## ANNOUNCEMENT

#### Colonial Trust Co. The Trust Co. of America.

At the opening of business to-day COLONIAL TRUST COMPANY will be merged into THE TRUST COMPANY OF AMERICA.

The offices heretofore maintained by THE TRUST COMPANY OF AMERICA at No. 135 Broadway and No. 36 Wall Street, and by the COLONIAL TRUST COMPANY at No. 222 Broadway, will be continued, the latter as the COLONIAL BRANCH of THE TRUST COMPANY OF AMERICA.

Until further notice all business of each office will continue to be conducted, so far as both depositors and the public are concerned, in all respects as though no merger had taken place.

New York, N. Y., April 26, 1907.

PACIFIC BANK. 470 Broadway, New York, April 23, 1907. The Board of Directors have this day declared a quarterly dividend of 2 Per Cent, payable on and after May 1 next. The transfer books will be closed to May 1, 1907. S. C. MERWIN, Cashler.

THE NASSAU BANK. New York, April 24th, 1907. 108th Consecutive Dividend A semi-annual dividend of FOUR (4) PER CENT was this day declared, out of the earnings of the last six months, payable, free of tax, on and after May 1, 1907. To stockholders of record April 30th, 1907. EDWARD EARL, Cashier.

## Wanted.

A Prominent Stock Exchange House desires

and south divisions of the city of Chicago, now maintained and operated by the receivers of Chicago Union Traction Company, passed by the City Council of the city of Chicago on February 11, 1907, are only available through a deposit of stock. both preferred and common, of the Chicago Union Traction Company as in said ordinance required

and to the amount therein specified. A plan of reorganization is to be formulated, as provided by said ordinance, and prompt action on the part of the preferred and common stockholders of said company is essential to secure proper representation and consideration in the preparation and adoption of such plan.

The undersigned, at the request of the holders of a large proportion of both preferred and common stock of Chicago Union Traction Company. have consented to act as a committee on behalf of those stockholders who desire to participate in such plan of reorganization and who shall make the deposit of stock hereinafter referred to.

	AMERICAN GRAPHOPHONE COMPANY Consecutive Quarterly Preferred Dividend No. 48. The regular quarterly dividend (No. 48) of ONE AND THREE-QUARTERS PER CENT on the preferred capital stock of the American Graphophone Company will be paid May 15 1907 to stockholders of record May 1. By order of the Directors. EDWARD D. EASTON, President. THE PULLMAN COMPANY. DIVIDEND NO. 161. A quarterly dividend of \$2 00 per share, from net earnings, has been declared payable May 15th, 1907, to Stockholders of Record at close of busi- ness April 30th. 1907. Checks will be malled. # \$2,500.000

# NEW ORLEANS TERMINAL CO. TWO-YEAR 6% NOTES

Guaranteed principal and interest, jointly and severally, by

# Southern Railway and St. Louis & San Francisco Railroad

Trust Company of America, Trustee

Due April 10, 1909.

This issue of \$2,500,000 OF NOTES is secured by \$4,000,000 NEW ORLEANS TERMINAL CO. FIRST MORTGAGE 4% GOLD BONDS, guaranteed principal and interest by the Southern Railway and St. Louis & San Francisco Railroad,

#### which collateral at the **PRESENT MARKET VALUE AMOUNTS TO \$3,600,000, SHOWING AN EQUITY OF 44%**.

The terminal property in the City of New Orleans consists of 49 consecutive blocks in the heart of the City, on which site a substantial passenger terminal is to be erected. The Company also owns about 5,500 acres of land on the east bank of the Mississippi River with a river frontage of about two and one-half miles. Upon this land are the Port Chalmette Terminals, with large wharfage and storage facilities, including a grain elevator with a capacity for handling 500,000 bushels of grain, besides other valuable improvements and leases. The Company owns about 63 miles of track connecting with seven roads entering New Orleans.

These Notes have been issued for building a handsome passenger station and new terminal and docking facilities along the river, which, together with other improvements, will complete the property.

The deed of trust and form of guaranty have been passed upon by our attorneys, Messrs. Cravath, Henderson & de Gersdorff.

Having sold over three-quarters of the above issue of Notes, we offer the balance

#### AT 100 AND INTEREST.

Special circular, with letter from President of the Company, fully describing the property, may be obtained upon application.

# "RAILWAY AND INDUSTRIAL" SECTION.

A new number of our "Railway and Industrial" Section, revised to date, is sent to our subscribers today. The editorial discussions in the same embrace the following topics: "Improvements in Railroad Superstructure" and "Railroad Conditions in the South."

# THE FINANCIAL SITUATION.

Crops and the President's political campaigns have gotten to be the engrossing topics discussed the past week by the daily press, if not the controlling influences on the markets. As we said in our last issue, the season being in good part phenomenally backward, weather conditions are in favorable shape to give a quasi basis for a real setback to the development of agricultural products and to float even baseless rumors of crop deterioration. Cotton, where the plant has been forward, as was the case in many districts, has suffered from the recent cold; in some instances it has been killed, requiring replanting. The weekly Government weather bulletin issued at Washington April 23 stated that the current week was the third of abnormally cold weather, especially in the districts east of the Mississippi River. It is likewise reported to be true that east of the Rocky Mountains the last seven days have shown a mean temperature considerably below ordinary. In the plateau regions, and in all districts to the eastward, with the exception of Florida, the temperature has been notably low, with the most marked deficiencies occurring in the central valley, and freezing weather has extended as far South as Northwestern Texas, central Mississippi and the western part of North Carolina, with heavy frosts as far South as Arkansas and Tennessee. Winter wheat is also said to have suffered from the low-temperature conditions; also from insect destroyers, and, at points, by lack of moisture. The damage hitherto due to these causes may not be very serious, though at the moment it promises to cut the winter-wheat crop somewhat short of last year's. This can be made good by the planting of the spring variety of wheat, should future weather conditions be favorable.

If current reports can be depended upon, the disclosures with respect to Presidential politics are highly sensational. Although Mr. Roosevelt's intention, as heretofore announced, seems still not to be a Presidential candidate himself a year hence, his purpose appears not to allow any one else to be a candidate except a lineal descendant of his opinions and policies. Those are not the words by which the claim is put forth, but the statements made seem to represent that conclusion. Take New York and Governor Hughes as illustration. The Governor has been struggling all through the legislative session in a dignified, proper way to get certain things done and Acts passed that outlined a policy which he believed was desirable for the State. His plans did not develop as smoothly as he wished, but met impediments in the shape of sensational opinions opposed to the Governor's. That was a proper proceeding for grinding out in a constitutional way the problems between these contestants and bid fair to produce wholesome results. All at once, and with the suddenness and force of a tidal wave, President Roosevelt whooped down on this peaceful situation

for FRASER

and set both circles astir, being startled and disturbed. The President disclosed his purpose in an illustrative way. He brought with him a bundle containing the names of all officials in New York in the gift of the Government, and through an object lesson explained to Mr. Hughes what this gift meant. The lesson was made obvious by the removal of one officer the President thought was in the way of the Governor's desires and the appointment in his place of another who the President believed would be serviceable to Mr. Hughes's plans; it is reported he then told Governor Hughes, in substance—all the offices in New York State the General Government has to give I put at your disposal.

It is also reported that a similar gift with regard to Ohio was subsequently made to Mr. Taft; only in that case the gift was in a different form; instead of consulting the United States Senators from that State, the appointments hereafter would be left to Mr. Taft's approval. Consulting United States Senators from the State concerned has in the past been approved only because that body was a co-ordinate branch of the Government and has been given the power to confirm the more important appointments. Taking the consulting and approving power from Senator Foraker and putting it where it can be made of service in carrying an election is not likely to receive Mr. Taft's approval or harm Mr. Foraker's prospects in Ohio. We are of the opinion that both of these putative candidates will be embarrassed by this gift. It is too unfavorably suggestive; leaving a chance for a troublesome opponent to make capital out of the situation. Some might even ask, Which is the more reprehensible-buying votes and political influence by paying in offices or by paying in gold. Does not too, the fact, and in truth the whole machinery, by which an acting President might seek to name his own successor, partake a trifle too much of a reaching after kingly power to be popular in this country?

Discount conditions at the principal European centres, with the exception of Paris, showed marked improvement this week, as was indicated by the reduction in the Bank of Germany's rate by  $\frac{1}{2}$  of 1% to  $5\frac{1}{2}\%$ , in the Bank of the Netherlands to 5% and in the Bank of England to 4%. There were good reasons for the maintenance of the French Bank rate at  $3\frac{1}{2}\%$  and for the firm tone in the unofficial quotation. Paris bankers are now withdrawing from London the gold which they advanced to the British market early in the year, in order to relieve the tension which then prevailed at that centre, and the maintenance of the  $3\frac{1}{2}\%$  rate of discount seems to be desirable to facilitate such withdrawals. When they shall be completed, as seems likely soon will be the case, it appears probable that the Bank of France official rate will be reduced. The fact that London bankers view the recall of French capital without concern is indicated by the low open market rate of  $3@3\frac{1}{8}\%$ . This seemed to foreshadow, early in the week, a reduction in the Bank minimum, which occurred on Thursday, when 4% was recorded. Another manifestation of the existence of entirely normal conditions in the London discount market was the low contangoes at the end of the April settlement, these rates being the lowest in many months, reflecting an easy speculative situation. It appears probable that now the German loan of 100

#### APR. 27 1907.]

million dollars has been placed, the Imperial Bank will again reduce its rate; and, indeed, conditions hold out the promise that then normal discounts will rule at all the European centres. That seems likely for the reason that the Bank of England will be able soon largely to increase its gold reserve through the purchase of the metal which is now in transit from South Africa, amounting to about \$10,000,000. With this fortification of its reserve, the Bank will be in a position to meet all requirements, even though they should be large, as the result of its international prominence, and dominate the European situation.

The measures of relief to the New York market, through the timely intervention by Secretary Cortelyou, have largely, as has been heretofore noted, indirectly contributed to the restoration of normal monetary and discount conditions abroad. The direct results thus far are shown in the purchase of \$23,467,-750 4s of 1907, the refunding into 2% consols of \$39,-196,550 and the increase of deposits in national banks by \$28,000,000 since March 4, including \$17,510,000 customs collections placed in New York depositories. When the purchase of \$25,000,000 4s, which Mr. Cortelyou called for redemption, shall be effected, and when refunding of the \$50,000,000 set apart for this purpose shall be ended, there will be no further operations either in refunding or redemption; on July 2, however, the amount of 4s then outstanding, about \$35,000,000, will be redeemed in cash. Meanwhile, deposits of public funds in the banks will continue, for it is stated that the Secretary has not changed his policy in this respect. Therefore, it appears likely that there will be no suspension of relief measures, as provided by the new financial law, at least until Treasury conditions shall make necessary withdrawals of public deposits in order to meet the Government requirements for disbursements.

The advance in foreign exchange rates this week seemed to indicate the possibility that the gold-export point would soon be reached. If there were any inducements for shipments of gold, such as a premium on the metal in London, or an urgent demand therefor at Paris, it seems probable that a much further rise in sight sterling would cause a movement hence. Though French bankers are drawing gold from London, they seem to be procuring the metal without difficulty, and so long as withdrawals are not obstructed and the movement is for the purpose of collecting an indebtedness incurred through advances to British bankers, when they were inconvenienced by monetary stress, exports to Paris from London will probably be free. Moreover, about one-fourth of such indebtedness is said to have been already remitted, and the remaining \$7,500,000 will soon be paid. Then, presumedly, the rate for exchange at Paris on London, which is now so low as to facilitate the movement, will rise and shipments will cease. Under these circumstances, there would be little if any advantage to our bankers in shipping gold to Paris, even if exchange rates and other conditions were such as to indicate a profit as an arbitrage operation. It may be observed, though, that if exchange at New York on London should continue scarce, and be so difficult of procurement as to make necessary remittance with gold, the metal would go forward, but probably not in great volume.

RASER

Sufficient data bearing upon the current production of gold in the world has been made public to warrant the conclusion that the output of the mines in 1907 is quite fully meeting, if not exceeding, expectations. It is not possible, of course, to obtain monthly or quarterly returns from all the important producing countries, but such results as are at hand reveal the same tendencies as were the features of 1906 and 1905. For example, the Witwatersrand district of Africa reports for the quarter ending March 31 1907 an output of 1,516,037 fine ounces, against 1,225,252 fine ounces and 1,093,841 fine ounces respectively in the corresponding periods of 1906 and 1905. And the remainder of Africa-Transvaal outside the Rand, Rhodesia, West Africa, &c.—has furnished approximately 250,000 fine ounces in 1907, against 225,000 fine ounces a year ago and 165,000 fine ounces in 1905. Hence, the output for the whole country for the first quarter of the current year has been 1,766,000 fine ounces, which compares with 1,450,000 fine ounces last year and 1,259,000 fine ounces two years ago, the gain this year over 1906 being about 22%.

Advices from the mines in the United States, without giving actual statistics, report an increasing output in leading fields and refer in a very confident manner to the bright prospects for a further very material gain in production in Nevada now that the labor difficulties at Goldfield have been amicably adjusted. On the other hand, the mines of Australasia (not including Tasmania and South Australia, the least important fields of the country) have collectively produced only about 875,000 ounces in the quarter this year, against 945,000 ounces in 1906 and 963,000 ounces in 1905, and the principal East Indian workings return totals of 132,000 ounces, 147,000 ounces and 152,000 ounces, respectively, in the three years. But combining the aggregates for Africa, Australasia and India, we have a result for the first quarter of 1907 of 2,773,000 ounces, against 2,542,000 ounces in 1906 and 2,374,000 ounces in 1905, the excess over 1906 being at the rate of a little more than 9%; for the full year 1906 the production of the three countries specified showed a gain over 1905 of slightly under 8%. Consequently, as the United States is looked to for a greater increase in the full 12 months of 1907 than was recorded in 1906, it seems at this writing a safe assumption that the ratio of gain in the world's aggregate production of gold will show a considerable increase over 1906.

The world's visible stock of gold is, of course, increasing yearly. The general stock in the United States

on Jan. 1 1906 was reported by the Treasury as \$1,-419,943,124, of which \$1,135,107,044 (either in the form of coin or certificates represented by coin in the Treasury) was in circulation. On Jan. 1 1907 the totals had risen to \$1,587,018,385 and \$1,273,018,763, respectively, and on April 1 a further augmentation to \$1,611,373,750 and \$1,300,612,758 had been shown. It is thus seen that in this country the stock of gold has materially increased. During the same interval European banks increased their holdings of the metal moderately, and it is to be presumed that in other quarters of the globe there were additions to stocks of the precious metal. In fact, we have only to mention, by way of illustrating how gold is accumulating at some points, that the Argentine Government's conversion office is reported now to hold nearly \$118,000,000 in gold, against only \$93,000,000 at the close of last

October; that more is now on the way, and that the amount in hand by the middle of May, is expected to reach at least \$125,000,000, or \$19,000,000 more than at that date last year. But despite all these additions, with gold an almost universal basis or medium of trade between nations, there is yet more or less need for a larger stock.

A noteworthy event of the week in textile circles was the semi-annual meeting of the National Association of Cotton Manufacturers, held in the Massachusetts Institute of Technology, Boston, on Wednesday and Thursday of the current week. Including the annual gatherings of its predecessor, the New England Cotton Manufacturers' Association, this was the eighty-second, and most successful, meeting of the organization, not only in point of attendance, but in the scope of its proceedings. The Secretary's report, which was submitted at the opening session on Wednesday, showed the recent growth in membership had been large, 879 names being on the roll, a gain of 82 within the year. In a carefully prepared address, Mr. James R. McColl, the presiding officer, concisely reviewing the important happenings of the year, pointed out the mistake of the cotton-growing interests in securing a fraud order against the New York Cotton Exchange. His characterization of the New York Exchange as an institution of high record, with rules enforcing strictly honorable dealings, merely stated well-known facts. He also advocated the establishment of a cotton exchange in New England (at either Boston or Providence), where two-thirds of the spindles of the country are located. As to the wisdom of such an undertaking, there is room for doubt. Mr. McColl, in referring to suits brought by the Federal Government against cotton manufacturers in North Carolina for breach of the immigration law, stated it to be an entirely unwarranted assumption on the part of certain Southern newspapers that the actions were based on complaints from New England manufacturers. He well said that such action would have been as unlikely as it would be narrow-minded and foolish, if for no other reason than that Northern capital is largely interested in Southern mills. Among the papers submitted at the first session were "Corporations and the Public Welfare," by Mr. Everett W. Burdett of Boston, who referred at length to the spirit of unrest and discontent which seems so prevalent, and to the especial antagonism displayed toward corporate interests, but offered no tanglble suggestion for better conditions. Mr. Harvey Stuart Chase's paper on "Cost of Maintenance and Depreciation in Cotton Mills," as well as that devoted to "Taxation and Valuation with Reference to Industrial Plants," by Mr. Henry K. Rowell, showed intimate knowledge of the subjects covered, and would well repay careful reading by practical men. In the afternoon session, the regular order of program was changed to permit Mr. William W. Crosby, former principal of the Lowell Textile School, to explain a plan for investigating the condition of wageearners in textile mills. The plan has the advocacy of the National Society for the Promotion of Industrial Education, and it aims to find out what may properly be done for textile workers, when they first enter the mills, in order to increase their efficiency when they become operatives. A move of this kind is highly

commendable; while it makes for greater efficiency, it at the same time is an assurance of increasing interest of employers in the welfare of labor—a cementing of business fellowship between employer and employee.

Mr. Samuel T. Hubbard of this city opened the afternoon session of the first day with a paper on "The New York Cotton Exchange and its Contract for Delivery of Cotton." Mr. Hubbard's long years of experience in the New York market qualified him to defend the contract against the various attacks made upon it. Carefully reviewing the difficulties encountered in evolving a desirable contract, he in effect said that the system now in use guarantees the grade, permits re-tendering without loss in classification, enables shippers or planters to tender merchantable grades without change in the differences and makes public the exact grade of the New York stock. In fact, offers advantages not offered by any other similar institution in the world.

The final session of the meeting—that of Thursday morning—was devoted to elections and to the reading of papers more or less technical.

Some exceedingly significant events and happenings have marked the course of the week. On Thursday it was announced that the syndicate formed last year to float \$35,000,000 25-year 4% debenture bonds of the Lake Shore & Michigan Southern Ry. would be dissolved on May 1 and that the members of the syndicate would be obliged to take over a large portion of the bonds, very few of them having been sold. When a railroad of such superlative strength and earning capacity as the Lake Shore cannot find buyers for its 4% bonds, at a figure below par, there is evidently something radically wrong in the situation. But, as every one knows, the Lake Shore case is only one instance. For more than fifteen months it has been practically impossible for the best of our railroads, those of highest credit, to borrow money except on very stiff terms. While there may have been other contributory causes, the main reason for the inability to raise new capital is found in the distrust created in the minds of investors by the hostile attitude manifested against the railroads and against corporate interests generally. Another event of the week that is in like manner typical of the present state of things and must be regarded as the direct outgrowth of adverse legislation and public hostility is the failure of the Rapid Transit Commission in this city to secure any bids for the new subway routes for which proposals were asked. Not a solitary bidder appeared. What was the reason? The need for additional transit facilities in this borough and in Brooklyn was never so urgent as at present and capital is ready and willing to embark in new subway enterprises if only a moderate profit can be assured. But by legislative enactments we have done everything to discourage investments in additional subways. Our readers will recall how difficult it was to get the existing subways built. Year after year nothing was accomplished until finally the Belmont syndicate came along, raised the needed capital and carried the undertaking to success. The fact that the promoters of this scheme were able to make considerable profits aroused a feeling of malevolence and straightway our legislators went to work to render it impossible for any future subways to be built at a profit. The length

#### APR. 27 1907.

of the franchises was reduced and the terms and conditions made more onerous in other ways. President Shonts of the Interborough-Metropolitan Co., in a letter addressed to the Board of Rapid Transit Commissioners, points out that under the new conditions imposed and the increase in the price of labor and materials the proposed subways would cost when fully equipped \$2,250,000 per mile of single track, as compared with the cost of \$1,130,000 per mile for the existing Rapid Transit lines, an increase of about 100%. But this is not all. Under the proposed form of contract and the existing law, the expenses which must be provided each year out of income are further largely added to as compared with those under the original subway contract. In the first place, from one-half to three-quarters of 1% more interest will have to be paid upon the bonds to be issued by the city for the cost of construction. In the second place, unlike the original subway, the entire investment in the new subway will be subject to taxation. In the third place various advantages conferred by the original contract are now eliminated, and finally the lease is limited to twenty years.

Another important consideration is the exceptionally broad power conferred by the form of contract upon the public authorities to require from time to time any changes in the construction of the subway and in the equipment and other appliances used therein. The Interborough people would like very much to complete their system, but under the circumstances they do not feel that it would be safe for them to assume responsibility for the \$88,000,000 new capital which would be required for the purpose-using the city's credit for \$64,000,000 and providing \$24,000,000 themselves for equipment, &c. Mr. Shonts says that the terms and conditions are such that "it would not be possible to make net earnings above operating and maintenance expenses, sinking fund payments and taxes, sufficient to provide the interest upon the city's bonds and 5% upon the additional capital invested." So the Interborough Co. found itself reluctantly obliged to refrain from bidding for the new routes. In view of the facts stated, it is difficult to see how the Interborough Co. could have followed any other course; but think of the inconceivable folly, on the part of our Legislature and the public, in rendering it impossible to do the thing which the company so much desires to do, and which those compelled to rely on local transit facilities are so anxious should be done.

necessarily suffer very greatly and considerable idleness ensue. They conclude with these pregnant words: "We do not object to the regulation of the railroads by the National Government in the proper manner, but we do object to going through a period of hard times similar to that between 1893 and 1897 in order to accomplish alleged railroad reform. The situation is serious. Immediate action is necessary, or business will diminish; bank accounts will be reduced. profits will disappear, salaries will be cut, wages decreased, men discharged and thousands will be looking for work. Every laboring man, every business man, every professional man-in fact, every man—is and will be affected."

Are those upon whom rests the responsibility for the present unfortunate movement paving any heed to this cry? Quite the contrary. At Albany the Assembly has this week passed, with only five dissenting votes, the bill providing for a five-cent fare to Coney Island, though the Brooklyn Rapid Transit officials have declared over and over that the Coney Island traffic at such a figure can not be made to pay. Other bills of the same nature are also under consid eration by our State Legislature, in particular one aimed at the New York Central. In Minnesota the Sundberg Investigating Committee has just made its report to the State Senate, valuing railroad property in Minnesota and seeking to show that railroads in that State have been enormously over-capitalized. Especial reference is made to the case of the Chicago Great Western, the market value of whose shares has never been more than a few cents on the dollar. The committee recommends that a committee or commission be appointed to investigate generally the question of the capitalization of the railroads of Minnesota, with the view of the enactment of "appropriate legislation" on the subject. It passes our comprehension what can possibly be gained through these movements directed against the capitalization of the railroads. Capitalization never has and never will control railroad charges, either freight or passengers, and to treat certificates like Chicago Great Western stock as if they represented something real, instead of something nominal, borders closely on the ridiculous. But our legislators evidently think that continued agitation is popular, whether based on legitimate grievances or not. In the meantime, they are totally unmindful of the harm being done. It is difficult to escape the conclusion that in all this we are sowing the wind and later on shall reap the whirlwind.

There is some evidence of the awakening of the public mind to the harm that is resulting to all interests from the present crusade. From Chicago we learn that several hundred manufacturing and business firms throughout the country have united in an address to the public. They point out that at present business is good on old orders, but it is certain to become bad unless the existing policy is changed. They say, what is incontrovertible, that if present conditions continue, all classes of labor and every business interest will be injured. Every manufacturer, every jobber and every retailer in the United States does business directly or indirectly with railroads or their officials and employees. The railroad interest is, next to farming, the largest in the country. When railroads begin to economize it seriously affects every other business. Under such conditions labor must

At the Louisiana State Bankers' Convention, held at Shreveport last week, Mr. Charles G. Dawes, formerly Comptroller of the Currency and now President of the Central Trust Co. of Illinois, delivered an interesting address on the Sherman Anti-Trust Law in its relations to the public, and earnestly argued that the law should be amended. Congress, of course, is not now in session and will not convene until December. but such addresses as Mr. Dawes's serve an important purpose in educating the public in anticipation of the meeting of that body. Mr. Dawes asserts that the Sherman Law sprang out of just such conditions as we have in the country to-day, from widespread interest in the matter of corporate abuses, and it was hostile legislation. It was legislation that resulted from an excited condition of the country, and it was

ill considered, and for that reason, until recently, for sixteen years it was a dead letter upon the statute book. The Act provides that all agreements in restraint of trade are criminal, whether they are vicious in intent or not. But this is the day of the trade agreement. We have national, State, city and district associations of business men, who are brought together by their desire to formulate what might be called the rules of trade. Very often these combinations are made for the purpose of preserving existence, not for the purpose of extorting. Very often, too, the agreements in restraint of trade which these business men make are beneficial to the public. Mr. Dawes urges that agreements of that kind should be favored by the law instead of being placed under the ban. He points out that competition in this country has run riot. Small businesses are being crushed out. Under the law of evolution it must be recognized that the trade agreement in the United States has come to stay. Hence the statute should in some way provide for the trial of the trade agreement, much in the same way that a man is tried when charged with a crime. Let not the trade agreement be presumed guilty before trial, says Mr. Dawes. He contends that it is as much a measure of reform to correct the Sherman Act as to pass laws in connection with railroad rates. Every one will agree with him when he asserts that it does not require courage for a public man to stand for those things which are popular in the country, but we need men who will stand for that which is right and that which is reasonable, even if it brings down upon them, for the time being, the castigation instead of the applause of the radical portion of the public.

The Bank of England rate of discount was reduced this week from  $4\frac{1}{2}\%$  to 4%, following a reduction by the Imperial Bank of Germany on Tuesday of its rate from  $5\frac{1}{2}\%$  to 5% and by the Bank of the Netherlands also to 5%, thus indicating a quite general improvement in discount conditions at all the European centres. It may be noted, however, that the official rate of discount of the Bank of France remains unchanged at  $3\frac{1}{2}$ %, but special reasons exist for the maintenance of this rate, as elsewhere stated. It appears likely that were it not for the withdrawals of gold which are now being made by French bankers from London, the English Bank rate would have been further reduced this week, for the low open market quotation seemed clearly to indicate that the Bank no longer controlled the discount market. Possibly when the French requirements for gold shall have been satisfied, the Bank rate will be further reduced. As the result of the lowering of the English Bank rate unofficial discounts were quoted at the close of the week at a decline in London, compared with last week, of  $\frac{1}{8}$  of 1%. while open market rates at Paris were unchanged; those at Berlin and Frankfort were  $\frac{1}{2}$  of 1%lower. A Berlin cable on Friday reported that the German and Prussian loans for \$50,000,000 each, which were issued, as announced in the "Chronicle" last week, have been largely over-subscribed; the books closed on Thursday. The amount offered, as stated in the cable; was \$75,000,000, instead of \$100,000,000, the total of the emissions by both governments. The difference of \$25,000,000 between the two amounts is explained by the fact that the syndicates which undertook the negotiation of the loan reserved one-quarter of the sum for private disposition; the remainder was offered to the public, with the results above stated.

The most notable feature of the statement of the New York Associated Banks last week was a further increase in loans of \$25,347,800, following an expansion of \$36,968,300 in the previous week, and an increase in deposits of \$26,501,600, making \$71,350,400 for the fortnight. The loan expansion seemed to indicate shifting of loans from trust companies to banks and also important syndicate borrowings. The cash gain last week was \$2,477,300 and the required reserve was augmented \$6,625,400. The surplus was reduced \$4,148,100 to \$11,704,825.

There have been some indications this week, as was the case last week, of the withdrawal of balances by interior banks from their New York correspondents, in order to employ such balances in the home market, where opportunities are offered for their more profitable use. The Sub-Treasury operations have resulted in smaller contributions to our market than have been latterly made, and consequently it has appeared probable that the bank return of this week would show a further diminution of cash and of reserve. Such outlook has, however, had no special influence upon the rates for money on call, chiefly for the reason that the requirements for stock speculation have been limited, owing to the abstention of commission house clients from trading operations; indeed, such trading has been so small that the ordinary balances carried by these houses has been much more than sufficient to supply the needs of their customers, so that borrowing from the banks has been greatly restricted. The time-loan branch of the market shows some recessions in rates for short maturities, but money for such periods is not in request, partly because of the abundance of offerings on call and also for the reason that it is expected that the distribution of Government money in July, for the payment of the balance of the 4%s of 1907, which will then be unredeemed, will contribute to extremely easy monetary conditions. There is a good demand for loans maturing in the fall and in the later months of the year; but offerings thereof are not liberal.

Money on call, representing bankers' balances, loaned at the Stock Exchange during the week at  $2\frac{3}{4}\%$  and at  $1\frac{3}{4}\%$ , averaging about  $2\frac{1}{4}\%$ ; banks and trust companies quoted  $1\frac{3}{4}\%$  as the minimum. On

Monday loans were at  $2\frac{3}{4}$ % and at  $1\frac{3}{4}$ %, with the bulk of the business at  $2\frac{1}{2}\%$ . On Tuesday and on Wednesday transactions were at  $2\frac{1}{4}\%$  and at  $1\frac{3}{4}\%$ , with the majority at  $2\frac{1}{4}$ %. On Thursday loans were at  $2\frac{1}{2}$ % and at 2%, with the bulk of the business at  $2\frac{1}{4}$ %. On Friday it is noteworthy that transactions were at 2% all day without change. Time loans on good mixed Stock Exchange collateral were  $3\frac{1}{2}\%$  for sixty and  $4@4\frac{1}{4}\%$  for ninety days,  $4\frac{1}{2}@4\frac{3}{4}\%$  for four,  $4\frac{3}{4}$  @5% for five and six months and  $5\frac{1}{2}$ % for seven to eight months; one transaction is reported at 5%for a loan of \$1,000,000 for nine to ten months, and other equally large amounts could probably be placed at this rate, for  $5\frac{1}{4}\frac{9}{0}$  is the quotation. Commercial paper is still affected by competition with corporation notes and business is small; rates are  $5\frac{1}{2}@6\%$  for sixty to ninety day endorsed bills receivable,  $5\frac{1}{2}@6\%$ 

#### APR. 27 1907.]

for prime, and  $6\frac{1}{2}$ % and above for good four to six months' single names.

The Bank of England rate of discount was reduced this week from  $4\frac{1}{2}$ %, at which it has stood since April 11th, to 4%; the Imperial Bank of Germany lowered its rate on Tuesday to  $5\frac{1}{2}\%$  from 6%, which has been maintained since January 22d, and the Bank of the Netherlands reduced its rate to 5%. The cable reports discounts of sixty to ninety day bank bills in London,  $3\frac{1}{4}$ %. The open market rate at Paris is  $3\frac{1}{4}\%$  and at Berlin and Frankfort it is  $4@4\frac{1}{4}\%$ According to our special cable from London, the Bank gained £296,408 bullion during the week and held £36,191,304 at the close of the week. Our correspondent further advises us that the gain was due almost wholly to purchases in the open market, the movement from the interior of Great Britain having been very moderate. The details of the movement into and out of the Bank were as follows: Imports, £509,000 (wholly bought in the open market); exports,  $\pounds 284,000$  (of which  $\pounds 254,000$  to Paris and  $\pounds 30,000$  to South America), and receipts of  $\pounds 71,000$  net from the interior of Great Britain.

The foreign exchange market was generally strong this week, influenced chiefly by relatively lower rates for money in New York than for discounts abroad. This contributed to a demand to remit in settlement of maturing and other obligations and also to transfers of balances that could be more profitably employed at European centres. There was a good inquiry for remittance in payment for securities which had been sold for foreign account and that had recently arrived from London. The reduction in the Bank of England rate had been so distinctly foreshadowed by the fall in the unofficial figures that it had little influence, except to stimulate buying of long sterling and to lessen the demand for short. One feature was the limited supply of commodity bills, indicating a small export movement of cotton; the grain drafts that came forward were not in sufficient volume to make any impression on the market. Continued selling of securities for London account and quite small purchases on arbitrage caused a steady demand, which absorbed all offerings of bankers' bills; therefore, when the inquiry for the outgoing mails became urgent, rates sharply rose, and early in the week about the highest prices of the year were recorded for sight sterling. Then quotations therefor were apparently so close to the gold-export point that it was thought likely that shipments to London might soon become possible were conditions to develop which would make the operation profitable. The fall in exchange at Paris on London also gave rise to some expectations that gold might go forward as an arbitrage transaction-the metal being shipped to Paris in order to purchase sterling exchange at that centre. In the absence, however, of any inducements for exports, either to London or to Paris, bankers were of the opinion that no shipments would be made unless, indeed, exchange conditions should become much more favorable for the movement than at present seemed likely. On Wednesday, there was a sharp recession in rates, which appeared to indicate liberal drawings of bankers' bills; it seemed, though, that the fall was due to the temporary satisfaction of the inquiry for Thursday's mail and not to

any increase in offerings. The market was easier on the following day and steadier on Friday.

Nominal quotations for sterling exchange are 4 84 @4 841/2 for sixty day and 4 87@4 871/2 for sight. The market was firm on Saturday of last week and though long was unchanged, compared with Friday, short rose 20 points to 4 8580@4 8595 and cables 25 points to 4 8625@4 8650. On Monday there was an advance in long of 30 points to 4 8310@4 8315, of 25 points in short to 4 8605@4 8610 and of 25 points in cables to 4 8650@4 8655. On Tuesday long rose 25 points to 4 8335@4 8340, short 35 points to 4 8640 @4 8645 and cables 30 points to 4 8680@4 8685. On Wednesday long was 10 points higher at 4 8345@ 4 8350, short 25 points lower at 4 8615@4 8630 and cables 30 points at 4 8650@4 8655. On Thursday long fell 15 points to 4 8330@4 8340, short 20 points to 4 8605@4 8610 and cables 15 points to 4 8635@ 4 8645. The tone was steady on Friday and unchanged, except for long, which was 10 points lower.

The following shows daily posted rates for sterling exchange by some of the leading drawers.

FRASER

# THE BRITISH GOVERNMENT AND SOCIALISM.

A budget of income expenditure and taxation, submitted by a Government for a coming year, is apt to be dry reading for the general public. Perhaps this principle applies less to the annual British budgets than to those of any other modern Government, for the double reason, first, that the political success or failure of an English Ministry is peculiarly dependent on the reception given to its fiscal expedients; and, second, that with the wide latitude assumed by Parliament in the alteration of an existing system of politics or finances, a budget of taxation may easily be made the entering wedge for a change. not only in the financial but in the social attitude of the Government.

Thus the "budget speech" of Mr. Asquith, in the House of Commons last week, was awaited with particular curiosity, because it was felt that the taxation expedients proposed would indicate the Government's attitude toward the socialistic movements of the day. Socialism, as all attentive observers of the news must be aware, has a score of varying forms in modern controversy; it does not always, or in fact often, mean the same thing in one country as in another. Nevertheless, there is no difficulty in seeing when a particular move of government is a distinct concession to socialistic tendencies, and in this class of legislation the mooted plan for "old-age pensions" in Great Britain would undoubtedly be classed.

To understand the position occupied by the British Government in this regard, it must be remembered that the Liberals had made a bid distinctly, in last year's elections, for the Labor Party. It is true, their majority was in the end so great that on a vote in Parliament they might easily dispense with the support of the Labor members, properly so-called; but, on the other hand, there were certain distinct ante-election pledges, with which the Ministry was confronted on assuming power, and which it could not well repudiate simply because it had learned, when the votes were in, that they had not been necessary to the party's success. Very naturally, therefore, pressure on the Ministry from the socialistically inclined political groups increased as the time for the budget of taxation drew near. It was proclaimed, by the Labor Party in particular, that the Government would now be compelled to show its colors in the matter of old-age pensions. On the other hand, all advices from London's financial markets indicated a feeling of misgiving as to the tendencies and precedents which might be shown to have a place in the new scheme of finance. Mr. Asquith's budget turns out to be a compromise —in which, however, more is denied to the socialists than is granted to them. The Chancellor of the Exchequer concedes, from the \$27,000,000 surplus of the fiscal year ending March 31. the amount of \$7,500,-000 to be invested as a nucleus for the old-age-pension scheme should that project ever be adopted. This was at least a sop to Cerberus; but Mr. Asquith's own statement of his purpose was calculated to throw cold water on broad inferences from the fact that the pension scheme had made its beginning. While admitting that the Ministry regarded the project as "the most serious and most urgent of all the demands for social reform," he flatly declared that for his own part he would not commit himself to any scheme for the

itized for FRASER

purpose. In short, the question is left very much where it was before, except that a certain sum was laid aside to be used if anything further comes of the oldage pension project.

It would be rash to assert that nothing more will come of it. Nevertheless, Mr. Asquith's own showing of the public finances threw light on his hesitation in this case, and gave pretty clear evidence of what socialistic schemes of this nature, whether right or wrong, must involve to the tax-paying public. In order to provide even for the ordinary estimated needs of Government in the coming twelve-month, the Chancellor of the Exchequer not only found it necessary to increase the "death duties," or inheritance tax on large estates, to a rate fully 2% more than the rate imposed by Sir William Harcourt in 1894, but was also compelled to deny the very reasonable demand for general reduction in the income tax. It was notorious that the "shilling income tax," which in England touches small incomes in a way it has never done here, stands to-day at a rate not reached in half a century, outside of war times. Indeed it is doubtful if the 5% annual tax represented by exaction of twelve pence in the pound has ever been paralleled in England at a time of profound peace, when the fair presumption was that recovery from the strain of war had been completed. It was reasonably contended by the tax-payers that, since 8% was the highest income tax imposed between 1863 and 1900, it is unfair to maintain so large a tax at the present time. To this the Chancellor of the Exchequer, while admitting the force of the complaint, nevertheless was able to respond only to the extent of granting a reduction of the tax to 9 shillings in the pound for incomes below £2,000 per annum, not derived from investments.

One can hardly wonder that this extremely moderate concession has been badly received, and it is obvious enough that a situation of the sort must serve as a warning, both for the general public and for the Government, as to what will be the price of indulgence in socialistic experiments. If it were not for the uneasy agitation which has seemed to be in the air throughout the world, the suggestion of so enormous a drain as old-age pensions must impose on the public revenues, would be regarded in Great Britain's case, under the present circumstances, as a wild absurdity. Nothing can be more plain, from the simple figures of Mr. Asquith's budget, than the fact that if such experiments are tried, the preliminary step must be, not only abandonment of all plans for cutting down the income

tax, but announcement of further increase, in that or in other taxes, to the level reached at the critical periods of war.

Just how such a proposition would appeal to that part of the community which has placed itself, by its savings, on a footing of real prosperity, is not difficult to judge. We suspect that the British Ministry has already judged the matter for itself and has discovered considerable doubt, even from a purely political point of view, as to whether experiments of this sort can be altogether safe. The recent vote in the London municipal elections, wholly adverse to the scheme of extended municipal ownership, resulted admittedly from burdens, fast becoming intolerable, which previous experiments had heaped on the tax-payers' shoulders. The astonishingly complete defeat of the Socialist Party, in the German elections earlier this

#### APR. 27 1907.)

year, and the abandonment of purely socialistic doctrines by a French Ministry regarded as ultra-radical, are equally noteworthy symptoms of the times. What the English episode in particular points out is the strong probability that a party which goes just a step too far in tampering with taxation for the sake of a purely socialist undertaking will inevitably be unseated by such majorities as will long be remembered in Parliamentary history. Perhaps the lesson as to what the simple enthusiast over socialism must pay from his own pocket for the pleasure of seeing his theories tried, even tentatively, has not yet been fully learned by the world at large. It is characteristic that a British Ministry, even when brought face to face with a project of the sort supported by its own partial pledge, should balk at it.

# MUNICIPAL OWNERSHIP AND THE CHICAGO STREET RAILWAY DECISION.

The decision rendered last week by the Supreme Court of Illinois in the case involving the validity of the \$75,000,000 of street railway certificates which the City of Chicago purposed issuing under the so-called Mueller Law, enacted in 1903, appears to be far-reaching in its import and, we should judge, of wide application and bearing. The Court holds the proposed \$75,000,000 certificates invalid because, owing to the manner in which they are to be secured, their issuance would be tantamount to an addition to the debt of the city, and such an addition would bring the city's total indebtedness far above the limit for Illinois municipalities fixed by the Illinois Constitution.

In the last analysis, the decision is a blow at municipal ownership—and a blow from the effect of which it is not easy to see how recovery will be possible. The ruling, however, we are glad to say, will operate in no way to interfere with the carrying out of the scheme for the rehabilitation of the Chicago trolley companies, as provided in the municipal ordinances approved by popular vote at the city election held this very month. These ordinances give the city the right to purchase these properties upon certain terms at any time on six months' notice by paying \$50,000,-000, the agreed valuation, plus the cost of rehabilitation, which latter is estimated at not less than \$40,-000,000. The inability of the city to issue the certificates under the decision of the Court, making it impossible, therefore, for the city to float obligations which would give it the funds to purchase the roads, obviously defers the time when the idea of municipal ownership can be carried out. But this is not a matter for regret. Rather it is an occasion for rejoicing. Moreover, it will render it less difficult for the companies to raise the large amount of capital needed for the reconstruction of the properties, inasmuch as deferral of the day when the municipality itself shall take over the roads means a corresponding lengthening of the time during which the franchises will be held by the present owners. For, we need hardly say, capital is very timid about going into enterprises of this kind where the tenure of life is short.

of the municipality, must be held to be an indebtedness of the municipality within the scope of the constitutional mandate against the creation of debt beyond certain prescribed limits. These grounds for considering street railway certificates a municipal indebtedness are very broad, and will act as a bar against the taking over of street railways by other municipalities in Illinois, except, possibly, in the case of some very small places without any extensive indebtedness and over-abundantly supplied with cash. Of course, the matter is also of importance in other States, for the courts in those States may elect to follow the doctrine laid down in Illinois. With the judiciary, we all know, precedent counts for a great deal, and whenever important questions of law come up there is a constant search for authorities, not only in the home State but in outside States.

The Mueller Law derives its name from the fact that it was introduced in the Illinois Legislature by Senator Carl Mueller. Its proper title is "An Act to authorize cities to acquire, construct, own, operate and lease street railways and to provide the means therefor." The Act provides that no city shall proceed to operate street railways unless the proposition to operate shall first have been submitted to the electors of such city and been approved by three-fifths of the electors voting thereon. The voters of Chicago on April 3 1906, it will be recalled. voted against municipal operation, but at the same time voted in favor of the issue of Mueller certificates for the purchase, ownership and maintenance of street railways. Two methods are provided by the Act for obtaining funds with which to acquire and equip street railways. The first method is to issue bonds based upon the faith and credit of the municipality. This method was not open to the City of Chicago, since its indebtedness is already close up to the prescribed limits. The second method, and the one adopted in this instance, is to issue and dispose of interest-bearing certificates to be known as street railway certificates. These certificates, it is provided by Section 2 of the law, shall "under no circumstances be or become an obligation of the city or payable out of any general fund thereof, but shall be payable solely out of a specified portion of the revenues or income to be derived from the street railway property for the acquisition of which they were issued." It is further provided that "such certificates shall not be issued and secured on any street railway property in excess of the cost to the city of such property, as herein before provided, and 10% of such cost in addition thereto." Authority is granted to secure these certificates by mortgage or deed of trust. Any such mortgage or deed must carry the grant of privilege or right to maintain and operate the street railway property covered thereby for a period not exceeding twenty years from and after the date such property may come into the possession of any person or corporation as the result of foreclosure proceedings. Obviously the privilege of foreclosure would possess no value unless coupled with the condition that the purchasers shall have a franchise for the operation of the road; but it is precisely on that ground that the issue of the certificates is declared invalid. The Court holds that the mortgage pledges something beyond the mere physical property of the street railways. It gives a mortgage on Chicago streets for twenty years, and therefore

To the general public, the question of chief interest in the decision is the grounds upon which the Illinois Supreme Court rests its conclusion that certificates of this kind, secured by a pledge of the property purchased, and not purporting to be a direct obligation the certificates involve the city's general revenues to that extent.

Under the Illinois Constitution no county, city, township, school district or other municipal corporation is allowed to become indebted in any manner or for any purpose to an amount, including existing in debtedness, in the aggregate exceeding 5% on the value of the taxable property therein. It was averred in the bill of complaint that the total assessed valua**tion** of all the taxable property in Chicago for the year 1905 was \$407,991,625, while the outstanding indebtedness of the city aggregated \$20,298,985, or almost the full 5% allowed by the Constitution. The only question therefore was whether the proposed certificates were an indebtedness of the city within the limitations imposed by the Constitution. The opinion quotes from previous decisions to show that the clear and unmistakable purpose of the framers of the organic law in inserting such a limitation in the Constitution was to effectually protect persons residing in municipalities from the abuse of their credit and the consequent oppression of burdensome, if not ruinous, taxation. Also that the prohibition is against becoming indebted—that is, voluntarily incurring a legal liability to pay "in any manner or for any purpose" when a given amount of indebtedness has previously been incurred. The character of the indebtedness which the constitutional provision was intended to cover is also defined. A debt payable in the future, it was stated in one of the earlier decisions, is obviously no less a debt than if payable presently, and a debt payable upon a contingency, as upon the happening of some event, such as the rendering of a service or the delivery of property, &c., is some kind of a debt and therefore within the prohibition. If a contract or undertaking contemplates in any contingency a liability to pay, when the contingency occurs the liability is absolute —the debt exists—and it differs from a present, unqualified promise to pay only in the manner by which the indebtedness was incurred.

To be sure, it is expressly provided in the Mueller Law—and the provision in the Statute was in substance incorporated in the ordinance providing for the issue of the \$75,000,000 certificates and copied in the certificates and trust deeds-that the certificates shall "under no circumstances be or become an obligation or liability of the city, or payable out of any general fund thereof." But the Court points out that in the case of the City of Joliet vs. Alexander (194 Illinois, 457), which we reviewed in our "State and City " Supplement for Oct. 12 1901, it was held that it is not essential that there should be a right of action on the certificates (the certificates were water certificates in that instance) against the city in order to constitute a debt where its money or property can be taken in payment. The city of Joliet in that case was indebted up to the constitutional limit, and in order to extend its water-works system sought by mortgage to pledge the income of the existing waterworks system and a proposed extension of the same. But the Court held that the certificates thus sought to be secured created a debt within the constitutional inhibition.

mains: Is not the property of the city pledged or mortgaged for the payment of such certificates in such manner as to make said certificates an indebtedness of the city within the constitutional prohibition? If all that it were proposed to do were to pledge the property acquired and its income, there would be no indebtedness within the constitutional inhibition. But the Act goes further than that. What is to be purchased with the proceeds of the certificates? Clearly, not the streets of the city of Chicago on which the street car lines are to be laid and upon which they will be operated, says Justice Hand, for the obvious reason that the title to these streets and the right tocontrol them are already vested in the city. The funds derived from the certificates will go solely to acquire the physical property of the roads, but under the mortgage the city's right to control the streets is also pledged as security for the certificates. Justice Hand says it is too clear for argument that the use of the streets for street-car purposes is to be mortgaged for the benefit of the holders of the certificates for a period of twenty years after a sale is made under foreclosure. And if the right to the use of the streets is property, then it follows that the issuance of the certificates would create an indebtedness within the constitutional prohibition. The law is well settled in Illinois that a city has a property right to the streets -that it usually holds the fee. Obviously the most valuable security which the certificate holder would receive would be the right granted by the trust deed to the purchaser at foreclosure sale to operate the street railways which he may acquire at the sale in the streets of the city for the period of twenty years from and after the date of his purchase.

As if to emphasize the importance of the decisionin the fact that without a franchise a street railway property possesses no value, while granting the same makes the certificates a city indebtedness—the Court lays great stress upon that feature. It says without the franchise the certificate holder would only have a lien on the rails in the street and other equipment of the street railway, which would be of little value without the right to operate said street railways in the streets of the city. But by the deed of trust granting to the purchasers the franchise to operate the road, the city would lose the right itself, or through its grantees or licensees, to use its streets for the period of twenty years from the date of the foreclosure sale for street railway purposes, and also the compensation which it receives as license fees or otherwise from the street railway companies now occupying its streets with their tracks. The surrender of such rights would entail upon the city not only the loss of the control of its streets for street-railway purposes for twenty years, but would deprive it of many hundred thousands of dollars which would otherwise be paid into the treasury during that period by street railways as compensation for the use of the streets. The decision therefore comes to this: Without the right to a franchise in the event of default and foreclosure, the street railway property would be worthless, and it would be impossible to sell the certificates, for they would have no value. On the other hand, to grant the franchise rights as provided in the law and issue street-railway certificates containing such a condition is to create a municipal indebtedness, since by such act the city is parting with something

Justice Hand, who delivered the opinion in the present instance, says that while it must be conceded that there is no liability resting upon the city to pay the street railway certificates, the question still re-

tized for FRASER

#### APR. 27 1907.]

valuable and depriving itself of a present source of revenue. Thus the city has presented to it two horns of a dilemma, escape from either of which means being impaled on the other. Justice Hand takes occasion to point out that the Court has nothing to do with the policy of the municipalization of street railways in the cities of the State. It is its duty to enforce the provisions of the Constitution regarding the limitation of indebtedness as it finds them written in that instrument. The Constitution must be enforced and applied by the courts until its provisions are changed by the people in the manner provided in the Constitution itself.

# COMPETITION NOT THE REMEDY IN THE TELEPHONE SERVICE.

It is quite noteworthy how unanimous sentiment among mercantile bodies is becoming that competition in the telephone service is not altogether desirablethat if reductions in rates and good service are sought, these ends are more likely to be attained under the present system than by inviting the entrance of opposition companies. Two recent reports serve to emphasize this conclusion. Early the present month a report was made in Chicago by a special committee which had been appointed by the Council Committee on Gas, Oil and Electric Light to investigate the telephone system and service in that most important Western city. This special commission consisted of three telephone experts, namely Professor D. C. Jackson, William H. Crumb and George W. Wilder. Two telephone companies are now in operation in Chicago -the Chicago Telephone Co. and the Illinois Telephone Co., the latter an automatic system in the business district and without long-distance connections. The franchise of the Chicago Telephone Co., it appears, has only about two years to run, and in view of that fact a third company, the Manufacturers' Telephone Co., had applied for admission, claiming that it could have its system completed in two years.

The special committee referred to reported against the new proposal. The committee based its judgment on a variety of considerations, but the main points in its argument were that the project of the Manufacturers' Telephone Co. was not feasible. It is asserted that a plant to replace the service of the Chicago Co. could not be constructed in less than double the two years' time available." It is also asserted the Chicago Telephone Co. has a desirable plant in use and can furnish good service at minimum cost. Furthermore, it is stated that the methods of charging and the rates proposed by the Manufacturers' Co. are not adapted to enable the company to give first-class service and pay ordinary interest on the investment. It was the committee's opinion that instead of granting admission to the Manufacturers' Co., a better plan would be to renew the franchise of the Chicago Telephone Co., inasmuch as control over its affairs is possible by two alternative means (a) to reserve to the city the right to regulate rates at certain intervals; (b) to limit the net earnings of the company and to require any excess above such limit to be paid to the city.

of somewhat similar tenor. The report in this instance was submitted by a sub-committee which had been asked to investigate the subject of what would be the best way to legislate on telephone matters. This sub-committee went into a consideration of the circumstances and conditions regarding telephone service existing in the New England States and in other parts of the country, and reached the opinion that the best method of treating telephone affairs would be by proper legislative regulation and with only one company in the field as at present in Hartford—that nothing is to be gained by competition in the telephone service.

This Hartford sub-committee's report was given out to the press and printed in full in the "Hartford Courant" of March 28. It contains many interesting facts and details. The committee first took up the question of how the existing company, the Southern New England, was covering the field in Connecticut. On this point it expressed the belief that the demand for telephone service has grown much faster than it was possible to keep pace with. It found, however, that the company had practically doubled its wire mileage in the late year and actually increased the number of its stations from 41,829 at the close of 1905 to 52,476 at the close of 1906, an addition of more than 25%, at a cost of about one and a half million dollars. The conclusion therefore was that the company had pushed the extension and development of the telephone service in Connecticut during 1906 as rapidly as was consistent with thorough workmanship and a view to permanency and best efficiency and that in much of the work that had been done. particularly in the line of conduits and cable work, the future has been anticipated by provisions for immediate and active growth all along the lines where these have been established.

On the point whether existing rates are exorbitant and whether the company's capitalization is excessive, the answer in both cases is in the negative. When the Southern New England was organized, \$500,000 of its stock went to the Bell Telephone Co. for the right to use the latter's patents and franchises in Connecticut. The company has been gradually charging off this amount, which has now been reduced to \$113,123. The committee finds that, with the exception of this \$113,123, "every dollar of capital stock represented has been actually paid in, in cash, and that the entire amount thus paid in has been actually invested." Pains were also taken to investigate the common report that the Bell Telephone Co? has been exacting onerous terms from the Southern New England for the use of its instruments. It was found that the  $4\frac{1}{2}\%$  of the gross earnings paid over to the Bell concern amounted for the calendar year 1906 to \$77,318. which, with 52,476 stations, made practically \$1 50 per station. On the other hand, the Bell Company supplied without other charge the transmitter and receiver for every telephone used by the Southers New England, and not only furnished them but kept them all in repair at its own expense and replaced them with new ones whenever and wherever it was found necessary. Certainly these items and maintenance of same, says the committee, cost no inconsiderable part of the \$77,318 which the Bell Telephone Co. received from the Southern New England. Furthermore, from the long-distance service which the Southern New

About the time this Chicago committee made its report, or, to be exact, the latter part of March, the legislative committee of the State Business Men's Association of Hartford, Conn., also adopted a report England was able to furnish through connection with the Bell Company, the Southern New England realized an income during the year 1906 of no less than \$449,-571. Accordingly, the committee gave it as its opinion "that the American Bell, instead of being an incubus upon the Southern New England, is, as a matter of fact, of material benefit to it, and through its affiliation and connections the public is especially benefited."

The committee was convinced that the Southern New England is pursuing a progressive policy in the way of extending its system, and that, as to rates, reductions will follow just as rapidly as the earnings, less maintenance and expenses, shall warrant.

As to the desirability and advisability of encouraging independent telephone service with a view to reducing rates by competition, the objections to such a course are plainly stated. If it be conceded, as it must, that capital is entitled to reasonable returns, and that in addition to the capital invested in the existing telephone service in Connecticut much more capital is to be invested by independent companies, then a return must be earned on a double capitalization. It is urged that this being so, the managers of both companies would be justified in so curtailing their expenditures for service and maintenance as to leave a fair profit for distribution in the way of dividends. But curtailment of expenditures in that way would mean a detriment to the efficiency of service, an obviously undesirable result. Furthermore, it must be admitted that good service is vastly more important to business men than minor reductions in rates. Another result of competitive telephone service would be that one portion of a community would be on one line of service, while the other would be on the competing line, with no possibility of intercommunication except at the added expense which merchants and business men would find necessary in having both 'phones in their places of business. To this the naive observation is added that "it is not possible to suppose that competition will so reduce the rates that we can have two 'phones in our places of business at the same price we are now paying for one."

In the course of its investigation of the subject the Hartford committee found that similar committees had recently been appointed to investigate the subject not only in New York City, but in several important New England points, such as Boston, Springfield and Lowell. The Springfield (Mass.) Board of Trade, after consideration of the advantages and disadvantages to the community of the establishment of a second telephone system in that city, voted unanimously that under existing circumstances the public interests would be best served by one system. The report of the Board of Trade of Lowell, Mass., instanced the cases of several New England cities which had tried duplicate service with either complete failure or at least an entire lack of benefit to the community attempted to be served.

pany, thereby making it difficult for it to get capital necessary to install improved service and extend the area of its operations. The competing company ordinarily installs highly efficient apparatus, but within a limited area. In the course of a few years its facilities are practically congested, all its capital has been absorbed, its low rates have not provided for depreciation, it has hardly paid operating expenses, and its financial history gives no incentive to the investment of the additional capital necessary to extend its operations. The result is, in a large degree, paralysis of development after the first abnormal spurt due to competition has been made. This condition actually exists in several competing cities at the present moment. So far as the independent companies are concerned, the condition is certain in the near future to become more widespread, inasmuch as the time has arrived when all of the older independent companies are feeling the effects of depreciation and the necessity of increased capital, and recapitalization is becoming manifest and in some cases pressing."

Reference might also be made to the exhaustive examination of the question, as it affects New England, made by G. W. Anderson of Boston, who declared it was the plain duty of all sound-thinking and publicspirited citizens to oppose by every legitimate means the admission of competitive telephone companies. Under all these circumstances it is not strange that the Hartford committee should have thrown the weight of its opinion on the same side, concluding its report with the remark that "your committee could not fail to be convinced by the preponderance of evidence that the Connecticut business men as a whole were likely in the future to receive more efficient and better telephone service by fostering and encouraging the present invested capital than by the introduction of competition in telephone business of the State."

## AN ENGLISH AUTHORITY ON THE CHICAGO & ALTON RE-CAPITALIZATION.

In the issue of the "Statist" of London for April 6 there is an interview with Mr. Robert Fleming on the railroad situation in this country. Probably there is no one outside the United States better informed as regards railroad affairs than Mr. Fleming. He represents large investments in American roads, and he has in the past been prominently identified with a number of important railroad reorganizations in the United States. His statement for the "Statist" was made upon his return from his recent visit to this country. After noting that there has been little or no market for bonds for eighteen months, he expresses the opinion that the anti-railroad crusade must remain for some time a factor against higher values. He says the public has been so frightened and made such large losses that a big "bull" campaign in stocks is unlikely. What most enlists our attention, however, is Mr. Fleming's remarks concerning the Chicago & Alton reorganization-an old event dating back eight years, but which has recently been brought conspicuously to view through the investigations conducted by the Inter-State Commerce Commission. The criticism of this reorganization he thinks has been an element tending to intensify the feeling of distrust of railroad policy, and unjustly so. Mr. Fleming is undoubtedly correct in that regard. We know of no railroad transaction which has been so generally and so sweepingly condemned. And it is difficult to see why this should be so. In its main features this reorganization

With the report made to the Board of Estimate and Apportionment of this city in 1905 by the Merchants' Association our readers are doubtless familiar. The result of the findings in that case are embodied in the main in the following paragraph:

"In another way experience has shown that competition exerts a most pernicious influence upon development. One of the first effects of competition is to greatly impair the earning power of the original com-

tized for FRASER

did not differ essentially from numerous other reorganizations none of which have been criticized.

We can explain the general expressions of disapprobation on no other theory than that the facts are but imperfectly understood or not understood at all, owing to the sedulous efforts that have been made to create erroneous impressions with regard to the same. Newspaper headlines and editorial and other comment give the impression that in this reorganization a few leading financiers got together, secured possession of the property, looted it, at the same time fleecing the security holders, while in all the years since then the road has been engaged in robbing its patrons by charging them exorbitant prices for the transportation services rendered them. Nothing could be further from the truth. The syndicate comprised not merely Messrs. Harriman, Schiff, Gould and Stillman, but about 100 individuals, firms and corporations. None of the security holders of the original company suffered a loss to the extent of a single dollar, while as for the road's transportation charges, shippers in 1898, the year before the property changed hands, paid an average of 8.3-10 mills per ton per mile for the freight moved over the Alton's lines, and in 1906 paid an average of only 6 4-10 mills.

In view of the general misapprehension prevailing upon the subject, it seems desirable before setting out Mr. Fleming's views to devote a little further space to a consideration of the points against which criticism has been mainly leveled, though we discussed the matter quite at length in our issue of March 2. With the facts clearly before him, the reader will be better able to understand Mr. Fleming's remarks. The transactions connected with the Alton's reorganization which have been mainly called in question are: (1). The declaration of the 30% dividend (calling for \$6,669,-180) after the new owners got control of the company, with the view of returning to the shareholders a part of the earnings which had been applied in new capital outlays. (2) The revision of books and accounts so as to show the extent of these capital outlays paid for from year to year out (3) The sale of \$37,350,000 of current income. 3% refunding bonds at 65. (4) The creation of new securities for an aggregate so very much in excess of the capitalization before reorganization.

The revision of the books and accounts appears to be treated as a particularly heinous offence, and one of the present officials of the road, in testifying before expenditures directly to expenses, and it remained for the accountants to determine the amount. Moreover, high figures were paid for the old shares by the syndicate (200 in cash for the preferred and 175 for the common) on the understanding and knowledge that the intrinsic value of the property had been thus enhanced through the application of earnings in the making of capital outlays.

In the argument the present month before the Commission by Paul D. Cravath, of counsel for the syndicate, reference was made to the fact that Mr. Blackstone, the former President of the company, in his annual report of 1894 stated that the capitalization of the company, including its bonds and all obligations assumed by it, aggregated less than 60% of the actual cost of the property in its then condition. This was because of the application of earnings in the way mentioned, instead of their distribution in the form of dividends to the shareholders. Furthermore, Mr. Cravath called attention to a letter of Mr. Blackstone's dated February 1899, and written at the time of the contest for control of the property between him and the syndicate which finally got possession of the property, in which Mr. Blackstone himself distinctly stated that in case he should remain in control he would advise "the refunding of the outstanding bonds of the company and the issue of a stock dividend to represent earnings heretofore invested in permanent improvements." Obviously, it was the intention of Mr. Blackstone himself to have the accounts re-cast, with the view to distributing the earnings which had been applied to improvements.

The investigation of the books led to the conclusive establishment of the fact that the undistributed surplus income at the time of the taking over of the property aggregated \$14,824,931. In this last we have at once the basis for the 30% stock dividend and the sale of the new  $3^{c\prime}_{\prime c}$  refunding bonds to the stockholders at a large discount. The stock dividend was a cash distribution calling for \$6,669,180. The earnings to represent the dividend having been spent on capital account, the company reimbursed itself for the outlay by selling bonds, and used the proceeds to pay the dividend. We must presume from the letter written by Mr. Blackstone that, in the event of his success in the contest for the control, the whole of the \$14,824,931 surplus would have been distributed in the shape of dividends to the shareholders. The new owners, as we see, distributed only \$6,669,180 in dividends, and appropriated the balance, \$8,155,751, towards meet-

the Commission, expressed the opinion that it was an unheard of proceeding and quite unjustifiable. But what is the course which any prudent man pursues when he is about to take possession of a going concern or to acquire a large interest in the same? Does he not at once proceed to have the books and accounts examined and thoroughly overhauled, and if the books have been kept in such a way as to conceal important facts, does he not authorize the auditors and accountants to go ahead and devise a new system, and to state results in a way which will give him a correct idea of the business and profits of the concern? The fact that the old Alton management had applied large amounts of earnings in the making of improvements has never been disputed. The only question was as to the amount. It had been the practice to charge such

ing the greater part of the discount of 35% involved in selling the 3% refunding bonds at 65.

But entirely apart from the application of surplus income on the books to offset the discount on the new bonds, these latter were issued at such a low rate of interest that no one could have been induced to take them except at a discount. This discount could undoubtedly have been reduced to some extent if it had not been desired to give shareholders the benefit of surplus income, but at no time could par have been obtained for them. When issued, ruling rates of interest in the money market were extremely low, and hence for a very brief time the bonds sold in the neighborhood of 90, enabling the holders to dispose of a portion of them at a considerable profit; but they quickly found their proper level. To-day the market price is 75, or only 10 points above the figure at which

# THE CHRONICLE.

they were sold. Even at 65, the rate of return on the investment to the maturity of the bonds is no more than  $47_8\%$ , and thus it will be seen that the company in the sale of these 3% bonds at 65 paid no high or unusual rate of interest for the money, but a very moderate rate.

We come now to consideration of the question of the increase in the capitalization of the company. On Dec. 31 1898, immediately prior to the acquisition of control by the syndicate, the total outstanding stock and debt of the Alton Railroad amounted to \$34,574,650. Adding to this \$22,500,000, for new capital expenditures since then (\$3,000,000 representing the actual cost of the Springfield & Peoria line acquired and \$19,500,000 representing new cash raised and put into the property for additional equipment, reconstruction, &c.), and the total is brought up to \$57,000,000. As against this, the total par value of stock and bonds now outstanding is \$111,046,218. This shows on its face a very wide difference. But it must be remembered that the old securities were not acquired at their par value. The stock, as we have already seen, cost the new owners almost double the par or nominal value. The bonds and guaranteed stocks also commanded a premium. In other words, the nominal or par value is no index of what the property cost or what had to be paid for it. Obviously, in the re-capitalization account had to be taken of market values and not of par values.

) - Contrary to general belief, the managers of the syndicate when they undertook the reorganization of the property had no easy task before them. They had to provide for raising a large amount of cash in order to bring plant and equipment up to modern standards. The sum was originally estimated at \$6,000,000, but, as we have already seen, \$19,500,000 was actually needed for the purpose aside from the \$3,500,000 paid for the Springfield-Peoria line, making \$22,500,000 of new capital required. This was in addition to the large original outlay in acquiring the property at 200 for the preferred and 175 for the common. Provision had also to be made for the refunding of the old debt of the Alton, then about to mature. It was likewise essential that fixed and preferred charges should not be materially enlarged, as the country was only just emerging from a long period of business depression. To attain these various ends it was determined to create low-rate obligations; the refunding bonds carry only 3% and the prior lien bonds  $3\frac{1}{2}\%$ , and even the preferred stock no more than 4% noncumulative. With the interest return so low, the volume of securities to be issued necessarily had to be correspondingly increased. It is to be remembered, furthermore, that the \$19,542,800 of new common stock put out in reality represented only a nominal addition to capital. No dividend has ever been paid on it and it sells to-day in the market at only 16 for every \$100 share. After all the real test is as to how the yearly pay ments after and before reorganization compare. Notwithstanding the great increase in the volume of securities put out, the fixed and preferred charges were not added to in any great amount. Including the 4% dividends paid on the new preferred shares, total payments in 1906 for interest and dividends were \$3,228,864. Ten years before, in 1896, interest and dividend payments were \$2,933,618, and since then

zed for FRASER

\$22,500,000 of new capital has been put into the property, as we have seen.

We are now prepared for Mr. Fleming's comments and remarks. Mr. Fleming pointed out that he himself was a member, and so were many others abroad, of the syndicate which purchased the Chicago & Alton and which represented practically all the stock of the company. Though its members had nothing to do with the scheme of re-capitalization, that syndicate got the benefit, he says, of past earnings which had been withheld from the stockholders and put into the property as well as the profit on 3% bonds bought at 65 and the doubling of the capital stock. What does the reader imagine were the profits of the syndicate? Let Mr. Fleming answer in his own words. "The whole profit of the syndicate (which implied a lock-up for twenty months), after charging the account with interest, was only 8% on the money-about 5% per annum-nothing very extraordinary, surely. We sold our bonds and stocks at the high prices then prevailing for everything. Had the bonds and stocks received been held till now there would have been a heavy loss."

He also points out that the assent of both Houses of Parliament in England has more than once been given to operations by which the Ordinary stock of English railroads has been converted from £100 of Ordinary stock into £100 of preferred Converted Ordinary, bearing a low rate of dividend, and £100 Deferred Converted Ordinary, thereby doubling the amount of the original stock. He well says there is no essential difference between that operation and the Chicago & Alton plan. Doubling the capital does not double the value. Chicago & Alton preferred is quoted today at 59% and the common at 16%. In England the idea was that the conversion gave in the preferred a medium for the less speculative part of the community and in the Deferred Ordinary for the more speculative, it being thought that the two things would sell in the market for something more than the undivided stock. That idea, he is prepared to admit, has now been largely exploded as far as the Alton is concerned, and in that sense the doubling of the stock was a mistake. But in any event it does not increase the revenue one cent. He refers to the case of the Midland Ry., whose Ordinary was thus increased from £38,000,000 to £76,000,000; but that line cannot on that account get from freight or passengers higher rates and fares than the London & North Western.

Mr. Fleming is also led to say that in condemning watered capital the American public is led by theorists. If a law prohibiting the issue of stock except for par in cash had existed in this country in the past, many of what are now large systems, he observes, would never have been built; and if in the future the capital of railroads is to represent no more than the money spent, it follows that no new railroads will be built unless by existing dividend-paying systems. To our mind this last involves the real, the supreme danger connected with the present agitation against allowing railroads to issue new securities except to represent the actual cash cost of new work. Such a policy might not work insufferable harm in the older sections of the country-in New England and the Middle States, already well supplied with railroad facilities; but what of the remoter parts of the country-the West, the South, the Southwest, the Pacific Coast? Will not such a policy remove all inducement

972

#### APR. 27 1907.]

for the construction of new roads in sparsely settled communities? And will not the cessation of new railroad building mean a check to the wonderful development of these remoter sections which has been such a striking feature in their recent history?

#### ITEMS ABOUT BANKS, BANKERS AND TRUST CO.'S.

-The public sales of bank stocks this week aggregate 132 shares, of which 100 shares were sold at the Stock Exchange and 32 shares at auction. The transactions in trust company stocks were limited to the sale at auction of two lots of 10 shares each of stock of the Trust Company of America and of the Carnegie Trust Co. For the latter 2353/8 was paid, as against 225 at last week's auction.

x Sold at the Stock Exchange.

-Pueblo, Colorado, was designated a reserve city on the 16th inst, under the Act of March 3 1887 as amended by the Act of March 3 1903.

-A New York Stock Exchange membership was reported sold this week for \$79,000. The last previous sale, reported last week, was at \$78,500.

-The two amendments to the constitution of the New York Clearing House, which are to be acted on at the next meeting of the Association, were not correctly stated in this column last week. It is not usual for the Clearing House to make public proposed amendments until after their adoption, but to avoid further misunderstanding the correct wording of the proposals, as noticed for adoption at the meeting on April 12, has now been given out. We print them herewith:

(1) Banks acting as redeeming agents for other institutions not members of this Association shall keep and maintain in their own vaults a cash reserve of net deposits equal to the highest percentage of reserve required by law of any member of this Association shall send or pay through the exchanges checks or other items drawn on banks, bankers or trust companies, not members of this Association, by customers thereof in Greater New York, and made payable at a Clearing-House bank, unless the same shall first be accepted and made payable at a Clearing-House bank by the bank by the bank banker or trust company upon which they are drawn. This provision shall also apply to non-members making exchanges through members of this Association.

It will be observed that the first of these amendments, instead of being a requirement that non-member banks must hold a cash reserve of 25% as had been supposed, provides that banks acting as redeeming agents for other institutions not members of the Association shall keep a reserve to that extent. The second amendment is aimed at the practice pursued in many instances by those having accounts at banking institutions outside of the Clearing House to draw checks on these institutions and stamp them as payable at some Clearing House or non-member bank. Hereafter such checks can only pass through the Clearing-House if stamped as payable at a Clearing-House bank by the bank, banker or trust company upon which they are drawn.

There is also a third amendment proposed. This defines the make-up of the different items in the weekly bank statement. It is as follows:

maintain perfect and full accord with their friends and patrons, the merchants of St. Louis, and as a recognition of the invariable courtesy that has characterized their relations with banks." Petitions to reduce the charges had been presented to the banks by the merchants and business men several times in the last five or six years, according to the "Globe-Democrat"; the present negotiations were opened more than a month ago with a committee representing the merchants. Their argument was that the old schedule was based on collection charges in the smaller cities in force twelve years ago; that these had since been lowered and that the St. Louis banks could make a corresponding reduction without losing money.

-"Bills of Lading in Inter-State Commerce" was the theme of an address made by Thomas B. Paton, Editor of the Banking Law Journal of this city, before the Arkansas Bankers' convention at Little Rock yesterday. Mr. Paton went fully into the subject, bringing out the weak points in bills of lading as governed by existing laws. In the course of his remarks he referred to the bill of lading measure drafted in 1906 by the Bankers' Committee and introduced in Congress last December as an amendment or addition to Section 20 of the Hepburn Rate Bill, enacted last June. Under this latter section the carrier is required to issue a receipt or bill of lading for property received for inter-State transportation, and the initial carrier is made liable to the holder of the bill of lading for any loss, damage or injury to the property not only when caused by such initial carrier, but when caused by any subsequent carrier. The new measure proposed, Mr. Paton points out, does not seels to codify the entire law governing the issue, transfer and redemption of bills of lading, but is confined to those points of regulation which the bankers deem essential. The general object of the proposed amendments is, he states, to provide by national law a distinctive inter-State order of bill of lading with precise definition of the title and rights acquired by a bona fide transferee for value and of the duties and liabilities of the carrier, having due regard to the nature of the business, the safety of the banker who loans upon such documents, and the relation and rights of the carrier. The committee which drafted the bill does not, of course, claim that this is a perfect measure, or that it cannot be improved upon; it solicits the aid of bankers in the different sections of the country, and to this end asked for the appointment of a committee of three from the Arkansas Association to co-operate with other State bodies and the American Bankers' Association, and to assist in procuring the necessary Congressional legislation.

-On Monday of this week the Chemical National Bank of this city began business in its handsome new home, erected on its former site at 270 Broadway. This old institution has now one of the most complete banking houses in the country. The main room is 70 feet wide by 170 feet long, and is 85 feet high, surmounted and lighted with a magnificent stained-glass dome. Four allegorical figures appear in the corners below the dome, representing Ceres, Boreas, Helios and Neptune, typifying the earth, air, fire and water of ancient chemistry. Green, veined white and variegated Italian marbles are used extensively throughout the building.

- be merger of the Colonial Trust Company, 222 Broadway, with the Trust Company of America, 135 Broadway this city, went into operation yesterday. The stockholders of both companies met last Thursday and ratified the directors' agreement effecting the consolidation as outlined several times in these columns. The Colonial Company's offices in the St. Paul Building will henceforth be known as the "Colonial Branch, the Trust Company of America." The headquarters of the Trust Company of America at 135 Broadway and its branch office at 36 Wall Street will be continued until the consolidated institution's fine new bank building on Wall Street is completed. W. O. Douglas, an assistant loan clerk of the Trust Company of America, and Oliver M. Dennett, a broker, acting as his accomplice, were arrested this week for stealing a large amount of securities from the company's vaults. They were committed to jail in lieu of \$10,000 bail to await trial. The exact amount of the securities taken has not been disclosed, but part has been recovered. After a meeting of the Executive Committee on the 23d inst., Oakleigh Thorne, President, stated "that the maximum loss cannot exceed

Add to Section 16: The several items of the weekly statement are to comprise the following: Loans and Discounts—Loans, Discounts and stocks and bonds and mort-gages owned by the bank. Specie—Gold and silver coln, United States and Clearing-House gold certificates and United States silver certificates. Legal-tender Notes—United States legal-tender notes of all issues. Circulation—Amount outstanding. Deposits—Gross deposits and unpaid dividends, less exchanges for the

Legal-tender Notes—onited blatts right tender instead of the cliculation—Amount outstanding. Deposits—Gross deposits and unpaid dividends, less exchanges for the Clearing-House, amounts due from other banks for collection, notes of other banks and checks on non-clearing institutions in this city.

The Clearing House has no fixed dates for its meetings, and therefore it cannot be stated when the amendments will be acted on.

-A new schedule of collection charges adopted by the St. Louis Clearing House Association on the 10th inst. will go into effect next week-May 1. In commenting on the changed rates, the St. Louis "Globe-Democrat" notes that under the new schedule the old collection rates in force since 1895 are cut down an average of about 20%. President W. H. Lee of the Clearing House, in announcing the adoption of the new charges, states that "the action was not taken without realizing that it involved some loss to the banks, but it was the expression of their earnest desire to \$140,000, and if the contention of our counsel is sustained that the stolen bonds or their proceeds may be recovered from those to whom they were delivered, the company will lose nothing." The consolidated company has a capital of \$2,000,000, surplus of over \$10,000,000 and deposits between \$65,000,000 and \$70,000,000.

—The Greenwich Bank of this city has declared a semiannual dividend of 5%, payable May 1, making the annual rate 10%. This is the 104th dividend paid by this institution and is an increase over the rate paid in 1906, which was 8%. In 1905 7% was paid, previous to which 6% had been the yearly rate for a long time.

-The Washington Trust Company at 280 Broadway, this city, will move about June 1 to its new offices on the first floor of the Postal Telegraph Building, 253 Broadway.

-The Fourteenth Street Bank of this city, as noted last week, will, beginning Monday next, clear all transactions through the New York Clearing House, of which it has lately been elected a member. The institution commenced business in 1888, and for a number of years was located at 3 East 14th Street, one door from its present site. Five years ago the building on the northeast corner of Fifth Avenue and 14th Street was purchased and fitted up with commodious banking offices and spacious safe deposit vaults. Two branches are also maintained-the Gansevoort Branch, at Ninth Avenue and 14th Street, and the East Side Branch, at Avenue A and Second Street. The last-named branch will remove about the middle of May to 345-347 Grand Street, this being a more convenient location for its East Side customers. In 1901 the bank's capital was but \$100,000; this was increased in 1905 to \$500,000; and on January 1 of this year to \$1,000,000. R. Ross Appleton has been the President for the last five years, and to his progressive spirit. liberal management and superior executive ability the growth and development of the bank are largely due.

-A verdict of \$183.000 was returned by a Supreme Court jury at Richmond, S. I., on the 19th inst. against the estate of the late August Prentice. President of the Bank of Staten Island, at Stapleton, which was placed in receivers' hands in January 1904. Following the bank's closing as a result of the suicide of Cashier Otto Ahlman, large discrepancies were found to exist. Proceedings to recover the full amount were brought against the Prentice estate by Receiver John S. Davenport, who is also reported to have recovered \$32,000 from the Ahlman estate.

-S. Bayard Dod, President of the First National Bank of Hoboken, N. J., died on the 19th inst. Mr. Dod was sixty-eight years of age, and is reported to have been the oldest trustee of Princeton University.

-At a regular meeting of the directors of the National Commercial Bank of Albany, N. Y., on the 19th inst, Jacob H. Herzog was appointed an Assistant Cashier.

-The New Britain Trust Company of New Britain, Conn., representing a merger of the Mechanics' National Bank and the Hardware City Trust Company, commenced business on Monday the 22d inst. The consolidated institution, as stated March 9, has a capital of \$200,000, and is officered by W. E. Attwood, President; L. Hoyt Pease and Charles M. Jarvis, Vice-Presidents; Frank G. Vibberts, Treasurer; and H. B. Boardman, Secretary. dividend of 6%, free of tax, payable May 1 to stockholders of record April 25. They also added \$250,000 to surplus, making that fund \$3,000,000. The half-yearly distribution was increased from 5 to 6% last November.

-It is reported that the name of the State Trust & Security Company, now organizing in Philadelphia, has been changed to the Belmont Trust Company. The new institution, as stated Dec. 29, is to locate in West Philadelphia on Baltimore Avenue in the vicinity of 49th Street. The authorized capital will be \$250,000, one-half of which will be paid in.

-An exquisite example of the typographers' art is furnished in a book, both original and tasteful in design, issued by the Bank of Pittsburgh, N. A., at Pittsburgh. One of the striking features of the newest publication is the reproduction in colors of two mural paintings. As may be inferred from the title of the book-"The Bank Historical"the work reviews the institution's history, and also, at considerable length, that of the city. Many illustrations adorn the book-some picturing the bank's quarters, others bearing on the city and serving to indicate its development. The progress of nearly one hundred years is covered in the work. The bank was organized in 1810, when Pittsburgh had less than 5,000 inhabitants. Up to that time, we are told, there had never been a bank west of the Allegheny Mountains, although a branch of a Philadelphia institution was located at Pittsburgh. The organization of the bank had scarcely been perfected when an Act of the Legislature made the establishment of new banks a practical impossibility, and it was forced to change its name to the Pittsburgh Manufacturing Company and limit its operations somewhat to come within the bounds of the law. Four years later a new banking law was passed, a charter was granted and the Pittsburgh Manufacturing Company again became the Bank of Pittsburgh. At the time of the financial panic of 1837, a year of many failures, banks all over the country suspended specie payment. The Bank of Pittsburgh, in common with all other banks of the city, was prevailed upon to sign the formal resolution suspending such payment; but it reserved the right to continue to meet its obligations in gold, and the minutes  $\epsilon \mathbf{f}$  the directors' meetings show that in all that trying time it never did actually suspend specie payment. In 1899, after having been a State bank for almost ninety years, the Bank of Pittsburgh became a national institution, the Government allowing it to retain its old name with the addition of the words "National Association." In 1903 the Iron City National and the Merchants' & Manufacturers' National Banks were consolidated with the Bank of Pittsburgh, placing it among the leading banks of the State. During the ninetysix years of its existence the institution has had but seven presidents. The present incumbent, Wilson A. Shaw, was chosen to the office in 1903, when the consolidation of the three banks was effected. Joseph R. Paull is Vice-President.

-William R. Christian, Cashier of the Lincoln National Bank of Pittsburgh, Pa., died on the 22d inst. in his fiftyfirst year.

-John Meckes, a Vice-President of the United Banking & Savings Company of Cleveland, and also of the Forest City Savings & Trust Company of Cleveland, died in Rome, Italy, on the 21st inst. Mr. Meckes was a member of the Cleveland Chamber of Commerce and of the Chamber of Industry. He was sixty-four years of age.

-A meeting of the stockholders of the National Exchange Bank of Providence, R. I., will be held on May 20 to act on a proposed change in the par value of the stock from \$50 to \$100. The report that the capital of the bank is at the same time to be increased is, according to the "Providence Journal," officially denied. The bank is controlled by the Union Trust Company of Providence.

--The directors of the American Trust (company of Boston (formerly known as the American Loan & Trust) on Wednesday elected Russell G. Fessenden as President. Since January, when the former executive, N. W. Jordan, was elected Chairman of the board, T. Jefferson Coolidge Jr. had been fulfilling the duties of President, having agreed to accept the post until the election of a permanent head.

--Charles W. Kellogg, President of the Berkshire Loan & Trust Company of Pittsfield, Mass., since 1898, died on the 19th inst. in his sixtieth year.

-The directors of the Philadelphia National Bank of Philadelphia, "Pa., "on "the 24th ist. declared a semi-annual

ized for FRASER

-Articles of incorporation for the Anchor Bank & Savings Company of Cincinnati have been filed. The institution will have a capital of \$50,000 and, according to the Cincinnati papers, will cater principally to the foreign element. It is stated that the name "Anchor" has been chosen not only because of the ideas of solidity and safety it suggests, but also because it is spelled very nearly alike in all languages, and its meaning will thus be impressed easily on the foreign" population. Frank L. Pfaff is to be President and A. A. Landesco will be Secretary and Treasurer. Mr. Landesco is at present Secretary to Mayor Edward J. Dempsey, and will continue in that office until the end of the year, when he will give his sole attention to the new institution.

-If present plans mature, another bank consolidation will take place shortly in Toledo. The National Bank of Commerce and the National Bank of Toledo are the institutions involved in the latest combination to be announced. The details of

#### APR. 27 1907.

the proposed consolidation have not yet been fully perfected. But it is said that arrangements have progressed far enough to indicate that it will more than likely be consummated. It is understood that the National Bank of Commerce will be retained as the name for the consolidated institution, and that S. D. Carr, the present head of the Commerce, will continue in that capacity. As enlarged, the bank will have a capital of \$1,000,000 and surplus of about \$200,000. The present National Bank of Commerce has a capital of \$500,000 and the National Bank of Toledo a capital of \$300,000. The combined deposits of the two banks exceed \$5,000,000. The National Bank of Toledo was formerly the Holcomb National Bank, its name having been changed in 1905.

-The Commercial Bank of Evansville, Ind., increased its capital on April 1 from \$50,000 to \$75,000. The proposition was ratified by the stockholders in March, and the new issue sold at \$110 per share, the premium being placed to the surplus fund, thereby increasing it to \$50,000. The additional stock was taken by new interests, the old stockholders having waived their rights to the same. The bank began business on March 10 1906. Its officers are John M. Funke, President; Gustave A. Hartmetz, Vice-President, and Louis E. Fricke, Cashier.

-The directors of the Commercial National Bank of Chicago at their weekly meeting on the 19th inst. adopted fitting resolutions on the death of President James H. Eckels: Action toward electing a successor to the late President was deferred. The board, however, created the new office of Chairman of the Executive Committee, and Franklin Mac-Veigh, senior member of the directorate, was elected to fill the post. The bank's policy, it is said, will continue the, same as under Mr. Eckels's management, the creation of the new office being simply part of the plan adopted when the increased capital was decided upon. The additional capital, \$1,000,000, has been paid in, increasing the amount to \$3,-000,000 and the surplus to a like sum.

-President Abner Smith and Vice-President Gustav F. Sorrow, of the failed Bank of America, Chicago, on the 19th inst. were adjudged guilty of misappropriating the funds of the bank and sentenced to a term of from one to five years in the penitentiary and a fine of \$1,000 each. Jerome V. Pierce, the Cashier, was also found guilty and fined \$500. In the case of Frank E. Creelman, a director, who had been an extensive borrower from the institution, a verdict of not guilty was returned. Motion for a new trial has been made by counsel for the defendants. The bank closed its doors Feb. 15 1906.

-In the case of the Milwaukee Avenue State Bank, Chicago, which failed about a year ago, Judge Brentano, of the Superior Court, has allowed Receiver Fetzer \$20,000 for his services and \$20,000 for attorney's fees. The total claims against the bank were about \$4,700,000, of which 70% has been settled to date.

-The Metropolitan State Bank has been organized in Minneapolis with a capital of \$100,000 and surplus of \$10,000. The projected bank will be managed by George C. Merrill, President; M. R. Waters, Vice-President, and V. H. Van Slyke, Cashier. It is to open shortly in the former quarters of the Security Bank in the Metropolitan Building.

on "Legislative Tendencies," and John M. Allen of Tupelo, Miss., on "The Relation of Banks to the Public."

-The stockholders of the Olive Street Bank of St. Louis at a meeting on Tuesday approved a proposition to increase the capital from \$100,000 to \$300,000. One-half of the proposed issue will go to present shareholders and the balance to new interests. The selling price of the new stock will be \$130 per share of \$100.

-C. S. Jobes, who is reported to have disposed of all but a nominal interest in the American National Bank of Kansas City, Mo., of which he was President, has been elected Vice-President of the Pioneer Trust Company of Kansas City to succeed F. C. Miller. J. S. Parks will replace Mr. Jobes as head of the American National. John Worthington, a Vice-President of the latter, is also said to have disposed of his holdings in the bank.

-The Commercial & Savings Bank of Macon, Ga., in its statement of March 22 1907, shows deposits of \$852,802, as compared with \$764,956 in 1906 and \$546,356 in 1905; the surplus and undivided profits are now reported as \$58,-655, against \$46,883 in 1906 and \$34,417 a year earlier. The capital is \$50,000 and the aggregate resources are \$961,457. E. J. Mallary is President and J. J. Cobb is Cashier.

-The resignation of Maurice Walton as President of the Merchants' Bank of Augusta, Ga., is announced. W. J. Hollingsworth, heretofore Vice-President, has been chosen to fill the vacancy until the next annual election. Charles T. Pund, a director, has been elected Vice-President.

-At the annual session of the Louisiana Bankers' Association, at Shreveport, on the 17th and 18th inst, a resolution was adopted endorsing and approving the action of the American Bankers' Association with reference to a uniform and negotiable bill of lading for inter-State shipments. A committee, consisting of Sol. Wexler, Vice-President of the Whitney-Central National Bank of New Orleans, Charles Janvier, Vice-President of the Canal-Louisiana Bank & Trust Company of New Orleans, and W. J. Bayersdorffer, has been appointed to co-operate with a committee of the American Bankers' Association in securing legislative aid for the enactment of such a bill. The new officers of the Louisiana association are President, Charles Janvier; Vice-President, Peter Youree, Vice-President of the Commercial National Bank of Shreveport; Secretary (re-elected), L. O. Broussard, Cashier of the Bank of Abbeville, La.; and Treasurer, L. M. Poole.

-The Ouachita National Bank and the Monroe National Bank of Monroe, La., were consolidated on the 20th inst. under the title of the first named institution. The enlarged bank has \$200,000 capital. The officers are T. E. Flournoy, President; F. G. Hudson, Vice-President; O. B. Morton, Cashier; J. T. Austin, Assistant Cashier.

-The Hunter-Phelan Savings Bank & Trust Company of Fort Worth, Tex., is now operating under its new title of the Waggoner Savings Bank & Trust Company. The change in name was incident to the acquisition of controlling interest in the institution by W. T. Waggoner, the new President, and his associates.

-The Colorado Bankers' Association will hold its annual

-The Mitchell Street State Bank of Milwaukee commenced business on the 18th inst. at Mitchell Street and Second Avenue. The new institution was organized last August. Its officers are Valentine Zimmermann, President; Sylvester J. Wabiszewski, Vice-President, and J. F. Edgerton, Cashier.

-The program to be presented at the annual convention of the Missouri Bankers' Association, to be held at Kansas City on May 22 and 23, has been completed. Addresses are to be made at the meeting by U.S. Treasurer Charles H. Treat, who will devote himself to "Some Comments on the Operation of the Aldrich Law"; Prof. James T. Young, director of the Wharton School of Finance and Commerce, Philadelphia, who will speak on "Financial Depression, Political Agitation and the University"; E. L. Copeland, Treasurer of the Atchison Topeka & Santa Fe Ry., on "Prosperity a Problem for Railroads"; L. A. Goddard, President of the Fort Dearborn National Bank of Chicago on "Capital, and Conscience"; George E. Allen, Secretary of the American Institute of Bank Clerks, on "Second-hand Experience"; Oscar Wells, Cashier of the Fort Worth (Tex.) National Bank, gathering on June 27 and 28 at Fort Collins.

-May 16, 17 and 18 have been selected as the dates for the annual convention of the California Bankers' Association. The meeting will be held at Santa Barbara.

-The annual meeting of the Oregon Bankers' Association is to be held at Portland on June 14 and 15.

-Under the name of the Union Exchange Bank, a new financial institution opened for business in Los Angeles at Ninth and Main streets on the 15th inst. The authorized capital of the bank is \$100,000, of which \$50,000 has been paid in. The par value of the stock is \$100 per share. C. J. Goodenow is President; B. L. Vickory is Vice-President, and Guy H. Wood is Cashier.

#### IMPORTS AND EXPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

The Collector of Customs at San Francisco has furnished us this week the details of imports and exports of gold and silver through that port for the month of March, and we give them below in conjunction with the figures for preceding months, thus completing the results for the nine months of the fiscal year 1906-07. The imports of gold were of strictly moderate volume, reaching \$127,583, all bullion and gold in ore. Of silver there came in \$208,274, mainly bullion and silver in ore. During the nine months there was received a total of \$13,740,816 gold and \$2,744,229 silver, which compares with \$2,180,311 gold and \$1,886,363 silver in 1905-06. The shipments of gold during February were *nil*, and the exports of silver were \$3,995 coin. For the nine months the exports of gold coin reached only \$16,735, against \$5,401,119 in 1905-06, and \$1,644,606 silver was sent out, against \$8,677,546 in 1905-06. The exhibit for March and for the nine months is as follows:

# Monetary Commercial English News

#### (From our own correspondent.) London, Saturday, April 13 1907.

The reduction of its rate of discount by the Bank of England this week has produced a very much better feeling at home and abroad, but up to the present time it has not much increased the amount of business. There is, indeed, some improvement in business, but as yet it is slight. The general expectation amongst the most capable observers is that we shall see much more active markets before long, with a rising tendency, but that for the time being the outside public is holding back, firstly, until it is known what the Chancellor of the Exchequer will propose in his Budget statement, which, it may be added, will be made on Thursday next. Secondly, the public is waiting for a clearer explanation of the policy of the new Government in the Transvaal. So far as that policy is understood, it has made a favorable impression. But before active buying begins, a little more light is desired.

Over and above this, the public is not yet quite satisfied that the liquidation is ended in New York. And, in the last place, there is some apprehension that speculation has

drawals for New York which made it necessary to protect the reserve of the Bank of England. When New York withdrew from competition it was recognized that all serious danger was over. As a matter of fact, the Bank has during the week ended Wednesday night increased its stock of gold by £1,115,931, the total stock now being £34,345,713. The general opinion is that all the gold offering in the market will be taken by the Bank for some time to come, and that, therefore, it will rapidly increase in strength. The Imperial Bank of Germany will probably not venture to make a change for some weeks. At the end of March the note circulation of the Imperial Bank exceeded the legal maximum by over 20 millions sterling. In the first week of March the return of notes was so large that the excess was brought down to about half of what it was on the preceding Saturday. If notes continue to flow back as rapidly as that, in a week or two the whole excess will have disappeared, and then the general impression is that the Imperial Bank of Germany will follow the example of the Bank of England. That the latter has been able to take the step is mainly due, of course, to the promptitude with which Mr. Cortelyou has put in force the Aldrich Act. London has watched his course with much interest, and his reputation here has risen very greatly.

The Board of Trade returns for March, as will be seen from the tables below, continue to show most satisfactory increases. The value of the imports for the month was £57,738,731, an increase of £4,477,101, or 8.4% over the corresponding month of last year. The value of the exports of British and Irish produce and manufactures increased £3,071,872, to £34,723,034, or 9.7%. The value of the reexports of foreign and colonial produce was £8,110,260, an increase of £833,863, or 11.6%. The value of the imports in the first quarter of the year increased 11%; the value of the exports of British and Irish produce and manufactures increased 11.7%, and the value of the re-exports increased 15.6%.

The India Council offered for tender on Wednesday 70 lacs of its bills, and the applications exceeded 660 lacs, at prices ranging from 1s. 4 3-32d. to 1s. 4 3-32d. per rupee. Applicants for bills at 1s. 4 3-32d. and for telegraphic transfers at 1s. 4 5-32d. per rupee were allotted about 10% of the amounts applied for.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last four years.

been carried much too far in Germany. In Paris there is a decidedly better feeling. When the new French Ambassador was received by the German Emperor the other day the latter made an address which has given much satisfaction in Paris. Also, there are strong hopes that in spite of occasional hitches the Russian Government and the majority of the Duma will come to an arrangement. There has already been a considerable rise in Russian securities, and the general belief is that the rise will be continued. As the week draws to a close the Paris Bourse has given way somewhat because of the fall in copper, but the best opinion is that the decline will prove very temporary. The reduction of the Bank of England rate, too, has encouraged the hope that the Bank of France will put down its rate of discount before long and generally upon the Continent, as well as in London, the expectation is that we are now entering upon a period of comparatively cheap money which will last for several months.

The directors of the Bank of England on Thursday last lowered their rate of discount from 5% to  $4\frac{1}{2}\%$ . As soon as the gold bought for New York in the previous week was re-sold to the Bank of England, the city generally jumped to the conclusion that the Bank of England rate would have to be put down. It was the fear of large gold with-

GOLD.—The position of the Bank has materially im proved this week, as they were able to secure the balance of last week's gold which was purchased for America, amounting to 450,000, and in addition have bought all this week's arrivals of about £250,000. The price is now down to 77s. 9d. Since our last the Bank has received = £1.367,000, of which £1.227,000 was in bars. The withdrawals total £200,000, of which £100,000 is for Egypt. £562,000 is expected to arrive next week from South Africa. The Bank rate, which was fixed at 5% on Jan. 17, was to-day reduced to  $4\frac{12}{50}$ . For the week: Arrivals—Cape, £364,000; Australia, £136,000; total, £500,-000. Shipments—Bombay, £73,625; Calcutta, £30,000; total, £103,625. For the month of March: Arrivals—France, £621,000; Egypt, £550,000; Brazil, £33,000; South Africa. £1,793,000; India, £158,000. Shipments—France, £96,000; Brazil, £653,000; Argentine, £952,000; India, £572,000.

£653,000; Argentine, £952,000; India, £572,000. SILVER.—The market in silver has been steadler, and we have risen  $\frac{1}{6}$ d. during the week. At one time we rose to  $30\frac{1}{2}$ d., on a good Indian demand, but, this being satisfied, the market reacted and we close at  $30\frac{1}{2}$ d., with a steady to nc. There have been considerable forward sales by India, but these have been easily absorbed and the forward price, which has been as much as 7-16d. under cash. closes at  $29\frac{3}{4}$ d. with an upward tendency. The position in China is much firmer. The Indian price is Rs. 75% per 100 Tolahs. For the week: Arrivals—New York, £93,000. Shipments—Bombay, £12,000; Colombo, £850; Calcutta, £68,000; Straits (coin), £31,-500; total, £112,350. For the month of March: Arrivals—France, £14,000; U.S.A., £1,193,000. Shipments—France, £42,000; Brazil, £46,000; India, £1,566,000; Straits, £148,000.

# APR. 27 1907.]

MEXICAN DOLLARS.—There have been a few transactions in dollars at their melting value.  $\pounds 55,000$  has come from America and  $\pounds 25,000$  has been shipped to Calcutta.

#### [VOL. LXXXIV.

Statement of New York City Clearing-House Banks .----The following statement shows the condition of the New York City Clearing-House banks for the week ending April 20. It should be distinctly understood that as to all items except capital and surplus the figures are the averages of the daily results, not the totals at the end of the week. In other words, in reporting loans and deposits and holdings of specie and legal tenders, the practice is to take the aggregate of the amounts for the several days of the week and divide this aggregate by the number of days.

New York City, Boston and Philadelphia Banks.—Below is a summary of the weekly returns of the Clearing-House banks of New York City. Boston and Philadelphia. The New York City and Philadelphia. York figures do not include results for non-member banks:

We omit	two	ciphers	(00)	in' al	these	figures.

			· ·

For Dividends see page 977.

Wall Street, Friday Night, April 26 1907.

The Money Market and Financial Situation.-Although there has been a litle more activity at the Stock Exchange this week there seems no other evidence that interest in the markets has broadened. Prices have generally fluctuated within narrow limits. The prevailing tendency, however, has been towards a higher level and net changes show, in most cases, a slight recovery from the recent depression.

A reduction of the Bank of England's discount rate from  $4\frac{1}{2}$  to 4% was so generally expected as to pass with little effect. More interest, and perhaps more importance, attached to similar action by the Imperial Bank of Germany and the Netherlands Bank, showing the relief which has

recently come to all the principal money markets of the world. The crop situation is growing in importance as a factor in the security markets. Reports of damage to winter wheat in the Southwest caused an advance in the price of wheat and were used with more or less effect by the bear element at the Stock Exchange. Of course the extent of such damage, if any, is a matter of the merest conjecture, and is quite likely to be forgotten or ignored in the near future.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from  $1\frac{3}{4}$  to  $2\frac{3}{4}\%$ . To-day's rate on call was 2%. Prime commercial paper quoted at  $5\frac{1}{2}@6\%$  for endorsements and  $5\frac{1}{2}@6\%$  for best single names.

The Bank of England weekly statement on Thursday showed an increase in bullion of £296,408, and the percentage of reserve to liabilities was 45.32, against 44.65 last week. The discount rate was reduced from  $4\frac{1}{2}$  to 4%. The

Bank of France shows an increase of 5,500,000 francs in gold and 50,000 francs in silver.

**a \\$31.612.300** United States deposits included, against \$31.356.600 last week and \$17.438.100 the corresponding week of 1906. With these United States deposits eliminated, the surplus reserve would be \$19.607.900 on April 20 and \$23.692.075on April 13. Note.—Returns of separate banks appear on the preceding page.

Forcign Exchange.-The market was strong until Wednesday, influenced by a good demand for remittance and by a scarcity of bills. The inquiry then subsided and the tone was steady at the close.

To-day's (Friday's) nominal rates for sterling exchange were  $4.84@4.84L_2$  for sixty day and  $4.87@4.87L_2$  for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8320(a 4 8330 for long, 4 8605(a 4 8610 for short and 4 8635@4 8645 for cables. Commercial on banks 4 8280@ **4 8**290 and documents for payment  $4 82_{4}^{1}(a 4 83)$ . Cotton for payment  $4 82_{4}^{1}(a 4 82_{3})$ . cotton for acceptance 4 8280(a). 4 8290 and grain for payment 4 8275@4 83.

To-day's (Friday's) actual rates for Paris banker's frances were  $5\ 20d(@\ 5\ 20\ \text{for long and } 5\ 17^{1}2a(@\ 5\ 17^{1}2d\ \text{for short})$ . Germany bankers' marks were  $94^{1}2(@\ 94^{5}8\ \text{for long and})$ 95 1-16d@95 1-16 for short. Amsterdam bankers' guilders were 40 26(a) 40 28 for short.

Exchange at Paris on London to-day, 25f. 16<sup>1</sup>2e.; week's range, 25f. 20c. high and 25f. 1612c. low.

The week's range for exchange rates follows:

activity does not signify a larger investment demand, but simply a little more extensive movement of a few issues.

The latter includes the various Japanese bonds, United States Steel, Pennsylvania and Atchison. Nearly all the active issues are fractionally higher than last week. The exceptionally strong features are Union Pacific, Rock Island, Delaware & Hudson, Inter.-Metro. and Central Leather 5s, which have advanced a point or more.

United States Bonds .- Sales of Government bonds at the Board include \$37,000 4s, coup., 1907, at 1015/8; \$1.000 3s, reg., 1908-18, at 10234; \$1,500 2s, reg., 1930. at  $1041_8$ , and \$4,000 2s, coup., 1930, at  $1041_2$ . The following are the daily closing quotations; for yearly range see third page following.

\* This is the price bid at the morning board: no sale was made.

Railroad and Miscellaneous Stocks .- The stock market has been more active. Daily transactions averaged about 650,000 shares, against 550,000 last week, an increase of nearly 20%. The decline of about 2 points, which was the result of last week's operations has in most cases been recovered, so that closing prices average nearly the same as those of two weeks ago.

A strong upward movement occurred on Monday. Subsequently there was a good deal of irregularity, some stocks making further progress towards a higher level and others reacting.

Union Pacific and Reading have continued to be the most conspicuous features of the market. Trading in them has been on a large scale and the former shows a net gain of nearly 6 points. Reading has covered a range of over 6 points and, at 2 points below the highest, closes 4 points higher than last week.

Brooklyn Rapid Tran it was weak on the prospect of a judicial decision limiting the right of the company to exact more than one fare to distant points. This, with New York Central, North West, and Steel common, are the only active stocks which close lower than last week.

The industrial list has followed the general course of railway issues and presents no unusual features.

For daily volume of business see rage 987. The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

Outside Market .- The outside market in the early part of the week showed considerable improvement over last week, prices generally moving up on a good volume of business. Later the market drifted into dulness, business at times be-ing almost at a standstill. Values, however, held fairly steady. Industrals evidenced decided strength. American Tobacco from 325 moved up to 350. American Writing Paper preferred lost 2 points to 22. Manhattan Transit was conspicuously active and strong, advancing from  $4^{1}$  to  $5^{2}_{4}$ , the close to-day being at  $5^{1}_{2}$ . N. Y. & Cuba Mail S. S. on the favorable completion of the Morse consolidation plan ran up from 26 to  $29\lambda_2$ , easing off to  $287_8$ . Standard Oil opened the week at 518, rose to 529, and closes at 526. Trading in Western Ice was brisk, the price moving up from 2734 to 35, with the close at 3442. International Mercantile Marine scentities were listed on the Stock Exchange this week. Chicago Subway sold down from 1978 to 17 and ends the week at  $17\frac{1}{14}$ . Boston Consolidated Copper advanted from  $27\frac{1}{8}$  to  $29\frac{5}{8}$  and closed to-day at 29. Butte Coalition from  $25\frac{1}{2}$ reached 281s to-day, but closed at 27. Davis-Daly Estates after advancing from  $15_{44}^{3}$  to  $17_{44}^{1}$ , sank to 15, but moved up finally to  $16_{42}^{12}$ . Greene Cananea rose a point to 17 but closes at  $16_{42}^{12}$ . Greene Consolidated Copper also gained a point to 25 but fell off to  $244_2$ . United Copper common was active and advanced from  $61\frac{1}{2}$  to  $62\frac{1}{2}$ . Trinity Copper sold down from 22 to  $21\frac{1}{2}$ . Nipissing Mines was heavily dealt in, moving up from  $13\frac{1}{2}$  to  $14\frac{5}{8}$  and back to 14. An outbreak of activity in Nevada-Utah carried the price from 37% to 478.

## THE CHRONICLE.

[VOL. LXXXIV.

# Investment and Kailroad Intelligence.

## RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the street railways are brought together separately on a subsequent page.

a Decrease due to partial train service on account of washouts.

Net Earnings Monthly to Latest Dates.-The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of April 20 1907. The next will appear in the issue of May 25.

For March taxes and rentals amounted to \$214,994, against \$186,945 in 1906, after deducting which, net for March 1907 was \$2,891,571, against \$2,339,293 last year. From July 1 1906 to March 31 1907 taxes and rentals were \$1,879,073. against \$1,801,079 last year.

h For March 1907 additional income was \$9,781, against \$3,992 in 1906, and from July 1 to March 31 was \$45,560 in 1906-7, against \$42,492 in 1905-6.

k For March 1907 additional income was \$12,145, against \$16,772 in 1906, and from July 1 1906 to March 31 1907 was \$176,374 in 1907 against \$137,863 in 1905-6.

n These figures represent 30 % of gross earnings.

y For February additional income and net profits from coal, &c., were 52,527 this year, against 60,225 last year; and from July 1 to Feb. 28 were 433.985 this year, against 536,700 last year.

Interest Charges and Surplus .- The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus above or deficit below these charges:

benefat htsults.—There was a continued increase in the volume of the freight and passenger traffic and in the revenue therefrom, although there was a slight decrease in the rate per ton and per passenger per mile. After deducting rentals due roads operated under lease, and providing for all fixed charges, taxes and other liabilities, there was a net income of \$2,; 782,552. Out of this there were paid two dividends of 2% each, leaving a balance of \$1.842,810, which was applied toward the extraordinary expendi-tures of the year. *Construction*, &c.—The aggregate construction, equipment and real estate expenditures were \$4.546,390, as follows: Right of way\$49,667Gray's Ferry, engine-house, machine-shop, track, &c54,725Extension of Edgemoor yard\$1,968Wilmington, Elevated line and Justison St. yard (\$588,344);\$1,968passenger station (\$203,682); power-house, &c. (\$19,933)\$11,959Havre-de-Grace, new-line, bridge, passenger stations at Perryville\$11,959and Havre-de-Grace, &c.\$178,228): Montana Ave. to Flor-ida Ave., including coach yard (\$485,964); elevated grade,\$0000 (\$255,785); elevated and MarylandAve subway, freight yards and other improvements (\$379,023), 1,399,000\$3,645 Right of way \_. Water supply Miscellaneous  $93,645 \\ 366,182$ Re-building pool freight cars, shop tools, &c\_\_\_\_\_ 111.693 73 063 Real estate 794,450

Real estate 794,450 After applying surplus income of \$1,842,810 toward this expenditure, there remained a balance of \$2,703,579, which was distributed as follows: Charged to capital account—cost of road, \$1,899,584, and real estate 791,196; charged to construction of revised line through Washington, D. C., \$12,799. The charges to capital account represented expenditure for real estate and right of way, a portion of the cost of the two-track elevated road through Wilmington and of the new passenger station at that point, the completion of the new bridge and revised line at Havre-de-Grace and of the Magruder branch, the construction of the joint coach-yard, round-house and shops, and of additional tracks, in connection with the new passenger station at Washington, increased freight facilities in that city and at other points, and permanent water supply.

Merger.—Your company, being the owner of all the capital stock of the South Chester RR., a branch about 3<sup>3</sup>/<sub>4</sub> miles in length, acquired the same and consolidated it with your main line on Feb. 9 1906. The charge to capital account resulting therefrom, \$229.700, appears in the cost of

South Chester RR., a branch about 3% miles in length, acquired the same and consolidated it with your main line on Feb. 9 1906. The charge to capital account resulting therefrom, \$229.700, appears in the cost of road on our balance sheet. Elimination of Grade Crossings in Washington, D. C.—The further sum of \$596,407 was expended during the year upon the revision of your line through the city of Washington for the purpose of eliminating grade cross-ings, of which \$583,608 was provided for out of your surplus income. The sum of \$1,500,000 is carried on your balance sheet to this account, until the receipt of that amount from the Government in pursuance of the appropriation heretofore made for that purpose by Act of Congress. Washington Station.—The work upon the terminal station has been steadily prosecuted during the year. A very large proportion of the steel work and masonry is in place, and the construction of the train shed and approaches and of the joint coach yard, round-house and shops is under way. Stock Holdings.—Our holdings of stock in the Baltimore & Ohio Rallroad Co. have increased by reason of the allotment made by that company at par during the year (and on Dec. 31 1906 included at par \$1,000,000 pre-ferred stock and \$1,048,700 common stock—Ed.) The South Chester RR. having been acquired, its stock no longer appears as an asset. Staking Fund for Debentures.—The sinking fund for the \$1,000,000 of 5 % debentures of June 1 1880 having reached such an amount that the principal and interest of that loan at the maturity thereof in 1910, further pay-ments into the fund have been discontinued. New Freight Cars.—Eight new cabin and 90 new gondola cars were built or purchased to replace cars destroyed, and 150 box and 102 gondola cars were acquired through the Pennsylvania steel freight car trust, to replace a like number of=oid low-capacity freight cars destroyed. Controlled Properties.—The Delaware RR, shows a substantial increase both in gross and net earnings, and after paying all fixed charges and d

The operation of the Columbia & Port Deposit Ry. was seriously inter-fered with until Aug. 1 1906 by the construction of the low-grade freight line of the Pennsylvania Railroad Co., but the Columbia & Port Deposit Co. has been properly compensated for the loss of traffic and revenue resulting

therefrom. The Baltimore Chesapeake & Atlantic Rallway Co. shows a considerable increase in gross earnings, and paid dividends aggregating 5% upon its preferred stock during the year out of surplus earnings. The Maryland Delaware & Virginia Railway Co. was unable to meet its fixed charges, and an advance of \$75,000 was made to it for that purpose by the Baltimore Chesapeake & Atlantic Railway Co., which is the guarantor upon its bonds, and owns a majority of its stock.

	and owns a majority of its stock.

#### United Railways & Electric Co. of Baltimore.

#### (Report for Fiscal Year ending Dec. 31 1906.)

President Wm. A. House, April 10 1907, says in substance: General Results.—The gross earnings have increased \$559,404, or 9.29%; operating expenses (after deducting extraordinary expenditures of \$929,762 for the year 1905) increased \$385,412, or 13.59%. The increase in fixed charges was \$135,520, or 6.08%. Decrease in amount carried to surplus for the year \$9,766. The increase in operating expenses was mainly due to increased car service and to advance in rates of wages; also in part to increased cost of materials and supplies. Fixed charges were increased by the interest on car trust certificates series "B" and "C," interest on the new funding bonds and increase in park and other taxes. The percentage of operating expenses to gross earnings was 48.93%, as compared with 47.05% in 1905. The average earnings per car mile were 25.30 cents, an increase of 1.60 cents, and the cost of service 12.37 cents, an increase of 1.22 cents. The number of car miles run was 26,035,327, an increase of 603,951 miles. The total number of revenue passengers carried was 133,785,601, an in-crease of 11,467.163. While the earnings show a gratifying increase, as compared with 1905, the unusually frequent and heavy rains, which occurred during the summer General Results .- The gross earnings have increased \$559,404, or 9.29 %;

While the earnings show a gratifying increase, as compared with 1905, the unusually frequent and heavy rains, which occurred during the summer of 1906, greatly interfered with excursion travel, the amount of precipita-tion during the three months—June 1 to Aug. 31—being 19.10 inches. *Financial Plan.*—The most important event of the year was the adoption of the financial plan (V. 83, p. 156). First—The funding of income coupons to and including the year 1910. At the time of writing this report the holders of \$13,584,000 out of a total of

First—The funding of income coupons to and including the year 1910. At the time of writing this report the holders of \$13,584,000 out of a total of \$13,940,000 of the bonds have accepted the plan. It is apparent that under the funding agreement the money becomes available for improvements only as earned. It has been deemed expedient, however, to press the plans for improvements, anticipating the company's income by incurring a floating debt and retiring it at convenient periods. Second—The Maryland Electric Rallways Co., the Maryland Electric Rallway Co. (chartered by friendly interests in the spring of 1906) and the Baltimore & Annapolis Short Line were consolidated on Aug. 7 1906 under the name of the Maryland Electric Rallways Co. The consolidated company authorized an issue of \$8,000,000 first mortgage 5% 25-year-gold bonds, the proceeds of which, when sold, are to be used only for the purpose of acquiring car houses, terminal stations, power houses, excursion resorts, cars, rolling stock, rallway extensions, tracks, rights of way, franchises and such other necessary buildings, structures or additions to our system as may be approved by the mortgage trustee. This property is leased to the United at an annual rental equal to 6% upon actual cost. The United further agrees to pay as rental, beginning in 1910, 1½% per annum on the amount of the outstanding bonds; also to purchase the property at maturity. of the bonds by paying an amount sufficient to retire them, and the money paid as a sinking fund, including increments, goes towards the burchase of rolling stock, the lease of which is limited to ten years. The bonds are redeemable at any interest period at 110 and accrued interest. These bonds proved an attractive investment, and \$4,000,000 of them were purchased by a syndicate, payments for the same, in blocks of \$1,000,-000, to be made not later than Oct. 1 1906, Feb. 1 1907, July 1 1907 and Jan. 1 1908 respectively. The remaining \$4,000,000 of bonds, authorized but unissued, will remain with the trustee

bonds.
Sale of Property.—Your company should have available by July 1 next from the sale of the Pratt St. site to the city \$309,737, and from the sale of property no longer adequate for our uses over \$300,000. These amounts, with the company's surplus, will be available for our purposes this year. Construction.—During the year 1906 no charges have been entered to capital account for cost of road, equipment and real estate, except in instances where the proceeds of bonds have been used to provide therefor. The amount so charged for new construction aggregated (net) \$80,437, representing extensions and discounts (\$16,000) on bond for construction. Large sums were expended in bettering the condition of roadway, track and power plants, and in view of the increase of gross receipts it was deemed expedient to continue as rapidly as possible the plans for improvement. Extraordinary Expenditure Fund.—In order to preserve an accurate record of the cost or rehabilitating the property, distinguishable from the cost of ordinary maintenance and repair under normal conditions of efficiency. The extraordinary expenditures for the year were \$1,436,693, the details of which (as reported by the expert accountant) are:

Track reconstruction, including cast-welding\_\_\_\_\_\_ Reconstruction of overhead lines, viaducts and bridges, improved \$592.035 122 802 bonding \_\_\_\_ bonding New, and reconstruction of old, car houses 104 New, and reconstruction of oid, car houses Harford Road Subway 34,394 Improvements to power plant (\$152,198); Harford Road sub-station (\$66,816) 219,014 -Payments on account of car trusts 209,360

#### Lanston Monotype Machine Co., Philadelphia.

(Report for Fiscal Year ending Feb. 28 1907.)

Pres. J. Maury Dove, Alexandria, Va., April 11 1907, writes: General Results.—Notwithstanding the strike in the book and job offices. throughout the country, which was declared Jan. 1 1906, more than a year ago, and the great increase in the cost of labor and material, the gross re-ceipts of the business and profits for the past year have exceeded those of the year previous and give fair promise of a much greater improvement during the present year. The gross business for the year was \$1,312,873, and the net profits (after depreciation) were \$514,733. Of this amount, \$314,733 were trading or regular business profits and \$200,000 were extraordinary profits derived from the sale of the modern Continental patents (patents not originally capitalized) to the English corporation. The total number of casting machines placed during the year just closed was 381, and the total number of keyboards placed was 571. A large num-ber of machines placed in this country was in plants that had previously installed Monotypes. Owing to the general stagnation of business in England duirng the year a smaller number of machines was sold to the English corporation than the previous year. Since Jan. 1 of the present year, however, business in England has improved and the demand for machines monthly. Improvements.—With our largely increased factory facilities we are prepared to meet the greater demand that will surely be made upon us this year for both machines and supplies. The demand for supplies for new and existing plants is a rapidly growing one. We have been compelled to take the entire building in which we are now located in order to meet our growing needs. Our factory to-day is one of the most complete and up-to-date of its kind in the country. Patents.—A great many important improvements were made during the year and will be protected by patents. A large number of new patents was also issued during the year. Pres. J. Maury Dove, Alexandria, Va., April 11 1907, writes:

Patents.—A great many important improvements were made during the year and will be protected by patents. A large number of new patents was also issued during the year. Every precaution is taken to properly

year and win be protected by patents. A large number of new patents was also issued during the year. Every precaution is taken to properly protect our patent interests. *New Contract.*—On Jan. 1 1907 we concluded a new contract with the English corporation, the former contract being canceled, for manufacturing its casting machines and keyboards covering a period of five years, thus reserving to our company the exclusive right for that period of manufac-turing every Monotype sold in the world. The sale of our modern European patents to the English corporation was consummated during the latter part of the year for the sum of \$240,000, to be paid for in eight years, \$30,000 per year, payments to be made quarterly, \$7,500 each. All of said payments are evidenced by 32 promis-sory notes of \$7,500 each, one maturing every three months until the number of 32 has been paid. Said notes are covered in our present linancial statement under the head of bills receivable. The sale disposes of a marketing our machines and gives, at the same time, to the English cor-poration double the market they had prior to acquiring these rights. Our company is also relieved of the payment annually of large and growing fees for taxes, maintenance, &c.

trade agreement for 1904 236.642 \$2,890.848 \$5,195,637 The figures for 1906 are estimated: they have not been audited and are subject to change, but are believed to be substantially correct. The above figures do not include the operations of the Leyland and National lines. In which the I. M. M. Co. has important holdings. These lines make separate reports to their stockholders, and show profits for the year 1905 in working the companies of £88,418 for the Leyland Line and £12,076 for the National Line, all of which was written off to depreciation The preliminary reports for 1906, which are partly estimated, show corre-sponding figures for that year of £136,910 for the Leyland Line and £16,877 for the National Line. V 84, p 934, 341.

## United Box Board & Paper Company.

(Balance Sheets of Feb. 23 1967.)

The circular issued under date of April 11 1907 by President Sidney Mitchell and Sceretary and Treasurer Hyatt Cox (compare V. 84, p. 876) contains the following balance sheets of Feb. 23 1907:

The official statement made to the New York Stock Exchange upon the listing of \$41,233,300 cumulative  $7C_{e}$  preferred stock and \$41,233,300 common stock says in substance:

ferred stock and \$41,233,300 common stock says in substance; Organization. Incorporated March 19 1901 under laws of New Jersey. Authorized capital stock, \$88,000,000, consisting of \$44,000,000 cumulative 7% preferred stock and \$44,000,000 common stock. Par of shares \$100. Itights of Preferred Stock. The certificate of incorporation provides dia substance): The preferred stock shall be entitled, in preference to the common stock, to cumulative dividends at the rate of 7% yearly from the time of the issue thereof, and whenever the preferred stock shall have re-ceived such dividends for all such time, or whenever all deficiency or arrears for all such time shall have been declared in dividends and funds set aslde the preferred stock at the rate aforesaid for such last dividend period, and shall have set apart funds for the payment thereof, then dividends on the preferred stock in any declared, payable out of any surplus or net profits then remaining. The preferred stock shall also have a preference over the common stock in any distribution of assets other than profits, until the full have been paid by dividends or distribution. The preferred stock shall not receive any dividends or distribution. The preferred stock shall not receive any dividend from profits in excess of 7 % per annum, nor any share

in distribution of assets in excess of said par value of the amount then unpaid of such cumulative dividends, but the common stock alone shall receive all further dividends and shares in distribution. The preferred and common stock have equal voting power, except that the property cannot be mortgaged without the assent of two-thirds of the preferred stock outstanding. The first dividend paid upon the preferred stock was  $2\frac{1}{2}$ % on Sept. 30 1903, since when dividends have been regularly paid at the rate of 5% per annum. On Dec. 31 1906 the unpaid cumulative dividend amounted to  $22\frac{1}{2}$ %.

2214 %. • Organized to acquire several of the leading factories in the United States engaged in the business of manufacturing tin cans and packages. These factories were acquired practically free from debt, and the properties of the company are to-day free from debt, except a mortgage of \$30,000, which is not due. The company operates 39 can factories. 2 detinning plants and 1 machine shop, located in Maine, Massachusetts, New York, Pennsylvania, Maryland, Virginia, Georgia, Louisiana, Ohio, Indiana, Michigan, Illinois, Iowa, Missouri, Minnesota, California, Oregon, Washington and Hawaiian Leands. Islands.

Iowa, Inissouri, Minnesota, Cantornia, Oregon, Washington and Hawalian Islands.
Factories of the American Can Co. (compare V. 72, p. 582; V. 76, p. 969).
Factories Owned.—Atlanta, Ga.; Chicago, Ill.; Cleveland, Ohio: Daven; port, Iowa; Detroit, Mich.; "Empire," Geneva, N. Y.; Fairhaven, Wash.; "Fisher," Hamilton, Ohio; "Garrison," Newark, N. J.; "Hasker & Marcuse," Richmond, Va.; "Ilsley," Brooklyn, N. Y.; Indianapolls, Ind.; (detinning plant), Jollet, Ill.; Lubec, Mc.; "Manhattan," New York, N.Y.; "Maryland," Baltimore, Md.; Maywood, Ill.; machine shop, Maywood, Ill.; "Miller," Baltimore, Md.; New Orleans, La.; New Castle, Pa.; "Pacific," San Francisco, Cal.; (detinning), Paulsboro, N. (compare V. 81, p. 669; V. 82, p. 162). *Factories Leased.*—Boston, Mass.; "California," San Francisco, Cal.; Cambridge, Md.; "Honolulu," Hawalian Islands; "Horne & Danz," St. Paul, Minn.; "Hinois," Chicago, Ill.; Kansas City, Mo.; North Lubee, Mc.; Philadelphia, Pa.; "Wagner," East Brooklyn, Md.; "Woodcock," Chicago, Ill.;

Me.; Philade Chicago, Ill.

Me.; Philadelphia, Pa.; "Wagner," East Brooklyn, Md.; "Woodcock," Chicago, Ill. The company's factories are fully insured, many of them supplied with sprinkler equ'**pmen**, and others are being supplied with sprinkler equipment as rapidly as **possible**. Principal products: Fruit and vegetable cans, meat and fish cans of all descriptions, lard pails of all kinds, cans for paints, varnishes, oils and similar products, coffee and spice cans, baking powder cans, &c., syrup and molasses cans, wax top cans for domestic packing, the cans with wooden jackets for holding oils and bulky liquids, pieced and stamped tinware and galvanized ware, lithographed and decorated tin boxes and packages used for the packing of druggists' sundries, talcum powder boxes, tooth powder boxes, tobacco boxes and similar products. Various cans and packages made from black sheet steel, such as lye cans, powder kegs, &c. There are, in addition, many specialites and other packages, amounting in the aggregate to a very considerable business. The company preserves all the tin scrap and clippings used in the manufacture of its goods, and collects them at two detinning plants, one at Paulsboro, N. J., and the other at Joliet, Ill., where the tin scrap is treated by an electro-chemical process, whereby the tin is recovered and the resulting black steel scrap is made saleable to steel works. The machinery used by the company is in many cases automatic, intricate and of a special nature, rendering it desirable that the company manufacture

made saleable to steel works. The machinery used by the company is in many cases automatic, intricate and of a special nature, rendering it desirable that the company manufacture and control its own special lines of machinery. This company, therefore, operates a large machine shop at Maywood, Ill., employing steadily from 250 to 300 men in the manufacture and repair of its machinery. The knowledge of such special machinery is therefore confined to the company's experts

[The statements of earnings and balance sheets furnished to the Exchange are those already published in the "Chronicle" from the company's annual reports.] See V. 84, p. 337; V. 82, p. 332; V. 80, p. 1730; V. 84, p. 510.]

### GENERAL INVESTMENT NEWS.

#### RAILROADS, INCLUDING STREET ROADS.

Berkshire (Mass.) Street Ry.-New Stock.-The Massachusetts Railroad Commission has authorized this company, a subsidiary of the New York New Haven & Hartford RR. to issue \$250,000 additional capital stock, to be offered stockholders at \$100 per share, the proceeds to be used for paying floating debt and the purchase of property.-V. 82, p. 691.

**Boston & Northern Street Ry.**—New Trustee.—The directors have approved the substitution of the American Trust Co. of Boston, as trustee, in place of the Adams Trust Co., under the \$15,000,000 refunding mortgage of 1904, subject to the approval of the appointment by the Massa-chusetts Railroad Commission.---V. 82, p. 1155.

Buffalo Rochester & Pittsburgh Ry.-Bond Issue Approved .- The shareholders on April 25 duly ratified the proposition to make a consolidated mortgage for \$35,000,000, the immediate issue to be \$3,000,000. Compare V. 84, p. 867, 930

Calumet Electric Street Ry., Chicago.-New Officers.-The following officers and directors were recently elected:

President, Ira M. Cobe: Vice-President, J. W. McKinnon: Secretary and Treasurer, Frank H. Murray. Directors: L. E. Meyers, B. F. Harris, G. E. Shaw, J. W. McKinnon, Ira M. Cobe. - V. 83, p. 93.

Chicago & Oak Park Elevated Ry.-New Trustee.-See Lake Street Elevated RR. below.-V. 84, p. 569, 218. Chicago & Southern Traction Co.-New Securities-New

Chicago & Southern Traction Co.—New Securities—New Control.—The "Chicago Economist" of April 20 said: President W. S. Reed announces that the company has increased it capital stock from \$2,000,000 to \$5,000,000 and the bonded debt from \$2,000,000 to \$5,000,000. Mr. Reed has sold a controlling interest in the property to a Detroit syndicate made up of the following capitalists: C. J. Reilly, C. A. Black, Matthew Slush and J. M. Mulkley, President of the Detroit Sait Co. With the increased stock and bonds, it is the intention to extend from the present main line to various points outside the southern limits of this city, and also to extend the line to La Fayette, Ind., connecting there with the Ohio and Indiana lines. The road will be in complete oper-ation as far as Kankakee within the next six weeks.—V. 82, p. 217.

Chicago Southern Ry .- Financial Plan .- Copies of the subscription agreement of the underwriting syndicate formed to complete the Walsh roads, together with the estimates for the complete the walsh loads, together with the estimates for the completion of the Chicago Southern Ry., were made public on April 20. The syndicate managers are John R. Walsh, John N. Faithorn, of the Chicago Terminal & Transfer RR. and Orville E. Babcock. The syndicate, as was stated by the Clearing House Committee several days ago (V. 84, p. 930), is organized to raise \$2,500,000 to com-plete the road and \$1,000,000 of underwriting is offered at this time.

The subscribers will receive for this \$2,500,000 the following securities:

- \$1,500,000 par value of the 5 % first mortgage bonds of the Chicago Southern,
- \$1,500,000 par value of the 3% first mortgage bonds of the Chicago Southern, dated July 1.
  \$1,000,000 par value of 6% 10-year debentures of the same rallway.
  \$1,000,000 par value of 4% preferred stock of the Southern Indiana Rallway.
  \$2,500,000 par value of the \$10,000,000 of common stock of the Southern Indiana Rallway, \$1,000,000 par value of the \$10,000,000 of common stock of the Southern Indiana Rallway.
  \$2,500,000 par value of the \$10,000,000 of common stock of the Southern Indiana Rallway.
  \$2,500,000 par value of the \$10,000,000 of common stock of the Southern Indiana Rallway.
  \$2,500,000 par value of the \$10,000,000 of common stock of the Southern Indiana Rallway.
  \$2,500,000 par value of the \$10,000,000 of common stock of the Southern Indiana Rallway.
  \$2,500,000 par value of the \$10,000,000 of common stock of the Southern Indiana Rallway.
  \$2,500,000 par value of the \$10,000,000 of common stock of the Southern Indiana Rallway.
  \$2,500,000 par value of the \$10,000,000 of these 5% coupon notes of the Chicago Southern Ry. They are due July 1 1907 and are guaranteed by the Southern Indiana Ry. See V. 81, p. 613 725.)
  \$2,500,000 par value of the \$10,000,000 par value of the Chicago Southern Indiana Ry.

The "Chicago Inter-Ocean" of April 21 said:

The Chicago Inter-Ocean of April 21 said: Of these securities, the stocks are the property of Mr. Walsh, but have been put up as part of the collateral for the \$4,000,000 of 2-year collateral trust notes of the Chicago Southern, due July 1 1907, which will be refunded at that time by \$4,000,000 of that company's 5s. This will release the stocks. The 5% issue totals \$5,500,000, and the remaining \$1,500,000 is the security which is to be turned over to the syndicate. The debentures will be issued at the same time. Of the subscription, Mr. Walsh and the former directors of his three defunct banks—the Chicago National. Home Savings and Equitable Trust Co.—have taken the bulk of \$1,500,000, while of the \$1,000,000 on the market the Clearing-House committee which had charge of the Walsh banks has agreed to take \$250,000 Most of the remainder also is said to have been subscribed. The statements which accompany the offer of the syndicate declare that

been subscribed. The statements which accompany the offer of the syndicate declare that it will require \$922,450 to complete the Chicago Southern. Of the \$2,500,-000 to be raised it is planned to put aside \$1,500,000 to complete the con-struction of the road and \$1,000,000 to pay off its floating indebtedness and for interest and discounts.—V. \$4, p. 930.

Chicago Union Traction Co..-Deposits Asked.-A committe ecomposed of Frederick H. Rawson, William N. Eisendrath, Wallace Heckman, Edmund D. Hulbert, Azariah T. Galt, R. Floyd Clinch, George E. Adams, Charles L. Ray-mond, R. W. Hosmer, Charles W. Leland and George E. Marcy, on April 24 called for deposits of stocks of the North and Chicago street railroads with the Chicago Title & Trust Co., under the terms of the recent ordinance.

Mueller Certificate Decision.—See editorial on a preceding page.-V. 84, p. 930, 803.

Cleveland Electric Ry.-Lines Abandoned.-The company on Tuesday ceased to operate the lines on Central and Quincy avenues and began to tear up the tracks, but was prevented by the police. A temporary injunction was ob-tained from Judge Ford prohibiting the Forest City Ry. from operating the lines. In order to avoid the injunction, the Municipal Traction Co. on April 23, it is reported, transferred its lease of the Forest City Railway Co. to the Low Fare Co., but operation of the lines has not yet been resumed. Compare V. 84, p. 930, 867.

Cleveland Southwestern & Columbus Ry. — Mortgage Filed. -This company has filed to the Cleveland Trust Co., as trustee, its new mortgage securing \$10,000,000 of 5% 20year bonds (subject to call after ten years), issued per plan under "Cleveland & Southwestern Traction Co." in V. 83, p. 1590.-V. 84, p. 748, 569.

Columbus (O.) Railway & Light Co.—New Director.— David E. Putnam, Vicé-President of the Commercial National Columbus, has been elected a director to succeed Bank of Charles H. Lindenberg, who resigned.-V. 84, p. 338.

Chattanooga Southern RR.—Receivership.—Judge Pardee in the United States Court at Atlanta on April 23 appointed W. W. Kent and E. C. Osborne as receivers for this road on application of the Pacific Construction Co. of California. The receivership, it is understood, is occasioned by the failure of the minority stockholders to accept in sufficient numbers the proposition made by the Louisville & Nashville RR. Compare V. 84, p. 748.

**Chesapeake & Ohio Ry.**—Bonds Offered.—Moffat & White, 5 Nassau Street, and Procter & Borden, Equitable Bldg., New York City, are offering at 90 and interest, yielding 4.55% to the investor, \$600,000 Potts Creek branch 1st mortgage gold 4% bonds, dated July 1 1906 and due July 1 1946; interest payable Jan. 1 and July 1. Authorized issue limited to \$1,000,000; outstanding, \$600,000. Trustee. Central Trust Co. of New York. A circular says:

The above bonds are a direct obligation of the Chesapeake & Ohio Rall-The above bonds are a direct obligation of the Chesapeake & Ohio Rall-way Co., secured by first mortgage on its Potts Creek Branch at a rate not to exceed \$25,000 per mile. The unissued bonds are held for additional mileage on this line at the above rate per mile of completed road, not including spurs and second track. The company has built this line, ex-tending from Covington, Va., southwest for a distance of about 25 miles, for the purpose of reaching an extensive iron ore region containing ore said to be the highest grade found in Virginia. The road is well located, and has no grades of consequence in the direction of the movement of iron ore and heavy traffic, and it is expected that it will be in full operation by July 1 1907. Ore contracted for by one iron company alone will probably suffice, at prevailing freight rates, to provide sufficient earnings to meet the suffice, at prevailing freight rates, to provide sufficient earnings to meet the fixed charges on the bonds outstanding. -V. 84, p. 626, 270.

Consolidated Ry.-Merger with N. Y. N. H. & H. RR.-See New England Investment & Security Co. below.-V. 84, p. 507, 102.

Dayton Lebanon & Cincinnati RR.-Sold.-At Dayton. O., on April 16 this trolley and steam road extending from Dayton to Lebanon, 35 miles of track, was bid in at foreclos-ure sale by J. F. Morley for E. G. Tillotson, Vice-President and Manager of the Cleveland Trust Co. and Chairman of the bondholders' committee, for \$200,000, including \$194,000 for the real estate and \$6,000 for the personal property. The bondholders, it is said, will re-finance the property and complete the road 4 miles from Lebanon Junction to Dayton. –V. 81, p. 1436:

Duquoin Belleville & St. Louis Electric Ry.-Mortgage.-This company, originally incorporated as the Duquoin Rapid Transit Co., has made a mortgage to the Carnegie Trust Co., of New York, as trustee, to secure an issue of \$2,000,000 20-year 5% gold bonds, dated Feb. 1 1907 and due Feb. 1 1927, without option of earlier redemption; denominations \$500 and \$1,000; interest payable Feb. 1 and Aug. 1.

The company, It is said, has a franchise covering 85 miles of road, com-mencing at Zeigler, in Franklin County, and terminating at Belleville, passing through Benton, Duquoin and Pinckneyville. The officers are: W. R. Hayes of Duquoin, President: D. R. Archer, Vice-President: T. J. Howell, Secretary, and H. E. Ross. Treasurer.

RASER

Equipment Trusts.-Record in the Past.-See circular under Mobile & Ohio RR. below and compare editorials in V. 81, p. 1760; V. 82, p. 361, 839, 873, 1296.

Great Northern Ry.-Interest on Subscriptions.-The company, referring to the interest at 5% per annum allowed by it on all installments paid to May 1 1908 on account of the \$60,000,000 new stock, gives notice' that, owing to the small amount of interest accruing between April 9, when the first installments were payable on subscriptions under the terms of the amended circular (V. 84, p. 803), and May 1, when interest was payable according to the original circular of Dec. 11 last (V. 83, p. 1469), payment of interest accrued May 1 will be deferred to Nov. 1 1907, when it will be paid, together with the interest accruing from May 1 1907 to Nov. 1 1907.-V. 84, p. 803, 749.

Illinois Iowa & Minnesota RR.—Meeting Adjourned.— The meeting to authorize the consolidation with other lines under the name of the Milwaukee Rockford & Gary Ry., which was to have taken place on April 25, was, it is reported, adjourned for 30 days. Compare V. 84, p. 508.

Lake Shore & Michigan Southern Ry.—Debenture Syndi-cate Dissolved.—The syndicate headed by J. P. Morgan & Co., which underwrote the \$35,000,000 25-year 4% debenture bonds issued in February 1906 (V. 82, p. 392) will be dissolved on May 1. The "Wall Street Summary" says:

Participants in the syndicate purchased the bonds at the time at  $98\frac{1}{2}$ and interest. The bonds were a part of a \$50,000,000 authorized issue. It is understood that the syndicate disposed of only a small part of the bonds, and the balance will be turned over to the underwriters on the date mentioned.—V. 84, p. 753, 744.

Lake Street Elevated RR., Chicago.-Resignation of Mortgage Trustee.-The Equitable Trust Co. of Chicago, as successor June 24 1898 to the Farmers' Loan & Trust Co., as trustee under the mortgage of April 7 1893, gives notice by advertisement of its resignation from the trusteeship, to take effect July 1 1907 or earlier if a new trustee shall be appointed. -V. 78, p. 1549.

Lewiston Brunswick & Bath Street Ry.-Sale.-See Lewiston Augusta & Waterville Ry. above.-V. 84, p. 390.

Missouri Pacific Ry.—Equipment Securities Offered.—The equipment bonds and certificates which were described in the "Chronicle" last week (p. 931) have mostly been placed. Tailer & Co., 27 Pine St., are offering the unsold maturities, amounting to about \$500,000, by advertisement on another page of this issue, at prices to yield the investor about 51/2%. Compare V. 84, p. 931.

Mobile & Ohio RR.—Offering of 5% Equipment Notes Guar-anteed by American Car & Foundry Co.—The Mississippi Valley Trust Co. and Francis Bros. & Co., both of St. Louis, are offering, at prices to yield the investor  $5\frac{3}{4}\%$  interest, \$1,291,000 5% equipment notes, dated Oct. 1 1907, maturing serially until Oct. 1 1914. Denomination \$1,000. Coupon notes. Interest payable semi-annually April 1 and Oct. 1. Principal and interest payable, at option of holder, at office of the trustee, the Mississippi Valley Trust Co., St. Louis, or at the Guaranty Trust Co., New York City. The American Car & Foundry Co. guarantees the payment of these notes. (See advertisement on another page).

The above issue of notes will be ready for delivery on or about Oct. 1 next, and pending delivery of the definitive notes temporary certificates of the Mississippi Valley Trust Co. will be issued, exchangeable for notes on and after Oct. 1 1907. The issue will mature in semi-annual installments as follows: April 1 1908 to Oct. 1 1909, \$94,000; April and Oct. 1 1910, \$93,000; April 1911 to April 1912, \$92,000. Oct. 1912 to Oct. 1913, \$91,000; April and Oct. 1914, \$90,-000. A circular says in substance:

• These notes are a direct obligation of the Mobile & Ohio RR., secured by a first lien upon the cars purchased from the American Car & Foundry Co., viz.: 1,000 thirty-ton box cars and 750 forty-ton gondola cars, for which payment will be made 15% in cash and the remainder in the above notes. The American Car & Foundry Co. will guarantee the payment of these notes, and said guaranty will be deposited with the trustee for the note-holders.

these notes, and said guaranty will be deposited with the trustee for the note-holders We especially invite the attention of investors to the superiority of ear trust obligations as a security due mainly to the fact that they are secured on the rolling stock, which is a necessity for the operation of the road, and therefore are generally recognized as an obligation that has to be provided for under any conditions, as evidenced by the fact that there are at the present time the following roads in the hands of receivers. Cincinnati Hamilton & Dayton Rallway Co., Pittsburgh Shawmut & Northern Rall-road Co. and Pere Marquette Rallroad Co., all of which have oustanding equipment obligations which are being provided for, both principal and interest, according to their tenor. The following rallroad companies re-organized between 1888 and 1905, either with or without foreclosure pro-ceedings, all had outstanding equipment obligations, which in every case were provided for promptily, both principal and interest, although all other securities, with few exceptions, were reduced in rate or amount: Atchison Topeka & Santa Fe RR., Baltimore & Ohio RR., Central Rallroad & Bank-Ing Co. of Georgia, Chesapeake & Ohio RR., Columbus Hocking Valley & Toledo Ry. (now Hocking Valley RR.), Kansas City Pittsburgh & Guilf RR. (now Kansas City Southern Ry.), New York Lake Erie & Western RR. (now Kansas City Southern Ry.), New York Lake Erie & Western Richmond & Danville RR. and Georgia Pachic RY. (now Southern Ry.), Savannah Americus & Montgomery Ry. (now part of Seaboard Air Line), Toledo St. Louis & Kansas City RR. Co. (now Toledo St. Louis & Western RR.), Union Pacific RY. The following rallroads, after foreclosure, either paid their equipment obligations in full, or offered the holders an advan-tageous exchange of securities, which amounted to more than payment in full: Denver & Rio Grande Ry., Norfolk & Western Ry.-V. 84, p. 52. New England Investment & Security Co.-Stock Offered.-Mackay & Co., Boston and New York, are offering at 921/2 and accrued dividends, yielding the investor 4.32%, a limited amount of the present outstanding \$10,000,000 4% preferred stock (tax exempt in Massachusetts), about \$7,000,000 of which, it is said, has already been placed with the public.

merged into the N. Y. N. H. & H. RR, a meeting for that purpose to be held May 31.

Assets.-See President Mellen's letter of Oct. 16 1906 under "Worcester Railways & Investment Co." in V. 83, p. 1100. (The company's holdings of Worcester Railway & Investment Co. stock has since been increased from 36,971 shares to, it is said, about 64,000 shares, out of a total of 71.898 shares.—Ed.)—V. 84, p. 570.

National RR. of Mexico.-Listed.-The New York Stock Exchange has listed \$42,600 additional 5% non-cumulative preferred stock, making the total listed to date \$22,031,600, with \$201,700 further additional to be added from time to time prior to Nov. 1 1907, making the total authorized to be listed \$22,233,300.

New Orleans Railway & Light Co.-Debentures Offered.-The Inter-State Trust & Banking Co. of New Orleans, the trustee for the issue, is offering for sale \$500,000 of this company's new \$5,000,000 5-year 6% gold debenture notes, dated May 1 1907 and due May 1 1912, but subject to call from May 1 1908 to May 1 1910 at 103, and on May 1 1910 and any interest day thereafter at 101; denomination \$1,000; interest payable Nov. 1 and May 1. The proceeds are to be used in the business of the company and for no other purpose. So long as the debenture notes remain unpaid, no new mortgage or lien of any kind shall be placed upon the property.-V. 84, p. 868, 339.

New Orleans Terminal Co.—Offering of Guaranteed Notes. Potter, Choate & Prentice, New York, having sold about three-quarters of the issue of \$2,500,000 2-year 6% gold notes, dated April 10 1907 and due April 10 1909, are offering the remainder at par and interest. The Trust Co. of America, New York, is the trustee for the loan, and the notes are guaranteed, jointly and severally as to principal and interest, by endorsement on each, by the Southern Railway Co. and the St. Louis & San Francisco RR., as well as secured by a deposit with the trustee of \$4,000,000 New Orleans Terminal Co. first mortgage 4% bonds. See advertisement on another page of this issue.

Abstract of Letter from President C. C. Harvey, New Orleans, April 12 1997

advertisement on another page of this issue. Abstract of Letter from President C. C. Harvey, New Orleans, April 12 1907 In New Orleans the company owns 49 consecutive blocks in the heart of the city, lying between Bernadotte St., Basin St., Blenville Av., St. Louis St. and Canal Carondelet. with the right to lay tracks through Basin not be surpassed in the city. There have already been constructed the following modern first-class buildings: One three-story brick freight office building, seven freight brick sheds, drip sheds, stock pens, round house, repair shop, stables, warehouses and other buildings for handling freight. The main line of track extends from Shrewsbury to Port Chalmette, a distance of 14.2 miles, making a connection at Shrewsbury with the lillinois Central RR., the Yazoo & Mississippi Valley RR. and the Louisville & Nashville RR., at Terminal Junction with the New Orleans & Northeastern RR. and the New Orleans-Great Northern RR., and at Port Chalmette with the Louislana Southern Ry.; a branch line from the East City switch extends to Canal St., 3.9 miles. The whole line, including double track; sldings and connecting tracks, aggregates 63.4 miles. Of the main line 60-lb. rails. The main line is ballasted with \$5-lb. rails, the balance with the exception of five miles, which is surfaced on river sand. There is in course of construction (now about 65 % completed) the Chal-mette Slip, which will afford anchorage for nine average occan steamers. The river frontage of the company at Chalmette extends along the east bank of the Mississippi River, about 2½ miles. The property runs back a considerable distance and consists of about 5,500 acres, much of which is admirably adapted for the location of Industries. At the present time there is in operation at Port Chalmette awharf 2,000 feet long, with a shed 1,828 feet long; one 500,000 bushel capacity grain elevator with electrical power house, besides 80 brick warehouses and an assorting shed. The rolling stock consists of 7

rolling stock consists of: 7 Mogul engines, 8 6-wheel switch engines, 69 flat cars, 3 box cars, 1 oil tank and 5 coaches.
Double-track steel bascule lifting bridges have been constructed over the new Basin Canal and Bayou St. John, and there are steel bridges over all other drainage canals with the exception of the 17th St. canal, where there is a wooden trestle. It is proposed to crect at once on Basin St., fronting on Canal St., a handsome passenger depot 82 feet wide and extending back 235 feet, with a train shed 700 feet long and 82 feet wide. The first floor will be used for public utilities and the second for our general offices. The proceeds of the \$2,500,000 2-year 6% notes sold to you are to be used for the Chalmette Silp, and the other improvements now in course of construction.—V. 84, p. 931.
Naw Vork Naw Haven & Hartford DD Acadimeter in the second to the second to the second to course the second to construct to the second to be the second to be the construction.—V. 84, p. 931.

The preferred dividends are guaranteed by the Consolidated Rallway Co., which owns the entire 100,000 shares of common stock (no par value) and further protected by a three-party agreement between the New Fngland Investment & Security Co., the Consolidated Rallway Co. and the New York New Haven & Hartford RR. Compare V. 83, p. 492, 1102, 1474. The Consolidated Rallway Co., it is understood, will shortly be

zed for FRASER

New York New Haven & Hartford RR.-Application to List .- Application has been made to the New York Stock Exchange to list \$3,254,500 additional capital stock, making the total amount to be issued and authorized to be listed under this and previous applications \$99,069,000; also \$13,911,000 Providence Securities Co. 4% 50-year guaranteed gold debentures of 1917.

Valuation of System.—John F. Stevens, who recently re-signed as Chief Engineer of the Panama Canal Co., will, it was announced on Monday, "supervise some special work for the company." This is supposed to be the placing of a

valuation on the property. Shares Offered-Merger of Consol. Ry. Co.—See New Eng-land Investment & Security Co. above.—V. 84, p. 931, 804.

North-East Texas Ry.-Receivership.-Joint Receiver W. J. Moroney, under date of Dallas, Tex., April 18, has addressed a letter to the creditors of this road, which extends

from Redwater to Munz, Tex., 181/2 miles, and also to the creditors of the Redwater Lumber Co., saying in part:

creditors of the Redwater Lumber Co., saying in part: On April 13 1907 Harry Munz of Texarkana, Tex., and myself were ap-pointed co-receivers of the above-named companies by Hon. E. B. Muse, Judge of the Forty-fourth Judicial District Court of Dallas County, Tex. Both these companies are owned by the same stockholders, and together constitute one plant, and for practical purposes they may be considered one company. The principal assets are a saw and planing-mill plant, railroad, standing timber, logging outfit and a large amount of valuable lands, aggregating \$515,311, according to a conservative appraisement re-cently made by experienced and disinterested experts. This does not in-clude notes, accounts and sundry other items of uccertain value. I am advised that the liabilities will not exceed \$150,000, of which more than half is secured by sundry mortgages. A receivership became necessary mainly because a recent fire so damaged the company's sawmill that opera-tions were suspended and all income ceased. I have assurances from men of known responsibility that they are willing to purchase a sufficient in-terest to pay all debts as soon as the exact condition of affairs can be cer-tainly ascertained and other necessary details arranged.

North Chicago Street RR.—Deposits.—See Chicago Union Traction Co. above.-V. 83, p. 1524.

Ocilla & Valdosta RR.—Sale.—This road, extending from Ocilla, Ga., to Broxton, 25 miles, and under construction to Fitzgerald, has been purchased by a syndicate represented by H. C. McFadden. "Savannah News" of April 17 said:

The new management took charge Monday, and will operate temporarily, until a new charter can be secured, under the old charter of the Broxton Hazlehurst & Savannah RR. The use of the present charter will be im-practicable because the section of the road from Broxton to Hazlehurst was sold recently to the Georgia & Florida Ry.

Philadelphia & Western (Electric) RR.-Foreclosure Sale May 20.-The Trust Company of North America, Philadelphia, which was recently appointed trustee of the \$15,000,000 bond issue in place of the Mississippi Valley Trust Co. of St. Louis, gives notice that the property will be sold at auction at West Chester, Pa., on May 20. Every share of stock and every bond is in the possession of the syndicate, headed by Mackay & Co. and Wm. C. Sheldon & Co. of New York. The foreclosure proceedings are merely a matter of form, with a view to the readjustment of the capitalization. The St. Louis interests, it is understood, have sold most of their holdings. The financial plan has not been definitely settled, but Joseph S. Clark, Second Vice-President and General Counsel for the Trust Company of North America, is quoted by the "Philadelphia Ledger" as follows:

Of the authorized issue of \$15,000,000 first mortgage bonds \$2,149,000 worth are outstanding (in the hands of the syndicate.—Ed.). Besides this, there are debts of \$1,500,000. The company is capitalized at \$900,000. This will be increased to between \$3,000,000 and \$4,000,000. About the same amount of the proposed authorized issue of \$50,000,000 bonds will be actually issued.

The company was incorporated in 1902 to construct a double-track third-rail electric line between 63d and Market streets, Philadelphia, and Parkersburg, Pa., a distance of about 45 miles. About 12 miles of double-tracked road will be opened early in May and the syndicate intends to push the completion of the system, which will probably be more extensive than was originally intended.—V. 82, p. 693.

Portland (Ore.) Railway & Light Co.-Mortgage.-This company has filed a mortgage to the Trust Co. of North America, Philadelphia, as trustee, to secure an issue of \$15,000,000 general mortgage bonds, of which it is proposed to issue only \$1,500,000 at present, these to be used as collateral to secure an issue of \$1,000,000 3-year 5% notes of \$1,000 each dated March 1, 1907.-V. 84, p. 749, 627.

Providence Securities Co.-Application to List .- See New York New Haven & Hartford RR. above.-V. 83, p. 1525.

**Raleigh & Southwestern Ry.**—Mortgage.—A mortgage has been filed to secure \$1,500,000 of 4% bonds to provide for the building of a road from a connection with the Piney branch of the Chesapeake & Ohio at or near Raleigh Station up the Piney River and tributaries, thence down any tributaries of the Guyandotte River in Raleigh or Wyoming counties; also from near Raleigh Station up Beavers Creek, thence into the valley of Glade Creek or any of its tributaries. The project is currently reported to be a Chesapeake & Ohio enterprise.

Rapid Transit in New York City .- No Bids Received for New Subways .- No bids were received by the Rapid Transit Commissioner on April 25, the time appointed for the opening of bids for the construction of the new subways. Compare V. 84, p. 869. President Shonts, of the Interborough Rapid Transit Co., however, wrote a letter offering to construct and equip at cost under proper conditions two extensions of the present system, one on the west side from Forty-second Street to the Battery, and the other on the east side from Forty-second Street to the Bronx, provided a reasonable return on the company's investment is ensured. See "New York Times" of April 26.-V. 84, p. 869. Rio de Janeiro Tramway, Light & Power Co.—No Light-ing and Power Competition.—The "Chronicle" recently published a statement, furnished to it by a prominent manufacturing concern, as holder of a contract for furnishing supplies, from which it appeared that a rival concern had been granted a concession for supplying light and power in the City of Rio de Janeiro, the false impression being no doubt occasioned by the confounding of the State of Rio outside of the Federal District, which includes the City of Rio de Janeiro, with the City of Rio de Janeiro itself. General Counsel of the company, Z. A. Lash, has issued the following detailed denial:

in Rio de Janeiro, on being applied to, confirmed the above statement. Gaffre has been granted a franchise by the State of Rio de Janeiro for some water-power development, but this franchise does not apply to the Federa district and has no connection with the city of Rio de Janeiro any more than a New York State franchise for Buffalo would apply to New York City. The Rio de Janeiro Tramway, Light & Power Co. has the absolute monopoly for lighting, which was confirmed by the Supreme Court a year ago. It also has the monopoly for the transmission and distribution in the city of Rio of electric power, generated by water power, until 1915. This has never been questioned.—V. 84, p. 932, 804.

Sao Paulo Tramway, Light & Power Co.-Report.-Results for calendar year and 3 months ending March 31:

Year.	Gross.	Net.	Charges.	Divs. (8 %)	
1906	\$2.018.704	\$1.368.163	\$359,882	\$599,970	\$408,311

3 mos.		· .	· · ·		
1907	\$479,797	\$158,125			
1906		86,605			
-V. 83, p. 1412.					

St. Charles & St. Louis County Bridge Co.-Foreclosure Suit .- At Clayton, Mo., on April 17 the Commonwealth Trust Co. of St. Louis, as trustee, under the \$400,000 mortgage of 1904, brought suit for foreclosure and the appointment of a receiver upon request of holders of \$160,000 of the bonds, no interest having been paid thereon.

The bridge is a highway and trolley structure, 2,700 feet in length, ex-tending from St. Louis to St. Charles, having been built primarily to bring the St. Louis St. Charles & Western (electric) RR. across the Missouri River. The Midland Bridge Co. of Kansas City, Mo., which constructed the bridge and which secured a judgment and mechanics' lien against it for nearly \$18,000, is made a defendant.—V. 78, p. 703; V. 75, p. 78.

Southern Indiana Ry .- Financial Plan .- See Chicago Southern Ry. above.-V. 84, p. 932.

Terre Haute Indianapolis & Eastern Traction Co.-Bond Issue .- A mortgage has been filed to the Fidelity Trust Co. of Philadelphia, trustee, to secure, it is said, an issue of \$10,000,000 25-year bonds dated April 1 1907.—V.84, p.869.

Toledo Railway & Terminal Co.-Foreclosure Sale May 28. Notice is given by advertisement that the foreclosure sale will take place in Toledo on May 28. Upset price \$2,000,000. -V. 84, p. 932, 627.

Trinity & Brazos Valley Ry.—Bonds.—Application was made on April 13 to the Texas Railroad Commission for authority to issue bonds to the amount of \$1,500,000 on 14 miles of completed road into Waxahachie, and including improvements not heretofore valued by the Commission on the remainder of the company's lines south into Houston. The "Houston Post" said:

This will complete the line of that road from Waxahachle to Houston, a distance of 220 miles. The company has already completed the line from Teague to Fort Worth, using the Santa Fe tracks from Cleburne to Fort Worth, 120 miles. They will also use the tracks of the Katy from Waxa-hachle and Dallas and will be operating trains between these points on or about June 1 1907.

This company has shortened the distance 13 miles between Houston and Fort Worth, and has caused the fare on other roads to be correspondingly reduced, and has shortened the mileage in various points in North Texas. V. 84, p. 509.

Virginian Ry.-Merger Approved.-See Deepwater Ry. above.-V. 84, p. 694, 627.

Wabash RR.-Listed.-The New York Stock Exchange has listed \$368,000 additional first lien 50-year 4% terminal coupon bonds due 1954, making the total listed \$3,923,000.

Washington Baltimore & Annapolis Electric Ry.-Contract .- See report of United Railways & Electric Co. under "Annual Reports" on a preceding page.-V. 83, p. 1525.

West Chicago Street RR.-Deposits Called For.-See Chicago Union Traction Co.-V. 83, p. 1349.

West Penn Railways .- Earnings .- The Municipal & Corporation Securities Co. of Pittsburgh, in recently offering a block of the first mortgage 5% bonds of 1905, reported earn-Cal. Yr. — Gross. Net. Bond Int. Pref. Div. Bal., Sur. 1906\_\_\_\_\_\$1,409,493 \$635,517 \$378,322 (5%)\$137,500 \$119,695 1005\_\_\_\_\_1,060,238 480,480 326,675 153,000 \$153,000 \$153,000

The report that Gaffre and Guinle had obtained a concession for lighting and power in the city of Rio de Janeiro is absolutely false. This report was officially denied in London and Paris after receipt of a cable from the Vice-President and General Manager of the company in Rio de Janeiro. This table stated that Gaffre and Guinle have not obtained any concession in the Federal district. The Minister of Industries, Traffics and Public Works

ERASER

## INDUSTRIAL, GAS AND MISCELLANEOUS.

Albemarle & Chesapeake Canal Co.-Possible Purchase by United States Government.—The Congress which recently adjourned passed a "river and harbor bill" in which recognition is given to the project for the establishment of a public inland waterway between Virginia and North Carolina. The "Scientific American" of April 13 says in part:

The "Scientific American" of April 13 says in part: The reports of the engineers making the surveys authorized by the Acts of 1902 and 1905 considered carefully all available routes, and decided that two were so nearly equal in advantages and disadvantages that the monetary consideration alone should form the deciding factor. These two routes are known as the Albemarle & Chesapeake Canal and the Cooper-Creek routes, respectively, the former contemplating the purchase of the Albemarle & Chesapeake Canal, which connects Chesapeake Bay via Eliza-beth River with Currituck Sound: and the latter neglecting the purchase of that canal and digging a new one from Elizabeth River to Cooper Creek, a branch of the Pasquotank River which is an arm of Albemarle Sound. With the purchase price of the already existing Albemarle & Chesapeake canal at a figure not exceeding \$500,000, the former is recommended. If the price asked is higher, the latter route is recommended. While no expression of opinion which is in any way official can be obtained from the canal company, it seems to be the general impression that the amount named is sufficient to make the purchase assured. As the project stands at present, the surveys have all been made, and \$550 000 appropriated to do the work on the third division; that is, the lower end of the route. This includes four miles of solid excavation from the Neuse River to Beaufort Inlet through Core Creek—the only solid ex-canal forms a part of it.—V. 77, p. 351 Albuquerque (N. M.) Gas, Electric Light & Power Co.—

Albuquerque (N. M.) Gas, Electric Light & Power Co .--New Stock .- This corporation filed at Santa Fe, N. M., on

March 26 a certificate of increase of capital stock from \$200,-000 to \$500,000, of which a part is preferred.

Annual gas output about 20,000,000 cubic feet; No. of meters, 1,200; miles of gas main, about 15; electric department capacity, 250 arcs and 30,-000 incandescent lamps. "The company is a close corporation—held by" four people—nothing offered for sale." Pres., W. S. Iliff; Sec., C. K. Dur-bin; Treas., O. S. Moore.

American Gas & Electric Co., New York.—First Dividend. The directors on April 22 declared regular quarterly dividend No. 1 of 112% on the outstanding \$1.200,000 preferred stock for the quarter ending May 1 1907, and an additional dividend at the rate of 6% per annum from Jan. 16 to Feb. 1 1907, payable May 1 1907 to stockholders of record April 25 1907.

Earnings of Company Whose Assets Were Purchased.—See Electric Co. of America below.-V. 84, p. 222.

American Ice Securities Co. — Amendment of Charter. — The stockholders will vote on April 29 on authorizing changes in the certificate of incorporation, giving the company, among other things, authority as follows:

To manufacture, gather, harvest, buy and sell ice"at wholesale and retail: to acquire by purchase, lease or otherwise, and operate, sell, trade and deal in all kinds of ice-manufacturing plants, ice-making machinery, &c., and deal in coal, wood, lumber, building and builders' material; to acquire by purchase or lease and construct and operate plant, machinery and appliances for the distilling of water, and generally to carry on the business of buying and selling water, including natural, mineral and other waters; to acquire, own, equip, operate and dispose of steamboats, steamships and vessels of every description, and to deal in and dispose of merchandise and com-modities of all kinds. modities of all kinds.

Similar powers to those above named are possessed by the American Ice Co., the present operating company, and it is supposed the step to be taken is to provide for the merger of the old company when the consolidation can be made according to law, as well as the acquisition of other properties when deemed desirable.-V. 84. p. 933, 750.

American Pneumatic Service Co. - Amendment of Charter. -The stockholders will vote on May 1 on amending the company's charter so that it shall have the power to reinsure the bonds of others given to secure the performance of contracts in the course of its business. President Dillaway in a circular says:

In a Circular says: Surety companies are now limited by the United States Government from taking any single risk exceeding 10% of capital and surplus without re-insuring. This company has already the necessary authority to carry on this business under the laws of the United States, and now has the oppor-tunity of acting as a re-insuring company on surety bonds of the highest class and of the least risk, without the investment of any money or the employment or tying up of any of its active capital, or using any of its present earnings. If we are successful in getting this additional business it promises a large increase in our profits. The amendment of the charter last September (V, 83, p. 494) so as to permit the company to act as surety on the bonds of its subsidiary companies having contracts with the United States' has reculted in a saving of over \$18,000 per year in premiums. – V. 84, p. 869.

American Silk Co.-Merger.-This company, incorporated at Albany on April 10 with a nominal capital of \$1.000, filed a certificate increasing its capital to \$6.250.000, of which \$2.750,000 is  $7_{\ell}^{\prime}$  cumulative preferred stock and \$3,500,009 common stock. The company is organized for the purpose of acquiring about 30 silk mills, located prin-cipally in Pennsylvania, and it has acquired a controlling interest in the New York Silk Manufacturing Co. (V. 81, Surplus <u>\$239,496 \$124,268 \$135,348 \$118,608 \$8,256</u> \* Statement of Wason Manufacturing Co. is for calendar year 1905. For the year 1906 the company reports its net profits at "between \$65,000 p. 1608, 1616), owning and operating mills at York, Carlisle, Fleetwood and Kutztown. Pa.: the Monarch Silk Co., with mills at York; the American Silk Co. of Pennsylvania, with mills at Reynoldsville; also the Clifton Mills and the business of Rogers & Thompson, silks. Bond issue, if any, not known.

A statement published by the "Journal of Commerce and Commercial Bulletin" on April 13, which is pronounced substantially correct, says:

Stantially correct. Says: It is stated that when the present plans are completed the company will have a capitalization of \$10,500,000 of 7% cumulative preferred and \$12,-000,000 of common stock, a large part of which has already been under written. The Clifton Mills and the business of Rogers & Thompson, manu-facturer so fthe famous "Rajah" and "Bond" silks, have been acquired, and will be taken over within a few days, and the remaining factories, all of which are modern, will be taken over as rapidly as pending arrange ments can be completed. The preferred stock issue is not to exceed \$790 for each weaving loom and \$350 per loom for spinning and throwing, including dyeing, finishing \$500 per loom for working capital. The company will have in addition ample cash working capital to purchase raw material at the best prices ob-tainable, and to manufacture and sell its production on a large scale.

have not been made public, but it is unerstood to be the intention to bring about closer relations and to provide funds for extensions to take care of the rapidly growing electric light business. There have been rumors from time to time of the sale of the telephone and electric plants, but they have always been denied by those in authority.  $-V_{*}$  82 p. 283 V. 82, p. 283.

Bergner & Engel Brewing Co., Philadelphia.—First Pay-ment on Deferred Dividends.—The directors on April 20 declared the usual semi-annual dividend of 4% on the \$1.-523,900 preferred stock, and, in addition, a deferred semi-annual dividend of 4% on the preferred stock, payable May 1 to stock of record April 20. This is the first payment on account of the 36% of dividends which accumulated in 1900-1904. The floating debt was paid off last year. Com pare V. 83, p. 1522.

(B. F.) Berry Coal Co., Detroit, Mich.-New Bonds Ojjered.-As stated last week, the Detroit Trust Co., Detroit, Mich., is offering at par and interest the entire issue of \$200,-000 first mortgage 6% coupon gold bonds of \$1,000 each.

These bonds are dated April 1 1907 and payable in ten annual install ments, but are subject to redemption at 103 April 1 1908, or on any interest date thereafter. Interest payable April 1 and Oct. 1 at office of the Detroit Trust Co., whose President, Alexander McPherson, is the mortgage trustee. The principal stockholders are Benjamin F. Berry and Stanford T. Crapo of Detroit.

Security for mortgage: (1) 80 acres of surface near Granville, Putnam Co., Security for mortgage: (1) 80 acres of surface near Granville, Putnam Co., 111., with store, shaft, tipple, coal-washing plant, shop and miners' houses, &c.; (2) a lease running till July 31 1945 from the St. Paul Coal Co. (a sub-sidiary of the Chicago Milwaukee & St. Paul Ry. Co.), covering 2,560 acres of coal land located in Putnam County, III.; (3) valuable contracts to be assigned to the trustee: (a) for the sale of 2,000,000 tons  $\frac{7}{4}$ -inch lump coal to the Chicago Milwaukee & St. Paul Ry.; (b) with the Chicago Portland Cement Co. for the sale of 840,000 tons of raw slack. F. A. Ray, a mining engineer, estimates that the property contains 11,520,000 tons of mer-chantable run of mine coal, and will give a yearly output of 300,000 tons. "The company also has erected a coal-washing plant with a capacity of washing 600 to 1,000 tons of coal per day. Total valuation of mine, mining plant and coal washer, \$452,850."

(J. G.) Brill Co., Philadelphia.—Dividends Begun on Both Stocks.—The directors on Tuesday declared initial dividends of  $1\frac{3}{4}\%$  on the preferred and 1% on the common stocks, payable May 1 and June 1 respectively. These distributions are understood to be quartely, though it was not officially so stated. They are paid on \$5,000,000 of each class of stock. The old J. G. Brill property paid dividends steadily since its organization in 1869.

New Director .- Francis E. Bond, of E. B. Smith & Co., has been elected a director.

Earnings.—The "Philadelphia News Bureau" of April 10 had the following, which is pronounced approximately correct:

Earnings of the Constituent Properties for Calendar Year 1906.

and an and an and an	Sales Net caraings Other Income	\$3,810,974 \$401,035 78,461	\$962,484 \$159,268	G.C.Kuhl- manCarCo. \$1,053,992 \$170,348	son Co.	Mfg. Co.

		Contraction of the second second				

Approximate Results for New Company on Basis of 1906.

Net income 1,000,000 Balance (13.8% on com.) 600,000 The total net carnings of the Brill Co. and its subsidiaries for the year 1906 were \$1,001,897. This amount, after providing for 7% dividends on the new preferred stock, would leave a surplus of over 12% on the 55,000,000 common stock. The only bonded debt is the issue of \$400,000 first mortgage 5% bonds of John Stephenson Car Co. (V. 72, p. 187.) The plants are all working to their full capacity and the company has \$4,000,000 of orders on hand. As the capacity of the plants is approxi-mately \$8,000,000 per annum, the production of the company is practically booked up in advance for six months. Compare V. 84, p. 869, 751.

California Oilfields, Limited.-Listed in London.-The London Stock Exchange has listed this company's £300,000 5% first mortgage debentures of £100 each, Nos. 1 to 3,000 (registered), and a further issue of 135,000 shares of £1 each, fully paid, Nos. 250,001 to 385,000. Compare V. 83, p. 91; V. 81, p. 1377.

Charleston (W. Va.) Home Telephone Co.-Status.-We

tainable, and to manufacture and sell its production on a large scale. Matthew G. Collins, General Manager of the York Silk Mills, will be

the Manager.

H. W. Bennett & Co. of 20 Broad St. are promoting the enterprise. The Knickerbocker Trust Co. is registrar.

American Strawboard Co. -Balance Sheet. -- See United Box Board & Paper Co. under "Annual Reports" on a preceding page.-V. 84, p. 750, 692.

American Telephone & Telegraph Co. Payment of \$20,-000.000 5% 3-year Gold Coupon Notes Maturing May 1 1907. These notes will be paid in New York at the office of the Manhattan Trust Co., 20 Wall St., or in Boston at the office of the Old Colony Trust Co., Ames Building, See advertisement on another page of this issue and compare V. 84, p. 273, 817, V. 84, p. 933, 869.

Baltimore (Md.) Electric Power Co. Deposit of Bonds. -The Baltimore Trust & Guarantee Co. of Baltimore and the Northern Trust Co. of Philadelphia are receiving deposits of bonds of this company and its ally, the Maryland Telephone & Telegraph Co. (V, 77, p, 2096; V, 79, p, 631; V, 80, p, 1061; V, 81, p, 268; V, 82, p, 283.) An exchange Sava.

Several weeks ago the companies sent letters to the bondholders asking that they deposit their bonds in connection with the carrying out of a new knancial plan. Practically all the bonds are in — Details of the new plan

have been favored with the following under date of March 30:

have been favored with the following under date of March 30: Incorporated in West Virginia April 1 1902. Authorized capital stock is \$200,000 common and \$100,000 6% cumulative preferred; outstanding common \$160,000; preferred \$58,200. Par \$100. Bonds outstanding \$125,000 (authorized issue under mortgage originally \$200,000, but now limited to \$125,000 at present outstanding), dated April 16 1902 and due April 1 1922 without option of earlier redemption. Interest payable Oct. 1 and April 1 at office of Columbus (O.) Savings & Trust Co., trustee. De-nomination \$100 and \$500. Annual sinking fund 214 % of the amount of outstanding bonds. There is now in this fund \$13,200 bonds and \$412 50 cash. As of April 1, sufficient pref. stock will be sold to pay all outstanding plant has operated for about 41% of the gross recelpts. The net earnings for the year ending Oct. 1 1906 were \$28,716. Deduct Interest on bonds, \$6,250; sinking fund, \$3,125; dividends on preferred stock, \$3;432; interest on borrowed money, \$16,000 at 6%, \$960; balance, surplus, \$14,049. To March 1 1907 \$35,014 from earnings had been expended for betterments. President, J. W. Payne; Sec. and Treas., W. W. Morrison.

Chase Rolling Mill Co., Waterbury, Conn. -Increase.-The stockholders of this company voted on March 30 1907 to increase the capital stock from \$1,200,000 to \$2,500,000. No bonds or mortgage. Of the new stock \$600,000 is to be taken by the present stockholders, making outstanding \$1,800,000, all of one class; par, \$100. Company incor-porated in Connecticut July 1900; operates a brass rolling mill. H. S. Chase is President and Frederick S. Chase, Treasurer.

Chicago Edison. Sale of Bonds. The first installment, amounting to \$2,500,000, of the new 5% debentures has been sold and sthe remaining \$2,500,000 were last week

offered in Chicago at 97<sup>1</sup>/<sub>4</sub>. See full particulars in V. 84, p. 695.

Chicago Pneumatic Tool Co.—*Earnings*.—The results for the three months ending Mar. 31 were:

Citizens' Steamboat Co. of Troy.—Offer to Purchase.—The directors on Monday adopted a resolution to dissolve the company and to have the stockholders vote on the proposition in June next; also in favor of an offer by Charles W. Morse to the stockholders, through N. H. Campbell, Treasurer of the Hudson Navigation Co.

The offer is that if the stockholders will send their certificates of stock to Mr. Campbell, he will issue receipts therefor; that when all the stock is surrendered Mr. Morse will make a proposition to purchase such stock, which will be submitted to the stockholders for their action. If the offer be satisfactory, payment will be made for the shares deposited, but if not accepted, they will be returned to the stockholders. The certificates are to be sent in on or before May 15, and all certificates not purchased to be returned to the owners on or before June 3.

Of the stock (\$250,000 at last accounts), over two-thirds, it is understood, is already owned by Mr. Morse and associates.—V. 82, p. 220.

Clyde Steamship Co.—Amalgamation—Circular.—See Consolidated Steamship Lines.—V. 83, p. 1231.

Columbus Citizens' Telephone Co.—Increase of Stock.— • The stockholders on April 24 approved the increase of \$500,-000 in the preferred stock, also the increase of the board of directors from nine to eleven. D. C. Beggs and J. H. Mohler were elected to fill the new positions. Compare V. 84, p. 751.

**Consolidated Steamship Lines.**—Exchange of Stock— Official Announcement.—Circulars signed by Calvin Austin. President of this company, have been sent to the stockholders of the Mallory Steamship Co. (compare V. 83, p. 1594) and the Clyde Steamship Co. (see V. 83, p. 1038, 1231), respectively, informing them that "over a majority" of the \$14.-000,000 stock of the Mallory company and over \$10.000,000 of the \$14,000,000 stock of the Clyde Steamship Co. have been exchanged for stock and bonds of the Consolidated Steamship Lines, and adding:

SteamShip Lines, and adding: The stock of (your) company is convertible into stock of the Consolidated Steamship Lines, share for share, and in addition thereto 4% collateral trust bonds of equal par value (*i. e.*, each \$10,000 stock is exchangeable for \$10,000 new stock and \$10,000 new bonds.—Ed.). If you will promptly send your certificates to N. H. Campbell, Treasurer, Room 902, No. 43 Exchange Place, New York City, endorsed in blank and witnessed, he will send you in exchange therefor the stock and bonds of the Consolidated Steamship Lines under this arrangement.

An offer on the same basis, it is understood, will shortly be made to the minority shareholders of the Eastern Steamship Co. (total stock, \$3,000,000.—V. 83, p. 1232), and the Metropolitan Steamship Co. (total stock, \$3,000,000.—V. 82, p. 990), and probably before the end of the year to the stockholders of the Ward Line, the New York & Cuba Mail SS. Co.—total stock, \$20,000,000.—V. 84, p. 394), and the New York & Porto Rico Steamship Co. (total stock, \$8,000,000.—V. 84, p. 452, 871). If the entire stock of all the foregoing companies should be acquired, as aforesaid, the new company would have to issue \$62,000,000 stock and \$62,000,000 collateral trust 4s. Most of the constituent companies have outstanding bond issues of their own. The Hudson Navigation Co. (which see above) is not likely, it is said, to be included. See V. 84, p. 870, 393, 61.

**De Long Hook & Eye Co., Philadelphia.**—*Re-incorporation.*—The shareholders of this West Virginia corporation vote May 2 on re-incorporating under the laws of Pennsylvania.—V. 71, p. 238.

**Electric Co. of America, Philadelphia.**—*Report.*—This company, whose security holdings were recently sold to the American Gas & Electric Co. (controlled by the Electric Bond & Share Co.), reports as follows:

Cal. Income from Other Charges, Dividends Balance, Total, Year, Securities Interest, &c. Paid, Surplus, Surplus, 1906, 531,511, 11,455, 121,511, 2299,781, 171,674, 1,099,322, 1905, 534,474, 4,706, 98,259, 285,536, 155,385, 927,648. The special meeting to decrease the capital stock has been adjourned until June 5, -V, 83, p. 1593.

Ingersoll-Rand Co.—Listed.—The New York Stock Exchange has listed \$225,000 additional 6% cumulative preferred stock, making the total amount listed \$4,725,000, and has authorized \$75,000 additional to be added from time to time prior to Nov. 1 1907, making the total amount au thorized to be listed \$4,800,000. Compare V. 84, p. 806,511.

International Mercantile Marine Co.—Listed.—The New York Stock Exchange has listed the company's securities and has authorized additional amounts to be listed as issued and sold from time to time prior to Nov. 1 1907, as follows:

l	Name of Security-	4	Listed.	Issuable.	Total.

Kansas Breweries.—Receivers.—The Supreme Court at Topeka, Kansas, April 25 appointed Judge S. H. Allen, G. H. Whitcomb and Judge T. F. Garver as receivers for the property in Kansas of nine foreign brewing companies, (six of which hail from Kansas City, Mo., concerns and three are Milwaukee companies) upon the petition of the Attorney-General, who recently obtained an order from the Court restraining these companies from doing business in Kansas. The companies propose to fight the proceedings to the court of last resort.

Keystone Telephone Co. of Philadelphia.—Sale of Notes.— The Philadelphia "Financial Bulletin" of April 17 said:

Bloren & Co. have sold practically all of the \$200,000 Keystone Telephone 3-year 6 % gold notes recently offered by them at 98 and interest, yielding  $6\frac{34}{5}$ . The authorized issue is \$600,000. Compare V. 84, p. 870, 218.

Kilbourne-Jacobs Manufacturing Co., Columbus, Ohio.— Increase in Dividends.—This company on April 16 paid a dividend of  $2\frac{1}{2}\%$  on its \$1,250,000 common stock for the purpose of placing the issue on an 8% annual basis, the January dividend having been only  $1\frac{1}{2}\%$ ; it is proposed to pay 2% quarterly in July and October. A year ago the common shareholders received a 100% stock dividend, since which time they have had until now  $1\frac{1}{2}\%$  quarterly in cash. There is also \$625,000 6% preferred stock outstanding. Compare V. 82, p. 1272.

<sup>\*</sup> Mallory Steamship Co.—Amalgamation—Circular.—See Consolidated Steamship Lines above.—V. 83, p. 1594.

Maryland Telephone & Telegraph Co.—Deposit of Bonds.— See Baltimore Electric Power Co. above.—V. 82, p. 283.

Massillon (O.) Iron & Steel Co.—New Stock.—This company, which was incorporated under the laws of Ohio in March 1900 and in February 1904 increased its capital stock from \$150,000 to \$500,000, on Feb. 18 1907 filed a certificate of increase of the authorized issue from \$500,000 to \$2,000,-000. The company manufactures cast-iron pipe and fittings. H. A. Croxton is President and Treasurer.

Merchants' & Miners' Transportation Co., Baltimore.— Deposits.—Practically all of the capital stock has been deposited under the terms of the circular in V. 84, p.752, 629.

Mexican Light & Power Co.—Earnings.—For 3 months ending March 31:

**Monongahela Water Co.**, Pittsburgh.—*Explanation of Dividend Omission.*—A statement has been sent to the stockholders explaining the failure to pay the regular quarterly dividend of 2% on the \$2,600,000 capital stock, the rate of 8% per annum having previously been maintained for many years and the entire dividend record covering, it is said, a quarter of a century. The statement says:

This action was taken partly because of the very heavy expense being incurred by your company in connection with the appraisement proceedings now pending for the purchase of this company's property by the city of Pittsburgh, and partly because of the large reduction in water rents made by the city in 1906, which reduction was followed by your company under protest; said reduction now constituting one of your company's claims against the city under said proceedings.—V: 84, p. 935.

Montgomery (Ala.) Light and Water Power Co.—Bonds.— Cramp, Mitchell & Shober of Philadelphia recently received subscriptions for a limited number of the first consolidated mortgage 5s at 82½ and accrued interest. The bonds were all subscribed and are now quoted at 85 and accrued interest, at which price Eglinton, Hammond & Andrews of this city have been offering a small block. Compare V. 84, p. 871.

Gorham Manufacturing Co.—See Silversmiths Co. below. --V. 84, p. 573, 341.

**Gottlieb-Bauernschmidt-Straus Brewing Co., Baltimore.** Interest on Income Bonds.—The directors on April 23 declared the usual semi-annual interest payment of 132% on the second mortgage income bonds, payable on and after May 1 1906 on presentation of coupons No. 5 at the office of Mercantile Trust & Deposit Co., Baltimore. The same amount was paid semi-annually from 1904 to 1906, both inclusive. Compare V. S4, p. 162, 510, 628.

**Grand Rapids (Mich.) Edison Co.** Stock Decreased. –The stockholders voted on April 15 to decrease the authorized stock from \$1,200,000 to \$325,000, to consist of \$200,000 common stock (par of shares, \$100), and \$125,000 of  $5^{c}_{c}$  cumulative preferred stock (par, \$20). Of the stock there is outstanding \$602,500 common and \$39,750 preferred...-V: 80, p. 1114.

**Greene-Cananea Copper Co.** Time for Deposits Extended <sup>18</sup> to June 1. The time for making deposits of Greene Consolidated Copper and Cananea Central shares for the new stock <sup>14</sup> of the Greene-Cananea Co., the holding company, has been extended up to noon of June 1...-V. S4, p. 870, 806.

Hudson Navigation Co. -Acquisition - See Citizens' Steamboat Co. above.-V. p. 84, 823, 162.

Times" in December last announced the authorization of an issue of \$100,000 40-year bonds.

## THE CHRONICLE.

Old Colony Coal & Coke Co., Pittsburgh, Pa.-Sale.-This company's property, real, personal and mixed, is advertised to be sold at trustee's sale (subject to the lien of mortgage of June 30 1905 to the Mortgage Banking Co., trustee, \$250,000) at the office of trustee J. W. Hanly, 302 Keystone Bank Building, Pittsburgh, on April 29. "Pittsburgh Gazette" of March 6 had the following: The

A meeting of the stockholders was held yesterday, at which a committe of five was appointed to arrange for the underwriting of a bond issue of between \$300,000 and \$400,000. The committee includes W. J. Ward, Treasurer; A. H. Schewe, James W. Melville, Samuel Garrison and Vice-President W. G. Cronkwright, the latter being Chairman. (Among the assets are 135,607 shares of \$10 each of the Glen Easton Coal & Coke Co. —Ed. "Chronicle.")

**Pocahontas Collieries Co.**—Consolidation.—See Pocahon-tas Consolidated Co. below.—V. 82, p. 1273.

Pocahontas Consolidated Co.-Consolidation.-This company, having previously acquired (V. 82, p. 1273) all except \$26,000 of the \$3,000,000 of common stock of the Pocahontas Collieries Co., which has also outstanding \$1,500,000 6% cumulative preferred stock and \$1,250,000 first mortgage 5% bonds, has arranged, under plan of April 151907, to merge that company on the follow ng basis:

(a) \$1,500,000 of new first mortgage 5% bonds will be exchanged for an equal amount of the preferred stock of the Pocahontas Collieries Co., said stock to be canceled.

stock to be canceled. (b) \$1,250,000 of said bonds to be set aside to be exchanged for an equal amount of the present bonds of the Pocahontas Collieries Co., (V. 80, p. 225.) (c) \$3,250,000 of said bonds will remain in the treasury, subject to un-restricted sale or use in the future for the purpose of paying the present in-debtedness of the Pocahontas Collieries Co., for developments or improve-(d) The mortgage of the consolidated company will permit of a total **is**: of \$20,000,000 of bonds, but any increase above the \$6,000,000 presently to be issued may only be issued for new property acquired, and to the extent a first lien thereon. (e) The consolidated company shall have the option of \$000

of only 70% of the cost of such new property, and this mortgage shall be a first lien thereon. (e) The consolidated company shall have the option of selling any portion of the bonds authorized under said mortgage for the purpose of retiring all its preferred stock at not exceeding 15% premium and accrued interest, but the face value of the bonds so issued shall not exceed the amount paid for preferred stock upon such retirement. (f) The present \$2,800,000 of preferred stock of the Pocahontas Consoli-dated Co. (6% cumulative, with a sinking fund of not less than 3 cents nor more than 5 cents per ton of coal mined) shall be delivered up and canceled and an equal amount of preferred stock delivered in lieu thereof. The new preferred stock shall be 6% cumulative, with a sinking fund of a minimum of 114 cents and a maximum of 3 cents per ton on all coal mined after July 1 1910, the minimum to be not less than \$40,000 per annum, and to be used for the retirement of the preferred stock at prices deemed reasonable by the board of directors; or, if this is impossible, to be invested in the bonds until the preferred stock may be retired upon fair terms. (g) The present \$4,513,700 common stock of the Pocahontas Consoli-dated Co. shall be surrendered for cancellation, and a like amount of the common stock of the merged or consolidated Company delivered in lieu thereof, and such common stock shall be entitled to all surplus earnings after providing for dividends and sinking fund on the preferred stock. Assenting stock of the Pocahontas Consolidated Co. must be deposited with the Bank of Bramwell, Bramwell, Mercer County, W. Va. Bonds, Etc.—See Pocahontas Consolidated Collieries Co.

Bonds, Etc.—See Pocahontas Consolidated Collieries Co. below.—V. 83, 1102, 272.

Pocahontas Consolidated Collieries Co.-Consolidation Plan.-See Pocahontas Consolidated Co. above.

Bonds.-Kean, Van Cortlandt & Co., 30 Pine St., New York City, it is understood, will offer for sale, in case the merger plan goes through, a block of the present issue of \$6,000,000 new first mortgage 5% gold bonds of the "Poca-hontas Consolidated Collieries Co.," the merger company. These bonds will be dated July 1 1907 and be due July 1 1957, but subject to call at 105; interest payable January and July. Denominations \$1,000 and "convenient fractions." Sinking fund of  $3\frac{1}{2}$  cents per ton of coal mined, beginning July 1 1910, to retire a minimum of \$100,000 bonds annually.

terms for 100 years; subject to a royalty of 10c. per ton on all coal mined. These-plants are all modern and fitted to handle a tonnage greatly in excess

These-plants are all modern and litted to handle a tonnage great.y in excess of the average of the past four years. To innance the explanate arcady made by the Collieries Co. for the installation of the Bolssevain plant, and to provide for the construction of the additional plants, it is proposed that the new company shall create a mortgage, under which there will immediately be issued \$6,000,000 dpreferred stock of Pocahontas Collieries Co. \$1,250,010 to be exchangeable for the present bonds of the Pocahontas Collieries Co., and \$3,250,010 to be issua-ble for the purpose of paying the present indebtedness of the Pocahontas Collieries Co., for developments or improvements, and for the extension of the business of the new consolidated company. (See further facts in plan under Pocahontas Consolidated Co. above.) **Procter & Gamble Co.** Cincinnati.—New President.—

Procter & Gamble Co., Cincinnati.-New President.-William Cooper Procter has been elected President to succeed his father, the late William A. Procter. John Burchenall is now General Manager .--- V. 83, p. 895.

Republic Iron & Steel Co.-Description of New Plant at Youngstown, Ohio.-See illustrated article in "Iron Trade Review" of Cleveland for April 18.

Earnings.—A statement of earnings is given in the Chicago "Inter-Ocean" of April 17 and April 20 as follows, but efforts to get it officially have been unavailing:

The Republic Iron & Steel Co.'s earnings for March were \$509,628. After all deductions for interest, &c., there remained a surplus for March of \$415,213. For nine months ended March 31 the surplus applicable to dividends was \$2,816,791. Out of this was paid three dividends of \$765,633 each, being 1.4 's regular on the preferred stock and 2% on ac-count of the accumulated dividends, a total of 5.4 % regular and 6% ac-cumulated, amounting in all to \$2,226,901 and leaving a surplus of \$519. An official estimate of earnings for the current fiscal year ending June 30 1907 indicates that the company will have shown by that time, at the least calculation, \$4,167,000 applicable for dividends on the preferred stock. V. 84, p. 342.

Seattle (Wash.) Lighting Co.—Bonds Offered—Status.— N. W. Harris & Co., New York and Boston, and the Harris Trust & Savings Bank, Chicago, are offering at 971/2 and interest \$250,000 first mortgage 5% gold bonds of \$1,000 each  $(c^*)$ , dated March 21 1904 and due March 1 1944, but redeemable on and after March 1 1910 at 110 and interest. Interest payable March 1 and Sept. 1 at office of N. W. Harris & Co., N. Y. Manhattan Trust Co., N. Y, trustee.

Abstract of Letter from Rufus C. Dawes, 2d Vice-President, Apr. 1 1907.

This company, a consolidation of the Seattle Gas & Electric Co. (the successor of the Seattle Gas & Electric Light Co.) with the Citizens' Light & Power Co., does the entire gas business of Seattle, Wash., and its suburb, Ballard, thus serving an estimated population of over 200,000.

Silversmiths Co. of New York.-Merger.-On April 20 a certificate was filed at Albany merging under this title, with \$14,000,000 of authorized capital stock, the following companies, which are allied to the Gorham Manufacturing Co., namely, Silversmiths Co. of New York and the Silverware Stocks Co. of New York.

Companies and Properties to Be Merged in Pocahontas Consolidated Coll's Co. (1) The Pocahontas Consolidated Co. was incorporated May 20 1904 and has outstanding, fully paid. \$2,800,000 6 % cumulative preferred and \$4,-513,700 common stock. Upon the common stock dividends of 2% were paid prior to March 31 1905, 8% for year ending March 31 1906 and divi-dends of 6% per annum for the year ending April 1 1907. Absorbed the Norfolk, Angle, Lick Branch, Delta, Shamokin, Rolfe, Sagamore, Caswell Creek and Cherokee collieries (the last April 1 1905). The total leases held represent about 9,625 acres of coal lands and 1,500 acres of barren land, which is fully developed by the nine plants located on this territory. There have been erected 1,920 coke ovens. The remaining coal in the No. 3 Pocahontas vein unmined in this acreage is estimated at 74,000,000 tons. In the spring of 1906 increased its common stock from \$2,640,000 to pres-ent amount and purchased \$2,974,000 of the \$3,000,000 common stock of the Pocahontas Collieries Co., chartered in March 1880. (2) Pocahontas Collieries Co., chartered in March 1880. (2) Pocahontas Collieries Co., The total leases held and coal lands owned represent about 10,375 acres of coal, only partly developed, the only plant in opreation being that located at Pocahontas. Va., which is, how-ever, the largest in the Pocahantas region. There have been erected 8000 coke ovens. The coal in the No. 3 Pocahontas vein unmined in this acre-age is estimated at 106,000,000 tons. The undeveloped territory extends about 10 miles westward from Pocahontas, Va., along Laurel Creek, of Bluestone River. The Norfolk & Western Ry. Co. Is now building the Pocahontas & Western RR., to develop this property, and by July 1 1907 about 4 miles of this road should be completed to the new Bolssevain plant, along this branch road at least three additional coal-mining plants. Edward Holbrook, who is head of the Gorham Company, is President of the consolidated company. John S. Holbrook and Herbert J. Wells are among the directors. Compare V. 84. p. 577 -- V. 82, p. 1045.

Silverware Stocks Co. of New York.-Merger.-See Silversmiths Co. above.---V. 84, p. 577, 342.

The company' it is stated, owns extensive cement rock quarries about 4 miles from Riverside and proposes to build a cement plant with a daily capacity of 4,500 barrels at a new town-site to be known as Crescent City. The same interests have incorporated the Crescent City St. Ry. with \$100,000 capital stock. Oakland eapitalists are interested. The incorporators of both companies are: George W. Reed, P. C. Black, C. N. Reed, B. H. Griffin and C. T. Walker, all of Los Angeles.

Union Oil Co. of California. - Dividend Increase. - The "Los Angeles Times" of April 20 says that the company will increase its monthly dividends beginning May 20 from 75 cents to \$1 per share, or from 9% to 12% yearly. The rate was increased in Feb. 1905 from 2.7% per annum he of a of ed

ns n

d

 $(221_{2c}, per share monthly)$  to 6% (50c. monthly) and in April 1906 to 9% per annum, or 75c. monthly. The Union Provident Co. and the United Petroleum, both holding companies for the Union, have increased their payments from 75c. to \$1 and from \$1 38 to \$1 48 a month, respectively. -V. 83, p. 91.

Union Sand & Material Co., St. Louis.-New Stock, &c.-A certificate filed on April 15 by this Missouri corporation, increasing the capital stock from \$1,050,000 to \$3,000,000, "all full paid." it is stated, shows assets, \$5,320,033; liabilities, \$1,684,857.

About 98% of the stock of the St. L. Port. Cement Co., it is stated, was deposited under the recent offer, only one stockholder failing to come in within the time set. The Union Co., it is reported, also takes over the Memphis Sand & Gravel Co. of Memphis, Tenn., in the same deal, paying \$300,000 for its assets, and has bought the property of the old St. Louis Blast Furnace Co., on the river front at the foot of Malt St., in Carondelet. The Memphis property is in the extreme north end of St. Louis and latter in the south end. In the south end. Compare St. Louis Portland Cement Co., in V. 84, p. 275.

United Copper Co.-Details of Net Earnings.-At a recent hearing in the case of Thomas M. Hodgens against President Heinze, the latter furnished the following particulars regarding the divisions of net income for the year 1906, thus supplementing the statement already published in the "Chronicle" (V. 84, p. 448), and also the same particulars since the company's organization on April 28 1902:

Receipts— Interest on bonds Dividend on securities held Profits on securities held and contracts Interest on loans	2,395,970 2,504,000	Since Organization, \$814,500 5,931,565 3,354,770 466,093
Total Expenses		\$10,566,928 398,997
Not Income	e 1 0 10 771	210 107 091

\$4,840,771 Net income\_\_\_\_\_ The "profits on securities held and contracts" in 1906, \$2,504,000, included, it is stated, \$1,700,000 on account of the variation of the market value of securities held.—V. 84, p. 755, 577.

Westinghouse Electric & Manufacturing Co.—Offering to Stockholders of \$5,000,000 of New "Assenting" Stock .- A circular dated April 25 1907 offers to stockholders of record as of 12 m. May 4 the opportunity of subscribing, on the company's warrants, until 3 p. m. June 3 for \$5,000,000 new stock, entitled to the same rights and priorities as the existing" assenting" stock, at \$75 per share (par \$50), to the extent of one share for every five shares of existing stock of any class held by them respectively.

of any class held by them respectively. Subscriptions must be made at the New York office of the company, 111 Broadway, accompanied by New York, Boston or Pittsburgh exchange for \$10 for each share subscribed for. The balance will be payable in like manner during 1907 as follows: July 1, \$10 per share: Aug. 1, \$10; Sept. 3, \$10; Oct. 1, \$10; Nov. 1, \$10; Dec. 2, \$15. Full payment may be made at the time of subscription or any unpaid balance may be paid on any in-stallment date Interest at 5% per annum will be allowed on all payments from the date made up to the time the stock begins to carry dividends. Discount will also be allowed on installments anticipated. Stock paid for in full June 3 carries the dividend payable July 10 1907 and subsequent dividends: that fully paid for Oct. 1, Nov. 1 or Sept. 3 will receive the Oct. 10 dividend and that paid for Oct. 1, Nov. 1 or Dec. 2 the Jan. 10 1908 dividend. For the convenience of shareholders warrants for fractional shares will be purchased or sold at current market prices at the New York office of the company. *Official Circular*.—President George Westinghouse, under

ficial Circular.—President George Westinghouse, under -date of April 25, says:

At a special meeting of the stockholders held on March 26 1906, \$25,000,-000 new assenting stock was created, making the total authorized share capital \$50,000,000. Of this new stock, \$12,500,000 was set aside for the conversion of bonds (V. 82, p. 755, 222) and the remaining \$12,500,000 was reserved for other corporate purposes. There is enclosed an offer to the stockholders to subscribe for \$5,000,000 of the assenting stock at \$75 per share, a price within the limits of the provisions of the bond indenture, the sale of which will provide additional working capital as required. The business of your company during the past year largely exceeded that of any preceding twelve months, and continues to increase. The orders entered during March 1907 by the East Pittsburgh works were \$4,006,348 and by the subsidiary manufacturing companies were \$379,229.

Orders Received by the East Pittsburgh Works and the Subsidiary Companies for Five Years Ending March 31. 1902-03. 1903-04. 1904-05. 1905-06. 1906-07. \$21,916,177 \$20,822,010 \$18,811,790 \$28,154,664 \$38,317,918 Value of unfilled orders March 31 1907. This great increase in your business, coupled with higher costs of labor and material, has necessitated a large increase in working capital. At the same time the amount invested in current accounts with customers for apparatus delivered or in process of erection has been correspondingly in-creased.

Value of Working Assets Feb. 28 1907, as Compared with Nov. 30 1905

ated companies, foreign and domestic, was above 5% on the aggregate book value of all such securities. The management of these several companies have been brought to a high efficiency, with the result that the business of each has shown a large growth.—V. 84, p. 225.

Wagner Electric Manufacturing Co.—Increase of Stock.— The stockholders will vote on June 12 on a proposition to increase the stock from \$800,000 to \$1,200,000.-V. 83, p. 1475.

Westinghouse, Church, Kerr & Co. of Canada (Ltd.), Montreal.—Incorporated in Canada.—This company was incorporated on April 18 under the Canadian Companies Act with \$2,500,000 capital stock in shares of \$100 each. The incorporators are:

Peers Davidson, Advocate: Arnold Wainwright, Advocate: Alexander Bissett, Assistant Manager: Charles Francis Larkin, stenographer, and Osias Cousineau, student, all of Montreal.

-A. M. Kidder & Co., bankers, of 18 Wall St., are issuing a special circular describing bonds which they offer investors at attractive prices. These securities return the pur-chaser from 45% to 512%, and include: Nassau Electric Ry. (Brooklyn Rapid Transit), Missouri Kansas & Texas RR. (St. Louis Division), the Railroad Securities Co. (Illinois Central RR.), Georgia & Alabama Ry. (Seaboard Air Line), Rio Grande Southern RR. (Denver & Rio Grande system), Fort Worth & Rio Grande Ry. (St. Louis & San Francisco system), Central RR. & Banking Co. of Georgia and the Chicago Rock Island & Pacific Ry. Co. The list also comprises a selection of guaranteed stocks exempt from tax.

-The Philadelphia banking house of Julius Christensen & Co., in the Drexel Building, is distributing a written and pictorial review of the Illinois Traction system. The de-scription includes all the roads comprised in this great interurban railway, their routes and connections, and much valuable information of public interest relating to the cities and towns in the territory covered by the system. There are many half-tones of the public buildings and the industries of that section, and also portraits of each road's officials. The book is bound in pasteboard covers and is elaborately gotten u). Investors interested in the Illinois Traction property should write for a copy.

The corporation of the Berkeley School, 72d St. and West End. Av., New York, announces that it has engaged Dr. Adolph W. Callisen as permanent Head Master, and has acquired and will take over the well-known Callisen School, of which Dr. Callisen was for many years the head and where hundreds of boys have been prepared for college and business life. From this date Dr. Callisen will spend several hours daily at the school to meet all who call and to make full preparation for the new term. The school-year will open on Sept. 30. William H. Brown is President of the corporation.

-The old established banking house of George Leask & Co. will move on May 1 to new offices on the sixth floor of the Trust Company of America Building, 37 Wall Street. This firm, founded by George Leask and Julian W. Robbins twenty-five years ago, leaves its old quarters on the ground floor of the Mills Building at 35 Wall Street on its 25th anniversary. The concern's high standing as large dealers in commercial paper, stocks, bonds and other securities is well known in this city. Mr. Leask's son, Edwin M. Leask, represents the house on the New York Stock Exchange.

The Boston banking house of Hornblower & Weeks has completed arrangements to occupy new quarters in a build-ing to be erected on the site of the old Howe Building, 60 State Street, which the National Shawmut Bank will shortly vacate. The proposed structure has been leased by the firm for thirty-five years; it will be six stories in height and will be especially adapted to the firm's requirements.

-Edward Ridgely, formerly a National Bank Examiner of New York City, has become associated with Warwick, Mitchell & Co., chartered accountants, at 79 Wall Street. Mr. Ridgely is a brother of William B. Ridgely, U. S. Comptroller of the Currency, and will manage the firm's auditing depart men

-On May 1 Stone & Webster, the well-known street railway house of Boston, will open a Chicago branch office in suite 604 First National Bank Building. Arthur J. Veitch' for some time connected with the bond department of Peabody, Houghteling & Co., will be their Chicago representative.

-We have received a copy of the 1907 edition of "Washington Securities," a compilation of financial statistics of securities dealt in on the Washington Stock Exchange. The book also contains a record by months, since Jan. 1 1901, of sales made at the Exchange, with the lowest and highest prices.

---Charles Schley & Co., investment brokers, of Milwaukee, Wis., announce their removal to the New Insurance Build-ing, 90 Michigan Street. The partnership consists of Charles Schley and Ralph M. Friend.

-Schmidt & Gallatin, 111 Broadway, members of the New York Stock Exchange, announce with regret that, owing to ill-health, Mr. Eads E. Schmidt will withdraw from their firm on May 1st.

-The bond department of the Royal Trust Company Bank of Chicago has recently issued for gratuitous distribution a booklet on "Bonds as Investments; What They Are and Their Advantages."

## THE CHRONICLE.

[VOL. LXXXIV.

## The Commercial Times.

1002

### COMMERCIAL EPITOME.

Friday Night, April 26 1907.

General business is still on a large scale, though there are some indications of a decrease in transactions here and there. The situation, however, remains substantially as it had been for a long period, with the demand for most commodities good and prices firm. The monetary situation has recently become much more favorable and the weather more seasonable.

LARD on the spot has been easy in tone but changes in quotations have been slight. Trade has continued dull. Offerings from packers have been rather liberal. Small jobbing sales have been made of late at  $8\frac{1}{4}(@8\frac{3}{8}c.$  for city and at 8.75@8.80c. for Western. Refined lard has been steady, with trade stagnant. Refined Continent 9.20c., South America 10c. and Brazil in kegs 11c. The market for lard futures at the West has been less active. Prices have been irregular but the fluctuations from day to day have not been very marked. In the main, however, the undertone has been rather easy, owing to the dulness of the cash trade. The receipts of live hogs, too, have been liberal.

DAILY CLOSING	PRICES	OF LA	RD FUT	URES	IN CHIC	AGO.	1 t
May delivery July delivery September delivery	Sat. 8.62½ 8.75	Mon	Tues. 8.70 8.82 ½ 8.95	Wed. 8.55 8.70 8.82 ½	Thurs. 8.55 8.70 8.82 1/2	Fri. 8.67 ½ 8.82 ½ 8.95	L

PORK on the spot has ruled steady, with trade dull and limited to small jobbing lots. Mess \$17 50@\$18 25, clear \$17 75@\$19 and family \$19@\$19 50. Cut meats have been steady. Trade has been quiet but stocks are light. Pickled shoulders  $9\frac{1}{2}$ @10c., pickled hams  $12@12\frac{1}{2}c$ . and pickled bellies, 14@10 lbs.,  $10\frac{1}{4}@11c$ . Tallow has declined, owing to the dulness of trade and increasing stocks. City  $5\frac{3}{4}c$ . Stearines have been dull and easy. Oleo  $9@9\frac{1}{4}c$ . and lard  $9\frac{3}{4}c$ . Butter has advanced, owing to cold and stormy weather, which has interfered with the movement to market. The demand has been light at the advance. Creamery, extras,  $34\frac{1}{2}@35c$ . Cheese has been moderately active and firm; State factory, fancy, 15c. Eggs have been less active and easier; Western firsts 17c.

and easier; Western firsts 17c. COFFEE on the spot has been dull and steady. Rio No. 7, 6<sup>3</sup>/<sub>4</sub>c., and Santos No. 4, 7<sup>5</sup>/<sub>8</sub>c. West India growths have been quiet and steady; fair to good Cucuta 8<sup>3</sup>/<sub>8</sub>@9<sup>1</sup>/<sub>2</sub>c. The market for future contracts has been irregular, within moderate limits. Early in the week the tendency was downward, owing to unexpectedly weak cables from Europe, continued dulness in the spot trade, liberal receipts, foreign selling and liquidation by tired local longs. Of late, however, the tone has been steadier, owing to buying by prominent local interests and covering of shorts.<sup>1</sup>

The following are closing quotations:

April May June July	5.50c. Octob	mber	5.45C.	January	5.45c.
July					

SUGAR.—Raw has been quiet, with slight changes in prices. Centrifugal, 96-degrees test, 3.73c.; muscovado, 89-degrees test, 3.23c., and molasses, 89-degrees test, 3.01c. Refined has been in moderate demand and steady. Granulated 4.70@4.80c. Teas have been quiet and steady. Spices have been firm and in light jobbing request. Hops have been quiet and steady.

OIL.—Cottonseed has been firm, with an increased demand, partly for export. Prime summer yellow 47c. and prime winter yellow 52c. Linseed has been firm, owing to an increased demand and the strength of the market for seed. City, raw, American seed, 42@43c.; boiled 43@44c.; raw, Calcutta seed, 70c. Lard has been easy, owing to the dulness of trade and increasing stocks. Prime 74@76c. and No. 1 extra 58@60c. Olive has been quiet and steady; yellow 80@90c. and green 70@75c. Cocoanut has been in moderate demand and firm; Cochin 10<sup>3</sup>/<sub>4</sub>c. and Ceylon 9<sup>3</sup>/<sub>6</sub>@

### COTTON.

#### Friday Night, April 26 1907.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 76,608 bales, against 79,481 bales last week and 113,585 bales the previous week, making the total receipts since the 1st of September 1906, 9,190,155 bales, against 7,042,248 bales for the same period of 1905-06, 'showing an increase since Sept. 1 1906 of 2,147,907 bales.

Speculation in cotton for future delivery has been a trifle more active and prices have advanced slightly, owing, in part, to manipulation of the May option by bullish interests and partly to some unfavorable crop and weather reports from the South and an active and stronger market in Liverpool. The spot sales there have continued large and reports are persistent that the demand for the actual cotton at the South is also excellent for the better grades, the supply of which is becoming, it is stated, so reduced that increasing premiums over the low grades are being paid. It is also stated that the lower descriptions are in better demand. Some reports are that unduly cold weather has made a good deal of replanting necessary in Georgia and Alabama if not in South Carolina, and that the season from being early at the start has now become somewhat backward. West of the Mississippi the temperatures at times have seemed to be somewhat too low and some replanting is reported there, but that portion of the belt has during the week been visited, on the other hand, by beneficial rains, so that in many parts of the State, at least, the drought would seem to have been pretty effectually broken. The receipts at the ports have been, on the whole, light, spinners' takings large and the exports, as a rule, greatly in excess of the receipts. In a word, the commercial situation of cotton has continued strong, mainly because of an unusually large consumption. Speculation, however, though somewhat larger than re-cently, has continued to be, in the main, quiet, the outside public still holding aloof. The May option, which was recently at such a marked discount under July, reached a premium over that month of 3 points early in the week and has since sold even with it or two or three points below. The fact that the price of May has been so well sustained, in the face of a very general belief that the number of notices to be issued on Friday would be large, had no small influence in sustaining and at times advancing the market. Liverpool, the South, Wall Street spot interests and room traders have all bought more or less, but of late there have been signs of liquidation, partly, it is supposed, for some of the leading bulls. Then, too, many who have bought May or July have sold the distant months, especially since the weather condi-tions have somewhat improved. To-day a decline of 11 points on May and 4 to 5 on other months was followed by a rally, when it was found that May "notices" for some 70,000 to 75,000 bales were being promptly stopped by leading bulls and others. Liverpool's quotations were disappoint-ing, but the spot sales there were large. Furthermore, the weather at the South was rather cool, including Texas, for which still lower temperatures were predicted. Wall Street and the South bought here and so did some of the leading bulls. Spot cotton has been more active and firm. Middling upland closed at 11.30c., an advance for the week of 10 points.

The rates on and off middling, as established Nov. 21 1906 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

Fair	Strict low midc_ 0.14 off	Middling tinged_c_ 0.12 off
Strict mid. fair 1.75 on	Fully low mid 0.32 off	Strict low mid.ting 0.46 off

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

The above totals show that the interior stocks have decreased during the week 10,007 bales, and are to-night 21,160 bales more than at the same time last year. The receipts at all the towns have been 378,786 bales less than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.-We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

EGRAPH.—Our teleevening indicate that rain has been quite general during the week and that in some localities, particularly in districts of Louisiana and Alabama, the precipitation has been excessive. There are also complaints of too low temperature by some correspondents. As a result of the unfavorable weather, farm work has, as a rule, made rather slow progress.

Galveston, Texas.-Frost and cold weather have set the crop back considerably in Texas and some re-planting is reported. We have had excessive rain on three days during the week, the rainfall being three inches and thirty-two hundredths. The thermometer has averaged 66, ranging from 55 to 77.

Abilene, Texas.-We have had rain on three days during the week, the rainfall being thirty hundredths of an inch. The thermometer has ranged from 38 to 88, averaging 63.

Brenham, Texas.-Rain has fallen on four days of the week, the rainfall being one inch and ninety-eight hundredths.

Average thermometer 64, highest 79, lowest 48. Corpus Christi, Texas.—It has rained on three days during the week, the precipitation being seventy-four hundredths of an inch. The thermometer has averaged 63, the highest being 74 and the lowest 52.

Cuero, Texas.—There has been rain on four days during the week, to the extent of one inch and ninety-four hundredths of an inch. The thermometer has averaged 63, ranging from 46 to 82.

5:

Luling. Texas.—Rain has fallen on three days of the week, the precipitation being eighty-eight hundredths of an inch. The thermometer has averaged 63, ranging from 45 to 81. Nacogdoches, Texas.—There has been rain on four days

during the week, the rainfall reaching eighty-eight hundredths of an inch. The thermometer has ranged from 39 to 75, averaging 57.

Palestine, Texas.-We have had rain on four days of the week, the precipitation reaching eighty-two hundredths of an inch. Average thermometer 67, highest 76, lowest 46.

Paris, Texas.-There has been rain on one day during the week, the rainfall being eighty hundredths of an inch. The thermometer has averaged 50, the highest being 59 and the lowest 40.

San Antonio, Texas.—We have had rain on three days during the week, the rainfall being one inch and ten hundredths. Thermometer has averaged 64, ranging from 46 to 82

Weatherford, Texas.—There has been rain on two days the past week, the rainfall being forty-nine hundredths of an inch. The thermometer has ranged from 37 to 84, averaging 61

New Orleans, Louisiana.-We have had a rainfall of thirteen inches and ten hundredths during the week, on five days. Average thermometer 64.

Shreveport, Louisiana.—It has rained on three days of the week, the rainfall being two inches and seventy-nine hundredths. The thermometer has averaged 63, the highest being 81 and the lowest 45.

Leland, Mississippi.—There has been rain during the week, the rainfall reaching sixty-nine hundredths of an inch. Thermometer has ranged from 40 to 70, averaging 52.3.

Vicksburg, Mississippi.-Rain has fallen on five days of the week, the rainfall being eighty-six hundredths of an inch. Average thermometer 59, highest 75, lowest 47.

Helena, Arkansas.—Weather too cold for farm work much of the week and little done. There has been rain on three days during the week, the precipitation being one inch and twenty-five hundredths. The thermometer has averaged 55.4, ranging from 43 to 78.

Little Rock, Arkansas.—The weather has been abnormally cold the past week and there are numerous complaints of poor stands and damage by cut-worms, necessitating extensive replanting. Rain has fallen on one day of the week, the rainfall being one inch and thirty-eight hundredths.

The thermometer has averaged 59.5, ranging from 43 to 76. Memphis, Tennessee.—Weather more favorable and cotton planting has made good progress, but the week closes cold and rainy. There has been rain on one day the past week, the rainfall being sixteen hundredths of an inch. Average thermometer 55.6, highest 76.3, and lowest 40.8. Nashville, Tennessee.—We have had rain on one day of the

past week, the rainfall reaching eight hundredths of an inch. The thermometer has averaged 59, the highest being 80 and the lowest 37.

Mobile, Alabama.—Heavy rains and lower temperature in the interior early part of week. Cotton planting is making moderate progress. We have had rain here on four days of the week, the rainfall reaching eight inches and twentyfour hundredths. The thermometer has averaged 63, ranging from 53 to 73.

Montgomery, Alabama.-Continued heavy rains and generally unfavorable weather have injured cotton considerably. Much re-planting will be required and good seed scarce. We have had rain on five days during the week, the rainfall being three inches and six hundredths. The thermometer has ranged from 47 to 78, averaging 60.

Madison, Florida.-We have had rain on two days of the week, the precipitation reaching two inches and fifty hun-dredths. The thermometer has averaged 65, the highest being 80 and the lowest 54.

Savannah, Georgia.-We have had rain on five days during the week, the rainfall reaching one inch and ten hundredths. The thermometer has ranged from 50 to 82, averaging 64.

Charleston, South Carolina.—We have had rain on five days of the past week, the rainfall reaching eighty-six hundredths

This statement shows that the receipts for the week were 3,000 cantars and the foreign shipments 7,200 bales.

EUROPEAN COTTON CONSUMPTION TO APRIL 1.-By cable to-day we have Mr. Ellison's cotton figures brought down to April 1. We give also revised totals for last year that comparison may be made. The spinners' takings in actual bales and pounds have been as follows:

Oct. 1 to April 1.	Greåt Britain.	Continent.	Total.
For 1906-07. Takings by spinnersbales. Average weight of baleslbs. Takings in pounds	505	484	
For 1905-06. Takings by spinnersbales. Average weight of baleslbs. Takings in pounds.	499	482	

According to the above, the average weight of the deliveries in Great Britain is 505 pounds per bale this season against 499 pounds during the same time last season. The Continental deliveries average 484 pounds, against 482 pounds last year, and for the whole of Europe the deliveries average 492.3 pounds per bale, against 489.1 pounds last season. Our dispatch also gives the full movement for this year and last year in bales of 500 pounds.

Oct. 1 to April 1.		1906-07	· .	1	1905-06.	
Bales of 500 lbs. each. 000s omitted.	Great Britain		Total.	Great Britain		Total.
Spinners' stock Oct. 1 Takings to April 1	253 2,390	556 3,486	809 5,876		621 2,896	877 5,067
Supply Consumption, 26 weeks	2,643 1,951	4.042 2.730	6,685 4,681	2.427	3,517	5,944 4,550
Spinners' stock April 1	692	1,312	2,004	503	891	1,394
Weekly Consumption 000s omitted. In October In November In December In January In February In March	74 74 75 75 76 76	105 105 105 105 105 105	179 179 180 180 181 181	74 74	101 101 101 101 101 101	175 175 175 175 175 175

The foregoing shows that the weekly consumption is now 181,000 bales of 500 pounds each, against 175,000 bales of like weights at the corresponding time last year. The total spinners' stocks in Great Britain and on the Continent have increased 240,000 bales during the month and are now 610,000 bales more than at the same date last season.

We are also advised that Mr. Ellison, calculating on the basis of an American crop of 13,500,000 bales, estimates that stocks of American cotton will be approximately 2,504,000 bales at the end of the season, as follows: at European mills, 1,000,000 bales; at European ports, 1,004,000 bales; and at American ports, 500,000 bales.

NATIONAL ASSOCIATION OF COTTON MANU-FACTURERS.-Annual Meeting.-It has been announced by the Secretary of the National Association of Cotton Manufacturers that the eighty-second annual meeting will be held at Boston on April 24 and 25. Some of the papers expected to be submitted will cover the following subjects: "American Cotton Textiles in the Far East;" "Corporations and the Public Welfare;" "Cost of Maintenance and Depreciation in Cotton Textiles Welfare and Depreciation in Public Welfare;" "Cost of Maintenance and Depreciation in Cotton Mills;" "Hot Water Heating by Forced Circulation as Applied to Cotton Mills;" "Immigration of Textile Op-eratives;" Primitive Designs as Influenced by the Textile Arts;" "Proposed System for Cleaning Machinery;" "Re-inforced Concrete Construction Especially Applied to Mill Use;" "Sea Island Cotton;" "The Tariff on Cotton Goods;" "Taxation and Valuation with Reference to Industrial Plants;" "The New Whitin Comb;" "The New York Cotton Contract." "The Textile School a Future Necessity to the Contract;" "The Textile School a Future Necessity to the Industry." The following officers were elected: President, William D. Hartshorne, agent of the Arlington Mills, Lawrence, Mass.; Vice-Presidents, Charles T. Plunkett, of Adams, and George Otis Draper of Hopedale, Mass.; directors for three years, William H. Loftus of Newark, N. J.; John W. Knowles of New Bedford and Henry F. Mansfield of Utica, N. Y.; di-rector for two years, Edwin Farnham Greene of Boston; director for one year, Frederick A. Flather of Lowell; Secretary and Treasurer, C. J. H. Woodbury of Lynn.

of an inch. Average thermometer 62, highest 75, lowest 50.

Greenwood, South Carolina.-Rain has fallen on two days of the week, the rainfall being two inches and five hundredths. The thermometer has averaged 57, highest 68, lowest 46.

Charlotte, North Carolina.-We have had rain during the week, the rainfall reaching one inch and sixty-eight hundredths. Thermometer has ranged from 40 to 75, averaging 57

The following statement we have also received by telegraph, showing the height of rivers at the ponits named at 8 a. m. of the dates given:

1004-00	2,000	24,000	26,000	26,000	367,000	393,000			

According to the foregoing, Bombay appears to show an increase compared with last year in the week's receipts of 5,000 bales. Exports from all ports India record a loss of 21,000 bales during the week and since Sept. 1 show an increase of 199,000 bales.

SHORT TIME IN EAST INDIAN MILLS .-- Recent advices are to the effect that the owners of the Bombay cotton spinning mills have decided by a large majority to work short time, in order to reduce the large unsold stock of yarn in China. It has been decided to close the mills three days a week, including Sunday, and work only thirteen hours a day. This arrangement will continue until June 15 next.

MANCHESTER MARKET .- Our report received by cable to-night from Manchester states that the market is firm for both varns and shirtings.

#### BREADSTUFFS.

Friday, April 26 1907.

Prices for wheat flour have been firm, influenced by the advance in wheat and unfavorable reports in regard to the wheat crop. At the mills flour quotations have been advanced. Trade here, however, has been so dull that prices have been to a large extent nominal. Dealers show as little disposition as ever to replenish their supplies. Export business has been stagnant and the shipments from the seaboard have been small. Rye flour has been quiet and steady. Corn meal has been dull but firm.

Wheat has continued to feel the effects of bad weather in the Southwest, where there has been too little rain and too much cold weather, and where, moreover, it is said the crop has been damaged. Reports differ as to the amount of the damage, but the consensus of opinion is now that it has been sufficient to warrant some advance in prices, although, as usual, it has doubtless been exaggerated. In addition, bad crop reports have come from Roumania and Hungary, and those from Spain have not been altogether favorable. It is significant, too, that European markets begin to place more credence in the reports of American damage, judging from the sharp advance there of late, particularly in Liverpool. That market, however, has also been influenced by the reports from Roumania and Hungary and the fact that offerings have been light. Another interesting factor contributing to the advance here has been a noteworthy increase in the export demand, which also seems to indicate that Europe is not altogether incredulous concerning the reports of damage on this side of the water. The weather at the Northwest has been so cold as to delay seeding of spring wheat. Seeding in the Canadian Northwest is said to be ten days behind, and some fear is expressed that the acreage may be curtailed, owing to more or less general floods in the valleys, which, if not serious, at least mean that there is so much water in those sections that it retards farm work. The Argentine shipments have also fallen off noticeably, although the total world's shipments last week, it is worth recalling, were very much larger than in the previous week and in the corresponding week last year. It is also true that the Northwestern receipts have been large, and light rains in Kansas have at times caused selling. On the whole, how-ever, the market has been distinctly strong, flour has advanced at the mills, the rise in foreign markets has greatly encouraged the believers in better prices for wheat, and for the first time in a long period exporters really show some desire to take hold and do business, and the actual transactions with Europe have reached a large volume. To-day prices rose sharply on sensational reports of damage to the crop and general buying. The speculation was active and excited. DAILY CLOSING PRICES OF WHEAT FUTURES IN NEW YORK

Indian corn futures have advanced under the stimulus of cold weather at the West, where farm work has been delayed. The speculation at the West has been active, and the strength of May has had a bracing effect on the later positions. The cash market has been strong, moreover, and at times the export demand has been active. The strength of the Liverpool market has had considerable effect here. The receipts at Chicago have continued small and contract supplies are still light. Leading Chicago operators have bought freely at times, and there has been a good demand at the West from commission houses. To-day prices advanced on the advance in wheat, a strong cash market and general buying.

GOVERNMENT WEEKLY WEATHER REPORT.—Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the weather in the various States for the week ending April 22, summarizing them as follows:

for the week ending April 22, summarizing them as follows: The week ending April 22 1907 is the third consecutive week of abnormally cold weather in the districts east of the Mississippi River. The period from the 8th to the 22nd was abnormally cold throughout the country east of the Rocky Mountains; the last seven days had a mean temperature considerably below the normal in the Plateau regions and in all districts to the eastward, with the exception of Florida, the temperature was decldedly below the normal, the most marked deficiencies occurring in the central valleys. The general weather conditions of the week were unfavorable in nearly all districts east of the Rocky Mountains, but on the Pacific Coast and in the Southern Plateau region they were favorable. Freezing weather prevalled as far south as northwestern Texas, the central Mississippi and upper Ohio valleys, western North Carolina and to the New Jersey coast, with heavy frosts as far south as Arkansas and Tennessee. Except in the Gulf States and over the southeastern Rocky Mountain slope, where the precipitation was much above the normal, the week was generally dry, large areas in the central valleys and Lake region receiving no rain or only inappreciable showers. There was also a practical absence of rain on the northern New England coast, in southern Florida, southern Oregon and over the western portions of the central and southern Oregon and over the itel and 18th, and scattered hallstorms in the South Atlantic States on the 18th. There was much cloudiness in the South Atlantic and Gulf States, but ample sunshine in the central valleys.

The statement of the movement of breadstuffs to market as indicated below are prepared by us from figures collected by the New York Produce Exchange. The receipts at Western lake and river ports for the week ending last Saturday and since Aug. 1 for each of the last three years, have been:

Oats for future delivery in the Western market have advanced, owing to unfavorable weather and crop reports. The reports of damage have caused active buying by commission houses at times and shorts have covered freely. Much replanting will be necessary, it is stated. The cash market has been firm and active. The receipts have been light and the market has sympathized with the upward movement in wheat. To-day prices advanced on the rise in wheat, bullish crop reports, covering, and buying by commission houses.

### THE DRY GOODS TRADE.

New York, Friday Night, April 26 1907.

A change in the weather to more seasonable conditions has helped local trade somewhat, but reports from the interior indicate that distribution is still held in check to some extent by low temperature. The general demand at first hands has ruled moderate, but still sufficient to disclose how clearly the market keeps sold up in the great majority of lines. Jobbers and the cutting-up trade, in their endeavor to secure prompt deliveries of some descriptions of cotton goods, have gone over the border to Canada, but have found conditions there much as here, supplies available for quick shipments practically nil. Last week it was stated that some irregularity existed in the division of the market most susceptible to the influence of the export trade; this irregularity is still apparent and the tone in cotton yarns is as easy this week as last. It has been noticeable that manufacturers in some directions are willing to book orders for the more distant deliveries at a considerable discount from prices current for spot or near positions, particularly in goods for converting purposes; but there is no evidence of weakness in finished fabrics or any delivery for which buyers are desirous of placing orders. Conditions outside of the actual market, such as the course of raw material, the financial situation, &c., play little part in current business; nor does it seem likely that they will become active factors for some time to come, or while the present scarcity of supplies continues. The woolen goods division shows few of the characteristics distinguishing cotton goods, and in this buyers have no difficulty in securing needful supplies.

There have been reports of some inquiries coming to the market for heavy brown cottons for China, but they have failed to find expression in the shape of actual business, and export grades of both brown sheetings and drills continue irregularly in favor of buyers. Weights desirable for home consumption are still scarce and firm for near deliveries, with some sellers willing to consider bids for more distant positions at prices below current quotations. In print-cloth yarn goods this feature is quite noticeable, but both regular print cloths and other constructions are very firm for spots and for deliveries over the summer; regulars are quoted unchanged at  $4\frac{1}{2}c$ . Business in prints has again been liberal in comparison with the supplies available, with sellers careful in taking forward orders. The printed fab-rics also are easier to sell than to buy. Ginghams in all grades are strong, with some of the lower-priced dress ging-hams advanced about 5%. As noted last week, bleached muslins are nearly all held at value, and on that condition orders are coming forward quite freely. Fine grades are not obtainable at first hands in any quantity, and many lower qualities have worked into a like position. The market for napped and coarse, colored cottons has not presented any new feature of importance, conditions being against buyers and current business moderate. Linings and other converted goods are in steady request at firm prices.

WOOLEN GOODS.—A slight improvement is reported this week in the orders coming to handfor men's wear woolen and worsted trouserings and suitings; but the increase has again failed to satisfy sellers' expectations. Most of the business coming forward is in the medium grades of woolen goods. These are as a rule well sold in qualities up to \$1 50. per yard, and an occasional agent is so well placed that some advance in price is probable in the near future. The indications of greater favor towards worsted fabrics, recently noted, have hardly been forthcoming this week, the re-orders being of quite moderate extent. Sellers are evidently making progress with their spring lines for next year, but as yet few samples have been put out in the market. When samples are fu'ly shown, all wool fancies will, it is expected, again figure prominently. Re-orders for overcoatings have been indifferent again, and this division of the market continues unsatisfactory. In woolen and worsted dress goods business has reached fully average proportions, voiles, panamas and broadcloths being in best request.

FOREIGN DRY GOODS.-Imported woolen and worsted dress goods and men's wear fabrics have passed through a quiet week without special feature. Silks and ribbons are firm, with a fair demand. Linens continue very strong for both immediate and more distant delivery. Burlaps are still tending upwards, with demand in excess of supply.

### Importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending April 20 1907 and since Jan. 1 1907, and for the corresponding periods of last year, are as follows:

### THE CHRONICLE.

#### APR. 27 1907.

## STATE AND CITY DEPARTMENT.

#### **News** Items.

Cleveland, Ohio.—Future Bond Issues Must Be Authorized by Vote.—The State Supreme Court on April 16 sustained the ruling first made by Judge Phillips and later upheld by the Circuit Court that the city had reached the limit of bonds which could be put out under the Longworth Act (Sections 2835, 2835b, 2836 and 2837 of Revised Statutes) without first being authorized by a vote of the people. Improvements to be made hereafter can be provided for only by bond issues which have been sanctioned by the people, the law specifying that two-thirds majority is necessary to au-thorize. Local papers state that some of the bonds which were to have been put on the market are as follows: General sewers, \$275,000; intercepting sewers, \$275,000; new market house, \$100,000; new city-hall, \$250,000; parks, \$275,000; new workhouse, \$175,000; tuberculosis and contagious dis-ease hospital at Warrensville, \$143,000; two new fire-engine houses, \$40,000; street-openings, \$20,000; new appliances at garbage plant, \$20,000, and boy's farm at Hudson, \$10,-000. In addition to these securities, upwards of ten million dollars of bonds are contemplated for rebuilding the Central Viaduct, for bridge building, for improvements on the lake front and for the abolition of grade-crossings.

Connecticut.—House Passes Bill Regarding Savings Deposits in Banks and Trust Companies.-The House has passed the bill regulating the investment of savings deposits of banks and trust companies which maintain a savings department. The text of this bill was given in full in V. 84, p. 949.

Maine.—Amendments to Savings Bank Law.—The Legislature of 1907 made numerous changes in the savings bank investment law by an Act approved by the Governor March 18. The law as it now stands is given below, that portion of the old law omitted being indicated by brackets, while the new portion is italicized.

SECTION 23. Savings banks and institutions for savings are restricted to and hereafter may invest their deposits as follows: First, a. In the public funds of the United States and District of Columbia. b. In the public funds of any of the New England States and of the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas [and] Nebraska, California, Oregon and Washington. Second a. In the bonds of the counties, cities and towns of any of the

of New York, Pennsylvania, Maryland, Ohio, Indiana, Kes hucky, Michigan, Wisconsin, Minnesota, Iowa, Illinols, Missouri, Kansas [and] Nebraska, California, Oregon and Washington.
 Second, a. In the bonds of the counties, cities and towns of any of the New England States.
 b. In the bonds of cities and districts in the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas [and] Nebraska, California, Oregon and Washington, having a population of seventy-five thousand or more, when issued for municipal purposes, and which are a direct obligation on all the taxable property therein.
 c. In the bonds of counties of twenty thousand inhabitants or more in the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas [and] Nebraska, California, Oregon and Washington, when issued for municipal purposes, and which are a direct obligation on all the taxable property therein for the assessment of taxes.
 d. In the bonds of any city of ten thousand inhabitants or more in the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas [and] Nebraska, California, Oregon and Washington, when issued for municipal purposes, and which are a direct obligation on all the taxable property therein for the assessment of taxes.
 d. In the bonds of any city does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes.
 e. In the rofunding bonds of counties and cites above enumerated issued to take up at maturity bonds which were legal and constitutional when issued provided that the interest has been fully paid on such original bonds for at least five years last prior to such refunding; provided that the net municipal indebtedness of such city does not exceed 5% of the last preceding va

secured by an open mortgage shall be legal under this section unless the mortgage provides that the total amount of bonds certified and outstanding under it shall at no time exceed seventy-five per cent of the amount of cash expended upon the road.

at no time exceed seventy-five per cent of the amount of cash expended upon the road. g. In consolidated or refunding bonds which are of an issue to retire the entire funded debt under the conditions as applied to first mortgage bonds in clauses b, c and f of this sub-division, and which are secured by a first mortgage on the whole or any part of the system. Fourth. In the mortgage bonds of any water company in the New Eng-land States actually engaged in supplying any city or citles, town or towns, village or villages, or other municipal corporations, with water for domestic use and for the extinguishment of fires, whenever such company is earning more than its fixed charges and interest on its debts and its running expenses. Fifth. In bonds of any corporation other than railroads and water com-panies incorporated under the authority of this State and actually conduct-ing in this State the business for which such corporation was created, which are earning and are paying a regular dividend of not less than 5% a year. Sixth, a. In the stock of any bank or banking association incorporated under the authority of the State. b. In the stock of any railroad company of this State unencumbered by mortgage. d. Un, the stock of any railroad company of this State unencumbered by mortgage.

c. In the stock of any failload company of mortgage. d. [In the stock of any dividend-paying railroad in New England.] In the bonds, stock or notes of any railroad in New England which has earned and paid an annual dividend equivalent to five per cent on a capital stock equal to one-third of its funded debt for a period of ten years next prior thereto, and in the stock or notes of the New York Central & Hudson River, the Illinois Central, the Lake Shore & Michigan Southern and the Pennsylvania Railroad companies.

compantes. e. In the stock of any railroad leased to any dividend-paying railroad in New England upon terms guaranteeing the payment of a regular stated dividend upon the stock of such leased road and the interest on its bonds. f. In the stock of any corporation other than railroad and water com-panies, incorporated under authority of this State, and actually conducting in this State the business-for which such corporation was created, which earns and is paying a regular dividend of not less than 5% a year. Seventh, a. In loans secured by first mortgages of real estate in this State and New Hampshire to an amount not exceeding 60% of the value of such real estate.

and New Hampshire to an amount not exceeding 60% of the value of such real estate. b. In notes with a pledge as collateral of any [public funds or bonds of any kind or of any stocks] funds, bonds, notes or stocks which the bank or institution would, by this section, be authorized to purchase: provided the market value of said collateral is equal to the amount of the loan. c. In notes with a pledge as collateral of any savings bank deposit book issued by any savings bank in this State. d. In notes with a pledge as collateral [of the stock of any railroad or railroads mentioned in this section] of such funds, bonds, notes or stocks as in the judgment of the trustees it is safe and for the interest of the bank to accept, to an amount not exceeding 75% of the market value of such [stock] funds, bonds. notes or stocks.

in the judgment of the trustees it is safe and for the interest of the bank to accept, to an amount not exceeding 75% of the market value of such [stock] funds, bonds, notes or stocks.
e. In loans to any municipal corporation in this State.

In loans secured by a mortgage of such personal property as in the judgment of the trustees it is safe and for the interest of the bank to accept.
In loans secured by a mortgage of such personal property as in the judgment of the trustees it is safe and for the interest of the bank to accept.
In loans to any corporation owning real estate in this State and actually conducting in this State the business for which such corporation was created. Eighth. a. The term "net municipal indebtedness of counties" as used in this section shall be construed to include all bonds which are a direct obligation of the county less the amount of any sinking fund available in the reduction of such debt.
b. The term "net municipal indebtedness of cities and districts," as used in this section, shall be construed to include in the case of either not only all bonds which are a direct obligation of the case of either not only all bonds which are a direct obligation of the case of either not only all bonds which are a direct obligation of the amount of any sinking fund available in reduction of such debt.
c. The number of inhabitants of cities and counties shall be determined by the last previous official census thereof, as established by the last United States or State census or city or county census taken in the same manner as United States or State census and duly certified to by the clerk or the awaitor or the auditor or treasurer of such county. Ninth. All investments shall be charged and entered on the books of the bank at their cost to the bank or at par when a premium is pald.

Ninth. All investments shall be charged and entered on the books of the bank at their cost to the bank or at par when a premium is paid. SECTION 24. Any such bank or institution may hold real estate in the city or town in which such bank or institution is located to an amount not exceeding 5% of its deposits or to an amount not exceeding its reserve

fund

not exceeding 5% of its deposits or to an amount not exceeding its reserve fund. SECTION 25. No such bank or institution shall held by way of invest-ment, or as security for loans, or both, more than one-fifth of the capital stock of any corporation, nor invest more than 10% of its deposits, not exceeding sixty thousand dollars, in the capital stock or notes of any cor-poration, nor have more than 50% of its deposits in mortgages of real estate. This section and the two preceding do not apply to real estate, or other assets, acquired by the foreclosure of a mortgage thereon, or upon judgment for debts, or in settlements to secure debts. This section does not apply to bonds enumerated in the first five sub-divisions of section twenty-three of this chapter. SECTION 26. Savings banks and institutions for savings may deposit on call in banks or banking associations incorporated under the authority of this State, or the laws of the United States, and receive interest for the same. SECTION 27. The trustees shall see to the proper investment of deposits and funds of the corporation in the manner hereinbefore prescribed. No loan shall be made directly or indirectly to any officer of the corporation or to any firm of which such officer is a member. Minnesota.—Leaislature Adiourns.—The Legislature of

Minnesota.—Legislature Adjourns.—The Legislature of this State adjourned April 24.

New York City.-Estimated Cost of Improvements.-Chief Engineer Lewis recently submitted to the Board of Estimate and Apportionment an estimate of the cost of improvements already authorized by the Board or now pending, or of which the Board has knowledge, or for which it will be called upon to provide before Jan. 1 1910. These improvements contemplate an expenditure of nearly 200 millions of dollars. The estimates follow:
