THE FINANCIAL SITUATION.

Our stock market has been drifting again in an aimless, helpless sort of way, values declining materially. No one need ask now the character of the disease. What is troubling affairs is evident. All parts of the industrial machinery have for the time being been thrown out of gear, inducing severe tension. Money is scarce, bank funds are over-taxed. This is the case not only in New York but over a wide portion of the country and quite generally in the Northwest. The erop movement starts with the surplus reserves of our banks at a very low minimum.

Furthermore, the Southern States—North Carolina, Virginia, Georgia, Alabama and Arkansas—are all of them in a more or less excited and disturbed condition. This has arisen because of the attempted enforcement of State laws which have been enjoined by the Federal courts transferring State legislation to Federal control and jurisdiction. A good deal of irritation and bitterness in public sentiment has arisen out of these proceedings, not alone because of the immediate results, which in most cases have been temporarily adjusted, but by reason of fears entertained as to possible wide stoppage of railroad traffic and travel and possible delays in the movement of cotton, all of which have been at times reported as imminent.

There have also been fresh and extreme exhibitions of bitterness noticeable in all parts of the country against corporations and large accumulations of capital, illustrated by the proceedings, against the Standard Oil Company and the enormous fine that has been imposed. For it seems to be, according to official statements, not justice so much as the conviction of "trust magnates" and the obtaining of "big, conspicuous damages," and the arrest of the officials, which are the objects sought, so as to engross public attention by their very boldness and not allow time for more conservative views to prevail. Hence there have been put afloat rumors of many other similar prosecutions of leading financial organizations and their officials; altogether the state of affairs is said to have utterly discouraged large holders of securities; as a rule they show no desire to buy even at the low figures ruling. Added to the foregoing are evidences of declines in the metal markets and in general business.

The foregoing is a very brief summary of the adverse influences which have made such short work with our security values this week, culminating in disastrous declines on Wednesday and Thursday. Prices as a rule fell on those days to the level of March 14, some going even lower; on Thursday during the last half there was something of a reaction; but yesterday prices declined again and the market closed dull. The severe declines have produced wide distress-not among "magnates," they never suffer much on such an occasion, and it is folly to talk about making of them a public example, the losses chiefly fall upon the large class of incautious, enterprising spirits most prominent in every progressive period, who at such time risk most in public ventures and lose most when the day of trial comes.

A new phase of the current war upon railroads has appeared in Alabama the past week, the road pursued being the Southern, the same as has

been suffering in the North Carolina procedure. The singularity now is that no question of discriminations or of rates is involved, or anything which directly concerns the conduct of the road towards the public in general, the casus belli being simply the removal of a civil suit from the State to the Federal courts. An Act approved, as recently as March 8 last, requires all foreign corporations to procure, for a merely nominal fee, 'a license to do business in Alabama; a provision in that Act forbids removal of a civil case to the Federal courts on penalty of revocation of license. For many years past the insurance companies have been dealing with a like situation. Since the temper of State juries is notoriously hostile to companies which appear as defendants, the railroads think their prospects for just treatment are better in the Federal courts; but the disposition in most States has been to oppose and even to obstruct the transfer. Some States have enacted laws forbidding it, and threats and attempts to revoke license for so doing have been made; disagreements over this have been almost continuous.

At least once the subject has been in the Supreme Court. In Wisconsin, the Home Insurance Company sought to remove a case to the Federal courts, but the State court ignored this and gave judgment against the company; the company went to the Supreme Court, which set aside the judgment, holding that while the company could waive its right of removal, such right existed and the State could not take it away. The Continental then went to the Supreme Court for an injunction to prevent the State officer of Wisconsin from revoking its license for the same cause (transfer of a civil suit), but the Court declined, holding that the State's authority in the matter of a license is complete.

This is, of course, the ground upon which States that have enacted laws prohibiting removal rely for their practical enforcement. Such a statute has lately been proposed in Georgia, and the late session in Arkansas enacted one which not only makes forfeiture of the right to do business a penalty for violation, but imposes a fine of \$1,000 a day for doing business after revocation of right. An injunction has just been issued by a Federal court forbidding enforcement of this statute against the Rock Island.

The legal bearings of this and the issue it raises between State and Federal authority need not be discussed at present; the courts will dispose of that issue in due time. The most immediate thing to be said is that there may be a danger of taking too seriously the talk reported about declaring the Southern Railway "an outlaw," which the State Railway Commission cannot officially take cognizance of, and the hint that it may become necessary to proceed to extremes, &c., if the recusant refuses to submit. All this is but the heated talk of a warm season which has developed a rather unusual amount of hysteria in several matters. It is not supposable that the people of any State can be worked up into such excitement that they must be deprived of transportation service for a time before they can recover their senses. This case, like other cases which have furnished sensational news matter of late, has already been temporarily adjusted (the Southern Railway having, as a concession to the State, and out of a sense of duty to its patrons, agreed to put the new passenger and freight rates into effect

September 1), and the courts, in which we are, unhappily, trusting too much (because the people ought to use calm judgment in the first instance), will take care of it when it reaches a hearing.

Banking Commissioner Berkey of Pennsylvania has created a good deal of consternation among the officers of trust companies of that State by a peculiar ruling. Emphatic protests have caused him to suspend his order until he returns from his vacation, when he will give the complaints further attention. Under the new statute requiring trust companies to maintain a reserve fund, it is provided that one-third of the reserve funds may be kept on deposit subject to call in any bank or trust company in Pennsylvania or located in any reserve city without the State, but the depository must be approved by the Commissioner of Banking. Commissioner Berkey was advised by Attorney-General Todd that under the statute the Commissioner had authority to restrict the depositories in the State of Pennsylvania to the banks and trust companies over which he has supervision. Thereupon the Commissioner rejected a long list of national banks which trust companies all over the State naturally named as depositories which met with their own approval. Counsel for the large trust companies in Philadelphia and other Pennsylvania cities will make a strong effort to have the Commissioner permanently revoke his order, as it is especially desirable to make use of national banks as depositories.

On Wednesday there was a sharp advance in dayto-day loans and a rise to the highest rates for the year in contracts for fixed periods on stock collateral. As the result of such monetary tension foreign exchange declined sharply and the fall therein was accelerated by the offerings of finance and security bills. The negotiation of the former was encouraged by the high rates ruling for ninety-day and six months' loans. As already said, the monetary situation indicates urgent need for relief. The majority of the interior banks report time money at the maximum of the season and at the principal centres many banks are already loaned up to the limit of their resources. The demand incident to this period upon banks at the large Western cities from their correspondents has already begun, and on Thursday there was a transfer through the Treasury of \$500,000 currency to Chicago to aid the crop movement, and a like sum was sent to San Francisco.

The New York institutions last week reported an unusually low surplus reserve for this period of the year, and though there are still due about 10 millions on account of redemptions of 4% of 1907, surrenders thereof are tardy, making it improbable that much relief can be expected from this source in the near future. The Treasury surplus is again accumulating and the cash balance is now so large as seemingly to justify a liberal increase in public deposits in the banks. Though the Secretary has ample authority to act, he has manifested no inclination to relieve the situation through deposits of customs collections in local banks, and, so far as is known, such deposits have not been increased since the end of March, when 15 millions were distributed among New York institutions.

One important factor in the situation is the delay by the Comptroller of the Currency in issuing the mid-

Though the foreign exchange market was firm early in the week, as the result of a good demand for remittance, there was a prompt response Wednesday to the development of a strong tone for time money, and rates for all classes of exchange fell sharply, indicating free offerings of loan bills. The unsettled local securities market on that day was only partially reflected in London because the demoralization here was greatest after the London market closed for the day. On Thursday, however, the effect of the fall in values was more observable at the British capital in unsettled security markets and also in higher discounts, the latter contributing to a sharp fall in long sterling. The London securities market was also unsettled and consols fell to 82, while Canadian Pacific was among the weakest of the stocks; open market discounts at the close were $3\frac{7}{8}@4\frac{1}{8}\%$, or fractionally higher than the official Bank rate. On Friday consols made a new low record of 811/4 and Canadian Pacific was again weak. The above-noted fall in consols and a coincident rise in unofficial discounts at London to 41/8@41/4% seemed to give color to a rumor which, however, could not be verified, that failures of an important character were impending because of committments of British bankers in Egyptian securities. Foreign bankers in New York stated that they had received no advices confirmatory of the above-mentioned rumor; they had, however, been informed of the failure of a banking house in Stockholm, Sweden; but this was not due to any commercial embarrassment.

The advance in discounts in Germany was in part caused by political tension resulting from the Moroccan troubles. It was reported in Berlin that the Japanese Government is seeking to negotiate a loan in Germany, but the opinion was expressed that the effort will be unsuccessful. Rumors from St. Petersburg that Germany will loan Russia 621/2 million dollars for the reconstruction of the navy, with the understanding that all orders for warships will be placed with German firms, are regarded as improbable.

The Agricultural Department's report on grain crops for August 1 was issued at 2 p. m. yesterday, and, as had been generally expected, it indicated an improvement in the outlook for corn. It made the average condition of that crop 82.8 against 80.2 on July 1 this year, 88.1 on August 1 1906 and a ten-year average of 83.2. While the improvement indicated is probably not as great as the most sanguine looked for, it has brought the crop up to near an average condition, and in connection with the increase in area planted (which was 1.4%, making the aggregate acreage 98,099,000against 96,738,000 the previous year) encourages belief in a large crop—a yield exceeded only by that of 1906, the record crop. As regards the large producing States, the condition in Iowa August 1 is reported at 78 against 95 a year ago, Illinois 85 against 82, Kansas 84 against 88, Missouri 86 against 82, Nebraska 82. summer call for a statement of the conditions of the against 84 and Texas 83 against 75. In a number of

the other States the comparison with last year is not as favorable as in the instances noted above. In Ohio the condition on Aug. 1 this year was reported as 78 against 92 a year ago, in Arkansas 70 against 97, Mississippi 77 against 92, Oklahoma 84 against 96, South Dakota 79 against 85, Minnesota 75 against 95, Wisconsin 78 against 89 and Louisiana 75 against 83.

Preliminary returns from the harvest now in progress lead the Department to estimate the winterwheat crop at 409,500,000 bushels, which compares with a yield of 492,888,000 bushels last year and 428,462,834 bushels in 1905. The estimated average yield per acre in some of the principal winter-wheat States is given as follows: Kansas 11.3 bushels this vear against 15.3 bushels in 1906; Indiana 14.4 bushels against 20.7 bushels, Missouri 13.2 bushels against 14.8 bushels, Nebraska 19 bushels against 23.2 bushels, Ohio 16.3 bushels against 20.4 bushels, Illinois 18.0 bushels against 19.5 bushels, California 15.0 bushels against 17.1 bushels, Oklahoma 9 bushels against 14 bushels, Michigan 14.5 bushels against 13.1 bushels, Pennsylvania 18.6 bushels against 17.7 bushels, and Texas 7.4 bushels against 11.5 bushels. In spring wheat there seems to have been considerable deterioration during the month, the condition August 1, according to the Department, having been only 79.4, which compares with 87.2 July 1 and 86.9 on Aug. 1 1906. But compared with the ten-year average (83.4) the present condition percentage does not appear so unfavorable. The condition of oats likewise was lower on August 1 than a month previously, the Department percentage being 75.6 August 1 this year against 81 on July 1, 82.8 August 1 1906 and a ten-year average of 84.9.

Reports issued by the agricultural departments of the various States are as a rule in agreement with the Washington authorities in indicating that the month of July was a favorable one for corn on the whole. The Kansas Board of Agriculture states that corn is making satisfactory growth and that the yield will be up to last year's total of 187,000,000 bushels. The indicated crop of wheat is placed at approximately 65,000,000 bushels, or 28,000,000 bushels less than in 1906. In Wisconsin the month of July, according to State authorities, was uniformly warm, with abundant moisture, inducing very rapid growth of vegetation, and earlier grains are maturing under generally favorable conditions. Winter wheat, rye and barley, which have been largely harvested, promise very satisfactory yields, and corn with a season as late as 1906 is expected to be an average crop. The oats crop has been considerably shortened by rust, blight and insects. Kentucky has prospects of an average yield of both corn and wheat. The Missouri Board of Agriculture reports very favorable weather for growing corn during the month, and while the crop is stated to be eighteen days later than the average, condition is fully up to last year, and with favorable weather and an ordinary fall the entire crop should properly ripen. Damage to wheat from excessive rain is reported, but indications seem to be for a crop of 29 to 30 million bushels. In Ohio the wheat prospect is reported as slightly better than a month ago, but the outlook for oats is less favorable. Investigations by reliable private authorities indicate that the corn crop will be large, exceeded only by last year's record crop, and that the yield of this State. These returns are for July 1, and a feature

wheat will appreciably exceed early expectations. Canadian harvesting returns indicate a very satisfactory winter-wheat crop.

Advices from abroad show no marked change in the situation from a month ago, except that the corn outlook appears to be better in some countries. As officially estimated the Hungarian wheat crop is placed at 118,000,000 bushels against 207,000,000 bushels a year ago. Cables from Argentina denote that wheat has been greatly benefited by recent rains and that generally the outlook is very promising.

It is a quite common error to assume that declines in security values are a matter in which only the moneyed classes have any concern; that therefore the ordinary man may be indifferent to the great shrinkage in values which is now and for a long time past has been in progress. This is the theory upon which our legislators proceed when they enact laws calculated to do harm to railroad and other classes of corporations. The view quite generally held in this regard is well expressed in a remark attributed to Acting Attorney-General Russell of the Department of Justice at Washington and printed in the daily papers yesterday morning. Speaking with reference to the effect on investment interests of the fine imposed upon the Standard Oil Company, Mr. Russell is quoted as saving: "So far as the fine is concerned, it may have operated to convince investors that such part of their dividends as come from rebating and other illegal practices will be less certain in the future." The tone, it will be observed, is half sarcastic and half facetious, and betrays a sort of contempt for the unfortunates who may have their money invested in enterprises which the public authorities are now engaged in hauling over the coals.

This feeling of indifference to investment interests, however, is not confined to any one public official, but is met with on nearly all occasions. Yet the view that only capitalists or people of large means are touched by depreciation in security values is a wholly erroneous one. It is quite possible that in any given case the interest of the ordinary run of people in a railroad or industrial property might be absolutely and relatively small, but this would be no evidence of a like state of things in other properties. The fact is well established that the stocks and bonds of our corporations are held in large amounts by persons of very small means-persons who can lay not the slightest claim to being wealthy or possessing more than a modicum of accumulated savings. But that is not all. The security markets act in unison, and declines in values are sympathetic. A shrinkage in one department is sure to communicate itself to other departments until the whole market feels and shows the adverse effects. It is impossible to attack railroad corporations and industrial concerns without inflicting some degree of mischief on all other grades of securities. We see in what an insidious manner influences of that kind work in the repeated failures of our municipalities in all parts of the country to float their new bond issues and the necessity imposed upon them from time to time to raise their rates of interest if they would attract bids at all.

These remarks are suggested by the appearance of the semi-annual returns of the savings institutions of

in the same is a new high record for both deposits and for aggregate resources. These latter now fall but little below 11/2 thousand million dollars, the precise figures being \$1,490,760,675. The deposits are stated at \$1,394,296,034. But that is not the feature which attracts main attention. We have become well accustomed to growth and take that as a matter of course. It appears, however, that as deposits are expanding and the basis of investments enlarging, the surplus of the institutions is diminishing. We are told that the surplus on the market value of stocks and bonds June 30 1907 was only \$95,743,206, against \$108,671,735 on June 30, 1906. Here then we have a loss of nearly \$13,000,000 in a period of twelve months. The diminution does not reflect poor administration or the incurring of some serious loss; it evidences simply the great decline in the market price of the bonds held by the banks. Savings banks are restricted by law to the choicest and what ought to be the most stable classes of securities to be obtained. Yet even in this class of investments the shrinkage in values has been of such magnitude as to wipe out in a single period of twelve months about 12% of the surplus of the banks.

If we should extend our investigation further back, we would find a still larger loss in surplus. For on Jan. 1 1901 this surplus was reported at \$118,294,-674, whereas now, as we have just seen, the amount is only \$95,743,206. We do not assert that the decline in the market value of such high-grade investments as the savings banks are obliged to hold is entirely due to the crusade against corporations and against wealth which has been prosecuted with so much vigor in recent years. There have undoubtedly been other causes. But there can be no question that the loss of confidence and the feeling of insecurity engendered by this crusade has been one of the main influences tending to discredit all kinds of securities, thus reducing their values. We see, too, in the shrinkage of the surplus of the New York State savings banks how utterly fallacious is the notion that declines in security values affect the rich alone and leave the poor unscathed. The savings institutions are not the repositories of the wealthy. The maximum sum upon which these institutions pay interest in a case of any one depositor is \$3,000. And while no doubt some persons succeed in evading this limitation by opening deposit accounts in several different institutions, the fact remains that the bulk of the deposits represent the accumulations-the little hoards-of the poorer classes of the population, those who lay aside a small amount each year out of their meagre weekly income. It may be truthfully affirmed therefore that anything which strikes at the surplus of the savings banks deals a blow directly at the poor. How long will it be before the legislator learns the lesson?

In a case decided this week by the Inter-State Commerce Commission, the Commission lays down some rules governing railroad transportation rates which are of decided interest at this moment in view of the penalty imposed upon the Standard Oil Company for the failure of the carrier which transported its oil to post freight rates in a proper manner. The Commission says that the published rate governing transportation between two given points, so long as it remains uncanceled, is as fixed and unalterable, either through the Treasury that the inquiry for money from

by the shipper or by the carrier, as if that particular rate had been established by a special Act of Congress. When regularly published, it is no longer the rate imposed by the carrier, but the rate imposed by the law. Regardless of the rate quoted or inserted in a bill of lading, the published rate must be paid by the shipper and actually collected by the carrier. The failure on the part of the shipper to pay, or of the carrier to collect, the full freight charges, based upon the lawfully published rate for the particular movement between two given points, constitutes a breach of the law, and will subject either one or the other, and sometimes both, to its penalties. Not even a Court, the Commission asserts, may interfere with a published rate or authorize a departure from it when it has voluntarily been established by the carrier.

On another point the Commission says that if a carrier, contrary to a shipper's instructions, forwards cars by a more expensive instead of a cheaper route, or, without any instructions, sends the cars by the more expensive route, such action is prima facie without justification and constitutes a fair basis for reparation. But if the shipper gives definite instructions to move the cars by the more expensive route, the carrier is relieved of the obligation to forward by the cheaper route.

There was no change in official rates of discount by any of the European banks this week. Compared with last week, unofficial or open market rates were, as heretofore noted, 3/8@1/2 of 1% higher at London and 1/8 of 1% at Berlin and Frankfort, while those at Paris were unchanged; the higher rates at London were the reflection of the New York situation.

The feature of the statement of the New York Associated Banks last week was the decrease of \$903,100 in cash, which, because of an increase of \$882,375 in reserve requirements, resulted in a reduction in the surplus reserve by \$1,785,475, to \$7,473,200. Loans were increased \$3,787,000 and deposits were augmented \$3,529,500. The bank statement of this week is expected to show, among other items, the shipment of \$500,000 gold to Amsterdam and the transfer of \$500,000 to San Francisco and of a like amount to Chicago, the latter reflecting the beginning of the demand upon banks at this centre from those in the interior for funds incident to the season's crop movement.

After opening comparatively easy this week the market for call money developed activity and strength on Wednesday. This was in part due to an unsettling fall in securities, the result of violent liquidation caused by free selling, and by the absence of support by important interests, who were apparently discouraged by the persistent attacks upon industrial and transportation corporations by Federal and State authorities. Another disturbing factor contributing to the monetary tension on that day was the calling of loans incident to payments by syndicates of considerable amounts of subscriptions for Union Pacific. Southern Pacific and Great Northern stocks. The activity in the call loan branch of the market was reflected in that for time loans on stock collateral, which ruled at the highest rates for the year. The indications in the transfers of currency to the interior this centre for crop-moving purposes had begun tended to limit offerings of funds for fixed periods, lenders generally being desirous of keeping their cash resources available through call loans rather than to place them beyond their control through time contracts, even upon advantageous terms.

Money on call, representing bankers' balances. loaned at the Stock Exchange during the week at 6%and at 2%, averaging about 4%; banks and trust companies loaned at $2\frac{1}{2}$ % as the minimum. On Monday loans were at $2\frac{3}{4}\%$ and at $2\frac{1}{2}\%$ with the bulk of the business at $2\frac{3}{4}$ %. On Tuesday transactions were at 3% and at 2% with the majority at $2\frac{3}{4}\%$. On Wednesday loans were at 6% and at $2\frac{1}{4}\%$ with the bulk of the business at 21/2%. On Thursday transactions were at 5% and at $2\frac{1}{2}$ % with the majority at $4\frac{1}{2}$ %. On Friday loans were at 5% and at $3\frac{1}{2}$ % with the bulk of the business at $4\frac{1}{2}\%$. Time loans on good maixed Stock Exchange collateral were 5% for thirty. .560% for sixty and 6% for ninety days, 61/4% for four and $6\frac{1}{2}$ @7% for five to six months. Commercial paper was quoted nominally at 6% for sixty to ninety-.day endorsed bills receivable, $6@6\frac{1}{2}\%$ for prime and $6\frac{1}{2}$ % and above for good four to six months' single names.

The Bank of England rate of discount remains unchanged at 4%. The cable reports discounts of sixty to ninety-day bank bills in London $4\frac{1}{8}@4\frac{1}{4}\%$. The open market rate at Paris is $3\frac{1}{4}\%$ and at Berlin and Frankfort it is $4\frac{1}{2}@4\frac{3}{4}\%$. According to our special cable from London, the Bank of England lost £777,214 bullion during the week and held £35,062,468 at the close of the week. Our correspondent further advises us that the loss was due largely to shipments to the interior of Great Britain. The details of the movement into and out of the Bank were as follows: Imports, £292,000 (of which £6,000 from Egypt and £286,000 bought in the open market); exports, £7,000 (wholly to Brazil), and shipments of £1,062,000 *net* to the interior of Great Britain.

Though the tone was heavy, the foreign exchange market was without special feature early in the week. There were some offerings of loan bills on Monday. but these were promptly absorbed, so that rates for exchange at the end of that day were only fractionally below those at the opening. The London market was closed on account of a holiday, and therefore there was no news or record of movements to influence operations at this centre. On Tuesday the unsettled securities market in New York on the previous day had a depressing effect upon Americans in London and contributed to an advance in discounts which held in check long sterling in our market; the demand for short for remittance was, however, apparently supplied by bills drawn against the proceeds of discounted Joan drafts; and the market was dull and steady to the close. On Wednesday there was an active movement in exchange, influenced by the unsettled stock market and by the development of tension in time money, and rates for all classes of exchange fell sharply, owing to a pressure of offerings of loan bills and of those against securities which were bought through the arbitrage houses for London account. On Thursday the renewal of monetary tension at the opening again contributed to free drawing of loan bills, under

the influence of which exchange declined, but the later recession in the rates for money on call caused a recovery in short bills, which was aided by the advance in London discounts; long sterling was, however, adversely affected by the higher discounts and it fell heavily. The market was irregular thereafter. The announcement on Tuesday of the engagement of \$500,000 gold coin for shipment to Amsterdam attracted little attention for it was understood that it was a special transaction similar to that which resulted in the export of \$1,000,000 to that centre in the first week of July. The Bank of England secured \$500,000 of the \$3,000,000 Cape gold which was offered in the London bullion market on Tuesday and the remainder was obtained for Continental account. though apparently without competitive bidding.

Nominal rates for sterling exchange are 4 84 for sixty day and 4 871/2 for sight. On Saturday of last week the market was generally lower and, compared with the previous day, there was a fall of 20 points in long to 4 8335@4 8340, of 10 points in short to 4 8670@4 8675 and of 5 points in cables to 4 8730@ 4 8740. On Monday long declined 10 points to 4 8325@4 8330, short 5 points to 4 8665@4 8670 and cables 10 points to 4 8720@4 8725. On Tuesday cables rose 10 points to 4 8730@4 8735, while long and short were unchanged. On Wednesday the market was weak at a decline of 15 points for long to 4 8310@ 4 8320, of 10 points for short to 4 8655@4 8660 and of 15 points for cables to 4 8715@4 8720. On Thursday long fell 10 points to 4 8305@4 8310, short 10 points to 4 8645@4 8655, while cables were unchanged The tone was generally steady on Friday with long 5 points lower and short and cables 10 points higher.

The following shows daily posted rates for sterling exchange by some of the leading drawers.

JAPAN AND KOREA.

The successive steps in the controversy between Japan and Korea, which have resulted in the virtual incorporation of that decrepit kingdom into the Japanese empire, are a curious illustration of how events are bound to move in these days, whenever legitimate interests of progress and civilization come in conflict with the stagnation and apathy of ancient tradition. By the Treaty of Portsmouth the independence of Korea was recognized; in this respect, its position has resembled that of Egypt after the numerous European arrangements and treaties which embraced that State. The course of events in Korea, after the treaty, has been much what it was in Egypt. Precisely as English capital and English citizens moved into Egypt after its first rescue from political anarchy, so Japanese capital and immigration have directed themselves toward Korea. In neither case did the country on which this movement converged claim or exercise any right of objection to the movement; it was, in fact, too plain that such new blood was absolutely essential to preserve not only the land and its industries, but the population itself, from the decay which overcomes a stationary community when the waves of modern progress sweep upon it.

The inevitable result of the Japanese movement toward Korea was the establishment, not long ago, of a protectorate by Japan which involved control of Korea's foreign relations-similar to that asserted by Great Britain, before the Boer War, in the case of the Transvaal-and which claimed a vague and more or less nominal oversight of the maintenance of public order. This latter function arose from the necessity of the case. As was naturally to be expected, the ruling aristocracy of the Korean kingdom split up into hostile factions, the actions of which promised to reduce the entire domain to anarchy. The question then arose squarely, whether Japan, having fought a successful war to preserve Korea from outside aggression, and having invested largely in Korea both its own capital and its own citizens, could permit the falling-back into anarchy. A series of palace plots and attempts at counter-revolutions forced the hand of the so-dalled Japanese Resident-General. Undoubtedly at the insistence of the Japanese officials, but nominally through the demands of the Korean Cabinet, the Emperor has been induced to resign. An effort on his part to obtain recognition as an independent Power through the presence of a delegate at the Hague Conference brought this phase of the matter to a crisis.

Naturally, comment on this action by Japan has varied. In many quarters it is described as ruthless and high-handed. But, as we have seen, the same harsh comment might have been passed on the English there will be.

occupation of Egypt. The truth of the matter is that, in the regime of modern progress, every country. whose location or resources fit it for participation in the general work of civilization is challenged by the world at large to show capacity for civilized government on its own account, or, in default of that, is assumed to be necessarily on the way to submission to the suzerainty of another competent Power. In the discussion of the Japanese action in Korea, reference is frequently made, by way of contrast, to our own relations with the Republic of Cuba. But it must be remembered that in this very case we have denied to Cuba the unrestricted right of making foreign treaties, and have preserved for ourselves the privilege of intervention-which, as every one knows, has very recently been exercised.

We do not see that the case of Korea is substantially different; there are, in fact, arguments in the Korean case which did not exist in the case of Cuba. In both the element of possible danger, through future control of so near a community by foreign or hostile influences, played its part in the ultimate arrangement; in both the question of invested capital was a legitimate basis for the policy adopted. In the case of Korea there exists another highly important consideration which could not have been alleged by the United States in regard to Cuba. Japan, like England of a century ago, is recognized as a community which from the simple pressure of population must send out immigrants and colonizers. The natural outlet for such immigration should be Korea, which, geographically, is as nearly a part of the Japanese dominion as any outside land could be. But if such an immigrating movement, with its natural influence on the civilization and development of Korea, were to be seriously undertaken, it inevitably follows that Japan must insure a stable government in the country to which its citizens go. Establishment of the English rule in India a century or more ago is a historic case in point; and Japan has the greater justification for its course in that Korea is the logical outlet for its population, as India never was for England's.

We believe the nations as a whole will cordially assent to this virtual annexation of Korea by Japan; they have, indeed, already done so by their refusal to countenance at The Hague the Korean Emperor's demands. The London "Spectator" takes the somewhat curious view that the United States is bound to look with disfavor on the Japanese absorption of Korea, and that the incident may later have a part in a coming quarrel for supremacy between Japan and Amer-We confess inability to follow out this reasoning. ica. The United States has already placed itself formally on record as having no ambitions or aspirations on the mainland of the Asiatic Coast; why, under such circumstances, we should object, through simple jealousy, to the present movement of Japan, is difficult to see. It seems to us, indeed, that the reduction of Korea to order, under the hegemony of Japan, may have considerable influence in solving such minor disputes as actually have existed between Japan and us. If there is any force in the arguments of the Pacific Coast, that wholesale immigration from Japan into the United States would be a danger, surely the more such an immigrating movement can be diverted to a different quarter, the less of friction, diplomatic or otherwise,

THE NEW YORK CENTRAL RETURN, AND INCREASES IN WAGES.

The quarterly and half-yearly statements of income of the various Vanderbilt roads, made public on Thursday, possess an unusual degree of interest at this time. In the first place they serve to show how far improving results in the second quarter have served to offset, or rather have failed to offset, the poor net results of the first quarter; and in the second place they constitute pertinent items of news at the present juncture, when, if reports in the daily newspapers are to be believed, a movement is on foot on the part of certain classes of railway employees to obtain still further advances in wages. The "New York Times" on Thursday morning devoted a column to an account of the movement. It stated that representatives of upward of 41,000 organized railroad workers employed on the great railroads of the eastern half of the country had been in secret session for ten days or more at Cambridge Springs, Pa., discussing various plans for obtaining a readjustment of the wage schedules and an advance in pay. The roads involved in the agitation, it was averred, are the Pennsylvania, the New York Central and allied lines, the New Haven, the Central Railroad of New Jersey, the Baltimore & Ohio, the Delaware & Hudson, the Boston & Albany, the Chesapeake & Ohio and the Buffalo Rochester & Pittsburgh.

This information seemed to come as news to railroad officials, who were decidedly surprised to hear that any considerable body of employees should entertain the idea of getting another advance so soon after the advances recently made, and which at present are playing such an important part in swelling the expense accounts of the railroads. If there is any basis for these newspaper statements of a contemplated request for another increase in pay, the idea might as well be at once dismissed. This is no time for the assumption of additional burdens in business affairs anywhere, and least of all by our great transportation lines. If any doubt existed on that point, it would be dispelled by the quarterly and half-yearly returns of earnings now before us.

It will be recalled that the statement of the New York Central Railroad for the March quarter was an extremely poor one. A relatively small increase in gross earnings was attended by a decided angmentation in expenses, leaving a large loss in the net earnings. It was known of course that the 10% advance in the wages of a large class of railroad employees, together with the high cost of materials and supplies. was adding very greatly to the expense accounts of the railroads; but it was felt that the severity of the winter the present year as compared with the very mild weather experienced in the winter months of 1906 must also have played some part in making the showing so exceptionally unfavorable. Hence, much was expected from the operations for the succeeding three months-the June quarter. There was certain to be a large increase in the gross receipts, owing to the fact that comparison would be with the period of suspension of coal-mining in 1906, and expenses, too, were likely to make a better showing, seeing that we had got beyond the winter season. The idea appeared to be a rational one, none too sanguine, and hence everyone looked to see a great part of the loss of the first three months overcome in the second three months.

The figures for the June quarter are now at hand, and what is the outcome? As far as the net earnings are concerned, the June result is better than the March result simply in being less unfavorable. Instead of wiping out the previous loss in net, in whole or in part, the June statement further adds to it. The increase counted on in the gross earnings was realized, reaching in the aggregate \$3,555,155, but the augmentation in expenses was even larger than it had been in the March quarter, notwithstanding that it covers the spring period instead of the winter period with its severe weather. In other words, with \$3,555,155 increase in gross, there has been an increase in expenses of \$3,869,491, involving a loss in net of \$314,336.

Combining the two quarters so as to get the figures for the half-year, the feature of increased expenses stands out in a way that is positively alarming. Stated in brief, gross earnings for the six months have increased \$4,051,670, or a little over 9%. Expenses, on the other hand, have risen in amount of \$6,624,-600, or considerably over 20%. As a consequence, net for the half-year in 1907 falls \$2,572,930 behind the corresponding net for the first half of 1906. That is to say, net this year has been only \$9,530,382, against \$12,103,312 in 1906. The Central was able to offset this loss of net income in its transportation business in part, but only in part, by an increase in its income from investments in the controlled properties. But the extensive new capital outlays which the company has been making have brought with them increased requirements, too, for interest and dividends, while taxes are also constantly being added to. The final result is that for the six months the Central, notwithstanding the higher dividends it has received on its holdings of Lake Shore and Michigan Central stock, &c., has failed to earn its 3% dividend in the sum of \$2,411,593, whereas in the first six months of 1906 there was a surplus of \$563,022 above the call for the 21/2% dividend then paid. In a word, while the dividend distribution has been 3%, calling for \$5,358,960, available net earnings have been hardly more than half that amount.

The subsidiary and controlled roads show results much like the Central itself, heavy expenses being the prevailing characteristic - all except the Lake Shore & Michigan Southern, which in the past has spent enormous amounts for improvements and betterments and charged the same to expenses, and now is prepared to eliminate some of these extraordinary outlays. The Lake Shore for the six months actually reports small decrease in expenses (\$97,842) coincident with gain of \$982,442 in gross earnings, thus giving a a gain of \$1,080,284 in the net. But the Lake Shore, like the Central itself, had increased fixed charges to meet. Indeed, in the Lake Shore case the increase in fixed charges and taxes for the half-year has been as much as \$776,667. Hence, except for the gain established in the net the company would have found itself unable to show the higher dividends now paid on Lake Shore stock (6% for the six months) earned. As it is, the surplus above the dividend requirement is hardly more than nominal, amounting to only \$51,608. The Michigan Central gained \$1,214,839 in gross, of which \$997,506 was consumed by augmented expenses and the Cleveland Cincinnati Chicago & St. Louis added \$1,077,252 to its gross, of which \$866,671 was eaten up by larger expenses. This last road has been putting out new issues of stock, as is known, to provide needed capital, and hence had to earn dividends on a larger amount of stock. It failed to earn its 2%dividend on the common shares for the six months by no less than \$649,790. In fact only \$291,370 was earned for the common shares, whereas \$941,160 was required.

We have taken the trouble to make up a statement covering all the New York Central lines for which figures have been published thus far for the half-year, and find that gross earnings in the aggregate have increased \$7,568,382, but that the addition to the expenses for the same period of six months has been no less than \$8,620,354, notwithstanding the saving in expenses effected by the Lake Shore, so that the combined lines record a loss in net of over \$1,000,000 in face of a very substantial gain in the gross revenues.

The Central lines, however, do not by any means stand alone in this matter of augmented expenses, a fact of course which cannot occasion surprise, seeing that the causes for the larger operating cost of our railroad transportation lines are common to all alike. We referred last week to the case of the Pennsylvania Railroad system and the figures then given will bear repeating here. On the Pennsylvania lines directly operated East of Pittsburgh and Erie no less than \$9,314,700 was added to gross earnings during the six months, but \$8,879,800 of the amount went to meet increased operating expenses. In the same way, with \$4,920,300 gain in the gross of the lines directly operated West of Pittsburgh, expenses rose \$4,137,600. For the combined lines of the Pennsylvania system, therefore, East and West of Pittsburgh, the result is that with an addition to gross for the six months in the sum of no less than \$14,235,000, only \$1,217,600 has been carried forward as improvement in the net.

In order to bring this fact of the growth in operating expenses to the mind of the public in a forcible and graphic manner, we present the following table in which we give the figures for both the Central lines and the Pennsylvania lines, and make a total of them all.

Six Months	Gross Earnings.		Expe	nses.	Net Ea	rnings.
ending June 30.	1907.	1906.	1907.	1906.	1907.	1906.
NYC &HRR LS & M S Mich Central N Y C & St L C C C & St L L Erie & W	5,221,021	20,607,096 12,619,143 4,885,999 11,362,519	16,313,272 11,331,423 4,084,366	8,850,036	5,276,265 2,502,558 1,136,655 2,723,063	2,285,226 903,760 2,512,483
			59,169,503		19,972,046	19,537,146
Penn RR.	124,308,849	110,073,849	92,678,103	79,660,703	31,630,746	30,413,146
Tot both syst	226,756,593	204,953,211	173,365,503	151,727,749	53,391,090	53,225,462

It will thus be seen that these two important systems—the Central and the Pennsylvania—make a splendid showing of increased gross revenues, the gain for the six months reaching the large sum of \$21,803,-382. But the augmentation in expenses has nearly outstripped even this splendid increase in the gross, and as a consequence net earnings remain practically unchanged, being \$53,391,090 for 1907 against \$53,-225,462 for 1906. In other words, nearly \$22,000,000 improvement in the gross has been productive of no increase in the net. Bearing in mind that on their new capital outlays these systems have increased charges to meet, it will be admitted that the showing

is not a gratifying one, and furthermore that the roads are in no position to grant further increases in wages or to assume any other burdens of that class.

THE VERDICT AGAINST THE STANDARD OIL COMPANY.

In considering the remarkable fine of \$29,240,000 imposed by Judge Kenesaw M. Landis at Chicago upon the Standard Oil Company of Indiana, for violation of the Inter-State Commerce Law, it is above everything else important to have a clear knowledge and understanding of the facts and to judge the case entirely upon its merits. In its long and aggressive career, the Standard Oil Company has made few friends and innumerable enemies, and just now there appears to be no one so poor as to do it reverence. What we are all interested in knowing is whether the evidence and the facts warrant the jury's verdict against the company and furnish reason and ground justifying the stupendous penalty Judge Landis has imposed. The conviction was under the Elkins Law of 1903. By that law Judge Landis had discretion to fix the penalty at only one-twentieth of the sum actually imposed, waiving entirely the question whether the law is to be construed so that a fine must be inflicted for every count in the indictment. In other words, Judge Landis was privileged to impose a minimum fine of \$1,000 for an offense under the law, where he has chosen to impose the maximum of \$20,-000, and has at the same time counted every carload of oil as a separate offense.

A Judge, and particularly a Federal Judge, is supposed to be endowed with mental poise and equilibrium, not likely to be influenced by popular clamor, and hence the great majority of people in this country will, we may be certain, assume that the case against the Standard Oil Company was clear and undisputed, and left absolutely no question as to the guilt of the company. On the contrary, any fair-minded person who will examine carefully into the evidence and the facts must, we are convinced, reach the conclusion that it is by no means absolutely clear that in the transactions which furnished the basis of the indictment and conviction the company either actually or constructively violated the law, and still more doubtful that if the law was really violated, it was done with guilty intent or knowledge.

The charge against the Standard Oil Company was that, in the transportation of oil from Whiting, Ind., and Chappell, Ill., to St. Louis, it had secured a rate less than that named in the carrier's tariff schedules published and filed with the Inter-State Commerce Commission. The offenses are alleged to have been committed during the period from Sept. 1 1903 to March 1 1905. It was found guilty on 1.462 counts, each covering the movement of a car of oil. On these shipments, it appears, the Standard paid the Chicago & Alton RR. 6 cents a hundred pounds on the traffic to East St. Louis and 71/2 cents on shipments to St. Louis. It is claimed that the proper rate was 18 cents and $19\frac{1}{2}$ cents respectively. It appears to be established that the 6 cent rate was not regularly filed with the Inter-State Commerce Commission by the Alton Company, and thus the case against the Standard Company is apparently complete. That company sought to obtain a special preference for itself of 12 cents per 100 pounds, and as this is clearly a violation of the law, it

must be adjudged guilty. Moreover, as it was so unconscionable as to secure for itself a rate only about one-third the alleged regular rate, and which presumably its competitors paid, the fine was justly made proportioned to the offense.

This is the way it looks before we probe into the matter. On investigation, however, it appears that no one actually paid the 18-cent rate, that the 6-cent rate was not a secret or preferential rate, that it was a rate which had been in force a great many years, and that, furthermore, this rate was available over two other roads besides the Chicago & Alton, namely the Chicago & Eastern Illinois and the Chicago Burlington & Quincy. When this has been said, the only foundation remaining for the huge fine which has been imposed is the allegation that the 6-cent rate in force on the Alton had not been properly posted and filed. But is dereliction or neglect on the part of a carrier a sin that should be visited upon the shipper? Is the latter bound to satisfy himself that the carrier has complied with the law?

President James A. Moffett of the Standard Oil Company of Indiana issued an explanatory statement last Saturday (after the announcement of the fine imposed by Judge Landis), giving the Standard Oil's side of the case, to which we shall advert further below. For the present we shall confine ourselves entirely to the facts and evidence as cited by Judge Landis himself, in his opinion. Judge Landis says: "As justifying and excusing the use of the 6-cent rate, the defendant's Traffic Manager testified that in December 1902, 1903 and 1904 he applied to the chief rate clerk at the office of the General Freight Agent of the Chicago & Alton Co. for the rate on oil from Whiting to East St. Louis for each succeeding year, and on each occasion the clerk handed him a document purporting on its face to be a special billing order, as follows:" (Here follows the special billing order, showing a rate of 6 cents per cwt. on oil and petroleum products in carload lots in tank cars for the ensuing year.)

This witness also stated, according to Judge Landis, that when these special billing orders were delivered to him he received from the rate clerk an Alton tariff sheet, called an application sheet, applying Chicago and East St. Louis rates to similar traffic from Whiting to East St. Louis; that at each of said times the Traffic Manager inquired of the rate clerk whether the rate had been filed and was assured that it had; that the Traffic Manager was thus misled by the rate clerk into the honest belief that the rate of 6 cents a hundred pounds, as shown in the special billing order, had been filed with the Inter-State Commerce Commission, and that, acting in this honest belief, payments at the 6cent rate to East St. Louis and 7½ cents to St. Louis were made.

Judge Landis's reply to this contention is that this special billing order did not actually purport to have been filed with the Inter-State Commerce Commission, nor was it distributed by the Alton Company to any freight agent for use in quoting rates to the general shipping public, with the single exception that, as the rate clerk testified, a copy was retained in the tariff files at the General Freight Office. In another part of his opinion Judge Landis indicates his belief that what the Traffic Manager actually did was to assume that the Alton Company had done its legal duty. He adds: "If the Traffic Manager merely assumed the rate had been filed, of course he did not on three occasions specifically ask whether it had been filed. A jury is not required to accept an obviously improbable thing as true merely because, in a law suit, a witness may tesitfy to its having happened."

It will be observed that no attempt is made to dispute the statement of the Oil Company that it had obtained the 6-cent rate from the Railroad Company through the billing orders—which is the crux of the whole case—but that the Judge seeks to impugn the veracity of the witness, who testified that he had inquired whether the 6-cent rate had been filed with the Inter-State Commerce Commission. He is of the opinion that the Traffic Manager merely took it for granted that the rate had been filed. In his estimation, guilt or innocence hinges on this one circumstance.

We are now prepared for the statement put out on behalf of the Standard Company last Saturday, after Judge Landis had pronounced judgment. This statement in part is as follows:

The 18c. rate was a "class" and not a "commodity" rate, and the Chairman of the Chicago & St. Louis Traffic Association, the association issuing the 18c. class rate, under oath testified that it was never applied and was never intended to apply to oil. The rate on oil between Chicago and East St. Louis over the Alton for fourteen years, from 1891 to 1905, was always 6 cents per 100 pounds. This was an open published rate known to every one concerned in the shipment of oil, and generally known in all railroad circles in Chicago. Both Chicago and East St. Louis being in Illinois, the railroad company was under no legal obligation to file this rate with the Inter-State Commerce Commission at Washington; but Whiting, being in Indiana, shipments from Whiting to East St. Louis were technically at least inter-State, and hence the Alton filed with the inter-State Commerce Commission what is known as an application sheet, applying to Whiting the Chicago rate, and deemed the filing of the application sheet all that was necessary under the law.

Thousands of tons of freight have been shipped from these points during the past fifteen years under the same circumstances as the Standard shipments, and if the Standard is guilty in this case, so is practically every other shipper in this great manufacturing territory. Is there a purpose in selecting the Standard as the victim?

The Chicago & Eastern Illinois Railroad also runs between Whiting and East St. Louis. The Standard Oil Company shipped about one-third of all the oil that went from Whiting to East St. Louis over the Eastern Illinois, the other twothirds going over the Alton and the Burlington. On the trial of the case the defendant offered to show by witnesses who were on the stand that not only during the period of time covered by the indictment, but continuously from 1895, the Eastern Illinois had a lawful published and filed rate between Whiting and East St. Louis on oil of 6 cents per 100 pounds, and that the Standard Oil Company shipped at such rate over the Eastern Illinois more than two thousand cars of oil each year during said period.

To this offer the Government, through its attorneys, strenuously objected, and the Court sustained such objection. The defendant contended, and still does contend, that this proof would have conclusively shown that the Standard Oil Company had no possible motive in shipping over the Alton, and thereby violating the law, when it might just as readily and conveniently have shipped all of its oil over the Eastern Illinois and not have violated any law. * * *

Under such circumstances, and in view of the fact that petroleum had been openly carried over the three roads from Whiting to East St. Louis for from ten to fourteen years for 6 cents, what a draft it is on human credulity for the prosecution to assert that 18 cents was the only possible lawful rate. * * * * * * * * *

Knowing that the rate on the Eastern Illinois was but 6 cents, having no reason for shipping over the Alton in preference to the Eastern Illinois, and able to ship all of its oil over the latter road, we insist that the facts, many of THE CHRONICLE

which the Court did not permit us to show, not alone demontrate innocence, but inherently forbid the idea of guilt.

Most of the assertions in the foregoing statement of the Standard Oil Company of Indiana are borne out by what has been said above, taken from the opinion of Judge Landis himself. The remainder of the statement is also, in all essential respects, borne out by the opinion, and particularly the remark that on the trial the Standard Oil people offered to show by witnesses that, during the period covered by the indictment and for a long time previously, the Eastern Illinois had a lawful published rate between Whiting and East St. Louis of 6 cents. As to this Judge Landis in his opinion says: "This evidence was offered to establish an absence of motive on the part of the defendant to accept an unlawful rate from the Alton, but was excluded by the Court as not being admissible on the question of the defendant's guilt or innocence in accepting the unlawful rate from the Alton Company." Judge Landis takes the ground that motive is not material in a case where the proof is clear that it was the defendant who committed the crime. He takes for granted that there was a crime, the fact above everything else which, it seems, ought to be indisputably established. The real question, he declares, is whether the Oil Company accepted the concession knowingly, and in determining this, he holds, it need not be affirmatively shown that the defendant had actual knowledge of the higher or lawful rate. He reasons that the Oil Company must be presumed to have known that which a diligent endeavor made by an honest man in good faith to ascertain would have disclosed to him. He adds: "The burden of this diligent endeavor is not to be diminished or increased by the supposed existence or absence of a lawful rate on some other road equal in amount to the rate accepted by the shipper." To the ordinary man, however, it will seem that if a 6-cent rate was in effect on other roads and the shipper was informed by the rate clerk of the Alton that the same rate prevailed on the latter, and he knew that the 6-cent rate had been paid by him for years over all the roads, the shipper had absolutely no reason to question the accuracy of the rate clerk's statement.

Is the assertion that there was a 6-cent rate over the other roads open to question at all? It would appear not. Observe what Judge Landis has to say on this point. He would not allow evidence bearing on that issue to go before the jury, but thought the matter was nevertheless one that he might personally take into consideration in mitigation of the severity of the punishment to be imposed. He finds that on Oct. 9 1895 the Eastern Illinois Company issued and filed with the Inter-State Commerce Commission a commodity tariff which authorized what was equivalent to the 6-cent rate. This remained in force for eight years, or until July 1 1903, when the Eastern Illinois filed a general class tariff fixing a rate of 18 cents, but excepting certain commodities from its operation, such as coal, coke, grain, &c. Oil, he says, was not included in the commodities thus excepted from these class rates. The defect, it appears, was corrected six days later, on July 7 1903, when, in the words of Judge Landis, "the Eastern Illinois Company, apparently recognizing that the effect of this tariff (the new class tariff) was to nullify" the 6-cent rate of Oct. 9 1895, "issued" an amendment which in effect restored the 6-cent rate. prodigious sum of \$29,240,000.

Thus the contention of the Oil Company that there was a 6-cent rate on other lines appears to be established. Judge Landis, however, declares that the 1903 amendment to the Eastern Illinois class tariff was not filed with the Inter-State Commerce Commission until March 1906, one year after the expiration of the period covered by the indictment and nearly three years after its issue. Here again, accepting this statement of Judge Landis as correct (since we have no knowledge of our own on the subject), the question is purely a technical one. The Eastern Illinois had 'issued" a 6-cent tariff, had amended its latest class tariff with a view to putting such 6-cent rate into effect, but had not "filed" the same at Washington. Hence the general assertion made on behalf of the Standard Oil Company that the 6-cent rate had existed "continuously from 1895" is practically confirmed by Judge Landis. From Oct. 9 1895 to July 1 1903 the 6-cent rate was a lawful rate because it had been both "issued" and "filed." From July 7 1903 to March 1906 on a technical construction, the 6-cent tariff is held not to have been legal because it had been "issued" but not "filed." "In view of these facts, the Eastern Illinois situation," says Judge Landis, "cannot serve the purpose in this case of excusing or to an extent palliating the defendant's acceptance of the unlawful Chicago & Alton 6-cent rate." On the contrary, to an outsider these facts appear to establish conclusively the contention of the Oil Company

The whole sum and substance, therefore, of the Standard's offending was that it did not satisfy itself that the six-cent rate which it had paid for a long series of years to the different railroads on shipments of oil from its refinery at Whiting, Ind., to East St. Louis, Ill., had in the case of the Alton road been filed by the carrier with the Inter-State Commerce Commission in such a manner as to make it a legal and lawful rate. Failing compliance with this requirement, the higher "class" rate (covering a whole variety of articles and commodities) of 18 cents should have been paid by the shipper.

Candidly speaking, the Standard Company has been convicted of a crime, and yet all the elements of a crime seem to be lacking. What the Elkins Law, the Inter-State Commerce Law and all the other laws on the Federal Statute books are directed against is secret rebates and concessions. The thing abhorrent to the statute is that one shipper should pay a high rate and another shipper should knowingly pay a lower rate, thus getting an advantage over his rival and competitor. In this case there was no evidence to show that any shipments had ever been made at the eighteen-cent rate, and the six-cent rate appears to have been available to all shippers alike. The only question at issue is whether, technically, the six-cent rate was a legal rate, since the Alton Company had not properly placed it on file at Washington. We are not anxious to pose as defenders of the Standard Oil Company, but from this review of the facts it must be evident that there is at least grave doubt whether the law was actually violated, and still graver doubt that the violation was intentional, thereby constituting a crime was intended. Yet Judge Landis treats the case as if it were one of the strongest ever presented in a court of law and penalizes the concern in the

In considering whether this judgment is likely to stand on appeal, a number of important considerations come up. We imagine the appellate courts will not dismiss lightly the question whether there was any guilty intent. The Elkins Anti-Rebate statute is directed entirely against "wilful" disregard of the law. The question which will also receive consideration is whether the penalty of \$29,240,000 is not in violation of the constitutional prohibition against the imposition of excessive fines. The Standard Oil Company of Indiana (the accused party in this instance) has a capital of only \$1,000,000. Even granting that its assets may amount to five to ten times that sum, this penalty means the imposition of death sentence against the corporation-its blotting out of existence. As the statute simply aims at punishment so as to secure compliance with the law, it may well be asked whether it was ever the intention of the law-maker, and whether he had the power, to decree that the life of the offender should be taken. Of course we understand that it was the purpose of Judge Landis to reach the Standard Oil Company of New Jersey, which would have abundant assets to pay the fines, as owner of the Standard Oil Company of Indiana. But corporations have always heretofore been held to be distinct entities, and it is difficult to see how the New Jersey Company could be punished for an offense which was distinctly the act of the Indiana Company.

Another point on which the higher courts may differ from Judge Landis is in the opinion that a separate fine at the maximum figure can be imposed on each single shipment. Certainly it can never have been the intention of Congress to give a single Federal Judge the power in his exclusive judgment to mulct an offender in the prodigious sum of \$29,240,000. If the higher court takes the view that Judge Landis was right in imposing the maximum penalty on each separate shipment, then it would seem it must also hold that the Elkins Law permitting an aggregate fine in the sum of \$29,240,000 is in conflict with the constitutional prohibition against excessive fines and therefore unconstitutional. We imagine the Supreme Court of the United States will not readily accept the latter horn of the dilemma. The ruling, too, that the patron of a railroad must satisfy himself that a rate quoted him by the railroad is in conformity with the company's tariff schedules filed at Washington presents many inherent difficulties. Under the Hepburn Law of last year the imprisonment penalty has been added. It is true also that preferences in passenger rates as well as in freight rates are forbidden. If Judge Landis's view is good law and the question of "motive" or "guilty intent" does not count, then an innocent traveler will run the risk of a jail sentence whenever a rate agent makes a mistake and sells him a ticket that does not accord with the rate schedules on file with the Inter-State Commission.

Judge Landis's action has created consternation in investment and financial circles. But we advise the security world not to worry until the doctrines and principles enunciated by him shall have been affirmed by that highest tribunal, the Supreme Court of the United States. Judge Landis is only a single district Judge and he has held his position for but two years. In view of what has been said above, it appears quite likely that either because of a lack of knowledge or an excess of zeal, it will be found that he has erred on one or all the grounds indicated. The following letter, which is self-explanatory, gives some interesting facts regarding the Netherlands Bank and its function and policy as a note-issuing bank:

The Hague, July 20, 1907.

The Editor of the "Commercial and Financial Chronicle," N.Y. Sir-On reading your article entitled "Tendency towards a Central Bank" in the "Chronicle" of July 6th, it has struck me that in enumerating the note-issuing monopolies in various European countries, you have omitted that of

the Netherlands Bank in Holland. Where the question of a central issuing bank is again coming to the front in the United States, it is perhaps not out of place to point out that the Netherlands Bank, founded in 1814, has rendered great services to the general trade of the country and that its charter is founded on principles that deserve the attention of students of the currency problem in the United States.

The Netherlands Bank is what may be termed a bankers' bank and has always strictly abstained from interfering or entering into competition with private bankers in their regular course of business. Its leading executive officer, the President, is appointed by the Government for a period of seven years, but may, and as a matter of fact generally is, re-installed for a further period of seven years at the expiration of each term of office. It has always been the aim of the Government to appoint to this important office men of undoubted reputation and of proved ability in financial and economical matters, and it is the President's duty to watch the general interests of the country and at all times maintain the sound principles of a note-issuing bank. The President is assisted by three or four managing directors, who participate in the daily management of the bank, and a board of directors, nominated by the shareholders, and, as a rule, composed of partners in the leading firms of our commercial and banking community.

The sole right of issuing bank-notes is vested in the Netherlands Bank. The note issue must at all times be covered to the extent of 40% by coin of the realm or foreign bar or coined gold, and is further secured by the other assets of the bank, consisting principally of:

(a) Bills of exchange and commercial notes bearing at least two signatures known to the bank and maturing within a period of not longer than six months.

(b) Advances on collateral of merchandise and securities.

(c) The bank's investment in foreign bills of exchange payable in gold; and

(d) The bank's capital and reserve.

From the above it will be noticed that the notes of the Netherlands Bank are covered in part by coin and bullion and in part by assets. This enables the bank to regulate its note issue in accordance with the requirements of our national trade, and what is of still greater importance, to expand or curtail its circulation at different periods of the year so that there never is a large floating supply of currency in much excess of actual requirements.

Though the bank has undoubtedly always been most liberal, when the promotion of the national welfare was concerned, it has without exception promptly discouraged and checked any unsound credit operations that tended to deplete its stock of gold unnecessarily and that would result in an advance in money rates to the detriment of the home community. Only quite recently the bank unofficially warned traders not to expect any assistance whatsoever if they should attempt to import and carry coffee in this country for valorization purposes. Moreover, in the interesting annual reports of the President of the bank, this officer has frequently laid stress on the fact that the liberal facilities which the bank grants to bona fide borrowers are not applicable to speculative operations of any sort, and that the bank would certainly not permit its funds to be used for such purposes as the re-discounting of financial drafts or the carrying of large lines of not "digested" securities.

A wise measure which the bank has adopted is the investment of a part of its funds in foreign bills of exchange, payable in gold, and bearing at least three bankers' endorsements.

This policy has had the triple advantage of (a) enabling the bank to make part of its stock of metal interest-bearing

(when this stock threatens to become unprofitably large); (b) to exercise some influence on the foreign rates of exchange if these, through some special operation, are unduly affected; and (c) last but not least, to be in a position to bring fresh gold into the country in times of internal crises.

Finally, the Netherlands Bank is banker to the Government, and though it is exempt from paying any note tax, it is obliged in return for the monopoly granted to it to—

(1) Act as banker to the Government gratuitously.

(2) To advance to and as long as required by the Government without charging any interest a sum not exceeding Fl. 15,000,000.

(3) To pay to the Government 2-3 of its annual net profits after a dividend of $3\frac{1}{2}\%$ has been distributed to the shareholders.

If it were possible to adopt some similar arrangement in the United States, this would go a long way towards compensating the treasury for the losses caused by a possible discontinuation of the note tax.

Founded in 1814, at which time no Act had been passed giving an absolute monopoly to the Netherlands Bank for the issue of notes, the heavy taxes and fees which any other institution would have been obliged to pay, and from which the bank was exempt, secured it a monopoly even at that early date. It was, therefore, not necessary to consider the rights or methods of compensation of existing privileges at that time. However, where, as in the United States, these privileges do exist, it would certainly be desirable and not more than fair to recognize them; and in this connection the system of allowing existing issuing banks to subscribe to and hold a part of the capital stock of the new central institution (as has recently been done in Switzerland) may possibly also be adopted in the United States with satisfactory results.

Whether, as long as the present popular prejudice against a central bank lasts, the creation of such an institution in the United States is feasible must remain an open question.

However, according to the best opinions on this side, such would be the only natural and healthy way to attain a more elastic circulation and prevent those wild fluctuations in money rates that are a constant danger to the country. For, only when the circulation is concentrated in one strong bank whose chief task it is to study the financial welfare of the whole country, will it be possible by a judicious curtailment or expansion of the circulation to attain that comparative stability of money rates that is so beneficial to trade and enhances a nation's credit in the eyes of the whole world. Yours respectfully,

J. SANTILHANO Jr

ITEMS ABOUT BANKS, BANKERS AND TRUST CO.'S.

-The public transactions in bank stocks this week were limited to sales of two small lots, aggregating 13 shares, made at the Stock Exchange. No trust company stocks were sold.

Protests by a number of Philadelphia and Pittsburgh banking institutions at the refusal of Pennsylvania State Banking Commissioner Berkey to designate certain institutions as depositories for reserve funds has resulted in the Commissioner withdrawing temporarily his ruling. The matter concerns the trust company reserve law passed at the last session of the Legislature, requiring banking institutions of the State to keep a reserve of 15% against deposits subject to check or payable on demand, and a reserve of $7\frac{1}{2}\%$ against time deposits. This law, it will be remembered, stipulates that one-third of the 15% reserve must consist of either lawful money of the United States, gold certificates, silver certificates, notes or bills issued by any lawfully organized national banking association, or clearing house certificates; one-third may consist of bonds of the United States, bonds of Pennsylvania or any city, county or borough of Pennsylvania, and bonds which now are, or hereafter may be, authorized by law as legal investments for savings banks or savings institutions in Pennsylvania, and the balance of the reserve "may consist of moneys on deposit, subject to call, in any bank or trust company in the State of Pennsylvania which shall have been approved

company in any other State, located in any city designated as a reserve city by or by virtue of the authority of the Revised Statutes of the United States, and the amendments thereto which shall have been approved by the Commissioner of Banking." The opinion of the Attorney-General was asked by the Commissioner with regard to this latter portion concerning the designation of depositories, the Attorney-General answering as follows:

With reference to your third inquiry as to whether or not you, as Banking Commissioner, may confine your approval to depositories which are under your supervision, I am of the opinion that, under the provisions of the Act in question, you have a right to exercise a sound discretion in approving depositories, and if you deem it advisable so to do you may confine your approval to such depositories as are under your supervision. It is essential that the depository, whether it be under your supervision. It is essential that the depository and as Commissioner of Banking you are charged with the exercise of a sound discretion in making such approval.

The Commissioner forthwith proceeded to exercise his prerogative in the matter, approving for some institutions the reserve agents requested, it is stated, and disapproving for others. In one instance, it is stated, all of the reserve agents of one institution were disapproved; in other cases, too, where he was asked to name for several trust companies the agent already acting for them in that capacity, the Commissioner, it is alleged, refused to accede to the requests. The dissatisfaction which followed the Commissioner's action culminated in the holding of a conference betwen the Commissioner and a representative of the banks and trust companies, John C. Bell, in which the latter undertook to show the serious consequences which might follow as a result of the ruling. It was therefore decided by the Commissioner to temporarily stay the execution of his orders.

-A bill creating a Bureau of Banking in the State of Georgia for the purpose of better regulating the conduct of banking affairs in the State, and providing for the appointment of a bank examiner and assistant examiners, who are to constitute said bureau, was passed by the House on July 29. The measure, the "Atlanta Constitution" notes, is the evolution of an exhaustive study by the leading bankers of the State, and was especially recommended by the legislative committee of the Georgia Bankers' Association, of which Joseph A. McCord, a Vice-President of the Third National Bank of Atlanta, is Chairman. As stated in its title, the Act is one to create in the Treasury Department of the State a Bank Bureau; "to define the duties of such bureau, and of the officers thereof; to authorize and empower said bureau, through the officers and agents, to examine and report on the condition of all banks, trust companies and persons or corporations now or hereafter doing a banking business in the State of Georgia; to require such banks, bankers and trust companies to submit their books and papers relating to their respective banking business to the inspection and examination of the officers or agents of the Bank Bureau; to provide for the publication of reports and recommendations by said bank bureau; to authorize the said bureau to institute appropriate proceedings in the event that any bank or trust company shall be found to be insolvent, or in failing condition, or to have violated the laws of this State, or the charter of such banking or trust company.'

-Schedules in the assignment of the Corbin Banking Company of this city were filed on Tuesday by Assignee George C. Austin. The liabilities are given as \$3,539,023; the nominal assets as \$3,249,245 and the actual assets as \$3,663,254. The nominal assets, it is stated, have been taken at the par value of the securities, while the actual assets are the estimated market value. The unsecured liabilities amount to \$2,806,962, the secured liabilities being \$732,061. The firm, composed of George S. Edgell and Austin Corbin, assigned March 28.

-The development of the Carnegie Trust Company of this city, since it began business seven months ago-on January 2—is strikingly shown in a statement of August 1, when total resources were reported as \$10,700,000, a gain of nearly 26 per cent during the past month. Deposits have increased 29 per cent since July 1, the figures for August being \$7,976,000.

-J. P. Schoefield has been advanced from the Cashiership to the office of Second Vice-President of the Second National Bank of Hoboken, N. J. The new Cashier is Allen N. Terbell, formerly the Assistant Cashier.

the State of Pennsylvania which shall have been approved —The Second National Bank of Jersey City, N. J., which by the Commissioner of Banking, or in any bank or trust was succeeded on July 1 by the Union Trust Company, has

been formally placed in voluntary liquidation by the shareholders.

-The proposition to add \$200,000 to the capital stock of the Columbia National Bank, Buffalo, N. Y .- as outlined in these columns July 27-was favorably voted upon by its stockholders at a recent meeting. The new stock, issued at \$300 per share, will give the bank \$700,000 capital and \$1,000,000 surplus on October 1st, when the increase becomes effective. The total resources of the bank are now about \$7,000,000.

Peter King has been chosen to the presidency of the Aquidneck National Bank of Newport, R. I., to succeed the late Lewis L. Simmons. Samuel McAdam is Mr. King's successor as Vice-President.

-Because of the opposition of the Puritan Trust Company of Boston to the use of the name "Pilgrim" by the incorporators of the new Boston trust company, as noted last week, the promoters of the latter have withdrawn the application to organize under that title, and instead, have filed notice of their intention to organize as the Liberty Trust. Company. It is stated that the Puritan Trust will not oppose the new application.

-The stockholders of the First National Bank of Nashua, N. H., ratified on Tuesday the proposition to merge their institution with the Second National Bank of that city. The consolidation becomes operative to-day, the 10th inst. As stated in our issue of June 29 the Second National increases its capital from \$100,000 to \$150,000. The stockholders of the First National (capital \$100,000), according to the Boston "Advertiser," will be paid the par value of their stock, namely, \$100 per share.

-Herbert F. Gillingham, for the past ten years Vice-President of the Northern National Bank of Philadelphia, has been chosen to fill the office of President, made vacant through the death on the 1st-inst of Edmund R. Watson. William H. Bilyeu has been elected to succeed Mr. Gillingham as Vice-President.

-The directors and stockholders of the defunct Farmers' & Drovers' National Bank of Waynesburg, Pa., who are endeavoring to effect a reorganization of the institution, have been given until August 25 by Comptroller Ridgely to complete their arrangements toward reopening. By that date, it is stated, the bank must have a cash deposit of \$200,-000, in addition to the other funds on hand and the proceeds of new stock to be sold. Under the reorganization plan, it is proposed to acquire control of 3,500 of the 4,000 shares outstanding (par \$50), and then to put this stock into the reorganized institution at \$100 per share, thus yielding \$350,000. This, added to the sum of \$450,000 now reported to be in the hands of the receiver, with \$200,000 to be raised by the directors and others, will give total available cash of about \$1,000,000. On November 12 1906, a month before the failure, the deposits were somewhat over this amount.

-A new banking institution will open its doors for business in Allentown, Pa., about September 1, under the title of the Allentown Trust Company. The new organization has a capital of \$500,000, par value \$100 per share, 50% of which has been paid in. M. C. L. Kline is President of the company.

-The "twenty-one years of progress" of the City National Bank of Lansing, Mich., is told in a booklet which ranks among the higher class of advertising literature. The organization of the bank was decided upon in the early spring of 1886, and on June 1 of that year with a capital of \$100,000 it opened for business at the northeast corner of Michigan and Washington avenues. It continued at this location until the spring of 1897, when it moved to the opposite side of the street into a building which it had purchased and remodeled to suit its requirements. In less than ten years the bank had outgrown these quarters, and in 1906 it secured the adjoining property, rebuilding the entire structure, and utilizing the whole of the first floor for its own needs. During the entire existence of the bank, the President, E. W. Sparrow, the Vice-President, E. F. Cooley, and Cashier, B. F. Davis, have remained in office continuously. The institution on May 3 1907 reported a capital and surplus of \$100,000 each, undivided profits of \$43,454, and deposits of \$1,612,423. Total assets at that date were \$2,005,347.

Digitized for FRASER http://fraser.stlouisfed.org/ Federal Reserve Bank of St. Louis

-A movement to organize a new bank in Port Huron, Mich., is now assuming definite shape. It is to be known as the German-American Bank, have \$100,000 capital stock, and start business in August. The "Detroit Tribune" states that the officers selected are: W. F. Davidson, President; A. E. Stevenson, Vice-President; C. C. Peck, Cashier. Besides the officers the directors include: Henry F. Marks, Chris Kern, M. D. Smith, Elmer J. Ottaway of Port Huron; J. L. Hudson of Detroit; Dudley E. Waters, Grand Rapids, and A. C. Bishop of Flint, Mich. There are three institutions in Port Huron besides the Commercial Bank with deposits of \$2,050,000, and the First National Exchange Bank with \$1,560,000 deposits.

-The East End Bank Company of Cincinnati, incorporated in June, is to open in temporary quarters at 4030 Eastern Avenue on September 1. The officers elected for the new concern are J. A. DeArmond, President; C. S. Ferris, Vice-President, and E. S. Gates, Secretary and Treasurer.

-The People's State Bank of Brownstown, Ind., was closed on the 3rd inst by State Auditor Billheimer. The bank reported a paid-in capital on May 20 of \$70,000 and deposits of about \$240,000. It is stated that the County Treasurer has between \$17,000 and \$19,000 deposited with the bank and the County Clerk \$2,300; of the latter, however, a part is a personal account. The bank's closing is attributed mainly to the making of bad loans by President H. A. Burrell.

-Two months ago we referred to the approaching semicentennial anniversary (June 10) of the founding of the Merchants' Loan & Trust Company of Chicago, and now we have from the institution a handsome volume of about a hundred pages octavo, called "Fifty Years of Banking in Chicago," and going more in detail into the development of this bank. Its beginning is said to have been "the protest of Chicago's soundest business men and financiers against the continuance of irresponsible and unscientific banking, and alike in behalf of merchant and laborer." One of the interesting illustrations shows the plain dwelling on Wabash Avenue of the President, where, after the fire of 1871, temporary headquarters were established, without fixtures, books, or much else except determination and rescued valuables-many books and evidences of accounts having perished. When the deposits had been amicably determined and settled, upon honor, it was found that if all claims were admitted the total would overrun by \$58,500 the deposit line supposed to have been held when the fire broke out; but the Board voted that the officers might settle everything as best they could, "believing it better for the institution to suffer the loss estimated by the Cashier rather than be subject to any litigation in court." A sound, successful, and unbrokenly honorable institution is sketched in this volume. The volume is one of a class which has an increasing value as historical matter, the final chapter of 25 pages on "Early Banking in Illinois" being particularly notable.

-George E. Roberts, formerly director of the U.S. Mint, entered upon his new duties as President of the Commercial National Bank of Chicago on the 1st inst.

-The remaining assets of the defunct Third National Bank of Chicago were disposed of by Receiver David B. Lyman at public auction on the 1st inst. for a total consideration of \$27,000. The assets included, besides various real estate holdings, 230 shares of the Chicago & Calumet Dock Company's stock of the par value of \$100, which were sold at the rate of \$50 per share. The bank has been in receivers' hands for 30 years. Depositors have all been paid in full, and in addition 571/2% has been distributed among the shareholders.

-The Harris Trust & Savings Bank of Chicago has issued a statement of condition at the close of the first six months' business after its incorporation. It shows net profits of \$92,089, or earnings at the rate of 14.73% yearly.

-The proposed payment of nearly \$1,000,000 (mentioned in the Chronicle of July 27) has been made to the Chicago Clearing House banks by the Walsh banking institutionsthe Chicago National Bank, the Equitable Trust Company and the Home Savings Bank-on account of advances made by the Clearing House at the time of the suspension of the three institutions in December 1905. The payment reduces the amount still due to \$9,500,000, which is said to be covered by a new note indorsed by the Walsh guarantors and secured by pledges of real estate and collateral.

-The First National Bank of Englewood (Chicago), which some weeks ago announced its intention of increasing its capital from \$100,000 to \$150,000, has set aside \$50,000 from surplus to be applied in payment for the new stock.

-The establishment of a new Federal institution is planned in South Omaha, Neb., the new bank to be known as the Live-Stock National. The capital is to be \$100,000.

-The annual meeting of the Montana Bankers' Association will be held next week, on the 14th and 15th inst., at Livingston, A feature of the program is an address on "The Work of the Currency Commission" by Arthur Reynolds, President of the Des Moines National Bank of Des Moines, Iowa. Frank Bogart, Cashier of the Union Bank & Trust Company of Helena, Mont., is Secretary of the association.

-The recent sale of assets of the First National Bank of Topeka, Kansas, to the Assets Realization Company, referred to in this department July 20, has enabled Receiver Bradley to declare a dividend to the depositors of 12%. With the 70% already paid, the latest distribution will bring the total payments up to 82%. A further small dividend will eventually be realized with the disposal of the one remaining asset of \$120,000 worth of paper of the Devlin Coal Co., but time will be needed for this purpose. The bank suspended two years ago, in July 1905.

-It is reported that the Fort Smith Bank & Trust Company, of Fort Smith, Ark., has absorbed the Bank of Arkansas, of that place, the trust company increasing its capital from \$100,000 to \$200,000.

-The Fourth National Bank, Nashville, Tenn., of which Samuel J. Keith is President, is now ensconced in its elegant banking home in the newly-erected Stahlman Building. The floors, interior decorations and finishings of white marble and bronze, are beautiful and effective in design. The high ceiling, commodious appointments and the large open space in the centre of the bank for customers' use are particularly noticeable, and add to the attractiveness of the room. This institution's effort to be modern and progressive is reflected in the specially organized department for ladies, in charge of a lady teller. The ladies' luxurious reception rooms adjoin this department. The officers have private offices and outside desks conveniently arranged in the front of the bank, and the directors have a large meeting room in the rear. A separate street entrance admits patrons directly into the bank, in addition to the regular entrance through the hall. In the basement, accessible to the bank's street entrance, are three immense vaults, coupon room conveniences and a safe deposit establishment, built of steel and concrete and equipped with the best safeguard devices. The door to the eustomers' vault weighs 40,000 pounds, the hinges alone weighing 1,000 pounds each. At the last bank call the institution had \$600,000 capital, \$626,231 surplus and profits and \$4,651,920 deposits. Besides Mr. Keith, its affairs are directed by J. H. Fall and W. C. Dibrell, Vice-Presidents, and J. T. Howell, Cashier. The Assistant Cashiers are G. W. Pyle and J. S. McHenry.

-Announcement was made on the 7th inst to the effect that the Comptroller of the Currency has authorized the Peoples' National Bank of Gallatin, Tenn., to reopen its doors. The closing of the institution occurred on July 18, following the arrest of Cashier W. G. Harris, on the charge of an alleged shortage in his accounts. A 50 per cent assessment voted by the shareholders to meet the shortage is reported to have been paid.

-The organization of the Williamson Trust Company of Memphis, Tenn., which has been formed with \$100,000 capital, was perfected on the 1st inst., when the following officers were elected: S. M. Williamson, President; W. G. Thomas, Vice-President, and R. C. Williamson, Secretary and Treasurer. Previous reference to the company was made in these columns July 20.

-Ira E. Wight has replaced Pearl Wight as a Vice-President of the Whitney-Central National Bank of New Orleans.

-T. W. Slack has succeeded W.E. Connell as Cashier of the First National Bank of Fort Worth, Texas, Mr. Connell

having become a Vice-President of the institution. R. D. Gage has also lately been chosen a Vice-President of the bank.

-The new Exchange National Bank of Waco, Texas, whose application to organize was approved June 2, will be under the management of the following: D. S. Eddins, President; A. P. Duncan and C. M. Hubby, Vice-Presidents, and F. E. McLarty, Cashier. The bank has been organized with \$200,000 capital.

-In a folder entitled "Why National Banks Are Best," the American National Bank of San Francisco presents some interesting facts with regard to the history of these institutions in California. It is pointed out that there has been but one failure of a national bank in San Francisco, and but six failures of Inational banks in the State of Cali fornia since the National Banking Act was passed in 1864. All of the six were comparatively small institutions, the larg est having a capital of \$250,000. All claims were paid in full to the creditors of two of these banks; in the cases of the other four, the creditors received dividends amounting to 56 per cent of their claims. The total sum lost by the creditors of these four banks, it is stated, was less than threetenths of one per cent of the present resources of the national banks in California, and it is further noted that in the past twelve years depositors in national banks in California have not lost one cent through failure.

-The Germania National Bank of San Francisco was placed in voluntary liquidation on the 1st inst. Plans to unite the bank with the Central Trust Company of San Francisco were perfected last January.

-The United States National Bank is being organized in Seattle, Wash., with a capital of \$500,000. Hervey Lindley, John Erikson, Samuel Hill, John C. Eden, P. Goldsmith and J. D. Farrell are interested in the movement.

THE SOUTH MANCHURIAN RAILWAY LOAN .-Owing to the great interest felt in the recent unsuccessful offering in London of the loan for the completion, improvement and re-construction of the South Manchurian Ry., we cull from the London papers the particulars regarding this loan. As will be seen by reference to the letter of our London correspondent on another page, the investing public applied for only 52% of the bonds offered, leaving the underwriting syndicate to take the remaining 48%. The issue consisted of £4,000,000 5% sterling bonds, with the principal and interest unconditionally guaranteed by the Imperial Japanese Government. The bonds are re-payable within 25 years from the date of issue, but the company has the right at any time after 10 years from the date of issue to redeem at par the whole or part by drawings or by purchase. A coupon for full six months' interest, payable on Feb. 5 1908, was attached to the scrip, and the subscription price was 97. Parr's Bank (Limited), the Hongkong and Shanghai Banking Corporation and the Yokohama Specie Bank (Limited), as agents for the Industrial Bank of Japan (Limited), received subscriptions. The South Manchurian Railway Co. (Limited) was created to take over and operate the railway between Tairen (Dalny) and Changchun, including branch lines; also the line between Antung and Mukden, and the coal mines at Fushun and Yentai. The President, Vice-President and directors of the company are appointed by the Imperial Japanese Government. The Government supervises the business of the company and appoints a special comptroller for this purpose. The proceeds of the bonds are to be devoted to the following works, viz .:

Converting the Tairen-Changchun line and branches from 3 ft. 6 in. gauge to 4 ft. 8¹/₂ in. gauge, which is identical with the gauge of the Chinese and Korean rallway systems. Converting the light rallway from Antung to Mukden into a permanent line identical with the other parts of the system. Providing a new and complete equipment of locomotives and rolling stock. Doubling of the track between Tairen (Dalny) and Suchatun, a distance of about 236 English miles. Harbor works at Tairen (Dalny). Water transport and works connected with collieries and warchouses, &c.

An agreement has been concluded for the conveyance of through traffic over the Siberian railways and the South Manchurian railways, via Kharbin, which will take effect at an early date. The Japanese Government "is of the opinion that the railways will be the means of developing the great resources of Manchuria to the benefit of the trade of all nations on an equal footing, and that the return on all the capital invested in the South Manchurian Railway Co. (Limited) will be satisfactory."

DEBT STATEMENT JULY 31 1907.

The following statements of the public debt and Treasury cash holdings of the United States are made up from official figures issued July 31 1907. For statement of June 30 1907, see issue of July 13 1907, page .77; that of July 31 1906, see August 11 1906, page 302.

Monetary Commercial English News

(From our own correspondent.)

London, Saturday, July 27 1907.

The result of the Japanese Government's appeal for funds to reconstruct, complete and improve the South Manchurian Railway strikingly illustrates the strong opposition in the city at the present time to all new issues. Nearly every new ssue that has come out of late has attracted little public support. The County of Middlesex, the metropolitan county of the United Kingdom, applied for a loan, and practically only 12% was taken by the investing public. Eighty-eight per cent had to be paid for by the underwriters. The East Indian Railway Company brought out a loan guaranteed by the Indian Government for two millions sterling bearing $3\frac{1}{2}\%$ interest at the issue price of 95, and practically t was not subscribed for. This week the South Manchurian Railway Company brought out a loan for 4 millions sterling bearing 5% interest at the issue price of 97, the loan being guaranteed, principal and interest, by the Japanese Government. Yet the investing public took only 52% of the amount offered, the underwriters being left with 48%

The city is under the impression that the low quotations for gilt-edged securities is due mainly to the continuous new issues. It has set its face against them accordingly, and the whole of the great banks and great financial houses discourage the issues. As a matter of fact, the low prices of gilt-edged securities are due mainly to the failure of the late British Government to restore an effective sinking fund. The present Chancellor of the Exchequer has created a very large sinking fund, and in time it will raise consols and all other Government securities. But the city is impatient, and because the mere creation of the sinking fund has not acted like magic it has determined to yeto all new issues. During the past couple of days, however, there is a change in the public feeling, due altogether to the recovery in New York. The report that the Southern Pacific Railway Company is about to declare an increased dividend is taken as indicating all sorts of favorable things. There has been more buying of Americans than for a considerable time past, and so greatly does the American market dominate the London Stock Exchange at the moment that the improvement has extended to most other departments. Notably, it has extended to copper companies shares. Even the South Manchurian issue has felt its effect. On Tuesday when the subscription list was closed the bonds fell to a discount of $1\frac{3}{4}\%$. Yesterday they had recovered to $\frac{1}{2}\%$ discount, and it is reported that there has been very good and very large buying of them.

In Paris business is exceedingly stagnant. There is a great accumulation of unemployed money, and the various causes of apprehension are passing away. But the Bourse is without initiative. It is waiting upon New York and London. If the recovery which has set in in New York and London is maintained, Paris no doubt will join in the recovery. If it is not maintained, Paris will remain stagnant.

In Berlin there is great depression. During the week there has been further fall in industrial securities, mainly because of the prospect of exceedingly dear money. The return of the Imperial Bank of Germany for the week ended July 15 showed that notes were coming back from circulation very slowly and that the Bank had still to pay the 5% duty on a considerable portion of its notes. From this everybody came to the conclusion that there would be no reduction of the Bank rate; that probably at the end of the month the circulation would increase again; that, in any case, there would be immense increase in September; and that as the Bank through the slack summer months had to keep its rate at $5\frac{1}{2}\%$ it would certainly go to 7% before the year is out, and possibly higher.

Money has been comparatively easy in London during the greater part of the week, although the Bank of England maintains its rate of discount at 4%. During the past day or two rates have stiffened somewhat. Still, there is a feeling amongst bankers and financial houses that rates are not kept up sufficiently. The Continental exchanges have turned somewhat against London, and there is a fear that if rates continue to decline Continental competition for gold offering in the open market here may spring up. If it does, the Bank of England probably will act energetically. THE CHRONICLE.

But it is hoped that this may not become necessary, but that the large banks may combine to support the action of the Bank of England. Probably the force of events will soon raise rates. Holiday-making is now beginning and will cause the withdrawal of a considerable amount of money, both in coin and notes, from London. There usually is a material drop in the reserve of the Bank of England, owing to this cause in the month of August.

The India Council offered for tender on Wednesday 60 lacs, and the applications amounted to nearly 59634 lacs, at prices ranging from 1s. 4d. to 1s. 4 1-16d. per rupee. Applicants for bills at 1s. 4 1-32d. and for telegraphic transfers at 1s. 4 1-16d. per rupee were allotted about 95% of the amounts applied for.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last four years:

Messrs. Pixle	ey &	Abell	writ	e as	follow	s und	er da	te of

July 25:

GOLD.—There was no foreign demand this week for gold, and, after satisfying India and the trade, the Bank secured about £450,000, at a fall of $\frac{1}{4}$ d. Next week we expect about £968,000 from South Africa. The week's movements are as follows: Received £430,000, chiefly in bars; sold £192,000, all for South America. Arrivals—Cape, £409,000; New Zealand, £29,000; West Indies, £24,000; Australia, £15,000; West Africa, £17,000; India, £3,000; total, £497,000. Shipments—Bombay, £102,-400; Madras, £9,250; total, £111,650.

SHLVER.—The market continues firm, and, after touching 31 13-16d., we close 31½d., or ½d. higher on the week. The feature still is the absorption by India, though the Bazaars have not played so active a part. Offerings by America are very small. At the close the market is dull. The India price is Rs. 80%. Ar rivals—New York, £141,000; West Indies, £7,000; total, £148,000. Shipments—Bombay, £346,400; Madras, £5,000; total, £351,400.

 $\operatorname{MEXICAN}$ DOLLARS.—There have been further transactions in dollars at their melting value.

The quotations for bullion are reported as follows:

GOVERNMENT REVENUE AND EXPENDITURES .-Through the courtesy of the Secretary of the Treasury, we are enabled to place before our readers to-day the details of Government receipts and disbursements for the month of July. From previous returns we obtain the figures for previous months, and in that manner complete the statement for the seven months of the calendar years 1907 and 1906. For statement of July 1906 see issue of August 11 1906, page 304.

RECEIPTS AND DISBURSEMENTS (000s omitted).

AUG. 10 1907.

THE CHRONICLE.

Statement of New York City Clearing-House Banks.— The following statement shows the condition of the New York City Clearing-House banks for the week ending Aug. 3. It should be distinctly understood that as to all items except capital and surplus the figures are the averages of the daily results, not the totals at the end of the week. In other words, in reporting loans and deposits and holdings of specie and legal tenders, the practice is to take the aggregate of the amounts for the several days of the week and divide this aggregate by the number of days.

We omit two ciphers (00) in all cases.

	WE UT	nu tuo cip	ners (00) in	un cuoco.		and a state

a Including for Boston and Philadelphia the item "due to other banks" and also Government deposits. For Boston these Government deposits amounted on Aug. 3 to \$2,704,000; on July 27 to \$2,640,000.

Imports and Exports for the Week.—The following are the imports at New York for the week ending Aug. 3, also totals since the beginning of the first week in January: FOREIGN IMPORTS AT NEW YORK.

For week.	1907.	1906.	1905.	1904.
Dry Goods General Merchandise	\$3,056,157 9,499,995	\$3,133,377 13,543,660	\$2,836,821 7,949,748	\$2,364,039 8,099,574
Total Since January 1.	\$12,556,152	\$16,677,037	\$10,786,569	\$10,463,613
Dry Goods General Merchandise	\$113,458,116 419,555,744		\$82,793,769 333,375,122	
Total 31 weeks	\$533,013,860	\$453,483,945	\$416,168,891	\$354,043,152

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Aug. 3 and from Jan. 1 to date.

EXPORTS	FROM	NEW	YORK	FOR	THE	WEEK

The state of the state of	1907.	1906.	1905.	1904.
For the week Previously reported	\$8,503,578 362,301,053	\$8,982,427 359,247,719	\$7,659,223 305,910,133	
Total 31 weeks	\$370,804,631	\$368,230,146	\$313,569,356	\$287,708,091

The following table shows the exports and imports of specie at the port of New York for the week ending Aug. 3 and since Jan. 1 1907, and for the corresponding periods in 1906 and 1905:

		EXPORTS	AND	IMPORTS	OF	SPECIE	AT	NEW	YORK
--	--	---------	-----	---------	----	--------	----	-----	------

Gold.	Exp	ports.	Imports.		
Goid.	Week.	Since Jan. 1	Week.	Since Jan. 1	
Great Britain France Germany West Indies Mexico South America			\$43,367 59,431	166,330 1,661,135	
All other countries Total 1907 Total 1906 Total 1905			\$102,798 2,079,687 97,110	49,173,614	
Silver. Great Britain France Germany. West Indies. Mexico South America. All other countries.	268,000	260,549	\$31,697 28,036 120	693,762 550,325	
Total 1907		\$26,285,101 32,740,990 19,149,868	\$59,853 49,912 43,806	1,450,469	

Of the above imports for the week in 1907, \$43,367 were American gold coin and \$120 American silver coin. Of the exports during the same time \$4,200 were American gold coin and _____ were American silver coin.

Wall Street, Friday Night, Aug. 9 1907.

Wall Street, Friday Night, Aug. 9 1907. The Money Market and Financial Situation.—What many have looked forward to as a probable result of the present feeling of antagonism toward corporate interests, and espec-ially toward railroad interests, has this week taken place in the security markets. We refer to a decline of from 5 to 10 points in practically all the railway shares, which, added to the previous decline, carried a long list of prominent issues down an average of from 20 to 40 points and in some cases more. Naturally, there was some reaction from the lowest prices of the week, but all doubt as to whether the recovery would be maintained was removed to-day, when Reading de-clined more than 3 points and other stocks nearly as much. Some of the events of the week have been such as to fur-ther unsettle confidence and aid the downward movement above noted. First of these was the announcement of a judicial decision imposing a fine of over \$29,000,000 against the Standard Oil Company, and later there have been court rulings against some of the railways in the South of a decid-edly drastic character. Owing, in part, at least, to these developments, the local money market has been firmer. Call loan rates have been quoted as high as 6%, there seems to be an increasing unwillingness on the part of lenders to accept long-time loans, and money market conditions have doubtless added more or less to the liquidating movement in the market. British consols made a new low record to-day, and the

added more or less to the liquidating movement in the market. British consols made a new low record to-day, and the financial situation abroad seems not to have improved very much.

The open market rates for call loans on the Stock Exchange The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2 to 6%. To-day's rates on call were $3\frac{1}{2}(@5\%)$. Prime commercial paper quoted at 6% for endorsements and 6@ $6\frac{1}{2}\%$ for best single names. The Bank of England's weekly statement on Thursday showed a decrease in bullion of £777,214 and the percentage of reserve to liabilities was 46.90 against 46.70 last week. The discount rate remains at 4% as fixed April 25. The Bank of France shows an increase of 100,000 frances in gold and a decrease of 550,000 frances in silver. NEW YORK CITY CLEARING-HOUSE BANKS.

	1907. August 3.		ljerences from vious week.	1906. August 4.	1905. August 5.

Plus: k1-16 of 1%. x1-32 of 1%. y3-32 of 1%.
The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah, buying, 50c. per \$1,000 discount; selling, 75c. per \$1,000 premium.
New Orleans, bank, \$1 per \$1,000 premium; commercial, 80c. per \$1,000 discount. Chicago, 10c. per \$1,000 discount.
St. Louis, 25c. per \$1,000 discount. San Francisco, 75c. per \$1,000 premium.

State and Railroad Bonds.—Sales of State bonds at the Board are limited to \$10,000 Virginia 6s def. tr. rec. at 28.

On a somewhat better volume of business than of late, the market for railway and other bonds has been weak. Nearly all issues are lower, and in several cases the decline has been exceptional. Among the latter are Interboro-Metropolitan 4½s, which have been notably active and weak to-day and are 7 points lower than last week, and General Electric de-benture 5s, which have declined. Delaware & Hudson conv. 4s, Colorado Industrial 4s, Brooklyn Rapid Transit 4s, Atchi-son conv. 4s and the American Tobacco issues have lost a point or more.

United States Bonds.—Sales of Government bonds at the Board include \$10,000 4s coup., 1925, at 127; \$1,500 2s coup., 1930, at 105³/₄, and \$2,000 2s, reg., 1930, at 105³/₈. The following are the daily closing quotations; for yearly range see third page following.

* This is the price bid at the morning board; no sale was mad

* This is the price bid at the morning board; no sale was made. Railroad and Miscellaneous Stocks.—The sharp decline in the stock market, referred to above, following the gradual downward movement which had been in progress for some time previous, carried a few railway issues to the lowest prices of the year. Much the larger portion of the list, how-ever, was still well above the low quotations recorded in March. The decline of the week, ranging from about 4 points in the cases of New York Central, Pennsylvania, Baltimore & Ohio and Missouri Pacific to 10 points or more in the case of Reading, St. Paul and Great Northern and of over 16 points in Union Pacific, was, of course, sufficient to cause a good deal of disturbance. During the closing hours on Thursday a temporary reaction took place, but the recovery then made was mostly lost to-day, when the market was again weak and depressed. Interboro-Metropolitan and the copper stocks have been leaders of the downward movement throughout the week, and these, with sugar, have made new low records of the year. Although about a point above the lowest, Steel common shows a net loss of 3 points and preferred slightly more. *For daily volume of business see page* 336. The following sales have occurred this week of shares not represented in our detailed list on the pages which follow: STOCKS Sales Range for week. Range since Jan 1.

Luvestment and Kailroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the street railways are brought together separately on a subsequent page.

and a long to the	Latest	Gross Earr	nings.	July 1 to 1	Latest Date.	and the second	Latest	Gross Earn	nings.	July 1 to 1	Latest Date.

For the month of July the returns of 55 roads show as follows:

Month of July.	1907.	1906.	Increase.	. %
Gross earnings (55 roads)	\$ 74 055 500	\$ 66 880 411	\$ 175.089	10.73

It will be seen that there is a gain on the roads reporting in the amount of \$7,175,089, or 10.73%.

Net Earnings Monthly to Latest Dates.—The table fol-lowing shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of July 20 1907. The next will appear in the issue of August 24.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of July 27 1907. The next will appear in the issue of August 31 1907.

Central Coal & Coke Co., Kansas City.

(Report for Fiscal Year ending May 31 1907.)

The usual comparison of earnings and balance sheet were given several weeks ago (V. 85, p. 218). In a circular re-ceived this week, Vice-President and General Manager Charles Keith, under date of June 18, says in substance: S

S. Keith, under date of June 18, says in substance:
The past year was a very prosperous one, and the company is in excellent francial condition. The physical condition of both the lumber and coal properties is better than ever before. The requirements of the bond paymave purchased \$120,000 bonds maturing next year. The intrinsic value of the stock is now considerably more than it was a year ago. Our holdings of the bonds maturing next year. The intrinsic value of coal lands have been largely increased, while our holdings of the bonds maturing next year. Coal mines and unber mills and their accessories are substantially the same as they were able to purchase approximately as much as we cut last year. Coal mines and unber mills and their accessories are substantially the same as they were able to say the outlook in the coal department have been determined were made. It was a year ago.
The thermore ments in the coal department have been determined year and are now under construction, and should give us during the coming year, based on construction and should give us during the coming year, based on the facture. The market to day shows quite a serious tendency to thore consumed approximately 30% of the production of lumber in the busines was allowed as where here holded States. It looks now as if there would be very little new railroad shourd on the same as suppus of lumber in the busines year, in which event there may be a surplus of lumber in the busines year, in which event there may be a surplus of lumber in the busines were and there would be very little new railroad surplus year. The Marsden Company, Philadelphia.

(Report for Fiscal Year ending Dec. 31 1906.)

President A. G. Winter, in his report presented to the stock-holders at their meeting held in February last, said in sub-

<text><text><text><text><text><text><text><text><text><text><text><text>

home supply will soon be exhausted. It is proposed to bring molasses from Cuba to New Orleans by tank steamers under charter, transfer it to barges at some point on the Mississippi River, and tow these barges as near as possible to our various plants. This should result in a great saving in freights. We have used 15,000 tons of molasses this past year and will use more this year. At the rate of \$2 per ton for freight instead of \$5, the saving would be close to \$50,000 in this one item alone. Altogether we calculate a possible saving in cost of raw material of at least \$1 per ton, which means that much additional profit per ton. By developing the sucreme business, we have not only established our sof \$600,000. The cost of doing this is considerably less than one-half of what appeared to be a critain loss, and the whole amount so expended and the mark prest ge of our sucreme feeds.

Chesapeake & Delaware Canal Co.

(Report for Fiscal Year ending May 31 1907.)

President C. L. Nicholson says in substance:

President C. L. Nicholson says in substance: The operations of the canal show a loss for the year, over expenses and for more than two months during the winter by lee and to effect extensive repairs to the lock at Chesapeake City. A succession of gales and storms, which continued until May, materially interfered with the trade and alded in the diminution of tolls. The cost of various betterments and other extraordinary expenses, together with a loss on sale of Philadelphia real on June 1 1906 an advance was made in wages. The Commission, appointed under Act of Compress approved June 28 7906, on January 1 1907 recommended the route of the present Chesapeake & Delaware Canal as one of the best adapted for the purpose Intended by the Commission. If it is decided that the Canal Company should be relm-pursed on this method of appraisement, the Commission believes that no might value than that given by it, viz., \$3,708,186, should be paid. This is exclusive of the franchises, but the Commission, ha view of the possibility of constructing a canal upon a competitive route and because it believes further that "even at its own valuation of \$3,708,186, is far too high for the Government of the sessent we and appraised the decause it believes further that "even at its own valuation of \$3,708,186, is far too high for the Government of pay." It has recommended an appraisement of the value of the works and franchises of the Chesapeake & Delaware Canal to b \$2,514,389 76." See Senate Document No. 215, 59th Congress, 2d Session.

The report was referred to the Committee on Commerce, and ordered to be printed, Jan. 14 1907. No further action by Congress in the matter has been taken. On Oct. 30 1906 Coleman L. Nicholson, for over twenty years Secretary and Treasurer, was elected President to serve for the unexpired term of President Neall, who resigned.

Galveston Wharf Company.

(Report for Fiscal Year ending Nov. 30 1906.)

President Jno. Sealy under date of Dec. 1 1906 (the report was issued last December but has never been cited in this column) says in substance:

column) says in substance: The company is in spiendid condition in every way. We have paid in dividends 5%, provided for the sinking fund, taken good care of the physical condition of the property and made some very valuable improvements. The indebtedness has not been increased. The indebtedness has not been increased. The indebtedness has not been increased in operation charges of Ele-vator A, due to the largely increased business done and to expenditures for extra dredging, repairs on railroad and piers, especially at Pier 10, where we have put in a brick roadway and made very extensive repairs. The general business has been very large and we are glad to report an improvement in the grain business, done through Elevator A, although we are at all times had room in said elevator to handle a great deal more grain than was offered us. The construction of another bulkhead to the west of Pier 38, and a warer on substitute on Pier 38 similar to the one built this summer on Fier 37. We have also ordered additional steel rails and some of the east-end tracks will be changed and re-laid to facilitate the switching of the tracks will be changed and re-laid to facilitate the switching of the tracks will be changed and re-laid to facilitate the switching of the tracks will be changed and re-laid to facilitate the switching of the tracks will be changed and re-laid to facilitate the switching of the stered tracks will be changed and re-laid to facilitate the switching of the stered tracks will be changed and re-laid to facilitate the switching of the stered tracks will be changed and re-laid to facilitate the switching of the stered tracks will be changed and re-laid to facilitate the switching of the stered tracks will be changed and re-laid to facilitate the switching of the stered tracks will be changed and re-laid to facilitate the switching of the stered tracks will be changed and re-laid to facilitate the switching of the stered tracks will be changed and re-laid to facilitate th

Planters' Compress Co., Boston.

(Report for Fiscal Year ending May 31 1907.) The directors sav:

The diffectors say: During the year ending May 31 1907 no very material changes have oc-curred from the situation and conditions of which you were advised in June 1906. The compress machine of the company continues to operate satis-factorily as a machine. There seems to be no reason to modify previously expressed opinions as to the merit and superiority of the "Lowry Bale" as a cotton package, and the ocean carriers and underwriters have continued to grant the differentials reported a year ago. Your board has considered it wise to arrange for the handling of cotton by dealers generally instead of by the companies, and, during the coming sea -

son, it is hoped and expected that the "Lowry Bale" will be still more than heretofore acknowledged on its merits and dealt in by independent cotton buyers and brokers. The company has during the last year, with better success and results than were anticipated, disposed of a considerable number of its inoperative gin plants in Texas. Lessees of your company's presses continue, on the whole, to operate the same successfully, and, as a class, they seem pleased and satis-fied. The company has no debt except for current expenses.

AGREEMENT WITH AETNA POWDER CO., MIAMI POWDER CO. AND AMERICAN POWDER MILLS, lucers of about 10% of Total Output.

Producers of about 10% of Total Output. Producers of about 10% of Total Output. At the time of the filing of this petition and for several years prior thereto he Aetna Powder Co. of Indiana, the Miami Powder Co. of Xenia, Ohio, and the American Powder Mills of Boston, Mass., have been engaged in manufacturing gunpowder or other high explosives, and together have manufactured and sold from year to year about 10% of the total output of all the powder factories of the United States; and for many years all competition between said powder companies and the parties to said com-bination has been suppressed. The Aetna Powder Co. in 1880 built a powder factory at or near Sherer-migh explosives and in active competition with the parties to the combina-tion. For the purpose of eliminating the company as a competitive factor, a contract was entered into in 1895 between the said Aetna Powder Co. and the Eastern Dynamite Co. whereby it was mutually agreed that the said Aetna Powder Co. of Xenia, Ohio, ever since its organization, has been a party to the combination, and the American Powder Mills of Boston, Mass, ever since the year 1872 has been and now is a party to the said combination, and since 1902 there has existed an agreement whereby it is mutually understood and scuered that neither of the parties thereto will combination, and since 1902 there has existed an agreement whereby it is mutually understood and scuered that neither of the parties thereto will combination, and since 1902 there has existed an agreement whereby it is mutually understood and scuere to the parties thereto will EXHIBIT A-CORPORATIONS CONTROLLED JULY 1 1902.

EXHIBIT A-CORPORATIONS CONTROLLED JULY 1 1902. Total Capital Stock July 1 1902 (No. shares) and Number then Owned by Dejendants.

Plans for Refunding Income Bonds, with Provisions for New Capital.—The "Savannah News" of Aug. 4 says:

Capital.—The "Savannah News" of Aug. 4 says: On Aug. 14 there will be a meeting in New York of the owners of the Central of Georgia and representatives of the larger boncholders of the Central of Georgia and representatives of the larger boncholders of the road to formulate a plan for the retirement of the income bonds of the road. The face value of these bonds is \$15,000,000. In Savannah about one-fifth of the total issue of \$15,000,000.out \$3,000,000—is held, the holdings being divided among the three classes of bonds. It is estimated that about \$50,000 worth is held in Atlanta, \$200,000 in Augusta, a like amount in Macon and \$100,000 scattered through Georgia. Perhaps one-third of the bonds are held in New York. While no formal proposition has been submitted by the company, it is reported that the scheme will provide for the exchange of the \$15,000,000 of income bonds, which bear 5% interest. "payable when earned." for an equal amount of 4% bonds, with interest as a part of the fixed charges. Besides the \$15,000,000 issued to take up the income bonds, it is ex-pected that the road will issue other bonds for improvement purposes. The company is desirous of double-tracking the road between Macon and Atlanta, and between Macon and Fort Valley, besides making other im-provements. The money for all of this must be raised from outside sources. J. S. Wood, who has made a specialty of these securities, in speaking of the proposed refunding, said: "A leading banking firm of New York con-trols more than \$2,000,000 of the income bonds, and is in touch with the owners of the bonds to agree to any reasonable plan which might be pro-posed, after the dividend has been paid. Personally I am hight in favor of the proposed refunding scheme, as I have been informed as to its scope. I think it will be a good thing for the present holders and a to its scope. I think it will be a good thing for the present holders and a clarable thing for the road. It's a case where both sides are winners. "-V.84, p. 1550.

Central Long Island Electric Light & RR.—Promoter in Trouble.—See Manhattan & Long Island RR. below.

Trouble.—See Manhattan & Long Island RR. below.
(The) Central Kentucky Traction Co.—Consolidation— New Mortgage.—The Frankfort & Versailles Traction Co. and the Central Kentucky Traction Co. have been consoli-dated under the name of The Central Kentucky Traction Co., with an authorized stock of \$425,000. The new company has executed a mortgage securing \$4,000,000 first mortgage 5% bonds to the Guarantee Trust & Safe Deposit Co. of Philadelphia, trustee, dated Aug. 2 1907 and due Aug. 1 1937; \$438,000 have been issued and \$150,000 additional authorized to be issued; balance to be held in reservation for future extensions and improvements. The stock is all owned by the Lexington & Interurban Railways Co. (see page 53 of "Street Railway Section").—V. 82, p. 217.
Chicago & Alton RR.—Rebate Charge.—See Standard Oil Co. under "Industrials" below.—V. 85, p. 283.
Chicago Great Western Ry.—Additional Funds for Im-

Chicago Great Western Ry.—Additional Funds for Im-ovements Required to Provide for Growing Business,—An exchange has the following:

change has the following: President Stickney and Vice-President Oppenheim of the Chicago Great Western recently went to England to arrange with the English Finance Committee for the financing of further improvements based on the large growth of freight traffic, which has far exceeded anticipations. This growth can be seen from the revenue which has come from this source in the large few years: Nine months 1906-07, 85, 125, 745; year 1905-06, \$5, 998, 374; year 1904-05, \$5,096, 543. In view of these conditions It is evident that the Great Western road must enlarge its facilities and accordingly must have more money for capital expenditures.—V. 84, p. 1247.

Chicago Railways.-Report of Arbitrators.-Judge Gross-cup and Mr. Gray on Thursday announced their findings as

arbitrators on the reorganization plan of the Chicago Union Traction system, which was published in V. 85, p. 159. The telegraphic report published by the "Wall Street Journal" follows:

Traction system, which was published in V. S5, p. 139. The telegraphic report published by the "Wall Street Journal" follows:
 We leave the first mortgage 5% bonds as they were. We leave the consolidated mortgage bonds in two series, A and B. We cut down Series A and B: a security for the 5-rear collateral notes from \$6.617,200 to \$5,867,200, but make them 5% bonds; not having any priority except as Series A gives them providy. We make the balance of the bonds, both Series A and B; 4% for 5 years and 41% % thereafter.
 We transfer one-half of the consideration for) the Tunnel bonds from Series B to Series B. and Passenger Railway stock now debentures to Series B.
 We reduce the bonds exchanged for North Chicago City stock from \$49,800 to \$449,820. We reduce bonds exchanged for West Division stock from \$12,49,200 to \$449,800,000; total, \$31,900,000. We leave the debentures to series B. \$16,900,000 to total, \$31,900,000. We leave the debentures as collateral security to the extent of \$4,801,200 to 9449,820. We reduce the North Chicago City and West Division stocks in another way, this whole junior collateral reserve. Having taken care of the North Chicago City and West Division stocks in another way, this whole junior collateral reserve is collateral for loading debot \$4,812,126.
 The plan must provide that unless the creditors otherwise consent, the whole of the notes constituting junior collateral reserve shall be paid before dividends are paid on the stock.
 The plan must provide that strest stock, in proportions contained in present plans, and the other 25 % to go as follows: To North and West Street stock and the stock are at the original issue of partidpation securities, series A, is canged from \$12,250,000 to \$13,250,000.—Ed. "Chicago City, A, Iaother account states that the original issue of partidpation securities, series A, is charge drow \$12,250,000 to \$13,250,000.—Ed. "Chicago City, A, Iaother account states that the property, so

The modifications decided on will be put in proper shape for final approval by Judge Grosseup, as Federal Judge, probably next week.—V. 85, p. 159.

Cleveland Cincinnati Chicago & St. Louis Ry.—Results for Quarter and Half-Year.—For the 3 and 6 months ending June 30 earnings were:

Three Gross	Net	Other	First Charges	Bal. for
Mos. Earnings.	Earnings.	Income.	and Taxes.	Divid'd s.
1907 \$6,775,198	\$1,752,583	\$44,577	\$1,137,359	\$659,801

Dividends on the preferred stock $(1\frac{1}{4}\% \text{ quarterly})$ call for \$149,981 during each of the 3 months and \$299,962 during each of the 6 months, and on the common (1% quarterly) call for \$445,581 for the 3 months in 1907, against \$330,878 in 1906, and \$891,160 for the 6 months, against \$661,755 in 1906, leaving a surplus of \$64,240 for the 3 months in 1907, against a deficit of \$212,578 in 1906 and a deficit of \$649,790 for the 6 months in 1907, against a deficit of \$511,983 in 1906. —V 85, p. 220.

Detroit Jackson & Chicago (Electric) Ry.-Bond Issue-**Detroit Jackson & Chicago (Electric) Ry.**—Bond Issue— Further Particulars—Guaranty.—The mortgage made on Feb. 1 1907 to the Security Trust Co. of Detroit, as trustee, secures an issue of not exceeding \$4,000,000 5% gold bonds, dated Feb. 1 1907 and due Feb. 1 1937, but subject to call on any interest date at 105. These bonds are issuable for the purposes stated in the "Chronicle" of Feb. 23 (p. 450). They carry the following guaranty endorsed on each: For a valuable consideration to it in hand hald the resent whereaf is

by Assistant Secretary.]-V. 84, p. 450. **Detroit United Ry.**—Injunction.—Judge Swan in the United States Court on July 23, on application of the Guar-anty Trust Company of New York, as trustee of the first consolidated mortgage, granted an order re-straining the city officials and the members of the Council from enacting the ordinance known as the Holly ordinance, providing that the railroad company can use patches of line said to aggregate about 5 or 6 miles in length, on which it is claimed franchises have expired, only on condition that five tickets be sold for 15 cents over the entire lines or streets on which the patches line which the patches lie.

Which the partness he. The ordinance is supposed to be designed to obtain 3-cent fares through-out the clty by means of the franchises which it is claimed have expired. Other objectionable features are contained in the proposed ordinance, under which it is claimed the company would have to pay over \$150,000 more in taxes than it is obliged to under existing contracts. The effect of the ordinance would be, it is estimated, to reduce the dailyrevenue from \$8,888 in 1906 to \$6,229, a loss of \$2,659, or sufficient to impair the rev-nues of the rahway to such an extent that it would not only be unable to pay dividentia, but the interest on the consolidated mortgage bonds. A plearing on the motion to continue the injunction is expected to take place about Sept. 1.

20-seconds service ordinance passed in April last. Compare V. 84, p. 1052.—V. 84, p. 1366.
Frankfort & Versailles Traction Co.—Consolidation.—See Central Kentucky Traction Co. above.—V. 81, p. 1043.
Georgia & Florida Ry.—Merger of Controlled Properties.— The directors and stockholders of the Augusta & Florida Ry., Millen & Southwestern RR., Atlantic & Gulf Shore Line, Douglas Augusta & Gulf RR., Nashville & Sparks RR. and Valdosta Southern RR. on Aug. 8 voted to merge the properties with the Georgia & Florida Ry.—V. 85, p. 221.
Georgia Railway & Electric Co., Atlanta.—New Directors.
—Vice-President George Brine, who recently succeeded W. L. Cosgrove as President of the Atlanta Gas Light Co., and T. K. Glenn, the Manager of the street railway department and President of the Atlanta Northern Railway Co., have been elected directors, to succeed Albert E. Thornton, deceased, and W. L. Cosgrove, resigned.—V. 85, p. 40.
Houston (Tex.) Belt & Terminal Ry.—Bond Issue.—This

been elected directors, to succeed Albert E. Thornton, deceased, and W. L. Cosgrove, resigned.—V. 85, p. 40.
Houston (Tex.) Belt & Terminal Ry.—Bond Issue.—This company has filed a mortgage to the Central Trust Co. of New York, as trustee, to secure an issue of \$5,000,000 first mortgage 5% gold bonds of \$1,000 each, dated July 1 1907 and due July 1 1937, but subject to call at 105 and interest after July 1 1917; interest payable Jan. 1 and July 1. The mortgage covers ten blocks in the Third Ward of Houston which were purchased for passenger and freight terminals several months ago; also tracks, rolling stock, buildings, &c.; also all interest in a contract between the terminal company and the Gulf Colorado & Santa Fe Ry. (Atchison system), Trinity & Brazos Valley Ry., St. Louis Brownsville & Mexico RR. and Beaumont Sour Lake & Western RR. (Colorado Southern New Orleans & Pacific RR.) companies, the proprietary companies, relating to the use of the union passenger and freight stations and other railroad facilities in Houston. See V. 83, p. 751.
Hudson Pelham & Salem (Mass.) Street Ry.—Foreclosure Sale.—The road was sold in foreclosure at Nashua, N. H., on July 19 for \$400,000 to H. W. Miller of Hornblower, Miller & Potter of New York, acting, it is understood, in behalf of the New Hampshire Electric Railways Co.—V. 84, p. 868.

p. 868.

p. 868. Illinois Central RR.—Mr. Fish Will Receive Proxies.—At the annual meeting on Oct. 16 the shareholders will vote for four directors, the terms of Messrs. Fish, Astor and Harriman then expiring, and the vacancy caused by the death of John C. Welling remaining to be filled. Stuyvesant Fish on Aug. 1 gave out a statement in which he announced that he still holds the same interest in the property as on Nov. 7 1906, namely, 12,452 shares (total par value \$1,245,200), and that, while not disposed to make any effort to secure proxies, he is willing to receive and vote such as may be sent him he is willing to receive and vote such as may be sent him "in the best interests of the owners of the whole capital stock."—V. 85, p. 221.

Indiana Harbor Belt RR.—New Bond Issue.—The amount the proposed mortgage, we learn, is \$25,000,000. See . 85, p. 284.

Interborough Rapid Transit Co.—Long Island City Tunnel. See New York & Long Island RR. below.—V. 84, p. 1366.

-See New York & Long Island RR. below.-V. 84, p. 1366. Kansas City Mexico & Orient Ry.-Offering of Town Site Company's Collateral Notes.-The Mexico & Orient Townsite Co., one of the subsidiary corporations (V. 78, p. 1113) is offering at par \$850,000 7% collateral trust notes, secured by \$850,000 of railroad company's bonds. The proceeds, it is stated, will be loaned to the railroad company to enable it to purchase material for the building of 150 additional miles of railroad this year, connecting five different sections of railroad. "This will permit of the operation of 1,000 miles of the Orient system by Jan. 1," on which President Stilwell estimates the railroad company will earn gross \$3,500,000 and net \$1,500,000 per annum. Compare V. 84, p. 1551, 508, 102. 508, 102.

Kansas City & Westport Belt Ry.—Status.—See report of the Kansas Railway & Light Co. under "Annual Reports" on a preceding page of this issue.—V. 83, p. 272, 323.

Knoxville (Tenn.) Railway & Light Co.—Bond Offering— Earnings.—Isidore Newman & Son, New York, who are offering a block of consolidated mortgage 5% bonds dated Sept. 1 1905, at a price to yield the investor 5¼%, report the earnings of the property for the year ending June 30 1907 and for the six months ending June 30 1907 and 1906 re-spectively, as follows:

*Deduction for reserve and depreciation was not made monthly in the year 1906, but a single deduction of \$30,000 was made in Dec. 1906, half of which is here con-sidered as applying to the first half of 1906.—V. 83, p. 38. Lake Erie & Western RR.—Statement tor Half-Year.— Earnings for the six months ending June 30 (partly estimated in 1907) were:

1907 \$2,432,538 \$591,421 \$3,538 \$476,107 \$118,400 \$452 1906 2,525,379 615,868 8,426 504,556 118,400 1,339 	1906	2,525,379

Judge Swan on July 24 also handed down a decision making permanent the injunction restraining the enforcement of the

From the balance as above were paid dividends amount-ing to \$2,967,990 (6%) in 1907, against \$1,978,660 (4%) in 1906, leaving a surplus of \$51,608 in 1907, against \$437,322 in 1906.—V. 85, p. 284.

Lexington & Interurban Railways.—Mortgage for Con-trolled Property.—See Central Kentucky Traction Co. above. —V. 84, p. 626.

Louisville Ry.—Sale of Notes.—The \$150,000 3-year 6% notes, the part of the authorized issue of \$500,000 for which bids were asked last week, were sold to the Fidelity Trust Co. of Louisville at 104¼ and interest.—V. 85, p. 284.

Louisville & Nashville RR.-Called Bonds .- Forty-four

Louisville & Nashville RR.—Called Bonds.—Forty-four (\$44,000) Henderson Bridge Co. first mortgage 6% bonds dated 1881 have been called for redemption and will be paid at the Central Trust Co., New York, on Sept. 1 at 105 and interest.—V. 84, p. 1428. Manhattan & Long Island RR.—Outcome of Mysteri-ous Project.—In September 1905 a company with this name and \$10,000,000 of authorized capital stock was incorporated to build 80 miles of trolley road connecting Long Island City with points on Long Island. The following statement re-cently published sheds light on the scheme: The creditors of William P. Williams, a promoter who some years ago

cently published sheds light on the scheme: The creditors of William P. Williams, a promoter who some years ago midertook to construct an extensive electric traction system on Long island, met last week in the offices of Cassilly Cook, of 60 Wall St., and organized for the purpose of obtaining a settlement of their claims. Mr. Williams organized the Manhattan-Long Island RR. Co. with an au-thorized cepital of \$20,000,000 and the Central Long Island Electric Light & RR. Co., and it was said that it was through these companies that he became indebted to the American Surety Co., J. G. White & Co., the New England Engineering Co., Hugh R. Garden and Montrose, Clark & Emmons. Mr. Garden said last night that he understood that the total claims against Mr. Williams amounted to about \$10,000. Bonds of the Central Long Island Co. to the extent of \$500,000, it was said yesterday, were floated by Mr. Williams in Washington, D. C., and in New England, but how much, fany, of the stock of the Manhattan-Long Island RR. has reached the hands of the public does not appear. Mr. Williams's scheme, it was said vas to parallel the Long Island NR and he is reported to have received sup-port from residents of Long Island who were desirous of having additional fallroad facilities on the Island. Outside of obtaining franchises, some of which are said to be vauable, and purchasing right of way, it is understood that very little work has been done on these polyceted railroads. The directors of the Manhattan & Long Island RR. were given in the incorpora-tion notice as Edward Mackey. D. T. Meyer, H. H. Bowtell, Samuel Y. Suber, Frankiln M. Waiter and George E. MacArdle of Manhattar, Robert M. Stoekwell of Yonkers, A. Paroutand of Brooklyn and Henry Guinard of Watung, N. J. - Edl. Michigan Central RR.—Statement for Half-Year.—Earn-

Michigan Central RR.—Statement for Half-Year.—Earn-ings for the six months ending June 30 (partly estimated in 1907) were:

In 1906 \$1,864,972 ($1\frac{1}{4}$ %) was paid quarterly, or \$3,729,944 ($2\frac{1}{2}$ %) for the six months, leaving a balance surplus for the 3 months of \$48,394 in 1907, against \$514,646 in 1906, and a deficit for the 6 months of \$2,411,593, against surplus of \$563,023 in 1906.-V. \$5, p. 4J.

surplus of \$563,023 in 1906.—v.ps, p. 40.
New York & Long Island RR.—Completio of Second Tube of Interborough Rapid Transit Company's Long Island City Tunnel.—The second tube of the Interborough Rapid Transit Company's tunnel between Grand Central Station, Manhattan, and Long Island City, was connected through this week. The north, or west-bound, tube has been completed for two months, and experimental trains, it is said, will be running in a few days. Chief Engineer Clarke is quoted as saying that both tubes can be placed in readiness for the running of trains in three months, provided terminal arrangements in Long Island City are completed in time.—V. 84, p. 694.
New York New Haven & Hartford RR.—Electric Service

New York New Haven & Hartford RR.—*Electric Service Extended.*—The suburban electric passenger service was opened to Portchester on Aug. 5] and is expected to be extended to Stamford about Sept. 1. Compare V. 85, p. 221.

Pacific Traction Co.—New Corporation.—This company, incorporated in Maine on June 11 with \$3,000,000 of authorized capital stock and general railroad powers, has filed notice at Olympia, Wash., of the appointment of O. J. Mc-Connell of Tacoma as agent for the enterprise in that State. The temporary officers are: President and Treasurer, J. Berry; Clerk, L. A. Burleigh, both of Augusta, Me.

A company of the same name was incorporated in 1905, probably in the State of Washington, with \$1,000,000 capital, and in May last had com-pleted 12 miles of electric road. On July 31 1907 Judge C. H. Hanford, in the Federal Court, dismissed the suit of the Tacoma Railway & Power Co." for an injunction to prevent the Pacific Traction Co. from laying tracks on Commerce Street from 7th to 9th streets and from running cars from the present 7th Street terminal of the Pacific Traction Co.'s American Lake line."

Pere Marquette RR.—*Plan Operative*.—Over \$9,200,000 of the preferred stock having assented to the reorganization plan, the latter was on Thursday declared operative. Pay-ment for the new debentures subscribed for must be made as follows: 25% on Nov. 1, 25% on Nov. 20 and the remaining 50% on Dec. 1.—V. 85, p 222, 161.

Philadelphia Rapid Transit Co.—May Anticipate Second Installment.—The stockholders, it is announced, will be per-mitted to anticipate the second installment called on the stock due in 1908 and if the same is paid on or before Sept. 9 1907 a discount of 30 cents a share will be allowed, which is at the rate of 4% per annum. *First Payment on New Basis.*—The "Philadelphia Record" of Aug 3 said:

of Aug. 3 said:

Of Aug. 5 statd: There was paid into the City Treasury on Aug. 2 \$31,708 as the first in-stallment of the inxed annual charge of \$500,000 that has replaced the pay-ments for street paying, licenses and removal of snow under the agreement recently consummated between the city and the company. The agreement became operative on July 1. The company has paid \$119,500 for licenses for 1907, and half of this amount will be returned as a rebate, since the new agreement is in force for only six months of the year. After Jan. 1 1908 the company will pay \$41,666 66 monthly. Councils will have this fund established separately to provide for the paying of the streets occupied by the street car tracks and for the removal of snow from them.

the company will pay 341,000 be montaily. Conners will have this fund established separately to provide for the paving of the streets occupied by the street car tracks and for the removal of snow from them. Subway Service by July 1908.—President Parsons is reported as saying: "Cars will be running through the Market Street subway to the Delaware River by July 1908, and the en-trances into all the big stores will be ready by then. I think it is a safe prediction that cars will be running the entire length of the subway one year from to-day." *Earnings.*—The "Philadelphia Ledger" of Aug. 7 said: July earnings of the Philadelphia Rapid Transit Co. were the largest in the history of the company. It is officially stated that they increased \$190,000 over the corresponding month last year. The Elks' convention was largely responsible for this heavy increase. A director, in speaking of the past year's earnings, admitted that the an-mal statement, to be issued next month, would no doub be disappointing to the stockholders. He blamed it upon the agitation against the manage-ment during the past year. He intimated also that a dividend on the stock might be looked for before the end of 1908, providing, as now expected, that the Market Street line would be fully completed and in operation by September next year. He added: "The completion of this work will not only result in increased earnings, but in largely reduced operating expenses. The increase in earnings would come even if there was no new traffic dev-oped. It would come from the collection of missed fares. Hundreds of dollars are lost daily through inability of conductors to collect fares on the Market Street surface lines, especially during the rush hours. With the subway in operation, these missed fares on this line will have become a thing of the past. The year ended June 30 last witnessed the heaviest expend-tures in the history of the company, not only as far as the Market St. line were not absolutely necessary at the time, and they carried with them the pa

Pittsburgh & Westmoreland (Electric) Ry.—Purchase.— Thomas M. Evans of McKeesport, Pa., it is reported, has

purchased a large interest in this company, "which will soon operate cars between McKeesport and Irwin."-V. 83, p. 493.

Providence Securities Co.—See Rhode Island Securities Co. below.—V. 84, p. 1114.

Quebec Bridge & Railway.—Loan Authorized by Stock-holders.—The shareholders on Aug. 5 authorized the request to the Governor in Council for the making of a loan to the com-pany for the sum of \$6,678,200. Compare V. 85, p. 222.

Railroad Taxation in New Jersey.—Decisions Upholding Laws Increasing Taxes.—The Supreme Court of New Jersey on Aug. 7, Justice Pitney writing the opinion, upheld the Perkins main stem railroad tax Act of 1906, which provided for the taxation of main-stem property at the average rate of all the taxing districts of the State, the average for 1906 being \$1.801 per \$100 of valuation. The "main stem" con-sists of the right of way not exceeding 100 feet in width. Under the old law, main-stem property was taxed by the State at one-

sists of the right of way not exceeding 100 feet in width. Under the old law, main-stem property was taxed by the State at one-half of 1%, or 50 cents per \$100. The Perkins law provided that all the increased taxes, excepting an amount equal to the $\frac{1}{2}$ of 1%, should be given to the various countles devoted to the public schools of the State. In 1905 the tax on railroad main-stem (including franchise) and tangible personal property was \$950,991. In 1906, under the Perkins A ct, it was \$3,503,529, a net increase of \$2,552,538. The roads have alrea dy paid in the amount of tax under the old law, leaving therefore \$2,552,538 now₄due under the Supreme Court decision. The Court holds that the main-stem Act violates neither the Federal nor the State Constitution; that it does not deprive the taxpayer of property; that the average rate of the State is not unconstitutional; that for purposes of taxation railroad property as a general class may properly be sub-divided into minor classes without the sub-classifications being special legislation which would render it unconstitutional, and that the sub-classification is not an unreasonable segregation of the property. The Court of Errors and Appeals on Monday maintained

which would render it unconstitutional, and that the sub-classification is not an unreasonable segregation of the property.
The Court of Errors and Appeals on Monday maintained the constitutionality of the Duffield Act of 1905, under which second-class railroad property, or that not included in the main stem, is taxed at local rates instead of 1% as heretofore. The principles established were in part used to sustain the finding as to the Perkins law referred to above. The effect of the two decisions, it is stated, will be to increase the taxes on railroad property between \$4,000,000 and \$5,000,000 a year.
Shelbyville & Ohio River Electric RR.—Sale.—Special Judge N. C. Cureton of Louisville on Aug. 1 received the report of Commissioner W. P. Thorne recommending the sale of the road in the suit brought by W. O. Peak, the contractor, who finished the grade between Newcastle and Eminence, the only part of the road which has been completed.—V. 83, p. 324.

Tacoma (Wash.) Railway & Power Co.—Injunction De-nied.—See Pacific Traction Co. above.—V. 75, p. 1204.

Toledo Ann Arbor & Detroit Ry.—Foreclosure Sale.— Judge Lockwood, in the Common Pleas Court at Monroe, Mich., on July 25 instructed the receivers to sell the Michigan section of the road at public auction some time during the two weeks between Sept. 3 and 17. Upset price, \$80,000. The sale of the Ohio end of the property was ordered by Judge Kumler in the Common Pleas Court at Toledo on July 31. The bond issue is being contested. Isadore Borgoon, of Fremont O is receiver Fremont, O., is receiver. The "Toledo Blade" of July 31 and July 20 said :

The "Toledo Blade" of July 31 and July 20 said : The "Toledo Blade" of July 31 and July 20 said : The court was up against the proposition to authorize the receiver to ex-pend a large amount of money in repair of the road, or to join the Michigan court in a sale." Said Judge Kumier. The priority of the numerous ilens was not considered, but after the sale the creditors will have the money in the hands of the receiver instead of the property to fight over. The entire property is valued at \$280,000, of which two-tenths, or \$56,000 worth, is located in Ohio. Bonds to the amount of \$800,000 are soid and outstanding, according to the showing made before Judge Kumier, \$700,000 worth of bonds are still in the hands of the trustee, the Trust Company of America (New York), and numerous creditors are claiming the first liens. Casper & Burns, who own the land for a mile along the roadway, have pending an ejectment suit. The Carnerice Steel Co. claim the ralls; as to several other creditors, the Fidelity Construction Co., which built the road, the trust company, and Gorman Brothers, who built the power house also claim first liens. Of the 20 miles of tracks actually constructed, 2¼ miles it within this State The road was promoted in 1900 by Toledoans and others, and at the end of 1902 the right of way had been graded from West Toledo to Petersburg. For two years thereafter the project lay dormate. In 1905 the company again became active and the grading was completed almost to Ann Arbor, ridges and culveris were constructed and ties and ralls laid between Toledo and Petersburg, a distance of 20 miles. The miles of poles were set and hout \$20,000 was expended in building a power house at Petersburg, when, owing to the inability of the Patrick Hirsch Construction Co. to float bonds, and the subsequent failure of the company construction work once struction. **Toledo Reilway & transmission on the structure and the subarder of the subard**

struction.
Toledo Railway & Terminal Co.—Sale Confirmed.—Federal Judge Taylor at Toledo on Aug. 5 confirmed the foreclosure sale of the property, which took place May 28, to the bondholders' committee at the upset price of \$2,000,000.
The exceptions to the confirmation filed by the Ohio Savings Bank & Trust Co., unsecured intervening petitioner, were overruled.—V. 85, p. 100.
Trinity & Brazos Valley Ry.—New Stock.—The shareholders will vote Sept. 10 on increasing "the capital stock of said railway company to an amount not exceeding \$600,000."—V. 84, p. 997.
Union Traction Co. of Indiana —Called Bonds —One Citi-

Union Traction Co. of Indiana.—Called Bonds.—One Citizens' Street Ry. of Muncie first mortgage bond for \$1,000 and four for \$500 will be paid off at 105 and interest on presentation at Guarantee Trust & Safe Deposit Co., Philadelphia, interest ceasing Sept. 1.—V. 84, p. 340.
Washington & Vandemere RR.—Guaranty.—The first mortgage bonds, dated Feb. 1 1907, authorized issue, are endorsed as follows:

Form of Guaranty

For value received, the Atlantic Coast Line Railroad Company hereby guarantees to the lawful holder or registered owner hereof the due and punctual payment by the Washington & Vandemere RR. Co. of the principal and interest of the within bonds, in gold coin of the United States

of America. In witness whereof, the Atlantic Coast Lint RR. Co. has caused this guaranty to be signed by its President or a Vice-President, and its corporate seal to be hereunto affixed, and to be attested by its Secre-tary or an Assistant Secretary, this 1st day of February 1907. Signed Atlantic Coast Line RR Co., by President and attested by Secretary.— V. 84, p. 1249.

V. 84, p. 1249. Western Pacific Ry.—Construction.—The company, it is stated, has awarded a contract to the Western States Con-struction Co. for extensive grading from the vicinity of Islais Creek northward to Ninth and Brannan streets, San Fran-cisco, Cal. A contract has also been awarded to Healy & Tibbitts for the construction of a long mole with ferry and freight slips on the Oakland side of the bay. This mole is to be 1,000 feet long and 1,000 feet wide, and will cost about \$700.000.

\$700,000. The "San Francisco Chronicle" of July 27 quotes an officer

The "San Francisco Chronicle" of July 27 quotes an officer of the company as saying: A present we have 7,000 men scattered along between here and Salt Lake City working on the road, and nearly 3,000 of them are on the stretch from Oroville up the Feather River and the western slope of the Siera. The construction of big steel bridges is the thing that holds continuous track aying back. We have the track all laid west from Salt Lake for a distance of 142 miles, a short stretch of two miles of track near the town of Beckwith on the western slope of the Sierra in connection with the Bocca & Loyalton RR., a half mile of track laid in Stockton ac oss Southern Pachic and street car tracks, and 9 miles of tracks between South Tesla and Niles. We have got all the tracklaying done in the city of Stockton, so that the south Tulare toward Niles. Tracklaying began Thursday from Marysville to Oroville, 26 miles, and we expect to have that all laid early in September, and from Oroville Pass by fail. We shall have men laying track from Stockton westward toward Niles and the bay, from Marysville eastward into the Sierra, from Winnemucca, Nev., westward into the Sierra, and from Stoafter. Utah, westward into Nevada. Early in September we expect to start our first train service with a line shafter. The crossing-place of our road and the Nevada Northern RR., which is running between Salt Lake and the Guggenheim properties at Ey, Nev. Our lint to Shafter, one alter another RR., which is running between Salt Lake and the Guggenheim properties at Ey, Nev. Our lint to Shafter, one alter another and shafter realy has no regular name yet. The place has borne the names of Bewa, Goshiute, Steptoe and Shafter, one Rapid Railway.—Loan.—

Goshlute, Steptõe and Shafter, one after another.—V. 84, p. 932. Windsor Essex & Lake Shore Rapid Railway.—Loan.— The shareholders will vote Aug. 29 on confirming an agree-ment dated May 9 1907 between the railway company and others and the Union Trust Co., Limited, providing for a loan of \$150,000 to the railway company in addition to \$450,-000 theretofore secured by the railway company and others to the said Union Trust Co. Walter Piggott is Secretary. Office, Windsor, Ont.

INDUSTRIAL, GAS AND MISCELLANEOUS

Aluminum Company of America.—Status.—The "Engin-eering & Mining Journal" of New York, in its issue of June 8, cited from advance sheets of "The Mineral Industry" an article on "The Metallurgy of Aluminum in 1906," by Joseph W. Richards, Professor of metallurgy in Lehigh University, substantially as follows: substantially as follows:

article on "The Metallurgy of Aluminum in 1906," by Joseph W. Richards, Professor of metallurgy in Lehigh University, substantially as follows:
The Pittsburgh Reduction Co. (now the/Aluminum Company of America) was have beautie deposite in Georgia, Alabama and Arkansas, obtaining however, most of its ore from Sallne County in the latter State. It has an only produced of aluminum in the United States during plant, and has built a railroad called the Bauxite & Northern, connecting all of this mines in that region with the Chicaga Rock Island & Pacific Ry, and the Missouri Pacific and Iron Mountain systems. This company has realized this rest to that region with the Chicaga Rock Island & Pacific Ry, and the Missouri Pacific and Iron Mountain systems. This company has realized that region with the Chicaga Rock Island & Pacific Ry, and the Missouri Pacific and Iron Mountain systems. This company has realized that region of hauxic art and read sector of an order and to the welfare of a large and thas accordingly spent large runs of money in purchasing bauxite lands both in the castern district – Georgia and Alabama – and In Arkansas. Concrete and the Interest is provide capacity the plant for making carbons at the upper Niagara works has been practicular of plant of the conse of construction at Nagara Falls. This is of removing appliance; the new plant has an equipment and capacity equal to that of any other carbon electrode plant in the workd. The rolling and sheet in feetorically mills in America. The work thus done by this company have been correspondingly enlarged: a new mill for this within the last three years, in plants and processes entirely outside the sheet of the company, at Nagara Falls. This is of removing weighting mills in America. The work thus alone, by this company have been correspondingly enlarged: a new mill for this purces the course of construction at Nagara Falls. The colling and sheet three sheet rolling mills in the workd. The rolling and sheet the sheet of the company, at Nagara F

The capital stock of the American Multigraph Co. of Cleveland has been raised from \$250,000 to \$5,000,000. "Our company was capitalized at \$250,000, and we thought it a good plan to bring the market value of the stock near par," said R. G. Philips, Assistant General Manager of the plant. "The last sale of our stock was at \$1,150. For each share that the stockhold-ers have, 20 will be issued to them." [At last accounts H. C. Osborn was President; George C. Newton, Secretary, and Percy J. Morgan, Treasurer, Office, Case Avenue, corner of Kelly,—Ed. of "Chronicle."]

American Sugar Refining Co.—Suit.—See Pennsylvania Sugar Refining Co. below.—V. 84, p. 627. American Telephone & Telegraph Co.—Contract with Sub-sidiary Companies Explained.—The "Boston News Bureau" of July 27 contained a statement of which the following is a digit to hear the merchluss of the metal changed he digest to show the reasonableness of the rental charged by this company against its subsidiary and associate companies for the use of telephone instruments:

digest to show the reasonableness of the refluct charged by this company against its subsidiary and associate companies for the use of telephone instruments: The parent company charges each of its sub-companies a fixed reflat of 4/2% of its gross telephone receipts. For instance, the Chicago Telephone for the use of the body Sob per station, pays a reflation, pays an instrument gross receipts of show the gross receipts of show the gross receipts of show the station, pays a reflation, pays a reflation, and the station of \$2.2% per station, pays a reflation, and the station of \$2.2% per station of the system is to favor the small, welker companies which have a low gross refuring per station. In addition to the use of transmitter and receiver, the operating companies receive certain per station. In addition to the use of transmitter and receiver, the operating companies receive certain per station. Exclusion of the New England Co. averages \$2.17 per subscripts between 50 and \$4, it now certain set (nerver and thresmitter) so the nerve instrument related of the New England Co. averages \$2.17 per subscripts between 50 and \$4, it now certain \$2, it nerves and thresmitter) is the instrument related of the New England Co. averages \$2.17 per subscripts between 50 and \$4, it now cert as the nerve company state exite build at a state of \$1.36 per subscripts of the state of \$1.36 per subscripts of the thresmit the state of the the transmitter of \$2.17 per subscripts of the thresmit deprediation charges of 10% per pain with the fifts of the transmit deprediation charges of 10% per pain at the fifts of the transmitter and percent \$2.17 per subscripts of the the sec of the every \$2.17 per subscripts of the thresmit the thresmit the thresmit the thresmitter and thresmitter) appresent the sec of \$2.17 per subscripts of the the thresmitter and thresmitter and thresmitter) and the sec of the the thresmitter and thresmitter) and the sec of the the thresmitter and thresmitter and thresmitter and thresmitter) aper state of \$1.36 pe

Baltimore & Fidelity Warehouse Co., Baltimore, Md.-Further Facts.-The following was received after our recent item was published:

Item was published: We have a most modern system of warehouses, built entirely of concrete and 'protected by sp.inkler system; water front of 1,100 feet with 30 feet depth of water. Also when desired by party storing, we issue the regular warehouse receipt, guaranteed by the Fidelity & Deposit Co. of Md., (whose net re-sources are nearly \$6,000,000) at 1-12 of 1% per month on the value of the goods. This receipt is accepted as of the highest class of collateral. Direc tore: Albert G. Ober. President; J. Quitman Lovell, Vice-President: Thos. L. Berry, Treasurer Thos. E. Witters, See, and General Manager; Frank S, Rambleton, John M. Nelson and Ralph C. Lupton. Compare V. 84, p. 1051.

1051. **Battle Creek Power Co., California.**—Lease, Etc.—The status of this company, referred to on a previous page in the report of the Northern California Power Co., was described as follows by C. E. Horey of San Francisco, in December last in connection with an offer at 97½ and interest of \$50,000 first mortgage sinking fund 5% gold bonds of \$1,000 each. dated Feb. 2 1906 and non-optional; interest Feb. 1 and Aug. Let Mercentile Trust Co. San Francisco, trustee

dated Feb. 2 1906 and non-optional; interest Feb. 1 and Aug. 1 at Mercantile Trust Co., San Francisco, trustee.
Capital stock (all issued) 50,000 shares, at \$20 each, \$1,000,000; bonded bb, authorized, \$1,000,000; bonds outstanding, \$260,000. The company is a branch of, and virtually a part of the Northern California Power Co., all the stock, with th exception of 25 shares, being owned hy the last-named.
and parent company. The property is lacsed for fifty years from March 27 1906 to the Northern California Power Co. for a nominal cash consider-ation and the guaranty of all liabilities whatsoever, including principal, inter-est and sinking fund of bonds. The property covered consists of a 2,000 kilowat power plant on Bacile Creek, situated about 24 miles east of Cot-tonwood Shasta County, including reservoir, pipe line, about 100 miles of transmission line to Chico (waere it connects with the Valley County Power Go.), transformers, fights of way, filings on 18,000 miners inches of water on Battle Creek, and 1,000 acres of land. The company is about to install at a new point on Battle Creek about 10 miles east of Cottonwood a power plant of 13,000 horse power capacity at an outlay of approximately \$500,000 (see aforesaid annual report). The trust deed provides that, commencing [911, \$20,000 per annum are to be paid into the sinking fund to be inv sted in bonds of the company, at not to exceed 110, or other approved securities as may be deemed desirable. This sinking fund If Invested at 4.5% and com-pounded annuals; pair and to access 10, or other approved securities as may be deemed desirable. This sinking fund If Invested at 4.5% and com-pounded annuals.
Beaumont (Tex.) Waterworks Co.—Bond Issue, Etc.—A

Beaumont (Tex.) Waterworks Co.—Bond Issue, Etc.—A mortgage has been made to the Bankers' Trust Co. of New York, as trustee, covering the company's water plant and franchises in the city of Beaumont to secure an issue of \$250,000 5% gold bonds all outstanding. Dated August 1907 and due August 1947; denomination \$1,000; interest payable February and August. Of the company's \$500,000 preferred stock \$200,000 is non-cumulative preferred; par of shares \$100. Walter C. Teter, 10 Wall St., New York, is President; Secretary and Treasurer, P. T. White. A proposition it is understood, has been made to sell the property to the city. Compare V. 85, p. 162.

Chartered Company of Lower California.-Decision.-The "Boston Herald" of July 20 said:

Judge Richardson has given a decision fixing the rights of a number of con-tending parties over 76,995 shares of the Chartered Co. of Lower California, In which New England capital is interested. The company owns a strip of land 500 miles long and 16 miles whice, containing 4,500,000 acres, in and about Magdalena Bay, Lower California, and Important fishing rights

granted by the Mexican Government, and had authorized \$2,000,000 of bonds and a capital of \$10,000,000, divided into 100,000 shares of \$100 each. The Court decides that the company shall issue 50,000 of the disput d shares to J. E. Henry & Sons of Lincoln, N. H., as collateral for s ch amount as the company any owe them. That concern advanced \$200,000 as a loan to carry out an option on land owned by the company which was formerly the Flores-Hale estate. It had an agreement with the company and took its note and was to have \$1,200,000 of its bonds as collateral for the note and was to have \$1,200,000 of its bonds as collateral for the note and \$5,000,000 of the stock, and to receive \$200,000 of bonds. By a former decision the firm got the bonds, and now, in pursuance of the agreement, it is to receive the 50,000 shares of stock as collateral. The company's note not having been paid, the stock is to be sold/sta auction after 60 days notice to satisfy it. James P. Clare is to receive 1,250 shares of the stock, Frank Wood 187, Enoch H. Doble 500 and Charles H. Moulton 500. The balance of the shares in dispute are to be distributed under the decision, one-third to John S. Blackman, assignee, and two-thirds to Herbert F. Doole (the Treasurer of the conpany), in accordance with an agreement between him and President Wilber F. Lakin. Doble is to hold these latter shares as collateral security for \$60,000 of bonds of the company under a contract. The Court had found, however, that as President he knew of the isonances of stock trust shares to all the parties concerned in the little ation and was not in a position to dispute their rights.
Thetack has been heid by a custodan pending litigation. Compare 3, 76, p. 1303; V. 81, p. 1495; V. 82, p. 282.

V. 76, p. 1303; V. 81, p. 1495; V. 82, p. 282. Gincinnati Milling Machine Co.—Status.—The Cincinnati Stock Exchange some time ago listed this company's capital stock, the authorized amount being \$1.000,000 common, of which \$409,000 is outstanding and \$500,000 6% cumulative preferred, of which \$211,000 is outstanding; par of shares \$100; no bonds. The common stock, it was stated, was then receiving 8% per annum. The Central Trust & Safe Deposit Co. Geo Enstis & Co. and the German

The Central Trust & Safe Deposit Co., Geo. Eustis & Co., and the German National Bank, all of Chelinati, in September last offered a block of the preferred stock at 117. The company was incorporated in Ohio in 1889 to manufacture milling machinery, and it is stated, "has a thoroughly es-tablished and most successful business in this country and abroad." State-ment of capital, July 1 1906: common stock, \$409,000; preferred stock, \$211,000; undivided profits, \$102,763; net assets, \$722,763. President, Frederick A. Geler, Secretary and Treasurer, C. Wood Walter.

City Manufacturing Co. of New Bedford.-Extra Dividend. -A regular quarterly dividend of 5% and an extra dividend of 3% was paid Aug. 1 on the \$750,000 outstanding, making, it is stated, 20% paid thus far this year.

Colorado Telephone Co.—*Franchise to Rival Co. Illegal.*— The Supreme Court of Colorado on July 2 (Justice Gabbert writing the opinion) decided that the election held Nov. 6 1906, at which a majority of the votes cast were in favor of granting a franchise to Ulysses S. Grant Jr. of San Diego, Cal., who proposed to install an automatic telephone system, did not confer any rights because not held of the proposed did not confer any rights because not held at the proper time, the fall election being to vote on general State and county issues.

The election was held in accordance with the ordinance passed October 1906 by the City Council of Denver. The Court says that an election for the purpose stated must, under the charter of the city, be held at an election dealing entirely with city and county affairs, on the third Tuesday of May in even years, beginning with 1904. Compare report V. 85, p. 37.

dealing entirely with city and county analys, on the third Tuesday of May in even years, beginning with 1904. Compare report V. 85, p. 37.
Consolidated Paper & Milling Co., Philadelphia.—Marsden Company.—The last annual report of the Marsden Company will be found under "Annual Reports" on a preceding page. The Consolidated Paper & Milling Co. claims to be a large stockholder in the Marsden Company, and as such has for some months past been engaged in a controversy with the management and other stockholders of that company, as a result of which circulars were sent out by Marsden committees in Philadelphia and Pittsburgh.—V. 84, p. 627.
Corn Products Refining Co.—Listed.—The New York Stock Exchange has listed \$2,173,000 25-year 5% sinking fund gold bonds and has authorized the listing from time to time, but prior to Jan. 1 1908, of \$670,000 additional of said bonds on official notice of issuance in exchange for National

bonds on official notice of issuance in exchange for National Starch Manufacturing Co. 6% bonds, making the total amount authorized to be listed \$2,843,000.-V. 85, p. 39.

-V. 84, p. 1370. **Home Telephone & Telegraph Co.** of Spokane.—Bond Offering.—The National Securities Co. of Los Angeles in January last offered for sale a limited amount of thi pany's first mortgage bonds at par with a 50% bonus to c. An advertisement gave the following:

First mortgage of 5% sinking fund 30-year gold b mark secured by deed f trust to the Title Insurance & Trust Co., of Los angeles. Dated May 15

348

1906. Interest May 15 and Nov. 15. Due May 15 1936. These bonds are a first lien on the entire property of the company now building a modern telephone system in Spokane. We are also the underwriters of the bonds of the Home Telephone companies of Portland and Puget Sound, which are now off the market.

Goldfield (Nev.) Gas & Coke Co.—Bonds, &c.—The bonds recently offered by William Darst & Son of Chicago (V. 85, p. 224) are further described as follows:

p. 224) are further described as follows: Dated July 1 1907 and due July 1 1927, but subject to call when drawn by lot, and to be paid as follows: \$26,500 yearly on July 1 1913 to 1926. both inclusive, and \$29,000 on July 1 1927; Jato all or any subject to call at the company's option beginning July 1 1913 on any interest date at 105 and interest. Denomination \$100; Interest payable annually on July 1 at office of Nevada Registration & Trust Co., trustee, Goldfield, Nev. A 50-year franchise for the sale of heating and Illuminating gas through the towns of Goldheid, Columbia and Diamondheid, at a rate not exceeding \$35 50 per 1,000 cubic feet, was granted on Feb. 5 1907 by the County Commissioners of Esmeralda County, Nev., to A. K. Wheeler, by whom was transferred on May 14 to the Goldheid Gas & Coke Co., which was organized under the laws of Arlzona May 10 1907. President, Charles R. Vickery; Secretary, Charles H. Gentry.-V. 85, p. 224. Harvester Building, Chicago.-Offering of Bonds, Julia F. Heyworth, Maker.-The American Trust & Savings Bank of Chicago, the mortgage trustee, is offering at prices to yield the investor about $5\frac{1}{2}\%$ the unsold portion of an issue of \$325,000 Harvester Building, first mortgage 5% gold bonds (Julia F. Heyworth, Maker), of \$1,000 each, dated April 1 1907 and due \$30,000 yearly on April 1 from 1912 to 1922 inclusive, but subject to call after April 1 1912 at 105 and interest. Interest payable April 1 and Oct. 1 at office of trustee. A circular says: These bonds are an absolute first mortgage on the new 14-story and attic modern fire-proof building receted at the southwest corner of Michigan Ave.

trustee. A circular says:
 These bonds are an absolute first mortgage on the new 14-story and attle modern fire-proof building erected at the southwest corner of Michigan Ave. and Harvester Building, having a frontage of 77 feet on Michigan Ave. and 173 feet on Harvison St. The cost of the building is about \$800,000. These bonds are also a first mortgage on ground lease for 198 years, covering land on which the building stands. During the life of the bonds the annual ground rent averages only \$16,500. The International Harvester Co. has entered into a 30-year lease for the nine upper floors of the building, and for portions of the attic and basement at an annual rental of approximately \$104,000; per year. Estimated earnings: Income from Harvester lease, \$104,000; Decute ground rent (average), \$16,500. Insurance and taxes, \$14,400; oper yearles of building, \$41,000; maximum interest charge, \$16,250; total, \$88,50; leaving available, \$80,850; for the annual payment on account of porticipal, becinning April 1912, \$30,000.
 Income Leasehold Co. (Pierce Building), St. Louis.— Bonds Ojjered.—Whitaker & Co., St. Louis, recently offered at 98 and interest a block of the first mortgage sinking fund 5% gold bonds, due July 1 1936, redeemable at 105 and interest after July 1 1911. Interest payable Jan. 1 and July 1. Edwards Whitaker of St. Louis and The Illinois State Trust Co. of East St Louis, Ill., trustees. Total issue, \$1,000,000.

A first mortgage on the 17 story office building known as "The Pierce Building", occupying the western portion of the block fronting on 4th St., extending from Pine to Chestnut streets, and having about 240 feet front on 4th St. Actual cost of building exceeds amount of this issue by \$600,000. The mortgage provides that \$13,000 of bonds be retired annually. The earnings on present showing will retire the entire debt by maturity of bonds in 1936; whereas the lease extends until 2004. Lawrence B. Pierce is Presi-dent.

Independent Brewing Co. of Pittsburgh.—First Dividend on Common Stock.—An initial quarterly dividend of 1% on the \$4,500.000 common stock has been declared and also the regular quarterly dividend of $1\frac{3}{4}$ % on the \$4,500.000 pre-ferred stock, both payable Aug. 24.—V. 83, p. 1522.

Indiana & Michigan Electric Co.—Bonds.—This recent consolidation, it is stated, has filed two mortgages to the New York Trust Co. as trustee, one to secure not exceeding \$7,000,000 first mortgage 50-year 5% bonds and the other to secure \$900,000 second mortgage 20-year 6% bonds. Compare V. 85, p. 225.

Lackawanna Steel Co .- Secured Notes Offered .-Co. are offering at 961_{2} and interest, yielding the investor about $7\frac{1}{2}$ %, a block of the \$5,000,000 5% secured notes, due March 1 1909, described in V. 84, p. 394. The firm is in-formed that the earnings for the present year are largely in excess of those for the calendar year 1906. Compare V. 84, p. 689.

Laflin & Rand Powder Co.—See (E. I.) du Pont de Ne-mours Powder Co. under "Annual Reports" on a preceding page

Latrobe Steel Co.—Decision as to Liquidation.—Judge McPherson in the United States District Court in Philadel-phia on July 30, in the suit brought by Charles H. Ferry of New York, reported to be one of the largest stockholders, to restrain the directors from subscribing \$700,000 of the company's funds to the stock of the Latrobe Steel & Coupler Co. (V. 83, p. 440), held that he is entitled to a cash distri-bution of his share of the remaining assets of the company. The plant of the company was sold to the Balway Steel Spring Co. of

The plant of the company was sold to the Railway Steel Spring Co. o New York (V. 84, p. 100), and is in liquidation, \$400 per share, it is stated having already been distributed. The Court holds that the company should be liquidated and that the dissenting stockholder is entitled to re-ceive all cash instead of part in stock of the Latrobe Steel & Coupler Co.

Latrobe Steel & Coupler Co.—Decision.—See Latrobe Steel Co. above.—V. 83, p. 440.

Steel Co. above.-V. 83, p. 440.
Little Falls (Minn.) Water Power Co.-Bonds Offered.-The Minnesota Loan & Trust Co. of Minneapolis. Minn., the mortgage trustee, early in the year offered at prices to yield the investor 5%, a block of first mortgage 5% gold bonds, dated May 1 1903. Present issue, \$250,000, of which \$12,000 has been paid off and the remaining \$238,000 mature \$3,000 annually on May 1 1908, and \$5,000 annually 1909 to 1922 inclusive, and \$165,000 on May 1 1923. Interest payable May 1 and Nov. 1 at office of trustee. Denomination \$1,000 each. A circular says in part:
The security consists of (1) Water power station located at Little Falls. on the Mississippi River, valued at \$400,000; (2) Water-works system furnishing water for both public and private use in the ety of Little Falls. including 5 miles of mains, 65 fire hydrants, &c.; (3) Central station, elec.

tric lighting and power plants. The water-works system and electric plant are valued at \$200,000, not including franchises. Gross earnings per annum, \$43,787, gross expenses (including taxes and insurance), \$18,675; net earnings, \$25,112; increast on present issue of bonds, \$12,500.
 The water power plant is located near the business centre of Little Falls. The company having the right to use all the water at that point. The dam is pronounced one of the strongest on the Mississippi River and the canal, which is 1,000 feet in length, 100 feet wide at the top and 80 feet wide at the bottom, with a depth of 13 feet, is cut through the solid rock. At ordinary water there are available between 7,000 and 7,500 horse-power, while the present grants to various lessees amount to only about 2, 300 horse-power. The capacity can be largely increased by raising the dam for the balance of this unused horse power.
 The mortgage is limited to \$450,000 but the \$200,000 bonds unissued can be put out only as follows: \$50,000 when the rearings for one year next preceding shall be at least \$39,000; remaining \$150,000 to 50% of the actual cash cost of extensions and additions, but only when the annual net earnings shall be equal to 10% on the bonds then outstanding and then proposed to be issued.
 The company is incorporated under the laws of Minnesota Feb. 14 1884. Its authorized capital stock is \$1,000,000, of which \$607,500 is outstanding; par of shares, \$100. Pres. B. H. Warren, Little Falls. Vice Pres., Frank H. Parsons, 60 Wall St., New York; Sec. and Treas., T. C. Gordon, Little Falls. The "Engineering Record" of Jone 3100 contained a long illustrated article regarding the enterprise. -Ed.)

Manhattan Beach Securities Co.—Holdings of Corbin Bank-ing Co.—George C. Austin, assignee of the Corbin Banking Co., on Aug. 6 filed schedules of assets and liabilities show-ing for that company liabilities, \$3,539,024; nominal assets, \$3,249,246; actual assets, \$3,663,254, including: Among the assets preferred stock of the Manhattan Back Scarting G

Among the assets, preferred stock of the Manhattan Beach Securities Co., nominal and actual, \$340,800; claim against Manhattan Beach Motel & Land Co., \$43,094; common stock of Manhattan Beach Securities Co., nominal and actual, \$383,000; shares of Long Island RR. stock, \$5,400 2,871 shares of New England Mortgage & Security Co., \$358,875; stock in Pittsburgh Plate Glass Co., \$11,400; stock in Rockaway Park Improvement Co. 250 shares (total issue) nominal, \$25,000, and actual, \$850,000; Rocka-way Park Improvement Co., open account, \$316,399. Among the leading creditors are: Manhattan Beach deposit account, \$440,751; Manhattan Beach Securities Co., deposit account, \$249,468; and among the secured creditors is the New England Mortgage Security Co., \$145,000,--V. 84, p. 934.

Massachusetts Gas Companies.—Payment of Debt by Sub-suduary.—The Massachusetts Gas Commission has approved the application of the subsidiary Boston Consolidated Co. to apply \$1,000.268 received from the sale of 189,723 square feet of land, located on the northerly side of Commercial Street and 3,003 square feet on Bolton Street, South Bos-ton, to the payment and cancellation of an equal amount of obligations incurred for improvements and additions — V 84 obligations incurred for improvements and additions.p. 1555

p. 1555. Merchants' Refrigerating Co., New York.—Mortgage.— This company has made a mortgage to the Guardian Trust Co. of New York, trustee, to secure an issue of \$350,000 first mortgage 6% gold bonds; denomination \$1,000, dated May 1 1907 and maturing 1910 to 1927. Interest dates May and Nov. Of the authorized issue, \$180,000 are to be used for prior liens and improvements and additions.—V. 81, p. 730.

prior liens and improvements and additions.—V. 81, p. 730. Mexican Light & Power Co.—Proposed Issue of Prejerred. Stock—Change in Dividend Period.—The directors have recommended to the shareholders the authorization of an issue of \$2,400,000 preferred stock, to provide for outstand-ing liabilities amounting approximately to \$2,000,000 gold, and also to purchase control of the Robert Electric Co., said to be the company's sole competitor in the Federal District. The directors also ask for a change in the company's by-laws which may enable them to declare quarterly dividends on the common stock during 1908 at the rate of 4% per an-num.—V. 84, p. 1310.

num.-V. 84, p. 1310.

Mexico & Orient Township Co.—Notes Offered.—See Kansas City Mexico & Orient Ry. under "Railroads" above. —V. 78, p. 1113.

-V. 78, p. 1113.
New England Cotton Yarn Co.—Dividends.—In addition to the quarterly dividend of 1½% recently declared on the preferred stock payable Aug.1, there were declared on the common shares further dividends of 1½% each, payable Sept. 3 1907, Dec. 2 1907, March 2 1908 and June 1 1908. Earnings.—The net earnings for the nine months ending June 29 1907 were \$1,058,000 and for the quarter ended June 29 1907 the net earnings amounted to \$471,000, or at the rate of \$1,884,000 per annum.
Surplus quick assets June 29 1907, \$3,888,000, in comparison with \$3,029,000 ln Nov. 1903, when the company was formed. During this period there was also invested in additional machinery, buildings and real estate, \$650,000.—V. 85, p. 225.

Pennsylvania Sugar Refining Co.—Suit.—Receiver Geo.
H. Earle on Aug. 2 filed a bill in equity before Chancellor William J. Magie of New Jersey asking for an accounting of the profits of the American Sugar Refining Co. since Dec. 13
1903, at which time it acquired control of the Pennsylvania Sugar Co., in order that it may be determined to what portion of the profits the latter company is entitled. Compare V. 84, p. 631, 106.—V. 84, p. 697.
Rhode Island Securities Co.—Dissolution.—The shareholders will meet in Jersey City on Aug. 27 to dissolve the corporation. The company's assets were acquired several months ago by the Providence Securities Co., whose share

capital is all owned by the New York New Haven & Hartford RR. See V. 84, p. 1114, 997. See V. 84, p. 1114, 997.

Rockaway Park (N. Y.) Improvement Co.—See Manhattan Beach Securities Co., above.
St. Louis (Mo.) Car Co.—New Stock, &c.—The company filed in Missouri on Aug. 2 a certificate of increase of capital stock from \$3,000,000 to \$6,000,000, the increase being the 7% non-voting preferred just sold in France. The aforesaid certificate states the liabilities of the company at \$2,692,870. The "St. Louis Globe-Democrat" of Aug. 5 [explains the proposed note issue as follows:

proposed note issue as follows: In order to raise funds for immediate use the company, it is reported in financial circles, is preparing to borrow \$1,500,000 on short-time notes. The first installment of \$1,000,000, the proceeds of the sale of the new pre-ferred stock to French capitalists, will not be received until Aug. 31, and the entire sum of \$3,000,000 will not be available before November, Presi-dent George J. Kobusch states. It is in order to provide working capital during the interval that the short-time loan will be made. The new stock will be used as collateral. Several Chicago banks have been asked within the past few days to make the loan. An auditing company is now exam-ming the books of the concern. -V. 85, p. 288. Giorne Falls Light & Douzer Co. Florther Facts — Referring

ning the books of the concern.—V. 85, p. 288. Sioux Falls Light & Power Co.—Further Facts.—Referring to the bond offering noted in our issue of July 20 (p. 164), we learn that \$100,000 of the present issue of \$400,000 first mortgage 6s dated June 1 1907 are reserved to retire a like amount of bonds of the Cascade Milling Co. due Aug. 1 1910 which remain outstanding. Of the company's \$750,000 capital stock, \$100,000 is 6% cumulative preferred. Com-pare V. 85, p. 164.

pare V. 85, p. 164. Spanish-American Iron Co.—Guaranteed Bonds Offered.— Henry & West, having sold a large part of the present issue of \$1,000,000 of the new bonds, are offering the unsold por-tion at 98½ and interest, by advertisement on another page of this issue of the "Chronicle." These bonds are 6% sink-ing fund gold bonds, guaranteed principal, interest and sink-ing fund by Pennsylvania Steel Co. of New Jersey, whose capital stock is controlled by the Pennsylvania RR. Co. The earnings of the Pennsylvania Steel Co. of New Jersey, the guarantor, for the year ending Dec. 31 1906 were over twelve times the interest on the entire proposed issue of bonds. These bonds and the security; therefor were referred to at considerable length in our issues of Aug. 3 and July 27, pages 288 and 226. Springfield (Mass.) Gas Light Co.—New Stock.—The

Springfield (Mass.) Gas Light Co.—New Stock.—The Massachusetts Gas & Electric Light Commission has approved the issue of 750 additional shares of stock at \$200 per share, to pay promissory notes and for additions to the plant.— V. 84, p. 1125.

V. 84, p. 1125.
Standard Oil Co. of New Jersey.—Heavy Fine on Charge of Accepting Rebates.—Judge K. M. Landis in the United States District Court at Chicago on Saturday last imposed a fine of \$29,240,000 on the subsidiary Standard Oil Co. of Indiana, being the maximum amount of \$20,000 for each of the 1,462 counts of the indictment on which it was found guilty in April last of accepting rebates from the Chicago & Alton RR. The Indiana Co. has \$1,000,000 capital stock (see report of Commissioner of Corporations, V. 85, p. 216). Compare V. 84, p. 1311, and editorial on preceding pages of to-day's "Chronicle." An appeal has been allowed to be take.
Judge Landis ordered that a special Grand Jury be convened on Aug. 14 to consider the action of the Chicago & Alton in the same matter.
Report on Prices and Profits.—Excerpts from the report of Commissioner of Corporations Herbert Knox Smith on the "profits and prices" of the oil industry were made public on Monday of this week. These give the following statistics:

 Taber Mill Corporation, Mew Bedford.—Convertible Bonds.
 —The company has recently made a mortgage to the New Bedford Safe Deposit & Trust Co., as trustee, to secure an issue of \$400,000 first mort. 5% convertible gold bonds.
 Bondholders may, up to and including June 1 1911, convert bonds into stock by paying \$50 with each \$1,000 bond turned in, receiving therefor 10 shares of stock. Bonds dated June 1 1907 and due June 1 1927, but subject to call after June 1 811, consert bonds 1,000 and \$500; amount outstanding \$200,000. Interest payable Dec. 1 and June 1 a office of trustee. Par value of shares of receix \$100. There are no prior llens. The bonds are underwritten. Officers: President, Frederic Taber; Secretary, Frederic H. Taber; Treasurer, Rufus A. Soule Jr.
 A press report from New Bedford on May 13 said:

A press report from New Bedford on May 13 said:

The cost of construction is placed at \$1,100,000, including some of the work yet unfinished, and the capital stock is \$820,000. With the additional \$400,000 this is covered, leaving a margin of over \$100,000. The mill is a excellent condition, the output being sold a year ahead.

Union Stock Yards Co. (South Omaha).—New President.— Charles F. Manderson of Omaha, General Solicitor of the Chicago Burlington & Quincy RR., has been elected Presi-dent.—V. 83, p. 162.

United States Steel Corporation.—Called Bonds.—One hundred (\$100,000) first mortgage bonds of the Johnson Company called for redemption will be paid at the United States Trust Co. of this city on Sept. 1 at 105 and interest. —V. 85, p. 289.

United States Transportation Co.—New Stock.—This Con-necticut corporation has filed a certificate of increase of capital stock from \$750,000 to \$1,750,000.—V. 75, p. 1158.

United States Whip Co.—Dividends Since 1904.—This company, which on Dec. 31 1906 had outstanding \$388,300 preferred and \$607,800 common, has paid dividends since 1904 as follows:

Vicksburg (Miss.) Water-Works Co.—Full Text of Deci-sion.—The full text of the opinion of the United States Su-preme Court in the suit referred to last week (page 289) was given in the "Water & Gas Review" of this city of July 1907. —V. 85, p. 289.

V. 85, p. 289.
Virginia Iron, Coal & Coke Co.—Stock Dividend.—The company announces by advertisement dated Aug. 5 that a dividend of 5% on the stock of the company has been declared payable in stock at par on Oct. 1 1907 to stockholders of record on Sept. 2.—V. 84, p. 512.
Weston Transit Co., North Tonawanda, N. Y.—Bonds Offered.—The Detroit Trust Co. of Detroit, the mortgage trustee, is offering at par and interest 5% interim receipts to be exchanged for \$650,000 first mortgage 5% coupon gold bonds, denomination \$1,000, to be dated Jan. 2 1908; payable in ten annual instalments of \$65,000 each from Jan. 1910 to 1919, both inclusive; interest payable Jan. 1 and July 1 at the office of trustee. A circular says:

The bonds will be secured by a first mortgage on the three new steel freighters, William B. Kerr, LeGrand S. DeGraff and William M. Mills; builders, American Shipbuilding Co., 1907. Dimensions of vessels: Length 605 ft., beam 60 ft., depth 32 ft., capacity 12,000 tons. Cost of vessels, \$1,350,000. Bond issue, \$650,000. Officers: Charles Weston President; L. S. DeGraff, Vice-President; William M. Mills, Secretary and Treasurer.

L. S. DeGraff, Vice-President; William M. Mills, Secretary and Treasurer. Western Union Telegraph Co.—More Labor Troubles.— The Los Angeles operators struck Aug. 7 because of the dis-charge of a union operator, and at midnight Aug. 8 all ex-cept six of the Chicago operators refused to work with non-union men in the Los Angeles office. Yesterday the company's operators at Kansas City, Mo., and Helena, Mont., joined the strike.—V. 85, p. 289. Winner Company of the strike.—V. 85, p. 289.

Winona Copper Co.-Assessment.-An assessment of \$1 a share has been levied on the stock, payable Sept. 3, for devel-opment work. This will make \$14 per \$25 share paid in. Compare V. 83, p. 42.

Wisconsin Pea Canners Co'.—Merger.—It is understood that Charles W. Gillette, member of the Chicago Board of Trade and the New York Stock Exchange, and his associates, have purchased the two constituent plants and underwritten

have purchased the two constituent plants and underwritten the capitalization as per original prospectus. Authorized capital stock \$1,350,000; \$750,000 is 10% cumulative pre-ferred, with preference also as to assets; par of shares \$10. The corporation was incorporated in Maine about June 7 1907 with \$1,350,000 of authorized capital stock, of which \$600,000 is common, for the purpose of owning, free and clear of all incumbrance, except bond issue hereinafter specified, all the property of the following-named companies except stock manufactured and in progress of manufacture, accounts and bills receivable, viz. (1) Albert Landreth Co., Manitowoc, Wis., consisting of a factory at Manitowoc, Wis., one at Sheboygan, Wis., and two viner stations located at other points; (2) F. J. Vaudreuil Canning Co., including main factory at Two Rivers, Wis., and a viner station and building at Mishicott, Wis. There is an issue of \$200,000 6% serial bonds to be used for extensions, improvements and furnishing working capital. The net earnings of the constituent companies for the calendar year 1906 were approximately \$150,000. Taking the conservative estimate of \$175,000 net profits, the distribution for the first year under sincle management would work out about as follows: Net earnings, \$175,000; bond interest. \$12,000; preferred stock dividend, \$75,000; surplus after all charges \$88,000.

-Patrick Henry, for seventeen years in the employ of De Haven & Townsend of Philadelphia, has severed his con-nection with that concern to form the firm of Smyth, Henry & Kirkbride, which succeeds Robt. M. Janney & Co., the latter having retired from business June 1. The successors continue at the old address, 112 Drexel Building.

-A "History of Indianapolis Securities and Manual of Statistics" has been issued by the Meyer-Kiser Bank, 137 East Washington Street, Indianapolis, and should prove of service to those interested in Indianapolis securities. Reports of the banks and trust companies of Indianapolis are included.

-A timely and convenient wall card giving a description of 80 issues of short-term securities has been gotten out by Swartwout & Appenzellar, 44 Pine Street, specialists in short-term notes. Copies may be had on application. O. Z. Whitehead is Manager.

--William F. Kling, who lately resigned as Secretary and Treasurer of the Commonwealth Title Insurance & Trust Co. of Philadelphia, was admitted to the firm of Verner & Co. of that city on the 1st inst.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, Aug. 9 1907.

Though some evidences of reaction in the iron and copper trades are still observable, and events at the Stock Exchange have been somewhat disquieting, general trade continues good, the weather has been in the main favorable for the crops, and, despite some tightening of money rates, the feeling is still cheerful.

LARD on the spot has been dull and easy but without LARD on the spot has been dull and easy but without important change, quotations being mainly nominal. City 85%c. and Western 9@9.10c. Supplies and offerings have in-creased. Refined lard has been easier, with trade ex-tremely dull. Refined Continent 9.60c., South America 10.10c. and Brazil in kegs 11.55c. The speculation in lard futures at the West has been active. Prices have shown more or less irregularity. At times the tone has been weaker, under liquidating sales and the dulness of the spot trade, but packers have given support from time to time and the fact that contract stocks at Chicago are commencing to decrease has had a steadying effect. to decrease has had a steadying effect.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

PORK on the spot has been dull and steady. The buying has been limited to local jobbers. Mess \$18@\$18 50, clear \$16 75@\$17 75 and family \$18 50@\$19 50. Beef has been dull but firm, owing to light supplies. Mess \$9 50@\$10, packet \$10 50@\$11, family \$13 50@\$14 and extra India mess \$21@\$21 50. Cut meats have been in light request and steady. Pickled shoulders 8¾@9c., pickled hams 12¼c. and pickled bellies, 14@10 lbs., 11@13c. Tallow has been quiet and steady; City 6¾c. Stearines have been easy, with quotations nominal; oleo 8¾c. and lard 11@11¼c. Butter has been active and firmer; creamery, extras, 25½c. Speculation in cotton for future delivery, though it has not been active, has been characterized by pronounced firmness and an advance in prices, trammeled not a little, however, by considerable liquidation from time to time. Yet the fact that the dry, hot weather has continued in Texas with maxi-mum temperatures of 98 to 106 degrees, more generally 98 to 100, has caused a good deal of covering, and with the re-cent Government report has imparted very noticeable strength to the Liverpool market. The Liverpool strength has also reacted on prices here. On Tuesday August notices to the amount generally estimated of 35,000 to 40,000 bales were issued, but on the whole had comparatively little effect beyond checking the advance for the time being. Some of the reports from Texas are to the effect that the hot, dry weather has been beneficial in keeping down weeds, grass and boll-weevils; but others are beginning to complain that it is producing shedding and retarding the growth, thereby Speculation in cotton for future delivery, though it has not and bon-weeves; but others are beginning to complain that it is producing shedding and retarding the growth, thereby endangering the chances of a good top crop. The advices from the section east of the Mississippi have been on the whole favorable, some of them decidedly so, although the plant is still admittedly late. In the central section of the belt it is stated that there has also been marked improve-ment, though as to the ultimate outcome of the crop much depends upon the date of killing frost. But it was not such ment, though as to the ultimate outcome of the crop much depends upon the date of killing frost. But it was not such news, but the persistent hot, scorehing weather in Texas which has dominated the market. The spot business, too, at Liverpool increased for a time, Lancashire and Continental spinners plainly showing a greater disposition to buy, while the daily advices from Liverpool of late have surprised even the believers in higher prices by the revelation of the English market's strength. At the same time, however, the specu-lation here has continued comparatively small, and the fact of its being so almost exclusively professional and of so plainly at times of a manipulated character has had a ten-dency to keep the outside speculation down to a minimum, particularly as violent breaks in the stock market have from time to time caused considerable liquidation by Wall Street particularly as violent breaks in the stock market have from time to time caused considerable liquidation by Wall Street houses. Liverpool, New Orleans and Southern interests generally, however, have been buyers, and prominent bull interests here, although they seem to have taken profits to some extent from time to time, have in the main been on the aggressive. To-day there was a further rise. Liverpool prices were again stronger than expected, Texas had ex-tremely high temperatures once more, with no rain, and moreover the prediction was for continued fair weather. Contrary to rumors latterly circulated, there were few notices issued to-day. Leading bears were supposed to have cov-ered on a very large scale, and certain large industrial interests were also said to be buying. Spot cotton here and at the South has been firm. Middling uplands here closed at 13.40e., showing an advance for the week of 15 points. The rates on and off middling, as established Nov. 21 1906 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

THE VISIBLE SUPPLY OF COTTON to-night, as made-up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and conse-quently all foreign figures are brought down to Thursday evening. But to make the total the complete figures-for to-night (Friday), we add the item of exports-from the United States, including in it the exports of Eviday only. Friday only.

RECEIPTS FROM THE PLANTATIONS .- The follow ing table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the orop which finally reaches the market through the outports.

Week	Receip	ts at the	Ports.	Stock at	Interior	Towns.	Receipts from Plantat'ns.			
ending-	1907.	1906	1905 '	1907.	1906.	1905.	1907.	1906.	1905.	
June 28 July 5 12 19 26 Aug. 2	$\begin{array}{r} 21,050\\ 14,273\\ 13,787\\ 10.553\\ 8,030\\ 8,931\\ 7,469\end{array}$	27,440	62,152 81,598 104,182 97,193 74,337	$\begin{array}{r} 168.463\\ 152.593\\ 137.969\\ 115.217\\ 106.482\\ 94.161\\ 88.226\end{array}$	$\begin{array}{r} 186,428\\ 176,752\\ 158,701\\ 144,069\\ 134,959 \end{array}$	201,550 189,617 176.666 160,200 142,195		$\begin{array}{r} 14.821\\ 13.929\\ 17.764\\ 7.550\\ 15.906\\ 24.907\\ 13.490\end{array}$	52,460 40,403 69,665 91,231 80,727 56,312 50,577	

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1 1906 are 9,672,538 bales; in 1905-06 were 7,741,765 bales; in 1904-05 were 9.980,463

in 1905-06 were 1,111,05 and bales. 2.—That although the receipts at the outports the past week were 7,469 bales, the actual movement from planta-tions was 1,534 bales, the balance being taken from stocks at interior towns. Last year receipts from the plan-tations for the week were 13,490bales and for 1905 they were 50,577 bales.

WEATHER REPORTS BY TELEGRAPH .- Our telegraphic reports from the South this evening are satisfactory in the main, but from Texas there are complaints that the crop is suffering for rain in many sections, and there are some reports from the same State of shedding and bolls open ing prematurely. Elsewhere, as a rule, the crop is doing well.

Galveston, Texas.—The crop in Texas is suffering for rain and in many sections seriously. There are frequent reports of shedding and of bolls opening prematurely. There has been rain on one day of the week, the rainfall being too small to measure. Average thermometer 84, highest 88 and lowest 80

been rain on one day of the week, the rainfall being too small to measure. Average thermometer 84, highest 88 and lowest 80. Abilene, Texas.—There have been showers on one day during the week, the precipitation being two hundredths of an inch. The thermometer has averaged 87, the highest being 100 and the lowest 74. Brenham, Texas.—Dry all the week. The thermometer has averaged 86, ranging from 74 to 89. Corpus Christi, Texas.—No rain during the week. The thermometer has ranged from 72 to 90, averaging 81. Cuero, Texas.—Dry all the week. Average thermometer 89, highest 101, lowest 76. Dallas, Texas.—We have had no rain during the week. The thermometer has averaged 86, the highest being 100 and the lowest 72. Fort Worth, Texas.—We have had no rain the past week. The thermometer has averaged 88, ranging from 73 to 102.

Henrietta, Texas.—Rain has fallen on one day during the week, the rainfall being twenty-five hundredths of an inch. The thermometer has ranged from 74 to 99, averaging 87. *Kerrville, Texas.*—There has been no rain during the week. Average thermometer 86, highest 100, lowest 68. *Luling, Texas.*—We have had no rain during the week. The thermometer has averaged 86, the highest being 99 and the lowest 72.

the lowest 73. Nacogdoches, Texas.—There has been no rain during the week. The thermometer has averaged 84, ranging from

Palestine, Texas.-We have had no rain during the week.

Palestine, Texas.—We have had no rain during the week.
The thermometer has ranged from 72 to 98, averaging 85.
Paris, Texas.—There has been rain on one day of the week, the rainfall reaching ten hundredths of an inch.
Average thermometer 84, highest 98 and lowest 70.
San Antonio, Texas.—It has rained on one day of the week. The thermometer has averaged 83, the highest being 98 and the lowest 68.
Weatherford, Texas.—There has been only a trace of rain the past week. The thermometer has averaged 88, ranging from 73 to 103.

the past week. from 73 to 103.

Shreveport, Louisiana.—Rain has fallen on one day during the week, the rainfall being sixty-eight hundredths of an inch. The thermometer has ranged from 71 to 96. New Orleans, Louisiana.—The week's rainfall has been one inch and seventy hundredths, on four days. Average ther-

inch and seventy hundredths, on four days. Average dia-mometer 82. Leland, Mississippi.—There has been no rain during the week. The thermometer has averaged 76.7, the highest being 92 and the lowest 65. Helena, Arkansas.—There have been showers in the neighborhood, crops are clean and cotton is doing finely; but corn needs rain. Rain has fallen on one day during the week, the rainfall reaching twenty-two hundredths of an inch. The thermometer has ranged from 67 to 93, averaging \$2.3 82.3

Little Rock, Arkansas.—Cotton is doing nicely. There has been rain on two days during the week, to the extent of five hundredths of an inch. Average thermometer 80.5, highest 95, lowest 66. Memphis, Tennessee.-

been rain on two days during the week, to the extent of five hundredths of an inch. Average thermometer 80.5, high-est 95, lowest 66. Memphis, Tennessee.—Weather favorable for growing crops. Cotton is developing finely. We have had rain on one day of the week, the rainfall being ten hundredths of an inch. The thermometer has averaged 80.8, the highest being 92.3 and the lowest 65.7." Mobile, Alabama.—Weather conditions most favorable. The plant is healthy and vigorous but cotton is opening very slowly. Rain has fallen on six days of the week, the rainfall reaching two inches and forty-five hundredths. The ther-mometer has ranged from 73 to 89, averaging 81. Montgomery, Alabama.—General rains since yesterday, ex-tending over this whole section. Prospects are still promis-ing but we have had enough moisture—dry weather is needed. There has been rain on two days of the week, the precipita-tion reaching thirty-eight hundredths of an inch. Average thermometer 81, highest 93 and lowest 69. Union Springs, Alabama.—Crops are badly spotted but some are doing fairly well. There is much complaint from sandy lands of blight and shedding of squares. There has been no rain during the week. The thermometer has aver-aged 84, ranging from 74 to 94. Augusta, Georgia.—There has been rain on one day during the week, the rainfall reaching seventy-eight hundredths of an inch. Average thermometer 80, highest 96, lowest 68. Savannah, Georgia.—We have had rain on five days during the week, the rainfall reaching fifty-six hundredths of an inch. The thermometer has averaged 80, the highest being 95 and the lowest 71. Charleston, South Carolina.—There has been rain the past week, to the extent of one inch and thirty-eight hundredths of an inch, on five days. The thermometer has averaged 81, ranging from 72 to 94.

week, to the extent of one inch and thirty-eight hundredths of an inch, on five days. The thermometer has averaged 81, ranging from 72 to 94. *Charlotte, North Carolina.*—We have had rain during the week, the precipitation reaching ninety-seven hundredths of an inch. The thermometer has averaged 78, the highest being 92 and the lowest 60. The following statement we have also received by tele-graph, showing the height of rivers at the points named at 8 a. m. of the dates given: *Aug.* 9 1907. *Aug.* 10 1906.

COTTON CROP CIRCULAR.—Our Annual Cotton Crop Review will be ready in circular form about Friday, Sept. 6. Parties desiring the circular in quantities, with their business card printed thereon, should send in their orders as soon as possible to ensure early delivery.

JUTE BAGS, BAGGINGS, &C.—There has been but little doing in the market for jute bagging during the week. Prices are unchanged at 934c. for 2 lbs., standard grades. Jute butts dull at 3@4c. for bagging quality.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market coutinues quiet for yarns and steady for shirtings. The demand for both yarn and cloth is improving. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

ISLAND COTTON MOVEMENT .--We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (Aug. 9) and since Sept. 1 1906, the stocks to-night and the same items for the corresponding periods of 1905-06, are as follows:

		-07		5-06		
Receipts to Aug. 9-	This week.	Since Sept. 1.	This week.	Since Sept. 1.	Stor 1907.	1906
Savannah		34,005 8,044	15	63,371	483	1,319
Brunswick		8,080		$13,702 \\ 24,822$	53	11
Jacksonville New York,&c		6,455 188		$15,840 \\ 1,425$	52	7
Total		56,772	15	119,160	588	1,333

The exports for the week ending this evening reach a total of __ bales, of which __ bales were to Great Britain, ____ to France and ____ to Continent, and the amount forwarded to

AUG. 10 1907.]

THE CHRONICLE.

Northern mills has been ___ bales. Below are the exports for the week and since Sept. 1 1906-07 and 1905-06:

Total 1905-06				30,844	9,153	39,097	 78,121

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Philadelphia. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table, of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head of "Shipping News" on a subsequent page. Quotations Aug. 9 at Savannah—For Georgias, extra fine, 30e.; choice, 33c.; fancy, 35c.

SHIPPING NEWS.—As shown on a previous page, the exports of cotton from the United States the past week have reached 5,934 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

BREADSTUFFS.

Friday, August 9 1907.

Prices for wheat flour have shown no changes of importance during the week, in spite of the decline in wheat, the improved crop prospects in the spring-wheat section of this country and the continued dulness of trade here. There have been rumors of export business at the Northwestern and Southwestern markets, but they have not been fully confirmed, though some foreign business has undoubtedly been transacted. In the local market, however, the sales have been very small and limited to local dealers. Rye flour and corn meal have been quiet and steady.

Wheat has declined sharply, owing to more favorable weather, increasing receipts of new winter wheat and a sharp break in the stock market, with which the grain quotations have as usual sympathized. Besides, the foreign markets have declined. The large stock at Chicago is considered a bearish factor. The weather, too, in Argentina has been good, and the outlook in Russia seems to have improved somewhat, while the official crop report the other day of the French Government was favorable. The possibility of a good Government crop report to be issued on the 9th inst. this month instead of on the 10th, as usual, also had its effect. At times the Northwestern markets have been sthe otal of winter and spring wheat in this country 650,000,000 bushels, against 735,260,970 (Government figures) last year, 692,979,489 in 1905 and 552,399,517 in 1904; whereas in some cases the shortage in the crop as compared with last year has been estimated at much larger figures. There has shown a tendency to lurch badly and the receipts of new yinter wheat have begun to increase. Reports from Kansas, 9000 bushels bedow the harvest of 1906; but it is added that only five of the crops raised in the last ten years have been adversed by owing to disappointing European advices, generally favorable weather, continued large receipts, larger Argentine shipments than expected, a strike of telegraph operators at the West and long liquides, adjust a strated the condition of spring wheat as of August 1 at 79.4% against 87.2 a month ago, 86.9 a year ago and a tendency to S3.4. This was taken as indicating a crop of 205,000,000 bushels, making the total of both parts of source, and file at the following the total of both and the receipts of he crops raised in the last ten years have been materially larger than the present one promises to be. To adverse, generally favorable weather, continued large receipts, larger Argentine shipments than expected, a strike on how prices declined early, owing to disappointing European advices, generally favorable we

May delivery in elevator....101% 100% 99% 97% 98% 98% Indian corn futures have shown some irregularity, influenced on the one hand by the weakness in wheat and on the other by the strength of oats. In the main, however, the tone has been rather firm, owing chiefly to the activity and strength of oats. There is a feeling, too, that the crop prospects are not so favorable as recently. The receipts have been small and the cash demand has been more active, partly for export. The stock of contract grade at Chicago continues small. Shorts have covered rather freely at times and there has been more or less new buying. On the advances, however, there has been considerable liquidation. To-day prices advanced, owing to the Government report, THE CHRONICLE.

the rally in wheat and covering of shorts. The Government stated the condition at 82.8, against 88.1 last year and a ten-year average of 83.2.

AGRICULTURAL DEPARTMENT'S REPORT ON CEREAL CROPS, &c., TO AUGUST 1.—The Agricultural Department issued on the 9th inst. its report on the cereal crops for the month of July as follows:

The Crop Reporting Board of the Bureau of Statistics of the Department of Agriculture finds the reports of the correspondents and agents of the Bureau as follows:

The condition of corn on Aug. 1 was 82.8, as compared with 80.2 last month, 88.1 on Aug. 1 1906, 89 at the corresponding date in 1905 and a ten-year August average of 83.2. The following table shows for each of the States having 1,000,000 acres or upward in corn the condition on Aug. 1 in each of the last three years and that on July 1 1907, with the ten-year August averages:

	Aug.	July	Aug.	Aug.	10-Year
	1907.	1907.	1906.	1905.	Average.

GOVERNMENT WEEKLY WEATHER REPORT.— Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the weather in the various States

the telegraphic reports on the weather in the various States for the week ending Aug. 5, summarizing them as follows: The weather was abnormally cool in the central valleys and Lake region during the week ending Aug. 5, the lowest temperatures occurring during the last four days, when they were not far from freezing in North Dakota and at exposed places in the upper Lake region. Light but harmless frosts occurred in the Dakotas on the 2d. In the Middle Atlantic and Southern States and generally throughout the Rocky Mountain and Pacific Coast districts the temperature was favorable. The first three days of the week were very warm on the North Pacific Coast. Rains have relieved drought in extreme northern Texas and portions of Oklahoma, but drought con-tinues over the greater part of Texas and in portions of the central Guil and Middle Atlantic States, Tennessee and Missouri. There were very few local storms of severity, and those occurring were largely confined to the South Atlantic States, southern portion of the upper Lake region, the cen-tral Missouri Valley and middle Rocky Mountain region. The sunshine was below the normal in the South Atlantic and East Guil States and over the southern Plateau region; elsewhere it was normal or above, the percent-age being unusually high in the northern districts east of the Rocky Moun-tains.

The statement of the movement of breadstuffs to market as indicated below are prepared by us from figures collected by the New York Produce Exchange. The receipts at Western lake and river ports for the week ending last Saturday and since Aug. 1 for each of the last three years have been:

THE DRY GOODS TRADE.

New York, Friday Night, August 9 1907.

New York, Friday Night, August 9 1907. Conditions in the primary cotton goods market still con-tinue very strong, and, while further advances have been announced on several lines during the week, there are indi-cations that still more are to follow in the near future. The continuation of an unusual demand for the season of the year, the general curtailment of production and the strength of the raw-material situation are the principal influencing fac-tors. Business has been on a moderately heavy scale, and in some cases large orders have been placed for delivery well into next year; deliveries on old contracts continue large, but mills are finding difficulty in keeping up with their orders, and in very few instances are they able to make any headway in catching up with contracts on which they have fallen behind. There has been little in the raw-material situation to encourage buyers, but they have undoubtedly been influenced to some extent by the sensational declines in the stock market and the generally disturbed financial situation. This has induced caution, but its effect has hardly yet become noticeable. Chinese buyers have again been insituation. This has induced caution, but its effect has hardly yet become noticeable. Chinese buyers have again been in-quiring for goods, this time for 4-yard sheetings, but up to the time of writing no definite sales have been reported. The prices asked are understood to be the highest paid by Chinese buyers in a great number of years, and it remains to be seen whether they are willing to contract at these fig-ures. In the recent purchase of drills the high values did not apparently act as a deterrent. General export business is very small. With the end of the spring season for men's wear woolen and worsted goods approaching, buyers have been showing rather more activity, and good sales of dress goods have also been recorded during the week. DOMESTIC COTTON GOODS.—The exports of cotton

DOMESTIC COTTON GOODS .- The exports of cotton goods from this port for the week ending Aug. 3 were 2,135 packages, valued at \$141,789, their destination being to the points specified in the table below:

The value of these New York exports since Jan. 1 has been \$6,718,523 in 1907, against \$10,570,256 in 1906. Occasional advances of 1/8c. have been made on heavy brown drills and sheetings, and the whole tone of the market is very firm. Production is running behind consumption, and manufacturers in some cases will not accept any more orders for delivery this year; buyers are contracting well into \$908. Large sales of 4-yard sheetings have been made to the

domestic trade at sellers' full asking prices, and these and lighter-weight sheetings are well under order; in some cases sales have been made for delivery as late as June of next year. Further advances have been made on some lines of bleached goods without checking the demand, and the promi-nent lines are practically unobtainable. Wide sheetings, sheets and pillow cases are firmly held and are selling well. Linings have again been placed on a higher level, and, with business continuing heavy, still further advances would hardly come as a surprise to the trade. Higher prices are expected for tickings, and the situation of coarse, colored cottons generally is very strong. Napped goods continue firm. Fine dress ginghams are in large request, and ad-vances within the next few weeks are being freely predicted, with higher retail prices probable next spring. The business in staple prints has been very heavy and some fair sales for export have been reported. Print cloths are difficult to secure for this year's delivery and prices hold firm with the market quiet. market quiet.

secure for this year's delivery and prices hold firm with the market quiet. WOOLEN GOODS.—The end of the men's wear woolen and worsted light-weight season is at hand, and the majority of buyers are preparing to take their departure. This has resulted in somewhat greater activity during the week, but not sufficient to in any way make up for the lethargy exhib-ited during the preceding weeks. It is true, as frequently stated of late, that some lines have done well, but they are in the minority, and most of those shown have met with a dis-appointing reception. The buying has been remarkable for the caution shown by purchasers and for the much smaller quantities ordered by individuals than has been the case during the past few seasons. During the week attention has been principally directed towards worsteds, which have met with a reasonable amount of success. Woolens have been almost neglected, and the season, such as it has been, has again emphasized the greater popularity of worsteds as compared with the latter. There are still many lines of top grades which have not yet been shown, but it is the con-sensus of opinion that, in view of prevailing conditions, agents have been wise to hold them back. Some fair orders for spring dress goods have been placed during the week, but the business is still principally for the fall season and is generally very irregular in character. A good spring busi-ness is looked forward to shortly, but it is expected that this will be confined almost entirely to solid color staple goods. Few have taken the risk of turning out fancies on a large scale. FOREIGN DRY GOODS.—Imported woolen and worsted dress goods are enjoying a somewhat better sale. Silk goods are quiet, but a larger business is light. Burlaps are easy. **Importations and Warehouse Withdrawals of Dry Goods**. The importations and warehouse withdrawals of dry goods

Importations and Warehouse Withdrawals of Dry Goods. The importations and watchouse withdrawals of Dry Goods. The importations and watchouse withdrawals of dry goods at this port for the week ending Aug. 3 1907 and since Jan. 1 1907, and for the corresponding periods of last year, are as follows:

New York State.—Amendment to Public Highways Im-provement Law Signed by Governor.—The Governor has signed the amendment to Chapter 469 of the Laws of 1906. As stated in V. 84, p. 1382, this bill fixes the interest rate on issues of State highway-improvement bonds at 3, 3½ or 4%, instead of at a rate not to exceed 3½%, and also makes changes in the apportionment of the cost of the construction of highways as between the State and counties and towns, and also in the rate of taxation imposed to provide for inof highways as between the State and counties and towns, and also in the rate of taxation imposed to provide for in-terest and sinking funds. *Amendments to State Constitution.*—Certain amendments to the Constitution of this State are to be submitted to a vote of the people at the general election in Nov. 1907. One of these amends Section 10 of Article 8 of the Con-stitution relating to the limitation of indebtedness of cities, towns and villares. It provides that debts incurred by any

vote of the people at the general election in Nov. 1907. The of these amends Section 10 of Article 8 of the Con-stitution relating to the limitation of indebtedness of cities, towns and villages. It provides that debts incurred by any electron of the second class to provide for the supply of water shall not be included in ascertaining the power of the city to become otherwise indebted. At present water debts are excluded only in the case of New York City. If the people vote in favor of this amendment, the section will stand as follows. We print the new part in italics. AFTICLE VII. SECTION 10. No county, city, town or village shall for any individual, association or corporation, or become directly or indirectly the owner of stock in, or bonds of, any association or corporation, nor shall any individual, association or corporation, or become directly or indirectly the owner of stock in, or bonds of, any association or corporation, in or shall any individual, association or corporation, or become directly or indirectly the owner of stock in, or bonds of, any association or corporation, in shall not prevent such county, city, town or village from making such provision for the aid or support of its poor as may be authorized by law. No county or city shall be allowed to become indebted for any purpose or in any mar-ner to an amount which, heluding existing indebtedness, shall exceed 10 % of the assessed valuation of the real estate of such county or city subject to taxation, as it appeared by the assessment rolls of said county or city shall be allowed to become indebted in any further amount until such indebtedness shall be reduced within such limit. This section shall not be construed to prevent the issuing of certificates of ramounts actually or the assessed valuation of the real estate for an ount as citually or the assessed to actual the order of the soluties would, except as herein ondebtedness shall be call bonds is the dei to provide the supply of water shall not exceed twenty

county or city debt. The other proposed constitutional amendment alters Section 2 of Article 12 of the Constitution by changing the population of cities of the first class from "two hundred and fifty thousand or more" to "one hundred and seventy-five thousand or more," and changing the population of second-class cities from "fifty thousand and less than two hundred and fifty thousand" to "fifty thousand and less than one hundred and seventy-five thousand." Otherwise the word-ing of Section 2 remains unchanged. As amended the sec-tion will read: tion will read:

ing of Section 2 remains unchanged. As amended the section will read: ARTICLE XII. SECTION 2. All cities are classified according to the fatest State enumeration, as from time to time made, as follows: The first class includes all cities having a population of one hundred and seventy-five thousand or more; the second class, all cities having a population of offly thousand and less than one hundred and seventy-five thousand; the third class, all other cities. Laws relating to the property, affairs of government of ditles and the several departments thereof are divided into general and special city laws; general city laws are those which relate to all the cities of one or more classes; special city laws are those which relate to a single city, or to less than all the cities of a class. Special city laws been passed by both branches of the Legislature, the House in which it originated shall immediately transmit a certified copy thereof to the Mayor of such city, and within fifteen days thereafter the Mayor shall return such bill to the House for which it designs the setting to a city has or has not accepted the same. In every dity of the first class. The Legislature at which such bill way is a been passed by both built was passed has terminated, to the Governor, with the Mayor's certificate thereon stating whether the city has or has not accepted the same. In every dity of the first class the Mayor, and in every other city the Mayor and the legislature may provide for the concurrence had provide for a public notice and opportunity for a public hearing concerning any such bill in every dity of the first class. The Legislature shall provide for a public notice and opportunity for a public hearing concerning any such bill is accepted as herein provided by every such city. Whenever any such bill is accepted as herein provided by the value cas are other bills to the action of the forward. When it relates, of the classianture, and it shall then be ubject, as are other bills to the action of the governor. Whenever, duri

New York City.—Duties of Charter Revision Board.—We give below in full the bill passed by the Legislature creating

the commission to inquire into the government of New York City and make suggestions regarding the revision of the city charter. We gave last week (V. 85, p. 297) the names of the persons appointed by Governor Hughes to serve on this commission. Ex-Mayor Seth Low has since declined to act in that capacity.

Bond Proposals and Negotiations this week bave been as follows:

Alhambra, Los Angeles County, Cal.—Bond Sale.—On July 30 the \$68,500 4½% gold coupon municipal-improve-ment bonds offered on July 9 (V. 85, p. 52) were awarded, it is stated, to N. W. Halsey & Co. of San Francisco for \$68,940—the price thus being 100.642.

Allegheny, Allegheny County, Pa.—Temporary Injunction. —By a decision handed down Aug. 3 by Judge John M. Ken-nedy of the Common Pleas Court No. 3 in the suit instituted by Councilman E. G. Lang, the city is restrained from issuing the \$1,000,000 4% registered reservoir and water-main bonds mentioned in V. 84, p. 1441. The Court held that the ordinance providing for the issue of bonds was illegal, as the Councils agreed to pay the State tax for the bondholders

Allegheny, Pa.—Tenth Ward School District.—Bonds Voted.—The election held Aug. 2 (postponed from July 20) resulted in favor of the proposition to issue the \$150,000 4½% school-building bonds mentioned in V. 85, p. 52.

4½2% school-building bonds mentioned in V. 85, p. 52.
Batavia Union Free School District No. 2 (P. O. Batavia),
Genesee County, N. Y.—Bonds Not Sold.—No bids were received on July 30 for an issue of \$18,000 school bonds offered on that day. These bonds take the place of the \$18,000 4½2% school bonds awarded on April 20 to Emery, Anderson & Co. of Cleveland, which sale was never consummated. See V. 84, p. 1011.
Paramete Hudgen County N. L. Bonds Net Sold. No. 500 Not Sold.

Bayonne, Hudson County, N. J.—Bonds Not Sold.—No bids were received on Aug. 6 for the \$146,000 5% 3-6-year (serial) gold coupon tax bonds described in V. 85, p. 297.

Beaver City, Furnas County, Neb.—Bonds Voted.—An election held Aug. 5 resulted in favor of a proposition to issue water-works bonds.

Binghamton, Broome County, N. Y.—Bond Offering.— Proposals will be received until Aug. 19 for \$40,000 Fourth Ward sewer bonds.

Biwabik School District No. 24 (P. O. Biwahik), St. Louis County, Minn.—Bond Sale.—We have just been advised that the State of Minnesota purchased at par on June 29 an issue of \$45,000 4% school-house bonds dated June 29 1907. Denomination \$9,000. Interest annually in July.

Bladenboro, Bladen County, No. Caro.—Bonds Voted.— At a recent election this town authorized the issuance of \$5,000 school-building bonds.
