REVIEW OF OCTOBER.

The tone in trade and financial affairs steadily improved throughout October. Operations everywhere were conducted on the idea that Mr. Taft's election was a foregone conclusion and that this was distinctly in the interest of the general welfare. The only disturbing development was of foreign origin, namely the sudden upheaval in the Balkan regions of Europe and even here the situation improved by the end of the month.

The troubles in the Balkans came early in the month and were of a decidedly stirring nature. On Monday, Oct. 5, the startling news was received that Bulgaria had declared its independence of Turkey and that Prince Ferdinand had been proclaimed Czar of the Bulgarians. This was quickly followed by the intelligence that Austria had determined upon the annexation of the Provinces of Bosnia and Herzegovina, whose affairs it had been administering under the Berlin Treaty of 1878, but which nominally were Turkish principalities. Shortly afterward it was announced that the Island of Crete, also a Turkish treaty dependency, had declared its independence of Turkey and asked for union with Greece. This surprising and unexpected series of events naturally created a highly serious situation. Not only was there danger of the disruption of the Turkish Empire, but there was a possibility of a general European war. The situation was complicated by the fact that the other Turkish principalities regarded their interests as being jeopardized, in particular Serbia and Montenegro. The Servian Government in a formal proclamation asserted that a grievous blow had been dealt "to the feelings, interests and rights of the Servian people" by the action taken, and Montenegro, in declarations framed by popular meetings, joined in the Servian protest. There were reports not only of violent anti-Austrian demonstrations by the Servian people, but of movements by Servian, Turkish and Bulgarian troops along the Danubian frontier.

The situation was admittedly highly critical, and this was reflected in a decline in the price of English consols and French rentes and a precipitate fall in Turkish, Russian, Servian and Bulgarian securities, while all the European bourses were more or less disturbed. The strenuous efforts exerted, however, on behalf of peace by the English and the French Governments prevented an outbreak of hostilities. The hands of the Turkish Government were in a measure tied by the fact that the revolution carried out the

previous July by the Young Turks had shorn the Sultan of his power, while the new constitutional Government of Turkey had not yet been established and the Turkish Legislature was not to convene until the following month. The attitude of the German Government remained more or less of a mystery throughout and rendered more difficult concerted action on the part of the other leading Powers.

This foreign disturbing influence did not serve in any material degree to interrupt the slow but gradual recovery in business taking place in this country. The fortnightly bulletins of the American Railway Association issued Oct. 10 and Oct. 24 showed further reductions in the idle equipment of the railways, only 115,036 idle cars being reported in the bulletin of Oct. 24 (and which reported the condition Oct. 14), as against 413,605 idle cars on April 29, when the number was at its maximum. The return of the Steel Corporation for the September quarter was made public Oct. 27 and revealed decidedly better earnings than for either of the two preceding quarters and also reported a slightly larger aggregate of unfilled orders for Sept. 30 than for June 30. In the copper trade there was a noteworthy revival of activity, with an appreciation in price, sales being made at close to 14 cents. In the dry goods trade, also, gradual improvement was noted, particularly in the cotton goods division, and print cloths at Fall River moved up from 3 cents to $3\frac{3}{8}$ cents a yard. The raw material, cotton, showed very little net change, middling uplands in this market Oct. 31 being 9.35 cents, against 9.30 cents Sept. 30, though in the meantime the price had been 9 cents Oct. 9 and 9.45 cents Oct. 28. The liberal movement of cotton to market and the great increase in the amount of cotton reported as ginned militated against a more marked rise.

The Bulgarian situation caused a renewed advance in wheat, and the December option at Chicago October 12 got up again to $\$1\ 02\frac{1}{4}$; as the prospect of war diminished the price eased off and October 20 was only $97\frac{3}{4}$ cents, but the latter part of the month, on reports of serious damage to the Argentine wheat crop by frost, the price stiffened once more, the close October 31 being at $\$1$. Oats and corn, however, after advances at the beginning of the month, further declined, December corn at Chicago closing at $63\frac{1}{4}$ cents, against $65\frac{5}{8}$ cents September 30 and December oats at $48\frac{1}{2}$ cents, against 49 cents.

An event of the month was the joint offering in this country and in Europe of $\$20,000,000$ (out of a total issue of $\$25,000,000$) of 35-year $4\frac{1}{2}\%$ sinking fund gold bonds of the "Institution for Encouragement of Irrigation Works and Development of Agriculture S. A.," principal, interest and sinking fund guaranteed by endorsement by the Mexican Government. The loan was oversubscribed. The demand for bonds was notably good throughout the month and a number of new railway loans was successfully floated.

The stock market displayed strength throughout on the improving trade conditions noted above and also on the belief, as already stated, that the Presidential canvass had been decided in advance in favor of Mr. Taft. While the volume of business was not of exceptional magnitude, the tendency of prices

was upward. A very encouraging feature was that many of the railroads reported diminished ratios of decrease in gross earnings for current periods and furthermore that, through savings in expenses, net earnings in not a few instances recorded substantial increases. The copper shares were strong on the rise in price of the metal and the steel shares on the gradual revival of activity in the iron and steel trades. About the only untoward incident was the news from the Orient early in the month and the coincident unsettlement of the European bourses. This was attended by the selling of considerable amounts of American securities for foreign account and occasioned for the moment a decided weakening of prices on our Stock Exchange. After a few days, however, the market again recovered, and the latter part of the month a number of leading stocks sold at the highest figures of the year, among others the Atchison shares, Union Pacific and Steel common.

SALES OF GRAIN ON THE PRODUCE EXCHANGE.

| Month of October | 1908. | 1907. | 1906. | 1905. |
|-------------------------|-------------|-------------|-------------|-------------|
| | Bushels. | Bushels. | Bushels. | Bushels. |
| Month of October | 28,944,000 | 76,589,500 | 32,789,950 | 43,340,200 |
| January 1 to October 31 | 387,336,750 | 564,072,950 | 385,332,250 | 414,422,375 |

In foreign exchange a sharp advance was caused early in the month by the unfavorable developments in the Balkan regions. In the first place, these events led to liberal selling of securities for European account, creating a demand for exchange. In the second place, owing to the uncertainty as to the possible outcome, bankers were indisposed to draw freely, thus diminishing the supply of bills. Offerings of grain and cotton drafts, though liberal in amount, did not serve altogether to check the advancing tendency. It is possible also that there were some further purchases of exchange to complete the requirements of New York City in connection with the operations incident to the payment in November of $\$25,000,000$ New York City revenue bonds. French cable transfers advanced to the gold-export point and sight franc drafts later also got up to the gold-export point, leading to rumors of probable exports of the metal from New York to Paris. At this time, however, offerings of exchange against an installment of bonds of the National Railways of Mexico placed in Paris the previous spring checked the upward tendency. The latter part of the month, on rebuying of securities previously sold on European account, and on indications that friction regarding Balkan affairs was diminishing, exchange weakened and sterling bills October 31 were at or near the lowest figure of the month.

CONDITION OF THE TRUST COMPANIES OF NEW YORK STATE.

We present below comparative statements showing the condition of the trust companies of New York State at the date of each call since August of last year. We give separately the totals for the Greater New York and those for the whole State. We also add tables to indicate the changes in deposits for all the separate companies in the different boroughs of the city. In an editorial article in to-day's issue of the "Chronicle" we make some comments on the results disclosed by these tables.

GENERAL QUOTATIONS

OF BONDS AND STOCKS.

1. In the following thirty pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.

2. Quotations from all Stock Exchanges are as near as possible for the closing day of the month preceding the date of issue. Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

3. Bond prices marked (a) indicate that the purchaser must pay accrued interest in addition to the price given. The method of quoting on the New York Stock Exchange is to quote the price flat (that is, to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.

4. Stock prices marked thus (d) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "g'd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "s f" for sinking fund, "l g" for land grant, "op" for optional.

7. The black-faced type in the letters showing the interest period indicates the month when the bonds mature.

| Bonds | Bid | Ask | Bonds | Bid | Ask | Bonds | Bid | Ask |
|---|-----------|----------|------------------------------------|-----------|---------|-------------------------------------|-----------|---------|
| RAILROAD BONDS | | | | | | | | |
| <i>Bonds of companies consol'd are often under the consolidated name.</i> | | | | | | | | |

STREET AND ELECTRIC RAILWAYS

In response to the request of many subscribers, we have changed the order of arrangement of the Street and Electric Railway Securities contained in the following lists. The previous practice was to group them by cities. This was a satisfactory and logical arrangement so long as the railways remained distinctly local enterprises and confined to the limits of a single city. But with the introduction of electricity as motive power most of the local systems have by degrees been transformed into interurban roads, some of them covering wide stretches of territory and connecting numerous cities and towns. In such cases the reader might look under several places before finding the one under which the road was given. To obviate this difficulty, we have recast the entire list and arranged the roads all in alphabetical order according to the names. Where the title is that of a street (like Third Avenue RR.), the securities will still be found grouped together in most cases, it being possible to do this because the controlling company usually bears the name of the city where it is located. Thus the New York City lines will be found under the New York City Railway, the Philadelphia lines under the Philadelphia Rapid Transit, &c. Cross references will assist the reader in finding any particular security.

Prices marked thus (a) indicate that the purchaser has to pay accrued interest in addition to the price given. Prices not marked are flat prices—that is, the purchaser does not pay accrued interest in addition.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is, where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark thus (*).

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

| Bonds. | Bid. | Ask. | To Net. | Bonds | Bid. | Ask. | To Net. | Bonds | Bid. | Ask. | To Net. |

BANKS AND TRUST COMPANIES.

Quotations in this department are given per share, not per cent, except for stocks of New York City, Brooklyn and Canadian institutions, and are as near as possible for the closing day of the month preceding the date of issue, though often are nominal. An asterisk (*) denotes sales. The letter (h) prefixed to a price indicates that the figures show the book value.

Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing-House banks of New York, Philadelphia and Boston, deposits are taken from the latest weekly statement.

ALABAMA—Nat. banks last call Sept. 23; State institutions latest returns.
