some sections. Rainy early part of the week in the in-terior, but fair and cold since. Rainfall for the week inthe in-ter 57, highest 73, lowest 37. Montgomery, Alabama.—There has been rain on two days during the week, the rainfall being sixty-five hundredths of an inch. The thermometer has averaged 54, the highest being 76 and the lowest 31.

an inch. The thermometer has averaged 54, the highest being 76 and the lowest 31. *Madison, Florida.*—Dry all the week. The thermometer has ranged from 30 to 82, averaging 51. *Savannah, Georgia.*—There has been no rain during the past week. The thermometer has averaged 55, the highest being 77 and the lowest 34. *Charleston South Georging*. It has rained on one day of

Charleston, South Carolina.—It has rained on one day of the week to an inappreciable extent. The thermometer has averaged 53, ranging from 33 to 74. *Greenwood, South Carolina.*—We have had no rain during the week. The thermometer has ranged from 39 to 59,

the week. The thermometer has ranged from 39 to 59, averaging 49. Stateburg, South Carolina.—We have had light rain on one day during the week to the extent of nine hundredths of an inch, followed by a cold wave. Average thermometer 50, highest 74, lowest 24. Charlotte, North Carolina.—We have had rain on one day during the week, the precipitation reaching four hundredths of an inch. The thermometer has averaged 45, the highest being 70 and the lowest 21

being 70 and the lowest 21.

The following statement we have also received by tele-graph, showing the height of rivers at the points named at 8 a. m. of the dates given:

NEW YORK COTTON EXCHANGE.—Quarter Grades Abolished and some Low Grades Cut Ojj.—The members of the New York Cotton Exchange on Wednesday balloted on some changes in its by-laws. Three propositions were acted upon, two being carried by very large majorities and the other, while receiving a majority of 40, failed to carry because a two-thirds majority was required. The amend-ment making strict low middling stained the lowest grade deliverable on contract, and in this way raising the character of the New York contract, received a vote of 265 to 24 against. The amendment cutting out all quarter grades was carried by a vote of 222 to 67. These changes go into effect January 1 1908. The grades that are to be eliminated are: Barely middling fair, fully good middling, both of which command premiums; fully low middling, barely low middling, fully low ordinary, strict good ordinary tinged, fully middling stained, barely middling stained, fully low middling stained and low mid-dling stained, which pay discounts. The other metter submitted was a memorial to provide

middling stained, which pay discounts. The other matter submitted was a proposition to provide for a third revision of grades to be made in February. The vote on this amendment was 163 for and 123 against, but as a two-thirds majority was needed to carry it failed of passage passage.

WORLD'S SUPPLY AND TAKINGS OF COTTON. The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Sept. 1, for the last two seasons, from all sources from which statistics are obtainable; also the takings, or amount gone out of sight, for the like periods:

The total crop of the United States in 1905-06 was 10,495,105 bales; in 1904-05 was 13,451,337, and in 1903-04 was 9,819,969. The statistics for this report include 260,095 round bales ginned to Jan. 16 1907; 270,669 for 1906; 289,425 for 1905; 747,480 for 1904. The number of Sea Island bales included is 56,202 for 1907; 104,710 for 1906; 98,110 for 1905; 72,907 for 1904. The Sea Island cotion ginned to Jan. 16 1967, distributed by States, is: Florida, 23,666; Georgia, 24,775; South Caro-lina, 7,711. The nu ber of ginneries returned as having been operated this season prior to Jan. 16 is 28,525, compared with 28,886 for 1906.

COTTON SUPPLY AND CONSUMPTION IN EUROPE.

By cable we have received the substance of Mr. Ellison's first of January cotton review, and in our editorial columns give the results.

ALEXANDRIA RECEIPTS AND SHIPMENTS OF ADEXAMOLIA RECEIPTS AND SHITMENTS OF COTTON.—Through arrangements made with Messrs. Choremi, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years:

Alexandria, Egypt, January 23.	190	6-07.	190	5-06.	190	4-05.	
Receipts (cantar a)— This week Since Sept. 1	180,000 5,614,283			30,000 77,250	175,000 4,143,145		
Exports (bales)—	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.

JUTE BUTTS, BAGGING, &c.—The market for jute bagging has been very dull during the week under review at unchanged prices, viz.: 8<sup>3</sup>/<sub>4</sub>c. for 1<sup>3</sup>/<sub>4</sub> lbs. and 9<sup>1</sup>/<sub>8</sub>c. for 2 lbs., standard grades. Jute butts also very dull at 3@4c. for bagging quality.

#### BREADSTUFFS.

Friday, Jan. 25 1907.

VOL. LXXXIV.

Prices for wheat flour have been firm as a rule, owing to the advance in wheat. Millers have asked higher quotations, which buyers have refused to pay, with the result that an already exceedingly small volume of business has been still further reduced. Export trade has been stagnant, and the daily clearances of flour from the seaboard for Europe have been small. At the principal milling centres of the Northwest and the Southwest business continues dull. Here prices which buyers offer to pay for even small lots are as a rule 10 cents below market quotations. Rye flour and corn meal have been quiet and steady.

meal have been quiet and steady. Wheat has advanced, favored by continued small receipts at the Northwest, higher European quotations, bullish world's statistics and a better export demand. Moreover, the weather at the West has been extremely cold, where much of the crop is unprotected by snow. Blizzards have occurred at the Northwest. Extraordinarily cold weather has prevailed over Eastern Europe, extending as far south as Greece. Black Sea ports have become icebound and heavy snows have impeded shipments from Odessa. Some reports, too, insist that the recent extraordinarily cold weather in Russia has done harm over large areas which at that time lacked snow covering. The world's stocks of wheat last week fell of no less than 6,427,000 bushels, a decrease nearly three times as large as that in the previous week, while it contrasts still more strikingly with an actual increase for the corresponding week last year of 430,000 bushels. There is still an excess in the world's stocks of American over those of last year of some 5,000,000 bushels, while the total world's sup ply of all kinds, reaching 158,686,000 bushels, is 5,000,000 bushels larger than a year ago. This shows, however, a gradually diminishing excess over last year. Speculation at Chicago has increased but more on account of the light movement of the crop, an advance in foreign markets and some increase in the export trade, than because of any important injury to the American erop thus far. To-day prices advanced on reports of extremely cold weather in Russia, a blizzard in the American Northwest, firmer Liverpool cables, continued small receipts, reports that alternate freezing and thawing weather over the winter-wheat belt is creating apprehension regarding its effects on the plant and covering of shorts.

Indian corn futures have shown an upward tendency, influenced mainly by continued small receipts and the advance in wheat. At times during the week there has been an absence of contract grade in the arrivals at Chicago. Shorts have covered and there has been some increase in commission house business at the West. Moreover, a larger business has been reported for export at strong prices. The weather has in the main been more favorable for drying the crop, provision interests have sold at times and there has been more or less realizing. But in view of the small receipts and the strength of wheat the bears have shown no aggressiveness. To-day prices were firm early on unfavorable crop reports from Argentina, where the crop is suffering from drought, small receipts, and covering, but later three was a decline on realizing.

Oats for future delivery in the Western market have ad-vanced, owing to the rise in wheat, small receipts, an increased cash demand at strong prices, light offerings and covering of shorts. The speculation had been far less active and at times, too, the market has felt the effects of realizing; but the general course of prices has been upward. To-day, the general course of prices has been upward. To-day, however, the market was easier in the main despite continued small receipts and the rise in wheat. Some recent buyers took profits and there was a lack of support.

#### THE DRY GOODS TRADE.

#### New York, Friday Night, January 25 1907.

New York, Friday Night, January 25 1907. The cotton goods market has displayed still further strength during the week and values in several instances have been raised to even higher levels. Instead of being disturbed by this, however, buyers seem to regard it as a natural course and are apparently convinced that prices are to rule higher for a considerable length of time. This belief has been strengthened to some extent by the firmness of the raw material market and by the common knowledge that the cost of production is greater than it has ever been, on account of the searcity of labor, higher wages, &c. The situation is brought home very strongly to buyers who are seeking spot goods in the primary mark t, for agents are en-tirely unable to accommodate their largest customers with even small quantities, which is as annoying to the former as it is to the latter. Aggregate business during the week had been large but it has consisted for the most part of a number of small orders; there has, however, been some fairly active covering of future requirements by some of the larger houses, who are apprehensive of what may happen in the event of the apparently awakened interest of Chinese buyers in this market. Latest advices from that country are to the effect that stocks at Shanghai are moving more freely, and it is this fact which leads many to suppose that there may be some active purchasing here for Chinese account before yong. Woolen and worsted goods have been moving more freely, both in the men's wear and dress goods divisions. DOMESTIC COTTON GOODS.—The exports of cottom goods from this port for the week ending Jan. 19 were 3.782

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending Jan. 19 were 3,782 packages, valued at \$249,084, their destination being to the points specified in the tables below:

	-1	907— Since		906- Since

			-	

The value of these New York exports since Jan. 1 has been \$728,286 in 1907, against \$1,346,445 in 1906. There has been a much better demand for heavy brown drills and sheetings during the week, especially the latter, and there is a general feeling that current prices will seem cheap before very long. These goods are relatively lower than the finer classes of fabrics, and, as supplies are not large,

anything in the way of active buying for China would doubtless have an immediate effect upon the market. It is for this reason that some astute buyers are protecting their requirements for some time ahead. Sales to China during the week have included 3-yard drills. Four-yard sheetings have been in good demand and in some instances are quoted a full ½c. higher. Bleached goods are as scarce as ever and fully maintain their strength. Wide sheetings are unob-tainable for near-by shipment and sheets and pillow cases are very firmly held. There is no relief in the coarse, colored cotton goodssituation, and mills are booked farther ahead than they have ever been. The advances noted on napped goods are fully maintained. Linings are active and higher, Ginghams have been advanced ½c. and the production is insufficient to supply the demand. In spite of the fact that the ½e. advance in prints has now gone into effect, there has been little if any decrease in activity. Buying of print cloths has been free and goods for nearby delivery are be-coming very scarce.

has been little if any decrease in activity. Buying of print cloths has been free and goods for nearby delivery are be-coming very scarce. WOOLEN GOODS.—A larger number of buyers has been present in the men's wear market during the week and business is beginning to assume a more satisfactory aspect. The colder weather has had an influence and the volume of purchasing during the week has been heavier than at any time since the season opened. Operations, however, have been for the most part confined to the medium grades, as the finer qualities have not been shown and are not expected to be opened before about the first of next month. Up to date there has been a decided improvement in the demand for woolens and the hopes of those who expected a better season for these bid fair to be fully realized. On the other hand there has been a falling off in the request for manipu-lated fabrics, and the difficulty of securing cotton yarns for reasonable delivery is likely to have a serious effect on those goods into the manufacture of which cotton enters. Cassi-meres have been in the best demand among wooled goods. Overcoatings are dull except in a few isolated instances, the weather being very much against them. In some spots the dress goods market has been quite active and a very satis-factory season is looked forward to by the trade. Many buyers have been in town and the fall purchasing has been progressing freely, while duplicating has also been active. There is little change in the character of the buying, the same lines being the most popular as in the recent past. FOREIGN DRY GOODS.—Imported woolen and worsted dress goods have been active and prices are very firm. Silks show continued improvement. ' Ribbons are firm at recent advances. Linens remain very strong with an active de-mand. Burlaps are steady and scarce.

Importations and Warehouse Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending January 19 1907 and since Jan. 1 1907, and for the corresponding periods of last year,

## STATE AND CITY DEPARTMENT.

#### News Items.

News Items. Atlantic City, N. J.—Progress of City.—As stated in last week's issue, the city will offer for sale on Feb. 9 five issues of 4% and 4½% bonds aggregating \$650,000, for water, for paving and for hospital purposes. The financial standing of the city is excellent and its bonds have always brought good prices. The gross bonded debt is comparatively small, being only about 5% of the taxable values, while the netidebt (gross less water debt and sinking fund) is only 1½%. See V. 84, p. 172, for details of new offering. Atlantic City is without doubt the most popular resort along the Atlantic Coast, not only during the summer, but in the winter months as well. Its permanent population and its taxable values have shown steady increase during the past thirty-six years, the population which in 1870 was only 1,043 now being nearly 40,000, while taxable values during that period have advanced from \$613,706 to \$50,-438,430, as will be seen from the table given below:

438,430, as will be seen from the table given below:

$\begin{array}{c} Year. \ Popul'n.\\ 18701.040\\ 18711.060\\ 18721.095\\ 18731.550\\ 18731.550\\ 18752.009\\ 18762.550\\ 18773.100\\ 18783.600\\ 18794.425\\ 18805.477\\ 18816.125 \end{array}$	$\begin{array}{c} Valuat'n, Year, Popul'n, \ IS3, 7.225\\ \$613,706 1884, 7.225\\ \$63,700 1885, 7.942\\ 805,920 1885, 8.500\\ 854,975 1887, 9.371\\ 880,025 1888, 10,000\\ 1,002,475 1889, 11,500\\ 999,435 1890, 113,037\\ 1,089,848 1891, 13,047\\ 1,179,267 1892, 14,925\\ 1,727,475 1894, 17,193\\ \end{array}$	$\begin{array}{c} \$1,989,610\\ 2,087,915\\ 2,602,312\\ 2,796,395\\ 3,537,375\\ 3,712,818\\ 4,198,145\\ 4,415,896\\ 10,865,634\\ 11,052,925\\ 12,113,196 \end{array}$	$\begin{array}{c} 189722,365 \\ 189824,110 \\ 189926,915 \\ 190027,838 \\ 190129,000 \\ 190232,262 \\ 190335,000 \\ 190436,000 \end{array}$	$\begin{array}{c} Valuat^*n.\\ \$12.172.646\\ 12.359.654\\ 12.763.603\\ 12.910.070\\ 15.312.393\\ 18.299.400\\ 21.396.606\\ 23.281.132\\ 46.749.900\\ 47.374.340\\ 49.069.922\\ 50.438.430\\ \end{array}$

 $\mathcal{F}$  It should be borne in mind that the population figures above given represents only the permanent population. The superb arrangements both for the comfort and pleasure of visitors, the beauties of the beach and boardwalk, and the proximity of both New York and Philadelphia, prove such an attraction that the summer population often reaches  $250\,000$ 250.000.

#### Bond Proposals and Negotiations this week have been as follows:

Amelia, Ohio.-Bond Sale.-On Dec. 1 1906 \$1,605 5% Main Street sidewalk bonds were awarded to John Nichols of Cincinnati at par. Securities are dated Dec. 1 1906. In-terest semi-annual. Maturity part yearly on Dec. 1 from 1908 to 1913 inclutive.

Anderson, Madison County, Ind. —Bond Sale. —On Jan. 17 this place awarded \$24,500 3½% 20-year refunding bonds dated Feb. 1 1907 to J. F. Wild & Co. of Indianapolis at par. Denomination \$500. Interest semi-annual.

Asbury Park, Monmouth County, N. J.-Bond Offering .-Proposals will be received until 2 p. m., Jan. 28, for \$150,-000 4% coupon beach-improvement bonds. Authority. Chapter 80, Laws of 1906. Denomination \$1,000. Date Oct. 1 1906. Interest semi-annually in New York exchange. Maturity Oct. 1 1946. Official advertisement states that there has never been any default in the payment of principal or interest on any bonds, and there is no controversy pending or threatened concerning the validity of these bonds. These securities take the place of those awarded on Dec. 3 1906 to Kountze Brothers of New York City, which sale was never consummated.

Ashland, Ashland County, Wis.—Bonds Voted.—The elec-tors of this city on Jan. 15 authorized the issuance of \$80,000 5% 5-20-year electric-light-plant bonds. The vote was 1,034 to 287. These bonds will not be a general city liability, but will be issued as a mortgage on the plant, payable only from the income of the plant from the income of the plant

Avoyelles Parish (La.) School District.—Bonds Authorized. —The Board of School Directors, according to local reports, has voted to issue \$17,500 5% school-building bonds. Se-curities will be dated Jan. 15 1907 and mature "within aight years" eight years.

Auglaize County (P. O. Wapakoneta), Ohio.—Bond Ojjer-ing.—Proposals will be received until 12 m. Feb. 12 by W. H. Meyer, County Auditor, for \$30,000 5% bridge-building bonds. Authority Sections 871-872 and 2835 of the Revised Statutes. Denomination \$1,000. Date Jan. 1 1907. In-terest semi-annually at the office of the County Treasurer. Maturity \$1,000 each six months from July 1 1908 to Jan. 1 1923 inclusive. Deposit of \$500 in cash required. Accrued interest to be paid by purchaser.

commence Oct. 1 1906 and is payable semi-annually. Stock is redeemable Oct. 1 1980. "The city does not tax any of its issues of stock and takes the place of the holder of this issue in the payment of the annual State tax thereon, for which the holder is legally liable." Bids for "all or none" of the stock will not be considered.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department

the advertisements elsewhere in this Department. Barnesboro, Cambria County, Pa.—Bond Offering.—Pro-posals will be received until 12 m. to-day (Jan. 26) by Emory H. Davis, Borough Solicitor, for \$7,500 4½% coupon street-paving bonds. Denomination \$100. Date Aug. 26 1906. Interest March and September in Barnesboro. Maturity Sept. 1 1916, subject to call \$500 or \$600 yearly. Bonds are exempt from taxation. Bonded debt \$7,500; floating debt, \$3,529. Assessed valuation for 1907 \$572,378.

Bayonne, N. J.—Bond Offering.—Proposals will be re-ceived until 8 p. m. Feb. 5 by W. C. Hamilton, City Clerk, for the following bonds offered but not sold on Dec. 18 1906. \$10,000 4% gold school bonds dated Dec. 1 1906. Maturity 25 years 49,400 4½% gold school bonds dated Jan. 1 1907. Maturity 10 years.

Interest Jan. 1 and July 1.

Berkeley, Alameda County, Cal.—Bids.—The following bids were received on Jan. 14 for the \$100,000 municipal-wharf, \$137,000 town-hall, \$11,100 police-alarm-system and \$50,000 fire-department 4½% 1-40-year (serial) gold bonds awarded, as stated in V. 84, p. 172, to the Los Angeles Trust Co. of Los Angeles at 106.038.

Denominations \$1,000 and \$452 50. Date Feb. 1 1907. Interest semi-annually at the Town Treasurer's office.

Blair County (P. O. Hollidaysburg), Pa.-Bond Offering. Proposals will be received until 10 a. m. Feb. 11 by the County Commissioners for \$200,000 4% registered bonds. Denomination \$1,000. Date Jan. 1 1907. Interest semi-annual. Maturity thirty years, subject to call after fifteen years. Certified check for 2% of the bonds bid for, payable to the County Treasurer, is required.

Blue Springs School District (P. O. Blue Springs), Jackson County, Mo.—Bond Sale.—We are advised that the \$6,000 5% school-building bonds mentioned in V. 83, p. 1245, were awarded some time ago to the Citizens' State Bank of Blue Springs for \$6,012 50, the price thus being 100.208. Denom-ination \$600. Date Oct. 15 1906. Interest January and July. Maturity \$600 yearly on Oct. 15 from 1907 to 1916 inclusive. inclusive

Bound Brook School District (P. O. Bound Brook), N. J.— Bond Offering.—Proposals will be received until 8 p. m. Jan. 29 by E. H. Casterlin, District Clerk, for \$50,000 4% coupon school-building bonds. Denominations: ten bonds of \$1,000 each and twenty of \$2,000 each. Date Feb. 1 1907. Interest semi-annually at the First National Bank in Bound Brook. Maturity \$1,000 prostly for the years and Bound Brook. Maturity \$1,000 yearly for ten years and \$2,000 yearly for the following twenty years.

Brookings, Brookings County, So. Dak.—Bond Offering.— Proposals will be received until 12 m. Feb. 6 by G. H. Stod-dart, City Auditor, for the following bonds:

\$15,000 5% water-works bonds. Authority Sections 1391 to 1393 of the Political Code. 15,000 5% sewerage-system bonds. Authority Chapter 155 of the Ses-sion Laws.

Denominations 1,000. Date July 1 1907. Interest semi-annually at the City Treasurer's office. Maturity July 1 1927, subject to call after July 1 1917. Certified check for 5% of the bonds bid for, payable to H. F. Haroldson, City Treasurer, is required.

Buffalo, N. Y.—Bond Sale.—On Jan. 22 the \$300,000 4% 1-10-year (serial) registered tax-scrip bonds (non-taxable) described in V. 84, p. 172, were awarded to the Erie County Savings Bank of Buffalo at 100.61—a basis of about 3.876%. A bid of 100.043 was also received from N. W. Harris & Co. of New York City.

of New York City. Cameron School District (P. O. Cameron), Marshall County, W. Va.—Bond Ojjering.—Proposals will be received until 5 p. m. Jan. 31 by the Bond Commissioners for \$35,000 5% coupon school-building bonds. Denomination \$500. Date Jan. 2 1907. Interest annually in Cameron. Maturity \$1,000 in 1910 and \$2,000 yearly thereafter. Bonded debt, this issue. Assessed valuation for 1906 \$3,295,921. Contem Union School District (P. O. Canton). Stack

1923 inclusive. Deposit of \$500 in cash required. Accrued interest to be paid by purchaser.
The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

 Redlands, Cal.—Bond Sale.—On Jan. 16 the \$50,000 5% 1-20-year (serial) gold funding bonds described in V. 84, p.
 62, were awarded to the American Savings Bank of Los Angeles at 108.022 and accrued interest—a basis of about 4.05½%. The following bids were received:
 \*\*\*\* Mere Savs. Bank Los Ange \$53,535 W. R. Staats Co., Pasadena. 53,005 N. W. Haisey & Co., Los Ange \$53,535 John Marble Co., Los Ang. 52,425 St. Joseph County (P. O. South Bend), Ind.—Bond Sale Not Consummated.—The sale of the \$100,000 3½% bridge bonds awarded last October to J. F. Wild & Co. of Indianapolis and the \$60,000 3½% asylum bonds awarded at the same time to Breed & Harrison of Cincinnati has never been consummated. The bonds were held void for the reason that action was taken on the issue by the County Council at their regular meetings held on Sept. 5 and 6 last, when they had neglected to fill a vacancy in the Council occasioned by the death of one of its members. The bonds were, therefore, destroyed. The \$210,000 bridge and the \$60,000 asylum bonds awarded and In. 17 (V. 84, p. 175) were issued under entirely new

Salina, Kansas.—Bond Sale.—This city recently awarded at private sale to Hoehler & Cummings of Toledoj\$11,500 South Santa Fe Avenue assessment, \$8,000 sewer and \$7,800 sewer 5% coupon bonds. Securities are dated Jan. 1 1907. Interest semi-annually at the fiscal agency of the State of Kansas in New York City. Maturity one-tenth yearly.

Spring Lake, Mich.-Bond Sale.-We are advised that the Spring Lake, Mich.—Bond Sale.—We are advised that the \$15,000 41/2% coupon water-works bonds offered but not sold on May 2 1906 (V. 82, p. 118) were subsequently awarded to H. W. Noble & Co. of Detroit at par and accrued interest, less cost of preparing bonds. Denomination \$500. Date March 8 1906. Interest semi-annual. Maturity \$500 yearly on March 8 from 1908 to 1917 inclusive and \$1,000 yearly on March 8 from 1918 to 1927 inclusive.

**Stockton, Hunterdon County, N. J.**—Bond'Sale.—An issue of \$7,000 5% improvement bonds has been disposed of to the Lambertville National Bank.

Sugar Notch (Borough), Luzerne County, Pa.—Bond Sale. —On Jan. 7 the \$8,500 5% 19½-year (average) coupon judgment-funding bonds described in V. 84, p. 63, were awarded to S. A. Kean of Chicago at 101.10—a basis of about 4.912%

Sutton, Braxton County, W. Va.—Bond Offering.—Pro-posals will be received until 6 p. m. Feb. 1 by W. L. Arm-strong, Town Recorder, for \$18,000 5% coupon bonds. Securities are dated Jan. 1 1907. Interest annually at the Seaboard National Bank in New York City. Maturity thirty years, subject to call after ten years. This offering was inadvertently reported under the head of Sutton, Va., in last week's "Chronicle."

Trenton, N. J.—Bond Offering.—Proposals will be re-ceived until 11 a. m., Jan. 29, by W. J. B. Stokes, City Treasurer, for the following bonds:

Treasurer, for the following bonds.
\$300,000 4% 30-year registered city-hall bonds dated March 1 1907.
100,000 4% 30-year registered water bonds dated June 1 1906. Interest from June 1 1906 to Dec. 1 1906 canceled.
63,000 4% 10-year registered sewer-certificate-funding-assessment bonds dated Feb. 1 1907.
Denomination \$100 or multiple. Interest semi-annual.
Certified check on a national bank for 5% of each issue bid
