### REVIEW OF FEBRUARY.

The one conspicuously bright spot in the situation during February was the success of New York City's offering of \$50,000,000 4½ per cents on Feb. 14. As against this, however, the political happenings and developments were markedly unfavorable and these tended to neutralize the good effects of the bond sale. The month opened under the disturbing influence of the special message sent to Congress by the President on Jan. 31. This was followed by other depressing occurrences coming after each other in quick succession and lasting all through the month. William J. Bryan, the most prominent Democratic candidate for the Presidential nomination, followed in the footsteps of Mr. Roosevelt, delivering a number of addresses in which he made attacks of his own on the railroads, on men of wealth and on Wall Street. Secretary of War Taft, Governor Hughes and Senator Knox of Pennsylvania, the candidates whose names are most generally mentioned in connection with the Republican nomination, also distinguished themselves for acts and utterances that could not be looked upon as conservative.

Secretary Taft in a speech on Feb. 10 referred to the President's special message as a "bugle call" to renewed support of the policies of the Administration, and in another speech delivered Feb. 13 declared that "We have not quite enough regulation of railways. Other powers ought to be conferred upon the Inter-State Commerce Commission." He also advocated a new anti-trust law made "more specific, to bring all within its provisions." Senator Knox in an address Feb. 11 lauded the Administration at Washington and in particular expressed approval of the Hepburn Rate Law, saying that it provides a sound system of railroad regulation. He insisted, furthermore, that the law must be rigorously enforced, using the words "We must not forget that the efficiency of all law lies in the efficacy and persistence of its enforcement." Governor Hughes on his part again urged the removal of the State Superintendent of Insurance on very unsubstantial grounds—an attempt in which he was later in the month defeated by the Senate the same as in the previous year—and he also granted the request of Attorney-General Jackson that District Attorney Jerome be superseded in the conduct of the so-called ice trust cases, and that he, Jackson, be delegated to conduct the prosecution himself and infuse new vigor into it.

Perhaps the most depressing incident of all was the letter which Mr. Roosevelt sent to the Inter-State

Commerce Commission on Feb. 18 with reference to the reductions in the force of railroad employees and possible or proposed reductions in wages. In this letter the Commission was directed to make inquiry into the subject with a view to determining if there was any real cause for such reductions, and the intimation was thrown out that the difficulties the carriers were experiencing may have been "caused by misconduct in the past financial or other operations" of the companies. All the time railroad traffic was running far behind and earnings were showing frightful losses. Feb. 15 it developed that the United States Government in its suit under the Sherman Anti-Trust Law against the Union Pacific Railroad Co. to deprive it of control of the Southern Pacific had asked that the Union Pacific be enjoined from receiving dividends on the Southern Pacific shares held by it. This last would deprive the Union Pacific of aggregate income of \$7,822,000 per annum. About the same time it was also announced that the Inter-State Commerce Commission had placed information in the hands of United States District Attorneys throughout the country tending to show violations of the Inter-State Commerce Act in the granting of rebates by the Southern Pacific Co., and that orders had been issued to institute proceedings thereon against the company. It was furthermore stated that in prosecuting these actions the Federal Government intended to cooperate with the State authorities in California, who claimed to have under consideration 4,000 alleged illegal transactions on the part of the company. If found guilty of all of these combined charges, it was figured, fines might be levied aggregating \$80,000,000. It was also reported that Mr. Roosevelt was showing renewed interest in having a physical valuation of the railroads and that Senator LaFollette intended offering an amendment to the Aldrich Emergency Currency Bill so as to incorporate therein the provisions of his bill on the physical valuation of railroads.

The developments in some of the States were of like unfavorable character, though with occasional exceptions to the rule. Thus, the North Carolina Legislature enacted the 2½ cent Passenger Fare Bill, which was a modification of the 2¼ cent rate of the previous year. The Kansas Legislature, which had been convened in special session Jan. 6, adjourned Feb. 4 without enacting either the Two Cent Fare Bill recommended by the Governor or the law for the Guaranty of Bank Deposits. On the other hand, the Kansas State Board of Railroad Commissioners on Feb. 14 ordered Kansas railroads to put into effect April 1 a new schedule of freight rates, involving a reduction in various articles averaging, it was said, 15 to 20%. Some additional roads were placed in the hands of receivers, the International & Great Northern being one among these. The management gave as one of the reasons for the default in interest which led up to the receivership the fact that the company had been called upon by the Texas Railroad Commission to make additions and improvements involving expenditures of several million dollars. It also appeared that the Texas & Pacific Railroad, another Gould property, had been ordered to make improvements which would necessitate outlays of about two million dollars.

As regards the course of trade and business, the news was rather mixed. In the iron and steel industry, limited resumption of work took place, marking some reaction from the extreme depression reached in December. On the other hand, some of the equipment companies were obliged further to reduce their working forces—one instance in particular being the Baldwin Locomotive Works—owing to the absence of new orders. In the cotton goods trade, and in fact in the dry goods trade generally, wholesale reductions in prices were made without stimulating purchases to any great extent, and the New England mills decided to continue for an indefinite period the curtailment in production begun two months before. In copper a further drop in price to 12½ cents occurred, and advices from Butte the early part of the month stated that labor conditions (owing to the suspension of copper mining)

had become so bad that soup kitchens had been started at that point by the Salvation Army and Senator William A. Clark to feed the large masses of unemployed. Fortunately, the low price induced enormous exports of the metal (though no improvement whatever occurred in the domestic demand for copper), and at the very close of the month the welcome announcement was received that the Amalgamated Copper Co. would resume work in the Butte district Monday, March 2.

Influenced by the depressing circumstances narrated above, the stock market very naturally was weak the greater portion of the month. The early part the tendency was almost constantly towards a lower level. The latter part of the month the course of prices was irregular, with transactions on an exceedingly small scale.

VOLUME OF BUSINESS ON THE STOCK EXCHANGE				
Month of February—	1908.	1907.	1906.	1905.
Stock sales—				
Number of shares—	9,839,706	16,470,972	21,699,800	25,239,088

In the money market ease prevailed the entire month, though rates for time loans were at one time fractionally firmer, owing to some discrimination of banks and other lenders against the collateral offered. Feb. 27 the Secretary of the Treasury called on the banks for the return of 25%, or about \$35,000,000, of their Government deposits.

# NEW YORK STOCK EXCHANGE

## MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1908. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "Price about January 2 1908" were made on that date, except those in italics, which are the nearest in January 1908. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

**For foot notes to tables see last page of Bonds and last page of stocks.**

# GENERAL QUOTATIONS

OF  
BONDS AND STOCKS.

1. In the following thirty pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.

2. Quotations from all Stock Exchanges are as near as possible for the closing day of the month preceding the date of issue. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

3. Bond prices marked (a) indicate that the purchaser must pay accrued interest in addition to the price given. The method of quoting on the New York Stock Exchange is to quote the price flat (that is, to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.

4. Stock prices marked thus (d) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "g'd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "s f" for sinking fund, "l g" for land grant, "op" for optional.

7. The black-faced type in the letters showing the interest period indicates the month when the bonds mature.

# STREET AND ELECTRIC RAILWAYS

In response to the request of many subscribers, we have changed the order of arrangement of the Street and Electric Railway Securities contained in the following lists. The previous practice was to group them by cities. This was a satisfactory and logical arrangement so long as the railways remained distinctly local enterprises and confined to the limits of a single city. But with the introduction of electricity as motive power most of the local systems have by degrees been transformed into interurban roads, some of them covering wide stretches of territory and connecting numerous cities and towns. In such cases the reader might look under several places before finding the one under which the road was given. To obviate this difficulty, we have recast the entire list and arranged the roads all in alphabetical order according to the names. Where the title is that of a street (like Third Avenue RR.), the securities will still be found grouped together in most cases, it being possible to do this because the controlling company usually bears the name of the city where it is located. Thus the New York City lines will be found under the New York City Railway, the Philadelphia lines under the Philadelphia Rapid Transit, &c. Cross references will assist the reader in finding any particular security.

Prices marked thus (a) indicate that the purchaser has to pay accrued interest in addition to the price given. Prices not marked are flat prices—that is, the purchaser does not pay accrued interest in addition.

# STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is, where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark thus (\*).

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

# BANKS AND TRUST COMPANIES.

Quotations in this department are given per share, not per cent, except for stocks of New York City, Brooklyn and Canadian institutions, and are as near as possible for the *closing day of the month preceding the date of issue*, though often are nominal. An asterisk (\*) denotes sales. The letter (h) prefixed to a price indicates that the figures show the book value.

Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing-House banks of New York, Philadelphia and Boston, deposits are taken from the latest weekly statement.

ALABAMA—Nat. banks last call Feb. 14; State institutions latest returns.
