Financial

The Safety of Well Selected Railroad Bonds

Official figures from the Inter-State Commerce Commission Report afford convincing proof that the prevailing want of confidence in Railroad obligations is without foundation. Special analysis of standard railroads reveals the fact that two-thirds of the present market value of the properties could be erased before the bonds least well secured would be impaired.

In view of the recent unprecedented decline in railroad stocks, this showing is truly remarkable. Special circular upon this point, combined with attractive offerings, upon application.

Guaranteed by American Car & Foundry Co., by indorsement on each note. Dated August 1, 1907. Maturing serially until 1917. Authorized issue, \$5,074,000. Denomination, \$1,000. Interest payable February 1st and August 1st.

These notes are secured, First, as a direct obligation of the St. Louis & San Francisco RR. Co.; Second, by a first lien upon 3,000 box cars (steel under-frame), 500 gondola cars and 1,000 stock cars, for the cost of which, less 10 per cent cash payment, the notes will be issued; and, Third, by the guaranty of the American Car & Foundry Co.

Delivery of definite notes will commence August 1st. Payment may be anticipated at present, and temporary certificates of St. Louis Union Trust Co., Trustee, will be delivered, which will be exchanged for the regular notes when issued. Interest will be allowed on amount invested from date of payment until August 1st at the rate of six per cent per annum.

This road, according to its statement for its last fiscal year, ending June 30, 1906, after paying all fixed charges and interest on its bonded indebtedness, earned an amount equivalent to four per cent on its First Preferred, four per cent on ts Second Preferred and 5 per cent on its common stock.

JUNE 15 1907]

Financial.

We Offer at Par and Accrued Interest the Unsold Portion of

\$9,000,000

6% First and Refunding Mortgage Gold Bonds

of the

LONG-BELL LUMBER CO. OF KANSAS CITY, MISSOURI

This bond issue is a direct obligation of The Long-Bell Lumber Company, whose total assets at a conservative appraisal amount to \$25,510,293.23, and is made for the purpose of refunding into one loan all of the outstanding bonds of that company and its subsidiary companies, together with practically all its floating indebtedness, and to place the company in an impregnable financial condition.

> Dated May 1, 1907. Coupon Bonds, \$1,000 and \$500 each, payable as follows: \$250,000 each six months-November 1, 1907, to May 1, 1908. 300,000 each six months-November 1, 1908, to May 1, 1920. 325,000 each six months-November 1, 1920, to May 1, 1922.

> > Principal and Interest Payable at

Central Trust Co. of Illinois, Trustee, Chicago

Secured by about 275,000 acres of Virgin Long and Short Leaf Yellow Pine Timber Lands, owned in fee simple, containing over 3,300,000,000 feet of merchantable pine timber, located in Calcasieu, Rapides and Sabine Parishes, Louisiana, and San Augustine, Angelina and Sabine Counties, Texas. Also about 100,000 acres of partly cut-over lands containing about 350,000,000 feet of pine and hardwood timber; seven large modern saw-mill plants with a daily capacity of 1,000,000 feet of lumber. Our appraisal of the present cash market value of the property securing this bond issue is \$19,261,167.00. This appraisal does not include the value of the standing timber on the partly cut-over and hardwood lands covered by this mortgage, nor the value of the lands for agricultural purposes when the timber is removed.

The body of timber covered by this mortgage is one of the largest and finest tracts of pine timber lands under one ownership in the United States.

The mortgage requires, under careful restrictions, a deposit with the Central Trust Company of Illinois, Trustee, of \$3.50 per thousand feet for all timber manufactured into lumber. This will result in the payment of all of the outstanding bonds long before the timber covered by the mortgage has been exhausted, without taking into account any security afforded by the value of the saw-mills and other property included under the lien of the mortgage.

The net earnings (profits) of The Long-Bell Lumber Company for the year ending January 1, 1907, after crediting stumpage account \$4.00 per thousand feet, were \$2,330,488.25, over two and one-half times the largest annual payment of principal and interest. The average net earnings (profits) of The Long-Bell Lumber Company for the past three years were \$1,629,679.03-over three times the interest charge on this bond issue.

The Long-Bell Lumber Company has a capital and surplus of \$15,632,203.23; has been established thirty years and possesses the highest credit.

Circular describing this issue, together with full information, will be mailed upon application to the undersigned.

Price of bonds, for long or short maturity, par and accrued interest, yielding six per cent.

THE FINANCIAL SITUATION.

Those who have a socialistic turn but are apparently beginning to feel that in the end socialism may not be the winning card, and yet do not precisely like to take to the woods, are finding comfort in consort with the old and dusty idea that all our commercial and financial troubles, including the check our progressive era has received, come from a rise in the price of capital and are straining themselves almost beyond endurance to prove their musty point. They have forgotten that the price of an article is the figure at which the demand for the article is equal to the supply. A rise in price, whether the subject considered is capital or a commodity, means either that it (that is, capital or commodity) has reached a condition at which the demand is in excess of the supply. In that state of affairs the situation would be expressed in a rise in the market value of capital (the rate of interest) or in the lower price of the commodity. On other occasions a different solvent might prevail. As the prices of commodities are to-day, and have been in good part during the term of prosperity we have been enjoying, higher than normal, and as rates of interest are now, and have in the average during the major part of the same period, (barring Sub-Treasury interferences) ruled lower than normal, what becomes of the theory that there has been a rise in the price of capital?

Again, turn to our annual statistical report showing the world's yield of gold in all producing countries (the latest one for 1906 and previous years found on pages 247-250) and study the immensely increased quantity of the metal which has been poured into the world's supply during late years, and then consider whether those figures give any support to the theory of scarcity and consequent rising value to capital. We would not cite this widening inflow of a precious metal as full evidence of the growing abundance of the public holdings and the unlikelihood of demand on capital in progress being too rapid for available supply. We note it merely as a prominent tell-tale of current events along those lines. Perhaps a more striking incident is the increasing percentage of men to total population possessed of great wealth in the civilized world and the increasing average of their individual holdings. This condition in the general situation has proved such an intolerable factor to our worthy President and to the whole body of "me too"

single circumstance of relative loanable funds on the market seeking employment compared with, say, seven years ago. Does it bear any sort of comparison with the same class of funds now in like situation?

A writer discussing, a week ago, in the columns of an esteemed contemporary-a Wall Street financial authority-this question of change in the price of capital and aching apparently to make obvious the idea that such a change has taken place, states that so many people are obscure in mind as to the meaning of the term "that it is very desirable that it should be clearly explained." . . . "What then", he asks "is meant by rise in the price of capital." He answers: "It is exactly what is meant by rise in anything else on the market." That would seem to make the meaning clear. But the writer goes on to say that "the main reason for the prevalent confusion about change in price in capital is that such change is not ordinarily measured in the terms which mark rise or fall in prices of other things." That looks somewhat like a direct contradiction to the conclusion stated in the previous sentence. But such a construction is not, we think, what is meant. The writer continues in the development of his thought by asserting that no investor says to-day to his broker, "I want to get \$500 instead of \$400 for my \$10,000 capital invested in securities. He puts the matter in another way; he states that he was satisfied with a 4% security last year, but that he wants a 5% security to-day. And even this does not mean that he insists on a stock paying 5% dividend or a bond paying 5% interest. The result would be equally attained if, for instance, a given security with a 5% interest rate for which bids were made at 125 a year ago were now to get no higher bid than par. So far as that security is concerned the price of capital would obviously have risen from a 4% to a 5% basis."

We have long been surprised at finding so many of the individuals we meet from day to day who are wellstored with knowledge and possessed with more than the average capability in solving knotty points, professing themselves as having an "obscure mind" on the very point this writer proposed to enlighten his readers. His proposal was consequently peculiarly attractive. He does not however seem to have been at all successful in attaining his object or at all happy in his explanation. Moreover, inasmuch as the investor he refers to would have first to convert into cash his hold ings of securities which he is supposed to offer to his broker at the ruling price of to-day before he could make the new investment, it would puzzle a Solomon to discover what advantage would accrue by the operation to the investor. Had he merely said in the recent words of M. Leroy-Beaulieu "that the development of industrial enterprises has been too fast for available capital," he would have at least stated a proposition intelligible to every one, though not bearing on his proposal. It should be added, with respect to M. Leroy Beaulieu's utterance, that he probably had in mind the European condition chiefly. Had he confined his study to the United States, no doubt a more faithful representation of the situation here would have been given. Beyond a doubt our disgruntled condition should be charged to an utter loss of confidence in security values. In other words, the superstructure

1392

Governors in all parts of the United States, imitators of their chief, that each, according to his capacity, is pushing the inquiry started by their leader of how to limit the average of these holdings.

But we will not weary our readers with multiplying these bits of evidence that the world's capital has not been on the decrease and therefore growing dearer and hence more valuable. We may, however, be permitted one other citation. Reference is had to the very large—yes, strikingly enlarged—totals of capital our banks, bankers, trust companies, manufacturing concerns and industrial corporations of every kind and sort are using to-day in swinging their extremely extended businesses and ventures. Certainly every financial and industrial department is advertising bounteous additions to their old-time assets. Does not this suggest progress in the country's accumulation of mobile wealth, overflowing treasuries of capital instead of exhausted supplies? Fix thought on the

for FRASER

of credit has been undermined, and no value is low enough to induce investors to make purchases.

Somewhat unexpectedly-and consequently evoking criticism because the necessity therefor was not apparent-the Secretary of the Treasury on Wednesday announced the recall, for surrender by July 10, of the 30 million public deposits which had been placed in certain depositories by Mr. Shaw on September 27 1906. Mr. Cortelyou explained his recall of these deposits by stating that it was to provide for the redemption of about 36 millions of 4s of 1907 that will be payable on July 1. It seems, though, that his available cash balance on that date will be amply sufficient for the whole of such redemptions without requiring the surrender of public deposits. Inasmuch as his recall thereof may possibly inject a disturbing factor into the monetary situation if offerings of the 4% bonds shall be tardy, his action, as stated above, evoked some criticism. The 30 millions of deposits were placed largely in banks located at the chief centres and also in several other institutions in cities in the West and South. It is calculated that while about 10 millions will be withdrawn from New York and near-by points, the banks in this city will be required to surrender not only that amount-that is, not only their own individual deposits-but to provide the requisitions from their country correspondents for the surrender for these correspondents of their deposits, such requisitions being met out of the balances of these correspondents in banks in this city. In this way it seems probable that the greater part of the 30 millions may be directly or indirectly withdrawn from New York banks. The local institutions are now carrying low cash reserves; for the remainder of the month such reserves will be burdened with requirements for greatly increased deposits incident to preparations for the disbursement, on and after July 1, of interest and dividends. Moreover, it seems scarcely probable that the payments for the 4% bonds, which will then begin, will-because of the fact that holders thereof are widely scattered throughout the countrybe of such volume as to offset the surrenders of public deposits that must be completed by July 10. Consequently, it appears likely that as the result of this recall of public deposits, the money market at this centre will be more or less tense, at least for the next thirty days.

If on account of such tension gold exports should be checked in volume, through a fall in rates for

through bills against credits established by exports of commodities. In this way the cotton and grain movement to Europe could be financed with foreign capital. Possibly, however, expectations of profit resulting from such operations might not be realized, for it is now impossible to forecast European conditions, owing to the existing state of unrest prevailing and to the prospects for its continuance.

Considering all the circumstances, it would seem that it would have been better if Secretary Cortelyou, instead of precipitating into the situation, the deranging factor of the withdrawals of deposits from the banks, had permitted such deposits to remain unwithdrawn.

President Roosevelt is unquestionably sincere in his desire to allay public anxiety with reference to the effects of his policies, but unfortunately whenever he makes a speech he says something that tends further to unsettle confidence and thus acts in exactly the opposite way from that intended. The two addresses he made this week at the Jamestown Exposition are of this character. No one likes to criticise the President of the United States, and we regret exceedingly that we should be obliged to differ with him on so many occasions; but it seems to us that his views and policies are simply revolutionary, and cannot be allowed to go unchallenged. In this week's speeches he elaborated his ideas regarding a graded income tax and a progressive inheritance tax. He strongly advocates both and lays particular emphasis on the desirability of the progressive inheritance tax. He says the progressive principle is peculiarly adapted to the working out of the theory of using the inheritance tax for the purpose of limiting the size of inheritable fortunes, since the progressive increase in the rates-we are using his own words-"may be carried to its logical conclusion in a maximum rate of nearly 100% for the amount in excess of a specified sum without being confiscatory of the inheritance." For ourselves, we are unable to see how a proposition which would appropriate the whole of a man's fortune above a certain sum for the benefit of the State differs in any essential respect from State Socialism, though Mr. Roosevelt takes great pains to let it be known that he is opposed to Socialism-in one part of his address speaking earnestly of the "superbly self-reliant individualism" existing in this country, and expressing the hope "that it will never be exchanged for a deadening Socialism." In arguing in favor of the progressive tax on fortunes, Mr. Roosevelt throws out the suggestion that "the tax could be made to bear more heavily upon persons residing out of the country than upon those residing within it." With capital so hard to obtain at present in the United States, owing to the existing lack of confidence, it would obviously be a great advantage to have large supplies of foreign capital to carry on our extensive improvement work, but we hardly think that the suggestion here made will help us get it. The most disturbing part of this week's speeches, however, is the President's proposal that employers shall always be held liable in money damages to employees for accidents, even where the accident is the result of the employees' own carelessness. It should be understood, too, that the President's intention in this respect is very broad. He does not mean to limit,

sterling exchange on London, the money market might experience some relief. But were the requirements of French bankers, or of the Bank of France, for gold to be so urgent as to lead the Bank to continue to offer the inducement of advances of credits to gold exporters, the time-cost of such exports would be eliminated, regardless of our rates for money, through the employment of cable transfers on London for the reimbursement of the shippers. The coincident movement of gold to Paris, when the monetary situation here was tense, would therefore doubtless contribute to much stress. It may be, though, that the higher rates for money here would encourage the negotiation of finance bills-bankers drawing ninety-day drafts against their foreign credits, and loaning the proceeds on our market, expecting that, when such drafts were about maturing, they could be profitably covered the application of the idea to railroad accidents,

Digitized for FRASER

[VOL. LXXXIV.

but to apply it to accidents anywhere and everywhere - in industrial undertakings of all kindsso the matter concerns every employer. He says: The great increase in mechanical and manufacturing operations means a corresponding increase in the number of accidents to the wage-workers employed therein, these including both preventable and inevitable accidents. As the work is done for the employer, and therefore ultimately for the public, it is a bitter injustice (he argues) that it should be the wage-worker himself and his wife and children who bear the whole penalty." He declares emphatically that "legislation should be had, alike from the nation and from the States, not only to guard against the needless multiplication of these accidents, but to relieve the financial suffering due to them." He makes bold to say that "there is no sound economic reason for distinction between accidents caused by negligence and those which are unavoidable," and he thinks "the law should be such that the payment of these accidents will become automatic instead of being a matter for a lawsuit. Workmen should receive a certain definite and limited compensation for all accidents in industry, irrespective of negligence." He adds that "when the employer, the agent of the public, on his own responsibility and for his own profit, in the business of serving the public, starts in motion agencies which create risks for others, he should take all the ordinary and extraordinary risks involved." Lest the employer should fail to see any advantage in such an arrangement, Mr. Roosevelt at once proceeds to show him what he would gain-the employer would "gain a desirable certainty of obligation and get rid of litigation to determine it."

The President then excoriates the railroads for their effort to have the Employers' Liability Act passed by Congress last year declared invalid. He speaks of "the extreme unwisdom of the railway companies in fighting the constitutionality" of that Act. He says "no law is more emphatically needed, and it must be kept on the statute books in drastic and thorough-going form." In order that there may be no misunderstanding of the President's position in that regard, we quote the following paragraph in full.

"If it is proper for the Federal Courts to issue injunctions in behalf of railroads, it is proper that railroads should be held to a strict liability for accidents occurring to their employees. There should be the plainest and most unequivocal additional statement, by enactment of Congress, to the effect that railroad employees are entitled to receive damages for any accident that comes to them as an incident of the performance of their duties, and the law should be such that it will be impossible for the railroads successfully to fight it without thereby forfeiting all right to the protection of the Federal Government under any circumstances." We shall not attempt to combat these ideas further than to quote what Chairman James J. Hill of the Great Northern Railway said with reference to the matter in an interview this week. Mr. Hill, after expressing the opinion that the Government will ultimately be forced to lend its credit to finance the needs of the railroads, since their credit has been ruined, was asked what he thought about the proposition to compel the railroads to compensate all men injured in their employ, whether through their own fault or not. Here is what Mr. Hill had to say, and it appears to us that his

RASER

with the railroads is hard enough as it is. I fail to see what good could come of such a law. A railroad employee told a confidant that he was going to sell his forefinger for \$20,000. He was a switchman. It was not long before the railroad nipped off his forefinger. The switchman offered to compromise for \$2,000. The matter is still in the courts. The law in question would probably broaden the market for fingers and toes, but that it would do any one good is inconceivable." The reader will not fail to perceive the point of this remark. A law such as that advocated by the President would be placing a premium on accidents. Employees would have a direct interest in having accidents occur, since they would afford the basis for the recovery of damages for injuries, however triffing.

The iron and steel markets appear to be rather quiet just now, though there are no visible indications of a reaction. It is not thought that the Milliken failure will have any adverse effect on the trade. Iron production is being maintained at high figures, and the statistics collected by the "Iron Age" of this city show that a new record in that respect was made in May. Our contemporary says that the coke and anthracite furnaces produced 2,294,005 tons of pig iron in May, which compares with 2,219,242 tons in April, and is the very largest monthly output ever reached. It appears, however, that the rate of production in May scarcely increased at all. Total output for the month was larger simply because May contained 31 days and April only 30 days. The daily product in May was 74,001 tons, in April 73,975 tons, showing very little difference. It is pointed out that the excessive rainfall throughout the country in May affected output so that the performance of many furnaces was less than in April, the increased number active saving the situation from an actual decline in the rate of output. The "Age" says that Illinois, Wisconsin and Colorado made gains in output and Alabama for the first time in months took a real stride forward. It appears that on June 1 the capacity of the furnaces in blast was not quite equal to that for May 1, being only 522,520 tons per week against 523,912 tons. It seems unlikely therefore that June will record much if any further expansion in production.

All that Governor Hughes says in criticism of the two-cent bill, in vetoing it, is unassailably true. It may be that some road can live upon such a maximum rate. and it is possible that some could even do so without raising commutation rates, which are lower. The probable effect upon the roads is not the worst feature; the headlong impulse to follow a bad example which has produced enactment of such a law in some eighteen States in this present year, all of them without any precedent inquiry whatever, is in the highest degree blameworthy. Such lawmaking is worse than unbusinesslike; it must be deemed a remissness in duty and an evidence of insensibility to the obligations of delegated power, while the public indisposition to watch legislatures and hold them to a strict accountability is an unfavorable symptom in affairs. We are becoming too much governed by our feelings and too little held in check by deliberate judgment. Impulse is a bad counsellor in business. The point that any amount of mishandling of railroads by individual argument is unanswerable. "The employee question | managers does not justify reprisals upon the roads so

JUNE 15 1907 |

mishandled might have been brought out somewhat more distinctly, yet Governor Hughes does say that arbitrary reprisals are not warranted and that "in dealing with these questions democracy must demonstrate its capacity to act upon deliberation and to deal justly." The following is well said, however, and cannot be too strongly urged:

"It is of the greatest importance that not only railroad corporations should be compelled to respect their public obligations but also that they should be permitted to operate under conditions which will give a fair return for their service. Upon this depends not simply the security of investors but the security of their employees and the protection of every form of industry and commerce through the maintenance and extension of necessary transportation facilities. Nothing could be more opposed to the interests of the community as a whole than to cripple transportation corporations by arbitrary reductions of earnings."

It is a surprise to us that, notwithstanding the foregoing, the prime reason stated for the veto is that the bill would anticipate and get in the way of Governor Hughes's pet plan, the Utilities Commission scheme, • to which the business interests of the State must now submit, unless the courts find cause for intervention. "There is a better way," he says. It is impracticable for the Legislature to investigate; the obvious course is therefore to provide a body which can investigate and can act with wisdom and full power, &c. The argument is already familiar. But we have no guaranty, nor is there any good reason to expect, that this body will be either wiser or more honest than lies in men to be, or that they will be able to determine satisfactorily problems to which no single body of referees can ever be equal. The impossibility of a good result of such an over-comprehensive attempt will become evident in course of time, when we shall remember once more the private ownership of railroads, which is now forgotten in an exaggerated idea of their public duty; and when we discover that transportation is too large a subject to be brought into party politics. Meanwhile, it is some satisfaction to note that the veto seems to be at least one break in the rush to force down fares.

A correspondent of the "Sun" raises an interesting question as to the bearing of the unconstitutionality of the present apportionment law of this State upon the validity of Acts passed by the present Legislature. Chief Judge Cullen of the Court of Appeals cited approvingly a Connecticut decision in what seems to

to an older apportionment. How far the acts of a de facto Senate in the line of general legislation are valid is a question. The "Sun's" correspondent seems to go too far in suggesting that the Senate has no power to enact an apportionment law, for this would produce the confusion which the Court of Appeals wished to avoid. An examination of the decision of the Court and of the Connecticut decision cited therein shows no distinct treatment of this question, but the inference is plain that a de facto body can do valid acts only within the limits of necessity. No layman can venture an opinion as to what the Court of Appeals may do when the question comes before that tribunal, yet the view which it might take as to the Utilities law, for example, is an interesting one. Viewing that law, the Court may perhaps say that here is a piece, not of ordinary and necessary, but of very extraordinary and radical legislation; that it is something as to which no demand for immediate action existed; hence that a body unconstitutionally elected and thus capable of exercising only de facto powers is not competent to commit the State in such a manner to a wholly new exercise of legal functions. It would be rash to say that the Court will take such a view; but we suggest it as a possibility, since the decision already given clearly implies that things not strictly lawful may be submitted to, per necessity, up to the line where such necessity ceases.

The death of John T. Morgan, one of the two venerable Senators from Alabama, is a distinct loss to the Senate and country. He was a man old-fashioned in his conservatism, in his conception of public duty, in an unshakable integrity which no temptation could even approach, and in his strong view of the original balance of powers and of the importance of preserving the rights of the States. This latter view is, unfortunately, rapidly becoming dim in the present continual straining to centralize and produce the "strong government" that seems to be just now the popular ideal. Mr. Morgan was also distinguished-and in a Senate of higher average quality than the country now possesses he would have been distinguished-for strong personal convictions and force, as well as great industry and range of knowledge. When he knew a thing, he knew it somewhat too surely and unchangeably, as men of marked individuality are apt to feel that they know. He showed this in a marked degree in his course on the canal. Having decided-presumably because he thought the commercial interests of the Gulf States would be better advanced thereby-that the Nicaraguan route was the proper one, he was impenetrable on that subject, and he fought for that route to the last with unflagging zeal and force. There can be no reasonable doubt that he was mistaken, but he was honest about it, and it is rather a sad comment on the present time to have to say that an honest conviction and an unbending adherence to honest convictions are some title to distinction. We have too few really able men in public life now, and although statesmanship is not a lost possession, the country will be fortunate if it calls to the front new men who shall reproduce the virtues and fame of the elders who have gone.

be the leading case on the effect of acts of de facto officers and bodies. In that case it was said:

"The de facto doctrine was introduced into the law as a matter of policy and necessity, to protect the interests of the public and of individuals where those interests were involved in the official acts of persons exercising the duties of an office without being lawful When, therefore, in civil cases the officers. public or third persons had knowledge that the officer was not an officer de jure, the reason for validating the acts to which they submitted, or which they invoked, failed, and the law no longer protected them."

The situation is that the apportionment law under which the present Senate was chosen has been pronounced unconstitutional. The Senate exists therefore de facto and not de jure. As a matter of necessity and to avoid confusion, it has power, as a de facto body, to enact a constitutional apportionment, and if it fails to do this the next election must be according has served to materially modify or remove the exag-

The report of the Department of Agriculture on the condition of cereal crops June 1, issued on Monday,

gerated ideas recently held of the damage done to wheat by adverse weather. But that the tendency toward exaggeration should be more marked than usual this year is not surprising when the lateness of all vegetation is considered. Cold and rainy weather during April and most of May having seriously checked development of all plant life, crops are naturally well behind an average season in development, and therefore to the unskilled observer present an unfavorable appearance. Thus, too, pessimistic reports are unintentionally circulated. But backwardness is given too much weight as an unfavorable element in determining condition. It is not unreasonable to suppose it has been a too important influence in the recent Department report, even though that report was more favorable than generally expected. That a crop is late is not in itself an unfavorable feature, but such a condition is a serious drawback unless future weather be propitious.

Principal interest in this June 1 report naturally centres in wheat, and, as intimated above, the situation appears more favorable than private advices have indicated. The general condition of winter wheat at 77.4 records a deterioration of 5.5 during the month of May, and compares with 82.7 on June 1 1906 and a ten-year average of SI.1. Some of the more important producing States make a very unfavorable comparison with a year ago, damage by insects as well as by the weather being responsible therefor. For instance. Texas condition is put at the extremely low point of 44 against 87 on June 1 a year ago, Oklahoma 60 against 90, and Kansas 60 against 74. On the other hand, however, Indiana, Michigan, Missouri, Illinois and Pennsylvania have maintained or improved upon the condition reported May 1, and the last three named show higher percentages this date the current year than last year. The lower general average condition of winter wheat this year is, however, a less important feature of the situation than the extensive abandonment of area referred to in the May 1 report. The original planting last fall embraced 31,655,000 acres, or nearly 7% more than the area harvested the previous season. The abandoned territory comprised over 31/2 million acres, all States sharing therein more or less, in Texas over two-thirds of the wheat area being thrown out, and in Oklahoma about one-third. The land from which a crop will be gathered exhibits, therefore, a decrease of 5% from a year ago.

According to the Department returns the springwheat area of the country has been reduced on the

only influence we could find working against a largely increased planting was the weather, and that, in hindering preparation of some land, served to cause a modification of original intentions. At the same time, the stimulus of high prices was potent enough to cause some addition to area in about every State. But the Department reports decreases ranging from 4 to 6% in such important producing States as Alabama, Mississippi, Louisiana and Arkansas, and a total increase for the whole country of only 11,000 acres, or three hundredths of one per cent. Its figure of condition, however, was quite generally accepted as correctly defining the situation on May 25.

While weather conditions on the whole are not yet normal, it is gratifying to note that they have in the main been favorable since the first of June, and already advices covering improvement in condition of all crops are current. It is remarked, however, that the weather is yet rather cool for corn. Advices from abroad speak of improvement in crop conditions but indicate that although good crops of wheat are expected in France, Spain and Italy, the out-turn from most other European countries will be much below the average in quantity.

There was no change in official rates of discount by any of the European banks this week; compared with last week, unofficial or open market rates were $\frac{1}{8}$ of 1% higher at London and at Berlin and Frankfort and steady at Paris. The European securities markets were irregular at the close of the week. The London bi-monthly settlement was concluded with but two small failures, and these had only a slight influence; foreign stocks were heavy in sympathy with Paris, which was depressed because of selling of internationals. A report which was current at Paris during the week that Russia contemplated the issue of a foreign loan for 50 million dollars was authoritatively denied; it was also officially stated that the Russian Government does not intend to raise any foreign loan this year, having decided to make up any deficiency by an interior loan, which deficiency is estimated at 140 million dollars, though, if the revenues continue satisfactory, this will probably be reduced by about one-half.

The striking feature of the statement of the New York Associated Banks last week was the reduction in the surplus reserve by \$6,801,925, to \$5,980,525. This was the result chiefly of a loss of \$9,065,200 cash through gold exports and large customs receipts, which loss was only partially offset by the net movement of money from the interior. Loans were expanded \$1,514,300 and deposits were reduced by \$9,-053,100. The bank statement of this week is expected to reflect, among other items, a loss of cash due to the bringing over from last week of the then unaccounted, for averages, representing gold withdrawn for export in the closing days of that week, and also receipts in excess of disbursements by the Sub-Treasury. The 2 millions withdrawn on Friday of this week for shipment to Paris to-day (Saturday) will count in the bank statement for only one-sixth of the amount, owing to the bank average system.

average about 7%, making the amount of land under that crop about 16,464,000 acres this year against 17,706,000 acres in 1906. As in the case of winter wheat, the average condition of the crop June 1 was lower than at the same time in 1906, being stated at 88.7 against 93.4 and a 10-year average of 93.3. The acreage under oats is reported to have been increased 1.7%, and the average condition is given at 81.6 against 85.9 June 1 1906.

In its report on cotton acreage and condition, issued on June 4, the Department practically admitted the serious error it had been drawn into in the spring of. 1906, in the matter of area planted, by adding about 31/4 million acres to the total as then reported. But it is a question whether it will not be necessary for it to also correct its figures of the 1907 planting. In our own investigations of the subject of cotton area the

for FRASER

The market for money was only slightly affected this week by the unfavorable bank statement of the previous week, and, until Wednesday, there were comparatively low rates for money on call. Then indica-

JUNE 15 1907.

tions of a considerable loss of cash that would result from Sub-Treasury operations and from last week's late withdrawals of gold for export to Paris caused an advance in the call loan rate to 3%. The announcement that was made public on Thursday of a call by Secretary Cortelyou for the surrender by July 10 of 30 millions public deposits, that were placed in depositories by his predecessor last September, did not seem to have any affect upon the market for day-to-day money, for the average on Thursday was only $2\frac{1}{2}$ %. On Friday, however, the engagement of 2 millions gold for export caused an advance in call money to $3\frac{1}{2}\%$. There was a firmer tone for all fixed-date loans, owing to a good demand and moderate offerings.

Money on call, representing bankers' balances, loaned at the Stock Exchange during the week at $3\frac{1}{2}\%$ and at $1\frac{34}{6}$, averaging about $2\frac{1}{2}$; banks and trust companies loaned at 2% as the minimum. On Monday and on Tuesday loans were at $2\frac{1}{2}$ % and at 2%with the bulk of the business at $2\frac{1}{4}\%$. On Wednesday transactions were at 3% and at 2% with the majority at $2\frac{3}{4}\%$. On Thursday loans were at $2\frac{1}{2}\%$ and at $1\frac{3}{4}\%$ with the bulk of the business at $2\frac{1}{2}\%$. On Friday transactions were at $3\frac{1}{2}\%$ and at $2\frac{1}{4}\%$ with the majority at $2\frac{1}{2}\%$. Time loans on good mixed Stock Exchange collateral were firm, and for the shorter dates especially, because of expectations that the requirements for the July settlements, amounting to 175 millions, for payments on account of New York City borrowing, and also the recalls of public deposits, would contribute to some tension within the next thirty days. Quotations for this period of maturity were $3\frac{3}{4}\%$; for sixty days $3\frac{1}{2}@4\%$; for ninety days $4@4\frac{1}{4}\%$; four months $4\frac{1}{2}\%$; five months $4\frac{3}{4}\%$, and for six to seven months $5\frac{1}{2}@5\frac{3}{4}\%$. There were liberal offerings of commercial paper, but the demand was light because of disquieting rumors affecting the standing of mercantile and manufacturing houses, which most likely were based upon the failure this week of a construction concern. Rates were $5\frac{1}{2}@6\%$ for sixty to ninety day endorsed bills receivable, $5\frac{1}{2}@6\%$ for prime and $6\frac{1}{2}\%$ for good four to six months single names.

The Bank of England rate of discount remains unchanged at 4%. The cable reports discounts of sixty to ninety day bank bills in London $3\frac{3}{4}@3\frac{7}{8}\%$. The open market rate at Paris is $3\frac{3}{8}\%$ and at Berlin and Frankfort it is 43/4 @41/8%. According to our special cable from London, the Bank of England gained £229,364 bullion during the week and held £35,003,731 at the close of the week. Our correspondent further advises us that the gain was due to heavy imports from India and purchases in the open market. The details of the movement into and out of the Bank were as follows: Imports, £545,000 (of which £250,000 from India, £5,000 from Australia and £290,000 bought in the open market); exports, $\pounds 335,000$ (of which $\pounds 200,000$ to Egypt, £30,000 to Malta and £105,000 to South America), and receipts of $\pounds 19,000$ net from the interior of Great Britain.

great part account for the inactivity in the market, and the inquiry in the middle of the week was chiefly for Saturday's steamer. The pendency of the London Stock Exchange settlement had no particular influence on cables, owing to the comparatively light trading during the fortnight in Americans. One feature was the negotiation of finance bills in anticipation of an opportunity for procuring cover for them in September with the proceeds of discounted commodity drafts against cotton and wheat. Another feature was the drawing of a round amount of francs, supposed to be against a matured installment of a corporation loan. One remarkable circumstance was the absence until Friday of engagements of gold for export to Paris, and this was the more noticeable because in the previous week there had been an urgent inquiry for the metal for this purpose. The reason for this absence of a demand for gold for export was the very narrow margin of profit on the operation, owing to the rise in the rate for exchange at Paris on London of two centimes, compared with last week, and the fall on Monday of 10 points in sterling at New York on the British capital; these changes in the factors governing gold exports prevented the engagement of the metal for shipment on Tuesday. The rise in Paris checks was probably due to purchases to cover gold in transit from New York and the fall in sterling was attributed to a temporary relaxation in the demand. While there were on Tuesday some tentative inquiries for gold by two bankers, who apparently contemplated the shipment of \$500,-000 each, none was secured, though then conditions were more favorable for the movement because of a fall of half a centime in exchange at Paris on London and a recovery in sterling at New York on the British capital. The fact that no effort was made to procure gold for shipment by Thursday's steamer suggested the possibility that the Bank of France had withdrawn its offer of inducements for gold shipments hence. It was thought probable that such might be the case for the reason that French bankers had refrained from com petition for the Cape gold which was offered in the London market on Monday; this seemed to indicate that the French bankers had obtained a sufficient amount for their own or the Bank's present needs. It appeared, however, upon inquiry, that no change had been made by the Bank in its policy of assisting gold imports from New York, and it was expected that when conditions became more favorable, the export movement would be resumed. Such conditions

The market for foreign exchange has been quiet though generally firm this week, influenced by a good demand for remittance and by a scarcity of bankers'

sterling at New York on London to the highest rates of the week, and 2 millions gold were then engaged for export- to-day (Saturday). Some of our bankers expressed the opinion that if, because of an advance in the rates for money, exchange should be actually or sentimentally affected, gold exports might be temporarily checked. Others thought likely that if the Bank of France still needed gold its offer of assistance to American shippers would attract the metal, through the elimination of the time-cost, or interest on the gold while it was in transit, even though money should advance, provided, however, exchange at New York on London were not greatly depressed by reason of the higher money rate.

were favorable on Friday by reason of an advance in

Total gold and legal tenders	\$32,250,000	\$36,440,000	Loss \$4,190,000

The following table indicates the amount of bullion in the principal European banks.

THE PRICE OF CONSOLS.

The further decline in British consols, to the lowest actual price reached in sixty years, has naturally attracted world-wide attention. The price of 83 9-16 quoted last week compares with the low price of $84\frac{1}{4}$ at the time of Wall Street's "March panic" three months ago; with the low mark of 891/8 for the year 1903, when the reduction in the consols interest rate and the Boer War expenses had their full effect; with $84\frac{5}{8}$ reached in the Overend-Gurney panic of 1866, and with 80 in 1848, a year of severe financial depression in England. Not since the last-named date has the price of consols touched so low a figure as this month's. Comparisons of this sort, however, manifestly ignore the fact that consols to-day pay but $2\frac{1}{2}\%$ interest, as against $2\frac{3}{4}$ % between 1888 and 1903, and 3% prior to that date. In other words, the actual price may be lower to-day than on given occasions in the past, and yet the standing of consols, measured by the net yield to investors, may be considerably higher. For example, the yield on the 3% consols in 1848 would have required, for a $2\frac{1}{2}$ % security, a price, not 80, but 663/4.

There are other qualifications in the deductions to be drawn from this year's low price, to which we shall refer. Nevertheless, the fact of the continuous decline in price of this "premier security," and the further fact that its present net yield of 3% compares with a net yield of only $2\frac{3}{8}$ % when it touched the high price of $113\frac{7}{8}$ in 1897, are phenomena of interest and significance. In general, the causes underlying this decline are plain enough. Heavy issues of new war loans by the British Government during the Transvaal contest; suspension at the same time of purchases for the sinking fund; profusion of other issues of highgrade investment securities, and, more recently, the great demand and high bids for capital to use for other purposes, would be sufficient to explain even a more serious decline than this has been. The resultant situation is not, as we take it, that holders of consols are selling because the investment dissatisfies them, but that new buyers are not attracted into the market on anything like the old basis, and that therefore every closing out of an estate comprising large consols investments serves to cause a renewed break in the market. Possibly we might add to this adverse cause the fact that the British Government-very unscientifically and unjustly, in our opinion-charges up the income tax against all consols interest payments, and deducts that tax from the remittances, whether. the holders are Englishmen or foreigners. The effect of such a policy, at a time when England has been relying as never before on outside markets for its investment capital, and when the British income tax is confessedly at an abnormal figure for a time of peace, should be manifest. But granting all these facts, some interesting considerations remain in the matter of British consols to which we wish to call attention. In the first place, not only is comparison of the price of consols with their price in other years misleading, but it is equally misleading to assume that consols are suffering more than other high-grade securities from the general rise in the rate paid for capital. With our own United States bonds, where a 2% issue, redeemable in 30 years, sells above 104, the British security obviously

a The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver; but we believe the division we make is a close approximation.

b The Austro-Hungarian bank statement is now issued in Kronen and Heller instead of Gulden and Kreutzer. The reduction of the former currency to sterling Pounds was by considering the Gulden to have the value of 50 cents. As the Kronen has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to Pounds, has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

d The total of gold in the Bank of Russia includes the balance held abroad that is, the amount held for Russian account in other Continental banks. The proportion so held and consequently duplicated in the above statement is about one-quarter of the total.

for FRASER

JUNE 15 1907.

THE CHRONICLE.

makes poor comparison. Most people are, however, familiar with the peculiar circumstances which regulate and support on a virtually artificial basis the price of our national securities. Such an instance as the fall in price of New York City bonds is much more to the point; or, if comparison is desired with bonds of other high-grade governments, the London "Economist" lately published the following very interesting table, showing the net yield to-day and ten years ago of a selected list of such securities.

		End of M	arch 190	7.	1	I	End of	March 1	897.	
	Rate.	Price.	Equiv. at 2½%.	Yicld £ s. c		Rate.	Price.	Equiv. at 2½%.		icld. s.d.
British consols French rentes German consols Prussian consols Hung'n gold rente	$2\frac{1}{2}$ 3 3 3 4	85 3-16 95 831⁄2 94 94	85 3-16 78 4 68 4 63 4 58 1 8	$\begin{array}{cccccccccccccccccccccccccccccccccccc$	8 2 3	$\frac{3}{4}$	112 1021/2 97 103 1021/3	11012 8512 7958 64 6314	2, 3, 3,	5, 3 18, 6 3, 0 18, 3 19, 0
Italian rente	5	102	631/8	3, 19,		5	8878	5514		10, 0

It should be plain from these comparisons that, on the whole, British consols have not been suffering worse than the general run of public securities.

One further consideration arises, however, to which in our judgment even the English financial critics have given scant attention. As is generally known, British consols up to 1888 were virtually irredeemable; that is to say, though they were purchased annually in large quantities for the sinking fund, no fixed date was assigned at which the Government was required to pay off the entire debt. In April of that year Mr. Goschen, then Chancellor of the Exchequer, put through his important conversion scheme. Confronted, as he believed the British Government to be, with a permanent fall in the general interest rate and with a permanent rise in the national surplus revenue, Mr. Goschen had announced that on that date the $3^{C_{f}}_{LO}$ consols then outstanding should be paid off, with, however, the option to holders, of conversion into $2\frac{3}{4}$ per cents.

This latter interest rate was to continue until April 1903 when it was to fall again to $2\frac{1}{2}$. As a further step towards keeping the interest on British public debt in line with what Mr. Goschen expected of the market, it was further provided that in 1923 the new consols issue should mature. What has happened since is familiar to every one. Mr. Goschen judged the immediate future correctly; so much so, that the whole outstanding list of consols was converted willingly into $2\frac{3}{4}$ per cents. But he made the mistake, not at all uncommon among the most brilliant financiers, of assuming too much for the longer future. How seriously the second reduction of interest, provided in his plan for 1903, complicated British finances at that time will hardly have been forgotten. The point to notice now, however, is that under the stipulations with which the 1888 conversion plan was carried out, the present $2\frac{1}{2}$ per cents may be redeemed, at the pleasure of the Government, in 1923. Whether this option will then be exercised depends no doubt on the state of the market at that time. If consols were to be called in for redemption at that datewhether to reduce the public debt or for refunding at a lower rate-buyers at the present price of 84 or thereabouts will, sixteen years hence, be able, under this proviso, to recover par. The difference between this present price and the redemption figure is 16%; in other words, investors in consols at this month's quotation, who hold the security until the day of its redemption, will, in case of such redemption by the Exchequer, have added 1% per annum to the

 $2\frac{1}{2}\%$ (less income tax) paid annually by the Government. We do not imagine that this fact will very greatly impress markets imbued, as the present markets are, with an idea of getting abnormally high return on perfectly sound securities. But the time may come when such calculations will assume the first place in the London market's plans.

ONE TRUST THAT SURVIVES.

It is rather singular that in the apparent public aversion and antipathy to trusts in trade, the doings of another trust, which has been much in evidence of late, should be completely overlooked. In speaking of "trusts" we are using the word in the sense it is ordinarily employed, as something reprehensible and unscrupulous. In common parlance a trust is a body or organization which rides roughshod over everything in its path—crushes out and stifles all opposition, knows no will except its own, has no purpose save to promote its own interests, is concerned only to maintain its own supremacy, and stops at nothing to attain its ends.

We confess that we know of no trusts in the mercantile or financial world that measure up to this standard, though trade combinations are everywhere represented as being of an evil type. But the description fits accurately the new trust that has recently risen into prominence. We mean the political trust—the party caucus. Caucus rule was supposed to have been relegated to limbo a generation ago. Its activities then had become so pernicious that it was left absolutely without friends. Nothing bad enough or strong enough could be said about it or against it. The man who yielded to its dictates was everywhere regarded as having forfeited all claim to decency, independence and impartiality; he was treated by the independent class as being nothing more than a tool in the hands of party leaders, and his course held up to public obloquy. So general was the feeling of public disapprobation that even the machine leaders were forced to bow to the popular will, and by degrees the caucus dropped out of existence, at least as far as legislation was concerned. The politicians could not afford to rest under the charge that legislation was being enacted, not on its merits, but at the behest of the party leaders. Hence, for a time, caucus rule disappeared. Criticism, deserved and unmitigated, had shamed it out of existence.

But we are living in a new era. Old principles, old rules and precepts, codes of ethics that formerly found universal acceptance, apparently no longer bind men. By some legerdemain which it is difficult to explain, except on the theory that blind infatuation for the social will-o'-the-wisps that are being dangled enticingly before the public eye have dulled the moral sense, we have lost our perception of right and wrong. So we no longer speak with contempt of the thing that yesterday we denounced as vicious and indefensible. In this state of affairs, the party leaders have seen their opportunity, the caucus has been revamped and revived. It is again being made to do duty in the old way.

Quite notably, too, caucus rule is finding most marked exemplification in the enlightened State of New York. The caucus has a great amount of achievement to its credit at Albany this season. Consider what a deal of legislation has been accomplished

[VOL. LXXXIV.

through and by it during the last few weeks. All the important measures of the session have been forced through by it and by it alone. This means that these pieces of legislation do not represent the untrammeled will of our legislators. If they had been allowed to act in accordance with the dictates of their judgment, these new laws, nearly all of a revolutionary type, could not have been enacted. A caucus, or trust, has told these legislators what to do, and has compelled them to yield obedience to its mandate as relentlessly and as mercilessly as the tyrants we read about in history.

What the result would be when each legislator was free to express his own will was clearly shown in the vote on the Kelsey removal proposition. The proposition failed, as everyone knows. In the public excitement of last year a lot of insurance legislation had been put on the statute books. These laws proved unworkable, as was shown by the fact that the counting of the vote cast at the election of insurance company officials last December extended over a period of several months, and in the case of one of the companies is not even yet finished. It became necessary, in the estimation of those who wield the caucus, to do something more to demonstrate how our legislators and high officials are ever the servants of the people. The Insurance Superintendent, with a record of some errors against him, though of a blameless character, was ready to hand and could serve as a vicarious sacrifice. But the Senate, with each member free to act in accordance with his volition, refused to do the part of executioner.

It then became necessary to resort to heroic measures. There was the Public Utilities Bill. If the recalcitrant senators were not brought in line, this measure might fail; likewise the Recount Bill and several other measures which the political powers planned should be the record of legislative achievement for the session. It was of no use to attempt to reason or to argue with the bolting Senators, for it was as plain as anything could be that the bills could not stand on their merits; they were full of objectionable features and must needs be extensively revised if not dropped altogether. But it had been determined by these political powers that the bills should go through just as they were, without any change. So the campaign managers, the "organization" men, put in an appearance at Albany, conferred with the Executive and with those Senators and Assemblymen high in the party councils, and all agreed that the caucus should do the work which the Legislature in and by itself could not do. The caucus was held. The rebellious legislators were told that the interests of the party demanded that the measures desired should be rushed through with unanimity, that no opposition would be tolerated, that desertion at such a time meant traitorism to the party, and furthermore that if the rebels persisted in asserting their individual rights, they would be read out of the party and could not again hope to get a re-nomination. These means proved effective. The will of the political managers was carried out. The Utilities Bill went through both Houses without a show of opposition; so did the Recount Bill, and likewise the other measures planned. The most surprising part of the whole performance was that not a protest came from any one against such methods of procedure. The very people who years

for FRASER

ago were most bitter in their criticism of caucus rule were now silent-people generally independent in politics and who usually espouse high aims and causes. The reason was that they, too, had become benighted. They see, or affect to see, in the measures referred to legislation to promote the public good and they are blind to the means pursued for There were even intimations giving them effect. that it would not be wrong to avail of some other weapons that were conveniently to hand. The Court of Appeals had just declared the last reapportionment invalid. Why not, then, these advocates urged, give the legislative rebels to understand that if they persisted in their course, a reapportionment measure damaging to their political prospects would be forced through over their heads. Their districts would be wiped out or gerrymandered in such a way that they could not ever again hope to be returned to Albany. At this very moment we find the two Houses of the State Legislature engaged in a wrangle which has for its basis not a desire to secure a just apportionment, but a fear lest one set of political leaders may gain advantage over another set. In the end King Caucus will be asked to step in and decide the matter, and then there will be harmony-the harmony that speaks of the extinction of the individual but the triumph of the political trust. The expedient has already been invoked in one House, and will, we may be sure, be employed sooner or later to bring both Houses to the required frame of mind. If it proves abortive on this occasion, it will only be because legislators who yield ready acquiescence when asked to deal a blow at business interests balk when the blow is aimed at their own heads-when they are calmly requested to vote for their own extinction.

Governor Hughes, in his speech before the Columbia Law School on Wednesday, argued that "it is the duty of an Executive to state his opinion to the legislative bodies, and when such opinions are endorsed by these bodies and made law, after endorsement by the people, then we have legislation, not by Executive usurpation, but by public opinion followed by discussion." This may be admitted, but there has been no legislation of that kind the present session. The caucus has usurped the rights and powers of the legislator. It, and it alone, has determined the course of legislation.

Is it not about time that we regained our senses and declined to tolerate any longer such abuses of political powers and such disregard of the principles upon which Republic Government is founded? If a legislator cannot be left free to exercise his own will in accordance with the dictates of his conscience, if he is to be hounded by the press and a clique of his political associates for daring to oppose them when they seek to commit him to a course which he does not approve; if legislators are only to vote collectively in accordance with the desires of the leaders instead of singly to voice their own sentiments, are we not in danger of abolishing representative government? The corner-stone of republican institutions is the fact that freedom of action and expression is accorded the minority. The minority yields ready acquiescence to the majority because of the latter's superiority in numbers. But caucus rule stifles the voice of the minority and records majority and minority alike in favor of a pre-conceived plan of action. When this

JUNE 15 1907.]

is allowed, legislation no longer represents the will of the majority but more often the will of an insignificant minority.

The danger from such a step cannot be overestimated. Just now, when so many are being carried away by the crusade against corporations and against capital and wealth, and when, therefore, a spirit of complacency is displayed towards things having that end in view, this fact may not be recognized. But unless we are greatly mistaken, tolerance of the caucus now will come back to plague the good people who see nothing wrong in its present course. An instrument that can be employed to grind out socalled good laws can with equal facility be employed as an instrument of oppression, for it is the power which the caucus possesses that enables it to do its work and not any command of righteousness. The caucus is founded, not on reason, but on brute force, and by brute force alone can it ever exercise its sway. To-day it may be employed for a purpose that suits the popular fancy. To-morrow those arrogating to themselves its powers may bid defiance to the public will even when it rests on sane grounds. It behooves us, therefore, to be careful how we countenance its continuance.

RIGHT OF A STATE COMMISSION TO REGULATE THE TRAIN SERVICE OF A RAILROAD.

At the present time, when the tendency is to extend the functions of State Commissions over the affairs of carriers, not only in the matter of regulating rates but in fixing all the details of railroad service. it is important to know just how far such a body may go in the exercise of its powers and prerogatives. An interesting case involving this question was decided in the U.S. Supreme Court somewhat over a month ago. As the case embraces features that are likely to occur in other instances, the doctrine laid down in this decision must be regarded as quite important. The Court upholds the right of a State Commission to require a carrier to run a train in order to promote public convenience, even if the running of this particular train involves a loss to the road. However, we are not permitted to make our generalization or deductions too broad. Every case depends upon its own state of facts, and the judgment reached in the present instance is controlling only where an exactly similar state of facts exists. The Court in effect balances the loss from obedience to the order of the Commission against the profitable results of the operation of the road as a whole, and declares that the act cannot on that ground alone be classed as arbitrary and unreasonable. The circumstances were rather more favorable to the Commission than they ordinarily are in an action where a Government body is concerned. The Southern Railway made a change in its time schedule for a certain train and this change broke the connection at Selma, Ala., which had previously existed with a train run over the Atlantic Coast Line system. The Southern found it incumbent to make this change, as it had become absolutely dangerous to operate the train at the speed required by the previous schedule. The connection between the Atlantic Coast Line train and the Southern Railway train at Selma had existed for many years, and naturally there was complaint when it was broken. The Atlantic Coast Line management was appealed to by the North Carolina Corporation Commission to make a corresponding change in their

train in order that the old connection might be maintained, and they expressed a willingness to do this provided they could get a change in the train run by the roads between New York and Richmond. But these other roads found it impossible to alter the hour of departure from New York, and the Atlantic Coast Line people thereupon were obliged to notify the North Carolina Commission that they saw no feasible way of continuing the old connection at Selma. After hearing, the Commission peremptorily ordered the Atlantic Coast Line Railroad to arrange its schedule so that the train which previously had been scheduled to arrive at 2:50 p. m. should thereafter arrive at 2:25 p. m., thereby restoring the old connection with the Southern Railway train.

The Atlantic Coast Line Company protested against the order, requesting its withdrawal and asking for a further hearing. The Commission complied with the request for a new hearing and suspended its order. At this second hearing the Atlantic Coast Line people were able to show that for the previous five months it had been impossible for them to bring No. 39 (the number of the train in question) to Selma by schedule time, to wit., 2:50 p. m., more than twice, and that this train was more than ten minutes late every day except twenty-four. Yielding to the force of this situation, the Corporation Commission concluded that it was impracticable to require a faster schedule and place this train at 2:25 p. m. instead of 2:50 p. m. Therefore this part of the former order was revoked and annulled. But the Commission was of the opinion that it was practicable, and that the convenience of the traveling public required, that the Atlantic Coast Line Railroad furnish transportation for passengers from a point called Rocky Mount to Selma after 12:50 p. m. and by or before 2:25 p. m. each day. It accordingly made an order to that effect.

Before the date of the taking effect of the second order, the Atlantic Coast Line filed exceptions to the validity of the order and prayed for another hearing. The Commission again acceded and took further testimony, but this time adhered to its order. The railroad was able to show that the operation of an extra train from Rocky Mount to Selma or the extension of the run of one of the branch line trains meant a direct money loss for every day the train was run. The Commission treated this objection as immaterial, finding, as a matter of fact, that the total receipts of the Coast Line in North Carolina, taken from business in that State, were sufficiently remunerative and there-, fore that even if the train was operated at a loss, that circumstance was not of very great importance. The company hence appealed to the courts for redress. In the lower court it received a verdict in its favor, but the Supreme Court of North Carolina reversed the judgment. The case then went to the U.S. Supreme Court, with the result that this judgment of the North Carolina Supreme Court stands affirmed. The opinion in the United States Supreme Court was by Justice White. He points out that as the public power to regulate railways and the private right of ownership of such property co-exist and do not the one destroy the other, it has been settled that the right of ownership of railway property, like other property rights, finds protection in constitutional guaranties, and therefore wherever the power of regulation is exerted in such an arbitrary and un-

Digitized or FRASER

reasonable way as to cause it to be in effect not a regulation but an infringement upon the right of ownership, such an exertion of power is void because repugnant to the due process and equal protection clauses of the Fourteenth Amendment. But was the order of the North Carolina Commission arbitrary and unreasonable within this view? Justice White thinks not. He says that in considering the question it must be borne in mind that a Court may not, under the guise sweeping.

of the North Carolina Commission arbitrary and unreasonable within this view? Justice White thinks not. He says that in considering the question it must be borne in mind that a Court may not, under the guise of protecting private property, extend its authority to a subject of regulation not within its competency, but is confined to ascertaining whether the particular assertion of the legislative power to regulate has been exercised to so unwarranted a degree as, in substance and effect, to exceed regulation, and to be equivalent to a taking of property without due process of law or a denial of the equal protection of the laws. Considering all the circumstances of the case, he thinks that from the point of view of the requirements of the public interest the order of the Commission was one coming clearly within the scope of the power to enforce just and reasonable regulations.

Counsel for the Atlantic Coast Line Railroad had in their argument before the Court relied greatly upon the case of Smyth vs. Ames (169 U. S. 526) where Justice Harlan said: "A State enactment, or regulations made under the authority of a State enactment, establishing rates for the transportation of persons or property by railroad that will not admit of the carrier earning such compensation as, under all the circumstances, is just to it and to the public, would deprive such carrier of its property without due process of law." &c. But the present case Justice White points out, does not involve the enforcement by a State of a general scheme of maximum rates, but only whether an exercise of State authority to compel a carrier to perform a particular and specified duty is so inherently unjust and unreasonable as to amount to the deprivation of property without due process of law. In a case involving the validity of an order enforcing a scheme of maximum rates, of course the finding that the enforcement of such scheme will not produce an adequate return for the operation of the railroad in and of itself demonstrates the unreasonableness of the order. Such, however, is not the case when the question is as to the validity of an order to do a particular act, the doing of which does not involve the question of the profitableness of the operation of the railroad as an entirety. He said that the question raised in this instance concerned solely an order directing a carrier to furnish a facility which it is a part of its general duty to furnish for the public convenience. As the primal duty of a carrier is to furnish adequate facilities to the public. that duty may well be compelled, although by doing so as an incident some pecuniary loss from such service may result. Of course the fact that the furnishing of a necessary facility ordered may occasion an incidental pecuniary loss is an important criterion to be taken into view in determining the reasonableness of the order, but it is not the only one. As the duty to furnish necessary facilities is co-terminous with the powers of the corporation, the obligation to discharge that duty must be considered in connection with the nature and productiveness of the corporate business as a whole, the character of the services required, and the public need for its performance.

It is evident from reading the opinion that the Court was favorably impressed with the apparent thoroughness of the Commission's investigations and the care seemingly taken to get at the facts and to act with caution and deliberation. Given a different set of conditions, the Court might not have been so prone to accept the Commission's findings even as to the facts. And yet, the Court's conclusions are quite sweeping.

RAILROAD GROSS EARNINGS FOR MAY.

It is encouraging to find that returns of railroad earnings are again very satisfactory, at least as far as the gross are concerned. The fact is gratifying both on its own account and because large gains are so essential to counterbalance the tremendous increases which are taking place in the operating expenses of the roads. Our statement for April had shown quite large improvement in the gross revenues over the corresponding month of last year, and the statement we present to-day for the month of May is almost equally good. Briefly, the 67 roads which have contributed returns to this compilation (which is an early one, and, being made so soon after the close of the month, necessarily embraces only the roads that are unusually prompt in giving out the figures) show a gain in the aggregate in the sum of \$10,889,344, or 14.97%.

Of course, special circumstances are in large measure responsible for the favorable character of the exhibit. And yet the increase is none the less welcome on that account. Chiefly it has to be borne in mind that, as was the case in April, comparison is with the period of suspension of coal mining in 1906. Mining in the anthracite regions last year was not resumed until the 10th of May, while in the case of bituminous coal fields the strikes were continued all through May, except of course in those instances where the operators had granted the 1903 scale of wages at the beginning of April, and where, therefore, no stoppage of work had occurred even in April. These coal strikes, it is proper to say, extended to many different States, and numerous roads in widely-separated sections sustained a decrease in tonnage on that account, though quite generally the loss in that way was made up by gain in other classes of traffic arising from the activity and prosperity of general trade. This year of course there was no disturbance of that kind and the large gains in earnings are in great part explained, therefore, by the fact that coal traffic and coal revenues have been of normal proportions, where in 1906 they had been abnormally small. On the other hand, Southern roads were without the advantage of a larger cotton movement, such as existed in the earlier months of 1907. Instead, the cotton movement fell off. Western roads on their part appeared to have had a smaller live-stock movement, and a number of them also had a diminished grain tonnage, though the advance in the price of wheat to above the dollar mark proved a great stimulus in enlarging the movement of wheat. Except in the case of individual roads, it must not be supposed that comparison is with diminished earnings last year. As already pointed out, business in 1906 was extremely prosperous, and, save as regards the distinctively coalcarrying roads, the loss in the coal earnings was more than offset by gains in other classes of traffic. In the aggregate our early statement for May 1906 showed

JUNE 15 1907.

THE CHRONICLE.

\$9,323,116 increase, or 13.37%. The increase the present year of \$10,889,344, or 14.97%, is additional to this previous gain. As a matter of fact, it is additional to a long series of gains, extending back a great many years, as may be seen from the following summary giving the totals for ten years. It will be observed that 1904 is the only year in the whole series marked by a loss. All the others have gains, and generally for quite large amounts.

Note.---We do not include the Mexican roads in any of the years.

The wheat receipts at the Western primary markets, under the stimulus of the high prices prevailing, reached 18,665,912 bushels for the five weeks ending June 1 1907, against only 9,012,962 bushels for the corresponding five weeks for 1906; and the deliveries of oats, barley and rye were also larger, but the corn movement was about 2,000,000 bushels smaller. For the five cereals combined, the receipts were 56,534,603 bushels, against only 45,856,104 bushels in the five weeks of 1906. The details of the grain movement in our usual form appear in the table we now present.

We have already stated that the cotton movement in the South was smaller. The shipments overland for the month were only 58,450 bales in 1907, against 72,900 bales in 1906 and 106,311 bales in 1905. The receipts at the Southern ports were 250,876 bales, against 337,200 bales in 1906 and 626,431 bales in 1905, as will appear by the table we now subjoin.

With the roads as a whole making such a satisfactory showing, it necessarily follows that the separate roads have done equally well. The gains are large and come from all sections of the country, whereas the losses are few and unimportant. In truth, there is only one loss for a sum in excess of \$30,000, this being furnished by the Yazoo & Mississippi Valley, which evidently suffered a falling off in its cotton traffic. Below we show all changes, whether increases or decreases, for amounts over \$30,000.

porated association in Pennsylvania who shall hereafter engage in the banking business within the Commonwealth, and who shall hold themselves open to the public for the purpose of receiving money on deposit or otherwise, shall report to and be subject to the supervision of the Commissioner of Banking and to the laws governing his office at all times. The new law is aimed particularly at bankers in the Italian colony, but it is so broad that it includes all brokers who receive deposits and such important banking houses as Drexel & Co. and Brown Bros. & Co. A number of brokers have already taken steps to have all depositors close their accounts. The larger banking houses, some of which carry a very heavy line of deposits, will of course not give up this feature of their business, and will therefore be subject to investigation by the examiners of the Commissioner of Banking.

-A test case has been brought in this city to decide the validity of the law giving the State Comptroller or his representative the right to inspect the books of brokerage houses recording the transactions of stock transfers. On a summons taken out at the instance of Assistant District Attorney Keogh, who is co-operating with State Comptroller Glynn,

JUNE 15 1907.]

F. E. Kahn, a member of the Stock Exchange house of Herzfeld & Stern, appeared before Magistrate Moss this week, charged with violating Section 321, Chapter 324 of the Laws of 1907, in refusing to allow a representative of the Comptroller to examine the firm's books. By agreement Mr. Kahn was paroled in the custody of his counsel until the 27th inst

-An adjustment of the relations between the banks and the trust companies has been reached in Baltimore. At a meeting of the Baltimore Clearing-House Association on Tuesday, a resolution was adopted permitting members of the association to clear for non-members. This practice was formerly prohibited under Section 14 of the Clearing-House, now repealed. The new rule becomes effective at once. There has also been adopted an amendment providing that after July 1 Clearing-House banks shall charge current rates of exchange on out-of-town collections to all non-member banking institutions. Most of these non-members, the Baltimore "Sun" states, now pay this charge to their depository banks, and as the others have expressed a willingness to do so if the rule is uniform, it is not thought any difficulty will be experienced in carrying the arrangement into effect.

--Governor Chester Guild Jr. of Massachusetts has signed the bill which reduces the necessary capital of trust companies from \$500,000 to \$200,000 in cities with a population of over 100,000 and from \$200,000 to \$100,000 in municipalities with a lesser population. The bill was published in this department last week.

—A Clearing House Association has been organized by the financial institutions of York, Pa. Its officers are: President, John J. Frick, Cashier of the York National Bank; Treasurer, Ellis S. Lewis, Treasurer of this York Trust Company; Secretary, William R. Horner, Cashier of the York County National Bank. It is expected that the clearinghouse will be in operation within a month.

—Archibald G. King has been appointed an additional Assistant Treasurer of the Knickerbocker Trust Company of this city.

-The new statement of the Farmers' Loan & Trust Company, of which Edwin S. Marston is President, shows quite a noteworthy increase for the past five months. Deposits on June 4 last are reported at \$84,916,638 as against \$78,-445,775 on Jan. 1 1907, and aggregate resources show

4,336,602 as against \$88,096,786.

-Henry M. Post, the Exchange member of the firm of Post Bros. & Co. of this city, was reinstated on Thursday, the Governors having remitted part of the six months' sentence imposed last February for an unintentional infraction of the rules.

-The directors of the Mercantile Trust Company and the Equitable Trust Company of this city this week approved the plans agreed upon for the consolidation of the institutions. The consolidated company, which will continue under the name of the Mercantile, will begin business about July 1 with a capital of \$3,000,000 and a surplus of about \$15,000,000. Alvin W. Krech, President of the Equitable, is to be at the head of the united institution. Under the agreement adopted by the boards of directors, the stockholders of the Equitable (capital \$3,000,000) may elect to take \$435 a share in liquidation of their stock, or one share of stock of the enlarged company for two shares of Equitable stock. The stock of the Mercantile Trust Company (capital \$2,000,000) has recently been quoted at \$850 asked, and that of the Equitable at \$435 asked. The Mercantile has deposits of over \$40,000,000, while those of the Equitable exceed \$18,-000,000. The action of the directors will be ratified by the stockholders on July 2. The proposed merger was approved yesterday by State Superintendent of Banking Charles H. Keep.

capital. Frederick Phillips, Secretary of the company, who is known to a large number of bankers and merchants throughout the country, is interested in a movement looking to uniform trust company laws and Federal supervision of trust companies, provided they be legalized as national depositories.

—The Mercantile National Bank of this city has declared an extra dividend of 1% in addition to the semi-annual distribution of 5%, both payable July 2. The institution paid 5% on Jan. 2 last, previous to which the rate had been 4% each semi-annual period.

—The German Exchange Bank of this city has made a further increase in the semi-annual dividend, declaring 10% payable July 1, as against 8% paid Jan. 2. This last represented an increase of 1% in the semi-annual distribution, 7% having been paid each half-yearly period previously.

-John B. Jones has replaced S. H. Vandergrift as Vice-President of the Beaver National Bank of this city.

-Henry S. Kerr, formerly of the firm of Redmond, Kerr & Co. of this city, which was dissolved three years ago, died on the 8th inst. He was forty-two years of age.

-A a meeting of the directors of the Nassau Bank of this city on Wednesday John Munro was elected a Vice-President.

-During the past week some of the directors of the Bronx Borough Bank, of which C. Adelbert Becker is President, purchased control of the Cosmopolitan Bank, located near the corner of Westchester and Prospect avenues, Borough of the Bronx. We are informed that no consolidation will take place at present; the two banks will, however, be closely allied, Mr. Becker being at the head of both institutions. The Bronx Borough Bank, which is located at 702-704 Tremont Avenue, has been rapidly increasing its business and its deposits are now over \$1,500,000. The bank has a capital of \$100,000 and a surplus of the same amount.

-Another consolidation of banking institutions in Providence has been effected. On Monday of this week the business of the Fourth National Bank was transferred to the United National Bank of that city. The Fourth National was chartered as the Continental Bank in 1853, becoming a national institution in 1864. It has a capital of \$500,000, surplus and profits of \$204,559 and deposits of about \$500,-000. The stockholders will meet on July 17 to authorize its liquidation. The United National Bank, by which it is taken over, is controlled, it is understood, by the Industrial Trust Company of Providence. John D. Lewis, President of the Fourth National, has been elected a Vice-President and director of the United National.

-A. J. Foster has been elected to succeed the late Samuel B. Hopkins as President of the People's National Bank of Roxbury (Boston), Mass.

-Arthur E. Appleyard, a broker, was suspended from the Philadelphia Stock Exchange on Thursday. The action, it is understood, is due to the fact that Mr. Appleyard, who had recently been a heavy trader in United Gas Improvement securities, had failed to make a deposit of the stock or to put up the necessary margin in the required time. Previous to this, Mr. Appleyard had not been active in business affair since the failure of the German Bank of Buffalo, due in great measure because of loans made to him. In a settlement arrived at several weeks ago, Receiver Wheeler was authorized to accept an offer of \$40,000 made by Mr. Appleyard, and this money was to have been paid this week.

-An interesting record of growth is displayed by the Lincoln Trust Company of this city in its deposits and in the number of its depositors, in a recent advertisement, as may be seen from the figures given herewith: Dec. 31 1902, \$2,-707,116 46; depositors, 349; Dec. 31 1903, \$7,382,107 29; depositors, 2,219; Dec. 31 1904, \$13,150,280; depositors, 3,807; Dec. 31 1905, \$17,081,246 13; depositors, 5,214; Dec. 31 1903, \$21,384,142 39; depositors, 6,951, and June 8 1907, \$25,022,914 98; depositors, 8,127. The directors this week declared the quarterly dividend of 3% on the \$1,000,000

-A useful little manual for European travelers has been issued by the Trust Company of North America of Philadelphia. The booklet covers the subject of "Foreign Money," and while it does not pretend to be a comprehensive work, being designed primarily to assist the traveler in Europe to understand English, French and German currency, it gives nevertheless, much information likely to be serviceable to him. The kind of money to be taken by the tourist is the first question answered in the booklet. Not a few experienced travelers, it is stated, carry as a reserve fund a sum of money in United States notes; but if this is done they should be gold notes. On the Continent these gold notes are often taken by bankers at a favorable rate of exchange. "On the whole, however, it is probable that Bank of England notes are more generally acceptable all over the world than any other paper currency. If it is found expedient to carry

any considerable amount of money in currency the tourist cannot well do better than supply himself with this form of money. The reason for this is that London, being the great banking centre, London exchange is always in demand all over the world." The traveler is cautioned against repudiated and short-weight sovereigns, and made acquainted with facts concerning the "origin of the guinea," the Bank of England, "mismatched notes," the Bank of France, the Imperial Bank of Germany, the Latin Union, "French gold" and British money, all of which make interesting reading. Tables are given showing the value in United States money of English, French and German paper money, gold, silver and minor coins, and the values of the various coinages of the world as fixed by the Director of the United States Mint.

-Since April of last year the total assets of the combined banking institutions of Lancaster County, Pa., have grown from \$36,626,248 to \$37,030,974. The greater part of the latter amount is held by the national banks, these reporting on May 20 1907 a total of \$20,324,565; the trust companies show \$15,516,153 and the savings banks \$1,190,256.

-Checks for the full amount of the claims of the depositors and creditors of the Columbia Savings & Trust Company of Pittsburgh have, according to Pittsburgh "Money," been distributed by Receiver George H. Calvert. The institution closed its doors on May 9 1906. On the savings accounts and creditors' claims interest to the date of closing was added, but on the checking accounts, it is stated, no interest was allowed. The receiver also has on hand some \$40,000 which will go toward paying the stockholders, besides some assets still outstanding.

--Reese G. Brooks, President of the Dime Deposit & Discount Bank of Scranton, Pa., and Vice-President of the West Side Bank of that city, died on the 12th inst. He was sixtyone years of age.

-The stockholders of the Woodland Avenue Savings & Trust Company of Cleveland, Ohio, have ratified a proposition to increase the capital from \$250,000 to \$350,000. The selling price of the new stock-\$160 per share of \$100will enlarge the bank's surplus also, making it \$250,000. The increased capital will become effective on July 1.

-E. H. Flinn, heretofore Second Vice-President of the Old Detroit National Bank of Detroit, has been chosen to succeed the late Theodore D. Buhl as First Vice-President of the institution. H. P. Baldwin has been elected Second Vice-President.

—The German-American Bank of Detroit, Mich., will, it is reported, increase its capital from \$100,000 to \$250,000. The Detroit "Capital" states that the present stockholders are to receive a dividend of 70%, payable in cash or in the new stock at \$120 per share.

—The Illinois Bankers' Association will hold its annual meeting on Oct. 9 and 10 at Moline, Ill. Frank P. Judson, Cashier of the Bankers' National Bank of Chicago, is Secretary of the association.

-At a directors' meeting of the State Bank of Chicago on the 11th inst. a quarterly dividend of $2\frac{1}{2}\%$ payable July 1 was declared; also an extra dividend of $\frac{1}{2}\%$, to be added to the 2% declared in April, thus raising the dividend basis from 8% to 10% per annum. For the past few years the State Bank has enjoyed an unusual degree of prosperity, having earned for the last three years 30% on its capital stock of \$1,000,000. Its present deposits exceed \$18,000,000. \$200,000 has just been transferred from undivided profits to surplus, making the latter item \$1,000,000, and still leaving about \$70,000 in the profit account

-The Tennessee Bankers' Association will meet in annual session on Tuesday and Wednesday of next week at Lookout Mountain, Chattanooga. The address of welcome is to be delivered by Senator Frazier, and the response made by W. H. Gass, President of the Knoxville Banking Company of Knoxville. Among the subjects to be discussed at the meetings are the following: "Government and the Banks," by J. H. Watkins, Vice-President of the Bank of Commerce & Trust Company, Memphis; "Industrial Progress and the Future of the South," by ex-Senator E. W. Carmack; "Overdrafts, Excessive Loans and Past-Due Paper," by W. G. Dillon, Cashier of the First National Bank of Tracy City; "Relationship Between Railroads and other Business Enterprises," by W. W. Finley, President of the Southern Ry., and "Personality in Banking," by Rutledge Smith of Cookeville, Tenn.

-Under the leadership of Bird M. Robinson, of the Mobile Jackson & Kansas City RR., the city of Knoxville, Tenn., may soon have a new trust company. A charter has been applied for under the name of the Tennessee Trust & Banking Company, the present plans providing for \$500,000 capital and a surplus of \$250,000, the shares selling at \$150. Mr. Robinson has interested in the proposed formation of this new company several Knoxville bankers, all directors of the Mechanics' National Bank of that city, with which the new company will be closely associated: W. J. Oliver, whose Government bid for building the Panama Canal is of recent occurrence; Henry Fonde, General Agent Southern Ry. Co.; James Maynard, President Brookside Cotton Mills; J. C. Luttrell; S. B. Luttrell, of S. B. Luttrell & Co., wholesale hardware dealers, and E. G. Oates. Very strong financial interests in the East will also be connected with the company. It is expected that Mr. Robinson will be the President and that S. B. Luttrell, President of the Mechanics' National, will be Chairman of its board of directors.

-The Knoxville Banking Co. of Knoxville, Tenn., which was established in 1888, will enter upon a new era of its history July 1, when the institution increases its directorate and commences the construction of a new modern ten-story bank building in the center of the business district. It is the intention of the directors to convert the institution into a trust company, changing its name to the Knoxville Banking & Trust Company. The first and second floors of the new building, on Gay and Clinch streets, are to be occupied by the bank and trust departments, the rest being rented out for offices. In January last the stockholders approved a proposition to increase the capital from \$50,000 to \$100,000. and another addition will be made July 1 raising it to \$250,-000; during the construction of the new building it is the purpose to increase the amount to \$500,000. The officers of this enterprising Tennessee company are: President. W. H. Gass; Vice-President, J. W. Hope, and Cashier, W. W. Willis.

-The Georgia Bankers' Association, at its annual session held at Macon, Ga., on the 5th and 6th inst., recommended for adoption in that State the Torren's system of registering land titles. The association also adopted a resolution urging the Congressional representatives of the State to endeavor to secure the repeal of the National Bankruptey Law. The officers of the association for the ensuing year are President Joseph S. Davis, Cashier of the First National Bank of Albany, Ga.; First Vice-President Oscar E. Dooly, Assistant Cashier of the American National Bank of Macon; Secretary (re-elected) L. P. Hillyer, Vice-President and Cashier of the American National Bank of Macon; Treasurer (re-elected) E. C. Smith, Cashier of the Griffin Banking Company of Griffin, Ga.

—An article on "Why the Small Investor Loses," written by Charles G. Dawes, President of the Central Trust Company of Illinois, Chicago, for the purpose of warning prospective small investors against "get-rich-quick" plans, has been distributed in pamphlet form. This article was published in the "Saturday Evening Post" of April 20 1907.

-S. M. Felton, President of the Chicago & Alton Railroad Company, has been elected a director of the Central Trust Company of Illinois(Chicago) to succeed Frank O. Lowden, resigned.

--The residuary legatees and managers of the Jennings-Real Estate Loan & Trust Bank, Chicago, have dropped the title under which business was formerly done, and under State authority, have adopted the name of the United States Trust Company.

-The directors of the American National Bank of Vicksburg, Miss., have elected Mrs. B. B. Willis President to succeed the late Gen. Edward S. Butts.

-The Commonwealth National Bank of Dallas, Tex., which commenced business on May 1, reported deposits of \$899,013 in its first statement under the call of the Comptroller of the Currency, made twenty days after the bank's opening, or on May 20. The statement also showed capital stock paid in of \$500,000, undivided profits of \$9,861 and total resources of \$1,408,873. The officers of the institution are: E. M. Turner, President; I.^t H. Kempner, C. J. Sorrells

JUNE 15 1907.]

-The Bankers' Investment Company is the name of a projected institution in Dallas, Tex., which is to have a capital of \$200,000. W. H. Gaston, of the Gaston National Bank of Dallas, is one of the directors of the new concern, with Rhodes S. Baker, C. H. Munger, J. W. Ogburn, Hugh Halsell, D. E. Waggoner of Dallas; W. R. Brents, President of the Commercial National Bank of Sherman, Texas; S. B. Norwood, of the National Bank of Cleburne; S. J. McFarland, Vice-President of the First National Bank of Ladonia, and J. W. Haden of Bonham. It is stated to be the aim of the projectors to acquire or establish a chain of banks in Texas.

-An application to organize the Exchange National Bank of Waco, Texas, was approved by the Comptroller of the Currency on June 7. The capital is to be \$200,000. A. P. Duncan, F. E. McLarty, W. Herrick, G. Smith, Horace M. Minix and C. M. Hubby are interested.

-The Citizens' National Bank of San Francisco was placed in voluntary liquidation on the 1st inst., having been succeeded by the Bank of San Francisco. The latter has a capital of \$200,000 and is affiliated with the Crocker National Bank. Its directors are William H. Crocker, A. H. Giannini, Hugo D., Keil, George D. Cooper, Thomas W. Huntington, W. Frank Pierce, E. E. Johnson, James J. Fagan, John E. Quinn, Henry T. Scott and Albert Sutton.

-At the annual meeting on the 11th inst. of the Sovereign Bank of Canada (head office, Toronto) the new administration announced that a re-valuation of the bank's assets had been made, necessitating the writing off of some \$2,240,000. Of the total it was recommended that \$700,656 be written off for bad debts, \$150,608 for depreciation in securities and \$48,109 for reduction in bank premises and furniture; that \$541,494 should be set aside in Contingent Fund for accounts which are in liquidation or in which there is a large element of doubt, and that a further Contingent Fund of \$800,000 should be provided in respect of certain unsatisfactory advances the outcome of which is uncertain. To provide for all these it has been necessary to appropriate the entire reserve fund (amounting April 30 1907 to \$1,255,950) and to reduce the capital from \$4,000,000 to \$3,000,000. It is expected that a considerable portion of the amount written off, especially that due to the depreciation of securities, will subsequently be recovered. The bank has deposits of over \$14,000,000. J. C. Jemmett,"who resigned as Secretary of the Canadian Bank of Commerce last month, to become Joint General Manager of the Sovereign Bank, has since been appointed General Manager to succeeed Duncan M. Stewart. It has been decided to alter the date of the annual meeting of the bank from June to July, and the dates of dividend payments will accordingly be changed.

IMPORTS AND EXPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

The Collector of Customs at San Francisco has furnished us this week the details of imports and exports of gold and silver through that port for the month of April, and we give them below in conjunction with the figures for preceding months, thus completing the results for the ten months of the fiscal year 1906-07. The imports of gold were of moderate volume, reaching \$379,594, mainly bullion. Of silver there came in \$315,046, also mainly bullion. During the ten months there was received a total of \$14,120,410 gold and \$2,877,825 silver, which compares with \$2,285,986 gold and \$2,162,211 silver in 1905-06. The shipments of gold during April were nil, and the exports of silver were \$3,718 coin. For the ten months the exports of gold coin reached only \$16,735, against \$5,362,339 in 1905-05, and \$1,648,324 silver was sent out against \$8,931,473 in 1905-06. The exhibit for April and for the ten months is as follows:

THE CHRONICLE.

Statement of New York City Clearing-House Banks .-The following statement shows the condition of the New York City Clearing-House banks for the week ending June 8. It should be distinctly understood that as to all items except capital and surplus the figures are the averages of the daily results, not the totals at the end of the week. In other words, in reporting loans and deposits and holdings of specie and legal tenders, the practice is to take the aggregate of the amounts for the several days of the week and divide this aggregate by the number of days.

We omit two ciphers (00) in all cases.

dending state in a second state of the second

Wall Street, Friday Night, June 14 1907.

The Money Market and Financial Situation.-Influences which have had an increasing tendency of late to depress the markets or restrict operations in Wall Street are still dominant, and to these are now added two or three more or less important failures and a somewhat firmer money market. As a consequence business has continued small in volume and mostly of a routine or conventional character, and prices are generally lower. Thursday's stock market was the dullest in many months, and throughout the week transactions at the Exchange have been far below the average for the season.

Official and other opposition to the so-called "trusts" has found expression in the institution of legal proceedings against the anthracite coal companies. Gold to the amount of \$2,000,000 has been engaged to-day for export, bringing the total to date up to \$12,400,000. The weekly report of the Bank of France shows the result of this gold movement. The Bank of England's report is not essentially different from that of last week.

The Government crop report for May was somewhat more favorable than had been expected, and crop news from other sources are encouraging. On these reports wheat has de-clined rather sharply, but the effect, if any, in the security markets is hardly perceptible.

As noted above, the money market shows a hardening tendency, call loan rates having reached $3\frac{1}{2}\%$ to-day. This is doubtless owing to gold exports, to the approaching halfyearly settlements, and to the expected withdrawal of Government deposits from the banks. The latter, however, will be largely offset by the redemption of maturing Government 4s if presented.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from $1\frac{3}{4}$ to $3\frac{1}{2}\%$. To-day's rates on call were $2\frac{1}{4}@3\frac{1}{2}\%$. Prime commercial paper quoted at 5@6% for endorsements

and $5\frac{1}{2}@6\%$ for best single names. The Bank of England weekly statement on Thursday showed an increase in bullion of £229,364, and the percentage of reserve to liabilities was 46.96, against 46.90 last week.

The discount rate remains at 4% as fixed April 25. The Bank of France shows an increase of 38,350,000 francs in gold and 200,000 francs in silver.

NEW YORK CITY CLEARING-HOUSE BANKS.

	1907 June 8.	Differences from previous week.	1906. June 9.	1905. June 10.
	\$	\$	\$	\$

a \$31,661.700 United States deposits included, against \$31,613,200 last week and \$16,672,700 the corresponding week of 1906. With these United States deposits eliminated, the surplus reserve would be \$13,895,950 on June 8 and \$20,685,750

Note.—Returns of separate banks appear on the preceding page.

Foreign Exchange.-The market was quiet though generally firm this week and one feature was the absence of gold engagements for shipment until Friday, when arrangements were made for the export of \$2,000,000 to Paris on Saturday. To-day's (Friday's) nominal rates for sterling exchange were 4 841/2 for sixty day and 4 871/2@4 88 for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8370@ 4 8380 for long, 4 8710@4 8715 for short and 4 8755@4 8765 for cables. Commercial on banks 4 8345@4 8355 and documents for payment $4\ 82^{3}4\ @4\ 8410$. Cotton for payment $4\ 82^{3}4\ @4\ 8355$ and grain for payment $4\ 84\ @4\ 8410$. To-day's (Friday's) actual rates for Paris bankers' francs were $5 19\frac{3}{8}$ ($65 18\frac{3}{4}a$ for long and $5 16\frac{1}{4}$ ($65 15\frac{5}{8}h$ for short. Germany bankers' marks were $94 9-16\frac{945}{8}$ for long and $95\frac{1}{4}d\frac{95}{4}$ for short. Amsterdam bankers' guilders were $40 33\frac{940}{5}$ for short. Exchange at Paris on London to-day 25 f. 14c.; week's range 25f. 141/2c. high and 25f. 14c. low.

premium. Charleston selling \$1 per \$1,000 premium. New Orleans bank 10c. per \$1,000 premium; commercial 20c. per \$1,000 discount. Chicago, par. St. Louis 20c. per \$1,000 premium. San Francisco, par.

State and Railroad Bonds.—Sales of State Bonds at the Board are limited to \$152,000 Virginia 6s deferred trust receipts at $26\frac{1}{2}$ to 28.

No change worthy of note has taken place in the character or tone of the market for railway bonds. There has been a little more activity in the Japanese issues, but otherwise the market has continued to be exceptionally dull and featureless. The tendency of prices, where changes have occurred, has been towards a lowel level.

United States Bonds.—Sales of Government bonds at the Board include \$12,500 2s coup., 1930, at 105½; \$8,000 4s coup., 1907, at 1007%, and \$500 4s reg., 1925, at 129¼. The following are the daily closing quotations; for yearly range see third page following.

* This is the price bid at the morning board; no sale was made.

Railroad and Miscellaneous Stocks.-In the stock market business continues dull and the tendency of prices has been steadily downward. Fluctuations have been much narrower than usual until to-day, however. In some cases net changes are limited to fractions, but there have been few exceptions to the general tendency mentioned. Of a list of 28 active issues, 26 are lower and only 2 higher than last week.

Reading and Union Pacific, besides having been the most active issues, are exceptional in having covered a range of over 8 points and 7 points respectively; both close within a fraction of the lowest. Interborough-Metropolitan has continued weak, closing over 2 points down. New York Central, North Western and Erie have been relatively strong features.

The copper stocks have lost a part of their recent advance, Amalgamated and "Smelters" showing a decline of about 5 points. Air Brake declined 6 points and recovered fractionally. Steel common is down a point and the preferred somewhat less

For daily volume of business see page 1419.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

Outside Market .- The market for unlisted securities suffered a reaction from the improvement noted last week, all departments being affected by the weakness on the Stock Exchange. Business has been dull and the tone of the market heavy. Nevada gold mining stocks attracted considerable attention. Chicago Subway was a salient feature in the dealings among the specialties, various rumors being afloat concerning the company. The stock, after moving up from 20 to $21\frac{1}{2}$, jumped to $25\frac{1}{4}$ and to-day to $25\frac{1}{2}$. It broke to 23 but rallied and closed at 245%. Manhattan Transit was also conspicuous for an advance from 57% to 7, but dropped back finally to 534. Havana Tobacco common advanced from 11% to 13½ and the preferred from 18 to 19, and back to 17. N. Y. & Cuba Mail S.S. rose from 24% to 28, but sank to 26. Standard Oil from $519\frac{1}{2}$ fell to $517\frac{1}{4}$ then moved up to 520. It subsequently reacted to 511. Waterbury Company preferred declined from 40 to 391/4, advanced to 401/2, and sold down to-day to 40. Western Ice moved up from $33\frac{3}{4}$ to 35 and closed to-day at $34\frac{1}{2}$. Trad-ing in copper shares was light. Boston Consolidated Copper from $25\frac{3}{4}$ sank to $23\frac{3}{4}$. Butte Coalition advanced a point to $25\frac{1}{8}$ but subsequently receded to $23\frac{3}{4}$. Davis-Daly Estates moved up fractionally to 13, dropped to 11 and recovered to 12. Douglas Copper fell half a point to $9\frac{1}{2}$ in the early dealings, but then sold up to $10\frac{3}{4}$, easing off to $10\frac{3}{8}$. Greene Cananea advanced from $15\frac{1}{8}$ to $16\frac{7}{8}$, sank back to $15\frac{1}{8}$ and ends the week at $15\frac{1}{2}$. United Copper common, Niniszing after advancing from $68\frac{3}{4}$ to 69 ran down to 64. Nipissing declined from $12\frac{1}{4}$ to $11\frac{3}{8}$, closing to-day at $11\frac{1}{2}$. Micmac was conspicuous for its activity and strength, advancing from 334 to 51/2.

The week's range for exchange rates follows:

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the street railways are brought together separately on a subsequent page.

On Oct. 1 1906 the last payment of \$68,000 on our consolidated car trust with the Merchants' Trust Co. was made, closing up this trust. At the beginning of the year we still had 500 cars to equip with air brakes, which have now all been equipped out of earnings. Improvements.—To fill up a trestle near Saxton it was found necessary to build a concrete arch, which is now completed, and the trestle will be filled up at once. This, with the change of line at Hummel Station, which is about 4 miles long—a change made to avoid two dangerous and expensive trestles as well as several grades—will remove the last trestle from the main line. The contract for the change of line at Hummel has been let and the contractors expect to complete the work in six months. Furnaces, The Saxton Furnace, which has been idle since December 1903, was last September sold to Joseph E. Thropp of Everett, Pa., who is making an effort to have it placed in running order as soon as possible. This plant should yield quite a revenue to your company when put in opera-tion. Your company was a stockholder as well as a creditor of the Saxton Furnace Co., whose estate has been closed out through the United States Bankruptcy Court, and a settlement in full was made in December last, and you received about 25 % of your total investment in the property The Colonial Iron Co.'s furnace at Riddlesburg and Mr. Thropp's furnace at Everett, were in full blast during the year with the exception of two months lost by the latter while making repairs. As your company was a stockholder in the Colonial Iron Co. to the extent of 250 shares, it was con-sidered wise to accept an offer for the sale of this stock to H. H. Adams Jr. at \$120 per share, thus closing out as a stockholder in manufacturing plants along the line. Water Contract.—An agreement was entered into with the Saxton Water Co. by which they are to furnish us with all the water used in and about Saxton, and your company will build a new reservoir and lease it with plpes, &c., to the Saxton Water Co. Wage

Mages.—An advance of 5.5 in wages was made to an employees, enertive Dec. 1 1906. *Maintenance.*—The property has been maintained in excellent condition. 1,0511/2 tons of new S5-lb. steel rails were laid, and 21,467 cross-ties were put in the track during the year.

Huntingdon & Broad Top Mountain Railroad & Coal Co.

(Report for Fiscal Year ending Dec. 31 1906.)

President Samuel Bancroft Jr. says in substance:

General Results .- The year shows a small carning on the common stock,

General Results.—The year shows a small carning on the common stock, but no dividend was declared thereon, as it was deemed wise to make con-templated improvements, which, when completed, should show brighter prospects for a continued dividend on this stock than have ever existed in the history of the company. The coal shipments aggregated 1,938,257 tons, an increase of 134,520 tons over the previous year. Of the total shipments, 833,817 tons origi-nated in the Broad Top region, an increase of 60,296 tons, and 1,104,439 tons in the Cumberland region, an increase of 74,223 tons. This shows a steady increase in the shipments from our own region in the last three years. Equipment—New Car Trusts.—In April an order was placed for 500 steel hopper-bottom coal cars of 100,000 lbs. capacity. A car trust for this equipment was placed with Drexel & Co. and the Philadelphia Trust, Safe Deposit & Insurance Co. on a 15-year basis a at $4\frac{1}{2}$ % rate, for \$500,000. In September last we purchased 100 100,000-lbs.-capacity steel hopper-bottom coal cars from the Henrietta Coal Co., paying for them out of the receipts of the sale of old cars, no car trust being necessary. When the remaining cars included in the aforesaid car trust are received, our coal car supply will be in condition to take care of all our traffic. We still have more than 100 of wooden cars for sale. more than 100 old wooden cars for sale.

..303,111,786 258,546,471

Total _____303,111,786 258,546,471

a Includes the following non-convertible debentures: "Two-year debentures, due 1908, \$\$.320.000; two-year debentures, due 1909, \$1,500,000; three-year deben-tures, due 1910, \$3.550.000; four-year debentures, due 1911, \$5,000,000; five-year debentures, due 1912, \$8.800,000.

below. The following balance sheets of April 30 1907, furnished to the New York Stock Exchange, show the condition of the parent company and its trolley subsidiary, the Consolidated Railway Co., shortly before their merger, which took place on June 1. The Consolidated Railway Co. recently purchased the property of the New England Navigation Co., the steamship company whose stock was all owned by the N. Y. N. H. & H. RR., and for that purpose increased its share capital from \$10,000,000 to \$30,000,000. This last amount was all held by the N. Y. N. H. & H. RR. and on June 1, when it was exchanged dollar for dollar for the shares of the parent company, the shares issued therefor became a treasury holding of the N. Y. N. H. & H. RR., and so available for the acquisition of the stock of the Boston & Maine under the pending plan (V. 84, p. 1367) or for other purposes.

Comparison of the latest statements furnished to the New York Stock Exchange with the official reports as of June 30 1906 show that since that date the end of the last fiscal year, the following additional securities (bonds and debentures) have been issued and are now outstanding.

New York New Haven & Hartford-Bonds and Debentures Issued since June 30 1906.

Philadelphia Electric Company.

(Report for Fiscal Year ending Dec. 31 1906.)

President Jos. B. McCall, under date of April 10, says:

Trestdent Jos. D. McCall, Under date of April 10, says: Reduction in Rates—Increased Business.—On Feb. 1 1906 we reduced our 15-cent overhead, alternating current districts to a unit basis of 10 cents per kilowatt -hour; applied the existing scale of discounts to the new base rate, adopted special discounts for residences and a further discount of 10% in all districts for consumers using their full installation of light or power on an average of two hours per day. As is generally known, the price for city lighting was also reduced for the year 1906. The total reductions to the consumers and the city, based upon the average revenue for the year, amounted in the aggregate to \$369,595. Notwithstanding this, the revenue from the sales of current increased \$279,374 or about 7% greater than for the year 1905, the balance of increase in gross earnings being from merchandise sales and other sources. sales and other sources.

Note.—The Washoe Company shows net receipts of \$456,190, as against \$356,164 in 1906, but improvements absorbed \$723,163, against \$532,883 in 1906, leaving an apparent deficit of \$266,973, against \$176,719.

Montreal Light, Heat & Power Company.

(Report for Fiscal Year ending April 30 1907.)

The report of President H. S. Holt, presented at the annual meeting on Jan. 5, says in substance:

General Results.—The earnings for the year show an increase over the pre-vious year of \$267,388 gross, and \$162,096 net, which is considered satis-factory in view of the continued increase in cost of material and labor. There have been declared four quarterly dividends of $1\frac{1}{4}$ % each, amounting to \$850,000, leaving a balance of \$590,582, which, added to the surplus of \$901,158 brought forward from last year, brings the surplus to \$1,491,740 out of which appropriations have been made to the amount of \$386,892 as follows: as follows:

Depreciation, renewals, etc_\$255,000 | Contingent account______ \$50,000 Insurance fund ______ 56,892 | Suspense account ______ 25,000

p. 1055

The object of the suspense account (now aggregating \$76,338) is to pro-vide for damage suits, adverse litigation, etc. Bonds.—There were issued during the year \$447,000 4½% bonds to repay the company 75% of the expenditure made during the year for exten-sions in the gas and electric departments. Owing to the depressed condi-tion of the bond market throughout the year, the sale of these bonds has been withheld and they are at present in the treasury. Additions, Etc.—During the year the company has completed a dam on the Richelieu River at Stc. Therese for storage purposes and also at the same time to drown the rapids at that point with a view to obviating the trouble at the Chambly plant from frazil ice. During the past winter the dam has fully demonstrated its value. The company has added to Queen Street Station a 2,000 H. P. turbine unit, and now has available at this and its other steam stations a total capacity of 8,000 H. P. Your directors advise that additions be made to your steam plants for reserve purposes from time to time proportionate to the increase in the amount of hydraulic power developed, to provide against interruptions and insure its customers a continuous service.

the increase in the amount of hydraulic power developed, to provide against interruptions and insure its customers a continuous service. The contractors for the Soulanges development (see V. 83, p. 216; V. 82, p. 4436) have not made the progress anticipated, but the work is being rushed, and it is fully expected that the development will be completed and the power therefrom available for the period of the maximum demand during the forthcoming winter. Your directors contemplate extensive additions in the carbonizing and storage plants of the gas manufacturing department to provide for the in-creased demand being made for gas. It will take two years to complete these additions.

these additions

Our new office building is nearly completed and will shortly be occupied. The increase in the business continues to be most satisfactory, the following additions having been made during the year:

Electric Departmen	11	1	Gas	Departr	nent		
Incandescent lamps	connect	- 41,655	Meters	instal	led		5,747

Columbus & Hocking Coal & Iron Company.

(Twenty-fourth Annual Report ending March 31 1907

President N. L. C. Kachelmacher says in substance:

Turning Point.—The fiscal year just ended will be referred to in future as the turning point in the company's affairs, and the company's operations will not, as in the past, be limited to coal alone, but divided between coal and clay

will not, as in the past, be limited to coal alone, but divided between coal and clay. *Coal.*—We have met many difficulties. First the prolonged strike, which stopped the company's earning power for about three months; then severe floods: but although our mines were out of operation for about four months, our tonnage totaled up to nearly as much during the twelve months of the previous year, and the net results show improvement over 1905-06. This is due to the improved physical condition and the better equipment of the property. While the company's physical condition was formerly about the poorest to be found in the Hocking Valley, there is now none in this section in better shape to get coal out as profitable. The earnings of the past year by no means represent the actual net progress of the year. The operations in our great Kinkald field have progressed favorably, and we have decided to make another opening which will materially increase our Kinkaid output. The operations at our second largest field (Doanville) have also proven satisfactory, and this territory is constantly improving in both output and in the quality of its coal. The company owns there a coalfield of much greater extent than has been estimated. Our secondary operation. Until recently we encountered considerable quantities of sul-phur in our operations in this mine, but we have now gotten through the sulphur pockets, and have a large field ahead of us in that territory. Our smaller operations are working successfully, and we have added another mine to our active list during the past year, upon which work had been dis-continued, though excellent coal still remains unmined. In spite of the fact that our coal operations are in splendid shape, there is a great deal of important work still ahead of us in this department. We have a number of unexplored fields to investigate and many improvements to make everywhere; but these are questions are expenditure and time. *Clay.*—Our new great enterprise, the face brick plant,

Electric Properties Company.

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET ROADS.

Alabama Terminal RR., Birmingham, Ala.-\$2,500,000 Bonds Sold.-See Atlanta Birmingham & Atlantic Ry. below.

Anthracite Coal Roads.—Government Brings Suit.—The suit of the United States Government against the anthracite coal-carrying railroads charged with carrying on a monopoly in the production, transportation and sale of hard coal. was filed on June 12 in the United States Circuit Court in Philadelphia. The suit is the result of the investigation started by the Department of Justice about a year ago. (Compare V. 82, p. 927.) The following statement was made public at the Department of Justice on June 11:

The petition to be filed to-morrow by the Government in the United States Circuit Court at Philadelphia is aimed at the anthracite coal monop-oly. The Reading Company (a holding corporation), the Philadelphia & Reading Ry. Co., the Lehigh Valley RR. Co., the Delaware Lackawanna & Western RR. Co., the Central RR, of New Jersey, the Erle RR. Co. and the New York Susquehanna & Western RR. Co., comprising all the roads that tap the anthracite regions save the Pennsylvania, the New York Ontario & Western and the Delaware & Hudson (which last does not extend to tidewater), are made defendants, together with their subsidiary coal-mining companies. As yet no evidence of sufficient probative force to connect the three last-named railroads with the alleged unlawful combina-tion and monopoly has been found. Should such evidence be forthcoming in the progress of the trial they may and of course will be joined with the other defendants.

In the progress of the trial they may and of course will be joined with the other defendants.
In brief, the petition recites that the defendant railroads control all the means of transportation between the anthracite mines and tidewater except the lines of the Pennsylvania RR. and the New York Ontarlo & Western Ry., which reach only a limited number of colleries; that they transport annually about 78% of the total anthracite tonnage; that in their own name or through coal companies whose capital stock they own they control about 90% of all the anthracite deposits and produce about 75% of the annual supply; that independent operators, although owning probably little more than 5% of the anthracite deposits, yet produce about 20% of the annual supply, which would be sold in competition with the output of the defendants were it not for the restraints imposed by the latter.
The petition then charges that the defendants have conspired to silence competition among themselves in the transportation and sale of coal and to prevent the sale of the independent output in competition with their own, thereby establishing a monopoly, and in support of this general allegation it specifies:
First—That the defendant railroads agreed among themselves upon a uniform contract to be entered into by their respective lines under which the railroads would be able to control the sale of the independent output, and that by virtue of their control of all the means of transportation from the anthracite mines to tidewater, save the lines of the Pennsylvania RR. Co. and the New York Ontario & Western Ry. Co., the defendant railroads were able to force and did force the independent operators along their lines into making these contracts.

(b) That the Eric RR. Co. has exchanged shares of its own capital stock for a majority of the shares of the New York Susquehanna & Western RR. Co., a competing line, thereby uniting under a common source of con-trol the two competing railroad companies and their subsidiary coal companles.

(c) That the Reading Company, which already held all the shares of the Philadelphia & Reading Ry. Co., has exchanged its own shares and bonds for a majority of the shares of the Central RR. Co. of New Jersey, a competing line, thereby uniting under a common source of control the two competing railroads and their subsidiary coal companies, which together transport about 33 % of the annual anthracite tonnage and control about 60 % of the anthracite deposits.
(d) That twice in recent years the defendants have defeated the construction of projected independent railroads from the mines to tidewater which would not only have introduced competition into the transportation of anthracite coal, but would have permitted the output of the independent operators to be sold in the markets in competition with that of the de-

operators to be sold in the markets in competition with that of the de-

ment will produce a revenue beyond any that has as yet been secured from any of the company's operations since its organization about 25 years ago.

operators to be sold in the markets in competition with that of the car fendants. The petition prays generally that the defendants be enjoined from further carrying out their combination and specifically that the above-described contracts be canceled, and that the mergers between the Erie RR. Co. and the New York Susquehanna & Western RR. Co. and their coal com-panies and between the Philadelphia & Reading Ry. Co. and the Central RR. Co. of New Jersey and their coal companies be dissolved.—V. 84, p.929.

Atlanta Birmingham & Atlantic RR.—New Stock.—The shareholders voted on June 5 to increase the capital stock from \$24,351,400 to \$35,000,000, of which \$10,000,000 will be preferred stock and \$25,000,000 common stock. The "Atlanta Constitution" of June 9 says: "Of the new stock, it is understood \$2,000,000 will be issued at once and will be negotiated, along with bonds, for the purpose of completing the road."

Bonds Offered-Official Statement.-H. W. Poor & Co., New York and Boston, having purchased \$5,000,000 first mortgage 5% gold bonds, of which a large portion has been sold, are offering the remainder at $96\frac{1}{2}$ and interest, yielding $5\frac{1}{4}\%$. These bonds are dated Jan. 1 1906 and are due Jan. 1 1936, but redeemable at 106 and interest upon any coupon date. (Compare V. 84, p. 270; V. 83, p. 35.)

Abstract of Letter from President H. M. Atkinson, dated Atlanta, Ga., May 15 1907.

The main lines of the railroad company are as follows: Brunswick to La Grange, Ga.286.8 m. Fitzgerald to Thomasville, Ga.80.5 m. Waycross to Sessoms, Ga. 26 m. Talladega to Ashland (Ala.div.) 32 m. Present total main line______425.3 miles Main line under construction______223.5 miles

Total main line upon completion_____648.8 miles

Total main line upon completion______648.8 miles The lines of the company are being extended from La Grange, Ga., northwesterly to Birmingham, Ala., 168½ miles, and from a connection with this line to Atlanta, Ga., about 77 miles additional. The entire section from La Grange to Birmingham is under construction and well advanced. The bridge over the Chattahoochee River was recently completed, and track-laying is now proceeding rapidly west of the Chattahoochee River in the direction of Birmingham. We estimate that we will have a connected through line in operation to Talladega, Ala. (75 miles from Birmingham), by Oct. 1 1907, and to Birmingham, Ala., during 1908, under average weather and labor conditions. Work on the Atlanta line is being rapidly pushed, and our engineering department is consider that we will have our rails into Atlanta by Oct. 1907. What we consider the most complete railroad shops in the South have been built for the railroad company at Fitzgerald, Ga., and are now in operation.

Fitzgerald, Ga., and are now in operation. The road is being constructed in accordance with the highest standards, with 80-lb. rail. The maximum curvature is six degrees. The grades on the first 200 miles, from Brunswick to Montezuma, are now being reduced

the first 200 miles, from Brunswick to Montezuma, are now being reduced to .6 of 1% maximum, and the grade on the balance of the line will be 1% maximum. Passing tracks capable of holding 50-car trains are being put in every four miles. After five years of continuous work the acquisition of our Atlanta ter-minals has been completed. This Atlanta terminal property comprises about 200 acres, and is sufficient for all purposes, yards, shops and city freight and passenger stations, and furnishes connections with all roads entering Atlanta. It also comprises a large amount of property which is well suited for the location of industries. This terminal property has re-cently been conveyed to the Georgia Terminal Co. The entire capital stock well suited for the location of industries. This terminal property has re-cently been conveyed to the Georgia Terminal Co. The entire capital stock of the Georgia Terminal Co., \$1,500,000, will be owned by the Atlanta Bir-mingham & Atlantic RR. Co., and subject to the lien of its first mortgage bonds. Work on the Atlanta terminal is being pushed rapidly and our con-tract calls for its completion before the main line is completed to a connec-tion with it. (\$3,000,000 first mortgage bonds of the Georgia Terminal Co. have recently been sold as below stated.—Ed.) Complete terminals have been acquired in Birmingham and the Bir-mingham district. These terminals comprise local freight and passenger terminals in Birmingham, ample property for yards, shops and also a belt railroad covering the district and running completely through the Pratt coal field. The Alabama Terminal RR. Co. has been organized and will hold the title to the Birmingham terminals: the entire capital stock, \$1,500,-000, will be owned by the Atlanta Birmingham & Atlantic RR. Co. and will

hold the title to the Birmingham terminals: the entire capital stock, \$1,500, 000, will be owned by the Atlanta Birmingham & Atlantic RR. Co. and will be subject to the lien of the Atlanta Birmingham & Atlantic first mortgage bonds. (\$2,500,000 first mortgage bonds of the Alabama Terminal Rall-road Co. have recently been sold. See below.—Ed.) Brunswick, the Atlantic Ocean terminal, has a fine harbor. The Atlanta Birmingham & Atlantic RR. Co. is in strong position for handling business through its ownership of a belt railroad and terminal property, ample for yards, deep water terminals and city freight and passenger stations. The water terminal has over half a mile of deep-water frontage and comprises about 100 acces of land. The construction of two large plers 700 feet long and 400 feet long respectively also four large warehouses on this property, is completed.

and 400 feet long respectively also four large warehouses on this property, is completed. Interests friendly to the railroad company organized the Brunswick Steamship Co. early in 1906. Four freight steamers of 5,000 tons dis-placement, the Satilia, Ogeechee, Ossabaw and Ocmulgee, were completed during the past six months and are now in regular service. So much busi-ness was offered that we have recently placed a contract for a fifth steamer of the same type, to be called the Altamaha, to be in service during the current year. Work on our passenger steamer, the Brunswick, was completed in December, and she has been in regular service from New York to Bruns-wick and Havana since Jan. 5 1907. This enables the making of continuous water and rail rates from the East to the Southeast, and through connections to the West, and vice versa; also rates to and from Havana, through New York and Brunswick. Operations of the Brunswick Steamship Co. are estimated as follows: Gross earnings, \$1,040,000; total expenses per annum, including interest and depreciation, \$835,880; net earnings, \$204,-120.

annum, including interest and depreciation, \$833,880; net earnings, \$204,-120. Interests friendly to the railroad company have organized the Birming-ham Iron Co. (V. 83, p. 40) and the Birmingham Coal Co. The iron com-pany owns over 30,000 acres of the best coal lands, and several thousand acres of the best ore lands in the Birmingham district, an operating furnace near Birmingham and also extensive coal mines and coke ovens. This company is manufacturing about 4,000 tons of iron per month out of its own raw materials. Improvements are now being made which will in-crease the capacity to about 7,000 tons of iron per month. The Birming-ham Coal Co. owns about 7,000 acres of additional coal lands adjoining the coal lands of the Birmingham Iron Co. Approximately 1,000 tons of coal per day is being mined from these lands. This coal is consumed by the Birmingham Iron Co. Plans have been completed and active work has been started for the construction of new mines on the lands of the com-pany, with a capacity of 3,000 tons of coal per day. the purpose being to render the railroad company itself, the local territory dependent upon it, and the Brunswick Steamship Co., independent so far as their coal supply is concerned. The coal and iron companies are now earning at the rate of \$300,000 net per annum. Plans are now being made for consolidating he Birmingham Iron Co. and the Birmingham Coal Co. (See bond sale below.) The present 425.3 mile of main line in operation are earning a substantial below.)

The present 425.3 mile 5 of main line in operation are earning a substantial surplus over operating expenses and fixed charges, and are doing this purely as a local road. It is estimated that the system when completed will be approximately 648.8 miles of main line; also that the total bonded debt will be about \$31,000 per mile, including terminals, equipment, shops, &c. All terminal properties are covered directly by these bonds, except the terminals at Atlanta and Birmingham, which are owned respec-tively by the Georgia Terminal Co. and the Alabama Terminal RR. Co., whose entire capital stock (\$1,500,000 each) will be subject to the lien of these bonds. (The underlying first mortgage bonds of the two terminal companies have lately been sold as stated in a following paragraph.—Ed.) When the road has had time to build up its business the earnings per mile should exceed \$12,000 gross, showing per annum: Estimated gross earnings_\$7,785,600 [Estimated net earnings...\$2,335,680 Estimated oper. expenses at 70% (includ. taxes)_ 5,449,920

2,922 issued May 3, direct Chief Traffic Officer of the Board Hardwell to inquire and report what new locomotives and other rolling stock, appliances and equipment the company has ordered for use on its lines, and when the same may be reasonably expected to be ready for use, and what additional locomotives and equipment and facilities for repairing and keeping the same in proper order can be obtained within six months.

The commission finds that at the present time the company has 168 engines of all classes to operate 3,000 miles of road, 23 of which are under-going repairs; 6,095 of its own cars and 5,008 foreign cars, or a total of 11,103 cars; that for 30 days preceding the report made to it the road moved an average of 39,000 bushels of wheat a day, and that at the same rate it would take until Nov. 25 next to move the balance of the crop on its lines. The company, it is said, "should have at least twice the power it has to operate its existing lines in anything like a satisfactory manner."—V. 84, p. 1247, 1181. 1247, 1181.

Canandaigua Southern (Electric) RR.-Mortgage Authorized.-The New York State Railroad Commission has authorized this company to make a mortgage for \$2,000,000. An Albany paper says:

This company was recently authorized to build an electric⁷street surface railroad between Canandaigua, Ontario County, and Atlanta, Steuben County. In its petition for a mortgage the company states that it has filed certificates of extension to build from Atlanta to Wayland, Steuben County, 6¾ miles; from Atlanta to Lake Salubria, 1 mile southeast of Bath, Steuben County, 21½ miles, and from Canandaigua to Palmyra, 14 miles.

Central New England Ry.—Consolidation Approved.—The New York State Railroad Commission has consented to the consolidation of the Central New England Ry. Co. and the Poughkeepsie & Eastern Ry. Co. (V. 84, p. 804.)-V. 84, p. 693, 449.

Chesapeake & Ohio Ry.-Notes Offered.-Potter, Choate & Prentice are offering, at par and interest, \$500,000 of 1-year 6% coupon gold notes, dated June 28 1907 and due June 28 1908. The total issue is \$1,200,000 and the notes are a direct obligation of the Chesapeake & Ohio Railway Co. Compare V. 84, p. 1365.

Chicago Electric Traction Co.—Sale Ordered.—Judge Kohlsaat in the United States Circuit Court at Chicago has ordered the foreclosure sale of this property.-V. 82, p. 217.

Chicago Subway Co.-New Interests.-See Illinois Tunnel Co. below.-V. 84, p. 1366, 220.

Chicago & Western Indiana RR.-Consolidation of 1882 Legalized.-Governor Deneen of Illinois recently signed House Bill No. 777 legalizing the consolidation in 1882 of the Chicago & Western Indiana Belt Ry. and South Chicago & Western Indiana RR., two short belt lines, with a view of lifting a possible cloud from the general and consolidated mortgage bonds, which have been issued since the merger. The following is from an authoritative source:

The law, in order to be constitutional, is general in form. There was an irregularity about the consolidation. The intention was to consolidate the Chicago & Western Indiana Belt Ry, and the South Chicago & Western Indiana RR., and thereafter to merge the two consolidated roads into the Chicago & Western Indiana RR. Co.; but instead of doing this the three companies were, through an error on the part of the attorneys, all consolidated at once. This was not legal, and it was to correct this error that Bill 777 was introduced and passed.—V. 84, p. 390, 210.

Colorado & Northwestern RR.—Receivership.—This 26mile road has been placed in the hands of its Secretary and Treasurer, W. B. Hayes, as receiver, upon application of the United States Trust Co. of New York, trustee under the \$1,000,000 mortgage, the interest upon which is in default. Col. S. B. Dick of Meadville, Pa., who recently died, was the President of the company and owned most of its stock and bonds. See V. 83, p. 687.

Corvallis & Eastern RR.—Sale.—A press despatch from San Francisco dated June 13 states that papers were signed on that day providing for the sale of the road to the Southern Pacific, the consideration being reported at about \$4,000,000. The line extends from Yaquina to Idanah, Ore., 142 miles.-V. 77, p. 2159.

Dayton Lebanon & Cincinnati RR.-Successor Company. -See Dayton Lebanon & Cincinnati Railroad & Terminal Co. below.-V. 84, p. 995.

Dayton Lebanon & Cincinnati Railroad & Terminal Co.-Successor Company.—This company was incorporated under the laws of Ohio on May 31 with \$1,000,000 capital stock, the incorporators including Frederick H. Goff and others, as successor, of the Dayton Lebanon & Cincinnati RR., recently sold under foreclosure and bid in by J. F. Morley for E. G. Tillotson, Vice-President and Manager of the Cleveland Trust Co.-V. 84, p. 995.

Net earnings per annum_\$2,335,680 Balance_____\$1,330,040 The above estimates have been carefully calculated, and it is believed that the results stated will be exceeded.

Construction Company-Bonds Recently Sold.

Construction Company—Bonds Recently Sold. The Atlantic & Birmingham Construction Co. has a capital of \$8,000,000, and is building the extensions of the Atlanta Birmingham & Atlantic RR. to Birmingham and Atlanta, as described above. Four million dollars of the capital of the construction company has been paid in, and the bal-ance of \$4,000,000 is subject to call at any time, 20% having been called June 14 1907. The construction company sold about a year ago \$8,000,000 4-year 5% notes (V. 83, p. 35), and has recently sold: Georgia Terminal Co. bonds (see above) \$3,600,000 Alabama Terminal RR. Co. bonds (see above) \$2,500,000 Birmingham Coal & Iron Co. bonds (see above) 2,000,000 Atlanta Birmingham & Atlantic first mortgage bonds 2,000,000 This completes the financing of the enterprise and provides the funds necessary to finish the extensions to Birmingham and Atlanta; will pay for the steamship, a substantial amount of equipment, shops and coal, and iron purchases and improvements; will complete the water terminals at Brunswick, pay for additional freight steamer and many other items.— V. 84, p. 1365. Birmingham (Ala.) Railway Light & Derver Co.

Birmingham (Ala.) Railway, Light & Power Co.-New Mortgage.-The shareholders have authorized a mortgag to secure \$25,000,000 bonds, to provide for the retirement of the underlying bonds at or before maturity and for future extensions and improvements, additions, &c.-V. 84, p. 803.

Canadian Northern Ry.-Additional Motive Power, &c.,

Delaware & Hudson Company.—Cornelius Vanderbilt on Board.—Cornelius Vanderbilt has been elected a member of the board of managers, to succeed Frank E. Smith, of the law firm of Conway, Weed & Smith, local counsel, who on May 14 took the place of Alexander E. Orr temporarily.—V. 84, p. 1307, 1247.

Frederick (Md.) Interurban Ry.—Consolidation.—The "Financial Bulletin" of Philadelphia on April 2 published the following:

the following: All of the \$1,000,000 stock has been subscribed. The company will also issue \$1,000,000 bonds. The company was incorporated for the purpose of conself dating the Frederick & Middletown Electric Ry. Co. (V. 81, p. 1100) and the Jefferson & Braddock Heights Co., the latter road having been just completed. The incorporators are James A. Ingram Jr. and Robert P. Graham, Baltimore: Thomas H. Haller and Richard P. Ross, Frederick, and Emory L. Coblentz of Middletown. Organization will take place next week and the consolidation will go into effect hamediately after the organization. The Interurban Company will continue to operate the Myersville & Catoetin Ry., which is now operated by the Frederick & Middletown Company. This line runs between Middletown he liw y Co. An extension from Jefferson to Erenswick is also under consideration. Frederick & Middletown Electric Ry., Maryland.—See

Frederick & Middletown Electric Ry., Maryland.-See Required.-The Board of Railway Commissioners, by order | Frederick & Interurban Ry. above.-V. 81, p. 1100.

Georgia Terminal Co., Atlanta, Ga.-\$3,000,000 Bonds Sold.—See Atlanta Birmingham & Atlantic Ry. above.

Henderson (Ky.) Traction Co.—Successor Company.— This corporation was organized at Henderson, Ky., on Apr. 14 with \$150,000 authorized capital stock as successor of the Henderson Street Ry. recently foreclosed and has filed a mortgage to the Ohio Valley Banking & Trust Co., of Hen-derson, Ky., as trustee, to secure an issue of \$150,000 5% 20-year gold bonds. The Cincinnati papers published the following list of directors, &c.:

following list of directors, &c.: Henry P. Barret, President; J. Henry Lyne, Vice-President; Charles F. Dallam, Secretary and Treasurer; and B. G. Witt, of Hnderson; C. C. Tennis, of Pittsburgh; and Charles A. Hinsch and W. F. Boyd, of Cincin-nati. Mr. Hinsch headed the bondholders' committee. [The capital stock of the reorganized company is \$150,000, of which \$55,000 will be treasury stock. Bonds will be issued at once to the extent of \$95,000 and, with an equal amount of stock, will be given to theold bondholders in exchange for old securities (we understand, each \$1,000 old bond deposited, was exchangeable for \$55,000 will be issued at once for improvements. The embarrassment of the old company was mainly due to the misappropriation by broker A. L. Rick of \$70,000 receipts from the sale of bonds. [The new bonds are dated April 15 1907 and mature April 15 1927, but are subject to call on April 15 in 1912, 1917 and 1922 at 105. Interest payable Oct. 15 and April 15 at office of trustee. Denomination \$100, \$500 and \$1,000. Outstanding \$95,000. The \$150,000 stock is all outstanding—par \$100. —Ed.]—V. 84, p. 508.

Interborough-Metropolitan Co., New York.—New Office for President.—The office of the President has been moved from the Park Row Building to the 17th floor of the United States Realty Building, No. 115 Broadway .-- V. 84, p. 1248, 1242.

Kansas City Southern Ry.—Proposed Extension of Syndicate.-Ladenburg, Thalmann & Co., as managers of the syndicate which underwrote the \$5,100,000 5% six-year notes, have sent circulars to the members asking for an extension of the syndicate agreement, which was to expire June 22, until Dec. 22. The "New York Sun" says: "The notes were underwritten at 95 and interest, less an underwriting commission of $2\frac{1}{2}\%$. It is stated that 60% of the notes have been disposed of.—V. 84, p. 1366, 1182.

Lehigh Valley RR.-Dissolution of Syndicate.-The "Philadelphia Ledger" of June 11 said:

The Lehigh Valley collateral trust bond syndicate, organized in October 1905, in connection with that company's acquisition of the Coxe Brothers & Co.'s coal properties, has been dissolved. About 42% of the bonds, it is stated, was disposed of by the syndicate. The collateral trust bonds issued for this purchase amounted to \$19,000,000, of which something like \$10,-000,000 were taken by Coxe Brothers & Co., the balance being taken by the syndicate.—V. 84, p. 1367.

Louisville & Nashville RR.—Listed.—The New York Stock Exchange has listed the \$10,000,000 Atlanta Knoxville & Cincinnati Division 4% bonds, due 1955. (Compare V. 84, p. 1367; V. 80, p. 872.)

Issuance of \$19,160,533 Atlanta Knoxville & Cincinnati Division 4% Bonds (of which \$9,160,000 still held by L. & N. RR. Co.).

Earnings of L. & N.—For nine months ending March 31:

Dividends at the rate now paid, 6% yearly, call for \$2,-700,000 ($4\frac{1}{2}\%$) for the nine months.—V. 84, p. 1367, 749.

Maryland Electric Railways, Baltimore.—Dividend Increased.-The directors on June 10 declared semi-annual dividend No. 2, 2%, payable July 1 to stockholders of record June 21. This increases the annual rate to 4% per annum. Dividend No. 1, paid last January, was only $1\frac{1}{2}\%$. -V. 84, p. 1114, 1052.

Meridian (Miss.) Light & Railway Co.—New Stock.—The shareholders on June 1 authorized the making of an amendment to the charter authorizing an increase in capital stock

mortgage 5% bonds on the road, due Feb. 2 1923.-V. 84, p. 1052, 996.

New York Central & Hudson River RR. - Option on Control of New York Ontario & Western Ry.—The company's option on the controlling interest in the New York Ontario & Western Ry. Co. held by the New York New Haven & Hartford is mentioned below under caption of the last-named company. The stock in question includes \$29,160,000 common (out of \$58,113,982), acquired by the New Haven road at \$45 per share (par \$100), and \$2,200 of the \$4,000 preferred. The N. Y. N. H. & H. issued \$20,759,325 $3\frac{1}{2}\%$ debentures (V. 80, p. 2458) to finance this acquisition and there is some speculation on the Street as to how the Central, in case it exercises its option, will handle the matter.--V. 84, p. 1308, 1248.

New York New Haven & Hartford RR.-Boston & Maine Men as Directors.—The following additional directors are announced, the three last named being directors of the Boston & Maine, and the others, it is understood, assenting holders of that company's stock.

Henry K. McHarg of Stamford, Frederick F. Brewster of New Haven, A. Heaton Robertson of New Haven, Lewis Cass Ledyard of New York, Charles M. Pratt of New York and Richard Olney of Boston.

Trackage over Boston & Albany.—The following has been given out:

Trackage Rights to Albany.—The company, it is announced, has obtained from the New York Central & Hudson River RR., as part, it is understood, of the amicable agreement touching the purchase of the Boston & Malne trackage rights over the Boston & Albany RR., as follows: From State Line, between the New York and Massachusetts State lines, to Albany, N. Y.; between Boston Corners, N. Y., to Chatham, N. Y.; between Pitts-field and North Adams, Mass.; between Springfield, Mass., and State Line and between Ashland and Boston, Mass. The new trackage facilities will give new routes to western and other points, and steps, it is said, will at once be taken to increase the passenger and freight service by way of Albany.

President Mellen is quoted as saying:

President Mellen is quoted as saying: The publication of the fact that the New York New Haven & Hartford RR. has acquired new trackage rights over the Boston & Albany RR. from Albany practically into Boston means that henceforth we are virtually partners with the New York Central in the advantages to be derived from the use of the Albany road. This agreement was reached between Presi-dent Newman of the New York Central and myself some three months ago, at the same time that our plans for the future disposition of the New York Ontario & Western were agreed upon. By this I do not mean that a hard and fast, iron-clad contract was drawn up and signed between President Newman and myself, but that the agreement was put into black and white and initialed by both of us. Compare V. 84, p. 1367. *Earninga Balance Sheet New Scauritice* Soe statement

Earnings-Balance Sheet-New Securities.-See statement of April 30 1907 under "Annual Reports" on a preceding page of this issue.-V. 84, p. 1367, 1242.

New York Ontario & Western Ry.-Additional Bonds.-The New York State Railroad Commission has authorized the company to issue \$1,948,000 additional 4% bonds, secured by the general mortgage of 1905, to provide for additions and improvements on leased lines and for new equipment. This authorization will make \$3,948,000 general mortgage 4s issued and issuable, \$2,000,000 of the bonds having been put out in 1905. The mortgage is limited to \$12,000,000.

Option.—See New York New Haven & Hartford RR. above.—V. 84, p. 932.

Oneida Railway Co.—New Stock for Ally of West Shore RR. -The shareholders will vote June 22 on a proposition to increase the capital stock from \$15,000 to \$2,000,000. The proceeds, it is said, will be used for equipping the West Shore RR. between Utica and Syracuse with the third-rail electric system, the Oneida Railway Co. being an ally of the West Shore.-V. 73, p. 616.

Passenger Fares.—Two-Cent Fare Bill in New York Vetoed. -Governor Hughes on June 11 vetoed the Baldwin bill providing for a rate of 2 cents a mile on all railroads in the State having a mileage of 150 miles or more.

The grounds given are, in a general way, that the proposed rate would probably be unfair and disastrous to many roads; that the Legislature has attempted to provide a remedy for dissatisfaction with existing conditions without previous inquiry; and that the Public Service Commissions which go into office on July 1, will be able to deal with the matter in a satisfactory manner, which it is practically impossible for the Legislature to do. See remarks in "Financial Situation" and V. 84, p. 932, 1248.

The latest information from other States is as follows:

from \$1,000,000 to \$2,000,000, to provide for extensions and additions. See page 58 of "Street Railway" Section .- V. 78. p. 1223.

Michigan Central RR.-Bonds Offered.-Moffat & White and Clark, Dodge & Co., both of New York, this week offered by advertisement at 99 and interest, yielding about 4.05%, the small unsold portion of their block of \$1,500,000 Michigan Central RR. Co., Joliet & Northern Indiana RR. Co. 50-year first mortgage 4% gold bonds, dated July 10 1907, due July 10 1957, which were fully described in last week's issue.--V. 84, p. 1367.

Milwaukee & Northern (Electric) RR.-Merger.-A press dispatch from Manitowoc, Wis., on June S says:

An important electric road and interurban consolidation was consum-An important electric road and interuroan consolidation was consum-mated at Sheboygan Thursday when the Sheboygan Heat, Light & Traction Co. Interests were merged with the Milwaukee & Northern Ry. Co. and the two came under one management. The Milwaukee & Northern recently filed its \$4,000,000 trust deed at Sheboygan, and this, together with the merger with the Sheboygan electric line which had been under consideration for some time past, forecasts the immediate building of the line from Mil-waukee to Sheboygan via Port Washington.-V. 84, p. 1367.

New England Investment & Security Co.—Acquisition.— This company, which holds practically all the street railway properties in Massachusetts, bought in the interest of the New York New Haven & Hartford RR. Co., has arranged to acquire all, or nearly all, of the \$80,900 capital stock of the 10-mile Uxbridge & Blackstone Street Ry. by exchange for its own stock, share for share. There are \$\$0,000 first Wisconsin .--The Senate on June 13 by a vote of 21 to 6 killed the Husting

flat 2-cent fare bill. The Railroad Commission recently made an order fixing a 2½-cent rate on the principal roads (V. 84, p. 868). *Missouri.*—Judge McPherson on June 13 granted the petition of 18 Mis-souri railroads for a temporary injunction restraining the State officials from putting into effect both the maximum freight rate and the 2-cent pas-senger law (V. 84, p. 868).—V. 84, p. 1308, 1248.

Pawcatuck Valley Street Railway.—Reorganization.—The "Boston Herald" of June 1 said:

A reorganization has been effected by a committee of bondholders con sisting of E. P. Shaw Jr., of the Boston & Worcester Street Railway Co.; H. F. Walker, President of the Warren National Bank of Peabody, Mass., and Rufus Coffin of the firm of Rufus Coffin & Co. This railroad defaulted on its interest Nov. 1 1906. It had bonds for \$100,000 first mortgage, \$40,000 second mortgage and capital stock \$75,000. A majority interest of the bonds and stock were owned by W. L. Mauran of the Westerly Light & Power Co., and by an arrangement with the committee the outstanding bonds were canceled and a new mortgage of \$50,000 placed upon the property, with an additional amount of \$14,000 contributed by the bondholders, which money has gone into permanent improvements and is now covered by the new mortgage.—V. 77, p. 2281.

Philadelphia Baltimore & Washington RR.—Consolidation. -Philadelphia advices state that the meeting called for July 31 to increase the company's indebtedness has in view the merger with the company of the allied lines of the Pennsylvania system, including, it is understood, the Philadelphia & Baltimore Central RR., Union RR. of Baltimore, Delaware Maryland & Virginia, Baltimore Chesapeake & Atlantic and Delaware RR.-V. 84, p. 1368.

Poughkeepsie & Eastern Ry.-Consolidation.-See Central New England Ry. above.-V. 84, p. 804, 694.

Puebla (Mexico) Tramway, Light & Power Co.-Bonds Offered.—This company was incorporated in Canada, its authorized capital stock being \$5,000,000. F. B. Mc-Curdy & Co., Montreal, are offering at 90 and interest, carrying a 50% stock bonus, a block of the gold bonds, authorized issue \$6,000,000, issued \$1,850,000. The bonds are dated Jan. 1 1907 and are redeemable on Jan. 1 1937 by means of a sinking fund of 1% per annum, commencing Jan. 1 1912, which may be applied in redeeming the bonds by annual drawings at 105%, or by purchase at or below that price; or the bonds may be redeemed at 105% on or after Jan. 1 1917. Trustee, National Trust Co., Toronto. Interest payable Jan. 1 and July 1 by coupon at Bank of Montreal, Montreal, New York or London, and at the bank's agents in Berlin, Brussels and Basle. The principal is payable in Montreal or in London at the par of exchange. A circular, evidently prepared several months ago, says in substance:

Tranways.—The company has acquired the entire tramways system in Puebla, which is one of the largest cities in Mexico, and has a population of about 150,000. The company's concessions in the city are perpetual, and give the sole right to operate tramways within the city for a term of 50 years, while the suburban franchise does not expire till 1988. The company intends to extend its present mileage (being 16 miles) to a distance of 40 miles, and to convert the whole system into electric traction, begin-ning with the belt line in the city and the suburban line to Chalula. The directors' policy of extension is not to incur heavy expenditure until there is an assured prospect of satisfactory returns.

ning with the beit line in the city and the suburban line to chalula. The directors' policy of extension is not to incur heavy expenditure until there is an assured prospect of satisfactory returns. Electric Lighting.—The company has also acquired the entire electric-lighting plant now operating in the city, and has secured a prolitable and ex-clusive contract for the city street lighting till 1929; and negotilations are now pending for the extension of this contract. The electric-lighting com-pany in 1905 was supplying some 12,000 lamps, from which the net profit was \$70,500 (gold). Upon the ratio of lamps to population in the City of Mexico, there should be a demand for 50,000 lamps in Puebla, and a sale for at least 30,000 lamps may be expected as soon as the same can be installed, which should give a net profit of \$150,000 gold per annum. The company has entered into a contract, on advantageous terms, with the Fortezuela Power Co. for the supply of power up to 2,000 horse-power for 20 years, which ensures a sufficient supply of power. Water Power.—The company has also acquired one of the most valuable water powers in the Republic of Mexico. This power will develop at least 20,000 horse-power in the dry season, and the cost per horse-power for de-velopment will not be over one-half of the average cost of such installations This power is situated at Tuxpangom, in the State of Vera Cruz, near the City of Orizaba, about 80 miles from Puebla. The transmission lines will pass through a country in which there will be a large demand for power in the future, and it is probable that the entire output can be disposed of within a few years. Ecurings.—The transway and electric lighting husiness have not hitherto

a few years.

Earnings.—The tramway and electric-lighting business have not hitherto been operated in an energetic or economical manner, mule traction being employed to operate the tramways; but notwithstanding these unfavorable circumstances, the tramways made a net profit in 1905 of \$25,500 gold and the electric-lighting a net profit of \$70,500; total, \$96,000.

Barnings for 11 Months Ending Nov. 30 1906 (in Gold).

taken, and considerably greater earnings may be expected whenever the results obtained from the present expenditure justify further extensions of the tramways and the development of the company's water-power.

Rochester Syracuse & Eastern (Electric) RR.-New Stock. -The New York State Railroad Commission has authorized the company to increase its common stock from \$3,500,000 to \$6,000,000, making the total capital stock, common and preferred, \$8,500,000.-V. 84, p. 272.

St. Louis & San Francisco RR.-Guaranteed Equipment Notes Offered.-G. H. Walker & Co. and Francis Bro. & Co., both of St. Louis, having sold over one-half of the issue, are offering at prices to yield 6% per annum, by advertisement on another page, the remainder of \$5,074,000 5% equipment notes, direct obligations of the Railroad Company, dated Aug. 1 1907, and guaranteed by the American Car & Foundry Co. These notes will mature in semi-annual instalments on Feb. 1 and Aug. 1 from 1908 to 1917, the first installment being \$262,000 and the last \$244,000. Denomination \$1,000. Interest payable Aug. 1 and Feb. 1. Trustee, St. Louis Union Trust Co. The notes are secured by a first lien on 3,000 box cars (steel underframe), 500 gondola cars and 1,000 stock cars, on which 10% was paid in cash, the remainder being represented by this issue of notes.—V. 84, p. 750, 627. United Traction Co., Albany, &c.-Additional Bonds.-

The directors have authorized the issue of \$859,000 additional first consol. 4½ dated 1904, making \$2,588,000 of the bonds issued or issuable forthwith. The remainder of the authorized issue of \$6,500,000 consols is reserved to retire prior liens.—V. 84, p. 1368, 932.

Uxbridge & Blackstone Street Ry.-Sale.-See New England Investment & Security Co. above.

Western New York & Pennsylvania Traction Co.-Additional Bonds .- The New York State Railroad Commission has authorized the company to issue \$300,000 additional "first and refunding mortgage" bonds. The total amount outstanding will be \$2,474,000. See V. 83, p. 1292.

Wisconsin Central Ry.—Syndicate Extended.—An exchange says:

Brown Bros. & Co., Edward Sweet & Co., G. A. Fernald & Co. and Malt-land, Coppell & Co., composing the syndicate which purchased the major portion of the \$7,000,000 Wisconsin Central bonds a year ago, have extended July 1 1907.—V. 83, p. 1413, 985.

INDUSTRIAL, GAS AND MISCELLANEOUS.

American Ice Securities Co.-Inspection Limited.-The Appellate Division of the Supreme Court, First Division, on June 7 handed down a decision (Justice Scott writing the opinion) limiting the right recently granted to Attorney-General Jackson to examine the company's records, with a view to obtaining information upon which to base an action against the company for violation of the State Anti-Trust laws. Compare V. 84, p. 1184, 933.

laws. Compare V. 84, p. 1184, 933. The Court says that no time limit should be placed on the examination, as some of the contracts made before March 8 1904 may still be in force, or if not, they may still have an important bearing on the contracts subse-quently made. But the order made by the lower court, it is stated, is too broad in permitting the examination of all books of account, vouchers, &c. of the company. The examination of such records tending to show the profits made or the un easonableness of the prices charged is neither proper nor material at the present time, though it may be that later developments will make such a thorough examination necessary or advisable. The order of Justice Greenbaum is therefore modified to include only the contracts, made by the company and all correspondence relating to such contracts, regardless of date. Should facts be disclosed by such an examination to justify an inspection of the other books, papers and documents belonging to the company, the Attorney-General may apply for an extension of the order.—V. 84, p. 1184, 1054.

American Pneumatic Service Co., Boston.-Change in Management.—At the adjourned annual meeting on June 12 the Ames ticket was elected by a vote of 168,377, being a majority of 27,064. The directors now are:

William H. Ames, Eugene N. Foss, Oliver W. Mink, Oakes Ames, Charles F. Ayer, Atherton Loring, Frederick P. Royce and Glimer Clapp of Boston; Howard Gould, J. J. Kennedy, William B. Joyce and John E. Mulholland of New York; George H. Chandler of Manchester, N. H.; William S. Mc Curdy of St. Paul, Minn., and James L. Wolcott of Dover, Del.

The officers, to be elected next week, it is said, will be: William H. Ames, President; Gilmer Clapp, Treasurer; W. E.

Barnard (re-elected), Secretary. Applications, it is announced, have been made for instal-ling the mail tube service in Pittsburgh, Baltimore, Cincinnati, Kansas City and San Francisco, at a probable cost to the company of about \$325,000. The floating debt is said to be only about \$200,000.—V. 84, p. 1249, 1244.

Armstrong Cork Co. of Pittsburgh.-New Stock.-This Pennsylvania corporation early last month filed a certificate of increase of capital stock from \$2,500,000 to \$3,500,000; Par of shares \$100. President, Thomas M. Armstrong; Secretary and Treasurer, Wm. H. Pfahl. The shareholders in April 1902 voted to increase the com-

pany's indebtedness to \$400,000. Amount of present indebtedness not known.

Arrowhead Reservoir & Power Co., Cincinnati.-New Stock.—This company, incorporated under the laws of Dela-ware Oct. 5 1905 with \$6,000,000 capital stock, filed on May 17 1907 a certificate of increase of stock from \$6,000,000 to \$6,500,000; par of shares \$100.

50,500,000; par of shares \$100. The company's property is situated in the County of San Bernardino, Cal., and includes a partly constructed reservoir which, it is expected, will afford irrigation for perhaps 25,000 acres. On Jan. 2 1907 the shareholders were to vote on a proposition to increase the capital stock as above, and also to make a mortgage to a trust company in Los Angeles or some other city as trustee, to secure an issue of \$6,500,000 5 % gold bonds in denominations of \$500 and \$1,000. The company, in October last, stated that it had agreed to purchase all the property of the Arrowhead Reservoir Co. in San Bernardino Co. and in part consideration therefor to give \$362,352 bonds and to assume the debts of said company. To pay the aforesaid indebted-ness, to extend the business and develop the properties, the proposed issues of stock and bonds were recommended. Ben. F. Ehrman, Room 50, Wig-gins Block, Cincinnati, O., is Secretary; Victor C. Smith, Bernardino, Cal., is General Manager. Besides Mr. Smith the incorporators were John D. Works, H. E. Trask, F. C. Finkle, all of Los Angeles.

Southern Pacific Co.—Reported Acquisition.—See Corvallis & Eastern RR. above.—V. 84, p. 1249, 1183.

United Railways Investment Co.-No Preferred Dividend July 1.—The directors have decided not to pay on July 1 the semi-annual dividend then due on the \$15,000,000 (5% cumulative) preferred stock. The last two dividends were paid in scrip. A director is quoted as saying in substance:

The passing of the dividend was inevitable and has long been discounted. The strike of the employees of the United Railroads of San Francisco, the damage to that company's property and the loss of business caused by the earthquake, and the political trouble in which it has recently been involved. were factors so powerful in reducing earnings and increasing expenses that the United Railroads has been unable to pay dividends to its parent company for about a year.

The United Railroads of San Francisco is reported to be constantly increasing its car service in spite of the strikers. (V. 84, p. 1115.) - V. 84, p. 1109.

Atlantic & Birmingham Construction Co.-See Atlanta Birmingham & Atlantic Ry. under "Railroads" above and in V. 83, p. 35.

Baltimore Electric Co.—New Securities.—The "Baltimore Sun" (of June 14) understands that H. C. Brown & Co. of Baltimore have organized a syndicate to finance this company's requirements. The advisability of entering the gas field, it is stated, is under consideration.-V. 84, p. 1369.

Birmingham Coal Co.—Consolidation Proposed with Iron Company.—See Atlanta Birmingham & Atlantic Ry. under "Railroads" above.

Birmingham Iron Co.—Consolidation Proposed with Coal Company.-See Atlanta Birmingham & Atlantic Ry. under "Railroads" above.-V. 83, p. 40.

Brunswick (Ga.) Steamship Co.—Earnings, &c.—See Atlanta Birmingham & Atlantic Ry. under "Railroads" above. -V. 83, p. 1292.

California Oilfields, London.—New Securities.—The London Stock Exchange has been requested to list a further issue of 125,000 ordinary shares of £1 each, Nos. 250,001 to 375,-000. A London paper recently said in substance:

An issue of 125,000 ordinary shares of £1 each is offered to the existing

An issue of 125,000 ordinary shares of £1 each is offered to the existing shareholders at the rate of one new share for every two shares now held at £4 10s, per share, payable £2 per share on acceptance and £1 5s. on Feb. 15 and £1 5s, on March 15. £300,000 5% first mortgage debentures are to be offered at 97½%, payable 10% on application, 37½% on allotment, 25% on Feb. 15 and 25% on March 15. Not exceeding £200,000 additional debentures, ranking parl passu with the present issue, may be sold, provided that there shall have been subscribed, in cash share capital to be hereafter allotted, an amount equal to not less than the par value of the further debentures. Annual sinking fund, beginning Dec. 31 1908, £20,000, to purchase the debentures or to draw them at $102\frac{1}{2}$ and interest, at which price the entire issue may be called on or after Jan. 1 1911 and must be paid on Jan. 1 1924. Compare V. 83, p. 91.

Carnahan Tin Plate & Sheet Co., Canton, O.—See United Steel Co. of Canton, Ohio, below.—V. 84, p. 695.

(Philip) Carey Manufacturing Co., Lockland, O.-Stock.-This company recently filed a certificate of increase of authorized capital stock from \$1,000,000, of which \$500,000 was 6% cumulative preferred, to \$3,000,000, of which \$1,000,000 is preferred and \$2,000,000 common. The outstanding capital theretofore consisted of \$500,000 common and \$400,000 pref., and the company had no bonds or mort-gages on its property. President G. D. Crabbs wrote that "the new stock will be issued from time to time as required." The Cincinnati Stock Exchange is reported to have listed all of the \$1,000,000 preferred and \$2,000,000 common.

A Columbus, Ohio, paper recently had the following, but we have been unable to confirm it:

All shareholders of record will be permitted to subscribe at par to \$600,000 preferred stock, while a block of the new common will be issued to the holders of the common shares as a stock dividend, in order to distribute the accumulated surplus. The company is preparing to enlarge its plant at Lockland and also to erect a large plant in Canada. A Canadian subsidiary of the same name was incorporated late in Jan. 1907 with \$100,000 capital stock. Compare V. 75, p. 32.

Central Foundry Co.—New President.—August Heckscher has been elected President in place of A. F. Gartz, who re-cently resigned, and William H. Remick, of R. L. Day & Co., bankers, a director, to fill a vancacy.—V. 84, p. 161.

Central & South American Telegraph Co.-Listed.-The New York Stock Exchange has listed \$2,082,400 additional capital stock, making the total listed \$10,000,000. Of the new stock \$2,000,000 was issued as a stock dividend in accordance with a resolution of the board of directors adopted on March 26, which begins as follows:

"Whereas, the accounts of the company show that earnings to the amount of \$1,783,000 have been expended in plant and betterments, and contracts of great value, which your directors value at not less than \$217,000, have been acquired by your company, making a total of \$2,000,000." Compare V. 84, p. 1184, 1054.

Chapman Iron, Coal & Coke Co.-Sold.-This company's property was on Jan. 31 sold at auction to an attorney acting for President E. R. Chapman of New York, who, it is stated, will reorganise the company. On Jan. 27 a judgment for \$142,488 was entered in the New York courts against the company in favor of Francis A. Huck on an assigned claim of Mr. Chapman; receiver was appointed April 27 1906.

On Jan. 29 all the company's interest in \$530,000 of its 5% gold bonds and in \$100,000 of its capital stock (certifi-cates "A 47" and "A 48"—par of shares \$100), which were held by the Oriental Bank as collateral, was sold at auction at the Real Estate Exchange Sales Rooms in this city and was bid in by Francis A. Huck for the plaintiff.

Columbia Telephone Manufacturing Co., Ottawa, O.-Decision on West Va. Law.—The Supreme Court of Ohio on Dec. 11, reversing the judgment of the Circuit Court of Putnam County, in the action brought by the Security Trust Co. of Toledo, as trustee in bankruptcy_of the Columbia Telephone Manufacturing Co., against Ford and others, held that the stockholders of a company incorporated under the laws of West Virginia are liable for its indebtedness up to the par value of the stock subscribed, notwithstanding a provision in its certificate of incorporation that the stock shall be regarded as full-paid and non-assessable upon payment of a less amount than par. Smith & Beckwith of Toledo, O., were leading counsel for the plaintiff. Toledo, O., were leading counsel for the plaintiff. The Telephone Mfg. Co. was incorporated in W. Va. on March 6 1902 and on Nov. 10 1902 was adjudged a bankrupt by the District Court of the United States for the Northern District of Ohio, Western Division. Its stock con-sisted of \$150,000 common and \$100,000 6% non-cumulative pref., in shares of \$100 each. The certificate of incorporation provided that the common stock should be sold at 50% of its par value in payments of 10% each, as called by directors, the stock after such payments to be full paid and non-assessable. All the subscribers except Ford paid 50%, he sub-scribing for 50 shares (\$5,000) and paying 30% (\$1,500). Section 11 of Article 1 of the Constitution of West Virginia provides that stockholders of all corporations and joint-stock companies except banks and banking insti-tutions shall be liable for the indebtedness of such corporations "to the amount of their stock subscribed and unpaid and no more." The indebted-ness of the company, it is stated, amounts to about \$38,000, while the assets will not realize in excess of \$13,000. Columbus & Hocking Coal & Iron Co.—Report.—See

at auction at an average of slightly over \$95 per share; par \$50.—V. 84, p. 628.

Dominion Bridge Co., Montreal.—New Stock—Acquisition.-The company has increased its authorized issue of capital stock from \$1,000,000 to \$2,000,000. The share-holders last month authorized the purchase of the structural steel plant of the Locomotive & Machine Co. of Montreal (V. 82, p. 283).

Dominion Textile Co.-Listed in Montreal.-The Montreal Stock Exchange on June 5 listed this company's \$5,000,000 of outstanding capital stock.

Report.-The annual report of the directors presented at the general meeting of the shareholders on May 30 said in substance:

substance: The company has in operation 8,048 looms, 368,905 spindles, and em-ploys about 6,000 hands, and pald in wages over \$1,750,000, being a large advance over the previous year, and on the 1st of April last there was a further large increase of wages made to the employees. Owing to the large demand for cotton yarns from the knitting companies, which has taxed the capacity of their yarn mills to the fullest extent, it has been deemed advisable by the directors to increase the output of their yarn plant at Montmorency Falls by the addition of another story to the yarn mill, and work on this plant is now in progress. When completed, the company will be in a position to supply the increased requirements of the knitting companies for some years to come. Extensive improvements are now under way to improve the bleacheries of the company. When these are completed, the facilities for turning out bleached goods will be of the very first order, and should tend to increase the sale of these lines very materially. During the past year a large new store-house was erected at the Merchants Mill, which is now almost com-pleted.

pleted.

pleted. The financial statement shows that the net earnings for the year, after writing off the large sum of \$205,826 for repairs, betterments, &c., to the mills, amount to \$898,518. Out of this amount has been paid interest on bonds, dividends on preferred stock, rent of Dominion and Merchants Mills, amounting in all to \$731,839, leaving a surplus of \$166,680. This sum, together with the dividends received since closing the books, on the shares of the capital stocks of the Dominion and Merchants companies held by them will increase the surplus for the year to \$286,928, and leave a balance at credit of profit and loss account of \$523,842. In view of the showing made for the past two years and the bright outlook for the present year, the directors have declared a dividend of 14% on the common stock of the company, payable on July 2 to shareholders of record on June 15.-V. 84, p. 1250. Eden (Wyo) Irrigation & Land Co Ronds Offered

Eden (Wyo.) Irrigation & Land Co.—Bonds Offered.— Farson, Son & Co., New York and Chicago, are offering at par and interest \$400,000 first mortgage 6% bonds dated Jan. 1 1907, which are issued to provide for the development of this company's property in the Eden Valley, Wyo. A

Jan. 1 1907, which are issued to provide for the development of this company's property in the Eden Valley, Wyo. A circular says in part: Total authorized issue \$700,000 (of which \$300,000 remain in the treasury for future uses), maturing in annual installments on Jan. 1 as follows: 1912 to 1916, both inclusive, \$50,000 yearly: 1917 to 1922 inclusive, \$75,000 yearly, but subject to call at 102½ and interest at any interest date up to Jan. 1 1917; thereafter at par and interest. Denominations. \$500 and \$1,000. Interest payable Jan. 1 and July 1 at office of Farson, Son & Co., N. Y. City. Chicago Title & Trust Co., Chicago, trustee. Of the proceeds of all lands and water rights sold by the company, 75% are to be held in a sinking fund for the redemption of the bonds. This company has obtained title from the State of Wyoming to the waters of the Big Sandy River, the Little Sandy River, the New Fork River and some other smaller streams, in all sufficient to irrigate 206,000 acres of land. The company has also secured from the National Government, under provisions of the Carey Act, a segregation of 60,000 acres of choice land, and the segregation of 40,000 more is practically completed. The company towns a natural reservoir site sufficient to irrigate about 20,000 acres, and it has also received from the United States Government one of the finest reservoir sites in the United States, known as the Lecky Basin, into which there are five large streams of water constantly flowing, which will hold sufficient water to irrigate about 60,000 acres of land. The com-pany also owns the canal system already begun and the rights of way, survey, &c., for the entire system. The company has the privilege of settler at 50 cents per acre. As this class of land is worth from \$50 to \$100 an acre, there is no difficuity in selling it as rapidly as placed under water, furnishing a constant income to the company streasury. Engineers esti-mate that the first 60,000 acres can be placed under water at \$5 50 an acre. while the usual cost is

Federal Railway Signal Co.—New Bond Issue.—This company, which has purchased the plant of the Albany Forge Co. in North Albany, and will shortly establish its business there, has executed a mortgage to the Troy Trust Co. to secure, it is said, an issue of \$500,000 first mortgage 6% gold coupon bonds, denomination \$1,000 and \$500. The mortgage of \$300,000 executed April 5 1905 is reported to have been satisfied of record, but no official statement on the subject is obtainable.

Columbus & Hocking Coal & Iron Co.-Report.-See "Annual Reports" on a preceding page.

Dividends.—The dividend declared payable July 1 on the new preferred stock (\$218,900) is, we learn, distribution No. 2, the first payment on this stock having been made April 1 1907.-V. 84, p. 1370.

Consolidated Rice Milling Co.-See Louisiana Irrigation & Mill Co. below.

Consumers' Gas Co., Toronto.-Stocks Sold at Auction. At Toronto, on June 6, 6,000 shares of new stock were sold

The company's machine shop at Troy, N. Y., was destroyed by fire on Jan. 31. The works at North Albany are to be enlarged, increasing the company's output facility, it is said, to double that of its old plant. The new directors and officers are given as follows: Directors: Robert C. Pruyn, James H. Caldwell, J. T. Cade, Lawrence Griffith, P. G. Ten Eyck, Offi-cers: J. T. Cade, Pres.; Lawrence Griffith, Vice-Pres.; P. G. Ten Eyck, Gen. Mgr.; Frederick Pruyn, Treas.; C. E. Newman, Sec. V. 80, p. 177.

Gainesboro Telephone Co., Sparta, Tenn.—Bond Issue.—A mortgage has been filed to the Union Bank & Trust Co. of Nashville, as trustee, to secure an issue of \$100,000 6% gold bonds. The mortgage covers 25 exchanges and 2,500 miles of toll line in Kentucky and Tennessee.

Company incorporated in 1896. Authorized capital stock is \$300,0001 in shares of \$100 each. Bonds dated Jan. 1 1907 and due in 1927, but al subject to call after 10 years at par and interest. Denomination \$500. Interest payable quarterly (Jan. 1, &c.) at Sparta. Total gross assets stated as \$280,000 and annual gross income as \$65,000. President, G. W. Stevens, Nashville, Ky.; Secretary, J. T. Anderson; and Treasurer, S. Hayden Young, Sparta, Tenn.

Herron Pump & Foundry Co., Chattanooga, Tenn.---Re-ceivership.—At Chattanooga on June 7 this company was placed in the hands of C. C. Nottingham, Vice-President of the First National Bank of Chattanooga, as receiver. An official statement, it is said, shows: Liabilities about \$100,000; assets between \$200,000 and \$225,000. All creditors, it is stated, will be paid in full. See V. 84, p. 1251.

1431

Home Telephone Co. of Nashville.-Decision-Re-Incorporation.-The Supreme Court on March 23, reversing the decision of the Court of Chancery Appeals, dissolved the injunction enjoining the city from removing the poles and wires of the company, which were, it is reported, erected at a cost of about \$20,000.

Judge Wilkes holds that the company, which was incorporated under the old general law, had no right to operate a telephone system under its charter as a telegraph company, and therefore could not use the streets of the city without the latter's consent.

On April 3 the company filed articles of incorporation under the so-called Talbert law, covering the incorporation of telephone companies, passed by the present Tennessee Legislature, its capital stock being \$1,000,000. Chancellor Allison on the same day denied the application of several tax-payers to enjoin the perfecting of the organization. **Officers:**

President, R. E. Cooper; Vice-President, W. C. Polk; Treasurer, H. M. Perry; Secretary, Charles Curry.

Illinois Tunnel Co., Chicago.—New Management.—J. Ogden Armour and associates, having become largely interested in this enterprise, the following new officers and directors were elected at the annual meeting on June 13:

Samuel McRoberts, Treasurer of Armour & Co., was made President to succeed Albert G. Wheeler; W. J. C. Kenyon, President and General Man-ager of the Union Stock Yards at Omaha, was elected General Manager. Mr. Armour was made a member of the executive committee, of which A. J. Earling, President of the Chicago Milwaukee & St. Paul Ry. is Chairman. Samuel McRoberts was elected a director to succeed P. A. Valentine and J. Ogden Armour became a member of the board.

The Kuhn-Loeb loan of \$5,000,000 is said to have been extended for a considerable period and Messus. Armour and Harriman are reported to have obtained for the company a long-term loan of \$4,000,000, for the completion of construction. Mr. Valentine is said to have sold out his interest in the Chicago Subway Co., the parent company.-V. 84, p. 162.

Indiana Natural Gas & Oil Co.-Called Bonds.-All of the outstanding 1st mortgage 6% gold bonds dated 1890 have been called for redemption at 105 and interest on July 1 at the office of the Central Trust Co., New York, or at the Illinois Trust & Savings Bank, Chicago. In 1906 the company made an issue of 6,000,0005% 30-year gold bonds to provide for refunding the aforesaid bonds and for extensions and additions. The new bonds are guaranteed, principal and interest, by the People's Gas Light & Coke Co. of Chicago. Most of the 1st 6s (\$4,000,000 issued) have been exchanged for the new 5s. Compare V. 84, p. 393-V. 83, p. 1293.

International Steam Pump Co.—New Officers.—The following changes are announced:

William H. Woodin, Leon P. Fuestman and N. Fleischer have been elected directors in place of directors whose terms have expired. Leon P. Fuestman elected First Vice-President; Nathan Fleischer elected Treasurer, to succeed Max Nathan, who resigned on account of age; Benja-man Guggenhelm elected Chairman of the executive committee,— V. 83, p. 1410, 754.

Interstate Steamship Company.—Called Bonds.—The Safe Deposit & Trust Co. of Pittsburgh, as trustee for the bondholders, gives notice that 50 5% bonds for \$1,000 each (interest payable June 1 and Dec. 1), dated June 1 1906; the numbers ranging between 4 and 494, were called for redemption on June 1 with interest to date. Incorporated under the laws of West Virginia.

The Interstate Steamship Co. of Wiloughby, O., probably this company, was incorporated in June 1905 with \$500,000 capital stock, the incorporators being James E. Hoyt, Julian W. Tyler, Gustav von Steiner, all of Cleveland.

Jenner-Quemahoning Coal Co., Pittsburgh.-Bonds.-This company, which was incorporated in Pennsylvania in Sept. 1904 with \$5,000 authorized capital stock (since increased to \$750,000, all of one class and all outstanding, par \$100), and thereafter purchased some 3,000 acres of coal land in Somerset County, Pa., has filed a certificate of increase of indebtedness from \$410,000 to \$750,000.

The aforesaid indebtedness from \$10,000 to \$750,000. The aforesaid indebtedness consists of first mortgage 5% gold bonds of an authorized issue of \$1,000,000, secured by mortgage to the Fidelity Trust Co. of Philadelphia, as trustee, covering coal, surface and equipment. The issue is dated Oct. 1 1904 and is due \$250,000 in 1919 and \$750,000 in 1944, but subject to call for sinking fund at par and interest. Denomina-tions \$500 and \$1,000. Interest payable April 1 and Oct. 1 at office of trustee. President, H. R: Lynn; Sec. and Treas., J. B. Van Wagener; Assist. Treas., Thurston Wright. Original incorporators: Robert M. Wil-son, Herbert Hunt, Henry K. Belmont, Albert H. Parker and Holman R. Lynn, all of New York.

Letcher Coke & Railway Co., Cleveland, O.-New Enterprise-Bonds Offered.-This company, incorporated a few months ago with \$2,000,000 capital stock, in shares of \$100 each, to mine coal and engage in the manufacture of coke in Eastern Kentucky, recently offered in Cleveland 2,000,0005% 30-year gold bonds. The following has been published:

The company has secured coal rights on 16,000 acres of coal lands in Letcher County, Ky., and it will build 500 coke ovens and a branch rall-road 15 miles long to connect the property with the nearest distributing point. The coal rights cover deposits which will aggregate over 226,954,000 tons. With a production of 125,000 tons yearly and a net profit of 30 cents per ton, the company should earn on coal \$37,500; 468,000 tons of coke at \$1 25 a ton would yield \$585,000, and rents, &c., at \$15,000 from the com-pany's houses and store would increase the total to \$637,500. Depreciation and bond interest deducted is expected to leave a surplus of 22% on the \$2,000,000 capital stock. J. J. Phillips, Vice-President and General Man-ager of the Cleveland & Pittsburgh Coal Co., has been elected President of the coke company and James Dunn Jr. Secretary and Treasurer. Office in Garfield Building, Cleveland.

Locomotive & Machine Co. of Montreal.-Sale of Structural Steel Plant.-See Dominion Bridge Co. above.-V. 82, p. 283.

Long-Bell Lumber Co. of Kansas City, Mo.-Refunding Mortgage-Bonds Offered.-Clark L. Poole & Co., Chicago, are offering by advertisement on another page at par and interest the unsold portion of \$9,000,000 6% "first and refunding mortgage" gold bonds, made for the purpose of refunding into one loan all of the outstanding bonds of the company and its subsidiaries, together with practically all its floating indebtedness. These bonds are dated May 1 1907 and mature in semi-annual installments of \$250,000 from Nov .1 1907 to May 1 1908, both inclusive; \$300,000 Nov. 1 1908 to May 1 1920; \$325,000 Nov. 1 1920 to May 1 1922. Denomination \$1,000 and \$500. Principal and interest payable at Central Trust Co. of Illinois, trustee, Chicago. A circular says:

A circular says: This bond issue is a direct obligation of the Long-Bell Lumber Co., whose total assets at a conservative appraisal amount to \$25,510,293. Secured by about 275,000 acres of virgin long and short leaf yellow pine timber lands, owned in fee simple, containing over 3,300,000,000 feet of merchant-able pine timber, located in Calcasieu, Rapides and Sabine parishes, La., and San Augustine, Angelina and Sabine Counties, Texas. Also about 100,000 acres of partly cut over lands containing about 350,000,000 feet of pine and hardwood timber; seven large modern saw-mill plants with a daily capacity of 1,000,000 feet of lumber. Our appraisal of the present cash market value of the property securing this bond issue is \$10,261,167. This appraisal does not include the value of the standing timber on the partly cut over and hardwood lands covered by this mortgage, nor the value of the lands for agricultural purposes when the timber is removed. The mort-gage requires, under careful restrictions, a deposit with the Central Trust Co. of Illinois, trustee, of \$3 50 per 1,000 feet for all timber manufactured into lumber. This will result in the payment of all of the outstanding bonds long before the timber covered by the mortgage has been exhausted. The net earnings (profits) for the year ending Jan. 1 1907, after crediting stumpage account \$4 per 1,000 feet, were \$2,330,488-over two and one-half times the largest annual payment of principal and interest. The average net earnings (profits) for the past three years were \$1,629,679, over three times the interest charge on this bond issue. The company has a capital and surplus of \$15,632,203, has been established 30 years, and possesses the highest credit. *Approximate Balance Sheet After Issuance of New Bonds*.

Sufficient of the bonds will be held by the trustee, and the proceeds will be applied by it to the liquidation of all obligations which affect the security for this bond issue. This will result in the payment of the entire indebted-ness of the company, both direct and guaranteed, except \$878,000, which is amply secured by a separate tract of timber not covered by this mortgage, and which does not fully mature until 1918, and draws only 5% interest.

Abstract of Letter from President R. A. Long, dated Kansas City, Mo., May 5 1907.

May 5 1907. The company commenced business in the spring of 1875, its possessions being one small retail lumber yard located at Columbus, Kan., with an in-vestment of not to exceed \$5,000, and under the management of the writer. The expansion of the business up to its present condition, aside from borrowed capital, has been practically entirely out of the earnings. We have at present 87 retail lumber yards, located in Kansas, Oklahoma and Indian Territories and Texas; about 416,000 acres of land, over 300,000 of which is virgin timber, containing about 3,650,000,000 feet of timber; 8 modern saw mills, capacity 1,000,000 feet per day; 9 modern planing mills; 47 modern dry klins; 13 stores, and 1,000 dwelling houses in connection with our mills; 185 miles of railroad, including 20 locomotives and 280 log-per annum. Ship 20,000 cars of lumber per annum. The largest annual payment on our bond issue, together with interest, is \$1,082,000. Our net profits for the year 1906 were \$2,330,488, after crediting the timber account with its present value. To determine the value in this instance, at \$4 50 per thousand, multiplying by our present

Jutte (0.) & Co.-Litigation-Reported Sale.-Judge Shafer, at Pittsburgh, on Feb. 9, in the action brought by the Colonial Trust Co. of Pittsburgh, as administrator of the late W.C. Jutte, against F. N. Hoffstot and J. W. Friend, decided that the latter were entitled to possession of certain securities of Jutte & Co. obtained by them in transactions with the deceased. A bill in equity was filed on Dec. 4 by Louis A. Jung and other stockholders in the Common Pleas Court, Pittsburgh, asking for the appointment of a receiver on the alleged ground that Friend and Hoffstot, who controlled the company, proposed to turn over the river equipment and good-will from Louisville south (but not the coal lands) to the Monongahela River Consolidated Coal & Coke Co.

The company is reported to own about 2,400 acres of undeveloped coal lands near Brownsville, Fayette Co., Pa., its capital stock consisting of \$4,000,000, part preferred, and its outstanding bonded debt being \$1,-600,000. The Monongahela River Consol. C. & C. Co. has nothing to do with the bonds, and the Secretary of that company on Feb. 19 wrote: "This company has not purchased the property referred to."

Keystone Driller Co., Beaver Falls, Pa.-New Stock. This corporation has increased its capital stock from \$500,000 to \$1,000,000. Plans have been prepared for a new foundry building, 100 by 300 feet, of brick and steel construction, for the manufacture of brass, gray iron and steel castings.

The largest annual payment on our bond issue, together with interest, is \$1,082,000. Our net profits for the year 1906 were \$2,330,488, after crediting the timber account with its present value. To determine the value in this instance, at \$4 50 per thousand, multiplying by our present producing capacity of 270,000,000, we would have \$1,215,000 to add to the profits above mentioned to be disbursed through the channels of cash. Should we conclude to wind up our affairs and go out of business when our stumpage shall have been exhausted, we would expect to realize not only the total assets listed (in balance sheet) above, but at least \$6 per thousand additional, in the conversion of standing timber into lumber, equal to \$21,900,000, making the total assets \$47,410,293. Deducting for retirement of bonds \$9,000,000, and interest thereon \$4,266,000; also notes payable \$878,000, and interest thereon (last maturity 1918) \$300,000, a total of \$14,444,000, would leave excess resources of \$32,966,293. We have figured eventually to obtain \$10 50 per thousand of our standing timber; we obtained \$11 19 per thousand for that manufactured during 1906. The white pine of the North will have been almost entirely exhausted within the next is years. Our lumber at our yards and at our mills is all inventoried together, lumber at yards figured at cost; at mills at \$12 per thousand, the same being about \$5 per thousand less than the average net price to us.

per thousand, the same being about so per thousand less that the transfinet price to us. [The amounts of the company's capital stock and surplus, it will be noted, are given in the foregoing balance sheet and will serve to correct a mis-statement as to the surplus and a slight inaccuracy as to the amount of outstanding stock which appeared in our issue of May 4 in connection with the recent increase of the company's share capital.—Ed.]—3

Louisiana Irrigation & Mill Co.-Sale of Rice Mill Properties.—A press dispatch from Lake Charles, La., on June 5 savs:

A transfer was recorded here yesterday from the Louisiana Irrigation & Mill Co. to the Consolidated Rice Milling Co. of all its rice-mill properties in Crowley, Morse, Jennings, Roanoke and other points in Calcasleu and Acadia parishes. The consideration named was \$400,000. This action was taken pursuant to a plan by which the big rice company proposed to put its planting and its milling operations in the hands of two separate com-panies.—V. 80, p. 715.

Massillon (O.) Iron & Steel Co.-New Stock.-This company, which was incorporated under the laws of Ohio in March 1900, and which in Feb. 1904 increased its capital stock from \$150,000 to \$500,000, on Feb. 18 1907 filed a certificate of increase of the authorized issue from \$500,000 to \$2,000,000, all of one class. Of the additional stock the present issue is \$500,000, part as dividend to share-holders and part for cash at par. No bonds. The company manufactures cast-iron pipe and fittings. The officers are:

H. A. Croxton, President and Treasurer; F. F. Fisher, Chicago, Ill., Vice-President; J. R. Dangler Jr., Sec. and Asst. Treas. Directors: H.A. Croxton, J. W. McClymonds, C. M. Russell and C. O. Heggem of Massillon, O.; F. F. Fisher, Chicago, Ill.; D. T. Croxton and S. W. Croxton, Cleve-and, O. Chicago office, The Rookery.

Mather Humane Stock Transportation Co.-Notes Offered. -Brown Bros. & Co., New York, are offering at prices to yield the investor 5¼% the 5% gold notes, series "Q," cou-pon notes of \$1,000 each, dated Feb. 5 1907, maturing Aug. 1 1907 to Feb. 1 1917, both inclusive, \$30,000 semi-annually. Interest payable Feb. 1 and Aug. 1; Mercantile Trust Co., New York, trustee. A circular says:

New York, trustee. A circular says: Total authorized and issued, \$600,000. Principal and coupons payable at the offices of Brown Brothers & Co., New York, Philadelphia and Boston. These notes are secured by a lien on 1,000 Mather patent stock cars of 60,000 pounds capacity, costing \$800,000, against which the notes are issued at 75% of their cost. The title to the entire equipment is vested in the trustee until payment has been made in full for the entire issue of these notes. These cars are now under lease for a fixed monthly rental (for six years from the average date of the delivery of the cars, about July 1 1907 and thereafter until terminated upon sixty days' notice by either party) to the Chicago Rock Island & Pacific Ry. Co. The lessor's rights under the contract being held by the Mercantile Trust Co. of New York, as additional security for these notes. The Mather patent stock cars are specially constructed for the transportation of live stock and have been in successful operation on the larger railroad systems for a number of years.

McCall's Ferry Power Co.-See Susquehanna Power Co., below.—V. 84, p. 629, 274.

Merchants' Refrigerating Co. of Kansas City.-New Stock. -This company on June 6 filed at Jefferson City, Mo., a certificate showing: Increase of capital stock from \$300,000 to \$600,000; assets, \$850,000; liabilities, \$200,000. Compare V. 82, p. 573, 1500.-V. 83, p. 275.

Mexican Petroleum Co., Limited, of Delaware.—First Div-idend.—On June 3 a dividend of one-half of 1% a month (6% yearly) was declared on the preferred stock, being equal to 12% on the stock of the old Mexican Petroleum Co. of California. Compare V. 84, p. 629.

Milliken Brothers, Staten Island, N. Y.-Receivership. On Monday a petition in involuntary bankruptcy was filed in New York City against this company by the Niles-Bement-Pond Co. and other creditors, and on Tuesday Judge Holt, in the United States District Court, before whom the proceedings were begun, appointed as receivers August Hecksher, a prominent iron man; William L. Ward, of the Russell, Burdsall & Ward Nut & Bolt Co., and J. Van Vechten Olcott, of the law firm of Dougherty, Olcott & Tenney. The liabilities as catalogued by the counsel for the receivers embrace, in addition to \$3,000,000 bonds, \$1,100,000 in merchandise debts, divided among some 300 creditors and \$2,400,000 in loans, which include \$1,050,000 advanced by Foster Milliken and H. S. Manning. The company's em-barrassment is attributed to the unexpectedly large cost of the new steel plant, which absorbed, besides the proceeds of the bonds, over \$1,000,000 working capital. The bankers who arranged the underwriting of the bonds express the utmost confidence that the interest due on the issue Aug. 1 will be promptly met. They have sent a letter to the bondholders under date of June 11, saying:

The cost of the new plant is stated at approximately \$4,850,000. Ac-cording to appraisals made by experts in 1906, the value of the previously existing plant and real estate was estimated to be \$2,084,154. Of this the real estate comprised \$1,178,634, which, on the basis of what the real estate in this vicinity has actually been sold for, would to-day represent a very much larger amount. It may, therefore, in our opinion, be conserva-tively estimated that the fixed assets covered by the \$3,000,000 first mort-gage 6% bonds amount to nearly \$8,000,000. We believe that the assets are ample to secure the bondholders and have every expectation that the bondholders will not suffer any loss of principal or interest.—V. 83, p 1102; V. 82, p. 1215.

been begun at the rate of 1% quarterly. There is also an issue of \$2,000,000 bonds. The company has woolen mills at Dover, Paris and Thorold, Ont., and St. Hyacinthe, Que. D. Morrice is President.-V. 83, p. 767.

People's Gas Light & Coke Co. of Chicago.—Financing by Subsidiary.—See Indiana Natural Gas & Oil Co. above: -V. 84, p. 576, 394.

Red Bank Oil Co. of Pittsburgh, Pa.-New Stock.-This company recently filed a certificate increasing its capital stock from \$1,000,000 to \$3,000,000. A press report says:

The company was incorporated at Dover, Del., May 26 1906, with a capital stock of \$50,000, amended Sept. 29 1906 by increasing its capital stock to \$1,000,000. Incorporators include E. A. Kern, A. Neuremburg, J. K. Neagley, all of Pittsburgh, Pa.

Roanoke (Va.) Heat, Light & Power Co.—Bond Issue.— This company, it is said, has filed a mortgage with the Girard Trust Co. of Philadelphia to secure \$500,000 of 5% 30-year bonds.

Rockingham Power Co.-New Enterprise-Mortgage.-This company was incorporated in North Carolina on Feb. 20 1905 and is engaged in the development of over 28,000 hydro-electric horse-power at Bluitt Falls, N. C., on Yadkin River, 9 miles from Rockingham and 130 miles from Wilmington. The work includes the construction of a dam 1,650 feet long and 45 feet high. The authorized capital stock is \$3,000,000, in \$100 shares, \$1,500,000 being common and the remainder 5% preferred, cumulative after 1911; subscribed, \$1,500,000 common and \$1,100,000 preferred.

In February last a mortgage was filed to the Knickerbocker Trust Co. of New York, as trustee, to secure an issue of \$5,000,000 first mortgage 40-year 5% gold bonds, due July 1 1946 but subject to call as an entirety at 105 and interest on any semi-annual interest day after Jan. 1 1916, and further subject to a sinking fund to be applied as set forth in the mortgage. Of these bonds, \$2,200,000 are outstanding. Messrs. Hugh McRae & Co. of Wilmington, the Colonial Securities Co. of Boston and Electric Bond & Share Co. of New York are interested. M. F. H. Gouverneur of Wilmington is President. The executive committee in charge of construction is composed of R. L. Warner, Chairman; J. D. Mortimer and Henry A. Pressey, 62 Cedar St., New York.

A press dispatch from Bennettsville, S. C., in February last said:

Said: Within a little more than a year the cotton mills at McColl and Bennetts-ville will be operated by electric power from the dam across Pee Dee River at Bluitt Falls. The power will be transmitted from the plant to Rocking-ham, thence by Hamlet to Laurel Hill, thence to McColl, Bennettsville, Lumber, Floyds and Hartsville, with a branch line from Laurel Hill to Laurinburg. The dam is to be 1,650 feet long and 50 feet high, from which it is calculated by the engineers that 28,000 horse-power will be available. The present installation of water-wheels and electrical machinery will de-liver 15,000 horse-power. The company has already contracted for 10,000 horse-power. The contract provides that it shall be ready for use by July 1 1908. 1908.

Salisbury Steel & Iron Co., Utica, N. Y.—Bonds Offered.— Miller, Adams & Co., New York, are offering at par and interest, with a bonus of 50% in stock, \$100,000 1st mort-gage 6% 10-year sinking fund gold bonds, due in 1917 but redeemable at 105 and interest on and after Jan. 1 1912. Interest payable Jan. and July 1. The Citizens' Trust Co. of Utica, N. Y., trustee. Authorized issue \$250,000. This corporation was incorporated Nov. 12 1902 under the laws of New York. The authorized capital stock is \$1,000,000, in shares of \$100 each, of which \$900,000 has been issued. A circular says in substance:

 New Totk. The anch, of which \$900,000 has been issued.
 A circular says in s ibstance:
 The company owns in fee simple magnetic iron ore properties in Herkimer County, N. Y., consisting of 856 acres, with standing timber for all mining requirements, and magnetic iron ore estimated sufficient to produce 1,000 tons per diem, 300 days in the year, for many years. The properties have been extensively developed by working shafts, and there is now ready for treatment and shipment a large tonnage. Two shifts of men, day and night, for the past two years have been developing the property. The ore analyzes 56% to 64% metallic iron, reasonably low in sulphur and phosphorus, and without a trace of titanium. There have been shipped several thousand tons to iron and steel plants, giving excellent satisfaction. The New York Central & Hudson River RR. Co. has secured, by purchase, the control of the Little Falls & Dolgeville RR., running from Little Falls. N. Y. to Dolgeville, 5 miles from te Salisbury Mines, and an arrangement has been entered into whereby the Salisbury Steel & Iron Co. is to build an extension from Dolgeville to its property, this extension to be leased to and operated by the New York Central. This arrangement gives excellent shipping facilities, with low rates. The railroad from Dolgeville is now being built and will be in operation by Aug. 1 1907 ("before Sept. 1."-Ed.). Construction is under way for a modern, electrically driven concentrating mill, with a dally capacity of 300 tons of crude ore, or 300 tons of high-grade concentrates. An acrial tramway, ¾ mile long, is under constructed to a napproximate cost of \$100,000. This amount is to be paid back into the treasury by the New York Central, by credits each month of the gross tonnage hauled over this branch, to retire these bonds. There will also be set as de 25% of the net earlings of the mines for the same purpose. It is estimated that with the new equipment the ore and concentrates can be loaded in the eaver age Treasurer Schneible Co. of New York.—Bond Issue.—This company, incorporated under the laws of New York, with \$1,000,000 authorized capital stock, has made a mortgage dated Mar. 1 1907 to the Northern Trust Co. of Chicago, as trustee, to secure an issue of \$100,000 20-year 5% bonds. The com-

Ohio Fuel Supply Co., Columbus, O.-Report.-For year ending April 30 1906, contrasting with calendar years 1905 and 1904:

Year-	Gross.	Net.	Dividends.	Surplus.	
1906-07 1905 (cal. year) 1904 (cal. year)	_ 1,407,952	650,807	\$649,991 (10 %) 424,949 (10 %) 399,397	318,320 225,858 155,573	

Of the gross receipts for the late year, \$1,989,431 was derived from the sale of natural gas and \$26,538 from sale of oll: remainder various. The operating expenses include \$172,245 for "gas purchased." An 18-inch pipe line to Norwood, near Cincinnati, was completed during the year.— V. 84, p. 1372, 1185.

Ohio & Indiana Consolidated Natural Gas & Illuminating Co.-Foreclosure Decree.-The United States Circuit Court at Indianapolis on June 8 entered decrees of foreclosure against four of the underlying operating companies, viz.: Ohio & Indiana Gas Co., Indiana Natural & Illuminating Gas Co., Logansport & Wabash Gas Co. and Lafayette Gas Co. See statement on page 170 (text) of "Railway & Industrial" section and compare V. 84, p. 1310.

Penmans', Limited, Montreal.-Listed in Montreal.-The Montreal Stock Exchange has listed this company's outstanding capital stock, namely, \$1,075,000 preferred, which is receiving quarterly dividends at the rate of 6% per annum, and \$2,150,600 common stock, on which dividends have

Joseph Schneipany manufacturers carbonating apparatus. ble is President and William B. Greeley is Treasurer, 138 Mott St., New York City.

Slater Shoe Co.-New Stock.-The "Monetary Times" of Toronto on June 8 said:

The capitalization of the Slater Shoe Co. will be increased to \$1,000,000, and mucd of the stock will be taken by the present shareholders. Eight years ago the business was taken over from G. T. Slater & Sons. The trade-marks were then valued at \$100,000, and it was claimed recently that they were now worth \$1,000,000. The company's trade increased from \$500,000 in 1904 and \$600,000 in 1905 to an estimated trade of over \$1,000,000 this year. For the six months of the spring of 1907 the orders taken aggregated in value in excess of \$575,000.

Sloss-Sheffield Steel & Iron Co.-Earnings.-The results for the three and the six months ending May 31 1907 (August estimated) were:

The accrued dividend on the common stock at the present rate of 5% per annum would call for \$125,000 for the three months, or \$372,000 for

the nine months e nine montus. Total surplus May 31 1907 (est.), \$3,040,784.—V. 84, p. 818, 800, 625.

(L. C.) Smith Transit Co., Syracuse, N. Y.-Bonds Offered -The Detroit Trust Co., Detroit, Mich., the mortgage trustee, is offering its 5% interim receipts to be exchanged for \$125,000 first mortgage 5% coupon gold bonds of \$1,000 each, secured by a first mortgage on the new steel freighter (under construction) Smith Thompson.

Length of vessel 458 feet, beam 52 feet, depth 28 feet, capacity 7,500 tons (est.); cost \$320,000. Bond issue \$125,000, to be dated July 1 1907, payable in ten annual installments. Interest payable Jan. 1 and July 1 at office of trustee. Unsold maturities (on \$109,000 bonds), 1910 to 1918

inclusive. Officers—L. C. Smith, President; W. L. Smith, Vice-President; H. S. Wilkinson, Secretary; H. W. Smith, Treasurer.—V. 82, p. 1326.

Sorento Coal Co., Chicago, Ill.-Called Bonds.-Ten of this company's bonds are payable on July 1 1907 at the Commonwealth Trust Co., St. Louis, Mo.-V. 81, p. 36.

Southern California Cement Co.-New Enterprise-Mortgage.-This company, incorporated in California on Nov. 28 1906 with \$2,500,000 authorized capital stock, recently made a mortgage, it is understood, to the Los Angeles Trust Co., as trustee, to secure an issue of \$1,000,000 bonds.

as trustee, to secure an issue of \$1,000,000 bonds. The company, it is stated, owns extensive cement rock quarries about 4 miles from Riverside and proposes to build a cement plant with a daily capacity of 4,500 barrels at a new town-site to be known as Crescent City. The same interests have incorporated the Crescent City St. Ry. with \$100,000 capital stock. Oakland capitalists are interested. The incorporators of both companies are: George W. Reed, P. C. Black, C. N. Reed, B. H. Griffin and C. T. Walker, all of Los Angeles.

Standard Coupler Co.-Dividend Increased.-The directors have declared a semi-annual dividend of $2\frac{1}{2}\%$ on the \$1,200,-000 common stock, payable with the usual 4% (semi-annual) on the \$300,000 preferred June 29 on stock of record June 24. This increases the annual dividend rate for the common shares to 5%, contrasting with 2% prior to last December. On Dec. 24 1906 2% (semi-annual) was paid, raising the rate to 4%.—V. 83, p. 1596.

Standard Iron Mining & Furnace Co., Philadelphia. Bonds at Auction .- In this city on May 8 Adrian H. Muller & Son sold at auction \$225,000 first mortgage skg. fund 5% gold bonds due July, 1933, at 10.

The company owns iron furnaces at Chickles, Lancaster, Pa., having at last accounts a total annual capacity of 33,500 tons; also an ore-briquetting plant with a daily capacity of 140 tons.

Standard Screw Co.-Dividend Increased .- The directors on Thursday declared a semi-annual dividend of 3% on the common stock, payable July 1 with the usual 3% on the \$2,000,000 preferred, to holders of record June 20. This places the common stock on a 6% basis, as against 5% for recent periods. Compare V. 84, p. 1185.

Suburban Telephone Co., Clayton, Mo.-Mortgage.-The "St. Louis Globe-Democrat" of Dec. 20 said:

St. LOUIS GIODE-Delmocrat" of Dec. 20 said: Suburban Telephone Co., which was organized at Clayton by a number of St. Louis County capitalists, and later sold to the Kinloch Telephone Co. of St. Louis last spring, yesterday filed a deed of trust on its property in the county securing 5% bonds to the amount of \$600,000. (In June last the authorized issue of capital stock was increased from \$100,000 to \$600,000. H. W. Karrenbrock is President and Joseph B. Greensfelder, Secretary.--Ed. "Chronicle.")

per share. Certain large holders, including Dick Brothers & Co., have already given the option asked.-V. 83, p. 690.

Union Home Telephone & Telegraph Corporation, Los Angeles, Cal.—Acquisitions.—This company was recently incorporated (V 83, p. 443) with \$10,000,000 of authorized capital stock, of which \$1,000,000 has been paid up, and made a mortgage to the Title Insurance & Trust Co. of Los Angeles, as trustee, to secure \$10,000,000 bonds.

Angeles, as trustee, to secure \$10,000,000 bonds. The corporation is organized to take over independent plants in California. Its first issue of bonds, \$1,000,000, is issued to arrange for independent plants in the cities of Long Beach, San Bernardino, Santa Ana, San Pedro and Ventura, and the towns of Fullerton, Colton, Anaheim and Highlands and to enlarge and improve those plants. It is expected that a similar group of independent exchanges will soon be arranged for, and that from time to time this will be repeated. Bonds 5% gold, \$1,000 each, dated Aug. 1 1906, due Aug. 1 1936, but subject to call Aug. 1 1916 in any amount at 105. Annual sinking fund payment, beginning on Oct. 1 1916, 2% on all bonds outstanding. Interest payable Feb. 1 and Aug. 1 at National Bank of California, Los Angeles, and at Chase National Bank, New York. Directors: Col. J. M. C. Marble, President; Geo. B. Ellis, Vice-Presi-dent; Jas. N. Baldwin, Secretary; J. E. Fishburn, Treasurer; A. B. Mo-Cutcheon, Attorney; W. L. Lissenby, Manager; A. R. Detwiller, John B. Marble, John Van Llew and Frank Wachter.—V. 83, p. 973.
United Bank Note Corporation.—Large Contract for Con-

United Bank Note Corporation.—Large Contract for Con-trolled Company.—See "American Bank Note Co." under "Miscellaneous News" on a subsequent page of this issue.-V. 84, p. 225.

United Electric Securities Co., Boston.-Bonds Offered.-Parkinson & Burr, New York and Boston, have just purchased a new block of United Electric Securities Co. bonds and offer \$100,000 thereof at 99 and interest. These bonds are part of an authorized issue of \$500,000 collateral trust gold 5s, 25th series, dated Feb. 1 1907 and due Feb. 1 1937, but callable on any coupon date at 103 and interest. Interest payable Feb. 1 and Aug. 1 at the American Trust Co., Boston. Of the authorized issue, \$43,000, we are informed, are about to be canceled. A circular letter says:

are about to be canceled. A circular letter says: This company, since its incorporation in 1890, has issued, including the new series, \$15,500,000 of its collateral trust bonds. Of these there have been redeemed and canceled \$11,512,000, leaving outstanding at the present time \$3,988,000. These present outstanding bonds are secured directly by \$5,343,000 collateral in the shape of mortgage bonds and indirectly by \$1,500,000 stock and \$1,220,000 of accumulated surplus, making a total of \$8,063,000 securing the outstanding \$3,988,000 collateral trust bonds.—V. 84, p. 225.

United Fruit Co., Boston.-New Bonds Sold.-Jackson & Curtis, New York and Boston, offered this week, at prices to yield the investor $6\frac{34}{\%}$ interest, and have since sold, the \$1,600,000 5% serial bonds authorized in con-nection with the purchas: of the Nipe Bay Co. (Compare V. 84, p. 1311). These bonds are dated June 1 1907, due in equal annual installments from June 1 1909 to June 1 1918, but callable on any interest day after June 1 1910 at 103 and interest. Interest payable Dec. 1 and June 1. The adver-

USEMENT Says: The bonds are a direct obligation of the United Fruit Co. and rank ahead of \$18,349,000 stock-paying dividends of 8 % yearly. The company has no mortgage debt and agrees not to place any mortgage on its property during the life of this issue without securing these bonds under such mort-gage. For the fiscal year ending Sept. 30 1906 the company reported net income of \$3,900,887, with total interest charges of \$114,353. Since the last report there have been retired or converted into stock \$488,000 bonds, so that there are outstanding to day \$18,349,000 stock and \$1,332,000 convertible bonds.—V. 84, p. 1311, 1057. Traited Shoe Machinery Comparation Boston Stock

United Shoe Machinery Corporation, Boston.-Stock Dividend.-The directors yesterday declared a stock dividend of 25% on the common stock calling for the issue of about 179,000 new common shares. The regular quarterly dividend of 2% on the stock was also declared. The "Boston News Bureau" gives the following to show that the company has increased its capital by only 53% in the past eight years, while the net earnings per annum have increased 155%.

Susquehanna Electric Power Co.-See Susquehanna Power Co. below.-V. 79, p. 737.

Susquehanna Power Co .- New Stock for Projected Enterprise.—A meeting of the shareholders was to be held at the office in Conowingo, Md., on May 21 for the purpose of increasing the capital stock from \$3,500,000 to \$5,000,000 by the creation of \$1,500,000 preferred stock.

The company is controlled by New York and Philadelphia capitalists, its officers including B. Harvey Welsh, of Philadelphia, Pa., who is President, 1110 Betz Building, Philadelphia, and Joel H. DeVictor. 505 Chestnut Street, Philadelphia, Sceretary. Among the directors are: B. Harvey Welsh, Joel H. DeVictor, James H. Harlow, Lemuel H. Woddrop, C. William Weddrop, Edward D. Easton. The plan is to establish an hydro-electric plant on the Susquehanna River near Conowingo, Md., to develop from 50,000 to 70,000 horse-power and to transmit the electricity for power, and lighting nurposes.

from 50,000 to 70,000 horse-power and to transmit the electricity for power and lighting purposes. The McCall's Ferry Power Co., backed by Harvey Fisk & Sons of New York, has for some months past been engaged in the construction of an extensive hydro-electric plant at McCall's Ferry on the Susquehanna about at miles above Conowingo. Between the property of the Susquehanna Power Co. and the McCall's Ferry Power Co., it is stated, is the proposed location of the projected plant of the Susquehanna Electric Power Co. (V. 71, p. 290; V. 72, p. 824; V. 75, p. 33, 1150; V. 78, p. 992) in which attimore capitalists are interested. The Susquehanna Power Co, first Baltimore capitalists are interested. The Susquehanna A description of the "Manufacturers Record" of Oct. 4 1906 contained a description of the McCall enterprise and the same paper, in its issues of Jan. 3 and Feb. 7 had references to the project of the Susquehanna Power Co.

Tidewater Steel Co.-Option Sought.-The reorganization committee have notified the shareholders that a party in Cleveland has asked for an option on the stock at 75 cents

^{*} As applied to the 714,313 shares of common stock n V. 84, p. 1372.

United States Crushed Stone Co., Chicago.-Bond Issue.-This company, incorporated under the laws of the State of Maine, its capital stock being \$600,000, all of one class and all outstanding, par of shares \$100, has made a consolidated first mortgage to the First Trust & Savings Bank and Emile K. Boiset, both of Chicago, as trustees to secure an issue of \$600,000 5% gold bonds, dated April 1 1907.

Secure an Issue of \$600,000 5% gold bonds, dated April 1 1907. The bonds will mature April 1 1927, but are subject to call on April 1 1912 or any interest day thereafter to any amount at 105. Interest payable April 1 and Oct. 1 at office of First Trust & Savings Bank, Chicago. Annual sinking fund, beginning April 1 1912, in amounts sufficient to pay 215% of outstanding bonds yearly. Of the authorized issue \$110,000 is reserved to retire \$100,500 underlying mortgares. The deed of trust covers both the McCook Quarry with 170 acres of stone land in Cook County. Ill., and the Ives Quarry in Racine County. Wis., with 100 acres; also large crushing plants. The properties, it is said, have a capacity of 900,000 tons per year. President, Charles A. Klotz; Secretary and Treasurer, Samuel Deutsch.
Innited States Envelope Co. Springfield Moss — Accused.

United States Envelope Co., Springfield, Mass.—Acquisi-on—New Plant.—Treasurer M. M. Wharfield recently confirmed the reported purchase of a large tract of land lying between the railroad and Cypress Street, Springfield, Mass., as the site for a large factory building, which, as tentatively planned, would cost from \$300,000 to \$400,000, and contain between 350,000 and 400,000 square feet of floor space, being, it is said, about twice what the company has now. Definite plans, financial and otherwise, in connection with 384.

or FRASER Digitized uisfed.org **United States Rubber Co.**—*Listed.*—The New York Stock Exchange has listed \$800,000 additional first preferred stock with an extension of time to Nov. 1 1907, to be granted to the company to list \$2,413,900 additional first preferred and \$151,400 additional second preferred, making the totals authorized to be listed under this and previous applications as follows: \$38,676,900 first preferred and \$10,000 second preferred. The last official application says:

preferred. The last official application says: The present authorized capital stock consists of \$40,000,000 1st preferred, \$10,000,000 second pref. and \$25,000,000 common stock. There is now outstanding \$36,263,000 first preferred and \$9,848,600 second preferred and \$25,000,000 common. Of the common stock \$1,334,000 is in the treasury of the Meyer Rubber Co. and has not been listed. In the application dated Jan. 31 1906 it was stated that the Meyer Rubber Co., one of the original subsidiary companies, had for some years served as a holding company for the United States Rubber Co. and had acquired and then held in its treasury 58,000 shares of the first preferred stock of the United States Rubber Co. Under said application of Jan. 31 1906, authority was given for the listing of 50,000 of said shares of first preferred stock so held by said Meyer Rubber Co., which said Meyer Rubber Co. had then sold for cash. It being deemed desirable that said company should convert into cash the remaining 8,000 shares of first preferred stock still held in its treasury, said Meyer Rubber Co. has sold said 8,000 shares on the basis of \$100 per share, or for the sum of \$800,000, which sum has been received in cash in its treasury for its corporate purposes, and ultimately for the corporate purposes of the United States Rubber Co.—V. 84, p. 1373, 1252.

United Steel Co., Canton, O.—New Stock.—This company, incorporated in Delaware on July 23, 1902, with \$500,000 capital stock, to build an open-hearth furnace at Canton, to supply the Carnahan Tin Plate & Sheet Co. (V. 84, p. 695) and other Canton enterprises with steel, has increased its capital stock from \$500,000 to \$750,000. J. E. Carnahan is President.

United Water Improvement Co., Philadelphia.—Receivership.—Judge McGill in the Common Pleas Court at Philadelphia on May 31 appointed President W. W. Gibbs of Philadelphia as receiver for the company in equity proceedings brought by the Electric Storage Battery Co., a creditor to the extent of \$2,845. The company admits that it is temporarily embarrassed for want of ready money.

The company was organized by Mr. Glbbs in 1905 with \$5,000,000 capital stock, of which \$1,000,000 is 7 % preferred (par of shares \$50), to purchase, oreign patents covering the ozone system for the purifiation of water and to install this system for municipalities in the United States. The outstanding capital stock is stated as \$4,728,000, of which \$728,000 is preferred. The common stock, it was said, would be given as a bonus with the preferred. The floating debt is now stated as about \$100,000. Negotiations for the establishment of the system in New York City are reputed to have progressed favorably.

Warwick & Coventry (2. I.) Water Co.—New Mortgage.— A mortgage has been filed to the Industrial Trust Co. of Providence, as trustee, to secure \$500,000 5% bonds.

Of this issue \$250,000 will be reserved to take up the \$250,000 first mortgage 5% bonds maturing in 1909, and the remainder will be used for improvements and additions, including the jurchase of other companies. Company was incorporated in 1887 by General Assembly of Rhode Island. Options at \$30 per share were recently reported to have been secured on all the common stock of the Pawtuxet Valley Water Co. John J. Arnold is President and Herbert B. Barton, Secretary.

-The American Bank Note Co. has just completed the order of the New York New Haven & Hartford RR. French loan for \$29,000,000. There were 290,000 bonds of 500 francs denomination. This required the engraving of about 114 plates weighing 2,000 pounds and the printing of 4,350,000 separate impressions. Including coupons, there were 18,-270,000 numbers placed on the bonds. If the total number of sheets were laid lengthwise, in one continuous line, they would reach 206 miles. Almost 12 miles of wire stapling and 55 miles of tape were used to bind bonds and coupons, and the total weight of both was 1034 tons. Deliveries were made at the rate of 10,000 bonds a day. The printing is in green ink and the text of both bond and coupons are in English and French. The printing of such securities is done with rigid care. The American Bank Note Co., which made both the fifty million loan of the Pennsylvania and the New Haven bonds, employs a system of scrutiny that traces the minutest detail of manufacture. From the time the paper leaves the mill until the finished bonds are delivered every step is watched. The sheets in the New Haven issue were counted about sixteen million times during manufacture. -O. M. Hopkins, who for several years was in the Boston office of E. H. Rollins & Sons, and for the past few years has been associated with the Chicago bond house of F. R. Fulton & Co., has opened an independent office in the Tacoma Building, Chicago, 131 La Salle Street, and will deal in municipal bonds and other high-grade investment securities.

The Commercial Times. COMMERCIAL EPITOME.

Friday Night, June 14 1907.

Although trade is still hampered by a backward season aggregate transactions remain very large. In fact they continue to record gains over a year ago and still more so when compared with those of two years ago. The feeling is confident, prices are firm, manufacturers are everywhere active.

LARD on the spot has declined, owing to weakness in the market for futures at the West, the break in the grain markets and a reactionary tendency in live hogs. Trade has been stagnant at the decline. City 8.62½c. and Western 8.60@8.75c. Refined lard has also declined with trade dull and offerings larger. Refined continent 9.25c., South America 10.35c. and Brazil in kegs 11.35c. The speculation in lard futures at the West has been active with the tendency of prices towards a lower level. The decline in the grain markets has had a depressing effect; so has the dulness of the spot trade and an easier tone at the stock yards. Packers have bought at times but there has been a lack of aggressive support.

DAILY CLOSING PRICES	OF LAF	RD FUT	URES	IN CHIC.	AGO.
September delivery9.02 1/2	$8.90 \\ 9.07 \frac{1}{2}$	$8.75 \\ 8.92\frac{1}{5}$	8.55 8.72 1/3		8.60

PORK on the spot has been easier, but there has been no marked change in quotations. Trade has been quiet. Mess \$17 50@\$18 25, clear \$17 25@\$18 and family \$19@\$19 50 Cut meats have been irregular but in the main easier, owing to dulness and larger offerings. Pickled shoulders 934@10c., pickled hams $12\frac{1}{4}$ @12¹/₂c. and pickled bellies $10\frac{3}{4}$ @11¹/₄c. Tallow has been quiet and steady; city $6\frac{1}{4}$ @ $6\frac{1}{2}$ c. Stearines have been moderately active and firm; oleo $9\frac{1}{2}$ @ $9\frac{3}{4}$ c. and lard $10\frac{1}{4}$ c. Butter has been quiet and easier; creamery extras $23\frac{1}{2}$ @24c. Cheese has been weak on large stocks; State, small or large, colored or white, best, $11\frac{3}{4}$ c. Eggs have been quiet and easy; Western, firsts, $15\frac{1}{2}$ @ $15\frac{3}{4}$ c.

OIL.—Cotton seed has been quiet and easy. Prime summer yellow 59@61c.; prime winter yellow 64@65c. Linseed has been active and firm. Refiners show disinclination to sell for forward delivery. City, raw, American seed, 45@46c.; boiled 46@47c.; Calcutta, raw, 70c. Lard has been quiet and easier owing to lower prices for the raw material. Prime 76@78c.; No. 1 extra 57@58c. Cocoanut has been quiet and steady; Cochin 101/4@101/2c. and Ceylon 91/3@91/4c. Peanut has been quiet and steady; yellow 50@60c. Olive has been fairly active and steady; domestic 38@40c. and Newfoundland 40@42c.

COFFEE on the spot has been dull at 63%c. for Rio No. 7. West India growths have been quiet and steady. Fair to good Cucuta 81%@91%c. The speculation in future contracts has been extremely dull with correspondingly small fluctuations in prices. The feeling has been somewhat easier in the main, but this has been due as much as anything to the stagnation of the speculation. There has been some selling, however, against firm offers from Brazil and some tired holders have liquidated. Rumors that the valorization scheme has been abandoned have been ridiculed and have had little effect on the market. It is stated, however, that the Brazilian Government has ceased making purchases.

The closing prices were as follows:

June	5.40c. October	5 15c	February	5 950
JUIV	a.zuc i November	5 1 50	March	F 00-
Augunt	a.lac. December	5 20c	April	5 900
September	5.15c. January	5.25c.	May	5.350

SUGAR.-Raw has been dull and easy. Centrifugal 96degrees test 3 13-16c., muscovado 89-degrees test 3 5-16c. and molasses 89-degrees test 3 1-16c. Refined has been dull and steady. The continued unseasonably cold weather has affected consumption. Granulated 4.90c. Teas have moderately active and firm. Spices have been steady and in fair demand. Hops have been quiet and steady. PETROLEUM.-Refined has been in active demand for both export and domestic account, and prices have ruled strong. Refined, barrels, 8.45c., bulk 5c. and cases 10.90c. Naphtha has been active and firm; 73@76-degrees 18c. in 100-gallon drums. Gasoline has been active and firm; 86degrees 21c. in 100-gallon drums. Spirits of turpentine has been fairly active and steady at $60\frac{1}{2}@61c$. Rosin has been quiet and easier at \$4 55 for common to good strained. TOBACCO.-The market for domestic leaf has been quiet. Manufacturers, as a rule, report that transactions are confined to small lots. More cigar-makers are idle than for some years past, though this is due not only to the dulness of trade but also to the strike among shippers. The tone of the market, however, has been generally firm. Crop reports as a rule are less favorable, owing to the continued unseasonably low temperatures and excessive moisture. Sumatra has been firm. At the last inscription 3,500 bales of Sumatra were purchased for American account. COPPER has been less active and easier; lake 24@241/4c. and electrolytic 22%@23c. I.ead has been fairly active and steady at 5.80@5.85c. Spelter has been quiet and steady at $6.52\frac{1}{2}$ 6.55c. Tin has been less active and irregular; Straits $41\frac{1}{2}$ $41\frac{3}{4}c$. Iron has been firm and more active; No. 1 Northern \$24 20@\$25 20, and No 2 Southern \$24@ \$25

1434

-The Landis Banking Company of Nashville, Tenn., has removed to new offices on the ground floor of the Stahlman Building. Every modern device is utilized in the new quarters to facilitate the conduct of the company's business.

-Waterman, Anthony & Co., 67 Exchange Place, have issued a booklet entitled "Conservatism in Speculation," giving advice as to methods of operating in the stock market.

-Attention is called to the advertisement of "Manufacturing" offering treasury stock.

COTTON.

Friday Night, June 14 1907.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 27,775 bales, against 30,299 bales last week and 47,513 bales the previous week, making the total receipts since the 1st of September 1906, 9,548,588 bales, against 7,513,118 bales for the same period of 1905-06, showing an increase since Sept. 1 1906 of 2,035,470 bales.

Speculation in cotton for future delivery has shown somewhat less activity, and under the influence of better weather over most of the belt prices have declined. The decline has not been very marked, for most of the crop advices have been of an unfavorable kind, speaking of poor stands, grassy fields, weak or dying plants in some sections, and a degree of development at the best which is far behind the normal. The weather in Texas has been hot and dry, however, and elsewhere the conditions have been seemingly so much more favorable than recently that not a little liquidation has been done both at home and abroad. Some evidently groundless rumors were in circulation on Wednesday to the effect that financial trouble was impending in the dry goods trade of this city, and until they were emphatically denied they had some effect. It is admitted of course that the backwardness of the season this year has had an unfavorable influence on retail trade in spring and summer cotton fabrics, but conditions in the dry goods trade for all that are considered eminently sound. On Thursday a report that M. C. D. Borden had bought the entire stock of print cloths at Fall River and had advanced the price 14c. had a stimulating effect, as it was taken to be a rather striking object lesson, showing the feeling of confidence at the East. In the main, however, it has been a week of liquidation in the markets for cotton futures, owing to some improvement in the weather, and also to the fact that comparatively cheerful crop reports are more numerous than they were recently, although the fact is not questioned that the season is late. Moreover, the special report of a New Orleans newspaper which appeared on Monday last was by no means so bullish as had been generally expected, although it dwelt with a certain emphasis on the familiar drawbacks of the present season, and even took the ground that there is likely to be a distinct decrease in the acreage this season, the precise extent of which, how-ever, it did not undertake to determine. To-day, after a slight advance at the opening, prices again fell off, mainly owing to quite a good weather map, some rather favorable crop reports from some sections and general, if moderate, liquidation. The South and Wall Street sold, and some of the room traders sold more freely for a decline, while outside speculation for a rise was less active. Spot cotton has been quiet during the week. Middling uplands closed at 13.15c., showing a decline for the week of 10 points.

The rates on and off middling, as established Nov. 21 1906 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

Fatr	Strict low midc_ 0.14 off Middling tinged_c_ 0.12 off

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic reports from the South this evening indicate that the weather has been favorable quite generally the past week. Rain has fallen in most sections, but on the whole the precipitation has been light, and in a number of districts of Texas dry weather has prevailed. As a rule our advices denote that the crop is improving. Boll-weevils are claimed to have caused some damage in Texas.

Galveston, Texas.-Favorable weather has permitted farmers to make good progress in clearing crops and getting stands. There are complaints coming in from some sections of Texas of damage by boll weevils and in other districts it is claimed that showers would be beneficial. Rain has fallen on one day of the week, to an inappreciable extent. Average thermometer 82, highest 86, lowest 78.

Cuero, Texas.-We have had no rain during the week. Average thermometer 86, highest 98 and lowest 74.

Dallas, Texas.-We have had excessive rain on one day during the week, the precipitation being one inch and eightyone hundredths. The thermometer has averaged 80, the highest being 95 and the lowest 65.

Fort Worth, Texas.-We have had rain on one day of the eek, the precipitation being eighty-two hundredths of an The thermometer has averaged 80, ranging from 66 inch. to 94. Henrietta, Texas.-There has been rain on one day the past week, the rainfall being forty hundredths. T mometer has ranged from 60 to 103, averaging 82. The ther-Huntsville, Texas.-We have had no rain during the week. Average thermometer 85, highest 95 and lowest 74. Kerrville, Texas.-Rain has fallen lightly on one day of the week, to the extent of two hundredths of an inch. The thermometer has averaged 82, the highest being 93 and the lowest 70. Lampasas, Texas.—We have had no rain the past week. Thermometer has averaged 85, ranging from 70 to 99. Longview, Texas.-We have had no rain during the week. The thermometer has ranged from 73 to 96, averaging 85. Luling, Texas.-We have had no rain during the week. Average thermometer 84, highest 93 and lowest 75. Nacogdoches, Texas.—We have had no rain the past week. The thermometer has averaged 82, the highest being 91 and the lowest 73. Palestine, Texas.-We have had no rain during the week. Thermometer has averaged 82, ranging from 74 to 90. Paris, Texas.-We have had rain on three days during the week, the precipitation being ninety hundredths of an inch. The thermometer has ranged from 65 to 92, averaging 79.

Weatherford, Texas .- We have had showers on two days during the week, to the extent of twenty-seven hundredths of an inch. The thermometer has averaged 82, the highest being 98 and the lowest 66.

New Orleans, Louisiana .- We have had rain on two days of the week, the precipitation being twenty-six hundredths

of an inch. The thermometer has averaged 81. Shreveport, Louisiana.—There has been no rain the past week. The thermometer has ranged from 71 to 93. Leland, Mississippi.—We have had rain during the week,

the rainfall reaching ninety-six hundredths of an inch. Average thermometer 74, lowest 87 and lowest 60. Vicksburg, Mississippi.—We have had rain on one day

during the week, the precipitation being two inches and twenty hundredths. The thermometer has averaged 77, the highest being 88 and the lowest 65.

Helena, Arkansas.—Condition of cotton is slightly im-proved, but the plant is backward. Rain has fallen lightly on two days of the week, the precipitation reaching thirty-seven hundredths of an inch. The thermometer has averaged seven hundredths of an inch. 42.6, ranging from 32 to 53.

Little Rock, Arkynsas.-The weather has continued favorable for farming operations. Cotton is improving but the plant is still small and about five weeks late. We have had rain on one day during the week, the precipitation being eighty-two hundredths of an inch. The thermometer has ranged from 65 to 91, averaging 78.

Nashville, Tennessee.—The weather the past week has been favorable for crops. We have had rain to the extent of one inch and forty-three hundredths. The thermometer has averaged 75, the highest being 91 and the lowest 60.

Memphis, Tennessee.—Continued favorable weather the past week and crop reports are improving. We have had rain on two days during the past week, the rainfall being twenty-eight hundredths of an inch. Average thermometer 79.2, highest 89.2 and lowest 67.2.

Augusta, Georgia.—We have had rain on three days the past week, to the extent of fifty-eight hundredths of an inch. The thermometer has averaged 78, ranging from 56 to 96.

Mobile, Alabama .- Weather has been favorable and crop reports are improving. We have had rain on two days dur-ing the week, the rainfall being eight hundredths of an inch.

Thermometer has averaged 79, ranging from 73 to 88. Montgomery, Alabama.—Crops are improving some and farmers are hard at work conquering grass. There has been rain on two days of the past week, the rainfall being forty-six hundredths of an inch. The thermometer has ranged from

66 to 91, averaging 78. Selma, Alabama.—There has been rain on two days the past week, the rainfall being one inch. Average thermometer 76.5, highest 87, lowest 66.

Madison, Florida.—We have had light showers on two days during the week. The thermometer has averaged 81, the highest being 93 and the lowest 70.

Savannah, Georgia.-There has been rain on three days during the week, the precipitation being one inch and eighteen hundredths. The thermometer has ranged from 65 to 96, averaging 79.

Charleston, South Carolina .- Rainfall for the week thirtythree hundredths of an inch, on four days. Average ther-

mometer 79, highest 90 and lowest 67. Charlotte, North Carolina.—We have had rain during the week, the rainfall being one inch. The thermometer has ranged from 57 to 85, averaging 71.

The following statement we have also received by tel graph, showing the height of rivers at the ports nam at 8 a. m. of the dates given:

JUTE BUTTS, BAGGING, ETC.—The demand for jute bagging has been strictly moderate during the week under review, but prices are firm at 9% c. for 2 lbs., standard grades. Jute butts dull at 3@4c. for bagging quality.

[VOL. LXXXIV.

WORLD'S SUPPLY AND TAKINGS OF COTTON .---The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Sept. 1, for the last two seasons, from all sources from which statistics are obtainable; also the takings, or amount gone out of sight, for the like period.

MANCHESTER MARKET .- Our report received by cable to-night from Manchester states that the market is dull for yarns and quiet for shirtings. Merchants are buying very sparingly. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

Cotton Takings.	190	6-07.	190	5-06.	yea	r for c	ompai	riso

EUROPEAN COTTON CONSUMPTION TO JUNE 1.— By cable to-day we have Mr. Ellison's cotton figures brought down to June 1. We give also revised totals for last year that comparison may be made. The spinners' takings in actual bales and pounds have been as follows:

Oct. 1 to June 1.	Great Britain.	Continent.	Total.
For 1906-07. Takings by spinnersbales_ Average weight of baleslbs_ Takings in poundsb	502	. 480	7,843,000 488.6 3,831,884,000
For 1905-06. Takings by spinnersbales_ Average weight of baleslbs_ Takings in poundsbs_	497	481	487.7

According to the above, the average weight of the deliveric^S in Great Britain is 502 pounds per bale this season agains 497 pounds during the same time last season. The Conti-nental deliveries average 480 pounds, against 481 pounds last year, and for the whole of Europe the deliveries average 488.6 pounds per bale, against 487.7 pounds last season. Our dispatch also gives the full movement for this year and last year in bales of 500 pounds.

Oct. 1 to June 1.	1	1906-07.		1905-06.			
Bales of 500 lbs. each. 000s omitted.	Great Britain	Conti- nent.				Total.

BREADSTUFFS.

Friday, June 14 1907.

Prices for wheat flour have declined as a rule, influenced mainly by the break in wheat quotations and the improved crop outlook in this country; but the continued dulness of trade has also contributed to the depression. Buyers show little inclination to take more than enough flour to satisfy immediate requirements, while export trade has continued at a standstill. Reports from the large milling centres of the Northwest and the Southwest, as well as from the West, show that trade there has also been on a very restricted scale. Corn meal and rye flour have been quiet and steady.

Wheat has declined sharply, owing to better weather, more favorable crop accounts and liquidation both at home and abroad. The Government report which was issued on June 10 was not so unfavorable as had been expected. It gave the condition of winter wheat on June 1 as 77.4%, against 82.9 on May 1 this year and 82.7 on June 1 last year. The acreage was stated as 28,132,000 acres, against 29,-623,000 last year. The crop, on this basis, is estimated at 379,782,000 bushels, against 492,888,004 last year and 428,-462,834 the year before. The spring-wheat condition was given as 88.7%, against 93 last year, which was taken to mean a crop of 255,192,000 bushels, against 242,372,966 last year and 264,516,655 the year before. The total crop is thus estimated at 634,974,000 bushels, against the final yield last year of 735,260,000 bushels and in the year before 692,979,000 bushels. Some of the very large Western oper-ators, having recently sold out their "long" holdings, took the opposite tack and have recently been endeavoring to depress the market. Favored by the better weather and the more cheerful character of the crop advices, both at home and abroad, they have had considerable success. On Wednesday prices fell about 3 cents. In fact, the general trend of prices has been downward ever since the Government report appeared, as it showed that conditions in the belt were better than had been generally supposed. Furthermore, the world's shipments were very large and the foreign markets have been declining. Private advices from the Northwest have been more favorable. The Kansas State report was not very cheerful, but it has been offset by the conditions elsewhere in the belt. About the only new bullish feature has been some increase in the export demand. The crop estimates show, too, that the yield in this country this season is likely to be fully 100,000,000 bushels smaller than that of last year, and though the European outlook has improved somewhat, it appears to be taken for granted that its production will be rather less than that of last year. To-day prices gave way again under continued favorable weather, crop reports of a more cheerful character and some decline in Liverpool, where cargoes off coast were reported to be offered more freely. The Continental markets, however, were noticeably steady.

weather of late has been warmer, as a rule, with more sunshine, and there is believed to be still plenty of time for the crop to catch up. The receipts, furthermore, have been large, country acceptances have increased at times and the cash demand has been dull at easier prices. Contract stocks at Chicago, however, continue small, and this fact has tended to restrict short selling. To-day prices declined on the weakness of wheat, favorable weather and liquidation.

Oats for future delivery in the Western market have declined sharpiy, owing mainly to heavy liquidation attributed to interests recently prominent on the long side of the market. Then, too, bears have shown more aggressiveness, the cash trade has been dull, and some of the private crop reports have been more favorable. The Government report on the 10th inst. was better than expected, stating the condition on June 1 at 81.6%, against 85.9% a year ago. The acreage, however, is about 1,500,000 acres larger than the area harvested last season. This report was taken to indicate a yield of 979,370,000 bushels, against 964,904,522 last year. To-day prices were easier on further liquidation.

AGRICULTURAL DEPARTMENT REPORT ON CE-REALS, ETC.—The report of the Department of Agriculture, showing the condition of the cereal crops on June 1, was issued on the 10th inst., and is as follows:

The Crop Reporting Board of the Bureau of Statistics of the Department of Agriculture finds, from the reports of the correspondents and agents of the Bureau,

as follows: Preliminary returns on the acreage of spring wheat sown indicate an area of about 16,464.000 acres, a decrease of 1,242,000 acres, or 7%, as compared with the final estimate of the acreage sown last year (17,706,000). The average condition of spring wheat on June 1 was 88.7, as compared with 93.4 at the corresponding date last year, 93.7 on June 1 1905 and a ten-year average

of 93.3.

The average condition of winter wheat on June 1 was 77.4, as compared with 82.9 on May 1 1907, 82.7 on June 1 1906, 85.5 on June 1 1905 and a ten-year average of 81.1. The following table shows for the principal wheat States the acreage compared with

last year, and the condition on June 1 in each of the last four years, with a ten-year average:

Indian corn futures have declined, owing to the sharp reaction in wheat and oats and general liquidation. The crop is undoubtedly backward in many sections, but the

*Not including winter-wheat area of these States, which is given under "other winter.'

 $N_{ote.-}$ Three ciphers (000) omitted from acreage figures.

The total area reported in oats is about 31,491,000 acres, an increase of 532,000 acres, or 1.7%, as compared with the final estimate of the area sown last year (30,959,000)

(30,959,000). The average condition of oats on June 1 was 81.6, against 85.9 on June 1 1906, 92.9 at the corresponding date in 1905 and a ten-year average of 89.7. The following table shows for the thirteen principal oats States the acreage com-pared with last year, on a percentage basis, and the condition on June 1 in each of the last three years, with the ten-year June averages:

	Acreage		Condition	June 1.	
States.	compared with last year.	1907.	1906.	1905.	Ten-year average.

United States	101.7	81.6	85.9	92.9	89.7

The acreage reported as under barley is less than that finally estimated as sown last year by about 171,000 acres, or 2.7%. The average condition of barley is 84.9, against 93.5 on June 1 1906, 93.7 on June

1 1905 and a ten-year average of 89.8. The average condition of rye is 88.1, against 89.9 on June 1 1906, 93.6 on June 1 1905 and 90.2 the mean of the corresponding averages of the last ten years.

GOVERNMENT WEEKLY WEATHER REPORT. Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the weather in the various States for the week ending June 10, summarizing them as follows:

On the Pacific Coast and In the central and west Gulf States the tem-On the Pacific Coast and In the central and west Gulf States the tem-perature during the week ending June 10 was favorable and beneficial tem-perature also prevalled during the latter part of the week in Tennessee and the east Gulf States; elsewhere the weather was abnormally cold, especially over the northern portion of the central valleys and in the Lake region and Atlantic Coast districts northward of North Carolina. Light frosts occurred in the western portion of the upper Lake region and in the lower Lake re-gion. Portions of the lower Missouri, central Mississippi and Ohio valleys experienced very heavy rains, which caused overflows that resulted in con-siderable damage. In the Southern States the rainfall was very light, none having fallen over a large part of that section. Cloudy weather was prevalent generally throughout the central and northern districts east of the Rocky Mountains, but in the Southern States there, was abundant sunshine. sunshine

For other tables usually given here, see page 1408.

THE DRY GOODS TRADE.

New York, Friday Night, June 14 1907.

The general conditions of the market have not undergone any material change during the past week. The weather has shown some improvement, but has not on any day been of really seasonable character, and while distribution by the retail trade may have increased somewhat, the expansion has done little to relieve it of the burden of stocks, much heavier than it ought to be carrying at this time of the year. Rumors adverse to the credit of certain large uptown stores were freely circulating around Wall Street during the past day or two, but investigation shows that these have no real foundation, and were probably based upon the fact that the weather hitherto has materially interfered with the distribution of spring and summer goods, and the further fact that in a number of instances payments have not been made quite as promptly as they might have been under more favorable conditions. With this, so far as can be learned, the only basis, the rumors referred to were used for speculative purposes on the Stock Exchange and in the cotton market. The general demand for cotton goods at first hands this week has been of moderate extent only, but still quite sufficient to absorb all unsold supplies coming forward and to prevent any stock accumulations. The tone continues good and prices are firm to a hardening tendency in nearly all directions, with occasional advances quoted on

sheetings and drills remain firm here, it is evident that it has not been of sufficient volume to affect manufacturers. Light-weight sheetings, which are well sold ahead, are very firm, with current business of moderate dimensions only. Bleached muslins in all grades are moving out in considerable quantities on existing contracts, and orders coming to hand during the week have, in a number of instances, been ac-cepted "at value only." There are few coarse colored cottons in the market available for quick delivery, and sellers continue difficult to deal with; a similar condition prevailing in the general run of napped fabrics. Printed fabrics are firm for calicos and the heavier descriptions, but the hesitation noticeable last week in thin sheer goods is still evident. Ginghams are firm with new orders moderate in volume. Advances have been quoted in silesias and other converted linings, and the linings market generally is in clean condition. A large purchase of regular print cloths by a leading Fall River printer is said to have absolutely cleaned up the market of these, and as a nominal quotation 5 cents is named. Narrow odds and standard and irregular wide cloths are very firm with a considerable demand.

WOOLEN GOODS .- New lines of men's wear woolen and worsted fabrics for the spring of 1908 are being steadily put before buyers, and this helps to keep business moving in very fair volume. The prices named on the latest additions are in keeping with those previously reported and do not bring about any real change in the price situation. In spite of the fact that clothiers have had such an unsatisfactory spring trade this year, the orders placed for serges for next spring up to date will suffer little in comparison with the volume booked a year ago for the corresponding period. There are few of the higher grades of fancy fabrics shown so far, and indications point to a long-drawn-out season in connection with these. Overcoatings for next spring are being opened, but evoke only a mild response from buyers, and business in cloakings is generally dull. In spring lines of woolen and worsted dress goods a quiet business is being put through on staple varieties, but there is not enough doing as yet to determine tangibly the spring situation. Reorders for fall lines have been quite moderate in all descriptions

FOREIGN DRY GOODS.—Importers have booked a fair number of orders during the week, chiefly for broadcloths and mohairs, the demand running upon these. There has been a moderate increase in business in piece silks for fall, but the demand for ribbons continues quiet. Linens are slow for quick delivery, and forward business is more or less interfered with by the extreme prices asked at first hands. Burlaps are quiet and in occasional instances easier to buy, but without general reductions in quotations.

Importations and Warehouse Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending June 8 1907 and since Jan. 1 1907, and for the corresponding periods of last year, are as follows:

\$5,970,639 in 1907, against \$8,106,892 in 1906.

The prominent feature in heavy brown cottons is the fact that further purchases of these have been made in China for importation into this country. The extent of business thus done is variously estimated, but as prices of both heavy

CITY DEPARTMENT. STATE AND

Bond Calls and Redemptions.

Silver Bow_County (P. O. Butte), Mont.-Bond Call.-The County Treasurer will redeem July 1, \$125,000 15-20year (optional) bonds issued July 1 1892, numbered 1 to 125 inclusive. Denomination \$1,000.

Bond Proposals and Negotiations this week have been as follows:

Adams County (P. O. Natchez), Miss.—Bonds Proposed.-The Board of Supervisors is considering the advisability of issuing \$10,000 road-graveling bonds.

Adel, Berrien County, Ga.—Bond Sale.—This city recently disposed of the \$25,000 5% 30-year water-works and city-hall-building bonds offered without success on April 15 (V. 84, p. 1066) to the Bank of Adel.

Akely School District (P. O. Akely), Hubbard County, Minn.—Bonds Authorized.—This district has authorized the issuance of \$8,000 school-building bonds.

Akron, Summit County, Ohio.—Bonds Proposed.—Ordi-nances are before the City Council providing for the issuance of the following bonds:

- \$6,040 Bittman Street extension bonds. Denomination \$1,000, except one bond for \$500. Maturity party yearly on June 1 from 1908 to 1910 inclusive.
 2,000 Marvin Avenue improvement bonds. Denomination \$1,000. Maturity \$1,000 on June 1 1908 and \$1,000 on June 1 1909.

The above bonds are dated June 1 1907.

Allegheny, Allegheny County, Pa.—Litigation.—Accord-ing to the "Pittsburgh Press" injunction proceedings have been instituted by Councilman E. G. Lang to restrain the issuance of the \$1,000,000 4% registered reservoir and watermain bonds offered but not sold on May 30. See V. 84, p. 1318. The case came up for hearing in the Court of Common Pleas on June 13.

Antigo, Langlade County, Wis.—Bond Offering.—Further details are at hand relative to the offering on Aug. 1 of the \$10,000 41/2% coupon refunding bonds mentioned in V. 84, p. 1318. Proposals will be received until 2.30 p. m. on that day by G. O. Palmiter, City Clerk. Denomniation \$2,000. Date July 1 1907. Interest semi-annually at the First Na-tional Bank of Antigo. Maturity \$2,000 yearly on July 1 from 1922 to 1926 inclusive. Certified check for 5%, payable to the City Clerk, is required.

Antlers, Ind. Ter.-Bonds Voted and Sold .- This city on June 4 authorized the issuance of \$8,000 6% 30-year school bonds by a vote of 122 to 0. These bonds, we are informed, have been awarded to R. J. Edwards of Oklahoma City.

Bamberg, Bamberg County, So. Car.-Bonds Voted.-An election held May 7 resulted in a vote of 67 to 23 in favor of a proposition to issue \$7,000 water-works bonds.

Bath, Sagadahoc County, Me.—Offering.—Proposals will be received until 8 p. m. June 17 by John A. Morse, Chairman of the Finance Committee, "for the whole or any part of one or more of the following issues:"

- \$90,000 4% gold coupon refunding bonds. Interest semi-annually at the Clty Trust Co. of Boston. Maturity \$10,000 yearly on July 1 from 1911 to 1919 inclusive.
 90,000 4½% coupon notes. Interest semi-annually at the Clty Trust Co. of Boston. Maturity July 1 1909.
 90,000 temporary loan notes. Denomination \$5,000 to \$10,000. "Six months' interest paid in advance on July 1 1907 and Jan. 1 1908." Maturity July 1 1908.

The above bonds or notes will be issued under authority of Section 75, Chapter 4, of the Revised Statutes of 1903, to refund \$91,000 $4\frac{1}{2}\%$ bonds maturing July 1 1907. Date July 1 1907. Official circular states there has never been any default in the payment of principal or interest on previous Thorndike, Palmer & Thayer of issues and that Story, Boston will certify to the legality of the bonds or notes issued. Bath, Steuben County, N. Y.-Bond Offering.-Proposals will be received until 1 p. m. June 17 by A. E. McCall, Village President, for \$5,500 funding and bell-tower bonds. Denominations \$1,000, except one bond of \$1,500. Date July 1 1907. Interest (rate to be named in bids) payable annually at the G. W. Hallock Bank of Bath. Maturity \$1,500 on July 1 1908 and \$1,000 yearly on July 1 from 1909 to 1912 inclusive. Certified check or draft for \$100, drawn on a New York City bank and made payable to Charles L. Davison, Village Treasurer, is required. **Bay City, Bay County, Mich.**—Bond Offering.—Proposals will be received until 12 m. June 24 by C. J. Barnett, City Comptroller, for \$200,000 4% public-park bonds. The official circular states that "the city reserves the right to issue \$50,000 of these bonds in the following denominations: 125 bonds of \$200 each and 50 bonds of \$500 each; and will give the citizens of Bay City the preference in the sale of these \$50,000 bonds; that bids must be made for \$150,000 of the bonds with the above reservation, and for \$200,000 of same without said reservation, and also for the \$50,000 reserved in the denomination specified." Bonds will be dated June 15 1907. Interest semi-annually in New York City. Ma-turity 30 years. Each bid must be accompanied by an unconditional certified check for \$2,000, except the bids for the small denomination of \$50,000 reserved, which shall be ac-companied by a certified check for 2% of the amount bid. Date Sept. 1 1907. Interest semi-annually at the City

Purchaser to pay accrued interest. These securities were offered but not sold on May 27.

same size." adds Mr. Duncan. to see it.)

IT OCCURS TO TS

that the one item of switchboard cords alone for a manual exchange of 3,000 lines would amount to at least \$150 in eighteen months. That is fifteen times the cost of all repair parts on the Sloux City automatic exchange.

THAT IS ONLY ONE

of the many economies of the AUTOMATIC SYSTEM. These economies all help to swell the profits. And the AUTOMATIC, being the best service, commands the highest rates. Low production cost plus high selling price equals big dividends. That is what led to the adoption of the AUTOMATIC TELEPHONE SYSTEM in the following citles:-

Aberdeen S. D. Aberdeen S. D. Akron, Ohio. Allentown, Pa. Auburn, Me. Auburn, N. Y. Battle Creek Mich. Beaver Falls, Pa. Bellingham Wash. Butte, Mont. Cadillac, Mich. Champaign, Ill. Chicago, Ill. Cleburne, Texas Columbus, Ga. Columbus, Ohio. Dayton, Ohio. Denver Colo.
