OUR RAILWAY EARNINGS ISSUE.

We send to our subscribers to-day the October number of our "Railway Earnings" Section. In this publication we give the figures of earnings and expenses for the latest month of every operating steam railroad in the United States, big and little, which is required to file monthly returns with the Inter-State Commerce Commission at Washington-altogether nearly 900 roads or systems, comprising an aggregate of about 240,000 miles of line.

THE FINANCIAL SITUATION.

At length the business man seems likely to come into his own. The politician and the demagogue alike are beginning to manifest concern for his welfare. We fear the Greeks even when they come bearing gifts, and in American politics there is obviously good ground for viewing with suspicion the actions of those who now ask to be entrusted with the task of restoring business prosperity and in the past have done so much to destroy business. Still, it is encouraging to find that even the radical elements are becoming impressed with the necessity of showing consideration for business interests. During the last two weeks there has been nothing so significant as the unanimity of views in platform declarations and the public utterances of certain persons of prominence, all expressing the greatest solicitude for those engaged in business pursuits and proffering aid in the endeavor to provide relief from the incubus which is weighing down the country's industries.

Whatever one may think of the professions of such people, their action in this matter is evidence of progress in the direction of a better era and constitutes a most hopeful sign. It demonstrates that at last the politician, who has been inclined heretofore to treat the business man with contempt and to attach importance only to the labor vote, is beginning to recognize that those who are carrying on the country's industrial enterprises must also be taken into account. Perhaps, too, there is a growing realization that in striking at these leaders in the industrial world and crippling their energy and potency in trade, a blow is being dealt at the same time at the laboring classes, who are dependent for their employment and their wages upon the progress and continuity of industrial activity.

Governor Woodrow Wilson of New Jersey was the first of those in the political limelight who seemed to feel called upon to express anxiety regarding the unsatisfactory state of trade. His remarks have aroused mirth in quarters where trade reaction is most keenly felt, but at all events the fact that such an exponent of radicalism should deem it expedient to step forward and argue in favor of more assured conditions in the matter of trade, is in itself a most encouraging indication of progress. At Red Bank, Monmouth County, New Jersey, on Wednesday of last week, Mr. Wilson discussed at length the existing trade situation, saying: "What is the matter with the business of this country at the present time? Men continually say in my ear that business is not in a satisfactory condition in this country. They point out this undertaking and that undertaking and the other that is running at half force, as if waiting for something. Is there a business man in my hearing who does not know that the trouble with business now is 'uncertainty'." He then went on to charge President Taft with responsibility for the ing for, is peace and rest and quiet. It wants to be let existing situation, adding: "And this country is back- alone, and a legislative "yard-stick", which would

ing and filling, backing and filling, under an Administration which never defines what it is going to do. I say, therefore, that the only thing that this country should insist upon is that affairs should be taken charge of by some persons with definite opinions, and then say what they are going to do and then do it."

Mr. Wilson is an avowed Presidential candidate and presumably had himself in mind as one of the persons with definite opinions who should "take charge," &c. To any one cognizant of the true cause of the existing trade set-back there is something intensely comical in Governor Wilson's taking President Taft and his Administration to task. What has brought the country to its present pass is the radical policies and the radical actions of the Government. The Administration has never shown the least hesitation or the slightest vacillation in the carrying out of these policies. And the real trouble has been that the President and his Attorney-General have iterated and reiterated their determination in that regard, thus accentuating the feeling of alarm. But does any sane person imagine that Mr. Wilson would be an improvement in that respect? Since occupying the Governor's chair in New Jersey Mr. Wilson has been outdoing Mr. Taft in radicalism. On many things he has gone a great deal further than Mr. Taft, and the latter would really have to be regarded as a conservative alongside Mr. Wilson and the wild and erratic things he has been advocating. Yet Mr. Wilson seems to imagine that confidence in trade circles would be restored if he were put in command of the Ship of State. The very suggestion shows how utterly incapable he is of grasping the situation and of divining its needs. The mercantile world has manifold reason for feeling dissatisfied with the course pursued by Mr. Taft, but we imagine it will be a long time before it will prefer Mr. Wilson over the existing occupant of the Presidential chair.

On Thursday of last week Senator Jonathan Bourne Jr. of Oregon, President of the National Progressive Republican League, also essayed the task of providing relief for the trade world. He issued a statement to the newspapers, which was printed the following morning, and in which he gave it as his opinion that what was needed was a trade yard-stick. "What is needed is a business yard-stick, one that is rigid, never change-able, not fluctuating," he said. "What is 'reasona-ble'? What is 'unreasonable'? Here are two yardsticks provided by the Supreme Court. * * single brain or single experience can evolve the solution or construct the yard-stick. Then what is the desideratum? It is to evolve a yard-stick that will be applicable to all corporations and business combinations. Is this a judicial, administrative or legislative function? A legislative Congress, not the Supreme Court, and assuredly not the President or the Attorney-General, must solve the problem and must evolve and clearly describe the yard-stick."

It will be observed that this Senator thinks what is required is more legislation, and he also suggests investigation of the matter by the Senate Committee on Inter-State Commerce. This shows little appreciation of the true needs of the situation. The country does not want more legislation, and it has already had a surfeit of committee investigations, which latter, indeed, by reason of their action in magnifying inconsequential things, have tended to intensify the feeling of doubt and anxiety. What the country is really pin-ing for, is peace and rest and quiet. It wants to be let mean one thing under a conservative administration and a totally different thing under a radical administration, would not in the least tend to allay the existing disquiet.

Senator Bourne does not like the idea of having the Courts decide when the terms of a statute have or have not been violated. We can assure him, however, that the community would rather trust the courts than a legislative body or Government official or bureau. What those engaged in trade are demanding is, not relief from the action of the courts, but relief from the harrowing action of our national legislators and the inane garrulity of Government officials.

One is inclined to rub his eyes before crediting the statement, but this week the so-called Progressive Republicans had a national conference at Chicago (on Monday) and in a series of resolutions also declared solicitude for business interests. They likewise endorsed Senator Robert M. La Follette of Wisconsin as a candidate for next year's Presidential campaign. These resolutions, after asserting that "the Progressive movement is a struggle to wrest the control of the government of the nation and States from the representatives of special privilege and restore it to the control of the people," proceed to speak as follows of the existing interruption of trade activity: "The present condition of uncertainty in business is intolerable and destructive of prosperity. It is worse than idle to leave the question of whether great business enterprises are legal or not merely to judicial determination."

There is here the same dread of the courts that is expressed in the interview given out by Senator Bourne. But we repeat that the community would feel safer in the control of the courts than in the control of legislative iconoclasts, whose only purpose is to undermine the existing order of things. If the character and aims of these so-called Progressives were not so well-known, there would be something quite alluring in their declaration that "industrial corporations should, by affirmative legislative enactment, be given definite rules of conduct by which business shall be made safe and stable, while at the same time the interests of the public should be fully safeguarded." As it is, the statement will be taken at its true value, as expressive of a determination not to let the courts decide disputed questions of fact, lest some trade amalgamation might be held legal, whereas the "Progressives" would have them one and all condemned. The bid of the La Follette politicians for the support of the business community will deceive no one, but it is a great point gained to have them feel that the support of business men is necessary before they can hope to succeed in their endeavor to foist their candidate upon a confiding electorate.

These Progressives refer with pride to what has been accomplished in Wisconsin as indicative of the type of legislation they think the nation at large should have. They say: "Laws have been passed in that State adequately regulating all public service corporations, equalizing the burdens of taxation, providing for direct nominations by the people, protecting legitimate business and capital honestly invested, promoting the welfare of labor—in short, real progressive government has been restored." If Wisconsin legislation is to be the platform on which these political hueksters are to seek popular favor, we doubt if even the labor element is likely to flock to their standard in any considerable numbers. For one of Wisconsin's brand new laws, enacted the present year, is, as was pointed out by us in our issue of July 8, an income tax provision under which every person whose income is over \$500 a year must make return to the assessor. The law thus applies to persons earning only \$10 a week. Moreover, single persons have to pay on amounts above \$800 per annum, which means a wage of less than \$16 a week, and a married person is taxed on any income in excess of \$1,200 a year, which is not quite \$24 a week. We wonder if these "Progressive" Republicans had this new law in mind in their praise of Wisconsin legislation when they spoke of "equalizing the burdens of taxation" and "promoting the welfare of labor."

Governor Dix, of this State, has also been discussing business problems. He addressed the Bankers' Club at Chicago on Saturday night of last week, his topic being "The Conservation of Energy." Mr. Dix, of course, is a different kind of politician from Mr. Wilson or Senators Bourne and La Follette, though his course as Governor has not always met the support of the best element in the community. We cull the following from his address:

The modern forces of combination and co-operation have their origin in the spirit of American enterprise and national need and opportunity. They are forces that should not be annihilated but conserved and regulated in the people's interest. Government in these days must build up a higher type of social life based upon economic justice and the denial of privilege.

Do not all of us believe that the essence of well doing is doing well for the multitude of human beings who are the militant force in commercial and national development? Capital has a just claim to remuneration commensurate with the hazard and risk of business and financial enterprises and the compensation of labor should be far above the line of bare subsistence.

When great enterprises make for economy and efficiency they should be let alone by the law; when they aim at oppression and extortion through monopoly they should be curbed and regulated. The annihilation of so-called big business in this

The annihilation of so-called big business in this country is impossible. Changes in industrial and economic conditions are inevitable. But if disaster is to be avoided they must be well considered and based on reason and justice rather than on prejudice and personal ambition and greed.

sonal ambition and greed. The great need of the time is to cease ill-considered interference and, consistent with human rights, give the fullest play possible to the energy and resourcefulness of the American people.

One might be inclined to criticize the language in the foregoing as being Delphic in character—made up largely of generalities and containing statements to which neither radical nor conservative would take exception, thus insuring the support of both. But our worthy Governor is certainly right when he says that "the great need of the time is to cease ill-considered nterference," and that "if disaster is to be avoided," ichanges "must be well considered and based on reason and justice, rather than on prejudice and personal ambition and greed."

It is thus evident that we have reached the point where the business man is to exert once more his proper influence in affairs. His support is being sought, and he should not fail to avail of his opportunity. Heretofore the politicians have been treating him as if he were a negligible quantity. The labor vote is what the legislator has always been seeking to propitiate—if need be, at the expense of the business man and employer. Whatever has been the cause of the awakening, the events and circumstances above enumerated are evidence that those seeking popular favor have become convinced that the business community must now also be reckoned with. Advantage of this should be taken to press home the truth that to promote confidence and stability in trade, the politicians must desist from further radical actions and radical endeavors. There can be no doubt that the business man will hold the deciding vote in the coming Presidential campaign. That fact should be impressed upon the campaign managers of both parties. The mercantile community should not rest contented with a more or less perfunctory response from one or the other of the great political parties, but make its influence felt in both. Our business men should stand squarely upon their rights. Suggestions for the creation of legislative committees for dealing with their grievances, thus prolonging the agony, or for the establishment of Government bureaus to whom they must apply, and who would hand out concessions for doing business as a gracious favor, should be indignantly spurned. Where neither moral nor economic law is violated, the right to carry on business, untrammeled by legislative edicts, is an inherent right, and it should not be yielded up on the specious plea that the labor element must be placated and politicians wheedled. When the mercantile community shall be as firm and resolute in asserting itself as the great labor organizations have been in advancing the interests of the wage earners, we shall see an end to legislative and governmental action threatening the welfare of the entire population.

We refer in a subsequent article to the distinctive part that Justice John Marshall Harlan, who died last Saturday morning, had in the important rate decisions of the Supreme Court during his long service. In his term of nearly one-third of a century, Judge Harlan was notable for his sturdiness and independence. He was the strictest of strict constructionists and even grew more firmly so as he grew older. Having taken a personal share in the nomination and seating of Mr. Hayes in 1876, his selection for the Supreme Court near the end of 1877, after declining a diplomatic position, was considered a political one; but he very soon began the series of dissents by which he will be most vividly remembered. As he said at a dinner given to him in his home State of Kentucky after he had completed thirty years in the Supreme Court, he stood for "the broad and liberal yet safe rules of Constitutional construction approved by the Fathers and established by judicial decisions". One of his dissents which is notable in view of the present situation on that subject was when the Court, by a bare majority, ruled that the income tax which was before it was not apportioned among the States according to population; he then led the minority, declaring that the decision "strikes at the very foundations of national authority in that it denies to the General Government a power which is or may be vital to its existence."

His most famous dissent and the one which may be longest remembered was in the very recent cases, in which, as it seemed to him, the Court squarely reversed itself. In that he looked back to the Northern Securities Case of over seven years ago, in which he wrote the majority opinion and laid down a literal construction, thus:

"That to vitiate a combination such as the Act of Congress condemns, it need not be shown that such combination in fact results or will result in a total suppression of trade or in a complete monopoly, but it is only essential to show that by its necessary

operation it tends to restrain inter-State or international trade or commerce or tends to create a monopoly in such trade or commerce and to deprive the public of the advantages that flow from free competition."

Judge Harlan insisted, with a seriousness which moved him to add a deliberate written opinion to his verbal one, that what we have all accepted as the saving "rule of reason" in the recent Oil and Tobacco cases was an unwarranted attempt to insert the qualifying word "reasonable" into the Sherman Act. Congress, he held, forbade combinations in restraint of trade, and said nothing of their being reasonable or otherwise. There was the Constitutional authority to enact, and there was the enactment in conformity with the granted powers. To Judge Harlan this seemed to conclude the whole matter. He would adhere to the line and he disclaimed responsibility for results.

This has been so recently discussed and so recently the most important topic of the time that it need not be enlarged upon now. We may, however, change one word in an oft-quoted sentence of St. Paul and say that "the letter killeth, but the spirit permitteth life;" for while the very recent decisions which so stirred Judge Harlan to protest did not "give" life to industry and business they did "permit" life to continue by finding a way, through a rule of reason, to avoid inhibiting absolutely the only condition upon which business can be done.

European bankers are still applying to this country for monetary assistance, and so extensive have been the loans granted that gold shipments may be necessary. The banking position abroad, clearly, is not regarded as satisfactory. It will be recalled that there were abnormally heavy applications for new capital during the first half of the current year, and this had told upon banking resources before the Moroccan trouble obtruded. Ever since then the three leading centres, London, Paris and Berlin, have manifested underlying uneasiness, even when the most hopeful utterances were being expressed officially and unofficially. When war seemed imminent, the German and French peasants became alarmed and began to withdraw their deposits from the banks. It is easier to stir up a movement of this kind than to check it. Notwithstanding the virtual settlement of the dispute two or three weeks ago, there is every indication that hoarding is still being indulged in throughout France. The withdrawals of funds by French banks from Germany, from England and from other countries have not enabled the Bank of France to rehabilitate its stock of gold-this week's return disclosed a gain of less than \$600,000 notwithstanding imports of larger amounts from London. The Imperial Bank of Germany has taken strong precautious to preserve its resources, and has succeeded fairly well since the quarterly strain passed, last week's substantial gain in cash and curtailment in liabilities having been followed by a similarly improved return this week. But Berlin has protected itself at high cost. Discounts have ranged from 41/2@5%, and even better terms were offered foreign lenders at the opening of this month.

England, in addition to sharing the apprehensions over the Continental controversies, had to handle the ' Birkbeck Bank failure and the Yorkshire Penny Bank embarrassment, each of which entailed extensive liquidation of high-grade securities. The suspension of the Bank of Egypt aggravated London's troubles.

Then arose the war between Italy and Turkey. There was withdrawn by Turkey from the Bank of England more than \$12,000,000 during the six weeks preceding the opening of October, and our special correspondent in London has since then recorded the shipment of several millions more. South America, Egypt, India and various Continental countries have likewise applied to London for gold. The Bank is still able to report a stock larger than is usually held at this season of the year, but in view of the prospective demands, the probability is that efforts will be made to obtain assistance from New York. On Thursday afternoon sterling cables advanced rapidly to 4 871/4, and yesterday forenoon a maximum of 4 8740 was reached, a movement which suggests early engagements of the precious metal by London. Interest rates are so low here that no obstacles will be placed in the way of exports of reasonable volume; indeed, bankers are anxious to resort to any feasible expedient that would give money a greater value in this market. If gold be actually shipped, it will not be because of any diminution of our balance of merchandise sales to Europe, but solely on account of the banking necessities of London, Paris, Berlin and other centres. When conditions at home provide employment for funds at remunerative rates, New York will have no difficulty in recalling money from abroad. It is estimated that since the Moroccan crisis first upset European markets. New York has lent upwards of \$100,000,000, while during the last week or two Chicago has also come forward as a lender. For America to be able to finance European requirements in the month of October is nothing short of extraordinary. Unfortunately, the reflection is forced that the main reason for the phenomenal state of affairs is to be found in the unwonted dulness of trade and in investment markets throughout this country. It is not a healthy sign when a new country like the United States cannot use every available dollar obtainable on fair terms. However, it is some small comfort to be able to assist Europe during a time of unsettlement.

The German Emperor and the German Government have maintained a discreet silence during all the recent and current troubles abroad, and efforts made on the re-assembling of the Reichstag on Tuesday to draw information from the Imperial Chancellor proved unsuccessful. Germany's real part in events, at least in Tripoli, must not be measured by the extent of her public expressions, although just how far Italy took her Triple Alliance allies into her confidence before swooping down upon the Turkish territory in North Africa can only be guessed. Another matter on which official illumination would be interesting relates to the alleged modification of attitude by Emperor William over Morocco on intimations from Great Britain and Russia that, in case of hostilities, they would come to the support of their friend, France. Only conjecture can be indulged in at this stage. In reply to requests for enlightenment on the position of the Government on the Moroccan affair, on the occupation of Tripoli by Italy and the revolution in China, Chancellor von Bethmann-Hollweg explained that the Government could not participate in a discussion of these matters without endangering German interests. He assured legislators that they would be fully informed of the progress of current events before the House was prorogued. Various domestic problems are expected to be held over until after the coming Reichstag elections. Frederick III., at Aix-la-Chapelle, in Rhenish Prussia, on Wednesday, carefully refrained from touching upon international developments, but extolled his father, who, he said, often impressed upon him the necessity for re-establishing the ancient imperial throne of Germany. "For myself," His Majesty concluded, "I grew up with a full admiration and respect for the Imperial crown and its noble treasure. It is a source of many blessings to the Fatherland, and all Germans can look to it with the fullest confidence."

Further expansion in the volume of our foreign exports is the noteworthy feature disclosed by the official trade statement for the month of September 1911, issued yesterday. The aggregate value of the merchandise exports reached an aggregate 511/2 million dollars greater than in the preceding month, more or less in excess of all previous months of the current calendar year, only excepting January, and made a new record for September, running 27 millions ahead of the corresponding period of 1910. Imports of commodifies, on the other hand, were a little less than in August, and only moderately greater than September of 1909. The net export balance, therefore, was appreciably in excess of any recently recorded and heavier than for September in any previous year. Consequently the balance in our favor on the merchandise movement for the nine months ended Sept. 30 1911 contrasts sharply with the meagre balances of exports shown in the like periods of either 1910 or 1909.

Products of the farm make a much more satisfactory showing in this latest statement than for some months past, increases all along the line being exhibited as compared with September a year ago. Corn, wheat and flour went out much more freely and the combined value of the breadstuffs shipments was 133/2 millions of dollars, against only a little over 9 millions in 1910. Meat and dairy products exports also showed considerable expansion and at 13 1-3 millions were the heaviest for September since 1906. Cotton, too, went out much more freely than in September of any previous year, due to the early movement of the new crop, the quantitative excess over 1910 being approximately 25%. In value, however, the increase was only about 4 million dollars, or less than 7%, the wide divergence in percentages being consequent upon the much lower price this year. Mineral oils recorded a rather important gain this year and a moderate increase in cattle and hogs is to be noted. These various items, constituting the commodities for which advance figures are furnished, give a total value of \$95,694,000, which marks a new record for September and compares with \$81,037,423 in the month of last year. Of other articles of export (manufactures, &c.), the aggregate value in September this year was \$100,077,000, or 13 millions more than a year ago, making the total outflow of merchandise \$195,771,502, against \$168,873,643 in 1910 and \$153,963,895 in 1909. For the nine months of the calendar year 1911 the total commodity exports were \$1,455,474,289, an aggregate never closely approached except in 1907, and exhibiting an increase of 2321/2 millions over the period of 1910.

could not participate in a discussion of these matters without endangering German interests. He assured legislators that they would be fully informed of the progress of current events before the House was prorogued. Various domestic problems are expected to be held over until after the coming Reichstag elections. The Emperor, in unveiling a statue of his father, only 641/2 millions over 1909. The net result of our foreign trade in September was a balance of exports of \$70,613,394, increasing to \$322,472,005 the balance for the nine months of 1911. In September 1910 the balance was \$51,609,130, and for the period from Jan. 1 in that year only \$50,564,349. The record nine months' export balance (that of \$432,269,181 of 1908) was due, as intimated above, to the sharp drop in imports due to the then prevailing business depression.

The September gold movement was mainly into the country, our gain on balance being \$2,351,235, increasing to \$26,913,796 the net inflow for the nine months of 1911. For the similar periods of 1910 and 1909 there were net exports of \$9,635,954 and \$66,-167,441, respectively. In the nine months of 1908 we imported net \$77,945,750.

Building construction operations in the United States during September 1911, while displaying the same lack of uniformity which had been a feature of preceding months of the year, reflect, on the whole, considerable activity. At many of the larger cities conspicuous gains are to be noted. This is especially true of the Borough of Manhattan, of Boston, Kansas City, Los Angeles, Milwaukee, New Haven, Omaha, Buffalo and Washington, while at a number of smaller municipalities there are some heavy percentages of increase. Among these latter may be mentioned Chelsea, Haverhill, Lawrence, Lowell and Newton, in Massachusetts, Springfield and Zanesville, Ohio, Quincy, Ill., Pueblo, Col., San Diego and Stockton, Cal., and Knoxville, Macon and Roanoke at the South. There are, on the other hand, losses of greater or lesser importance at leading points-at Chicago, Philadelphia, San Francisco, Cleveland, Denver, Minneapolis, Seattle, Spokane and Toledo for instance-but in most cases they follow earlier gains and are, therefore, of no special significance.

Our returns for 114 cities disclose a total of contemplated expenditures of \$75,725,768, or \$12,-061,574 (18.9%) more than for the month of 1910, \$10,233,905 (15.6%) in excess of 1909 and fully 25% greater than in 1908. Greater New York's leading borough (Manhattan) records a total nearly double that for the month of 1910, but this is offset in part by losses in all other boroughs, so that for the whole city the comparison is between \$15,991,624 and \$13,176,680. Exclusive of Greater New York the prospective disbursements under September permits foot up \$59,734,144, as contrasted with \$50,487,514 last year, \$51,195,887 in 1909 and \$46,602,822 in 1908.

For the nine months of 1911 the aggregate intended outlay at the 114 cities is a little more than for the like period of 1910 and very little smaller than in 1909, the comparison being between 678 million dollars, 668 millions and $684\frac{1}{2}$ millions, respectively. Greater New York's total for the nine months this year at \$153,423,201 falls behind that of last year by 5.3% and behind 1909 by 26.9%, but exceeds 1908 by 31.5%. Outside of this city the respective aggregates are $524\frac{1}{4}$ millions, $505\frac{3}{4}$ millions, $474\frac{1}{2}$ millions and $346\frac{1}{4}$ millions.

Canadian building operations continue of exceptionally large magnitude in those sections toward which the trend of population has been most pronounced of late years. In the leading cities of the Provinces of Alberta, Saskatchewan and Manitoba, and at Vancouver and Victoria on the Pacific, work is

conspicuously active. The reason, is, of course, no far to seek; we have only to study the lately completed Census returns for full explanation. Cities that were hardly on the map in 1901 are now large and thriving commonwealths. Vancouver, with a population of only 27,010 ten years ago now returns 100,333; Winnipeg has risen from 42,340 to 135,430 and even a greater ratio of growth is to be found in the figures for Calgary, Edmonton, Regina, Saskatoon, &c., &c. Of 27 cities from which we have building returns for September only seven report smaller intended expenditures than in the month of the previous year, with the declines in most cases small. The aggregate of all (27 cities) reaches \$12,-208,621, or \$5,426,243 (80%) greater than a year ago. The compilation for the nine months for the identical 27 cities covers a contemplated outlay of \$100,117,096 for building operations, against \$74,161,187 in 1910. Expenditure more than double that of 1910 is shown at such points as Calgary, Regina, Prince Albert, Windsor, Moose Jaw and Medicine Hat, and very large percentages of increase are to be noted at Edmonton, Hamilton, Saskatoon and Vancouver.

The Chinese rebellion, as was from the first feared, is proving very serious, and it is not yet clear that the Government will be able to stamp it out soon. From the deluge of dispatches daily received from different parts of the empire, it is difficult to extract a coherent narrative. The task is not lightened by the contradictions which frequently appear-Pekin invariably represents the situation as constantly becoming more favorable, whereas all advices from the revolutionary districts proclaim the progress of the movement and declare that ultimate success is beyond doubt. The Chinese authorities were quick to grasp the gravity of the crisis. They decided, however humiliating, to recall to supreme military power Yuan Shi Kai, the creator of China's modern army, who fell into disfavor on account of his extraordinary influence over the troops. This leader refused to take office save on his own terms. He has been made Viceroy of Hu-Peh and Hu-Nan provinces, and it is said that his orders will not be subject to the approval of even the Minister of War, Gen. Yin-Tchang.

Hankow has been the centre of dominating interest throughout the week. Imperial troops were hastily organized to proceed southwards, overthrow the rebels and re-capture Hankow, Wu-Chang and other places seized by the revolutionists. General Le Yuen-Hung, a well-known member of the army of revolt, was reported to be in command of the main body, which was gathered to meet the advance of the Government army. The report printed last week that Dr. Sun Yat Sen was in actual command of the rebels was incorrect; his whereabouts are still kept secret.

Last night's dispatches recorded a victory for the rebels. The latter are stated to have forced the Imperial army to retreat ten miles north of Hankow, after a two-days' battle. The loyalists fled in such haste that they left much paraphernalia behind them. The rebels entrenched themselves three miles from Hankow, at the scene of the battle; The Government's warships are said to have been taken down the river, as there were signs of disloyalty among the crews.

Banks in Pekin, Shanghai and other cities have been subjected to severe strain by the withdrawal of deposits by a large number of frightened customers. On Thursday and Friday the price of silver advanced in New York 11/4c. per ounce to 543/8c. per ounce, largely, it was stated, on account of hasty demands from China.

No decisive developments have occurred in the Italian attack upon Turkey's possessions in North Africa. As most of the news emanates from Italian sources, it is couched in terms flattering to that country's activities. That the Italian troops have taken possession of the Tripolitan coast-Derna was successfully bombarded on Wednesday and the Italian flag raised-cannot be gainsaid; but the losses sustained by the invaders, represented as having been nominal, are believed to have been considerable, cholera having broken out in Tripoli, where there were no adequate sanitary arrangements for the accommodation of the large force landed. The military advance through the country has not yet begun, but the final contingent of troops from Italy is now believed to have reached the objective point. Defenses are being prepared preliminary to the forward march for the subjugation of the Turks, whose organization is understood to be indifferent, with latterly desertions on account of the poor food supplied. The Turkish squadron of nine units has anchored in the Dardanelles. A naval encounter is being carefully avoided by Turkey, as she realizes that her fleet is not a match for the excellently equipped warships of the enemy. Two new Italian "Dreadnoughts" have just been launched. An outbreak in the Balkans has thus far been avoided. The German Emperor last Sunday invited Signor Alberto Pansa, the Italian Ambassador, to a conference on the political situation, but no indication was vouchsafed of the attitude taken by him.

The Ottoman Government is contriving to preserve its dignity against embarrassing odds. The Chamber of Deputies on Thursday passed a vote of confidence in the Government by 125 to 60 votes, and also expressed its confidence in the Cabinet. The Grand Vizier, whose position is far from enviable, in outlining the Cabinet's policy, said it was the intention to continue to offer passive resistance to Italy, while persisting in diplomatic efforts to obtain an equitable settlement. The Powers had replied in terms more favorable than was generally understood, as would be discovered later. The Government's object was two-fold-to resist, and at the same time have recourse to diplomatic means. Should these endeavors fail and Islam be endangered, then he would defend the Fatherland to the last drop of blood.

The continued resistance has induced Italy, it is stated, to withdraw the terms on which she originally would have agreed to a settlement and to insist upon compensation for the heavy outlay incurred.

Morocco has reappeared as an adverse influence upon Continental bourses, although what has taken place, if anything, in the way of a hitch in the negotiations, has not been disclosed. When the announcement was recently made that the main part of the agreement had been definitely settled and that minor matters could easily be adjusted, the disposition here and elsewhere was to drop Morocco from further consideration as a financial factor. But hints have come from Paris, and also from London, this week that fresh disquietude has arisen and that bankers are again determined to protect themselves against emergencies. Diplomacy moves slowly as a rule; yet it is surely time that France and Germany set their seal upon the Moroccan agreement, since, apparently, all the salient points were decided weeks ago. The Portuguese rebels are face to face with an awkward predicament. Heretofore they have conducted their sorties very often from the Spanish border, and, when pressed, have withdrawn across the boundary, whither the Portuguese troops could not, of course, follow. The announcement is now made that the Spanish Government has ordered all the revolutionists either to move permanently into Portugal or submit to being disarmed, an alternative which quite a number are reported to have accepted. The whole uprising has apparently been effectively checked, but Republican troops are still stationed in the disturbed area in the northern section of the country to prevent any concerted resuscitation of the movement.

The movements in foreign discount rates have again been irregular. London at the close on Thursday quoted 31/2 to 35/8% for sixty-day and 37% to 4% for ninetyday bills to arrive, while spot quotations were a shade easier, but yesterday the 90-day charge was lowered to 33/4%. Paris still charges more for negotiating finance bills than for commercial bills; the latter can be done at 31/2%, whereas from 33/4 to 4% is demanded for finance offerings. In Berlin the spot rate was marked up to 45%% and for bills to arive a new high range of 41/8 to 5% was named; but here, also, a decline occurred yesterday to 41/2% for spot bills and 41/2(a) 45%% for bills to arrive, the latter figure being demanded for the longer dates. Amsterdam sends a quotation of $3\frac{3}{8}\%$, but at Brussels money remains relatively dear at $4\frac{3}{4}\%$. No changes were announced in European bank rates, but the Bank of Bombay raised its minimum from 3% to 4% on Thursday.

The Bank of England was not allowed to retain all the £850,000 South African gold offered on Monday, the Bank of France having managed to attract about £500,000 of it. Our special correspondent informs us by cable that the London institution shipped large amounts to South America and Egypt. Its weekly statement showed a loss of £597,182 bullion for the week, but there was a sufficient curtailment of circulation to bring down the loss in total reserve to only £86,000. As there were decreases of £54,000 in loans and £935,000 in ordinary deposits, against an increase of £284,000 in public deposits, the ratio of reserve to liabilities, instead of falling, rose from 51.91% last week to 52.40% this week, a percentage fully 5% above the average at this season during the last decade. The total amount of bullion now held is £37,360,921, which is also the highest at this time in a series of years. Our special correspondent also furnishes the following details of the movement into and out of the Bank for the Bank week: Imports, £244,000 (of which £15,000 from Central Africa and £229,000 bought in the open market); exports, £877,000 (of which £150,000 to Egypt, £710,000 to South America and £17,000 to various destinations) and receipts of £36,000 net from the interior of Great Britain.

Last week, in describing the local money market, we remarked: "We have repeatedly referred to the absence of demand for funds, but the stagnation to-day is more intense than it has been at any previous time this year, or, indeed, in a long series of years." This statement can be repeated with even greater emphasis this week. According to well-informed money brokers, the better class of Stock Exchange commission houses have allowed more loans to run out this week than at any previous time since the year opened. Blocks ranging from \$100,000 to \$500,000 have been obligations in any compensating quantity. The result has been a decline from the low levels quoted a week ago. Accommodation for four, five and six months has been obtained at the new minimum of 31/2% when unobjectionable collateral has been tendered. Such a quotation for the latter part of October is abnormal, but the causes responsible therefor have been so frequently explained that it is not necessary to reiterate them on this occasion. The reduction in the timemoney obligations outstanding has had a mild effect upon call loans. Whereas a renewal rate of 21/4 % and even 2% was recorded a short time ago, the charge this week has never been below 23/8%, while a greater proportion of the transactions than usual has been recorded at 21/2%, the figure at which the largest institutions stand ready to do business. These rates, in comparison with those of other years, are still unusually low. They could advance appreciably between now and Nov. 1 without appearing high, but the prospects are that demands will be met for some time to come at 21/2% unless something more disturbing than gold exports to Europe takes place. In their efforts to find employment for funds on hand, both local and out-of-town banks and trust companies have entered the commercial paper market, but not always with the desired result. In other words, inquiries for highgrade bills have not invariably been satisfied, owing to the very limited extent of mercantile borrowing. The competition for supplies has depressed discounts. Textile bills of exceptional quality have been taken by New York and by New England institutions at as low as 41/4 %. Other attractive names have been negotiated at 41/2%. It cannot be said that drawers have been induced to operate with greater freedom by these easy terms; so much business is now done on a handto-mouth basis that there is little occasion for using borrowed capital.

Call money has not fluctuated more than 1/4 of 1% throughout the week. The maximum was 21/2% and the ruling rate 23%% on each of the first four days of the week, while only on Tuesday were loans made below 23%%. Yesterday the range was 21/4% to 21/2%, with the final loan made at 23%%. Most of the time money transactions are made on the asking terms. The range is 3 to $3\frac{1}{4}\%$ for sixty days and $3\frac{1}{2}$ to $3\frac{3}{4}\%$ for ninety days and four, five and six months, but towards the close more business than formerly has been put through at 31/2% for 1912 maturities. Commercial paper is quoted at 41/4 to 41/2% for short-date endorsed bills receivable and 414 to 434% for the best four to six months' single-name bills, with 5% and even higher named for less desirable offerings.

Foreign exchange rates, after showing quiet firmness during the earlier part of the week, suddenly advanced very violently on Thursday afternoon, cable transfers going from 4 87 to 4 871/4. Yesterday morning new high levels for the year were touched; demand sold at 4 8690 and cable transfers at 4 8740, though later a reaction developed. The movement was attributed by exchange bankers to short covering by a prominent national bank and to a genuine inquiry for remittance occasioned by extensive lending to Berlin and Paris on the part of New York and Chicago. There was nothing in the weekly bank statements published in the morning at these foreign centres to presage so sensational a development. Though the Bank of England lost nearly \$3,000,000 gold, its

paid off daily. Nor have other firms taken up fresh | managed to add a little to its stock of gold and silver, so that at neither city did discounts advance. Berlin was really more responsible than any other point for the outburst here. German bankers renewed with increased urgency their demands for assistance from New York, and as the terms offered were distinctly more remunerative than could be secured locally, several important transactions were undertaken. It was found, however, that the supply of bills available was inadequate. The scarcity cannot be laid to the door of lighter exports of merchandise from this country, for the September statement of our foreign trade, issued by the Department of Commerce, shows total shipments of the value of \$195,771,502, easily the highest figure for September of any year. Imports established a similar record, the total being \$125,158,-108. For the nine months of the calendar year exports have aggregated \$1,455,474,289, against \$1,-222,926,758 a year ago. During the same period imports have totaled \$1,133,002,284, or somewhat below last year's figure of \$1,172,362,409. The balance of exports over imports since Jan. 1 has been \$322,472,-005. When these statistics are considered, the unique state of the international exchange is emphasized.

There has been considerable liquidation of our securities from abroad during the diplomatic strain in Europe, but the rise in sterling to the gold-export level has been brought about mainly by the difference in the value of money here and in Europe. A continuance of this difference cannot fail to lead to the resumption of gold exports. Dealers in exchange are reluctant to make predictions on this subject since, they point out, the whole face of the situation might undergo change overnight. The prospects at the moment are that both London and Paris will take at least a moderate quantity of the metal in the very near future. The Paris check on London went below 25 fr. 16c. this week and some \$2,500,000 new gold crossed the Channel. Before long preliminary arrangements will be made with a view to providing for the very burdensome New-Year settlements, the handling of which cannot be contemplated with equanimity by any of the larger European capitals. On Monday \$120,000 in gold coin was withdrawn from the local Sub-Treasury for shipment to Venezuela, part of the shipment, it was stated, being for London account. Such an operation is by no means unusual; last year New York was called upon to send several million dollars to Brazil and to Argentine, while in 1909 nearly \$50,000,000 went from New York to the latter country.

Compared with Friday of last week sterling exchange on Saturday was firmer, with demand quoted at 4 8645 @4 8650, cable transfers at 4 8680@4 8685 and sixty days at 4 8330@4 8340. Demand advanced on Monday to 4 8655@4 8660, cable transfers to 4 8695@4 87 and sixty days to 4 8340@4 8350. A new high level was reached on Tuesday, demand rising to 4 8675 and cable transfers to 4 8705 in the forenoon; there was a slight reaction later, however, the close being at 4 8660@4 8665 for demand, 4 8695@4 87 for cable transfers and 4 8350@4 8360 for sixty-day bills. On Wednesday, after a firm opening, with demand again quoted at 4 8634, the tone weakened during the forenoon, but stiffened considerably in the afternoon, closing at 4 8665@4 8670 for demand and 4 8695@ 4 87 for cable transfers; sixty days declined to 4 8345 @4 8355. There was a very sharp advance after the close on Thursday, demand moving up to 4 8680@ 4 8685, cable transfers to 4 8725@4 8730 and sixty reserve advanced to 523%%, and the Bank of France days to 4 8350@4 8360. On Friday demand opened THE CHRONICLE

higher at 4 8685@4 8690 and cable transfers were done at 4 8740, but the excitement abated when speculative operations ceased, and the close was at 4 8360@4 8370 for 60 days, 4 8675@4 8685 for demand and 4 8725@ 4 8730 for cables. Commercial on banks was quoted at 4 82½@4 83½ and documents for payment 4 83@ 4 83¾. Cotton for payment ranged from 4 82¾@ 4 83¼, grain for payment from 4 83¼@4 83¾.

The following gives the week's movement of money to and from the interior by the New York banks.

| Week ending Oct. 20 1911. | Received by N. Y. Banks. | Shipped by N. Y. Banks. | | t Interior ovement. |
|------------------------------|--------------------------|-------------------------|------|------------------------|
| Currency Gold | \$8,149,000 1,649,000 | \$6,\$18,000 1,592,000 | | \$1,331,000 57,000 |
| Total gold and legal tenders | \$9,798,000 | \$8,410,000 | Gain | \$1,388,000 |

With the Sub-Treasury operations the result is as follows:

| Week ending Oct. 20 1011. | Into Banks. | Out of Banks. | | Change in k Holdings. |
|---|---------------------------|---------------------------|------|--------------------------|
| Banks' interior movement as above. Sub-Treasury operations | \$9,798,000 25,600,000 | \$8,410,000 29,200,000 | | \$1,388,000 3,600,000 |
| Total gold and legal tenders | \$35,398,000 | \$37,610,000 | Loss | \$2,212,000 |

The following table indicates the amount of bullion in the principal European banks.

| Banks of | | 7ct. 19 1911 | | | 6 | |

JUSTICE HARLAN AND RATE REGULATIONS.

The service of John Marshall Harlan as an Associate Justice of the Supreme Court of the United States began when he took his seat on Dec. 10 1877 by the appointment of President Hayes, and it is significant of the activity of his epoch that, while it covers slightly less than thirty-four of the 122 years during which that tribunal has existed, his first opinions appear in Volume 94 of its reports, his last will appear in Volume 220 or 221. He was appointed as the successor to David Davis, of Illinois, who, after fifteen years' service, had resigned to accept a seat in the Senate, his election to which was a somewhat controversial incident of the Hayes-Tilden election contest. Had Justice Harlan served but a few months longer, the period of his activity as a member of the Court would have exceeded that of Chief Justice Marshall and Associate Justice Field, both of whom served more than thirtyfour years, and it actually did exceed by more than a month that of Associate Justice Story. At Justice Harlan's accession the Bench consisted, besides himself, of Chief Justice Waite, who died in 1888, Justice Clifford, who died in 1881, Justice Hunt, who retired in 1882, Justice Strong, who retired in 1880, Justice Bradley, who died in 1892, Justice Swayne, who retired in 1881, Justice Miller, who died in 1890, and Justice Field, who died in 1897; so that it is fourteen years since the last of his original associates passed from the Court. Others who sat in that august tribunal with the late Associate Justice and have passed away were the late Chief Justice Fuller and Associate Justices Woods, Matthews, Gray, Blatchford, Lamar, Brewer, Jackson and Peckham. Associate Justices Brown, Shiras and Moody, who entered the Court during this period and survive him, retired before Justice Harlan's death.

The period of the Court's activity, during which Justice Harlan has played so conspicuous a part, will undoubtedly be known chiefly for the development of the law arising from the clause of the Federal Constitution which empowers Congress to regulate inter-State commerce and the intimately related questions connected with legislative power over prices and rates. The first "Granger Cases" (Munn vs. Illinois, 94 U. S. 113; Chicago Burlington & Quiney RR. vs. Iowa, 94 U. S. 155; Peik vs. Chicago & North Western Ry., 94 U. S. 164, &c.) were decided on March 1 1877, nine months before Justice Harlan entered the Court, but in everything which has followed he has borne his full share. It is still too early to write definitely upon these great controversial matters, but it is worth while to trace the record of some of the more important cases and to note the extent and character of his participation in the results. The case of Munn vs. Illinois must be taken as the starting point in such a survey, for it was the first to assert the legislative power, and seems to assert it in terms equally applicable to Federal and State statutes. Said the Court, Associate Justices Field and Strong dissenting:

"The controlling fact is the power to regulate at all. If that exists, the right to establish the maximum of charge, as one of the means of regulation, is implied. In fact, the common law rule, which requires the charge to be reasonable, is itself a regulation as to price. Without it the owner could make his rates at will and compel the public to yield to his terms, or forego the use.

"To limit the rate of charge for services rendered in a public employment, or for the use of property in which the public has an interest, is only changing a regulation which existed before. It establishes no new principle of law, but only gives a new effect to an old one.

"We know that this is a power which may be abused; but that is no argument against its existence. For protection against abuses by legislatures the people must resort to the polls, not to the courts."

Popular opinion holds that the decision in Munn vs. Illinois has been materially modified by subsequent decisions in which the limitations upon legislative power have received greater emphasis, and it is certain that if such is not the case, the language of the earlier opinion contained implications which were not intended by the majority of the Court. However, that may be, the attitude of Justice Harlan in the next great case involving the power of a State legislature to regulate railway charges to come before the Court, suggests interesting speculations as to whether, had his accession been early enough to allow him to participate in deciding Munn vs. Illinois, he would have been found with the majority or with Justices Field and Strong, who dissented. The case referred to is that of Stone vs. Farmers' Loan & Trust Co. (116 U. S. 307), decided on Jan. 4 1886, and in that case Justice Harlan wrote a dissenting opinion in which he argued against the right of the State of Mississippi to control, through a railroad commission, the intra-State rates of the Mobile & Ohio RR. Although he based his conclusion upon the particular charter under which the company acted, he used terms almost as broad as those used by Justice Field in the Munn case. Some of the language would to-day be regarded in some quarters as indicating almost undue sympathy with capital. We quote:

"Does any one believe that private capitalists would have supplied the money necessary to establish and maintain these lines of inter-State communication had they supposed that the States through which the roads were extended reserved the right, by commissioners, to take charge of the whole matter of rates and abrogate, at their pleasure, such tariffs of charges as might be established by the companies under the power, expressly conferred, of fixing and regulating rates? Would they have risked the immense sums invested in these enterprises had the charters of the companies contained a provision making rates to depend, not on the capabilities, wants and interests of the territory to be supplied with railroad service, or on the amount expended in constructing and maintaining these roads, but on their *value* as estimated by commissioners, and on such basis as the latter, from time to time, might deem to be justified by experience and business operations"?

Again, on Dec. 25 1886, Justice Harlan was one of the six Justices who made up the majority by which the case of Wabash St. Louis & Pacific Ry. v. Illinois (118 U. S. 557) was decided against the existence of the power claimed by the State. The opinion, by Justice Miller, contains the following:

"We must, therefore, hold that it is not, and never has been, the deliberate opinion of a majority of this Court that a statute of a State which attempts to regulate the fares and charges by railroad companies within its limits, for a transportation which constitutes a part of commerce among the States, is a valid law."

So, also, when in Chicago Milwaukee & St. Paul Ry. vs. Minnesota (134 U.S. 418), decided on March 24 1890, the Supreme Court condemned the Railroad Commission Law of Minnesota as depriving the carriers of their property without due process of law, Justice Harlan was with the majority and not with Justices Bradley, Gray and Lamar, who dissented. The majority opinion in this case says in part:

"The question of the reasonableness of a rate of charge for transportation by a railroad company, involving as it does the element of reasonableness both as regards the company and as regards the public, is eminently a question for judicial investigation, requiring due process of law for its determination. If the company is deprived of the power of charging reasonable rates for the use of its property, and such deprivation takes place in the absence of an investigation by judicial machinery, it is deprived of the lawful use of its property, and thus, in substance and effect, of the property itself, without due process of law, and in violation of the Constitution of the United States; and in so far as it is thus deprived, while other persons are permitted to receive reasonable profits upon their invested capital, the company is deprived of the equal protection of the laws."

Reagan vs. Farmers' Loan & Trust Co. (154 U. S. 362), decided on May 26 1894, was the first case in which a schedule of railway rates prescribed by State authorities was held to deprive the carriers of property without due process, because it allowed an insufficient return, and in this unanimous decision Justice Harlan concurred. The opinion includes the following:

"'It has always been the part of the function to determine whether the act of one party (whether that party be a single individual, an organized body, or the public as a whole) operates to divest the other party of any rights of person or property. In every constitution is the guaranty against the taking of private property for public purposes without just compensation. * * * * *

gitized for FRASER

"This, as has been often observed, is a Government of law, and not a Government of men, and it must never be forgotten that under such a government, with its Constitutional limitations and guaranties, the forms of law and the machinery of government, with all their reach and power, must in their actual workings stop on the hither side of the unnecessary and uncompensated taking or destruction of any private property, legally acquired and legally held."

In view of the foregoing, it is not surprising that the unanimous opinion of the Supreme Court affirming the decision of the Federal Circuit Court, which had perpetually enjoined the enforcement of a schedule of maximum rates prescribed by the Legislature of Nebraska (Smyth vs. Ames, 169 U. S. 466, decided on March 7 1898), was written by Justice Harlan or to find him stating that among the "settled" principles of law is the following:

"A State enactment, or regulations made under the authority of a State enactment, establishing rates for the transportation of persons or property by railroad that will not admit of the carrier earning such compensation as under all the circumstances is just to it and to the public, would deprive such carrier of its property without due process of law, and deny to it the equal protection of the laws, and would therefore be repugnant to the Fourteenth Amendment of the Constitution of the United States."

From the latest adjudication in a case of this character, that in the Virginia Corporation Commission case (Prentice vs. Atlantic Coast Line, 211 U. S. 210, decided on Nov. 30 1908), Justice Harlan dissented, but he did so only as to the holding that the function of railway rate-making is so essentially legislative in its nature as to transform into a legislative body an agency known to the State statute as a court, and acting as a court. In his dissenting opinion he reasserted the authority of the Federal courts, under the Fourteenth Amendment, to enjoin the enforcement of rates made by a legislature or under color of its authority, which amount "to confiscation of the property of the corporation whose rates `are regulated."

These strong assertions of the judicial power were not, as Justice Harlan conceived, at variance with the equally aggressive opinions which he held, some of which he considered it his duty to express even to the point of dissenting from the views of the majority of the Court in important cases under the Inter-State Commerce and Anti-Trust laws. He believed in the rigid authority of the Constitutional guaranties which proteet individual rights of liberty of contract and of property and in the enforcement of these guaranties as the paramount law of the nation. Especially in view of recent efforts to represent his dissenting opinions in late cases as sanctioning popular protests against the judicial enforcement of these provisions, and as supporting an alleged right of legislatures to interpret constitutions for themselves, it is particularly worth while to note at this time that he held no such views, but, on the contrary, did not hesitate to join with his associates in condemning statutes which appeared to him to violate them. And when the temporary conditions of the day have disappeared, when new problems have taken the place of those now most engaging popular attention, and the present conflicts of opinion have reached a settlement, it will probably be found that in adhering so strongly to the maintenance of judicial authority under the Constitution the late Justice Harlan performed his greatest service.

THE CHINESE UPRISING.

The revolt in China, which apparently began in formidable shape only a very few weeks ago, has this week reached in some parts of the Empire the proportions of a revolution. One of the most important provinces of the Empire appears to have fallen, at least temporarily, into the hands of the insurgent troops, the great city of Hankow has been cut off from communication with the outside world, and battles of considerable magnitude are reported to have been fought between the Imperial and revolutionary armies. China is a country of rumors, and it is natural, under such circumstances, that flying reports of mutiny among the Government troops, of danger to foreign legations and of possible intervention by Japan or other outside nations should have multiplied. Most of them are in all probability unfounded; but the known facts are sufficient to mark the episode as one of national and international importance.

Almost invariably an atmosphere of mystery surrounds a political disturbance in China-partly because of the lack of close communication between the outside world and important sections of that country, partly because of a natural absence of intellectual sympathy between Europe and the Orient. The Chinese revolts of recent years have, as a rule, been aimed directly against the European influence in China, and only indirectly against the Government itself. That was distinctly true of the Boxer uprising of 1900, which was a popular demonstration against the plans of European Governments to partition China into "spheres of influence" among themselves, and which was believed by many competent observers to have been incited by the Empress of China herself.

But revolts with the avowed purpose of a change in government have by no means been unknown in Chinese history; indeed, to conceive of the whole Chinese people as a stolid and politically dead constituency would be to misread that history altogether. Not to mention the numerous popular revolts of some centuries ago against the Mongols, the conspicuous instance in modern Chinese history was the celebrated Taiping revolt against the Manchu dynasty, which began in 1851 and which lasted more than a dozen years, in the course of which period the revolutionists captured and governed some of the most flourishing provinces of China, eventually besieging Shanghai itself. That was the episode which was ended somewhat dramatically by General Gordon's acceptance of leadership of the regular Chinese army, and by his complete success in reducing the revolutionists to terms.

The present uprising is almost certainly a revolt due to internal politics. To what extent it directly involves the question of the promised new constitution, it is somewhat difficult to make out. It was as long ago as 1908 that parliamentary government was promised by the Chinese Emperor. The Imperial decree then issued guaranteed the establishment of such a system within nine years, and in fact elections for the new provincial assemblies, simultaneously decreed. were held in 1909. The initial meeting of the so-called National Assembly, a tentative and purely advisory body, was held in October of last year. That assembly was admittedly only the nucleus of the proposed parliament, whose own assembling had at the time been placed by the Emperor seven years off.

But the National Assembly was no sooner convened than urgent petitions for the immediate election of a

the Government. Alternately the Government has appeared to resist or accede to these petitions; it is possible that some new turn in the conflicting program of the Assembly and the throne may have brought on the present disturbance. There are other issues at stake in the popular dispute, as there were in last year's discussions of the Assembly at Pekin; one of them being irritation over the Government's policy of nationalizing Chinese railways and completing them on the basis of foreign loans.

But there are likewise, in all probability, other and larger considerations involved. One view of the present uprising is that the prestige of the present Manchu dynasty is dying out; that the long rule of the Dowager Empress, who was admittedly an usurper, the murder of the lawful sovereign, and the establishment on the throne of an Emperor who is not the lawful heir, has wholly loosened such bonds of loyalty as may heretofore have existed. The "Journal of Commerce" points out the interesting fact that of the twenty-two dynasties which have ruled in China during the last two thousand years, the average duration has been less than a century apiece, whereas the present Manchu dynasty is in its 267th year.

What is certain is that a stirring-up of popular interest in constitutional and governmental questions has pervaded China. It has taken a form rather curiously interesting for China-the establishment of societies or leagues which act in the open, and bring pressure directly and publicly upon the Government. This, in its way, is a notable concession to Western ideas; for, although associations of citizens have for centuries been a force in Chinese politics, they have invariably been secret societies, on much the same basis as the Carbonari of the Italian revolution or the Vehmegericht of mediaeval Germany.

The present situation is not clear on two essential points-first, how the rebels were able to equip themselves so extensively with provisions and artillery; second, what they expect to accomplish by the present demonstration. It is probable that the revolt was financed in the beginning by some of those immensely wealthy provincial Chinamen of whom the Western world hears little, but with whose pecuniary power China is thoroughly familiar. As for the precise purpose of the proposed demonstration, that is by no means clear. Supposing the rebels to defeat the regular Chinese army, it would be possible, in absence of foreign intervention, for them to unseat the present Emperor, if not the present dynasty. But they might, on the other hand, merely insist on the immediate summoning of a free and independent Parliament and on greater power for the provincial parliame

That much, at any rate, might certainly be experted in the existing state of things. It is true, the notion of parliamentary government on the Western plan, as a basis of lawmaking for the Chinese Empire, impresses the Western mind with a sense of anomaly. Yet it must be remembered that some sort of deliberative bodies were well known in China at a time when they had practically ceased to exist in the Europe of the Middle Ages. China, during the century past, has undoubtedly been heavily handicapped by an effete bureaucracy and by the corruption of its Viceroys. But there is no sound reason to believe that the political capabilities of the people as a whole are any less than their financial capacity, which has at all times been recognized as very high. Presumably the end of the episode will be at least a compromise in behalf genuine legislative body were received and pressed upon of more complete constitutional government. The

whole affair recalls to mind the remark of an eminent Orientalist, at the time when European society was in its ferment of 1848 over constitutional innovation and reform. He pointed out that precisely similar stirrings of political discontent and precisely similar popular aspirations had been witnessed at that very time in the heart of India.

GREAT NORTHERN RESULTS IN A POOR YEAR.

The Great Northern Railway Co. had many adverse circumstances to contend against in the fiscal year covered by the annual report issued the present week. Nevertheless, in its income account for the twelve months the company shows a surplus above the requirements for the 7% dividends on the stock in amount only slightly less than for the twelve months preceding. Among the adverse conditions which prevailed may be mentioned (1) the fact that the springwheat crop of 1910 in those portions of Minnesota and the Dakotas served by the company's lines suffered a serious shortage, thus reducing the volume of the grain tonnage; (2) the additions to expenses by reason of advances in wages and other causes; (3) the prevalence of business depression, which, though not felt to the same extent in the Western half of the United States as in the manufacturing and mineral regions of the East, was yet an unfavorable factor; and (4) the absence of certain special circumstances and events which the previous year had acted to enlarge traffic in a very important degree. In this last we refer more particularly to the increase in travel in connection with the Alaska-Yukon-Pacific Exposition at Seattle in the autumn of 1909.

Bearing all this in mind, and remembering that in the previous year there was an addition of no less than \$10,777,925, or over 20%, to the gross earnings (less than \$750,000 of this representing a recovery of loss sustained in the previous year), it is not surprising that gross earnings for the year under review should have decreased \$3,207,737. On the contrary, it must be considered an encouraging indication of the stability of the traffic that the loss, all things considered, was no greater. Total freight earnings fell off \$3,296,-559, but even after this reduction the amount was \$43,379,174, as against \$39,364,811 two years ago and \$40,311,420 three years ago. While the decrease in total freight earnings was \$3,296,559, President L. W. Hill tells us in the report that the revenue from transportation of wheat, rye, oats, barley and flaxseed was \$3,411,484 less than in the previous year, besides which there was also a large decrease, it is stated, in the lumber traffic. Thus it is apparent that there was further important growth in the general traffic of the system. As a matter of fact, notwithstanding the large loss in the grain and the lumber tonnage, aggregate freight traffic decreased only 154,317 tons, or merely a fraction of 1%-this, too, after an increasein 1909-10 of over 5,000,000 tons, or more than 28%.

In the tonnage movement one mile—because of the fact that the road gets quite a long haul on the grain tonnage, which we have seen was heavily diminished—the falling off was proportionately much heavier, but even here reached less than 6%, against an increase the previous year of over 17%. It appears, too, that the rate realized was slightly less, the average per ton per mile having been only 8.096 mills, against 8.219 mills in 1909-10. This, however, has no special sig-

nificance outside of the fact that it reflects the changes in the year's tonnage. President Hill notes that the decrease in rate resulted from the falling off in the shipments of higher-grade tonnage and a consequent increase in the percentage proportion of low-rate commodities, iron ore, &c.

The passenger traffic also makes a favorable comparison, in face of the conditions prevailing. Passenger revenues fell off \$889,743, or a little over 6%; but this comes after no less than \$3,333,852 gain in the previous year, when the road got the benefits of the extra travel to the Alaska-Yukon Exposition. In the number of passengers carried there was actually a small increase, notwithstanding that the report tells us there was a noticeable falling off in the traffic handled by local trains in North Dakota, as well as a decrease in the through traffic on account of the Yukon Exposition. In the number of passengers carried one mile there was a decrease of somewhat over 9%. The encouraging nature of these comparisons will appear when we say that in the previous year the expansion in the passenger traffic was 30.37% measured by the number of passengers handled and 32% measured by the number moved one mile. As against the loss in passenger revenues, there was a gain of nearly half a million dollars in the express earnings, the result of a new contract by which the company receives a greater percentage of the express company's earnings, as also a gain of nearly another half million dollars following the readjustment of the company's compensation for mail service in the territory west of the State of Minnesota.

This added revenue from the mail service ought to have come to the company sooner, as the mail business has been steadily and largely increasing, but it is the practice to have the mails regularly weighed only once in four years and no compensation is allowed for the additional weight carried until after the regular weighing. Express matter and the mails are carried, as is known, on passenger trains, and, owing to the additional revenue derived from these two sources, the total earnings from the passenger trains were actually somewhat larger than in the preceding year, notwithstanding the loss of \$889,743 from the passenger business itself.

The expense accounts will no doubt be scrutinized closely. With \$3,207,737 decrease in gross earnings. expenses were reduced \$1,677,704, and there was also a saving in the item of taxes of \$270,163, leaving a loss in net of only \$1,294,519, after an increase the previous year of over \$3,000,000 and an increase the year before of nearly 21/2 million dollars. In other words, while the net earnings above taxes for the latest year at \$20,562,461 compare with \$21,856,981 in 1909-10, they compare with \$18,812,783 in 1908-09 and with only \$16,328,962 in 1907-08. More than the whole of the late year's reduction in expenses is found in the outlays for maintenance of way and structures, where there is a decrease of 2,118,538, or almost 18%. President Hill says that the smaller expenditures on that account do not indicate neglect of the property or unwise economy, but reflect the benefit of permanent work done in former years. It should be noted that in the previous year there was an increase in these maintenance outlays of nearly \$2,000,000. The result is that the amount for the late year correspond very closely with the sum spent in that way two years ago and that so spent three years ago. In exact figures, the maintenance outlays for 1911 are \$9,654,776, against \$9,797,370 for 1909 and \$9,588,747 for 1908.

In the transportation expenses there was a triffing decrease as compared with the twelve months preceding, notwithstanding the higher wage schedules and the advances in some other items of cost. This, of course, reflects good management and shows the same care and attention to the details of administration that has always been observed in the conduct of the property. In the case of the train-load, for its record in regard to which the Great Northern has always been famed, there has been further advance in efficiecny. In the twelve months under review the trains hauled an average of nearly 524 tons, against 518 tons the previous year and but 502 tons two years ago. These figures cover only revenue freight, and the amount would, presumably, be increased by another 100 tons if freight carried for the company's own use were added on. We need hardly say that these are very high averages; and the further increase in the late year is the more noteworthy in view of the large decrease which occurred in the grain and lumber tonnage. Such tonnage is moved chiefly in car-load quantities, and high average train-loads on such freight are easier than in the case of merchandise and miscellaneous freight, which has to be handled in small quantities.

Owing to the relatively small loss in net earnings and a considerable increase in the income from outside sources, the income account shows a surplus above the dividend requirement on the operations of the twelve months in amount of \$2,818,338, all of which has been transferred to the fund set aside for permanent improvements and betterments. In the previous year the surplus for the twelve months was \$3,093,161. Considered in relation to the total amount of stock outstanding, which is, roughly, \$210,000,000, the surplus is not very large for either year, being the equivalent of less than 11/2% on the stock, but under the adverse conditions ruling in the year under review, the result is not unsatisfactory. Still, it illustrates the trying circumstances under which railroad executives are obliged to conduct operations when a company, administered as is the Great Northern and managed with such skill and excellence, can show barely 81/2% earned on its outstanding share capital.

In reviewing previous reports we have referred to the large new capital expenditures that the company has been obliged to make in developing and extending its system of roads. In 1907 and 1908 alone \$60,000,-000 of new stock was issued. In the year under review the company, being still in need of further capital, a new mortgage for no less than \$600,000,000 was authorized, and \$45,000,000 bonds under this mortgage were actually issued, the rate of interest being 41/4%. Of the \$45,000,000, \$10,000,000 still remains in the company's treasury; the other \$35,000,000 was sold, and besides furnishing means for developing and extending the properties, the effect has been materially to increase the company's cash holdings. The balance sheet for June 30 1911 reports \$21,460,917 of cash on hand, as against only \$6,651,357 June 30 1910.

DISTRIBUTION OF POPULATION.

A Census Bulletin recently issued deals with the distribution of population, as shown by the last three censuses, between urban and rural territory. Urban population is generally treated as that residing in incorporated places of not less than 2,500 inhabitants, but an exception has to be stated as to New England. Massachusetts and Rhode Island have no political only two such smaller divisions exist; in the other three

within town limits, but these do not include all the actual villages. It is, therefore, impossible in New England statistically to separate the actual villages from the towns in which they are situated, so that urban population includes there some population that would elsewhere be classed as rural.

In 1890 the percentages of urban and rural to total population were 36.1 and 63.9% respectively; the percentages of increase in the former and decrease in the latter were 4.4% by the enumeration of 1900 and 5.8% by that of 1910. The change is, therefore, increasingly progressive, but of course varying in different parts of the country. In New England, more than four-fifths of the population is reported as urban in 1910; there, Vermont alone had less than one-half urban, Rhode Island and Massachusetts had more than nine-tenths and Connecticut little less than nine-tenths in that classification. In the three great States of the Middle Atlantic division, Pennsylvania was three-fifths urban, New Jersey was three-fourths and New York a little under four-fifths. Of the other twelve "Northern" States east of the Rockies, and including Missouri, only Iowa, Nebraska, Kansas and the two Dakotas had an urban proportion of less than 40% in 1910; Illinois and Ohio had 61.7 and 55.9%, respectively, and only the two Dakotas fell below one-fifth. Of the remaining States, Maryland had 50.8% urban in 1910. Montana had 35.5%, Colorado had 50.7%, Utah had 46.3%, California had 61.8%, Oregon had 45.6% and Washington had 53%. There were then eight cities of half a million or more, 19 of a quarter-million or more and 50 of 100,000 or more.

Of the total increase in the last decade, three-tenths was rural and seven-tenths urban. As to numerical increase, the three Pacific States slightly more than doubled their urban population in the last decade, the ratio being 102.1%, while New England showed the smallest numerical increase-21.5%. In every State there has been a numerical increase in urban population, and in seven States there has been a numerical decrease in rural. In no State or territory was the urban increase below 10%; in six States it went above 100%, and in 11 others it went over 50%. On the other hand, only eight States showed a rural numerical increase of over 50%, while twenty-two showed either an increase below 10% or an actual decrease.

To follow out the comparative changes between divisions and States during the two decades since 1890, absolutely and relatively, would be more tedious than instructive. Probably it would be impossible to find out the population movement, starting from a given Census year, by the natural relation between births and deaths, either urban or rural, irrespective of migration; we have, therefore, to recognize the familiar trend towards cities. People like to be where people are, and the tendency is from hamlet to village. and from village to city. It is a familiar lament that production has grown to seem less attractive than trading, and the abandoned farms of New England have been mourned.

We can admit the general proposition that concentration in cities seems to tend to heighten the difficulties of governing, and subjects our political, industrial and social systems to sharp strains, so that a halting, or even a lessening, of the urban proportion of the total population may appear eminently desirable. But the forces which are working otherwise are too powerful divisions smaller than the town; in New Hampshire for any direct interference with them, and the wiser

course would be to relax instead of constantly increasing the efforts to re-arrange and re-distribute things through statutes. Commissions of inquiry cannot even discover beyond question what are the causes of movements which are not liked, much less devise statutes that will change their direction; if we attempted one-half as sedulously to regulate and reduce to rigid schedule the movements within our fleshly bodies, instead of trusting to nature, as we do the movements of the body public, good health might soon become a lost possession and an ardently sought boon.

Still, we need not worry over the possibility that the cities may crowd until subsistence becomes intolerably difficult. The countervailing natural forces are at work. While it is true that the ratio of urban increase was greater in the last than in the previous decade, it is also true that both the pecuniary and the social attractions of rural and farm life are increasing, and the increase in means of communication is accelerating of late years. This change, and the commercial attractiveness of better agricultural methods, have not had time yet to express themselves in terms of population. Our disorders will work out their own cure. The greatest danger is from political nostrums.

ERIE'S PROGRESS AND ADVANCE.

The course of Erie affairs during the last three years has been one of steady progress toward improved conditions. This improvement extends to the company's credit and borrowing ability, to its income account, and likewise to its operating efficiency. The improvement, indeed, in all these various respects is so decided as to amount to an almost complete transformation in the company's general condition and its outlook. We adverted to these distinguishing features in reviewing the annual report for the previous year, and they find further emphasis in the report that has now come to hand for the fiscal year ending June 30 1911.

Evidence of the company's improved credit is furnished in a transaction recently recorded. We refer to the fact that the company the present month sold \$4,500,000 3-year 5% gold notes to J. P. Morgan & Co., the First National Bank and the National City Bank. The proceeds of these notes are to be used entirely to take up maturing obligations, and it is to be observed that \$3,000,000 of these maturing obligations are Erie & Jersey RR, notes which were put out in 1907 and that the rate of interest in these old notes was 6%, as against only 5% now. Furthermore, as recorded in the present annual report, April last the company issued \$12,500,000 of 3-year collateral gold notes (also to retire maturing obligations) and these likewise bore 6% interest. When one contrasts the ease with which the company is able to finance its needs at the present time with the embarrassed state of its finances only three years ago, one gets an idea of the great change for the better in that respect which has been achieved in the interval.

As has been pointed out by us on previous occasions, the company early in 1908 (following the panic of 1907) appeared to be on the verge of bankruptcy and the property would undoubtedly have landed in receiver's hands at that time except for the financial help extended at a critical juncture by the late E. H. Harriman, reinforced by similar aid from J. P. Morgan & Co. It was then thought, it will be recalled, that the company's finances would have to be completely readjusted and perhaps a general reorganization under- able to show an increase in both gross and net earn-

taken. As a matter of fact all that it was actually found necessary to do was to fund a few coupons. The improvement in the company's condition, which enables it to borrow on so much more advantageous terms than a short time ago, has followed directly from the improvement in its income account, and that in turn has followed from a great advance in operating efficiency.

It is well known that the Erie management has long been engaged in the making of extensive improvements and in raising the physical standard of the property. Very few persons, however, we imagine, have any adequate conception of what is being accomplished in the way of advancing operating efficiency through revisions of grades and curves, changes in alignment, the removal of stretches of road costly to operate and the building of other pieces in their place, &c., &c., and through careful attention to the details of transportation costs. At the recent annual convention of the Traveling Engineers' Association, V. C. Randolph, the company's supervisor of locomotive operation, gave some interesting data showing the important savings that had been effected through practical instruction in fuel economy.

The traffic statistics tell an interesting story of how work of this kind and management of that sort pays, and how it bears fruit. Examination of the train-load record is a customary way of measuring the advance of a road in operating efficiency. According to that standard, the progress of the Erie Railroad has been notable. In the fiscal year 1907-08 the average number of tons of revenue freight hauled in each train was 465 tons; in 1908-09 there was an increase in this average to 469 tons; in 1909-10 the average was raised to 495 tons, and now for 1910-11 there has been a further increase to 521 tons. Including freight carried for the company's own use, the increase in the average number of tons hauled by the trains during the last three years has been from 501 to 571 tons. As a result the trains in the latest year earned \$3 05 per mile run, as against only \$2 79 per mile run in 1907-08, notwithstanding that the average rate received declined in the interval from 6 mills per ton per mile to only 5.85 mills.

The saving effected in the way of the diminution in the number of crews required to handle the traffic as compared with what would have been necessary if the train-loads had remained at the old level (which was by no means a low figure) can be easily imagined. What is not so readily recognized is that savings in other directions have also followed as a result of the increase in train-load and the general practice of economy. We find, for instance, that the quantity of coal consumed per mile for 1,000 tons of freight moved was not quite 214 tons in the latest year. against 231 tons in 1910, 2401/2 tons in 1909 and 249 tons in 1908. Again, we find that the cost per locomotive mile for fuel, repairs and other expenses, and for engineers and firemen, was only 36.19 cents in 1911 and 35.97 cents in 1910, against 38.26 cents in 1909 and 44.34 cents in 1908. Moreover, the cost of the same items per 1,000 ton-miles of freight in the latest year was only 40.77 cents, against 43.44 cents in 1910 and 46.91 cents in 1909.

The effect of all this in keeping down aggregate expenses and enhancing the net results has been very striking. The volume of the traffic in the late year was well maintained, and as a consequence of this and of the economies in operation, the company is

ings in face of the higher wage schedules which the Erie, in common with the other trunk-line properties, was obliged to pay. As compared with the year preceding, the ordinary freight traffic of the system fell off 1,542,550 tons, or 7.86%, and the coke tonnage decreased 924,290 tons, or over 41%, demonstrating that the road did not escape the influence of business depression and the prostration of the iron trade. On the other hand, however, there was an addition to the company's anthracite tonnage of 884,395 tons, or over 10%, and an addition also of 389,507 tons, or 434%, to the bituminous tonnage. This still left the aggregate freight itonnage over 1,-000,000 tons smaller than in the preceding year, but a larger proportion of the tonnage consisted of longhaul freight and therefore the number of tons moved one mile-which is the true measure of the volume of transportation service rendered-was considerably larger, reaching 6,825,581,956 ton-miles in 1911, against 6,414,731,680 ton-miles in 1909-10. From this increase there came an addition of over $1\frac{1}{2}$ million dollars in the freight revenue, notwithstanding some decline in the average rate realized. Passenger traffic and passenger revenues also recorded improvement. Altogether the gross revenues from rail operation increased \$1,989,330, while the augmentation in expenses was only \$1,395,122, leaving an improvement in net of \$594,208.

This is a very good showing just as it stands, particularly bearing in mind that in the case of so many other large systems the augmentation in expenses has exceeded the gains in gross receipts, leaving an actual loss in net. But in order to see the full measure of the change in income that has been brought about. it is necessary to extend the comparison further back, and to note that in the previous fiscal year the results were of equally satisfactory character, the gain in gross earnings in that fiscal year having reached \$4,315,861, while the addition to expenses was only \$1,760,744, leaving a gain in net of \$2,-555,117. The year before there had also been improvement-small in the case of the gross earnings, but very large in the case of the net earnings with the inauguration of economies and savings and the accrual of benefits from the improvements previously made. The addition to gross in that year (1908-09) was only \$768,422, but the addition to net was \$4,543,940. In other words, in three years there has been an increase in the net of \$7,693,265, bringing the amount of the net up from \$10,276,893 to \$17,-970,158. What made the position of the managers in 1908 such a trying one was that gross revenues had fallen from \$51,194,113 in 1906-07 to \$46,746,436 in 1907-08, while expenses had arisen from \$33,579,958 to \$36,469,542, thus cutting the net revenue down at one clip from \$15,171,356 to \$10,276,893. The fact that the net in the year under review was, as just shown, \$17,970,158 and the gross was \$53,820,050 indicates how the requirements of the situation have been met in the interval.

In 1907-08 the company had failed to earn its fixed charges in the amount of \$1,623,422. In 1908-09 (the very next year) there was a surplus in excess of the charges in the sum of \$2,947,643. For the year under review the surplus above charges is \$5,390,412. Out of this latter \$1,339,737 has been appropriated for additions and betterments, leaving a credit balance of \$4,050,675. This last would suffice to pay-if such a course could be deemed expedient or proper-

first preferred stock and the \$16,000,000 of second preferred stock; even then a surplus of 11/2 million dollars would remain. It is thus apparent what a wonderful change for the better there has been in Erie affairs in the last three years.

There was no important change during the twelve months in the aggregate of the company's debt. We have already referred to the issuance of \$12,500,000 3-year collateral gold notes, but these went to pay a corresponding amount of maturing notes. An additional \$2,382,000 of general lien bonds was also issued during the year, but as against this \$3,053,622 of equipment trusts were retired. The grand total, therefore, of the debt on June 30 1911 was, roughly, half a million dollars less than on June 30 1910.

RAILROAD GROSS AND NET EARNINGS FOR AUGUST.

No change is to be noted in the character of the returns of railroad earnings. The gross revenues run substantially below the totals of last year. A feature of some encouragement is the fact that the roads are getting better control of their expense accounts, and that as a consequence the falling off in the gross is being, in large measure, offset by reductions in expenses, leaving relatively slight losses in net. Of course this remark is a general one and applies to the roads as a whole. Some of the separate companies continue to sustain heavy losses in net, while there are other roads able to record improvement in gross alone or in both gross and net.

Our exhibit to-day covers the month of August and comprises 230,536 miles of road, being not far from the entire railroad mileage of the country. The figures show a loss of \$1,967,695 in the gross, a reduction of \$1,372,626 in expenses and a loss of \$595,069 in the net.

| Miles o Gross o Operat | me exhenses | 1911. 230,536 243,816,594 157,591,623 | 1910. 227,076 245,784,289- | c.(+) or Dec. Amount. +3,460 -\$1,967,695 -1,372,626 | (]- % 1.52 0.80 0.23 |
|------------------------------|-------------|--|----------------------------------|--|----------------------------------|
| Net | earnings | \$86,224,971 | \$\$6,820,040 | -\$595,069 | 0.69 |

That there should now be reductions in expenses does not seem surprising, considering the necessity the roads are under to curtail their outlays in view of the higher wage schedules, and considering also that the country is going through a period of trade reaction and that railroad traffic and revenues are falling off. The railroads are practicing severe economy and they are cutting their maintenance outlays wherever possible. Possibly this can be done without serious detriment to either the roads or the public. As bearing on that point, it is to be remembered that expenses have been rising heavily for successive years, bringing the totals up to such high figures that there should now be leeway for a change in the other direction. In August last year, for instance, our compilations showed that, notwithstanding a gain of \$17,839,341 in the gross, the net earnings actually fell off \$844,916, owing to an augmentation of \$18,684,257 in the expenses. These were our own figures and covered 234,805 miles of road. Some time later the Inter-State Commerce Commission furnished totals of its own, covering 238,493 miles of road, and these displayed substantially similar results, there being a gain of \$18,279,972 in gross, and this being attended by an increase of \$18,939,835 in expenses, leaving \$659,863 loss in net. In August of the year before results were more satisfactory, but this followed from the circumstance that in the previous year (1908) succeeding the full 4% dividends on both the \$47,892,400 of Erie panic of 1907 there had been tremendous losses. Group III. Includes all of Onto all Aroka and Pennsylvania west of Buffalo and Pennsula, and that portion of New York and Pennsylvania west of Buffalo and Pittsburgh. Groups IV. and V. combined include the Southern States south of the Ohio and east of the Mississippi River. Groups IV. and VI. combined include the northern peninsula of Michigan, all of Minnesota, Wisconsin, Jowa and Illinois, all of South Dakota and North Dakota, and Missouri north of St. Louis and Kanasa, City also all of Montana, Wyoming and Missouri north of St. Louis and Kanasa, City also all of Montana, Wyoming and Missouri north of St. Louis and Kanasa, City Colorado south of Indian Territory; Missouri south of St. Louis and Kanasa (City: Colorado south of Indian Territory; Missouri south of St. Louis and Kanasa (City: Colorado south of Indian Territory; Missouri south of St. Louis and Kanasa (City: Colorado south of Santa Fe and east of a line running from the northwest conter of the State Brough Santa Fe and east of a line running from the northwest conter of the State Brough Groups X. Includes all of Washington, Oregon, Idaho, California, Nevada, Utah and Arizona, jand the western part of New Mexico.

Our compilations, as heretofore, are based entirely upon the returns filed with the Inter-State Commerce Commission at Washington: As has been previously pointed out by us, all the railroads in the United States -barring only the few that operate entirely within State boundaries-are obliged to file monthly statements with the Commission. The returns are open to

cording to the tabulations of the Inter-State Commerce Commission, the gain for August 1909 reached \$29,-682,863 in gross and \$15,065,001 in net. In August 1908 the decrease in gross, by the figures of the Inter-State Commerce Commission, reached no less than \$34,366,578, and there was also a decrease of \$9,222,-389 in net. In the table we now present we furnish the August comparisons back to 1896. For 1910, 1909 and 1908 we use the Inter-State Commerce totals, but for preceding years we give the results just as registered by our own tables each year-a portion of the railroad mileage of the country being always unrepresented in the totals, owing to the refusal of some of the roads in those days to furnish monthly figures for publication.

Note.—In 1896 the number of roads included for the month of August was 127; 1897, 135; in 1898, 138; in 1899, 113; in 1900, 129; in 1901, 116; in 1902, 105; 1903, 114; in 1904, 100; in 1905, 95; in 1906, 91; in 1907, 86; in 1908 the return were based on 231;220 miles, in 1909 on 235,987 miles, in 1910 on 238,403 miles, and in 1911 on 230,536 miles.

As already stated, some of the roads are able to record improved results, though the gains are not very striking, at least not in the gross. In the net the roads distinguished in that way are chiefly the New York Central lines and some Southern roads. The New York Central itself reports \$392,035 increase in gross and \$756,344 increase in net. This is for the Central proper, exclusive of the auxiliary and controlled roads. Including these latter, the whole going to form the New York Central System, the result for the month is a gain of \$365,485 in gross and an improvement of no less than \$2,233,018 in net. That, obviously, indicates radical reductions in the expense accounts. Last year in the same month the result for the New York Central System was a gain of \$2,166,167 in gross but a loss of \$771,615 in net.

The Pennsylvania Railroad, on the other hand, continues to reflect the continued depression in the iron and steel industry. On the lines directly operated cast and west of Pittsburgh and Erie there is a decrease of \$855,726 in gross and of \$214,827 in net. This follows \$2,010,137 increase in gross and \$219,772 decrease in net on the same lines in August last year.

Many other important systems also record large losses. Thus the Union Pacific has sustained a falling off of \$908,293 in gross and of \$497,746 in net; the Southern Pacific a falling off of \$288,543 in gross and of \$407,927 in net; the Milwaukee & St. Paul a deerense of \$502,846 in gross and of \$403,776 in net. The Northern Pacific loses \$734,012 in gross and \$267,081 in net; the Atchison has \$217,714 loss in gross and \$671,312 in net. The heaviest shrinkage shown by any road is that of the Duluth Missabe & Northern, one of the ore-carrying roads controlled by the United States Steel Corporation, and which, because of the falling off in the iron-ore shipments, reports a decrease of \$915,822 in gross and of \$818,107 in net. In the following we show all changes for the separate roads for amounts in excess of \$100,000, whether increases or decreases, and in both gross and net:

OCT. 21 1911.]

THE CHRONICLE

public inspection, and we have transcripts of them made for our own use. In order to furnish full details for all the separate roads, we issue each month a special supplement, termed our "Railway Earnings" Section. The October number of that supplement accompanies to-day's issue of the "Chronicle," and in it will be found in full the reports of earnings and expenses of all the separate roads for the month of August. The summaries in the present article are the totals derived from these statements of the separate roads.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

-The public sales of bank stocks this week aggregate 30 shares, of which 12 shares were sold at the Stock Exchange and 18 shares at auction. The transactions in trust company stocks reach a total of 20 shares.

-The essential changes which ex-Senator Aldrich has adopted in the revision of the plan for monetary reform outlined by him last January were made known yesterday. In his re-draft of the plan, Mr. Aldrich preserves its general outlines, but has amended it in certain particulars wherein it has been criticized. Several of the changes which have been effected are intended to minimize any possibility of control by local organizations or groups of bankers. Provision is also made in the new draft for the admission of State banks and trust companies in the Reserve Association upon their complying with certain requirements as to capital, reserve, examination and reports. Under the changed plan it is pro-posed that national banks be given the right, under proper restrictions and regulations, to establish savings departments, and to lend 40% of their savings deposits upon productive real estate-such loans not to exceed 50% of the actual value of the property.

With regard to the reserves of the National Reserve Association, it is stipulated in the new draft that all demand liabilities, including deposits and circulating notes, shall be covered to the extent of 50% by a reserve of gold (including foreign gold coin and gold bullion) or of other money which the national banks are now authorized to hold as part of their legal reserve; whenever the reserve falls below 50%, the Association is to pay a special tax upon the deficiency at a rate increasing in proportion to such deficiency. In computing the demand liabilities of the Association, there is to be deducted a sum equal to one-half the amount of the United States bonds held by the Association, which have been purchased from national banks, and which had previously been deposited by those banks to secure their circulating notes.

Another change incorporated in the plan deals with the disposition of the 2% Government bonds held by national banks to secure circulation. It is proposed that as the bonds are taken over by the Reserve Association, they are to be refunded with 3 per cents without the circulation privilege; but the Association is to reimburse the Government for the additional cost by the payment of an annual franchise tax of $1\frac{1}{2}$ %. A further provision gives local associations authority to assume and exercise the powers and functions of a clearing house, and the National Association may call upon any local association to perform such services in facilitating the domestic exchanges of the Reserve Association as the public interests may require. The appended statement, issued by A. Fiatt Andrew, Assistant Secretary of the Treas-ury and Special Assistant to the National Monetary Commission, on Thursday, indicates what Mr. Aldrich has sought to accomplish in his re-draft:

to accomplish in his re-draft: This is the plan which Senator Aldrich presents to the Monetary Com-mission to supplement what he submitted to them last January. It con-tains an elaboration of many points which were then only suggested and many qualifications and modifications of detail which are the result of dis-cussion which has occurred since that time. This plan is aubmitted to the members of the Monetary Commission as a hasis for their discussion. The organization is as originally submitted, but special provisions have been introduced to minimize any possibility of control by local organizations or groups of bankers. For instance, in the selection of the directorate of the National Reserve Association, it is provided that now more than three of the twenty-four

directors of the second and third groups shall be chosen from any one dis-trict, and with the same end in view, preventing the control of the director-ate by banks of a given locality, explicit provision is made that the ex of-ficio members shall not participate in the election of those directors who are to represent the industrial, commercial, agricultural and other interests. Again, in the election of the executive committee, provision is made that not more than one of the elected members shall be chosen from one district. The executive committee is to consist of nine members, of whom the Gov-ernor and the two Deputies and the Comptroller of the Currency are ex officio; but of the five elected members only one may be chosen from a par-ticular district. ticular district.

officio; but of the five elected members only one may be chosen from a par-ticular district. Provision is now made to extend to State banks and trust companies the privileges of the association. This is accomplished by establishing certain standards of banking, compliance with which will establish eligibility for membership in the association and for participation in its privileges. If a State bank or trust company complies with the prescriptions of the national Banking Law as regards its capital—that is to say, if it has a capital of not less than that required for a national bank in the same locality, and if it maintains the same reserves against its deposits, and if it submits to ex-aminations and makes whatever reports are required—it may subscribe to the association upon the same terms as the national banks. All subscribing banks, whether organized under national or State charters, must conform to the same reserve requirements, but the subscribing banks may count as reserves their deposit balances with the reserve association, or its notes. An important change is introduced in regard to the reserves to be held by national banks against time deposits. The provisions of the New York trust company law, that a reserve need only be held against time deposits for thirty days preceding their maturity, is adopted for all sub-scribing banks of the reserve association. Provision is also made for the establishment of separate savings depart-ments in national banks, and a reserve of only 40%, of that required for de-mand deposits is prescribed for the savings deposits. Another feature, which will be welcomed by the banks in agricultural regions, is the provision to that 40% of the savings deposits may be loaned upon productive real estate (Section 50).

(Section 50). The plan provides that the National Reserve Association shall hold 50% of all its liabilities in cash, but it is also provided that this reserve may be trespassed upon under penalty of a progressive tax, which shall increase in proportion to the deficiency of the reserve. This provision of an elastic reserve against all demand liabilities is an original feature of the presen plan and has no counterpart in the legislation of other countries. Among the liabilities estimates this provision is provided that the second terms of the liabilities of the present is provided that the second second second second second second terms of the liabilities of the present is provided to the present of the present is present the liabilities of the present second se

The version of the present in the legislation of other countries. Among the liabilities against which a reserve is required, exemption is made of one-half of the note issues, which is to be taken over from the na-tional banks on the understanding that it is inconceivable that more than half of the notes now outstanding will ever be permanently retired. This allowance of a certain amount of note issue without cover is a feature com-mon to the systems of most other contribu-mon to the systems of most other contribu-with regard to the note issue in general, an effort has been made to pro-vide special checks for the increase of the note issue without, however, pre-venting an extension of notes in response to any urgent demand. Provi-cion is made that a cash reserve amounting to one-third of the notes out-standing must always be maintained, and that any notes issued in excess of 59,000,000 must be covered by cash, dollar for dollar, or subjected to a special tax of 1%%, while any issue in excess of \$1,200,000,000 must be subject to a tax of 5% unless covered dollar for dollar, by cash. This will allow of an issue amounting to \$200,000,000 more that that now outstand-ing, with only a covering of one-third in cash, and will allow of a further ex-tension of this issue without more than proportionately covering payment of an increasing tax. What is probably the most ingenious feature of the plan is that which

Internet, with only a covering of one-third in case, and will allow of a payment of an increasing tax.
What is probably the most ingenious feature of the plan is that which concerns the disposal of the 2% bonds now held by the national basks to cover their circulation. It has been generally agreed that the present bond-secured currency should be done away with, but it has also been contended that the transfer of 5700,000,000 of 2% bonds to the National Reserve Association would involve a risk, inacmuch as they could not be disposed of upon the market for much more than 70% or the dollar. At the same time it seemed unlikely that the Government would be willing to retund these 2% bonds into 3 per cents, on account of the loss of \$7,000,000 annually in interest involved. The proposed arrangement disposes of all of these obstacles. It furtilistes a means for bringing an end to the bond-secured currency withoutflows tolthe Government and without imposing upon the Reserve Association the ownership of \$700,000,000 2% bonds.
As the bonds are taken over by the Reserve Association, they are no be refunded into 3 per cents without the circulation privilere; but the Association is to reimburse the Government for the additional cost by the payment annually of a 11% foranchise tax. Thus much as the banks return to-day 1814/5%, and it will continue the same under the proposed plan. At the same time the Reserve Association will hold 3% bonds instead of 2 per cents, and will be able to dispose of them upon the market from time to ithen if it chooses so to do.
One of the objects which the Reserve Association plan is intended to make possible is the rendering available of commercial paper for the augliarity reserves Association will hold 3% bonds instead of 2 per cents, and will be able to dispose of them upon the market from time to ithen if it chooses so to do.
One of the objects which the Reserve Association plan is intended to make possible is the rendering available of commercial paper for the

tion. In the present plan a special effort has been made to define the hinds of notes and bills available for rediscount by the Reserve Association, so as to limit them to such short-time obligations arising out of commercial transactions. In the language of the plan, the rediscountable notes and bills are limited to those "issued or drawn for arrivational, industrial or com-mercial purposes, and not for carrying stocks, bonds or other investment securities." This will unquestionably enlarge the market for strictly com-mercial papet and will have the effect of restricting the loans of banks upon Stock Exchange collateral. It will tend to stabilize the rates for call money and to prevent the enormous rises in rates which this country witnesses periodleally, but may result in a somewhat higher average rate for call money than has prevalled hitherto. Senator Aldrich, it is understood, will address the Conven-

Senator Aldrich, it is understood, will address the Conven-Senator Adrica, it is understood, win and on Oct. 25 and tion of the Indiana Bankers' Association on Oct. 25 and 26; the Western Economic Association at Chicago on Nov. 10; and the Trans-Mississippi Commercial Congress at Kansas City on Nov. 14. He is also to be one of the speakers at the New Orleans convention of the American Bankers' Association.

-In speaking at the Catholic Club on Thursday night on "The Panic of 1907," James G. Cannon, President of the Fourth National Bank of this city, referred to the modified plan prepared by ex-Senator Aldrich, and stated that in his opinion it would be found satisfactory to a majority of those interested in the problem, and would serve to make panics in the future improbable, if not actually impossible. The following extract from his remarks is given in the New York "Times":

I have talked with bankers all over this country in the last few months, and I find practically all of them pleased with it. I believe it more nearly meets the needs of the country than anything that has ever been devised. There are many new things in it. It can yet be improved, no doubt, but many of the objectionable features in the old plan have been removed in recent revisions.

-Public hearings on the proposed Aldrich plan for monetary reform were given by the National Monetary Commission at sessions held in this city at the Hotel Plaza on Monday and Tuesday of this week. Later in the week, on Thursday and Friday, similar meetings were held in Chicago, and to-day (the 21st) hearings on the plan will take place at St. Paul. Subsequent hearings are scheduled as follows: Minneapolis, Oct. 23; Seattle, Oct. 27 and 28; Portland, Ore., Oct. 30; San Francisco, Nov. 1 and 2; Salt Lake City, Nov. 6; Denver, Nov. 8; Omaha, Nov. 9; Kansas City, Nov. 10, and St. Louis, Nov. 11. In the absence of Senator Aldrich, Chairman of the Commission, Edward B. Vreeland, Vice-Chairman, presided at the New York sessions. The purpose of these hearings is to afford opportunity for the final presentation by financial and commercial interests of views and suggestions in the matter before the Commission submits its report to Congress. The Commission has until Jan. 8 1912 in which to prepare its report. A revision of his original plan has teen completed by Mr. Aldrich, and the new draft, which we refer to in another item, was made public Those who ventured their views at the New York yesterday. sessions included Edward D. Page, representing the Currency Committee of the Merchants' Association: Isidor Straus, Treasurer of the New York State Branch of the National Citizens' League for the Promotion of a Sound Banking System; Frederick Farnsworth, Secretary of the American Bankers' Association; Edmund D. Fisher, Deputy Comp-Association; Edmund D. Fisher, Deputy Comptroller of New York City; Prof. E. R. A. Seligman, of the De-partment of Economics at Columbia University; Stewart Browne, of the banking firm of Stewart Browne & Co., New York, and Robert D. Kent, of Passaic, N. J. While the principles of the plan were in the main commended by the speakers, suggestions as to changes which are considered advisable were made. According to Mr. Page, the only objection which the merchants have to the plan rests in the tax on circulation which it provides. On this point Mr. Page said: "It puts a tax on the merchant at a time when other influences tend to create a high rate of interest, and any thing which causes a rise or a fluctuation in the interest a merchant must pay for accommodation is a clog in the wheels of the manufacturers. Especially is this true of those who compete with foreign manufacturers, who have the advantage of an almost stable rate of interest." Mr. Page also contended that the merchants were more interested in a new currency system than the bankers. "A banker," he pointed "may dishonor his obligations in times of stress by out. ruining his business, and his way of making a living is gone." Reference was made by Mr. D simply suspending; a merchant cannot suspend without Reference was made by Mr. Page to the criticism of James J. Hill to the effect that the National Reserve Association might be liable to control by large moneyed interests, Mr. Page dismissing this suggestion in the following manner:

manner: I made a little calculation on the supposition that there would be 20,000 instead of the actual 28,000 banks in the association, and I found that, even so, it would require \$495,000,000 to control the three-fifths of the directorate of the association, who are elected by a numerical vote of the banks—an expense that would hardly be worth Wall Street's while for the rather illusory advantages Mr. Hill seems to see in such control. In order to control the remaining two-fifths of the directorate, who are elected on the basis of the capitalization of the constituent banks, an additional \$1,500,-000,000 would be needed. And for these two billions of dollars, even if that sum could be raised, Wall Street could achieve absolutely nothing; inasmuch as the National Reserve Association is prohibited from loaning its funds on stocks and bonds or for such purposes as Wall Street would favor. Prof. Solignment, in his, discussion concerning, the plan

Prof. Seligman, in his discussion concerning the plan, declared that "the overwhelming mass of business men favors the proposed scheme, and it carries out the economic prin-ciples long advanced by thinkers in this country and abroad." We quote from the New York "Times" further comments by Prof. Seligman:

by Froi. Sengman. We hear much objection to the proposed scheme on grounds of centrali-zation. I think this is a faise cry in that the people who use it misunder-stand what they mean by decentralization. We want decentralization of facilities, but centralization of reserve. Facilities must be at the beck and call of local communities. But where you have decentralized reserves you cannot have facilities. We must have a banking system that will create

safety not merely to a few favored business sections but to business through-out the country. The big man can usually step from under in times of a panle; the real sufferer is the small business man in outlying sections of

out the country. The big man can usually step from under in times of a panic; the real sufferer is the small business man in outlying sections of the country. At present the great distinction between this country and those of Europe is the greater importance attached here to speculation in Wall Street rather than to actual business. All the reserve funds of the country are loaned for temporary profits to Wall Street at present rather than to the business interests. The proposed scheme would not only favor the business men instead of Wall Street, buy would minimize the incluations in Wall Street tastef, due to the present speculation. In other words, I think the proposed scheme, by putting the reserves busing reserves and banking facilities, instead of putting more power into the hands of a few. Under the present system, too, our banking is prevented from participating in the panies of world banking, and has become a purely local system. Your plan, permitting banks to accept foreign drafts drawn upon those papers, will enable a similer bank in a Far Western town to have immensely larger chances of profit by participating in the load, and at the one red the proposed scheme would decentralize facilities and allow the small banker, to stand up with the biggest banker in the land, and at the other it would internationalize daming, embling American bankers to participate in the business of the world. At present the commissions of London bankers, through drafts drawn on them alone, amount to hurdred or multing trade, and would needed bank or alone, amount to have the protein. The new scheme would increase the profits of up or uninports. Imports From

imports. From the point of view of the business man, and through him the farmer and laborer, the new system would mobilize commercial credit. Hitherto we have used and still use primitive forms in our methods of doing business. We must introduce some system of re-discounting commercial paper, which we have not now. Japan, which adopted our system, dropped it after a two years' trial. Of all the nations of the world, we alone lag behind in the mercification. this respect

Exception was taken to the plan by Mr. Browne on the ground that it offered no remedy for hoarding by the people and the banks in time of panic-a condition, in his opinion, of more concern than elasticity. In answer to the suggestion by Mr. Browne that the best preventative of hoarding would be to limit the multiplication of small banks-according to him the worst offenders,-Mr. Straus took occasion to state that "to discourage the small banks is the one thing we don't want to do. We must encourage them, and that, I think, is the strongest feature of the whole plan." Mr. Straus also had the following to say with regard to the Commission's work:

I cannot tell you how greatly I appreciate the splendid work the Com-mission has done. You have enlightened our wisest financiers with the documents you brought here after your study of the banking systems abroad. Despite possible defects here and there, you have, on the whole, outlined a basis of remedying the terrible conditions underlying our entire system. You cannot go too far in making the small banker understand that the plan contemplates, above all, helping him in his business rather than driving him nut

out. It gives him all the banking facilities he has at present, and in addition the facilities which his central reserve agent in the panle of 1607 refused him. From the moment this plan goes into operation the United States will loom up as the world's chief trade centre. Heretofore the foreign banker has held—and rightly, too—that a time bill on the United States or on New York locked up his money until maturity; whereas a time bill on London was practically cash. From the moment this plan is adopted, that condition is climinated. New York can never be an exchange centre until we have facilities such as your plan provides. Thereafter New York will not only equal but supplant London as the exchange centre of the world.

Mr. Fisher thought trust companies should be eligible for membership in the National Reserve Association; he also suggested that half the members of the board of directors of the Association should come from the mercantile community, and thought that four Government representatives would be sufficient on the board, the rest to be made up of bankers and merchants.

President Taft this week decided to extend his trip several weeks beyond the original schedule, and instead of concluding his tour on Oct. 31, as contemplated at the start, he will not return to Washington until about the middle of November. From Pittsburgh, where he is scheduled for Oct. 31, and which was to have been the final point covered, President Taft will go to Morgantown, W. Va., spending Nov. 1 there; after a rest of five days at Hot Springs, Va., he will reach Cincinnati on Election Day, Nov. 7; he has arranged to be at Louisville Nov. 8; Frankfort, Ky., on Nov. 9; Hodgenville, Ky., Nov. 10, where he will attend the Lincoln Farm Celebration, and on Nov. 11 will cover Nashville and Sewance, Tenn. The trip as a whole will embrace some 16,000 or 17,000 miles, and will be the longest ever taken by a President while in office.

-The corporation tax law, in so far as it affects insurance reserves and sums set aside for the amortization of bonds, is the subject of a decision by the Commissioner of Internal Revenue. While Mr. Cabell's opinion in the matter appears to have been rendered on Aug. 25, it is only made public in the Oct. 5 number of the Government's pamphlet devoted to "Treasury Decisions." The Commissioner decides that in making returns of annual net income insurance reserves and sums set aside for the amortization of bonds are properly deductible from gross income. His opinion is contained in the following communication:

the following communication: TREASURY DEPARTMENT. OFFICE OF COMMISSIONER OF INTERNAL REVENUE, Washington, D. C., Aug. 25 1911. Sir: Referring to our conference relative to insurance matters on the 11th inst., * * * I will state the position of this office with regard to several items discussed: First—The net addition to reserves required by law to be made within the year to reserve funds may be the highest amount required by any State in which the insurance corporation actually does business. In the case of assessment insurance companies, the law provides that the actual deposit of sums with State or Territorial officers, pursuant to law, as additions to guaranty or reserve fund, shall be treated as being payments required by law to reserve funds.

guaranty or reserve fund, shall be treated as being payments required by law to reserve funds. Second—The reserves carried by various insurance corporations to pro-vide for taxes due and payable within the year for which the return is made cannot be accepted as taxes paid, unless such taxes were actually so paid. The second paragraph of Section 38 of the Act of Aug. 5 1909, referring to deductions from gross income, provides "(Fourth) all sums paid by it within the year for taxes imposed under the authority of the United States or of any State or Territory thereof, or imposed by the Government of any foreign country as a condition to carrying on business therein." You will note that the language of the statute is "all sums paid by it within the year for taxes," &c. ar for taxes, Third.—Rela &c. year

with note that the language of the statute is "all sums paid by it within the year for taxes." &c. Third.—Relative to amortization of bonds, where a corporation holds bonds which were purchased at a rate above par and said corporation shall proportionately reduce the value of those bonds on its books each year, so that the book value be the redemption value of the bonds when such bonds become due and payable, the return of annual net income of the corporation holding such bonds. The requirement is, however, that the amount carried to the amortization account each year shall be practically proportioned with respect to the difference between the purchase price and the maturing value and the number of years to clapse until the bonds become due and payable. With respect to bond issues, where such bonds are disposed of for a price less than par and are redeemable at par, it is also held that because of the fact that such bonds must be redeemed at their face value, the loss sustained by reason of their sale for less than their face value may be prorated by the issuing corporation in accordance with the life of the bond. With respect to the depreciation on real estate, it appears to be difficult

life of the bond. With respect to the depreciation on real estate, it appears to be difficult to say more than is set forth in the regulations. The depreciation must have actually occurred before it can be allowed. Where it is necessary to eliminate the depreciation, such estimate must be in accordance with the best data obtainable with respect to properties similar to that on which the depreciation may be claimed. It is understood, of course, that such depreciation should be charged off on the books of the corporation claiming the same. Respectfully, ROVALE, CARRELL Commissioner.

ROYAL E. CABELL, Commissioner.

-Still another communication with respect to the Corporation Tax Law, governing the interpretation under which it is held that corporations having a net income of \$5,000 or less are not exempt from the requirement calling for a return of their annual net income, appears in "Treasury Decisions" of the 12th inst., and we quote it herewith:

<text><text><text><text><text><text>

rendered by him under date of Jan. 24 1910, he uses this language: The question is whether or not a corporation whose net income does not exceed \$5,000 and which, therefore, pays no tax under this statute, is a corporation subject to the tax thereby imposed within the meaning of the Act. When the language of the Act is considered, together with the clear intent of those who drafted its provisions. I think there can be no doubt about the answer that should be given to this inquiry. The Act expressly declares that every corporation of the kinds mentioned 'shall be subject to pay annually a special excise tax,' and then provides a method for the com-putation of the amount to be paid. Therefore, every one of such corpora-tions fails within the provisions of the Act and must make out a report of its business as therein required, and in every respect comply with its terms. It may turn out when the calculation is made on the basis specified that no tax will be easessed against it, not because the corporation is not subject to the tax, but because its carning capacity is not sufficient to

Mr.

-In a communication addressed to the cashiers of the national banks throughout the country, Comptroller of the Currency Lawrence O. Murray seeks their views as to certain amendments in the laws governing the operation of their in-stitutions. The inquiries are made both in the interest of the Treasury Department and of the National Monetary Commission. The questions affecting the National Banking Acts which Mr. Murray puts before the officials are:

Acts which Mr. Multiply puts before the officials are: Would you favor an amendment to the law allowing national banks to invest a certain percentage of their deposits in real estate mortgages? Would you favor an amendment to the law specifically authorising the establishment of savings departments in national banks? Would you favor restricting real estate loans to a certain percentage of the deposits in such savings department? Would you favor the segregation of savings deposits and the restriction of their investment as provided by the mutual savings bank laws of certain States?

These inquiries are preceded by questions as to whether or not savings deposits are received by the institutions addressed, and, where they are, whether these departments are operated as a separate division, with separate books, etc.; whether the deposits are subject to withdrawal by check or only upon the presentation of pass books, or the surrender of certificates of withdrawals, and whether regula-tions providing for notice of withdrawals are enforced.

It is announced that the Stanley Committee which was named at the last session of Congress to inquire into the operations of the United States Steel Corporation will not resume its hearings until about the middle of November, owing to the fact that political interests will engage the attention of the members in the meantime. The committee adjourned on Aug. 12 and was to have reassembled on Oct. 16. Representative Stanley, who is Chairman of the committee, was quoted recently as stating that it was the intention of his committee to extend its probe so as to include violations of the Inter-State Commerce Law. In drawing attention to the fact that his committee is not limited merely to the scope of the Anti-Trust Act, but may extend its inquiry to the Inter-State Commerce and banking laws, Mr. Stanley, according to the New York "Tribune," said:

I am convinced that as a result of its investigation the people will very shortly see new activity on the part of the Inter-State Commerce Com-mission. I do not mean to criticize the Commission; it deserves no criti-cism. This Commission must act on complaints filed before it, and while it has been asserted repeatedly that no complaints have been filed, it does not follow that no complaints should or that none will be filed.

-An order establishing a postal savings system in the Panama Canal Zone was signed by President Taft on the 4th inst. It is announced that the proposed system, which will become operative on Nov. 8, will differ materially from that in the States; instead of being under the direction of the Post Office Department it will be under the supervision of the Isthmian Canal Commission, and no interest is to be paid on the deposits, the purpose being merely to provide a de-pository for the funds of the Canal Zone inhabitants.

The Post Office at Baltimore was opened as a depositary for postal savings funds on Saturday, Sept. 30, and on the same day the postal savings system was inaugurated at Washington, D. C., Charleston, S. C., Savannah, Ga., and Little Rock, Ark. Postal savings banks have also been opened at the following points: Sherman, Texas, on Sept. 26; Gloucester, Mass., Greenfield, Mass., Bristol, Tenn., Oak Park, Chicago, and Winona, Minn., on Sept. 28; Green Bay, Wis., Sept. 29; Phenix, River Point and Arctic, R. I., Akron, Ohio, Toledo, Ohio, McAlester, Okla., Lincoln, Neb., Salina, Kan., and Covington, Ky., on Oct. 7; Portsmouth, Va., and Fort Worth, Texas, on the 14th inst. Post offices as follows have been designated to receive deposits be-ginning Nov. 4: Asbury Park, N. J., Montelair, N. J., Newburgh, N. Y., Northampton, Mass., Canton, Ohio, Lima, Ohio, Newark, Ohio, Portsmouth, Ohio, East Pittsburgh, Pa., Johnstown, Pa., New Castle, Pa., Sharon,

Pa., Peoria, Ill., Rock Island, Ill., Anderson, Ind., Fond du Lac, Wis., Omaha, Neb., and San Diego, Cal.

-An amendment to the banking laws of Ohio enacted at the last session forbids the use of the word "State" in the name of a financial institution not subject to the provisions of the State banking law or the law regulating building and loan associations, according to the "Ohio State Journal". No action, it is stated, has yet been taken by the Department under the new provisions, but private banks using the word "State" in their titles will be asked to see to it that a change is made to conform to the requirements of the new statute.

-Before concluding its annual session last week, the Illinois Bankers' Association adopted a resolution endorsing the proposition of Mr. Aldrich for revising the monetary system. A change in the manner of control of the State Bankers' Association was effected at the late meeting. On this point the Chicago "Tribune" says:

the Chicago "Tribune" says: The private bankers of the State voluntarily gave up their rights to a half interest in the control of the association and allowed the new constitu-tion and by-laws to be adopted without protest. Having outnumbered the organized bankers in the early days of the State organization, the private bankers had the constitution arranged in a manner that provided for the alternate control of the association, they naming the President one year and the organized bankers naming him the next. Now that the private bankers represent only about one-third of the membership, equal division of the office was considered unfair, and the new constitution, which does away with the former arrangement, was drafted. drafted

-Among the many prominent Eastern bankers who are mentioned for Chairman of the Executive Council of the American Bankers' Association to be elected at the New Orleans meeting, is Ledyard Cogswell, the well-known President of the New York State National Bank of Albany. Cogswell is a former President of the New York State Bankers' Association.

-On account of the large demand for reservations for the tour of the Panama Canal which has been arranged by the New York Central Lines in connection with their special bankers' trains to the meeting in New Orleans of the American Bankers' Association, the committee in charge has found it necessary to charter an additional steamer, the Heredia, from the United Fruit Co. Judging from the interest taken in this "side trip," even with extra provision which has been made for the delegates, there will hardly be sufficient accommodation. A number of inquiries with regard to the trip have been received from Europe, particularly from London, Paris, Berlin and Copenhagen. The steamers, which are known as the "Bankers' Fleet," will be designated similar to the specials, namely Red, White, Blue and Green. Two special cars carrying the Pittsburgh bankers will join the through bankers' trains from New York at Cleveland. Full particulars regarding this tour were published in these columns a few weeks ago.

At a regular meeting of the directors of the Fourth National Bank of this city on Tuesday, Cornelius N. Bliss Jr. was elected a director in the place of his father, the late Cornelius N. Bliss. Mr. Bliss is a member of the firm of Bliss, Fabyan & Co. On the same day the directors passed resolutions giving voice to their sense of the loss sustained in the death of their late associate. Mr. Bliss Senior had been on the directorate of the institution since 1874. He had been its Vice-President from 1879 until 1895, and had served as President pro tem for a period in 1888. Similar resolutions of esteem were adopted by the directors of the Home Insurance Co. on the 13th inst. Mr. Bliss was Chair-man of the latter's Finance Committee at the time of his death on the 9th inst.

James S. Alexander, President of the National Bank of Commerce in New York, was elected a director of the Bankers Trust Co. on the 16th inst.

-Charles H. Sabin, Vice-President of the Guaranty Trust Co. of New York, returned from Europe on the 13th inst. on the White Star liner Baltic. He had been abroad on a brief vacation devoted entirely to recreation. Mr. Sabin had nothing to say regarding financial matters, except that in London on the way home he found the situation much improved.

-The statement issued by the Guaranty Trust Co. as of Sept. 29, in response to the call of the State Comptroller, shows total deposits of over \$161,000,000. This is a gain of \$16,800,000 since the last previous call of June 7. The capital, surplus and undivided profits of this, the largest trust company in America, amount to \$26,600,000, and \$160,000 has been added to the undivided profits since June 7. A quarterly dividend has also been paid amounting

to \$400,000. This is equivalent to 32% per annum on the capital stock of \$5,000,000.

A finding adverse to the National City Bank of this city is made in the report filed this week by Charles F. Brown, Special Master in the action brought against the bank by the trustee in bankruptcy for the failed firm of Lathrop, Haskins & Co. The case is similar to that of J. M. Fiske & Co. and the Mechanics' & Metals' National Bank, and the decision of the Special Master is the same in both instances. In the case of the National City Bank a loan had been accorded the firm by the bank in the early part of the day on which the firm suspended—Jan. 19 1910—and, following the announcement of the firm's embarrassment on that day, the bank se-This cured from it certain collateral securing the loan. transfer, Mr. Brown decides, constituted a preferential payment under the Bankruptcy Act, and he holds that the trustee for the firm is entitled to the return of the securities, or, in default of the same, to a judgment for \$161,740-this including interest on the amount involved and interest and dividends from the securities. The defense offered by the bank was that the securities were considered as being held by the firm in trust for the bank to cover the accommodation.

-A re-trial of the suit of Howard Willets against the members of the failed banking house of H. W. Poor & Co. has again resulted in a verdict in favor of Mr. Willets. Mr. Willets' action was instituted to recover on an investment in 1904 in bonds of the Newton & Northwestern RR., which, it was alleged, he was induced to purchase through misleading statements in the prospectus. On Nov. 30 1909 a verdict was returned in the Supreme Court at White Plains, N. Y., under which Mr. Willets was awarded the sum of \$277,899-representing the amount invested and accrued interest. Last December the Appellate Division set aside this verdict and ordered a new trial, and on the 9th inst. lasta jury in the Supreme Court at White Plains again decided in favor of Mr. Willets, awarding him \$277,899, with \$2,000 additional for counsel fees.

Sentence in the case of Joseph G. Robin, who was indicted some months ago on charges of grand larceny following the closing of the Washington Savings Bank, was postponed indefinitely by Justice Seabury of the Criminal Branch of the Supreme Court on the 9th inst.

The Audubon National Bank was placed in voluntary liquidation, to take effect on the 7th inst., under action of its stockholders on the 6th. The institution has been winding up its affairs since July 19.

-The Gotham National Bank, at Columbus Circle and Eighth Avenue, has been made an associate member of the New York Clearing-House Association, and, beginning to-day (the 21st), will clear its checks through the Liberty National Bank. Zoheth S. Freeman, Vice-President of the latter, has been elected a director of the Gotham National. The Gotham was recently appointed a Government depositary for postal savings funds. The institution began business on April 11 1910.

-Work is now under way on the new bank building for the Essex County National Bank of Newark, N. J., and when completed the structure will be one of the finest of its kind in the city. It will be built entirely of Vermont white marble, with a massive bronze window facing Broad St. The interior of the main banking room will be constructed of Italian Botticino marble and solid mahogany. The Safe Deposit Department in the basement of the building will be a feature. Under date of Sept. 1 the institution had deposits of \$7,-959,673 and aggregate resources of \$11,035,545. It has a capital of \$1,000,000 and surplus and profits of \$1,487,072. Charles L. Farrell is President and A. F. R. Martin Cashier.

-The Sept. 1 statement issued by the People's National Bank of Westfield, N. J., shows deposits of \$598,069, with surplus and profits of \$29,406 and aggregate resources of \$728,873. The directorate of this bank is composed prin-cipally of New York business men who are residents of Westfield and Plainfield, N. J., and its membership includes two New York bankers-J. Herbert Case, Vice-President of both the Franklin Trust Co. of N. Y. and the Plainfield Trust Co., and Rollin P. Grant, Vice-President of the Irving National Exchange Bank of this city. The bank has \$50,000 capital. Samuel Townsend is President, J. E. Gallagher is Vice-President and H. H. Griswold is Cashier. Westfield is one of New Jersey's thriving suburbs.

-The Webster & Atlas National Bank of Boston is distributing an advertising novelty to solicit new deposit ac-This little "business getter" is an inside pocket counts.

folder made of strong red cardboard for carrying personal papers and other memoranda in convenient form. It has a small replaceable calendar in one panel and in another space a slate to jot down "what to remember to-day," and the back a slate to jot down "what to remember to-day," and the is also distributing penholders. On Sept. 1 the institution had \$1,073,738 surplus and undivided profits, less expenses and taxes paid, in addition to a capital of \$1,000,000. John P. Lyman is President; Joseph S. Bigelow, Vice-President; Joseph L. Foster, Cashier, and Robert E. Hill, Assistant Cashier.

-A 25% dividend was lately paid to the depositors of the Waterville Trust Co. of Waterville, Me. This is the second payment made to the depositors since the company closed its doors in May 1909, the first dividend, amounting to 50%, having been distributed in January 1910.

-George W. Norris will retire on Dec. 1 from membership in the firm of Edward B. Smith & Co. of Philadelphia. An announcement issued in the matter says:

Mr. Norris will not wholly withdraw from business interests, but expects to devote himself primarily to a further study of public questions, including the problems of governmental regulation of railroad rates and of industrial combinations. Mr. Norris believes that the present basis of regulation is illogical and that a proper solution of the problems involved is essential to railcoad, property. national prosperity

William L. Carlile has been elected to succeed the late William D. Crommie as Secretary of the Columbia Avenue Trust Company of Philadelphia. Other changes in the in-stitution are the appointment of N. L. Bright as Title Officer, Robert E. Fabian as Assistant Title Officer, William T. Burkhardt as Assistant Trust Officer and Joseph B. Montgomery as Assistant Secretary.

-Percy M. Chandler was appointed receiver of the Trades-men's Trust Company of Philadelphia on the 11th inst. by Judge McCarrell of the Dauphin County Court. The institution suspended on Sept. 18 and James A. MacBurney, as State bank examiner, had since served as temporary re-ceiver. Mr. Chandler is a member of the firm of Chandler Bros. & Co. He had formerly been a director of the trust company.

-W. W. Atterbury was elected a director of the Philadelphia Trust, Safe Deposit & Insurance Co. of Philadelphia at a meeting of the board on the 13th inst. Mr. Atterbury is Fourth Vice-President of the Pennsylvania RR.

-R. E. Cornelius has been elected President of the Mahoning National Bank of Youngstown, Ohio, succeeding Edmond L. Brown, resigned. Mr. Cornelius had heretofore been Cashier of the First National Bank of Youngstown.

-John R. Walsh, former President of the Chicago National Bank, of Chicago, was released from the Federal Prison at Leavenworth, Kan., on the 14th inst., under a parole of the Prison Board, approved by the Government. Mr. Walsh, who entered the prison on Jan. 19 1910 under a five-year sentence on charges of misapplying funds of the Chicago National, became eligible for parole in September, when one-third of his term had been completed. The Chicago National and its affiliated institutions, the Equitable Trust Co. and the Home Savings Bank, suspended operations in December 1905. Sentence was imposed on Mr. Walsh in 1908, but it was not until January 1910, when he failed in his efforts to obtain a new trial, that he began the imprison-With regard to his plans for the future, Mr. ment term. Walsh is credited with saying:

All I want to do now is to get a little rest at home, get a new line on the tangled threads of the business enterprises I am interested in since the adjustment of the Clearing-Honse note and get those enterprises in the best shape I can. After things have been straightened out I do not know just what I shall do.

Mr. Walsh is now seventy-four years of age.

The Old Detroit National Bank of Detroit, Mich., proposes to raise its capital from \$2,000,000 to \$3,000,000. Its plans with regard thereto will be submitted to the stock-holders for ratification on Nov. 7. The present shareholders are asked to waive their rights to \$500,000 of the additional stock, the intention being to dispose of this portion to new interests. The other \$500,000 will be offered pro rata to the existing stockholders. The price at which the entire issue of stock will be sold is \$150 per share, thus enabling the bank to add \$500,000 to its surplus. Early in the year the Old National took over the business of the American Exchange National Bank.

-The Central Loan & Trust Co. of Topeka, Kan., which will conduct a general trust company business, has been chartered with a capital of \$100,000. The interests conNational Bank, and the new company will be operated in connection with that bank.

The American Trust Co. of St. Louis, which since its organization two years ago has cleared through the National Bank of Commerce, was admitted as a member of the St. Louis Clearing-House Association on Monday.

An application to organize the Citizens' National Bank of Phoenix, Ariz. (capital \$100,000), was approved by the Comptroller of the Currency on Sept. 27.

William S. Parker Jr., formerly Assistant Cashier of the Southern National Bank of Louisville, Ky., was sentenced on Monday to five years in the U.S. prison at Atlanta. It is stated that he was recently indicted on charges of embezzling \$35,000 of the funds of the bank.

-Caldwell Norton has been elected to succeed Sam. P. Jones, resigned, as President of the Commercial Bank & Trust Co. of Louisville. Mr. Norton had previously held the office of First Vice-President and Trust Officer of the company.

-A charter has been issued for the Real Estate Savings Bank of Wheeling, W. Va., capital \$25,000. It will operate a general banking business.

-A charter has been issued for the Union Dime Savings Bank of Wilmington, N. C. The authorized capital is re-ported as \$125,000, and the incorporators, according to the Wilmington "Star," are given as F. W. Dick and J. Holmes Davis Jr., respectively Cashier and Assistant Cashier of the People's Savings Bank; C. E. Taylor, President, and J. L. Williams, Cashier of the Wilmington Savings & Trust Co.

-The Traveler's Bank & Trust Co. is the name of a new financial institution which opened for business on the 5th inst. at 56 Peachtree Street, Atlanta. A general banking and trust business will be conducted by the new organization. Its officers are E. L. Adams, President; W. S. Lounsbury and Jno. F. Cone, Vice-Presidents; Grover Megahee, Cashier, and M. C. Johnson, Assistant Cashier.

The current depositors of the failed Leinkauf Banking Co. of Mobile, Ala. (whose accounts aggregated over \$100, 000) received a 35% dividend on the 9th inst. With this disbursement, it is stated, the current depositors are paid in full, leaving only the time depositors and other creditors to be taken care of. The institution suspended on March 20.

The sale of the assets of the failed Bank of Shasta County at Redding, Cal., to former State Superintendent of Banks Alden Anderson was authorized by the State Superior Court on the 7th inst. The arrangement is in accordance with an agreement entered into between Mr. Anderson and State Superintendent Williams. The price which Mr. Anderson pays for the assets is \$460,461. In addition to this sum, which now becomes available for the depositors, it is understood that the stockholders will be assessed \$100,000, the amount of the capital, in order that the obligations to the depositors may be discharged. The deposits, at the time the institution closed its doors on March 25 1911, are said to have amounted to \$710,000. Mr. Anderson is President of the Redding National Bank.

-O. J. Wigdal has been elected President of the Home Savings Bank of Los Angeles, to succeed the late R. J. Waters. Mr. Wigdal had been a Vice-President of the institution for the past seven years.

-Russell J. Waters, President of the Citizens' National Bank of Los Angeles, the Home Savings Bank and the Citi-zens Trust & Savings Bank, and Vice-President of the Globe Savings Bank died on the 25th ult. Although he had suffered impaired health for some months. his death was unexpected. Mr. Waters located in California in 1886, having gone there from Chicago. He was one of the founders of Redlands, and he was identified with many activities on the Coast. He was also a member of the Fifty-sixth Congress from 1899 to 1901. His son, Arthur Jay Waters, is Vice-President of the Citizens' National Bank.

-Action on the question of increasing the stock of the Security Savings Bank of Los Angeles from \$1,000,000 to \$2,000,000 will be taken on Nov. 2. It is stated that but \$250,000 to \$400,000 of the increase authorized will be issued at present.

The banking business of the Citizens' Savings Bank of Long Beach, Cal., was taken over on the 10th inst. by the Farmers' & Merchants' Bank of that city. The latter, it is said, assumes all the deposit liability of the Citizens', amounting to \$244,625, receiving as assets \$185,000 in cash and the cerned in its organization are identified with the Central balance in securities. The Citizens suspended in January

1908, but was reorganized and reopened under a deferred-payment arrangement the latter part of 1909. The corporate existence of the institution will be continued, and it will retain its interest in the First National Bank building and certain securities until the organization of the proposed holding company is perfected, when it will turn over these properties to the new concern.

The manner of payment for the new stock of the Bank of Montreal was announced on the 14th inst., following a meeting of the directors on the previous day, when the details of the issuance of the additional stock were arranged. The capital of the institution, as has been noted in these columns, is to be increased from \$14,400,000 to \$16,000,000, and the new stock was authorized by the stockholders on The stock is offered at \$175 per share to the present Sept. 5. shareholders, in the proportion of one new share for every nine held. The purchase price is made payable in monthly installments of 10% each, the first due Nov. 20 1911 and the subsequent installments being arranged as follows: Dec. 20, Jan. 22, Feb. 22, March 25, April 25, May 27, June 27, July 29 and Aug. 29 1912.

The Banque Internationale du Canada, a new organization, began business simultaneously in Montreal and Paris The institution was incorporated under a bill on Tuesday. passed by Parliament some months ago and a license was granted to it by the Government on Monday. It has a capital of \$10,000,000 and a considerable portion of the stock, it is understood, is held by French interests. Rodolphe Forget, M.P., is President of the bank, and Robert Bicker-dike is Vice-President. In addition to Messrs. Forget and Bickerdike, the directorate includes: Stanislaus Badel of Badel, Freres et Cie, bankers, Paris; S. V. Chomercau-Lamotte, Paris, Honorary Governor of the Banque de France; Sir George Garneau, Quebec; J. N. Greenshields, Montreal; Georges Martin, Paris, President of the Committee of Control of the Comptoir National d'Escompte de Paris; Raoul Sautter, Paris, of Odier, Sautter & Co., bankers; Hon. L. O. Taillon, Montreal, ex-prime Minister of the Province of Quebec. Godfrey Bird is General Manager of the bank.

-It is announced that B. S. Walker has been appointed Manager of the Montreal branch of the Sterling Bank, head office Toronto.

According to the Toronto "Globe," \$250,000 of the stock of the Bank of Vancouver, British Columbia, has been purchased by French interests, who are reported to have an option on a further block of the bank's stock. The authorized capital of the institution is \$2,000,000.

Statement of New York City Clearing-House Banks and Trust Companies.—The detailed statement below shows the condition of the New York City Clearing-House members for the week ending Oct. 14. The figures for the separate banks are the averages of the daily results. In the case of the totals, actual figures at the end of the week are also given. For definitions and rules under which the various items are made up, see "Chronicle," V. 85, p. 836, in the case of the banks, and V. 92, p. 1607, in the case of the trust companies. DETAILED REFURNS OF BANKS. We omit two ciphers (00) to all cases.

The State Banking Department also furnishes weekly returns of the State banks and trust companies under its charge. These returns cover all the institutions of this class in the whole State, but the figures are compiled so as to distinguish between the results for New York City (Greater New York) and those for the rest of the State, as per the following:

For definitions and rules under which the various items are made up, see "Chronicle," V. 86, p. 316.

+ Increase over last week. — Decrease from last week. a These are the deposits after eliminating the item "Due from reserve depositories and other banks and trust companies in New York City"; with this item included, deposits amounted to 5692,217,000, an increase of \$1,264,100 over last week. In the case of the Clearing-House members, the deposits are "legal net deposits" both for the average and the actual figures. δ -Includes bank notes.

The averages of the New York City Clearing-House banks and trust companies, *combined* with those for the State banks and trust companies in Greater New York outside of the Clearing House, compare as follows for a series of weeks past:

THE ROOKERY CHICAGO

Bankers' Gazette.

Wall Street, Friday Night, Oct. 20 1911.

Wall Street, Friday Night, Oct. 20 1911. The Money Market and Financial Situation.—Several mat-ters of importance, and having more or less influence upon security values, have been freely discussed in financial circles this week. During the early days, the American Tobacco Company's plan of reorganization was the subject of a good deal of comment and criticism. Later the announcement that the U. S. Steel Corporation will abrogate its contract with the Great Northern Iron Ore Properties caused some surprise and led to a sharp decline in the price of Great North-ern Ore certificates. ern Ore certificates

surprise and let to a sharp decline in the price of dear transfer ern Ore certificates. A matter of broader interest and perhaps larger significance is the Government report of international trade for the month of September. This shows an increase of nearly \$27,000,000 in the exports of merchandise when compared with the same period in 1910, of about \$232,500,000 for the nine months since Jan. 1, and foreshadows a very satisfac-tory balance in our favor at the end of the calendar year. The export movement of cotton for the month was about 25% greater than last year, and for October thus far the per-centage is nearly the same. Information relating to the iron and steel industry con-firms the report of last week to the effect that lower prices are stimulating orders, and also states that competition among the independent companies is rather sharply curtail-ing profits.

among the independent companies is rather sharply curtail-ing profits. The Bank of Germany, and also the Bank of England, re-ports a substantial increase in cash holdings and percentage of reserve. The Bank of France makes a somewhat less favorable showing, is bidding for gold in the London market and is encouraging American capital thitherward. The local money market is practically unchanged; considerable sums are still being placed in foreign bills of lading and in other foreign loans. The open market rate for call loans on the Stock Exchange

foreign loans. The open market rate for call loans on the Stock Exchange during the week on stock and bond collaterals has ranged from $2\frac{1}{4}$ to $2\frac{1}{4}\%$. To-day's rates on call were $2\frac{1}{4}(\underline{0}2\frac{1}{2}\%)$. Commercial paper quoted at $4\frac{1}{4}(\underline{0}4\frac{1}{2}\%)$ for 60 to 90-day endorsements, $4\frac{1}{4}(\underline{0}4\frac{3}{4}\%)$ for prime 4 to 6 months' single names and 5% and upwards for good single names. The Bank of England weekly statement on Thursday showed a decrease in bullion of £597,182 and the precentage of reserve to liabilities was 52.40, against 51.91 last week. The rate of discount remains unchanged at 4%, as fixed Sept. 21. The Bank of France shows an increase of 2,975,-000 france gold and 2,700,000 france silver.

Note.—The Clearing House now issues a statement weekly showing the actual condition of the banks on Saturday morning, as well as the above averages. These figures, together with the returns of the separate banks and trust companies, also the summary issued by the State Banking Department giving the condition of State banks and trust companies not reporting to the Clearing House, appear on the second page preceding.

the second page preceding. Foreign Exchange.—An abrupt rise, chiefly due to speculation, occurred late on Thursday, and this morning 4 8690 was paid for demand and 4 8740 for cable transfers, but later there was a reaction of $V_{2}c$. To-day's (Friday's) nominal rates for steriling exchange were 4 84 for stary days and 4 8735 for sight. To-day's actual rates for steriling exchange were 4 8506 e4 8370 of to sixty days a 46706 4 86306 e6 8370 for sixty days. 4 86706 4 8630 for cheques and 4 8736 e6 8630 for cheques and 4 8740 e6 8630 for cheques and 4 8720 e4 8740 for c bles. Commercial on banks 4 82 4 e6 4 83 45 and documents for payment 4 83 e 83 45. Cotton for payment 4 83 2 4 e 84 83 45 and documents for payment 4 83 e 16 2 8 5 163 for short. Germany bankres' marks were 94 3-16 e694 5-16 for long and 94 5 plus 1-32 e94 15-16 for short. Amsterdam bankres' guilders were 40 3-16 less 1-16 e00 3-16 for short.

short. The posted rates for sterling as quoted by a representative house were 483 ½ for sixty days and 4 87 for sight on Saturday and Monday, but on Tuesday there were advances to 4 84 and 4 87 ½, respectively, and these quotations have ruled since. Exchange at Paris on London 251, 16 ½(c.; week's range, 25f, 17 ½)c, high and 251, 15 ½(c. low. Exchange as Berlin on London, 20m, 51 ½pf,; week's range, 20m, 52 ½pf, high and 20m, 50 ½pf, low. The range for foreign exchange for the week follows: Starting, Advand — Start Days.

| Sterling, Actual— Sixty Days, High for the week | Cheques. 4 8690 4 8660 | Cables. 4 8740 4 8695 |
|--|--------------------------------------|-----------------------------|
| High for the week | 6 16 % plus 1-32 5 16 % less 1-16 | 5 16 ½ 5 16 ¼ less 1-16 |
| High for the week | 04 15-16 94 % | 95 94 15-16 |
| High for the week | 40 3-16 40 ½ plus 1-32 | |

DOMESTIC EXCHANGE --- The following are the rates for domestic exchange at the undermentioned cities at the close of the week: Chicago, par. Boston, par. New Orleans, commercial, 50c, per \$1,000 discount; bank, \$1 per \$1,000 premium. Savannah, buying, 3-16% discount; sell-

ing, par. San Francisco, 25c. per \$1,000 premium. Charleston, buying, par, selling, 1-10% premium. St. Louis, par. Montrea, 465,c. per \$1,000

State and Railroad Bonds.—Sales of State bonds at the Board include \$1,000 New York 4s, 1958, at $103\frac{3}{4}$; \$157,000 New York 4s, 1961, at $103\frac{1}{2}$ to $103\frac{3}{4}$; \$2,000 New York Canal 4s, 1960, at 104; \$10,000 New York Canal 4s, 1961, at $103\frac{3}{8}$, and \$297,000 Via. 6s deferred trust receipts at $58\frac{1}{2}$ @61 $\frac{1}{2}$.

and \$297,000 Via. 6s deferred trust receipts at 58½@61½. A prominent feature of the bond market has been unusual activity and an advance of 3 points in the Virginia deferred trust receipts. This movement is presumably based on a hope that some decision will soon be arrived at as to the amount of interest due on these bonds. The market for railway and industrial issues has been fairly active, with the American Tobacco bonds the active features. These have lost a part of their recent advance, the 6s drop-ping nearly 3 points. Allis-Chalmers 5s, on the other hand, have regained 3 points of the decline noted last week. Sea-board Air Line adj. 5s have advanced 3¼ points and Missouri Pacific conv. 5s, Norfolk & Western conv. 4s and Third Ave. con. 4s are a point or more higher. con. 4s are a point or more higher.

United States Bonds.—Sales of Government bonds at the Board are limited to \$17,000 Panama 3s at 1023% to 1023/2. The week's range has been as follows; for yearly range see third page following.

| | Interest | 0d. | Oct. | Oct. | Oct. | Oct. | Oct. |

This is the price bid at the morning board; no sale was made.

*This is the price bit at the morning board; no sale was made. **Railroad and Miscellaneous Stocks.**—The stock market has been somewhat more active than last week, and a list of thirty issues, freely traded in, is an average of nearly 2 points higher. This advance has, however, little significance, as much the larger portion of transactions at the Exchange rep-resent the operations of Board Room traders. There have been, however, a few exceptional features Among these Lehigh Valley is conspicuous for an advance of 5¼ points. Canadian Pacific is up 2½, Reading 2¾ and Union Pacific over 2 points. Great Northern Ore certificates declined 10 points on the announcement noted above, but later recovered about 1-3 the loss. The copper stocks have been notably strong, Amalgamated showing a net gain of 3½ points, Utah Copper 3 and Smelting & Refining over 2. American Beet Sugar has also been a strong feature. For daily volume of business see page 1096. The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

| Week ending Oct. 20. | Sales | Ran | ge I | n Wee | Range since Jan. 1. | | | | | |

Standard Millag, pref.] 200 52 Oct 16 52 Oct 16 50 July 52% Oct Texas Pae Land Trust.] 350 85 Oct 16 85 Oct 18 84 Sept 92 Jan Outside Market.—The market for outside securities con-tinues dull and price changes, in keeping with this situation, are of little significance. Among industrial securities chief interest, as in the past few weeks, has centered in American Tobacco, which in the early trading scored a gain of 8 points to 420, but afterwards reacted to 401. A rally to 408 foi-lowed, but it moved downward again and rested finally at 402. An interesting feature was the recorded transactions in the proposed new securities to be issued under the Ameri-can Tobacco plan of reorganization submitted this week as follows, all "when issued": Preferred stocks of P. Lorillard and Liggett & Myers companies at 110; P. Lorillard Co. 5% bonds down from 91 to 90% and 7% bonds at 118; Liggett & Myers 5s at 90 and 7s at 118. Intercontinental Rubber com., after a gain of a point to 20, fell to 18½, and recovered finally to 19¼. Studebaker Corp. com. sold up from 58 to 60, United Cigar Mfrs. com. rose from 48 to 50 and sank to 46, the close to-day being at 46½. Bonds were quiet. Chicago Elevated Ry. 5s advanced from 97½ to 98. N. Y. West-chester & Bost. Ry. 41½s weakened from 97½ to 97.5 and finished to-day at 97.5. Oregon-Wash. RR. & Nav. 4s im-proved from 92 3-16 to 92½. N. Y. City 414s eased off from 103 1-16 to 103. There was some improvement in the market for mining issues as the week closes. Braden Copper sold upfrom 4½ to 5. British Columbia gained half a point to 4 and Butte Coalition one point to 16. Giroux moved up from 3½ to 4. Greene Cananea declined from 57% to 52% but re-covered al the loss. Kerr Lake was a weak feature, selling down about half a point to 2¼, the close to-day being at 2 13-16. Tonopah jumped from 6¼ to 7½ but reacted finally to 6¾. Dutside quotations will be found on page 1096.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the electric railways are brought together separately on a subsequent page.

| | Latest | Gross Earn | ings. | July 1 to Lates: Data | | | Latest | Gross Earn | ings. | July 1 to 1 | Laten Date. |

 Net Earnings Monthly to Latest Dates.
 In our "Railway Earnings" Section, which accompanies to-day's issue of the 'Increase' section, which accompanies to-day's issue of the August figures those for the latest previous month) of every steam-operating railroad in the United States which is obliged to make monthly statements to the Inter-State Commerce Commission at Washington.

 The Inter-State Commission returns are all on a uniform basis, both as to revenues and expenditures, and possess instances these figures differ from those contained in the monthly statements given out by the companies themselves for publication, and in which the accounts are prepared in noury instances for years. We bring together here (1) all the roads where there is a substantial difference between the two sets of figures, so that those persons who for any reason may desire to turn to the company statements will find them readily available. We also give (2) the returns of such roads (even where the figures correspond exactly with those in the Inter-State Commerce reports) which go beyond the requirements of the Commission and publish here fixed charges in addition to earnings and expenses, or (3) which have a fiscal year different from that of the Inter-State Commerce do not report to the Federal Commission, and (5) Mexican and Canadian companies. We add (6) the roads which have assued their own for the months of the Commission, and (2) Mexican and Canadian companies. We add (6) the coads which have alseady submitted their set is or August, but have not yet filed any returns for the figures for any roads that have already submitte

ANNUAL REPORTS.

Annual Reports.—An index to annual reports of steam railroads, street railways and miscellaneous companies which have been published during the preceding month will be given on the last Saturday of each month. This index will not include reports in the issue of the "Chronicle" in which it is published. The latest index will be found in the issue of Sept. 30. The next will appear in that of Oct. 28.

Great Northern Railway.

(Report for Fiscal Year ending June 30 1911.)

The full text of the remarks of Chairman J. J. Hill and President L. W. Hill is given on subsequent pages; also the revenue and income accounts, the general balance sheet in detail, &c., &c. Below we give a comparative statement of traffic statis-ties and income account for the several years and balance wheat for two wars

sheet for two years.

* Company's freight excluded. a Rentals in 1907-08 include \$1,179,988 paid to the former St. Paul Minne-apolls & Man. Ry. (now merged) under lease from July 1 to Oct. 31 1007. z The entire surplus, as above, in 1010-11, 1008-09 and 1907-08 was transferred to "fund for permanent improvements and betterments" to cover cost of betterments made to property during the year. In 1909-10 \$2,319,158 was so transferred, the remainder of the \$3,093,161 surplus being transferred to profit and loss.

Mobile & Ohio Railroad.

(Report for Fiscal Year ending June 30 1911.)

(Report for Piscal Year ending June 30 1911.) President W. W. Finley Oct. 5 wrote in substance: Results.—The gross revenue for the year was greater than for any other year in its history. The net operating income was somewhat adversely affected by increased wage scales. There was a material increase (71,460 tons) in the products of agriculture handled, due mainly to cotton and its products. There was also an increase in traffic from products of animals and mines and from manufactures and miscellancous goods. There was a slight decrease in traffic from the products of the forests. *Port of Mobile*.—Probably the most important addition to the business of the company for the year came from its export and import business via the port of Mobile.

Mobile & Ohio RR. Co, and Southern Ry. Co., which will have a wharf frontage of 1,200 lineal feet. When the construction has been completed, the dock property owned by your company in Mobile will consist of 3,505 lineal feet of wharf, with 276,300 sq. ft. of warchouse floor space, and that owned jointly with Southern Ry. Co., 1,980 lineal ft. of wharf, with 155,375 sq. ft. of warehouse floor space. In addition the Southern Ry. Co. owns 1,540 lineal feet of wharf frontage, with 19,165 sq. ft. of warehouse floor space, which, under arrangements of a reciprocal nature, are subject to use by the Mobile & Ohio RR. Co. The facilities now under construction will be completed about Jan. 1 1912, when the Mobile & Ohio will be in position to offer ships berthing at its docks as great despatch as that offered by any other port upon the Guil of Mexico. Congress has appropriated the money necessary to increase the depth of state 11 the channel leading from lower Mobile Bay to the docks from 23 to 27 feet and the bottom width from 300 to 600 feet. It is thought that this work will be completed about June 1913.

(Report for Fiscal Year ending June 30 1911.)

President J. T. Jones, Sept. 30 1911, wrote in substance:

(Report for Fiscal Year ending June 30 1911.)
President J. T. Jones, Sept. 30 1911, wrote in substance:
Results.—While revenues decreased \$87,266, or 4.17%, the operating expenses to gross operating revenues (68,38%) is still less than the low farmed (90.5%) of the preceding year.
While the largest amount of decrease has been in the two maintenance accounts combined, yet it is not believed that there has been any deteriorating in the standard of maintenance, and the property is in equally as good physical condition as at any three in its listor.
The approximation of the preceding year since 1904, the total for the year being 32,214,956 feet, as compared with 276,127,000 feet for the previous been year, the total amount of number through Gulport Harbor. The exportation of lumber through Gulport Harbor.
The export of other commodities also increased to a great degree, the for the greatest increase of any year since 1904, the total for the year being 32,214,956 feet, as compared with 276,127,000 feet for the previous been year, the total amount of number 224,370 pounds of hominy, feed, &c. 2,257,021 stayes and slabs, 10,571 piles and 197,984 cross ties.
Interesting the year the balance of the mortgage 6% gold bonds, the total bonds authorized to be issued under this mortgage being 1,000,000. The balance of the books as "securities in full 49,530 gallons of creosote cuit.
Bonds, the total bonds authorized to be issued under this mortgage being 1,000,000. The balance of the books as "securities in fortage of 378,630.000. The balance of the books as "securities and 100,000. The action of new lines." (Y. 92, p. 460.1
Mada and Equipment.—This account shows a net decreased during the year of 378,730.000. The action of 3,737,800.000 in the section of 3,747,000 in the section of 3,775,75.
Mathematical for the sinking fund to 5,316,000 parts are desired of the work and the property have a section of a secount of the recease during the year of 3,760,000 in co

Canadian Pacific Railway Co. Proceedings at 30th Annual Meeting Held on Oct. 4 1911.) President Sir Thomas G. Shaughnessy said in substance: (Proceedings at

I residence of Thomas G. Shaughnessy said in substance: Results.—The volume of passenger and freight traific even exceeded our expectations, with the very gratifying result that the gross operating reve-nue for the year was over \$104,000,000. (See annual report in "Chronicle" of Sopt. 2, pages 593, 586.) *Crops.*—The additional acreage under crop this year at the estimated average yield per acre will furnish largely increased tomage, and, although the quality of the wheat has been injuriously affected in some portions of Western Canada, the financial return to the producers should be very large indeed.

| THE R. P. LEWIS CO., NO. | CONTRACTOR OF A | 10,010 | Constant and | 1908 | | 9,867 | 39,422 |
| 1 | otal Load | Connect | ed (in 50 | -wall equile | | | |
| 1911. | 1910. | | 909. | 1908. | 1907 | | 906. |
| 2,773,838 | 2,408,9 | 26 1,8 | 03,803 | 1,638,54 | 1,503,4 | 178 - 1.3 | 60,909 |

As no new properties were absorbed during the past year, the above table shows for that period the increase which your company obtained through its regular growth. This is by far the largest in its history, and, except for last year, is more than double any previous year. As there have been no changes in prices during the year past, the following table of operations also represents the normal and regular growth. If the business in the newer Back Bay district has necessitated calarging the Scotta Street sub-station, and there has been erected a three-story addition, covering approximately 2,700 st. ft. The world. The store turbour being put into operation. It is the largest steam turbour of the business in the newer Back Bay district in the store steam turbour and workshops therefu are much overcowded. We have purchased, therefore (since June 30), a tract of about 10 acres on Massachusetts Avc., adjoining the N. Y. N. H. & Hartrod RR, and is is proposed to erect thereon a complete service depot, including stable, garage, machine shop, store-moms, &c. There will also be room for stable work as may from time to time be thought destrable. The store thereon a somplete service depot, including stable, garage. Store -During the year the stock authorized for the purchase of the election property of the Larkington Company has been issued, 424 shares having been sold at auction for still 952 75. The 177 shares left over future on the treasure. Mathematical and the store are sold, so that there is not at present any store in the treasure. The store is been sold as been sold as the store work as the store and work share building as may for other and store some building as may for the larking the property is a test of the generate of the store for some sold at auction for still 952 75. The 177 shares left over form the propense have been sold as a been sold, so that there is not at present any store is not at present any store is not seem to be any limited the additional issue of stock will be taken for some months. (Report for Fiscal Year ending Aug. 31 1911.)

Pres. and Gen. Mgr. Robert W. Nelson, Oct. 16, wrote:

Pres. and Gen. Mgr. Robert W. Nelson, Oct. 16, wrote: Results — During the first few months of the year our sales increased cach month, but later they showed a slight failing off from the previous year, due to the depression in general trade and business and to the drought in certain sections of the West and Southwest which materially affected the sales of our houses in those territories. This durines in general business is now less manifest and our sales for Angust and September have nearly equaled those of the same months in-1910. While it is not thought that sales will show any considerable in-crease for some months, it is believed that there will be a material improve-ment during the coming year. The net profits for the year show a slight increase, being \$331,503, as compared with \$323,082 during the previous year. This increase in net profits, notwithstanding the decrease in the volume of business, is princi-pably due to a reduction in manufacturing costs as a result of the consolida-tion of our foundries and their concentration at Jersey City. *Addition*.—The addition to the central plant has been hished and the company now has ample space for many years to come. *Torisin Business*.—Among the most promising of recent developments is the substantial increase in our foreign business. For several years the company has endeavored to participate in the growing trade with Mexico. These efforts have met with generous response, riving evidence of the growing desire on the part of these countries to look to the United States for a larger proportion of their imports. *RESULTS FOR YEARS ENDING AUGUST* 31.

Colorado-Utah Construction Co.—Exchange of Notes— Deposits.—Holders of the \$4,000,000 2-year collateral trust 6% gold notes, guaranteed by David H. Moffat (see V. 88, 9, 1127; V. 92, p. 1245), are notified, by advertisement on an-other page, that they must deposit these notes with the Equitable Trust Co., N. Y., on or before Oct. 25, if they wish to avail themselves of the offer to exchange them for \$125 in eash (with interest at 6% per ann. from Aug. I 1911 to Oct. 30 1911) and \$875 in purchase money collateral trust 6% gold notes of the Denver Railway Securities Co., matur-ing May 1 1912. See full particulars in advertisement and V. 93, p. 1021.

Commutation Rates.—Rates Ordered to be Made Between New Jersey Points.—The New Jersey Public Utilities Com-mission on Oct. 4 issued an order requiring all roads running to Jersey City or Hoboken to issue commutation tickets from these points to other places on their lines within the State. Schedules are to be filed and the rates to be effective Dec. 1.

The railcoads have recently declined to issue commutation tickets be-tween Jersey City. Hoboken and Canden and other points in the State, so that commuters to those cities were compelled to buy tickets to New York or Philadeiphia. This made the traffic later-State and took away from the Public Utility Commission its jurisdiction to determine the reasonableness of the rates. The order issued by the board is preliminary to an inquiry to ascertain whether the new commutation rates when fixed are reasonable or otherwise.—V. 93, p. 346.

Coney Island & Brooklyn RE.—New Directors.—William A. Day and J. A. Thake have been elected directors to suc-ceed J. H. Hyde and William H. McIntyre, who resigned.— V. 92, p. 117.

Delaware & Eastern RR.—Successor.—See Delaware & Northern RR. below.—V. 93, p. 940, 588.

Delaware & Northern RE. — Reorganized Company. — This company was incorporated at Albany, N. Y., on Oct. 14 with \$1,250,000 stock, of which \$250,000 is 6% cum, pref., as successor of the Delaware & Eastern RR., recently fore-closed. See plan V. 93, p. 940, 588. Incorporators as shown by records of Corporation Trust Co. of N. Y. Andrew M. Moreland, Farmers' Bank Bldg., Plusburgh, Pa.; Jabiz T. Odell, 55 Liberty St., N. Y.; Abram I. Elkus, 170 Broadway, New York.

Ba Liberty St., N. Y.; Amran I. ERus, 170 Broadway, New York. Denver Northwestern & Pacific Ry.—New Securities.— The shareholders on Oct. 14 authorized (1) the proposed in-crease of the auth. stock from \$20,000,000 to \$40,000,000, divided into \$20,000,000 of 5% non-cum. pref. stock and of \$20,000,000 common stock. (2) The making of a new mort-gage to secure not to exceed \$40,000,000 5% 40-year bonds, and (3) an issue of \$5,000,000 6% 20-year income bonds. Compare plan, V. 93, p. 1021.

Part of the 1st M. Issue, it is stated, will be used to provide funds for construction of the road westward from its present terminus at Steamboat Springs, for a cut-off to the Denver & Rio Grande, and for building the 5-mile tunnel through the Continental Divide (V. 92, p. 1310). The re-mainder will be used to retire the present 4% bonds fouristanding only as collateral), 3500 each of the new 5s and the new income 6s being offered in exchange for each of 1,000 bond of the 4% issue. Compare plan V.93, p.1021

Denver & Rio Grande RR.—New Directors.—Owing to the increase in the board from 9 to 11, Edward D. Adams, rep-resenting the Deutsche Bank, has been elected as one of the additional members.

Detroit & Mackinac Ry.-Report.

Dry Dock East Broadway & Battery RR., New York.— Storage Battery Cars.—The company on Oct. 1 changed from the use of horse cars to Gould storage-battery cars on its Ave. B and Canal St. lines.

Ave. B and Canal St. lines.

Some 50 storage-battery cars, it is understood, have been purchased (weighing 5 tons each), of which about 35 are in service. --V. 92, p. 1108. Ferdinand Ry.-Foreclosure Sale.-The 7-mile road, extending from Ferdinand to Huntingburg, Ind., was sold for \$20,000 -by receiver Hugo Rothert on Oct. 7 at Huntingburg to the representative of the bondholders. The road will be reorganized as the Ferdinand RR.

The company had outstanding \$57,000 1st M, 5% 40-year bonds dated ig. 1908, on which the interest was in default; Security Trust Co., Ind., Aug.

Georgia Southern & Florida Ry .- Report .- For year:

Grand Trunk Pacific Ry.—Construction, &c.—At the adjourned annual meeting in Montreal on Oct. 10, President

journed annual meeting in Montreal on Oct. 10, President Charles M. Hays said in substance:
 Construction work on the main line is unler full headway, with hight and day forces, to Tete Jaune Cache, on the Fraser River beyond Yellow-head Pass, on the western slope of the Rocky Mountains, and it is expected that the track-laying will reach this point, which is 1,004 miles west of Windpag, before Dec. 31.
 In the Western Provinces the company has under construction approximately 1,400 miles of branches, considerable portions of which have already been completed, the latter including the line to Yorktown, Canora. Regina and Mose Jaw. Lines are also under construction to Prince Albert, Battleford, Calgary and Lethbridge, which will place all these growing cities in first communication with the main line and secure a large volume of traffic. Branch lines are also being built into the rich coal heids situated west of Edmontor.
 On all portions of the lines which have been sufficiently completed trains are at present in operation.
 The country traversed by the commany's lines is is proposed to construct has been due to construction of a hotel in Winnipeg at a cost of 31,300,000.
 God progress has been made in the construction work on the Eastern division, and the present model in our targe sections on which the reach main are to construction. All soly fulles of suberrack laid, and the remaining portions of the sector are all under contract.
 The company has been granted a subsidy by the Commany's lines of railway indertaices in the first instance, there has been laid at the present and 1303/ miles of main due track and bas been proved for construction will be made to the track miles of main due to construction of the construction of a hore between the due to main the present induction work shows a total of 1,223.45 miles of the is sector are all inder contract.
 The company has been granted a subsidy by the Canadian Govern

Illinois Central RR.—New Director.—Pres. Charles H. Markham has been elected a director in place of the former President, James T. Harahan.—V. 93, p. 877, 871.

President, James T. Harahan. -V. 93, p. 877, 871.
 International & Great Northern Ry. -Permanent Certificates Ready. -The temporary certificates for the \$11,000,000 of notes, which were put out by the banking syndicate at 99 14, are now exchangeable for permanent certificates dated Aug. 1, interest being allowed for the time elapsed between the date of issuing the temporary receipts and Aug. 1.
 Valuation.-The order dated Sept. 27, made by the Texas RR. Comm., approving an issue of \$13,750,000 1st ref. 5% bonds, places a valuation of \$30,365,047 upon the property, rights and franchises of the road. The valuation is "subject to such additions, if any, as shall result from the examination now being made by the commission of certain real estate." - V. 93, p. 940, 796.

Missouri Kansas & Texas Ry.—Acquisition.—The com-pany has acquired the entire stock (\$2,000,000) of the Wichita Falls & Northwestern Ry. See description and map in "Railway and Industrial Section," page 141.— V. 93, p. 951, 937.

Missouri & North Arkansas RR .- Notes .- The "St. Louis

N. 95, p. 951, 951.
Missouri & North Arkansas RR.—Notes.—The "St. Louis Republic" Oct. 17 said:
Preparatory to the permanent readjustment of the affairs of the Missouri & North Arkansas, John Scullin, the President of the company, has sold \$900,000 of John Scullin, St. Claiter at trust bonds to the Mercantille Trust Co. of St. Louis. The securities are dated Sept. 1 1911 and expire Oct. 1 1914. The bonds are secured by \$1,232,000 of Allegheny Improvement Co. 5% collateral trust bonds, which are secured by deposit with the St. Louis Union Trust Co. of all the Issued capital stock of the Missouri & North Arkansas. See V. 86, p. 857.
Montreal Street Ry.—Circulars—Alternate Option Expires Oct. 29.—Secretary Samuel T. Mains, of the Montreal Tram-ways Co., in a circular dated Oct. 14 says in substance:
We have entered into an agreement with Montreal St. Ry. Co. for the acquisition of its undertaking and properties, and among the considerations on our part we have agreed to pay, on the completion of the transfer to us for \$438, 75 in eash, \$800 in 5% deb. stock of the Tramways Co. and \$100 In its ordinary shares for each five shares of Street Hy. stock. At the meeting of the Street Ry, shareholders approving the agreement, a number of shareholders requested that the Tramways Co. shares of Street Ry. We are ready to accede to this request as to all shareholders who re-turn the accompanying statements within 15 days from this date. All others will receive eash, debentures and shares, as provided in the agreement. Compare V. 93, p. 1022, 871.
New Orleans Mobile & Chicago RR.—Increased Stock Holding.—See St. Louis & San Francisco RR, below.—V. 93, p. 870, 871.

p. 540, 871.
 New York & Long Island RR. — Proposed Ouster Proceedings by State. — The Public Service Comm. on Oct. 17 requested Attorney-General Carmody to begin proceedings in behalf of the State against the trustees of the company. President Wilcox of the Commission states that the negotiations looking to the operation of the road have been unsuccessful, the Interborough Company refusing to submit any definite proposition to come within the terms of the remedial statute of 1910 and the route occupied by the Stelenway tunnet being necessary for rapid transit purposes.—V. 91, p. 871.
 Ocean Shore RR. California. — Rearganized Company —

tunnel being necessary for rapid transit purposes. -v. 91, p. 871.
Ocean Shore RR., California. --Reorganized Company.-This company was incorporated in California on Oct. 16 1911,
with \$5,000,000 in \$100 shares, as successor, or proposed successor, of the Ocean Shore Ry., foreclosed.

Incorporators: P. I. Mullen, S. M. Mannon Jr., S. W. Reynolds, O. B. Wyman, F. E. Boland, S. I. Langmaid and A. C. Greene. Compare V. 92, p. 396.

Bonds.—See Phila. & Balt. Cent. RR. above.—V.92, p.1701.
Philadelphia & Baltimore Central RR.—Option to Exchange Maturing Bonds for Guaranteed 4s of New \$10,000,000 Issue.
—Holders of the \$2,200,000 1st M. bonds due Nov. I 1911
(\$1,000,000 5% and \$1,200,000 4½%) are offered for 60 days from Nov. 1 1911 the privilege of exchanging their bonds for bonds of a proposed issue of this company is 40-year 4% mortgage gold bonds (e*), guaranteed, both principal and interest, by the Phila. Balt. & Wash. RR. Co., by endorse-ment on each, the new bonds to be taken at 98% of par, the difference of \$20 to be paid in cash at time of exchange; or the principal of the maturing bonds will be paid on and after Nov. I 1911 upon presentation at the office of Treasurer James F. Fahnestock, Broad St. Station, Phila. The Public Service Commission of Maryland will be paid to permit the

The Public Service Commission of Maryland will be asked to permit the issue of bonds to the same amount as these maturing, of an anthorized issue of \$10,000,000, the balance to be issued only with the consent of the Com-mission. Checks in payment of the six months' interest due Nov. 1 on the bonds will be malled as usual.

Quebec Central Ry.—Lease Approved.—The stockholders have approved the lease of the road to the Canadian Pacific for a period of 999 years. Compare V. 93, p. 667, 590.

Rutland RR .- New Director .- Edmund R. Morse, of Rut-

VOL. LXXXXIII.

Rutland RR.—New Director.—Edmund R. Morse, of Rutland, has been elected a director to succeed Gov. Fletcher D. Proctor, deceased.—V. 92, p. 1437.
 St. Louis & San Francisco RR.—Interest Increased.—Chairman B. F. Yoakum is quoted as saying that the company has increased its holdings of stock in the New Orleans Mobile & Chicago RR. (see V. 93, p. 870, 871), but that the entire stock (consisting of \$\$,075,300 common and \$2,000,000 pref.) is not owned, and that the road will continue to be operated as an independent line, in no way under the control of the St. L. & S. Fr. RR. Co. Mr. Yoakum says in substance:
 Several years ago the 'Frisco purchased a small interest in the Mobile foad, since while time the property has gone through a croganization and more than \$1,250,000 has been expended upon the property, its terminal facilities and equipment. This road serves Mobile, one of the most agreessive ports on the Gulf of Mexico, the traffic of which, both to and from the sing, is increasing rapidly. The opening of the Ponema Canal and the large increase in traffic of South and Central America make this new outlet important. The line's business is increasing monthy, although the general business will be targely benefited. The tumber business, upon return of normal conditions, should add considerably to present traffic. See p. 91 of 'Railway and Industrial' Section.—V. 93, p. 1022, 797.
 Southern New England RR.—Stock.—The Mass. RR. Commission has sanctioned the sale of an original issue of \$1,000,000 cap. stock on account of construction and equipment. The vector of the sale of an original issue of \$1,000,000 cap. stock on account of construction and equipment. W 29, p. 121.

\$1,000,000 cap. stock on account of construction and equip-ment.—V. 92, p. 1311.

ment.—V. 92, p. 1011. Spokane Portland & Seattle Ry.—Stock Placed in Trust Until Satisfaction of Mortgage—Bonds Given to Two Pro-prietary Companies and Guaranteed by Them.—See Great Northern Ry. report on a previous page.—V. 93, p. 1022.

Union Pacific RR.—New Offices.—On Jan. 1 1912 the entire New York staff of the Union and Southern Pacific com-panies and the Chicago staff under Vice-Prest. Kruttschnitt and Traffic Director Spence will move to the City In-vesting Building, at 165 Broadway, N. Y. City.

vesting Building, at 165 Broadway, N. Y. City.
 An exchange journal says that the management has taken under a long lease about 40,000 sq. ft. in said building, being the equivalent of about two floors, including the 25th, which will be taken entire, and will pay between \$40,000 and \$50,000 a year for each floor.—V. 93, p. 1022, 941.
 Virginia & Southwestern Ry.—Equipment Trusts Offered.
 —Potter, Choate & Prentice are offering, on a 4.70% basis, the unsold portion of \$500,000 4½% equipment trust certificates, to be dated Nov. 1 1911, maturing in 20 semi-annual installments of \$25,000 each from May 1 1912 to Nov. 1 1921.

The certificates will be issued under an indenture to the Bankers Trust Co. of New York, as trustee, and be secured by a first lien on 6 Mikado type freight locomotives, together with the appurtenant tenders; 525 steel coal cars and 50 steel under-frame box cars. The estimated cost of the equip-ment is 5640,500, cf which 5140,500 is to be paid in eash by the company, representing an equity of about 22%.—V. 91, p. 1247, 1096.

graph Co. (V. 92, p. 954). V. 93, p. 798, 347. American Tobacco Co. Plan. An abstract of the plan which the company filed with the U. S. Circuit Court in N. Y. City on Monday will be found under the heading "Reports and Documents." The Court has set Oct. 30 as the day for the first public hearing on the question whether the plan complies with the recent decision of the Supreme Court of the U. S. (V. 92, p. 1501) and will actually have the effect "of dissolving the combination and of re-creating out of the elements now composing it a new condition which shall be honestly in harmony with and not repugnant to the law." Representatives of the iseding independent tobacco interests claim that the plan will not improve the situation and should be disapproved. The attorneys-General of North Carolina, South Carolina and Virginia were to meet on Thuraday to discuss the plan. The compromise terms granted in the plan to the 4% bonds with the Guaranty Trust Co., depositing the plan to .V. 98, p. 873, 732. . American Type Founders Co. —Report.—

Morris Canal & Banking Co.—Offer to Purchase Stock.— The Lehigh Valley RR. has issued a circular offering to pur-chase at \$70 a share the consolidated stock of the company not already owned and the pref. at \$170 per share. The circular says:

circular says: As an alternative to acceptance of the offer the stockholders face either the condemnation and abandonment of the eanal, in which case the shares will be appraised and the company's debis must be paid out of the appraise-ment, or in any case the State has a reversionary interest in the canal, which will certainly be exercised by 1914, or possibly by 1924. If at the former date, stockholders will get nothing, and if at the latter date, only an ap-praised value, to be fixed by the Public Commissioners. In view of the obsolete character of navigation on small canais, it is stated that no large appraisement, either under condemnation or revision, could be expected. The prices which the Lebigh Valley is willing to pay are, it is said, higher than any the company has paid for it since abandonment of the canal has been suggested. When the bill for the abandonment was presented to the New Jerney Legislature last spring, the number of trust companies, estates and individuals holding considerable amounts of the stock offered their holdings to the Lebigh Valley rather than await theoutcome of the condem-nation and abandonment. The total holdings of the Lebigh Valley are more than two-thirds of the entire stock of the canal company.--V. 92, p. 113

Railway Steel Spring Co., New York and Chicago.-Bonds Offered.-Harvey Fisk & Sons, New York, the Continental Trust & Savings Bank, Chicago, and Jackson & Curtis, N. Y. and Boston, are offering at 97 and/int. (to yield 5¹/₄%) income) by advertisement on another page the unsold portion of the issue of \$3,500,000 tst M. 5% gold bonds (Inter-Ocean plant), dated Oct. 1 1911 and due Oct. 1 1931, but redeemable at option of company on any int. date at 105 and int. These bonds are a direct obligation of the Railway Steel-Spring Co. and specifically secured by a first mortgage lien on the real estate and plant acquired from the Inter-Ocean Steel Co. See full particulars in letter of President Fitzpatrick says in part: The purpose of the present bond issue is to finance our purchase of the

in "Chronicle" of Oct. 7, p. 942. Mr. Filzpatrick says in part: The purpose of the present bond issue is to finance our purchase of the plant owned by the Inter-Ocean Steel Co. at Chicago Heights, 11., a tho-roughly modern plant completed this past year and especially adapted to the manufacture of steel tires and equipped with modern machinery suita-ble for such purpose. The annual capacity, now about 35,000 tons, may, with a proportionately small expense be increased to over 50,000 tons, These bonds are further secured by an annual sinking fund of 3125,000, he-ginning 1914, to be used in the gradual retirement of the bonds. These bonds are further secured by an annual sinking fund of 3125,000, he-ginning 1914, to be used in the gradual retirement of the bonds. These bonds are further secured by an annual sinking fund of 3125,000, he-ginning 1914, to be used in the gradual retirement of the bonds. These bonds are further secured by an annual sinking fund of 3125,000, he-ginning 1914, to be used in the gradual retirement of the bonds. The act one of the sects, as shown by its halance sheet of Dec. 31 1910, were over 335,000,000. The bonds are followed by \$13,500,000 pref, stock about \$17,500,000 common stock, the present market value of which is about \$17,500,000. Common stock, the present market value of which is about \$17,500,000 to fact that the acquisition of the inter-Ocean plant will add from \$500,000 to \$5000,000 to the net earnings of the Rallway Steel-Spring Co. for the cal., year 1910 pplicable to fixed charges amounted to \$1,950,900, or more than five times the interest charges, including this issue. It is estimated that the equilibrium of the inter-Ocean plant will add from \$500,000 to \$5000,000 to the met earning capacity, providing total net earnings of about seven times the amount of its total interest charges. -Vice-Pres. and Treas. Henry T. Cole on Oct. 14 wrote: Replying to your inquiry of Sept. 25, regarding October dividend declara-tion, desire to say that pref. stock of this corporation is not a quarterly stock, holders being entitled to cumulative dividends at the rate of 7% per annum, payable when declared by the board of directors. [Dividends were begun on the pref. shares last January, 1 % % being paid Jan. 15, Apr. 15 and July 15.—Ed.] Compare V. 92, p. 1114.

^{bog}un on the pref. shares last January, 1945, being paid Jan. 15, Apr. 15 and July 15.—Ed.] Compare V. 92, p. 1114.
 United States Steel Corporation.—Probable Termination of Great Northern Ore Lease.—It is generally understood that the company contemplates giving the necessary two years' notice in order to terminate on Jan. 1 1915 the lease of the Great Northern Iron Ore properties in Minnesota, largely because it has been unprofitable from the start.
 The recent report of Commissioner of Corporations Herbert Knox Smith IV. 95, p. 110 says: "Its position in ore reserves is much stronger than in any other factor in the based, it has about 75%, and this advantage is materially enhanced by its extensive control of the Take cres, on which the present steel Industry is based, it has about 75%, and this advantage is materially enhanced by its extensive control of the policy of the corporation of the ore from the mines to the Lakes. The so-called Hill lease, made by the corporation on 1967, with an unprecedentedly high rate of royalty and other onerous conditions, is a striking instance of the policy of the corporation tomaintains." The report that the lease would be terminated has caused a fail of suveral points in the pice of the Great Northern Iron Ore certificates. The "Iron Are" of N. Y. for Oct. 10 1011 contained a 3-page article regarding the lease. (See also "Chronicle," V. 83, p. 126; V. 84, p. 638, 755; V. 86, p. 885; V. 92, p. 725; V. 93, p. 735, J. 745, J. 126; V. 84, p. 638, 755; V. 86, p. 885; V. 92, p. 725; V. 93, p. 735, J. 206
 United Wireless Telegraph Co.—Protective Committee.—A

United Wireless Telegraph Co.—Protective Committee.—A protective committee has been formed for the stock, with offices at 1 Wall St., consisting of— G. W. Gray, Chairman; John W. Jones, Sec.: Orlando P. Dorman, Leroy H. Byam, Dudley McAdow, James Baker and Isaac P. Williams. Stock-holders are requested to deposit their holdings with a view to effecting a reorganization plan by which the company may be taken out of the Federal receiver's hands.—V. 93, p. 1026, 475.

Vulcan Detinning Co.—New Director.—John H. Prall, of Webb & Prall, has been elected a director to succeed Isaac Stiebel, deceased.—V. 93, p. 876, 475.

Stebel, deceased. - V. 93, p. 870, 445.
Western (Bell) Telephone & Telegraph Co. Merger. - See Am. Tel. & Tel. Co. above. - V. 92, p. 954.
Western Steel Corporation, Seattle. - Receivers. - At Seattle on Oct. 12 Judge C. H. Hanford in the U. S. Circuit Court appointed Lester Turner, former President of the 1st Nat. Bank, and Sutcliffa Baxter, both of Seattle, as temporary receivers. The Seattle "Post-Intelligencer" of Oct. 13 says: The principal petitioner against the corporation is the Metropolitan Trust Co. of N. Y., holding \$578,000 of the company's notes. The trust com-pany, it is asserted, was willing to make further advances if Pres. Moore would retire from control.--V. 93, p. 1026.

(J. G.) White & Co., Inc., New York.—New Officer.— Gano Dunn has been elected a director and a Vice-President. Mr. Dunn was for many years ist V.-Pres, and Chief Engineer of the Crocker-Wheeler Co. and he is a past President of the N. Y. Electrical So-clety. He has just returned from abroad, where, as a representative of the U. S. Govt. and as President of the Am. Institute of Electrical Engineers, he attended the International Electrical Congress as Turin and the meeting of the International Electro-Technical Commission, the body that has been organized to bring about international uniformity of sta ards and practice in the electrical Industry.-V. 32, p. 1560.

Reports and Documents.

GREAT NORTHERN RAILWAY COMPANY

TWENTY-SECOND ANNUAL REPORT-FOR THE FISCAL YEAR ENDED JUNE 30 1911.

E

bs G E

T

G Ē

Law S SI

To the Stockholders— The Directors submit the following report for the year ended June 30 1911:

CAPITAL STOCK.

There has been no change during the year in the amount of authorized share capital of the Company; same remains at \$210,000,000.

Stock issued to and including June 30 1910 ______\$209,981,500 00 There have been issued during the year, in completion of previous transactions, 3 ¼ shares, or______375 00

Which was represented by:

\$209,081,875.00 Total

There remained unissued June 30 1911 1811/4 shares of Great Northern Stock for acquiring 145 shares of stock of the St. Paul Minneapolis & Manitoba Ry. Co. still outstanding.

BONDED DEBT.

FIRST AND REFUNDING MORTGAGE GOLD BONDS.

<text><text><text><text><text><text><text><text>

sold and \$10,000,000 remain in the Company's treasury. MATURED AND MATURING BONDS. During the year matured bonds were paid as follows: \$11,000 St. P. M. & M. Ry. Co. Second Mortgage Six per Cent Bonds, matured October 1 1009: \$3,000 Eastern Ry. Co. of Minnesota First Division First Mortgage Five Per Cent Bonds, matured April 1 1908; \$2,885,000 St. P. M. & M. Ry. Co., Dakota Extension Mortgage Six Per Cent Bonds, matured November 1 1910. The mortgages securing the same have all been released of record. \$14,000 of Dakota Extension Bonds were not pre-sented, at maturity, for payment and were paid by depositing the full face value thereof, with their Trustee. These bonds, therefore, do not appear in the table on pages 45 of pamphlet report, but are included, with matured but unpresented debentures of the Spokane Falls & Northern Ry. Co., as a special item under "Current Liabilities" on the balance sheet, on a later page, the money in the hands of the Trustee to pay the bonds on presentation being also shown on the balance sheet as a special item under "Current Assets."

The Minneapolis Western Ry. Co.'s First Mortgage Five Per Cent Bonds, guaranteed as to principal and interest by the Great Northern, in the sum of \$500,000, mature July 1 1911 and will be paid at maturity.

OTHER CHANGES IN BONDED DEBT.

OTHER CHANGES IN BONDED DEET. The balance sheet heretofore published in the annual reports has omitted, on both sides \$11,502,000 St. P. M. & M. Ry. Co., Montana Extension Mortgage Four Per Cent Bonds, which are pledged under that company's Pacific Extension Mortgage, with the Trustee. In this report these bonds have been taken up on the balance sheet on a subsequent page and appear, on the debit side, in the special item "Bonds", the payment of which is assumed by Great Northern Ry. Co., held by Mortgage Trustees" and, on the credit side, in the item "Held by Mortgage Trustees" under "Funded Debt." In 1899 the Company purchased a majority of the secur-ities of the four companies forming the Spokane Falls & Northern Railway System, among them being the entire capital stock and mortgage bonds of the Nelson & Fort Sheppard Ry. Co. and the Red Mountain Ry. Co. —Canadian corporations. No bonds have ever been issued against any of the lines which the Company has caused to be built in Canada and, during the year, the Company canceled and surrendered \$1,293,000, face value, of Nelson & Fort Shep-pard Ry. Co. First Mortgage Bonds and \$217,000, face value, Red Mountain Ry. Co. First Mortgage Bonds, in each case the entire issue outstanding, receiving, in lieu thereof, the full-paid capital stock of each company, at par, to the same amount. The total amount of bonds on railway property, outstand-

same amount. The total amount of bonds on railway property, outstand-ing in the hands of the public June 30 1911 is, as per table on a later page. \$144,331,909 09 There were outstanding in the hands of the public June 30 1910, as per that table. 109,385,809 09

An increase during the year of \$34,946,000.00

Made up as follows:

2,628,000 00 \$7.375.000 00

PURCHASE OF TERMINAL PROPERTIES, SIOUX CITY, IOWA.

CITY, IOWA. The purchase price paid by the Company for the convey-ance to it of the properties of the Iowa & Great Northern Railway Company and The Union Terminal Railway Com-pany, in Sioux City, Iowa, June 30 1910, was the cancellation and surrender, at par, of all outstanding shares of their capital stock and the satisfaction, in full, of their indebtedness, these two items aggregating \$1,652,722 42, which amount, therefore, has been added to "Cost of Road." With the exception of trackage rights and joint terminals used under contracts, the Great Northern Railway System with the United States is owned in fee by the Great Northern Ry. Co. and its two proprietary companies: the Minneapolis Western Ry. Co., a switching railway in Minneapolis, Minn., and the Duluth Terminal Ry. Co., owning the elevated rail-way used for an entrance into Duluth, Minn.

GENERAL.

Expenditures were made during the year in completing or carrying on the construction of new lines and for preliminary expenses, including cost of right of way purchased for projected lines, as follows:

| Fargo to Surrey, N. D. | \$1.258.878 07 |
|--|----------------|
| Oroville to Pateros, Wash | 350,270 39 |
| Stanley to Wildrose, N. D. | 209,375 13 |
| Bainville to Plentywood, Mont | 199,154 69 |
| Vaughn to Simms, Mont | 71,028 51 |
| Completion of Sundry Lines | 193,860 88 |
| Preliminary expenses, including cost of right of way acquired for Sundry Lines, the construction of which has not yet | |
| been commenced | 124,799 33 |
| Total | \$2,407,367 00 |

grant

The Company's investment in controlled Canadian Com-panies, on account of advances made to pay for property, construction, additions and betterments, has been increased during the year, as follows:

| Brandon Saskatchewan & Hudson's Bay Ry, Co | \$13,192 | 99 |
|--|-------------|----|
| Crow's Nest Southern Ry. Co | 1,686 | |
| Nelson & Fort Sheppard Ry. Co | 7,236 | 70 |
| Red Mountain Ry, Co | 684 | |
| Vancouver Victoria & Eastern Ry. & Nav. Co | 1,794,093 | |
| New Westminster Southern Ry. Co | Credit 558 | 91 |
| Total | \$1,816,334 | 61 |

To apply on the above advances and those previously made, the Company has received during the year and credited at its par value 88 shares (\$8,800) of the full-paid capital stock of the Nelson & Fort Sheppard Ry. Co. and 68,000 shares (\$6,800,000) of the Vancouver Victoria & Eastern Ry. & Nav. Co. Shares of their capital stock will be duly issued by the above companies to cover the balances remaining due from them. from them.

Advances amounting to \$1,018 72 were made to the Duluth

from them. Advances amounting to \$1,018 72 were made to the Duluth Terminal Ry. Co. during the year, for which the Company will receive additional shares of capital stock. During previous years and the current year, the Company made large advances to the Spokane Portland & Seattle Railway Company for construction and equipment of its line from Portland, Ore., to Spokane, Wash., and for the acquisi-tion of securities of certain existing companies, the properties of which are intended to become part of the Spokane Portland & Seattle Railway System. In settlement of these advances and like advances made by the Northern Pacific Railway Company, the Spokane Portland & Seattle Railway Company, delivered to and in the names of the Great Northern Railway Company and the Northern Pacific Railway Company, jointly, but for equal division between them, a certificate eaching for \$40,000,000 of its capital stock, also \$61,000,000, of its First Mortgage Four Per Cent Fifty-Year Gold Bonds, dated March 1 1917. The payment of these bonds, principal and interest, has been guaranteed by the two companies treasury assets by this Company. The Northern Pacific Railway Company and this Company have deposited all their shares of the Spokane Portland & Seattle Railway Company, less directors' shares, with the Central Trust Company of New York, to be held in trust until the satis-tation of the above-mentioned mortgage of the Spokane Portland & Seattle Railway Company. The Morthern Pacific Railway for paysing the source of the spokane Portland & Seattle Railway Company. The Morthern Pacific Railway for paysing the source of the spokane Portland & Seattle Railway Company. The Morthern Pacific Railway Company and this Company have deposited all their shares of the Spokane Portland & Seattle Railway to paysing the source of the spokane Portland & Seattle Railway to paysing the source of the spokane Portland & Seattle Railway to paysing the source of the spokane Portland & Seattle Railway to paysing the

Debenture Stock of the Kootenay Ry. & Nav. Co., Ltd., nearly one-half of which Debenture Stock and a large amount of its Common Shares were owned by the Great Northern. Shortly thereafter the Great Northern purchased the balance of the Kootenay Company's Common Shares. During the year the Kootenay Company has redeemed its outstanding Debentures, has canceled the entire amount thereof, including those owned by the Great Northern Company, and has gone into liquidation. In due season the securities that were pledged to secure this Debenture Stock will be returned to the Great Northern and at least a portion of the same will be disposed of. The cancellation of the Kootenay Company's Debenture Stock at once terminated the Great Northern Company's guaranty. The Board respectfully calls the attention of the share-holders to the reports of the President, the Comptroller, with customary balance sheet and statistical tables, and of the Land Commissioner, which follow.

JAMES J. HILL, Chairman.

REPORT OF PRESIDENT.

Mr. James J. Hill, Chairman Board of Directors.

Dear Sir-Herewith please find report for fiscal year ended June 30 1911:

REVENUES, OPERATING EXPENSES, VOLUME OF TRAFFIC, &C.

Gross operating revenues for the year were \$61,257,632 93, a decrease of \$3,207,736 94, as compared with last year, and the Operating Income \$20,562,461 37, which is \$1,294,519 16 less than that of last year. The various amounts making these decrease and the percentage of increase or decrease as compared with last year are as follows:

| | Increase or Last | | | |
|--|---|----------------|--|--|
| Revenue from Transportation- Freight Decrease | Amount. \$3,296,559 | | Per Cent. | |
| Passenger Decrease Mail Increase Express Excess Baggage, Parlor and Chair Car, and | \$889,742 496,577 488,683 | 48 | 33.3171 | |
| Other Passenger Train Revenue Increase | 2,089 | 65 | .8878 | |
| Total Passenger Service Train Revenue, Increase Switching, Special Service Train and Mis- | \$97,608 | 02 | .5733 | |
| cellaneous Transportation Revenue Decrease | 28,549 | 57 | 5.6979 | |
| Total Revenue from Transportation Decrease Revenue from Operations Other Than | \$3,227,501 | 01 | 5.0271 | |
| Transportation | 19,764 | 07 | 7.5176 | |
| Gross Operating RevenuesDecrease | \$3,207,736 | 94 | 4.9759 | |
| Maintenance of Equipment Increase Traffic Expenses Increase Transportation Expenses Decrease General Expenses Increase | \$2,118,537 160,635 84,325 15,847 211,720 | 84 19 88 | 17.9944 2.1359 9.1449 .0877 21.3132 | |
| Total Operating Expenses Decrease | \$1,677,704 | 21 | 4.2713 | |
| Net Operating Revenues Decrease Outside Operations Decrease | \$1,530,032 34,649 | | $\begin{array}{r} 6.0746 \\ 14.4368 \end{array}$ | |
| Total Net Revenue | \$1,564,682 270,163 | 39 23 | 6.1536 7,5670 | |
| Operating IncomeDecrease | \$1,294,519 | 16 | 5.9227 | |
| | | | | |

Decrease \$1,394,619 165.9227The decrease in freight revenue is accounted for by the
light grain crop of 1910 along the Company's lines, the result-
ing falling off in merchandise traffic and the general business
depression. The revenue from transportation of wheat, rye,
oats, barley and flax seed is \$3,411,484 65 less than last year.
There was also a large decrease in lumber traffic. The tonnage
of revenue freight carried decreased 154,317 tons, about
7-10 of 1%; the average haul 12.28 miles, over 5%; the ton
mileage 321,039,930 tons, or 5.6533%. The average revenue
per ton per mile was 8.096 mills, a decrease of practically
1.5% and resulted from the falling off in shipments of
higher grade tonnage and the resulting increase in the per-
centage proportion of low rate commodities, iron ore, &c.
The decrease in freight traffic. There was a notice-
able falling off in the traffic handled by local trains in North
Dakota, as well as a decrease in the volume of through traffic,
which was very heavy in the fall of 1909 on account of the
Alaska-Yukon-Pacific Exposition at Seattle. The number
of passengers carried increased 18,632; the average distance
traveled by each passenger decreased 7.20 miles, 9.25%;
the number of passengers carried one mile decreased 58,-
751,307, or 9.05%, while the average revenue per passenger
senters, as compared with 2.204 cents last
year, an increase of 3.13%.The increase in the revenue from transportation of mails
came from a readjustment of compensation for that service in
the territory west of the State of Minnesota to the basis

The increase in the revenue from transportation of mails came from a readjustment of compensation for that service in the territory west of the State of Minnesota to the basis arrived at by the mail weighing early in 1910. The mails are regularly weighed but once in four years, and while the increase in volume of mail matter transported is usually gradual and spread over the entire period, the Company receives no compensation for the additional weight carried until after the regular weighing until after the regular weighing.

The increase in express revenue was wholly due to a new contract by which the Company received a greater per-centage of the Express Company's earnings.

Oct. 21 1911.] THE CHIE On April 8 1911, Hon. Walter H. Satioorn, Judge of the form an opinion in the Minnesota Rate Case, fully confirming the findings of the Master in Chancery. The Court held that the fares and rates prescribed by the Legislature and by the orders of the Raihoad and Warehouse Commission of Minne-sota, by their natural and necessary effect, substantially burdened and directly regulated inter-State commerce and were unreasonably low, unjust, confiscatory and void. A decree was entered enjoining the defendant railway com-panies from further compliance with these legislative Acts and Commission orders. An appeal has been taken by the state of Minnesota to the Supreme Court of the United States, where the cause is now pending. In accordance with drawn July 11011 and former rates restored. Derating Expenses decreased \$1,677,704 21, all being due to a reduction in the amounts charged to Maintenance of Way and Structures. The smaller expenditures on this account of not indicate neglect of the property or unwise economy, but the benefit of permanent work done in former years. A stated, decrease in volume of freight handled was largely pain and lumber, or carload freight, notwithstanding which he umber of tons of revenue freight per train mile was 36.49, an increase of 5.155 tons, nearly 1%, the average number of freight ears per train mile was 36.49, an increase of ut .274 tons, or 1.3518%. Tares decreased \$270,163 23, or 7.567%, but were 13.83% The Total Net Revenue—\$23,862,600 28. Tain crops in those portions of Minnesota and the Dakotas served by the Company's lines probably will be little less than fair average. The crop in Montana is large and that in WEW LINES.

NEW LINES.

The line from Bainville to Plentywood, Mont., 53.19 miles, was opened for regular operation on March 13 1911. The construction of the new lines from Fargo to Surrey, N. D., 225 miles, Stanley to Wildrose, N. D., 51 miles and from Vaughn to Augusta, Mont., 42 miles, commenced last year, was suspended in the fall of 1910 but resumed in June of this year. Tracklaying has been started on the line from Stanley to Wildrose, N. D., and will be completed in time to move this year's crop. move this year's crop. The grade of the line between Oroville and Pateros, Wash.,

The grade of the line between Groville and Pateros, wasn., 78 miles, has been completed. Work was continued during the year on the lines of the Vancouver Victoria & Eastern Ry, & Nav. Co. On the line between Princeton and Tulameen, B. C., the grade has been completed for 14 miles and track will be laid this fall from Princeton to Coalmont, 12 miles. About 14 miles of grading is in progress between Abbotsford and Chilliwack, B. C. On May 14 1911 the Great Northern began to operate the line from Monroe, Wash., to Tolt, a distance of 17.84 miles.

EQUIPMENT.

There remained undelivered June 30 1910 of the equip-ment contracted for last year: 58 locomotives, 108 passenger train cars and 1,400 freight cars. During the year covered by this report, contracts were placed for 20 locomotives, 35 passenger train cars, 1,901 freight cars and 75 steel oil-tank cars for company use. Of the total equipment above mentioned, the following had been received and taken to account June 30 1911: 58 Steem Locomotives, as following

58 Steam Locomotives, as follows:
18 Mallet compound articulated treight locomotives, 23-inch and 35x32-inch cylinders, weighing 550,000 lbs, on drivers;
20 Ten-wheel passenger locomotives, 25x28-inch cylinders, weighing 134,000 lbs, on drivers;
20 Ten-wheel passenger locomotives, 26x30-inch cylinders, weighing 150,000 lbs, on drivers;
20 Reserve Toris Composed 5, 11

120 Passenger Train Cars, as follows:

5 Observation parlor cars, 72 feet 4 14 inches long;
5 Observation parlor cars, 72 feet 5 is inches long;
7 Vestibuled parlor cars, 72 feet 5 inches long;
21 Observation compartment cars, 71 feet 7 inches long;
21 Observation compartment cars, 71 feet 7 inches long;
21 Observation compartment cars, 71 feet 7 inches long;
21 Observation compartment cars, 71 feet 7 inches long;
20 Fourteen-section fourist sleeping cars, 60 feet long;
20 First-class conducts, 62 feet long;
20 First-class conducts, 62 feet long;
20 First-class conducts, 62 feet long;
21 Baggage cars, 63 feet long;
22 Of Disclot Summing One cars followed:

2,301 Freight Service Cars, as follows:

and Discourse of the cars, discourse, as contained.
and ore cars (automobile) to feet long, 80,000 lbs. capacity:
and ore cars, drop-bottom, 36 feet long, 100,000 lbs. capacity:
and steal ore cars, drop-bottom, 20 feet 8 inches long, 100,000 lbs. capacity:
and Drop-hottom gondola cars, 41 feet long, 100,000 lbs. capacity:

75 Steel oil-tank cars, 38 feet long, 12,000 gals, capacity.

There remained to be delivered on contracts June 30 1911 20 locomotives, 23 passenger train cars and 1,000 freight cars. There were built at the Company's shops during the year:

7 Boarding cars, 3 Tool cars,

Business car. Supply cars. Snow dozer.

All of the equipment above described is fitted with air

The work of fitting up passenger train cars with electric lights has been continued during the year. In order to comply with laws adopted last winter by certain States, many loco-motives have been equipped with electric-head lights and work is now in progress converting 200 four-wheel caboose

cars into eight-wheel cars. In order that oil may be used instead of coal as locomotive fuel on the Facific Coast, 115 locomotives are being converted into oil-burners. The total amount expended during the year for equipment received under contracts, built and under construction at the Company's shops and for improvements and betterments to equipment in service, was \$4,\$04,308 05, of which \$4,-792,513 07 is for the Great Northern Ry. Co. and is charged to "Equipment Account" and \$11,794 98 is for the Van-couver Victoria & Eastern Ry. & Nav. Co. and is included in the amount of advances made to that company. There were taken out of service during the year: g the year:

| <u>198</u> | AN ADDRESS AND ADDRESS AND ADDRESS ADDR | |

163 Fist, coal and gondols cars, 15 Sand cars, 13 Ore cars, wood, 1 Ore cars, wood, 1 Ore cars, etcel, 14 Ballast cars, 21 Caboose cars, 1 Cluder car, 1 Boarding car, 6 Supply cars, 1 Fianger car. The original cost of the above listed equipment was stock cars. I Hanger car. The original cost of the above listed equipment was stoc2,271 88; of which \$561,624 38 has been credited to "Equipment Account" of the Great Northern Ry. Co., \$247 50 has been credited against advances made to the Vancouver Victoria & Eastern Ry. & Nav. Co. and \$400 has been credited to the investment in the Red Mountain Ry. Co. The entire amount of \$562,271 88, less amounts received for equipment sold and value of salvage from equipment torn down or destroyed, has been charged against the various equipment "Renewals" accounts under Operating Expenses, or to the "Equipment Depreciation Fund". The amount remaining to the credit of the Equipment Depreciation Fund June 30 1911, or \$19,585,756 10, as shown by the balance on all equipment then actually in service and of which a list appears below.

appears below. In addition to the equipment above listed as added to or taken out of service, the following conversions were made:

Small Locomotive transferred to Work Equipment for hydraulic service.
 Coaches into Pass n rer and baggage cars.
 Box cars into Supply cars, and
 Box cars into Boarding cars.

These conversions required adjustments in the accounts which resulted in a net credit of \$14,679 02 to the Great Northern's "Equipment Account." 959 cars which heretofore have been classed as Furniture Cars are this year included in Box Cars.

A statement showing the number, tractive power, weight, &c., of steam locomotives and number, capacity, &c., of freight cars appears on page 52 of the pamphlet report.

ADDITIONS AND BETTERMENTS.

<section-header><section-header><section-header><section-header><text><text>

Improvements in the facilities for locomotive water supply include tanks of large capacity on 30-ft, steel towers with the necessary pipe lines and stand pipes at 4 stations; tanks with pipe lines, &c., at 2 other stations; temporary pumping plants at 3 stations on account of dry season, and miscel-aneous improvements such as new wells and deepening old wells, new pipe lines and extensions of existing lines, new tanks replacing old ones, &c., at 20 stations. The following miscellaneous structures were built during the year: Ice houses 32 by 192 feet at both Hillyard and Wenatchee, Wash., and 32 by 64 feet at Sioux City, Ia.; an extension 24 by 46 feet to the ice house at Fargo, N. D., detention houses 24 by 24 feet, in connection with customs and immigration service, at Bannerman, Man., and Waneta and Grand Forks, B. C.; brick two-story addition 30 by 90 feet, to the storehouse at Bossburg, Wash., and exhibit build-ings at Clasgow, Mont. Additional yard and industrial tracks have been provided as business demanded annd include tracks at 17 mines on the Mesabi iron range and at 87 regular stations. The net in-crease during the year in side track mileage, not including new lines or lines under construction, being:

| Lines owned by the Great Northern Ry. Co | |
|--|-------------|
| Total additional side track mileage on old lines . | 58.36 miles |

The second main track between Hillyard and Spokane, The second main track between Hillyard and Spokane, Wash., 3.52 miles, and between Summit and Java, Mont., 14.38 miles, described in last year's report, have been com-pleted and put in operation. In building the second track between Summit and Java the alignment of the original track was improved, two concrete-lined tunnels built and the following structures erected that have not above been mentioned: At both Summit and Fielding, depot, two water tracks with nine lines and two stand nines and a denot at tanks with pipe lines and two stand pipes and a depot at

tanks with pipe lines and two stand pipes and a depot at Java. Previous reports have referred to the progress in double-tracking the line between Interbay and Everett, Wash. This work has been completed during the year by the opening of the sections between Mosher and Mukilteo, 4.12 miles, and between Mukilteo and Everett Junction, 3.82 miles. As a part of this work, the sea wall along Puget Sound has been completed, there being the following protection between Metum and Everett, Wash.: 11.423 miles of sea wall, 5.005 miles of flat slope wall, .265 miles of hand placed riprap and 1.328 miles of rough riprap, a total of 18.021 miles of pro-tected grade. tected grade.

tected grade. On account of the increasing iron ore traffic from the Mesabi Range, the double-tracking of the line between Brookston (the end of the old double track) and Swan River, Minn., has been commenced, and the sections between Brookston and Congo and Wawina to Swan River, a total length of 10.16 miles, have been completed and are in coversition. operation.

operation. The change of line between Armington and Gerber, Mont., 18.77 miles, mentioned in last year's report as then being under way, has been completed. The change of line at Berne, Wash., also mentioned, is still in progress but nearing completion. Small changes of lines were made during the year as follows: Monroe, Wash., 2,160 feet; Scenic, Wash., 880 feet; Alvin, Wash., 1,100 feet and at Tye, Wash., 6,144 feet. The line changes at Berne, Scenic, Alvin and Tye were all for protection against snow trouble in the Cascade Mount-tains, and, as a part of that work there have been completed during the year 3,870 feet of single track and 2,202 feet of double track additional timber snow sheds and 1,480 feet of double track concrete snow sheds. A concrete snow shed 980 feet in length in completion of the work planned is now under construction. In addition there have been built of double track concrete snow sheds. A concrete snow shed 980 feet in length in completion of the work planned is now under construction. In addition there have been built at Cascade Tunnel: Two-story lodging and eating house 24 by 80 feet, bunk house 24 by 72 feet, house 22 by 120 feet for electric locomotives, turntable house 100 by 102 feet, containing a 92-ft. turntable, power house 38 by 40 feet, concrete powder house 12 by 40 feet, besides additional trackage, pipe lines and stand pipes for supplying water to locomotives; at Tye: Two story lodging and eating house 24 by 80 feet, four 4-room cottages for train dispatchers, house 20 by 264 feet for locomotives and rotary snow plows, power house 38 by 48 feet, and the necessary additional trackage, pipe lines for fire protection and locomotive supply, &c. — The work of reducing the line grade at Vancouver, B. C., which has been mentioned in several reports as being in pro-gress, has been completed, the grade having been reduced for a maximum of 2.54 % to 1.00% for a distance of 8,200 feet. A portion of the material removed in this work has been used in filling in a part of the bed of False Creek and so enlarging the Company's terminal property at Vancouver. The turnel at Everett, Wash., 2,359 feet in length, has been lined with concrete, replacing timber linig. — The turnel at Everett, Wash., 2,359 feet in length, has been lined with concrete, replacing timber linit. — The additional line on 38.25 miles of road and 479.15 miles of track have been ballasted with gravel, of which 14.40 miles was on change of line between Summit and Java, Mont., 8 milas on new second track between Mosher and Everett Junction, Wash., 20 miles was track not previously ballasted, 67 miles on which ballast was restored and an additional lift given, and 369.75 miles on which ballast was restored. — In the replacement of wooden and iron bridges and trestles

with steel, or filling them with solid embankments, the following work was done during the year: Length of steel bridges built in replacement. 1,189 lin. ft.

| | and and the second s |
|-------|--|
| Total | |
| | Contraction of the local division of the loc |

To provide waterways for bridges filled as above, 14 con-crete and 5 pipe culverts were built; 8 concrete were built in replacement of pipe and timber culverts and 272 pipe culverts in replacement of wooden box culverts. In addition to the 1,189 feet of steel bridges built to re-place iron and timber structures, as above, steel bridges were constant:

erected:

| In double track. On changes of line Extending existing bridges | 241 30 1,342 | lin. ft. |
|--|--------------------|----------|
| Total | 1,613 | lin. ft. |

And a 240-ft, steel bridge in replacement of a lighter steel structure.

structure. Three steel bridges aggregating S11 feet in length were built to carry highways over the Company's tracks in ad-dition to the Company's proportion, 217 feet of the Wall Street viaduct, Sioux City, Ia., referred to in last year's report, which was completed. The approximate yardage of material moved during the year ended June 30 1911, in the work that has been men-tioned is:

tioned, is:

In Changes of line and reduction of grades (of which

B. C., a gravity trestle, The Allouez Bay Dock Co, has completed and placed in operation since the close of the year its Ore Dock No. 4, at Allouez, Wis., same being a concrete and steel structure, 1,812 feet in length, containing 302 ore pockets and having a capacity, when filled, of 106,304 tons of iron ore. The con-struction of this dock has been made necessary by the present and prospective increase in the Company's iron ore traffic.

Charges to capital account aggregating \$11,031,462 31 were made during the fiscal year for additions to the property. The Herrin & Southern Line from Herrin to Metropolis, Ill., was opened for business on October 15th 1910, the amount

expended on it this year being \$732,338 04. Arrangements have been made by which freight via this line is transferred across the Ohio River to Paducah, Ky., forming a connection with Southern roads. This, in time, should lead to increased

with Southern roads. This, in time, should lead to increased revenue. The line from Scribner to Fromberg, Mont., where it con-nects with the Northern Pacific Road, was opened for traffic on April 24th 1911. Amount expended on it during the year was \$953,050 73. On the extension from Kirby to Powder River, Wyo., \$2,-255,527 96 has been expended this year, and twelve miles from Kirby to Thermopolis, Wyo., are in operation. Track is laid for fourteen miles south of Thermopolis, and grading almost finished on eighty-two niles more. Work on the Hudson-Greeley line, Colorado, has not been pushed, and the \$53,104 76 expended on it during the past year was principally for right of way. Additional land was purchased for needed facilities at St. Louis and Denver, and the improvements at Haveloek Shops were completed. New second track costing \$1,312,650 16 has been laid at

were completed. New second track costing \$1,312,650 16 has been laid at various points, and new freight and passenger stations re-built or enlarged where business required it. Owing to changed conditions, the accommodations of the General Offices at Chicago have for some time been inade-quate for the use required, and a site has been purchased on which a new building, designed to meet future expansion, is being erected. The following statistical tables, together with the report of the General Auditor, reflect the business of the Company during the year:

| Number | | Par Value | STOCK. Divident | during Year. | | |

Additional Equipment 1,764,527 24 During the fiscal year the defielt from operations of The Trinity & Brazos Valley Railway Company was made up equally by The Chicago Rock Island & Pacific Railway Company and The Colorado & Southern Railway Company, Construction of the new passenger terminals at Houston has been completed and paid for, and the terminals and passen-ger station have been in use since February last.

The new line of double-track railroad which is being built in conjunction with the Denver & Rio Grande Railroad Co. between Southern Junction and Walsenberg Junction is nearing completion and will be opened for operation about October 15 1911. This Company has since its organization in 1899 operated its trains over the tracks of the Union Pacific Railroad Co. between Denver and Cheyenne. Owing to increased business of both companies, it was deemed advisable to construct a new line of single track railroad between Wellington, Colo-rado, the northernmost point on the Fort Collins District, to Cheyenne, Wyo.; there to connect with this Company's Wyoming Division, and also with the Chicago Burlington & Quincy Railroad. This new line, which will be thirty-two miles long, will be opened for operation about October 15 1911.

The following statistical tables have been compiled in the form required for the Annual Report of carriers to the Inter-State Commerce Commission.

THE PACIFIC COAST COMPANY

EXTRACTS FROM THE REPORT FOR THE YEAR ENDING JUNE 30 1911.

New York, September 15 1911. To the Stockholders of The Pacific Coast Company: The following report of the business of your Company and operations of its subsidiary companies for the fiscal year end-ing June 30 1911 is respectfully submitted: There has been no change in the Funded Debt or Share Capital. I present herewith report of your Vice-President and Gen-eral Manager at Seattle, giving details of the operations of the subsidiary companies and of this Company. In connec-tion with this report will be found a condensed general bal-ance sheet of this Company and subsidiaries and statistical information furnished by our General Auditor at Seattle. From the statistics furnished it appears that in compari-son with last year the earnings of all subsidiary companies, together with the rentals and receipts of the Pacific Coast Company for the year, are as follows:

Company for the year, are as follows:

Net Earnings (Decrease) \$183,498 75 The Net Earnings of the Pacific Coast Steamship Company

The Net Earnings of the Pacific Coast Steamship Company decreased \$176,603 98. The Net Earnings of the Pacific Coast Railway Company decreased \$27,931 25. The Net Earnings of the Columbia & Puget Sound Railroad Company decreased \$19,138 26. The Net Earnings of the Pacific Coast Coal Company, including lumber sales, increased \$22,666 27. Rentals, Dividends and Grain Warehouses increased \$19,-589 95.

589 95.

589 95. General Expenses and Taxes increased \$2,081 /8. The marine accidents referred to in the Ge e al Manager's report do not reflect upon the management of the Steamship Company; they are being carefully investigated, and it is hoped and expected that improvement can be made in the operation of vessels. The accident at the Lawson Mine appears to have been unavoidable, having been caused by a cave-in in the old workings of the mine and not through the fault of adminis-tration.

tration.

From present indications reasonable returns may be expected during the coming year, although the business outlook at present is not as promising as last season. H. W. CANNON, President and Chairman of the Board

FROM REPORT OF VICE-PRES. AND GEN. MANAGER. Seattle, September 1 1911

Earnings for the year, as a whole, were fair, but not quite up to those of the previous year.

PACIFIC COAST STEAMSHIP COMPANY.

Net Earnings (Decrease)

There was expended for repairs to the fleet and charged to Operating Expenses \$335,235 19, as against \$315,530 51 last year.

last year. Ordinary repairs and renewals cost \$186,253 71, and ex-traordinary repairs \$148,981 48. The decrease in Gross Earnings was in passenger business, principally on the Southeastern Alaska and Southern Califor-nia routes. On the latter on account of increased competition, and on the former, owing to somewhat lighter travel and two unfortunate accidents which crippled the Company's service for a time. Freight earnings show a moderate increase. Operating Expenses increased partly on account of in-creased amount of freight handled, but principally on ac-count of the number of unfortunate accidents that occurred during the last six months of the year, rendering it necessary to fit extra ships for service and transfer them from one point tofanother to get them into commission. RAUL LINES

| Gross Earnings (Decrease) | \$19,458 90 320 64 |
| Net Farnings (Decrease) | \$19,138 26 |

-The "Manual of Hawaiian Securities" for 1911 is an attractive pamphlet of nearly 100 pages, compiled and issued by the Honolulu Stock & Bond Exchange, with statistics, balance sheets and, in many cases, statements of profits and other particulars for the companies whose securities are listed on the Exchange.

—"Hawaiian Sugar Stocks as Investments" is the title of alpamphlet issued and copyrighted by Wakefield, Garth-waite & Co., San Francisco. There are some 27 of these stocks mentioned, of which 7 are listed both in San Francisco and Honolulu and 20 that are listed only in Honolulu.

The decrease in gross revenue is due to two causes—de-moralization of lumber market, which caused the closing down of logging camps on line, and reduced coal shipments account closing down of Lawson Mine. Passenger earnings show slight increase.

show slight increase. Operating Expenses were kept up on account of increased taxes, \$3,414 00; increased personal injuries, \$11,295 00; increased depreciation, \$1,309 00; riprapping Cedar River, \$8,850 00; renewing May Creek trestle, \$8,310 00. There was charged to "Operating Expenses" and written off to cover depreciation of equipment, \$45,507 98. Shop Machinery and Tools, \$2,145 20; Buildings, \$772 80; total, \$48,425 98, as against \$47,116 08 last year. The principal improvements made during the year aggre-gated in cost \$129,072. In addition to the foregoing, there was expended and de-ducted from "Income" \$535 64, and also added to "Income," account of removal of industrial spurs and sidings, \$2,340 94. Net addition, \$1,805 30. There was also added to equipment and charged to "Re-placement Fund" during the year \$79,308 30. PACIFIC COAST BALLWAY COMPANY

PACIFIC COAST RAILWAY COMPANY.

| Gross Earnings (Increase) | \$1,320 90 |
|-------------------------------|-------------|
| Operating Expenses (Increase) | 29,252 15 |
| Net Earnings (Decrease) | \$27,931 25 |

 Net Earnings (Decrease)
 \$27,931 25

 Disastrous floods occurred in the Santa Maria Valley during March, causing great damage to the Pacific Coast Railway and interrupting through traffic for nearly a month. The sum of \$50,000 has been charged out and set aside for the extraordinary repairs made necessary by these floods.

 Operating expenses increased on account of rebuilding Santa Maria River Bridge, a trestle nearly a mile long, equipping cars with air brakes and automatic couplers and repairing damages caused by floods.

 Development of oil lands in the Cat Canon district continues active. A further extension (three miles) of the Cat Canon branch has, with your approval, been decided upon and is now under way.

 The principal purchases and improvements during the year aggregated a cost of \$22,974.

 PACHEEC COASET COAL COMPANY

PACIFIC COAST COAL COMPANY.

| Gross Earnings (Decrease) | \$43,932 32 47,717 80 |
|--|--|
| Net Earnings (Increase) | |
| The total output of mines during the year was 73 a decrease of 22,223 tons as compared with the pre- The total amount of coal sold at all depots was | vious year. |

| Total, tons a decrease of 48,723 tons over previous year. | Contraction of the local division of the loc |

a decrease of 48,723 tons over previous year. Decrease in output and sales occurred on account of acci-dent at Lawson Mine and failure to renew rallroad contracts at satisfactory prices. Reductions were made in expenses to more than offset the reduced earnings. An explosion occurred in Lawson Mine at 6:40 a. m. No-vember 6 1910, which destroyed the mine and killed seventeen men. There was no indication of fire or smoke after the ex-plosion, and it is believed to have been an air blast caused by a cave-in in the old workings. The mine was so nearly worked out that it was not considered advisable to reopen it, which could have been done only at a great expense. The principal improvements made during the year aggre-gated in cost \$185,511.

LUMBER DEPARTMENT.

Lumber business shows an improvement over previous year as follows:

| Net Earnings (Increase) | \$22,884 34 4,003 61 |
|---|-------------------------|

AMERICAN TOBACCO COMPANY

PLAN OF DISINTEGRATION-FOURTEEN INDEPENDENT COMPANIES.

A petition was filed on Monday in the Circuit Court of the United States for the Southern District of New York in the Anti-Trust suit of the United States of America vs. the American Tobacco Co. and others, by the American Tobacco Co. and all the other defendants to the cause, except the Imperial Tobacco Co. (of Great Britain and Ireland), Ltd., United Cigar Stores Co. and R. P. Richardson Jr. & Co., Incorp., asking approval of a plan for a distribution of the business among 14 entirely independent corporations, nota-bly the present Am. Tobacco Co., the (new) Liggett & Myers Tobacco Co. and the (new) P. Lorillard Co., only one of the existing corporations (the Am. Stogie Co.) to be dissolved. The counsel for the petitioners are W. W. Fuller, Lewis Cass Ledyard, De Lancey Nicoll and Junius Parker. (Compare V. 85, p. 277.) SYNOPSIS OF PLAN.

The covenants hard supplies.
The covenants hard not been free to engage in any kind of tobacco business, anywhere in the world, fust as If said covenants had not been made; and that the contracts be alcogether terminated so far as they impose any obligation upon any of the parties thereto to furnish or to refrain from furnishing manufacturing thermatics which, by said constructing, in which they where in the world, fust as If you got and constituting in the states which, by said constructing, in antical supplices.
(c) Abrogation of Domessie Restrictive Covenants.
(a) Abrogation of Domessie Restrictive Covenants.

(c) Abrogation of Domestic Restrictive Covenants. Covenants given by vendor corporations, partnerships or individuals, or by stockholders of vendor corporations. Io vender corporations defendants herein, not to engage in the tobacco business, to be terminated so that all such covenantors shall be at liberty to engage in any tobacco business.

(D DISINTEGRATION OF ACCESSORY COMPANIES.

(d) DISINTEGRATION OF ACCESSORY COMPANIES.
(i) The Conley Foll Co., Manufacturer of Tin Foll.
(Capital stock, 5825,000, of which the Am. Tob. Co. owns 5495,000.)
The company has a plant in N. Y. City and it owns all the stock and bonds
of the Johnston Tin Foll & Metal Co., which has a plant in St. Louis.
Yalue of output for year 1910; Conley, \$1,750,527; Johnston, 5876,520.
Net profit 1910; Conley, \$273,300; Johnston, \$66,255. Ou Dec. 31 1910
the Conley Foll Co. had impible assets (excluding its Johnston Str. 516,327; Johnston, 507,520; Johnston, 508,257.
The Conley Foll Co. had impible assets (excluding its Johnston Sceurifies)
The Conley Foll Co. shall distribute its holdings of the securities of the
Johnston Co., to-wit: 3,000 shares of stock, all of our class; and \$100,000
of bonds, to Its stockholders.

Johnston Co., to-wit: 3,000 shares of stock, all of one class, and \$100,000 of bonds, to its stockholders.
 (2) MacAndrews & Forbes Co., Manufacturer of Licerice Pasts, Common stock of \$3,000,000, of which the Am. Tob. Co. owns 32,112,500, and R. J. Reynolds Tob. Co. less than 3 1-3%; and 53,758,300 8%, more the common and pret., being held independently of the defendants.
 Two licerice pasts, and the common stock of \$3,000,000, of which the Am. Tob. Co. helds \$150,000,000 structure, both common and pret., being held independently of the defendants.
 Two licerice pasts blanks, one at Candens, N. J., and the other at Balth Beorier root, with plants for its collection in foreign countries. Sales for past 1910, \$4,427,025. The company succeeded a partnership which did. for many years before connection with the other defendants.
 A new corporation shall be organized, called the J. S. Young Co., and will issue in payment therefor, with the ford-will cond-will connected therewith, \$1,400,000 7%, pret. non-voting stock and \$1,000,000 common stock.
 MacAnd. & Forbes Co. will distribute this common stock as a dividend there is a common stock in the form the stock.
 MacAnd. & Forbes Co. will distribute this common stock as a dividend there with, \$1,400,000 7%, pret. non-voting stock and \$1,000,000 common stock.
 MacAnd. & Forbes Co. will distribute this common stock as a dividend there with its own pret. stock, which held by McAnd. & Porbes Co., to be enfolmed from influencing or controlling the J. S. Young Co., and, if not exchanged on or before fan. I 1915, may be disposed of.
 This would give to MacAndrews & Forbes Co. a leorice budness, including Spanish Heorice and output of the net selling value, based upon the year 1910, 63,25,14,25, of which \$2,214,127 artse from sales of one heard, to-wit, the old "Ship" brand. The J. S. Young Co., pon the basts of 1910, would have an output of the net selling value of \$1

basis of 1910, would have an output of the net selling value of \$1,201,110. (d-3) American Snuff Co., Manufacturer of Snuff. There will be organized two new snuff companies, the George W. Heime Co. and the Weyman & Bruton Co., and the Am. Snuff Co. will convey to these two companies, respectively, factories, with the brands manufactured in them, as follows: To the George W. Heime Co. the factories at Heimetta, N. J., and Yorklyn, Del., except Factory No. 5; to Weyman & Bruton Co. the factories at Chicago and Nashville, also all the \$50,000 stock of De Voe Snuff Co. and the one-ball (\$26,000) of the stock of the Nat. Snuff Co. Based apon the business, &c., for the year 1910, and the assets at the end of the year, with proper provision for leaf, materials, cash and book accounts for the two vendee companies, this would leave the three com-panies equipped as follows:

| panies equipped as follows: | | | |
|-----------------------------|---------------------|----------------|-------------|
| | g. Tanothie Assets. | Sales (1910) - | Net Income. |
| American Snuff Company | | \$5,520,422 | \$1,591,280 |
| George W. Helme Company | 4,009,000 | 4,404,557 | 1,250,281 |
| Weyman & Bruton Company_ | 3,091,588 | 4.297.487 | 1 203 750 |

(d-4) American Stople Company.
 (d-4) American Stople Company.
 Capital stock, \$976,000 7% cum, pref. stock, of which Am. Cigar Co., owns \$40,000, and none of the other detendants owns any. \$10,879,000 common stock, of which Am. Cigar Co. owns \$47,303,775 and none of the other detendants owns any. There are accumulated and unpaid dividends on the pref. stock to the amount of \$309,000 as of Dec. 31 [810].
 Old a stock of the the other detendants of the other detendants owns any. \$10,879,000 there are accumulated and unpaid dividends on the pref. stock to the amount of \$309,000 as of Dec. 31 [810].
 Old awat is all of the issued stock of Unloot-American Okewark. Total production, based upon business for the year 1910, is only 1.58% of the cuttre production of cigars in the United States in volume.
 American Stogic Co, will dissolve, with leave either to convert the assets into cals and distribute them should be stockholders, or to reorganize; but in either event there shall be a separation into at least two different owners, high of the factories and owners executive of cigar Co. The Am. Cigar Co. will take such cash as it may receive into its treasury, and if it receives accurtice of cigar-manufacturing concerns, it will distribute such as a dividend of its common stockholders, to be charged to its supplus as hereinanter set forth.
 (d-5) American Cigar Company. Manufacturer of Cigars.

(d-5) American Cigar Company. Manufacturer of Cigars. Has various factories of its own and owns stock in several companies en-gaged in the manufacture of cigars, all of which companies have been or-ganized by it and have received from it conveyances of part of its business, operating in this way as separate corporations for trade purposes. Among these companies is Federal Cigar Co. Also owns a part of the stock of Havana Tob. Co., which controls fac-tories manufacturing cigars in Havana; and a part of the stock of Porto-

Rican-Am. Tob. Co., engaged in the manufacture of eigars and eigarettes in Porto Rice; and half of the stock of Porto Rican Leaf Tob. Co., engaged in growing tobacco in Porto Rico. Am. Cigar Co. Itself uses large quanti-tities of Porto Rican-grown leaf. Neither Am. Cigar Co. and of the companies in which it is luterested, except Havana Tob. Co. and Porto Rican-Am. Tob. Co., is engaged in the manufacture of eigars outside of the United States.
 Am. Cigar Co., including with its production the production of companies of which is own is whole or in past the stock, tas, in volume, based on the business for the year 1910. Is 35% of the cigas business of the Uoited States. Havana Tob. Co. has, directly or indirectly, control of 2:400 % of the total production of cigars in Cube 46% of the total exportation of cigars from Cubo to all countries of the world. Including the United States, and 38.13% of the total exportation of cigars from Cuba to the United States. Am. Cigar Co. shalf (@ sell to Am. Tob. Co. for cash its stock, being all thereof, of Federal Cigar Co., at 35, a65, 616; (0) sell to Am. Tob. Co. for eash the stock to owns of Porto Riem-Am. Tob. Co., I work 5657, 000, at \$350 per share, or \$2,301,600; (d dispose of any interest in Am. Stogie Co. op on dissolution, converts its association dissolution thereof, if Am. Stogie Co., upon dissolution, converts its association dissolution thereof, if Am. Stogie Co., upon dissolution, converts its association of its surplus the securities which it receives upon the dissolution of Am. Stogie Co. if it receives such.
 (d) DISTRIBUTTON BY AMER, TOBACCO CO, OF STOCKS OWNED.

(e) DISTRIBUTION BY AMER, TOBACCO CO. OF STOCKS OWNED.

(e) DISTRUBUTION BY AMER. TOBACCO CO. OF STOCKS OWNED. (e-1) Immediate Distribution of Stocks By Amer. Tobacco Co. The Am. Tob. Co. will buy from P. Lorillard Co., for cash at par, the 11,247 anarys of the pref. stock of Am. Snuff Co., held by P. Lorillard Co., and will receive, as the sole common stockholder of P. Lorillard Co., and by way of dividends, 34,594 shares of the common stock of Am. Snuff Co. held by P. Lorillard Co. The Am. Tobacco Co. will distribute among its common stockholders by way of dividends, and to be charged to its surplus, all of its securities of the following-described classes, whether now owned by it or bought by it from Am. Cigar Co., as hereinbefore set forth, or bought by it from P. Lorillard Co. or received by it by way of dividends from any of the accessory com-panies defendant, to-witt

panles defendant, to-wit: Am. Snuil Co. com. & pref. stock: George W. Helme Co. com. stock: Weyman & Bruton Co. com. stock: MacAndrews & Forbes Co. com. stock: Confortation of United Cigar Stores Co. stock: Confortation of United Cigar Stores Co. stock: Brit.-Am. Tob. Co., Ltd., ord. sh's. Poirto Rican-Am. Tob. Co. stock: and bonds: Am. Storice Co. stock: Confortation of United Cigar Stores Co. stock: Brit.-Am. Tob. Co., stock: Tom dissolution).

and bonds; Including the amount to be paid to Am. Clear Co. and P. Lorillard Co. for such of these securities as are to be acquired by the Am. Toh. Co. from them, respectively, and excluding those to be acquired by way of dividends, and which, horefore, do not affect the surplus of the Am. Tob. Co., never having been set up on its books, these securities had a book value as of Dec. Al 1910 of \$55,011,865. The earning capacity of all the above securities thus to be distributed, based upon the results of the year 1910, is \$2,860,411, though not all thereof was distributed as dividends.

Was distributed as dividends.
 (e-2) Deferred Disposition of Stocks by Amer. Tobacco Co.
 The Am. Tobacco Co. will sell or otherwise dispose of, or distribute by way of dividends to its common stockholders out of its surplus at the time existing, before Jan. 1 1615, all of its holdings of the following securities: British-Amer. Tobacco Co., Ltd., non-voing preference ehares; Imperial Tobacco Co. (of Great British and Ireland), Ltd., ord. shares; Corporation of United Clause Stores bands; MacAndrews & Forbes Co. non-voing preference shock.
 During the time these securities are left in the tensury, the Am. Tob. Co. to be enjoined from voing any thereof or using the same to control said cos.

(f) SALE BY AM. TOBACCO CO. OF MANUFACTURING ASSETS AND BUSINESS TO COMPANIES TO BE FORMED.

AND BUSINESS TO COMPANIES TO BE FORMED. (f-1) New Liggeti & Myers Tobacco and New P. Lorillard Co. There will be organized a new Liegets & Myers Tobacco Co, and a new P. Lorillard Co., and the Am. Tob. Co. will sell, assign and convey to these two companies factories, plants, brands and businesses, and capital stocks of tobacco-manifacturing corporations, as shown in the forgoing tables; each of these conveyances to include proper and adequate storage houses, including in each case a ratable proportion of the cash held by the Am. Tob. Co. on Dec. 31 1910, so that each of the new corporations will be fully putpped for the conduct of the business of manufacturing and dealing in tobacco. *U-2*) The Three Principal Companyated Decements for the cash set of the conduct of the business of manufacturing and dealing in tobacco.

<text><text><text><text><text><text><text><text><text>

Liggett & Myers Tob. Co. and P. Lorillard Co. will issue securities to cover their capitalization in the aggregate as follows:

L. & M. Co. P. Lorti.Co. Total. 10g 6% bonds of the Am. Tob. Co. \$15,507,837 \$10,933,488 \$26,441,325 10% bonds equal to 50% of outstand-lng 4% bonds of Am. Tob. Co. 15,059,589 10,617,461 25,677,050 equal to 33 1-3% of pref. Total. 367,447,499 347,552,501 315000,000 The new 7% bonds and the new 5% bonds will mature at the time fixed, respectively, for the maturity of the 5% bonds (Get. I 1944) and the 4% bonds (Aug. I 1951) of the Am. Tob. Co. now outstanding, and to be issued under an indenture of substantially like tenor and terms with the present indenture of the Am. Tob. Co., under which its 5% bonds and 4% bends were issued, the 7% bonds to baye priority in charge over the 5% bonds in the same way that the 6% bonds of the Am. Tob. Co. have priority of charge over the 4% bonds. All of the securities of the Liggett & Myers Tob. Co. and the P. Lorillard Co. to be turned over to the Am. Tob. Co. in payment of the purchase price or the factories, plants, brands and businesses and capital stocks of to-bacco manufacturing corporations so to be conveyed to Liggett & Myers Tobacco Co. and P. Lorillard Co., respectively, as hereinbefore stocks of to-bacco be turned over to the Ame. Tob. Tobacco to Liggett & Myers Tobacco Co. and P. Lorillard Co., respectively, as hereinbefore stocks.

(F-4) DISPOSITION OF NEW SECURITIES, BASIS OF EXCHANGE, &C.

<text><text><text><text><text><text><text><text><text>

(G) VOTING RIGHTS TO PREFERRED STOCK.

By proper amendment of the certificate of incorporation of the Am. Tob. Co., the pref. stock will be given fall voting rights.

(H-1) P. LORILLARD CO.-EXCHANGE OF MINORITY PREFERRED STOCK.

B. LORMLEARD CO. - EXCHANCE OF MINORITY PROPERTIESD STOCK.
 P. Lorillard Co. Is a N. J. company with \$3,000,000 common stock, all owned by Am. Tob. Co., and \$2,000,000 8%, prof. stock, of which Am. Tob. Co. holds \$1,506,100 and others \$403,000. Inder the laws of New Jersey, the present P. Lorillard Co. may be dissolved by the holders of two-thirds in the balance of the exacts going to the context of the context o

Acron given. (h-2) Temporary Arrangement Affectino Snuff Companies. Under this plan the brand "Garrett" snuff is allotted to Am. Snuff Go., and the natories, other than one factory at Yorkiyn. Del., are allotted to George W. Helme Co.; your petitioners pray that Am. Snuff Co. and George W. Helme Co. be permitted to manufacture brands the one for the other for not over one year from March 1 1912, at cost plus 55; the 59, helms suf-ficient inducement to each to manufacture its own goods as soon as Am. Snuff Co. is able to manufacture "Garrett" snuff of the requisite character in its Clarksville factory.

Exhibits Showing Results. The official plan is followed by a number of exhibits. [These, or their substance, are incorporated above.—Ed.]

Extension of Time.

The petitioners pray that this Court approve the plan and extend until March 1 1912 the time within which to earry it out. President James B. Duke and Accountant George W. Gates have signed fidavits to the effect that the statements made in the plan are true ac-cording to their best information and belief.]—V. 93, p. 873, 732.

-At 97 and accrued interest Harvey Fisk & Sons, N. Y., Jackson & Curtis, N. Y. and Boston, and the Continental & Commercial Trust & Savings Bank of Chicago are to-day offering for investment "Railway Steel-Spring Co. first mort-gage 5% bonds (Inter-Ocean plant)". The amount author-ized and issued is \$3,500,000. See advertisement elsewhere in this issue of the "Chronicle" and our "General Investment News Department" for full particulars.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, October 20 1911. There is a gradual increase in trade, due as much as any-thing to the necessity of replenishing depleted supplies. Transactions still keep within a conservative scope and predictions are not general that a turn in the long lane of dulness has as yet actually been reached. But there is a slightly more confident tone, as though the worst has been seen and that any change in the future would not improb-ably be for the better, even though improvement be slow. LARD has been quiet and steady, with demand light. Prime Western here 9.15 to 9.20c., refined for the Continent 9.75c., South America 10.60c. and Brazil in kegs 11.60c. COTTON.

Friday Night, Oct. 20 1911.

Friday Night, Oct. 20 1911. THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 473,532 bales, against 431,129 bales last week and 444,027 bales the previous week, making the total receipts since Sept. 1 1911 2,499,323 bales, against 2,128,451 bales for the same period of 1910, showing an increase since Sept. 1 1911 of 370,872 bales.

Speculation in cotton for future delivery has been at times very active with prices irregular, declining early in the week and rising later. The factors which have made for a decline were large receipts, favorable crop reports, a tendency, if anything, to increase the estimates of the crop and heavy and persistent hedge selling by the South. This selling, in-deed, has reached proportions which are said to be the largest ever known at this stage of the season, a circum-stance which is explained by the dulness of the spot markets of the South. It is added that the farmers and factors de-siring to sell have found their only outlet in the market for futures at New York. Another unfavorable feature is the outbreak of a rebellion in China and still another is the con-tinuance of the war between Italy and Turkey. As a result Manchester has been sending gloomy dispatches to the Speculation in cotton for future delivery has been at times of the South. It is added that the farmers and factors de-siring to sell have found their only outlet in the market for futures at New York. Another unfavorable feature is the outbreak of a rebellion in China and still another is the con-tinuance of the war between Italy and Turkey. As a result Manchester has been sending gloomy dispatches to the effect that it feared a cancellation of orders for cloth from both China and Turkey, two of its largest customers. At the same time trade in this country is not considered wholly satisfactory, despite the fact that there has been some admitted improvement. Boston reports in regard to the condition of trade, it is true, have latterly been rather more cheerful, and some of the Southern yarn mills have reopened. But taking the trade situation as a whole, it has not been considered altogether encouraging. Liver-pool at times has shown noticeable depression, owing to heavy Southern offerings and the less favorable talk from Manchester, as well as considerable selling by those who had bought for a rise. Latterly, too, the spot sales at Liverpool have fallen off to 8,000 bales a day, as against 12,000 bales for some time previous. Another fact that has excited comment is the report that ginners, in South-ern Texas at least, are not complying with the law requiring them to report their ginning monthly to the Agricultural Department at Washington. In connection with the matter of China's trade with Man-chester it is of interest to note that a financial crisis growing out of the rebellion in the China'se Empire has been reported at Shanghai, where there have been runs on the banks, and several have suspended. Large spot interests here have been good sellers. December, which was recently at a moderate premium over March, fell in the middle of the week to a discount under that month, the explanation being that the weight of cotton was telling. But latterly prices have risen, owing to several things, namely colder weather, a fear of frost and the fact that the short interests

The above totals show that the interior stocks have increased during the week 74,01 bales and are to-night 112,530 bales more than at the same time last year. The receipts at all the towns have been 38,973 bales less than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

| | 911 | | |
|--|--|---|--|
| Oct. 20— Week. Via St. Louis 13,748 Via Cairo 700 Via Rock Island 78 Via Conclustion 4,523 Via Cincinnati 878 Via Virginia politis 4,982 Via Virginia, ec. 4,021 | Since Sept. 1. 27,521 1,968 9,580 2,178 15,194 20,671 | Week, 10,704 7,810 1,200 2,273 1,932 5,876 2,798 | Since Sept. 1, 28,657 18,026 1,825 8,027 4,762 15,143 16,268 |
| Total gross overland | 77,390 9,353 3,337 8,572 | 32,593 4,074 398 583 | 92,708 11,314 3,857 12,668 |
| Total to be deducted 5.050 | 21,312 | 5,055 | 27,839 |
| Leaving total net overland * | 36,078 | 27,538 | 64,869 |

* Including movement by rall to Canada.

The foregoing shows the week's net overland movement has been 27,5.8 bales, against 24,480 bales for the week last year, and that for the season to date the aggregate net over-land exhibits a decrease from a year ago of 8,791 bales.

EGYPTIAN COTTON CROP.—The Alexandria General Produce Association resume of informations received during September 1911 is as follows:

September 1911 is as follows: In Lower Egypt the temperature during September has been somewhat variable, but there was improvement towards the end of the month. Some destricts. These caused slight damage, but as yet it is impossible to esti-mate to what extent. First picking has begun in some districts, but with the crop 15 to 20 days late, will only become general during the first for-ingth in October. Although it is impossible yet to estimate the outturn of the first picking as could be a set of the structure of the first picking has been in some districts, but with the source of the structure outnows as a present for some weeks more. Owing to the late crop it is impossible to estimate the distribution the tendent of the same of the single structure of the distribution of the structure of the late report of the ginning yield. In Upper Egypt and Fayoum the temperature was not favorable, cool inghts and heavy dows being re-ported. Boil worm appeared in some districts. First picking, which is now general, gives good results, but the outturn is somewhat leas than 1910. The result of second pickings promise to be satisfactory should the present temperature was not favorable, cool inghts and heavy dows being re-ported. Boil worm appeared in some districts. First picking, which is

WEATHER REPORT BY TELEGRAPH .- Our telegraphic advices from the South this evening indicate that, as a rule, the weather has favored picking, which has progressed rapidly. Marketing also has made very good progress.

Galveston, Tex.—Good rains fell during the early part of the week in most sections of Texas and were succeeded by light north winds which have made conditions perfect. There has been rain on three days of the past week, the rainfall being two inches and ten hundredths. The thermometer has ranged from 66 to 84, averaging 75. Brenham, Tex.—There has been rain on two days during the week, the precipitation being fifty-one hundredths of an inch. Average thermometer 72, highest 91 and lowest 53. Cuero, Tex.—It has rained on four days of the week, the rainfall being twenty-three hundredths of an inch. The thermometer has averaged 74, the highest being 97 and the lowest 50.

rainfall being twenty-three fundredths of an inch. The thermometer has averaged 74, the highest being 97 and the lowest 50. Dallas, Tex.—There has been rain on one day of the week, the rainfall being sixty-one hundredths of an inch. The thermometer has averaged 68, ranging from 45 to 90. Henrietta, Tex.—Dry all the week. The thermometer has ranged from 45 to 92, averaging 69. Huntsville, Tex.—There has been rain on two days during the week, the precipitation being sixty-one hundredths of an inch. Average thermometer 65, highest 80 and lowest 50. Kerrville, Tex.—Rain has fallen on one day of the week, the rainfall being twenty hundredths of an inch. The thermometer has averaged 63, the highest being 88 and the lowest 37. Lampasas, Tex.—There has been rain on two days of the week, the rainfall being tweive hundredths of an inch. The thermometer has averaged 65, ranging from 40 to 94. Longview, Tex.—There has been rain on two days of the week, the precipitation reaching one inch and nine. The thermometer has averaged 65, ranging from 40 to 94. Longview, Tex.—There has been rain on two days of the week, the precipitation reaching one inch and nine hundredths. The thermometer has averaged 65, ranging from 40 to 94. Longview, Tex.—There has been rain on two days of the week, the precipitation reaching one inch and nine hundredths. The thermometer has named from 47 to 88, averaging 68.

ing 68.

Luling, Tex.—Rain has fallen on three days of the week, to the extent of forty-three hundredths of an inch. Average thermometer 70, highest 90, lowest 50.

Nacogdoches, Tex .-- Rain has fallen on two days during the week, to the extent of one inch and forty-two hundredths. The thermometer has averaged 65, the highest being 85 and

The thermometer has averaged 65, the highest being 85 and the lowest 45. *Palestine, Tex.*—Rain has fallen on three days of the week the rainfall being two inches and thirty-eight hundredths. The thermometer has averaged 68, ranging from 50 to 86. *Paris, Tex.*—We have had rain on one day of the week, the rainfall being one inch and seven hundredths. The ther-mometer has ranged from 42 to 88, averaging 65. *San Antonio, Tex.*—Rain has fallen on two days during the week, the rainfall reaching thirty-one hundredths of an inch. Average thermometer 72, highest 92 and lowest 52. *Weatherford, Tex.*—Dry all the week. The thermometer has averaged 69, the highest being 90 and the lowest 48. *Shreveport, La.*—It has rained on one day during the week,

Shreveport, La.—It has rained on one day during the week, the rainfall being four hundredths of an inch. The ther-mometer has averaged 68, ranging from 50 to 86. New Orleans, La.—It has rained on two days of the week, the precipitation reaching eighty-seven hundredths of an inch. The thermometer has ranged from 62 to 87, averag-ing 75 ing 75.

Ing 75. Ardmore, Okla.—There has been no rain during the week, Average thermometer 68, highest 90, lowest 47. Tulsa, Okla.—Dry all the week. The thermometer has averaged 66, the highest being 87 and the lowest 44. Meridian, Miss.—We have had rain on two days during the week, the precipitation reaching one inch and forty-six hundredths. The thermometer has averaged 66, ranging from 48 to 85.

hundredths. The thermonieter mas a ready during the from 48 to 85. Vicksburg, Miss.—Rain has fallen on two days during the week, the rainfall reaching thirteen hundredths of an inch. The thermometer has ranged from 54 to 84, averaging 69. Helena, Ark.—Picking is going on rapidly and there is very little complaint about labor. There has been rain on one day during the week, the precipitation being four hun-dredths of an inch. Average thermometer 64.3, highest 82

Little Rock, Ark.—We have had rain on one day of the past week, the rainfall being seven hundredths of an inch. The thermometer has averaged 68, the highest being 85 and the lowest 51.

lowest 51. Memphis, Tenn.—Fine weather for gathering the erop, which is making good progress. Rain has fallen on one day of the week, the rainfall being one hundredth of an inch. The thermometer has averaged 63, ranging from 51 to 85. Nashville, Tenn.—We have had rain on two days during the week, the precipitation reaching thirty-four hundredths of an inch. The thermometer has ranged from 46 to 84, averaging 65.
Mobile, Ala.—Heavy rain in the interior the early part of week interrupted cotton picking. Rain has fallen on three days during the week, the rainfall reaching two inches and twenty-five hundredths. Average thermometer 75, highest 81 and lowest 55.

The precipitation reaching one inch and eighty-three hundredths. Average thermometer 75, highest 81 and lowest 55. Monigomery, Ala.—We have had rain on two days of the past week, the rainfall being seventy-four hundredths of an inch. The thermometer has averaged 70, the highest being 85 and the lowest 53. Selma, Ala.—There has been rain on two days of the week, the rainfall being seventy hundredths of an inch. The thermometer has averaged 67, ranging from 51 to 85. Madison, Fla.—There has been rain on one day of the week, the precipitation reaching one inch and ninety hundredths. The thermometer has ranged from 59 to 87, averaging 69. Allanda, Ga—Rain has fallen on three days during the week, the rainfall being one inch and eighty-three hundredths. Average thermometer 67, highest 83 and lowest 51. Savannah, Ga—We have had rain on two days of the past week, the rainfall being twenty-three hundredths of an inch. The thermometer has averaged 51, highest 83 and lowest 51. Savannah, Ga.—We have had rain on two days of the past week, the rainfall being twenty-three hundredths of an inch.

and the lowest 58. Charleston, S. C. There has been rain on two days of the

Charleston, S. C.—There has been rain on two days of the week, the rainfall being one inch and five hundredths. The thermometer has averaged 72, ranging from 61 to 83. Spartanburg, S. C.—We have had rain on two days of the week, the rainfall being one inch and forty hundredths. The thermometer has ranged from 47 to 85, averaging 66. Charlotte, N. C.—It has rained on one day of the week, the rainfall being one inch and sixty-three hundredths. The thermometer has averaged 65, the highest being 82 and the lowest 49.

the lowest 49. Greensboro, N. C.—Rain has fallen on one day of the past week, the rainfall being one inch and twenty-five hundredths. The thermometer has averaged 63, the highest being 78 and the lowest 48.

BREADSTUFFS.

Friday Night, Oct. 20 1911. Flour has met with a fair demand here at firm prices under the influence of the rise in wheat. At Minneapolis trade has also felt the stimulus to some extent of a stronger market for wheat and the expanding cash demand for both the home

trade and the foreign markets. Unless all the signs fail, the indications point to a better trade during the winter of 1911-12 than was witnessed in that of 1910-11. On the whole, the past week the trade has been less active than on preceding weeks. The flour output at Minneapolis, Duluth and Milwaukee for the week was 399,570 barrels, against 445,465 barrels in the previous week and 424,990 for the same week last year.

which in weeks. The flour output at Minneapolis, Duluth and Milwaukce for the week was 399,570 harrels, against 445,465 harrels in the previous week and 424,990 for the same week last year.
 Wheat has advanced under the stimulus of a better cash demand in Chicago, Kanasa City and St. Louis. Important factors have also been the relatively small world's shipments, a noteworthy decrease in the quantity on passage to Europe, rains in the southern part of the spring-wheat section of the Northwest and reports that some 400,000 bushels of hard winter wheat was sold at Omaha to Minneapolis millers; also, the export demand here has increased materially. It is noteworthy, too, that No. 2 red wheat on the track at Chicago has been up to the price of December. That is the highest price of the season. The total stock at Chicago fell off for the week 269,000 bushels. The total world's shipments reached only 8,488,000 bushels, against 11,024,000 in the previous week. December has been gaining on May, a fact which has helped to forment bullish sentiment. On Wednesday December crossed the dollar mark at Chicago. Europe has been buying both in Chicago and Winnipeg. Foreign markets have latterly been rising, partly owing to cold weather in Russia and Germany. Advances have taken place in Liverpool, Paris, Budapest and Berlin. Stress is also laid upon the idea that the world's shipments will be light for some weeks to come, or possibly till after the new Argentine crop begins to move. Rain is said to be needed in Western Argentina. The receipts at winter-wheat poor grading at Winnipeg are caided on wheat, it seems, on quite a liberal scale to millers in Buffalo and even as far south as Louisville. But on the rise very promient bull interests is the largest in ten years. The available stock in the world's not be rise of prices which, by the way, have reached new high levels for the season. The catego has contributed to the rise of prices which, by the way, have reached new high levels for the season. The vi

[VOL. LXXXXD1.

38½-inch standard, are quoted lower at 4¼c. to 4 5-16c. WOOLEN GOODS.—Demand for dress goods showed further improvement. The call for stock goods, such as heavy suitings, cloakings and coatings, notably rough effects and reversibles, was unabated; the volume of business, how-ever, was limited, owing to small supplies available. Retail-ers and cutters purchased staples and fancies for spring quite freely. Serges, broadcloths, cheviots and fine worsteds were well patronized. Additional duplicates on overcoatings and heavyweight suitings were reported in the men's wear divi-sion. Light weight lines for spring in better request, and some lines of worsteds have been advanced 2½ to 5c. a yard. FORELGN DRY GOODS—Linens of all descriptions were

some lines of worsteds have been advanced 2½ to 5c. a yard. FOREIGN DRY GOODS.—Linens of all descriptions were more active and prices firm; housekeeping lines were taken in larger volume by retailers in preparation for the Thanks-giving sales, and there was a noticeable expansion in demand for dress linens for spring. Seasonable lines of imported woolens and worsteds moved steadily, and orders for light-weight fabries for spring reached fair proportions.

STATE AND CITY DEPARTMENT.

News Items.

Ardmore School District (P. O. Ardmore), Carter County, Okla.—Board Ordered to Issue Bonds.—Newspaper dispatches state that the writ of mandamus sued for by I. R. Best, to compel the board of education to issue the \$100,000 high-school building bonds (V. 92, p. 1512) has been granted by Judge Russell. The board is instructed to deduct from the total sum a sufficient amount to purchase a site and necessary equipment and the remainder is to be spent in construction work work

Galifornia.—Irrigation Bonds as Savings Bank Investments. —In the "Chronicle" of Oct. 7, page 968, reference was made to an opinion by the State Superintendent of Banks concerning a law passed by the Legislature allowing invest-ment by savings banks in bonds of irrigation districts. The law referred to is given in full below:

thereof. SEC. 3. A written report of the investigation herein provided for shall be filed in the office of the State Comptroller; and if said commission shall report that the project is feasible, such district shall be authorized to issue bonds as provided in the Act under which it is organized or existing to the amount of 60% of the then agregate value of the lands, water, water rights canals, reservoirs, reservoir sites and irrigation works as set forth in said report, and such amount of bonds may thereafter from time to time be in-creased upon like proceedings as the value of said lands, water, water rights. SEC. 4. All bonds issued by said districts shall be registered with the State Comptroller, and it is hereby made the duty of the State Comptroller to provide for the filing and preserving of such reports and the registration of such bonds. SEC. 5. All bonds issued in commissions with the regular monts of the

to provide for the filling and preserving of such reports and the registration of such bonds. SEC. 5. All bonds issued in compilance with the requirements of this Act, and all bonds that heretofore have been voted or authorized by irri-faction districts organized or existing under the Act entitled "An Act to pro-vide for the organization and government of irrigation districts and to pro-vide for the acquisition and covernment of irrigation districts and to pro-vide for the acquisition and covernment of irrigation districts and to pro-vide for the acquisition and covernment of irrigation districts and to for the lands embraced within such districts, and also to provide for the dis-ribution of water for irrigation purposes." approved March 31 1897, or the Acts amendatory or supplementary thereto; provided, that such districts are now actually engaced in the distribution of water and are not in default in the payment of interest upon any bonds, shall be legal investments for all trust funds, and for the funds of all insurance companies, banks, bank-ing institutions and trust companies and for the State School funds, and whenever any money or funds may by law be invested in bonds of citles, citles and counties, counties, school districts or municipalities in the State of California, such money or funds may be invested in the said bonds of crimeration districts or municipalities may by any law now or here-enter enacted be deposited as security for any money or deposits or for the performance of any Act. bonds of brigation districts or for the performance of any Act. bonds of brigation districts or the limitations in this Act provided, may be so used or deposited. SEC. 6. The Attorney-General, the State Engineer and the Superin-tendent of Banks are hereby constituted the commission herein provided for. SEC. 7. All necessary expenses Incurred in making the investigation and report in this Act provided for shall be paid at the time of the making of the same by the irrigation district,

and reported on by said commission. **Canada** (**Dominion of**).—*Population in* 1911.—On Oct. 17 Hon. Martin Burrell, Minister of Agriculture, announced the population of the Dominion of Canada for 1911 to be 7,081,869, an increase of 1,710,554 since 1901. These figures are subject to a slight increase, as full returns have not been received from four electoral districts which are estimated at 70,000. The figures by provinces follow: <u>Province</u>

Cherryvale, Montgomery County, Kan.—Commission Form of Government Approved.—We have just been advised that this city on May 1 adopted the commission form of government.

Colorado.—Savings Bank Investments.—The Legislature on June 3 enacted a banking law, and we print below Sections 30 and 31 of this law, which prescribe the securities in which savings deposits may be invested:

SECTION 30-No bank, except savings banks, shall make, or purchase loans secured by morigage on real estate in excess of twenty-five per cent of its total interest-bearing securities; nor, except in the case of savings

banks, shall any such loan be for a longer period than one year. Banks may make, purchase and hold loans for mot to exceed five years upon first mortgages on real estate worth at least double the amount of the loan, to the extend of fitype erent of their savings deposits. No bank shall make or purchase loans on real estate unless such loans are secured by first mortgages, except as additional security to loans previously made. SECTION 31.—Except as permitted by Section 30 hereof, savings deposits shall not be loaned or invested except upon or in the following evidences of indeptedness to wit: Securities of the United States, of the secural States of the United States; counties, clites, towns, rigation districts, school districts, first-class commercial paper, negotiable paper secured by collateral having an actual cash market value in excess of the loan so secured and first mortgage bonds of steam or street railway, water, light, gas and industriat corporations which have earned at least 4% net per annum on their capital stock during the five years immediately pre-ceding the date of such loan or loans, and have not defaulted in the payment of the principal or interest of any debt during such period.

of the principal or interest of any debt during such period. **Covington, Ky.**—Purchase of Water Plant to be Arbi-trated.—At a meeting of the Board of Aldermen on Oct. 13, S. D. Rouse, Attorney for the Kenton Water Company, stated that he was authorized to sell the water-works to the city for \$32,000, or at a price to be fixed by arbitration, one arbitrator to be selected by the city, one by the company and a third by these two. A resolution was adopted to enter into the arbitration plan and naming City Engineer Meiners as the city's arbitrator.

Eugene, Ore.-Election on Commission Form of Government.—The question of adopting the commission form government will be voted upon, it is stated, on Nov. 13.

Janesville, Wis.—Election on Purchase of Water Plant.— Reports state that a special election will be held to vote on the question of purchasing the plant of the Manitowoc Water Co., valued at about \$300,000

Mattamuskeet Drainage District (P. O. Middletown), Hyde County, No. Caro.—Application For Injunction Denied. —The State Supreme Court on Oct. 11 affirmed the judg-ment of the lower Court refusing to grant an injunction to stay the issuance by this district of \$100,000 bonds. These \$100,000 bonds, together with \$400,000 previously authorized, were offered for sale on June 21 but not awarded on that day, as stated in V. 93, p. 66, owing to the pending litigation.

Newport, Campbell County, Ky.—Litigation.—Suit was filed Oct. 11 to compel the Newport National Bank to accept the \$100,000 4% street bonds awarded to it on Aug. 23 at its bid of \$100,801 50, V. 93, p. 549. The bank declined to take the bonds on the ground that they were illegal.

New York State. -- Governor Vetoes Bill to Exempt State ands from Provisions of Inheritance Tax Law. -- Governor Dix New York State.—Governor Vetoes Bill to Exempt State Bonds from Provisions of Inheritance Tax Law.—Governor Dix has vetoed Senator Grady's bill to exempt bonds or other obligations of the State of New York from the provisions of the collateral inheritance tax law. The Governor expressed the opinion that the receipts from the law mentioned would be reduced under this bill without any corresponding ad-vantage to the State.

Ohio.—Diegle Losses Appeal to Circuit Court.—On Oct. 17 the Franklin County Circuit Court decided the appeal of Rodney J. Diegle, Senate Sergeant-at-Arms, sentenced by Judge Kinkead of the Trial Court on Sept. 9 to serve three years in the penitentiary for aiding and abetting bribery. The Circuit Court upholds all the rulings of the trial judge as well as the sufficiency of evidence and the attitude of the State's attorneys.

Salem, N. J.—Commission Form of Government Rejected.— The proposition to establish a commission form of govern-ment was defeated on Oct. 17, it is stated, by a majority ment of 51 votes.

of 51 votes. San Francisco, Cal.—President Taft Breaks Earth for Panama-Pacific International Exposition.—Last Sunday (Oct. 15) President Taft turned the first spadeful of earth at the site of the Panama-Pacific International Exposition to be held in this city in 1915. The Exposition directors have decided, it is said, to spread the Exposition from the city waterfront in the bay to the hill that marks the ocean entrance to the Golden Gate. The buildings will be grouped in three sites along this route, so that from the first the view will be from the bay shore ocean-ward from the second over the hills and cliffs that lock the bay at Golden Gate, and from the third out over the ocean. A boulevard running along the edge of the cliff will connect these three sites. will connect these three sites.

will connect these three sites. Vermont.—Law Relating to Savings Banks and Trust Com-panies.—By Act No. 158 of the Vermont Legislature, ap-proved Jan. 27 1911, Sections 4615 to 4692, inclusive, of the Public Statutes of 1906, relating to savings banks and trust companies are completely revised. Many material changes are made in that part of the law concerning investments by savings banks, an entirely new section having been added which allows investment in railroad bonds. We print in full below Section 8 of the new law, which deals with investments, and we also give for comparison that part of the old law which dealt with municipal bonds: INVESTMENTS.

which dealt with municipal bonds: INVESTMENTS SEC. 8. The assets of banks shall be invested as follows: PIRST MORTGAGES OF REAL ESTATE. First. In first mortgages of unincumbered real estate, not to exceed in each case 60% of the value of such real estate. I located in Vermont, and not to exceed 50% of the value of such real estate if located elsewhere. Not tees than one-sixth of the amount of such mortgages shall be upon real estate in this State treating mortgages made on lands in an adjoining State within mortgages of real estate. For other than a sets a shall be invested in mortgages of real estate. Invested in mortgages of real estate of the amount of such assets may be invested in mortgages of real estate of the State. No investment shall be made on mortgages for elestate of the state. No investment shall be made on mortgages of real estate of uside of Vermont which is unimproved and unproductive, and the amount of such investments on mortgages in Vermont shall not be more than 40%
