

gitized for FRASER

OUR CONVENTION NUMBER.

With to-day's issue of our paper we send our subscribers our ' Bankers' Convention" Section, reporting the proceedings of the Convention of the American Bankers' Association, held at Detroit last week. This Convention number gives all the papers and addresses read and delivered before the Convention, and also the proceedings and discussions on the floor, including the deliberations of the Trust Company Section and Savings Bank Section.

THE FINANCIAL SITUATION.

A highly significant event is recorded in a four-line telegraphic dispatch which has appeared in the daily papers this week and has passed almost unnoticed. We have reference to the announcement that the Democratic State Convention in Wisconsin on Tuesday night of this week after a five-hour debate adopted a platform which pledges the repeal of the State Income Tax Law. Let the reader ponder well what this means. Think of a party convention in a radical State like Wisconsin-the State where Senator La Follette has been dominating affairs-taking a stand against an income tax law and think of the Democratic Party taking the lead in such a move.

Ever since Wm. J. Bryan in 1896 gained a foothold in the party the income tax has been a cardinal article in the Democratic creed. A declaration in favor of the income tax is contained in the platform adopted by the National Democratic Convention two months Year in and year out Democratic orators ago. have been singing the praises of the income tax. Mr. Bryan, Wm. R. Hearst, and others of lesser note, reenforced by the efforts of a sensational press, have been dilating upon the advantages and beauties of such a tax and been promising the millenium with its inauguration. Woodrow Wilson has been piping the same tune and Mr. Roosevelt, who is now fighting outside of party ranks, has been vociferating most strenuously in favor of the tax. President Taft has shown that he is not unkindly disposed towards it. In Congress the proposition for an Income-Tax Amendment to the Federal Constitution passed both houses almost unanimously, so confident were the politicians in both parties that an income tax would win popular support. Since then State after State has been ratifying the proposed Amendment, so that now it needs ratification only by two or three more States to make it a part of the U.S. Constitution. And yet now that Wisconsin-where radical ideas have flourished as in no other State of the Union-has actually put an income tax law upon its statute book, in advance of possible action by the Federal Government, every one is found arrayed in opposition thereto. Are we not right in saying that this is a most significant event?

Let the reader not assume that the action of the Democrats of Wisconsin was taken hastily or without deliberation. On the contrary, the Democratic candidate for Governor in Wisconsin, Judge John C. Karel, who got the nomination this week, made that the issue of his campaign and won out. At the Democratic primaries early in the month he defeated his opponent, Adolph J. Schmitz, for the Democratic nomination for Governor by a vote of 2 to 1. In Milwaukee County he carried every ward, town, village and city, with the single exception of

close of a campaign in which Judge Karel was bitterly attacked for his position on the income tax. The Milwaukee "Sentinel" says Judge Karel, when asked to become a candidate for Governor, did not hesitate to urge a repeal of the statute, and he elected to stand or fall on that issue. The "Evening Wisconsin" in its news columns on Sept. 5 declared that "Judge Karel's nomination was given him because of his determined, unqualifying opposition to the present income tax law as enforced in Wisconsin. In this belief there exists no difference of opinion."

It was the same at the State Convention this week. There was a minority opposed to the plank for repeal of the law. They sought to temporize, but the news accounts tell us that "those who at first stood out for the retention of the plank in the State Convention platform heard from their constituents and were willing to concede that a plank repealing the law ought to be adopted." The bitterness of feeling against the law is indicated in a dispatch from Chippewa Falls to the "Evening Wisconsin" of Sept. 14, saying that "the corporations in this city were amazed when they received statements from the Wisconsin Tax Commission assessing their income at the rate of six per cent. The operation of the law is arousing great indignation here. Some citizens are declaring that they will leave the State before they will be handicapped.'

This is the frame of mind in which the people of Wisconsin find themselves after the law has been in effect only a few months, and before any tax has actually been levied under it, the proceedings thus far being simply the preliminary steps taken for enforcing the provisions of the Act. The gist of the law has been set out in these columns several times. It embodies all the ideas for which the most prominent advocates of the income tax have always been contending; it includes the progressive principle-that is, provides for an ascending rate of tax, with the growth in income-and assesses incomes from the lowest to the highest.

The objections now urged against the law are such as have been frequently enumerated. It is declared that the law is inquisitorial and pries into the private affairs of men. No income tax can ever be otherwise. It is declared that it is not going to yield the amount of revenue expected and that its chief usefulness appears to be in providing places for the hangers-on of the party in power. It is also contended that it will operate unevenly and is driving people out of the State. Finally we are told that it is becoming evident that the tax will be burdensome upon all classes and that in its operation it must confirm the theory that after all it is the "ultimate consumer" who will pay the tax.

In the last analysis the hostility to the law is to be explained on the ground that in its practical operation it has proved an eye-opener. The average citizen of Wisconsin has in the past been listening with approval to the arguments in favor of an income tax because in his innocence he imagined the matter was of no concern to him personally. He supposed only the rich and the wealthy would have to pay it, and certainly only those whose income was in excess of his own. Why should he not be in favor of the tax under these circumstances? In actual operation he finds that the tax hits everyone-the professional man, the wage earner, and those in receipt of a moderate stipend as well as those whose reward for their services is on a more liberal scale. In other words, he perceives that the tax the town of Granville, where Schmitz had 6 majority. is a tax upon himself. He feels that he has been de-This result came, the Wisconsin papers tell us, at the ceived and consequently is turning against the law. is a tax upon himself. He feels that he has been de-

An effort is being made to cultivate the notion that it is merely this particular income tax law that does not suit; but the attempt is too transparent to succeed. The Wisconsin Democratic platform begins by saying, "We favor a national income tax as proposed in the platform of the National Democratic Party adopted at Baltimore," which, of course, means nothing save a desire not to embarrass Woodrow Wilson, and then goes on to say: "We are opposed to the present State income tax, forced upon the people of the State by the Republican Party at the last session of the Legislature. * We promise its immediate repeal. We pledge ourselves to submit to the people of the State at the time of holding the spring elections in April 1913 the question whether or not it is their desire that a State income tax law be enacted." It is safe betting that if Wisconsin voters are given a chance to declare themselves the income tax principle will go down with the law.

Senator La Follette appreciates that one of his pet notions is at stake and has determined to come to the rescue. Dispatches from Madison, Wisconsin, state that he will take the stump for the State Republican ticket because of the attitude of the Democrats as expressed in the platform declaring against the income tax. We are told that La Follette is angry with the Republican nominee, Mr. McGovern, (who has just secured a renomination) because of the aid which Mc-Govern extended to Roosevelt at the National Republican Convention at Chicago, but will support the Republican ticket nevertheless since he considers the menace of a Karel victory in the State election as the greatest danger of all. Mr. La Follette, however, will find the task no easy one. A wing of his own party is strongly opposed to the income tax law. In fact the Republican platform itself is more of a straddle on the proposition than a straight declaration in its favorwhich is further evidence going to show how the law has grown in disfavor. The Republicans, in their platform, contend that "the law and its administration should be simplified to the end that the citizen may not be put to unnecessary trouble and expense," but asserts that " the law is right in principle and should be given a fair trial." How this attitude is viewed by the best sentiment of the State appears from an editorial article in the Milwaukee "Sentinel". The "Sentinel" is one of the staunchest Republican newspapers in the State and as the following excerpt will show it is fearful that the Republicans will lose the State because the party in its platform has failed to take a stand in opposition to the income tax law.

"The Karel Democrats have had sense enough to seize on this issue of State income taxation. The Republicans missed their chance by failing to put an anti-income tax candidate against McGovern at the primaries. The right kind of a man could have beaten McGovern out on that issue as easily as Karel beat Schmitz—no doubt at all about it.

But now the prospect is (and as a Republican paper we admit it with the deepest regret) that Republican folly on that issue will enable the Karel Democrats to clean out the party in power at Madison, in spite of the ramifying machine Mr. McGovern has built up by patronage and creation of new public jobs.

The easy victory of Karel over Schmitz on the income tax issue makes it plain that the stronger the Democratsdraw that issue against Mr. McGovern the better it will be for their chances."

With the issue thus clearly defined, the result in Wisconsin would seem to be a foregone conclusion, for no man with his eyes wide open is going to vote deliberately for a tax upon himself. Whatever may be

said in favor of an income tax abroad, it has no place in this country and, what is more, there is no need for it here. The country is able to raise ample revenue in other ways for all the needs of the Government. Should Congress impose an income tax under the proposed Amendment to the Federal Constitution, it will be simply an invitation to reckless extravagance. It might begin with a tax of one per cent levied only on incomes in excess of \$5,000 but the limit of exemption would ere long be reduced to \$1,000 and the rate would steadily rise.

Dissatisfaction with the Wisconsin law presents, however, some other aspects, which should not be lost sight of. It serves to discredit radical ideas and may easily be followed by a revulsion of sentiment against the whole radical program as promulgated by such men as Bryan, Roosevelt, Hearst and Woodrow Wilson. When put to the test, the income tax, instead of a benefit, is proving a burden; as all the other promises of the ultra-radicals are of the same airy character, faith in their whole program will disappear. A disposi-tion has been noticed all over the country in recent weeks to turn away from the radical propaganda. Indeed, the continued recovery in general trade is founded on the idea that there is to be no political upheaval, notwithstanding the Roosevelt crusade. If this diagnosis should prove correct and the movement away from the extremist position should make progress, Mr. Taft's re-election might easily become assured. Mr. Taft is far from being a conservative in the sense that the word is used in the political world, but on this occasion he stands for the maintenance of the Constitution against the attacks of Roosevelt and his followers, and for the preservation of representative government.

In our trade with the outside world new high records for the period were again established in August, in both the inward and outward flow of merchandise. In fact, each month thus far of the current calendar year the imports have exceeded those of the corresponding interval of 1911, and the same is true also of exports, with the singlee xception of June, when the shipments of cotton and breadstuffs were unusually small. The salient feature of the latest official foreign trade statement is the continued and important growth it shows in our exports of manufactures, &c .- the commodities upon which the country now practically depends for any further expansion in our exports. With the extension of our area under cotton and larger crops of the staple, greater quantities will inevitably go abroad, and an augmentation in the outflow of mineral oils is to be expected; but with the increasing needs at home, foodstuffs, in the absence of efforts to considerably add to the production, will become a secondary item in our foreign trade.

The August exports this year were \$167,385,095, against only \$144,185,093 in 1911 and \$134,666,378 in 1910. Shipments of breadstuffs, although greater than in July, fell below those of August 1911, and the same is true of provisions and cotton. These losses from last year were only in part offset by gains in mineral oils and cottonseed oil, the month's exports of all the articles mentioned covering a value of only 451½ million dollars, against 483¼ millions a year ago and 46 millions in 1910. On the other hand, of other commodities (manufactures, &c.) sent out in August 1912, the aggregate value was 122 million dollars, or 261½ millions more than for the month of 1911 and nearly 34 millions greater than two years ago. For the eight months since Jan. 1 the 1912 figures, of course, set a new record, having been \$1,416,522-431, as compared with \$1,259,702,587 a year ago and \$1,054,053,115 in 1910. The articles that have contributed most largely to this year's increase are automobiles, iron and steel manufactures, leather manufactures and copper manufactures.

Imports of merchandise during August reached \$165,020,792, against \$125,945,385 in 1911 and \$138,-358,307 in 1910, and the total for the eight months at \$1,188,233,756 records an increase of 181 millions over the period a year ago and of 133 millions as contrasted with 1910. While an increasing inflow is to be noted in pretty much all of the various articles we import, the augmentation thus far in the current year as compared with 1911 is especially marked in such staple commodities as sugar, coffee, India rubber, vegetables, tin, hides and skins and wool.

Owing to the large imports, the net result of our foreign trade for August was a balance of exports of only \$2,364,303. For the eight months, however, the balance on the same side of the account is \$228,288,-675. In both cases this is smaller than a year ago, when the export balance for August was \$18,239,708 \$251,957,046 for the eight months. and August 1910 there were net imports of \$3,691,929 and for the eight months of that year the imports actually exceeded the exports by \$1,044,781. The record eight months' export balance was in 1908-\$391,369,960.

Gold production in the Transvaal for Aug. 1912 fell a little below the total for July but largely exceeded that for the month of 1911. The aggregate yield as cabled last week was 764,737 fine ounces, bringing the total for the period since Jan. 1 up to 6,073,982 fine ounces. These results compare with 713,407 fine ounces for Aug. 1911 and 5,398,817 fine ounces for the eight months, and 649,269 fine ounces and 4,947,-488 fine ounces respectively in 1910. The current rate of production maintained during the remainder of the year would insure for the Transvaal for 1912 a yield of nearly 9,150,000 fine ounces, and taking into account the increasing production of Rhodesia, West Africa, &c., give for the whole of Africa a total of approximately 101/4 million fine ounces, or a virtual doubling of the output of the mines of that country in seven years.

The record of building operations in the United States for Aug. 1912 is seemingly an unfavorable one when comparison is made with the result for the corresponding period of the previous year. As a matter of fact, however, the decline indicated is explained entirely by an unusual development in Aug. 1911. Under a new ordinance that went into effect in Chicago on Sept. 1 of that year the height of buildings to be erected in that city is restricted to 200 feet whereas under the old ordinance an altitude of 260 feet was allowed. To take advantage, therefore, of the latter, plans for very many buildings were filed in the closing days of August, the permits issued in the five days ended the 31st covering estimated expenditure of almost 15 million dollars and swelling the month's total to the extraordinary amount of \$26,200,500. Much of the work then initiated has remained dormant since then and some of the projects may never be carried to completion; but the effect was to abnormally inflate the country's reported operations for

disturbed by a special circumstance: at Duluth, in the last mentioned year, the U.S. Steel Corporation (in August) filed plans for a branch plant estimated to involve the expenditure of some \$10,000,000. Eliminating from the comparison these two unusual developments, there would remain for 1912 an aggregate of intended outlay fully 10 million dollars greater than for 1911 and nearly 13 millions in excess of 1910.

The foregoing explanation is essential in preventing the drawing of wrong conclusions as to the relative activity in construction work this year as compared with either August 1911 or August 1910. Taking the August compilation as it stands, we find that the total for 1912 for 136 leading cities is \$85,956,515, or \$7,510,-479 (8%) less than for the month of 1911, but \$4,443,-502 (5.5%) greater than in 1910. For Greater New York the result is much more favorable than a year ago, the contrast being between \$18,570,299 and \$13,886,012. Exclusive of Greater New York the prospective outlay is \$67,386,216 for 1912 against \$79,580,982 in 1911 and \$66,718,820 in 1910, the most satisfactory showing being in New England and at the South.

For the eight months this year Greater New York's operations, at \$161,776,809, exhibit a gain of 18.3% over last year and 8.7% over 1910. Outside of this city the 1911 aggregate is exceeded by 2.3% and that of 1910 by 8.7%, the respective totals having been 5101/8 millions, 4981/2 millions and 4691/8 millions. For all cities combined the intended expenditure is only a little less than 672 million dollars for 1912 as against 635 1-3 millions last year and 618 millions in 1910. Analyzing the results by sections of the country, we find that 22 New England municipalities show a collective gain of 101/2 million dollars over 1911, thirteen on the Pacific an excess of 11 millions and 21 "Other Western" one-half a million. The middle section (New York excluded), 30 cities in all, shows a loss of 2 millions, the Southern (24 cities) 21/4 millions and the Middle West (25 cities) 61/2 millions, with the decrease at Chicago alone 15 millions, the reason for which is stated above.

As regards Canadian building operations, there is nothing new to be said. Activity continues unprecedented in most localities, a not unnatural sequence of the efforts that are being put forth to develop the various resources of the Dominion. For the month of August returns are at hand from 48 cities and in the aggregate they indicate projected expenditures for building construction work of \$18,633,790 for the month this year, against \$12,648,667 in 1911 and less than 9 million dollars in 1910. The eight months' total for the same 48 cities (25 in the East and 23 in the West) reaches 1311-3 million dollars, or 36 millions more than in 1911 and 59 millions greater than for 1910.

After a considerable amount of uncertainty, which, however, is one of the characteristics of financial or other negotiations with China, the net result appears to be that an independent loan of £10,000,000 has been arranged and that a first payment of £500,000 on account, to bind the bargain, has been made. We explained last week the genesis of this transaction and showed how it had originated in the mind of an American promoter of ample assurance named Wendell This week's addition to the news-for the Jackson. agreement for the loan was signed on Aug. 30 by the Chinese Minister in London-shows that Mr. Jackson interested the London Stock Exchange firm of C. that month. Contrast with 1910 is also considerably Birch, Crisp & Co. in the enterprise and it was this

firm that organized the syndicate that includes the Lloyds Bank and other large financial interests. Some significance is attached to the participation of the Stock Exchange firm in question as it has at times been interested in a large way in Russian enterprises. Some connection, therefore, is sought to be traced in some circles between the new loan and the opposition of Russia and Japan, of about two months ago, to the Six-Power loan, which opposition was, however, on the surface at least, subsequently withdrawn. It is reported by cable that £500,000 in Chinese Treasury bills, representing the first payment on account of the loan, have been offered in the London market and have been accorded a favorable reception. Although there has suddenly appeared in competition other Chinese Treasury Bills which most probably represent the loan to China made by a Belgian Syndicate early in the year. Bankers in London connected with the negotiation of the so-called Six-Power loan announce that the ministers of these Powers in Peking have been instructed to express disapproval of the independent loan and also have declared that China has no liberty, pending a definite closing of the negotiations with the Six-Power syndicate, to make outside arrangements. If the Chinese Government does contract other loans, they urge, the lenders advancing the money will do so at their own risk and without the support of the governments interested. How this can be so definitely stated does not appear altogether clear. China informally re-approached the old syndicate during the present month (after the signing of the independent loan contract) but the banking group will, it is announced, not reopen negotiations unless assured of China's sincerity.

Representatives of the independent syndicate are quoted as scoffing at the suggestion that the British Government will ask China to repudiate the contract made by the Chinese Minister at London under the authority of the Chinese Premier and the Minister of Finance. Before negotiating with China, according to a statement made by C. Birch, Crisp & Co., that firm made inquiries at the Foreign Office and were told that the field was free and open and that the Foreign Office would not attempt to interfere. The firm suggested that the Foreign Office write a note saying that for reasons of State the Office would prefer that no one outside of the Six-Power group attempt to make a loan; but the Foreign Office replied again that the field was open, that it would not put anything into writing, but that the British Government preferred to see the loan made under the conditions and through the financiers of the Six-Power group.

In diplomatic circles at Peking it is believed, according to press dispatches, that the new Chinese loan is principally an effort to force the Hong Kong and Shanghai Bank to allow free English participation in the pending Six-Power loan. The agreement, signed in London Aug. 30, gave China the option, it is reported, of making a 5% loan at 89, a 5½% loan at 92 or a 6% loan at 95, with 1% additional for commission. The National Assembly at Peking on Tuesday adopted a resolution pledging that body to support the Government in the conclusion of any reasonakle loan scheme.

It is gratifying to learn that the Russian Government has agreed to the negotiation of a new treaty with our Government to supersede that which will be terminated on January 1 next. The formal diplomatic exchanges, however, will not be begun until Secretary Knox returns from Japan. The treaty of | ness schools are educating trained men for the field. Gov-

commerce and navigation between the United States and Russia, which has been in force since 1832, was abrogated by President Taft last December and a full year's notice of its formal termination given. It will be recalled that the President's action arose from the Russian Government's refusal to honor American passports in the hands of American citizens of Jewish birth seeking to enter Russia. Early in December the House of Representatives, with only two dissentient votes, adopted a resolution charging Russia with violoting its treaty obligations and giving notice of the intention of this Government to terminate the treaty at the expiration of the year. Before the Senate took formal action on the resolution, President Taft, in order not to unnecessarily create a feeling of resentment by Russia, caused the Russian Government to be officially notified of our intention to bring the treaty to a close, but did not present any statement of reasons or make any imputations against the Russian Government's conduct in the passport matter. Thus the way has remained opened for the friendly negotiations that have already begun.

There has been another severe battle in Tripoli. According to advices which come from Italian sources, the most sanguinary engagements of the war were fought on Tuesday near Derne, a town on the Mediterranean coast 140 miles east of Bengazi. The Italians lost 61 killed and 113 wounded, while the Turks and Arabs left more than 800 dead on the field and more than 1,000 were wounded. Nevertheless, there is encouragement in the news from abroad to believe that an agreement on peace terms has virtually been reached.

On Oct. 15 of next year it is expected by Col. Goethals, in charge of Panama Canal construction work, that navigation between the Atlantic and the Pacific oceans will be inaugurated by an American naval vessel. This is the tentative date that has been set for the opening of the Canal, although the formal The opening will take place on January 1 1915. President's approval of the Canal-opening program is being awaited by Col. Goethals, who now believes that a saving of \$25,000,000 will be made in the cost of the great waterway as compared with the \$400,000,000 estimated cost of construction. Such energy is being exerted by European and even Asiatic government interests to get ready for the opening of the waterway and develop business relations with the Latin-American republics that the United States must hurry or be willing to appear at the tail end of the international race for Spanish-American trade, according to John Barrett, Director-General of the Pan-American Union, who has recently been studying conditions abroad. Mr. Barrett summarizes his observation in his official report as follows:

1. Every important port of Great Britain, France, Germany, Holland, Belgium, Scandinavia, Spain, Italy and Austria is being improved to the highest degree of efficiency for oversea commerce.

European shipbuilding yard of recognized 2. Every standing is busy to its capacity constructing ocean-going merchant vessels. Old-established steamship lines are adding up-to-date vessels to their fleets, and new companies are being formed and ordering ships.

3. European governments are instructing their diplomatic and consular agents to study and report upon every phase of trade opportunity expected to result from the Canal. Their chambers of commerce and their commercial organizations are co-operating along the same lines, and the busi712

ernment officials and representative men in private life are showing particular hospitality and courtesies to the visiting representative men of Latin America and all the other countries whose trade they want. Their banking and investment houses are extending their foreign facilities. Their private business companies of already large established trade and their new companies are sending agents and scouts to Latin America and all parts of the world affected by the Canal to investigate trade possibilities.

4. In Japan three steamship companies are building vessels for the Canal. Japanese banks are considering the opening of branches in Latin America. A score of Japanese manufacturing, exporting and importing houses have numerous agents in Central and South America. One Chinese-owned steamship company is planning to operate a line from Shanghai and Hong Kong to Central and South America. Australia's commercial organizations are sending men to South America to develop trade, while Australia and New Zealand are planning to establish a canal steamship line of their own. A new line of freight vessels is to run from Calcutta or Bombay to South America. Canada will run two new direct lines, respectively, from Vancouver and Montreal to the corresponding coasts of Latin America.

5. The west or Pacific coast of South America, reaching 5,000 miles south from Panama, is showing great preliminary activity. Chili, Peru and Bolivia are spending \$50,000,000 in opening up their interiors with railways. Chili is building at Valparaiso a new artificial harbor to cost \$15,000,000. Guayaquil, the principal port of Ecuador, and one of the best harbors of the Pacific Ocean, is to be made sanitary at a large expense. Callao, the chief port of Peru, is being improved. On the east coast the activity is even greater, for both Argentina and Uruguay will spend nearly \$30,000,000 in port improvements at Buenos Aires and Montevideo, respectively. Brazil is putting in first-class condition every port along her 3,000 miles of coast line from Rio Grande do Sul, in the South, to Para, at the mouth of the Amazon. One hundred million dollars is being expended in constructing new railways into the interior of Brazil. Venezuela and Colombia, Central America, Mexico, Cuba and the other West Indian countries are awakening also to the significance and possibilities of the Canal, and are sending agents and appointing commissions to study the situation as it affects them.

In a note presented to the Nicaraguan Government by United States Minister Witzel, our Government seems to have definitely outlined its policy that promises to apply as a warning, not alone to Nicaragua, but to other countries not excluding Mexico. This note, which was issued on telegraphic instructions from Acting Secretary of State Huntington Wilson, has been placed in the hands of the rebel leaders in the recent Nicaraguan revolt and published in every newspaper in Nicaragua. It has also been telegraphed to every United States legation in Central America and through them communicated to the various countries. The note asserts the purpose of the United States to guard the legations, protect American life and property and prevent a recurrence of the corrupt and barbarous order of things which prevailed under the tyranny of the former dictator President Zelaya. It follows, in part:

You may textually communicate to the Government to which you are accredited, and unofficially to the rebel leaders, as well as make public, the following as an authorized declaration of the policy of the United States in the present disturbances:

present disturbances: "The policy of the Government of the United States in the present Nicaraguan disturbances is to take the necessary measures for an adequate legation guard at Managua, to keep open communication and to protect American life and property.

they extend this protection to all the inhabitants of the republic.'

"In this situation the policy of the Government of the United States will be to protect the life and property of its citizens in the manner indicated, and meanwhile to contribute its influence in all appropriate ways to the restoration of lawful and orderly government, in order that Nicaragua may resume its program of reforms unhampered by the vicious elements who would restore the methods of Zelaya.

"The revolt of General Mena in flagrant violation of his solemn promises to his own Government and to the American Minister and of the Dawson agreement, by which he was solemnly bound, and his attempt to overturn the Government of his country for purely selfish purposes, and without even the pretence of contending for a principle, make the present rebellion in origin the most inexcusable in the annals of Central America. The nature and methods of the present disturbances, indeed, place them in the category of anarchy, rather than ordinary revolution."

The London market has been compelled to supply an active foreign demand for gold, including £150,000 for New York account, which was purchased at the weekly offering of South African bullion on Monday. and an additional sum of £70,000, which was announced yesterday (Friday). Part of the first engagement was shipped to New York from Southhampton on the German steamer Kaiser Wilhelm der Grosse and should arrive on Tuesday; and the remainder leaves on the Cunarder Mauretania to-day (Saturday) and is due to arrive on Friday next. Therefore only the £54,000 which is the amount on the German boat can participate in next week's Clearing House statement. The London market, to quote the City article of the London "Times" of Thursday, "was somewhat puzzled by the announcement made in New York that £150,000 gold had been engaged in London for export to the United States. It was thought at first that the gold must be obtained from two or three clearing banks which are understood to keep stocks of the metal, because nothing was known on Monday in the bullion market of any sales of South African bars to purchasers for American account. It appears, however, that out of a large portion of these bars believed and announced to be secured for 'the Continent' the above sum was really for the other side of the Atlantic. It is difficult to understand what is gained by attempts to conceal operations of this kind, which from their nature cannot be kept secret more than a few hours."

It is quite evident, therefore, that New York was well in advance of London in its information regarding its initial importation of gold for the season. The competitors of Messrs. Goldman, Sachs & Co., the importers, are emphatic in their suggestion that the transaction was a special one and that at the ruling rates for sterling exchange it could not have been completed at a profit. However, it seems to have become quite customary for such criticism to be leveled at initial importations or exportations, and we have no doubt that the bankers mentioned are quite satisfied with the results. In fact no attempt is made to deny that it constituted a so-called special transaction and the facts are that the gold is in the nature of part payment for a sale of \$4,000,000 of New York City revenue bonds which mature in January and were sold by the City on a $4\frac{1}{2}\%$ basis. It is understood that the bankers in question placed a large block of these bonds abroad and that the importation of gold referred to represented part of the payment for the securities, the remainder of the purchase price being financed in the usual course of exchange transactions. Within the last six weeks Comptroller Prendergast has sold \$25,000,000 in New York City revenue bonds that will on the average have cost the City a shade less than 4%. There is of course no 4% money available on this side at the present time. New York's short-term bonds have proven particularly attractive abroad. The engagement of gold just referred to is the first that has been announced since August 8 1910, when a movement was culminated that brought in altogether \$13,225,000 from London. Incidentally it is of interest that Goldman, Sachs & Co., who have inaugurated this season's movement, made the concluding engagement in the 1910 movement.

Cable advices from London express the expectation in the bullion market there that New York will be an active bidder in next Monday's weekly offering of Cape gold. Last week's offering amounted to £820,000, of which £150,000 was taken by India, leaving $\pounds670,000$ for other countries, as it is not believed that the Bank purchased any of the offering. As already intimated, considerable mystery seems to have clothed the entire transaction. Egypt, Turkey, Holland and Java purchased gold at the Bank of England during the week and London cablegrams suggest that the Bank is inclined to resist shipments of the precious metal to New York until the German demand to meet the exigencies of closing quarter-year had been satisfied. It was reported that while London was prepared to discount American bills freely in view of the large export movement of American agricultural products that is in sight, any determined demand from America for actual transfer of gold would quickly cause an advance to 5% in the Bank of England's minimum discount rate, as such a demand would be coincident with demands from Egypt, Germany, Turkey and Brazil.

In Lombard Street bank discounts still continue much firmer than day-to-day money. For sixty day bankers' acceptances quotations at the close yesterday were cabled at $3\frac{3}{8}(@3\frac{1}{2}\%)$, while long bills were $3\frac{3}{4}\%$. These are the spot quotations. A week ago the quotation for short bills was $3\frac{3}{8}$ and $3\frac{5}{8}\%$ for long. Those to arrive closed fractionally firmer for the week at $3\frac{3}{4}\%$ for sixty days and $4(@4\frac{1}{8}\%)$ for ninety days.

There is also talk, according to Paris cables, of an increase in the official discount rate of the Bank of France in the near future from the 3% basis that is now current. Such an advance, however, does not seem to be generally credited in New York banking circles that are identified especially with the French centre. But a probable basis for the report is the fact that the open market rate in Paris has been advanced to the official basis, which is an unusual occurrence in the French market. Paris, as we noted last week, has been experiencing a worldwide demand for funds and the banks at that centre are always inclined to be cautious. At Berlin a decline in the open market rate of 1/4%, to 43/8%, for spot bills during the week suggests that, as has heretofore proven the case under such circumstances, preparations have been made well in advance to meet the large payments due at the end of the quarter year. Bllls to arrive, however, are quoted at 41/2@43/4%. German financial interests, we learn, have been bidding on a basis of 6% for thirty day loans in New York, but it cannot be discovered that these offers had led to definite business, since American bankers at the moment seem to have all they can do to look after their customers on this side of the water. The private discount rate in Amsterdam is now quoted at 43%@41/2% notwith-

standing that the Bank rate still remains at 4%. Brussels is $\frac{1}{4}\%$ higher for the week and closes at $4\frac{1}{4}\%$. The official Bank rates at the leading foreign centres are: London 4%; Paris 3%; Berlin $4\frac{1}{2}\%$; Brussels 4%; Amsterdam 4%; Bombay 3%, and Bengal 3%.

The Bank of England on Thursday reported a loss of £536,666 in its gold and bullion holdings and now holds £41,632,435, which compares with £43,078,749 one year ago and £39,091,224 in the corresponding week of 1910. The total reserve was reduced £125,000, to £31,534,000, as against £32,572,834 last year and £29,905,229 in 1910. The proportion of reserve to liabilities is now 50.64%, which compares with 50.34% last week and 56.70% at this date last year. The loan account of the Bank continues well ahead of recent years, although it was reduced £491,000 during the week, to £35,597,000, comparing with £29,080,887 in 1911 and £29,111,610 the year preceding. Public deposits increased £371,000 but other deposits decreased £1,000,000, while note circulation showed a contraction of £411,000. Our special correspondent furnishes the following details of the gold movement into and out of the Bank for the Bank week: Imports, £73,000 (of which £7,000 from Australia and £66,000 bought in the open market); exports, £1,245,000 (of which £500,000 to Egypt, £300,000 to Turkey and £70,000 to miscellaneous destinations, and £375,000 German coin sold), and receipts of £635,000 net from the interior of Great Britain.

The weekly return of the Bank of France shows that the Bank is firmly holding its gold despite the urgency of the worldwide demand. The gold coin and bullion holdings, instead of decreasing, show a net gain of 71,000 francs, bringing the total up to 3,279,896,000 francs, which compares with 3,122,970,000 francs last year. Paris cable advices state that gold is getting perceptibly scarcer in circulation and is being quoted at about 30 francs per 1,000 francs premium. The Bank continues to pay out silver very freely, this week's statement indicating a further loss in this item of 3,675,000 francs. This reduces the total holdings to 769,150,000 francs, which compares with 823,325,000 francs at this date one year ago and 848,025,000 francs in 1910. In fact there has been a gradual decrease in the Bank's silver holdings since 1906, when the total amounted to 1,047,461,634 francs. Note circulation this week registered an expansion of 9,950,000 francs, but is still 71,500,000 francs below last year's statement. General deposits decreased 4,625,000 francs compared with a week ago, discounts increased 49,300,000 francs and treasury deposits increased 20,600,000 francs, while advances were curtailed 1,250,000 francs.

The Imperial Bank of Germany, whose weekly statement was published on Monday, showed a distinct strengthening in its position as a preparation for the strain that has been so generally predicted for the close of the September quarter. The Bank reports a further increase of 13,574,000 marks in gold and of 22,778,000 marks in total cash. Meanwhile deposits increased 121,722,000 marks, though discounts were also increased 69,598,000 marks. Direct loans, however, were reduced 6,802,000 marks and notes in circulation showed a contraction of 26,721,000 marks, The Bank's total stock of gold and silver is now 1,302,480,000 marks, which makes a favorable comparison with 1,145,013,000 marks in 1911 and 1,040,-160,000 marks in 1910. Total@oans"and"discounts are making a much better showing than has recently been the case, amounting to 1,264,540,000 marks, against 1,220,538,000 marks in 1911 and 1,095,440,000 marks in 1910. The outstanding circulation of the Imperial Bank is 1,719,606,000 marks, which compares with 1,644,131,000 marks one year ago and 1,514,180,000 marks two years ago.

In local money circles there has been at the close of the week, a slight relaxation evident. Call rates on Monday reached a maximum of 51/2% for Stock Exchange loans and renewals throughout the week were almost entirely on a 5% basis until yesterday, when the ruling basis was 434%; while loans for fixed maturities are also fractionally lower. As was to have been expected, the bank statement last Saturday indicated an active curtailment of loans. The decrease in this item, including all banks and trust companies in the Clearing House, amounted to \$27,435,000. However, a decrease in deposits cut down the reserve requirements \$8,076,650, so that notwithstanding the loss of \$7,208,000 in specie and legal tenders, the actual cash surplus above requirements indicated an increase of \$868,650, making the total amount of free cash \$3,619,750, which compares with \$24,322,300 one year ago and a surplus held by the banks alone in 1910 of \$21,369,200. This is certainly a very narrow margin for the financial institutions of New York to hold at this season of the year. There has, however, been a perceptibly calmer feeling in banking circles during the week, as a belief prevails that, should conditions warrant it, the Treasury Department will afford substantial relief by increasing the Government's deposits in the national banks throughout the country. Representatives of the Treasury Department have this week interviewed New York banks as to the necessity of the Government stepping in, but we understand they have received slight encouragement for prompt action. The position of New York bank officers seems to be that the money situation, while undoubtedly reflecting an active demand, is in a very healthy condition. Banking supplies are not tied up in speculative movements and the demand is purely of the wholesome and routine character that comes from improvement in our mercantile and manufacturing activities, which are coincidental with an active demand for banking facilities from the agricultural sections of the country occasioned by the necessity of gathering and marketing one of the largest cropsconsidering production as a whole-that this country has ever enjoyed. The legal rate of interest has not been reached even for demand loans, while time money is available for legitimate purposes at about 51/4 %. This is a situation, bank officers believe, that does not in any way indicate distress, and merely marks a period of prosperity in banking circles that is legitimate and compensates for the many protracted periods of unprofitable business that the financial institutions of the country are called upon to face. Of course the question of self interest on the part of New York banking institutions is not entirely absent in such reasoning, for it is recognized that if the Treasury Department decides to release funds, the distribution will be more or less general through the banks of the agricultural districts, and the result would naturally be a reduction of interest rates throughout the country, in which New York would participate. But on the other hand they would not receive a sufficient volume of Government funds to compensate for the lower interest rate that would probably ensue on funds already employed. A cleared by the full preparations by Berlin for the strain

part of the \$1,100,000 in gold which was engaged in London on Monday for shipment to New York will undoubtedly appear in next week's bank statement and the remainder the week following, and as it is expected in foreign banking circles here that imports of the precious metal will soon become quite general, it seems fair to assume that continued relief from this source may be anticipated. Furthermore, the banks are in a position to take advantage of the emergency currency act of 1908, which will permit them to increase their circulation when occasion arises; but there is little expectation that such action will be necessary. There is very little market at the moment for mercantile paper, but this is not causing much inconvenience as merchants and manufacturers, anticipating the present strain in the money situation, as a rule seem to have made their preparations well in advance. It is understood that some of the note brokers who themselves purchase the paper of their customers and endorse it to re-sell as double-name paper have found some difficulty in disposing of the full amount of their purchases and have appeared as borrowers for short terms at some of the local banks, depositing the paper in question as collateral. Domestic exchange rates have not ruled so strongly against New York at the interior this week and New York exchange at Montreal has ruled about par, suggesting that both the interior and Canadian banks have been more inclined to permit their funds to remain in this center at the remunerative rates at which they can be employed.

Call money during the week has ranged between 41/2 and 51/2%, with, as already noted, 5% the renewal rate during most of the week. On Monday the highest figure was $5\frac{1}{2}\%$ with $4\frac{1}{2}\%$ the lowest and 5% the renewal rate; Tuesday's and Wednesday's highest was $51\!\!\!\!/4\,\%$, lowest $41\!\!\!/_2\%$ and renewal rate 5% ; on Thursday the maximum figure was 5% with 41/2% still the lowest and 5% the ruling rate; Friday's extremes were 5% and $4\frac{1}{2}$ %, with $4\frac{3}{4}$ % again the rate for renewal of Stock Exchange loans. Time money shows a fractional decline from the quotations of a week ago, closing rates being 51/4 @51/2% for sixty days, 51/2% for ninety days, 51/2@53/4% for four months, 51/4% for five months and 51/4@51/2% for six months and longer maturities. Mercantile paper commands 51/2% for choice six months' names and 6% for bills not usually classed as choice. Sixty and ninety days endorsed bills receivable are nominally 51/2% minimum, but the offerings continue extremely light.

Sterling exchange has made further progress toward the gold-import point this week and the expectation in foreign banking circles here is that there will be a considerable inward movement of the precious metal in the near future. An engagement of \$750,000 in bullion was arranged on Monday last for shipment from London to New York and this was increased yesterday to \$1,100,000. This, however, was more or less of a special transaction and was, as we have explained elsewhere, connected with the placing of a considerable amount of New York City revenue bonds abroad. The metal was a part of the regular weekly offering of South African bars, and it is not considered improbable that New York will again be represented among the bidders at next week's offerings of Cape gold, especially as, if we are to believe usually well informed London correspondents, the Bank of England is inclined to resist sales of gold to New York until the Continental situation has been that is expected at that centre at the close of the current quarter-year. It is in fact intimated that any pressure of New York at the moment at the Bank of England for actual gold would mean an advance in the Bank's discount rate to 5%. Therefore, it seems fair to assume that if New York bankers are desirous of obtaining supplies in the British center they must seek the metal outside the jurisdiction of the Bank. American finance bills are being purchased with entire freedom in London and are subject to no discrimination whatever, and day-to-day funds there are available at 134@2%. In fact it is only in the discount market that the indication of firmness obtrudes. The French exchanges are somewhat irregular, the sterling demand rate in Paris as quoted by cable last evening being 25.281/4 francs, which is a decline of 1/4 centime for the week. Demand sterling in Berlin was 1/4 pfennig higher for the week at 20.451/2 marks.

Compared with Friday of last week, sterling exchange on Saturday advanced very sharply, a recovery of some 30 points from the previous close being noted; this was mainly due to expectations of a favorable bank statement here; the range was 4 8580@4 8585 for demand, 48630@48635 for cable transfers and 4 8255@4 8265 for sixty days. Sterling rates eased off again on Monday, on a resumption of the firmness in call money, though before the close there was a slight rally on covering of shorts; demand was quoted at 48570@48580, cable transfers at 48620@48630 and sixty days at 4 8240@4 8250. On Tuesday, after opening firm, weakness again set in and demand declined to 4 8565@4 8575 and cable transfers to 4 8615@ 4 8625; sixty days, however, advanced to 4 8250@ 4 8260. There was a further decline on Wednesday, when demand fell to 4 8555 and cable transfers to 4 86; later the undertone became firmer and closed at 4 8560@4 8565 for demand, 4 8605@4 8610 for cable transfers and 4 8230@4 8240 for sixty days. The continued high rates for money here, together with bearish speculative operations, brought about another break in sterling on Thursday and demand declined to 48545@48555, cable transfers to 48595@48605 and sixty days to 4 8220@4 8230. On Friday there was an exceedingly dull market with unimportant fluctuations in rates. Closing quotations were 4 8220@4 8230 for sixty days, 48545@48555 for demand and 4 8590@486 for cable transfers. Commercial on banks closed at 4 805% @4 82 and documents for payment 4815/8@4821/2. Cotton for payment ranged from 4811/2 to 4813/4; grain for payment 4821/4 to 4 821/2.

The New York Clearing-House banks, in their operations with interior banking institutions, have gained \$4,668,000 net in cash as a result of the currency movements for the week ending Sept. 20. Their receipts from the interior have aggregated \$11,350,000, while the shipments have reached \$6,-682,000. Adding the Sub-Treasury operations, which occasioned a loss of \$5,800,000, the combined result of the flow of money into and out of the New York banks for the week appears to have been a loss of \$1,132,000, as follows:

| Week ending Sept. 20 1912. | Into | Out of | Net | Change in |
|----------------------------|--------------|--------------|------|-------------|
| | Banka, | Banks, | Ban | k Holdings. |
| Banks' interior movement | \$11,350,000 | \$6,682,000 | | \$4,668,000 |
| sub-Treasury operations | 20,100,000 | 25,900,000 | | 5,800,000 |
| Total | \$31,450,000 | \$32,582,000 | Loss | \$1,132,000 |

The following table indicates the amount of bullion in the principal European banks.

a The total of gold in the Bank of Russia includes the balance held abroadthat is, the amount held for Russian account in other Continential banks. The proportion so held, and consequently duplicated in the above statement, is about one-seventh of the total this year, against about one-eighth a year ago. The Austro-Hungarian Bank statement is now issued in Kronen and Helter instead of Gulden and Kreuzen. The reduction of the former currency to stelling Pounds was by considering the Gulden to have the value of 80 cents. As the Kronen has really no greater value than 20 cents, our cable correspondent in by dividing the amount of Kronen by 24 instead of 20. The Guislan de liver given in our table of coin and builion in the Banks of Italy and Belgium is made from the best estimates we are able to obtain: it is not change to reacurate, as the banks make mo distinction in their wreckly returns, merely reporting the total gold and silver, but we believe the division we make is a close approximation.

THE BANKS AND THE POSTAL SAVINGS.

In all the recent discussion of the proceedings of the present Congress, one subject has been much neglected. The Postal Savings Bank law, enacted June 25 1910, has now been in operation considerably over two years. But information has been meagre as to its actual workings and, in particular, there has been little general knowledge as to what further step, if any, must be looked for in the next development of the undertaking. In a general way, it was known that the scope of the postal savings banks was being slowly expanded, but it was also known that nothing of very great financial importance had been accomplished. There was a vague general impression that a design for extending the system much further existed at Washington. But as to the particulars nothing seemed to be known. For this reason, the address of Mr. Theodore L. Weed, Director of the Postal Savings System, to the Savings Bank Section of the Bankers' Convention at Detroit last week was a matter of considerable interest. He was talking to experts, and he outlined his own ideas with a precision such as would be expected before such an audience.

First, as to what has been done. About 13,000 offices, Mr. Weed explained, have been established as postal savings branches, and additional offices are to be selected at the rate of 1,000 per month. In a little less than half of these depositories, receipts of the office are being deposited, under the law, in local banks; in the remaining offices, which are mostly located in places where no banks were available for the purpose, receipts have thus far been deposited with the receiving institutions for the other postal branches. At the opening of this present month the amount of \$23,200,000 stood to the credit of depositors, whose individual number was 270,000, making an average of about \$85 for each account. In addition to the above depository sum, \$1,314,144 had been converted by depositors, under the law, into United States postal savings bonds.

So much for what has actually been accomplished, Mr Weed next proceeded to outline his own ideas. In general, his position was that the existing restriction on the deposits to be received from any one depositor was too rigid. As the law now stands, the amount of such deposits by one person is limited to \$100 a month and the total balance receivable from any one depositor must not exceed \$500. Mr. Weed had this to say regarding these restrictions:

"I believe that the next step taken in the development of the postal savings system in the United States should be the amendment of the present law, so as to do away with the limitation on deposits, with the proviso that no interest shall be paid on any sum greater The proviso would remove all incentive than \$1,000. for the transfer of accounts now deposited in banks, and would at the same time enable the system to receive large sums of money now hoarded by persons who will not avail themselves of the ordinary banking facilities, and to whom the question of interest is an unimportant consideration. If the law is modified in this manner I am convinced that when the system is fully established, many millions of dollars now in hiding will be added to the circulating medium of the country and become useful in the channels of trade.

"Instances of the inconvenience of patrons and loss to the postal savings system and to the banks from this unfortunate restriction might be multiplied indefinitely. The exact amount of deposits refused has not been recorded, but it is certain that the total amount aggregates millions. At Philadelphia, in the space of four months, during which a partial record was kept by the postmaster, \$25,000 was refused. Such occurrences are reported almost daily from every part of the United States, most frequently from rural and mining districts and from eity stations located in foreign settlements."

It should be obvious to all people in the financial community, as it certainly was to the audience at Detroit, that certain questions of high interest will arise in relation to such a plan of enlarging indefinitely the scope of such deposits. In the first place, it will necessarily be asked whether such deposits, greatly increased, as Mr. Weed expects, by the practical removal of restrictions, could be re-deposited in banks by the postal savings institutions at a profit. It is manifestly through such re-deposits that the Government gets the interest which it pays to the postal depositors. The deposits on which this interest is paid are, according to law, to be "deposited in banks located in each city, town, village and other locality [substantially in proportion to the capital and surplus of each such bank] willing to receive such deposits under the terms of this Act and the regulations made by authority thereof; but the amount deposited at any one time shall not exceed the amount of paid-in capital and one-half the surplus of such bank." The word "bank" is held to include savings banks and trust companies doing a banking business.

To secure such re-deposits, the banks receiving the funds are required to deposit such public bonds or other securities as the Postal Savings Board of Trustees may prescribe and approve. At present these pledged securities are accepted at 75% of market value. Now the question at once arises whether, under the proposed great enlargement in the scope and amount of the postal savings deposits, facilities for re-deposit in the banks of the neighborhood will be anywhere nearly available in all parts of the country. To re-deposit on such terms as would secure the actual interest yield of 21/2% on such a sum as \$23,000,000 is one thing; but multiply that amount in proportion to the deposits expected under removal of existing restrictions, and it is easily possible that a very different situation will be created.

There is another question, even more serious. What would be the natural operation of these postal savings institutions at a time of serious financial panics? Such occasions have as their foremost characteristic a run by depositors in general on both

deposit banks and savings banks. The hoarding of money throughout the country during the panic of 1907 was estimated by Secretary Cortelyou at no less a sum than \$296,000,000. Now Mr. Weed believes that this would help to relieve the panic. He explains:

"In such cases, it is reasonable to assume that frightened owners of savings and other accounts will withdraw their money from banks and deposit it with the postal savings system, by which it will be at once redeposited in the banks and made available for their use."

We do not feel so sure of this. Let it be observed, first, that the paragraph from the law (already cited) restricts in the ratio of capital and surplus the amount of postal savings deposits to be re-deposited in any one banking institution. Let it also be remembered that such banks are required to put up qualified securities against such re-deposits-something which might not be by any means a simple achievement under the stress of panic. Furthermore, it should be observed that the Eastern savings banks, in which, under the present law, the funds of the postal savings institutions could not be re-deposited, are usually, in a time of panic, the focus for the run of depositors. Not only would it be impossible to apply Mr. Weed's plan for re-deposit of eash in panie times with such institutions, but they are precisely the institutions whose depositors would be peculiarly incited to draw out their money for the purpose of re-depositing it with the postal savings.

In other words, while Mr. Weed's proposed plan would almost certainly make the Eastern savings bank situation worse, it would contain, so far as we can see, no machinery for correcting the damage done. And, after all, is Mr. Weed quite right in his view of what the hoarding of money during panic actually is? No one supposes that the bulk of the huge sums of cash which were hidden away in private safes and vaults in the crisis of 1907 represented mere withdrawals by savings bank depositors. On the contrary, the greater part of such withdrawals was currency taken out by large depositors in the deposit banks for use as pay-roll money-their feeling being that, in the light of previous experience with panics, they might be left without facilities for regular payday expenditure when the banks were compelled to shut down on free payment of cash to their depositors. Our own conclusion, therefore, would be that the postal savings directorate is somewhat hasty in its assumption that no danger could arise from an expedient of the sort and that it would not only operate safely in a panic time, but would actually relieve the panie.

The problem, it is necessary to point out, is not at all the same as in countries where no system of savings banks under other than government auspices exists. England itself would be confronted by much less serious problems in the case of indefinite enlargement in its postal savings regulations. The argument for the postal savings bank system in this country indeed, has primarily been for its use in providing with such facillties small communities which were equipped with savings banks under private auspices. In those communities it doubtless fills a useful purpose. Whether the same thing can be said for its application in the settled communities of the East and West is a very different question, and a plan for enlarging its scope indefinitely, even in the older communities of the East, is open to grave question.

INVESTMENTS AND THE PANAMA CANAL.

Owners of stocks and bonds of the great railway systems of the United States have been uncertain as to the effect upon their securities which will result from the opening of the Panama Canal. Not only must a readjustment of rates follow but a natural result will be the readjustment of routes which traffic will take from points upon one coast to those upon the other. Expert traffic men of the railroads when asked about the effect which the Canal will have upon rates and earnings of the railroads answer that they have no definite idea. The entire fabric of railroad rates is such a delicate texture, so easily affected by even remote influences, that no man can positively assert what may follow the opening of the wonderful new highway of commerce. However, so far as may reasonably be presumed, owners of railroad securities will have no need for worry. One influence is likely to so modify or nullify an opposing one that the ultimate effect may not be adverse to the interests of stockholders and bondholders of the established rail lines.

Construction of the Panama Railroad and later the building of the railroad across the Isthmus of Tehuantepec wrought an important change, as they afforded an innovation of a combined water and rail route. Upon completion of the first Pacific railroad in 1869 transcontinental shippers obtained a choice of three routes for traffic, an all-rail route across the continent, an all-water route around South America and a water and rail route via the isthmuses. This was followed by the creation of the Sunset-Gulf route, by which ships operating between New York and the ports of Galveston and New Orleans, in conjunction with the Southern Pacific Railroad, afforded still another water and rail route for transcontinental traffic. Trade has long been accustomed to these various routes and rates have become adjusted to the competition arising from the all-rail route, the all-water route and the combined rail and water routes.

The shortening of the all-water route by the opening of the Panama Canal about a year hence has been the cause of apprehension among investors in railroad securities. Professor Emory R. Johnson, of the University of Pennsylvania, has probably given more study to the effect which the new water way will have upon transportation than any other man. A summary of his conclusions may be found in Senate Document No. 875. Professor Johnson shows that the total eastbound transcontinental traffic coastwise and by all rail lines amounts to about 3,000,000 tons annually. of which the railroads carried in 1911 about 2,686,500 tons, the share of the water carriers in that year being $10\frac{1}{2}$ per cent. The west-bound tonnage is about the same, but there is a difference as to the points of origin. While the east-bound traffic comes from points at or near the Pacific coast, the west-bound traffic originates in a zone that extends far inland from the Atlantic coast. By reason of the low cost of transporting commodities from New York to ports on the Gulf of Mexico by water, much freight may be taken at points as far west as Buffalo and Pittsburgh, shipped by rail to New York and thence by the Sunset-Gulf route to San Francisco and other Pacific coast cities in competition with the all-rail route. On some commodities it is even possible for the Southern Pacific to make a rate from Chicago, via New York and New Orleans, to the Pacific coast which will divert traffic from railroads leading westward from Chicago.

As the all-water route will be even cheaper than the Sunset-Gulf route it may be expected that shipments from a greater inland zone and in larger quantities will be diverted to the Atlantic coast ports for shipment westward when the Panama Canal is opened. The effect ought also to be to enable the Canal route to deliver east-bound traffic to points far inland from the Atlantic coast. The result of this ought to be to increase the traffic and profits of the trunk lines.

The Central West, which is becoming more and more a manufacturing section, will strive to get its products to the Pacific coast by an all-rail route in competition with the factories of New England and the Atlantic coast States. Western railroads, including the Pacific lines, will be inclined to encourage such shipments from the Central West and will be apt to name rates to foster the business. Traffic on the north and south lines leading to the Gulf ought to be stimulated by the opening of the Canal.

Owners of vessels operating in the coast-to-coast trade will naturally be inclined to obtain as great a profit as possible and consequently it may be reasonably expected that they will not take cargoes at rates much below those named by the all-rail carriers. An important factor which will help to sustain the traffic of the railroads will be the steady growth of population of the entire country and the growth of industries of the interior. What might be termed the interurban traffic will not be impaired in any way by the Canal. Coal, ore and grain, which constitute a large percentage of the traffic of some roads, should not be diverted from their present routes on account of the Canal. The readjustment will be a matter of years, and during its progress many mitigating circumstances will no doubt arise which will prevent serious injury to investors interested in the railways of this country.

THE CHICAGO & NORTH WESTERN REPORT.

If any one has any doubt as to the unfortunate plight in which the railroad-carrying interest finds itself as a result of the many unfavorable conditions and surroundings, the development of the last few years, he should study the annual report of the Chicago & North Western Railway Co.-should compare the results for the latest year not alone with those for the twelve months immediately preceding, but also with those for some years further back. The North West is one of the largest and the most important of the Western railway systems. It is now and has always been one of the best managed railroad properties in the country. It has had, too, a record of enviable prosperity. The policy pursued in the management of the property has been such as to command general approval, as being advantageous alike in the interest of the proprietors and of the general public consisting of those vast communities which a railroad is built to serve and upon whose welfare and prosperity it is dependent for its sustenance. In the development of the system a conservative and yet progressive course has been pursued. There has been no reckless expansion; nevertheless the system has been steadily extended through the judicious construction of branches and feeders and the building of lines into new territory.

Enormous amounts of capital have been expended from time to time in accordance with the wise standards here outlined. Until within the last few years these new capital outlays were handsomely rewarded, but now a period has been reached where the outcome of such ventures is, to say the least, discouraging. The new capital expenditures add to the volume of business and increase the total of the gross revenues, but the net results are disappointing. In other words, the aggregate net income of the system tends downward notwithstanding the growing volume of traffic. It follows that the new outlays are no longer productive in the sense of yielding better net and furnishing an adequate return on the increased capitalization—for obviously new capital outlays mean either an added amount of bonds or of stock, and frequently of both, on which a profit must be earned if there is to be inducement for continuing the work in the future.

Judged by the experience of the Chicago & North Western—and its experience has been no different from that of other railroad systems in the United States—this inducement to invest new capital with the hope of a profitable return no longer exists. Expenses (by reason of higher wages and the higher cost of operating generally) are increasing faster than the growth in traffic and in gross revenues. In addition, Government is enacting constantly augmenting toll in the shape of taxes.

In the year under review gross revenues fell off \$1,219,594, owing to the inactivity of general trade and an unsatisfactory crop yield. The loss was entirely in the freight department; the passenger revenue continued to expand. But this falling off of \$1,219,594 in gross revenues could be met with a reduction in expenses of only \$310,867 and coincidently taxes increased \$306,804. Hence, in expenses and taxes combined there was a saving in the insignificant sum of \$4,063. It follows that the loss in gross revenues counted almost to its full extent as a loss in net.

The inability to contract expenses becomes the more noteworthy when it is found that the maintenance outlays were actually considerably reduced. The company spent \$262,657 more for maintenance of equipment but \$633,510 less for maintenance of way and structures. The transportation expenses on the other hand, ran up notwithstanding the smaller volume of business done. It appears that total operating expenses included no less than \$30,350,692 paid for labor and that this was an increase of \$331,734 over the year preceding. Proceeding a step further, it is found that the increase due to higher rates of compensation to the employees as compared with the year preceding amounted to no less than \$471,397, but that this was offset to the extent of \$139,663 because of decrease in time worked by employees. In the previous fiscal year the showing was much the same. In that period of twelve months there was a decrease of \$1,312,287 because of less time worked by employees, but on the other hand there was an increase of \$1,111,316 on account of higher rates of compensation paid the employees and a further increase of \$136,521 in the taxes.

Nor has the management relaxed its efforts to promote efficiency of operations; and such efforts have not been lacking in fruitfulness. We note, for example, that during the last two years the average train-load of revenue freight has been raised trom 261 tons to 299 tons. This, it will be seen, is an addition of over 12%. In the same two years the earnings of the trains have increased from \$2 32 per mile run to \$2 71. This saving and promotion of efficiency in operation has, of course, been helpful, but it has not served to countervail the large and general increase in expenses.

If we carry our analysis two or three years further back we get a still better idea of how rising operating cost has cut into net income notwithstanding steady development of efficiency in operations. It is perhaps well to note that on the lines of the North Western system West of the Missouri River, conditions are not such as to admit of a high-train-load and that, therefore, success is dependent largely upon what is done East of the Missouri River. The present report for the first time gives the train-load on the Eastern and Western lines separately. On the Western lines the average lading of revenue freight was less than 137 tons but the average train-load East of the Missouri was 324 tons. Furthermore, while the increase in the late year in the lading of the trains on the Western lines was only 2.58%, on the Eastern lines it was 8.02%.

It should be understood that the late year's loss in net earnings follows a loss in previous years too. In 1910-1911 the changes were relatively slight, but it is significant that a gain then of \$742,501 in gross revenues was attended by an augmentation in expenses in amount of \$859,091, producing, consequently, a decrease of \$116,590 in net. In the year preceding the result was yet more disappointing as regards the net, for in face of a wonderful expansion in tonnage and in gross revenues, net earnings actually fell off; stated in brief, gross earnings moved up no less than \$8,197,213, but expenses rose in the still larger amount of \$8,962,379; consequently net earnings were reduced in the sum of \$765,166. If, now, we unite the results for the three years, we find that while for 1911-1912 the gross was \$73,698,591, against only \$65,978,471 three years before, in 1908-09, on the other hand the net was only \$20,996,748, against \$22,787,231 in 1908-09. This, too, is before deducting the taxes, which in the same three years rose from \$2,714,-631 to \$3,422,838. In brief, then, while the gross is \$7,720,120 larger than three years ago, the net is \$1,790,483 less, besides which taxes have increased \$708,207, making the total diminution in net \$2,498,-690. Could any more striking instance be furnished of the trying conditions under which railroad operations now have to be carried on, as a result of the rise in operating cost and the restrictions and regulations of Government control, both national and State-all causes beyond the control of the managers?

But the foregoing tells only half the story. We have already indicated that under the conservative and yet progressive policy pursued in the conduct of this property, the new capital expenditures each year reach large proportions, even when outlays are rigidly restricted. In the year under review \$15,000,000 of bonded indebtedness was assumed in connection with the building and acquisition of the Milwaukee Sparta & North Western Ry. In the previous fiscal year the company put out \$22,500,000 of its 4% general mortgage bonds and in the year before \$30,502,800 of new stock was issued. This makes a total of new stock and bonds put out in the three years of \$68,002,800, and shows what has been done to develop the property so that it might be capable of meeting the needs of the communities which the system serves. But while this large extra amount has been invested in the property, the net income from its operation, as we have already seen, has been reduced, roughly, \$2,-500,000. That is, while the addition to stock and debt called for larger net earnings, the amount of the net has actually been falling away in a notable degree. What has been said prepares us for the effect of this

situation on the company's income as related to its fixed charges and dividend requirements. The Chicago & North Western used to be able to show a large surplus above its dividend requirements, and the policy was pursued of devoting this surplus to improvements and betterments. As recently as 1905-06, only six years ago, the company made a specific appropriation of \$6,000,000 out of the year's earnings, and even then had left a balance on the operations of the twelve months, over dividend requirements, in amount of \$2,316,609. The dividend on the common stock is still the same, namely 7%, but for the year under review the surplus above the requirements for that purpose was no more than \$567,715, without taking anything out for betterments and improvements. Are we astray, therefore, when we say that, under the trying conditions now imposed upon the railroads, as reflected in the results here narrated, the inducement for entering upon new extensions and development work has been largely taken away?

Fortunately, traffic conditions for the immediate future are highly promising, and this should prove helpful in bridging over the time until public sentiment shall force the politicians to modify their attitude of hostility toward railroad interests. Minnesota and the two Dakotas have just raised a crop of spring wheat of exceptional proportions, and this insures a large traffic in grain for the new or current fiscal year. At the same time, general trade is active and the iron and steel industry is experiencing unexampled activity, which latter will afford a large ore traffic on the company's branches to the ore regions. This is a rare combination of favorable circumstances, and with the aid of the same the income showing for the current fiscal year ought to record decided improvement over the year under review.

In the interest of the general public it is highly desirable that the rail carriers should be allowed to earn each year a fair surplus above the amount required to meet their immediate needs for interest and dividends. Given such a surplus, some income can be employed each year in development and improvement work which otherwise would have to be raised through new capital outlays—either stock or bonds with a resulting increase in fixed charges or dividend requirements. Some day the public will recognize this fact, and then the railroad carrying industry will enter upon a new era of prosperity

THE MILWAUKEE & ST. PAUL UNDER UNFAVORABLE CONDITIONS.

The Chicago Milwaukee & St. Paul Ry. Co. makes a poor showing in its annual report submitted the present week. But the event was looked for, having been clearly foreshadowed by the monthly statements issued during the course of the year. Everyone having been prepared for just such a result, it has created no surprise whatever.

The company reduced the semi-annual dividend on its common stock last January to $2\frac{1}{2}\frac{9}{6}$ from the previous $3\frac{1}{2}\frac{9}{6}$, thus placing these shares on a 5% dividend basis, and the annual report shows that during the twelve months ending June 30 1912 the company fell far short of earning even 5% on the stock. As a matter of fact, the amount of income available for dividends on the operations of the year was only \$9,-930,446, whereas the 7% dividend on the preferred stock took \$8,115,232, leaving, therefore, for the com-

mon shares but \$1,815,114, which is equivalent to only about $1\frac{1}{2}$ % on the \$116,348,200 of common shares outstanding.

The company made tremendous new capital outlays in building its Puget Sound extension, and the unfavorable character of its income exhibit is commonly referred to that circumstance. It is true that in the year under review the company was unable to collect any dividend on its stock holdings in the Puget Sound Company, whereas its income from that source the previous year reached \$5,000,000 and that would appear to bear out the view expressed. In reality, however, the causes of its misfortunes lie much deeper than this. As a matter of fact, the Puget Sound line may be said to be doing remarkably well. The late year is only the third year of its operation and yet it earned \$16,132,612 gross and \$6,-620,584 net, not counting income from outside sources. This is at the rate of \$7,836 gross per mile of road operated and \$3,215 per mile net. For a line 2,000 miles in length this is surprisingly good so soon after its opening and we do not think a parallel to it can be found in the case of any other new undertaking of large dimensions. The reason for the relatively good exhibit is found in the circumstance that this Puget Sound extension does not, to any great extent, pass through territory which had previously been wholly unopened, but in its course touches old and large established trade centres built up through railroad facilities furnished by the older transcontinental lines.

Nor can it be maintained that the Chicago Milwaukee & St. Paul is not getting a direct return on its investment in the Puget Sound Line even though no dividend was received in 1911-12 on its holdings of stock in that line. The actual money investment in the Puget Sound property is represented by the Puget Sound bonds, of which the Milwaukee & St. Paul Company received \$155,000,000 (and only about \$26,000,000 have been sold) in return for advances in that sum and by other obligations received for further advances. On all this bonded and other indebtedness the Puget Sound line is paying interest (which as received goes to swell the Milwaukee & St. Paul's income from investments) and this interest, too, is being earned by the Puget Sound Company. In the year under review the Puget Sound line had interest and other charges to meet in amount of no less than \$7,007,191 and the company's income for the twelve months was sufficient to take care of the whole of this except \$151,537.

It will be seen, therefore, that we are right in saying that the causes of the Milwaukee & St. Paul company's present condition lie deeper than anything connected with, or growing out of, the building of its Pacific Coast extension. In the main these causes are the same as those that have modified so greatly the former extraordinarily favorable income showing of the Chicago & North Western Ry., whose annual report we have reviewed in the previous article. In other words the trying conditions experienced by the North West. Company have fallen also to the lot of the Milwuakee & St. Paul Company. This means that repeated advances in wages and the higher price of nearly everything else entering into the operating accounts of a railroad, together with the inability to get increased rates for the transportation service rendered as operating cost advanced, has brought the Milwaukee & St. Paul Company to its · · · · · · · · ·

gitized for FRASER

[VOL. LXXXXV.

As indicating the part played by these influences, we would direct attention to the fact that, though in the year under review the gross earnings of the Milwaukee & St. Paul decreased \$1,853,252, expenses actually increased \$689,438, thus producing a loss in net revenue of \$2,542,690, which loss was further increased to \$2,748,700 through an augmentation of \$206,010 in taxes. In the year preceding, the showing was of like character. In that period of twelve months gross earnings improved slightly, the increase being \$129,101, but there was an augmentation in expenses in amount of no less than \$2,262,721, thus causing a loss in net of \$2,133,620, which was further raised to \$2,278,899 by an addition to taxes of \$133,-327. The rise in operating cost, however, had its beginning still further back, for we find that in 1909-1910, though gross increased in the large sum of \$4,949,431, net earnings were actually reduced in amount of \$1,110,328, owing to an addition to expenses in the sum of \$6,059,759. By combining the three years, therefore, it is found that while gross earnings increased from \$59,897,463 to \$63,122,743, the net-owing to the rise in operating expenses from 64.66% to 75.64%-fell away from \$21,166,225 to \$15,379,587.

In other words, in the three years there has been a shrinkage in net from circumstances entirely beyond the control of the managers of, roughly 30%, and this has occurred notwithstanding operating efficiency has been increased, so that with the same rate per ton per mile the freight trains earned \$2 41 per mile run in 1911-1912 against only \$2 31 in 1910-11. On the larger volume of business, had the company simply been able to maintain the level of the net prevailing three years ago (without increasing the same at all), the total of the net for the late year would have been \$5,786,638 above the amount actually earned, a sum equal to almost 5% on the outstanding amount of common stock. In that event, instead of only \$1,-815,114 remaining for the common shares on the operations of the twelve months, the amount would have been \$7,601,752, a sum equal to about $6\frac{1}{2}\%$ on the common stock outstanding. Accordingly the Milwaukee & St. Paul Company's predicament must be ascribed to the rise in operating cost rather than the building of the Pacific Coast extension.

In the year under review, however, there was one further drawback, namely a crop shortage. This is referred to in the report, which says that the crop failure of 1911 in Western Minnesota, South Dakota a d Southern North Dakota was the most complete that ever occurred in these States. This unprecedented crop shortage, it is stated, affected the territory tributary to about 24% of the total miles operated and was largely the cause of the decrease in freight revenue. As a result of the grain-crop shortage there was a diminution in the total number of tons of grain transported of 762,193 tons.

The present season's crops, however, will most certainly be a great improvement on those of last years. President A. J. Earling asserts that the 1912 crop of small grains in the territory tributary to the company's lines are excellent and the yield will be considerably above the average. He also notes that there has been a general revival of business. He hence gives it as his opinion that there will be a substantial increase in the earnings of the current fiscal year. There is obviously full warrant for such a forecast and the improvement in results will help the Milwaukee & St. Paul Company out of its

present troubles. Evidently, in preparation for the larger volume of business expected, orders for 171 locomotives and for 3,644 new cars of various descriptions have been given.

BANKING, FINANCIAL AND LEGISLATIVE NEWS. The public sales of bank stocks this week aggregate 523 shares, of which 510 shares were sold at the Stock Exchange and 13 shares at auction. All but 10 shares of the total represent transactions in National Bank of Commerce and National City Bank stocks. A lot of 10 shares of Corn Exchange Bank stock was sold at 325-an advance of 15 points over the price paid in March when the last previous sale was made. No trust company stocks were sold. Shares. -The first meeting of the Board of Governors of the Investment Bankers' Association was held at the Union League Club, Chicago, yesterday. Twenty-two members of the board were present. Two hundred and twenty firms were regularly admitted to membership in the organization at the meeting. A list of the members will be published when the charter membership has been filled. It was decided to hold the first annual convention of the association in New York later in the year. The date and details of this convention will be arranged by a committee to be appointed by President Caldwell.

-To-day the readers of the "Chronicle" will receive a copy of the "American Bankers' Convention Section"-our usual supplement which is devoted to a full report of the deliberations of the annual convention of the American Bankers' Association, held at Detroit, Mich., last week. This year's number is printed throughout in a soft Milori green ink and is bound with a French-gray cover. Besides the entire proceedings and addresses delivered before the main convention, we also report the work of the Trust Company Section and the Savings Bank Section.

The officials elected at Detroit last week by the American Bankers' Association to serve for the ensuing year were Charles H. Huttig, President of the Third National Bank of St. Louis, President; Arthur Reynolds, President of the Des Moines National Bank, Des Moines, Iowa, Vice-Presi-dent; Thomas J. Davis, Cashier of the First National Bank of Cincinnati, Chairman of the Executive Council and J. Fletcher Farrell, Vice-President of the Fort Dearborn National Bank, Chicago, Treasurer (re-elected). Colonel Fred. E. Farnsworth was re-elected General-Secretary and Thomas B. Paton, General Counsel

The following were elected Chairmen of the various sections: Trust Company Section: Ralph W. Cutler, President Hartford Trust Co., Hartford, Conn.; Savings Bank Section: William E. Knox, Comptroller Bowery Savings Bank, New York City; Clearing House Section: A. O. Wilson, Vice-President State National Bank, St. Louis; American Institute of Banking Section: F. A. Crandall, Vice-President National City Bank, Chicago, and State Secretaries' Section: W. C. MacFadden, Vice-President Commercial Bank, Fargo, N. D.

Among those elected on the Executive Committee of the Trust Company Section was John W. Platten, President of the United States Mortgage & Trust Co. of this city.

Upon the election of Mr. Huttig to the presidency of the Bankers' Association, he was tendered a cordial reception by his many friends, who were gtad to see that he had so far recovered his health as to be able to assume the duties of the high ofice. Mr. Huttig was the recipient of a very handsome loving-cup and several beautiful floral tokens.

-Speaking before the Rochester Chapter of the American Institute of Banking on Thursday evening on "Banking Reform from the Standpoint of a Depositor," Elliott C. McDougal, President of the Bank of Buffalo, said:

McDougal, President of the Bank of Buffalo, said: A mistaken impression appears to have gone abroad concerning the action of the American Bankers' Association at its recent convention in Detroit. The Association did not drop the work of banking and eurreney reform. It, then and there, pledged itself to help any effort to pass any properbill. If a better bill than the "Aldrich Bill" be brought forward, the American Bankers' Association will give it active support. The report of its committee did say: "It is like to hope for general legislation of such an important character in a short session of Congress"; and the judgment of the committee, on this point, is sound. Even educational work should be supended until after the Presidential election, as mogood, and possibly positive harm, may be done by the discussion of such a subject during the heat of a political campaign. As soon as that campaign is over, the cam-paign of education should be resumed that, when the time comes forgCon-

gress to vote upon this question, it may vote upon it intelligently. There can be no reasonable doubt that, when the people of the United States of America have sufficiently studied this question, agood bill will be passed. So far as the New York State Bankers' Association is concerned. I see not the slightest evidence that it intends to abandon its work on behalf of currency and banking reform. Its committee on Currency Reform, backed by the united sentiment of the Association, will resume active edu-cational work as soon as the Presidential campaign is over.

-Despite the failure of Congress to act on President Taft's recommendation for a National budget, and the provision in the Legislative Bill prohibiting the submission of departmental expenses in any other form than is now required by law, Mr. Taft has ordered the preparation of estimates of appropriation for the expenses of the various departments of the Government in conformity with the budget The right to exercise his authority in this respect is plan. the basis of a letter to Secretary of the Treasury MacVeagh, made public yesterday, in which the President says:

If the President is to assume responsibility for either the manner in which business of the Government is transacted or results obtained, it is evident that he cannot be limited by Congress to such information as that branch may think sufficient for his purposes. In my opinion, it is entirely competent for the President to submit to Congress and to the country a

branch may think sufficient for his purposes. In my opinion, it is entirely competent for the President to submit to Congress and to the country a statement of resources, obligations, revenues, expenditures and estimates in the form he deems advisable. And this power I propose to exercise. The United States is the only great country that does not have a budget. Each year the Congress has been making increasingly large appropriations, hased on estimates which are submitted by officers acting in the capacity of ministerial agents to Congress, under a law which makes no provisions whatever for executive review and revision. This I have sought in a measure to correct by asking the heads of departments to send estimates to me before they were printed. But the conditions attached by Congress have been such as to make executive review impossible. The present legal directions as to estimates are based on the theory that there is no need to take stock before passing on appropriations; that it is not necessary to consider revenues or Treasury resources. Congress has direc-ted each executive officer to submit an estimate through the Secretary of the Treasury, who is made to erve in the capacity of an official messen-ger, without any discretion whatever unless a department head may fail to prepare a request for appropriations in the form prescribed by Congress, in which even the Secretary of the Treasury has imposed upon him the duty to submit an estimate for him. Congress has created certain committees on appropriations who alone have power to review and revise requests of department heads. Even in its own organization, however, Congress has failed to make provision for con-sidering expenditures and estimates for appropriations in relation to reve-mues. Authority is granted for the expenditure of a thousand million dollars

Authority is granted for the expenditure of a thousand million dollars

Authority is granted for the expenditure of a thousand million dollars each year without any thought as to where the money is coming from. This is done on the theory that there will be no definit—Congress has been doing what has been called "surplus financing." While the Constitution makes Congress responsible foe money-raising as well as for appropriations, responsibility for borrowing has been shifted to the President, by empowering him to procure loans to meet deficts in sase a deficit may result. The great question of national expediency which is raised by the action of Congress above referred to is: Shall we or shall we not have a national budget? I do not question the Constitutional right of Congress to prescribe the manner in which preports of expenditures and estimates shall be submitted to it by department officers. I do question the practical wisdom of continuing to operate the Government under 90 different statutes, passed at 90 different times, which prescribe 200 different forms of preparing and submitting financial data to Congress and the publio—data which, when prepared, have no element of uniformity or standard and cannot be used to present to officers or to the people an accurate picture of activities pertaining to any one subject of the Govern-ment as a whole.

accurate picture of activities pertaining to any one subject of the Govern-ment as a whole. Although by such cursory review as could be given. I have succeeded each year in reducing initial estimates millions of dollars, it is not just to make the President in any but a slight degree responsible for such estimates when required to be submitted to Congress in the manner at present prescribed. I have gone thus at length in stating my position in order that you may understand the reasons for urging that you co-operate with the Commission on Economy and Efficiency in the preparation of such financial statements and summaries as will enable me to place before Congress and the country for the first time in our history a clearly stated and understandable businessilike proposal which will enable Congress and the country to think in terms of what it is that the Government is doing, what it is that the Administration proposes to do. With this accomplished, the people may judge for them-selves whether the proposals sent to Congress are in the interest of public weifare and as such should be supported.

proposes to do. With this accomplished, the people may judge for them-selves whether the proposals sent to Congress are in the interest of public welfare and as such should be supported. The further recommendation which I have made is this, that in the prepa-ration of data for the budget you and the head of every other department shall clearly indicate what changes in law are thought to be desirable as a means of increasing the economy and efficiency of the service. What is desired is open-handed dealing between the Congress and the executive departments, and in this the public should be taken into confidence through the broadest publicity that may ensue. Under the Constitution the President is entrusted with the executive power, and is responsible for the acts of heads of departments, and their subordinates as his agents, and he can use them to assist him in his Con-stitutional duties, one of which is to recommend measures to Congress, and to advise it as to the existing conditions and their betterment. If Congress is permitted to assume exclusive furtishiction over what the president may seek to learn about the business transacted by the depart-ments; if Congress is to say that the President shall no thid out what is the present manner of doing business, what results are being obtained, what it is that officers for which he is responsible propose to do, and what amounts are being asked for future expenditure; if heads of departments are to be considered purely as the ministerial agents of Congress in the prepa-ration and submission of estimates, then as far as the business in the prepa-ration and submission of estimates, then as far as the business of the Government is concerned, the President of the United States is shorn of most important executive power and duty.

-Under further plans which Comptroller of the Currency Lawrence O. Murray purposes to adopt in his effort to make bank examinations as effective as they can be made under the present law, he announces that his examiners will be called upon to hereafter inquire into the concentra-

tion of the funds of a bank in companies controlled by the banks officers and directors. On this point the Comptroller says:

troller says: The examiner has hardly any other way of obtaining information rela-tive to the standing of the concerns in which the officers and directors of the banks are interested, except from the mere statement of the officers that the ioans are good and the companies are in good financial standing. The Comptroller will insist that the books of the said corporations, firms or concerns be open to the examiner so that he may be able to get such in-formation as will enable him to determine whether or not the concerns are money-making ventures. If the officers and directors unduly concentrate the funds of a bank in their own ventures, the Comptroller feels that, in view of the fact that he is charged with the duty of protecting its depositors, he is entitled to know whether the concerns in which the funds of a bank are invested are paying or tosing ventures. This requirement is to be observed beginning October 1, when the examiners will also be asked to comply with the

when the examiners will also be asked to comply with the following regulations in addition to what they are already doing in their examination work:

doing in their examination work:
In all country banks the board of directors is to be convened and the examination of the assets by the examiner is to be made in their presence and with their help and co-operation.
The Comptroller found some time ago that there were upward of 1,000 banks throughout the country in which the majority of the board of directors were not local men. The objection has generally been made that when the examiner asked for a board meeting the directors could not be convened readily because they did not live in or near the town in which the bank was located. A letter was addressed to all these banks by the Comptroller asking that at least a majority of the board was not so constituted that it should be reorganized so that a majority of the directors could at all times be readily available.
Heretofore the matter of the examiner meeting with the board of directors have the examiner, but now the Comptroller wishes to have the examiner convene the board of directors in every bank examined.

examines. If an examiner finds any matters subject to criticism, the directors are entitled to know of it promptly and enter into an agreement with the Comp-troller through the examiner for prompt correction of any violations found. This can only be done by a meeting of the board of directors with the

Another and as equally important a reason for convening the board of directors of country banks at each examination is that the Comptroller has asked the examining committee of the board of directors to make a comprehensive examination of the bank and to file a copy of the same with the Comptroller. Many banks have boards of directors who are not suffi-clently well informed in the methods to be pursued in making such an ex-amination and the Comptroller will ask all his examiners to go over the plan of examination which he has outlined with the directors of each bank and explain to the board just how this examination should be made and what points should be especially covered and reported to the Comptroller of the Currency. This will be an additional burden on the examiners, but the Comptroller feels that the good resulting from this method is such as to outwelgh any arguments against the extra work which will be caused the examiners. The Comptroller has arranged to meet here to-day (Satur-

The Comptroller has arranged to meet here to-day (Saturday) the examiners located in and near New York City for the discussion of several matters pertinent to the examination of banks.

-In a communication to the New York "Times," ex-Senator Charles A. Towne of Minneapolis takes issue with Edward L. Andrews in his views respecting the legality of the inquiry by Congress into the "money trust." In his argument, which was quoted at some length in these columns Sept. 7, Mr. Andrews expressed the opinion that, from the standpoint of legality, the inquiry could justify itself only as the basis of future enactments. "If it seeks to traverse business territory which cannot, or should not, afford a province for legislation," he said, "the pursuit of this investigation has no legal or moral justification." In answer to Mr. Andrews, Mr. Towne says:

drews, Mr. Towne snys: To the Editor of The New York Times: Will you allow me space for a few words of comment on the opinion of Mr. Edward L. Andrews, holding liegal the proposed investigation of the Pujo Committee into the operations of the "Money Trust." It is undoubt-edly an ingenious performance, and presumably has given considerable temporary consolation to his fearsome clients. I can imagine, however how congenially the astute Mr. Untermyer would apply himself to its rotutation.

The investigation, says Mr. Andrews, "can justify itself only as the basis of future enactments." Obviously, therefore, if it be shown that the facts to be elicited by the Committee's inquiry are pertinent to subject-matter upon which it is within the Constitutional competency of Congress to base "future enactments," the contention of illegality must fail. Mr. Andrews has gone too far alleid. Two of the grants made to Con-gress by the Constitution seem to me to give the amplest warrant i magin able to the Committee's program. They are found, of course, in the famous Section 5 of Article L. and are as follows: "The Congress shall have power * * to regulate commerce with foreign nations and among the several States, and with the indian tribes; * * to colm money, regulate the value thereof, and of foreign coln.

Under each of these grants it is perfectly clear that Congress may legis-late on the methods and instrumentalities of inter-State credit. In Mobile vs. Kimball, 102 U. S., 702, the Supreme Court defined commerce as em-bracing "intercourse and traffic, including in these terms navigation and the transportation and transit of persons and property, as well as the pur-chase, sale and exchange of commodities." In the Knight case (156 U. S., 13) the same Court said: "Contracts to buy, sell or exchange goods to be transported among the several States * * may be regulated * * * because they form part of inter-State trade or commerce." It is a commonplace that credit plays altogether the most important role in commercial transactions. When it is recalled that under the general grant contained in Section 8 above cited, of power "to make all laws which

shall be necessary and proper for carrying into execution the foregoing powers," the Supreme Court of the United States has found warrant for the action of Congress in establishing a national bank (held "necessary and proper" to carry out the provisions, "to lay and collect taxes," "to borrow money," to "regulate commerce," "to declare and conduct war," and "to raise and support armies and navies," McCulloch vs. Maryland, 4 Wheat., 316), in issuing a paper currency (held incidental to the powers "to borrow money" and "to coln money," In the Legal Tender cases), and in taking the notes of State banks (Bank vs. Penno, 8 Wall., 533), how can it be doubted that the fullest regulation of the great agencies and conditions of inter-State credit must be held to be within the Constitutional powers of Congress?

of inter-State credit must be held to be within the Constitutional powers of Congress? But it is equally evident that Congress has jurisdiction over this subject under the grant "to regulate the value" of the money it coins, and of foreign ochs. The total volume of price-determining material includes not only perform the function of purchasing commodities and paying debts. The purchasing power of a dollar varies not only with the number of real dollars in chrulation but alls with the extent and condition of credit; and the rates of interest in large commercial transactions depend in great measure on the methods that control the granting of credits. In discharging its duty to regulate the value of the coined money of the country, then Congress not only may, but ought to, give careful consid-eration to all the phenomena of inter-State credit. If, in the performance of this high duty, that body regards as necessary an investigation by one of its committees into the credit-controlling Institutions of the great cluss of the United States, there can be little doubt that any legal challenge to that course would find the courts governed by the dectrine thus quoted in fulfilard vs. Greenman (110 U. S., 421) from McCulloch vs. Maryland: "Where the law is not prohibiled, and is really calculated to effect any one of the objects intrusted to the Government, to undertake here to inquire into the degree of its necessity would be to pass the line which clrcum-seribes the Judicial Department, and to tread on legislative ground." CHARLES A. TOWNE. New York, Sept. 1 1912.

New York, Sept. 1 1912.

-The Oklahoma State Banking Board levied an assessment of one-half of 1% against the capital of the Oklahoma State banks on the 14th inst. The assessment, it is stated, will raise about \$150,000, and is levied for the purpose of taking up State warrants held by the Wilkin-Hale State Bank of Oklahoma City, and to provide for emergencies caused by the failure on Sept. 10 of the Merchants' & Plant-ers' Bank of Sapulpa, Okla. With regard to the warrants held by the Wilkin-Hale State Bank, which succeeded the Night & Day Bank in 1911, the "Oklahoman" says:

Night & Day Bank in 1911, the "Okiahoman" says: The Wilkin-Hale Bank took over about \$200,000 in warrants against the bank-guaranty fund from the assets of the Night & Day Bank. Suit was brought against the banking board last spring to recover on these warrants, officers of the Wilkin-Hale Bank alleging that the board was paying other claims which originated after theirs were filed." The case reached the Supreme Court on appeal but was dismissed after the board had agreed to take up the warrants within a specified time. About \$40,000 in warrants have been taken up but there is not sufficient money in the ruaranty fund at present to take up more. guaranty fund at present to take up more.

-Secretary Fenton of the Investment Bankers' Association, has leased space in the Harris Trust Building, Chicago, for permanent headquarters of the organization.

-George B. Caldwell, Vice-President of the Continental & Commercial Trust & Savings Bank, of Chicago, entertained at luncheon at the Union League Club Wednesday afternoon many of the leading investment bankers of that city in honor of R. H. Newell, Chief of the Government Reclamation Service, who spoke of the work the Government is doing in reclaiming the arid lands of the West. Mr. Newell outlined what had been done during the past twenty-five years that he has been active in the service. He told of the importance of competent engineers, gave the reasons for the many failures of private capital in irrigation projects because of lack of proper engineering and lack of knowledge of actual overhead charges in connection with such enterprises and because of the ignorance of the laws in connection with water rights in many Western States. Mr. Newell stated that there are to-day but few successful irrigation projects in existence under the management of private capital, but thought that with the help of the Government and its vast accumulation of reliable information, private capital could be made to pay well.

-As soon as the details can be arranged, an auction of securities will be held in the office of F. J. Lisman & Co., Chicago, probably at 10:30 on each Tuesday morning. The lists of offerings will be advertised, it is expected, in the local papers. Responsible persons having securities they wish offered may submit them, giving Lisman & Co. the order firm through the auction, and in the event of execution of the order, the commissions charged for transactions on the Chicago Stock Exchange will apply. In the event of non-execution, or in the event of securities being offered but limited as to price, an advertising charge of \$2 for each offering will be made. This department is established to furnish a public market for many inactive and unlisted bonds, bank stocks, manufacturing stocks, and any current securities that either are not listed or else are not active on the Stock Exchanges. The auctioneers will assume no responsibility as to the quality of the securities offered or the prices at which they are sold, they acting in the capacity of auc[VOL. LXXXXV.

tioneers only and using their best efforts to get the best possible price for what they have to offer.

'The Mechanics' & Metals' National Bank of this city has sold its premises at 29-33 Wall St. to J. P. Morgan & Co., to round out a larger plot on the corner of Wall and Broad streets for the ultimate erection, it is understood, of a large building by the Morgan house. The combined plot has a frontage of 158 feet on Wall Street and 113 feet on Broad Street, the assessed land value of which is \$3,870,000. Henry P. Davison, a member of the firm of J. P. Morgan & Co., made the following statement on Thursday with regard to the latest acquisition:

We have purchased the buildings adjoining us, including Nos. 29, 31 and 33 Wall St. Eventually we will probably erect a new building on the site for our own exclusive use, although our plans have not fully been decided upon as yet. Just when the proposed new building will be creeted has also not yet been decided upon. The report that J. P. Morgan & Co. have, or are bidding for, the Mills Building is absolutely incorrect. We have not bought not are we negotiating for any other property in Wall or Broad streets.

Gates W. McGarrah, President of the Mechanics' & Metals' National Bank also confirmed the report of the sale; he added that while the management had not fully concluded its plans for the future, it did not intend to leave Wall Street.

The deposits of the Farmers Loan & Trust Co. of New York, London and Paris, Edwin S. Marston, President, at the recent bank call for September 9 were \$126,385,719. The Farmers Loan & Trust Co. is the largest of all the trust companies in this country which do not owe their size to consolidation with other companies. On the same date its cash on hand and in bank was \$29,018,619, capital \$1,000,000, undivided profits, \$6,570,755 and aggregate resources \$134,911,475.

-Willard V. King, President of the Columbia-Knickerbocker Trust Co., of this city, has been elected a trustee of the New York Life Insurance Co.

-William Baxter, the New York agent for the Chartered Bank of India, Australia and China, 88 Wall Street, this city, has this week received cable advices from the London offices of the corporation that its directors have declared an interim dividend for the past year at the rate of 13% per annum, free of income tax.

Walter P. Gardner retired on the 17th inst. as a member of the banking firm of Groesbeck & Co. of this city to accept a vice-presidency in the New Jersey Title Guarantee & Trust Co. of Jersey City—his native city. Thomas H. Tierney, who has occupied a confidential position with Groesbeck & Co. since its formation, has been admitted as a partner in the firm.

-The State Trust Co. at Plainfield, N. J., in less than two years reports deposits of more than \$500,000. This institution began business on Sept. 16 1910, and under the call of the Commissioner of Banking and Insurance as of Sept. 4, reports deposits of \$502,152 19. The capital is \$100,000, surplus and profits, \$49,832 41.

-Charles M. Eckert, Cashier of the National Ulster County Bank of Kingston, N. Y., died on the 3rd inst.

-S. B. French has been appointed to the new position of Assistant to the President of the Citizens' Trust Co. of Utica, N. Y. The addition of Mr. French to the official staff of this institution will, no doubt, be a valuable one, as he has had years of experience with the New York Telephone Co., with which he held responsible posts. He will be in charge of the trust company's credit department and will also assist in the work of furnishing high-grade securities to investors. The Citizens' Trust Company, under the able management of its President, William I. Taber, has increased its busi-ness over 300% in the last four years.

The Chicopee National Bank of Springfield, Mass., is now occupying its magnificent new quarters at the corner of Elm and Main streets in that city. The main banking room is particularly handsome, the general design being Italian Renaissance. The marble used throughout was imported from Skyros, Greece, and this, together with the bronze and gilded pillars and the Tennessee marble floor, go to make up one of the handsomest bank rooms in New England. The Chicopee National Bank, of which Edward Pynchon is President, has the honor of being the oldest bank of discount in the city. It was established in 1836 and nationalized in 1865.

-Frederick H. Hahn, Sr., Secretary and Treasurer of the German-American Title & Trust Co. of Philadelphia, died on the 12th inst. Mr. Hahn was one of the organizers of the institution.

-The stockholders of the First National Bank of Pittsburgh will meet on Oct. 14 to vote on the proposition to increase the capital of the institution from \$1,000,000 to \$2,000,000. The additional stock, 10,000 shares, will be issued at \$175 a share, netting a premium of \$750,000, which will be available for addition to the surplus fund. This latter now stands at \$1,000,000. The last change in capital occurred in 1902, when the amount was increased from \$750,000 to \$1,000,000.

-George C. Morrison, President of the Title Guarantee & Trust Company of Baltimore, committed suicide the past week at the Baltimore Athletic Club. Mr. Morrison, who was forty-three years of age, had been very prominent in financial and civic affairs. Besides having been President of the above-named company, he was Vice-President of the Baltimore Trust Co., and counsellor and director of the Maryland Jockey Club. The unjust criticism to which he was subjected for having assisted in obtaining a charter for a new race-track at Havre de Grace for the Jockey Club is attributed in a letter left by him as his reason for taking his life.

-Addison H. Hough, a special partner in the bond house of Otis & Co., has been elected a director of the National City Bank of Cleveland. It is reported that Mr. Hough, D. R. Hanna and Robert L. Ireland are at the head of a syndicate which has purchased a large block of stock in the bank. The institution has a capital of \$250,000 (2,500 shares), of which 857 shares are said to have been held by the family of the late President, John F. Whitelaw, who died last June. Since his death, T. W. Burnham, Vice-President, has been acting President.

-W. B. Hopkins has resigned as Chief Examiner in the Ohio State Banking Department to accept the position as Chief Examiner for the new Equitable Casualty & Bank Depositors' Guarantee Co. of Columbus.

-A first dividend of 70% was paid on the 4th inst. to the depositors of the Mechanics' Savings Bank of Toledo, which closed its doors on May 9. Its deposits amounted to about \$120,000.

-On next Wednesday and Thursday, Sept. 25 and 26, the 22d annual convention of the Illinois Bankers' Association will be held in Peoria, Ill. The deliberations will be divided into four parts-Education and Public Welfare, Finance and Banking, Agriculture, and Good Roads. Among the speakers will be Dr. George E. Vincent of the University of Minnesota; Dr. W. O. Thompson, President of the Ohio State University, and Charles A. Conant of New York. B. F. Harris of Champaign is President and R. L. Crampton of Chicago is Secretary of the Association.

-It was announced the past week that the La Salle Street National Bank of Chicago had purchased the Farwell Trust building at the southwest corner of Quincy and La Salle streets, at a price said to be \$500,000. The bank will locate in the new premises after they have been remodeled. It is also stated that the interests in the bank have undertaken the completion of the organization of the trust company which was incorporated at the time of the formation of the La Salle Street National Bank in 1910. The trust company will have the same amount of capital as the bank, viz.: \$1,000,000, and a surplus of \$250,000; the stock of the company will be held in trust for the stoekholders of the bank.

-The consolidation of the Ashland State Bank of Chicago with the West Englewood State Bank was ratified by the stockholders of both institutions on the 12th inst.; the plan of merger was given in our issue of Aug. 24. The enlarged bank, which takes the name West Englewood-Ashland State Bank, will use the offices of the Ashland Bank as banking quarters, while the real estate department will be conducted in the present location of the West Englewood Bank. The officers of the consolidated institution will be John Bain, President; Michael Maisel, Vice-President, and Edward C. Barry, Cashier. The Ashland State Bank was formed on Dec. 3 1910 to take over the business of the Ashland Exchange & Savings Bank. Its President, Isaac N. Powell, retires with the consolidation.

-E. W. Decker, President of the Northwestern National Bank of Minneapolis, has just celebrated his twenty-fifth anniversary in the service of the bank. Mr. Decker started with the Northwestern as a messenger boy and has seen the institution develop from a bank with deposits of less than three million dollars to one of the largest in the Northwest, with deposits of thirty millions. He received many congratulatory messages from his host of friends and business associates.

-The new Commercial National Bank of Minneapolis, which has a capital of \$200,000 and a surplus of \$50,000, began business on the 16th inst. S. E. Forrest is President of the institution; he is associated with S. H. Bowman and S. J. Mealey as Vice-Presidents, and Guy C. Landis as Cashier.

-It is announced in the Memphis "Commercial Appeal" that the nineteen indictments returned against Abner Davis, former President of the Night & Day Bank of Oklahoma City, Okla., were dismissed on the 7th inst. The "Appeal" states that County Attorney Hooker requested that the indictments be dismissed because after Davis had been tried and convicted on one of the indictments, Judge Clark set aside the verdict on the ground that it did not conform to the testimony.

-On Tuesday last the National State and City Bank of Richmond, Va., opened for business in its enlarged and entirely remodeled quarters on East Main St. The counters are constructed of handsome inlaid Circassian walnut and heavy plate glass and are ranged on either side of the new banking room, the floor of which is laid with Italian marble. Modern new equipment and every facility for the proper transaction of the bank's growing needs has been added. One of the features is the massive new safety deposit vault of the very latest design and workmanship. The bank has a capital of \$1,000,000, surplus of \$600,000 and resources of \$7,000,000. William H. Palmer is President; John S. Ellett, Wm. M. Hill and J. W. Sinton, Vice-Presidents, and Julien H. Hill, Cashier.

--Savannah, Ga., is to have another massive "skyscraper," if the plans now proposed by the Savannah Trust Co. are carried to completion. The company owns a very prominent block in the city, having 60 feet frontage on both Bull and Whitaker streets by 180 feet in depth. The design submitted by the architects calls for a structure 18 stories in height, with a possible increase to 20 stories, which would make the building one of the largest in the entire South.

-The organization of the Macon National Bank of Macon, Ga., has been completed. The application to form the institution was approved in the spring. At a meeting of the stockholders on the 12th inst. the following officers were elected: Richard F. Lawton, President; Robert G. Jordan and Jesse B. Hart, Vice-Presidents; Richard E. Findlay, Cashier; Henry C. King and Ben S. Heard, Assistant Cashiers. The Board of Directors includes: Sam. Guthman, capitalist; R. F. Lawton, President of Lawton, Jordan & Co.; R. G. Jordan, President Bank of Talbotton, Ga., and of the Jordan Realty Co. of Macon; L. A. Sheppard, Secretary of the Georgia Life Insurance Co.; W. T. Anderson, General Manager of the Macon "Telegraph"; Eli Elkan, President Crescent Laundry; T. H. Halliburton, of Roughton-Halliburton Co.; J. W. Jordan, President Farmers' Supply Co. of Talbotton and Cashier of the Bank of Talbotton; Malcolm D. Jones, of the firm of Miller & Jones, attorneys; W. L. Mathers, Secretary and Treasurer of Central of Georgia Brick Co.; Jesse B. Hart of Jesse B. Hart & Bro.; and J. L. Jessup, President of J. L. Jessup Agency.

-The merger of the Sixth Ward Bank of Atlanta with the Travelers' Bank & Trust Co. of that city has been confirmed by the stockholders of the latter. The consolidation is effected under the name of the Travelers' Bank & Trust Co., which increases its capital from \$200,000 to \$300,000. Three new directors have been added to its board, namely, George C. Spence, Ivan Allen and M. C. King.

-J. C. Rogers, who has been connected with the municipal bond firm of G. G. Blymyer & Co., San Francisco, for a number of years, has been appointed manager of the new bond department to be installed by the Capital National Bank of Sacramento.

-D. J. Barker, chief accountant of the Bank of Montreal, has been appointed Assistant to the General Manager, H. V. Meredith. Mr. Barker has been connected with the bank for a number of years, previous to which he was an official of the Royal Trust Co.

FALL RIVER MILL DIVIDENDS FOR NINE MONTHS OF 1912.

OF 1912. Thirty cotton-manufacturing corporations located in Fall River which furnish reports of operations have declared dividends during the third quarter of the year. The total amount paid out is slightly less than for the corresponding periods a year ago. The aggregate of the amount distributed has been \$308,116, or an average of 1.11% on the capital. Six mills passed their dividends, five declared at a smaller rate than in 1911 and the remainder maintained last year's percentage. In 1911 the amount paid by twenty-eight mills was \$309,617, or an average of 1.12%. In 1910_the_amount

14 WALL STREET THE ROOKERY 111 DEVONSHIRE STREET BOSTON NEW YORK CHICAGO

Bankers" Gazette.

Wall Street, Friday Night, Sept. 20, 1912.

Wall Street, Friday Night, Sept. 20, 1912. The Money Market and Financial Situation.—There seems to be less likelihood, than last week, of near-by stringency in the money market and a more cheerful tone and broader ac-tivity at the Stock Exchange have resulted. The announce-ment on Monday of an engagement of \$750,000 gold in London for shipment to this country was regarded as the beginning of a movement which might materially supple-ment our own supply of funds for crop moving if needed. The latter possibility has led to a free discussion by both Treasury officials and local bankers of the matter of further Government deposits in commercial banks. There seems to be no doubt that such an arrangement could be made if necessary. From these or other causes the advance in call loan rates, which was a prominent feature of last week's market, has, for the moment at least, ceased. At Berlin also conditions are easier and the Bank of England reports a slight increase in its percentage of reserve. Otherwise the general financial situation is practically unchanged. At the Stock Exchange there has been a larger volume of business than of late and prices for both bonds and stocks have advanced. At the same time interest in the political situation seems to be waning. Discussion of the matter in financial circles has largely ceased and more attention is paid to the evidences of increasing general business and other direct results of the enormous crops which are, except in the case of corn and cotton, now secured. The open market rates for all loans at bock Exchanged form $4\frac{1}{205}\frac{1}{2}\sqrt{6}$, To-day's rates on call were $4\frac{1}{2}\frac{0}{2}5\frac{1}{2}\sqrt{6}$ Commercial paper quoted nominally at $5\frac{1}{2}\sqrt{6}$ for 60 to 90-day endorsements and $5\frac{1}{2}\sqrt{6}$ for prime 4 to 6 months' single names and $6\frac{1}{2}\sqrt{6}\sqrt{6}$ for good single names. The Lank of England weekly statement on Thursday showed a decrease in bullion of $2\frac{536}{666}$ and the percentage of reserve to liabilities was 50.64, agai

Note.—The Clearing House now Issues a statement weekly, showing the actual andiion of the banks on Saturday norming, as well as the above averages. The gures, together with the returns of the separate banks and trust companies, also he summary issued by the State Banking Department, giving the condition of State anks and trust companies not reporting to the Clearing House, appear on the second age preeding.

Foreign Exchange.—Sterling exchange gradually declined during the week and closed exceedingly dull, apparently awaiting definite information whether the Treasury Department is to come to the relief of the money situation on this

side. To-day's (Priday's) nominal rates for sterling exchange were 4.83 for to-day and 4.85 if for sight. To-day's actual rates for sterling exchange were 4.8220(04.8230 for 60 days, 4.8545(04.8555 for cheques and 4.8590(0) 4.86 for cables. * This is the price bid at the morning board: no sate was minde. Railroad and Miscellaneous Stocks.-The stock market has been more active than for some time past and last week's tendency to weakness has been reversed. On Tuesday the market had, indeed, a decided inclination to buoyancy and a sharp advance was then made in a considerable number of issue

issues. As for some time past, the miscellaneous list was prominent and some of the industrial stocks were leaders of the upward movement. On Wednesday the tendency was reactionary, but only a few stocks responded and prices have, in many cases, held well up to the highest of the week. The market to-day was more active than on any day since May 16, and an advance averaging about a point was re-corded. As a result of the week's operations American Can preferred is $6\frac{5}{8}$ points higher, the common $5\frac{1}{2}$, Reading $4\frac{1}{4}$, and Canadian Pacific, Great Northern, Northern Pacific, Union Pacific and Lehigh Valley are between 3 and 4 points higher. higher.

For daily volume of business see page 740. The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

Investment and Kailroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the electric railways are brought logether separately on a subsequent page.

| | Latest | Gross Earr | ings. | July 1 to J | stes Date. | | Latest | Gross Ear | nings. | Jul/ 1 10 | Lates: Date. |

ANNUAL REPORTS.

Annual Reports.—An index to annual reports of steam railroads, street railways and miscellaneous companies which have been published during the preceding month will be given on the last Saturday of each month. This index will not include reports in the issue of the "Chronicle" in which it is published. The latest index will be found in the issue of Aug. 31. The next will appear in that of Sept. 28. Annual Reports .- An index to annual reports of steam

Chicago & North Western Railway.

(Report for Fiscal Year ending June 30 1912.)

The report of the President, Mr. William A. Gardner, will be found on subsequent pages. Comparative tables, compiled for the "Chronicle," are as

<text><section-header><section-header><section-header><text><text><text><text><text><text><text><text><text><text><text>

crossings, &c.—There were \$2,175 tons of rall and 2,757,392 cross-ties Relievels, &c.—There were \$2,175 tons of rall and 2,757,392 cross-ties laid in renewals, being an excess of 631 tons of rall and 330,205 ties at an increased expenditure of \$62,610 and \$532,160, respectively. During the year \$4 steel bridges, aggregating 3,085 ft. in length, and 18 masonry bridges, aggregating 1,270 ft. in length, were built—replacing 2,880 ft. of wooden bridges 907 ft. of iron bridges and 563 ft. of embank-ment; and 454 wooden cuiverts were replaced with from. About 2.6 mlles of plic bridges were filed with earth. 108 bridges having been completely filled and 74 reduced in length by filling.

Funded Debt.—The funded debt has been decreased during this fiscal year by \$155,000 of bonds retired and canceled and it has been increased by \$1-cost of general mortage bonds issued for bonds retired and canceled, as stated above, and for additions and improvements to property to June 30 [911, and by \$34,35,000 of convertible 4 \5 % gold bonds (see V. 94, p. 1056, 1565) issued for the purchase and construction of additional lines of rail output by \$34,35,000 of convertible 4 \5 % gold bonds (see V. 94, p. 1056, 1565) issued for the purchase and construction of additional indications the railroad of the Chicago Milwaukee & Puget Sound Ry. Co., the capital stock of which is owned by this company. The amount of bonds at the close of the year is \$268,367,155, of which \$40,768,000 are in the treasury (this last item having been increased during the year by \$155,000 general mortage bonds for underlying bonds and canceled and \$201,000 for additions and improvements? The interchange of traffic with other railways outside of the initis of the story now under development in the vicinity of Indiana Harbor and Gary, fud, and tributary territory, this company as acquired by purchase 20% of the outstanding capital stock and 20% of certain obligations of the Initis of the Interchange of traffic with other railways outside of the limits of the inits of the Net RR. which owne or has acquired by purchase 20% of the outstanding capital stock and 20% of certain obligations of the Init is of railroad connecting with the limes of this company at Franklin Park. II. (V. 83, p. 164, V. 86, p. 108.) Outlook.—The 1912 crops of small grabs in the territory ributary to the average. Since fune 30.1912 there has been a general revival of busi-ness in all lines, and the outlow is that there will be a substantial increase in the carnings of the current fiscal year. DEFEATIONS.

New York Ontario & Western Railway.

(Report for Fiscal Year ending June 30 1912.)

Pres. Thomas P. Fowler, N.Y., Sept. 3 1912, wrote in brief: Results.—The loss of coal tonnage due to disasters at collicries, referred to last year, continued during the first half of the fiscal year 1911-12 until the properties were restored to working condition. The complete shut-down of all mines in April and May, when the miners ceased work pending settlement of wage disputes, shut off our main source of revenue for those months. It was impossible to reduce expenses in the same proportion as

DBF1. 21 1012] THE CHI
The reduction of tonnage, and, owing to the rebuilding of bridges and other structures necessarily undertaken early in the year, and the retirement of unserviceable freight cars, there was a considerable increase in maintenance. The net financial result of the operations of the year was, therefore, disapointing to the stockholders as well as to the management, being entitied to less than 1%, on the common stock.
The company had made application to the Public Service Commons for for authority to issue \$2,17,000 general morigare Lond., with which to reimburse the company for capital expenditures made scace November 1910, and to provide for the competition of certain work progressing under contract, which application was pending at the close of the year and has not yet been passed upon. The proceeds of the bonds were required mainly to discharge the floating debt incurred on account of the improvements made, and will be so applied when the authorization is given.
The description of all lines was ordered by the Inter-State Commerce Commission, which occasioned uncertainty as to the tariffs.
The identified all these conditions, your board dema It anwise to earry efficiently for order in provements will be needed for a considerable period to come. The shops, lately enlarged and equipped with the cost of such repairs, which before had to be wated and equipped with the cost of such repairs, which before had to be made at outside shops, and the scended for a considerable period to come. The shops, lately enlarged and equipped with the cost of motive power, and have alterady shown yreat saving the cost of such repairs, which before had to be made at outside shop and the scended for a considerable period to come. The shops, lately enlarged and equipped with the cost of such repairs, which before had to be made at outside shop at the cost of such repairs, which before had to be made at outside shops at the order in a dinfered. Less expenditure for road improvements will

Boltage intersection of the second responsive construction to meet modern requirements.
 Contensed Data from Report of General Superintendent Canfield.
 The gross earnings decreased \$767,758 or \$.20%, and the net earnings (after taxes) decreased \$772,417, or 29.34%. The surplus, after deducting fixed charges, rentails, &c. was \$473,729, and in the previous year \$1,142,-936, a decreased \$652,241, or 29.34%. The surplus, after deducting decreased \$22,980, or 16.35%.
 Local passenger earnings increased \$1,422, or 2.43%, and through passenger receipts decreased \$27,130, or 13.09%. Local treight earnings decreased \$22,980, or 4.73%, while through freight earnings decreased \$25,980, or 16.35%.
 The reveaue received from the transportation of coal was \$3,843,062, a decrease of \$753,240, or 16.35%, as compared with the preceding year. The total shipments from the Scranton division, heutding supply coal, were \$2,96,879 gross tons, a decrease of 407,365,or 10.98%; and excluding supply outer \$3,164,739 gross tons, a decrease of \$354,237 tons, or 10.12%. The total shipments from the Scranton division, heutding supply coal, were \$2,96,879 gross tons, a decrease of \$178,621. This increase is shown in the sum expended for maintenance of way and structures during the year was \$1,266,413, an increase is \$178,621. This increase is shown in the sum expended for maintenance of way and structures during the year was \$1,266,413, an increase of \$178,621. This increase is shown in the sum expended for maintenance of way and structure and and of maintenance is of \$178,621. This increase is shown in the sum expended for the second track construction on Secanton Div. five steel bridges of an aggregate length of 507 ft., in place of wood and they for replacement in kind an expense or maintenance charge of about \$115,000 for the year.

Lake Superior Corporation, Toronto.

(Report for Fiscal Year ending June 30 1912.)

Pres. T. J. Drummond, Sault Ste. Marie, Ont., Aug. 1912, wrote in substance:

Results — We have pleasure in reporting increased earnings, notwith-standing the fact that new construction is not yet completed and that operations have been greatly interfered with in consequence. The volume of business has been maintained, and in view of this and of the satisfactory prospects, your directors feel warranted in paying interest on income bonds for the year at the rate of 5%.

Brooklyn & North River RR.-Application Denied.

The P. S. Commission on Sept. 20, by a divide vole, denied.— The P. S. Commission on Sept. 20, by a divide vole, denied the appli-cation for approval of a temporary permit issued by the Commissioner of Bridges to operate cars across the Manhattan Eridge, between Flathush Ave., Brooklyn, and the North River, Manhattan. The refusal is based on the opinion of counsel that the permit granted by the Commissioner of Bridges is null and vold, so far as atthchity to operate over the bridge is concerned, and that the reading application to the Board of Estimate for a franchise must be a very every the P. S. Commissioners can approve the same.—V. 95. p. 418, 235.

a franchise must be with the fore the P. S. Commissioners can approve the same.-V. 95. p 415, 235. **Buffalo Rochester & Pittsburgh Ry**.-Bonds Offered.-Wm. A. Read & Co., N. Y., Boston, Chicago and London, are placing at a price to yield 41%, \$500,000 consol. mtge. 42% gold bonds due May 1 1957. Outstanding, \$6,689,-000; authorized, \$35,000,000. The bankers say: A cat investment for savings banks and trust fund in ... Y. Conn. and Me. tax-exampt in ... Y. and Penns. and itsel on N. Y. Stoek Exchance Secured by all method at Buffalo. Rochester and other points, and valua-ble equipment; also the company's five-story office building in Rochester. terminal and other lands at Buffalo. Rochester and other points, and valua-ble equipment; also the company's non-half interest in the \$500,000 equiption take ontarlo connecting with Grand Trunk By., (which owns the other half interest), and has paid dividends of at least 5% in each year since 1007. The \$9,997,000 prior lien issues all mature by 1938, and cannot be increased or extende. The annual reports show the accrued interest on this issue eared considerably sive 8 thores in each year since the execution of the mortrage in 1907. Compare V. 95. 7, 557, 361. 365. Central Vermont Ry.—Steamship Line to be Operated May 1. —The company, it is announced, will on May 1 next begin the operation of a daily freight and passenger steamboat line between New York and Providence, the Grand Trunk ex-

tension to that port from Palmer, Mass., being expected

tension to that port from Palmer, Mass., being expected to be completed.
The two large steamers to be used for this service are now under construction at Wilmington, Del. Compare V. 94, p. 1695, 910.
Chicago & Alton RR. —Bond Issue Approved.—
The stockholders on Sept. 20 authorized an issue of \$20,000,000 20-year general mortgage 6% bonds (V. 94, p. 1565, 1695.) -V. 95, p. 1495, 361.
Chicago & Eastern Illinois RR. —Equipment Trusts.—
Kuhn, Loeb & Co., New York, have purchased and have resold to investors \$3,310,000 5% equipment certificates, maturing in semi-annual installments (probably of \$165,000 and \$166,000 alternately) from Mch. 1 1913 to Sept. 1 1922, but subject to redemption at 101% on any interest date upon 60 days' notice.
These certificates represent \$905 of the cost of new equipment, as follows: and 25 Mikado type freight in consolves. Coupon certit e so \$1,000 each of the Commercial Trust Co. of Phila., trustee, with 9 ' 1-see of registration. P. & 1. (M. & S.) payable ingroble doesn't without ' unition for taxes. Par \$1,000 cath.—V: 95, p. 110.
Chicago Elevated Rys.—Dives on Controlled Cos.' Stock.— The dividends of \$10 ft 1% on the Metropolitan Elevated Ry. pref. \$30, sort \$3, 000 ft 1% on the Metropolitan Elevated Ry. pref. \$30, contest of \$25, and \$30, sort \$30, and \$30

-V. 95, p. 110, 47.
Chicago & Western Indiana RR.—Notes Sold.—J. P. Morgan & Co. have taken the \$10,000,000 3-year 5% notes dated Sept. 2 1915, issued for the acquisition of the property of the Chicago Union Transfer Co. and the enlargement of Chicago terminals. (See "Chronicle" of Mch. 30, page 910, and Aug. 17, page 419). This note issue is secured by the mtge. under which \$200,000,000 of 50-year bonds are authorized, the mortgage providing that the first \$10,000,000 should be the notes now issued. (See V. 95, p. 419. The operating company, known as the Belt Railway Co., leases the terminal properties from the Chicago & Western Indiana for 50 years at a rental equal to the interest on the bonds. —V. 95, p. 419, 361.
Cleveland (Electric) Rv.—Stork Authorized —

Cleveland (Electric) Ry.—Stock Authorized.— The Ohio P. S. Commission on Sept. 16 authorized the company to issue \$3,014,920 additional stock, which is offered to stockholders at par. Com-pare V. 95, p. 480, 236.

ployment for its citizens. The control and management insure careful.
 Intelligent and efficient management. Compare V. 95, p. 480.
 Denver Northwestern & Pacific Ry. —Reorganization.—
The plan of reorganization provides for a new 30-year first M.,
authorized for \$35,000,000, 5% bonds, the old mtge. to be
foreclosed. The \$3,500,000 Denver Ry. Securities Co. 6%
notes are to be exchanged at par for these new bonds at S5
and int. the \$2 940,000 of the old first mtge. bonds unpledged
are to receive 50% in the new bonds and 20% in income
adjustment bonds. The incomes will be authorized for
\$2,000,000. All the new bonds to be given in exchange for
old securities will be for four years, graded as to the interest. Mr. Newman Erb agrees to take at 85 a sufficient
amount of the new firsts to produce \$1,132,000 cash.
Bondholders' Protective Committee.—The following committee has been formed to protect the interests of the first M.
4% bonds, of which \$10,940,000 are outstanding, of which
the Denver Railway Securities Co. owns \$8,000,000, subject
to the lien of the 6% Colorado-Utah Construction Co.:

 There are outstanding:
 \$1,500,000 common stock, all owned by the Guanajuato Power & El. Co.; \$900,000 6% pref. stock (cum, from Jan. 1913

 \$1,250,000 auth.);
 \$1,800,0001st M...gold sinking funds 6s, dated 1910 and ince Jan. 1 1340, built callable at 105 (52,500,000 auth.).
 Y, 90, p. 239, 701.

 The bonds and pref. stock are offered at the market prices by William P.
 Bonbright & Co., the bonds on about a 6 15% basis.
 Y, 92, p. 121.

Chesapeake Steamship Co., Baltimore.—1st M. 5s Offered. —The Mercantile Trust & Deposit Co., Baltimore, has pur-chased and, it is understood, is offering privately at par and int., \$630,000 "equipment (trust) first mtge. 5% bonds," issued in connection with the purchase of two new steamers. The balkers say in substance:

Issued in connection with the purchase of two new steamers.
 The bankers say in substance:
 The dotter of the state of the s

ment bonds, which constitute the only mortage. See also V. 90, p. 1363. **Cleveland-Akron Bag Co.**—Stock Dividend, &c.—The stock was listed on the Cleveland Stock Exchange on Sept. 5. 'Cleveland Leader'' says: Cleveland-Akron Bag has a common stock issue of \$1,500,000 and \$500,000 preferred. A stock dividend of \$3.1-3% or, \$500,000, wasrecently declared and shareholders will have the right to subscribe for \$500,000 more at par to retire the preferred. This will make the issue \$2,500,000, all of one class. Rights accrue as of Dec. 21 and the new issue and con-version will be completed as of Jan. 1 1913. The common was bid at 130 and offered at 140. The surphus as of Jan. 1 1912 was \$1,244,101. Floating debt was represented by \$493,878, of which \$400,000 was in drafts on foreign banks. J. H. McBride is President; G. D. Adams, Vice-Prest; H. H. Campbell, Freas. and G. E. Kappler, Sery. These, with H. H. Giulis, F. E. Hail and Malcolm McBride, compose the board.— V. 95, p. 51.

Extension of Charler.— The stockholders will vote at a special meeting to be held on Oct. 10 on a proposition to extend the corporate life of the company, which expires on Oct. 21, for a period of 20 years. At the regular annual meeting on Oct. 21, it is rumored that the question of readjusting the capital and discharging the 70% accumulated dividends on the pref. stock will be considered. Compare V. 33, p. 1728.

on the pref. stock will be considered. Compare V. 93, p. 1728. **Columbia Gas& Electric Co.**—Increased Stock of Subsidiary. The Union Gas & Electric Co. of Clucinnati has applied to the Ohlo P. S. Commission for authority to issue \$500,000 preferred stock in ad-dition to the \$5,000,000 now outstanding. The Union Gas & Electric Co., as lesse for the Clucinnati Gas & Electric Co., under the terms of its lease is required to turn over to the lessor securi-ties worth at least \$3,000,000, to guarantee its lease. At the time of the making of the lease there were turned over \$3,333,000 of bonds of the Columbia Gas & Electric Co., which, it is stated, have depreciated in value so that they are no longer worth \$3,000,000. The Union company asks permission to exchange the new stock for bonds of the Columbia Gas & Electric Co. and deposit the bonds with the Cincinnati Gas & Electric Co.—V. 35, p. 422, 178.

Continental Telephone & Telegraph Co. of N. J.—Sale.-te Keystone Telep. Co., V. 94, p. 770.—V. 94, p. 281, 126. Costilla Estates Development Co.—Guaranteed Bonds.-See San Luis Power & Water Co. V. 94, p. 1702.—V. 90, p. 629. S

Cote Piano Manufacturing Co., Fall River.—First Pref. Dividend.—An initial quarterly dividend of 1%4% has been declared, payable Oct. 1 1912 on stock of record Sept. 19 1912 on the \$250,000 7% cum. pref. stock. The Exchange Trust Co. of Boston is transfer agent.

Cumberland Telephone & Telegraph Co. -Control. See Southern Bell Tel. & Tel. Co. on pare 684 in last week's "Ch

"Chronicle." See Southern Bell Tel. & Tel. Co. on page 684 in last week's "Chronicle." Decision.—The decision of the U. S. Supreme Court in the suit over the rates for service in the city of Louisville, which was referred to in last week's item (p. 681), was handed down on June 7 last and mentioned in the "Chroniele" of June 15 (V. 94, p. 1629).—V. 95, p. 681.

John R. Davis Lumber Co., Phillips, Wis.—All Retired.— Farson, Son & Co. announce the retirement of the entire 1:sue of \$600,000 1st M. 6s at 100 and accrued int. Funds are now on deposit at Chicago Title & Trust Co., Chicago.—V. 92, p. 61; V. 88, p. 1001.
 Evansville (Ind.) Light Co.—Consolidation.— See Public Utilities Co. of Evansvile, V. 94, p. 1627.—V. 89, p. 228.

Faultless Rubber Co., Ashland, O. —Stock Dividend 60%. The authorized capital stock was recently increased from \$325,000 to \$1.-000,000 (par \$100), of which \$525,000 is now outstanding, the stock-holders having, it is understood, received a stock dividend of 60%. No bonds, incorporated in Ohio Dec. 23 1905. Prest., and Treas., T. N. Miller; See., I. L. Miller.

General Baking Co.—Preferred Dividends.—The third regu-lar dividend of 134% has been declared on the \$5,185,000 7% cumulative preferred stock, payable Oct. 1 to holders of record Sept. 21.—V. 94, p. 211.

General Electric Go.—Debenture Sale.—The company has sold to J. P. Morgan & Co. \$10,000,000 of the 5% debenture issue authorized in July lastfor \$60,000,000—see "Chronicle," July 27, p. 238. The debentures will be dated Sept. 2 and mature Sept. 1 1952, interest payable March and Sept. Bankers Trust Co., trustee. They are not convertible but are redeemable at 107½ and int. on (and after) any interest date.—V. 95, p. 621, 422. (The) Guanajuato Power & Electric Co. (Mexico) — States

Iowa City (Ia.) Lt. & Power Co.—Successor Co.—Control. See Western Utilities Co. below and compare V. 89, p. 1599, 46.
Kansas City Railway & Light Co.—Majority of 5-Year Notes Deposited.—A large majority of the 6% 5-yr. collateral gold notes, maturing Sept. 1 1912, have been deposited under the agreement of deposit dated Aug. 15 1912, and the com-mittee for the present will permit further deposits to be made as stated in advertisement on another page. Compare V. 95, p. 618 680 p. 618, 680.

Lake Superior Corporation, Toronto.—Annual Report.— See "Annual Reports" on a preceding page. Full 5% on Income Bonds.—A dividend of 5% for the year ending June 30 1912 has been declared on the \$3,000,000 non-eum. 5% income bonds, payable Oct. 1 at the First National

Bank, Phila. The only pravious distributions were 21/2% each in Oct. 1910 and 1911 and 5% Oct. 1906.-V. 95, p. 114.

Lehigh & Wilkes-Barre Coal Co.—Earnings.— June 30.— Total Net Interest, Dividends, Balance, Year.— Recripts. Farrings. Sk. Ed., &c. (13%). 1911-12...518,742,623 53,760.361 \$1,274,300 \$1,197,625 \$1,288,346 1910-11...10,870,575 5,473,382 1,291,583 1,107,625 984,174 -V. 93, p. 1459.

Ed. Compare V. 91, p. 1774; V. 92, p. 960. Makaweli Sugar Co., San Francisco.—Dissolution.—The stockholders of the company on Feb. 24 voted to dissolve the company, which was merely a holding company for the Ha-waiian Commercial & Sugar Co. Of the \$5,000,000 authorized stock (par \$50), \$3,788,250 was at last ac-counts outstanding. The authorized isane of Hawaiian Commercial & Su-gar Co, stock is \$10,000,000 (par \$25), all outstanding Jan. 1 1911, of which \$2,312,735 has been paid up. The stockholders of the Makawell company received share for share in stock of the Hawaiiian company.— V. 91, p. 521. Magning Magnuell & Moore Inc.—Dividend Increased —

Manning Maxwell & Moore, Inc.—Dividend Increased.— A divident of 154% has been declared on the \$5,000,000 capital stock payable Sept. 30 to holders of record on that date, comparing with 1% in June last, that being the first distribution since Sept. 1911. Quarterly payments of 14% were made from June 1905 to Sept. 1911, incl.—V. 93, p. 1671.

Marion (1a,) Light, Heat & Power Co. — Merger. — Marion (1a,) Light, Heat & Power Co. — Merger. — See Iowa Ry, & Light Co. under "Rallroads" above. —V. 70, p. 273.
 Mexican Northern Power Co. — Officers, Bonds, &c. — D. E. Thompson, K.C., of Toronto was some time ago elected President to succeed G. F. Greenwood, and A. E. Ames of Toronto, Vice-President. Mr. Greenwood becomes a Vice-President and General Manager. D. E. Thompson, K.C., Strachan Johnston, K.C., and A. E. Ames have been elected directors to represent the so-called Toronto group who secured a majority of the proxies at the annual meeting. The retiring President reported that the work on the plant in Mexico Is progressing favorably and that it will be completed within a year. The bondholders on June 29 1011 authorized the issue of \$200,000 of the bonds in the denomination of \$100 each, such bonds to be exchanged for those outstanding in denominations of \$500 and \$1,000, and to give each bond-holder one vote for each \$100, or its equivalent in English sterling money or French currency bonds held by him, instead of one vote for each \$500 of such bonds, and also voted to remove doubts as to the provisions respect-uiton of supplemental deed or deeds to give effect to the proposal. Com-pare V. 23, p. 1063.
 Mobile (Ala.) Electric Co.—Annual Earnings.— Outstanding enitalization: Pref. stock, 7% cum, par, \$100 (auth, \$5, 500,000; V. 93, p. 1000, \$852,500; common stock, par, \$100 (auth, \$5, 500,000; V. 93, p. 1000; S\$252,500; common stock, par, \$100 (auth, \$5, 500,000; V. 93, p. 1000; S\$25,000; common stock, par, \$100 (auth, \$5, 500,000; Y. 93, p. 1000; S\$25,000; common stock, par, \$100 (auth, \$5, 500,000; Y. 93, p. 1000; S\$25,000; common stock, par, \$100 (auth, \$5, 500,000; Y. 93, p. 1000; S\$25,000; common stock, par, \$100 (auth, \$5, 500,000; Y. 93, p. 1000; S\$25,000; common stock, par, \$100 (auth, \$5, 500,000; Y. 93, p. 1000; S\$25,000; common stock, par, \$100 (auth, \$5, 500,000; Y. 93,

Mono Power Co., Bishop, Cal. —Bonds. —This company, incorporated in California in Dec. 1906 with \$3,000,000 auth. stock, in \$100 shares, to build a hydro-electric plant on the Owens River in the Sierra Nevada Mts., 15 miles north of Bishop, filed in January last a certificate of creation of bonded debt in the shape of \$2,500,000 30-year 6% bonds, dated, it is supposed, Dec. 15 1911 and redeemable at 105 and int. on and after Dec. 15 1916.
 The company's transmission lines are projected to extend 150 miles to Silver Peak. Tomopah. Goldfield. Bullfrog and possibly Wonder, Nev. Plant with 12,500 h.p. turbing under construction. Directors: John J. Quinn (Pres.) and H. A. Mosher (See.), both of Oakland; Leon M. Hall, I. H. Clay, Fred L. Dreher.

I. H. Clay, Fred L. Dreher. Mountain States Telep. & Teleg. Co.—Indictment.— A special grand jury in the state District Court on Sept. 10 returned an indictment against the company on the charge of operating in Denver with-out a license from the city, as required by the Act of 1907 in the case of public utility companies. The question of granting a franchise is, it is stated, under consideration by the City Council. The company's counsel claim that it does not need a franchise from the right to operate through-out the State with the consent of the reopie, and the city, being compelied to grant a franchise to any telephone company which primarily is a telegraph company.—V. 94, p. 623.

Nevada (Mo.) Water, Lt. & Trac. Co.-Merger-Bonds See Fort Scott & Nevada Lt., Ht., W.& Power Co. above.-V. 94, p. 6

 New Departure Mig. Co., Bristol, Conn. — Slock Dividend. The company recently distributed among the holders of the common shares grafts \$37,600 common stock, being a dividend of 4% or thereabout, and in this connection, in order to avoid fractions of shares, offers to buy or furnish additional fractional shares on the basis of \$150 per share. A. F. Rockwell is Pres, F. P. Furlong, V.-P., De Witt Page, Sec.; Chas. T. Treadway, Treas. See bal, sheet, &c., V.94, p. 212, 283; V. 92, p. 885.

New Mexico-Colorado Coal & Mining Co.-Reorganized Co. For record purposes, it should be noted that the company was incorporated in New Mexico on July 1 1911 as a reorranization and consolidation, per plan V. 92. p. 1441, of the Yabkee Fuel Co., Santa Fe Raton & Eastern RR., Santa Fe Raton & Des Moines, Santa Fe Liberal & Englewood icR, and Raton Water-Works Co., &c., and has taken over practically all of the stocks and bonds of the allied companies named, which were organized by Shepard & Co. of this city.

New York (Bell) Telephone Co.—Bonds Offered.—Kidder, Peabody & Co., N. Y. and Boston, are offering, at a price to yield 4%%, by advertiscment on another page, first and gen. mtge. 4/2% gold sinking fund bonds of 1909, due Nov. 1 1939, but callable as entire series at 110 and int on 3 mos." notice. Par \$500 and \$1,000. Tax-free in N. Y. State. Annual sinking fund 1% per annum when bonds can be pur-chased at or under par. Total outstanding, \$74,000,000. A closed first mtge. (subject only to \$3,567,000 prior lien bonds) against assets reported as three times that amount and net earnings in 1909 of \$10,572,000; 1910, \$14,496,000; 1911, \$15,223,000. Compare V. 94, p. 1054, 1510, 1569; V. 95, p. 548.
Norfolk County (Va.) Water Co.—Bonds.—The company

Norfolk County (Va.) Water Co.—Bonds.—The company in 1911 filed a mortgage to the Columbia Avenue Trust Co. of Phila., as trustee, to secure an issue of \$2,000,000 5% 30-

year bonds, which provided for retiring \$650,000 existing bonds and for improvements and extensions. Joseph S. Keen of Phila. is President and H. Bayard Hodge of Phila, is Secretary. Compare V. 93, p. 51. The new issue (dated Nov. 1 1911) is a general attre., and sufficient bonds are in the hands of the irustee to retire all underlying bonds, the latter be-ing still in the hands of the public and not subject to retemption before maturity. The new bonds can be called at any time after nev years at any interest period at 102 is. In any amounts. --V. 93, p. 51.

Annual Soles (Company Has Never Had an Unprofilable Year.) Annual Soles (Company Has Never Had an Unprofilable Year.) 1890. 1895. 1900. 1905. 1910. 1911. 1912. 310.743 \$192.636 5500.242 \$1.245.370 \$1.908.088 \$2.045.321 \$1.120.583 The present year is expected to be the largest year in the company's his-tory, both in sales and profits.—V. 92, p. 1037.

tory, both in sales and profits.—V. 92, p. 1037.
Pioneer Telephone & Telegraph Co.—Decision.—
The Oklahoma Supreme Court on Sept. 11, in a decision announced by Chief Justice Turner, held void the city ordinance authorizing the company to increase its rates on the basis of additional subscribers, the maximum rate to be charged to be dependent upon the total number of telephones within the city limits. The right of the corporation commission to establish rates for telephone companies is upheld. The Court says that power of an incorporated city or town to fix municipal telephone rates can only be derived from the Legislature by express grant or necessary implication.
As a result of the decision, the company will be obliged to return, it is stated, ahout 564,000 to subscribers, the amount of the rebate under a contract by which the company put up a bond to cover the additional charges since the increase became operative in 1909.—V. 95, p. 467.
Bownelis Iron & Stael Co. Youngestown O.—No Dividend

Republic Iron & Steel Co., Youngstown, O .- No Dividend in October.-No action has been taken by the executive com-mittee regarding the resumption of dividends on the pref.

mittee regarding the resumption of dividends on the pref. stock, which were suspended following the distribution of the regular $1\frac{3}{4}\frac{7}{6}$ in Jan. last. Chairm. Topping is quoted: A majority of the board informally expressed themselves as being of the opinion that it would be wiser to defer action on the matter of resuming divi-dends to a later date, notwithstanding the fact that present earnings are in excess of divident requirements. The policy of the board, so far as it is practical to do so, is to add substantially to the cash simplus, so as to forthy the company against any unexpected general disturbance to business. It is thought in some quarters that if conditions continue favorable, the directors may in November next authorize a resumption in January next. Compare V. 95, p. 417, 622.

The earnings available for interest charges and maturity payments, ac-cording to a report furnished to us by Niles & Niles, certified public account-ants, have averaged 3306,736 for the five years ending Apr. 30 1912. The saving possible by the power now being developed at Grand Falls, it is ex-pected, will add materially to the net earnings. The consumption of newspaper has increased rapidly in this country in the last five years, and though some new mills have been constructed bere and in Canada, the price has remained very firm. The markets for our product are chiefly in Boston, New York and Philadelphia. We have been familiar with the affairs of this profitable, well-managed company since it was organized in 1904, and have known those most sub-tantially interested for a number of years. The \$2,500,000 new bonds have mostly been sold. The 2nd mater. 5s of 1907, about 1,205,000, have been called for payment at Old Colony Trust, Boston, on Dec. 1 at par and it. The 1st M. 6s, about 900,000, also called, were payable on Sept. 1 last). Compare V. 91, p. 713.

Santiago (Cuba) Electric Light & Traction Co.—Bonds Offered.—Lawrence Turnure & Co., New York, are placing at 98½ & int. \$2,000,000 1st M. 6% gold bonds due Jan. 1 1959; but redeemable, all or any, at 105 & int. on and after Jan. 1 1919. Par \$500 (c*). Prin. & int. (J. & J.) payable in U. S. gold coin at Equitable Tr. Co., New York, trustee. A circular shows: A circular shows: Capital (No Floating Debt)-

 —Our Annual Convention Supplement — the Bankers' Convention Section—accompanics to-day's issue of the "Chronicle". This year's Supplement contains a com-plete report of the proceedings of the 1912 Convention of the American Bankers' Association held in Detroit last week.
 We have endeavored to secure for the advertising pages of our Convention Supplement the most representative banks and trust companies and the banking firms of the highest character in this country, which will appeal to the exacting banking and investment requirements of the readers of this paper. In addition to these, the foreign banking corpora-tions and concerns are largely represented among the ad-vertisements, including some of the best known institutione in the world. A feature of all the advertisements is the attractiveness of their display and the interesting half-tone cuts of the bank buildings and advertising trade-marks employed by the various advertisers.
 "How to Analyze Railroad Reports" is the title of a new book published by John Moody, the well-known Wall Street writer on corporation securities. The scope of the book is indicated by some of the chapter headings, which include The Location of the Railroad, the Management of the Rail-road, Physical Factors in the Railroad, Passenger and Freight Density, Freight Train Load, The General Income Account, The Maintenance Accounts, Outside Operations, Net Operating Revenues, Fixed Charges and the Margin of Safety, Assets and Liabilities, The Balance Sheet, Net Capitalization, &c. An appendix furnishes an outline of the uniform accounting requirements of the Inter-State Commerce Commission. Published by Analyses Publishing Co., 35 Nassau Street, New York. Price \$2 10.
 —Edmund V. Cuming & Co., members of the Baltimore. The new firm is composed of Edmund V. Cuming and Harry E. Schnieder, both formerly connected with Boyer, G

concern will be the Battimore correspondents of Fenning-ton, Colket & Co. —At 91½ and interest, yielding 5¼% on the investment, Nelson, Cook & Co. of Baltimore are offering \$100,000 Lehigh Valley Transit Co. ref. and impt. mtge. 50-year 5% bonds, which are tax-exempt in Pennsylvania. The firm's special circular just issued covers all the investment features of this property and also includes a list of other attractive bonds at prices to return the buyers 4½ to 5.35%. Copy will be mailed to all inquirers. —W. W. Vernon of Chicago has resigned his position as Secretary and Treasurer of Porter, Fishback & Co. and severed his connection with the American Life Insurance Co. of Chicago. Mr. Vernon retains his connection as Treasurer of the Edmund T. Perkins Engineering Co. and is at present engaged in the independent, financing of a number of projects for his own account. —Harris, Forbes & Co. of New York are offering at 97 and interest, by advertisement elsewhere in this issue to-day, \$1,687,000 Iowa Ry. & Light Co. first and refunding mtge. 5% bonds due 1932. Net earnings over twice bond interest. See advertisement for general details and item regarding this property in the "General Investment News Department" for other particulars.

property in the "Ge for other particulars.

Or other particulars.
—Anticipating the tax date October 1st, A. M. Kidder & Co., 5 Nassau St., this city, are advertising a list of "exempt-from-tax" guaranteed railroad stocks which list the firm will gladly mail to interested parties upon application.

TRACK ELEVATION.

The elevation of the Company's six main tracks on the Galena Division through the Village of Oak Park, which adjoins the City of Chicago at its western limits, has been completed. The continuation of this elevation through the villages of River Forest and Forest Park, a distance of 1.43 miles, has been practically completed from the western limits of Oak Park to the overhead crossing of the Minneapolis St. Paul and Sault Ste. Marie Railway in River Forest, a distance of .8 miles.

SUNDRY ADDITIONS AND BETTERMENTS.

distance of .8 miles.
SUNDRY ADDITIONS AND BETTERMENTS.
Among the more important sundry additions and betterments to the property of the Company during the fiscal year are the following:
— An additional main track from Lake Shore Junction, Wisconsin, to a connection with the Milwaukee Sparta & North Western Railway north of Lindwern, a distance of 4.16 miles, has been completed.
— An aggregate of 124.74 miles of yard tracks, sidings and industrial spurs has been added.
— At Norfolk, Nebraska, a modern brick passenger station and eating-house has been completed.
— At Proviso, Illinois, the enlargement and improvement of the Company's terminal facilities by the construction of a 58-stall, 90-foot brick engine house, machine shop, power house, and other buildings, ample coal and water facilities, and 32.20 miles of additional yard tracks, is nearly completed.
— At Boone, Iowa, the construction of a 36-stall, 90-foot brick engine-house, electric light and transmission line, machine-shop and miscellaneous buildings, has been completed. There has also been added to the freight yard at this station 11.46 miles of tracks.
— Milwaukee, Wisconsin, a reinforced concrete, ten willong, is being constructed.
— At Milwaukee, Wisconsin, a distance of 4000000 miles, and between Madison and Baraboo, Wisconsin, a distance of 38 miles. Upon completion of the work now under construction, \$65.4 miles of the Company's main line.
— Methode during the year from Boone to Council Bluffs, Iowa, a distance of 148 miles, and a telephone line for like use is being installed from Chicago to Clinton, Jowa, a distance of 148 miles, which will provide a continuous telephone line for use in dispatching trans.
MEW RAILWAYS AND EXTENSIONS.

tending from Girard to the Company's coal fields in Macoupin County, Illinois.

EQUIPMENT TRUST OF 1912.

To make provision for the acquisition of additional equip-ment, an agreement, sanctioned by the Board of Directors, was entered into on January 20, 1912, establishing the Chicago & North Western Railway Company Equipment Trust of 1912. The agreement provides for the acquisition of equipment by the Vendors named therein, its conveyance and delivery to The Farmers' Loan & Trust Company and Edwin S. Marston, Trustees, and the leasing thereof by this Company for a term of ten years. The Trust Company will thereupon issue Chicago & North Western Railway Com-pany Equipment Trust Certificates to an amount not to exceed the cost of the equipment so delivered and leased, the total of which certificates shall not exceed \$10,000,000,00, Upon compliance with the agreement and leases, in which provision is made for the retirement of the certificates during the terms of the leases, title to such equipment will become vested in this Company. Contracts have been made by the Vendors for the following equipment to be delivered by September 1, 1912: 75 locomotives. 50 passenger cars. To make provision for the acquisition of additional equip-

75 locomotives, 55 passenger cars, 3,000 box cars, 1,000 refrigerator cars, 600 furniture cars, 500 flat cars,

LANDS.

LANDS. During the year ending June 30, 1912, 5,441.84 acres and 83 town lots of the Company's Land Grant lands have been sold for the total consideration of \$144,764.35. The total number of acres remaining in the several Grants June 30 1912 amounted to 369,595.45 acres, of which 29,369,97 acres were under contract for sale, leaving unsold 340,225.48 acres. Appended hereto may be found statements, accounts and statistics relating to the business of the fiscal year and the condition of the Company's affairs on June 30 1912. THE CHESAPEAKE & OHIO RAILWAY COMPANY

THIRTY-FOURTH ANNUAL REPORT-FOR THE FISCAL YEAR ENDED JUNE 30, 1912.

Richmond, Va., September 12, 1912.

To the Stockholders: The Thirty-fourth Annual Report of the Board of Direc-tors, for the fiscal year ended June 30, 1912, is herewith submitted.

submitted. The average mileage operated during the year by The Chesapeake and Ohio Lines was 2,263.1 miles, an increase over the previous year of 33.9 miles. The mileage at the end of the year was 2,305.5 miles, an increase of 63.9 miles over mileage on June 30, 1911. See schedule on page 12. The operations of the Chicago Line (The Chesapeake and Ohio Railway Company of Indiana) are included in this report. This line has not yet begun to yield any return to your Company upon the sums invested in the purchase of its stocks and bonds. This is due in part to its physical condi-tion at the time it was acquired and to the consequent ne-cessity for steady improvement and excessive maintenance work, coupled with the necessity for expediting through traffic in order that the business offered your Company might be handled. Careful measures have been undertaken for bringing this line to a much higher state of efficiency and the outlook upon its future earnings appears more favorable now than at any time since its acquisition. now than at any time since its acquisition.

n, with the 's treasury,

Other changes in funded debt shown on the balance sheet of June 30 1912 were:

None of the First Lien and Improvement Mortgage Bonds issued during the year has been sold, all of them, with the exception of a small amount in the Company's treasury, having been deposited as collateral for \$19,500,000 of out-standing 4½ per cent Secured Gold Notes. These bonds were issued during the year and were authenticated and delivered in respect of the acquisition of certain stocks and bonds, for the payment of certain equipment obligations, and \$5,000,000, face amount, for additions and betterments. The 4½ per cent Secured Gold Notes issued during the year were sold to provide funds for new equipment and other additions and betterments; the 4½ per cent General Mort-gage Bonds were issued for the building of additional second track; and the Raleigh & Southwestern, Coal River and Big S undy Rallway Companies' First Mortgage Bonds issued during the year were acquired by your Company in reimbursement for capital expenditures made for account of those branch lines and remain in your Company's treasury. The decrease in the amount of 5 per cent General Funding and Improve-ment Mortgage Bonds outstanding is due to the pledge of that face amount of bonds acquired by your Company two years ago, against which a like amount of First Lien and Im-provement Mortgage Bonds have been issued; and other decreases shown above in amounts of outstanding bonds are dur to retirement through sinking funds. Your Company has acquired during the year additional shares of stock of The Chesapeake & Ohio Equipment Corporation, the First National Bank Building Corporation (Richmond, Va.), and of White Sulphur Springs, Incor-porated. It has also acquired all the stock of the Logan & Southern Railway Company and of the Silver Grove Land & Building Company, and notes of The Chesapeake & Ohio Equipment Corporation were acquired and pledged under your Company's First Lien and Improvement Mort-gage. Further shares of stock and first mortgage bonds of The Chesapeake & Ohio Railway Company of Indiana were

issued in respect of the cost of certain additions and better-

issued in respect of the cost of certain additions and better-ments made to that line and were pledged under your Com-pany's First Lien and Improvement Mortgage. A statement of charges to property accounts will be found on page 16, by referring to which it will be seen that additions and betterments were made to the amount of \$3,710,498 92. of which \$3,550,035.75 was added to cost of road and \$160,463.17 to cost of equipment. The Chesapeake & Ohio Equipment Corporation issued \$20,000 additional stock and \$1,750,000 additional notes for purchase of new equip-ment, all of which was acquired by your Company at par, \$5,910,000 face amount of similar notes having been ac-quired in July 1911 out of the proceeds of the sale of se-curities in the previous fiscal year. The total property investment pertaining to the fiscal year was, therefore, \$5,480,498.92. A schedule of securities owned June 30 1912 will be found

\$5,480,498.92. A schedule of securities owned June 30 1912 will be found on page 17. (See pamphlet report.? During the past three years your Company's increase in capital liabilities in hands of the public, its principal acquisi-tion of stocks and bonds of other Companies, and its ex-penditures for branch line construction, equipment and other additions and betterments have been as follows:

The equipment inventory as of June 30 1912 was as follows:

| Locomotives owned | 255 | Dec. | 20 |
|-----------------------------|------|--------|---|
| Total | 793 | Inc. | $ \begin{array}{c} 13 \\ 12 \\ 19 \end{array} $ |
| Passenger train cars owned | 344 | Inc. | |
| Passenger train cars leased | 29 | Inc. | |
| | 373 | Inc. 1 | 31 |
| | 540 | Inc. 1 | ,142 |
| | 265 | Inc. 1 | 795 |
| Total | ,805 | Inc. 1 | ,937 |

The changes during the year in the reserve for accrued depreciation of equipment are as follows:

Charges to account for: Accrued depreciation on equipment retired during year—15 locomo-tives, 358 freight and work cars and 2 car floats Accrued depreciation on cars changed in class during year 1,322 68

31,305 78 714,414 14

--\$2,790,280 31 Balance to credit of account June 30 1912 ...

Despite the remarkable severity of the winter and the in-creased work which resulted, the operating ratio of your Company has decreased, and the revenues, ton miles and efficiency have increased, as an examination of the following table of facts will show:

| | 1912. | 1911. | Increase. |
|------------------------------|-----------------|-----------------|----------------|
| Operating revenues | \$34,289,869 77 | \$32,583,411 24 | \$1,706,458 53 |
| Net operating revenue | 11,654,188 73 | 10,789.796 22 | 864,392 51 |
| Operating ratio | 66.% | 66.9% | |
| Second track mileage | 477.5 | 420.4 | 56.9 |
| Tons of revenue freight car- | | | |
| ried one mile | 6,692,114,437 | | 609,431,841 |
| Revenue train load, tons | 756 | | |
| Revenue tons per loaded car_ | 30.3 | 29.2 | 1.1 |

THE CHRONICLE

The vector of the transformation of the second s Speculation in cotton for future delivery has been moder-ately active at irregular prices. Latterly, however, they have shown an upward tendency. This was owing largely to a better spot situation at home and abroad. The soot sales

of 5 points. The rates on and off middling, as established Sept. 11 1912

The official quotation for middling upland cotton in the New York ma ket each day for the past week has been:

NEW YORK QUOTATIONS FOR 32 YEARS.

The quotations for middling upland at New York on Sept. 20 for each of the past 32 years have been as follows:

| 1912 0 | 1904_C11,10 | | 1000_010.44 |

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and conse-quently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

EUROPEAN COTTON CONSUMPTION TO SEPT. 1.— By cable to-day we have Mr. Ellison's cotton figures brought down to Sept. 1. We give also revised totals for last year that comparison may be made. The spinners' takings in *actual* bales and pounds have been as follows:

| October 1 to September 1. | Great Britain. | Continent. | Total. |
|--|----------------|------------|--------|
| For 1911-12. Takings by spinnersbales Average weight of balesbs. Takings in pounds. For 1910-11. | | 484 | 490.5 |
| Takings by spinnersbales Average weight of baleslbs. | | 475 | 485.2 |

According to the above, the average weight of the deliveries in Great Britain is 500 lbs. per bale this season, against 501 lbs. during the same time last season. The Continental deliveries averaged 484 lbs., against 475 lbs. last year, and for the whole of Europe the deliveries average 490.5 lbs. per bale, against 485.2 lbs. last season. Our dispatch also gives the full amount for this year and last year in bales of 500 lbs.

| October 1 to September 1. | 1 | 911-12. | | 1 | 910-11 | |

PRODUCTION OF COTTON IN 1911-12 APPOR-TIONED TO STATES.—The subjoined statement of the yield of cotton in each producing State in 1911-12 is based upon investigations made by us since the close of the season. The commercial crop reached a total of 3,911,000 bales more than in 1910-11 and was 2,214,000 bales greater than the previous record yield for 1908-09. The average yield of lint per acre was 209 lbs. the past season, or 41 lbs. more than in 1910-11. The production by States for the last five seasons has been as follows:

| | PRO | DUCTION | BY STATI | ES. | |

NEW YORK COTTON EXCHANGE.—Proposed New Building.—At what was stated to have been the most larg by attended meeting the body has ever held, the New York Cotton Exchange members discussed yesterday afternoon the proposal to erect a new building. No definite action was taken, a recess being taken until next Tuesday afternoon.

WEATHER REPORTS BY TELEGRAPH.-Telegraphic advices to us this evening from the South denote that rain has been quite general during the week and beneficial for the most part. Picking has made good progress and the movement of cotton to market is becoming liberal.

the most part. Picking has made good progress and the movement of cotton to market is becoming liberal. Fritay.

Thursday

Indian coin has latterly been stronger, owing partly to fears of frost in the belt. Killing frost has actually occurred, it is said, in parts of Nebraska. It is said, too, that more damage was done by the recent drought and heat in Nebraska, Kansas, Oklahoma and Texas than was gen-erally supposed to have been done at the time. Large inter-ests are identified with the bull side of the corn market, and they have bought heavily. After sagging for a time cash prices have latterly advanced, with a good demand from Eastern buyers at Chicago. Early in the week the receipts at Chicago suddenly increased and cash and September for a time felt the effects. But latterly the receipts have de-creased and prices have accordingly improved. There are those who believe that there will be unusually large feeding of corn to cattle and hogs this year, owing to the high prices of beeves and hogs at the West. At Chicago beeves have advanced to \$11 per hundred pounds, the highest price, it is stated, for many years past, and there are predictions that \$15 will be reached by Christmas. Hogs, although not so high relatively as beeves, are high enough to encourage feeding. These things, it is maintained, are likely to neu-tralize the effects of even a crop of 3,000,000,000 bushels. And latterly some traveling experts have expressed doubts whether quite so large a crop will be raised. To-day prices were firm on predictions of frost.

THE DRY GOODS TRADE.

THE DRY GOODS TRADE. New York, Friday Night, Sept. 20, 1912. The week in the drygoods trade has been very satisfactory, with the situation continuing to favor producers. The scarcity of supplies and lateness of mills in making deliveries are the chief topics of discussion. In staple cottons, buyers are more active in covering their requirements, and are not finding it easy. They are willing to pay full asking prices but are unable to obtain the deliveries desired. Retailers have found that their initial orders on fall lines of cotton of the stocks of jobbers. The majority of mills are well sold up to the turn of the year, and only in scattered instances are they in a position to furnish jobbers with further supplies of fall goods. Where they are in a position to do so, they are asking advanced prices on the same. Jobbers are also in fear the same tightness of supplies during the spring that modelens and worsteds there is also much anxiety over the and fear the same tightness of supplies during the spring that modelens and worsteds there is also much anxiety over the and fear the same tightness of supplies during the spring that modelens and worsteds there is also much anxiety over the and fear the same tightness of supplies during the spring that modelens and worsteds there is also much anxiety over the and fear the same tightness in the hands of distributers are avery small and mills are still engaged in manufacturing materials which should have been shipped some time ago. Mean swear likewise, the matter of deliveries is receiving does attention. Judging from the amount of business which mills have booked, and their present rate of production and signment, it is feared that it will be very difficult to get austeriory deliveries of goods for next spring.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending Sept. 14 were 5,017 packages.

Other countries65352,2021,54428,408Total5,017294,0266,103239,022The value of these New York exports since Jan, 1 has been\$18,959,766 in 1912, against \$16,997,678 in 1911.Markets for domestic cotton goods hold steady with the
tendency of prices upward. Demand is reported active in
all sections of the country, and many complaints are heard
of backward deliveries, indicating that merchants are short
of supplies and unable to meet the requirements of their
customers. It is said that it is many years since September
witnessed such a good business when in the midst of a
political campaign, as generally the uncertainties surrounding
the outcome of the elections has had a tendency to restrict
buying except what was required for immediate needs.
Staple tickings have been well ordered, the largest houses
receiving business for delivery as far ahead as November.
Large inquiries are received for drills and sheetings for
future delivery and are taken to indicate a resumption of lib-
eral contracting for spring delivery. Ginghams, particu-
larly the low-priced dress ginghams, are selling well, the finer
qualities being in only very moderate demand. Jobbing
houses handling wash goods are doing a good business as
compared with recent years, while many lines of heavy
colored goods are being well ordered for October and No-
vember delivery, the cooler weather in many sections of the
goods. Print cloths and convertibles are quict and about
steady. Offerings generally are light. Gray goods, 38½
inch standard, are quoted at 5½c.WOELEN GOODS.—A satisfactory business has been
transacted in men's wear and dress goods, notwithstanding
the forthcoming Presidential election and threatened tariff
evision. Orders for most all lines have been heavy and mills
a

there are urgent requests for quick shipments. FOREIGN DRY GOODS.—No abatement is noted in the demand for linens, which continues active at firm and advancing prices. Advices from abroad state that as a result of increased cost of production quotations will be marked up. Both dress goods and housekeeping li es are well taken. Burlaps developed decided strength during the past week. A large business was transacted and stocks were cleaned up. Calcutta markets were rather easy during the early part of the week, but during the latter part prices scored sensational advances. Lightweights are quoted 6.15@6.20c. and 10½ ounce at 7.75c.

No. 36.—Eligibility of women to certain control of the second state of the second stat

As indicated last week, the complete returns show that eight proposed amendments were defeated. It is estimated that there are 1,250,000 qualified voters in the State and less than half this number voted on the various propositions. One of the amendments adopted, that known as No. 32, restoring municipal bonds to taxation, is of such importance to our readers that we print the same in full below:

restoring municipal bonds to taxation, is of such importance to our readers that we print the same in full below:
ARTICLE XII.
Set 1. No poll tax shall ever be levied in this State, or service redired, which may be commuted in money or other thing of value.
Testoring municipal bonds, stocks, joint stock companies, or otherwise; and also all real and personal property, according to its true value in money, excepting all bonds at present outstanding of the State of Ohio or of any city, village, hamiet, county or township in this State or which in struction in connection therewith, which bonds so at present outstanding of the State of Ohio ing shall be exempt from taxation; but burying grounds, puble school huses, houses used exclusively for public worship, institutions used exclusively for charitable purposes, public property, so an amount not exceeding in value five bundred dollars, for each individual, may, by general laws, be exempted from taxation; but all such laws shall be subject to alteration or repeal; and the value of all property, so exempted, shall, from time to time.
Bet 6. Except as otherwise provided in fuls constitution, the State accelted on the state of the parsons of the taxation of the right to the may also be levied at a lighter rate the right to receive, or to succeed to, estates, and such taxation may be uniform or the sole so traducted as to tax at a higher rate the right to to receive and be valued from such taxation.
Bet 6. Laws may be passed providing for the taxation of law erg in a such taxation of the right to may also be levied at this form time all different parts and exceeding twenty thousand to succeed to, estates of anger value than to estates of amiler value. Such as a such taxation of the city, village for the state of all property.
Bet 6. Except as otherwise providing for the taxation of lacomes, and such taxation may be exempt from such taxation.
Bet 8. Devise than 50 per centum of the income and inheritance taxes to succee

The above amendment will take effect Jan. 1 1913.

The above amendment will take effect Jan. 1 1913. Shreveport, La.—City Offers to Purchase Water Plant.— A resolution has been passed by the City Commissioners, it is said, offering to purchase the plant of the Shreveport Water-Works Co. for \$607,655 96, and giving them thirty days within which to accept. Should the offer be refused, an election will be called, according to the resolution, to vote bonds for the erection of a municipal plant. *Recall Election.*—An election has been ordered for Oct. 7, reports state, on the question of recalling Mayor Eastham and Commissioners Rives and Fullilove. An election held May 9 resulted in favor of the recall of Commissioner Atkins. —V. 94, p. 1397.

Bond Proposals and Negotiations this week have been as follows:

ADA SCHOOL DISTRICT (P. O. Ada), Hardin County, Ohio. —BONDS VOTED. —An election held Sept. 3 resulted in favor of the proposition to issue \$15 000 heating-system bonds. The vote was 253 to 174.

ADA SCHOOL DISTRICT (P. O. Ada), Hardin County, Ohio. -BONDS YOTED. -An election held Sept. 3 resulted in favor of the proposition to issue \$15,000 heating-system bonds. The vote was 253 to 174.
