## \$1,000,000

## THE FIFTH AVENUE BUILDING COMPANY

## theee-vear six Per ceit secured gold coupon notes

Dated May 1st, 1910
Due May 1st, 1913

Authorized and
Outstanding $\$ 1,000,000$

Interest
May 1st and November 1st

Coupon Notes, $\$ 1,000$ each, may be registered as to principal only . United States Mortgage \& Trust Company, Trustee.

## TAX EXEMPT IN NEW YORK STATE

From the facts submitted in a letter of the Fifth Avenue Building Company, copies of which may be had on application, we gather the following:
(1) The Notes are a direct obligation of the Fifth Avenue Building Company, with a capital stock of $\$ 4,000,000$ fully paid in in cash.
(2) They are guaranteed, Principal and Interest, by Dr. Henry C. Eno and Mr. Henry Lane Eno:
(3) They are secured by Second Mortgage, subject to $\$ 6,620,000$ Underlying Mortgages, upon the Fifth Avenue Building, a modern fireproof fourteen-story office building of fine construction, occupying the full block front between 23 rd and 24th Streets on Fifth Avenue, the site of the old Fifth Avenue Hotel; and upon No. 23 West 23rd Street.
(4) The value of the property under lien is $\$ 10,564,000$, and the equity above the Mortgage debt, including these Notes, is $\$ 3,244,000$.
(5) The estimated rental to be received from the property is $\$ 1,030,400$ per annum, against which taxes, maintenance charges and interest on First Mortgages are estimated at $\$ 623,400$, leaving a surplus of $\$ 407,000$ applicable to interest on the Notes, or sufficient to pay this interest six times over.
(6) Non-contributing policies for fire insurance to the full amount of $\$ 1,000,000$ are deposited with the Trustee for the exclusive benefit of the Note Holders.
(7) Title insurance policies given by the Lawyers' Title Insurance \& Trust Company have also been deposited with the Trustee as further security.
The Mortgage and Agreement of Guaranty, and all legal matters pertaining to this issue, have been approved by Messrs. Whitridge, Butler \& Rice of New York. Copies of the Mortgage and Agreement may be had at our office.

We consider these Notes a secure short-term investment of high-grade, particularly desirable in view of the fact that they are exempt from taxes in New York State.

Subject to prior sale and change in price, we offer these Notes
at par and interest, yielding $6 \%$

NEW YORK

## We Own and Offer, subject to prior sale, the unsold portion of \$1,000,000

## First Mortgage 6\% Gold Bonds <br> OF THE

## UNITED STATES RADIATOR CORPORATION

Dated July 1st, 1910.

## PRINCIPAL FEATURES OF THIS ISSUE

(1) Total assets $\$ 3,741,933.28$, or nearly four times the amount of this Bond Issue.
(2) Real Estate and Permanent Equipment $\$ 2,042,620.04$, or over twice the amount of the Bond Issue.
(3) Quick Assets $\$ 1,787,854.60$, or nearly one and three-quarters times the amount of Bond Issue.
(4) Under provisions of Trust Deed the Net Quick Assets must at all times equal or exceed the amount of bonds outstanding.
(5) The average Net Earnings for the past five years have been nearly four times the interest on the total Bond Issue.

The UNITED STATES RADIATOR CORPORATION is a merger of five of the largest Radiator plants in the United States, viz.:

The United States Radiator Company, Dunkirk, N. Y.
The United States Heater Company, Detroit, Mich.
Tne United States Radiator \& Boiler Company, Corry and West Newton, Pa.
The Herendeen Manufacturing Company, Geneva, N. Y.
The Radiator and Boiler Department of the J. L. Mott Iron Works Co. of New York City.
The books of the above companies, which now constitute the United States Radiator Corporation, have recently been thoroughly audited by Messrs. Haskins \& Sells, accountants, New York City, and the statements given above are as of April 30th, 1910, as taken from Haskins \& Sells' report. Appraisals were made by the American Appraisal Company of.Milwaukee.

Since the above statement was rendered, the surplus of the corporation has been increased approximately $\$ 500,000$ from the sale of Preferred Stock.

These bonds are issued to retire the combined floating indebtedness of the old companies. The interests which owned the four companies own and manage the United States Radiator Corporation.

Descriptive circular will be furnished upon application.

York. Denomination $\$ 1,000$. Cound 1 August 1 in New tered bonds, interchangeable Untin privege of registration of principal or fully regis-

Application will be made to list these bonds on the New York Stock Exohange
For complete information regarding these bonds attention is called to the letter of Mr. George W. Bacon, Presient of the Company, copies of which will be furnished on request, and from which we summarize as follows:

The Sierra and San Francisco Power Company owns and operates important electric water power properties near San Francisco, and a supplementary steam station in that city which will have a combined capacity as completed during the present year of 68,500 horsepower. This, with a small amount of power leased and additional steam equipment to be installed early next year, will bring the total capacity up to 78,000 horsepower.

The above bonds are secured by a first mortgage lien on the entire property owned by the Company, which will represent on completion of this year's construction a cash investment of more than $\$ 10,000,000$, to be increased by $\$ 1,000,000$ which will be expended toward additional distributing and generating facilities. Against this total cash investment of over $\$ 11,000,000$, only $\$ 6,500,000$ First Mortgage bonds can be issued, and the conservative provisions of the Trust Deed insure the preservation of this equity.

The company has made a contract extending to 1953 with the United Railroads Company, which does over $90 \%$ of the street railway business of San Francisco, to supply the latter with all the power necessary for the operation of its system. This contract is deposited under the mortgage securing these bonds, and without taking into consideration other present earnings or income to be derived from the sale of current for general purposes throughout the territory served, the net income from this contract alone will more than provide for the interest on the First Mortgage bonds.

San Francisco, the principal market for the Company's power, has a population of over 400,000 , is the metropolis of the Pacific Coast and is rapidly growing in importance and population.

Having sold over $85,000,000$, we offer the unsold portion.

## THE FINANCIAL SITUATION.

A good deal of interest has centered this week on the steps that are being taken to surround the issuance of bills of lading with proper safeguards,' so that foreign banks and bankers will continue to make advances upon them. The subject is one demanding urgent attention now that a new cotton crop is being raised, and the time is approaching when export shipments out of the same will be large and will have to be financed. There have been some glaring instances the present year of losses sustained by bankers in Europe through the issuance of spurious bills of lading or bills that had no merchandise back of them. Accordingly, foreign bankers are now wary, and are demanding protection against a repetition of such practices. The failure last April of Knight, Yancey \& Co., said to have been one of the largest cotton concerns in the South, and the almost simultaneous failure of Steele, Miller \& Co., disclosed some very reprehensible practices in the way of obtaining money on bills of lading. In some cases the bills were fraudulent; in most instances they had been issued in the regular way but had no actual cotton back of them. The disclosures incident to these failures even more than the losses involved have alarmed foreign financial interests, and the developments connected with the collapse only a month later of Durant \& Elmore, a grain house at Albany, where some of the local banks suffered losses by reason of the manipulation of outstanding bills on grain, has tended further to accentuate the feeling of anxiety.
Statements have been made that, through the failure of the cotton houses in the South, foreign banks have sustained losses of between $\$ 8,000,000$ and $\$ 10,000$,000. That, undoubtedly, is a gross exaggeration, but the extent of the loss is of no very great consequence. The matter of chief moment is that European banks now insist that they will not make advances on bills of $l_{\text {ading }}$ unless the bills are guaranteed. In their present frame of mind they demand a guaranty by the banks in this country-an almost impossible condition. Obviously, a solution of some kind must be found, and it is needful that the solution shall come speedily. The importance of the matter can be judged when we say that in the crop year 1908-09 our exports of cotton exceeded $81 / 2$ million bales, which, at $\$ 60$ a bale, represents a money value of over $\$ 500,000,000$. It is in the highest degree important to the planter, as well as to those who finance the movement of the crop, and to banking interests generally, that no obstacles to the outward flow of this huge stream of exports should be allowed to develop. On the other hand, it is clear that if our own banks should be called upon to finance these tremendous exports without aid from Europe, the burden might be an unduly heavy one.
Perhaps in the end the foreign banks will be satisfied with some kind of a guaranty of the bill other than by our banks. Obviously, their general position that they must have assurance that the bill is what it purwrts to be, and represents an actual shipment, is reasonable and sound. A very loose system seems to have prevailed in the issue of these bills, and for this the railroads must take their share of the blame. A large part of the cotton is shipped on interior bills of lading, from local stations. The agents at these local stations have numerous functions to perform, acting
in every conceivable capacity-doing duty as ticket agent, telegrapher, baggage masters, freight agents, \&c. They are generally acquainted with every one else in the place, and they are usually, too, of a very accommodating disposition. Hence, when the planter comes along and says he has a certain number of bales of cotton which will arrive in due season, and won't the agent please sign the bill now, so as to save the planter further trouble, the bill is duly signed, often long in advance of the shipment of the staple. There is no intention to do wrong or to deceive; and it is marvelous that, through all the years the practice has prevailed, no abuse grew out of̂ it until quite lately. In the end, however, scheming persons saw how it might be availed of to obtain money illegitimately, and now, with the consequences so clearly in view, the first requirement is the reform in the practice of the issuance of the bills.
One point of friction has been as to the degree of responsibility for the bill which the railroads should assume. At the late session of Congress a bill passed the House of Representatives defining this responsibility, but it failed of action in the Senate, in part because of the lack of time to give it due consideration and in part by reason of the opposition of the roads. That the carrier should wish to limit his responsibility to the narrowest compass seems natural, but a certain degree of responsibility he must certainly assume. On that point Thomas B. Paton, General Counsel for the American Bankers' Association, puts the case clearly and convincingly when he says: "The sole issue for determination, the plain and simple but fundamental point, is: Shall the carrier be held liable for the act of his agent who issues a bill of lading reciting the receipt of certain merchandise, which has not in fact been received, in a case where some innocent third party-banker or consignee-has paid money in good faith and reliance upon the truth of the recitals in such bill of lading? $\qquad$ Bills of lading are no longer mere contracts of affreightment; but have developed into instruments of credit; the commerce of the country is moved by advances on the faith of such bills; the principle of responsibility of railroad corporations for the acts of their agents when they issue untrue bills of lading is necessary to maintain the integrity of these documents as such instruments of credit." What is in store for the carriers, if they do not of their own motion agree to assume proper responsibility for the bill, is suggested in a dispatch received from Texas yesterday, saying that Texas bankers were importuning Gov. Campbell to call a special session of the Texas Legislature to pass a law making the carriers responsible.
At a conference this week of a number of well-known banks interested in the movement of cotton and representatives of seven of the cotton-carrying roads, the situation was thoroughly discussed. The railroads represented were the Louisville \& Nashville, the Southern, the Seaboard Air Line, the Atlantic Coast Line, the Illinois Central, the Central of Georgia and the Rock Island. One suggestion which has been made is that every cotton bill of lading should have attached to it a validation certificate guaranteed by a responsible surety company in such a manner as to make any tampering with the documents at once apparent. No conclusion, however, was reached at this week's conference, but a sub-committee of three bankers
was appointed to meet the traffic managers of the Southeastern lines at White Sulphur Springs, Va., on Tuesday of next week. The surety companies, it is proper to state, have also been thoroughly investigating the matter and been holding meetings of their own. They, too, will have delegates at next week's meeting in Virginia.

Two representatives of the Southeastern Cotton Buyers' Association now in Liverpool have suggested that while the banks in the United States cannot legally guarantee the genuineness of a bill of lading, they would not be barred from certifying that the bill of lading had been received from some authorized agent of the carrier, who gives the assurance that the cotton has been actually turned over to the railroad. This method, it is contended, would satisfy the New York banks, to whom the Southern banks are known, and the New York banks in turn could assure European bankers and buyers that the bills are genuine. The situation is such as to demand the co-operation of all interests, and as these interests are fully cognizant of its importance, a way out of the dilemma, we may be certain, will be speedily found.

As expected, the Inter-State Commerce Commission has decided not to suspend the advances in commutation, rates made by the Jersey roads running out of New York, and accordingly the new rates will go into force July 20 , the date to which they were postponed at the request of the Commission. The Commission, however, will undertake an investigation as to the reasonableness of the new commutation charges. On the other hand, the proposed general advances in freight rates are to be held up all over the country, the Commission having formally announced its intention of suspending their operation for four months (120 days)-this applying both to the contemplated increases by the trunk lines in the territory between Chicago and New York (excepting, however, rates on cattle and dressed beef), and to the increases by the Western lines, and likewise to the contemplated advance in milk rates on the Boston \& Maine, \&c. This action is a distinct disappointment and is also in every way unfortunate. Two weeks ago yesterday Chairman Knapp of the Inter-State Commerce Commission had a conference with President Taft at Beverly, Mass., and after that conference an apparently authorized statement was given out intended to afford assurance that there would be no general suspension of contemplated increases in rates.

The statement referred to, which appeared in the "Tribune" and other papers Saturday morning, July 2d, stated that the authority given to the Commission by the new law "is not to be used arbitrarily or for the purpose of hindering the railways in the conduct of their legitimate business. The power to suspend new rates is to be used only in exceptional cases. . . . Chairman Knapp declared that there was nothing on the face of things to show that the new rates were unjust or unreasonable. The power of suspension will be applied only to rates where a preliminary hearing gives indication that they are excessive." The policy here outlined is undoubtedly the one that should be pursued, if the desire be to deal fairly by the roads. But if the purpose ever existed to act in conformity with such ideas, it was quickly abandoned, for now, without any preliminary
hearing whatever, a wholesale and general suspension of proposed increases in rates is made.

We still think, however, that the contemplated increases in rates will ultimately be allowed, though after considerable delay. It is evident that the Commissioners were anxious to get away on their summer vacation and found a general suspension order as the quickest way of disposing of a troublesome matter for the time being. Out of the seven members of the Commission, two are now in Europe, attending the International Railway Congress, leaving only five in this country. As to these five, the New York "Commercial" on July 14 said all with the exception of Chairman Knapp would leave on their vacations that day. Mr. Knapp expected "to remain on the job all summer." The New York "Journal of Commerce" the same day reported that "Commissioner Harlan does not expect to return here (Washington) until October, but he is ready to return about the middle of September." Thus, everything awaits the convenience of the Commission, but with such weighty and urgent matters at issue, it does seem as if the Commission might emulate those in private life and forego some of its holidays to apply itself to the work in hand.
The announcement that the higher schedules on dressed beef and cattle are not to be interfered with is encouraging. In that case, it will be remembered, the shippers, through negotiations carried on by Mr . George W. Perkins of J. P. Morgan \& Co., had been induced to give consent to the increase. The advances in this instance; as previously pointed out by us, will add $\$ 1,800,000$ to the revenues of the lines affected. While this will not go very far towards meeting the $\$ 100,000,000$ to $\$ 150,000,000$ addition to expenses which it is estimated will ensue by reason of the advances in wages on the whole railroad system of the United States, it suggests a way in which perhaps other increases in rates can be brought about without interference by the Commission.

Ninety per cent of nearly 30,000 conductors and trainmen of the Pennsylvania Railroad, including the lines west of Pittsburgh and Erie, have by ballot voted authority to labor leaders to call a strike if the company does not yield to certain demands as to pay and rules of employment which have been made. Backed by this authority, President A. B. Garretson of the Order of Railway Conductors, President W. G. Lee of the Brotherhood of Railway Trainmen and a large committee waited upon General Manager W. H. Myers of the Pennsylvania Railroad on Wednesday and Thursday. The General Manager made it clear that compliance with the demands of the men would mean that they were to receive greater pay for less work, which would largely increase the operating cost of the railroad, and that the company could not afford to incur this increased expense. For services rendered the company receives no greater compensation than its competitors, and therefore, the General Manager urges, the company cannot afford to pay larger wages to its employees than are paid by other railroads. The company is willing to make any adjustment provided its expenses are not increased thereby.
The Pennsylvania Railroad recently increased the pay of its employees $6 \%$. This and other expenses have so augmented cost of operation that the road finds
after month, is yielding no additional net-an experience, unfortunately, shared by many other railroads. The Pennsylvania shareholders in 1908 submitted to a reduction of the dividend rate, and, while the management has been anxious to restore the rate to $7 \%$, circumstances have not permitted the restoration. As the shareholders are compelled to accept a reduced return and operating cost is running up so rapidly, it would seem to be a mighty poor time for the employees to demand another increase in wages after having had their pay raised $6 \%$ in April.
Besides the tie of long service, there are other things which bind the Pennsylvania Railroad employees to the corporation, whose interests are identical with their own. In the Pennsylvania relief department are 146,868 members east and west of Pittsburgh. This department last year distributed $\$ 1,892,819$ in benefits among the employees. In the Pennsylvania Railroad saving fund are 13,571 depositors having $\$ 6,163,467$ deposits to their credit. Upon the company's pension rolls are 3,244 former employees, of whom 216 were retired last year, and among the present workers are many who will be eligible for retirement within a few years. The company disbursed in pensions last year $\$ 782,712$.
Not since the lamentable strike of 1877 has the Pennsylvania suffered seriously with labor troubles. For the good of the public, the corporation and the employees it is hoped that the present differences may be amicably adjusted.

In view of the pilgrimages which the politicians are making to Oyster Bay, with particular reference to choosing a candidate to be nominated for Governor the coming autumn, one cannot help thinking how much the country would gain if the same degree of energy were expended in endeavors to promote business interests. But no one seems to give himself any concern about trade matters except so far as they may have a bearing upon party success. The chief anxiety is as to the outlook for the party. Everything is subordinated to that. If business suffers as a result, so much the worse for business. The controlling consideration is how to promote party advantage. Even men holding the highest executive positions, and who pride themselves upon their devotion to exalted ideas, seem to have no scruples about shaping their acts and giving their time so as to advance their own political welfare or that of their party. No doubt it is expecting overmuch to ask for such a display of unselfishness in these times, but at least we have a right to look for the fulfillment of the special obligations and duties falling within the special province of elected officials. The State of New York had a bond sale this week. Note the outcome of that sale. The State offered $\$ 11,000,000$ of 50 -year $4 \%$ bonds. Considering that these are State bonds, not city bonds, and that they are issued on the credit and faith of the foremost State in the Union, one would have imagined that the loan would be subscribed for several times over. Actually the bids reached only $\$ 8,758,000$, and the Comptroller had to step in and take the remainder at par for the sinking fund. Moreover, the total premium realized on the $\$ 8,758,000$ bonds sold was only $\$ 77,528$. Of course, the buyers got a bargain; but just think of a New York State 50 -year $4 \%$ bond going a-begging in the neighborhood of par. If our worthy Governor
had displayed the same zeal on behalf of the financial interests of the State as he has on behalf of party, by journeying to Oyster Bay, would not there have been a chance of a much better result?

The question may well be asked if we have not reached the point where we are putting party first and the country gets pushed to a subordinate place? Is that as it should be? Is it possible, in reason, to regard a political party as anything more than an instrument for supposedly desirable public ends? A sane man does not make obeisance to his hammer or his saw; he uses them, keeps them in ordinary care that they may be able to serve him, but he holds them as tools solely. He keeps them as means; he never mistakes them for ends. What else can a party ever be? If it rationally strives towards good ends; if it seeks the good of the whole country by some national policy, very well. But if it makes itself the end and deems the country merely the means for its own hold on power, then the hammer and saw exalt themselves, and it is time they resumed their natural place as tools.

The interests of the country, which do not always seem quite the same as between its several parts, are vast enough; and the problems in attaining a government at once just, careful and economical, instead of trying to cultivate popularity by distribution here and there of funds procured by indirect taxation, are serious enough to enlist the efforts of the wisest men. The tenure of this or that party is of no public value save as it strives for and accomplishes the general prosperity.

Should we not return to the stage of public opinion which makes a public officer forget what party elected him and hold himself the servant of the country? Is it not time to check the habit of partisanship, which now hardly lets any officers alone except the judges and would like to lay hold of them also, so that the possession of power may become a more solid phalanx?

America's position in the international money market has been improved through a decline in foreign exchange to the gold-import basis and the inauguration of a natural inflow of the precious metal. On Monday $\$ 3,500,000$ new gold was offered in the London open market and the cables reported that $\$ 2,000,000$ had been engaged for remittance a little later to New York, the remainder having gone to Germany; the price paid in each case being the minimum, 77s. 9d. per ounce. No particulars were obtainable either in London or here regarding the American purchasers, and nothing further developed until Wednesday, when it was officially announced that $\$ 1,000,000 \mathrm{had}$ been secured for shipment to New York to-day. What has become of the other $\$ 1,000,000$ has not been disclosed. That the movement will expand is morally certain, inasmuch as demand sterling yesterday fell to $485 \frac{1}{4}$ and cable transfers to $4851 / 2$, although preparations for additional imports caused a rally of $1 / 8 \mathrm{c}$. before the close. In considering the feasibility of gold imports and exports it must be borne in mind that old calculations do not apply to modern circumstances, particularly for the reason that the time occupied in transmitting the metal has been shortened to a remarkable extent, thus materially reducing the loss of interest, a matter of no little moment in a
business that is based on the fraction of a cent per pound sterling.
The inducement to issue long finance bills is stronger to-day than it was towards the end of June, when the output was heavy. Money can be borrowed by our international bankers, by trust companies and others enjoying first-class credit for $2 \%$ in London and $17 / 8 \%$ in Paris, whereas there is an extensive (and unsatisfied) demand for six months' accommodation here at $51 / 4 \%$ on collateral and at $53 / 4 \%$ on mercantile paper. Europe is still remitting to this city for bonds purchased in the latter part of the last half-year, and although both Britain and the Continent are not at the moment accepting any more new American loans, the low prices current for stocks are attracting a modest amount of over-sea buying-it is estimated, by the way, that close to $\$ 200,000,000$ new American securities were floated in London during the six months ended June 30. The summary of our foreign trade for the fiscal year, showing total imports of $\$ 1,557,854,854$ and total exports of $\$ 1,744,966,203$ does not throw much light on the present state of our exchanges; but from now on the sale of commodities and manufactured goods should be stimulated by lower prices, as also, in all probability, by a recession in the domestic demand for certain kinds of merchandise in the production of which this country has attained great efficiency. Considering all the circumstances, including the outlook for general trade, monetary prospects would appear to afford no occasion for uneasiness.

Not even the nucleus of a mole-hill existed as an excuse for making of the German Emperor's formal letter to President Madriz a mountain. The diplomatic service cherishes courtesies which those engaged in it are obliged to observe, even though to do so is to appearold-fashioned. "Shirt-sleeve" diplomacy has not yet penetrated the ancient courts and governments of Europe. When, therefore, Emperor William, of Germany, in acknowledging receipt of President Madriz's announcement of election, referred to the new head of the Nicaraguan Government as his "great and good friend," his language was acccepted by all other governments as merely a meaningless diplomatic phrase; among diplomats it created none of the astonishment manifested when Secretary Knox issued his famous ultimatum to the erstwhile President Zelaya, for the language then used was of a kind rare in diplomatic records. The Kaiser has occasionally in the past excited just censure for his messages to other rulers and heads of republics, but it is only fair to emphasize that in this instance he and his advisers have acted faultlessly.
In these remarks we have reference to the fact that the present week certain jingoes sought to stir up trouble between the United States and Germany on the plea that the latter had intentionally slighted our Government. This gave the German Foreign Office opportunity to make an explanation, and it issued a most conciliatory statement, explaining that the letter to President Madriz was "in the usual written form," "not an autograph letter," and "in accordance with official courtesy." Yet sensational newspapers and, unhappily, certain others that do not aspire to inclusion in that category, published under big headlines an alleged statement from the German Foreign Office that "Germany refuses to recognize any right on the
part of the United States to supervise her diplomatic regulations with other countries, Central and South American countries in general and Nicaragua in particular." Until it was ascertained that this extraordinary statement was bogus, nervousness was manifested on the local Stock Exchange. Germany realizes that she is not embarrassed by too many friends in the old world, and she is most unlikely to wilfully do anything calculated to estrange her friendship with the United States.

The greatly improved bank statement issued on Saturday justified our comments last week on the local banking position. Contrasted with an actual cash loss of $\$ 18,945,500$ in the previous return, an actual gain of $\$ 3,854,300$ was recorded on Saturday last, while the surplus reserve increased $\$ 10,03 \dot{9}, 800$, bringing it up to $\$ 18,739,100$. Examination of the average and actual figures brings out the fact that the tendency was throughout the week towards greater strength. Thus, owing to the unfavorable position at the opening of the week, there was an average decrease in cash of $\$ 13,517,000$, while the loan account had been contracted only $\$ 7,521,400$, leaving a falling off in surplus reserve of $\$ 7,591,900$, contrasted with the increase of $\$ 3,854,300$ in cash, a curtailment of $\$ 24,021,100$ in loans and the addition of $\$ 10,039,800$ to surplus at the close of the week. Besides this, the State banks reported a nominal decrease in loans and the trust companies a much more substantial decrease, the aggregate reduction for the trust companies and the State banks not in the Clearing House reaching $\$ 27,347,100$. During the current week the payments to the Government to satisfy the Corporation Tax have been light and the withdrawal of funds for crop-moving purposes has not yet set in, so that to-day's returns can be awwaited without apprehension. It is too early to discuss at length the statistics supplied the Comptroller of the Currency by the national banks throughout the country showing their condition on June 30, as the full tabulation has not yet been published; it has already been established, however, that the extraordinary expansion in loans in Western States has been to some extent corrected, although in various sections the process has not been completed, not presumably through the indifference or neglect of bankers, but because many of the loans outstanding in agricultural regions cannot be closed out on one week's or one month's notice.

The price of silver advanced $23 / 8 \mathrm{c}$. per ounce, or almost $41 / 2 \%$, between the 2 d and 9 th inst., the quotation reaching $553 / 8 \mathrm{c}$. on the latter date, since which time there has been an appreciable reaction, the official price yesterday being $541 / 2 \mathrm{c}$. per ounce. . Basing their views on cable advices from their British, Indian and Chinese correspondents, local authorities on the white metal agree that an ambitious speculative movement has been engineered by native Indian bankers commanding vast resources. These operators, it is said, have assumed that the Indian Government will immediately re-enter the silver market as a large purchaser after an absence of three years; but dealers in New York do not take so sanguine an attitude. An appreciation in the value of the white metal, however, does not seem illogical to international banking interests, who lay stress upon the excellent monsoon the Indian

Empire has enjoyed and upon the highly encouraging crop outlook. Trade in India has been prosperous, as foreign exchange and gold movements have demonstrated; hence there may have been considerable justification for expecting an extensive demand for silver from industrial and agricultural territories. In China the supply is so adequate that there have been shipments from Hong Kong to Bombay, at which point, as also in London, the speculation has been concentrated. The Indian syndicate has reputedly purchased, or "overbought," to use the trade term, $30,000,000$ ounces, representing a market value of approximately $\$ 15,000,000$. If the anticipated Governmental buying be not shortly begun, the reaction, it is thought, may go further.

The agitation for women's suffrage in Great Britain may be disapproved, but it can no longer be ignored. Has not the House of Commons, by 299 votes to 190, this week passed the second reading of a women's suffrage bill which would extend the Parliamentary voting privilege to those who already enjoy the municipal franchise? The division was strictly non-partisan. Premier Asquith and A. J. Balfour, leader of the Opposition, both voted against the measure; so did the Chancellor of the Exchequer (David Lloyd-George), the Secretary for Home Affairs (Winston Spencer Churchill) and others prominent in the Liberal ranks. The House referred the bill, the work of David James Shackleton, a Lancashire Labor member, to the committee of the whole, a device that postpones further consideration until next session. So lively an interest is taken in the movement that Parliament may not be allowed to shelve the bill indefinitely. But it is well understood that many members supported the second reading merely to gain favor with their constituents without at the same time committing the country to so revolutionary a change. The gap between the second and third readings may accordingly prove insurmountable, at least for the present.

Commercial failures in the United States in June 1910, while covering a heavier total of liabilities than in May-due to two or three disasters for large amounts in the trading division-were smaller in number than in any previous month of this year. Moreover, the aggregate of indebtedness was less than in June of any year since 1906 . The exhibit, therefore, by comparison is a fairly favorable one, notwithstanding that the amount involved is somewhat greater than a normal average. In the manufacturing division there was not only a noticeable decline in number of failures, but in most of the various branches that go to make up the total an appreciable reduction in amount of liabilities as compared with June of either of the three preceding years is observable. In short, aggregate manufacturing indebtedness at $\$ 3,346,332$ contrasts with $\$ 5,629,570$ in June 1909, $\$ 5,491,340$ in 1908 and $\$ 12,086,525$ in 1907. Trading liabilities, on the other hand, at $\$ 7,152,383$ were not only heavier than in any month since January but in excess of those for June of any year back to 1897. The large indebtedness here, however, is due to a few unusually large suspensions. In dry goods lines, for instance, the debts reported reach over 2 millions, against only a little over $1 / 2$ a million in June 1909, but one disaster accounts for fully $11 / 2$ millions of this year's total.

In grain also a single failure covers in excess of a million dollars. The mercantile mortality in all lines for the month of June 1910 reached, according to Messrs. R. G. Dun \& Co.'s compilations, a total of 818, involving $\$ 11,817,454$ of liabilities, against 1,063 and $\$ 12,607,022$ last year, 1,112 and $\$ 14,708,793$ in 1908 and 907 and $\$ 16,445,565$ in 1907.
The exhibit for the half-year ended June 30 1910, in contradistinction with the result for the month, is much less satisfactory than in any recent period except 1908. In fact, going back to 1875 we find that in only four intervening years (1878, 1884, 1893 and 1908) were the liabilities of failed firms for the first six months greater than for the current six months. The number of failures for 1910 was, for example, 6,388 , representing indebtedness of $\$ 112,239,306$, whereas in the corresponding interval of 1909 the aggregates were 6,831 and $\$ 88,571,373$ and in 1908 reached 8,709 and $\$ 124,374,833$. The lowest aggregate of liabilities for the first six months in the last thirty-five years was in 1880-a little less than 33 millions of dollars-and the highest in 1893, when the total was nearly 169 millions. The showing in the different divisions is not strictly in line with the general exhibit, large failures among brokers in early months causing the total for brokers and transporters for 1910 to largely exceed the results for most, if not all, earlier years. Liabilities in that division for the six months of 1910 were in fact nearly 28 millions of dollars, against only 14 millions last year, 22 millions in 1908 and but 6 millions in 1907. Manufacturers' liabilities of approximately $441 / 4$ millions compare with 38 millions in 1909 and 53 millions in 1908, and in the trading division this year's indebtedness of $401 / 4$ millions contrasts with 36 millions and 49 millions, respectively, in the two previous years. Considering the results by quarters we find a much more encouraging situation than is revealed by the figures for the full six months. This becomes evident when we state that for the second quarter of 1910 (the three months April to June inclusive) the liabilities of failed firms were only $\$ 39,160,816$, or but little more than half what they were in the first quarter and less than in the corresponding period of either 1909 or 1908.
The Canadian failures situation for the six months of 1910 as regards the number of disasters was more favorable than in either of the two preceding years, but it is to be noted that the liabilities, due to a number of comparatively large insolvencies in Quebec and Alberta, were the heaviest ever recorded for the period. The number of failures in the six months this year were 659 , with liabilities of $\$ 9,752,541$, this comparing with 761 for $\$ 7,629,259$ in 1909 and 881 for $\$ 8,335,725$ in 1908. The increase over last year is practically all found in the manufacturing division, the indebtedness there represented having been $\$ 5$,244,268 , against $\$ 2,645,129$, whereas in trading lines the excess is less than half a million dollars and in "other commercial" there is actually a decline of over three-quarters of a million, the liabilities reaching only $\$ 105,386$, or less than in any year since 1905.

Building construction operations for June 1910 in the United States as a whole exhibit only a slight recession from the comparative activity of the preceding month; they were, moreover, of greater volume than
in the corresponding period of 1909 and much heavier than in 1908. It follows, therefore, that the result for the first half of 1910, while not quite up to the record of the six months of 1909 , was nevertheless very satisfactory by contrast with earlier years. In some sec-tions-Greater New York for example-there has recently been some let-up in the phenomenal activity that was a notable feature for many months, but in numerous other localities construction work is going on at a greater pace than ever before. Evidence for June is furnished at such cities as Detroit, Cincinnati, Portland, Ore., Denver, Memphis, Atlanta, Chattanooga, Oklahoma, Scranton, Hartford;' New Haven and Little Rock, where conspicuous gains over 1909 or earlier years are shown.
In fact, of the 106 cities included in our compilation, only 47 exhibit smaller totals of projected expenditure for building for June this year than last, and even at those points, previous activity considered, the losses are very light or moderate. Attention is naturally first directed to the June exhibit for Greater New York, not only because of its preponderating influence upon the general total, but on account of the great diminution in construction work in the Borough of Brooklyn as compared with a year ago. As against 1,353 plans for new buildings, representing an estimated outlay of $\$ 6,962,159$, filed in that borough in June of last year, this year's total was only 578 and $\$ 3,029,750$. On the other hand, the work arranged for in Manhattan covered an approximate cost of $\$ 11,007,455$, as compared with $\$ 10,256,545$ in 1909 , or an increase of $7.1 \%$; in the Bronx a gain of $5.4 \%$ is shown and the figures for Queens are almost identical in the two years. The loss in Brooklyn, therefore, is solely responsible for the decline of $14.1 \%$ this year's aggregate for the greater city records as contrasted with a year ago.
Exclusive of Greater New York, the general showing is quite favorable, the outlays covered by June plans being $\$ 59,648,848$ and comparing with $\$ 55,818$, 540 for the like period a year ago, or an excess of $6.9 \%$; contrasted with 1908 there is a gain of $41.4 \%$. As regards the larger cities, Chicago exhibits a gain of $13.5 \%$ over June 1909, and other increases are at Pittsburgh, $9 \%$; Detroit, $109 \%$; Portland, Ore., $83 \%$; Los Angeles, $35 \%$; Denver, $67 \%$, and Newark, $6 \%$. Losses at important centres are Philadelphia, $11 \%$; San Francisco, $21 \%$; St. Louis, less than 1\%; Seattle, $8 \%$; Milwaukee, $24 \%$, and Kansas City, $41 \%$. The grand aggregate for the 106 cities (New York included) is $\$ 78,094,763$, against $\$ 77,290,804$ for June of 1909 , or an augmentation of $1 \%$. Contrasted with the month of 1908 there is a gain of $23.1 \%$ and the increase over 1907 reaches $4.3 \%$.
For the first half of the calendar year 1910 the exhibit is of especial interest, as it presents much more conclusive evidence of the situation in the building trade than can be furnished by the returns for any single month. In Greater New York the new work mapped out in the six months this year represents an aggregate less than for the period in 1909 but much in excess of either 1908 or 1907 . In many other sections of the country the half-year's result in 1910 marks a new high record in construction. The intended outlay at 106 cities for the six months of 1910, as compiled by us, approximates 435 millions of dollars, against 450 millions in the like interval of 1909 , or a decrease of
$3.5 \%$. Compared with 1908 and 1907 , there are gains of $56 \%$ and $10.7 \%$ respectively. Greater New York's operations were $18.4 \%$ less than for 1909 , with the falling off heaviest in Brooklyn and an actual gain shown in the Bronx. Contrasted with 1908, there is an increase of $68.4 \%$ and with 1907 of $10.3 \%$. Outside of this city, the excess over last year is $3.8 \%$, and there is a gain of over $50 \%$ as compared with two years ago and $11.7 \%$ over 1907. It is, of course, impossible to refer in detail to the showing made by all the various municipalities, but the results at some of the leading cities will not be uninteresting. Thus, Chicago, while exhibiting a loss of about $10 \%$ from the six months of 1909 , exceeds 1908 by nearly $53 \%$. Philadelphia gains $1.8 \%$ over 1909 and $50 \%$ over 1908. Atlanta, $30 \%$ and $43 \%$; Minneapolis, $21.3 \%$ and $86 \%$; Denver, $18.5 \%$ and $23 \%$. Portland, Ore., $45.3 \%$ and $87.5 \%$; New Bedford's 1910 total is $100 \%$ greater than that for 1909; Pittsburgh's loss from 1909 is $10.9 \%$, but that point has a gain of $40 \%$ as compared with 1908; St. Louis has a total $1.9 \%$ less than last year and $3 \%$ more than two years ago. Seattle's 1910 total falls behind that of last year by $15.8 \%$ but exceeds that of 1908 by nearly $55 \%$, and Newark's (N. J.) aggregate, while $20 \%$ less than for 1909 , is more than double that of 1908. At San Francisco, of course, the 1910 total is less than for either of the three preceding years, the earlier years, and especially 1908 and 1909 , having particularly felt the impetus given to building operations by the destructive work of the earthquake and fire of 1906.

The artificial advance brought about in private discounts at London last week, when gold was being engaged for export, was not long maintained. It will be recalled that the rate quickly rose from $13 / \%$ to $21 / 8 \%$ and for bills to arrive to $21 / 4 \%$. The charge has now relaxed to $17 / 8 \%$ for 60 days and $2 \%$ for 90 days, with the market supply of funds constantly being augmented by heavy payments of maturing Treasury bills; $\$ 12,500,000$ was thus distributed last Saturday, $\$ 20,000,000$ more will be paid on Monday and $\$ 12,500,000$ on the 27 th inst. How long the Bank of England will be able to retain its $3 \%$ minimum remains to be seen. The understanding here is that the Governors will exercise a restraining influence upon the outflow of specie to this and other countries, but that no abnormal antagonism will be manifested so long as importers' demands are justified. The prospects are that New York will be an important
competitor for the competitor for the new gold to be sold in London on Monday. At Paris the prevailing discount rate is again $17 / 8 \%$; that centre has been over-supplied with new securities and until these have been absorbed by ultimate investors, no fresh loans of any great size are likely to be floated there for American account, especially as our Stock Exchange has witnessed a sharp decline since the last negotiations were concluded. The Imperial Bank of Germany this week reported an increase of $\$ 6,245,500$ in its specie on hand, due partly to the importation of the precious metal from London; yet discounts in Berlin, where some minor trouble has arisen this week, have been firmer, on the basis of $31 / 8 \%$ for spot bills and $31 / 4 \%$ for bills to arrive. Amsterdam is still conspicuous for its high rates; spot bills cannot be placed under $43 / 8 \%$, while a slightly stiffer rate is levied for bills to arrive. There
have been no changes in official bank rates at any centre this week.

The Bank of England customarily rehabilitates its resources at this season, and Thursday's statement reveals that this process has been in progress despite a loss of bullion. The reserve ratio has been raised about $4 \%$, thanks to a decrease of $£ 5,029,115$ in loans, a reduction of $£ 1,996,000$ in Government deposits and a shrinkage of $£ 2,868,000$ in other deposits. According to our special cable from London, the reserve increased from $46.40 \%$ to $50.32 \%$ this week, the gain in total reserve amounting to $£ 180,090$; the Bank lost $£ 111,344$ bullion during the week and held $£ 41,372,907$ at the close. Our correspondent further advises us that the movement into the Bank was made up entirely of a small import from Australia. Shipments to the interior of Great Britain were light and there were no exports. The details of the movement into and out of the Bank were as follows: Imports, $£ 10,000$ (wholly from Australia); exports, nil; and shipments of $£ 121,000$ net to the interior of Great Britain.

Pronounced firmness is being manifested in the local money market. The banks are apparently anxious that every precaution be taken against allowing matters to drift into a precarious state towards the fall. Not only are Stock Exchange commission houses engaging money to carry them into 1911 but mercantile firms have begun to follow a similar course, even though they may not to-day see how they can profitably use the capital thus obtained. If it be true that a danger foreseen is half avoided, stringency should not arise when our crops have to be moved, for assuredly the monetary outlook is this year attracting plenty of attention ahead of time. An advance in rates here to $51 / 4 \%$ for six months' facilities has this week brought a fair amount of money from out-of-town points, notably Chicago and New England. This money has been rented out on Stock Exchange collateral and not as a rule used to discount paper, as, should necessity arise, it is reasoned that it would be a comparatively easy matter to re-arrange a collateral loan. The special drain that pulled down reserves so severely towards the end of June and the first week of July has subsided, and funds are now returning to regular banking channels. The corporation tax payments have been practically completed, while the agricultural demands have not yet set in. The outlook, therefore, is that another satisfactory bank statement will be issued to-day.

The feature has been an extensive inquiry for six months' accommodation. Lenders can now obtain $51 / 4 \%$, and even at this rate the supply is not abundant. Higher charges are levied for all periods, although sixty-day money is occasionally available at $31 / 2 \%$. Supplies from national and State banks are not large. in fact, very little is offered for the longer maturities. The detailed range closes the week as follows: Sixty days, $31 / 2 \%$; ninety days, $41 / 4$ to $41 / 2 \%$; four months, $41 / 2$ to $43 / 4 \%$; five months, $43 / 4$ to $5 \%$, and six months, $51 / 4 \%$. The conservatism practised conduces to an enlargement of the supply of day-to-day money. The maximum quotation on call for the week has been $3 \%$, with much lower figures not infrequently named in the afternoon after the effecting of renewals. The aver-
age ruling rate for the week has been a shade over $25 \% \%$, the minimum having been $2 \%$. Yesterday, the maximum was $23 / 4 \%$ and the minimum $21 / 2 \%$, with the last loan done at $28 / 4 \%$. Commercial paper, as can be readily believed in view of the state of the money market, is hard to sell, notwithstanding that drawers are willing to pay higher rates. The range for prime four to six months' single name bills has been raised to $51 / 2$ to $6 \%$, with a good deal of business done at $53 / 4 \%$, which is only $1 / 2$ of $1 \%$ above the quotation for six months' money. Second-grade bills are not easily negotiated at any figure; nominally, they are 6 to $61 / 2 \%$. Sixty to ninety days' endorsed bills receivable range from $51 / 4$ to $53 / 4 \%$. Mercantile interests complain that the banks are exaggerating the need for taking precautions against developments later on, and there may prove to be some justification for this assertion.

Yesterday forenoon foreign exchange declined to the lowest level not only for the year but since the depression that attended the 1907 financial upheaval. Sight drafts were obtainable in the morning below $4851 / 4$ and cable transfers below $4851 / 2$; but in the afternoon there was an active inquiry for cable transfers, reputedly in connection with coming events in the London gold market on Monday; demand touched $4853 / 8$ and cable transfers $4855 / 8$. On this week's basis New York can compete for the consignments of gold that arrive regularly each Monday from South Africa. Unless exchange takes an unlooked for turn, our bankers should be aggressive competitors for the offering in the open market next Monday, while if quotations continue to decline as they did during the current week, the Bank of England will probably be called upon to give up some of its large supply. No special objection should be raised to our demands for the metal, inasmuch as we have sold a large quantity of new securities to Europeans, our money rates are more than double those ruling in London and Paris, and receipts of the metal now are calculated to allay apprehensions over the autumnal outlook. This week the $\$ 1,750,000$ previously engaged arrived here and will be included in to-day's bank statement, while an additional $\$ 1,-$ 000,000 is to be shipped from London by to-day's steamer. Next week's engagements should be on a broader scale. The offerings of remittance this week have not been unusually extensive, the market's weakness having been due mainly to an absence of inquiry from any quarter. Finance bills are being drawn in moderate volume on London and Paris, but not on Berlin, as there is already tension there, owing to the reported instability of certain financial interests. Our foreign trade is moving more favorably than it did during February, March and April; while exports of commodities, now that prices are on a level more acceptable to Europeans, should by and by expand.
Compared with Friday of last week, sterling on Saturday was weaker, with demand down to 48570 @4 8575, and cable transfers to $48595 @ 486$; sixty days was slightly firmer at $48375 @ 48380$. On Monday demand broke to $48545 @ 48555$, cable transfers to $48570 @ 48575$ and sixty days to $48365 @ 48375$. Demand advanced to $48550 @ 48555$ on Tuesday, while cable transfers remained at $48570 @ 48575$ and sixty days declined to 48345 @ 48355 . On Wednes-
day demand fell to $48540 @ 48545$, cable transfers to $48560 @ 48570$, while sixty days advanced to $48355 @ 48365$. On Thursday sixty days remained unchanged but demand broke to $48525 @ 48530$ and cable transfers to $48550 @ 48560$-new low points for the year. On Friday demand sold under $485 \frac{1}{4}$ in the forenoon but recovered $1 / 8 \mathrm{c}$. later, while cable transfers rallied even more sharply on inquiries, it was said, against prospective purchases of gold in the open market on Monday.
The following shows the daily posted rates for sterling exchange by some of the leading drawers.

[^4]
## RAILROAD CAPITALIZATION AND THE NEW FEDERAL COMMISSION.

## We hope that President Arthur T. Hadley, of Yale

 College can meet President Taft's desires and take the Chairmanship of the Commission authorized under the Railroad Act of last month to investigate the subject of railway capitalization in this country. Dr. Hadley is unusually well qualified for the task and the President deserves great credit for offering him the appointment. In saying this we have in mind not merely the fact that he is the executive head of one of the world's great institutions of learning, but also that he has made a specialty of the study of railroads and of economics. Before becoming President of Yale he wrote very thoughtfully on railroad questions; he was also for some years Labor Commissioner of Connecticut, and as such issued a series of annual reports which have always held a high place in literature of that character. With the relation of railroad transportation to the public weal, no living person is better acquainted. In every way the appointment would be an ideal one and if, in addition, the President should, as the newspaper accounts state he will, consult with President Hadley with regard to the appointment of the other members'of the Commission, we would havewhat is a consideration of the highest importance-a public body which would at the very outset command general confidence, and whose conclusions and judgment would be authoritative.President Hadley is a man of public spirit and we may be sure that his acceptance of the post will depend entirely upon whether he can spare the necessary time from his regular work. How much time will be required will depend upon the Commission itself. The law is decidedly vague as to the nature and scope of the Commission's work. The newspapers have stated that the Commission is to devise a plan for bringing the issuance of securities under the supervision of the Inter-State Commerce Commission. But that is not so. The exact phraseology of Section 16, authorizing the Commission, is "that the President is hereby authorized to appoint a commission to investigate questions pertaining to the issuance of stocks and bonds by railroad corporations, subject to the provisions of the Act to Regulate Commerce, and the power of Congress to regulate or affect the same." The phraseology is such as to allow a wide scope or a narrow seope, just as the Commission may choose. As is known, the provision was a compromise. The bill as it came from the House had a section providing for a physical valuation of every railroad in the United States; and also contained clauses regulating new stock and bond issues. There was strong objection to both these provisions in Senate and House alike, and in conference the compromise plan now found in the law was hit upon.
The idea underlying the attempt to regulate railway stock and bond issues is found in a widespread belief that the existing capitalization of the railroads is excessive-that much of it does not represent real value, and hence that the patrons of the roads, by the charges imposed upon them for the transportation services rendered, are obliged to bear undue burdens and pay tribute on such inflated capitalization. If the Commission should accomplish nothing more than to demolish this fallacy, presenting facts and figures in
disproof of it, it would render an important public service. It would be justified, too, we think, in addressing itself entirely to this phase of the matter, because if it were once clearly established that the present capitalization of the railroads is not in excess of its real value, much, if not all, of the antagonism to railroads would, we may be certain, disappear and the cry for regulation be deprived of a great part of its force and potency.

We can testify from our own experience that there is more desire for enlightenment on this point than upon any other aspect of the railroad question. We are all the time receiving inquiries concerning the subject, these inquiries coming from people in all walks in lifestudents, economists, public writers, investors and shippers. Demagogues have so persistently spread the false notion that a considerable part of the nominal railroad capital of the country represents nothing of tangible value that the impression persists and can only be eradicated by definite and authentic data to the contrary.

A careful study of the subject will show that there is little or no foundation for the charge of inflated capitalization. The Commission could devote itself to presenting conclusive facts on that point. Physical valuation of the property, such as is demanded by scheming politicians and certain well-meaning theorists, would show absolutely nothing, besides being almost impossible of accomplishment. A much simpler plan, and one much more conclusive, will be to inquire into the new stock and bond issues of recent times. Any general investigation, conducted in accordance with fair methods, will prove, we are confident, that, taking the roads as a whole, every dollar of capitalization represents a dollar of real value, and not unlikely a great deal more. In the early history of the railroads it undoubtedly often happened that stock was issued for only partial, or without any, consideration. However, so far as this was the case, such stock has been more than paid for in the interval since then out of surplus earnings which have been applied in payment for betterments, improvements, additions and extensions instead of being distributed in the shape of dividends on the shares. Take properties like the Lake Shore and the New York Central, where at the time of the original consolidation of the numerous minor properties, forty or more years ago, a large amount of extra capital was put out; this has been paid for many times over through appropriations of earnings which might have been applied in the payment of dividends. That is conspicuously true of the Lake Shore, on which dividends were for years kept on a very low basis ( $2 \%$ ) and in some years no dividends were paid, while meanwhile a second track was built and enormous additions made to equipment.

In more recent years all issues of stock and bonds, almost without exception, have been made at full par value, and frequently at a premium, in which latter instance, of course, the nominal capital represents less than the true investment. Among the better known properties we can at the moment recall only one conspicuous case within the last few years where an issue of stock was at less than par. This is the Cleveland Cincinnati Chicago \& St. Louis, where stockholders were in 1907 allowed to take $\$ 4,806,580$ new stock at 90 . In other cases the issues have been at par or better. And the amounts of such new issues
have been of enormous magnitude, so that they may be considered absolutely conclusive on the point in question. We may refer, for instance, to the fact that the New York Central has just put out $\$ 44,658,000$ of new stock at par, in 1905 put out $\$ 17,192,500$ at the same figure, in 1900 placed $\$ 15,000,000$ at that price, while in 1902 it issued $\$ 16,912,900$ at 125 . The Pennsylvania RR. last year offered $\$ 82,517,800$ of new stock at par and in 1903 sold $\$ 75,094,750$ at $120-$ that is, at $\$ 60$ per $\$ 50$ share-after having sold $\$ 50,500,800$ at 120 in 1901. The N. Y. N. H. \& H. last year issued $\$ 50,000,000$ new stock at 125 and in 1907 issued $\$ 29,270,400$ at the same figure, besides putting out $\$ 38,765,400$ of bonds convertible into stock at par; in 1905 it issued $\$ 29,997,300$ of bonds convertible into stock on the basis of $\$ 150$ of bonds for only $\$ 100$ in stock; in 1904 it got no less than 175 for $\$ 6,753,200$ of stock.

The Milwaukee \& St. Paul in 1906 offered shareholders $\$ 66,214,400$ of new preferred and $\$ 33,241,100$ new common stock, both at par. The Baltimore \& Ohio in the same year placed $\$ 27,750,000$ of stock at par and the Chicago \& North Western issued \$30,503,000 in $1909, \$ 24,403,000$ in $1907, \$ 16,267,400$ in 1906 and $\$ 10,609,000$ in 1905 , all at full par value. The Northern Pacific in 1907 offered $\$ 93,000,000$ of new stock for subscription at par and the Great Northern offered $\$ 60,000,000$ in 1907 and $\$ 25,000,000$ in 1905. The Southern Pacific in 1907 placed $\$ 36,000,000$ of preferred stock at 100 , after having placed $\$ 40,000,000$ at the same figure in 1904. The Illinois Central issued at par $\$ 14,256,000$ in $1908, \$ 15,840,000$ in 1902 and $\$ 19,200,000$ in 1901.

These instances might be extended, and they indicate correctly the process employed in making additions to capitalization in all recent years. In other words, they are authority for the statement that in these recent years practically every dollar of new stock issued has represented an actual dollar of cash put into the properties and frequently more, as is evidenced by the instances where a premium was realized. The statement applies, of course, also to new bond issues, since these are invariably disposed of at the best market prices that can be obtained for them. We do not mean to say that there are not individual cases of railroad property where the capitalization to-day may not be in excess of the true value. It is quite possible, for instance, that this might be found to be true of the Chicago \& Alton, where at the time of the reorganization in 1899, a large extra amount of stock and bonds was put out in exchange for the old securities. Taking the roads collectively, however, we are certain that investigation will demonstrate that there is no water in railroad capitalization to-day, allowing for the enormous amounts of earnings that have gone back into the properties. Certain cases of real capital inflation, like that of the Rock Island Co., need not be considered at all, for that is simply a holding company, and the underlying railroad property, the Chicago Rock Island \& Pacific, still exists as a separate entity and the same criticism does not apply to it. A further fact should be remembered, namely that the physical property, and particularly the terminal properties, owned by the railroads have in most instances risen enormously in value with the growth of population and the increase in the demand for land.

For these and other reasons it happens that even companies of poor credit and standing which are not regarded as having much intrinsic value, nevertheless possess a full equivalent of value for their capitalization. Thus President Underwood was quoted a few weeks ago as saying that notwithstanding the belief to the contrary, the Erie could not be duplicated to-day for its existing capitalization. And yet the Erie has had a very checkered career-has gone through more reorganizations, with new stock and bond issues at each reorganization, than probably any railroad in the country. It is in bringing out facts like these and establishing their authenticity that the Federal commission of inquiry can render great service. A letter to each company asking for the amounts of all new stock and bond issues, with the prices obtained for the same, would bring the needed information.

## RUSSO-JAPANESE ACTIVITIES IN THE FAR EAST.

The status of various small countries over-sea is undergoing a change in consonance with that world-old law known as the survival of the fittest. Without reverting to last year's re-alignment of national interests in the Balkans, four illustrations of this evolution can be cited as having engaged international attention within recent weeks, namely the tightening of Russia's grip upon the government of the Duchy of Finland, the upheaval and attempted revolution in Crete, the ushering in of new conditions in Manchuria and the annexation of Korea by Japan. The theoretical independence of Finland is no longer tenable. An earnest effort is being made by the four protecting powers to preserve Crete from disaster, but the fate of that historic little island still hangs in the balance. Last week the Russian Foreign Office communicated to the United States, China and other interested countries the Russo-Japanese convention that has been drawn up covering railroad and commercial affairs in Manchuria; briefly, the agreement amounts to a defensive alliance of the two nations for the protection of their Manchurian interests and an arrangement for the conduct of railroad operations.

The annexation of Korea by Japan has been foreshadowed for several years-indeed, ever since the full significance of the Russo-Japanese agreement of 1898 was realized. Before then, Korea had passed through troublous times. Ever since the early part of the seventeenth century China and Japan had laid tribute upon the Hermit Kingdom. When Japan began to imbibe progressive ideas, she sought, much against the will of the Koreans, to strengthen her hold upon the peninsula, but no great strides had been made when Russia obtruded by a plot to gain the ascendancy in Korean affairs. This caused the always watchful British Government to appear on the scene, her method being to occupy Port Hamilton. Both white nations were induced to withdraw, leaving China and Japan to wrangle over the administration of the little Kingdom. The wrangling culminated in the Chino-Japanese War, and the success then achieved by the Mikado's troops enabled the Japanese Government to act with greater boldness. The tragedy of 1895 , involving the murder of the Queen and the imprisonment of the King of Korea, followed, resulting in the latter's escape to the Russian Legation and the opening up of
negotiations with St. Petersburg. In view of the annexation of Korea by Japan, it is interesting to recount that the agreement signed at Tokio in 1898 distinctly recognized the sovereignty and complete independence of Korea and pledged the signatories to abstain from all direct interference in the internal affairs of the country. The Russian Government also agreed "not to hinder in any way the development of commercial and industrial relations between Japan and Korea." These relations the Japanese assiduously cultivated, and since their war with Russia they have practically controlled the administration of the peninsula. The Koreans had never shown conspicuous capacity for self-government, and now their country, long independent in name only, has passed to the ambitious and progressive Japanese.
Most interest, however, attaches to the developments regarding Manchuria. Much conjecture was indulged in concerning the ulterior motive of Japan and Russia in drawing up a new agreement relating to Manchuria, but the publication this week of the full text has removed all grounds for criticism. Great Britain, the United States and Germany are satisfied that the "open door" policy will be preserved and that no sinister designs upon China have been planned. The convention is extremely brief, and as it is a document of both current and historic interest, it may be here reproduced in extenso:
"Article 1.-With the object of facilitating communication and developing the commerce of nations, the two high contracting parties mutually engage to lend each other their friendly co-operation with a view to the amelioration of their respective railway lines in Manchuria and the improvement of the connecting service of the said railways, and to abstain from all competition prejudicial to the realization of this object.
"Article 2.-Each of the high con tracting parties engages to maintain and respect the status quo in Manchuria resulting from the treaties, conventions and other arrangements concluded up to this day between Japan and Russia, or between either of these two Powers and China. Copies of the aforesaid arrangements have been ex changed between Japan and Russia.
"Article 3.-In case that any event arises of a nature to menace the status quo above mentioned, the two high contracting parties shall in each case enter into communication with each other, in order to arrive at an understanding as to the measures they may judge it necessary to take for the maintenance of the said status quo."

The diplomatic proprieties have been carefully honored by the contracting parties. High Japanese and Russian dignitaries have visited the Foreign Offices of the countries chiefly concerned and have tendered oral assurances that nothing inimical to any other Power or Powers is purposed. To silence allegations from various sources that the treaty was inspired by Secretary Knox's proposal for the neutralization of Manchuria's railroads, the Prime Minister of Japan, Marquis Katsura, on Wednesday made a specific denial which their is no disposition on the part of our Government to question in any way. "There is not the slightest foundation," declared the Premier "for the assertions published in Europe that the RussoJapanese convention was the outcome of the neutralization proposition. It had absolutely no connection therewith, nor was it directly or indirectly intended as an answer to the United States. The convention was framed practically long before any proposal affecting Japan's interest in the railroads of Manchuria. It was made solely with the purpose of affording a
re-assurance of the friendly relations between Japan and Russia, and of insuring peace in the Far East; though, at the same time, with the practical object of improving traffic connections and working arrangements between the railroads. It is Japan's determined policy to adhere closely to all agreements and treaties with China and other nations." Even those who are ever ready to stir up strife between the United States and Japan will not be able to discern in this pacifying statement any excuse for sounding war bells.

## LISTINGS ON THE NEW YORK STOCK EXCHANGE FIRST HALF OF 1910.

"Improved financial status" is the story told by a large proportion of the additions made to the New York Stock Exchange during the first six months of the current calendar year. The passing of the "unlisted" department, and, in consequence, the transfer of many millions of industrial and other securities from it to the regular list, with all that means in the way of increased publicity, replacing obscurity and uncertainty, is another noteworthy circumstance, upon which the Exchange may well be congratulated.

The new securities which have been listed during the last six months represent to a large extent permanent financing that has removed further reminders of a period of disturbed credit, and has made possible a resumption of still other necessary improvements and desirable development work that had been stopped or curtailed owing to the strained condition of the money market of 1907 to 1908. Political and other events have of late again caused retrenchment, together with a moderate use of short-term notes and some borrowing abroad; but of this change in the outlook there is little or no suggestion in the compilation before us.

The "bond issues for new capital, etc.," which embrace funding o\% tions as well as new capital outlay, have for the past half-year reached a total that is practically the same as the large total for the same interval in 1909, being 100 millions, however, less than in the first half of 1908 , but nearly 150 millions above the record for any other corresponding period during the last decade. But here, be it noted, that among the 347 millions of such bond issues listed in 1910 there are seven municipal loans, aggregating no less than 134 millions, which, if deducted, would reduce the new capital issues remaining to not much in excess of 200 millions, a really very moderate amount considering the accumulated requirements of the railroad and other corporations of the country.
But while corporate bonds have declined in prominence, the stock issues made possible by the better times following the panic have, as a means for permanent financing, taken on notable proportions. Thus, we observe the listing for the Pennsylvania RR. of over 82 millions of new stock, offered to shareholders at par, substantially all of the proceeds having been applied either to the retirement of notes, a round 60 millions, on March 15, and some 20 millions of general mortgage $6 \%$ bonds on July 1. Similarly, the New York Central has sold at par, and the Exchange has listed, 45 millions of new stock in connection with the payment of 22 millions of notes, the purchase of new rolling stock and for further work on the Grand Central Station and the company's electric lines. The Chicago \& North Western has also issued, at par, and
listed, $301 / 2$ millions of new common shares. Partpaid receipts have likewise been given a place on the quotation sheet without being regularly listed, representing new stock issues, aggregating 30 and 50 millions, respectively, of the Canadian Pacific and New York New Haven \& Hartford, both lots floated at 125; these last items, however, do not figure in the totals now under review.

Five reorganizations have contributed 62 millions of stock and 53 millions of bonds, the stock having all been issued by the Pere Marquette and the Western Maryland (the latter having turned 10 millions of bonds into stock), and the bonds being the obligations of the Seaboard Air Line, the Chicago Great Western and the Cincinnati Hamilton \& Dayton; the two companies last named were re-established under the direction of J. P. Morgan \& Co., the C. H. \& D. becomcoming an adjunct of the Baltimore \& Ohio.
The usual comparative resume of the amounts of securities listed during the six months ending June 30 in each of the last ten years is as follows:

Note.-Applications for the llsting of trust company recelpts and of securities marked "assented" (if preparatory to reorganization), or if securities stamped "as
sumed" or "assesment paid"-the securitles themselves having been previously
listed-are not included in this table ilsted-are not Included in thls table.

Corporation stock.

The exceptional part played in 1910 by municipal loans, largely affecting the totals here shown, has been referred to above. The remarkably successful use of "stock issues for new capital, \&c.," also mentioned in what precedes, accounts for the fact that the total under that head reaches 234 millions, the largest with one exception in the decade, contrasting with 217 millions in the first half of 1909 , but with only 30 to 99 millions for the same six months of the years from 1903 to 1908. The dropping of the "unlisted," goes far to explain the extraordinarily large total appearing for "old stocks now listed," and the grand total of all classes of stock, this last exceeding all previous records excepting only the record of the year 1901, when there were listed more than 1,000 millions of United States Steel shares.

The purposes on account of which the several blocks of bonds listed during the half-year were issued are seen from the following:

Much the most important of the new stock issues recently listed have already been referred to above. In addition to these, there are three railroad issues of interest, namely 7 millions of new common stock, for improvements, equipment, \&c., put out by the Pittsburgh Cincinnati Chicago \& St. Louis, a dependency of the Pennsylvania system, and 5 millions of Atchison and $91 / 2$ millions of Atlantic Coast Line common, for conversion of bonds. The stock dividends which have been a feature of recent months in the case of industrial companies, with a view to bringing their property and capital accounts into closer correspondence, have examples in the $200 \%$ stock distribution of the Wells, Fargo Express Co., the $331-3 \%$ of the International Harvester, and the $20 \%$ of the Pullman Company.

The extinction of the "unlisted" sheet has been accompanied by the placing on the regular list of several hundred millions of shares, conspicuous among which are Amalgamated Copper and its ally, Anaconda, Distillers, Linseed, Biscuit, Great Northern Iron Ore Certificates, Lackawanna Steel, Steel Spring, Sears-Roebuck (mail order house, Chicago), Federal Sugar, \&c.

## RAILROAD GROSS EARNINGS FOR JUNE.

It is a gratifying circumstance that the gross revenues of the railroads of the United States are still showing increases to an important degree. Results as to net, as is known, are much less satisfactory, owing to the great augmentation in expenses; some large systems are even obliged to report losses in net in face of very considerable gains in gross-and this, too, at a time when larger net is needed in order to earn a return on the new capitalization which the roads have had to issue to provide the needed facilities to handle the growing volume of business. But it is at all events satisfactory to find that traffic keeps expanding, providing in this way extra gross receipts to offset in whole or in part the additions to expenses already incurred and the further additions that must come in the future as a result of the general increase in wages that has been granted to railway employees.

Our compilations to-day cover the month of June and relate to the roads which make it a practice to furnish preliminary estimates of results. As only 15 days have elapsed since the close of the month, the tabulation could in any event include only the roads submitting early exhibits. Our table comprises an aggregate of 87,924 miles of road, which is more than one-third the railroad mileage of the country, though it is proper to point out that a part of our total is made up of Canadian roads. The roads represented are mainly grain and cotton carriers in the West and

South, but heretofore these have correctly portrayed conditions on the railroads as a whole. This gives special significance to the fact that our aggregates show an increase, as compared with the same month last year, of no less than $\$ 8,356,824$, or $15.14 \%$. Out of the whole 53 companies contributing returns, only 4 have fallen behind.
The reader need hardly be told that the improvement this year follows a gain last year too., This latter, however, succeeded a very heavy loss in 1908, when business everywhere was depressed and railroad revenues were falling off at a frightful rate. Last year our early statement for June, covering 77,478 miles, showed $\$ 4,737,537$ increase, or $10.45 \%$. In 1908, on the other hand, when the mileage embraced was 78,614 miles, there was a loss of no less than $\$ 12,-$ 284,972 , or $20.89 \%$. In the following we show the June comparisons, as disclosed by our early compilations, for each year back to 1897:

| June. | Mileage. |  |  | Gross Earnings. |  | $\begin{aligned} & \text { Increase (+) } \\ & \text { Decrease }(-) . \end{aligned}$ |

Note.-Neither the earnings of the Mexican roads
the anthracite coal roads are included in this table.
As concerns the influences that have been operative the present year, the volume of trade, on the whole, remained large and active, notwithstanding some evidence of slackening in certain directions and in special lines of industry. In the movement of the leading staples, Southern roads labored under the disadvantage of a smaller cotton movement, but Western roads profited by a larger grain movement. The shipments of cotton overland were only 51,430 bales, against 64,129 bales in June last year and 79,061 bales in June 1908. The receipts at the Southern outports were only 116,468 bales, against 175,885 bales in June 1909 and 237,892 bales in June 1908. The contraction was particularly marked in Texas (Galveston, \&c.), but it happens that at New Orleans and also at one or two minor points this year's deliveries were a little above those for last year.
RECEIPTS OF COTTON AT SOUTHERN PORTS IN JUNE, AND FROM

As regards the Western grain movement, receipts of wheat for the five weeks ending July 2 were $9,982,-$ 923 bushels, against only $6,568,001$ bushels in the same five weeks of 1909, and the receipts of corn were $17,600,396$ bushels, against $15,498,177$ bushels. The deliveries of oats were somewhat smaller than a year ago, but those of barley and rye were larger. Adding the five cereals together, we find that aggregate grain deliveries for the five weeks of 1910 were $45,933,469$ bushels, as against only $39,742,922$ bushels in the
same five weeks of 1909 . In the following we show the grain movement in detail in our usual form:

| WESTERN GRAIN RECEIPTS. |  |  |  |  |  |  |

For the separate roads the increases are in numerous instances very large. In Canada there is enormous activity and development, and hence it is not surprising to find that among the roads included in our statement to-day (which does not contain the Pennsylvania, the New York Central and other large systems), the Canadian Pacific leads with an increase of $\$ 2,050$,000. But on many United States roads the improvement is also very noteworthy, though not equaling that of the Canadian Pacific. Among the Northern trans-continental lines, the Great Northern runs ahead by $\$ 915,679$; among Southern roads the Louisville \& Nashville has $\$ 683,627$ gain and the Southern Ry. $\$ 364,399$ gain; in the Middle West the Illinois Central is distinguished for an addition of $\$ 524,522$. In the annexed table we bring together all changes for the separate roads for amounts in excess of $\$ 30,000$, whether increases or decreases. As a matter of fact, there is only one decrease for that amount, while, as already stated, there are only four decreases for any amount out of the 53 roads reporting.

PRINCIPAL CHANGES IN GROSS EARNINGS IN JUNE.

Note.-Figures in parenthesis ${ }^{\circ}$ after name of road indicate the number of ines or companies for which separate returns are given in our compllation.
In considering the significance of this year's improvement following improvement last year, sight should not be lost of the fact that in large part these gains represent only a recovery of what was lost in 1908. For some roads, indeed, the increases for 1910 and 1909 combined do not equal the decrease of 1908. Take the Great Northern for example. It has $\$ 915,679$ gain this year and had $\$ 1,096,585$ gain last year making $\$ 2,012,264$ for the two years combined, but
$\$ 1,554,320$ of this merely makes good what was lost in 1908. The Southern Ry. adds $\$ 364,399$ to its earnings this year and last year added $\$ 211,640$. This, however, makes only $\$ 576,039$ for the two years, whereas in 1908 a shrinkage of no less than $\$ 768,359$ was experienced. The 1910 earnings, therefore, are still $\$ 192,320$ behind the total reached in June 1907. In the Southwest the Denver \& Rio Grande, the Missouri Kansas \& Texas, the Texas \& Pacific and the International \& Great Northern all fail to show for 1910 earnings as large as those reached in 1907.
To complete our analysis we furnish the following six-year comparison of the earnings of leading roads, arranged in groups according to their geographical location. It will be noted that, treated thus collectively, every group shows for 1910 a larger total than for any preceding year-notwithstanding the instances of individual roads cited above which have not yet got back to the earnings made in 1907.

## - Sold at the Stock Exchange

-A New York Stock Exchange membership was posted for transfer this week, the consideration being $\$ 65,000$ Last week $\$ 76,000$ was paid.
-According to an announcement in the "Evening Post" of last night, a private letter has been addressed to the leading bank officials and Clearing-House officers at Eastern reserve centres by U. S. Secretary of the Treasury MacVeagh suggesting that the banks bring about the establishment of national currency associations as provided for under the Emergency Currency law of May 30 1908. While there is no special need at the present time for the organization of these associations, the suggestion for their formation is made, it is stated, with the purpose in view of placing the banks in a position where it will be possible for them to take advantage of the Emergency Currency law in case it should be expedient to take out additional circulation late in the season
-Cable advices from Berlin on the 14th reported that the Niederdeutsche Joint Stock Bank had posted a notice on its Dortmund office announcing that all its branches would remain closed for three days pending the auditing of its books.
-The total payments to the Government under the Corporation Tax Law aggregated $\$ 26,000,000$ on July 11, the final day when the assessments might be met without becoming subject to the penalty of $5 \%$ of the unpaid tax and interest at $1 \%$ a month. The time actually expired July 10, but this being Sunday and a legal holiday a further day's grace beyond the ten days' extension was allowed. The assessments made under the law amounted to $\$ 27,254,847$.
-It is announced that the date of the next meeting of the committee appointed to investigate legislative corruption has been changed from July 26 to Aug. 2.
-Railroad and banking interests in this city have been actively engaged in perfecting plans for the safeguarding of bills of lading, a matter which has become urgent with the developments of the last few months, owing to the several failures which disclosed serious irregularities in the use of such bills. At the Corn Exchange Bank on Tuesday a
meeting was held of representatives of five banks and seven railroads (including the Rock Island, the Illinois Central, the Southern, the Louisville \& Nashville, the Atlantic Coast Line, the Seaboard Air Line and the Central of Georgia), and while several plans for preventing frauds were considered, final determination in the matter was deferred. The meeting resulted, however, in the appointment of a sub-committee of three bankers, which has been delegated to attend a conference of Traffic Managers of the Southeastern lines at White Sulphur Springs, Va., on Tuesday next, the 19th inst., when the question will be taken up further.
The Surety Association of America has also had a discussion of the matter this week, which took place at the WaldorfAstoria. The surety companies have been considering arrangements for guaranteeing bills of lading and a charge of 25 cents a bale was at first proposed. Contentions are reported to have arisen over this rate, and it is probable that the demand for a lower one will be met. The association, however, has issued no announcement as to this week's meeting, and representatives of the surety companies are still at work on the proposal. It is stated that the surety companies will also be represented at next Tuesday's meeting at White Sulphur Springs.
Two announcements bearing on the bill-of-lading question come from Europe during the week. One of these, dated at Liverpool on the 12th, stated that the directors of the Cotton Association had decided to support financially any legal proceedings taken by members arising from losses suffered by dealings with the Alabama firm of Knight, Yancey \& Co. This failure, which occurred in April, uncovered a number of irregular bills of lading affecting numerous foreign interests.

The second notice, dated at London on the 13th, said: The bankers' committee recently appointed to inquire into the cotton trade situation has decided to propose that, commencing in November,
American cotton bllls of lading shall be negotlated only when they are American cotton bllls of lading shall be negotlated only when they are
guaranteed by an American banking institution. It is expected that the proposal will be adopted after consideration at a general meeting of English and Continental bankers.
The committee made its investigation as a result of the discovery at
Liverpool last April of irregularities in the bills of lading on American cotton.
It is understood that John E. Gardin, Vice-President of the National City Bank, and William B. Joyce, President of the National Surety Company, will go abroad on behalf of the bankers here and take up with the foreign interests the matter of guaranteeing the bills of lading.
-Henry W. Cannon, Chairman of the board of directors of the Chase National Bank of this city, upon his arrival from Europe on the 8th inst., in a newspaper interview took occasion to refer to the views of foreign investors with regard to the Government's policy of antagonism to railroad interests. Mr. Cannon said:
"They do not understand the activities of our Inter-State Commerce Commission, whose interference with the railroads looks worse than it really is. Forelgners are apt to ask, 'Is the reduction of working expenses by the
railroads a crime?' Of course they do not understand our rate situation railroads a crime?. complication will right itself in time.
"Over there," he continued, "the Government alds carrying companies like the steamship lines and others carrying the malls by subsidles and in other ways, and why the reverse should be the case in this country appears almost inexplicable. However, I have confidence in the judgment and and $I$ am sure these things appear worse now than they will herea $t$ tr, Matters of importance, such as the fixing of frelght rates, will work themselves out to reasonable and falr result.'
-The Court of Appeals has rendered an opinion upholding the 1907 assessment of $1 \%$ levied by the City of New York on the capital, surplus and undivided profits of the local national and State banks. The litation arose through the failure, since remedied, of the Department of Taxes and Assessments to make provision for hearings of protest from banks whose stockholders might have a grievance against the payment of the tax. The assessment was paid by the banks under protest, and proceedings for its recovery were instituted on the ground that they had had no notice and thus had no opportunity to be heard. In an opinion given by the Court of Appeals in 1908 it was held that "a taxing Act which requires a valuation of property as part of the procedure is unconstitutional unless it provides a grievance day, or an adequate opportunity to be heard, and any tax levied under such a statute is void. If, however, a grievance day is provided, but notice thereof is not given, while the statute is valid, the tax is voidable." In 1909 a bill was passed remedying the technical defects in the method of these assessments for the years from 1901 to 1907 inclusive and removing all questions as to the legality of the assessments. This remedial Act was attacked by the banks on the ground that it did not cure the defects of the Act under which the
original assessments were made, and that at best no assessment could be made under it except as of a date after the passage of the remedial legislation. In its present decision the Court of Appeals maintains that this legislation did correct the defect, but that since the city had collected the taxes under a statute which did not become valid until two years after such collection, it should refund interest on the taxes for the intervening period. An order directing the return of this interest to the banks, which amounts to $10 \%$ of the taxes paid, was signed by Supreme Court Justice Giegerich on the 2 d inst.
-The program outlined by the Los Angeles bankers for the annual convention in that city of the American Bankers' Association during the week of Oct. 3 was submitted to and adopted by the executive officers of the Association at a meeting just held in this city. This meeting was attended by President Lewis E. Pierson of New. York, F. O. Watts of Nashville, Chairman William Livingstone of Detroit and Secretary F. E. Farnsworth of New York. For the business sessions the following arrangement is announced: Monday, Oct. 3-Committee and Council meetings.
Tuesday, Oct. 4-First day's session of convention proper
Wednesday, Oct. 5-Trust Company Section meeting and meeting organtzation of Secretaries.
Tharsiay,
meetings.
meetings.
. Oct. 7-Second day's session of convention proper
Friday even
purposes.
The social features will be as follows:
Monday evening, Oct. 3-Annual Council dinner, tendered by the bankers of Los Angeles, at the Hotel Alexandria.
of Los Angeles, at the Hotel Alexandria.
Entertainment for the ladies of the members of the Council.
Tuesday evening, Oct. 4-Grand reception and ball at the Shrine Auditorium.
Wednesday, Oct. 5-Trip to Catalina Islands where a barbecue will be given Automobile ride to Pasadena.
Wednesday evening, Oct. 5-Theatre
Thursday, Oct. 6-Trip to Catalina Islands, where a barbscue will be given. Automobile ride to Pasadena.
ursda. evening, Oct. 6-Theatre
Thursday evening, Oct. 6-Theatre.
The entertainments for Wednesday and Thursday have been purposely made identical so that the large number of peonle might be better provided for and in order that the entertainment would not interfere with the Section meetings. More than ordinary interest has been manifested in the coming convention, and already arrangements have been consummated by different State Bankers' Associations for special trains which are scheduled to start from New York, Philadelphia, Chicago, Cincinnati, New Orleans and St. Louis.
-The New York State Bankers' Association met in annual session this week at Otsego Lake, Cooperstown, N. Y., its convention coming to a close yesterday. A reunion was had at the meeting of the original members of the association who had attended the first convention, which was held in Saratoga Springs in August 1894. In addressing the present meeting, President Ledyard Cogswell, President of the New York State National Bank of Albany, referred to the newlyenacted Congressional legis'ation, and in urging that the laws be given a fair trial, took occasion to remark, nevertheless, "that we, as business men, feel that if we were only let alone for a little while we would get our feet on solid ground again." Mr. Cogswell also expressed concern over the prevailing extravagance, not alone on the part of the individual, "but as shown by the great expenditures of the nation, the State, the city and the town."
-One of the national banks in this city which records larger deposits at the bank call for June 30 is the Citizens Central National Bank, of which Edwin S. Schenck is President. By comparison with the March 29 statement, the deposits have risen from $\$ 23,891,531$ to $\$ 27,700,019$. Ag gregate resources for June 30 were $\$ 34,017,553$; surplus and profits, $\$ 1,494,204$, in addition to $\$ 2,550,000$ capital, on which $6 \%$ dividends are paid per annum. The Citizens Central National is patronized very largely by the wholesale dry goods and other trades in the vicinity of its banking offices, at 320 Broadway. Mr. Schenck's active official associates are Francis M. Bacon, Vice-President; Albion K. Chapman, Cashier, and Jesse M. Smith, James McAllister and W. M. Haines, Assistant Cashiers.
-John E. Borne, Chairman of the executive committee of the Trust Company of America of this city, died on the 11 th inst., following a short illness of pneumonia. Mr. Borne was in his fifty-eighth year, having been born in December 1852. He had formerly been President of the Colonial Trust Co. of this city, and since the consolidation of that company in 1907 with the Trust Company of America, had been Chairman of the Executive Committee of the consolidated institution. He was also a director of the National

Park Bank, the Mutual Bank, the Plaza Bank, the Mount Morris Bank, the Audit Company of New York, President and a director of the Colonial Safe ©Deposit Co. and was like-wise connected with various railroad and industrial companies. Mr. Borne had been identified for more than thirty years with the petroleum business and was President of the Borne, Scrymser \& Co.

- Leonard Hanna Hole, a member of the banking firm of W. N. Coler \& Co. of this city, died on the 8th inst. He was sixty-six years of age. Mr. Hole was a cousin of the late Mark Hanna. He was born in Salem, Ohio, but moved to South Dakota in 1884, and located here in 1900.
-A discharge from bankruptcy was granted to Fisk \& Robinson of 35 Cedar St., this city, by Judge Hand of the United States District Court on the 12th inst. Stanley W. Dexter, referee in bankruptcy, in his recent report recommending the granting of the petition, stated that it was "apparent that the failure was an honest one, and caused by the investment of capital too largely in inactive securities for which a ready market could not be found." The discharge was opposed by the Pioneer Trust Co. of Kansas City, Walter H. Holmes and Florence Miller, whose claims, it is stated, were small. Judge Hand, in confirming Mr. Dexter's report, and granting the discharge of the petitioners, said in part:
"I should not feel called on to add anything to the learned Master's opinion except for the ardor of the objecting creditors' insistence in opposing the discharge. After reading all the testimony I can really see no basis
whatever for any question of the bankrupts' conduct excent whatever for any question of the bankrupts' conduct except in the matter
of omitting to enter the items of $\$ 135,900$ and $\$ 37,500$. However, of omitting to enter the items of $\$ 135,900$ and $\$ 37,500$.

However, making every allowance for what the parties hoped, in the absence of some would have been much better book-keeping in my judgment to enter the item of $\$ 135,900$, or rather a larger item made on the basis of the valuation of Aug. 31 1909, and certalnly there was no justification at all for omltting the item of $\$ 37,500$.
"The fallure to enter these items is the only fault with which the bankrupts can be charged, and while it required some explanation, it does not by any means make out a case of fraudulent intent, and I shall confirm the
Master's findings upon that specfication." Master's findings upon that speclfication."
Fisk \& Robinson, who were members of the New York Stock Exchange, suspended on Feb. 1. Their failure was attributed to the shrinkage in market value of Buffalo \& Susquehanna securities, of which the firm was carrying a large amount. At a meeting of the creditors in March a statement was presented under date of Feb. 1 showing liabilities of $\$ 6,968,500$ and assets of $\$ 6,700,784$; of the liabilities $\$ 5,313,976$ were reported as secured.
-B. L. Allen, a Vice-President of the Knickerbocker Trust Company of this city, since its reorganization in 1908, has been elected to the directorate of the institution.
-A. H. Fisher, First Vice-President of the North River Savings Bank of this city, will perform the duties of President of the institution pending the election, in the fall, of a successor to the late Samuel D. Styles.
-Three indictments were handed down this week by the Grand Jury in connection with the inquiry into the dispute over a bond issue of the Titusville Northern RR., a part of which is deposited as security for a loan with the Carnegie Trust Co. of this city, as stated last week. The indictments, which are said to charge grand larceny, have been returned against Charles W. Chapman, a loan broker; C. M. Sexton, and George H. Proctor, stated to have been adirector of the road. Mr. Sexton, who is the only one who appeared this week in answer to the indictment, was released under bail of $\$ 5,000$. Mr. Proctor is said to be in London.
-Dr. Leslie D. Ward, First Vice-President of the Prudential Life Insurance Co. and Vice-President of the Union National Bank of Newark, died in London on July 13. Dr. Ward, with John F. Dryden, was one of the founders of the Prudential. In addition to his above interests, he was also a director of the Fidelity Trust Co. of Newark, the Essex County Trust Co. of East Orange, the Public Service Corporation of New Jersey and other organizations.
-It is proposed to change the name of the Borough National Bank of North Plainfield, N. J., to the State Trust Co. of Plainfield, where the offices of the institution will be located. The trust company will have a capital of $\$ 100,000$. The change is to become effective on Sept. 15.
-Following a public inspection of the new building of the Boston Safe Deposit \& Trust Co. of Boston accorded to its friends last week, the institution began business in its recently completed quarters on Monday the 11 th inst. The building is located at 100 Franklin Street, between Devonshire and Arch streets. Its erection, which was made necessary by reason of the growth of the company's business, was begun early last year. The structure is ten stories high, and
the company occupies the first andimezzanine floorsand the basement, renting the upper eight stories for office purposes. In the construction of the building numerous varieties of marble, both imported and domestic, have been used, the foreign marbles coming from Italy, Norway, Greece, Algeria and Belgium. The bank's quarters are spacious and in their equipment are designed to meet every requirement and convenience which both the business of the company and its patrons' needs call for. The institution has given special attention to its safe-deposit department and claims to have the largest vault in New England.
-Francis H. Burrage has been appointed Assistant Secretary of the Lincoln Trust Co. of Boston. The institution began business last October.
-The alterations in the building of the Market Street National Bank of Philadelphia, which were begun some months ago, have been completed, and the institution is now housed in practically a new structure. One of the marked features of the remodeled quarters is the light afforded through the alterations, making the use of artificial illumination no longer necessary. The exterior of the building has been converted into a marble front of Doric design. The bank continued business on the premises during the work of reconstruction.
-The stockholders of the Tradesmen's National Bank of Philadelphia on the 12 th inst. authorized the proposed change with respect to the par value of the stock, whereby it will be made $\$ 100$ per share instead of $\$ 50$ as at present.
-F. Leighton Kramer has been elected aVice-President of the Ridge Avenue Bank of Philadelphia to replace the late Frank R. Whiteside. Edward C. Bell has been elected Assistant Cashier of the institution.
-James T. Hamilton has been elected President of the Third National Bank of Pittsburgh to succeed the late Julius Bieler. Mr. Hamilton is a member of the glass-manufacturing firm of J. T. \& A. Hamilton. He has served as a director of the bank for a longer period than any of his present associates on the board.
-A union of the Grand Rapids National Bank and the National City Bank of Grand Rapids, Mich., has been arranged. The outgrowth of the consolidation will be the Grand Rapids-National City Bank, which will have $\$ 1,000$,000 capital and a surplus of $\$ 200,000$. Under the plans agreed to by the directors, the name of the National City Bank will be changed to the new title and the Grand Rapids National will be merged into it. The National City will reduce its capital from $\$ 600,000$ to $\$ 500,000$ by the payment of a cash dividend to the present shareholders. This reduction will be made to make the capital equal to that of the Grand Rapids National, which stands at $\$ 500,000$; the stockholders of the two banks will then share alike in the $\$ 1,000,000$ capital of the new institution. It is also proposed to increase the capital of the City Trust \& Savings Bank, which is affiliated with the National City, from \$100,000 to $\$ 200,000$, a portion of the accumulated surplus and undivided profits of the latter being used to this end. The Grand Rapids National began business in 1880, succeeding the private bank of Moses V. Aldrich, established in 1871. The National City Bank dates from 1865, and it was originally styled the City National Bank. Dudley E. Waters, President of the Grand Rapids National, will be Chairman of the board of the new bank, and James R. Wylie, President of the National City, will continue in the presidency or the consolidated institution.
-The Lake View Trust \& Savings Bank of Chicago has increased its dividend rate from 5 to $6 \%$ per annum, having declared a quarterly dividend of $11 / 2 \%$, payable July 1, against $11 / 4 \%$ in April. The institution has a capital of $\$ 200,000$.
-A second dividend in liquidation has been paid to the stockholders of the Hamilton National Bank of Chicago, which was merged with the National City Bank in February. The amount represented in the present distribution is $25 \%$, making, with the $100 \%$ paid in May, a total of $125 \%$ thus far.
-The First National Bank of Minneapolis has issued its new statement in especially attractive form, on buff paper, on which is displayed a half-tone etching of its magnificent building. The aggregate resources of the bank for June 30 are $\$ 25,031,442$, while its deposits amount to $\$ 19,402,885$. The institution has a capital of $\$ 2,000,000$ and surplus and profits of $\$ 2,186,338$. F. M. Prince is President, C. T. Jaffray Vice-President and Geo. F. Orde Cashier.
-The Southwest Boulevard State Bank of Kansas City, Kansas, recently began business with a capital of $\$ 100,000$
and surplus of $\$ 10,000$. The management is made up as follows: W. E. Zahner, President; W. J. Berkowitz, VicePresident; Charles S. Alves, Cashier and J. A. Siemon, Assistant Cashier.
-The Washington National Bank of St. Louis announces as paid in its new capital of $\$ 500,000$. An addition of $\$ 300,000$ to the $\$ 200,000$ capital was authorized by the stockholders in January. With its increased capital, the bank reports surplus and profits of $\$ 55,000$.
-The Mercantile National Bank of St. Louis is occupying new quarters in the Mercantile National Bank Building. Pending the expiration of a lease on these quarters, the bank, which has been operating since January 1909, had made use of a portion of the offices of the Mercantile Trust Company.
-The Kentucky Bankers' Association will hold its annual convention at Louisville on Sept. 14 and 15.
-Following out the arrangements for consolidating the Third National Bank of Louisville with the Southern National Bank of that city, noted in this department a week ago, the business of the Third National was transferred to the Southern on the 7th inst. The stockholders of the two banks will ratify the merger on Aug. 5. Details of the same were given in our item of last Saturday.
-August Ropke, late Assistant Secretary of the Fidelity Trust Co. of Louisville, Ky., was arrested on the 11th inst. on the specific charge of misappropriating $\$ 6,070$ of the institution's funds. It is reported that the alleged shortage is likely to be largely in excess of the figure named; in fact, this is indicated in an announcement of President John W. Barr Jr., issued on Tuesday, in which he said:
The defalcation is very large: The estates are absolutely intact. Not a dollar can be lost to any one other than the stockholders.
In order at once further to strengthen the resources of the company and to place larger capital behind all trust estates, and in order that all persons may know of its great resources and the confidence of its directors. I
have been authorized in writing by each and every director to state that have been authorized in writing by each andever without compensation, to pay into the company, if it should be necessary, one million dollars in the form of a subscription to an additional issue of stock.
Notice of a stockholders' meeting will promptly be malled to each shareholder.
The following statement had previously (on Monday) been given out by Mr. Barr:
"A warrant has been issued for the arrest of August Ropke, charging him with defrauding the company in the sum of $\$ 6,070$. Mr. Ropke has been in the employ of the company for a number of years in the capacity of book-keeper in one or our departments. He had nothing whatever to do with any of the securitles, nor had he any connection with the trust department, which, as is well known, forms the great bulk of chief businces conducted by the company.
"At present we are engaged in a critical examination of our books by a well-known firm of chartered accountants, with the object not only of
determining the true amount of the defalcation, but also of devising a determining the true amount of the defalcation, but also of devising a
The downfall of Ropke is said to have been due to speculation in stocks, operations having been conducted by the accused on a large scale, according to the Louisville "CourierJournal." The "Journal" also states that, according to Mr. Barr, Ropke appropriated the funds of the institution to his own use through the clearing system. Payments forwarded to the company by other banks to cover checks cashed against them would, it is asserted, be confiscated by Ropke, and false entries, it is charged, would be made in the records to hide the alleged delinquency. In default of bail, fixed at $\$ 25,000$, Ropke is held in custody. His case will go over to the October term. He had been employed by the company for eighteen years.
-W. H. Edinger, President of the German Insurance Bank, of Louisville, Ky., died on the 12th inst. Mr. Edinger had been President of the institution for fourteen years. He was sixty-six years of age.
-The organizers of the Colonial Bank \& Trust Co., Inc., of Roanoke, Va., a new institution, have purchased the entire capital stock of the American Savings Bank of that city. All the assets and liabilities of the latter will be turned over about August 1 to the Colonial, which will commence with a paid-up capital of 5,000 shares at $\$ 100$ per share, par value. The stock is now being sold at par, and there will be no surplus when the company starts.
-A new Savannah banking institution began operations on the 5 th inst. under the title of the Real Estate Bank. The management consists of Jacob S. Collins, President; Robert M. Hicks and Carl Mendel, VicePresidents; John E. Foy, Chairman of the board; and Grover C. Paulsen, Cashier.
-Compilations appearing in the Mobile papers of the 1st inst. relative to the standing of the city's financial institutions at the end of the half-year depict noteworthy advance-
ment．For June 301910 the deposits of the eight banking institutions are $\$ 10,874,545$ ，while their combined capital， surplus and undivided profits is $\$ 3,948,470$ ．Ten years ago（in 1900），the combined deposits were but $\$ 4,309,322$ and the aggregate capital，surplus and profits only $\$ 1,667,379$ ． The City Bank \＆Trust Co．heads the list in the June 301910 statistics，having on that date capital，surplus and profits of $\$ 1,007,355$ and deposits of $\$ 3,240,080$ ，the latter having grown from $\$ 2,480,175$ on June 301909 ．The People＇s Bank is second with deposits of $\$ 2,029,392$ and capital， surplus and profits of $\$ 833,330$ ．On，a total capital of $\$ 1,620,000$ ，the seven clearing－house banks paid out in dividends on the 1st inst．$\$ 109,000$ ．There has also been considerable gain in the clearances of the banks，the increase amounting to $\$ 5,900,717$ for the year，Secretary J．L． Taylor of the Clearing House Association reporting the amount for the twelve months ending June 301910 as $\$ 73$ ，－ 186，199 and those for the year ending June 301909 as $\$ 67,285,482$ ．
－The Central Trust Co．of San Antonio，Texas，has been chartered with a capital of $\$ 500,000$ ．
－With the conversion of the banking institution of Dexter Horton \＆Co．of Seattle，Wash．，into the Dexter Horton National Bank，N．H．Latimer has become President， succeeding W．M．Ladd．The institution，which was established in 1870，and is the oldest bank in the State of Washington，began operations under the Federal system on June 30．The capital is to be increased from $\$ 1,000,000$ to $\$ 1,200,000$ ，and it is stated that after the issuance of the new stock the holdings of Mr．Latimer，and several other Seattle men who have become interested in the institution， will be sufficient to place the control in their hands．Mr． Latimer has been associated with the institution since 1882， and had served as manager since 1890．As a national bank the institution starts with deposits of $\$ 11,972,589$ and total resources of $\$ 13,172,628$ ．Aside from the change in the presidency，the management continues as heretofore， namely，R．H．Denny，Vice－President；M．W．Peterson， Cashier；G．F．Clark，H．L．Merritt and C．E．Burnside， Assistant Cashiers，and J．W．Spangler，manager of the credit department．It is reported that the Washington Trust Co．（capital $\$ 300,000$ ）will be consolidated with the Dexter Horton National，the stockholders of the trust company having ratified the proposition，which is not expected to become effective before August 1.
－The convention of the Washington Bankers＇Association takes place next week at Aberdeen－Hoquiam，on Thursday， Friday and Saturday．The speakers，heretofore referred to， will include H．P．Hillard，President of the Central National Bank of St．Louis；James K．Lynch，Vice－President of the First National Bank of San Francisco；Thomas Burke， Seattle；J．L．Mohundro，State Examiner；B．L．Jenkins， Auditor of the Union Securities Co．of Spokane and Wesley L．Jones，United States Senator．
－The banking department of the Union Bank \＆Trust Co． of Portland，Ore．，was taken over on June 6 by the Ameri－ can Bank \＆Trust Co．of that city．We are advised that there was no consolidation or merger of the corporation，the banking department only being transferred，and the trans－ action has involved no change of management or increase in capital of the American Bank \＆Trust Co．The latter has a capital of $\$ 150,000$ ．
－It is reported that negotiations have been concluded for the purchase of the assets of the Union Bank of Halifax，at Halifax，Nova Scotia，by the Royal Bank of Canada，head office Montreal．The Union Bank has a paid－in capital of $\$ 1,500,000$ ，a reserve fund of $\$ 1,250,000$ and deposits（May 31 ）of $\$ 10,716,476$ ．It was established in 1856 ．The Royal Bank has a paid－in capital of $\$ 5,000,000$ ，a reserve of $\$ 5,700,-$ 000 and deposits of about $\$ 52,000,000$ ．The terms of the purchase have not yet been announced．

## ［From our own correspondent．］

London，Saturday，July 91910.
We have passed through a very anxious week in London， Paris，Berlin and Amsterdam．Primarily the cause of the anxiety was the slump in New York．No well－informed observer doubted that the trouble in New York was a purely Stock Exchange trouble．But the ordinary public，seeing
fear that there were difficulties undisclosed，and therefore became apprehensive of they knew not what．The decline in New York，and particularly the low prices of copper and copper shares，reacted upon Paris．In Paris there has been a large number of new issues during the first half of the year． A portion of these issues was not placed，and the subscribers， though they did not intend to hold the new stocks，and in fact were not in a position to pay for them，still subscribed largely in other directions．When，therefore，weakness showed itself in New York and people began to grow anxious， these rash operators found it impossible to carry over their operations．Liquidation began，and as it proceeded stop orders were reached，and other difficulties created．
This week the worst was reached by the failure of a notary． Notaries in Paris combine much of the business of the lawyer and the banker，and are trusted by their clients with large amounts of money for investment．The notary in question is said to have misappropriated the funds of his clients，and therefore his failure spread alarm amongst everybody who had had any dealings with him．The effect reached even Berlin and Amsterdam，it is said．In Berlin，likewise，there was a severe liquidation，and in two or three instances opera－ tors who were cleaned out committed suicide．The difficul－ ties in Berlin were aggravated by considerable shipments of gold to St．Petersburg and Amsterdam．Germany for the time being is a debtor to other countries，and is obliged to settle her debts by exporting gold．Holland felt the effect of the trouble in Paris and Berlin and there have been some failures there likewise．
In all cases the depression was increased by apprehension that the coming harvest will prove deficient．A month or two ago there were strong hopes that the crops would turn out to be abundant．But the bad weather of the last six weeks has done much damage，causing fears in Paris，Berlin and Amsterdam that the harvest will be a disappointing one． On the other hand，the hope is strong that the Russian harvest will be quite as good as the extraordinarily fine har－ vest of last year．That is one reason why Russia is able to take gold from Berlin．It furnishes the reason，too，for the curious fact that while quotations in general were falling in London，Paris，Berlin and Amsterdam，Russian securities of all kinds rose．Moreover，in the middle of the liquidation， one of the Paris banks placed an issue of Russian railway
bonds．Indeed，it is remarkable that many Government securities have been firm throughout the liquidation．French rentes have given way，and so have German Government securities；but most government securities have been firm． British consols，for instance，though they have fluctuated during the actual liquidation，still are higher now than they were a couple of months ago．
In London there was no serious scare．Owing，perhaps， chiefly to the rejection of the Budget by the House of Lords last year，and the financial chaos which followed，there has been exceedingly little speculation in London，except in the form of new issues．The new issues have been phenomenally arge，particularly the new issues of rubber and oil shares． But the facilities for carrying over rubber and oil shares are very scanty and，therefore，most of the operators in these have had to pay for the stocks they bought．As a conse－ quence，the markets for both rubber and oil shares have come through this trying time with exceedingly little loss．But there has been a sharp fall in most other things．Yet there has been no failure worth speaking of，and there has been no failure at all within the Stock Exchange．In fact，London has suffered more from the sales effected on foreign account than from selling by people here at home．The selling on French and German account has been very large and very persistent．Consequently，gold shares，copper shares and diamond shares have been under great pressure，these being held in very large amounts upon the Continent．British railway stocks，too，have given way．These stocks have been low for a long time．And although they have been creeping up lately，most people though that there was not much room for a heavy fall．Yet the fall in British railway stocks has been considerable．

Money is very abundant and cheap．Everybody was looking for a reduction of its rate by the Bank of England on Thursday．No change was made，however，probably because arrangements had been made for the shipping of $£ 350,000$ in gold to New York．It is understood that if more is required it will be shipped．As Germany is shipping gold both to Russia and Holland，no doubt is entertained that gold could be obtained in Germany for New York if necessary．Still more could be obtained in Buenos Ayres， for the Buenos Ayres exchange upon London is now almost at a point at which it would pay to ship gold to London． Gold also could be obtained in Australia．In short，if gold is wanted in New York there will be no serious difficulty in finding at least five millions sterling．
The Board of Trade returns for June show an extraordinary expansion in British trade．The value of the imports ponding month of last year of $£ 2,924,884$ ，or $5.6 \%$ ．The value of the exports of British and Irish produce and manu factures amounted to $£ 34,799,654$ ，a $n$ increase over June of last year of $£ 5,081,679$ ，or $17.1 \%$ ．The exports of foreign and colonial produce amounted to $£ 8,383,643$ ，an increase of $£ 418,038$ ，or $5.3 \%$ ．For the six months the increase in the imports was $10.9 \%$ ；the increase in the exports was $15.7 \%$ ；and the increase in the re－exports was $18.8 \%$ ．

The India Council offered for tender on Wednesday 40 lacs of its bills, and the applications exceeded $3331 / 2$ lacs at prices ranging from $1 \mathrm{~s} .315-16 \mathrm{~d}$. to 1 s .4 d . per rupee. Applicants for bills at 1s. $331-32 \mathrm{~d}$. were allotted about $15 \%$, and above in full, while applicants for telegraphic transfers at 1s. 4 d . were allotted about $15 \%$.
The following returns show the position of the Bank of England, the Bank rate of discount, the price of consols, \&c., compared with the last four years:

The Banking Department also undertakes to present separate figures indicating the totals for the State banks and trust companies in the Greater New York not in the Clearing House. These figures are shown in the table below, as are also the results (both actual and average) for the ClearingHouse banks. In addition, we have combined each corresponding item in the two statements, thus affording an aggregate for the whole of the banks and trust companies in the Greater New York.

The Money Market and Financial Situation.-With more or less irregularity in the movement, security values have advanced to a higher level this week. The market has not been as active as last week, so-called bargain hunters having been less in evidence than when prices were lower near the end of last month, and a large part of the business transacted has been of a professional character
It is doubtless true that a more hopeful feeling prevails in inancial circles than recently obtained, and there is, perhaps, sufficient ground for the change of sentiment. Saturday's bank statement surprised many by showing a largely increased surplus and the Bank of England reports a substantiai addition to its percentage of reserve, the latter now standing fractionally above 50 . Interest rates are lower in London than in New York, another shipment of gold hitherward has been arranged for, and as foreign exchange rates in this market are lower than for nearly 3 years pastit seems quite likely that gold imports will continue, and perhaps increase, as funds are needed for crop-moving purposes in the West and South.
In railway circles, especially, there is general satisfaction over the action of the Inter-State Commerce Commission in allowing the railroads entering New York City to advance their commutation rates as proposed-at least until the question can be more thoroughly investigated-the same to go into effect July 20th. This matter is in itself, however, a small one and it is unfortunate that simultaneously the Commission has announced that all proposed increases in freight rates, both in the East and the West, are to be held in abeyance for 120 days.
Rain in some sections of Minnesota and the Dakotas has improved the wheat crop in those States, but reports from the Canadian Northwest indicate that a good deal of damage will result from the continued drought.
The open market rates for call loans at the Stock Exchange during the week on stock and bond collaterals have ranged from 2 to $3 \%$. To-day's rates on call were $21 / 2 @ 3 \%$. Commercial paper quoted at $51 / 4 @ 53 / 4 \%$ for 60 to 90 -day endorsements, $51 / 206 \%$ for prime 4 to 6 months' single names and $6 @ 61 / 2 \%$ for good single names.
The Bank of England weekly statement on Thursday showed a decrease in bullion of $£ 111,344$ and the percentage reserve to liabilities was 50.32 , against 46.40 last week.
The rate of discount remains unchanged at 3\%, as fixed June 9. The Bank of France shows a decrease of $16,-$ 600,000 francs gold and 6,450,000 francs silver.

Note.-The Clearing House now issues a statement weekly showing the actual figures, together with the returns of separate banks, also the summary issued by the State Banking Department, giving the condition of State banks and trust companies not reporing to the Clearing House, appear on the second page preceding

Foreign Exchange. - Firmer inoney rates here, combined with easier discounts in London, depressed toreign exchange this week to new low levels for the year, although just before the close there was a recovery of $1 / 8^{\mathrm{c}}$. from the bottom.

To-day's (Friday's) nominal rates for sterling exchange were 484 for sixty day and 486 for sight. To-day's (Friday's) actual rates for sterling exchange were $48360 @$, 48375 for sixty days, $48535 @ 48545$ for cheques and $48560 @$ 48565 for cables. Commercial on banks $483 @ 4831 / 4$ and documents for payment $483 @ 4831 / 4$. Cotton for payment $4823 / 4 @ 493$ and grain for payment $483 @ 4831 / 8$.

To-day's (Friday's) actual rates for Paris bankers' francs were $5205 / 8$ less 1-16@5 205/8 for long and $5183 / 4$ less $3-32 @$, $5183 / 4$ less $1-16$ for short. Germany bankers' marks were 949-16@94 11-16 for long and 95@95 1-16 for short. Amsterdam bankers' guilders $401 / 4$ less $1-16 @ 401 / 4$ for short.
Exchange at Paris on London, 25 f. $193 / 4 \mathrm{c}$.; week's range. $25 \mathrm{f} .211 / 2 \mathrm{c}$. high and 25 f . 19 c . low.

Exchange at Berlin on London, 20m. $451 / 4 \mathrm{pf}$.; week's range, 20 m . $461 / 2 \mathrm{pf}$. high and $20 \mathrm{~m} .443 / 4 \mathrm{pf}$. low
The range of foreign exchange for the week follows:
Sterling, Actual- Cables.

| Sterling, Actual- | Stxty Days. | Cheques. | Cables. |
| :---: | :---: | :---: | :---: |
| High for the week -- | 484 Day. | 48565. | 48590 |
| Low for the week Paris Bankers' | $4831 / 2$ | 48520 | 48540 |
| High for the week | 520 | 5 188/4 less 1-32 | $5183 / 4$ |
| Low for the week Germany Banker | $5205 / 8$ less 1-16 | $5193 / 8$ less 1-32 | $5193 / 8$ |
| High for the week | 94 11-16 |  |  |
| Low for the week..- <br> Amsterdam Banker | $\text { rs } 941 / 2$ | 94 15-16 | 95 less 1-32 |
| High for the week Low for the week. | ${ }_{39}^{40} 9$ | $\begin{aligned} & 4025 \\ & 4017 \end{aligned}$ | $\begin{aligned} & 4030 \\ & 4022 \end{aligned}$ |

The following are the rates for domestic exchange at the undermentioned cities at the close of the week: Boston, 10 c . per $\$ 1,000$ discount for cash. Chicago 10c. per $\$ 1,000$ discount. St. Louis 25 c . per $\$ 1,000$ premium. St. Paul 65 c . per $\$ 1,000$ premium. New Orleans, commercial 25 c . per $\$ 1,000$ discount; bank, $\$ 1$, per $\$ 1,000$ premium. Savannah buying, 3-16 discount; selling, par. Charleston buying, par; selling 1-10 premium. San Francisco 50c. per $\$ 1,000$ premium. Montreal $311 / 4 \mathrm{c}$. per $\$ 1,000$ discount.
State and Railroad Bonds.-No sales of State bonds have been reported at the Board this week.

The demand for railway and industrial bonds has not perceptibly increased and the aggregate transactions have been small. The limited offerings have been, however, quite readily absorbed. In some cases prices are fractionally higher than last week, but fluctuations have been narrow and exceptional features rare. A list of the bonds which have advanced a half point or more includes Amer. Tel. \& Tel., the Atchison issues, Brooklyn Rapid Transit, \&c.

United States Bonds.-Sales of Government bonds at the Board are limited to $\$ 6,0004 \mathrm{~s}$ coup. at $1147 / 8$ and $\$ 10,000$ P. I. land purchase 5 s at $1001 / 2$. The following are the daily closing quotations; for yearly range see third page following.

and Miscellaneous Stocks.-Business in the stock narrow has been small in volume and fluctuations relatively from abroad on the week. A highly sensational report from abroad on Tuesday gave the bear element an oppor-
tunity to get in its favorite work and the lowest prices of the week were recorded on that day. From these prices there was a substantial recovery, however, and practically the whole active list advanced from 2 to 5 points.

To-day's market was conspicuous for the limited amount of business transacted and a fractional loss of recovery noted.
Among the exceptional features are St. Paul, which shows an advance of 5 points, Union Pacific, which is $41 / 2$ points higher, and the copper stocks, which have been relatively weak under the influence, which has long prevailed, of an over-production of the metal. A few issues are about 2 points higher and others show an advance of a point or less.
Perhaps the lack of interest and decline in securities to-day is due, in part at least, to the action of the Inter-State Commerce Commission, noted above, in suspending the proposed advance in freight rates for four months.

For daily volume of business see page 145.
The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

| eek ending July 15. | Sales <br> for <br> Week. | Range for Week. |  |  |  | Range since Jan. 1. |  |  |  |

Outside Market.-The little business in evidence in "curb" securities this week was of a desultory character. In keeping with this situation, prices moved irregularly, with only slight fluctuations in the majority of instances. Butte Coalition rose from 17 to $171 / 8$, dropped to $161 / 2$ and sold back to 17. Chino advanced from $101 / 4$ to $103 / 4$; Giroux weakened from $67 / 8$ to $61 / 2$ and recovered to $63 / 4$. Greene Cananea moved up from 7 to $71 / 8$, down to $67 / 8$ and back finally to 7 . Miami Copper was conspicuous for the loss of over a point to 17 , the close to-day being at $171 / 4$. El Rayo fluctuated between $35 / 8$ and 4 . Goldfield Consolidated weakened from 9 to $83 / 4$ and ends the week at $87 / 8$. Kerr Lake advanced from 81/8 to 85-16 and closed to-day at 8. La Rose Consolidated ranged between $43-16$ and 4 , with the close to-day at the low figure. Nipissing after an early advance from $103 / 4$ to 11 eased off to $105 / 8$, the final quotation to-day being $1011-16$ There was a very small market for miscellaneous securities. American Tobacco, which was practically neglected, lost a point to 415. Intercontinental Rubber advanced from 203/4 to $221 / 4$ and to-day sold at 21 . Standard Oil after an early improvement from 611 to 615 broke to 600 . United Cigar Mfrs. common fell from $681 / 2$ to $661 / 4$ and recovered to 67 . Chicago Subway went up from $21 / 8$ to $21 / 4$ and down to 2 . In the bond department, the New York State Canal Improvement 4 s appeared and sold "when tssued" between 100 and 101, to-day's transactions being at $1005 / 8 @ 1001 / 2$. Western Pacific 5 s advanced from $911 / 2$ to 93 , sank to $911 / 8$ and rose again to $931 / 8$, with a final reaction to $927 / 8$.
Outside quotations will be found on page 145 .

## Philadelohia and Baltimore Stock Exchanges-Stook Record, Daily, Weekly, Yearly

## 

HAILROAD GROSS EARNINGS.
The following table shows the gross earnings of every STEAM railroad from which reg ular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers so me other period The returns of the electric railways are brought together separately on a subsequent paje.

| ROADS. | Latest Gross Earni |  |  | July 1 to Latest Dats. |  | ROADS. | Latast Gross Earnings. |  |  | July 1 to Latest Date. |  |

Electric Railway Net Earnings.-The following table gives the returns of ELECTRIC railway gross and net earnings reported this week. A full detailed statement, including al roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of June 25 1910. The next will appear in the issue of July 301910.

## American Telephone \& Telegraph Co.

(Report for Fiscal Year ending Dec. 31 1909.)
The annual reports of a number of the company's controlled properties, \&c., were given on July 2; others are below. It will be noted that, owing to some changes in the method of accounting, years are in many. it not all, cases inaccurate, although the final results remain unchanged. This is due to the fact that the items of eal estate revenues and expense are now the different departments of the several companies for the space occupied in the real estate of each, the amount charged being taken up in the expense accounts of the departments and the earnings on real estate rented to outsiders only, the real estate upkeep being charged on real estate renenses.
The holdings of the company in its several subsidiaries in May 1909 were given in the "Chronicle," V. 88, p. 1554.V. 91, p. 35,40 .

## Missouri \& Kansas Telephone Company.

(Report for Fiscal Year ending Dec. 31 1909.)
Pres.C.S.'Gleed, Kansas City, Mo., Jan. 25 1910, wrote: By the severe sleet storm in February your company lost over $\$ 200,000$ worth of property and approximately $\$ 50,000$ in revenue. In other words,
but for this storm the figures would be not less than $\$ 250,000$ better than they now are.
The number of stations owned increased during the year 12,968, or $13.7 \%$; the number of stations connected but not owned increased 48,473 , or
 added to capital account was $\$ 598,473$, Increasing the total to $\$ 18,342,739$.
In he middle of the year an amlcable settlement of numerous complicated In he midde or the company and the clty of Kansas City was reached, the settlem.
A large number of very substantial and long-needed improvements and The American Telephone \& Telegraph Co., holder of all the floating debt (about $\$ 15,000,000$ ), has agreed to begin at once taking the stock of thls company for the purpose or retiring the company's floating debt. The
first subscription will be for not less than $\$ 10,000,000$ and it is $111 k e l y$ that firsough more will be taken in the near future to insure the retirement of enough more the fling debt.

## New England (Bell) Telephone \& Telegraph Company.

(Report for Fiscal Year ending Dec. 31 1909.)
Pres. Thomas Sherwin, Boston, May 2, wrote in substance: Compared with 1908 there was an increase of gross revenue, $\$ 827,653$;
an increase of expenses, $\$ 204,116$, and an increase of net revenue, $\$ 623,5 \pm 6$. The number of stations added to the exchange olists of the company was
21,985 , making the total at the end of the year 263,583 . Including in the anumber of stations conn of associated and sub-licensee companies, the total Vermont and Massachusetts and in small portions of New Yew Hampshire, Island was 337,021, as compared with 304,986 at the close of 1908 . telephone exchanges in Lewiston within the past few months the automatic satisfactory terms certain claims made by those cities to ownership in on properties. This was a part of, or alled with, what was known as the our last report. Nothing of a disturbing nature in thich was mentioned in in which our business is within the four Northern New England States in which our business is conducted. A number of such companies stili
continue to operate, but they are not of such size as to interfere appreciably

With the development of our business. Popular opinion has now quite
generally in this part of the country come to regard a dual telaphone as a hindrance rather than an advantage to a communlty. The underground system of the company consists of about 589 miles of
conduit, containing 2,887 miles of duct; $7,351,000$ feet of cable have been drawn into the underground system. These statistics have been adjusted The amount appropriated for lines and equipment during 1909 was: For new construction, \$1,665,061 (for the whole system, $\$ 1,861,354$ ); for $\$ 5,226,643$, as against $\$ 4,987,700$ in 1908. The estimated appropriation, for maintenance and extensions during 1910 is $\$ 7,570,000$, viz: for new
construction and real estate, $\$ 3,770,000$; for maintenance, including deIt is expected that at least 30,000 stations will within the present year be added to the number in operation at the end of last. year.
Under circular dated March 26
1909
(V. 88, p. 825), $\$ 1,813,400$ capital stock was issued and $\$ 1,740,000$ was issued on Jan. $\$ 713,400$ of new
a total addition of $\$ 3,553,400$. The total of issued capital stock at thls date is $\$ 39,177,800$.

## Southern New England (Bell) Telephone Company.

(Report for Fiscal Year ending Dec. 31 1909.)
Pres. John W. Alling, Feb. 1 1910, wrote in substance: The income has increased over 1008 by $\$ 208.572$ and theexpenses by \$201,059. The amount carried to surplus was \$7.285. The usual dividends (6\%) have been pald. The in increase in th number of statlons has been 7,572 (maklng a total Dec. 31 of 73,584 ), as follows: Installed 13,380 ; disconnectlons, 5,808 . There is now one tele
phone for each 14.2 inhabitants of the State. phone for each to our plant account during the year brings our total plant
The adithon Investment, Including real estate, on De
the rate of $\$ 12425$ per station. According to standard authority, the life of a telephone plant is only abount. years. assertalning that amount we have adopted the rules and practice of the "Bell" companies. This reserve is shown on the balance sheet and now amounts to $\$ 536,059$. Untll a few years ago the deprecla-
tion was treated in our accounts as expense and not put to the credit of a reserve for depreclation.
There has been continued progress in the effort to substitute the single line service for the party Hine service. It is economically impossible to
develop reasonably satisfactory service on country clrcults 20 miles or more long at a rate of $\$ 18$ per year.
The growth of the business in Hartiord has made necessary a new branch,
known as the . Eilzabeth office, in distlnction from the maln office, now known as the "Ellzabeth office," in distinction from the maln office, now
called the "Charter offlce." We have also just bought a lot on Pearl St., in Hartford, on which to erect a new maln office and plant, with a greatiy The Ansonla-chooard- the old plant on the same street belng inadequate. plan, and thls plan was adopted in the new exchanges at Seymour and Windsor, so that $73.8 \%$ of our stations are on the common battery system An arrangement has been made with The Farmington Valley Telephone Co., operirectory, and so enable them to get, and thls company to furnish, toll Hine faciltites. It 1s now expected that in October or November of this year a call w111 be new stock at par the ratio of one share of new stock for seven shares of old stock, payment to be made in two installments, the first payable about Jan. 151911

## GENERAL INVESTMENT NEWS,

## RAILROADS, INOLUDING ELECTRIO ROADS.

Alberta Great Waterways Ry.-Purchase of Coupons. Owing to the delay in the delivery of definitive bonds of the issue of $\$ 7,400,0001$ st M . gold debentures (guaranteed by the Province of Alberta), Morgan, Grenfell \& Co., London announced that they would on July 1 purchase the coupons representing the half-year's interest due that date.
The delay in the issuance of the engraved bonds, it is supposed, has to do was that nquiry into the circumstances under which the atoresald guaranty was granted, though the legality of the guaranty itself has not, so far as w
know, been called in question.-V. 90, p. 558 ; V. 89, p. 1346.

Boston Railroad Holding Co - Applicaton to Berred Stock.-The directors on July 11 voted to ferred Stock. -The directors on July 11 voted to petition the Railroad Commissioners of Massachusetts for the right to issue new preferred shares to be guaranteed by the New York New Haven \& Hartford RR. in accordance with the law passed by the last Legislature. (V. 90, p. 1612.)
Although no definite amount of stock is asked for, it is assumed that if the petition is granted, the New Haven company will turn over to the Boston
Holdng Co. In the near future the $\$ 20,012,000$ in $4 \%$ bonds of the Holding Company whlch it now holds in its treasury and recelve in return an equal
amount of preferred stock. The company now holds $\$ 15,357,100$ Boston

Brockville Westport \& North-western Ry.-Change of Officers.-The reported sale of the road (to the Canadian Northern Ry., V. 91, p. 37) is given color by the announcement that the shareholders will meet Aug. 8 to consider accepting the resignations of all or some of the directors and officers and electing directors and officers to fill vacant offices.-V. 87, p. 935.
Buffalo \& Susquehanna Ry.-Receiver's Certiifcates.-Justice Woodward at Philadelphia on July 7 authorized an issue of $\$ 383,000$ receiver's certificates.-V. 90, p. 1238, 1044.

Canadian Northern Ry.-Equipment Bonds.-The company in connection with the purchase of additional rolling stock has made an issue of $\$ 3,000,000$ series $V 41 / 2 \% 1$ st ${ }^{\circ} \mathrm{M}$. has made an issue of $\$ 3,000,000$ series V $41 / 2 \%$ 1st M .

These bonds are a first mtge on standard motive power and equipment
at $75 \%$ of cost, are issued by the Imperial Rolling Stock Co., Ltd., and guaranteed by the Canadlan Northern Ry. They mature at the rate of clusive annually over a period of 10 years from Nov. 11911 to 1920 , both inpassenger service and 3 locomotives.-V. 91 , pr 93
Central New England Ry.-Offer for Minority Stock.Joseph Moore Jr., President of the Northern Liberties Bank, Philadelphia, has sent a letter to the minority stockholders of the road urging them to accept the cash offer obtained by him for their holdings, namely, $\$ 45$ a share for the pref. and $\$ 2250$ for the common, provided sufficient of the outstanding stock is delivered.
 The required proportion of stock, we learn, has been d posited. Mr. Moore in circular, of July 7, says in brief:
An immediate sale for cash can be made on the basis of $\$ 45$ for the pref. and $\$ 2250$ for the common, provided a certain proportion can be delivered.
As these prices are but littie below our orliginal demand, and almost double As hose prevalling for several years, $I$ unhesitatingly recommend their acceptance, knowing the utter improbability of dividends. To stand for
any higher prices will result in long inaction and loss of interest. Stockholders are requested to deposit their certificates, duly executed in blank, with the National Bank or the Northern Liberties, corner 3d and bank must be guaranteed. Notice will be given when the purchase to the is ready for distribution. The total expense to the stock 50 cents per share for the pref. and 25 cents per share for the common.
My own services are entirely without compensation or profit.-V. $\mathrm{VO}, \mathrm{p} .1489$.
Chesapeake \& Ohio Ry.-Bonds of Ally.-See Chesapeake \& Ohio Ry. of Indiana below.
New Equipment Bonds.-The Chesapeake \& Ohio Equipment Corporation was chartered in Virginia on June 30 with $\$ 1,000,000$ of authorized capital stock, in connection, it is understood, with preparations for a new issue of equipment bonds. George W. Stevens is President.-V. 90, p. 1362, 1170.
Chesapeake \& Ohio Ry. of Indiana.-New Bonds.-This company, successor of the Chicago Cineinnati \& Louisville, will, we learn, make a bond issue, under date of July 1 1910, of which there will presently be outstanding $\$ 8,200,000$. Total capital stock, $\$ 3,000,000$ (all common) in $\$ 100$ shares. Deeds transferring the property to the new company were filed for record on July 6

Change in Directors.-Frank Trumbull of New York and Decatur Axtell of Richmond, Va., have been elected to the board, succeeding A. L. Ellett and J. Paul Stevens.V. 91, p. 93.

Chicago Consolidated Traction Co.-Foreclosure.-A joint foreclosure decree, including the nine separate suits, has, it is stated, been agreed upon.
The Chicago Rallways interests hope for a decree of sale in each sult by pany will buy in the properties, and if the agreement on valuations can be arrlved at, the entire matter, it is thought. should be cleared up by the
latter date. Valuatlons will be made on the same basis as in the Union Traction Co. case. The ordinance, which will come before the City Councli at
an early date, will be in the nature merely of an extension of the ordina
 valuations having already been worked out; and haste wosl be made to arrive
at the figures for the intangible values in time to further the plan for im-

Chicago Memphis \& Gulf RR.-Bonds Offered.-Richard L. Freeman, Boston, is offering at 95 and int. the first block of $\$ 350,000$ 1st M. $5 \%$ gold bonds dated Jan. 11910.

Year ending June 30 1908-
Year ending June 30 1909
 The net earnings of the las
corresponding period in 1908
ths are more than $25 \%$ in excess of the The present line and the extensions contemplated run through the flat, alluvial valley of the Mississippi River, the best cotton-raising country in the world. A large part of this land is now in virgin timber, and as fast wood-working plants, oil mills, cotton gins and manufacturing industries are located along the present line of road (Dyersburg to Tiptonville, 31 m. .), and the tonnage is increasing rapidly. The bonds purchased by you are the completion of the extension now building from Tiptonville to Hickman, Ky. ( 21 miles). See also V. 90, p 302.
Cincinnati Traction Co.-Equipment Notes.-The bond department of the Fifth-Third National Bank of Cincinnati offered at par and int. on July $8 \$ 180,000$ of the issue of $\$ 360,0005 \%$ equipment notes issued by the Fidelity Trust Co., Phila., trustee (guaranteed, p. and i., by the Cin. Trac. Co.), dated July 1 1910; par, $\$ 1,000$. Int. J. \& J. Principal due $\$ 36,000$ yearly on Jan. 1 from 1911 to 1920 incl. An advertisement says:

Besides belng guaranteed by the CIncinnati Traction Co., these notes are a 1st mtge. on 50 new pay-enter cars and 50 new summer cars, the title to the total cost of this equipment is paid in cash. The company is capitalized at $\$ 2,000,000$ and operates 220 miles of track in Cincinnati and suburbs. me annual surplus is over 12 times the amount required to pay both the
maturing princlpal and interest on this equipment issue the first year. V. 91, p. 94.

Cincinnati (0.) Union Depot \& Terminal Co.-Ordinance Vetoed.-Mayor Schwab on July 7 vetoed the ordinance passed by the Council on June 271910 by a vote of 23 to 3 granting the company a franchise.
The veto is chlefly based on the grounds that the ordinance does not what the city is to receive in return for the franchise. The Common Councli will not meet again until Aug. 8 unless a special meetling is called to con-
dider the matter.-V. 90, p. 1362.
Cleveland \& Eastern Traction Co.-Organized.-This company was incorporated in Ohio on May 19 with $\$ 10,000$ capital stock, since increased to $\$ 1,000,000$, to succeed to the Cleveland \& Eastern division (V. 90, p. 1613) of the Eastern Ohio Traction Co., per plan in V. 89, p. 1541, 1596. A Cleveland paper says:
The Cleve. \& East. Traction Co. and the Cleve. Youngstown \& Eastern Ry. Co. have. effected their permanent organlzations. These are the segregated parts of the Eastern Ohio Traction Co. sold at foreclosure. H. P. one ex eceptlon are also ldenticai. For For the Cleveland \& E Eastern they are
H. P. McIntosh, H. Clark Ford, R. A. Harman, W. D. Reese, Henry White, W. N. Bates. For the Youngstown \& Eastern the same, except

Dartmouth \& Westport Street Ry. Co.-Called Bonds The $\$ 90,0001$ st M. 20-year 5 s dated 1895 have been called for payment at 105 and int. on Oct. 11910 at the International Trust Co., Boston. See V. 90, p. 1296.
Delaware Lackawanna \& Western RR.-Agreement with Employees.-By an agreement closed yesterday some 800 of the company's engineers will receive an increase in wages, averaging, it is said, $11 \%$.
Several hundred switchmen employed in Scranton and west of that city are also given changes in rules, \&c., no wage advance having been asked,
Duluth Winnipeg \& Pacific Ry.-Contract Let.-The Canadian Northern has awarded a contract for the construction of the line from Virginia, Minn., south to Duluth, 73 miles; cost, it is said, $\$ 35,000$ a mile. Compare V. 90, p. 1490 .

Grand Trunk Ry. of Canada.-Permission to Build Line to Providence.-See Southern New England RR. below.V. 90, p. 1165, 1170.

Great Northern Ry.-Mortgage Satisfied.-The $\$ 1,375,000$ $6 \%$ mortgage made in 1888 by the Duluth Watertown \&
Pacific Ry. to the Central Trust Co., trustee, has, it is announced, been satisfied of record.
Decision in Sleeping-Car Case.-See Pullman Co. under "Industrials" below.-V. 90, p. 1613.
Hocking Valley Ry.-New Director.-Col. S. C. Reynolds, Chairman of the board of the First Nat. Bank, Toronto, who was recently elected a director of the Kanawha \& Michigan, has been also chosen a director of the Hocking Valley.

Meeting Adjourned.-The special meeting to authorize an Meeting Adjourned.-The special meeting to authorize an journed for two weeks on July 7 to await a decision in the pending litigation
Judge Sater in the Federal Court has dismissed the suits against former expended while they were in charge, leaving the case accuntecting of funds of the Chesapeake \& Ohio to the ownershlp of the majorlty of the stockt

Northern Central Ry.-Agreement.-It was announced on July 11 that the Moore committee, representing the minority stockholders, and the Jenkins committee, representing the stockholders, and the Jenkins committee, representing the officials that the Northern Central shall be taken over under a 999-year lease, the holders of the stock ( $\$ 19,342,550$, par $\$ 50$ ) to receive a stock dividend of $40 \%$, also $10 \%$ in cash from treasury assets and a guaranty of the present rate of dividend, $8 \%$ per annum, by the Pennyslvania RR. on all the outstanding stock-both new and old-during the lease. The directors of the company on July 14 approved the report of the
speclal committee recommending a 9 99-year lease on the aforesald basis.
 tors. When the latter company acts a special meeting of the Northern
Central stockholders will be called to approve or disapprove of the lease.

The terms of settlement are not satisfactory to the Scott committee (A. Elzey Waters of Baltimore, Chairman), which also represents a part of the minority interest.-V. 90, p. 1677 .

Northern Pacific Terminal Co.-Called Bonds.-Thirtyseven ( $\$ 37,000$ ) 1st M. bonds of 1883 have been drawn and will be redeemed by the Farmers' Loan \& Trust Co. on Aug. 41910 at 110 and accrued interest.-V. 90, p. 237.

Oakland (Cal.) Traction Co.-Report.-Wakefield, Garthwaite \& Co. of San Francisco report earnings for the calendar

#### Abstract

year as follows:   

Oklahoma Central RR.-Sale Adjourned.-Judge Campbell in the Federal Court, by agreement with Receiver Ramsay, has postponed until October the hearing to set a date for the sale of the road.
The bondholders who reside in the East and who are expected to bid in
the road requested that the sale be deferred until autumn.-V.91, p. 39 .
Pacific Light \& Power Corporation.-EArnings.-For the four months ending April 30:

Pennsylvania RR.-Bonds Listed.-The Philadelphia Stock Exchange on July 5 listed $\$ 12,750,000$ additional Allegheny Valley Ry. Co. gen. mtge. $4 \%$ gold bonds, due March 11942 , being the remainder of the auth. issue of $\$ 20,000,000$. The additional bonds were issued to retire $\$ 10,000,000$ Allegheny Valley first 7s, due April 11910 , and for general purposes. Strike Voted.-The conductors, trainmen and yardmen of the lines east of Pittsburgh last week, by a vote of 12,781 to 1,413 voted in favor of a strike unless their demands for an increase of wages are complied with. Compare "Wages" and editorial remarks on pages 61 and 96 in last week's issue. The board of directors at a special meeting yesterday approved of the position taken by the executive officers in refusing to comply with thed temands made for a further wage increase.-V. 90. p. 1425.
Pittsburgh Ft. Wayne \& Chicago Ry.-Listed.-The New York Stock Exchange has listed $\$ 1,654,100$ additional guaranteed special stock, making the total amount listed to date $\$ 44,694,600$. The additional stock covers the following expenditures:
New rolling stock. $\qquad$

## V. 89, p. 104.

Rates.-The following are recent rate decisions, \&c. Freight Rates.--The Inter-State Commerce Commission on July 14 announced rances pending investigation as to the reasonableness of the prortant advances. The Commission says: "No more definlte statement in this regard can now be made, but the specific orders will be announced from time
to time, as they are entered and served. It is expected that the suspension to tlme, as they are entered and served. It is expected that the suspension
in each case will be for 120 days from the effectlve date named in the tariff, but the Commission intends by subsequent orders to provide for making effective on the same day such advances as may be allowed."
Passenger Rates.-The Commission on the same day (Commlssioners Vanced commutation rates Into and out of New York Clty which were objected to by the New Jersey authoritles, but directed an investigation as to
their reasonableness, as well as of other commutation rate advances into their reasonableness, as well as of oltrer commutation rate advances into question will accordingly go into effect on July 20 , the date to which they were postponed at the request of the Commission.
Proposed International Control of Traffic Rates.-
on July 14 announced that the Secretray of State The Department of State Martin A. Knapp of the Inter-State Commerce Commission as the representative of the Government to confer with the recently-appointed Canadian
representative, J. P. Mabee, Chairman of the Rallway Commission of Canada, on the subject of joint control of international traffic rates. It is proposed that meetings between the two commissioners take place at points in the United States and Canada, or both, during the summer, and that upon elther jolntly to both or separately to the respective governments.
Lehigh Valley Restores Passenger Rates.-As a result of the decision of the Supreme Court of Pennsylvania holding the 2-cent passenger rate law un-
constitutional $\ln$ the case of that company, the Lehlgh Valley RR. has declded to restore the passenger rates In effect before Oct. 1 1907. The penalty provislons of the law are so high that the Lehigh company com-

St. Iouis Iron Mountain \& Southern Ry.-6\% Dividend.This company, $\$ 44,336,600$ of whose $\$ 44,396,573$ capital stock is owned by the Missouri Pacific Ry. Co., has declared an annual dividend of $6 \%$, contrasting with $4 \%$ for 1908-09, $5 \%$ for $1907-08,14 \%$ for $1906-07,7 \%$ in $1905,10 \%$ yearly from 1902 to $1904,6 \%$ in 1900 and 1901 and $2 \%$ in 1899 .V. 91, p. 39

St. Louis Montesano \& Southern (Electric) Ry.-Sold.This line, running, it is said, from St. Louis to Mount Pleas ant, Mo., was on July 11 sold at auction at Clayton, Mo., by Receiver Peter Kerth to John O'Laughlin for $\$ 21,000$. The St. Louis "Globe-Democrat" says that about 30 miles of track have been raid.-V. 88, p. 1501.

St. Louis \& San Francisco RR.-Listed.-The New York Stock Exchange has listed $\$ 578,000$ additional $4 \%$ refunding mortgage bonds, making the total amount listed $\$ 67,600,000$. land covered by the Fifth Ave. Bldg. has been appraised at $\$ 6,700,000$, The the bullding is estimated to be worth $\$ 4,000,000 ;$ No. 23 West 23 d St. Is
valued valued at $\$ 164,000$; total, $\$ 10,864,000$, or an equity of $\$ 3,244,000$.
Fort Worth (Tex.) Gas Co.-Purchase.-A deed was filed on July 7 by Woodward Babcock of New York, transferring to this company for the consideration of $\$ 1,044,311$ ( $\$ 644,311$ being cash and $\$ 400,000$ due Jan. 1 1911), the gas, franchises piping and other property of the Fort Worth Light \& Power "Co., purchased by him on Jan. 5 1910. See last week's "Chronicle," V. 91 , p. 97.
Great Western (Beet) Sugar Co., Denver, Colo.-Dividends Begun on Common Stock.-This company recently declared at one time two quarterly dividends of $11 / 4 \%$ each on the $\$ 10,544,000$ outstanding common stock, payable, respectively, July 2 on shares of record June 15, and Oct. 3 on shares of record Sept. 15. Dividends on the common stock were begun last January, the rate being, as now, $5 \%$ per annum.
Dividends on the $7 \%$ cum. pref. stock (now $813,130,000$ ) have been pald
regularly since 189, the last deciaration covering the four dividends due regularly since 1895 , the last declaration covering the four dividends due
July 2 and Oct. 31910 and Jan. 2 and April 31111 , payable in each case
an

Hudson River Telephone Co.-Certain Minority Shareholders Object. While the assets of this company have been taken over by the Central New York Telephone \& Telegraph Co. (N..Y. Telephone Co., V. 89, p. 1351), the company itself has not been wound up or absorbed, owing, it appears, to the dissatisfaction of certain minority shareholders. Compare V. 88, p. 1004, 1132, 1556.
Intercontinental Rubber Co.-Reduction of Stock.-Under date of May 311910 a certificate has been filed reducing the pref. stock $25 \%$ through the retirement at par and accrued dividends of 10,500 shares of $\$ 100$ each ( $\$ 1,050,000$ ), leaving outstanding $\$ 3,150,000$ pref. Compare V. 90 , p. 1428, 562.

Laclede Gas Light Co., St. Louis.-Proposed Reduction in Price of Gas-Natural Gas.-Vice-Pres. and Gen. Mgr. C. L. Holman in a letter addressed to Mayor Kreismann (see 'St. Louis Globe-Democrat" of July 10) says in substance:
Our present rates are $\$ 110$ gross and $\$ 1$ net per $1,000 \mathrm{cu}$. ft . for 11 lluml
nating gas; 90 c . gross, 80 c . net, per $1,000 \mathrm{cu}$. ft. for the first $10,000 \mathrm{cu} . \mathrm{ft}$.
 or such pur
If early provislon can be made, by ordinance, for the adoption of the more accurate heat-unit basis as the standard for determining gas quallty in lieu charge of 50 c . against consumers whose bill a are less than that amount, we
will voluntarily on Oct. 11910 (or within 30 days after such ordinance becomes effective) make a reduction in the rates charged for gas so as to illumlnating purposes. Thls plan will establish for cury. it. on gas used fo 80 c . for the first $10,000 \mathrm{cu}$. . ft. of gas passed through one meter In any one
month for all gas used for all purposes, and 60 c . per $1,000 \mathrm{cu}$. ft. for all consumption in excess of that quantity. These prices are net to the company, the charge to be 90.. for the frst 10,000 cu. ft. and 70 c . for all in
excess of that quantlty per month, with a discount of 10c. on each 1,000 excess of that quantity per month, w.
cu ft. fif blls are pald withtn five day.
syndicate for the distribution of natural concluded with the Bush-Everet as we are assured Itstrill be within the shortest then brought to St. Louls, Lraordinary financlaa and engineering demands or transporting the same from
Louliana to St. Louls. When the distributlon of natural gas through ou mains has been so perifected as to enable us to supply all of our customers therewith, the maximum net rate to customers therefor will not exceed
50.0 per 1.000 cu. ft. for the frrst 5,000 cu. tit. used in any one month, and
all all consumptlon in excess of that amount. except such as may be sold at a
very low price for industral and manufacturling purposes, will be at a net ate of 35 c . per $1,000 \mathrm{cu} . \mathrm{ft}$-V. 90, p. 852 .
Lake Superior Iron \& Chemical Co. (of New York). -New Securities.-The securities of this new company, mentioned at some length last week, are described as follows:
Common stock, $\$ 8,375,000$; preferred stock, $\$ 1,625,000$, entitled from
Jan. 1 1911 to cumulative dividends at the rate of $7 \%$ per annum, with precedence over all other classes of stock in the event of llquidatlon, and
with right of exchange on and after sald date for common

 In any amount on any int. day at 110 and int. Interest J . \& J at Union
 outstanding, to contnue at that fxixed sum per annum for purchase of the
bonds in the open market whenever obtalnable at a premum or $10 \%$ or less.

Joyce, Boston; Sec., L. F . Knowls, Detroit; Treas., A. Van Oss, New
York and Toronto. See also V. 91, D. 97.
Lord \& Taylor, New York.-New President.-Joseph H. Emery, formerly Secretary, has been elected President Compare V. 91, p. 41.

Manufacturers' Light \& Heat Oo., Pittsburgh, Pa.-New Director.-J. I. Buchanan of Pittsburgh, a local banker, has been elected a director to succeed Thomas Alexander, who recently resigned.
Report of Committee.-The shareholders have received the report of the committee appointed last February to investigate the large amount charged to depreciation
The committee finds nothing to indicate that the auditors were not warranted in making these deductions, and they believe that "it will prove to
the best interests of all concerned for the amount of the write-off to remain as the auditors have fixed it." The committee say: "Properly financed,
there is no reason that we can see why dividends may not be soon forththere is no reason that wee can see why dividends may not be soon forth-
coming. The total debt, bonds and otherwise, seems to be nearing a point
where refunding may be successsully undertaken."-V.
Mexican National Packing Co.-Reorganization Plan.The securities to be issued under the plan by the new (English) company were described last week (p.97). The correct terms of exchange are:

Terms of Exchange Offered Assenting Holder.
 $6 \%$ gold bonds (each $\$ 100$ thereof)

Milwaukee (Wis.) Gas Light Co.-New Officers.-Allison P. Lathrop, President of the American Light \& Traction Co., was on July 6 elected President to succeed Emerson McMillin, now Chairman of the board.-V. 87, p. 1423.
New England Investment \& Security Co.-Sale of Berkshire Street Ry.-See New York New Haven \& Hartford RR. below.-V. 90, p. 503.
New York \& Pennsylvania Telephone \& Telegraph Co.-Merger.-See New York Telephone Co. below.-V. 87, p.
New York \& Queens County Electric Light \& Power Co.New Directors.-Charles F. Mathewson, counsel of the company, and J. F. Eagle have been elected directors. Frank Tilford (formerly President) resigned and the board was increased from 12 to $13 .-V .90$, p. 1175.
New York Telephone Co.-Merger.-The company on July 8 filed at Albany a certificate announcing that it had absorbed the New York \& Pennsylvania Telephone \& Telegraph Co. (V. 87, p. 163, 1482).-V. 90, p. 1299.

Pennsylvania Canal Co.-Default.-The company defaulted, as expected, in the payment of the principal of the $\$ 1,948,0006 \%$ bonds which matured on July 1 .
The Pennsylvanla RR., which uses parts of the abandoned canal bed,
guaranteed Interest on the bonds, of which it owned $\$ 384,000$ on Dec. 31
last. Compare $V$. 00 ,
People's Gas Light \& Coke Co.-Listed.-The New York Stock Exchange has listed $\$ 3,000,000$ additional refunding M. $5 \%$ bonds due 1947, making the total amount listed to date $\$ 15,400,000$.
These $\$ 3,000,000$ bonds "are the only bonds requested by the company to be certified, against improvements, betterments and extensions since Earnings of People's Gas LLt. \& Coke Co. Jor 5 Mos. ending May 311910.
 $\frac{1,225,000}{\$ 238,934}$

Pullman Co.-Injunction Granted Pending Re-Hearing.Judges Grosscup, Seaman and Kohlsaat in the United States Circuit Court on July 8 issued an order restraining the InterState Commerce Commission from enforcing its order reducing certain rates of the company and the Great Northern Ry. until 30 days after a final disposition of the case on a rehearing. Compare V. 90, p. 1682, 1617, 1047 .
This may require several months. The Court decillned to grant a prellm-
inary injunction on the claim made that the Commission has no power to fix sleeping-car rates. but was influenced byy the statements of the inter-
vening raliroads in the case of the Pullman Co. that their revenues also would be raduced unless the reduced rates ordered were enjolned until a
ver would be reduce uniess the reduce rates ordered were enjolned untII a
full hearing of their evidence as to the increased cost of transportlig
Pullman cars. The Court state this enidence should Pullman cars. The Court stated thls evidence should have been given to The Pullman Co. and each intervenn. Ry. must fle a bond for the payment Into Court of all sums collected in
excess or the rates fined by the Commission. Passengers will recelve a
coupon reat
 orlginal order of the Commission.-V. 90, p. 1682 .
St. Lawrence Power Co., Ltd., Montreal.-Debentures Called.-Twelve 1st M. 6\% debentures due Feb. 11935 have been called for payment Aug. 11910 at the Royal Trust Co., Montreal, at $\$ 525$ per debenture and int.-V. 89, p. 476 .
Shawinigan Water \& Power Co.-New Securities.-The shareholders voted on July 8 to increase the authorized issue of capital stock from $\$ 7,000,000$ to $\$ 10,000,000$; also to issue $\$ 500,000$ additional debenture stock. It is thought probable that during this year not to exceed $\$ 1,000,000$ of the new capital stock will be offered for subscription, See V.90,
p. 1558 . p. 1558.

Shults Bread Co., New York.-Mortgage-- A \$130;000 mtge. has been filed to the Title Guarantee \& Trust Co

Sierra Nevada Water \& Power Co.-Receivership.-A press dispatch from Jackson, Cal., states that Judge Micpropy has appointed Frank Z. Towle as receiver for the Francisco, the mortgage trustee. The dispatch adds:
It is belleved that the parties interested in the reorganization schem have falled to secure new capital to complete the project and meet oblliga-
tlons. thus compellig the trust company to protect ltself. Work was bee
sun several years ago, but ususpended after the fire guns several years ago, but suspended after the frect Indebtedness has been ncurred and it was only a few weeks ago that the property was sold at
sherift's sale and purchased by Frank $Z$. Towle, the company finall

Sierra \& San Francisco Power Co.-Bonds Offered.-N. W. Harris \& Co., New York and Boston; the Harris Trust \& Savings Bank, Chicago, and Perry, Coffin \& Burr, Boston, are offering by advertisement on another page at $931 / 2$ and int., yielding $5.40 \%$, the unsold portion (less than $\$ 1,500,000$ ) of the present issue of $\$ 6,500,000$ first mtge. $5 \%$ gold bonds, dated Aug. 11909 and due Aug. 1 1949, but redeemable on any int. date at 110 and int. Interest F. \& A. in N. Y. Par $\$ 1,000$ ( $\mathrm{c}^{*} \& r^{*}$ ). U. S. Mtge. \& Trust Co., trustee. Tax-exempt in California.
Abstract of Letter from Pres. G. W. Bacon, San Francisco, June 291910. Incorporated May 291909 In California. Supples power to the United
Rallroads of San Franclsco (conducting over $90 \%$ of the street rallway business of that city) and will sell current for general purposes throughout
the rapldy growing territory served. e raplay growng territory served.
 First mortgage bond (present issue) Earnings.- Without considering the other present earnings or the income from the contract with the Unitted Railroads alone will, upon completlon the interest on first mtge. bonds. The present contracts call for only about $60 \%$ of the minimum hydro-electric and steam capacity, and it is estimated that the total net earnings, upon completion of the distributling systems as
at present contemplated. will exceed twice the interest on the 1st M. bonds. Bond.-To provide er for fure growth the company has created an Issue
of $\$ 30,000,000$ Ist $\mathrm{M} .5 \%$ bonds, of which $\$ 6,500,000$ are now issued to provide for expenditures already made and to complete work now in issued forthwith against cash expenditures on certain additions and extensions, and the balance may be issued only for $80 \%$ of the actual and reasonable cash cost of permanent extenslons and additions, provided that the
net earnings for the previous 12 months shall have been twice the annual net earnings for the previous 12 months shall have been
interest charge, Including all bonds.proposed to be issued.
Plant. -The principal anwer stat
 operating under an effective head of 1,495 ft., has a present capacity of
$45,500 \mathrm{~h}$. p the other owned plant brings the total hydro-electric capacity up to 48.000 h . p. The auxillary steam station owned in San Franclsco
will by the end or 1910 have a capacity of $20,500 \mathrm{~h}$. p. and early in 1911 of $25,750 \mathrm{~h} . \mathrm{p}$. The company leases for 44 years an additional steam plant in San Francisco, capacity $4,250 \mathrm{~h}, \mathrm{p}$. so that next spring its total capacity
will pe 78.000 h . p ., of which $48,00 \mathrm{~h}$. p . will be hydro-electric and 30,000 hiv. steam. The plans for hydro-elcctric development on the Stanislaus electric capacity whenever warranted
The company is now delivering to the United Railroads 12,000 hydro-
electric $h$. p., and this is to be Increased gradually during 1910 to the full amount required to operate the United Railroads system. The company's -will permit a transmission in fee, but mostly under perpetual easement than $90,000 \mathrm{~h} . \mathrm{p}$. capacity. Contracts.-The company is controlled by the interests that control the entire electric power plant of the United Railroads and has entered into a 44-year contract to supply the latter with power for the operation of its ines. This contract is deposited as additional security for the 1st M. bonds.
Territory Served.-While San Francisco (population over 400,000) will be the princlpal market for the sale of power, the district to be served also
includes the counties of San Mateo, Santa Clara, Alameda, San Joaquin Stanislaus, Tuolumne and Calveras, including the well-populated district San Joaquin River. Total population of this entire territory in 1900, 612,157, and now estimated at 900,000 .
Equity. The cash investment in the
completion of this year's construction, over $\$ 10,000,000$, and an be, upon $\$ 1,000,000$, against which no 1 st M . bonds can be issued, is to be expended during the next three years for additional distributing and generating p. 1416,849

The Steel Company of Canada, Ltd.-Bonds Offered.The Royal Securities Corporation, Ltd., Montreal, \&c., offered this week at $1011 / 2$ and int. $\$ 488,0006 \%$ "first mtge. and collateral trust" bonds, part of an issue dated July 1 1910 and due July 1 1940, but callable at 110 and int., either as a whole, on or after July 11915, or in part for sinking fund only, on any July 1 after 1916. An offering of $\$ 4,500,000$ of the bonds in sterling denominations was made July 11 to 14 by Parr's Bank, Ltd., in London, on behalf of purchasers, at $1021 / 2$ and int. Total authorized, $\$ 10,000,000$, of which $\$ 6,850,000$ are now being issued; $\$ 500,000$ of the issue is being retained to retire $\$ 500,000$ outstanding bonds of the Montreal Rolling Mills Co.
An advertisement says in substance:
The company has entered into agreements to acquire the undertakings
and all the essets of the Hamilton Steel \& Iron Co., Ltd., Canada Screw Co.. Ltd.. Dominion Wire Mag. Co, Ltd., Canada Bort \& Nut Co., Ltd., and ail but 196 of the outstanding shares of the Montreal Rolling Mills Co when all the assets thereot will be transferred to the company. Combined
fixed asses and fixed assets amount to more than $\$ 10,000,000$. Net current assets over interest charges, and for last year over thre yer times over three times charges. Sinking fund, $2 \%$, cumulative, beginning 1816. Will retire over $\$ 6,000,000$ bonds

Tefft-Weller Oo., New York.-Entire Stock of Goods Sold.The company finally closed its doors on July 11, its entire remaining stock of merchandise having been taken over by
the H. B. Claflin Co. at $721 / 2 \%$ of the invoice price in net cash.-V. 91, p. 42
Tonopah Mining Co.-Extra Dividend.-The directors have declared a quarterly dividend of 25 cents a share and an extra dividend of 15 cents, or 5 cents more than the extra dividend paid in each quarter from April 1909, to July 1910 inclusive. From July 1908, when dividends were resumed after the lapse of several quarters, to Jan. 1909 the quarterly distributions were 25 cents each without any extras. Compare V. 86, p. 1593. For the year ending Feb. 281910 the total net profits are reported as $\$ 1,639,603$.-V. 88 , p. 1135.

Twin Falls (Ida.) Land \& Water Co.-Offer to Prepay Bonds.-The company offers to anticipate the payment of its bonds maturing Jan. 11911 on presentation at the Am. Trust \& Savings Bank, Chicago, on or before Aug. 15 1910.V. 90, p. 564

United Dry Goods Companies.-Listed.-The New York Stock Exchange has authorized to be issued on and after Aug. 1 the $\$ 3,264,400$ additional common stock recently subscribed by stockholders at par to acquire control of the Lord \& Taylor Co. (V. 91, p. 42), making the total amount to be listed $\$ 14,427,500$. The new stock will carry dividends declared subsequent to Aug. 1.-V. 91, p. 42.

United Shoe Machinery Co.-Suit against Lessee.-The company on July 7 filed in the Massachusetts Supreme Court an equity suit against the Thomas G. Plant Co. of Boston and Thomas G. Plant individually to restrain them from using other shoe machines than those leased from the company during the terms of the leases, as provided therein.
The sult is important in that the questions presented are of general application, the arrangements made with the ma
machines all being along the same lines.
The bill states that in April of this year the Plant Co. ceased to use the with the terms of the agreement in making nayments. Mr. Plant has
 machines last winter in order that the plant Co. might put in a set of refused to do this, the Plant Co. took out the machines and stored them.
Mr. Plant claims that the agreement between the United Co. and the manufacturers is illegal
The Thomas G. Plant daily papers that "'the 'wonder worker' machines are sonsively in the so superior to the obsolete, antiquated machines of the trust that by purchasing shoes made on these machines consumers not only save contribu-
ting to the trust, but many, many millions of dollars per annum."-V. 90 ,

United States Radiator Corporation, Dunkirk, N. Y.Bonds Offered.-The bond department of the First National Bank of Detroit is offering at par and interest, by advertisement on another page, the unsold portion of $\$ 1,000,000$ 1st M. 6\% serial bonds, dated July 1 1910, due in annual installments as below stated, beginning Jan. 11912 and ending Jan. 1 1927, but subject to call at 103 on any int. day. Principal and interest (J. \& J.) payable in Cleveland or New York City. Par $\$ 500$ and $\$ 1,000$. Citizens' Savings \& Trust Co., Cleveland, trustee. A circular says in substance: Maturitles: $1912, \$ 25,00 ; 1913, \$ 30,000 ; 191, \$ 35,000 ; 1915, \$ 40,000 ;$ 1926, \$80,,000; 1927, $\$ 100000$. Principal features: (1) Total assets, $\$ 3,741,933$, or nearly four times
bond issue. (2) Real estate and permanent equipment, $\$ 2,042,620$, or over twice the bond issue. (3) Q Quick assets, $\$ 1,787,85$, or nearly $13 / 2$
times the bond issue. (4) Under provision in trust deed, the net quick assets must at all times equal or exceed the amount of bonds outstanding. (5) Average net earnings for past five years, nearly four times the interest
on the toal bond issue.

-The Hand-Book of Securities issued this week by the publishers of the "Commercial and Financial Chronicle" contains a monthly range of prices to July 1 of stocks and bonds sold at the Stock Exchanges in New York, Boston Philadelphia, Baltimore, Chicago and Pittsburgh. There is also a yearly range of prices for bonds and stocks sold on the New York Stock Exchange for the past $61 / 2$ years and a yearly range for $31 / 2$ years of Boston and Philadelphia prices. In addition to the tables of prices, the book contains elaborate tables with details of securities, together with the earnings and fixed charges of the respective companies, and showing as nearly as practicable the surplus available to meet charges and dividends.. There is a table of dividend payments for $61 / 2$ years. The book contains 192 pages. Price one dollar or to "Chronicle" subscribers 75 cents.
-Attention is called to the advertisement of Colston, Boyce \& Co., Baltimore, relating to Northern Central Railway stock, which at present price will pay about $41 / 2 \%$ under the proposed lease of the road to the Pennsylvania RR. Co. See "Investment News" on another page.
-Frank A. Ruggles, 53 State St., Boston, has issued his "Pocket Manual" giving monthly range of prices from January to July of all classes of stocks dealt in on the Boston market, and also an eight-year range of prices.
-Tefft \& Co., 5 Nassau St, have issued a July circular of 15 pages, mainly devoted to New England mill and New York bank and trust company stocks
-City of Atlanta, Ga., $41 / 2 \%$ bonds are being offered by Robinson-Humphrey Co., Atlanta. The bonds are described in the "Chronicle" issue of May 21, page 1377.
-New York State new $4 \%$ canal-improvement bonds, exempt from taxation, are offered for sale by White, Weld \& Co.-see advertisement
-Kountze Bros. are offering at market price New York State canal improvement $4 \%$ bonds-see advertisement.

## The (commextial Times.

## COMMERCIAL EPITOME.

Friday Night, July 151910.
Conservatism is still very noticeable in all branches of industry, though in the aggregate the trade of the country is said to be fully as large as at this time last year. Rains have benefited spring wheat and the reports in regard to the outlook for other crops are in the main favorable. The hot weather has stimulated business in some lines, especially among retailers.

LARD on the spot has been irregular. Live hogs have weakened at times, owing to increased arrivals, but offerings of product have been light. Trade has been quiet. Prime Western 12.15 c. , Middle Western 12c. and City steam $113 / 4 \mathrm{c}$. Refined lard has been quiet and easy, but without marked Refined lard has been quiet and easy, but without marked
change in quotations. Refined Continent 12.70 c ., South change in quotations. Refined Continent $12.70 \mathrm{c} .$, South
America 13.75 c . and Brazil in kegs 14.75 c . The speculation America 13.75 c . and Brazil in kegs 14.75c. The speculation
in lard futures has been active, with prices irregular. Of late there has been heavy liquidation by large packers and also scattered general realizing. Also receipts of hogs have increased. On the other hand, the spot situation is considered strong, and on recessions commission houses have made purchases. Shorts have covered on declines.

DAILY CLOSING PRICES OF Latid Mon. FUTURES IN NEW YORK.
 DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

PORK on the spot has been strong. Trade has been dull but offerings have been light. Mess $\$ 2550 @ \$ 26$, clear $\$ 2450 @ \$ 26$ and family $\$ 26 @ \$ 2650$. Beef has been dull and firm; stocks continue small. Mess $\$ 15 @ \$ 16$, packet $\$ 16 @ \$ 17$, family $\$ 1950$ and extra India mess $\$ 30$. Cut meats have been quiet and firm; pickled hams, regular, $153 / 8 @ 163 / 8 \mathrm{c} . ;$ pickled bellies, clear, 18@181/2c.; pickled ribs $181 / 2 @ 183 / 4 \mathrm{c}$. Tallow has been quiet and steady; City $65 / 8 \mathrm{c}$. Stearines have been dull and steady; oleo 93/4c.; lard 14 c . Butter has been firmer; supplies of high grades light; creamery extras $283 / 4 @ 29 \mathrm{c}$. Cheese has been firmer, with a moderate demand; State, whole milk, colored or white, fancy $151 / 4 \mathrm{c} . \quad$ Eggs quiet and steady; Western firsts $17 @ 18 \mathrm{c}$.
OHL.-Linseed has been strong, with a quiet trade in small lots. City, raw, American seed, 79@80c.; boiled 80@ 81c., Calcutta, raw, 90c. Cottonseed has been quiet and easy; winter $8.25 @ 8.70 \mathrm{c}$. , summer white $8.20 @ 8.85 \mathrm{c}$. Lard has been dull but firm; refiners report difficulty in securing material for pressing; prime $\$ 1 @ \$ 104$, No. 1 extra 62@63c. Cocoanut has been in moderate demand and steady; Cochin $10 @ 101 / 2 \mathrm{c}$., Ceylon $9 @ 91 / 4 \mathrm{c}$. Olive has been dull and easy at $75 @ 80 \mathrm{c}$. Corn firmer at $6.20 @ 6.25 \mathrm{c}$. Cod firm, with a good trade; domestic 40@42c., Newfoundland 43@45c.
COFFEE on the spot has been more active and firmer. Rio No. 7, 81/2@85/8c.; Santos No. 4, $91 / 2 @ 93 / 4 \mathrm{c}$. West India growths have been quiet and firm; fair to good Cucuta $101 / 8 @ 101 / 2 \mathrm{c}$. The speculation in future contracts was active early in the week but of late it has been quieter. Prices, however, have been firm, as a rule, though without important changes. An encouraging feature has been an increased demand for the actual coffee. European houses have sold here to some extent, but local spot interests have made purchases. There has been some switching from the near months to the distant. Closing prices were as follows:

SUGAR.-Raw has been quiet and easier. Cention 96-degrees test, 40.3c.; muscovado, 89-degrees Centrifugal, molasses, 89 -degrees test, 3.55 c . Refined has been quiet and steady. Granulated 5.15 c . Spices have been firm and more active; grinders as a rule are carrying small supplies. Teas have been moderately active and generally firm. Wool has been quiet and steady. Hops have been dull and steady. PETROLEUM.-Refined has been steady. There has been a good demand for export of late, but domestic trade has been limited to small lots. Refined barrels 7.65c.; bulk 4.15 c .; cases 10.05 c . Gasoline has been steady with trade moderately active; 86 -degrees in 100 -gallon drums, $183 / 4 \mathrm{c}$.; drums $\$ 850$ extra. Naphtha has been steady, 73@ $76-$ degrees in 100 -gallon drums, 163 4c.; drums $\$ 850$ extra. degrees in 100-galion drums, $163 / 4 \mathrm{c} . ;$ drums $\$ 850$ extra. trade dull; export trade good at the South. Rosin has been quiet and firmer; common to good strained $\$ 555$.
TOBACCO.-The market for domestic leaf has been quiet Prices have ruled firm, however, as stocks are moderate or light. Western crop news has been rather unfavorable. Havana has been in fair request and firm. There has been more activity in Sumatra at firm quotations.
COPPER has been easier. Trade has been dull, consumers as a rule being disposed to hold off for lower prices. Lake $123 / 8 @ 121 / 2$ c.; electrolytic $121 / 4 \mathrm{c}$.; casting 12@,121/8c. Lead has been quiet and steady at $4.35 @ 4.45 \mathrm{c}$. Spelter has been quiet and steady at $5.15 @ 5.40 \mathrm{c}$. Tin has been quiet and firmer; spot 32.70@32.75c. Iron has been steady; No. 1 Northern \$1625@\$1675; No. 2 Southern \$1575@\$16. Trade has been quiet, though a somewhat larger inquiry has been reported of late from the East.

## COTTON.

Friday Night, July 151910.
THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 36,580 bales, against 21,571 bales last week and 22,879 bales the previous week, making the total receipts since Sept. $119097,164,842$ bales, against $9,752,229$ bales for the same period of 1908-09, showing a decrease since Sept. 11909 of $2,587,387$ bales.

Speculation in cotton for future delivery has been more active, with prices irregular. The trend of the old-crop months, especially July, has been upward, while the next crop has at times been inclined to sag. The principal feature of the week, however, has been a sharp advance in July, due to covering of shorts, mainly for local account, though also for Wall Street and Liverpool interests. The offerings of the old-crop months have been noticeably light as a rule, though Southern bull interests have sold openly at times. Some thought this was for the purposes of preventing a more rapid advance at this time. On Thursday, venting a more rapid advance at inst., a New Orleans bull leader now here offered 100,000 bales of July at 17 cents. At times local and Philadelphia spot interests have sold July in small lots, supposedly against cotton coming here from the South and Liverpool for delivery on contracts. English advices received here of late have stated that some 30,000 to 40,000 bales will arrive here in time for delivery on contracts. On the other hand, according to reports current, freight room has been engaged for shipments of about 30,000 bales from the local stock. The short interest in July is estimated by some close observers at from 40,000 to 50,000 bales, principally among scattered bears, and some put the short interest in August at as high as 200,000 bales. Commission houses have purchased the new-crop months moderately at times
on bullish crop reports from some parts of the Mison bullish crop reports from some parts of the Mississippi Valley and the Atlantic States. Excessive rains have occurred in parts of the Mississippi Valley. A rather heavy precipitation has also been reported at times in parts of Georgia, North Carolina and Alabama, where dry weather is said to be much needed. A somewhat larger spot demand has been reported at some points in the South at firm quotations. There has been covering in the distant months by local shorts who were made nervous by the many sections of the South has been favorable. Beneficial many sections of the South has been favorable. Beneficial and temperatures at the Southwest have been lower. In the eastern half of the belt, although there have been numerous rains, the precipitation in many sections has been lighter. It is contended by many that the rains have been too widely scattered to interfere with field work. Some people are banking upon a large yield in Texas. They think that with a normal amount of moisture during the remainder of this month and in August a crop of over $4,500,000$ bales is possible. Various houses here are receiving excellent reports from Texas regarding the crop prospects. Meantime the advices in regard to the condition of the cotton goods trade on both sides of the water are distinctly unfavorable. Curtailment of production continues to spread in this country and many argue that any shortage of supplies of raw material will be more than offset by the shrinkage in production of goods. To-day, however, the covering movement in the old crop was resumed and July rose over $\$ 250$ a bale further and August $\$ 125$ a bale. Local, Wall Street, English and Continental bears covered. Leading New Orleans bulls sold freely on the way up. The new crop months were irregular. At one time there was a small decline on favorable weather in most parts of the South, improved crop reports and liquidation. The strength of the old crop, however, caused covering n the distant months and later they rallied. Spot cotton here has advanced 100 points to 16.40 c . for middling uplands.
The official quotation for middling upland cotton in the New York market each day for the past week has been: July 9 to July $15-$

Of the above, totals of American and other descriptlons are as follows:
A merican

Continental imports for the past week have been 50,000 bales.
The above figures for 1910 show a decrease from last week of 162,998 bales, a loss of 702,846 bales from 1909 , a
decrease of 180,589 bales from 1908 , and a loss of 993,404 decrease of 1807.

AT THE INTERIOR TOWNS the movement-that is the receipts for the week and since Sept. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period for the previous year-is set out in detail below

The above totals show that the interior stocks have de creased during the week 28,490 bales and are to-night 34,210 bales less than at the same time last year. The receipts at all the towns have been 6,237 bales more than the same week last year.
OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.-We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as ollows:

| $\begin{aligned} & \text { July 15- } \\ & \text { Shipped- } \end{aligned}$ | -10 |  | -1908-09 |  |
| :---: | :---: | :---: | :---: | :---: |

WEATHER REPORTS BY TELEGRAPH.-Our telegraphic reports this evening indicate that in Oklahoma and portions of Texas there have been beneficial rains the past week, but our advices are to the effect that in the western half of the latter State a good soaking rain is still needed. In the Gulf States the weather on the whole has been more favorable, but from some points in Arkansas as well as from a few Atlantic sections there are complaints of too much rain. Temperature has in the main been satisfactory.
Galveston, Texas.-The west half of the State is still in need of good soaking rains. Complaints of boll-weevils are increasing. The cotton plant averages small in size for this time of year. There has been light rain on two days the past week, the rainfall being forty-four hundredths of an inch. Average thermometer 79, highest 86, lowest 72.
Abilene, Texas.-There has been light rain on two days during the week, the rainfall being twenty-eight hundredths of an inch. The thermometer has averaged 85, the highest being 100 and the lowest 70 .
Brenham, Texas.-We have had light rain on two days the past week, the rainfall being nine hundredths of an inch. Thermometer has averaged 84, ranging from 72 to 96.
Cuero, Texas.-It has rained on one day of the week, the precipitation reaching three hundredths of an inch. The thermometer has ranged from 69 to 97 , averaging 83.
Dallas, Texas.-It has rained on one day during the week, the rainfall reaching five hundredths of an inch. Average thermometer 84, highest 98 and lowest 69

Henrietta, Texas.- There has been rain on four days of the past week, the rainfall reaching fifty-two hundredths of an nch. The thermometer has averaged 81, ranging from 60 to 102.
Kerrville, Texas.-Dry all the week. Average thermometer 83, highest 97, lowest 68.
Lampasas, Texas.-We have had light rain on one day during the week, the precipitation being twenty-one hundredths of an inch. The thermometer has averaged 84 the highest being 99 and the lowest 68.
Longview, Texas.-It has been dry all the week. The thermometer has averaged 86 , ranging from 72 to 99
Luling, Texas.-We have had light rain on two days of the past week, the rainfall being thirty hundredths of an inch.
The thermometer has ranged from 70 to 96 , averaging 83 .
Nacogdoches, Texas.-It has rained on two days during the week, the rainfall reaching sixty-six hundredths of an inch. Average thermometer 81, highest 91 and lowest 70.
Palestine, Texas.-Rain has fallen on one day of the pas week, to the extent of two hundredths of an inch The thermometer has averaged 81, the highest being 90 and the lowest 72.
Paris, Texas.-Rain has fallen on one day of the week the precipitation being forty hundredths of an inch. The thermometer has averaged 83, ranging from 67 to 98.

San Antonio, Texas.-It has rained on two days of the week, the precipitation reaching forty-six hundredths of an inch. The thermometer has ranged from 70 to 98 , averaging 84.

Taylor, Texas.-We have had no rain the past week.
Average thermometer 83 , highest 96 , lowest 70

Ardmore, Oklahoma.-Rain has fallen on four days during the week, the rainfall reaching two inches and seventy-eight hundredths. The thermometer has averaged 80, ranging from 65 to 95 .

Holdenville, Oklahoma.-We have had rain on three days during the week, the precipitation reaching three inches and forty-five hundredths. The thermometer has ranged from 67 to 92 , averaging 80.

Marlow, Oklahoma.-Rain has fallen on two days of the week, the rainfall being one inch and ninety-four hundredths. Average thermometer 81 , highest 99, lowest 64.

Oklahoma, Oklahoma.- There has been rain on three days of the week, the precipitation being forty-six hundredths of an inch. Thermometer has averaged 78, highest being 93 and lowest 64.

Alexandria, Louisiana.-We have had tain on one day the past week, the rainfall reaching fifteen hundredths of an inch. Average thermometer 81, highest 93, lowest 70.

New Orleans, Louisiana.-It has rained on four days of the week, the rainfall being ninety-eight hundredths of an inch. Average thermometer 82, highest 91 and lowest 72 .

Shreveport, Louisiana.-The week's rainfall has been sixtyfour hundredths of an inch, on one day. The thermometer has averaged 82 , the highest being 92 and the lowest 72 .

Columbus, Mississippi.-It has rained on three days during the week. The precipitation reached one inch and fiftyseven hundredths. The thermometer has averaged 83, ranging from 69 to 98 .

Meridian, Mississippi.-Rain has fallen on six days during the week, the rainfall being two inches and seventy-two hundredths. The thermometer has ranged from 68 to 92, averaging 80

Vicksburg, Mississippi.-We have had rain on three days during the past week, to the extent of thirty hundredths of an inch. Average thermometer 80, highest 91, lowest 70.

Eldorado, Arkansas.-There has been rain on one day of the past week, the rainfall being one inch and twenty-two hundredths. The thermometer has averaged 80, the highest being 93 and the lowest 68.

Helena, Arkansas.-We have had rain on four days during the week: The rainfall reached one inch and seventy-six hundredths. The thermometer has ranged from 71 to 92 , averaging 82 .

Little Rock, Arkansas. - We have had rain on four days during the week, to the extent of eighty-one hundredths of an inch. Average thermometer 80, highest 89, lowest 70.

Dyersburg, Tennessee.-There has been rain on three days of the week, the rainfall being one inch and seventeen hundredths. The thermometer has averaged 79, the highest being 91 and the lowest 67 .

Memphis, Tennessee.-The crop is late and needs hot, dry weather. There has been rain on two days during the week, the rainfall reaching eighty-nine hundredths of an inch. The thermometer has averaged 79.5, ranging from 71 to 89.

Mobile, Alabama.-Crop reports are spotted and conflicting. There are complaints of too much rain from some sections, some lowlands have been flooded, grass is claimed sections, some lowlands have been fooded, grather districts, to be excessive and the plants small. From other districts,
however, favorable reports are received. Rain has fallen on three days of the week, to the extent of forty-five hundredths of an inch. Average thermometer 81, highest 90, lowest 73.

Montgomery, Alabama.-With clear weather, farmers are busy killing grass. It has rained on one day of the week, the precipitation being sixty-four hundredths of an inch. Thermometer has averaged 81, the highest being 93 and the lowest 68.

Selma, Alabama.-We have had rain on four days during the week, the rainfall being eighty hundredths of an inch The thermometer has averaged 82, ranging from 70 to 94.

Madison, Florida.-We have had rain on one day of the past week, the rainfall reaching forty hundredths of an inch. Average thermometer 80, highest 92 , lowest 70 .
Tallahassee, Florida.-There has been rain on two days of the past week, the rainfall being twenty-six hundredths of an inch. The thermometer has averaged 80 , the highest being 90 and the lowest 69
Atlanta, Georgia.-It has rained on three days of the week, the rainfall being sixty-two hundredths of an inch. The thermometer has averaged 79, the highest being 90 and the lowest 68.
Augusta, Georgia.-Rain has fallen on four days of the week, the rainfall being one inch and eighty hundredths. The thermometer has averaged 81 , ranging from 72 to 91. Savannah, Georgia.-We have had rain on two days during the week, the precipitation reaching eighty-two hundredths of an inch. The thermometer has ranged from 68 to. 93 , averaging 82
Charleston, South Carolina.-There has been rain on two days during the week, the precipitation reaching one inch and twenty-nine hundredths. The thermometer has averaged 81, the highest being 89 and the lowest 72 .
Greenville, South Carolina.-We have had rain on three days during the week, the precipitation being one inch and seven hundredths. The thermometer has averaged 79, ranging from 69 to 89 .
Spartanburg, South Carolina.-We have had rain on three days of the week, the rainfall being ninety-one hundredths of an inch. Average thermometer 82, highest 97 , lowest 67 .

Charlotte, North Carolina.-There has been rain on four days of the week to the extent of one inch and ten hundredths. The thermomteer has averaged 80, the highest being 93 and the lowest 69.
Raleigh, North Carolina.-We have had rain on two days during the week, the precipitation reaching two inches and eighty-two hundredths. The thermometer has ranged from 68 to 92 , averaging 80 .
EUROPEAN COṪTON CONSUMPTION TO JULY 1.By cable to-day we have Mr. Ellison's cotton figures brought down to July 1. We give also revised totals for last year that comparison may be made. The spinners' takings in actual bales and pounds have been as follows:

* Small consumption due to lockout in Lancashire.

* Embraces receipts in Europe from Brazll, Smyrna, West Indies, \&c.

MEXICAN COTTON MILLS.-Mexican cotton-manufacturing statistics for the year ended with June 301909 have reached us recently and they indicate a further slight decline in operations. Mexico is not of course a large manufacturer of cotton goods, but between 1902 and 1907 development of the industry, both as regards spindles run and consumption of the raw material, was at times comparatively large. In 1907-08, however, while there was an important addition to the number of spindles operating, consumption fell off 2,707 bales of the average net weight of 500 lbs., and in the latest year (1908-09) there was not only a reduction in spindles but a further decline of 2,672 bales in the amount of cotton used. To be more specific, consumption, which in 1902-03 was reported at 121,306 bales of 500 lbs. net each, had advanced to 137,700 bales in 1904-05 and 161,616 bales in 1906-07, dropping to 158,909 bales in 1907-08 and 156,237 bales in 1908-09.
In addition to showing the number of mills and their spindles, looms and consumption, the statistical matter, which has been kindly furnished us by Mr. E. T. Craig, of the City of Mexico, also embraces much other information bearing upon the operations of the mills.

- Approximately 30 yards per plece; kilo, 2.21 lbs.

SHIPPING NEWS.-As shown on a previous page, the exports of cotton from the United States the past week have reached 27,718 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:
NEW YORK-To Liverpool-July 8-Baltic, 5,887 upland, Total 109 forelgn; Caronia, 2,622 ulpand, 60 forelgn
To Hull-July 11-Galleo, 200--
To London-July 8 Minnewaska, 56
To Havre-July

## BREADSTUFFS.

## Friday, July 151910.

Prices for wheat flour have advanced on most grades owing to the unfavorable crop reports from the Northwest and the advance in wheat quotations. Business in the local market, however, has been extremely dull, there being a general disposition to await further developments in the crop situation before making purchases of flour. At the large milling centres of the Northwest trade has been moderately active during the week. Reports from the West and the Southwest, however, have revealed a very unfavorable situation as a rule, though of late some increase in trade has been noted at Kansas City. Rye flour has been quiet and steady. Corn meal has been quiet and firmer.
Wheat has advanced, owing mainly to continued bullish crop reports from the Northwest, though of late an additional strengthening factor has been reported injury to the crop in southern Russia by extreme heat. The plant in many sections of the American spring-wheat belt is said to have reached a stage where rain would be powerless to revive it. According to some. Liverpool advices there is a fear among the English grain trade of serious injury to wheat in southern sections of Russia, where tropical heat has latterly prevailed. Liverpool prices have shown noteworthy strength at times, owing partly to the unfavorable Russian advices, but also by reason of decreased exports from Argentina and a tightening up of Russian, Danubian and Indian offers. In this country there has been an increased cash demand from millers at some points, notably at Minneapolis, Kansas City and St. Louis. The Northwestern markets have shown conspicuous strength. The movement of new winter wheat has not been as large as had been expected. Not only have the American spring-wheat reports been unfavorable, but bullish advices have also been received from Canada, where the crop is declared to be very spotted. The world's available supply has continued to decrease at a rather rapid rate, the loss last week being $3,716,000$ bushels. Northwestern houses have been good buyers of futures at Minneapolis and Chicago. Commission houses in general have bought freely and cash interests have made purchases. At times, however, reactions have occurred. Showers have fallen in various parts of the American and Canadian spring-wheat belt and the belief of many is that they have been of more or less benefit despite statements to the contrary. Crop reor less benefit despite statements to the contrary. Crop re-
ports from parts of the Dakotas and Minnesota have noted more or less improvement in the outlook and a trade paper on Thursday, the 14th inst., stated that there has been some betterment in the outlook. It is contended that although the recent showers at the Northwest will not cause new growth of the plant, yet they will aid materially in filling the heads already formed. Harvesting of winter wheat is nearing completion and the returns have in most cases been very satisfactory. The receipts of old wheat have been comparatively heavy. Hedge selling has been something of a eature of late and many think this will increase shortly and perhaps have a depressing effect upon prices. Profit-taking
has been heavy at times and there has been more or less short selling for a turn on the sharp advances. But, as already intimated, the spring-wheat situation has been the dominant factor. To-day prices again advanced sharply on unfavorable reports from the Northwest, bullish Russian crop news, a sharp rise in Liverpool and general buying.

There has been no trading in Indian corn futures here At the West the speculation has been active, with prices ir regular. Beneficial rains have fallen over most sections of the corn belt and crop reports have in the main been excellent. The plant is said to be rapidly recovering the lost ground due to coldrains in the spring. This has made many professional traders disposed to sell for the decline. On the other hand, the crop in many sections is still later than normal, and there is a fear of crop scares from time to time. Moreover, farmers are not selling as freely as had been expected. The shipping demand at the West has been good at firm prices. To-day prices advanced on the strength of wheat and covering.

Oats for future delivery in the Western market have re fected in some measure the irregularity in corn. Crop re ports have in the main been very favorable, though Northwestern advices have been rather bullish. Elevator interests have sold freely at times, and so have hit traders. Sales by the country, however, have been disappointing, and the cash market at the West has been strong, with a good de mand. Commission houses have made purchases on the set backs. To-day prices advanced on bullish weather and crop reports from the Northwest, the rise in wheat and covering of shorts.

$\qquad$ sheetin a restricted movement is recorded in heavy brown buyings and drills to the home trade, with some light but mar China. Some irregularity in prices is noticeable out manufacturers decine to get under contract ahead to any extent, even where open-market quotations could be secured. A like condition is noted in the coarse, colored goods, buyers here and there being able to secure some concession in prices when the sellers have stock on hand Bleached muslins are quiet with standard tickets steady in price and some irregularity in unticketed goods. The leading makes of staple prints and staple ginghams are also steady, but, as with the rest of the market, there is some irregularity in descriptions not regarded as fully up to standard. Fine grades of cotton dress fabrics for next year are being ordered quietly, but only to a fair extent in the aggregate. A moderate business is reported in print cloths with $381 / 2$-inch 64 squares selling at $43 / 4 \mathrm{c}$. and narrow 64 s still quoted at 4 c . nominal. New lines of cotton knit goods for next spring are being opened with the lower end in numerous instances, showing reductions in price from last season.

WOOLEN GOODS.-The feature of chief interest in this division since last report was the opening on Thursday of the American Woolen Company's fancy woolens. A fair amount of interest was shown by buyers, but nevertheless the trade is hardly likely to develop to a material extent until other lines are opened and the display for new season until other lines are opened and the display for new season wecomes more general. Meanwhile the low-grade men's wear fabrics are meeting with moderate request, only with
no material price changes noticeable. Woolen and worsted dress goods are quiet throughout, and together with cloakings show but indifferent results on the week, broadcloths probably being the fabric in most demand.

FOREIGN DRY GOODS.-The continued hot weather has helped the distribution of seasonable merchandise, but otherwise the market remains without material change; the finer grades of dress goods are firm, owing to higher prices abroad, and prices are also held firmly on linens both for near delivery and next season's importations. A fair businesss is being done in burlaps, with prices a shade easier than last week

## STATE AND CITY DEPARTMENT

## News Items.

Cincinnati-Delhi, Ohio.-Annexation Completed.-The annexation of the village of Delhi to the city of Cincinnati which proposition was ratified by the voters at the last general election, has been completed. Cincinnati papers state that the funds of the village were turned over to the City Auditor's department on July 11. See V. 90, p. 1625 .
Colorado.-Special Session of Legislature.-Dispatches state that the Governor has issued a call for a special session of the Legislature to convene Aug. 9 to consider legislation for initiative and referendum, Australian, or "headless" ballot, direct primaries, guaranty of bank deposits, a public service commission and a State railroad commission.
Denver, Colo.-City to Vote on Bonds for Municipal Water Plant.-The Denver Union Water Co. having refused the city's offer to purchase its plant for $\$ 7,000,000$, arrangements are being made for an election to be held Sept. 6 to vote, as provided in the charter amendment adopted by the voters on May 17, on the question of issuing $\$ 8,000,000$ bonds for the construction of a municipal water plant. See V.90,p. 1625

Georgia.-Legislature Ratifies Income Tax Amendment. A resolution ratifying the proposed Income Tax Amendment to the Federal Constitution was adopted by the Senate on July 11, the vote being 23 to 18 . The resolution was sent to the House and adopted by that body on July 12 by a vote of 125 to 44 .
Lawrence, Mass.-Mayor Convicted on Conspiracy Charges -Mayor Wm. P. White, of this city, was found guilty of conspiracy to bribe by an Essex County jury on July 13, and sentenced to three years in the House of Correction and fined $\$ 1,000$. The charges, it is said, grew out of the efforts of Mayor White to remove J. A. Hamilton from office as Fire Chief of Lawrence.

Newark, Licking County, Ohio.-Steps Taken by Governor for Removal of Mayor.-As a result of the lynching in this city last week of a detective in the employ of the anti-saloon league for shooting to death a saloonkeeper, steps were taken by Governor Harmon on July 11 to remove from office Mayor Herbert Atherton of Newark and Sheriff Linke of Licking County. The Mayor has been suspended for thirty days and J. N. Ankele has been appointed Vice-Mayor. Later reports state that Mayor Atherton resigned his office on July 14.
New Jersey.-Court of Errors and Appeals Revokes Tax on Bequests.-By a unanimous vote, the Court of Errors and Appeals on July 8 reversed the judgment of the Supreme Court and set aside a tax of $\$ 27,600$ which had been assessed by the authorities of Essex County upon 1,150 shares of stock in the Standard Oil Co. owned by Mrs. Martha T. Fiske Collard, who died in Cairo, Egypt, in 1908. Referring to the Act of 1906, under which the tax was levied, Chief Justice Gummere, who wrote the opinion, says in the syllabus: "The words 'An Act to tax legacies' contained in the title of a statute do not express that the object of the enactment, so far as it relates to legacies, is the imposition of a tax upon the transfer of property which is the subject of a bequest."

The Trenton "American" of July 9 has the following to say regarding the effect of the decision upon the State's finances:
"The reversal of the Supreme Court decision sustaining the tax is likely to prove a serious blow to the State's finances. During the past fiscal year
the revenues under the Collateral Inheritance Tax Act amounted to $\$ 569$,-
449 . 449. Most of these were levied under the Act of 1906 , and the greater part
of them upon legaceles to which, under the Court of Errors declsion, the State or the un upon 1egacies the declichon under the Court of Errors declsion, the State
was not entilued undoubtedly by a demand
upon the stated upon the State to refund a large part of the tax tit has collected anderer the
Act of 1906. The extent of the demands cannot be accurately foretold at thls time, but it is roughly estimated that they will reach not less than a quarnearly double that sum."
It is thought that the decision will not invalidate the amended Collateral Inheritance Tax Law of 1909, the title of which was changed to make it clearly applicable to legacies.
United States of Mexico.-New Loan Offered in Paris.Subscriptions were received until July 11 in Paris for a $4 \%$ gold loan of $216,450,000$ piastres Mexicaines, or its equivalent of $280,275,000$ francs, $£ 22,200,000,452,880,000$ reichsmarks or $\$ 107,670,000$. It is announced that the loan which was offered at $97.621 / 2$, was all subscribed for.
The new loan is created under a law promulgated May 311910 and is indated $5 \%$ loan of 1899 .". 1 Its payment 18 gayment of the "foreign consoll-
toms recelts toms recelpts (Import and export taxes of every klnd, and it is sald that the
$10 \%$ the set apart to secure the loan ought to exceed each year by at least
The securitheunt and The securitios and their coupons are exempt for all time from all taxes or imposts in Mexico. The bonds are to be pald ofr by sinking fund at par each year. The redemption should be completed Jan. 11945 Decem the latest. The Mexican Government has the right to lincrease at its pleasure its contributlons to the slinking fund or to pay the entlire loan at one time on three
months' notice.

[^4]:    a The total of gold in the Bank of Russia includes the balance held abroadthat is, the amount held for Russian account in other Continental banks. The proportion so held, and consequently duplicated in the above statement, is about ne-sixth of the total this year, against about one-ninth a year ago.
    b The Austro-Hungarian Bank statement is now issued in Kronen and Heller instead of Gulden and Kreutzer. The reduction of the former currency to Sterling Pounds was by considering the Gulden to have the value of 80 cents. As the Kronen has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to Pounds, has altered the basis of conversion by dividing the a mount of Kronen by 24 instead of 20.
    d The division (between gold and silver) given in our table of coin and bullion in the Banks of Italy and Belgium is made from the best estimates we are able to obtain; it is not claimed to be accurate, as the banks make no distinction in their weekly returns, merely reporting the total gold and silver; but we believe the division
