The full details for the week covered by the above will be given next Sat-urday. We cannot furnish them to day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night. We present below detailed figures for the week ending with Saturday noon, Feb. 5, for four years.

THE FINANCIAL SITUATION.

The week has been marked by another violent break in prices on the Stock Exchange, followed by a sharp recovery. Each day, however, even while recovery has been in progress, there have been periods of weakness and the feeling continues very unsettled. Bear operations are not lacking, but the main trouble seems to be the absence of buying on any large and general scale. It is wonderful what unanimity of opinion there is on the point that extensive buying is not in evidence, notwithstanding the great decline in values which has occurred since the first of the year. Nor is the cause far to seek. The political emanations from Washington have served to produce a feeling of timidity and to inject doubt as to the future where previously there had been unrestrained confidence.

The bill intended to get business corporations to take out a Federal charter, as prepared by the President's Constitutional advisers under his own vigilant eve, has been introduced in House and Senate this week, and proves to be a most remarkable document. The more it is studied the more it is certain to intensify the feeling of uneasiness prevailing. We review its leading provisions in a separate article on subsequent It will be admitted, we think, that the erying pages. need of the hour is the repeal of the Anti-Trust Law of 1890, which, after being allowed to remain dormant for nearly twenty years, is now being used as an instrument of oppression in the industrial world. Yet this disturbing statute, instead of being qualified or modified in the Federal incorporation bill, on which the President has been incubating so long, is actually re-affirmed in the bill. Thus the only plausible argument that could be advanced in favor of Federal incorporation is removed and the bill has no genuine reason for existence. It is nevertheless to be pushed.

In the meantime the business community is to be left in suspense and distress, fearing the application and enforcement of the 1890 law against the great industrial corporations in the different departments of trade and industry. All accounts agree in saying that the President is confident the United States Supreme Court will affirm the decrees of the lower courts ordering the dissolution of the American Tobacco Co. and the Standard Oil Co. If he should unfortunately prove correct in his belief, the business community would be left floundering and helpless. No avenue of escape is opened up through this muchvaunted Federal incorporation bill, while the President, as we all know, has declared it is his duty and his purpose to continue prosecutions under the Anti-Trust Law.

According to the Washington dispatches in yesterday morning's daily papers, the President is about to issue a statement "to reassure business." It seems likely, we are told, that the reassuring words will be contained in the speech which the President is to deliver to-night at the Lincoln dinner of the New York Republican Club. This would indeed be a prospect to hail with delight. Unluckily, however, close study of the dispatches engenders the fear that the explanatory statement in this instance will be of the same "assuring" nature as the similar explanations we used to get from Mr. Roosevelt at critical junctures. Here is what the Washington correspondent of the Associated Press, as reported in "The New York Times," has to say on the subject.

stlouisfed ora

He (the President) is attempting no concealment or modification of his intention to make the decision of the Supreme Court the guide of the Government's further action in regard to corporations charged with violations of the Sherman Anti-Trust Law. He makes it plain to inquirers that he has in no wise changed his view of what in his message to Congress he described as his duty and his purpose, to investigate the conduct of all trusts, and will not be swerved therefrom by rumors or flurries or other manifestations in Wall Street.

The attitude of the party leaders in Congress seems in like manner discouraging. The same Washington correspondent quotes Senator Aldrich as follows:

Senator Aldrich said to-day before his departure for New York:

"I can conceive of no legislation within the power of Congress which can meet this situation, either in anticipation of the Supreme Court's decision, or subsequent to it."

"Unless, perhaps, the repeal of the Sherman Law"? the questioner suggested.

The Senator smiled grimly. It was evident that he regarded that as outside the domain of possibility.

Is it any wonder under such circumstances that distrust and disquiet should prevail when if natural and material conditions alone were allowed to control, there would be hope and confidence, and enterprise would continue to spread its brightening influence and shower uncounted blessings throughout the land?

This week's statement of the Copper Producers' Association is the best that has been submitted for any month since the Association began to give out monthly figures, just a year ago. The production of marketable copper in the United States from all domestic and foreign sources during January is reported at 116,547,287 lbs., while the deliveries of marketable copper for consumption and export are stated at 159,-850,059 lbs. As the deliveries thus exceeded the output by 43,302,772 lbs., the accumulations of copper were drawn down to just that extent, reducing them to 98,463,339 lbs. At this latter figure the accumulations are the smallest since these monthly returns have been published, and comparison is with stocks of 144,130,045 lbs, on Feb. 1 of last year. As to how the change has been brought about, there has been some decrease in production, but hardly as much as had been looked for, considering the bad weather conditions which have prevailed, and considering also that there were some labor troubles (of limited duration, however), at mines and smelters in Montana, growing out of the sympathy of the men with the striking railway switchmen on the transcontinental lines running between St. Paul and Duluth and the Pacific Coast. At 116,547,287 lbs., the product for January compares with 117,828,655 lbs. for December, 121,618,369 lbs. for November and 124,657,709 lbs. for October, the previous maximum. In January of last year, however, the production was only 112,135,-200 lbs.

The decrease in stocks has been brought about mainly by the extraordinary deliveries. These deliveries, indeed, have been of almost phenomenal proportions, both for domestic consumption and for exports. For domestic consumption they are given as 78,158,387 lbs., as against 69,519,501 lbs. in December, 66,855,873 lbs. in November and only 51,862,624 lbs. in January of last year. The increase in this latter instance, it will be seen, has been over 50%, and mani-

festly such an augmentation can hardly be ascribed to normal conditions. The deliveries for export have been of even more noteworthy extent and must also be regarded as wholly exceptional. For January this year the exports are reported at \$1,691,672 lbs., against only 38,499,797 lbs. in January of last year, the augmentation in this instance being over 100%. These large shipments are the more noteworthy considering the perfectly enormous visible supply of copper held abroad. During January there was a further addition of 3,866,240 lbs. to this foreign visible supply, bringing the total up to the huge figure of 248,209,920 lbs. Both domestic deliveries and foreign exports last month were of unprecedented magnitude, and it is plain that this must have been due to some special influence or influences. The explanation is found in the remarks of the "Boston News Bureau" to the effect that "the extraordinary reduction in American stocks is a natural reflection of the large November and December sales in this country, amounting to 300,000,000 lbs., and which were made to consumers covering advance deliveries at a time when there was much talk of a gigantic copper combination among the producers." The "News Bureau" well says it is too much to expect the maintenance of any such extraordinary shipments to American manufacturers or to foreign shores as were made last month. Obviously, to the extent that current consumptive requirements have in this way been anticipated, future deliveries will be reduced.

The principal objections to the postal savings bank scheme were presented in our article of last week, but one more should not be passed by: that a governmental scheme as proposed does not furnish what may be called the "atmosphere" in which the work of a savings institution can best be carried on. The ordinary savings bank gathers up small sums which might otherwise be dissipated, and by a moderate rate of interest proves to many who might not otherwise realize it the fact that thrift produces accumulation; it also confers a great service by turning these scattered bits into loanable capital and setting it to constructive work. But under the postal plan the proposed "trustees" would be political appointees, subject to the distractions of official work and party politics; and since they would be a part of the party in control for the time being, they would be liable to frequent change and could not have any warranted tenure. A genuine savings bank, on the contrary, is removed from politics, from distracting things, and from the menace of changes. When one man passes, in the course of nature, another quietly takes his place in the perpetual succession; nothing occurs to interfere with concentration upon the bank's business; at its best, the savings bank is the very embodiment of peace, poise, stability, and conservatism, precisely as it should be. That some case of irregularity occurs once in a while follows the fact that we are not in a perfect world; but when a good and well-tried scheme of laws, such as exists in New York and Massachusetts, is provided, a savings bank is at the maximum of trustworthiness and public service. In sharp contrast with this, a Government scheme, proposed and founded as a party measure and kept practically as one more Government bureau, would be in the wrong "atmosphere."

So far as savings depositories are lacking in the country at large, the wise course is to further establishing them under good State laws. And if the notion that Government is the ideal patron persists, the disastrous Freedmen's Savings Bank of many years ago might well be recalled as a corrective.

The verdict on Feb. 4 in the Federal Circuit Court in Hartford, in the Danbury hatters' case is the natural sequel of the unanimous decision by the Supreme Court in the same case almost exactly two years ago. The Danbury firm of Loewe & Co., having some of the customary difficulty with organized labor, decided to adopt the principle of the open shop and refused to unionize its factory. Thereupon the local hatters' union, sustained by the American Federation of Labor of which it is a part, proceeded to put the screws of a boycott upon the rebellious firm. The notions these men entertain of the inalienable rights of individuals have not been better shown than in a communication from one of them to the "Sun" a few weeks ago. This man insisted that whoever holds to "the indispensable right of every man to sell his labor as he chooses" is compelled to unqualifiedly support labor unions. His argument is that the overwhelming majority of workers are unionized, because they see that the individual has no chance by himself; the unorganized worker, he says, "no doubt helps to pull down the general standard of living, but not wilfully: he cannot do anything else, being a helpless cog in the machine." Therefore, the union alone "gives the individual worker any real freedom of labor or power to contract"; accordingly the individual should submit to the union, and if he will not the union must compel him.

This distorted notion of personal liberty, to be attained through "collective exertion of the power of labor," does not stand before the courts. Having won in the Supreme Court, where damages of \$80,000 sustained by the strike and boycott were claimed, only the question of damages remained for consideration. The case is quite an old one. Justice Platt told the jury that he "began to suffer the trials and tribulations of this complaint in 1904." The Supreme Court, he said, had made clear that the boycott tended to cripple or destroy the ability of the firm to produce hats, therefore naturally tending to restrict the natural flow of commerce. This indisputably brought the case under the Anti-Trust Law, and left open only the question of damages sustained. This the jury found to be \$74,000, which is tripled under a distinct provision of that law. The boycotters are individually liable, and attachments upon property in Danbury to a large amount were issued in anticipation several years ago.

It is to be noted that this is not a decision of a court, but a verdict of a jury. The jury can hardly be denounced as prejudiced; and although Mr. Gompers retains the liberty of dissent from the Supreme Court, there seems nothing to be gained now (except more delay) in taking an appeal, since the highest tribunal has unanimously passed affirmatively upon the case of the Danbury firm. The right to boycott, and the consequent right of immunity from responsibility for the results of boycotting, remain as a matter of irreconcilable difference between the Federation leaders and the highest courts. Whether the liquidated damages can be collected is to be seen, since that requires substance to be found; but the situation is made more sharply definite by this verdict, and it is the turn of the unions to make the next move.

By a noteworthy coincidence, the Bank of England and the Imperial Bank of Germany both reduced their discount rates on the same day, Thursday, an incident not paralleled in the last decade. Curiously enough, however, the world's money markets took a minimum of interest in the occurrence, much less, in fact, than usually is centred in a change at any one of the European cities. This is easily explained. The open market rates at all points are so far below the official charges that the latter have been entirely ineffective. At London, for example, 60 to 90-day bills have been negotiable at 21/8% against the Bank rate, up till Thursday, of 31/2%, while at Berlin the private figure was only 23/4 %, contrasted with the Reichsbank's rate of 412%. That the Bank of England should have been able, during the heat of the greatest political contest of recent years, to lower its discount rate 2% within two months is astonishing; in October last, it will be recalled, there were three successive increases, from 21/2% to 5%, the latter ruling until Dec. 9, when $4\frac{1}{2}\%$ was named, followed by reductions to 4% on Jan. 6 1910, to 31/2% on Jan. 20 and now, on Feb. 10, to 3%. The Berlin institution's changes have been less marked; last September there was an advance from 31/2% to 4%, while in October another 1% was added, just after the London rate had been raised to 3%. The weak feature of the Reichsbank during the last two months has been the inordinate amount of note circulation outstanding above the non-taxable limit, but this undesirable phase is being corrected. There does not appear to be any adequate reason for even so high a rate as 4%; the directors attribute their caution to the state of American exchange, although that surely is no immediate menace. There is nothing unusual, however, in a Berlin Bank rate 1% above London and Paris.

Our State Department is assiduously perfecting agreements with foreign countries to avoid the imposition on April 1 next of the maximum tariff provided under the so-called Payne Act of August 1909. This week's list of countries officially declared as entitled to minimum rates does not include any European Power; it is confined to the Southern Continent, being as follows: Argentina, Brazil, Uruguay, Paraguay, Panama and Liberia. There still remain some eighty countries with which no formal treaty has yet been negotiated, including France; our relations with that nation are now under active consideration, and although the officials of both Governments are reticent, it is believed that a friendly compact will be made either this month or in March. After France and Canada have been placated, our commercial interests will feel greatly relieved, as there is little danger of serious interference with trade in other directions. The volume of business passing between the United States and the seven countries named this week was given out at Washington on Wednesday. Our exports to Argentina in 1908 reached \$34,351,000 and our imports from the same country \$12,567,000; Brazil imported \$20,862,000 and exported \$85,938,000, while

us a total of \$84,722,000. The figures for the other countries are of minor importance.

"Matters of urgent importance will immediately arise" when the new British Parliament meets on Tuesday, to quote the words used by Prime Minister Asquith in his letter to his followers requesting their attendance at Westminster. No one who has closely studied political events and tendencies in Great Britain prior to, during and since the general election can doubt this assertion; indeed, the events of the next few weeks may bring about, or at least definitely foreshadow, the downfall of the Cabinet now under process of formation, for a party divided against itself cannot hope to stand. Attacks from without were, of course, to be expected-they form the regulator for the British political pendulum that swings from one predominating party to another. But internal dissension is peculiarly destructive, and of this there are already ominous signs. The conservative members of the Cabinet met at the residence of Secretary of War Haldane on Wednesday evening. The absence of Mr. Lloyd-George and Winston Spencer Churchill was accepted as confirmatory of reports that the Premier and his more experienced associates had decided to subordinate these two radicals. Formal meetings of the Cabinet were held in Downing Street on Thursday and Friday, when, it is understood, the program to be followed on the re-convening of Parliament was drawn up. An incident of Thursday's session was the final attendance of Herbert John Gladstone, who bade farewell to his colleagues preparatory to leaving to take up duty as the first Governor-General of United South Africa.

The Labor Party, through its leader, James Keir Hardie, who, like Lloyd-George, has risen from the bottom of the ranks, announces that it will not subscribe to any and every measure the Liberals may see fit to bring forward. In opening the tenth annual conference of the Independent Labor Party on Wednesday, President Hardie, a fighter of recognized ability, made this declaration-it might be called a challenge: "I confidently assert that those who hope to see us bring about our own undoing by entering into some agreement or understanding with the Government are doomed to disappointment. At all costs and hazards we must maintain a complete freedom of action, both in the House of Commons and in our constituencies. The treatment meted out to our candidates by the Liberals in the recent contest was not the kind to pre-dispose us in favor of any friendly relationship." By maintaining an attitude of aloofness, the Laborites are undoubtedly playing skilful politics, for the Liberals must be careful to consult them before endeavoring to force through new legislation.

will feel greatly relieved, as there is little danger of serious interference with trade in other directions. The volume of business passing between the United States and the seven countries named this week was given out at Washington on Wednesday. Our exports to Argentina in 1908 reached \$34,351,000 and our imports from the same country \$12,567,000; Brazil imported \$20,862,000 and exported \$85,938,000, while Mexico took \$58,765,000 worth of our goods and sent

had "opposed the decisions of conventions officially convened to select candidates or who had opposed the official candidates." This means that none of the anti-Redmond faction will be recognized as belonging to the party unless admitted by special vote. The Irish wing of the coalition, it will thus be seen, may not act unanimously when important questions arise in Parliament—a fact, perhaps, of no little significance with reference to Mr. Asquith's position as the head of the Government. The Budget, the first measure likely to be introduced, may not involve a crucial vote, as all parties are anxious to have the finances of the country redeemed from their present chaotic state; but when Home Rule comes up for consideration, then a cleavage would appear to be scarcely avoidable.

The capital needs of foreign governments continue to exercise the attention of the money markets. The French authorities propose to borrow several million dollars, including one item of \$4,000,000, to be lent to small farmers, shopkeepers, tradesmen and impecunious property owners, but no large loan will be necessary for either relief work or the rehabilitation of public buildings and undertakings; the damage in the city of Paris has been much exaggerated by the American newspapers, although the devastation among rural communities along the course of the Seine has proved quite serious and another rise of the river has revived the fears that had been allayed a week ago. The British treasury continues to apply for funds; the revenue from income taxes alone has fallen \$40,000,000 during the current fiscal year, according to an official announcement on Wednesday, and other sources of income have also been affected adversely by the long delay in adopting a Budget, a delay, by the way, that promises to be terminated very shortly after the new House meets on the 15th inst., as the re-introduction of the finance bill is stated to be the first important act contemplated by the Liberals.

The joint German-Prussian loan of \$120,000,000, carrying 4% instead of 31/2%, a fact not without interest to our own Government and people, is not expected to satisfy the requirements of these countries; another application for a somewhat larger amount is looked for this summer, the major share being needed by Prussia, which receives only \$35,000,000 of the loan just floated. The Hungarian issue of 140,000,000 crowns (\$28,280,000) which was entrusted to the Post-Office Savings Bank has proved an unqualified success, and two smaller amounts are being discussed, one being 50,000,000 crowns of Hungarian Treasury 4% bonds sold at par to a Rothschild syndicate for what is tantamount to one year, the other an issue of similar size shortly to be placed by the local government of Moravia, probably to the Rothschilds. As Hungary is now, and is likely to remain for many months, under what is called the ex lex clause, which means that, as in Great Britain during the suspension of a Budget, taxes cannot be forcibly collected, the financial affairs of that country will create some uneasiness, while, in addition, the cessation of Government payments for works now under way has already entailed serious loss of employment. Very fortunately, monetary conditions everywhere in Europe are on a sound basis and, though investors demand more generous income yields than in former years, all legitimate

here mentioned. The latest reductions in the foreign bank rates (London and Berlin) will have at least a sentimental influence upon contemplated Government borrowing.

The Fall River cotton mills dividend exhibit for the first quarter of 1910 considered merely from the point of view of the income thus returned on stockholders' investments is certainly a satisfactory one. On a capitalization of \$26,725,000 there will be a distribution of \$509,125, or an average of 1.90%, stockholders in all of the thirty-five establishments participating in our statement. But dividends do not always truly reflect current conditions in the industry from which they have been secured. Many corporations pursue what may be called a conservative course; this they do not only by maintaining at the regular dividend periods a fair rate of return to shareholders, but also when the income will permit it, by carrying important amounts to surplus account. That is conservative management because it accumulates a surplus with which to make good any deficiency in lean times to supply dividend money. Moreover, industrial organizations are very sure to be visited with lean times and have a special need for a substantial reserve fund. Some such method has long been followed by the greater number of the Fall River mills, with the result that dividends have been steadily kept up to a stated percentage, and even extra distributions made at times when operating profits warranted little if any return on the investment.

There is little reason to doubt that in most cases the dividends declared in the first quarter of the current year represent merely this settled policy to make a regular distribution to shareholders at stated intervals. It is certainly a fact that during the past few months (the period from which earnings would be drawn to pay the dividends) the relations between cotton and cloth have not apparently been such as to offer much profit to the manufacturer. Fortunately, however, the mills carried over from the previous season a much larger stock of cotton than usual, which, secured at moderate price, served to hold down the average cost to them of this year's raw material. This becomes clear when we state that during the active purchasing season (Sept. to Dec. inclusive) the average price of middling uplands in the New York market was in 1908 under 91/2 cents per pound, whereas in 1909 it was over 14 cents. Here we find an appreciation in the value of cotton of fully 41/2 cents per lb., or over 47%. Concurrently there has been, of course, an advance in the price of printing cloths and other goods but in no sense commensurate with the increased cost of the raw material that speculation has brought about. It follows, therefore, that the margin for profit has been measurably curtailed, and that curtailment meant lower wages for the operatives had the owners insisted upon their rights under the automatic workings of the sliding scale. But those rights they waived at the last time of adjustment, as they had done on two previous occasions, thus further testifying their interest in the welfare of the employees.

serious loss of employment. Very fortunately, monetary conditions everywhere in Europe are on a sound basis and, though investors demand more generous income yields than in former years, all legitimate needs will undoubtedly be met in each of the countries Cotton Mfg. Co. Deducting that extra dividend reduces the average rate for 1909 to 1.60%, or less than in the current year.

Foregin discount rates have again moved downwards. The London open market charge is now 21/8@21/4%, Paris reports 21/2%, Berlin 23/4% and Amsterdam 17/8@2%, with funds very plentiful at all centers, just as in New York. These low discounts, it may be remarked, are stimulating a demand for American securities. The Bank of England reduced its rate on Thursday from 31/2% to 3% and on the same day the Imperial Bank of Germany also announced a reduction of 1/2 of 1%, to 4%. The proportion of reserve to liabilities in London improved during the week, from 50.46% to 51.69%, which is quite satisfactory for the second week in February. According to our special cable from London, the Bank of England lost £1,084,400 bullion during the week and held £35,575,740 at the close of the week. Our correspondent further advises us that the loss was due in greatest measure to shipments to the interior of Great Britain. The details of the movement into and out of the Bank were as follows: Imports, £227,000 (of which £8,000 from Australia and £219,000 bought in the open market); exports, £572,000 (of which £217,000 to the Continent of Europe and £355,000 to South America), and shipments of £739,000 net to the interior of Great Britain.

The local money market has been dull and uninteresting in both divisions. Rates have again drooped for all maturities, notwithstanding that the demands for corporate capital have revived. Sixtyday loans are now available at 31/2%, ninety-days' at 334%, and four, five and six months' at 4%. The only feature is the anxiety of brokers to place the funds offered them by their clients. The demand, however, for Stock Exchange purposes is extremely light. Even day-to-day loans are not wanted in any large volume. The highest quotation of the week has been 3%, while the average ruling rate has been just under 23/4 %. On Monday and Tuesday a minimum of 21/4 % was recorded, although on the following two days no business was done under 21/2%. Yesterday the range was 21/2% to 3%.

Commercial paper is heing absorbed in moderate quantity by New York financial institutions which find themselves overburdened with funds remitted from out-of-town points, where there is no active call at the moment for accommodation. Chicago has remitted large sums to New York for use at 4% and Boston is also forwarding surplus funds hither, although a higher rate is desired. Discounts continue somewhat out of line with collateral loans. Very few four to six months' single names can be negotiated at $4\frac{1}{2}\%$, the usual minimum being $4\frac{3}{4}\%$, while for less attractive names the range is 5 to $5\frac{1}{2}\%$. Sixty to ninety days' endorsed bills receivable range from $4\frac{1}{4}$ to $4\frac{3}{4}\%$; the supply is not excessive.

Foreign exchange has again been depressed by quiet purchases of American securities, bonds as well as stocks, by Europeans. The demand has not been confined to any one country, but has come from England, where the political situation is still very unsettled; from France, where money is overabundant; from Germany, where at last discounts have declined ma-

gitized for FRASER

terially, and from Holland, where money has been worth less than 2% for some time. The operations of foreign investors have not always been recorded on the New York Stock Exchange; the reported purchases and sales on balance there frequently mean very little. inasmuch as they consist largely of purely arbitrage business. The kind of investment buying now in progress is, however, of the first importance; it is, indeed, the one bright feature of our bond market, for the home absorption of high-grade issues is still very disappointing. Many leading international banking houses now recommend to their foreign clients the purchase of thoroughly sound American investments at current levels; hence the wide inquiry here recorded. Then two European central banks (in London and Berlin) have this week again reduced their minimum discount rates by 1/2 of 1%, although the influence of this on exchange was not particularly marked, for the reason that private rates at both centres. were radically below the official figures. The demand for gold in London continues a factor. The Bank of England again secured most of the new South African metal available on Monday, at the minimum price of 77s. 9d. per ounce, but extensive shipments were made to the Continent of Europe (principally to Paris) and to South America, which cannot draw upon New York with sterling here on its present low level. The supply of commercial remittance in this market has not thus far been appreciably increased through the sharp break in the quotations for certain commodities. Higher quotations than those now ruling are bid for future deliveries by certain speculators, but no extensive trading is taking place; as a matter of fact, the whole foreign exchange market has been unusually quiet and featureless throughout the week. Yesterday \$50,000 gold was engaged for shipment to Central America.

Compared with Friday of last week, sterling exchange was firmer on Saturday on the basis of 4 8380@ 4 \$390 for 60 days, 4 \$615@4 \$620 for demand and 4 8645@4 8650 for cable transfers. The week opened at a distinctly lower range, demand declining 15 points and cable transfers 20 points. Weakness was again manifested on Tuesday, the close being at 4 8380@ 4 8390 for 60 days, 4 86@4 8605 for demand and 4 8620@4 8625 for cable transfers. Wednesday brought a moderate recovery, demand selling at 4 861/8 and cable transfers at 4 863%. There was again, however a reactionary tendency on Thursday, except for 60 days, which sold at 4.84; demand was not wanted above 4 86, nor cable transfers above 4 861/4. On Friday quotations were virtually stationary at the previous day's level.

The following shows the daily posted rates for sterling exchange by some of the leading drawers.

	Frl.,	Mon.,	Tues.,	Wed.,	Thurs.,	Fri.,
	Feb. 4.	Feb. 7.	Feb. S.	Feb. 9.	Feb. 10.	Feb. 11
Brown 60 days Brothers & Co	4 8719 4 8719 4 8719 4 8719 4 8719 4 8719 4 8719 4 8719 4 88719 4 88719 5 8871	875974 887877433878787979 8878774338787747747747747747747747747747747747747	843-34 877-35 877-35 87	843 14 14 19 19 19 19 19 19 19 19 19 19 19 19 19	8434 8735 8475 8475 8475 8475 8475 8475 8475 847	847 15 15 15 15 15 15 15 15 15 15 15 15 15

The market closed on Friday at 4 84@4 8410 for 60 days, 486@48605 for demand and at 48625@ 4 8630 for cables. Commercial on banks was quoted at 4 8360@4 8370 and documents for payment at 4 83 (@4 831/4. Cotton for payment ranged from 483 to 4 831/4 and grain for payment from 4 833/4 to 4 84.

The following gives the week's movement of money to and from the interior by the New York banks.

Week onding Feb. 11 1910.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.	
Currency	\$7,079,000 1,867,000	\$4,969,000 749,000		\$2,110,000 1,118,000
Total gold and legal tenders	\$8,946,000	\$5,718,000	Gain	\$3,228,000

With the Sub-Treasury operations, the result is as follows.

Week ending Feb. 11 1910.	Into	Out of	Net Change in	
	Banks,	Banks,	Bank Holdings.	
Banks' interior movement, as above.	\$8,946,000	\$5,718,000		\$3,228,000
Sub-Treasury operations.	24,400,000	26,500,000		2,100,000
Total gold and legal tenders	\$33,346,000	\$32,218,000	Galn	\$1,128,000

The following table indicates the amount of bullion in the principal European banks.

6.00 m	1	7eb. 10 1910	k	Feb. 11 1909.			
Banks of	Gold.	Suver.	Suver. Total.		Silver.	Total.	
Germany	16,137,000 38,621,000 10,083,000 4,270,667 4,470,000	34,891,520 12,009,100 7,642,000 12,964,000 30,731,000 4,000,000 2,962,200 2,135,333	$\begin{array}{c} 174, 147, 040\\ 51, 651, 250\\ 149, 183, 000\\ 69, 525, 000\\ 46, 868, 000\\ 42, 621, 000\\ 13, 045, 200 \end{array}$	$\begin{array}{c} 41,584,550\\ 121,977,000\\ 50,420,000\\ 15,843,000\\ 9,372,800\\ 4,250,000\\ 4,250,000\\ 4,347,000\\ 4,733,000\end{array}$	$\begin{array}{c} 12,069,500\\ 7,299,000\\ 12,721,000\\ 32,258,000\\ 4,600,000\\ 4,091,400\\ 2,125,000\\ \end{array}$	$\begin{array}{r} 129,276,000\\ 63,141,000\\ 48,101,000\\ 42,320,000\\ 13,464,200 \end{array}$

a The total of gold in the Bank of Russia includes the balance held abroad—that is, the amount held for Russian account in other Continental banks. The propor-tion so held and consequently duplicated in the above statement is about one-sixth of the total this year, against about one-eighble a year ago. b The Austro-Hungarian Bank Statement is now issued in Kronen and Heller instead of Guidea and Kreutzer. The reduction of the former currency to sterling Pounds was by considering the Guidea to have the value of 80 cents. As the Kronen has really no greater value than 20 cents, our cable correspondent in Lon don, in order to reduce Kronen to Pounds, has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20. d The division (Between gold and allyer) given in our table of coin and buillion in the Banks of Italy and Beglium is made from the best estimates we are able to obtain; it is not chimmed to be accurate, as the banks make no distinction in their weekly returns, merely reporting the total gold and silver; but we believe the division we make is a close approximation.

FEDERAL INCORPORATION UNMASKED.

The bill for the Federal incorporation of manufacturing, producing and other business concerns, as drafted by Attorney-General Wickersham and embodying the views of the Administration, was submitted simultaneously in the Senate and the House of Representatives at Washington on Monday of this week. The President's purposes with reference to such a measure therefore now stand plainly revealed. We regard the bill as an extremely dangerous one, fraught with most serious consequences to the country, its institutions and its industries. In this we have reference to the general nature of the scheme and to the fact that, if Constitutional, it would mean the assumption by the Federal Government of functions which of right belong to the States and which these latter have never delegated to the central authority. But we feel justified in going further and saying that as now drafted the measure is a positive and a flat contradiction of the position assumed by Mr. Taft in his special message. Not only the tenor of the message, but the express language used, had conveyed the idea that Federal incorporation was to provide a means of escape from the consequences of the Anti-Trust Law of 1890. It is now

seen that Federal incorporation is intended to do nothing of the kind-that its sole purpose is to extend the activities of the Federal authorities and to rob the States as far as possible of their duties and powers.

In view of the provisions of the bill as now disclosed, it becomes difficult to understand what the President's object can have been in enlarging upon the comprehensiveness of the Anti-Trust Law and in picturing in such lurid language the consequences that must follow its literal enforcement. It was the President's plain and unequivocal and apparently candid declaration in these respects that sent security values tumbling and has upset the whole of the business world since the beginning of the year. It was supposed that the President's aim was to drive all the larger industrial undertakings now operating under State charters into Federal incorporation by indicating how badly they must fare if they did not accede to Federal control of their affairs. But as now drawn, all motive for taking such a step is wholly removed and practically no inducement exists for coming under Federal authority. The Anti-Trust Law is actually reaffirmed and a Federal corporation will be amenable to its provisions in the same way as the existing State corporations.

We will be frank and say that we would oppose Federal incorporation as wrong in principle and involving dangerous centralization and making State sovereignty an empty form, even if the bill did not contain the particular feature to which we are now directing attention. Yet it passes comprehension why the President should have raised hopes of this kind among corporation managers (some of whom as a matter of expediency had already expressed willingness to assume the Federal yoke) only to dash them to the ground. We reject the suggestion that the President meant merely to scare the business world, in true Roosevelt fashion, and wanted to demonstrate that he, like his predecessor, possessed great capacity for doing harm and was not afraid to exercise it. We are at a loss to understand, however, what the true motive could have been. If the Anti-Trust Law is to remain unchanged, why enlarge upon its destructive character and emphasize the determination of the Administration (as the President did) to execute and enforce it to the last degree? Why inflict additional suffering by inciting fears of what is to come?

It will be be remembered that the President in his special message expressed the opinion that "the original purpose of many combinations of capital in this country was not confined to the legitimate and proper object of reducing the cost of production." It will also be remembered that he stated that he considered it his duty and it was also his purpose "to direct an investigation by the Department of Justice, through the Grand Jury or otherwise, into the history, organization and purposes of all the industrial companies with respect to which there is any reasonable ground for suspicion that they have been organized for a purpose, and are conducting business on a plan, which is in violation of the Anti-Trust Law." It will furthermore be recalled that the President indicated unreservedly what would follow, saying (we have inserted numerals to distinguish the different ways in which trouble would ensue): "But such an investigation and possible prosecution of corporations whose prosperity or destruction affects the comfort not only of stockholders but of millions of wage-earners, employees and associated tradesmen must necessarily tend (1) to disturb the confidence of the business community, (2) to dry up the now flowing sources of capital from its places of hoarding and (3) produce a halt in our present prosperity that will cause suffering and strained circumstances among the innocent many for the faults of the guilty few." It was after thus showing that he had a keen appreciation of the tremendous industrial upheaval that must come with the full execution of this law that he trotted out Federal incorporation as a remedy and a panacea in his message.

Now that the proposed Federal Incorporation Bill has been made public, note what it contains. In Section 36 of the proposed measure we find these words: "In case any corporation organized under this Act shall enter into any contract or combination or engage in any conspiracy in restraint of trade or commerce among the several States or with foreign nations, or shall monopolize or attempt to monopolize any part thereof contrary to the provisions of the Act of July 2 1890, or shall otherwise violate the laws of the United States, its charter shall be forfeited", &c. Instead, therefore, of the Anti-Trust Law being eliminated, as some had dared to hope, it is dragged in anew.

It had also been argued that Federal incorporation would afford the peace and quiet that are so often absent where there is State incorporation. But observe in how many different ways a company would be liable to lose its Federal charter. In the first place it would be liable to dissolution for violation of the Anti-Trust Law at the instance of the Attorney General. In the second place if it should fail to meet its obligations, the Commissioner of Corporations would have the right of his own motion to appoint a receiver and wind it up. In the third place, Congress expressly reserves to itself the right to repeal the charter at pleasure and dissolve the corporation. Imagine the peace and quiet that a Federal corporation would get on these terms. If such a corporation had trouble with a labor union or if there was dissatisfaction with its prices or because of other reasons, some accommodating Congressman would always be ready with a bill for the repeal of its charter. The very announcement of the repeal bill would send the securities of the company scurrying downward and the discussion on the proposal would tend to create great uneasiness among the security holders so long as the debate continued, even if the bill should eventually fail to pass.

Any five or more persons, citizens of the United States, may under the bill form a corporation to engage in inter-State or foreign trade and commerce. The minimum of capital is fixed at \$100,000 and the minimum of amount to be paid in at \$10,000. The duration of the charter is not to exceed 50 years and stock may be issued either for cash or for property. In the latter case, however, there would seem to be provision for a special kind of stock which must bear that designation. At all events, Section 17 provides that "every certificate of stock so issued shall contain a statement that the same was issued for property purchased, and in all statements and reports of the corporation such stock shall be reported as having been issued in payment for property purchased." In

ions of $\begin{vmatrix} \text{for cash and partly for property, there would thus be} \\ n \text{ must} \end{vmatrix}$ two kinds of shares.

Furthermore, it is provided that "in case the stock to be issued in payment for said property shall have a par value, there shall be filed with such statement in the Bureau of Corporations an appraisement of the value of such property made by two disinterested appraisers, approved in writing by the Commissioner of Corporations; and the Commissioner may, in his discretion, appoint one or more other appraisers to make valuations of such property, and shall fix the compensation of such appraisers, which shall be paid by the corporation before the approval of the issue of said stock. and no stock having a par value shall be issued in payment of property purchased or acquired by the corporation to an amount of such par value in excess of the value of said property as approved by the Commissioner of Corporations after such appraisement." Thus the Commissioner of Corporations would be the great Pooh-bah and everything would rest in his discretion and be conferred at his favor. He could make the stock issue large or small. What patronage he would have!

those cases apparently where stock was issued partly

The holding company is expressly forbidden. Section 8 provides that "no corporation formed pursuant to this Act shall purchase, acquire or hold stock in any other corporation, nor shall any corporation organized under this Act, or under the laws of any State or foreign country for the purpose of or engaged in carrying on the like business to that of a corporation formed pursuant to this Act, acquire or hold the stock of such last-mentioned corporation, and any attempted transfer of such stock contrary to this provision shall be null and void." Accordingly, it would be impossiblefor one of these Federal corporations to take over the stock of any existing State corporation or to hold stock even in any corporation formed under the Federal law. By Sub-Division "g," however, of Section 17 there is a provision which would allow a State corporation to incorporate as a Federal corporation on the vote of two-thirds of the stock. In this case there would have to be an appraisement of the property and approval by the Commissioner of Corporations the sameas in other cases. Moreover, by Section 30 "a corporation organized under this Act may sell and transfer all of its property of any and every kind for a consideration payable wholly or in part in cash, or wholly or in part in the capital stock of any other corporation organized hereunder, with the previous consent of theholders of not less than 80% of each class of stock then outstanding." If, therefore, any of the existing holding companiès sought a Federal charter, each one of the companies held would have to take out a Federal charter separately; then transfer could take place to one from all the others.

Federal supervision is to be supreme. Every corporation is to file a report within sixty days after the first day of January or the first day of July of its condition "in such form and setting forth such details as the Commissioner of Corporations shall from time to time prescribe." In addition, "the Commissioner of Corporations shall also have power to call for special reports from any particular corporation, whenever in his judgment the same are necessary in order to secure a full and complete knowledge of its condition." Moreover, "in addition to such report, every corporation organized under this Act shall report to the Bureau of Corporations within ten days after declaring any dividend the amount of such dividend and the class or classes of stocks on which payable and a copy of the statement of the financial condition of the corporation showing the amount of the net earnings of such corporation on hand at the time of declaring such dividends."

The Government will look carefully after the name of the corporation and see that it is not a duplicate of an existing corporation. But by Section 35 "all corporations not organized and transacting business under this Act are prohibited from using the words 'National Corporation' as a portion of name or title of such corporation, and any violation of this prohibition committed from and after the passage of this Act shall subject the party chargeable therewith to a penalty of \$50 for each and every day during the continuance of such violation." This would make it necessary for many State corporations immediately to change their names on the passage of this Federal incorporation bill.

The States are given the right to tax the real and personal property of Federal corporations and also their shares, though at no higher rate than other real and personal property. But it is distinctly provided by Section 37 that no tax shall be imposed under State authority upon the franchise of a Federal corporation. It follows that where franchise taxes are now imposed by the States and any State corporation should change into a Federal corporation, the State would lose the revenue from that source. As showing how completely the States are subjugated and subordinated, it is provided by Section 28 that "no civil suit in which the amount in controversy shall be more than \$2,000, exclusive of interest and costs, shall be brought against any corporation organized hereunder by any original process or proceeding except in a court of the United States." In other words, the State courts would possess no jurisdiction over these Federal corporations, even in matters arising within their borders. One of the advantages which incorporation is always supposed to confer is freedom from personal liability; but by Section 27 of this Federal incorporation bill it is distinctly declared that "the stockholders of every corporation formed hereunder shall jointly and severally be personally liable for all debts due and owing to any of its laborers, servants and employees other than directors for services performed by them for such corporation.'

Altogether, therefore, this Federal incorporation scheme is remarkable in more ways than one. It is not an attempt to relieve the business world of the dangers and evils growing out of the existence of the Anti-Trust Law, but an unfeigned endeavor to fasten that statute more securely upon the country. We fail to find a single good point but innumerable bad ones. It will not allay the fears excited by the President's message, but tend to give new life to them. It is out of accord with modern-day requirements. It does not reflect the desires of the best elements in the community, those who would build up, but of the worstthose who would tear down and destroy. In short, it embodies the views of the rabble and the mob, and was drafted with the evident purpose of meeting the desires of the class of politicians who draw their inspiration and their pabulum from that source.

THE TRUST COMPANIES IN NEW YORK AND ELSEWHERE.

No body of financial institutions in the United States has enjoyed greater recuperation and recovery since the panic of 1907 or made more remarkable growth than the trust companies. During the panic these concerns were tried as if by fire. A very few of them for the time being suffered very severely, but as a whole they stood the test so well that so far from losing they have gained in public estimation and confidence. Here in this city the trust companies had to bear the brunt of the onslaught that came at that critical period from a scared public, with clamorous depositors all simultaneously demanding their money. It is at this very financial centre, however, that the trust company (notwithstanding the difficulties that beset special institutions) has been most triumphantly vindicated. A prodigious loss of deposits resulted while fear and doubt prevailed, but the loss was quickly regained when doubt was removed. Since then there has been no feature so noteworthy in financial affairs as the way in which renewed growth and further expansion has occurred.

An additional circumstance has no doubt tended to give impetus to the advance of the trust companies in popular favor. The one point that used to be seriously urged against the trust companies was that they carried relatively small cash reserves and some of them very little or no such reserves. The numerous bank failures which occurred in this city early in 1908 proved that something more than cash reserves are necessary to insure the safety of a financial institution. But whatever basis there may have been for criticism in the case of the trust companies with reference to the lack of sufficient money reserves, cause for such criticism was removed by the legislation of this State in 1908. As the law now stands, the trust companies in this borough are required to keep a reserve of 15%, and all of it must be held in cash. In the other boroughs of New York only 10% of the 15% required need be in cash. In the rest of the State trust companies are not very numerous, and the reserve required is 10%, of which one-half must be in cash. These reserves apply to deposits liable to call. On time deposits not payable within 30 days, when represented by certificates, and on moneys held in trust not payable within 30 days, and therefore removed from the possibility of immediate call, no reserves need be kept.

We make these remarks preliminary to a brief review of the elaborate trust company compilations which we present on subsequent pages, and the distinctive feature of which is the tremendous expansion recorded. We began the practice of publishing these trust company returns at length eight years ago and have kept it up annually since then. In pursuance of this practice we give up no less than 16 pages to-day (see pages 411 to 426) to a presentation of the returns of the trust companies in this city (Manhattan and Brooklyn boroughs) and also those in Boston, Philadelphia and St. Louis. We print the figures for all the separate companies in the cities referred to, comparing the results for Jan. 1 1910 (or thereabouts) with two past dates, with the view to enabling the reader to see the marvelous recovery which has occurred from the depression experienced by these institutions during and immediately succeeding the panic in October and November 1907.

As previously explained by us, our data in the case of the companies of this city are derived from the reports required to be made to the State Superintendent of Banking at Albany. In the case of the companies in Boston, Philadelphia and St. Louis, the figures are our own, we having in each instance made direct application for them to the companies themselves, though in a few instances, where our requests have met with no response, we have had recourse to official statements made in pursuance to calls of the public authorities.

Deposits and resources furnish of course the best measure of the growth or retrogression of banking institutions, or for such as exercise banking functions. Taking these as a guide and dealing with the aggregates for all the trust companies in the State of New York, the changes during and since the panic present a record which is almost phenomenal. Two months before the crisis referred to, or, to be exact, on Aug. 22 1907, aggregate deposits of the trust companies of the whole State were \$1,087,664,431. By Dec. 19 1907 there had been a decrease to \$716,468,616, being a loss of over \$371,000,000 in less than four months. The bulk of the loss, of course, occurred in this city, where the deposits dropped from \$946,608,382 to \$591,912,441. Recovery began almost immediately, the public having evidently become impressed with the fact that these institutions had passed through a most critical period in a very creditable manner. In the next twelve days-that is, between Dec. 19 1907 and Dec. 31 1907-the deposits for the State increased from \$716,468,616 to \$732,278,460. By March 25 1908 the amount had got up to \$804,919,703. June 17 1908 saw it at \$992,454,982. By Aug. 31 1908 the amount had increased to \$1,075,474,964 and by Nov. 27 1908 to \$1,137,444,836, while for Jan. 1 1909 it was \$1,182,242,775. Now for Jan. 1 1910 the aggregate is \$1,302,099,738 and on Sept. 14 last was as high as \$1,386,389,611. In other words, the deposits of the trust companies in this State are over \$585,-000,000 larger than they were when at their lowest on Dec. 19 1907, and they are over \$214,000,000 larger even than they were two months before the panic on Aug. 22 1907.

In aggregate resources an equally noteworthy drop at the time of the panic has been followed by a still more pronounced recovery. From \$1,363,966,143 on Aug. 22 1907 these resources declined to \$1,001,852,952 by Dec. 19 1907; then step by step the total mounted higher again, reaching \$1,012,747,930 Dec. 31 1907; \$1,069,604,985 March 25 1908; \$1,272,732,049 June 17 1908; \$1,355,311,819 Aug. 31 1908; \$1,426,659,559 Nov. 27 1908, and \$1,477,575,489 Jan. 1 1909, while Sept. 14 1909 the total got up to \$1,673,509,646, and now for Jan. 1 1910 is \$1,604,203,727, the decrease the last few months having been caused by the high interest rates in the autumn which led to the drawing down of deposits.

An item of interest in these trust company returns is of course the changes in the money holdings. We have already pointed out that under new laws these institutions are now required to hold very much larger cash reserves. While the new laws were passed in 1908, the full reserves called for under the same were

addition to the cash holdings has occurred during the last twelve months. On Jan. 1 1910 the companies of the whole State held in their own vaults \$142,328,507, as against \$103,793,520 on Jan. 1 1909 and only \$59,307,396 Aug. 22 1907. The increase during the last twelve months has been \$38,534,987 and since Aug. 22 1907 no less than \$83,021,111.

In all of these figures we have been dealing with the trust companies as a whole. As far as the separate companies are concerned the elaborate statements on subsequent pages will enable the reader to ascertain what the experience of each company has been as between Jan. 1 1908, which was shortly after the panic, and Jan. 1 1910. To furnish, however, a sort of general survey we introduce here the following table comprising all the companies in the boroughs of Manhattan and Brooklyn and show the deposits on Aug. 22 1907 (before the panic), on Dec. 19 1907, the date of the first call after the panic, and for the present time, namely Jan. 1 1910. The changes between these dates for the various companies are very striking, but we present the statement without comment. We have added a column to show the increase or decrease as between Jan. 1 1910 and Aug. 22 1907. Nearly all the companies record increases and some of them notably large ones; the only decreases being in the case of the companies that were particularly hard hit at the time of the panic or which suffered from some other special cause.

a Not reporting on account of suspension.

TRUST COMPANIES AT OTHER POINTS.

In the case of the trust companies outside of this State no such comprehensive comparisons are possible as for the institutions within the State. Our summaries for the other centres comprised in our tables on subsequent pages, namely Philadelphia, Boston and St. Louis, are such as we have been able to prepare not obligatory until Feb. 1 1909, so that a considerable | ourselves and necessarily are limited to a few leading

items. Nor are the returns in those instances cast on uniform lines, nearly every company having its own distinct method of classification, making general footings out of the question, except as regards those few common things treated alike by all, and which have definite, established meaning, such as capital, surplus and profits, and deposits.

At these outside points the trust companies during the panic were not subjected to quite the same strain as at this centre, and consequently they sustained much smaller shrinkages. The increases since then have been on a correspondingly moderate scale. These increases, nevertheless, are noteworthy, and they show that the trust companies at these other points are as firmly established in public favor as are those at this point.

In Boston deposits and resources at the end of 1908 were well above the previous maximum, and the present figures show that during 1909 there were further large additions to the totals. At that point no trust company was forced out of business during the panic and three new companies of small size were organized during the last half of 1907. In 1909 one new company entered the list, namely the Lincoln Trust Co. (beginning business Oct. 18 1909), while one old company disappeared, the Mechanics' Trust Co. having been merged in the Federal Trust. As often happens, deposits Dec. 31, under the influence of the high money rates in the autumn, were not quite so large as the previous June, when monetary ease prevailed. For Dec. 31 1909 the aggregate is \$186,937,983, as against \$193,669,636 June 30; but against \$173,765,331 Dec. 31 1908 and only \$125,254,672 Dec. 31 1907. Aggregate resources declined from \$191,885,062 Dec.31 1906 to \$160,704,413 Dec. 31 1907, but are now \$224,090,823.

In the case of St. Louis we pointed out a year ago that the comparisons were decidedly misleading. This was due to the fact that during 1908 the commercial business of the Commonwealth Trust Co. had been transferred to the National Bank of Commerce, involving a diminution in deposits of over \$7,000,000. In 1909 similar action was taken in the transfer of the commercial business of the Mercantile Trust Co. to the newly organized Mercantile National Bank. Nevertheless, the deposits and resources of the St. Louis companies enjoyed noteworthy growth during the year 1909, and the totals are fast getting back to the previous maximum. During the past twelve months deposits have increased from \$61,619,831 to \$73,959,-732 and aggregate resources from \$97,856,192 to \$108,139,489. Four small trust companies were organized and began basiness in St. Louis during 1909.

RAILROAD GROSS EARNINGS FOR THE CALENDAR YEAR.

Under trade revival the year 1909 was one of noteworthy improvement in railroad earnings. A contemplation of the magnitude of the gains in gross earnings for that period of twelve months, contrasted with the magnitude of the losses in the previous calendar year, cannot fail to suggest to the average person the difference between distress and lack of confidence in the busineess world and prosperity and a feeling of assurance in trade. The matter is of importance in view of the renewed suffering which the country would have to endure if the present activity should again be undermined by the same kind of political action at Washington that proved so detrimental to business interests during the Roosevelt regime.

The addition to the gross revenues of United States railroads during the calendar year 1909 reached striking proportions. Preliminary tabulations which we are able to present to-day show an increase for the twelve months of no less than \$284,215,852. This covers 531 roads with an aggregate of 238,073 miles of line, including three important Canadian systems, namely the Canadian Pacific, the Grand Trunk of Canada and the Canadian Northern. Of this mileage the aggregate of the gross earnings in the calendar year 1909 was \$2,696,786,503, as against \$2,412,570,-651 in 1908, and the huge extent of these revenues is significant of the magnitude of the railroad-carrying industry on this continent. As our tabulations are not yet entirely complete, the returns of a number of minor roads being absent, and the December results being missing in the case of a few of the roads included. in our compilations, it seems quite likely that when we get figures covering the whole system of the country the gain in earnings will run even larger than the \$284,-215,852 increase at present disclosed, though we should judge the further addition would be small. Taking the increase just as it stands, no one can fail to be impressed by it. Obviously it added enormously to the spending power of the railroads and this, with the enhanced credit of the roads, enabling them to put out new stock and bond issues with greater freedom and on better terms, was perhaps the most important element in maintaining trade revival and giving it that decided impetus which carried it to still greater heights in the closing months of the year. Prosperity in trade and prosperity in the railroad world act and react upon each other in a most noteworthy way.

It may be a surprise to hear that large though the gain in earnings has been, it is not equal to the previous year's loss. The corresponding tabulations which we published at this date in 1909 showed a loss in earnings for the calendar year 1908 of \$290,140,542. At that figure the 1908 decrease would not be much above the present gain, but our compilations for 1908 were less comprehensive than those we now give. The mileage then covered was only 205,129 miles, and in a second series of tables which we published a month later we showed that the shrinkage in revenues in 1908 could not have been less than \$345,000,000. Ascompared with this contraction of \$345,000,000, the present gain of \$284,215,852 for 1909 still leaves a deficiency to make up, it will be observed, of, roughly, \$60,000,000. In the following we furnish a summary of the yearly totals back to 1896, just as registered by our tables each year. The reader should not fail to note the uninterrupted series of gains from 1896 to 1907 inclusive, the tremendous contraction in 1908 having marked the first downward turn in the movement.

Note.-Neither the earnings of the Mexican roads nor the mining operations of the anthracite coal roads are included in this table.

The gains in 1909 continued through all the months of the year. Beginning in a small way in January, they grew larger, month by month, as the year progressed. At first the 1909 increases fell far short of the 1908 decreases, but in the later months they ran well ahead of the previous losses and that fact was all the more significant since comparison then was with better results in 1908. The following is a summary of the monthly totals. We use the totals of the Interstate Commerce Commission as far as available, that is, to and including October. For November and December the aggregates are our own.

Month.	Miles o Road		Gross Earn	ings.	
Monun.	in 1908.	1909.	1908.	Inc. (+) or Dec. (-).	5%

It will be observed that in December the increase was relatively small. This is due to the existence of certain special adverse conditions. In the first place the weather over a good portion of the United States, and particularly the western half of the country, was

unusually severe, extreme cold prevailing, attended by a heavy fall of snow. This cut down railroad traffic and added heavily to the cost of operation. In the second place a strike of the railway switchmen on the transcontinental lines between St. Paul and Duluth and the Pacific Coast was in progress during the whole month. This strike began on the evening of November 30 and the first few days not only retarded railroad traffic very seriouly but threatened to tie it up completely. The strike thereafter, however, lost its influence, as the roads found no difficulty in filling the places of the strikers with non-union men.

Save in December, weather conditions throughout 1909, except in special localities, were favorable to good results, and this is particularly true of the early months, January and February, the winter then having been a mild one, though in certain limited sections there were some striking exceptions to the rule—Colorado, for instance, having suffered from an unprecedented snowfall.

The chief influence in the great gain in railroad gross revenues was the revival in trade and the wonderful activity which came the latter half of the year in the iron and steel industry. This had the effect of increasing the shipments of coal, of ore and of finished products over the railroads, and in various ways adding to the volume of their traffic. The shipments of coal and coke originating on the Pennsylvania Railroad lines east of Pittsburgh and Erie were for 1909 (53 weeks) 62,101,025 tons, against 54,555,267 tons in 1908. While the increase in this instance does not appear large, it must be remembered that a heavy loss in the early months of the year had to be overcome. A better idea of the part played by the iron and steel industry in swelling railroad traffic is obtained from the fact that the production of pig iron in the twelve months of 1909 was 25,795,471 tons, against only 15,936,018 tons in the calendar year 1908. We may also note that the shipments by water of iron ore from the Lake Superior region for 1909 aggregated 41,683,-873 tons, against 25,427,094 tons in 1908.

As far as the agricultural tonnage of the roads is concerned, this did not tend to swell the traffic of the roads. In the cotton movement, indeed, a large falling off occurred. The shipments overland were only 1,324,203 bales, against 1,616,257 bales in 1908, while the receipts at the ports were 8,623,752 bales, against 9,501,268. The falling off was entirely in the last six months, the gross shipments overland in the first half of the year having been 710,783 bales, against 681,640 bales, and the port receipts 3,408,041 bales, against 3,043,028 bales.

RECEIPTS OF COTTON AT SOUTHERN PORTS FROM JANUARY 1 TO DECEMBER 31 IN 1909, 1908, 1907, 1906, 1905 AND 1904.

The grain movement also failed to equal that of the previous year. At the Western primary markets the receipts of wheat, corn, oats, barley and rye aggregated 636,375,483 bushels, against 661,030,230 bushels. Only a small part of the falling off occurred in the first half of the year, when the deliveries aggregated 233,309,987 bushels, against 243,624,723 bushels. The details of the Western grain movement are set out in the table we now annex.

At the seaboard the grain receipts the first six months had been somewhat larger than in the corresponding period of the previous year, being 87,440,050 bushels, against 86,165,481 bushels, though the receipts of flour were only 7,362,156 barrels, against 8,412,332 barrels. For the full year the grain receipts were 201,871,110 bushels, against 218,165,430 bushels in the twelve months of 1908, 279,836,489 bushels in 1907 and 289,148,931 bushels in 1906.

In the case of the separate roads the gains in earnings naturally reached very large proportions, just as in the previous year the losses had been of enormous magnitude. It is unnecessary to enumerate these gains at length, though very naturally the Pennsylvania stands at the head of the list. We furnish below all changes for amounts in excess of \$1,000,000, whether increases or decreases. We need hardly say that the list is made up entirely of increases, there being no road which has sustained a loss of as much as \$1,000,000, and few that have sustained losses of any kind.

PRINCIPAL CHANGES IN GROSS EARNINGS FOR 12 MONTHS.

Note. — Figures in parenthesis after name of road indicate the number of lines or companies for which separate returns are given and which we have combined so as to make the results conform as usarly as possible to those given in the statements furnished by the companies themselves.

the manufacturing districts. On the other hand, in the Western half of the country, owing to the high prices which farmers were able to obtain for their products, with the resultant prosperity of the agricultural communities, the roads quite generally are able to show improvement far surpassing in amount the previous year's shrinkage in revenues. In the following six-year comparisons of the earnings of leading roads, arranged in groups, this distinction is clearly brought out. It will be observed from the totals of the different groups that while all show very striking improvement in 1909, following the contraction in revenues in 1908, aggregate earnings for only two of the groups, namely the Northwestern and North Pacific group and the Southwestern and Pacific group are equal to the aggregates for 1907.

a These figures cover merely the operations of the New York Central itself. Including the various auxiliary and controlled roads, like the Michigan Central, the Lake Shore, the "Big Four," the "Nickel Plate," &c., the whole going to form the New York Central System, the result is a gain of \$29,858,352. x Includes rallway operations only. μ These figures cover the lines directly operated cast and west of Pittsburgh and Eric. The gross on Kestern lines increased \$17,267,600 and the gross on Western lines increased \$14,091,500.

From what has been said above with reference to the general totals, it follows that in the case of not a few roads the 1909 gains have fallen short of the 1908 losses. The roads of which this is true are generally the Eastern trunk lines and the roads running through

EARNINGS OF MIDDLE AND MIDDLE WESTERN GROUP.

Astor Trust Co. (New Vork)

Trust Company Returns.

NEW YORK, BROOKLYN, BOSTON, PHILADELPHIA AND ST. LOUIS.

We furnish below complete comparative statements of the condition of all the trust companies in Boston, Philadelphia, New York, Brooklyn and St. Louis. This is in continuation of a practice begun some eight years ago. The statements occupy altogether sixteen pages. These statistics will be found particularly interesting as showing the recovery enjoyed by these institutions after the severe strain to which they were subjected during the panic in 1907.

The dates selected for comparison are December 31 1909, June 30 1909 and December 31 1908, or where, as in the case of the New York companies, the June 30 figures are no longer compiled, the dates of comparison are December 31 for all of the last three years. For the Boston, the Philadelphia and the St. Louis companies, we have also sought to get figures for December 31 and June 30, and have quite largely succeeded. As, however, the fiscal periods of these companies do not all correspond with those dates, and no returns for those dates are required by the State authorities, several of the Boston companies and a number of the Philadelphia and St. Louis companies have not found it convenient to compile statistics to December 31, but have furnished instead the latest complete figures available.

12 Franklin Trust Co...... 220 1/ 220 1/ 220 1/ Nov. 1908- 196 " Sold at the Stock Exchange. a With "rights."

-A New York Stock Exchange membership was sold this week for \$82,000. The last previous transaction was at \$83,500.

-A resolution against the proposed Income Tax Amendment of the Federal Constitution has been adopted by the Boston Chamber of Commerce. It was presented to the Massachusetts Legislative Committee on Federal Relations by George L. Barnes of Weymouth on the 9th inst., when a hearing by those in opposition to the measure was had. The resolution in which protest is made by the Chamber says:

"In the opinion of the Boston Chamber of Commerce the assessment of a national income tax is an encroachment upon the power of taxation which should be reserved for State and local revenue and that the giving of such power to the National Government should be limited in such manner that it can be exercised only in time of war or emergency."

-A joint resolution postponing for sixty days the date for making returns and assessments under the Corporation Tax Law was introduced in the Federal Legislature by Senator Overman on the 7th inst. The postponement is sought in view of the test suits now before the Supreme Court. The resolution also contains a provision under which the tax is not to be assessable for three months after the time for making the returns has expired. It is stated that Mr. Overman has since advised his constituents that no action is likely to be taken by the Senate on the matter, and that recourse to the House offers the only hope for delay in the operation of the law.

In addition to the eight suits already referred to, three other cases instituted for the purpose of testing the constitutionality of the Corporation Tax law are now before the U.S. Supreme Court. The suits in question are those of Percy H. Brundage vs. the Broadway Realty Co. of New York, Paul Lacroix vs. the Motor Taximeter Cab Co. of New York and George W. Phillips vs. the Fifty Associates, a Massachusetts real estate corporation.

The Hard Wood Manufacturers' Association, in placing itself on record on the 3d inst. as being of the opinion that the Constitutionality of the Corporation Tax law is a doubtful question, recommended that those affected by the law comply with its terms as to making reports on or before March 1, but accompany their reports by a protest as per form outlined by the Association. The reasons given therein for the protest are: (1) Because Section 38 exceeds any power vested in Congress by the Constitution of the United States to enact such a law; (2) because Section 38 violates paragraph 1, Section 8, Article 1, paragraphs 3, 4 and 5, and each of them, of Section 9, Article 1, the Fifth Amendment, the Fourteenth Amendment, and other provisions of the United States Constitution and amendments thereto; (3) because said tax as imposed is contrary to law.

The Board of Trade & Transportation of New York adopted resolutions on the 9th inst, petitioning Congress and the President to take such action, without delay, as may be necessary to postpone the taking effect of the Corporation Tax law and the filing of returns until the Supreme Court has had time to render its decision on the Constitutionality of the measure.

-The findings of the Special Committee appointed by the President of the New York Stock Exchange to investigate transactions in Columbus & Hocking Coal & Iron stock

between members of the Exchange and the three firms which suspended as a result of the collapse in that stock on January 19, namely Lathrop, Haskins & Co., J. M. Fiske & Co. and Roberts, Hall & Criss, were submitted in a detailed report made to the Governing Committee on Tuesday. Substantially the whole of the report is devoted to a recital of the facts with regard to the pools (there were two of them, according to the committee) and the proceedings on the day of the break in the stock. In its comments, after reviewing the entire situation, the Committee decides that the acts of the Stock Exchange firms in subscribing to the pools for the account of Lathrop, Haskins & Co., thereby practically lending their names to the undertaking, merit severe condemnation. In connection with an announcement that Lathrop, Haskins & Co. accept responsibility for all purchases made by Mr. Criss (the specialist in the stock and member of the firm of Roberts, Hall & Criss), and J. M. Fiske & Co. accept responsibility for all purchases reported to them by Mr. Criss, the report says: "It appears to your committee that Mr. Criss for his firm is responsible to all sellers for all his purchases which have not been accepted and paid for by others, and the claims of his firm are against Lathrop, Haskins & Co. If any of the sellers, to whom he gave up the name of J. M. Fiske & Co., choose voluntarily to accept the responsibility of J. M. Fiske & Co. and release Mr. Criss, that is their affair." The Committee also states that in its opinion the conduct of Day, Adams & Co., Rollins & Co., and A. J. Elias & Co., subscribers to one of the pools, in rejecting certain reports and disclaiming responsibility for the transactions reported thereby was fully warranted by all the rules and practices of the Exchange, and that the members of these firms are subject to no just criticism therefor. In full the report is as follows:

To the Governing Committee: Gentuemen — The Special Committee appointed Jan. 26 1910 to investigate transactions in Columbus & Hocking Coul & Iron Company stock between members of the Exchange and Lathrop, Haskins & Co., J. M. Fisice & Co., and Roberts, Hall & Criss, submits the following report: As a result of meetings of the Special Committee, held every day, at each of which all parties in interest were present, including many partners of members, with opportunity for each party to present as many witnesses as were desired, but always in the presence of the opposing interest, the following seem to be the facts elicited: On Jan. 18 1910 there were in existence two pools in Columbus & Hocking Coal & Iron stock, both under the management of James R. Keene. The subscribers to Pool No. 1 were: Shares.

Junuary 19. On Jan. 19 the following orders from Lathrop, Haskins & Co., all good till countermanded, were on the books of the following arms:

Day, Adams & Co	-Buy 200 Hocking Coal 83 %
	Buy 300 Hocking Coal _83
A. J. Ellas & Co	Buy 100 Hocking Coal .: 84 %
Contraction of the second s	Huy 300 Hocking Coal _ 82 14
	Buy 300 Hocking Coal. 8135
	Buy 300 Hocking Coal 80 14
Rollins & Co	Buy 300 Hocking Coal. 8236
	Buy 300 Hocking Coal. 81 1
	Buy 300 Hocking Coal. 80 12

All of the above firms had given the above orders to Mr. Criss in their

All of the above firms had given the above orders to Mr. Criss in their own names. On fan. 19, before the opening, Lathrop. Haskins & Co. gave to Mr. Criss orders to buy 200 Hoelting Coul at 88 14 and 200 shares each 14 down, with no instructions when to stop buying. Mr. Criss was to give up any of the four firms before mentioned, at his own discretion, under instructions from Lathrop, Haskins & Co., but without any authorization at any time from any of said firms either to Lathrop, Haskins & Co. or to Mr. Criss. During the break in the price of the stock, which became a panlo before moon, Mr. Criss bought all the stock, for which he had direct orders from Day, Adams & Co., A. J. Ellas & Co., and Rollins & Co. Day, Adams & Co. accepted and paid for 700 shares, but rejected a reported purchase of the last 300 shares of their own direct orders on the ground that their attempted cancellation of all orders had secured the cancellage of the last 300 shares order. This was at first denied by Mr. Criss, but subsequently admitted by him. Rollins & Co. accepted and paid for the must also shares, but rejected the romaining 600 shares of the last 300 shares. This leaves no claims by Mr. Criss growing out of the direct orders they conclusively proved they had canceled with Mr. Criss in time. This leaves no claims by Mr. Criss for buy 200 shares each 14 down, and give up any of the four above mentioned firms at 6. c. canceled in time the orders for the fast 600 shares. On the orders from Lathrop, Haskins & Co. to Mr. Criss to buy 200 shares each 14 down, and give up any of the four above mentioned firms at disretion, Mr. Criss bought and reported as follows (omitting 1, M. Fiske & Co., who accepted everything): Day, Adams & Co.

Day, Adams & Co	Shares. 3,900 3,300 1,600
Rollins & Co	1,600
	0.000

<text><text><text><text><text><text><text><text><text><text><text>

up the name of J. M. Fishe & Co. choose voluntarily to accept the responsi-bility of J. M. Fishe & Co. and release Mr. Criss, that is their affair. The use by Hugh F. Criss on Jan. 19 and 20 of offensive language in relation to the acts of Day, Adams & Co. A. J. Eldas & Co., and Rollins & Co. was not warranted by the facts and merits severe condemnation. The acts of the Stock Exchange firms in subscribing to the Columbus & Hocking Coal & Iron pools for account of Lathrop, Haskins & Co., thereby practically lending their names to this undertaking, also merit severe condemnation. The volume of transactions in Hocking Coal for six months prior to Jan. 19 had been light, averaging only about 800 shares per day. Mr. Haskins and Mr. Fiske, while admitting that the uset earnings of the stock, based upon future earnings from extensions and new discoveries. As a result of this faith large purchases of stock were made and large sums were advanced by Lathrop, Hastins & Co. for the development of the company. A task was undertaken beyond their means, resulting in their failure. The task of the Stock are made and large stime the stock. fatture.

F. L. EAMES, ERNEST GROESBECK, J. T. ATTERBURY, HENRY K. POMROY, F. L. RODEWALD,

February 5 1910.

-A W. Dunning was elected President of the Audit Co, of New York at the annual meeting on January 18 to take the place of Edward T. Perine, who resigned in November to become First Deputy State Comptroller. The vacancy in the office of Secretary and Treasurer, due to the resignation in January of F. C. Richardson, has been filled by the election of George H. Bowers as Secretary and Oscar L. Vecchio as Treasurer. H. I. Lundquist has been made Assistant Treasurer. President Dunning succeeds Dumont Clark on the board of directors, and F. C. Richardson, the former Secretary and Treasurer, succeeds James Stillman on the directorate. Mr. Dunning had heretofore been manager of the Audit Co.'s Western office at Chicago. The home office is at 165 Broadway, New York.

The Right Honorable Sir Edgar Speyer, Bart., P.C., is among the passengers on the North German Lloyd steamer "George Washington," which sailed from Southampton on Feb. 9.

-The January 1 statement of the Philadelphia Trust, Safe Deposit & Insurance Company of Philadelphia shows that institution to be enjoying an unusual degree of prosperity. Deposits on that date were \$9,196,783, as against \$7,594,100 on Jan. 1st 1909 and aggregate resources have grown from \$12,448,253 to \$14,228,135. On Nov. 6 last the company had a total of \$68,456,687 of trust funds on deposit. As previously mentioned in these colums, the company, which has a capital of \$1,000,000 and a surplus fund of over \$4,-000,000, occupies its enlarged new banking room (50x160) and is better equipped than ever to handle its increasing business. William L. Du Bois is President; Roland L. Taylor, Vice-President; Edmund D. Scholey, Secretary and Treasurer; Samuel E. Carter, Assistant Treasurer, and Nelson C. Denny and T. E. Frame, Assistant Secretaries.

-The Continental Trust Co. of Baltimore in the growth of its business is keeping pace with the community it serves and its extensive business connections in the South and West. On Jan. 1 1910 the company's deposits were \$5,726,366, which compares with \$4,874,011 a year earlier, while undivided profits have advanced from \$1,077,646 to \$1,108,419 and total resources from \$8,651,657 to \$9,534,785 during the same period. Twelve per cent annually is paid on a capital stock of \$1,350,000. The institution has \$1,350,000 surplus and does a large corporate trustee business. S. Davies Warfield, President, is widely known for his affiliations as Chairman of the executive committee of the Seaboard Air Line Ry., Chairman of the board of the Consolidated Gas, Electric Light & Power Co. of Baltimore, director of the Mercantile Trust Co., New York, and Maryland National Bank, Baltimore, and for his active connection with other Baltimore and Southern corporations. The banking department is in charge of F. C. Dreyer, who has brought to the company's service his training and experience gained in two of Baltimore's leading national banks. The Continental Trust Co. owns the tallest office building in Baltimore in which its various departments are located.

-The Mechanics-American National Bank of St. Louis has issued a pamphlet descriptive of its palatial quarters, into which it moved last November. The building, which was formerly occupied by the Scruggs-Vandervoort-Barney Dry Goods Co., has been referred to heretofore in these columns. It is located at Broadway and Locust Street. The lot has a frontage on Broadway of 114 feet and extends 128 feet along Locust Street, giving a total area of 14,592 square feet, only diminished by the corridor, straiway and elevators to the upper floors of the banking building. Such an oppor-

Special Committee.

tunity for the display of the entire workings of a great financial institution has seldom, if ever, the pamphlet states, been presented to an architect, for the great area available for the banking room, absolutely unbroken by elevators, partitions or other impediments to an unrestricted perspective, gave a unique opportunity which has been fully grasped in the solution. A view of the entire floor area, in all its richness and beauty, is possible upon entrance by any portal. Mammoth vaults of drill-proof steel, with doors 15 inches thick, are found at the rear of the banking room. The great book vault is located in the basement. In its latest statement (Jan. 31) the bank shows deposits of \$28,891,376 and total resources of \$35,827,733. The capital is \$2,000,-000 and the surplus and undivided profits amount to \$2,-947,557.

-The Bank of Nova Scotia (head office, Halifax) has just issued in pamphlet form its annual report for the year ending Dec. 31 1909. Net profits of \$604,123 for the twelve months are shown, as against \$559,578 for the previous year. The bank has transferred \$100,000 to the reserve fund, increasing it to \$5,500,000, and after providing for dividend and other distributions has carried forward a balance of \$44,865. The institution has deposits, interest and noninterest bearing, of \$35,008,333. The deposits belonging to other banks, notes in circulation and drafts drawn between branches outstanding bring its total liabilities to the public up to \$39,495,024, against which it has quick assets of \$26,-121,237, which is in excess of 66% of the liabilities mentioned. The capital is \$3,000,000 and the total assets are \$48,359,366. The progressive book value of the stock is displayed in a chart, which shows an advance from less than 130 in 1880 to over 280 in 1909. Another chart shows the market value of the stock to have advanced in an equally striking way. The bank pays annual dividends of 12%. The report is certified to by chartered accountants. H. A. Richardson was this week appointed General Manager of the institution, to succeed H. C. McLeod, who recently resigned. Mr. Richardson has for several years been Manager of the Toronto branch of the bank. His appointment to the general managership takes effect on the 15th inst. It is understood that the bank will increase its authorized capital from \$3,000,000 to \$4,000,000. W. H. Davies of 48 Wall Street is the New York agent of the institution.

Actual figures	Feb. 5		1232,034,5			the second se	-

On the basis of averages, circulation amounted to \$50,776,800 and United States deposits (included in deposits) to \$1,674,200; actual figures Feb. 5, circulation, \$50,625,400; United States deposits, \$1,673,900.

The State Banking Department also now furnishes weekly returns of the State banks and trust companies under its charge. These returns cover all the institutions of this class in the whole State, but the figures are compiled so as to distinguish between the results for New York City (Greater New York) and those for the rest of the State, as per the following:

STATE	BANKS	AND	TRUST	COMPANIES.

Week ended Feb. 5.	State Banks in Grenter N. Y.	Trust Cos. In Greater N. Y.	State Banks outside of Greater N. Y.	Trust Cos. outside of Greater N. Y.
Capital as of Nov. 16	\$ 26,075,000	\$ 63,425,000	\$ 8,758,000	7,975,000
Surplus as of Nov. 16	88,586,700	167,632,400	10,719,766	10.852,956
Loans and investments Change from last week.	$295,314,900 \\ -1,025,500$	$1,068,289,100 \\ +11,076,800$	89,895,000 	133,735,300

+ Increase over last week. - Docrease from last week.

+ increase over list week. — Decrease from list week. Note.—"Surplus" includes all undivided profits. "Reserve on deposits" includes, for both trust companies and State banks, not only cash items, but amount due from reserve agents. Trust companies in New York State are required by law to keep a reserve proportionate to their deposits, the ratio varying according to location as shown below. The percentage of reserve required is computed on the aggregate of deposits, exclusive of moneys laid in trust and not payable within thirty days, and also exclusive of time deposits are payable within 50 days, represented by certificates, and also exclusive of deposits secured by bonds of the State of New York. The State banks are likewise required to keep a reserve varying according to location, but in this case the reserve is computed on the whork. *The secure deposits, exclusive of deposits, exclusive of deposits, exclusive of deposits, exclusive of the State of New York.*

Reserve Required for Trust Companies	Total	of	Total	of	
and State Banks.	Reserve	which	Reserve	tchich	
Location-	Regulred	in Cosh.1	Required.	in Cash.

Any Borough with branches in Manhattan	15%	15%	25%	15%	
Elsewhere in State	10%	5%	15%	6%	

The Banking Department also undertakes to present separate figures indicating the totals for the State banks and trust companies in the Greater New York not in the Clearing House. These figures are shown in the table below, as are also the results (both actual and average) for the Clearing-House banks. In addition, we have combined each corresponding item in the two statements, thus affording an aggregate for the whole of the banks and trust companies in the Greater New York.

Wall Street, Friday Night, February 11 1910. The Money Market and Financial Situation.—Any revi

Wall Street, Friday Night, February 11 1910. The Money Market and Financial Situation.—Any review of Stock Exchange operations for the week must necessarily be largely a repetition of similar history for some time past, or, to be more definite, since Jan. 1st. No new factors have influenced the financial situation, and there have been no developments to change the general trend of business. There are reported to be evidences of diminishing activity in mercantile and commercial circles, chief of which are the cancellation or curtailment of orders for goods by Western houses. It seems possible, however, that if such orders have been canceled, it is owing to the fact that merchants in that part of the country were over-sanguine last fall as to the future, and placed orders too liberally. Such could easily have been the case in view of the enormous crops, the prevailing prices therefor, and the rapidity with which some branches of business, notably iron and steel production and railway traffic, were then increasing. Some surprise was elicited by last Saturday's bank state-ment on account of the smaller amount of cash holdings than had been expected.

than had been expected. The money market remained undisturbed, however, and call loan rates have averaged, as reported last week, from 2 to 3%. The financial situation abroad is reflected in a re-duction of rate by the German Bank and the Bank of England. The area much at the for sole house the Stack Facher as

The open market rates for call loans at the Stock Exchange

The open market rates for call loans at the Stock Exchange during the week on stock and bond collaterals have ranged from $2\frac{1}{4}$ to $3\frac{7}{6}$. To-day's rates on call were $2\frac{1}{4}\frac{63}{6}\frac{3}{6}$. Com-mercial paper quoted at $4\frac{1}{4}\frac{64}{4}\frac{3}{6}$ for 60 to 90-day endorse-ments, $4\frac{1}{2}\frac{60}{6}\frac{4\frac{3}{4}}{6}$ for prime 4 to 6 months' single names and $5\frac{60}{5}\frac{1}{2}\frac{7}{6}$ for good single names. The Bank of England weekly statement on Thursday showed a decrease in bullion of £1,084,400 and the percentage of reserves to liabilities was 51.69, against 50.46 last week. The rate of discount was reduced February 10 from $3\frac{1}{2}\frac{7}{6}$, as fixed January 20, to $3\frac{7}{6}$. The Bank of France shows an increase of 4,875,000 francs gold and a decrease of 2,350,000 france silver. francs silver.

To-morrow being a legal holiday, Lincoln's Birthday, the Clearing-House bank statement was issued to-day. A summary of the statement showing both the averages for the week and the actual figures for this morning is given on the preceding page. In the following we report the averages for the previous week in our usual form in order to preserve the record. the record. NEW YORK CITY CLEARING-HOUSE BANKS.

Outside Market.—Weakness again developed in outside securities this week, heavy losses being recorded throughout the list. Later a turn in the market caused prices to ad-vance sharply, the general run of securities displaying a firm tone at the close. Boston Consolidated dropped from 18½ to 16¾ and rallied to 195%. Butte Coalition broke from 24½ to 23, recovered to 24¾ and eased off to 24¼. Chino Copper sold down about a point to 11 and then up to 13¾. Gila weakened from 8 to 6¼ and regained all the loss, the close to-day being at 8. Giroux declined from 9¾ to 9¼, but moved up to 10¼, closing to-day at 10¼. Greene-Cananea eased off from 9¼ to 9 and advanced to 9¾, with the final figure to-day 9½. Miami lost over a point to 21¾, then improved to 24¾, closing to-day at 24¼. Nevada Cousolidated, after an early advance from 20½ to 21¾, ran down to 20⅓, but rallied to 23¼. Goldfield Consolidated went down from 7¼ to 6 15-16 and up to 7 9-16. Kerr Lake fluctuated between 8½ and 9, closing to-day at the high figure. American Tobacco was the most conspicuous feature of the industrial group, advancing 5 points to 405, then figure. American Tobaeco was the most conspicuous feature of the industrial group, advancing 5 points to 405, then dropping to 395, and again advanced, this time reaching 410. Transactions to-day were at 400. Standard Oil opened the week at 640 and closed to-day at 63212, having sold up to 643 and down to 631. United Cigar Mfrs. common, after a gain of 2 points to 85, reacted to 81, but subsequently recov-ered to 85. West. Pac. 5s ranged between 9714 and 9678. Outside quotations will be found on page 442.

THE CHRONICLE

nvestment and Kailvoad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The resurns of the electric railways are brought together separately on a subsequent page.

Electric Railway Net Earnings.—The following table gives the returns of ELECTRIC railway gross and net earnings reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of Jan. 29 1910. The next will appear in the issue of Leb. 26 1010 next will appear in the issue of Feb. 26 1910.

ANNUAL REPORTS.

Chicago Junction Railways & Union Stock Yards Co.

(Report for Fiscal Year ending Dec. 31 1909.)

Pres. Nathaniel Thayer, Feb. 8 1910, wrote in substance: Beceipts of Lies Stock-Reason for Decrease .- It will be seen from the fol-lowing table that there has been a decrease for the year in carloads of live stock received of 25,008, the receipts having been the lowest in 24 years.

	Calees. 421,071			Horses. 93,138	Cars. 378,620
Ing.(+)orDec. (-), -109,401	-11.957	-1512.447	4-89.535	-727	-25,908

Inc.(+)orDec. (-). -109.401 -11.957 -1512.447 +89.535 -727 -25.908 Secretary Wilson, of the Department of Agriculture, in his annual report just published, shows a decrease of farm animals in the United States on Jan. 1 1910 of 2,100,000 beef cattle and 6,365,000 hors, with an increase of 1.132,000 sheep as compared with Jan. 1 1909, and a still greater decrease of 1.132,000 sheep as compared with two years ago. It is probable that the high prices of corn during the past two or three years have had much to do with the decrease in cattle and hors. Instead of feeding corn to animals, as formerly, the farmers have been attracted by the high prices of corn and marketed direct. The conditions cited above would tend to prove that the high prices for meat now existing and so much eriticized are brought about by an increased consumption and a decreased supply. These high prices, however, are likely to stimulate the production of the meat-producing animals, and thus in time bring lower prices, and perhaps more effectively than the pres-ont "boycott" advocated in certain circles.

Track Elecation.—During the year the track elevation has progressed satisfactorily, and the expenditures thereon have aggregated \$184,484. The total track elevation expenses to Dec. 31 1909 amounted to \$837,807, all of which has been paid out of caralings. Improvements.—In the last two years there have been many warehouse and manufacturing establishments erected upon the property which have added largely to the freight revenue of the railroad company. These im-provements are now proceeding at an even more rapid rate than last year. (If the \$3,000,000 real estate improvement bonds authorized on Feb. 11 1908, there were outstanding on Dec. 31 1909 \$1,225,000, contrasting with \$358,000 on Dec. 31 1908. In addition, there were held by the company \$328,000 (against \$392,000 Dec. 31 1908) and there had been redeemed by the sinking fund \$142,000, this item being shown for the first time. As to the \$500,000 dehenture bonds of the Union Stock Yards & Transit Co. Issued in January 1910, see V. 90, p. 55.—Ed] COMBINED EARNINGS OF STOCK YARDS CO. AND CHICAGO

II CA MOD M

Detroit United Railway.

(Report for Fiscal Year ending Dec. 31 1909.)

President J. C. Hutchins, Detroit, Feb. 1 1910, wrote:

President J. C. Hutchins, Detroit, Feb. 1 1910, wrote: Improvements.—There has been charged out, under the head of "additions and betterments," in accordance with the classification preseribed by the State and Inter-State Commerce Commissions, for road, \$541, 537 (covering numerous expenditures of a miscelaneous nature, the largest being 568,403 on "power plant equipment."—Ed.; and for equipment, \$287,800, amely, easy, \$160,793; electric equipment of cars, \$121,120; and miscelaneous, \$5,387. In addition there has been expended on the Rapid Ry, system \$5,387. In addition there has been expended on the Rapid Ry, system \$6,261; on Det. Monroe & Tol. Short Line Ry., \$40,028; on Det. Jackson, & Che, Ry., \$23,407; and on Sandwich Windsor & Amhertburg Ry., \$2,644. Funding.—On Jan. 1 1969 the company had outstanding \$3,050,000 Gyear gold notes issued to pay for betterments and extensions. During the year it sold \$1,006,000 of its 4½ %, consols and applied the proceeds to pay of \$1,000,000 of these notes. This leaves outstanding of the 3,year number \$2,050,000, \$2,000,000 of which are due and payable Feb. 15 1910 and \$50,000 May 11910. Provision has been made to pay out of the com-pand's resources \$20,000 of of this remaining amount. Feb. 15 1910 and to current the balance for periods of at and twelve mont. Mathemance—Surplus.—The company has made liberal expenditures in the mathemance of its tracks, rolling stock and other properties. On avair of the depredation reserve stood at \$683,614. Large expenditures in the varier construction, of which spond was charged against this depreca-tion reserve. There was added to the deprecation reserve domailons, inviving the reserve. There has been credited to the contingent Hability reserve stod, onco, leaving said fund with a present careful balance of \$1,038,614, At the beginning of the year the company a surplus acood on a side reserve, and leaving a present angling of 1909, making.

People's Gas Light & Coke Co., Chicago.

(Report for Fiscal Year ending Dec. 31 1909.)

President George O. Knapp, Chicago, Feb. 10 1910, writes:

President George O. Knapp, Chicago, Feb. 10 1910, writes: General Results.—Thogross earnings are the largest for any year in the company's history, being \$14,561,558; for 1908 they were \$13,738,970. The net earnings for the year were \$3,113,103, equivalent to 8,89% on the outstanding capital stock. After the payment of dividends, a surplus re-mains of \$781,067. During the year the plant was substantially increased, the total mileage of mains now being upwards of 2,484 miles, and the gain during the year 117 miles. The work done in the past 2 years intended to regulate the dis-tribution and pressure of gas is showing good results, although it is perhaps too early as yet to determine the full effect of the work done during the year 1900, or what additional work or changes may be necessary to secure the best results. The increase during the year in the number of meters in use was 27,51, in gas stoves 24,718 and in are lamps 9,310. New Office.—Substantial progress has been made in the erection of the new office building. It is hoped the stockholders will be able to meet in the completed building at the next annual meeting. New Office.—Substantial progress has been made in the ereasury were officed to the stockholders at par, and substantially all was taken by yhem, the proceeds being turned into the treasury in eash. Illinois Brick Company.

(Report for Fiscal Year ending Dec. 31 1909.)

Pres. William Schlake, Chicago, Feb. 7 1910, wrote in brief: Pres. William Schlake, Chicago, Feb. 7 1910, wrote in brief: General Results.—The early months of 1909 showed a continuance of the unfortunate business situation, but during the last six months better market conditions have enabled us to realize a profit. While prices for city delivery were advanced early a the year, sales for country delivery were made as late as October at very low prices, cutting heavily into the earnings of the later months. The Auditor's statement shows a profit of \$114,116. For the first six months there was a decrease of \$5,000 in surplus, as compared with the statement of Dec. 31 1908. Owing to the indement weather, there were practically no earnings for Dec. 1909, so that the increase in the surplus of \$114,116 is attributable to the five months, July to November. Additions, de.—During the year there was expended for betterments \$55,673, which has been charged off and is not included in surplus. It is our policy to keep the plants in thorough to all the nound so charged off was therefore deemed a sufficient allowance for depreciation. At Shermerville the company built a new plant late in 1908 and early in 1909. This plant is unquestionably the best common brick plant in the country. Its daily output is 300,000 brick. The cost, \$115,365, is carried as an asset.

1909. This plant is unquestionably the best common orick plant in the country. Its daily output is 300,000 brick. The cost, \$115,080; is carried as an asset. Your board endeavored to obtain from R. C. Penfield the exclusive right to use his patent brick-setting device, and in August, after he had secured promise of the adoption of this patent by practically all the other brick-makers in Cook County, an agreement was made whereby the right to install this brick-setting device was secured by this company under terms which it is believed will effect a saving in the cost of production and improve the quality of brick manufactured. Under the agreement is would be necessary to equip our various yards by April 1 1910. This will involve considerable labor and money outlay.

[VOL. LXXXX.

During October this company purchased the plant of the Labahn Brick Co., and it is believed will realize a handsome profit from the investment. Brick on Hand.—We have on hand Dec. 31 1309 119,000,000 brick, of which \$3,500,000 were sold but not delivered. Last year at this time we had on hand only \$4,000,000 brick. On Jan. 31 19°0 ve had on hand 100,000,000, with orders on our books calling for the delivery of 102,000,000. So far as we can ascertain, our competitors have oversoid, some of them having but little brick on hand. The inclemency of the weather has cur-talled production, no brick to speak of having been made during December and January by either ourselves or our competitors. The short supply will in all probability make for higher prices until the supply becomes normal. Forecast.—The outlook for the coming year is very good. The prospect for large building operations in this city are brighter than ever and we confidently expect to secure our fair share of the general prosperity. The business of the company seems now in a very fair way to yield abundant and regular dividends. (%) Paid Since Jan. 1005,

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING ELECTRIC ROADS.

Ann Arbor RR.—Control Passes to Noteholders Committee. of Det. Tol. & Ironton Ry.—Reorganization of D. T. & I. Proposed.—It was announced on Monday that the Detroit Toledo & Ironton Ry Co. 5% noteholders' committee, Joseph Ramsey Jr., Chairman, had concluded the purchase of the notes of H. B. Hollins & Co. and their associates, aggre-gating approximately \$1,700,000, as contemplated in plan of Feb. 1908 (V. 87, p. 1300). As a result the controlling interest in the stock of the Ann Arbor RR. pledged as part collateral for the notes will be vested in said committee. The notes also have as collateral \$5,000,000 net value of the convoltated

 Interest of the Network of the Ann Arbor ARA. Diceged as part collateral for the notes will be vested in said committee.
 The notes also have as collateral \$5,000,000 par value of the consolidated bonds of the Detroit Toledo & Fronton Railway Co. and with this large bolding the committee will undertake the reorganization of the Detroit Toledo & Fronton Railway Co. in eo operation with H. F. Hollins & Co. Accomplete and satisfactory understanding now exists and it is understood that Newman Erb, who is largely interested in the securities, is to take an active part in the reorganization. The committee will have increased representation in the Ann Arbor RR. Co. board, giving is control of that property -V. 89, p. 1218.
 Arizona Eastern RR.—New Southern Pacific Consolidation.—The company was incorporated in Arizona Territory on Feb. 1 with \$40,000,000 authorized capital stock to consolidate existing lines in Arizona controlled by the Southern Pacific and to build extensions, the entire proposed system to aggregate 1,877 miles. It has been suggested that the company's lines may form part of a new through transcontinental line via Phoenix and Yuma. Of the stock, \$5,321,400 is to be issued to take over the Gila Valley Globe & Northern Ry., Maricopa & Phoenix RR., Arizona & Colorado RR, and Phoenix & Eastern RR. The articles of incorporation show the system as contemplated to be as follows: to be as follows:

to be as follows: (1) From the Southern Pacific near Yuma to Phoenix, 160 miles (new mileage); (2) Phoenix easterly to Lordsburg, N. M., 280 miles, 120 miles in Arizona, including the Phoenix & Eastern and possibly a section of Gila Yuley Globe & Northern; (3) branch from Solomonville, Ar. to near Bowle, 55 miles, part of the Gila Valley Globe & Northern; (4) San Carlos, via Talidai, to Globe, thence to the bounny between New McXico and Colorado, where futercepted by the Las Animas River, 425 miles, 270 m. being in Arizona and 158 m. in New McXico now operating from San Carlos to Globe, with 271 miles of branches including one from Talkiat, Gila County, Arz, northeasterly to the Arizona-New Mexico boundary, about 200 miles; (5) branch from the mouth of the San Francisco River, Graham County, Ar., via Clifton, to main line between Farmington and Aztec, San Jian County, Ar., Northeasterly 40 miles, 345 miles belleg in New McXico: (6) Coehige for Maine RR.—Majority of Stock Held by Boston Railroad Holding Co.—See that Co. below.—V. 90, p. 235.

Boston Railroad Holding Co.—Majority of Boston & Maine Stock Owned.—The new stock recently acquired, sufficient to give the company 51% of the entire \$31,991,490 Boston & Maine stock, consists, it is stated, of about 26,000 shares. The following is published:

The new stock has been acquired from three different sources and has been in process of accumulation for the past four or five months. Some 12,000 shares of treasury stock was purchased direct from the B. & M. a about \$145 a share. A block of 5,699 shares was picked up at public auction about the middle of January (V, 90, p. 235) and between 7,000 and 8,000 shares have been bought from time to time in the open market at various prices.

shares have been bought from the top been definitely decided. To date The method of payment has not yet been definitely decided. To date the Holding Company has issued its notes to the New Haven road which has furnished the cash to complete the purchases. Later on the notes will be retired and some sort of permanent security, probably Holding Company bonds and stock will be issued in their place. -V. 90, p. 371.

be retired and some sort of permanent security. probably Holding Company-bonds and stock will be issued in their place. -V. 90, p. 371.
Buifalo & Susquehanna Ry. -New Slock Transfer Agent. --The Knickerbocker Trust Co. has been appointed transfer agent for the stock of the B. & S. Railway and the B. & S. Railroad in place of Fisk & Robinson. --V. 88, p. 451.
Camden & Trenton Ry. -Foreclosure. -The United States Court at Trenton has issued an order for a foreclosure sale of the property. --V. 89, p. 1481, 1279.
Chicago Consolidated Traction Co. -Date for Deposit of Securities. -The reorganization committee, Charles G. Dawes, Chairman, announces that the time for the deposit of the several issues of securities concerned will expire on March 1. Compare V. 90, p. 302, 166.
Chicago Railways. -Compensation to City. -The City of Chicago under the ordinance receives 55% of the net receipts.

For the fiscal years ending respectively Jan. 31 1910 (2 mos. est.), 1909 and 1908, the compensation aggregated:

Compensation Paid Chicago (55% of Net Receipts)—Years ending Jan, 31. 1909-10. 1908-09. 1907-08. Totats 3 Years. x\$801,555 \$864,290 \$888,916 \$2,554,761

Two months estimated. V. 90, p. 302. Chicago & Western Indiana RR. New President. Howard G. Hetzler, who has been for 5 years President of the Metropolitan West Side Elevated RR., has been elected President to succeed E. B. Pryor, the latter being chosen Jan. 19 last to take the place of Wm. J. Henley, who resigned.

Jan. 19 last to take the place of Wm. J. Henley, who resigned. Suit was begun in the Circuit Court, Cook County, on Jan. 19 arainst B. Thomas and two others connected with the former administration for an accounting on account of alleged irregularities (denied by the detendants) in connection with land purchases on account of the company, the loss it is supposed being 3830,000 or upwards. This lightly it is thought will possibly delay the taking of steps toward the construction of the pro-posed new passenger station, estimated to cost about \$30,000,000.
The resignation of Benjamin Thomas, fromer President, who served 17 years, was asked by the direct is in June 1008.
Bonds Called.—Ninety-one (\$91,000) general mortgage bonds of 1882 have been drawn for redemption on March 1 at 105 and interest at the office of J. P. Morgan & Co., New York. V. 89, p. 592.
Cleveland & Chagrin Falls Electric RR.—Sold under Fore-closure.—All the property of this company was sold at auc-

Cleveland & Chagrin Falls Electric RR.—Sold under Fore-closure.—All the property of this company was sold at auc-tion on Feb. 5 to J. R. Nutt and F. H. Ginn, committee representing the majority of the first and almost all the second mortgage bondholders. The price paid was \$263,050. The price was bid up to \$263,000 by Francis Raiston Welsh of Phila-delphia to protect the interests of the minority holders of first mortgage bonds whom he represented and who will consequently get principal and interest for their bonds in cash. Under the Nutt-Ginn plan (see V. 83, p. 565) a new company is to be capitalized for \$300,000 bonds and \$300,000 stock, the old first mortgage bondholders getting new bonds at par for principal and interest of their old bonds and the secondmortgage bond-holders getting new stock. It is understood that this road will be merged with the old Garretsville division extending east from Chagrin Falls and mortgages on it, and it is planned to ultimately extend the system to Youngstown.—V. 88, p. 685.

Cleveland Cincinnati Chicago & St. Louis Ry.-Bonds Called .— Six consolidated 6% mortgage bonds of 1880 of the Cincinnati Indianapolis St. Louis & Chicago Ry. have been drawn for redemption on May 1 1910 at 105 and in-terest at the office of J. P. Morgan & Co., New York.—V. 90, p. 372.

Colorado Midland Ry.—New President.—A. D. Parker, Vice-President of the Colorado & Southern, has been elected President of the Colorado Midland, to succeed Daniel Willard, and also President of the Colorado Springs & Cripple Creek District Ry., with office at Denver.

A. D. Parker and Darius Miller have also been chosen directors of the Colorado Midland. --V. 89, p. 778.

The company was incorporated in Texas in April 1009 with \$50,000 authorized stock. President and General Manager, A. R. Ponder, Auditor and General Freight and Passenger Agent, W. F. Collett; Secretary, Carl F. Groos. Office, Crystal City, Tex. Delaware & Eastern Ry.—Additional Bonds Authorized.—

Delaware & Eastern Ry.—Additional Bonds Authorized.— The Public Service Commission, Second District, has au-thorized the company to issue \$400,000 additional 50-year 5% bonds, to be disposed of at 85, the proceeds to be used towards the payment of construction work on its line build-ing between Schenectady and Hancock, N. Y. The com-pany had previously been authorized to issue \$4,570,000 bonds and \$2,050,000 stock in connection with construction. Compare V. 89, p. 1667, 721.

Delaware Railroad.—*Proposed Lease.*—The directors on Feb. 8 voted to lease the road to the Philadelphia Baltimore & Washington, a stock dividend of 70% and a cash dividend of 20% to be paid and a guaranteed rental of 8%. The stockholders will vote on the matter on Feb. 15. Compare V. 90, p. 167.

Detroit Toledo & Ironton Ry.—To Undertake Reorgani-zation.—See Ann Arbor RR. above.—V. 90, p. 167. Eastern Ohio Traction Co.—Sale of Cleveland & Chagrin Falls Electric RR.—Plan.—See that company above.— V. 90, p. 167.

Y. 90, p. 107.
End Ochiltree & Western RR.—Bonds.—The stock-holders were to meet on Feb. 8 to authorize a mortgage to secure 30-year 6% bonds at not exceeding \$15,000 per mile. The company was incorporated in Nov. 1008, to build from Enkl. Okla... to Dalhart, Tex., about 265 miles, of which about 113 miles from Ochiltree. Tex., to Dalhart are to be constructed at present. Of the latter, 35 miles extending east from Dalhart, Tex. have been graded and track-laying is progressing and the line is expected to be opned within a month. Pres., Geo. M. Parry; V.-Pres.—Gen. Mgr. A. E. WiestJr.; Trass. James T. Fryer.

Florida Ry.—Increase of Stock.—The stockholders on Feb. 5 authorized an increase in stock from \$2,000,000 to \$4,000,000, to provide for extensions and equipment. Com-pare V. 89, p. 1596.

Gila Valley Globe & Northern Ry.-Consolidation.-See Arizona Eastern RR. above.-V. 79, p. 1460.

Grand Trunk Ry. of Canada.—Entrance into Rhode Island Proposed.—Acquisition.—A bill was introduced in the Rhode Island Legislature on Feb. 10 to incorporate the Southern New England Ry. (with authority to issue \$3,-000,000 stock and \$6,000,000 bonds) to build from Palmer,

Mass., at a connection with the Central Vermont, to Provi-dence, R. I., where it is planned to construct an extensive dock system. This will give the Grand Trunk a through line via the Central Vermont from Montreal to Providence.

The Grand Trunk, it was recently reported, has acquired control of the Providence & Danielson (electric) Ry., 37 miles in length, whose President, with officers of the Grand Trunk, are among the incorporators named for the new company.—V. 90, p. 167.

Company. --V. 90, p. 167.
Gulf & Ship Island RR. --Coupon Payments. --The coupons on the first refunding and terminal 5% bonds will be paid at the Bankers' Trust Co., 7 Wall St., instead of Fisk & Robinson, as heretofore. --V. 89, p. 1066.
Hudson Companies. --Sale of Notes. --Arrangements have been made through Harvey Fisk & Sons for the sale of a further issue of \$5,500,000 3-year 5% notes to a syndicate including J. P. Morgan & Co. The proceeds will complete the Hudson system of tunnels as originally planned, not including extension from 33d St. and 6th Ave. to the Grand Central Station, the financing of which is left to a later date. This note issue will be secured by bonds of the Hudson & Manhattan RR. to the extent of \$1,500 of bonds for every \$1,000 of notes.--V. 90, p. 236, 234.
Huntingdon & Broad Top RR. & Coal Co. -Change of Officers.-Carl M. Gage has been elected President & General Manager and Samuel Bancroft Jr., former President, was chosen Chairman of the board. Joseph Bancroft was

Was chosen Chairman of the board. Joseph Bancroft was elected Vice-President.—V. 90, p. 372.
 Metropolitan Street Ry., New York.—Sale Adjourned.— The foreclosure sale has again been adjourned to March 26 from Jan. 22.—V. 90, p. 300, 168.

Ontario & San Antonio Heights **RR**.—Bonds Offered.— C. E. Woodside & Co., Los Angeles and San Francisco, are placing \$150,000 1st M. 6% gold bonds. The road will con-nect Pomona with points in the Pomona Valley. Capital stock is controlled by the Huntington interests. Southern Trust Co., Los Angeles, is mort.trustee. Issue given as \$300,000.

Ottawa Electric By .- Report .- For year ending Dec. 31:

Fnilpsburg & Susquehanna Valley RR.—New Stock.— This Pennsylvania corporation filed on or about Feb. 2 a certificate of increase of capital stock from \$250,000 to \$600,000. Compare V. 89, p. 1224.
Parkersburg Mariatta & Teterach

Parkersburg Marietta & Interurban Ry.—Stock Increase,
 —This company has filed a certificate of increase of capital stock from \$440,000 to \$1,000,000.
 MA press report says that the increase is for the purpose of making improvements, the completion of the Lowell and Beverly extension and a proposed extension on the SouthStde. Compare page \$4 of "Electric Ry. Section."—V. 77, p. 1747.
 Passenger Fares — Infunction. The following the section.

Passenger Fares. -Injunction. - The following decision was handed down by Judge Hook in the United States Circuit Court at St. Louis on Feb. 9:

V. 88, p. 565.
Pittsburgh Cincinnati Chicago & St. Louis Ry.—Right to Subscribe.—A circular dated Feb. 3 offers to all shareholders of record Feb. 15 (not Feb. 5) the right to subscribeat par (\$100 a share) on the company's warrants at the Farmers' Loan & Trust Co., New York, on or before March 15 for \$7,015,600 new common stock to the extent of 12½% of their respective holdings. Subscriptions are payable at said trust company between March 1 and March 15, and thereupon the new stock certificates will be issued.—V. 90, p. 303.
Pittsburgh Harmony Butler & New Castle Ry.—New Stock.—This company filed at Harrisburg on or about Feb. 8 a certificate of increase of capital stock from \$3,-000,000 to \$3,500,000.—V. 83, p. 752.
Providence & Danielson (Electric) Ry.—Reported Sale

Providence & Danielson (Electric) Ry.—Reported Sale Grand Trunk.—See that company above.—♥. 72, p. 1136. to

Quebec & Lake St. John Ry .- Receivership .- The proposed reorganization plan having been rejected, Gorrie of Montreal was on Feb. 7 appointed receiver.----V. 90. p. 303, 237.

Saginaw-Bay City Ry.—New Securities.—The Michigan State Railroad Commission has been requested to authorize the company to increase its capital stock \$1,100,000 and to make a \$5,000,000 bond issue. Compare Commonwealth Power Railway & Light Co. in V. 90, p. 108.—V. 88, p. 159.

St. Louis Rocky Mountain & Pacific Co .- Coupon Payment.—The coupons on the first mortgage bonds and se-cured notes will be paid at the Hanover National Bank in place of Fisk & Robinson, as heretofore.—V. 90, p. 233.

Scranton Dunmore & Moosic Lake RR.-New Stock.-This Pennsylvania corporation on or about Feb. 3 filed a This remissivants corporation on or about Feb. 3 field a certificate of increase of capital stock from \$100,000 to \$250,000. The road, extending from Dunmore to Moosic Lake, 9 miles, has been leased to the American Railways Co. See V. 90, p. 371. Bonded debt at last accounts, \$100,000 6s, due Jan. 1 1933.

Seaboard Air Line Ry.—Return of Deposited Bonds.—The bondholders' committee, W. Salomon, Chairman, repre-senting Atlanta-Birmingham first mortgage 4s due 1933, deposited under agreement of Sept. 2 1908, announces that the agreement has been terminated and that the bonds will be delivered without charge for services, &c., at the Standard Trust Co., New York, on surrender of the certifi-cates of deposit.—V. 90, p. 168, 111.

Southern New England Ry.—Proposed New Grand Trunk

Southern Pacific Co.—New Bonds.—The following official statement has been given out touching the proposed \$50,-000,000 bond issue to be secured by a mortgage on the terminal properties at San Francisco, etc.

minal properties at SMI Francisco, etc. The Southern Pacific Co. has a very large amount of money invested in what is known as the Bay Shore Line, a short and very expensive cut-off, and other terminals in San Francisco, all of which are free from liens. We are now merely taking advantage of the annual meeting to be held Apr. 6 to obtain requisite consent of the stockholders for an issue of bonds to cover this investment and such other improvements of the terminals as may be found advisable without the delay and expense of calling a special meeting. But no sale of the bonds at this time is contemplated. Market and the stockholders of the store and the store

New Arizona Consolidation .- See Arizona Eastern RR. above.-V. 90, p. 373.

Stark Electric RR., Alliance, O .- Slock Dividend .-The directors last week declared the usual quarterly dividend of ¾ of 1%, and also a stock dividend of 25%, payable April I on stock of record March 25. "Cleveland Finance" says:

on stock of record March 25. "Cleveland Finance" says: The capital stock is now \$1,000,000 and the stockholders will be asked to authorize an increase of this capitalization to \$1,500,000. The stock-holders will thereupon receive a dividend of 25% in stock to capitalize part of the surplus carnings and the dividend rate will remain the same as now, mamely 3% per annum. The company issued originally \$1,000,000 bonds and upon completion of the road an extra \$100,000 was borrowed of the bank and has been paid out of earnings, together with other large money for improvements which has come out of earnings. The company recently installed two new turbine and power house which have been paid for out of earnings, and at the present time does not owe a dollar.-V. 36, p. 1468.

Toledo & Indiana Traction Co.—New Company.—The company was incorporated in Ohio on Feb. S with \$10,000 stock, to be increased later, as successor of the Toledo & Indiana Ry., which was sold at foreclosure sale to the majority bondholders on Feb. 8—(V. 90, p. 237). The incorporators are Charles F. Chapman Jr., George D. Welles, Frank W. Caughling, Eugene H. Winkworth and Frank E. Miller, all connected with the law firm of King, Tracy, Chapman & Welles, who prepared the papers.

Twenty-Eighth & Twenty-Ninth Streets Crosstown Ry. Twenty-Eighth & Twenty-Ninth Streets Grosstown Ry., New York.—Foreclosure.—Newell Martin, as refereee in the foreclosure proceedings, filed his report on Feb. 10, finding the amount due for principal and interest of the bonds \$1,639,167. The best interests of the bondholders, he says, will be subserved by the sale of the property as an entirety rather than in parcels.—V. 88, p. 1439.

Union Pacific RR.—Listed.—The New York Stock Ex-change has listed \$3,402,000 additional first lien and refund-ing mortgage 4% bonds, due 2008, making the total amount listed \$38,402,000.

Union Railway of Memphis, Tenn.-Proposed Lease.-The shareholders will meet March 28 for the purpose of-

Considering a contract between the Union Ry. Co., St. Louis Iron Mountain & Southern Ry. Co. and the Iron Mountain RR. Co. of Memphis, whereby the Union Ry. Co. will lease from the Iron M u tain RR. Co. of Memphis its terminals and properties in the city of Memphis and operate the same.--W. 75, p. 795, 443.

the same.-V. 75, p. 795, 443. United Railways of St. Louis.-Extension of Bonds.-Holders of the \$1,948,000 St. Louis RR. Co. (Broadway cable) first mortgage 5% bonds, due May 1 1910, are notified that arrangements have been made through the Mississippi Valley Trust Co. and Francis, Bro. & Co. of St. Louis for an extension of the above bonds for a period of 10 years from May 1 1910. Interest to be at the rate of 4½% per annum, payable M. & N.-V. 90, p. 367. Washington Baltimore & Annapolis Electric Ry.-Fore

Washington Baltimore & Annapolis Electric Ry.—Fare Increase, &c.—On March 1 the receivers will increase the through fare between Baltimore and Washington to \$1 and the round-trip rate from \$1 25 to \$1 50.

the round-trip rate from \$1 25 to \$1 50. On the same date through service, now stopping in the outsidrts of Washington, will be extended to the corner of 15th and G streets, N. W., with limited cars half-hourly and transfers to all intersecting lines of the Washington Ry. & Electric Co. Compare V. 89, p. 1224, 1142. Western Maryland Railway.—Authority Asked to Sell Un-issued Stock.—A bill has been prepared for consideration by the Maryland State Legislature empowering the company to sell at the market price the \$26,040,440 of unissued treasury stock and also to aid in the construction of extensions, having special reference, it is understood, to the proposed outlet to Pittsburgh. It is hoped to have the new line ready for traffic by July 1912. Compare V. 90, p. 238. West Penn Railways Co.—To Vote on Proposition from

West Penn Railways Co.—To Vote on Proposition from Am. Water Works & Guarantee Co.—The shareholders will vote Feb. 23 on substantially the following proposition from the American Water Works & Guarantee Co.:

vote Feb. 23 on substantially the following proposition from the American Water Works & Guarantee Co.:
 To take over the common stock of the rallways and issue therefor 5% cumulative preferred stock of a new company to the amount of 50% of the face value of the common stock of the West Penn Rallways Co., the new preferred stock to be guaranteed by the American Water Works & Ouarantee Co. as to dividends for a period of 21 years and also give the holder of common stock of the rallways company an amount of the common stock of the new company equal to the face value of his holdings in the West Penn Rallways Co. The American Water Works & Guarantee Co. would also take over the bonds that may be issued for improvements during the next two years at a price satisfactory to the Rallways Co.-V. 88, p. 508.
 Wheeling & Lake Erie RR.—Plans Still Under Considera-tion .—The proposed plan of reorganization and consolida-tion with the Wabash-Pittsburgh Terminal Ry. (V. 90, p. 169), which was under consideration a short time ago, has, it is stated, been abandoned, owing to legal difficulties which necessitated a change in the distribution of securities from those mentioned in the preliminary scheme. The committee and the bankers are, however, it is understood, working in co-operation in the endeavor to formulate a plan which will be practicable.—V. 90, p. 169.
 Wichita Falls & Northwestern Railway Co. of Texas.— Earnings.—This road, being a new one and not completed, has not heretofore been making monthly reports to the Inter-State Commerce Commission. The following statement, however, has recently been filed, showing the earnings of the Wichita Falls & Northwestern Railway companies of Texas and Oklahoma for the months of July to November inclusive: Operating Revenue of Wichita Falls & Northwestern Railway co. for Fise

Hartford City (Conn.) Gas Light Co.—Pref. Stock Issue— Proposed Dissolution of Holding Company.—This company, substantially all of whose outstanding stock (\$750,000, par \$25) is owned by the Hartford Gas Securities Co., which in turn is controlled by the United Gas & Electric Co. (V. 83, p. 1589), has authorized an issue of \$750,000 8% cumulative pref. stock in \$25 shores with preference also as to assets p. 1589), has authorized an issue of \$750,000 8% cumulative pref. stock in \$25 shares, with preference also as to assets to the amount of \$50 a share, first quarterly dividend pay-able April 1. This pref. stock is offered to shareholders of record at par. The portion taken by the Securities Co. will be distributed by the latter, share for share, in exchange for its own \$750,000 8% pref., while its holding of the present stock of the Gas Light Co. will be given in exchange, \$ for \$, for its own common shares, after which the Securities Co. as "burdensome machinery" will be dissolved.—V.84, p.628.

Hartford (Conn.) Gas Securities Co.-Dissolution.-See Hartford Gas Light Co. above.-V. 81, p. 34.

Hudson County Water Co.-Controlled Company.-S New York & New Jersey Water Co. below.-V. 87, p. 1481. -See

Illinois Brick Co., Chicago.—See "Annual Reports." New Stock.—The shareholders on Feb 7 voted to increase the capital stock from \$4,000,000 to \$5,000,000. The directors stated that this increase was recommended for the following reasons (compare aforesaid report):

A contract had been entered into with the American Equipment Co., under which your company is obligated to install at various plants a brick setting device known as the "Penfield patent." This device will also make necessary the rebuilding of approximately two miles of kill sheds, if not more; installation of electrical generators, traveling cranes, sliding decks for dryer cars, electrical transfer cars, etc., all of which will require the expenditure of a large sum of money, probably in excess of \$300,000.
 The company had purchased the plant of the Labaha Brick Co. for about 525,000.
 The company had rebuilt a yard at Shermerville, making it practically a new plant for upwards of \$115,000.
 The amount required for immediate needs, but it was deemed best to sak its authorization so that it may be in the treasury should occasion therefor arise. If the stockholders authorize the issue of this stock, the entire carnings will become available for payment of dividends and in-creastar our surplus account. By the improvement it is confidently expected that the net earnings will be largely increased.--V. 90, p. 55.
 Indian Refining Co., Cincinnati.-Financial Plan.-

The shareholders will vote to-day on a plan (1) to convert the \$ condensity of the stars will vote to-day on a plan (1) to convert the \$400,000 pref. stock into common stock, thus increasing the outstanding common to \$3,000,000; (2) to authorize \$3,000,000 new 7% cum. pref. stock convertible into common stock, thus increasing the outstanding common to \$3,000,000; (2) to authorize \$3,000,000 new 7% cum. pref. stock convertible into com. at option of holders at the rate of two pref. shares for one of common; (3) to increase the authorized issue of common stock from \$3,000,000 to \$4,500,000, to provide for the afore-said conversion right. Of the new pref. \$1,000,000 to remain in the treasury, and \$2,000,000 is offered for subscription at par on or before Mar. I to shareholders of record Feb. 12 1910, pro rata, payable 50% Mar. 15 and 50% Apr. 16. The holders of more than 90% of the \$500,000 is for an equal amount of pref. stock and it is expected to use part of the \$2,000,000 pref. offered for subscription at part of the subscription in effecting this exchange. A syndicate has underwritten at par the remainder of the present issue of new pref.

President Richmond Levering, in a circular dated Cin-cinnati, Jan. 27 1910, says in substance:

President Richmond Levering, in a circular dated Cin-tinnati, Jan. 27 1910, says in substance: At a meeting of the directors on Jan. 19 1010 It was shown that the company, by operating its Lawrenceville refinery to produce simply the lighter products of the crude off and fuel off, is not realizing the maximum profit obtainable, and that by extending the plant and installing a lubri-cating off works their, similar to the plant at Georgetown, a large increase in net profits would be made. It is stalt that \$1,000,000 will be spent on the proposed plant.—Ed.] A large increase in the company's facilities for distributing its products direct to customers was also recommended. If an increase in the number of distributing stations from 65 to about 150 Is said to be contamplated.—Ed.] The company further has made such substan-tial gains in the amount of crude off produced on its own properties that it is advisable to provide sufficient consumers was also recommended. If an investment to customers was also recommended. If an investment to the number of distributing stations from 65 to about 150 Is said to be contamplated.—Ed.] The company further has made such substan-tial gains in the amount of crude off produced on its own properties that it is advisable to provide sufficient capacity to refine all of this off. For annum, and on distribution of assets other than profits, to payment of its par value and the abount of such cumulative dividends at the rate of 7% per annum, and on distribution of assets other than profits, to payment, but to no other dividends or payment, and entitling the holder to convert it into common stock, on the day after the date on which any dividend on such pref. stock is made payable, upon fave days' previous written notice, and on provide that the company shall not mortgage the property (except by purchase money mortgage), without the consent of two-thirds of such pref. stock them outstanding. It is also proposed to herease the common stock from \$2,600,000 par value to \$4,500,000 here pref.

International Harvester Co.—Listed.—The New York Stock Exchange has listed \$20,000,000 additional trust certificates for common stock representing the 33 1-3 stock dividend declared payable to stockholders of record Feb 3 (V. 90, p. 306, 376) on notice of issuance, making the total to be listed \$80,000,000. Wilkes-Barre (Pa.) Gas & Electric Co.-Report.-For

Visions of the General Corporation Act of 1903. The Superior Court is advised to dissolve the temporary injunction, overrule the demurrer to the answer and dismiss the complaint. The pay-ment of the dividend will increase the outstanding stock to \$2,000,000. The suit is brought by the Stamford Trust Co. as the holder in trust of 82 shares of the company's stock. Chief Justice Baldwin says: "We are of the opinion that Section 12 of the Act of 1903 does not forbid stock dividends to those who have not made a technical subscription for the stock dividends to those who have not made a technical subscription for the stock dividends to those who have not made a technical subscription for the stock. Such dividends are fully recognized as a mode of separating the accumulated earnings of a corporation from the corpus of its assets, and dividing them between the shareholders, by Section 377 of the General Statutes." The opinion is given at some length in the "Hartford Courant" of Feb. 5.-V. 86, p. 1593.

-Stone & Webster, Boston, New York, &c., have issued in its usual attractive form their manual for 1910 of "Electric Railway and Lighting Properties" under the Stone & Web-ster management, together with capitalization, particulars regarding securities and the earnings for 1910. Price, Waterhouse & Co., chartered account-ants, 54 William St., New York, have completed the labori-ous task of analyzing on a mileage basis—per mile of road (or track), also per revenue train mile—and otherwise, the results of operating fifty-three of the leading railroads of the united States, comprising eight groups, for the year ending June 30 1909, as compared with the previous year. The returns made to the Inter-State Commerce Commission have been used in those cases in which the fiscal years end Dec. 31. This is the second annual compilation of the kind and it combraces numerous improvements over the first number. This is the second annual compilation of the kind and it embraces numerous improvements over the first number. The figures are presented in tabular form, purple ink being used for the late year and red ink for the year 1907-08. A study of the figures in the several groups should be of value, not only to investors desirous of knowing how the properties in which they are interested compare with other properties similarly situated as regards density of traffic, operating efficiency, liberality of maintenance charges, &c., but also to operating officials and other students of rail-road economics.

The Fidelity Mutual Life Insurance Co. of Philadelphia -The Fidelity Mutual Life Insurance Co. of Philadelphia, L. G. Fouse, President, published its 31st annual statement in last week's issue of the "Chronicle". This company, with \$19,502,070 assets and \$124,666,815 paid insurance in force, has paid to policyholders since organization \$20,616,350. Its growth during 1909 may he briefly summarized, viz.: ledger assets increased 13.84%; legal insurance reserve, 13.77%; premium income, 3.68%; interest and rental income, 12.72%; death losses and payment to members,

8.08%. Every approved death claim was promptly paid. The President's annual report giving full details of invest-ments, income and disbursements, together with some inter-esting information bearing on the present life insurance situation, will be sent on application. Mr. Fouse's official associates are: Alexander McKnight and W. Le Mar Talbot, Vice-Presidents; F. H. Calkins, Supt. of Claims; F. X. Quinn, Treasurer; W. S. Campbell, Secretary and Treasurer; Charles G. Hodge, Managing Auditor; J. B. Franks, Asst. Actuary; J. Russell Sykes, Assistant Treasurer and Doctors W. H. King and John L. Yard, Medical Directors. Second months are there was incorporated in New

W. H. King and John L. Yard, Medical Directors.
—Several months ago there was incorporated in New Jersey the Public Securities Co., with headquarters in Chicago, capital nominal. The object of the company was to buy and sell, at wholesale, municipal, corporation and public utility securities. The organizing spirit of this company is Homer McCoy of the successful Chicago bond house of McCoy & Co. Mr. McCoy has been a prominent banker in Illinois for 25 years, and is favorably known to nearly all bankers in the West. His plan for the new Securities Company is a large capital (\$5,000,000 to start with, of which he has more than half already subscribed), conservative dealings, and a chain of retail bond houses (of which McCoy & Co. will be one, Clark M. Poole & Co. another, and severalother equally well-known and cautious dealers), to dispose of the big company's purchases. A number of prominent Chicago bankers will be stock-holders in this company.
—W. F. Baker, for many years manager of the bond de-

-W. F. Baker, for many years manager of the bond department of Kountze Bros., 120 Broadway, New York, recently resigned to associate himself with E. H. Rollins & Sons of New York, Chicago, Denver, San Francisco and Boston. Mr. Baker is located at the Boston office where he will make his headquarters. On Monday the 14th, inst., E. H. Rollins & Sons will move their Boston offices from 21 Milk St. to new quarters in the John Hancock Life Building, 200 Devonshire St. The firm will have the large street floor corner offices in the lately completed wing of the building, corner of Devonshire and Franklin streets.
-I. M. Taylor & Company, bankers and brokers, S Con-

corner of Devonsnire and Franklin streets. —I. M. Taylor & Company, bankers and brokers, 8 Con-gress St., Boston, have issued a special circular on "Dividend Coppers," relating to the twelve copper stocks that have more than repaid their entire capital in dividends to stock-holders and are going right on making profits year by year. Address Frederic G. Perine, manager of the firm's statistical department. I. M. Taylor & Co. are members of the Boston, and Chicago Stock Exchanges. A new Chicago Stock Exchanges.

A new Chicago Istock Exchanges.
 A new Chicago Inancial firm, which vill deal in high-grade investment securities of various kinds, but making local bank stocks a specialty, is Hill, Small & Co., located on the 5th floor of the Rookery. F. A. Hill, the senior member, was on the Board of Trade for many years as a trader, and is now a member of the Chicago Stock Exchange. Mr. Small was a partner in Small Bros., dealers in bank stocks and commercial paper.
 The \$1,120,000 City of Newark, N. J. 407 school bands.

-The \$1,120,000 City of Newark, N. J., 4% school bonds, awarded this week to Kountze Brothers, 120 Broadway, New York, are offered to-day by advertisement in the "Chroni-cle." These bonds, due 1959, are optional on and after Dec. 31 1949, are tax-exempt in New Jersey, and are also, it is stated, legal investments for banks and trust funds in New York, Connecticut and New Jersey. Price on applica-tion tion.

-J. W. Bowen & Co., 53 State St., Boston, who for 10 years have made an investment specialty of the securities of the American Telephone & Telegraph Co. and allied com-panies, have brought down to date their pamphlet entitled "American Telephone & Telegraph Co. and Sub-Companies." They also invite correspondence as to further particulars regarding the several properties. - L G. White & Co. angingers appleadors 42.49. Ex

-J. G. White & Co., engineers-contractors, 43-49 Ex-change Place, New York, are sending to their friends copies of a new booklet entitled "Irrigation Investments," by Ira W. McConnell, their chief irrigation engineer, bringing clearly to view many important points for the guidance of those interested as investors or otherwise in irrigation enterprises.

-Harvey Fisk & Sons, bankers, 62 Cedar St., New York, are offering \$4,791,000 State of Massachusetts 314% bonds by advertisement in to-day's issue. These bonds mature from 1910 to 1950 and are tax-exempt in Massachusetts. J. B. Moulton, 35 Congress St., is the firm's Boston repre-sentative. Price and particulars upon application. —Sanderson & Porter approace that Mr. Elwin C. Foster

-Sanderson & Porter announce that Mr. Elwin C. Foster, recently President of the New Orleans Railway & Light Co., and formerly Vice-President and General Manager of the subsidiary companies of the Massachusetts Electric Com-panies, has become associated with them, with offices at 52 William St., New York City.

-J. B. Russell & Company, bankers and brokers, have opened a new office in the rotunda of the Rookery, Chicago, being the quarters formerly occupied by Edwin L. Lobdell & Co. They will deal in stocks, bonds, grain and cotton, and are equipped with private wires and all facilities for a general brokerage business.

-Wm. A Read & Co., bankers, are offering on another page \$100,000 New York Central Lines Equipment Trust 5s, due 1920, at 106 % and interest, to yield 4.20%.

The Commercial Times.

COMMERCIAL EPITOME.

 COMMERCIAL EPITOME.

 Friday Night, Feb 11 1910.

 Trade on the whole is in satisfactory shape, though iron and steel are less active than they were recently. Speculation has received a salutary check pretty much everywhere. The dry goods trade is increasing. Money is cheaper. The dry goods trade is increasing. Money is cheaper.

 Pretty thorough-going speculative liquidation has in a measure cleared the atmosphere.

 LARD on the spot has been firmer. Trade has continued quiet, but on the other hand the market for futures at the West has advanced, hog prices have been stronger and supplies of product are moderate. Prime Western \$12 72½, Middle Western 12.70c. and City steam 123%@12½c. Refined lard has advanced, with trade quiet and supplies light. Refined Continent 13.05c., South America 13.60c. and Brazil in kegs 14.60c. The speculation in lard futures at the West has been active. Prices have shown irregularity at times as the result of profit-taking, but the general trend of the market has been upward, owing to moderate hog receipts at stronger prices, the advance in the grain markets, buying by large packers and commission house purchases.

 DAILY CLOSING PRICES OF LARD FUTURES IN CHICAOO.

ing a further decline. Stocks at the South, have increased materially of late.

Friday Night, Feb. 11 1910. THE MOVEMENT OF THE CROP as indicated by our THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 81,326 bales, against 62,982 bales last week and 108,863 bales the previous week, making the total receipts since Sept. 1 1909 5,777,958 bales, against 7,770,026 bales for the same period of 1908-09, showing a decrease since Sept. 1 1909 of 1,992,068 bales.

Speculation in cotton for future delivery has been mod-erately active at some advance. The rise was due mainly to some improvement in the spot situation at home and abroad, and covering of shorts. The Liverpool spot sales have been large, and Liverpool has also bought here to some extent. Manchester and the Continent have been buying in the English market. Lancashire's trade appears to have improved. Southern spot markets have been generally firm, with reports of a good demand at some points and the cotton not very freely offered. It is said that estimates of the East India erop are being reduced. The receipts at the ports and interior towns have been comparatively small. Some stress has been laid upon what bulls claim is a strong statistical position. Wall Street shorts have been buying and so have those in other quarters who had followed the short side for some little time past. The Bank of England rate of discount has been reduced, and less is heard about the disturbing effect of the English political situation. Advocates of better prices dilate on the heavy "calling" of cotton by English and Continental mills of late in Liverpool, the firmness of spot cotton in this country and the light crop movement. On the other hand, speculation has been Advocates of better prices of the inight pointer statution. Advocates of better prices dilate on the heavy "calling" of cotton by English and Continental mills of late in Liverpool, the firmness of spot cotton in this country and the light crop movement. On the other hand, speculation has been comparatively slow, and on Tuesday last there was a sharp break on liquidation, partly by prominent speculators and reports that the European demand for the actual cotton had fallen off. The stock market has been a disturbing factor, and Wall Street houses at times have been rather heavy sellers. Chicago and New Orleans people have also sold. The South has shown a disposition to sell at 15 cents or above. It has come to be almost an axiom in the trade that the market cannot be bulled twice in the same season. Certainly in the past such attempts have usually met with failure. Also, there is a saying which has come to be something like an adage in the business: "Never bull the tail end of a short crop." It is felt in most quarters that the future of prices must be decided by the trading between the planter or the spot dealer and the spinner rather than by speculative pyro-technics, of which everybody in the trade is tired. Con-servative markets, regulated by the law of supply and de-mand, rather than by "sound and fury signifying nothing," are preferred. Such markets, it is felt, will prove a suffi-cient refutation to too sweeping attacks on the system of trading in futures. To-day the market was a quiet, evening-up affair before the holiday. At first there was a small ad-vance on reports of strong and active spot markets, buying by spot interests and covering of shorts. Later on long liquidation caused a reaction. Spot cotton has been quiet. Middling uplands closed at 15.15c., an advance for the week of 25 points. The rates on and off middling, as established Nov. 17 1909 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

The official quotation for middling upland cotton in the New York market each day for the past week has been:

Indian corn futures in the local market have been nominal. Indian corn futures in the local market have been nominal. At the West trading has been active at an advance in prices. Bullish factors have been a sharp diminution in country offerings, decreased receipts at some points and a stronger eash market. There has been active covering of shorts, both large and small. On the other hand, elevator interests have sold and there has been more or less liquidation by longs among commission houses. The demand to cover, however, has readily absorbed the offerings. To-day prices advanced early on light country and speculative offerings and covering of shorts. Later there was a reaction on long liquidation.

September delivery in clevator.....65% 65% 66% 66% 66% Oats for future delivery in the Western market have been rather quiet but prices have been firmer, reflecting to some extent the strength of wheat and corn. Country offerings have been smaller. The crop movement, though larger than recently, has nevertheless been disappointing. Shorts have been the principal buyers, though there has also been more or less purchasing by commission houses. Cash interests have opposed the advance. To-day the market was quiet and irregular within narrow limits. In the main the tone was firmer, however, on light country offerings and covering.

THE DRY GOODS TRADE.

New York, Friday Night, February 11 1910.

The primary cotton goods situation showed no material change during the week; trading was quiet and confined principally to moderate-sized lots for prompt and near-by shipment, and prices generally ruled steady. In the print cloth division more inquiries developed, but the volume of sales did not increase correspondingly; converters and other users made greater efforts to place contracts with mills at the low levels reported among second hands, but sellers continued firm on forward business, and do not seem to be pressing for orders at current prices, which in many lines remain very close to cost. Trade in jobbing houses showed a little more life, with a large number of buyers in evidence, a little more life, with a large number of buyers in evidence, although the character of the demand and business transacted continued about the same as in recent weeks; on seasonable and staple goods priced at or near their own ideas buyers operated steadily for prompt delivery and in satisfactory volume, but on lines which have been advanced substantially their purchases were limited. Jobbers ordered small lots for quick delivery for filling in purpose; generally speaking, little disposition was shown to anticipate requirements far ahead, except on fall cottons, in which activity was well maintained. The cotton yarn situation as a whole showed no improvement, the market continuing easy, with demand light, stocks large and some mills reported as willing to book orders at prices somewhat below current quotations in order to move accumulations. The export trade remained quiet, with little prospect of improving so long as foreign sellers inderbid domestic mills. Dress goods continued active, corporation goods especially being well patronized; the opining of staple worsteds for fall at to-day's basis of value by one of the general tendency to name advances. The feature in the men's wear market was the opening of the largest producers occasioned some surprise in view of the general tendency to name advances. The feature in the men's wear market was the opening of the largest producers of the provement.
DOMESTIC COTTON GOODS.—The exports of cottom goods from this port for the week ending Feb. 5 were 1,501 packages, valued at \$108,951, their destination being to the points specified in the table below: although the character of the demand and business transacted

Total 15,796 2,073 26,300 The value of these New York exports since Jan. I has been \$1,165,212 in 1910, against \$1,459,473 in 1909. In the market for domestic cottons interest and activity centered chiefly in Fall lines which continued to be taken quite freely; prices named on fancy flannelettes are lower than was generally expected, and have proved attractive to buyers. Staple prints received more attention, but the total volume of business was only moderate. Pacelos was in buyers. Staple prints received more attention, but the total volume of business was only moderate. Percales were in steady request, and some improvement was noted in the call for spring and summer lines of printed goods. The better quality tickings are reported well sold ahead; on low grades, however, mills are not so comfortably situated. A satis-factory business was done on the best-known lines of dress ginghams, jobbers being fair purchasers. Drills, certain sheetings, brown cottons and similar lines ruled quiet, with prices rather easy and irregular on spot goods; first hands, however, remained firm on contracts. The cotton-lining market displayed a better tone than for some time past, but the improved demand was confined to goods for prompt shipment. Trading in print cloths light; regulars unchanged; standard wide goods are quoted a shade easier at 5%c. WOOLEN GOODS.—As indicated, one of the largest

standard wide goods are quoted a shade easier at 5%c. WOOLEN GOODS.—As indicated, one of the largest dress goods producers opened staple worsteds for fall, 1910, on the basis of prices now current; although this action was unexpected, it seems to be in line with the policy of leading factors to offer goods for late delivery at levels that will attract buyers and assure a satisfactory distribution; a sub-stantial business is reported as already booked, with prospects of a larger trade developing. In certain quarters orders received direct from retailers were exceptionally heavy. Staple dress fabrics for fall were taken in good quantities, demand running largely to rough-faced lines of the better grades; broadcloths, though somewhat less active, met with a fair sale. The primary market for Fall men's wear was less active. The chief event of the week was the opening of the principal line of fine fabrics for the next heavy-weight season at advances of from 5 to 10 per cent; this increase was quite in line with expectations. FOREIGN DRY GOODS.—Imported woolens and wor-

FOREIGN DRY GOODS.—Imported woolens and wor-steds ruled moderately active but without particular feature. The call for linens of all descriptions was unabated and prices firmly held. Burlaps steady but generally quiet.

STATE AND CITY DEPARTMENT.

News Items.

News Items. Haverhill, Mass.—No Election at Present on Purchase of Light Plants.—We are advised under date of Feb. 4 that "no date has been set for holding an election to see whether this city will purchase the gas and electric companies' plants, and, in fact, a two-thirds vote must be passed in favor of holding this election by the Municipal Council before an elec-tion can be held." It is not expected that the Municipal Council will take this matter up until some time in April. Local papers stated that orders for the purchase of these plants were unanimously passed by the Municipal Council on Dec. 23 1909. It was also stated that the matter would again be submitted to this body, as required under the State law, and in the event of favorable action, the Mayor would probably issue a call for a special election in February, when the proposition would be submitted to the voters. See V. 90, p. 63. Hennepin County (P. O. Minneapolis), Minn.—Road Bonds

V. 90, p. 63. Hennepin County (P. O. Minneapolis), Minn.—Road Bonds Declared Invalid by Supreme Court.—A decision was rendered by the State Supreme Court on Feb. 4 declaring unconsti-tutional Chapter 405 of the General Laws of 1909, which em-powers counties having a population of 275,000 or more to issue not exceeding \$1,000,000 bonds for road and bridge purposes. The decision, which reverses the findings of Judge Dickinson of the District Court, is a result of the friendly suit brought on behalf of the Good Roads Association to test the validity of \$100,000 bonds issued under the Act in question and awarded to the First National Bank of Minneapolis. See V. 89, p. 612. The opinion of the higher Court, written by Judge Calvin L. Brown, is unanimous and to the effect that the Legislature in conferring power to issue bonds upon only those counties having a population issue bonds upon only those counties having a population of 275,000 or over acted in violation of the constitution, which prohibits special legislation.

which prohibits special legislation.
 Illinois.—Resolution Approving Income Tax Amendment Adopted by Senate.—On Feb. 9 the Senate, by a vote of 41 to 0, adopted the Hurburg joint resolution ratifying the proposed amendment to the United States Constitution, which, if ap-proved by the legislatures of three-fourths of the several States, will give Congress power to levy and collect taxes on incomes from whatever sources derived, without appor-tionment among the States, and irrespective of census or enumeration. It is expected that the resolution referred to will come up in the House next week.
 New York City.—Chamber al Commerce Favors Ranid

tionment among the States, and irrespective of census or enumeration. It is expected that the resolution referred to will come up in the House next week.
New York City,—Chamber of Commerce Favors Rapid Transit Construction by the Assessment Plan.—We print below resolutions adopted by the Chamber of Commerce approving the action of the Public Service Commission in adopting a report favoring the extension of the proposed Eastern Parkway Subway in Brooklyn by assessing the owners of the property benefited for the cost of its construction. The road as now proposed will extend from Atlantic Ave., up Flatbush Ave. to the Prospect Park Plaza, thence along Eastern Parkway to Buffalo Ave., across private property to Livonia Ave., and East Ninety-Eighth St., along Livonia Ave. to a point on New Lots Road. The route as proposed will be subway up to Livonia Ave. and East 98th Street from which point the erection of an elevated structure is recommended.
Whereas, A committee of the Public Service Commission of the First District under date of January 28 1910, has reported their consent and approval of the brincipe of paying for construction by ocal assessment under property adopting the recommended by your committee or consideration in its report to this Chamber on March 2 1909, and 2000 committee of or consideration by local assessment and propers adopting on construction by becal assessment and propers adopting construction by cola assessment and propers adopting the recommended by your committee or the fully of assessment and propers adopting the recommended by cour committee of submary as the "Livonia Ave and East Shinety". East and the principle of beak assessment under propers adopting construction by local assessment and propers adopting the recommend to be extremely apprecised to the dity; and the submary as a private of subway applies to the crist, and a subway applies to all turther beadvards. T

CLARENOE H. KELSEV,] Rapid Transt.
New York, February 3 1910.
Orange, N. J.—A pplication for Writ of Certiorari to Review Municipal Light Plant Proceedings Denied by Supreme Court. —Chief Justice William S. Gunmere on Feb. 5 denied the application made on behalf of S. P. Davis, a taxpayer, for a writ of certiorari to review the action of the Common Council in proceeding with plans for a municipal electric-light plant. A resolution providing for the issuance of \$90,000 4% 50-year bonds for this purpose was passed on Dec. 20 1909. See V. 89, p. 1687. The application was made on the ground that it was illegal for the eity to provide for a plant which would take care of public lighting but which could not provide for the needs of private consumers.

The method in which the matter was submitted to a referendum was also declared to be faulty. In answer to these contentions it was argued that the city was not bound to contentions it was argued that the city was not bound to construct a plant capable of furnishing light to every citizen, but could erect a small plant and enlarge the same as occasion demanded. Testimony was offered to show that the plant as proposed provided facilities for taking care of a limited number of private consumers. The City Clerk's affidavit was also submitted to show that the eity had complied with the statute in the referendum on the matter. The Court declared that "the reasons advanced why the writ should be granted are not sufficient." Proposals for the bonds mentioned above will be received until Feb. 14. See item under "Orange, N. J." on a sub-sequent page.

sequent page.

Springfield, Mass.—Petition for Injunction Denied.—City Treasurer E. T. Tifft writes us as follows with reference to the action on behalf of certain citizens to restrain the issuance of \$1,000,000 bonds authorized by Chapter 84, Laws of 1909, for the erection of municipal buildings:

for the erection of municipal buildings: The city was authorized by a special Act to issue \$1,000,000 in bonds to pay for a municipal group, consisting of an auditorium seating 5,000 people, a tower 267 red in height and a municipal office building. Certain citizens thought that this was extravagant: other citizens differed in opinion as to the proper location for such a group, so a petition, signed built a dozen citizens, was presented to the Superior Court, requesting that an injunction be issued against the issue and sale of the bonds. When it came time for the Court to hear the petitioners, they not appearing or presenting any case, the injunction was decided—and later dismissed introly; so that a no time was the city restrained in its actions in reference to this bond issue. The contracts for the municipal group of buildings are already let, and work on the foundation of the auditorium has commenced. **Virginia.**—Bonds Listed.—On Feb. 9 \$5,\$52,\$00 3% coupon and registered "Riddleberger" bonds were trans-ferred from the unlisted department to the regular list of the New York Stock Exchange. The bonds are in the following denominations: \$5,536,000 of \$1,000 each, \$245, 500 of \$500 each and \$71,300 of \$100 each. The date of the bonds is July 1 1882. Maturity July 1 1932, subject to call after July 1 1900. **Wichita, Kan.**—No Definite Action Yet Taken in Purchase

Wichita, Kan.—No Definite Action Yet Taken in Purchase of Local Water Plant.—We were advised during the past week that nothing definite had been decided in the matter of pur-chasing the plant of the American Water Co. See V. 90, p.63.

Bond Proposals and Negotiations this week have been as follows:

Aberdeen Independent School District (P. O. Aberdeen), Brown County, S. D.—Bond Offering.—Proposals will be received until 8 p. m. Feb. 15 by the Board of Education, M. M. Guhin, Clerk, for \$75,000 4½% high-school-building

M. M. Gunni, Clerk, 107 575,000 47276 ingl-school-building bonds. Authority, election held Dec. 16 1909. Interest semi-annual. Maturity 20 years. These bonds were offered on Jan. 21. but all bids received on that day were rejected. See V. 30, p. 316. Altus, Jackson County, Okla.—Bond Sale.—We are in-formed that the \$200,000 water-works, electric-light and sewer bonds voted on Jan. 31 have been sold.

Anson Independent School District (P. O. Anson), Jones County, Tex.—Bond Sale.—The \$25,000 5% 20-40-year (optional) bonds registered by the State Comptroller on Jan. 28 (V. 90, p. 388) were sold on Feb. 5 to Ulen, Sutherlin & Co. of Chicago at par and accrued interest.

Ashland, Jackson County, Ore.—Bond Sale.—On Feb. 1 the \$8,690 Fourth St. and \$24,668 Main St. 6% coupon street-paying assessment bonds described in V. 90, p. 249, were awarded \$25,358 to the Warren Construction Co. at par and \$8,000 to E. C. Cross at 101.50. Purchasers to pay accrued interest. An offer of par and accrued interest for \$2,000 bonds was also received from the First National Bank of Ashland.
