

gitized for FRASER

THE FINANCIAL SITUATION.

Conditions in Europe as well as in America have the current week inspired the various sections of the United States with increased confidence, activity and market buoyancy. Industrial affairs had, considerably earlier, given evidence of a decided wave of optimism, public opinion becoming impressed with a degree of confidence that Taft would be elected President and that immediately thereupon a material change for the better would be the result; this belief started a slow but steady advance on the Stock Exchange market. As soon as the election was announced the consummation of the event anticipated imparted to the incipient boom a further decided impulse to stock purchases, and this has been in progress ever since. A little setback in stocks was said to be in evidence on Wednesday, claimed to be due to a failure of the directors of the Southern Pacific Company to make any order increasing the company's dividend distribution. In anticipation of this increase that stock had advanced very materially on Tuesday, showing that both the advance and the decline were speculative.

There had been a slight decline, also, earlier in the week, claimed to be a result of the Tobacco decision. The truth is, the only unfavorable occurrence in the week was that decision, which we have written about on subsequent pages, and which should lead to an amendment of the Sherman Anti-Trust law, whether the present conclusion of the Court is confirmed or not. Other than that, nothing, practically, has occurred to disturb the Wall Street market. It has been active and progressive. Beginning with Monday, the sales for three days were a little over 1,600,000 shares each day; the total for the five days, including Friday (when they reached 1,641,322 shares) was 7,774,632 shares, against 2,195,171 shares for the corresponding five days of 1907. These are lively times, and suggest strong contrasts.

We have noted above the more settled and confident feeling prevailing in Europe as an added feature of hopefulness in our industrial surroundings. The better condition of European affairs did not of itself help our advancing markets. Had it not been, however, for that change in the outlook, the London and Continental financial centres would have held a bear, ish attitude with respect to our advancing prices. Had the disturbed state continued, and, worse yet, had it passed on to actual conflict, or tending towards a fear of a conflict impending, Europe would have sold our stocks in large amounts, brought us in debt, and not unlikely started an export of gold, tending to make money dearer. The better feeling and outlook abroad is due to the more peaceful aspect affairs have assumed there since the sittings of the Reichstag and the debates on the interpellations regarding the Emperor's utterances in his recent published interview, and the withdrawal of the interview with Emperor William which it was announced that the "Century Magazine" would publish in "an early number." Had this second utterance been published, it would have added greatly to the severity of the strain already existing.

The condition as it stood on the 6th of November was accurately stated by the Paris "Figaro" of that date. It said: "We can no longer blink at the that date. It said: "We can no longer blink at the stituting other Government bonds as security. From

fact that we are living near heaps of powder which a spark may explode; and what is still more terrible is the fact that in the present state of feeling, with the excitement begotten of a good cause and good faith, the spark may emanate from us." The "London Times," speaking of the seriousness of the situation following the publication of the interview, says its intent was for the purpose of sowing dissensions between Great Britain, France and Russia at a moment when their joint action was disagreeably felt by Germany. The failure to accomplish the ends sought is complete and signal. Not only in Paris, in St. Petersburg and in London, but also in Berlin, the failure of its intent has been conspicuous. Not only did it not accomplish the ends sought, but it looks as if it were likely to be instrumental in bringing Paris, St. Petersburg, London and also Berlin into such a state of accord as to hasten a settlement.

The result of the political tension on the Continent developed in the European discount markets consequences which threatened to be serious. French bankers had been freely liquidating their investments in securities in London, thus contributing to the withdrawal not only of gold from that centre that had been brought from South Africa, but also considerable amounts of the floating supply in the bullion market. Moreover, investments by these bankers at Continental centres had likewise been liquidated and the proceeds remitted to Paris. The earlier operations between Paris and London were influenced by relatively higher discounts at Paris than at the British capital; those operations between Paris and other Continental centres were affected by a combination of circumstances, including the Casablanca incident and the political crisis in the Balkans, which were provocative of instability of investments in the securities of countries that were involved in the Were these disturbing conditions to controubles. tinue unrelieved, it seemed probable that they would result in the accumulation of gold by France far beyond possible requirements incident to the negotiation of the Russian loan. The conditions above noted were relieved in some measure Tuesday by a better prospect of settlement of differences between France and Germany, and the markets at the chief centres responded to the news, while discounts were more normal.

The lower rates for exchange this week and the prospects for still further reductions, together with a rise in three and six months' money rates, gave color to a rumor that foreign finance bills would soon be negotiated. Bankers are, however, of the opinion that such bills will not be offered until after the close of the year. Domestic money is likely to be sufficient for all requirements, at least in the near future, even if there should be active speculation in stocks, a large investment demand and prosperous business conditions.

Notice has been given by the Treasury Department to banks that hold the \$14,186,500 3% Treasury certificates of indebtedness which were issued during the panic, that they will mature and cease to bear interest Nov. 20th. The payment of these certificates will not necessarily require the retirement of the currency for which they are pledged, for banks desiring to keep such notes outstanding will have the privilege of substituting other Government bonds as security. From the fact, however, that application has already been made for the retirement of 3 millions circulation that is secured by the certificates of indebtedness, it seems possible that a large portion of the 14 millions bank currency so secured may be retired; it may be noted that the volume of retirements of bank notes for which bonds called for redemption are pledged is not subject to the limitation of 9 millions per month imposed by the Act of March 1907.

While the decision in the Tobacco Company case has been disquieting, there have been other decisions and Court action this week of the opposite type that are decidedly reassuring. One of these was the denial on Tuesday by the United States Circuit Court of Appeals for the Seventh Circuit, sitting at Chicago, of the application of Attorney-General Bonaparte for a re-hearing of the case of the United States Government against the Standard Oil Co. of Indiana. This is the celebrated case involving the fine of \$29,240,000 imposed by Judge Kennesaw M. Landis. The Circuit Court of Appeals, it will be remembered, had set aside the fine because based on numerous judicial errors and because involving an abuse of judicial discretion. The Government, however, attempted to get the Court to re-consider its attitude and for that purpose filed a petition for a re-hearing. The attempt has failed, as everyone knew it would. In other words, the result was a foregone conclusion. But the action of the Court is, nevertheless, gratifying and assuring. The reason why the outcome could be counted upon in advance was that there was no merit in the case of the Government or its argument. The Attorney-General had nothing to offer except thinly veiled abuse of the Court, and that, very naturally, has had no other effect than to bring a well-merited rebuke from the judges. The rebuke is embodied in the following well-chosen words by Judge Baker, who with Judges Grosscup and Seaman made up the Court: "Courts have the right to expect that counsel accustomed to practice in courts of review not only know the meaning of legal terms constantly in use in the discussions and opinions of these courts, but will not misuse such terms to spread misinformation respecting a judgment that is bound to attract wide public attention." Dispatches from Washington tell us that the Government now intends to apply for a writ of certiorari in the United States Supreme Court in order to obtain a review of the case by that tribunal. The writ will probably be granted, for, disregarding entirely legal technicalities, it is reasonable that it should be granted. since the case, undoubtedly, is a most important one. But if the case does reach the Supreme Court, the only result can be to make the defeat of the Government the more crushing.

Another Court ruling of moment has been the granting by the same Circuit Court of Appeals at Chicago of an interlocutory injunction restraining the Inter-State Commerce Commission from enforcing its order reducing freight rates on commodities shipped from the Atlantic seaboard to the Missouri River. In this case there has as yet been no trial and the Court does not attempt to go into the merits of the dispute. Its action in restraining the Commerce Commission for the time being is based entirely on the idea that the issues involved are of such tremendous importance and

threaten such momentous consequences that it would not be right to let the action of the Inter-State Board stand without first subjecting it to judicial analysis and review. We think the Court is right in this course. Nominally the point raised involves a question of rates; actually it involves a question of markets. Here in the East the circumstances do not seem to be well understood. This is owing, doubtless, to the fact that though the rates at stake relate to through shipments passing over the Eastern trunk lines as well as their Western connections, the order of the Commission is limited to requiring a reduction of that part of the total rate which goes to the Western lines. The Commission gives very cogent reasons for thus confining the reduction to the Western lines, but to a disinterested outsider it is a little difficult to see why there should have been any reduction at all.

The conclusion of the Commission was handed down last June and we have before us the printed pamphlet issued at the time, dealing at length with the matter. The Commission's report was written by Commissioner Clark, and it seems to us he makes an eminently fair presentation of the facts of the controversy. He certainly endeavors to present all sides of the question. and, so far as it is possible for an outsider to judge, there is no attempt at concealment of any essential point bearing on the issues raised. Nevertheless, he fails utterly, as it seems to us, to support his contentions. The title of the action was Burnham, Hanna, Munger Dry Goods Co. et al. vs. Chicago Rock Island & Pacific Railway Co. et al. The complainants are individuals, partnerships and corporations engaged in jobbing trade at Kansas City and St. Joseph, Mo., and Omaha, Neb., to which points they ship large quantities of goods from the Atlantic seaboard. In the sale and distribution of their goods, they come in competition with jobbers located at the twin cities. Minneapolis and St. Paul. They charge unjust and unreasonable discrimination in favor of the twin cities and undue prejudice against Kansas City, St. Joseph and Omaha, known as Missouri River points. In the words of the Commission they "make a strong attack upon the long-established system of rate-making under which rates to points west of the Mississippi River are made upon the basis of the rates to the Mississippi River crossings." Stated in brief, the practice in the making of through rates to Missouri River points has been to take the rates in effect on the Eastern trunk lines to the Mississippi River and to add thereto the prevailing rates between the Mississippi and the Missouri rivers. St. Paul and Minneapolis, on the other hand, have had the benefit of somewhat better rates. The effect has been to shut out the Missouri River jobbers from certain territory lying to the north, and it is of this that these jobbers complain. It appeared very clearly, however, from the testimony in the case that extraneous circumstances were responsible for the lower rates to the twin cities. Minneapolis and St. Paul get the benefit of water competition-Lake and river-and also of the competition via the Canadian Pacific and the Minneapolis St. Paul & Sault Ste. Marie Ry.

The Commission admits the force of this contention, as is evident from the following paragraph from its report: "We cannot agree with the argument that the rates from the Atlantic seaboard or from Chicago to the Missouri River cities should be the same as, or lower than, rates from same points to the twin cities. As has been seen, the rates to the twin cities cannot escape the influence of the water and Canadian competition." After making this statement, however, the Commission go on to say that in their estimation the rates between Mississippi River crossings and the Missouri River cities are too high, and that, accordingly, this makes the through rates to the Missouri River too high. So they order a sweeping reduction in the river-to-river rates, cutting the first-class tariff from 60 cents per 100 lbs. to 51 cents; the second class from 45 to 38 cents; the third class from 35 to 30 cents; the fourth class from 27 cents to 23 cents; and the fifth class from 22 cents to 19 cents. The Commission's action in this respect appears to be entirely arbitrary, and we can find absolutely nothing in its report to justify such a drastic cut or, indeed, any cut at all in rates. The result would be, of course, to disturb entirely the old and long-existing relations between opposing markets-with Chicago, the twin cities and contiguous territory on the one side and Missouri River points and the Far West and Southwest on the opposing side. It is against such a radical innovation that the Western roads have taken action, and it is to avert, for the time being, the consequences that would flow from the same that the Court of Appeals has interposed the barrier of an interlocutory injunction.

The injunction prevents the Commission from enforcing the reduction in rates pending a further consideration and final determination of the facts involved in the controversy. Judge Grosscup in his opinion points out that the commerce of the country has grown up on the basis of the old rates, a fact which the Court cannot overlook. As a part of the same fact, it is probable, he reasons, that trade houses in the intermediate territory have grown up upon the condition that they are given the same relative rates to the Western country that the Atlantic Coast cities are given. At any rate the order of the Commerce Commission disturbs commercial conditions that have grown up through a long line of years upon the basis of the present rates and Judge Grosscup well says that this is sufficient to require the Court to restrain its going into effect until the facts can be judicially determined. The Inter-State law renders it unlawful for a carrier to make undue preference or unreasonable preference or discrimination between individuals, corporations, distinctive characters of traffic or localities. That there is discrimination in this instance is admitted. The sole question to determine is whether the discrimination is undue or unreasonable. It is the purpose of the Court to allow this question of fact to be determined by judicial inquiry rather than let harm come which otherwise it might be difficult to repair. Manifestly, such an attitude on the part of the courts deserves commendation.

Revival of activity in building operations in many sections of the United States is indicated in no uncertain measure by the returns from various cities for the month of October. Evidence of improving conditions was not lacking back in July, but the exhibit in August was less favorable, which gave rise to the fear that renewed activity would be delayed. The satisfactory September returns, however, encouraged belief that better times were at hand in the building trades, which the October showing has tended to confirm.

Furthermore, with the passing of the Presidential election and the elimination of the disturbing factors incidental to that quadrennial contest, general commercial and industrial sentiment has become quite optimistic. This does not necessarily presage an era of extreme activity, such as we had just prior to the development of the conditions that made last fall's panic possible. But it is reasonable to suppose or expect that with confidence quite fully restored in other departments, demand for goods will steadily increase, and all our industries, the building trades included, be stimulated. This seems to be the trend of opinion, but neither in the building trades nor in other lines is anything in the nature of a boom looked for. It is a notable fact that, with the improvement that has already taken place in the building construction situation, which, of course, includes a fuller employment of labor, there has been no very appreciable advance in the cost of material as yet. The price of lumber has increased somewhat recently, and a moderate advance in brick is to be noted; but structural steel, cement and other materials are practically unchanged. Moreover, money is in abundant supply to finance such projects as appeal to the investing public. Under the circumstances, therefore, the outlook is, to say the least, encouraging.

As regards the building construction situation in October, statistics furnished by 77 leading cities are, in the aggregate, quite satisfactory. The compilation made up of returns from 45 municipalities, collected by the "American Contractor," with which we have combined results for 32 other prominent cities, shows that permits issued for building operations in October 1908 called for a total outlay of \$57,690,600, against \$49,658,740 for the like period of last year, or a gain of 16.2%. And it is also worthy of note that the current aggregate is slightly greater than that for October 1906. Detailed comparison with 1907 indicates that 43 of the 77 cities show increase in expenditure arranged for this year, with the percentage of excess conspicuously heavy at a number of points. This is especially true of the Borough of Manhattan, for, while the whole of Greater New York indicates a gain this year over last of almost 70%, the augmentation in the leading borough is over 114%, the October 1908 contracts representing a cost of \$13,696,970, against only \$6,384,710 in 1907. This large outlay arranged for October has brought the total for the ten months in Manhattan up to \$81,128,668, or within 5% of the aggregate for the like interval of 1907. St. Louis also exhibits a noteworthy gain of 77% in the month this year, Chicago's outlay is 25% greater than last year, Philadelphia reports an increase of 58%, Denver 65% and Pittsburgh 36%. In fact, of the larger cities, Cleveland, with 78%, and Cincinnati, 58%, are the only ones showing notable declines. Among some of the smaller municipalities very heavy gains are shown, as Mobile 244%, Scranton 236%, Fort Wayne 181%, Newark, Ohio, 105%, Galveston 106% and Grand Rapids 103%. On the other hand, there are some conspicuous declines in addition to the two referred to above, but generally in localities where building operations do not cover large totals. Further comment is unnecessary, except to remark that with Greater New York excluded, the totals for October in the two years are in very close agreement.

The cotton-manufacturing industry of the country, as represented by the establishments located at Fall River, has achieved much better results for shareholders in 1908 than surrounding conditions would seem to have given warrant for. The adverse effects of the setback in industrial development that followed last fall's panic have, of course, been felt; yet stockholders in the Fall River mills have fared better collectively than in all but three of the last fifteen years, and have received an appreciably greater return from their investments than in 1897, 1898, 1904 or 1905. The annual financial statements of the corporations, which quite generally are issued at this season, denote, moreover, that in almost all cases the dividends declared have been fully earned.

As the situation at Fall River during most of the season, in fact down to the close of August, was quite fully reviewed in our annual cotton crop report, issued early in September, it should not be necessary to go over the ground again. Suffice it to say, therefore, that our investigations disclosed a situation essentially different from that which had prevailed in the preceding season. Immediately following the monetary disturbance of October 1907, demand for goods fell off, and it was not long before curtailment of production had to be resorted to, and was continued in force more or less until near the middle of October 1908. Concurrently there was a steady and appreciable decline in prices of goods, with the raw material high, and a consequent serious narrowing of the margin of profitserious to the mill hand as well as to the owner, as under the operation of the sliding wage scale it called for a reduction in wages at the semi-annual adjustment period in May. Partly to compensate the operatives for the loss in wages, the management of the mills announced it as their intention to curtail production thereafter as little as possible and to return to full working time as speedily as conditions would permit. But that was not accomplished, as stated above, until near the middle of October. Now, however, under the automatic working of the wage scale, a further reduction in wages impends, recent figuring on the margin between cloth and cotton since May 25 seeming to warrant a wage of only 18 cents per cut of print cloths, or a decrease of 1.66 cents per cut, equal to about 8.45%. It is believed, however, that, to give more satisfaction to the employees, some modification will be made in the reduction when it goes into effect in early December. Such action is all the more probable in view of the fair showing the year's operations have made in the face of unfavorable conditions, and the recent improvement in the demand for goods and the slightly better prices being secured.

The exhibit made by the profit and loss account of the Fall River establishments cannot but be reassuring. Figures for all the mills are not available, but returns for sixteen of the leading corporations show an aggregate surplus in 1908 of \$4,223,117, against \$4,123,344 at the close of 1907 and \$2,154,018 at the same time in 1906. The gain in 1908 (\$99,273) is very slight to be sure, but it is a cause for gratification that there should have been even that meagre addition in such a season as 1908.

With regard to the dividends declared by the mills, it is to be said that the average rate for the last quarter of the year at 1.48%, while less than half the record rate of 1907 and moderately lower than in 1906, is

higher than in any earlier year back to and including 1901. Turning to the results for the full year, it is observed that the 34 corporations included in our compilation have distributed to shareholders in 1908 the sum of \$1,733,067, or an average of 6.90% on the capital invested. This appears small compared with the \$2,691,625, or 11.09%, paid out in 1907, which, moreover, was exclusive of stock dividends aggregating \$2,000,000. But 1907 was so exceptional a year as not to be a fair one with which to make comparison. Going back, therefore, to 1906, we find that stockholders received a little less than in the current year, or 6.83% on their investment; in 1905 the return was only 3.34%, and in 1904 a little in excess of 31/2%; 1903 gave them 5.66% and 1902 nearly 61/2%. That the 1908 return, moreover, is a comparatively favorable one is indicated by the fact that the average dividend rate at 6.90% is quite a little better than the average for the preceding twenty years, which was 6.20%. Some of the individual mills, pursuing their usual conservative course, maintained in 1908 the same rate of distribution as in the previous years, and eleven corporations did more for stockholders than in 1907. On the other hand, there were many notable decreases, as the aggregate decline of \$958,558 in amount paid out clearly indicates.

We have formerly commented upon the schemes of instruction in practical road-making and better agricultural methods which have been carried on by several railroads in the West and South through the medium of trains specially fitted for the purpose. The subject is recalled by the appearance of an instruction train for farmers, which began work on Tuesday by the Pennsylvania Railroad, in co-operation with the State Agricultural College. The beginning is made in Delaware and Chester counties, which are close to Philadelphia. The cars are fitted as lecture rooms. Experts from the State institution are the lecturers, and pamphlets for more deliberate study will be distributed. Improving and preserving fertility of soils, testing seed corn for its value as such. improvement of dairy products, and a detailed presentation of the feasibility of cultivating the alfalfa, which is so prominent in trans-Mississippi States but little known in the East, are among the chief topics. The Government Forestry Bureau may also send some one to talk on care of trees and preservation of fence posts. Six professors from the State College will do the main work, and division freight agents will, incidentally, see to the interests of the Pennsylvania in the matter.

It must not be assumed that large revolutionary improvements are to follow quickly; yet the simplicity of old-fashioned farming, which consisted in mechanically sowing and trustfully awaiting results, just as the fathers began upon a virgin soil, will not serve indefinitely. In our own day we have seen the large growing of cereals move far westward; perhaps there can never be any reversal of this change, and perhaps none ought to be dreamed of; yet even if "the abandoned farms of New England" are past agricultural reclamation, we need not admit readily that decadence of agriculture is inevitable in such Middle States as Pennsylvania. Aside from this, the educational scheme of great railroads towards better and more profitable production ought to be distinctly noted as the plainest refutation of such absurdities as that which formed the motif of the tale called "The Octopus," namely: that a railroad is a devourer and subsists upon the country and people it is supposed to be established to serve. The anti-railroad movement, from the first to the present hour of it, rests upon this assumption, which needs only to be plainly stated in terms to have its falseness stand out boldly. The railroad lives only by, and is conditioned upon, prosperity; therefore, it has the most direct and selfish concern in aiding production and prosperity. To create an entirely new product, to localize one which had not existed in a given section, to aid in making two blades of grass or heads of wheat grow where there had been only one, to enrich the farmer on the soil and the manufacturer in the factory-all this is true in railroad business. The road which merely awaits traffic and takes no concern in making it comes nearer to the notion of an octopus; it tends to subsist instead of helping. That might be said of a road which has been sarcastically said of the profession of the law, namely that its business is to make business for itself.

There is no way so sure and speedy for putting an end to a fallacy as to state it in bald terms and hold it up for inspection, just as the surest way of ending a bad statute is to rigidly enforce it. The anti-corporate feeling presumes (although it refrains from plumply saying so) that a corporation lays hold of what individuals produce by their labor; that it is a burden which greedy capitalist owners manage to load upon the working people. Let the light of plain statement through this presumption, and it is dissipated. In the process of public education upon which certain men engaged in businesses tributary to railroads have lately entered, the most effectual thing to be done is to make a modern practical application of the ancient fable of "the belly and the members," and show how intimately transportation is linked with every man's occupation and life; that, being so connected, a railroad is a partner and cannot be an enemy.

The most interesting feature of the bank statement of last week was an important decrease in loans. This was said to be due to large purchases of stocks by country investors and speculators, payment of the securities being effected with drafts, through their banks, upon the balances with New York correspondents, thus necessitating calling of loans by such correspondents. There was an average decrease of \$6,933,000 in cash and an actual loss in this item of \$5,345,100. Average loans decreased \$10,223,500; according to the statement of actual conditions, the decrease was \$10,-201,300. Average deposits fell \$14,495,400; the actual decrease was \$13,283,500. The average reduction in reserve was \$3,309,150, to \$30,279,975, while the actual loss was \$2,024,225, to \$31,474,750; computed upon the basis of deposits less those of \$9,252,400 public funds, the actual surplus was \$33,787,850.

The Comptroller of the City of New York this week sold to Kuhn, Loeb & Co. and the Guaranty Trust Company 10 million dollars of one-year 4% revenue bonds at par; the securities were then offered on the market to investors on the basis of 334%. The bonds so issued make a total of 30 millions that have been emitted since early in October; they were not issued £220,000 (of which £50,000 to South America and

in sterling form, as were the 25 millions that were placed in 1907 and which matured Nov. 1, though it is possible that some of the bonds will be taken by investors abroad. It is reported that it is the intention of the Comptroller not to issue any more of this class of bonds until next year.

Announcement was made by Comptroller Metz this week that bids will be received at his office until Nov. 23 for 121/2 millions 4% corporate stock and bonds for various municipal purposes. The \$500,000 assessment bonds for street improvements embraced in the offering will mature in ten years; the other securities offered will run for fifty years.

The market for call money was active this week at a higher average than was the case in the previous week, influenced by a buoyant speculation and an increased investment demand; lenders on time took advantage of the improved conditions to mark up their offerings of contracts. Commercial paper was in more or less urgent request, and merchants were encouraged to make paper more freely, anticipating greater requirements for funds because of expected improvement in general trade. One feature of the week was the loaning of call money on Monday at 3% for the first time since January. The sum loaned was small, the transaction was recorded in the last hour of business, when, usually, borrowers have met the day's requirements, and therefore the incident was regarded as not reflecting actual market conditions. Moreover, after 3% had been recorded, the rate fell to 2%, and this was the maximum for the remainder of the week.

Money on call, representing bank and trust company balances, loaned at the Stock Exchange during the week at 3% and at 1%, averaging about $1\frac{3}{4}\%$; the higher rate, as above noted, was recorded on Monday, and all lending institutions quoted 1% as the minimum. Time loans on good mixed Stock Exchange collateral developed a firmer tone at the beginning of the week, and the rates then quoted were well maintained thereafter, with a good volume of business, reflecting the broadening of speculation and investments and increased confidence in the situation. It is noteworthy that commission houses which have hitherto, since the panic, refrained from making engagements in time contracts, owing to the indisposition of their clients to participate in stock market operations, are now effecting such contracts, though to a moderate extent. Loans for sixty days are quoted at 31/4@31/2%, for ninety days at 31/2@33/4 % and for four to six months 4%. Commercial paper is 4@41/2% for sixty to ninety day endorsed bills receivable and 41/2% for four to six months' prime single names.

The Bank of England rate of discount remains unchanged at $2\frac{1}{2}\%$. The cable reports discounts of sixty to ninety day bank bills in London $2\frac{3}{8}\%$. The open market rate at Paris is 21/4 % and at Berlin and Frankfort it is 23%@21/2%. According to our special cable from London, the Bank of England lost £147,294 bullion during the week and held £35,719,196 at the close of the week. Our correspondent further advises us that the loss was due wholly to exports, there having been receipts from the interior of Great Britain of £73,000. The details of the movement into and out of the Bank were as follows: Imports, nil; exports,

louisfed ora

£170,000 to Egypt) and receipts of £73,000 net from the interior of Great Britain.

The foreign exchange market was easy in tone during the week, though fluctuations were within a narrow range; there was a rally in rates at the close. The downward tendency early in the week was due to somewhat liberal offerings of bankers' bills, reflecting purchases of American securities by London, and of commodity drafts against exports and engagements for shipments of cotton and wheat. Later selling of our stocks in the British capital and the pendency of the London Stock Exchange settlement served to make the market steady, but the firmer tone for money in New York and a light inquiry for remittance checked in the principal European banks. a recovery, and the tone became dull. The London settlement did not cause any special demand for cables, indicating a small American account, and the inquiry for remittance continued light. The relaxation in political tension on the Continent, resulting from the agreement to arbitrate the Casablanca incident, did not appear to have more than a sentimental effect upon exchange. There was no evidence of speculation in the market and apparently no encouragement for such operations. The larger banking houses who, toward the close of last month, were seeking to sustain the market until commitments which they had undertaken had been effected, were seemingly disposed to await developments and be governed by conditions as they arose. They looked for lower rates but were not inclined to contribute thereto, and trading seemed likely to be confined in the near future to transactions for remittance. ·Compared with Friday of last week the market was lower on Saturday with a decline of 20 points for long to 4 8355@4 8360, of 15 points for short to 4 8560@ 4 8565 and of 5 points for cables to 4 86@4 8610. On Monday long rose 5 points to 4 8355@4 8365 and short 5 points to 4 8565@4 8570, while cables fell 15 points to 4 8590@4 8595. On Tuesday long declined 20 points to 4 8335@4 8345, short 5 points to 4 8560 @4 8565 and cables 5 points to 4 8585@4 8590. On Wednesday long fell 5 points to 4 8335@4 8340, while short rose 5 points to 4 8565@4 8570; cables were unchanged. On Thursday the market was strong at an advance of 15 points for long to 4 8350@4 8375, of 15 points for short to 4 8575@4 8585 and of 20 points for cables to 4 8595@4 8610. On Friday long and cables rose 10 points and short fell 5 points.

a The division (between gold and silver) given in our table of colin and in the Bank of Germany and the Bank of Belgium is made from the basic we are able to obtain; in neither case is it claimed to be accurate, as thos make no distinction in their weekly returns, merely reporting the total g silver; but we believe the division we make is a close approximation. B The Austro-Hungarian Bank Statement is now issued in Kronen and natead of Gulden and Kreutser. The reduction of the former currency to Pounds was by considering the Gulden to have the value of S0 cents. As the max considering the Gulden to have the value of S0 cents. As the order to reduce Kronen to Pounds, has altered the basis of conversion by c the amount of Kronen by 24 instand of 20. d The total of gold in the Bank of Russia includes the balance held at that is, the amount held for Russian account in other Continental banks. T portion so held, and consequently dupileated in the above statement, is one-quarter of the total.

THE KAISER'S INTERVIEW.

We referred last week to the remarkable interview between the Emperor of Germany and a retired British statesman-Lord Rosebery, we supposeand called attention to the troublesome situation created by the Kaiser's indiscreet remarks regarding his personal attitude towards the English Government and the other Powers in the matter of the Boer War and other international affairs. The events of the present week have shown that the publication of this interview in the "London Telegraph" had even more important effect in political circles of Germany itself than it had in diplomatic quarters generally. The incidents of the Reichstag's session of Tuesday evening made up, indeed, one of the most remarkable episodes in recent European politics. They may be considered first in connection with other events bearing on the same question during the present week.

At the opening of the week, markets for European public securities showed an undoubted sense of apprehension-due not so much to actual indications of a bad turn in diplomatic affairs as to the general feeling that Germany and England were both in the presence of uncertainties created by the Kaiser's utterances. The first question involved was the attitude of the English Ministry toward the complaints contained in the interview regarding the relations of England toward Germany. Mr. Asquith spoke on Monday night at the Lord Mayor's dinner. His statement, on the whole, was no different from what would have been expected. He referred to the amicable speech made by the Kaiser personally in London a year ago, and stated the purpose of the English Ministry to deal in a friendly spirit "with other Powers -with Germany certainly not the least." "If", the Premier continued, "the other Powers cherish the same desire and intention, then the clouds which for the moment darken the sky will disperse without a storm." Concluding, Mr. Asquith stated somewhat pointedly that at such a time "there should be no talk of isolation, of hostile rulings, and of rival combinations among those Powers which are the general trustees of civilization, and the greatest paramount safeguard of the peace of the world."

It might possibly have been imagined that the seriousness with which the Premier thus approached the subject would have been accepted as confirming the popular view that the diplomatic situation is still mistrusted. The European markets did not take it so; Mr. Asquith's speech was greeted at London and at Paris by the unusual advance of ½ point in British consols and French rentes. The following evening, Tuesday, came the session of the German Reichstag, in which the more sensational phase of the matter developed. The speeches then delivered amounted to nothing more or less than a personal attack on the Emperor for usurping the rights and functions of responsible ministers by his indiscreet utterances on public affairs.

The Kaiser had said, in the interview published in London, that it was not he, but the German people, who were hostile to England, and that the enlargement of the German fleet was due to developments, past and future, in the Pacific. Herr Bassermann, the leader of the National Liberal Party, commented thus bluntly on these assertions in his Reichstag speech: "The Emperor is very badly informed when he says that the German people are hostile to Great Britain. We have never heard before, we who passed the naval program, that the fleet was intended for action in the Pacific in furtherance of a world policy. This statement must be denied along with the other Imperial utterances." The same speaker pointed out that the Emperor's interview was a distinct violation of the German Constitution, which provides that Imperial action in foreign affairs must be countersigned by the Chancellor. The leader of the Socialist Party, who came next, spoke with even more emphasis. Premising that the Emperor was the "first servant of the State," he went on to declare that "if another servant of the State had done such a thing as did Emperor William, he would have been brought before an Imperial Court for trial." Denunciation could not go much further; it remained to be seen, and one can imagine how the audience in the galleries and on the floor waited to hear, what the Imperial Chancellor, representing the Emperor before the Reichstag, would have to say in reply. Prince Buelow's answer was cautiously worded, and framed with great reserve. It made some rather feeble effort to minimize the bad effect of the published interview, and attempted to show what praiseworthy efforts the Kaiser had previously made in behalf of Germany, but it ended with this remarkable statement.

The recognition by His Majesty of the unjustified misunderstanding of his utterances with reference to Great Britain and the excitement and regret aroused thereby in Germany, will, I am convinced, lead the Emperor in future private conversations to exercise that reserve which, in the interest of a uniform policy and the authority of the Crown, is indispensable. If this proves not to be so, neither I nor any one of my successors could take the responsibility. I accepted the blame for the publication of the article in the "Daily Telegraph" and offered my resignation, and it was the most difficult task in my political life to resolve to remain in office. How long I will continue there I do not know, but I consider it my duty at this difficult period to continue to serve the Emperor and the nation.

A very brief consideration of this extraordinary legislative procedure should serve to show that a condition in many respects wholly new has been created by it in the German Government. It is, in fact, very difficult to say precisely what results will follow. That the Emperor's impulsiveness will be more or less curbed hereafter cannot be doubted; how strongly his Ministers feel upon the question has been illustrated this very week by the discovery that another interview granted by him, and already prepared for publication in the "Century Magazine', of this city, has been suppressed and removed from the volume almost at the moment of publication, in response to what could hardly have been anything less than urgent representations by the German Ministry.

On the other hand, it is difficult to say what guaranty the German public is to have against further indiscretions. The Kaiser is notoriously impatient of restraint, and he has at least this much to allege, that the now celebrated interview with the English statesman was a private conversation, made public only after it had been delivered. Nevertheless, Prince Buelow's statement regarding the attitude of the Emperor's Ministers toward such Imperial utterances pointed, not at all obscurely, to the means which exist for putting a check on the Emperor's activities. Imagining a refusal on the Kaiser's part to submit to any such dictation, he might presently be confronted with the impossibility of obtaining competent statesmen to conduct the Government. Were this to come to pass, the Emperor and the Reichstag would lock horns in a personal dispute in which all the advantage would be on the side of the Legislature. A very eminent authority on German Constitutional law, Dr. Theodore Barth of Berlin, thus stated the case, the day after the Reichstag debate:

The system of Parliamentary government in England was brought about without the alteration of a single paragraph of the law. The King of England even to-day is empowered to act as is Emperor William in the filling of Ministerial posts, but the British Parliament, owing to its control of the budget, could make the carrying out of his duties impossible for any Minister who enjoyed only the confidence of the sovereign and not that of the House of Commons.

The German Reichstag constitutionally is in a similar position. It needs only to resolve, and national public opinion must compel it to resolve, on such a proceeding.

The logical outcome of such a controversy would be the removal of the Kaiser's present prerogative of appointing or removing Ministers of State in his own discretion, and the establishment, finally and conclusively, of the principle that the German Ministry should hereafter, like the British Cabinet, be named by and he held in all respects responsible to, the Reichstag itself, the Emperor thenceforward occupying merely the auxiliary position, subject to Ministerial restraint, which has for two centuries been occupied by the British sovereign.

THE DECISION IN THE AMERICAN TOBACCO COMPANY CASE.

It remains to be seen if the decision handed down on Saturday last by the United States Circuit Court of Appeals for the Southern District of New York in the case of the United States Government against the American Tobacco Co. et al will be sustained on appeal to the United States Supreme Court. The decision is to the effect that the American Tobacco Company, made up of various other companies merged in it from time to time, is an illegal combination in restraint of trade under the provisions of the Sherman Anti-Trust Law of 1890. But whether the decision be sustained or not, there can be no doubt that it gives a wider application and scope to the Sherman Law than any judgment yet handed down by the Federal Courts. Indeed, if the Anti-Trust Law of 1890 is to have such a broad and sweeping interpretation as that now accorded to it by the United States Court of Appeals, it is difficult to see how it will be possible to carry on business at all any longer in the modern way-that is, by the union of one or more plants situated in different States, or even by the formation of a partnership between individuals resident in different States, but engaged in the same business and who unite for the purpose of carrying on operations jointly. For Judge Lacombe, who writes the prevailing opinion, expressly says that the 1890 Act, as he conceives it to have been construed by the U. S. Supreme Court, prohibits every contract or combination in restraint of competition. Size, he says, is not made the test: "Two individuals who have been driving rival express wagons between villages in two contiguous States, who enter into a combination to join forces and operate a single line, restrain an existing competition, and it would seem to make little difference whether they make such combination more effective by forming a partnership or not."

To lay down the unqualified proposition that it is no longer possible for two persons engaged in the same line of business, but carrying on operations in more than one State, to enter into partnership because they thereby restrain competition which might otherwise exist between them seems to the lay mind like the reductio ad absurdum, carrying the argument to such extremes as to involve a demonstration of its utter absurdity. But the judges in this instance (Judges Lacombe, Coxe and Noyes joining in the majority opinion and Judge Ward alone dissenting) are very earnest in their opinion, and some of them at least having reached their conclusion reluctantly. It is undoubtedly true, as Judge Lacombe urges, that the tendency of recent decisions of the U.S. Supreme Court has been to enlarge the scope of the Anti-Trust Law, and if the ruling in this instance applied to the case of a carrier or transportation company engaged in hauling goods from one State to another, thus engaging directly in inter-State commerce, no surprise would be felt at the decision. In that event the decision would be clearly in line with the rulings of the Supreme Court, itself and particularly the ruling in the Northern Securities Company case, where the Court, in seeking to give effect to the Anti-Trust Law, went further than some of the best legal minds in the country had ever dreamed possible.

The decision which now comes to us from the Federal judges carries the doctrine enunciated in the Securities Company case yet further. It tells us, in effect, that the operation of the law is not limited to carrying or transportation companies, but that it extends also to manufacturing and producing concerns, rendering illegal the merger of one or more of such concerns. Congress, as is known, derives its authority over Inter-State Commerce from the clause in the Federal Constitution which delegates to it the sole power "to regulate commerce with foreign nations. and among the several States, and with the Indian tribes." The purpose of that clause is plain enough. It was intended to prevent the States from impeding the free flow of traffic from within or without their borders by license fees, taxes or other vexatious or petty restrictions. Through successive court decisions a gradually widening latitude has been given Congress in applying this Commerce Clause, as far as concerns the carrying trade between the States. Can this Commerce Clause now be stretched still further so as to give Congress the power to say that if a manufacturing or producing company for the purpose of enlarging its trade acquires by merger or other process, legal within the State, plants in other States, such step shall be characterized as illegal and punished as a crime? In other words, can the Commerce Clause, which was intended to promote commerce, be used to hinder or restrict commerce? For it is obvious that if manufacturing, trading and producing concerns are hereafter to be prevented from going beyond the State line in taking over desirable competing plants, industrial development in the United States must receive a severe check. Furthermore, if the American Tobacco Company is an illegal combination, then there are very few industrial corporations of any kind that can escape having a similar judgment rendered against them whenever it shall please the Federal authorities to bring an action against them for that purpose. Only the favor of the Federal Government can prevent such a result.

Hitherto, authority for the contrary view, that is, for the belief that the power of Congress did not extend to trading and manufacturing operations, even though the plants might be situated in more than one State, has been found in what is known as the Knight case. This was decided in January 1895 (156 U.S., 1), and the Court held in substance that the combination of a number of refineries to manufacture sugar did not come within the provisions of the Anti-Trust Law, since manufacture alone is not commerce, and, therefore, not within the control of Congress. That case has always been held to be controlling, and has frequently been referred to as authority in later decisions. It is undeniable that in great part manufactured products ultimately become objects or article of inter-State commerce, since eventually they go to consumers or purchasers in other States; but the general tenor of the decision has been to hold that, where inter-State commerce was only incidentally or remotely affected, the power of Congress could not be exercised, and the Anti-Trust Law did not come into play.

Another point should be borne in mind. This was emphasized in the brief of counsel for the American Tobacco Company, namely that the class of agreements in restraint of trade aimed at by the Sherman

Law was agreements between independent competing manufacturing concerns. That is, the lawmaker intended to prevent independent concerns from entering into arrangements for interfering with the law of competition so long as they remained independent. It was never contemplated that the right of one competing concern to acquire or buy out a competitor. given it under State law, should be taken away. There is obviously a vital difference between the formation of a corporation or partnership made up of former competitors, and agreements in restraint of trade by independent competitors. Agreements of the latter kind have always been condemned. However, in the present instance the Federal Court of Appeals could not be made to see this distinction or to accept that view. Judge Lacombe, in his opinion, after quoting from the Anti-Trust Law declaring illegal "every contract, combination in the form of trust or otherwise, or conspiracy, in restraint of trade or commerce among the several States, or with foreign nations," says this language is to be construed as prohibiting any contract or combination whose direct effect is to prevent the free play of competition, and thus tends to deprive the country of the services of any number of independent dealers, however small. He admits that as thus construed the statute is "revolutionary," though he adds that, in saying this, he does not mean to imply that the construction is incorrect. His reasons for considering the construction "revolutionary" appear in the following:

"The Act may be termed revolutionary because, before its passage, the courts had recognized a 're-straint of trade' which was held not to be unfair, but permissible, although it operated in some measure to restrict competition. By insensible degrees, under the operation of many causes, business, manufacturing and trading alike, has more and more developed a tendency towards larger and larger aggregations of capital and more extensive combinations of individual enterprise. It is contended that, under existing conditions, in that way only can production be in-creased and cheapened, new markets opened and developed, stability in reasonable prices secured and industrial progress assured. But every aggregation of individuals or corporations, formerly independent, immediately upon its formation terminates an existing competition; whether or not some other compe-tition may subsequently arise. The Act, as above construed, prohibits every contract or combination in restraint of competition. Size is not made the test: two individuals who have been driving rival express wagons between villages in two contiguous States, who enter into a combination to join forces and operate a single line, restrain an existing competition, and it would seem to make little difference whether they make such combination more effective by forming a partnership or not.'

Judge Lacombe adverts to the contention that the case at bar is not within the statute, since the various combinations complained of deal primarily with manufacture as in the Knight case. It seems to him, however, that subsequent decisions have modified the opinion in the Knight case. The same view is expressed by Judge Coxe and further elaborated in the opinion of Judge Noyes. The latter says the testimony discloses that the business of the Tobacco Company has three broad phases: (1) the purchase of the raw materials and supplies; (2) the manufacture of the product, and (3) the disposition of the product. While the second phase—that of manufacture—does not involve inter-State commerce, he reasons, the other two phases seem clearly to directly involve it. The Tobacco Company owns no railroads or other means of transportation, and when it gets ready to have its goods shipped must avail of the existing agencies, which are already amenable to the authority of Congress. But Judge Noyes undertakes to stretch still further the elastic provisions of the Commerce Clause by arguing that the defendants become engaged in inter-State commerce when they send their traveling salesmen into other States to dispose of their products.

All the judges refer, in their separate opinions, to the case of Loewe vs. Lawlor decided last spring (208 U. S., 274) as the latest expression of the views of the Supreme Court on the application of the law, and it is quite possible that, except for that ruling, the present decision would have been different. This was the hat-makers' case, where a labor boycott was declared a combination in restraint of commerce, the Court holding that any combination whatever to secure action which essentially obstructs the free flow of commerce between the States or restricts, in that regard, the liberty of a trader to engage in business, is within the inhibition of the Anti-Trust Act of July 2 1890. But that that ruling is by no means conclusive on the issues now raised is evident from the dissenting opinion of Judge Ward in the present case. This opinion, we are free to say, appeals to us much more strongly than the arguments and reasoning of the majority opinion. Judge Ward points out that it is not at all necessary to be engaged in inter-State commerce for one to get the benefit of the Sherman Act. Section 7 authorizes "any person who shall be injured in his business or property" by a violation of the Act to bring just such a suit as Loewe brought. Although the plaintiffs as manufacturers of hats might not have been engaged in business which would bring them within the operation of the Sherman Act, still a combination of third parties to restrain a part of their business incidentally embraced in inter-State commerce might well bring that combination within the operation of the Act. He proceeds as follows:

"The decision in the Loewe case was unanimous and, expressly approving the Knight case, proceeded upon the ground that the defendants' combination necessarily and directly restrained the purchases and sales of hats between the plaintiffs and citizens of other States. Chief Justice Fuller delivered the opinion in both cases. Three of the justices who were of the majority in the Knight case concurred in the Loewe case and it can hardly be supposed that they were overruling the Knight case by implication."

Thus there seems to be at least some ground for hoping that the decision of the Court of Appeals may not find favor with the United States Supreme Court. If things have actually come to such a pass that it is no longer possible within the law for two persons having competing establishments in different States to enter into a partnership for the purpose of more advantageously carrying on business, then the sooner Congress amends the law and accords to business men here the freedom of action allowed everywhere else throughout the civilized world, the better. It only remains to say that the Court of Appeals refused to grant the prayer of the Government that receivers be appointed for the various companies making up the tobacco merger. This petition, it will be remembered, excited wide derision and almost universal condemnation when made. Judge Lacombe says that

ora

Nov. 14 1908.]

THE CHRONICLE

the theory of Attorney-General Bonaparte apparently was that these receivers were "to conduct a tobacco business and create some sort of artificial competition to take the place of the natural competition which it is alleged was destroyed by the combination." Judge Lacombe disposes of the proposition with the simple remark that "such a scheme seems impracticable and is wholly unnecessary." The Court also suspends njunction pending appeal.

CORN, WHEAT, AND OTHER GRAIN CROPS IN 1908.

The Agricultural Department's report of Monday, Nov. 9, covering preliminary estimates of the production of corn, buckwheat, potatoes, rice, tobacco and flaxseed, completed the tentative approximations of the yield of the country's principal crops for the year 1908. The estimates as issued by the Department are not essentially different from the results worked out a month earlier on the basis of the official percentages of condition and acreage, although it is to be noted that the totals now given are in each case moderately larger than then arrived at.

Greatest interest naturally centres in corn, the leading food crop of the country. Of that cereal the Department makes the yield in 1908 approximately 2,-642,687,000 bushels, against 2,592,320,000 bushels in 1907, an increase of only 50,367,000 bushels, or less than 2%. This result, while, as stated, somewhat better than anticipated a month ago, marks a decided drop from the early season's promise. With acreage the heaviest on record and a fairly favorable start, a crop well above that of last year was looked for. But unfavorable conditions during August and September reduced the advantage this crop had over the last to practically that which accrued from the additional area under cultivation. Compared with 1906, when 2,927,-416.091 bushels (the record total) were raised, the current year's yield of course exhibits a very appreciable decline; there is also a moderate shortage from the 1905 aggregate, and only 175 million bushels increase over 1904, when the area was $9\frac{1}{2}\%$ less. This year's crop, however, is of higher average quality than that of 1907, giving it a greater food value. As reflecting the extent to which farm stocks of corn had been reduced, the Department's investigations denote that of the crop of 1907 there was still in farmers' hands on Nov. 1 1908 only 71,124,000 bushels, or 2.7%, as compared with 130,995,000 bushels of the 1906 erop, or 4.5%, in hand on Nov. 1 1907, and a ten-year average of 4.5%.

The Department's report for October 1, as we pointed out in our issue of October 10, placed the yield of spring wheat at 233,090,000 bushels, or about 81/2 million bushels more than in 1907, 91/4 million bushels below the 1906 total, and 311/2 million bushels less than in 1905. Combining the spring-wheat result with the estimated yield of the winter variety, given theretofore at 425,940,000 bushels, we reached a total wheat production for 1908 of 659,030,000 bushels, which compared with 634,087,000 bushels in 1907, 735,260,970 bushels in 1906 and 692,979,489 bushels in 1905. Oats yield was also reported upon at that time by the Department, being estimated for 1908 at 789,161,000 bushels, against 754,443,000 bushels in 1907 and 964,904,522 bushels in 1906. The barley

crop was likewise approximated, the 1908 production at 167,242,000 bushels, against 153,597,000 bushels in 1907 and 178,916,484 bushels in 1906, and of rye it was figured that the current season would give 30,921,000 bushels, against 31,566,000 bushels and 33,374,833 bushels, respectively, in 1907 and 1906. The crops enumerated above constitute the great bulk of the cereal production of the country-the sources from which the major portion of our food supply for both man and beast is drawn. As already intimated, the outcome of the season has been appreciably below early anticipations, but combining the various totals we find that our cereal productions for 1908, as now estimated, reach an aggregate of 4,289,041,000 bushels, or 123 million bushels more than in 1907, but 550 million bushels less than in 1906-the banner year of yield. How this year's total compares with earlier seasons, item by item, is shown in the following:

	1908.	1907.	1906.	1905.	1904. Bushels.
	Bushels.	Bushels.	Bushels.	Bushels.	
Corn	642,687,000	2,592,320,000	2,927,416,091	2,707,993,540	2,467,480,034

The estimated yield of potatoes for 1908, which the Department gives as 274,660,000 bushels, is moderately less than for either 1907 or 1906, and the quality of the product is lower. Buckwheat, while one of the smaller crops, promises a larger yield than in 1907, in fact, a record crop of high quality. This year's estimate, at 15,648,000 bushels, compares with 14,290,000 bushels a year ago. Rice, another small crop, has apparently done relatively better than any other of the cereals, the probable yield, according to the Department, being 22,718,000 bushels, against 18,738,000 bushels in 1097. The largest previous crop was in 1904, when 21,096,038 bushels were raised.

The Department also gave data as to production of various fruit and other miscellaneous crops in the November report. A percentage of 43.4 represents the yield of apples this year, against 32.1% in 1907 and 69.1% in 1906. Grapes also did better in 1908 than in 1907 and almost as well as in 1906, the respective percentages being 82.2, 78.4 and 83.3. The same is true of pears, which turned out decidedly ahead of last year, comparison being between 73.3% and 44.3%. The 1906 percentage was 74.3%. Cranberries, on the other hand, are in very short supply, this year's product being placed at 55.4%, against 78.2% and 84.8%, respectively, one and two years ago. Good crops of oranges, lemons, peanuts, sugar cane and sweet potatoes are indicated by the report.

The grain crop situation outside of the United States presents at this time few features calling for reference. Canadian crops, as estimated from actual threshing returns, are very heavy, although results are not quite up to early expectations. The estimates are, wheat, 115,651,000 bushels, against 96,852,000 bushels in 1097; oats, 267,651,000 bushels, against 216,615,000 bushles; barley, 50,723,000 bushels, against 45,235,-000 bushels, and rye, 1,889,000 bushels, against 45,235,-002,000 bushels. Advices from Argentina towards the close of October covered complaints of damage to wheat by frost and hail, but improved conditions quickly followed, and latterly beneficial rains have fallen in southern districts. In northern localities the

THE CHRONICLE

[VOL. LXXXVII.

weather is stated to favor ripening, and harvesting will be under way shortly. Good crops in Australia are indicated by the cable advices. Latest reports from Europe are to the effect that over the northern portions and extending down into Austria-Hungary cold weather is unfavorably affecting winter grain already seeded, and interferes with further sowing.

RAILROAD GROSS EARNINGS FOR OCTOBER.

Returns of railroad gross earnings seem to be improving with each succeeding month and for October our early compilations covering 79,664 miles of road record a loss of only \$2,678,874, or 3.95%. This is better even than the result for the previous month, September, when the loss amounted to \$3,986,202, or 5.78%.

Of course it would be rash to assume that when our final statement for the month is made up covering the entire railroad mileage of the country, aggregating roughly 230,000 miles, the ratio of falling off will be no larger than that indicated in our preliminary figures of to-day. As has been previously pointed out by us, it is the systems traversing the manufacturing and mineral districts that have been sustaining the largest shrinkage in revenues, and very few of these are represented in our early compilation-none at all of the very largest type like the Pennsylvania or the New York Central. On the other hand, the roads that do appear in these early compilations consist very largely of wheat-carrying roads in the West, which have been favored the present year with an unusually heavy movement of wheat, or cottoncarrying roads in the South, which have had the advantage of a greatly increased freight movement of that important staple.

In other words, the roads which are represented in our tables have had special favoring conditions conditions that have been absent with the great body of roads or at least have not been present to the same extent. It may easily be, therefore, that the percentage of loss in gross in our final statement will be larger than that shown in the present statement. However, in the manufacturing districts, too, things have been on the mend in the more recent weeks and months and whatever the ratio of loss shall be when the completed tabulations for October become available, this ratio seems likely to be smaller than the similar ratio for September.

Some of our readers will doubtless be inclined to recall that for October we are comparing with the period of panic and financial disturbances in 1907. It is important to bear in mind, however, that, notwithstanding the panic, railroad earnings were still remarkably good in October of last year. The reason of course is, as was pointed out by us at the time, that the panie came too late to have any important influence in curtailing railroad traffic and earnings. Hence it happened that our early statement for October 1907, covering 74,306 miles of road, showed \$3,385,652 gain, or 5.91%. This moreover followed \$8,788,150 gain, or 11.26%, in October 1906. In the following we furnish a summary of the October totals as disclosed by our early statements for the last thirteen years. This it will be observed reveals a continuous record of gain from 1897 to 1907, both inclusive.

Note.-Neither the earnings of the Mexican roads nor the mining operations of the antaractic coal roads are included in this table.

We have spoken of the larger wheat movement the present year. For the four weeks ending Oct. 31 the wheat deliveries at the ten principal Western primary markets reached 33,249,611 bushels in 1908, as against only 25,550,708 bushels in the corresponding four weeks of last year. The gain was chiefly, in fact almost wholly, in the spring-wheat sections, as is evident from the great increase in the movement at Minneapolis, where the receipts for the four weeks reached 12,887,110 bushels, as against only 6,953,096 in 1907. It is important to note, though, that while the wheat movement was of exceptional proportions, the other cereals all reveal a large falling off from last year. Thus of corn the receipts were only 6,082,922 bushels against 16,831,259 bushels; of oats 17,151,390 bushels against 21,320,427; of barley 9,323,424 bushels against 13,227,749 and of rye 943,063 bushels against 1,110,931 bushels. It thus happens that the grain movement as a whole fell considerably below that of 1907, notwithstanding the gain in wheat. Altogether the grain deliveries for the four weeks the present year were only 66,750,410 bushels against 78,041,074 bushels in 1907. In the following we show the details of the grain movement in our usual form:

Total of all-					Real Providence	

The live-stock market movement in the West was somewhat irregular, showing a decrease of 89,100 head of cattle and of 213,000 head of sheep, but an increase of 503,200 head of hogs.

In the cotton movement in the South the increase was chiefly in the Gulf States and the Southwest. At the Southern outports as a whole the receipts of cotton for the full month in 1908 were 1,730,254 bales as against 1,264,993 bales for the month in 1907. Not withstanding this increase, however, the 1908 figures fall below the extraordinary movement for October 1906, when the receipts amounted to 1,798,665 bales. As showing the contrast between this year and last in the extent of the movement of the staple in the Southwest, the receipts at Galveston in October 1908 were 642,313 bales as against 268,761 bales in October 1907. In this case too, however, the 1908 figures fall below the exceptional totals of 1906, when the receipts at Galveston were 736,662 bales. The shipments of cotton overland in October 1908 were 188,008 bales against 78,827 bales in 1907 and 98,280 bales in 1906.

In the case of the separate roads there are several which are distinguished for quite large amounts of gain, reflecting the special favoring conditions mentioned above. In the Southwest we have the International & Great Northern with an increase of \$196,000, and in the spring-wheat sections of the West we have the Minneapolis St. Paul & Sault Ste. Marie, with an increase of \$124,034, and the Chicago & Great Western with an increase of \$55,462. Canada, too, seems to have entered upon a new period of activity, and doubtless also the Canadian roads have had an increased grain movement. At all events, the Canadian Pacific reports a gain of \$313,000 and the Canadian Northern a gain of \$241,500. The Northern Pacific has \$120,253 gain, but the Great Northern has fallen \$346,125 behind.

As far as the losses in earnings by the separate roads are concerned, these of course, the same as heretofore, are much more numerous than the gains. The large Southern systems are particularly prominent in this respect, the Southern Railway showing a decrease of \$579,411 and the Louisville & Nashville a decrease of \$331,222. The Illinois Central, which also has an important line through the Southern States, reports a by the Inter-State Commerce Commission.

itized for FRASER o://fraser.stlouisfed.org/ loss of \$565,213. In the following we have brought together all changes for the separate roads for amounts in excess of \$30,000, whether gains or losses.

LEGAL INVESTMENTS FOR MASSACHUSETTS SAVINGS BANKS.

The office of the State Bank Commissioner in a circular issued under date of Nov. 6 gives a list of the bonds which, in the opinion of that Department, are legal investments for Massachusetts savings banks under clauses third, jourth, fifth and sixth of Section 68 of the new law regarding savings bank investments passed by the Massachusetts Legislature the present year, (Chapter 590 of the Acts of 1908,) and which was printed in the "Chronicle" of Aug. 1 1908, p. 257. We give herewith the complete text of the circular. The prices added (for Oct. 31) were supplied to the savings banks by Mr. Pierre Jay, the Commissioner, for use in making their annual reports as of that date.

Al reports as of that dates. COMMONWEALTH OF MASSACHUSETTS. Office of the Bank Commissioner Room 124, State House. Boston, Nov. 6 1908.

Room 124, State House. To Treasurers of Sacings Hanks: The following bonds are, in the opinion of the department, legal invest-ments for sav pers banks under the provisions of clauses third, fourth, furth and strict of section 68 of chapter 500 of the Acts of 1008. Chapter 500 of the Acts of 1008. Thuse third is the new general law relating to railroad bonds. Clause fourth provides that issues which compiled with the old law shall continue, under certain conditions, to be legal investments. In this list the bonds which do not comply with clause third but continue legal through clause fourth are printed in italies. The reason why each of these issues fails to comply with the new law is indicated by the asterisks and other signs the meaning of which is explained in the footnote. Clause 1Mth relates to investments in street railway bonds and clause stath to investments in telephone company bonds. To lowing the list of bonds will be found a list of citles, the legally author, ized bonds of which, issued either for other than municipal purposes, in the opinion of this department are at present legal investments for stores banks under the provisions of subdivision e of clause there of the section mentioned above. Respectfully yours.

Respectfully yours, PIERRE JAY, Bank Commissioner. RAILROAD BONDS.

It was ville, Ind. Pittsburch. Pa. Youngstown, O. Rachne, Wis It will be observed that the list of bonds given for the New York New Haven & Hartford system does not include any of the large issues made during the last two or three years. Among these are \$15,000,000 debenture 4s, issued in 1906 and due in 1956; \$27,985,000 debenture 4s, issued in 1907 and due in 1922; \$39,029,600 6% gold convertible debentures, issued in 1908 and due in 1948; \$19,989,000 debenture 4s, issued in 1907 and due in 1957, and others. The reasonforomitting these issues is apparently found in the note given after the New Haven bond issues above. This note states that only those issues of bonds, notes and other cvidences of indebtedness which, taken in the order of their issue, do not exceed the amount of the capital stock of the company actually paid in, are held to be legal invest-ments by the Attorney-General.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO.'S.

-The public sales of bank stocks this week aggregate 224 shares, of which 109 shares were sold at the Stock Exchange and 115 shares at auction. The transactions in trust company stocks reach a total of 54 shares. A 100-share lot of stock of the Mercantile National Bank was sold at 1351/2, an advance of 914 points over the price paid at the last previous sale, which was made in September. An advance in price is also recorded for American Exchange National Bank stock, a sale having been made at 240, as against 234 last month.

* Sold at the Stock Exchange.

-George S. Terry was yesterday appointed by President Roosevelt Assistant Treasurer of the United States at New York, to succeed Hamilton Fish, who resigned on October 31 owing to his acceptance of the Republican nomination

for Congress. -Senator Hopkins of Illinois has been appointed by Vice-President Fairbanks a member of the National Monetary Commission (which was named under the provisions of the Aldrich-Vreeland Currency Bill) to fill the vacancy due to the death of Senator Allison of Iowa.

-A New York Stock Exchange membership was reported transferred this week for \$75,000, the last previous sale being given as \$70,000.

-Announcement was made by the Knickerbocker Trust Co. of this city on Tuesday that its directors had authorized the payment on Nov. 161908 of the 6th, 7th, 8th, 9th and 10th installments, of 5% each, due depositors from April 261909 to Dec. 26 1909, inclusive. The 25% which thus becomes available through the anticipation of these five installments, applies to the certificates of deposit received by depositors for 70% of their accounts, and brings the amount of these certificates paid up to 55% of the total. Under the reorganization plan, payment was to extend over two years; the company, however, in less than eight months has met over 50% of the amount the certificates represent as follows:

					1.00			
Ist	Installment,	10%,	paid	with	rea	sumptle	on March 2	6 1908.

the certificates representing 70% of the deposits. The remainder of the deposits, 30%, are represented by surplus certificates, "Series A," bearing 4% interest, the principal of which is payable only out of net earnings and surplus; the surplus, however, is in no event to be reduced below \$8,-000,000 by reason of any such payment.

-Henry R. Carse, heretofore an Assistant Cashier of the Hanover National Bank of this city, was elected a Vice-President of the institution at a directors' meeting on the 10th inst. J. Niemann and William Donald were at the same time appointed Assistant Cashiers. Mr. Carse served in the assistant cashiership for over eight years, having been appointed to the post in April 1900.

-Three new members were added this week to the board of directors of the Mutual Alliance Trust Co. of this city in the election thereto of Edward M. Weld of Stephen M. Weld & Co., Reinhard Siedenburg of Rhd. Seidenburg & Co. and F. V. Baldwin, Cashier of the Commercial & Farmers' National Bank of Baltimore. The election of nine other new members to the directorate of the company was noted last Saturday.

-That very useful publication of the United States Mortgage & Trust Company-"Trust Companies of the United States"-furnishing statements of condition, &c., regarding the different institutions of this character throughout the United States, has been brought down to date, the 1908 edition having just been issued. The information to be found in the work, besides the return of condition of each company for June 30 1908, consists of the list of officers, directors, correspondents, the dividend rates and the stock quotations of the various institutions. Indexes, alphabetically arranged both as to companies and cities, are incorporated in the book. The Audit Company of New York is credited with the compilation of the work.

-The complete report of the fifteenth annual convention of the New York State Bankers' Association, held in July at the Thousand Islands, is at hand. It is presented in the usual dainty style-bound in the white and gold covers which have distinguished the reports covering previous annual gatherings of the association. Although the publication is smaller in size than most reports of this nature, it furnishes a complete review of the meeting, which extended over two days, and contains other data usually incorporated in the work, of which the membership list is a part. The officers elected at the July meeting are: President, Edward S. Tefft, Cashier of the First National Bank of Syracuse; Vice-President, Frederic E. Lyford, President of the First National Bank of Waverly; Treasurer, Delmer Runkle, Cashier of the People's National Bank of Hoosick Falls; Secretary, Edward O. Eldredge of New York City, and Assistant Secretary W. J. Henry of New York City.

-The death was announced last week of Edmund S. Bailey, for many years a prominent dealer and authority on insurance stocks. Mr. Bailey had been in business since 1865, and was held in high esteem in insurance circles. August F. Carell, who had been with Mr. Bailey since 1890, will continue the business.

The new bank building of the Brooklyn Bank of Brooklyn Borough, at 585-587 Fulton Street, will be open for public inspection on Monday next, the 16th inst., and on Tuesday the main office of the institution will be removed to the new quarters. The business of the branch at 27 Flatbush Avenue will be transferred to the main office, and the present headquarters at Fulton and Clinton streets will thereafter become a branch. The bank's new building is modern in every respect. It is constructed of sandstone and iron, with a white marble interior and fixtures of mahogany and bronze. The main banking room is on the ground floor, while the basement is given over to the safe deposit vaults. The officers' rooms are located on the second floor. The bank was one of the institutions which was obliged to close last October. It reopened on June 23 under favorable auspices, and is now showing renewed growth.

-The U. S. Supreme Court on the 9th inst affirmed the decision of the New Jersey Court of Appeals in sustaining the convictions of Albert C. Twining and D. C. Cornell, respectively former President and Treasurer of the failed Monmouth Trust & Safe Deposit Co. of Asbury Park, N. J. The trust company, with the First National Bank of

Asbury Park, closed its doors in Feb. 1903. The following year the accused were convicted in the Monmouth County Quarter Sessions on alleged charges of deceiving a bank examiner, in exhibiting a paper purporting to give authority from the trustees of the company for the purchase of a number of shares of the bank's stock; no such authority, it is said, had been given, and it was contended that the showing had been made to cover up the misapplication of about \$30,000 of the company's funds. On these charges the defendants were sentenced to six and four years respectively. The verdict was sustained by the Court of Errors and Appeals at Trenton in Nov. 1906, and the decision of the latter is now affirmed by the Supreme Court. The case was appealed by the defendants on the ground that at the time of the trial the judge pointed out to the jury as evidence of their guilt the fact that they had failed to testify in their own behalfthis, it was contended, being a denial of the rights guaranteed by the Constitution, in so far as it exempts one from compulsory self-incrimination. The prevailing opinion of the Court was a lengthy one, and was delivered by Justice Moody, who held that if the exemption exists at all, it is incident to State and not to national citizenship, and the law of New Jersey permits an inference of probable guilt to be drawn from failure to testify. A dissenting opinion was rendered by Justice Harlan, who averred that he could not support any judgment declaring that immunity from self-incrimination is not one of the privileges or immunities of national citizenship nor a part of the liberty guaranteed by the Fourteenth Amendment of the Constitution. "I will never agree," he said, "that compelling of a citizen of the United States when charged with a crime to be a witness against himself-a principle which this Court has said was abhorrent to the instincts of Americans and contrary to the principles of free government-may be made the law of a State, enforcable against citizens of the United States.'

--Charles W. Jones, formerly Cashier of the First National Bank of Seabright, N. J., was arrested last week and placed under bail of \$10,000 on alleged charges of embezzling funds of the institution to the extent of \$16,000, and the falsifying of its accounts. The bank is said to have recovered the full amount of the shortage from the estate of the accused, who resigned the cashiership on Oct. 1. The institution has a capital of \$25,000.

-The deed recording the transfer to the Franklin National Bank of Philadelphia of the old building formerly occupied by the Girard Trust Co. at the northeast corner of Broad and Chestnut streets, was filed on the 2d inst. The purchase of the building by the Franklin was actually effected some few years ago, but the bank's removal there occurred only last month, shortly after the Girard Trust took possession of its new quarters. The purchase price is reported to be \$1,950,-000, of which \$1,500,000 is said to remain on mortgage.

-Robert Ohnmeiss, Jr., former Assistant Treasurer and Paying Teller of the Marine Trust Co. of Atlantic City, N. J., was sentenced on the 6th inst to two years' imprisonment, for the embezzlement of \$20,500 of the institution's funds. Ohnmeiss was arrested on the charge last July; he was indicted by the Grand Jury on Oct. 27, and pleaded guilty.

-The Manufacturers' & Merchants' Bank of Gloversville, N. Y., has decided to enter the national system under the name of the City National Bank. The proposed change was approved by the Federal authorities on Oct. 30. The stockholders of the bank recently ratified a proposition to increase the capital from \$150,000 to \$200,000, and the additional stock, it is understood, will be sold at \$300 per share.

-Peter W. Wren has become President of the Pequonnock National Bank of Bridgeport, Conn., succeeding the late David Trubee.

-Francis W. Fabyan, of Bliss, Fabyan & Co. and Henry H., Proctor, President of Proctor, Ellison Co., have been elected directors of the New England Trust Co. of Boston.

-The Boston Stock Exchange house of Burnham, Bennett & Co. at 131 State Street, made an assignment on the 9th inst. to Guy W. Cox, an attorney. One of the causes of the suspension is said to have been the inability of eustomers to respond to calls for margins on short account. The partnership consisted of Charles H. Burnham Jr., the Exchange member, John E. Gilereast and J. Q. Bennett, special partner. A meeting of the creditors will be held on

/fraser.stlouisfed.org/

the 18th inst. Assignee Cox states that most of the indebtedness is amply protected by collateral, and it is hoped that an arrangement satisfactory to all the creditors can be made, to the end that the firm may resume business. An accounting of the books, it is said, shows assets of approximately \$170,000 and liabilities of about \$260,000.

-The First National Bank of New Kensington, Pa., was closed on the 7th inst under orders from the Comptroller of the Currency. National Bank Examiner John B. Cunningham is reported as stating that the action was the result of bad loans made by a former Cashier. The bank was organized in 1893.

-The investigation recently made by the Department of Justice, under direction of President Roosevelt, into the charges of unnecessary delay in the trial of Cashier Rinehart of the failed Farmers' & Drovers' National Bank of Waynesburg, Pa., relieves United States Attorney John W. Dunkle of the imputation of negligence in the matter. The investigation resulted from a conference held last month with the President by a committee representing the depositors of the bank, to which we referred in our issue of October 24. The report was made by Chief Examiner Stanley W. Finch and E. W. Laurence, Special Assistant to the Attorney-General, and is in part as follows:

After hearing all the test ony submitted by the persons who made the charges, as well as all we were able to obtain from other sources regarding the said charges, we are clearly of the opinion that there has been no improper delay on the part of Mr. Dunkle in bringing the Rinchart case to trial, but that, on the contrary, he has exercised due diligence in endeavoring to secure a speedy trial of these cases.

The bank above mentioned having been closed by the Treasury Depart-ment in the early part of December 1906, Mr. Dunkle promptly requested that a bank examiner be detailed to prepare the evidence in the case, and pursuant to the said request Mr. Starek was designated by the Treasury Department for that purpose and worked on the cases until the indictments were returned.

the time the indictments were returned it was expected that the cases would come on for trial at the May 1908 term of court, but owing to Mr. Starek'sinability to devote sufficient time to preparing the evidencei t was not possible to try the cases at that term and they were therefore continued until the October 1908 term. During the interval between the May term and the October 1908 term. and the October tows term, or material progress was made in the preparation of the evidence in these cases on account of the inability of the United States Attorney to secure the services of Mr. Starek for the purpose, and consequently at the latter term the cases were continued and set down for trial on January 4 1909.

They further state that they are convinced that unusual difficulties were mot by reason of the confused and unsatisfactory condition of the records of the bank.

-The Colonial Trust Co. of Pittsburgh, as receiver of the firm of Whitney & Stephenson, in a statement calling attention to the fact that all claims against the firm must be filed by Dec. 7 1908 (a year having on that date clapsed since the appointment of the receiver), states that "as the affairs of the estate now stand, there will be little or no dividend to be paid to creditors."

John M. McKee, former President of the defunct First National Bank of Clintonville, Pa., and William C. McKee, a director, were found guilty on the 6th inst of misapplication of the institution's funds. The Clintonville bank and the Farmers' National of Emlenton, an affiliated institution, were placed in the hands of receivers on April 24 last, but the Emlenton institution re-opened in August, having been e organized with C. F. Stevenson as Cashier. Last month William C. McKee, who was Cashier of the Emlenton bank at the time of its suspension, was tried on the charge of abstraction of the funds of that institution, and acquitted.

It is reported that the Metropolitan Bank & Trust Co. of Cincinnati will increase its capital from \$\$1,000 to \$200,000, and will add a trust department to its business. One-half of the increase is to be allotted to the present stockholders at \$120 a share, and the remaining half offered for public subscription at the same price. The bank began business in July 1907 with T. F. McClure as President.

-W. Harry Schmick, formerly Cashier of the closed First National Bank of Lectonia, Ohio, who was indicted with his father, C. N. Schmick, President of the bank, on charges of embezzlement and the making of false entries, was sentenced on the 9th inst to five years' imprisonment. His father was set free. The bank closed its doors on Nov. 4 1907.

-The Northwest Savings Bank of Chicago is to be reorganized after the first of the year as the Northwest State over the assets of the present bank, selling its stock, according to the Chicago papers, at \$110 per share, and using the premium of \$10 towards paying for the reorganization expenses and the good-will of the savings bank. Joseph R. Noel, President, will continue at the head of the new organization; H. B. Berentson will be Vice-President and A. S. Boos will be Cashier.

John A. McCormick has been elected a Vice-President of the Chicago Savings Bank & Trust Co. of Chicago and Houston Jones has been chosen Cashier succeeding William Rupp Jr., resigned.

John W. Thomas, President of the First National Bank of Chicago Heights, Ill., and formerly Mayor of that City, died at his home on the 11th inst. from a combination of pneumonia and heart disease. He was 52 years of age.

-Daniel McCoy, Vice-President of the Kent State Bank of Grand Rapids and formerly State Treasurer of Michigan, died on the 7th inst. Mr. McCoy was one of the organizers of the State Bank of Michigan, and was its President at the time of its consolidation in July last with the Kent County Savings Bank under the name of the Kent State Bank, when he became active Vice-President of the enlarged bank.

-The Citizens' & Farmers' State Bank of Arkansas City, Kansas, closed its doors on the 6th inst, pending, so an announcement on the doors stated, an investigation of its affairs. The recent failure of the C.T. Wells Produce Co. of Arkansas City is said to have left the bank with \$70,000 of worthless paper, and it was therefor decided to close the institution until an examination was made by the State authorities. The bank has \$50,000 capital. A. F. Thomasson, who lately became Vice-President, having purchased the interest of A. H. Denton, is stated to have been the active manager. J. R. Morse was directed to take charge of the affairs on the 10th inst.

-James B. Brown has been elected President of the First National Bank of Louisville, Ky., to succeed Clint C. Mc larty, resigned. Mr. Brown has been Cashier of the First National Bank since 1906, and previous to his connection with the institution had been Tax Receiver in Louisville. He has been acting President of the bank since Mr. McClarty's retirement, in September last. The post of Cashier, it is understood, will not be filled until the annual meeting in January; Assistant Cashier Charles N. Matthews is in the meantime Acting Cashier.

-Julius H. Jahnz was chosen as President pro tem of the Germania Savings Bank of Charleston, S. C., at a meeting of the directors on the 4th inst. A permanent head will be named at a future meeting.

William Adler, former President of the State National Bank of New Orleans, who was indicted last March on charges of misapplication of the bank's funds, was arrested upon his return to New Orleans on the 9th inst. from Honduras, where he had gone following his resignation as President of the institution last December. He was released under bail of \$10,000. The bank was placed in voluntary liquidation on January 30, the resignation of President Adler having resulted in heavy withdrawals, despite the fact that an examination by a committee representing the Clearing House showed it to be in a solvent condition.

-Oscar Kondert, formerly Cashier of the First National Bank of Baton Rouge, La., charged with the embezzlement and misappropriation of about \$50,000 of the institution's funds, has been sentenced to five years imprisonment. As stated in our issue of July 4 1908, Kondert was a defaulter to the extent of \$95,176, but of this amount \$51,316 was repaid, leaving a shortage of \$43,860. Before Judge Saunders, in the United States Court, Kondert pleaded guilty to the charges against him, and submitted letters from D. M. Reymond and Thomas B. Williams, respectively President and Cashier of the First National Bank, stating that he had made restitution to the best of his ability and asking for elemency. Because of the fact that Kondert had not applied the funds to his own use, and other extenuating circumstances,"Judge Saunders passed upon him the minimum punishment.

-A final dividend of 2.3% has been declared to the depositors of the Citizens' National Bank of Beaumont, Tex. Bank, with \$200,000 capital. The new institution will take The total payment is thus brought up to 95.3%. The last

previous dividend (8%) was paid more than two years ago, in July 1906. The bank closed its doors in Aug. 1903.

-The name of the Renters Loan & Trust Co. of San Francisco is soon to be changed to the Marine Trust & Savings Bank. The institution intends to move its offices to 100 Market St., where, it is said, it will be equipped with safe deposit vaults. George M. Perine is President of the company.

-The stockholders of the Union National Bank of Oakland, Cal., have brought suit against Thomas Prather, formerly President, Edson F. Adams, formerly Vice-President, and John Adams, director, to recover \$150,000 alleged to have been loaned in violation of the banking laws, which prohibit a loan to an individual in excess of 10% of the capital and surplus of an institution. The bank closed its doors last November. It was reorganized, resuming business on Jan. 2 under a deferred-payment basis.

-It is intended to convert the Crown City Bank of Pasadena, Cal., into the Crown City National Bank, an application to this end having been approved by the Comptroller of the Currency. As a national institution the bank will have \$100,000 capital.

-Daniel Kelleher, a director of the Seattle National Bank of Seattle, Wash., has purchased the holdings in the bank acquired a year ago by Eastern bankers, in which transaction interests in the National City Bank of New York were chiefly identified. The change in ownership of the stock carries with it, it is stated, the retirement of Bert Clark, who, as representative of the National City Bank parties, had been elected a Vice-President and director of the Seattle institution. The bank in October 1907 increased its capital from \$300,000 to \$500,000, \$100,000 of the new stock being taken by the Eastern parties from whom it is now purchased.

-The death has occurred of Thomas E. Kenny, President of the Royal Bank of Canada (head office, Montreal). Mr. Kenny was born in Halifax in 1833.

IMPORTS AND EXPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

SAN FRANCISCO. The Collector of Customs at San Francisco has furnished us this week with the details of the imports and exports of gold and silver through that port for the month of September, and we give them below in conjunction with the figures for preceding months, thus completing the results for the nine months of the calendar year 1908. The imports of gold were of important volume, reaching \$917,291, of which \$741,965 coin. Of silver there came in \$172,304, almost wholly bullion. During the nine months there was received a total of \$3,671,728 gold and \$2,048,946 silver, which com-pares with \$2,695,545 gold and \$2,630,969 silver in 1907. The shipments of gold during September were only \$540 coin, and the exports of silver were \$475,500, almost wholly bullon. For the nine months the exports of gold reached \$19,143, against \$2,046,490 in 1907. The exhibit for September and for the nine months is as follows: IMPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

a Including Government deposits, and for Boston and Philadelphia, the liter "due to other banka". At New York Covernment deposits amounted to \$9,249 600 on November 7, against \$9,253,000 on October 31; at Boston, to \$1,593 000 on November 7 and \$1,512,000 on October 31.

Banking and Financial.

HANOVER BANK BUILDING 5 NASSAU STREET. DEALERS IN INVESTMENT SECURITIES. Commission Orders Executed or Cash Ont

Bankers' Gazette.

 Wall Street, Friday Night, Nov. 13 1908.

 The Money Market and Financial Situation. — The interest which developed in Stock Exchange circles immediately following the election has continued in force throughout the week and, as a result, twenty out of a list of thirty active stocks have advanced to new and highest quotations for the year. The character of the trading has changed somewhat, however, the investment demand which was so much in evidence last week having partially subsided. Prominent bond houses report a falling off in the call for high-grade issues at the counter. Perhaps the normal investment business has been interfered with by bids for the \$20,000.

 Millinois Central ref.4s, which were largely oversubscribed.

 The news of the week is generally of a favorable character. The confidence which was established by the election of Mr. Taft seems to be substantial and evidences of increasing industrial activity are abundant. The securities of several industrial companies have been in active demand, notably those of the United States Steel Corporation, the common shares of which, as mentioned below, have advanced to the highest quotations in their history. The Government report of our foreign trade for the month of October shows a very large export movement of agricultural products and total exports larger than for any previous month of the year.

 The Bank of England weekly statement on Thursday showed a decrease in buillon of £147,294 and the percentage of reserve to liabilities was 53.03, against 51.96 last week.

 The rate of discount remains unchanged at 21/2% as fixed May 28. The Bank of France shows an increase of 10,950,-000 france gold and 1.350,000 france silver.

 Image: Market Rest of Rest of Rest of Rest of Rest of Reserve to liabilities was 53.03, against 51.96 last week Wall Street, Friday Night, Nov. 13 1908. The Money Market and Financial Situation .- The interest

Pus: k 1-16 of 1%, x 1-32 of 1%, y 3-32 of 1%.

Pue: kills of 1%, 2132 of 7%. 9332 of 7%. State and Railroad Bonds.—Sales of State bonds at the Board \$21,000 Virginia 6s def, trust receipts at 37 to 37¹/₂. The market for railway and industrial bonds has been very active and several issues have made unusual progress in the direction of higher prices. Interboro-Metropolitan 4¹/₂/₈ were a conspicuous feature to-day, the transactions being on an enormous scale, and the price advancing nearly 4 points. Some of the Eric issues have been strong through-out the week, showing at the close an advance of 4 to 6 points

United States Bonds .- Sales of Government bonds at the Board include \$32,000 4s, reg., 1925, at 120% to 121, and \$200 3s coup., 1908-18, small bonds, at 10014. The following are the daily closing quotations; for yearly range see third page following.

	Interest Periods		Nov.	Nov.	Nov.	Nav. 12	Nev. 13
38, 1908-18registered	Q-Feb Q-Feb Q-Feb Q-Feb	10034 10034 100 12034 101	104 1003 1003 100 1203 121	*104 *10034 *10034 *100 121	*104 *10016 *100 *100 12056	*104 -10015 10035 *100 *12036	*10015 *10035 10035 *12035

This is the price bid at the merning board; no sale was made. Railroad and Miscellaneous Stocks.-The stock market Railroad and Miscellaneous Stocks.—The stock market has continued unusually active, the transactions averaging about 1½ million shares per day. Prices generally advanced until Tuesday. Sales to realize profits followed, logically, this advance, which led to a recession of about a point in the active list. To-day's market was again buoyant, and the transactions, amounting to 1,641,322 shares, were the largest since March 25 1907. Stocks commonly known as the Harriman group were notably strong early in the week, under the lead of Southern Pacific, which sold on Tuesday over 7 points higher than its previous highest record for the year. United States Steel common has been in constant demand, on reports of improve-ment in the iron and steel industry, and sold up to 58%4, the highest price in its history—the previous highest (55) having been recorded in April 1901. The following table, in which is recorded the selling prices on Monday, Nov. 2, and the closing to-day, of 25 active issues, is interesting as showing the effect of the election. *Clos'g Nor. 2. THE CHRONICLE

Investment and Railroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the street ratuways are brought together separately on a subsequent page.

ANNUAL REPORTS.

Atlanta Birmingham & Atlantic Railroad.

(Report for Fiscal Year ending June 30 1908.) President H. M. Atkinson, Atlanta, Ga., Oct. 1, 1908, wrote in substance:

President H. M. Atkinson, Atlanta, Ga., Oct. 1, 1908, wrote in substance: Miteage—On June 30 1908 the main lines and branches in operation aggregated 571.6 miles, and there was under construction: Tailiadega to aggregated 571.6 miles, and there was under construction: Tailiadega to aggregated 571.6 miles, and there was under construction: Tailiadega to aggregated 571.6 miles, and there was under construction: Tailiadega to aggregated 571.6 miles, and there was under construction. Tailiadega to aggregated 571.6 miles, and there was under construction. Including Tetham to firmingham, 19 miles, operated under trackage contract with L. & N. RF. Birmingham, 19 miles, operated under trackage contract with L. & N. RF. 1908 and the line between Tailadega and Birmingham Sent. 6 1908. Beginning with Sept. 6 1908 the entire system was for the first time in complete operation. Construction work is completed with the exception of small part of the vork west of Pellam, Ala. Under trackage contract with the Louisville & Nashville RR. from Pel-ham to Birmingham, and the same contract covers the use of the to the etty of Birmingham, and the same contract covers the use of the to Birmingham; consequently, it has been decided to defer laying A. B. & A. Tails from Pelham west through Bessemer into the city of Birmingham and to Mulga for the present. Terminals are completed and in operation. Property has been acquired necessary for terminals are entirely completed. The Terminals are completed and in operation work has been ingham district, and a large amount of construction work has been acquired necessary for terminals are entirely Birmingham. and the Mulga for the S. & A. decide to discontinue the use of the Louis-uning due 30 1908, with comparative figures for the year Biodo-7. More and Brunswick. Termings ---He brunswick Steamship Co. has five steamships in regular operation, in connection with the A. B. & A. R. between New York and Brunswick. Ann Arbor Railroad.

Ann Arbor Railroad. (Report for Fiscal Year ending June 30 1908.) President E. Zimmerman says in substance: General Results.—The accounts have been kept for this year in conformity with the directions of the Inter-State Commerce Commission effective July 1 1907. For proper comparison with previous years, aux i ary statements have been compiled, affecting the revenues, expenses and income For the purpose of comparison with the basis used for preceding year ending June 30 1007, the gross earnings decreased \$23,123, or 10.6%; operating expenses increased \$3,614, or 6.10%. The ratio of operating expenses to earnings was 73.04%, as compared with 64.86% in previous year. The decrease in gross provides in because of financial and husba

Tor the purpose of comparison with the base of \$231,223, or 10.6%: energy in a 20 1907, the gross earnings decreased \$21,223, or 10.6%: the result of operating carenesses increased \$30,614, or 6,1052. The ratio of operating carenesses increased \$30,614, or 6,1052. The ratio of operating carenesses increased \$30,614, or 6,1052. The ratio of operating carenesses in transfer on solver and the reduction in passenger rate proves the considerably increased early in 1907, and the reduction in passenger the passenger care rows of the end of the face were considerably increased early in 1907, and the reduction of the discussion of the end of the face and the reduction in passenger at the reduction of the discussion of the discussio

fund. Terminals.—Your company has acquired the right to use jointly with other companies the new passenger station of the New Orleans Terminal Co., fronting on Canal Street, New Orleans. This station was opened for traffic on June 1 1098. On same date the New Orleans Great Northern traffic on June 1 1098. On same date the New Orleans Great Northern transferred its passenger terminal from your Press St. station to the term-inal station. A new agreement was entered into under date of June 11 1907, covering the joint use of the yards and freight station facilities at Meridian taking the offect upon completion of the new freight station of the Alabama & Wicksburg Ry, which was opened for use Feb. 1 1908. Under this con-tract your company has largely increased facilities for handling freight at that point.

New York Susquehanna & Western Railroad.

(Report for Fiscal Year ending June 30 1908.)

President F. D. Underwood, under date of New York, Oct. 13 1908, says:

Oct. 13 1908, snys: General Results.--While both the operating revenue and perating expenses show increases, no comparative statistics can be given owing to the variation between the classification under which your company stated its operating revenues and operating expenses prior to July 1 1907, and that ordered by the Inter St te Commerce Commission effective July 1 1907, in accordance with which your company's accounts during the past facal year have been kept. The income account shows that your company, after having expended 552,699 for additions and betterments, carried a debit malance of \$147,006 to profit and loss during the current year. Cost of road and equipment shows an increase of \$50,550, caused prin-chally by additional land having been purchased and charged to this account. The reserve funds increased \$58,245 and at the close of the year amounted to \$360,365. The current assets exceed the current liabilities by \$249,138. EADMINUES AND EXAMPLE

EARNINGS AND EXPENSES.

Comparisons with previous years are inaccurate, the figures in 1907-08 having been compiled according to the new system prescribed by the inter-State Commerce Commission.

Total ______6.264,630 Total ______6.264,630 The necessity for raising the money required under the plan has arisen. In the first place, out of the fact that the receivership of the Consolidated Railway Lighting & Refrigrating Co. has affected adversely the credit of the Donsolidated Railway Electric Lighting & Equipment Co., which is is principal operating commany contribution and the company contribution orders is not yet considered as such by them. As on the other hand, the beginning of 1907 was exceedingly pomising, and the company had con-bility of the was exceedingly pomising, and the company had con-sidered it advisable to measure at non-was then believed to be a strong demand. All its available funds, supple-mented by its credit, were invested in materials, finished and raw stock, which the balance sheet shows. There is, however, no doubt in the mind of the committee that the finan-orial condition of our railways is improving. It is, moreover, admitted by will in the near future be greatly extended, so that there is no occasion for showing to loss confidence and allow their properties to go by default.--V. 87, p. 1239.

Commonwealth Edison Co., Chicago.

(Report for Fiscal Year ending Sept. 30 1908.)

President Samuel Insull says in substance:

President Samuel Insull says in substance: The company came into leval existence and began business on Sept. 17, 1007. Hrough the consolidation of the Ohicago Edison Co. and the Com-monwealth Electric Co., and the net earnings for the period from that date to Sept. 30 1007 are, for convenience, included in the surplus brought down on Sept. 30 1007. The making of a detailed inventory and valuation of the property and fusiness acquired through the consolidation was intrusted to H. M. Byliesby 4 Co., encineers, whose exhaustive report, after an examination extending over a period of six months, has been taken as the basis for the initial in-vestment entries in the company's books. The company's connected business (cardinate of the quivalent of 137,600 standard sixteen candle power amounted to the equivalent of 73,000 h. p., under leng-time contracts running from 5 to 10 years, to street raliways and other public service corporations, which have found its to their interest to purchase power.

101

The earnings for the year ending Sept. 30 1908 compare with the combined results of the former Chicago Edison Co. and Commonwealth Electric Co. for the years ending March 31 1907 and 1906 as follows:

Mergenthaler Linotype Company.

(Report for Fiscal Year ending Sept. 30 1908.)

President Philip T. Dodge, Oct. 20 1908, wrote in substance:

President Philip T. Dodge, Oct. 20 1908, wrote in sub-stance: General Results.—Although the year has been one of almost universa depression in America, and to a less extent in foreign countries, and al-though the printing industry was seriously affected, the company earned and paid its usual dividends, without incurring indebtedness of any kind. This result was due not only to the excellence of its modern machines but also to the existence of a surplus which rendered it unnecessary to seek outside financial assistance. It was also largely due to the energy of the sales department and agencies, which succeded in maintaining a high percentage of the volume of business done in more fayorable years. The net gain for the year was \$2,436,716—an amount exceeded in only two years of the company's existence. The business is limited by the competition of European manu-facturers. Up to the present time they have made no attempt to invad-the American market, but existing conditions indicate that it would be wise to regain certain of these interests now minimized in value. If it can be done on favorable terms. During a portion of the year a the Brooklyn factory was operated on short time, and many other steps were taken to reduce the operating expenses to correspind with the decreased demand for machines. In addition to the standard machines of various patterns, the factory has produced during the year a substantial number of asmaller machines used by the standard machines of various patterns, the factory was been completed and equipped, and is use. It is cast was within the estimates, and it is found to be in every respect satisfactory for its purpose. It is absolutely fire-proof and alfords greatly increased facilities to manutaturing. The factory in Montreal, engaged principally in the production of the so-called Monoline machines, has been continued with astisfactory results. The free proof agency building in San Francisco has been completed.

and is in use. It is of modern construction in every respect and is regarded as a good investment. Outlook.—Reports from all the American territory show a general and steady improvement in lines of business which directly affects the printing trade and the demand for the company's products.

to be prepared. Appeal from Order Directing Joint Rate.—The Public Ser-vice Commission on Wednesday, by a vote of 4 to 1, re-affirmed its order directing the making of a joint 5-cent rate with the Central Park North & East River RR. Justice Truax of the Supreme Court on Thursday, on application of Central Park North & East River RR., granted an order to show cause, returnable in 20 days, why a writ of certiorari should not be issued to review the order made by the Com-mission. It was announced that the Commission will apply

should not be issued to review the order made by the Com-mission. It was announced that the Commission will apply to the Appellate Division next Friday to vacate the order to show cause. —V. 87, p. 1238, 1011. Second Avenue Line Turned Over—More Transfers Cut Off.—See that company below.—V. 87, p. 1238, 1011. Municipal Traction Co.—Receivership.—Judge Tayler in the United States Circuit Court on Thursday, in the suit brought by the Central Trust Co. of N. Y., the trustee of the three issues of bonds of the Cleveland Ry., aggregating about \$9,000,000, appointed Warren Bicknell of Cleveland, President of the Springfield (O.) & Xenia Ry. and Havana (Cuba) Electric Ry., and F. A. Scott, Secretary of the Su-perior Savings & Trust Co., receivers of the Municipal Traction Co. and the property covered by the three mort-gages. gages.

Traction Co. and the property covered by the three mortgages.
 The receivership is granted because of the insolvency of the Municipal Company, which the Court says has practically no assets, since it loss the loss of the cleveland Ry. lines at the recent referendum election, and also because of the claveland Ry. lines at the recent referendum election, and also because of the claveland Ry. lines at the recent referendum election, and also because of the claveland Ry. Inces at the recent referendum election, and also because of the claveland Ry. Inces at the recent procession of the lines covered by the lease and the receivership was granted on condition that the Cleveland Ry. waive lessee company. The purpose of the Court is to preserve the property, possession of which, it is stated, is wrongfully withheld, in the hope that a new franchise may be arranged.
 The Trust Co. asked for a receiver for the mortgaged property in order to prevent waste at the hands of an irresponsible party claiming to be lessee, but, creditors intervening, a receiver for the Municipal Co. was suppointed as well in the same suit. There has been no draft in payment of interest under any of the three mortgages, nor any allegation of the insolvency of the Cleveland Ry.
 The Ingersoit-Rand Co. and other creditors also rec nity brought suit against the Municipal Co. Was sheed for. The latter has sold from time to time through its "free stock exchange" a the amount of Cleveland Ry, stock has been selling on the regular stock are alwayed latter as a block at part and accrued luterest at 6%. The Cleuring Ry, stock has been brought a moral obligation is admitted, and a test suit has been brought to enforce re-payment for stock purchased through the "exchange". A public allocing a block of 4% debenture bonds, dated 1904 and due May 1 1934, being a portion of the bonds sold by the company some months ago (V. 86, p. 1467). Total authorized issue \$50,-000,000; outstanding \$43,000,000. -V. 87, p. 614,

American Tobacco Co.-Decision of Federal Court.--The United States Circuit Court of Appeals on Saturday last, by a vote of 3 to 1 (the main opinion being written by Judge Lacombe), upheld the position of the Government in its claim that the company and the other defendants in the suit begun in July 1907, with the exception of the

United Cigar Stores Co., British-American Tobacco Co. and

United Cigar Stores Co., British-American Tobacco Co. and the Imperial Tobacco Co., constitute a combination in restraint of trade in violation of the Sherman Anti-Trust Law, which should be dissolved. As to the companies last named, the petition is dismissed. The application made for a receivership of the main companies named as defendants was denied as unnecessary. The views taken by the majority of the Court make the case one of general interest and application. An editorial, showing the chief points discussed in the opinions will be found on preceding pages of this issue. See also V. 85, p. 101, 277.

p. 101, 277. President Duke in a letter enclosing copies of the opinions of the Court, and announcing that, pending an appeal to the Supreme Court, the business of the company will proceed as usual, says:

as usual, says: The officers subjected themselves to examination and furnished every facility for speedy and thorough investigation into all the affairs of the company, and it is gratifying that so searching an examination into all the details of operations has resulted in expressions of the Judges favorable to its methods and tendencies. They find, without dissent, that our methods and success have not injured the consumers of tobacco, have greatly benefited the producers of leaf tobacco by giving a larger market and higher prices, and that we have not resorted to unfair or oppressive competition. The only par-ticular in which this court has decided against the company is on a matter the facts of which this court and eco-partnerships doing business in the country. of the small corporations and co-partnerships doing business in the country. -V. 87, p. 680, 348. Barnew & Smith Car Co.-New President.-The following

-V. 87, p. 680, 343. Barney & Smith Car Co.—New President.—The following changes in officers are announced:

A. M. Kittredge, formerly Vice-President, has been elected President in place of J. D. Platt, who resigned on account of lil-health. H. M. Estabrook, formerly Second Vice-President, hecomes Vice-President, -V. 86, p. 741.

Works.—See Republic Iron & Steel Co. below.—V. 84, p.933.
(A.) Booth & Co., Chicago.—Tentative Plan.—The "Baltimore Sun" of Nov. 6 said:
An agreement for the reorganization of A. Booth & Co. has been submitted to the stockholders, many of whom are Baltimereans. The plan was evolved by a committee of business men in Chicago, acting with Mr. W. V. Booth, and provides an assessment of \$16 a share on the preferred stock and \$5 0 a share on the common stock. This assessment is based upon a settlement with the creditors which the committee deems satisfactory. It is contemplated to form a new company with a capital of \$6,034,400, to consist of \$3,215,000 preferred stock and \$2,839,400 common stock. In shares of \$100 each. Upon paying the proposed assessment the present common and preferred stock will receive share for share stock in the receivership proceedings and to provide requisite new capital. The assessments are intended to raise an additional \$500,000, which will be immediately available for the new concern in case the receivership proceedings and to provide requisite new capital. The assessments are intended to raise an additional \$500,000, which will be immediately available for the new concern in case the receivership proceedings and to provide requisite new capital. Cataract Power & Conduit Co., Buffalo.—Bond Issue.— This company, controlled by the Niagara Falls Power Co. through ownership of over 50% of the \$2,000,000 capital stock, recently obtained authority to sell at not less than 90% \$120,000 30-year 5% sinking fund gold bonds of \$1,000 each secured by the first mortgage dated Jan. I 1897. The proceeds will be used for additions and improvements.

proceeds will be used for additions and improvements. The mortgage is limited to \$2,000,000, of which \$1,200,000 will be outstanding including the new issue. Principal due Jan. 1 1027 without option of earlier redemption: interest payable J. & J. at office of Metro-politan Trust Co. of New York, the mortgage trustee. The company was incorporated in 1806 and transmits electricity from the plant of the Niagara Falls Power Co. to Bufalo for use by the municipality and manu-facturers. It is at present supplying about 40,000 horse-power. The bonds are not guaranteed by the Niagara Falls Power Co. As to the dividends paid, &c., see last report of that company in V.87, p. 221, 222; V. 62, p. 1138.

V. 62, p. 1138. Chicago Railway Equipment Co.—New Plant.—The "Railroad Gazette" of New York for Oct. 23 contained a description of the new plant and office building, which are located on a tract of 20 acres at 46th and Robey streets, Chicago. Prior to Jan. 1 1908 the company was located at 40th Street and Princeton Avenue.—V. 86, p. 1342.

Chicago. Prior to Jan. 1 1908 the company was located at 40th Street and Princeton Avenue.-V. 86, p. 1342.
Citizens Heat & Light Co., Elwood, Ind.-Sold.-At the foreclosure sale on Oct. 24 the property was bid in for \$50,000 by Edward B. Lewis, Edward R. Estberg and John L. Crawford. The purchasers, we understand, represent the bondholders. The judgment of the mortgage trustees, it is stated, was for \$364,939. Compare V. 77, p. 2100; V. 86, p. 670; V. 87, p. 482.
Cuyahoga Telephone Co., Cleveland.-Plan Not Consummated.-A press despatch from Cleveland on Nov. 10 announces that the deal by which it was proposed to lease the property of the United States (long distance) Telephone Co., the Cuyahoga Telephone Co. and the Columbus Citizens' Telephone Co. to a holding company for 999 years has been declared off.-V. 87, p. 547, 410.
Denver (Col.) Union Stock Yard Co.-Bonds Offered.-Kennett Cowan & Co.. Chicago, are offering by advertisement on another page, at 96 and interest, netting 5.35%, \$1,000,000 first mortgage 5% gold bonds covering property in the city of Denver valued by the Security Audit Co. of Illinois at \$3,361,673. The company is controlled by the largest packing interests in Chicago, and its earnings for the first half of 1908 increased about 43% over the same period of 1907. See further particulars in circular cited at length "Chroniele" of August 29, p. 548.
Eastern Steamship Co., Boston.-Loan Authorized.-

Eastern Steamship Co., Boston. — Loan Authorized. — Judge Putnam in the United States Circuit Court on Nov. 9 authorized the directors to borrow \$1,100,000 from Hayden, Stone & Co. of Boston on the company's notes per plan in Stone & Co. of V. 87, p. 1240.

Equitable Illuminating Gas Light Co. of Philadelphia.-Output.—The statement of income from gas sales in the city of Philadelphia during the quarter and nine months ending June 30, as filed with the city authorities, compares as follows:

General Rubber Co.—New President.—John J. Watson, Treasurer of the United States Rubber Co. has been elected President both of this company and the Rubber Goods Manufacturing Co.—V. 83, p. 1232.

Granby Consolidated Mining Smelting & Power Co., Ltd. —Dividend.—The directors on Nov. 10 declared a dividend of 2%, payable Dec. 15 to holders of record at noon Nov. 28. The last dividend was 2%, paid June 30 last. The smelting plant is running at its full capacity.—V. 87, p. 1088; V. 86, p. 1412.

p. 1412.
Hotel La Salle Co., Chicago.—Bonds Underwritten.— The Western Trust & Savings Bank, Chicago, the mortgage trustee, has underwritten at par the entire issue of \$1,500,000 first mortgage 6% serial bonds, the proceeds of which, or as much thereof as is necessary, along with the proceeds of sale of \$1,500,000 8% cumulative preferred stock which has also been written at par, in all \$3,300,000, less not exceeding \$25,000 for general expenses, are to be invested in the con-struction (\$2,800,000) and equipment (\$500,000) of a 24-story hotel, containing 1,172 rooms on the 99-year leaschold at the northwest corner of La Salle and Madison Streets, Chicago. This location is in the heart of the finan-cial district, where the hotel facilities it is stated, are very inadequate. Estimated equity in leasehold, \$700,000. The contract for construction has been let to the George A. Fuller Co., and guaranteed by the United States Realty & Improvement Co. Construction work has been inprogress since May 1 1908 and is to be completed about Sept. 1 1909. The bonds are dated Sept. 121:03 and will mature to annualinstaltments

since May 1 1908 and is to be completed about Sept. 1 1909. The bonds are dated Sept. 121008 and will mature in annualinstaliments on Jan. 1 from 1912 to 1938, both inclusive, \$22,500 yearly 1912 to 1918, \$45,000 yearly 1916 to 1910, and \$90,000 yearly 1920 to 1936, but subject to redempt on at 105 and interest on any interest day from July 1 1919 to July 1 1928, both inclusive, and at par and interest thereafter. De-nomination \$1,000 and \$500, c*. Interest, J.-I. The preferred stock may be increased by \$300,000 by sale at not less than par. Common stook, \$1,500,000. Total ground rent first year, \$50,000, second year, \$85,800, succeeding 5 years \$90,800, maximum \$92,800. Estimated gross reveue \$1,430,800 to \$1,490,250; net income available for interest and dividends, \$800,000 to \$895,050; maximum interest charge, \$108,000.

and dividends, \$300,000 to \$305,050; maximum interest charge, \$108,000.
 Hudson River Electric Co.—Bondholders' Commiltee.— Default having been made in the payment of interest due Nov. 1 1908 on the \$3,000,000 first mortgage 5% gold bonds (compare V. S6, p. 1097), and in view of the appointment of receivers of the company, the following protective com-mittee requests the deposit of these bonds on or before Dec. 1 1908 with Morton Trust Co., New York City, as de-positary, or with West End Trust Co. of Philadelphia, or Commonwealth Trust Co. of Boston, as agents:
 H. M. Francis, New York: Peter Boyd, Philadelphia; Albert L. Scott.

H. M. Francis, New York; Peter Boyd, Philadelphia; Albert L. Scott, Boston; J. I. Burke, Secretary, 38 Nassau St., New York, Counsel: Parker, Hatch & Sheehan, New York, and Gaston, Snow & Saltonstall, Boston (compare V. 87, p. 290, 350, 1090).-V. 87, p. 1240.

Indiana Natural Gas & Oil Co.—Listed—Guaranty.—The New York Stock Exchange has listed \$6,000,000 refunding mortgage 30-year 5% guaranteed bonds, due 1936.

mortgage 30-year 5% guaranteed bonds, due 1936. Of the total issue of \$6,000,000 (V. 83, p. 1203), \$4,000,000 were issued to retire a like amount of 6% bonds, all of which have been canceled, and the remaining \$2,000,000 were given in exchange for the company's \$2, 000,000 st.ck, which was then deposited as part security for the bonds. The bonds are endersed as I liws: "For value received, the People's Gas Light & Coke Co, hereby guarantees the due and punctual payment of the principal of and the interest up in the within bond according to lis tenor. The People's Gas Light & Coke Co, by _____ President." The mortgage securits the old 6% bonds, subtorized issue \$5,000,000, it is stated. "will be canceled of record at once."

Earnings .- For year ending Aug. 31 1908:

Kansas Natural Gas Co .- Report .- For the half-year ending August 31:

-v. 87, p. 548, 223: Madison Square Garden Co., New York.—Property to be Sold.—The shareholders, having received no dividends in the twenty years of the company's existence, have voted to place the property in the hands of George R. Read & Co., No. 60 Liberty St., for sale. The cost of the property is said to have been \$3,000,000, against which there are outstanding \$2,000,000 stock, \$1,250,000 1st M. 5% bonds and \$750,000 2d M. 6% bonds.—V. 71, p. 137. Movien National Surar Co.—Recipership.—Vice-Chan-

and 3750,000 2d M. 6% bonds.—V. 71, p. 137. Mexican National Sugar Co.—Receivership.—Vice-Chan-cellor Stevenson of New Jersey on Nov. 12 appointed Pierre F. Cooke of Jersey City as receiver on application of Marshall Van Winkle, representing creditors for about \$150,000. The capital stock is reported as \$10,000,000, the President being Henry P. Bope, Vice-President of the Carnegie Steel Co.

Minnesota & Ontario Power Co.—Bonds Offered—Large Hydro-Electric Power Development and Paper Mills.— Peabody, Houghteling & Co., Chicago, are offering at par and int. by advertisement on another page of this issue the \$3,000,000 first mortgage 6% serial gold bonds described in last week's issue of the "Chronicle" (p. 1240.) These bonds are guaranteed by the endorsement on each bond of the Backus-Brooks Co. of Minnespolis, the principal stock-holders of the Minnesota & Ontario Power Co. and one of the largest lumber operators in the Northwest, its net earnings for the last nine years having been at the aver-age rate per annum of \$300,000. A circular further says: Ormed under the laws of Mainesota & Ontario Power Co. Is corporation falls, Minnesota, and Fort Frances, Ontario, and now owns complete show of the last nine years having been at the aver-age rate per annum of \$300,000. A circular further says: Ormed under the laws of Mainesota & Ontario Power Co. Is corporation falls, Minnesota, and Fort Frances, Ontario, and now owns complete show of the sate rights and flowage rights, as well as a substantial mount of real estate for the location of the mills. E. W. Backus and the Backus-Brooks Co., from whom the Power Company has purchased to this water power. Over \$1,250,000 has been expended and considerable propres has been made in the construction of the dam and improvements of the channel. The vendors have received no cash for the property, and the entities proceeds of these bonds are available for the completion effect water development of the property, the installation of pub and page progress has been made in the test bords are available for the completion effect and electrical equipment, and to furthal the completion of the property. Have been engined and considerable to the channel. The vendors have received how cash for the property. The channel construction of the dam and improvements of the channel. The vendors have received how cash for the property. The channel of the property, the installation of

See General Rubber Co. above. --V. 87, p. 1163. Security Investment Co., Pittsburgh. --Nolice to Credilors. --George H. Lewars Secretary of the readjustment com-mittee, makes the following announcement: Pursuant to Article 4 of the agreement dated March 6 1008 for the extension of the debt of the Security Investment Co., the creditors of that company are hereby required to elect forthwith whether they will take assenting stock of the Westinghouse Electric & Mfg. Co., or new notes of the Security Investment Co. and to communicate their election to him. If any creditor shall fall to communicate his election within ten days after notice given as provided in the agreement, the committee therein named whall be authorized to make the election on his hehalf. See plan Acc., In V. 86, p. 1162, 1158.

V. 86, p. 1162, 1158. Standard Oil Co. of New Jersey.—Application for Re-Hearing Denied.—The United States Circuit Court of Ap-peals, which in July last reversed the decision of Judge Landis imposing a fine of \$29,240,000 on the subsidiary Standard Oil Co. of Indiana (V. 87, p. 229, 192), on Tuesday denied the application of the Government for a re-hearing. Attorney-General Bonaparte on Thursday issued a state-ment saving:

Attorney-General Bonaparte on Thursday issued a state-ment saying: It was found that a considerable number of changes had been made in the opinion of the Court of Appeals originally rendered, and that Judge Baker iled a separate concurring opinion which differed materially in its reasoning from that of Judge Grosseup. After a careful consideration of all phases of the situation, it was determined that an application should be made to the Supreme Court of the United States, when it re-convenes on Monday, Nov. 30, for a writ of certiform to bring up and review the action of the Circuit Court of Appeals. The necessary papers for this purpose will be prepared without delay.

Consolidation of Subsidiary Companies.—See item in issue of the "Chronicle" of Nov. 7, page 1241, regarding United Natural Gas Co.—V. 87, p. 229. Truckee River General Electric Co.—Option Closed.— The "San Francisco Commercial News" of Nov. 4 said:

The option on the majority of the [33,000,000] capital stock was excrete Monday by W. P. Hammon and his Boston associates, 562,300, the balance of the first payment of \$100,000, being deposited with the London Paris National Bank, where a majority of the stock is aircady in escrow. Mr. Hammon and associates have agreed to pay \$25 per share for all the stock and interest at 6% per annum from June 10 last on all deferred payments. As mentioned, \$100,000 has been paid, \$100,000 more is due Dec. 1 and the balance of the \$1,500,000 necessary to complete the purchase of all the stock at \$25 per share is to be put up at various times within a year. O a Saturday last checks were mailed to the stockholders in payment of a dividend of 40 cents per share to make up for dividends passed during the paids.

The shock at \$25 per share is to be put up at various times within a year. Of Saturday last checks were malled to the stockholders in payment of a dividend of 40 cents per share to make up for dividends passed during the panlo.
 It is reported that the new owners will extend the field of operations to cover the Nevada mining fields.
 All shareholders are entitled to deposit their stock with the London Parls National Bank and receive the price named.
 The shareholders voted on March 11 1005 to increase the capital stock from \$2,500,000 to \$3,000,000, par of shares \$50. There are, it is stated, no bonds outstanding. The company owns two hydro-electric plants near Floriston. Cal., one with two 550 kw. units, the other with one unit of 2,000 kw., and furnishes light and power in Carson City and Vir-ginia City, Nev., Floritston, Cal., and to paper mills and numerous mines.
 The of the light is stated, was taken by the company on its preferred stock dividends for July and October, "it having been decemed best on account of the industrial situation to defer the distribution." The dividend is cumulative; pref. stock outstanding, \$5,000,000. Compare V. 86, p. 601.

PRICE, WATERHOUSE & CO., CHARTEHED ACCOUNTANTS, 54 WILLIAM STREET,

of General Profit and Loss Account are in accordance with such books and statements. During the year only actual additions and permanent im-provements have been charged to Permanent Investment Account. All expenditures for repairs and maintenance, amounting to \$519,652 80, have been charged to Expense Ac-count or against funds created out of earnings, but no pro-vision has been made for depreciation, the Executive Of-ficers of the Company considering that the expenditures made during the year and in previous years render any such provision unnecessary. The inventories of stocks on hand as certified by the re-sponsible officials have been carefully and accurately valued at or below cost; full provision has been made for bad and doubtful Accounts and Notes Receivable; and we have veri-fied the cash and securities by actual inspection or by certifi-cates from the depositaries. We Certify that in our opinion the foregoing statements show the true financial position of the American Cotton Oil Company (of New Jersey) and its Subsidiary Companies at Aug. 31 1908, and the results of the operations thereof for the fiscal year ending at that date. PRICE, WATERHOUSE & COMPANY, Chartered Accountants.

The last annual report contained a reference to the then existing troubled condition of the country's finances, which led to a decision to defer the declaration and payment of a Common Stock Dividend. In January following, the Directors determined that the situation was sufficiently improved to warrant the declaration of a dividend on the Common Stock out of the earnings of the fiscal year ended Aug. 31 1907 of four (4) per cent, payable on March 2 1908. The Board of Directors, at the regular model.

March 2 1908. The Board of Directors, at the regular monthly meetings in May and November, declared the usual semi-annual divi-dends of 3% upon the Preferred Stock, payable respectively on June 1 and Dec. 1 1908, and being the thirty-third and thirty-fourth consecutive dividends declared on that stock. At the regular monthly meeting held on Nov. 5 1908, the Directors also authorized the payment out of the net earnings of the fiscal year ended Aug. 31 1908 of a dividend of 3% upon the Common Stock, payable Dec. 1 1908. The business of the Company is a yearly one, being depen-dent upon the annual crop of Cotton Seed. This must be purchased during a term of four or five months, while the re-sult of the year's operations are not definitely ascertained until the business year has closed. Therefore, the Directors have denit, as heretofore, with the distribution of Dividends on the Common Stock at the end of the fiscal year fafter

provision has been made for Debenture Bond Interest and Dividends on the Preferred Stock.

Dividends on the Preferred Stock. The earnings for the year covered by this report are less than those of the preceding year. The unprecedented finan-cial and commercial conditions prevailing during the greater part of the year were at ther worst during the months when the principal purchases of Cotton Seed should have been made. When, later in the season, these conditions were somewhat relieved, great competition for seed arose, and the cost became so exorbitant as not to permit of an ordinary manufacturing profit. Moreover, this situation was ag-gravated by a cotton crop two million bales less than that of the preceding year, directly affecting the productive caof the preceding year, directly affecting the productive ca-pacity of your Company. Notwithstanding these abnormal conditions, beyond the control of the Company, the year's business resulted in a

margin of profit.

margin of profit. A redeeming feature of the past senson was that the quality of seed was better than the average, which substantially de-creased the percentage of loss in the process of oil refining. The Company adheres to the policy of maintaining all its properties at their highest efficiency, and at no time in its history have the manufacturing plants been in better work-ing order and repair. The percentage of loss from bad debts is one-sixth of $1\%_{c}$, a satisfactory showing in view of the commercial stress and strain of the past year. Full insurance is maintained on all of the Company's prop-

Strain of the past year. Full insurance is maintained on all of the Company's prop-erties and stocks of merchandise and raw materials, and all losses incurred during the year have been paid promptly. The sales of trade-marked specialties, manufactured by the N. K. Fairbank Company, the Wilcox Lard & Refining Company, the Union Oil Company, and other subsidiary companies, have continued in volume and importance and controlbuted larged to the approximate predicts of the year.

companies, have continued in volume and importance and contributed largely to the aggregate profits of the year. The decrease of imports resulting from commercial de-pression seriously affected the purchasing power of foreign countries. The reduction of export of American goods, due to these general and widespread conditions, has been marked, affecting our trade with Europe and with Central and South America America.

With renewal of confidence, trade with these markets will

With renewal of confidence, trade with these markets will undoubtedly become normal. The Cotton Crop now bring gathered is estimated as from 12,500,000 to 13,000,000 bales, being considerably larger than the crop of the preceding year, and sufficient to supply the seed requirements of the coming season. Since the close of the fiscal year covered by this report, the business of the Company has improved and more than in-ventory values have been realized on stocks carried over. The death of Mr. Joseph Larocque, a member of the Board of Directors since 1897, is recorded with regret. His wise counsel and sound commercial sense, coupled with his uni-form courtesy and consideration, won the respect and ad-miration of his associates.

The loyal services of the officials and employees and their devotion to duty merit the commendation and acknowledge-ment of the Board. ent of the Board. For the Board of Directors, GEORGE A. MORRISON, *Chairman*.

Tables of comparative Statistics are given on a preceding page under

Union Telephone & Telegraph Co., Rock Island, Ill.—Re ceivership.—The Circuit Court at Rock Island on Nov. 5. on application of the Am rican Trust & Savings Bank of Chi-cago as mortgage trustee, appointed H. H. Pratt, General Manager of the company, and Leroy J. Wolfe of Davenport, Ia., as receivers, the interest on the \$400,000 outstanding bonds being in default.

The company operates a telephone system in Rock Island and Moline, Ill., and Davenpert, Ia., the t-tal "capitalization" being given as \$550,000 in the press dispatches. George B. Stuker of Harrisburg, Pa., is President.

III., and Davenp et. 1a., the trial capitalized in the next statements in the press dispatches. George B. Stuker of Harisburg, Pa., is President. United Fuel Gas Co.—Bonds.—This company, whose capital stock is stated to be owned by the Ohio Fuel Supply Co. (V. 87, p. 223), recently authorized an issue of \$1,000,000 6% serial bonds dated Sept. 1908, a limited amount of which have been offered for subscription. An exchange says The United Fuel Gas Co., the stock of which is owned by the Ohio Fue Supply Co., is offering a limited amount of its serial 6% bonds for sub-scription. In a circular to stockholders President George W. Cradford states that the total issue authorized is 31,000,000, but only a sufficient amount will be sold to reinburse the Ohio Fuel Supply Co. has 100,000 acres of oll and gas territory, and material on the ground for starting 35 wells. The Ohio Fuel Supply Co. has been fur Isling funds to carry on operations up to the present time, but the United Fuel Gas Co. It is stated. Sen aundantly able to take care of itself. The bonds will be dated Sept. 1 1908, and divided into eight series, series A maturing Sept. 1 1911 and series H on Sept. 1 1915. The interest period is March and September. United States Rubber Co.—New Debentures.—The issue of debentures for the sale of which negotiations are understood to be pending will, it is reported, consist of \$15,000,000 10-year 6s, the greater part th reo', or their proceeds, to be used to retire the \$\$,000,000 5% collateral funding gold notes due Sept. 15 1909 (but subject to cal at par) and the

\$4,500,000 Boston Rubber Shoe Co. guaranteed debenture 5s due Sept. 15 1910.-V. 87, p. 1163.

Wells-Fargo & Co., Express.—Offer for Stock.—Boston advices state that shareholders in that city have within the last few days been approached by representatives of the law firm of Sullivan & Cronwell, who have here tofore represented the Harriman interest, with offers to buy their stock at \$300 a share.—V. 87, p. 484, 478.

White Company of Cleveland, Automo biles.—New Stock. —This Ohio corporation, to provide for additions and improvements, has filed a certificate of increase of capital stock from \$2,500,000 to \$3,000,000, consisting of \$2,500,000 common and \$500,000 preferred 7% cumulative stock, par \$100. The company has no bonded debt. The President is Windsor T. White and the Secretary, A. R. Warner.

Wilkes Barre (Pa.) Gas & Electric Co.—Called Bonds.— In addition to the call for red emption of \$50,000 Gas Com-pany of Luzerne County bon ds made on Oct. 28 1908, the company, as of Nov. 9, has called \$50,000 more of said issue, making a total of \$100,000 now to be paid at par and interest, under the option clause which became operative July 1.

It is contemplated that additional calls will continue to be made from time to time until the entre remaining balance is redeemed. Since Novem-ber 1 the Wyoming Valley Electric Light Heat & Power Co. bonds have also been subject to redemption.—V. 87, p. 486.

-J. K. Rice Jr. & Co., 33 Wall St., New York, advertise in to-day's issue of the "Chronicle" a full page list of over 150 choice investment securities, any one of which the firm is prepared to buy, sell or quote. These securities have been selected for their ready marketability and standing and besides are alphabetically arranged in the advertisement for quick reference. J. K. Rice Jr. & Co. invite inquiries or correspondence regarding any security on this list. The firm deals extensively in guaranteed stocks, bank and trust company stocks, railroad bonds, unlisted and inactive securities. secur ties.

-F. J. Lisman & Co. are offering at par and interest \$500,000 Southern Ry. 6% secured convertible notes and are recommending same as combining the four essential features of security, marketability, high rate of interest and an opportunity for enhancement in value. The notes are convertible into development bonds up to May I 1910 at 80. These development bonds are selling at 76 and have sold as high as 94. See particulars in advertisement on another page. on another page.

-Charles Head & Co., bankers, of Boston and New York, have established new branch offices at 10 Federal Life Build-ing, Hamilton, Ont., and 105 Banigan Bidg., Providence, R. I. Their other branches are located at 20 King St., West, Toronto, Ont., and 4 Hospital St., Montreal, Que. The firm has a private wire to Gobalt, Ont., as well as to all its branches, and has memberships in both the New York and Review Stock Exchanges. Boston Stock Exchanges

-On or about Dec. 1 Rothschild & Co. (M. R. Rothschild and Joseph G. Mayer, N. Y., partners) of 25 Broad Street, New York, will open a branch office in Chicago at 141 Monroe Street, to deal in stocks and bonds. J. A. Roths-child and S. I. Karger will be the managers and resident partners in Chicago. The firm has a membership in the New York Stock Exchange and is negotiating for one in the Chicago Exchange.

-The firm of Frederick H. Hatch, 30 Broad St., New York, dealers in unlisted securities of railroads and corpora-tions, has installed very extensive telephone facilities for handling customers' business. The numbers of the fourteen long-distance telephones are: "Broad" 5140, 5141, 5142, 5143, 5144, 5145, 5146, 5147, 5148, 5149, 5150, 5151, 5152 and 5153 inclusive.

"The Blanchfield Publishing Co., San Francisco, as issued the 1908 edition of the "Western Electrical & Gas Directory", a small volume of 224 pages, listing a total of 1.021 electrical, gas, railway and kindred companies, including a "comprehensive record of companies controlled thereby and absorbed operating in the States of Arizona, California, Nevada, Oregon and Washington."

-Clark, Dodge & Co. offer to investors a selection of well-known investment bonds at prices yielding from 3.95 to 4.40%. Included in the list are issues of the Atchison, the New York Chicago & St. Louis, the Chicago Burlington & Quincy, and the Boston & New York Air Line Railway Co. See advertis ment on another pag.

-Wrenn Bros. & Co., 24 Broad St., New York, are offer-ing New York Gas. Electric Light, Heat & Power Co. 1st 5s (an underlying lien) at a price to yield 4.90%. Particulars on request.

-Blodget, Merritt & Co., the well known Boston bankers, will move their New York office on Monday to 30 Pine St., occupying the entire third floor of the Kean, Van Cortlandt Building.

-The New York Stock Exchange house of William E. Lauer & Co., 74 Broadway, will buy or sell Guggenheim Ex-plorat on Co. stock.

-Wood & Havemeyer, 43 Exchange Place, this city, offer to buy or sell Indiana Lighting Company securities.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, Nov. 13 1908. Mills and factories are resuming work or increasing hours of labor all over the country, and there is no doubt that the general situation is gradually brightening. Trade is more active, prices of manufactured products are generally firm and the improving condition of the leading industries is con-sidered the harbinger of better times in all the great avenues of American business

sidered the harbinger of better times in all the great avenues of American business. LARD on the spot has ruled firm, owing to some decrease in the receipts of live hogs, light offerings of product and strength in the grain markets. Trade has been moderately active, though confined largely to local jobbers. Western 9.S5c. and City 93%@91/2c. Refined lard has been easier, owing to larger supplies and offerings. Trade has been quiet. Refined Continent 10.15c., South America 10.75c. and Brazil in kegs 12.25c. The speculation in lard futures at the West has been active with prices irregular, showing the effects of heavy realizing on the one hand and of invest-ment buying, partly for foreign account, on the other. Large Chicago packers have sold heavily at times. There has been not a little buying of an influential character, how-ever, on expectations of a material falling off in the hog

firm. COPPER has been firm; lake 14½@14½c. and electrolytic 14½@14¾c. Lead has been firm and more active at 4.40c. Spelter has been quiet but firmer at 5@5.05c. Tin has been quiet and easier at 30¼c. for Straits. Iron has been firm; No. 1 Northern \$16 75@\$17 25 and No. 2 Southern \$16 75 @\$17 25.

COTTON.

Friday Night, November 13, 1908.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 472,528 bales, against 481,481 bales last week and 440,660 bales the previous week, making the total receipts since the 1st of September 1908, 3,552,123 bales, against 2,615,520 bales for the same period of 1907, showing an increase since Sept. 1 1908 of 936,603 bales.

Speculation in cotton for future delivery has been more active during the past week and prices on the whole have been firmer, though advances from time to time have been followed by setbacks due torealizing, which leave quotations about where they were a week ago, being only a trifle lower. Many express surprise that prices have not declined materi-ally under the weight of such enormous receipts as those which form so remarkable a feature of the statistical situ-ation. Moreover, the tendency is now to increase crop estimates. One from London puts it at 13,365,000 bales minimum and estimates ranging from 13,000,000 to 14,-000,000 bales are becoming far more common than they were a while back. In spite of this, however, and of the fact that some of the spot interests are supposed to have combatted an advance, the buying by Wall Street houses and others has been so persistent, partly on a scale down, that on the whole the market has presented a pretty firm front. Outsiders have taken more interest in the specu-lation, though the transactions in futures are still far smaller than in former years. Chicago grain people are understood front. Outsiders have taken more interest in the specu-lation, though the transactions in futures are still far smaller than in former years. Chicago grain people are understood to have bought to some extent, and there has also been more or less buying by other parts of the country, including New England and the South. Owing to the abnormally narrow differences between New York and Liverpool, Liverpool has been buying there and selling here, chiefly March and May. More or less hedge selling has been done here, both for the South and Liverpool. Yet declines have encountered buying orders and the effect has been a sort of automatic support as prices have receded. The speculation for a rise is still based on two primary con-tentions, namely, that the price is cheap and that the in-crease in trade promises to be so large that even a crop well over 13,000,000 bales will not prove burdensome, especially as the quality, body and staple of the cotton this year is very generally considered exceptionally good. Bracing features have been the augmented sales of dry goods, the resumption of full time in some of the cotton mills in the East and the South, rising prices for cotton fabrics. The great activity and strength manifested at times by the stock market, moreover, has not been without its effect. Some contend that the crop is so large, the receipts so heavy, that attempts to start a bull campaign will in the end be found futile. But large spinners' takings, big exports, reviving trade, the idea that cotton is cheap and some expansion in the speculation have been sustaining factors too potent to be ignored. To-day prices declined, partly owing to an enormous crop movement for the week. Spot cotton has been quiet. Middling uplands closed at 9.25c., a decline for the week of 5 points.

The rates on and off middling, as established Sept. 9 1908 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

Fair c.1.75 on	Middling	Good mid, ting'd c. Even
	Strict low mid 0.30 off	Strict mid. tinged 0.20 off
		Middling tinged0.30 off
		Strictlow mid. ting, 1.00 off
		Low mid. tinged 2.25 off
Strict middling 0.25 on	Strict g'd mid.tgd.0.35 on	Middling stained1.00 off

The official quotation for middling upland cotton in the New York market each day for the past week has been:

NEW YORK QUOTATIONS FOR 32 YEARS.

The quotations for middling upland at New York on Nov. 13 for each of the past 32 years have been as follows:

WEATHER REPORTS BY TELEGRAPH.-Advices to us this evening by telegraph from the South denote that as a rule the weather has continued satisfactory during the week, and the gathering of the crop has made very good progress where not already completed. Temperatures, however, have been lower, with killing frost reported in some sections, Memphis reporting it on Thursday, fifteen days later than the average date. The marketing of cotton continues on a very heavy scale.

Galveston, Texas.—We have had rain on two days of the week to the extent of thirty-four hundredths of an inch. The thermometer has averaged 58, the highest being 76 and

The information has a veraged 58, the highest being 76 and the lowest 40. Abilene, Texas.—There has been rain on one day of the week, to the extent of fifty-six hundredths of an inch. The thermometer has averaged 57, ranging from 34 to 80. Corpus Christi, Texas.—Rain has fallen on one day during the week, the precipitation reaching fifty-two hundredths of an inch. The thermometer has ranged from 44 to 82, averaging 63 averaging 63.

Averaging 63. Fort Worth, Texas.—We have had rain on one day of the past week, the precipitation being fifty-eight hundredths of an inch. Average thermometer 59, 1 ighest 82, lowest 36. Palestine, Texas.—There has been rain on two days during the week, to the extent of twenty-four hundredths of an inch. The thermometer has averaged 59, the highest being 82 and the lowest 26. the lowest 36.

San Antonio, Texas.—It has rained heavily on one day during the week, to the extent of one inch and eighty-six hundredths. The thermometer has averaged 59, ranging

hundredths. The thermometer has averaged 59, ranging from 36 to 82. Taylor, Texas.—Rain has fallen on one day during the week, the precipitation reaching fifty-two hundredths of an inch. The thermometer has ranged from 34 to 82, averaging 58.

58. Stateburg, South Carolina. —We have had no rain during the week and it is now much needed. The thermometer has averaged 61, ranging from 34 to 82. Charlotte, North Carolina.—We have had rain on one day during the week, the rainfall reaching eleven hundredths of an inch. The thermometer has ranged from 37 to 73, average 57.

during the week, the rainfall reaching eleven hundrednas of an inch. The thermometer has ranged from 37 to 73, averaging 57. *Memphis, Tennessee.*—The movement of cotton continues on a tremendous scale, the week's receipts exceeding all records. Picking is progressing actively. Killing frost on Thursday, fifteen days later than the average date. We have had rain on two days during the week, the precipitation reaching one inch and forty hundredths. The thermometer has ranged from 32 to 75.5, averaging 53.8. *Mobile, Alabama.*—Fair weather in the interior and

picking has made good progress in sections where not com-

pleted. It has rained good progress in sections where not com-pleted. It has rained on two days of the week, the rainfall reaching fifty-two hundredths of an inch. *Montgomery, Alabama.*—There has been rain on one day during the week, the rainfall being four hundredths of an inch. The thermometer has averaged 61, ranging from 36 to 80.

New Orleans, Louisiana .- It has been dry all the week

Average thermometer 65. Shreveport, Louisiana. —It has rained on one day of the week, the rainfall being twenty-two hundredths of an inch. The thermometer has averaged 60, the highest being 82 and

The thermometer has averaged 60, the highest being 82 and the lowest 38. *Vicksburg, Mississippi.*—We have had rain on two days the past week, the rainfall reaching thirty two hundredths of an inch. The thermometer has ranged from 36 to 80, averaging 60.

Helena, Arkansas.—We have had rain (thunderstorms) i one day the past week to the extent of one inch and teen hundredths. The thermometer has averaged 55.5, a bighest being 78 and the lowest 33 on fifteen

one one day the past week to the extent of one men and fifteen hundredths. The thermometer has averaged 55.5, the highest being 78 and the lowest 33.
Selma, Alabama.—Rain has fallen on two days during the week to an inappreciable extent. The thermometer has ranged from 32 to 74, averaging 56.
Madison, Florida.—We have had no rain the past week. Average thermometer 62, highest 79, lowest 45.
Augusta, Georgia.—Dry all the week. The thermometer has averaged 60, the highest being 82 and the lowest 32.
Savannah, Georgia.—We have had rain on one day the past week, to the extent of eight hundredths of an inch. The thermometer has averaged 63, ranging from 40 to 79.
Charleston, South Carolina.—Rain has fallen on one day during the week, the rainfall being five hundredths of an inch. The thermometer has ranged from 45 to 80, averaging 64.
Greenwood, South Carolina.—It has been dry all the week.
Average thermometer 56, highest 68, lowest 44.

AGRICULTURAL DEPARTMENT'S REPORT .- The

AGRICULTURAL DEPARTMENT'S REPORT.—The Agricultural Department's report on the cereal and other crops was issued Nov. 9, and is given below: The Crop Reporting Board of the Bureau of Statistics of the United States Department of Agriculture finds, from the reports of correspondents and agents of the Bureau, as follows: CORN.—The preliminary estimate of the average yield per acre of corn is 26.2 bushels, which compares with 25.9, the final estimate in 1907, and 25.6, the average of the past ten years. The indicated total production of corn is 2.642.667 000 bushels, as compared with 2.592.200, 000, the final estimate in 1907. The quality is 85.9, compared with 82.8 in 1907 and 84.3 the ten-year average. (All 1908 figures are preliminary.) (All 1908 figures are preliminary.)

About 2.7% (71,124,000 bushels) of the corn crop of 1007 is estimated to have been in the hands of farmers on Nov. 1, as compared with 4.6% (130,095,000 bushels) of the 1006 crop in farmers' hands on Nov. 1 and 4.5%, the average of similar estimates for the past ten years. BUCKWHEAT.—The preliminary estimate of the average yield of buck-wheat is 0.8 bushels, as compared with 17.0, the final estimate in 1007, 18,6 in 1906 and 17.8 a ten-year average. A total production of 15,648,000 bushels is thus indicated, as compared with 14,200,000 in 1907. The quality is 90.7%, against 87.3 last year and 89.9 the ten-year average. Totatoes is 85.0 bushels, as compared with 95.4, the final estimate in 1907, 102,2 in 1906 and 88.6 the ten-year average. A total production of 274,-560,000 bushels is thus indicated, as compared with 207,042 000 in 1907. The quality is 87.6%, against 88.3 last year and 87.6 a ten-year average. Totatoes is 85.2 points, as compared with the final estimate of 840.00 boacco is 855.2 points, as compared with the final estimate of 850.5 A total production of 629,634,000 is thus indicated, as compared with 207,042 000 in 1907. A total production of 629,634,000 is thus indicated, as compared with 207,042 000 in 1907. A total production of 629,634,000 is thus indicated, as compared with 98.7 as 75%, against 00 one year ago, 84.5 in 1006 and a ten-year average of 79.6 pounds. The average of 85.8. The XSEED — The preliminary estimate of the average vield per acre of flaxseed is 9.7 bushels, as compared with the final estimate of 8 bushels in 1007, 10.2 bushels, is compared with the final estimate of 8 bushels in 1007, 10.2 bushels, as compared with the final estimate of 6 bushels in 1007, 2.7 to 1906 and a ten-year average of 9.8. The XSEED — The preliminary estimate of the average sidel per acre of flaxseed is 9.7 bushels, as compared with the final estimate of 0 bushels in 1907, 9.2.7 in 1906 and a ten-year average of 9.8. The XSEED — The preliminary estimate of the average yield per acre of flax flax

BREADSTUFFS.

Friday, November 13 1908. Friday, November 13 1908. Prices for wheat flour have shown no important changes during the week, despite the sharp rise in wheat. The tone, however, has been firm. There have been moderate job-bing sales of late, but buyers as a rule still manifest no dis-position to anticipate needs. At the large milling centres at the Northwest and the Southwest, large sales of flour have latterly been made. One Minneapolis mill on a single day sold 75,000 bbls., much of it, according to current reports, being for export. Rye flour and corn meal have been quiet but generally firm.

latterly been made. One Minneapolis mill on a single day sold 75,000 bbls., much of it, according to current reports, being for export. Rye flour and corn meal have been quiet but generally firm. Wheat has advanced 3 to 312 cents per bushel, owing partly to big export purchases of Manitoba wheat, partly to dry weather in parts of the winter-wheat belt and partly to some unfavorable crop reports from Argentine and Ger-many. The most influential factor in the situation, no doubt, has been the increased export business. Farmers' reserves, too, are considered unusually small, and it is asserted that Northwestern interior elevators hold only about a third as much as they did a year ago. In other words, one report goes so far as to state that these elevators hold only 7,000,000 bushels, against 20,000,000 a year ago and 25,000,000 in 1906. Whether this view of the matter is strictly correct or not, it is certainly the general impression that interior elevator stocks are down to a low stage. The Argentine exportable surplus, moreover, is in some case setimated for next year at only 104,000,000 to 118,000,000, against 136,-500,000 bushels thus far in the present year. That is to say, a material decrease in Argentine's exports is expected, and this idea counts for not a little in the bulls' summing up of the general situation. On the other hand, however, it is well to bear in mind that some of the Argentine reports are more favorable than they were recently. Rains have improved the actogeneous for not a 5000 dood or a star ago, and that there is every indication is going on in Chicago suggests the advisability of caution in receiving extremely bullish statements. One speculative interest there, in particular, is supposed to hold some 15,000,000 bushels. There is no doubt, however, that there is a good demand in this country for the actual wheat, not only for the purpose of exportation, but also for home consumption. The sales of flour at Min neepolis are also reported to be increasing. A considerable area of the winte

THE DRY GOODS TRADE.

New York, Friday Night, Nov. 13 1908.

THE DRY GOODS TRADE. New York, Friday Night, Nov. 13 1908. Business in most branches of the dry goods market during the past week assumed still larger proportions, with trading somewhat broader, and in many directions prices displayed further strength. The activity has been most noticeable in the cotton goods division, for while it is true that some of the leading distributers have been more or less conservative purchasers, the great majority of consumers have continued to cover immediate and near-by requirements, and there has also been a substantial increase in the number and size of orders for spring delivery. The upward tendency of prices, too, has been more marked in domestic cottons than in other divisions, advances having been announced on several lines and more leading tickets being held at value. Generally speaking, there does not appear to be a disposition to boom prices, but mills are, if anything, more insistent upon bringing prices up to profitable levels before they will accept contracts for future delivery. The primary market for cotton goods has been quite active, with a con-paratively large volume of business put through in the aggregate, es-pecially on wide convertibles, and the tone is somewhat itrmer. Jobbers have had a satisfactory demand for spot and near-by shipments, especially in holiday goods, and have been covering their prospective needs in a conservative mances. There has been a substantial improvement in mer's wear woolens and worsteds for spring; duplicate orders for light-weight goods have been received in larger volume, and some of the leading mills are reported as being well sold up. In silk piece goods, light constructions with soft finish have ruled fairly active; but the more staple lines have moved rather slowly. The opening of spring lines of carpets by leading producers was well attended by buyers from all sections and satisfactory initial orders were booked; com-pared with last season, prices announced by one of the advery, but remain practically unchanged for business

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending Nov .7 were 1,535 packages, valued at \$115,330, their destination being to the points specified in the tables below:

	1	908		1907
New York to November 7— Great Britain. Other Europe. China. India. Arabia. Africa. West Indies. Mexico. Central America. South America.	36 56 336 106 26 806	Since Jan. 1. 718 1,017 18,600 12,392 26,557 8,352 23,967 1,455 13,354 35,883	Week, 7 2 	Since Jan. 1. 1,495 2,356 21,138 6,078 25,810 4,014 20,048 2,060 11,383 39,354

Potal	1 535	161 025	1871	156 111

itized for FRASER .//fraser.stlouisfed.org/

The value of these New York exports since Jan. 1 has been \$10,132,645 in 1908, against \$9,457,850 in 1907. Bleached goods have been in greater demand, especially for this year's shipment, and additional tickets have been placed at value, including Lonsdale 4-4 bleached sheetings. Heavy brown cottons have sold freely for near-by delivery, with some business done for shipment in the early part of next year, and stocks are reported as being well cleaned up; prices are firmer, 4-yard brown sheetings having been advanced ½c. The strength of gray goods has been reflected in higher prices on several grades of linings for spring, espe-cially sateens, which show advances of from ½c. to Ic. a yard; mills are said to be unwilling to accept large forward contracts, even at the higher levels, and a still further appre-ciation in values is talked of. Amoskeag staple ginghams and tickings were advanced during the week and later held at value, while discounts on staple prints, following large orders, were shortened about 1%. Denims have moved in good volume, some leading producers being reported well wances on Southern colored cottons have, apparently, not checked the demand. Miscellaneous export trade has been of moderate proportions, but no improvement is noted in business with Far Eastern markets, bids again being below sellers' views. Print cloths and convertibles have been taken steadilyfor near-by and forward delivery; regulars are quoted at 31/c. and standard wide goods at 4½c., the latter showing a somewhat firmer tendency; 39-inch 68x72s are slightly higher at 5½c. howing a somewhat fin lightly higher at 5½c.

slightly higher at 5½c. WOOLEN GOODS.—In men's wear woolens and worsteds duplicates on light-weight fabrics for spring have been more numerous. Staple and fancy worsteds have been in most demand and further advances ranging from 2½c. to 5c. a yard were announced during the week. The call for light shades of overcoatings for immediate delivery has increased and some woolen mills have started idle looms to meet this demand. The dress goods market has displayed more activ-ity, spot goods having moved more freely, while fair orders for spring have been received. Exclusive styles, particu-larly worsteds, have met with a satisfactory sale, and there has been an improved demand for best grades of staple and fancy piece dyes. The market generally, however, shown more or less irregularity.

has been an improved demand for best grades of staple intu-fancy piece dyes. The market generally, however, shows more or less irregularity. FOREIGN DRY GOODS.—Imported men's wear lines have been a little more active, but dress goods, with the exception of broadcloths, have been rather quiet. Demand for linens shows no abatement and prices for spring display an upward tendency. The burlap market has been irregular, with a moderate trade; week-end prices remain unchanged.

Importations and Warehouse Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending Nov. 7 1908 and since Jan. 1 1908, and for the corresponding periods of last year,

Kentucky, State of.—Inheritance Tax Declared Valid.— The Kentucky Court of Appeals on Oct. 27 declared valid and constitutional the Act passed by the Legislature in 1906 which imposes a tax of 5 per cent on all property in excess of \$500 bequeathed to persons other than relations. An outline of the opinion, which was written by Judge Settle and concurred in by the whole Court, is printed in the Louisville "Courier-Journal" of Oct. 28 as follows:

and concurred in by the whole Courts, is primed in the Louisville "Courier-Journal" of Oct. 28 as follows:
 First—The grounds of affirmance in brief are that the Act of imposing the inheritance tax does n.t.vt. late any provision of the State Constitution because, first, that instrument n.t. only conta ns no restriction upon the power of the Lepislature to enact such a law, but, on the construction, expressly authorizes it to do so.
 Beond—That the right to take property by devise or inheritance is not a natural or inherent right of pers ns, but is a creature of the law, and as such is subject to regulation by the Constitution.
 Third—That inheritance tax is an "excise tax" in the meaning of Section 181 of the Constitution, which expressly suthorizes its to do its as an optimized in a state of personal contraction of the Constitution of the Constitution of the Constitution of property, but on the source of the state of the tax is not a tax on property, but on the state of personal to solve the possing of property or that of succession. for which reason the State inay strangers, and grant exemptions and it is not preduced from exercising and collaterals where, as in the case of this Act, it is uniformity is satisfied by any provision of the Constitution requiring uniformity and coulaterals where, as in the case of this Act, it is uniform as to the a tax.
 The provident is an other classes of persons are exempt from the tax.
 Massachusetts, State of .—Legal Investments for Savings

Massachusetts, State of.—Legal Investments for Savings Banks.—The office of the Savings Bank Commissioner has prepared a list of bonds which are, in the opinion of that Department, legal investments for Massachusetts savings banks. The circular in full will be found in the editorial columns on a proceeding page columns on a preceding page.

Surfacing District No. 3, Bond No. 36.

Upon the request of the holders of any of the above bonds received ten days before the expiration of this call, the City Treasurer will arrange for their payment at the Mercantile Trust Co., New York City.; but not otherwise.

Bond Proposals and Negotiations this week have been as follows:

Adrian Special School District (P. O. Adrian), Seneca Gounty, Ohio.—Bond Offering.—Proposals will be received until 1 p. m. Nov. 25 by W. M. Presler, Clerk Board of Education, for \$5,000 5% coupon school-house bonds. Authority Section 3992, Revised Statutes. Denomination \$500. Date Nov. 1 1908. Interest semi-annually in Tiffin. Maturity \$500 yearly on Nov. 1 from 1909 to 1918 inclusive. This district has no debt at present. Assessed valuation for 1907 \$J1 000.

Allentown School District (P. Ö. Allentown), Pa.— Correction.—We learn from the District Secretary that the purchasers of the \$41,000 4% coupon school-building bonds disposed of on Oct. 28 were the Merchants' National Bank of Allentown and five other local investors, and not Charles C. Harrison Jr. & Co. of Philadelphia as we were at first advised. See V. 87, p. 1189.

Amite County (P. O. Liberty), Miss.—Bonds Defeated.— A \$55,000 bond issue for a new court-house was recently defeated, according to reports.

Astoria, Ore.—Bond Election.—An election will be held Dec. 9 to vote on the question of issuing \$300,000 5% 10-40-year (optional) bonds "to build a sea-wall or bulk-head in front of the city."

Atlantic City, N. J .- Bond Offering .- Proposals will be received until 12 m. Nov. 21 by A. M. Heston, City Comptroller, for \$160,000 41/2% gold coupon public-schoolbuilding bonds. Denomination \$1,000. Date July 1 1908. Interest semi-annually at the Hanover National Bank in New York City. Maturity \$30,000 yearly on July 1 from 1938 to 1941 inclusive and \$40,000 on July 1 1942. Bonds are exempt from taxation. Bid must be unconditional, made for "all or none," and be on a blank form furnished by A. M. Heston, City Comptroller. Certified check (or cash) for \$3,000, made payable to the City Comptroller, required. The Columbia Trust Co. of New York City will certify as to the genuineness of the bonds and the legality of the same will be approved by Dillon & Hubbard of New York City, a copy of whose opinion will be delivered to the purchaser. Delivery of bonds on or about Dec. 15 1908. Successful bidder to pay accrued interest. On Nov. 7 the City Comptroller awarded these bonds to O'Connor & Kahler and W. N. Coler & Co. both of New York City at their joint bid of 106.439 and interest. This award, however, was subsequently rescinded, as the City Council refused to confirm the same.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

Bonds Proposed .- This city proposes to issue \$100,000 drainage bonds some time in January, 1909.

Barberton, Ohio.—Bonds Voted.—The election held Nov. 3 resulted in a vote of 995 to 334 in favor of the issuance of the \$19,000 water-extension bonds mentioned in V. 87, p. 961. Bonds Dejeated.—At the same election the voters defeated the proposition to issue the \$50,000 bonds to purchase Lake Anna. The vote was 535 "for" to 902 "against."

Bay County (P. O. Bay City), Mich.—Bond Sale.—On Nov. 10 the \$25,000 13-year State judgment refunding bonds offered on Nov. 9 and described in V. 87, p. 1255, were awarded to N. W. Halsey & Co. of Chicago at 104.272 and accrued interest for 4358. Purchasers also to furnish blank bonds. Following are the bids:

accruded interless in the bids:
bonds. Following are the bids:
