FRONT, PINE AND DEPEYSTER STS., NEW YORK

REVIEW OF AUGUST.

The tone and outlook continued to improve during August. In this we have reference not only to the further advance in security values on the Stock Exchange, but also to the greater confidence felt regarding the likelihood of an early revival of activity in trade. The political happenings had little influence one way or the other. On August 12 Mr. William J. Bryan was officially notified at Lincoln, Neb., of his nomination by the Democratic Party as candidate for President of the United States, and in formally accepting the nomination made an address dealing with the political issues of the day in a way that was anything but assuring from a conservative standpoint. But as, owing to Mr. Bryan's past record, nothing else had been expected, the effect of the speech as a market or a trade influence was nil. Similarly, the formal tender of the Vice-Presidential nomination to James S. Sherman by the Republicans and to John W. Kern by the Democrats was without influence, as both candidates expressed themselves in entire accord with the policies and platforms of their respective parties.

In trade the favorable indications were the reduced ratios of decrease shown in the returns of railroad gross earnings for current weeks (though these weekly figures cover only a small portion of the railroad mileage of the country) and the diminution in the number of idle cars reported by the railroads. The fortnightly bulletin of the American Railway Association for August 5 showed only 281,621 idle cars and that for August 19 but 253,003, as against 308,680 on July 22. When at its maximum on April 29, the number of idle cars was 413,605. That trade developments, however, were not all favorable was evident from the fact that on August 8 receivers were appointed for the Pillsbury-Washburn Flour Mills Co. Ltd. by the Federal Court at Minneapolis.

In the cotton goods trade no great improvement in the situation occurred. Severe curtailment of production continued to be practiced, particularly in the South. Several large sales of goods at auction were made during the month and while these in some instances were at better figures than expected, yet the level of prices was very low, and it was a common complaint that goods were selling below the cost of production. As the month progressed a further unsettling feature was introduced in the break in the price of the raw material—cotton. The decline was particularly heavy in the October option, in

which Jesse L. Livermore, a young speculative operator, had engaged in an upward movement, with disastrous results. Early in the month this option was advanced fully half a cent, it selling August 7 at 9.85 cents. Subsequently, however, a severe slump occurred and by August 21 the price was down to 8.51 cents; and with the outlook for the growing crop favorable and large receipts at the ports, and with the cotton goods trade depressed both in this country and in Europe, there was little recovery thereafter, while on August 31 there was a drop to 8.43 with the close, however, 8.55 cents. Middling uplands spot cotton at New York advanced from 10.60 cents August 1 to 10.85 cents August 6 and closed at 9.50 cents August 31.

There was fear at one time of possible friction between the mill operatives at Fall River and the manufacturers, but after a number of conferences a new agreement was reached differing only slightly from the previous agreement. The sliding scale for wages was retained, but mill-owners accepted the proposition of the unions, as represented by the Textile Council, that in the future wages shall rise or fall with a variation of 2½ points in the margin between the price of a cut of standard cotton cloth and its equivalent in weight of raw cotton. Previously wages changed on a variation of five points where the margin between cloth and cotton ranged between 75 points and 95 points and on a variation of 10 points where the margin ran from 95 to 115 points. The standard of wages will continue to be fixed only every six months, beginning the last Monday of May and November of each year. Print cloths at Fall River were reduced August 24 from 3¼ to 3⅛ cents and August 25 to 3 cents. Depression was also a feature in the cotton-spinning industry of Great Britain, and after having severely curtailed the output of yarn, the Lancashire Federation of Cotton Spinners on August 19 decided to give notice of a reduction of 5% in wages.

In Georgia and the Carolinas heavy rains, long continued, resulted in extensive floods in a number of sections the latter part of the month, Augusta, Ga., particularly suffering quite severely, the water in some of the streets of the city reaching a depth of four feet and the property loss being estimated at over \$1,000,000. It does not appear, however, that much damage resulted to the growing crop.

In the railroad and financial world the success attending an offering by J. P. Morgan & Co. of \$17,000,000 Transcontinental Short Line 1st mortgage 4% bonds of the Atchison Topeka & Santa Fe Railroad was an important event. The subscription books were closed within fifteen minutes after their opening, the loan having been over subscribed.

The conspicuous feature of the month was, of course, the further advance in prices on the Stock Exchange. This further rise was noteworthy, not only because it followed the long continued advance in previous months, but also because it was itself of exceptional proportions. In the upward movement early in the month the copper mining and industrial shares were particularly distinguished, and American Smelting & Refining common and National Lead common spurted up nearly 20 points; but the best class of railroad properties, like Southern Pacific, Union Pacific, Reading, Illinois Central, &c., also participated in the movement. The rise met with determined opposition from interests having outstanding short contracts for large amounts. Finally, on Saturday August 22 flagrant manipulation of the market was attempted through matched orders, evidently with the purpose of facilitating a covering movement. The Stock Exchange authorities at once began an investigation. The operations of A. O. Brown & Co., of this city, one of the largest stock-brokerage firms in the United States, particularly came in for criticism, and on the following Tuesday (August 25) this house was obliged to announce its suspension, after having made deliveries of only

277,000 shares out of about 750,000 shares supposed to have been sold by it on the previous Saturday. For a few days after the performances of August 22 the market displayed considerable hesitancy; then the upward movement was resumed, and the close of the month found it in full swing again with new high records for the month and year for such stocks as Union Pacific, Southern Pacific, &c.

Foreign exchange was heavy throughout almost the whole month and prices for sterling bills sharply declined. The weakness was in part occasioned by the gradual recall from Europe, through sight sterling and cable transfers, of bankers' balances and credits representing the proceeds of securities negotiated abroad within recent months. It was estimated that an aggregate of \$30,000,000 was available in this way, representing the proceeds of National Railways of Mexico, Pennsylvania Railroad and other securities which had been temporarily loaned out in London, Paris and elsewhere on the Continent.

NEW YORK STOCK EXCHANGE

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1908. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "Price about January 2 1908" were made on that date, except those in italics, which are the nearest in January 1908. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

For foot notes to tables see last page of Bonds and last page of stocks.

GENERAL QUOTATIONS

OF
BONDS AND STOCKS.

1. In the following thirty pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.
2. Quotations from all Stock Exchanges are as near as possible for the closing day of the month preceding the date of issue. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.
3. Bond prices marked (a) indicate that the purchaser must pay accrued interest in addition to the price given. The method of quoting on the New York Stock Exchange is to quote the price flat (that is, to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.
4. Stock prices marked thus (d) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.
5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.
6. The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "g'd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "s f" for sinking fund, "l g" for land grant, "op" for optional.
7. The black-faced type in the letters showing the interest period indicates the month when the bonds mature.

STREET AND ELECTRIC RAILWAYS

In response to the request of many subscribers, we have changed the order of arrangement of the Street and Electric Railway Securities contained in the following lists. The previous practice was to group them by cities. This was a satisfactory and logical arrangement so long as the railways remained distinctly local enterprises and confined to the limits of a single city. But with the introduction of electricity as motive power most of the local systems have by degrees been transformed into interurban roads, some of them covering wide stretches of territory and connecting numerous cities and towns. In such cases the reader might look under several places before finding the one under which the road was given. To obviate this difficulty, we have recast the entire list and arranged the roads all in alphabetical order according to the names. Where the title is that of a street (like Third Avenue R.R.), the securities will still be found grouped together in most cases, it being possible to do this because the controlling company usually bears the name of the city where it is located. Thus the New York City lines will be found under the New York City Railway, the Philadelphia lines under the Philadelphia Rapid Transit, &c. Cross references will assist the reader in finding any particular security.

Prices marked thus (a) indicate that the purchaser has to pay accrued interest in addition to the price given. Prices not marked are flat prices—that is, the purchaser does not pay accrued interest in addition.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is, where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark thus (*).

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

BANKS AND TRUST COMPANIES.

Quotations in this department are given per share, not per cent, except for stocks of New York City, Brooklyn and Canadian institutions, and are as near as possible for the closing day of the month preceding the date of issue, though often are nominal. An asterisk (*) denotes sales. The letter (h) prefixed to a price indicates that the figures show the book value.

Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing-House banks of New York, Philadelphia and Boston, deposits are taken from the latest weekly statement.

ALABAMA—Nat. banks last call July 15; State institutions latest returns.
