

### THE FINANCIAL SITUATION.

We referred in this column Saturday, Sept. 7, page 550, when the 40 million  $4\frac{1}{2}\%$  New York City bond offer was being advertised, to a rumor in circulation that a person commanding large capital in Europe and America, whose name suggests a successful result in such a contingency as that presented, and who has often been sought as especially capable in wisely handling threatened financial dislocations, had been named as being at the head of an important subscription for the  $4\frac{1}{2}\%$  bonds. Letters have been published this week which show the exact situation of Mr. Morgan to the city authorities with reference to the loan proposal and its successful flotation. We give the letters in our State and City Department (page 750) to-day.

To clearly comprehend the meaning of this transaction, the reader will need to recall what preceded that  $4\frac{1}{2}\frac{0}{0}$  bond offering. Without entering into too great detail, it will be of advantage to state that every effort imaginable had been previously made by the authorities to float New York City 4 per cents; but these endeavors were utterly futile, proving the folly of attempting any such flotation under existing circumstances. The final offering of 4 per cents was the one in which proposals were announced to be received until Aug. 12 for \$15,000,000. At that date bids were opened but were found to reach for the four issues only \$2,713,485, the average price of the bids being about 100.004. The Legislature, having been made aware of the city's embarrassment, had previously passed a law giving the Commissioners the power to sell the unsold balance of any public offering at private sale. Earnest efforts were again made by the city officials to find purchasers, but even after making such efforts, and after also trying to get those who had overdue claims against the city to receive the bonds in payment, very few of the bonds could be placed, only \$3,379,135 having been disposed of in these ways.

This brought the city face to face with impending disaster. Overdue debts were already pressing for payment, contracts for improvements in progress were, day by day, adding largely to these debts, for which, if not settled, judgments would speedily follow; also, if the city could not get money, work upon every improvement under contract would have to be stopped and the men employed on them would be idle. Our worthy Mayor, Mr. McClellan, said he had during three days before the 41/2 per cent loan had been announced done all within his power to help the Acting Comptroller sell 4 per cent bonds. He added: "I find that in the present condition of the market there are no takers of city 4 per cents at par except contractors forced to take bonds in settlement of their claims." It was evident, too, that even a 41/2 per cent offering would be a failure unless strong support could be guaranteed at the start.

That was the dilemma in which the city found itself when the financial heads of the Government sought Mr. J. Pierpont Morgan's advice and help. Why was his aid necessary, why was it so powerful, and why did not Mr. Morgan buy the bonds individually, if he wanted them? We have not asked him any of these questions or passed a word with him on the subject of this bond sale. According to our belief, there is no other man in this country who could have done what he has done on this occasion. He did not want the

bonds and only acted as an intermediary. His name, his judgment in financial centres of Europe, and his knowledge of the financial markets give him an influence among the capitalists of the world unequaled, probably, by any other individual. Mayor McClellan voices the sentiment of the best circles in this country when he said: "I take this opportunity of thanking you on behalf of the city for the great public spirit you have shown." He saved the city's credit.

An incident which may indicate a sensitive feeling in London regarding the British banks' gold supply was the temporary disturbance in the securities market, and especially in consols, caused by the successful competition of French and German bankers for the 21/2 million dollars of Cape gold which was offered in the London bullion market on Monday. As the result of such competition the price of bar gold was advanced  $\frac{5}{8}$  of a penny per ounce, to 77 shillings 10¼ pence. Probably if the French bankers had been the sole competitors for the metal no attention would have been paid to the incident, for the rate of exchange at Paris on London was low enough to attract gold. But the Berlin exchange rate on the British capital was above the gold-import point, indicating that the movement involved a loss to the importers.

The fact that, notwithstanding such adverse exchange conditions, Berlin bankers withdrew gold from London, and also that lately other withdrawals have been effected therefrom by such bankers under like conditions, seemed clearly to show that there was an urgent demand at Berlin for the metal, which was supposed to be for the repayment by the Reichsbank of advances that were made early in the year by Austria. A somewhat strained condition of this Bank has been evident for some time, as is reflected in the maintenance of an unofficial discount rate of 53/8%, or close to the Bank rate of  $5\frac{1}{2}\%$ , and also in the expansion of its uncovered note circulation, with the prospect of later further expansion thereof, apparently making it necessary to reinforce its cash reserve. Therefore if, in addition to the Reichsbank's requirements for gold for repayment to Austria, it should have to increase its reserve through purchases of the metal from London, regardless of exchange conditions, further withdrawals of gold therefrom might be a feature, and possibly an advance in the English Bank's official discount rate might become necessary, thus menacing the European discount situation. The Bank of England likewise seems to be on the eve of requirements for gold for shipment to Egypt; moreover, the probability is that the movement to the provinces will be large and that the gold sent to the provinces will not soon return. Hence it is suggested in the event of a further need of gold by Germany it is possible that the Reichsbank might be supplied through borrowings from Russia, Austria or other countries where there are accumulations of the metal, in which case purchases in London would be unnecessary; but the Bank would probably prefer to buy instead of borrow the gold it required.

The sensitive situation at London regarding the Bank of England's and the market's stock of gold and the incident of Germany's purchases of the metal, together with the prospect of continued discount tension at Berlin, have emphasized the urgent need for conservatism on the part of British bankers in the

negotiation and acceptance of American finance bills. With the appeals that are made for the adoption of such a policy of conservatism, in order to make the Bank of England rate effective, it seems quite likely that if there were to be so great a recession in rates for exchange at New York on London as to threaten withdrawals of gold therefrom, the Bank of England would promptly interpose obstacles thereto, if not through an advance in its official discount rate, through a rise in the market price of gold bars. Therefore it appears improbable—even though there may be a large export movement of our commoditiesthat payment therefor would be effected with gold; the adverse international trade balance would most likely first be liquidated with the proceeds of commodity bills and the remainder of our exports would. be settled with exchange.

That the tide of immigration into the United States is not noticeably hindered, if affected at all, by the legislative enactment that went into effect the first of July, seems to be well demonstrated by the results for August made public yesterday. The official compilation showing the large total of 98,825 aliens admitted through all ports in the month this year furnishes ample evidence of the new law's intelligent application. That aggregate compares with 81,592 in August last year, when restrictions were less drastic, and only 63,409 in 1905. The bulk of the August arrivals this year, it is perhaps unnecessary to remark, comprises the same nationalities as for many recent months-Italians, Austrians, Hungarians and Russians, the greatest number coming from Russia. The aggregate immigration for the eight months of the current calendar year approaches close to the million mark, having been 939,909, whereas in the corresponding period of 1906 a total of only 840,257 was reached, and in 1905 arrivals were but 758,409.

This gratifying indication that the movement is working so favorably as to afford promise gradually to satisfy our pressing needs for labor, serves to draw attention to certain general features made prominent recently. Among others, is the remark of Congressman John L. Burnett, of Alabama, to the effect that undesirable immigrants come from particular localities, specifying certain countries. That utterance naturally attracted much attention because of Mr. Burnett's connection with the Congress Immigrafion Commission. In that general form, it has been quite positively dissented from by Mr Frank P. Sar-gent, Commissioner-General of Immigration, who, while admitting that our pecessity for labor compels us to accept a certain percentage of bad timber, does not believe that undesirable immigrants come wholly from any one, two or three countries. He draws attention to the well-known fact that at the present time we gre so largely dependent upon Italy for our labor supply that some Black Hand people are apt to slip in with the others, as may Hunchakists with the Armenians. But the undesirable element makes up only a very meagre part of the whole, and with proper laws could be excluded.

On the trend of immigrants after arrival here, Mr. Sargent's report for the fiscal year ending June 30 last gives valuable information. It is pointed out that during the period covered (the 12 months ending June 30 1907) the tide of immigration through Southern

ports increased largely, and that all through the South the number of foreign settlers is growing as the advantages that section offers become better known in Europe. Moreover, he is convinced that it is but a question of time when foreigners, learning that they can do better in small places than in big cities, will act accordingly.

The desirability of establishing the division of information of the Bureau of Immigration has apparently been fully demonstrated by the recent report of its head, Terence V. Powderly, to Commissioner Straus, of the Department of Commerce and Labor. The report indicates the nature and extent of the work of the division and clearly shows that much has been accomplished in the two months of its existence. Certainly the efforts already made to learn where and by whom labor is needed, the classes required, wages paid, &c., &c., seem to have reached eminently satisfactory results. The division already has in its possession information to the effect that 256,400 men, women and children can be placed at wages ranging from \$3 per week to \$3 50 per day. Furthermore, from the Commissioners of Agriculture of three States it is learned that an aggregate of 1,020,600 settlers is needed on land in those States, and, through correspondents, accurate and complete details for placing the settlers are now being secured. That this information may be put in the hands it is desired to reach, circulars printed in various foreign languages will be distributed through various channels at home and abroad, and this work will be supplemented by locating a representative of the division at the New York immigration station. With these efforts making under intelligent direction, there would seem to be no real reason to long fear a dearth of sufficient labor to supply our industrial and agricultural needs.

Coffee trade circles have recently been exercised over reports that the new Sao Paulo Government intended in the near future to dispose of some portion of the coffee purchased under the valorization scheme. Rumor had it that upon the expiration of the first term for which the loans had been made-December 31st this year-the coffee stored outside of Brazil but controlled by the Government would be sold. The serious results that would follow such a course were so clearly apparent that much concern was felt as to the truth or falsity of the rumor. It remained, however, for the local representative of the Sao Paulo Government to definitely settle its unreliability, he being authorized to deny officially that there is any such intention. In fact, his advices by cable specifically stated that the new Government will retain all coffee until claimed by the market. The evident meaning of this is that only in response to actual demand for supplies will any of the stored surplus be released. That this course will be faithfully adhered to does not appear to be doubted in financial circles abroad, where the major portion of the bonds issued under the valorization plan were placed. In fact, those bonds stand well in the London market and are selling there now at a premium on the issue price.

The denial of the disquieting report, while of itself a satisfactory development, does not carry with it any assurance of the success of the valorization plan as applied to the 1906-07 surplus growth. Success rather is dependent upon the extent of the current year's yield or future crops. There are those who feign to believe that the crop of 1907-08 will be a comparatively short one, and urge that the decreased crop movement this year, as compared with either 1906-07 or 1905-06, is confirmatory of that belief. Basing their estimates upon this reduced crop movement, they figure out a yield in Brazil of only about 111/4 million bags, a visible supply at the end of the season of only  $5\frac{1}{2}$  million bags, not including Government holdings, and consequently argue that there will then be a heavy drain upon the Government's stored surplus. On the other hand, the claim is made that fully 2,000,000 bags of coffee remained upon plantations at the close of June, giving with the 1907-08 crop a supply in excess of consumptive requirements. With the experience of 1906-07 fresh in mind, however, it is well to withhold all estimates for the present.

As to valorization and how it is regarded in its birthplace, we gain a good conception through a recent issue of the "Brazilian Review." That journal, after pointing out that valorization in one form or another dates some years back, indicates that it was not seriously pushed until last season, and then more with the idea of advancing prices than of preventing a decline. But later, when the immensity of the crop was realized, it was found that the prevention of a decline was the best that could be hoped for. That a fall in prices was not prevented is now, of course, a matter of history; but at the same time it is firmly believed that the intervention of the Government prevented a drop in prices to a ruinous level and saved many planters from practical annihilation. It is argued that without Government intervention, through the valorization or some other plan, the surplus of 8 to 9 million bags of coffee would likely have been divided among speculators in Brazil and abroad and continue a weight upon the market perhaps for years.

Defining its own position on valorization, the "Review" admits its opposition at the outset was "because it seemed an unnecessary and dangerous interference in concerns that no Government can handle properly. But as things have turned out we feel bound to confess that without it the position would have been more dangerous than it is." Altogether the feeling in Brazil seems to be that no matter what may be the ultimate outcome of the scheme as applied to the 1906-1907 crop, the immediate effect was beneficial, giving, as the "Review" puts it, "the country breathing time to strain every nerve to stimulate consumption and thus re-establish an equilibrium of consumption with production."

Certain court decisions this week will do much to strengthen confidence in the continued impartiality and integrity of our judges. This is a point of great importance, for it has seemed at times of late as if there were danger that our courts, like our legislative bodies, would be swayed by popular clamor. Justice Brewer's decision last week in the traction cases at Chicago, with these decisions of this week, will serve in a measure to dispel fears of that kind. In the first place, there has been another ruling declaring the twocent fare law in Pennsylvania unconstitutional. The decision this time is by Judge Shull of the Perry County Court, and what particularly attracts attention in this later decision is the strong language used by the Judge in condemnation of the two-cent rate. The complain- ordinary courtesy and consideration to a Standard

ant in the present instance was the Susquehanna River & Western Railway Co., a small road connecting Duncannon and Bloomfield Junction. Judge Shull says that to compel compliance with the mandates of the statute by the plaintiff company would mean robbing the bondholders of their securities, in which they placed their money at reasonable rates of interest in good faith, deprive the community of the facilities for transportation of freight and passengers which they now enjoy, and confiscate the property and franchises of the stockholders. And for what purpose, he asks? He furnishes the answer to the question in the following:

Simply to obey the caprice of a Legislature many of whose members, without rhyme or reason, facts or figures, information or reputation, pledged to perform the act in the name of reform. say of reform, as was said by Madam We might Madam Roland liberty in the days of the French Revolution, "O Liberty, Liberty, how many crimes are committed in thy name !" Reform is a virtue of lofty attributes but it comes in the voice "As ye would that men should do unto you, do ye even so to them," and is not in black and blighting, thunderous clouds of destruction, havoc and confiscation. In the case at bar it is not even asserted that any injury is suffered by the public, no citizen is heard to complain, while to throttle the operations of the road and relegate us to the stage coach and Conestoga wagon will bring injury, distress and disconsolation.

The language here is so strong as almost to seem intemperate, and yet it states the literal truth. It is distinctive simply in that it presents the facts in plain, unvarnished terms, with no endeavor to suit the prevailing fancy or bid for the plaudits of the multitude. At a time when so many of our public men are gallavanting through the cities and towns seeking to get "in touch" with the people-which means not a desire to learn what is right but to find out what would please the largest number of persons-such plain speaking as is here indulged in is both refreshing and reassuring.

The other court action to which we have reference is the course taken by Justice Hammond of the Massachusetts Supreme Court with reference to the application to compel H. H. Rogers of the Standard Oil Company to appear personally in court and submit to an examination in a legal proceeding against him in Massachusetts. This is not one of the numerous suits against the Standard Oil Company which are attracting so much attention just now. It is merely the suit of an individual who claims \$50,000,000 for the use of an invention belonging to him. One of the witnesses called to testify at the hearing was Mr. Rogers, but the evidence showed that he was not in condition to attend. It was sought by the plaintiff to compel his appearance, nevertheless. Justice Hammond denied the application in these words: "It would be cruel and unjust to compel H. H. Rogers to appear in court, since the evidence shows that he is in no condition to come here. My conscience would never feel easy were I to compel his presence here and it should be attended by an untimely misfortune." The Standard Oil Company and all those in any way identified with its affairs are at the moment the subject of bitter and vindictive attacks in practically every State in the Union, and it must have required much courage, we imagine, even on the part of a judge, to disregard popular prejudice and show

Oil magnate. It is in Massachusetts that we should expect the courts to present a firm and unyielding front against unreasoning public sentiment, and Justice Hammond's action shows that faith in judicial fair-mindedness in that State is well justified.

This week's developments in the copper trade have been in line with the developments of preceding weeks. Last Saturday the United Metals Selling Co. made a further cut in its price for the electrolytic brands of copper from 18 cents to 161/2 cents, and on Thursday of this week still another reduction, this time to 16 cents. This is the fourth successive reduction. The first came in July, with a marking down of the price 3 cents a pound to 22 cents for electrolytic copper and 23 cents for the Lake brands. That had no effect in inducing purchases, so early the present month a further sharp cut to 18 cents for the electrolytic brands and 181% cents for Lake copper was announced. This was as ineffectual in bringing in buyers as the first reduction. Accordingly, the other two reductions followed, bringing electrolytic copper down to 16 cents. It cannot be said that buying has ensued even yet. The truth is, there appears to be, for the time being, absolutely no demand for copper at any price. In these circumstances we think the producing interests are pursuing a wise policy. They are curtailing production, and express a determination to suspend copper mining altogether if the present curtailment does not suffice to bring about an improvement in the situation. It would be obvious folly to continue piling up stocks of copper in a time when hardly anyone wants copper, no matter how low the figure. It has been intimated in certain quarters that the price of the metal might tumble to 12 cents a pound, as during the collapse of a few years ago. Of course, anything is possible in such a situation as has now developed, but 12-cent copper would mean a complete readjustment of the conditions attending the production of the metal.

Wages are now very much higher than when copper ruled at 12 cents before, and many other items of expense are also higher, so that the cost of production, it is generally supposed, is 2@3 cents a pound more than it was at the earlier date. Hence, 12-cent copper would mean that large numbers of copper mines would have to stop mining, since the operation would no longer be profitable to them. Only the most favorably situated mines could continue at work. This might in the end tend to restore the equilibrium, but the present course of curtailing the output for the time being may bring about the same result without entailng any such drastic consequences as must follow a drop in the price to 12 cents. There seems to be nothing to do except to wait for the outcome. There have been rumors this week of the formation of a consumers' syndicate to buy up surplus stocks of copper in the endeavor to protect themselves against losses on their goods from further shrinkage in the price of the metal. But with the disastrous experience which attended the attempt of the Amalgamated Copper Company to maintain the price of the metal a few years ago at 17 cents, and the earlier failure of the Secretan syndicate to corner copper, it seems unlikely that any responsible parties will attempt to repeat the experiment at this late date.

In the annual report of the Missouri Kansas & Texas Railway Co., submitted the present week, President Joline makes some pertinent remarks showing the trying situation in which United States railroads are placed at the present juncture. He says the roads find themselves without facilities adequate to handle all the traffic offered for shipment, and in an endeavor to meet the requirements tracks and terminals become congested, motive power and equipment run down, roadway is impaired, men are overworked, and other evils ensue tending to make transportation more difficult and vastly more costly for the railroads as well as unsatisfactory to the public. The remedy for these evils lies in enlarging facilities and increasing equipment, but, strange to say, the public, so vitally interested in the question of transportation, has assumed an attitude of hostility towards railway corporations which has manifested itself in so many forms of oppressive and restrictive legislation as almost entirely to destroy the credit of railways so far as obtaining new capital for improvements is concerned, while it is impossible for the average railroad company to make extensive betterments from its current earnings, in view of the tremendous increase in the cost of labor, material and supplies.

Mr. Joline well says the policy of increasing the burdens upon railways and at the same time diminishing their earning power is neither just nor reasonable from any rational point of view. Operating expenses are necessarily inflated to such an extent as to leave little or no balance after the payment of fixed charges and constantly increasing taxes. The legislatures of the several States demand impossibilities and require a reduction of rates, already the lowest in any country, without recognizing the fact that they are depriving the railroads of income which in most cases would be expended in payment for betterments absolutely necessary for the safe, economical and expeditious movement of traffic. They call for expenditures while refusing to let the railroads earn to meet them. It is Mr. Joline's opinion that the people of this country are not hostile to railroads; it is the greed and ambition of politicians which are responsible for the unjust requirements imposed upon the roads. The lawmakers have been aided in their assaults by the labor unions. The generous increase in pay and the shortening of the hours of labor have not been productive of increased efficiency. "A spirit of unrest, discontent and almost of insubordination has permeated the ranks in nearly all the branches of the railway service all over the country, and offers a problem for which we can suggest no satisfactory solution, principally because of the scarcity of labor, and especially of experienced labor required for the safe and efficient operation of railroads."

Mr. Joline expresses gratification that the troubles are less serious with his company than with others. He also expresses the belief that the exceptional development of the country tributary to the Missouri Kansas & Texas will be reflected in future substantial increases in the gross earnings of the company; and that upon the completion of improvements now under way and such others as the company may find the means of undertaking, such economies in operation may be effected as will offset and perhaps overcome the adverse influences now so prevalent. The company's annual report for the twelve months makes a very satisfactory income showing under the influence of the large crops harvested in the Southwest last season and the continued development of the territory tributary to the lines of the system.

There was no change in official rates of discount by any of the European banks this week; compared with last week unofficial or open market rates were  $\frac{1}{8}$  of 1%lower at London and 1/8 of 1% higher at Paris, at Berlin and at Frankfort. The London securities market was affected on Thursday by fears of a strike of shipbuilding employees; also by the need Berlin was showing for gold bullion and the prospects for large gold exports to Egypt; later, however, there was a recovery, influenced by the strong Bank return. The Paris bourse was firm while American securities were depressed at Berlin. It is announced that the Rothschilds have taken the \$5,500,000 5% Chilian eighteen months' loan, the proceeds of which are to be devoted to the re-building of those portions of Valparaiso which were wrecked by the earthquake; the loan will probably be placed in Europe.

The bank statement of last week did not disclose any important feature and it had little or no influence upon the situation this week. There was a transfer through the Treasury of \$500,000 to New Orleans on Tuesday. It may be noted that the outstanding unredeemed United States 4s of 1907 have now been reduced to \$7,506,350.

The market for money was comparatively firm this week, influenced by the smaller offering of corporation and railroad funds, which was the feature toward the close of the previous week; there was a concentration of the demand from stock commission houses upon the call-loan branch of the market. The volume of fixed-date funds was quite moderate, the contracts being confined to those for short terms of maturity, for which there was a good inquiry. Money on call, representing bankers' balances, loaned on the Stock Exchange during the week at 5% and at 2%, averaging about 4%. Banks and trust companies loaned at 21/2% as the minimum. On Monday loans were at 5% and at 3% with the bulk of the business at  $3\frac{3}{4}$ %. On Tuesday transactions were at 5% and at 3%%with the majority at 4%. On Wednesday loans were at  $4\frac{1}{2}$ % and at  $2\frac{1}{2}$ % with the bulk of the business at 4%. On Thursday transactions were at 4% and at 2%with the majority at 4%. On Friday loans were at  $3\frac{1}{2}\%$ and at  $2\frac{1}{2}$ % with the bulk of the business at  $3\frac{1}{4}$ %. Time loans on good mixed Stock Exchange collateral were offered at 5% for thirty,  $5\frac{1}{2}$ % for sixty and  $5\frac{3}{4}$ % for ninety days; the rate for four to six months was 6%. The offerings of choice commercial paper at 7% through brokers have, it is said, resulted in more business than has heretofore been reported. Though transactions are comparatively restricted in volume, the market has become distinctly broader and orders for paper have been received this week from New England banks that have not been buyers for several months; some considerable amounts of paper have, it is reported, been placed with institutions in Kansas, Missouri and other Western States. Rates are 61/2@7% for sixty to ninety day endorsed bills receivable, of which, however, there are very small amounts, 61/2@7% for prime, and 7% and above for good four to six months single names.

The Bank of England rate of discount remains unchanged at  $4\frac{1}{2}\%$ . The cable reports discounts of sixty to ninety day bank bills in London  $3\frac{3}{4}@4\%$ . The open market rate at Paris is  $3\frac{5}{8}@3\frac{3}{4}\%$  and at Berlin and Frankfort it is  $5\frac{3}{8}@5\frac{1}{2}\%$ . According to our special cable from London, the Bank of England gained £480,478 bullion during the week and held £39,134,579 at the close of the week. Our correspondent further advises us that the gain was due principally to receipts from the interior. The details of the movement into and out of the Bank were as follows: Imports, £101,000 (wholly bought in the open market); exports, £280,000 (of which £200,000 to Egypt and £80,000 to Roumania), and receipts of £659,000 *net* from the interior of Great Britain

The foreign exchange market was easy early in the week, influenced chiefly by quite liberal offerings of commercial bills against cotton and grain. The recessions in rates were, however, comparatively slight, indicating the prompt absorption of the offerings, and on Wednesday a good demand for remittance caused a general recovery. The market then became dull and one feature was the relaxation of the inquiry for bills for Thursday's steamers, remitters preferring to defer their engagements until Friday in order to take advantage of the mail by the Lusitania, which would be delivered as soon as that by Thursday's vessels. Much of the demand for remittance was in anticipation of the end of the month settlement on the London Stock Exchange, indicating a large account in Americans; there was also some inquiry for the adjustment of mercantile credits. There were very few finance bills in the market, British bankers again discriminating against such drafts, and loan bills were offered in smaller volume than has been the case recently. There appeared to be a large short interest in the market resulting from speculative selling, which will account in part for the recovery in rates after the middle of the week. It is reported that there are quite large amounts of finance bills which were issued in June that will mature by the close of this month; the demand for cover for such drafts that has not yet been secured may cause a sharp demand for cables next week. Early October maturities of finance and loan bills drawn in July may also have to be provided for, thus tending to maintain comparatively firm" rates for bankers' exchange.

The market was generally heavy on Saturday of last week and, compared with the previous day, long fell 20 points to 4 8175@4 8180, short 15 points to 4 8535 @4 8545 and cables 10 points to 4 86@4 8605. On Monday long rose 10 points to 4 8185@4 8190, short 5 points to 4 8540@4 8545, while cables were 5 points lower at 4 8595@4 86. On Tuesday long declined 15 points to 4 8170@4 8175 and cables advanced 5 points to 4 86@4 8605; short was unchanged. On Wednesday long rose 10 points to 4 8180@4 8185 and cables fell 5 points to 4 8595@4 86; short was unaltered. On Thursday the tone was strong at an advance of 10 points all around, long to 4 8190@4 82, short to 4 8550@4 8555 and cables to 4 86@4 8610. The market was strong on Friday at an advance of 35 points for long, of 10 points for short and of 15 points for cables.

The following shows daily posted rates for sterling exchange by some of the leading drawers.

### WHAT TO DO WITH THE PHILIPPINES.

Some weeks ago the "New York Herald" undertook a canvass of the opinion of public men, especially in Congress, regarding the question whether the Philippine Islands could be retained by the United States. The question addressed to these people was, whether the United States, all things considered, ought not to sell the Philippines. This proposition in itself, being just a little peculiar, received very naturally no great approval. The salient fact in the answers to the "Herald" inquiries was that out of 138 Senators and Representatives who gave their opinions on the general question, only 27 advocated the permanent retention of the Philippines by the United States. This was no doubt a rather negative view; for, after all, the real question at issue, even granting that the islands ought not to be retained, is, How can we get rid of them? Probably the response made by Speaker Cannon would sum up, as nearly as anything could do, the feeling not only of the average Congressman but of the average that the United States sell the islands strikes us as

American citizen regarding the question. He said: "I would be in favor of getting out to-morrow if there were any honorable way of getting out."

What is the reason for this nearly unanimous opinion against that colonial policy which, only eight years ago, was hailed in many quarters as embodying the manifest destiny of the United States, and as opening for this nation a highly desirable career? First, there is undoubtedly the question of expense. Rough estimates published in connection with the inquiry above referred to named \$400,000,000 as the expense of the Philippines to the United States to date. A more thorough and detailed inquiry, made by a Washington correspondent last March on the basis of Government estimates and reports, named the figure of total outlay from our assumption of control in the islands to that date as \$308,369,155. At a fair estimate this would represent an outlay of nearly \$40,000,000 per annum for the islands. The mere question of expense might be considered lightly-it would be likely to be so considered in the present mood of the American taxpayers-if it were possible at the same time to see some tangible results. The London "Spectator," commenting lately on the "Herald" figures, and reviewing our experience in the Philippines, remarked: "In a word, the intention was obviously to do for the Philippines what Britain was doing for Egypt. Is that policy to be ended because progress is slow and the early stages have been expensive? We do not believe it." But the "Spectator" misses the very point in its comparison of the Philippines with Egypt, since it is quite well known that one fundamentally important motive for England's beneficent intervention in that country was the guaranteeing and improving of the cotton-producing area of the Nile, enormously important as that district is to the spinning industry of Great Britain and of the world at large, and never more important than at the present stage of industrial activity. The "Spectator" does not follow out this line of argument; it ends with the naive suggestion that Mr. Roosevelt, when his term expires, should be sent to the Philippine Islands as Proconsul.

What the "Spectator" does not give us, in summing up the objections to the Philippines other than the mere consideration of cost, was provided lately by Congressman McCall of Massachusetts, whose broad familiarity with the question, on the floor of the House and in Congressional committees, abundantly qualified him to speak. His comment was "that the cost to this nation in money of the Philippine colonies will be greater than any pecuniary benefits it will receive; that the islands are not likely to become a corporate part of this country; that they are not fit to be the home of Americans; that they will greatly weaken the country in time of war and expose it to liability to war; that, worst of all, their retention will involve the destruction of tens of thousands of American lives, and will involve the departure from the traditional policy which has made this nation great."

From whatever point of view, therefore, the matter is considered, the same general conclusion seems to be reached, and the conclusion is that of Speaker Cannon. But, granting all that is said by him or by other opponents of continued American control, the question recurs: What are we to do about it? The suggestion

altogether fantastic. To whom should they be sold? Assuming that some European State could be found which was willing to assume the notoriously heavy burden imposed on the United States, and to pay a round sum of money for the privilege, with what excuse or consistency could we transfer the islands to it? Waiving the question whether we have any moral right to dispose in the market of the lives and fortunes of a subject people, the logical argument for acquisition of the islands in 1899 was the fact that, but for our intervention, they might have fallen into possibly hostile hands-in other words, that some European Power which at a future date might become embroiled with us on this side of the world would be able gravely to jeopardize our Pacific Ocean commerce through possession of such a key to the transportation route.

If not Europe, then no doubt suggestions will converge upon Japan, and it cannot be denied that if the absolutely logical line of action were to be pursued, ignoring all questions of naval policy or international relations, Japan would be the legitimate heir to the Philippines. Itself an Oriental nation, it should prima facie be qualified to administer, as it is doing in Korea, the affairs of another Eastern State. But if any one were seriously to advocate such a recourse, he would be promptly confronted by two probably fatal objections -first, no doubt, by the argument that Japan itself might derive from such possession certain advantages which would jeopardize our position; second, and of far more immediate importance, that Japan, with the strain of its home finances and its own unsolved colonial problem in Korea, is in no position to enter on such an undertaking. To our mind, the situation actually is that while we are weary of holding the Philippine Islands, the notion of handing them over to some other Power is utterly out of the question.

At the moment there certainly appears to be no recourse left but the familiar argument for ultimate Philippine self-government. "Ultimate" is a word which qualifies such a statement so as to make it of very little encouragement for a pressing problem; yet we fail to see what other solution can be reasonably suggested. What seems most clear to us is that decision as to our final purpose in the matter ought to be very soon reached and publicly announced, so that the irritating friction which has now for years existed between ourselves and the natives of the islands may be at least reduced to a minimum. If the problem is that of training for independence, by all means let no time be wasted in the process. The fatal blunder of the United States Government to date has, in our judgment, been that it has never in its own mind been clear as to what its line of procedure in this matter was to lead to. Statesmen have outlined one course of policy only to be in form or spirit contradicted by other statesmen. It is time that the matter were brought in this regard to a more definite head. That announcement of a policy of this sort would of itself do much to help along the solution of the general problem, is at least our hope. When a question of such magnitude and complexity is before a Government, the wisest policy is to begin by deciding what courses of action are impracticable, so that at least those expedients may be once and for all eliminated. Such a Government will, at all events, have been started on the right road, with a reasonable prospect of reaching its destination.

### THE CANADIAN PACIFIC'S REMARKABLE SHOWING.

If the leading railroad systems of the United States have enjoyed remarkable growth in recent years, the record of the Canadian Pacific Railway Company has been no less noteworthy. In some respects, indeed, its growth has been even more marvelous. The annual report for the fiscal year ending June 30 1907 shows that in that period of twelve months gross earnings reached no less than \$72,217,527. Only two years before, in 1904-05, the total of the gross amounted to only \$50,481,882. Here, then, is an increase of  $21\frac{3}{4}$  million dollars, or 40%, in the brief space of two years, starting from a total which had itself been unexcelled in the company's history. The expansion in the net during the same two years has been no less striking. For 1906-07 the amount of the net is \$25,-303,308. Two years ago, in 1904-05, the amount was only \$15,475,088. In this instance, therefore, the gain for the two years has been more than 60%.

In other particulars the income showing for the twelve months is also a marvel. After adding income from investments (not including, however, anything from the company's holdings of Duluth South Shore & Atlantic Railway bonds, which yielded no return), and also excess earnings of the steamship lines, aggregate net income for the fiscal year is brought up to \$27,667,789. The fixed charges against this were no more than \$8,511,755, leaving, therefore, a surplus on the year's operations of \$19,156,033, from which, however, was deducted a contribution of \$700,000 to the Steamship Replacement Fund and of \$80,000 to the Pension Fund, or \$780,000 together, still leaving a balance of no less than \$18,376,033. The 4% dividends on the preference stock called for no more than \$1,736,228. The remainder, \$16,639,805, is equal to over 131/2% on the \$121,680,000 of ordinary stock outstanding June 30 1907. Only 6% on this stock was paid out of earnings, calling for \$7,300,800, and leaving, therefore, an unexpended balance on the year's operations of no less than \$9,339,005. Actually, the ordinary stock is receiving 7% dividends, but the other 1% comes out of interest on the land funds.

It should be understood that the surplus of 9 1-3 million dollars over and above the call for the 6% dividend is entirely independent of the operations of the land department. The Canadian Pacific has a very extensive land grant and the yearly proceeds from land sales reach large proportions. For the late twelve months the land sales were 994,840 acres, and the amount represented by the same was \$5,887,377. A part of the proceeds of these land sales remained in deferred payments. The cash receipts of the land department from the proceeds of current sales and from the collection of deferred payments on previous year's sales reached, it appears, no less than \$8,316,335. The 1% dividend paid on the ordinary stock called for only \$1,216,800, leaving, therefore, a surplus of over \$7,000,000 from the land department to add to the \$9,000,000 surplus from the operation of the railway, making \$16,000,000 altogether. It may be remembered that, out of the large land receipts of previous years, provision was made for the payment of the whole \$15,000,000 31/2% land bonds which had been guaranteed by the Dominion Government. (1)

The company has begun the practice pursued by United States railroads of devoting large amounts of earnings in payment for additions and improvements to the property. It will be recalled that in the preceding year \$2,535,000 had been deducted from the surplus standing to the credit of profit and loss and applied on account of such additions and improvements. This was in accordance with the recommendation of the board of directors that an amount equivalent to 15% of the \$16,900,000 new stock which had then been issued be transferred (as had been done in the case of the last preceding issue of new stock) from accumulated surplus to a special fund for improvements. In the year just past a still larger contribution of the same sort has been made, namely \$5,000,-000. This is almost 25% on the \$20,280,000 of additional stock offered to shareholders in March 1906, but payment for the greater part of which did not fall due until the fiscal year 1906-07. Of the \$5,000,000 appropriated out of income, only \$676,348 was expended during the twelve months, leaving \$4,323,652 unused June 30 1907 and available for the future.

As was pointed out by us in reviewing the report for the preceding year, it is no longer possible from a mere inspection of the balance sheet to determine the enormous amounts of surplus earnings and donations from various sources which have gone into the property to provide for its extension and development. This is owing to the fact that two years ago a very important change was made in the balance sheet. The item of "Cash subsidies from Dominion and Provincial Governments and municipalities" and so much of the proceeds of land sales as had been applied on construction and equipment account were transferred from the credit side of the balance sheet, where they had previously appeared, to the other side of the account in reduction of the item "Cost of railway and equipment." . The proceeds of land sales expended in construction aggregated at that time \$36,193,521, and the subsidies and bonuses received amounted to \$30,752,195 more, making \$66,945,716 together. Adding to this the \$7,535,000 of accumulated income deducted from profit and loss the last two years and applied on account of additions and improvements, and also adding the \$30,713,153 of accumulated surplus still standing on the books June 30 1907, and likewise the \$15,854,-613 of free assets still remaining in the land department, we get a grand total in excess of 121 million dollars-\$121,048,482, representing money that has actually gone into the property or will ultimately become available for the improvement of its physical and financial standing. In addition the company owns 8,905,823 acres of land in Manitoba, Saskatchewan and Alberta (average sales past year \$5 92 per acre) and 3,419,673 acres in British Columbia. As these unsold lands are disposed of there will be corresponding contributions to the available assets in the future. Many other items might be mentioned which would swell still further the total of the contributions and appropriations and which we have entirely ignored, such as the contributions to the replacement funds, of which \$1,131,360 remained unused June 30 1907 in the Equipment Replacement Fund and \$1,540,667 in the Steamship Replacement Fund.

The financial condition of the company is one of great strength. Owing to the extensive amount of

building of new branches and extensions, in providing double track and sidings and additional equipment, terminals, &c .- the new capital additions from year to year are necessarily large. In the year under review, the amount of new capital put out was smaller than usual. The company received the unpaid remainder on the \$20,280,000 new stock offered to shareholders at par in March 1906, and on which only \$4,-595,190 had been paid up to June 30 1906. In other words, it received on that account \$15,684,810. Aside from this, the only additions to stock or debt appear to have been the creation of £250,000 of preference stock (yielding \$1,222,715) and the issue of £930,000 of consolidated debenture stock, yielding \$4,850,251. As against the amount derived in this way, the expenditures, however, were on a very large scale. Thus, the construction expenditures for acquired and branch lines for the twelve months reached \$4,484,974, the expenditures for additions and improvements on main line and branches \$9,518,979, the expenditures upon leased and acquired lines \$1,562,906, besides which no less than \$13,477,995 was spent upon rolling stock, shops and machinery. These four items, it will be observed, aggregate over \$29,000,000. Nevertheless, the large surplus left from the operations of the railroad for the twelve months, together with the surplus of the land department, so abundantly supplied the company with cash that for June 30 1907 the balance shee shows cash on hand to be \$3,642,537 larger even than at the corresponding date of the previous year, bringing it up to the striking figure of \$21,394,952.

Very few persons, we imagine, have a proper conception of the magnitude of the Canadian Pacific Railroad system beyond the knowledge that the lines of the system extend from ocean to ocean. But while the main line from Montreal to Vancouver is 2,908 miles long, the length of road comprised in the whole Canadian Pacific system is more than three times this figure, the road included in the traffic returns on June 30 1907 footing up no less than 9,154 miles. In addition, there were 262 miles of other lines worked and 823 miles under construction, making 10,239 miles. This is entirely independent of the two controlled roads in the United States, namely the Minneapolis St. Paul & Sault Ste. Marie Ry. and the Duluth South Shore & Atlantic Ry., both of which make separate reports and which comprised together 2,873 miles. Altogether, therefore, there are 13,000 miles in the Canadian Pacific system, directly and indirectly. In addition the company has a very extensive fleet of ocean, lake and river steamers, comprising a trans-Atlantic service, a trans-Pacific service, besides a Pacific Coast service and upper lake service, and a British Columbia lake and river service.

The report devotes a paragraph to setting out the new work done during the year, and this serves to indicate how extensive is the new construction being carried on by the company. We are told that, notwithstanding the scarcity of labor, fair progress was made with most of the undertakings. West of Lake Superior the company was building 747 miles of railway. On this two-thirds of the grading has been completed, 270 miles of track laid, while the rails and fastenings for the remaining mileage were on hand June 30 1907. The growth of business makes necessary, also, considerable amounts of double track, and it is expected new work in which the company is engaged-in the that approximately 200 miles of the double track

between Winnipeg and Fort William will be available for use this autumn, and that the whole work will be completed in 1908. In Eastern Canada the line from Guelph to Goderich (80 miles) was practically completed during the year. On the Walkerton & Lucknow Ry., grading on 20 miles out of the total of 38 miles was done, and on the line between Kleinburg and Sudbury (226 miles) sufficient progress has been made. it is stated, to insure its availability for freight traffic before the winter sets in. In Eastern Canada, too, much second track is being laid. Of the distance of 108 miles between St. Anne's and Smith's Falls, it is expected that 50 miles will be ready for use in 1907 and the remainder in 1908.

Perhaps the best indication of the development of the Canadian Pacific itself and of the Dominion of Canada is furnished in the way the passenger business is expanding. In the latest year the revenue from passengers was \$19,528,878. Two years before it was only \$13,583,052, giving an increase of nearly \$6,000,-000, or almost 45% in these two years. The management is able, too, to show growing operating efficiency, though in the year under review the severe winter experienced in Canada must have been a great hindrance for several months in the way of producing good results. One evidence of the improvement in efficiency is found in the fact that the average trainload for 1906-07 was 339 tons, against 324 tons for 1905-06 and only 300 tons for 1904-05.

### CHICAGO & NORTH WESTERN'S STRONG FINANCIAL CONDITION.

A feature in the annual reports of the large Western railroad systems, so far as they have come to hand, is the large amount of new work they show to be under way and the liberal manner in which provision has been made for future capital needs, leaving the companies for the time being with a superabundance of current funds. We referred to this feature last week in reviewing the annual report of the Milwaukee & St. Paul Co. and also advert to it to-day in the article commenting on the annual report of the Canadian Pacific Railway Co. Perhaps the most striking exemplification of the disposition of railroad managements to supply themselves with abundance of cash is found in the case of the Chicago & North Western Railway Co. We need hardly urge that in times like these, when it is so hard to raise new funds, this possession of large amounts of ready cash is a great advantage to the companies and an element of strength in the financial situation. It obviates, in the case of the companies so favored, the need of extensive new financing in the near future and at the same time fortifies such companies against a period of trade depression and receding revenues, when perchance it may not be possible to devote such large amounts of current income to the making of additions and improvements as has been the practice in the recent past.

As far as the Chicago & North Western is concerned, the company has been making, as is known, some very large increases in its stock in recent periods. On February 2 1907 \$24,401,625 of new common stock was issued to shareholders at par. In the previous fiscal year \$26,842,070 of stock was put out, making for the two years an addition of over \$50,-000,000 and raising the total outstanding amount of happens that the company was able to add \$10,485,-

common and preferred stock to \$122,010,984. On the other hand, however, the outstanding funded debt is being steadily reduced. This is accomplished in part through the reduction of maturing bonds and in part by the retention in the company's treasury of new bonds issued for improvements and extensions. In the year just past there was a net decrease in the outstanding bonds of the company of \$1,279.000. The previous year the decrease was \$4,011,000, making for the two years a reduction of over 51/4 million dollars.

The company is doing very extensive amounts of new work, for which the requirements of cash are of like proportions, but the financing has been on such a broad basis that, aided by the large yearly surplus from current income, the company finds its treasury overflowing with money after very extensive outlays on behalf of the new undertakings. As an indication of the work being done, we observe from the report that the new lines of railway completed and opened for traffic during the fiscal year aggregated over 321 miles. In Wyoming the Wyoming & North Western Ry., extending from Casper to Lander, Wyo., a distance of 148 miles, was opened; in Wisconsin the Manitowoc Green Bay & North Western, 123 miles, was completed; then also the Milwaukee & State Line Ry., 50 miles, was completed. This makes the 321 miles. In addition various minor extensions have been built, the more important of these being the line from Bonesteel to Gregory, S. D., 26 miles. We also learn from the report that the Pierre Rapid City & North Western Ry., a distance of 165 miles, is practically completed. The company is also building an entirely new passenger terminal in the city of Chicago and is likewise engaged in elevating its tracks in Chicago and vicinity. Besides this, an aggregate of 72 miles of sidings, yard tracks and spurs were added during the year to serve industries and develop traffic.

The outlays during the twelve months for these various purposes and for other capital needs were of very considerable magnitude. The expenditures thus far incurred on account of the new passenger terminal (mainly for the acquisition of lands) are represented by an item of \$4,909,422 in the balance sheet termed 'real estate in suspense and advances on account of the new Chicago passenger terminal." The construction expenditures during the year reached \$10,-111,907. This includes purchases of new equipment, but the cost of only about 72 miles of extensions. The outlays for the other extensions and new lines is represented by advances on account of "sundry proprietary companies," which advances on June 30 1907 aggregated \$16,602,303, an increase of \$6,199,309 during the twelve months. Thus altogether the expenditures under these three heads during the year were \$21,220,638 and in addition \$1,585,000 of bonds were redeemed in the twelve months.

The proceeds of the new stock issue during the year, we have seen, were \$24,401,625, and in addition the company had available \$7,830,388 of surplus income from the year's operation, for we observe that none of this has been set aside for expenditures for construction, improvements and permanent additions, though in the previous year the appropriation out of income for these purposes was \$6,000,000. It accordingly

021 to its already large cash holdings of the previous year, bringing the total of cash on June 30 1907 up to the noteworthy sum of \$27;320,938. But this is not all. The company also holds \$12,186,000 of its own bonds unsold in the treasury, and, furthermore, owns \$2,340,701 of its own stock, common and preferred, selling at a high premium in the market.

In the operating results of the year there is revealed further growth in business and revenues, but, as in the case of most other large companies, the greater part of the gain in gross has been absorbed by an augmentation in the expenditures. Put in brief, the gain in gross was \$5,397,353, but increased expenses consumed \$5,037,483 of this, leaving an addition of only \$359,870 in the net. The ratio of expenses and taxes to gross earnings was 68.87%, against only 66.50% the previous year. This rise in operating cost is the more significant as \$319,409 less was spent on maintenance of equipment than in the previous year, an appropriation of \$1,047,610 for new locomotives in 1906 not having been repeated in 1907. As indicating the causes of the enlarged operating cost, we observe that cost of conducting transportation was larger by \$3,-203,909. Yet the management made a further advance in operating efficiency, as is indicated by the fact that the train-load was again increased, the average load of revenue freight having been 263.65 tons for 1907, against 262.60 tons for 1906 and 238.23 for 1905.

It accordingly becomes plain that the higher operating cost is due to causes beyond the control of the management, more particularly the higher price of labor, with decreased efficiency, and the enhanced cost of materials, fuels and supplies. Of the total increase of \$3,203,909 in conducting transportation, \$1,704,984 was in the amount paid for labor; \$856,601 was in the amount paid for fuel for locomotives and \$624,324 in the payment for supplies and in miscellaneous items. Under the head of maintenance of way and structures, the increase in the expenses was \$2,040,043, of which \$1,495,001 was for increased charges for roadway and track, the company having used more than the ordinary amount of rails in replacement of rails of lighter weight. But even in this last instance, \$797,159 out of the total increase of \$1,495,001 represented enlarged expenditures for track labor.

It is needless to say that the company's income statement for the twelve months-considering income in relation to fixed charges and dividend requirements-is an exceedingly good one. Through the reduction in bonded indebtedness, fixed charges are also being reduced. We have stated above that the year's surplus above dividend requirements and charges was \$7,830,388. The company had no less than \$15,740,-565 of net income available over charges, and paid out only \$7,910,177 in dividends to the shareholders. Put in another way, the available income was twice the amount of the dividend distribution on the shares. These dividends, as is known, are 8% on the preferred stock and 7% on the common stock. It is proper to say that the new stock put out during the twelve months carried dividends for only part of the year. With the dividend figured on the full amount of stock outstanding June 30 1907, the call for the dividends would be \$8,764,720, but even on that basis the \$15,-740,565 of net income available would have left a surplus over the dividends, it will be seen, of about \$7,-000,000-truly a gratifying exhibit.

The year covered by the present report of the Reading Company was one of normally favorable conditions and of even prosperity. There was no suspension of coal mining nor trouble at the coal mines, such as had disturbed operations in the previous year, and yet the high prices of materials and the increases in wages served; as in the case of other companies and other railways, to make the business less productive as far as yielding net earnings is concerned. The truth of this statement appears by reference to the gross and net earnings of the railway part of the Reading Company's business, which is carried on in the name of the Philadelphia & Reading Railway Company. Gross receipts here increased from \$40,-563,724 to \$43,528,936, but the net earnings fell off from \$18,426,553 to \$17,639,605, owing to an increase of over \$3,750,000 in the expense accounts. The heavier expenses followed from enlarged expenditures for maintenance of equipment and more particularly from a very considerable increase in cost of conducting transportation, due in part to the greater volume of business handled, but mainly to the increase in wages and the higher prices of materials. On November 1 1906 the wages of all employees receiving less than \$200 per month were advanced 10%. A similar advance had been made in November 1902.

Notwithstanding the reduction in the net of the Railway Company and also some increase in fixed charges, that company is able to report for 1906-07 a larger surplus above the charges than for the previous fiscal year. In this previous year, in order to complete some extensive new work in progress, an unusually large amount was taken out of net earnings for improvements, the sum being \$3,539,352. In 1906-07 no such exceptional contribution was necessary and accordingly the amount was made only \$1,847,933. But though the improvement expenditures were less than for 1905-06, they were largely in excess of similar expenditures during any of the preceding four fiscal years. It should be noted, too, that while \$1,847,933 of improvements were thus paid for out of earnings, only \$931,621 of improvements were charged to capital account. After deducting from earnings the \$1,847,-933, the surplus above charges for 1906-07 for the Railway Company is \$6,044,425, against a surplus of only \$5,384,471 for the preceding fiscal year after deducting the \$3,539,352 taken out of earnings in that year for improvements.

The Coal & Iron Company also shows improved results, both gross and net. This would follow naturally from the absence of trouble at the mines such as existed the previous year. But in addition the company was able to realize somewhat better prices on its sales of coal, and at the same time to reduce a trifle the cost of mining the coal. The improvement marks a welcome change for the better. It may be recalled that in reviewing the report for the previous fiscal year we pointed out that the net results from the sale of coal had very largely diminished during the preceding two years. Thus in 1905 the average price realized on the sales of coal was 9.7 cents less than in 1904, while the cost to the company of the coal mined or purchased was reduced only 2.7 cents per ton, leaving, therefore, a decrease in the net result of 7 cents. Similarly in 1906 the company suffered a decrease, as compared with 1905, of 14.5 cents in the price realized per ton, while the saving in the mining of coal averaged only 1.1 cents, making the net loss per ton 13.4 cents. For the two years, hence, there had been a shrinkage in net results of 20.4 cents. This loss was explained as due to the fact that a much larger proportion of the smaller sizes of coal had been sold, decreasing the average price of *all* coal sold, but of course that did not alter the circumstance that the company had netted that much less per ton on its coal operations. Now for 1907 a small portion of the loss has been recovered. In other words, the cost of coal mined and purchased in 1907 was reduced by 1.5 cents, while the price realized on all sizes was 3.1 cents per ton higher, giving a gain in the net amount realized of 4.6 cents.

With the absence of coal trouble, the coal mined by the company increased 902,359 tons and the coal purchased increased 83,797 tons, while the sales increased 1,216,906 tons. As a result of the larger quantity mined and purchased and the higher price realized. the receipts of the Coal & Iron Company were raised from \$34,038,540 in 1905-06 to \$38,747,561 in 1906-07, but as showing how small are the profits realized from the coal business, the net earnings in both years formed less than 10% of the gross, though for the latest year they were \$3,471,794, against \$3,160,604 in the year preceding. Out of the 1907 net a somewhat larger contribution was made for new work at the collieries, namely \$1,345,229, against \$1,131,038, and the contribution to the fund for depletion of lands was also somewhat larger. The final result for the Coal & Iron Co. is a deficit below charges and these contributions of only \$71,482 for 1907, against a deficit of \$130,745 for 1906. The Reading Company itself also made some improvement, both in gross income and in net.

The final result for the three companies combined is a surplus above fixed charges for 1906-07 in amount of \$8,741,453, as against a corresponding surplus for the twelve months preceding of \$7,843,818. This improvement, as already shown, follows entirely as a consequence of the reduction in improvement outlays on the Railway Company from \$3,539,352 in 1906 to \$1,847,933 in 1907. With \$8,741,453 surplus for the twelve months, the requirement for the dividends on the three classes of stock-first preferred, second preferred and common-at the present rate of distribution of 4% per annum, aggregated only \$5,600,-000 and the contribution required for the general mortgage sinking fund was \$444,357, making altogether \$6,044,357 to come out of the surplus of \$8,741,453, leaving, therefore, a remainder above the dividends in amount of, roughly, \$2,700,000, equal to nearly 4% on the \$70,000,000 of Reading common stock outstanding. In other words, while 4% was paid on this stock, the amount earned was nearly 8%. It should be remembered, moreover, that this is the result (1) after outlays, as already stated, for improvements on the railway of \$1,847,933; (2) after allowing \$1,345,229 for new work at the collieries; (3) after a contribution of \$499,059 to the fund for the depletion of coal lands; and (4) after a contribution of \$444,357 to the general mortgage sinking fund. Altogether, therefore, \$4,-136,579 has been deducted from earnings in computing the surplus of \$2,700,000 remaining after allowing for 4% dividends on the three classes of stock.

The company's business is still being developed in all branches and departments. President Baer notes

that the gross receipts of the Railway Company in 1906-07 were the largest in its history, and the last five years increased nearly 50%. Examination of the comparative statement given in the report shows, too, that this has been the ratio of gain under nearly every head. Thus, in the five years the revenue from the coal traffic has risen from \$12,063,345 to \$18,730,189; the revenue from the merchandise traffic from \$11,032,411 to \$16,-360,170; the revenue from the passenger traffic from \$4,880,705 to \$6,399,173, and the revenue from miscellaneous, mail and other sources from \$1,196,374 to \$2,039,404. Aggregate gross revenues of the Railway Company from all sources for the five years have advanced from \$29,172,835 to \$43,528,936.

With reference to the earnings from the coal traffic, it should be remembered that this covers both bituminous coal and anthracite, and that the bulk of the growth has been in the bituminous tonnage rather than in the anthracite. At the time of the reorganization of the Reading property, the amount of bituminous coal moved by the Railway was comparatively small, the bituminous coal traffic in 1896-97 having amounted to no more than 1,690,228 tons. For 1906-07, a decade later, this bituminous coal tonnage is reported no less than 11,190,250 tons, showing prodigious growth in the interval. Indeed, the bituminous shipments now do not fall so very much short of the anthracite shipments. These latter for the late year were 13,223,780 tons. Of the two classes of coal combined, the Reading Railway in 1906-07 moved 24,414,031 tons, indicating that the road takes high rank among the large coal-carrying systems. Strangely enough, the merchandise traffic for the latest year was represented by almost exactly the same figure, being 24,-414,314 tons, though it is proper to say that the weight of the ton in this last instance is only 2,000 pounds, whereas in the coal traffic the unit is the gross ton of 2,240 pounds.

The various Reading properties are not now adding to their funded debt, but rather slightly decreasing it. The Reading Company shows an increase of \$1.072,-000 in the net amount of general mortgage bonds outstanding (\$1,526,000 issued, against \$454,000 canceled), but on the other hand paid off \$1,380,000 of equipment trust certificates and extinguished \$84,166 of ground rent, making a net reduction in debt of \$392,166. The funded indebtedness of the Coal & Iron Company was decreased by \$30,000 and the funded indebtedness of the Philadelphia & Reading Railway Co. was increased by \$76,633. The treasury holdings, however, of Reading general mortgage bonds were reduced. The company was obliged to make large payments during the year on account of new equipment purchased, and this necessitated the sale of some of the general mortgage bonds in the treasury besides the \$1,500,000 of such mortgage bonds received during the year from the mortgage trustees and allowed for in the above computations. Altogether, \$3,210,000 of general bonds were sold. The amount remaining in the treasury June 30 1907 was, accordingly, only \$2,-369,000, as compared with \$4,507,000 on June 30 1906.

STATISTICS OF UNITED STATES RAILROADS. Advance figures were given out to the press on Friday of last week from the Nineteenth Annual Statistical Report of the Inter-State Commerce Commission covering the year ending June 30 1906. This report, being similar to preceding reports in the series, contains 'tables showing details of mileage, capitalization, earnings and expenses by roads, and besides includes many summaries of statistics for the roads as a whole. It should be noted that the figures are for 1906, not 1907.

### MILEAGE.

On June 30 1906 the total single-track mileage in the United States was 224,363.17 miles, or 6,262.13 miles more than at the end of the previous year. The operated mileage for which substantially complete returns were rendered to the Commission was 222,340.30 miles, including 7,865.97 miles of line used under trackage rights. The aggregate length of railway mileage, including tracks of all kinds, was 317,083.19 miles, namely: Single track, 222,340,30 miles; second track, 17,936.25 miles; third track, 1,766.07 miles; fourth track, 1,279.66 miles, and yard track and sidings, 73,760.91 miles. These figures indicate that there was an increase of 10,286.45 miles in the aggregate of all tracks, of which 3,819.24 miles, or 37.13%, represented the extension of yard track and sidings.

### EQUIPMENT.

On June 30 1906 there were in the service of the carriers 51,672 locomotives, the increase being 3,315. These locomotives, excepting 1,090, were classified as: Passenger, 12,249; freight, 29,848 and switching, 8,485.

The total number of cars of all classes was 1,958,912, or 116,041 more than for the year 1905. This rolling stock was thus assigned: Passenger service, 42,262 cars; freight service, 1,837,914 cars, and company's service, 78,736 cars. These figures do not include cars owned by private commercial firms r corporations.

#### EMPLOYEES.

The reported number of persons on the pay-rolls of the railways in the United States on June 30 1906 was 1,521,355, an increase, compared with the year 1905, of 139,159. The total amount of wages and salaries reported as paid to employees during the year ending June 30 1906 was \$900,801,-653; but this amount is deficient by more than \$27,000,000 because of the loss of railway records in the San Francisco calamity.

### CAPITALIZATION OF RAILWAY PROPERTY.

On June 30 1906 the par value of the railway capital outstanding was \$14,570,421,478, or \$67,936 per mile. Of this capital there existed as stock \$6,803,760,093, of which \$5,403,001,962 was common and \$1,400,758,131 preferred; the remaining part, \$7,766,661,385, represented funded debt, consisting of mortgage bonds, \$6,266,770,962; miscellaneous obligations, \$973,647,924; income bonds, \$301,523,400; and equipment trust obligations, \$224,719,099.

Of the total capital stock outstanding, \$2,276,801,333, or 33.46%, paid no dividends. The amount of dividends declared during the year was \$272,795,974, being equivalent to 6.03% on dividend-paying stock. For the year ending June 30 1905, the amount of dividends declared was \$237,-964,482. The funded debt (omitting equipment trust obligations) that paid no interest was \$287,954,851, or 3 82%

Of the total amount of railway stock outstanding, \$2,257,-175,799 were reported as owned by railway corporations, and of railway bonds, \$641,305,030 were so reported.

### PUBLIC SERVICE OF RAILWAYS.

The number of passengers carried in the year ending June 30 1906 was 799,507,838, or 60,673,171 more than for the year ending June 30 1905. The number carried 1 mile was 25,175,480,383, an increase of 1,375,330,947.

The number of tons of freight carried (including freight received from connections) was 1,631,374,219, an increase over 1905 of 203,642,314 tons. The tons carried 1 mile was 215,877,551,241, an increase of 29,414,441,731 ton-miles.

The average revenue per passenger per mile for the year ending June 30 1906 was 2.002 cents. For the preceding year the average was 1.962 cents. . The average revenue per ton per mile was 0.748 cents; the like average for the year 1905 was 0.766 cent. The ratio of operating expenses to earnings for the year 1906 was 66.08%. For 1905 this ratio was 66.78%.

### EARNINGS AND EXPENSES

The gross earnings from the operation of 222,340.30 miles of line were, for the year ending June 30 1906, \$2,325,765.167, being \$243,282,761 greater than for 1905. Their operating expenses were \$1,536,877,271, or \$146,275,119 more than in 1905. Passenger revenue was \$510,032,583-increase, \$37,-

The income from operation, or the net earnings of the railways, amounted to \$788,887,896. This amount exceeds the corresponding one for the previous year by \$97,007,642. The amount of income attributable to other sources than operation was \$256,639,591. There are included in this amount the following items: Income from lease of road, \$119,604,619; dividends on stocks owned, \$66,861,656; interest on bonds owned, \$20,537,011, and miscellaneous income, \$49,636,305. Total net income was \$1,045,527,487; fixed and other charges against income aggregated \$660,341 159, leaving \$385,186,328 available for dividends or surplus.

The amount of dividends declared during the year was \$272,851,567, leaving as the surplus from the operations of the year ending June 30 1906 \$112,334,761. The surplus from operations as shown for the preceding year was \$89,-043,490. The amount of deductions from income as stated above, \$660,341,159, comprises these items: Salaries and maintenance of organization, \$571,431; interest accrued on funded debt, \$322,555,934; interest on current liabilities \$11,653,076; rents paid for lease of road, \$122,290,911; taxes, \$74,785,615; permanent improvements charged to income account, \$49,042,631; other deductions, \$79,441,561.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S. -The public sales of bank stocks this week were limited to the sale at auction of a 10-share lot of stock of the Fourth National Bank at 175. No trust company stocks were sold. Shares. BANK—New York. Low. High. Close. Last previous sale. 10 Fourth National Bank...... 175 175 Nov. 1906— 212 Last previous sale.

-It is understood that the differences between Commissioner Berkey of Pennsylvania and the bankers of that State concerning the Commissioner's ruling as to depositories of trust company reserves have been satisfactorily adjusted. The fact that the meeting which had been arranged for Thursday between Governor Stuart and the committee representing the Pennsylvania Bankers' Association to discuss the Commissioner's action did not take place, having been canceled by John G. Reading, Chairman of the bankers' committee, is taken as an indication that a compromise has been reached. In fact, the Philadelphia "Press" in its issue of the 18th states that it is understood that the Commissioner has notified the interests affected that he will not enforce his recent ruling.

-Both the Lake Shore and Pennsylvania railroads run sumptuous special trains to-day from Chicago to Atlantic City to accommodate the delegations of bankers who are en route to the annual convention of the American Bankers' Association.

-The executive committee of the Clearing-House Section of the American Bankers' Association has adopted the following program for the Section meeting to be held at Atlantic City on the 24th inst:

Call to order by President Walker Hill. Roll-call.

Roll-call. Report Chairman Executive Committee, August Blum. Report Sceretary, Fred. E. Farnsworth. Address, "Exchange Charges," Sol Wexler. Call of citles represented, with general discussion and questions. Election and installation of officers for the ensuing year. Adjournment.

The Chairman's report, it is announced, will embody such recommendations and suggestions as have been submitted to the committee and which are to be considered by the Clearing Houses. The Secretary's report will review the information compiled during the past year regarding the Clearing Houses of the country, and will embody such changes as the various Clearing Houses have made in their rules regarding exchange charges. It is proposed to have the Clearing Houses of the country numbered in the same way in which members of each Clearing House are now numbered, the banks of the country to be furnished with both sets of numbers to be used in entering, listing and reporting items. A form of bank draft is to be submitted to the Section for approval.

-At the annual meeting of the Organization of Secretaries of State Bankers' Associations, to be held on Tuesday evening next at the Marlborough-Blenheim, Atlantic City, the following program will be presented:

Call to order, President S. B. Rankin. Roll-call.

P

Roll-call. Regrets. Annual address of the President. Report of the Secretary and Treasurer, Fred. E. Farnsworth. Brief Addresses: "Our Baby Association," Geo. W. Hyde, Massachusetts. "Protective Feature and Rewards." W. F. Keyser, Missouri. "Registered Mail Insurance," W. W. Bowman, Kansas. "The Association Sign and Best Method for Increasing Membership," .P. Judson, Illinois. "Fidelity Bonds and Burglary Insurance," John J. Heflin, Tennessee. "Association Work in Legislation and Taxation," by P. C. Kauffman, acoma.

Association work in Legislation and Taxation," by P. C. Kauffman, acoma. "Diversion—'Casey at the Bat,'" L. P. Hillyer, Georgia. "The Association Paper," J. W. Hoopes, Texas. "Time Locks," J. M. Dinwiddle, Iowa. "Association 'Bank Attorney, " N. P. Gatling, Virginia. "Section Plan in State Association Work," D. S. Kloss, Pennsylvania. "Group System," E. C. Brown, Minnesota. "Bank Money Orders," Volunteer. "Permanent Offices," Fred. E. Farnsworth, Michigan. Questions. Discussion. Election and Installation of Officers for the ensuing year. Adjournment.

-The new offices of the Trust Company of America, at 37-43 Wall Street, which were opened last Monday, are among the most splendidly appointed quarters devoted to banking in the city. The new building has been occupied for some time, so far as the offices are concerned, but the trust company's quarters did not reach full completion until last week. There has been little attempt at ornate display or elaborateness. The structure is of white marble with the upper stories of red brick, and is done in the Colonial style. It has a 50-foot front on Wall Street and the banking office is about 45 feet wide. The company's quarters take up the main floor, basement and mezzanine gallery, and are equipped with every modern appliance known for protection against burglary and fire. The interior is of white Alabama marble with the fittings and screens in bronze. The banking floor has a wainscoting 15 feet high, and above that the wall is ivory tinted. About the only ornate feature of the whole apartment are the capitals of the great columns on the side wall, which are decorated with a golden scroll work. The whole interior of the banking room is of Renaissance design of impressive appearance. The furniture, desks and wooden trimming are of solid mahogany. The officers' quarters occupy the Wall Street side, and adjoining is the reception room for women. The floor of the main room is mosaic, colored white and dull red, while above are stained-glass skylights. The banking room is in the shape of a double rotunda, connected by a corridor 16 feet wide. On each side there are arranged the various cages, and to the rear is a large apartment given over to the bookkeepers. From the mezzanine gallery the banking floor conveys a very handsome impression. There is an absence of obstructing pillars and the room looks big and stately. On this floor is the private office of President Oakleigh Thorne and John E. Borne, Chairman of the board of directors.

-The European-American Bank of this city, at Dey and Greenwich streets, opened its doors on Thursday, having the previous day received authority from the State Banking Department to conduct business. The bank has a capital of \$100,000 and surplus of \$50,000. It is under the guidance of B. Sherwood-Dunn, President; Frank Zotti and Charles S. Boyd, Vice-Presidents, and F. W. Knolhoff, Assistant Cashier. The board of directors is as follows: Chester Glass, Vice-President Mercantile National Bank, N. Y .; Erwin R. Graves, President First National Bank, Belleville, N. J.; Charles E. Ellis, President C. E. Ellis Company, New York; T. N. Jarvis, Vice-President Lehigh Valley RR. Co., N. Y.; William Hanhart, President Bankers' Life Insurance Company, New York; H. S. Snyder, Vice-President Bethlehem Steel Company; B. Sherwood-Dunn, banker, 37 Wall Street, New York; Frank Zotti, of Frank Zotti & Co., bankers, 108 Greenwich Street, New York; Eugene Van Schaick, of Van Schaick & Brice, 100 Broadway, New York; George W. Loft, 54 Barclay Street, New York, and Charles S. Boyd, ex-Commissioner of Public Works, New York.

-The Home Bank of Brooklyn, organized in 1905, declared this week its first dividend, being a quarterly distri bution of 2%, to be made Oct. 1 to holders of record Sept. 20

-Alvah Trowbridge, formerly prominent in banking affairs, died at his home in Hackensack, N. J., on Wednesday. Mr. Trowbridge was seventy-two years of age. He was at one time President of the North American Trust Company of this city, resigning in September 1900 to become Presi-

Digitized for FRASER http://fraser.stlouisfed.org/

Federal Reserve Bank of St. Louis

the consolidation of the Ninth with the Citizens' National Bank. In 1900 he was President of the American Bankers' Association.

-The Mercantile National Bank, Broadway and Dey Streets, F. Augustus Heinze, President, is distributing a handy desk atlas of New York City and the Metropolitan district. Altogether there are eighteen maps, including the street maps of the city boroughs and the surrounding suburbs. This useful office adjunct measures 10x13 inches, is printed in several colors on good paper and makes an acceptable souvenir. The institution was founded in 1850 and has a capital stock of \$3,000,000 with \$5,000,000 surplus and undivided profits. Associated with Mr. Heinze are: Miles M. O'Brien, First Vice-President; E. R. Thomas, Second Vice-President; Chester Glass, Third Vice-President, and Emil Klein, Cashier. . The Assistant Cashiers are Alfred W. Day and S. S. Rosenstamm.

-Charles W. Bonner, who last March was suspended for one year from the New York Stock Exchange, has been reinstated to the Exchange, the remainder of the time having been remitted.

-The Flatbush Trust Company of Brooklyn Borough has opened an office at 54th Street and New Utrecht Avenue, which will be known as its New Utrecht Branch. It is in charge of John Egolf.

-A motion for the discharge of the indictments against Albert C. Twining in connection with the failure of the First National Bank of Asbury Park, N. J., was granted by Judge Lanning in the U.S. District Court at Trenton, on the 16th inst. The motion was to dismiss the defendant "without bail and without days." The indictments involved in the order are said to be those found by the September term of the District Court in 1903, and at the September 1904 term. Judge Lanning's action, it is stated, virtually frees the accused of further prosecution.

-The Liberty Trust Company of Boston, incorporated last month, opened for business on the 10th inst. in the Sears , Building, corner Court and Washington streets. A general banking as well as trust business will be conducted by the new institution, which has a capital of \$200,000. The officials are George B. Wason, President; Melvin O. Adams, Vice-President; Allen H. Sturgis, Vice-President and Treasurer, and William H. Sumner, Assistant Treasurer.

Augustus I. Wood, heretofore First, Vice-President and Treasurer of the West Philadelphia Title & Trust Company of Philadelphia, has been advanced to the presidency, to succeed the late Henry Z. Ziegler. Christian G. Gross has been elected First Vice-President, Ralph L. Levering becomes Treasurer in addition to being Secretary, and Wesley H. Hoot has been appointed Assistant Secretary.

-The Fairmount Savings Trust Company of Philadelphia, the proposed organization of which was mentioned in this department March 23, opened for business on Monday in temporary quarters at 1415 Arch Street. The institution is under the management of John Gribbel, President; Charles Edgerton and Rufus W. Miller, Vice-Presidents; Isaac Roberts, Secretary and Treasurer, and Franklin S. Edmonds, Solicitor.

-At a directors' meeting on the 12th inst. W. J. Koch was chosen President of the new Philadelphia institution which is to operate under the name of the Mutual Trust Company. E. L. Rogers has been elected Vice-President. The company, as heretofore stated, will have offices in the Philadelphia Bourse.

-Adloph Segal, William F. North and M. S. Collingwood were jointly indicted by the Grand Jury on the 16th for the collapse of the Real Estate Trust Company of Philadelphia, which suspended in August last year, but has since been reorganized. The indictments against the first named charge conspiracy, embezzlement and the receiving of money unlawfully. W. F. North and M. S. Collingwood are indicted on the charge of conspiracy and embezzlement. There is a possibility that the indictments may be quashed. In commenting on this phase of the matter, ex-District Attorney Bell stated that "the law provides that in cases like this, if restitution is made and the individual or institution which lost the money asks for the quashing of the indictments, dent of the Ninth National Bank, which post he held until the court may quash them. Segal has made restitution.

He turned over a lot of cash and all the real estate he had, as well as his sugar refinery. That might well be considered to be sufficient."

-Announcement is made in the Philadelphia "Ledger" of the closing of the West Park Title & Trust Company of Philadelphia, an institution in process of organization. The promoters of the institution, Gillison & Co., have also, it is reported, closed their doors, having failed to meet the demands made upon them by the trust company's stockholders. The latter was to have had a capital of not more than \$250,000, in \$50 shares, which were to have been sold at \$55 or \$56 per share, to be paid for in installments of \$1 weekly. It is said that a charter had not been obtained. the promoters having stated that this would be done when 500 shares had been sold and fully paid. The option on the charter of an old unorganized bank is said to have been obtained, but was not taken over.

-William Hageman, who continues as Trust Officer of the Mercantile Trust Company of Pittsburgh, has also been made Secretary of the institution, and Edwin P. Jones has been elected Treasurer. The elections occurred as a result of the resignation of Robert R. Moore, who has become a State Bank Examiner.

-The Glass City Union Deposit Bank, the new institution organized in Jeanette, Pa., opened for business on the 9th inst. It has \$50,000 capital and is under the management of Louis R. Schmertz, President; Wilmer Dunbar, Vice-President, and William H. Frank, Cashier.

-David R. Locher, who was President of the City Savings Fund & Trust Company of Lancaster, Pa., at the time of its suspension in January 1905, was acquitted on the 10th inst. of charges of embezzlement growing out of the failure of the institution.

-With harmoniously tinted illustrations of the highest type of the photographers' art, and etchings in black and white on superior paper, the newest booklet to be issued by the Central National Bank of Cleveland easily takes high rank among the better class of literature of an advertising nature. The illustrated matter portrays various sections of the bank's exceptionally handsome quarters in the Rockefeller Building, where it occupies one-half the entire ground floor, consisting of 50 feet front by 125 feet in depth. A concise description of the offices and their furnishings likewise forms part of the contents of the pamphlet. The bank, of which Colonel J. J. Sullivan is President and C. A. Paine, Cashier, was organized in March 1890, and two months later, May 26, commenced business with \$800,000 capital. In 1905, owing to the growth in its business, it was deemed necessary to increase the capital to \$1,000,000. The institution has a surplus of \$500,000 and nearly \$100,000 more (\$96,775) in the shape of undivided profits. The deposits are \$6,575,347 and the aggregate resources are close to ten million dollars.

-A new State banking institution opened its doors in Cleveland on the 7th inst under the name of the Metropolitan Banking Company. The concern has an authorized capital of \$50,000. It is located at Superior Avenue and 105th Street and is under the management of W. A. Lincoln, President; William Duke and F. W. Long, Vice-Presidents; E. K. Hoak, Treasurer; and Francis L. Judd, Secretary.

-A. B. Voorheis has resigned as a Vice-President and director of the German National Bank of Cincinnati, Ohio, Orin N. Littell has been elected Assistant Cashier of the institution, Charles T. Mathes has become Auditor, and Charles Sindlinger has been made Manager of the Transit Department.

-The Pearl Street Market Bank, the latest banking venture in Cincinnati, commenced business on Monday, the 16th inst, at Pearl and Market streets. The capital, as stated in previous references to the institution, is \$100,000, and the officials are James Arata, President; John F. Ankenbauer and Samuel Lehman, Vice-Presidents, and R. Scott Williams, Cashier.

-John Whitworth, President of the Commercial National Bank of Sandusky, Ohio, died suddenly on the 13th inst.

-Stockholders of the Federal National Bank of Chicago met last week for the purpose of voting on a change in the

the favorite; but, owing to a few dissenting opinions, action was deferred until October 16.

-Charles Johnsen, Second Vice-President of the Lake View Trust & Savings Bank, Chicago, has been made a director to fill the vacancy caused by the resignation of Honore Palmer.

-D. Edward Jones, who for some time has had charge of the safe deposit vaults of the American Trust & Savings Bank, Chicago, has also been made Manager of the Savings Department of that institution in lieu of Edwin L. Wagner, who has become President of the new National Produce Bank in that city.

-John Worthington, Vice-President of the National Bank of the Republic, Kansas City, has resigned as a director of the Federal National Bank of Chicago. When acquiring control of this bank from President Perry and his colleagues, it was not Mr. Worthington's intention to retain a large interest. We are informed by President Brainard that a thorough reorganization is in progress, and that ere long there may be news of general interest to the stockholders and the financial community.

-The Harris Trust & Savings Bank of Chicago is doing some unique advertising. Under the caption of "How to Save," the bank advertisements contain the following paragraph:

This bank has prepared a household expense account book which is of special value to heads of families and which will materially assist any one to save regularly. Copies of the book will be furnished free upon personal application.

The readers flock in to get the book, which they find a very convenient one-being ruled into sundry columns for rent or board, groceries, laundry, clothing, fuel and light, furnishings, life insurance, church and benevolence, books, doctor, &c.; but first and foremost is the column for Savings Deposit with the Harris Trust & Savings Bank, and this accompanying injunction: "First, The savings allowance for deposit should be made as large as possible before any expenditure is made from stated income." Bankers are always seeking for methods of advertising from which they can trace actual results. The Harris Trust & Savings seems to have discovered one profitable method at least.

-The September issue of "The World To-Day" contains an interesting and instructive article on "Chicago as a Banking Centre," by Charles G. Dawes, ex-United States Comptroller of the Currency, and now President of the Central Trust Company of Illinois. We make a few extracts. The banks have barked of the seven years from April 26 1900 to May 20 1907 the banking facilities of Chicago have been largely augmented. The banks have increased in number from thirty-three to fifty-six; their capital from \$30,072,000 to \$54,600,000, or \$2%; and their aggregate resources from \$401,977,000 to \$83,225,000, or 107%. Surplus and undivided profits show an increase from \$22,811,826 to \$50,563,384, or 121.66%. Total deposits grew from \$42,2,811,826 to \$50,563,384, or 121.66%. Total deposits grew from \$42,2,811,826 to \$50,563,384, or 121.66%. Total deposits grew from \$42,2,811,826 to \$50,563,384, or 121.66%. Total deposits grew from \$42,2,811,826 to \$50,563,384, or 121.66%. The total of elearings of the Chicago banks for 1906 amounted to \$11,047,311,890, an increase over 1900 of \$4,247,776,222, or 62.46%. The first six months of 1907 show a gain of \$770,779,921 over the corresponding period of last year. The amount of money on deposit with the banks of Chicago to the last seven years and on May 20 1907 amounted to \$228,522,124. Upon these balances as a basis the banks of Chicago during 1906 shipped in actual currency through the Sub-Treasury to their correspondents in the South and West \$175,000,000, of \$20,000, of the year. tral Trust Company of Illinois. We make a few extracts.

-The name of the United States Trust Company of Davenport, Iowa, has been changed to the Security Realty Company. The latter has a capital of \$100,000, of which \$75,000 is preferred stock bearing 41/2% interest.

-The Topeka "Capital" states that the State of Kansas has received another dividend from Receiver Bradley of the First National Bank of Topeka, amounting to \$65,687. There is still, it notes, \$55,530 due to the State, which had about \$550,000 deposited with the bank at the time of its failure in 1905.

-The Fourth National Bank of Nashville, Tenn., has commemorated its fortieth anniversary in the issuance of an ornate booklet entitled "Forty Years in the Life of a Great Bank." Although the bank actually completed its fortieth year on March 5 last, it has deferred issuing the souvenir until after its removal to its new quarters in the Stahlman Building, which occurred in July. Coupled with the in-teresting facts in the bank's life is given a description and photographs of its handsome new banking rooms, adding to the value of the book as a souvenir. The Fourth National was given corporate life under the seal of the United States Comptroller of the Currency on March 5 1867. It started with a capital of \$200,000, which has since been increased to \$600,000, and it has, besides, surplus and profits of \$620,name of the bank. The Germania National seemed to be 000. The bank paid its first dividend in 1868, one year after

its organization, and it is stated that, notwithstanding the vicissitudes of time and fortune, the panic periods of 1873 and 1893, it has always earned and paid its regular dividends. Altogether its shareholders have received in dividends \$2,-453,000, and its total net earnings in the past forty years, including dividends, have been \$3,055,283. In all these years the bank has had but two presidents—the first, Judge James Whitworth, and the second and present head, S. J. Keith, who has been the chief executive since 1882. There have been four Cashiers, the post now being filled by J. T. Howell. The institution has deposits (Aug. 22) of \$5,114,512 and total resources of \$6,975,576.

-Judge U. V. Whipple on the 10th inst. refused to confirm the sale of the 768 shares of stock of the Union Savings Bank & Trust Company of Macon, Ga., to T. J. Carling. At the request of a number of stockholders who have protested against Mr. Carling's bid of \$22,500 for the stock, Judge Whipple has decided upon a re-sale. The stock, owned by the failed Exchange Bank of Macon, was offered at public auction several weeks ago.

-The consolidation of the Mississippi National Bank and the Mississippi Savings & Loan Company of Port Gibson, Miss., effected under the name of the Mississippi Southern Bank, went into operation on the 3d inst. The new bank has a capital of \$75,000 and surplus and undivided profits of \$25,000. The management is as follows: Jacob Bernheimer, President; O. A. Cason and James B. Allen, Vice-Presidents, and J. M. Taylor, Cashier.

—The Harris County Savings Bank has been organized in Houston, Texas, and will commence business about Oct. 1. The bank has a capital of \$50,000. The officers elected for its management are: James H. B. House, President; John Farmer, Vice-President, and R. F. Butts, Cashier. A twostory building will be erected by the institution at the corner of Hardy and Conti streets.

-The Comptroller of the Currency approved on the 11th inst. an application to organize the City National Bank of Galveston, Texas. The new institution is to have \$200,000 capital and is to take over the private banking business of J. W. Riddle.

-The Harbor Bank of Oakland, Cal., incorporated six months ago, commenced business on the 10th inst. The institution has an authorized capital of \$200,000, one-half of which is paid in. The par value of the shares is \$50. The surplus is \$5,000. The officers are: F. W. Bilger, President; E. R. Tutt, Vice-President, and C. B. Mersereau, Cashier.

-The International Commercial Bank of Los Angeles has been organized with an authorized capital of \$100,000, onequarter of which has been paid in. The new institution has been formed by the officers of the International Savings & Exchange Bank and the President of the latter, John Lapizich, has been chosen to the presidency of the new bank. The Vice-Presidents of this newest organization are Jules Viole, George Zobelein, L. Terrile and M. Durand.

-Newton J. Skinner has disposed of his stock in the Bank of Southern California, at Los Angeles, and has resigned as Vice-President of the institution. He is reported to be perfecting plans for the organization of a new bank in Los Angeles, of which he will be President.

-It is reported that the Commerce Trust Company will shortly be organized in San Diego, Cal., to take over the National Bank of Commerce of that city (capital \$150,000) and the Security Savings Bank & Trust Company, capital \$125,-000. The proposed corporation will have a capital of \$500,-000. Julius Wagenheim is President of the two institutions, which are to lose their identity in the new concern.

-The Tacoma branch of the Scandinavian American Bank of Seattle, Wash., has been incorporated as a separate institution under the name of the Scandinavian-American Bank of Tacoma, with \$200,000 capital. J. E. Chilberg, Vice-President of the Seattle institution, is President of the Tacoma bank. George H. Tarbell is Vice-President of the latter and A. V. Hayden is Cashier.

-The establishment of a new bank in St. Johns, Newfoundland, is planned, the name of which will be the National Bank of Newfoundland. The capital proposed for the institution is \$3,000,000, in shares of \$100 each.

### DEBT STATEMENT AUGUST 31 1907.

The following statements of the public debt and Treasury cash holdings of the United States are made up from official figures issued August 31 1907. For statement of July 31 1907, see issue of August 10 1907, page 322; that of August 31 1906, see September 29 1906, page 730.

### Monetary Commercial English News

(From our own Correspondent.)

London, Saturday, September 7 1907. Markets continue very inactive. There is a decidedly better feeling than there was a few weeks ago. But, all the This same, there is little inclination to engage in new risks. is due to several causes. During the long and painful liquidation which has now been going on almost since the beginning of the year, large numbers of persons have had to be helped, and the stock taken over, it is feared, may be thrown on the market whenever a recovery takes place. Over and above this, there is uncertainty respecting what may happen in New York. The general impression in London is that the

Messrs. Pixley & Abell write as follows under date of September 5:

GOLD.—There was a Continental order in the market this week and the price rose to 77s. 10%d. The amount available, after the Indian Bazaar and trade demands were satisfied, was about £600,000, of which about half was secured by the Continent and the other half by the Bank of England. The Bank movements are as follows: They have received £401,000 in bars, while £5,000 have been taken by South Amer-ca. Next week we expect about £55,000 from South Africa. Arrivals—Cape, £557,000; Bombay, £110,000; Australia, £14,000; total, £681,000. Shipments— Bombay, £114,500; Madras, £5,500; total, £120,000.

SILVER.—The market is 3-16d, higher on the week. On a small special order at the end of last week the quotation rose to 31 9-16d. for spot, but during the last few days, with little doing, it has fallen to 31 7-16d. There has been no feature of special interest to note except a general absence of speculative selling. The market is steady at the close. Forward sliver has been quoted 1-16d. to  $\frac{1}{6}$  d. over spot and closes at 1-16d. The Bombay quotation is Rs. 80 5-16 per 100 Tolahs. Arrivals—New York, £223,000. Shipments—Bombay, £25,000; Port Said, £650; total, £25,650.

MEXICAN DOLLARS.—Further transactions at their melting value are reported . Arrivals—New York, £202,000. Shipments—Nil.

The quotations for bullion are reported as follows:

THE CHRONICLE.

a Re-s'rve

Statement of New York City Clearing-House Banks .-The following statement shows the condition of the New York City Clearing-House banks for the week ending Sept. 14. It should be distinctly understood that as to all items except capital and surplus the figures are the averages of the daily results, not the totals at the end of the week. In other words, in reporting loans and deposits and holdings of specie and legal tenders, the practice is to take the aggregate of the amounts for the several days of the week and divide this aggregate by the number of days.

	We	omit two c	iphers (00)	in all cas	es.	
Banks. 00s omitted.	Capital.	Surplus.	Loans.	Specie.	Legals.	Deposits.

### THE CHRONICLE.

### SEPT. 21 1907.]

## Bankers' Gazette.

Wall Street, Friday Night, Sept. 20 1907.

The Money Market and Financial Situation .- The steady advance of New York City bonds to a level of 4 or 5 points above the price which the city realized for them last week is an event which has attracted attention in financial circles this week. At the same time there has been more activity and some advance in the price of two or three railway issues, notably Pennsylvania and Union Pacific convertibles, and in some quarters the matter has been looked upon as a revival of the investment demand for high-grade securities. Careful inquiry among a few of the prominent bond houses in the Street fails, however, to confirm such a theory, and, except

Street fails, however, to confirm such a theory, and, except for the movement referred to, business in all departments at the Exchange and elsewhere has been quite as dull and uninteresting as for some time past. The local money market shows little change, but it would seem that the additional Government deposits now being made should soon have a more appreciable effect. Abroad the tendency is towards easier conditions. The Bank of England reports a further increase in its percentage of reserve and in the open London market rates are sufficiently below the Bank rate to suggest the probability of a change in the latter in the near future. The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2 to 5%. To-day's rates on call were  $2\frac{1}{2}(@3\frac{1}{2}\%)$ . Prime commercial paper quoted at  $6\frac{1}{2}(@7\%)$  for endorse-ments and  $6\frac{1}{2}(@7\%)$  for best single names. The Bank of England's weekly statement on Thursday showed an increase in bullion of £480,478 and the percentage of reserve to liabilities was 51.67, against 51.28 last week. The discount rate remains at  $4\frac{1}{2}\%$ , as fixed August 15. The Bank of France shows a decrease of 500,000 frances in gold and an increase of 200,000 frances in silver. The New York City Clearing-House banks in their state-ment of Sept. 14 showed a decrease of \$861,800 in the re-serve held and a surplus over the required reserve of \$6,918,-700, against \$7,372,350 the previous week.

Less: a 1-16 of 1%. d 1-32 of 1%. h 3-32 of 1%. Plus: k 1-16 of 1%. x 1-32 of 1%. y 3-32 of 1%.

Plus: k1-16 of 1%. x1-32 of 1%. y3-32 of 1%. The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah buying, 50c. per \$1,000 discount; selling \$1 per \$1,000 premium. Charleston selling \$1 per \$1,000 premium. New Orleans bank, par; commercial, 50c. per \$1,000 discount. Chicago 15c. per \$1,000 discount. St. Louis 20c. per \$1,000 discount. San Francisco 60c. per \$1,000 premium.

State and Railroad Bonds.—No sales of State bonds have been reported at the Board this week. The market for railway and industrial bonds has been stimulated somewhat by the demand and advances in prices of New York City bonds. The aggregate transactions have been exceptionally small, however, except in the case of two or three issues, as noted above; but the tendency to higher prices is regarded as indicating a slightly better feeling in investment circles. The conspicuous features have been Union Pacific Penn-

Investment circles. The conspicuous features have been Union Pacific, Penn-sylvania and U. S. Steel issues. U. P. convertible 4s have advanced over 2 points within the week, and the others mentioned are about a point higher. Interborough-Metropoli-tan 4½s have also been strong, recovering a part of the re-cent decline, and several other issues are an average of nearly a point higher.

**United States Bonds.**—Sales of Government bonds at the Board are limited to \$11,000 4s coup., 1925, at  $125\frac{1}{2}$ . The following are the daily closing quotations; for yearly range see third page following.

\* This is the price bid at the morning board; no sale was made

\* This is the price bid at the morning board; no sale was made. Railroad and Miscellaneous Stocks.—The stock market was dull and irregular during the early part of the week, and prices generally moved within a very narrow range. On Thursday there was a firmer tone, although the volume of business was not materially increased. Prices moved up and down to-day with little apparent reason, covering a wider range than usual, but finally settled at about last night's level. Great Northern and Northern Pacific have been strong throughout the week and close about 4 points higher. Read-ing and Union Pacific continue to be conspicuously active. Both declined early in the week, but close with a net gain of about 3 points. Delaware & Hudson has made a similar record. Canadian Pacific and Missouri Pacific are the only active railway issues that show a loss. The remainder of the railway list is an average of about a point higher than last week. last week.

last week. The copper stocks seem to have reached a halt in their downward movement early this week, and have recovered, closing with a net gain. Steel preferred has declined over a point and the common is fractionally lower. For daily volume of business see page 711. The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

Duted Cigar Mirs, pref. 25 \$73/5 Sept 19 \$77/5 Sept 19 \$77 Mc 94% Jan Outside Market.—A somewhat better tone has been in evidence in the market for unlisted securities, though trad-ing, as a rule, has been dull, with but little to attract atten-tion. Standard Oil was conspicuous, the stock in the early part of the week losing 8 points to 425. Later it advanced sharply to 440 and to-day a further gain to 445 was reported. American Tobacco sold up 10 points to 240. Consolidated Steamship advanced from 27% to 3; the 4% bonds, after displaying decided weakness, sank from 24½ to 22½, recovered to 23%, and to-day jumped to 257%, with the close at 25½. Manhattan Transit went down from 4½ to 4½ and up finally to 4½. Western Ice was active and moved up from 29¼ to 30¼, the close to-day being at 30½. Chi-cago Subway developed considerable activity and from 18 advanced to 18½ and then sank to 17. Later it reached 19½, closing to-day at 19½. Copper shares were quiet. Boston Consolidated Copper, after an early decline from 17½ to 17, advanced to 19½ and ends the week at 19¼. Butte Coalition from 16¼ reached 17, but dropped back to 15½, closing to-day at 16. Davis-Daly Estates rose from 7½ to 8½. Dominion Copper fell from 4 to 3½ and re-covered to 3¼. Greene-Cananea, after fluctuating between 9¾ and 9½. Greene-Cananea, after fluctuating between 9¾ and 9½, advanced to-day to 10½, closing at 9¾. United Copper common opened the week at 49½, sank to 47½ and recovered finally to 48½. The preferred gained two points to 82, but sold down subsequently to 77. Trinity Copper dropped from 15¾ to 14½. Nipissing, after fluctu-ating between 7 and 7½, jumped to 8½ on the declaration of the regular quarterly dividend. — Outside quotations will be found on page 711.

### THE CHRONICLE.

### Investment and Kailroad Intelligence.

### RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the street railways are brought together separately on a subsequent page.

			July 1 to 1	Latest Date.		Latest Gross Earnings.			July 1 to Latest Date

Net Earnings Monthly to Latest Dates.—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of Aug. 24 1907. The next will appear in the issue of Sept. 28.

### ANNUAL REPORTS.

### Canadian Pacific Railway.

### (Report for Fiscal Year ending June 30 1907.)

The comparative income account and also the balance sheet were given in the "Chronicle" last week, p. 652. The remarks of Sir Thomas G. Shaughnessy, President, will be found at length on pages 726 to 728 of to-day's issue.—V. 85, p. 652, 599.

### Reading Company.

### (Report for Fiscal Year ending June 30 1907.)

The remarks of President George F. Baer, together with various tables showing the company's earnings, the balance sheets, &c., will be found on pages 729 to 733, while in the editorial columns is given an article reviewing the results for the year covered by the report.

Extraordinary Expenditures included with Operating Expe

Operating expenses in 1906-07 included \$514.643 for new equipment, \$724,306 having been also charged to income for additions and betterments, making a total of \$1,238,949 for extraordinary expenditures charged to income in 1906-7; in 1905-06, \$1,252,581 extraordinary items were included in operating expenses, of which \$828,027 for equipment; in 1904-05, \$541,764.--V. 84, p. 1183.

### Philadelphia Rapid Transit Company.

(Report for Fiscal Year ending June 30 1907.)

President John B. Parsons says in substance:

The point for Prescue Pear entring State 30 1901.)
President John B. Parsons says in substance:
General Results.—The gross receipts increased \$580,483, while the operating charges, licenses, taxes and fixed charges increased \$1,248,526, due to have amounts paid out in settlement of claims by the accident department. There has been considerable increase in the number of cars run daily, which materially increases the amount paid for operation.
— We determine the end of this year that portion of the Market Street Elevated Railway running from the Delaware County Terminal, at Philadelphia and West Chester Turnpike and Mill Road, to 15th and Market Street Streets was put in operation. Forty steel cars of the most approved type are used in the operation of this year that portion of the Market Street are add that could be expected from a partially completed railway.
— The total trackage of the system is 619.95 miles, divided as follows: 141 and 137 b. rail, 112.01 miles; 90 b. rail, 3827.11 miles; 77 rail, 52.34 miles of the most approved type are a shall during the year 29.48 miles on the year 20.48 miles on the specthose wave to a stating lines, &c.; 22.16 miles; 90 b. rail, 382.71 miles; 77 rail, 52.44 miles; out be rail, 382.71 miles; 77 rail, 52.44 miles; out be rail, 382.71 miles; 77 rail, 52.44 miles; out be rail, 382.71 miles; 77 rail, 52.44 miles; out be rail; 382.71 miles; 77 rail, 52.44 miles; out be rail; 38.71 miles; 77 rail, 52.44 miles; out be rail; 38.761 feet; the Barwer Plants.—The power-generating coulting the obs: (1) Closed Cars.—Single underground duct is 13.470,764 feet, or 2.172 mile; 39.761 feet; and and street, 1,008; double truck, 2 motors, 27.4 double truck, 4 motors, removaties, 4 notows, 516; double truck, 2 motors, 27.4 double truck, 4 motors, removaties, 1,008; double truck, 2 motors, 27.4 double truck, 4 motors, and cars. — Arotad Claims

In settlement of champy and the city should go far towards correcting thiss between the company and the city should go far towards correcting this evil. Contract with City.—In the early winter your board received a communi-cation from an association of the large retail merchants of Philadelphia, suggesting that something be done to improve the transit facilities of the city and looking to a betterment of the relations between the company and the citizens which are its patrons. Subsequently the form of contract pre-pared by counsel for the Retail Merchants' Association was presented to Councils in form of an ordinance, and ultimately received the approval of that body with some slight changes. On July 1 the ordinance was approved by the Mayor and this company accepted the plan and signed the contract. This action of your officers was ratified at a special meeting of the stock-holders held on July 18 1907. The terms of the contract need not be referred to in detail. The company has surrendered what it believed to be perpetual franchises, limiting its operation of the property to a period of fifty years. During this period the city is to have a representation on the board in order to safegurard its in-pany's llahility to repair and repave the streets, and it has been agreed that the building and financing of all future extensions shall be done in a manner to be approved by Councils. We believe that the contract, carried out in the spirit in which it was entered into, will inure to the growth of the city, the comfort of its citizens and the prosperity of the company. A supplementary statement shows the use made of pay-

A supplementary statement shows the use made of pay-ments' on account of capital and of proceeds of bonds sold from date of organization, July 1 1902 to June 30 1907, as follows: (Compare statement on a previous page of this issue.-Ed.)

### Railways Company General, Philadelphia.

(Report for Fiscal Year ending June 30 1907.)

President T. D. Rhodes says:

President 1. D. Rhodes Says: Inaccordance with the announcement made in this company's last report, a special meeting of the stockholders was held on Sept. 17 1906 and by action taken to create the 20,000 shares of the company's stock previously pur-chased at a discount were canceled, thus reducing the capital to \$700,000. Under the present disturbing financial conditions brought about in the main by demagogic and socialistic attacks on capital represented by cor-porations, your board has deemed it the wiser policy before paying dividends to strengthen the company's position by the accumulation of a surplus that will at all times safeguard its interests. This surplus shows a gratifying growth during the past year and the board considers the present condition and future prospects of the company most satisfactory.

### Republic Iron & Steel Co., Pittsburgh.

(Report for Fiscal Year ending June 30 1907.)

President John A. Topping says in substance:

President John A. Topping says in substance: Income.—The total income for the year aggregated \$5,027,742 and the net income was \$4,193,408, indicating a gain as against the preceding year of \$1,250,340 and \$064,246 respectively. In considering these gains attention is called to the liberal polley followed, as increased charges against earnings were absorbed on account of reconstruction, mineral depletion and extraordinary maintenance during the year amounting to \$413,095, as against the charges absorbed for the preceding year, which were on a liberal scale. After making all accessary provisions for preferred stock dividends. Int-erest on bonds and other charges, there was carried to surplus account the unount of \$2,300,062, which sum represents a gain over the amount added to surplus for the preceding year of \$990,684. From the accumulated applied to preferred dividend account, and the committee now re-ports all obligations on this account as settled in full. Motivities and in the easy disbursements on account of capital expendi-tures, the payment of regular and deferred dividends, and the liberal sums

June 30 1907.

expended for maintenance purposes, the net working assets are \$6,731,917. This sum is sufficient for present working capital purposes, and your com-pany is in a most satisfactory financial condition. While the market for all iron and steel products during the year was one of exceptional activity, but little enhancement of your finished product prices occurred. In the cruder products, however, substantial advances in prices were realized. Both volume and tonnage of business for the year was the largest in the history of the company. Improvements, cc.-The changes to manufacturing properties during the year have consisted chiefly in the cost of construction of Haselton No. 3 furnace the enlargement of Haselton furnace yards, construction of coke ovens and tenement houses at the Republic Coke Works, Republic, Pa., the improvements to the Pioneer Furnaces, South, the installation at these furnaces of Eubling casting machine, additional tenement houses at thomas quaries. The changes in land account were the acquisition of the Monica, at youngstown, Ohio, for mill purposes, sale of mill lands and other dis-connected properties not necessary to our present operations. New Property Property Total

\*Including amount written off for depreciation. \*Including amount written off for depreciation. Your executive committee is of the opinion that the policy of diversifying and extending your manufacturing operations and the development of your mineral holdings should be continued on as generous a scale as your surplus earnings, working capital necessities or finances permit. The extent of the improvements and additions since the inception of the company is shown in the following summarized statement:

Application of \$11,253,535 for Additions and Improvements from Organiza-tion of Company\_(May 3 1899) to June 30 1907.

Northern District—	Southern District—
	Blast furnaces\$1,625,003
	Coke ovens at blast furnaces 176,917
Rolling mills 1,410,600	
	Rolling mills 130,486
	M nes and coke ovens 986,565
	Limestone quarries 108,736

### Coal Reserves, Aggregating 199,654,300 Tons.

as follows: Active Properties.—Rolling Mills and Factories. Inland Works, East Chicago, Ind. Corns Works, Massillon, O. Brown-Bonnell Works, Youngstown, O. Mahoning Val. Works, Youngstown, O. Youngstown Steel Wiss. Youngstown, O. Birmingham Works, Birmingham, Ala. |Shafting Works, Youngstown, O. Blast Furpages (in all 0 stafes)

Birmingham Works, Birmingham, Ala, Shafuhia Works, Gate City, Ala, Birmingham Works, Birmingham, Ala, Shafung Works, Youngstown, O. Blast Furnaces (in all 0 stacks).
 Haselton (3 stacks), Youngstown, O. Hall (1 stack), Sharon, Pa. Alamah (1 stack), Youngstown, O. Hall (1 stack), New Castle, Pa. Pioneer (3 stacks), Thomas, Ala.
 Miscellaneous Properties.—Substantial interests are also held in the following named properties, which are operated in connection with other properties. For Co., Mahoning Ore & Steel Co., Union Ore Co., Antoine Ore Co., Lake Erle Limestone Co., Union Dock Co., Mahoning & Shenang Dock Co., Cambria Steamship Co., French Transportation Co., Sharon Connecting Rallway and General Water Co. The interest in the Croton Limestone & Brick Co. was disposed of during the year.
 Labor and Employment.—Labor rates have been and are now on an advancing scale of cost. The large increase in number of common laborers used in connection with construction and reconstruction work has, however, brought down the average earnings per man.

Westinghouse Air Brake Company. (Report for Fiscal Year ending July 31 1907.) An official statement says:

An official statement says: As shown by the accompanying inancial statement, the net sales for the fiscal year aggregated \$11,230,409, with a net profit of \$4,245,082 from all sources. This very favorable result, due to the larger volume of busi-ness, the introduction of improved brake appliances mentioned in previous reports, and to the increasing diversity of the company's manufacturing and collateral interests, has been achieved without advancing the price of the company's product, and notwithstanding further increases in the cost of raw material. The annual inventory still shows the effect of an advancing market for purchased stores, because of which \$75,000 has been added to the "depre-citation reserve tund" established several years ago for inventory adjust-ment. It is thought that this fund is now amply large to protect the com-pany from any loss due to shrinkage in inventory values, even if continued through several successive years. Following the policy that has obtained heretofore in periods of prosperity, the board has authorized charges ag-gregating \$393,243 for depreciation, which approximates the amount ex-pended during the year for new machinery, extrasions to buildings and gen-eral betterments. This course means the maintenance of the plant at the Mignest possible level as regards capacity and efficiency, with only a very moderate increase in capital account.

During the period under consideration the company's position in the traction brake business has been strengthened by the purchase of securities of other companies operating in the same field, which accounts for the increase of asset items including these investments. The latest annual reports of the various Assoclated Companies show excellent results for their respective fiscal years, and as a whole the company's interests are in a very gratifying condition. In this connection the American Brake Co. of St. Louis and the Canadian Westinghouse Co., Limited, are deserving of special mention. At its meeting of Sept. 11 1907 the board of directors declared a regular dividend of 2½ % and an extra dividend of 2½ %, making total cash dividends of 20% for the year. The board furthermore adopted a resolution recommending the increase of the capital stock from \$11,000,000 to \$14,000,000 and the payment of a stock dividend of 25% thereform. The approval of this recommendation at the annual meeting to which it will be submitted for consideration will be followed by the call for a special meeting of the stockholders required by law to authorize the proposed lincrease.

Albany & Susquehanna RR.-Favorable Decision .-Albany & Susquehanna RR.—Favorable Decision.—Judge Holt in the United States Circuit Court yesterday, in the suit of the Aetna Insurance Co., as a stockholder of the Albany & Susquehanna, against the Delaware & Hudson Co., decided that the complainant is entitled to recover its share of \$23,-896 accrued rental money and of whatever sums were saved by the refunding of the bonds which matured April 1 1906. The exact amount of the savings, somewhat over \$1,000,000, is in dispute, and the Court suggests that a referee be ap-pointed to determine it. One of the stockholders' protective committee savs: -Judge committee says:

committee says: The decision against the Delaware & Hudson Co. in favor of stockholders in the Albany & Susquehanna RR. Is of the most sweeping character. The item of something over \$1,000,000 of arrears which is now awarded to the holders of \$3,500,000 of stock is only a part of the case. Besides this, the Delaware & Hudson Co. now comes under the obligation to pay divi-dends on Albany & Susquehanna stock at the rate of  $12 \frac{1}{2} \%$  a year instead of the 9% which it has been paying since 1903 and 7% which it paid before that time. If capitalized at the ordinary rate of return upon guaranteed stocks, the value of the decree to the Susquehanna Co. would be about \$4,500,000.

See basis for claims of committee in V. 83, p. 1036, 968.

American (Electric) Railways, Philadelphia.—Report of Holding Company.—The statement for the fiscal year ending June 30 shows gross receipts of the controlled companies \$2,855,320, against \$2,610,277 in 1905-06. The results for the American Railways are as follows:

Year-	Receipts.	Expenses.	Bond Int.	Div. (6 %).	Surplus.
1906-07	\$527,062	\$19,968	\$122,535	\$304,392	\$80,167
1905-06	486,711	19,706	121,775	251,385	93,845
1904-05	444,254	58,774	121,983	234,742	28,755
V &A n 15.	10				

Aurora Elgin & Chicago (Electric) BR.-First Dividend on

Aurora Elgin & Chicago (Electric) RR.—First Dividend on Common Stock.—The directors have declared an initial quar-terly dividend of 34% on the \$3,100,000 common stock, putting it on a 3% basis; also a regular quarterly dividend of 14% on the \$3,100,000 preferred stock, both payable Oct. 7 to holders of record Sept. 25. Compare V. 84, p. 101. Bald Eagle Valley RR.—Plan Operative.—Treasurer Tat-nall of the Pennsylvania RR. gives notice that a satisfactory amount of the Bald Eagle stock has been deposited under the offer of exchange of July 10, and that the plan is there-fore declared operative. On and after Oct. 1 next, upon sur-render of the negotiable receipts issued to the Bald Eagle Valley stockholders, the Pennsylvania RR. Co. will be pre-pared to deliver 3 shares of its stock and \$50 cash for each share of the Bald Eagle Valley stock. CompareV. 85, p. 344, 98. 344, 98.

**Baltimore Terminal Co.**—Bonds.—The company has made a first mortgage to the Citizens Savings & Trust Co., Cleve-land, O., as trustee, to secure not exceeding \$2,500,000 5% gold bonds of \$1,000 each, dated March 1 1907 and due March gold bonds of \$1,000 each, dated March 1 1907 and due March 1 1927, but subject to call as an entire issue at 110 and interest on March 1 1917 or March 1 1922. Of these bonds \$1,250,000 are outstanding, guaranteed principal and inter-est by the Washington Baltimore & Annapolis Electric Ry. The mortgage covers about 4½ miles of double-track ter-minal road for the Washington Baltimore & Annapolis Elec-tric Ry., which expects to begin operating between Nov. 15 and Dec. 15 1907.--V. 83, p. 625. Bullfrog Goldfield BB — Decision-Further Faste Mon

and Dec. 15 1907.---V. 83, p. 625. Bullfrog Goldfield RR.-Decision-Further Facts.-Men-tion was made recently of the decision of Judge Archbald in the United States Circuit Court for the Eastern District of Pennsylvania, upholding the agreement by which the Tonopah & Goldfield Railroad Co. guarantees \$1,250,000 bonds of the Bullfrog Goldfield RR. in exchange for a controlling stock interest. Condensed extracts from the decision of Judge Archbald, which was rendered Aug. 30, say in substance:

which was rendered Aug. 30, say in substance:

This is a bill to prevent the consummation by the defendant company of a projected agreement by which it is proposed to guarantee the bonds of the Goldfield & Builfrog RR. (the correct name is Builfrog-Goldfield RR.— Ed.) to the amount of \$1,250,000 in exchange for 51 % of the capital stock of that company of the face value of \$637,500. The complainant holds 22.4 shares of stock of the par value of \$2,240 out of a total of 21,500 shares, and stands alone in his opposition to the agreement, although it is said that one or two others, while not joining in the suit, are in sympathy with it.

With it. The complaint is that the Bullfrog extension was so manifestly a paying proposition from the start that the directors should either have seen to it that the company bulit the road itself, or if that was not practicable and it

<text><text><text><text><text><text><text>

No immediate financing is contemplated, and the details of the \$1,250,000 bonds are not available. Chas. D. Barney & Co., Philadelphia, are interested.—V. 85, p. 598.

& Co., Philadelphia, are interested.—V. 85, p. 598. **Central of Georgia Ry**.—*Certificates Ready*.—The commit-tee representing dissatisfied holders of second and third income bonds gives notice that engraved certificates of de-posit may be had from the Central Trust Co. and the Man-hattan Trust Co. in exchange for temporary receipts issued under the protective agreement dated Sept. 6 1907. Appli-cation will be made to list the certificates on the New York Stock Exchange

cation will be made to list the certificates on the New York Stock Exchange. The committee announces by advertisement on another page that the protective agreement dated Sept. 6 1907 has become operative by the deposit of more than the requisite number of bonds. The time for deposit of the second and third incomes has been extended to and including Sept. 27, -V. 85, p. 653, 599.

Central RR. of New Jersey.-Report.-For the year ending June 30:

une Fiscal Year-

Chicago Burlington & Quincy RR.—Consolidation.—The shareholders will vote Nov. 6 on merging in the company the following subsidiary concerns, all of whose securities are owned by it:

Republican Valley Kansas & S. W. RR., Republican, Neb., et Obs. 78 Iln, Kan. 78 This step will change the company's \$24,505,000 Nebraska extension 4% bonds of 1927 from chiefly a collat-eral issue into a direct first mortgage loan, ten of the fore-going lines, representing a total of about 1,471 miles of road, heretofore covered by the Nebraska extension mortgage only through deposit in trust of their \$23,494,200 bonds, being brought under the direct lien of the mortgage, along with 297 miles already owned.-V. 85, p. 599, 39. Chicago City Ry.-Possible Acquisition.-See Chicago Railways below.-V. 85, p. 529, 39. Chicago Great Western Ry.-Omission of Preferred "A"

Chicago Great Western Ry.—Omission of Prejerred "A" Dividend.—Vice-President Oppenheim is quoted as saying: In regard to the preferred "A" dividend, the finance committee at first thought it would declare the regular dividend, but later the members changed their minds, as they did not want to pay out in a dividend money that had not been earned.

President A. B. Stickney is reported to have said:

We will not pay out in dividends what is not earned. We have earned something on the A stock, but not the regular dividend. The question is whether we should pay anything, under the circumstances. Even if no dividend is declared, the stockholders will have had 2½% this year.—V. 85 p. 599, 344.

Chicago General Ry.—Foreclosure Sale.—The property will be offered for sale at the Real Estate Board auction rooms in Chicago on Sept. 30 by Stillman B. Jamieson, Master in Chancery, in pursuance of a decree in favor of the Merchants' Loan & Trust Co., trustee. Upset price \$1,000,000. The property was deeded some time ago to the Southern Street Ry., subject to the foreclosure proceedings against the Chicago General Railway Co. See p. 23 of "Street Railway Section."—V. 79, p. 2642.

 During each of the fiscal years there were paid dividends of 4% (\$200,000) on the preferred stock and 3% (\$315,000) on the common stock, leaving balance, surplus, of \$480,026 in 1906-07, against \$682,637 in 1905-06 New Director.—Lewis W. Parker of Chicago has been elected a director to succeed Gilbert B. Shaw.—V. 84, p. 101.

Chicago Railways.—Notice to Holders of Old Securities.— The reorganization committee (V. 85, p. 529, under date of Sept. 13, urges the holders of securities in the followingnamed companies

named companies— West Chicago Street RR. Chicago Passenger Ry. Co. Chicago West Division Ry. Co. West Chicago Street RR. Tunnel Co. West Chicago Street RR. Tunnel Co. Who have not deposited their holdings under the plan of reorganization and re-adjustment approved by Judge Peter S. Grosscup of the United States Circuit Court, and Professor John C. Gray of Harvard University, in do so immediately in order to protect their interests. (See plan in V. 85, p. 529.) An advertisement on another page of this issue says: Attention is called to the fact that the time for the accentance of the

An advertisement on another page of this issue says: Attention is called to the fact that the time for the acceptance of the ordinance of Feb. 11 1907 by the Chicago Railways Co. has been extended. The request for this extension was presented and strongly supported by a number of the trust companies who are trustees for mortgages securing bonds on the above-named companies, or some of them, and of various other inancial institutions interested and thoroughly acquainted with the proving and imminent danger of large loss and the crisis which confronts the holders of the above mentioned securities. These institutions recommended to the city authorities the granting of the extension (to quote their letter): The order to enable bondholders and other parties interested and concerned in the situation to have a rea-sonable opportunity of alding, to the utmost extent of their power, and proceeding with all possible diligence and in the highest good faith, the Chicago Railways Co. to accept said ordinance. It is provided in the ordinance granting the extension that no further retension be granted, but that at the expiration of the time named the Mayor of the city shall take possession of the streets served by the street railway Co., and that that company shall thereupon become vested with all the rights and privileges of the Chicago Railways Co. under the ordinance of Feb. 11 1907. The situation is grave and self-interest should prompt an immediate and hearty compliance with this notice. Substantial amounts of each class of the accurate involved have already been deposited in acceptance of the plan. Compare V. 85, p. 653. Chicago Terminal Transfer RR.—Plans for Joint Occupa-

Chicago Terminal Transfer RR.—Plans for Joint Occupa-tion.—The "Boston News Bureau" of Sept. 13 said:

Although no official information on the subject is forthcoming, there are good reasons to believe that the plans for a joint occupation of the Chicago Terminal Transfer property by the Burlington and the Baltimore & Ohio are being worked out satisfactorily and with the full approval of all the interests concerned. There is little question that, when con-ditions are favorable, a bond issue of the Terminal company will be brought out to relieve the Baltimore & Ohio of the \$17,000,000 burden it assumed in the purchase of the Terminal company's bonds to protect its lease. --V. 85, p. 405, 283.

V. 85, p. 405, 283.
Cleveland Akron & Columbus Ry.—Dividend Rate Increased.—This company, \$2,237,500 of whose \$4,000,000 capital stock was acquired in 1899 by the Pennsylvania Company, has declared a semi-annual dividend of 2%, payable Sept. 25 to holders of record Sept. 14, thus increasing the annual rate to 4%, contrasting with 2% from Sept. 1901 to Sept. 1905 and 3% from March 1906 to March 1907. -V. 85, p. 215.

Danville & Eastern Illinois Ry.-See Illinois Traction Co. **Detroit Toledo & Ironton Ry**.—*Report*.—The results of operations of the Detroit Toledo & Ironton and the Ann Arbor separately and of the joint operations of the two com-panies for the fiscal year ending June 30 compare as follows:

Fitchburg RR.—Bonds, &c.—The shareholders at the annual meeting on Sept. 25 will vote on the following:

Fitchburg KK. —Bonds, &c. —The shareholders at the annual meeting on Sept. 25 will vote on the following:

To rescind their vote passed at the meeting held Jan. 30 1907, which authorized the issue of \$2,900,000 bonds.
To authorize the issue of \$2,900,000 bonds to provide for the refunding of bonds to the amount of \$2,000,000 maturing May 1 1908; to provide means for the construction of a second track from Johnsonville to Troy, and for other permanent additions and improvements upon the property ander the terms of the lease to the Boston & Maine PR.
To accept an Act of the Legislature of Msachusetts authorize the suce of approvements of 1907, and to authorize the same of the Street Railway Co. Approved May 16 1907, and to authorize the suce of preferred stock and bonds of this company to an amount sufficient to provide means for payment for the same. —V. 84, p. 1366.

Fitchburg & Leominster Street Ry. —New Stock. —The Massachusetts Railroad Commission has sanctioned an issue of 2,500 additional shares of capital stock at not less than \$110 per share (par \$100) to provide for floating debt incurred for construction and equipment. This will increase the stock to \$700,000. —V. 85, p. 468.
Illinois Traction Co. —Guaranteed Bonds. —See Springfield & Northeastern Traction Co. and Madison County Light & Power in V. 85, p. 655.
Increase of Stock by Reported Allies. —A press dispatch from Springfield, Ill., Aug. 16, said:

Digitized for FRASER http://fraser.stlouisfed.org/ Federal Reserve Bank of St. Louis The McKinley syndicate has increased the capital stock of itwo of its railroads. A certificate was filed with the Secretary of State to day of an increase in the capital stock of the Springfield Bell Railway Co. from \$5,000 to \$500,000. This company is to construct a belt railroad from the inter-urban's line east of Springfield, to connect with the line south of the city limits, in order that it will not be necessary to run express cars through Springfield. The Danville & Eastern Illinois Railway Co. certified to an increase of capital stock from \$5,000 to \$500,000. This road is to be built from Danville to Terre Haute, Ind. -V, 85, p. 99.

**Ione & Eastern RR.**—*Receivership*.—John Raggio, a banker of Stockton, Cal., was on Sept. 10 made receiver of the property on application of the Union Trust Co. of San Francisco, the mortgage trustee, interest on the \$340,000 (or possibly \$360,000) bonds being in default. The road is a steam line extending from Ione to Martell, Cal., 12 miles. V. 81, p. 264.

Iowa Central Ry.—New Director.—A. C. Doan was recently ected director, to succeed George Crocker.—V 83, p. 35, 626. elected 965, 626.

965, 626.
Joliet Plainfield & Aurora BR.—See Joliet & Southern Traction Co. below.—V. 82, p. 334.
Joliet & Southern Traction Co.—Bond Issue.—This company, which is operating the Joliet Plainfield & Aurora RR. (see page 48 of "Street Railway" Section), has made a mortgage to the American Trust & Savings Bank of Chicago, as trustee, to secure an issue of \$1,500,000 5% gold bonds due in series, the last maturing 1942.

The new bonds, it is understood, will be issued chiefly to finance the con-struction and equipment of new lines, including those for which the Fisher Construction Co. has the contract. The Traction Company has \$1,500,000 of authorized capital stock and the officers are: H. A. Fisher, President; John M. Raymond, Vice-President; J. K. Newhall, Secretary: L. D. Fisher, Treasurer and Chief Engineer. Office, Joliet, Ill. The officers of the Construction Company are F. E. Fisher, President, and F. E. Stoddard, Secretary.

National RB. of Mexico.—Maturing Notes.—A majority of the holders of the 5% notes maturing Oct. 1, having ac-cepted the terms for extension (see "Chronicle," Sept. 7, page 601), it is announced by Speyer & Co. that the privi-lege is extended to the 26th inst.—V. 85, p. 601, 99.

New York Central & Hudson River RR.—Regular Dividend Declared—Change in Dates for Closing of Books.—The direc-tors on Wednesday declared a regular quarterly dividend of 1½%, payable Oct. 15 on stock of record Sept. 30. The annual rate was increased from 5% to 6% last January and some doubt has recently been felt as to the continuance of the 6% basis the 6% basis.

There are now, it is understood, more than 15,000 shareholders on the New York books (not counting some 3,000 foreign holders), and on account of the elerical work involved in distributing dividends it was yoted on Wednesday to close the books for the dividend twenty days before the date

of payment, i.e., on or about the 25th of March, June, September and December, the distributions being made at present on the 15th day of April, July, October and January.—V. 85, p. 346, 40.

New York New Haven & Hartford RR.—Boston & Maine Deal.—President Mellen has written a letter to the Economic Club of Boston in which, referring to the control of the Boston & Maine, he says in substance:

Boston & Maine, he says in substance: "The present position in which this matter lies is not unsatisfactory to me; and it is not my desire it shall be changed until my company can control the Boston & Maine with the good will of the public interested." Mr. Mellen's position, it is understood, is that the block of 120,000 shares or more of B. & M. stock held in the interest of the New Haven road suffices to prevent the acquisition of the B. & M. by antagonistic interests, while at the same time leaving the management and operation of the two systems independent.—V. 85, p. 654, 469. preceding page. Annual Meeting.—In a statement made meeting on Sept. 18 President Parsons said: -In a statement made at the annual

meeting on Sept. 18 President Parsons said: The company has been constantly the subject of suggestion, criticism and dispute for nearly a year past. The wave of unrest and socialistic clamor which is passing over the country has hit the public service corpora-tions harder than any other class. If the company is conducting its busi-mess in a manner satisfactory to 95 % of the public, that 95 % is never heard from, but the 5% dissatisfied resolves itself into committees suggesting impossible and impracticable schemes. At the present time the city is in a turmoil, particularly over the fare question. In twelve years the average rate of fare has been reduced from 4.83 cents to 3.68 cents per passenger. Some stockholders are inclined to criticize this reduction and point to the fact that, had the old fare been main-tained, the receipts would now be sufficient to warrant a return upon the capital invested during the last four years. In reply to queries President Parsons, it is stated, fur-nished the following information (in round figures): Cost of elevated road from the portal at 22d St. to 69th St., in-

 Other cost, including cass, engineering iterativation of abolish 1,400,000

 &c.
 1,500,000

Washington Frederick & Gettysburg (Electric) Ry.—Bond Issue.—This company on May 6 1907 filed a mortgage to the Baltimore Trust & Guarantee Co. of Baltimore, trustee, to secure an issue of \$400,000 first mortgage 5% gold bonds covering the proposed railway from the District of Columbia line to the Pennsylvania line just above Emmitsburg. These bonds are dated May 1 1907 and will mature May 1 1937, but are subject to call on any interest date at 105 and interest on 60 days' notice. Interest payable Nov. 1 and May 1 at office of trustee. Denominations \$100, \$500 and \$1,000.

bonds. The "Baltimore Sun" of May 7 said: This issue of bonds will be used in connection with the stock subscrip-tions to build and equip about 25 miles of road now under construction from Frederick to Emmitsburg by Thurmont. This road is being constructed standard gauge throughout and its charter permits either steam or elec-tricity. The railroad traverses one of the most picturesque and fertile sections of Frederick County, passing through the well-known Monocacy Valley. Six miles of the road has been graded and made ready for the track. That portion of the road between Frederick and Lewistown will be in operation about Aug. 1. The line between Frederick and Thurmont will be completed by the middle of November. The directors are: D. Columbus Kemp, President; Dr. Franklin Buchanan Smith, Treasurer; Gen. Victor L. Baughman, C. Werthelmer, Judge Motter, Dr. Thomas Miller, D. C. Winebrenner and Dr. Phaney, of Frederick, Md.; William H. Ramsburg, Charles Ramsburg and Alexander Ramsburg, of Lewistown; John Stoner of Thurmont; D. Annan of Emmits-burg. Charles C. Waters is Secretary.—Ed.].

#### INDUSTRIAL, GAS AND MISCELLANEOUS.

Amalgamated Copper Co.-Further Fall in Price of Copper Amalgamated Copper Co.—Further Fall in Price of Copper —Reduction in Output.—The price of electrolytic copper was on Sept. 17 reduced on the New York Metal Exchange cents bid. On the same day the directors of all this com-company's subsidiaries authorized a curtailment in produc-tion to an' extent, necessary to meet the overstocked condi-tion of the market. The Cole-Ryan companies, including the North Butte, the Butte Coalition and the Greene-Cananea, it is said, have also determined upon a 50% reduc-tion in their output, and other companies are taking similar action.—V. 85, p. 655, 162. American Agricultural Chemical Co.—New Directors

American Agricultural Chemical Co.—New Directors.— A. B. Hepburn and W. J. Brennan have been elected direc-tors to succeed W. H. Burtenshaw and W. C. Noyes, who resigned.—V. 85, p. 403.

resigned.—V. 85, p. 403. **American Sewer Pipe Co.**—Dividend Reduced.—A quar-terly dividend of  $\frac{1}{2}$  of 1% has been declared on the stock payable Oct. 1 to holders of record Sept. 21, comparing with  $\frac{3}{4}$  of 1% quarterly paid from July 1904 to July 1907, in-elusive. The directors issued the following statement: In order to carry out the policy adopted by the board of directors some months since, having for its object the retirement of a portion of the capital stock of the company, it is believed the interests of the stockholders will be best conserved by a dividend of 30 cents per share at this time. The company, it is said, has purchased since February last in the open market about \$500,000 of its stock and intends to acquire an additional \$305,000, reducing the amount outstanding to \$7,000,000.—V. 84, p. 692. **American Steel Foundries**.—Report.—See "Annual Re-

American Steel Foundries.-Report.-See "Annual Re-

American Steel Foundries.—Report.—See "Annual Reports" on a preceding page. Dividend Prospects, Proxies, &c.—Swartwout & Appen-zellar, 40-42-44 Pine St., New York, in a circular say: The result of the year's operations is in every respect gratifying, and the management is to be congratulated. Our previous estimates as to net earnings have been borne out, and we are more than ever convinced that the company is in a position limmediately to begin the payment of the full 6% dividend on the preferred stock. Cash on hand on July 31 amounted to over \$770,000, and the working capital was shown to be in excess of 55,000,000, with the company owing nothing for borrowed money. If any criticism of the statement might be made, it would be that too generous charges were made during the year and included in manufacturing cost. One them alone of \$974,190 was charged to maintenance, &c. out of manufacturing costs, although liberal provision for depreciation had been separately taken care of. Attention might also be called to the fact that of the small bond issue of \$3,500,000 put out two years ago, the company mas already purchased and holds in its treasury \$741,121. Mr. Kelley's own recommendation in his report that dividends be begun, and personal assurances which we have had as to the general opinion now held by the board regarding such payment, satisfy us that an initial dividend at the rate of 6% on the preferred will be declared at the October meeting of the board of directors, distributing earnings of the proxes of the stock-holders, belleving that their best interests can be served by our representa-being and board of directors, distributing earnings of the proxes of the stock-holders, belleving that their best interests can be served by our representa-board of directors, distributing earnings of the proxes of the stock-holders, belleving that their best interests can be served by our representa-board of directors. Distributing earnings of the proxes of the stock-holders, belleving t

Toronto, on Dec. 12, \$450,000 stock. This will increase the amount outstanding to \$3,250,000.-V. 84, p. 1430. **Diamond Match Co.**—New Vice-President.—A. M. Mow-ray, for several years identified with the company, has been elected Vice-President, to succeed Russell Hawkins, who re-signed.—V. 85, p. 163. **Dominion Coal Co.**—Decision on Contract with Steel Co.— Judge Longley at Sydney, Nova Scotia, on Sept. 16 handed down a decision favorable to the coal company in the pending controversy over the contract of Oct. 20 1903, expiring 1992, providing for a supply of coal to the Dominion Iron & Steel Co. at \$1 24 a ton, with 4 cents per ton for the use of the cars. The contract provided that the steel company should not demand more coal than was necessary for the operation of four blast furnaces and the conversion of the product into various forms of steel manufacture, the coal to contain a sufficiently small percentage of sulphur and ash to make it conform to the necessary conditions of iron and steel pro-duction. The Steel Company notified the Coal Company that it would require 80,000 tons a month, beginning April 1 1906, when the third blast furnace was placed in oper-tion. An appeal will be taken to the full bench of the Supreme Court of Nova Scotia, which meets Nov. 19, and thereafter, if necessary, to the Privy Council at London, England. The Court makes the following findings: England

Supreme Court of Nova Scota, which meets Nov. 19, and thereafter, if necessary, to the Privy Council at London, England.
 The Court makes the following findings:

 As to the failure to supply sufficient coal during August, September and October 1907, I think a referee should be appointed who should ascertain how much coal it was necessary for the steel company to purchase in these three months to operate their works, and the cost of such coal delivered at their works, and the difference between such cost and the contract price (\$1 24) should be paid by the coal company to the steel company. The referee should also inquire into the question of any damages which the steel company sustained by reason of non-delivery of sufficient coal apart from the additional cost of coal.
 The referee should also inquire into the cost of coal obtained by the steel company sustained by the coal contact price (\$1 24).
 and all sums so paid in excess of \$1 24 should be repaid by the coal company to the steel company sufficient coal suitable for the operation of its works, the works were suspended. The referee should ascertain the actual loss and damage which the steel company sufficient coal company to price with the case. Is the issuing of a decree requiring the coal company to perform the terms of accertain the admages for a period so long as the term during which this contract is to be in force seems to me an undestrable remedy from every point of view.
 The refere and chamages of a 30 the referee. An odde period so long as the term of a work admages for a period so long as the term of a work damages. Nove, the appoint of view.

Gulf Compress Co. — Injunctions. — Chancellor J. S. Hicks at Vicksburg, Miss., on Sept. 14, in a suit filed by District Attorney Jas. D. Thames of the Ninth District, charging violation of the State anti-trust laws, granted an injunction prohibiting the defendant from doing business in Mississippi. The company is organized under the laws of Tennessee and operates under lease, other contract or ownership, compresses for the compressing of cotton in bales and weighing and storing cotton. Located in Mississippi. 2 at Meridian. 1 at Corinth. 1 at Tupelo, 1 at New Albany. 1 at Greenville, 1 at West Point. 1 at Continuous and 1 at Vicksburg. Penalties under Section 5004 of the Missispipi Code of 1906 are asked for, amounting to \$1.825.000, or 365 violations at \$5000 each, from Sept. 1 1906 to Sept. 1 1907. The application for a receiver was to be decided this week.
 Harbison-Walker Refractories Co., Pittsburgh. —First Dividend on Common State. —The directors on Sept. 17 declared

1.320,000, of 305 violations at \$5,000 each, from Sept. 1 1000 to Sept. 1
1.1007. The application for a receiver was to be decided this week.
Harbison-Walker Refractories Co., Pittsburgh. —First Dividend on Common Stock. —The directors on Sept. 17 declared a first (quarterly) dividend of one-half of 1% on the \$18,-000,000 common stock, payable Oct. 1 to stock of record Sept. 20. The "Pittsburgh Gazette" of Sept. 14 said: The requirements of the Harbison-Walker common dividend at the rate of 2% will be \$360,000 a year, there being \$18,000,000 of \$777,955, which increased the total surplus to \$2,016,000. The company also retired \$175,000 bonds during the fiscal year and in November last paid off the deferred dividends on the preferred stock, amounting to \$250 a share. Compare V. 83, p. 1227, 1232.

Harlan & Hollingsworth Corporation, Wilmington, Del.— Offering of Guaranteed Notes.—See Bethlehem Steel Corpora-tion above.

International Mercantile Marine Co.—Rates Further Re-duced.—This company on Sept. 17 announced the following

reduction in rates, effective both east and west bound, on

reduction in rates, effective both east and west bound, on and after Nov. 1: Express service by White Star Line to Southampton, on the Adriatic from \$85 to \$62 50; Oceanic, from \$90 to \$67 50; on the Majestic and Teu-tonic, from \$75 to \$52 50. On the Liverpool route the fares will be reduced from \$80 to \$57 50 on the Baltic, Cedric and Celtie, and from \$55 to \$50 on the Arabic. American Line to Southampton, from \$75 to \$52 50. Atlantic Transport Line from New York to London: Minnehaha, Minne-tonka and Minneapolis, from \$65 to \$50, and on the Mesaba from \$55 to \$50.—V. 85, p. 656.

p. 870.

Lindsay Light Co., Chicago.—Status.—This company, whose \$10 shares were recently listed on the Chicago Stock Exchange, has furnished the following particulars:

EXchange, has furthished the following particulars: Financial Results for Years Ending May 31. 1905-07. 1905-06. 1904-05. 1903-04. 1902-03. Sales of mantles\_ 6,075,579 4,795,697 3,464,600 2,000,000 x800,000 Gross earnings... \$671,565 5550,516 \$5506,512 \$264,625 \$126,970 Net profits.... 89,025 47,734 28,846 25,787 9,907 x Estimated. The company has been paying since June 1 1907 3½ % monthly divi-dends, and expects to continue this ratio. There was a re-issue of stock June 18, the capital at that time being increased from \$100,000 to \$200,000 and the par value of the stock reduced from \$100 to \$10 per share. The latter part of the season of 1906 5% was paid monthly. Balance Shed June 1.

them is pronounced a mistake.—Ed.] Massachusetts Gas Companies.—Earnings of Subsidiary.— The earnings of the Boston Consolidated Gas Co. given last week (page 656) do not, it is stated, include the operations of the electric department. Including the electric business, the surplus after dividends would be \$121,974, instead of a deficit of \$19,964 as shown in the statement published. —V. 85, p. 656, 349. Magina & Orient Termetic Gas Deministry of the

Mexico & Orient Townsite Co.—Description of 7% Col-lateral Notes.—The \$850,000 7% collateral notes which are being placed in order to provide funds for the completion of the Kansas City Mexico & Orient Ry. are officially described as follows:

as follows: The company owns all the valuable townsites along the Kansas City Mexico & Orient Railway. The bonds are \$500 each and draw 7% interest from date of purchase. The purchaser receives an additional 5% interest trom date of purchase. The purchaser receives an additional 5% interest trom date of purchase. The purchaser receives an additional 5% interest trom date of purchase. The purchaser receives an additional 5% interest trom date of purchase. The purchaser receives an additional 5% interest trom date of purchase. The purchaser receives an additional 5% interest the retiring of the bond. Interest payable Jan. 1 and July 1. Issue secured by (1) deposit with the United States & Mexican Trust Co. of \$850. (2) by the guaranty of the International Construction Co., capital \$300. 000; (4) income from sale of town lots to be deposited with United States & Mexican Trust Co., the sales of which during the last 24 months aggregate \$455, 343. Amount estimated to be realized from these sales, \$6,000,000. Was income for the sale of the sale of the town lots to be deposited with United States & Mexican Trust Co., I he sales of which during the last 24 months aggregate \$455, 9, 349 Mexican defined for Co. Liquidation A Porton page mean fully

National Car Co.-Liquidation.-A Boston paper recently

had the following: The National Car Co. has voted to close its thirty years' existence. The company built and rented railroad freight cars. It is capitalized for \$3,-500,000, but its assets are very small, consisting of a few accounts receivable

and a few cars. A dividend in liquidation has been declared, company was largely owned in Vermont and Boston.

Pacific Gas & Electric Co., San Francisco.-Return of Common Stock to Treasury .- The "San Francisco Chronicle" Sept. 8 said:

Sept. 8 said: The entire issue of common stock, amounting to \$20,000,000, has been turned back into the treasury of the company, while the assessment on the preferred stock has been paid in full in cash, amounting to a total increase in the resources of the company of \$1,000,000. The issue of \$20,000,000 of the common stock had been held by the banking firm of Halsey & Co. The entire transaction was completed on Aug. 31, at which time a million in cash was paid in by the shareholders of the preferred stock, of which John Martin and Eugene de Sabla are large owners. This fund will be used to pay for restoration work and extensions of the service made necessary in the last sixteen months. Instead of paying the assessment on the com-mon stock the holders turned it back to the company.

It has been suggested that the common shares so returned or some portion thereof may be offered as a bonus in connec-tion with the proposed issue of refunding bonds. See V. 85,

p. 408. **Phoenix Iron Co.**—Insurance Against Quebec Bridge Loss

Phoenix Iron Co.—Insurance Against Quebec Bridge Loss.— Regarding the loss to the company occasioned by the fall of the Quebec Bridge (V. 85, p. 531) an exchange says: Of the Quebec Bridge loss, a large share will be borne by the Ocean Acci-dent & Guarantee Corporation, Limited, of London, England. This company insured all the work of the Phoenix Iron Company, both in this company and in Canada. Facts concerning the Hability of the Ocean Acci-dent have been kept secret, but both Secretary Davis of the Phoenix com-pany, as well as William F. Swann, the Philadelphia manager of the Ocean Accident, admitted the risk taken by the English concern, though they abso-lutely refused to name the amount of the Ocean's Hability in the disaster.

Intely refused to name the amount of the Ocean's Hability in the disaster. **Pittsburgh Oil & Gas Co.**—New Stock Authorized.—The shareholders, at their meeting on Sept. 9, approved the increase in capital stock from \$6,000,000 to \$11,000,000, the new stock to be 7% cumulative preferred. It is estimated that not more than \$3,400,000 will be required to provide that hot more than \$3,400,000 will be required to provide that hot more than \$3,400,000 will be required to comfor the debt, leaving \$1,600,000 for new property, &c. pare V. 85, p. 534.

Pope Manufacturing Co.—Receivership Continued.—Judge William S. Case in the Supreme Court at Hartford, Conn., on Sept. 16 confirmed the appointment of Albert L. Pope as temporary receiver. A complete inventory will be filed Oct. 18 and application made to make the receivership per-manent.—V. 85, p. 534, 408, 403. Poilage Feringer Composition Philodelphia Fering

**Railway Equipment Corporation, Philadelphia**.—*Extra Dividend*.—With the regular 112th monthly dividend of 1½% there was paid on Sept. 16 an extra dividend of 3% on the \$1,375,000 capital stock, contrasting as follows:

 $\begin{array}{c} 1905 \\ \hline 1905 \\ \hline 1905 \\ June. Sept. Jan. Apr. July. Sept. Nov. Dec. Mch. Apr. May. July. Sept. 2% 2% 2% 2% 2% 2% 2% 2% 3% \\ Par of shares $100. There are no bonds outstanding. \end{array}$ V. 83, p. 1474.

-V. 83, p. 14/4. St. Louis Car Co.—Negotiations Still Pending.—The French syndicate, it is stated, has delayed making the pay-ment of \$1,000,000 due Aug. 1 on account of the \$3,000,000 new preferred stock, but President Kobusch was quoted on Sept. 16 as saying that the deal was still pending. New financial interests, it is said, are likely to enter the manage-ment.—V. 85, p. 473. Secondary Ober Placting Co. Bonds Offered N. W

ment.—V. 85, p. 473. Scranton (Pa.) Electric Co.—Bonds Offered.—N. W. Harris & Co. of New York and Boston and the Harris Trust & Savings Bank of Chicago are offering for sale \$1,000,000 "first and refunding mortgage" 5% gold bonds due July 1 1937, optional on any interest date after July 1 1912, at 110 and accrued interest. The company, which controls the entire electric light and power business of Scranton, has a capitalization of \$500,000 preferred stock and \$2,-500,000 common stock, and outstanding bonds aggregating \$1,500,000. The gross earnings for the year ended July 31 1907 were \$361,165 and net earnings \$134,170, and surplus \$59,170. The bonds are tax free in Pennsylvania and are offered on a basis to net 5½%. Compare V. 85, p. 226. Standard Oil Company of New Jersey.—Assets, Earnings, &c.—The following data were furnished by officials of the company at the hearing in New York before Special Federal Referee Ferris, of Missouri, in the Government suit to dis-solve the combination. Capital Stock. Gross Assets. Net Assets.

### READING COMPANY.

# TENTH ANNUAL REPORT-FOR THE FISCAL YEAR ENDED JUNE 30 1907.

Reading Company, General Office, Philadelphia, October 14 1907.

To the Stockholders of Reading Company:

The Board of Directors submit their report for the fiscal year ended June 30 1907 of Reading Company, the Phila-delphia & Reading Railway Company and the Philadelphia & Reading Coal & Iron Company. Net result of the business of the three Companies for the past fiscal year and comparison with previous year:

		1906-07.			1905-06.	
PHILADELPHIA & READING RAILWAYCOMPANY- Receipts Operating expenses		\$43,528,936 44 25,889,331 30		p -	\$40,563,724 58 22,137,171 72	
Net earnings		\$17,639,605 14 1,847,933 64			\$18,426,552 86 3,539,352 29

Net earnings		\$7,355,051 21 4,586,540 78			\$6,924,806 55 4,334,713 58	
Surplus			2,768,510 43		Con Sara	2,590,092 97
Surplus of three Companie	1		\$8,741,453 53			\$7,843,818 96

The gross receipts of the Railway Company increased \$2,965,211 86. The operating expenses increased \$3,752,159 58 The gross receipts of the Coal & Iron Company increased \$4,709,021 39 during the past fiscal year as compared with the previous fiscal year, and the expenses increased \$4,397,830 55, a net gain of \$311,190 84. The payments on account of new work at collieries, interest on debt and depletion of lands fund increased \$255,318 55, but with the reduction of \$3,391 31 in the fixed charges and taxes, the deficit for the year was reduced to \$71,482 02 as against \$130,745 62 for the previous year.

55,391 St in the there charges and taxes, the dener of the year and previous year. The gross receipts of Reading Company increased \$418,187 73 during the past fiscal year and, notwithstanding the increase of \$251,827 20 in fixed charges and taxes, the surplus was increased \$178,417 46 over the previous fiscal year. The net increase of the fixed charges and taxes of the three companies for the year ended June 30 1907, as compared with the year ended June 30 1906, was \$210,150 41, as follows:

	June 30 1907.	June 30 1906.	Increase.
Fixed charges and taxes, Philadelphia & Reading Railway Company Philadelphia & Reading Coal & Iron Company Reading Company	\$9,747,246 38 115,074 91 4,586,540 78	\$9,502,728 96 118,466 22 4,334,713 58	\$244,517 42 (Dec.) 3,391 31 251,827 20

Year ended June 30 1907		6,044,425 12	9,816,427 0
THE PHILADELPHIA & READING COAL & IRON COMPANY, June 30 1906 Less-Loss year ended June 30 1907		\$1,259,920 54 71,482 02	1
Complete start and the property of the start of the start start	1	and ella area	1,188,438 5
Total Surplus June 30 1907			\$22,523,416 9

The total surplus June 30 1907 of \$22,523,416 91 shows an increase of \$2,697,096 03 over that of June 30 1906 as follows: \$19,826,320 : 8 6,044,357 : 0

\$13,781,963 38 8,741,453 53 Add total surplus of three Companies for year ended June 30 1907 ......

In connection with the above surplus, the Board of Directors on May 15 1907 took the following action: On the First Preferred Stock a dividend of two per cent was declared, payable September 10 1907, and a sum of \$560,000 was set apart to make provision for another dividend on the First Preferred Stock of two per cent, to be paid March 9 1908. As to the Second Preferred Stock, the sum of \$1,680,000 was set apart to make provision for a dividend of two per cent to be paid on November 9 1907, and for another dividend of two per cent, to be paid on May 9 1908 upon the Second Pre-ferred Stock. On the Common Stock of the divident of the second Pre-

On the Common Stock a dividend of two per cent was declared, payable August 1 1907. The expenditures for improvements by the Philadelphia & Reading Railway Company to the amount of \$1,847,933 64 and the cost of the new work at collieries and the payment into the Depletion of Lands Fund of the Philadelphia & Reading Coal & Iron Company have been charged to the expenses of the respective Companies.

#### PHILADELPHIA & READING BAILWAY COMPANY.

The receipts of the Railway Company from the several classes of business for the last seven years (the period in each case being the twelve months ending June 30) were as follows:

	YEAR ENDED JUNE 30.									
	1906-1907.	1	1905-1906.	1	1904-1905.	1903-1904	1.	1902-1903.	1901-1902.	1900-1901.
Coal Traffic Merchandise Traffic Passenger Traffic Miscellaneous Mail	\$18,730,189 16,360,169 6,399,172 1,066,208 120,537	92 94 54		6	13,036,535 55 5,717,399 37	11,932,640 5,516,669 760,355	14 39 31	12,564,293 31 5,235,897 25 654,884 18	4,880,705 14 524,540 33	10,079,427,41 4,561,392,52 469,126,87
Total Philadelphia & Reading Railway_ Other sources	\$42,676,278 852,657									\$27,617,421 54 726,748 18
Total	\$43,528,936	44	\$40,563,724 5	8	\$37,495,718 88	\$34,939,395	86	\$32,429,791 13	\$29,172,835 33	\$28,344,169 72

The gross receipts of the Railway Company increased \$2, 965,211 86 over those of the previous year, and the surplus for the year increased \$659,953 51. The payments on ac-count of fixed charges and taxes were \$244,517 42 greater than during the previous year, and there was a decrease of \$1,691,418 65 in the amount paid for improvements. The details of the accounts will be found on page 35 in the Computerler's report herewith

The details of the accounts will be found on page 35 in the Comptroller's report herewith. The tonnage of anthracite carried increased from 11,856,-871.19 tons in 1905-1906 to 13,223,780.13 tons in 1906-1907, an increase of 1,366,908.14 tons, or 11.53 per cent, and the tonnage of bituminous coal increased from 10,487,598.04 tons to 11,190,250.10 tons, a gain of 702,652.06 tons, or 6.70 per cent. The revenue from coal traffic increased from \$17,198,247.07 to \$18,730,189.63, a gain of \$1,531,942.56, or 8.91 per cent. Merchandise traffic increased from 22,353.845 tons to

\$17,198,247.07 to \$18,730,189.63, a gain of \$1,531,942.56, or 8.91 per cent. Merchandise traffic increased from 22,353,845 tons to 24,414,314 tons, a gain of 2,060,469 tons, or 9.22 per cent, and the earnings therefrom increased from \$15,220,440.96 to \$16,360,169 92, a gain of \$1,139,728 96, or 7.49 per cent. The number of passengers increased from 29,650,153 to 29,970,328, a gain of 320,175, or 1.08 per cent, and the passenger revenue increased from \$6,216,316 25 to \$6,399,172 94, a gain of \$182,856 69, or 2.94 per cent.
The gross receipts of the Philadelphia & Reading Railway Company were the largest in the history of the Company. The increase above shown of \$2,965,211 86, or 7.31 per cent, over the previous year brought the gross receipts to a figure which is very nearly 50 per cent greater than it was five years ago, in 1901-2, during which time the volume of tonnage of all kinds handled increased slightly more than 50 per cent, and the number of passengers carried increased nearly 20 per cent. There was also a large increase in the operating to \$3,752,159 58, due generally to the increased volume of business handled, the increase of wages and the higher prices of materials. The increase in the cost of Maintenance of Way and Structures in 1906-7 over 1905-6 was less than it was in 1905-6 over 1904-5, and the increase in the cost of Conducting Transportation was not much greater. The large increase in operating expenses in 1906-7 was almost exclusively confined to the expenses of the Maintenance of the Equipment, which equipment the Company is obliged to keep at its original value and efficiency under the leases thereof.

#### IMPROVEMENTS.

The sum of \$1,847,933 64 was expended during the past fiscal year for improvements and charged to expenses. The improvements covered by these expenditures were as follows

Real estate Extension of main, second, third and fourth tracks	\$61,338 13 634,697 26
Meeting and lay-off sidings and colliery and washery tracks.	39.642 34
Yard and depot tracks	
	355,294 26
Coal yard tracks	3,070 16
Mnaufactory, shop, turn-table and scale tracks	24,315 62
Steel, iron and stone bridges	265,696 05
Interlocking plants and signals	122,220 43
Passenger stations and shelters, freight stations, water and	
fuel stations	93,139 03
Chara and aning house	
Shops and engine houses	31,270 75
DOCKS and whatves	4,383 87
Turn-tables	9.076 38
Coal yards	6.517 66
Shop tools	147.714 24
Sundries	49.557 46
Dundred accession and a second	10,001 10

\$1,847,933 64

<sup>51,847,933</sup> 64 The expenditures for improvements made, as above, and charged to expenses during the past fiscal year were \$1,691,-418 65 less than the similar expenditures made during the previous year, although they were largely in excess of the expenditures made for improvements during any of the preceding four fiscal years. The larger part of these ex-penditures was made to complete the extensive work which had been in progress for the last three years, and it was this extensive work which eaused the large improvement ex-penditures for the year of 1905-1906 with which the com-parison for the past fiscal year is made, as follows: Enlargement of the Classification Yard at Rutherford, the double-tracking of the Philadelphia Harrisburg & Pitts-burgh Railroad, the construction of additional tracks on the New York Branch, and the equipment of the locomotive snops at Reading with tools. No new work of any magnitude was undertaken last year, the only large items of expenditures for new work being on account of the construction of bridges of the Chestnut Hill Branch to avoid grade crossings, the replacing of the bridge

Length of second track \_\_\_\_\_\_18.28 miles. " third and other tracks.\_\_\_\_\_\_16.50 " " sidings and laterals \_\_\_\_\_\_9.31 "

44.09 miles. Less account change of alignment, &c., P. H. & P. Branch ....

Total increase of mileage\_\_\_\_\_ -43.66 miles.

# INSURANCE FUND.

The balance to the credit of this fund June 30 1906 was\_\_\_\_\_\$1,036,837 54 During the past fiscal year the income from investments in the fund amounted to\_\_\_\_\_\_50,380 54

\_\$1,087,218 08 From which payments were made for premiums on insurance carried in outside companies and for losses from fire and

marine disaster	46,374	1 16
Balance to credit of fund June 30 1907	\$1,040,843	8 92
This balance consists of securities valued at \$9	64,790	75,

This balance consists of securities valued at \$964,790.75, and cash amounting to \$76,053.17, which is on deposit separate and apart from the other funds of the Company. The Insurance Fund was not only self-supporting last year, as shown in the foregoing statement, but the income of \$50,-380.54 from the investments in the fund, etc., exceeded the losses from fire or marine disaster by \$4,006.38, which amount has been added to the capital of the fund.

#### EQUIPMENT RENEWALS.

The obligation of the Railway Company contained in the leases under which it holds all of the equipment, to keep the same in good order and repair and to make replacements of such as may become unfit for use, or which may be destroyed, has been complied with during the past fiscal year in every respect. The cost of this work has been included in the gen-eral operating expenses of the Company under the head of Maintenance of Equipment.

#### PENSION SYSTEM.

The sum of \$60,493 37 was paid out in pensions for the fiscal year ended June 30 1907 under the pension system. The number of pensioners on the roll on June 30 1907 was as follows:

190

The number of pensioners who died from July 1 1906 to June 30 1907 was 16.

In addition to the amount paid out in pensions, the sum of \$27,726 16 was contributed by the Philadelphia & Reading Railway Company towards the support and maintenance of the Philadelphia & Reading Relief Association, the mem-bership of which is composed of employees of the Reading System

#### ELEVATION OF TRACKS IN PHILADELPHIA.

On October 13 1906 the Mayor of the City of Philadelphia approved an ordinance of Councils authorizing the proper officers of the city to enter into a contract with this Company providing for the elevation of certain tracks in the City of Philadelphia. This contract was executed on March 28 1907, and preparations were at once begun to have the work started as speedily as possible.

# NEW YORK SHORT LINE RAILROAD.

The New York Short Line Railroad was leased to the Philadelphia & Reading Railway Company from February 1 1907.

# PASSENGER FARES.

On November 1 1906 the one-way passenger fares were re-duced to 2½ cents per mile over the entire system without disturbing the commutation or excursion rates, and on May 25 1907 the fares in the suburban district of Philadelphia were advanced to make them correspond with the rates in force on other parts of the system.

#### INCREASE OF WAGES.

On November 1 1906 an increase of ten per cent was made in the wages of all employes receiving less than \$200 per month. A similar increase of wages was made in Novem-ber 1902.

#### RENTALS OF LEASED LINES.

The rentals of leased lines for the past fiscal year show an increase of \$80,227 23 over those of the previous fiscal year. This increase is accounted for mainly by the fact that the rental of the New York Short Line Railroad, under the lease dated February 1 1907, amounting to \$31,275, appears for the first time in this year's accounts, and that the taxes paid on account of the Delaware & Bound Brook Railroad, a corporation of the State of New Jersey, were over \$46,000 greater than they were in the previous fiscal year.

### FUNDED INDEBTEDNESS OF THE PHILADELPHIA & READING RAILWAY COMPANY.

The funded indebtedness of this Company was increased \$76,633 33 during the past year, being an increase of \$82,000 on account of Philadelphia Subway, as explained below, less \$5,366 67 of real estate mortgages paid off:

The Board during the past year authorized an issue of bonds to be known as the Philadelphia Subway Mortgage 3½ per cent gold bonds for the purpose of providing the money which will be needed to pay the installments of the principal and interest of the bonds which were issued by the city of Philadelphia for the construction of the subway on Remembraic the construction of the subway on principal and interest of the bonds which were issued by the city of Philadelphia for the construction of the subway on Pennsylvania Avenue, and for which this Company is liable. Philadelphia Subway Mortgage bonds have accordingly been issued to provide for the installment of principal and interest which were paid December 31 1906 and for the in-stallment of interest which accrued June 30 1907, aggre-gating \$232,000. The balance sheet shows, therefore, a reduction in the city of Philadelphia Subway Loan of \$150,-000, and the addition of the new Philadelphia Subway Mort-gage loan for \$232,000, being \$150,000 for principal and \$82,000 for interest of the city's loan. Upon the creation of the Philadelphia Subway Mortgage loan to provide for the payments on account of the con-struction of the subway in Philadelphia, the Subway Loan Sinking Fund, to which contributions had theretofore been made out of the income, was discontinued, and the balance of \$325,703 91 in that fund has been set apart to be used towards defraying the expenses of the elevation of the tracks in Philadelphia.

in Philadelphia.

#### OCEAN BUSINESS.

. The following statement shows the number of tons of merchandise, anthracite and bituminous coal shipped from Port Richmond, whether to foreign or domestic ports, during the past six years:

Year ended June 30-	1906-1907.	1905-1906.	1904-1905.	1903-1904.	1902-1903.	1901-1902.

	\$1.145.439	34

S1,145,439 34 **THE PHILADELPHIA & READING COAL & IRON COMPANY.** The total production of anthracite coal from lands owned, leased and controlled by The Philadelphia & Reading Coal & Iron Company for the year ended June 30 1907 was 11,655,-100.17 tons, an increase of 996,047.08 tons over the produc-tion of the previous year, or 9.34 per cent. The Company mined during the year 10,034,713.02 tons of coal, an increase of 902,359.08 tons, or 9.88 per cent; the coal purchased aggregated 1,107,848.07 tons, an increase of 83,797.10 tons, or 8.18 per cent, and the sales amounted

to 11,492,511.15 tons, an increase of 1,216,906.15 tons, or 11.84 per cent, over the previous year. The cost of coal mined and purchased during the year was 1.5 cents per ton less than for the previous year, and the price realized on all sizes was 3.1 cents per ton higher, making a total increase in the net amount realized of 4.6 cents per ton compared with the previous year. The total sum charged to expenses for improvements dur-ing the year was \$1,345,228 73, as against \$1,131,037 85 the previous year.

ing the year was \$1,345,228 73, as against \$1,131,037 85 the previous year. The funded indebtedness of the Coal & Iron Company has been reduced by the payment of \$30,000 of the Philadel-phia & Reading Collateral Sinking Fund Loan, for which this Company has been reimbursed by Reading Company. From the earnings of the Company for the fiscal year, there was appropriated to the Depletion of Lands Fund the sum of \$499,059 26, being 5 cents per ton on coal mined from the Company's lands during the year, and this account now stands as follows:

 Balance July 1 1906, per annual report
 \$1,443,477 53

 Amount appropriated for year ending June 30 1907;
 9,981,185.06 tons, at 5 cents per ton

 9,981,185.06 tons, at 5 cents per ton
 499,059 26

The increase of receipts from the sale of Anthracite over last year was \$4,497,575 25; the increase in receipts from sale of Bituminous and from other sources was \$211,446 14, making a total increase in gross receipts of \$4,709,021 39 as compared with previous year. The increase in expenses amounted to \$4,397,830 55. The principal items in which the increase occurred were:

\$1,072,000

3,664,000

Cost of Mining and Repairs increased \$1,836,814 16, which is accounted for by the increase of 902,359.08 tons in the tons mined by the Company. Cost of transportation of coal by rail and water increased \$1,607,271 71, owing principally to the increase of 1,216,-906.15 tons in the number of tons sold.

#### READING COMPANY.

#### DIVIDENDS.

GENERAL MORTGAGE BONDS. On November 21 1906 Reading Company certified, as pro-vided in the General Mortgage, to the Trustee thereof the application of the \$1,500,000 General Mortgage Bonds, which, as stated in the annual report of 1906, had been de-livered to it for new acquisitions and betterments. These new acquisitions and betterments consisted of:

Rolling stock and floating equipment\_\_\_\_\_ Balance from previous certificate\_\_\_\_\_ \$1,488,833 44 117,461 43

\$1,606,293 87 All of the rolling stock and floating equipment thus ac-quired has been conveyed to the Trustee of the General Mort-gage by a special supplemental mortgage. Upon the filing of the certificate referred to, the Trustee delivered to Reading Company the \$1,500,000 General Mort-gage Bonds referred to below, to be used for further acquisi-tions and betterments. tions and betterments.

DECREASE OF FUNDED INDEBTEDNESS. . The decrease of \$392,166 66 in the funded indebtedness of the Company, as shown by the balance sheet, is accounted

		\$392,166	6
Ground rents extinguished	\$1,380,000 00 84,166 66		6
Series D, canceled	312,000 00		
Series C, canceled Less Railroad Equipment Trust Certificates,	164,000 00	Marrie Tutt	
Series B, canceled Less Railroad Equipment Trust Certificates,	400,000 00	1	
Less Railroad Equipment Trust Certificates,			

The General Mortgage bonds in the treasury of the Com pany June 30 1907 were \$2,369,000, as compared with \$4,507,000 on June 30 1906. The reduction of \$2,138,000 is accounted for as follows:

\$4.507.000

treasury June 30 1906 cecleved as heretofore shown— For improvements, &c.\_\_\_\_\$1,500,000 For sinking fund bonds canceled\_\_\_\_\_26,000 1,526,000 \$6,033,000

In treasury June 30 1907 \$2,369,000 The large payments that were required to be made during the past fiscal year on account of new equipment purchased necessitated the sale of the \$3,210,000 General Mortgage Bonds referred to above, to reimburse the treasury in part for the cash outlay.

#### READING IRON COMPANY

READING IRON COMPANY. The balance sheet of the Reading Iron Company as of June 30 1907 shows assets amounting to \$13,371,370 85. The capital stock remains at \$1,000,000 and the outstanding mortgage bonds, after deducting the Sinking Fund securi-ties deposited with the Trustee, amount to \$322,929 96, and the current liabilities with accrued interest and dividends amount to \$177,155 63. The Board extends its thanks to the officers and employees of all the Companies composing the Reading System for the faithful and efficient services performed by them during the mast year.

past year. By order of the Board.

THE HOCKING VALLEY RAILWAY COMPANY.

EIGHTH ANNUAL REPORT-FOR THE YEAR ENDING JUNE 30 1907.

To the Stockholders: The Directors submit this report of the bu company for the fiscal year ending June 30 19	
Gross Earnings from Operation Operating Expenses and Taxes	4,709,809 31
Net Earnings from Operation	\$2,197,238 95
As compared with the previous year: Gross Earnings increased \$467,23 Operating Expenses increased \$28,03	39 01 36 97
Net Earnings decreased	60,797 96
The increase in the gross earnings was der following sources:	rived from the
Coal Traffic \$97,56 Other Freight Traffic 255,44 Passenger Traffic (including Mail and Express) 11,29 Miscellaneous Earnings 102,93	13 38 94 52
The increase in operating expenses and tax the following items:	tes consisted of
Maintenance of Way and Structures       \$118,16         Maintenance of Equipment       166,54         Conducting Transportation       221,61         General Expenses       1,72         Taxes       19,98	46 10 15 91 27 93

The ratio of operating expenses and taxes to gross earnings was 68.19% as compared with 64.94% in the previous fiscal year.

year. The principal causes of this increase in ratio were: The enhanced cost of labor and materials; a heavy increase in the repairs and renewals of freight cars, due to the failure of very old equipment; and about three weeks' interruption to traffic in the month of March 1907, occasioned by an unprecedented flood in the Hocking district The cost of

The YEAR ENDING JUNE 30 1907. A compared with the operating expenses of the year. As compared with the previous year, the number of tons of freight carried one mile increased 9.05%; the average hand of freight increased 6.44 miles. The train load on the Main ine averaged 655 tons, an increase of 24 tons. On the River Division the train load on the entire line averaged 625 tons, an increase of 17 tons. The average rate per tons per mile was 4.96 mills, a decrease of 0.09 mills. The earn-ter mile was 4.96 mills, a decrease of 0.09 mills. The earn-art and other commodities 67%. The increased tonnage bituminous coal contributed 3% and other commodities 67%. The average number of passengers carried; an increase of about 11% in the number of passengers carried; are sequent 1.76 miles. The average distance traveled decreased 1.66 miles. The average distance traveled the average number of passengers rearried; an increase of about 11% in the number of passengers carried; are mile; an increase of 1.417 miles run by passenger trains. The average number of passenger rate per passenger per mile (in cents) was 1.78, as compared with 1.79, a decrease of 0.01. The earnings per passenger train mile, not including mil and express, were \$1, as compared with 99 cents, and increase of 1 cent. There was an increase of 1 cent per passenger train mile in earnings from express. The earnings per passenger train mile in earnings from express. The earnings per passenger train mile in earnings from express. The earnings per passenger train mile in earnings from express. The earnings per passenger train mile in earnings from express. The earnings per passenger train mile in earnings from express. The earnings per passenger train mile in earnings from express. The earnings per passenger train mile in earnings from express. The earnings per passenger train mile in earnings from express. The earnings per passenger train mile in earnings from express. The earnings per passenger train mile in earnings from e

 THE CHE

 cars, purchases were made of new equipment for renewal account, to which were added some further purchases by way of additions to equipment needed for the company's traffic. Orders were placed for 2,000 steel under-frame drop bottom coal cars of 50 tons capacity, of which 1,100 were intended for renewal account and 900 for additions to equipment; also for 850 steel under-frame box cars of 30 tons, capacity, 550 of which were intended for renewal account, and the remaining 300 for additions to equipment. Up to the close of the fiscal year, 1,170 of the coal cars had been received and put in service, and all of the 850 box cars. The equipment reserve fund at the close of the year was insufficient to defray the entire cost of the cars so bought for renewal account, because in former years the fund set aside for depreciation of freight cars has been used indiscriminately for the purchases of locomotives, passenger cars and freight cars, whichever happened at the time to be most urgently needed. However, as shown later on in this report, the equipment reserve fund was sufficient to cover more than 40% of the cost of the new equipment bought for renewal account under car trusts, of which 20% was made payable in cash and the remaining 80% payable in equal semi-annual installments spread over ten years. The reserve fund more than covers the installments maturing in the years 1907, 1908 and 1909, amounting to \$377,000, leaving 60% of the cost to be otherwise provided for, commencing with the year 1910. The equipment reserve fund consisted of:

 Balance June 30 1906
 \$357,000, leaving 60% of the cost to be otherwise provided for, commencing with the year 1910. The equipment reserve fund consisted of:

 Balance June 30 1906
 \$357,000, leaving 60% of the cost to be otherwise provided for, commencing with the year 1910. The equipment reserve Act rice rice and respectively and Equipment 520,428 51 Surplus credited Profit and Loss Account. Of the first consolidated mortgage 4½% bonds there remain unissued \$5,810,000, of which \$5,428,000 are reserved for the retirement of underlying bonds, and the balance, \$382,000, are available for capital purposes. By order of the Board of Directors. N. MONSARRAT, President.

#### MISSOURI KANSAS & TEXAS RAILWAY COMPANY.

#### REPORT FOR YEAR ENDING JUNE 30TH 1907.

## Executive Offices, 49 Wall Street,

New York, September 16 1907.

To the Stockholders of the Missouri Kansas & Texas Rail-

way Company: The Directors and Officers of your Company submit their report for the fiscal year ending June 30th 1907. The operations of the railway system, as compared with

the previous year, were as follows:  $\begin{array}{r} 1906.\\ \$21,159,144\ 73\\ 15,414,544\ 85\end{array}$ \$5,744,599 88 409,035 41 Total income \$8,685,649 29 Applied to payment of interest on bonds and rentals 5,003,338 14 \$6,153 63529 5,003,338 14 4.500.547.79 \$1,653,087,50 260,000 00 
 Balance

 Average mlleage in operation
 3,072 miles

 Gross earnings per mile
 \$8,523 42

 Net earnings per mile
 \$2,769 70

 Ratio of expenses to earnings
 67.50 %
 \$1,393,087 50 3,043 miles \$6,953 38 \$1,887 81 72.85 %

The Company is free from floating debt.

### MILEAGE ADDITION.

As set forth in the last Annual Report your Company on July 1 1906 began the joint use of the track of the Inter-national & Great Northern Railroad Company between Austin and San Marcos, Texas, thereby increasing the operated mileage 29.64 miles.

#### FUNDED DEBT.

During the past fiscal year First and Refunding Mortgage Bonds to the amount of \$3,992,000, par value of principal, have been authenticated by the Trustee of the Mortgage and delivered to your Company, upon certificates of expenditure of moneys for the purchase of additional equipment and on account of construction of the new locomotive repair shops of Parson Kasses. These hands represent each advances account of construction of the new locomotive repair shops at Parsons, Kansas. These bonds represent cash advances from the current earnings to the amount of \$3,313,890, which will be returned to your Company out of the proceeds of sale of the bonds when sold. The bonds referred to are in the Company's treasury, as it has been considered unwise to attempt to dispose of them during the period of prevailing depression in the bond market. It is a convincing proof of the excellent financial condition of the Company during the year that it has been able to meet its cash requirements for equipment and improvements without the necessity of sacrificing its bonds, issuing short-term notes or creating expensive equipment trusts. We may not expect, however, adequately to meet the requirements of the future without the addition of new capital.

### OPERATIONS.

**OPERATIONS.** The business of your Company shows a phenomenal development. The gross earnings for the year were \$26,183,-958 87, an increase of \$5,024,814 14, or nearly 24 per cent. The net earnings were \$8,508,508 72, an increase of \$2,763,-908 84, or 48 per cent. The gross earnings per mile were \$8,523 42, an increase of 23 per cent, and the net earnings per mile were \$2,769 70, an increase of 47 per cent. The freight earnings were \$18,402,825 15, an increase of \$3,433,-991 65, or 23 per cent, which may be attributed to the largely increased movement of cotton, live stock, coal, ore, lumber and merchandise, the only commodity showing a material decrease being grain. The passenger earnings were \$6,278,608 30, an increase of \$1,120,727 76, or 22 per cent, due to the rapid growth of the population of the country through which your lines extend and the improved service to passengers. An increase of \$147,995 02, or 39 per cent, in the mail earnings during the fiscal year has resulted from the operation of the additional mail train service which was inaugurated in February 1906. There has been a slight in-crease in the revenue per ton and per ton per mile, as well as in the revenue per passenger and the average rate per pas-senger per mile. senger per mile.

In the revenue per passenger and the average rate per pas-senger per mile. Operating expenses and taxes were \$17,675,450 15, an increase of \$2,260,905 30. This cannot be ascribed wholly to the large expansion of traffic, but is due in a great measure to the high cost of material and supplies and to the consider-able advance in the rate of wages of employees. The ratio of Operating Expenses and Taxes to warnings, however, was 5.35 per cent less than last year. Operating Expenses include \$518,572 expended for betterments on the lines in Texas, where it is not possible to capitalize improvements, as your Company has fortunately been able to do with respect to the lines north of Red River. "Maintenance of Way and Structures," however, shows a decrease of \$278,330 81, accounted for by the fact that during the first half of the fiscal year ending June 30 1906 all improvements and better-ments were included in this account, while during the year ments were included in this account, while during the year covered by this report all such improvements and better-ments north of Texas have been charged to "Improvement Fund North of Red River" and paid for with funds derived

The fact of the curve datware as in former years. The chief trouble fon

### PHYSICAL CONDITIONS.

an interruption of traffic for five days. PHYSICAL CONDITIONS. During the year material progress has been made in the work of improving your Company's lines of railway. New eighty-five-pound rail was laid on 179 miles of track and 160 miles of track were ballasted Embankments were made standard width on 72 miles, and ditching was com-pleted on 452 miles of road. 68 miles of side and yard tracks were constructed. The work of renewing light bridges on the Waco Division has been finished, so that heavy engines may now be run as far south as Smithville, which will insure more economical operation. 1,127,991 cross-ties and 903 sets of switch ties were put in track. 181,813 ties were treated at the Greenville plant, notwithstanding the fact that during the major portion of the year the plant was not in operation on account of the work of changing the ma-chinery in order to use the Reupping or creosote process for treating ties, instead of the zinc chloride process which had formerly been in use and was found to be unsatisfactory. 43 miles of new fencing were constructed and 22 miles re-built. Station buildings were constructed at five points, and those at ten stations were enlarged. New freight depots were built at Denison, Temple and Muskogee. Cotton plat-forms were erected at seventeen stations, fruit shels were provided at Houston, Hillsboro, Vinita and Sedalia, and freight and transfer platforms were built at Cleburne, Rosanky, Somerset, North McAlester, Hodge, Kiowa, Sealy, Tupelo, Checotah, Ga, Muskogee, Spaulding and Krebs. Coal chutes were erected at Greenville, Sedalia, Ray and Winsboro, and stock solub outses were constructed at twenty-six stations, and twenty miscellaneous structures were erected at various pints, including a large passenger car erecting shop at Se-dalia. A large reservoir was completed at Franklin Junction, the reservoir at Leonard was enlarged, settling basins were bith at Denison, water tanks were erected at three sta-diohouses were constructed a

The work of reducing grades has been carried on vigor-ously and without intermission. Between Atoka and Red River the clearing and concrete work has been completed, and the grading will be finished this autumn, unless we are delayed by inability to procure the necessary labor, which has been one of the greatest difficulties encountered in this undertaking. The construction of permanent track has been begun and certain sections of the new line have been practically completed. It is expected that heavier trains may be run over this portion of the road by the end of the present year. Between McAlester and Atoka the work of reducing the two largest south-bound grades, namely, those at Limestone Gap and Stringtown, has been begun, and work has also been undertaken on the north-bound grade at Crowder. It is believed that this portion of the work will be completed and the road, with reduced grades, put in service before the close of 1907. The surveys for grade re-duction will be finished as far north as Parsons within a

福

short time. As stated in the last annual report, a four-tenths grade has been established for the Choctaw Division between Muskogee and the Red River. On the Cherokee Division between Parsons and Muskogee, however, a three-tenths grade is projected, which will enable an engine with one-eighth less tractive power to haul the same train on the three-tenths grade as it hauls on the four-tenths grade. It is anticipated that on the reduced grades an engine will be able to haul double its prosent fright to many be able to haul double its present freight tonnage.

# NEW EQUIPMENT.

Your Company has found it impossible to increase its equipment in a ratio corresponding to the increase of its traffic, notwithstanding the large additions which have been made, particularly during the past five years. In the fiscal year of 1906-1907, it has received from engine makers and car builders 35 locomotives, 2,300 freight cars, 100 convertible ballast cars, 10 chair cars, 10 baggage cars, 6 tank cars and 1 officers' car. These have been paid for out of current earnings, and First and Refunding Mortgage Bonds have been delivered to your Company to represent the expenditure, such bonds being retained in the Company's treasury, as hereinbefore stated, awaiting a favorable opportunity for sale in the market.

Sole in the market. Contracts were made last January for delivery during the present calendar year of 17 locomotives, 17 passenger cars and 620 freight cars, to cost approximately \$1,014,000. These are purchased to replace destroyed equipment, and the purchase price will be charged to "Equipment Replace-ment Fund." Of the equipment covered by these contracts, your Company received during the fiscal year 6 coaches and 16 ballast cars. There were built in the Company's shops 20 box, 5 furniture, 4 stock, 3 coal and 2 cinder cars. Contracts were also entered into for the purchase of 15 locomotives, 2,000 box cars and 1,000 gondola (coal) cars for delivery during the present calendar year, to cost \$3,-200,000. None have, as yet, been delivered. General Mortgage Bonds will be issued and delivered to your Com-pany to represent the cost of this new equipment, and these bondis will be held in the Company's treasury until such time as their sale can be effected upon satisfactory terms. LECISLATION

#### LEGISLATION

<sup>1</sup> The tide of legislative activity against railway interests reached its flood during the last half of the fiscal year, when the Legislatures of forty-two States and Territories were in session. A brief reference to some of the more important enactments of the various States and Territories within which your railway lies may not be without interest. In Missouri a maximum freight schedule was enacted, involving the rates on various commodities, which, if ulti-

Involving the rates on various commodities, which, if ulti-mately put in force, will result in a reduction of your Com-pany's annual revenues of \$80,000 or more on State traffic. The enforcement of this law has been enjoined. The Legis-lature of Missouri also passed an Act prohibiting any rail-Rature of Missouri also passed an Act prohibiting any rail-way company from charging a greater sum for the transporta-tion of freight or passengers over any bridge in the State than it charges for a like distance over other portions of its road in the State, the effect of which has been to abolish the bridge arbitrary which your Company has heretofore added in computing its charges on local freight and passenger traffic moving over the Boonville Bridge, and the loss to your Company will be approximately \$30,000 annually. A measure was adopted fixing the maximum fare to be charged for the transportation of passengers at two cents per mile, the estimated loss to your Company through the operation of this law being \$120,000 per annum. Proceed-ings were instituted in June last to restrain the enforcement of the Act, but the Federal Court, after a hearing, decided for permit the reduced rates to continue during a period of vaincety days in order to ascertain the practical result of opera-The period of the reduced rates to continue during a period of minesty days in order to ascertain the practical result of opera-tion under the new conditions. It is to be presumed that if the injustice of the law shall be demonstrated appropriate relief will be granted, although manifestly it is not contem-plated that any remedy is to be afforded for the injury to which you will be subjected during the probationary three menths. months

caonths.
The Kansas Legislature has adopted a schedule of rates on grain and grain products, making a reduction of 15 per cent on the rates previously in effect, which will reduce your "Company's revenue from that business approximately \$50,000 per year. Reductions made on other freight in that State will cause a loss of revenue to your Company smounting to probably \$50,000 a year. This Legislature also passed a law requiring the sale of mileage books of 500 and 2,000 miles at the rate of two cents a mile.
In Arkansas the maximum passenger fare is fixed at two cents a mile, and while your Company has no mileage in that State, the establishment of this rate compels your Company to make a reduction in its through rates to Texas in order to meet the competition of other roads which operate

Company to make a reduction in its through rates to Texas in order to meet the competition of other roads which operate through Missouri and Arkansas to Texas. In Oklahoma Territory the authorities have forced a reduction of about 15 per cent on general traffic moving at mileage rates. The proposed constitution of the new State of Oklahoma, which will comprise both Oklahoma and Indian Territory, fixes a maximum rate of two cents per mile for passengers

Texas has adopted many new laws affecting the business of railways, among which are an anti-pass law, which is

not particularly objectionable; an Act to provide an eight-hour day for railroad telegraph or telephone operators; an Act to require railroad companies to purchase sufficient rolling stock and motive power and to handle freight com-fortably and expeditiously; an Act conferring upon the Railroad Commission power to make temporary freight or passenger rates, or to suspend, temporarily, any existing freight or passenger rates; an Act requiring all railroads to equip locomotives with electric headlights; an Act specifying the number of men of which train crews must be composed; an Act limiting the number of hours which trainmen may be kept at duty to fourteen, and an Act prohibiting the black-listing of discharged employees. Certain changes have been made in the tax laws which will probably increase your Company's taxes approximately \$200,000 per annum. The effect of the compulsory rate reductions referred to is not only to deplete your Company's revenues from traffic moving wholly within each State, but is also reflected in decreased earnings from inter-State traffic, the rates on which, for various reasons, usually suffer a reduction corre sponding to that made on intra-State traffic, and it is im-possible to estimate the total loss of earnings which will follow the lower rates. There was no apparent commercial necessity for these reductions, as the rates which were in force permitted a free and profitable movement of the business.

business.

#### LAND GRANT.

LAND GRANT. In the Annual Report for 1906 mention was made of the suit instituted by the State of Kansas for the purpose of enforcing the rights of your Company in respect to the grant of lands in the Indian Territory. This grant was made to Kansas for the benefit of your Company and it was believed that an original suit by the State in the Supreme Court of the United States would result in a final adjudica-tion of all the questions in dispute. 'After careful considera-tion, the Supreme Court held that the State of Kansas was not the real party in interest. For this reason, the Supreme Court had no original jurisdiction and decided that the case should therefore be dismissed; the Court refrained from expressing any judgment on the merits, as its decision was based solely upon technical grounds. Therefore, a suit was begun by your Company in the United States Court of Claims seeking to recover the value of the lands of which, as we have been advised by counsel, we have been unjustly deprived. This suit is now pending and will be prosecuted vigorously.

#### GENERAL.

vigorously. GENERAL. The demands of laborers have imposed a serious burden the country. During the past year wages have been in-creased to such an extent as to add almost half a million ollars to your Company's yearly pay-roll, and it is felt that in complying with these demands the limit has been reached. There is an urgent demand for shorter hours, which cannot possibly be granted in certain branches of the service. The labor unions have also insisted upon incor-porating into their wage agreements with the railways rules and definitions respecting the discharge of their duties and the scope of their employment which are seriously detri-mental to the efficiency of the service and frequently prevent necessary co-operation among employee. The of the principal railway systems entering Kansas Gity of which your Company is one, have organized the Kansas City Terminal Railway Company for the purpose of providing adequate passenger and freight terminals at that important centre. The plans contemplate the acquisi-tion of the property of the Kansas City Belt Line and the Union Depot Company, the construction of industry and synthe tracks, and the erection of a large Union Passenger Station. This project is similar in scope to the plan of the reminal Railroad Association of St. Louis, and your Com-pany hopes to derive great benefit from its one-tenth pro-pring the the reception of and the discharge of the participating rail-tion of the propenty. To provide the necessary and company, guaranteed by the participating rail-tor of the propenty of the scope to the plans of the reminal Company in the acquisition of land. The more than \$300,000 have so far been spended by the participating and the service of the past two part is 1907, and it is already evident that their operation will result in largely increasing business and earnings at hat point. No First and Refunding Mortgage bonds were supply how the near the scope as soon as the terminals shale the point of these terminals dur

the issue of Refunding bonds as soon as the terminals shall have been fully completed. The new locomotive repair shops at Parsons are rapidly approaching completion. The buildings are practically all finished and the installation of machinery is now in progress. Some of the machines have been put in use, and it is expected that the whole works will be in operation by the end of October next. The officers of your Company are justly proud of this plant, which is modern and up to date in all respects. It will prove to be of immense value in the operation of your property. The economic advantages accruing from the possession of adequate facilities for the

care of motive power and equipment cannot be overestimated.

eare of motive power and equipment cannot be overesti-mated. The admission to Statehood of Oklahoma and Indian Territories as one State, mention of which has been made in previous annual reports, doubtless will be effected next month. A constitutional convention has formfulated and alopted a constitution for the new State, which will be cation at an election to be held September 17th instant. If a majority of the votes, gast shall favor the adoption of the proposed constitution, the result of the election will be certified to the President, within twenty days from the date of the receipt by him of the certificate of the result of said election, to issue his proclamation and announce the result of said election, provided that he finds the Constitu-tion of the proposed State to be republican in form and according to the provisions of the enabling Act. The benefits which your Company anticipates from the freation of this new State, in the way of added traffic and increased value of its property resulting from the growth of population and corresponding development of the re-sources of the country affected, have been referred to in zerous reports. Tour Company mas not relaxed its efforts to promote the first industrial development of the country adjacent to inverse of the year are 2 cotton mills, 14 cotton gins, 19 cotton warehouses, 6 cotton seed oil mills, 8 canning fac-tories, 3 corn mills, 4 oil refineries, 2 large cement plants, 1 arge powder mill, 3 smelters, 1 car wheel foundry, 1 wagon factory, 2 machine shops and foundries, 2 ice plants, 4 say mills, 4 lumber yards, 5 creameries, 2 broom factories, 1 hey ator, 1 brick yard, 1 cotton compress and 8 grain elevators. It is gratifying to observe the continued flow of inmigration to and estilement of the territory contigu-ous to your railway, and through the agency of your Com-pany's Land Bureau, which is an adjunct of the Passenger Department, 3,838 families have been located and 1,214,000 ares of land sold to homescekers. The condition of the crops along

increased acreage has been planted in cotton, which is expected to offset any decrease in production, which night otherwise have resulted from unfavorable weather conditions during the season of planting and growth. Harvesting, and consequently the movement of the crop, is later than usual. The outlook for the coal business is better than it has been for several years past. The failure of the wheat crop in Texas and the great damage to that crop in Oklahoma are factors rather to your Company's advantage than otherwise, as comparatively little wheat is produced along your railway, and Texas mills must now draw their supplies from districts where your Company is able to compete for the tonnage upon most favorable ferms. The movement of live stock promises to be fully up to our ability to take care of it. Commercial activity continues unabated throughout the community served by your railway; in fact, the industrial development of the territory tributary to your line, is advancing with such vigor that only great disaster may check its growth. While the year under review has been one of remarkable prosperity, still, all things considered, it is confidently expected that the earnings will be as satisfactory during the current fiscal year. Yet, in spite of the increasing gross earnings and the bright outlook for continued prosperity, the situation of the railroads in the United States is not especially a happy one. We find ourselves without facilities adequate to handle all the traffic offered for shipment, and in an endeavor to meet the requirements tracks and terminals become congested, motive power and equipment run down, roadway is impaired, men are overworked and other evils ensue tending to make transportation more difficult and vastly more costly for the railroads, as well as unsatisfactory to the public. The remedy for these evils lies in enlarging facilities and increasing equipment, but, strange to say, the public, so vitally interested in the question of transportation, has assumed an attitude of hostility

Societe Anonyme Westinghouse (French Westinghouse Co.).—Debentures to be Pledged.—See Westinghouse Electric & Manufacturing Co. below.—V. 85, p. 597.

Toronto Electric Light Co .- New Stock Offered .- Stockholders of record Oct. 15 are offered the right to subscribe to the extent of one-third of their holdings to the \$1,000,000 new stock authorized in January last at par, payable 10% on allotment and the remainder in monthly installments of 10% each on Nov. 15 and succeeding months.—V. 84, p. 395, 54.

United Bank Note Corporation.—New Office Building in New York.—The "Record and Guide" of New York for Aug. 31 (page 326) has an illustrated description of the new office building of the subsidiary American Bank Note Co., in which they say

for improvements is concerned, and it is impossible for the average railroad company to make extensive betterments for the cost of labor, material and supplies. The policy of increasing the burdens upon railways and at the same time diminishing their earning power is neither just nor reasonable from any rational point of view. Operating expenses are necessariy inflated to such an extent as to leave little or no balance after the payment of fixed charges and concostantly increasing taxes. The legislatures of the several States demand impossibilities and require a reduction of rates, already the lowest in any country, without recognizing the fact that they are depriving the railroads of income which in most cases would be expended in payment for betterments absolutely necessary for the safe, economical and expeditious movement of traffic. They call for expenditives while refusing to let the railroads earn the most eases would be expended in payment for betterments absolutely necessary for the safe. They call for expenditives while refusing to let the railroads earn the most eases would be expended in the reason and expeditious movement of railroad earn the moster than the greed and ambition of politicians which are responsible for the unjust requirements imposed upon us. It is gratifying to observe that in Texas the press has, in the main, exhibited a due sense of the right, recognizing the necessity of railway development in that Rate Bill' introduced in the Texas Legislature. The law-makers have been aided in their assaults by the labor unions. If a generous increase in pay and the shortening of hours of he railway service all over the country, and offers a probing for have not been productive of increased efficient, and simplify because of the scarcity of labor, and especially of the experienced labor required for the safe and efficient principally because of the scarcity of labor, and especially of the experienced labor required for the safe and efficient to whow that these troubles are less serious with your for improvements is concerned, and it is impossible for the readily admit that they receive fair treatment and are accorded their just rights.

Railway managers have good reason to view the future without optimism, and they feel misgivings as to their ability to maintain the present standard of efficiency or to produce net returns as large as those of former years. Sta-tistics show that while so far in 1907 there has been a sub-

stantial increase in the gross earnings of railroads as a whole, the net earnings have not gained proportionately. The general conditions seriously affect your Company, but it is believed that the exceptional development of the country tributary to your railway will be reflected in future-substantial increases in the gross earnings of your property; and that upon the completion of improvements now under way, and such others as your Company will doubtless find the means of undertaking, such economies in operation may be effected as will offset and perhaps overcome the adverse influences now so prevalent. There are hopeful signs of a growing realization in the mind of the public and of public officials of the true attitude of the railroads, evidenced by a more conservative tone in the recent utterances of the press and of representatives of the Government who have hitherto proclaimed radical opinions upon this subject, their modified and of representatives of the Government who have hitherto-proclaimed radical opinions upon this subject, their modified views being the result doubtless of the extraordinary depre-ciation in the value of securities and the consequent uneasi-ness respecting the future prosperity of our country resulting from the indiscriminate agitation against railroads and the foolish attacks upon corporations in general. We believe that the American people are too intelligent and too thrifty to allow themselves to be misled by demagogues into a continuance of a policy which cannot fail to do incalculable injury to the general business of the nation The officers and employees of your Company have, as heretofore, been zealous and faithful in the discharge of their duties.

their duties

their duties. Especial reference is made to the usual statements and tables appended, giving the details of your Company's financial condition and operations. \*\* Respectfully submitted, ADRIAN H. JOLINE, Chairman and President.

[For comparative statement of operations, earnings, balance sheet, etc., see a preceding page.]

The handsome five-story granite building being erected by the American Bank Note Co. at the corners of Broad, Beaver and Marketheld streets, New York City, will be completed Dec. 1. It will be occupied exclusively by the executive officers and departments, and will represent the genera administrative headquarters of the company in the United States. The structure measures 66x44 it. and is of fireproof steel construction through-out.—V. 84, p. 1433, 225.

United Gas & Electric Co., New Albany and Jeffersonville, Ind.—Notes Offered.—The Trowbridge & Niver Co., Chicago and Boston, is offering at 95.84 and interest, yielding the investor 7% income, \$350,000 Notes, dated Aug. 1 1907 and payable five years after date. Optional at 101 and interest on any interest date after 30 days' notice. Denomination \$1,000 and \$500. Semi-annual interest payable at the Central Trust Co. of Chicago, trustee. This issue is secured by a deposit with the Central Trust Co. of \$385,000 5% consolidated bonds of the same company. A circular says:

The surplus earnings of the company for year ending May 31 1907, after paying all expenses, interest, taxes, &c., amounted to \$62,528, or surplus earnings of three times the interest on the notes here offered. The com-pany owns large power and gas plants of the most modern construction at New Albany and Jeffersonville, Ind., and is furnishing electric current and gas to four cities and towns, serving in all a population of about 50,000; also to four large traction lines, besides numerous manufactories and com-mercial enterprises.--V. 84, p. 577.

United States Steel Corporation.—Orders Show a Falling Off of 25%, but Outlook Considered Favorable.—E. H. Gary, Chairman of the board of directors, has made the following statement:

Chairman of the board of directors, has made the following statement:
I have always hesitated to make public any estimate for the future, experiso far as inference of future business may be drawn from statements of present conditions. Before leaving for Europe, in July, I expressed the opinion that theorders for the last half of the year would not be equal to those of 1906. It looked then, as I stated, that the falling off in new business would not be less than 20%. The figures show 25% and the decline was caused largely by the railroads. Until the committee of railway officers and steel experts makes its report on what rail should be adopted as a standard to best meet the requirements of heavy traffic and modern locomotives, no orders for rails will be placed. That report will be made in the near future.
To me the general situation is this: The country was in need of between \$500,000,000 and \$1,000,000 additional capital, and could not get it. The next best thing happened—a slowing down. If the favorable weather continues for the new cars and rails. A general quickening of business will follow.
Dubts have existed in the minds of the investing public as to the outrolow. But will work officers in the near thrute the investing public will realize that not in ten years has such a chance been offered to pick up good securities.-V. 85, p. 415, 350. **Van Buren (Ark.) Water Co.**—*Change in Control*. J. E. Powers and associates of Van Buren, who, it is said, purchases and associates of Van Buren, who, it is said, purchases and associates of Van Buren, who, it is said, purchases and associates of Van Buren, who, it is said, purchases the sum for \$100,000. The directors now are: J. E. Powers, President and Manager; A. N. Kellogg, Vice-President, and L. H. Southmayd, Secretary, the other directors being H. C. Parnot and W. A. Steele.

Waltham (Mass.) Gas Light Co.—Mortgage.—A mortgage for \$300,000 has been filed to the Boston Five Cents Savings Bank. This mortgage presumably replaces the \$250,000 temporary mortgage made last year to the City Trust Co. of Boston.—V. 83, p. 1475.

Western Ice Co.—See Knickerbocker Ice Co., Chicago, above.—V. 84, p. 343.

above.-V. 84, p. 343. Western Power Co., California.-Decrease of Capital Stock. This California incorporation recently filed a certificate of decrease of capital stock from \$5,000,000 to \$50,000, its property having been taken over by the Great Western Power Co. of California, whose capital stock is all owned by the Western Power Co. (of New Jersey). Compare V. 83, p. 400, 973. 499, 973.

Westinghouse Air Brake Co., Pittsburgh.—Annual Re-port—Proposed Stock Dividend of 25%.—See "Annual Re-ports" on a preceding page.—V. 83. p. 625, 577.

Westinghouse Electric & Manufacturing, Co.—New Note Issue.—Application was made on Wednesday to the Pitts-burgh Stock Exchange to list 20,000,000 francs (\$4,000,000) 10-year 5% collateral notes dated Aug. 1 1907, due Oct. 1 1917, interest to start from Oct. 1 1907. These notes, which are to be offered for subscription in France and other European countries, but not in America, are secured by 14,-000,000 francs 5% 25-year debentures of the Russian West-inghouse Electric Co., 10,000,000 francs 5% 30-year deben-tures of the French Westinghouse Co. (see V. 85, p. 597, 598) and \$420,000 of the stock of the Canadian Westinghouse Co. The Societe Generale of Paris has contracted to pur-chase 14,000,000 francs of the note issue with a three-months' option to purchase the remaining 6,000,000 francs. The Westinghouse Electric & Manufacturing Co.-New option to purchase the remaining 6,000,000 francs. The proceeds will provide working capital for the Russian West-inghouse Electric Co. and 7,000,000 francs additional working capital for the French Westinghouse Co. An official is quoted in substance as follows:

Is quoted in subscance as follows: The transaction in so far as it relates to the business of the Societe Elec-trique Westinghouse de Russie (Russian Westinghouse Electric Co.) will enable that company to execute its contracts of over \$5,000,000 with the municipal authorities for the electrification of the St. Petersburg tramways and to purchase electrical works in Moscow for the manufacture of the machinery needed in the execution of the contracts referred to, being in effect the carrying out of a contract entered into on July 12 1906 between the Westinghouse Electric & Manufacturing Co., Westinghouse Machine Co.—both of Pittsburgh—the Central Electric Co. of Moscow, &c.

Co.—both of Pittsburgh—the Central Electric Co. of Moscow, &c. Par value of each note is 500 francs, or £20. Subject to redemption on or after Oct. 1 1908 upon any semi-annual interest day at a premium of 5% if redeemed on or before Oct. 1 1912, or  $2\frac{1}{2}\frac{2}{3}$  if after that date. Trustee, the Mer-cantile Trust Co. of New York. Interest payable April 1 and Oct. 1 at Paris in frances or at London in sterling or at Pittsburgh by check on Paris or London.—V. 85, p. 606, 474.

-W. D. Marks has issued a fourth edition of his book entitled "The Finances of Gas and Electric Light and Power Enterprises." Five chapters have been added covering original researches in the cost of electric street lighting and gas and its prices in New York and Philadelphia. The thirteenth chapter contains a study of the evidence in the recent suit of the Consolidated Gas Co. against the city. There is a chapter relating to railway rates. W. D. Marks, 623 Park Row Building, New York. Price \$4 postpaid.

-Pardon Miller, formerly representative for N. W. Harris & Co., and Daniel F. George, at one time representative for E. H. Gay & Co., announce the formation of a copartner-ship under the name of Miller & George. The firm will be located at 96 Westminster Street, Providence, where it will deal in high grade investment convirting deal in high-grade investment securities.

# COMMERCIAL EPITOME.

Friday Night, Sept. 20 1907.

Friday Night, Sept. 20 1907. Aside from some shading of prices for copper and iron, values are pretty well sustained. Increased export demand for breadstuffs has been something of a feature, and, taking the business situation as a whole, it is not unfavorable, a tendency toward greater conservatism not altering the fact that transactions are still large. LARD on the spot has been quiet, at some decline in sym-pathy with easier markets at the West, where a disposition to sell has been very manifest. City has receded to 8<sup>3</sup>/<sub>4</sub>c. and Western to 8.95@9c. Refined lard has been quiet but in the main pretty steady. Refined Continent 9.65c., South American 10.30c., Brazil, in kegs, 11.60c. Lard futrues have sympathized with depression in other hog products. DAULY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

SUGAR.—Raw has latterly advanced, but business has been quiet. Centrifugal, 96 degrees test, 3.95c.; musco-vado, 89 degrees test, 3.45c. Refined has been in fair de-mand and firm, with granulated 4.70@4.90c. Teas have been in active demand and steady. Spices have been steady, with a fair demand. Hops have been quiet, nearly nominal at late questions.

been in active demand and steady. Spices have been steady, with a fair demand. Hops have been quiet, nearly nominal at late quotations. PETROLEUM has been in good demand and the sales have been large, both to the home and foreign trade, at firm quotations. Refined, barrels, 8.45c.; bulk 4.95c. and cases 10.90c. Gasoline has been in brisk demand and firm; 86 degrees, in 100-gallon drums, 21c. Naphtha has been firm, with a good trade; 73 to 76 degrees, in 100-gallon drums, 18c. Spirits of turpentine has advanced, owing to a rise in Savannah and a small stock here in few hands. Quotations have latterly been 55½@56c. Rosin has been quiet but firm at \$4 25 for strained. TOBACCO.—In domestic leaf only a fair business has been done and prices have been no more than steady. In Sumatra leaf, on the other hand, the transactions have con-tinued on a liberal scale. Havana has met with only a moderate sale, but prices have been pretty well main-tained. The crop prospects in this country have within the last few weeks greatly improved. COPPER has declined to 151% for electrolytic and 15½ for standard Lake, on which basis there has latterly been more business. Iron, after showing more or less weakness, has within a day or two become rather steadier, with less pressure to sell and a somewhat better demand for some descriptions. No. 1 Northern \$20 700(\$21 20. Lead has been weaker, owing to overproduction, at 4.65% 7.75c. on the spot. Spelter has declined to 5.10(@5.15c. Tin has advanced sharply in London, where there has been a corner, the price there rising £7 in two days. Straits was quoted here on the spot at one time at 37½@37%c., but latterly small lots have ruled at 36.90@37c., although the London corner continues. London corner continues.

# COTTOM.

Friday Night, September 20 1907.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 152,868 bales, against 100,227 bales last week and 44,559 bales the previous week, making the total receipts since the 1st of September 1907, 293,063 bales, against 399,427 bales for the same period of 1906, showing an decrease since Sept. 1 1907 of 106,364 bales.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

Continental imports past week have been 39,000 bales. The above figures for 1907 show an increase over last week of 41,455 bales, a gain of 434,140 bales over 1906, a decrease of 507,318 bales over 1905, and a gain of 800,148 bales over 1904. AT THE INTERIOR TOWNS the movement—that is, the receipts for the week and since Sept. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period for the previous year—is set out in detail below.

WEATHER REPORTS BY TELEGRAPH.-Advices to us by telegraph this evening from the South indicate that, in the main, the weather has been favorable the past week. Over much of the Southwest rain has fallen, but except at a few points the precipitation has been light or moderate. Cotton picking is making good progress in most sections.

Galveston, Texas.—Picking is making favorable progress. Rain has fallen excessively on four days of the week, the rainfall reaching four inches and fifty-seven hundredths. The thermometer has averaged 78, ranging from 71 to 85. *Abilene*, Texas.—Rain has fallen on one day of the week, to the extent of one hundredth of an inch. The thermome-ter has ranged from 68 to 94 averaging 81

ter has ranged from 68 to 94, averaging 81. Brenham, Texas.—There has been rain on one day during the week, the precipitation being ninety-seven hundredths of an inch. Average thermometer 72, highest 92 and lowest 61

Corpus Christi, Texas.—We have had rain on one day of the week, the rainfall being one hundredth of an inch. The thermometer has averaged 77, the highest being 88 and the

thermometer has averaged 17, the highest being 88 and the lowest 66. Dallas, Texas.—Rain has fallen on two days of the past week, the rainfall reaching two hundredths of an inch. The thermometer has averaged 76, ranging from 58 to 95. Fort Worth, Texas.—We have had rain on two days dur-ing the week, the rainfall being thirty-three hundredths of an inch. The thermometer has ranged from 78 to 90, evenening 80

an inch. The thermometer has ranged from 78 to 50, averaging 80. Huntsville, Texas.—Rain has fallen on two days during the week, the rainfall reaching ninety hundredths of an inch. Average thermometer 76, highest 91, lowest 61. Lampasas, Texas.—There has been rain on one day during the week the reaching intra factor hundredths of an

Lampasas, Texas.—There has been rain on one day during the week, the precipitation being fifteen hundredths of an nch. The thermometer has averaged 72, the highest being 92 and the lowest 51. Longview, Texas.—There has been rain on one day of the past week, the rainfall reaching eight hundredths of an inch. The thermometer has averaged 81, ranging from 68 to 93. Palestine, Texas.—We have had rain on two days during the week, the rainfall being two inches and fifty-one hun-dredths. The thermometer has ranged from 62 to 90, aver-/ aging 76. aging 76.

aging 76. Paris, Texas.—There has been rain on one day during the week, the precipitation being twenty-six hundredths of an inch. Average thermometer 77, highest 95 and lowest 59. San Antonio, Texas.—We have had rain on one day dur-ing the week, the precipitation being thirty-eight hundredths of an inch. 'The thermometer has averaged 82, the highest being 94 and the lowest 68. *Helena, Arkansas.*—Weather has been fine for rapid pro-gress in picking cotton. There has been no rain since the 9th. The thermometer has averaged 77, rarging from 64 to 90. to 90.

Memphis, Tennessee.-Picking making progress, but not yet general. Rain has fallen on one day of the week, the

Mempris, Tennessee.—Picking making progress, but not yet general. Rain has fallen on one day of the week, the rainfall being eleven hundredths of an inch. Average ther-mometer 78.9, highest 90.4, lowest 61. *Nashville, Tennessee.*—Picking is now under full headway. We have had no rain during the week. The thermometer has averaged 77, the highest being 90 and the lowest 63. *New Orleans, Louisiana.*—We have had rain on five days of the week, the rainfall being two inches and eighty-five hundredths. The thermometer has averaged 79. *Shreveport, Louisiana.*—Rain has fallen on two days of the week, the rainfall reaching nine hundredths of an inch. The thermometer has averaged 76, ranging from 60 to 92. *Little Rock, Arkansas.*—The weather has been favorable for maturing cotton and picking has begun on hill lands. The condition of the plant shows no material change. There has been no rain during the week. The thermometer has ranged from 62 to 90, averaging 76. *Union Springs, Alabama.*—The crop in this section will be the shortest in several years. There is no chance for a top crop. We have had no rain during the week. The thermometer has averaged 73, the highest being 89 and the lowest 68. *Mathem Flarida*—Rain has fallen on three days of the lowest 68.

Madison, Florida.—Rain has fallen on three days of the past week, the rainfall reaching seventy-five hundredths of an inch. The thermometer has averaged 81, ranging

of an inch. The thermometer has averaged 81, ranging from 72 to 92. Savannah, Georgia.—It has rained on five days of the week, the precipitation being two inches and sixty-two hundredths. Average thermometer 77, highest 86, lowest 69. Stateburg, South Carolina.—Nights are becoming cooler with heavy dews on hills and fogs over low grounds. More rain is needed for cotton as well as for fall crops. Rain has fallen lightly on one day of the week, to the extent of six hundredths of an inch. The thermometer has ranged from 63 to 89, averaging 77. Charlotte, North Carolina.—Farmers are marketing first pickings freely. There has been no rain during the week. Average thermometer 76, highest 90 and lowest 62. INDIA COTTON MOVEMENT FROM ALL PORTS.

PRODUCTION OF COTTON IN 1906-07 APPOR-TIONED TO STATES.—The subjoined statement of the yield of cotton in each producing State in 1906-07 is based upon investigations made by us since the close of the season. The commercial crop reached a total only slightly less than the record year cf 1904-05, and was 2¼ millions greater than the yield for 1905-06. It will be observed that, while in the Atlantic sections the various States exhibit losses from 1905-06, elsewhere gains are recorded, the increase in Texas being especially heavy. Compared with 1903-04 and 1902-03 increases of about 3¼ millions and 2¾ millions respectively are recorded. The average yield of lint per acre has advanced from 191 lbs. in 1905-06 to 2111 lbs. the past season. The production by States for the last five seasons has been as follows: <u>COMMERCIAL CROP PRODUCTION BY STATES</u> "Chronicle"

1903 446 1171 The number of round bales included this year is 7,661, as compared with 21,855 bales in 1906, 22,231 in 1905, 31,187 in 1904 and 570 bales in 1903. The number of bags of Sea Island cotton is 82 in 1907, 63 in 1906, 1,165 in 1905 and 431 in 1904. The above statistics for the crop of 1907 have been compiled from tele-graphic reports by the special agents who canvased the ginnerles, and the statistics are subject to slight correction from the card reports of the ginners, being transmitted to the office through the mails. In this report two round bales have been counted as the equivalent of one square bale. ALEXANDRIA RECEIPTS AND SHIPMENTS.

#### BREADSTUFFS.

### Friday, Sept. 20 1907.

Prices for wheat flour have, much of the time, been, to a large extent, nominal, whatever the firmness of wheat. The transactions have been light, and of late prices have been somewhat inclined to sag in some cases, though Kansas spring straights have brought better prices than last week. But business has been on so restricted a scale that the market has been without any very positive tone either way. The Minneapolis flour output for the week is estimated at 325,000 barrels against 343,205 barrels last week, which was the largest since Oct. 1906. Minneapolis and interior mills have had considerable trouble about getting cars and have had a lighter trade. Rye flour and corn meal have been in fair demand and steady.

have had a lighter trade. Rye flour and corn meal have been in fair demand and steady. Wheat has latterly advanced, owing partly to a better export demand, liberal clearances for foreign ports and higher European markets. Other strengthening factors have been reports of damage by frost in Canada and drought in India and Australia. It is insisted that the damage to the crop in the Canadian Northwest is serious, cutting down the outturn of good milling wheat there to such an extent that it is likely to be somewhat scarce. The reports, in any case, from Manitoba have been of so gloomy a nature that they have undoubtedly had not a little to do with the advance which has taken place in American and European markets. A large business in cash wheat has been reported in the Southwestern markets, and Kansas City advices are to the effect that export business by way of the Gulf would be much larger were there more certainty of getting cars. Northwestern prices have been firm, and the stock at Min-neapolis has decreased noticeably. Some heavy rains have occurred in the spring-wheat sections, which have given rise to fears of damage on this account. Russian advices state that prices have been advancing. The drought is said to be spreading in Australia to Victoria and New South Wales. The cable dispatches from Germany have been bullish, showing rising prices. Speculation in this country, how-ever, has not been brisk as a rule. Northwestern receipts have been pretty liberal and stocks at Chicago are large. To-day trading was active, however, at a further rise, with some excitement, due to advancing foreign markets and rumors of large export transactions in this country. Argen-tine shipments were small. tine shipments were small.

Indian corn futures have at times shown a downward tendency, owing to warm and favorable weather at the West, a fact which has caused commission houses to sell quite freely. Latterly, however, this cereal has sympa-thized in a measure with the advance in wheat, particularly as the Liverpool market has become firmer. Some reports are to the effect that much of the corn is still green and needs warm weather for a time. There has been some export inquiry but little actual business. Exporters have bought some new corn for January shipment, old crops being difficult to obtain on a working basis. To-day, owing mainly to the strength of wheat, prices advanced. The rise was partly due, however, to higher foreign markets and fears of unfavorable weather. Light frosts were predicted for Iowa and the Northwest Indian corn futures have at times shown a downward for Iowa and the Northwest

GOVERNMENT WEEKLY WEATHER REPORT.— Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the weather in the various States for the week ending Sept. 16, summarizing them as follows:

for the week ending Sept. 16, summarizing them as follows: The weather was decidedly cool in Montana and the western portions of the Dakotas during the week ending Sept. 16 1907, and the fore part was coler than usual in the central valleys and upper Lake region. In the last-named district, however, and in the lower Lake region and Atlantic Coast districts the mean temperature was considerably above the normal. The weather was cooler than usual in the central Gulf districts. Light or heavy frosts occurred in North Dakota on the 9th and 10th, in South Dakota and Nebraska on the 10th, in Colorado and Arizona on the 10th and 11th, in West Virginia on the 12th, in Montana, Idaho and Nevada on the 13th and in Utah on the 14th. While temperatures sufficiently low for frost occurred in the upper Lake region, cloudiness appears to have prevented its formation. Drought continues in western Texas and in portions of Alabama and the Carolinas, and rains would prove beneficial in Okahoma, Nebraska, eastern South Dakota and mortheastern Ohio; elsewhere east of the Rocky Mountains the picelpitation has been generally sufficient for present needs. The percentage of sunshine was high throughout the central valleys and the Middle Atlantic and west Gulf States, but was below the ormal in the east Gulf States and in the northern districts westward of the upper Lake region. No unusually severe local storms have been reported.

The statement of the movement of breadstuffs to market as indicated below are prepared by us from figures collected by the New York Produce Exchange. The receipts at Western lake and river ports for the week ending last Saturday and since Aug. 1 for each of the last three years have been:

### THE DRY GOODS TRADE.

New York, Friday Night, Sept. 20 1907.

New York, Friday Night, Sept. 20 1907. The cotton goods market has been of a more irregular character during the past week than for some time, and the immediate outlook is somewhat puzzling. The primary market, generally speaking, is firm, owing to the continued searcity of spot supplies and the well sold-up condition of mills: but in a few instances, mostly in the case of goods particularly affected by the price of the raw material, there are signs of weakening, and lower prices would be accepted to-day than a week or so ago. Apart from the lower price of cotton, business has been affected to a certain extent by the continued relative stringency in the money market, and this has resulted both in some re-sales by second-hands at slight concessions and also in occasional requests for the postponement of September shipments. On the other hand, a feature of the week has been some heavy buying of print cloth regulars at top figures for delivery up to February of next year; in addition to which orders for staple prints and ginghams have been on an unusually heavy scale, and the latter have been marked up to a higher level. The jobbing trade has been of a normal character, but business generally has been somewhat interfered with by the observance of the Jewish holidays. Exporters are doing practically noth-ing, owing to the high prices demanded, and these are care-fully watching the raw-material situation in the hope that there will be a reduction of values to a level where American goods will again appeal to outsiders. Woolen and worsted duss goods have been quiet during the week,and some anxiety has been caused in men's wear circles by reductions in the price of spring woolen goods. The cotton goods market has been of a more irregular price of spring woolen goods.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending Sept. 14 were 2,531 packages, valued at \$232,484, their destination being to the points specified in the table below:

	1	907	1	906

Other countries	275	20,161	83	12,270
Total	2.531	133,145	6,485	218,511

Total \_\_\_\_\_\_2,531 133,145 6,485 218,511 The value of these New York exports since January 1 has been \$7,876,626 in 1907, against \$12,502,346 in 1906. With second-hands offering heavy brown drills and sheet-ings and mills seeking new business this class of goods can be purchased at lower prices than those recently obtaining; the market cannot be described as weak, however, and while the cotton situation is being closely followed, the recent decline in the price of the raw material has not had the effect that might have been expected. Any further serious decline in the price of cotton would, however, make itself seriously felt. Medium-weight sheetings are also slightly easier, with

buyers inclined to hold off awaiting developments. Bleached goods are steadily held, but there is not the same amount of future business offering at current prices; owing to the scarcity of supplies the spot situation remains strong. There is no difficulty in disposing of coarse, colored cotton goods avail-able for delivery during the balance of the year at full prices, and inquiries for deliveries during the first three months of 1908 continue numerous. Napped goods are still scarce and prices are fully maintained. The business in prints continues of unprecedented volume, and very heavy orders have been received for goods prior to Sept. 24, when the ad-vance goes into effect. These and ginghams are among the strongest spots in the market, the latter being heavily under order and having been advanced during the week. The appearance of brokers acting for M. C. D. Borden in the print cloth market during the week has had a steadying effect, and estimates of their purchases of regulars for de-livery up to February of next year at the full price of  $5\frac{1}{24}c$ . range from 75,000 to 200,000 pieces. Standard gray goods have declined  $\frac{1}{24}c$ , to 7c., under the influence of re-sales by second-hands and the desire of mills to secure further business. buyers inclined to hold off awaiting developments. Bleached busines

by second-hands and the desire of mills to secure further business. • • WOOLEN GOODS.—The holiday feeling during the past week made itself felt more in the woolen and worsted goods market than in the cotton goods market, and business has consequently been of very small volume. In the men's wear division the demand has principally been for fall goods, and the tendency of orders has been to decidedly favor goods of a brown shade. These have been quite successful, and many mills are so sold up that they are unable to accept any more business. There has been a fair inquiry for over-coatings, and in these fancies have placed plain fabrics in the background. The cooler weather of the past few days is confidently relied upon to stimulate business. In spring goods a quite disturbing effect has been created by the announcement of a woolen mill to the effect that they are disappointed with the orders already booked and are pre-pared to accept business at a reduction of 10% from pre-viously quoted prices, making the reduction apply to goods already sold. The effect of this upon other mills still re-mains to be seen, but it has introduced a further disturbing element into an already unsatisfactory situation. There is little new 'spring business offering, but complaints of slow deliveries of samples are being frequently heard. Dress goods have been particularly quiet during the week, and while re-orders for fall have been slow, spring business has been far from active. from active

FOR EIGN DRY GOODS.—Imported woolen and worsted dress goods are somewhat irregular, some lines selling well and others being neglected. Worsteds are in best demand. Silks have been adversely affected by the raw material situ-ation. Ribbons are selling well. Linens continue strong, with the slowness of deliveries causing some apprehension. Burlaps are much firmer and light-weight goods are scarce.

# STATE AND CITY DEPARTMENT.

## News Items.

<sup>1</sup> Chicago, Ill.—New City Charter Dejeated.—The election held in this city on Sept. 17 to vote on the question of a new city charter resulted in the defeat of that proposition. The returns show that 59,581 votes were cast in favor of the new charter and 121,479 against it. This makes a total of 181,060 out of a registered vote of 361,968. It is thought that the light vote onled was due largely to the feat that 181,060 out of a registered vote of 361,968. It is thought that the light vote polled was due largely to the fact that the election was a special one and that the granting of time off to the voters was optional with the employers. The principal reason assigned for the defeat is the fear of in-creased taxes, as under the terms of the new charter the debt limitation was raised and additional power conferred upon the city officials to borrow money for public improvements.

Connecticut.-Revision of State Constitution .- On Oct. **Connecticut.**—*Revision of State Constitution.*—On Oct. 7 1907 the electors of this State will vote on a proposed amend-ment to the Constitution. This amendment is in the form of a revision of the entire Constitution. It makes only verbal changes in the section restricting the debt-making power. We give this section below, indicating by means of brackets such words in the old law as are to be omitted and italicizing the new words:

brackets such words in the old law as are to be omitted and italicizing the new words: No county, City, Town, Borough or other Municipality shall ever sub-scribe to the capital stock of any railroad corporation, or become the pur-chaser of the bonds, or make donation to, or loan its credit, directly or in-directly, in aid of any such corporation; but nothing herein contained shall affect the validity of any bonds or debts incurred under existing laws, nor be constructed to prohibit the General Assembly from authorizing any town or city to protect by additional appropriations of money or credit any valiroad debt contracted prior to the *amendment to the Constitution, adopted October*, 1877 [adoption of this amendment]

b) debt contracted prior to the amendment to the Constitution, adopted October, 1877 (adoption of this amendment).
Day County (P. O. Grand), Okla.—County Compelled to Pay Deferred Interest.—The following regarding a decision of the Supreme Court of Oklahoma in a suit instituted by the State of Kansas against Day County, Okla., to compel the payment of interest on bonds issued by that county is taken from the "Topeka Capital" of Sept. 10:
Kansas has won in the famous Day County bond case. The Supreme Court yesterday decided in favor of Kansas This decision is a victory for Assistant-Attorney General John Dawson, who has been working on the case for two years. There was something like \$8,000 with interest since 1903 involved.
Day County is in Oklahoma and in the sand hills. Early in the ninety's tis lisued warrants illerally and sold them. Later it repudated the warrants and refused to pay for them. The holders brought suits but were defeated because the warrants were illegally such and the the douber so the warrants the county again, and in the absence of records to show that the warrants the outry then proceeded to issue bonds with which to take up the old warrants. The bonds were issued legally and were properly registered. The Kansas State School Fund Commissioners bought \$8,000 worth of these bonds in the tatter ninety's such the warrants with the destine the pay do not mere guardy until 1903. Then Day County refused to pay, holding that since the det for which the bonds were issued legally the bonds were issued bellegally the bonds were issued bellegally and were properly registered. The Kansas State School Fund Commissioners bought \$8,000 worth of these bonds in the absence of the bonds and Dawson has not the the bonds thenselves were illegal. The Atorney-General brought suit to recover on the bonds and bawson the the bonds were issued was like at the bonds themselves were illegal. The Atorney-General brought suit to recover on the bonds and bawson the the bonds there se

Minneapolis, Minn.—Defeat of New City Charter.—Accord-ing to early returns the election held Sept. 17 (V. 85, p. 617 resulted in the defeat of the proposition for a new city charter

charter. Oklahoma-Indian Territory.—State Constitution Adopted. —Incomplete returns indicate that the election held Sept.17 (V. 85, p. 173) resulted in the adoption of the proposed Constitution for the State of Oklahoma, ratification of the prohibition article of the Constitution, election of the full Democratic State Ticket, an overwhelming Democratic majority in the Legislature and election of four Democratis and one Republican to Congress. The State Canvassing Board will begin to canvass the returns on Oct. 8. The final census figures for the new State show a total population of 1,414,042. Oklahoma having 721,141 inhabitants and Indian Territory 692,901.

annual. Bonds are exempt from taxation.
New Rochelle, N. Y.—Bond Sale.—On Sept. 17 the \$18,000 5% park-improvement certificates, the \$50,000 fire-depart-ment, \$25,000 street-improvement, \$15,000 assessment-map and \$17,136 32 local highway-improvement 5% registered bonds described in V. 85, p. 677, were awarded to Kountze Bros. of New York City at 100.28, 102.63, 102.52, 101.68 and 101.678 respectively. Following are the bids:

Cortland Sav.Bk., Cor. 25,250 00 New York City.—The Recent Bond Sale.—We are informed by the Department of Finance that the amount of 4½% 10-year assessment bonds awarded on Sept. 10 (V. 85, p. 678) to the syndicate composed of J. P. Morgan & Co., the Na-tional City Bank of New York, the First National Bank of New York and Harvey Fisk & Sons was \$3,590,600, and not \$3,585,600 as we were at first advised. The award of \$5,000 assessment bonds to Albert Seligman & Co. at 101 was sub-sequently rescinded. sequently rescinded.

In our editorial columns to-day, in the article "The Finan-cial Situation," we comment upon the correspondence which passed between Mr. J. P. Morgan and Mayor McClellan concern-ing the recent \$40,000,000 bond sale, and which makes it clear that the success of this  $4\frac{1}{2}\%$  offering, after the offering of 4s earlier in the month had failed, was primarily due to the

Hayde

efforts of the Morgan syndicate. Mayor McClellan in his letter thanks Mr. Morgan for his "great public spirit." The correspondence is as follows:

letter thanks Mr. Morgan for his "great public spirit. The correspondence is as follows:
 The Hon. George B. McCleilan, Mayor of the City of New York:
 Str.-In view of the importance of the transaction and the public interests involved, i twould seem to me desirable that the conditions of the municipal bond arrangement of Aug. 22, when you called upon me with Mr. Martin, the City Chamberlain should be stated and confirmed in writing.
 Toy your request for my financial advice and assistance to the City of New York, then facing financial advice and assistance to the City of the York York, then facing financial advice and assistance to the City of the work, then facing financial embarrassment resulting from the recent ineffectual offering of the 4% bonds of the city. I recommended that the city should make a public offering of \$40,000,000 of 04 ½ % bonds and stated and pald for at not less than the lowest price at which any such bonds should have been so sold) the whole or any portion of the remaining \$20,000,000 bonds so offered but not sold upon such offering, such option to be exercised by me on the day of the public sale and according to my judgment as to the best hitcrests of the city.
 The ursuance of such arrangement the Comptroller has advertised for the submission of sealed proposals for \$40,000,000 of 44 ½ % of corporate stock and bonds of the City of New York, to be received and opened upon Tuesday, the 10th day of September 1907; of which \$5,000,000 are expression of sealed proposals for \$40,000,000 on 44 ½ % of corporate stock and bonds of the Stock and bonds so offered by me guarantees that at least \$20,000,000 of the stock and bonds so offered will be bid and pald for at not less than part of the end by the same and partice work work, to be received and opened upon Tuesday. The 10th day of September 1907; of which \$5,000,000 on are corporate stock and bonds of the City of New York, to be received and part and bris stock and bonds would be

September 6 1997. Bretton Woods, N. H., Sept. 9 1907. J. Pierpont Morgan, Esq., 23 Wall Street, New York: Dear Sir.—I beg to acknowledge receipt of your letter of Sept. 6, which correctly states the arrangement which you made with the City of New York on Thursday, Aug. 22, which arrangement I confirm to the extent of my power so to do. I take this opportunity of thanking you on behalf of the city for the great public spirit you have shown. I am yours very truly, Mayor of New York. Mayor of New York.
