Federal Reserve Bank of St. Louis

THE FINANCIAL SITUATION.

The stock market has been extremely variable, prices declining materially Monday and Tuesday. On Wednesday a check in the decline and a partial recovery in values was a feature, which after the holiday, Thursday, seemed to be continued. The situation the first two days indicated an approach to general railroad insolvency and an absolute loss of credit in everything dealt in at the Exchange. Investors who had freely put their money in the securities of our railroads and leading industrials, and given it and them to the public for their advantage and benefit, found themselves and their properties jumped upon by the leading politicians in every State in the Union and they themselves deprived of ownership, the passenger and freight rates being arbitrarily fixed by law below a figure sufficient to yield revenue enough to cover expenditures and waste and proper remuneration for the capital invested. The State officials, joining in these harsh and confiscatory measures, took their cue from the leader of the Republican Party, who has pursued the policy indicated all through his administration, seeking to secure the favor of the discontented and socialistic classes, until he has made his party, though holding the position of conservatives during past years, at the present time out-bidders for the votes of the Bryanites and radicals.

The foregoing conclusions are fortified and confirmed by Mr. Roosevelt's Memorial Day speech at Indianapolis on Thursday. We credit the President with good intentions. The speech is a well-meant effort to allay the feeling of uneasiness with reference to his policy towards the railroads, which has been steadily growing in recent months. But whether it will have the effect intended is open to question. As is nearly always true of Mr. Roosevelt's extended utterances, there are many excellent passages in his speech-passages worthy to adorn a book on ethics-but, completing the analogy with the past, these are overbalanced by other statements and remarks which tend to increase alarm rather than quiet it. These passages, taken apart from their context and quoted separately and printed in conspicuous type, as has been done in some of the daily papers, look very encouraging and create a good impression; the feeling of satisfaction in great measure disappears when they are read in connection with the rest of the sentence or paragraph, and it is seen that the favorable meaning which they seemed to have must be very greatly qualified.

What, for instance, could be more assuring than this: "One great problem that we have before us is to preserve the rights of property." Seeing that quotation by itself, one is led almost involuntarily to say that it is the whole case, and the President after all understands the situation perfectly. But when we search for the quotation in the speech, we find that it is simply the opening clause of a sentence containing a second clause, and that the latter is much the more important, the first serving simply as a basis for the second, so that the completed sentence reads as follows: "One great problem that we have before us is to preserve the rights of property, and these can only be preserved if we remember that they are in less jeopardy from the Socialist and the Anarchist than from the predatory man of wealth." By the way, "preda-

newspapers and on the stump during the late gubernatorial campaign. The sentence quoted from the President's speech is followed by the remark: "There can be no halt in the course we have deliberately elected to pursue, the policy of asserting the right of the nation, so far as it has the power, to supervise and control the business use of wealth, especially in its corporate form." With this before us, one is reluctantly forced to the conclusion that there is to be no change of policy after all.

Indeed, great pains are taken to announce that the President's views and determination remain unaltered, and that the object of the speech is simply to indicate that this policy is not to have the serious consequences feared. "Every Federal law," we are told, "dealing with corporations or with railroads that has been put upon the statute books during the last six years (the period of Mr. Roosevelt's incumbency of office, though he does not say so) has been a step in advance in the right direction." "There must be vested in the Federal Government a full power of supervision and control over the railways doing inter-State business; a power in many respects analogous to and as complete as that the Government exercises over the national banks." "The movement to regulate railways by law has come to stay. The people of this country have made up their minds-and wisely made up their minds-to exercise a closer control over all kinds of public service corporations, including railways." "We ask the consent of no man in carrying out this policy, but we gladly welcome the aid of every man in perfecting the law inits details and in securing its enactment and the faithful observance of its wise provisions."

There are many very assuring statements in the speech, such as the remark "We would be the first to protest against any form of confiscation of property," and "We wish to make it to the interest of the investor to put his money into the honest development of the railroads." But all these are subject to the qualifications already mentioned. What is the President's attitude on the all-important subject of a valuation of the roads? Until that question is settled no securityholder in any given property can know where he stands; and so long as there is uncertainty as to the valuation the Government is to put on a road, any return of confidence is clearly beyond the realm of probability. As on all other points, Mr. Roosevelt begins in a very convincing fashion, saying: "There has been much wild talk as to the extent of the over-capitalization of our railroads." He also takes occasion to state that "the Census reports on the commercial value of the railroads of the country, together with the reports made to the Inter-State Commerce Commission by the railroads on their cost of construction, tend to show that, as a whole, the railroad property of the country is worth as much as the securities representing it"which is reassuring as far as it goes. There is added the further statement that "when the statistics of the weaker roads, the over-capitalized roads, are combined with those of the stronger roads, and considered in the aggregate, in my judgment they will not be found to impair the wholesome financial standing and position of the railroads as a whole." This is also very good as far as it goes. But who is to know whether he holds a stock or bond in a weak and over-capitalized road or in one of the other kind? tory" is the word so freely used by Mr. Hearst in his | Heretofore market values have determined that fact,

but now Government dictum is to settle the matter and in the meantime every one will be at sea.

Mr. Roosevelt declares emphatically for Government valuation. He says: "Ample provision should be made by Congress to enable the Inter-State Commerce Commission, by the employment of a sufficient force of experts, to undertake the physical valuation of each and any road in the country, whenever and so soon as in the opinion of the Commission such a valuation of any road would be of value to the Commission in its work." He admits that "physical valuation is no panacea," and that "the physical valuation can never be more than one of many elements to be considered; but it is one element, and at times may be a very important element." The effect of such valuation and supervision of securities is not to be retroactive, but "the public interest requires guaranty against improper multiplication of securities in the future." Over-capitalization, we are told, "always conceals the true relation of the profit earned to the capital invested, creating a burden of interest payments which may redound to the loss alike of the wageearner and the general public, which is concerned in the rates paid by shippers." The words which we have here put in italics explain why a contemplated valuation is proving so disturbing. It is felt that the purpose is not merely to show whether or not there is more or less water in the capitalization in any given case, but that figures of valuation are desired as a plea or a justification for cutting down rates.

The President well says: "It is all-essential that they (the people) should not lose their heads and get drawn into an indiscriminate raid upon all corporations, all people of wealth, whether they do well or ill." Furthermore, that "if the demand for more taxes, for higher wages, for shorter hours for employees and for lower rates become so excessive as to prevent ample and speedy transportation and to eat up the legitimate profits; if popular and legislative movements take a shape so ill-directed as not only to threaten honest investments and honest enterprises, but also to prevent any effort for the betterment of transportation facilities, it then becomes out of the question to secure the necessary investment of capital in order to bring about an improved service." This is gospel truth, and we are glad that the President has seen fit to make public declaration of the fact. But on further examination it appears that this is simply part of a plea for more power, and to disarm criticism in that regard. For the paragraph quoted is immediately succeeded by the following statement: "Rates should not be unduly high; there should be a thorough safeguarding against accidents; there should be no improper shirking of taxes; the shippers of the country must be supplied generously with cars and all other equipments necessary to properly care for our commerce, and all this means that the National Government must be given full and effective power of supervision and control."

Thus we are brought right back to where we started, and see that though the words are softer and smoother, the purpose remains the same. This much, however, we think we are justified in saying: the elaborate attempt made by Mr. Roosevelt to dispel fears is an indication that he is slowly awakening to the dangers of the situation, and may sooner or later become impressed with the fact that persistence in the present course portends disaster. In that circumstance there

is greater promise of a possible modification of the harmful policy pursued than in the many palpably assuring statements and remarks scattered throughout the address.

Rumors have from time to time been current that Secretary Cortelyou would, shortly after the first of June, withdraw the 30 million dollars placed in depositary banks by ex-Secretary Shaw on the occasion of the monetary stringency last September. The idea has been suggested that this fund would be transferred to the Sub-Treasury early in June preparatory to its use in redeeming the 4s of 1907 due July 1. This proposal has seemed to indicate a very unnecessary interference with the smooth running of our money market at the most critical period of the year. It would include the withdrawal of 30 millions of dollars (or a considerable part thereof) out of the depositary banks into Treasury vaults, to be locked up there and kept out of the money market until after the opening of the new fiscal year. This course, it has been stated, was required, the claim being that no statute exists authorizing the withdrawal of the 30-million-dollar deposit from depositaries directly to each bondholder in payment of his bond. That, we understand, is the ruling of Secretary Cortelyou, who is, very properly, not inclined to overstep his authority in the construction of his powers. All the statutes we can find directing the withdrawal of Government funds in depositary banks are the following:

Section 3593. All public moneys paid into any depositary shall be subject to the draft of the Treasurer of the United States, drawn agreeably to appropriations made by law.

tions made by law. Section 3640. The Secretary of the Treasury may, except as provided in the next section, transfer the moneys in the hands of any depositary of public moneys to the Treasury of the United States to the credit of the Treasurer; and he may transfer moneys in the hands of one depositary to any other depositary, as the safety of the public moneys and the convenience of the public service shall seem to him to require.

Section 3644. All moneys paid into the Treasury of the United States shall be subject to the draft of the Treasurer. And for the purpose of payments on the public account the Treasurer is authorized to draw upon any of the depositaries as he may think most conducive to the public interest and to the convenience of the public creditors. Each depositary so drawn upon shall make returns to the Treasury and Post-Office departments of all moneys received and paid by him, at such times and in such forms as shall be directed by the Secretary of the Treasury or the Postmaster-General.

Of the foregoing, Section 3644 (the second sentence in it) seems to be the only provision which would come near fitting the needs of this occasion. It reads, as will be seen, "and for the purpose of payments on the public account the Treasurer is authorized to draw upon any of the depositaries as he may think most conducive to the public interest and to the convenience of the public creditors."

United States Treasurer Treat, in his excellent address before the convention of the Missouri State bankers, held in Kansas City the latter part of May, stated that it has not been the practice of the Government to draw drafts or warrants on depositaries located in Sub-Treasury cities. They have been allowed to retain Government deposits under guaranty of bonds for safe-keeping. The Aldrich bill makes no change in this practice.

At the beginning of this week New York was the scene of disturbance greater than that which marked the acute crisis in March. Abroad the unsettling situation was also a present fact; the latter was the result of the discount of American obligations and consequent credit expansion and tension, which contributed to such a strain on banking resources as to compel liquidation and efforts by bankers to resort to more conservative methods. At home, as hereinabove stated, confidence in security values had been well-nigh destroyed through aggressive Federal and State legislation and by the inquisitory policies of the various departments of the Government. There seemed to be no prospect of an abatement of efforts on the part of the administrators of the newly enacted laws to attack constructive enterprises wherever they could be brought within the control of the Government's prosecuting agencies.

With confidence thus unsettled and the period of restoration uncertain, it needed but a comparatively slight impulse to precipitate an acute situation. In the previous week selling of securities by Paris in London and by British and French bankers in New Yorksuch operations by the former being for the purpose of reinforcing, with the proceeds of these sales, the gold reserves of the Bank of France, and by the latter with the view of attracting the metal from this centre with the object of augmenting the Bank of England stocks of gold-had indicated the existence of much stress abroad. The prospect of a serious shortage in our wheat crop and possibly of almost irreparable injury thereto, together with the depression in our securities as the result of discouraging and apparently irremediable impairment of revenues of industrial enterprises, made our market peculiarly sensitive to adverse influences.

The most potent of these influences was the disquieting decline in the London market on Monday, the direct cause for which seemed to be the insistent demand by French bankers for the South African gold which was offered in the London bullion market on that day, and also the later withdrawals from the Bank of England of an amount of the metal nearly equal to that which had been bought after successful competitive bidding against the Bank. The fall in British consols to almost unprecedentedly low figures was an event which could scarcely fail to have a greatly disquieting effect, and it is not surprising that Lord Rothschild had his confidence in the future of the situation rudely shaken. The successful competition of French bankers with the Bank of England which prevented that institution from obtaining any of the Cape gold, was, though, much more disturbing, because it seemed to indicate either a well-concealed purpose of France to dominate the financial markets of Europe, perhaps to the injury of Great Britain, or possibly of a knowledge of conditions in Russia which, if they should become acute, would make necessary the adoption of most effective precautionary measures.

Strikes seem just now on the wane. A prominent instance is the longshoremen's strike, probably as illadvised a move as labor ever inaugurated. In any strike, no matter how just the cause, cohesion is essential to success, and its absence has been a conspicuous defect in this case. A feature of labor troubles along shore has invariably been that the striker on the North River has been a strike-breaker on the East Side, and vice versa. And that is not a strange or unusual situation when it is remembered or understood that New York longshoremen probably constitute the highest paid class of unskilled workmen in the country. With a wage scale of 30 cents per hour for day work and 45 cents for nights, holidays and overtime, the sober and industrious man can and does make a good income.

The present strike began in a small way on Friday, May 3, and quickly spread until most of the steamship lines were involved. The first men went out without filing any general bill of complaint or making any specific demands, but subsequently an increase in wages of one-third (to 40 and 60 cents respectively) was named as the basis upon which the men would return to work. This the various companies maintained it was impossible to accede to, and they also claimed that the state of the freight market made it impossible to even consider any compromise. That the movement of ocean-bound freight has been seriously hampered has been apparent, but gradually the situation has improved until now many of the companies assert they have a normal force at work. Fortunately there has been little resort to violence, but the precautions taken by the management of the various lines probably explains this. The leaders of this strike practically confessed impending defeat last week, when they appealed to the Commissioner of Immigration in the matter of crews of vessels unloading and stowing cargo. But even here they received small comfort, the decision of the Commissioner being to the effect that each ship was within its rights in using its own crew to do the work. With the failure of this move to force such a construction of the Federal law as would assist in hampering the companies, the strike has practically come to an end.

Aside from the longshoremen's strike, there are not now, nor have there been recently, any labor troubles of importance. In accordance with an agreement entered into between the Consolidated Steamship Lines (comprising the Ward, Mallory, Clyde, Metropolitan and New York & Porto Rico lines) and the American Association of Masters, Mates and Pilots, the officers of the various vessels of the lines have been accorded the increase in wages for which they carried on a two-days' strike. Danger of a tie-up of the Washington & Potomac Steamboat Company's vessels was averted on Tuesday by acceding to the request of the engineers for more pay. The advances in wages granted to operatives in cotton mills at Fall River and elsewhere in New England have virtually removed all cause for discontent in that important industry, although the situation is a little strained at Lowell. It is reported from Chicago that before the end of the summer more than 200,000 unorganized laborers and clerks on Western railroads will have been granted voluntary increases in wages averaging 10%, and that some of the roads have already completed their new schedules.

A fair illustration of the drift of State legislation is Governor Hughes's Utilities bill which was sent back disapproved by the Mayor on Tuesday; present indications are clear that the Mayor's action will have no effect in checking re-passage, and that it will be rushed through the Legislature early next week. It has not been called for, except by Governor Hughes, who seems to desire it for the sake of the great power it bestows on himself and because it is an advanced step in line with the current movement upon associated capital.

It is hard to characterize in a few words a bill which proposes to take from many thousands of private owners the substantial control of their own property and commit it to the unguaranteed wisdom and uncovenanted mercies of a Commission created by the usual political methods. This prospect is enough of itself to startle the public into serious thinking. It certainly would give the public a start of breathless surprise had not the effect been discounted by a gradual and prolonged course of aggressive legislation, proceeding step by step like a rising tide; nay, such a measure, almost beyond precedent in the sweep and the lack of responsibility in the powers it proposes, and creating a political machine the like of which has not yet been known, would never have been brought up had not the way been prepared for it.

However, waiving this for the present, the bill challenges attention because of the absolutely unlimited expenditure which it authorizes. The salaries of the Commission members are fixed, but all else is left as wide open as language could make it. The Commissions may hire any number of assistants they please, in any capacity, and pay them any compensation; neither details nor total is limited. The State disburser is required to pay the bills in one of the districts created, and the city disburser is required to do the same in the other district, and not merely that, but to issue and sell revenue bonds for providing the money. Revenue bonds are themselves a bad piece of financing, for which the best available excuse is that, having gotten into this particular spendthrift habit, it is difficult to get out of it; but, aside from that, here is a measure which openly commits the State, as a whole, and the city as the chief part of it, and also on its own part, to obligations without limit or foresight.

Consider what this involves, and the condition of things in which such an indefinite undertaking is permitted. The State Constitution forbids creating any permanent "debt" without submission to the popular vote. Is this unlimited indebtedness such a "debt," or can we plunge into an unknown sea of expenditure under a political Commission merely because the obligation is not to be cast in the form of a time bond? Whether the Legislature can delegate power to bind taxpayers in such a loose manner, not to mention such power over private property as seems to be equivalent to taking it without compensation, is a question for the courts.

Yet, it is quite time we took note of the fact that it is unsafe to rely implicitly upon the courts to save us from the consequences of our own remissness or folly. It is not within the province of courts to overthrow statutes merely because they are foolish or even because they involve injustice. The people are sovereign and must be deemed bound by the acts of their chosen agents within the delegated authority. If the tendency to overstrain the organic law written in constitutions is very marked on the one hand, we must not expect that the courts, on the other hand, will overstrain that organic law in order to head off viola-

able living. Judges are but human, and they may weary of having too much protective work thrown upon them.

There was no change in official rates of discount by any of the European banks this week; compared with last week, unofficial, or open market, rates were, at the close, $\frac{1}{8}$ of 1% lower at London and at Paris, and steady at Berlin and Frankfort. One feature of the foreign situation was a somewhat disturbing fall in securities at London on Monday, when British consols sold at 841/4, said to be the lowest, for the second time this year, since 1848, when they were 80. The immediate cause for the decline in British funds appeared to be the procurement by French bankers of \$750,000 out of the \$5,000,000 South African gold that was offered on Monday, through outbidding of the Bank for the metal, and the subsequent withdrawal, by these bankers, of \$655,000 from the Bank; nearly all of the remainder of the Cape gold was secured by the India Council, which had it set apart in the Bank. The London securities market was at the time quite sensitive to unfavorable influences, because of rumors of impending failures at the settlement, and when it was seen that the demands of French bankers for gold had become even more urgent than before, general liquidation was precipitated, which was accelerated later by the suspension of a stock-jobbing house and by expectations of further failures. The Paris market grew heavy as the result of the derangement in London, and Berlin was also affected thereby. Lord Rothschild, when interviewed, expressed the opinion that the chief influences contributing to the generally depressed situation in Europe were President Roosevelt's attacks on the railroads in America, the income tax problem in France and the Socialist movement in England. He said that he could see no present prospect of improvement. There was a recovery on the London market on the following day, due to the absence of disturbing influences, and also to the fact that the French demand for gold had apparently been diverted from London to New, York. Discounts were, however, held firm, and, probably as an additional measure of protection against withdrawals of gold from London the price of the metal, which had been advanced on the previous day to 77 shillings $10\frac{3}{8}$ pence per ounce, as the result of competitive bidding, was maintained until Friday when there was a recession of $\frac{1}{8}$ of a penny. After Tuesday, the situation in the European markets gradually grew more normal.

The feature of the statement of the New York Associated Banks last week was an unexpected large increase in surplus reserve by \$4,216,200, to \$15,688,875. This was almost wholly due to a gain of \$5,851,100 in cash, the reserve requirements, caused by an increase of \$6,539,600 in deposits, being but \$1,634,900; loans were augmented \$1,580,800. The bank statement of this week should reflect, among other items, the withdrawal of \$3,310,434 gold for export to Paris and of \$500,000 for shipment to Canada.

It may be noted that refunding operations, which began April 2, have thus far resulted in the exchange of \$49,958,100 4s of 1907 for 2% consols. Redemptions of the 4% bonds and purchases thereof, under the circulars of Dec. 10, Feb. 11 and March 14, have been \$25,159,600. There remain only \$41,900 of the tions of the spirit of it and the clear dictate of reason- 4s to be refunded, out of the \$50,000,000 set apart for

that purpose, while the redemptions of the \$25,000,000 4s called for surrender appear to be completed. It is noteworthy that expectations of derangement to the money market as the result of exports of gold to Europe were not realized. The withdrawal of \$3,310,434 of the metal this week for shipment to Paris did not have even a sentimental effect upon the market for money, day-to-day loans being no higher than 21/2%, with a minimum of $1\frac{1}{4}\%$ and an average of $1\frac{3}{4}\%$. Loans for short fixed periods were not in request, and though those for longer maturities were fairly firm, there appeared to be only a light demand therefor. The offerings of call money were abundant, largely because of liquidations of speculative accounts, which were quite general on Monday, when there was a sharp and highly unsettling decline in security values. One factor contributing to low rates was the accumulation in the banks of funds of trust companies, these institutions being unable to obtain, through loans, as good rates as those paid by the banks on their balances; consequently such balances, together with those of the banks, were pressed upon the market for employment, generally at minimum rates. With an unsettled tone for securities outside trading was not encour-, aged; hence commission houses had no use for their balances and they were in active competition as lenders with the banks, thus augmenting the supply. In view of the fact that by July 1 the Treasury will begin to disburse about 42 millions for the 4s of 1907, those who had use for money preferred to procure it on call rather than for short fixed periods; traders who desired to make provision for longer maturities were unwilling to pay the rates for loans on collateral, and lenders were indisposed to make concessions because they could secure as satisfactory, if not better, rates on corporation notes.

Money on call, representing bankers' balances, loaned at the Stock Exchange during the week at 21/2% and at $1\frac{1}{4}\%$, averaging $1\frac{3}{4}\%$; banks quoted $1\frac{1}{2}\%$ as the minimum, but trust companies were not in the market. On Monday and on Wednesday loans were at 2% and at $1\frac{1}{2}\%$ with the bulk of the business at 134%; on Tuesday transactions were at 2% and at $1\frac{1}{4}\%$ with the majority at $1\frac{3}{4}\%$. On Friday loans were at $2\frac{1}{2}$ % and at $1\frac{3}{4}$ % with the bulk of the business at 134%. Time loans on good mixed Stock Exchange collateral were 21/2@3% for thirty, 31/2% for sixty and $3\frac{3}{4}$ @4% for ninety days, 4% for four, $4\frac{1}{2}$ % for five and 43/4% for six months and 51/4@51/2% for over-theyear. Commercial paper was quiet at $5@5\frac{1}{2}\%$ for sixty to ninety day endorsed bills receivable, $5@5\frac{1}{2}\%$ for prime and $5\frac{1}{2}\%$ for good four to six months' single names.

The Bank of England rate of discount remains unchanged at 4%. The cable reports discounts of sixty to ninety day bank bills in London $3\frac{3}{8}\%$. The open market rate at Paris is $3\frac{1}{4}\%$ and at Berlin and Frankfort it is $4\frac{5}{8}\%$. According to our special cable from London, the Bank of England gained £95,383 bullion during the week and held £35,237,110 at the close of the week. Our correspondent further advises us that the loss was due to large receipts from the interior of Great Britain. The details of the movement into and out of the Bank were as follows: Imports, £216,000 (of which £13,000 from Australia and £203,000 bought in the open market); exports, £733,000 (of which £377,000 to Paris, £200,000 to Singapore, £100,000 to South Africa and £56,000 to Java), and receipts of £612,000 *net* from the interior of Great Britain.

The foreign exchange market was generally strong this week, influenced by a good demand to remit for stocks sold for European account and also by a moderate supply of bankers' and commodity bills. Speculators took advantage early in the week of the pendency of gold exports, as indicated by the decline in Paris checks on London, and also by reports of negotiations for the shipment of the metal in considerable amounts to Paris as an arbitration operation. Speculative manipulation contributed to the maintenance of firm rates for short and cables on Saturday of last week, and likewise on Monday, until it was seen that the engagements of gold for Tuesday's steamer was small, and therefore that the immediate demands for export had been satisfied. Then speculators sold somewhat confidently, induced, apparently, by the expectation that no more gold would be shipped this week and that it was probable that Secretary Cortelyou would intervene, through calls for public deposits, to obstruct further exports. One feature, however, was the quite firm tone for francs at the goldexport point, indicating direct shipments hence to Paris. In view of the possibility of such movement speculative operations were more cautiously conducted, and, owing to an increased demand for remittance to pay for stocks sold abroad, sterling rates recovered and the market was strong thereafter, though long bills were exceptionally low because of dearer London discounts. The statement that Monday's engagement of gold for shipment to Paris was facilitated by the allowance of interest on the consignment while it was in transit indicated some urgency for gold in the French capital and it seemed to concentrate attention upon cable drafts, both sterling and francs, and also upon the fluctuations in checks at Paris on London. Inasmuch as the latter rose on Tuesday, it was regarded as probable that gold shipments had been arrested. On Wednesday, however, though exchange at Paris on the British capital was unchanged, the engagement of \$2,000,000 more gold was announced for shipment on Thursday, and it was then stated that arrangements for such export had been effected early in the week. The market was quite firm on Wednesday, closing at the highest for long and for cables. It may be noted that, owing to the absence of Secretary Cortelyou at Canton, Ohio, no action; if any was contemplated, was taken in the matter of recalls of public deposits from the banks, with the object of influencing exchange through dearer money. The fact that the gold exports did not have any effect upon the money market will, it is thought probable, induce the Secretary to refrain from intervention through withdrawals of Government deposits.

The gold which has been shipped to Paris this week is the first considerable amount that has been sent abroad since June 2 1905. Exporters this week were Goldman, Sachs & Co., who forwarded \$787,354 on Tuesday; Lazard Freres, who sent about \$1,000,000; Heidelbach, Ickelheimer & Co., \$500,000, and the Russo-Chinese Bank, \$500,000; an engagement by the first-named shipper on Friday of \$500,000 for export to-day (Saturday) makes a total for the week of \$3,- 310.434. It is stated that the exports were effected at a very small profit, but the employment of cables for the prompt procurement of reimbursement insured the shippers against the possibility of loss on the transaction, while the co-operation of the consignee in Paris of the gold with the exporters resulted in a saving to the latter of commissions and of other incidental items, as well as of interest on the consignments while they were in transit. Further exports will depend upon the factors of checks at Paris on London, the rate for exchange at New York on the British capital, the urgency of the French demand for the gold and the willingness of exporters to participate in the movement.

Nominal quotations for sterling exchange are 4 841/2 for sixty day and 4 871/2 for sight. On Satur, day of last week the market was strong at an advance, compared with the previous day, of 10 points for long to 4 8365@4 8375, of 5 points for short to 4 8680@ 4 8685 and of 10 points for cables to 4 8725@4 8730. On Monday long fell 25 points to 4 8345@4 8350, short 10 points to 4 8670@4 8675 and cables 5 points to 4 8720@4 8725. On Tuesday long declined 5 points to 4 8340@4 8345, short advanced 5 points to 4 8675@ 4 8680 and cables 5 points to 4 8725@4 8730. On Wednesday long rose 30 points to 4 8365@4 8375, short 5 points to 4 8675@4 8685 and cables 10 points to 4 8730@4 8740. Thursday was a holiday, and on Friday the market was firm for long at an advance of 5 points, while cables fell 5 points and short was unchanged.

The following shows daily posted rates for sterling exchange by some of the leading drawers:

The following gives the week's movement of money to and from the interior by the New York banks.

Week ending May 31 1907.	Received by N. Y. Banks.	Shipped by N. Y. Banks.		et Interior ovement.
Currency	\$8,262,000 678,000			\$3,561,000 456,000
Total gold and legal tenders	\$8,940,000	\$5,835.000	Gain	\$3,105,000

With Sub-Treasury operations and gold exports the result is as follows:

Week ending May 31 1907.	Into Banks.	Out of Banks.	Net Ban	Change in k Holdings.
Banks' interior movement.[as above_ Sub-Treas, operations & gold exports	\$8,940.000 21,600,000	\$5,835,000 22,600,000		\$3,105,000
Total gold and legal tenders	\$30,540,000	\$28,435,000	Gain	\$2,105,000

The following table indicates the amount of bullion in the principal European banks.

aThe division (between gold and silver) given in our table of coin and pullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver; but we believe the division we make is a close approximation.
b The Austro-Hungarian Bank Statement is now issued in Kronen and Heller instead of Gulden and Kreutzer. The reduction of the former currency to sterling Pounds was by considering the Gulden to have the value of 80 cents. As the Kronen has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to Pounds, has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.
d The total of gold in the Bank of Russia includes the balance held abroad—that is, the amount held for Russian account in other Continental banks. The proportion so held and consequently duplicated in the above statement is about one-quarter of the total.

OUR TRADE CONTROVERSY WITH GERMANY.

By reason of certain very recent events the question of our trade relations with Germany is coming into position of considerable interest. During a more or less prolonged period negotiations of one sort and another have been going on between our own and the German state departments, looking toward more liberal regulation of the customs tariff on our mutual trade. The matter was considered in the last session of Congress, and was brought before the President for such executive action as might be possible without overwhelming legislation. The result was very slight. Nothing deserving the name of reciprocity was effected, by legislative vote or administrative order. A few of the more vexatious arrangements at our port were modified, or else reasonable possibility of their modification was offered; on one kind of German wine the barrier was substantially let down. Otherwise it could not be said that any response had been made to the efforts of Germany to come to a more beneficial understanding.

The matter calls for discussion now because the reception of the meagre concessions by the German Legislature plainly mark dissatisfaction and discontent. Both in the German newspapers and on the floor of the Reichstag it has been intimated this past week or two, while the provisional tariff agreement with the United States was being accepted, that Germany was not satisfied, and that the United States might find reason to regret the absence of more liberal action. To this intimation, however, certain German statesmen have made answer that even if Germany has made no progress in reciprocity with the United States it must in its own interest be very slow to consider retaliation. These speeches took into plain account the fact that even under our stringent tariff we were one of the German manufacturers' best customers, and that the exporters from Germany would be more seriously hurt by a possible trade war than the importers and consumers of the United States.

That this was a correct view of the situation, even without regard to the ethics of trade discrimination, there can be no question. Our imports from Germany are principally manufactured goods, which at a pinch we could probably obtain from other countries without great inconvenience. On the other hand, Germany's imports from us consist to a very great extent of foodstuffs, which are imported simply because the German Empire does not raise enough of the articles in question to feed its people. In 1906 we sent to Germany

\$5,271,000 worth of wheat, \$2,392,000 worth of flour, \$9,758,000 worth of corn and upwards of \$20,000,000 in such commodities as lard and similar products; and to this may pertinently be added the \$98,000,000 worth of cotton which, by our Government's figures, we sent to Germany during the cotton year ending with last August.

It will be seen at a glance that these are articles with which Germany could not dispense except at a heavy and possibly disastrous sacrifice to itself. A trade war, therefore, in the old-fashioned sense, between Germany and the United States is improbable for the best of reasons. Precisely the same fatal objection to it exists as existed to the whimsical advice of the Austrian Prime Minister in 1897 that, in view of the "American invasion," it was time for the European nations to "stand shoulder to shoulder" in resisting the inroads of the intruder. Count Goluchowski never troubled himself to explain who was to do this "standing shoulder to shoulder." We imagine that pleasant duty could have been imposed on no one but the people of Europe who, if they had heeded the advice from Vienna, would have supposably have gone without their daily bread in the European famine period in order to teach a lesson to America.

But while all this is true, and while even Germans admit that the advantage of any controversy which arises must lie with the United States, there are, in our judgment, certain broader considerations which ought not to be overlooked. One of them, we hardly need say, lies in our wish to develop a foreign trade for our own articles of manufacture. It has never been doubted that expansion of such trade follows along the lines of mutual international concession. Our people learned four or five years ago that an enormous export trade which may be facilitated without such relations during a period of foreign trade boom and abnormal consumption will have to depend on something else when financial reaction strikes the foreign consumer. We learned this by the fall in our export trade during Europe's trade reaction of 1900 and 1901. We should have a much more serious lesson to learn if, at some future time, our exporters were confronted with a genuine paralyzing trade collapse in the European world.

There is a further consideration which the makers of tariff schedules have no right to ignore; it is the maintenance of good relations politically with other States. The past decade has created several curious situations between ourselves and Germany, which, while they at no time actually threatened impairment of good feeling, nevertheless gave some idea of what might, under conceivable circumstances, be brought about. The point of this lies in the fact that in the present era of the world's progress the legitimate interests of trade have more influence to-day than perhaps any other in creating or destroying good relations between governments. No doubt, as some of our legislators assert, we have in a tariff which may at the will of Congress be relaxed a strong inducement to offer any foreign nation in return for concessions of its own to us. But it must be noticed that this very assertion recognizes the fact that to cultivate such relations on such lines we must be willing to break, to some extent, our tariff wall. Moreover, it follows necessarily that the converse is true, and that arrogant persistence in a tariff which a great foreign State regards as unfair and un-

reasonable is the surest road to the fomenting of unpleasant intrenational relations.

It would be venturesome to predict any action along these lines by our Congress in the immediate future; there have, in fact, been indications, during the period of business activity, that sentiment in American trade circles and in American legislative circles was hostile to any change. It is nevertheless quite possible that this subject may before long be brought suddenly and vividly before our people. Two or three years ago there seemed to be reason for still larger inferences regarding the future of international trade relations and for predicting a general reversion to extreme ideas on the subject prevalent a century ago. Mr. Chamberlain's campaign for protective duties in England marked the climax of this movement of reaction. As every one knows, his undertaking fell. Nothing could be more sure proof that the underlying sentiment of the people has not radically changed on questions of this sort than the results of the recent conference of the Colonial Premiers at London. More than one of the delegates came with propositions of provincial duties, through which, it was argued, England should encourage the loyalty of its colonies. They accomplished absolutely nothing; yet they parted with very manifest good feeling. The London "Economist" sums up thus concisely the resultant situation from England's point of view:

"It is as much our interest to get foreign goods into our markets as it is the interest of the colonies to see our markets left dependent on what they can supply. When two interests clash, each party necessarily prefers its own. The last election showed that the greater part of the English people are convinced that their commercial prosperity depends on the maintenance of free trade. The colonies think us mistaken, and, thinking this, they have a right to try and convince us that we are so. But the creation of that conviction is a condition precedent of any change in our fiscal policy, and until it is created it is best that this fact should be brought home as dearly as possible to the colonial representatives."

WHAT IS AILING THE RAILROADS AND THE STOCK MARKET?

Now that the President has taken occasion to define his views concerning his policy towards the railroads, it becomes important to examine somewhat closely into the reasons for the unsettled condition of the security market. With each succeeding week a lower depth is reached in the downward movement, and many persons—including some who keep reasonably well informed as to current events and happenings—cannot understand why this should be so. Why do not investors, capitalists and moneyed classes generally take advantage of the present state of affairs and acquire stocks at what appear very much like bargaincounter prices?

The underlying cause is the same as it was at the time of the collapse in March, the same, indeed, as it has been for about a year and a half, during all of which period a shrinkage in values has been in progress. Owing to the assaults of those high in authority and adverse legislation both by Congress and the State legislatures, confidence is almost completely gone. No one is willing to buy at what appear like ridiculously low prices because no one can tell what the future may bring forth. Though the railroads and public service corporations generally have already suffered much, they are still under fire, new attacks upon them being made from day to day, and the question which every investor, every moneyed man, puts to himself is, Where is this thing to end? The future, as far as these corporations are concerned, is clouded with great doubt. No matter what present earnings and present dividends may be, the part of the problem which no one feels able to solve is what earnings and dividends are going to be when all the adverse factors which are piling up against the carriers have had a chance to work out their full effect.

Unfortunately, too, each week sees new happenings and developments which accentuate the feeling of doubt that so widely prevails. Take for illustration simply some of the incidents of the last ten days. The newspapers have kept informing us that the President has by no means abandoned his idea of having some kind of a valuation of railroad properties. He is still cogitating and pondering deeply over the subject, we are told. It should be observed, too, that in his Memorial Day speech on Thursday Mr. Roosevelt distinctly reiterates his belief in the advisability of having a valuation made. Of course, valuation of the roads can subtract nothing from their tonnage or their revenues, and the President takes pains to say that valuation is only "one of many elements to be considered." But the valuation is wanted for a purpose. What is that purpose? We must certainly absolve the authorities from any desire to prove that present rates and present profits are not adequate. There remains therefore, only the other alternative, namely that it might be possible to get a valuation so low as apparently to warrant the assertion that even if legislative action and the orders of railroad commissions, State and national, shall serve to make serious inroads upon profits, as they are now doing, there will still be enough profit left to admit of some "fair" return on the assumed valuation thus arrived at.

The feeling of apprehension is being increased by the fact that action is being taken in other directions which fits in perfectly with the idea of limiting the returns of the railroads if the step should be thought advisable. The Statistician to the Inter-State Commerce Commission has just issued a circular advising the railroads as to the form and classification of revenue and expense accounts they will be expected to follow with the beginning of the new fiscal year on July 1 1907. In the instructions with reference to the treatment of the expense accounts, there occurs the following admonitory remark: "It should be understood that these operating expenses must not be burdened with expenditures for additions, such as new and additional equipment, tracks, buildings, ballast and other additions to the property, the purposes of which are to improve the property operated." Our readers are aware that the railroads have been doing the very thing they are no longer to be allowed to do, that is, they have not distinguished sharply between mere renewals and improvements and additions. Some of them, indeed, instead of increasing the rate of return to the shareholders, have been making quite extensive improvements and charging the cost to expenses, the design being to fortify the properties against adverse happenings and promote economy in operations. This policy, too, has been in the public interest, for it utilized profits in doing work which must otherwise adverse to the railroads:

have been paid for through additions to capital account. Some of the Inter-State Commerce Commissioners have in the past frankly declared against allowing the roads to charge rates that would leave anything for improvements, and the Statistician has always urged that the line between operating expenses per se and improvement outlays should be sharply drawn. Now the authority given by the Hepburn Law is to be availed of to enforce this distinction and attain that end.

Again we ask, what is the purpose? There is, of course, no objection to showing just what is being put into the properties from year to year out of earnings. Indeed, it would be in the highest degree desirable to have this information, for it would impart to the investor just the knowledge he wants, apprising him that even if he is getting no dividends, at least the property in which he holds an equity is being put in better shape from year to year. But there is no warrant for thinking that the modification of the accounts has been made with any such intention. That being the case, is it strange that the conclusion should be drawn that this information, like the proposed valuation of railroad property, is wanted so as to afford a pretext for still further diminishing the already dwindling profits of the roads. And can investors and security holders be blamed for thinking that hereafter the roads are to be held down to a meagre return on the bare value of the property and that even improvement outlays are not to be allowed above such a return, even though such outlays are clearly in the public interest. Then, also, there is this week's decision of the United States Supreme Court upholding the Commission in refusing its sanction to an advance in lumber rates on some of the Southern roads. Is this calculated to allay fears in that regard?

But the Federal power is not alone in acts of repression. The States, taking their cue from the National Government, have been indulging in very extensive repressive legislation of their own. We referred last week to the Public Service Commission's Bill in this State—a remarkable and extraordinary piece of legislation, which gives the Government bodies created by it a degree of authority over all public service concerns which would be absolutely incredible if the provisions and features were not unequivocally and specifically set out in the Act. In an article to-day we also refer to what the neighboring State, Pennsylvania, has done in the same direction. And so we might take up one State after another. We have space, however, to advert to only one other State, namely Michigan. There opposition to railroads is particularly rife, though it would be hard to point to another State where the railroads have fared so badly in the matter of earning a return on the money invested as in this very State of Michigan. Perhaps some one will extract hope and encouragement from the fact that the Lower House of the Michigan Legislature last week killed a bill which would have limited the passenger rates on electric suburban roads to $1\frac{1}{2}$ cents per mile. But that very action serves to reveal the spirit in which legislation is carried on. That the reader may understand the reasons for the defeat of the bill, we re-print the following dispatch from the "Grand Rapids Herald" of May 22d-a paper which has been one of the staunchest advocates of legislation - - 1

"Lansing, Mich., May 22.-The House handed Representative Norton of St. Johns a sour lemon today when it refused to take a crack at the railroad committee at his request.

Norton had a bill providing that interurbans could not charge more than a cent and a half per mile. Most of them charge that or less now, and the bill being aimed principally at the road from St. Johns to Lansing, which gets 50 cents for a 20-mile trip. The committee killed the bill, holding it was not time to begin hampering electric roads, their development not yet having reached the stage the State wants."

It should be noted that the bill was killed because in the estimation of the Railroad Committee the time had not yet arrived "to begin hampering electric roads, their development not yet having reached the stage the State wants." In the case of the steam roads, however, no such hesitancy apparently exists. These evidently have "reached the stage the State wants," and hence it is not proposed to miss an opportunity to hamper them. The Railroad Commission Bill now before the Legislature of Michigan would practically give the Commission charge of the operation of steam roads in that State. It would give it the power to prescribe the character and number of locomotives and cars that shall be provided, to examine into the freight and passenger train schedules and decide as to the number of trains the railroads shall run. Furthermore, Section 54 of this bill reads as follows: "The Commission may make all needful rules and regulations concerning the number and efficiency of employees upon railroads and may prescribe tests to establish the competency of such employees." It should be observed that this provision relates to the number of the employees as well as their efficiency, and that it applies to all employees of railroads.

Another bill introduced in the Michigan Legislature provides that every railroad in the State shall have a policeman for each five miles of track, these policemen to be appointed by the Governor and paid for by the railroads. It has been estimated that this would give the Governor of the State the appointment of 2,000 policemen at the cost to the railroads of say \$2,000,000 per annum. Incidentally, it would scatter a couple of thousand political workers over the State.

We have no idea that any such absurd proposition as this will find its way to the statute books, and yet in these days the unexpected is all the time happening, and these proposals in Michigan are a sample of what is going on in nearly every State in the Union. Of course all this will re-act in the end on the States themselves. Michigan, as is known, is ambitious for a large system of interurban roads such as cover Ohio and Indiana, but obviously its course with reference to the steam roads will not be of great assistance to the promoters of the electric roads when they come to New York or Boston for the money with which to carry through such enterprises.

All this comes at a time when the railroads are making very unsatisfactory showings of net earnings. There is one exception to the rule, namely the Southwest, where, because of the phenomenal crops raised last year, roads like the Atchison, the Rock Island, &c., are giving a very good account of themselves. But the situation that confronts the roads in other parts of the country is evident from the statement of net earnings published by us last week for the three months ending March 31. This showed a loss in net for every

Digitized for FRASER http://fraser.stlouisfed.org Federal Reserve Bank of St. Louis

this group out, the results for the remaining groups is a gain of \$16,766,424 in gross attended by an augmentation of \$26,963,781 in expenses, thus producing a loss of \$10,197,357 in the net. This increase in expenses followed in very large part from the advances in wages which the roads have been obliged to make, and which hence will remain a continuing feature in subsequent months. At just this stage the possibility of a crop failure, always an important matter, looms up in a rather disquieting way. A crop shortage alone, unattended by the other circumstances enumerated, would possess little potentiality for serious injury, but the two combined furnish occasion for anxiety, if not alarm.

What, then, is the remed y? Some suggest that to escape harm at the hands of the States we must seek refuge in the arms of the Central Government. That suggestion cannot for a moment be entertained. That would increase the danger, not lessen it. What is wanted is for the national authorities to call a halt in their course. If they take off their hands the States will do likewise. It is not out of point to note that the Michigan State Senate, which is so busy considering projects antagonistic to the railroads, on Monday night passed a resolution asking President, Roosevelt to stand for re-election. It is the policy pursued at Washington that is responsible for what is going on in the States. When the one ceases the other will cease. The sensitive state of the public mind was well illustrated on Wednesday when a rumor that Mr. Roosevelt's Decoration Day speech would be conservative produced an immediate improvement in values. Of course the old argument is still employed that business remains prosperous. But is it not idle to count on its further continuance and further expansion in face of what is happening? Our mills and factories are being kept busy on past orders, but new orders to anywhere near the same amount in the future are out of the question. It is no longer possible for the carriers to borrow money except at almost prohibitory rates, while we are getting pretty plain hints from Washington that they are not to be allowed to continue making improvements out of earnings. Then where is the money to come from? If our legislators and politicians are not blind to their own interests, they will abandon their present policy before it is too late, and thus avert a serious calamity. In this sense Mr. Roosevelt's Indianapolis speech may serve a good purpose, for there is in it a distinct recognition that the policy of repression may be carried too far.

THE PROPOSED LIFE INSURANCE BY SAVINGS BANKS.

A bill to permit savings banks to undertake Industrial Life insurance has been favorably considered by the insurance committee of the Massachusetts Legislature and will very probably go through. There are objections to it, but before stating those it may be of service to many readers to explain distinctly the character of the form of life insurance which bears the title of "Industrial."

The old form, now known in insurance parlance as "ordinary" for the sake of distinguishing it, is familiar. It is rarely written for less than \$1,000, and the premiums are payable annually, semi-annually, or quarterly, the annual being always urged and always one of the groups except the Southwestern; leaving | preferable, because the more frequent payments come

JUNE 1 1907.]

a little higher and obviously involve greater likelihood of wastage by lapse. This leaves out the great mass of wage-earners who can neither take large amounts nor keep their small savings until the needed premium is made up; for them, therefore, the usual form of life insurance does not exist. The industrial form adapts itself to them by using a house-to-house weekly collection, the unit of premium being the weekly nickel or a few multiples thereof, the amount of insurance being expressed as what can be purchased by the nickel or its multiples at the several ages. This amount is not large, and another feature of the plan is that it reaches almost from the cradle to advanced ages and takes in entire families. There is an intermediate, with monthly collections and writing for somewhat larger amounts, the design being to carry the insured along from childhood to the larger policies under ordinary which adults may be able to assume, thus training them into the habit of insurance. The industrial plan adapts life insurance to the circumstances and conditions of a large class.

This business has developed to an almost incredible extent, one company which also writes largely in ordinary having now outstanding 81/2 millions of policies, averaging only \$149 each. It has not been hinted that these companies are not strong, active, successful, and able to handle all the business of this kind which is likely to arise. Unthinking sentimentalists have, however, again and again raised the cry, in Great Britain as well as here, that insurance of young children is child-murder, and attempts have been made to have it prohibited by law. Such charges are preposterous on their face and not a single case of murder for the sake of insurance has been made out; on the contrary, every inquiry on the subject has produced proofs that insurance tends directly to conserve young children.

The present charge, which has been reiterated during the troubles of the past 18 months, is summed up in what the Springfield "Republican" calls "the scandalous wastes and exactions of present methods." If present methods contain needless and preventible wastes and exactions, they ought to be deemed "scandalous" and ought to be prevented. The sole plea which is or can be put forward for the attempt to graft industrial life insurance upon the savings banks is that such wastes and exactions exist, and that the bank method can avoid them; if either of these propositions is not correct, the bank scheme has clearly nothing but imagination to rest upon.

The industrial plan is costly-we mean relatively costly in that it furnishes less insurance per dollar paid than the ordinary form does. Entering a five-cent premium costs as much as one for \$5,000; it costs more, for the small sum involves more clerical labor than the large one does, and it must be repeated 52 times in the year. To this must be added the cost of the weekly call, and the calls must often be more than one in case of a single payment, in order to save the policy from lapse. The increased cost for this reason is obvious enough to anybody who stops to think, but there is another reason which is liable to be overlooked: the mortality rate is higher under industrial. Ages which are not the best, insurance-wise, are covered, and the medical sifting is much less strict than under the ordidinary form, the risks on one life being smaller and the

higher ratio to the "expected" or tabular than under the ordinary plan. The fact of relatively higher cost is therefore unalterable as well as undesirable.

To decry and denounce the plan because of this higher cost is useless and not helpful to those whom a misplaced philanthropy seeks to serve. They must pay a higher price for insurance as they do for their coal, or go without; this is under the same law which applies to all purchases, and though we may deplore it, no statute can change it. So much for the alleged "exactions;" as for the "wastes," the lapse rate is admittedly large. Remember that the question of continuing, involving an actual self-denial for the sake of a good that may seem doubtful, may come up every week, although many pay for several weeks in advance; that the class of persons is one somewhat uncertain of employment, migratory in habits, and naturally ready to catch up doubts and weary of selfdenial-remember this, and a large lapse rate ceases to be surprising.

If there were any real foundation for the "Republican's" charge of "the grinding of the faces of the poor that now goes on through industrial insurance," and especially if the persistent notion that companies derive profits from lapse were sound, we should find lapsing promoted. On the contrary, not only is lapsing a direct personal loss to the agents, but the companies make constant and earnest effort to prevent it; there is nothing to which their labors go so strenuously. Moreover, if the poor do have their faces ground they do not know it, notwithstanding the teaching of the newspapers which they mostly read that accumulated wealth is the enemy of the poor. Inasmuch as the whole country seems to be affected by an unreasoning hostility to wealth in whatever form it appears, we should surely expect the wageearning class to feel jealousy of corporations which dwell in palaces; yet the striking fact is that industrial insurance persists much better than ordinary does, even now while life insurance generally, for perfectly plain reasons, is not making progress. Take New Jersev and Connecticut as the test. The two New Jersev Industrials wrote, in New Jersey, 172,687 policies for \$22,649,080 in 1906, against 179,514 for \$22,790,505 in 1905; the business also held well, these companies gaining nearly 81/2 millions on business in force at home. In Connecticut all companies wrote, in ordinary, in 1906, 92.88% of the number of policies and 93.83% of the total amount written in 1905; in industrial, they wrote 93.97% in number and 97.44% in amount of what they did in 1905. So much for the evidence that the class who buy industrial have not discovered what oppressions they are under. It should further be said that very large concessions, never stipulated for, have been voluntarily made by companies in recent years, and that a large proportion of policies lapsed are afterwards renewed.

We have gone over the above at some length, although very cursorily, because the wrongs committed by industrial companies are the entire case of the advocates of the bank proposition. The cost of life insurance is chiefly the mortality cost, that is, the cost of insuring, and is not within the power of any scheme or organization to lessen; the clerical part of the expense in industrial also cannot be lessened, but the great reliance of the bank plan is that the people will entire aim different; the actual mortality bears a much | insure voluntarily and the agent can be omitted. The

best reason for thinking this cannot be done is the fact that it has not been done. Life insurance has been built up by agents. Any policyholder can put the test question to himself whether he would now be one had not an agent sought him and moved him. In Great Britain, life insurance in such popular sense as we have it does not exist. For example, the "Old Equitable," with all the advantage of very heavy "bonuses" to the few members (who are attracted to it by the great returns it makes on their money) is 143 years old and last year wrote 262 policies. Like other British companies with hardly any exception unless among those of recent founding, this one has never used agents, at least openly and avowedly. There is another illustration nearer at hand. In 1893 the Dominion Parliament established a special life insurance scheme for employees of the civil service, in lieu of a superannuation system which had not worked satisfactorily. The policies were for \$1,000 and \$2,000 only, and did not include endowment; on the other hand, much liberty was granted in the forms of premium payment, the interest assumed in making the rates was the high one of 6%, and operating expenses were to be borne by the Government, so that the rates of premium were unusually low. The conditions were thus especially favorable, and insurance could not conceivably be made more attractive. The civil service list now includes about 6,000 names, and when allowance is made for changes since 1893 it may be assumed that at least 10,000 persons have been eligible for this kindly-meant provision, persons of at least fair intelligence and having inducements to thrift. But no provision was made for agents and there have been none. The result is that after just 14 years of this scheme its best business year was 1906, when 57 policies were written; barely 205 policies in all have been written, and at the end of last June there were in force 166 policies on 159 lives.

Still, there is a notion, especially active of expression in Boston, that agents are unnecessary, and Judge Lowell has published an essay in the "Atlantic" in which he declares that to do away with them is the one great step in reform. The bill now in the Legislature forbids employing solicitors or house-to-house collectors, and the theory is that wage-earners will do the entire work themselves, except that depositories for receiving applications and premiums are to be permitted. Here we may remember that savings banks themselves have to be placed within fairly convenient access of depositors, and the banking superintendent of this State recently said to the Savings Bank Association that if our bank system has a weak spot it is "in its partial failure on the ground of accessibility;" he, therefore, seemed inclined to think this difficulty a strong argument for postal savings banks.

The proposition is to graft a separate department on the banks. Such separation would be necessary, since the regular clerical force would have neither time nor ability for the new work. Indeed, one of the serious errors of the proponents of it—an error shared by nearly all the persons who have rushed into print as critics and instructors on the subject since the agitation about it began—is that life insurance is a sort of simple business which can be done offhand by anybody without special gifts and training. If this attempt is made, that will be found otherwise.

Practical difficulties in the details we need not stop

to consider: suffice it that the effect of an insurance attempt upon the banks themselves could hardly be wholesome. Bank officers realize this and do not think it desirable to undertake a specialty for which they are not equipped, and a majority of them in Massachusetts have already expressed disapproval. Since it is permissive and not mandatory, no considerable action will probably be taken under the bill; therefore it can do no particular harm if it goes through. The amiable theorists who do not realize that what they need is a statute to change human nature have already obtained a charter in Massachusetts for a Mutual Direct or over-the-counter company, so that the question whether life insurance will go of itself is in a way to be tested. Certainly nothing short of a trial will satisfy the clamor, and the chartering of this company will meet the excuse that the savings-bank scheme might have succeeded but for the unprogressiveness of bank trustees who feared the trial.

This benevolent sentimentalism does not know its way and is likely to harm rather than help those on whose behalf it is troubling itself; yet the only course to be taken with it is to allow it to proceed. "Very likely (says the 'Republican') the simpler and better method would be to put the State directly into the business under the direction of the existing Insurance Department, and those who favor State insurance will be doubtful and critical of the plan reported." Certainly we do not favor insurance of any kind by the State, yet we feel bound to say that the only logical and natural outcome of the present regulative policy is insuring directly by the State. If this policy cannot not be changed, and if the people, as represented by legislatures which they at least make no attempt to hold back, are not willing to put confidence in any small number of themselves and choose to go on restricting private trustees into mere automatons, then a complete reliance upon the State is the consistent course. Confidence must be placed somewhere. If the people are really ready to imagine that human nature in State officers selected in the usual political method will be superwise and superhonest, then the State ought to be set to undertake the trusteeship to which plain men are no longer equal.

PENNSYLVANIA'S NEW RAILROAD LAWS.

The hostility to railroad interests in Pennsylvania which has found expression the present year in a number of legislative Acts is by many thought to have had its origin a few years ago. Until the day when President Cassatt of the Pennsylvania Railroad issued the decree that no more passes should be issued by the great system of transportation of which he was the head, the State of Pennsylvania remained largely under the domination of the railroads. So long had men in public life enjoyed the privileges of free transportation for themselves and the members of their families that the sudden cutting off of these favors, it is claimed, awakened a spirit of resentment. Soon after the event referred to planks were inserted in the platforms of political parties declaring in favor of all kinds of legislation antagonistic to the railroads. Politicians of different faiths vied with each other in a struggle to frame anti-railroad planks of the most drastic kind, and in the subsequent contest at the polls the Republicans won.

The Governor and members of the Legislature,

having been elected upon an anti-railroad platform, found abundant reasons for proceeding to enact legislation which was directly opposed by the railroad corporations. One of the first laws so enacted is the twocents-per-mile-passenger-fare-bill Act, which was approved by the Governor on April 5 and becomes effective on Oct. 1. It is a sweeping statute, affecting all companies operating railroads within the State. A penalty of \$1,000 is prescribed for charging more than two cents per mile for passenger service, but the minimum charge need not be less than five cents, and permission is extended to the carrier to collect an excess fare of ten cents when a passenger pays a fare upon the train, but the excess fare must be refunded.

As this was one of the bills which was early passed by the recent Legislature, so it is the first one to meet with open opposition by the railroads, the Pennsylvania Railroad having begun an action to enjoin the County of Philadelphia from demanding any penalties for violation of the Act. The bill in equity alleges that a maximum fare of two cents per mile would render passenger business non-compensatory on some of the lines of the complainant; that about 54% of the complainant's passenger business within the State is conducted at rates exceeding two cents per mile, and that an enforcement of the new law would curtail the company's revenue to the extent of one million dollars per annum. Before the legislative committee Vice-President Thayer stated that the loss in revenue would amount to \$2,000,000 yearly.

It is understood that the legal department of the Philadelphia & Reading Railway Company is preparing to commence a similar action. The Reading's first step, however, has been to raise suburban passenger fares from 10 to 35%. Commutation fares upon the Reading have been exceedingly low in the zone tributary to Philadelphia. This action will bring the Reading fares about on a par with those already charged by the Pennsylvania system at competing points.

Another new anti-railroad law of much importance is the Dunsmore Act, providing for the creation of a Railroad Commission. The measure stipulates that three competent persons shall be appointed by the Governor, subject to confirmation by the Senate, and that at least one of the three shall be learned in the law. Compensation is fixed at \$8,000 per annum. The Commission may appoint an accountant, who shall be thoroughly skilled in railroad accounting; an inspector, who shall be a civil engineer skilled in railroad affairs, and also an inspector who shall be an expert in electrical affairs. The jurisdiction of the Commission extends to railroads, canals, electric railways, underground, elevated or subway passenger companies, bridges and ferries when used in connection with the transportation of freight or passengers upon any such railroad or railway, pipe-line companies engaged in the transportation of oil, sleeping and drawing room car companies, express companies, telegraph and telephone companies, all of which are referred to as "common carriers." The Commission is given full power to inquire into the management of the business of all common carriers, including freight and passenger rates and tariffs, and the equitable distribution of cars, the granting of sidings and regulation of crossings, the location of freight and passenger stations, the adequacy of facilities for the carriage of freight and passen-

gers, the use and compensation for cars owned or controlled by persons other than the carrier, and generally all matters incident to the performance of their public duties and their compliance with the provisions of their charters and the laws of the land.

Authority is given to investigate complaints, and the Commission may institute any inquiry of its own motion. After a full hearing, if the Commission finds that there has been a violation of the law, it shall be its duty "to decide and recommend what will be the just and reasonable rate or rates, charge or charges, to be thereafter observed in such case as the maximum to be charged, and what regulation or practice in respect to transportation is just, fair and reasonable to be thereafter followed."

This is regarded as the "lame" part of the bill. The recommendations will be made to the Secretary of Internal Affairs and the Attorney-General, and if they see fit to enforce the recommendations of the Commission, the legal machinery of the Commonwealth will be brought into play. It was upon the advice of Attorney-General Todd that the power of the Commission was thus limited to a recommendation, for the reason that the State Constitution vests the real power of railroad regulation in the Secretary of Internal Affairs. Statutes have never been enacted to provide for this officer carrying out the powers with which he was invested, and thus far this sole province has been to collect statistics and make recommendations.

Section 9 of the Act is more specific. It provides that if a shipper renders any service or furnishes any instrumentality to the carrier the Commission may determine what is a reasonable charge as the maximum to be paid by the carrier or carriers to the shipper. The purpose of this is clearly to keep a check upon rebates and the use of private cars.

The Commission may make recommendations as to crossings; as to the form and filing of tariffs; it may investigate the causes of accidents, require the filing in its office of copies of annual reports, recommend changes in rates and fares and investigate proposals to increase capital stock or funded debts. The Act will not take effect until the first Monday in January 1908.

Among the bills of minor importance affecting railroads which were passed is one providing that it shall be unlawful to collect a car-service charge exceeding one dollar per day of 24 hours; another making it an offense, punishable by fine and imprisonment, for any officer, employee or agent of any railroad company who has charge of the distribution of cars to have any interest in any operated coal property or in the stock of any mining or manufacturing company along the line of such road. This is the direct result of the revelations made during the investigation conducted by the Inter-State Commerce Commission.

An Act providing for equal service and equal rates without any discrimination was passed. Special permission to sell commutation tickets and excursion tickets is given. Both the corporation and the officers participating in the violation may be fined \$1,000. This is one of several bills designed to enforce the requirements of the Constitution which have long been allowed to slumber unheeded. Another measure of this kind is one prohibiting a common carrier from engaging in the business of mining or manufacturing, the penalty being a fine for the corporation and its THE CHRONICLE.

officers. A third Act of this kind prohibits the consolidation of parallel and competing lines, with a similar penalty. Under a penalty of \$5,000, corporations owning, leasing or operating steam or electric railways must report to the Secretary of Internal Affairs the number of statute miles so operated, naming the termini. The evident purpose of this is to see that passengers obtain the full benefit of the two-cent-permile law. Still another bill prohibits a steam railroad from buying or leasing a street passenger railway which may be either parallel or competing to the would-be purchaser. In addition, there is the Emplovers' Liability bill, which there is some doubt about the Governor signing. Street railway companies are given the right to carry express and light freight, and they are given the right of eminent domain.

Thus in one session of the Pennsylvania Legislature more anti-railroad laws were enacted than were created during a long period of years.

ENGLISH RAILWAY TROUBLES.

Possibly the administrative officials of our railroads will derive some comfort from the fact that the managers of English railroads are also just now obliged to contend with unreasoning and vexatious exactions and demands. The latest numbers of the English railway papers which have come to hand bring this feature prominently to view, and throw an interesting light on the way burdens are piling up on the railways of the United Kingdom and what strenuous efforts are being made to ward off some of the blows which are being unremittingly rained down upon them. In that country, too, the security markets are experiencing serious depression from that cause. We would commend that circumstance to the consideration of those who, seeing that weakness in share properties is not confined to the New York Stock Exchange, discourse learnedly of a world-wide demand upon capital, and would have us believe that the secret of the depression is to be found in that influence. It would be more accurate to say that there is a worldwide loss of confidence, which has in large measure been brought about by local manifestations adverse to railroads and other large undertakings and utter indifference as to whether their welfare is endangered or not.

There is one point of close analogy between the movement in Great Britain and here. Those conducting the agitation delight in showing their contempt for the consequences. If the profits of the road should become so seriously impaired as to involve a reduction in dividends, or if trade depression should ensue, these, we are given to understand, are trifling matters alongside the great advantages to be gained in other ways. The movement simply *must* be carried out, no matter what happens. The railroads are told that this determination is deep-rooted and unalterable, and the managers will only be making matters worse if they oppose it.

In Great Britain just now the thing which is provoking most uneasiness is the demands of certain classes of employees for increased wages. What is known as the Amalgamated Society of Railway Servants held meetings at Hyde Park and at 150 to 200 other centres of Great Britain on May 12 in support of the demands for increased wages and a recognition of the union. According to the newspapers. 20,000 people attended the Hyde Park demonstration and vociferously applauded the speakers and all reference to the demands of the men. It is estimated that if the demands were granted, they would involve a total cost of £7,500,000 (\$37,500,000) a year. . The "Railway News" of London points out that the whole loss would fall upon the so-called "ordinary" shares of the British railways. These shares in 1906 received only £15,800,000 altogether in dividends, the average rate of the dividends having been 3.27%. A loss of £7,500,000 would mean cutting these dividends in two. Mr. Richard Bell, Member of Parliament and General Secretary of the Amalgamated Society of Railway Servants, who was the principal speaker at the Hyde Park meeting, thought the estimate of £7,-500,000 was excessive. He was confident that the cost would not come within £2,000,000 of that figure. If it could be shown that it did, he was prepared to modify the demands to that extent. But it will be observed that even a loss of £5,500,000 would mean cutting down the dividends on the ordinary shares fully one-third.

What merits chief notice is the uncompromising and unconcealed stand taken by Mr. Bell in favor of carrying out the policy entered upon, no matter what happens or who gets hurt. In this regard he spoke with a degree of frankness and an absence of restraint that was positively startling. Probably the following Tuesday morning, he said, his readers would find that railway stock was reported as extremely weak, having gone down owing to the speech made by him. It would not be his fault if it had gone down twenty points. The responsibility rested absolutely with the management of the railway companies, and if, as a result of the present movement, any injury resulted to the trade and commerce of the country and to the shareholders and the public generally, the responsibility would not rest with the Amalgamated Society of Railway Servants. The railway companies might take it from him that recognition of the union officials must be granted, and the quicker the point was conceded the better it would be for the companies, the railway men, the commerce and the trade of the country.

The "Railway Times" of London takes a rather gloomy view of the outlook for British railways. In a leading article entitled "The Discouragement of Railway Enterprise," in its issue of May 18 it points out that the depression in "Home Rails" still overshadows all other developments in the market. Notwithstanding increases in receipts. prices, it says, have sagged below the anticipations of the most confirmed pessimist, and there is as yet little sign of substantial recovery. For months the impression has prevailed that the railway companies were to be compelled to grant all kinds of concessions not only to employees, but to the public, and certain proceedings in Parliament, it urges, have lent color to such anticipations. This, added to the increasing price of coal and the growth in working expenses which has been characteristic of recent accounts, has left the railway market, we are told, in a condition of such supersensitiveness that the slightest occasion for alarm receives exaggerated importance.

200 other centres of Great Britain on May 12 in support of the demands for increased wages and a recognition of the union. According to the newspapers,

JUNE 1 1907.]

THE CHRONICLE

lesson, which appears at the present juncture to be so | money on deposit in any bank or trust company in Pennsylmuch needed. The impression prevails among the less intelligent part of the community that whatever exactions are made upon railway companies are so much clear gain to the working classes and the public generally. Agitators seek constantly to instill this erroneous view into the minds of their followers, and with only too great success. But these latter must be deluded indeed if they do not learn from recent events that capitalists of all degrees are not likely to invest their money in undertakings which are subject to the attacks of agitators who are not able to estimate with any approach to accuracy the effect of their own demands. The result is that requirements for improvements in British railways go unsatisfied year after year. Our contemporary declares that there is not a railway board in the United Kingdom in which the injunction to avoid capital expenditure is not reported almost ad nauseam. Continuing, it says: "Many officers who with existing facilities are hardpressed to cope with traffic requirements could tell British workmen of important undertakings that are greatly needed but the carrying out of which is prevented by the disinclination of capitalists to invest their money in enterprises in which the conditions are likely to undergo arbitrary changes at the instance of political agitators." How like the situation in the

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

United States all this is.

Three lots of stock of the National Bank of Commerce, amounting to 23 shares, weres old at the Stock Exchange this week at 167 to 170. These were the only public transactions in bank stocks, no sales having been made at auction. The auction sales of trust company stocks aggregate 74 shares. Shares. BANK—New York. Low. High. Close. -By a vote of 92 to 11 the New York State Assembly on Tuesday passed the Hill bill, under which savings banks, trust companies and insurance companies holding any bonds of the state bearing interest at not over 3% are to receive a credit of 1% per annum on the par value of their holdings of such bonds, this credit to apply upon or in lieu of certain of their taxes. As noted last week, this bill has been framed for the purpose of inducing these institutions to invest in the 3% Canal bonds of the State. It was passed by the Senate on May 15 and was published in full in this department last Saturday

-On June 8 a law providing for the creation and maintenance of a reserve fund by trust companies and other State banking institutions in Pennsylvania will go into effect. The bill was passed at the recent session of the Legislature and was approved by the Governor on May 8. It is one of the proposed banking measures indorsed last December by the officers and Council of Administration of the Pennsylvania Bankers' Association. It is in many respects similar to the law governing the reserves of trust companies in New York State, which provides for the maintenance of a reserve fund equal to 15% of deposits by trust companies in cities with a population of over 800,000 and 10% elsewhere. Under the Pennsylvania law it is required that "all banks, banking companies, savings banks, savings institutions and companies authorized to execute trusts of any description and to receive deposits" shall be required to keep a reserve of 15% against deposits subject to check or payable on demand and a reserve of $7\frac{1}{2}$ % against time deposits. Onethird of the 15% reserve, it is stipulated, must consist of cash; one-third may consist of bonds of either the United States, the Commonwealth of Pennsylvania or any city, county or borough of that State, and bonds which now are or hereafter may be authorized by law as legal investments for savings banks or savings institutions in Pennsylvania,

vania, or in any bank or trust company in any other State located in any city designated as a reserve city which shall have been approved by the Commissioner of Banking. The Philadelphia Clearing House, it may be recalled, decided several months ago to accord Clearing House privileges to trust companies maintaining a reserve of 15%, of which 5% must be in cash and 10% in the shape of balances in national banks. Only one institution, it is understood, has availed of the privileges under the above provisions. We give herewith in full the text of the bill passed by the Pennsylvania Legislature.

<text><text><text><text><text><text>

before required. Approved the 8th day of May, A. D. 1907.

-The negotiable-instruments law in force in so many other States has been enacted by the Illinois Legislature and will go into operation on July 1.

-This year's annual convention of the New York State Bankers' Association at the Hotel Frontenac, Thousand Islands, should be a very successful and entertaining meeting, judged by the efforts now being made by the Committee of Arrangements, of which Charles Elliot Warren is Chairman. The speakers invited to address this gathering are: Governor Hughes of New York, Secretary of the Treasury Cortelyou, ex-Senator Spooner of Wisconsin, Secretary of State Elihu Root, William D. Murphy of New York, Colonel John R. Van Wormer of New York, Dr. Alderman, President of the University of Virginia, President Finley of the Southern Railroad Co, and Congressman Fowler of computed at their par value; and one-third may consist of New Jersey. After the morning session, Thursday, June 27th, a trip will be made by the assembled bankers on a specially chartered steamer through the most beautiful parts of the Thousand Islands, to be followed in the evening by the annual banquet. Friday, June 29 there will be a number of side trips to the natural attractions of this region, and in the evening illuminations, pyrotechnics, and dancing at the hotel. On Saturday evening the delegates will enjoy a searchlight excursion through the Islands. Reduced hotel rates and railroad fare will be extended to all visiting delegates and their families.

-On Monday of this week Frank Tilford was unanimously elected President of the Lincoln Trust Company of this city, succeeding Henry R. Wilson, who retires for a well-earned rest, as well as for the purpose of devoting closer attention to his personal affairs. Mr. Tilford, who has hitherto been Vice-President and Chairman of the Executive Committee of the Lincoln Trust, was the organizer of the company. The new head of the institution was but twenty-two years of age when he became a director in the old Sixth National Bank, being then the youngest bank director in the city; he was also a member of the board of the North River Savings Bank. In 1889 Mr. Tilford, with George G. Haven, organized the present New Amsterdam National Bank whose presidency he resigned in 1896, parting with his interests later and organizing the Fifth Avenue Trust Company. In 1902, recognizing the demand for new banking facilities in the rapidly developing section between 23d and 34th streets, he organized the Lincoln Trust Company, disassociating himself from all other banking interests.

During the past few years Mr. Tilford has been gradually severing his connection as director in various large corporations in order to devote more attention to his two prior interests, the Lincoln Trust Company and the grocery house of Park & Tilford, of which he is also President. The progressive policy of the management of the trust company is shown in the growth of the institution, whose deposits are now in excess of \$24,000,000. Besides a capital of \$1,000,-000, the company has an ample surplus. The officers, in addition to President Tilford are: Owen Ward, Second Vice-President; William Darrow Jr., Third Vice-President; Irving Gaylord, Fourth Vice-President, Robert C. Lewis, Treasurer; Frederick Phillips, Secretary; Charles B. Collins, Cashier; Edward C. Wilson, Assistant Treasurer; Joseph Z. Bray, Assistant Secretary and George J. Bayles, Trust Officer.

—The excellent address on "The Evolution of the Clearing House," delivered on April 11 by Edwin S. Schenck, President of the Citizens' Central National Bank of this city, before the New York Chapter of the American Institute of Bank Clerks, has been printed in pamphlet form for distribution.

—As announced in these columns April 13, the Farmers' Loan & Trust Company of this city recently entered the foreign exchange field, organizing a special department to issue *its own* travelers' letters of credit, foreign checks and bills of exchange, cable transfers, and make collections in all countries. The Fifth Avenue branch of the company, located at 475 Fifth Avenue, near 41st Street, has now completed permanent arrangements to supply travelers and its patrons with the letters of credit of *other bankers*, if preferred to those of its own issue. As a further convenience, the company will supply express checks and foreign money of all denominations for travelers' use at either the uptown branch or the downtown banking offices at 16-22 William Street.

-The United States Mortgage & Trust Company of this city, main office 55 Cedar Street, announces that its 125th Street branch, at 8th Avenue, will open to-day, June 1, for the transaction of a general banking and trust business. H. L. Servoss is Manager of the branch and Merle Bell is Assistant Manager. The institution, which has a capital and surplus of \$6,000,000 and total assets of \$48,000,000, has another branch at 73rd Street and Broadway.

—The Carnegie Trust Company, of this city, which decided several months ago to increase its capital from \$1,000,000 to \$1,500,000, will have \$400,000 of its new capital paid in to-day.

-The Washington Trust Company of this city, David M. Morrison, President, announces its removal to new banking offices in the Postal Telegraph Building, Broadway, corner Murray Street. This well-known trust company commenced business in 1889 and has been located during the eighteen years of its existence in the old Stewart Building, 280 Broadway. The institution has been fortunate in having an official staff and directing board of trustees in whose personnel there has been very little change. Throughout its entire history the only changes in the board were occasioned by nine deaths, while David M. Morrison, the President, has has had Francis H. Page, Second Vice-President, and M. S. Lott, Secretary, as associates since the company was organized. Mr. Page was formerly connected with the United States Trust Company and was elected to his present office after first serving as Secretary of the Washington Trust. H. F. Price was appointed Assistant Secretary when Mr. Lott

succeeded Mr. Page as Secretary. The new banking offices on the first floor of the Postal Telegraph Building are finished in bronze and Italian marble; the decorations are exceptional for their simple beauty and taste. The main room is easily accessible by a large staircase from the street entrance and elevators. On the Broadway side there is a directors' meeting room and a customers' room with special accommodations. In selecting a new home the trustees considered the Postal Telegraph Building a central location down-town convenient to the City Hall Subway Station, Brooklyn Bridge, all the city's elevated systems and the ferries connecting the railroads.

-The directors of the Commercial Trust Company of this city have added to their board H. M. Swetland, and Otis H. Cutler, President of the American Brake Shoe & Foundry Co.

-The Ironbound Trust Company of Newark, N. J., heretofore referred to, is to begin business on Monday next, the 3d inst., at 11 Ferry Street. The company starts with a capital of \$100,000, surplus of \$50,000, and the following officers: George Forman, President; Charles O. Lyon and J. H. Bacheller, Vice-Presidents, and Rufus Keisler Jr., Secretary and Treasurer.

-The stockholders of the National Exchange Bank of Providence, R. I., at the special meeting on May 20, approved the proposition to change the par value of the stock from \$50 to \$100 per share. The matter of increasing the capital, which amounts to \$500,000, did not come up.

-Grier Hersh has tendered his resignation as President of the Maryland Trust Company of Baltimore. Action in the matter is expected to be taken by the directors at a meeting next month. Mr. Hersh was chosen President at the time of the reorganization of the company in December 1905.

-Thomas H. Fitchett has been elected Assistant Secretary of the Mercantile Trust & Deposit Company of Baltimore, Md., to succeed Charles E. McLane, who resigned on account of ill health. H. F. Stevenson has been chosen to fill the newly created post of Assistant to the President.

-A meeting of the stockholders of the Commercial & Farmers' National Bank of Baltimore will be held on June 27 to vote on a proposition to increase the capital from \$500,000 to \$700,000. The new stock is to be offered to present shareholders at \$120 per share of \$100. In commenting on the new capital to be issued, the Baltimore "Sun" states that the institution is a debtor of upward of \$600,000, said to be largely the result of re-discounted notes for which former officers of the bank assumed an obligation. It is to reduce that indebtedness that the additional capital is suggested. Through the enlarged capital the bank will also be able to extend its loan limit.

-The new building erected by the Colonial Trust Company of Baltimore, on Saratoga Street, was opened to the public on the 20th ult. The structure is a low one, designed solely for the company's own use. Its exterior is of white Dorset Vermont marble, which extends along the entire height of the building, above the granite base of two feet. A feature of the new building is the vault, the doors of which weigh seventeen tons.

-According to last week's published statements in response to the calls of the United States Comptroller of the Currency and the Illinois State Auditor, the Chicago banks and trust companies showed the largest deposits in their history, viz., an aggregate of over \$707,000,000. The State banks show an even greater gain in deposits between the two statements of March 22 and May 20 than the national banks as given last week, the increase of the State institutions for the two months being \$23,000,000. Fifteen of these banks can boast of high records on May 20, as shown in the following table: THE CHRONICLE.

others Tests	Deposit gain	High Record,
Chicago Banks—	2 mos.	May 20.
Illinois Trust & Savings Bank	\$5,150,000	\$96,392,622

Stock Yards Savings Bank		
Drexel State Bank		1,444,534
South Chicago Savings Bank		1,419,144

-The enlarged capital of the Merchants' & Manufacturers' Bank of Milwaukee, amounting to \$250,000, became operative on May 15. The additional stock, \$150,000, was authorized by the shareholders last December. It was offered to the stockholders and outside interests at \$115 per share (par \$100) and the premium on the same, together with the premium paid in at the time of organization, has been placed to surplus account, making that fund \$25,000. The bank began business on July 23 1906. L. M. Alexander is President and M. A. Graettinger Cashier.

-The new Metropolitan State Bank of Minneapolis, organized within the past few months, commenced business on the 20th inst. The bank has a capital of \$100,000 and surplus of \$10,000. The officers are George C. Merrill, President; M. R. Waters, Vice-President; V. H. Van Slyke, Cashier, and Charles F. Wyant, Assistant Cashier.

-On May 11 the directors of the City Savings Bank of Omaha, Neb., authorized an issue of \$500,000 stock, of which \$100,000 was to be issued at once. The bank had a paid-in capital of \$100,000. Part of the \$100,000 increase represents the declaration of a 40% stock dividend, the surplus and profits being used for this purpose. The balance of the issue, \$60,000, has been placed upon the market at par. At present the institution is not forming a surplus fund, but expects to do so in the near future.

-The annual convention of the Oklahoma Indian Territory Bankers' Association was held at Chickasha, I. T., on the 24th inst., at which a resolution was adopted approving the constitution proposed for the new State of Oklahoma, to be formed through the union of Indian and Oklahoma territories.

-The Kansas Bankers' Association, which met in annual session at Topeka on May 20, 21 and 22, has adopted a resolution favoring Federal and State supervision of corporation stock issues, as follows:

Stock ISSUES, as Iollows: Resolved, that we favor legislation, both Federal and State, as will pro-vide strict supervision of the issue of stocks and securities of public service corporations, similar to that relating to banks, to the end that investors therein may have protection from excessive issues and unjust manipulation thereof, and the public from the imposition of unjust burdens; and we fur-ther favor such legislation as will require all corporations engaged in inter-State business to secure a charter from the Federal Government to the end that proper regulation and control may be exercised by Federal authority over them in the interest of the public welfare.

Among the topics discussed at the meeting were: "Glimpses of the United States Treasury," by U. S. Treasurer Charles H. Treat; "A Model Bank from the Viewpoint of the Commissioner," by State Bank Commissioner John Q. Royce; "Acts of the Legislature of 1907 of Interest to Banks," by J. C. Nicholson of Newton; "Plutocratic Kansas," by State Governor E. W. Hoch; "Kansas-Her Constitution and Her Laws," by Justice Silas Porter of the State Supreme Court, &c. J. W. Berryman, President of the Stock Growers' National Bank of Ashland, is the newly-elected President of the association.

-Under the title of "Banking in North Carolina, Past and Present," an address was delivered by H. C. Brown, Chief Clerk of the North Carolina Corporation Commission, before the annual convention of the North Carolina Bankers' Association, held at Durham on May 22, 23 and 24. In the course of his remarks on the history and development of State banking, Mr. Brown referred to the credit bank notes as provided for in the currency reform plan recommended by the Currency Commission of the American Bankers' Association and the New York Chamber of Commerce Currency Committee. He criticized this plan, saying that it "rejects entirely the many suggestions in the past for a currency plan contemplating the issue of notes based upon bank assets other than those of Government bonds. There is," he added, "a moderate element only of elasticity in the plan. Banks having large amounts invested in Government bonds, and

the Government, too, by reason of the low rate of interest it has to pay, are adverse to any system other than that based on United States bonds. However, you will find plenty of good conservative men in North Carolina who will say that a bank currency against general assets and under proper State regulation is sound in theory and successful in practice." He then urged the repeal of the tax of 10% on the circulating notes of State banks.

Statement of New York City Clearing-House Banks.

The following statement shows the condition of the New York City Clearing-House banks for the week ending May 25. It should be distinctly understood that as to all items except capital and surplus the figures are the averages of the daily results, not the totals at the end of the week. In other words, in reporting loans and deposits and holdings of specie and legal tenders, the practice is to take the aggregate of the amounts for the several days of the week and divide this aggregate by the number of days.

We omit two ciphers (00) in all cases.

Banks 00s omitted.	Capital.	Surplus.	Loans.	Specie.	Legals.	Deposits. a	Re- s rve

Wall Street, Friday Night, May 31 1907. The Money Market and Financial Situation.—The liquidat-ing movement in securities noted last week continued prac-tically without interruption, and regardless of prices, until Wednesday. Following this, the market has presented a holiday appearance. On Wednesday traders on the short side, foreseeing the possibilities of four days during more than half of which the Stock Exchange would be closed, were active in covering their contracts, and nurchases of this character. side, foreseeing the possibilities of four days during more than half of which the Stock Exchange would be closed, were active in covering their contracts, and purchases of this character, in addition to other buying, were sufficient to cause a sub-stantial recovery from the previous low prices. Similar con-ditions have prevailed to-day, and perhaps there is a little more hopeful feeling. However that may be, the volume of business is relatively small and it is quite possible that the recovery noted is a perfectly natural reaction from the low level to which prices had fallen. Moreover, there is abund-ant evidence that the market continues to be, as for some time past, largely a "traders' market." Top news has ceased, for the moment at least, to have an unfavorable influence, and the engagement of \$3,310,000 gold for export, the first shipment made since the final pay-ment on account of the Panama Canal purchase, just two years ago, has attracted much less attention than such a movement sometimes does. There is no noteworthy change in money market conditions. The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from $1\frac{1}{4}$ to $2\frac{1}{2}\frac{1}{6}$. To-day's rates on call were $1\frac{3}{4}$ @ $2\frac{1}{2}\frac{1}{6}^{\prime}$. Prime commercial paper quoted at $5@5\frac{1}{2}\frac{1}{6}$ for endorse-ments and $5@5\frac{1}{2}\frac{1}{6}$ for best single names. The Bank of England weekly statement on Thursday showed an increase in bullion of £95,383, and the percentage of reserve to liabilities was 46.82, against 46.83 last week. The discount rate remains at $4\frac{1}{6}$ as fixed April 25. The Bank of France shows an increase of 16,125,000 frances in gold and 3,675,000 frances in silver. NEW YORK CITY CLEARING-HOUSE BANKS.

gold and 3,675,000 francs in silver.

NEW YORK CITY CLEARING-HOUSE BANKS.

	1907. May 25.	1960	iffirences from vious week.	1906. May 26.	1905. May 27.

Plus: k1-16 of 1%. x1-32 of 1%. y3-32 of 1%. The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah buying, 50c. per \$1,000 discount; selling, 75c. per \$1,000 premium. Charleston selling, \$1 per \$1000 premium. New Orleans bank, 10c. per \$1,000 premium; commercial, 20c. per \$1,000 discount. Chicago, 25c. per \$1,000 premium. St. Louis, 55c. per \$1,000 premium. San Francisco, 10c. per \$1,000 premium premium.

State and Railroad Bonds.—Sales of State bonds at the Board include \$25,000 Tennessee settlement 3s at $95\frac{1}{2}$ to $95\frac{5}{8}$ and \$234,000 Virginia 6s deferred trust receipts at 20 to $27\frac{1}{2}$.

The market for railway and industrial bonds has been somewhat more active, although the aggregate transactions is still much below the average. Prices have generally been steady, the sharp declines so frequent of late not appearing in the active list. Consolidated Gas convertible 6s covered a range of 9 points, closing with a net loss of only 1. Where other net declines have been recorded, they are only fractional, and are about offset by advances in other issues. **United States Bonds.**—Sales of Government bonds at the

United States Bonds.—Sales of Government bonds at the Board are limited to \$21,000 2s, coup. 1930, at 10434 to 105, and \$5,500 3s, coup., 1908-18, at 102 to 10218. The following are the daily closing quotations; for yearly range see third page following.

* this is the price bid at the morning board; no safe was made **Railroad and Miscellaneous Stocks.**—Stock market values continued to decline until near the close on Monday, at which time the low level of the week was, in most cases, reached. And while this level was generally from 2 to 5 points lower than at the close last week, it was, with few exceptions, well above the low record of March. The exceptions in this par-ticular were New York Central, Delaware & Hudson, Erie and Great Northern, which established a new low record for the year.

and Great Northern, which established a new low record for the year. Reading has been the active feature, about 265,000 shares having been traded in on Monday, and after selling down over 7 points has recovered about one-half the loss. Among other railway stocks that have been active and covered a wide range are Union Pacific, Canadian Pacific and Delaware & Hudson; the latter declined over 10 points and was then lower than at any time since 1904. It closes 2¼ points above the lowest. Consolidated Gas and the copper stocks have been notably weak. The former declined about 11 points on the brincing of an action to have its charter declared void, a large part of which it has recovered. When at the lowest, Amalgamated Copper had lost nearly 6 points, Smelting & Refining over 6 and Anaconda Mining nearly 5. Steel common sold at the lowest figure of the year but has partially recovered. For daily volume of business see page 1298. The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

Investment and Kailroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the street railways are brought together separately on a subsequent page.

	Latest	Gross Earn	tings.	July 1 to 1	Latest Date		Latest	Gross Eari	nings.	July 1 to 1	Latst Date.

a Figures for the month in both years include operations of the Scranton Ry., acquired Jan. 1 1906. b Figures are from Feb. 1. c These figures are for consolidated company. d These are results for main line. f Now includes Rapid Ry. Syst., Sandwich Windsor & Amherstburg Ry. and Detroit Monroe & Toledo Short Line Ry. h These are early preliminary returns; decrease due to earthquake, fire and strike among employees, Aug. 26 to Sept. 5 1906.

Street Railway Net Earnings.—In the following we show both the gross and the net earnings to latest dates of all STREET railways from which we have been able to procure monthly returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as received, and once a month we bring together all the roads reporting as is done to-day. Besides the companies jurnishing monthly returns, we have added this time the roads which make quarterly returns. —Gross Earn'gs——Net Earnings—

Baltimore Chesapeake & Atlantic Railway.

(Report for Fiscal Year ending Dec. 31 1906.)

President Charles E. Pugh says:

President Charles E. Pugh says: The operations for the year show a satisfacfory increase in gross earnings, \$43,148; but that in freight earnings was not in proportion to the passenger earnings, due mainly to the unfavorable season for fruit and small vege-tables. The decrease in operating expenses was caused by a saving in maintenance of way and structures and maintenance of equipment expenses, amounting to \$37,729 70. It must be borne in mind, however, that the increase in wages and prices of material must add substantially to your expenses during the coming year. The general income account shows the net income transferred to the freedit of "profit and loss," after the payment of interest on funded debt and taxes, and appropriating \$40,000 as required under the terms of the Sup-plemental Mortgage of Oct. 25 1894, for betterments and improvements, to have been \$41,436. In addition to the above charges, a dividend of 5 % on the preferred stock, amounting to \$75,000, was paid out of the surplus. OPERATIONS AND FISCAL RESULTS

OPERATIONS AND I	FISCAL R	ESULTS.	
Earnings— Freight Passenger Express, mails, &c	$\substack{1906.\\\$504,488\\300,943\\104,582}$		1904. \$468,452 251,968 91,119

American Light & Traction Co., New York. (Report for Fiscal Year ending Dec. 31 1906.)

American Light & Traction Go., New York.(Report for Fiscal Year ending Dec. 31 1906.)For record purposes, we print the following report which
was ready early in the year. Prest. Emerson McMillin says:General Results.—The increase in net carnings for the twelve months
over the corresponding period last year was \$\$79,568, or 65.83 %. While
this increase is largely due to the acquisition of new properties which have
been purchased since the last annual report, the increase in earnings of the
companies owned one year ago is considerable, notwithstanding the fact
that prices at which gas is sold by several of our companies have been
anterially reduced.Dividends.—The mount of dividends paid has increased \$423,567, or
64.4%. Dividends on common stock for the first six months were at the
rate of 4% per annum; for the last six months these divedends have been
atter at do 5% per annum. The earnings of the company for the year,
over and above the sums required for the payment of preferred dividends,
carced 20 % on the outstanding common stock.The atte of 5% per annum.The decrease in net surplus of 38.33 %
is due to having carried \$680,500 from the surplus earnings into this
the to taving carried \$680,500 from the surplus earnings into this
monts.—The total of the reserve and net surplus of the twelve
monts. Sti. \$41,706, an increase of 48.94 % for the 12 months. The
total surplus. The total of the reserve, is \$2,400,144, an increase.Windence Gas Light Co., Western

International Nickel Co., New York.

(Report for Fiscal Year ending March 31 1907.)

The report, under date of May 28, says:

The report, under date of May 28, says: Bonded Debt.—Total amount of bonds originally issued, \$10,390,836; bonds bought, canceled and held by the sinking fund trustees, \$584,000; representation of Plants and Reserve Accounts.—During the past year \$1,-30,071 was expended for new construction, equipment and replacements. During the same period there has been provided out of earnings \$409,789 for the following funds: Regular allowance for depreciation of plants, \$159,055; exhaustion of minerals, \$89,484; and bond sinking fund, \$159,055; exhaustion of minerals, \$89,484; and bond sinking fund, \$159,055; exhaustion of minerals, \$89,484; and bond sinking fund, \$161,250. There has been appropriated from the surplus for further de-preciation of properties, \$600,000. As our sales are either for cash or are reserve fund for the collection of outstanding accounts. As yet we have had no losses. Insurance.—As the construction of all the buildings erected during the fast head year with the exception of rock houses has been of itself and concrete, we have been able to largely reduce the cost of insure. Troits of Forcing Companies.—The transactions of the Nickel Corpora-not. Inimited, and Societe Miniere Caledonienne for the current year are not included in this report, but from the latest accounts received the measure with not be materially affected. To have incorporated the measure out included in this report, but from the latest accounts received the measure of Treasurer James L. Ashley.

1

operations of these companies would have delayed our report materially. Remarks of Treasurer James L. Ashley. The profits are computed on the sales actually made to customers, and all inventories are taken at cost. Finished material and material in process include no inter-company profits. The company has no floating debt other than the current bills for labor and supplies in the process of auditing. All purchases of material, supplies, &c., are paid for in cash. Every pos-sible advantage is taken of discounts for such settlements. The major part of the cash on hand is in the trust companies, drawing full rate of interest.

Remarks of President A. Monell. During the past fiscal year the new power plant in course of erection at the falls of the Spanish River, Ontario, Canada, has been in successful operation. The saving in costs—due to the use of this power—has justified the installation of a third unit and electrically equipping the mine hoists and compressors. The policy of replacing all wooden buildings by modern steel and concrete construction has eliminated the risk of any scrious sCut down due to fires. The board of directors has deemed it advisable to appropriate from the surplus the further sum of \$600,000 to write down the cost of properties. This appropriation is set forth in special entry upon the balance sheet. Our efforts during the past year to introduce nickel into new commercial arts have met with continued success. Our export trade has shown a commendable increase over the records of our last fiscal year, although competition abroad is active and is always to be expected. The business of the company for the past year has been very good, and there is still every promise of increased business for the coming year.

(Report for Fiscal Year ending March 31 1907.)

President Insull savs:

The growth of the company's business during the year has called for an increase of its capital stock from \$12,011,203 75 to \$13,614,115 (V. 82, p. 511). In addition your directors have caused to be issued \$5,000,000 of 5% 3-year gold debentures, all of which have now been sold, and of which \$1,016,000 had been delivered to the purchasers at the close of the com-pany's books on March 31 (see V. 84, p. 695, 1054). The accounts and bills payable, which at the close of the fiscal year amounted to \$1,090,538, have since been reduced to less than \$100,000.

United Gas Improvement Co., Philadelphia.

(Report of May 23 1907 on Philadelphia Gas Situation.)

Vice-President Randal Morgan, under date of May 23 1907, has furnished the City Council of Philadelphia with a long statement to show the inadvisability of the city's exer-cising its option to terminate on Dec. 31 1907 the lease of the municipal gas plant to the United Gas Improvement Co., which operates the property under the title of the Equitable Illuminating Gas Light Co. This statement was published in full in the "Philadelphia Financial Bulletin" of May 25. Some of the leading statistics are shown below, Mr. Morgan saying in substance: Mr. Morgan saying in substance:

Cash payments for each 1,000 cubic feet of gas sold must be made to the city, under the terms of the lease as follows: *Cash Payments to City (per 1,000 Cubic Feet) Under Terms of Lease.* For 10 yrs. ending Dec. 31 1907, 10c. For 5 yrs. ending Dec. 31 1917, 20c. For 5 yrs. ending Dec. 31 1912, 15c. For 10 yrs. ending Dec. 31 1927, 25c.

During the first nine years of the lease the total cash payment thus made to the city on account of rentai was \$4,653,151. As additional rental, there is also paid to the city all gas required for gas street lamps, and the lighting, cleaning and extinguishing the same, and all gas used for illuminating pur-poses in public buildings, all without charge. The amount of gas sold to consumers and furnished free to the city for public street lighting and for illuminating public buildings during the nine years ending Dec. 31 1906 has been 52,758,903,048 cubic feet.

The cash receipts were______\$46,531,508 The uncollected bills on Dec. 31 1906 were______597,952

 Note.—Dividend No. 1, being the accumulation of dividends on preferred stock from date of its issue to July 1 1905 at rate of 7% per annum, was paid Jan. 10 1907. It amounted to \$43,853 43. Dividend No. 2, the additional accumulation of dividends on preferred stock to Jan. 1 1907 at rate of 7% per annum amounts to \$47,522 38. Dividend of this amount declared March 19 1907, payable April 1 1907.

Consolidation Coal Company (of Maryland).

(Report for Fiscal Year ending Dec. 31 1906.)

President C. W. Watson, March 20 1907, writes in part:

Tonnage.—The total output for the year of coal mined by the company was 2,128,879 tons, an increase of 32,666 tons over that of the preceding year, and the largest in the history of the company. The output (in tons) of the leading mines was as follows:

Railroad Department.—The coal tonnage handled by the C. & P. RR. during the year amounted to 3,766,148 tons (an increase of 238,997 tons over 1905), distributed as follows: To Baltimore & Chio RR., 3,022,297 tons; Pennsylvania RR., 430,329 tons; Chesapeake & Ohio Canal, 199,505 tons; local, 114,017 tons.

Tables show the coal production of Consolidation Coal Co

and its subsidiaries as				1272):

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET ROADS.

RAILROADS, INCLUDING STREET ROADS. Boston Suburban Electric Companies.—Amendments Approved—Proposed Merger and Bond Issue.—The amendments to the declaration of trust which were referred to last week were duly approved at the meeting on May 27. The "Boston Transcript" of May 27 said: President A. D. Claffin states that the object immediately in view is the consolidation of three street railway companies west of Newton. In absorbing these roads the Boston Suburban acquired about \$100,000 bonds and in effecting the reorganization (merger) it wishes to dispose of these securities, and possibly some real estate. The companies to be consolidated are the Westboro & Hopkinton, the South Middlesex and the Natick &

Cochituate, which, taken together, give a through line from the end of the Worcester Consolidated Street Rallway Company's tracks in Westboro to Newton, whence the Boston Suburban Companies' cars may be run directly into the Park Street station of the subway by the Boston Elevated. —V. 84, p. 1246.

p. 1246. Buffalo Batavia & Rochester Electric Railway.—Right Withdrawn.—The New York State Railroad Commission on May 22 annulled its consent to the issue by this company of a first mortgage for \$3,500,000, on the ground that the mortgage of the allied Buffalo & Williamsville Elec. Ry. Co. for a like amount (but only \$117,500 outstanding) has not been canceled as stipulated.—V. 81, p. 154.

Buffalo Rochester & Pittsburgh Ry.—New Bond Issue— Further Facts.—The new consolidated mortgage securing 355,000,000 bonds dated May 1 1907 and due May 1 1957 has been made to the Central Trust Co. of New York, as trustee. The bonds are to bear such rate of interest, not exceeding $4\frac{1}{2}\frac{9}{6}$ per ann um, as shall be fixed for successive issues by the board of directors, and are issuable as follows: Issuable whenever destrable bearing $4\frac{16}{6}$ interest. $33\,000\,000$

issues by the board of directors, and are issuable as follows: Issuable whenever desirable, bearing 41% % Interest ______\$3,000,000 Reserved to retire a like amount of underlying bonds (including \$350,000 Lincoln & Charlotte RR. 58) ______10,350,000 Reserved to pay certain real estate mortgages ______10,350,000 Reserved to retire \$1,500,000 construction and equipment 3-year 41% Notes dated Aug. 1 1906 (V. 83, p. 1522) ______1500,000 Reserved to retire \$2,500,000,000 construction and equipment 3-year 41% Notes dated Aug. 1 1906 (V. 83, p. 1522) ______1500,000 Reserved to retire \$2,000,000, amount outstanding reduced to date to about \$1,648,000; E dated 1904, authorized \$2,000,000 amount out reduced to about \$1,216,000; F dated April 1 1907, authorized, \$3,000,000; Issued, not known,___Ed.) ______3,500,000 Reserved for extensions, additions, new equipment, &c., but none to be authenticated or delivered prior to July 1 1908, nor to any greater extent than \$1,500,000 in the year 1908, or in any one calendar year thereafter unless the Issue of such larger amount shall first be authorized by a majority in interest of the stock-holders at a meeting duly called _______18,550,000 The reservation of bonds for the retirmeent of car trusts

The reservation of bonds for the retirmeent of car trusts discloses the existence of a new issue of car trusts dated April 1 1907, of which apparently about \$700,000 is outstanding.—V. 83, p. 1113, 995.

Buffalo & Susquehanna Ry.—New President.—Vice-President Charles W. Goodyear has been elected President to fill the vacancy caused by the death of his brother, Frank H. Goodyear. Assistant General Superintendent Anson C. Goodyear has been made 1st Vice-President.—V. 84, p. 270.

Buffalo & WilliamsvilleElectric Ry.—See Buffalo Batavia & Rochester Electric Railway above.—V. 81, p. 154.

Canada Coal & Ry.-Sold.-See Maritime Coal, Railway & Power Co. below.-V. 80, p. 1110.

Notes in Exchange.—Speyer & Co. are prepared to accept on June 3 the 3-year $4\frac{1}{2}\%$ gold notes, due July 1 1907, at the price of par and accrued interest, in payment for the first and refunding mortgage 4% gold bonds at the price of 87 and interest, as stated in above notice.—V. 84, p. 1247, 748 87 a 748.

Chicago Terminal Transfer Co.—New Directors.—At the annual meeting on May 29 five new directors were elected, the board now including:

the board how including: Representing J. P. Morgan & Co.: Jesse B. Barton, Fred G. Reighley, Ralph M. Shaw, W. V. S. Thorne, Sllas Strawn, John N. Falthorn, A. H. Gillard, A. C. Emery, E. N. Layfield, W. B. Barr, T. M. Butters and F. B. Huntington, the last three being new. Representing the minority shareholders, three new directors: Maclay Hoyne and Clarence A. Knipt, of Chicago, and W. W. Miller, who is a member of the New York law firm of Hornblower, Miller & Potter, which is acting for the protective committee representing the minority share-holders. (Compare V. 84, p. 930)

The suit to set aside the sale of the Terminal Co. first mortgage bonds to the Baltimore & Ohio RR. Co., it is stated, will be started in the United States Court in a few days.—V. 84, p. 1182, 930.

days.—V. 84, p. 1182, 930. Delaware & Hudson Co.—Equipment Bonds Offered.— Kuhn, Loeb & Co. and the First National Bank, both of New York, are offering by advertisement on another page at 95%, at which the yield to the investor is about 5%, the unsold portion of the issue of \$10,000,000 "first lien equip-ment 4½% 15-year gold bonds," dated July 1 1907. Due July 1 1922. Interest payable Jan. 1 and July 1. Coupon bonds in denomination of \$1,000 each, with privilege of registration of principal. Principal and interest payable in gold, without deduction for any taxes which the company may be required to pay thereon or retain therefrom under any present or future law. The advertisement says: To be secured by a first lien upon equipment, certified to cost in excess

any present or future law. The advertisement says: To be secured by a first lien upon equipment, certified to cost in excess of \$11,000,000. The indenture will contain provisions for the proper main-tenance of the equipment and for the payment to the trustee of an annual sinking fund of \$650,000 in cash for the purchase and cancellation of bonds of this issue or the purchase of additional equipment to become subject to the indenture as additional security for the bonds, or for the purchase of bonds legal for investment by insurance companies in the State of New York, which bonds are to be held as further security under the trust inden-ture. Such bonds so accumulated may be subsequently sold and the proceeds applied to the purchase and cancellation of bonds of this issue, or to the purchase of new equipment to become subject to the lien of the bonds. We are advised by counsel that these bonds, when issued, will be a legal investment for insurance companies in the State of New York. Payment for bonds purchased is to be made on July 11907 against delivery of interim certificates of the trustee. -V. 84, p. 1247, 1182.

Detroit United Ry.—Reported Purchase.—See Jac Ann Arbor & Detroit Ry. below.—V. 84, p. 1052, 450. Jackson

Easton & South Bethlehem Transit Co.—Guaranteed Bonds Offered.—Edward B. Smith & Co., Philadelphia and New York, and Bioren & Co., Philadelphia, are offering at par and interest the first mortgage 5% bonds, guar-anteed principal and interest by endorsement on each by the Easton Consolidated Electric Co. Principal due July 1 1936, but subject to call after July 1 1911 at company's option at 105 and int. The mortgage is limited to \$500,000; present issue \$400,000. (Compare V. 83, p. 323.) A circu-lar says: lar says:

This says. These bonds are secured by an absolute first mortgage on 12¾ miles of road extending from Easton to South Bethlehem; also by a perpetual track-age contract with the Easton Transit Co., giving the right in perpetuity to run cars over the Transit Company's tracks into Centre Square, Easton. In South Bethlehem the terminus of the line is directly opposite the Union Station. The entire capital stock of the Easton & South Bethlehem Transit Co. is owned by the Easton Consolidated Co., which guarantees the principal and interest of these bonds.—V. 83, p. 323.

principal and interest of these bonds.—V. 83, p. 323. Havana Central RR.—Notice to Holders of Stock and Bonds. —Referring to the advertisement dated April 30 1907, holders of bonds and shares of the Havana Central Railway Co. are reminded that the offer on behalf of the United Railways of the Havana & Regla Warehouses, Ltd., to receive such bonds and shares for exchange, expires at 4 p. m. May 31. The advertisement (see another page) says: "Large amounts have already been deposited in London, New York, Montreal and Havana whereby the success of the plan is assured." Compare V. 84, p. 1052. Holders Manufactures? PR

Hoboken Manufacturers' RR.—Mortgage.—This company recently made a mortgage for \$400,000 due in 20 years to the Hoboken Land & Improvement Co., covering, it is said, besides the proposed road and other property, about 500 city lots along the western line of Hoboken.

city lots along the western line of Hoboken. The company will build a line of railroad through the manufacturing district of Hoboken, N. J., from 14th St., skirting the base of the hill, through the westerly portion of Hoboken to the Erie RR, main line in Jersey City. A lease was taken June 19 1906 of the steam and electric line of the Hoboken Raihroad Warehouse & Steamship Connecting Co., which ex-tends from 5th St., Hoboken, to Weehawken, 2.06 miles, connecting the plers of the steamship lines and warehouses in Hoboken and Weehawken. This last-named company has outstanding \$300,000 stock (on which a dividend of 1½ % was paid in 1900 and \$106,000 bonds. The new company is controlled by or in the same interest as the Hoboken 5400,000 stock and \$400,000 mortgage bonds. The officers are R. M. Dickinson, Pres.; Charles F. McGuire, 911 Castle Point Terrace, Hoboken; Vice-Pres.; H. E. S. Wilson, 60 8th St., Hoboken, Sec., and Paimer Camp-beli, Treas, and Gen. Mgr. An officer of the new company is reported to have stated that the road will be in operation next fail. It will connect with the Pennsylvania, New York Central, Reading, Baltimore & Ohlo, Erde, Lackawanna, Jersey Central, Lehigh Valley and West Shore roads.

Illinois Iowa & Minnesota Ry.—Postponed.—The annual meeting at which the merger plan will be considered has been postponed until June 20. See V. 84, p. 996, 508.

postponed until June 20. See V. 84, p. 996, 508.
 Interborough Rapid Transit Co.—Decision.—Justice Fitz-gerald in the Supreme Court in this city on May 25 granted the application of the Board of Rapid Transit Commissioners for an injunction restraining the company from delivering electric current to the New York City Interborough Ry.
 The Court holds the plaintiff is entitled to an accounting for the reason-shan are at present necessary were constructed to anticipate the probable extension of the subway system because of the difficulty. If not impossibi-ty of adding to them after the subway wall was constructed. The Court further states: "The use of these ducts for the sale and transmission of electric current for motor power to other parties, whether owners and operators of connecting or intersecting railroads or not, is a use of public property contrary to the plain purpose of the Rapid Transit Act and not reasonably contemplated by the parties to the instrument of contract and estated, and so far as the company seeks to charge the cost of the generation and transmission of such electric current against the sum upon which its indebtedness to the municipality shall be computed, manifestly unjust to be city.".—V. 84, p. 1182, 1052.
 Ithaca Street Ry.—Change in Control.—A. H. Flint & Co.

Ithaca Street Ry.—*Change in Control.*—A. H. Flint & Co. of New York have arranged to purchase control for a sum said to be \$200,000.—V. 72, p. 988.

of New York have arranged to purchase control for a sum said to be \$200,000.-V. 72, p. 988. Jackson Ann Arbor & Detroit (Electric) Ry.-Merger.-This company, organized some time ago under the steam railway laws of Michigan, with capital stock of \$1,900,000, of which \$400,000 is 6% cumulative (par \$100), has ar-ranged to establish a trolley line extending from Jackson, Mich., to Detroit, and from Wayne to Northville, a total distance of 90 miles, and for that purpose has acquired the Detroit Plymouth & Northville Ry. (V. 76, p. 971), now in operation from Wayne to Plymouth, and Northville, 15 miles, and also the Jackson & Ann Arbor Railway (V. 81, p. 1044), already built from Grass Lake, Mich., to Dexter, Mich., 20 miles. The line to Detroit is under construction. The new company has authorized an issue of \$1,500,000 bonds, \$1,000,000 of which will be used to complete the line into Detroit and for other purposes, and \$500,000 will re-main in the treasury. The \$150,000 first 6s of the D. P. & N., it is said, will later on be retired. Officers: Chas. W. Os-borne, President; W. A. Boland, 31 Nassau St., New York, *Reported Sale.*-It is reported that the Detroit United has purchased the "Boland line" between Jackson and De-troit. Mr. Boland, being absent from his office, 31 Nassau St., no definite information could be obtained.-V. 77, p. 36. Low Fare Ry., Cleveland.-Unjavorable Decision.-Judge Phillips in the Common Pleas Court on May 22 held that

Low Fare Ry., Cleveland.—Unfavorable Decision.—Judge Phillips in the Common Pleas Court on May 22 held that the ordinance of April 27 last granting the company a fran-chise over the Central and Quincy avenues, S. E. route, recently abandoned by the Cleveland Electric Ry., is invalid. because of failure to procure the consent of a majority of foot frontage before the franchise was granted by the City Council. An appeal has been taken to the Circuit Court.

Council. An appeal has been taken to the Circuit Court. The company sought to avail itself of consents given to the Forest City Ry., under which the City Council gave the latter a franchise over the same route in Sept. 1906, but the court held that every franchise requires separate consents. The Cleveland Electric Ry., it is stated, holds between 80 and 90% of the consents in the avenues named applying for a six years' period. Interests friendly to that company express serious doubt whether any other company can obtain valld consents until the expiration of that time. Street car service has not yet been restored. The "Cleveland Leader" of May 11 contained as adver-tisements the franchise ordinances. "Cleveland Finance" of May 11 said:

of May 11 said:

of May 11 said: On Monday night of this week the City Council, acting under orders of Mayor Johnson, passed ordinances alleging to grant the Low Fare Co. ranchises for certain streets now occupied by the Cleveland Electric Rail-way. These comprise Woodland Av. and Kinsman Road routes, Detroit Av., Lorain Av., Bridge Av., West 65th St., Clark Av., West 73d St., Madison Av., West 98th St., Woodbine Av. and John Av. The object was not to grant any right to the Low Fare Company, for the Council has not that right under a decision of the United States Supreme Court. These ordinances were passed simply to create the impression in the minds of the people that the Low Fare Company had secured some valu-able franchises and thereby assist in selling three-cent stock to the ignorant, unthinking poor people of Cleveland. In the Central Av. case in the United States Court (V. 84, p. 101), wherein the ordinance granted to the Forest to an existing company a renewal of its franchise, but where a company was operating under a franchise the City Council could not grant to another company a franchise covering the same streets until the original franchises and expired.--V. 84, p. 1114, 102. Louisville (Ky.) Railway Co.-Note Issue.-The company

Louisville (Ky.) Railway Co.—Note Issue.—The company announces an issue of \$500,000 6% notes (secured by bonds) redeemable at any time from 1908 to 1910. The proceeds will be used in purchasing new rolling stock and extending the suburban line to Bardstown. It is said that \$300,000 of the notes have been placed and that the remainder will not be sold until the money is needed.—V. 84, p. 567, 450.
Manhattan Ry., New York.—Decision in Tax Case Ajfirmed.—The Appellate Division of the Supreme Court in this City on May 24 handed down a decision unanimously affirming the report of Hamilton Odell as referee in the suit brought by the city to collect taxes due on the Ninth Avenue line under the law requiring the company to pay a percentage of the net income. There was no dispute as to the validity of the law, but merely as to the items to be deducted from the gross earnings in arriving at the net earnings. The from the gross earnings in arriving at the net earnings. The referee found that for the years 1880 to 1902 the city was entitled to \$176,810, and for 1903, 1904 and half of 1905, \$94,294, bringing the judgment now affirmed, including in-terest and costs, up to \$275,538. Compare V. 77, p. 2159.— V. 84, p. 271.

Maritime Coal, Railway & Power Co.-Pa "Monetary Times" of Toronto on May 25 said: Purchase.-The

Montrealers are interested in the deal by which the Maritime Coal Rail-way & Power Co., Limited, comes into possession of the entire property of the Canada Coal & Railway Co. The property includes 17 square miles of coal-bearing land and 12 miles of railway, fully equipped with rolling stock,

William Hanson signed on behalt of the vendors and Hon. Senator Mitchell for the purchasers. (The purchaser, formerly known as the Maritime Coal & Ry. Co., operates for freight only 3 miles of railroad extending from Chigneeto, N. S., on the Intercolonial Ry., to Maccan Junction on the line of the Canada Coal & Railway Co. (Compare V. 81, p. 1178; V. 82, p. 928.)

of the Canada Coal & Railway Co. (Compare V. 81, p. 1178; V. 82, p. 928.) New Orleans Railway & Light Co. —Reduction in Net Price of Gas to \$1 15. —The following notice was given May 21: The New Orleans Gas Light Co. announces a reduction In the net price of gas of five cents per 1,000 cubic feet on all gas consumed after the June reading. For payment at the office on or before the 10th of the succeeding month the discount will be 25c. Instead of 20c. per 1,000 cubic feet, as here-tofore, making the net price of gas in New Orleans \$1 15 per 1,000.—V. 84, p. 396, 868.

New York Auburn & Lansing Electric R.R.—Bonus with Bonds.—Andrew L. Bush, Springfield, Mass., recently offered \$50,000 of the first mortgage 5% gold bonds of this partly built third-rail electric road at par and interest with a bonus of 25% of stock.

of 25% of stock. The company has a steam railroad franchise, but will opérate with the third-rail electric system. Of the 35 miles of main line between Ithaca and Auburn, 26 miles, we are informed, will be in operation by steam power within a week and the remainder is expected to be completed by Sept. 1, along with 5 miles of sidings. Capital stock will be \$1,000,000. Author-ized bond issue, \$1,000,000, of which \$600,000 is outstanding and the re-mainder issuable at \$25,000 per mile. A. H. Filint, 15 Broad Street, is Presi-dent. Compare V. 83, p. 156. New York Central & Hudson River RR.—Company's First Electric Car Between Utica and Syracuse.—A trial trip over the third-rail electric line of the West Shore RR. and allied trolleys between Utica and Syracuse was made on May 23 and regular electric service is about to begin. Terminal Contract Canceled.—The contract with the O'Rourke Engineering & Construction Co. for the excavation and construction of the Grand Central Terminal has been canceled, because, as stated, the railroad company found it impossible to allow the work to proceed as fast as was de-sired by the Construction Company, which was losing money because its men were not fully employed. A director of the O'Rourke company is quoted as follows: We have entered into an amicable arrangement by which we withdraw from the work and the New York Central undertakes to complete it. We

Siled by the construction company, when the table and the description of the O'Rourke company is quoted as follows:
We have entered into an anicable arrangement by which we withdraw from the work and the New York Central undertakes to complete it. We have sold our plant to the New York Central and payment for it and for the work already done, under a componise, has already been made. Our of the one of an expenditure by the Central of something between and expenditure by the central something between and expenditure by the central of the company to refuse to give transfer end for a comparise transfer end to bound an one thouse of the end to bound ear on Third Avenue, transferred to the the something the tweeness strend and desired to board a northbound car on Greenwich Street by the strend process in the authorized capital stock from something the end to be the first mane to give by the first meeting yeste

A press report from New Haven says:

A press report from New Haven says: The Consolidated Rallway Co. recently took over the New England Navigation Co. at a valuation of \$20,000,000, or exactly the price which A dynase some time ago offered for the property. Against this,\$20,000,-000 of Consolidated Rallway Co. stock was created, which added to the previous outstanding \$10,000,000 of stock, while legally outstanding. the steam corporation. This \$30,000,000 of stock, which added to the werger now is represented by the \$30,000,000 of stock, which added to the merger new is represented by the \$30,000 of stock, while legally outstanding. I he the New York, New Haven & Hartford R.R. treasury for any legal use whatever. Compare V. 84, p. 1242, 1114. Pacific Railway & Navigation Co.—New Enterprise— Purchase.—This company, mentioned below under heading of United Railways of Portland, Ore., was incorporated in Oregon in Oct. 1905 with \$2,000,000 authorized stock, to build about 200 miles of road, including a line from Hills-boro, Ore., on the Southern Pacific to the Pacific Coast, and branch lines to Astoria, Nehalem and Scappoose The company, it is reported, made in Feb. last a mortgage to the Union Trust Co. of San Francisco as trustee to secure \$4,000,000 bonds. The franchises and old grade of the Portland Nehalem & Tillamok have been devised.

\$4,000,000 bolks. The franchises and old grade of the Portland Nehalem & Tillamook have been acquired. The grade was reported as completed some time since from Hillsboro to Banks, 7 miles, with grading in progress from Banks to Buxton, 13 miles. Surveys, it is stated, were completed to Summit, 27 miles from Hillsboro, and the line was under survey from Banks to Tilla-mook and Veronia, 80 miles. President, E. E. Lytle, formerly President of the Columbia Southern Ry.; C. E. Lytle, General Manager; May Enright, Secretary; and C. W. Wanzer, C.E., all of Portland, Ore.

Passenger Fares.—Illinois Two-Cent-Fare Bill Signed.— Gov. Dineen of Illinois on May 27 signed the two-cent passenger fare bill. See V. 84, p. 1248, 932.

Pittsfield (Mass.) Electric Street Ry.—New Bonds —The company has filed a mortgage to the Berkshire Loan & Trust Co. of Pittsfield, Mass., as trustee, to secure the issue of \$100,000 bonds (said to be 4 per cents due July 1 1923), the issuance of which for additions and payment of floating debt

was recently approved by the Massachusetts Railroad Com-mission. At or about the same time the Pittsfield Electric Co. (V. 77, p. 454, 1297) made a mortgage for \$150,000 to the same trustee.—V. 84, p. 868. Pueblo Tramway, Light & Power Co., Mexico.—Sold.— See Mexican Light & Power Co. under "Industrials" below. —V. 83, p. 626. Reading Compared New Figure 10.

Reading Company.—New Equipment Trust.—The com-pany has filed at Philadelphia "Car Equipment Lease, Series E" to E. T. Stotesbury of the firm of Drexel & Co., as trustee, covering new equipment in order to secure \$5,000,-000 4½% car equipment certificates. The Philadelphia "Ledger" understands that the issue has been underwritten by Drexel & Co., but on the other hand it is stated that none of the issue will be put out at present.—V. 84, p. 932, 571.

of the issue will be put out at present. --V. 84, p. 932, 571. San Pedro Los Angeles & Salt Lake RR. --Agreement Can-celed.--R. S. Lovett, General Counsel of the Southern Pacific Co., has informed the Inter-State Commerce Commission that a traffic agreement between his company and the San Pedro road, which was made public by the Inter-State Commerce Commission hearings at Los Angeles some months ago, was canceled on April 15 1907 because of the enactment by the California Legislature of a law to prohibit contracts in restraint of competition. This traffic agreement, which was to run for 99 years, was put in force

by the California Legislature of a law to prohibit contracts in restraint of competition. This traffle agreement, which was to run for 99 years, was put in force, June 18 1903. Its two most important provisions were: (1) A covenant of the San Pedro company to put in force the tariffs of the Southern Pacific: and (2) that no change shall be made in rates by either company without the consent of the other party. Another contract which was to have run for 99 years and which is reported also to have been canceled on April 15 was between the Oregon Short Line (Union Pacific) and the San Pedro company, and contains the following pro-vision: Said San Pedro company hereby covenants that it will not hereafter during the term of its agreement extend its main line of railroad, nor assist or davise in the building or construction of any other railroad northward from Sait Lake City, nor which may run into the territory northward of the parallel of Sait Lake City, Utah.—V. 84, p. 694. **Springfield Wilmington & Cincinnati (Electric) Railway.** *—Successor Company*.—This company, which recently filed a mortgage to the Knickerbocker Trust Co. of New York as trustee, to secure an issue of \$4,000,000 5% bonds (V. 84, p. 1249), we are informed, has taken over the old Springfield & Xenia Ry. recently sold at receiver's sale (V. 83, p. 214) and proposes to extend the line now run-ning from Springfield to Xenia, 20 miles, to Wilmington and Cincinnati, giving it'a total length of 160 miles. While no reorganization plan has been issued, the old company's security holders, it is stated, will receive in exchange for their holdings about an equal amount of the securities of the new corporation. *Stock*.—The company in February last filed a certificate of

Rights of Preferred Shares (from the Form of Stock Certificate). The preferred stock is entitled out of net profits, in preference to any dividends on the common stock, to dividends at the rate of 7% per annum, payable semi-annually. To such extent as the dividends may not be earned and paid in any given year they will accumulate and become payable out of the earliest net profits thereafter available for dividends. In liquidation the preferred stock will have a prior claim to payment, but all capital and assets distributable in exceess of the par value thereof and any dividends accrued and remaining unpaid will belong wholly to the common stock. All rights from time to time arising to subscribe for capital stock or securi-ties are to be accorded to the common stock alone. The holders of the common and preferred stock have like voting power, i.e., one vote for each share held, of whichever class. Any of the preferred stock may, at the holder's option be converted into an equal amount of common stock. The right is reserved to redeem the preferred stock in whole or in part, by pay-ing par and 10% premium, together with any accrued and unpaid divi-dends.—V. 83, p. 1413. Consolidated Gas Co. of New York.—Suits by Citu.—

dends.-V. 83, p. 1413. **Consolidated Gas Co. of New York**.-Suits by City.-Corporation Counsel Ellison has begun actions in the New York Supreme Court to test the validity of the franchises of the company and its various controlled properties. The hearing on the application of Attorney-General Jackson for leave to bring suit to annul the company's charter has been adjourned to Monday next. Arthur H. Masten, special master in the suit pending in the United States Circuit Court, has granted the attorneys time until Monday next to suggest changes and file exceptions to his report. Compare V. 84, p. 1250, 1055. **Decatur (Ala) Land Co**-Tenders Asked for Sale at Pre-

Decatur (Ala.) Land Co.—*Tenders Asked for Sale of Pre-ferred Shares.*—In accordance with the provisions of the charter, the board of directors has determined to devote

ferred Shares.—In accordance with the provisions of the charter, the board of directors has determined to devote such sum as may be available for the purpose to the purchase of the preferred stock at the lowest price offered; such stock to be retired and canceled. Holders are requested to submit tenders to President Harry L. Falk, 56 Beaver St., New York City. Forms will be furnished on application to the Secretary, L. P. Troup, New Decatur, Ala. Tenders will all be opened at 3 p. m., July 5 1907.—V. 77, p. 402.
Dilworth Coal Co., Pittsburgh.—New Trustee.—The Guarantee Title & Trust Co. of Pittsburgh was recently appointed to succeed the Equitable Trust Co. of Pittsburgh as trustee, under the first mortgage dated Jan. 1 1902, securing an issue of 5% gold bonds amounting to \$300,000. A second mortgage has been filed securing an issue of \$300,000 6% gold bonds dated April 1 1907, "needed for extensions and purchase of property," but none of this issue has been sold. The company. which mines and ships coal, was incorporated in 1901 with \$400,000 capital sick (\$385,550 now outstanding—par \$50) and acquired some 780 acres of coal lands near Rice's Landing, on the Monongahela River in the Fifth pool. The first mortgage bonds are due in 1922, but are subject to call at 110, interest payable July 1 and Jan. 1 at office of trustee; denomination \$1,000. President, H. P. Dilworth; Treas., R. M. Mackenzle, Pittsburgh.

Example, Partsburgh. **Example**, Partsburgh. **Example**, Particle, **Enfield**, **R. I**.—Bonds Offered.—Hunt, Mann & Saltonstall, 60 State St., Boston, are offering at par and interest the outstanding \$250,000 1st mortgage 6% sinking fund gold bonds due March 1 1927, but subject to call for the sinking fund on any interest date at 105 and interest. Authorized issue \$500,000 of which \$250,000 reserved for additions and

Authorized issue \$500,000, of which \$250,000 reserved for additions and Improvements. Interest payable March 1 and Sept. 1 at the Rhode Island Hospital Trust Co., Providence, R. I., trustee. A New Jersey corporation with \$500,000 outstanding capital stock, engaged in the manufactore of highest-grade cotton fabrics, principally blankets. "The bonded debt is now 55.55% of the cost of tangible property and can never exceed 61.11%, exclusive of the value of patents." Clarence Whitman is President.

now 55.55 % of the cost of tangible property and can never exceed 61.11 %, exclusive of the value of patents." Clarence Whitman is President. Federal Mining & Smelting Co., New York.—Earnings.— An official statement of earnings for the quarter ended May 31, partly estimated, shows net profits of \$729,000, of which \$510,000 was used for dividends, leaving \$219,000 to be added to surplus account.—V. 83, p. 1349. Great Eastern Telephone Co., New York City.—Decision. —The Court of Appeals on May 28 handed down a decision, affirming those of the lower courts, denying the application of the New York Electric Lines Co. a mandamus compelling the Commissioner of Water, Gas & Electricity to issue a permit to it to build subways or conduits under certain streets of the city. Judge Chase wrote the prevailing opinion. Alton B. Parker, counsel for the New York Electric lines, is quoted as saying that the decision sustains the lower court in holding that the charter of the New York Electric Lines Co. as not lapsed and that while the right to build conduits is decided to have been lost, that to string where semans. The decision, it is claimed, is based largely on the ground that the Court holds that accommodation can be familished by the Empire City Subway. Compare V. 83, p. 1173, 496.

International Match Co.—Further Facts.—This company, mentioned last week, it appears was one of those fathered by the late Frank K. Hipple of Philadelphia, who, it is said, pledged 40,000 shares of the stock to secure an alleged loan of \$65,000. (Compare Pennsylvania Sugar Refining Co. V. 83, p. 497.)

International Mercantile Marine Co.—Statement to New York Stock Exchange—Voting Trust—Rights of Stock— Securities Pledged.—The New York Stock Exchange April 24 listed this company's stock and bonds, the latter bear-ing 4½% (not 4% interest).—Compare V. 84, p. 999. The statement to the Exchange affords the following: Voting Trust—All the subtoleved context constitute of \$60,000,000.

statement to the Exchange affords the following: Voting Trust.—All the suthorized capital stock, consisting of \$60,000,000 each of common and preferred, was issued, and the certificates, with the exception of 110 shares of common (directors' shares), were deposited with the voting trustees under the Voting Trust Agreement of Oct. 28 1902, to be held until Oct. 1 1907 unless a majority of the voting trustees, in their discretion, make an earlier delivery upon not less than sixty days' notice. The company has acquired and there is now in its treasury preferred stock trust certificates of \$8,269,029 par value. The voting trustees are certificates aggregating \$10,067,265 par value. The voting trustees are entitled to vote all the shares of stock for every purpose, and to consent to any corporate act, but shall not vote said stock to authorize any addi-tional mortgage or other lien, or to authorize ari y increase in the amount of the authorized capital stock without, in eachinstance, the consent of the negistered holders of stock trust certificates calling for two-thirds in amount of the pref. stock outstanding. The voting trustees are J. Pierpont Morgan, Charles Steele, J. Bruce Ismay, Peter A. B. Widener and W. J. Pirrie. The preferred stock is entitled to receive, when and as declared, from the surplus or net profits of the company, y ariy dividends at the rate of 6% per annum, and no more. The dividends on the preferred stock are

cumulative. Dividends on the common stock may only be declared and paid after all accrued dividends on the preferred stock have been paid, and shall never in any one year exceed 10 % so long as there shall remain outstanding any of the $4\frac{1}{5}$ % "mortgage and collateral trust gold bonds." In the event of liquidation, the holders of preferred stock are entitled to be paid in full both the par amount of their shares and the unpaid dividends accrued. After such payments, the remaining assets and funds shall be divided and paid to the holders of the common stock. Bonds-Securities Pledged.—The $4\frac{1}{5}$ % "mortgage and collateral trust" gold bonds are dated Oct. 1 1902. The authorized issue is limited to 575.000.000, of which 552.744.000 have been issued. The remaining 322.256.000, or any part thereof, can be issued only as set forth in Art. 1, Sec. 3, of the deed of trust.

The Stock Exchange has corrected a slight error which appeared in the application for listing. The \$19,618,000. International Navigation Co.'s first mortgage sinking fund 5% gold coupon bonds, due Feb. 1 1929, are redeemable Feb.1 1909, the latter clause being left out in the original application. The \$22,256,000 $4\frac{1}{2}$ % bonds due Oct. 1 1922 are not redeemable after Feb. 1 1909, as was originally stated in the application.—V. 84, p. 999.

Jenifer Coal & Iron Co.-See Jenifer Furnace Co. below.

Jenifer (Ala.) Furnace Co.-Settlement with Creditors.-A press dispatch from Anniston, Ala., on May 11 said:

press dispatch from Anniston, Ala., on May 11 said:
The creditors are jubilant over the outcome of suits instituted in the United States Court some time ago for the recovery of various individual claims amounting in the aggregate to about \$200,000. Prior to the announcement of the suits the company had offered settlements on a basis of from 10 to 20 cents on the dollar. According to the settlement just reached, they pay 100 cents on the dollar. According to the settlement just reached, they pay 100 cents on the dollar, together with attorneys' fees and accrued costs. See V. 79, p. 155.
The Jenifer Coal & Iron Co. was incorporated in Alabama on May 23 with \$150,000 capital stock, the directors being J. M. Thomas, President; fee. Schumacher, of Anniston, Ala., and Aubrey Thomas of Niles, Ohio. for the purpose, it is understood, of taking over the property.—V.79, p. 155.
Journeay & Burnham Co., Brooklyn, M. Y.—Sale of Merchandise.—Supreme Court Justice Kelly, in Brooklyn, on May 29, authorized Receiver Wm. E. Phillips to accept the bid of \$185,000 made by E. E. Edwards & Sons, of Syracuse, for the merchandise of the company and to dispose of the delivery system, if possible, for not less than \$9,000. Mr. Phillips is quoted as saying that the creditors will be paid dollar for dollar, but how much will remain for the stock-holders is not yet known.—V. 84, p. 1117, 573.

Lake Superior Corporation .- See Canadian Improvement Co. above.-V. 84, p. 870, 697

Louisville (Ky.) Lighting Co.—New President.—F. M. Sackett, who was recently elected President of the Louisville Gas Co., has been elected President to succeed Adolphe Snead, who resigned to move to New York. Mr. Snead will remain a director.—V. 84, p. 1252.

Lykens Valley Coal Co., Philadelphia .--Sale.-Under an rea, trustee under \$1,500,000 mortgage of 1875, the company's property will be sold at auction at the Bourse, Phila-delphia, on June 25.—V. 64, p. 330.

Midland (Ontario) Navigation Co.—Bonds Offered.—The Detroit Trust Co., Detroit, Mich., is offering at par its 5% interim receipts, to be exchanged for \$100,000 first mortgage 5% gold bonds secured by a first mortgage to Mr. Alexander McPherson, President Detroit Trust Co., on the new steel freighter "Midland Prince."

Builders: Collingwood Shipbuilding Co., Ltd., Collingwood, Ont. Ap proximate dimensions: 485 feet over all, 55 feet beam, 31 feet depth, 9,000 tons capacity. Cost of vessel, \$225,000. Coupon bonds to be dated July 1 1907; Issue, \$130,000. Denomination \$1,000. Payable in ten annual Installments. Interest payable Jan. 1 and July 1 at the Detroit Trust Co. A company known as the Midland Navigation Co., Limited, was incor-porated in Ontarlo In 1901 with \$200,000 capital stock, the incorporators including Arthur Hill, J. S. Playfair, James Playfair, W. J. Morrice and D. L. White.

D. L. White.
Mexican Light & Power Co.—Purchase.—This company has completed its purchase of the Puebla Tramways, Light & Power Co., which last year acquired the City and Industrial railways and the Electric Lighting Co. of Puebla, also the Tuxpango waterfalls on the Rio Blanco near Orizaba, where it is proposed to develop 30,000 h. p. for transmission to Puebla. The work contemplated in electrifying the tramways, reconstruction of the plants and the development of the water-power will, it is estimated, cost \$6,000,000 gold; but no facts regarding the financing of the purchase and subsequent work are as yet available. Compare Puebla Tramways, Light & Power Co. in V. 83, p. 272, 493, 626.—V. 84, p. 999, 691.
Mississipping Glass Co. St. Louis.—Purchase —This compared to the subsequent of the subsequent of the subsequent of the subsequent of the subsequent work are as yet available. Compare Puebla Tramways, Light & Power Co. in V. 83, p. 272, 493, 626.—V. 84, p. 999, 691.

N. 84, p. 999, 691.
 Mississippi Glass Co., St. Louis.—Purchase.—This company has purchased the Sergeant Glass Company's plant at Kane, Pa., and will operate it in manufacturing rolled, figured, polished plate and "wire glass."
 The purchase covers the factory, sand quarties, water rights, workmen's dwellings and about 500 acres of land. The company states that with this new plant and its factories, the Mississippi Company becomes the world's largest producer of flat glass—rolled, figured, corrugated, prism and "wire glass"— having a capacity of 30,000,000 sq. ft. per annum.
 The company is not prepared to say how the purchase has been or will be financed, nor to confirm the printed statement that its own capitalization consists of \$3,000,000 outstanding stock and \$750,000 ist mortgage 6% bonds. New York office, 115 Broadway.—V. 78, p. 1552.

Montana Coal & Coke Co., Boston.—*Eond Issue*.—This company has filed a mortgage (International Trust Co., Boston, trustee) to secure an issue of \$1,000,000 6% 20-year bonds dated Jan. 1 1907, subject to call on any interest day at 105; interest payable July 1 and Jan. 1. Compare V. 84, p. 629, 511, 394.

p. 629, 511, 394.
Nashua Manufacturing Co.—Dividend Omitted.—The directors at their meeting on May 28 omitted the declaration of the regular semi-annual dividend of 5%, the reason being, it is understood, the breaking of the dam and the building of a new mill. Compare V. 83, p. 1350.
New Jersey Terminal Dock & Improvement Co.—Foreclosure Suit.—The Standard Trust Co., New York, as trustee under this company's \$3,000,000 mortgage of 1905, under which there are about \$2,386,000 bonds outstanding, has brought foreclos are proceedings against the company as previously against the Hackensack Meadows Co., under the Ferrier mortgage, preparatory to a merger of the concerns. Compare V. 84, p. 935, 871, 511.
Niagara Falls Power Co.—Report.—For fiscal year ending

Niagara Falls Power Co.-Report.-For fiscal year ending Dec. 31 1906:

Gross Earns. Net Earns. Other Inc. Bond Int. Taxes, &c. Bal., sur, \$1,370,308 \$1,044,184 \$79,400 \$680,120 \$106,777 \$336,687 Interest on the \$4,980,000 6 % debentures (Canadian collateral series A and B) was included in the cost of construction of the Canadian plant up to Jan. 1 1907, from which date the plant has been in commercial operation. Including the Canadian property, the Niagara Falls Power Co. has available plants with an aggregate capacity for an output of about 117,000 horse power, of which about 95,000 is yielding revenue. See V. 84, p. 807, 224.

plants with an aggregate capacity for an output of about 117,000 horse power, of which about 95,000 is yielding revenue. See V. 84, p. 807, 224. North American Company.—Notes Offered.—Redmond & Co., New York, and Lee, Higginson & Co., Boston, are offering by advertisement on another page, at 935% and inter-est, at which price the investor receives 6½% interest, \$2,500,000 of the authorized issue of \$5,000,000 5-year 5% collateral trust gold notes dated May 1 1907 and due May 1 1912, but subject to call at company's option after two years from date, on 30 days' notice, at 101 and interest. These notes are secured by the deposit of \$5,000,000 of the common capital stock of the Laclede Gas Light Co. of St. Louis, and by \$1,500,000 of the capital stock of the Union Electric Light & Power Co. of St. Louis, and they are further pro-tected by the provision that the company shall deposit ad-ditional collateral, if necessary, "so that the appraised value of the pledged securities shall always be at least 30% in excess of the par value of the notes outstanding." The North American Co. has no other outstanding indebtedness and it is paying dividends at the rate of 5% per annum on its \$29,792,300 capital stock. See advertisement also addi-tional particulars in V. 84, p. 1252, 1185. Ohio & Indiana Consolidated Natural Gas & Illuminating Co. Begreiner Luder B. W. Ach

Ohio & Indiana Consolidated Natural Gas & Illuminating Co.—Receiver.—Judge R. W. Anderson of the United States Court on May 25 appointed Samuel T. Murdock of Lafayette, Ind., receiver of the property of the Ohio & Indiana Gas Co., Indiana Natural & Illuminating Gas Co., Logansport & Wabash Gas Co. and Lafayette Gas Co., in the pending foreelosure suits of the Central Trust Co., New York.—V. 84, p. 1056, 871.

Owens Bottle Machine Co., Toledo, O.—Payment of Ac-cumulated Dividends.—See foot-notes to balance sheet under 'Annual Reports'' on a preceding page.—V. 83, p. 1595.

Pacific Lighting Corporation, San Francisco, Cal.—Re-incorporation—Stock Increase.—This company filed articles of incorporation under California laws on May 20 with \$20,-000,000 authorized capital stock, in shares of \$100 each, of 000,000 authorized capital stock, in shares of \$100 each, of which one-half is preferred, to enlarge the scope of the Pacific Lighting Co., a holding company, with headquarters at San Francisco, its paid-in capital stock and surplus having re-cently been \$2,722,702 (the authorized stock being 40,000 shares of \$10 each; outstanding, 37,000 shares, on which in 1903 \$47 per share was officially reported to have been paid in. V. 76, p. 923). Among the companies controlled are the Los Angeles Gas & Electric Co. (a consolidation in 1904 with \$4,000,000 stock and \$3,035,000 bonds—see V. 78, p. 1965; V. 79, p. 107, 630; V. 83, p. 1527—of the Los Angeles Lighting Co. and Los Angeles Electric Co., two com-panies whose entire share capital was owned by the Pacific Lighting Co.; also the Eureka (Cal.) Light Co. (stock \$250, 000, of which 67% owned) and Pasadena Consol. Gas Co. (V. 83, p. 441). The incorporators of the new company are: Alfred Sutro, C. O. G. Miller, George F. Voltman, Charles Holbrook and Alfred Sutro, C. O. G. Miller, George F. Voltman, Charles Holbrook and G. H. Collins.-V. 83, p. 497.

Philadelphia Company for Guaranteeing Mortgages.-New Enterprise—Charter Granted.—This company was incorpor-ated on May 22 1907 under the laws of Pennsylvania, "being the first corporation organized in the State purely for the purpose of buying, selling, collecting and guaranteeing pay-ment of ground rents, mortgages and other real estate securi-ties." The company has a temporary office in the Land Title Building (Room 833), Philadelphia. Directors and officers: Directors: Abraham M. Beitler, Edward H. Bonsall, Ellwood Bonsall, Building (Koom S33), Philadelphia. Directors and officers: Directors: Abraham M. Beitler, Edward H. Bonsall, Ellwood Bonsall, Henry P. Brown, Harry G. Clay, Henry R. Gummey, Richard M. Hartley, Louis B. Henry, George W. Kendrick Jr., John C. Lowry, William R. Nicholson, C. Stuart Patterson, Frank P. Prichard, Walter George Smith, Henry W. Watson. Officers: President, William R. Nicholson, President The Land Title & Trust Oo. of Philadelphia; Vice-President, Louis B. Henry; Secretary and Treasurer, Samuel C. Edmonds, for the past nine years the efficient and trusted head of the State and City Department and State and City Section of the "Commercial and Financial Chronicle," a position he relinquished to take up his new duties. Ap authorifative statement follows:

An authoritative statement follows:

An autonormative statement follows: Capital, \$1,000,000; surplus, \$250,000. The stock is divided into 10,000 shares of the par value of \$100 each, which were offered for subscription at \$125 per share, and were quickly subscribed, chiefly by men identified with the Land Title & Trust Co. of Philadelphia and their friends. The sole business of the corporation will be the purchase and sale of first mort-garges on improved real estate in the city of Philadelphia and vicinity; the guaranty of the payment of the principal and interest of such mortgages, and the issuing of mortgage certificates. The experience of similar com-panies in other cities, notably New York and Brooklyn, has proven this business to be safe and profitable, and the securities guaranteed by them are much sought after by institutions and individuals as safe investments.

Pocahontas Consolidated Collieries Co.—Merger Company Incorporated.—This company was granted a charter on May 24 by the Virginia Corporation Commission, with \$7,800,000 authorized capital stock (of which \$2,800,000 is preferred) to merge the Pocahontas Collieries Co. and the Pocahontas Consolidated Co., per plan in V. 84, p. 1000.

Pittsfield (Mass.) Electric Co.—New Bond Issue.—See Pittsfield Electric Street Ry. under "Railroads" above. —V. 77, p. 1297, 454.

St. Clair County (Ill.) Gas & Electric Co.-Consolidation. This is the correct name of the company recently formed with \$3,500,000 capital stock by consolidation of East St. Louis Gas Light Co. and the Belleville Gas & Electric Co. See V. 84, p. 511. Bond Issue.—A mortgage has been filed to the Girard Trust Co. of Philadelphia, as trustee, to secure an issue of \$3,500,000 50, old honds

5% gold bonds

Shawinigan Water & Power Co.—Debenture Stock.—The "Monetary Times" of Toronto on May 25 said:

"Monetary Times" of Toronto on May 25 said: At a meeting of the company held on Tuesday, it was decided to issue perpetual 4½% debenture stock to the value of \$1,250,000 par. A further issue will not be made until the earnings amount to twice the interest on the present issue. The English market will take the issue, none being offered on this market. The object of the stock is parity to pay for ac-quiring the North Shore Power Co., at Three Rivers, and the Continental Light, Heat & Power Co., at Thedford Mines. The debenture stock will be a first charge on the securities being acquired, and will rank next to the first mortgage bonds on the rest of the property. The earnings in February 1906 were \$27,078, those in February 1907 being \$42,571 and those last month being \$44,150, so that the progress of the company is very satisfactory. Since April the company is said to have secured a contract with the Northern Aluminum Co. by which its annual revenue will be increased to about \$629,800. Compare V. 84, p. 697.

South Baltimore Steel Car & Foundry Co.—New Stock.— Stockholders of record May 30, have the right to subscribe pro rata at par till June 15 for \$250,000 preferred stock, with a bonus of 50% (\$125,000) in common stock, making the total authorized share capital (\$1,000,000 common and \$500,000 6% preferred) outstanding. A dividend of 3% has been declared on the common shares, payable June 28 to holders of record April 30. Dividends on the preferred stock are payable in February and August.
A special train on May 22 carried the stockholders to Curtis Bay to inspect the plant, which, it is stated, gives constant employment to 3,300 men and of the Board, Charles T. Crestlert, Howard Carlton: Chairman of the Board, Charles T. Crestlert, J. Edward Harvey; General Manager, John H. Farlow; Treasurer, Carter G. Osborn; Secretary, H. Mil-ton Luzius. See article in "Baltimore Sun" of May 23.—V. 81, p. 1562.

South Shore Gas & Electric Co., Hammond, Ind.—Bonds Offered.—H. T. Holtz & Co., 620 New York Life Building, Chicago, are offering at 95 and interest, making them yield over 5¼% annually on the money invested, \$200,000 30-year general mortgage 5% gold bonds dated Dec. 1 1903 and due Dec. 1 1933, but redeemable on and after Dec. 1 1908 at 105 and interest. A circular says:

Authorized bond issue, \$2,000,000; reserved to take up outstanding bonds of Hammond Illuminating Co., \$290,000; outstanding, \$512,000; bonds re-served for new construction (can be issued only for 90 % of the cash cost of

Standard Oil Co .- Decision in Milsouri Suit .--Judge Robert A. Anthony, the commissioner appointed in the suit brought by Attorney-General Hadley of Missouri against the Standard Oil Co. of Indiana, the Waters-Pierce Oil Co. and the Republic Oil Co. to annul the charter of the Waters-Pierce Co. and oust the Standard and Republic companies as foreign corporations, filed his report on May 24 sustaining the contentions of the State.

the contentions of the State. The defendants were charged with forming a conspiracy to control the sale of oil in Missouri. It is held that while no formal agreement was pro-duced proving a division of territory between the Waters-Pierce and Standard Oil companies, the evidence shows that an understanding for such a division was had as far back as 1876 and faithfully kept. *Chicago Rebate Verdict.*—A jury in the Federal Court at Chicago, Judge Landis presiding, on April 13 brought in a verdict finding the company guilty of accepting rebates in violation of the Elkins law under an indictment containing 1,463 separate counts. The minimum fine for each offense is \$1,000, the maximum \$20,000. Oil, it was charged, was shipped to St. Louis from Whiting, Ind., over the Chicago & Alton at 6 cents a hundred pounds, the regular published rate being 18 cents.—V. 84, p. 1252, 808. **United Fruit Co. Boston**.—Nine Bay Purchase Approach

United Fruit Co., Boston.—Nipe Bay Purchase Approved. —At the special meeting of the stockholders, held in Jersey City May 29 the proposition to take over the entire common stock of the Nipe Bay Co. was unanimously ratified per plan in V. 84, p. 1057, 755.

United Gas Improvement Co., Philadelphia.—Philadelphia Gas Lease and Operations.—See "Annual Reports" on a preceding page.

Kansas City Gas Co. Leases, &c.—See that company above.—V. 84, p. 1253, 1112.

United States Express Co.—Rates Reduced.—The Inter-State Commerce Commission on May 5 made its first ruling in regard to express rates, reducing the rates from New Jersey and Pennsylvania points to New York City on cut flowers and on empty flower boxes from New York to the same points.—V. 84, p. 1125, 1057.

United States Starch & Glucose Co. of Philadelphia. New Stock.—This company, incorporated in Pennsylvania March 20 1906, has filed a certificate of increase of capital stock from \$150,000 to \$4,000,000[.]

Utica (N. Y.) Gas & Electric Co.—Bonds—Proposed Ac-quisitions.—Application has been made to the New York State Gas Commission for authority (1) to issue \$2,000,000 5% 50-year bonds under the \$5,000,000 mortgage; (2) to acquire the Herkimer County Light & Power Co., the Glens Falls Gas & Electric Co., the Consolidated Light & Power Co. of Whitehall and 51% of the capital stock of the United Gas, Electric Light & Fuel Co. The commission will give a hear-ing on the application June 13. Compare V. 84, p. 107.

—Ulman, Morse & Co., 30 New Street and 66 Exchange Place, of this city, to-day opened their branch office at 224 Bellevue Avenue, Newport, R. I., for the summer season. On June 15 their summer branch at Casino Hotel, Narra-gansett Pier, R. I., will be opened. The firm is composed of Joseph S. Ulman, E. Rollins Morse and N. Rosseter Betts, who are members of the New York and Boston Stock Ex-changes, New York Coffee Exchange and Chicago Board of Trade. The concern maintains other offices at 25 West 33d Street (Astor Court) and 718 Fifth Avenue, New York. —President Charles A. Lockwood of the Jamaica Water

Street (Astor Court) and 718 Fifth Avenue, New York.
—President Charles A. Lockwood of the Jamaica Water Supply Co. announces on another page that the first mortgage 6% bonds which mature June 1 1907 will be paid, principal and interest, on presentation at the office of the People's Trust Co., 181-183 Montague St., Borough of Brooklyn. Holders of these bonds are given the privilege of exchanging their present holdings for Jamaica Water Supply Co. unified first mortgage 5% gold bonds due July 1 1954 at 98 and accrued interest.

-Messrs.E.H.Rollins & Sons, Boston, Chicago, Denver and San Francisco, are offering a selected list of Municipal, Rail-way and Public Service Corporation Bonds at prices which yield a very good return on the investment. For detailed list see advertisement on another page.

-F. J. Lisman & Co. are offering 2,000 shares Connecticut Railway & Lighting Co. 4% guaranteed common stock to yield 514%. See advertisement on another page for full particulars particulars.

-Adams & Co. announce the removal of their Boston office on June 3 from 7 Congress Street to 13 Congress Street.

The Commercial Times.

COMMERCIAL EPITOME.

1312

New York, Friday Night, May 31 1907.

With warmer weather general trade, already large, has increased somewhat and prices have been very generally steady. An excellent trade in manufactures is still a feature. Money rates have been easy and the feeling throughout the country is, for the most part, confident. Speculation in grain and cotton has been sufficiently large to attract atten-tion.

tion. LARD on the spot has been dull and steady. Export trade has continued lifeless. Small jobbing sales have been made of late at 9@91½c. for City and 9½c. for Western. Refined lard has declined owing to the dulness of trade and increased offerings. Refined Continent 9.55c., South America 10.50c. and Brazil in kegs 11.50c. Speculation in lard futures at the West has been active with prices irregular. In the main, however, the tone has been firm, despite con-siderable realizing at times and the dulness of the spot trade. Packers have given support and commission houses have bought on recessions. Some falling off in the movement of live hogs has also contributed to strengthen the tone. DAULY CLOSING PRICES OF LARD FUTURES IN CHICAGO

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO. Thurs. $\begin{array}{c} Fri. \\ 9.22\frac{1}{2} \\ 9.27\frac{1}{2} \\ 9.45 \end{array}$ Holi-day.

September delivery.....9.15 9.22½ 9.22½ 9.32½ day. 9.45 COFFEE on the spot has been dull and easy. Rio No.7, 6¾c. and Santos No. 4, 6¾c. West India growths have been quiet and steady; fair to good Cucuta 8½@9¼c. Speculation in future contracts has been dull and, in the main, devoid of features worthy of note. Fluctuations in prices have been unimportant. At times the tendency of prices has been downward, owing to liberal receipts at Rio and Santos, liquidation and selling against firm offers from Brazil; but local interests have given support in order to prevent any marked depression.

The closing prices were as follows:

The closing prices were as follows: June_______5.40c. October______5.25c. February______5.36c. July_______5.25c. December______5.25c. March ______5.35c. August_______5.25c. December ______5.25c. April _______5.35c. September. ______5.25c. January ______5.25c.] PORK on the spot has been rather more active with prices steady. A small export business has been reported of late owing to an improvement in the strike situation on the docks. Mess \$17 50@\$18 50, clear \$17 25@\$18 25 and family \$19@\$19 50. Tallow has been steady with trade dull and offerings small; City 63%@6½c. Stearines have been quiet and steady; oleo 9½@10c. and lard 10¼@10½c. Cut meats have been quiet and steady; pickled shoulders 10c., pickled hams 12@12½c. and pickled bellies, 14@10 lbs., 11½@12¼c. Butter has been active and firm; creamery extras 24½@25c. Cheese has been moderately active and firm; State, new, small, colored, best, 12½c.; white 12¼c. Eggs have been in fair demand and steady; Western firsts 16¼@16¾c. 161/a @ 163/4c.

16¼@16¾c. OIL.—Cottonseed has been quiet but stronger, owing to an advance in seed and light offerings. Prime summer yel-low 60@61c.; winter 65c. Linseed has been moderately active and steady; City, raw, American seed, 44@45c.; boiled 45@46c.; Calcutta, raw, 70c. Lard has been quiet and steady; prime 78@82c.; No. 1 extra 51@52c. Cocoanut has been quiet and steady; Cochin 10¾c.; Ceylon 9¼@9¾c. Peanut has been dull and steady; yellow 50@60c. Olive has been quiet and firm; yellow 85@90c. Cod has been in moderate demand and steady; domestic 38@40c.; New-foundland 40@42c. SUCAR — Bay has been steady with the calculinity to

SUGAR.—Raw has been steady with the sales limited to small lots. Centrifugal, 96 degrees test, 3.90e.; muscovado, 89-degrees test, 3.40c., and molasses, 89-degrees test, 3.15c. Refined has been quiet and steady. Granulated 4.90c. Teas have been in moderate demand and firm. Spices have been steady with a good jobbing demand. Hops have been quiet and steady.

quiet and steady. PETROLEUM.—Refined has been firm with a good de-mand for export and domestic account. Refined, barrels, 8.20c.; bulk 4.75c. and cases 10.65c. Naphtha has been active and firm; 73@76 degrees 18c. in 100-gallon drums. Gasoline has been in brisk demand and firm; 86 degrees 21c. in 100-gallon drums. Spirits of turpentine has been mod-erately active and firm at 64c. Rosin has been in fair de-mand and steady; common to good strained \$4 90@\$4 95. TOBACCO.—The market for domestic leaf has ruled quiet and firm. Offerings have continued light, holders remaining firm, owing partly to unfavorable crop reports. The con-tinued unseasonably cold weather, according to many re-ports, is unfavorably affecting the outlook for the crop. Manufacturers, however, generally report few orders. There has been a good trade in Sumatra leaf at firm quotations. ... COPPER has been less active and easier; lake 24½@

COPPER has been less active and easier; lake $24\frac{1}{2}$ @ $24\frac{3}{4}$ c.; electrolytic $23\frac{1}{2}$ @ $23\frac{5}{3}$ c. Lead has been dull and steady at 6c. Spelter has been firm at $6\frac{5}{6}$ @6.45c. Tin has been fairly active and easier; Straits $42\frac{1}{2}$ c. Iron has been firm and more active; No. 1 Northern \$24 20@25 20; No. 2 Southern \$24@25.

COTTON.

Friday Night, May 31 1907.

Friday Night, May 31 1907. THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 47,513 bales, against 51,882 bales last week and 56,619 bales the previous week, making the total receipts since the 1st of September 1906, 9,490,514 bales, against 7,426,996 bales for the same period of 1905-06, showing an increase since Sept. 1 1906 of 2,063,518 bales.

Total 1906... 81,043 15,848 53,844 17,800 21,084142,511 87,786 Total 1905... 01,121 26,888 31,311 16,666 30,289 196,076 351,110 Speculation in cotton for future delivery has latterly been active and excited at decidedly higher prices. This was due solely to cool, rainy weather and bad crop reports. There is a growing fear that the Government report, which is to be issued on Tuesday next, will be of a decidedly bullish char-acter. More than that, it is feared that unless the weather conditions in June show a very marked improvement, reach-ing, in fact, something like the ideal, there may be so marked a falling off in the yield as to scriously disturb the equilibrium between supply and demand. With a big consumption and a deficient supply there would, it is held, be nothing for it but still higher prices. The worst conditions are supposed to exist in the northerly half of the belt, and the best, on the whole, in the extreme southerly portion. Yet it is a fact that a good many unfavorable reports come from all parts of the belt, speaking more particularly of poor stands, weak plants, rotting seed, the necessity of replanting, which has been done in some cases several times, all of which is set down to the baneful effects of prolonged cold and rainy writes in a single day rising 45 to 50 points, and in two days and since some of the wild days of 1903. Some reports have been issued, too, to the effect that there may be some around since some of the wild days of 1903. Some reports have been issued, too, to the effect that there may be some around to a since the arcage. One by a Southern news-paper put it at .6 of 1% less than last year, while another have been issued, too, to the effect that there may be some around the the setting water yrains, grassy fields and the derease of seed. In the main, it is a question of how pro-ductive a very large acreage planted is likely to be. That the arcage will be large under the stimutus of present high prices is accepted by most people as a foregone conclusion. They also con Speculation in cotton for future delivery has latterly been tive and excited at decidedly higher prices. This was due lelv to cool, rainy weather and bad crop reports. There is

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

WEATHER REPORTS BY TELEGRAPH.-Advices to us by telegraph from the South this evening indicate that rain has fallen in most sections during the week and that in districts the precipitation has been rather heavy. There are complaints from some localities that the wet weather has interfered with work and is affecting the crop adversely.

Galveston, Texas.—Excessive rains in Texas have damaged the cotton crop still further and delayed cultivation and re-planting. It is reported that river bottoms are being over-flowed. Start is unusually late and the outlook discourag-ing. 'We have had heavy rain on four days during the week, the precipitation reaching three inches and ten hundredths. The thermometer has averaged 75, ranging from 66 to 83. *Abilene, Texas.*—There has been rain during the week to the extent of two inches and twenty hundredths, on four days. The thermometer has ranged from 48 to 94, averaging 71. *Brenham, Texas.*—There has been excessive rain on four days during the week, the precipitation reaching eight inches and two hundredths. Average thermometer 76, highest 90 and lowest 58. Galveston, Texas.-Excessive rains in Texas have damaged

and two hundredness. Thereage data had showers on three days *Corpus Christi*, *Texas*.—We have had showers on three days of the week, the rainfall being fifty-six hundredths of an inch. The thermometer has averaged 73, the highest being 82 and the lowest 64.

Cuero, Texas.—There has been excessive rain on five days of the past week, the rainfall reaching four inches and sixty-three hundredths. The thermometer has averaged 77, rang-

ing from 60 to 93. Dallas, Texas.—We have had excessive rain on four days of the week, the rainfall reaching four inches and seventy-eight hundredths. The thermometer has ranged from 51 to

of the week, the rainfall reaching tool minutes and soverhy-eight hundredths. The thermometer has ranged from 51 to 85, averaging 68. Fort Worth, Texas.—The week's rainfall has been three inches and fifty-one hundredths, on four days. Average thermometer 69, highest 86 and lowest 52. Henrietta, Texas.—We have had rain on four days of the week, the rainfall being one inch and seventy-three hun-dredths. The thermometer has averaged 70, the highest being 89 and the lowest 50. Huntsville, Texas.—There has been rain on four days the past week, to the extent of four inches and fifty hundredths. The thermometer has averaged 70, ranging from 60 to 79. Kerrville, Texas.—We have had rain on four days of the week, the rainfall reaching two inches. The thermometer has ranged from 55 to 85, averaging 70. Lampasas, Texas.—There has been rain on three days of the week, the precipitation reaching two inches and seventy hundredths. Average thermometer 71, highest 88 and lowest 53.

lowest 53.

lowest 53. Longview, Texas.—There has been heavy rain on four days of the week, the precipitation reaching three inches and ninety-five hundredths. The thermometer has averaged 72, the highest being 90 and the lowest 53. Luling, Texas.—We have had excessive rain on three days of the week, the precipitation being six inches and sixty-three hundredths. The thermometer has averaged 74, rang-ing from 58 to 90

ing from 58 to 90.

Digitized for FRASER

http://fraser.stlouisfed.org/ Federal Reserve Bank of St. Louis Nacogdoches, Texas.—We have had heavy rain on four days during the week, the rainfall reaching two inches and seventy-seven hundredths. The thermometer has ranged from 55 to 88, averaging 72.

to 88, averaging 72. Palestine, Texas.—Rain has fallen during the week to the extent of three inches and fifty-eight hundredths, on four

days. Paris, Texas.-Paris, Texas.—There has been rain on five days during the week, to the extent of three inches and thirty hundredths. The thermometer has averaged 68, the highest being 85 and the lowest 50.

the lowest 50. San Antonio, Texas.—There has been heavy rain on four days of the past week, the rainfall reaching twofinches. The thermometer has averaged 73, ranging from 58 to 88. Weatherford, Texas.—There has been rain on six days dur-ing the week, to the extent of three inches and two hun-dredths. The thermometer has ranged from 51 to 90, averaging 71.

Aging 71. Ardmore, Indian Territory.—Heavy rains on Tuesday and Wednesday. Cotton prospects much worse. Weather too cold. Replanting made necessary. New Orleans, Louisiana.—There has been rain on four days during the past week, the precipitation reaching four inches and forty-six hundredths. The thermometer has averaged 76

76. Leland, Mississippi.—We have had rain on six days during the week, the rainfall reaching one inch and eighty-seven hundredths. The thermometer has ranged from 47 to 82,

the week, the rainfall reaching one inch and eighty-seven hundredths. The thermometer has ranged from 47 to 82, averaging 63.7. Vicksburg, Mississippi.—There has been beneficial rain on five days during the week, the precipitation reaching two inches and ten hundredths. Average thermometer 68, highest 86 and lowest 51. Little Rock, Arkansas.—Crop conditions have not improved. There has been low temperature the past week and excessive rain, which has retarded growing crops. It is raining now. There has been rain during the week to the extent of four inches, on five days. The thermometer has ranged from 52 to 83, averaging 68. Helena, Arkansas.—Farmers are discouraged at the un-favorable conditions. We have had showers on five days during the week, the precipitation reaching three inches and fifty-eight hundredths. The thermometer has generally been unfavorable—too wet and cold nights. The crop is very backward and needs warm dry weather. Rain has fallen on five days during the week to the extent of one inch and ten hundredths, and it is raining now. Average thermometer 65.1, highest 79.2, lowest 48.3. Našhrille, Tennessee.—We have had rain during the week, the rainfall reaching ninety-three hundredths of an inch. The thermometer has averaged 64, the highest being 84 and the lowest 44. Mobile, Alabama.—Crop reports are gloomy. Heavy rains

the rainfail reaching ninety-three hundredths of all filth. The thermometer has averaged 64, the highest being 84 and the lowest 44. Mobile, Alabama.—Crop reports are gloomy. Heavy rains in the interior have prevented farm work making much progress. The cotton crop is in a critical condition. We have had rain on four days during the week, the precipitation reaching one inch and fifty hundredths. The thermometer has averaged 75, ranging from 59 to 83. Montgomery, Alabama.—There is a very slight improve-ment in the outlook. Frequent rains are damaging. Crop very backward. We have had rain on four days of the week, the rainfall reaching one inch and sixteen hundredths. The thermometer has ranged from 50 to 86, averaging 66. Selma, Alabama.—Sunshine is badly needed. It has been cloudy all the week with rain on three days, the precipitation reaching one inch and thirty-eight hundredths. Average thermometer 68.5, highest 81 and lowest 50.5. Madison, Florida.—We have had showers on one day dur-ing the week. The thermometer has averaged 77, the high-est being 93 and the lowest 61. Average

est being 93 and the lowest 61. Augusta, Georgia.—We are having too much rain. Crops are small and very late. There has been rain on five days of the past week, the rainfall reaching two inches and thirty-one hundredths. The thermometer has averaged 71, ranging from 52 to 86

one hundredths. The thermometer has averaged 71, ranging from 53 to 86. Savannah, Georgia.—We have had rain on three days of the week, the rainfall reaching sixty-six hundredths of an inch. The thermometer has ranged from 64 to 87, averaging 73. Charleston, South Carolina.—There has been rain on three days of the week, the precipitation reaching thirty-two hun-dredths of an inch. Average thermometer 73, highest 86 and lowest 59.

dredths of an inch. Average thermometer 10, inglate the and lowest 59. Greenwood, South Carolina.—We have had rain on three days of the week, the rainfall being thirty-seven hundredths of an inch. The thermometer has averaged 59, the highest being 69 and the lowest 49. Charlotte, North Carolina.—Rain has fallen during the week to the extent of one inch and fifty-one hundredths. The thermometer has averaged 68, the highest being 87 and the lowest 51.

lowest 51.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is firm for yarns and quiet for shirtings. Spinners are considered to be well under contract. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

BREADSTUFFS.

Friday, May 31 1907.

Prices for wheat flour have moved within a narrower range, but the changes have been to a large extent of a merely nominal character, the trading having continued on an extremely narrow scale. Buye s have refused to follow

RONICLE. [Vol. LXXXIV.] acreage in that section has not been reduced as much as was recently expected at a time when weather conditions were especially forbidding. As the case now stands, the outlook for the crop is better. How much damage has actually been done by winter killing and other adverse conditions the future must determine. That the damage to the winter wheat crop, however, has been exaggerated is probably true, and there is also a chance that the spring-wheat yield may in a measure make up for the deficiency of that in winter-wheat. To-day prices again advanced in spite of better weather in this country, crop reports from the Balkan Peninsula being in the main unfavorable and further specu-lative buying setting in. Besides, there was some export demand. demand.

Indian corn futures have advanced on unfavorable weather Indian corn futures have advanced on unfavorable weather and crop reports from many sections. Commission houses have bought freely at times, owing to the belief that corn has not had its full share of the advance. Pit traders have given support and shorts have covered. At times setbacks have occurred on realizing, but there has been an absence of selling pressure for the decline, owing to the continued small-ness of contract stocks and the fear of bull manipulation. Within a day or two planting has made better headway as a result of more favorable weather, but there still remains much planting to be done and the crop in most sections is getting a late start. To-day prices advanced on the rise in wheat, a firm cash market, reports of an increased export inquiry, commission house buying and covering.

THE DRY GOODS TRADE.

New York, Friday Night, May 31 1907.

The month of May has disclosed irregular conditions in the dry goods market. At first hands there has been uni-form strength with the exception of temporary weakness in form strength with the exception of temporary weakness in yarns and heavy brown cottons, more than recovered as the month advanced. The demand has varied somewhat, but appears to have been at all times in excess of supplies available for quick distribution and frequently fuller than manufacturers were willing to accommodate for forward delivery. In all divisions of the primary cotton goods market the average of prices is higher than it was a month ago. The results with jobbers for the month have hardly come up to expectations and have been markedly disappoint-ing with retailers. Distribution by the latter has been seriously affected by the abnormally late season in all descriptions of merchandise for spring and summer trading. The weather has shown some improvement during the cur-rent week, but there has been an interruption, owing to the holiday, and, taken throughout, only moderate results can be reported. Owing to the strength of the cotton market, the week closes with considerable indisposition on the part of manufacturers to commit themselves to any extent to the week closes with considerable indisposition on the part of manufacturers to commit themselves to any extent to forward engagements, while to-day it is stated that offers of contracts well into next year for brown and gray goods have been put forward more liberally than on preceding days of the week. Important openings of men's wear woolens and worsteds for next spring this week show that the average of prices on all but the finest grade goods will rule lower than a year ago.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending May 25 were 2,448 packages, valued at \$155,690, their destination being to the points specified in the table below:

and the second sec		907		.906
New York to May 25— 9 Great Britain Other European 1 Ohina 1 India Arabia	Peek. 18 44 ,094 110	Since Jan. 1. 957 552 10,043 4,539 18,753	Week. 1 53 6,902 3,685	Since
Africa West Indies Mexico Central America	288 51 187	3,597 9,767 1,005 6,482	676 515 9 304	4,327 9,388 878 6,670
South America Other countries	381 275	19,228 13,946	976 288	23,076 6,758

Total 2.448 88,849 13,409 130,901 The value of these New York enxports sice Jan. 1 has been \$5,647,722 in 1907, against \$7,371,160 in 1903. The tendency of prices in this division is steadily against buyers, as even where open advances are not quoted sellers are growing more exacting in their demands. Heavy brown sheetings and drills are ½ to ¼ up from some prices accepted early in the month, in spite of the fact that the market still lacks the support of export buying of any account, and cotton yarns, which also displayed considerable weakness at the opening of the month, show at the close quite an upward tendency. The change has been due in some part to the extent of buying, but more directly to the strong advance in the market for raw material. In all grades of bleached cottons scarcity of ready supplies continues the

<text><text><text><text>

generally quiet in both staple and fancy lines. FOREIGN DRY GOODS.—This division has been quiet throughout during the past week. Woolen and worsted dress goods have been ordered in moderate quantities with-out noticeable change in prices, and business in piece silks and ribbons has disclosed no new features. Orders for quick deliveries of linens have been more for the completion of old contracts than in shape of new business, but the market still rules strong. Burlaps are in indifferent supply with a steady demand at firm prices.

Importations and Warehouse Withdrawals of Dry Goods. The importations and warehouse withdrawals of dry goods at this port for the week ending April 6 1907 and since Jan. 1 1967, and for the corresponding periods of last y ear,

STATE AND CITY DEPARTMENT.

News Items.

New York State.—Tax Law Relative to Investments in State Bonds by Savings Banks, Trust Companies and Insur-ance Companies Amended.—The Assembly on May 28 passed the amendment to the tax law relative to investments in State bonds by savings banks, trust companies and insurance companies. By this amendment these institutions get a credit of 1% per annum on holdings of State bonds bearing 3% interest. The bill is now before the Governor. The text of this bill will be found in last week's issue of the "Chronicle," on page 1216, among the "Items about Banks, Bankers and Trust Companies."

Bankers and Trust Companies."
Portchester, N. Y.—Law Regarding Interest Rate on Future Street Bonds Amended.—The Governor on May 23 signed the amendment to Section 5 of Chapter 517 of the Laws of 1899. The amendment constitutes Chapter 361 of the Laws of 1907, and empowers the Board of Trustees of the village of Portchester, in issuing bonds in the future for the paving or macadamizing of streets, &c., to fix the rate of interest at not exceeding 5%. Under the old law bonds issued for these purposes could be put out at not exceeding 4% interest per annum.
Bonds Legalized.—Chapters 144 and 159 of the Laws of 1907 legalize the Acts and Proceedings of the Board of Village Trustees with reference to the issue of bonds for the drainage of certain streets and avenues and for the improvement of Traverse Avenue.
South Carolina.—Interest on Stolen Bonds Stopped.—The

South Carolina.—Interest on Stolen Bonds Stopped.—The State Treasurer, acting upon the advice of the Attorney-General, gives the following notice regarding the payment of interest on bonds stolen from the State Treasury:

STATE OF SOUTH CAROLINA, EXECUTIVE DEPARTMENT, OFFICE OF STATE TREASURER.

Columbia, May 16 1907. NOTICE.

NOTICE. Notice is hereby given that interest will not be paid on July 1 next on bonds below described, which were stolen from the State Treasury, to wit: Redemption Brown consol 4½% bonds of the denomination of \$500, Nos. 153, 231, 371, 783, 959 and 1,477. Redemption Brown consol 4½% bonds of the denomination of \$1,000-567, 1,178, 1,899, 2,525 and 3,778. Persons who purchase said bonds or the coupons thereof will do so at their own risk. (Signed) R. H. JENNINGS, State Treasurer. J.H.

Persons who purchase said bonds of the coupons thereof will do so at their own risk. (Signed) R. H. JENNINGS, State Treasurer. J.H. According to the Charleston "News and Courier," the total amount of bonds stolen was \$12,500, consisting of thirteen bonds of \$500 each and six bonds of \$1,000 each. Seven of the \$500 bonds, however, and one of \$1,000, were exchanged for certificates of stock before the theft was discovered. We are informed by the State Treasurer that the bonds re-ferred to were stolen during the period from 1896 to 1901, and that not more than \$2,000 was taken at any one time.

Bond Calls and Redemptions.

Animus County (Colo.) School District No. 1.—Bond Call. —Call was made for payment May 25 of bonds Nos. 7 and 8 dated July 1 1892. Denomination \$1,000.
