OUR RAILWAY EARNINGS ISSUE.

We send to our subscribers to-day the February number of our "Railway Earnings" Section. In this publication we give the figures of earnings and expenses for the latest month of every operating steam railroad in the United States, big and little, which is required to file monthly returns with the Inter-State Commerce Commission at Washington—altogether over 800 roads or systems, comprising an aggregate of more than 230,000 miles of line.

THE FINANCIAL SITUATION.

More hopeful views have prevailed this week, and as a consequence the security markets have shown an improving tendency. As the previous despondency had been occasioned by political influences, so the present disposition to take a brighter view of things may be ascribed to political sources. A belief is growing that the program of legislation mapped out by President Taft will have to be greatly modified or at least be very much abbreviated before it can hope to find acceptance at the hands of Congress, notwithstanding the constant effort the President is making with Senators and Congressmen to spur them to action. The President himself shows no signs of wavering. At the Lincoln Day dinner of the Republican Club at the Waldorf-Astoria last Saturday night he expressed anew his determination to carry out all the policies with which the name of Mr. Roosevelt has become inseparably linked, though he did let fall a crumb of comfort in the statement that, inasmuch as the Republican platform on which he was elected had not specifically declared in favor of Federal Incorporation, he "did not feel justified in asking the adoption of such an Act as a party matter.'

The circumstance, however, from which most encouragement is derived is that Congress does not appear to be altogether in a quiescent mood. Advices from Washington make it plain that there is hardly a feature in the President's legislative program that is not likely to meet with considerable opposition. Accordingly, when the newspapers print headlines saying "Taft Summons Senators and Congressmen," the matter is interpreted quite differently from what it was a short time since. Two weeks ago announcements of that nature were received with alarm as indicating the possible early enactment of the radical laws desired by the President. Now such announcements, accompanied by the statement that Mr. Taft is showing impatience over indifference to his program, are looked upon as freighted with favorable promise because suggesting a probability that the President may be thwarted in his purpose. Much encouragement is also derived from the masterly argument made by ex-Senator John C. Spooner Thursday night of last week at the annual dinner of the American Paper & Pulp Association. The ex-Senator is conceded by all to be one of the highest authorities in the country regarding Constitutional law. Hence his characterization of the Federal Incorporation bill as unconstitutional, carries deservedly great weight. Mr. Spooner said he could not believe that Congress had the power under the Constitution to create manufacturing corporations except in the District of Columbia and in the Territories. To be sure, the power to regulate commerce among the States is lodged with Congress

but it has long been a principle of law that no foreign corporation can go into a State except with the consent of the State.

Mr. Spooner pointed out that some of the largest of the corporations hail with delight the chance to organize under Federal authority. That is because they think it is a port of safety. "They see a chance to go into all the States whether the States want them or not." Continuing, he said: "There are corporations which Congress can create. They are instrumentalities of commerce, but where do you find anything in the Constitution which gives Congress power to create manufacturing corporations? When an article is manufactured in a State and remains in that State it is under the jurisdiction and the sovereignty of that State. It was never intended by the framers of the Constitution to give Congress supervision over all the business of the States. The integrity of this Government depends upon the sovereignty of the States and of the National Government. The dividing line between these should be maintained."

This is a view which Republicans and Democrats alike accepted as sound and incontrovertible until a short time ago, and very naturally it is felt that with such principles enforced by the Courts much of what is proposed by Mr. Taft would be void. A somewhat more assuring view regarding the application of the Anti-Trust law is also being taken for the time being. It seems to be thought now that an early decision in the American Tobacco Co. case, which involves interpretation of the statute referred to, is not likelythat the Court will not announce its judgment in that case until it also passes upon the Standard Oil case, and this latter has not yet been argued before the Supreme Court. Hence it is reasoned that considerable delay must ensue before an authoritative con_ struction of the law comes from our highest tribunal. In the present mood and temper such delay is regarded with favor, since in the meantime further trust prosecutions under the Anti-Trust law will be held in abeyance.

The suggestion is also being ventured in certain quarters that possibly the Government may not after all come out altogether victorious in the Tobacco and Oil cases. It would occasion no surprise among the legal fraternity if at least in the Tobacco case the Government should suffer defeat in some or all of its contentions. On the whole, therefore, there have been, it will be seen, a number of circumstances tending to create a more hopeful frame of mind. Obviously some new move or unexpected announcement from Washington may at any moment change the whole aspect of things again and revive the feeling of fear and alarm which previously existed. For the present it is satisfactory to know that substantial basis exists, as pointed out above, for a greater feeling of confidence.

In suggesting consideration of the question whether abolition of the personal property tax as laid directly upon individuals in the present manner might not be advisable, Mayor Gaynor revives a thought that is old in the minds of many men. At one time, not many years ago, in making some alteration of the law on this subject, the Legislature inadvertently left out the provision for enforcing any penalty, so that it was safe for persons who discovered the omission to pay no attention to the customary notices of assessment. Ordinarily, in cases where there is no specific repute of wealth and no record exists as a guide, a notice on the basis of \$10,000 is sent out to addresses taken at random from the voting lists or the directories. Some men whose occupation is as humble as that of driving delivery wagons and who are without property or expectation of any receive such a notice, and in a smaller number of instances the guess is probably as wide in the opposite direction.

In practice the person who really has or is willing to make affidavit to having either no assessable property or less than the amount guessed responds to the notice, while the one who confessedly has more accepts the proffered escape and leaves the assessment to stand confirmed. There are exceptions, of course, but the temptation is strong, and it is aided by the justifiable belief that the tax works unevenly and nobody pays who can dodge. A custom is likely to be taken as ethically admissible. The result is that this particular tax falls chiefly upon property which cannot be kept under cover.

In reply to the Mayor's question, the President of the Tax Board believes the persons who pay most of the real estate tax also pay a personal one, although it is impossible to speak positively. To the other question he replies that the personal tax has averaged in the last three years 41/2 millions annually, and its abolition would add 6 or 7 cents per \$100 to the real estate tax, now about \$1 67 in this borough. Dealing with things as they are, the question is one "of abandoning the small relic of the personal property tax now left," and he favors doing that. Outside of this city the entire personal assessment in 1908 was only 113 millions; in one city, with a real estate assessment of 29 millions, the entire personal assessment is \$175,000, and in many towns there is none at all. This officer believes the tendency of the personal tax is to drive away property and business, the presence of which would enhance the value of real estate. He deems it uneconomical, and it does not concur with two principles of taxation: that accuracy and nonevasion are prime requisites and that tax on real estate always diffuses itself. It is obvious that it would be a sensible course to abolish the tax.

In some respects, the most interesting of the cases upon which the Supreme Court is expected to pass next month, involving the validity of the Corporation Tax, is the Flint case from Vermont, and the "Sun" of this city has taken pains to investigate it. More than forty years ago the partnership firm of Tuxbury & Stone had a general store in the pretty village of Windsor. Some fifteen years ago, for reasons not important here, this concern split in two, Dwight Tuxbury & Sons and Stone, Tracy & Co., and thenceforward there were two stores side by side. Naturally, these two have carried about the same general lines of goods to this day and have been in brisk competition, with each alert to the practices and trade of its nextdoor neighbor.

Thus far, the case merely exhibits a somewhat unusual closeness of rivalry, and doubtless the customers of each have profited by the incentive to do the utmost for securing trade. But about ten years ago Stone, Tracy & Co. (also for reasons not important net,£272,070 (\$1,324,038), after allowing for interest

here) incorporated under the laws of Vermont as the Stone Tracy Company, with a modest capital of \$20,000, while the rival store next door remained a simple partnership. Now comes the tax clause of the tariff law and declares that one store shall pay a tax on its profits if it has any, and shall also report the facts of its condition, to be a public record, in which the adjoining store, not being subject to either tax or inquisition, will naturally feel some interest. So Stella Flint, through Maxwell Evarts, her counsel, appeals for relief in the capacity of guardian for a voung Stone. This discrimination is unfair, she avers; it is against the authority and dignity of the State of Vermont; and the result of it will certainly be to force the Stone Tracy Company into involuntary dissolution.

The "Chronicle" sought, last summer, to make every reader understand and appreciate, not only the other wrongs in this income tax, but the fact that it makes private business affairs matter of public record, exposing corporations to the interested curiosity of business rivals who may or may not happen to be incorporated. It should be noted, as we have repeatedly pointed out, that the language is mandatory; the information, when filed, is to be a public record, and therefore accessible to everybody, without inquiry into circumstances or reasons, though the President now lets it be known that unless Congress specifically appropriates \$50,000 for the purpose, he will be unable to give effect to the publicity feature.

Of course, this Vermont case is strikingly peculiarthat is all. The inequity in it is not greater because the rival concerns, one attacked and the other exempt, happen to be side by side instead of a thousand miles apart, since in respect to trade alertness and competition mere geographical distance does not count very heavily. But this is a concrete example which focuses the mind directly upon the natural workings of the discrimination, and the Justices of the Supreme Court cannot fail to be individually impressed by it, whatever line of decision they feel impelled to take upon the issue itself. As the date for filing reports approaches, the public impression of the unwisdom and inequity of this tax-itself only a rather clumsy device to relieve a political situation-has been growing clearer and deeper.

Cotton manufacturers in Great Britain this week determined to further extend the period of curtailment of production. At a meeting of the American section of the Federation of Master Cotton Spinners, held at Manchester (England) on Tuesday, it was decided unanimously to continue short-time running until April 26, and it was reported that owners of 4,000,000 spindles outside of the Federation will follow a like course. The expectation is that the short-time movement will result in defeating the efforts of those striving to hold cotton at a high level of cost.

It would seem to be of special interest in this connection to draw attention to the unsatisfactory results obtained by British manufacturers using American cotton in 1909. We have recently received a compilation covering returns from 100 companies in Oldham and elsewhere, and its purport is as follows: Those companies with aggregate capital of £3,426,534 (\$16,675,228) and running 8,395,630 spindles, lost,

on loans and depreciation of plant. In 1908, on the other hand, the same companies returned a profit of £586,511 (\$2,854,256), or 16% on the investment. Notwithstanding the loss sustained in 1909, dividends averaging 71/8% were declared, reserve funds being drawn upon to the extent of £268,135 (\$1,304,879) for the purpose. It is worthy of note, moreover, in passing, that out of the last 26 years (1884 to 1909 inclusive) only seven have proven unprofitable, but none as much so as 1909. On the continent of Europe it is also to be noted that curtailment of production is operative at many points. South Germany spinners lately decided to continue short-time into the second quarter of 1910, and in Austria curtailment to the extent of 33%, instead of 16% as heretofore, is to be maintained for six months. These being the conditions of supply and demand, it is not expected that further efforts to bring about a further appreciation in the value of cotton can succeed.

The foreign export trade of the United States for January 1910, as indicated by the official statement issued this week, was of quite restricted proportions, exhibiting a decrease of 125% millions of dollars from the month of last year and falling behind the total for the corresponding period of any year since 1905. While in all the leading articles for which advance figures are furnished decreases are shown, the most notable loss occurred in cotton. Due to the high price of that commodity, and the curtailment of production of goods now operative abroad, our shipments of cotton for the month reached only 491,632 bales, the smallest January aggregate, with three exceptions, (1882, 1886 and 1893) in the last thirty years. And the falling off this year did not follow a large outward movement earlier in the season; on the contrary the Sept.-Dec. inclusive export aggregate for 1909 was less than for either of the three preceding years. Even at the high price this year the value of the cotton sent out in January was only \$37,672,378, which compares with \$52,517,999 in 1909 and \$77,034,124 in 1908. In this one article, therefore, we have a decline of 15 millions of dollars from last year and 391/2 millions from 1908.

Breadstuffs shared in the loss in trade this year to the extent of 21/2 millions of dollars, the January 1910 total, in consequence of diminished wheat shipments, dropping to \$10,488,735, the lowest January result since 1895. The outflow of meat and dairy products, moreover, was only \$10,361,663, or 31/4 millions less than in January 1909, and. concurrently, a small decrease in cattle, sheep and hogs is to be noted. Furthermore mineral oil shipments exhibit a drop in value of 114 millions of dollars from the total of a year ago. Combining these various leading export items, we have an aggregate of only \$66,512,067, a figure 22 millions lower than that for January 1909, nearly 621/4 millions less than in 1908, and in fact the lowest aggregate for the opening month of the year since 1900. In the total of all other commodities exported in January this year an increase of a little under 10 millions of dollars is recorded. For the month of January 1910 aggregate exports were \$144,015,350, against \$156,-712,842 in 1909 and \$206,114,718 in 1908, and for the seven months since July 1 1909 reached \$1,084,240,-825: comparing with \$1,031,750,776 for the same period in 1908-09 and \$1,189,090,551 in 1907-08.

Merchandise imports for January on the other hand exhibited a very important augmentation, standing at \$133,658,064, against \$103,576,501 in the month of 1909 and \$84,997,514 in 1908. Furthermore, the aggregate for the seven months ended January 31 1910 marked a new record for the period, having reached \$891,272,496, and contrasting with only \$697,499,433 for the like interval in the previous fiscal year and \$756,889,151 two years ago. The net result of our January 1910 foreign trade is a smaller export balance than in any year since 1893. In fact it reached only \$10,357,286. against \$53,136,341 in 1909 and \$121,117,204 in 1908-the record for January. For the seven months of 1909-10, also, the net export balance is comparatively small, falling behind any year from 1897-98 to 1908-09 inclusive. The balance, at \$192,968,329, compares with \$334,251,343 for the same period of 1908-09 and \$432,202,400 in 1907-08, the last named result standing next to the record of \$443,199,829 made in 1900-01.

Gold exports during the month were moderate, reaching \$6,163,132, and contrasting with \$7,865,356 in January 1909. The seven months' outward movement was \$75,209,616, against \$35,562,837 in 1908-09. Gold imports aggregated \$2,131,357 in January 1910, against \$3,420,183 in 1909, with the seven months' totals \$26,082,731 and \$27,288,580, respectively. On balance, therefore, we exported, net,\$49,126,885 in the seven months ended January 31 1910, this contrasting with \$8,274,257 net exports in the like period of 1908-09 and \$113,369,760 net imports in 1907-08.

Progress has again been reported this week by our State Department in arriving at tariff agreements with other countries. Japan, the Indian Empire, Aden (the British port on the Red Sea) and Malta (the British possession secured by the diplomacy of Disraeli) have been added to the list of countries entitled to minimum duties under the Payne Act of 1909. The granting of the lowest rates to imports from Japan has been hailed with deep satisfaction in that country, as the United States is one of her best over-sea customers; she sent us, according to her own figures, fully \$60,000,000 worth of merchandise in 1908, and bought from us less than \$40,000,000 worth, her exports of raw silk to this country alone exceeding her total imports of American goods. The agreement was formally announced throughout Japan on Wednesday, and, according to a dispatch from Tokio, "has been received by the commercial interests of the Empire with the liveliest satisfaction." One immediate result has been to assuage the resentment felt against the action of the Committee on Immigration of our House of Representatives in voting unanimously to report favorably the Hayes exclusion bill, which directly affects Japan; but this matter will come up for consideration later.

Neither Canada nor France has yet taken the steps necessary to qualify for admission to the most, favored, nation category. This week Finance Minister Fielding officially announced that Canada will not be included with Great Britain when that country is placed on the preference list, but he was careful to express the hope that the negotiations now under way will end amicably, so that Canada may obtain our minimum rates. The Washington authorities still preserve rethence on this subject. No authoritative statement is forthcoming regarding the negotiations with France, concerning which there is widespread though not yet acute uneasiness among the mercantile classes of both countries. Advices from private sources, however, are encouraging; these state that substantial progress has been achieved and that the outlook for a friendly settlement of points still in dispute is much brighter than it was a month ago. A good deal, in fact almost everything, depends upon the willingness of France to stop levving upon imports from the United States her present maximum duties. One influential Parisian paper, in urging the Government to make no fresh concessions, shrewdly points out that "the political situation in the United States, the agitation over the high cost of living and the coming Congressional elections will prevent that country from risking a tariff war with France." The best opinion here is that a rupture will be averted.

The ceremonious opening of the Third Parliament of King Edward has been postponed until Monday next, when the Ministry may be able to adopt a definite course. This week's developments have been numerous, but not of conspicuous importance. The completed returns from the constituencies show the election to have resulted as follows: Liberals, 275; Conservatives, 272; Irish Nationalists, 82; Laborites, 40; Non-Partisan (Speaker of the House), 1. This gives the new Government a possible majority of 125, but, as was explained last week, there are splits among the Nationalists, the Labor Party is openly recalcitrant. not to say defiant, and Premier Asquith has a delicate task in placating the extreme wings of the Liberal-Radical combination. On the eve of Tuesday's brief assembly of the House for the purpose of swearing in members, &c., the following Cabinet appointments were announced: Secretary for the Home Department. Winston Spencer Churchill; President of the Board of Trade, Sydney Buxton; Chancellor of the Duchy of Lancaster, J. A. Pease; Postmaster-General, Herbert Louis Samuel. The brevity of the list is suggestive of the acute uncertainty that prevails among the Ministerialists regarding the duration of their administration. J. A. Pease, who was defeated at the general election, will have to be elected from a Liberal constituency on his elevation to the Cabinet. James William Lowther was re-elected Speaker of the Lower Chamber, and felicitous speeches were delivered by the Prime Minister, by Mr. Balfour, and others, but no mention of the momentous issues impending was made. Among those who took the oath of membership was Joseph Chamberlain, now seventy-four years of age, the originator of the tariff-reform movement on which the election has been so largely fought; he was very frail and had to be assisted to and from the Chamber. Herbert John Gladstone has been raised to the peerage prior to his departure for United South Africa, of which he is to be the first Governor-General.

Notable and welcome improvement in the banking position at Berlin was recorded on Thursday, after some uneasiness had been created by an advance (on Tuesday) in the private discount rate to 3% and the announcement of seven failures on the Hamburg Produce Exchange. Germany has experienced more

happily no further disturbances are expected. Meanwhile the banks have rehabilitated their resources. Within the space of one week the Reichsbank has gained no less than \$14,500,000 cash simultaneously with a curtailment of \$18,500,000 in circulation, a decrease of \$7,700,000 in discounts and loans and an increase of fully \$30,000,000 in deposits. The Bank rate of 4% is retained and private discounts are not effected under $3\sqrt[1]{5\%}$, an advance of 3% of 1% over last week's charge. Governmental needs have been and still are an influence in the German money markets, although another large loan is not looked for until late in the

spring or early in the summer.

monetary tension during the last three months than any other European country, and although nothing

serious has at any time resulted, the strain occasionally

excited mild concern. The Imperial Bank was obliged

to issue an inordinate amount of note circulation, and

other large institutions felt compelled to restrict their

loans to speculators in various commodities and se-

curities. These measures have proved adequate, this

week's trouble being the first of any consequence, and

In foreign diplomatic circles significance is attached to this week's visit of Prince and Princess Henry of Prussia to the King of England. Despite the repeated assurances of Emperor William and his representatives that the constant additions to the German navy are for strictly pacific purposes, and demanded by the nation's growing trade with foreign countries and its own colonies, a feeling of suspicion, even of open distrust, prevails in Great Britain, and it is reciprocated among certain classes in the Fatherland. The two rulers have been scrupulously careful to show evidences of the utmost cordiality in their personal relations; hence, the present royal visit to Buckingham Palace is not without interest. So uncertain is the political situation in Britain that it is impossible to foresee what is likely to happen after the King's speech is delivered on Monday next, but it may be added that zealous advocates of international peace have not despaired of overtures being resumed between the German and British foreign offices concerning the feasibility of arriving at an understanding on the building of armaments, an understanding that would look to some slackening in a pace that threatens to involve both nations in grave financial problems. King Edward, it need not be emphasized, is an ardent disciple of peace, and consequently any friendly negotiations his ministers may enter into with the representatives of his Imperial nephew are certain to receive his wholehearted approval.

Cuban finances are improving, according to an official statement issued this week from President Gomez. It is explained that the new Government which took over the administration of affairs when the United States withdrew in January 1909 found only \$2,500,000 in the Treasury to meet obligations totaling \$12,000,000, whereas since then \$6,000,000 of this debt has been paid off, and there is a balance on hand equal to the sum originally received. The Budget for the new fiscal year estimates expenditures at \$29,-628,531, while receipts are calculated to be \$5,159,148 larger. The claim is made that, excluding the expenses incidental to the establishment of new offices and the first installment on the \$35,000,000 loan, the present Budget is \$700,000 below that in force during the last year of President Palma's regime. It is to be hoped that the ensuing year will bring developments of a character to justify present sanguine expectations.

Foreign discount rates have not weakened this week, despite the better bank returns issued on Thursday in London, Paris and Berlin. The London quotation is now 21/8@21/4%, the same as a week ago; the Bank of England's reserves have increased 11/4% (to 53%), but Treasury borrowing and a resumption of gold exports have been taken into account by bankers. Paris is proceeding very quietly to repair the damage done by the recent floods; no huge loans have been found necessary, nor is the strain upon the Bank of France or the private institutions excessive, the discount rate being only 21/2%-occasionally a fraction less. At Berlin the rate has moved up to 31/8%. Amsterdam reports 11/8%, a rate that is encouraging speculation in American and rubber shares. Indeed, London and Paris are also showing renewed interest in our securities, this week's sales of bonds for European account having been quite a factor in the foreign exchange market.

The Bank of England was able to report a decided strengthening in its principal accounts on Thursday morning, but on that day it was called upon to ship about \$1,500,000 in bullion and sovereigns to South America, although, of course, this loss will not figure until next week's statement is issued. The return flow of gold to Paris has also been resumed (\$1,550,000 having been sent yesterday), as bills discounted before the close of 1909 are now maturing. Fortunately there has of late been no competition for the weekly consignment of new bars from South Africa, and these are consequently finding their way into London's vaults, though not always into those of the central institution. According to our special cable from London, the Bank of England gained £749,431 bullion during the week and held £37,325,171 at the close of the week. Our correspondent further advises us that the gain was due largely to receipts from the interior of Great Britain. The details of the movement into and out of the Bank were as follows: Imports, £166,000 (of which £5,000 from Australia, £19,000 from Egypt and £142,000 bought in the open market); exports, £18,000 (wholly to South America), and receipts of £601,000 net from the interior of Great Britain.

The apathetic demand for collateral loans at this centre has at last, and very tardily, brought about a reduction in commercial paper rates. Up to this week the minimum quotation for even the best grade of single names had been 41/2%, but during the last few days transactions have been effected with local institutions at $4\frac{1}{4}$ % and in a few special cases at 4%for four months' maturities. But one word of explanation is due. The weeding out of second-rate collateral that was so thoroughly prosecuted by banks and trust companies earlier in the month has been followed by stricter scrutiny of the mercantile paper offered then, and only bills of exceptional attractiveness are in favor. These are preferred, even at lower rates, to names of only ordinarily good repute, notwithstanding that the latter are available at $\frac{1}{2}$ of 1%higher return. The supply of 41/4 % paper is not superabundant, but there is plenty of the 434% quality on ports by only \$192,968,329, compared with more than

the market; the out-of-town inquiry for it is fair, but not keen. The range for the best four to six months' single names is now 41/4@43/4 % and for less desirable names 5@51/2%. Sixty to ninety days' endorsed bills receivable are quoted 41/4 @41/2%.

Time money has been extremely quiet, owing to the lack of demand, which, in turn, has been in part due to the abundance of call funds at $2\frac{3}{4}$ @3%, no loans having been made this week above the latter figure. The charge for all maturities is, generally speaking, 1/4 of 1% below last week's level, the range now being 31/4@31/2% for 60 days, 31/2@33/4% for 90 days and 334@4% for four, five and six months. A few overthe-year transactions have been made at 45%%, although the difference in the ideas of bankers and borrowers regarding the prospective value of money militates against business for so long a period. Call money has again averaged about 23/4 %, and the minimum of last week, 21/4%, was not repeated until the close yesterday; indeed, quite a few loans were made on Thursday and Friday at 3%, a fact that is not surprising in view of the recovery in stock speculation and the absence of brokers from the time-money division. The range on Monday and Tuesday was from 23/4 % to 3%, on Wednesday and Thursday from 21/2% to 3% and yesterday from 21/4% to 3%.

A pronounced change has come over the whole foreign exchange situation. Last week demand sterling sold below 4 86; this week business has been done at 4 861/2. Furthermore, the intense dulness of the previous three weeks has been followed by active trading, part of which has represented speculation in futures. Already the higher rates have started an outflow of gold from New York to Argentina, a movement that had been in abeyance since January. On Thursday three shipments, aggregating \$1,250,000, were arranged, the metal to go forward to-day, and yesterday another engagement, of \$250,000, was reported, making a total of \$1,500,000 for the week. A minor incident was the simultaneous announcement of the importation of \$50,000 gold from Ecuador. That New York will be called upon to remit additional amounts of gold coin to South America is regarded as quite probable, inasmuch as grain shipments from that continent to Europe are going forward in volume and the state of the foreign exchanges permits London to draw upon its New York agents for the gold necessary to effect a settlement. This week, however, the Bank of England has also been obliged to send amounts of gold direct to Argentina.

The sharp recovery in foreign exchange rates, instead of taking the market by surprise, had been looked for several weeks ago. The official returns of our foreign commerce during January, published on Wednesday, explain the scarcity of commercial remittance that has been a conspicuous feature for two or three months, notwithstanding the recent weakness in quotations. The excess of merchandise exports over imports last month was only \$10,357,286, contrasted with fully \$53,000,000 in 1909 and \$121,000,000 in 1908; this year's balance, as a matter of fact, is the smallest recorded since 1893. The showing for the seven elapsed, months of the current fiscal year is scarcely more favorable. Exports have outrun imTHE CHRONICLE

\$334,000,000 last year and \$432,000,000 in 1908; not since 1896 has so poor an exhibit been made. It is in the principal European banks. not at all extraordinary, therefore, that we are exporting gold. For the seven months ended January the gold outflow totaled \$75,209,616, a figure not equaled in recent years, while the balance over imports amounted to \$49,126,885, also the highest figure in years. February, as has already been pointed out, has brought another gold-export movement, and unless exchange rates decline sharply-an unlikely development-the outflow will probably continue. New York bankers are engaging exchange to be sent to Europe to liquidate the short-term notes and bonds that mature in March; during 1910 an aggregate of half a billion dollars notes and bonds has to be met and a considerable percentage, especially of the notes put out in 1906-07, is held abroad. It is gratifying to note, however, that European investors are showing continued interest in our securities, the absorption of bonds referred to in previous weeks having continued on a somewhat larger scale this week.

Compared with Friday of last week, sterling exchange on Monday-Saturday was a holiday-was about 5 points higher, on the basis of 4 8390@4 84 for 60 days, 4 8605@4 8610 for demand and 4 8625@ 4 8635 for cable transfers. On Tuesday there was a general advance of 10 points. The upward movement was even more pronounced on Wednesday, when business was done in sight drafts at 4 861/2, although at the close the range was somewhat easier, the final rate being 4 8430@4 8440 for 60 days, 4 8635@4 8645 for demand and 4 8660@4 8670 for cable transfers. This level was maintained on Thursday. On Friday demand closed at 4 8640@4 8645 and cable transfers at 4 8660@4 8670.

The following shows the daily posted rates for sterling exchange by some of the leading drawers.

	Fri.,	Mon.,	Tues.,	Wed.,	Thurs.,	Fri.,

WHY NOT CHANGE THE LAW?

Does the enactment of a statute establish a rule of right and wrong which places a moral inhibition upon the modification of the statute? Does the progressive extension of the application of a statute by judicial interpretation establish such a rule with a like result? An affirmative answer to either of these questions would obviously be absurd; yet, if he was correctly reported in the daily press, such an answer to both of them would be the necessary and logical consequence of the position taken by President Taft in his address in this city last Saturday. For if there is no such rule, why should the Chief Executive hurl at industry the command that it must modify its methods rather than recommend to the Legislature, in view of the necessities of industry, that the law should be changed. Confessedly there is nothing in itself evil in the combination of two producers selling in States other than those in which they produce. Whatever evil pertains to such a combination was made by the statute; cannot the statute-making authority withdraw the prohibition which it has set up? Yet President Taft says:

"If the enforcement of the law is not consistent with the present method of carrying on business, then it does not speak well for the present methods of conducting business, and they must be changed to conform to the law."

Undoubtedly the idea is popular. But is it sound? It is "so much the worse for business," in the common phrase, but how much the worse for the law? There is something strange in the idea that a statute speaks with the authority of conceded morality as well as with that of the State. Of course, no one pretends that the laws of every particular period contain a perfect code of political or industrial morality, for such a code must be stable, and that which is law to-day is not always law to-morrow. Nor is the position of the individual legislator, the standing accorded him on account of his selection for legislative office, or that on which such selections are usually based, such as to warrant the conclusion that the authority of a statute springs from the collected and combined authorities of those by whom it is enacted. Plainly, the written law has a popular authority not the outgrowth of its stability or its origin.

Yet every one recognizes that there have been blundering laws. Organized labor still waxes indignant over the restrictions with which it was surrounded at the beginning of the last century and for several decades thereafter. The futility of the laws concerning rates of wages and limiting the right of laboring men to remove from one field of labor to another which followed the Black Death, is still held to prove that there are industrial limits upon legis-

The whole of the United States admits lative power. that American law sanctioned human slavery long after that institution had ceased to be more than a clog to the industry of the South, and many now believe that the systematic violation of fugitive slave laws should be recorded in family annals as evidence of especial nobility of character. Indeed, no one can run over his individual list of heroes without noting with surprise how many of their careers began in lawbreaking. It ought, then, to be possible to look at an existing law without supposing it necessarily to be right and wise, and, while recognizing that it should be obeyed as long as it remains upon the statute book, to consider the expediency of its repeal without any feeling of sacrilege.

If the law of which President Taft spoke can be examined with this degree of freedom, it at once appears to be violative of certain fundamental principles that are requisites of good legislation. History records no instance of good results from legislative efforts to bind industry. Industrial legislation has proved beneficial when it has recognized industrial tendencies, has accepted them as normal and beneficial, and has been framed so as to give them the freest expression. The Anti-Trust Law was an avowed and radical effort to thwart a strong industrial tendency that was then in plain operation; it was an attempt to dam the stream without providing any outlet; and it has operated as such laws usually operate. That is to say, it has been ignored here, evaded there, and where most effective has but enhanced the burdens of industry or slightly retarded its efficiency and progress.

It has somewhat affected the form of industrial organization, but has had little effect upon its substance. At every step the impossibility of its complete enforcement, as well as the destructive consequences of a comprehensive and continued effort in that direction, have been recognized under each successive administration. From President Harrison, under whom it was enacted, to President Taft, under whose persuasive influence it might be repealed, no Executive has been willing to expose his countrymen to the perils of its full enforcement. Never in the two decades has a victory for the Government been won in the courts in the progress of litigation under the statute that some high officer of the Federal Government has not been authorized to proclaim that the danger was not as imminent as it seemed, for the reason that the law would not be "foolishly" enforced, that the authorities would not "run amuck." But yet the peril hangs over the nation's industry and business must continue ever to glance backward as it progresses lest it be overtaken unawares, lest the Executive finally shall make full use of the dormant powers for destruction which this law has set up. It is not necessary to admit, nor is it admitted, that the bulk or any considerable proportion of the business of the country is conducted in violation of this statute. Possibly there are undetected violations, possibly some are violating it to-day, as others have in the past, while believing themselves innocent of technical, as they know themselves innocent of moral or intentional, wrongdoing. If so, it is true that an attack upon these could not but affect others who are not themselves in any danger of direct attack. But what is much more serious is that, after being in existence for twenty years, no one yet knows just what this law forbids or to what and to whom it as another "black Friday." For ourselves, we believe

stlouisfed ora

applies. The limits and boundaries of inter-State commerce are yet undefined; that which constitutes an unlawful restraint of trade is not wholly known; no one yet knows just when a business which is not exclusive reaches the dimensions of a statutory "monopoly." If President Taft had suggested that when business cannot conform to the law, the law should be changed, his view would have had less temporary popularity but a more helpful relation to present conditions.

IF THE TOBACCO COMPANY WINS.

In recent consideration of the trust problem, both by the press and in Washington, speculation about the immediate future has been almost entirely confined to one term of the alternative only. It has been assumed upon all sides that the Government would win in the case against the American Tobacco Co. and in the case against the Standard Oil Co. No one has stopped seriously to consider what would happen if the contrary should be the case. Such one-sided foresight has its disadvantages and the other term of the alternative is full of interest and importance.

Let us suppose that the case of the American Tobacco Co. should be decided against the Government. It is not necessary to go so far as to assume that the Supreme Court will decide that case fully in favor of the defendant. Even the latter assumption would not be a violent one, for in making such a decision the Court would only be following its own decision in the case of Knight against the American Sugar Refining Co. It is the custom in Washington to think that because the Administrative branch of the Government holds advanced views about the Sherman Anti-Trust Law and considers the Knight case out of date, the Supreme Court must follow suit. But that would be rather unusual for the Supreme Court, for it would involve an admission that its decision in that case was not a considered one and not made with reasonable foresight upon the subject of industrial combinations.

Yet, for the purposes of this review, we may concede that the law has developed since the Knight case and that the Court will, therefore, point out some respects in which the Tobacco Trust is wicked and enjoin it from pursuing some courses of action in the future. It may, therefore, be that the defendant will not win in a technical sense. But we believe it to be practically certain that the Government will not win an entire or a substantial victory. Every antitrust decision of the Supreme Court so far has carried within its limits the germ for a further development of industrial combinations. Each decision has been followed rather by the relentless course of industrial progress than by any success in the Partingtonian attempt to sweep back the Atlantic with a broom. The business of growing big and strong and able to operate economically has gone on in spite of Mrs. Partington.

Now it requires no violence to suppose that the currently expected decision will also contain or supply instructions for going on in business. If it does not provide instructions by which the average law-abiding business corporation can distinguish itself from the alleged trusts and criminals, that decision will carry with it something which can only be described

that a decision will come down in the Tobacco Co. case which will leave prosperity as possible, and therefore will not be regarded by the Administration at Washington or by Congress as a complete or satisfactory victory for the anti-trust agitators. Now if this decision comes down while Congress is still in session, or, at the very least, if the Tobacco Co. finds its means of escape from the decision before the adjournment, it is likely that Congress and the President will endeavor to do something that will look like an attempt to redeem platform pledges. This appears particularly likely in view of Mr. Taft's declaration in his speech last Saturday night that "there was no promise on the part of the Republican platform to change the anti-trust law except to strengthen it."

The statute providing for Federal corporations, when looked at in the light here suggested, becomes of vastly greater importance than its sponsors now admit. The public have been carefully led to believe through the Associated Press that this statute was not to be pushed forward "under present conditions." The careless have translated the quoted phrase by assuming that the bill was not to be pressed at this session of Congress. The more careful should consider it in the light of the foregoing inquiries and reflect. If the President should decide and should represent to Congress that further anti-trust legislation was made necessary by the decision in one or both of the big cases, it is not reasonable to believe that he could obtain the support of business interests or of anybody who really understands prosperity in passing another statute containing fulminations and penalties against trusts as such. On the other hand, the agitators against the big corporations are not likely to accept anything so colorless and sound as Attorney-General Wickersham has once or twice tentatively offered to it.

The politicians' course under these circumstances would seem to be indicated by the statute providing for Federal charters. The bill has been put out in two drafts and each of these has been submitted for the purpose of eliciting discussion and reducing the points of difference about the statute to the simplest possible form. If now, when these points of difference are more or less removed or made clear, the situation which we have prophesied above shall arrive, is it not likely that the Federal charter statute will be turned into one compulsory upon corporations of magnitude engaged in inter-State commerce.

No greater danger to our Federal system can be imagined than a contingency of that kind, and there is nothing which might be more wisely opposed at the present time. If we limit the Federal control to the corporations of magnitude, we shall conversely give to the corporations of magnitude a peculiar interest both in the control of the Federal Government according to their best abilities and in having the Federal Gevernment control and abolish the States. The opportunity to put the motive power of those who hate the so-called trusts into such a position that it will drive forward a scheme for enormously increasing the proportionate power of the Federal Government is as obvious as it is dangerous. We shall be likely to see the octopus bitted, ringed, and driven as the beast of burden which does the work of the Federal Government.

No one can under-estimate the danger of such a which at times becomes irresistible in the affairs of program as this, and it is all the more insidious because governments, the revolt in Crete led to the overwhelm-

up to this time, while logical and necessary, it has not received public consideration. The scheme indicated is one peculiarly fit to be sprung upon the public, as was the corporation tax, under conditions which would make it the best available political compromise and which would lead to its enactment, as in the case of the corporation tax, before any one seriously knew what it meant or understood the grave causes for fear contained within it. This is no chimera. Any result of the cases in the Supreme Court which makes business impossible is unthinkable. Any result which makes business possible is likely to lead to further Federal aggression, and the lines which we have indicated may prove to be the lines of least resistance.

ANOTHER "EASTERN PROBLEM."

The relations between the various Powers in what Europe calls the "Near East" have for many years been such that diplomatic friction was perennial and "war rumors" unpleasantly frequent. The various readjustments of affairs since the Turkish revolution and the deposition of the Sultan removed a good many of these irritating controversies. One seems, however, to have remained, and the controversy over Crete has lately been revived in such shape as to lead even the cautious London "Economist" to remark that "unless Hellenic and Turkish Chauvinism is speedily cooled by the Powers or otherwise, the Near East may be plunged into war." For this somewhat startling prediction, the grounds assigned are that Greece has summoned a national assembly to revise its constitution: that this assembly may have Cretan affairs in view and might invite Cretan delegates to participate in its deliberations; that Turkey has formally protested against the latter expedient, and that the young Greeks and the young Turks are equally excited over the situation.

We have not been inclined to take the situation seriously. Dispatches from Constantinople have lately intimated that the long-standing dispute between Greece and Turkey over the sovereignty of Crete may be adjusted through the neutral Powers by a settlement on a purchase basis. It has been intimated that if Greece were to offer a satisfactory indemnity for acquisition of the island, the Turkish Government, in its present political and financial situation, would assent. We do not know what basis of fact these dispatches may have in the actual diplomatic developments of the day, but the suggestion is plausible, and if accepted would effect a further advance toward settlement of a long-standing irritation in continental politics.

Crete as an issue in European affairs came chiefly before the attention of other nationalities at the time of the Greco-Turkish war of 1897, a contest primarily provoked through a Cretan revolt initiated with the active co-operation of the Greek armament and people. As a matter of fact, however, revolts by the Cretans against Turkish domination are a matter of centuries. Captured in 1669 by Turkey, the island rose against the oppressive satraps who were assigned to govern it in 1821, in 1866 and in 1878, not to mention numerous smaller uprisings in the interval between these dates. In 1897, through one of those popular demonstrations which at times becomes irresistible in the affairs of governments, the revolt in Crete led to the overwhelming demand by the Greek people for the extending of aid and protection by the Government of Greece.

The Greek fleet set sail for Crete; the Turkish Government declared war, and the result was what is often witnessed at a conjuncture of the sort. Popular enthusiasm on the part of Greece had not been equaled by Government preparations for any such emergency. The Turkish troops routed the Greek army in Thesally, advanced to the southward, and after prolonged and somewhat humiliating negotiations in behalf of Greece on the part of friendly Powers, the struggle ended in the payment of a heavy cash indemnity by Greece, the surrender of part of its northern territory and the outright abandonment of Crete.

Fortunately for the good name of international diplomacy, the neutral Powers did not leave the Cretan situation where it had been before. Despite a not wholly creditable exhibition of intrigue and bickering between the Powers whose fleets were represented at the ports of Crete, it was recognized that the demands of the Cretans themselves had a right to a hearing, no matter what had happened on the Greek frontier. As a quid pro quo for assenting to the harsh terms imposed by Turkey on the Government at Athens, the Powers required that the Sultan, while retaining a nominal suzerainty over Crete, should commit the general administration of its affairs to a protectorate of the three great Powers-England, France and Russia -and more particularly to the hands of a high Commissioner.

This Commissioner, named in 1898, was the Prince of Greece—a result which could not be wholly palatable to the Yildiz Kiosk. Under the late adroit and crafty Sultan, trouble began at once in Cretan affairs. In 1904 the Prince of Greece appealed urgently to the Powers on the ground that he could not retain his post while Turkey still reserved the official power of meddling. In 1907, therefore—once more under the auspices of the neutral Powers—the privileges of selfgovernment granted in 1898 were considerably extended, legislative rights being granted to a Cretan Assembly of 64 deputies elected bi-annually the executive power being reposed in a high Commissioner and four Councillors.

This was, perhaps, as far as the arrangement of affairs could well have gone without absolutely removing Crete from even nominal Turkish domination. When, at the close of 1908, the Sultan of Turkey was deposed and self-government suddenly established at Constantinople, it was but natural that the Cretans should have seized the opportunity again to grasp at actual independence. During the trying period when Austria had appropriated the minor Balkan provinces held under Turkish suzerainty, and when Bulgaria had cut loose from all control by the Turkish Government, Crete also appeared on the scene, with the very plain intimation that the Government of Greece was once more behind the people's demands for absolute independence. It will be recalled that for a time an actual collision between Greece and Turkey was regarded as a possible outcome. True to their policy of averting outright appeal to international conflict, the Powers persuaded Greece to recede from its position. The similar threatening conflict with Austria and Bulgaria was by skilful negotiations made unnecessary; the plan for a handsome indemnity payment to Turkey in behalf of the Balkan provinces was proposed, and,

somewhat to the surprise of other nationalities, was accepted by the Turks.

Supposing, as is by no means improbable, that a similar proposition is now under consideration in the case of Crete, the question will be interesting whether Turkey would be prepared to yield. The attitude of its Government and people in the Balkan controversy suggests an affirmative answer. The course of events at that time and since has plainly indicated, first, that Turkey recognizes its own need of ready money, and, second, that it entertains no such ardent territorial ambitions as had previously been ascribed to it. In the case of Crete, we have a dependency regarding which the Turkish ownership is already of a most flimsy conceivable character. The Constantinople Government, indeed, has gone so far as officially to renounce the revenues and property of the island as a partial collateral for the Turkish public debt. As for the possible sentimental aspect of the matter, it remains to say that the Cretan population numbers some 270,000 Christians and barely 30,000 Moslems. If the proposed adjustment of the matter turns out to have been correctly reported, a highly interesting further step will have been taken in the solution of the Eastern problem, which for so many centuries, and in so many constantly varying aspects, has troubled the mind of international diplomacy.

RAILROAD GROSS AND NET EARNINGS FOR DECEMBER.

We present two compilations of railroad earnings to-day and both possess unusual features of interest. In the present article we deal with the completed gross and net results for December. In the article which follows we furnish a summary of the gross earnings for the month of January in the case of the roads which make it a practice to publish early preliminary estimates of their traffic receipts. The reason why extra interest attaches to the exhibits for both months is that unfavorable conditions prevailed in the one month as in the other, reducing the traffic and revenues of the roads, and the figures we give afford a measure of the loss sustained from that cause.

As far as the comparisons for the month of December are concerned, they show at a glance that some adverse factors or influences must have been at work. Our compilations for this month are exceptionally comprehensive, being based, as usual, on the returns filed with the Inter-State Commerce Commission at Washington. As has been so often pointed out by us, all the railroads in the country (barring only a few minor lines operating exclusively within State boundaries) are obliged to render statements each month to the Inter-State Commerce Commission. The returns when filed are open to public inspection and we have transcripts of them made, as soon as they are placed upon the public records, for our own use. These transcripts come to us in large numbers from day to day, and about the 20th of the month we bring them all together in a special supplement called our "Railway Earnings Section." One of the monthly numbers of the "Railway Earnings Section" accompanies to-day's issues of the "Chronicle," and in it the reader will find the December figures in detail for every railroad which had rendered its return for that month up to yesterday morning. The summaries we present in this article

are the aggregates derived from the statements of these separate roads.

			Inci	ease or Deci	ease-
December (764 roads)-	1909.	1908.	A	mount.	%
Miles of road	220,369	225,666	Inc.	3,703	1.58
Gross earnings	217,724,459	\$203,799,142	Inc. 8	13,925,317	6.83
Operating expenses	150,709,694	135,481,754	Inc.	15,227,940	11.24
Net earnings	\$67,014,765	\$08,317,388	Dec.	\$1,302,623	1.91

On their face, as already stated, the figures reveal the presence of adverse circumstances and conditions. The aggregate of the gross earnings shows improvement over the corresponding month of the previous year, but the gain is relatively small, amounting to \$13,925,317 or only 6.83%. In the month preceding, November, the increase reached no less than \$34,299,610, or 16.51%. But the most striking change is in the net earnings. For November the net had improved \$18,749,484, or 25.59%; for December, on the other hand, there is actually a loss, though the falling off is not very large, being \$1,302,623, or 1.91%. The poor outcome may be ascribed in the main to two dominant adverse factors-the weather and labor troubles on some of the Western trans-continental lines.

Meteorological conditions appear to have been severe in the whole of the territory between the Mississippi River and the Pacific Coast. There were heavy snow-falls, and temperatures also were in many sections exceptionally low. The labor trouble was the strike of the switchmen on the trans-continental lines running from St. Paul and Duluth to the Pacific Coast. This strike was precipitated on the evening of Nov. 30 and during the early days of December proved exceedingly disturbing, not merely in interrupting normal conditions in the operation of the roads but in putting a temporary embargo on some of the ordinary business activities of the day. One of the results was the shutting-down of the flour mills in Minneapolis for the time being, owing to the inability of the roads to deliver the necessary supplies of wheat, and another was the partial discontinuance of coppermining and smelting operations in Montana. The railroads, however, had no difficulty in recruiting their ranks with non-union men and in this way quickly got the upper hand over the strikers, though of course normal conditions were not entirely restored, even by the close of the month. The bad weather was perhaps the most serious adverse state of things, and the part it played in affairs was greatly intensified on the roads which had to contend with the strike of the switchmen. The weather not only reduced the volume of railroad tonnage, but added greatly to the expense of transporting it.

The circumstances mentioned explain the tremendous augmentation in expenses and prodigious losses in net earnings which some of the separate roads or systems have sustained. In the magnitude of this shrinkage in the net revenues of the larger Western systems, the month's records are quite unique. Thus the Northern Pacific suffered a decrease of \$1,250,694 in gross and of \$1,637,929 in net; the Milwaukee & St. Paul a decrease of \$588,744 in gross and of \$1,165,-362 in net; the Great Northern a decrease of \$315,748 in gross and of \$533,948 in net. The Atchison has \$1,166,068 loss in net notwithstanding a gain of \$210,789 in gross; the Chicago & North Western has a loss of \$820,573 in net in face of a gain of \$106,119 in gross; the Chicago Burlington & Quincy has \$180,840 loss in gross and \$764,381 loss in net; the Rock Island falls \$355,339 behind in gross and \$592,717 in net. December of the previous year every group had recorded

The Union Pacific, with \$419,492 improvement in gross is obliged to report \$559,523 shrinkage in net and the Southern Pacific, though having no less than \$810,636 gain in gross, adds only \$49,770 to net. And these illustrations might be greatly extended.

The roads and systems east of the Mississippi quite generally give a very good account of themselves, the same as in other recent months. The Pennsylvania, on the lines directly operated East and West of Pittsburgh and Erie, has \$2,970,398 increase in gross and \$1,280,079 increase in net, and the New York Central has \$723,211 gain in gross and \$474,387 gain in net, while for the New York Central System the result is \$2,457,682 improvement in gross and \$1,181,165 in net. The Baltimore & Ohio is an exception among the great East and West trunk lines, a large augmentation in expenses being a feature in its case, the same as with Western roads. Its gross was added to in amount of \$824,546, while its net was reduced by \$110,900. In the following we show all the important changes for the separate roads, whether increases or decreases, both in the case of the gross and in the net:

PRINCIPAL CHANGES IN GROSS EARNINGS IN DECEMBER.

a These figures cover merely the operations of the New York Central Itself. For the New York Central System the result is a gain of \$1,181,163, # These figures represent the lines directly operated cast and west of Pittsburgh, the Eastern lines showing \$997,264 increase and the Western lines \$28,315 increase. For all lines owned, leased, operated and controlled the result is a gain of \$1,607,449.

When arranged in groups, the distinction in the character of the returns as between the East and the West becomes quite obvious. One of the groups, namely that comprising the roads running west and northwest of Chicago, actually shows a falling off even in the gross earnings, while three of the groups, namely the Northwestern group, the Southwestern group and the Pacific Coast group, have diminished net, the falling off in the case of the first of these three being very noteworthy and reaching over 36%. In

an improvement in both gross and net. Our summary by groups is as follows:

As stated by us in previous months, in grouping the roads we conform to the grouping or classification adopted by the Inter-State Commerce Commission. The only departure we make from the Commission's arrangement is that we have combined Groups 4 and 5, so as to bring all the Southern roads together under one head; also Groups 8 and 9, so as to bring the Southwestern roads together, and have likewise combined Groups 6 and 7, these latter comprising the systems running west and northwest of Chicago, the mileage of most of which spreads over the territory covered by both groups. We do not include any of the Canadian lines in our figures except, of course, so much of the same as lies within the United States, and for which returns are filed with the Commission.

The confines of the different groups are indicated in the footnotes to the above table, but it is important to note that where a road or system covers more than one group, or overlaps into others, we have necessarily been obliged to place it in some particular one of the groups, as no way exists of dividing it up among the two or more groups where it may be located. Our plan in such cases has been to place the road or system in the group where the bulk of the revenues is apparently obtained. In their annual statements to the Inter-State Commerce Commission, the companies are required to show the amounts earned in each of the groups, but of course no such division is attempted in the case of the monthly returns.

It is proper to say that for December the comparison is not with such poor results in the previous year as was the case in the preceding months of 1909. December was the one month in 1908 that had recorded an increase in gross earnings, and we have already indicated that it also showed an increase in net. In this latter respect, however, it did not stand alone in that year, other months also having displayed improved net by reason of economies in operating and great saving in expenses. According to our own compilation, December 1908 showed \$10,774,779 increase

in gross and \$16,431,096 increase in net. These figures covered 223,790 miles of line. The Inter-State Commerce Commission subsequently published summaries covering 232,007 miles of line, and on the basis of that mileage the increase was \$11,555,140 in gross and \$16,962,654 in net. In the year before there had been a loss in both gross and net. In the following we furnish the December summary for the last fourteen years. For 1908 we use the Inter-State Commerce totals, but for preceding years we give the results just as registered by our own tables each year-a portion of the railroad mileage of the country being always unrepresented in the totals, owing to the refusal of some of the roads to give out monthly figures for publication.

RAILROAD GROSS EARNINGS FOR JANUARY.

As far as the present preliminary figures are any guide, railroad earnings for January were much better than had been supposed. Perhaps adverse influences were not so pronounced as in December, and yet conditions were not altogether favorable. The switchmen's strike in the Northwest had, of course, in large measure lost its influence. On the other hand, the weather continued an adverse factor, with the further fact that its sweep was extended so that the roads east of the Mississippi suffered from it the same as those west of the Mississippi. In the early days of January the accounts in that regard from the West were very unsatisfactory, the news dispatches from Chicago and other Western centres speaking of blizzards and continued cold, under which railroad operations were being seriously crippled. A little later the Eastern half of the country was enveloped in a snow-storm, the fall in this city in a storm on Friday, Jan. 14. reaching a depth of 14.6 inches.

Notwithstanding, however, the impediments imposed by the weather, and notwithstanding also the great shrinkage in the cotton traffic over Southern roads, the tables we present in this article show a gain of \$7,356,827 in the aggregate, or 15.32%. Not only that, but only 6 of the 50 roads contributing returns have any loss in earnings. Of course the present exhibit may not be altogether conclusive, as it comprises merely the roads furnishing early statements, embracing altogether 82,136 miles, or but little more than one-third the railroad mileage of the country. It is possible, too, that the results as to net may be less satisfactory than as to the gross. As far as it goes, however, the comparison is certainly very encouraging. Among the roads affected the previous month by the switchmen's strike, the Great Northern, which suffered most from that cause, is the only one for which we have the January figures. But in that instance the

contrast between the two months is very striking. For January this important system reports no less than \$1,363,945 increase, whereas for December it had \$420,756 decrease.

The good showing made this time by the roads as a whole is the more noteworthy, inasmuch as the present improvement follows improvement also in the previous year. Thus in January 1909 our preliminary compilation, covering 79,732 miles of road, recorded a gain of \$2,267,463, or 4.76%. In 1908 (following the panic the previous October-November) there was, of course, a shrinkage in revenues, the decrease then for the roads making early returns being \$4,976,393, or 8.74%. Prior to 1908 the January record was one of continuous expansion except where weather conditions had interfered seriously with railroad transportation service. In the following we furnish a summary of the January results, as disclosed by our early compilations, each year back to 1897.

Note.-Neither the caroings of the Mexican roads nor the mining operations of the anthracite coal roads are included in this table.

Lest year the roads had one advantage which was missing in 1910, namely the weather was quite generally mild and hence favorable to railroad operations. There were some snow-storms in the West at that time the latter part of the month, but there was no general or widespread interference with railroad operations such as existed the present year.

We have referred to the large gain recorded this time by the Great Northern Ry. The increase on the Canadian Pacific was almost equally noteworthy, being \$1,296,000. In lesser degree improvement comes from all parts of the country. Notwithstanding the shrinkage in the cotton traffic, the Louisville & Nashville has a gain of \$654,831 and the Southern Ry. an increase of \$348,578. In the Southwest the Missouri Pacific reports \$490,000 improvement and in the Middle West the Wabash has added \$285,235 to its last year's total and the Illinois Central \$249,193. In the following we show all changes for the separate roads for amounts in excess of \$30,000.

Note. -- Figures in parenthesis after name of road indicate the number o lines or companies for which separate returns are given in our compliation

We have spoken of the falling off in the cotton traffic over Southern roads. The shipments overland for the month in 1910 were only 151,778 bales, against 204,756 bales in 1910, and the receipts at the Southern ports were no more than 580,384 bales, against 1,122,148 bales in January 1909, 1,181,972 bales in 1908 and a Embraces some large items of income not previously included in monthly returns.

1,329,296 bales in January 1907. Every point records heavily diminished receipts the present year, as will appear from the following:

Western grain receipts seem to have run ahead of last year, particularly in the case of wheat and corn. For the four weeks ending Jan. 29 the wheat receipts at the Western primary markets were 17,433,124 bushels, against only 9,472,650 bushels for the corresponding four weeks of the previous year, and the receipts of corn were 17,689,083 bushels, against 15,418,254. Adding oats, barley and rye, it is found that the aggregate receipts of the five cereals in the four weeks of 1910 were 52,722,757 bushels, against 43,015,233 bushels. In the subjoined table we give the details of the grain movement in our usual form.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO.'S.

-The public sales of bank stocks this week aggregate 117 shares, of which 52 shares were sold at the Stock Exchange and 65 shares at auction. Transactions in trust company stocks were limited to 37 shares. Prices were generally lower as compared with the last previous sale, excepting for stock of the National Park Bank and of the Lawyers' Title Insurance & Trust Co., which advanced 121/2 and 3/4 points respectively.

* Sold at the Stock Exchange	11					

-A New York Stock Exchange membership was sold yesterday for \$85,000, the last previous sale having been for \$82,000.

-J. Pierpont Morgan was one of the passengers on the White Star Steamer "Cedric" which sailed for Naples on Wednesday.

-The carrying into operation of the publicity clause of the Corporation Tax Law seems now to rest upon the question of an appropriation by Congress of \$50,000 to meet the expenses attendant to the indexing and display of the eturns. This is the situation as given by President Taft in a communication to Secretary of the Treasury MacVeagh on the 16th inst. In this the opinion is expressed by the President that it was intended by Congress that the returns, original and corrected, but not the documents and evidence aken upon investigation, should be open to inspection as are court records. The sum of at least \$50,000, he states, will be required to properly index and display the returns of more than 400,000 corporations, to house them in rooms convenient of access for the public, and to provide clerks for the care and custody of them under such conditions. While an appropriation of \$100,000 is provided "for the expenses of collecting the corporation tax," it appears that under section 4 of the Act of August 5 1882 the Secretary of the Treasury is prohibited from using any part of that appropriation for the employment of persons within the District of Columbia-in other words, no appropriation exists with which to make the returns of corporations a public record, available for public inspection in any different manner from that in which other internal-revenue records are public records. The President states that in his judgment the failure to make a specific appropriation for the purpose was an oversight, due to the supposition that the \$100,000 might be applied in part to the purpose referred to, and that it was the intention of Congress to make these records different from the ordinary internal-revenue records, and really subject to general public inspection. The Secretary is advised to state the case to the House and to suggest that if it is intended that this construction shall be carried into execution, there must be an appropriation of \$50,000 for the specific purpose, and that the further statement be made that if no such appropriation is provided the only course open will be to treat the returns as other internal-revenue records. This appropriation is asked for in a letter embodying the facts related above submitted to the Speaker of the House by Acting Secretary Charles D. Norton.

In view of the above, Internal Revenue Commissioner R. E. Cabell issued the following instructions on Thursday with regard to the returns, in a communication to those in the employ of the Department:

If it was the intent of Congress to make these returns open to general inspection, it will be necessary for it to appropriate a sum sufficient to cover the necessary expenses. Until this is done this Bureau rules that the returns made under this law are to be handled just as returns made under other internal revenue statutes. Any person, therefore, other than the tax-payer making the return or

Any person, therefore, other than the tax-payer making the return or his duly appointed agent or attorney, who desires to see such returns shall make written application to the Secretary of the Treasury, who in his discretion will, upon a proper showing of cause, approve such request. A request thus approved should then be presented to the Commissioner of Internal Revenue, who will thereupon permit the return in question to be seen by the applicant upon such conditions as the Secretary of the Treasury shall have imposed.

The constitutionality of the corporation tax law is questioned in two other suits, besides those we have already mentioned, which have reached the Supreme Court. These proceedings are brought by Arthur Lyman and Arthur T. Lyman, trustees of the will of George Beatty Blake of Boston, vs. the Interborough Rapid Transit Co. and Amory Eliot of Manchester, Mass., against the trustees of the Cushing Real Estate Trust. The Blake Estate is the owner of 150 shares of stock in the road and the trustees have instituted the action to restrain the company from paying the tax imposed under the law. In the Eliot case, according to the New York "Times," an appeal was taken from the judgment of the United States Circuit Court in the District of Massachusetts, where the act was sustained. It appears that one of the contentions of the plaintiff was that the law did not apply, because the trust had no capital. Judge Lowell, in announcing his decision, it is said, pointed out that the declaration of trust provides for the issue of 4,800 shares, and for the issuance of certificates of shares, thus making them transferable. The Judge held that so far as

EARNINGS OF SOUTHERN GROUP.

478

this objection is concerned, the trust is an association within the terms of the Act.

Under an amendment to the Postal Savings Bank Bill which Senator Root has drafted, the section of the bill respecting the investment of moneys received through this source is changed in an essential particular. As was pointed out in a discussion of the bill in our issue of the 5th inst., it provides in its present form that the funds are to be redeposited in banks located as nearly as practicable in the immediate neighborhood in which they are received; in case of the refusal of the banks to accept the deposits, there is a provision that the funds may be "deposited with the Treasurer of the United States, * * and may be withdrawn from deposit upon their order for the repayment of postal savings depositors, or for investment in bonds or other securities of the United States, or in bonds or other securities in which investment of the funds of savings banks is authorized by the law of the State or Territory in which such deposits were received." Senator Root's proposal reverses this arrangement by stipulating that the funds "shall be invested in the securities of the United States, under rules to be made by the board of trustees," the proviso being made that "whenever and to the extent that securities of the United States are not available for authorized issue or for purchase at prices deemed by said trustees to be reasonable," the funds are to be re-deposited in the local banks.

-Harrison S. Martin has succeeded John C. Burns, resigned, as Assistant Secretary of the New York Stock Exchange. Mr. Martin had been Second Assistant Secretary. Mr. Burns resigns because of ill-health.

-As a result of the collapse in the stock of the Columbus & Hocking Coal & Iron Co. on January 19, Henry S. Haskins of Lathrop, Haskins & Co., one of the firms whose failure was brought about through the break, is barred from reinstatement in the New York Stock Exchange. This is the decision reached by the Governing Committee of the Exchange on Wednesday, when action on the report of the sub-committee with respect to the failure was taken. The statement issued by the Exchange in the matter says:

The Governing Committee determined that the failure of Lathrop, Haskins & Co. on January 19 1910, of which firm Henry S. Haskins, a member of the Exchange, was a member, was caused by reckless and member of the Exchange, was a member, was caused by reckless and unbusinessilke dealing, and said Henry S. Haskins was declared ineligible for reinstatement.

According to the latest Stock Exchange Directory (Jan. uary 1910) Mr. Haskins is the only Board member of the firm, which since February 1909 has consisted of himself. Henry Stanton Leverich and Fannie Graves Lathrop, as special partner. After the announcement of the decision of the Governors Mr. Haskins gave out a statement in which he declared himself to be "unjustly treated." Mr. Haskins states that, although repeatedly requested, no effort has been made by the Exchange to inspect the books of his firm to learn whether the public belief in gross manipulation and matched orders is correct or not, and asserts that in the matter of matched orders and offences against the rules of the Exchange, the handling of the stock on the floor of that body was from the first above reproach. The object of the pools, he contends, was to accummulate and keep, not distribute, the stock, and at no time, he says, was either pool closed out or profits taken. The honesty of his intention, he adds, is shown by the fact that his firm and his friends are the worst sufferers, if not the only ones. The following petition signed by creditors of Mr. Haskins's firm, and read before the Governing Committee at Wednesday's hearing, was submitted by Mr. Haskins in connection with his statement:

his statement: We, the undersigned, creditors of Lathrop, Haskins & Co., understanding that the Governors of the Stock Exchange will shortly render a decision as to the eligibility of Henry S. Haskins for reinstatement as a member of the Exchange, do respectfully represent to the Board of Governors that in our opinion the interests of the creditors of the said firm would be better served by permitting Mr. Haskins time and opportunity to place himself in a position to regala his seat than by definitely debarring him therefrom. Our belief in his personal integrity and in the sincerity of his motives remains unshaken. We have confidence in his expressed intention that if such opportunity is given be will devote himself earnessity to the ehabilitation of his fortunes and the building up of the properties in which he is interested, to the end that he may make good the losses sustained by his failure. And we believe that if deprived of his seat the probabilities of his diffecting such purpose will not only be greatly diminished but that there is grave danger that his removal would undeservedly be regarded by the general public as a reproach to his character and homesty. The National City Bank of New York, First National Bank of New York, Guaranty Trust Co. of New York, The Market & Fulton National

Bank of New York, Bank of Montreal, The Royal Bank of Canada, Centra Trust Co. of New York, The National Park Bank of New York, The Im-porters' & Traders' National Bank of New York.

Action on the report of the sub-committee appointed to look into the failure of J. M. Fiske & Co. was postponed on the 9th to the 23rd inst.

The firms of Tucker, Anthony & Co. and Van Schnick & Co., mentioned with four other firms by the Special Committee of the Exchange in its report on the Hocking proceedings (printed in these columns last week), as having subscribed to the pools for the account of Lathrop, Haskins & Co., are exonerated from the criticism to which they were subjected in the report in the following resolution which has since been adopted by the Exchange:

Whereas, Since the making by the Special Committee of Five of its report concerning transactions in Columbus & Hocking Coal & Iron Co. stock and the confirmation thereof by the Governing Committee, Messra, Tucker, Anthony & Co., and Van Schaick & Co. have furnished to the Special Committee additional and supplementary evidence proving to the satisfaction of said Special Committee that their subscriptions to the pool were for the account of a customer, and that they were wholly ignoran to the box we'r for in account of a customer, and that they were whonly ignoran that said customer was acting for or had any relations with Lathrop Haskins & Co. in the matter, now therefore Resolved, That the Secretary be instructed to inform Messrs, Tucker Anthony & Co. and Van Schalek & Co. that, in the judgment of the Govern-bur Computers, they should be a faith at the function of the Govern-ter Computers.

ing Committee, they should not be included among the Stock Exchange firms whose acts were by said report declared to merit condemnation.

James R. Keene, who was examined this week before United States Commissioner Alexander in the bankruptcy proceedings of J. M. Fiske & Co., admitted that he was the manager of the two Hocking pools, the first of which was formed on March 1 1909 and the second in July 1909. Both pools, he stated, were formed to accumulate 20,000 shares each, and at the time of the collapse Pool No. 2 had 16,000. shares.

-An article dealing with the adaptability of Clearing-House loan certificates to the purposes of emergency currency, from the pen of William A. Nash, President of the Corn Exchange Bank of this city, appeared in the New York "Times" of Monday last. In discussing the theories for correcting the defect in our banking system, Mr. Nash noted that at this time the central bank has the lead. He expresses the fear, however, that, much as such an institution is desirable, the political features will be so emphasized as to prevent its enactment. What we need, in Mr. Nash's opinion, in a panic or crisis, is an immediate and sufficient devise to stay ruinous liquidation and enable necessary readjustment to proceed on deliberate lines, and he points out that the Clearing-House loan certificate fulfils this requirement. Tried in New York in the past fifty years some eight or nine times, it has always, he said, been attended with success, and without the loss of a single dollar to the banks which endorsed them. The function of the Clearing-House loan certificates as a solution for our monetary troubles is therefore submitted by Mr. Nash for consideration. He says:

I would make these certificates the starting point for currency, I would urge the legalization in the great central reserve citles and make them the basis of the subsidiary money which we manufactured and hought in 1907. It is true the central reserve oftles are only three in number, but the number should be increased so that every section should have proper representation.

I would confine the Clearing-House loan certificates applicable to this I would comme the clearing-house loan certificates applicable to this purpose to these few great centres which are representative of the entire country, and where the banking ability and banking capital is strong enough to give assurance of an undisputed security. Then, inasmuch as all this is so far practically accomplished, let us have a great bureau of United States currency which will issue notes upon these certificates when-ever presented by any central reserve city, upon such conditions as will insure their prompt return and redemption whenever their need has censed to exist to exist.

The people will recognize immediately the validity of such a currency The people will recognize immediately the valuativy of such a currency obtained in such a way. It will be the experiment that is attended with the least risk. All financial reforms are evolutionary. They must emerge gradually from established forms or the public gets confused and frightened. The well-grounded Clearing-House loan certificate expanding naturally into a small currency issued by the Government is the natural solution of a problem that only becomes perplexing when you apply it to remedies that we therefield not uncertified. are theoretical and not practical.

A central currency issued by the Government on Clearing-House loan certificates would not only meet the requirements of internal exchange but prevent by the very certainty of issue the flotitious demands that arise at such times.

Thomas F. Vietor was elected a director of the National Park Bank of this city on Tuesday.

-The North River Savings Bank, at 31 West 34th Street, has lost an important officer in the death of Frederick N. Cheshire, its Secretary and Treasurer. Mr. Cheshire had been with the bank for over sixteen years. He was an able officer and his loss is deeply deplored by his colleagues.

--Indictments against the members of the firm of Tracy & Co. of this city, which failed on May 17 1909, were reported as returned by the Grand Jury of the Supreme Court, Criminal Branch, on the 1st inst. The three members, William W. Tracy, Frederick W. Parker and Robert D. Covington, have since surrendered themselves and were released under bail of \$10,000 each.

-E. S. A. de Lima, who has resigned as President of the Hungarian-American Bank of this city, is to become President of the Banco Mexicano de Comercio e Industria, of Mexico City, one of the strongest banking institutions of that city, with a capital of \$5,000,000. Among its directors are: Lic. Pablo Macedo, Rodolfo Stoecker, Hugo Scherer Jr., James Speyer of Speyer & Co. of New York, H. Clay Pierce, President of the Waters Pierce Oil Co.; Jacob Langeloth, President of the American Metal Co., Albert Ballin, President of the Hamburg-American Line and E. Heinemann and George Zwilgmeyer of the Deutsche Bank of Berlin.

-William E. Holloway has been elected President of the Hungarian-American Bank of this city, to succeed E. S. A. de Lima, resigned. Mr. Holloway comes from Montgomery, Ala., where he was President of the Montgomery Bank & Trust Co. Thomas E. Lovejoy, heretofore Vice-President of the latter institution, succeeds to the presidency.

-Seth E. Thomas, Treasurer of the Seth Thomas Clock Co., and a trustee of the Washington Trust Co. of this eity, died on the 6th inst. He was in his sixty-ninth year.

-G. Lee Stout, one of the partners in the firm of A. O. Brown & Co. of this city, which failed in August 1908, was granted a discharge from bankruptcy, both as to individual and firm liabilities, on the 14th inst. It is stated that Mr. Stout is the first one of six partners to get a discharge.

—James A. Parker will retire as a Vice-President of the Old Colony Trust Company of Boston to become a partner on April 1 in the banking house of Charles Head & Co., members of the New York and Boston stock exchanges. Charles Head, the senior member of the firm, died last month. Mr. Parker has been associated with the Old Colony Trust for about ten years.

-It is announced that negotiations are under way for the merger of the Home Bank of Brooklyn Borough with the People's Trust Co. President Boody of the trust company is quoted in the Brooklyn "Eagle" as stating that his institution has for some time been considering the opening of a branch in the territory in which the bank is located, and that recently negotiations were opened by his company with the owners of the bank to take over the latter and operate it as a branch. The bank is located in South Brooklyn at 5324 Fifth Avenue. It has a capital of \$100,000, and under the Nov. 16 call reported deposits of \$454,089. It was organized in 1905; following the panic disturbances it closed its doors on Feb. 1 1908, but re-opened the ensuing June, and paid the final installment arranged for under the reorganization plan within six months of its resumption, and a year before the payment was due. The People's Trust Co. has \$1,000,-000 capital and nearly \$18,000,000 of deposits.

-Matthais H. Arnot, President of the Chemung Canal Trust Co. of Elmira, N. Y., died on the 15th inst. in his seventy-eighth year.

—The growth experienced by the Marine National Bank of Buffalo during the last ten years is illustrated in the following little table of resources, the figures in each case being those for January 31.

Date.	Resources.	Date.	Resources.
1900	\$6,929,352		
1902	13,216,660		20,391,403
1904	. 15,457,168	1910	25,763,520

It will be seen that in the past decade aggregate resources advanced from \$6,929,352 to \$25,763,520. Stephen M. Clement is President, John J. Albright and John H. Lascelles, Vice-Presidents, and Clifford Hubbell, Cashier.

-J. Francis Day, who is Secretary of the Utica Trust & Deposit Company of Utica, N. Y., has in addition been made a Vice-President of the institution. *

-The First National Bank of Boston, Mass., plans to increase its capital from \$2,000,000 to \$3,000,000. The new stock will be offered to the present shareholders at \$300 per share (par \$100), payment to be made on April 4. The stockholders will meet on March 14 to pass upon the proposition.

—Wm. S. Felton & Co. of Salem, Mass., have made their usual compilation of the statements of Salem banking institutions, the figures being those at the close of business January 31 1910, the date of the last return to the national and state officials. The banking capital of the national banks and trust companies is reported by them as \$850,000 and the surplus and undivided profits \$806,884. The total deposits of the national banks and trust companies are \$6,536,067— a loss of \$364,435 since November 16, and of the two savings banks \$16,701,336, an increase of \$430,466. The resources of the two co-operative banks are \$845,471, an increase of \$7,096.

-The Beverly National Bank of Beverly, Mass., has arranged to increase its capital from \$200,000 to \$300,000. The proposition was ratified by the stockholders on Jan. 11, and the enlarged capital will become effective on April 15. The additional stock will be issued at \$150 per \$100 share, the premium of \$50,000 going to surplus.

-The Rutland County National Bank of Rutland, Vt., has reduced its capital from \$300,000 to \$100,000. The change was indorsed at a special meeting of the stockholders on Dec. 27 and went into operation on the first of the year. With its reduced capital, the bank reports a surplus of \$50,-000 and undivided profits of \$7,500. Henry F. Field is President; E. C. Lewis, Vice-President, and Carl S. Cole, Cashier.

-Henry C. Stroup, formerly President of the Farmers' & Mechanics' National Bank of Philadelphia, died on the 4th inst. Mr. Stroup was eighty-eight years of age. He resigned the presidency of the bank in 1904, after serving the institution continuously for fifty years. He had remained on its board of directors up to the time of his death.

—Samuel L. Clark has been elected agent to wind up the affairs of the failed National Deposit Bank of Philadelphia. The institution suspended July 14 1908. The final dividend to the depositors, making the aggregate 100%, was distributed in December last, the city of Philadelphia receiving \$3,462.65—\$2,000 representing the final payment on the \$40,000 deposit it had in the institution at the time it closed and \$1,462.65 being the interest.

—A massive silver punch bowl was presented on the 4th inst. to George H. Earle Jr. by the directors and officers of the Tradesmen's National Bank of Philadelphia as an expression of their appreciation of his services during the fourteen years he was President of the institution. Mr. Earle retired from the presidency last month.

-In a statement issued by the Trenton Banking Co. of Trenton, N. J., on the 101st anniversary of the birth of President Lincoln (Feb. 12 1910), it is noted that on that date 105 years ago the institution elected its first board of directors, who in turn elected Isaac Smith as President, and began the business which has since continued uninterruptedly. One evidence of the bank's steady growth and prosperity is advanced in the fact that on January 3 1910 it paid its 202nd dividend. When the institution started it had a capital of \$59,580 and no surplus. On the 12th inst. its capital is reported as \$500,000, its surplus and profits as \$504,048, its deposits as \$3,302,703 and its aggregate resources as \$4,511,399. The officials are John A. Campbell, President; Henry W. Green Vice-President; Robert W. Howell, Cashier, and Ira Frost, Assistant Cashier.

Negotiations have been entered into for the merger of the International Trust Company and the Baltimore Trust & Guarantee Company of Baltimore into a new organization, to be formed under the name of the Baltimore Trust Company. The International has a capital of \$1,500,000 and surplus and profits of about \$1,100,000, and the Baltimore Trust & Guarantee a paid-in capital of \$800,000, with surplus and profits of about \$2,174,000. The plans with respect to the proposed company will be submitted for the approval of the stockholders on the 28th inst. They provide, according to the Baltimore "Sun," a capital of \$1,000,000 and a surplus of not less than \$2,500,000; the stock is to be in 20,000 shares of a par value of \$50 each, 10,000 of which will go to the stockholders of the International and 10,000 to those of the Baltimore Trust & Guarantee Company. Besides this there is to be a distribution of \$1,665,000 among the shareholders of the uniting companies, the stockholders of the Baltimore Trust & Guarantee receiving \$970,000, the

rest being divided among the International's stockholders. The officers slated for the new company are Thomas H. Bowles, President; Douglas H. Gordon, First Vice-President; George C. Morrison, Second Vice-President; Samuel C. Rowland, Third Vice-President, and Charles D. Fenhagen, Secretary and Treasurer. Messrs. Bowles and Morrison are respectively President and First Vice-President of the Baltimore Trust & Guarantee Co.; Messrs. Gordon, Rowland and Fenhagen are President, Vice-President and Treasurer respectively of the International.

The Bank of Pittsburgh (National Association), Pittsburgh, Pa., has rounded out 100 years, having completed an existence of a century on the 10th inst. In celebration of the event the bank distributed souvenirs to its patrons and friends visiting the institution, and an exhibition was held of documents and papers identified with the early history of the bank. The phrase, "The oldest bank in the United States west of the Alleghany Mountains," is a familiar desig-tion the institution uses. Harrison Nesbit, who resigned as a national bank examiner last May to become Vice-President of the institution, was elected President, succeeding Wilson A. Shaw, on the day of the anniversary. Mr. Shaw, who desired to be relieved of the duties devolving upon the head of the bank, has become First Vice-President and Chairman of the Board. The management otherwise consists of James J. Donnell, Vice-President; W. F. Bickel, Cashier; J. M. Russell, J. D. Ayres and E. C. Morey, Assist-Cashiers; and George F. Wright, Auditor.

The Exchange National Bank of Pittsburgh has added considerably to its business during the past seven months, as the appended table showing the deposits reported to the Comptroller of the Currency under the four last calls indicates:

 Date.
 Deposits.
 Date.
 Deposits.

 June 23 1909
 \$1,966,035
 Nov. 16 1909
 \$3,666,227

 Sept. 1 1909
 2,855,153
 Jan. 31 1910
 3,886,636
 Deposits, it will be seen, have increased since June last \$1,920,601, or 98%. This institution has a capital of \$1,200,000 surplus and undivided profits of \$845;500 and aggregate resources of \$6,667,498. Joseph W. Marsh is President; John Moorhead Jr., Albert H. Childs and Ralph H. Binns, Vice-Presidents; Alexander Dunbar, Cashier, and S. N. Kreider, Assistant Cashier.

-The deposits of the First National Bank of Pittsburgh have increased over four millions of dollars during the past year, having advanced from \$19,236,835 on Feb. 5 1909 to \$23,339,022 on January 31 1910. The institution has a capital of \$1,000,000 and surplus profits of \$2,167,351.

The amount due to the City of Cleveland by the South Cleveland Banking Co. of that city, which failed on Jan. 6, is reported to have been paid in full. The "Leader" states that the city's account was discharged on the 14th inst.; with principal and interest combined it amounted to a little over \$127,000 at the time of the failure. The deposit was secured by real estate mortgage bonds. U. G. Walker, President of the company, and William G. Duncan, Treasurer, pleaded not guilty on the 2d inst. to a charge of perjury, on which they were said to have been indicted last month. The charge stated concerns the alleged filing of a false statement to the Banking Department in Dec. 1908.

Harrison R. Newcomb, who resigned last month as President of the Citizens' Savings & Trust Co. of Cleveland, Ohio, owing to impaired health, died on the 4th inst. Mr. Newcomb was one of the organizers of the Savings & Trust Co., and when it consolidated in 1903 with the Citizens' Savings & Loan Association, he became President of the resultant institution, the Citizens' Savings & Trust Co. He was in his sixty-eighth year.

-Frank P. Glazier, formerly President of the failed Chelsea Savings Bank of Chelsea, Mich., and ex-Treasurer of the State of Michigan, was sentenced on the 5th inst. to serve from five to ten years' imprisonment. The accused was convicted a year ago of misappropriating funds of the State (to the amount, it is said, of \$685,000) in placing the money on deposit with his institution, which was held to be an illegal depository. A motion for a stay of judgment was overruled by the Court. The bank failed in December 1907.

The specifications for the new building of the Harris Trust & Savings Bank of Chicago were given out this week

they have been returned and passed upon by the institution's building committee, the work of demolishing the present structure, to make way for the proposed building, will start. The project has been referred to heretofore in this department, our issue of Aug, 14 of last year having contained an item with regard thereto. The site the building is to occupy is on the south side of Monroe Street between Clark and La Salle streets. The building which, together with the land, will cost approximately \$3,000,000, will have a frontage of 90 feet and will extend south 189 feet to an alley between Monroe and Adams streets. It will betwenty stories in height, rising 260 feet above the sidewalk, and will rest on caisson foundations which will go down 110 feet to bed-rock. The construction will be fireproof throughout, while the superstructure will be of steel. The exterior finish of the first five floors will be of pink granite, highly polished and decorated with statuary bronze, with mammoth granite columns 5 feet 8 inches thick at the base, and rising to a height of more than forty feet. Above the granite work will rise the main shaft of red Roman brick, capped by ornamental terra cotta. The quarters of the Harris Trust & Savings Bank will be the ground floor and a commodious balcony overlooking the main floor. The public space of the banking offices will be finished in Italian marble, and a bank counter and screen of marble and bronze will divide this space from the officers' quarters and the counting room. The balcony will afford facilities for the bank's clerical force. Acommodious basement will be used by the bank for its safety deposit vaults, and below this basement there will be two sub-basements, the lower one containing the mechanical department of the building. Much of the space in the upper floors has already, it is said, been rented for office purposes.

The application to organize the La Salle Street National Bank of Chicago, referred to in these columns Feb. 5, was approved at Washington on the 5th inst. The La Salle Street Trust Co., which is to be allied with the bank, has also received authority from the State Department to proceed with its organization, and it is stated that the two institutions plan to begin business in April. The capital in each case will be \$1,000,000, and the selling price of the stock has been fixed at \$125 per share, so that each institution will have a surplus of \$250,000. Those serving as the incorporators of the bank are C. B. Munday, Jno. R. Farthing, William J. Moxley and William Lorimer Jr.

-Edward M. Lacey, an Assistant Cashier of the Commercial National Bank of Chicago, and son of Edward S. Lacey, Chairman of the board of directors of that institution, died on the 4th inst. He was twenty-eight years of He graduated from Yale in 1904. age.

-The address of George E. Roberts, President of the Commercial National Bank of Chicago, dealing with the "Objections to a Postal Savings Bank," and delivered last June at the annual meeting of the Minnesota Bankers' Association, has been printed in pamphlet form. Reference to the paper was had in these columns on June 26.

-The Michigan Avenue Trust Co. of Chicago, which has been formed by interests identified with the Colonial Trust & Savings Bank of that city, is slated to begin business within the next few months. The new institution has been organized with \$200,000 capital and \$50,000 surplus. Its quarters will be on Michigan Avenue near 22d Street.

-Howard O. Edmonds, heretofore an Assistant Secretary of the Northern Trust Co. of Chicago, Ill., has been elected a Vice-President of the institution.

-The Central Trust Company of Des Moines, Iowa, organized last month, has commenced business. The company has a capital of \$200,000 but no surplus is to be paid in at this time. It will confine itself to a general trust business in accordance with the law under which it is formed, which does not permit the conduct of a banking business. The officials are J. D. Whisenand, President; E. E. Clark, Vice-President and L. B. Bartholomew, Secretary. Mr. Whisenand is Vice-President of the Central State Bank of Des Moines and Mr. Clark is associated with the Bankers' Life Association.

-The Kansas Bankers' Association will hold its twentythird annual convention at Topeka on May 26 and 27. to the contractors for estimating purposes, and as soon as | W, W. Bowman of Topeka is Secretary of the organization.

THE CHRONICLE

-The Drovers' National Bank of Kansas City, Mo., has increased its capital from \$200,000 to \$300,000. We are advised that, following the agreement of the stockholders to the proposition, the additional stock was paid in in December. The surplus and undivided profits of the institution, which began business several months ago, are \$35,000.

-The Mississippi Valley Trust Co. of St. Louis, has enjoyed a marked increase in its business during the past year as the appended table indicates.

On the basis of averages, circulation amounted to \$50,510,000 and United States deposits (included in deposits) to \$1,704,300; actual figures February 11, circula-tion, \$50,235,500; United States deposits, \$1,733,000.

The State Banking Department also now furnishes weekly returns of the State banks and trust companies under its charge. These returns cover all the institutions of this class In the whole State, but the figures are compiled so as to distinguish between the results for New York City (Greater New York) and those for the rest of the State, as per the following:

OT ATE	DASTER	A 3773	TTOTICES	COMPANIES.

+ Increase over last week. - Decrease from last week.

+ Increase over last week. — Decrease from last week. Nots.—"Surplus" includes all undivided profits. "Reserve on deposits" in-cludes, for both trust companies and State banks, not only eash items, but amount due from reserve agents. Trust companies in New York State are required by law to keep a reserve proportionate to their deposits, the ratio varying according to location as shown below. The percentage of reserve required is computed on the aggregate of deposits, exclusive of moneys held in trust and not payable within thirty days, and also exclusive of time deposits not payable within 30 days, repre-sented by certificates, and also exclusive of deposits secured by bonds of the State of New York. The State banks are ilkewise required to keep a reserve varying according to location, but in this case the reserve is computed on the whole amount of deposits, exclusive of deposits secured by bonds of the State of New York.

THE CHRONICLE

[VOL. LXXXX.

The Banking Department also undertakes to present separate figures indicating the totals for the State banks and trust companies in the Greater New York not in the Clearing House. These figures are shown in the table below, as are also the results (both actual and average) for the Clearing-House banks. In addition, we have combined each corresponding item in the two statements, thus affording an aggregate for the whole of the banks and trust companies in the Greater New York.

Bankers' Gazette.

Wall Street, Friday Night, Feb. 18 1910. The Money Market and Financial Situation.—The ad-vancing tendency of prices, which was mentioned as a new development in the security markets last week, has con-tinued with some slight interruptions. It is reported that purchases for foreign account have been more conspicuous than of late and there has undoubtedly been more or less buying for investment here; but it seems probable that such purchases have not been very extensive and that the market continues to be largely controlled by professional traders operating on the floor of the Stock Exchange. —The Government report of our foreign trade for the month of January, given out on Thursday, attracted attention, owing to its unfavorable comparison with reports for the corresponding period in recent years. — In view of this statement the resumption of gold exports is in no sense surprising and \$1,500,000 has been engaged this week for shipment to Argentina. — On the other hand latest reports of railway earnings show that a large traffic is being handled and suggest that recent statements to the effect that business activity is waning were either erroneous or greatly exaggerated. Moreover, the bank clearings for the country show an increase of 21.4%, and it is reported to-day that large orders for railway equip-ment, including locomotives, have recently been placed. — The bank statement at the close of last week showed a surplus of over \$29,000,000 and the money market has continued easy. — The open market rates for call loans at the Stock Exchange

continued easy

continued easy. The open market rates for call loans at the Stock Exchange during the week on stock and bond collaterals have ranged from 2½ to 3%. To-day's rates on call were 2½@3%. Com-mercial paper quoted at 4½@4½% for 60 to 90-day endorse-ments, 4½@4¾% for prime 4 to 6 months' single names and 5@5½% for good single names. The Bank of England weekly statement on Thursday showed an increase in bullion of £749,431 and the percentage of reserve to liabilities was 53.04, against 51.60 last week. The rate of discount remains unchanged at 3%, as fixed Feb. 10. The Bank of France shows a decrease of 1,425,000 francs gold and 1,550,000 france silver. <u>NEW YORK CITY CLEARING-HOUSE BANKS.</u>

Note.—The Clearing House now issues a sustainant weekly showing the actual condition of the banks on Saturday norming as well as the above averages. These figures, together with the returns of separate banks, also the summary issued by the State Banking Department aboving the condition of State banks and trust com-panies not reporting to the Clearing House, appear on the second page preceding.

The state Banking Department showing the condition of State banks and treat comparise to the Clearing House, appear on the second mage precedum.
 Foreign Exchange.—Discount rates abroad have tended upwards this week, in spite of better bank statements. Foreign exchange here, after having remained inactive at abnormally low levels, has now advanced sharply.
 To-day's (Friday's) nominal rates for sterling exchange were 4 85 for sixty day and 4 87½ for sight. To-day's actual rates for sterling exchange were 4 8540@4 8645 for cheques and 4 8660@4 8670 for cables. Commercial on banks 4 837g@4 84½ and documents for payment 4 83½@4 83½ and grain for payment 4 84@4 84½. To-day's (Friday's) actual rates for Paris bankers' francs were 5 19½ less 1-16@5 10³ for long and 5 17½ less 1-32
 @ 5 171½ for short. Germany bankers' marks were 94%@94 13-16 for long and 95¼ less 1-32 @ 95½ for short. Amsterdam bankers' guilders were 40 06@40 08 for short. Exchange at Paris on London, 20m, 45½pf.; week's range, 20m, 47½pf. high and 20m, 15¼pf. low.

Savannah, buying, 75c. per \$1,000 discount; selling, 75c. per \$1,000 premium. Montreal, 3114c. per \$1,000 premium.

per \$1,000 premium. Montreal, 31½c, per \$1,000 premium.
State and Railroad Bonds.—No sales of State bonds have been reported at the Board this week.
But for unusual activity in two or three issues, the market for railroad and industrial bonds would have been exceptionally dull and narrow.
American Tobacco 4s have been the conspicuous feature, advancing from 7615 to 8534, and subsequently losing 3 points of the advance. No cause for the movement is known unless it be based on the expectation that the impending Supreme Court decision will result in these bonds being redeemed at par. At the same time the 6s have declined over a point. Atlantic Coast Line—L. & N. coll. 4s, Eric conv. 4s, Series A, and Interboro.-Met. 4½s have heen active and advanced 2 points or more. Wabash ref. & ext. 4s are one point higher. Other changes are fractional.
United States Bonds,—Sales of Government bonds at the

United States Bonds.—Sales of Government bonds at the Board are limited to \$10,000 2s reg., 1930, at 101 ½. The following are the daily quotations: for yearly range see third page following.

* This is the price bid at the morning board; no sale was made. **Railroad and Miscellaneous Stocks.**—Except for a reac-tionary tendency on Tuesday and some irregularity to-day, the stock market has been strong throughout the week and closing prices are, for the active list, generally from 2 to 6 points higher than last week. There has been some invest-ment buying, including that for foreign account, but a large proportion of the Lusiness reported continues to be largely of a professional character. Reading has been the conspicuous feature. Nearly 227 000

of a professional character. Reading has been the conspicuous feature. Nearly 227,000 shares were trade 1 in on Wednesday and it advanced within the week 11% points to a new high figure for the year Interboro-Metropolitan has also been more active than usual and the preferred moved up nearly 8 points. Union Pacific sold 75% points higher to-day than on Monday; St. Paul 434 points, and North West, Missouri Kansas & Texas, Chesa-peake & Ohio and Brookl n Rapid Transit from 3 to 334 points, higher. points higher.

The industrial list has followed the general trend of the market with fluctuations generally within a narrower range

than those me tioned. For daily values of business see page 493. The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

THE CHRONICLE

Investment and gailroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every SFEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the electric railways are brought together separately on a subsequent page.

and the second	Latest	Gross Earn	tnys,	July 1 to 1	atest Date.		Lalest	Gross Earn	ings.	July 1 to 1	Calest Dal

 Net Earnings Monthly to Latest Dates. —In our "Railway Farnings" Section, which accompanies to day's issue of the 'Chronicle'' as a special Supplement, we print the December figures those for the latest previous month) of every steam-operating railroad in the United States which is obliged to make monthly statements to the Inter-State Commerce Commission at Washington.

 The Inter-State Commission returns are all on a uniform special utility by reason of that fact. In a number of instances these figures differ from those contained in the monthly statements given out by the companies themselves, for publication, and in which the accounts are prepared in accordance with old methods of grouping and classification pursued in many instances for years. We bring together here (1) all the roads where there is a substantial difference between the two sets of figures, so that those persons who for any reason may desire to turn to the company statements will find them readily available. We also give (2) the reatives of such roads (even where the figures correspond exactly with those in the Inter-State Commission and publish their fixed charges in addition to earnings and expenses, or (3) which have a fiscal year different from that of the Inter-State Commerce reports) which as to show the results for the company's own year. We likewise include (4) the few roads which operate operatively within State boundaries, and therefore do not report to the Federal Commission in which latter case we insert, the road so as to show the results for the company's own year. We add (6) the roads which have a sized their own year which have a fiscal year difference bead which have a subset their own year. We likew

ANNUAL REPORTS.

Metropolitan West Side Elevated RR., Chicago. (Report for Fiscal Year ending Dec. 31 1909.)

Howard J. Hetzler, the outgoing President, reports: Howard J. Hetzler, the outgoing President, reports: Increase in Business.—The traffic Increased materially during the last year. The passengers handled during the month of December exceeded all previous records. Maintenance and Additions.—Tweive thousand track lies and 3,000 guard ralls were used during the year and 61 miles of the structure were painted. New stations have been built at Hannah St., Lombard Ave., Austin Ave. and Home Ave. on the Garfield Park branch. Additions have been made to five stations on the Garfield Park branch. Additions have been made to five stations on the Garfield Park branch. Additions have been made to five stations on the Garfield Park branch. Constrait.—During the year deductions from income were made as fol-lows: Collateral loan was reduced from \$400,000 to \$300,000, and in addi-tion nearly \$100,000 expended for cost of road and property. These latter expenditures include the cost of track elevation on the Douglas Park branch, the purchase of property on Congress St. for division offices, additions and changes to stations, equipment and safety appliances. [Mr. Heizler stated after the meeting that the management does not con-template the sale of extension mortgage bonds at this time.] *FISCAL RESULTS FOR YEARS ENDING DEC* 31

"The decrease in other income is largely due to the policy, inaugurated July 1 1909 not crediting to the income of the com-pany the interest upon the advances made for the construction of the New York & Long Island RR. Tunnel."—V. 89, p. 1661.

Du Pont de Nemours Powder Co.

(Report for Fiscal Year ending Dec. 31 1909.)

The report of the company for the calendar year 1909, including the remarks of President T. C. du Pont and the income account and balance sheet for each year since the reorganization of the company in August 1903, will be found

reorganization of the company in August 1903, will be found at length on a previous page. The report states that since the reorganization there has been re-invested in new factories and in the general develop-ment of business the sum of \$13,\$11,909, in addition to which the property has been further increased through the sale of \$3,437,000 common stock. This increase in invest-ment, aggregating \$17,248,909, is equal to approximately \$61 50 per share of common stock now outstanding. The company's bonds and preferred stock were listed on the New York Stock Exchange in October last.—V. 89, p. 1143.

(The) Mackay Companies, New York.

(Report for Fiscal Year ending Dec. 31 1909.)

<text><text><text><text><text> President Clarence H. Mackay Feb. 15 1910 wrote in brief:

holdings of stock in the American Telephone & Telegraph Co. and that will be done. [A syndicate, it is said, has been organized to purchase the stock, a d, reports say, has already marketed over 75% of the block.-Ed.] The Postal Telegraph system will continue to be free and inde-pendent, prepared to maintain the competition which it has furnished for 25 years.

Stock, a. U. reports Telegraph system will continue to be need and independent, prepared to maintain the competition which it has furnished for 25 years.
 Extent of Sustem at End of First Quarter Century. — The close of 1009 completes a quarter of a century's existence of the Commercial Cable-Postal Telegraph systems. Those systems to-day operate 350,123 miles of wire and 28,379 miles of trans-Atlantic and trans Pacific cable in and to America, Europe and Asia. By connections they reach every part of the world. At the Azores Islands connection is made with the Eastern and Western telegraph systems for Southern Europe, Asia, Africa, Australia and South America. At London, with the Great Northern Telegraph Co., for Scandinavia, Russia in Europe and Russia in Asia. In Canada with the Canadian Pacific Cable, the Hailfax & Bermudas Cable Co., the Direct West India Cable Co., and the telegraph lines of the world, and with two of its alled companies it encicts the globe.
 Accompanying the annual report are two pamphiets, one glving an eacount of the 25th anniversary celebration globe for a committee of the New York State Legislature.—Et J

New York Air Brake Co.

(Report for Fiscal Year ending Dec. 31 1909.)

President C. A. Starbuck, New York, Feb. 14 1910, wrote: President U. A. Starbuck, New York, Feb. 14 1910, wrote: Practically all the profits of the year have been made in the past four months, as during the first eight months the railroads were unable to finance their regularements. The change in conditions came late in the summer, and since then our business has steadily grown, and we now have unfilted orders aggregating over \$1,250,000. We believe that the year 1910 will be a prosperous one for the company. A large sum has been expended in putting our machinery in good repair, all of which has been charged off. The company has made many improvements in its braic apparatus, neces-sitated by the increase in trial-foad and motive power, on which it has taken valuable patents, both in this country and in Europe. Chicago Pneumatic Tool Company.

(Report for Fiscal Year ending Dec. 31 1909.) Pres. W. O. Duntley, Chicago, Feb. 11 1910, wrote:

Pres. W. O. Dunhley, Chicago, Feb. 11 1910, wrote: The indebtedness (exclusive of the sinking fund installment of the gen-eral morigate) has been reduced during the year by \$147.101. There exist no contingent liabilities for bills discounted, nor guaranties to banks for foreign subsidiary companies. The company is on a substantial basis, with sufficient working capital for prospective requirements. The sam of \$134,573 has been appropriated for depreciation, maintenance and renewals. The annexed statement of profits, subdivided for the first and second half of the year, indicates the improvement in business conditions experi-enced during the last six months of the year. The ordera already on hand reasonably assure a larger volume of business for 1910. All the plants are being operated to their full capacity. The foreign subsidiary companies are in a prosperous condition and are gradually developing an increased demand.

(Report for Fiscal Year ending Dec. 31 1909.)

Pres. Edw. R. Stettinius, New York, Feb. 9 1910, wrote: Pres. Edw. R. Stettimus, New York, Feb. 9 1910, wrote: General Results.—The earnings for the year were \$1,767,646, as compared with \$1,894,724 for 1908. These amounts were determined after deducting from gross earnings for repairs and replacements \$566,798 and for depre-clation, \$120,297, a total of \$477,095, contrasting with \$385,187 (\$298,506 and \$56,631 respectively) in 1908. The increase of \$55,292 in repairs and replacements is partially due to floods at Stirling and Red Bluff. There was appropriated from the net earnings for 1909 \$150,000 for general reserve account and \$150,000 for depreciation reserve account. Balance Sheet.—During the year the net additions and improvements to plants amounted to \$403,481. The value on the books of investments sold

and liquidated was \$402,611. This includes the preferred shares of Bryant & May, Ltd., which were sold at a profit of \$47,864 in excess of the figures at which they were carried. The field amount employed in the California lumber operation in inven-tories, manufactured lumber, accounts and bills receivable and cash Dec. 31 1009 was \$1,118,098 and is included in the balance sheet herewith. The increase in the accounts receivable partially reflects the materially greater volume of sales of matches during 1969; similar increases involving additional capital must be anticipated as the business expands from year to year.

additional capital must be anticipated as the business expanses from year to year. Indebtedness.—The amount owing Bryant & May, Ltd., as at Dec 31 1906, on account of the purchase of their interest in the California lumber operation, was \$1,524,356, and is payable in equal semi-anneal installments of \$72,900 each. This indebtedness was reduced during the year by \$425,608, of which \$352,708 comprised part of the proceeds arising from the sale of the preferred shares of Bryant & May, Ltd., which had been set aside for this purpose. Coupon notes aggregating \$500,000 were retired and canceled at maturity July 1 1009. Bryant & May.—No part of the accumulated earnings of Bryant & May. Ltd., or any other corporation in which your company is interested. Included in the profits of the company, except as may be represented by dividends declared or paid to this company during the year.

Improvements .- The board of directors last week authorized expenditures aggregating about \$8,000,000.

Of the amount, 55,000,000 is for improvements on the roadway and 53,000,000 for equipment, making, with the \$13,000,000 order for forence-tives and cars now being filled, a total of \$16,000,000 for new equipment. There are also other large amounts to be expended for improvements in various parts of the system, including the construction of a third incide over the Alleghanics. It is reported that a conservative estimate of present re-quirements would be \$20,000,000 to \$55,000,000, for which securities may possibly be issued within a few months. --V. 80, p. 106, 107.

Belton & Temple (Tex.) Traction Go.—Receivership.— Judge Maxey in the Federal Court at Austin, Tex., on Feb. 8 appointed a receiver in foreclosure proceedings brought under the first mortgage for \$300,000.

Boston RE. Holding Co. — Application to Issue Securities. —
The company has petitioned the Massachusetts Railroad Commission for permission to issue \$680,400 additional stock, increasing the same from \$2,421,600 to \$3,102,000, to acquire \$2,786,800 additional common stock and \$71,700 preferred stock of the Boston & Maine. The company has agreed to pay \$125 in 4% bonds and \$30 in stock for each share of Boston & Maine common stock and \$125 in bonds and \$37 in stock for each share of preferred stock. Compare V. 90, p. 446, 371.

Boston & Maine BR. - Authority Asked to Purchase Control of Leased Road. - The Massachusetts Railroad Commission

has been requested to sanction the purchase of a majority of the (\$3,099,800) capital stock of the Worcester Nashua & Rochester RR., a leased line. *Purchase of Stock by Boston Holding Ca.*—See that company above.—V. 90, p. 446, 235.

Brooklyn Rapid Transit Co.—Large Purchase by Boston Interests.—The "Boston News Bureau" of Feb. 17 says: An important new Boston interest has within the last few months bought into Brooklyn Rapid Transit stock after making careful investigation of the company's carding and physical condition. It is estimated that this new interest holds at present hetween \$2,300,000 and \$3,000,000 stock. There is one harrer Boston interest, the two together holding approximately \$7,500,000, or 17%, of the \$45,900,000 stock. In all, the New England Investment is estimated at fully 25% of the outstanding stock.—V 90, p. 302, 166.

Central RR. of New Jersey.—New Director.—Henry Graves Jr. has been elected a director, succeeding the late H. McK. Twombly.—V. 90, p. 236.

Chesapeake & Ohio Ry.—Report Pronounced Premature.— The statement that the company as owner of one-sixth of the majority common stock of the Hocking Valley Ry. is negotiating with the roads owning the remainder of the ma-jority interest with a view to controlling an outlet for its coal to the Great Lakes is pronounced "premature and un-authorized."

coal to the Great Lakes is pronounced premature and unauthorized."
Improvements, &c.—The directors on Thursday authorized the expenditure of about \$5,000,000 for further improvements, including double-tracking, enlargement of freight yards, additional side-tracks, &c. An issue of \$30,000,000 "general funding and improvement" bonds was created early last year, of which \$11,000,000 were sold (V. 87, p. 1663).

Chicago Rock Island & Pacific Ry.—See White & Black River Valley RR. below.—V. 90, p. 302, 236.
Cleveland (Electric) Ry.—Ordinance Approved at Referendum.—The electors on Feb. 17 at the referendum election approved the Tayler ordinance passed Dec. 18 last granting a new 25-year franchise to the company at an initial fare of 3 cents with 1 cent extra for transfers without rebate. The yote is reported to be 27,307 in favor to 19,197 in opposition. The

Columbus (O.) Railway & Light Co.—Remaining Treasury Common Stock Offered.—Notices have been sent to the stock-holders of both classes offering them the right to subscribe for the \$500,000 common stock held in the treasury pro rata at par to the extent of one-thirteenth of their holdings.

The stock is to be sold to reimburse the company for expenditures for new cars and other improvements. Warrants for the amount of stock each stockholder is entitled to subscribe for will be malled to each stockholder, and these must be surrendered with the subscription between March I and 15 - V, 90, p. 303.

15.-V. 90, p. 303.
 Dallas Cleburne & Southwestern Ry.—Sale.—The Missouri Kansas & Texas has acquired all the securities, The road extends from Egan to Cleburne, Tex., 10 miles, and has been operated by the M. K. & T. under a contract terminable at 20 days' notice.
 Stock, S10,000; bonds, 3150,000.-V. 83, p. 213.
 Delaware RR.—Lease.—The stockholders on Feb. 15 voted to lease the road to the Philadelphia Baltimore & Washington on terms stated in V. 90, p. 447, 167.

Washington on terms stated in V. 90, p. 447, 107.
Denver Laramie & Northwestern Ry.—Re-incorporation.
—The shareholders at a meeting held in Laramie, Wyo., on Feb. 10 voted to transfer the property to the Denver Laramie & Northwestern Railroad, incorporated at Cheyenne on Feb. 9, with authority to extend the line to Seattle. It is proposed to complete the road to Laramie this year, building 150 miles 150 miles.

The organization of the new company is variously reported as accom-panted by an increase in the authorized "capitalization from \$5,000,000 to \$35,000,000, of which \$22,500,000 is to be issued in bonds for building 750 miles of road. The old company had in operation 43 miles of road, Denver to Miliken, with 12 miles to Greeley under construction; capital stock, \$5,000,000, all issued; bonds authorized, \$3,300,000, at \$15,000 per mile. -V, 89, p. 922.

Denver Northwestern & Pacific Ry.—Guaranteed Bonds.-See Northwestern Terminal Ry. below.—V. 89, p. 993.

El Paso (Tex.) Electric Co.—Initial Dividend.—An initial semi-annual dividend of 2% on the \$1,000,000 common stock has been declared, payable March 15 to stockholders of record Feb. 28.—V. 90, p. 109.

<text><text><text><text><text><text><text><text><text><text><text><text><text><text><text>

Pittsburgh & Allegheny Valley Ry.—Sale March 21.—The Safe Deposit & Trust Co., Pittsburgh, trustee under the mtge. of July 15 1904, will offer the property at auction, free of all liens, at Kittanning, Armstrong County, Pa., on March 21, under decree of Court of Common Pleas of said county entered Jan. 22. There are \$533,500 bonds outstanding.— V. 90, p. 373.

V. 90, p. 373.
Pittsfield (Mass.) Electric Street Ry.—Sale.—The New England Investment & Security Co. has secured a 30-days' option on the majority holdings of the Dolan Interest, consisting, it is said, of \$151,100 of the \$300,000 stock.
The minority holders will, it is said, be allowed to dispase of their holdings on the same terms. \$275 per share, the Dolans receiving a bonus of \$75,000. It is thought that the deal will probably be closed in about ten days.—V. 56, p. 230.
Pittsburgh Shawmut & Northern RR.—Financing Extension.—See Pittsburgh & Shawmut RR. below.
Controlled by Hubbard-Byrne Interests—Mr. Hawley's Election.—Regarding the election of Edwin Hawley to the board, a director is quoted as saying:
Mr. Hawley entered the board at the request of General Hubbard because

a director is quoted as saying: Mr. Hawley entered the board at the request of General Hubbard because of their close business relationship in the Hawley roads, Chicago & Alton and Toledo St. Louis & Westerni and because Mr. Hawley's railroad ex-perience would be of value to the road. Gen. Thomas H. Hubbard, Receiver Frank S. Smith and the estate of John Byrne hold practically all the road's securities. Considerably more than a majority is owned by Gen. Hubbard alone, and there is no reason to suppose that he contemplates selling out. Authorization of \$12,500,000 bonds by Pittsburgh & Shawmut & Northern. The latter will be put on its feet comparatively soon, and will be made a paying proposition. —V. 89, p. 847.

on us reet comparatively soon, and will be made a paying projosition. -V. 89, D. 847. Pittsburgh & Shawmut RR.—Sale of Bonds on New Coal Road to Form Extension of Pittsburgh Shawmut & Northern.— Hallgarten & Co., New York, and associates, have purchased the first \$3,000,000 5% gold bonds issued under the mortgage made late last year to the Central Trust Co., New York, trustee, securing not exceeding \$12,000,000 bonds. This mortgage covers (1) the new line now under construction, and to a considerable extent already completed, forming an extension of the Pittsburgh Shawmut & Northern RR. from Hyde, Pa., to Freeport, Pa., near Pittsburgh, a distance of 102 miles; and (2) a majority of the \$5,000,000 stock of the Allegheny Mining Co. The bonds are dated Dec. 1909 and will mature Dec. 1959, but are callable at 105; annual sink-ing fund \$100,000, beginning Dec. 1914. The road will open up what is described as "one of the largest and richest bitumi-nous coal areas in Elk and Jefferson counties, Pa." After the reorganization of the Pittsburgh Shawmut & Northern RR. it is proposed to merge the properties, the same interests being identified with both. See further particulars under old

name, "Brookville & Mahoning RR.," in report of Pitts. Shawmut & Northern, V. 88, p. 1194; V. 89, p. 847.

Reading Co.—New Director.—George F. Baker of New York has been elected a director of all three companies, succeeding the late H. McK. Twombly.—V. 89, p. 1598.

Canadian Car & Foundry Co., Ltd.—Purchase of Canada Car Co.—See Pressed Steel Car Co. under "Annual Reports." —V. 90, p. 374, 170.

V. 90, p. 374, 170. Central Foundry Co., New York.—Receivership.—On Feb. Central Foundry Co., New York.—Receivership.—On Feb. **Central Foundry Go., New York.**—*Receivership.*—On Feb. 12, in involuntary bankruptcy proceedings brought by A. Lea Everett, representing the Vinton Colliery Co. and other creditors, whose claims aggregate \$12,000, Judge Hough in the United States District Court, acting, it is understood, with the approval of the company, appointed Waddill Catchings, 49 Wall St., as receiver for the property and authorized him to borrow up to \$200,000 as may be necession to the computer of the company. sary to continue the business.

sary to continue the business. Besides the \$3,863,000 debenture bonds there is outstanding some \$345 000 secured, and \$340,000 unscenred, indebtedness. According to curren street talk the \$1,000,000 or more required to put the company on its fee may be raised by an assessment on the stock, a new security of some kind to be given to represent the new money. In 1003 the Central Coal & fron Co.(controlled) sold \$1,000,000 of an issue of \$2,000,000 drst morigan; 6s. President August Heckscher has issued a statement saying: "The com-pany for some time has been hand(capped in the transaction of its growing business by lack of adequate banking facilities and working capital. The result is embarrassment, which we believe to be temporary. United action on the part of creditors and shareholders can prompily make effective a re-organization which with admit of large economies and better earnings"

Notice to Debenture Holders' and All Other Creditors.—A pro-tective committee requests, by advertisement on another page, that holders deposit with the Central Trust Co., 54 Wall St., N. Y., under agreement dated Feb. 16 1910, all debentures and other claims and evidences of indebtedness, for mutual protection. Copies of the agreement will be ready for distribution Feb. 21.

The committee consists of J. N. Wallace (Chairman), C. D. Smithers, P. J. Goodhart and August Heekscher, with Franklin L. Babcock, Sect-tary, 54 Wall St., N. Y. City, and Joline, Larkin & Rathbone and Byrne & Cutcheon as counsel -- V. 88, p. 820.

Childs (Restaurant) Co., New York.—Stock Increase Approved.—The stockholders on Feb. 18 approved the increase in pref. stock from \$2,000,000 to \$3,000,000.—V.90,p. 375.

Cleveland (O.) Electric Illuminating Co.—New Slock.— Of the new stock recently authorized, only \$500,000, we are informed, is likely to be issued this year, probably some months from now, the same to be offered to sharcholders at par. The new plant on the lake shore will have an imme-iate capacity of 50,000 h.p.—V. 90, p. 375, 305.

Consolidated Indiana Coal Co.—New President—Opera-tions.—H. U. Mudge, President of the Chicago Rock Island & Pacific Ry., has been elected President.

This follows as a result of the sale of the St. Louis & San Francisco by the Rock Island Interests. The company will hereafter market its own pro-ducts, which, have heretoforce been handled by the Brazil Block Coal Co., the latter being controlled by the Chicago & Eastern III. -- V. 82, p. 1499.

Consolidated Telephone Companies of Pennsylvania.-Decision.—The State Railroad Commission of Pennsylvania on Feb. 12 held that the exclusive contract between the Bell Telephone Co. and the State Bell Telephone Co. of Slatington, Pa., is illegal, and recommended an interchange of local business between all the companies.—V. 87, p. 418.

Continental Can Co., Syracuse, N. Y., &c.—New Plant— Contract.—The "Iron Age" of Feb. 2 said:
 The Contract. Md., and Chicago, has started the creetion of a new can factory, 82250 feet, near the plant of the Standard Tin Place Co. at Canonsburg, PA., to take care of the Central Western trade, and also for making a new patented sanitary can. The making of cans will start about June 1, consuming about 100,000 hoxes of the plate of the Standard Tin even, new operates 10 hot tin mills at Canonsburg, with an annual capacity of 750,000 boxes of tin plate.—V. 89, p. 1670.
 Courtney Co., Charleston, W. Ya — Lumber Bouds Offered

Fisk Rubber Co., Chicopee, Mass.—Re-incorporation— Stock Increase.—The "Boston Financial News" Feb. 9 said: The capital stock of the Fisk Rubber Co. of Chicopee Falls, has been in-creased from \$600,000 to \$4,000,000, \$2,000,000 of pref. stock and an equal amount of common. The company has been reincorporated under the laws of Delaware. The officers remain the same. H. T. Dunn, Pres.; A. N. Mayo, Treas, and H. G. Fisk, Soc. all of this city. It is reported that the \$2,000,000 of pref. stock represents the actual assets to be turned over by the Massachusetts corporation to the Delaware corporation. The \$2,000,000 of common stock is said to represent the patents, patent rights and organization.

General Chemical Co.—New President.—Sanford H. Steele has been elected President, succeeding Edward H. Rising, and the latter has been made First Vice-President in place of Mr. Steele.—V. 90, p. 369.

Harbison-Walker Refractories Co., Pittsburgh. -Dividends Resumed on Common Stock. The company has declared dividend No. 2, V_2 of 1%, on its \$18,000,000 common stock, payable March 1 to stockholders of record Feb. 19.

itized for FRASER //fraser.stlouisfed.org/ Dividend No. 1, also 1/2 of 1%, was paid Oct. 1 1907. pare V. 85, p. 724; V. 89, p. 1481. Com-

Hudson River Electric Power Co.—Circular.—The bond-holders' committee for the associated companies, in a cir-cular dated Feb. 10, says in substance:

holders' committee for the associated companies, in a cir-cular dated Feb. 10, says in substance: The eight companies are in the hands of one set of receivers, George W. Durn, Charles W. Andrews and Milton Delano, appointed by the United States Circuit Court. The receivers have been successful in reducing the expenses of operating court. The receivers have been successful in reducing the expenses of operating court. The receivers have been successful in reducing the values RY, at a reasonable profit. The complicated legal situation has been progressing satisfactority and as specify as possible under the circumstances. Judgment has been rendered against the Hudson River Water Power Co. In favor of the Na-tional Courracting Co. for \$310,055, not including costs: the original judg-ment was \$556,000. An appeal has been taken (V. 89, p. 1546). The suit against the General Electric Co. (see V. 85, p. 228) is now in procress, and it is expected that the trial will be completed within the next 50 days. The final arguments in the suit against the United Traction Co. of Albany (compare V. 88, p. 229) will be made during February. If appealed, case cannot be argued until next fail. These suits aggregate about \$860,000. Under the authorization of the Court, an inventory has been made of the physical parts of all of the properties, and this replacement value is given at \$7,17,698. Carrying out the recommendations made by Stone & Webster (V. 88, p. 228), the dam at Spier Fails has been completed, on-siderable work has been down on the latate canal at Spier Fails and some replate on the dam at Mechanice'lle. The companies have not made a particularity good showing in earnings and operating expenses during the past two years, owing to continued low water, this year being for the year ending June 30 1909 have been at the purchase of large amounts of steam-generated power at high prices. The state of about 356,000, without any allowance for deprecision or any interest charges, these latter alone amounting to \$387,000. To hav

treal.] Compare V. 83, p. 228.
 Inland Steel Co., Chicago.—Bonds, Earnings, &c.— Eversz & Co., Chicago, recently offered at the market price a block of the first M. 6% bonds, dated April 1 1908, matur-ing scrially \$150,000 per annum on April 1 1909 to 1928.
 Total authorized issue, \$3,000,000; canceled to date, \$150,-000; outstanding, \$2,850,000. A circular shows:
 Actual cash investment in properties, \$7,668,203; net cash and quick assets June 50 1909, \$2,091,025; aggregate security for the \$2,850,000 out-standing bonds, \$9,759,228.
 Surplus Earnings for Years ending June 30, After All Charges (V. \$8, p. 155) 1908-09. 1907-08 (panic). 1906-07. 1905-08.

-V. 90, p. 450, 55.
Total surplus Dec. 31 1909, after deducting 15% scrip dividend (\$5,150,-612) paid March 1 1910 (V. 90, p. 55) and cost of Summit Hill fre (\$470,-505) and sundry adjustments, was \$748,202, against \$4,294,163 in 1908.
Management A pproved. —Referring to the Clawson circular (V. 90, p. 450), George H. Earle Jr., a voting trustee, says:
I understand that the management has already received proxies for a majority of the stock not in the voting trust, and my information also is that every member of the voting trust concurs with that majority in belleving that there should be no change in the board at this time. Speak-ing for myself, I do not think that a more table and honest management than that of Mr. Lathrop could be possible. What the company wants, in my judgment, is peace and continuance of the conditions that have enabled Mr. Lathrop to make his magnificent returns to the security holders.

President Lathrop himself characterizes recent criticisms of certain of the directors as unworthy of attention, and states that the board is a unit in favor of continuing the policy of developing the earning power of the property. Mr. Lathrop believes that it is most desirable for the best interests of the company that there should be a renewal of the voltage trust, as recommended in the letter to stockholders issued by order of the board Nov, 27 1000.] Compare V. 80, p. 1486; V. 90, p. 150, 55.
 MacArthur Bros. Co. of New Jersey. — Dividend. — The directors have declared a regular semi-annual dividend of 31/2% on the preferred stock, payable March 1 to holders of record Feb. 18. See full statement, V. 90, p. 377.

—V. 88, p. 1625. Mexican Light & Power Co., Ltd., Toronto.—New Stock, &c.—The shareholders voted Jan. 20 to approve by-laws in-creasing the capital stock by the addition of \$3,600,000 of preference stock and \$5,400,000 of ordinary stock, making in all \$6,000,000 pref. stock and \$19,000,000 ordinary stock.

all \$6,000,000 pref. stock and \$19,000,000 ordinary stock. The Chairman of the meeting announced that the company had recently purchased the entire capital stock of the Compania Electrica e Irrigadora del Estado de Hidako, S. A. Pachaca, and that the transmission lines of the Mex. L. & P. Co., Ltd., would be extended to the Pachuca mining dis-trict, a distance of about 30 miles, to supply the further demand for power from the Necasa plant. The Compania Electrica has a hydraulic-electric plant of its own of 12,000 h. p. 45 supplying about 7,000 h.p., and has addi-tional business insight "amounting to atleast 6,000 h.p." The 50,000 h.p. addition to the plant of the Mexican Light & Power Co. to be completed this year, will increase the latter's capacity to 100,000 h.p.--V, 89, p. 1599. Missouri & Kansas (Bell) Telephone Co.-Settlement with Parent Company.--Pres. Charles S. Gleed on Feb. 17 wired the "Boston News Burcau":

"Boston News Bureau":

the "Boston News Bureau": The company has arranged with the American Telephone & Telegraph Co. whereby the parent company will take \$10,000,000 or \$12,000,000 stock of the Missouri & Kansas Co. In liquidation of a like amount of floating debt of the Missouri & Kansas now held by the American Co. It is prob-able that eventually American Telephone will take enough more M. & K. stock to enable that company to free itself entirely of its present floating debt. A special meeting of stockholders will be called shortly to authorize the increase in capital stock. The "News Bureau" adds: "On Dec. 31 1908 Missouri & Kansas had outstanding \$3,627,700 capital stock and a floating debt which was increased to about \$15,000,000 during 1909. Inasmuch as American Telephone is now receiving interest of about 6% on the M. & K. notes, which it holds, it is believed that the conversion of these notes into stock foreshadows the early resumption of dividends on M. & K. stock. The to February 1907 the company paid dividends at the rate of 6%. "Compare V. 88, p. 1556. **National Refining Co., Cleveland.**—New Stock.—The stock from \$3,000,000 to \$4,000,000. Compare V. 90, p.240.

stock from \$3,000,000 to \$4,000,000. Compare V. 90, p.240.

Niagara Lockport & Ontario Power Co., Buffalo, N. Y.— Bonds Offered.—William Salomon & Co., New York and Chicago, and E. H. Rollins & Sons, New York, Boston, &c., are offering for sale, at 93½ and interest, yielding 5.38%, the unsold portion of a block of \$1,000,000 1st M. 5% sinking fund gold bonds, closed mortgage, tax-exempt in New York State, due Nov. 1 1954, but callable at 110 and int. Authorized, \$5,000,000; outstanding, \$4,973,000. Retired by sinking fund, \$27,000.

sinking fund, \$27,000. Abstract of Letter from President Francis V. Greene, Feb. 10 1910. These bonds are a direct first mortgage on the entire property, the cash cost of which, about \$7,300,000, represents an equity junioe to these bonds of \$2,300,000. Includes: (a) 200 miles of right of way owned in fee, aggre-gating 3,800 acres, viz. Niagara River to Syracuse, 164 miles; (b) right to Lackawanna near huffalo, 27 miles, and branches, 18 miles; (b) right of way under lease, &c., principally along railroads, 140 miles; (c) duplicate ransmission lines Niagara River to Syracuse and Lockport to Lackawanna, equivalent to single line of 361 miles; (d) branch lines, 90 miles; (e) switch-ing and transforming stations and private telephone system. The system and distributing it through the territory paralleling the New York Central RR. from Lackawanna to Syracuse. The Scretery of War has given us a permit to obtain from the Ontario Power Co. of Niagara Falis and bring into the United States 60,000 h.p., and said company has confracted to deliver this amount of power to us. The generating plant of the Ontario Power Co. has a present capacity of 68,000 h.p., and is designed for the ultimate generation of 200,000 h.p.,

for which the company has duly authorized water rights. Construction work is now in progress which will make the capacity of the plant 114,000 h.p. before the close of the present year. Horse-power solid and paid for, showing growth of business: December 1007, 18,543; December 1008, 32,477; December 1909, 50,678. It is expected that the sales in 1910 will average 55,000 h.p., producing net earanize of about \$425,000, or \$175,000 more than the annual int. on bonds. See further particulars in V.88, p.1317, and late earns, in V. 90, p. 306, 171

Niagara Falls Power Co.-Report.-For calendar year:

Reports and Documents.

E. I. DU PONT DE NEMOURS POWDER COMPANY.

ANNUAL REPORT FOR THE FISCAL YEAR ENDING DECEMBER 31 1909.

To Stockholders of E. 1. du Pont de Nemours Powder Co.: Gentlemen—The 108th year of our history has brought to us a larger volume of business than that of the year pre-ceding, though the record of the year 1907 has not been reached. However, as in the year 1908, we have been able to increase profits through the continuance of a better or-ganization and system than we had been able to develop in the earlier period. The economies introduced after the panic of 1907 have continued to bear fruit, and as new ex-penditures were considerably curtailed, our increase in profits has been accompanied by a very large increase in eash balances. Though the profits of the Company have increased during the year, we believe that they are far from being unduly large. Since the reorganization of our Com-pany in August 1903, we have re-invested in new factories and in the general development of business the substantial sum of \$13,\$11,908 85, as shown on the balance sheet. In addition to this, the property has been further increased through the sale of \$3,437,000 common stock. This large increase in investment, aggregating \$17,248,908 85 (an amount equal to approximately \$6150 on each share of common stock now outstanding), is entitled to a proper re-turn, which is not extravagantly represented in the increase of earnings from \$4,438,701 in the year 1904 to \$5,984,159 in the year 1909.

of earnings from \$4,438,701 in the year 1904 to \$5,984,159 in the year 1909. Owing to the contraction of business during the years 1908 and 1909, enlargement of plant capacity has been curtailed during this period but the improvement, both present and prospective, in the business, has justified a resumption of our general policy of providing for the necessary increase of our capacity, and we have developed plans for such additional installations as will cover the immediate future requirements of the business. In the meantime we have not hesitated to abandon and write off such parts of our investment as have become antiquated or badly situated with respect to trade. The depreciation fund accumulated for this purpose has been quite sufficient. Our funds for insurance against accident and losses of various kinds have more than met the require-ments of the year. The suit of the United States Government against our

ments of the year. The suit of the United States Government against our Company on account of alleged violations of the Sherman Anti-Trust Law still continues. The Government has closed its side of the case, but in order to refute the allegations against us it has been necessary to call a great number of witnesses to testify in our behalf. Several months must yet clapse before a final decision can be made by the courts. As will be seen by inspection of the balance sheet, the current liabilities of the Company remain at a minimum, while the working capital, including cash balances, has ma-terially increased during the year.

The number of stockholders of the Company has increased as shown below:

as shown below: ^{1909-1,335}, of whom 524, or 39%, are employees. ¹⁹⁰⁸⁻⁹⁵⁵, of whom 250, or 26%, are employees. ¹⁹⁰⁷⁻⁸⁰⁹, of whom 218, or 27%, are employees. ¹⁹⁰⁷⁻⁸⁰⁹, of whom 218, or 27%, are employees. It is gratifying to note the substantial interest the em-ployees are taking in the Company, as illustrated in the fore-going figures; the result must tend to promote the general welfare of the Company. Last year the directors of the Company recommended offering to the employees of the Company 2,000 shares of preferred stock (or common stock at the option of the sub-scriber). This plan was promoted with a view of further interesting our employees in the Company's welfare. The entire number of shares was subscribed and many payments have been made in advance of amounts required by the Com-pany. The second offer of 2,000 shares of stock was made in December 1909, and was somewhat oversubscribed; the price at which the stock was offered being substantially that paid for it by the Company in the open market. The result has been a considerable increase in the number of our stock-holders. holders

holders. In addition to the above plan, the Company has continued for several years the practice of distributing shares of com-mon stock to worthy employees in the way of bonus. We believe that this plan has great value in properly rewarding exceptional merit in cases not calling for increases in salary. The Company also maintains a system of pensioning em-ployees who have become disabled or who have reached ad-vanced age. This plan thereby provides a means of retiring those who, through no fault of their own, have ceased to be able to serve the Company. We believe that the above-mentioned plans for caring for our employees are of substantial value to the Company and assist materially in obtaining a personnel in our operative force which will insure future success. During the year the Company has paid regular quarterly

During the year the Company has paid regular quarterly dividends of 14% on the preferred stock, while the dividend to the common stockholders has been increased to 2% quarterly. The dividend record for the common stock is as follows: $1904 \\ 1905$ - 5% 1906 ------ 63% 1906 ------7% -35% 1907 ------7% 1909 -----7%%

The total amount of our accumulated surplus, as shown on the balance sheet, namely, \$13,811,908 85, represents earnings re-invested in the business since Aug. 1 1903. Dur-ing the same period the total dividend disbursements equaled \$14,320,548 40, approximately 51% of our net re-ceipts after paying interest on the funded debt. Bearsetfully submitted Respectfully submitted.

T. C. DU PONT, President.

 Yuah Consolidated Mining Co.

Utah Consolidated Mining Co., Boston.—Dividend Sus-pension Recommended.—President Urban H. Broughton, in a circular, says in brief:

Approximately one-half of the dividends declared in 1908 came out of accumulated surplus. The values in the ore treated in 1909 were lower than in 1908, so that by far the greater part of the dividends declared in 1909 was also out of accumulated surplus.

The surplus has now been encroached upon to such an extent that I con-sider it advisable to recommend to the directors that dividends be suspended until the benefits from the new smelting contract, which will be in force in a few months, are obtained. There is no lack of ore of approximately the grade treated in 1909, and this ore, under the new smelting contract, with copper at the same price, will return between \$500,000 and \$400,000 per year additional carnings.—Compare V. 88, p. 948.

Western Union Telegraph Co.—New General Manager.— Belvedere Brooks, General Superintendent of the Eastern Division, has been elected General Manager of the entire system, succeeding President Robert C. Clowry. Mr. Clowry still retains his position as President of the com-pany.—V. 90, p. 241.

Wilmington (Del.) Gas Co.—Initial Dividend on Preferred. —An initial semi-annual dividend of 3% on the \$1,000,000 6% cumulative pref. stock has been declared payable Mch. 1 to stockholders of record Feb. 21. See statement of com-pany In V. 89, p. 781.—V. 90, p. 379.

-Investors can purchase \$100,000 or any part of Spokane International Railway Co. bonds due 1955 at a favorable price from Pouch & Co., members N. Y. Stock Exchange, corner Wall and Nassau streets. The Spokane International Ry. (of the Canadian Pacific system) is covered by a closed first mortgage on mileage forming part of the Canadian Pacific trans-continental service between St. Paul, Minn., and Portland, Ore. This security is listed on the N. Y. Stock Exchange. The bond department of William P. Bentwickt & G.

—The bond department of William P. Bonbright & Co. has prepared for distribution a very complete circular, giv-ing particulars on a number of selected hydro-electric com-panies, the first mortgage bonds of which the firm offers at prices to yield the investor from 5.30% to 6.50%. Prices and further information will be furnished upon application made to the main office, 24 Broad St., or at the firm's Lon-don office, 16 George Street (Mansion House).

The attention of investors is called to the exceptionally choice list of investment securities being offered on another page by the banking house of William A. Read & Co. Some of the issues are tax-exempt in New York and Pennsylvania. Full details will be furnished upon application to any of the firm's offices.

—Colston, Boyce & Co., 7 North Caivert St., Baltimore, are distributing copies of their pamplilet on the Consolidated Gas Electric Light & Power Co. of Baltimore and its subsid-iary companies, including the Baltimore Electric Co. The firm has spent some time in gettingthis information complete and correct

-Roger W. Babson of Wellesley, Mass., the statistician, left this week for Europe on the Cedric to study the English political situation and the Paris disaster. While in London Mr. Babson will give one or more lectures at the London Uni-versity on economic problems.

-Messrs, Ackermann & Coles, 20 Broad St., New York, have issued the ninth annual number of their pamphlet on the banks and trust companies of this city. The book is replete with statistics regarding these institutions.

-The old-time banking firm of A. M. Kidder & Co., members of the N. Y. Stock Exchange, announces its re-moval from 18 Wall St. to the fifth floor of the Hanover Bank Building, 5 Nassau St., this city.

-A descriptive booklet on "Hudson River Tunnels" will be sent by Pouch & Co., Wall and Nassau streets, city, to all inquirers who write for pamphlet "J."

Allen Dean Converse, who has been connected with the banking house of William P. Bonbright & Co. as sales manager, is now associated with Bigelow & Co., 49 Wall Street.
 Baillie, Wood & Croft are distributing their annual compilation of the capitalization, earning power and quotation record of active Canadian securities.

-Curtis & Sanger, 38 Wall St., are advertising on another page a list of banks, to which the attention of investors is invited.

The Commercial Times.

COMMERCIAL EPITOME. Friday Night, Feb. 18 1910. Notwithstanding the check to speculation, general trade makes quite a favorable exhibit as compared with recent years, if we apply the test of bank exchanges and railroad carnings. At the same time a spirit of conservatism domi-nates all branches of business. Money is cheap and imports are large. Though pig iron is quiet, finished iron and steel is more active. LARD on the spot has cheap

is more active. LARD on the spot has advanced, owing to a rise in hog quotations at the West, an advance in lard futures, moderate offerings and some increase in the demand. Prime Western 13.25c., Middle Western 13.15c. and City steam 127sc. Refined lard has also advanced, owing mainly to the strong hog situation. A somewhat larger business has been re-ported of late. Refined Continent 13.60c., South America 14.10c. and Brazil in kegs 15.10c. The speculation in lard futures at the West has been active at an advance. Strength-ening factors have been a rise in prices of live hogs, the ac-tivity and advance in the grain markets, buying on a large scale by prominent packers, investment purchases by com-mission houses and some increase in the spot demand. DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

SUGAR. —Raw has been firmer and more active. Centrifugal, 96-degrees test, 4.17c.; muscovado, 89-degrees test, 3.67c., and molasses, \$9-degrees test, 3.42c. Refined has been quiet and steady. Granulated 4.95c. Spices have been firm and more active. Teas have been firm with a moderate trade. Wool quiet and firm. Hops dull and steady. Trade has been dull. Crude has developed further weakness and consumers of refined have held aloof from the market in expectation of some decline in prices. Refined, barrels 7.90c., bulk 4.40c, and cases 10.30c. Gasoline has been quiet and steady; 73@76-degrees, in 100-gallon drums, 18¼c.; drums \$8.50 extra. Naphtha has been quiet and steady; 73@76-degrees, in 100-gallon drums, 163¼c.; drums \$8.50 extra. Naphtha has been quiet and steady; 73@76-degrees in the demand for leaf for manufacturers in the not distant future. Havana and steady: common to good strained \$4.50.
TOBACCO. —The market for domestic leaf has presented no new or interesting features during the week. The attitude of the trade is a waiting one. There is a belief in many quarters that there will be an increase in the demand for leaf for manufacturers in the not distant future. Havana and Sumatra have been quiet and surplus stocks are large. Lake 135/6(13½c., electrolytic 13½c.). The has been more active and firmer; spot 33%c. Iron has been rather easy, though without important changes in prices. Sales for early delivery have continued small. More interest is displayed in the market by consumers for delivery in the second and third quarters of the year. No. 1 Northern \$18.50@

COTTON

Friday Night, Feb. 18 1910. THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 101,339 bales, against 81,326 bales last week and 62,982 bales the previous week, making the total receipts since Sept. 1 1909 5,879,297 bales, against 7,911,638 bales for the same period of 1908-09, showing a decrease since Sept. 1 1909 of 1,932,341 bales.

Speculation in cotton for future delivery has been quiet and prices have declined rather sharply. The fall was due largely to slowness of the spot trade on this side of the water and reports of a decreased demand in Liverpool. Also, however, speculation has been sluggish and long liquidation by discouraged holders has contributed to the decline. The investigation at Washington of the present system of trading in cotton futures has, moreover, assumed a phase which has aroused increasing interest, if not a certain degree of dis-quietude at New York. Lancashire spinners, members of the Federation, using American cotton, have decided unani-mously to continue short:time until April 26, and it is said that 4,000,000 spindles outside the Federation will co-operate in this agreement. The outside public still holds aloof from that 4,000,000 spindles outside the Federation will co-operate in this agreement. The outside public still holds aloof from the speculation. Some rain as well as sleet and snow has fallen in Texas. The impression, too, is widespread and deep-seated that the next acreage will be of unprecedented size and that unless the plant should meet with some very serious set-back the next crop may conceivably be a very large one. The May premium, moreover, which was recently 24 points over July, has latterly shrunk to as low as 5 points. This has given rise to discussion as to whether there is any serious intention of attempting a squeeze in the May option. The New Orleans market has been noticeably weak at times and this fact has had not a little to do with the depression at New York. Some unfavorable reports about the condition of the yarn trade have certainly not tended to help matters. serious intention of attempting a squeeze in the May option. The New Orleans market has been noticeably weak at times and this fact has had not a little to do with the depression at New York. Some unfavorable reports about the condition of the yarn trade have certainly not tended to help matters. Liverpool, which was recently a steady buyer here, has latterly at times sold to some extent. Certain prominent spot interests have icen sellers to some extent of May and July. Also New Orleans and the Southwestern element, which has been prominently identified with bull speculation this season and which recently appears to have renewed purchases, has of late, according to the common under-standing, been selling to some extent. Yet supporting orders from time to time and the undoing of Liverpool straddles have seemingly prevented the price from reaching a lower level than it might otherwise have done. Also, there has been some huying by large spot interests on the waydown. The receiptis have continued small. Western dry goods reports have been more favorable. Texas is said to need copious rains. Spot holders at the South have in many cases resisted any downward tendency of prices. Wall Street houses have in some cases been disposed to buy on declines. Liverpool people have also hought of late. English stocks are steadily decreasing and spot sales, if not so large as those of last week, have continued to be liberal. The certificated and work is diminishing. It is of good quality and is controlled by prominent interests. Prices for cotton, it is very generally believed, must be fixed for the rest of the season by the natural working out of the law of supply and demand rather than by speculation. To-day prices ad-vanced slightly early on higher cables, light receipfs and bying by spot interests and Liverpool. Later there was a decline on dull spot markets at the South, smaller spinners' takings for the week, selling by spot interest and room traders and liquidation. Spot eotton has beeen quict. Middling upland closed at

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thurs-day evening. But to make the total the complete fig-ures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

Continental imports for the past week have been 135,000 bales.

The above figures for 1910 show a decrease from last week of 66,873 bales, a loss of 915,988 bales from 1909, a decline of 148,796 bales from 1908, and a decrease of 887,-690 bales from 1907.

THE CHRONICLE

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week and since Sept. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period for the previous year—is set out in detail below.

Total, 33 towns	Butfaula, Montgomery, Selma, Helena, Little Bock, Albeny, Atlanta, Augusta, Columbus, Macon, Bonne, Columbus, Macon, Sineverport, Columbus, Greenwood, Ore

WEATHER REPORTS BY TELEGRAPH .- Advices to us by telegraph from the South this evening indicate that rain has fallen in most districts during the week, with the precipitation light in Texas but above normal in portions of the Atlantic and Eastern Gulf States. Snow is also reported in some localities. Wet weather is said to have hindered crop preparations to some extent.

Galveston, Texas.—There has been sleet and rain on one day of the past week, the rainfall reaching eight hundredths of an inch. The thermometer has averaged 45, ranging 24 to 66. from

from 24 to 66. Abilene, Texas.—We have had a trace of rain on one day during the week. The thermometer has ranged from 12 to 82, averaging 47. Corpus Christs, Texas.—We have had light rain on one day of the past week, the precipitation being one hundredth of an inch. Average thermometer 50, highest 74, lowest 26. Fort Worth, Texas.—We have had rain on one day during the week, the precipitation reaching fourteen hundredths of an inch. The thermometer has averaged 44, the highest being 78 and the lowest 10. Palestine, Texas.—There has been light rain on two days of the week, the precipitation being thirteen hundredths of an inch. Thermometer has averaged 42, highest being 72 and lowest 12. San Antonio, Texas.—Rain has fallen on one day of the

and lowest 12. San Antonio, Texas.—Rain has fallen on one day of the week, to the extent of one hundredth of an inch. Average thermometer 49, highest 80, lowest 18. Taylor, Texas.—We have had light rain on one day during the week, to the extent of ten hundredths of an inch. The thermometer has averaged 45, the highest being 74 and the lowest 16. lowest 16.

Now Orleans, Louisiana.—We have had rain on one day during the week, the rainfall reaching one inch and six hun-dredths. The thermometer has averaged 53.

dredths. The thermometer has averaged 53. Shreveport, Louisiana.—Rain has fallen on two days of the week, the rainfall being two hundredths of an inch; also a snowfall of three inches on one day. The thermometer has ranged from 22 to 72, averaging 47. Vicksburg, Mississippi.—We have had rain on three days of the past week, the precipitation being two inches. Aver-age thermometer 45, highest 72, lowest 19. Helena, Arkansas.—There has been rain, snow and sleet on three days of the week, the precipitation reaching one inch and thirty-two hundredths. The thermometer has averaged 28.2, the highest being 65 and the lowest 10. Little Rack, Arkansas.—There has been rain on four days the past week, the rainfall reaching seventy-six hundredths of an inch. The thermometer has averaged 37, ranging from 10 to 64.

10 to 64.

Memphis, Tennessee.—There has been rain and snow on three days during the week, with precipitation to the extent of one inch and fourteen hundredths. The thermometer has ranged from 17.6 to 64.7, averaging 35.1. Mobile, Alabama.—There has been rain on four days of the past week, the rainfall being two inches and ninety-three hundredths. The thermometer has ranged from 34 to 66, averaging 50. Monigomery, Alabama.—Rain has fallen on two days of the week, to the extent of two inches and thirty-nine hun-dredths. Average thermometer 46, highest 73, lowest 25. Selma, Alabama.—Rain has fallen on three days during the week, the precipitation reaching two inches and forty-five hundredths. The thermometer has averaged 43.5, the high-est being 72 and the lowest 23. Savannah, Georgia.—We have had rain on two days the past week, the precipitation being thirty-five hundredths of an inch. The thermometer has ranged from 30 to 72, averaging 51.

an inch. The thermometer has ranged from 30 to 72, averaging 51. Charlotte, North Carolina.—Weather too wet for farm work. We have had rain during the week to the extent of one inch and eighty-one hundredths. Average thermometer 41. history 69. Journet 17

41, highest 69, lowest 17. Charleston, South Carolina.—It has rained on two days during the week, to the extent of one inch and sixty-ninc hundredths. The thermometer has averaged 50, the highest being 70 and the lowest 29.

BRITISH MILLS EXTEND SHORT TIME .-At a meetby a unanimous vote to continue the short time running until April 26. Reports were also current that the owners of 4,000,000 spindles outside the Federation will co-operate in the matter.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market con-tinues quiet for yards and steady for shirtings. The demand for both home trade and foreign markets is improving. We give the prices for to-day below and leave those for pre-vious weeks of this and last year for comparison:

	1910.						1909.

Sol. Mon. Tues. Wed. Thurs. Fri. 11232 1125 11455 11455 11455 11455 September delivery in elevator day. 985, 985, 10035 994 995 Indian corn futures have advanced, owing mainly to the strength in wheat. This has led to investment buying by commission houses. Shorts have covered freely. More-over, there has been a larger demand for eash corn at the Western markets at some advance in prices. Country offer-ings have fallen off and the receipts, though larger than a year ago, are smaller than recently. On the other hand, cash interests in some cases have sold freely on the strong spots, though the selling has not been aggressive. It is said that the corn that was under snow in many sections is being gathered in good condition. To-day prices, after an early advance in company with wheat, weakened and declined on a set-back in wheat, selling by cash interests and profit-taking. DAILY CLOSING PRICES OF NO. 2 MIXED CORN IN NEW YORK.

THE DRY GOODS TRADE.

New York, Friday Night, Feb. 18 1910.

One of the most noteworthy developments of the week in textile markets was the substantial increase in the volume of business done by jobbing houses. In fact, the past few days were among the most active experienced in a long time of business done by jobbing houses. In fact, the past few days were among the most active experienced in a long time and formed a sharp contrast to the recent dulness. Special offerings at attractive prices, particularly the sale of a large quantity of dress goods by the H. B. Claffin Co. on Wednes-day, Thursday and Friday, accounted for much of the activity noted. Many buyers were present, and not only took advantage of the various "specials" but were in evi-dence in other departments and operated on a more liberal scale and apparently with more confidence than in weeks past. Staple domestic cottons, prints, white goods, &c., were well patronized, especially summer lines of wash fab-rics, while a much better business was reported in ready-to-wear merchandise, retailers who have been holding off showing a disposition to stock up, though in a conservative way, in made-up lines. The Clafin sale attracted much attention; buyers from many sections, including jobbers, ratailers and cutters, were present, and the offerings, which included plain and fancy serges, batistes, panamas, diag-onals, suitings, voiles and various other fabrics below regular prices, were readily disposed of. Conditions in the primary cotton goods market remained practically unchanged. A little broader inquiry and business developed, but transac-tions were of moderate size. In the print cloth and gray goods divisions most of the orders were to cover immediate or near-by needs of printers and converters. The latter con-tinued to press for concessions on contracts and are seemingly ready to operate for the future on a basis close to spot prices. tinued to press for concessions on contracts and are seemingly ready to operate for the future on a basis close to spot prices. On gray goods of certain constructions some mills are said ready to operate for the future on a basis close to spot prices. On gray goods of certain constructions some mills are said to have granted concessions in order to move large lots at once; on contracts, however, manufacturers generally are firm, owing to the continued high cost of the staple. Lines of plain staple hosiery for fall were opened at prices about 7c, to 10c, a dozen higher than a year ago, selling agents apparently following the policy adopted in other quarters of making only moderate advances. The new prices are said to be very close to costs. An important development was the action of Fall River operatives in voting to withdraw from the existing wage agreement and to propose to the manufacturers an amended form of sliding-scale agreement which, it is reported, amounts practically to an increase in wages. The present agreement expires in the latter part of May. The result of the negotiations is now uncertain, although indications point to a further curtailment if opera-tives demand better terms and conditions in the primary market do not improve. The men's wear market showed considerable irregularity; in some quarters certain lines con-tinued to move well, but elsewhere business was slow, notably on fancy piece-dyed worsteds. In dress goods an active and somewhat broader demand was reported. DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending Feb. 12 were 3,047 paekages, valued at \$286,101, their destination being to the points specified in the tables below:

Japan.—Bond Offering.—Subscriptions will be received by the Yokohama Specie Bank, Limited, 55 Wall Street, New York City, for the new 4% refunding loan of 100,000,000 Yen. Lists will be closed in Japan on February 25, the allotment to be announced on March 5.

allotment to be announced on March 5. Foreign holders of Japanese Internal 5% bonds who desire to avail themselves of the offer of conversion may do so under the following terms 5% bonds accepted for conversion may do so under the following terms 5% bonds accepted for conversion are limited to internal issues. 5% bonds accepted for conversion are limited to internal issues. 5% bonds accepted for conversion are limited to internal issues. 5% bonds accepted for conversion are limited to internal issues. 5% bonds accepted for conversion are limited to internal issues. 5% bonds accepted for conversion are limited to internal issues. 5% bonds accepted for conversion are limited to internal issues. 5% bonds accepted for conversion are limited to internal issues. 5% bonds accepted for conversion are limited to internal issues. 5% bonds accepted at en 100.75 cash for each yen 100 face value (March coupon off). These bonds on which the semi-annual coupon matures on the first of june to be commuted at yen 102 cash for each yen 100 face value. The smallest denomination of the new 4% bonds may for make in eash, payable as follows: 5 yen on application, 20 yen on March 15, 20 yen on April 1 and 50 yen on May 2. Any premium over the minimum price of 95 yen should be malt together with the second installment. The priority will be given primarily to applications for conversion of 5% bonds. In case of over-subscription, allotment will be made to the highest bidders until the amount of issue is apportioned. Therest on the new honds is payable in Japan, coupons being due June 1 and Die 1. Bond to run for 60 years, redeemable at par, with the option to the Japanese Government to redeem all or any after ten years from the date of issue. Park County (P. O. Cody), Wyo.—Formation of County

date of issue. **Park County (P. O. Cody), Wyo.**—Formation of County Declared Legal by State Supreme Court.—The State Supreme Court upholds the Act passed by the last Legislature (Chapter 19, Laws of 1909) creating the county of Park out of the northwestern portion of Big Horn County. The decision is the result of a suit brought by the Commissioners of Big Horn County to restrain the Commissioners of the provisional county from certifying the returns from a special election held for the purpose of ascertaining the sentiment of residents within its boundaries in regard to the organiza-tion of the new county. tion of the new county.

Pittsburgh, Pa.—Litigation.—Injunction proceedings were commenced in the U.S. Circuit Court on Feb. 14 to prevent the issuance of the \$6,775,000 bonds voted at the last general election. See V. 90, p. 254. The action is brought by F. H. Kerr of Steubenville, Ohio, and A. E. Anderson of Pitts-burgh for Sarah Chostkov of Steubenville, who owns property in Pittsburgh. The petition asserts that the ordinance providing for the bond election.

bin Pittsburgh.
The petition asserts that the ordinance providing for the bond election untawfully directed that several questions should be submitted to the orders as one, thereby depriving the electors of their "right" to vote on the questions separately, and that the ballots used at the electors were so printed as to prevent the electors from expressing their assent to or dissent from the different propositions therein contained.
The claim is made that the improvement of the "hump" will cause as 3,000,000 damages to property in addition to the cost of the the propositions therein contained.
The claim is made that the improvement of the "hump" will cause as a solution of the property in the clay is the petition that the assessed taxable valuations of property in the cly is, the petition that the clay is bonding power, without first taking a vote of the people, amounts to only \$013,914. It is asserted that for that reason the item of \$3,000,000 damages cannot be paid legally.
It is asserted that the proposed changes of street grades in the hump district are not a lawful municipal improvement, for the reason that the pump would not be removed, but that the grade would be reduced from a 7 per cent to a 5 per cent grade, which result is declared to be hisgalificant and out all proportion to the cost and expenses of the work.
The petition charges that the board of city assessors is likeally contained. Any period of the cost of the vort.
The petition charges that the board of city assessors is for the assessors in a satisficant and batting. Theorem C. Mahon, William G. Mannhag, John G. Hastings, Joseph P. McKee and Edward J. McIvaine have not lived in Pitsburgh the 10 years required by the statute, and that the tassessors in assessing property acted on fanctification during that the the second status.

assessing property acted on fanciful and unlawful theories. **Texas**.—Question of Validity of Bonds Issued by County Line School Districts Decided by Attorney-General.—In giving his opl ion on Feb. 4 as to the validity of bonds to be issued by the Mart Independent School District, the Attorney-General decides an important question affecting school districts w ose boundaries include part of two or more counties. The case just decided is outlined as follows in the "Houston Post" of Feb. 5: Austin Texas Feb. 4.—Attorney-General Lightfoot to-day gave an

of Feb. 5: Austin, Texas, Feb. 4.—Attorney-General Lightfoot to-day gave an opinion in the Mart school matter settling a question of considerable mo-ment. The town of Mart is in an independent school district in which is included portions of Fails, McLennan and Limestone counties, which dis-included portions of Fails, McLennan and Limestone counties, which dis-included portions of Fails, McLennan and Limestone counties, which dis-independent school district case. The town of Mart, which had incor-porated subsequently to the creation of the Mart Independent School Dis-trict uson the handing down of thedeclaton in the Mertens are assumed the control of its schools and levied a tax to run them as well as to provide for a sinking fund and the payment of interest on an outstanding bond issue of the district. In the meantime a constitutional amendmeat was adopted walldsting all county-line school districts affected by the decision in the Mertens case. Recently the Mart school house was destroyed by fire and in endexording to provide for its reconstructions the torn authorities came face to face with the fact that the constitutional halt of taxation had been reached by them and that they were at this time without authority to create a new debt for the replacing of the destroyed building. The matter having been laid before the Attorney-General he held that the constitutional amendment validating county line districts places the duart district right where it was before the Mertens decision was rendered; that is, in control of the Mart schools. Under this decision the district, with this money the outstanding indebtedness of the district, with the district, with this money the outstanding indebtedness of the district. The matter having been the burned building reverses to the district, with this money in outstanding indebtedness of the district of the district. With this money in outst to secure funds with which to build a new schoolhouse. The mentenion it is interesting to note that th

schoolhouse. In this connection it is interesting to note that the county-line districts validated by the amendment in question are now constitutional districts— that is, their boundaries can not be changed nor their organization ex-tinguished except by constitutional amendment; as no power to do either is conferred upon the Legislature in the amendment that validates them.

Industred upon the Legislature in the amendment that validates them. Is conferred upon the Legislature in the amendment that validates them. The constitutional amendment referred to above which validated those districts having within their limits territory situated in two or more counties was given in full in the "Chronicle" of May 22 1909, page 1329. Attorney-General's Opinion as to Power of Counties to Issue Warrants for Court House and Jail.—The Tax Assessor of Chambers County recently requested the Attorney-General's Department for an opinion as to whether the County Com-missioner's Court is authorized "to issue interest-bearing

warrants to build a court house and jail; or must an election be held and bonds issued for the construction of such build-ings?" The answer to this inquiry is written by J. T. Sluder, Assistant Attorney-General, and expresses the opinion that a county has the power to issue interest-bearing warrants for the purposes in question without submitting the matter to a vote. It is pointed out that the law allows either the issuance of warrants or bonds for the erection if court houses and jails, but provides that the question 1 issuing bonds shall be ratified by a majority of the vot at such an election. No such provision, it is said, exi with reference to the issuance of warrants. Willow Warsh Drainage District, Jefferson Gounty, Tex.—

With reference to the issuance of warrants. Willow Marsh Drainage Diskrict, Jefferson County, Tex.— Litigation.—Mandamus proceedings were commenced Feb. 5 in the Sixtieth District Court by R. W. Gallier, representing the Willow Marsh Drainage Commissioners, to compet the County Commissioners to issue bonds voted by the district and levy a tax for the payment of the same. An issue of \$60,000 bonds of this district was offered for sale on Nov. 14 1908. See V. 88, p. 119.

Bond Calls and Redemptions.

Galveston, Tex.—Bond Call.—Interest will cease on March 17, on "General Indebtedness Funding Bonds of 1895 of the City of Galveston", issued in 1895 and numbered 36, 38, 39, 40, and from 43 to 86 inclusive. They are in denominations of \$1,000 and will be redeemed at the City Treasurer's office, or at the option of the holder, at the fiscal agency of Galveston in New York City.

Bond Proposals and Negotiations this week 14.26 been as follows :

Albany-East Albany, Ga.-Annexation.-The voters of East Albany on Feb. 5 voted in favor of annexation to the city of Albany

Allegheny County (P. O. Pittsburgh), Pa.—Bonds Author-ized.—The County Commissioners have authorized the issu-ance of \$300,000 4% 20-year poor-farm bonds. These securities are in addition to the \$100,000 bonds authorized some time ago for the same purpose. We are informed that the entire issue will probably be disposed of to the Sinking Fund Commission and it is not likely that it will be adver-ticed the same. tised for sale.

Aliquippa School District (P. O. Aliquippa), Beaver County, Pa.—Bonds Voted.—The election held Feb. 15 re-sulted in favor of the proposition to issue the \$45,000 412% school-building and equipment bonds mentioned in V. 90, p. 249. The vote was 92 "for" to 59 "against."

Altoons, Pa.—Bond Election.—An election will be held in April to vote on the question of issuing \$250,000 bonds.

April to vote on the question of issuing \$250,000 bonds. Analey School District No. 44 (P. O. Ansley), Custer County, Neb.—Bond Not Sold.—No satisfactory bids were received on Feb. 10 for the \$17,000 $4\frac{1}{3}\frac{6}{20}$, 20-year coupon school-building and equipping bond described in V. 90, p. 249. We are informed that the loan "will now be offered privately or handled by local parties."

privately or handled by local parties." Atlants, Ga.—Bonds Voted.—The election held Feb. 15 resulted in favor of the propositions to issue the following 41% bonds mentioned in V. 90, p. 459. \$1,350,000 sewer bonds. Maturity part yearly on Jan. 1 from 1911 to 1940 inclusive. 900,000 water works extension bonds. Maturity part yearly on Jan. 1 from 1911 to 1940 inclusive. 600,000 school-building and lot purchase bonds. Maturity part yearly on Jan. 1 from 1911 to 1940 inclusive. 100,000 Grady Hospital extension bonds. Maturity 30 years. 50,000 crematory plant and lot purchase bonds. Maturity 30 years. We are advised that there were 8.475 yotes cast "for"

We are advised that there were 8,475 votes east "for" the bonds and 66 "against."

the bonds and 66 "against." **Barre, Vt.**—Bond Offering.—Proposals will be received until 7 p. m. Feb. 24 by James Mackay, City Treasurer, for \$40,000 4% coupon school bonds. Denomination \$1,000. Date Sept. 1 1009. Interest semi-annially at the City Treasurer's office. Maturity 55,000 yearly on Sept. 1 from 1912 to 1919 inclusive. Bonds will be certified as to genulencess by the City Trust Co. of Boston, which will urther certify that the legality of the lisue has been approved by Ropes, Gray & Gorhan of Boston, a copy of whose opinion will be delivered without charge to the purchaser. **Bartow County (P. O. Cartersville), Ga.**—No Action Yel Taken.—We are informed under date of Feb. 12 that no action has yet been taken looking towards the issuance of the \$200,000 bonds mentioned in V. 90, p. 122. **Basin, Bighorn County, Wyo.**—Bond Sale.—An issue of \$25,000 6% 15-30-year (optional) water-works bonds has been disposed of at private sale. Burgess & Co. of Toronto. The former issue matures part yearly for twenty years while the latter issue matures part yearly for thirty years.
Strassburg, Sask.—Debenture Sale.—Nay & James of Regina were the successful bidders on Jan. 31 for the \$2,800 6% coupon public-park debentures described in V. 90, p. 325. Maturity part yearly on Jan. 1 from 1911 to 1930 inclusive.

inclusive.

inclusive. Vancouver, B. C.—Bid Repected.—An offer of 98 1-8 made by Geo. A. Stimson & Co. of Toronto for \$2,207,900 4% 40-year debentures was recently declined by the City Council. The debentures bid for include the issue of \$1,075,000 for the Cambie Street Bridge and water extensions and the various issues voted on Jan. 13. See V. 90, p. 325. It is said that one of the principal reasons for refusing the offer was that the City Comptroller desired to deal with the utmost fairness with all the dealers, to many of whom he had stated that the sale would come on later.
