REVIEW OF JANUARY.

There was a very decided and very general improvement in the financial outlook. In other directions, however, there were some unfavorable developments, and these were important as showing that the country still has to contend with the influences which were chiefly responsible for the disastrous breakdown in credit and in security values during 1907. In this of course we have reference to hostile governmental action of various kinds directed against corporations and against capital accumulations. On the very first business day of the year (Jan. 2) there came two reminders of that fact. Governor Hughes in his message to the Legislature, instead of recognizing that the Public Service Commission Law was proving detrimental, argued in favor of further extending the functions of that body so as to bring telegraph and telephone companies under its supervision. From Washington news came that the Federal authorities had determined to begin proceedings against the Union Pacific or Harriman combination of roads under the Sherman anti-trust law, more particularly with the view to depriving the Union Pacific of its control of the Southern Pacific and the San Pedro Los Angeles & Salt Lake RR. On Saturday Jan. 25 Attorney-General Bonaparte made official announcement that a bill of equity would be filed by the Government to set aside control of the two properties mentioned, and also to have declared illegal the ownership by the Union Pacific of the stock held by it in the Atchison, the Great Northern and the Northern Pacific railways. The stockholdings in Illinois Central, New York Central, Baltimore & Ohio, Milwaukee & St. Paul, &c., were not attacked. On the very last day of the month came President Roosevelt's extraordinary special message to Congress, which had been heralded a day in advance by Thomas W. Lawson, the Boston stock speculator, in very conspicuous display advertisements in the newspapers, the general character of the message being accurately foreshadowed.

There were also, however, some favorable developments bearing on the legislative and governmental crusade against railroads and other corporations. On Jan. 6 the U. S. Supreme Court declared unconstitutional the Act of Congress approved June 11 1906 known as the Employers' Liability Act, and which undertook to make railroads responsible in damages to their employees for injuries resulting from the employees' own carelessness or that of fellow employees. The Act was declared illegal because it failed to distinguish between traffic among the States and traffic

within the State. On Jan. 27 there came another decision by the Supreme Court declaring unconstitutional Section 10 of what is known as the Erdmann law, approved June 1 1898, and which sought to prevent inter-State carriers from refusing to employ members of labor unions. Still another highly important decision was rendered by the U. S. Supreme Court—though this did not come until after the close of the month, namely Feb. 3—in which the Court awarded damages against a labor organization which had been engaged in a boycott against a firm of hat manufacturers, the Court declaring that such action was an unlawful restraint of commerce under the provisions of the Sherman anti-trust law of 1890. It should also be noted that in a case brought by the Pennsylvania RR., the Pennsylvania 2-cent fare law was declared unconstitutional, and that at Kansas City Judge Smith McPherson on Jan. 20 declared void the Missouri statute of 1907 forbidding corporations organized in other States from transferring suits from the State courts to the Federal courts.

In monetary and financial affairs there was an almost complete return to normal conditions. The premium which had been paid for cash money or currency disappeared with the close of the old year, Clearing House certificates in this city and throughout the country were rapidly reduced or retired, money rates dropped to low figures, discounts abroad, both official and unofficial, were sharply reduced, and the deficit in reserves of the New York City Clearing House banks was converted into a large surplus. In a word, all traces of the disturbance and distrust regarding monetary affairs which had prevailed in 1907 in Europe and in the United States completely disappeared. As an aftermath of the panic, however, quite a number of additional bank failures were recorded in this city the latter part of the month.

These bank failures arose out of the effort of the New York City Clearing House to compel the retirement of the few millions of Clearing House certificates still outstanding, with a view to the resumption on Feb. 8 of the publication of the detailed bank statement showing the separate condition of each bank. This action directed attention anew to the banks which had been aided by the Clearing House the previous October and November, and induced large further withdrawals of deposits from such institutions, already in a weakened condition. The National Bank of North America was the first to feel the strain, and on Sunday Jan. 26, it appearing very likely that the bank the next day would be subjected to a serious run, which it would be impossible to meet without further aid from the Clearing House, the officials called upon the Comptroller of the Currency to take charge of the bank's affairs. This suspension caused renewed uneasiness on the part of depositors in the other Clearing House banks still holding loans on Clearing House certificates, and though on Tuesday, Jan. 28, the Clearing House decided to allow the banks more time in which to cancel these certificates, such banks were forced, one after another, owing to the large withdrawals of deposits, to succumb. The New Amsterdam National Bank closed Jan. 29, the Mechanics' & Traders' (which had a few months previously taken over a Brooklyn bank and had many branches in the Borough of Brooklyn), Jan. 30, and the Oriental Bank on Jan. 31.

In the stock market there was a very decided revival of activity and a large and general advance in prices. This was due, in the main, to the development of easier monetary conditions and a restoration of confidence in financial circles in this country and as Europe. Bonds shared in the improvement as well in stocks, and the floating of some large new issues—notably the \$30,000,000 equipment trusts of the New York Central and subsidiary lines—tended to impart additional strength and tone to the market. Returns of railroad earnings made in most cases exceedingly unfavorable comparisons with the preceding year, and reports from all parts of the country spoke of enormous numbers of cars and locomotives being idle, owing to

the great falling off in traffic; but these were in large measure ignored in the belief that a revival of business activity would come in the near future. The placing of two railroads in the hands of receivers was also an unfavorable feature; one was in the South, namely the Seaboard Air Line, and another in the West, the Chicago Great Western. Stock values nevertheless remained strong, with more or less irregularity, however.

Good 4 to 6 months.....		7½	6½-7	6-6½	6-6½

The foreign exchange market developed great strength and rates for sterling sharply and almost continuously advanced. All the European banks reduced their official rates of discount—the Bank of England on Jan. 2 from 7 to 6%, on Jan. 16 to 5% and on Jan. 23 to 4%. The Bank of Germany Jan. 13 reduced from 7½ to 6½% and on Jan. 25 to 6%. The Bank of France on Jan. 9 reduced from 4 to 3½% and later to 3%. Gold engagements for the United States of course completely ceased, and this was one reason for the removal of all anxiety at the European monetary centres. The latter part of the month, with the rise in exchange rates, there was talk of possible gold exports from New York. Sterling bills Jan. 31 were quoted at near the highest figures of the month.

NEW YORK STOCK EXCHANGE

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1907. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

For foot notes to tables see last page of Bonds and last page of stocks.

GENERAL QUOTATIONS

OF BONDS AND STOCKS.

1. In the following thirty pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.
2. Quotations from all Stock Exchanges are as near as possible for the closing day of the month preceding the date of issue. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.
3. Bond prices marked (a) indicate that the purchaser must pay accrued interest in addition to the price given. The method of quoting on the New York Stock Exchange is to quote the price flat (that is, to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.
4. Stock prices marked thus (d) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.
5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.
6. The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "g'd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "s f" for sinking fund, "l g" for land grant, "op" for optional.
7. The black-faced type in the letters showing the interest period indicates the month when the bonds mature.

STREET AND ELECTRIC RAILWAYS

In response to the request of many subscribers, we have changed the order of arrangement of the Street and Electric Railway Securities contained in the following lists. The previous practice was to group them by cities. This was a satisfactory and logical arrangement so long as the railways remained distinctly local enterprises and confined to the limits of a single city. But with the introduction of electricity as motive power most of the local systems have by degrees been transformed into interurban roads, some of them covering wide stretches of territory and connecting numerous cities and towns. In such cases the reader might look under several places before finding the one under which the road was given. To obviate this difficulty, we have recast the entire list and arranged the roads all in alphabetical order according to the names. Where the title is that of a street (like Third Avenue RR.), the securities will still be found grouped together in most cases, it being possible to do this because the controlling company usually bears the name of the city where it is located. Thus the New York City lines will be found under the New York City Railway, the Philadelphia lines under the Philadelphia Rapid Transit, &c. Cross references will assist the reader in finding any particular security.

Prices marked thus (a) indicate that the purchaser has to pay accrued interest in addition to the price given. Prices not marked are flat prices—that is, the purchaser does not pay accrued interest in addition.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is, where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (*).

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

Table with columns: Bonds, Bid., Ask., To Net., Bonds, Bid., Ask., To Net., Bonds, Bid., Ask., To Net. The table lists various municipal bonds from Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Foreign Governments, Foreign Cities, Georgia, Idaho, Illinois, and others, including details like maturity dates and interest rates.

* Flat price. b Basis. c On basis of \$5 to the £. d On the basis of 4 marks to the dollar. n Nominal. s Sale price.

BANKS AND TRUST COMPANIES.

Quotations in this department are given per share, not per cent, except for stocks of New York City, Brooklyn and Canadian institutions, and are as near as possible for the closing day of the month preceding the date of issue, though often are nominal. An asterisk (*) denotes sales. The letter (h) prefixed to a price indicates that the figures show the book value.

Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the clearing-house banks of New York, Philadelphia and Boston, deposits are taken from the latest weekly statement.
