# \$8,000,000

# PUBLIC SERVICE CORPORATION OF NEW JERSEY

## General Mortgage Five Per Cent Sinking Fund Fifty-Year Gold Bonds.

Outstanding, \$13,500,000

Authorized, \$50,000,000

Due October 1, 1959

Interest Payable April 1 and October 1

#### FIDELITY TRUST COMPANY OF NEWARK, N. J., TRUSTEE.

Bonds will be in coupon form of \$1,000 each and may be registered as to principal. Bonds are liable to be drawn for the Sinking Fund on or after October 1, 1913, at 105 and accrued interest, and at the option of the Corporation are redeemable on October 1, 1919, or on any interest date thereafter, at 105 and accrued interest.

Definitive Bonds are now ready for delivery

Application will be made to list these bonds on the New York Stock Exchange

Attention is called to a letter of Mr. Thomas N. McCarter, President of the Public Service Corporation of New Jersey (copies of which may be had on application), in which he states as follows:

- 1 That the funds of the Corporation available for interest charges on the \$13,500,000 of General Mortgage five per cent Sinking Fund fifty-year Gold Bonds of the Corporation, now issued, for the calendar year of 1909 were in excess of three times the amount of such interest charges.
- 2. Commencing August 1st, 1913, an annual Sinking Fund payment of \$209,500 draws bonds at 105 and accrued interest, if not purchasable at a lower price. This will be sufficient to acquire at 105 about two-thirds of the entire issue.
- The total authorized capital stock of the Corporation is \$25,000,000, all of which has been issued for cash at par. 3.
- 4. The remainder of the authorized issue is reserved for extensions and betterments, under carefully guarded restrictions contained in the Mortgage.

Having sold Considerably more than \$7,000,000 of this issue, we offer, subject to prior sale and advance in price, the unsold balance at 97 and interest

Cable Address: "Hought" Chicago Codes Used; Lieber and A B C 5th Edition

(Established 1865)

Peabody, Houghteling & Co.

181 La Salle Street, CHICAGO

We carry at all times a conservative line of high-grade Investment Securities, including:

### CHICAGO REAL ESTATE MORTGAGES

In amounts of from \$10,000 to \$100,000 each, secured upon valuable improved Chicago Real Estate. Our judgment in such important requirements as valuation of security, quality of improvements, desirability of location and income value is the result of over forty years' active and continuous experience in the Chicago field. Such mortgages yield from 5 to 6%.

### **CHICAGO REAL ESTATE SERIAL GOLD BONDS**

In denominations of \$500 and \$1,000 each, secured by first mortgage upon high-grade modern Apartment Buildings, well-located Mercantile or Manufacturing Buildings, or large modern down-town Office Buildings—a most convenient and desirable form of investment yielding from 5 to 6%.

### **RAILROAD, CAR EQUIPMENT AND TRACTION BONDS**

Having behind them in every case a substantial margin of security, successful history, ample earnings and sound management. Such bonds yield from  $4\frac{1}{2}$  to  $5\frac{1}{2}\%$ .

#### **STEAMSHIP BONDS**

First Mortgage Serial Bonds secured upon modern Steel Steamships on the Great Lakes enjoy an enviable reputation in the investment market. After a most searching investigation, we have been unable to discover a single instance of default in interest or principal in such issues. Such bonds are a legal investment for Michigan Savings Banks and yield 5%.

#### **INDUSTRIAL BONDS**

Secured upon such staple natural resources as Timber, Coal and Iron Ore Lands, which are steadily increasing in value, and which are so developed as to have ample income-producing capacity for the protection of principal and interest. Also the bonds of well-known manufacturing corporations having long-established and successful histories. The margin of security in such bonds is invariably very large, and the bonded debt is always payable in substantial annual or semi-annual amounts, thereby increasing the value and safety of the investment from year to year. These bonds net from 5 to 6%.

#### SEND FOR DESCRIPTIVE CIRCULARS

#### NOTICE

We are in the market for entire issues of bonds of the character indicated above. Offerings are oordially invited, and will receive our prompt attention.

#### THE FINANCIAL SITUATION.

The financial markets are apparently becoming wedded to the belief that the decisions of the U.S. upreme Court in the cases of the American Tobacco Co. and the Standard Oil Co., involving the construction of the anti-trust law of 1890, will be long delayed and in the meantime are hoping for the best. Accordingly the tone on the Stock Exchange has continued good, with further marked advances early in the week in a number of important properties, though followed by some reaction on Thursday and also yesterday. Aside from the more hopeful view of the future taken as far as concerns the anti-trust law and the radical Government policies, there have been some positive developments this week of a highly favorable character. One of these has been the increase in the dividend rate on the stock of the New York Central RR. The company returns to a 6% dividend basis. Its annual report, as likewise the annual reports of the subsidiary and controlled roads, are also made public this week and they present income exhibits for the calendar year 1909 of a most gratifying character. In a separate article on a subsequent page we review these reports and find, not only that the increase in dividend is fully warranted, but that taken all in all the Central and its tributary companies make a marvelous display of income.

We use the word "tributaries" advisedly because the various controlled companies are tributaries not only in a traffic sense but tributaries in adding to the Central's income from investments on its share holdings in these properties. Not only does the Central make a splendid showing by its own income statement, revealing a large surplus above the dividend paid, but all the other companies under its control and management are distinguished in the same way, and likewise record very noteworthy, in some cases even extraordinary, income surpluses above the dividend payments. Some of the surplus balances of the subsidiary companies are now being distributed in extra dividends, and thus the money is finding its way in large part into the treasury of the Central. Owing to changes in the methods of keeping the accounts enforced by the Inter-State Commerce Commission, it is not possible to make exact comparisons with former years, but it seems to be correct to say that not alone have the Central and its allied lines completely recovered from the depression suffered in 1908, but that, speaking of the properties collectively, they are enjoying greater prosperity than at any previous period in their history. At the same time, judging from the more liberal dividends now being announced by the auxiliary companies, somewhat of a change of policy in the matter of the distribution of earnings is also being made. It used to be the practice to pay only moderate dividends and to devote the remainder of earnings to improvements, betterments and additions. The Lake Shore urnishes a signal case in point. For years dividends of only 7% were paid when twice that amount was earned, so that the Central did not even get back in ull the interest which it had to pay on the bonds issued to acquire Lake Shore stock, such interest payments equiring 8% dividends by Lake Shore. The balance above the dividend payments was employed in doubletracking the road and in making enormous additions to the equipment.

### This old-time policy of putting surplus earnings back into the property is now apparently being abandoned. Obviously there can not be the same need for such expenditures there once was. Very likely, however, the change has been induced by the action and regulations of the Inter-State Commerce Commission, which prohibit charging up such outlays in the former manner, and require that outlays for improvements and additions in the nature of capital expenditure shall be stated separately in the income account and shall also be entered as a separate item in the balance sheet. At all events, within the last few weeks the Central management has begun making dividend distributions in the case of the subordinate companies more nearly in accord with actual earnings. The declaration of an extra dividend of 6% on Lake Shore stock (nearly all of which the Central owns) paved the way for the increase in the Central dividend. In the same way the new or extra dividend distributions made by the companies subsidiary to the Lake Shorefurnished the occasion and the opportunity for Lake Shore's enhanced payments.

The public does not yet seem to have taken cognizance of the effect of returning prosperity in raising the dividend and interest payments of the various subordinate companies which the Central controls directly or indirectly. We referred to the matter last week and hence will make only very brief enumeration here of the instances then mentioned. Thus the Pittsburgh & Lake Erie, besides the semi-annual dividend of 5%, has paid 40% extra. The Mahoning Coal Railroad, in addition to its customary semi-annual dividend of 6%, has made an extra distribution of 50%. The New York Chicago & St. Louis recently declared the first dividend, 3%, on its common stock. The Cincinnati Northern this month also made its first dividend payment. The Cleveland Cincinnati Chicago & St. Louis has resumed dividends on its common stock. The Peoria & Eastern, controlled by the latter, will again make the full annual payment on its income bonds on April 1, which had to be omitted the previous year on account of the depression. Furthermore, the Lake Shore owns a considerable amount of Reading common stock, on which the dividend was increased to a basis of 6% per annum last month, as against the previously prevailing rate of only 4%. All of this is in addition to the extra dividend by the Lake Shore itself and the larger dividend by the Central.

If the security markets were not in fear of what may happen at Washington in the judicial, the executive and the legislative departments of the Government, the circumstances here enumerated could not fail to stimulate the stock market to great activity and furnish a basis for an enduring rise in prices. As it is, Central itself has enjoyed only a very moderate advance, while there has been practically nothing doing in the securities of the subordinate properties, the strength of position and favorable outlook of which has been almost completely ignored, though the last two days there has been a sharp advance in Cleveland Cincinnati Chicago & St. Louis stock. The fact remains, however, that all the Central lines are enjoying great prosperity, and sooner or later this circumstance will dawn upon the public and exert a beneficial influence all around. For the present, it is a pleasure to note the fact here and give prominence to it.

There has been another favorable development this week, one of even more far-reaching importance. We refer to two certain decisions handed down by the U.S. Supreme Court on Monday, both annulling orders of the Inter-State Commerce Commission. These decisions possess great significance in showing that our highest judicial tribunal can still be depended upon to protect assailed interests, where it is attempted to give an unnatural or a strained construction to the provisions of a statute, though obviously it is beyond the power of the Court to nullify a destructive law, where the meaning and intent is plain and where it does not contravene the Constitutional requirements. Of the two decisions rendered on Monday to which we refer, one needs only very brief mention. This was a case where the Inter-State Commerce Commission had issued an order requiring the Delaware Lackawanna & Western Railroad to grant a physical connection with the Rahway Valley Railway Co. at Summit, N. J. The Court holds that under the circumstances existing in that case the Commission did not have power to require a switch connection to be put in.

The other case is the one to which we wish to direct particular attention. It has excited very little comment on the part of the press, and yet by reason of the grave point at issue we regard it as among the most weighty cases decided by the Court. It involved, at any rate, a principle of great moment. If the order of the Commission had been upheld, it would have meant that a railroad, after making enormous capital expenditures to provide a feasible line, could be deprived of the advantage which possession of the line gives. The case was what has become known as the Portland Gateway case. The controversy was over the attempt of the Commerce Commission to require the Northern Pacific to join with other railroads in establishing a through passenger route and joint rates from the East to Puget Sound territory, via Portland, Oregon. The case was discussed at length in an article in our issue of May 29 last year, under the title "Stretching the Inter-State Commerce Law." Among the powers conferred upon the Commission under the Hepburn Law is that of establishing through routes, but subject to the condition that "no reasonable or satisfactory through route exists." Disregarding this proviso altogether, the Commission directed the Northern Pacific, which has its own route between Chicago, St. Paul and Puget Sound, to join with the Union Pacific lines and the Chicago & North Western in the sale of through passenger tickets between Chicago and the Pacific Northwest by way of Portland. Had the attempt of the Commission succeeded, the Northern Pacific would have been obliged, in carrying through passengers, to content itself with a haul as far as this new through route is concerned, of only about 140 miles, covering the distance from Portland to Seattle. On the other hand, over its own route the Northern Pacific gets a haul of 1,900 miles if the passenger travels all the way from St. Paul, or of 1,000 miles if the Chicago Burlington & Quincy is used from Chicago to Billings, Mont., and the Northern Pacific for the rest of the distance from Billings to the Coast. We might go further, and say that when the Burlington & Quincy is used the Northern Pacific gets the benefit of the haul the entire distance of 2,500 miles from Chicago to Seattle, since the Northern Pacific holds a half-inter-

est in the Quincy Company, the Great Northern own ing the other half.

In effect, therefore, the point at issue was whether the Northern Pacific and allied lines, after spending several hundred million dollars in creating a route of 2,500 miles, should be allowed to have the haul for this 2,500 miles or should be compelled to accept a beggarly haul of 140 miles from Portland to Seattle (between which points it possesses the only line in operation) and let the other roads haul the passengers for the remaining 2,360 miles. The Inter-State Commerce Commission disposed of the matter in very jaunty fashion, though to the credit of the Board be it said that Commissioner Knapp and one other member dissented. It decided that in order that the public might have a choice of routes, the Northern Pacific, besides furnishing through facilities over its own lines must also furnish through facilities over the lines of competing systems. It issued an order to that effect notwithstanding that, as we have already seen, the statute gives the Commission authority to establish through routes and joint rates only "provided no reasonable or satisfactory through route exists." The Supreme Court, however, declares that inasmuch as the Northern Pacific itself maintains a "satisfactory or reasonable route" from the East to Puget Sound points, the Commission could not require the company to join in creating another route. To hold otherwise, the Court said, would be to give an artificial meaning to the words of the statute. "The condition in the statute is not to be trifled away," said Justice Holmes.

In the annals of railroad suits this case will always remain noteworthy, not alone for the important point involved, but for the most remarkable grounds upon which the Commission sought to sustain its action. The opinion was by Commissioner Prouty, who always soars in the realms of fancy in an attempt to maintain an attitude of seeming fairness. Here is some of the persiflage in which he indulged on that occasion. We published the extract in our article of last May, but it is worth reprinting as indicating upon what flimsy grounds the order of the Commission, now annulled, was based.

"The Commission said that some lines present much greater scenic attractions than others, and the scenery differs greatly upon different lines. May not a traveler select his route with reference to the natural beauties which it offers? May he not properly desire to inform himself of the extent and character of the country

of which he is a citizen? Being familiar with one line, may he not reasonably desire to behold the beauties and the business advantages of some other line?

"The education and gratification of the sense of the sublime and the beautiful have been recognized in all ages as distinguishing marks of civilization. Governments often provide at the public expense objects of beauty to be gazed upon by the masses. Can it be said that the desire to behold what is attractive in nature is not a desire which the traveler may reasonably indulge? Is this an age so intensely material that the only test of reasonable satisfaction is business necessity and animal comfort?"

We do not think the equal of the foregoing can be found among records in court cases. It will be observed that Mr. Prouty refers to "the education and gratification of the sense of the sublime and the beautiful" and speaks of "objects of beauty to be gazed upon by the masses," and then in a tone of mingled derision and contempt asks, "Is this an age so intensely material that the only test of reasonable satisfaction is business necessity and animal comfort?" How this impressed the Supreme Court can be imagined from Justice Holmes's cold, unfeeling remark that "the condition in the statute is not to be trifled away." Obviously, a body that will tolerate such utterances as the above from one of its members in support of a conclusion announced by it cannot lay any high claim either to judicial poise or to plain ordinary common sense. Yet we see by the dispatches from Washington this week that the bill which President Taft had prepared for altering the Hepburn Rate Law has been amended by the House Committee on Inter-State and Foreign Commerce by substituting the Inter-State Commerce Commission for the proposed Court of Commerce to be created under that bill. Just think of investing such a body as the Inter-State Commerce Commission with the functions of a real court. The very suggestion provokes ridicule.

Another point about this Portland Gate case deserves to be recalled. The order for the establishment of a through route between the Northern Pacific and the Union Pacific and the Chicago & North Western was not made at the instance of these two latter roads. The Commission acted on its own initiative. In one of its daily bulletins which it was the custom to issue at that time, the public was informed that the Commission had "instituted this proceeding upon its own motion for the purpose of determining the right of the matter." In President Taft's Railroad Bill it is seriously proposed that the Commission should also have the right of initiating rate reductions. With such a record behind it as this body has, what might we not expect if the Commission should be endowed with the added authority referred to in the matter of rates?

De mortuis nil nisi bonum is a maxim that is not observed when speaking of dead political leaders, as is evident from the comments in the daily papers on the life of ex-Senator Thomas C. Platt, who died last Sunday afternoon. Yet some things should be said to his credit in simple justice. It is perhaps making only a negatively favorable assertion to say that none of the personal taint which sometimes clings to boss-ship reached him. The fact is worth recording, nevertheless, seeing that the same thing cannot be said of some other political leaders who have achieved fame in their line. "Tom" Platt, the "Easy Boss," was not in politics to make money for himself, and leaves no large estate behind. He kept himself clean. Furthermore, the country owes him, as perhaps its largest debt, the now almost forgotten service he rendered in committing the Republican Party to the gold standard in 1896. Both parties had coquetted with silver, ready or half-ready to surrender to it if that would purchase success at the polls. The Republican Party checked itself and receded in time, undoubtedly by the influence of Mr. Platt. How far he was governed by principle then, and how far his foresight extended we need not inquire; the service rendered was a real one. Our national dangers are serious enough now, but they are of another nature; the peril of the closing decade of the centure is past, and for so much we may be thankful.

sults, in aiding the consolidation which made Greater New York It may be true that the late Andrew H. Green is entitled to be called the Father of the Greater New York, for having long urged and advocated the idea, and that James S. T. Stranahan of Kings County is entitled to share the distinction with him. But the "Easy Boss" did the political work necessary to make the idea a reality. The Consolidation Act met with bitter opposition, and could not, and would not, have been carried through except for his imperative orders.

We think that after the lapse of years views with reference to the desirability of consolidation may well be modified. All the objections that were urged against consolidation have come true. The problem of government has been rendered more difficult and the expense of government has been increased and taxes have gone higher. But consider another aspect of the matter-consider what has happened in the interval since consolidation took place, only twelve years ago. Look at the new means of transit furnished with New Jersey. Contemplate what the McAdoo tunnels and the Pennsylvania Railroad tunnels are doing to make access to New Jersey easy and quick, and to provide homes for workers in New York, tempting them away from here. With these new transit facilities building up property values in a neighboring State, what would be the position of New York City to-day if its confines were limited to Manhattan Island, with no chance for growth except in a northerly direction. Mr. Platt may have builded wiser than he knew, but he certainly rendered valuable service when he laid broad and enduring foundations for the greatest city of the Western Continent.

The monthly statement of the Copper Producers' Association issued on Thursday, and covering February, is not of the same favorable character as was the January return. This latter had shown unprecedented deliveries, both for home consumption and for export, with a consequent large reduction in the accumulations of copper. The present statement reveals an increase again in stocks, with a reduction in domestic deliveries and with foreign exports down to a very small basis. But it was evident that the pace set in January could not be maintained. As was shown in an extract which we made from some comments contained in the "Boston News Bureau," the exceptional January deliveries represented orders given in November and December, when the air was full of talk of a proposed huge copper combination. A favorable feature in the February statement is the further decrease shown in the output of the metal, though, of course, it must be remembered that February is a month of only 28 days. The product for the month is given at 112,712,493 pounds, as against 116,547,287 pounds in January, 117,828,655 pounds in December, 121,618,369 pounds in November and 124,657,709 pounds in October. On the other hand the combined deliveries for home consumption and export were only 103,987,840 pounds, against 159,850,050 pounds in January and 129,066,071 pounds in December. As a consequence, stocks were increased 8,724,563 pounds, leaving them, however, smaller than at any time during the whole of last year. The deliveries for domestic consumption were only 66,618,322 pounds, against 78,158,387 ponuds in

[VOL. LXXXX.

#### 658

Mr. Platt rendered another service, perhaps without the loftiest motives and without foreseeing re-

January and 69,519,501 pounds in December. The exports dropped to 37,369,518 pounds, against 81,-691,672 pounds in January and 59,540,570 pounds in December. It is noteworthy that in face of the small shipments abroad there was, nevertheless, still further addition to the foreign visible supply (in amount of 5,929,280 pounds), bringing the latter up to 254,-139,200 pounds on March 1 1910, against only 117,-140,800 pounds March 1 1909 and but 46,531,500 pounds on March 1 1908. That is to say, the foreign visible supply is over 200 million pounds larger than it was two years ago.

The unfortunate situation that has arisen in Manchuria, instead of having been smoothed out by Secretary Knox's somewhat hasty proposal for the neutralization of railroad interests there, is provoking discussion that at times assumes an irritating aspect. America's representations, made publicly before having been laid before the Foreign Offices of the countries mainly concerned, did not meet with general approval, and subsequent suggestions concerning the construction of a railroad from Chinchow to Aigun via Tsitsihar have also failed to receive endorsement. This may be regrettable, yet the known facts, whatever may lurk beneath the surface, do not appear to justify a belligerent attitude on the part either of our Government or the financiers who are interested in the development of the great Chinese Empire.

These remarks are impelled by the reported utterances at the Republican Club last Saturday of Jacob H. Schiff, head of the influential international banking house of Kuhn, Loeb & Co. On several notable occasions Mr. Schiff has come forward with warnings that deserved the most serious attention; his knowledge of Japanese and Russian affairs is not superficial; he is not by temperament an alarmist but a banker enjoying an enviable reputation for conservatism and sound judgment, and he seldom courts publicity. For these various reasons his warning of threatened trouble over Manchuria has excited international comment. Mr. Schiff's declaration was apparently to the effect that Japan had joined hands with "Russia, the enemy of all mankind," and had succeeded in drawing "perfidious Albion" into a scheme to prevent the enlightened development of China—in other words, to prevent the carrying out of the "open door" policy insisted upon by John Hay and his successors in office. This alleged intrigue by Japan, Russia and Great Britain he described as liable to become the world's greatest menace, and he added that unless the United States uses the right kind of statesmanship to defeat the plan, unfortunate consequences are inevitable. Sensationalists have magnified this into a prediction of war between America and Japan and naturally the Japanese are amazed at the words attributed to Mr. Schiff, the more especially as he rendered that country invaluable assistance in providing funds to carry on the struggle against Russia and was signally honored therefor by the Mikado. Now, only a few weeks have passed since the Japanese Prime Minister gave a solemn assurance (before the Legislature) that the Government was irrevocably committed to the "open door" principle in China and nothing has come to light since then to disprove his sincerity. True, Russia and Japan seem to have arrived at a more cordial understanding, and Britain |

has found no grounds for resenting the course followed by her ally; but this in itself does not imply that a compact inimical to America's interests has been entered into. Of course the arguments may be adduced that Secretary Knox would not have acted so precipitately had he not realized that things in Manchuria were not shaping themselves satisfactorily from our point of view and that a financier of Jacob H. Schiff's standing would not come forward with so emphatic a warning had no cause existed. We can only point out that the public records contain nothing indicative of these suggestions, and for our own part we elect to believe that neither Japan nor Great Britain will seek to violate their declared policy concerning China, either for their own aggrandizement or to the injury of America.

The long struggle for a one-fare rate to Coney Island—a struggle which has never been able, and, indeed, has hardly seriously tried, to establish any more conclusive plea than the undoubted one that people would rather pay one nickel than two-has come to a halt, and probably to a finish, by the decision of the Public Service Commission that no just cause exists for its intervening. The decision is by a majority only, one member opposing the rejection of the complaints, while the Chairman would make an exception of a single line and sustain the complaint as to that one. It is interesting that Commissioner McCarroll, who wrote the majority report, argues that even if the complaint of over-capitalization is deemed established, that alone would not make out the complainants' case without some evidence (which, he said, is wholly lacking) that the ten-cent fare "is inherently excessive for the length of ride involved," or that the total business of the lines is unreasonably profitable and the earnings on the Coney Island portion thereof could be reduced without unfairly burdening the remainder. Commissioner Maltby wished to confine the surface lines to a single fare, which he thought would be equitable and would also tend to a more even distribution of traffic.

It may be said that this is a seasonal rather than a continuous travel through the twelve months; that it concentrates itself on Sundays and holidays; and that it is largely a one-way travel, so that the relation between receipts and expenses per passenger mile is less favorable than in ordinary cases. While this plea is still valid, it is somewhat less strong than it was during earlier stages of this long contention; for the population is re-distributing itself, and travel over these disputed lines is becoming both larger and more uniform. It is pretty clearly indicated that the fivecent fare to Coney Island will come ere very long by the operation of natural causes, being voluntarily established; but that is quite a different matter from having it forced in response to a public demand which has not stopped to consider both sides.

The strike of the street railway workers in Philadelphia has developed into an effort to unionize the whole city. The Rapid Transit Co. continues serene amid the excitement of the populace and is operating more cars from day to day. Citizens, partly through fear, refrain from using the cars. Preferring safety and speed, although at greater cost, they are using the steam railroads, which have sixty stations within 660

the city limits and terminals near the business centre. This causes a loss of receipts estimated to be about \$40,000 a day to the Transit Co., and in addition the company is incurring an expense which runs \$20,000 per day in excess of the normal. The financial loss to the company during the three weeks of the strike is estimated at about \$1,250,000. In the textile district of Philadelphia 20,000 employees, representing twothirds of the workers in textile mills, are idle. In other industries, according to our advices, perhaps 10,000 persons have voluntarily ceased to work. The city administration has shown no lack of fortitude in suppressing disorder, which in most cases, it seems, has occurred at places remote from the centre of the city. If no serious outbreak occurs the natural cure for the difficulty will come with the lapse of time, when men, becoming weary of idleness and feeling the need of their customary wages, will return to their usual employment. An illustration of the way the sympathy strike works in Philadelphia is afforded by the experience of a manufacturer of shovels in that city. Last Saturday fifteen of his teamsters notified him that they were going to strike to show their sympathy for the motormen and conductors. The manufacturer advertised for teamsters to take the place of his striking employees, and he received forty replies. Over 50% of the applicants stated that they were striking motormen and conductors.

The report on stocks of cereals in farmers' hands in the United States on March 1 1910 was issued on Tuesday by the Department of Agriculture. The information it contained was more than usually gratifying because its tendency was to lower the abnormally high market prices of the important cereals named. It seems that the farm reserves March 1 1910 of wheat, corn and oats were at the date mentioned greater than at the same date of 1909 or 1908 and well in excess of the ten-year average. Lower values for wheat would certainly be a boon to a large body of individuals who make up the world of bread-eaters. A further important feature of the report was the inference expressed that there would be no reason to fear shortage before the grain of 1910 was harvested. Of wheat the Department reports the quantity in farmers' hands on March 1 as approximately 23.5% of the 1910 yield, or 173,344,000 bushels, a total larger by 30 millions of bushels than at the same time in 1909 and 25 millions more than in 1908, but 33 millions less than in 1907. Corn stocks reported on farms reached 37.9% of the last harvested crop, or 1,050,865,000 bushels, which aggregate compares with 1,0473/4 millions in 1909, 962 millions in 1908 and 1,298 millions in 1907; the merchantable quality of the 1910 crop at 82.6% was only a little befow the average of recent years. Oats in farmers' hands on March 1 are reported as about 36.1% of last year's yield, or 363,159,000 bushels, or much larger holdings than at the same time in either of the two preceding years, but a little smaller than in 1907. It is also worth noting in connection with the foregoing that the outlook for winter grains is quite encouraging. The area of wheat seeded last fall was, according to the Department of Agriculture, nearly 8% greater than in the preceding year. No Governmental report on condition is issued until April, but reliable private advices, in particular those to the

"Cincinnati Price Current," give a rather promising view of the outlook. In effect they denote weather conditions have recently been distinctly favorable for the wheat fields and that east of the Mississippi River crops are up to the average, or better, for this season of the year. Damage reports have come from Western sections, but they are regarded as exaggerated, especially as in many cases the snow covering has until very lately prevented close estimates of injury done. The damage reports, moreover, appear to apply largely to late seeding.

Our foreign export trade for February 1910, as ndicated by the advance statement of shipments of breadstuffs, provisions, cotton, &c., was below the normal of recent years, a restricted outflow being the feature of the movement of each of these leading commodities. The most notable loss, however, was in cotton, shipments of which were not only less than half the total of last year in quantity but also smaller than in February of any year since 1893. High prices, of course, account for the restricted outflow. As regards value, the cotton exports for February this year, at  $24\frac{7}{8}$  millions of dollars, show a loss from the month of last year of  $9\frac{3}{4}$  millions and a falling off from 1908 of 1914 millions. Breadstuffs exports at 7 1-3 millions of dollars for the month were  $2\frac{3}{4}$  millions less than for the like period of 1909 and  $12\frac{1}{2}$  millions smaller than in 1908, the principal decline being in wheat. Provisions, moreover, shared in this year's loss to the extent of 2 millions of dollars, and at  $9\frac{1}{2}$ millions were less than half the aggregate of 1908. Combining the items referred to, and including cattle and mineral oils, we have a total of only \$49,417,065, against \$63,778,682 for February of 1909 and \$94,-600,919 in 1908.

Imports of merchandise, in sharp contrast with the above, exhibit a large gain in February; at least that is the conclusion we reach from the result for New York, the only point for which complete data are yet available. Compared with a year ago, the appraised value of merchandise imported through this port for the month shows an increase of nearly 11 millions of dollars, and contrasted with 1908 the gain reaches over 29 millions. Considering this increase in imports at New York in connection with the loss of 14¼ millions in exports of leading articles indicated above, it seems probable that the completed statement of our foreign trade, due next week, will exhibit a small net import

balance—the first of the kind in February since 895. Last year the February export balance was about  $7\frac{1}{2}$  millions of dollars and in 1908 over 83 millions.

Our Tariff Board went to Ottawa and has now returned. In that one sentence the whole deliberations may be summed up. Nothing resulted. Our representatives were courteously received by the Canadian Premier, Sir Wilfred Laurier, and the Minister of Finance, the Hon. W. S. Fielding; conferences were held and hospitality cordially extended; but courtesy was not accompanied by concessions. No official announcement has been made by either Government concerning the negotiations, but the position is fairly well understood. From trustworthy sources the information is derived that Canada has adopted the following attitude: She refuses the United States the special concessions granted by treaty to France; she is prepared

to handle the wood-pulp and paper situation in a conciliatory frame of mind; she is willing to grant a few minor concessions on American products in return for our minimum tariff rates, and, though rebuffed in the past, would not be averse to re-opening in the future negotiations for entirely new tariff relations between the two countries more in accordance with those existing between the various States in the Union than between the Union and over-sea nations. The whole problem of solving the difficulty with the Dominion now passes to President Taft. Will he be able to avert a deadlock? If so, how? These questions are agitating those States that enjoy a lucrative trade across the border more perhaps than they are troubling Canadians, for it must be kept in mind that the United States sells twice as much to Canada as the latter sells to us. It is suggested that the President may, in order to remove the undesirable friction, concede to Canada our minimum schedules on the ground that investigation has shown that Canada does not exercise undue discrimination against us; or he may order the minimum rates to be granted pending further consideration and negotiation. At all events, a settlement is looked for either temporarily or permanently, since a trade war with our most influential neighbor would aggravate the dissatisfaction, already somewhat insistent throughout sections of the West, over the Payne measure, and thus have an unpleasant influence this fall when the Congressional elections are under way. Canada's reported willingness to make minor concessions should pave the way for a graceful response without embarrassment to either Administration.

This week the following places were proclaimed entitled to our lowest tariff rates: Cuba, Bahamas, Siam, Bermuda, Barbadoes, Leeward Islands, Windward Islands, Jamaica, Turks and Caicos Islands and Trinidad and Tobago. No developments have been announced in the negotiations between the United States and France, but both in Paris and Washington hopes are still entertained that an agreement will be brought about before April 1.

Throughout Prussia the discontent that has long been manifested against the antiquated suffrage system broke into open revolt last Sunday, when, according to cabled reports, 120,000 persons joined in a "demonstrative stroll" planned by Berlin socialists, and meetings were held in other cities, including Cologne and Solingen, to protest against the Government's opposition to measures of reform. Both in Berlin and Solingen force had to be used by the gendarmerie in dispersing the crowds, and many persons were wounded. The position is serious enough to have a depressing influence upon the Berlin Bourse and to adversely affect the money market. The commercial and industrial classes, who have grown in numbers and importance with great rapidity, and are inadequately represented in the legislative bodies of the Empire, want the whole franchise system revised, but the agrarian interests object to having the existing status disturbed, inasmuch as they play a part in the Government out of all proportion with their numerical strength, or, it might be added, their financial standing, in comparison with that of the urban population. This week three sections of the Radical Party formally decided to unite under the name of the "Progressive Party." This combination will muster some fifty votes in the so much financing will impose more or less of a strain

Reichstag, and hopes are entertained of entering into an alliance with the National Liberals, thus forming a party of no little power.

The revolt, headed by Gen. Estrada, against the Nicaraguan Government has failed-not, however, before the quondam President, Zelaya, was driven from the country. The insurrectionists succeeded in inflicting considerable damage upon the Government forces in the early stages of the campaign, but since the change in the presidency the rebels have not been able to attract support from the people at large and their mission has latterly been a forlorn hope. The one aim of the revolutionists now is to induce the United States Government to intervene and establish a new order of things, the recently elected President, Madriz, not being acceptable to the Estrada faction, inasmuch as he was friendly to the old regime. Guerrilla tactics are kept up, but with scant success, and as our State Department is showing no disposition to come to Estrada's rescue, the whole movement is expected to collapse. The revolutionary faction has besought our Government, through our Consul at Bluefields, to intervene and to demand that a new provisional President, neither Estrada nor Madriz, be selected pending a free election in which neither of these leaders would be eligible. Such terms are not acceptable to President Madriz, who claims that, as he was elected constitutionally, he cannot be deposed. Moreover, he is confident that the Administration is quite capable of handling the situation and of restoring order in a manner that will induce the United States to reopen friendly negotiations with Nicaragua. Having acted with precipitancy once, Secretary Knox is wisely refraining from interfering so long as a state of war prevails. That peace will shortly be restored, however, may be safely assumed, now that the rebels have been disastrously routed.

British financial necessities, quite apart from the Budget, are engaging the attention of the House of Commons, since a multitude of formalities must be observed to lawfully obtain the funds necessary to carry on the Government now that the country is without a regular finance bill. We need not enumerate the various forms of red-tape that have to be complied with in order that the Treasury Department may legally collect revenues and make disbursements; but the financial position may be briefly presented. The Prime Minister, discussing this matter, explained that of the War Loan of 1900, amounting originally to \$150,000,000, about \$105,000,000 remained outstanding and would have to be redeemed on April 5. He indicated that Exchequer bonds running for a short term of years would be employed for this purpose after the statutory authorization had been duly made. The Treasury bills outstanding on March 31, the last day of the fiscal year, would all fall due, the total being approximately \$86,000,000; renewal, he pointed out, could not be made without an Act of Parliament, and of course the bills could not on this occasion be met out of revenue, the loss in which, by the way, was this week placed by Mr. Lloyd-George at \$142,500,000 in consequence of the rejection of the Budget, although naturally a certain amount of this will be recovered once the financial bill is passed. The effecting of upon the London money market during the next three weeks; already the discount rate has advanced to  $2\frac{3}{4}\%$ .

Before passing from British national finances it should be recorded that on Wednesday the Navy estimates for 1910 were issued by the Admiralty, providing for an expenditure of \$203,018,500, an increase over 1909 of \$27,805,000, due almost wholly to the elaborate shipbuilding program authorized before the last Parliament dissolved. By the first day of the new fiscal year there will be under construction seven battleships, three armored, nine protected and two unarmored cruisers, 37 destroyers and a considerable number of submarines. On Thursday the Civil Service estimates were issued calling for fully \$330,000,000, also an increase over last year. "Should the Chancellor's Budget," it is added, "provide for the usual consolidated fund charges, the grand aggregate expenditure which the Chancellor will have to meet will be upwards of \$855,000,000, or nearly \$50,000,000 in excess of last year's total." The recently enacted old-age-pension scheme is estimated to cost \$46,100,000.

On Monday next Lord Rosebery is expected to outline his plan for reforming the House of Lords, or, rather, the plan that is understood to be agreeable to a majority of the Peers. It is announced that his resolutions will insist upon the necessity for a virile Upper Chamber, will declare that this can best be secured by the re-constitution of the House of Lords, and will recommend the acceptance of the principle that the mere possession of a peerage should no longer carry with it the right to membership in the Second Chamber. The debate on these proposals is awaited with keen interest. On March 29 the Prime Minister will lay his resolutions for reorganizing the House of Lords before the Lower Chamber. He has already announced that he will advocate the shortening of the duration of Parliament. At present the Parliamentary term is seven years.

The very heavy demands now being levied upon the American money market by our railroad corporations are finding their counterpart abroad in the form (mostly) of Government applications for capital. During the first two months of the current year new issues of securities of all kinds in England reached \$250,000,000, a total never approached in any previous year with the exception of 1909, when discounts in London were very much lower than they are to-day. Japan announces that another conversion loan of \$50,000,000, on the same terms as the first, will be offered later in the month; that is to say, the interest rate will be 4% and the issue price 95. The Governments of Austria, Greece and Persia contemplate important loans, while Germany may also be in the market before long. Municipal borrowing is looked for from St. Petersburg, Astrakhan and Copenhagen, while in Paris money is being spent very freely in rehabilitating the city after its unpleasant experience with floods. At home a \$50,000,000 issue of New York City bonds hearing the novel rate of  $4\frac{1}{4}\%$  is due on the 21st inst. Railroad bond offerings during the current week have been unusually heavy and other loans are known to be pending. Both abroad and here interest rates have advanced appreciably;

leading local banks have during the last few days refused to make commitments, other than from day to day, on last week's low terms, a course that has already stimulated borrowing in London and Paris by means of long finance bills.

Immigration during January 1910 was of fairly full volume for the season of the year. According to the official statement issued this week the number of aliens admitted was 50,242, or 6,374 more than for the like period of 1909 and 23,022 greater than in 1908, but showing a moderate decline from both 1907 and 1906. For the seven months of the fiscal year 1909-10 (July 1 to Jan. 31) the aggregate of arrivals was considerably greater than for 1908-09, comparison being between 473,224 and 261,531; but contrasted with the two preceding years an important decline is to be noted. Of this year's seven months' arrivals the largest number came from Italy, the inward movement from that country being 78,579, nearly double the total for the same period of 1908-09. Notable increases in the arrivals also appear from England, Germany, France, Ireland, Russia, Poland and the Scandinavian countries. In fact the influx of Poles was particularly large, reaching 55,948, against only 20,263 last year.

A let-up occurred in January in the movement of non-immigrant aliens (due to those returning from visits abroad), the inflow having been only 7,230, against 11,107 in the same month of 1909. Still, combining the two classes of aliens (immigrant and non-immigrant), we have a total influx of 57,272 in January this year and 561,415 for the seven months ended Jan. 31, against 54,975 and 361,140 for the like periods a year ago.

In contrast with the inward movement, the outward flow of aliens (emigrant and non-emigrant) in January was of noticeably restricted proportions, reaching only about 12,500, as compared with 18,061 in the month of 1909 and 60,233 in 1908. Moreover, for the seven months of the current fiscal year the aggregate at 200,000 contrasts with 274,963 in 1908-09 and 433,180 in 1907-08. Striking a balance between the inflow and outflow of aliens we have a net gain in the foreign-born population of the United States in the seven months of 1909-10 of 361,415, whereas in the same period of 1908-09 the augmentation was only 87,177, and in 1907-08 reached but 273,143, against a gain of 467,431 in 1906-07.

#### [VOL. LXXXX.

Foreign discount rates have been marked up this week at all the large centres. London yesterday went upon a  $2\frac{3}{4}$ % basis, having been influenced by shipments of gold to the Continent and India, by Stock Exchange settlement demands, by the extensive Treasury financing due this month and another decline in the Bank of England's holdings of bullion. At Paris, where a nominal gain in specie is recorded-the Bank of France added \$640,000 to its stock of gold, but lost \$485,000 silver-the rate yesterday rose to  $2\frac{1}{4}$ %, but difficulty is experienced in finding employment for funds, although it should be added that New York bankers are taking steps to remedy this situation. The Imperial Bank of Germany lost \$1,425,000 gold during the week, but it curtailed loans and note circulation by \$22,300,000; the discount rate in Berlin, after having touched  $3\frac{3}{8}\%$ ,

is now quoted at  $3\frac{5}{8}@3\frac{3}{4}\%$ . Frankfort is on a  $3\frac{3}{4}\%$ basis. Amsterdam continues to accept bills at  $1\frac{7}{8}\%$ . In London there has been reckless speculation in rubber, oil and Rhodesian mine shares, but the furore has not spread to the Continent, Paris alone having taken a modest part in this kind of trading.

The Bank of England on Monday sceured the \$3,-000,000 new South African gold available in the open market, only the minimum price of 77s. 9d. being paid. The output of the metal in the Transvaal during February reached 575,622 ounces, against 565,218 ounces in the same month last year and 601,368 ounces in January of this year, the daily yield having thus exceeded that of January. The Bank on Thursday (after the publication of its weekly statement) bought \$695,-000 bar gold, but shipped \$825,000 in sovereigns to India and \$100,000 to Ceylon, while yesterday Paris took \$510,000 sovereigns and \$3,750,000 was earmarked for India. According to our special cable from London, the Bank of England's ratio of reserves to liabilities rose from 50.73% to 50.82%, despite a loss of  $\pounds712,925$  bullion; at the close the Bank held  $\pounds 35,237,640$  bullion. Our correspondent further advises us that while shipments to the interior of Great Britain were small, exports were of important amount, especially to India, Egypt and Paris, and greatly exceeded imports. The details of the movement into and out of the Bank were as follows: Imports, £486,000 (of which £9,000 from Australia, £30,000 from South America and £447,000 bought in the open market); exports,  $\pounds 1,102,000$  (of which £200,000 to Egypt, £350,000 to India, £262,000 to Paris, £10,000 earmarked Straits Settlement and  $\pounds 280,000$  to various destinations), and shipments of £97,000 net to the interior of Great Britain.

Money rates are beginning to reflect the extensive demands for new capital now being put forward by corporations, the renewed speculation for the rise in stocks, the withdrawal of funds from New York for agricultural districts (this being the planting season) and the depletion of bank reserves. The knowledge that the local municipality is to float \$50,000,000 bonds on March 21 and that numbers of other large loans are impending is also having an influence upon lenders. Were the United States not so closely bound up with the money markets of Europe, were, indeed, the world not now as one great money market, there might be apprehensions of somewhat high charges for accommodation; but it must be realized that in France, in Holland, in Britain and in other European countries, funds are procurable in almost unlimited volume at very reasonable rates. As a matter of fact, New York bankers have this week tapped these sources of supply with profitable results, and there are indications that additional assistance may be sought by and by. Therefore no occasion for uneasiness exists. A 4%money rate usually signifies healthier conditions than a 3% rate or, it might be added, a 6% rate, since these extremes suggest industrial depression in the one case and undue speculation in the other. Until Wednesday, last week's quotations ruled, but on that day lenders withdrew their offerings at the minimum rates and since then the advance has been quite marked. As not infrequently happens,

borrowing, due no doubt to apprehensions lest the market go further in the same direction. For the shortest maturities the inquiry is light; the usual rate for 60 days is  $3\frac{3}{4}$ %. For 90-day loans lenders are asking 4%, but occasionally concessions are granted, so that the range is  $3\frac{3}{4}@4\%$ . All longer maturities, up to six months, are firmly held at 4% on approved collateral and  $4\frac{1}{2}\%$  on all-industrial loans. The demand is chiefly for six months' funds. A few over-theyear loans have been made at  $4\frac{1}{2}\%$ . Call money has not been active nor have quotations changed from last week; the maximum has daily been 3%, the minimum for the week  $2\frac{1}{2}\%$  and the average ruling rate  $2\frac{7}{8}$ %, the same as a week ago. Stiffer rates, however, are now expected. Commercial paper has been quiet at, latterly, a higher level. The minimum of  $4\frac{1}{4}\%$ is no longer available for regular maturities; the range is  $4\frac{1}{2}@4\frac{3}{4}\%$  for the choicest grades of four to six months' single names and  $5@5\frac{1}{2}\%$  for others. Sixty to ninety days' endorsed bills receivable range from  $4\frac{1}{4}@4\frac{3}{4}\%$ , but only a few are on offer.

The calculations of foreign exchange operators have been upset by a sharp break in rates and the abrupt withdrawal of inquiries for remittance. Two weeks ago the scarcity of exchange was exciting comment; to-day the absence of demand is the principal theme of discussion. This transformation can be partly explained by legitimate developments in the international money markets, although it is asserted that the weakness has been aggravated by the operations of certain speculators who are reported to be short of the market. Since March 1 the offerings of new securities by American railroad and industrial corporations have been extremely heavy and, owing to the low value of money in Europe, the over-sea subscriptions have reached a large aggregate. One block of \$10,-000,000 one-year notes was placed abroad; another block of \$11,000,000 bonds was largely taken by Europe; quite a percentage of other flotations has gone to the foreign clients of our international underwriters and the prospective heavy applications from London and Paris for this month's New York City loan are among the factors to be set down in considering the relapse in foreign exchange. Furthermore, money rates have of late moved up here. The covering operations incidental to the maturing of American obligations held abroad are stated to have been completed for the time being. But when all has been said and every known influence duly weighed, the fact remains that the break in rates is viewed as somewhat surprising. Whether it will last or prove temporary is an open question. The leading experts are admittedly committed to the opinion that this is what they call "a bull year" in exchange. Compared with Friday of last week, sterling exchange on Saturday was little changed, the range being 4 8475@4 8485 for 60 days, 4 8730@4 8735 for demand and 4 8750@4 8755 for cable transfers. On Monday demand fell to 4 8715@4 8725 and cable transfers to 4 8735@4 8745. Tuesday's fluctuations were erratic; 60 days declined to 4 8455@4 8460 and demand to 4871/8, but cable transfers were firm at 4 873% bid. Weakness was again pronounced on Wednesday; cable transfers broke to 4 87 bid, demand to 4 8634 bid and 60 days to 4 841/2. On Thursday, the higher figures demanded have brought increased when trading was extremely dull, rates sagged to

4 8435@4 8445 for 60 days, 4 8670@4 8680 for demand and 4 8690@4 8695 for cable transfers. On Friday the undertone was again weak, demand receding to 4 8665@4 8670.

The following shows the daily posted rates for sterling exchange by some of the leading drawers.

or a general strike, and in view of the interest which always attaches to an effort of that kind, we shall take occasion to review contract, the history of such episodes.

To begin with, it should be noticed that, as is usual under such circumstances, estimates by the public authorities as to the number of laborers who have responded to the "general strike" appeal, and estimates by the strike leaders, are very far apart. In the middle of the present week the police authorities of Philadelphia estimated that not more than 18,000 laborers in all were out on strike, while the labor headquarters gave out the figure, first of 125,000, and the next day of 139,000. It has been admitted that the ranks of the strikers have been to some extent enlarged by new recruits; but it was also discovered on a careful canvass that industrial establishments with 121,000 employees had not at that time been affected at all by the call for a sympathetic strike.

The balance of probability, therefore, certainly turns toward the early failure of this latest "general strike" experiment. If this were to be the outcome, it would merely repeat the precedent of a long series of years in which disputes between labor and capital have been vastly more acrimonious than at the present time. Why, let us ask, should this have been the case? First, we should say, because the average working man is a man of ordinary common sense. He will strike, in perhaps a majority of cases, if he can be persuaded that he is being unjustly treated and that he can gain something by such a demonstration. But it is notorious that even with members of a union every strike is preceded by vigorous opposition in that membership; from which it is to be inferred that a good part, even of the strikers called out by their own unions, enter half-heartedly into the strike. This being so, it is easy to understand what obstacles in the ranks of the unions themselves must stand in the way of a strike declared only for the purpose of showing sympathy for some other union's unsuccessful strike. At best, experience has taught the laboring man that such endorsement is an attempt to bolster up a collapsing undertaking, and that is a venture which does not, as a rule, appeal to hard-headed laboring men. These considerations, let us note, apply to the union men themselves, and when it is considered, in addition, that the appeal of the Philadelphia strikers for a sympathetic strike was made primarily to unorganized and non-unionist employees, the futility of expecting any important response must be manifest. But, in the second place, there is a very serious financial consideration. Laborers on strike cannot live on nothing. Not all of them will even possess a savings bank account. It therefore devolves upon the members of their union who are still employed, or on members of other unions which have not struck, to provide for maintenance of the strikers pending the conflict. Up to a certain point, the funds accumulated from union dues are available for that purpose; but to this there is naturally a limit, which is reached the sooner the larger the number of men becomes who are out of work because of strikes. In the case of this Philadelphia strike, it was announced from the strikers' headquarters, this week, that hereafter an allowance of five dollars per week would be made to each individual striker during continuance of the

LABOR AND A "GENERAL STRIKE."

At the end of last week the patent situation in the Philadelphia labor difficulty was that the strike of the street-car men, judged by all the usual means of estimating such an industrial situation, had failed, and tha even the disorder in the city had abated sufficiently to allow withdrawal of the emergency guards; but that the strike leaders had adopted the not unfamiliar recourse of calling for a "general strike" of laborers in sympathy with the cause. Most people familiar with the history of past episodes of this sort, in the United States particularly, will probably agree that this sequence of events has followed the usual rule, and that the apparent indications are for an early restoration of the status quo. Nevertheless, there seems to have been more or less uneasiness regarding the call

Now, on the police estimate of 18,000 strikers, this rate of payment would involve a weekly expenditure of \$90,000. On the estimate of the strikers themselves, the amount paid out would be very nearly \$700,000 per week. Supposing a quarter of a million men drawn into a sympathetic strike under similar conditions, the payment at a similar rate would reach the enormous sum of \$1,250,000 weekly. Such payments, moreover, would obviously increase with each successive addition to the ranks of sympathetic strikers. and at the same time each of such additions would diminish the number of wage-earning men from whom the supplies for supporting the strikers could be provided. It will be seen, on this simple basis of calculation, that the idea of anything like a general strike is preposterous, except on the presumption that the strikers would presently be left to get along, pending the period of idleness, as best they could. When one considers, in addition to all this, that in the politics of labor unions an unsuccessful sympathetic strike, called by a given committee, is visited on that committee afterwards by the union members with far more severe loss of prestige than even an unsuccessful direct strike, it need not be surprising that the recent call by the Philadelphia unions has met with so cold response.

There is yet another consideration in the matter. While it is true that this country has never experienced anything that could be called a general strike, other countries have passed through precisely that experience. In Russia during 1906, in Italy a short time before, and to an extent in Paris during the Post Office strike a little later, three different communities had a taste of what a general strike means to the community affected. The assumption of laboring men who advocate that recourse seems to be that such dire inconvenience will be inflicted on the whole community that public opinion, if not governmental pressure, will compel the original employers to assent at once to the demands of their employees. But this has not been the teaching of events, and it is not at all difficult to discover why. The series of results from such a general strike has been, first, chaos in the ordinary affairs of life; next, suffering, most acute on the part of the poorer classes; next, disorder, destruction or pillage, and, finally, intervention on the government's part, whether willingly or unwillingly, to protect the public welfare.

The point to notice is that such intervention has at no time been such that one could describe it as arbiIts duty at such times is as plain as its duty pending invasion. These are the larger aspects of a really very simple question. The reassuring fact in our own country is that the laboring man himself is sufficiently cool-headed and independent to appreciate, perhaps by instinct, what they mean.

INCOME STRENGTH OF NEW YORK CENTRAL. The annul report of the New York Central & Hudson River Railroad Co. comes coincidently with the action of the Board of Directors in increasing the quarterly dividend from  $1\frac{1}{4}\%$  to  $1\frac{1}{2}\%$  and thus restoring the stock to a 6% basis. In view of this enhancement of the dividend rate, the annual report will be studied with more than ordinary care, and so will the reports of the subsidiary companies, from the investments in which the Central has had such a considerable income and from which it is to get an even larger income during the calendar year 1910. Taking what the Central earned from its own operations in conjunction with the income thus obtained from its investments only one conclusion is possible, namely that the resumption of 6% dividends is fully warranted. It is safe to go a step further and say that these various annual reports-we mean the reports of the Central and of its controlled companies-furnish a revelation of income strength that to the average man will be a surprise.

The feature of the reports of all the companies is the recovery in traffic and revenue enjoyed after the losses sustained the previous year at the time of the intense prostration of the country's industries, and the efficient operating results attained under which a very considerable portion of the gains in gross receipts has been saved and added to the net. But before dwelling on these points it will be best, in view of the increases in dividend rates, to consider, first the relation of income to dividends-see what surplus remained in each case on the results of 1909 over the dividend payments for that year. The Central itself after char ing up 5% dividends, calling for \$8,931,600, has a surplus left on the operations of the t elve months of no less than \$4,763,820. This makes it evident that on the basis of the results for 1909 an additional dividend of at least  $2\frac{1}{2}\%$  more could have been paid-on the assumption, of course, that the ma agement considered it prudent to distribute the whole of the year's income. The controlled companies have recently in a number of instances increased their dividends or made large extra distributions, but these added payments are not included in the Central's income for 1909, as is apparent from the fact that under the head of "other income" the Central reports \$7,692,497 derived from "dividends on stocks owned or controlled" in 1909, as against \$7,968,785 in 1908. With the Central having such a large surplus on its own income statement, consider now the income results of the controlled companies. The two principal controlled companies are of course the Lake Shore & Michigan Southern and the Michigan Central. The Lake Shore distributed 12% dividends, the same as in the previous year (which of course accrued to the Central, holding \$45,289,200 of the \$49,466,500 stock of the Lake Shore); but whereas in 1908 the surplus above the 12% dividend was only \$1,740,220, for 1909 the amount of the surplus is no less than

trary interference in the struggle of labor and capital. What happened was simply that governments recognized, perforce, their duty to protect their citizens. Aside from its incidental features of disorder, the general strike necessarily will paralyze all work of transportation, production and distribution. It will deny to a whole community its ordinary resources of food, fuel and light. As to who suffers the most, there is not the least difficulty in saying. In the case, for instance, of the Russian strike, well-to-do members of the community could either pay the price of stored-up and hoarded supplies, or could take the first express train for another country. The poorer classes, possessing neither recourse, had the single alternative of famine or pillage. What sort of government that would be which would not intervene with all its powers, under such conditions, is not difficult to answer. I

ized for FRASER

A very simple calculation will show \$5,718,381. that while 12% was distributed, actually almost 24% was earned. The extra 6% which the Lake Shore has just announced, therefore, and which will count in favor of the Central on its 1910 results, looks like very moderate action. In the case of the Michigan Central, the showing is not quite so striking, but here, too, there is a large surplus above the year's dividend distribution. The Central holds \$16,819,300 of the \$18,738,000 stock of the Michigan Central, and received 6% on the same in 1909-the same as in 1908. The call for the 6% dividends on the whole stock of the Michigan Central was \$1,124,280, and over and above the requirements for that purpose there was a surplus on the operations of 1909 of no less than \$1,748,216. In other words, while the Michigan Central paid 6% it actually earned over 15%.

But the controlled companies themselves control other companies which also in 1909 earned very much more than the dividends paid; and had they distributed anywhere near their surpluses, the surplus of the Lake Shore would have been correspondingly greater; and with the surplus of the Lake Shore enlarged, there would have been still more to go to the Central, holding almost the whole of the Lake Shore stock. Take first the Pittsburgh & Lake Erie. The Lake Shore owned December 31 1909 \$7,500,150 of the \$15,000,000 stock of the road. On its \$15,000,000 stock, the Pittsburgh & Lake Erie paid 10% dividends, calling for, roughly, \$1,500,000. The net income available on the operations of the twelve months was no less than \$7,615,597, leaving a surplus in the extraordinary sum of \$6,115,605. This company, therefore, earned over 50%, while having paid 10%. The extra dividend of 40% just announced, calling for \$6,000,000, half of which will go to the Lake Shore, can under the circumstances occasion no surprise. The Lake Shore also owns \$865,900 of the \$1,500,000 common stock of the Mahoning Coal Railroad, which, besides the customary semi-annual dividend of 6%as pointed out by us last week, made an extra distribution of 50%. After allowing for 62% dividends, there still remains a surplus of \$206,705 on that companys 1909 income.

The Lake Shore likewise has large stock holdings in various other companies which in 1909 made greatly increased profits, and in some cases, but not in all, distributed those profits. There is the Cleveland Cincinnati Chicago & St. Louis, which has resumed dividends on its common stock (declaring 2%), of which the Lake Shore owns no less than \$30,207,700 out of a total of \$47,056,300. The Cleveland Cincinnati Chicago & St. Louis, after paying the 2% dividend, calling for \$941,126, reports a surplus of \$1,441,126. It follows that though only 2% was paid (in 1908 that company paid nothing), it earned over 5%. The New York Chicago & St. Louis, or Nickel Plate, (of whose common stock of \$14,000,000 the Lake Shore owns \$6,240,000), recently declared an initial dividend of 3%. The report of that company has not yet been published. The Lake Shore also owns \$10,002,500 of Reading common stock (besides its holdings of first and second preferred shares of the same company), on which dividends were last month increased from 4% per annum to 6%. A part of these dividend increases, but far from the whole, counted in the Lake Shore's income account of 1909, as is apparent

from the fact that the Lake Shore reports \$4,550,205 derived as dividends on stocks owned or controlled in 1909, as against only \$3,126,758 so derived in 1908.

Obviously the final resting-place of these extra or increased dividend distributions and also of the large surpluses remaining, should they be distributed, will be the treasury of the New York Central. Of course the Central has a larger amount of stock now on which it is obliged to earn a return. As the reader will doubtless recall, stockholders of record Dec. 10 1909 were given the right to subscribe to \$44,658,000 new stock, and this stock will bear dividends in 1910. At 6% the dividend call for this additional stock will be \$2,679,-480. The extra 1% on the old total of stock calls for \$1,786,320. The two together, hence, amounts to \$4,465,800. But the Central, on its own income statement for 1909, has a surplus of no less than \$4,763,820. Thus the 6% dividend could be met without recourse to or without being reinforced by the large extra dividend distributions of the controlled lines, and, furthermore, without any increase in the Central's earnings in 1910 over what was earned in 1909.

Taking a long look ahead, it seems likely that other investments by either the parent company or some of the controlled companies will, in the course of time, become profitable. The Central owns stock of the Rutland and the Lake Shore owns stock of the Lake Erie & Western, while the Cleveland Cincinnati Chicago & St. Louis owns stock of the Peoria & Eastern and the Cincinnati Northern, which, it may be assumed, will some day be able to net a return. As a matter of fact the Cincinnati Northern has just made its initial dividend of 3% on its \$3,000,000 capital stock, of which the Cleveland Cincinnati Chicago & St. Louis owns \$1,707,400; while the Peoria & Eastern resumes interest payments next month on its income bonds, though these bonds are in the hands of the public. In view of all this our reference at the opening of this article to the income strength of the New York Central, based on its own income and that of the various other companies making up the New York Central System, is obviously not in the least exaggerated.

Turning now to the report of the New York Central proper for the purpose of analyzing the revenue and expense accounts, one readily finds evidence of recovery in traffic and revenues and of increased efficiency in operations. Stated in brief, revenues from rail operations increased \$9,244,506, or, roughly, 11%, while expenses were added to in amount of only \$3,304,522, or about  $5\frac{1}{2}\%$ , leaving an addition to net revenue of \$5,939,984, or over 26%. The ratio of expenses to earnings (not including taxes) was reduced from 73.03% to 69.33%. The accounts now for both 1909 and 1908 are in conformity with the requirements of the Inter-State Commerce Commission, whereas in previous years they were prepared in accordance with old accounting methods and classification in both revenues and expenses. This renders out of the question direct or exact comparisons between the gains of 1909 and the losses of 1908. For general purposes, however, an idea of the relation between the two can be obtained by noting that in 1908 gross earnings decreased \$9,519,691 and net earnings increased \$864,557, according to the old system of accounting, while in 1909, as we have already seen, there was

d for FRASER

#### THE CHRONICLE

\$9,244,506 gain in gross and \$5,939,984 gain in net according to the new system of classification and accounting. The conclusion hence is that the loss in gross earnings has been recovered, while the net earnings are the very best ever obtained.

In considering the improved showing of net, it seems important to recall at the outset that prior to 1907 the Central, in common with other large railroad systems, had practically lost control of its expense accounts. By this we mean that operating cost had kept steadily mounting up until a point was reached where the large expansion in business which was occurring year by year was simply adding to gross revenues without bringing any increase in the net. As illustrating the truth of this statement, note that in the three years from 1904 to 1907 gross earnings had risen from \$78,573,208 to \$98,369,059, whereas net earnings had remained stationary, even after cutting out entirely the special appropriations for new construction and equipment which the company used to make. In brief, net for 1907 was \$22,565,725, against \$22,450,823 for 1904. The trouble was that labor was growing less and less efficient and traffic congestion rendered it impossible to handle and move traffic with due economy and efficiency; at the same time the cost of fuel and everything else entering into the operating accounts was steadily rising.

With the contraction in business which came in 1908, the situation entirely changed. There was no longer any traffic congestion and facilities were now adequate to take care of the traffic and to move it with proper economy. The officials could devote themselves to carrying out plans for promoting efficiency in operations. Prices of fuel, material and supplies also came down—at least temporarily. Furthermore, as railroad labor was now in over-supply, it was amenable to more careful supervision and stricter discipline, improving the service and at the same time reducing the cost of the same. A saving has also come through the fact that fewer foreign cars have been in service and that the per diem charge for the use of foreign cars has been reduced.

Applying these remarks to the results for 1909 and 1908, the extent to which traffic efficiency has been attained in these various ways and no less through the adoption of improved methods (to which special attention has been given by the New York Central officials the last two years) becomes evident when the so-called transportation expenses (where efficiency and good management count for most) are examined. These were only \$33,309,314 in 1909, against \$33,-456,743 in 1908. The avoidance of increase under this head becomes particularly significant when it is noted that in 1909 the Central moved 938,730,266 more tons of freight one mile than in 1908 and 132,-618,816 more passengers one mile. The \$3,304,522 increase in total operating expenses which occurred followed almost entirely from augmented maintenance outlays. For maintenance of way \$11,494,023 was spent in 1909 against \$10,807,335 in 1908, and for maintenance of equipment \$15,421,648 against \$12,991,416 in 1908. President William C. Brown points out that in maintenance of way and structures the increase has been due not to excessive expenditures, but to the comparatively small amount of work done in 1908. On the other hand, the augmented outlays for maintenance of equipment are l

ascribed to extra expenditures for repairs of freight cars and the inclusion in the 1909 expenses of an increase of \$1,366,496 for renewals of equipment consequent on a change of method in handling this account which was instituted July 1 1908.

The Central report and also the reports of the controlled roads all make mention of the system introduced January 1 1910 for the retirement and pensioning of employees. President Brown is inclined to placate the Government authorities and has a good word to say for the Public Service Commission, while President Newman, when at the head of the system had much to say in criticism, and justly so we think. Mr. Brown, however, lays emphasis upon the advantage of appointing men qualified by experience, temperament and ability to discharge the important duties of their office in all attempts to regulate the railroads. Mr. Brown takes an optimistic view of the future, saying: "General conditions were never more favorable, and every visible indication points to renewed and increasing prosperity for the country at large, in which the railroads may hope to participate. The business of the road shows steady increase; and expenditures which have been made for improvements, adding to efficiency and economy of operating, should be reflected in increased net revenue." We subscribe fully to these hopeful prognostications, except that we should add as a proviso that much will depend upon whether our Government, through radical policies, does not interfere with the continuance of trade revival.

Two important pieces of new construction work were carried through on the western lines during the year which should add to the earning capacity of these lines. The Jamestown Franklin & Clearfield Railroad (a consolidation of four other roads) opened its line for operation on September 26 1909. In connection with the trackage over the Pennsylvania Railroad, the Buffalo Rochester & Pittsburgh and the New York Central, the Lake Shore obtains in this way a direct line from the coal fields of central Pennsylvania to the port of Ashtabula on Lake Erie. The Michigan Central has nearly completed the doubletube tunnel under and across the Detroit River. The open cuts and approaches on both sides of the river, we are told, are finished, and the tunnel under the river is finished so far as to be open for use for the purposes of construction. Only a portion of the interior lining of the sub-aqueous tunnel and the tracks and electrification work remain to be done. The whole tunnel is expected to be ready for use the early part of the current year. The cost of this improvement has been \$10,000,000. Nothing is said in the Central report about the reconstruction of the Grand Central Depot at 42d Street in this city, but here the evidence is before our eyes. It is a gigantic undertaking which is being prosecuted with unabated vigor.

RAILROAD GROSS EARNINGS FOR FEBRUARY. Considering that weather conditions in certain sections of the country were still unfavorable during February and that Southern roads sustained a large contraction of their cotton traffic, the showing made by the roads furnishing early reports of their gross earnings for February must be regarded as very gratifying. Many complaints came during the month from the West and Northwest concerning the weather and of heavy snow falls, though it is only proper to say that the roads that apparently suffered most from that cause are not among those which submit preliminary estimates of their gross earnings, and hence are not represented in the present tabulations. On the other hand, however, emphasis must be laid on the fact that in February 1909, with which comparison is made, weather conditions were more than ordinarily favorable, the winter then having been a mild one. One distinct advantage there was the present year, as far at least as the grain-carrying roads are concerned, namely that the Western grain movement ran much in excess of that of last year and still more in excess of that of two years ago.

We have early returns from roads operating 82,149 miles of line, and on this mileage there is a gain of \$6,036,809 over the gross earnings for the corresponding month last year, or 13.02%. The improvement is very general, too, coming from roads in all parts of the country, and out of the 49 roads contributing returns there are only four altogether that have fallen behind, and in the case of only one of these four is the loss of any considerable amount. Moreover, the present improvement follows improvement in the same month of 1909. Our early compilations then, comprising substantially the same length of road, showed \$4,133,-506 gain, or 9.02%. In February 1908, of course, there was a falling off, that being immediately following the panic in October-November 1907. Still the loss then on the roads furnishing early returns was hardly as startling as might be supposed, it aggregating \$5,706,584, or 10.71%. In the following we furnish a summary of our early February totals for each year back to 1897.

In the case of the Western grain movement the comparison is just the reverse of that of the Southern cotton movement, as already indicated. In the case of all the different cereals, namely wheat, corn, oats, barley and rye the deliveries this year were larger than last year. Combining the five cereals, it is found that the aggregate of the receipts at the Western primary markets for the four weeks ending Feb. 26 this year were 60,767,046 bushels, against only 41,574,469 bushels in the corresponding four weeks of last year and 38,092,372 bushels in the same four weeks of 1908. In the annexed table we show the details of the grain movement in our usual form.

WESTERN FLOUR AND GRAIN RECEIPTS. Four weeks end-Flour Wheat Corn. Oats Barley Rye. (bush.) ing Feb. 26. (bbls.) (bush.) (bush.) (bush.) (bush.) # THE CHRONICLE

#### 669

Denver & Rio Grande \$311,200, &c. It will be noted that the companies mentioned represent nearly all the different sections of the country. In the following we show all changes, whether increases or decreases, for the separate roads for amounts in excess of \$30,000. There is only one road in the decrease column, namely the Yazoo & Mississippi Valley, which has fallen \$58,178 behind, presumably on account of the great shrinkage in its cotton traffic.

PRINCIPAL CHANGES IN GROSS EARNINGS IN FEBRUARY.

	Increases.		Increases.
Canadian Pacific	\$994,000	Chicago Ind & Louisv	\$72,108
Great Northern	578 177	Central of Georgia	
Louisville & Nashville	521 830	Missouri Kansas & Texas_	68,100
Chesapeake & Ohio	450 066	Ann Anhon	61,349
	148,000	Ann Arbor	56,340
Missouri Pacific	443,000	Colorado & Southern	55,578

Denver & Rio Grande		Chicago & Alton	48,421
Wabash	808,690	Alabama Great Southern	46.269
Illinois Central	282.825	Minneapolis & St Louis	42.479
Southern Railway	270.495		201210
Buffalo Roch & Pitts	207.133	Representing 29 roads	
Canadian Northern	196.300	in our compilation	5 894 973
Minn St Paul & S S M			0,001,010
Cinc New Orl & Tex Pac.	113.655		Decrease.
Texas & Pacific	92,825	Yazoo & Miss Valley	\$58,178

Note .- Figures in parenthesis after name of road indicate the number of lines or companies for which separate returns are given in our compilation.

To complete our analysis we furnish the following six-year comparison of the earnings of leading roads, arranged in groups. There is one feature in these comparisons which should not be overlooked. We refer to the fact that in the case of every one of the groups the totals for 1910 exceed the very best total of any preceding year.

EARNINGS OF SOUTHERN GROUP.

-We give below the text of the Payne Bill which became a law with the approval of President Taft on Feb. 4, and which embodies the suggestions made by Secretary of the Treasury MacVeagh for modifying the law with regard to future issues of United States bonds and certificates of indebtedness. The bill, as noted heretofore, was passed by the House on Jan. 31 and by the Senate on Feb. 2. It corrects the defect which had existed with respect to the Panama bonds by making both principal and interest payable in gold (the law having previously provided for the payment of interest only in gold) and also provides that future issues of bonds may be in such denomination as may be prescribed by the Secretary of the Treasury; furthermore, that such issues shall be exempt from taxes of the United States and from taxation in any form. The law likewise appropriates a sum not exceeding one-tenth of 1% of the amount of the bonds to pay the expenses of their issuance. In full the law is as follows:

An Act prescribing certain provisions and conditions under which bond^s and certificates of indebtedness of the United States may be issued, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That any bonds and certificates of indebtedness of the United States hereafter issued shall be payable, principal and interest, in United States gold coin of the present standard of value; and that such bonds may be issued in such denominations as may be prescribed by the Secretary of the Treasury.

Sec. 2. That any certificates of indebtedness hereafter issued shall be exempt from all taxes or duties of the United States, as well as from taxation in any form by or under State, municipal, or local authority; and that a sum not exceeding one-tenth of one per centum of the amount of any certificates of indebtedness issued is hereby appropriated, out of any money in the Treasury not otherwise appropriated, to pay the expenses of preparing, advertising and issuing the same.

Sec. 3. That all Acts or parts of Acts inconsistent with the provisions of this Act are hereby repealed.

Approved, February 4 1910.

-A demand made upon Bank Commissioner A. M. Young of Oklahoma by State Examiner and Inspector Charles A. Taylor for access to the records of the State Banking Department bearing on the liquidation of the failed Columbia Bank & Trust Co. of Oklahoma City is said to have been denied as a result of a court ruling, which, it is reported, holds the records to be those of the bank, and not of the State. It is stated that as a result of Mr. Taylor's failure on several previous occasions to obtain permission to inspect the records with respect to the Columbia Bank & Trust Co., a resolution was introduced in the House on Feb. 11 authorizing the House Committee on Investigation and the State Attorney-General to demand from the State Banking Board its reasons for withholding the right to examine the records.

and Tuesday and Wednesday, the 3d and 4th, to council meetings.

—The Guaranty Trust Co. of this city has declared a quarterly dividend of 8%, payable March 31 to holders of record on that date. This is the first dividend on the \$5,-000,000 stock of the consolidated institution. The dividends formerly paid at each quarterly period on the stocks of the companies which made up the new institution were: Fifth Avenue Trust, 3%; Guaranty Trust, 5%, and Morton Trust, 5%.

-The organization of a new Federal institution, to be known as the Gotham National Bank of New York, is under way. The exact location of the prospective bank has not yet been determined upon, but the vicinity of 59th St. and 8th Ave. is understood to be under consideration. The capital is to be \$200,000, with a surplus of \$100,000. The application to organize was approved on Feb. 24.

-On Feb. 28 the Guardian Trust Co. of New York, at 170 Broadway, issued a statement of condition which shows its deposits on that date to be \$4,277,664; capital, \$500,000; surplus and undivided profits, \$516,049; cash on hand and in banks, \$1,518,667, and aggregate resources, \$5,300,513. The active officers are: Robert C. Lewis, Vice-President; Lathrop C. Haynes, Secretary, and Alfred M. Barrett, Assistant Secretary. New interests have entered the board of directors, which is now as follows: Alwyn Ball Jr., William A. Barber, William H. Barnard, William Childs Jr., Lester B. Churchill, Robert E. Dowling, Geo. W. Fairchild, Chas. E. Finley, H. D. Hotchkiss, Robert C. Lewis, Chas. E. F. McCann, Herman A. Metz, F. L. Peck, John T. Porter, Amos L. Prescott, R. H. Rountree, A. K. Sloan, F. H. Stillman and F. W. Woolworth.

-Ogden Mills and William Stewart Tod have been elected trustees of the United States Trust Co. of this city to succeed the late Darius O. Mills and the late John Stewart Kennedy.

-Henry D. Hotchkiss, receiver of the firm of Lathrop, Haskins & Co. of this city, which suspended on Jan. 19 as a result of the collapse in the stock of the Columbus & Hocking Coal & Iron Co., has issued a tentative statement in which he places the nominal excess of liabilities over assets as \$1,126,698. The statement is of date Feb. 25, and shows assets of \$1,167,429, consisting of receiver's bank balance, \$31,318; Stock Exchange membership, \$80,000; securities, \$254,086; due from Stock Exchange houses, brokers, &c., \$68,870; due from customers, &c., \$534,050, and sundry accounts, \$199,105. The liabilities are figured at \$2,294,127, and are made up of the following items: deficit in loans, \$578,565; due to Stock Exchange houses, brokers, &c., \$983,026; due customers, &c., \$631,088; due to sundry accounts, \$100,790; and unpaid bills, salaries, &c., \$658. In submitting the report Mr. Hotchkiss says: "Many of the securities on hand are claimed by customers, and if their claims are sustained, the value of the assets will be reduced considerably. The amounts shown by the books to be due from Stock Exchange houses, customers, &c., are disputed in a number of cases, and the amount that may be eventually collected cannot be determined now, but at the same time I hope the liabilities will be largely reduced."

--Charles B. Denny has been elected a trustee of the Franklin Trust Co. of New York and Brooklyn, to succeed the late George Frederick Vietor. Mr. Denny is Treasurer of the American Locomotive Co. and of the Rogers Locomotive Works, a director of the Schenectady Trust Co. and a trustee of the South Brooklyn Savings Institution.

-The Stock Transfer Tax bill, providing for a tax of 2 cents "on each \$100 of face value or fraction thereof," passed by the New York Senate on the 3d inst., was passed by the House on the 10th. As noted last week, the purpose of the measure is to correct the error made in the compilation of the 1909 Consolidated Laws of the State.

-It has been decided to hold the spring meeting of the Executive Council of the American Bankers' Association at Atlantic City. The meeting opens on May 2. The headquarters will be the Marlborough-Blenheim Hotel, the solariums and meeting rooms of which will be placed at the disposal of the council and the many committees and sections. Monday, May 2, will be given up to committee meetings

—The New York agency of the Yokohama Specie Bank, Ltd., announces that Reitaro Ichinomiya has been appointed Agent here, K. J. Imanishi, the former agent, having been recalled to Japan.

-The directors of the Flatbush Trust Co. of Brooklyn Borough hav elected Harrison S. Colburn Third Vice-President to succeed John H. Ditmas, resigned, and have chosen Franklin Schenck, Secretary, to take the place of Edmund D. Fisher, who withdrew from the management of the company to become Second Deputy Comptroller of this city under Comptroller Prendergast. John Egold has succeeded Mr. Schenck as Assistant Secretary and Frank A. Lippold has been appointed Second Assistant Secretary. Mr. Colburn, the new Vice-President, was formerly associated with the trust company as Trust Officer. his withdrawal from that institution having occurred with his election to the presidency of the Deed Realty Co., a post which he now resigns.

-Few financial institutions in the United States have established a dividend record equal to that of the Marine

#### MAR. 12 1910.

National Bank of Buffalo, N.Y. The bank has just declared out of earnings an extra dividend of 33 1-3%, in the form of stock, raising its capital from \$1,500,000 to \$2,000,000. In 1906 a stock dividend of 552% was declared, the capital then having been increased from \$230,000 to \$1,500,000, thus making a total of \$1,770,000 paid in extra dividends to the shareholders. In addition to its \$2,000,000 capital, the bank reports a surplus of \$1,000,000 and undivided profits of about \$100,000.

-C. W. Snow has been chosen to succeed the late Edward B. Judson as President of the First National Bank of Syracuse, N. Y. A. P. Fowler replaces Mr. Snow as Vice-President.

-Notice has been issued of a special meeting of the stockholders of the Farmers' & Mechanics' National Bank of Hartford, Conn., to be held on April 9, to act upon the question of continuing its business or liquidating and winding up its affairs. The notice further states that "the directors have received a proposition from a responsible source for the purchase of the bank's assets which they regard as very advantageous, whereby the liabilities would be discharged and a liberal price above the market value at once realized for the stock. The meeting will be asked to consider and act upon this proposition." The directors on the 4th inst. elected Henry H. Goodwin President of the institution to succeed the late John G. Root. The bank has a capital of \$500,000 and deposits of about \$1,500,000. Rumors of its possible absorption by the Hartford National Bank were mentioned in the Hartford "Courant" of the 1st inst.

-The proposition to increase the capital of the State Street Trust Co. of Boston, Mass., from \$600,000 to \$1,000,-000 has been ratified by the stockholders. The new stock will be offered to the present shareholders at \$200 per share, the right to subscribe expiring March 31, and payment to be made April 9. Surplus will also be increased from \$600,-000 to \$1,000,000 through the premium realized on the new stock.

-Wilson W. Lockhart, who was arrested on the 3d inst. on a charge, as alleged, of aiding and abetting George W. Coleman, the bookkeeper of the failed National City Bank of Cambridge, Mass., in misapplying funds of the institution, was released on the 7th inst. on \$15,000 bail-half the amount originally fixed.

-An address made on the occasion of a dinner given last November in honor of Robert Stewart Smith, who retired in January of the present year as President of the Union National Bank of Pittsburgh, after a service of fifty years with the institution, is being distributed in book form among the friends of the institution. The bank states that in issuing this tribute to the worth of the one who has been its faithful servant longer than any other, it does so in the belief that it will be found to possess more than ordinary interest, and that it is due largely to his ability and integrity that the Union National holds its present prominent position. Mr. Smith completed the fiftieth year of continuous service with the bank on Sept. 1 1909, and in recognition of the event a gold loving-cup, suitably inscribed, was presented to him at a dinner given on Nov. 4, the presentation address being made by Johns McCleave, whose remarks form the make-up of the book. Mr. Smith served as Cashier from Sept. 1 1859 to Feb. 1 1888, when he was elected to the presidency. The bank, therefore, as it stands to-day, largely represents his life work, and its growth during the half-century forms an interesting part of Mr. McCleave's remarks. On Sept. 1 1859, he states, the capital was \$56,554, and its surplus \$1,745, with \$8,594 deposits; upon the 1st of February 1888 the capital was \$250,000, the surplus \$475,000 and the deposits \$1,484,550, and upon the 1st of September 1909 the capital was \$600,000, surplus \$5,000,000 and deposits \$11,194,812. A striking increase is likewise shown in the book value of the stock, which Mr. McCleave points out was \$300 56 on Feb. 1 1888, \$966 93 on Oct. 1 1909, and has since risen to over \$1,000. As indicating that Mr. Smith toiled without regard to pecuniary considerations, Mr. Mc-Cleave notes that for the entire fifty years Mr. Smith's average annual salary was but \$4,921.

Savings Bank of Chicago, which will be opened early in April. Mr. Childs had built up for Fisk & Robinson in his department a bond business averaging nearly a million a month, and he hopes to transfer a considerable portion of it to his new connection. He takes with him a number of his best salesmen from the old house.

-A run, which appears to have had its inception in the circulation of idle rumors, was instituted this week on The Society for Savings of Cleveland, of which ex-Governor Myron T. Herrick is President. The run began on Wednesday and the institution remained open several hours after the regular banking hours, meeting the demands of those applying for their deposits. Despite the reassuring statements issued with regard to the bank's solvency, one of which came from State Superintendent of Banks B. B. Seymour, the run was continued on Thursday. Mr. Seymour stated that at the recent examination made by the Department, "every security was examined and all cash was counted. It was found to be in perfect condition, entirely within the law in every respect, and with abundance of means to protect every depositor. We are able to state positively that the bank is in position to meet every demand upon it and no depositor need have any cause for alarm." The bank itself put forth the following announcement:

The Society for Savings has been in business since 1849. No depositor has ever lost a cent. The bank is in better shape than ever before. It will pay all depositors who want their money. The real estate on which loans have been made is worth twice the amount loaned. It has \$36,000,000 in cash and securities that can be turned into cash in twenty-four hours. It is foolish to lose your quarterly interest and run the risk of having your money stolen. You can get your money April 1 and not lose your interest. MYRON T. HERRICK, President.

The institution has no capital, having been organized under special charter as a mutual savings society. Its deposits aggregate over \$50,000,000. Offers of assistance from a number of the large financial institutions of New York and other cities were made during the disturbances this week.

-G. F. Emery on the 8th inst. was elected Cashier of the Live Stock Exchange National Bank of Chicago, succeeding G. A. Ryther, who has become a Vice-President of the institution. Mr. Emery had heretofore been Assistant Cashier. A. W. Axtell and H. E. Herrick are the present Assistant Cashiers.

-William H. Mitchell, Vice-President of the Illinois Trust & Savings Bank of Chicago, died suddenly on the 8th inst., the eve of his ninety-third birthday. Mr. Mitchell was born in Ohio on March 9 1817. With his brother, John J., at the age of twenty-two he went into the business of flat-boating flour on the Ohio and Mississippi rivers as far south as New Orleans, and later established a flourishing flour mill. Subsequently Mr. Mitchell was one of the founders of the Chicago & Alton RR., and in the early seventies he became identified with the Illinois Trust & Savings Bank, his holdings in which at the time of his death amounted to 8,750 shares. Mr. Mitchell's son, John J., is President of the institution.

-The Chicago Title & Trust Co. of Chicago has raised its dividend rate from 6 to 8%, the quarterly disbursement just declared, payable April 1, being 2%, and comparing with  $1\frac{1}{2}\%$  previously. With a capital of \$5,000,000 the institution has surplus and profits (Dec. 31 1909) of \$1,319,160.

-The directors of the South Chicago Savings Bank of Chicago have placed the stock of their institution on an 8% basis through the declaration of a quarterly dividend (payable April 1) of 2%, against  $1\frac{1}{2}\%$  heretofore. The has a capital of \$200,000.

-The Fourth National Bank of Pittsburgh was placed in voluntary liquidation on Feb. 14. The proposed consolidation of the institution with the National Bank of Western Pennsylvania was noted here Jan. 15.

-C. Frederick Childs, for the last five years Western manager for Fisk & Robinson at Chicago, is to be the man-

-The plans for the organization of a proposed State bank by interests in the People's Gas Light & Coke Co. of Chicago, rumored several weeks ago as under way, seem likely to be consummated. It is reported that several local capitalists are also identified with the movement. The location of the bank will doubtless be in the new 4-million-dollar building of the People's Gas Light & Coke Co., on the corner of Adams and Michigan streets, fronting the Lake. National Bank Examiner Charles H. Bosworth has been mentioned as the possible head of the institution.

-At a meeting on the 2d inst. the organization of the North Side State Bank of Minneapolis was perfected. The proposed bank is scheduled to open on May 2 with a capital of \$50,000 and surplus of \$5,000. The officials elected are H. J. Dahn, President; E. Egan and M. Meagher, Vice-Presidents, and William H. Dahn, Cashier.

-A dividend of 7% was paid on Feb. 21 to the depositors of the failed Citizens' & Farmers' State Bank of Arkansas City, Kan., as a result of which, it is said, there now remains ager of the bond department of the new Commercial Trust & | but 8% due depositors. The bank suspended Nov. 6 1908.

-An application to organize the Corn Exchange National Bank of Omaha, Neb., made by interests in the Corn Exchange Bank of that city, was approved on Feb. 28. The new bank is to have \$300,000 capital. As a reorganization of the Hayden Bros. Bank, the Corn Exchange Bank began business in July 1909.

-B. R. D. Lacy has become an Assistant Cashier of the Tootle-Lemon National Bank of St. Joseph, Mo.

-The National Reserve Bank of Kansas City, Mo., began business on the 1st inst. with a capital of \$1,200,000 and a surplus of \$120,000. The original capital of the institution fixed in the application to organize (approved last December) was \$500,000, and the increase is understood to have been made in part by reason of the absorption of the Central National Bank of Kansas City, which was effected on the 1st. The latter was organized in 1907; it had a capital of \$200,000 and deposits (Jan. 31 1910) of \$2,620,669. The stock of the Central has been taken over on a basis, it is said, of \$225 per share (par \$100), and the stockholders are reported to have exchanged the greater part of their holdings for stock in the new bank. The President of the liquidated institution, G. M. Smith, is President of the National Reserve Bank. John T. M. Johnston, one of the promoters of the new bank, and formerly an Oklahoma banker, is Chairman of the board of directors, and the other officials are C. B. McCluskey, F. H. Burrow and Amos Gipson, Vice-Presidents; J. L. Johnston, Cashier; C. A. Burkhardt and David Thornton, Assistant Cashiers. Another new institution, the Central Savings & Trust Co., under practically the same management as the National Reserve Bank, also opened its doors on the 1st inst. The State institution has a capital of \$250,000 and surplus of \$50,000, and is officered by J. T. M. Johnston, Chairman of the board; Mr. Smith, President; Messrs. McCluskey, Burrow and Gipson, Vice-Presidents; J. L. Johnston, Secretary and Treasurer, and Messrs. Burkhardt and Thornton, Assistant Secretaries and Treasurers.

-The purchase of control of the Raleigh Savings Bank by interests connected with the Citizens' National Bank of Raleigh, N. C., is reported. The savings bank has a capital of \$15,000, surplus of \$60,000 and deposits of over \$700,000. It will be maintained as a separate institution, J. T. Pullen continuing as President and Charles Root as Cashier, but will be operated in close alliance with the Citizens' National. The latter has \$150,000 capital and deposits in the neighborhood of one million dollars.

-Construction is now under way on a handsome new home for the People's National Bank of Charleston, S. C. The building, which is 75x120 feet, occupies the most prominent corner in the financial section of that quaint old Southern city-State and Broad streets. It will be of steel construction, strictly fireproof, eight stories in height, the first story to be of South Carolina granite, with the next six of buff-colored brick, and the top of ornamental terra cotta. The interior finish will be of selected marble and solid bronze, with steel furniture throughout. When finished, next fall, the People's National will have the most complete and up-to-date bank building in the city. This institution, of which the Hon. R. G. Rhett, Mayor of Charleston, is President, has a capital of \$300,000, surplus and undivided profits of \$260,000 and deposits of \$3,000,000. E. H. Sparkman is Vice-President, E. P. Grice, Cashier, and J. B.

W. S. Parrish, W. E. Parrish and Isaac N. Parrish, all directors in the bank owning \$100,000 of capital, knew it was insolvent when they disposed of the additional shares. These officials, it is stated, have been discharged in bankruptcy, and the judgment given excepts them. The case, it is understood, will be appealed, the attempt to hold the remaining stockholders liable for double the amount of their holdings being resisted on the ground that they had been deceived by the officers of the bank and were kept in ignorance of its true condition. James H. Parrish, President of the institution, who was given a five-year sentence in connection with the failure, began his term of imprisonment on Feb. 9.

-A consolidation of the City National Bank and the American-German National Bank of Paducah, Ky., has been arranged, to become effective April 15. The continuing institution will be known as the City National Bank, and will be under the direction of the present officials of the City National, namely Samuel B. Hughes, President; Joseph L. Friedman, Vice-President, and James C. Utterback, Cashier; with L. M. Rieke (President of the American-German National) as Chairman of the board of directors.

-The new building of the Norfolk National Bank of Norfolk, Va., is about completed and adds another link to the chain of handsome bank edifices in that Southern city. The front elevation is built entirely of white Georgia marble on the Gothic type of architecture, and makes a handsome and imposing appearance on the main thoroughfare of the city. The interior is finished in white Vermont marble, solid mahogany and bronze. One of the most noticeable features of the interior is the handsome art glass skylight, running nearly the entire length of the building. The bank expects to occupy its new home about July 1 next.

-Judging from the last published statement of the Citizens' Bank of Norfolk, Va., the year 1909 was a most prosperous one. Deposits advanced from \$2,305,037 (Jan. 1 1909) to \$2,541,436 (Jan. 1 1910), and aggregate resources increased from \$2,967,508 to \$3,396,665. This institution, which was incorporated in 1867, has a capital of \$300,000 and surplus and profits of \$363,162. McD. L. Wrenn is President; J. W. Perry, Vice-President; Tench F. Tilghman, Vice-President and Cashier; Norman Bell Jr., Assistant Cashier, and Geo. J. Twohy, Trust Officer.

-The capital of the Atlanta National Bank of Atlanta, Ga., will be increased on April 2 from \$500,000 to \$1,000,000. The proposal has already been ratified by the shareholders. In the Jan. 31 statement the institution reported surplus and undivided profits of \$920,603, deposits of \$6,003,971 and aggregate resources of \$7,924,573. Charles E. Currier, President, is associated in the management with Hugh T. Inman, Vice-President; George R. Donovan, Cashier, and James S. Floyd, Assistant Cashier.

-A tribute to one of the South's representative bankers was tendered on the 4th inst., when a notable banquet was held in honor of the seventieth birthday of Col. Robert J. Lowry, the genial and well-known President of the Lowry National Bank of Atlanta. Throughout the day hosts of friends gave evidence, through personal felicitations and gifts, of the esteem in which he is held, and no more fitting climax to the day could have been devised than the testimonial dinner given to him in the evening at the Capital City Club. Col. Lowry was escorted to the banquet room by Clark Howell, who presided as toastmaster. Gov. James U. Brown and Mayor Robert F. Maddox followed, with other members of the dinner committee, namely, J. W. English Sr., C. E. Currier, Frank Hawkins, Thomas Egleston and P. S. Arkwright. A letter from President Taft, who was unable to join the gathering, was read during the evening, which was marked by the deliverance of speeches, informal in nature, testifying to the warm regard held for the guest of honor. The presentation of a testimonial from the Colonel's co-directors on the board of the New York Life Insurance Co., conveying greetings, recording his worth as a citizen, a man and a colleague, and commending his fidelity to the various trusts committed to him, was one of the features of the occasion, which was also made memorable through the presentation by his hosts of a silver vase appropriately inscribed.

Calder, Assistant Cashier.

-Luke O. Cox, President of the Union National Bank of Louisville, Ky., died on the 6th inst. after an illness of about two years. Mr. Cox had served in the presidency about twelve years, having risen to that post from the cashiership. He was born in Ghent, Carroll County, Ky., in October 1848, and was a brother of Attilla Cox, formerly President of the Columbia Trust Co. of Louisville, who died last year. J. D. Stewart, who was appointed Assistant to the President last summer, has been elected to the presidency of the Union National. Frank M. Gettys has been elected to the cashiership of the institution to fill a vacancy existing since the resignation of Allen R. White last June.

-Judge Walter Evans of the United States Court at Louisville recently decided that the stockholders of the failed Owensboro Savings Bank & Trust Co. of Owensboro, Ky., who took the additional stock issued in 1906, are subject to the double liability requirement. The institution, which failed in 1908, increased its capital four years ago from \$100,000 to \$200,000. According to the Louisville "Courier-Journal," it was alleged that James H. Parrish, President of the bank; A. L. Parrish, J. O. Parrish, George 1 tion from that of office boy to Cashier. On July 15 1908 he

-John T. McCarthy, Cashier of the Merchants' National Bank of Houston, Tex., tendered his resignation as Cashier and director, effective on the 5th inst. Mr. Mc-Carthy was for twenty-six years connected with the Texas Bank & Trust Co. of Galveston, having occupied every posi-

was elected Cashier of the Merchants' National Bank, at which time he purchased a block of the stock at \$165 per share, and on retiring he sold all his holdings at \$200 per share. When he assumed the cashiership of the Merchants' National Bank the deposits were \$990,000 and capital, surplus and undivided profits \$415,000. Under the last call of the Comptroller the deposits were \$2,844,000; capital, surplus and undivided profits, \$435,000. During the time that Mr. McCarthy was associated with the Merchants' three semi-annual dividends of 5% each, aggregating \$37,500, were paid. Mr. McCarthy will engage in business for himself in Houston.

-The plans made known in these columns June 26 1909 with regard to the formation of the Mercantile National Bank of San Franicsco have been consummated, and the institution has succeeded to the banking department of the Mercantile Trust Co. The bank has a capital of \$2,000,000: the trust company, which also has a capital of \$2,000,000, will later on reduce the amount to \$1,000,000, and the excess of \$1,000,000 will be paid into the bank as a surplus fund. The trust company will be continued as a corporation under the control of the stockholders of the bank for the purpose of carrying on a trust business. The stockholders in the two institutions are and will remain identical, and both will be under the same management. The officials of the bank are William G. Irwin, Chairman of the executive committee; Henry T. Scott, President; John D. McKee, Vice-President and Cashier; W. F. Berry and O. Ellinghouse, Assistant Cashiers.

-A. Tonn has resigned as Cashier of the City & County Bank of San Francisco.

-The Commercial State Bank of Seattle, Wash., formed with a capital of \$200,000 and surplus of \$40,000, commenced business on Feb. 23. The new institution was organized, according to the local papers, to take over the banking business of the Title Trust Co., which latter, it is stated, will continue to operate its title, trust and safe deposit departments. The bank's stock is said to be largely held by the stock holders of the trust company. The management of the Commercial State Bank consists of Lester W. Lewis, President; F. W. Baker, Vice-President, and Chairman of the board of directors; C. S. Wiley, Vice-President; W. B. Shoemaker, Cashier, and John B. Lewis, Assistant Cashier.

-The aggregate resources of the United States National Bank of Portland ,Ore., show a gain of over a million dollars during the past  $2\frac{1}{2}$  months, there having been an advance from \$10,529,579 on Nov. 16 1909 to \$11,627,606 on Jan. 31 1910. J. C. Ainsworth is President and R. W. Schmeer, Cashier.

-St. Stephen's Bank at St. Stephen, N. B., suspended on the 7th inst., and an examination of its affairs is in prog-R. B. Kessen, General Manager of the Bank of New ress. Brunswick, has been appointed to take charge of the closed institution as curator. The suspension is intimated to have been brought about by the lack of good business judgment, and one of the causes of its embarrassment is understood to have been the loaning of large sums to a mining concern. The bank was incorporated in 1836. Its capital was reported at \$200,000. According to the news dispatches, it is expected that the Bank of New Brunswick will relieve the situation to some extent by advancing part of the funds to meet the claims of the depositors.

[From our own correspondent.]

London, February 26 1910.

With two exceptions, markets in the Stock Exchange are inactive. Prices are fairly steady, and there is generally a hopeful feeling. But there is a disinclination to engage in new risks. The two exceptions are rubber shares and oil shares, in which the boom is gaining strength every duy and is spreading to the Continent. Indeed, the activity in these two classes of shares is almost as great just now in

Paris as it is in London. As yet the boom has not taken hold of Germany, but probably it will extend to that country likewise. The speculation has naturally led to a manufacture of new companies on an extraordinary scale. There is hardly a day on which half a dozen companies are not brought out, and apparently applicants are found for nearly all of them. The issue of new companies is becoming dangerous, and probably will frighten the City before long. But the demand for both rubber and oil is genuine. Such a multitude of new companies will ultimately, of course, lead to an over-supply. But for the time being it looks as if the high prices may be maintained much longer than most people anticipate.

The state of our domestic politics is mainly responsible for the inactivity of the great majority of markets. The Irish Nationalist Party and the British Labor Party are both disappointed at the tactics adopted by the Prime Minister, and both threaten opposition. There is, therefore, a general fear that we may have before long a dissolution and another general election. Against this view, however, it is to be remembered that both the Irish Party and the Labor Party are not well supplied with funds, and that to go through another general election so soon would be very costly, while the wear and tear to the candidates and their active supporters would be very great. Hence, the keenest observers are inclined to think that an arrangement of some kind will be come to by them with the Government and that the campaign against the House of Lords will be pushed forward eagerly. Nevertheless, there is a doubt, if the Lords throw out the bill curtailing their own powers, whether the King will be willing to give to the Government the promise to create as many Peers as may be necessary to carry the measure.

The uncertainty regarding domestic politics, then, is weighing upon the Stock Exchange, and, indeed, upon the City generally. The fluctuations on the New York Stock Exchange likewise have a depressing effect, for the United States now exercises so great an influence upon Europe that a prolonged set-back weighs upon all markets. In Paris people are recovering rapidly from the alarm excited by the floods, and already there is a boom in rubber and oil shares. Still, even Paris is affected by the inactivity in London and the fluctuations in New York, the more particularly as the state of the Near East is not quite reassuring. In Germany the agitation against the Prussian Franchise Reform Bill adds to the effect of the fluctuations in New York and the depression caused by British domestic politics. At the same time, remarkable proof has been given this week that there is a large accumulation of unemployed money in Germany. On Monday the settlement of the Imperial and Prussian loans recently brought out took place. They amount together to 37 millions sterling, and over 70% of the total was paid for in full and taken up.

Money continues very abundant and cheap, but what will be its course during the next five or six weeks is puzzling all observers. At this time of year in normal seasons there is a very small supply in the outside market and the Bank of England is able to fix rates as it pleases. This, however, be-ing an abnormal year, the Bank of England has completely lost all power. The collection of the revenue on a great scale will, however, now begin, and the question is what will be its effect upon rates? That is to say, will the large money borrowed on Treasury bills counteract the

The bank rates of discount and open market rates at the chief Continental cities have been as follows:

Feb. 24:

GOLD.—The arrivals this week were only about £530,000, and as India required about £180,000, the amount available for export was unusually small. Russia was believed to be the buyer, and, owing to some competition, there was a small advance in price, for the first time in three months, to 77s.  $9\frac{1}{2}$ d. The demand for sovereigns for Paris still continues, and £721,000 has been withdrawn, while £250,000 has gone to the Argentine and £7,000 to Gibraltar. On the other hand, the Bank has received £5,000 from Australia and £29,000 in bars since our last. Next week we expect £944,000 from South Africa. Arrivals—South Africa, £461,000; New Zea-land, £45,000; West Africa, £15,000; West Indies, £10,000; total, £531,000. Ship-ments—Bombay, £174,750; Calcutta, £37,500; total, £212,250.

ments—Bombay, £174,750; Calcutta, £37,500; total, £212,250. SILVER.—Business in silver has not been on a large scale, and fluctuations have been small, the price, after having fallen to 23 15-16d., being now 24d., or  $\frac{1}{2}$  d. down on the week. China has been buying quietly all the time and has perhaps been the chief support of the market. Exchanges are over silver parity and have a firm tendency, while stocks in Shanghai are only £1,620,000, or about £1,000,000 less than at the same period last year. Indian prices are well below parity and the Basaars have consequently not been active, but the position there seems sound. Stocks are down to £840,000, and even allowing for £540,000 on the way, it is ex-pected that there will be a large amount required for the settlement steamer of March 4. Stocks in London accumulate and are now nearly £1,250,000, and for-ward has in consequence been the better market and has on several days commanded a premium. The price in India is Rs. 60% per 100 tolahs. Arrivals—New York, £225,000; West Indies, £5,000; Mexico, £15,000; total, £245,000. Shipments— Bombay, £20,000; Port Said, £750; total, £20,750.

#### + Increase over last week. - Decrease from last week.

Note.—"Surplus" includes all undivided profits. "Reserve on deposits" in-cludes, for both trust companies and State banks, not only cash items, but amounts due from reserve agents. Trust companies in New York State are required by law to keep a reserve proportionate to their deposits, the ratio varying according to location as shown below. The percentage of reserve required is computed on the aggregate of deposits, exclusive of moneys held in trust and not payable within thirty days, and also exclusive of time deposits not payable within 30 days, repre-sented by certificates, and also exclusive of deposits secured by bonds of the State of New York. The State banks are likewise required to keep a reserve varying according to location, but in this case the reserve is computed on the whole amount of deposits, exclusive of deposits secured by bonds of the State of New York. of deposits, exclusive of deposits secured by bonds of the State of New York.

### MAR. 12 1910.]

### THE CHRONICLE

The Banking Department also undertakes to present separate figures indicating the totals for the State banks and trust companies in the Greater New York not in the Clearing House. These figures are shown in the table below, as are also the results (both actual and average) for the Clearing-House banks. In addition, we have combined each corresponding item in the two statements, thus affording an aggregate for the whole of the banks and trust companies in the

Greater New York. NEW YORK CITY BANKS AND TRUST COMPANIES.

Wall Street, Friday Night, March 11 1910. The Money Market and Financial Situation.—There has been little, if any, change in sentiment or the actual conditions which affect security values during the week now closing. There was a further upward movement of prices on Monday and Tuesday but this was reversed on Wednesday, and a considerable part of the early advance has been lost.

Relatively less attention is now given in Wall Street to political and official matters than of late, and the financial, industrial and labor situation is becoming more prominent.

Of these the latter is most conspicuous at the moment, Philadelphia being the centre of interest.

The monthly statement of copper production in February and the stock on hand March 1 is not so surprising as at first glance it would appear. The deliveries in January, as is well known, abnormally large, and the amount of metal on hand is now much smaller than it was a few months ago. Of more interest, therefore, was the statement of the Amalgamated Copper Co., filed on the occasion of the listing of its shares on the Stock Exchange, which showed smaller net earnings than was generally expected. On the other hand, the annual report of the American Tobacco Co. was an exceptionally favorable one—a fact to which may doubtless be attributed a 3-point rise in the bonds of the company.

The readiness with which new bond issues find a market, especially abroad, continues to be an interesting feature of the financial situation.

The open market rates for call loans at the Stock Exchange during the week on stock and bond collaterals have ranged from  $2\frac{1}{2}$  to 3%. To-day's rates on call were  $2\frac{3}{4}(@3\%)$ . Commercial paper quoted at  $4\frac{1}{4}(@4\frac{3}{4}\%)$  for 60 to 90-day endorsements,  $4\frac{1}{2}(@4\frac{3}{4}\%)$  for prime 4 to 6 months' single names and  $5(@5\frac{1}{2}\%)$  for good single names. The Bank of England weekly statement on Thursday showed a decrease in bullion of £712,925 and the percentage

The Bank of England weekly statement on Thursday showed a decrease in bullion of  $\pounds 712,925$  and the percentage of reserve to liabilities was 50.82 against 50.73 last week. The rate of discount remains unchanged at 3%, as fixed Feb. 10. The Bank of France shows an increase of 3,200,000 france gold and a decrease of 2,425,000 france silver.

Note.—The Clearing House now issues a statement weekly showing the actual condition of the banks on Saturday morning as well as the above averages. These figures, together with the returns of separate banks, also the summary issued by the State Banking Department showing the condition of State banks and trust companies not reporting to the Clearing House, appear on the second page preceding.

**Foreign Exchange.**—Foreign exchange rates continued their downward tendency throughout the week, mainly owing to increased offerings of remittance arising from the placing abroad of bond and note issues, and renewed borrowing in Europe by our bankers.

To-day's (Friday's) nominal rates for sterling exchange were 4 85 for 60-day and 4 87  $\frac{1}{2}$  for sight. To-day's actual rates for sterling exchange were 4 8410@4 8425 for 60 days, 4 8665@4 8670 for checks and 4 8690@4 8695 for cables. Commercial on banks 4 8380@4 8390 and documents for payment 4 83  $\frac{1}{2}$ @4 84  $\frac{1}{4}$ . Cotton for payment 4 83  $\frac{1}{4}$ @4 84  $\frac{1}{2}$ . To-day's (Friday's) actual rates for Paris bankers' frances were 5 19 $\frac{3}{8}$ @5 19 $\frac{3}{4}$  less 1-16 for long and 5 17  $\frac{1}{2}$ @5 16 $\frac{7}{8}$ less 3-32 for short. Germany bankers' marks were 94 11-16 @94 $\frac{3}{4}$  for long and 95 3-16@95 $\frac{1}{4}$  less 1-32 for short. Amsterdam bankers' guilders were 40 06@40 08 for short.

\$1,000 discount; bank, 90c. per \$1,000 premium. Montreal, 15%c. per \$1,000 premium.

State and Railroad Bonds.—Sales of State bonds at the Board include \$3,000 Tennessee settlement 3s at  $94\frac{3}{4}$ , \$700 ditto small bonds at  $93\frac{1}{2}$  and \$5,03) Virginia 6s deferred trust receipts at  $50\frac{1}{4}$ .

The market for railway and industrial bonds has been decidedly more active and generally firm. The daily transactions averaged nearly \$4,000,000 par value and included a large number of issues.

American Tobacco 6s, as noted above, have been exceptional on an advance of 3 points. Central Leather 5s, Rock Island 4s, Erie conv. 4s, Series A, and Pennsylvania conv.  $3\frac{1}{2}$ s are a point or more higher than last week and practically the entire list, not mentioned above, is ractionally higher.

**United States Bonds.**—Sales of Government bonds at the Board include \$1,000 4s coup. 1925 at  $114\frac{3}{4}$  and \$21,000 3s coup., 1908-18, at  $102\frac{1}{2}$ . The following are the daily closing quotations; for yearly range see third page following.

• *	Interest	Mch.	Mch.	Mch.	Mch.	Mch.	Mch.

* This is the price bid at the morning board; no sale was made.

**Railroa1 and Miscellaneous Stocks.**—The stock market was again strong during the early part of the week, when a substantial portion of the active list moved up from 3 to 5 points. This movement has been followed by a reaction which set in late on Wednesday and continued up to the close to-day. The result is that in many cases the advance of the early part of the week has been lost.

When at the highest Union Pacific was 6 points above last week's closing price, St. Paul over 5. New Yor's Central  $5\frac{1}{2}$ and United States Steel  $4\frac{5}{8}$ . The copper stocks have been weak on the report of the producing companies for February and the statement made by Amalgamated to the Stock Exchange. Amalgamated declined over 3 oints to-day and Anaconda is  $2\frac{1}{2}$  points lower than at the close last week. Steel common, on the other hand, shows a net gain of nearly 3 points. The preferred closes without change.

For daily volume of business see page 688.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

Outside Market.-There was no definite trend to the "curb" market this week. Prices moved irregularly, now up, now down. Business throughout has been only mod-erate. Boston Consolidated rose from  $20\frac{1}{4}$  to  $20\frac{5}{8}$ , fell to  $19\frac{7}{8}$  and ends the week at 20. British Columbia advanced from  $6\frac{34}{2}$  to  $7\frac{14}{2}$  and reacted to 7. Butte Coalition sold up from  $26\frac{1}{2}$  to  $27\frac{3}{8}$ , then down to  $25\frac{34}{2}$  and finally at  $26\frac{1}{8}$ . Chino Copper moved down from  $14\frac{7}{8}$  to 14. Giroux improved from  $97_8$  to  $101_4$  and weakened to  $93_4$ . Greene-Cananea fluctuated between  $107_8$  and  $101_4$ , closing to-day at the low figure. Miami advanced from  $24\frac{1}{4}$  to  $24\frac{7}{8}$  and weakened to 2334. Nevada Consolidated sold up from 235%. to  $24\frac{7}{8}$ , but sank to  $23\frac{1}{2}$ , ex-dividend. Ohio Copper eased off from  $4\frac{3}{8}$  to  $4\frac{1}{4}$ , then rose to 5 and finished to-day at 4 9-16. Cobalt Central improved from 18c. to  $20\frac{1}{2}$ c. and ends the week at  $19\frac{1}{2}$ c. Nipissing went up from  $10\frac{1}{4}$  to  $10\frac{1}{2}$  and down to  $10\frac{1}{8}$ , closing to-day at 10 3-16. In the industrial list several of the high-priced specialties made note-worthy advances. American Tobacco from  $420\frac{1}{2}$  reached 438 and to-day's business carried the price to 457. Standard Oil gained about 35 points to 660, declined to 645, with the final figure to-day 650. United Cigar Mfrs. com., after a fractional gain to 87 1/8, fell to 86 and recovered subsequently to 87. Chicago Subway advanced from  $3\frac{3}{8}$  to  $3\frac{1}{2}$  and dropped to 3. A good showing was made in the bond department. N. Y. City  $4\frac{1}{4}$ s appeared and sold "w. i." be-tween  $101\frac{1}{2}$  and 102. Lackawanna Steel bonds continue active, with prices unchanged from last week. The follow-ing new issues were traded in "w. i.": Kan. City Term. 4s: between 985% and 9814; R. I. Ark. & La. 41/2s between 9614 and 963/8; Jamest. Frank. & Clearf. 4s between 951/8 and 951/4; Western Pacific 5s fluctuated between 961/8 and 971/8; American Writing Paper 5s gained a point to 90. Outside quotations will be found on page 688.

THE CHRONICLE

### RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every SFEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the electric railways are brought together separately on a subsequent page.

Electric Railway Net Earnings.—The following table gives the returns of ELECTRIC railway gross and net earnings reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of Feb. 26 1910. The next will appear in the issue of Mch. 26 1910.

#### ANNUAL REPORTS.

Annual Reports.—An index to annual reports of steam railroads, street railways and miscellaneous companies which have been published during the preceding month will be given on the last Saturday of each month. This index will not include reports in the issue of the "Chronicle" in which it is published. The latest index will be found in the issue of Dec. 25. The next will appear in that of Jan. 29.

#### New York Central & Hudson River RR.

(Report for Fiscal Year ending Dec. 31 1909.)

On subsequent pages there is published the report at length, also the comparative income account for two years, the balance sheet and comparative tables of traffic, equipment, &c.

The income account having been compiled according to the new system prescribed by the Inter-State Commerce Commission, and the figures for the previous year revised for purposes of comparison, is not repeated here. The form of the balance sheet has been changed to such an extent that comparisons with items as given in the reports of previous years are deemed of little value and hence are omitted. -V. 90, p. 627, 560.

#### Lake Shore & Michigan Southern Ry.

(Report for Fiscal Year ending Dec. 31 1909.)

On subsequent pages is published the report at length, also the comparative income account for two years on the basis prescribed by the Inter-State Commerce Commission, the balance sheet and comparative tables of traffic, equipment, &c.-V. 90, p. 627, 303.

Total operating expenses were \$2,201,845, an increase of \$220,078. Maintenance of way and structures increased \$75,657, occasioned by new rails laid, abolishment of grade crossings and extensive repairs to warehouse at Ogdensburg and coal trestle at Rutland. Maintenance of equipment increased \$98,161, caused by extensive repairs and amounts charged for renewals to take care of worn out and demolished equipment. Expenses for the year include extraordinary items aggregating \$114,057, notably, abolishing grade crossings, \$26,850; new steel rails and other track material, \$41,820; rebuilding warehouse and coaling station, \$34,532. During the year \$60,292 was charged to equipment replacement fund on account of rolling stock purchased in 1906, 1907 and 1909. The tabulations in this report have been compiled in accordance with the classifications of the Inter-State Commerce Commission. *Capitalization*.—The capital stock remains unchanged. The funded debt has been decreased by the purchase and cancellation of \$99,000 4½% equipment bonds. *Special Fund*.—The net corporate income for 1909, as well as the surplus for 1908, have been credited to "appropriated surplus," from which it is proposed to purchase new equipment—8 locomotives (4 passenger, 4 freight) and 100 flat cars—to cost about \$227,000. The balance of this surplus to be expended for improvements—new rails, ballast, elimination of grade cross-ings, shop tools, &cc. *Outlook*.—The business of the road shows steady increase, and expendi-

outlook.—The business of the road shows steady increase, and expendi-tures which have been made for improvements, adding to efficiency and economy of operation, should be reflected in increased net revenue.

#### Pittsburgh & Lake Erie Railroad.

#### (Report for Fiscal Year ending Dec. 31 1909.)

President William C. Brown says in brief:

General Results.—The gross revenues from rail operations were \$14,838,-947 56, an increase of \$4,456,327 50 as compared with the previous year. Freight revenue was \$13,087,637, an increase of \$4,247,256 16. The volume of tonnage carried shows an increase in almost every class of freight, the heaviest being in coal, coke and ores. Passenger revenue was \$1,337,825, an increase of \$172,142, in local more than in interline traffic. The expenses of operation were \$6,419,205, an increase of \$1,046,537, a natural result of the greater volume of traffic handled. The percentage of operating expenses to revenue was 43.26%, compared with 51.75% in the previous year.

natural result of the greater volume of traffic handled. The percentage of operating expenses to revenue was 43.26%, compared with 51.75% in the previous year. The profit from operation, after the payment of two dividends, aggre-gating 10%, was \$6,115,605. An extra dividend of \$20 per share (40%) was declared out of the accumu-lated surplus (V. 90, p. 168). Extraordinary expenses aggregated \$2,602,691, as follows: For additions to property charged to cost of road and equipment, \$1,387,895; for addi-tions to property charged against reserve funds, \$1,214,796. [The item of \$1,387,895 includes chiefly: right of way, \$148,675; 31 track, \$146,238; 4th track, \$161,423; sidings, \$100,233; bridges, \$679,799; and on account 10 switching locomotives, \$51,622. The items charged to reserve funds were: Bridges, \$37,099; on account 5 passenger and 10 switching loco-motives, \$161,664; 1 baggage car, 50 steel flat cars and 10 caboose cars, \$42,640; on account 1,500 coke cars, \$640,392.—Ed.] The statements shown in this report are based upon the classifications promulgated by the Inter-State Commerce Commission. The revenues of the Pittsburgh Chartiers & Youghiogeny Ry. were sufficient to pay two dividends aggregating 8% The revenues of the Monongahela RR, enabled it to make n eded improvements and additions and pay a dividend of 4%. *Stock.*—The capital stock was increased during the year from \$10,000,000 to \$15,000,000 (V. 87, p. 1301). *RESULTS FOR CALENDAR YEARS*.

#### (Report for Fiscal Year ending Dec. 31 1909.)

President William C. Brown says in part:

**Fresident William C. Drown says in part.** General Results.—The total operating revenues were \$3,102,432, an increase of \$347,229. Freight revenue was \$1,721,305, an increase of \$244,-827, due to general increased tonnage of different commodities and greater distance hauled. Passenger revenue was \$1,043,562, an increase of \$71,444. The number of passengers carried shows a considerable increase, but there is a slight decrease in the distance carried and the average rate per passen-ger per mile. Milk on passenger trains revenue was \$51,003, an increase of \$32,945. On May 30 1909 a daily through milk train service was estab-lished between Ogdensburg and New York City, via Chatham.

#### Chicago Indiana & Southern Railroad.

#### (Report for Fiscal Year ending December 31 1909.)

President William C. Brown says in brief:

General Results.—The revenues, expenses, etc., are compiled in accordance with the recent classifications promulgated by the Inter-State Commerce Commission. The operating revenues were 3,223,313, an increase of 549,122. Freight revenue was 2,890,954, an increase of 5519,357, due to improved business conditions and larger tonnage in bituminous coal handled. Passenger revenue was 248,096, an increase of 28,189. The operating expenses amounted to 2,428,076, an increase of 3322,236. Maintenance of way and structures increased 130,776, due to rebuilding various bridges and extensive repairs to the roadbed and track.

Road Operated.—There has been an increase during the year of 11.85 mile^S in the mileage of road operated, due to the installation of suburban passenger service between Hammond and Gary, Ind.

Capitalization .- There has been no change in stock or funded debt. Capital Expenditures.—Sundry improvements aggregating \$259,779 were charged to cost of road, notably additional yard tracks and facilities, \$43,057, and strengtheneing and renewing various bridges, \$89,455. No new equipment was acquired, but the company paid its second annual installment upon the equipment trust of 1907, \$251,998; \$32,018 was pro-vided through replacement fund and \$219,980 charged to new equipment. Total charges to capital account, \$479,760.

Outlook.—The business of the road shows steady increase; and the improvements made, adding to efficiency and economy of operation, should be reflected in increased net revenue.

#### (Report for Fiscal Year ending Dec. 31 1909.)

President William C. Brown says:

President William C. Brown says: General Results.—The operating revenues were \$5,043,990, an increase of \$682,832. The freight revenue was \$3,972,410, an increase of \$624,829, mostly during the last half of the year and due to the general restoration of business activity and to improved train schedule. The passenger reve-ment was \$803,753, an increase of \$32,107, due also to the general improve-ment in business. The operating expenses were \$3,860,442, an increase of \$200,049. Maintenance of way and structures shows a decrease of \$9,250. Maintenance of equipment increased \$183,337, due principally to heavier charges for repairs to freight equipment and for renewals of equipment. Deductions from income amounted to \$975,522, an increase of \$146,134, due to heavier outlay for hire of equipment and for joint facilities and inter-est charges, and also to charges for additions and betterments. The net income was \$91,105, an increase of \$331,545. Charges for additions and betterments, aggregating \$56,965, were deducted from income during the year and carried to road and equipment account. There was also a net credit of \$31,964 to road and equipment account of equip. adjustments. Road and equipment account was increased by a one-half interest in the Kokomo Belt RR., amounting to \$13,987. During the year 17.44 miles of main track were renewed with 75-lb. steel rail and 3.64 miles of main track were renewed with gravel; 3.58 miles of new sidings were built; 3.07 miles of siding were removed and 329,610 cross-ties and 195 sets of switch ties were laid. The tabulations in this report have been compiled in accordance with the classifications of the Inter-State Commerce Commission. Securities.—The capital stock and funded debt remained unchanged.

Securities .- The capital stock and funded debt remained unchanged.

Outlook.—The business of the road shows steady increase, and expenditures made for improvements, adding to efficiency and economy of operation, should be reflected in increased net revenue.

a Includes additions to road since June 30 1907, \$1,461,537; to equipment, G \$1,052,837, and general expenditures, \$793,560.-V. 88, p. 1619.

(Report for Fiscal Year ending Dec. 31 1909.)

At the 18th annual meeting held Feb. 2 1910, President William Mackenzie said in substance:

Earnings.—The passenger earnings continue to show gratifying increases having amounted to 33,878,146 for the year, an increase of 311,652, or 8.73% over 1908; the net revenue from operation shows an increase of 12.19%.

Taxes.—From the net earnings there was paid to the city of Toronto: Percentage on earnings, \$507,827; pavement charges, \$82,128; genera taxes, \$50,326; total, \$640,281, an increase of \$61,287 compared with 1908.

Renewals.—There has been transferred this year to the contingent ac-count provision for renewals the sum of \$150,000. There has been trans-ferred from profits to the credit of this account the total sum of \$900,000, and there has been expended to date \$597,621, leaving a balance of \$302,379for the purpose of future renewals. The principal charges to this account were in connection with the renewal of track and overhead work.

*Capital Outlays.*—The capital expenditure amounted to only \$138,081, as compared with \$431,871 during 1908. It is to be regretted that, owing to the position taken by the City Council in refusing to allow the company to construct new lines to meet the public requirements, the company was compelled to discontinue the construction of new cars, which it has been constructing continuously for the past 16 years. The same might be said of our track and overhead work. Having in view, however, that authority will ultimately be granted for the construction of a large, up-to-date car house on Lansdowne Aye. house on Lansdowne Ave.

American Tobacco Co. of New Jersey.

(Report for Fiscal Year ending Dec. 31 1909.)

There has been no change in the capital stock. As required by the trust indenture there was deposited with the trustee in January 1909 the sum of \$500,000; \$455,550 of the 6% gold bonds have been purchased and can-celed at a cost of \$499,962. The difference between par value and cost has been written off as an expense. By order of the board \$2,202,000 of the 4% gold bonds have been pur-chased for \$1,769,577 out of the surplus and canceled and the par value (\$2,202,000) deducted from the amount carried among the assets as good-will patents and trade-marks.

Treasurer J. M. W. Hicks, March 9, writes in substance:

It can be generally stated that the ores produced by the subsidiary companies of the Amalgamated Copper Co., including the mines operated by the Anaconda Co., and excepting the mines owned by the Parrot Co., are divided into two classes, namely those of a concentrating grade, having a copper content varying from 3% to 4%, and those of a smelting grade, carrying 5% in copper and upwards, both classes having their accompanying gold and silver values.

#### Pittsburgh (Pa.) Coal Company.

(Report for Fiscal Year ending Dec. 31 1909.)

### Pres. M. H. Taylor, Pittsburgh, March 8, wrote in brief:

(Report for Fiscal Y car ending Dec. 31 1909.) Pres. M. H. Taylor, Pittsburgh, March S, wrote in brief: General Results.—The total tonnage for 1909, including purchases and that used in making coke, was 15,565,668 tons of "run of mine" coal, an increase over 1908 of 1,283,537 tons, or 8,99%. Coke made and bought aggregated 484,903 tons, an increase of 429,804 tons, and the record to date. For the first four months the output held practically on a level with the same period of 1908, but in May the effect of the improvement in general business began to show and continued throughout the remainder of the year. The gross earnings were \$3,443,395, an increase of \$423,473, or 14%, and the net earnings were \$3,443,395, an increase of \$342,373, or 14%, and the net earnings were \$3,443,395. Athough an improvement in demand increased the output, the gain in net earnings were \$3,443,395. Athough an improvement in demand increased the output, the gain in net earnings was not secured through any improvement in coal selling value, which fell below the low average of 1908. The increase came parity from an ncrease in the output and selling value of coke b t chieldy from a decrease in ooal production cost. Working Capital.—The working capital as of Dec. 31 1909 was \$4,570,493. or an increase of \$1,214,932, in which, however, is included the unexpended balance realized from the sale of the bonds of the Pittsburgh Coal-Dock & Wharf Co., of \$567,925 (see below). The net balance, deducting this free working balance that the company has had. Disidends.—A dividend of 13% on the preferred shares as of Jan. 10 1910, calling for \$338,597, was declared Dec. 29 1909, payable Jan. 25 1910 out of net earnings. The last previous dividend declared was paid April 25 1905 at the full quarterly rate of 13 %. Further dividends, when de-clared, like the dividend of Dec. 29, will be made on account of the 7% accumulation on the pref, shares, due when declared since March 1 1905. With the floating debt and stock purchas

#### Railway Steel-Spring Co.

#### (Report for Fiscal Year ending Dec. 31 1909.)

Pres. Wm. H. Silverthorn, Mch. 3 1910, writes in substance:

Pres. W M. H. Silverthorn, Mch. 3 1910, writes in substance: During the year an increased demand for our products has developed. The plants and organization being in first-class condition, the gross and net earnings have shown a marked increase. The increased earnings of the railroads of the country, with the consequent resumption by them of im-provements and extensions, make the outlook favorable. The year closed with orders on your company's books considerably in excess of the orders at the end of the preceding year. Sinking fund payments provided for the Latrobe 5% bonds canceled \$138,000 bonds, leaving \$3,945,000 outstanding. Works: National Works, Oswego, N. Y.; Hudson Works, Hudson, N. #### United Dry Goods Companies, New York City.

(Report for First Season, Namely 71/2 Months Beginning June 1 1909, Ending Jan. 15 1910.)

#### President John Claffin says:

President John Ulafiin says: United Dry Goods Companies began business with \$10,000,000 pref. capital stock and \$10,000,000 common capital stock outstanding. The opportunities of conversion offered to the Associated Merchants Company's stockholders resulted in the exchange of 11,631 shares of Associated Merchants stock for an equal number of shares of United Dry Goods common stock. This increased United Dry Goods Companies' holdings of Associated Merchants shares from 86,500 to 98,131 shares and increased the outstanding common stock of United Dry Goods Companies from \$10,000,000 to \$11,163,100. By the terms of incorporation of United Dry Goods Companies its pre-ferred stock to an aggregate of 10,000 shares may be allotted at par to the employees of United Dry Goods Companies and its subsidiary companies from time to time in the discretion of the directors of United Dry Goods Companies; 5,000 shares have recently been so allotted, and on Jan. 15 2,371 shares had been issued and paid for in cash, thus increasing the preferred stock from \$10,000,000 to \$10,237,100.

this fund during the year \$341.928 in re-valuation of equipments, chiefly of railroad cars, leaving a net increase in fund for year of \$298,694, and a net accumulation since general re-valuation Dec. 31 1906 of \$1.334.977. Outlook.—The outlook is encouraging as to tonnage. While the selling value of coal will continue to be influenced by the competition from other fields, based upon relative quality, a better average realization is expected; but the earning power of the business will never be what it should until this district is put on an equal basis with the competitive districts as to memory.	JAN. 15 1910.         \$1,176,568         350,000         1         211,104         7,717         \$568,821         \$607,747

I shall defer presenting a profit and loss account and a balance sheet until all the plants are in operation. Based on the present prices of pig iron, our production of pig iron alone indicates earnings considerably in excess of our fixed charges, and I am confident that, upon the operation of the steel plant and the rod and wire mills, the average annual het earnings of the company will be considerably in excess of my previous estimate of \$1,200,000.--V. 90, p. 563.

#### United States Reduction & Refining Co., New York and Colorado Springs.

(Report for Fiscal Year ending Dec. 31 1909.)

The excutive committee, J. D. Hawkins, Chairman,

C. M. MacNeill and Spencer Penrose, says in substance:

The excutive committee, J. D. Hawkins, Chairman, C. M. MacNeill and Spencer Penrose, says in substance: Drainage Tunnel.—The tonnage of ore produced in the Cripple Creek district during the past year is about the same as for 1908. The drainage tunnel has made very satisfactory progress; on Dec. 31 1908 its total length was 4,872 feet and on Dec. 31 1909 11,951 ft., leaving about 2,500 ft. yet to be driven. The remaining portion will probably not be completed prior to September 1910. While some of the good effects from the tunnel may be felt this year, it will be the next (1911) when the real benefit will be felt, for some time will be required to drain the mines and to open up stoping ground in the unwatered territory. General Results.—Your company has handled about the same amount of ore monthly as in the preceding year, but the treatment charges at which it has been received have been very low. While the earnings have not warranted a resumption of dividends, the fixed charges have been met and some addition made to the net surplus. The metallurgical work has been excellent, and this, together with the low costs of operations, has made the showing as good as it is under the adverse conditions prevailing. The wooden building over the roasting furnaces has been replaced by an all-steel structure at a cost of a little under \$12,000. Tailings Plant.—The tailings plant at Colorado. City has continued profitable, although the earnings at present are not as large as they have been in past years on account of operating only on tailings now discharged from day to day from the Standard plant. There still remains, however, a large accumulation of tailings not yet handled, on account of the difficulty of transporting them from the old reservoirs to the plant. This has been overcome, and we expect to commence on them by about May of this year. United States Smelting Co.—During several years past the operations of the united States Smelting Company, it was better to close the plant than for the bonds of the Smelting for the

### Southern Iron & Steel Company, Birmingham, Ala. (Report Presented at First Annual Meeting Held Feb. 17 1910.)

President W. H. Hassinger, Birmingham, Feb. 15, said in substance [see also circular on a subsequent page-Ed.]

SUDStance [see also circular on a subsequent page—Ed.] Organization, Properties, &c.—The company was incorporated on Mch. 15 1909, and on or about April 12 1909 acquired (per plan in V. 86, p. 1288; V. 88, p. 455, 568, 751; V. 89, p. 108) the properties formerly owned by the Southern Steel Co., the Chattanooga Iron & Coal Co. and the Lacey-Buek Iron Co., as well as the entire capital stock of the Georgia Steel Co. Briefly, the properties of the company and the Georgia Steel Co. are as follows: Coal lands and rights, 43,613 acres; red ore lands and rights, 21,142 acres; brown ore lands and rights, 20,580 acres; 4 blast furnaces, 6 open-hearth steel furnaces, 918 coke ovens, 3 coal mines, 3 brown ore mines, 5 red ore mines, 3 limestone quarries, new wire, rod and fence mill (now nearing completion). mines, 3 limestone quarries, new wire, rod and fence mill (now nearing completion). The work of rehabilitation was commenced about Sept. 1 last and in-volved an overhauling and general repair of the blast furnaces at Chatta-nooga, Trussville and Alabama City, the steel plant at Alabama City and the coke ovens, also the overhauling, unwatering, cleaning up and re-timbering of the coal and ore mines and the equipment incident thereto, as well as the development of additional territory, materially increasing the output of our mines. output of our mines. Operations.—On Oct. 8 1909 the blast furnace at Trussville was started Operations.—On Oct. 8 1909 the blast furnace at Trussville was started on Oct. 25 1909 the blast furnace at Chattanooga was started, and on Feb. 8 1910 the blast furnace at Alabama City was started. The operations of these three furnaces have been entirely satisfactory and their present out-put, at the rate of approximately 20,000 tons per month, considerably ex-ceeds their previously estimated tonnage. In addition, through economies in mining ores and coal, the making of coke and the operation of the fur-naces, the cost of pig iron has been materially reduced below the previously estimated cost. estimated cost. New Plant.—The mills for the manufacture of wire, rods, fencing, nails and other steel products were located at Ensley, 60 miles from the steel plant at Alabama City. The directors, after mature consideration, deterand other steel products were located at Ensley, 60 miles from the steel plant at Alabama City. The directors, after mature consideration, deter-mined that instead of spending a large amount of money on the repair and improvement of the old mills at Ensley, economy and effectiveness of op-eration required that a new modern mill be built at Alabama City, so as to concentrate the iron, steel and finishing product plants at that point. The new mill is now being constructed and it should be completed by April 1 1910. It is practically a new mill and second to none in the United States, having a capacity of 350 tons of wire products and 100 tons of other mis-cellaneous finished products per day, being double capacity of old mill. *Earnings*, &c.—While the market for pig iron has not been all that might be desired, the company has been able to dispose of the greater part of its output at profitable prices. Owing, however, to the short time that the

General .- It is interesting to note that the increase of \$112,927 in gross earnings is based on the sale of a less amount of power than was necessary to produce the same result in previous years. An amount of \$50,000 has been credited to the sinking fund of the con-solidated mortgage. From the contingent fund, \$39,236 has been applied

An amount of \$50,000 me the contingent fund, \$39,230 mas been against depreciation of plant, &c. *Capitalization.*—To cover expenditures made for additions to plant and purchase shares and bonds of auxiliary companies, an additional \$1,000,000 of 41%% debenture stock was authorized on June 11 and was disposed of the ameterial advance over previous issues. The directors in December and the advance over previous issues.

purchase shares and bonds of auxiliary companies, an additional \$1,000,000 of 41%% debenture stock was authorized on June 11 and was disposed of at a material advance over previous issues. The directors in December offered to the shareholders \$500,000 additional common stock at par, All of which stock was taken (V. 89, p. 1599, V. 90, p. 113). The number of shareholders is increasing, being now in excess of 2,000. Acquisitions, &c.—All of the shares and bonds of the Shawinigan Car-bide Co. are now owned by this company, and the carbi e company is used as an auxiliary consumer of power. [The table of acquisitions below shows the company acquired \$500,000 stock of the Montreal Light, Heat & Power Co.—Ed.] The construction work carried out during the past year includes: (1) Ex-tension of generating station at Shawinigan Falls to 275x75 feet. (2) Erec-tion therein of a complete unit of waterwheel and generator capable of developing 10,000 electrical horse-power. (3) Additional 50 miles of high-tension transmission line. (4) Five fire-proof transformer stations, with necessary equipment therein. Business.—Our subsidiary companies—namely, North Shore Power Co., at Three Rivers; Continental Heat & Light Co., south of the St. Lawrence; Laval Electric Co., north of the Island of Montreal—have all had a substan tial increase in business, while the Shawinigan Carbide Co. is constantly adding to its capacity and sales. Our electric service has been extended to Windsor Mills; St. Genevleve de Batiscan and St. Eustache, making a total of over 30 towns and citles now served. At Shawinigan Fails all the local industries are operating at or near full capacity. The eotton-manufacturing plant which the Shawinigan Cotton Co. has arranged to build bids fair to be a great success. The railway situation will shortly be improved by an added line to Grand Mere, now being constructed by the St. Maurice Valley Ry., and by the operation of this and all other railroads coming into Shawinigan Falls with electricity, probably during the c

THE CHRONICLE

Capacity.—With the installation of an additional electrical unit of 4,000 h.⁷ p., which is now in process of completion, the developed capacity of the plant at Shawinigan Falls will be: 55,000 electrical h. p.; 45,000 hydraulic h. p. (to be sold as water-power and covered by existing contracts). Substantial progress has been made with the plant and work for conserv-ing the storage resources of the watershed of the St. Maurice. Similar resources easily available should enable your company to utilize water-power at Shawinigan Falls capable of developing at all times over 150,000 h. p. The natural advantages make possible the development of the addi-tional power at minimum cost.

#### **GENERAL INVESTMENT NEWS**,

Baltimore & Ohio RR.-Sale of Notes.-The company has sold to Speyer & Co. and Kuhn, Loeb & Co. an issue of \$10,000,000 of one-year 4% coupon gold notes dated March 10 1910 and due March 10 1911. Denomination \$100,000 each. Interest payable Sept. 10 and March 10. These notes, it is understood, have been placed at  $99\frac{5}{8}$  and int., yielding  $4\frac{3}{8}\%$ income. For the year ending June 30 1909 the company reported surplus income, after payment of all charges, of over \$13,000,000. Compare V. 90, p. 501, 166. Equipment Trust.—An equipment trust mortgage, made to

the Guaranty Trust Co. of New York, has been filed for record to secure ten series, aggregating 1,000,000 each, of 4% "equipment bonds, car trust 1910," par 1,000, dated Feb. 1 1910. One series will mature each year on Feb. 1, beginning in 1911.-V. 90, p. 501.

**Boston & Lowell RR.**—Stock at Auction.—At auction in Boston on March 9 R. L. Day sold the 2,700 shares of new stock at prices ranging from  $220\frac{1}{2}$  to  $221\frac{3}{8}$ ; 1,755 shares at  $221\frac{3}{8}$  and 545 shares at  $220\frac{1}{2}$  were taken by H. C. Wainwright & Co.-V. 90, p. 625, 108.

**Brooklyn Rapid Transit Co.**—*Listed.*—The New York Stock Exchange has listed \$1,230,000 additional first refund-ing mortgage convertible 4% bonds, due 2002, making the total listed to date \$34,787,000

Ten-Cent Fare to Coney Island Maintained.—The Public Service Commission on Tuesday, by a divided vote, rendered its decision in favor of the company after extensive hearings on two complaints against the ten-cent fares on the lines to Coney Island.

to Coney Island. Mr. McCarroll, who wrote the majority opinion, says in part: "Even if the complainant had established over-capitalization, such fast would not necessarily sustain a reduction without some evidence either (1) that a charge of 10 cents is inherently excessive for the length of ride, or (2) that the total business of the particular companies is unreasonably profitable and that the earnings of the Coney Island business could be re-duced without imposing an unfair burden on the traffic of the remaining portion of the company's lines. Such evidence as was presented could not be regarded as establishing anything upon which reliance could be placed in regard to the cost or value of the properties of the several companies nor anything in regard to the cost of operation nor as to the burden of ex-cessive capitalization. Chairman Willcox voted in favor of dismissing the complaints against all the lines except the Brighton Beach line, operated by the Brooklyn Union Elevated Co. Mr. Maitble, who also dissented, states that the establish-ment of a differential rate, 5 cents on the surface lines for slow traffic and 10 cents on the rapid transit lines, would equalize the traffic, and that even if a single line were to lose thereby the added profits from other lines would more than offset the loss.—V. 90, p. 558, 502. **Canadian Northern Ry**.—*Proposed Lines in British Colum*-

bia.—The "Monetary Times" of Toronto for March 5 said: The Canadian Northern Railway bill was introduced in the British Columbia Legislature this week by Premier McBride. The company in addition to general railway powers, is authorized to purchase and operate coal mines in the province (compare Dunsmuir purchase, V. 90, p. 625), while bonds or debentures up to \$60,000 a mile may be issued. Three bills were introduced by the Premier, one to incorporate the Canadian Northern Pacific Ry., another to ratify the [provisional] agreement of Jan. 17 1910 between the Frovincial Government and that company [or Mackenzie & Mann representing it], and one to ratify the agreement of Feb. 26 1910 between the Government and the Kettle Valley River Ry. By the agreement with Mackenzie & Mann the Government of the Province guarantees the company's bonds and other securities for \$35,000 a mile, for not more than 600 miles, with interest at 4%, maturing in mot less than 30 years. Such securities will be secured by a first mortgage on lines so alded. The line is to come by Yellow Head Pass down the North Thompson, touching Kamloops if possible, or building a connection with Kamloops; thence by the South Thompson on to New Westminster and to Vancouver, with a line also to English Bluff, south of the Fraser River, near the International boundary line. The company will be exempt from taxation until 1924. taxation until 1924

taxation until 1924. [A press despatch to the "Seattle Post-Intelligencer" from Victoria B. C., on Feb. 28 adds: "The agreement with Mackenzie & Mann provides that, in return for the Government guaranty of bonds for the construction of the British Columbia lines, including 80 miles on Vancouver Island, the railway pledges inself to complete lines within four years, the lines to run from English bluff, near Vancouver, to connect with the Canadian Northern lines at the eastern boundary of the province, and from Victoria to a point on Bartley Sound. The company arrees never to seek Dominion incorpora-

lines at the eastern boundary of the province, and from Victoria to a point on Barkley Sound. The company agrees never to seek Dominion incorpora-tion and places the control of rates forever in the hands of the Provincial Government, without appeal to the Dominion Railway Commission. "A car ferry between mainland and island is provided for and car shops are to be maintained in Victoria. Mackenzie & Mann covenant to indem-nify the province against any loss through their guaranty, depositing securities to the extent of \$500,000 as forfeit. The money realized from the sale of the bonds remains to the credit of the Provincial Government to be paid over upon the different sections of the work being certified completed."

#### MAR, 12 1910.]

Steamship Company Incorporated .- The "Canadian Northern Steamships, Ltd.," of Toronto, was incorporated on Oct. 22 1909 under the Canadian Companies Act, with \$2,000,000 of authorized capital stock in shares of \$100 each, to operate steamship lines, in the interests of the railway, on the Atlantic Ocean and ultimately also on the Pacific.

the Atlantic Ocean and ultimately also on the Facinc. The "Toronto Globe" quotes Mr. D. B. Hanna, Third Vice-President of the Canadian Northern Ry., as stating that the company will inaugurate a passenger and freight service between Canada and Great Britain at the opening of navigation next year. He confirms the report of the purchase of the steamships Cairo and Heliopolis, (described as 11,000-ton boats, built about a year ago, with a maximum speed of 21 knots), and announces that the securing of two large freight boats, to be used on the same route, is also contemplated. "We hope," he adds, "to have a complete service in operation between Montreal, Quebec and Liverpool even before the C. N. RR. has become a trans-continental road. The nucleus of a Pacific field is still in the future.—V. 90, p. 625.

Central RR. of New Jersey.-New Bond Issue.-See Lehigh & Wilkes-Barre Coal Co. below.-V. 90, p. 502.

Chicago & Alton RR.—Three-Year 5% Secured Notes Offered—New Bond Issue.—Kissel, Kinnicutt & Co., New York, have purchased from the railroad, and sold to the Guaranty Trust Co. of N. Y., which is now offering the same at 993%, the entire issue of \$2,500,000 "3-year 5% secured notes," dated March 15 1910 and due March 15 1913, but subject to call as a whole, but not in part, after March 15 1911 at par and interest on any interest day on two months' notice. Interest M. & S. A circular says:

This issue is secured by deposit with the trustee of \$3,500,000 "equipment and improvement" 5% bonds, into which the notes are convertible

The new issue of "equipment and improvement bonds" is \$18,000,000, to mature 1930, redeemable in whole, but not in part, after 5 years at  $107 \frac{1}{2}$ and int. on any int. day upon 3 months' notice. The bonds will cover the entire property, subject only to the existing 3% and  $3\frac{1}{2}$ % mortgage bond issues, and will be secured by a first mortgage on all new equipment hereafter acquired.

Purposes for which the \$18,000,000 New Equip. & Imp. Bonds are Issuable. To be issued pledged as collateral for this note issue______\$3,500,000 To retire 60% of equipment trusts maturing in 1910-19______ 2,940,000 To retire 15-year 5% debenture bonds______1,666,000 Limited annual appropriations for betterments, new acquisitions, &c., but not exceeding \$3,000,000 to March 1913______ 9,894,000 -V. 90, p. 372.

Chicago Indianapolis & Louisville Ry.—Listed.—The New York Stock Exchange has admitted to the regular list the \$2,300,000 Louisville New Albany & Chicago (Chicago & Indianapolis Division) first mortgage 6% bonds, due 1911, heretofore quoted in the unlisted department.-V. 89, p. 844.

Chicago & North Western Ry.—Listed.—The New York Stock Exchange has transferred from the unlisted department to the regular list the following bonds:

\$2,977,500 Madison Extension 1st M. sinking fund 7% bonds, due 1911.
\$2,546,500 Menominee Extension 1st M. sink. fund 7% bonds, due 1911.
\$3,365,000 Northwestern Union Ry. 1st M. s. f. 7% bonds, due 1917.
\$4,038,500 Winona & St. Peter RR. guar. ext. 1st M. s. f. 7% bonds.
\$7,725,000 Fremont Elk. & Mo. Val. RR. 1st M. 6% bonds, due 1933.

Acquisition of Land.—Three deeds were recently filed from the Northern Trust Co. of Chicago, as trustee, conveying to the company for considerations aggregating \$9,537,889, numerous parcels of land to be used in connection with the new Chicago terminals just about completed .--- V. 90, p. 559, 372.

Chippewa Valley Ry., Lt & Power Co.—New Securities.-To finance the construction of a 2,000 k. w. capacity hydroelectric power plant and other improvements, the Wisconsin Railroad Commission has sanctioned the issuance of \$150,000 1st M. 5s, \$50,000 pref. stock and \$200,000 com. stock, making the amounts of the respective issues authorized by the Commission, but not yet issued and outstanding \$900,000, \$200,000 and \$1,000,000. These securities will be issued later on during the summer.--V. 85, p. 1461, 1209.

Cincinnati Bluffton & Chicago RR.—Sale Asked.—A petition for the sale of the property has been filed in the Huntington (Ind.) Circuit Court before Judge S. E. Cook by W. A. Guthrie, an Indianapolis broker, who holds, it is said, defaulted receiver's certificates aggregating \$100,000.-V. 88, p. 1313.

1½% 1945 to 1954. Trustee, City Trust Co., Boston.
Abstract of Letter by Henry G. Bradlee, President Stone & Webster Management Association January 31 1910.
The railway company is constructing almost entirely on private right-of-way a high-speed heavy steel interurban electric road between Houston and Galveston. All its outstanding stock (\$1,650,000) is owned by the Galveston-Houston Electric Co., which also owns about 97% of the stock of the Houston Electric Co. (owning all the street railways in Houston) and about 95% of the stock of the Galveston Electric Co. (owning all the street railways in Houston) and about 95% of the stock of the Galveston Electric Co. (owning all the street railways in Houston).
The bonds are a first mortgage upon all the properties and franchises of the Railway Co. now or hereafter owned, and will be endorsed with the guaranty, as to prin., int. and sink. fund, by Galveston-Houston Electric Co. This guaranty is secured by pledge of all the capital stock of the Houston Electric Co. and the Galveston Electric Co. This guaranty is constructing Co. and Galveston Electric Co. This guaranty is the Galveston Electric Co. This guaranty is solved by pledge of all the capital stock of the properties of the Houston Electric Co. The Galveston Electric Co. This guaranty is the Galveston Electric Co. This guaranty is to continue unless and until these bonds are made a direct lien upon the properties mortgaged and the collateral for the guaranty have a combined valuation nearly double this issue. The mortgage is limited to \$5,000,000 but not more than \$2,750,000 can be issued to construct and equip the interurban road. The Galveston-Houston Electric Co. has also agreed to contribute \$200,000 towards construction and equipment prior to Jan. 1 1911. The remaining \$2,250,000 bonds can be issued only for future additions, extensions or improvements at \$1,000 in bonds for each \$1,250 of cash expenditures. of cash expenditures.

Coney Island & Brooklyn RR.—Bonds Authorized.—The Public Service Commission on March 9 authorized the issue of \$151,000 consolidated mortgage 4% bonds on account of betterments and improvements.

This amount takes the place of the \$107,000 bonds authorized in October last, the amount having been increased after further hearing. The bonds are to be sold at not less than 80, the order providing for the amortization of the discount and expenses in connection with the sale of the bonds out of the company's income before Jan. 1 1955.—V. 89, p. 1068,.

Delaware & Eastern RR.—Receivers' Certificates—Loss from Operation.—Judge Hough in the U.S. Circuit Court has authorized the sale, at par less  $2\frac{1}{2}\%$  commission, of \$30,000 6% receivers' certificates, having a first lien on the property of the Delaware & Eastern Ry. Co. and the Delaware & Eastern RR. ahead of all existing mortgages and liens except taxes and assessments. The receivers sav:

The railroad has heretofore been operated at a loss of \$25,000 a year and the interest on the bonds has not been paid. Since the receivers took hold they have made changes which have reduced expenses by about \$23,000 a year, \$18,000 in the engineering and construction forces and \$4,900 in the reduction of salaries and rents. Compare V. 90, p. 626.

Delaware Lackawanna & Western RR.-Favorable Decision .- See Rahway Valley RR. below .- V. 90, p. 557, 559, 54.

Denver & Inter-Mountain Ry.—Reorganization.—Presidentiand General Counsel James E. Gaule announces by

r* \$1,000 & mul. Trustee, Guarantee Trust Co. of N. Y.
Abstract of letter from W. C. Brown, President Lake Shore & Mich. So, Ry., New York, March 1 1910.
The Jamestown Franklin & Clearfield RR. forms a direct connection between the Pennsylvania Division of the New York Central & Hudson River RR. and the Lake Shore & Michigan Southern Ry., establishing a new outlet to the Great Lakes and the West for the large coal tonnage mined in the Clearfield District of Pennsylvania. It also affords an ad-ditional very favorable route from the west to New York and Philadelphia, and the large manufacturing district in Eastern Pennsylvania and New Jersey. [The road owned aggregates 124 miles, including 25 miles of branches. The main line extends from a point near Jamestown, Pa., on the Lake Shore & Mich. So. Ry. and the Pennsylvania RR. to Brookville, Pa., 99 miles, whence 54 miles of trackage, over the Penn. RR. and the Buff. Roch. & Pitts., affords access to the New York Central system at Clearfield, Pa. Ed.]
The railroad has been leased for the term of its corporate existence to

Buff. Roch. & Pitts., affords access to the New York Central system at Clearfield, Pa. Ed.] The railroad has been leased for the term of its corporate existence to the Lake Shore & Michigan Southern Ry. Co., which is obligated to furnish all necessary rolling stock. The road is of first-class, modern, single track construction, with favorable grades. The mortgage is a first lien upon all property and franchses now or hereafter owned. The \$11,000,000 of bonds now offered are guaranteed as to both prin. and int. by the L. S. & M. S endorsement upon each bond. Both prin. and int. are payable without deduction for any tax. The residue of these bonds, \$14,000,000, may be issued from time to time as required for additions, improvements, exten-sions, or other corporate needs. The company's financial operations are included in the operation of the Lake Shore & Mich. So. Ry. Co.

The advertisement appears for record on another page.-V. 90, p. 167.

Janesville (Wis.) Street Ry.-Receiver.-Judge Grimm in the Circuit Court on March 8, on application of the Finance Co. of Pennsylvania, trustee of the mortgage of 1892, securing \$75,000 6% bonds, appointed W. H Lemons and William Murphy, the latter General Manager, as receivers.

Kanawha & Michigan Ry.-Listed.-The New York Stock Exchange has admitted to the regular list J. P. Morgan & Co.

trust receipts for \$3,708,100 common stock, deposited under the plan and conditional agreement of consolidation, formerly quoted in the unlisted department.-V. 90, p. 54

Kansas City Terminal Ry.—Over-subscribed.—The sub-scription books for the \$12,500,000 4% bonds were opened and closed at 10 a.m. March 8, the total subscriptions being over \$40,000,000. Compare V. 90, p. 627.

Keokuk & Des Moines Ry.-Dividend Increased.-This company, the majority of whose capital stock is owned by the Chicago Rock Island & Pacific Ry., has declared a dividend of  $2\frac{1}{2}\%$  on the \$1,524,600 of preferred stock, payable April 1 to holders of record March 25. The last payment (1%) was made May 1 1909. Payments have been: '95. '96-'98. '99. '00. '01. '02. '03. '04. '05-'07. '08. '09. Apr. 1 '10. 90c. None  $\frac{1}{2}$   $\frac{1}{2}$  1 1 2 1 $\frac{1}{2}$  None 1 $\frac{1}{4}$  1 2 $\frac{1}{2}$ -V. 88, p. 944.

Kootenay Railway & Navigation Co.-Debenture Stock Called.—The 5% debenture stock guaranteed by the Great Northern Ry. Co. will be redeemed at Baring Bros. & Co. in London on 1st June next at 110%. There is £480,000 of this debenture stock, of which £219,717 was acquired in 1900 by the Great Northern Ry. (V. 73, p. 903). Com-pare V. 71, p. 342; V. 69, p. 80.

Johnstown (Pa.) Traction Co.—Incorporated.—This company was incorporated at Harrisburg on Feb. 24 with \$500,000 capital stock, in \$100 shares, with a view to taking a lease of the Johnstown Pass. Ry. from the American Railways Co. of Philadelphia.

Directors: E. M. Du Pont, G. Nelson Smith, Ferndale, Pa.; S. E. Young, Jos. McAneny (Treasurer), Percy Allen Rose, Johnstown, Pa.

Lake Shore Electric Ry., Cleveland.-Adjustment of Pref. Stock .- Pres. E. W. Moore, in circular dated March 1, says:

Lake Shore Electric Ky., Gleveland.—Adjustment of 1ref.
Stock.—Pres. E. W. Moore, in circular dated March 1, says: The company has outstanding two issues of pref. stock, known as the "old preferred" and the "new preferred," each \$1,500,000 5% cumulative. A large amount of unpaid dividends has accumulated on each issue and is nereasing annually. The difference between the accumulated dividends upon the "old pref." and the "new pref." amounts to 7.083%, or about \$107,000. At the last annual meeting it was unanimously agreed to amend the charter and transform the present preferred stock into (a) \$1,000,000 6% cum. ist pref. stock and (b) \$2,000,000 5% non-cum. 2d pref. stock. The cumulative first pref. stock will be entitled to 6% per annum, payable quarterly, said dividends to accumulate from and after July 1 1910. To adjust the difference in accumulated dividends between the two classes, the holders of the "old pref." stock will receive at their option either a dividend of 7%, payable one-third in new 6% first pref. stock and two-thirds in the new 5% 2d pref. stock, or a payment of 3 ½% in cash. Holders of all the pref. shares are asked to deposit their stock with the Citizens Savings & Trust Co., Cleveland, for exchange in the proportion of one share of new 6% cum. 1st pref. stock and two shares of 5% non-cum. 2d pref. stock for each three shares of pref. stock, new or old, the holders of "old pref." stock to receive also a dividend, as above set forth, in settle-ment of the difference in the accumulated dividend. For example, a holder of 90 shares of "new pref." stock will get 30 shares of new 6% cum. 1st pref. stock and 4.2 shares of new 2d pref. stock, or, at his option, the sum of \$315 in cash.
Underwriters will buy from holders of fractionai warrants fractional shares on the basis of \$95 per full share for the 6% cum. 1st pref. stock to be issued, and upon the basis of \$25 per full share for the 5% non-cum. 2d pref. stock. The directors will not declare the plan operative unless

Lehigh Valley RR.—Increase of Wages.—The following increases of wages have been made:

Passenger engineers running between Jersey City and Easton will receive an increase of 60 cents a trip, making the rate for the trip \$5 60 instead of \$5. Engineers running between Easton and Sayre will receive an advance of \$1, making the amount for the trip \$15, instead of \$14. Men on pusher engines will receive \$3 75 per 10-hour day, instead of \$3 50 for a 12 ½-hour day. Conductors have also received a new schedule, combining better pay with a 10-hour day.—V. 90, p. 559, 236.

Little Rock Railway & Electric Co.—Extra Dividend.—An extra dividend of  $1\frac{1}{2}\%$  on the \$1,500,000 common stock, it is stated, was paid on March 1. Regular dividends are paid in June and December,  $1\frac{1}{2}\%$  extra having been also paid in June 1909. Compare V 88, p. 1620.

Long Island RR.-Improvements.-An authorized statement says:

The company intends to spend more than \$3,000,000 in the next few months improving its passenger facilities at its Jamaica terminal, eliminat-ing grade-crossings and in constructing a modern eight-story office building. Jamaica will be the western terminus for steam train service of the Long Island system and all service from that point to Manhattan, through Pennsylvania tunnels, Long Island City and Flatbush Avenue, Brooklyn, will be by electric power. The passenger trains at Jamaica will run into a modern station on an elevated structure.—V. 89, p. 1483, 1411.

Mohawk Valley Co.-Controlled Company.-See Rochester Ry. & Light Co. under "Industrials" below.-V. 87, p. 544.

Nashville (Tenn.) Railway & Light Co.—Quarterly Divi-dends.—Dividends on the \$4,000,000 common stock, begun last July with a 1% distribution, followed by a second 1% last January, have been continued at the same annual rate (2%) but changed to a quarterly basis with the declaration of  $\frac{1}{2}$  of 1% payable April 1.—V. 90, p. 503.

National Railways of Mexico.—Freight Traffic Pooled.— The pooling arrangement between the company and the Mexican Ry., which heretofore has covered only passenger business, has been extended to the freight department. The traffic office of the Mexican Ry. will be consolidated with that of the National Railways.—V. 89, p. 1661, 1601.

New York Central & Hudson River RR.-Stock Again on 6% Dividend Basis .- The directors on Wednesday declared a quarterly dividend of  $1\frac{1}{2}\%$  on the \$223,290,000 capital stock, payable April 15 to holders of record March 25, comparing with  $1\frac{1}{4}\%$  quarterly previously paid since April 1908. During 1907 and Jan. 1908 distributions were made at the present rate of 6%.

DIVIDENDS. ) '94. '95. '96-'98. '99. '00 to '06. '07. '08. '09. 1910. Since 1893_% 5 4 1/4 4 yearly. 4 5 yearly. 6 5 1/4 5 Jan., 1 1/4 New Electric Service.—Electric service will be begun on Monday on the Harlem Division as far as North White Plains. The Harlem River Division has been operated by electricity for some time between New York and Yonkers. See report on a subsequent page.-V. 90, p. 627, 560.

New York New Haven & Hartford RR.-Bonds Paid.-The \$200,000 Shore Line first mortgage 30-year 41/2% bonds

The bonds were the only debt on the main stem of the road from New Haven to Springfield and from New Haven to New London.—V. 90, p. 560, 503.

Dividend on Rhode Island Co. Stock .- See that company below.—V. 90, p. 560, 503.

New York & Pennsylvania Ry.—Out of Receiver's Hands.— Vice-Chancellor Emery of New Jersey has taken the property out of the hands of the receiver and, it is stated, has restored it to the company. An extension of about 1 mile to the heart of Morristown is stated to be proposed.—V. 79, p. 501.

New York State Rys.-\$4,500,000 2d Pref. Stock Pledged. -See Rochester Ry. & Light Co. under"Industrials" below. -V. 88, p. 1500.

Noriolk & Southern Ry.—Foreclosure Sale Approved.— The United States Circuit Court of Appeals at Richmond yesterday affirmed the sale of the road on December 7 to the reorg. committee for \$8,500,000. Compare V. 89, p. 1542. The Court of Appeals, in addition to confirming the decision of Judge Waddill, ruled very strongly in favor of the reorganization committee on other matters, greatly strengthening its position. The relations of Ed-ward Sweet & Co. to the financing of the company and other points criti-cised by Fergus Reid in his efforts to block the sale are justified by the Court.

Sale of Bonds.—It is reported that the reorganization will be put through at once and \$5,780,000 first mortgage 5% bonds to be disposed of to furnish the cash requirements of the plan (V. 87, p. 614, 678) will probably be sold to N. W. Harris & Co. and Redmond & Co. E. T. Lamb general manager for the receivers, it is reported, will be the President of the reorganized company.-V. 90, p. 110.

Norfolk & Western Ry.-New Convertible Bonds.-At a meeting of the board of directors held March 10 1910 it was decided to offer to the preferred and common stockholders the privilege of subscribing at par for the (\$10,679,000) 4% convertible bonds of the company, to the extent of 12% of their present holdings. Warrants will be issued to the stock-holders in due course. Total authorized issue, \$34,000,000; outstanding, \$14,576,000.-V. 90, p. 303, 237.

North Coast Ry.—Amendments Filed.—The company on March 2 filed amended articles of incorporation in Washington stating its purpose to build and operate the following lines:

Manhattan Bridge (N. Y.) Three-Cent Fare Line.—Franchise Approved.—The Board of Estimate on March 4 voted to grant a franchise to the company.

The company obligates itself to carry passengers from the Flatbush Ave-nue terminal of the Long Island RR.Co., Brooklyn, across Manhattan Bridge and through Canal Street to the Hudson River for a 3-cent fare. The franchise provides that if at any time the company should consolidate with any other company, passengers will be allowed to travel over the lines of such merged properies at a total not to exceed 5 cents for a through ride. Frederick W. Rowe is President and the directors include Andrew D. Baird, John C. Brackenridge, Almet R. Latson, Thomas S. Peters, William F. Neu and Frederick W. Wurster.

Mexico North Western Ry.-Listed.-The Toronto Stock Exchange has listed the \$15,000,000 of outstanding capital stock.-V. 89, p. 1542.

Minneapolis St. Paul & Sault Ste. Marie Ry.—Acquisition. -The company, it is stated, has purchased from the Cuyuna Iron Range Co. of Duluth the line in northern Minnesota, almost completed between Lawler, Minn., and Cuyuna, 36 miles. The price paid, it is reported, was \$500,000.

Minor parts of the road are unfinished, although the line was laid and practically completed last fall. It connects with the Plummer-to-Moose Lake line of the Soo road, and is expected to be a contributor of ore tonnage of large proportions when the range is developed. Ore originating on the Cuyuna Range road will move to Moose Lake, thence over the Soo road to the docks at Superior, Wis.—V. 90, p. 503.

Missouri Pacific Ry.—New Director.—Cornelius Vanderbilt has been elected a director to succeed H. B. Henson.-V. 90. p. 560, 372.

From Seattle to Spokane, 350 miles, through the countles of King, Pierce, Lewis, Yakima, Benton, Franklin, Adams, Whitman and Spokane; a branch from the line in either Benton or Franklin Co., 75 miles to Walla Walla; branches from points on the line in Adams Co. respectively to Eureka Junction, Davenport and Wilson Creek and from Spokane south-content to Tekena and thence to Lewiston Idaho easterly to Tekoa, and thence to Lewiston, Idaho.

The capital stock, it is stated, still remains \$500,000 and no bond issue so far as known has been authorized. -V. 89, p. 994.

Northern Pacific Ry.—Favorable Decision on Through Joint Rates.—See "Financial Situation" on a previous page. -V. 89, p. 1348.

North Shore Electric Co., Evanston, Ill.-Acquisition.-The plants of the Illinois Lakes Light & Power Co., doing business in the villages of Dundee, Barrington, Crystal Lake, McHenry and Antioch, in Kane, McHenry and Lake counties, have been acquired, adding some 700 square miles to the territory served by the North Shore, which now aggregates, it is said, about 1,240 square miles.

The Illinois Lakes Lt. & P. Co. in 1909 made a mortgage to the Central Tr. Co. of Ill., as trustee, to secure \$400,000 20-year 5% bonds (V.90,p.376). It is proposed to close the old plants of the Illinois Lakes Co. as soon as possible and to supply the region from the nearest North Shore Co. gen-erating stations.—V. 89, p. 1486, 1481.

Ohio Electric Ry.—New Mortgage.—The company has filed a mortgage with the Fidelity Trust Co. of Phila., Pa., to secure \$15,000,000 20-year 5% bonds.-V. 87, p. 38.

### THE CHRONICLE

#### MAR. 12 1910.]

Peoria & Eastern Ry.-Report.-For year ending Dec. 31: Cal. Operating Net(after Other Fixed Improve- 4% on Bal., Sur. Year. Revenues. Taxes). Income. Charges. ments. Inc. Pittsburgh Youngstown & Ashtabula Ry.-Dividends to be Quarterly.—The directors having declared the usual semi-annual dividends of  $3\frac{1}{2}\%$  each on both stocks, payable March 25, have decided that hereafter dividends shall be paid quarterly on the 25th days of March, June, September and December.-V. 88, p. 1314.

Public Service Corporation of New Jersey.-Bonds Offered. -J. P. Morgan & Co., New York, and Drexel & Co., Philadelphia, are offering at 97 and interest, by advertisement on another page, the unsold portion (less than \$1,000,000) of their block of \$8,000,000 general mortgage 5% sinking fund 50-year gold bonds, dated Oct. 1 1909, due Oct. 1 1959, but callable when drawn for the sinking fund on or after Oct. 1 1913 at 105 and interest, and redeemable at option of company on Oct. 1 1919 or any interest date thereafter at 105 and interest. Outstanding, \$13,500,000; authorized, \$50,-000,000. Par \$1,000 (c*). Interest A. & O. Fidelity Trust Co. of Newark, N. J., trustee. Application will be made to list these bonds on the New York Stock Exchange. A double-page map of the system, together with full descriptions of the several properties controlled, will be found on pages 64, 65, 68, 69 and 70 of our "Electric Railway Section."

pages 64, 65, 68, 69 and 70 of our "Electric Railway Section." Abstract of Letter from Pres. Thomas N. McCarter. Newark, Feb. 21 1910. The company operates—either directly or through subsidiaries—all the gas, electric and street railway business throughout the larger cities and more populous districts of the State, excepting the shore resorts, the gas business of the City of Elizabeth, and the street railway business in the city of Trenton; it serves a population of 1,500,000 in the railway branch of its business, 1,600,000 in its gas branch and 1,700,000 in its electric branch. The total authorized capital stock of the Corporation is \$25,000,-000, all of which has been issued for cash at par. The Corporation operates under lease all its electric properties. It owns every share of stock, except directors' shares, of "Public Service Gas. Co.," which operates, under lease, all the gas properties. The Corporation also owns 98.67% of the \$38,000,000 stock of the "Public Service Ry. Co.," which operates, either directly or under lease, all the street railway system controlled by the Corporation. Gross Earnings of the System Controlled by the Corporation.

Gross Earnings of the System Controlled by the Corporation. 1905. 1906. 1907. 1908. 1909. 9,909,842 \$21,498,826 \$23,628,044 \$24,267,687 \$26,560, \$26,560,451 \$19,909,842 Operations of the System for the Calendar Year 1909. Application of Above Mentioned Statement of Statement Application of Above-Mentioned Statement of Earnings to Present Status \$1,523,140 Surplus --------

[* The authorized issue of "perpetual interest-bearing certificates" is \$20,200,000; amount now outstanding, \$19,852,255; their annual interest rate, which was 4% for the interest payments due Nov. 1 1908 and May 1 1909, will be 4 ½% Nov. 1 1909 and May 1 1910; 5% Nov. 1910 and May 1911; 5 ½% Nov. 1911 and May 1912; and 6% thereafter.—Ed.]

1911; 5½% Nov. 1911 and May 1912; and 6% thereafter.—Ed.]
The growth of the State of New Jersey and of the business of the Corporation has been large and steady, and bids fair to so continue. It is expected that the development of the tunnel system under the Hudson River, and the opening of the new Pennsylvania station in New York, together with the improvement of other transportation facilities now under way, will cause a large influx of population into Northern New Jersey in the next few years, all of which will be tributary to this Corporation. [A full description of the bonds was given in V. 89, p. 1349. The collateral for the issue is a stated in V. 89, p. 1349, p. 1349. The collateration for the issue is a stated in V. 89, p. 1349, except that there are now pledged \$721,570 instead of \$712,495 Public Serv. Corp. perpetual nterest-bearing certs.; also \$4,498,900 out of \$43,960,000; also \$39,050 out of \$41,050 pref. stock and \$69,450 out of \$70,000 common of Weehawken Contracting Co.—Ed.]—V. 90, p. 111.
Rahway Valley RR.—Decision.—The United States

**Rahway Valley RR.**—Decision.—The United States Supreme Court on March 5 held invalid the order of the Inter-State Commerce Commission granting the company a switch connection at Summit, N. J. with the Delaware

pany has completed arrangements for retiring its \$7,500,000 5% notes maturing Jan. 1 1911, which are to be called for redemption on July 1 1910, with a view to consolidating the underlying properties-the Colorado Southern New Orleans & Pacific RR., the Beaumont Sour Lake & Western Ry. and the Orange & Northwestern RR.—with the St. Louis & Brownsville Ry., recently purchased—into the New Orleans Texas & Mexico Division.

The company will then create a new bond issue, to be known as "St. Louis & San Francisco, New Orleans Texas & Mexico Division," 1st M. 5% gold bonds, due March 1 1940. The total authorized issue of these bonds will be \$50,000,000, but of this amount \$24,000,000 will be reserved for future requirements under restrictions in the mortgage. The bonds will be secured either by a direct first mortgage upon the properties now owned by the above-mentioned companies or by a first lien upon all the first mortgage bonds and stocks thereof, Speyer & Co. having agreed to release all the New Orleans properties from the lien of the general lien 15-20-year 5% mortgage, as permitted by the terms of that indenture

(V. 89, p. 54). The \$8,000,000 general lien bonds which were reserved for refunding the \$7,500,000 (New Orleans collateral) notes can now only be issued after July 1 1918, and then only for additions, improvements and betterments upon the property, subject to the general lien mortgage, at a rate not to exceed \$3,000,000 per annum.

Of the new bonds, \$26,000,000 are to be issued presently to pay off the existing liens and indebtedness of the Colorado Southern New Orleans & Pacific RR., the Beaumont Sour Lake & Western Ry. and the Orange & Northwestern RR., and for the recent acquisition of the St. Louis Brownsville & Mexico Ry.

Mexico Ky. The New Orleans Texas & Mexico division will aggregate 959.22 miles, including trackage, running from New Orleans, La., to Brownsville, Tex., and on this mileage the new bonds will be a first mortgage. A bridge is now being built at Brownsville jointly with the National Railways of Mexico, across the Rio Grande River into Mexico, connecting with the National Railways system, and advantageous arrangements have been made for interchange of traffic, thus giving the 'Frisco lines a largely increased ton-nage, via what will then be the shortest route from New Orleans to the City of Mexico. This new mortgage provides a simple mode for financing the Brownsville

of Mexico. This new mortgage provides a simple mode for financing the Brownsville line recently purchased, and also the New Orleans line, which so far has been carried separately on short-term obligations. A plan for the re-arrangement of the capital stock of the company will probably also be presented to the stockholders in the near future, providing for the retirement of the \$5,000,000 first 4% pref. and \$16,000,000 2nd 4% pref. stock into a new issue of 7% pref. stock, part of which may in the future become available to finance some of the future needs of the company. Scale of Mexico.

Sale of Notes.—Speyer & Co., N. Y., have sold the entire issue of \$8,000,000 "three-year 5% secured gold notes", offered by them on March 14 at 97¼ and interest to delivery April 1 1910, yielding 6% income. These notes are dated March 1, 1910 and due March 1 1913, but callable at par and interest on 30 days' notice. They are issued to take up the \$7,500,000 notes called for payment July 1 1910 and for other corporate purposes. Par \$1,000c. Prin. and int. (M.& S.) payable in N. Y. in U. S. gold and in London at \$4 86 per £. The notes will be secured by deposit with the Union Trust Co. of N. Y. as trustee of \$10,000,000 New Orleans Texas & Mexico Division 1st M. 5% gold bonds, due March 1 1940. See above.

New Director .- Hans Winterfeldt, of Speyer & Co., has been elected a director, to succeed R. A. Jackson, who has been made General Counsel of the Great Northern Ry. at St. Paul.-V. 90, p. 560, 168.

Scranton (Pa.) Electric Co.-Bonds Offered.-N. W. Harris & Co., New York and Boston, are offering for sale a block of "first and refunding mortgage 5% gold bonds" dated July 1 1907 (compare V. 89, p. 48), at a price to yield about 5%. The firm reports the outstanding capitalization as follows:

#### Capitalization.

Pref. stock, 6% cum. red. at 120 and accrued dividend; outstanding \$750,000 Common stock outstanding 2,500,000 First and refund. mtge, 5% gold bonds outstanding 2,500,000 First and refund. mtge, 5% gold bonds outstanding 2,317,000 Reserved to retire bonds of constituent companies 24,000 Total bonds outstanding, \$2,341,000. See earnings, V. 90, p. 563.

Seaboard Air Line Ry .- A large proportion of the adjustment bonds issued under the plan of July 1 1909 (V. 89, p. 43) has been sold privately to investors both here and abroad by the syndicate which underwrote the issue, and application will shortly be made to list the bonds on the New York Stock Exchange. The future development of the property is provided for by the issue of refunding 4% bonds (limited to \$125,000,000), and it is expected that a public offering of these bonds will be made in due course.-V. 90, p. 504, 448.

Lackawanna & Western RR. (V. 87, p. 227.)

The court holds that a connection with a lateral branch road can only be ordered at the request of shippers on a showing that the same is necessary for business requirements of the public.—V. 88, p. 625.

Reading Co .- Listed .- The New York Stock Exchange has listed \$2,506,000 additional general mortgage 4% bonds due 1997, making the total listed to date \$75,702,000.

Rhode Island Co.-First Dividend.-The company paid from the earnings of the year ending June 30 1909 an initial dividend of 5% on the \$8,510,400 stock, calling for \$425,520.

The stock is all owned by the Providence Securities Co., whose stock in turn is owned by the New York New Haven & Hartford RR. Capital stock June 30 1909, \$8,510,400, compared with \$7,780,400 on June 30 1908; funded debt, \$414,000; floating debt, \$2,802,011, against \$2,067,776.-V. 89, p. 43.

Rock Island Arkansas & Louisiana RR.-Over-Subscribed. Speyer & Co. closed the subscription list to the \$11,000,000 1st M. 41/2s promptly at 10a. m. on March 7, the bonds having been largely over-subscribed here and in Europe. In the allotments the small investor was especially favored. Compare V. 90, p. 628.

St. Louis & San Francisco RR.-Consolidation of Controlled Companies-New First Mortgage Bonds-New 7% Preferred Stock Partly to Retire Present Preferred Stocks .-- The com-

Southern Indiana Ry.-New Officers and Directors.-The following changes in officers and directors of the company, the Chicago Southern and Illinois Southern are announced as the result of the passing of control to the Chicago associated banks:

E. K. Boisot becomes President of the Southern Indiana (also of the Bed-ford Belt RR.), John W. Walsh and Richard W. Walsh, sons of John R. Walsh, retiring as Presidents of the Southern Indiana and Chicago South-ern. F. O. Wetmore has been elected Treasurer and E. M. Tourtelot Sec'y. New Southern Indiana directors: E. K. Boisot, F. O. Wetmore, E. M. Tourtelot, J. C. Hutchins and O. A. Bestel. The same men have been elected directors of the Chicago Southern, with the addition of Myron J. Carpenter and of the Illinois Southern, with the addition of Moritz Rosenthal and Samuel Insull.

Plans for the reorganization and consolidation of the company and the Chicago Southern are reported to be rapidly maturing.-V. 90, p. 237, 111.

Southern Pacific Co.-46% of Stock Now Owned by Union Pacific RR.-See that company below.-V. 90, p. 448, 373.

Southern Ry .- Syndicate Dissolved .- The syndicate consisting of J. P. Morgan & Co., the National City Bank and

the First National Bank, which last year underwrote about \$41,000,000 development and general mortgage 4% bonds (V. 88, p. 565, 625, 1003, 1129), to retire \$31,000,000 of ma-turing notes, has been dissolved, a "large percentage" of the bonds having, it is said, been distributed to the participants.

Listed.—The New York Stock Exchange has this week listed \$4,933,000 additional first consolidated mortgage 5% bonds, due 1994, making total listed to date \$57,643,000.

Of the bonds, \$4,932,000 were issued in exchange for a like amount of underlying bonds, including \$500,000 Atlanta & Charlotte Air Line Ry. first preference 4½% and income 4½% bonds, due Jan. 1 1910 and ex-tended to Jan. 1 1920, which have been deposited with the trustee of the first consolidated mortgage.—V. 90, p. 304, 237. Stark Electric RR., Alliance, O.—Stock Dividend.—The

stockholders on Thursday voted to increase the capital stock from \$1,000,000 to \$1,500,000 and to declare a stock dividend

The stock dividend will be paid April 1. Books close March 15 and reopen April 2. The regular quarterly dividend of 34 of 1% was declared on the old stock, also payable April 1. Compare V. 90, p. 448.

Union Pacific RR.—46% of Southern Pacific Co. Stock Owned.—Otto H. Kahn, of Kuhn, Loeb & Co., on March 7, at the hearing in the Government suit to dissolve the alleged Union Pacific-Southern Pacific merger before Referee Sylvester G. Williams in the Custom House Building, New York, testified, it is reported, as follows:

testified, it is reported, as follows: Early in January of this year the Union Pacific RR. Co. purchased 74,000 shares of Southern Pacific stock for the following reasons: A bill was intro-duced into Congress which would give to those railroads holding 50% of the securities of the stock of another road the right to retain that 50% and to purchase the balance. A railroad owning less than 50% had no such assur-ance. Ex-Judge Lovett advised that the holdings of the Union Pacific and the Oregon Short Line in the Southern Pacific be increased to 50% of the entire capital stock. A few weeks after President Lovett advised us that this provision would be stricken out of the bill, and accordingly our purchases of Southern Pacific stock were immediately stopped and no more stock was acquired. Last summer, on advice of Mr. Harriman, who at that time saw no necessity of holding an especially large amount of Southern Pacific stock, we ordered the sale of 50,000 shares of the common, so that, deduct-ing this 50,000 from the 74,000 shares purchased in January, the total hold-ings of Union Pacific or the Oregon Short Line in Southern Pacific stock had been increased by 24,000 shares, which gives a total holding of 46% (1,266,100 shares) of the outstanding stock of the Southern Pacific Co. The "Railroad Gazette" of March 11 says:

The "Railroad Gazette" of March 11 says:

THE RAHFOAD GAZETTE'' of March 11 says: Statements submitted by Mr. Mahl showed that the Union Pacific holds \$23,700,000 of the stock of the Illinois Central RR. and 99.93% of the stock of the Railroad Securities Co. stock, which in turn owns \$9,200,000 of Illinois Central stock, making the Illinois Central stock controlled by the Union Pacific \$32,900,000. The holdings of Chicago & North Wesetrn held in the name of the Oregon Short Line, he testified, has increased since 1901 from \$2,572,000 to \$4,750,000, and the New York Central holdings, also in the name of the Oregon Short Line, from \$14,285,745 to \$17,857,125. There has been no change in the stock ownership by the Union Pacific in the Chicago & Alton or the Baltimore & Ohio.—V. 90, p. 448, 304.

Waterloo Cedar Falls & Northern Ry. Co.—Bonds Called. -The \$755,000 5% first mortgage gold bonds of the Waterloo & Cedar Falls Rapid Transit Co. issued under its name, or under its present corporate name, Waterloo Cedar Falls & Northern Ry., dated Oct. 1, 1902, have been called for pay-ment at 103 and int. on April 1 at the place of payment named in such bonds.—V. 87, p. 1665.

Western Maryland Ry.-Sale of Treasury Stock.-Negotiations, it was reported this week, were pending for the underwriting, at \$50 per share, of the \$26,040,440 com. stock in the treasury, by a syndicate formed for the purpose by Blair & Co. and the Equitable Trust Co. of New York. The proceeds will be used towards the construction of the line from Cumberland, Md., to Connellsville, at a connection with the N. Y. Central system (V. 90, p. 238).—V. 90, p. 628, 561.

Wichita Falls & Northwestern Ry.—Bonds Offered.—Allerton, Greene & King and the National City Bank, both of Chicago, and the Marshall & Ilsley Bank and the Wisconsin Trust Co., both of Milwaukee, are offering at 97 and interest, yielding 5.30% income, the unsold portion of \$900,000 "Pan Handle Division" first lien collateral trust 5% gold bonds, dated Jan. 1 1910 and due Jan. 1 1925, but callable at 105 and int. on any interest date. Int. J. & J. in Chicago or N. Y. Par \$1,000 (c). Authorized issue, \$900,000, at \$15,000 a mile of main line. Sinking fund, 1% of bonds out-standing. First Trust & Savings Bank, Chicago, trustee.

having a population of about 2,000, and two banks with deposits of about \$175,000 are 30 to 35 miles from the nearest railroad. This division in the first year will earn largely in excess of the interest charges, and the earnings will increase each year. With the Pan Handle division in opera-tion, I believe the net earnings for our property for the cal. year 1910 will be \$500,000, or three times the annual interest charges on the total bonded debt. The net earnings for the six months ending Dec. 31 1909 were \$205,-600, or \$45,000 more than the yearly interest charge on all the bonded debt of the road, including the Pan Handle division bonds. The road serves a rich agricultural country of large area without compe-tition, thus originating a large and profitable tonnage; its position entitles us to Inter-State rates, and our connection with the Rock Island at Elk City and Mangum, Okla.; the St. L. & San Fr. at Altus and Frederick, Okla.; the Orient also at Altus, Okla.; the Burlington system at Wichita Falls, and the M. K. & T. at Henrietta, Tex., the last two connecting with the Gulf of Mexico, enable us either to originate or become an intermediate line on a large and profitable tonnage seeking an outlet to the Gulf.— V. 90, p. 561, 448.

#### INDUSTRIAL, GAS AND MISCELLANEOUS.

Alliance Realty Co., New York.—Extra Dividend.—This company, \$403,300 of whose \$2,000,000 capital stock is owned by the United States Realty & Improv't Co., paid a quarterly div. of 2% and an extra div. of ½ of 1% on Jan. 15 to stockholders of **rec**ord Jan. 10. Compare V. 89, p. 920.

Amalgamated Copper Co.-Listed.-The New York Stock Exchange has admitted to the regular list \$153,887,900 stock formerly quoted in the unlisted department, with authority to add from time to time \$1,112,100 additional on notice of issuance, in exchange for outstanding stocks of Boston & Montana Consolidated Copper and Silver Mining Co., making the total to be listed \$155,000,000.

Earnings, &c.—See "Annual Reports" in this issue. -V. 90, p. 628, 304.

American Locomotive Co.—Charge of Officers.—C. P. Denny, Treasurer, has been elected Secretary to succeed S. T. Callaway, and J. O. Hobby Jr., Assistant Treasurer, was chosen Assistant Secretary and Treasurer.

New Director.-Lewis L. Clarke has been elected a director to succeed his father, the late Dumont Clarke.-V.89, p.1143.

American Lumber Co., Cleveland and New Mexico.-Bonds Offered.—Otis & Hough, Cleveland, have recently been placing at abt. 101 and int. \$425,000 first mortgage 6% serial gold bonds; total amount authorized and issued, \$650,000, dated Sept. 1 1909 and due in annual installments of \$50,000 on Jan. 1 1911 to 1920 and \$75,000 yearly 1921 and 1922; but callable on any interest day at 103 and int. Denominations \$500 and \$1,000 (c*). Principal and interest (J. & J.) payable at Detroit Trust Co., trustee. Sinking fund \$2 per 1,000 feet of lumber. A circular says in brief:

fund \$2 per 1,000 feet of lumber. A circular says in brief: A New Jersey corporation [incorporated Dec. 20 1901.—Ed.] Capitali-zation: Stock auth. and issued, \$8,000,000; bonds auth. and issued, \$650,000, a first lien on all property now owned or hereafter acquired. The property, owned in fee, consists of over 288,783 acres of land, tim-bered with white pine, situated in the counties of McKinley and Valencia, N. M., and 115 acres of real estate near Albuquerque, N. M.; also 30 miles of standard-gauge railroad, with ample cars and motive power. Estimated timber on the property is 1,400,000,000 feet of merchantable pine. At Albuquerque the company has one of the finest lumber manu-facturing plants in the country, including a saw-mill of 50,000,000 feet per annum capacity, a lath and bi-products mill, a box factory and door fac-tory; and it carries on hand about 20,000,000 feet of lumber of all grades. The land owned is equivalent to about 13 townships and is said to be the largest private holding of white pine in the United States. Upwards of \$800,000 of insurance is carried on the mills and manufactured products. In addition the company has contracted for approximately 500,000,000 feet (B. M.), and there is an equal or greater amount for which this company is the logical market. The timber in sight will afford material for operation for the next 35 to 50 years. Total resources Sept. 30 1909: Timber lands, real estate, construction and equipment. \$8,516,843; bills and accounts receivable, cash and prepaid accounts, \$166,276; inventory of lumber, material and supplies &c., \$394,206; total, \$9,077,325. The proceeds of this issue has canceled all other liabilities [including \$385,000 old bonds, also floating debt.—Ed] and the company will have ahout \$100,000 cash working capital in addition to accounts receivable and supplies. The company earned for the year ending Oct. 31 1909 \$100,492, or about

ahout \$100,000 cash working capital in addition to accounts receivable and supplies.
The company earned for the year ending Oct. 31 1909 \$100,492, or about 3½ times the bond interest.
The company enjoys a wide market for its products; Kansas, Missouri, Iowa, Colorado, Oklahoma and Texas are within easy shipping distance, and for its high grade of products it commands a large export trade, via Galveston. A large quantity of lumber is also sold in old Mexico and some on the Pacific Coast.
Officers: Dr. W. H. Sawyer, Hillsdale, Mich., Vice-Pres.; C. F. Wade, Albuquerque, N. M., Gen. Mgr.; Wm. M. Reynolds, Cleveland, O., Sec. Directors.—C. A. Black, J. M. Mulkey and George Peck, Detroit, Mich.; F. M. Stewart, Hillsdale, Mich.; A. F. Freeman and J. H. Wade, Ann Arbor, Mich.; C. H. Winchester, Elkhart, Ind.; C. A. Otis, H. D. Goulder and Frank Billings, Cleveland, O.; P. L. Webb, Warren, O.; Laurence DeGolyer and A. R. Fay, Chicago, Ill.; H. M. Picking, East Orange, N. J.; N. J. Haywood, New York City.

A circular says:

A circular says: In the opinion of counsel, the above bonds are an absolute first lien on all of the property and assets of the Pan Handle Division, which extends from Altus, Okla., to Wellington, Tex., approximately 60 miles, by the deposit with the trustee of all of the bonds and stocks issued by the companies, com-prising said division. They are further secured by a lien on the main line of the Wichita Falls & Northwestern Ry. Co., which runs from Henrietta, Tex., to Elk City, Okla., a distance of 153 miles, subject only to its out-standing issue of \$2,300,000 1st M. 5% bonds (closed mtge.) at \$15,000 a mile of main line, which do not mature until Jan. 1 1939. Including the Pan Handle division bonds, the bonded debt of the Wichita Falls & North-western is at the exceptionally low rate of \$15,250 a mile of main line. The Pan Handle division, now being completed, will reach Wellington, its terminus, about July 1 1910, and should be a very profitable part of the system, the land traversed being equally as fertile as that served by the main line. Bonds for construction can be taken down by the company only at \$15,000 a mile for every 10 miles of completed road. only at \$15,000 a mile for every 10 miles of completed road.

Earnings for the Calendar Year 1909.

Gross earnings\$483,152 Annual bond interest\$115,000
Net (after taxes)\$320,533 Surplus earnings\$205,533
Interest charge on Pan Handle division bonds (additional) \$45,000

ed for FRASER aser.stlouisfed.org

Listed in Cleveland.-The company's 800,000 shares of \$10 each, full paid, were listed in December last on the Cleveland Stock Exchange. A dividend of 2% on par was paid in 1906-07 and a dividend of 1/2 of 1% on Feb. 1 1910.

General Manager Wade recently wrote to shareholders:

General Manager Wade recently wrote to shareholders: Our directors, at their last meeting, declared a dividend on the par value of our capital stock of ½ of 1%. With the present market for our lumber products (which is sure to improve), the company will pay dividends for many years, providing we can get the logs to our mills in Albuquerque in sufficient quantity for maximum capacity. The A. T. & S. F. RR, hauls all of our logs from Thoreau (the terminus of our railroad) to the mills in Albuquerque, and is disposed to give us the best service at its command. Our indebtedness is now strictly limited to the bonds of \$650,000 and current liabilities, i. e., pay-rolls, freight claims, &c. The company has ample white pine stumpage to keep its mills and factories in full operation for 25 years. Our stock is worth \$7 to \$8 per share, based on timber values and on railroad and mill equipment, and to this should be added something for mineral and agricultural values. [The shares are "full paid," although originally placed at \$2 50.—Ed.]—V. 74, p. 989, 885, 96.

American Milling Co.—New Directors.—Following the recent sale of the stock of the Philadelphia syndicate (about 60,000 shares), at a price stated to be about \$2 a share, to Minneapolis and Chicago interests, the following changes in directors have been made:

H. W. Stone, F. L. Stone, H. G. Atwood and G. M. Charles take the places of C. M. Brown, Edward C. Lee, W. W. Gibbs and J. R. Beacon. E F. Dunn has also retired as a director.

Report.-There was a loss from operations last year of approximately \$50,000 (as against a profit of \$88,482 the

#### MAR. 12 1910.]

previous year), due, it is said, to a generally unprofitable year in the mixed feed business and to adverse legislation.

The offices will be moved from Philadelphia to Chicago and an application made shortly to transfer the stock from the unlisted to the listed department of the Philadelphia Stock Exchange.-V. 88, p. 627.

American Pneumatic Service Co., Boston.—Option to Subscribe.—All shareholders of record at 3 p. m. March 14 are offered the right to subscribe at par, \$50 a share, until 12 m. March 26, at the International Trust Co., Boston, for \$1,633,000 of the recently authorized issue of 33,000,0007%cum. 1st pref. stock, to the extent of one share for every ten shares of present holdings.

Subscriptions are payable \$10 a share down, \$10 April 26, \$10 May 26, \$10 June 25 and \$10 July 26, or optionally in full at any time. This stock will rank ahead of the existing \$6,328,850 6% non-cum. pref. stock and \$9,994,550 com. stock. Compare V. 90, p. 504. A syndicate headed by Hayden, Stone & Co. has underwritten the stock now offered.—V. 90, p. 504, 449.

American Rolling Mill Co., Middletown, O.-New Plant-New Capital Stock .- The "Iron Age" of Dec. 9 in an editorial article said in substance:

New Capital Stock.—Ine Tron Age of Dec. 9 in an editorial article said in substance:
A little less than 10 years ago the company's sheet mill was located on a plot of 20 acres in the extreme southern part of Middletown, O. Later on an additional six-mill sheet plant at Zanesville, O., was acquired to use the surplus steel of the Middletown open-hearth works. The success of the company's ingot iron has called for a great enlargement of operations and an additional stock issue (\$1,500,000 par, sold at 200, affording \$3,000,000; V. 89, p. 920.—Ed. "Chronicle.") will provide for a new plant, which will be located about a mile from the present plant and connected with it by private switches.
It is planned to have the new works in operation by the spring of 1911. The plans call for four 65-ton open-hearth furnaces; also 8 sheet mills. The present Middletown plant has four and the Zanesville plant six. A 40-in. blooming mill will be built and there will be a 24-in. bliet and sheet bar mill; two plate mills, 72-in. and 96-in. respectively; two 24-in. sheet and jobbing mills and eight finishing mills.
[The present capacity of the company is 50,000 tons per annum; the additions will increase this to 150,000 Jan. 1 1910, \$500,000 April 1 1910, \$750,000 July 1 1910, \$750,000 Jan. 1 1910, \$500,000 April 1 1910, \$750,000 July 1 1910, \$750,000 Oct. 1 1910 and \$750,000 Jan. 1 1911. The common stock is now quoted at \$320 per share.
The present capacity on the \$3,700,000 common shas been sold and is to be taken up, \$250,000 Jon, 1 1910, \$500,000 Jan. 1 1911.
The carnings, we are informed, are at present averaging about \$70,000 per month. The pref. dividend charge is \$45,900 and dividends at the existing rate (12%) on the \$3,700,000 common stock, when all issued, will require \$444,000 per year; total \$489,900, or \$40,800 monthy. It is expected with the increased capacity the company will be able to double if not triple the present earnings.]—V. 89, p. 920, 780.

American Sugar Refining Co.—Indictment Held Invalid.-Judge Holt in the U.S. Circuit Court in this city on Oct. 26 sustained the demurrers interposed by Gustav E. Kissel and Thomas B. Harned, who, with a number of directors and officers of the company, were in July last indicted for taking part in an alleged conspiracy in restraint of trade and commerce. An appeal is now pending in the U.S. Supreme Court.

American Woolen Co.—Guaranteed Notes Sold.—See Ayer Mills below.—V. 90, p. 636, 622.

Atlantic Ice & Coal Corporation, Atlanta, Ga.-Consolidation-Mortgage.-This company, incorporated in Virginia on Dec. 31 1909 with \$8,000,000 of authorized capital stock in \$100 shares, \$3,000,000 being preferred and \$5,000,000 common, has acquired local ice and coal yard properties in a number of Southern cities, including Atlanta, Macon, Augusta, Rome, Columbus and Athens, Ga., and Chattanooga, Tenn. A mortgage has been made and is being filed for record, having the Trust Co. of Georgia, Atlanta, as trustee, to secure not exceeding \$3,500,000 bonds, of which \$2,000,000, it is said, are to be issued on the plants acquired and \$1,500,000 will be reserved for improvements and further acquisitions. The directors (and officers) are:

President, Ernest Woodruff; Vice-Presidents, W. J. Rushton and W. E. Chapin, and Sec. and Treas., J. C. Gentry, all of Atlanta; T. K. Scott, Augusta, Ga.; H. L. Woodruff, Columbus, Ga.; F. O. Rettig, Chattanooga; Tenn.; Charles T. Walters, Richmond, Va.; J. S. Davis, Albany, Ga.: H. T. Inman, Frank Hawkins, J. Carroll Payne, Thomas S. Paine, Clifford L. Anderson, George C. Walters and J. B. Wheat, all of Atlanta.

Ayer Mills .- Notes Sold .- Brown Bros. & Co. have purchased \$2,000,000 construction and equipment  $4\frac{1}{2}$ cou pon notes, guaranteed, prin. and int., by the American Woolen Co., dated March 1 1910 and maturing \$500,000 March 1 1913, \$500,000 March 1 1914 and \$1,000,000 March 1 1915. The notes have all been re-sold. The 1913 maturities were offered at 98 and interest, to net  $5\frac{1}{2}\%$ ; the 1914 maturities at 96¹/₂, to net about  $5\frac{1}{2}\%$ , and the 1915 maturities at 95³/₄, to net about  $5\frac{1}{2}\%$ .—V. 88, p. 508.

Capel House, New Broad St., London, E. C., or at Bankers Trust Co., New York, either in English or American currency, as the case may be. [This is the English company which owns all of the \$1 000,000 stock (except founders' shares) of the Boston Consolidated Copper Co. Compare merger plan under Utah Copper Co. in V. 89, p. 1674.]—V. 87, p. 1607.

Bridgeport Brass Co.-Bonds Called.-Seventy-five first mortgage gold bonds dated June 1 1900 have been drawn for redemption on June 1 1910 at par and interest at the office of the New York Trust Co., New York.-V. 76, p. 974.

Bronx Gas & Electric Co., Westchester, N. Y.-Bonds.-After a re-hearing of the application for approval of an issue of \$1,500,000 bonds, whereof \$740,000 was to be used to retire existing bonds and obligations, the Public Service Commission, First District, on Jan. 14 1910 decided that no more than \$643,000 should be issuable at this time, and that of the \$580,000 now to be used in connection with the retirement of the \$500,000 existing first 5s, due Jan. 2 1951, if purchasable, no part shall be issued unless \$450,000 of the first 5s be retired.

If SL 5S De Fetifed. The new bonds are to mature in 50 years from Jan. 1 1910, but subject to call after Jan. 1 1920 at 105. Besides the first 5s, the \$643,000 new bonds would take care of \$30,000 real estate mortgages, a \$10,000 note, &c., but not \$66,000 bills payable or \$24,000 taxes covered in the original application. The offer of C. D. Barney & Co. to undertake the refunding was contingent on their receiving \$80,000 of the \$580,000 bonds for use in paying premiums on first 5s and any balance as the firm's commission. Of the \$500,000 of authorized stock, \$486,500 is outstanding, and of this amount the commission understands \$216,000 was issued in May 1905 as a stock dividend of 80%. Cash dividends since 1900: 1901, 15%; 1902, 16%; 1903, 5%; 1904, 9%; 1906, 1907 and 1908, 5% yearly; 1909, (?). Said to have some 28 miles of gas mains, electric plant, &c. E. H. Rosen-quest is Pres, and Gen. Mgr., and J. M. Butler Jr., Sec. and Treas. Offices, Main St., Westchester and Avenue A, Unionport, N. Y.-V. 89, p. 1143. (**F** N) Burt Co. Toronto -First Dividend on Common

(F. N.) Burt Co., Toronto.—First Dividend on Common Stock.—A first (quarterly) dividend of 1% has been declared

Stock.—A first (quarterly) dividend of 1% has been declared on the \$750,000 common stock, payable April 1. Formed in 1909 under the laws of Ontario and acquired the businesses of the F. N. Burt Co. of Buffalo, N. Y., manufacturers of small paper boxes; Morton Co., Ltd., and Merchants' Counter Check Book Co., Ltd., of To-ronto, together with the Canadian business of Carter-Crume Co., Ltd., the three last-named companies being manufacturers of counter check books or merchants' sales books. A. E. Ames & Co., Toronto, in September last offered at par (\$100 a share, with 20% bonus in common) the \$750,000 7% cum. pref. stock, pref. as to assets and convertible at option of holder at any time, share for share, for common stock.

Report for 1909.—Pres. S. J. Moore reports in substance:

The company took over as of Sept. 1 1909 the several businesses and is entitled to all the profits \$171,594, made during the calendar year 1909, less \$79,543, an arbitrary portion agreed upon with the vendors; net, \$92,-051; profit and loss bal. Sept. 1 1909, \$4,662; total, \$96,713. The appro-priations were in reduction of plant account, \$20,000; dividend No. 1 on pref. stock, payable Jan. 3 1910, \$13,125; total, \$33,125; bal. for'd, \$63,588. 

California Wine Association, San Francisco.—Assessmen Levied.—The company, to liquidate a portion of its floating debt, recently raised about \$4,70,000 through an assessment of \$10 per share on its capital stock.

The company has some \$300,000 of unadjusted fire losses, and accumulated interest thereon, in litigation with insurance companies whose policies contained an earthquake clause. Many recent decisions have been obtained by the insurers against companies carrying a similar earthquake clause. There is no thought of using preference shares at this time. Compare V 80 p 101 clause. There is no pare V. 89, p. 101.

Central Mexico Light & Power Co.-Additional Bonds Offered.—Kennett Cowan & Co., Chicago, are offering for sale an additional \$1,000,000 first mortgage 6% gold bonds, dated Jan. 1 1910, guaranteed as to principal and interest by the Guanajuato Power & Electric Co. (Compare V. 90, p. 239.) City Trust Co. of Boston, trustee. A circular shows:

the Guanajuato rower & Electric Co. (Compare V. 90, p. 239.) City Trust Co. of Boston, trustee. A circular shows: *Capitalization.* Common stock, auth., \$1,250,000; trusteed, \$350,000; outstanding. 900,000 First M. 6% bonds, auth., \$2,500,000; reserved, \$700,000; out... 1,800,000 Extract from Letter of Leonard E. Curtis. Vice-Pres. & Treas. of Guana-iuato Power & Elec. Co., Colorado Springs, Feb. 16 1910. The proceeds of the first \$800,000 of bonds of the Central Mexico Co. have been applied to the purchase of electric-light and power systems at Leon, Irapuato, Silao and Celaya-Salamanca [the population of Celaya-Salamanca is given as 50,000—Ed.], in the State of Guanajuato, with suf-ficient reserve for constructing plants at Valle de Santiago and Penjamo-Abasolo in the same State (the work on which is now in progress) and bet-terments and extensions of the other plants. Arrangements have recently been completed under which the plant and property of the Potosina Elec-tric Co., at San Luis Potosi (population 75,000), is to be acquired by the Central Mexico Light & Power Co., and a transmission line built from Guanajuato to the city of San Luis Potosi. The proceeds of the present bond issue will be used for acquiring the property of the Potosina Electric Co. and purchasing \$200,000 bonds of the Michoacan Power Co. The Michoacan Co. is a subsidiary, all the stock of which is owned by the Guana-juato Co.; it was organized to build two valuable water-power plants, one of which has been completed and the other is now in corse of construction. [The Potosina Electric Co. was incorp. in N. Y. State in 1902 and recently had outstanding \$300,000 cap. stock and \$375,000 of an issue of \$400,000 1st M. 5s, dated 1903 and due Jan. 15 1953; int. F. & A. at F. L. & Tr. Co., trustee, N. Y. Including the aforesaid \$200,000 bonds, the Michoacan Co. has outstanding about \$1,500,000 of its issue of \$2,000,000 1st 6s, guar., p. & i., by the Guanajuato P. & El. Co., as stated in V. 85, p. 796. The Potosina bonds, it is understo Estimated Earnings of the Central Mexico Company's Properties for the First Year. Dayton (O.) Gas Light & Coke Co.-Consolidation.-See Dayton Gas Co. above.-V. 84, p. 870, 223.

Denver Gas & Electric Co.-Bonds Called.-Fifty-nine general mortgage 5% gold bonds dated May 1 1903 have been drawn for redemption on May 1 at 102 and interest at the office of the Trust Co. of America, New York, trustee.-

The balance of the Steel Company's claim, exclusive of costs, amounted to \$1,201,000 (compare V. 88, p. 1064), of which \$615,435 consisted of the claims for damages caused by the shortage of coal and the shutting down of the plant, and \$82,000 for interest on these damages. The last-named amount was abandoned by the Steel Company, on advice of counsel, and there was considerable difference of opinion between the accountants respecting the former. The two boards, after full consideration of the reports made by the judgment, for costs, and for all other claims in dispute, including some of long standing not covered by the judgment. This leaves only the adjustment of the price of coal to be dealt with. The Coal Company's side of the case is now ready, and is under examination by the Steel Company's accountants, and it is hoped to dispose of this within a short time. See also Dominion Coal Co. above.—V. 90, p. 55. **Electric Vehicle Co.**—*Extension of Time.*—The reorganiza-

Electric Vehicle Co.-Extension of Time.-The reorganization committee gives notice that the time for stockholders or creditors to make deposits or become parties to the reorganization plan (V. 88, p. 1562) under agreement dated May 17 1909, originally expiring July 1 1909, but meantime extended, will be finally closed on April 7.

Further particulars may be learned from the depositary, Guaranty Trust Co. of New York, as successor to Morton Trust Co., or from C. Wendell Woodward, Secretary of the Committee, 1507 Land Title Building, Phila-delphia, Pa.-V. 89, p. 46.

General Chemical Co.-Listed.-The New York Stock Exchange has authorized to be listed on March 16 1910 the \$741,000 additional common stock, payable after March 15 as a 10% stock dividend (V. 90, p. 306, 369), making the total to be listed \$8,151,300.—V. 90, p. 505, 369.

Guanajuato Power & Electric Co., Colorado Springs.— Sale of Additional Guaranteed Bonds.—See Central Mexico Light & Power Co. above.-V. 90, p. 449, 240.

Helvetia Copper Co., Boston.-Assessment.-An assessment of 50 cents per share is payable March 25 1910 for the purpose of continuing developments.---V. 89, p. 352.

Kansas City Home Telephone Co.—New Stock—Dividend Increased .- The \$542,000 of new stock recently offered to stockholders of record Feb. 15 was largely over-subscribed; payable 10% at once and 90% March 25, when the out-standing issue will be \$3,000,000. The company has increased its dividend rate from 6 to 8%, the first quarterly dividend of 2% to be paid April 15. Through the sale of the new stock the management expects to increase its telephones to 7,000 this year. There are also outstanding \$3,000,000 K. C. Home Tel. Co. 1st 5s and \$1,199,500 Long Distance Tel. Co. 5s.-V. 89, p. 222.

Lehigh & Wilkes-Barre Coal Co.-New Bond Issue.-This company, controlled by the Central RR. of New Jersey, has called a special meeting of its stockholders for March 25 to vote on authorizing an issue of \$20,000,000 4% bonds, the proceeds of which will be used to pay off the \$19,687,000 outstanding bonds, viz.,  $4\frac{1}{2}\%$  consols, \$12,175,000, and 5% gold bonds, \$4,821,000, all due June 1 1910, and the 5% loan, \$2,691,000, due Nov. 1 1912. The refunding of these bonds will effect a saving of about \$136,000 in the annual fixed charges. The \$4,821,000 5s due June 1 1910 are owned by the Central RR. of N. J.—V. 90, p. 240.

Mackay Companies.—New Night-Letter Service.—See West-ern Union Telegraph Co. below.—V. 90, p. 500, 562.

Marquette & Menominee Paper Co., Marinette, Wis.-New Stock.-A certificate was filed in Wisconsin on Jan. 5 1910 increasing the capital stock from \$750,000 to \$950,000.

Said to own paper and pulp mills at Menominee and at Marinette, with the following 24-hour capacity: Mill No. 1, 25,000 lbs., and Park Mills, 60,000 lbs. of news and Manila paper; Park pulp mill, 40,000 lbs.; sulphite mill, 30,000 lbs. Pres., A. Spies; Vice-Pres., Isaac Stephenson; Sec. and Treas., F. A. Sillman.

Massachusetts Coal & Power Co.-On Boston Curb.-The company's stock was listed on Nov. 15 on the Boston curb.

COMPANY S SLOCK WAS HISTED ON INOV. 1D ON the BOSTON CUID. Incorporated in Maine July 24 1909 and owns or controls by lease anthracite coal deposits at Mansfield, Mass., an extension of the coal field which the Rhode Island Coal Co. has undertaken to exploit (V. 89, p. 533).
 Capital stock \$5,000,000 (par, \$10), of which \$3,675,250 has been issued (including \$1,700,000 temporarily in trust) and \$1,324,750 in treasury.
 Office, 19 Exchange Place. Transfer agent, State Street Trust Co. Directors: President Lester M. Godfrey; Vice-Pres. Frederic Tudor; Treasurer George R. Leghorn; Edward Slade, Quebec; Philip C. Stanwood, Boston. The Secretary is Guy B. Collier. All except \$250,000 treasury stock is under option at prices ranging from \$2 to \$3, the last option expiring June 6 1910. Gay & Sturgis and Coveny & Murphy of Boston are interested.

Mass. Consol. Mining Co.-Assessment.-The directors

V. 90, p. 449, 112.

Dominion Coal Co.—Change in Control—Further Particulars .--- The number of shareholders who agreed to the offer accepted by Mr. James Ross of \$95 per share, spread over a period of 2½ years, was so small that they have received payment in full at once. Some 8,000 shares, it is stated, were so acquired by the underwriting syndicate for the Dominion Iron & Steel Co. (compare V. 90, p. 55). A Canadian paper said:

There seems to have been some misunderstanding in regard to the trans-action whereby the ownership of Mr. James Ross's 50,000 common shares was transferred. There was no alteration in the conditions of payment previously stated. In order, however, to make the transfer of the shares absolutely complete, a check was drawn in favor of Mr. Ross for \$5,000,000, and in return he advanced checks for the sums of \$3,500,000 to the Steel Company and \$250,000 to the syndicate, retaining only his installment of 25%.

Settlement with Steel Company.-See Dominion Iron & Steel Co. below.-V. 90, p. 55.

Dominion Iron & Steel Co.-311/2% Dividend on Preferred in full to April 1-Settlement with Coal Co.-The directors on March 4 declared a distribution of 311/2% on the \$5,000,000 7% cumulative preferred stock, payable April 1 to holders of record March 15, to cover dividends Nos. 10 to 18, payable half-yearly from April 1 1906 to April 1 1910 inclusive. The declaration followed the settlement of the litigation with the Dominion Coal Co., as below stated.

have levied an assessment of \$2 a share, payable April 5. -V. 79, p. 2460.

Mergenthaler Linotype Co.-New Director.-Ogden L. Mills has been elected a director to succeed his grandfather, the late D. O. Mills.—V. 89, p. 1278.

Michoacan Power Co.—\$200,000 Bonds Sold.—See Central Mexico Light & Power Co. above.-V. 85, p. 796.

National Biscuit Co.-Listed.-The New York Stock Exchange has admitted to the regular list \$24,804,500 7% cumulative preferred stock and \$29,236,000 common stock, heretofore quoted in the unlisted department.-V. 90, p. 558, 55.

New York Mutual Gas Light Co.-Favorable Decision.-The Appellate Division of the Supreme Court, First Department, on Dec. 30 decided in favor of the company the suit brought to oust the company from the streets occupied by it on the ground that its franchises have expired.

It on the ground that its franchises have expired. The city sought to obtain compensation by an accounting for the alleged unauthorized use of the streets and to compel the company to apply for a new franchise. The Court holds that the company has a perpetual charter from the State under special Act of the Legislature passed in 1866, which the city has no power to abridge so long as the company lays its pipes subject to similar restrictions of other companies. The city claimed the company acted solely under the Aldermanic 30-year franchise of 1868, under which whatever rights were acquired expired in 1898. Justice Clarke; who writes the opinion, says that the franchise of 1866 is perpetual and needs no secondary franchise from the city to make it effective; that even

#### MAR. 12 1910.)

if the city could limit the life of the franchise to 30 years, which it could not, it has no power to order the removal of pipes which were laid with the city's consent before the 30 years expired. The suit was regarded as a test case, similar suits against constituent companies of the Consolidated Gas Co. awaiting the decision in this case.—V. 82, p. 41.

Pacific Light & Power Corporation, Los Angeles.-Merger.—A Los Angeles paper on March 5 said:

Merger.—A Los Angeles paper on March 5 said: The company this week formally absorbed the Domestic Gas Co. (V. 87, p. 1666) and the San Bernardino Gas Co., both of which it has owned for some time. The company will retire the \$1,600,000 bonds outstanding of the Domestic Gas Co., and issue new bonds, probably \$5,000,000 at once. The bonds to be retired are 6% convertible, while the new issue will be 5%. The company will at once construct a pipe line from Los Angeles to San Bernardino to supply the entire intervening country with its gas, including Pomona, Claremont and the Uplands. When the line is finished the generating plant at San Bernardino will be closed and a distributing sta-tion, which will be built in this city, will take its place. [The San Ber-nardino Gas Co. was incorp. May 4 1909 with \$1,500,000 auth. capital stock, and absorbed the Home Gas Co. of San Bernardino, the Redland Gas Co. the Colton Gas Co. and, it was said, the Lytle Creek Power Co. plant, and recently had plans under way for a central gas plant.—Ed.] Compare V. 90, p. 632.

Pacific (Bell) Telephone & Telegraph Co.—Sale.—The company has sold to Bond & Goodwin, Boston, New York, etc., \$3,000,000 5% bonds and \$7,000,000 41/2% 2-year notes. The bonds are a portion of the \$35,000,000 issue dated Jan. 2 1907, of which \$20,000,000 were already outstanding; of the remainder, \$12,000,000 were made issuable for only 66 2-3% of the cost of improvements (V. 88, p. 825). The notes are payable at maturity in cash or bonds at a figure agreed upon, at option of company.-V. 90, p. 450.

of 6,500 h.p. The principal station, located on Rock River, is now being rebuilt, contracts having been let recently for the installation of an addi-tional 4,000 h.p. generating capacity, together with automatic coal and ash-handling apparatus. These improvements will concentrate the entire generating at a thoroughly modern fireproof central station, thereby greatly increasing economy of operation and fully justifying the estimate of earn-ings for 1910 as given above. The company has the use of an additional 1,300 h.p. generating capacity through its lease of the plant of the Rockford & Interurban Ry. Co., which lease has ten more years to run.—V. 90, p. 113.

Scullin-Gallagher Iron & Steel Co., St. Louis.-Bonds Offered.-The Mercantile Trust Co., the trustee, and Charles McL. Clarke & Co., both of St. Louis, are offering at par and interest, netting  $5\frac{1}{2}\%$ , the unsold portion of the present issue of \$600,000 1st M.  $5\frac{1}{2}\%$  serial gold bonds, dated Feb. 1 1910, due serially Feb. 1 1911 to 1925, but callable in whole or in part on any interest date at  $102\frac{1}{2}$ . Total auth., \$1,500,000; balance reserved for future extensions under careful restric-

balance reserved for future extensions under careful restrictions, \$900,000. Par, \$500 (*). A circular says:
Organized in 1900 under the laws of Missouri. The largest individual steel-castings plant in the world. These bonds are a first mortgage on real estate, plants and equipment conservatively valued at \$2,500,000. Net cash and quick assets Feb. 1 1910, \$735,822. The \$600,000 bonds mature: 1911, \$37,500; 1912, \$39,500; 1913, \$41,500; 1914, \$44,000; 1915, \$46,500; 1916, \$49,000; 1917, \$52,000; 1918, \$55,000; 1919, \$58,000; 1920, \$61,000; 1921, \$64,500; 1922, \$51,500. Int. F. & A. in St. Louis.

\$61,000; 1912, \$64,500; 1912, \$51,500. Int. F. & A. in St. Louis.
Abstract of Letter from President Harry Scullin, St. Louis, Feb. 9 1910. The capital stock has just been increased from \$750,000 to \$1,500,000, the increase being paid for in cash, which, together with the proceeds derived from the sale of \$600,000 bonds purchased by you, will be used to take up the floating debt and to furnish sufficient additional working capital to carry on our steadily increasing business. It is not our intention to issue any additional bonds, so that in all probability the \$900,000 bonds of this issue held in escrow may never be sold. The company's properties occupy 80 acres, located between the Mo. Pac. Ry. and the St. Louis & San Francisco RR., about 5 miles from the heart of the city. The buildings, all modern steel and brick, cover an area of 275,000 sq. ft. A fully equipped pattern shop has just been added. The production of all electricity and compressed air needed.
The net profits for the five years prior to Jan. 1 1910 were \$541,102, or an average net earnings of \$108,220 per year, which is equal to three times the interest on these \$600,000 of bonds. This period includes 1908 and 1909, two most unfavorable years. By the introduction of labor-saving machinery, the capacity of the plant has been so largely increased that I consider it more than conservative to estimate that our earnings during the next five years will show an increase of 100%, which will make our annual net earnings over six times the interest on these bonds.—V.90, p.632.
Shreveport (La.) Gas, Electric Light & Power Co.—Bonds

Shreveport (La.) Gas, Electric Light & Power Co.-Bonds Offered.-Charles S. Kidder & Co. and H. T. Holtz & Co., both of Chicago, are jointly offering at 98 and int. the unsold portion of the present issue of \$600,000 re-funding mortgage gold 6s dated March 1 1910 and due March 1 1940, but callable on any interest date at 101 and int. Interest M. & S. at Central Trust Co. of Illinois, trustee, Chicago. Par \$500 and \$1,000 (c*).

Abstract of Letter from Pres. Rufus C. Dawes, Chicago, Feb. 25 1910. Owns and operates the entire gas and electric business in Shreveport, La., and suburbs. At present is distributing natural gas through its mains for light, heat and fuel, and is using the natural gas for fuel in generating its electricity at a considerable saving in expense. Shreveport has a popu-lation estimated at more than 30,000.

lation estimated at more than 30,000. Capitalization. Capital stock authorized, \$400,000; issued_________\$400,000 Bonded debt (total out, \$1,075,000, incl. bonds now offered)— Refunding mtge. 6s, total auth., \$3,000,000; issued______600,000 Underlying bonds (\$467,000 5s due Oct. 1 1922, but callable at 105 after Oct. 1 1912; sink. fund, 2%; and \$8,000 bonds of 1889 due 1919—compare V. 76, p. 162.—Ed.)______ 475,000 Refunding mtge. 6s in hands of trustees may be issued to reimburse the company for 80% of the actual and reasonable cash cost of permanent ex-tensions and additions made, provided the net earnings for the year pre-ceding shall have been 1½ times the annual interest charge; also for the reasonable cost of retiring all or part of the underlying bonds. Of the \$600,000 bonds now offered, \$100,000 are issued to enable the company to make extensions and betterments and \$500,000 to retire a like amount of underlying bonds, leaving only \$475,000 underlying bonds outstanding-Earnings—Estimated 1910—Int. Charge includes \$600,000BondsNow Offered.

Earnings —Estimated 1910—Int. Charge includes \$600,000BondsNow Offered. Cal. Year 1909. 1910(est.) 1909. 1910(est.) Gross earnings___\$251,849 \$340,000 Pres. int. charge_ \$59,910 \$59,910 Net (after taxes)_ 96,959 108,000 Surplus earnings_ 37,049 48,090 The company has kept pace with the great advancement of the city by enlarging its plants and distributing systems. Should the supply of natural gas fall off, the operation of the artificial gas plant will be resumed at once. The electric plant is housed in a modern, fire-proof building about 120 ft. sq., affording ample accommodation for future growth. The half-block on which the works are located is adjacent to several railroads. Franchise runs for 99 years from Dec. 26 1888.—V. 76, p. 162; V. 81, p. 563.

Southern Iron & Steel Co., Birmingham, Ala.-Report.-See "Annual Reports."

Convertible Debentures.—In order to reimburse the company for the additional expenditures incident to the building of the new mills, and to provide additional working capital, he directors have authorized an issue of not exceeding \$1,200,000 6% five-year convertible gold debentures, to be convertible at the election of the holder into preferred stock at \$70 per share (par \$100) at any time within five years from date. About March 16 1910, when the debentures will be ready for delivery, it is proposed to offer them to the stockholders at 93%. President W. A. Hassinger, under date of March 1, further says: I enclose herewith my report, read at the annual meeting on Feb. 17 1910 (see a preceding page—Ed.), showing most satisfactory results in opera-tions and progress in the development of the coal and iron properties of the company, as well as in the construction of the new wire, rod, fence and nail mills at Alabama City, which mills will be completed on or about April 1 next, at a cost of approximately \$1,000,000. Although the con-struction of these new mills was not originally contemplated, the directors concluded that the construction of entirely new mills was preferable to the spending of a large amount of money on the repair and improvement of the old mills at Ensley, as the new mills effected the concentration of a complete iron, steel and finishing product plant at one point, with the economies certain to result therefrom, and in addition will have a capacity of approximately double the capacity of the old mills. The company already has 10,000 shares of its pref. stock available for the conversion feature of the proposed debentures, and, in order to provide for the required balance of 7,143 shares, has called a meeting of its stock-holders for March 14 1910 to authorize an increase of 10,000 shares in the pref. stock. As required by the laws of New Jersey, the stockholders, as of March 14 1910, are given the right on or before said date to purchaes such proportion of said 10,000 shares of pref. stock as the number of shares (70,000 pref. and 100,000 common) constituting the present capital stock. If, as expected, such stock is not purchased by the stockholders, 7,143 shares thereof will be deposited with the trustee of the debenture agree-ment, which, together with the 10,000 shares already deposited, will pro-vide for the convertible feature.—V. 90, p. 563. For other Investment News see page 714. under date of March 1, further says:

Gross Earnings for the Last Five Calendar Years. 1905. 1906. 1907. 1908. 1909. \$1,858,656 \$2,179,949 \$2,450,439 \$2,562,684 \$2,874,658 The company owns (1) considerable real estate conveniently located; (2) hydro-electric stations on Genesee River within city limits (the com-pany owns 87% of the water rights within said limits), total capacity, 15,300 k.w.; (3) supplementary steam-generating capacity, 14,830 k.w.; (4) transformer station, 6,000 h.p. capacity, at which Niagara current is received; (5) 64 miles of electrical subways and 227 miles of pole line; (6) gas-generating plant with a storage of 4,500,000 cu. ft. and about 300 miles of gas mains. The electric and gas franchises within the city are free from burdensome restrictions and are, in the opinion of counsel, unlimited in duration; also has valuable franchises in surrounding cities and towns. Practically all of the common stock is owned by the Mohawk Valley Co., which is in turn controlled by the New York Central & Hudson River RR. The rates charged are low and the local management is exceptionally capable.—V. 90, p. 628. **Bockford (III.) Electric Co** 

**Rockford** (Ill.) Electric Co.—Bonds—Earnings.—McGee & Co., Chicago, are offering at  $98\frac{1}{2}$  and interest, yielding 51/8%, \$200,000 of the "first and refunding mortgage" 5% gold bonds dated March 1 1909, of which \$900,000 are outstanding, including \$47,000 reserved to retire Rockford Edison first 5s still out (see also V. 88, p. 1442).

## Reports and Documents.

### THE NEW YORK CENTRAL & HUDSON RIVER RAILROAD COMPANY.

FORTY-FIRST ANNUAL REPORT -FOR THE YEAR ENDED DECEMBER 31 1909.

Miles.

#### To the Stockholders of the New York Central & Hudson River Railroad Company:

The Board of Directors herewith submits its report for the year ended December 31 1909, with statements showing the results for the year and the financial condition of the company. The income account for the year and the various tables of statistics are shown in the form promulgated by the Inter-State Commerce Commission and the details of the previous year have been revised for purposes of comparison.

The mileage embraced in the operation of the road is as follows:

Main line and branches owned Proprietary lines	3.00
	2.011.00
Times snorsted under contract	01.10
Lines operated under contractions	273 67
Trackage rights	210.01

### Total road operated______3,781.83

The slight increase in road mileage operated is due to change of alignment and measurement at various points on the system. A statement showing in detail miles of road and track operated will be found upon another page.

The capital stock authorized and outstanding is as follows: Authorized to Dec. \$1 1909______\$250,000,000 There was no change during the year in the amount issued and outstanding; the total on Dec. \$1 1909 being______ 178,632,000

Balance authorized but not issued Dec. 31 1909_____ \$71,368,000

The funded debt outstanding on Dec. 31 1908 was______ There have been issued and sold during the year Gold Mort-_\$243,414,845 4,000,000 and Gold bonds secured by a mortgage on the Spuyten Duyvil & Port Morris Railroad

2,500,000

Making the total funded debt outstanding on Dec. 31 1909__\$249,914,845

Balance Dec. 31 1909_____\$15,409,187 67

The revenues from operation of the properties of the company are now divided into three classes; revenue from transportation, revenue from operations other than transportation and revenue from outside operations.

For the year covered by this report the revenue from transportation was \$92,238,523 28, an increase of \$9,-174,703 16; revenue from operations other than transportation was \$933,337 41, an increase of \$69,803 24; revenue from outside operations (connected with, but in addition to transportation by rail) were \$4,517,996 90, an increase of \$839,380 43.

The total gross revenue from all operations was \$97,-689,857 59, an increase of \$10,083,886 83.

All sources of revenue from transportation have shown an increase with the exception of the mail service. The United States Government has established a new basis of computing the weight of mail matter, resulting in a diminution of the compensation of this company of approximately fourteen per cent from July 1 1909.

Freight revenue was \$54,449,281 47, an increase of \$5,888,099 98. The revenue freight carried amounted to 44,171,954 tons, an increase of 5,093,792 tons over last year, and with the exception of the year 1907 reached a higher total than in any other year of the company's history. The average tonnage for the four years 1905 to 1908 was 43,-240,164, so that the traffic for the year 1909 was 931,000 tons above the average of the four best previous years. Large increases show in all mineral and manufacturing products, the decreases in the classified list of commodities being in food stuffs, such as grain, fruits and vegetables, live stock, dressed meats and other packing house products and dairy products. The largest increases occurred in bituminous coal, lumber and miscellaneous manufactures, while ores, iron and machinery were carried in largely increased quantities.

The revenue from passengers amounted to \$29,001,911 18, an increase of \$2,393,145 37. An increase in the number of local passengers carried of 1,412,711 and an increase of 1,661,266 in commutation passengers carried, with a slight increase in the average distance of travel and in the average receipts per mile, show that the passenger traffic over this company's lines is in a more satisfactory condition than in 1908, during which it suffered from the stagnation caused by the financial panic of the end of the year 1907. The figures of the year compare favorably with those of 1906 and 1907.

704

• The Dunkirk Allegheny Valley & Pittsburgh Railroad, 90.51 miles, is also leased by this company, but its mileage and operations are not in-cluded in this report. Separate accounts are kept and independent re-ports prepared in its behalf.

The revenue from express traffic was \$4,081,575 49, an increase of \$495,821 82 due to an enlarged volume of business.

The expenses of rail operations amounted to \$64,593,826 35, an increase of \$3,304,522 35. Included in this increase is an augmented charge for renewals of equipment amounting to \$1,366,496 76.

The operating expenses by groups were:

Maintenance of way and structures	
Maintenance of equipment	
Traffic expenses	2,273,827 68
Transportation expenses	33,309,314 82
General expenses	2,095,012 56
Outside operations	4,312,028 96

In maintenance of way and structures most of the items show small increases, due not to excessive expenditures this year but to the comparatively small amount of work done in the months following the financial disturabnce at the end of 1907. The only large increases are for ballast, labor for roadway and track, bridge structures and buildings and fixtures.

In maintenance of equipment an increase of \$2,430,231 91 is shown, due mainly to a largely increased cost for repairs of freight cars and the inclusion in this year's expenses of an increase of \$1,366,496 76 for renewals of equipment, consequent on a change of method in handling this account which was instituted July 1 1908, since which time this company has charged to renewals of equipment account the full value, less salvage, of all equipment demolished or taken out of service, so that the year 1909 has borne its full proportion of such charges, while 1908 had corresponding charges for the last six months only.

Traffic expenses, being those charges incurred in soliciting and procuring traffic outside of its actual movement by rail, amounted to \$2,273,827 68, an increase of \$205,136 27, mainly due to larger payments on account of expenses of fast freight lines and to wider advertising.

The cost of transportation shows decreases in a large majority of the accounts, the most noticeable one being \$436,387 33 in payments for loss and damage to freight. Fuel for locomotives shows a decreased cost of \$310,531 20, partly offset by an increase of \$127,288 50 in the cost of electric power.

General expenses show a small net increase, due almost entirely to larger disbursements for law expenses.

In outside operations the net revenue shows an increase of \$69,847 42, the result of an increase of \$839,380 43 in the revenue derived, against an increase of \$769,533 01 in the expenses incurred.

expenses incurred. The net revenue from all operations amounted to \$28,-784,002 28, an increase of \$6,009,831 47.

In deductions from gross corporate income an increase of \$235,532 18 occurred for rentals of leased lines. The rental of the Boston & Albany Railroad increased \$238,777 79, due to the payment of interest for the whole year on \$7,000,-000 Improvement bonds and for six months on an additional \$4,500,000 of Improvement bonds.

Interest on bonds of this company shows an increase of \$411,687 51, due to the charge on \$4,000,000 Gold mortgage bonds for a full year, on \$13,000,000 Gold debentures of 1904 for twelve months as against four months of 1908, and the charge for interest on the Spuyten Duyvil & Port Morris Railroad mortgage bonds from July 21 1909.

The surplus for the year, after paying a dividend of \$8,-931,600 00, representing five per cent upon the capital stock, was \$4,763,820 36.

Extraordinary expenditures during the year were as follows For additions to property, charged to cost of road and equip-

ment\$6.21	6.747 93
For construction work on leased lines and for	
Grand Central terminal improvement, charged	
in part against funds provided by lessor com-	
panies\$9,389,381 67	
Less amount refunded from proceeds of se-	
curities of lessor companies 7 000 000 00	

Curities of lessor companies______ 2,389,381 67

Details of the above mentioned expenditures are shown on subsequent pages.

The operation of trains by electricity has been extended to Yonkers on the Hudson River division for trains equipped with the multiple unit system and the necessary work for the extension of electric operation on the Harlem division from Wakefield to North White Plains is rapidly nearing completion.

In pursuance of the plan outlined in last year's report for the consolidation and merger of several electric railway companies into a corporation to be known as the New York State Railways, various exchanges of capital stock have been made, with the result that this company's holdings in electric railway corporations now stand as follows:

New York State Railways1	33.650	shares
Ontario Light & Traction Company	600	shares
Rochester Electric Railway Company	1 043	shares
Rochester & Suburban Railway Company	2.404	shares

On October 27 1909 the Board of Directors authorized the issue at par of 446,580 of the 713,680 shares remaining unissued under previous authorizations, to the stockholders of record at three o'clock P. M. on Friday, December 10 1909, to the extent of twenty-five per cent of their holdings, the shares so issued to participate in dividends declared after the beginning of the year 1910. On November 3d the Public Service Commission of the Second District of the State of New York approved of the issue, defining the use of the proceeds of the sale of the stock as follows: \$21,966,615 48 for the extension and improvement of facilities, of which sum \$9,000,000 may be used for the purchase of new equipment and rolling stock.

On November 10th the Board of Directors approved a plan, to take effect January 1 1910, for the retirement and pensioning of employees of the company who, through age or disability, become unable to continue longer in its service. A Board of Pensions, consisting of eight persons to be appointed annually by the President of the company, was established, and the sum of \$225,000 or such portion thereof as may be necessary, was authorized to be appropriated annually for the payment of pensions. The plan provides that all employees who reach the age of seventy years shall be retired and such of them as have been in the service for at least ten years immediately preceding their retirement shall be pensioned. Those employees who, having been in the service continuously for twenty years, become, in the opinion of the Board of Pensions, unfitted for duty, may be retired and pensioned.

The following appointments have been made during the year: February 1st, Frank V. Whiting, Claims Attorney; April 28th, Edward F. Stephenson, Assistant Secretary; October 11th, F. Breakey Freeman, Chief Engineer of Boston & Albany Railroad; October 20th, Julius W. Pfau, Engineer of Construction.

William H. Newman, who had been President of this Company from June 3 1901, resigned February 1 1909, and William C. Brown, who had been Vice-President from January 4 1902, bearing the title of Senior Vice-President from May 18 1906, was elected President on January 27th. Samuel F. Barger, who had been a director of this company from November 1 1869, and Charles C. Clarke, who had been a Director since May 4, 1883, and First Vice-President from the same date until November 9 1900, resigned from the Board, and their places were filled by William C.Brown and Edward H. Harriman. Mr. Harriman died on September 9th and Marvin Hughitt was elected a Director on October 13 1909, to complete the Board.

The relations of the road with its patrons and the communities served by it have been harmonious and pleasant.

This mutually satisfactory condition has been fostered and encouraged by the efforts of the Public Service Commission in New York State and the Massachusetts Board of Railroad Commissioners, in composing and adjusting differences which, handled with less wisdom and moderation, might have resulted in serious friction and controversy. The influence and the co-operation of these Commissions have been uniformly beneficial to the road, and have done much to improve the service for the public.

Does not this very desirable result emphasize the advantage of appointing to positions so vitally affecting every business interest of the country, men qualified by experience, temperament and ability to discharge the important duties of their office. Governmental regulation of railroads, within proper limitations, is of benefit to the public, to the railroads and to those who hold their securities; but, in order to secure the maximum benefit for all interests, it is important that men selected for these positions should possess the necessary natural breadth and ability, and in addition thereto a willingness to undertake the conscientious, painstaking study of conditions necessary to enable them to deal intelligently with the complex and delicate questions affecting transportation that are constantly arising.

General conditions were never more favorable, and every visible indication points to renewed and increasing prosperity for the country at large, in which the railroads may hope to participate.

The business of the road shows steady increase; and expenditures which have been made for improvements, adding to efficiency and economy of operation, should be reflected in increased net revenue.

Appreciative acknowledgement is made of the faithful, efficient performance of duty by employees in every de-

for the discharge of a portion of the three-year gold notes	partment of the service during the year.

The resumption during the year of important improvement work, consisting of four-tracking the main line, strengthening and rebuilding bridges, additional ballasting, &c., made necessary heavy charges to maintenance to provide for changes to existing roadway and structures.

Maintenance of equipment increased \$1,358,728 50, due to the large amount and extensive use of equipment in service during the year.

Traffic expenses increased \$123,056 37, due principally to a larger cost to this company in maintaining fast freight lines and outside agencies.

Transportation expenses increased \$634,869 80, due to heavier volume of traffic handled, affecting largely station and train service.

General expenses increased \$28,422 81.

Outside operations show a loss for the year of \$78,907 17, due to a deficit in the operation of dining cars and commercial ice supply plants.

Taxes accrued increased \$25,258 32.

Other income for the year amounted to \$6,486,887 28, an increase of \$1,389,806 57, due to additional revenue received from dividends on stocks owned and rental of joint facilities.

Deductions from gross corporate income amounted to \$10,382,049 39, an increase of \$542,188 78. Rentals of leased lines increased \$758,309 36, due to a

larger rental paid Mahoning Coal Railroad Company on

rental paid to Jamestown Franklin & Clearfield Railroad Company.

Other deductions increased \$336,728 52, due to amount paid to the Indiana Harbor Belt Railroad Company as this company's proportion of its deficit from operation.

From the net corporate income of the company for the year, amounting to \$11,654,361 83, two dividends, aggre-gating 12 per cent, amounting to \$5,935,980, were paid, leaving a surplus for the year of \$5,718,381 83.

Additions and betterments to the property during the current year were \$3,564,414, the full amount of which was charged direct to capital account. By the elimination of this expense from charges to "Income" in 1909, that account shows a decrease in additions and betterments to the extent of \$1,433,567 61, the amount charged to such account in the previous year.

Expenditures for new equipment purchased during the year, including this company's equity in the New York Central Lines equipment trust of 1907, were as follows:

20 Freight locomotives	\$336,617 96
25 Passenger coaches	278,302 04
2 Dining cars	32,808 21
2 Cafe cars	28,553 78
4 Postal cars	40,108 03
1,000 Self-clearing steel gondola cars	932,574 58
8 Coal cars, 208 Company's service cars, etc	113,304 62
Second installment of 1907 Equipment Trust	447,226 18
Declaration 2.4 at 20	and a second
	\$2,209,495 40

Of the total expenditures as above there was charged to Replacement Fund the sum of______ and against Income the sum of______ \$946,309 12 __ 1,263,186 28 __\$2,209,495 40 Total

The company acquired through lease, dated April 1st 1909, the entire railroad and property of the Jamestown Franklin & Clearfield Railroad Company, extending from the Ohio-Pennsylvania State Line to Oil Cty, Pennsylvania, and from Polk Junction, to Brookville, Pennsylvania—the latter part of the road being under construction at date of lease, and opened for operation on September 26th 1909.

In connection with the opening of the above line, trackage rights were acquired over the tracks of the Pennsylvania Railroad between Brookville and Falls Creek, Pennsylvania, and over the tracks of the Buffalo Rochester & Pittsburgh Railroad between Falls Creek and Clearfield, Pennsylvania, forming a connection with the New York Central & Hudson River Railroad at the latter point-thereby giving the company a direct line from the coal fields of Central Pennsylvania to the port of Ashtabula on Lake Erie. The above largely accounts for the increase in mileage of leased lines and trackage rights.

The company exchanged during the year all of its holdings of the capital stock of the Central Trunk Railway Company, the Franklin & Clearfield Railroad Company, the Jackson Coal Railroad Company and the Jamestown & Franklin Railroad Company, for a like amount of the capital stock of the Jamestown Franklin & Clearfield Railroad Company, the latter company being a consolidation of the four former-named companies, and in addition thereto the company acquired through purchase, 2,535 shares of the capital stock of the Jamestown Franklin & Clearfield Railroad Company,

account of increase in traffic handled over that road and | and received in reimbursement for advances made to that company for construction purposes \$11,000,000 of its first mortgage four per cent bonds.

There were also purchased during the year 35,000 shares of stock of The Cleveland Short Line Railway Company, 50,001 shares of stock of the Pittsburgh & Lake Erie Railroad Company and \$884,000 of The Lake Shore & Michigan Southern Railway Company's three-year five per cent gold notes of 1907.

There were acquired through exchange \$507,000 of bonds of the Chicago Kalamazoo & Saginaw Railway Company for which this company relinquished 1,800 shares of the preferred stock and a promissory note of that company.

On November 10th the Board of Directors approved a plan, to take effect January 1 1910, for the retirement and pensioning of employees of the company who, through age or dis-ability, become unable to continue in its service. A Board of Pensions, consisting of eight persons to be appointed annually by the President of the company, was established and the sum of \$85,000, or such smaller amount as may be necessary, was authorized to be appropriated annually for the payment of pensions. The plan provides that all employees who reach the age of seventy years shall be retired, and that such of them as have been in the service for at least ten years immediately preceding their retirement shall be pensioned. Those employees, who, having been in the service continuously for twenty years, become, in the opinion of the Board of Pensions, unfitted for duty may be retired and pensioned.

The summary of financial operations affecting income and detailed exhibits of operating revenues, expenses, &c., are compiled in accordance with the recent classifications promulgated by the Inter-State Commerce Commission.

On January 1st Mr. Herbert D. Howe was appointed General Land and Tax Agent and Mr. Ora E. Butterfield was appointed Assistant General Solicitor of the company.

On February 1st Mr. William C. Brown was elected Presi-

dent of the company. On May 1st Mr. Edward F. Stephenson was appointed Assistant Secretary of the company.

On August 1st Mr. George M. Glazier was appointed Assistant Auditor and Mr. George F. Tomlinson was ap-

pointed Auditor of Disbursements of the company. On November 1st Mr. Newton D. Doughman was ap-pointed Assistant General Attorney of the company.

General conditions were never more favorable, and every visible indication points to renewed and increasing prosperity for the country at large, in which the railroads may hope to participate.

The business of the road shows steady increase; and expenditures which have been made for improvements, adding to efficiency and economy of operation, should be reflected in increased net revenue.

Appreciative acknowledgement is made of the faithful, efficient performance of duty by employes in every department of the service during the year.

### MICHIGAN CENTRAL RAILROAD COMPANY.

### SIXTY-FOURTH ANNUAL REPORT-FOR THE YEAR ENDED DECEMBER 31 1909.

To the Stockholders of the Michigan Central Railroad Company: The Board of Directors herewith submits its report for the year ended December 31 1909, with statements showing the results for the year and the financial condition of the company.

All revenues, operating expenses, other income, and train and engine mileage, for the year ended December 31 1909, are stated in accordance with the classifications required by the Inter-State Commerce Commission, effective July 1 1908, and the general balance sheet in accordance with classification and order effective July 1 1909.

The report covers the operation of the following mileage:

Miles.	shall
Main line 270.07	servi
Main line 270.07 Proprietary lines 345.05 1.117.34	retir

for the necessary closing of streets and construction of subways, etc., has been accepted by this company.

On November 10 the Board of Directors approved a plan, to take effect January 1 1910, for the retirement and pensioning of employees of the company who, through age or disability, become unable to continue longer in its service. A Board of Pensions, consisting of eight persons to be appointed annually by the President of the company, was established, and the sum of \$56,000 00, or such smaller amount as may be necessary, was authorized to be appropri-ated annually for the payment of pensions. The plan provides that all employees who reach the age of seventy years hall be retired, and that such of them as have been in the vice for at least ten years immediately preceding their irement shall be pensioned. Those employees who, having in in the service continually for twenty years, become, in opinion of the Board of Pensions, unfitted for duty, may retired and pensioned.

K	be remou and pensioned.

Full particulars regarding the equipment acquired and rental paid under the terms of the New York Central Lines Equipment Trust Agreement and Lease of 1907 will be found

on another page. [See pamphlet report.] The Detroit Belt Line Railroad, which owns a valuable terminal and connecting railroad in the City of Detroit, Michigan, was organized May 18 1909. This company owns the entire capital stock thereof, amounting to \$100,000, and under agreement dated July 20 1909 operates the road.

The construction of the double-tube tunnel under and across the Detroit River by the Detroit River Tunnel Company, the entire capital stock of which latter company is owned by this company, has progressed almost to completion. The open cuts and approaches on both sides of the river are finished, and the tunnel under the river is finished so far as to be open for use for the purposes of construction. There remains only to be completed a portion of the interior lining of the sub-aqueous tunnel and the tracks and electrification work. It is expected that the tunnel can be put into use during the early part of 1910.

An arrangement has been made under the terms of which this company can acquire at any time, upon demand, the title to and possession of the property in the City of Detroit desired for the location of a proposed new passenger station, and a satisfactory ordinance passed by the City providing Balance to credit of Profit and Loss Dec. 31 1909_____\$9,965,978 28

The total operating revenues were \$27,415,467 20, an increase of \$3,193,328 00 as compared with the previous year.

The freight revenue was \$18,267,530 44, an increase of \$2,240,771 25. This was due to an increased movement in nearly all commodities.

The passenger revenue was \$6,655,698 85, an increase of \$625,279 59, due to a general improvement in both local and interline business.

The express revenue was \$1,244,745 14, an increase of \$204,082 11.

Revenue from transportation of mails was \$409,212 23, decrease of \$4,328 60. a

The operating revenue from all other sources increased 27,523 65 over the previous year. \$1

The total expenses of operation were \$18,499,528 24, an increase of \$1,715,760 30.

Maintenance of way and structures increased \$676,351 40, due to additional expenditures for repairs to roadway, track and buildings.

Mantenance of equipment increased \$747,438 75 on account of extensive repairs to locomotives and cars of all classes.

Traffic expenses increased \$83,667 05.

Transportation expenses increased \$206,165 49, due to the heavier volume of traffic handled.

General expenses increased \$2,137 61.

There was an increase in the deficit from outside operations of \$32,119 22 over the previous year, due principally to additional expenditures in the operation of dining car service and stock yards.

The operating income was \$7,743,254 91, an increase of \$1,429,610 70.

Other income was \$941,480 65, an increase of \$97,961 73, on account of additional amount received from interest on loans.

Total deductions from income amounted to \$5,812,238 76, an increase of \$282,195 78, due principally to interest on gold debentures issued, charges for additional equipment and proportionate share of deficit from operation of Indiana

for hire of equipment, general interest and additions and betterments.

betterments. The profit from operation for the year, after payment of 6% in dividends upon the capital stock, was \$1,748,216 80, which has been carried to the credit of Profit and Loss.

General conditions were never more favorable, and every visible indication points to renewed and increasing prosperity for the country at large, in which the railroads may hope to participate.

The business of the road shows steady increase; and expenditures which have been made for improvements, adding to efficiency and economy of operation, should be reflected in increased net revenue.

debentures issued, charges for additional equipment and proportionate share of deficit from operation of Indiana Harbor Belt Railroad, partially offset by decreased charges	in increased het revenue. WILLIAM C. BROWN, President.

Total_____\$944,906 32

There has been advanced on account of the St. Louis Short Line Division during the year, for construction, \$30,-276 20.

The accumulated charges for advances to the Central Indiana Railway Co. for deficit on account of operation to December 31 1908, amounting to \$635,081 72, have been regarded as uncollectible, and have been written off against Profit and Loss. This company's proportion of the deficit in operation of that road for the year 1909, amounting to \$52,640 92, has been charged off as a "Deduction from Income."

The Evansville Mt. Carmel & Northern Railway Company was organized, under the laws of the State of Indiana, August 1 1906, and, under the laws of the State of Illinois, November 7 1906, to construct a railroad from Mt. Carmel, on the Cairo Division, to Evansville, Indiana. There has been advanced on account of this property, during the year, \$12,746 09.

General conditions were never more favorable, and every visible indication points to renewed and increasing prosperity for the country at large, in which the railroads may hope to participate.

The business of the road shows steady increase; and expenditures which have been made for improvemens, adding to efficiency and economy of operation, should be reflected in increased net revenue.

WILLIAM C. BROWN,

President.

-According to the report published Friday by the Public Service Commission on the traffic returns for last December, the Hudson & Manhattan tunnel lines carried 4,056,403 passengers, against 1,407,804 in December 1908. See "Chronicle" March 5, page 627 "General Investment News" department for comparison of January, February 1910 traffic with August 1909, the first month of the Hudson River tunnel system.

-J. K. Rice, Jr. & Co., 33 Wall Street, New York, the well-known dealers in unlisted and inactive securities, are advertising in to-day's "Chronicle" two lists of stocks and bonds which they "will buy" and will "sell". See advertise-ment for particulars. The firm is now one of the largest traders in miscellaneous securities on Well Street and has traders in miscellaneous securities on Wall Street and has good markets in unlisted and inactive stocks and bonds. Telephones 7460 to 7466 Hanover.

[VOL. LXXXX.

Sears, Roebuck & Co.-Listed.-The New York Stock Exchange has listed the \$30,000,000 common stock. The 7% cumulative stock, of which \$8,900,000 is now outstanding (\$,100,000 of the \$10,000,000 originally issued having been repurchased), has been listed for some time.-V. 90, p. **632**, 369.

Siegel Stores Corporation.—First Dividend on Common.— The company has declared an initial payment of  $2\frac{1}{2}\%$ on the common stock, payable March 17 to stockholders of record March 15. On Nov. 1 last the company paid its first quarterly dividend of  $1\frac{34}{6}$  on the \$2,000,000 of 7%cumulative preferred stock.—V. 89, p. 1071.

Standard Underground Cable Co., Pittsburgh.-New Stock.-The shareholders on March 10 ratified the proposition to increase the outstanding capital stock from \$2,800,-000 to \$3,500,000, it is stated, for the purpose of paying a 25% stock dividend.—V. 90, p. 114.

Tamarack Mining Co.—Report.—For calendar years:

Calendar Mine Year— Receipts. 1909\$1,806,878 1908\$1,716,974 1907\$35,970	1,870,191	Net Earnings. def.\$32,508 def.153,217 sur. 84,135	Divs. on Stock.	c82,389	Balance, Deficit. \$77,122 235,606 249,277
----------------------------------------------------------------------------------------	-----------	----------------------------------------------------------------	--------------------	---------	--------------------------------------------------------

b Includes \$49,538 for cliff explorations. c 16%.

To the net loss as above in 1909 there was added for balance of interest paid \$51,424, and deducted a dividend of \$4 per share (\$100,000) received on Lake Superior Smelting Co. stock, leaving a net decrease in assets for the year of \$28,547. Fine copper produced, 13,533,207 lbs. in 1909 (of which \$13,118,785 lbs. sold during 1909), against 12,806,127 lbs. in 1908 and 11,078,604 lbs. in 1907; average price received, 13.32 cents in 1909, against 13.39 cents in 1908 and 18,38 cents in 1907.—V. 88, p. 1066.

Union Oil Co. of California, Los Angeles.—Notes Sold.-The company has sold to James H. Adams & Co. and W. R. Staats & Co. its \$1,000,000 of 2-year coupon debenture notes. The notes are convertible into stock.-V. 90, p. 508.

Utah Copper Co.-Dividend Increased.-The directors yesterday declared a regular quarterly dividend of 75c. a share (par \$10), payable on March 31 on stock of record March 18, being an increase of 25c. a share over the last

disbursement and placing the stock on an annual 30% basis. In Practical Control.—Of the 2,000,000 shares of the Nevada Consolidated Copper Co., 950,476, it is stated, have been deposited under the plan, carrying virtual control.—V. 90, p. 564, 451.

Western Union Telegraph Co.-Acquisition.-The company has acquired an additional block of the stock of the American District Telegraph Co. of New Jersey, sufficient, it is stated, to give it between one-third and one-half of the entire outstanding \$9,965,351 outstanding stock.

The step, President Clowry says, is really nothing more than the taking up by the company of stock which had been held by its officers and by their friends and relatives and which had given the company through proxies virtual control in the past.

Night Letter Service.—The company and the Postal Telegraph Co. on March 7 inaugurated a new system for sending anywhere within the United States 50-word letters at night at the cost of 10 words during the day.

Messages filed any time up to midnight will be delivered the next morning either by mail or messenger at the option of the company. The new system is expected to contribute largely to the earnings after the advant-ages are fully appreciated.—V. 90, p. 568, 508.

Earnings.—For three and nine months ending March 31 (partly estimated in 1910):

<b>3</b> Mos,— Net Rev.	Dividends Paid.	Bal., Sur.
1910 (estimated)_\$1,750,000	(¾%) \$747,697	\$569,241
1909 (actual) 1,684,893	(¾%) 747,199	504,632
9 Mos.— 1909-10 \$5,426,475 1908-09 5,479,912 —V. 90, p. 564, 506.	(2 14%) \$2,242,828 (2%) 1,992,044	\$1,884,461 2,188,681

Wheeling (W. Va.) Steel & Iron Co.—Earnings.—A trade journal reports:

The profits in 1909 were \$1,118,189, being the largest in any year. surplus at the close of the fiscal year was \$2,320,237.—V. 90, p. 564. The

Whitaker-Glessner Co., Wheeling, W. Va.-New Officers. The officers have been changed as follows, owing to the

#### The Commercial Times.

#### COMMERCIAL EPITOME.

Friday Night, March 11 1910.

With railroad earnings and bank clearings large and the financial situation apparently more reassuring, trade seems to be gradually improving. The West is apparently pur-chasing iron and steel equipment on a larger scale. There is no tendency, however, to over trade. The impress of conservatism is still plain throughout the ramifications of American trade.

LARD on the spot has advanced. Trading has been quiet, but hogs have continued to advance and supplies of product are light. Prime Western 14.30c. and Middle Western 14.35c. Refined lard has also been dull and stronger. Continent 14.65c., South America 15.10c. and Brazil in kegs 16.10c. Speculation in lard futures here has been quiet, with the trend of prices upward. At the West the trading has been on a large scale at an advance in prices. Stimulating factors have been a further rise in prices of live hogs, predictions of still higher quotations, the belief that the movement of hogs to market will continue light, and buying by packers and commission houses. The selling has been mainly to secure profits.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.	
May delivery	13.32	13.32	13.45	13.80	13.80	13.95	
July delivery		13.25	13.32	13.67	13.65	13.80	

PORK on the spot has been dull but firmer, owing to the strong live-hog situation. Mess \$26 50, clear \$25@\$28 and family \$26@\$28. Beef has advanced, with trade dull and supplies small. Mess \$14 50@\$15, packet \$14 50@ \$15 50, family \$18@\$18 50 and extra India mess \$24 50@ \$25. Cut meats have been stronger; trade has been quiet but stocks are small. Pickled hams, regular, 14³/₄@15c.; pickled bellies, clear, 17@18c.; ribs 15@16c. Tallow has been dull and strong; City 7c. Stearines have advanced, with trade dull; oleo 16@17c., lard 14@1434c. Butter has been in moderate demand and easier; creamery extras 32c. Cheese has been quiet and firm; State, f. c., fall make, fancy, 17¹/₄c. Eggs quiet and firmer; Western firsts 25@25¹/₂c.

OIL.-Linseed has been quiet and firm. Consumers are believed to hold small supplies. City, raw, American seed, 77@78c.; boiled 78@79c.; Calcutta, raw, 85c. Cotton-seed oil on the spot has been in moderate demand and stronger; the speculation in futures has been active. Winter 7.40@7.90c.; summer white 7.40@7.65c. Lard has been strong or higher, owing to the rising trend of the raw material. Prime is almost unobtainable and supplies of lower grades are light. Prime \$1 25@\$1 28; No. 1 extra 65@ 69c. Cocoanut has been quiet and firm; Cochin 95/8@93/4c.; Ceylon  $9\frac{1}{4}@9\frac{3}{8}c$ . Olive has been quiet and firm at 80@85c. Peanut has been quiet and steady; yellow 62@67c. Fish oils have been active. The scarcity and high prices of animal oils has increased the number of consumers of fish oils. Cod firm; domestic 38@40c.; Newfoundland 42@44c.

COFFEE on the spot has been quiet and firm. Rio No. 7,  $8\frac{3}{4}$ @8 $\frac{7}{8}$ c.; Santos No. 4,  $9\frac{1}{4}$ @9 $\frac{3}{8}$ c. West India growths have been quiet and steady; fair to good Cucuta 10@10 $\frac{1}{2}$ c. In our last issue the stock here, other than Brazilian, was inadvertently misstated at 3,888,215 bags; it should have been 388,215. The speculation in future contracts has on the whole been fairly active. Changes in prices have been few and slight. There has been scattered liquidation by local and Wall Street longs and also some selling by Europe. On the other hand, local trade interests have continued to Closing prices were as follows:

-The progressive Chicago bond house of Reynolds, Watson & Co. has just appointed as its representative in Michigan territory, with headquarters in Detroit, W. O. Millikin, who for ten years or more, has been a successful salesman for the Oliver Typewriter Co.

-Messrs. Swartwout & Appenzellar, 44 Pine Street, this city, have issued in the usual clear and neat form a new edition of their circular on equipment bonds and car trusts. This should prove helpfull to investors in this class of security.

-A. E. Fitkin & Co. of New York, Boston and Philadelphia, have opened a branch office at 218 La Salle Street, Chicago, with Jas. G. Parsons as manager, to deal in the conservative investment securities.

SUGAR.—Raw has been quiet. Of late the tone has been easier but without marked change in prices. Centrifugal, 96-degrees test, 4.36c.; muscovado, 89-degrees test, 3.86c.; molasses, 89-degrees test, 3.61c. Refined has been quiet and firm. Granulated 5.25c. Teas have been firm and more active. Spices have been quiet and steady. Wool has been quiet and firm. Hops dull and steady.

PETROLEUM.-Refined has been steady with a small trade. Barrels 7.90c., bulk 4.40c. and cases 10.30c. Gasoline has been in fair demand and steady; 86 degrees in 100gallon drums 1834c.; drums \$8 50 extra. Naphtha has been active and steady; 73@76 degrees in 100-gallon drums 16³/₄c.; drums \$8 50 extra. Spirits of turpentine has been quiet and firm at 63¹/₂c. Rosin has been quiet and firm; common to good strained \$4 60. TOBACCO.—The situation in the market for domestic

leaf remains practically unchanged. Purchases have been on a hand-to-mouth scale. Stocks generally light and prices firm. Havana and Sumatra quiet and steady.

COPPER has been quiet and easy, though without marked changes. Lake  $13\frac{5}{6}$ @13³/4c.; electrolytic  $13\frac{3}{6}$ @13¹/2c.; casting  $13\frac{1}{6}$ @13¹/4c. Lead has been dull and easy at 4.60c. Spelter has been quiet and easy at 5.70c. Tin has been quiet and easier; spot 32.45c. Pig iron has been easier, with a moderate trade in small lots. No. 1 Northern \$18@\$18_50; No. 2 Southern \$17 25@\$17 75.

#### MAR. 12 1910.

#### COTTON.

Friday Night, March 11 1910. THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 81,933 bales, against 85,767 bales last week and 85,129 bales the previous week, making the total receipts since Sept. 1 1909 6,132,126 bales, against 8,317,458 bales for the same period of 1908-09, showing a decrease since Sept. 1 1909 of 2,185,332 bales.

Speculation in cotton for future delivery has continued on a fair scale at some further advance on the present-crop months, especially May. Next-crop deliveries declined slightly for a time. They rallied to-day. Much of the speculative attention has been fixed upon the May option, about which various stories have been afloat. There is talk to the effect that the short interest in that month may be subjected to manipulation amounting to a squeeze. The air is filled with rumors that the bull clique here, composed of four wellknown men, have taken up something like 60,000 bales on March notices and intend to export this cotton to Europe. There are also rumors that they may take considerable more cotton before the end of the month, thus gaining practical control of the certificated stock here. Some think that the manipulation is too obvious, and the buying too open and the time too early to warrant serious belief in a genuine corner of the May option. At Alexandria, Egypt, prices have advanced sharply, Liverpool has been strong, the New York situation seems to be closely watched there, Liverpool's spot sales have latterly increased and the certificated stock here has steadily decreased. The falling off here thus far this month amounts to 11,700 bales. Some rain has fallen in some sections of Texas, but it is said that important parts of that State still need moisture. The receipts at the ports have been light. Spot interests have bought May and Liverpool has bought the next-crop months to some extent. New Orleans and Southern buying, including buying for sup-port by Southern operators now here, has had some effect. Bulls take the ground that the statistical position favors their contention that prices sooner or later must reach a higher level. Spot markets have been firm as a rule, though here and there indications of more disposition to sell have been noticeable. As to the speculation, it is contended that much of the so-called weak long interest has recently been eliminated. Covering of shorts by various interests has contributed to the advance in the May option. On the other hand, however, speculation has been for the most part quiet, spot cotton is slow, curtailment of working time is wide-spread and not a few conservative and experienced people maintain that supplies will be ample for the rest of the sea-Yarns have continued dull and depressed, and sales son. of cloths appear to be but moderate, to say the least. Of late, too, rains have fallen in various parts of Texas, and re-ports from some sections of that State are to the effect that there is a good "season" in the ground, and that farm work is making satisfactory progress. Similar reports have been received from Alabama and other sections. Late in the week heavy rains were reported at Galveston and Houston. Large spot interests were sellers here. The belief is very general that the next acreage will be very large, possibly the largest ever known, and that under ordinary circumstances a bountiful crop will be produced. As prices are high all over the world, it seems a fair inference that every effort will be made to raise as big crops as possible in other cotton-producing countries. Certain spot interests are believed to be selling May against the actual cotton. Large New Orleans operators, it is said, have sold more or less from time to time. Liquidation by local, Southern and Wall Street interests has also been noticeable. The local authorities at Atlanta, Ga., are said to be trying to prevent trading in cotton "futures" there. To-day prices were irregular, closing at a small advance on reports of a larger spot demand, dry weather in Texas, firmer Liverpool cables, bull support and covering. Spot cotton here has been more active. Middling uplands closed at 15.10c., an advance for the week of 15 points.

In addition to above exports, our telegrams to-night also give us the following amounts of cotton on shipboard, not cleared, at the ports named. We add similar figures for New York.

The official quotation for middling upland cotton in the New York market each day for the past week has been:

WEATHER REPORTS BY TELEGRAPH.—Telegraphic advices to us this evening from the South indicate that the weather has been favorable generally during the week, and that in consequence farm work has made very good progress.

Galveston, Texas.-It has rained on one day during the week, the rainfall reaching one inch and forty-four hundredths. Average thermometer 62, highest 76, lowest 48.

Abilene, Texas.-There has been rain on one day during the week, the rainfall being sixteen hundredths of an inch. The thermometer has averaged 62, the highest being 90 and the lowest 34.

Corpus Christi, Texas.-We have had no rain during the week. The thermometer has averaged 65, ranging from 52 to 78.

Fort Worth, Texas.—We have had a trace of rain on one day during the week. The thermometer has ranged from 36 to 88, averaging 62.

Palestine, Texas.—There has been rain on two days during the week, the rainfall reaching sixty hundredths of an inch.

Average thermometer 62, highest 82 and lowest 42. San Antonio, Texas.—There has been rain on one day during the week, the rainfall being eighteen hundredths of an inch. The thermometer has averaged 65, the highest being 88 and the lowest 42.

Taylor, Texas.-We have had rain on two days of the week, to the extent of twenty hundredths of an inch. The therometer has averaged 61, ranging from 38 to 84.

Mobile, Alabama.—Planting preparations are reported well advanced, but it is generally believed there will be no material increase in cotton acreage, owing to the high prices of grain and provisions. Rain has fallen on one day during the week, the rainfall being fifty-two hundredths of an inch.

The thermometer has averaged 67, ranging from 53 to 83. Montgomery, Alabama.—We have had rain on one day during the week, the rainfall being ten hundredths of an inch. The thermometer has ranged from 46 to 83, averaging 65.

Selma, Alabama.—It has rained on one day of the week, the precipitation being one inch. Average thermometer 62, highest 79, lowest 42.

Madison, Florida.—There has been no rain the past week. The thermometer has averaged 67, the highest being 83 and the lowest 41.

Savannah, Georgia.—There has been no rain the past week. The thermometer ranged from 50 to 82, averaging 65.

Charleston, South Carolina.-We have had no rain during the week. Average thermometer 65, highest 80, lowest 50.

Charlotte, North Carolina.—Farm work is well under way. There has been rain on one day the past week, the rainfall being thirty-eight hundredths of an inch. The thermometer has averaged 56, the highest being 75 and the lowest 35.

EUROPEAN COTTON CONSUMPTION TO FEB. 1. By cable to-day we have Mr. Ellison's cotton figures brought down to Feb. 1. We give also revised totals for last year that comparison may be made. The spinners' takings in actual bales and pounds have been as follows:

October 1 to February 1.	Great Britain.	Continent.	Total.
For 1909-10. Takings by spinnersbales Average weight of baleslbs. Takings in pounds		489	
For 1908-09. Takings by spinnersbales Average weight of baleslbs. Takings in pounds	1,295,000 506 655,270,000	487	494.4

According to the above, the average weight of the deliverie⁸ in Great Britain is 502 lbs. per bale this season, against 506 lbs. during the same time last season. The Continental deliveries average 489 lbs., against 487 lbs. last year, and for the whole of Europe the deliveries average 493.9 lbs. per bale, against 494.4 lbs. last season. Our dispatch also gives the full movement for this year and last year in bales of 500 lbs.

October 1 to February 1. Bales of 500 lbs. each.		<b>1909-1</b> 0		1908-09.

* Small consumption due to lockout in Lancashire.

Our cable also states that Mr. Ellison reduces by over 1,000,000 bales the figures given last October of estimated requirements for the season of 1909-10, deducting 1,105,000 bales from the total of American and 250,000 bales from the Egyptian aggregate then given, and increasing East Indian by 200,000 bales and sundries by 50,000 bales. The revised estimate stated in ordinary bales is as follows:

	Estimated. 1909-10.	Actual. 1908-09.	Actual. 1907-08.
Requirements—Ordinary bales— American East Indian Egyptian Sundries	Bales. 11,520,000 1,500,000 700,000 450,000	945,000	
Total requirements	14,170,000	14,969,000	14,307,000

Our readers should remember, of course, that these figures are not intended to be estimates of the yield in various countries, Mr. Ellison confining himself to indicating the extent to which, in his belief, each source of supply will be called upon to contribute to the season's consumptive requirements. In other words, he is of the opinion that 14,170,000 bales of ordinary weight will be necessary in order to leave mill stocks unchanged. As regards consumption, he remarks that high prices have reduced the demand for goods, and there will be further curtailment of production unless prices decline

SHIPPING NEWS .- As shown on a previous page, the exports of cotton from the United States the past week have reached 67,397 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

#### BREADSTUFFS.

#### Friday, March 11 1910.

Prices for wheat flour have been somewhat irregular during the week, owing to the sharp fluctuations in wheat. The changes have been comparatively slight as a rule, however, and to a large extent merely nominal. There has been a somewhat larger inquiry at times, but actual business has been small as bids have been below the views of sellers. Most of the reports from the markets of the West and the Southwest have continued to tell of unsatisfactory conditions. At the Northwest trade moderately active at firm prices. Rye flour quiet and steady. Corn meal dull and easier.

Wheat has advanced mainly on continued reports of damage to the crop in the Southwest. Moreover, the Governmentt report which appeared on the 8th inst., dealing with farm reserves in this country, was construed as bullish in one sense, since it put the quantity some 25,000,000 bushels smaller than was expected. In other words, whereas a total had been looked for by some of something like 200,000,000 bushels, the actual total as stated by the Government was 173,344,000 bushels, against 143,692,000 a year ago and 148,721,000 at this time in 1908. Cash interests have been buying May and September. Some Kansas reports have asserted that the damage in that State ranged anywhere from 25 to 50%. One estimate of the yield in that State is 60,000,000 bushels, against 82,000,000 last year. The Patten following is credited with being bullish on the situation. Bulls in general dilate not only on the reports of damage in Kansas but on similar reports from parts of Nebraska and Missouri. Cash prices for wheat and flour at the Northwest have been strong, but on the other hand export business continues lacking. The Kansas Grain-dealers' Association states that, while the damage on 282,000 acres in that State is from 50 to 60%, on approximately 3,350,000 acres it would not exceed 10%. It is insisted that the stories of damage are in many cases greatly exaggerated. Farm re-serves are larger than those of the last two years. Cash markets have much of the time been quiet. Cincinnati reports in regard to the condition of the crop state that in the Southwest it is less unfavorable than it was recently, and that east of the Mississippi the indications are almost uniformly favorable. The receipts have been liberal. In five days the stock at Minneapolis increased 625,000 bushels and for the week the increase amounts to 825,000 bushels. The foreign markets have evidently become sceptical of the damage re-ports from this country. They have either declined at times or else advanced but feebly at others. Speculation for and against the price is the principal force in the trading. The belief of some is that sooner or later prices must take a downward trend, though there are liable to be occasional upturns due to crop "scares." To-day prices declined early on dul-ness on the spot, liberal receipts and liquidation. Later there was a rally on bullish crop reports.

Indian corn futures in the local market have been extremely dull. At the West the speculation has been active and excited with sharp and irregular changes in prices. But sentiment is bearish in the main, owing to the steadily accumulating supplies at the primary markets and dullness and depression on the spot. On the 8th inst. the Govern-ment report stated the amount held by farmers at 1,050,865,-000 bushels, against 1,047,763,000 last year and 962,429,000 two years ago. There has been active liquidation on the short side at times, causing rallies. Cash interests have sold heavily, however, and there has been extensive liquidation. To-day prices were lower at one time on selling by cash houses and long liquidation, but they rallied later on covering of shorts.

Oats for future delivery in the Western market have been irregular, reflecting the fluctuations in corn. Cash interests have been prominent in the selling. There has been con-siderable liquidation for country account. The cash demand has been light. The Government stated the farm reserves at 363,159,000 bushels, against 278,847,000 last year and 267,476,000 two years ago. The buying has been largely to cover shorts. To-day prices were irregular, closing higher with the rest of the list. Offerings were light and shorts covered.

AGRICULTURAL DEPARTMENT'S REPORT CEREAL STOCKS .- The Agricultural Department's report on cereal stocks, &c., was issued on March 8 as follows:

On cereal stocks, &c., was issued on March 8 as follows: The Crop Reporting Board of the Bureau of Statistics of the United States Department of Agriculture estimates, from the reports of correspondents and agents of the Bureau, that the quantity of wheat in farmers' hands on March 1 1910 was about 23.5%, equivalent to 173,344,000 bushels, of last year's crop, as compared with 21.6% (143,692,000 bushels) the average for the past 10 years of the quantity on hand on March 1. It is estimated that about 59.3% of the crop will be shipped out of the counties where grown, as compared with 59.2% of the 1908 crop, and 56.6% the average for the past 10 years so shipped out. The quantity of corn in farmers' hands on March 1 1910 is estimated as 37.9%, equivalent to 1,050,865,000 bushels, of last year's crop, as com-pared with 39.3% (1,047,763,000 bushels) of the 1908 crop on hand March 1 1909 and 38.2% (925,386,000 bushels) of the 1908 crop on hand March 1 1909 and 38.2% (of the 1908 crop and 20% the average for the past 10 years so shipped out. The proportion of the total crop which is merchant-able is estimated as 82.6% of the 1909 crop as compared with 88.2% of the 1908 crop and 83.6% the average of the past 10 years. The quantity of oats in farmers' hands on March 1 1910 is estimated as 36.1%, equivalent to 363,159,000 bushels) of the average for the past 10 years so shipped out. The proportion of the total crop which is merchant-able is estimated as 82.6% of the 1908 crop on hand March 1 1909 and 86.4% (310,763,000 bushels) of last year's crop, as compared with 34.6% (278,847,000 bushels) of last year's crop, as compared with 34.6% of the crop on hand March 1. It is estimated as 36.1%, equivalent to 363,159,000 bushels) of last year's crop, as compared with 34.6% of the crop on hand March 1. It is estimated as 36.1%, equivalent to 363,159,000 bushels) of last year's crop, as compared with 34.6% (278,847,000 bushels) of the some crop on hand March 1 1909 and 36.4% (310,763,000 bushels)

The stock of wheat on March 1 for 11 years is shown in the subjoined table:

#### THE DRY GOODS TRADE

New York, Friday Night, March 11 1910. Conditions in most divisions of the textile trade continued to show more or less irregularity during the past week, and the volume of business done was generally light. The primary cotton goods situation remained practically unchanged, except that it seemed even more difficult for buyers and sellers to get together on prices mutually satisfactory, and with no signs of relief from the high cost of production, manufacturers appeared firmer in their views on contracts for future delivery; on several lines of finished goods current prices, as is well known, leave little or no margin of profit to mills, and the latter, for obvious reasons, are not disposed to force sales at such levels. Selling agents, arguing that the market is on a safe basis, made further efforts to convince buyers of the wisdom of covering future requirements, espec-ially in view of the present and prospective curtailment by manufacturers; but without much success. In some directions distributers whose stocks needed replenishing operated somewhat more freely in the way of placing supplementary orders for spring and summer lines offered at attractive prices, transactions being confined principally to stock goods. Buyers, however, were as a rule still disinclined to anticipate beyond immediate or near-by requirements at the prices named by sellers, and continued to press for concessions. Gray goods ruled quiet and rather irregular; converters seemed to have little confidence in the stability of current prices, being able, according to reports, to secure moderate concessions from second hands, and operated in a hand-tomouth fashion, mostly on spot goods; the limited purchases of regular print cloths by the Borden interests in the latter part of last week at  $4\frac{1}{4}c$ ., an advance of  $\frac{1}{4}c$ . over the previous quotation, apparently failed to stimulate business in that line or to strengthen the views of consumers generally. Jobbers succeeded in moving a moderate volume of spring merchandise in the aggregate, but, as in the preceding week, bulk business was limited and demand from retailers spasmodic. No improvement was noted in the cotton yarn situation, prices continuing weak, stocks large and demand slow. Silk piece goods moved better in the secondary than in the primary market. Men's wear lines for fall were somewhat more active, but demand was not uniformly good and trade as a whole was below expectations. In the domestic dress goods market, also, some fabrics met with a satisfactory sale while others dragged.

The value of these New York exports since Jan. 1 has been \$1,984,979 in 1910, against \$3,335,742 in 1909.

The new jobbing price on staple prints took effect on Tuesday last; the application of buyers in anticipation of the advance was reported much less active than usual under similar conditions, and reorders on the new basis have come forward slowly; printers who have not followed the advance, however, secured a fair amount of business. In this connection the curtailment begun by print cloth mills and by some printers is noteworthy. New lines of ginghams were shown during the week by the Amoskeag Company at prices considered attractive, and met with an active demand. Trade in drills and sheetings was of moderate volume and mostly at concessions ranging from 1/4c. to 1/2c. from top prices. Bleached goods were rather quiet, with revisions reported on unbranded lines. Agents handling cotton goods received more inquiries, but experienced difficulty in securing prices demanded by mills. Fine and fancy cottons were in fair request. In the export market trade with miscellaneous ports increased and broadened somewhat, following the recent revision in prices, but business with the Far East remained quiet. Individual transactions in the print-cloth market were small and confined chiefly to spots and near-by deliveries, the aggregate also being light; further curtailment was announced among Eastern and Southern mills. Prices showed considerable irregularity; regulars are quoted at 4c. to  $4\frac{1}{4}$ c. and standard wide goods at  $5\frac{1}{2}$ c.

WOOLEN GOODS.—While a better demand for men's wear was noted in some quarters, business on fall lines so far has not been satisfactory to sellers generally; the latter, however, appear confident that trade will improve shortly, as it is believed that buyers will need considerably more goods. The call for carded wool suitings and overcoatings for fall has been unusually heavy, and has resulted in the withdrawal of these lines by the leading interest. High-grade woolens have moved well and several producers have announced their inability to accept further orders on some styles. A little more interest was displayed in fancy worsted piece dyes, but the demand continued below expectations. Trading for spring was confined largely to light-weight cassimeres, supplies of which are said to be limited. In the dress goods division the demand from cutters for fall fabrics was irregular; staples were taken quite freely but fancies received comparatively little attention.

FOREIGN DRY GOODS.—Imported woolen and worsted fabrics continued in fair request; houses handling French goods have been obliged to proceed cautiously, owing to tariff uncertainties. Linens ruled strong and active, with supplies in many lines inadequate to meet demands. In the burlap market futures were firm in sympathy with advances abroad; spots, however, were dull, with an easy tone, and prices lower, light-weights being quoted at 3.30c. and  $10\frac{1}{2}$ ounce at 4.30c. to 4.35c.

#### CITY DEPARTMENT. STATE AND

#### News Items.

Argentine Republic.—Bonds Listed.—On March 9 £2,000,-000 5% bonds of the Internal Gold Loan of 1909 were admitted to the Stock List of the New York Stock Exchange-The entire loan amounted to £10,000,000 and the part just listed is that portion allotted in this country. In all dealings \$5 is to be the equivalent of £1 sterling. For description of bonds see V. 88, p. 639.

Erie, Erie County, Pa.—Tenders of Bonds Requested.— Proposals will be received until 12 m. April 1 by the Board of Sinking Fund Commissioners, Bernard Cochran, President, John A. Gensheimer, Secretary and A. S. Pinney, Treasurer, for the purchase by the city of \$125,000 refunding bonds dated Jan. 1 1894. The price at which these bonds will be taken by the city is limited to  $101\frac{1}{2}$ .

Garden City, Forney County, Kan.—Suit to Compel Regis-tration of Railroad-Aid Bonds.—Arguments were heard by the State Supreme Court on March 7 in a suit brought to compel the State Auditor to register \$20,000 bonds voted in aid of the Garden City Gulf & Northern RR. Co. The Topeka "Capital" says:

* "The city voted \$20,000 worth of bonds to purchase right-of-way and other property for the railroad company, and in return the company was to make certain improvements in Garden City. The State Auditor held up the bonds for the reason that the people living along the proposed line of the road had given the company the right-of-way and because the \$20,000 would, in his opinion, cover the costs of all the improvements planned for. He held that all the law authorized the city to do was to vote bonds to "ald" the company. The company claims the bonds as a bonus, and claims it has filled its part of the agreement."

As stated last week, suit has also been brought in the Supreme Court to compel the Commissoiners of Scott County to deliver to the Garden City Gulf & Northern RR. Co. \$11,-000 bonds voted to aid the company in building its line from Scott City to Garden City.

Illinois.—Legislature Adjourns.—The Legislature of this State, which convened in special session on Dec. 14 1909 (V. 89, p. 1553), adjourned at 8:15 p. m. on March 2. Among the Acts passed were the following:

Joint resolution ratifying proposed income tax amendment to the U. S. Constitution, direct primaries bills, employers' liability Act, bill requir-ing the Chicago Sanitary District to open and operate the lock between the Des Plaines River and the Drainage Canal at Lockport, and bill appro-priating \$10,000 for the appeal of the Economy Light & Power suit to the Federal courts.

The Legislature failed to pass the bill recommended by the Governor for the issuance of the \$20,000,000 waterway bonds.

Japan.-Bonds to Be Offered Shortly.-It has been reported that official announcement will be made about March 15 of another offering of \$50,000,000 4% refunding bonds. As stated in V. 90, p. 572, the \$50,000,000 bonds offered on Feb. 25 were about twice over-subscribed.

Lexington School District No. 1 (P. O. Lexington), Dawson County, Neb.-Bonds Declared Valid by State Supreme Court,-The State Supreme Court has affirmed the decision of the lower court sustaining the validity of the \$50,000 school bonds voted on at the election held Aug. 30 1909. See V. 90, p. 517.

Madison County (P. O. Huntsville), Ala.—Bonds Declared Valid by Supreme Court.—According to the Nashville "Ban-ner" of March 8, the State Supreme Court has affirmed the decision of Judge Betts of the Law and Equity Court, upholding the county's right to issue the \$50,000  $4\frac{1}{2}$ % re-funding bonds awarded on June 28 1909 to S. Kuhn & Sons of Cincinnati. See V. 89, p. 61.

Mississippi.—Income Tax Amendment Taken Up by Legis-lature.—A joint resolution ratifying the proposed income tax amendment to the United States Constitution received a favorable vote in the Senate on Feb. 3. In V. 90, p. 388, we reported that the proposed amendment had been approved by the House on Jan. 29. Attention has been called by the Speaker of the House to the fact that in signifying their approval of the amendment, both the Senate and House adopted separate resolutions while the Constitution provides that both branches of the Legislature must adopt the same resolution in order that it may be effective.

1910. The borrowing capacity on Jan. 1 1910 is fixed at \$58,764,207, the same figures given in the statement of debt included in the Mayor's annual message to the Board of Aldermen. See V. 90, p. 179. The present sale, it is ex-plained, will have very little effect on the borrowing capacity of the city, the water bonds being exempt by law from the computation of the city's debt limit, while a large part of the other bonds offered is for the purpose of refunding obligations that were included in the city's debt in arriving at the margin of \$58,764,207 referred to above

New York State.—Assembly Passes Bill Proposing Change in Manner of Amending Constitution.—The Dana concurrent resolution providing that future amendments to the constitution must have a two-thirds majority of the votes cast in either House of the Legislature, and must also receive a favorable vote equal to at least one-third of the number of electors voting for members of the General Assembly, was passed by the Assembly on March 1 by a vote of 78 to 46. The resolution is now before the Senate, and if approved by that body will be taken up at next year's session of the Legis-lature. We give the proposed amendment below, italicizing the parts to be added to the old law and placing in brackets the words to be eliminated:

the parts to be added to the old law and placing in Drackets the words to be eliminated: CONCURRENT RESOLUTION OF THE SENATE AND ASSEMBLY Proposing an amendment to Section 1 of Article 14 of the constitution, in relation to amendments, how proposed, voted upon and ratified. Section 1. Resolved (if the Senate concur), That Section 1 of Article 14 of the constitution be amended to read as follows: ARTICLE XIV. Section 1. Any amendment or amendments to this constitution may be proposed in the Senate and Assembly; and if the same shall be agreed to by [a majority] two-thirds of the members elected to each of the two houses, such proposed amendment or amendments shall be entered on their journals, and the yeas and nays taken thereon, and re-ferred to the Legislature to be chosen at the next general election of Sena-tors, and shall be published for three months previous to the time of making such choice; and if in the Legislature so next chosen, as aforesaid, such pro-posed amendment or amendments shall be agreed to by [a majority] two-thirds af all the members elected to each house, then it shall be the duty of the Legislature to submit each proposed amendments shall be submitted to the people for approval in such manner and at such times as the Legislature shall prescribe; and if such amendment or amendments shall be submitted to the people at a general election at which members of Assembly at such election, or if submitted at any other elector, if the people shall approve and ratify such amendment or amendments by a majority vote of the electors voting thereon, and the vote in favor thereof shall equal one-third of the total vote for members of Assembly at such election, or if submitted at any other election, if the people shall approve and ratify such amendment or amendments by a majority vote of the electors voting thereon, and the vote in favor thereof shall equal one-third of the total vote for members of Assembly at the last preceding general election at which members of Assembly were elected, such amendm

Such approval. Sec. 2. Resolved (if the Senate concur), That the foregoing amendment be referred to the Legislature to be chosen at the next general election of Senators, and, in conformity with Section 1, Article 14 of the constitution, be published for three months previous to the time of such election.

Comptroller's Report.—The report of State Comptroller Clark Williams for the fiscal year ending Sept. 30 1909 was submitted to the Legislature on March 7. It is a carefully prepared document, giving all essential facts in concise form. After furnishing in detail comparative statements of receipts and expendi-tures for 1908 and 1909, sinking funds, State debt and the estimated re-ceipts and expenditures for the current year, the Comptroller shows that the cost of collecting taxes in 1909 was as follows:

	Amt. collected	4	Percentage
	in 1909.	Cost.	of cost.
	Corporation tax\$8,671,920	\$31.912	.00368
	Stock transfer tax 5,355,546	42,631	.00797
	Mortgage tax 1,844,821	28,718	.0155
1	Tax on transfers of decedents' estates 7,368,995	428.871	057

partments and institutions. Canals, highways, the tax on State lands, the financial systems of prisons of the State, expense of legislative and department printing, the abolition of the United States Deposit Fund Commissioners, municipal account ex-amining and the administration of court and trust funds are also dealt with in the report.

Ohio.—To Test Validity of Cole Tax Law.—Attorney-General Grant Denman in a formal letter to Governor Harman and the Finance, Taxation and Judiciary committees of the Legislature gives notice that action is to be taken by the State against the Buckeye Pipe Line Co., a subsidiary of the Standard Oil Co., to enforce the payment of taxes levied under the Cole Tax Law, which imposes a 1% tax upon the gross receipts of certain public utility corporations and the gross earnings of steam and electric railroads. The proceeds of this tax are said to amount to about \$2,000,000 annually and in view of the fact that many of the corporations have adopted the policy of resisting payment of the tax, the Attorney-General urges the General Assembly to take action to guard against the possible loss of this revenue. In Nov. 1908 the Buckeye Co. opposed the payment of the tax upon its entire receipts, contending that the State could only levy on the receipts from business done within the State. In support of this action the company, it is alleged. called attention to a certain decision of the United States Supreme Court in the case of a Texas railway against the State in which it was held that no excise tax could be imposed on gross earnings a part of which came from inter-State business. San Francisco, Cal.-Suit to Enjoin Issuance of Bands for

New York City.-First Public Bond Sale Under New Administration.—On a subsequent page we give a description of the \$50,000,000 corporate stock, proposals for which are to be opened at 2 p. m. on March 21. This offering, which is the first to be made by the new city officials elected last November, is of particular interest, inasmuch as the rate of interest has been slightly raised. The new issue will bear 41/4% interest. Furthermore, the bonds will be subject to call after twenty years instead of running for a straight fifty-year term as heretofore. It will also be noticed that none of the bonds is issued for "various municipal purposes," the Comptroller designating just what part of the proceeds of the sale is to be used for each separate purpose. It is announced that this method will be adopted with all future bond issues. It had been the practice of Comptroller Metz to leave the matter of the assignment of the bonds to their several purposes until some time after the sale. In addition to having the interest payable in New York and London, it may also be collected through the city's agent in Paris. A statement has been prepared by Comptroller Prendergast showing the bonded debt of the city as of Jan. 1 1910 as well as the estimated receipts and expenditures for

\$2,020,000 Geary Street Railroad bonds voted Dec. 30 1909. See V. 90, p. 64.

**Texas.**—Income Tax Amendment Ratified by House.—A joint resolution ratifying the proposed Income Tax Amendment to the Federal Constitution was adopted by the House on March 4. The measure now goes before the Senate.

**Virginia**.—Legislature Takes Action on Income Tax Amend-ment.—By a vote of 37 "ayes" to 54 "noes" the House of Delegates on March 7 rejected the proposed Sixteenth Amendment to the Constitution of the United States providing for the levying of an income tax. A resolution ratifying the proposed tax was adopted in the Senate on March 9 by a vote of 19 to 5.

#### **Bond Calls and Redemptions.**

Denver, Colo .- Bond Call .- The following bonds will be redeemed on March 31:

#### Bond Proposals and Negotiations this week have been as follows:

Abilene. Kan.—Commission Form of Government Adopted. -An election held March 1 resulted in favor of a commission form of government.

Albemarle, Stanley County, No. Caro.—Bond Sale.—The J. B. McCrary Co. of Atlanta has purchased \$20,000  $5\frac{1}{2}$ % light and street bonds. These securities take the place of \$13,000 bonds (V. 89, p. 1438) proposals for which were asked until Nov. 29 1909.

Denomination \$1,000. Date Jan. 1 1910. Interest semi-annual. Ma-turity Jan. 1 1940.

Allerton Independent School District (P. O. Allerton), Wayne County, Iowa.—Bond Offering.—Further details are at hand relative to the offering of the \$12,500  $4\frac{1}{2}$ % refunding school bonds mentioned in V. 90, p. 388. Proposals will be received until 6 p. m. May 2 by J. E. Mace, District Treasurer.

Interest semi-annual. Maturity ten years, subject to call after five years. Certified check for \$1,000 is required. Purchaser to furnish blank bonds. The securities are tax-exempt and will be delivered on June 20 1910.

Alliance, Ohio.—Bonds Authorized.—Ordinances providing for the issuance of \$72,500 street and sewer bonds were passed by the City Council on Feb. 28.

Alton, Madison County, Ill.—No Bond Election.—In reply to our inquiry as to whether any action had yet been taken looking towards the holding of the \$25,000 bond election, which the Park Commission petitioned the City Council to call (V. 90, p. 249), the Comptroller informs us that no election will be held.

Amarillo Independent School District (P. O. Amarillo), Potter County, Tex.—Bonds Registered.—The \$100,000 5% 40-year school-building bonds disposed of at 102.60 on Feb. 15 (V. 90, p. 572) were registered by the State Comptroller on March 4.

Arcadia, De Soto County, Fla.—Bond Election.—It is: stated that this place intends holding an election for the purpose of having the voters decide whether bonds for extending the water and sewerage system and enlarging the school buildings shall be issued.

Archer County Common School District No. 1, Tex.-Bond Sale.—The \$20,000 5% bonds registered by the State Comptroller on Jan. 14 (V. 90, p. 249) were awarded about Feb. 15 to the Hickman Lumber Co. at 100.775. Denomination \$100. Date Aug. 19 1909. Interest annually in April Maturity 40 years, subject to call after 10 years.

Ashland, Boyd County, Ky.—Bond Sale.—This city has sold \$30,137 95 6% street-paving bonds to John Bradley

at par and accrued interest. Denomination \$500. Date Dec. 13 1909. Interest semi-annual. Ma-turity \$10,637 95 in 4 years, \$10,000 in 7 years and \$9,500 in 10 years, the city reserving the right to redeem the bonds on Dec. 13 1913 or on Dec. 13 of any year thereafter by paying par and interest.

Auburn, Cayuga County, N. Y.-Bond Sale.-The \$78,-964 31 4% sewer bonds offered on Feb. 28 and described in V. 90, p. 459, were awarded to Isaac W. Sherrill of Pough-keepsie at par and accrued interest. Maturity on Jan 4 as follows: \$2,164 31 in 1911 and \$3,200 yearly from 1912 to 1935 inclusive.

Austin, Tex.—Bond Election.—The \$75,000 school, \$150,-000 sewer and \$100,000 street bonds to be voted on at the election to be held March 18 (V. 90, p. 645), if authorized, will carry semi-annual interest at the rate of 5%. Part of each issue matures every five years from five to forty years inclusive from date.

Baird Independent School District (P. O. Baird), Callahan County, Tex.-Bond Sale .- The \$20,000 5% school-house bonds mentioned in V. 89, p. 1683, have been disposed of at par and accrued interest to the State School Fund. Maturity 40 years, subject to call after five years.

Beaumont, Texas .- Bond Offering .- Proposals will be received until 10 a. m. April 6 by J. G. Sutton, City Secretary, for the following 5% coupon bonds: \$100,000 for building and repairing school-houses, \$50,000 for sewerage and

\$10,000 for repairing and improving the streets. Denomination \$1,000. Date Dec. 1 1909. Interest semi-annually at the City Treasurer's office or at the Hanover National Bank in New York City, at the option of the holder. Maturity Dec. 1 1949, subject to call after Dec. 1 1929. Bid to be made on a blank form furnished by the city and be accompanied by a certified check on one of the banks of Beaumont for 2% of bonds bid for. These bonds were offered on March 1 (V. 90, p. 180) but the following bids received on that day were both rejected:

And accrued interest.

Bottineau), No. Dak.-Bond Sale.—On Feb. 23 the \$7,000 6% registered drain-construc-tion bonds described in V. 90, p. 516, were awarded to the First National Bank of Bottineau. Purchaser to pay accrued interest and furnish blank bonds. Maturity part yearly on May 2 for ten years.

722

Angelina County Common School District No. 32, Tex.-Bond Sale.—An issue of \$700 5% 10-year bonds has been awarded to the State School Fund at par and accrued interest.

Angleton Independent School District (P. O. Angleton), Brazoria County, Tex.-Bonds Not Sold.-No sale has yet been made of the \$17,000 5% 20-40-year (optional) bonds registered by the State Comptroller (V. 90, p. 249) on Dec. 27 **1909**.

Manna School District No. 37 (P. O. Anna), Union County, III.—Bond Offering.—Proposals will be received until March 31 by James M. Shipley, Clerk Board of Education, for \$15,000 5% grade-school bonds.

Authority vote of 321 to 68 at election held Feb. 16. Denomination \$500. Date June 1 1910. Interest annually in Anna. Maturity \$1,000 yearly on June 1 from 1912 to 1926 inclusive. Certified check for 250 is required. Bonded debt, this issue.

Appalachia, Wise County, Va.—Bond Offering.—Proposals will be received until 2 p. m. April 4 by E. A. Collins, City Recorder, for the following 5% coupon bonds, voted on Feb. 15 (V. 90, p. 645): \$14,000 to improve streets and construct sewers and bridges and \$26,000 for water-works.

Denomination \$100. Date March 1 1910. Interest annually at the Town Treasurer's office. Maturity 30 years, the \$14,000 bonds being subject to call after 15 years. Total debt, these issues (\$40,000). Assessed valuation for 1909, \$1,441,952 85.

Bradley Beach School District (P. O. Bradley Beach), Monmouth County, N. J.-Bond Offering.-Proposals will be received until 8 p. m. March 17 by Bradley Brown, District Clerk, for the \$85,000 5% coupon school bonds mentioned in V. 89, p. 1682.

Date, day of sale. Interest semi-annual. Maturity twenty years. Bonds are exempt from all taxes. Certified check for \$4,250, made pay-able to the Board of Education, is required. Total debt, including this issue, \$143,000. Assessed valuation for 1909, \$1,662,610.

Brady School District (P. O. Brady), McCulloch County, Tex.-Description of Bonds.-We are advised that the \$8,000 school-building bonds authorized at the election held Feb. 21 (V. 90, p. 645), carry 5% interest. They mature in 40 years, subject to call after 5 years.

Bridgeport Independent School District (P. O. Bridgeport), Harrison County, W. Va.—Bonds Not Sold.—No bids were received for the \$2,000 5% gold coupon school-building bonds offered on March 2 and described in V. 90, p. 388.

Burleson Independent School District (P. O. Burleson), Johnson County, Tex.—Bond Sale.—The \$17,000 5% bonds registered on Feb. 26 by the State Comptroller (V. 90, p. 645) have been sold to the State School Fund at par and accrued interest.

#### MAR. 12 1910,

Camden, N. J.—Bond Offering.—Proposals will be re-ceived until 8 p. m. March 21 by Jas. E. Hewitt, Chairman of the Finance Committee, for the following coupon or registered bonds:

\$64,000 4 1/2% dock and wharf bonds. Maturity 20 years. 40,000 4% dock bonds. Maturity 30 years. Date April 1 1910. Interest semi-angual. Certified check on a national bank for 2% of bonds bid for, payable to the City Treasurer, is required. Bids must be made upon each issue separately. Purchaser to pay accrued interest.

Canon City, Fremont County, Colo.—Description of Bonds.—We are advised that the \$25,000 5% water-works system bonds awarded on Feb. 7 to J. H. Causey & Co. of Denver at par (V. 90, p. 573) are dated April 1 1910.

Denomination \$1,000. Interest semi-annual. Maturity 15 years.

Canyon City, Tex.—Bonds Voted.—A proposition to issue \$10,000 high-school-building bonds was favorably voted upon, according to reports, at an election held March 6.

Castro County Common School District No. 1, Tex.-Bond Sale.—The State School Fund, paying par and accrued in-terest, was the purchaser of \$15,000 5% 10-40-year (optional) bonds.

**Cherokee, Crawford County, Kan.**—Bond Sale.—We are advised that the \$6,000 6% water-works-extension bonds mentioned in V. 90, p. 250, have been sold. Maturity part yearly from 1914 to 1920 inclusive.

Cheyenne, Wyo.—Bond Offering.—Proposals will be re-ceived until 8 p. m. April 5 by F. A. Bacon, City Clerk, for the \$250,000 5% coupon water-works-extension bonds mentioned in V. 90, p. 573.

Authority, Sections 1704 and 1714, Revised Statutes of 1899, and amend-ments thereof; also election held Nov. 3 1908. Denomination \$1,000. Date April 1 1910. Interest annually at the National Bank of Commerce in New York City or at the City Treasurer's office, at option of the holder. Maturity April 1 1940, the city, however, being required to redeem at least one-twentieth of the issue yearly after April 1 1925. Certified check (or cash) for \$1,500 is required. Purchaser to pay accrued interest and have bonds printed at his own expense.

Chicago (Ill.) West Park District.-No Bond Election at Present.-The Secretary of the Park Commissioners informs us that no definite action has yet been taken in regard to holding an election to vote on the question of issuing the \$1,000,000 bonds for small parks mentioned in V. 90, p. 317. He adds, however, that "the matter will probably come up at the election this fall."

Christoval Independent School District (P. O. Christoval), Tom Green County, Tex.—Bond Sale.—This district re-cently awarded \$7,000 5% 5-40-year (optional) bonds to the State School Fund at par and accrued interest.

Cincinnati, Ohio.—Bond Offering.—Proposals will be re-ceived until 12 m. April 8 by Ernest Von Bargen, City Auditor, for \$288,000 4% Elberton Ave. grading and paving (city's portion) bonds.

Authority, Sections 2835 and 2837, Revised Statutes. Denomination \$500. Date March 15 1910. Interest semi-annual. Maturity 20 years. Bonds are exempt from taxes. Certified check for 5% of amount of bonds bid for, payable to the City Auditor, is required. Bids must be made upon forms furnished by the City Auditor. Purchaser to pay accrued interest.

Bonds Authorized.—Ordinances were passed by the City Council on Feb. 21 providing for the issuance of the following 4% coupon bonds:

\$15,500 Western Avenue extension bonds, due March 15 1930.
\$10,000 park-improvement bonds, due March 15 1950.
\$15,000 public-bath-house bonds, due March 15 1930.
\$5,500 Butler Street improvement bonds, due March 15 1920.
\$29,000 Elberon Avenue bonds, due March 15 1930.

Denomination \$500. Date March 15 1910. Interest semi-annual.

Denomination \$1,000. Interest Jan. 1 and July 1. Maturity Jan. 1 1942, subject to call after Jan. 1 1928. Certified check on some chartered bank in New Orleans for 3% of bid is required. Bonds are exempt from State, parish and municipal taxation.

Newport, Cocke County, Tenn.—No Bond Election at Present.—An ordinance providing for a \$50,000 water bond election, was voted down at its third reading.

New Rochelle, N. Y .- Bond Offering .- Additional details are at hand relative to the offering on March 15 of the \$85,000 4½% registered school bonds described in last week's issue. Proposals will be received until 8 p. m. on that day by George H. C. Lischke, City Clerk.

Denomination \$1,000. Date March 1 1910. Interest May 1 and Nov. 1 at the City Treasurer's office. Maturity \$5,000 yearly on May 1 from 1914 to 1930 inclusive. Bid must be made on a printed form furnished by the city and be accompanied by a cash deposit or a certified check, on an in-corporated bank or trust company in New York State, for 5% of bonds bid for, made payable to the City Treasurer. The bonds will be delivered on March 22 1910. Purchaser to pay accrued interest. The legality of the bonds will be approved by Hawkins, Delafield & Longfellow of New York City, whose opinion will be furnished to the successful bidder.

New York City.—Bond Offering.—Proposals will be received until 2 p. m. March 21 by William A. Prendergast, City Comptroller, for \$50,000,000 41/4% gold registered or

coupon corporate stock as follows:

\$32,000,000 corporate stock for the following purposes: \$20,000,000 for lands, buildings and equipment, \$3,000,000 finance (funding uncollectible tax deficiencies), \$2,500,000 for schools, \$2,000, 000 for bridges, \$1,000,000 for docks and ferries, \$1,000,000 for hospitals, \$1,000,000 for parks (street and park openings), \$1,000,000 for streets (street and park openings) and \$500,000 for libraries

for libraries. 12,000,000 corporate stock to provide for supply of water. 6,000,000 corporate stock for the construction of rapid transit railroads. Stock issued in coupon form can be converted at any time into registered stock, and stock issued in registered form can be converted at any time

into coupon stock in denominations of \$1,000. The above bonds are exempt from all taxation except for state purposes.

Interest from and including March 21 1910 will be payable semi-annually on March 1 and Sep. 1. Maturity March 1 1960, subject to call after March 1 1930. On all stock which may be issued in coupon form interest will be paid at the option of the holders at the office of the City Comptroller in New York or by the city's agent in London, Eng., at the rate of \$4 87 to the pound sterling or by the city's agent in Paris at the rate of 5.17 francs to the dollar.

For the convenience of foreign investors arrangements have been made whereby proposals may be submitted through Seligman Bros. of London.

Either money or a certified check drawn on a trust company or State bank doing business in New York State or upon a national bank, to the order of the City Comptroller, for 2% of the par value of the stock bid for, must accompany proposals.

Under the City Charter every bidder may be required to accept a portion of the whole amount bid for by him at the same rate or proportional price specified in his bid. The charter also provides that "all-or-none" bids cannot be considered by the Comptroller unless the bidder offering to purchase "all-or-none" of the bonds offered for sale shall also offer to purchase "all or any part" thereof.

The official notice of this bond offering will be found among

Date May 15 1910. Interest payable in Lewistown. Maturity 5 years Certified check for 10%, payable to Carl N. Thompson, Clerk, is required.

St. Bernard (P. O. Cincinnati), Ohio.-Bond Sale.-The following bids were received on March 7 for the \$8,000 5% Kemper Ave. improvement (assessment) bonds described in V. 90 p. 650:

Y. 50 p. 050.
Seasongood & Mayer, Cin_\$8,342 55 | First Nat. Bank, Cleveland\$8,284 00
Provident Savings Bank & West German Bank, Cin_ 8,250 15
Trust Co., Cincinnati 8,340 80 | M. S. Pond, Somerset, O_ 8,148 01
Weil, Roth & Co., Cincin 8,321 20 | Maturity \$800 yearly on Jan. 7 from 1911 to 1920 inclusive.

Saratoga Springs, N. Y .- Bond Election .- An election will be held April 5 to allow the voters of this village to determine whether or not \$250,000 bonds shall be issued. The object is to assist the State in purchasing the Springs for a State Reservation. We are advised that "it is hoped that the Springs can be bought for about \$850,000, the State having appropriated \$600,000 for this purpose."

Scottdale School District (P. O. Scottdale), Westmoreland County, Pa.-Bonds to be Offered Shortly .- Local papers state that the \$35,000  $4\frac{1}{2}$ % school-building and furnishing bonds voted on Feb. 15 (V. 90, p. 577) will shortly be put on the market.

Shelby, Bolivar County, Miss.—Bonds Voted.—A proposition to issue \$10,000 school bonds was, according to reports, favorably voted at an election held March 1.

Shelton School District (P. O. Shelton), Buffalo County, Neb.-Bond Election.-On March 18 the voters of this district will be asked to approve an issue of \$30,000 building bonds.

St. Paul, Minn.—Bond Sale.—On March 4 the four issues of 4% 30-year coupon (with privilege of registration) bonds, aggregating \$525,000, described in V. 90, p. 519, were awarded to R. L. Day & Co. of New York City at 100.1555 and accrued interest. There were no other bidders.

Salt Lake City School District (P. O. Salt Lake City), Salt Lake County, Utah.—Bond Offering.—Proposals will be received until 12 m. May 2 by L. P. Judd, Clerk of the Board of Education, for \$700,000 4% gold coupon school

Board of Education, for \$700,000 4% gold coupon school bonds for buildings, sites and furnishings. Authority Sections 1940 to 1951 inclusive, Complied Laws of 1907, as amended in 1909; also vote of 1,066 "for" to 265 "against" at the election held Jan. 29. Denomination \$1,000. Date July 1 1910. Interest semi-annually in Salt Lake City or in New York City. Maturity 20 years. Certified check for 5% of bld, payable to the Board of Education, is re-quired. Bids are requested for bonds to be delivered as follows: first \$700, 000 on July 1 1910 and second \$300,000 or any part thereof on July 1 1910, \$200,000 or any part thereof on Jan. 1 1911 and \$200,000 or any part thereof on July 1 1911. Official notice states that there has never been any default or compromise in the payment of the district's obligations; that there have been no previous issues of bonds concerning the validity of these bonds. Sanford Orange County. Fla.—Bond Sale.—The \$80,000

Sanford, Orange County, Fla.—Bond Sale.—The \$80,000 street paving, \$20,000 school and \$20,000 refunding 6% 20-year coupon bonds described in V. 90, p. 255, were awarded on March 8 to N. W. Harris & Co. of New York City at 104.50 and accrued interest. The following bids were also received:

New First N. Bk., Colum., O.\$125,300 | John Nuveen & Co., Chic__\$120,100 Thos. J. Bolger Co., Chic___ 121,200 | Cutter, May & Co., Chicago_ 120,000 S. A. Kean & Co., Chicago_ 120,720 | Maturity 20 years.

Scandia, Republic County, Kan.—Bonds Voted.—An election held March 7 resulted in favor of a proposition to issue \$21,000 water-works bonds at not exceeding 5% interest.

Rochester, N. Y .- Note Offering .- Proposals will be received until 2 p. m. March 14 by Chas. F. Pond, City Comptroller, for \$125,000 water-works-improvement notes.

Denomination and interest rate to be named in bid. Maturity Sept. 14 1910.

Note Sale.—The \$286,000 notes offered on March 9 (V. 90, p. 650) were awarded to H. Lee Anstey for \$286,080 (100.027) for 4s. Maturity June 12 1910.

The vote was 111 "for" to 33 "against."

Sellersville, Bucks County, Pa.-Bond Offering.-Proposals will be received until March 14 for \$4,000 4% waterworks-improvement bonds. These bonds are part of an issue of \$8,000 authorized by a vote of 202 "for" to 17 "against" at election held Feb. 15 1910.

Shelby County (P. O. Memphis), Tenn.—Bond Offering Postponed.—The offering of the \$100,000 41/2% 25-year State Normal School bonds, described in V. 90, p. 462, which was to have taken place Feb. 24, was postponed until April 6. Bid must be accompanied by a certified check for \$2,500.

Shellman, Randolph County, Ga.—Description of Bonds.-We are informed that the \$8,000 water and \$5,000 schoolhouse bonds voted on Feb. 21 (V. 90, p. 650) carry 5% interest. The vote was 94 to 5. The water bonds are due 1937, while the school bonds mature 1925. Date of offering not yet determined.

Sherman, Grayson County, Tex.—Bonds Not Yet Offered. -We are advised that the \$12,000 water and \$8,000 street-improvement bonds voted on Dec. 20 1909 (V. 90, p. 128) are now in the hands of the Attorney-General awaiting his approval.

Snohomish County (P. O. Everett), Wash.-Bonds Proposed.—Local papers state that this county is considering the issuance of  $4\frac{1}{2}\%$  refunding bonds.

South Orange, N. J .- Bond Offering .- Proposals will be received until 8 p. m. March 21 by the Finance Committee,

Charles H. Burke, John R. Weeks and Frank J. Hill, for the following 4% coupon (with privilege of registration) bonds:

\$14,200 00 bonds. Denomination \$1,000, except one bond of \$1,200. Maturity March 1 1935.
10,000 00 bonds. Denomination \$1,000. Maturity March 1 1935.
2,028 69 bonds. Denominations \$1,000 and \$1,028 69. Maturity \$1,000 on March 1 1930 and \$1 028 69 on March 1 1935.
Date March 1 1910. Interest semi-annually at the United States Mortgage & Trust Co. in New York City. Bid to be made on form furnished by the Finance Committee and be accompanied by a certified check on a national bank or trust company for 2% of bonds bid for, made payable to the Village Treasurer. The bonds will be delivered on March 28. Accrued interest to be paid by purchaser. The genuineness of the bonds will be certified to by the United States Mortgage & Trust Co. of New York.

Spottsylvania County (P. O. Spottsylvania), Va.-Bond Sale.—The \$20,000 Courtland District and the \$20,000 Chancelor District 4½% 5-30-year (optional) coupon highway-improvement bonds described in V. 90, p. 256,

were disposed of at par on March 7 as follows: \$5,000 to Captain M. B. Row, \$1,500 to Mrs. Annie Monier and \$33,500 to the Farmers' & Merchants' State Bank of Fredericksburg.

Stonycreek Township School District, Pa.-Bonds Authorized.—Bonds amounting to \$10,000 will, according to Pitts-burgh papers, be issued by this district for the construction of a new school building.

Sturgis, St. Joseph County, Mich.—Bonds Offered by Bankers.—In addition to the \$80,000 4¼% electric-light bonds mentioned in V. 90, p. 577, Woodin, McNear & Moore of Chicago and the Union Trust Co. of Detroit are also offering to investors the following bonds of this place:

\$50,000 4 ½% water-works bonds maturing \$10,000 Feb. 1 1934 and \$20,000 on Feb. 1 in each of the years 1936 and 1938.
45,000 4% electric-light bonds maturing \$5,000 Feb. 1 1917 and \$8,000 yearly on Feb. 1 from 1918 to 1922 inclusive.
Denomination \$1,000. Date Feb. 1 1910. Interest semi-annually at the Union Trust Co. in Detroit. Total debt, including these issues, \$225,-250. Assessed valuation \$1,850,151. Real value (estimated), \$5,000,000.

Suffolk County (P. O. Riverhead), N. Y.-Bond Sale.-On March 7 the  $200,000 4\frac{1}{2}\%$  registered jail bonds described in V. 90, p. 577, were sold to Parkinson & Burr of New York City at 102.913. The other bidders were:

Adams & Co., New York____102.41 | First Nat. Bank, Cleveland__101.96 I. W. Sherrill, Poughkeepsie_102.31 | N. W. Halsey & Co., N. Y___101.788 N. W. Harris, & Co., N. Y___102.304 | Riverhead Sav Bk, Riverhead101.68 J. D. Everitt & Co., N. Y___102.323 | George M. Hahn, New York_101.67 R. M. Grant & Co., and Esta-brook & Co., New York___102.11 Wm. A. Read & Co., N. Y___102.07 Maturity \$15,000 yearly on March 1 from 1912 to 1923 inclusive and \$20,000 on March 1 1.24.

Talladega, Ala.-No Bonds Sold.-We are advised that the reports stating that \$50,000 5% bonds had been sold to the First National Bank of Cleveland, Ohio, are erroneous. While there is talk of issuing bonds, nothing will be done in the matter until it has been determined "whether or not a certain water supply can be had."

Taylor County Common School District No. 1, Tex.-Bond Sale.—We are advised that during the early part of March \$10,000 5% 5-40-year (optional) bonds were sold to the State School Fund at par and accrued interest.
