REVIEW OF MAY.

More or less gloom pervaded financial circles during May. This was the result of numerous depressing agencies and influences. On the one hand there were further sharp declines in values on the Stock Exchange, and on the other hand crop news, both from the West and the South, was quite unfavorable, leading to very excited grain and cotton markets, with tremendous speculation in these commodities and sharp rises in prices. On top of it all, the continued legislative and Government assaults on corporate interests tended to produce a feeling of great uneasiness. Finally the situation abroad—in England, France and Germany—also again became very unsettled, and the latter part of the month there were some engagements of gold here for export to France.

The influences adverse to corporate interests were numerous. Harmful legislation of one kind or another was in evidence in nearly all the States. In New York Governor Hughes forced through the Public Service Commissions Bill, giving to two public bodies created under the measure extraordinary powers, not only over the railroads, steam and street, but over express companies, sleeping-car companies, &c., &c., and over gas and electric-light concerns. The measure passed the Assembly by an absolutely unanimous vote, 140 being cast in its favor with none opposed, and in the Senate received 41 votes against 6. After Mayor McClellan, to whom the bill was submitted, returned it without his approval, it was again passed, in June, in both Houses by a similar overwhelming majority—in the Assembly on June 4 by 116 to 11 and in the Senate June 5 by 38 against 8.

The immediate effect of the passage of this measure was very damaging to the prices of street railway stocks like Brooklyn Rapid Transit and Interborough-Metropolitan and to Consolidated Gas stock and other properties of the same nature. It should be noted, too, that in April (April 26th) Governor Hughes had signed a bill reducing the price of gas in Albany from \$1 30 to \$1 per 1,000 cubic feet. Arthur H. Masten, the Special Master appointed by Judge Lacombe in the United States Circuit Court to take evidence in the suit brought by the Consolidated Gas Co. of New York to have the 80-cent gas law, passed last year, declared confiscatory, made public his report, sustaining substantially all the contentions of the company. But this was immediately followed by attacks from other directions. Corporation Counsel Ellison of this city began actions in the New York Supreme Court to test the validity of the franchises of the company

and its various controlled properties, and State Attorney-General Jackson obtained from the Supreme Court in this city an order to show cause why he should not be permitted to bring suit for the forfeiture of the company's charter.

The Inter-State Commerce Commission on May 5 made its first ruling in regard to express rates, reducing rates on cut flowers from New Jersey and Pennsylvania points to New York City. In addition to the States that had previously enacted laws reducing fares or creating specially designated bodies for the purpose, other States joined in the movement, and generally the spirit and attitude towards public service corporations was very hostile and inimical. Much had been hoped from the speech which President Roosevelt was announced to make at Indianapolis on Memorial Day (May 30), but this speech, when published, proved a distinct disappointment, inasmuch as, though it contained many reassuring statements and remarks, it announced that his policy would be continued unchanged.

Crop news, as already stated, was very unfavorable. The season was decidedly backward all over the country with temperature unusually low. In this city the month of May is stated to have been the coldest since 1871. In the more northerly latitudes—in Minnesota and the Dakotas, for instance, and also in Northern New York—snows occurred and this retarded spring-wheat planting, while at the same time the low temperatures checked the growth of winter wheat. In the South the cold made necessary much replanting and at the same time the rainfall was excessive. Speculation in grains was on a gigantic scale, and the dollar mark for wheat was reached and passed. The September option in Chicago rose from 83 3/8 to 104 1/2, and in New York from 90 1/2 to 109. Oats and corn also rose sharply. On somewhat better conditions the latter part of the month, particularly relief from drought in the Southwest, prices reacted somewhat, the September option May 31 at Chicago standing at 100 3/8 and at New York 105 5/8. In cotton, however, the very highest figure was reached on the last day, when middling uplands in New York were quoted at 12.90 cents against 11.45 cents April 30. Print cloths at Fall River were marked up from 4 9-16 cents to 4 13-16 cents. A wage-adjustment agreement was entered into during the month assuring to cotton operatives an advance of about 10% in wages and providing for an adjustment each half-year hereafter, the last Monday in May and November, respectively.

There were rumors all through the month that Secretary Cortelyou would withdraw the whole or a part of the \$30,000,000 Government deposits placed with the banks the previous September, but no action to that end was taken. The money market, notwithstanding these rumors, remained easy.

RATES FOR MONEY IN NEW YORK WEEKLY. Table with columns for Call Loans, Time Loans, and Commercial Paper, and rows for various loan durations and rates.

The foreign exchange market developed great strength during May. There was an urgent demand for bills most of the month, in part to cover short contracts, while the offerings were light as a rule. At times the report came that bankers felt indisposed to draw, except in case of necessity, owing to the uncertainty regarding the situation abroad, which continued disturbed. There was more or less demand, too, to remit for stocks sold for European account. Some offerings of bills against matured installments of American corporation notes which had been placed abroad were occasionally noted. There was active bidding between the Bank of France and the Bank of England in the London market for the South African gold-arriving there and as a result the quotation for bar gold in London was several times advanced, with

the tendency, however, easier at the close. The Bank of England was called upon to make heavy shipments of gold to the interior of Great Britain, and also some shipments to France, and its bullion holdings were heavily reduced the first few weeks. The latter part of the month, however, it regained some of this loss, in part because about £420,000 sterling gold which had been ear-marked for the Indian Government was released. There had been talk earlier in the month of possible gold exports from this side, but it was not until after the sharp advance in exchange rates the latter part of the month that gold was actually engaged for shipment—the engagements the last week aggregating somewhat over \$3,000,000. The metal went to Paris and it was understood that the movement had been facilitated by the allowance of interest on the metal while in transit.

Except during the first few days, the stock market was under great pressure in May and the declines were large and general. In not a few instances a lower level was reached than at the time of the great collapse in prices in March. There appeared to be an utter lack of confidence, and buying orders were very few. The causes of the shrinkage are found, in the main, in the facts narrated above, but there were also some other contributing agencies. For instance, Union Pacific and Southern Pacific were unfavorably affected by the plans announced for supplying their financial needs; Delaware & Hudson and some other properties by borrowing on bonds or notes, which were again a feature in a number of cases; the New York Central by its poor return of earnings for the March quarter, and Amalgamated Copper and the copper shares generally by reports of a slight weakening in the price of the metal copper. Dealings were not on a large scale, even when the market was weakest. The decline in the market carried down a small Stock Exchange house, namely E. B. Havens & Co.

NEW YORK STOCK EXCHANGE

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1906. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "Price about January 2 1907" were made on that date, except those in italics, which are the nearest in January 1907. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

For foot notes to tables see last page of Bonds and last page of stocks.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is, where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (*).

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

Table with multiple columns: Bonds, Bid., Ask., To Net., and sub-columns for Bid., Ask., To Net. for various bond categories like ALABAMA, ARKANSAS, CALIFORNIA, CANADA, COLORADO, CONNECTICUT, EAST HARTFORD FIRE DISTRICT, FOREIGN GOVERNMENTS, GEORGIA, ILLINOIS, etc.

BANKS AND TRUST COMPANIES.

Quotations in this department are given per share, not per cent, except for stocks of New York City, Brooklyn and Canadian institutions, and are as near as possible for the closing day of the month preceding the date of issue, though often are nominal. An asterisk (*) denotes sales. The letter (h) prefixed to a price indicates that the figures show the book value.

Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing-House banks of New York, Philadelphia and Boston, deposits are taken from the latest weekly statement.
