Southern Wisconsin Power Company

First Mortgage 5% Sinking Fund Gold Bonds

Dated October 1, 1908. Due October 1, 1938. Interest Payable Semi-Annually. Coupon Bonds of \$1,000 Denomination.

The Southern Wisconsin Power Company owns and operates an hydro-electric power station located on the Wisconsin River at Kilbourn, Wis., with a generating capacity of 10,000 horse power, together with duplicate high-tension transmission lines from Kilbourn to Watertown, Wis., a distance of 70 miles. The entire physical property is of the most modern type of construction and of the highest standard of operating efficiency.

Contracts have been entered into for practically the entire electrical output of the company's plant. The principal contract is with the Milwaukee Electric Railway & Light Company of Milwaukee, Wis., for a period of 25 years, under which the Southern Wisconsin Power Company is assured a yearly revenue more than sufficient to pay operating ex= penses, fixed charges and bond interest, exclusive of the income it may receive from other sources. Mr. Daniel W. Mead, Chief Consulting Engineer of the company, estimates the net earnings for the year 1910 at approximately \$200,000, an amount equal to twice the interest on out= standing bonds.

Having sold more than \$1,000,000 of the above bonds, we offer the balance at a price to yield about $5\frac{1}{4}\%$ on the investment. Full descriptive circulars will be furnished on application.

The Corporation has issued and outstanding \$1,875,000 7% Preferred Stock, cumulative from January 1, 1910, and convertible at any time into Common Stock, and \$8,125,000 Common Stock. The Board of Directors has announced the first quarterly dividend of 13/4% on the Preferred Stock payable April 1, 1910.

The accounts of the Amalgamated Asbestos Corporation, Limited, were audited by Messrs. Deloitte, Plender, Griffiths & Company, of New York and London, and Messrs.

Mackintosh & Hyde of Montreal.

IMPORTANT FEATURES OF THIS ISSUE:

Net Earnings June 1 to December 1, 1909 \$348,161 67 Bond Interest for above period 187,500 00 \$160,661 67 12 Months' Net Earnings of Properties preceding merger \$550,961 83 Unfilled Orders January 1 1910, of value of

The Corporation owns and controls about 8,019 acres of land almost entirely situated in the vicinity of Black Lake and Thetford, from which districts the greater portion of the world's supply of Asbestos is now obtained. About 80 per cent of the output of these districts is controlled by this Corporation.

There is no known substitute for Asbestos, and the demand is constantly increasing. Present Stock Exchange prices for the shares of the Corporation and the equity in the bonds indicate a market equity following the bonds of more than \$4,600,000, which only in a small measure indicates the intrinsic equity behind this issue.

Payment of principal and interest guaranteed by Denver, Northwestern & Pacific Ry. Co. by endorsement on each bond

The Mercantile Trust Co., New York, Trustee.

Letter of David H. Moffat, Esq., President of the D. N. W. & P. Ry. Co., dated December 14, 1909, in which the following points are made regarding the security for these bonds, will be furnished on request:

- 1. A first and only mortgage on all the property of the Terminal Company now owned or hereafter acquired.
- 2. This property is located largely in the heart of the city of Denver, three blocks from Union Station, and adjoining the terminal properties of the Union Pacific, Chicago, Burlington and Quincy, Colorado and Southern and Denver and Rio Grande Railroads. On it are complete and adequate passenger and freight stations, storage, yards, etc., containing 5.56 miles of tracks.
- 3. Independent appraisers have determined the value of this property as real estate to be over \$2,500,000, or \$500,000 more than the outstanding issue of bonds.

(In addition to the value thus ascertained the proceeds of \$225,000 of the bonds now outstanding are held in trust to be expended on the property within next ninety days for permanent additions and betterments.)

- 4. The property is the last available railroad entrance into Denver, save at prohibitive cost.
- 5. Rentals paid by subtenants for leased privileges afford more than 50% of the interest charges on outstanding issue.

For first four months of current fiscal year, the Denver, Northwestern and Pacific Ry. Co. reports gross earnings \$407,205.38; net earnings available for interest \$164,138.14; surplus \$18,271.48

A large amount of above bonds having been sold, we offer the remainder subject to sale at 92 and accrued interest, to yield 534%, and recommend them as a safe and desirable investment.

OUR RAILWAY EARNINGS ISSUE.

We send to our subscribers to-day the February number of our "Railway Earnings" Section. In this publication we give the figures of earnings and expenses for the latest month of every operating steam railroad in the United States, big and little, which is required to file monthly returns with the Inter-State Commerce Commission at Washington—altogether over 800 roads or systems, comprising an aggregate of more than 230,000 miles of line.

THE FINANCIAL SITUATION.

More hopeful views have prevailed this week, and as a consequence the security markets have shown an improving tendency. As the previous despondency had been occasioned by political influences, so the present disposition to take a brighter view of things may be ascribed to political sources. A belief is growing that the program of legislation mapped out by President Taft will have to be greatly modified or at least be very much abbreviated before it can hope to find acceptance at the hands of Congress, notwithstanding the constant effort the President is making with Senators and Congressmen to spur them to action. The President himself shows no signs of wavering. At the Lincoln Day dinner of the Republican Club at the Waldorf-Astoria last Saturday night he expressed anew his determination to carry out all the policies with which the name of Mr. Roosevelt has become inseparably linked, though he did let fall a crumb of comfort in the statement that, inasmuch as the Republican platform on which he was elected had not specifically declared in favor of Federal Incorporation, he "did not feel justified in asking the adoption of such an Act as a party matter."

The circumstance, however, from which most encouragement is derived is that Congress does not appear to be altogether in a quiescent mood. Advices from Washington make it plain that there is hardly a feature in the President's legislative program that is not likely to meet with considerable opposition. Accordingly, when the newspapers print headlines saying "Taft Summons Senators and Congressmen," the matter is interpreted quite differently from what it was a short time since. Two weeks ago announcements of that nature were received with alarm as indicating the possible early enactment of the radical laws desired by the President. Now such announcements, accompanied by the statement that Mr. Taft is showing impatience over indifference to his program, are looked upon as freighted with favorable promise because suggesting a probability that the President may be thwarted in his purpose. Much encouragement is also derived from the masterly argument made by ex-Senator John C. Spooner Thursday night of last week at the annual dinner of the American Paper & Pulp Association. The ex-Senator is conceded by all to be one of the highest authorities in the country regarding Constitutional law. Hence his characterization of the Federal Incorporation bill as unconstitutional, carries deservedly great weight. Mr. Spooner said he could not believe that Congress had the power under the Constitution to create manufacturing corporations except in the District of Columbia and in the Territories. To be sure, the power to regulate commerce among the States is lodged with Congress

but it has long been a principle of law that no foreign corporation can go into a State except with the consent of the State.

Mr. Spooner pointed out that some of the largest of the corporations hail with delight the chance to organize under Federal authority. That is because they think it is a port of safety. "They see a chance to go into all the States whether the States want them or not." Continuing, he said: "There are corporations which Congress can create. They are instrumentalities of commerce, but where do you find anything in the Constitution which gives Congress power to create manufacturing corporations? When an article is manufactured in a State and remains in that State it is under the jurisdiction and the sovereignty of that State. It was never intended by the framers of the Constitution to give Congress supervision over all the business of the States. The integrity of this Government depends upon the sovereignty of the States and of the National Government. The dividing line between these should be maintained."

This is a view which Republicans and Democrats alike accepted as sound and incontrovertible until a short time ago, and very naturally it is felt that with such principles enforced by the Courts much of what is proposed by Mr. Taft would be void. A somewhat more assuring view regarding the application of the Anti-Trust law is also being taken for the time being. It seems to be thought now that an early decision in the American Tobacco Co. case, which involves interpretation of the statute referred to, is not likelythat the Court will not announce its judgment in that case until it also passes upon the Standard Oil case, and this latter has not yet been argued before the Supreme Court. Hence it is reasoned that considerable delay must ensue before an authoritative construction of the law comes from our highest tribunal. In the present mood and temper such delay is regarded with favor, since in the meantime further trust prosecutions under the Anti-Trust law will be held in abeyance.

The suggestion is also being ventured in certain quarters that possibly the Government may not after all come out altogether victorious in the Tobacco and Oil cases. It would occasion no surprise among the legal fraternity if at least in the Tobacco case the Government should suffer defeat in some or all of its contentions. On the whole, therefore, there have been, it will be seen, a number of circumstances tending to create a more hopeful frame of mind. Obviously some new move or unexpected announcement from Washington may at any moment change the whole aspect of things again and revive the feeling of fear and alarm which previously existed. For the present it is satisfactory to know that substantial basis exists, as pointed out above, for a greater feeling of confidence.

In suggesting consideration of the question whether abolition of the personal property tax as laid directly upon individuals in the present manner might not be advisable, Mayor Gaynor revives a thought that is old in the minds of many men. At one time, not many years ago, in making some alteration of the law on this subject, the Legislature inadvertently left out the provision for enforcing any penalty, so that it was safe

for persons who discovered the omission to pay no attention to the customary notices of assessment. Ordinarily, in cases where there is no specific repute of wealth and no record exists as a guide, a notice on the basis of \$10,000 is sent out to addresses taken at random from the voting lists or the directories. Some men whose occupation is as humble as that of driving delivery wagons and who are without property or expectation of any receive such a notice, and in a smaller number of instances the guess is probably as wide in the opposite direction.

In practice the person who really has or is willing to make affidavit to having either no assessable property or less than the amount guessed responds to the notice, while the one who confessedly has more accepts the proffered escape and leaves the assessment to stand confirmed. There are exceptions, of course, but the temptation is strong, and it is aided by the justifiable belief that the tax works unevenly and nobody pays who can dodge. A custom is likely to be taken as ethically admissible. The result is that this particular tax falls chiefly upon property which cannot be kept under cover.

In reply to the Mayor's question, the President of the Tax Board believes the persons who pay most of the real estate tax also pay a personal one, although it is impossible to speak positively. To the other question he replies that the personal tax has averaged in the last three years 41/2 millions annually, and its abolition would add 6 or 7 cents per \$100 to the real estate tax, now about \$1 67 in this borough. Dealing with things as they are, the question is one "of abandoning the small relic of the personal property tax now left," and he favors doing that. Outside of this city the entire personal assessment in 1908 was only 113 millions; in one city, with a real estate assessment of 29 millions, the entire personal assessment is \$175,000, and in many towns there is none at all. This officer believes the tendency of the personal tax is to drive away property and business, the presence of which would enhance the value of real estate. He deems it uneconomical, and it does not concur with two principles of taxation: that accuracy and nonevasion are prime requisites and that tax on real estate always diffuses itself. It is obvious that it would be a sensible course to abolish the tax.

In some respects, the most interesting of the cases upon which the Supreme Court is expected to pass next month, involving the validity of the Corporation Tax, is the Flint case from Vermont, and the "Sun" of this city has taken pains to investigate it. More than forty years ago the partnership firm of Tuxbury & Stone had a general store in the pretty village of Windsor. Some fifteen years ago, for reasons not important here, this concern split in two, Dwight Tuxbury & Sons and Stone, Tracy & Co., and thenceforward there were two stores side by side. Naturally, these two have carried about the same general lines of goods to this day and have been in brisk competition, with each alert to the practices and trade of its nextdoor neighbor.

Thus far, the case merely exhibits a somewhat unusual closeness of rivalry, and doubtless the customers of each have profited by the incentive to do the utmost for securing trade. But about ten years ago Stone, Tracy & Co. (also for reasons not important | net,£272,070 (\$1,324,038), after allowing for interest

here) incorporated under the laws of Vermont as the Stone Tracy Company, with a modest capital of \$20,000, while the rival store next door remained a simple partnership. Now comes the tax clause of the tariff law and declares that one store shall pay a tax on its profits if it has any, and shall also report the facts of its condition, to be a public record, in which the adjoining store, not being subject to either tax or inquisition, will naturally feel some interest. So Stella Flint, through Maxwell Evarts, her counsel, appeals for relief in the capacity of guardian for a young Stone. This discrimination is unfair, she avers; it is against the authority and dignity of the State of Vermont; and the result of it will certainly be to force the Stone Tracy Company into involuntary dissolution.

The "Chronicle" sought, last summer, to make every reader understand and appreciate, not only the other wrongs in this income tax, but the fact that it makes private business affairs matter of public record, exposing corporations to the interested curiosity of business rivals who may or may not happen to be incorporated. It should be noted, as we have repeatedly pointed out, that the language is mandatory; the information, when filed, is to be a public record, and therefore accessible to everybody, without inquiry into circumstances or reasons, though the President now lets it be known that unless Congress specifically appropriates \$50,000 for the purpose, he will be unable to give effect to the publicity feature.

Of course, this Vermont case is strikingly peculiarthat is all. The inequity in it is not greater because the rival concerns, one attacked and the other exempt, happen to be side by side instead of a thousand miles apart, since in respect to trade alertness and competition mere geographical distance does not count very heavily. But this is a concrete example which focuses the mind directly upon the natural workings of the discrimination, and the Justices of the Supreme Court cannot fail to be individually impressed by it, whatever line of decision they feel impelled to take upon the issue itself. As the date for filing reports approaches, the public impression of the unwisdom and inequity of this tax—itself only a rather clumsy device to relieve a political situation—has been growing clearer and deeper.

Cotton manufacturers in Great Britain this week determined to further extend the period of curtailment of production. At a meeting of the American section of the Federation of Master Cotton Spinners, held at Manchester (England) on Tuesday, it was decided unanimously to continue short-time running until April 26, and it was reported that owners of 4,000,000 spindles outside of the Federation will follow a like course. The expectation is that the short-time movement will result in defeating the efforts of those striving to hold cotton at a high level of cost.

It would seem to be of special interest in this connection to draw attention to the unsatisfactory results obtained by British manufacturers using American cotton in 1909. We have recently received a compilation covering returns from 100 companies in Oldham and elsewhere, and its purport is as follows: Those companies with aggregate capital of £3,426,534 (\$16,675,228) and running 8,395,630 spindles, lost,

on loans and depreciation of plant. In 1908, on the other hand, the same companies returned a profit of £586,511 (\$2,854,256), or 16% on the investment. Notwithstanding the loss sustained in 1909, dividends averaging 7\% were declared, reserve funds being drawn upon to the extent of £268,135 (\$1,304,879) for the purpose. It is worthy of note, moreover, in passing, that out of the last 26 years (1884 to 1909 inclusive) only seven have proven unprofitable, but none as much so as 1909. On the continent of Europe it is also to be noted that curtailment of production is operative at many points. South Germany spinners lately decided to continue short-time into the second quarter of 1910, and in Austria curtailment to the extent of 33%, instead of 16% as heretofore, is to be maintained for six months. These being the conditions of supply and demand, it is not expected that further efforts to bring about a further appreciation in the value of cotton can succeed.

The foreign export trade of the United States for January 1910, as indicated by the official statement issued this week, was of quite restricted proportions, exhibiting a decrease of 12\% millions of dollars from the month of last year and falling behind the total for the corresponding period of any year since 1905. While in all the leading articles for which advance figures are furnished decreases are shown, the most notable loss occurred in cotton. Due to the high price of that commodity, and the curtailment of production of goods now operative abroad, our shipments of cotton for the month reached only 491,632 bales, the smallest January aggregate, with three exceptions, (1882, 1886 and 1893) in the last thirty years. And the falling off this year did not follow a large outward movement earlier in the season; on the contrary the Sept.-Dec. inclusive export aggregate for 1909 was less than for either of the three preceding years. Even at the high price this year the value of the cotton sent out in January was only \$37,672,378, which compares with \$52,517,999 in 1909 and \$77,034,124 in 1908. In this one article, therefore, we have a decline of 15 millions of dollars from last year and 391/2 millions from 1908.

Breadstuffs shared in the loss in trade this year to the extent of $2\frac{1}{2}$ millions of dollars, the January 1910 total, in consequence of diminished wheat shipments, dropping to \$10,488,735, the lowest January result since 1895. The outflow of meat and dairy products, moreover, was only \$10,361,663, or 31/4 millions less than in January 1909, and, concurrently, a small decrease in cattle, sheep and hogs is to be noted. Furthermore mineral oil shipments exhibit a drop in value of 1½ millions of dollars from the total of a year ago. Combining these various leading export items, we have an aggregate of only \$66,512,067, a figure 22 millions lower than that for January 1909, nearly 621/4 millions less than in 1908, and in fact the lowest aggregate for the opening month of the year since 1900. In the total of all other commodities exported in January this year an increase of a little under 10 millions of dollars is recorded. For the month of January 1910 aggregate exports were \$144,015,350, against \$156,-712,842 in 1909 and \$206,114,718 in 1908, and for the seven months since July 1 1909 reached \$1,084,240,-825; comparing with \$1,031,750,776 for the same period in 1908-09 and \$1,189,090,551 in 1907-08.

Merchandise imports for January on the other hand exhibited a very important augmentation, standing at \$133,658,064, against \$103,576,501 in the month of 1909 and \$84,997,514 in 1908. Furthermore, the aggregate for the seven months ended January 31 1910 marked a new record for the period, having reached \$891,272,496, and contrasting with only \$697,499,433 for the like interval in the previous fiscal year and \$756,889,151 two years ago. The net result of our January 1910 foreign trade is a smaller export balance than in any year since 1893. In fact it reached only \$10,357,286, against \$53,136,341 in 1909 and \$121,117,204 in 1908—the record for January. For the seven months of 1909-10, also, the net export balance is comparatively small, falling behind any year from 1897-98 to 1908-09 inclusive. The balance, at \$192,968,329, compares with \$334,251,343 for the same period of 1908-09 and \$432,202,400 in 1907-08, the last named result standing next to the record of \$443,199,829 made in 1900-01.

Gold exports during the month were moderate, reaching \$6,163,132, and contrasting with \$7,865,356 in January 1909. The seven months' outward movement was \$75,209,616, against \$35,562,837 in 1908-09. Gold imports aggregated \$2,131,357 in January 1910, against \$3,420,183 in 1909, with the seven months' totals \$26,082,731 and \$27,288,580, respectively. On balance, therefore, we exported, net,\$49,126,885 in the seven months ended January 31 1910, this contrasting with \$8,274,257 net exports in the like period of 1908-09 and \$113,369,760 net imports in 1907-08.

Progress has again been reported this week by our State Department in arriving at tariff agreements with other countries. Japan, the Indian Empire, Aden (the British port on the Red Sea) and Malta (the British possession secured by the diplomacy of Disraeli) have been added to the list of countries entitled to minimum duties under the Payne Act of 1909. The granting of the lowest rates to imports from Japan has been hailed with deep satisfaction in that country, as the United States is one of her best over-sea customers; she sent us, according to her own figures, fully \$60,000,000 worth of merchandise in 1908, and bought from us less than \$40,000,000 worth, her exports of raw silk to this country alone exceeding her total imports of American goods. The agreement was formally announced throughout Japan on Wednesday, and, according to a dispatch from Tokio, "has been received by the commercial interests of the Empire with the liveliest satisfaction." One immediate result has been to assuage the resentment felt against the action of the Committee on Immigration of our House of Representatives in voting unanimously to report favorably the Hayes exclusion bill, which directly affects Japan; but this matter will come up for consideration later.

Neither Canada nor France has yet taken the steps necessary to qualify for admission to the most, favored, nation category. This week Finance Minister Fielding officially announced that Canada will not be included with Great Britain when that country is placed on the preference list, but he was careful to express the hope that the negotiations now under way will end amicably, so that Canada may obtain our minimum rates. The Washington authorities still preserve retisence on

this subject. No authoritative statement is forthcoming regarding the negotiations with France, concerning which there is widespread though not yet acute uneasiness among the mercantile classes of both countries. Advices from private sources, however, are encouraging; these state that substantial progress has been achieved and that the outlook for a friendly settlement of points still in dispute is much brighter than it was a month ago. A good deal, in fact almost everything, depends upon the willingness of France to stop levying upon imports from the United States her present maximum duties. One influential Parisian paper, in urging the Government to make no fresh concessions, shrewdly points out that "the political situation in the United States, the agitation over the high cost of living and the coming Congressional elections will prevent that country from risking a tariff war with France." The best opinion here is that a rupture will be averted.

The ceremonious opening of the Third Parliament of King Edward has been postponed until Monday next, when the Ministry may be able to adopt a definite course. This week's developments have been numerous, but not of conspicuous importance. The completed returns from the constituencies show the election to have resulted as follows: Liberals, 275; Conservatives, 272; Irish Nationalists, 82; Laborites, 40; Non-Partisan (Speaker of the House), 1. This gives the new Government a possible majority of 125, but, as was explained last week, there are splits among the Nationalists, the Labor Party is openly recalcitrant, not to say defiant, and Premier Asquith has a delicate task in placating the extreme wings of the Liberal-Radical combination. On the eve of Tuesday's brief assembly of the House for the purpose of swearing in members, &c., the following Cabinet appointments were announced: Secretary for the Home Department, Winston Spencer Churchill; President of the Board of Trade, Sydney Buxton; Chancellor of the Duchy of Lancaster, J. A. Pease; Postmaster-General, Herbert Louis Samuel. The brevity of the list is suggestive of the acute uncertainty that prevails among the Ministerialists regarding the duration of their administration. J. A. Pease, who was defeated at the general election, will have to be elected from a Liberal constituency on his elevation to the Cabinet. James William Lowther was re-elected Speaker of the Lower Chamber, and felicitous speeches were delivered by the Prime Minister, by Mr. Balfour, and others, but no mention of the momentous issues impending was made. Among those who took the oath of membership was Joseph Chamberlain, now seventy-four years of age, the originator of the tariff-reform movement on which the election has been so largely fought; he was very frail and had to be assisted to and from the Herbert John Gladstone has been raised to the peerage prior to his departure for United South Africa, of which he is to be the first Governor-General.

Notable and welcome improvement in the banking position at Berlin was recorded on Thursday, after some uneasiness had been created by an advance (on Tuesday) in the private discount rate to 3% and the announcement of seven failures on the Hamburg Produce Exchange. Germany has experienced more equal to the sum originally received. The Budget for the new fiscal year estimates expenditures at \$29,-628,531, while receipts are calculated to be \$5,159,148 larger. The claim is made that, excluding the expenses incidental to the establishment of new offices and the first installment on the \$35,000,000 loan, the

monetary tension during the last three months than any other European country, and although nothing serious has at any time resulted, the strain occasionally excited mild concern. The Imperial Bank was obliged to issue an inordinate amount of note circulation, and other large institutions felt compelled to restrict their loans to speculators in various commodities and securities. These measures have proved adequate, this week's trouble being the first of any consequence, and happily no further disturbances are expected. Meanwhile the banks have rehabilitated their resources. Within the space of one week the Reichsbank has gained no less than \$14,500,000 cash simultaneously with a curtailment of \$18,500,000 in circulation, a decrease of \$7,700,000 in discounts and loans and an increase of fully \$30,000,000 in deposits. The Bank rate of 4% is retained and private discounts are not effected under 31/8%, an advance of 3/8 of 1% over last week's charge. Governmental needs have been and still are an influence in the German money markets, although another large loan is not looked for until late in the spring or early in the summer.

In foreign diplomatic circles significance is attached to this week's visit of Prince and Princess Henry of Prussia to the King of England. Despite the repeated assurances of Emperor William and his representatives that the constant additions to the German navy are for strictly pacific purposes, and demanded by the nation's growing trade with foreign countries and its own colonies, a feeling of suspicion, even of open distrust, prevails in Great Britain, and it is reciprocated among certain classes in the Fatherland. The two rulers have been scrupulously careful to show evidences of the utmost cordiality in their personal relations; hence, the present royal visit to Buckingham Palace is not without interest. So uncertain is the political situation in Britain that it is impossible to foresee what is likely to happen after the King's speech is delivered on Monday next, but it may be added that zealous advocates of international peace have not despaired of overtures being resumed between the German and British foreign offices concerning the feasibility of arriving at an understanding on the building of armaments, an understanding that would look to some slackening in a pace that threatens to involve both nations in grave financial problems. King Edward, it need not be emphasized, is an ardent disciple of peace, and consequently any friendly negotiations his ministers may enter into with the representatives of his Imperial nephew are certain to receive his wholehearted approval.

Cuban finances are improving, according to an official statement issued this week from President Gomez. It is explained that the new Government which took over the administration of affairs when the United States withdrew in January 1909 found only \$2,500,000 in the Treasury to meet obligations totaling \$12,000,000, whereas since then \$6,000,000 of this debt has been paid off, and there is a balance on hand equal to the sum originally received. The Budget for the new fiscal year estimates expenditures at \$29,-628,531, while receipts are calculated to be \$5,159,148 larger. The claim is made that, excluding the expenses incidental to the establishment of new offices and the first installment on the \$35,000,000 loan, the

present Budget is \$700,000 below that in force during the last year of President Palma's regime. It is to be hoped that the ensuing year will bring developments of a character to justify present sanguine expectations.

Foreign discount rates have not weakened this week, despite the better bank returns issued on Thursday in London, Paris and Berlin. The London quotation is now 21/8@21/4%, the same as a week ago; the Bank of England's reserves have increased 11/4% (to 53%), but Treasury borrowing and a resumption of gold exports have been taken into account by bankers. Paris is proceeding very quietly to repair the damage done by the recent floods; no huge loans have been found necessary, nor is the strain upon the Bank of France or the private institutions excessive, the discount rate being only $2\frac{1}{2}\%$ —occasionally a fraction less. At Berlin the rate has moved up to 31/8%. Amsterdam reports 11/8%, a rate that is encouraging speculation in American and rubber shares. Indeed, London and Paris are also showing renewed interest in our securities. this week's sales of bonds for European account having been quite a factor in the foreign exchange market.

The Bank of England was able to report a decided strengthening in its principal accounts on Thursday morning, but on that day it was called upon to ship about \$1,500,000 in bullion and sovereigns to South America, although, of course, this loss will not figure until next week's statement is issued. The return flow of gold to Paris has also been resumed (\$1,550,000 having been sent yesterday), as bills discounted before the close of 1909 are now maturing. Fortunately there has of late been no competition for the weekly consignment of new bars from South Africa, and these are consequently finding their way into London's vaults, though not always into those of the central institution. According to our special cable from London, the Bank of England gained £749,431 bullion during the week and held £37,325,171 at the close of the week. Our correspondent further advises us that the gain was due largely to receipts from the interior of Great Britain. The details of the movement into and out of the Bank were as follows: Imports, £166,000 (of which £5,000 from Australia, £19,000 from Egypt and £142,000 bought in the open market); exports, £18,000 (wholly to South America), and receipts of £601,000 net from the interior of Great Britain.

The apathetic demand for collateral loans at this centre has at last, and very tardily, brought about a reduction in commercial paper rates. Up to this week the minimum quotation for even the best grade of single names had been 41/2%, but during the last few days transactions have been effected with local institutions at $4\frac{1}{4}\%$ and in a few special cases at 4%for four months' maturities. But one word of explanation is due. The weeding out of second-rate collateral that was so thoroughly prosecuted by banks and trust companies earlier in the month has been followed by stricter scrutiny of the mercantile paper offered then, and only bills of exceptional attractiveness are in favor. These are preferred, even at lower rates, to names of only ordinarily good repute, notwithstanding that the latter are available at ½ of 1% higher return. The supply of $4\frac{1}{4}\%$ paper is not superthe market; the out-of-town inquiry for it is fair, but not keen. The range for the best four to six months' single names is now $4\frac{1}{4}@4\frac{3}{4}\%$ and for less desirable names 5@5½%. Sixty to ninety days' endorsed bills receivable are quoted 41/4@41/2%.

Time money has been extremely quiet, owing to the lack of demand, which, in turn, has been in part due to the abundance of call funds at 23/4@3%, no loans having been made this week above the latter figure. The charge for all maturities is, generally speaking, 1/4 of 1% below last week's level, the range now being $3\frac{1}{4}$ @ $3\frac{1}{2}$ % for 60 days, $3\frac{1}{2}$ @ $3\frac{3}{4}$ % for 90 days and $3\frac{3}{4}$ @4% for four, five and six months. A few overthe-year transactions have been made at 45%%, although the difference in the ideas of bankers and borrowers regarding the prospective value of money militates against business for so long a period. Call money has again averaged about 23/4%, and the minimum of last week, 21/4%, was not repeated until the close yesterday; indeed, quite a few loans were made on Thursday and Friday at 3%, a fact that is not surprising in view of the recovery in stock speculation and the absence of brokers from the time-money division. The range on Monday and Tuesday was from 23/4% to 3%, on Wednesday and Thursday from 21/2% to 3% and yesterday from $2\frac{1}{4}\%$ to 3%.

A pronounced change has come over the whole foreign exchange situation. Last week demand sterling sold below 4 86; this week business has been done Furthermore, the intense dulness of the at $4.86\frac{1}{2}$. previous three weeks has been followed by active trading, part of which has represented speculation in futures. Already the higher rates have started an outflow of gold from New York to Argentina, a movement that had been in abeyance since January. Thursday three shipments, aggregating \$1,250,000, were arranged, the metal to go forward to-day, and yesterday another engagement, of \$250,000, was reported, making a total of \$1,500,000 for the week. A minor incident was the simultaneous announcement of the importation of \$50,000 gold from Ecuador. That New York will be called upon to remit additional amounts of gold coin to South America is regarded as quite probable, inasmuch as grain shipments from that continent to Europe are going forward in volume and the state of the foreign exchanges permits London to draw upon its New York agents for the gold necessary to effect a settlement. This week, however, the Bank of England has also been obliged to send amounts of gold direct to Argentina.

The sharp recovery in foreign exchange rates, instead of taking the market by surprise, had been looked for several weeks ago. The official returns of our foreign commerce during January, published on Wednesday, explain the scarcity of commercial remittance that has been a conspicuous feature for two or three months, notwithstanding the recent weakness in quotations. The excess of merchandise exports over imports last month was only \$10,357,286, contrasted with fully \$53,000,000 in 1909 and \$121,000,000 in 1908; this year's balance, as a matter of fact, is the smallest recorded since 1893. The showing for the seven elapsed months of the current fiscal year is scarcely more favorable. Exports have outrun imabundant, but there is plenty of the 43/4% quality on ports by only \$192,968,329, compared with more than

\$334,000,000 last year and \$432,000,000 in 1908; not since 1896 has so poor an exhibit been made. It is not at all extraordinary, therefore, that we are exporting gold. For the seven months ended January the gold outflow totaled \$75,209,616, a figure not equaled in recent years, while the balance over imports amounted to \$49,126,885, also the highest figure in years. February, as has already been pointed out, has brought another gold-export movement, and unless exchange rates decline sharply—an unlikely development—the outflow will probably continue. New York bankers are engaging exchange to be sent to Europe to liquidate the short-term notes and bonds that mature in March; during 1910 an aggregate of half a billion dollars notes and bonds has to be met and a considerable percentage, especially of the notes put out in 1906-07, is held abroad. It is gratifying to note, however, that European investors are showing continued interest in our securities, the absorption of bonds referred to in previous weeks having continued on a somewhat larger scale this week.

Compared with Friday of last week, sterling exchange on Monday—Saturday was a holiday—was about 5 points higher, on the basis of 4 8390@4 84 for 60 days, 4 8605@4 8610 for demand and 4 8625@4 8635 for cable transfers. On Tuesday there was a general advance of 10 points. The upward movement was even more pronounced on Wednesday, when business was done in sight drafts at 4 86½, although at the close the range was somewhat easier, the final rate being 4 8430@4 8440 for 60 days, 4 8635@4 8645 for demand and 4 8660@4 8670 for cable transfers. This level was maintained on Thursday. On Friday demand closed at 4 8640@4 8645 and cable transfers at 4 8660@4 8670.

The following shows the daily posted rates for sterling exchange by some of the leading drawers.

WHY NOT CHANGE THE LAW?

Does the enactment of a statute establish a rule of right and wrong which places a moral inhibition upon the modification of the statute? Does the progressive extension of the application of a statute by judicial interpretation establish such a rule with a like result? An affirmative answer to either of these questions would obviously be absurd; yet, if he was correctly reported in the daily press, such an answer to both of them would be the necessary and logical consequence of the position taken by President Taft in his address in this city last Saturday. For if there is no such rule, why should the Chief Executive hurl at industry the command that it must modify its methods rather than recommend to the Legislature, in view of the necessities of industry, that the law should be changed. Confessedly there is nothing in itself evil in the combination of two producers selling in States other than those in which they produce. Whatever evil pertains to such a combination was made by the statute; cannot the statute-making authority withdraw the prohibition which it has set up? Yet President Taft says:

... "If the enforcement of the law is not consistent with the present method of carrying on business, then it does not speak well for the present methods of conducting business, and they must be changed to conform to the law."

Undoubtedly the idea is popular. But is it sound? It is "so much the worse for business," in the common phrase, but how much the worse for the law? There is something strange in the idea that a statute speaks with the authority of conceded morality as well as with that of the State. Of course, no one pretends that the laws of every particular period contain a perfect code of political or industrial morality, for such a code must be stable, and that which is law to-day is not always law to-morrow. Nor is the position of the individual legislator, the standing accorded him on account of his selection for legislative office, or that on which such selections are usually based, such as to warrant the conclusion that the authority of a statute springs from the collected and combined authorities of those by whom it is enacted. Plainly, the written law has a popular authority not the outgrowth of its stability or its origin.

Yet every one recognizes that there have been blundering laws. Organized labor still waxes indignant over the restrictions with which it was surrounded at the beginning of the last century and for several decades thereafter. The futility of the laws concerning rates of wages and limiting the right of laboring men to remove from one field of labor to another which followed the Black Death, is still held to prove that there are industrial limits upon legis-

lative power. The whole of the United States admits that American law sanctioned human slavery long after that institution had ceased to be more than a clog to the industry of the South, and many now believe that the systematic violation of fugitive slave laws should be recorded in family annals as evidence of especial nobility of character. Indeed, no one can run over his individual list of heroes without noting with surprise how many of their careers began in law-breaking. It ought, then, to be possible to look at an existing law without supposing it necessarily to be right and wise, and, while recognizing that it should be obeyed as long as it remains upon the statute book, to consider the expediency of its repeal without any feeling of sacrilege.

If the law of which President Taft spoke can be examined with this degree of freedom, it at once appears to be violative of certain fundamental principles that are requisites of good legislation. History records no instance of good results from legislative efforts to bind industry. Industrial legislation has proved beneficial when it has recognized industrial tendencies, has accepted them as normal and beneficial, and has been framed so as to give them the freest expression. The Anti-Trust Law was an avowed and radical effort to thwart a strong industrial tendency that was then in plain operation; it was an attempt to dam the stream without providing any outlet; and it has operated as such laws usually operate. That is to say, it has been ignored here, evaded there, and where most effective has but enhanced the burdens of industry or slightly retarded its efficiency and progress.

It has somewhat affected the form of industrial organization, but has had little effect upon its substance. At every step the impossibility of its complete enforcement, as well as the destructive consequences of a comprehensive and continued effort in that direction, have been recognized under each successive administration. From President Harrison, under whom it was enacted, to President Taft, under whose persuasive influence it might be repealed, no Executive has been willing to expose his countrymen to the perils of its full enforcement. Never in the two decades has a victory for the Government been won in the courts in the progress of litigation under the statute that some high officer of the Federal Government has not been authorized to proclaim that the danger was not as imminent as it seemed, for the reason that the law would not be "foolishly" enforced, that the authorities would not "run amuck." But yet the peril hangs over the nation's industry and business must continue ever to glance backward as it progresses lest it be overtaken unawares, lest the Executive finally shall make full use of the dormant powers for destruction which this law has set up. It is not necessary to admit, nor is it admitted, that the bulk or any considerable proportion of the business of the country is conducted in violation of this statute. Possibly there are undetected violations, possibly some are violating it to-day, as others have in the past, while believing themselves innocent of technical, as they know themselves innocent of moral or intentional, wrongdoing. If so, it is true that an attack upon these could not but affect others who are not themselves in any danger of direct attack. But what is much more serious is that, after being in existence for twenty years, no one yet knows just what this law forbids or to what and to whom it |

applies. The limits and boundaries of inter-State commerce are yet undefined; that which constitutes an unlawful restraint of trade is not wholly known; no one yet knows just when a business which is not exclusive reaches the dimensions of a statutory "monopoly." If President Taft had suggested that when business cannot conform to the law, the law should be changed, his view would have had less temporary popularity but a more helpful relation to present conditions.

IF THE TOBACCO COMPANY WINS.

In recent consideration of the trust problem, both by the press and in Washington, speculation about the immediate future has been almost entirely confined to one term of the alternative only. It has been assumed upon all sides that the Government would win in the case against the American Tobacco Co. and in the case against the Standard Oil Co. No one has stopped seriously to consider what would happen if the contrary should be the case. Such one-sided foresight has its disadvantages and the other term of the alternative is full of interest and importance.

Let us suppose that the case of the American Tobacco Co. should be decided against the Government. It is not necessary to go so far as to assume that the Supreme Court will decide that case fully in favor of the defendant. Even the latter assumption would not be a violent one, for in making such a decision the Court would only be following its own decision in the case of Knight against the American Sugar Refining Co. It is the custom in Washington to think that because the Administrative branch of the Government holds advanced views about the Sherman Anti-Trust Law and considers the Knight case out of date, the Supreme Court must follow suit. But that would be rather unusual for the Supreme Court, for it would involve an admission that its decision in that case was not a considered one and not made with reasonable foresight upon the subject of industrial combinations.

Yet, for the purposes of this review, we may concede that the law has developed since the Knight case and that the Court will, therefore, point out some respects in which the Tobacco Trust is wicked and enjoin it from pursuing some courses of action in the future. It may, therefore, be that the defendant will not win in a technical sense. But we believe it to be practically certain that the Government will not win an entire or a substantial victory. Every antitrust decision of the Supreme Court so far has carried within its limits the germ for a further development of industrial combinations. Each decision has been followed rather by the relentless course of industrial progress than by any success in the Partingtonian attempt to sweep back the Atlantic with a broom. The business of growing big and strong and able to operate economically has gone on in spite of Mrs. Partington.

Now it requires no violence to suppose that the currently expected decision will also contain or supply instructions for going on in business. If it does not provide instructions by which the average law-abiding business corporation can distinguish itself from the alleged trusts and criminals, that decision will carry with it something which can only be described as another "black Friday." For ourselves, we believe

that a decision will come down in the Tobacco Co. case which will leave prosperity as possible, and therefore will not be regarded by the Administration at Washington or by Congress as a complete or satisfactory victory for the anti-trust agitators. Now if this decision comes down while Congress is still in session, or, at the very least, if the Tobacco Co. finds its means of escape from the decision before the adjournment, it is likely that Congress and the President will endeavor to do something that will look like an attempt to redeem platform pledges. This appears particularly likely in view of Mr. Taft's declaration in his speech last Saturday night that "there was no promise on the part of the Republican platform to change the anti-trust law except to strengthen it."

The statute providing for Federal corporations, when looked at in the light here suggested, becomes of vastly greater importance than its sponsors now admit. The public have been carefully led to believe through the Associated Press that this statute was not to be pushed forward "under present conditions." The careless have translated the quoted phrase by assuming that the bill was not to be pressed at this session of Congress. The more careful should consider it in the light of the foregoing inquiries and reflect. If the President should decide and should represent to Congress that further anti-trust legislation was made necessary by the decision in one or both of the big cases, it is not reasonable to believe that he could obtain the support of business interests or of anybody who really understands prosperity in passing another statute containing fulminations and penalties against trusts as such. On the other hand, the agitators against the big corporations are not likely to accept anything so colorless and sound as Attorney-General Wickersham has once or twice tentatively offered to it.

The politicians' course under these circumstances would seem to be indicated by the statute providing for Federal charters. The bill has been put out in two drafts and each of these has been submitted for the purpose of eliciting discussion and reducing the points of difference about the statute to the simplest possible form. If now, when these points of difference are more or less removed or made clear, the situation which we have prophesied above shall arrive, is it not likely that the Federal charter statute will be turned into one compulsory upon corporations of magnitude engaged in inter-State commerce.

No greater danger to our Federal system can be imagined than a contingency of that kind, and there is nothing which might be more wisely opposed at the present time. If we limit the Federal control to the corporations of magnitude, we shall conversely give to the corporations of magnitude a peculiar interest both in the control of the Federal Government according to their best abilities and in having the Federal Government control and abolish the States. The opportunity to put the motive power of those who hate the so-called trusts into such a position that it will drive forward a scheme for enormously increasing the proportionate power of the Federal Government is as obvious as it is dangerous. We shall be likely to see the octopus bitted, ringed, and driven as the beast of burden which does the work of the Federal Government.

No one can under-estimate the danger of such a which at times becomes irresistible in the affairs of program as this, and it is all the more insidious because governments, the revolt in Crete led to the overwhelm-

up to this time, while logical and necessary, it has not received public consideration. The scheme indicated is one peculiarly fit to be sprung upon the public, as was the corporation tax, under conditions which would make it the best available political compromise and which would lead to its enactment, as in the case of the corporation tax, before any one seriously knew what it meant or understood the grave causes for fear contained within it. This is no chimera. Any result of the cases in the Supreme Court which makes business impossible is unthinkable. Any result which makes business possible is likely to lead to further Federal aggression, and the lines which we have indicated may prove to be the lines of least resistance.

ANOTHER "EASTERN PROBLEM."

The relations between the various Powers in what Europe calls the "Near East" have for many years been such that diplomatic friction was perennial and "war rumors" unpleasantly frequent. The various readjustments of affairs since the Turkish revolution and the deposition of the Sultan removed a good many of these irritating controversies. One seems, however, to have remained, and the controversy over Crete has lately been revived in such shape as to lead even the cautious London "Economist" to remark that "unless Hellenic and Turkish Chauvinism is speedily cooled by the Powers or otherwise, the Near East may be plunged into war." For this somewhat startling prediction, the grounds assigned are that Greece has summoned a national assembly to revise its constitution; that this assembly may have Cretan affairs in view and might invite Cretan delegates to participate in its deliberations; that Turkey has formally protested against the latter expedient, and that the young Greeks and the young Turks are equally excited over the situation.

We have not been inclined to take the situation seriously. Dispatches from Constantinople have lately intimated that the long-standing dispute between Greece and Turkey over the sovereignty of Crete may be adjusted through the neutral Powers by a settlement on a purchase basis. It has been intimated that if Greece were to offer a satisfactory indemnity for acquisition of the island, the Turkish Government, in its present political and financial situation, would assent. We do not know what basis of fact these dispatches may have in the actual diplomatic developments of the day, but the suggestion is plausible, and if accepted would effect a further advance toward settlement of a long-standing irritation in continental politics.

Crete as an issue in European affairs came chiefly before the attention of other nationalities at the time of the Greco-Turkish war of 1897, a contest primarily provoked through a Cretan revolt initiated with the active co-operation of the Greek armament and people. As a matter of fact, however, revolts by the Cretans against Turkish domination are a matter of centuries. Captured in 1669 by Turkey, the island rose against the oppressive satraps who were assigned to govern it in 1821, in 1866 and in 1878, not to mention numerous smaller uprisings in the interval between these dates. In 1897, through one of those popular demonstrations which at times becomes irresistible in the affairs of governments, the revolt in Crete led to the overwhelm-

ing demand by the Greek people for the extending of aid and protection by the Government of Greece.

The Greek fleet set sail for Crete; the Turkish Government declared war, and the result was what is often witnessed at a conjuncture of the sort. Popular enthusiasm on the part of Greece had not been equaled by Government preparations for any such emergency. The Turkish troops routed the Greek army in Thesally, advanced to the southward, and after prolonged and somewhat humiliating negotiations in behalf of Greece on the part of friendly Powers, the struggle ended in the payment of a heavy cash indemnity by Greece, the surrender of part of its northern territory and the outright abandonment of Crete.

Fortunately for the good name of international diplomacy, the neutral Powers did not leave the Cretan situation where it had been before. Despite a not wholly creditable exhibition of intrigue and bickering between the Powers whose fleets were represented at the ports of Crete, it was recognized that the demands of the Cretans themselves had a right to a hearing, no matter what had happened on the Greek frontier. As a quid pro quo for assenting to the harsh terms imposed by Turkey on the Government at Athens, the Powers required that the Sultan, while retaining a nominal suzerainty over Crete, should commit the general administration of its affairs to a protectorate of the three great Powers-England, France and Russia -and more particularly to the hands of a high Commissioner.

This Commissioner, named in 1898, was the Prince of Greece—a result which could not be wholly palatable to the Yildiz Kiosk. Under the late adroit and crafty Sultan, trouble began at once in Cretan affairs. In 1904 the Prince of Greece appealed urgently to the Powers on the ground that he could not retain his post while Turkey still reserved the official power of meddling. In 1907, therefore—once more under the auspices of the neutral Powers—the privileges of self-government granted in 1898 were considerably extended, legislative rights being granted to a Cretan Assembly of 64 deputies elected bi-annually the executive power being reposed in a high Commissioner and four Councillors.

This was, perhaps, as far as the arrangement of affairs could well have gone without absolutely removing Crete from even nominal Turkish domination. When, at the close of 1908, the Sultan of Turkey was deposed and self-government suddenly established at Constantinople, it was but natural that the Cretans should have seized the opportunity again to grasp at actual independence. During the trying period when Austria had appropriated the minor Balkan provinces held under Turkish suzerainty, and when Bulgaria had cut loose from all control by the Turkish Government, Crete also appeared on the scene, with the very plain intimation that the Government of Greece was once more behind the people's demands for absolute independence. It will be recalled that for a time an actual collision between Greece and Turkey was regarded as a possible outcome. True to their policy of averting outright appeal to international conflict, the Powers persuaded Greece to recede from its position. The similar threatening conflict with Austria and Bulgaria was by skilful negotiations made unnecessary; the plan for a handsome indemnity payment to Turkey in behalf of the Balkan provinces was proposed, and, somewhat to the surprise of other nationalities, was accepted by the Turks.

Supposing, as is by no means improbable, that a similar proposition is now under consideration in the case of Crete, the question will be interesting whether Turkey would be prepared to yield. The attitude of its Government and people in the Balkan controversy suggests an affirmative answer. The course of events at that time and since has plainly indicated, first, that Turkey recognizes its own need of ready money, and, second, that it entertains no such ardent territorial ambitions as had previously been ascribed to it. In the case of Crete, we have a dependency regarding which the Turkish ownership is already of a most flimsy conceivable character. The Constantinople Government, indeed, has gone so far as officially to renounce the revenues and property of the island as a partial collateral for the Turkish public debt. As for the possible sentimental aspect of the matter, it remains to say that the Cretan population numbers some 270,000 Christians and barely 30,000 Moslems. If the proposed adjustment of the matter turns out to have been correctly reported, a highly interesting further step will have been taken in the solution of the Eastern problem, which for so many centuries, and in so many constantly varying aspects, has troubled the mind of international diplomacy.

RAILROAD GROSS AND NET EARNINGS FOR DECEMBER.

We present two compilations of railroad earnings to-day and both possess unusual features of interest. In the present article we deal with the completed gross and net results for December. In the article which follows we furnish a summary of the gross earnings for the month of January in the case of the roads which make it a practice to publish early preliminary estimates of their traffic receipts. The reason why extra interest attaches to the exhibits for both months is that unfavorable conditions prevailed in the one month as in the other, reducing the traffic and revenues of the roads, and the figures we give afford a measure of the loss sustained from that cause.

As far as the comparisons for the month of December are concerned, they show at a glance that some adverse factors or influences must have been at work. Our compilations for this month are exceptionally comprehensive, being based, as usual, on the returns filed with the Inter-State Commerce Commission at Washington. As has been so often pointed out by us, all the railroads in the country (barring only a few minor lines operating exclusively within State boundaries) are obliged to render statements each month to the Inter-State Commerce Commission. The returns when filed are open to public inspection and we have transcripts of them made, as soon as they are placed upon the public records, for our own use. These transcripts come to us in large numbers from day to day, and about the 20th of the month we bringthem all together in a special supplement called our "Railway Earnings Section." One of the monthly numbers of the "Railway Earnings Section" accompanies to-day's issues of the "Chronicle," and in it the reader will find the December figures in detail for every railroad which had rendered its return for that month up to yesterday morning. The summaries we present in this article

are the aggregates derived from the statements of these separate roads.

			-Increase or Deci	rease-
December (764 roads)—	1909.	1908.	Amount.	%
Miles of road	229,369	225,666	Inc. 3,703	1.58
Gross earnings	_\$217,724,459	\$203,799,142	Inc. \$13,925,317	6.83
Operating expenses	150,709,694	135,481,754	Inc. 15,227,940	11.24
Not carnings	\$67 014 765	\$68,317,388	Dec. \$1,302,623	1.91

On their face, as already stated, the figures reveal the presence of adverse circumstances and conditions. The aggregate of the gross earnings shows improvement over the corresponding month of the previous year, but the gain is relatively small, amounting to \$13,925,317 or only 6.83%. In the month preceding, November, the increase reached no less than \$34,299,610, or 16.51%. But the most striking change is in the net earnings. For November the net had improved \$18,749,484, or 25.59%; for December, on the other hand, there is actually a loss, though the falling off is not very large, being \$1,302,623, or 1.91%. The poor outcome may be ascribed in the main to two dominant adverse factors—the weather and labor troubles on some of the Western trans-continental lines.

Meteorological conditions appear to have been severe in the whole of the territory between the Mississippi River and the Pacific Coast. There were heavy snow-falls, and temperatures also were in many sections exceptionally low. The labor trouble was the strike of the switchmen on the trans-continental lines running from St. Paul and Duluth to the Pacific Coast. This strike was precipitated on the evening of Nov. 30 and during the early days of December proved exceedingly disturbing, not merely in interrupting normal conditions in the operation of the roads but in putting a temporary embargo on some of the ordinary business activities of the day. One of the results was the shutting-down of the flour mills in Minneapolis for the time being, owing to the inability of the roads to deliver the necessary supplies of wheat, and another was the partial discontinuance of coppermining and smelting operations in Montana. The railroads, however, had no difficulty in recruiting their ranks with non-union men and in this way quickly got the upper hand over the strikers, though of course normal conditions were not entirely restored, even by the close of the month. The bad weather was perhaps the most serious adverse state of things, and the part it played in affairs was greatly intensified on the roads which had to contend with the strike of the switchmen. The weather not only reduced the volume of railroad tonnage, but added greatly to the expense of transporting it.

The circumstances mentioned explain the tremendous augmentation in expenses and prodigious losses in net earnings which some of the separate roads or systems have sustained. In the magnitude of this shrinkage in the net revenues of the larger Western systems, the month's records are quite unique. Thus the Northern Pacific suffered a decrease of \$1,250,694 in gross and of \$1,637,929 in net; the Milwaukee & St. Paul a decrease of \$588,744 in gross and of \$1,165,-362 in net; the Great Northern a decrease of \$315,748 in gross and of \$533,948 in net. The Atchison has \$1,166,068 loss in net notwithstanding a gain of \$210,789 in gross; the Chicago & North Western has a loss of \$820,573 in net in face of a gain of \$106,119 in gross; the Chicago Burlington & Quincy has \$180,840 loss in gross and \$764,381 loss in net; the Rock Island falls \$355,339 behind in gross and \$592,717 in net.

The Union Pacific, with \$419,492 improvement in gross is obliged to report \$559,523 shrinkage in net and the Southern Pacific, though having no less than \$810,636 gain in gross, adds only \$49,770 to net. And these illustrations might be greatly extended.

The roads and systems east of the Mississippi quite generally give a very good account of themselves, the same as in other recent months. The Pennsylvania, on the lines directly operated East and West of Pittsburgh and Erie, has \$2,970,398 increase in gross and \$1,280,079 increase in net, and the New York Central has \$723,211 gain in gross and \$474,387 gain in net, while for the New York Central System the result is \$2,457,682 improvement in gross and \$1,181,165 in net. The Baltimore & Ohio is an exception among the great East and West trunk lines, a large augmentation in expenses being a feature in its case, the same as with Western roads. Its gross was added to in amount of \$824,546, while its net was reduced by \$110,900. In the following we show all the important changes for the separate roads, whether increases or decreases, both in the case of the gross and in the net: PRINCIPAL CHANGES IN GROSS EARNINGS IN DECEMBER.

Note.—All the figures in the above are on the basis of the returns filed with the Inter-State Commerce Commission. Where, however, these returns do not show the total for any system, we have combined the separate roads so as to make the results conform as nearly as possible to those given in the statements furnished by the companies themselves.

a These figures cover merely the operations of the New York Central itself. Including the various auxiliary and controlled roads, like the Michigan Central, the Lake Shore, the "Big Four," the "Nickel Plate," &c., the whole going to form the N. Y. Central System, the result is a gain of \$2,457,682.

y These figures represent the lines directly operated east and west of Pittsburgh, Eastern lines showing \$1;559,033 increase and the Western lines \$1,411,365. For all lines owned, leased, operated and controlled, the result for the month is a gain of \$3,645,243.

When arranged in groups, the distinction in the character of the returns as between the East and the West becomes quite obvious. One of the groups, namely that comprising the roads running west and northwest of Chicago, actually shows a falling off even in the gross earnings, while three of the groups, namely the Northwestern group, the Southwestern group and the Pacific Coast group, have diminished net, the falling off in the case of the first of these three being very noteworthy and reaching over 36%. In December of the previous year every group had recorded

an improvement in both gross and net. Our summary by groups is as follows:

NOTE. -Group I. includes all of the New England States.

Group II. includes all of New York and Pennsylvania except that portion west of Pittsburgn and Buffalo, also all of New Jersey, Delaware and Maryland, and the extreme northern portion of West Virginia.

Group III. includes all of Ohio and Indiana; all of Michigan except the northern peninsula, and that portion of New York and Pennsylvania west of Buffalo and Pittsburgh.

Groups IV. and V. combined include the Southern States south of the Ohio and east of the Mississippi River.

Groups VI. and VII. combined include the northern peninsula of Michigan, all of Minnesota, Wisconsin, Iowa and Illinois; all South Dakota and North Dakota, and Missouri north of St. Louis and Kansas City; also all of Montana, Wyoming and Nebraska, together with Colorado north of a line parallel to the State line; passing

Groups VIII. and IX. combined include all of Kansas, Oklahoma, Arkansas and Indian Territory; Missouri south of St. Louis and Kansas City; Colorado south of Denver; the whole of Texas and the bulk of Louisiana; and that portion of New Mexico north of a line running from the northwest corner of the State through Santa Fe and east of a line running from Santa Fe to El Paso

Group X. includes all of Washington, Oregon, Idaho, California, Nevada, Utah and Arizona, and the Western part of New Mexico.

As stated by us in previous months, in grouping the roads we conform to the grouping or classification adopted by the Inter-State Commerce Commission. The only departure we make from the Commission's arrangement is that we have combined Groups 4 and 5, so as to bring all the Southern roads together under one head; also Groups 8 and 9, so as to bring the Southwestern roads together, and have likewise combined Groups 6 and 7, these latter comprising the systems running west and northwest of Chicago, the mileage of most of which spreads over the territory covered by both groups. We do not include any of the Canadian lines in our figures except, of course, so much of the same as lies within the United States, and for which returns are filed with the Commission.

The confines of the different groups are indicated in the footnotes to the above table, but it is important to note that where a road or system covers more than one group, or overlaps into others, we have necessarily been obliged to place it in some particular one of the groups, as no way exists of dividing it up among the two or more groups where it may be located. Our plan in such cases has been to place the road or system in the group where the bulk of the revenues is apparently obtained. In their annual statements to the Inter-State Commerce Commission, the companies are required to show the amounts earned in each of the groups, but of course no such division is attempted in the case of the monthly returns.

It is proper to say that for December the comparison is not with such poor results in the previous year as was the case in the preceding months of 1909. December was the one month in 1908 that had recorded an increase in gross earnings, and we have already indicated that it also showed an increase in net. In this latter respect, however, it did not stand alone in that year, other months also having displayed improved net by reason of economies in operating and great saving in expenses. According to our own com-

in gross and \$16,431,096 increase in net. These figures covered 223,790 miles of line. The Inter-State Commerce Commission subsequently published summaries covering 232,007 miles of line, and on the basis of that mileage the increase was \$11,555,140 in gross and \$16,962,654 in net. In the year before there had been a loss in both gross and net. In the following we furnish the December summary for the last fourteen years. For 1908 we use the Inter-State Commerce totals, but for preceding years we give the results just as registered by our own tables each year—a portion of the railroad mileage of the country being always unrepresented in the totals, owing to the refusal of some of the roads to give out monthly figures for publication.

RAILROAD GROSS EARNINGS FOR JANUARY.

As far as the present preliminary figures are any guide, railroad earnings for January were much better than had been supposed. Perhaps adverse influences were not so pronounced as in December, and yet conditions were not altogether favorable. The switchmen's strike in the Northwest had, of course, in large measure lost its influence. On the other hand, the weather continued an adverse factor, with the further fact that its sweep was extended so that the roads east of the Mississippi suffered from it the same as those west of the Mississippi. In the early days of January the accounts in that regard from the West were very unsatisfactory, the news dispatches from Chicago and other Western centres speaking of blizzards and continued cold, under which railroad operations were being seriously crippled. A little later the Eastern half of the country was enveloped in a snow-storm, the fall in this city in a storm on Friday, Jan. 14, reaching a depth of 14.6 inches.

Notwithstanding, however, the impediments imposed by the weather, and notwithstanding also the great shrinkage in the cotton traffic over Southern roads, the tables we present in this article show a gain of \$7,356,827 in the aggregate, or 15.32%. Not only that, but only 6 of the 50 roads contributing returns have any loss in earnings. Of course the present exhibit may not be altogether conclusive, as it comprises merely the roads furnishing early statements, embracing altogether 82,136 miles, or but little more than one-third the railroad mileage of the country. It is possible, too, that the results as to net may be less satisfactory than as to the gross. As far as it goes, however, the comparison is certainly very encouraging. Among the roads affected the previous month by the switchmen's strike, the Great Northern, which suffered most from that cause, is the only one for which we pilation, December 1908 showed \$10,774,779 increase have the January figures. But in that instance the

contrast between the two months is very striking. For January this important system reports no less than \$1,363,945 increase, whereas for December it had \$420,756 decrease.

The good showing made this time by the roads as a whole is the more noteworthy, inasmuch as the present improvement follows improvement also in the previous year. Thus in January 1909 our preliminary compilation, covering 79,732 miles of road, recorded a gain of \$2,267,463, or 4.76%. In 1908 (following the panic the previous October-November) there was, of course, a shrinkage in revenues, the decrease then for the roads making early returns being \$4,976,393, or 8.74%. Prior to 1908 the January record was one of continuous expansion except where weather conditions had interfered seriously with railroad transportation service. In the following we furnish a summary of the January results, as disclosed by our early compilations, each year back to 1897.

Note.—Neither the earnings of the Mexican roads nor the mining operations of the anthracite coal roads are included in this table.

Lest year the roads had one advantage which was missing in 1910, namely the weather was quite generally mild and hence favorable to railroad operations. There were some snow-storms in the West at that time the latter part of the month, but there was no general or widespread interference with railroad operations such as existed the present year.

We have referred to the large gain recorded this time by the Great Northern Ry. The increase on the Canadian Pacific was almost equally noteworthy, being \$1,296,000. In lesser degree improvement comes from all parts of the country. Notwithstanding the shrinkage in the cotton traffic, the Louisville & Nashville has a gain of \$654,831 and the Southern Ry. an increase of \$348,578. In the Southwest the Missouri Pacific reports \$490,000 improvement and in the Middle West the Wabash has added \$285,235 to its last year's total and the Illinois Central \$249,193. In the following we show all changes for the separate roads for amounts in excess of \$30,000.

We have spoken of the falling off in the cotton traffic over Southern roads. The shipments overland for the month in 1910 were only 151,778 bales, against 204,756 bales in 1910, and the receipts at the Southern ports were no more than 580,384 bales, against 1,122,148 bales in January 1909, 1,181,972 bales in 1908 and

1,329,296 bales in January 1907. Every point records heavily diminished receipts the present year, as will appear from the following:

Western grain receipts seem to have run ahead of last year, particularly in the case of wheat and corn. For the four weeks ending Jan. 29 the wheat receipts at the Western primary markets were 17,433,124 bushels, against only 9,472,650 bushels for the corresponding four weeks of the previous year, and the receipts of corn were 17,689,083 bushels, against 15,418,254. Adding oats, barley and rye, it is found that the aggregate receipts of the five cereals in the four weeks of 1910 were 52,722,757 bushels, against 43,015,233 bushels. In the subjoined table we give the details of the grain movement in our usual form.

To complete our analysis we furnish the following six-year comparisons of the earnings of leading roads arranged in groups. It is rather noteworthy that in the case of each group the 1910 totals exceed the best of previous years.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO.'S.

The public sales of bank stocks this week aggregate 117 shares, of which 52 shares were sold at the Stock Exchange and 65 shares at auction. Transactions in trust company stocks were limited to 37 shares. Prices were generally lower as compared with the last previous sale, excepting for stock of the National Park Bank and of the Lawyers' Title Insurance & Trust Co., which advanced 12½ and ¾ points respectively.

—A New York Stock Exchange membership was sold yesterday for \$85,000, the last previous sale having been for \$82,000.

—J. Pierpont Morgan was one of the passengers on the White Star Steamer "Cedric" which sailed for Naples on Wednesday.

—The carrying into operation of the publicity clause of the Corporation Tax Law seems now to rest upon the question of an appropriation by Congress of \$50,000 to meet the expenses attendant to the indexing and display of the returns. This is the situation as given by President Taft in a communication to Secretary of the Treasury MacVeagh on the 16th inst. In this the opinion is expressed by the President that it was intended by Congress that the returns, original and corrected, but not the documents and evidence taken upon investigation, should be open to inspection as are court records. The sum of at least \$50,000, he states, will be required to properly index and display the returns of more than 400,000 corporations, to house them in rooms convenient of access for the public, and to provide clerks for the care and custody of them under such conditions. While an appropriation of \$100,000 is provided "for the expenses of collecting the corporation tax," it appears that under section 4 of the Act of August 5 1882 the Secretary of the Treasury is prohibited from using any part of that appropriation for the employment of persons within the District of Columbia-in other words, no appropriation exists with which to make the returns of corporations a public record, available for public inspection in any different manner from that in which other internal-revenue records are public records. The President states that in his judgment the failure to make a specific appropriation for the purpose was an oversight, due to the supposition that the \$100,000 might be applied in part to the purpose referred to, and that it was the intention of Congress to make these records different from the ordinary internal-revenue records, and really subject to general public inspection. The Secretary is advised to state the case to the House and to suggest that if it is intended that this construction shall be carried into execution, there must be an appropriation of \$50,000 for the specific purpose, and that the further statement be made that if no such appropriation is provided the only course open will be to treat the returns as other internal-revenue records. This appropriation is asked for in a letter embodying the facts related above submitted to the Speaker of the House by Acting Secretary Charles D. Norton.

In view of the above, Internal Revenue Commissioner R. E. Cabell issued the following instructions on Thursday with regard to the returns, in a communication to those in the employ of the Department:

If it was the intent of Congress to make these returns open to general inspection, it will be necessary for it to appropriate a sum sufficient to cover the necessary expenses. Until this is done this Bureau rules that the returns made under this law are to be handled just as returns made under other internal revenue statutes.

Any person, therefore, other than the tax-payer making the return or his duly appointed agent or attorney, who desires to see such returns shall make written application to the Secretary of the Treasury, who in his discretion will, upon a proper showing of cause, approve such request. A request thus approved should then be presented to the Commissioner of Internal Revenue, who will thereupon permit the return in question to be seen by the applicant upon such conditions as the Secretary of the Treasury shall have imposed.

The constitutionality of the corporation tax law is questioned in two other suits, besides those we have already mentioned, which have reached the Supreme Court. These proceedings are brought by Arthur Lyman and Arthur T. Lyman, trustees of the will of George Beatty Blake of Boston, vs. the Interborough Rapid Transit Co. and Amory Eliot of Manchester, Mass., against the trustees of the Cushing Real Estate Trust. The Blake Estate is the owner of 150 shares of stock in the road and the trustees have instituted the action to restrain the company from paying the tax imposed under the law. In the Eliot case, according to the New York "Times," an appeal was taken from the judgment of the United States Circuit Court in the District of Massachusetts, where the act was sustained. It appears that one of the contentions of the plaintiff was that the law did not apply, because the trust had no capital. Judge Lowell, in announcing his decision, it is said, pointed out that the declaration of trust provides for the issue of 4,800 shares, and for the issuance of certificates of shares, thus making them transferable. The Judge held that so far as

this objection is concerned, the trust is an association within the terms of the Act.

—Under an amendment to the Postal Savings Bank Bill which Senator Root has drafted, the section of the bill respecting the investment of moneys received through this source is changed in an essential particular. As was pointed out in a discussion of the bill in our issue of the 5th inst., it provides in its present form that the funds are to be redeposited in banks located as nearly as practicable in the immediate neighborhood in which they are received; in case of the refusal of the banks to accept the deposits, there is a provision that the funds may be "deposited with the Treasurer of the United States, * * and may be withdrawn from deposit upon their order for the repayment of postal savings depositors, or for investment in bonds or other securities of the United States, or in bonds or other securities in which investment of the funds of savings banks is authorized by the law of the State or Territory in which such deposits were received." Senator Root's proposal reverses this arrangement by stipulating that the funds "shall be invested in the securities of the United States, under rules to be made by the board of trustees," the proviso being made that "whenever and to the extent that securities of the United States are not available for authorized issue or for purchase at prices deemed by said trustees to be reasonable," the funds are to be re-deposited in the local banks.

—Harrison S. Martin has succeeded John C. Burns, resigned, as Assistant Secretary of the New York Stock Exchange. Mr. Martin had been Second Assistant Secretary. Mr. Burns resigns because of ill-health.

—As a result of the collapse in the stock of the Columbus & Hocking Coal & Iron Co. on January 19, Henry S. Haskins of Lathrop, Haskins & Co., one of the firms whose failure was brought about through the break, is barred from reinstatement in the New York Stock Exchange. This is the decision reached by the Governing Committee of the Exchange on Wednesday, when action on the report of the sub-committee with respect to the failure was taken. The statement issued by the Exchange in the matter says:

The Governing Committee determined that the failure of Lathrop, Haskins & Co. on January 19 1910, of which firm Henry S. Haskins, a member of the Exchange, was a member, was caused by reckless and unbusinesslike dealing, and said Henry S. Haskins was declared ineligible for reinstatement.

According to the latest Stock Exchange Directory (Jan. uary 1910) Mr. Haskins is the only Board member of the firm, which since February 1909 has consisted of himself, Henry Stanton Leverich and Fannie Graves Lathrop, as special partner. After the announcement of the decision of the Governors Mr. Haskins gave out a statement in which he declared himself to be "unjustly treated." Mr. Haskins states that, although repeatedly requested, no effort has been made by the Exchange to inspect the books of his firm to learn whether the public belief in gross manipulation and matched orders is correct or not, and asserts that in the matter of matched orders and offences against the rules of the Exchange, the handling of the stock on the floor of that body was from the first above reproach. The object of the pools, he contends, was to accumulate and keep, not distribute, the stock, and at no time, he says, was either pool closed out or profits taken. The honesty of his intention, he adds, is shown by the fact that his firm and his friends are the worst sufferers, if not the only ones. The following petition signed by creditors of Mr. Haskins's firm, and read before the Governing Committee at Wednesday's hearing, was submitted by Mr. Haskins in connection with his statement:

We, the undersigned, creditors of Lathrop, Haskins & Co., understanding that the Governors of the Stock Exchange will shortly render a decision as to the eligibility of Henry S. Haskins for reinstatement as a member of the Exchange, do respectfully represent to the Board of Governors that in our opinion the interests of the creditors of the said firm would be better served by permitting Mr. Haskins time and opportunity to place himself in a position to regain his seat than by definitely debarring him therefrom. Our belief in his personal integrity and in the sincerity of his motives remains unshaken. We have confidence in his expressed intention that if such opportunity is given he will devote himself earnestly to the rehabilitation of his fortunes and the building up of the properties in which he is interested, to the end that he may make good the losses sustained by his failure. And we believe that if deprived of his seat the probabilities of his effecting such purpose will not only be greatly diminished but that there is grave danger that his removal would undeservedly be regarded by the general public as a reproach to his character and honesty.

Action on the report of the sub-committee appointed to look into the failure of J. M. Fiske & Co. was postponed on the 9th to the 23rd inst.

The firms of Tucker, Anthony & Co. and Van Schaick & Co., mentioned with four other firms by the Special Committee of the Exchange in its report on the Hocking proceedings (printed in these columns last week), as having subscribed to the pools for the account of Lathrop, Haskins & Co., are exonerated from the criticism to which they were subjected in the report in the following resolution which has since been adopted by the Exchange:

Whereas, Since the making by the Special Committee of Five of its report concerning transactions in Columbus & Hocking Coal & Iron Co. stock and the confirmation thereof by the Governing Committee, Messrs. Tucker, Anthony & Co., and Van Schaick & Co. have furnished to the Special Committee additional and supplementary evidence proving to the satisfaction of said Special Committee that their subscriptions to the pool were for the account of a customer, and that they were wholly ignoran that said customer was acting for or had any relations with Lathrop Haskins & Co. in the matter, now therefore

Resolved, That the Secretary be instructed to inform Messrs. Tucker Anthony & Co. and Van Schaick & Co. that, in the judgment of the Governing Committee, they should not be included among the Stock Exchange firms whose acts were by said report declared to merit condemnation.

—James R. Keene, who was examined this week before United States Commissioner Alexander in the bankruptcy proceedings of J. M. Fiske & Co., admitted that he was the manager of the two Hocking pools, the first of which was formed on March 1 1909 and the second in July 1909. Both pools, he stated, were formed to accumulate 20,000 shares each, and at the time of the collapse Pool No. 2 had 16,000 shares.

—An article dealing with the adaptability of Clearing-House loan certificates to the purposes of emergency currency, from the pen of William A. Nash, President of the Corn Exchange Bank of this city, appeared in the New York "Times" of Monday last. In discussing the theories for correcting the defect in our banking system, Mr. Nash noted that at this time the central bank has the lead. He expresses the fear, however, that, much as such an institution is desirable, the political features will be so emphasized as to prevent its enactment. What we need, in Mr. Nash's opinion, in a panic or crisis, is an immediate and sufficient devise to stay ruinous liquidation and enable necessary readjustment to proceed on deliberate lines, and he points out that the Clearing-House loan certificate fulfils this requirement. Tried in New York in the past fifty years some eight or nine times, it has always, he said, been attended with success, and without the loss of a single dollar to the banks which endorsed them. The function of the Clearing-House loan certificates as a solution for our monetary troubles is therefore submitted by Mr. Nash for consideration. He says:

I would make these certificates the starting point for currency, I would urge the legalization in the great central reserve cities and make them the basis of the subsidiary money which we manufactured and bought in 1907. It is true the central reserve cities are only three in number, but the number should be increased so that every section should have proper representation.

I would confine the Clearing-House loan certificates applicable to this purpose to these few great centres which are representative of the entire country, and where the banking ability and banking capital is strong enough to give assurance of an undisputed security. Then, inasmuch as all this is so far practically accomplished, let us have a great bureau of United States currency which will issue notes upon these certificates whenever presented by any central reserve city, upon such conditions as will insure their prompt return and redemption whenever their need has ceased to exist.

The people will recognize immediately the validity of such a currency obtained in such a way. It will be the experiment that is attended with the least risk. All financial reforms are evolutionary. They must emerge gradually from established forms or the public gets confused and frightened. The well-grounded Clearing-House loan certificate expanding naturally into a small currency issued by the Government is the natural solution of a problem that only becomes perplexing when you apply it to remedies that are theoretical and not practical.

A central currency issued by the Government on Clearing-House loan certificates would not only meet the requirements of internal exchange but prevent by the very certainty of issue the fictitious demands that arise at such times.

—Thomas F. Vietor was elected a director of the National Park Bank of this city on Tuesday.

—The North River Savings Bank, at 31 West 34th Street, has lost an important officer in the death of Frederick N. Cheshire, its Secretary and Treasurer. Mr. Cheshire had been with the bank for over sixteen years. He was an able officer and his loss is deeply deplored by his colleagues.

—Indictments against the members of the firm of Tracy & Co. of this city, which failed on May 17 1909, were reported as returned by the Grand Jury of the Supreme Court, Criminal Branch, on the 1st inst. The three members, William W. Tracy, Frederick W. Parker and Robert D. Covington, have since surrendered themselves and were released under bail of \$10,000 each.

—E. S. A. de Lima, who has resigned as President of the Hungarian-American Bank of this city, is to become President of the Banco Mexicano de Comercio e Industria, of Mexico City, one of the strongest banking institutions of that city, with a capital of \$5,000,000. Among its directors are: Lic. Pablo Macedo, Rodolfo Stoecker, Hugo Scherer Jr., James Speyer of Speyer & Co. of New York, H. Clay Pierce, President of the Waters Pierce Oil Co.; Jacob Langeloth, President of the American Metal Co., Albert Ballin, President of the Hamburg-American Line and E. Heinemann and George Zwilgmeyer of the Deutsche Bank of Berlin.

—William E. Holloway has been elected President of the Hungarian-American Bank of this city, to succeed E. S. A. de Lima, resigned. Mr. Holloway comes from Montgomery, Ala., where he was President of the Montgomery Bank & Trust Co. Thomas E. Lovejoy, heretofore Vice-President of the latter institution, succeeds to the presidency.

—Seth E. Thomas, Treasurer of the Seth Thomas Clock Co., and a trustee of the Washington Trust Co. of this city, died on the 6th inst. He was in his sixty-ninth year.

—G. Lee Stout, one of the partners in the firm of A. O. Brown & Co. of this city, which failed in August 1908, was granted a discharge from bankruptcy, both as to individual and firm liabilities, on the 14th inst. It is stated that Mr. Stout is the first one of six partners to get a discharge.

—James A. Parker will retire as a Vice-President of the Old Colony Trust Company of Boston to become a partner on April 1 in the banking house of Charles Head & Co., members of the New York and Boston stock exchanges. Charles Head, the senior member of the firm, died last month. Mr. Parker has been associated with the Old Colony Trust for about ten years.

-It is announced that negotiations are under way for the merger of the Home Bank of Brooklyn Borough with the People's Trust Co. President Boody of the trust company is quoted in the Brooklyn "Eagle" as stating that his institution has for some time been considering the opening of a branch in the territory in which the bank is located, and that recently negotiations were opened by his company with the owners of the bank to take over the latter and operate it as a branch. The bank is located in South Brooklyn at 5324 Fifth Avenue. It has a capital of \$100,000, and under the Nov. 16 call reported deposits of \$454,089. It was organized in 1905; following the panic disturbances it closed its doors on Feb. 1 1908, but re-opened the ensuing June, and paid the final installment arranged for under the reorganization plan within six months of its resumption, and a year before the payment was due. The People's Trust Co. has \$1,000,-000 capital and nearly \$18,000,000 of deposits.

—Matthais H. Arnot, President of the Chemung Canal Trust Co. of Elmira, N. Y., died on the 15th inst. in his seventy-eighth year.

—The growth experienced by the Marine National Bank of Buffalo during the last ten years is illustrated in the following little table of resources, the figures in each case being those for January 31.

It will be seen that in the past decade aggregate resources advanced from \$6,929,352 to \$25,763,520. Stephen M. Clement is President, John J. Albright and John H. Lascelles, Vice-Presidents, and Clifford Hubbell, Cashier.

—J. Francis Day, who is Secretary of the Utica Trust & Deposit Company of Utica, N. Y., has in addition been made a Vice-President of the institution.

—The First National Bank of Boston, Mass., plans to increase its capital from \$2,000,000 to \$3,000,000. The new stock will be offered to the present shareholders at \$300 per share (par \$100), payment to be made on April 4. The stockholders will meet on March 14 to pass upon the proposition.

—Wm. S. Felton & Co. of Salem, Mass., have made their usual compilation of the statements of Salem banking institutions, the figures being those at the close of business January 31 1910, the date of the last return to the national and state officials. The banking capital of the national banks and trust companies is reported by them as \$850,000 and the surplus and undivided profits \$806,884. The total deposits of the national banks and trust companies are \$6,536,067—a loss of \$364,435 since November 16, and of the two savings banks \$16,701,336, an increase of \$430,466. The resources of the two co-operative banks are \$845,471, an increase of \$7,096.

—The Beverly National Bank of Beverly, Mass., has arranged to increase its capital from \$200,000 to \$300,000. The proposition was ratified by the stockholders on Jan. 11, and the enlarged capital will become effective on April 15. The additional stock will be issued at \$150 per \$100 share, the premium of \$50,000 going to surplus.

—The Rutland County National Bank of Rutland, Vt., has reduced its capital from \$300,000 to \$100,000. The change was indorsed at a special meeting of the stockholders on Dec. 27 and went into operation on the first of the year. With its reduced capital, the bank reports a surplus of \$50,000 and undivided profits of \$7,500. Henry F. Field is President; E. C. Lewis, Vice-President, and Carl S. Cole, Cashier.

—Henry C. Stroup, formerly President of the Farmers' & Mechanics' National Bank of Philadelphia, died on the 4th inst. Mr. Stroup was eighty-eight years of age. He resigned the presidency of the bank in 1904, after serving the institution continuously for fifty years. He had remained on its board of directors up to the time of his death.

—Samuel L. Clark has been elected agent to wind up the affairs of the failed National Deposit Bank of Philadelphia. The institution suspended July 14 1908. The final dividend to the depositors, making the aggregate 100%, was distributed in December last, the city of Philadelphia receiving \$3,462 65—\$2,000 representing the final payment on the \$40,000 deposit it had in the institution at the time it closed and \$1,462 65 being the interest.

—A massive silver punch bowl was presented on the 4th inst. to George H. Earle Jr. by the directors and officers of the Tradesmen's National Bank of Philadelphia as an expression of their appreciation of his services during the fourteen years he was President of the institution. Mr. Earle retired from the presidency last month.

—In a statement issued by the Trenton Banking Co. of Trenton, N. J., on the 101st anniversary of the birth of President Lincoln (Feb. 12 1910), it is noted that on that date 105 years ago the institution elected its first board of directors, who in turn elected Isaac Smith as President, and began the business which has since continued uninterruptedly. One evidence of the bank's steady growth and prosperity is advanced in the fact that on January 3 1910 it paid its 202nd dividend. When the institution started it had a capital of \$59,580 and no surplus. On the 12th inst. its capital is reported as \$500,000, its surplus and profits as \$504,048, its deposits as \$3,302,703 and its aggregate resources as \$4,511,399. The officials are John A. Campbell, President; Henry W. Green Vice-President; Robert W. Howell, Cashier, and Ira Frost, Assistant Cashier.

-Negotiations have been entered into for the merger of the International Trust Company and the Baltimore Trust & Guarantee Company of Baltimore into a new organization, to be formed under the name of the Baltimore Trust Company. The International has a capital of \$1,500,000 and surplus and profits of about \$1,100,000, and the Baltimore Trust & Guarantee a paid-in capital of \$800,000, with surplus and profits of about \$2,174,000. The plans with respect to the proposed company will be submitted for the approval of the stockholders on the 28th inst. They provide, according to the Baltimore "Sun," a capital of \$1,000,000 and a surplus of not less than \$2,500,000; the stock is to be in 20,000 shares of a par value of \$50 each, 10,000 of which will go to the stockholders of the International and 10,000 to those of the Baltimore Trust & Guarantee Company. Besides this there is to be a distribution of \$1,665,000 among the shareholders of the uniting companies, the stockholders of the Baltimore Trust & Guarantee receiving \$970,000, the

rest being divided among the International's stockholders. The officers slated for the new company are Thomas H. Bowles, President; Douglas H. Gordon, First Vice-President; George C. Morrison, Second Vice-President; Samuel C. Rowland, Third Vice-President, and Charles D. Fenhagen, Secretary and Treasurer. Messrs. Bowles and Morrison are respectively President and First Vice-President of the Baltimore Trust & Guarantee Co.; Messrs. Gordon, Rowland and Fenhagen are President, Vice-President and Treasurer respectively of the International.

-The Bank of Pittsburgh (National Association), Pittsburgh, Pa., has rounded out 100 years, having completed an existence of a century on the 10th inst. In celebration of the event the bank distributed souvenirs to its patrons and friends visiting the institution, and an exhibition was held of documents and papers identified with the early history of the bank. The phrase, "The oldest bank in the United States west of the Alleghany Mountains," is a familiar desigtion the institution uses. Harrison Nesbit, who resigned as a national bank examiner last May to become Vice-President of the institution, was elected President, succeeding Wilson A. Shaw, on the day of the anniversary. Mr. Shaw, who desired to be relieved of the duties devolving upon the head of the bank, has become First Vice-President and Chairman of the Board. The management otherwise consists of James J. Donnell, Vice-President; W. F. Bickel, Cashier; J. M. Russell, J. D. Ayres and E. C. Morey, Assist-Cashiers; and George F. Wright, Auditor.

—The Exchange National Bank of Pittsburgh has added considerably to its business during the past seven months, as the appended table showing the deposits reported to the Comptroller of the Currency under the four last calls indicates:

Deposits. Deposits. Deposits. St., 966,035 Nov. 16, 1909 \$3,666,227 Sept. 1, 1909 2,855,153 Jan. 31, 1910 3,886,636 Deposits, it will be seen, have increased since June last \$1,920,601, or 98%. This institution has a capital of \$1,200,000 surplus and undivided profits of \$845,500 and aggregate resources of \$6,667,498. Joseph W. Marsh is President; John Moorhead Jr., Albert H. Childs and Ralph H. Binns, Vice-Presidents; Alexander Dunbar, Cashier, and S. N. Kreider, Assistant Cashier.

—The deposits of the First National Bank of Pittsburgh have increased over four millions of dollars during the past year, having advanced from \$19,236,835 on Feb. 5 1909 to \$23,339,022 on January 31 1910. The institution has a capital of \$1,000,000 and surplus profits of \$2,167,351.

—The amount due to the City of Cleveland by the South Cleveland Banking Co. of that city, which failed on Jan. 6, is reported to have been paid in full. The "Leader" states that the city's account was discharged on the 14th inst.; with principal and interest combined it amounted to a little over \$127,000 at the time of the failure. The deposit was secured by real estate mortgage bonds. U. G. Walker, President of the company, and William G. Duncan, Treasurer, pleaded not guilty on the 2d inst. to a charge of perjury, on which they were said to have been indicted last month. The charge stated concerns the alleged filing of a false statement to the Banking Department in Dec. 1908.

—Harrison R. Newcomb, who resigned last month as President of the Citizens' Savings & Trust Co. of Cleveland, Ohio, owing to impaired health, died on the 4th inst. Mr. Newcomb was one of the organizers of the Savings & Trust Co., and when it consolidated in 1903 with the Citizens' Savings & Loan Association, he became President of the resultant institution, the Citizens' Savings & Trust Co. He was in his sixty-eighth year.

—Frank P. Glazier, formerly President of the failed Chelsea Savings Bank of Chelsea, Mich., and ex-Treasurer of the State of Michigan, was sentenced on the 5th inst. to serve from five to ten years' imprisonment. The accused was convicted a year ago of misappropriating funds of the State (to the amount, it is said, of \$685,000) in placing the money on deposit with his institution, which was held to be an illegal depository. A motion for a stay of judgment was overruled by the Court. The bank failed in December 1907.

—The specifications for the new building of the Harris Trust & Savings Bank of Chicago were given out this week to the contractors for estimating purposes, and as soon as

they have been returned and passed upon by the institution's building committee, the work of demolishing the present structure, to make way for the proposed building, will start. The project has been referred to heretofore in this department, our issue of Aug. 14 of last year having contained an item with regard thereto. The site the building is to occupy is on the south side of Monroe Street between Clark and La Salle streets. The building which, together with the land, will cost approximately \$3,000,000, will have a frontage of 90 feet and will extend south 189 feet to an alley between Monroe and Adams streets. It will be twenty stories in height, rising 260 feet above the sidewalk, and will rest on caisson foundations which will go down 110 feet to bed-rock. The construction will be fireproof throughout, while the superstructure will be of steel. The exterior finish of the first five floors will be of pink granite, highly polished and decorated with statuary bronze, with mammoth granite columns 5 feet 8 inches thick at the base, and rising to a height of more than forty feet. Above the granite work will rise the main shaft of red Roman brick, capped by ornamental terra cotta. The quarters of the Harris Trust & Savings Bank will be the ground floor and a commodious balcony overlooking the main floor. The public space of the banking offices will be finished in Italian marble, and a bank counter and screen of marble and bronze will divide this space from the officers' quarters and the counting room. The balcony will afford facilities for the bank's clerical force. Acommodious basement will be used by the bank for its safety deposit vaults, and below this basement there will be two sub-basements, the lower one containing the mechanical department of the building. Much of the space in the upper floors has already, it is said, been rented for office purposes.

—The application to organize the La Salle Street National Bank of Chicago, referred to in these columns Feb. 5, was approved at Washington on the 5th inst. The La Salle Street Trust Co., which is to be allied with the bank, has also received authority from the State Department to proceed with its organization, and it is stated that the two institutions plan to begin business in April. The capital in each case will be \$1,000,000, and the selling price of the stock has been fixed at \$125 per share, so that each institution will have a surplus of \$250,000. Those serving as the incorporators of the bank are C. B. Munday, Jno. R. Farthing, William J. Moxley and William Lorimer Jr.

—Edward M. Lacey, an Assistant Cashier of the Commercial National Bank of Chicago, and son of Edward S. Lacey, Chairman of the board of directors of that institution, died on the 4th inst. He was twenty-eight years of age. He graduated from Yale in 1904.

—The address of George E. Roberts, President of the Commercial National Bank of Chicago, dealing with the "Objections to a Postal Savings Bank," and delivered last June at the annual meeting of the Minnesota Bankers' Association, has been printed in pamphlet form. Reference to the paper was had in these columns on June 26.

—The Michigan Avenue Trust Co. of Chicago, which has been formed by interests identified with the Colonial Trust & Savings Bank of that city, is slated to begin business within the next few months. The new institution has been organized with \$200,000 capital and \$50,000 surplus. Its quarters will be on Michigan Avenue near 22d Street.

—Howard O. Edmonds, heretofore an Assistant Secretary of the Northern Trust Co. of Chicago, Ill., has been elected a Vice-President of the institution.

—The Central Trust Company of Des Moines, Iowa, organized last month, has commenced business. The company has a capital of \$200,000 but no surplus is to be paid in at this time. It will confine itself to a general trust business in accordance with the law under which it is formed, which does not permit the conduct of a banking business. The officials are J. D. Whisenand, President; E. E. Clark, Vice-President and L. B. Bartholomew, Secretary. Mr. Whisenand is Vice-President of the Central State Bank of Des Moines and Mr. Clark is associated with the Bankers' Life Association.

—The Kansas Bankers' Association will hold its twenty-third annual convention at Topeka on May 26 and 27. W. W. Bowman of Topeka is Secretary of the organization.

—The Drovers' National Bank of Kansas City, Mo., has increased its capital from \$200,000 to \$300,000. We are advised that, following the agreement of the stockholders to the proposition, the additional stock was paid in in December. The surplus and undivided profits of the institution, which began business several months ago, are \$35,000.

—The Mississippi Valley Trust Co. of St. Louis, has enjoyed a marked increase in its business during the past year as the appended table indicates.

Date.
Jan. 31 1910 \$3,000,000 \$5,541,479 \$20,230,001 \$28,807,855
Nov. 27 1908 \$3,000,000 \$5,332,105 15,799,438 24,191,310
As shown in the foregoing, deposits during the thirteen months advanced from \$15,799,438 to \$20,230,001, representing an addition of nearly four and one-half million dollars. Aggregate resources increased from \$24,191,310

Note.—"Surplus" includes all undivided profits. "Reserve on deposits" includes, for both trust companies and State banks, not only cash items, but amount due from reserve agents. Trust companies in New York State are required by law to keep a reserve proportionate to their deposits, the ratio varying according to location as shown below. The percentage of reserve required is computed on the aggregate of deposits, exclusive of moneys held in trust and not payable within thirty days, and also exclusive of time deposits not payable within 30 days, represented by certificates, and also exclusive of deposits secured by bonds of the State of New York. The State banks are likewise required to keep a reserve varying according to location, but in this case the reserve is computed on the whole amount of deposits, exclusive of deposits secured by bonds of the State of New York. of deposits, exclusive of deposits secured by bonds of the State of New York.

The Money Market and Financial Situation.—The advancing tendency of prices, which was mentioned as a new development in the security markets last week, has continued with some slight interruptions. It is reported that purchases for foreign account have been more conspicuous than of late and there has undoubtedly been more or less buying for investment here; but it seems probable that such purchases have not been very extensive and that the market continues to be largely controlled by professional traders operating on the floor of the Stock Exchange.

The Government report of our foreign trade for the month of January, given out on Thursday, attracted attention, owing to its unfavorable comparison with reports for the

corresponding period in recent years.

In view of this statement the resumption of gold exports is in no sense surprising and \$1,500,000 has been engaged

this week for shipment to Argentina.

On the other hand latest reports of railway earnings show that a large traffic is being handled and suggest that recent statements to the effect that business activity is waning were either erroneous or greatly exaggerated. Moreover, the bank clearings for the country show an increase of 21.4%, and it is reported to-day that large orders for railway equipment, including locomotives, have recently been placed.

The bank statement at the close of last week showed a surplus of over \$29,000,000 and the money market has

continued easy.

The open market rates for call loans at the Stock Exchange during the week on stock and bond collaterals have ranged from 2½ to 3%. To-day's rates on call were 2½@3%. Commercial paper quoted at 4½@4½% for 60 to 90-day endorsements, 4½@4¾% for prime 4 to 6 months' single names and 5@5½% for good single names.

The Bank of England weekly statement on Thursday showed an increase in bullion of £749 431 and the percentage

showed an increase in bullion of £749,431 and the percentage of reserve to liabilities was 53.04, against 51.69 last week.

The rate of discount remains unchanged at 3%, as fixed Feb. 10. The Bank of France shows a decrease of 1,425,000 francs gold and 1,550,000 francs silver.

Note.—The Clearing House now issues a statement weekly showing the actual condition of the banks on Saturday morning as well as the above averages. These figures, together with the returns of separate banks, also the summary issued by the State Banking Department showing the condition of State banks and trust companies not reporting to the Clearing House, appear on the second page preceding.

Foreign Exchange.—Discount rates abroad have tended upwards this week, in spite of better bank statements. Foreign exchange here, after having remained inactive at abnormally low levels, has now advanced sharply.

To-day's (Friday's) nominal rates for sterling exchange were 4 85 for sixty day and 4 87½ for sight. To-day's actual rates for sterling exchange were 4 8440@4 8450 for sixty days, 4 8640@4 8645 for cheques and 4 8660@4 8670 for cables. Savannah, buying, 75c. per \$1,000 discount; selling, 75c. per \$1,000 premium. Montreal, 31 1/4e. per \$1,000 premium. State and Railroad Bonds.—No sales of State bonds have

been reported at the Board this week. But for unusual activity in two or three issues, the market

for railroad and industrial bonds would have been exceptionally dull and narrow.

American Tobacco 4s have been the conspicuous feature, advancing from $76\frac{1}{2}$ to $85\frac{3}{4}$, and subsequently losing 3 points of the advance. No cause for the movement is known unless it be based on the expectation that the impending Supreme Court decision will result in these bonds being redeemed at par. At the same time the 6s have declined over a point. Atlantic Coast Line—L. & N. coll. 4s, Erie conv. 4s, Series A, and Interboro.-Met. 4½s have been active and advanced 2 points or more. Wabash ref. & ext. 4s are one point higher. Other changes are fractional

United States Bonds.—Sales of Government bonds at the Board are limted to \$10,000 2s reg., 1930, at 1011/8. The following are the daily quotations; for yearly range see third page following.

Railroad and Miscellaneous Stocks.—Except for a reactionary tendency on Tuesday and some irregularity to-day, the stock market has been strong throughout the week and closing prices are, for the active list, generally from 2 to 6 points higher than last week. There has been some investment buying, including that for foreign account, but a large proportion of the business reported continues to be largely of a professional character.

Reading has been the conspicuous feature. Nearly 227,000 shares were traded in on Wednesday and it advanced within the week 11% points to a new high figure for the year Interboro-Metropolitan has also been more active than usual and the preferred moved up nearly 8 points. Union Pacific sold 75% points higher to-day than on Monday; St. Paul 434 points, and North West, Missouri Kansas & Texas, Chesapeake & Ohio and Brookl n Rapid Transit from 3 to 3½ points higher.

The industrial list has followed the general trend of the market with fluctuations generally within a narrower range

than those me tioned. For daily volume of business see page 493.

The following sales have occurred this week of shares not represented in our detailed list onthe pages which follow:

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every SFEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the electric railways are brought together separately on a subsequent page.

Net Earnings Monthly to Latest Dates.—In our "Railway Earnings" Section, which accompanies to-day's issue of the "Chronicle" as a special Supplement, we print the December returns of earnings and expenses (or in the absence of the December figures those for the latest previous month) of every steam-operating railroad in the United States which is obliged to make monthly statements to the Inter-State Commerce Commission at Washington.

The Inter-State Commission returns are all on a uniform basis, both as to revenues and expenditures, and possess special utility by reason of that fact. In a number of instances these figures differ from those contained in the monthly statements given out by the companies themselves, for publication, and in which the accounts are prepared in accordance with old methods of grouping and classification pursued in many instances for years. We bring together here (1) all the roads where there is a substantial difference between the two sets of figures, so that those persons who for any reason may desire to turn to the company statements will find them readily available. We also give (2) the returns of such roads (even where the figures correspond exactly with those in the Inter-State Commerce reports) which go beyond the requirements of the Commission and publish their fixed charges in addition to earnings and expenses, or (3) which have a fiscal year different from that of the Inter-State Commerce Commission in which latter case we insert, the road so as to show the results for the company's own year. We likewise include (4) the few roads which operate entirely within State boundaries, and therefore do not report to the Federal Commission, and (5) Mexican and Canadian companies. We add (6) the roads which have issued their owns statements for December, but have not yet filed any returns for that month with the Commission. Finally (7) we give the figures of any roads that have already submitted their January statement.

ANNUAL REPORTS.

Metropolitan West Side Elevated RR., Chicago.

(Report for Fiscal Year ending Dec. 31 1909.)

Howard J. Hetzler, the outgoing President, reports:

Howard J. Hetzler, the outgoing President, reports:

Increase in Business.—The traffic increased materially during the last year. The passengers handled during the month of December exceeded all previous records.

Maintenance and Additions.—Twelve thousand track ties and 3,000 guard rails were used during the year and 6½ miles of the structure were painted. New stations have been built at Hannah St., Lombard Ave., Austin Ave. and Home Ave. on the Garfield Park branch. Additions have been made to five stations on the Garfield Park and Douglas Park branches.

Financial.—During the year deductions from income were made as follows: Collateral loan was reduced from \$400,000 to \$300,000, and in addition nearly \$100,000 expended for cost of road and property. These latter expenditures include the cost of track elevation on the Douglas Park branch, the purchase of property on Congress St. for division offices, additions and changes to stations, equipment and safety appliances.

[Mr. Hetzler stated after the meeting that the management does not contemplate the sale of extension mortgage bonds at this time.]

The company states that, to make a satisfactory comparison, the results for the period prior to July 1 1909 are stated as nearly as possible in accordance with the rules of the "uniform system" of accounting, which became effective July 1 1909. "The decrease in other income is largely due to the policy, inaugurated July 1 1909, of not crediting to the income of the company the interest upon the advances made for the construction of the New York & Long Island RR. Tunnel."—V. 89, p. 1661.

Du Pont de Nemours Powder Co.

(Report for Fiscal Year ending Dec. 31 1909.)

The report of the company for the calendar year 1909, including the remarks of President T. C. du Pont and the income account and balance sheet for each year since the reorganization of the company in August 1903, will be found at length on a previous page.

The report states that since the reorganization there has been re-invested in new factories and in the general development of business the sum of \$13,811,909, in addition to which the property has been further increased through the sale of \$3,437,000 common stock. This increase in investment, aggregating \$17,248,909, is equal to approximately \$61 50 per share of common stock now outstanding. The company's bonds and preferred stock were listed on the New York Stock Exchange in October last.—V. 89, p. 1143.

Pressed Steel Car Co., New York and Pittsburgh.

(Report for Fiscal Year ending Dec. 31 1909.)

President F. N. Hoffstot Feb. 16 1910 wrote in substance: General Results.—Our gross sales for the fiscal year were \$10,346,816. About 75% of this business was done during the second and fourth quarters of the year for the reason that during the first quarter after the depression of 1908 the works were not in full operation, and the output for the third quarter was small, owing to labor difficulties at our McKees Rocks works, which began July 13 and continued about sixty days, causing a very limited The net profits for the year derived from all sources were A 7% dividend on the preferred stock was paid in four

31,954,853. A 7% dividend on the preferred stock was paid in four quarterly installments.

Your company at present has a substantial amount of business booked on which we expect to make a reasonable profit, and we believe car buying will continue in a regular manner during 1910. The buying of cars during 1909 was considerably below the average yearly requirements for the last ten years.

1909 was considerably below the average yearly requirements for the last ten years.

Payment of Notes, &c.—The ten-year purchase money mortgage, \$235,-000, matured in July and was paid, and the ninth installment, due Feb. 1 1910, of your mortgage notes was paid in August last, leaving only \$500,000 due Feb. 1 1911 of the original issue of \$5,000,000 notes.

Improvements, &c.—During the year \$245,436 was expended on improvements and betterments and almost as much has been charged to expense account, to cover replacement and repair to the different buildings and appliances. By way of depreciation there has been credited to properties and franchises during the year \$120,000.

Canada Car Co., Ltd.—During the summer two important car-manufacturing concerns in Canada were acquired by Canadian capitalists who urged that the Canada Car Co., Ltd., be merged with them. After many conferences your management sold your company's shares in the Canada Car Co. to the Canadian capitalists. All the money your company had invested in the Canada Car Co., with interest at 7%, was realized, and in addition \$1,700,000 was received for the common stock, and new contracts covering patents and new business relations were entered into with the purchasers. All the consideration was paid in cash with the exception of \$500,000 in notes which mature in yearly installments of \$100,000, over a period of five years. Our relations with the new owners, the Canadian Car & Foundry Co. (V. 90, p. 374, 170; V. 89, p. 1283), Ltd., are most satisfactory.

Securities Owned — The reduction in this account is due to the sale of the

Car & Foundry Co. (V. 90, p. 374, 170; V. 89, p. 1283), Ltd., are most satisfactory.

Securities Owned.—The reduction in this account is due to the sale of the Canada Car Co. shares and the payment by the Penn. Malleable Co. of its bonds held by your company. The value placed on the Penn. Car Wheel Co. stock has been adjusted; this plant did not operate during the year, and as the lease of the ground expires next year we contemplate disposing of the buildings, as the rolled steel wheel has materially reduced the demand for cast iron wheels.

Pennsylvania Malleable Co.—The entire property of this company, 86 1-3% of whose stock is owned by your company, has been leased to the Pennsylvania Car Wheel Co. at a fixed annual rental for a period of 25 years and machinery has been ordered which will materially increase the efficiency of operation of this works and reduce the cost of its output.

Western Steel Car & Foundry Co.—This company started to operate its Hegewisch plant late in the fall, repairing cars for different roads, but as the buying of new equipment in the territory tributary to this plant has been limited, very little business was taken and this company made no earnings during the past year. It now has a fair amount of business on its books. [A press report in January last announced that Alvin C. McCord, who had recently held 35% of the capital stock of the above company, had sold out his interests to F. N. Hoffstot, President of the Pressed Steel Car Co., giving to the latter interests the entire control of the company.—Ed.]

Patients.—During the year 24 patents were taken out, several suits have been settled by defendants paying us royalties, and two suits are pending in the higher courts. Nearly all types of cars now being manufactured embody some features covered by our patents and we shall endeavor to protect your company's rights in every instance.

Steel Passenger Cars.—This department, except for the disturbances during the summer, has been operated at its full capacity and with profit. It has

(The) Mackay Companies, New York.

(Report for Fiscal Year ending Dec. 31 1909.) President Clarence H. Mackay Feb. 15 1910 wrote in brief:

President Clarence H. Mackay Feb. 15 1910 wrote in brief:

Cable Lines.—The Commercial Cable Co. (the entire capital stock of which is owned by the Mackay Companies) has during the past year renewed on safer and more direct routes the vulnerable parts of two of its trans-Atlantic cables, laid in 1884. The first step was the laying of a new cable from New York City to Newfoundland and thence to the eastward of the "Flemish Cap." in mid-ocean, where it was connected with one of the 1884 cables. About 1,000 miles of cable from the Flemish Cap to Nova Scotla was thus released, and practically all of it was recovered. In December 1909 this old cable, re sheathed and re-taped equal to new, was joined to the second of the two 1884 cables, near the Flemish Cap, and then laid to Newfoundland and southwards towards New York City, until it again met the second cable, so that this cable extends from Waterville, Ireland, to Newfoundland, and thence to Canso and New York During the coming spring the old cable released will be re-claimed, re-sheathed, re-taped, and used to complete the extension of this second cable to New York City direct from Newfoundland. This change gives the company the only submarine cables direct from New York City ain Newfoundland to Europe, and also gives it such diversified routes for its five Atlantic cables as to render almost impossible the disruption of all the cables at the same time.

Land System.—Your land line system also shows great development during the past year. An entirely new pole line on a new route has been constructed from Sacramento, Cal., to Reno, Nev., over the precipitous Sierra Nevada mountain range. In addition to the usual wires there have been strung from Reno to Sacramento and San Francisco two heavy copper wires, each weighing 435 lbs. to the mile and capable of performing both telephone and telegraph service at one and the same time. This costly line from Sacramento to Reno will be extended early in the spring eastward to Salt Lake City, Utah. This extension will also ca

holdings of stock in the American Telephone & Telegraph Co, and that will be done. [A syndicate, it is said, has been organized to purchase the stock, a d, reports say, has already marketed over 75% of the block.—Ed.] The Postal Telegraph system will continue to be free and independent, prepared to maintain the competition which it has furnished for 25 years.

pendent, prepared to maintain the competition which it has furnished for 25 years.

Extent of System at End of First Quarter Century.—The close of 1909 completes a quarter of a century's existence of the Commercial Cable-Postal Telegraph systems. Those systems to-day operate 350,125 miles of wire and 28,379 miles of trans-Atlantic and trans Pacific cable in and to America, Burope and Asia. By connections they reach every part of the world. At the Azores Islands connection is made with the Eastern and Western telegraph systems for Southern Europe, Asia, Africa, Australia and South America. At London, with the Great Northern Telegraph Co., for Scandinavia, Russia in Europe and Russia in Asia. In Canada with the Canadian Pacific Ry. Co. to all parts of Canada. At the Bonin Islands with the Japanese Government system. At Shanghai with the Chinese Government system. They also connect with the German Atlantic and Pacific systems, the British Pacific Cable, the Halifax & Bermudas Cable Co., the Direct West India Cable Co. and the telegraph lines of the Newfoundland Government. Your system extends two-thirds around the world, and with two of its allied companies it encircles the globe.

[Accompanying the annual report are two pamphlets, one giving an account of the 25th anniversary celebration held Jan. 8 and the other entitled "History of Competition," containing extracts from the testimony of Clarence H. Mackay given Jan. 21 1910 before a committee of the New York State Legislature.—Ed.]

New York Air Brake Co.

(Report for Fiscal Year ending Dec. 31 1909.)

President C. A. Starbuck, New York, Feb. 14 1910, wrote:

Practically all the profits of the year have been made in the past four months, as during the first eight months the railroads were unable to finance their requirements. The change in conditions came late in the summer, and since then our business has steadily grown, and we nowhave unfilled orders aggregating over \$1,250,000. We believe that the year 1910 will be a prosperous one for the company. A large sum has been expended in putting our machinery in good repair, all of which has been charged off. The company has made many improvements in its brake apparatus, necessitated by the increase in train-load and motive power, on which it has taken valuable patents, both in this country and in Europe. Chicago Pneumatic Tool Company.

(Report for Fiscal Year ending Dec. 31 1909.)

Pres. W. O. Duntley, Chicago, Feb. 11 1910, wrote:

The indebtedness (exclusive of the sinking fund installment of the general mortgage) has been reduced during the year by \$147,101. There exist no contingent liabilities for bills discounted, nor guaranties to banks for foreign subsidiary companies. The company is on a substantial basis, with sufficient working capital for prospective requirements. The sum of \$134,573 has been appropriated for depreciation, maintenance and renewals. The annexed statement of profits, subdivided for the first and second half of the year, indicates the improvement in business conditions experienced during the last six months of the year. The orders already on hand reasonably assure a larger volume of business for 1910. All the plants are being operated to their full capacity. The foreign subsidiary companies are in a prosperous condition and are gradually developing an increased demand. demand.

President James E. Caldwell, Nashville, Jan. 31 1910, wrote in substance:

In presenting the report of operations for 1909, attention is called to the fact that for 20 years, without break, the growth has been continuous, with the present figures the best in every respect. (J. G.) Brill Company, Philadelphia.

(Report for Fiscal Year ending Dec. 31 1909.)

President James Rawle, Phila., Feb. 9 1910, wrote in brief:

The output from the five plants owned and operated by the company amounted to \$4,261,204, contrasting as follows:

1909. 1908. 1907. 1906.

Output'______\$4,261,205 \$3,845,174 \$9,211,826 \$6,908,346

The result, in spite of an output far below normal, and in spite of the very low prices in the later part of 1908 and during most of 1909, showed a substantial profit. The subsidiary companies showed a loss; the Stephenson plant was closed most of the year and the other three were operated at only a small part of their capacity. The condition of the plants is excellent. The excellent financial condition of the company needs no comment. The outlook for profitable work is much improved. On Dec. 31 1908 the combined work on hand amounted to \$1,717,338. On Feb. 1 1910 the combined companies had orders on the books and in process of completion amounting to \$2,755,776, an increase of \$1,038,438.

Diamond Match Company.

(Report for Fiscal Year ending Dec. 31 1909.)

Pres. Edw. R. Stettinius, New York, Feb. 9 1910, wrote: General Results.—The earnings for the year were \$1,767,646, as compared with \$1,894,724 for 1908. These amounts were determined after deducting from gross earnings for repairs and replacements \$356,798 and for depreciation, \$120,297, a total of \$477,095, contrasting with \$385,187 (\$298,506 and \$86,681 respectively) in 1908. The increase of \$58,292 in repairs and replacements is partially due to floods at Stirling and Red Bluff. There was appropriated from the net earnings for 1909 \$150,000 for general reserve account and \$150,000 for depreciation reserve account.

Balance Sheet.—During the year the net additions and improvements to plants amounted to \$403,481. The value on the books of investments sold

and liquidated was \$402,611. This includes the preferred shares of Bryant & May, Ltd., which were sold at a profit of \$47,864 in excess of the figures at which they were carried.

The net amount employed in the California lumber operation in inventories, manufactured lumber, accounts and bills receivable and cash Dec. 31 1909 was \$1,118,098 and is included in the balance sheet herewith. The increase in the accounts receivable partially reflects the materially greater volume of sales of matches during 1909; similar increases involving additional capital must be anticipated as the business expands from year to year.

additional capital must be anticipated as the business expands from year to year.

Indebtedness.—The amount owing Bryant & May, Ltd., as at Dec. 31 1909, on account of the purchase of their interest in the California lumber operation, was \$1,524,356, and is payable in equal semi-annual installments of \$72,900 each. This indebtedness was reduced during the year by \$425,608, of which \$352,708 comprised part of the proceeds arising from the sale of the preferred shares of Bryant & May, Ltd., which had been set aside for this purpose.

Coupon notes aggregating \$500,000 were retired and canceled at maturity July 1 1909.

RAILROADS, INCLUDING ELECTRIC ROADS.

Albany & Northern Ry.—Sale.—See Georgia Southwestern & Gulf RR. above.—V. 83, p. 1522.

Baltimore & Ohio RR .- Approximate Six Months' Statement.—The following statement for 6 months ending Dec. 31 1909 is pronounced approximately correct:

Improvements.—The board of directors last week authorized expenditures aggregating about \$8,000,000.

Of the amount, \$5,000,000 is for improvements on the roadway and \$3,000,000 for equipment, making, with the \$13,000,000 order for locomotives and cars now being filled, a total of \$16,000,000 for new equipment. There are also other large amounts to be expended for improvements in various parts of the system, including the construction of a third track over the Alleghanies. It is reported that a conservative estimate of present requirements would be \$30,000,000 to \$35,000,000, for which securities may possibly be issued within a few months.—V. 90, p. 166, 107.

Belton & Temple (Tex.) Traction Co.—Receivership.— Judge Maxey in the Federal Court at Austin, Tex., on Feb. 8 appointed a receiver in foreclosure proceedings brought under the first mortgage for \$300,000.

Boston RR. Holding Co.—Application to Issue Securities. -The company has petitioned the Massachusetts Railroad Commission for permission to issue \$680,400 additional stock, increasing the same from \$2,421,600 to \$3,102,000, to acquire \$2,786,800 additional common stock and \$71,700 preferred stock of the Boston & Maine. The company has agreed to pay \$125 in 4% bonds and \$30 in stock for each share of Boston & Maine common stock and \$125 in bonds and \$37 in stock for each share of preferred stock. Compare V. 90, p. 446, 371.

Boston & Maine RR .- Authority Asked to Purchase Control Leased Road.—The Massachusetts Railroad Commission

has been requested to sanction the purchase of a majority of the (\$3,099,800) capital stock of the Worcester Nashua & Rochester RR., a leased line.

Purchase of Stock by Boston Holding Co.—See that company above.—V. 90, p. 446, 235.

Brooklyn Rapid Transit Co.—Large Purchase by Boston Interests.—The "Boston News Bureau" of Feb. 17 says:

An important new Boston interest has within the last few months bought into Brooklyn Rapid Transit stock after making careful investigation of the company's earning and physical condition. It is estimated that this new interest holds at present between \$2,500,000 and \$3,000,000 stock. There is one larger Boston interest, the two together holding approximately \$7,500,000, or 17%, of the \$45,000,000 stock. In all, the New England investment is estimated at fully 25% of the outstanding stock.—V.90, D. 302, 166.

Central RR. of New Jersey .- New Director .- Henry Graves Jr. has been elected a director, succeeding the late H. McK. Twombly.—V. 90, p. 236.

Chesapeake & Ohio Ry .- Report Pronounced Premature .-The statement that the company as owner of one-sixth of the majority common stock of the Hocking Valley Ry. is negotiating with the roads owning the remainder of the majority interest with a view to controlling an outlet for its coal to the Great Lakes is pronounced "premature and unauthorized."

Improvements, &c.—The directors on Thursday authorized the expenditure of about \$5,000,000 for further improvements, including double-tracking, enlargement of freight yards, additional side-tracks, &c. An issue of \$30,000,000 "general funding and improvement" bonds was created early last year, of which \$11,000,000 were sold (V. 87, p.

Chicago Rock Island & Pacific Ry.—See White & Black River Valley RR. below.—V. 90, p. 302, 236.

Cleveland (Electric) Ry .- Ordinance Approved at Referendum.—The electors on Feb. 17 at the referendum election approved the Tayler ordinance passed Dec. 18 last granting a new 25-year franchise to the company at an initial fare of 3 cents with 1 cent extra for transfers without rebate.

The vote is reported to be 27,307 in favor to 19,197 in opposition. The 3-cent fare went into effect this morning. Compare V. 89, p. 1667.—V. 90, p. 302, 167.

Columbus (O.) Railway & Light Co.—Remaining Treasury Common Stock Offered.—Notices have been sent to the stockholders of both classes offering them the right to subscribe for the \$500,000 common stock held in the treasury pro rata at par to the extent of one-thirteenth of their holdings.

The stock is to be sold to reimburse the company for expenditures for new cars and other improvements. Warrants for the amount of stock each stockholder is entitled to subscribe for will be mailed to each stockholder, and these must be surrendered with the subscription between March 1 and 15.—V. 90, p. 303.

The road extends from Egan to Cleburne, Tex., 10 miles, and has been operated by the M. K. & T. under a contract terminable at 30 days' notice. Stock, \$10,000; bonds, \$150,000.—V. 83, p. 213.

Delaware RR.—Lease.—The stockholders on Feb. 15 voted to lease the road to the Philadelphia Baltimore & Washington on terms stated in V. 90, p. 447, 167.

Denver Laramie & Northwestern Ry.—Re-incorporation. The shareholders at a meeting held in Laramie, Wyo., on Feb. 10 voted to transfer the property to the Denver Laramie & Northwestern Railroad, incorporated at Cheyenne on Feb. 9, with authority to extend the line to Seattle. It is proposed to complete the road to Laramie this year, building 150 miles.

The organization of the new company is variously reported as accompanied by an increase in the authorized "capitalization from \$5,000,000 to \$35,000,000," and by "an increase of the capital stock from \$5,000,000 to \$30,000,000, of which \$22,500,000 is to be issued in bonds for building 750 miles of road. The old company had in operation 43 miles of road, Denver to Milliken, with 12 miles to Greeley under construction; capital stock, \$5,000,000, all issued; bonds authorized, \$3,300,000, at \$15,000 per mile.

El Paso (Tex.) Electric Co.—Initial Dividend.—An initial mi-annual dividend of 2% on the \$1,000,000 common on the \$1,000,000 common stock has been declared, payable March 15 to stockholders of record Feb. 28.-V. 90, p. 109.

Georgia Railway & Electric Co.—Report.—For year:

Georgia Southwestern & Gulf RR.—Acquisition.—The company has acquired control of the Albany & Northern Ry., extending from Albany northeast to Cordele, 37 miles.

The company proposes to build a line from Albany southwest to St. Andrew's Bay, on the Gulf of Mexico, 160 miles, with a branch to Dawson, Ga. W. M. Legg has been elected Vice-Pres. and Gen. Mgr. of the Albany & Northern, succeeding J. S. Crews, who remains Treasurer. Compare V. 90, p. 109.

Grand Trunk Ry. of Canada.—Dividend on Second Preference Stock.—Cable advices state that the directors, in addition to the full dividends on the guaranteed 4% stock and also on the first preference stock for the half-year ending Dec. 31 last, have declared a distribution of 5% for the calendar year 1909 on the second preference stock, against only $2\frac{1}{2}\%$ on the latter from the earnings of 1908. The balance carried forward after the payment of dividends is stated as £11,800.—V. 90, p. 447, 167.

Gulf Line Ry.—Sold.—The company, which leases the Hawkinsville & Florida Southern, the two roads extending from Hawkinsville, Ga., to Bridgeboro, 79 miles, has been sold to Eastern capitalists, who, it is said, wille xtend the road at once from Bridgeboro to Camilla, about 40 miles, and later to the Gulf. The officers are: Pres., W. J. Edwards; Sec. and Treas., Geo. L. Twigg.—V. 89, p. 847.

Hudson Companies (McAdoo Tunnel System).—Offering of \$11,000,000 6% Secured Convertible Notes.—Harvey Fisk & Sons, New York, are offering, at par and interest, by advertisement on another page, the unsold portion of a new issue of \$11,000,000 6% secured convertible gold coupon notes, principal payable Feb. 1 1913, but redeemable at option of company at 100 and interest on any interest date upon 30 days' notice. Subject only to \$5,000,000 New York & Jersey RR. Co. 1st M. 5s, on a comparatively small part of the system, the 4½% bonds which are pledged as collateral for the note issue of Hudson Companies constitute an absolute first mortgage upon all the property of the company, including its tunnels, rallways, franchises, power houses and terminals, including the Hudson Terminal Bldgs. at Cortlandt, Fulton and Church streets, N. Y. City, which alone are conservatively valued at \$15,000,000.

Upon the completion of the system as above stated, there will be outstanding \$64,500,000 Hudson & Manhattan RR. Co. bonds; but in order that the fixed interest charges may be well within the earning capacity, Hudson Companies will agree that, until the expiration of two years after the operation of the system, completed as above stated, interest upon \$5,000,000 of the bonds held by it shall be paid only out of net earnings remaining after payment of all other interest charges.

Based upon bonds limited as above stated, the annual interest requirements of the Hudson & Manhattan RR. Co. will be \$2,971,200, as follows: 4½% on \$59,500,000 Hudson & Manhattan RR. bonds, \$2,677,500; 5% on \$5,000,000 New York & Jersey RR. bonds, \$250,000; 5% on \$874,000 car trust certificates, \$43,700.

The lines of the system now in operation are carrying monthly over 4,000,000 people, or at the rate of about 49,000,000 per annum, and, with the lines under construction completed to 33d St., N. Y., and to the business centers of Jersey City and Newark, an annual traffic of at least 80,000,000 people is assured (this is only about 60% of the traffic crossing the Hudson River annually to and from New York City), affording, at a 5-cent fare, gross earnings of

Interest is payable Jan. 1 and July 1 at the office of the Mercantile Trust Co., trustee, in New York, or at the First National Bank of Denver.

A first and only mortgage upon all property convended on hereafter acquirers in an interest and property and property of the convenience of the Mercantile Trust Co., trustee, in New York, or at the First National Bank of Denver.

A first and only mortgage upon all property convended on hereafter acquirers in the heart of Denver, adjoining the terminals of the Colorado & Southern, C. B. & Q., Union Pacific and D. & R. G., raliroads, within three blocks of the Union Passenger Station and adjoining the centre of the business district of the city. On this tract is situated a modern commodious passenger station of brick, metal-roof construction, containing two parallel tracks, also a commodious freighrate tracks. A considerable portion of this tract in a law required for raliroad purposes is sublet as stated below.

(2) Right of Way and Tracks Through the City.—A right of way varying from 92 ft. to 450 ft. in width, being of sufficient width for from 6 to 24 tracks, extending from above 36.22-acre terminal property northward to the city line, embracing 54.49 acres, with all necessary tracks, switches, &c., to handle present volume of business, and also two new bridges across the South Platte Rive.

(3) Storage Tard Ouride the City.—A right of way in West 46th Ave., extending across the ouride the City.—A right of way in West 46th Ave., extending across the northwestern portion of the city from Lowell Boulevard to a connection with the right of way described in paragraph 2 above. Disinterested appraisers have valued this property as real estate for other than raliroad purposes at 22.35, 344. Others have appraised the

Pensacola Electric Co. -3% on Account of Cumulative Dividends.—The company has declared a second dividend of 3% on account of accrued dividends on the \$300,000 6% cumulative preferred stock, payable March 1 to stockholders of record Feb. 18. This distribution reduces the amount of dividends in arrears to 3%. Compare V. 89, p. 1142.

Pittsburgh & Allegheny Valley Ry.—Sale March 21.—The Safe Deposit & Trust Co., Pittsburgh, trustee under the mtge. of July 15 1904, will offer the property at auction, free of all liens, at Kittanning, Armstrong County, Pa., on March 21, under decree of Court of Common Pleas of said county entered Jan. 22. There are \$533,500 bonds outstanding. V. 90, p. 373.

Pittsfield (Mass.) Electric Street Ry.—Sale.—The New England Investment & Security Co. has secured a 30-days' option on the majority holdings of the Dolan interest, consisting, it is said, of \$151,100 of the \$300,000 stock.

The minority holders will, it is said, be allowed to dispose of their holdings on the same terms, \$275 per share, the Dolans receiving a bonus of \$75,000. It is thought that the deal will probably be closed in about ten days.—V. 86, p. 230.

Pittsburgh Shawmut & Northern RR.—Financing Extension.—See Pittsburgh & Shawmut RR. below.

Controlled by Hubbard-Byrne Interests-Mr. Hawley's Election.—Regarding the election of Edwin Hawley to the board, a director is quoted as saying:

Mr. Hawley entered the board at the request of General Hubbard because of their close business relationship [in the Hawley roads, Chicago & Alton and Toledo St. Louis & Western] and because Mr. Hawley's railroad experience would be of value to the road.

Gen. Thomas H. Hubbard, Receiver Frank S. Smith and the estate of Laboratory and the considerable work.

Gen. Thomas H. Hubbard, Receiver Frank S. Smith and the estate of John Byrne hold practically all the road's securities. Considerably more than a majority is owned by Gen. Hubbard alone, and there is no reason to suppose that he contemplates selling out. Authorization of \$12,500,000 bonds by Pittsburgh & Shawmut RR. Co. foreshadows the removal of the receivership of Pittsburgh Shawmut & Northern. The latter will be put on its feet comparatively soon, and will be made a paying proposition.

—V. 89, p. 847.

Pittsburgh & Shawmut RR.—Sale of Bonds on New Coal Road to Form Extension of Pittsburgh Shawmut & Northern .-Hallgarten & Co., New York, and associates, have purchased the first \$3,000,000 5% gold bonds issued under the mortgage made late last year to the Central Trust Co., New York, trustee, securing not exceeding \$12,000,000 bonds. This mortgage covers (1) the new line now under construction, and to a considerable extent already completed, forming an extension of the Pittsburgh Shawmut & Northern RR. from Hyde, Pa., to Freeport, Pa., near Pittsburgh, a distance of 102 miles; and (2) a majority of the \$5,000,000 stock of the Allegheny Mining Co. The bonds are dated Dec. 1909 and will mature Dec. 1959, but are callable at 105; annual sinking fund \$100,000, beginning Dec. 1914. The road will open up what is described as "one of the largest and richest bituminous coal areas in Elk and Jefferson counties, Pa." After the reorganization of the Pittsburgh Shawmut & Northern RR. it is proposed to merge the properties, the same interests being identified with both. See further particulars under old

United Railways of St. Louis.—Decision.—Judge Horner in the State Circuit Court at St. Louis on Feb. 14 overruled the demurrers of the company in the five suits brought by the city to collect the one-mill per passenger tax. The amount claimed to be due is reported to be "nearly \$1,500,000."

The Court holds that the tax is not oppressive or unreasonable, nor a double one, because a franchise tax on the street railroads has also been imposed. Compare V. 86, p. 1287; V. 88, p. 744; V. 90, p. 367.—V. 90, imposed. (p. 448, 367.

Wabash-Pittsburgh Terminal Ry .- Application to Issue Receiver's Certificates.—The receivers on Feb. 16 made application to the U.S. Circuit Court at Pittsburgh for permission to issue receivers' certificates to purchase 500 steel hopper cars at a cost of \$512,500. The hearing will take place on Feb. 24.

The receivers state in their petition that the company can earn \$80,000 this year by hauling coal to the lakes, and that if they can purchase these cars and place them in service other companies will loan them additional cars to aid in increasing the earnings of the road. The receivers are anxious to have the cars ready for service when the lake season opens, in April.—V. 90, p. 169.

Westchester Street RR., White Plains, N. Y.—New Securities.—The company, a reorganization of the Tarrytown White Plains & Mamaroneck Ry., controlled by the New Haven road, has applied to the Public Service Commission, Second District, for authority to issue \$900,000 stock and \$347,000 bonds.—V. 89, p. 1484.

West Penn Rys.—Amended.—A Philadelphia paper says:
The American Water-Works & Guarantee Co. has submitted an amended proposition to the stockholders of the West Penn Rallways Co. to be acted upon at the annual meeting next week. The new proposition is that the West Penn Traction Co. be formed with \$5,000,000 pref. stock and \$6,500,000 common to include the West Penn lines, the West Penn Electric Co. (V. 80, p. 1922), the McKeesport & Greensburg Co. [meaning, presumably the Pittsburgh McKeesport & Greensburgh Ry. Co., controlled by West Penn Rys. Co. See p. 96 of "Electric Railway Section."—Ed. "Chronicle."], and other smaller companies. The plan is to exchange the \$3,250,000 common stock of the West Penn Rys. Co. for 50% pref. and 100% common of the new. The proposition by which the American Water-Works & Guarantee Co. will guarantee 5% dividends on the new pref. stock for 21 years has been withdrawn in the new proposition [Under the plan referred to last week the capital stock of the new company was to be \$11,625,000, consisting of \$10,000,000 common stock and \$1,625,000 5% cum. pref. stock, with theaforesaid guaranty: the existing \$2,750,000 5% non-cum. pref. of the West Penn Rys. to be left undisturbed.] Compare V. 90, p. 448.

White & Black River Valley RR.—Lease Assigned to Mis-West Penn Rys.—Amended.—A Philadelphia paper says:

White & Black River Valley RR.—Lease Assigned to Missouri Pacific System .- The lease of the road which expires July 1 1980, now held by the Choctaw Oklahoma & Gulf (Rock Island system), has, it is stated, been assigned to the St. Louis Iron Mountain & Gulf, subject to the approval of the W. & B. R. Val. stockholders at their annual meeting in March. See Choc. Okla. & G. report, V. 72, p. 189.

Wisconsin Central Ry.—No Further Dividends at Present.-The last quarterly disbursement, 1%, of the 4% annual dividend on the non-cumulative preferred stock was paid

It is generally understood that the Minneapolis St. Paul & Sault Ste. Marie, which now operates the road under lease, and also holds control through stock ownership, will not make any further distributions for a time, but will apply the surplus earnings over charges towards the improvement of the property. The earnings for the first 5 or 6 months of the present fiscal year, beginning July 1 last, were, it is stated, sufficient to pay the 4% dividend for the entire year.—V. 89, p. 1143.

American Can Co., New York.—Acquisitions.—A technical iournal says:

The American Can Co. has purchased the plant of the Utica Industrial Co., Rome, N. Y., builders of can-making machinery, and is dismantling it. The Union Can Co., an offshoot of the Industrial company, has also been taken over, and will be continued with increased capacity. The American company has acquired an interest in various can-making plants where the Utica Industrial Co.'s machinery is in use.—V. 90, p. 371.

American Pneumatic Service Co., Boston.—Circular.-Touching the plan to authorize \$3,000,000 7% cum. first pref. stock, about \$1,500,000 thereof to be issued at present, a circular signed by Pres. William H. Ames says in brief:

a circular signed by Pres. William H. Ames says in brief:

Because of recent improvements in the mail tube business, and its present profitable operation, your directors unanimously recommend the immediate completion of the unfinished system in the city of New York and also in Chicago, providing satisfactory adjustments can be made as to the franchise granted by the latter city. In arranging to finance these requirements, it is desired at the same time to eliminate the floating debt, amounting to some \$675,000. The funded debt is \$5,000,000, of which \$1,849,000 is outstanding, viz.: \$1,112,000 held by the public, \$135,500 in the sinking fund and \$601,500 pledged to secure the floating debt.

After the completion of the systems in New York and Chicago, the net earnings may be conservatively estimated at an amount equal to approximately 6% on the present pref. shares (after paying 7% on the new 1st pref. shares), and these earnings, except as retained for working capital or other purposes, will be available for dividends on the present pref. shares. In arriving at this statement no consideration has been given to any increase in the store service business of the Lamson Company, which, while for a time not up to normal because of general business conditions, will continue to grow, contributing to earnings applicable to dividends. Central Foundry Co., New York.—Receivership.—On Feb. 12, in involuntary bankruptcy proceedings brought by A. Lea Everett, representing the Vinton Colliery Co. and other creditors, whose claims aggregate \$12,000, Judge Hough in the United States District Court, acting, it is understood, with the approval of the company, appointed Waddill Catchings, 49 Wall St., as receiver for the property and authorized him to borrow up to \$200,000 as may be necessary to continue the business.

Besides the \$3,863,000 debenture bonds there is outstanding some \$345 000 secured, and \$540,000 unsecured, indebtedness. According to curren street talk the \$1,000,000 or more required to put the company on its fee may be raised by an assessment on the stock, a new security of some kind

may be raised by an assessment on the stock, a new security of some kind to be given to represent the new money.

In 1908 the Central Coal & Iron Co.(controlled) sold \$1,000,000 of an issue of \$2,000,000 first mortgage 6s.

President August Heckscher has issued a statement saying: "The company for some time has been handicapped in the transaction of its growing business by lack of adequate banking facilities and working capital. The result is embarrassment, which we believe to be temporary. United action on the part of creditors and shareholders can promptly make effective a reorganization which will admit of large economies and better carnings"

Notice to Debenture Holders and All Other Creditors .- A protective committee requests, by advertisement on another page, that holders deposit with the Central Trust Co., 54 Wall St., N. Y., under agreement dated Feb. 16 1910, all debentures and other claims and evidences of indebtedness, for mutual protection. Copies of the agreement will be ready for distribution Feb. 21.

The committee consists of J. N. Wallace (Chairman), C. D. Smithers, P. J. Goodhart and August Heckscher, with Franklin L. Babcock, Secretary, 54 Wall St., N. Y. City, and Joline, Larkin & Rathbone and Byrne & Cutcheon as counsel.—V. 88, p. 820.

Childs (Restaurant) Co., New York.—Stock Increase Approved.—The stockholders on Feb. 18 approved the increase in pref. stock from \$2,000,000 to \$3,000,000.—V.90,p. 375.

Cleveland (0.) Electric Illuminating Co.—New Stock.— Of the new stock recently authorized, only \$500,000, we are informed, is likely to be issued this year, probably some months from now, the same to be offered to shareholders at par. The new plant on the lake shore will have an immeliate capacity of 50,000 h.p.—V. 90, p. 375, 305.

Consolidated Indiana Coal Co.—New President—Operations .- H. U. Mudge, President of the Chicago Rock Island & Pacific Ry., has been elected President.

This follows as a result of the sale of the St. Louis & San Francisco by the Rock Island interests. The company will hereafter market its own products, which have heretofore been handled by the Brazil Block Coal Co., the latter being controlled by the Chicago & Eastern Ill.—V. 82, p. 1499.

Consolidated Telephone Companies of Pennsylvania.—Decision.—The State Railroad Commission of Pennsylvania on Feb. 12 held that the exclusive contract between the Bell Telephone Co. and the State Bell Telephone Co. of Slatington, Pa., is illegal, and recommended an interchange of local business between all the companies.—V. 87, p. 418.

Continental Can Co., Syracuse, N. Y., &c.—New Plant-Contract.—The "Iron Age" of Feb. 2 said:

The Continental Can Co., which now manufactures tin cans at Syracuse, N. Y., Baltimore, Md., and Chicago, has started the erection of a new can factory, 82x250 feet, near the plant of the Standard Tin Place Co. at Canonsburg, Pa., to take care of the Central Western trade, and also for making a new patented sanitary can. The making of cans will start about June 1, consuming about 100,000 boxes of tin plate per year, all of which will be furnished by the Standard Tin Plate Co. This latter company now operates 10 hot tin mills at Canonsburg, with an annual capacity of 750,000 boxes of tin plate.—V. 89, p. 1670.

Esmond (R. I.) Mills.—Pref. Shares Offered.—A. B. Turner & Co., Boston and New York, are offering at par (\$100 a share) a limited amount of the 6% cumulative pref. shares, divs. payable Q.-F., preferred as to assets as well as earnings.

To retire its outstanding bonds (\$250,000), provide additional working capital, and for additional machinery, the Esmond Mills will issue \$650,000 capital, and for additional machinery, the Esmond Mills will issue \$650,000 pref. and \$100,000 additional common stock. The common shares have been taken at par by the management, and with the sale of the pref. shares the company will have outstanding \$650,000 pref. stock and \$555,000 of its \$600,000 com. "The company owns and operates the only complete fine cotton blanket mill in the United States. When the additions are complete, the capacity will be in excess of 1,300,000 blankets per year. The earnings, after paying all charges and expenses, are equivalent to more than twice the dividends upon the pref. shares." President, Clarence Whitman; Treasurer, Harold C. Whitman. Now a Mass. corp.—V. 84, p. 1309.

Fisk Rubber Co., Chicopee, Mass.—Re-incorporation—Stock Increase.—The "Boston Financial News" Feb. 9 said:

The capital stock of the Fisk Rubber Co. of Chicopee Falls, has been increased from \$600,000 to \$4,000,000, \$2,000,000 of pref. stock and an equal amount of common. The company has been reincorporated under the laws of Delaware. The officers remain the same. H. T. Dunn, Pres.; A. N. Mayo, Treas., and H. G. Fisk, Sec., all of this city. It is reported that the \$2,000,000 of pref. stock represents the actual assets to be turned over by the Massachusetts corporation to the Delaware corporation. The \$2,000,000 of common stock is said to represent the patents, patent rights and organization.

General Chemical Co.—New President.—Sanford H. Steele has been elected President, succeeding Edward H. Rising, and the latter has been made First Vice-President in place of Mr. Steele.—V. 90, p. 369.

Harbison-Walker Refractories Co., Pittsburgh.—Dividends Resumed on Common Stock .- The company has declared dividend No. 2, ½ of 1%, on its \$18,000,000 common stock, payable March 1 to stockholders of record Feb. 19.

Dividend No. 1, also $\frac{1}{2}$ of $\frac{1}{6}$, was paid Oct. 1 1907. Compare V. 85, p. 724; V. 89, p. 1481.

Hudson River Electric Power Co.—Circular.—The bondholders' committee for the associated companies, in a circular dated Feb. 10, says in substance:

noiders committee for the associated companies, in a circular dated Feb. 10, says in substance:

The eight companies are in the hands of one set of receivers, George W. Dunn, Charles W. Andrews and Milton Delano, appointed by the United States Circuit Court. The receivers have been successful in reducing the expenses of operation. The steam plant at Utica, which had failed to earn operating expenses within 10%, has been leased to the Utica & Mohawk Valley Ry. at a reasonable profit.

The complicated legal situation has been progressing satisfactorily and as speedily as possible under the circumstances. Judgment has been rendered against the Hudson River Water Power Co. in favor of the National Contracting Co. for \$310,036, not including costs; the original judgment was \$556,000. An appeal has been taken (V. 89, p. 1545). The suit against the General Electric Co. (see V. 88, p. 228) is now in progress, and it is expected that the trial will be completed within the next 60 days. The final arguments in the suit against the United Traction Co. of Albany (compare V. 88, p. 229) will be made during February: if appealed, case cannot be argued until next fall. These suits aggregate about \$860,000. Under the authorization of the Court, an inventory has been made of the physical parts of all of the properties, and this replacement value is given at \$7,117,698. Carrying out the recommendations made by Stone & Webster (V. 88, p. 228), the dam at Spier Falls has been completed, considerable work has been done on the intake canal at Spier Falls has been completed, considerable work has been done on the intake canal at Spier Falls has necessitated the purchase of large amounts of steam-generated power at high prices. The combined net earnings for the year ending June 30 1909 have been at the rate of about \$365,000, without any allowance for depreciation or any interest charges, these latter alone amounting to \$567,000. To have attempted more business would have, with the continued drought, required the purchase of hore outsi

Management Approved.—Referring to the Clawson circular (V. 90, p.450), George H. Earle Jr., a voting trustee, says: I understand that the management has already received proxies for a majority of the stock not in the voting trust, and my information also is that every member of the voting trust concurs with that majority in believing that there should be no change in the board at this time. Speaking for myself, I do not think that a more jable and honest management than that of Mr. Lathrop could be possible. What the company wants, in my judgment, is peace and continuance of the conditions that have enabled Mr. Lathrop to make his magnificent returns to the security holders. [President Lathrop himself characterizes recent criticisms of certain of the directors as unworthy of attention, and states that the board is a unit in favor of continuing the policy of developing the earning power of the property. Mr. Lathrop believes that it is most desirable for the best interests of the company that there should be a renewal of the voting trust, as recommended in the letter to stockholders issued by order of the board Nov. 27 1909.] Compare V. 89, p. 1486; V. 90, p. 450, 55.

Mexican Light & Power Co., Ltd., Toronto.—New Stock, &c.—The shareholders voted Jan. 20 to approve by-laws increasing the capital stock by the addition of \$3,600,000 of preference stock and \$5,400,000 of ordinary stock, making in all \$6,000,000 pref. stock and \$19,000,000 ordinary stock.

The Chairman of the meeting announced that the company had recently purchased the entire capital stock of the Compania Electrica e Irrigadora del Estado de Hidalgo, S. A. Pachuca, and that the transmission lines of the Mex. L. & P. Co., Ltd., would be extended to the Pachuca mining district, a distance of about 30 miles, to supply the further demand for power from the Necaxa plant. The Compania Electrica has a hydraulic-electric plant of its own of 12,000 h.p., is supplying about 7,000 h.p., and has additional business in sight "amounting to at least 6,000 h.p." The 50,000 h.p. addition to the plant of the Mexican Light & Power Co. to be completed this year, will increase the latter's capacity to 100,000 h.p.—V. 89, p. 1599.

Missouri & Kansas (Bell) Telephone Co.—Settlement with Parent Company.—Pres. Charles S. Gleed on Feb. 17 wired the "Boston News Bureau":

The company has arranged with the American Telephone & Telegraph Co. whereby the parent company will take \$10,000,000 or \$12,000,000 stock of the Missouri & Kansas Co. in liquidation of a like amount of floating debt of the Missouri & Kansas now held by the American Co. It is probable that eventually American Telephone will take enough more M. & K. stock to enable that company to free itself entirely of its present floating debt. A special meeting of stockholders will be called shortly to authorize the increase in capital stock.

[The "News Bureau" adds: "On Dec. 31 1908 Missouri & Kansas had outstanding \$3,627,700 capital stock and a floating debt which was increased to about \$15,000,000 during 1909. Inasmuch as American Telephone is now receiving interest of about 6% on the M. & K. notes, which it holds, it is believed that the conversion of these notes into stock foreshadows the early resumption of dividends on M. & K. stock. Up to February 1907 the company paid dividends at the rate of 6%" Compare V. 88, p. 1556.

Pullman Co.—Statement as to New Stock Issue.—Vice-President Runnels is quoted:

The new stock distribution is based entirely on accumulated surplus, certain reserve funds which are available and current earnings. There is no reason why fully half the distribution should not be from the surplus. The reserve items come from various sources, all in the manufacturing department; for instance, we decided to discontinue carrying our own insurance, as plant expansion made the risk too heavy. The insurance reserve aggregates \$2,000,000. Besides this we have a considerable reserve in building account available for distribution; we also have reserves in other accounts, every item of which is justly charged to capital. The Current earnings are large, orders for equipment have been substantial, and we expect three to five years' high pressure business because the railroads must get cars.

and we expect three to five years high pressure business because the railroads must get cars.

Our passenger plant is busy on steel under-frame cars, and it will turn out 20 to 30 all-steel cars monthly for the Pennsylvania. The new steel freight-car plant will start operation in April. This plant comprises four 1,100-ft. shops. We are employing between 9,000 and 10,000 men at Pullman as against 11,000 maximum in 1907. We expect to employ 15,000 before the end of the year. The sleeping-car business was operated at a maximum volume last year, but owing to decline in travel there has been a slight falling off from this level. Compare V. 90, p. 451.

E. I. DU PONT DE NEMOURS POWDER COMPANY.

ANNUAL REPORT FOR THE FISCAL YEAR ENDING DECEMBER 31 1909.

To Stockholders of E. I. du Pont de Nemours Powder Co.: Gentlemen—The 108th year of our history has brought to us a larger volume of business than that of the year preceding, though the record of the year 1907 has not been reached. However, as in the year 1908, we have been able to increase profits through the continuance of a better organization and system than we had been able to develop in the earlier period. The economies introduced after the panic of 1907 have continued to bear fruit, and as new expenditures were considerably curtailed, our increase in profits has been accompanied by a very large increase in cash balances. Though the profits of the Company have increased during the year, we believe that they are far from being unduly large. Since the reorganization of our Company in August 1903, we have re-invested in new factories and in the general development of business the substantial sum of \$13,811,908 85, as shown on the balance sheet. In addition to this, the property has been further increased through the sale of \$3,437,000 common stock. This large increase in investment, aggregating \$17,248,908 85 (an amount equal to approximately \$61 50 on each share of common stock now outstanding), is entitled to a proper return, which is not extravagantly represented in the increase of earnings from \$4,438,701 in the year 1904 to \$5,984,159 in the year 1909.

Owing to the contraction of business during the years 1908 and 1909, enlargement of plant capacity has been curtailed during this period but the improvement, both present and prospective, in the business, has justified a resumption of our general policy of providing for the necessary increase of our capacity, and we have developed plans for such additional installations as will cover the immediate future requirements of the business. In the meantime we have not hesitated to abandon and write off such parts of our investment as have become antiquated or badly situated with respect to trade. The depreciation fund accumulated for this purpose has been quite sufficient. Our funds for insurance against accident and losses of various kinds have more than met the require-

ments of the year.

The suit of the United States Government against our Company on account of alleged violations of the Sherman Anti-Trust Law still continues. The Government has closed its side of the case, but in order to refute the allegations against us it has been necessary to call a great number of witnesses to testify in our behalf. Several months must yet elapse before a final decision can be made by the courts.

As will be seen by inspection of the balance sheet, the current liabilities of the Company remain at a minimum, while the working capital, including cash balances, has materially increased during the year.

The number of stockholders of the Company has increased as shown below:

1909—1,335, of whom 524, or 39 %, are employees. 1908— 955, of whom 250, or 26 %, are employees. 1907— 809, of whom 218, or 27 %, are employees.

It is gratifying to note the substantial interest the employees are taking in the Company, as illustrated in the fore-going figures; the result must tend to promote the general

welfare of the Company.

Last year the directors of the Company recommended offering to the employees of the Company 2,000 shares of preferred stock (or common stock at the option of the subscriber). This plan was promoted with a view of further interesting our employees in the Company's welfare. The entire number of shares was subscribed and many payments have been made in advance of amounts required by the Company. The second offer of 2,000 shares of stock was made in December 1909, and was somewhat oversubscribed; the price at which the stock was offered being substantially that paid for it by the Company in the open market. The result has been a considerable increase in the number of our stockholders

In addition to the above plan, the Company has continued for several years the practice of distributing shares of common stock to worthy employees in the way of bonus. We believe that this plan has great value in properly rewarding exceptional merit in cases not calling for increases in salary.

The Company also maintains a system of pensioning employees who have become disabled or who have reached advanced age. This plan thereby provides a means of retiring those who, through no fault of their own, have ceased to be able to serve the Company.

We believe that the above-mentioned plans for caring for our employees are of substantial value to the Company and assist materially in obtaining a personnel in our operative

force which will insure future success.

During the year the Company has paid regular quarterly dividends of 11/4% on the preferred stock, while the dividend to the common stockholders has been increased to 2% quarterly. The dividend record for the common stock is as follows:

ing the same period the total dividend disbursements equaled \$14,320,548 40, approximately 51% of our net receipts after paying interest on the funded debt.

Respectfully submitted,

T. C. DU PONT, President.

Utah Consolidated Mining Co., Boston.—Dividend Suspension Recommended.—President Urban H. Broughton, in a circular, says in brief:

Approximately one-half of the dividends declared in 1908 came out of accumulated surplus. The values in the ore treated in 1909 were lower than in 1908, so that by far the greater part of the dividends declared in 1909 was also out of accumulated surplus.

The surplus has now been encroached upon to such an extent that I consider it advisable to recommend to the directors that dividends be suspended until the benefits from the new smelting contract, which will be in force in a few months, are obtained. There is no lack of ore of approximately the grade treated in 1909, and this ore, under the new smelting contract, with copper at the same price, will return between \$300,000 and \$400,000 per year additional earnings.—Compare V. 88, p. 948.

Western Union Telegraph Co.—New General Manager.—Belvedere Brooks, General Superintendent of the Eastern Division, has been elected General Manager of the entire system, succeeding President Robert C. Clowry. Mr. Clowry still retains his position as President of the company.—V. 90, p. 241.

Wilmington (Del.) Gas Co.—Initial Dividend on Preferred.
—An initial semi-annual dividend of 3% on the \$1,000,000 6% cumulative pref. stock has been declared payable Mch. 1 to stockholders of record Feb. 21. See statement of company in V. 89, p. 781.—V. 90, p. 379.

—Investors can purchase \$100,000 or any part of Spokane International Railway Co. bonds due 1955 at a favorable price from Pouch & Co., members N. Y. Stock Exchange, corner Wall and Nassau streets. The Spokane International Ry. (of the Canadian Pacific system) is covered by a closed first mortgage on mileage forming part of the Canadian Pacific trans-continental service between St. Paul, Minn., and Portland, Ore. This security is listed on the N. Y. Stock Exchange.

—The bond department of William P. Bonbright & Co. has prepared for distribution a very complete circular, giving particulars on a number of selected hydro-electric companies, the first mortgage bonds of which the firm offers at prices to yield the investor from 5.30% to 6.50%. Prices and further information will be furnished upon application made to the main office, 24 Broad St., or at the firm's London office, 16 George Street (Mansion House).

—The attention of investors is called to the exceptionally choice list of investment securities being offered on another page by the banking house of William A. Read & Co. Some of the issues are tax-exempt in New York and Pennsylvania. Full details will be furnished upon application to any of the firm's offices.

—Colston, Boyce & Co., 7 North Calvert St., Baltimore, are distributing copies of their pamphlet on the Consolidated Gas Electric Light & Power Co. of Baltimore and its subsidiary companies, including the Baltimore Electric Co. The firm has spent some time in gettingthis information complete and correct.

—Roger W. Babson of Wellesley, Mass., the statistician, left this week for Europe on the Cedric to study the English political situation and the Paris disaster. While in London Mr. Babson will give one or more lectures at the London University on economic problems.

—Messrs. Ackermann & Coles, 20 Broad St., New York, have issued the ninth annual number of their pamphlet on the banks and trust companies of this city. The book is replete with statistics regarding these institutions.

—The old-time banking firm of A. M. Kidder & Co., members of the N. Y. Stock Exchange, announces its removal from 18 Wall St. to the fifth floor of the Hanover Bank Building, 5 Nassau St., this city.

—A descriptive booklet on "Hudson River Tunnels" will be sent by Pouch & Co., Wall and Nassau streets, city, to all inquirers who write for pamphlet "J."

—Allen Dean Converse, who has been connected with the banking house of William P. Bonbright & Co. as sales manager, is now associated with Bigelow & Co., 49 Wall Street.

—Baillie, Wood & Croft are distributing their annual compilation of the capitalization, earning power and quotation record of active Canadian securities.

—Curtis & Sanger, 38 Wall St., are advertising on another page a list of banks, to which the attention of investors is invited.

COMMERCIAL EPITOME.

Friday Night, Feb. 18 1910.

Notwithstanding the check to speculation, general trade makes quite a favorable exhibit as compared with recent years, if we apply the test of bank exchanges and railroad earnings. At the same time a spirit of conservatism dominates all branches of business. Money is cheap and imports are large. Though pig iron is quiet, finished iron and steel is more active.

LARD on the spot has advanced, owing to a rise in hog quotations at the West, an advance in lard futures, moderate offerings and some increase in the demand. Prime Western 13.25c., Middle Western 13.15c. and City steam 12½c. Refined lard has also advanced, owing mainly to the strong hog situation. A somewhat larger business has been reported of late. Refined Continent 13.60c., South America 14.10c. and Brazil in kegs 15.10c. The speculation in lard futures at the West has been active at an advance. Strengthening factors have been a rise in prices of live hogs, the activity and advance in the grain markets, buying on a large scale by prominent packers, investment purchases by commission houses and some increase in the spot demand.

PORK on the spot has advanced, owing to the rise in live hogs and other provisions as well as grain. Trade has been dull. Mess \$24 50@\$25, clear \$24 75@\$26 75 and family \$26@\$26 50. Beef has been strong. The demand has been light, but offerings have been small. Mess \$12 50@\$13 50, packet \$13 50@\$14, family \$16@\$17 and extra India mess \$22@\$23. Cut meats have been in fair demand and firm. Pickled hams, regular, light to heavy, 13@13½c.; pickled bellies, light to heavy, clear 13@13½c.; pickled ribs, light to heavy, 13@13½c. Tallow has been dull and steady; City 6¾c. Stearines have been firmer and more active; oleo 14@15c. and lard 13½c. Butter has advanced with a larger trade and supplies decreasing; creamery extras 30c. Cheese quiet and firm; State, f.c., fall make, fancy, 17½c. Eggs moderately active and firmer; Westernfirsts 26½@27c.

OIL.—Linseed has been strong but without quotable change. Little business has been transacted of late, but it is expected that there will be a marked increase in the demand in the not distant future. City, raw, American seed, 77@ 78c.; boiled, 78@79c.; Calcutta, raw, 85c. Cottonseed has been quiet and firm; winter, 7.15@7.50c.; summer white, 7.25@7.50c. Lard has been quiet but strong; prime, \$1 25@\$1 28; No. 1 extra, 65@69c. Cocoanut has been dull and easier; Cochin, 93/8@93/4c.; Ceylon, 9c. Olive has been quiet and firm at 80@85c. Peanut has been quiet and steady; yellow, 62@67c. Cod has been quiet and steady; domestic, 38@40c.; Newfoundland, 42@44c.

COFFEE on the spot has been quiet and firmer; Rio No. 7, 834@87%c.; Santos No. 4, 91%@914c. West India growths have been quiet and steady; fair to good Cucuta, 10@1014c. The speculation in future contracts has been more active. Prices have ruled firm, though without marked change. On firm spots, however, there has been scattered liquidation for local and Wall Street account. Closing prices were as follows:

February 6.95c.	June7.10c	. October7.15c.
March6.95c. April7.00c.	7 15c	November 7 150

SUGAR.—Raw has been firmer and more active. Centrifugal, 96-degrees test, 4.17c.; muscovado, 89-degrees test, 3.67c., and molasses, 89-degrees test, 3.42c. Refined has been quiet and steady. Granulated 4.95c. Spices have been firm and more active. Teas have been firm with a moderate trade. Wool quiet and firm. Hops dull and steady

trade. Wool quiet and firm. Hops dull and steady. PETROLEUM.—Refined has been steady. Trade has been dull. Crude has developed further weakness and consumers of refined have held aloof from the market in expectation of some decline in prices. Refined, barrels 7.90c., bulk 4.40c. and cases 10.30c. Gasoline has been in moderate demand and steady; 86-degrees, in 100-gallon drums, 18¾c.; drums \$8 50 extra. Naphtha has been quiet and steady; 73@76-degrees, in 100-gallon drums, 16¾c.; drums \$8 50 extra. Spirits of turpentine quiet and easy at 62½c. Rosin dull and steady; common to good strained \$4 50.

TOBACCO.—The market for domestic leaf has presented no new or interesting features during the week. The attitude of the trade is a waiting one. There is a belief in many quarters that there will be an increase in the demand for leaf for manufacturers in the not distant future. Havana and Sumatra have been quiet. Prices have ruled steady.

COPPER has been dull and easy. Consumers are apparently well supplied as a rule and surplus stocks are large. Lake 13½@13¾c., electrolytic 13¼@13¾c. and casting 13@13¼c. Lead has been quiet and easier at 4.55c. Spelter has been dull and easier at 5½c. Tin has been more active and firmer; spot 33¾c. Iron has been rather easy, though without important changes in prices. Sales for early delivery have continued small. More interest is displayed in the market by consumers for delivery in the second and third quarters of the year. No. 1 Northern \$18 50@\$18 75; No. 2 Southern \$18@\$18 25.

Speculation in cotton for future delivery has been quiet and prices have declined rather sharply. The fall was due largely to slowness of the spot trade on this side of the water and reports of a decreased demand in Liverpool. Also, however, speculation has been sluggish and long liquidation by discouraged holders has contributed to the decline. The investigation at Washington of the present system of trading in cotton futures has, moreover, assumed a phase which has aroused increasing interest, if not a certain degree of disquietude at New York. Lancashire spinners, members of the Federation, using American cotton, have decided unanimously to continue short:time until April 26, and it is said that 4,000,000 spindles outside the Federation will co-operate in this agreement. The outside public still holds aloof from the speculation. Some rain as well as sleet and snow has fallen in Texas. The impression, too, is widespread and deep-seated that the next acreage will be of unprecedented size and that unless the plant should meet with some very serious set-back the next crop may conceivably be a very large one. The May premium, moreover, which was recently 24 points over July, has latterly shrunk to as low as 5 points. This has given rise to discussion as to whether there is any serious intention of attempting a squeeze in the May option. The New Orleans market has been noticeably weak at times and this fact has had not a little to do with the depression at New York. Some unfavorable reports about the condition of the yarn trade have certainly not tended to help matters. Liverpool, which was recently a steady buyer here, has latterly at times sold to some extent. Certain prominent spot interests have been sellers to some extent of May and July. Also New Orleans and the Southwestern element, which has been prominently identified with bull speculation this season and which recently appears to have renewed purchases, has of late, according to the common understanding, been selling to some extent. Yet supporting orders from time to time and the undoing of Liverpool straddles have seemingly prevented the price from reaching a lower level than it might otherwise have done. Also, there has been some buying by large spot interests on the waydown. The receipts have continued small. Western dry goods reports have been more favorable. Texas is said to need copious rains. Spot holders at the South have in many cases resisted any downward tendency of prices. Wall Street houses have in some cases been disposed to buy on declines. Liverpool people have also bought of late. English stocks are steadily decreasing and spot sales, if not so large as those of last week, have continued to be liberal. The certificated stock at New York is diminishing. It is of good quality and is controlled by prominent interests. Prices for cotton, it is very generally believed, must be fixed for the rest of the season by the natural working out of the law of supply and demand rather than by speculation. To-day prices advanced slightly early on higher cables, light receipts and buying by spot interests and Liverpool. Later there was a decline or deal specific and the season by the natural specific and buying the season by the season by the season by the season by the law of supply and the season by the season by the law of supply and deal season by the natural working out of the law of supply and the season by the natural working out of the law of supply and deal season by the natural working out of the law of supply and deal season by the natural working out of the law of supply and deal season by the natural working out of the law of supply and demand rather than by speculation. To-day prices advanced slightly early on higher cables, light receipts and buying by spot interests and Liverpool. Later there was a decline on dull spot markets at the South, smaller spinners takings for the week, selling by spot interest and room traders and liquidation. Spot cotton has been quiet. Middling upland closed at 14.80c., a decline for the week of 35 points. The rates on and off middling, as established Nov. 17 1909

BREADSTUFFS.

Prices for wheat flour have been quiet. Trade has conexports of cotton from the United States the past week have reached 126,292 bales. The shipments in detail, as made current of late of serious damage to the winter-wheat crop in this country. The advance in wheat prices has failed to this country. The advance in wheat prices has failed to

exert any influence upon sentiment in the flour trade. markets at the West and the Southwest have continued quiet. The mills at Minneapolis and other Northwestern centres have continued active. New business in that section has been fairly active and there have been good-sized with-drawals on old contracts. There have been rumors in circu-lation of late that some of the Minneapolis mills were about to close down but they have turned out to be groundless. Rye flour and corn meal have been quiet and steady.

Wheat has again advanced, owing mainly to reports of damage to the growing crop in this country. They have imparted noticeably increased strength to the spot markets. The cash situation is really the sheet anchor. Shorts have covered freely and there has been a larger amount of buying for long account. Also there has been a sharp falling off in the world's shipments. The total last week reached only 10,752,000 bushels, against 13,153,000 in the previous week and 12,000,000f or the same time last year. The winterwheat receipts in this country have been so small as to be something of a factor in the rise. St. Louis has been buying futures at Chicago. A good demand for flour has prevailed at Minneapolis. Moreover, whether the reports of damage from Kansas, Missouri, Indiana and other States have been exaggerated or not, their influence on the market admits of no question. It is said that there has been a good deal of winter-killing in all of these States. Of late there have been some beneficial snows in the Southwest, where the snow covering seems to have in some sections to a considerable extent disappeared. On the rise cash people have been selling futures. The world's available stock has increased somewhat, though it is true that the increase has been only about half what it was for the corresponding week last year. The foreign markets, too, were at one time rather indifferent, though of late they have been noticeably strong, not only in Europe but in Argentina. Buenos Ayres prices have at times advanced sharply. Liverpool has reported a better demand for La Plate and Australian wheat. On the whole, bullish influences have been dominant, though in this country the lack of export demand, together with an absence of any very aggressive speculation, has probably prevented prices moving up more sharply than they might have done were foreign trade brisk and the speculation on a scale such as existed at one time last year. At present the tendency is undoubtedly to speculate for quick returns pending further developments. Winter crop-scares have been proved by experience to be even more unreliable than some of the crop scares later in the season. To-day prices advanced a fraction early on crop damage reports and small receipts. Later there was a decline on heavy realizing.

Indian corn futures have advanced, owing mainly to the strength in wheat. This has led to investment buying by commission houses. Shorts have covered freely. Moreover, there has been a larger demand for cash corn at the Western markets at some advance in prices. Country offerings have fallen off and the receipts, though larger than a year ago, are smaller than recently. On the other hand, cash interests in some cases have sold freely on the strong spots, though the selling has not been aggressive. It is said that the corn that was under snow in many sections is being gathered in good condition. To-day prices, after an early advance in company with wheat, weakened and declined on a set-back in wheat, selling by cash interests and profit-taking.

Oats for future delivery in the Western market have advanced in company with corn, though the trading much of the time has been comparatively quiet. Still, commission houses have made purchases and there has been scattered covering of shorts. Cash houses have led the selling. Bears are still confident of a heavy increase in the crop movement sooner or later. To-day prices were firmer early on the opening firmness in wheat and corn. Later weakness on the spot and liquidation caused a decline.

THE DRY GOODS TRADE.

New York, Friday Night, Feb. 18 1910.

One of the most noteworthy developments of the week in textile markets was the substantial increase in the volume of business done by jobbing houses. In fact, the past few days were among the most active experienced in a long time and formed a sharp contrast to the recent dulness. Special offerings at attractive prices, particularly the sale of a large quantity of dress goods by the H. B. Classin Co. on Wednesday, Thursday and Friday, accounted for much of the activity noted. Many buyers were present, and not only took advantage of the various "specials" but were in evidence in other departments and operated on a more liberal scale and apparently with more confidence than in weeks past. Staple domestic cottons, prints, white goods, &c., were well patronized, especially summer lines of wash fabrics, while a much better business was reported in ready-to-wear merchandise, retailers who have been holding off showing a disposition to stock up, though in a conservative way, in made-up lines. The Classin sale attracted much attention; buyers from many sections, including jobbers, retailers and cutters, were present, and the offerings, which included plain and fancy serges, batistes, panamas, diagonals, suitings, voiles and various other fabrics below regular prices, were readily disposed of. Conditions in the primary cotton goods market remained practically unchanged. A little broader inquiry and business developed, but transactions were of moderate size. In the print cloth and gray goods divisions most of the orders were to cover immediate or near-by needs of printers and converters. The latter continued to press for concessions on contracts and are seemingly ready to operate for the future on a basis close to spot prices. On gray goods of certain constructions some mills are said to have granted concessions in order to move large lots at once; on contracts, however, manufacturers generally are firm, owing to the continued high cost of the staple. Lines of plain staple hosiery for fall were opened at prices about 7c. to 10c. a dozen higher than a year ago, selling agents apparently following the policy adopted in other quarters of making only moderate advances. The new prices are said to be very close to costs. An important development was the action of Fall River operatives in voting to withdraw from the existing wage agreement and to propose to the manufacturers an amended form of sliding-scale agreement which, it is reported, amounts practically to an increase in wages. The present agreement expires in the latter part of May. The result of the negotiations is now uncertain, although indications point to a further curtailment if operatives demand better terms and conditions in the primary market do not improve. The men's wear market showed considerable irregularity; in some quarters certain lines continued to move well, but elsewhere business was slow, notably on fancy piece-dyed worsteds. In dress goods an

active and somewhat broader demand was reported.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending Feb. 12 were 3,047 packages, valued at \$286,101, their destination being to the points specified in the tables below:

Total 3,047 18,843 17,511 43,811 The value of these New York exports since Jan. 1 has been \$1,451,313 in 1910, against \$2,235,585 in 1909.

Staple domestic cottons generally were in better request, and a larger volume of business done in jobbing houses than for some time past. Application on wash fabrics for spring and summer was especially good, while prints were taken more freely. Dress ginghams met with a steady sale, an improved demand being noted for moderate-priced fancies, supplies of which are reported as rather limited. A fair amount of business was reported in bleached goods, drills and sheetings. Export trade with the Far East remained at a standstill; an inquiry was received from China for 3-yard sheetings, but the price offered, although showing a slight advance, was still much below the market here; trade with miscellaneous ports continued moderate. Trading in print cloths was quiet; regulars are quoted unchanged, but standard wide goods are a shade easier at 5 %c.

WOOLEN GOODS.—Dress goods generally displayed considerable activity. A substantial business on piece-dye worsteds for fall came forward from jobbers and the manufacturing trade, and rough effects were well patronized. An unusually large yardage of goods is under order for spring, the call running principally to serges and diagonals, although broadcloths enjoyed a good sale. In men's wear lines, the activity of carded woolen goods and staple worsteds for fall was well maintained, and leading producers are reported well sold; bookings on serges and some other fabrics, in fact, exceed those of last year for the corresponding period. Fancy piece-dyed worsteds, on the other hand, were more or less neglected, clothiers claiming that prices named are too high to permit a satisfactory distribution.

FOREIGN DRY GOODS.—Lines of imported woolens and worsteds for the fall season are being shown and a fair business was done on these during the week; salesmen now on the road reported favorable results, especially on serges. Linens continued strong and active; importers, in placing new orders abroad, were obliged to pay advances, which caused a corresponding increase in prices here for late deliveries. The burlap market ruled quiet; light-weights are quoted at 3.40c. and heavy-weights at 4.40@4.45c.

Importations and Warehouse Withdrawals of Dry Goods. The importations and warehouse withdrawals of dry goods at this port for the week ending Feb. 12 1910 and since Jan. 1 1910, and for the corresponding periods of last year are as follows:

Japan.—Bond Offering.—Subscriptions will be received by the Yokohama Specie Bank, Limited, 55 Wall Street, New York City, for the new 4% refunding loan of 100,000,000 Yen. Lists will be closed in Japan on February 25, the allotment to be announced on March 5.

allotment to be announced on March 5.

Foreign holders of Japanese Internal 5% bonds who desire to avail themselves of the offer of conversion may do so under the following terms: 5% bonds accepted for conversion are limited to internal issues. 5% bonds on which semi-annual coupons are payable on March 1st are to be computed at en 100.75 cash for each yen 100 face value (March coupon off). These bonds on which the semi-annual coupon matures on the first of June to be computed at yen 102 cash for each yen 100 face value. The smallest denomination of the new 4% bond is yen 50 face value, and any smaller amount than yen 50 that may remain after the conversion will be paid in cash.

Subscriptions for the new 4% bonds may be made in cash, payable as follows: 5 yen on application, 20 yen on March 15, 20 yen on April 1 and 50 yen on May 2. Any premium over the minimum price of 95 yen should be paid together with the second installment.

The priority will be given primarily to applications for conversion of 5% bonds. In case of over-subscription, allotment will be made to the highest bidders until the amount of issue is apportioned.

Interest on the new bonds is payable in Japan, coupons being due June 1 and Dec. 1. Bond to run for 60 years, redeemable at par, with the option to the Japanese Government to redeem all or any after ten years from the date of issue.

Park County (P. O. Cody), Wyo .- Formation of County Declared Legal by State Supreme Court.—The State Supreme Court upholds the Act passed by the last Legislature (Chapter 19, Laws of 1909) creating the county of Park out of the northwestern portion of Big Horn County. The decision is the result of a suit brought by the Commissioners of Big Horn County to restrain the Commissioners of the provisional county from certifying the returns from a special election held for the purpose of ascertaining the sentiment of residents within its boundaries in regard to the organization of the new county.

Pittsburgh, Pa.—Litigation.—Injunction proceedings were commenced in the U.S. Circuit Court on Feb. 14 to prevent the issuance of the \$6,775,000 bonds voted at the last general election. See V. 90, p. 254. The action is brought by F. H. Kerr of Steubenville, Ohio, and A. E. Anderson of Pittsburgh for Sarah Chostkov of Steubenville, who owns property in Pittsburgh.

The petition asserts that the ordinance providing for the bond election unlawfully directed that several questions should be submitted to the voters as one, thereby depriving the electors of their "right" to vote on the questions separately, and that the ballots used at the election were so printed as to prevent the electors from expressing their assent to or dissent from the different propositions therein contained.

The claim is made that the improvement of the "hump" will cause \$3,000,000 damages to property in addition to the cost of the actual work; that this item of damages was not considered by the authorities. Showing what the assessed taxable valuations of property in the city is, the petition that the city's bonding power, without first taking a vote of the people, amounts to only \$918,914. It is asserted that for that reason the item of \$3,000,000 damages cannot be paid legally.

It is asserted that the proposed changes of street grades in the hump district are not a lawful municipal improvement, for the reason that the hump would not be removed, but that the grade would be reduced from a 7 per cent to a 6 per cent grade, which result is declared to be insignificant and out of all proportion to the cost and expenses of the work.

The petition charges that the board of city assessors is illegally constituted and has no authority to assess the petitioner's property for the payment of the proposed indebtedness, it being alleged that Assessors Thomas J. Hawkins, Thomas C. McMahon, William G. Manning, John G. Hastings, Joseph P. McKee and Edward J. McIlvaine have not lived in Pittsburgh the 10 years required by the statute, and that the assessors in assessing property acted on fanciful and unlawful theories.

Texas.—Question of Validity of Bonds Issued by County Line

Texas.—Question of Validity of Bonds Issued by County Line School Districts Decided by Attorney-General.—In giving his opi ion on Feb. 4 as to the validity of bonds to be issued by the Mart Independent School District, the Attorney-General decides an important question affecting school districts w ose boundaries include part of two or more counties. The case just decided is outlined as follows in the "Houston Post"

Austin, Texas, Feb. 4.—Attorney-General Lightfoot to-day gave an opinion in the Mart school matter settling a question of considerable moment. The town of Mart is in an independent school district in which is included portions of Falls, McLennan and Limestone countles, which district was invalidated by the Supreme Court in the Mertens or county line independent school district case. The town of Mart, which had incorporated subsequently to the creation of the Mart Independent School District upon the handing down of the decision in the Mertens case, assumed the control of its schools and levied a tax to run them as well as to provide for a stability find and the newwort of interest on an outstanding bond issue of control of its schools and levied a tax to run them as well as to provide for a sinking fund and the payment of interest on an outstanding bond issue of the district. In the meantime a constitutional amendment was adopted validating all county-line school districts affected by the decision in the Mertens case. Recently the Mart school house was destroyed by fire and in endeavoring to provide for its reconstruction the town authorities came face to face with the fact that the constitutional limit of taxation had been reached by them and that they were at this time without authority to create a new debt for the replacing of the destroyed building.

The matter having been laid before the Attorney-General he held that the constitutional amendment validating county line districts places the Mart district right where it was before the Mertens decision was rendered; that is, in control of the Mart schools. Under this decision the money accumulated by the town of Mart as a sinking fund for the bonds of the district as well as the insurance on the burned building reverts to the district with this money the outstanding indebtedness of the district for the discharge of which the town of Mart made provision can be liquidated and the district can issue new bonds to secure funds with which to build a new schoolhouse.

In this connection it is interesting to note that the county-line districts

In this connection it is interesting to note that the county-line districts validated by the amendment in question are now constitutional districts—that is, their boundaries can not be changed nor their organization extinguished except by constitutional amendment; as no power to do either is conferred upon the Legislature in the amendment that validates them.

The constitutional amendment referred to above which validated those districts having within their limits territory situated in two or more counties was given in full in the

"Chronicle" of May 22 1909, page 1329.

Attorney-General's Opinion as to Power of Counties to Issue Warrants for Court House and Jail.—The Tax Assessor of Chambers County recently requested the Attorney-General's Department for an opinion as to whether the County Commissioner's Court is authorized "to issue interest-bearing

warrants to build a court house and jail; or must an election be held and bonds issued for the construction of such buildings?" The answer to this inquiry is written by J. T. Sluder, Assistant Attorney-General, and expresses the opinion that a county has the power to issue interest-bearing warrants for the purposes in question without submitting the matter to a vote. It is pointed out that the law allows either the issuance of warrants or bonds for the erection if court houses and jails, but provides that the question issuing bonds shall be ratified by a majority of the vot at such an election. No such provision, it is said, exi with reference to the issuance of warrants.

Willow Marsh Drainage District, Jefferson County, Tex.— Litigation.—Mandamus proceedings were commenced Feb. 5 in the Sixtieth District Court by R. W. Gallier, representing the Willow Marsh Drainage Commissioners, to compel the County Commissioners to issue bonds voted by the district and levy a tax for the payment of the same. An issue of \$60,000 bonds of this district was offered for sale on Nov. 14 1908. See V. 88, p. 119.

Bond Calls and Redemptions.

Galveston, Tex.—Bond Call.—Interest will cease on March 17, on "General Indebtedness Funding Bonds of 1895 of the City of Galveston", issued in 1895 and numbered 36, 38, 39, 40, and from 43 to 86 inclusive. They are in denominations of \$1,000 and will be redeemed at the City Treasurer's office, or at the option of the holder, at the fiscal agency of Galveston in New York City.

Bond Proposals and Negotiations this week ave been as follows:

Albany-East Albany, Ga.—Annexation.—The voters of East Albany on Feb. 5 voted in favor of annexation to the city of Albany.

Allegheny County (P. O. Pittsburgh), Pa.—Bonds Authorized.—The County Commissioners have authorized the issuance of \$300,000 4% 20-year poor-farm bonds. These securities are in addition to the \$100,000 bonds authorized some time ago for the same purpose. We are informed that the entire issue will probably be disposed of to the Sinking Fund Commission and it is not likely that it will be advertised for sale.

Aliquippa School District (P. O. Aliquippa), Beaver County, Pa.—Bonds Voted.—The election held Feb. 15 resulted in favor of the proposition to issue the \$45,000 41/2% school-building and equipment bonds mentioned in V. 90, p. 249. The vote was 92 "for" to 59 "against."

Altoona, Pa.—Bond Election.—An election will be held in April to vote on the question of issuing \$250,000 bonds.

Ansley School District No. 44 (P. O. Ansley), Custer County, Neb.—Bond Not Sold.—No satisfactory bids were received on Feb. 10 for the \$17,000 4½% 20-year coupon school-building and equipping bond described in V. 90, p. 249. We are informed that the loan "will now be offered privately or handled by local parties."

Atlanta, Ga.—Bonds Voted.—The election held Feb. 15

resulted in favor of the propositions to issue the following 4½% bonds mentioned in V. 90, p. 459.

\$1,350,000 sewer bonds. Maturity part yearly on Jan. 1 from 1911 to 1940 inclusive.

900,000 water-works extension bonds. Maturity part yearly on Jan. 1 from 1911 to 1940 inclusive.

600,000 school-building and lot purchase bonds. Maturity part yearly on Jan. 1 from 1911 to 1940 inclusive.

100,000 Grady Hospital extension bonds. Maturity 30 years.

50,000 crematory-plant and lot-purchase bonds. Maturity 30 years.

We are advised that there were 8,475 votes cast "for" the bonds and 66 "against."

Barre, Vt.—Bond Offering.—Proposals will be received until 7 p. m. Feb. 24 by James Mackay, City Treasurer, for \$40,000 4% coupon school bonds.

Denomination \$1,000. Date Sept. 1 1909. Interest semi-annually at the City Treasurer's office. Maturity \$5,000 yearly on Sept. 1 from 1912 to 1919 inclusive. Bonds will be certified as to genuineness by the City Trust Co. of Boston, which will further certify that the legality of the issue has been approved by Ropes, Gray & Gorham of Boston, a copy of whose opinion will be delivered without charge to the purchaser.

Bartow County (P. O. Cartersville), Ga.—No Action Yet Taken.—We are informed under date of Feb. 12 that no action has yet been taken looking towards the issuance of the \$200,000 bonds mentioned in V. 90, p. 122.

Basin, Bighorn County, Wyo.—Bond Sale.—An issue of \$25,000 6% 15-30-year (optional) water-works bonds has been disposed of at private sale. Bids for these bonds were first opened Jan. 18, but they were all rejected. The bonds were then re-advertised for sale and bids were asked for until Feb. 14. In the meantime, however, arrangements were made with a former bidder who purchased them, as above noted, at private sale. Denomination \$500. Date Jan. 1 1910. Interest annual.

Beatrice, Gage County, Neb.—No Action Yet Taken.— Up to Feb. 10 it had not yet been decided whether or not the water-plant bonds mentioned in V. 90, p. 63, would be issued.

Bell County (P. O. Belton), Tex.—Bonds Registered.— On Feb. 2 the State Comptroller registered \$24,000 4% 10-40-year (optional) refunding bridge bonds.

Berea Special School District No. 2, Whitewater Township, Hamilton County, Ohio.—Bond Offering.—Proposals will be received until 12 m. Feb. 25 by E. H. Chidlaw, Clerk of the Board of Education (P. O. Cleves R. R. No. 1), for \$5,000 4½% school-building bonds.

Authority Sections 3991 and 3992, Revised Statutes, as amended; also an election held Jan. 25 1910. Denomination \$500. Date, "day of sale." Interest March 1 and Sept. 1 at the Hamilton County Bank in Cleves. Maturity \$500 yearly on March 1 from 1911 to 1920 inclusive. Certified check for \$50, payable to the Clerk of the Board of Education, is required. Purchaser to pay accrued interest.

Bismark, No. Dak.—Bonds Voted.—The \$50,000 4% 20-year city-ha'l bonds mentioned in V. 90, p. 388, carried by a vote of 381 to 74 at the election held Feb. 10. We are informed that they will probably be sold to the State.

Bluffton School City (P. O. Bluffton), Wells County, Ind.—Bond Offering.—Proposals will be received until 2 p. m. March 10 for \$48,700 4% school-building bonds.

Denomination \$500, except one bond of \$200. Date May 1 1910. Interest on Jan. 1 and July 1. Maturity \$2,500 each six months from July 1 1911 to July 1 1920 inclusive and \$1,200 on Jan. 1 1921. Certified check for \$1,000 is required. C. H. Plessinger is Treasurer of the School Board.

Bottineau County (P. O. Bottineau), No. Dak.—Bond Offering.—Proposals will be received until 2 p. m. Feb. 23 by J. P. Simon, County Auditor, for \$7,000 6% registered drain-construction bonds.
