Total all cities for week	\$2,354,810,203	\$3,462,098,479	-32.0

The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we got to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, Jan. 4, and the results for the corresponding week in 1907, 1906 and 1905 are also given. Contrasted with the week of 1907 the total for the whole country shows a loss of 30.9%. Outside of New York the decrease from 1907 is 19.9%.

THE FINANCIAL SITUATION.

Two currency measures have made their appearance in Congress the present week. Senator Aldrich introduced his bill in the Upper House, while in the Lower House Congressman Fowler of the Banking and Currency Committee of that body submitted to the Committee a bill prepared by himself and which is understood to represent the result of the labors of a subcommittee which has had the matter of currency legislation under consideration since early in December. There seems to be a practical unanimity of opinion at Washington that the scope of the Fowler measure is so broad that there is not the remotest chance of its receiving Congressional approval. On the other hand, views are equally pronounced that the national legislative body can be got to endorse a measure on the order of the Aldrich bill. Indeed, the newspaper correspondents at the Capital intimate that the party leaders will concentrate all their energy in an effort to have the Aldrich bill pushed through both houses and made a law. We are told that in the House Speaker Cannon will lend his aid and influence to that end if the House Banking and Currency Committee should show undue devotion to its own scheme. Under these circumstances discussion must be limited to the Senate bill. In the matter of currency reform the question is not what we would like to have, but what we can get at the hands of our legislators.

It is to be said at the outset with reference to Senator Aldrich's bill that, unlike the Fowler bill, it is not an attempt to re-form or re-construct entirely our currency and banking system. That is the reason why it stands a much better chance of success. Its main purpose seems to be to make provision for special or emergency currency, available in times of stress or at special seasons of the year when the need for extra note issues is particularly urgent. With this purpose in mind, the bill provides for the creation of additional bank notes to a maximum of \$250,000,000, to be secured in like manner as the existing notes, but by a different class of bond issues. United States bonds being clearly unobtainable, the national banks are to be allowed to take out these additional notes on a deposit with the Government of State and municipal bonds and of first mortgage bonds of dividend-paying railroads meeting certain requirements and conditions. None of our readers need be told that we regard a bond-secured currency as unscientific and opposed to sound principles of banking. But it is of no use arguing on that point. Our Congressmen seem to be unable to get away from the idea that to insure absolute safety the note issue must have tangible collateral behind it. This being so, there is nothing to do but accept the situation and determine whether the provisions for the issue of this additional currency are such as to insure the successful working of the scheme.

The issue of the additional notes will rest in the first instance in the discretion of the Comptroller of the Currency. He may approve the application—"if in his judgment business conditions demand such additional circulation and the condition of the association making the application warrants the issue." Obviously, this is vesting a large amount of discretion in that official and increases still further the almost despotic powers already possessed by the Treasury

Department. He is also to determine the time of issue and fix the amount, within the limitations of the Act. The bonds to be deposited must "be approved in character and amount" by the Treasurer of the United States and the Secretary of the Treasury. And all acts and orders of the Comptroller and the Treasurer must have the approval of the Secretary of the Treasury. The notes are limited in amount to 75% of the market value of the bonds, as fixed by the Treasurer of the United States. A bank can only get the new notes if it has notes already outstanding secured by United States bonds to an amount of not less than 50% of its capital and has a surplus of not less than 20%. An innovation is that the total amount of notes of all kinds (both those based on United States bonds and those based on other securities) must not at any time exceed the amount of its unimpaired capital and surplus. At present, capital alone marks the limit

But what provision is made for the retirement of the notes? Obviously that is a point of the highest importance and by which test the measure must stand or fall. The most serious defect in our existing banknote arrangement is that it does not so work as to provide for contraction after there has been expansion. The Aldrich bill seeks to compel retirement of the new series of notes by levying a high tax on the same. The tax on the existing circulation is one-half of 1% per annum where based on 2% bonds and 1% per annum where based on United States bonds bearing more than 2% interest. The new notes provided for in the Aldrich bill are to be taxed one-half of 1% each month, which is at the rate of 6% per annum. Discussion of this part of the measure has developed two radically different shades of opinion. There are those who contend that there ought to be no tax at all. There are others who insist that only a high tax will insure quick return of the notes after they have served the special purpose for which they are to be issued. Among these latter persons, the only question is whether a 6% tax per annum will be sufficient to force retirement of the notes. Those who argue in favor of no tax at all contend that if this emergency currency is to be for use in crop-moving periods then the tax will fall ultimately upon the borrower.

But this objection cannot hold for a moment against the unassailable proposition that, except there be a tax, and a high one, the new notes would simply go out and stay out. Imagine a right granted to issue these added notes secured by city, State and railroad bonds without any tax being imposed for the privilege, or even with only a low tax imposed, such as now levied on existing notes. Even New York City is now issuing 41/2% bonds and some of the securities to furnish a basis for the new bank-note circulation can be bought so as to net even higher returns. In the contingency mentioned every bank in the country would rush to get possession of some of the legalized securities and present them as a basis for new notes. With only a nominal tax, or no tax at all, there would be no inducement to call in the notes; for whatever interest the bank might be able to obtain by loaning out the notes would be just that much additional to the interest received on the bonds themselves deposited as security for the notes. It is even conceivable that new banks might be organized to avail of the new privileges granted. Thus there would be an enormous

expansion in the outstanding volume of notes, which could lead to nothing but a tremendous speculation in Wall Street and on the Stock Exchange, for there is where the additional notes would find ultimate employment. The following season, when the crop-moving period recurred, the interior sections of the country would be no better off than before; the additional notes having already gone out and remained out, would not again be available. To prevent such a possibility we should favor a graded tax, increasing with the length of time that the added notes were kept out. For instance, if the notes were used more than 60 days, it might be provided that the tax should be raised to 1% a month, and if more than 90 days to 11/2% a month, and so on.

The Aldrich bill makes one other and highly important change. We mean that it removes all limit on the deposit of lawful money for the retirement of national bank notes. Prior to last March the aggregate amount of lawful money deposited by all the banks in the country for the retirement of notes could not in any month exceed \$3,000,000. By the Aldrich financial bill of last year the limit was raised to \$9,000,000 a month. It is proposed now to abolish the limit altogether. But does not this involve possibilities of some risks? And yet without such provision the whole scheme for a large emergency issue of notes necessarily falls to the ground. There are two ways of providing for the retirement of national bank notes. One is for the bank to present the notes itself and get back a proportionate amount of the bonds deposited as security for the same. The other is for the bank to deposit lawful money at Washington and thus get rid of the liability for the notes and secure a return of the bonds, the notes meanwhile remaining out. The latter is the usual process, since, the notes being scattered all over the country, it is not possible for the bank to gather them in. There has never been any limit upon the amount of notes that could be presented for redemption. The limit has been upon the deposit of lawful money, leaving the notes still outstanding.

Obviously, if we are to have an emergency issue of notes to an aggregate of \$250,000,000, and desire that the notes should be driven back home after the special emergency which has called them into being has passed, it would be absurd to set a limit upon the retirement of the notes short of the aggregate amount put out. But suppose that 100 to 150 millions of these notes are issued in the autumn to help move the crops. When these notes have served their purpose, the banks, to get rid of the tax, will make provision for their retirement. They cannot get the notes themselves, for they may be in some hamlet 1,000 or 2,000 miles off; consequently, they deposit money instead for their redemption. Under existing law the deposit for the redemption of the notes must consist of "lawful money." In the case of the additional notes now provided, the deposit may be of "lawful money or national bank notes." but the effect in either event will be to add very largely to Treasury cash holdings. The Secretary of the Treasury will accordingly have further amounts of cash to put out in addition to his excess revenues, increasing still more his embarrassments and making him an even more important factor in the money market. It may be urged that the Secretary should retain the cash until the notes came in. We may be sure, however, that if he had so affect the unofficial quotation as to militate against

much cash, there would be a public clamor for him to put it out, especially as the redemption fund was, a few years ago covered into the Treasury as a miscellaneous receipt.

Furthermore, it must be remembered that some of the money deposited will necessarily consist of reserve money, and to the extent that it does it might prove embarrassing to our banking institutions. Precisely such a situation arose some years ago when the deposits of legal tenders reached such a large aggregate. It was this that induced the Legislature to fix a legal limit upon the aggregate of the deposits monthly. Obviously, if the Treasury should put the money out again after receiving it from the banks for the retirement of these special notes, then we would have the curious result that the special notes and the money for their retirement would both be out at the same time, and there would be no contraction at all. Evidently, this is a provision needing further safeguarding. The difficulty arises out of the absence of redemption bureaus. Even under our present system of note issues, greater elasticity might be possible if redemption bureaus existed, insuring prompt return of the notes to the issuers.

One other change proposed by this Aldrich bill we have room only to allude to. The last section of the measure provides that national banking associations located outside of reserve or central reserve cities, which are now required by law to keep a reserve equal to 15% of their deposits, shall hereafter hold at all times at least two-thirds of such reserve in lawful money. This would mean that banks of that class would be obliged to keep 10% of eash in their own vaults. At present it is obligatory to keep only twofifths of the 15%, or 6%, in the shape of cash on hand.

The most important feature of the European situation this week was the easier tone for discounts at all the principal centres, with a reduction to 31/2% in the official rate by the Bank of France. The open market or unofficial rates at London receded to 41/2@45/8%, at Paris to 33/8% and at Berlin to 5@51/4%, against 5% at the British capital last week, 4@41/8 at Paris and 6@ 61/4 at Berlin and Frankfort. Coincidently rates for call loans in the New York market declined to an average of 6%, with exceptional transactions as low as 2%; contracts for fixed periods on Stock Exchange collateral were more freely offered at nominal quotations for the season of the year, and there was an active inquiry for commercial paper, the market for which has been in a state of almost complete paralysis for nearly six months. The recession in discount rates abroad reflected the improvement in the situation in New York, as shown in the bank statement of last week, and the fall in money rates at this centre seemed to indicate the early extinction of all visible traces of the crisis of last year.

The fall in discount rates at London appeared to foreshadow an immediate further reduction in the official rate of discount by the Bank of England this week; no change was, however, made in such rate at the regular court of Governors on Thursday, though it is still expected that there will be a reduction at least to 51/2% next week. Possibly then the Imperial Bank of Germany may reduce its rate, for the maintenance of its present figure of 71/2% might so far the success of the new Prussian loan which will be offered this week.

The fact now foremost for consideration is that, as shown by the above statements, the European money markets have been almost restored to normal conditions; the question therefore is how will these markets be reimbursed for their enormous contributions to the requirements of our own. It seems to be expected, at least in London, that the gold which was so freely supplied to New York during the crisis will soon begin to return. A need for that gold appears to be indicated by the fact that in February the Bank of England will have to remit to Paris the \$15,000,000 which the Bank of France advanced to that of England in November, when the situation became somewhat acute. This was due to the continued withdrawals of gold for shipment to New York. It is announced that the India Council will soon issue a loan of £5,000,-000 bearing 31/2% interest, presumably for internal improvements; the requirements of Egypt, South America and Chili may thereafter be large, and the absorptions of English capital for these and other purposes may be so great as to offset accretions from South Africa and the principal sources of supply. It seems quite conceivable that when applications for loans in the London market, which were deferred during our crisis, shall be renewed, there will be an urgent demand for capital, contributing to maintain rates for discounts in London at such figures as will attract gold from New York and thus realize present expectations of a reflux of the metal. If, coincidently, money rates in New York should rule low, or at figures which will make exports of gold to London profitable, there might be a free return movement of the metal. Therefore it would appear that relative money rates in New York and discounts abroad would be controlling factors in the international movement of the metal.

It is announced by the Prussian Minister of Finance that on Jan. 14 subscriptions will be invited to a new loan for 75 million dollars; the subscription price will be 981/2. Interest for the first ten years will be at the rate of 4%; for the next five, 33/4%, and thereafter 31/2%. Allotment certificates will not be negotiable until after Dec. 31 1908.

An incident of the week illustrative of the effects of the crisis upon the trade in luxuries was the temporary embarrassment of four of the largest diamond importers in this city, with liabilities of \$4,500,000 and assets of \$6,250,000, the latter consisting of diamonds and other gems, upon which realization was impossible, owing to the depression in this class of business. The affairs of the importers were placed in the hands of trustees for liquidation.

Another incident of a similar character was the reported extension of financial aid, amounting, it is said. to \$3,000,000, to a New York dry goods establishment, thus, it is represented, averting a serious crisis in the mercantile situation through the opportunity which is now offered for the resumption of the active negotiation of mercantile paper.

The completed abstract of the condition of the national banks as of Dec. 3 1907 was recently issued by the Comptroller of the Currency. The aggregates make a much better showing than had been anticipated in many quarters. Currency derangement (now almost removed) and in the case of loans, the New York City banks in-

monetary tension fostered such discouraging ideas as regards almost all banking institutions that the returns of condition of the national banks was looked forward to with misgivings by many. Happily that forecast has not proved to be correct. Moreover, it has not been necessary to await the completed statement to be assured of that fact, the reports for individual cities and States made public from day to day during December having furnished quite convincing evidence of a generally sound condition.

In times such as those we have recently experienced, some less conservatively managed financial institutions are bound to feel the strain more than others, and be temporarily forced to the wall, and in isolated instances the result is permanent stoppage of business. But the banking system of the country as a whole, and especially that portion of it under national supervision, is undoubtedly sound. The recent disturbed conditions forced a few institutions to close their doors. In some cases this has been the means of bringing to light practices that never should have obtained in banking circles, and for the full elimination of which steps are now sure to be taken.

As already stated, the condition of the national banks on Dec. 3, as disclosed by the reports to the Comptroller, was better than generally expected, and to that extent has materially assisted the restoration of confidence in financial and mercantile circles. Naturally, the growth in number of banks since the date of the last previous call (Aug. 22) has not been as rapid as during any of the recent intervals between calls, but there has been noticeable growth, and mainly, if not wholly, in localities where banking facilities were most needed. In the volume of loans of all the banks there is a moderate contraction from the record total of Aug. 22, and the present aggregate is slightly lower than the total of May 20 1907; all earlier periods are, however, exceeded. It is to be noted at this juneture that, whereas in almost all sections outside of New York a greater or less pruning of loans has been in progress, the total reported by the banks of this city is appreciably greater than it was in August and shows a moderate excess over the May aggregate. Deposits of bonds with the Government to secure circulation show a decided increase over Aug. 22, or any prior date, the amount standing at over 619 millions of dollars, against which 611 millions of dollars in bank notes had been issued, of which 60134 millions were in circulation Dec. 3. The increase in circulation since the date of the previous call has, therefore, been 50 millions of dollars, which in connection with the large importations of gold during the same period and the important increase in Government deposits in the banks has helped to restore normal monetary conditions. The larger Government deposits are reflected in the great increase (\$115,-000,000) in the amount of bonds turned in to secure them.

The greatest decrease shown from the aggregate of Aug. 22 is in the item of individual deposits, the total for all the national banks on Dec. 3 standing at \$4,176,873,717, against \$4,319,035,402 on the earlier date. But even that decline of approximately 142 millions is decidedly moderate considering the distrust prevailing during much of the interval.

creased their volume of deposits noticeably between August and December.

In actual banking capital the national institutions make a better showing than ever before in their history. Through the organization of new banks or increased capitalization of old institutions capital was augmented by 5 million dollars between Aug. 22 and Dec. 3 and at the same time surplus funds expanded about 11/4 millions and undivided profits 14 millions. These three items combined, therefore, stood at 1,652 millions on Dec. 3, which compares with 1,631 millions Aug. 22 1907 and 1,535 millions Nov. 12 1906.

Probably the greatest concern has been felt as to the condition of the reserves of the banks. It was to be expected that at many of the important centres the maintaining of reserves at or above the required percentage would be impossible. Such has been the case, but we are pleased to note that in no instance is the deficit reported so serious as to call for adverse comment. Of the reserve cities, where 25% of the net deposits is required, twenty-one report amounts under the requirements, but in most cases the deficit is small. The remaining cities held on the date mentioned reserves in excess of the amount required, and in some instances notably so.

The figures collected by a Chicago journal showing the most prominent private gifts to public purposes, and indicating that the past year has been the most remarkable yet in beneficence, are certainly pleasant reading after we have been so long regaled with exposures of the wickedness of accumulation. Yet these figures are liable to be too little noted, for human nature seems to be more attracted by ill news (or what appears to be such) than by good news. The total of these contributions is about 149 millions. Mr. Carnegie, renowned as a giver, is credited with a little over 13 millions; Mrs. Russell Sage, with as much more; and Mr. Rockefeller with about 441/2 millions, in which the unprecedented gift of 32 millions to the General Board of Education stands as chief.

The largest donations in this list are veritable and were made public at the time. The list is not necessarily to be accepted as correct throughout, and it is certainly not complete; but the moral, speaking economically, is distinct. However lofty or lowly the motives may be, the fact is that holders of large wealth are more and more treating it as a trust and more and more inclined and endeavoring to do public good with it. It is certain that capital cannot be threatened and cajoled at the same time, for persuasion and force are incongruous; reliance may be placed upon either, but it will be vain to expect both to be operative together. To treat accumulation as a presumption of wrong and keep it on the defensive, or (as extreme hostility would like to have it) "on the run," tends to make that expression true, for capital-free capital at least, which is what we most need to persuadealways has two courses open to it; to hide or to run. Hostile legislation has given recent examples by driving fire insurance out of Arkansas and life insurance out of Texas and Wisconsin. No public policy could be worse than to press capital to look for hiding places at home or to fly from home to kinder lands. If the notion which has been so much taught of late, most

erty is robbery, were not detrimental otherwise, the fact that it tends towards drying up the stream of private beneficence would be enough to condemn it.

The attempt to suppress by legislation the trading in futures or options on the Cotton Exchanges of the country has again been the subject of discussion the current week, owing to some pointed remarks on the matter by Mr. J. A. Taylor, President of the National Ginners' Association. Mr. Taylor, being a cotton grower himself, cannot be accused of being inimical to planters' interests, and his statement, therefore, should receive the close consideration of all those who have the material welfare of the South at heart. He reprehends strongly any legislation having for its purpose the prohibition of dealings in futures, and as an example of the harm possible to be worked by such a law cites the experience of German growers of grain under conditions similar to those the cotton planters would now bring about. His argument against the bill pending before Congress is so forceful and convincing that we give it space to-day in our cotton department.

It is not too much to say that no one thing has so thoroughly helped the cotton interests of the country as the Exchanges, which are now (and have been ever since the farmers' unions have gained prominence) the object of adverse attack. They have facilitated the movement of the crop from the producer to the consumer, and by the dissemination of news collected have enabled planters to keep in touch with the situation and secure full market value for their produce. As Mr. Taylor points out, speculation or dealing in options, far from being an evil, is a necessity, and the benefit is largely to the cotton grower. And yet there is a large element at the South which aims to shut up the Cotton Exchanges, thinking probably that with them out of the way, and important daily sources of information as to the crop and markets eliminated, it may be possible to fix prices wholly regardless of the supply and demand for it. While hostile legislation is not much apprehended at this session, those interested in cotton matters will be well repaid by a careful reading of what Mr. Taylor has to say.

As was expected, the "Iron Age's" figures of pig iron production show a tremendous falling off this time. Following the financial cataclysm in October and November there was a general blowing out of furnaces, and naturally this is reflected in the production statistics for December. Altogether, the make of iron in the 31 days of December reached only 1,234,279 tons, against 1,828,125 tons in November and 2,336,-972 tons in October. By far the larger part of this great contraction is accounted for by the decrease in the iron output of the steel companies. These steel companies, when the panic came, and the demand for the various products of iron and steel at once dwindled away, immediately practiced curtailment in all directions. They made altogether only 659,459 tons of iron in December, against 1,084,114 in November and 1,514,521 tons in October. The December product, it will be observed, was not much more than 40% of the October output. The merchant furnaces, of course, have also sharply curtailed their output. Altogether, the weekly capacity of the combined furhonestly expressed by the blunt assertion that prop- naces was only 232,652 tons Jan. 1 1908, against

511,397 tons per week Oct. 1 and 507,397 tons Jan. 1 1907. As the "Age" puts it, the capacity of the active furnaces Jan. 1 1908 was only about 45% of the average for the four months preceding November. Of course, these figures furnish no clue to the probable situation in the near future. As yet, there is no evidence of a return to normal conditions, but it may be that the revival will come sooner than generally expected. The policy thus far pursued by the iron makers has been that it is wiser to meet changed conditions rather than continue in the hope of early betterment and pile up stocks of iron. When the revival does come it will find the markets bare and recovery, consequently, will be rapid.

With the exception of the Bank of France, which reduced its rate to $3\frac{1}{2}\%$, there was no change in official rates of discount by any of the European banks this week, though the easier unofficial rates, at the principal centres, in the middle of the week, seemed, as already stated, to indicate a reduction in the official figures, at least at London. Some disappointment was felt, earlier in the week, at the failure of the Imperial Bank of Germany to reduce its rate in view of the fact that the Prussian loan negotiation was pending, which would seem to make desirable the establishment of a reduced official rate of discount in order to facilitate such negotiation; possibly, though, the German Bank rate will be reduced next week.

The striking feature of the statement of the New York Associated Banks last week was a reduction in the deficit by \$8,660,800, to \$11,509,550. Loans were contracted by \$14,822,600, cash increased \$8,045,900 and deposits were reduced \$2,450,600. Excluding from the deposits \$76,310,800 of public funds, a surplus reserve of \$7,568,150 is shown.

The above disclosure by the statement of the associated banks of an important reduction, following that in the previous week, in the deficiency in reserve, seemed to encourage expectations of the speedy extinction of nearly all visible traces, in the New York money market of the late crisis. Money on call loaned at normal rates for the season; loans on time on stock collateral were effected at reasonable quotations as the result of liberal offerings, and there was a decided improvement in the demand for commercial paper. Banks in the New England States no longer required the stamping of checks "payable through the Clearing House"; in some of the smaller cities of the West, where banks had issued loan certificates, such certificates were retired, and it was expected that similar action would soon be taken by clearing houses at all the larger cities in the West, now that Chicago banks are settling balances in cash. There appeared to be evidence in the increase in cash shown by the preliminary estimates of the bank statement that considerable amounts of money had been remitted hither from the West and elsewhere during the week, and it was thought probable that the paralysis in inland exchange, which has prevailed since the crisis developed, would soon be entirely relieved.

Money on call, representing bankers' balances, loaned at the Stock Exchange during the week at 9% and at 2%, averaging about 6%; banks and trust companies loaned at 4% as the minimum. On Monday loans were at 9% and at 4% with the bulk of the

business at 6%. On Tuesday transactions were at 9% and at 51/2% with the majority at 6%. On Wednesday loans were at 7% and at 2% with the bulk of the business at 6%. On Thursday transactions were at 51/2% and at 4% with the majority at 51/2%. On Friday loans were at 6% and at 31/2% with the bulk of the business at 51/2%. Time loans on good mixed Stock Exchange collateral were more freely offered than has been the case since the crisis began to develop, and it is noteworthy that while the offerings were comparativel; meagre by local institutions, they were quite liberal by those in the interior. The demand was, however, not urgent, partly because borrowers were disposed to await concessions in rates, and in part for the reason that commission houses are not encouraging operations by their clients on margin, and therefore their requirements for time money are small. Quotations are 61/2% for sixty and 6% for ninety days and business at the last-named rate was effected for six months. There was a more active market for commercial paper, which fact is important because hitherto mercantile borrowers have been compelled to negotiate such paper at much disadvantage not only submitting to high discounts but being required in some cases to pay large commissions for effecting its disposition. The inquiry this week seemed to be general and local institutions were not only in the market, but many of the banks in the interior were among the largest buyers. The rate quoted was $7\frac{1}{2}\%$ for the best names, though there were many and important transactions at 63/4%; these were confined to single names running from four to six months. It is noteworthy that short-term collateral notes are not in demand, owing to the increase in railroad receiver-

The Bank of England rate of discount remains unchanged at 6%. The cable reports discounts of sixty to ninety-day bank bills in London 4½@4½%%. The open market rate at Paris is 3½% and at Berlin and Frankfort it is 5@5½%. According to our special cable from London, the Bank of England gained £2,227,746 bullion during the week and held £34,771,408 at the close of the week. Our correspondent further advises us that the gain was due largely to receipts from the interior of Great Britain. The details of the movement into and out of the Bank were as follows: Imports £921,000 (of which £25,000 from Australia and £131,000 from Singapore and £765,000 bar gold bought); exports, nil, and receipts of £1,307,000 net from the interior of Great Britain.

The foreign exchange market was irregular this week, with long sterling firm, in consequence of lower discounts in London, and short sterling quiet and steady because of a light demand, owing to preference being given by remitters to Saturday's instead of to Thursday's mail steamer—the Lusitania, sailing on the first-named day, being expected to deliver her mails in advance of those by the French steamer, sailing on Thursday. After the demand for remittance by Tuesday's mail had been satisfied, the market was dull, growing a little more active on Wednesday and then becoming quiet until Friday. The inquiry for cables was small and the tone, therefore, was heavy. There was no evidence of speculative operations in exchange during the week, the uncertainty

regarding official discounts discouraging such ventures. The demand for remittance appeared to be chiefly on account of maturing obligations and also interest and dividends. There were a few transactions in loan bills to take advantage of the resumption of activity in the time loan branch of the money market.

The arrivals of gold from Europe during the week amounted to \$3,600,000, making the total thus far on the movement 100 millions. No engagements of the metal for New York were effected; the Bank of England secured nearly the whole of the Cape gold that arrived in London on Monday, after which the price of gold bars fell to 77 shillings 91/2 pence per ounce.

The market was dull and firm on Saturday of last week, and, compared with the previous day, long fell 35 points to 4 8035@4 8040, short rose 30 points to 4 8530@4 8540 and cables 20 points to 4 8630@ 4 8635. On Monday, after opening firm, there was a decline due to a light inquiry, but long closed 40 points higher at 4 8075@4 81, short 30 points at 4 8560@ 4 8565 and cables 5 points at 4 8635@4 8640. On Tuesday long rose 25 points to 481@48114, short fell 10 points to 4 8550@4 8560 and cables 30 points to 4 8585@4 8610. On Wednesday long was unchanged, short was 10 points higher at 4 8560@ 4 8570 and cables rose 15 points to 4 86@4 8610. On Thursday long rose 25 points to 4811/4@4811/2 and cables 5 points to 4 8610@4 8615. Short fell 20 points to 4 8540@4 8550.

The following shows daily posted rates for sterling exchange by some of the leading drawers:

The following gives the week's movement of money to and from the interior by the New York banks.

Week ending Jan. 10 1908.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency	\$14,341,000 3,100,000		Gain \$10,954,000 Gain 2,421,000
Total gold and legal tenders	\$17,441,000	\$4,066,000	Gain \$13,375,000

With the Sub-Treasury operations and gold imports the result is as follows.

Week ending Jan. 10 1908.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Bank's interior movement, as above. Sub-Treas-oper, and gold imports	\$17,441,000 29,100,000	\$4,066,000	Gain 313,375,000 Loss 1,000,000
Total goldand legal tenders	\$46,541,000	\$34,166,000	Gain \$12,375,000

The following table indicates the amount of bullion in the principal European banks.

WALLES TO		Tan. 9 1908.		Jan. 10 1907.		
Bank of	Gold.	Silver.	Total,	Gold.	Silver.	Total.
Aug-Hunb Spain	117,235,000 45,808,000 15,663,000 636,457,000 7,650,000	36,621,460 8,232,000	143,804,989 37,934,000 122,678,000 57,537,000 41,355,000 12,113,400 5,424,000	15,428,000 32,033,000 5,536,500 3,408,000 3,996,000 1,100,000	39,555,240 7,843,000 4,685,000 11,789,000 24,186,000 4,598,800 5,765,400 1,704,000	122,265,000 58,213,000 39,614,000 36,631,800 11,301,900

a The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Beigium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver; but we believe the division we make is a close approximation.

5 The Austro-Hungarian Bank Statement is now issued in Kronen and Heller instead of Guiden and Kreutzer. The reduction of the former currency to sterling Pounds was by considering the Guiden to have the value of 80 cenus. As the Kronen has really no greater value than 20 cenis, our cable correspondent in London, in order to reduce Kronen to Pounds has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

d The total of gold in the Bank of Russia includes the balance held abroad—that is, the amount held for Russian account in other Continental banks. The proportion so held and consequently duplicated in the above statement is about one-quarter of the total.

B Excluding foreign gold bills.

THE NEED AND OPPORTUNITY FOR AN OPPOSITION PARTY.

The form in which the projectors of the dinner at the National Democratic Club on Wednesday evening east their theme was perhaps not the most felicitous that could be, but the discussion itself was most timely and ought to be of value to all persons who have higher ends than mere selfish personal ones to serve. The question why the Democratic Party is divided can readily receive one of those answers which are none the less correct and helpful because they at once suggest counter questions; the plain reason for lack of union seems to be the lack of leadership and the recent habit of trailing after some man instead of being committed to some sane specific principles and going whither adherence to those carries it.

We feel sure that any intelligent man, whatever the stripe or intensity of his partisanship, will admit within himself (even if he shrinks from confessing it to others) that one of the most persistent misfortunes which can befall a country possessing representative government is the lack of a real Opposition. We write the word with a capital O, because such an Opposition is not factional or partisan; it does not merely "view with alarm" this and that, in the worn phraseology of campaign platforms; it consistently has policies of its own, instead of seeking its capital in the blunders of the other party; when out of power, it does not factiously try to put the other "in a hole," but seconds all measures of real public merit; and when the case is again made up for the electors, it offers some change of policies rather than a mere change of men and a housecleaning exposure.

When the party now so long dominant came into being, a half century ago, it was moved by the single policy of opposition to further slavery extension, the objects usually professed being subordinate. The admirable name chosen for it agreed with the unquestionable fact that, in the stress of a great emergency, it sought public ends unselfishly, as far as a political party can ever do so. It did begin, and for a term about which opinions might vary, it remained a party of great moral ideas. But long tenure and the lack of a calling to account are too much for human nature, whether individual or in association. The end and the means inevitably get transposed, and instead of viewing and keeping a party the instrument for carrying out really public policies, the policies become the means for keeping the party in place. Name does not signify; the composition of the organization and the impulse that began it do not avail; if not held in check by an Opposition so humanly wise, so sane in conduct when out of power, and so nearly equal to the other in public estimation that the issue of the forthcoming elections is uncertain, a party in continuous power gradually gives to itself what belongs to the country and declines in public service. This becomes more true in a country growing as ours has been in size and wealth and where the Government has been vastly expanding its powers, the latter, doubtless, being itself largely a product of this long unbroken tenure.

The causes which kept the Democratic Party out after its downfall in 1860 took a long time to expend their force, and we need not dwell upon them. But it would be absurd to pretend that any such Opposition as above referred to has existed in the country in at least a quarter-century past, or that the dominant party, notwithstanding the surprise of interruption for two terms, has been greatly held in check in its conduct of the Government by fear of overthrow at the polls. Surely the man must be either very dull or bitterly partisan who will not admit, at least to himself, that in his letter read on Wednesday evening, Mr. Cleveland was largely, if not entirely, correct, and also moderate in language, when he declared that the country now "needs conservatism, recuperation from nervous prostration, reinstatement of constitutional observance, buoyant, but none the less safe and prudent, Americanism, scrupulous care of every person and every interest entitled to care, and 'a square deal' that means exact and honest equality before the law and under constitutional guaranty." If platforms are once more to express real principles instead of glittering generalities that can be interpreted as convenient, will any man deny that the above is a platform for the times, party names being put out of sight as empty trifles?

Men vary in aftersight as in foresight, meaning by the former term the ability to discern promptly and clearly the causes which have produced undesirable occurrences. But the undesirable events of the past few months and the outlook which succeeds them have come naturally out of certain courses of legislation and administration which have been pointed out over and over. The "Chronicle" has been predicting what required no gift of prophesy to foresee and no extraordinary prudence to avoid. Of course we shall not go over the ground again at present; those who do not see the lesson of events cannot be made to see. Suffice it that there is probably an increasing recognition of the need which Mr. Cleveland states, for if the uses of adversity are sweet, they can be so only because they make the vision keener, stir energy to action and give the reins to prudence. It seems just to doubt whether the rate-reduction laws which have been multiplied in the last two years would make any headway, much less run from State to State, if they came up now as a new proposition; indeed, there are signs of returning reason in this matter, shown, for example, in the call for a special session of the North Carolina Legislature for Jan. 21 expressly to repeal or review its hasty action. It is hardly a mere figure of speech to say that

homes and wounding our own selves, in the delusion that we were battling against a devouring monster, and that we are now gradually discovering that the monster is imaginary and the attack is coming home. It is not too late to avert the consequences; and to suppose that we Americans, who have so often given evidence of ability to face about quickly in political matters, cannot realize a dangerous situation before it becomes fixed, would be undeserved reproach.

Nobody is keen enough to divine the possible turns in the next five months; yet it seems to us that the signs show an increasing opportunity and call for the note of conservatism. It is far from hopeless that the Chicago Convention will announce a policy which shall at least turn in the right direction and name a man who will himself be a platform that can be considerably trusted; but however that Convention may act after the cross-movements for persons have spent themselves, there is the loudest call for sanity and wisdom at Denver. If the opportunity for that is far behind the need, perhaps it will grow in the next few months. Therefore every intelligent man ought to hope that the meeting of Wednesday will prove to have sounded a note which shall draw wide response. Even Republicans who are not quite blinded by partisanship ought to concur in this hope, for if the dominant party continues so (as the outlook to-day indicates that it will), the well-being of that party, as well as of the country, will be served by having the Democratic Party, which has held its name and organization in such a phenomenal manner against reverses, rehabilitated and made into the Opposition so long needed.

A BRITISH STATESMAN ON INTERNATIONAL RELATIONS.

The changing attitude of the great powers toward one another, to which we have made frequent reference in the past, has been set forth with great clearness in a recent public speech by Sir Edward Grey, Great Britain's Secretary of State for Foreign Affairs. Briefly summed up, the gist of Sir Edward's speech was that the Government is convinced of the people's cordial endorsement of its policy of friendliness to all other nations; that it entertains to-day no feeling of jealousy towards any other State; that the Anglo-French treaty has created a friendship between the two peoples such as has not existed in two centuries; that the formal agreements already made by England with certain foreign Powers were not exclusive of other Powers, but on the contrary were designed as an indirect invitation to similar treaties of friendship with them; that the sacrifice of its own imagined policies made by Great Britain in its treaties with France and with Russia gave up nothing that was of any value, and that, in short, the prospect for international peace rests to-day on better grounds than at any time in the very long past.

the rate-reduction laws which have been multiplied in the last two years would make any headway, much less run from State to State, if they came up now as a new proposition; indeed, there are signs of returning reason in this matter, shown, for example, in the call for a special session of the North Carolina Legislature for Jan. 21 expressly to repeal or review its hasty action. It is hardly a mere figure of speech to say that for several years past we have been attacking our own

interests of a given nation were imperiled by the policies of another, forcing defensive or offensive action; the other, that a state of armed hostility and constant quarreling was the natural condition of worldpolicies.

The second of these arguments has received support, conscious or unconscious, in very high quarters, notably in the constant and tiresome argument which has been heard in our own land regarding the individual virtues which are cultivated as a result of war. For our own part, we must confess our feeling that this assumption of fighting as the normal relation of civilized States reduces mankind to the level of the lower animals. Even in the canine species, one sometimes feels irritation at the constant disposition of the animal to attack neighbors or chance acquaintances of his own kind; but for dogs we make allowances. They at least have not been educated up to a higher plane of ideas by the influences of civilizations and of the Christian religion. But to apply to mankind the same excuses as to the lower animals in a matter of this sort, and to apply them in such a way as to indicate that a policy of mutual attacks may be a merit, has always seemed to us to border on the preposterous. No doubt the manly virtues of courage and endurance may be cultivated in a military campaign as they would not be elsewhere; but the same argument was urged for the now obsolete duel, and we suppose that similar qualities might be cultivated by a collision of high-spirited young men with the police. We have sometimes wished that these other analogies might have been reasoned out by the advocates of war as an inspiration to nobility of character.

When, however, we consider the more serious question of war or international defiance as a result of invasion of one Power's rights or interests by another, there is a field for more intelligent discussion. It is our judgment that, when the whole world's situation at the present time is surveyed, it will be found that this motive for disturbed relations between the Powers is of slighter importance now than at any previous time in very many years. It is not long since the questions of the so-called partition of Africa and Asia threatened to create such formidable differences of opinion between the Powers as could be settled only through the arbitrament of war. To-day, both of these influences have disappeared through the force of events or through the operation of peaceable diplomacy. The same thing may be said of colonial enterprise in general, which not long ago was described as certain to bring on collision between the colonizing Powers. What now appears evident is that the several Powers have on their own hands about all that they individually care to undertake in such directions, and that they are only too glad to leave the responsibilities which now exist on the shoulders which sustain them. Nothing could more clearly have demonstrated the truth of this assumption than the recent attitude of Germany toward the dispatch of French troops to Morocco to preserve order in that unsettled protectorate. The irritation between England and Germany, which for half a dozen years ill-judged partisans on both sides have attempted to stir up through trade jealousies, has practically subsided. If it had not done so for other reasons, the movement of reaction which has overtaken the whole world's trade would have served the purpose.

England and France have come to recognize that their mutual hostility, long accepted as an inevitable state of things, is a tradition which, on analysis, has no better foundation than the fact that the two nations once fought for a couple of centuries over the hereditary rights of sovereigns, in which the people had but the slightest imaginable interest. England would not, if it could, bring back the period when the British kings claimed a slice of Northern France as their hereditary dominion, and we very much doubt if France has any longings left for the empire of Napoleon, which cost the French, in blood and treasure, an expenditure which they were half a century in recovering from. There is left, then, only America and Japan, regarding which States the same class of busybodies have been frantically endeavoring to persuade the world that a ground of inevitable conflict exists. To the argument that a nation which, like the United States, is sick of its colonial possessions, would hardly be disposed to encourage war for the sake of increasing them; and that a nation which, like Japan, is finding the greatest difficulty in reducing its own outlying possessions to order, would scarcely jeopardize its prestige and credit for the purpose of incurring fresh responsibilities of the kind, no answer can ever be obtained from such people. This being so, it certainly seems reasonable to rest one's conclusions on the official statement of the relations of the two States, as it comes from Washington and Tokio.

There is, besides, as we have heretofore intimated, an argument against international war which has not existed in the recent years of easy credit and abundant public revenue. If the two or three wars of the last decade have taught anything, it is that war is nowadays an enormously expensive business, and that the future may witness, if international fighting is to go on, some powerful State which will meet defeat and humiliation because it cannot raise the money to complete its campaigns, or some other which will win the victory and bankrupt itself in so doing. Such considerations as these might perhaps be easily dismissed if the money markets of the world were open to borrowing nations on the comfortable terms of a few years ago. When, on the contrary, the cry of the day is for retrenchment and reduction of both private and public expenditure, the argument has a weight which it could not enjoy under other conditions. We do not suppose that at the present time, in any of the greater commercial communities, there is an individual, a corporation or a city which is not considering with more or less concern the problem of retrenchment. It will hardly be imagined that similar pressure is not applied by existing circumstances to those who manage the affairs of nations. The time has long passed when a difficult fiscal problem could be solved by recourse to a foreign war. In these days credit resources must be insured before, not after, the outbreak of such a conflict, otherwise the victory is very apt to go to the State which has not neglected to provide itself with the means of conducting a long campaign. But this, in turn, means that the investor, the banker and the money market, whose interests lie wholly in the direction of maintaining peace, possess to-day a restraining power over hot-headed, scheming or ambitious statesmen, such as they have never before enjoyed in history.

THE DECISION REGARDING THE FEDERAL EMPLOYERS' LIABILITY LAW.

The decision rendered on Monday of this week by the U.S. Supreme Court at Washington in the cases involving the constitutionality of the Act of Congress approved June 11 1906, known as the Employers' Liability Act, and which undertakes to make railroads responsible in damages for injuries to employees, even where the accident is the result of the employees' own carelessness or that of fellow employees, appears to settle certain points clearly and satisfactorily. It, however, apparently also leaves still other points open and in doubt. The Act is declared unconstitutional, but by a divided court and by a narrow majority. The majority vote, holding the statute invalid, is made up of five members of the Court, and comprises Justice White, who wrote the majority opinion; Justice Day, Chief Justice Fuller, Justice Peckham and Justice Brewer. The minority vote embraces the other four members of the Court, namely Justices Moody, Holmes, Harlan and McKenna. The first two of these four members of the minority are appointees of President Roosevelt, who has been so strenuously advocating the principle embodied in this law; Justice Moody, moreover, as Attorney-General in Mr. Roosevelt's Cabinet. at the direction of Mr. Roosevelt actually intervened in the first case tried under this very statute.

To further complicate the situation, sharp differences of opinion are revealed among the members of both the majority and minority. Justice Day seems to agree with Justice White on all points, but Chief Justice Fuller and Justices Peckham and Brewer concur only in the result, and reach their conclusion as to the unconstitutionality of the Act by a different method of reasoning. Among the minority, Justice Moody is apparently the only one who upholds the constitutionality of the Act on all points, and such an outcome in his case cannot be deemed strange, considering how deeply he must have become imbued with President Roosevelt's ideas while a member of his Cabinet. Justices Harlan and McKenna unite in a dissenting opinion affirming the constitutionality of the Act, and Justice Holmes writes a separate dissenting opinion stating his own views. Altogether, no less than five opinions have been handed down in this matter, which undoubtedly constitutes one of the most important controversies that have come before the Court in a long while-two of these opinions coming from the majority of the Court and three from the minority.

Until all the opinions have been printed and there has been time to digest them, and to study the same in all their bearings, it will not be possible to form an altogether reliable judgment as to the standing of the Court on all phases of the great issues of the day that came up, directly or indirectly, for consideration in the present adjudication. At the moment we have only the newspaper digests to go by, and these deal mainly with the majority opinion. Still, though the extracts from this opinion are not very extended. they make it clear that certain points, as already stated, may be regarded as having been certainly and definitely established. The distinction, however, between the matters thus settled and those concerning which we are still left in doubt must be clearly borne in mind. In any consideration of the character of first place, the Act did not undertake to distinguish between services rendered in inter-State commerce and services connected with commerce wholly within a State. If the law had been upheld, it would have inevitably followed that a carrier on the whole of its traffic, both State and inter-State, would have been subject to the authority of Congress, simply because on a part of its traffic it might have been engaged in inter-State transportation.

A second point which came up was whether the commerce clause of the Federal Constitution, giving to Congress power to regulate inter-State commerce, could be construed as giving it the right to regulate the relations between the carriers and their employees. The Circuit Judges in the two cases which reached the U. S. Supreme Court on appeal—both holding the Act unconstitutional, and which judgment the Supreme Court now affirms (the Circuit Judges in three other cases declared the Act constitutional)—were strongly of the opinion that the commerce clause could not be stretched in that way. These two cases were those of the administratrix of the estate of Morris S. Brooks vs. the Southern Pacific Railroad Co. decided by Judge Evans in the Federal Court at Louisville, and that of Damselle Howard vs. the Illinois Central Railroad, decided by Judge McCall in the U.S. District Court at Memphis. Both decisions were rendered just about a year ago and commented upon by us at the time. In the one case damages of \$20,000 were demanded from the railroad and in the other case \$25,000.

There was a third objection to the statute, perhaps the most serious one of all. It changed entirely the old common-law rule of the relations between master and servant. Under this common-law principlewhich still controls in most of the States, we believe, owing to the absence of legislation establishing different relations between employer and employee-the employer is not responsible in damages to the employee for injuries resulting from the carelessness or neglect of the employee himself or his fellow employees. The Act of Congress, therefore, was an attempt to override State practice and State rules in that respect. Through this week's Supreme Court decision this purpose has been defeated. Had the law been sustained the States would have lost complete control of the matter as far as railroad transportation was concerned. The State might be entirely satisfied to let the old common-law principle prevail, but this Federal enactment would have imposed a wholly new and totally different rule governing not merely inter-State traffic but all the immense volume of traffic carried on exclusively within State boundaries. The worst of it was no one could tell where the application of the principle was to end, since President Roosevelt made no secret of his intention to have the operation of the law extended to other fields of human activity, while it is of course well known that he is desirous that Congress should enlarge the scope of Federal authority so as to bring not only carriers in inter-State commerce but also corporations manufacturing the products which form the subject of inter-State traffic under the dominion of the National Government. mately, therefore, the proposal embodied in the Employers' Liability Act would have been made to apply to the relations between employer and employee in all industrial pursuits. In his last message Mr. Roosethe measure, three points of objection came up. In the | velt urged "the complete recognition of the principle

which places upon the employer the entire trade risk in the various lines of industry." Earlier-that is, last June-in one of his speeches at the Jamestown Exposition, adverting to the action of the railroads in attacking the validity of the law, he referred to the "extreme unwisdom of the railway companies in fighting the constitutionality of the National Employers' Liability Law." No law, he insisted, was more emphatically needed, and he declared "it must be kept on the statute books in drastic and thorough-going form." He also at that time demanded that the rule should be extended so as to apply to all those engaged in mechanical and industrial pursuits.

This week's decision makes it plain that that principle, if it is to be operative at all, cannot be made to apply, either directly or indirectly, to all commerce. It must be limited strictly to inter-State commerce. On that point the decision of the Court appears to be clear and unequivocal. Apparently, however, it goes no further than that. We cannot see anything in the majority opinion condemnatory of the idea that in regulating commerce Congress may regulate at the same time the relations between the railroads and their employees. The law is declared unconstitutional not on that ground, but on the other ground. In this last particular there is no cause for complaint in the opinion. The language used is unambiguous. The Court, speaking by Justice White, says most emphatically that an enactment which undertakes to impose a liability, upon a common carrier in favor of any of its employees without qualification as to the business in which the carrier or its employees may be engaged at the time of the injury, includes subjects wholly outside of the power of Congress to regulate commerce. We quote the following from Justice White's opinion bearing on that point:

The Act, then, being addressed to all common carriers engaged in inter-State commerce, and imposing a liability upon them in favor of any of their employees without qualification or restriction as to the business in which the carriers or their employees may be engaged at the time of the injury, of necessity includes subjects wholly outside the power of Congress to regulate commerce. Without stopping to consider the numerous instances where, although a common carrier is engaged in inter-State commerce, such carrier may, in the nature of things, also transact business not inter-State commerce, although such local business may indirectly be related to inter-State commerce, a few illustrations showing the operation of the statute as to matters wholly independent of inter-State commerce will serve to make clear the extent of the power which is exerted by the statute. Take a railroad engaged in inter-State commerce having a purely local branch, operated wholly within a State. again the same road having shops for repairs, and, it may be, for construction work, as well as a large accounting and clerical force, and having, it may be, storage elevators and warehouses, not to suggest, besides, the possibility of its having engaged in other independent enterprises. Take a telegraph company engaged in the transmission of inter-State and local Take an express company engaged in local as well as in inter-State business. Take a trolley line mov ing wholly within a State as to a large part of its business and yet as to the remainder crossing the State line.

As the Act thus includes many subjects wholly beyond the power of Congress to regulate commerce, and depends for its sanction upon that authority, it results that the Act is repugnant to the Constitution, and cannot be enforced.

Justice White also disposed of the contention that

between the States," &c., therefore the Act should be interpreted as being exclusively applicable to the inter-State business and none other of such carriers, and that the words "any employees" where found in the statute should be held to mean any employee when such employee is engaged only in inter-State commerce. He shows that this would require the Court to write into the statute words of limitation and restriction not found in it, while another effect would be to restrict the operation of the Act as to the District of Columbia and the Territories.

The further plea that the Act might be held constitutional although embracing subjects not within the power of Congress to regulate commerce, because one who engages in inter-State commerce thereby submits all his business concerns to the regulating power of Congress, is shown to be wholly and utterly untenable. To state the proposition, says Justice White, is to refute it. It assumes that because one engages in inter-State commerce he thereby endows Congress with power not delegated to it by the Constitution; in other words. with the right to legislate concerning matters of purely State concern. It rests upon the conception that the Constitution destroyed that freedom of commerce which it was its purpose to preserve, since it treats the right to engage in inter-State commerce as a privilege which cannot be availed of except upon such conditions as Congress may prescribe, even though the conditions would be otherwise beyond the power of Congress. "It is apparent," he continues, "that if the contention were well founded it would extend the power of Congress to every conceivable subject, however inherently local; would obliterate all the limitations of power imposed by the Constitution, and would destroy the authority of the States as to all conceivable matters which from the beginning have been and must continue to be under their control so long as the Constitution endures."

"Would destroy the authority of the States as to all conceivable matters"-no language could be stronger than this; none could more effectually put a limit upon the attempts to obliterate the distinction between commerce within the State and commerce between the States. To that extent, therefore, this decision is in the highest degree encouraging. Nor does the majority of the Court apparently stand alone in insisting that the rights of the States in this particular can not be invaded. For it would appear that Justices Harlan and McKenna, in ranging themselves on the minority side, and contending that the Act is constitutional, did so mainly on the ground that the Act could be so construed as to make it applicable only to employees engaged at the time in inter-State commerce and not to those engaged wholly in the State in which the accident happened—a view to which, as we have seen, Justice White did not find it possible to assent. The conclusion would seem to be authorized, therefore, that under other circumstances Justices Harlan and McKenna would also have been found strict upholders of the doctrine that the demarkation between the powers of the States and the powers of the Federal Government must be clearly observed. If this be a correct assumption, then seven of the nine Justices (not merely five) can be depended upon to adhere to the old doctrine of strict construction of constitutional provisions where there is a direct issue involving the since the statute says "carriers engaged in commerce | rights of the States. There would, in that event, be

only two Justices on the opposing side, namely Moody and Holmes, both owing their appointments to President Roosevelt.

When we come, however, to the question whether the power to regulate commerce granted by the Federal Constitution may be construed to give the righ to regulate the internal affairs of the carriers, or more specifically their relations with their employees, there seems good reason to fear that most of the Justices have become converts to radical ideas. Judge Evans in the District Court a year ago said that creating new liabilities growing out of the relations of master and servant on the one hand and regulating commerce on the other "are two things so entirely different that confusion of the judicial mind upon them is hardly to be expected under normal conditions." Yet there is apparently little reference to this distinction in this week's opinions of the Supreme Court. The only allusion to this phase of the matter that we have observed is in a statement in one of the papers that, though Chief Justice Fuller and Justices Brewer and Peckham joined with Justice White in holding the Act unconstitutional. "they did not follow him in his assertion of the power of Congress to regulate the relation between master and servant." In Congress certainly the impression prevails that the unconstitutionality of the Act rests entirely on its failure to distinguish between State traffic and inter-State traffic; for Senator Knox has introduced a bill which would enact substantially the provisions of the condemned statute, except that it would be limited in its application to common carriers "to which the regulative power of Congress extends under the Constitution of the United States." way it is attempted to cure the defect in the 1906 law and get over the objections found against the same by the majority of the Court. No fears seem to be entertained that a new statute limited by the use of the words we have quoted would meet the fate of the old law. owing to refusal on the part of the Court to sanction the notion that the Federal Government can regulate the relations between the carriers and those employed by them.

WORK OF THE INTER-STATE COMMERCE COMMISSION.

By setting forth in their twenty-first annual report the great increase of work which the Hepburn Act has caused the Inter-State Commerce Commission, the Commissioners have also disclosed something of the annoyance and expense which the same Act has created for the railroads of this country. In the year 1905 only 65 complaints were filed with the Commission, and these required the sending of 2,500 letters and notices. Since the twentieth annual report was issued no less than 5,156 complaints have been filed, which called for the sending out of 15,000 letters and notices. Such of these letters and notices as were sent to the several railroads interested had to receive the attention of the traffic officers and the legal department, thus involving the railroads in work which occupied much time and incurred large expense. One of the detrimental features is the fact that such matters divert the attention of the traffic and operating officers from their regular tasks, and thus interfere to a considerable extent in the proper work of the carrier. There were 276 hearings conducted, at which | cars inspected.

88,000 folios of testimony were taken. The number of hearings under the Hepburn Act increased 350% over similar undertakings in former years. The Commission was able to handle this work because the number of its members was increased 75%, and there have been increased appropriations of public funds to enable it to conduct its business with reasonable dispatch. To a similar extent have the railroads been compelled to add to the staff of their legal department and devote a larger portion of their earnings to the purposes of defense against unjust attacks.

The Commission calls attention to the importance of the railroads in the following language:

"During the past decade the commercial condition of the country has been one of increasing prosperity. business undertakings proportionately increase during future years, the railroads of the country must add to their tracks, cars and other facilities to an extent difficult to estimate. The ability of the carriers to transport traffic measures the profit production of this vast country, with its ninety millions of people, abundant capital and practically unlimited resources. Manifestly it is an economic waste for the farm, the mine or the factory to put labor and capital into the production of commodities which cannot be transported to market with reasonable dispatch. If the present output cannot in many instances be transported except after ruinous delays, it is not reasonable to presume that capital will readily seek investment in new undertakings. It may conservatively be stated that the inadequacy of transportation facilities is little less than alarming; that its continuation may place an arbitrary limit upon the future productivity of the land, and that the solution of the difficult financial and physical problems involved is worthy the most earnest thought and effort of all who believe in the full development of our country and the largest opportunity for its people.'

The very same argument advanced as to why capital will be reluctant to invest in the mine, the factory and the farm applies with equal force to the railroads. If the laws do not encourage the transportation companies, but, on the other hand, throw around the railroads innumerable handicaps, so that the business cannot be conducted with reasonable profit, capital will not supply the additional funds needed to furnish the facilities for increased transportation which the Commission admits are very much needed. Thus in some respects the report of the Commission is a two-edged sword which cuts both ways.

It appears from the report that the Commission still craves greater powers. It is set forth that when a railroad advances a rate a complaint may be filed by some shipper, and the advanced rate will be suspended as to such complainant while the controversy is pending. The Commission therefore urges that it be given the power to suspend the advance in rates as to all shippers until the controversy may be finally determined. The Commission also asks Congress for power to compel railroads to promptly make detailed reports of accidents and for power to make investigations of accidents.

The report contains a review of the decisions which have been published as they were rendered, and it also recounts the work of the Commission respecting the framing of a uniform bill of lading providing for a uniform system of accounts, and an investigation of block signals and safety appliances. For each 1,000 cars inspected in 1906 there were 139.34 defects, while in 1907 there were but 94.14 defects per 1,000 cars inspected.

PUBLIC UTILITIES AND THE NEW YORK DEBT LIMITATION.

There is one passage in the annual message of Mayor McClellan of this city which has attracted considerable attention. Mr. McClellan refers to the proposition for a change in the constitutional limitation upon the creation of debt by municipalities in this State so as to authorize debts to be incurred in excess of 10% of the assessed value of real estate in case of productive property. His allusion seems to be to the recommendation of the Advisory Commission appointed by him three years ago rather than to the closely similar recommendation of the Charter Revision Commission created by the State Legislature, and upon whose report, rendered to Governor Hughes a few weeks ago, we commented at the time. The Advisory Commission recommended an amendment to the Constitution which would permit debt incurred for productive property to be excluded when the Board of Estimate and Apportionment should obtain the consent of the Appellate Division of the Supreme Court, upon proof that the return to the city from such property had been in excess of the interest upon such debt. Such determination of the Appellate Division, it is intended, should be effectual for no more than five years, when the application would have to be renewed.

Mayor McClellan entertains doubt as to the wisdom and advisability of such an amendment. Theoretically, he admits, it is attractive. From a practical standpoint, however, he urges, it may be found dangerous and ill advised. He fears that the possibility of extending the present constitutional debt limit might tempt the city into enterprises which in the end would result in shaking its financial stability, encouraging extravagance and injuring the value of its outstanding securities. In any event, he urges that the suggestion should receive the most careful consideration and the fullest discussion before any definite action is taken in the matter.

There can be no doubt that the Mayor here touches upon an element of danger attending the extension of the debt limit which, in certain contingencies, could not be regarded as wholly illusory. Particularly at the present time, when municipal ownership of all sorts of undertakings finds so many advocates, the possibility that the city might be tempted into ill-advised enterprises cannot be too strongly guarded against. May it not fairly be claimed, however, that in the way proposed proper provision is made to guard against a contingency such as that indicated? If the suggestion were that a debt once excluded from the debt limit because covering a productive and profitable undertaking must ever thereafter be excluded, the proposition would have to be strongly opposed; for it can readily be seen that, through legislative or municipal action, or through administrative incapacity-or inefficiency-more likely to occur in the case of a plant conducted by officeholders than one under private ownership, the interests of the proprietors in this last instance serving to insure vigilance and watchfulnessprofits might, with the lapse of time, be turned into a loss, rendering the undertaking a drain upon the city's resources instead of a source of income sufficient to provide the money needed to cover the interest on its cost.

As the Mayor states the proposition, however, the

judicial tribunal-the Appellate Division of the Supreme Court—and then that this tribunal can grant the request for exclusion of any indebtedness from the debt limit only upon proof that the return to the city from such property has been in excess of the interest upon such indebtedness. Furthermore, the 'determination of the Appellate Division at any given time would hold only for the period of five years. At the end of the five years the application would have to be renewed. If in the interval the enterprise on which the excluded indebtedness has been issued had become unproductive, the indebtedness would no longer fall outside the debt limit, but would be treated the same as, and a part of, the regular city debt. Moreover, provision would be made for notice to the Governor, Attorney-General, the Mayor and taxpayers generally, any and all of whom could appear and be heard in the proceed-We spoke of the necessity of restrictions of this kind in dealing with the report of the Charter Revision Commission, urging that unless restrictions were imposed it might happen that all sorts of municipal ownership schemes of doubtful merit and propriety would be tried, until finally the city got involved in financial disaster. Obviously, however, by the method proposed above, the danger feared would be reduced to a minimum.

In saying this we do not wish to be understood as expressing any liking for municipal ownership projects of any kind-even such as apparently meet the test of profitableness. We much prefer private ownership under some kind of an arrangement which shall insure to the municipality some return for the value of the franchises granted in the event of the enterprise proving a success. But as far as the construction of subways and rapid transit lines is concerned, no alternative of that kind seems to be open. Under existing laws we are shut in to municipal ownership entirely. It is that or nothing. Yet the need for additional rapid transit routes is urgent if not imperative. The situation is a most extraordinary one. With the terms so illiberal, private capital cannot be induced to come in, while on the other hand the margin of debt that can legally be incurred by the city is now so small that the idea of providing further subways built with city moneys on any extensive scale must be put out of mind for a considerable time to come. It is this state of things that has given rise to the proposal that, where an undertaking is returning interest on its cost, and more, too, as is the case with the rapid transit lines in this city, the debt representing the same ought to be excluded in determining the margin of debt remaining within the 10% limit fixed by the Constitution. In view of last year's experience, when the city failed to receive any bids on its new subway routes, it is of course, a question whether, even where the city undertakes to raise the money for additional subways, parties can be found to construct and operate the roads unless the law as it now stands is amended and more liberal terms offered prospective bidders. But in any event, in existing circumstances we must look to the city for the additional transit facilities so urgently needed, and the only way out of the dilemma is to liberalize the constitutional limit of debt so that the city will be in legal position to go ahead.

The present position of the municipality with reference to new rapid transit roads is anomalous and intention is in the first place to obtain the consent of a | incongruous to the point of absurdity. A State board especially created to look after local needs in the matter of transit facilities—we mean the Public Service Commission for the First District-lays out and prescribes the additional roads to be built. The city authorities, whom the Public Service Commission is not bound to consult, are then told to go ahead. But the municipality is bound by the debt limit and when that limit is reached cannot incur any further debt even though it might have positive assurance at the very start, from responsible sources, of income sufficient to provide for interest and principal of the debt. The ludicrous position into which rapid transit matters are drifting was well shown last week. The Public Service Commission had laid out new rapid transit routes for Manhattan Borough involving an estimated cost of \$60,000,000. Comptroller Metz demurred, saying that the city within the constitutional debt limit could not possibly provide the money for the purpose. According to the "New York Times" of last Friday Chairman Willcox of the Public Service Commission, when he heard of Mr. Metz's criticism. made the following remarks: "It is part of the duty of this Commission to plan new subways. If there is not money enough to build them, then it is for the Board of Estimate to say so and not for this Commission. This Commission is not supposed to know when the debt limit has been reached. The Comptroller and the Board of Estimate attend to such things." The accuracy of this statement is not open to question, for under the powers and duties that devolve upon the two Public Service Commissions of the State, these bodies simply go ahead and order things done irrespective of whether the means exist for doing them or whether it is possible to do them at all.

Practically the whole of the street railway mileage of Manhattan Borough is now in receivers' hands, and yet the Public Service Commission calmly goes ahead ordering additional facilities and service, not bothering itself in the least as to how a bankrupt concern is to obtain the funds with which to comply with the Commission's orders. With bland innocence the Commission merely issues its edict and then it is up to some one else to take the blame and responsibility. Where, however, one public body lays out rapid transit routes for another to construct and carry to completion, and this latter is obliged to state that means are not available for the purpose, and the first board rejoins with the remark that it is none of its business to raise money or to take into consideration such a little thing as a constitutional requirement with reference to the debt limit, does not the whole matter assume an opera bouffe character?

Why not go back to first principles? Why not amend the law and let private capital come in and do the work? Additional rapid transit lines are needed in Manhattan and in the Bronx, while Brooklyn Borough has none at all now but could support several. Private capital can be got provided only sufficient inducements are held out. The population is there to make such new rapid transit lines profitable. Capitalists and men of means know this and are ready to invest their money, but they want adequate compensation, fair treatment and assurance of security and stability for their investment. The city authorities could stipulate what the rates of fare were to be and even require assurance of adequate service; but beyond that what

such enterprises were to make large profits-say a return of even 15 or 20% on their investment. The traveling public would get the needed new facilities and in providing such facilities the promoters would be conferring an inestimable boon upon the community.

There is no gainsaying the fact, however, that before such a state of things can be brought about a complete change will have to be worked in public sentiment. Capital is not going to come forward until it can feel assured of better treatment than has been accorded to the far-sighted men who took up the work of building the Rapid Transit road in Manhattan when for twenty years previously it had been found impossible to get any one else to embark upon the venture. In the absence of help from private sources the community must rely upon the city to provide the needed additional routes, and as the city cannot undertake the work so long as the constitutional limit leaves it an insufficient margin for the incurring of new debt, an amendment to the Constitution so as to exclude f om the debt limit bond issues based on productive undertakings would seem to be the only way out of the difficulty. Mayor McClellan is right in urging that every precaution be taken to guard against the city's rashly entering into enterprises which might threaten its financial stability and encourage extravagance. If the restrictions suggested by the Advisory Commission, as outlined above, are not stringent enough to insure the full measure of safety, they can obviously be made still more stringent. Otherwise, however, there would appear to be little ground for apprehensions on that score.

CLEARINGS AND SPECULATION IN 1907.

In reviewing the record of bank clearings for the calendar year 1907 it is necessary to differentiate sharply between the result disclosed at New York and the exhibit made by the aggregate for the remaining clearing houses of the country. The reason that this distinction has to be made has been clearly evident all through the year and the factor making it necessary has been operative to some extent at a few of the other important financial centres. We refer, of course, to the marked decline in the volume of stock transactions as compared with the previous year during all but one month (March) of 1907. Stock transactions play such an important part in swelling the aggregates of bank clearings that any important decrease in their volume is reflected in a marked shrinkage in the exchanges passing through the banks.

Thus it is that clearings at New York for 1907 record a quite large falling off from 1906, notwithstanding that the aggregate commercial transactions for the year must have been at least as great as in the preceding similar interval. Referring a year ago to the bank clearings for 1906, we stated that they told a story of continued growth and expansion, and that in the aggregate they were far ahead of the total for 1905. And outside of New York (and likely at this city, making due allowance for speculative transactions), in all sections of the country, the year 1907 has witnessed a further augmentation. Recently, of course, and largely due to the monetary troubles that set in in October, there has been a conspicuous let up in industrial and mercantile activity; but prior to that time the course of business affairs proceeded along legitimate interest would suffer if the promoters of favorable lines. Since the close of the year the result of the efforts made in that direction have again brought monetary ease to the country, and there is a more hopeful disposition, many believing that a material revival in business activity is not far off.

For the whole country the aggregate of clearings for 1907 reaches 144,889 million dollars, against 160,-020 millions in the calendar year 1906 and 143,909 millions in 1905; but only 112,450 millions in 1904. The decrease from 1906 is $9\frac{1}{2}\%$, but as compared with 1905 there is a gain of 0.7%, and contrasted with 1904 the increase is over 28%. At New York alone, and due, as remarked above, to the diminution in Stock Exchange activity, the 1907 total not only records a decrease from 1906 of 16.7%, but shows a decline from 1905 of over 7%. Outside of New York, however, the late year's aggregate, despite losses at Boston and Philadelphia ascribable to the decreased stock speculation, marks a new record, having been 57,706 million dollars, against 55,344 millions in 1906, 50,087 millions in 1905 and only 43,800 millions in 1904. Without further comment we present a compilation covering the exhibit of clearings for New York, the cities outside of New York and the country's aggregate for the twenty-five years 1883 to 1907 inclusive.

Year.	New York Clearings.	Inc. or Dec.	Clearings Outside New York.	Inc. or Dec.	Total Clearings.	Inc. or Dec.
	8	65	S	19%	8	176
1907	87,182,108,381	-16.7	57,706,495,574	+4.3	144,888,663,955	-9.5

1883	37,434,300,872		14,265,522,880	+2.4	51,699,823,752	-15.0

Stock Exchange speculation is, of course, an important factor in bank clearings at New York. And during 1907, as already intimated, the share dealings on the Stock Exchange were appreciably less than in either 1906 or 1905. While the major portion of the dealings in share properties on the Exchange, it is true, are now regularly cleared through the official Clearing House of that body and do not therefore enter directly into the volume of bank exchanges, their indirect effect is very material. For the purpose of indicating the course of Stock Exchange speculation for a long series of years past, we present the following table:

NUMBER AND VALUE OF SHARES SOLD AT NEW YORK STOCK

Year.	Stocks. Shares.	Aver. Price.	(approximate)	Year.	Stocks, Shares.	Aver. Price.	(approximate)

The above speaks for itself in no uncertain terms. It is eloquent of a decreased desire of the public to invest in railroad and other share properties, and is, moreover, a silent tribute to the harm done to transportation and industrial interests by the indiscriminate and largely unwarranted attacks from Governmental sources. As against sales of 284,298,010 shares

in 1906 and 263,081,156 shares in 1905, the past year's dealings aggregated only 196,438,824 shares. Moreover, the 1907 transactions were at declining values, the average price per \$100 share in the latest year having been below \$86, whereas for 1906 the average price was in excess of \$94. It is not necessary for us to follow the course of the decline in any special stocks to give point to the losses in value that have occurred. It should be sufficient to say, what our regular weekly Stock Exchange tables have shown, that, almost without exception, the high prices of the year were recorded in January and the low level was reached generally in November or December. Not only were share transactions on the Exchange materially less than in either of the two preceding years, but dealings in bonds recorded a serious diminution, the aggregate of railroad and industrial issues having been but 456 million dollars, against 6051/2 millions in 1906 and 815 millions in 1905. The subjoined table shows the details of the stock and bond sales for the last two years.

Total, val.		\$15859,166,101			\$24416,848,337	

A noticeable feature of the year's dealings in stocks was the fact that greatest activity was centred in the early months. This appears clearly in the table which we now append.

SALES OF STOCK AT THE NEW YORK STOCK EXCHANGE.

At Stock Exchanges outside of New York we also find that dealings in 1907 were appreciably less than in 1906. Chicago, for instance, reports total transactions for last year of 806,127 shares and \$4,342,802 bonds, which compares with 1,234,537 shares and \$5,858,050 bonds in 1906. The Pittsburgh Stock Exchange has been closed since Oct. 23, but up to that time the monthly totals of sales (mainly mining stocks) were generally less than in the previous year, and the aggregate for 1907 is given at 3,094,135 shares, against 3,976,124 shares for 1906. On the Boston Stock Exchange the dealings comprised 14,656,734 shares and \$7,683,350 bonds, which compares with 18,297,818 shares and \$18,695,310 bonds in 1906, while in Philadelphia 8,126,338 shares and \$12,515,365 bonds were reported traded in in 1907, against 10,589,993 shares and \$20,839,945 bonds in 1906, and in Baltimore 153,912 shares and \$15,649,010 bonds made up the year's total, against 524,286 shares and \$31,688,513 bonds the preceding year.

As we have already shown, the aggregate of bank clearings for the country outside of New York for 1907 exceeded those for any previous year, and it is worthy of note that the different cities and sections nearly all shared in the excess. This is partially shown in the following table, which indicates the course of bank clearings at the leading cities for the last four years—both for the full 12 months and for December, the final month.

We cannot better illustrate the generally favorable situation of affairs during 1907 (down, of course, to the occurrence of the monetary troubles) than by stating that of the 110 cities included in our comparative record, only seventeen, including New York, report decreases from 1906, and those generally unimportant. A detailed statement showing the clearings for the last two years appeared in the "Chronicle" of Jan. 4 1908, page 1.

The clearings month by month for two years for the whole country and outside of New York, and the totals by quarters, is shown in the subjoined compilation, which also indicates the ratios of gain or loss for each period.

Considering the clearings for the year by groups, there is not much to be said that has not already been stated. The Middle and Eastern groups each exhibit declines from 1906, the one in consequence of the rather large loss at New York and the other on account of the decrease at Boston. On the other hand, the Far Western section exhibits an important increase, in which each city included shares; the Middle West and Pacific show satisfactory percentages of gain, and the South

records a fair excess. The table we now present gives the clearings by groups for each quarter of the last six years.

Clearings Repo (000s omittee		First Quarter.	Second Quarter.	Third Quarter.	Pourth Quarter.	Total Year. In

With regard to speculative transactions on the various mercantile exchanges, but little reliable data is obtainable. The New York Cotton Exchange furnishes no record of transactions, and the Produce Exchange is somewhat in the same category. But for the latter Exchange we have, as in former years, made up a compilation based upon the figures published from day to day in the daily papers which should furnish fairly close approximate results. From this compilation it would seem that sales of grain (spot and option) in 1907 were heavier than in any recent year, having reached 645,353,800 bushels, against 448,109,250 bushels in 1906, 478,432,825 bushels in 1905 and 627,379,500 bushels in 1904. A summary of the dealings by quarter-year periods is herewith appended. SALES OF FLOUR, WHEAT, &c., AT NEW YORK PRODUCE EXCHANGE. (Two ciphers (00) omitted from figures for Wheat, Corn, Oats, Barley and Rye.)

. Sold at the Stock Exchange,

-The premium on currency or cash money which had been maintained since the origin of the banking troubles in October has finally disappeared. Since Monday, when some few sales were reported at $\frac{1}{8}$ to $\frac{1}{8}$ of 1%, there appears to have been no further transactions at a premium.

The banks generally throughout the country are gradually returning to a cash basis, announcement of the withdrawal of Clearing-House certificates as a medium of currency coming from many of the important cities. The Boston "Transcript" on the 3d inst. stated that on that day, for the first time since Oct. 28, no Clearing-House certificates were used in the settlement of balances by the local banks. total of such certificates outstanding in Boston is \$11,995,000.

The Philadelphia "Ledger" in its issue of the 5th inst. says that, while no official action as to retiring the certificates has been taken by the Philadelphia Clearing-House Association, it is claimed that nearly all the banks are ready to pay their balances in cash. The amount of the issue, it states, is between \$12,000,000 and \$13,000,000; some banks, it is added, have made small cancellations, while others are prepared to do so when called upon by the Clearing House.

According to advices from Baltimore, the banks there are said to have retired \$794,000 of the certificates up to Jan. 8. The total amount issued is said to have been \$3,-094,000, leaving \$2,300,000 still outstanding.

Currency payments, it is reported, have been resumed by the Pittsburgh banks, and the issuance of pay checks discontinued. It is possible that dealings on the Stock Exchange will be resumed the coming week.

The Columbus (Ohio) banks are also, it is reported, gradually taking up their Clearing-House certificates, the indications being that they will be retired earlier than had been

The Cincinnati Clearing-House has commenced the retirement of scrip, having decided to recall 25% of the \$2,500,000 issued. A similar proportion, it is stated, will be retired each

The Cleveland Clearing House Association has likewise decided to call in 25% of the emergency scrip issued by it.

Detroit banks are reported to be again conducting business on a cash basis, the last of the Clearing-House certifieates having, according to dispatches from that point, been retired on the 7th inst.

The Chicago Clearing-House is rapidly redeeming the scrip currency issued for general use; of the \$7,618,300 issued to the banks, \$6,000,000 had been canceled up to the 7th inst.

In a resolution adopted by the Milwaukee Clearing-House Association on the 6th inst., it was decided that the banks would not pay out any additional Clearing-House checks; and, further, that all such checks still outstanding would be redeemed on presentation. Altogether, the Milwaukce "Sentinel" states, the banks issued only \$1,400,000 of Clearing House checks, and of this amount it is doubtful if much more than \$1,000,000 was in active circulation.

The banks of Minneapolis and St. Paul have resumed currency payments, having been the first, according to the "Commercial West," to make the move.

A resolution calling in all Clearing-House certificates and Clearing-House checks by Jan. 18 was adopted by the Kansas City Clearing-House Association on the 3d inst. The only banks in the city having certificates outstanding are said to be the National Bank of Commerce, now in receivers' hands, and one or two other institutions which are about to settle. The Bank of Commerce was reported on the 3d inst. to have retired about two-thirds of its certificates.

From St. Louis reports state that the cashiers' checks are being rapidly canceled, the amounts now outstanding being very small.

The Omaha and South Omaha banks are now making all settlements in cash; the loan certificates issued during the recent financial disturbances have been retired, and but \$51,529 of cashiers' checks remain outstanding; the banks are ready to retire these as soon as they are presented for cancellation. The Omaha "Bee" states that the Clearing-House has not made known the exact amount of cashiers' checks issued by the Omaha banks, but it is estimated at between \$650,000 and \$700,000; less than 75% of the amount issued was put in circulation, a large amount being held at the banks.

The Oklahoma banks expect to follow the action of the St. Louis and Kansas City banks with regard to retiring Clearing-House certificates about the 15th inst.

The retirement of certificates by the Seattle banks has been under way for the past week, more than \$100,000 having been withdrawn up to the 4th inst. Between a million and a million and a half dollars of certificates are reported to have been issued by the Seattle Clearing House.

It was stated (Dec. 28) that in Portland, Ore., not more than \$500,000 of the original issue of Clearing-House certificates, aggregating \$1,100,000, remained in circulation. The "Commercial West" states that it is expected that the outstanding amount will be retired before the expiration of the time set for its redemption, namely, Feb. 1. The 30-day loan certificates amounting to \$750,000 issued by the loan committee of the Portland Clearing-House Association for exchange purposes in liquidation of clearing-house balances are being retired as rapidly as they become due; it is estimated that not more than \$400,000 of these are now outstanding.

The Memphis "Appeal" on the 1st inst. stated that there had been no new issues of cashiers' checks for over a week, and the amount in circulation was being retired as expeditiously as possible.

-The Los Angeles "Financier" pointed out in its issue of Dec. 28 that the Clearing-House Association of that city had taken action on Dec. 20 toward removing the impression in the public mind that specie payments would be resumed there with the termination of the holidays on Dec. 21. Resolutions were adopted by the Association asking the publie to bear with the situation until the banks generally throughout the country had redeemed scrip and resumed specie payments, and the banks were requested to continue the use and circulation of scrip until it could be retired with safety to the public and banks.

-Few of the depositors who sixty days ago gave notice to the Chicago savings banks are availing themselves of the opportunity to withdraw their funds. The evident willingness and ability of the banks to pay out cash in any sums was sufficient to satisfy all depositors.

-The insurance companies of New York State have been notified by Otto Kelsey, State Superintendent of Insurance, that possession must be regained at once of all bonds loaned to national banks to be used as collateral for Government deposits or increased bank-note circulation. The Department refuses to approve such loans, and unless the above order is complied with the bonds will not be allowed as assets in the forthcoming annual statements to the Department.

The Superintendent's circular reads as follows:

One departmentione's circular reads as follows:

ance Department of whether an insurance company may, under the Insurance Department of whether an insurance company may, under the Insurance law, after having made a legal investment of its funds in good securities, deliver such securities to a national bank or other institution, taking the note of the borrower for their value, together with collateral of such a character as insurance corporations are authorized to invest in, for the purpose of enabling such bank or other institution to pledge such securities as a basis for Government deposits or increased bank note circulation.

The ylow which the Department takes of the such deposits of the control of the purpose of the purpose of the control of the purpose of the control of

securities as a basis for Government deposits or increased bank-note circulation.

The view which the Department takes of the provisions of law regularing livestment of funds of insurance companies prevents an approval of such a proposition. Even if absolutely safe from loss in in tances is does not relieve doubt as to approving such a practice by the Department.

The insurance law contemplates only a straight investment of funds in prescribed classes of seturities. To first invest and then losa the investment, and perhaps again loan the second losa so held, might prove a dangerous practice in the continuency of a default and consequent forfeiture of the collateral and inevitable litigation thereupon. An indemnity bond would not remove the objection, as such hypothecated assets could not be available to the company in an energency.

Numerous applications have from time to time been made containing the substance of the forecoming proposition, and have been denied. The position taken by the Department in separate cases will be adhered to as above stated.

Any company whose honds are loaned in this manner must immediately withdraw these bonds and reduce them to possession at once, or such bonds will not be allowed as assets in the annual statement.

Sunt. Kolsov has also protified the insurance companies of

Supt. Kelsey has also notified the insurance companies of this State that they may make up their security valuations

on the basis of an average for the thirteen months. This is following the method of valuation adopted by Superintendents at a recent meeting at Louisville. It may be remembered that it was decided at a meeting of Insurance Commis sioners in this city on Nov. 21 (representing eleven States) that the market price of securities as of Dec. 31 1906 be used by insurance companies in determining the value of their assets the present year-the 1906 valuations, it being contended, more nearly representing the true values of such securities under normal conditions. Under the basis adop ted at the Louisville meeting, it is proposed to value securities for reports of Dec. 31 1907 according to what is termed the "rule of thirteen." The market value on the first day of every month during the year will be taken and added to the market value on Dec. 31, and then an average obtained by dividing by thirteen. The New York Insurance Department, according to its announcement, will accept this plan of valuation, except where in individual cases there may be reasons why other valuations should be taken. It is said that the State Superintendents at their next annual meeting will endeavor to work out some new basis of valuation which may be uniformly adopted for future years.

—The admission of trust companies to membership in the New York Clearing House Association was discussed by the Clearing House Committee this week. Further consideration will be given the matter at a special meeting of the Association on Monday next, when, it is understood, action will be taken on a proposition to admit to full membership companies carrying a certain cash reserve of deposits, and to admit as associate members those holding a certain lesser percentage of reserves

The annual report of Clark Williams, as Superintendent of Banks, was presented to the Legislature on the 1st inst., and that portion of it concerning his intention to call for an average summary statement of condition each week from all State banking institutions was referred to in this department last Saturday. Mr. Williams also touches upon the causes contributing to the suspension of the banking institutions which closed during the recent financial troubles. He classes among these causes a lack of supervisory power in the Superintendent. In some cases, he states, the Department had called attention to practices which were considered to be unsafe, but without avail; if the Superintendent had had the authority to enforce a discontinuance of such practices, several of the State institutions now closed would not, he believes, have found it necessary to suspend. Mr. Williams recommends, therefore:

That the Superintendent of Banks he given authority to direct the discontinuance of objectionable practices on the part of institutions under his supervision, with an opportunity to the institution subjected to criticism to show cause why the practices complained of should not be discontinued; and, in the case of a failure so to show cause to the satisfaction of the Super-Intendent, that he should either make public the facts in the premises or assume charge of the institution on the ground of its being in an unsafe and unsound condition, if such be the case.

In his treatment of the subject of reserves, Mr. Williams declares that "the scheme of the law has been to divide corporations into classes with varied and distinctive powers. We have our banks of discount, our trust companies and our savings banks, but it would be absurd to require them to carry in their vaults the same percentage of cash reserve merely because they are all banking corporations. Reflection makes clear that our aim should be not to equalize the powers and limitations of corporations designed in their creation to differ, but in the matter of reserve to require what the character of the business of each demands." It is recommended by the Superintendent that every bank or individual banker in any city in the State having a population of over 800,000 shall have a reserve equal to 25% of the aggregate deposits; at least three-fifths of which must consist of either lawful money of the United States, gold certificates, silver certificates, or notes-or bills issued by any lawfully organized banking association, and the balance thereof must consist of moneys on deposit, subject to call, with a reserve agent approved by the Superintendent of Banks. State banks in such cities are now required to keep a reserve of 15%. Elsewhere in the State a reserve of 10% is required of State institutions; in each case one-half must be cash in their possession. Mr. Williams, however, would make the reserve in other cities 15%, at least two-fifths to consist of cash on hand. For trust companies in cities having a population of over 800,000 Mr. Williams recommends a reserve fund equal to at least 15% of its aggregate deposits (the deposits,

however, to be subject to the reductions mentioned below) all of which reserve fund should, he thinks, consist of lawful money as aforesaid; in other cities a reserve of 10% is recommended, of which at least 50% must consist of lawful money, and the balance of money on deposit, subject to call, with a reserve agent approved by the Superintendent. The reserves of trust companies in cities having a population of 800,000 or more are at present fixed at 15%, all of which may be, and at least 5% of which must be, cash on hand; 5% may be kept in United States. State or municipal bonds of New York State, and the remainder deposited with other banks or trust companies in the State approved by the Superintendent; elsewhere in the State the companies are required to maintain a reserve of 10%, of which 3% must be in cash, 3% in bonds as above, and the remainder deposited with an institution approved by the Superintendent. In calculating the deposits of the trust companies on which the reserves recommended by Mr. Williams must be maintained, he would allow the following deductions:

First—Any moneys held by it in trust, the disposition whereof is wholly within the control of the trust company as executor, administrator, receiver, trustee or otherwise.

Second—Time deposits not payable within thirty days, represented by certificates showing the amount of the deposit and the date of issue and maturity.

Ample time, he states, should be given for the establishment of the additional reserves suggested. He recommends also that the banking law be amended, as suggested by the advisory committee, so as to place the maximum of any secured loan to a single interest at 25%, instead of 40%, of the capital and surplus of a bank or trust company.

—The Kansas City Clearing House Association has taken action toward the establishment of the office of Clearing House Auditor, whose duties will be along the lines of those of the Clearing House Examiner in Chicago. The Kansas City Association has named as a committee H. C. Flower, J. F. Downing and F. P. Neal, who are to report a plan for establishing such office. The requirements of the position of Auditor will partake of the nature of those of a private examiner, and he will be called upon to institute proper steps to prevent irregularities, his duties begin regulated by rules to be adopted by the Association. E. F. Swinney, President of the First National Bank, has been elected President of the Association, succeeding W. H. Winants, Vice-President of the failed National Bank of Commerce. Mr. Swinney consented to accept the office until the next annual meeting, in April.

A new plan for the examination of State banks, trust companies and building and loan associations of Pennsylvania has been arranged by State Banking Commissioner Berkey, according to the Philadelphia "Ledger." Under the new method, which is to become effective at once, it is hoped to examine each banking concern twice a year, and each building and loan association once a year. This is to be accomplished through the division of the State into nine districts, sixteen examiners being assigned to them; Philadelphia, with about 130 banks and trust companies, is one district, with five examiners; Allegheny County, with about 132 institutions, is another district, with four examiners; the rest of the State is divided into seven districts, with one examiner each, and each having an average of 45 institutions. Four other examiners will look after the 1,300 building and loan companies in the State; they will work under the direction of the Department, and will be assisted by the bank examiners whenever feasible.

—The People's Savings Bank of Brownsville, Tenn., was placed in voluntary liquidation on Dec. 31. It is stated that the depositors will be paid through the Brownsville Bank, ample deposit having been made with the latter for that purpose. The People's Savings Bank had a capital of \$25,000; it had, it is said, contemplated liquidating for a year past, and its action to that end, it is asserted, is in no wise due to the financial conditions.

—Announcement of the disposal of the holdings (2,000 shares) of Charles W. Morse in the New Amsterdam National Bank of this city was made this week. The purchaser is F. M. Peet, President of the National Deposit Bank of Philadelphia. Mr. Morse resigned as Vice-President and director of the institution in October, the Clearing House having at that time, it will be recalled, insisted upon the elimination of the Heinze-Morse-Thomas interests from this, the Mercantile and the National Bank of North America before extend-

ing to the institutions any support that might be needed. The New Amsterdam, it is said, has gradually taken up the loan certificates given by it to the Clearing House during the time aid was received from the association, and has generally strengthened its position within the past few months. At the annual meeting next week it is possible that the new interests will be given representation on the board, the following also becoming directors of the bank: F. K. Sturgis of Strong, Sturgis & Co., J. Romaine Brown, and John G. Hemerich, Vice-President of the institution. Five vacancies exist in the board, four through the resignation of the following: Charles W. Morse, Miles M. O'Brien, H. F. Morse and F. G. Kinsman, and the other through the death of Charles T. Barney. The following, it is expected, will be re-elected at the coming meeting: Louis Stern of Stern Brothers; Gen. Warren M. Healey of Healey & Co.; R. V. Lewis of Lewis & Conger; George W. Wilder, President of the Butterick Co.; Frederick W. Kinsman, President of the bank; John F Carroll, Vice-President of the Fourteenth Street Bank; and John D. Carroll, of the Fiss, Doerr & Carroll Horse Co.

—Mr. Morse, who resigned from the directorate of the Fourteenth Street Bank of this city, is said to have sold his stock interest in that bank to President R. Ross Appleton.

-F. Augustus Heinze, former President of the Mercantile National Bank, this city, pleaded "not guilty" to a Federal grand jury indictment charging him with over-certifying fifteen checks drawn by his brother's concern, Otto Heinze & Co., on that institution, to the amount of \$407,000, Oct. The case has been set by Judge Chatfield of the 14th. United States Circuit Court for trial Jan. 20th. F. A. Heinze was President of the Mercantile National from Jan. to Oct. last year, when he was obliged to relinquish his office by the Clearing House Committee. Mr. Heinze's stockholdings in the Mercantile National Bank, amounting to about 8,000 shares, reverted on Wednesday to the former owners, Edwin Gould and his counsel, Wm. Nelson Cromwell. When Mr. Heinze competed for control of the bank in conjunction with the Morse interests, he paid to Mr. Gould but \$50 per share cash (\$400,000) and for the balance gave his note for about \$2,200,000, payable in January, which, he was not able to take up. Mr. Cromwell would not say whether Mr. Gould would assume the presidency or who will be his representatives on the board. These matters are to be settled at the Jan. 14 stockholders' meeting. Seth M. Milliken, who has brought the bank through its troubles, is anxious to be relieved of executive direction, and give his entire time to his larger private interests. The following statement was given out by Mr. Heinze last Monday: "Owing to pending negotiations the call of the stockholders' meeting of the Mercantile National Bank of the City of New York to consider the liquidation of the bank is hereby revoked. This announcement foreshadowed the later developments which resulted in Mr. Heinze's complete elimination from the institution's control.

—William H. Erhart has been elected to replace the late Trenor L. Park as a director of the Jefferson Bank of this city.

—Action on the motion to make permanent the receivership of the Knickerbocker Trust Co. of this city, which has been postponed several times, was again adjourned last Saturday for two weeks, or until the 18th inst. A statement issued last week by the Parsons Committee in answer to inquiries of depositors as to the assets of the company says that "it can be generally stated that if the depositors will act together and enable the company to resume in the near future, the total assets will have the value of about \$53,-165,000, made up of:

2,675 56, at 65% . Several accounts were previously sold, it is reported, at 60% .

—Schedules in bankruptey of Kessler & Co. of this city were filed on the 26th ult. They show liabilities of \$9,625,624, of which \$2,414,538 are secured, \$1,403,723 unsecured and \$5,807,363 contingent bills, notes and acceptances which ought to be paid by others; in the event that they are not paid at maturity by the maker or acceptor, a contingent liability ensues for the petitioner. This amount also figures in the assets of the company. The total assets are given as \$9,359,100 and include stocks and bonds, \$2,273,715 estimated value, some pledged for loans or deposited in escrow accounts, \$998,601; notes, \$152,499; cash, \$20,502; real estate, \$35,000; mortgage, \$9,000; membership New York Stock Exchange, \$65,000; notes, bills and acceptances, \$5,807,363, &c., &c. The firm assigned on Oct. 30 and was adjudicated bankrupt on Nov. 22.

—At a directors' meeting of the Hamilton Bank of this city on the 1st inst., W. R. Montgomery retired as President and Frank L. Grant, Vice-President and director of the Carnegie Trust Co., was elected to replace Mr. Montgomery. Frank W. Kinsman Jr. has withdrawn as director. Large amounts have been pledged to the assistance of the reorganized bank, a considerable portion being furnished by the Carnegie Trust interests; the National Copper Bank and another institution are also said to have contributed to its relief. The new directors, it is understood, hold 1,334 shares of the bank's \$200,000 capital, all of which were obtained from the Thomas interests. The order formally discharging Frank White as receiver was signed by Justice Betts on the 2d inst; the time for the removal of the receiver, originally fixed for Jan. 15, has been extended to Jan. 20.

—The Harris Exchange Bank of Tyler, Texas, failed to open on Dec. 30. Since Nov. 1, it is stated, there had been a steady drain on the institution and it was decided to place its business in the hands of the Court. The deposits are said to be \$100,000 and the assets \$80,000. Two business concerns, reported to be owned by the bank, the Tyler Novelty Co. and the Tyler Paint Co., have also closed.

—The State Bank of Rocky Ford, Colo., is reported to have closed its doors on the 2d inst., following a run. The institution has a capital and surplus of \$30,000 each; its liabilities are placed at over \$400,000, while its assets are said to exceed \$525,000.

—The Nye & Ormsby County Bank of Carson City, Nevada, with branches at Goldfield, Reno, Manhattan and Tonopah, which closed on Oct. 23, resumed business on the 2d inst. It is stated that it has issued certificates to its depositors, payable in three, six and nine months. The bank had re-opened on Oct. 28, but on account of the demands on its Goldfield branch, immediately closed its doors again, the suspension continuing until last week.

—The Union National Bank of Oakland, Cal., which closed its doors on Nov. 11, resumed business on the 2d inst. A reorganization of the institution was effected on Dec. 30, when James L. de Fremery was elected President, succeeding Charles E. Palmer, resigned. The other officers elected with the new President are: George D. Gray and George Roeth. Vice-Presidents; and E. F. Jordan, Cashier. As part of the plan toward resumption 90% of the depositors assented to an agreement restricting the withdrawal of their funds. The rehabilitation of the institution, it is understood, also involves an increase in the capital from \$150,000 to \$300,000.

—Zoheth S. Freeman, Secretary of Group VIII, New York State Bankers' Association, announces the names of the speakers who will address the bankers of this city at their annual banquet, Waldorf-Astoria Hotel, Monday evening, Jan. 27. The program includes: Nicholas Murray Butler, President of Columbia University; David R. Forgan, President National City Bank, Chicago; Dr. Aked, the new English minister of the Fifth Avenue Baptist Church; and Patrick Murphy, President Mark W. Cross Co., one of our wittiest and funniest after-dinner orators. Alexander Gilbert, President of Group VIII, will be toastmaster and will also make some remarks. Secretary of the Treasury Cortelyou, Secretary of War Taft and Gov. Hughes had also been invited, but found it impossible to attend, owing to conflicting engagements.

At the annual meeting of the stockholders of the Chelsea Exchange Bank of this city on the 14th inst. a resolution to reduce the number of directors from seventeen to fifteen members will be introduced.

-Action on the proposition to reduce the number of directors of the West Side Bank from fourteen to thirteen will be taken at the bank's annual meeting on the 14th inst.

The Nassau Bank of New York makes a striking showing for Dec. 19 last, when its deposits were \$5,004,539, a gain of \$932,272 in this item since the previous bank call, Aug. 22. The institution's specie amounts to \$269,709, legal tenders \$285,140, cash items \$249,346, besides Clearing House certificates of \$370,000. William H. Rogers is President and Edward Earl Cashier.

-The usual volume containing the detailed proceedings of the thirty-third annual convention of the American Bankers' Association has appeared. The present edition, treating of the meeting held at Atlantic City in September last, is in its customary comprehensive shape, giving in addition to a full report of the proceedings the constitution and by-laws of the Association, a list of its officers and members, the minutes of the meetings in Nov. 1906 of the Credit Currency Commission appointed by the Association, &c.

-The Fifth Avenue Bank, at 44th St. and Fifth Ave., has added many new accounts since the recent banking disturbance, as its statement to the Banking Department plainly reveals. Deposits have increased from \$10,640,975 Aug. 22 to \$13,730,244 on Dec. 19. The institution is well known for its strict requirements in accepting only desirable deposits as well as because of its conservative management. A. S. Frissell is President and B. H. Fancher Cashier.

-The Bryant Park Bank, 42d St. between Broadway and Sixth Ave., made its initial statement to the State Banking Department two week ago, disclosing a total of \$572,953 deposits and \$872,513 resources for Dec. 19. Its cash on hand was \$113,283 in addition to \$96,876 due from approved reserve depositories. W. W. Warner is President.

-P. C. Costello was elected to fill a vacancy on the board of the Bowling Green Trust Co. of this city at Wednesday's meeting of the stockholders.

-Hugo Baring, of the recently dissolved firm of Baring & Co., retired from the board of the Equitable Trust Co. this week.

-According to the "Brooklyn Eagle" a protective committee of depositors of the Williamsburgh Trust Co. of Brooklyn is working out a plan of resumption which contemplates the purchase of the institution by a syndicate of Manhattan financiers. The institution is one of those which closed its doors on Oct. 25. On Nov. 15 Frank L. Bapst was appointed permanent receiver and Augustus Van Wyck was named to act with him. It is stated that counsel for the depositors will shortly institute proceedings to have the receiverships set aside. The Corn Exchange Bank of this city denies the report that it has seeured or is seeking control of the institution, or is interested in any arrangement affecting its future.

-The Ocean County Trust Company of Tom's River, Ocean County, N. J., referred to in this department Aug. 3, is preparing to begin business the present month. The officers of the institution are: President, George H. Holman, County Clerk; Vice-Presidents, Circuit Court Judge James F. Minturn and ex-Senator A. C. B. Havens; Treasurer, William E. Simmons.

-At the annual meeting of the American Trust Co. of Boston on Tuesday T. Jefferson Coolidge Jr. was elected a director to succeed Eugene N. Foss, resigned, and E. V. R. Thayer was chosen to replace his father, the late Eugene V. R. Thayer, on the board. The by-laws of the company were amended so as to provide for the election of an examining committee of not less than three stockholders, which will be required to make at least two examinations of the affairs of the institution during the year.

-The Mutual Trust Co. of Philadelphia, whose proposed organization was first referred to a year ago in these columns, began business on the 2d inst. The institution has an authorized capital of \$750,000. It is quartered in the Bourse Building, and has among its active officers and stockholders members of the Commercial Exchange of on "Ancient and Modern Safe Depositories," which is a

Philadelphia, identified with the grain business. The officers of the company are William J. Koch, President; E. L. Rogers, Vice-President, and J. S. Truitt, Secretary and Treasurer.

-The Baltimore "American" states that Grier Hersh will retire from the presidency of the Maryland Trust Co. of Baltimore at the annual meeting on the 21st inst. resignation was tendered some months ago on account of the pressure of private affairs, but he was finally induced to remain. Mr. Hersh has large personal interests at York, and he now finds that in justice to these he can no longer continue in the presidency of the trust company.

-The Commercial National Bank of Columbus, Ohio, last month increased its capital from \$200,000 to \$300,000, having, with the unanimous consent of its shareholders, declared a 50% stock dividend out of its surplus and undivided profits of \$315,000. The latter item now stands at \$215,000. The bank is under the management of W. F. Hoffman, President; D. E. Putnam and J. A. Jeffrey, Vice-

Presidents, and G. A. Archer, Cashier.
—Complimentary copies of "Hyman's Hand-Book of Indianapolis" are being distributed by the Merchants' National Bank of that city. The book is edited by Max R. Hyman, and gives a comprehensive but condensed history and description of the city, as well as of every notable public institution and feature of special interest, and is profusely illustrated. The bank's latest statement (Dec. 3) shows deposits of \$5,899,509 as compared with \$5,525,623 on Aug. 22; surplus fund and profits are now \$839,256, against \$810,640 in August, while total assets have increased from \$8,818,763 to \$9,391,265.

-The Chicago City Council at its last meeting selected the local banks which are to be the depositaries of city funds in The award was under the new law, which provides that the money be apportioned, with a provision that the average monthly deposit in each bank shall not exceed its apportionment. As interest on these deposits the banks pay the amount of their bids. All of the banks named $2\frac{1}{2}\%$ as the interest they would pay except the First National Bank of Englewood, which offered 3%. The banks selected, with the average monthly balances allowed each, are as follows:

the average monthly balances allowed each, are as follows:

Bankers' \$500,000 Colonial Trust & Savings. \$500,000 Continental. 1,000,000 Pirst Trust & Savings. 1,000,000 Commercial 750,000 Poreman Brothers 500,000 Fort Dearborn 500,000 North Ave. State Bank 125,000 Hamilton 312,500 Metropolitan Trust & Sav. 500,000 National Bank of the Repub 700,000 Northwestern Tr. & Sav. 500,000 National City Bank 500,000 State Bank of Chicago 500,000 Prairie National 100,000 Union Bank of Chicago 500,000 Priest National 125,000 Western Trust & Savings. 500,000 Hibernian 500,000 Hillinois Trust & Savings 750,000 Prairie State Savings 500,000 Contral Trust & Savings 750,000 Prairie State Savings 500,000 Contral Trust & Savings 750,000 Coole County State Savings 20,000 Chicago Sav. Bk. & Tr. Co. 275,000 Stockmen's Trust & Sav. 100,000

-The directors' annual report of the condition of the First National Bank of Chicago, issued at the close of business Dec. 31, shows net earnings for the year 1907 as \$1,709,628, or 21.36% on \$8,000,000 capital stock. This compares favorably with 18.2% earnings in 1906. After paying dividends at the rate of 12%, there was a balance of \$1,352,727, and of this \$1,000,000 was carried to surplus account, making the latter fund \$7,000,000. Its affiliated institution, the First Trust & Savings Bank (whose stock is entirely owned by stockholders in the First National Bank, and whose directors must be chosen from the directorate of that institution). closes a remarkably successful year, with a capital stock paid in of \$2,000,000; surplus fund of \$1,000,000; undivided profits of \$355,043 53, and total resources of nearly \$36,000,000. James B. Forgan is President of both banks.

-It is stated that the Corn Exchange National Bank of Chicago is considering the issuance of \$1,000,000 of new capital-for the purpose of reimbursing its surplus for expenditures in connection with it new building. tion has combined capital and surplus of \$6,000,000, or \$3,000,000 each, and it has in addition undivided profits of \$1,850,000. The new stock, it is said, is not likely to be authorized until after April 1.

-A unique mode of bank advertising is that employed by the Northern Trust Company of Chicago to exploit the merits of its safe deposit vaults. The company is sending out to a select list names (not at the present time patrons) a large number of iron keys which are exact fac-similes of the original key to Independence Hall, Philadelphia; and in connection with this a quarto pamphlet

triumph of the printers' and engravers' arts. The idea of the souvenir key is "for use as a paper-weight on your desk or to carry home for its historic associations"; and a gilded tablet on the body of the key reminds you that it is "presented with the compliments of the Northern Trust & Safe Deposit Company." The monologue on "safe depositories" begins with primitive man, "who concealed his treasures in a hole in the ground, a cave or a hollow in some tree." It traces, step by step, through history the various measures adopted for greater security for valuables-"the rude hut, the door of which was fastened by cords tied in intricate knots. After the cord came the wooden bar; after that the bolt, and then the lock"—which was apparently first used in the early days of Egypt. Phoenician traders are said to have brought the first locks into England, and locks were first manufactured there in the reign of Alfred (871-901 A.D.). Not until 1801 was the fire-proof safe patented in England. "The safe deposit vault, as we know it, originated in New York about 1865." The gradual development of this wonderful modern safeguard is told in a most interesting manner.

—Francis Bolles Peabody, the head of the banking, bond and mortgage firm of Peabody, Houghteling & Co., Chicago, died on the 2nd inst. after severalweeks' illness. Mr. Peabody was born in Milford, N. H., Oct. 27 1827, and was graduated from Trinity College, Hartford, in 1848. Afterwards he studied law under Franklin Pierce, who subsequently became President of the United States. Admitted to the New Hampshire bar in 1850, Mr. Peabody practiced law first with his brother-in-law, Nathaniel B. Baker, who afterwards was Governor of New Hampshire, and subsequently with William E. Chandler, who later became Secretary of the Navy. In 1857 Mr. Peabody removed to Chicago, taking up at first the practice of law; in 1875 he organized the firm of Francis B. Peabody & Co. and engaged in mortgage loans and investments. This firm was succeeded by the present one of Peabody, Houghteling & Co. in 1885.

—It is announced that the Mutual Bank of Chicago, in pursuance of its policy of distributing profits, will pay to depositors 4% interest on their balances for 1907. The bank commenced business Oct. 2 1905. Its plan is to pay 3% on savings accounts, 2% on commercial accounts and 3% to the stockholders, and to divide equally between the depositors and stockholders all profits remaining after these payments. In Jan. 1906 the savings depositors received extra interest amounting to ½ of 1%; a year ago they were paid ½% extra interest, and the present month they are allotted 1% extra, or 4% in all.

—Notwithstanding the general financial depression the Harris Trust & Savings Bank of Chicago announces that its bond sales for 1907 were the largest of any year of its history, and exceeded by \$3,586,000 the sales for 1906. The increase in the number of new customers purchasing bonds, it states, was more than 50% over that of 1906. At the annual meeting of the bank the retiring directors were reelected as follows: James T. Harahan, Allen B. Forbes, Albert W. Harris, Bernard A. Eckhart, Albert G. Farr, Isaac Sprague, John B. Lord, George P. Hoover, Norman W. Harris. The officers were also re-elected.

—At the annual meeting of the directors of the Illinois Trust & Savings Bank of Chicago this week, Henry A. Blair was elected a Vice-President to succeed W. H. Reid, who retires on account of ill-health. The sum of \$1,000,000 was transferred from undivided profits to surplus, making the latter \$7,500,000. The bank still has undivided profits of \$500,000.

—The officers and directors of the Commercial National Safe Deposit Co. of Chicago announce the opening on the 9th inst of the Harveyized nickel-steel armor-plate vaults in the Commercial National Bank Building, corner of Adams and Clark streets.

—John D. Robertson, President of the Inter-State National Bank of Kansas City, Mo., died on the 7th inst. He had served as the bank's presiding officer since 1896.

—The Badger State Bank of Milwaukee, which commenced business on Nov. 4, issued its first statement under date of Dec. 21, showing capital paid in of \$50,000; surplus of \$725; deposits of \$52,366; and total resources of \$103,001. The bank is located at Fond du Lac and North avenues, and

is under the management of Gustav Reinke, President; William A. Tharinger, Vice-President, and F. E. Wallber, Cashier.

—The Citizens' & Southern Bank of Savannah, Ga., in its statement of Dec. 3 shows a surplus and net profits of \$722,779, as against \$671,908 on Oct. 14. The bank's latest report gives deposits as \$5,426,336, while its resources aggregate \$7,209,890. The institution was formed in February 1906 through the consolidation of the Citizens' Bank and the Southern Bank of the State of Georgia; it has a capital of \$700,000. The officers are Mills B. Lane, President; John Flannery and Horace A. Crane, Vice-Presidents; George C. Freeman, Assistant to President; Gordon L. Groover, Cashier, and R. L. Rockwell, Assistant Cashier.

—The New Farley National Bank of Montgomery, Ala., in its first annual statement of date Dec. 31 1907, has total resources of \$753,080. The bank's deposits amount to \$360,261, against which it reports cash in other banks of \$112,202 and in its own vaults of \$166,815. The capital is \$200,000, surplus \$20,000 and undivided profits \$17,819. The bank has been in operation since Dec. 10 1906.

—In a circular letter issued under date of Dec. 31 by the Alabama Bank & Trust Co. of Montgomery, Ala., the institution announces that it is conducting business according to the old and regular banking customs, receiving and paying such deposits made with it on demand. No interest, it is stated, is paid on deposits. The company states also that since its opening on Nov. 4 it has maintained in its vaults cash to the extent of more than 100% of its deposits, and it is its purpose to keep on hand, as long as the money stringency lasts, sufficient funds to discharge every obligation on call. The institution has a capital of \$300,000 and surplus of \$30,000.

—An application to convert the People's Bank of Pensacola Fla., into the People's National Bank was approved by the Comptroller of the Currency on the 3d ult. The institution's capital will remain at \$100,000.

The date of the meeting of the stockholders of the State National Bank of New Orleans, when action on the question of placing the institution in voluntary liquidation is to be taken, has been changed from Jan. 28 to 30, owing to the fact that the date originally set is a legal holiday in the State. The institution is said to have experienced large withdrawals since the resignation of William Adler from the presidency, and this notwithstanding the fact that it was shown to be in an absolutely solvent condition by the New Orleans Clearing House Committee on the 22d ult, after an examination made by the latter of its affairs. The statement concerning the bank's solvency was later confirmed by J. H. Fulton, Charles Godehaux and Charles Janvier, who, assisted by National Bank Examiner S. H. L. Cooper, made a further critical examination of its affairs on the 24th ult. The State of Louisiana has withdrawn its deposit of \$366,000, and the United States and city funds, it is reported, have likewise been withdrawn.

—It is reported that a consolidation has been arranged between the Citizens' National Bank and the Farmers' & Merchants' National Bank of Tyler, Texas, both of which have a capital of \$100,000 each.

—John C. Harrison, Cashier of the State National Bank of Fort Worth, Texas, died on the 29th ult. Mr. Harrison was forty-nine years of age. He had been identified with the State National for over twenty years.

—The Traders' Bank & Trust Co. of Dallas, Texas, lately incorporated with \$50,000 capital, commenced business on the 4th inst. at 551 Elm St. The officers are Herbert D. Ardrey, President; J. R. McFarland, Vice-President, and J. Dabney Day, Cashier.

—The usual semi-annual dividend of 6% was declared by the Seattle National Bank of Seattle, Wash., on Dec. 31. The bank increased its capital from \$300,000 to \$500,000 in September.

—The Los Angeles "Finaucier" states that William Mead has retired as President of the Central National Bank of Los Angeles, his interests having been acquired by George Mason, who succeeds to the presidency.

—The Security Savings Bank and the Southern California Savings Bank of Los Angeles were consolidated on the 16th ult, under the title of the first-named institution. The consolidation was not unexpected, as more than a year ago the purchase of a large amount of stock of the Southern California bank was effected by interests in the Security Savings Bank. The latter institution increased its authorized capigal last December from \$500,000 to \$1,000,000, and now reports a paid-in capital of \$850,000. With its surplus of \$400,-600, it has a working capital of \$1,250,000. The Southern California Savings Bank had a capital of \$100,000 and deposits of nearly 734 million dollars. The consolidated institution is located in the Security Building at Fifth and Spring streets. The bank calls attention to the fact that the building is not, as might be inferred from the name, owned by it, nor has it any interest in it.

-The Bank of Toronto (head office Toronto) reports net profits for the year ending Nov. 30 1907 of 586,635, as against \$544,296 the previous year. After the usual distributions there has been carried forward a balance of \$150,708 an increase of \$77,660 over last year's amount. The deposits now (Nov. 30) at \$25,407,593 compare with \$24,737,-124 a year ago. The bank has a paid-in capital of \$4,000,000. D. Coulson is General Manager and J. Henderson, Asst. General Manager.

Monetary Commercial English News

(From our own Correspondent.)

(Prom our own Correspondent.)

London, Saturday, December 28 1997.

Business naturally has been very restricted on the Stock Exchange this week, as both Wednesday and Thursday were close holidays and on Wednesday next the Stock Exchange will again be closed. Furthermore, the last fortnightly settlement of the year began on Tuesday and will not end until Monday evening. The account open for the rise is small, for brokers and jobbers are still afraid to incur large risks on account of clients.

Over and above this, the demand for money is very strong. Our joint-stock banks are in the habit at the end of each month of calling in loans for the improper purpose of making it appear that they usually hold larger reserves than they actually do. The withdrawals of these loans are going on this week and will continue until Tuesday evening. Consequently, money in the open market is scarcer than usual and many borrowers are driven to the Bank of England, where from 7% to 7½% is charged.

In spite of all, however, the feeling in the Stock Exchange is distinctly hopeful. Prices are well maintained, and not-withstanding the state of affairs in so many other countries, there is more inclination to speculate than there has been up to the present. During next week business will again be inactive. Monday will be pay-day on the Stock Exchange. Tuesday the banks will all be making up their annual accounts. Wednesday the Stock Exchange will be closed. Thursday and Friday money will continue to be dear and scarce. On the following Monday, however, the interest upon the national debt will be paid and will add very largely to the supply of money in the open market. For some weeks afterward money will continue comparatively cheap and plentiful, and in the present temper of the city it seems safe to predict that there will be a very considerable inner has a supply of money in the open market. For some weeks afterward money will continue comparatively theap and that all danger of convalescence will almost immediately set in. Furthermore,

part of Northern and Central India, business in that country is restricted. Gold demands have not arisen, and it is feared that business will shrink further. Even yet there may be good rains, in which ease the spring crops will turn out well. Furthermore, it is hoped that sufficient rain has fallen in Burmah to prevent any serious damage to the rice crop, and the cotton crop is fairly good. Upon the whole, however, the prospect now is that no gold will be shipped from this country to India. On the contrary, the greater likelihood is that gold will come from India here. If the crisis is practically over in the United States, and if neither India nor Egypt is in a position to take Australian gold, the Australian supply will come to London. So, also, will the South African, and hence the supply of new gold in London ought to be very large during the next few months. The only considerable demand for gold is from South America, and chiefly from Argentina. But it is hoped that arrangements may be made which will enable Argentina to deposit gold in the Bank of England instead of taking it out to Buenos Ayres.

The India Council offered for tender on Tucsday 25 laes and the applications exceeded 138¼ laes at prices ranging from 1s. 3 29-32d, to 1s. 3 31-32d, per rupee. Applicants for bills at 1s. 3 29-32d, and for telegraphic transfers at 1s. 3 15-16d, per rupee were allotted about 14% of the amounts applied for.

Messrs. Pixley & Abell write as follows under date of

Messrs. Pixley & Abell write as follows under date of Dec. 24.

Gold.—With somewhat less demand for America, the price has slightly fallen and is now quoted at 77s. 11d. At this rate the week's arrivals have been about equally divided between New York and the Continent. £278,000 has been received at the Bank, while £175,000 has been withdrawn, £135,000 or which is in bars. Next week we expect £981,000 from the Cape. Arrivals—Cape. £482,000; Australia, £317,000; New Zealand, £46,000; total, £845,000. Shipments—Bombay, £48,500; Malta, £20,000; New York, £619,700; total, £685,200.

SillyER.—Our last circular was dated the 19th inst. On the 20th and 21st the market, in the absence of any support, fell sharply, the quotation falling to 24½d, Yesterday and to-day, on some orders from the indian Bazaars, we have recovered to 24.9-16d, and the market is quiet at the close. The United States Government continues to buy freely. Forward sliver has been quoted at 4d, and 5-16d, over spot, closing at the former difference. The Indian price is Rs. 63.7-16 per 100. Totals. Arrivals—New York, £96,000. Straits, £70,000; total, £166,000. Slipments—Bombay, £50,200; Colombo, £2,500; Shanghal, £40,000; Madras, £600; Singapore, £17,500; total, £110,800.

MEXICAN DOLLARS.—There have been no transactions to report in these coins.

Commercial and Miscellaneous News

GOVERNMENT REVENUE AND EXPENDITURES. GOVERNMENT REVENUE AND EXPENDITURES.—
Through the courtesy of the Secretary of the Treasury, we are enabled to place before our readers to-day the details of Government receipts and disbursements for the month of December. From previous returns we obtain the figures for previous months, and in that manner complete the statement for the calendar years 1907 and 1906. For statement of December 1906 see usue of January 12 1907, page 83.

RECEIPTS AND DISBURSEMENTS (000s emitted).

New York City, Boston and Philadelphia Banks.—The New York City Clearing House has discontinued, for the present, issuing its detailed statement showing the weekly averages of condition of the separate banks, both the member and the "non-member" institutions. The publication of these figures, it is stated, will not be resumed until all outstanding Clearing-House loan certificates are retired. The last statement issued, that for Oct. 26 1907, will be found in the "Chronicle" of Nov. 2, on page 1124.

The Philadelphia and Boston Clearing Houses have also adopted the course of not making public the returns of the individual banks. The New York Clearing House does not give out any figures regarding the volume of the outstanding loan or Clearing-House certificates, nor does the Philadelphia Clearing House; but at Boston \$11,995,000 of such certificates were outstanding Saturday, Jan. 4.

Below is a summary of the weekly totals of the Clearing-House banks of New York City, Boston and Philadelphia. The New York figures do not include results for non-member banks.

We omit two ciphers in all these figures.

Banks.	Captul and Surplus.	Loans.	Specie.	Legals.	Depostus. a	Circu-	Clearings.
New York Dec. 7 Dec. 14 Dec. 21 Dec. 28 Jan. 4	293,498,3 292,496,9 292,496,9	1175,027,9 1165,446,8	177,165,3 181,503,1 187,874,3	49,450,0 51,619,4 54,686,7	1066,865,9 1059,494,0 1050,925,4	68,997,9 70,659.6 71,736.6	\$ 1,434,538,2 1,305,346,8 1,230,967,0 983,675,6 1,335,387,8
Boston. Dec. 14 Dec. 21 Dec. 28 Jan. 4	44,036,0 44,036,0 44,036,0 44,036,0	190,638,0 189,459,0 190,056,0	15,055,0 16,258,0 17,187,0	3,680,0 3,023,0 3,268,0	211,338,0 209,425,0 210,022,0	9,734,0 10,259,0 10,587,0	124,352,7 122,921,4 98,333,2
Phila Dec. 14 Dec. 21 Dec. 28 Jan. 4	54,440,0 54,440,0 54,440,0 54,440,0	224,831,0 225,122,0	43,0	85,0 01,0	230,514,0 229,509,0 231,112,0 235,305,0	17.912,0 18.015,0	117,969,4 95,681,6

a Including Government deposits and for Boston and Philadelphia the item "due to other banks." At New York Government deposits amounted to \$76,310,800 on Jan. 4, against \$78,889,100 on Dec. 28; at Boston on Jan. 4 to \$5,420,000, against \$6,423,000 on Dec. 28.

Imports and Exports for the Week.—The following are the imports at New York for the week ending Jan. 4; also totals since the beginning of the first week in January:

FOREIGN IMPORTS AT NEW YORK.

For the week,	1908.	1907.	1906.	1905.
Dry GoodsGeneral Merchandise	\$3,591,357 9,081,842	\$3,827,756 11,939,471	\$3,712,594 10,996,013	\$3,127,174 10,282,376
Total	\$12,673,199	815.767,227	\$14,708,307	\$13,409,550
Since January 1. Dry Goods	\$3,591,357 9,081,842	\$3,827,750 11,939,471	\$3,712,594 10,996,013	\$3,127,174 10,282,376
Total 1 week	\$12,673,199	815,767,227	\$14,708,607	\$13,409,550

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Jan. 4 and from Jan. 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1908.	1907.	1906.	1905.
For the week	\$10,451,853	\$11,231,310	\$12,458,650	\$9,225,597
Total I week	\$10,451,853	\$11,231,310	\$12,458,650	\$0,225,597

The following table shows the exports and imports of specie at the port of New York for the week ending Jan. 4 and since Jan. 1 1908, and for the corresponding periods in 1907 and 1906:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

75	Ex	orts.	Imports.

DEALERS IN INVESTMENT SECURITIES Commission Orders Executed for Cash Only

Bankers' Gazette.

Wall Street, Friday Night, Jan. 10 1908.

The Money Market and Financial Situation.—The security markets have responded to the more favorable financial situation by increasing activity and a substantial advance in prices. The upward movement in shares has not progressed without interruption, however, as on two days of the week without interruption, however, as on two days of the week there has been a decided reactionary tendency; but nearly the entire Stock Exchange list is several points higher as a result of the week's operations. In the bond market, also, the dealings have been on a larger scale than for many months past, at steadily advancing prices.

Evidences of the improved financial situation referred to are seen in the decidedly lower rates for call loans now prevailing, in more liberal offerings of money on time and a more active interest in commercial paper. The same improvement is shown abroad by a reduction of the Bank rate at Paris from 4% to 3½% and by the strong position of the Bank of England as set forth in the weekly statement.

Not all the events of the week had a corresponding effect. The announcement of the passing of the Chicago Great Western Railway into the hands of receivers checked the upward movement in shares for the time being, and the well known needs of other railroad systems is keeping some stocks on the inactive list.

The open market rates for call loans on the Stock Evaluates. The Money Market and Financial Situation. - The security

inactive list.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2% to 9%. To-day's rates on call were 3½@6%. Prime commercial paper quoted at 6¾@7% for endorsements and 6¾@7% for best single names, but all transactions subject to special agreement.

The Bank of England's weekly statement on Thursday showed an increase in bullion of £2,227,746, and the percentage of reserveto liabilities was 48.15, against 35.62 locations.

snowed an increase in bullion of £2,227,746, and the per-centage of reserve to liabilities was 48.15, against 35.62 last

The discount rate remains at 6%, as fixed Jan. 2. The Bank of France shows a decrease of 1,850,000 france gold and

Bank of France snows a decrease of 1,550,000 francs gold and 2,025,000 francs silver.

The New York City Clearing-House banks in their statement of Jan. 4 showed an increase in the reserve held of \$8,045,900 and a deficit of \$11,509,550 under the required reserve, against a deficit of \$20,170,350 the previous week.

	1968. Jan. 4.	Difference from previous week.		1907. Jan. 5.	1906. Jan. 6.	
Capital Surplus Loans and discounts Circulation Net deposits Specie Legal tenders	\$ 129,100,000 163,396,900 1,132,871,800 72,316,300 *1,048,465,800 192,120,900 58,486,000	Dec. Dec. Dec. Inc.	579,700	1,000,578,300	140,800,500 1,004,658,300 52,912,900 983,742,800

Less: a I-16 of 1%. d I-32 of 1%. h 3-32 of 1%. Plus:—k I-16 of 1%. x I-32 of 1%. y 3-32 of 1%.

The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah, buying, 50c. per \$1,000 discount; selling, 75c. per \$1,000 premium. Charleston, selling, \$1 per \$1,000 premium. New Orleans, bank, 75c. per \$1,000 discount; commercial, \$1 per

\$1,000 discount. Chicago, 40c. per \$1,000 discount. St. Louis, 75c. per \$1,000 premium. San Francisco, par.

State and Railroad Bonds.—Sales of State bonds at the Board are limited to \$7,000 at 24 to 2434.

The market for railway and industrial bonds has, as noted there have been more active, the transactions at the Evaluation

above, been more active, the transactions at the Exchange averaging nearly \$4,000,000, par value, per day. Prices have generally advanced, several issues closing with a gain of from 1 to 4 points.

of from 1 to 4 points.

Some of the industrial bonds have been notably strong, including United States Steel, American Tobacco and Central Leather issues, the former on an active demand. Brooklyn Rapid Transit ref. con. 4s have been very active, and show a fractional net gain. Interboro-Metropolitan 4½s have advanced 2 points. vanced 2 points.

United States Bonds.—Sales of Government bonds at the Board include \$20,000 2s reg., 1930, at 104½ and \$14,000 4s coup., 1925, at 120¾ to 121¾. The following are the daily closing quotations; for yearly range see third page following.

	Interest Periods		Jan.	Jan.	Jan.	Jan.	Jan. 10
3s, 1908-18 coupon 3s, 1908-18 small coupon 4s, 1925 registered	Q—Feb Q—Feb Q—Feb Q—Feb Q—Feb	*10034 *10134 *10034 *119	*100% *100% *100% *100%	*100% *100% *101% *100% *110	*100% *100% *101% *100% *119%	*100% *100% *101% *100% *119%	*10436 *10036 *10136 *10036 *11036

* This is the price bid at the morning board; no sale was made.

Railroad and Miscellaneous Stocks.—The stock market has continued more active and prices have further advanced. There was a tendency to reaction on Tuesday, on Wednesday, and again to-day, but the market was notably strong on Monday and Thursday, with the result that a considerable portion of the active list is from 1 to 5 points higher than

portion of the active list is from 1 to 5 points higher than last week.

The anthracite coal shares have been exceptionally strong and were leaders of the upward movement. Lackawanna, on sales of a few shares, advanced 90 points; Delaware & Hudson 12 points; Central of New Jersey 10 points, and Reading, by far the most active stock on the list, has covered a range of over 9 points' closing near the highest.

On the other hand, Chicago Great Western issues declined sharply on the appointment of receivers for the company and Canadian Pacific and Missouri Pacific are from 1 to 3 points lower. Atchison and Louisville have been weak to-day and close with a fractional net loss.

General Electric has advanced 4½ points, Consolidated Gas 5, Smelting & Refining 3, Steel preferred 2½ and other industrial stocks are from 1 to 2 points higher.

For daily volume of business see page 102.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

Outside Market.—The improved feeling which characterized trading in outside securities last week has continued, the strength on the Stock Exchange on the closing days contributing to a further general improvement in values on the "curb." Copper shares were firm. Boston Consolidated Copper, after a fractional loss to 11¾, moved up to 13¾. British Columbia Copper sold up from 4½ to 4½ and to-day jumped to 5¼. Butte Coalition from 16¼ advanced to 16½, dropped to 15¼ and recovered again to 16½, cumberland Ely fell from 7 to 6½ and ran up to 7¼, ending the week at 7¼. Greene Cananca from 7 rose to 7½, the close to-day being at 7¼. Nevada Consolidated Copper sank from 9½ to 9, moved up to 9½ and back finally to 9½. Nevada Utah advanced from 3½ to 4¾. Trinity Copper registered a gain of 2 points to 17½. Nipissing ranged between 7 and 7½. Among the specialities, Consolidated Steamship 4s were prominent by reason of a sharp rise in the price on active trading. After fluctuating between 8½ and 9¾, it jumped to 10½ on Thursday, the close to-day being at 10, American Tobacco advanced to-day 8½ points to 258½. Standard Oil rose from 474 to 480, sank to 470 and to-day moved up to 479. The close was at 478. Manhattan Transit went up from 2½ to 3¼ and back to 3. Chicago Subway ran up from 16¾ to 18 and ends the week at 17¾. N. Y. N. H. & Hartford conv. 6s gained a point to 113¼ and to-day rose to 115, the close being at 114¾. Adams Express rose from 80½ to 83.

Outside quotations will be found on page 102.

Investment and Railroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week of month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the street railways are brought together separately on a subsequent page.

	Latest Gross Earnings. July 1 to Latest Date.		atest Date.		Latest Gross Earnings.		July 1 to Latest Date.

For the month of December the returns of 50 roads show as follows:

Month of December.	1907.	1906.	Decrease.	26
Gross earnings (50 roads)	67,856,800	70,953,201	3,096,401	4.37

It will be seen that there is a loss on the roads reporting in the amount of \$3,098,401, or 4.37%.

a Net earnings here given as	e after dec	lucting taxe	8.	W. W. P. M. S. P. S.

b Net earnings here given are before deducting taxes.

e Figures revised for previous year so as to accord with the new classification of earnings and expenses now required by the Inter-State Commerce Commission.

r For November 1907 net from Coal Department was \$58,364, against \$82,784 last year, and from Jan. 1 to Nov. 30 was \$908,569 in 1907, against \$383,308 last year.

g Many special Items have helped to increase the expenses this month.

Interest Charges and Surplus.

Boston Elevated Railway.

(Report for Fiscal Year Ending Sept. 30 1907.)

(Report for Fiscal Year Ending Sept. 30 1907.)

President William A. Bancroft under date of Boston, Dec. 31 1907, says in substance:

Camialization of Proyerties Owned and Leased.—The capital stock of the West End Street Ry. Co. on Sept. 30 1907 consisted of preferred. \$6,400,000, and common, \$10,109,250. The preferred stock was authorized by the Lee'slature in 1887 for the purchase of the horse railroads which made up the system, and was considered only the value of these properties. Of the common stock \$7,150,000 was paid in in eash at par, and the balance was sold under orders of the Railroad Commission for eash at from 45 to 80 % in excess of par value, realizing a premium of \$1,696,656.

Of the \$13,300,000 stock of the Boston Elevated Ry. Co., the first \$10,000,000 was paid in in cash at par, and the balance was sold under orders of the Baliroad Commission for eash at 55 % premium or \$1,816,000 above the par value. The present capitalization of the two companies, there fore, represents an actual payment in eash of \$3,511,656 above the par value of the outstanding stock. There is, therefore, not only no capital mation, but much more has been invested in the property than is represented by the par value of the stocks. The dividends and interest paid make an average return to the capital invested of something less than \$1,3 % per annum. It is not true, therefore, that "excessive dividends are paid on water-si stock."

per annum. It is not true, therefore, that on water of steck." on water of steck." to stee the company's contribution to Tars. &c.—Besides its ordinary taxes the company's contribution to

up as follows:	Taxes on real estate \$265,501
Tax for use of streets \$123,27	Taxes on eapital stock 578,198

streets \$157,89	Rental East Boston tunnel 51,371
Maintaining street paving, 130,00 Subway rental (sink, fund) 47,46 Removing snow from side-	8

Enlargement of Piatforms.—The company is about to undertake the elegation of its elevated station platforms for the future operation of elight-car trains in place of five-car trains, the longest trains which it can now use.

New Legislation.—Chapter 573 of the Acts of 1807 was accepted by the Board of Directors oat July 11 1807. This Act modifies Chapter 534 of the Acts of 1802 with reference to the Washington St. tunnel and does away with the authority for the building of a subway especially adapted to surface cars. Under the Act the Boston Transit Commission may construct a tunnel or subway, to be known as the Riverbank Subway, from a point or puints in or under the existing Park St. Subway Station, Boston Common, in or under the so-called Caaries River Embankment, to a point or points in said embankment west of Harvard Bridge; or to a point or points in said embankment west of Harvard Bridge; or to a point or points in Reacon Street at or near the Back Bay Fens; or to a point or points in Reacon Street at or near the Back Bay Fens; or to a point or points in Reacon Street at or near the Back Bay Fens; or to a point or points in Reacon Street at or near the Back Bay Fens; or to a point or points in Reacon Street at or near the Back Bay Fens; or to a point or points in Reacon Street at or near the Back Bay Fens; or to a point or points in Commonwealth Ave, or Reacon St. cast of the Junction of Commonwealth Ave, Reacon St., Brookline Ave, and Deerfield St. The company may have a lease of this subway for twenty-iney pears from the beginning of the use thereof at an annual rental equal to 4½% of the net cost thereof.

By Chapter 497 of the Acts of 1907, accepted by the board of directors and by the cities of Everett and Malden, to such point or points in the city of Malden, southerly of Pleasant Street therein, as may be convenient for a terminus.

Cambridge Subnay.—Under the Act of 1906, relating to the Cambridge Subway, the company complied with the initial steps relating thereto, but the Mayor of Cambridge has

of about 3,36 %.

Swift & Company (Packers), Chicago, Ill.

(Report for Fiscal Year ending Sept. 28 1907.)

At the annual meeting in Chicago on Jan. 2 President L. F. Swift said:

Swift said:

-The last year has been one of our largest as relates to volume. The profits, as you will note by figures given later, are quite up to the average. Our plants are in better physical condition than ever before, we have been and are now doing a profitable business, and the prospect for the coming year are favorable.

In sympathy with the general decline in all railroad and industrial stocks, the shares of Swift & Co. have been sold lower in the open market than for a number of years. However, I call your attention to the fact that the price at which the shares are selling does not affect the actual business of the company nor diminish its earning power or its capital. The recent decline in market quotations has resulted in an increased demand from investors for shares. The number of stockholders during the last three months has increased considerably over 1:000, and at the present time we have over 9:000 stockholders, nearer 10:000.

During the last year there has been started for the benefit of our employees and employees' benefit association, for insurance avaint death, sickness or accident, towards which the company gives assistance and all encouragement. We have insured over 5:000 employees, and our Superintendent, Young, informs me our people appreciate the same.

Treasurer L. A. Carton comments as follows:

Treasurer L. A. Carton comments as follows:

Besides paying you 7% on the stock during the year and adding an additional property value of over \$5 to each share, we have charged off to deprectation over \$1,600,000. The turnover was accomplished by our packing plants, supplemented by 340 branch or distributing houses in the United States and \$4 distributing houses in foreign countries. This turnover exceeds \$250,000,000 in value, and was greater, both in tonnage and value per unit, than any previous year of our company.

A CONTRACTOR	
Liabilities— Capital stock Flist mortgage bonds— Debenture certificates	\$7,373,450 245,000 1,020,000
Notes payable. Current accounts (including pay-rolls, &c., amounting to about	5,943,528
Reserves—For inventory depreciations and extraordinary	1,874,143
adjustments Profit and loss surplus	5,687,304
Total	\$23,343,425

*No appraisal has been made by the receiver.

*Memoranda.—On Oct. 23 1907 the company had paid in advance interest charges amounting to \$103,142, being the interest from Oct. 23 until maturity on notes discounted. This amount has been deducted from the surplus account in the above statement.

*Current liabilities as above, \$7,817,671, will be reduced to an amount less than the \$7,200,000 of 3-year notes proposed to be issued by "set-offs" in accounts receivable and the payment by the receivers of preferred claims in the nature of pay-rolls, &c.

The receivers regard the working assets or inventories of \$2,540,892, since they have set aside the reserve fund of \$200,000, as conservative, and believe the amount set aside will cover any probable shrinkag.

Compare reorganization pian on a preceding page.—\(\mathbf{Y}, 86, p. 55.)

Compare reorganization plan on a preceding page. - ¥. 86, p. 55.

Realty Associates, Brooklyn, N. Y.

(Report for Fiscal Year ending Oct. 31 1907.)

The report submitted under date of Nov. 25 says:

The report submitted under date of Nov. 25 says:

The company has bought during the year properties costing \$1,443,650 comprising 18 dwellings, 5 store and flat buildings, 14 stores, 3 building plots; the more important purchases were business properties in the vicinity of the junction of Fulton St. and Flatbush Ave., aggregating about \$1,000,000. Sales have been made aggregating \$1,321,950, namely, 76 dwellings in 55 dat buildings, 13 store and flat buildings, 14 plots of building lots. Of the total sales, building lots furnished about \$500,000. The holdings now consist of 357 dwellings, 112 flat buildings, 97 store and flat buildings, 47 stores, 7 stables, 31 unimproved plots.

The company has invested during the year \$101,950 in mortgages and the total mortgage investments are now \$445,589 exclusive of purchase money mortgages. The company owns purchase money mortgages. The company owns purchase money mortgages. The company owns purchase money mortgages. Interest and installments now in arrears amount to \$137,296 as a reserve to cover any possible deficiency in the final payment of these mortgages interest and installments now in arrears amount to \$1.411. Mortgages sold with the guaranty of the company and now outstanding amount to \$1,481,260.

The net income for the fiscal year after settlement with the profit sharers and the balance added to undivided profits. The income from rents, interest and dividends paid all operating expenses and netted a return of \$1,5 % on the capital, the profits on sales making up the total as above stated. The improved property is now 90 % rented, while one third of the vacancles are in properties built by the company during the year and only just completed. The rent receipts average about \$38,000 per month, and the losses from unpul rents during the year were less than 1 %. November rents are being paid promptly.

The sales for the past three years have amounted to \$5,742,921, and they showed an average profit of 30% over the cost of the properties working capital. There are n

working capital. There are no contracts pending for the purchase of real estate.

Real estate is carried at cost and it will be seen that the company has \$3,729,087 invested in real estate over and above the mortrages. Of this amount, \$2,335,267 is invested in income property in the Borough of Brooklyn; \$729,492 is invested in lucome property in the Borough buildings on them, the rents from which more than pay interest, taxes and repairs; \$564,328 is invested in building sites in Brooklyn having buildings on them, the rents from which more than pay interest, taxes lyn, and this sum includes the cost of street improvements which have been made by this company.

The company owned 14 parcels required for the Flatbush Avenue extension to which the city has taken title, and for which the company expects to receive awards of over \$200,000. The awards draw interest at the rate of 6% per anum from March 1 1906. The profits and interest on awards in these cases have not been taken into account in computing the assets of the company.

STATEMENT FOR YEARS ENDING OCT. 31.

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET ROADS.

Arkansas Louisiana & Gulf Ry.—New Enterprise.—This company, incorporated in Arkansas in 1906, and having outstanding \$3,000,000 of capital stock, has made a mortgage to the Colorado Title & Trust Co. of Colorado Springs, as trustee, to secure \$6,000,000 of 5% gold bonds of \$1,000 each, dated July 1 1907 and due July 1 1957, interest payable Jan. 1 and July 1 at the office of the trustee, and also at the Morton Trust Co., New York. Of these bonds, \$3,140,000 are reserved for future extensions and \$2,860,000, we are

informed, have been subscribed for on account of 143 miles of railroad in course of construction, with terminals and equipment. The company, it is stated, is an independent enterprise, no other corporation controlling the stock or guaranteeing the bonds. Alfred Cowles, Chicago, is President, and E. A. Sunderlin, Colorado Springs, Secretary and Treasurer. J. M. Parker is General Manager of the Southern Development Co., which is building the road. A statement officially revised for us says:

Twenty eight miles of the road has been built, from Manage. In the informed, have been subscribed for on account of 143 miles

officially revised for us says:

Twenty-eight miles of the road has been built, from Monroc, La., at a connection with the St. Louis from Mountain & Southern and V. S. & P. Ry., to Bastrop, La. Grading is completed from Bastrop, La., to Hamburg, Ark., 25 miles more; also on the branch from Rolfe Junction to Crossett-Ark., 7 miles, at a connection with the Chie, R. I. & Pac, By., and tracklaying is in progress. An extension is projected from Hamburg to Pine Bluff, on the Arkansas River, 80 miles.

The company has purchased and received 3 locomotives, 5 passenger cars, 155 freightean, 1 steam showel, 1 spreader car, 1 Lidgerwood unloader, 1 centre plow. I Stover motor car and 1 American log loader for equipping the line, which is building toward Pine Bluff, Ark. (Compare map on page 938 of the "Official Guide," issued by the National Railway Publication Co., 24 Park Place N. Y. Citv.)

Arkansas Oklahoma & Western RR.—Bonds Offered.—
Merriam, Smith & Co., 10 Wall St., New York, are offering at par first mortgage 40-year 6% gold bonds dated Jan. 1 1907, maturing Jan. 1 1947, without option of earlier redemption. Denomination \$1,000. Interest payable Jan. and July at United States Mortgage & Trust Co., New York, trustee. Authorized bond issue limited to \$1,250,000 at not exceeding \$10,000 per mile of completed road, the cost of which, when built as proposed from Eureka Springs, Ark., to Pryor Creek, Okla., 125 miles, it is stated, will be about \$18,000 per mile. A circular says in substance:

The road is built and in operation from Rogers, Benton County, Ark., to Sloam Sprines, Ark., a distance of 30 miles, where a connection is made with the Kansas City Southern. Net earnings are more than double the amount sufficient to care for the interest on the bonds at present outstanding on this part of the road. From Sloam Sprines it will extend westerly to Eureka Springs, Ark., about 55 miles, and from Rogers, Ark., casterly to Eureka Springs, Ark., about 55 miles, and from Rogers, Ark., easterly to Eureka Springs, Ark., about 50 miles, and will be built as rapidly as possible.

Estimated Earnings of Entire 125 Miles of Road When Completed.

Estimated Earnings of Entire 125 Miles of Road When Completed.

casterly to Eureka Springs, Ark., about 30 miles, and will be built as rapidly as possible.

Estimated Earnings of Entire 125 Miles of Road When Completed.

Gross earnings. \$859,375 [Int. on \$1,250,000 lst M 68 \$75,000 Net surplus. 188,750 Abstract of Leiter from President W. R. Felker, Rogers, Ark., Nov. 8 1907.

The company is incorporated under the laws of Arkansas with an author ized capital of \$3,000,000 (par of shares \$100). The above first mortgage bonds are limited to \$10,000 per mile and can be issued only on completion of each live miles, as certified to by the empineer of the railroad, or by an of felal under the seal of the company, to the inited States Mortgage & Trust Co., trustee.

The road will extend we sterly from Eureka Springs, Ark., to Pryor Creek,

bonds are limited to \$10,000 per mile and can be issued only on competition of each live miles, as certified to by the engineer of the railroad, or by an official under the seal of the company, to the United States Mortgage & Trust (Co., trusper).

The road will extend westerly from Eureka Springs, Ark., to Pryor Creek, Okla., 123 miles, connecting at Eureka Springs with the Missouri & North Arkgagas, crossing the main line of the St. Louis & San Francisco RR, at Royers, Ark., the Ransas City Southern at Siloam Springs, Ark., and connecting at Pryor Creek, Okla., with the Missouri Kansas & Texas RR. The first 30 miles, from Eureka Springs to Rogers, Ark., will extend through a section most of which is covered with a vigin forest of timber, the first 10 miles being short leaf yellow pine, while the remaining 20 miles will tap one of the linest meat bodies of hardwood timber in the State, containing large quantities of white oak. This land, when cleared, is adapted to the raising of wheat, oats and corn, as well as all kinds of fruit. Rich deposits of marble, shale and limestone abound. There are no railroad facilities at present in this section. Our road into Eureka Springs will shorten the distance very materially to this well-known health resort from all points south and west.

On the portion of the company's road which is now in operation from Rogers to Siloam Springs, 30 miles, the country is made up of small farms devoted to the raising of corn, oats, wheat and large quantities of fruit and berries; also cattle, bogs, horses and pointry. Population all white. The nearest railroad to the north is an average distance of about 10 miles and to the south about 22 miles, Fram Siloam Springs to Pryor Creek, Okla., about 65 miles, is a section consisting of fertile, rolling prairie and forests of valuable hardwood, some 1,000 square miles of oak timber being directly tributary to our road. It produces abundant crops of cern, wheat, oats, alfalia, some cottan, and is one of the mest cattle countries in the Southwest

Broadway & Seventh Avenue RR., New York.—Payme Overdue Dividend.—See New York City Ry. below. of Overdue D V. S6, p. 51.

Brooklyn Queens County & Suburban RR.—Bonds Listed. See Brooklyn Rapid Transit Co. below. Eurnings.—For fiscal year ending Oct. 31 1907:

Gross earnings \$1,633,442 Deductions—Taxes \$63,483 Operating expenses 1,012,527 Interest on bonds 331,200 Int. on cert, of indebt'ess 49,092 Other income 20,533 Total net income \$647,468 Balance, surp. for year \$191,590

Brooklyn (N. Y.) Rapid Transit Co.—Listed.—The New York Stock Exchange has listed:

Brooklyn Queens County & Suburban RR. additional first consol. guaranteed 5s. due 1941 \$529,000 \$2,884,000 First mortgage 4% bonds, due 1941 \$5,500,000 \$3,500,000 Brooklyn City RR. additional first M. 5% bonds, 1,860,000 \$6,000,000 Brooklyn Rapid Transit Co. additional 5% 50-year mortgage bonds, due 1945 \$75,000 7,000,000 Mill of these bonds were sold some years ago, but, being that the securities, they are only now listed, the stock Exchange desiring that the amount on the flat conform with the amount outstanding.

Eurnings of Subsidiary.—See Brooklyn Queens County & Suburban RR. above.**—V. 85, p. 1517.

Buffalo & Susquehanna Ry.—New Equipment.**—The company's requirements for additional rolling stock are now being met, as appears from the following statement:

Final deliveries are being made of the equipment ordered some months ago, consisting of 800 all-steel cars, each of 100,000 hs, capacity; 200 steel under-frame box cars of 80,000 lbs. capacity and 20 bray consolidated locomotives, at a cast of \$1,400,000. As rapidly as received the new equipment is being utilized to handle the through traffic with connecting lines. Notable increases in manufacturing tonange on the northern lines of the company and in coal tonange on the southern extensions made the purchase of additional rolling stock imperative. (Compare V, 85, p. 1265, 525.)—V, 85, p. 283.

Ohicago Great Western Ry.—Receivership.—The United States Circuit Court at St. Paul on Jan. S, upon application of the company, placed the property in the hands of President Stickney and C, H. F. Smith of St. Paul as receivers.

The company, owes \$10,653,414 on notes and bills payable (of these \$545,000 have gone to protest), and on short-term notes due from Jan. 1908 to 1912, of which, \$1,500,000 mature this month and an additional \$1,842,545 before the end of the year. Some \$10,000,000 of new money, it is stated, is required to complete the extensive improvements in the way of double-tracking, new terminals, &c., on which \$15,000,000 or \$20,000,000 has already been expended during the past decade. President Stickney for some months past has been urging upon the leading English interests the necessity of a comprehensive financial plan. The property is unmortgaged, and it is new proposed to place the company on its feet, providing both for the maturing notes and for future capital requirements by making a mortgage for, perhaps, \$20,000,000 or \$25,000,000.

President Stickney made the following statement in London on Jan. 8 at the conclusion of the meeting of the finance committee at which the receivership proceedings were approved.

committee at which the receivership proceedings were ap-

The Chleago Great Western, fortunately, has no mortgage. It issued a lot of notes which matured during a time of financial depression, as usually is the case, and consequently we could not pay them. A great majority of the note-holders were perfectly wiling to extend the time of the notes, but some of the holders could not be reached; and it was uncertain what they might do. The committee thought it best under the circumstances to place the property in control of the court during the time necessary to issue hirst mortgage bonds and sell them. In ordinary these it would take three months to issue and sell these bonds, but how long it will take to sell them under present conditions is problematical.—V. 85, p. 1517, 1528.

Chicago & Illinois Western RR.—New Mortgage.—A mortgage has been filed to the American Trust & Savings Bank of Chicago, as trustee, to secure an issue of \$4,000,000 general mortgage 6% gold bonds, dated July 1 1907 and due July 1 1947. In 1905 the company made an issue of \$500,000 first mortgage 5s, dated July 11905, and subject to call after three years at par (V. 82, p. 48). An extract from the new mortgage says in substance:

"The railway company deems it necessary to issue its bonds for the pur-

gage says in substance:

"The railway company deems it necessary to issue its bonds for the purpose of finishing, completing and putting in operation its lines of railroad from a connection with the Pittsburgh Cincinnati Chicago & St. Louis RR. company's tracks, running no the and south between Rockwell Street and Western Ave., at or near its intersection with Dourlas Park Boulevard in the City of Chicago, and extending thence southwesterly and westerly along or near the right of way of the Chicago Marikon & Narchem division of the Illnois Central RR, to a point at or near 48th Ave. In the town of Cherro; thence southerly and westerly to a point in the village of Hodgins at or near Gary Station on the Atchison Topeka & Santa Fe Ry., and also those certain branches, to wit: From its main line from 48th Ave. northward to a connection with the Chicago Burlington & Quincy RR, and the Manufacturers Junction RR,, and from the Gary Station of the Atch. Top. & S. Fe Ry. to Willow Springs, Cook County, Ill."

W. E. Phillips is President. See V. 85, p. 491; V. 85, p. 494.

Chicago & Milwaukee Electric RR.—Correction.—In our statement last week (page 51) regarding the settlement of the trouble growing out of Judge Tuthill's temporary mandate for a receivership for this road, it seems that we were in error as to one or two points in the compromise agreement. No trustees have been appointed and no trusteeship is contemplated. We have received the following detailed statement:

ment:

A. C. Frost, to vindicate himself of the charges made in the bilt—which he claims are absolutely untrue and unfounded—has executed a document to Charles G. Dawes, Fresident of the Central Trust Co. of illinois, giving him the right to investigate the charges and the stipulation that if he finds any of the funds or accurities of the company have been invested in outside enterprises, they shall be returned to the company.

The funds for the payment of interest had all been provided hast year, and were available for meeting the company's interest on Jan. 1, as also an additional \$300,000 with which to complete the road and pay off the company's loating delit.

The receivership lasted only two days and the company is now again in full possession of its property. Albert C. Frost has full control as heretofore. The road is now practically completed into Milwankee, and will be open for traffic early next spring.—V. 86, p. 51.

Chiesens Rock Island & Pacific Ry.—Sala at Roads.—The

Chicago Rock Island & Pacific Ry.—Sale of Bonds.—The sale was announced on Thursday of a block of "first mortgage and refunding" 4% 30-year gold bonds to Speyer & Co. While the amount involved is not made public, the sale, it is understood, puts the company in a position to take up at maturity the \$6,000,000 of 2-year 4½% notes which fall due on April 1. (Compare V. 82, p. 803, 101).—V. 85, p. 1013, 1000.

Chicago Terminal Transfer RR.—Circular—Further Particulars.—Reference was made last week to the general call for deposits of stock by the stockholders' protective committee, consisting of George I. Malcom. Chairman; George D. Mackay, Edward A. Morgan, Edward L. Oppenheim and James L. Laidlaw, with H. S. Mott as Secretary, 100 Broadway, New York City, and Hornblower, Miller & Potter as Counsel. The committee's circular further says under date of Jan. 2

of Jan. 2

The most recent appraisals of the properties of the company have shown them to be of a value of upwards of \$27,000,000, arainst which there is a ludgment in the foreelosure suit for \$15,824,689 75, which, together with underlying liens, receivers' certificates, necumplated interest, &e., makes a total liability of something less than \$10,000,000, leaving an equity in the property of upwards of \$8,000,000.

The foreelosure decree as entered would have permitted the properties to have been sold free of the onerous lesse to the Baltimore & Ohio Co., but on March 80, and while the notice of the foreelosure sale was being published, the Baltimore & Ohio Co. petitioned the Court to be sillowed to protect its lease by advancing finds to take up the bonds in foreelosure and being subrogated to the rights of the bondholders and the judgment entered in their behalf. This petition was heard on April 16 1907, the committee

appearing by counsel and objecting to any order or decree expressly or impliedly affirming the validity of the lease, and in deference to the objections made by the committee, the order as entered provides: Tills order is expressly made without prejudice to the rights of the Chicago Terminal Transfer RR. Co. or the receiver of said company, or of any stockholder of said company, hereafter permitted by the Court so to do to contest the validity or effect of the lease of April 1 1903 between the Chicago Terminal Transfer RR. Co. and the Bultimore & Ohlo & Chicago RR. Co. and the Baltimore & Ohlo MR. Co., as fully and freely in all respects as if this order had not been made."

It is that alleged lease, dated April 1 1903, to the Baltimore & Ohlo Co., at the minously low rental of approximately \$160,000 per annum, which brought the Terminal Co. to forcelosure, the property leased to the Baltimore & Ohlo Co. being worthy of a rental of not less than \$60,000 per annum. The properties leased to the B. & O. are of the most valuable owned by the Terminal Co. and unless the rights of the stockholders of the Terminal Co. and unless the rights of the stockholders of the Terminal Co. and unless the rights of the stockholders of the Terminal Co. are asserted and sustained, and the properties sold free and clear of said lease, or the said lease declared void or canceled. It can hardly be expected that the properties will bring more at the forcelosure sale than just about sufficient to pay the morteage debt, the prior liens and the receivers certificates, &c. With the Baltimore & Ohlo Co. in possession of such a sufficient left for another large rairoad company.—V. S6, p. 52.

Clincinnati Hamilton & Dayton Ry.—Proposed 4% Note

Gincinnati Hamilton & Dayton Ry.—Proposed 4% Note Issue for \$14,286,000 to Retire Refunding 4% Bonds Dated 1904.—The shareholders will vote Feb. 7 on the following

propositions:

(a) To authorize the execution of a supplement to the refunding mortage dated July 1 1904 made to the United States Mortgage & Trust Co., as trustee, among other things limiting the amount of refunding bonds which may be hereafter issued under said refunding mortgage, and providing that the principal of the refunding bonds shall mature on July 1 1913, or earlier, upon the happening of eertain specified events of default;
(b) To authorize the purchase of the refunding bonds now outstanding or which may hereafter be issued under said refunding mortgage and said proposed supplement thereto; and
(c) To authorize the laste, for the purpose of making payment for said refunding bonds, of the purchase-money notes of said company, to be limited to the principal amount of \$14,286,000, to mature July 1 1913 and to bear interest at the rate of 4 % per annum; and to authorize the piedge, to secure said purchase money notes, of the refunding bonds held or acquired by said company, and to the execution and delivery by said company of a trust agreement with the Central Trust Co. of New York, as trustee, providing for such pledge.

*Description of New Note Issue—Circular to Holders of Company of the security is the security of t

sald purchase money notes, of the refunding bonds held or acquired by said company, and to the execution and delivery by said company of a trust agreement with the Central Trust Co. of New York, as trustee, providing for such piedge.

Description of New Note Issue—Circular to Holders of Certificates of Deposit of Central Trust Co. of New York for 4% Gold Rejunding Bonds Deposited under Bondholders' Agreement of Dec. 9 1905.—As explaining the foregoing notice to the shareholders, we have the following circular, signed by James N. Wallace, Frederick Strauss and Mark T. Cox, under date of New York, Jan. 7:

The undersigned committee under the bondholders' agreement of Dec. 9 1905 has, after prolonged nesotlations, effected an arrangement with the Chichman Hamilton & Dayton By. Co., and that company has agreed to buy such of the refunding bonds as may be tendered for that purpose by the committee, paying therefor, dollar for dollar, in the 5½-year purchasemoney collateral trust 4% gold notes of the railway company, to mature July 1 1913, to bear interest from Jan. 1 1908 at the cate of 4% per annumpayahic scal-annually, Jan. 1 and July 1, and to be redeemable at the oppayahic scal-annually, Jan. 1 and July 1, and to be redeemable at the oppayahic scal-annually, Jan. 1 and July 1, and to be required to pay then for the railway company on any half yearly interest day as par; the note to be payable, both as to principal and interest, in New York, in United States or of any State, county or municipality therein; the refunding bonds as purchased to be deposited with Central Trust Co. of New York, under a trust agreement between the railway company and said Trust Company, as trustee, a draft of which has been lodged with said Trust Company, as trustee, a draft of which has been lodged with said Trust Company, as trustee, a draft of which has been lodged with said Trust Company and sopen to your inspection.

Under the proposed trust agreement, the aggregate amount for which the probase the structure of the committee. The

The arrangement has already received the approval of three-fourths of the stock, and it is expected that the notes will be ready for delivery during February 1908. Holders of refunding bonds who have not deposited their bonds with the committee may also take advantage of the provisions of this circular.—V. 85, p. 1003, 921.

Gripple Greek Central RR.—No Dividends at Present.—The directors have decided to omit the dividends due this month on both the common and preferred (non-cumulative) stocks, largely, it is explained, because the cash assets of the company are involved in the failure of Kessler & Co. See V. 85, p. 1209, 1397.

Cuba Eastern RR.—New President.—Edgar Van Etten on Jan. 1 severed his connection with the New York Central & Hudson River RR., of which he was Second Vice-President, and became President of the Cuba Eastern. Compare V. 82, p. 160.

Eighth Avenue RR., New York.—Payment of Overdue Dividend.—See New York City Ry. below.—V. 86, p. 52.

Indiana Harbor Belt RR .- Status .- We have been favored with the following:

With the following:

Capital stock outstanding, \$2,450,000. On Nov. 1 1907 the company executed its mortgage covering the properties owned or operated by it to secure an authorized bond issuance of \$25,000,000 of these bonds to bear interest at not to exceed 5° per annum. \$2,300,000 of these bonds have been issued and are outstanding. The mortgage provides for the issuance of \$2,500,000 of bonds to take up at or before maturity \$2,500,000 of 0° 5°, bond s of the Chicago Hammend & Western RB. Co., (mortgage of Jan. 1 1897), which are outstanding upon the property new owned by the indiana Harbor Belt RR. Co. The mortgage also provides for the issuance of \$725,000 bonds to take up at or before maturity a like amount of 4°°, bonds of the Michigan Central RR. Co., (joint mortgage of July 1 1836 of M. C. RR. Co. and Terminal RR. Co.), now owned by the Indiana Harbor Belt RR. Co.

The new bonds mature July 1 1957, Interest being payable Jan. 1 and July 1. The Lake Shore & Michigan Southern and silenigan Central own all the stock and have guaranteed the bonds outstanding. The \$725,000 of Michigan Central Terminal bonds should not be taken out of the Michigan Central bonded debt at present, as the exchange for Indiana Harbor Belt bonds has not actually been made.

Properties Owned and Operated by Indiana Harbor Belt RR. from Nov. 1 1907,

Interborough Rapid Transit Co., New York.—Line to Borough Hall, Brooklyn, Opened for Business.—The East River tunnel road, extending from Bowling Green, Manhattan, to Borough Hall, Brooklyn, was opened for business early Thursday morning, the trip between the points named taking about 3½ minutes. The entire line to the Flatbush Avenue station of the Long Island RR, is expected to be completed by May 1.—V. 85, p. 1461.

Metropolitan Street Ry., New York.—Dividends on Leased Lines Stocks.—See New York City Ry. below.

Separate Receiver for Third Avenue RR.—See that company.

Minority Stockholders' Committee.—A committee has been formed in behalf of minority stockholders, consisting of:

William F. King, ex-President of the Merchants' Association, Chalrman, George L. Degner, William Mass, I. Blum, Nathan H. Heyman and John D. Parsons, with Griggs, Baldwin & Pierce, 27 Pine St., and Eugene G. Kremer, as Counsel.

An assessment of 51 per share has been tevled. The committee announces as its purpose the presecution of civil suits to recover moneys wrongfully diverted from the company and the securing of legislation to protect stockholders in public service corporations from improper acts of directors.

Applications Denied.—Judge Lacombe in their United

Applications Denied.—Judge Lacombe in the United States Circuit Court on Tuesday denied the applications of the Fidelity Trust Co. of Philadelphia and Solomon H. Kahn to intervene in the receivership suit (V. 85, p. 1462).

Examination of Directors Refused.—Justice Davis in the Supreme Court in this city on Jan. 9 vacated the order previously obtained by Attorney-General Jackson for the examination of officers and directors of the company to enable him to obtain information for use in actions to be brought by him.

The court holds that no proof of collegion as alleged, on effect the

brought by him.

The court holds that no proof of collusion, as allered, can affect the State's right to dissolve the corporation as proposed if it really was insolvent for more than a year, and that therefore the matters on which it is sought to examine the directors are immaterial.—V. 55, p. 52.

Metropolitan West Side Elevated Ry.—New Bonds—Further Facts.—The \$50,000 collateral trust gold bonds offered at par by the Chicago Savings & Trust Co., the trustee for the issue, as stated last week, are part of an issue of \$100,000 authorized and outstanding, which is further described

Dated Dec. 2 1907; due \$10,000 semi-annually Gune 1 and Dec. 1) 1908-1912. Interest payable June 1 and Dec. 1 at office of trustee, Chicago. Denomination \$500 ce. Redeemable at 101 and laterest on any interest day upon thirty days' notice. Authorized and outstanding, \$100,000. A direct obligation of the Metropolitan West Side Elevated Ry. Co., secured by Metropolitan West Side revery \$1,000 of this issue. Alforether, \$50,000 of extension bonds for every \$1,000 of this issue. Alforether, \$200,000 of extension bonds for every \$1,000 of this issue. Alforether, \$200,000 of extension bonds are deposited, there being an outstanding issue of \$3,321,000 on property conservatively valued as \$5,500,000.—

Michigan Central RR.—Provision for Joint 4% Bonds—

Michigan Central RR.—Provision for Joint 4% Be See Indiana Harbor Belt RR. above.—V. 85, p. 1577.

New York City Ry.—Payment of Overdue Rentals.—The receivers on Saturday Jan. 4 paid the rentals due by way of dividends on the stocks of the Broadway & Seventh Avenue RR., Eighth Avenue RR., Ninth Avenue RR. and Sixth Avenue RR. Compare V. 86, p. 53.

Sixth Avenue RR. Compare V. S6, p. 53.

New York New Haven & Hartford RR.—Status of New York & Port Chester Railway Projects.—President C. S. Mellen last week sent to Secretary Hang of the New York Board of Estimate substantially the following letter relative to the company's control of the Millbrook Company, New York Westchester & Boston Ry. Co. and the New York & Port Chester RR. Co. (compare V. 85, p. 1143), and of its intentions in regard to the construction and operation of the lines of the two last-named companies:

Securities Owned.—This company owns all the stock of Millbrook Company, a corporation organized under the laws of the State of New York on or about Nov. 5 1906. The total authorized issue of stock of that company is \$100,000 in shares of \$100 each. Millbrook Company is 100,000 in shares of \$100 each. Millbrook Company in turn since a date prior to July 1 1907 has owned and now owns 91.831 shares of the stock of the New York & Port Chester RR. Co., being all the stock of that company Issued and outstanding, excepting that nine qualifying shares are held by the directors of the company. New York & Port Chester RR. Co., since a date prior to July 1 1907 has cwned, and now owns, the following securities of New York Westchester & Boston Railway Co.

(a) 5,639 shares of the stock par value \$100 a share.

(b) The beneficial interest in 23,439 is shares of the stock, evidenced by voting trust certificates.

(c) \$13,499,000 out of \$13,500,000 of a certain underwriting agreement calling upon conditions therein stated for \$15,000,000 of bonds and 46,000 shares of stock of New York Westchester & Boston Ry. Co. cytdenced by voting trust certificates now held by Knickerbocke Trust Co. under the said syndicate agreement of underwriting. All of said underwriting interests, with the exception of \$19,000, are now held by this company, but the same have not yet been paid in full. Upon completion of payments to said underwriting this company will be entitled to 44,967 shares

of stock of New York Westchester & Boston Ry, Co., evidenced by voting trust certificates.

Plans for Construction.—Litigation.—It is the intention of the New York and York Farthord RR, Co. to cause to be constructed a gailled York the Harlem River to Prof. Ref. for tracks from 177th Rt. for the Charlester River to 177th St., four tracks from 177th Rt. for the Charlester River to 177th St., four tracks from 177th Rt. for the Charlester River to 177th St., four tracks from the Harlem River to 177th St., four tracks from 177th Rt. for the Charlester River to 177th Rt. four tracks from 187th Rt. for the Port Chester Company to the Charlester River to 177th Rt. for the Port Chester Charlester River Rive

New York Westchester & Boston Ry. Co.—Status.—See ew York New Haven & Hartford RR. above.—V. 83.

1291

Norfolk & Western Ry.—Syndicate Dissolved.—The syndicate which underwrote the \$14,576,000 convertible bonds has been dissolved, the syndicate agreement having expired by limitation on Dec. 31. Comparatively few of the bonds, it is understood, were sold, the greater part remaining for distribution among the members of the syndicate. Compare V. 83, p. 1412, 1471; V. 84, p. 1248; V. 85, p. 469, 1647.

Passenger Fares.—The following changes in passenger rates have been recently proposed or taken place:

North Carolina.—Governor Glem of North Carolina on Wednesday called a special session of the Legislature Jan. 21 to consider a change in the passenger rate from 24 cents a mile, as fixed at the last session. The step is understood to be in pursuance of a plan for a uniform rate of 245 cents a mile in a number of Southern States. Compare Southern Ry, item, V. 85.

South Carolina.—The Southern Ry, on Jan. 3 announced a voluntary of cheeling in passenger rate to 245 cents a mile.

nile in a number of Southern States. Compare Southern Ry, ftein, v. so., p. 1478.

South Carolina.—The Southern Ry, on Jan. 3 announced a voluntary reduction in passenger rates to 214 cents a mile. 1,000 and 2,000 mile books at 2 cents and 500 mile books at 2 ft cents a mile.—V. 85, p. 1402.

Railroad Taxation in New Jersey.—Laws Increasing Taxes Upheld.—The Court of Errors and Appeals on Jan. 7 (Chief Justice Gummere writing the opinion) unanimously affirmed the decision of the Supreme Court in August last, which upheld the Perkins main-stem tax Act of 1906 (Chap. 280).

upheld the Perkins main-stem tax Act of 1906 (Chap. 280).

The lower court is reversed in regard to the taxation of second-class property, in which, it is held, the assessment must be made by the State Board of Assessors and not by local assessors. The decision, it is said, will have no substantial effect on the amount of taxes to be paid to will have no substantial effect on the amount of taxes to be paid existed to evaluation of rallroad far above that of other property. Compare V. 35, p. 347.

Rochester Ry. & Light Co.—First Dividend.—An initial dividend of 5% (\$5 per share, par \$100, \$70 paid in) has been declared on the \$6,500,000 common stock, payable Jan. 15 to holders of record Dec. 31. The company is controlled by the Mohawk Valley Co.—V. 84, p. 509.

Rogers Southwestern RR.—Successor.—See Arkansas Oklahoma & Western RR. above.—V. 83, p. 272.

Seaboard Air Line Ry.—Protective Committee for Extended Three-Year 5% Bonds.—A committee has been formed in Baltimore, consisting of

B. N. Baker (Chairman), James A. Gary, A. H. S. Post, Douglas H. Gordon, Gustavus Ober, Frank S. Hambleton and John D. Howard, with Venable. Baetjer & Howard and Ritchte & Janney as counsel, to protect the holders of the \$4,665,000 collateral trust and general lien" 3-year 5% bonds issued in 1904 and extended in 1907 until 1911 (V. 78, p. 104, 229, 821, 989; V. 84, p. 340.) An advertisement says:

The members of the committee was and directly control page the

The members of the committee own and directly control more than \$1,500,000 of the total issue of these bonds. The deposit agreement which has been prepared provides that the committee shall serve without compensation, and that the total expense to the bondholders for counsel fees and other disbursements; shall not exceed \$5 per bond. The holders of

these bonds are requested to promptly deposit their bonds with the de-positary, the Mercantile Trust & Deposit Co. of Baltimore, in exchange for negotiable receipts.

Holders of first mortgage bonds are requested to deposit these bonds with the Continental Trust Co. of Baltimore as depositary.

First Mortgage Bondholders' Committee.—At Baltimore on Jan. 9 the following committee was formed to protect the first mortgage bonds:

Jan. 9 the following committee was formed to protect the first mortgage bonds:

C. Sidney Shepard, of New Hayen, N. Y., Chairman, William H., Grafflin, of Baltimore, Vice Chairman, Norman E. Ream, Walter S. Rosen, Samuel J. Lanahan, J. William Middendorf, Van Lear Black, Owen Daly, H. A. Orriele and Townsend Scott.—V. 86, p. 53.

Sixth Avenue RR., New York.—Payment of Dividend.—See New York City Ry, above.—V. 86, p. 53.

Southern Pacific Co.—Explanation of Increased Operating Expenses in November.—In connection with the Nov. earnings given on a preceding page, an official statement says:

About \$366,500 of the increase was for maintenance of way, structures and equipment. The continuous rains of the apring of 1907, lasting longer than ever before known since the contraction of the lines, softened the roadbed of the entire milease in the States of California, Nevada and Oregon, so that under the exceptionally heavy traffic the track deteriorated very rapidly, and it was found, after temporary repairs necessarily put upon the line were made, that practically all of the above mileage had to be resurfaced, ballasted and re-tied, and these causes have affected expenses in every month of the present basel year. They have added \$484,000 to the expenses, of which \$329,000 was for roadbed repairs and \$174,000 for renewal of thes. The company also operates about 175 miles of main track more than it did last year.

Renewals of equipment increased about \$190,000, due to increases in wages and heavier repairs required. Expenses for conducting transports at the company also operates about 175 miles of main track more than it did last year.

Renewals of equipment increased about \$190,000, due to increases in Suransports.—The heaves of coal and fuel oil, and a larger consumption. The remaining expenses resulted mainly from an increase of 78,000,000 tons one mile, of about 11%—V. \$5, p. 1510, 406.

South Side Elevated RR.—New President,—Charles Valentine Weston, a director, has been elected President to succeed the late Marcell

Tallulah Falls Ry.—Receivership.—At Cornelia, Ga., on Jan, 6 Judge J. J. Kimsey of the Northeastern Circuit Court of Georgia appointed W. S. Erwin, former General Manager of the company, and L. R. Adams, Chief Clerk to the Superintendent, temporary receivers for the company upon application of H. H. Dean of Gainesville, representing a number of creditors. The company, it is understood, has outstanding \$374,000 1st M. bonds, \$500,000 first consols and a floating debt of about \$45,000. The road extends from Cornelia, Ga., to Orlando, N. C., 75 miles. The question of making the receivership permanent will come up Jan. 25.—V. 75, p. 241.

Toledo & Ohio Ry.—Guaranteed Car Trusts.—See Zanes-ville & Western Ry. below.—V. 85, p. 789.

Tonopah & Goldfield RR.—Earnings, &c.—The "Philadelphia Ledger" of Jan. 7 said.

The gross camings of the Tonopah & Goldfield RR. up to Dec. 21 of the current fiscal year, which ends on June 30 next, amounted to \$1.001.421, as compared with \$988,338 for the same period of last year, an increase of \$12.885. Of the company's recent purchase of \$k locomotives from the Baldwin Locemotive Works, four have been resold, so that the company's immediate indebtedness has been reduced by more than \$100,000.—V. 85, p. 1463, 1396.

Third Amount RR. New York City.

Third Avenue RR., New York City.—Separate Receiver.—
This road, leased in 1900 to the Metropolitan Street Ry., and recently operated by the receivers of that property and the New York City Ry., was on Jan. 6 placed by Judge Lacombe of the United States Cricuit Court in the hands of Frederick W. Whitridge, of Carey & Whitridge, the well-known law firm of 59 Wall St., as separate receiver, on application of John M. Bowers, Counsel for the Central Trust Co. of New York, the new trustee under the first consolidated mortgage.—V. S6, p. 53.

Wasstch & Jordan Valley RR.—Receivers' Sale.—Re-

Wasatch & Jordan Valley RR.—Receivers' Sale.—Receiver Chester Martin, 229 Broadway, New York, advertises the sale of this company's property at auction on Feb. 8 at 16 Vesey Street under an order of the District Court of the Third Judicial District County of Salt Lake, Utah.—Compare V, 84, p. 1053.

West End Street Ry., Boston.—Subscriptions.—The share-holders, it is said, subscribed for about \$920,000 of the \$1.010,900 new stock recently offered for subscription. Compare V. 86, p. 53.

Compare V. 86, p. 53.

Wisconsin & Northern RR.—New Enterprise—Bonds.—
This company, organized May 31 1906, to build a railroad 210 miles in length, extending from Menasha, Wis., northerly via the cities of Appleton and Shawano, Wis., and through the Stockbridge and Menominec, Indiana, reservations to Mass, Mich., with a 24-mile branch to Antigo Langdale, Wis., and possibly extensions, &c., has now in operation between Shawano and Van Ostrand, 36.3 miles of road, and between Crandon and W. & N. Junction, the point of connection with Soc Line, 6.4 miles. A mortgage made to the United States Trust Co. of New York as trustee, under date of April 22 1907, provides for the issuance of not exceeding \$10,000,000 of 4% gold bonds dated July 1 1907 and due July 1 1932. Of these bonds \$7,000,000 are issuable to provide for the construction and equipment of aforesaid 234 miles of main line and branch, and the remainder is reserved under stringent provisions for additional road at \$15,000 per mile, and for new equipment, terminal

facilities, &c. President, H. F. Whitcomb; Secretary, F. H. Josselyn; Treasurer, R. H. Edwards. Office, Oshkosh, Wis.—V. 85, p. 223, 1463.

Vandalia RR.—Payment of Maturing 7% Bonds.—Notice is given that the \$1,676,000 first mortgage 7% bonds of the Indianapolis & Vincennes RR. Co., maturing Feb. 1 1908, will be paid on presentation on or after that date at the Farmers' Loan & Trust Co., 16-22 William St., New York City.—V. 84, p. 1178.

Zanesville & Western Railway.—Offering of Guaranteed Car Trusts.—The Ohio Savings Bank & Trust Co. of Toledo is offering, at prices to yield the investor 6½%, the unsold portion of an issue of \$500,000 4% car-trust gold notes, guaranteed by endorsement as to principal and interest by the Toledo & Ohio Central Railway. An advertisement

These notes mature semi-annually June 1903 to December 1917 inclusive. They are issued for the purchase of 500 steel underframe drop-bottom gondola cars 100,000 lbs. capacity each. The value of the cars exceeds by over 25% the total par value of the notes. The Toledo & Ohlo Central which owns the entire Zanesville & Western Rallway Co. capital stock carned over 3½ times its fixed charges in 1907. (Besides the \$2,500,000 capital stock the T. & O. C. owns the road's entire bonded debt. \$2,000,000. Ed.)—V. 75, p. 903.

INDUSTRIAL, GAS AND MISCELLANEOUS.

American Cement Co., Philadelphia.—No Extra Dividend.

—The directors on Dec. 16 declared a regular semi-annual dividend of 3%, payable Jan. 23 on stock of record Jan. 11, but omitted the extra distribution of 1% usually paid in January. However, an extra 1% was paid last July, the last previous extra distribution in that month having been made in 1904. President Lesley is quoted as saying: "Earnings for 1907 were in both gross and net the second largest in the history of the company. This was after unusually large deductions for repairs, renewals and depreciation." American Cement Co., Philadelphia. - No Extra Dividend.

Dividend Record (Total Per Cent Paid During the Calendar Year).

marking down the common stock from \$15,000,000 to \$1,-500,000. Several changes have also been made in the management, the directors (and officers) being now as follows:

H. W. Henshaw, President; James R. Morse, Thomas Sturgis and H. L. Wiley, Vice-Presidents; F. W. Lafrentz, Treasurer; and William W. Owen, Secretary; L. H. Amy, H. D. Cooke, J. H. Flagler, Francis Henderson, Thomas B. Adams and G. H. Browne.

Secretary, L. H. Amy, H. D. Cooke, J. H. Flagler, Francis Henderson', Thomss B. Adams and G. H. Brøwne.

The present daily capacity of the company's properties is said to be not less than 100,000 pounds.—V. 83, p. 816.

American Ice Securities Co.—Attorney-General's Application Refused.—District Attorney Jerome on Jan. 2 notified Attorney-General Jackson of his refusal to comply with the latter's request to submit to the grand jury evidence designed to support the charge of violation of the Donnelly (State) anti-trust law by the American Ice Co. on the ground that the contracts referred to are as consistent "with the innocent purpose to acquire as large a business as possible" as with a criminal intent. The grand jury, it is stated, a year ago refused to indict on similar proofs. Civil proceedings are contemplated by the Attorney-General, Compare V. 85, p. 602.—V. 85, p. 1578, 1520.

American Smelting & Refining Co.—Called Bonds.—

p. 602.—V. 85, p. 1578, 1520.

American Smelting & Refining Co.—Called Bonds.—
One hundred and seven of the Omaha & Grant Smelting Co.
first mortgage 6% bonds drawn for the sinking fund will be
paid at the Central Trust Co. of New York on March 2 1908
at 105 and accrued interest.—V. 85, p. 795.

American Stogie Co.—Dividend.—This company, controlled by the American Cigar Co., has declared a dividend
of 5% on the \$976,000 preferred stock, payable Feb. 1 to
holders of record Jan. 15. Compare V. 85, p. 1464.

American Sugar Pasizing Co.—Annual Meeting.—At the

American Sugar Refining Co.—Annual Meeting.—At the annual meeting, which was held in Jersey City on Jan. 8, W. B. Thomas, who was recently elected President, succeeding the late H. O. Havemeyer, said in substance;

ceeding the late H. O. Havemeyer, said in substance;

Advantages of Consolidation.—Mr. Havemeyer pointed to the face that during the 20 years which preceded the organization of the American Sugar Reining Co., over 20 sugar refining companies or partnerships had failed in business, with loss to themselves, loss to their creditors, loss to employees, and loss to consumers, in that overy failure furnished an occasion for an increase of price by the reininerses which remained. He contended that a combination of capital and business enabled sugar to be sold at a reduced price, and that the shareholders, consumers and employees all were benefited.

Publicity.—Upon the subject of publicity Mr. Havemeyer's position was that every statement required by law should, of course, be published, but that in the case of private corporations concerned in competitive business the question of what more should be done was one to be determined by the stockholders: If they are satisfied that publicity puts the business at a disadvantage, their wishes should control.

As to the benefit from such statements, Mr. Havemeyer also had a somewhat positive opinion. They involve a statement of assets, the valuation of which is largely a matter of opinion. To us such a valuation is accuracy may be regarded and for others to reach an opinion about its accuracy may be regarded and for others to reach an opinion about its spart of the financial history of the large of incompany of the corporations and their stockholders have not happropriate to recall as part of the financial history of the large of the companies involved have made more of the opinion and their stockholders have not opinion about its spart of the statements are relied and acted upon, but many class when a crisis has come, they have been proven to be misleading, although made in good faith.

The foregoing suggestions do not mean that the directors think that the question of statements to be published by the company is settled or determined upon. On the contrary, the directors are of the opinion that the matter should be taken up for consideration and favorable action. Under the addition of the management of Mr. Havemeyer, and conditions existing in the past, I believe our policy was wise and fully justified, but I believe that now, under the new conditions which have corporations in my opinion must meet, a policy of publicity is desirable. I am beartly in favor of it and I hope to bring about this result. The time of making such a statement, and they to bring about this result. The time of making such a statement, and they the directors account energy of serious consideration, and will be dealt with by the directors as wish for greater publicity.

Intil the report of the company's financial condition is made, the stockholders have the company's financial condition is made, the stockholders may rest assured that the business for the past year has been salts factory and that the company's financial condition is made, the stockholders as that the company is in a strong financial condition.

Yumber of Shareholders.—There are

The following resolution was then offered by a representative of the company and unanimously adopted:

Resolved. That the directors be, and they hereby are, requested to prepare and have published such statement about the company adminishes, finances and assets as to them shall seem suitable, having reference to all the circumstances to be considered; that they be required to take action on the matter at their searly convenience, and that the subject be, and acreby is, referred to them will full authority.

Claus A. Spreckels, a large stockholder (as owner of \$650,000 of preferred stock—he claims to be the largest shareholder), was present with the avowed object of ascertaining where "the company begins and the Havermeyer estate leaves off," and in particular to learn who owns the Havemeyer & Elder plant in Brooklyn and the beet-sugar interests, as well as to determine the valuation placed on the plants that have been dismantled, including the St. Louis Sugar Refining Co. and the American Sugar Refining Co. of San Francisco, &c. At the conclusion of the meeting he was quoted as saying:

I am perfectly satisfied with the arrangements which have been made. Mr. Parsons in director) assured me that the report which the directors will prepare for the stockholders will be a detailed one, giving adequate information in regard to the company's affairs. That was all that we wanted.

New Officers.—The following officers have been elected.

New Officers.—The following officers have been been beginned.

Mr. Parsons to director) assured me that the report which the directors will prepare for the stockholders will be a detailed one, giving adequate information in regard to the company's affairs. That was all that we wanted.

New Officers.—The following officers have been elected; W. B. Thomas, President; Arthur Donner, Vice-President and Treasurer, and C. R. Heike, Secretary.

New Suit.—Press despatches dated Jan. 9 stated;

A new suit has been started in the U. S. Circuit Court at Philadelphia by George H. Earle, receiver of the Pennsylvania Sugar Reininery Co., to receiver 57,044,299 from the American Sugar Reining Co. and Gustav E. Kissel, in connection with the purchase of the reinery of the Pennsylvania Co. severalycars ago. Compare V. 85, p. 348; V. 84, p. 627—V. 85, p. 1520.

Arnold Print Works.—Receivers' Certificates.—Judge Lowell in the United States Circuit Court at Boston on Jan. 7 auhorized the receivers to issue an additional \$100,000 receivers' certificates, making in all \$300,000 authorized. An issue of \$43,000 certificates also was authorized in the case of Gallup & Houghton.—V. 85, p. 1514.

Bay State Gas Co.—Income Bondholders to Receive \$1,070 per Bond.—Judge Putnam in the United States Circuit Court at Boston on Jan. 9 approved the settlement of the suit of the holders of the \$507,000 outstanding income bonds upon the basis of a payment by Receiver George Wharton Pepper of Philadelphia of the sum of \$1,070 for each of said bonds, or \$542,490 in all, the bondholders to have 30 days to prove claims before Special Master Causten Browne of Boston.

President Thomas W. Lawson of Boston on Jan. 10, referring to this settlement of the long-pending litigation, says:

The company, after forfelting its most valuable assets because of this filteration and receivership and after paying the above \$342,490 and over \$500,000 receivership fees and expenses, has remaining about \$1,100,000 each and an offer of about \$1,100 for the going charter and stock machinery. After the formalities of relieving the recei

shares \$50.—Ed.)

The sum due from Charles S. Hinchman of Camden, N. J., for the assignment to him of the decree against Mr. Addicks is payable June 15 on or before which time, it is supposed, the receivership will end. The directors, it is said, include:

Thomas! W. Lawson, who is reported to own or control about one quarter of the outstanding stock; J. Frank Alice, W. Harry Miller, Newall Ball, Daniel Layton and Sylvester John Abobtt and C. F. Kellar.—V. 85, p. 1648.

Bell Telephone of Pennsylvania,—New Name.—Change of Par Value from \$50 to \$100 Effective Jan. 16.—The Bell Telephone Co. of Philadelphia has notified the Philadelphia Stock Exchange that the name of the company has been changed to "The Bell Telephone Co. of Pennsylvania," and the par value of its shares of stock changed from \$50 to \$100 each, to take effect Jan. 16.

Upon the opening of the transfer books on Jan. 16 only shares of the par value of \$100 of the Bell Telephone Co. of Pennsylvania will be transferred, one share of which will be issued in exchange for every two shares of stock of the Bell Telephone Co. of Philadelphia.

The company has arranged with H. R. Roney, 17th and Filbert Streets, Philadelphia, to purchase or sell such shares of stock of the Bell Telephone Co. of Philadelphia at \$50 per share as will enable stockholders to make the necessary exchange.

Acquisition.—See Maryland Telephone Co. below.—V. 85, p. 1578.

Bodwell Water Power Co., Milford, Me., Foreclosure.—A press dispatch from Portland, Me., on Jan. 6 reports the filing of a bill in equity to foreclose the \$1,000,000 mortgage, Central Trust Co., trustee. The company, it is stated, made substantially the following announcement:

The company will be unable to pay the coupons due Jan, 1 1908 until some adjustment is made with the Eastern Manufacturing Co., which the Bodwell Co. contracted to supply with power to the extent of 2.850 horse-power, and which is the latter's pelacipal source of income. The Eastern Co. claims damages because of the delay in starting the plant and refuses to pay the Bodwell Co more than a few thousand dollars.—V. 83, p. 40; V. 84, p. 1184.

Butte (Mont.) Electric & Power Co.—Reasons for Omission of Dividend on Common Stock.—Earnings—Status.—In a circular announcing the decision of the directors on Dec. 12 not to declare the usual quarterly dividend on commonstock, which would have been payable Dec. 15, President C. W. Wetmore submits the following statement of earnings and accompanies it with the following remarks:

Consolidated Earnings and Income Account of the Company and Its Subsidiaties for 10 Months Ending Oct. 31.

Gross Net after Other Interest on Sinking earnings. oper. & trzes. income. bonds. &c. Innd. surplus. 1907... 8819,112 \$454,854 \$26,131 \$214,867 \$6,244 \$259,874 \$1906... 655,655 \$350,110 \$15,690 \$175,696 5,416 181,688

Net Income for Catendar Years (1907, 2 Months Estimated). 1906. 1905. 1904. \$247,303 \$200,832 \$179,897 1903. \$139,353

\$318,000 \$247,303 \$200,832 \$179,897 \$139,353

"Noiwiths anding the great increase in carnings it is impracticable, in the present depressed condition of the security market, to sell at antisfactory prices the first mortgage bonds available in the treasury to reimburse the company for capital expenditures heretofore made, and it has therefore been deemed more wise not to make at this time the usual distribution on its common stock.
"All construction work heretofore authorized has now been substantially completed, and no further capital expenditures will be made until financial conditions have so changed as to permit the sale of securities on advantageous terms.

completed, and no further capital expenditures will be made until manage conditions have so changed as to permit the sale of securities on advantage ous terms.

"During the year 1907 the company has acquired the electric-lighting properties at Livingston, Mont., including a hydro-electric plant and water rights upon the Yellowstone River, near Livingston; has completed the second hydro-electric plant and water rights upon the Yellowstone River, near Livingston; has completed the second hydro-electric plant on the Madison River, an installation of 12,000 horse-power; has extended the power transmission lines of the Madison River plants to the plant at Livingston, thus uniting the powers of the Madison River and the Yellowstone; has installed a new central steam hearing station at Butte, and has made other important improvements upon its various properties. The properties of the company are in excellent physical condition, and their operating efficiency and earning capacity are greater than ever before in its history.

"Besides its reserve plants, the company has now installed hydro-electric generating capacity aggregating 20,000 horse-power, as follows: Upon the Madison River, 1,000; upon the Rig Hole River, 4,000; upon the Yellowstone River 1,000. Through its subsidiary companies, the company is in possession of water rights which will admit of the development of from 30,000 to 40,000 additional hydro-electric horse-power at unisually law cost.

"During the year 1906 an exhaustive examination on behalf of the company was made by competent expects of the water powers of Montana and of the present and prospective market for hydro-electric power, and the conclusion reached that the demands for such power would keep pace with the probable prospective development and would ultimately exhaust the entre water power expand of the State. The undeveloped rights of the company are, therefore, believed to be of great value." Compare "Railway and Industrial" Section, p. 155, and "Chronicle," V. 82, p. 1441, —V. 85, p. 1578.

cre, therefore, believed to be of great value." Compare "Railway and Imdustrial" Section, p. 155, and "Chronicle," V. 82, p. 1441.—V. 85, p. 1578.

Capital City Power Co., Montana.—O//ering of Guaranteed Bonds.—A. B. Leach & Co., New York, Chicago, Boston and Philadelphia, are offering at par and interest the unsold portion of a total issue of \$1,500,000 first mortgage sinking fund 6% gold bonds of \$1,000 each (e*&r), dated Sept. 1 1907, maturing Nov. 1 1937, but subject to call at company's option on any interest day after Nov. 1 1912 at 105 and interest upon three months notice. Interest payable May and November at banking house of A. B. Leach & Co., New York, in gold coin, or a the Bank of Scotland, London, E. C., in Sterling. Sinking fund \$30,000 annually, beginning with 1913. United States Mortgage & Trust Co., New York, trustee. Both principal and interest are unconditionally guaranteed by the United Missouri River Power Co. The bonds will be secured by "an absolute first mortgage upon the entire property of the company, which, when completed will consist of a modern water-power plant, having a capacity of at least 25,000 electrical horse-power." The Capital City Power Co. was incorporated in August last under the laws of New Jersey, with \$2,000,000 of authorized capital stock, all of which, except shares to qualify directors, is owned by the United Missouri River Power Co. A prospectus, revised in some particulars for the "Chronicle," says in substance:

Garnings of United Missouri River Power Co., for Five Months Ending June 30 in 1907 and 1905.

5 Months— Gross. Op. EED. Net. Int., &c. Deprec'n. Bal., Sur. 1907———\$283,391—\$85,398—\$217,903—\$79,601—\$20,000—\$118,332—\$1966——145,620—35,901—111,719—\$6,025—20,000—\$26,094

Note.—This statement for the five months of 1997 shows a surplus, after deducting all charges, over three times the interest requirement for the same period on the present issue, notwithstanding the fact that the plant of the Helena Power Transmission Co. was operated at about one-third of its capacity Feb. 14 to April 1 1907.

Estimated Annual Income of United Missouri River Power Co., Based upon Contracts Now in Operation or Becoming Operative During Present Year. Gross Income \$901,000 | Interest charges, &c. \$239,370

Net inc., over int., taxes, &c. 771,900 | Bal. for int. on present issue 532,330

The company is operating under perpetual franchises granted by the Congress of the United States, containing no unfavorable restrictions.

1906-07 \$130,106 \$65,000 \$30,654 \$34,452
1905-06 100,859 \$55,000 \$30,654 \$35,859
The gross income for 1905-06 (1906-07 not reported) was \$458,094.—
V. 84, p. 105.

Helena Power Transmission Co .- See Capital City Power -V. 81, p. 843.

Co. above.—V. 81, p. 843.

Homestake Mining Co.—Dividends Resumed.—Dividends suspended last May, owing to a fire in the mines, have been resumed at the old rate, 50 cents a share, a monthly distribution of this amount having been declared on Jan. 8, psyable Jan. 25 to holders of record Jan 20.—V. 85, p. 1579.

Hudson Navigation Co., New York.—Called Bonds.—The Trust Company of America, as trustee, announces the numbers of thirty (\$30,000) 20-year 5% bonds, secured by the collateral trust deed, dated Jan. 1 1903, made to the City Trust Co. of New York (now the Trust Company of America) as trustee, which have been drawn for redemption at par and interest and will be paid on presentation at the office of the trustee, interest ceasing Jan. 15.

Bond Certificates.—The following sale was made at auction in this city on Dec. 26 1907:

Bond certificate calling for \$50,000 at par of 5% bonds, with stock bonus.

Bond certificate calling for \$50,000 at par of 5% bonds, with stock bonus, a which 25%, viz., \$12,500, has been paid, remaining 75% being due various installments between May 1907 and May 1908; sold at 20.—. 85, p. 1648.

W v. 85, p. 1648.

Hudson River (Bell) Telephone Co., Albany, N. Y.—
Dividend Omitted.—In view of the requirements for extensions, &c., the directors, it is announced, have decided to omit the dividend that would otherwise have been paid Jan. 15. Compare V. 84, p. 806; V. 85, p. 37.

Kansas Natural Gas Co.—First Dividend, Payable Monthly During 1908.—An initial dividend of 6% has been declared on the \$12,000,000 stock, payable monthly at the rate of 50 cents a share, the first installment being payable of Feb. 24 to stockholders of record Feb. 5.—V. 85, p. 102.

Lindsay Light Co., Chicago.—Monthly Dividend Reduced

Lindsay Light Co., Chicago.—Monthly Dividend Reduced from 3½% to 2%.—The directors on Dec. 31 declared a monthly dividend of 2%, being a reduction of 1½% as compared with the amount distributed every thirty days since June 1 1907. The decrease is attributed to the falling off in business occasioned by the currency stringency which began in October. Compare V 85, p. 725.

Maryland Telephone Co.—Change in Control.—The entire \$1,000,000 capital stock of this company (incorporated last spring as successor of the Maryland Telephone & Telegraph Co., V. 84, p. 1116), was recently sold by the Baltimore Electric Co., as proposed when that company passed under the control of the Consolidated Gas Electric Light & Power Co. (V. 25 a. 1211) \$300,000. The new owners of the telephone property are commonly understood to be interested in the Chesapeake & Potomac (Bell) Telephone Co., which, according to a recent plan, is to be merged in the Bell Telephone Co. of Pennsylvania. See that company above, and in V, 85, p. 865, 1464, 1578.

Chairman S. Davies Warfield of the Consolidated Gas El. Light & Power Co. on Dec. 2, referring to the sale, said: El. Light & Power Co. en Dec. 2, referring to the sale, said:
The Maryland Telephone Co. has been purchased subject to the \$1,000,
000 first mortzage bonds and the \$1,155,000 general mortzage bonds outstanding, and the property has been turned over to interests having the
largest experience in the telephone business throughout the country. R. P.
Miller, representing the purchasers, has been placed in charge of the property, with headquarters in the Maryland Telephone Building. (The shareholders of the Maryland Telephone Co., it is said, recently voted to reduce
the authorized issue of bonds from \$5,000,000 to \$3,000,000. Compare
V. 80, p. 1600.—Ed.)—V. 85, p. 1405.

Milliken Bros. (Inc.).—Prepayment of Interest.—The receivers announce that the interest due Feb. 1 on the \$3,000,000 6% bonds will be paid Jan. 15. No receivership certificates are outstanding.—V. 85, p. 1405.

Missouri River Power Co.—See Capital City Power Co.

Missouri River Power Co.—See Capital City Power Co bove.—V. 84, p. 935

National Fuel Gas Co., Pittsburgh, Pa.—Extra Dividend.

This company, controlled by the Standard Oil Co. of New Jersey (V. 85, p. 217), has declared with the regular quarterly dividend of 3% an extra dividend of 17% from surplus, payable on the \$2,400,000 stock (par \$50). Compare V. 81, p. 1795.—V. 85, p. 225.

New York Air Brake Co.—Financial Plans.—The "New York Times" of Jan. 9 said:

While the question of new financing is still in abeyance, it was learned yesterday that the directors have reached an agreement with the advisory committee of creditors by which the floating debt will be extended and the directors left free to consider the advisability of increasing their capital obligations without the embarrassment of having to meet current debts.

The plan finally agreed upon by the committee and the directors left free to consider the advisability of increasing their capital obligations without the embarrassment of having to meet current debts.

The plan finally agreed upon by the committee and the directors involves the piscage of a mortgage on the property, which is at present unlangumbered, to cover the total amount of the current indebtedness and the issuance of new paper to the creditors, which is to run for six months, specifically secured on its face by the mortgage. Exactly how large this mortgage will be emembers of the committee would not say, but it was stated that it would be no more than sufficient to cover the outstanding debts, which are much under the assets, which are placed at \$3,500,000.

One of the advisers of the company said yesterday that the directors were of the opinion that with the easing up of the money market the increases in collections would supply money as rapidly as it was needed.—V. 85, p.1049, 1579. National Fuel Gas Co., Pittsburgh, Pa .-

Passaic Steel Co., Paterson, N. J.—Receivership.—Judge Lanning in the United States District Court at Trenton, N. J., on Dec. 30 appointed John R. Lee, Oakland Cook and William Arnold of Paterson, receivers for the company upon application by Joseph O'Brien and Michael Martin, both of Scranton, Pa., on the grounds that interest on the \$2,500,000 bonds for October 1906 and April 1907 and October 1907, and taxes to a considerable amount, remain unpaid.—V. 83, p. 327 p. 327.

Pittsburgh Trolley Pole Co.—Receivers' Sale Jan. 15.—
The Southside Trust Co. of Pittsburgh, as receiver, advertises the sale of this company's entire property for Jan. 15. at Pittsburgh.—V. 79, p. 2476.

Sacramento Valley Irrigation Co.—Receiver.—A press dispatch from Alamogordo, N. M., on Jan. 5 said:

The Sacramento Valley Irrigation Co. which is constructing one of the largest Irrigation systems in the Southwest, has been placed in the hands of a receiver. The company is capitalized for \$1,000,000 and has already spent \$200,000 on the project. J. W. Thompson of Alamogordo has been appointed receiver.

Santo Domingo Gold & Conner Co.—Subsections D.

Santo Domingo Gold & Copper Co.—Subscriptions Returned.—A. O. Brown & Co. of this city in the latter part of 1906 offered and sold a large block of the stock of this company to their clients throughout the United States. Last year the firm made a thorough investigation of the project on its own account, and, finding the prospects unpromising, have returned the subscriptions with 4% interest.

Standard Underground Cable Co.—Extra Dividend.—An extra dividend of 3% was paid Jan. 10, together with the usual quarterly dividend of 3%, on the \$2,500,000 stock. This payment compares with 3% and 5% extra at the same time in 1907.

Dividends in 1907 amounted to 17%, the same as in 1906. On Jan. 22 1907 a stock dividend of 25% was authorized on the \$2,000,000 outstanding stock. Compare V. 84, p. 225, 54.

Dividends in 1907.

Dividends in 1907 amounted to 17%, the same as in 1906. On Jan. 22 1907 a stock dividend of 25% was authorized on the \$2,000,000 outstanding stock. Compare V. 84, p. 225, 84.

(John B.) Stetson Co. (Hats), Philadelphia.—Extra Dividend.—An extra dividend of 25% and a semi-annual dividend of 15% have been declared on the \$3,275,000 common stock, payable Jan. 15 on stock of record Jan. 9, together with the usual semi-annual dividend of 4% on the \$1,500,000 preferred stock. In 1907 10% was paid on the common in January and July and also 5% extra in January. The stockholders were last month offered the right to subscribe for 25% in new stock, to be paid for this month, and the 25% extra dividend will therefore give the common stockholders the cash for their subscription, if made, to the new stock. Compare V. 84, p. 53.—V. 85, p. 1466.

United Missouri River Power Co.—New Stock—Properties Controlled, &c.—This company, whose properties, funded debt, carnings, &c., are shown above, under the eaption of the Capital City Power Co., was incorporated under the laws of New Jersey on Feb. 16 1906 with \$5,000,000 capital stock in shares of \$100 each. On Feb. 1 1907 the stock was increased to \$5,250,000 and on Sept. 15 1907 to \$10,250,000, of which \$250,000 is preferred.

Collateral Trust Bonds.—The company under date of Mch. 1 1906 made a collateral trust deed to the Central Trust Co. of New York as trustee to secure an issue of not exceeding \$3,300,000 "30-year sinking fund gold bonds" dated Mch. 1 1906 and due Mch. 1 1936, but subject to call, any or all, at 105 and interest on any interest day after Mch. 1 1911. Denomination \$1,000 (e*). Interest payable Mch. 1 and Sept. 1. Of these bonds \$2,000,000 bearing 6% interest are now outstanding, as stated in the foregoing item under title of Capital City Power Co.:

At the time of the maling of the mortrage there were deposited with the trustee \$1,700,000 common stock of shood mare capital stock the trust deed an horized the Issuance of \$2,000,000 bearing 6%

The Calculal Trust Co. of New York is trustee under both these issues, and the interest there in is payable at its banking house.
The Missouri Power Co. has paid dividends at the rate of 7 % per annum on the preferred stock, and one account mentions dividends at the rate of 6% per summ for some period or periods on the common stock, but the official statement to the "Chronicle" makes no reference to distributions on the common shores. Par. Interest. Amount.

Western Stone Co., Chicago.—Dividend Omitted.—The directors on Dec. 29 decided to omit payment of the regular quarterly dividend of 1% on the \$2,250,000 capital stock.—V. 81, p. 724, 672.

Western Union Telegraph Co.—Listing of Stock to be Issued as Dividend.—The New York Stock Exchange has authorized the listing on and after Jan. 15 1908 of the \$1,217,000 additional stock which is to be distributed to the stockholders on that date as a quarterly dividend of 1½%, making the total amount authorized to be listed \$98,587,000. Compare V. 85, p. 1525.

Not Subject to State Anti-Trust Law.—Justice Hendrick in the Supreme Court in this city on Dec. 20 vacated an order obtained by Attorney-General Jackson in July last for the examination of officers and books and papers of the com-

pany, and the Postal Telegraph & Cable Co., with a view of proving violation of the Donnelly (State) anti-trust Act.

It was claimed that an agreement existed between the two companies with reference to rates at common points and the division of receipts from stations in hotels and other centres, such agreement helig in restraint of trade. The court holds that the antil trust law prohibits only "monopolies in tangible articles of trade and commerce in common use, and such as are capable of manufacture, production and sale," and that telegraphic communication is not a commodity within the meaning of the Act.—V. 85, p. 1525–1467.

Westinghouse, Church, Kerr & Co.—Endorsement of oles, &c.—See reorganization plan of Westinghouse Ma-

Westinghouse, Match, 2001
Notes, &c.—See reorganization plan of Westinghouse Machine Co. below.

Stock Ownership.—The balance sheet of the Electric Properties Co., in V. 84, p. 1426, shows among the assets of that company an item "Sub-company (Westinghouse, Church, Kerr & Co.), \$7,000,000."—V. 84, p. 1001.

Church, Kerr & Co.), \$7,000,000."—V. 84, p. 1001.

Westinghouse Machine Co.—Coupon Payment.—Coupons due Jan. 1 1908 on debenture certificates of 1920 were paid at maturity at the Fidelity Title & Trust Co., Pittsburgh.

Balance Sheet.—See "Reports" on a preceding page.

Reorganization Agreement.—Under date of Dec. 24 1907 the following creditors' committee.

Residents of Pittsburgh.—Wilson A. Shaw, Prest. Bank of Pittsburgh.
N. A.: Robert Wardrop, Prest. Peoples' National Bank; H. C. Burhman, Prest. Second National Hank; James C. Chaplin, Vice-Prest. Colonial Trust Co.; R. B. Mellon, Vice-Prest, Mellon National Bank.

Others.—Horace E. Smith, of Chas, Smith & Sons, Bankers, Philadelphia, Prederick S. Moseley, of F. S. Moseley & Co., Boston: Frederick D. Underwood, Prest. Eric Ralicoad Co., John F. Wallace, Prest. Electri Properties Co., both of New York, and A. G. Becker, of Chicago.

With James C. Chaplin as Secretary, 317 4th Avc., Pittsburgh, Pa., and the Colonial TrustCo. of Pittsburgh as depositary.

have proposed the following plan for the extension of the

Frederick S. Moseley, of F. S. Moseley. & Co., Boston: Frederick D. Underwood, Prest. Erick Ralinoad Co., John F. Wallace, Prest. Electric Properties Co., both of New York, and A. G. Becker, of Chiccago.

With James C. Chapilin as Secretary, 317 tith Ave., Pilitaburgh, Pa., and the Colonial TrustCo. of Pitaburgh as depositive. Have proposed the following plan for the extension of the company's debt, to which plan the directors of the company, the Westinghouse, Church, Kerr & Co. (V. 83, p. 1001) and the Electric Properties Co. (V. 84, p. 1426) have assented:

**Proposed Issue of \$7,200,000 3-year 6% Notes, dated Jam. 2 1008.

The company to create an issue of \$7,200,000 of three-year 6% registered notes (without coupons) secured by the bonds hereinater mentioned such bonds to be taken. These notes to be dated as of Jan. 2 1008 and to be taken as the company of paying the principal of said notes, on any part thereof (such partial payments, if any, to be made pro-rate on all of said notes), at any quarterly interest period. Denomination \$500, or any part thereof (such partial payments, if any, to be made pro-rate on all of said notes). \$4,31,000 of the \$10,000,000 \$% Gold Bonds dated 1907 as Collateral. \$3,471,000 of the \$10,000,000 \$% Gold Bonds dated 1907 as Collateral. \$3,471,000 of the \$10,000,000 \$% Gold Bonds dated 1907 as Collateral. \$3,471,000 of the Sin,000,000 \$% Gold Bonds dated 1907 as Collateral. \$3,471,000 of the Sin,000,000 \$% Gold Bonds dated 1907 as Collateral. \$3,471,000 of the Sin,000,000 \$% Gold Bonds dated 1907 as Collateral. \$3,471,000 of the Sin,000,000 \$% Gold Bonds dated 1907 as Collateral. \$3,471,000 of the Sin,000,000 \$% Gold Bonds dated 1907 as Collateral. \$3,471,000 of the Sin,000,000 \$% Gold Bonds dated 1907 as Collateral. \$3,471,000 of the Sin,000,000 \$% Gold Bonds dated 1907 as Collateral. \$3,471,000 of the Sin,000,000 \$% Gold Bonds dated 1907 as Collateral. \$3,471,000 of the Sin,000,000 \$% Gold Bonds dated 1907 as Collateral. \$3,471,000 of the Sin,000,000 \$% Gold Bonds dated 1907

The receivers urge the importance of a speedy reorganization, and the creditors' committee, referring to the balance sheet of Oct. 23 1907 (see "Annual Reports") and to the statement of earnings published in V.85, p. 104, say:

"We believe that the value of the company's assets as a going concern is largely in excess of its liabilities," and that "under the plan proposed, the company will not only be able to liquidate its indebtedness in full, but that it will continue, as heretofore, to earn material returns on its capital stock. We further believe that during the next three years the company will be able to make substantial payments on account of the principal of the notes, that the honds pledged will become a marketable security, and that hefore the maturity of the notes a sufficient amount of the bonds can be disposed of to provide for the liquidation of any unpaid balance of the principal."

Creditors destring to participate in the plan should become parties to the extension agreement on or before Jan, 15 1908 by deposit of their notes or other obligations and of assignments of other claims with the depositary, the Colonial Trust Co. Pittsburgh.—V. 86, p. 55.

—N. W. Halsey & Co., bankers of this city, are distributing a brochure entitled "Business Insurance," reprinted from the "World's Work," by courtesy of the publishers, Doubleday, Page & Co. Free copies may be had upon request to the firm's New York offices, 49 Wall St. Another booklet, "The Financial Soundness of Great Railroads," is ready for free distribution. In this 32-page booklet, N. W.

Halsey & Co. carefully review the remarkable growth in property values and earning power of the principal railroads since 1897. The text includes analyses for 10 years of ten important railroads, illustrated by tables and diagrams. When writing for the "Financial Soundness of Great Railroads," ask for booklet AJ-10.

roads," ask for booklet AJ-10.

—The Hand-Book of Securities, compiled by the publish ers of the "Commercial & Financial Chronicle," is now ready. The book contains in a small compass very full information concerning the various railroads and the leading industrials whose securities are dealt in on the New York, Boston, Philadelphia and Chicago Stock Exchanges. It shows their earnings, dividends, etc., for a series of years, present fixed charges, and also the amounts of the different issues of bonds outstanding, their rates of interest, etc. There is also given the monthly range of stocks and bonds for 1906 and 1907, together with a yearly range for four years. Price, a dollar, or seventy-five cents to "Chronicle" subscribers.

—We have received a cony of the annual circular compiled.

—We have received a copy of the annual circular compiled by Messrs. Sanford & Kelly, New Bedford, Mass., relating to the industries of this prosperous city—cotton and other manufacturing corporations, national banks, savings banks, &c.—and containing statistics, financial and otherwise, for the year 1907. The review of the general business of New Bedford contains many varied and interesting facts; for instance, a computation of the dividends distributed by local concerns shows an average of 8.2%, the amount distributed being \$1,242,428 larger than the previous year.

—The Banking house of Shaemaker, Bates & Co. 37

—The Banking house of Shoemaker, Bates & Co., 37 Wall Street, have opened a Chicago office at 205 La Salle Street, with Mr. A. Follansbee as Manager, who is well known in Chicago. It is the intention that the Chicago branch will deal largely in high-grade investment securities, the house having already been doing considerable business in that city. The firm has two memberships on the New York Stock Evelange. in that city. The firm York Stock Exchange.

—Edward G. Johns, formerly identified with Hayden, Stone & Co. and with Herrick, Berg & Co., has opened for business on his own account at 43 Exchange Place, dealing in bonds, miscellaneous and curb accurities. Mr. Johns has recently returned to New York after an extensive trip through the mining districts in Lower Arizona, Upper California, Nevada and Nova Scotia. He is well posted on mining conditions.

—Max Hesslein, who lately retired from Knauth, Nachod & Kuhne, has become a member of the New York Stock Exchange firm of Sig. H. Rosenblatt & Co., 42 Broadway. Mr. Hesslein had been identified with Knauth, Nachod & Kuhne since 1902, has had fourteen years in Wall Street, enjoys a large acquaintance in financial circles, and will bring important connections to his new affiliations.

-Notice is given of the continuance of the well-known New —Notice is given of the continuance of the well-known New York Stock Exchange house of James H. Oliphant & Co., 20 Broad St., this city, whose senior partner, J. H. Oliphant, was lately killed by a customer in the firm's offices. The concern will be conducted under the old name as heretofore by Mr. Oliphant's former partners, Alfred L. Norris, Floyd W. Mundy and J. Norris Oliphant.

—Hambleton & Co., Baltimore, Md., have issued a special list of securities showing the prices for December 1906 as compared with December 1907, and the return on the investment for 1906 compared with present return. These bonds are all either Baltimore or New York Stock Exchange securities, and most of them are on the court list for the investment of trust estates.

—Aymar Johnson, Chalmers Wood Jr., member N. Y. Stock Exchange, and Edmund P. Rogers, are the partners in the new firm of Johnson, Wood & Rogers, at 38 Wall St., which commenced business Monday. The firm is an evolution of the curb-brokerage concern of Wood & Co., and will transact a general commission business in stocks, bonds and investment securities.

—The opposition in Boston to the control of the Boston & Maine by the New York New Haven & Hartford RR. Co. is voiced in a quarto pamphlet of 77 pages on the comparative financial condition of the two companies prepared by Louis D. Brandeis of Brandeis, Dunbar & Nutter, 161 Devonshire St., Boston.

—Eliot Norton, of the New York Bar, has written an essay on "Short Sales of Securities Through a Stock Broker." It is published as a booklet by John McBride Co., 2 Rector St., New York. The author describes the method of short selling and the legal rights and duties involved. The book has been revised by members of the Stock Exchange.

—In view of the tax assessment date, Jan. 13, A. M. Kidder & Co., 18 Wall St., New York City, offer investors a selected list of guaranteed stocks, exempt from tax to return the purchaser 4 to 6%. A list of these stocks will be sent upon application or by telephoning "4931 Cortlandt."

—A very clear statement of the average yield based on present prices of a selected list of Stock Exchange securities in comparison with Jan. 1907 has been issued by Messrs. Edgerly & Crocker, 53 State St., Boston, Mass., and 71 Broadway, New York.

—The Boston Safe Deposit & Trust Co., 87 Milk St., Boston, has issued the 1908 edition of its annual booklet—"Coupons, Where Paid."

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, Jan. 10 1908.

Friday Night, Jan. 10 1908.

With the stock market higher and money rates easier, both on call and for time loans, the feeling has been rather more cheerful, although general trade is still noticeably affected by the widespread disposition to proceed cautiously. Prices are in the main well sustained.

LARD on the spot has been firm in the main. There has been an increase in trade, largely for export account. All of the City offered has been taken for shipment. Supplies continue moderate. City Sc. and Western 8.10@8.35c. Refined lard has advanced on small supplies and offerings. Trade has been quiet and confined to local jobbers. Refined Continent 8.70c., South American 9.40c. and Brazil in kegs 10.65c. The speculation in lard futures at the West has been more active. Prices have been firmer in the main on increased speculative buying. Commission-house business has increased. The liberal movement of hogs, however, and selling by packers have militated against any sharp improvement in prices.

9¼c. Butter has advanced on small supplies; creamery extras 30½c. Cheese has been quiet and steady; State, fine, 15¾c. Eggs have been quiet and steady; Western firsts 27c.

OIL.—Cottonseed has been quiet and firm; prime summer yellow 39@40c. Linseed has been easier, owing to a lower market for seed and the dulness of trade, purchases being confined to small lots to fill immediate needs. City, raw, American seed, 44@45c.; boiled 45@46c. and Calcutta, raw, 60c. Lard has been quiet and steady; prime 73@75c. and No. 1 extra 54@57c. Cocoanut has been dull and easier; Cochin 8¼@8½c. and Ceylon 6¾c. Olive has been quiet and steady; yellow 65@75c. Peanut has been quiet and steady; yellow 65@80c. Cod has been moderately active and steady; domestic 42@43c. and Newfoundland 44@45c.

COFFEE on the spot has been quiet and steady. Rio No. 7 6c. West India growths have been firmer and more active; fair to good Cucuta 9½@10½c. Speculation in future contracts has been quiet and prices have moved within narrow limits. In the main the tone has been firmer, however, owing to an absence of selling pressure and strength at Havre at times. Europe has bought March here to some extent. Local roasters and dealers have bought small amounts, and there has been more or less covering of shorts.

The closing prices were as follows:

of shorts.
The closing prices were as follows:

February 5.80c June 6.05c October March 5.90c July 6.10c November April 5.95c August 6.15c December	6.25e, 6.25e, 6.30e, 6.30e,
---	--------------------------------------

April 6.98c August 6.10c November 6.30c. April 6.98c August 6.15c December 6.30c. SUGAR.—Raw has been firmer and more active, principally for Cubans. Centrifugal, 96-degrees test, 3.92c.; muscovado, 89-degrees test, 3.42c., and molasses, 89-degrees test, 3.17c. Refined has been moderately active and firmer. Granulated 4.80c. Deliveries of refined on contracts have been delayed, owing to labor troubles. Teas have been firmer and more active. Spices have been moderately active and firm. Hops have been quiet and steady.

PETROLEUM has been in good export and domestic demand, and firm. Refined, barrels, 8.75c., bulk 5c. and cases 10.90c. Gasoline has been in brisk demand and steady; 86-degrees 21c. in 100-gallon drums. Naphtha has been moderately active and firmer; 73@76-degrees 19c. in 100-gallon drums. Spirits of turpentine has advanced sharply to 55c. on small receipts. Trade has been dull. Rosin has been quiet and firm; common to good strained \$3.20.

TOBACCO.—The market for domestic leaf has continued quiet, though a more cheerful feeling is noticeable in some quarters. But with the consumption of cigars still restricted, manufacturers have limited their purchases of leaf to small lots. Prices have been steady as a rule, but some dealers are expecting reductions, as the new crop is said to be of poorer quality. Havana and Sumatra have been quiet and firm.

COPPER has been dull and steady; lake 135%@137%c.;

and firm.

COPPER has been dull and steady; lake 135%@137%c.; electrolytic 131/2@133/4c. Lead dull and easy at 3.60@3,70c. Spelter has been dull and steady at 4.30@4.35c. Tin quiet and firm; Straits 27c. Iron has been quiet and firm; No. 1 Northern \$18.50@\$18.75 and No. 2 Southern \$17.25@\$17.75.

COTTON.

Friday Night, Jan. 10 1908.

THE MOVEMENT OF THE CROP as indicated by our THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 284,017 bales, against 340,240 bales last week and 349,425 bales the previous week, making the total receipts since the 1st of September 1907, 5,395,337 bales, against 6,382,924 bales for the same period of 1906-07, showing a decrease since Sept. 1 1907 of 987,587 bales.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

COTTON OPTION TRADING.—President Taylor of the National Ginners' Association Defends It.—President Taylor of the National Ginners' Association has addressed a communication to the ginners and planters of the South which is in part as follows:

munication to the ginners and planters of the South which is in part as follows:

To those who have the real interest of the cotton grower at heart as well as to the grower himself, I would earnestly suggest a careful consideration of the possible effects of the passage of the Burleson bill now pending before Congress. I have had twenty years' experience as a ginner, grower and buyer of cotton, and during my three years' experience as President of the present methods and the possible effects of the passing of the Burleson bill, feel sure that if the bill becomes a law it will cost the Southern farmers millions of dollars before it could be repealed. Some years ago in Germany there was raised this same agitation by the growers of grain against speculation, and all the Exchanges were closed by law. The result was so costly and unsatisfactory to the producers of grain and other cereals that the Government tself asked the Exchange to reorganize. This is the only instance of its befine tried, but the result was so different from what was expected, I think we should profit by their experience. The loss would be much greater with us, as we grow so much more than we can use at home. Under the present conditions the producers market from 75.000 to 100,000 bales of cotton per day during September, October and November, while the combined capacity of all the spindles in the world that use American cotton is about 40,000 bales per day. The difference has to be carried by some one and they speculate to that amount, as there is always a chance for an advance or a decline in the price. At present a part of this is carried by the spinners, a part by the farmers and merchants in actual cotton; but the largest part is carried by cotton merchants and cotton buyers. Nearly all this cotton is hedged or sold against the future markets of this country and Europe. Who carries the other end of these contracts? At present speculators cver sell any commodity short, but are nearly always found on the buying side. Suppose that our Exchange

present price of cotton \$350 to hedge 1,000 bales of cotton, compared to \$150 in this country. The result would be about as follows: Cotton would start in September at about its value from a supply and demand standpoint, and as the farmers increased their sales to meet their obligations the sales of hedges would be so great in Liverpool, with bandly any one supporting the market, that the price would at once go very low and would stay there until the bulk of the erop had been picked and marketed, when it would eradually go back, probably to near its real value; but too late. If the producers would only sell what the spinners would take each day the would not bappen; but that would be impossible under the present conditions, with the merchants wanting their money for supplies furnished months before they would be forced to sell. What we really need is more speculation, especially here in the South, as it would be nearly all on the buying side, and help carry the load of cotton till the spinner needs it. I think the Exchanges should be so regulated that it would be impossible to depress the price by tendering a lot of low grade cotton on contracts as its done under the system as in vogue for the past forch. All grain future the Exchange hase their contracts which is to the different grades of what about what hiddling is to the grades of cotton, or even better. This would enable the spinner to buy contracts and receive the actual cotton, knowing he would get at least spinnable cotton.

Under the present system there is no other commodity handled on such a small margin as cotton. If protected from weather influence there is no waste, and with the future markets to hedge his sales in, the small huyer with limiter capital but good credit can handle a very large amount of cotton during a scason, so that a very small profit on each bale makes divertible to impossible for him to get accommodations from the banks to handle as much business, so he would have to reduce his business and make a larger profit per bale. This w

LANCASHIRE LOCKOUT THREATENED .- Our correspondent at Manchester cables us this evening that the Federated Spinners of Lancashire threaten to close their mills on the 25th of January unless the individual strikes of the ring spinners at Oldham are terminated before that time. Two-thirds of the spinners in Lancashire, our correspondent says, will be involved in the lockout and that great diplomacy will be required to avert it.

WORLD'S SUPPLY AND TAKINGS OF COTTON.— The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Sept. 1, for the last two seasons, from all sources from which statistics are obtainable; also the takings, or amount gone out of sight, for the like period.

Cotton Takings	190	7-08.	1906-07.

BREADSTUFFS.

Friday, Jan. 10 1908.

Prices for wheat flour have ruled firm with occasional advances. These, however, have been to a large extent merely nominal, as trade has continued extremely dull and of a hand-to-mouth character. Export trade has been at a standstill. Stocks in the hands of dealers are unusually small, but no disposition is shown to replenish them. The output at the large milling centres continues on a much smaller scale than at this time last year. Corn meal has been quiet but firmer. Buckwheat flour has been dull and easier. Wheat has suffered something of a decline, partly at least by reason of better weather in Argentine, larger offerings of La Plata wheat at times in Liverpool, a lack as a rule of anything like an animated export demand here, and finally the dulness of speculation. Thus, for one reason or another, large bull interests at Chicago have deemed it advisable to liquidate, and they have done so on a considerable scale. At the same time Liverpool quotations of late have shown unexpected steadiness, partly, it appears, owing to support given to prices there by large speculative interests. As to who these people are, opinions seem to differ, but one idea which perhaps may not be entirely without foundation is that it is large Chicago interests. World's supplies, moreover, have been increasing. Last week they increased nearly 2,500,000 bushels, against only about 1,900,000 for the same time last year. Yet prices here of late have been firmer. In spite of the reports of a poor demand at Liverpool prices there have been sustained in a manner that has surprised many. Mr. John Morley, Secretary of State for India, has received a dispatch from Lord Minto, Viceroy of India, stating that the area sown to wheat in India this year is 34% smaller than that of last year. Moreover, the receipts at our Northwestern markets have been light, and

the cash situation there has latterly at least been firm. The Southwest has reported a good milling demand. As regards European weather reports, they have on the whole been unfavorable. Severe freezing has occurred in France, Germany, Austria and Russia. In Russia the weather has now only been intensely cold, but the fields are without snow covering; the prospects, therefore, are reported rather dubious and at the same time supplies are light. It may be added that, although world's supplies have latterly been increasing, the total is nevertheless only 140,650,000 bushels, or nearly 27,000,000 bushels less than a year ago and 12,600,000 bushels less than at this time in 1906. Under the circumstances part of the decline early in the week has latterly been recovered. To-day prices advanced early on better cables than had been expected, bull support and covering of shorts. Later on came a decline on liquidation, partly, it was reported, for leading bulls, favorable Argentine news and bearish pressure. Before the close reports of an active export demand caused a rally.

DAILY CLOSING PRICES OF WHEAT FUTURES IN CHICAGO.

Indian corn futures have declined of late, owing to generally favorable weather for curing the crop. This has led to liquidation and more or less short selling in expectation of larger receipts shortly, especially as present prices are attractive and the movement of hogs to market continues liberal, so that a lessened feeding demand seems probable. Cash and elevator interests at the West have been selling. But there has been more or less support, so that no marked depression has occurred. The movement, too, in spite of the favorable weather, has been light, and at times there has been an increased cash demand, partly for export. It is insisted, too, that the percentage of unmerchantable corn this season is unusually large. To-day the market was easier on favorable weather, larger receipts than expected and liquidation. and liquidation.

Oats for future delivery in the Western market have been easier in the main, owing to depression in wheat and corn. The cash trade, moreover, has been dull and larger receipts are expected. Northwestern houses have sold at Chicago at times and so have elevator concerns. The speculation, however, has been quiet as a rule and destitute of features of striking interest. Stocks of contract grade are small, and the fear of manipulation causes many to hold aloof from the speculation. To-day prices declined slightly on liquidation.

THE DRY GOODS TRADE.

New York, Friday Night, Jan. 10 1908.

With the announcement yesterday by the American Printing Company and others of a cut in the price of staple prints from 7c. to 6c., the reduction to take place immediately, a first step was made in the direction of placing cotton goods on a level where they will prove more attractive to buyers. Advantage was taken of this action by other agents to announce revisions which had long been under con-

sideration, and it is expected that during the course of next week numerous lines will be placed on a more reasonable price basis. The American Printing Company was a large buyer of print-cloth regulars at Fall River during the latter part of last week, paying 4½c. for goods to be delivered up to April next; and, while their purchases were of sufficient volume to steady the print-cloth market, yet the price paid was sufficiently low to make it reasonably certain that a reduction in prints would follow. Apart from the idea of stimulating trade and following the course of the print-cloth market, however, another point that undoubtedly influenced the reduction was the knowledge that others were practically selling below the 7c. level by lengthening discounts, thereby placing the dominating interest at a disadvantage. There has been more inquiry for goods generally during the week and slightly more business, due almost entirely to the improvement in the financial situation. Bankers are showing a greater disposition to discount commercial paper and rates have materially fallen during the week. A fair number of buyers have been in town, and operations are expected to increase largely when the whole market has been placed on a more favorable level. Lower prices have been named on men's wear woolen goods during the week, but business has not been heavy. not been heavy.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending Jan. 4 were 2,229 packages, valued at \$133,719, their destination being to the points specified in the table below:

The state of the s	1	908	-10	07-
New York to Jan 4 Great Britain Other European	Week.	Stace Jan. 1. 8 11	Week. 65 2	Since Jun. 1 65 2
China Lindia Arabia Africa West Indies Mexico Central America	119	100 1,143 124 145 1	161 28 426 71 340 650	161 28 426 71 340
South AmericaOther Countries	208 208 2,229	208 2,229	2,327	2,327

The value of these New York exports since Jan, 1 has been \$133,719 in 1908, against \$162,296 in 1907.

STATE AND CITY DEPARTMENT.

MUNICIPAL BOND SALES IN DECEMBER AND THE YEAR 1907.

The total amount of municipal bonds placed during the month of December reached \$7,371,236. These figures are exclusive of \$18,425,142 of temporary loans, \$6,034,700 of Canadian loans, \$294,000 bonds of Hawaii and \$2,000,000 general fund bonds of New York City. The aggregate for December as well as the twelve months for a series of years is shown in the following table:

1905 21,260,174 1904 8,254,593 1904 9,935,785 1903 13,491,797 1902 11,567,812 1901 15 456 938	\$224,187,039 201,743,346 183,080,023 250,754,946 152,281,050 152,846,335	1890 84,981,225 1898 7,806,343 1897 17,855,473 1896 10,664,287 1895 8,545,804 1894 13,486,374	137,984,004 106,496,060 114,021,633 117,176,225
1901 15,456,958 1900 22,160,751	149,498,689 145,733,062	1893 17 306 564	77,421,273

For the year 1907 the total exceeded that for 1906 by over 22 millions, and, with the exception of 1904, the aggregate is the largest ever recorded for any calendar year. Nearly the whole of the increase in 1907, however, is accounted for by the enlarged output of New York City, which issued \$78,722,815 of bonds in 1907, against \$57,052,175 in 1906. This does not include any of the revenue bonds, which, being temporary obligations in the nature of floating debt, we disregard.

The amount of the sales for 1907 is \$224,187,039, as against \$201,743,346 in 1906, \$183,080,023 in 1905, \$250,-754,946 in 1904, \$152,281,050 in 1903, \$152,846,335 in 1902, \$149,498,689 in 1901 and \$145,733,062 in 1900. It should be borne in mind that, for reasons so often explained, we do not incorporate in our compilations temporary loans, nor do we include sales made by places located outside of the United States. Thus we reported during the year \$154,577,327 of temporary loans, \$13,391,912 of Canadian loans, \$1,000,000 of Porto Rico and \$294,000 of Hawaiian loans and \$13,500,000 general fund bonds of New York City, all of which have been excluded. With all of these incorporated the 1907 total would be increased to \$405,818,278.

The following table shows the monthly output in each of the years 1907 and 1906:

January \$1907. \$10,160,146 February \$7,835,720 March 10,620,197 April 19,909,004 May 16,348,336 June 21,390,480 Total	1906 1907	16,391,587 8,980,418 14,819,277 12,511,550
Average per month	\$224,187,039 \$18,689,959	\$201,743,346

In the following table we give a list of December loans to the amount of \$7,371,236 issued by 129 municipalities. In the case of each loan reference is made to the page in the "Chronicle" where an account of the sale is given.

Iberville Parish First Ward School District (P. O. Plaquemine), La.—Intigation.—The following regarding a suit brought to restrain the issuance of the \$30,000 5% school-building bonds awarded on Aug. 16 to W. J. Hayes & Sons of Cleveland (V. 85, p. 616), is taken from the New Orleans "Picayune" of Jan. 3:
Plaquemine, La. Jan. 2.—Suit was filed in the District Court to-day by E. B. Tolbot, Attorney for L. N. False, A. Wilbert Sons' Shingle Co. and the Wiltecastle Lumber & Shingle Co., against the Folice Jury and the School Board of Iberville Parish, enjoining the collection of taxes and issuing of bonds by the First Ward School District. An election was held in April 1907 creating the School District, and was carried by a vote of 63, representing \$259.432 property valuation, against 2 votes, representing \$40.945. A tax of 2 mills was levied by the Police Jury on the property in the district to run for twenty years. The money derived from this tax was to go towards erecting a high-school buildings at Whitecastle and graded school buildings at Samstown, New Camp and Augusta, and remodeling of the Bayou Goula school house have been completed. The ground was purchased and plans accepted for the Whitecastle high-school building.

Kansas.—Extra Session of Legislature.—The Legislature of this State will convene in special session at 4 p. m. on Jan. 16 for the enactment of a guaranty deposit law and a primary election law, also the revision of the tax law. The regular session ended March 13 1907.

election law, also the revision of the tax law. The regular session ended March 13 1907.

New York City.—Reference Made by Mayor to Constitutional Amendment Relating to City's Debt Limit.—Mayor Mc-Clellan, in his annual message to the Board of Aldermen, urges the most careful consideration and fullest discussion before any action is taken regarding the proposed amendment to the Constitution providing for the elimination from the 10% limit of indebtedness of bonds issued representing revenue-producing properties, such as subways and docks, in the same respect as bonds issued for water supply. As already stated in V. 85, p. 1475, the Charter Revision Commission in its report to the Governor on Nov. 30 1907 recommended the exclusion from the computation of the city's debt limit of "all bonds or evidences of indebtedness issued for purposes which produce revenues in excess of their maintenance charges." Governor Hughes, in his message to the Legislature last week, declared himself in favor of this recommendation, and requested that body to take appropriate action. The Mayor in his message refers to a similar recommendation made by an Advisory Commission appointed by him and states that if such an amendment was authorized it "might tempt the city into enterprises which in the end would result in shaking its financial stability, encouraging extravagance and injuring the value of its outstanding securities." The suggestion is also made by the Mayor that "the Charter should be so amended that the Commissioners of the Sinking Fund might in their discretion issue corporate stock, redeemable at the option of the city after a brief period of from one to five years, and payable in any event in ten to fifty years." The following figures concerning the city's finances were also given in the message:

North Carolina.—Döhation of Repudiated Bonds Declined by New York State.—Governor Hughes has declined to accept a donation of repudiated bonds of North Carolina offered by a committee of bondholders for the purpose of bringing suit against that State to recover on \$11,000,000 of the securities which they now hold. The Governor, in declining to accept the bonds, tells the committee that, under the Federal Constitution, North Carolina is notsubject, without its own consent, to suit by another State acting in behalf of individual citizens and that the Governor does not believe that the State of New York should take title to the bonds to begin the suit. The Governor's reply to the bondholders committee is as follows:

Governor Hughes directs me to acknowledge receipt of your letter of the 18th Instant and of your earlier communications, and to say:

Under the Constitution of the United States the State of North Carolina is not subject, without its consent, to suit by citizens of North Carolina is not subject, without its consent, to suit by citizens of North Carolina is not subject, without its consent, to suit by citizens of North Carolina is not subject, without its consent, to suit by citizens of North Carolina is not subject, without its consent, to suit by citizens of North Carolina is not subject, without its consent, to suit by citizens of North Carolina, but as the holder of the henent of its citizens to whom the former State may be indebted. Suit can properly be brought by the State of New York acting for the henent of its citizens to whom the forwernor proper that such a title should be asserted, and that by virtue thereof suit should be brought in the name of the State of New York, when is intended to cover the claims of individual bondholders, or to force settlement with them.

And, assuming that the proceeding is exclusively for the benefit of the State of New York, the Governor does not believe it to be a w

In V. 85, p. 1657, we referred to the refusal of Governor Glenn of North Carolina to recognize the bonds, when Edward L. Andrews, representing the New York holders of the bonds, threatened to donate \$3,000,000 of the securities to another State or to a foreign Government to bring suit against the State.

State.

After receipt of the above letter, the attorneys for the committee insisted that New York Statutes made it mandatory upon State authorities to accept the donation and prosecute claims of this nature. Governor Hughes in answer to this contention makes the statement that as "the whole purport of the statute is for the prosecution of claims against another State by the State of New York, the Governor rests the exercise of his discretion over the details upon a negation of the whole object of the law." The communication ended with the official statement that "the Governor does not deem it proper for him to exercise his discretion in the acceptance of gifts of claims in order that they may be prosecuted against another State."

Special Session of Legislature.—The Governor has issued a call for a special session of the General Assembly. It is stated that the session will begin Jan. 21 for the purpose of enacting legislation to change, modify, straighten or repeal the railroad passenger rate of 2½ cents a mile passed at the regular session of the Legislature and also the law concerning unjust discrimination in freight rates.

Ontario.—Power By-Laws Voled.—The Toronto "Globe"

unjust discrimination in freight rates.

Ontario.—Power By-Laws Voted.—The Toronto "Globe" of Jan. 7 states that the "Power By-laws submitted throughout western Ontario yesterday, to enable the various municipalities to participate in the project of the Hydro-Electric Commission for the distribution of Niegara power in the region between the Falls and points as far west and northwest as St. Thomas and Stratford, were, generally speaking, carried by large majorities. In some cases, as in St. Thomas and Guelph, where the public ownership movement is particularly strong, the majorities were overwhelming, and in only one industrial center, Ingersoll, was the by-law defeated. There a proposal to spend \$50,000 on the purchase of the Ingersoll Light Co.'s plant was beaten by a vote of 436 to 200." The vote was as follows:

Bond Proposals and Negotiations this week have been as follows:

Adrian School District (P. O. Adrian), Lenawee County, Mich.—Price Paid for Bonds.—The Secretary of the Board of Education writes us that the price paid for the \$60,000 4% school bonds recently awarded to local investors (V. 86, p. 62) was par. Denominations: \$100 and \$500. Interest Jan. 1 and July 1. Maturity \$6,000 yearly from 1914 to 1923 inclusive. p. 62) was par Jan. 1 and Ju 1923 inclusive.

Albany, Dougherty County, Ga.—Bids Rejected.—All bids received for the five issues of 5% gold coupon improvement bonds aggregating \$75,000 offered on Jan. 6 were rejected. See V. 85, p. 1535, for a description of these securities.

Ashland, Boyd County, Ky.—Bond Sale.—This city on Dec. 24 1907 awarded \$7,500 6% street-improvement bonds to Jno. Bradly of Nashville, Tenn., at par and accrued interest. Denomination \$500. Date May 1906. Interest annual. Maturity ten years, subject to call in four and

Revenue bonds

Barnstable County (P. O. Barnstable), Mass.—Notes Not Sold.—No bids were received on Jan. 1 for \$18,000 Bass River bridge notes offered on that day.

Bay City, Matagorda County, Tex.—Bond Sale.—An issue of \$8,000 5% water-works bonds was recently awarded to the State School Fund at par and accrued interest. Maturity Oct. 1 1947, subject to call after ten years.

Bayonne, N. J.—Award Postponed.—The City Council on Jan. 7 referred to the Mayor, Comptroller and Finance Committee the bids received for the three issues of 5% gold bonds, aggregating \$434,000, described in V. 86, p. 62. Interest semi-annually at the Bayonne Trust Co. of Bayonne.

Beaufort County (P. O. Washington), N. C.—Bond Sale.—
On Jan. 6 the \$50,000 5% 30-year gold coupon or registered bridge-construction bonds described in V. 85, p. 1535, were awarded to A. J. Hood & Co. of Detroit at 100.05. A bid of \$47,500 was also received from Emery, Anderson & Co. of Cleveland, while MacDonald, McCoy & Co. of Chicago bid par for 5½s.

Bellevue, Huron County, Ohio.—Bond Election.—Local reports state that the Borough Council on Dec. 10 passed an ordinance providing for an election to submit to the voters the question of issuing \$100,000 bonds to build a borough hall, pave and curb streets and construct sewers in Fairview District.

Belleville School District (P. O. Newark), Essex County, N. J.—Bonds Dejeated.—The result of an election held Dec. 20 to vote on the question of issuing \$5,000 bonds to condemn land for a school site and \$38,400 bonds to erect a school thereon and to purchase a plot for school purposes, was 47 "for" to 52 "against."

Beloit, Mitchell County, Kan.—Bonds Voted.—Propositions to issue \$18,000 water-works-purchase bonds, \$15,500 water-works-extension bonds and \$16,500 electric-lightplant-purchase bonds carried at an election held Dec. 17 1907.

plant-purchase bonds carried at an election held Dec. 17 1907.

Berne, Albany County, N. Y.—Description of Bonds.—We are informed that the \$10,000 bonds recently authorized by the Board of County Supervisors to pay for the construction and improvement of Beaver Dam Road No. 192 and Delaware Turnpike, Section 4, No. 198 (V. 85, p. 1658), are coupon in form, carry 5% interest, and are dated Feb. 1 1908. A proposition to issue these bonds carried at the election held Dec. 14 1907. They are also authorized by Chapter 115, Laws of 1898. Securities are in denomination of \$1,000 each. Interest is payable annually at the office of Wallace A. Peasley, Town Supervisor. Maturity \$1,000 yearly on Feb. 1 from 1912 to 1921 inclusive.

Bethlehem, Albany County, N.5Y.—Description of Bonds.

yearly on Feb. 1 from 1912 to 1921 inclusive.

Bathlehem, Albany County, N. X.—Description of Bonds.
—Official circular states that the \$21,000 5% coupon bonds authorized at a meeting of the Board of County Supervisors held Dec. 17 1907, to pay for the construction and improvement of River Road No. 193; Delaware Turnpike, Section 3, No. 178, and Glemmont-Feura Bush Road No. 367 (V. 85, p. 1658), are in denomination of \$1,000 each and are dated Feb. 1 1908. These securities are part of an issue of \$25,000 authorized at an election held Dec. 14 1907; also by Chapter 115, Laws of 1898. Interest annually at the Town Supervisors' office. Maturity \$3,000 yearly on Feb. 1 from 1909 to 1915 inclusive. to 1915 inclusive.

Bradford School District (P. O. Bradford), Ohio.—Bonds Not Sold.—On Jan. 6 no offers were received for the \$40,000 4% coupon school-house bonds described in V. 85, p. 1599.

Caledonia, Houston County, Minn.—Bonds Proposed.—
This village has made application to the State of Minnesota for a loan of \$6,000 at 4% interest for the extension of the light plant. Denomination \$1,000. Interest annually in June. Maturity from July 1 1917 to July 1 1922.

Cambridge, Guernsey County, Ohio.—Bond Offering.—Proposals will be received until 12 m. Feb. 3 by S. R. Heade, City Auditor, for the following sanitary-sewer-construction assessment bonds:

assessment bonds:

assessment bonds:

\$1,100 00 4½% Foster Avenue bonds. Denomination \$110.

The above debentures are dated Feb. 1 1908. Interest annually at the Bank of Montreal in London, Eng., New York, Montreal, Toronto or Regina. As reported by us in V. 85, p. 1538, these securities were offered without success as 414s on Sept. 3.

Rensselaerville, Albany County, N. Y.—Description of Bonds.—We are informed that the issue of \$3,100 bonds authorized on Dec. 17 1907 by the Board of County Supervisors to pay for the cost of constructiong and improving the Delaware Turnpike, Section 5, No. 199 (V. 85, p. 1661), is coupon in form and carries 4% interest. These bonds are issued under authority of Chapter 155, Laws of 1898; also election held Dec. 14 1907. Denomination \$500, except one bond of \$600. Date Feb. 1 1908. Interest annually at the Town Supervisor's office. Maturity on Feb. 1 as follows: \$500 in each of the years 1912, 1913, 1914, 1915 and 1916 and \$600 in 1917.

Richland County (P. O. Wahpeton), N. D.—Bonds Not Yet

Richland County (P. O. Wahpeton), N. D.—Bonds Not Yet Sold.—Up to Jan. 4 no sale had yet been made of the \$84,500 7% coupon drainage bonds bids for which were rejected on Nov. 12 1907. See V. S5, p. 1418.

Rochester, Beaver County, Pa.—Bonds Not Yet Sold.— The \$35,000 4½% bonds offered on Nov. 1 1907 were not disposed of up to Dec. 31 1907, according to the Borough

Rocky Hill School District (P. O. Rocky Hill), Somerset County, N. J.—Bonds Not Sold—Bond, Offering.—Up to Jan. 8 no disposition had yet been made of the \$8,500 4½% registered school-building bonds described in V. 85, p. 1661. Theodore F. Stryker, District Clerk, informs us, however, that proposals for these securities will be received at any time.

Rome, Oneida County, N. Y.—Bonds Authorized.—It is stated locally that the Common Council on Jan. 7 adopted a resolution providing for the issuance of \$100,000 4% 20-year Fish Creek water-system-construction bonds. Denominations: \$100, \$500 and \$1,000. Interest semi-annually.

Saginaw, Mich.—Bond Sale.—It is stated in local papers that on Jan. 2 a local investor purchased \$6,000 refunding court-house bonds.

St. Louis, Mo.—Bonds Awarded in Part.—Under date of Jan. 3 the City Comptroller advises us that \$7,000 more of the \$2,000,000 3.65% 20-year gold coupon renewal bonds offered on June 11 1907 had been disposed of at par and accrued interest. This makes a total of \$850,000 already sold. Of this amount, \$846,000 were disposed of during 1907. Securities are dated June 25 1907. Sec V. 85, p. 1355.

St. Mary's, Auglaize County, Ohio.—Bond Sale.—On Dec. 27 1907 the \$25,000 5% 10-year sewerage-disposal-plant-construction bonds dated Dec. 1 1907 and described in V. 85, p. 1538, were awarded to the Provident Savings Bank & Trust Co. of Cincinnati at 101.22—a basis of about 4.845%.

The following bids were received:

Sandusky, Ohio.—Bond Offering.—Proposals will be received until 12 m. Feb. 3 by Joseph Loth Jr., City Auditor, for \$2,000 4% Sulphur Springs Ditch improvement bonds, Denomination \$500. Date Jan. 2 1908. Interest semi-annually at the office of the City Treasurer. Maturity Jan. 2
1917. Certified check for \$1,000 is required. Purchaser to pay accrued interest.

Santa Monics, School District. (P. O. Santa Monics), Los.

Santa Monica School District (P. O. Santa Monica), Los Angeles County, Cal.—Bond Election Proposed.—Reports state that the Board of Education purposes to hold an election to submit to the voters the question of issuing \$20,000 bonds to replace the burned Washington school house with a brick structure brick structure.

Seattle, Wash.—Bond Sals.—In local papers it is reported that the State of Washington recently purchased \$140,000 lighting bonds of this city. The money was paid to the city out of the State School Land Funds.

Seattle School District No. 1 (P. O. Seattle), King County, Wash.—Description of Bonds.—At a meeting of the School Board Jan. 3 Reuben W. Jones, Sceretary, was directed to notify the County Treasurer to advertise for bids for the \$500,000 20-year coupon school-building and site-purchase bonds voted Dec. 7. See V. S5, p. 1602. Denomination \$1,000. Date May 1 1908. Interest, at a rate not to exceed 6%, payable semi-annually. payable semi-annually.

Sevier County (P. O. Sevierville), Tenn.—Bonds Authorized.—Local papers report that on Dec. 21 1907 the County Court authorized the issuance of \$150,000 bonds to aid in the construction of the Knoxville Sevierville & Eastern RR. These bonds were voted at an election held recently. See V. 85, p. 1165.

Spirit Lake, Dickinson County, Iowa.—No Action Yet Taken.—Under date of Dec. 28 we are advised that owing to the monetary conditions the town authorities have as yet taken no action regarding the issuance of the \$22,000 water and light bonds voted at the election held Nov. 4 1907 (V. 85, p. 1356) and will probably not do so until some time next spring.

Stamford School District (P. O. Stamford), Jones County, Tex.—Bond Election.—According to reports, an election will be held Jan. 28 to vote on the question of issuing \$10,000 20-year additional public-school-building bonds.

Struthers, Mahoning County, Ohio.—Bids.—The following bids were received on Dec. 30 1907 for the \$5,000 6% 1-10-year (serial) street-improvement bonds awarded on that day, as stated in V. 86, p. 65, to the Struthers Savings & Banking Co. of Struthers at 103,26 and accrued interest—a basis of about 5,309%:

Struthers Savs. & Banking Otts & Hough, Cleveland \$5,101 00 Co., Struthers. - a\$5,163 00 First National Bank, Barnes-Provident Savs. Bk. & Tr. Co., Cincinnati. - 5,163 50

a and accrued interest.

Bonds are dated Nov. 15 1907.

Bonds are dated Nov. 15 1807.

Tarentum, Allegheny County, Pa.—Bond Offering.—
Further details are at hand relative to the offering on Jan. 25 of the \$7,500 414% coupon garbage-incinerator bonds mentioned in V. 85, p. 1662. Proposals for these bonds will be received until 4 p. m. on that day by W. A. Gibson, Borough Secretary. Denomination \$500. Date Dec. 1 1907. Interest semi-annually at the Tarentum Savings & Trust Co.

Maturity Dec. 1 1932. Bonds are exempt from taxation. Certified check for \$500, payable to A. J. Fulton, is required. Taunton, Mass.—Temporary Loan.—During the year 1907 this city borrowed \$11,500 in small amounts for various pur-

Teague, Freestone County, Tex.—Bonds Voted.—The election held Jan. 2 to vote on the question of issuing the \$50,000 municipal water-works-system bonds mentioned in V. 85, p. 1356, resulted in 2 votes being cast against the proposition while 74 were in its favor.

Teague Independent School District (P. O. Teague), Freestone County, Tex.—Bond Offering.—D. D. Peevy, Secretary, is offering at par and accrued interest the \$15,000 5% school-house bonds registered by the State Comptroller on Nov. 27. Securities are dated July 1 1907 and mature July 1 1947, but are subject to call after ten years.

July 1 1947, but are subject to call after ten years.

Toledo, Ohio.—Bonds Authorized.—On Dec. 30 1907 the City Council passed an ordinance providing for the issuance of \$50,000 of \$150,000 4½% coupon boulevard-extension bonds voted on Nov. 5 1907. Denomination \$1,000. Date Dec. 30 1907. Interest semi-annually at the United States Mortgage & Trust Co. in New York City. Maturity Dec. 20 1907.

In addition to the above, the City Council on Dec. 23 1907 also passed ordinances providing for the issuance of the fol-

lowing bonds:

lowing bonds:
