OUR RAILWAY EARNINGS ISSUE.

We send to our subscribers to-day the March number of our "Railway Earnings" Section. In this publication we give the figures of earnings and expenses for the latest month of every operating steam railroad in the United States required to file monthly returns with the Inter-State Commerce Commission at Washington.

This Earnings Supplement also contains the companies' own statements where these differ from the Commerce returns or give fixed charges in addition to earnings, or where they have a fiscal year different from the June 30 year, as is the case with the New York Central Lines, the Pennsylvania RR. and others

THE FINANCIAL SITUATION.

There is one aspect of the proposition to compel department stores and other employers of women and girls to pay a minimum wage deemed suffi-cient to prevent these girls from lapsing into immorality which does not appear to be receiving any consideration. How long will the assumed minimum be sufficient for the purpose-how long before it will have to be replaced by another but higher minimum and how often will the process have to be repeated? If we are to believe newspaper reports, there is a saturnalia of vice prevalent all over the country. The allegations have unfortunately brought with them a saturnalia of hysterical vice investigations. In the natural course of things these investigations are in the charge of politicians who, though unable to eliminate graft and other iniquities in their own line of work, yet have no hestitation about rushing in with proposals for reforming mankind in other fields of activity.

The proposal of a minimum wage for female employees has been definitely put forward in Illinois the present week and seems to be finding quick favor with the legislators and politicians of other States. Indeed, the propaganda is running like wildfire from one end of the country to the other. When one observes the zeal displayed in attempting to eradicate the so-called "white slave traffic," one is inclined to wish that legislative fiats and decrees could be made really effective in removing evil from the world. The sorrowful fact is that evil has existed from the beginning of the world and the legislator has been impotent against it. What has been accomplished has been by the moral teacher. This does not mean that the legislator has no duty to perform in connection with the matter, and should not direct all his energies towards wiping out every vestige of evil practices or fail to assail surroundings which promote the growth of vice. It does mean that the legislator should abate his confidence that crude and ill-considered propositions will suffice for the purpose. It is a well-known fact that through all the ages it has been found impossible to reform mankind by statute. There is only one way of regenerating the race, and that is by inculcating moral principles.

For some time a Senatorial Vice Commission has been sitting in Illinois. Under the chairmanship of Lieutenant-Governor O'Hara, it has been making an examination into the question of the morality of female employees. It has had before it the managers and owners of the leading department stores in Chicago and has now determined to take a trip to New York and the East, with the view to enlisting addi-

formation to guide it in its task. Though it is only too evident from what has already been done and said that the efforts of these investigators] are misguided, every one will wish them God speed in their undertaking. The matter that concerns the community most at the moment, from an economic and business standpoint, is that the Commission has already reached certain definite conclusions, among others (according to an announcement given) out by Lieutenant-Governor O'Hara on Tuesday night) that low wages are to blame for most of the immorality among young girls, and that, accordingly, the Commission will recommend the fixing by the Illinois Legislature of a minimum wage for female employees. Some of the suggestions fix \$9 as a limit and others \$12 as the minimum. At all events, the purpose is to add a considerable sum-\$5 or \$6 a week-to the present wages of female employees.

We take leave to doubt that there is extensive immorality of the kind alleged, but if it does exist, we do not believe that the evil can be cured or even appreciably alleviated through the method proposed. Waiving that point, however, we ask again how long a minimum wage, even from a purely money standpoint, would be sufficient to purchase the morality which we are asked to believe has a price. It does not seem to be demanding much to insist that the pay of girls be raised from \$4 a week to \$9, or from \$7 to \$12. But who is to foot the bill? Is it not the consuming public, including those very same female employees? Some of these department stores employ female help by the thousands, and many factories employ women and girls on a still larger scale, to all of whom a law fixing a minimum wage would apply. The head of one large Chicago concern was frank enough to say, when asked if it would not be possible to raise wages so as to place girls beyond the assumed temptation of wrong-doing, that of course wages could be raised by adding to the price of the goods. That is, at any rate, the way the matter will work out in the end, if wages are voluntarily put up or are raised by statute, for the amount involved in any such increase is enormous. A very simply calculation will show that if an establishment has 5,000 female employees and is obliged to add an average of \$5 a week to the stipend of these employees, that means increasing the weekly pay roll of the establishment by \$25,000, or at the rate of 11/4 million dollars a year.

The cost of living is already high beyond endurance. How much higher would it go if this movement to fix a minimum wage for females, now spreading all over the country, should succeed? As female help is largely employed in many different industries, would not the effect be to bring about another very marked rise in prices? With the cost of living thus leaping higher and still higher, advances in the wages of men would quickly follow the advances which girls and women are to get through a minimum wage law. The labor unions, each in its own craft, would see to it that the men got more pay. In fact they are doing this even now without any such extraneous circumstances to stimulate them in their endeavor. But these wage increases would force still other advances in prices. In the end the recipients of the minimum wage would find that though they were getting more in dollars and cents, the purchasing power had so shrunk that they were no better off than before. The result might not be very long tional interest in its work and acquiring further in- delayed, either. Then the Vice Commission would

have to begin all over again and fix a new minimum so as to prevent the girls from yielding to temptation.

Are not our vice investigators proceeding along wrong lines? Should not the effort be to improve the capability and efficiency of the female employees so that they could do more work and better work? They would then get more money because they were worth more and not because the legislator thought them a lot of helpless dependents with an evil tendency. Girls are by nature brighter and cleverer than men and by fitting them for higher grades of work or by increasing their product in the same grades of work, the problem of low wages would be placed in the way of a solution-and this, too, without disturbing our whole economic system.

It is also to be remembered that if wages are unduly low in the lower grades, it is because those grades are overcrowded. By teaching the girls to fit themselves for better work and thus taking them out of the lowest grades, this overcrowding will be relieved. It is a surprise to us that it has not occurred to those who profess to be so solicitous regarding the welfare of the other sex that any girl who seeks relief from oppressive conditions in the shop and the factory can easily find it by entering domestic service. There is a dearth of help there. Every householder can testify to the difficulty there is in obtaining help for the family. Employment agencies find it impossible to supply the demand for maids of all kinds, and for cooks, laundresses, etc. A girl can get two to three times as much pay for service in the family as she does in the shop or the factory or in the department stores and have free board and lodging besides. Why not seek relief in that direction? Transferring the girls in this way to their rightful sphere would also be helpful in another way. It would give them the benefit of the home influence, with its refined atmosphere, and would free them from many of the temptations to which they are subject when away from home.

As to the proper way of dealing with the social evil, the reformers might improve their methods here too. The right course, it seems to us, would be to attempt to reach and punish the men who frequent the dens of vice rather than the unfortunate creatures who occupy them. These dens could not exist if they were not patronized. What is needed most of all in these degenerate days-and all that is needed in our estimation-is a moral law of chastity and purity as rigid for the man as it is for the woman.

Before the three arbitrators who were forced upon the railways, the complaining firemen are following the line of their predecessors, the engineers, by telling the tale of their hardships. It is always hard work to work hard. Whether in a jumper suit with a shovel in his hands or at an executive desk with a stenographer at his elbow, every man who really works experiences fatigue and meets his troubles, coal is heavy, handling it is grimy labor, and the cab of an engine is a warm place, as is the fireroom of any office building where there are boilers. All this is irrelevant because it is not contested. It was admitted from the start that the railway managers are in "sympathy" and would gladly pay any increase desired; the question was solely that of financial ability. On this the men can not assume to speak with authority; they only think the roads may be able to do it, and are sure they "ought" to be, because indicates that the aggregate of arriving aliens was

sure they want it done. The managers positively deny ability to pay the increase, and this alone is the issue

Neither present wages nor higher wages can be paid without funds in hand. Neither the managers nor the roads supply or can supply the funds. Only the entire public does or can do that. But the public is not willing; at least, the shippers who supply the funds in the first instance are not. They say that no increase in rates is necessary; rather, they do not care to consider whether an increase is necessary; they prefer decrease, and are frequently calling for that to an evidently sympathetic regulative Commission. The public at large want more and better service, and very insistently; it is no affair of theirs how the roads manage with their men; but one thing is positively 'settled: they must not permit the men to strike because the roads must be operated. How the roads shall get the money for more wages and increased facilities seems to be left, by unanimous consent-to the roads.

The arithmetical problem is exactly the one which is not taken up by any arbitrators, yet will inexorably insist on being taken up firmly by somebody and settled; putting it by or passing it along to somebody else will not serve. The railway managers are to attend to it and settle it. None of them stands over seven feet high or weighs over 400 pounds, and perhaps the physically biggest are not the financially ablest. Suppose they cannot do what they must do? Suppose nobody is ready to do what the employees are not, namely deal with the roads on a basis of generosity, and that therefore the roads are not improved or even fully kept up? Does shutting one's eyes to troubles avoid them, or does that solve problems?

The making of new records in gold production in the Transvaal continues to be a feature of the times, the actual per diem yield from the mines in February 1913, according to cable advices this week, having been 26,219 fine ounces, an advance of 755 fine ounces over the average output in January. The latest month's result is really the best ever attained. For March 1912 the apparent average daily production was 26,797 fine ounces, but the total yield reported included 52,533 fine ounces taken from the mines' reserves, so that the average per diem amount secured from the workings was only 25,103 fine ounces. A year ago (in February 1912) the daily average was 24,271 fine ounces; in 1911 it was 21,815 fine ounces and in 1910 only 20,451 fine ounces. Within the twelve months' period, therefore, the per diem output has risen 1,948 fine ounces, or over 8%, and since 1910 the augmentation has been nearly 29%. In other districts of Africa, too, we note an increasing production of gold this year; this applies especially to West Africa, which, though yet a small producer, shows a yield thus far in 1913 considerably more than in 1912 and over double that for the like period of 1911. Altogether the outlook, predicated upon developments thus far in 1913, is for a yield from the Transvaal mines for the full year of very little under 10 million fine ounces. and for the whole of Africa of about 111/4 million fine ounces, this latter nearly equaling the production of the entire world in 1897.

The official immigration bulletin for January 1913

greater than in the corresponding month of either 1912 or 1911, but also denotes that the departures, owing chiefly to the flocking to the colors by Greeks, Italians, Bulgarians, &c., were considerably above the normal. Consequently, instead of a gain in foreign population as a result of these opposing movements there was a net outflow of 1,800. Specifically the number of aliens who entered the country in January this year was 55,235 (made up of 46,441 immigrants and 8,794 non-immigrants), but the number of those leaving the country was 57,035, quite equally divided between emigrants and non-emigrants. In 1912, on the other hand, although the arrivals were only 46,820, there was a net gain of 15,614, and in 1911 the net addition reached 12,829. For the seven months of the fiscal year 1912-13 (July 1 to Jan. 31) the arrivals were well in excess of the similar period of any year since 1907-08, reaching 696,303, against 483,413 in 1911-12 and 572,983 in 1910-11. Departures, on the other hand, were less than a year ago, and therefore the net gain in foreign-born population for the period was 311,426, against only 83,961 in 1911-12. In 1909-10, however, this year's net was moderately exceeded and in 1906-1907 the net inflow was 467,451.

As regards the nationalities of the arriving aliens it is to be noted that, as a consequence of the war in Southern Europe, the number coming from some countries was exceedingly small in January and the departures thither heavy. From Greece, for instance, the arrivals during the month were only 502, and the departures 15,446; corresponding figures for Bulgaria, Montenegro and Servia are 205 and 2,079 and for Italy 8,346 and 10,746. Furthermore, for the seven months 14,188 more Greeks left than came and of Bulgarians, &c., the net outflow was 9,506 Arrivals of Hebrews, Poles, Germans and Russians continue comparatively large.

Efforts to change the immigration laws of the country do not seem to have been abandoned with the vetoing by the President of the Dillingham-Burnett bill—mainly on account of the literacy test—and the upholding of his action in the House. Late reports from Washington intimate that the subject is to be brought up again in the next Congress.

We refer in a subsequent column to the influence on the European bourses of the particularly strained political situation throughout Europe that is so clearly indicated by the feverish haste of France and Germany in increasing their military armaments. Making full allowance for the fact that advantage is being taken of the present situation by the two governments for the purpose of winning support for the policy of increased armaments, there can still be no question that the Balkan War has opened up a very serious new question in the European political situation. The Balkan League may be considered to have developed into a new Slav nation with ideas of its own powers exaggerated by the completeness of its victory over Turkey. Russian influence is very strong in this new nation, and both Germany and Austria are recognizing in that fact the possibility of a new peril. Germany has apparently taken alarm and is making preparations to meet these new conditions by a tremendous military expansion. France, always on the lookout for German advances, proposes corresponding military expansion, and the bitterness between the two nations seems to be reviving. Quite a sensation was produced on Monday

by the publication in the semi-official "Cologne Gazette" of a very strong leading article under the headline "The Peace Disturber." The article avers that Germany would have no difficulty in supplying a motive for the necessity for the proposed military increases "if the Government would only clearly, distinctly and without mystery point out where the danger is threatening us, and that is France. Never have our relations with our Western neighbor been so tense as they are to-day. Never has the spirit of revenge there shown itself so plainly. Never before has the French alliance with Russia and the friendship with England been so manifest. All this is for the sole purpose of re-conquering Alsace-Lorraine. In whatever corner of the world the flames may begin, it is certain that we will have to cross swords with the French. When that will occur no one knows."

The fact that this article was printed on the same day that the Federal Council met in Berlin with the leading Ministers from the German States to confer on ways and means for raising the required \$250,-000,000 for military purposes is declared by Berlin cables to be significant. Another influential paper, the "Koelnische Zeitung," also printed a sharp attack on France that was supposed to have been inspired by the Government. This was one of the prime causes of a severe break in prices on the Berlin Bourse. However, an emphatic official denial that the Government was in any way concerned or consulted in the publication of the article reassured operators on the Bourse later in the week.

In France popular sentiment does not appear to have been as effectively aroused as in Germany, although the urgency of the French Government's bills to increase the peace footing of the army was on Thursday pointed out to the Finance and Military committees of the Chamber of Deputies by Eugene Etienne, Minister of War. A sensational piece of alleged news was published in the Paris newspaper, "L'Intransigeant," in an article explaining the increased military activity in France. The paper in question asserted that, through an indiscretion of an eminent Italian politician, the French Government learned on Jan. 13 that Germany had asked Italy if she could be ready to join with Germany and Austria in a campaign to begin in October 1913 to put an end by decisive action to the general uneasiness in Europe. The French Government, according to the paper in question, made inquiries which resulted in full confirmation of this information, and then decided to proceed with urgent military measures. Opposition to the military expansion is appearing in influential circles in both Germany and France. Three hundred and fifty professors of the Sorbonne, the foremost scholars in France, have, for instance, according to cable advices from Paris, issued an appeal to the people of France not to allow themselves to yield thoughtlessly to the military panic and to the forces of reaction, which tend toward desperate adventures hostile to the republican form of government. The professors did not declare themselves opposed to the suggested three years' period of service in the active army, but asked for the fullest and most thoughtful consideration of the situation without haste or excess of emotion. Another declaration, signed by Anatole France and other members of the French Institute, including scientists, professors and members also of provincial universities and colleges, was published on Wednesday, urging calm consideration of the proposed military measures, which, if adopted, it says, would profoundly affect the life of France, both intellectually and economically. M. Briand, the Premier, is reported to have informed a number of members of Parliament that it will not be necessary to pass the military bills before Easter. It is pointed out that in addition to raising the term of service with the colors to three years, the new French army bill increases the period of service in three branches of the reserves by two years. At present the French soldier serves two years with the colors. He then belongs for eleven years to the reserve of the actual army, six years to the territorial army, and, finally, six years to the reserve of the territorial army. When the new bill becomes law he will serve three years with the colors and belong for eleven years to the reserve of the active army, seven years to the territorial army and a further seven years to the reserve of the territorial army. His total period of liability to service will thus be raised from twenty-five to twenty-eight years.

No final step seems to have been taken this week to bring about immediate peace in the Balkans. The plan appears to be to permit Adrianople and Scutari to be taken by the enemy before a peace settlement is actually arranged. This would undoubtedly prove a more palatable step for the Turkish Government in the control of its home affairs than if the citidels in question were actually ceded. It has been announced that Turkey, as a part of the new peace proposal, was ready to cede Adrianople, Scutari and Yanina; the last-named fortress, it will be recalled, surrendered to the Greek army last week. The position appears to be that Turkey has appealed to the Powers for mediation and has agreed to accept any terms that will be arranged on her behalf. The ambassadors of the Powers have suggested that the Allies also agree to arbitration. The reply of the Allies was presented yesterday to the foreign legations at Sophia, Bulgaria. It declares that mediation will be accepted on the following terms:

1. As a basis of negotiations for the delimitation of the territory between Turkey and the Balkan Allies a line shall be drawn from Rhodosto on the Sea of Marmora to Cape Malatra, seven miles south of Midia on the Black Sea. Excluding the Peninsula of Gallipoli, which shall remain to Turkey, all territories west of the line, including Adrianople and Scutari, shall be ceded by Turkey to the Allies.

2. Turkey shall eede the islands in the Aegean Sea to the Allies.

3. Turiey shall renounce all her interests in the Island of Crete.

4. The Porte shall consent in principle to the payment of a war indemnity, the amount of which shall be fixed when peace has been concluded, and also to the payment to private individuals of compensation for damage caused prior to the war. The Allies shall participate in the deliberations regarding the indemnities.

5. The Allies reserve the right to settle by definite treaty of peace the treatment to be accorded to their subjects and to their trade in the Ottoman Empire, as well as the guaranties to be given regarding the privileges of the orthodox churches and the legal standing of their racial brothers who are Ottoman subjects.

The Austrian Government, through its Minister to Servia, on Tuesday informed the Servian Premier that his Government objected to the Servian troops assisting in the seige of Scutari, which was to become the capital of Albania, and he requested the recall of any Servian troops which have been dispatched there. The Servian Premier in reply said that under treaty arrangements Servia was com-

igitized for FRASER

King George on Monday opened the third session of the present British Parliament after a prorogation lasting only two days. The speech from the Throne was devoted chiefly to outlining briefly the steps which had been taken to bring the Balkan War to an end, and to the expression of the desire of the European Powers to hasten the conclusion of peace. The King emphasized the fact that all the Great Powers earnestly desire to prevent hostilities from spreading and to see the fighting terminated as soon as possible. A large measure of success had been achieved in establishing an agreement among them in principle on matters of the greatest importance. "I am hopeful", the King said, "that the consultations between the Powers will enable them not only to secure a complete understanding among themselves, but to exercise a beneficent influence in hastening the conclusion of the war." Continuing, the King made a pleasant reference to the action of the British dominions which had contributed war vessels to the British navy, and also to the visits of Robert. L. Borden, the Canadian Premier and other over-sea ministers, to confer with the Imperial ministersacts, he said, which were calculated to promote the solidarity of the Empire. The forthcoming estimates were the subject of merely a passing mention and the forecast of legislation to be introduced was restricted to narrow limits. Apart from the re-introduction of the Home Rule and Welsh Disestablishment bills, the only important measures will be additional facilitation of land purchase in Ireland, the guaranty of a Sudan loan for the development of cotton growing there, a bill to prevent plural voting at elections and a measure for the development of a national system of education.

The debate on the King's speech in the House of Commons on Tuesday brought an important statement from Premier Asquith. Lord Hugh Cecil had voiced the current rumors that the Government was embarking on a dangerous foreign policy and had entered into an engagement in certain contingencies to throw a British expeditionary army across the Channel. The Prime Minister suddenly jumped up and said: "I ought to say at once that that is not true." This explicit denial was received with loud cheers. Premier Asquith also announced in the House of Commons that he hoped to be able in a short time to propose a plan for making the House of Lords a true, impartial judicial authority. Postmaster General Samuel said later that the Government did not mean to leave the reform to the Unionists. If it did, the result would be the restoration of the veto power of the House of Lords. The Government, he declared, intended to deal with the question in the present Parliament. It would abolish every vestige of the hereditary principle and under no circumstances would allow the absolute veto power of the House of Lords to be restored.

Friction has arisen between the United States and the Cuban Government over the passage by the Cuban Legislature of what is known as the Am-

nesty Bill, which would grant pardon to many prisoners, including well known criminals in the Cuban jails. A note was sent to President Gomez of Cuba by Secretary of State Bryan, and it was subsequently reported that this note had been ignored and that the bill had been signed by Gomez. This report brought forth another note from Secretary Bryan. The latest report is that Gomez will veto the Bill and accompany his veto message to the Cuban Congress with eopies of all the American communications on the subject. The United States is responsible under the terms of the Paris Treaty, the Platt amendment and the Treaty with Cuba for the financial stability of Cuba. It is owing to our obligations under these treaties that the State Department has made the protest. It is suggested in Washington that if the amnesty measure should stand it would be impossible for the Menocal Administration, which comes into power on May 20, to punish either individuals or officials who have robbed the Cuban Government. and it might be impossible to undo the work of alleged graft, which it is charged, has recently been flagrant in the Island Republic. All this, it is argued, would affect Cuban credit, for which the United States is virtually responsible.

After a Cabinet meeting on Tuesday last, President Wilson issued an important statement regarding what may be termed the Latin-American policy of the Administration. He points out that "one of the chief objects of his administration will be to cultivate the friendship and deserve the confidence of our sister republics of Central and South America, and to promote in every proper and honorable way the interests which are common to the people of the two continents." But he says, "co-operation is possible only when supported at every turn by the orderly processes of just government based upon law, not upon arbitrary or irregular force." We discuss the significance of the statement in a subsequent article.

It is evident that Mexico is still far removed from being a pacified country. Officers of the Southern Pacific Railroad report that 246 miles of the Sonora branch of their road are in the hands of rebels, who are using it for their own purposes. These rebels call themselves constitutionalists, and are reported to have captured El Tigre and Nacozari on Sunday. The Southern Pacific Company has filed complaints with the Government of this country and of Mexico. Later on it was reported that the "constitutionalists," under General Juan Garcia, former popular candidate for Governor, had captured Durango. The Carranza Party is said to have organized thus far in nine States, all in the Northern section of the Republic, and the propaganda against the Huerta Government is being pushed into other States. The "constitutionalists" captured Nogales, on the Arizona border line, on Thursday from the Federal troops, and many bullets came over the line, but the United States troops did not return the fire. The Federal troops are expected to attempt to re-capture the city. E. N. Brown, President of the National Railroads of Mexico, has just arrived in this city from the Mexican capital. Mr. Brown is optimistic as to the peace prospects. In a prepared interview on Thursday he said: "The Provisional President assumed the duties of his office only after a thorough understanding with Felix Diaz that the former should serve until an election could be held, and that Diaz should \$5 00; \$2,500,000 to \$5,000,000, \$7 50; \$5,000,000 to

be a candidate for the Presidency, and, as I understand, receive the support of General Huerta. When I left Mexico it was the intention of the Government to call a general election for the earliest date practicable, which is likely to be three or four months hence. Huerta's Cabinet was selected by Diaz with a view to harmonizing the various conflicting elements. The selections are favorably regarded in Mexico, and the belief is generally entertained that the President and his associates will be able to restore peace and order."

The week on the foreign stock exchanges has been one of extreme nervousness and indecision. In London on Monday and Tuesday there was such depression that usually conservative correspondents spoke of it as a semi-panic, though this was undoubtedly an exaggeration, if the price level of securities may be regarded as an accurate test. Consols on Tuesday touched 73 1-16, which is within 9-16 of 721/2, the low level reached in October of last year. Berlin was an active seller on the British market, especially of Canadian Pacific and Union Pacific, and was also credited with being a free seller of these stocks, as well as United States Steel and General Electric, direct to the New York market. The Berlin Bourse was closed on Monday to commemorate the one-hundredth anniversary of the deliverance of Prussia from Napoleonic rule. On Tuesday morning the opening of business in that market was attended with many spectacular declines, the Vulcan Shipbuilding Co. shares leading in this respect with a decline from 169 to 133. This weakness, however, had its own explanation, being due to a reduction in the dividend from 11% to 6%. The shares of this company (which last year had a deficit of \$500,000 as a result of building German Dreadnoughts at a loss) were offered in large blocks, some estimates of the total offerings running as high as 100,000 shares. General Electric shares in Berlin on the same day fell 6 points and Deutsche Bank, Phoenix Iron and similar issues declined 2 to 3 points. As the week wore on general improvement, though not at all spectacular, set in. Paris advices ascribed the returning calmness in that market to optimistic advices from St. Petersburg, where the reaction from depression was so great that the condition was described by some press correspondents as literally booming. The occasion of this strength was the definite decision to demobilize the Russian reservists and the similar action of Austria with reference to its own reserves, not including, however, the reserves along the Servian border. As Paris is the principal market for Russian industrial shares, it was not surprising that that centre should promptly participate in the better feeling. The most probable explanation, however, is that the European centres had finally gotten over the hysteria into which they had been thrown by the sudden demands, particularly in Germany and France, for increased military armaments, and the sacrifices that will be necessary by the French and German populace in the way of increased taxation to meet the army budgets. We referred in last week's issue to the large amounts that would be required in taxes. The present German proposal would tax private fortunes for the provision of a war fund as follows, according to a dispatch from Berlin: Up to \$50,000, \$1 25 per \$500; \$50,000 to \$125,000, \$160; \$125,000 to \$250,000, \$2 50; \$250,000 to \$2,500,000,

\$12,000,000, \$10; \$12,500,000 to \$20,000,000, \$12 50; \$20,000,000 to \$25,000,000, \$15; more than \$25,000,-000, \$20 in every \$500. On this basis, quoting Berlin press cables, the Kaiser himself will contribute to the war taxes for the army approximately \$1,500,000. This statement is based on figures from a well-known German almanac of German millionaires, which estimates the Emperor's fortune at \$37,000,000, which is classified as consisting of \$32,000,000 of urban property and country estates, including forty castles, and \$5,000,000 in cash in banks. The Kaisers annual income, according to the Prussian civil list, is \$4,500,000. Frau Krupp von Bohlen's tax, according to the same estimate, will be about \$2,500,-000 on \$63,000,000. The Crown Prince will pay \$55,000 and Prince Henry of Prussia \$20,000. It is desirable to keep clearly in mind that the proposed tax is not one on the income from the principal but on the principal itself.

The calmer feeling that prevailed towards the end of the week at the European financial centres also undoubtedly reflected recognition of the fact that a considerable part of the political hysteria in both Germany and France was of the character usually deliberately manufactured when it is necessary to arouse public opinion to force through tax legislation that, except under periods of pronounced excitement, would probably be stubbornly fought. Of course the fact remains that the taxes themselves will have to be provided, and in Germany there will necessarily have to be considerable liquidation by owners of large fortunes to provide their share of the political sacrifice. However, latest advices suggest a very distinct and influential opposition to the new taxes, and some predictions are contained in European dispatches that this opposition will be found sufficiently strong to cause a modification of the army proposals.

The renewed strain in the European political situation has added greatly to the recurring quarterly disturbance in the Berlin money market. In turn, this has caused Berlin bankers to become insistent borrowers in New York and also to bid for gold quite freely at this centre. That the German situation is being exaggerated there can be no reason to doubt. This view finds corroboration in a statement issued early in the week by Messrs. Speyer & Co. Referring to the fact that the underwriters were called upon to take part of the recent combined German and Prussian bond offerings, the bankers in question say:

"The fact that \$37,500,000 of 4% bonds were taken by the public at 98.60 and that the syndicate took \$100,000,000 four-year 4% Treasury notes at 98.50 ($\frac{1}{2}$ % only below the issue price) certainly must show that the financial situation in Germany is not as bad as some newspaper reports or headlines would make it appear. and certainly compares favorably with the market for similar securities in other countries. It is a well-known fact that money rates are high all over the world, which is partly due to large expenditures for the Italian-Turkish and the Balkan wars, which have not yet been permanently financed. The Balkan situation, with its continuing uncertainties, has also resulted in a good deal of hoarding by the European public, and in a general desire of European banks to strengthen their gold reserves. "Germany feels the general tightness of money more

"Germany feels the general tightness of money more acutely because, as is well known, German industry has been extremely active and the German people have been doing a very large business compared to their capital. In order to do this large and profitable business, they have relied during the last few years largely on foreign capital, a great deal—if not all—of which has gradually been withdrawn, for the reasons stated above.

"According to advices received from our Berlin friends, there is no overspeculation in stocks or real estate, and all the great banks are sound. The stringency in the money quite generally feared early in the week that the

market is partly caused by industrial expansion, which, however, in a comparatively short time should rectify itself. In fact, the whole financial situation in Germany will gradually readjust itself, especially if the pol tical uncertainties connected with the Balkan situation disappear. There is no foundation for alarming reports, and the situation in Germany is considered intrinsically sound."

Similar assurances are given by Mr. William Schall of Muller, Schall & Co., who has recently returned from Germany. In a prepared interview Mr. Schall said:

"The only thing that is the matter with Germany," he says, "is that she is suffering from great commercial prosper-When I was over there a month ago I was impressed itv. with the splendid condition of business. Germany has not been in such sound shape, commercially, in a number of years. She owes much less to-day to outside countries than was the case heretofore. Germany's trouble to-day is that she has most of her money locked up in her business. But the money is still there; in the country, in the shape of bricks and mortar and other improvements. As regards the large sums being spent, and to be spent, in military expansion and armaments, it must not be forgotten that this money remains in the country, only passing from one hand to the other, so that Germany is none the poorer from it. It is at such times as the present that the active employment of Germany's capital becomes apparent, and I should not be surprised to see the Reichsbank rate go to 7% now, although the incident need not occasion alarm."

Notwithstanding the conceded approach of a peace basis in the Balkan war, quotations of Balkan State securities have not materially changed during the week. Turkish issues were an exception and were under pressure, the failure of the Turkish Government to redeem £1,600,000 treasury bills which expired on Thursday having produced a bad impression. Turkish fours closed at 86, which compares with 871/2 a week ago, Greek Monopoly 4s are one point lower at 54, and Bulgarian 6s remain at 102, Servian Unified 4s at 80 and Russian 4s at 91. German Imperial 3s closed without change from 76. British Consols, after declining to 73 1-16 on Tuesday, recovered to 73 5-16 at the close, against 733/8 a week ago; and French Rentes in Paris finished at 89.02½ francs, against 89.17 a week ago. Dayto-day money in London was easier early in the week, declining to 41/2%, but closes at a full recovery to last week's final figures of 43/4@5%. In Berlin money closed at 51/2@6%, against 6% a week ago, which seems to bear out the suggestions that alarmist reports contain a substantial amount of exaggeration. Notwithstanding the poor success of last week's combined German and Prussian loan, the Prussian Government on Tuesday introduced in the Diet a bill authorizing additional loans to the amount of \$135,630,000 for State railway purposes. The principal items are as follows: For new lines and additional tracks, \$27,-500,000; for buildings, \$25,250,000; for rolling stock, \$47,500,000; for narrow-gauge tributary lines, \$1,-875,000. An indication of the condition of the London market was an attempt by the Swiss Govern-Switzerland ment to obtain a loan at that centre. sought last week to place in London £400,000 for twenty years at 41/2%, to be issued at 961/2, and a £200,000 issue for twenty years at 41/2%, at 96. The larger loan was definitely refused, but one financier promised to try to find the money for the smaller loan if the issue price were put at 94.

Private bank discounts in Lombard Street are still maintained at close to the Bank rate. The Bank of England did not change its official minimum, Neither did the Imperial Bank of Germany. It was quite generally feared early in the week that the

Reichsbank would be forced to go on a 7% basis. This would concededly have compelled the Bank of England to raise its own rate in self-defense, and probably have still further increased the strain in the general financial situation. Fortunately such a condition did not arise. Short bills in London yesterday closed at 5% and ninety-day bankers' accepbances were quoted at 4 15-16%, which are virtually last week's final quotations. These figures are for spot bills. Bills to arrive are quoted 1-16% lower. In Paris the private bank rate remains without change at 31/8, though in some instances 4% is demanded. In Berlin, according to yesterday's cables, private bank discounts are quoted at 6% for spot, all maturities, and 61/4% for bills to arrive. A week ago 57/8@6% was the spot rate and as high as 61/2% for bills to arrive. In Brussels rates remain at 4 7-16%, in Amsterdam the quotation still stands at 334%, while at Vienna an advance of $\frac{1}{4}$ % to $\frac{53}{4}$ % is indicated. The official Bank rates at the leading foreign centres are: London, 5%; Paris, 4%; Berlin, 6%; Vienna, 6%; Brussels, 5%, and Amsterdam, 4%.

The Bank of England reported a further reduction in the proportion of reserve to liabilities to 41.47%, comparing with 42.69% a week ago and 42.02% a year ago. We have to go back as far as the year 1900 to obtain a lower level for the corresponding week. In that year the proportion was 38.25%. The reduction in "proportion" was in the face of an increase in the total reserve of £104,000, and was therefore due to an expansion of liabilities. Public deposits registered a further increase of £2,129,000, undoubtedly as a result very largely of tax collections. There was an increase of £2,113,000 in loans (other securities) and a decrease of £167,000 in note circulation. The bullion holdings decreased £63,279 during the week and now amount to £37,417,499; a year ago they were £37,980,339 and in 1911 £40,-150,757. The reserve registers a total of £27,-918,000, comparing with £28,311,614 in 1912 and £31,491,072 in 1911. In the comparison of loans, which aggregate £44,642,000, the showing is not so unfavorable when contrasted with 1912, as the Bank then was unusually well loaned up. One year ago the total was £43,055,918, but two years ago only £35,605,813, while in 1910 the amount was no more than £29,891,046. Our special correspondent furnishes the following details of the gold movement into and out of the Bank for the Bank week: Imports, £164,000, wholly bought in the open market; exports, nil, and shipments of £227,000 net to the interior of Great Britain.

Again the Bank of France records a decrease in both its gold and silver holdings. In the case of the former the reduction is 5,044,000 francs and in the latter it is 8,478,000 francs. Meanwhile there has been a contraction of \$3,125,000 francs in note circulation and of 8,175,000 francs in discounts and 12,-125,000 francs in advances. General deposits increased 8,625,000 francs. The Bank's gold holdings now aggregate 3,206,569,000 francs and compare with 3,217,872,000 franes in 1912 and 3,245,125,000 francs in 1911. The aggregate of its silver supply is 609,-284,000 francs, comparing with 801,650,000 francs one year ago and 832,575,000 francs in 1911. Circulation is well ahead of last year. It amounts to 5,674,561,000 francs, comparing with 5,311,357,190 in 1912 and 5,194,811,745 francs in 1911. Discounts

gitized for FRASER

are also a weak feature. They aggregate 1,673,-912,000 francs. In 1912 the total was only 1,149,-733,775 francs and in 1911 1,005,301,318 francs.

The statement of the Imperial Bank of Germany which was issued on Monday was rather better than those that have recently been published. It reported an increase of 2,823,000 marks in gold and of 11,329,000 marks in total cash. There was, furthermore, a contraction of 62,737,000 marks in outstanding note circulation and of 90,760,000 marks in loans. Discounts, on the other hand, were increased 53,-173,000 marks and there was a gain of 50,270,000 marks in deposits. The cash holdings of the Bank now stand at 1,141,258,000 marks, and compare with 1,218,240,000 marks one year ago and 1.136,-540,000 marks in 1911. The loans and discounts combined aggregate 1,330,198,000 marks. One year ago the total was 1,131,860,000 marks and two years ago 965,920,000 marks. Circulation outstanding is 1,875,944,000 marks and compares with 1,554,200,-000 marks in 1912 and 1,439,660,000 marks in 1911.

The week has seen a distinct hardening in money rates on the local market. Call money on the Stock Exchange on Wednesday reached 6%, which is rather significant in view of the dulness in speculation and also in view of the fact that the banks have been avoiding as far as possible time commitments, so as to keep their resources mobile. Fixed maturities are now on a 6% minimum basis for sixty and ninety day loans, while $5\frac{3}{4}@6\%$ is the range for longer periods. Germany continues an insistent borrower and that country's additional engagements of gold for export as well as the shipments of the precious metal to France have necessarily been an added burden since they have reduced to that extent the cash reserve and correspondingly curtailed the credit facilities of the banks. The April settlements are now closely at hand and notwithstanding the sharp reduction that has taken place in sterling exchange rates from the high level of last week, there appears a very general belief in foreign exchange circles that additional gold engagements of considerable volume will take place within the next week, in order that the metal may reach the other side before the end of the month. The situation in Berlin at the close of each recurring quarter, during the last two years at least, has shown acute strain, and the March quarter this year is witnessing an exceptionally severe condition, owing to the political uncertainties that have become so disconcerting throughout Europe. Our banks are very poorly prepared for the active demands that are now being made upon them. Last week's statement of the Clearing House indicated a decrease of \$4,367,000 in the cash item although reserve requirements were reduced \$5,051,000 by the contraction of \$23,546,000 in deposits. Thus the cash surplus showed an increase, compared with the preceding week, of \$684,000 but amounted to \$3,374,250, which certainly represents a particularly small margin when the current active demand for money is taken into consideration. These figures include the banks and trust companies that are members of the Clearing House. A year ago the cash surplus was \$16,376,800. The question of disposing of Union Pacific's holdings of Southern Pacific stock, in accordance with the decree of the United States Supreme Court, has taken on a new phase. A modification of the original plan of dissolving the merger has been forwarded for the approval of the California State Railway Commission and is intended to meet the objections of that Commission so far as traffic conditions in California are concerned. If the Commission approves the changes and if the Circuit Court also approves them, then the plan itself will be carried out and the underwriting syndicate will take up, as originally intended, such part of the stock as is not subscribed for by shareholders. The Union Pacific has until midnight to-day (Saturday) to secure the approval of the modified plan by the Commission and by the Court. Should these tribunals acquiesce, it will mean that the market will be called upon to provide by March 21 the first of the three installments to be paid for the Southern Pacific stock in question. It is not unnatural that under the current strained condition of affairs the demands upon the capital market in the form of offerings of securities should be restricted.

The range for call money this week has been $2\frac{1}{2}$ @-6%. On Monday $4\frac{1}{2}$ % was the highest, $2\frac{1}{2}$ % the lowest and $4\frac{1}{2}$ % the ruling rate; Tuesday's extreme figures were $3\frac{1}{2}$ @ $4\frac{1}{2}$ % with 4% the ruling quotation; on Wednesday 6% was the maximum, $4\frac{1}{4}$ % the minimum and ruling rate; Thursday's highest was $5\frac{1}{2}$ %, lowest 4% and renewal basis 5%; on Friday $5\frac{1}{2}$ % was the highest, 4% the lowest and $5\frac{1}{2}$ % the renewal figure. Time money closed at 6% for sixty and ninety days and $5\frac{3}{4}$ @6% for four, five and six months. Commercial paper has advanced still further, closing fully $\frac{1}{2}$ % higher for the week at $5\frac{3}{4}$ @6% for sixty and ninety day endorsed bills receivable and also for four to six months names of choice character; other are quoted at about $\frac{1}{2}$ % above these figures.

A good index of conditions in sterling exchange this week is the fact that, notwithstanding a sharp reduction in rates, there have been very large additional engagements of gold for export. This means that France and Germany are buying gold by themselves, assuming the loss in exchange. The Bank of France is again reported to be paying interest during the time of ocean transit on the precious metal that is consigned to Paris. At the close last week, demand sterling was quoted at 4 8780@-4 8790. It yesterday touched 4 8680. The gold engagements of the week have included \$950,000 for Germany and \$4,000,000 for Paris and a small amount, \$100,000, was taken for Venezuela. These figures bring the total engagements since January 1 up to \$39,985,000, including \$21,235,000 to the Argentine \$17,000,000 to Paris, \$1,450,000 to Germany, \$200,000 to Brussels and \$100,000 to Venezuela. Of the £850,000 of South African gold offered at the weekly London auction, £350,000 was purchased for Germany, while the disposition of the remainder was not reported. Some part of it will, it is intimated, also go to Germany. In sterling exchange circles here the developments in connection with the acceptance of the modified plan of the Union Pacific by the California Railway Commission and the Circuit Court at St. Louis are being awaited with much interest. If the new plan is definitely accepted, it will mean that preparations for subscriptions and underwriting of the Southern Pacific stock to be sold by the Union Pacific will be carried out as originally intended on March 21. A substantial participation in this underwriting has been arranged abroad.

Sterling exchange in Paris closed at 25.25 francs, which compares with 25.25½ francs a week ago, and the London check rate in Berlin finished at 20.44¼ marks against 20.43½ marks last week. Berlin exchange in Paris closed at 123.52½ francs, comparing with 123.47½ francs a week ago.

Compared with Friday of last week, sterling exchange on Saturday was weaker; demand declined to 4 8775@4 8785 and sixty days to 4 8350@4 8360; cable transfers, however, were firmer at 4 8850@-4 8860. On Monday the market ruled strong on the increasing firmness in European discounts, and advanced to 4 8780@4 8790 for demand and 4 8855 @8865 for cable transfers; sixty days was easier at 4 8345@4 8355. The tone was weaker on Tuesday and more or less unsteady; demand finished unchanged at 4 8780@4 8790, while sixty days declined to 4 8330@4 8340; cable transfers were relatively firmer, owing to the inquiry in connection with the London fortnightly settlement now being effected, advancing to 4 8860@4 8870. The sudden rise in call and time money here together, with expectations of additional gold exports, caused a sharp break on Wednesday, when sterling rates fell 50 points to 4 8730@4 8740 for demand, 4 8810@4 8820 for cable transfers and 4 8280@4 8290 for sixty days. There was a further heavy decline on Thursday, demand at one time going as low as 4 8680 and cables to 4 8775; the main influence was the stiffening in local money rates; before the close a slight rally took place and final quotations were 4 8685@4 8695 for demand, 4 8780@4 8790 for cable transfers and 4 8260@-4 8270 for sixty days. On Friday the market continued easy and rates declined 5@10 points. Closing quotations were 4 8250@4 8260 for sixty days, 4 8675@4 8690 for demand and 4 8775@4 8785 for cables. Commercial on banks closed at 4 80 1/@-4 821/s and documents for payment at 4 817/s@4 823/4 Cotton for payment ranged from 4 82@4 8214. Grain for payment 4 821/2@4 823/4.

The New York Clearing-House banks, in their operations with interior banking institutions, have gained \$4,049,000 net in cash as a result of the currency movements for the week ending March 14. Their receipts from the interior have aggregated \$12,649,000, while the shipments have reached \$8,600,000. Adding the Sub-Treasury operations and gold exports, which together occasioned a loss of \$6,250,000, the combined result of the flow of money into and out of the New York banks for the week appears to have been a loss of \$2,201,000, as follows:

Week ending March 14 1913.	Into Banks.	Out of Banks.		Change in Holdings.
Banks' interior movement as above Sub-Treas, oper, and gold exports	\$12,649,000 21,400,000	\$\$,600,000 27,650,000		\$4,049,000 6,250,000
Total	\$34,049,000	\$36,250,000	Loss	\$2,201,000

The following table indicates the amount of bullion in the principal European banks.

THE PRESIDENT'S WORD TO THE SPANISH-AMERICAN STATES.

Ever since the election of last November, it has been evident that the relations of the United States Government with the governments of the various Spanish-American States to the South of us would be an immediate problem for the consideration of our new Administration. That such relations had in many respects assumed an unfortunate and troublesome shape during the past few years has been visible to every one. Numerous recent events had contributed to create among the Central and South American peoples a prejudice, largely unfounded, against the United States.

The Panama episode of 1903, when our own Government openly promoted the secession of Panama from the Colombian Government, and did so for the manifest purpose of obtaining the Canal strip for our own uses, made a deep and abiding impression on all these States. The Nicaragua episode of 1910 did not help matters; since, whatever else might be said for our Government's policy in that episode, it was clear that through its support of Estrada the United States helped to dislodge the existing Administration of Zelaya, and thereby intervened, as we remarked in these columns at the time, against what was certainly a de facto and probably a de jure government, and in favor of a claimant whose power rested at the moment wholly on a revolutionary army. It is questionable whether the fact that Madero in 1911 organized his attack on the Diaz Administration from within the State of Texas did not greatly add to this ill-feeling.

Whatever may be said, and there is much that may be said, as to the difficulties and complexities surrounding each of these separate problems, and as to the peculiar considerations created by our assertion of the Monroe Doctrine, the fact still remains that our relations with the Spanish-American States have become in recent years increasingly less agreeable. It is also a matter of common knowledge, in both diplomatic and business circles, that the talk of the day in Central and South America, after the election of last November, was to the effect that some sort of change of policy might be expected from the new Administration. From most of these Southern communities the word came with a curious unanimity that they hoped for Mr. Wilson's success. Exactly what the theory was on which they based this particular hope was not always easy to determineexcept that both the Roosevelt and Taft administrations had become unpopular with them-but evidently it was expected that the policy of hands-off would in some way be adopted. Perhaps that fact, combined with the hesitation which the Washington authorities were bound to feel over aggressive measures at a moment when a change of Administration was impending had to do with the date selected for the Huerta-Diaz revolution in Mexico.

Now, there quite probably have been mistakes and unfortunate policies in our past relations with these communities, the results of which the new Administration can and ought to repair. Yet the absolute reversal of our recent policies would easily have created even greater difficulties. If it has been impossible for any one Administration to pursue an absolutely consistent policy toward all these so-called republics, what possible coherence in our national attitude could there be, if one Administration were

publicly and forcibly to depart from all the precedents established by its predecessors? Most of all is it obvious that such an attitude would complicate enormously the already sufficiently great difficulties in which we are involved through our assertion of the Monroe Doctrine, which in effect means that whatever happens in the Spanish-American States, and however European interests may be affected, it must not be Europe which moves in the matter, but ourselves.

As was to be expected, the problem came to the front at once after Inauguration Day. Much has been made, in dispatches from Washington and Mexico, of the formal or informal approval by Secretary Bryan of Ambassador Wilson's actions and policies in the recent Mexican disturbance. The fact that the Ambassador has been subjected to widespread criticism on the ground of favoring, indirectly if not directly, the Huerta-Diaz revolution, adds interest to the discussion of this action. We are by no means sure, however, that our diplomatic service made any mistake in this matter. The facts, particularly of the Ambassador's position in the recent Mexican revolution, are not yet clear, and the evidence is conflicting. It is fair at least to suspend judgment and to base opinion for the present on the fact that, up to the present date, the sequel in the Mexican situation itself has been at least partial restoration of order in that country.

President Wilson, recognizing the propriety of stating his Administration's general attitude on this important question, gave out last Tuesday a personal declaration regarding the policy which he intends to pursue. The statement may be described as partly reassurance to the Spanish-American peoples and partly warning. Washington's comment generally was to the effect that the warnings were inspired through suspicion that revolutionary agitators like Castro, Zelaya and others were contemplating renewed attacks on the States which they once controlled. This may be so cr it may not; but the real significance of the statement is larger. Its essential paragraphs read as follows:

"One of the chief objects of my Administration will be to cultivate the friendship and deserve the confidence of our sister republics of Central and South America and to promote in every proper and honorable way the interests which are common to the peoples of the two continents. * * *

"Co-operation is possible only when supported at every turn by the orderly processes of just government, based upon law and not upon arbitrary or irregular force. We hold, as I am sure all thoughtful leaders of republican government everywhere hold, that just government rests always upon the consent of the governed, and that there can be no freedom without order, based upon law and upon the public conscience and approval. * * *

"We shall lend our influence of every kind to the realization of these principles in fact and practice, knowing that disorder, personal intrigue and defiance of constitutional rights weaken and discredit government. * * *

"We can have no sympathy with those who seek to seize the power of government to advance their own personal interests or ambition. We are the friends of peace, but we know that there can be no lasting or stable peace in such circumstances.

"As friends, therefore, we shall prefer those who act in the interest of peace and honor, who protect private rights and respect the restraints of constitutional provision." We think that the principles enunciated in this speech will be generally approved, both in the States to which the declaration is addressed and in our own country. There is, in fact, no other legitimate basis for sustaining any position on our own part toward the Spanish-American governments. The President wisely indulges in no threats. That the legitimacy of a given government will be tested through its "protection of private rights", and that a distinctly unfavorable view will be entertained at Washington of those who "seize power to advance their own personal interests," are, however, plain and unmistakable declarations. The statement closes with this emphatic declaration:

"The United States has nothing to seek in Central and South America except the lasting interests of the peoples of the two continents, the security of governments intended for the people, and for no special group or interest, and the development of personal and trade relationships between the two continents which shall redound to the profit and advantage of both and interfere with the rights and liberties of neither."

We are inclined to think that this last statement will have excellent effect in the communities to which it is addressed, especially in removing or diminishing the rooted suspicions, prevalent in so many of those communities, that the United States is looking forward to territorial aggrandizement in Central or South America. However foolish such a presumption may have been, the fact remains that in many of those communities all of the actions by the United States have been thus interpreted. For that we doubtless have to blame largely the manner of bringing to a climax the Panama affair, the impression produced by which was so profound that all the subsequent official and personal efforts of Secretary Root could not remove it. To us in America President Wilson's words upon the subject merely renew assurance of the general policy pursued by his predecessors. They may impress the Spanish-American peoples differently, in so far as they have mistakenly supposed the purpose of Mr. Wilson's predecessors in the White House to have been other than that which he now declares. At any rate, it is well to have had so definite and clear a statement made, in exactly this form, at the outset of the new administration.

We are not so sanguine as to expect that the general policy outlined by President Wilson will smooth away all difficulties. Cases will repeatedly arise when the question as to which of two belligerent claimants, in one of these areas of political confusion, represents the consent of the governed and adherence of constitutional rights, will not be easy of solution. Frequently it will be found that neither does. In Nicaragua, three years ago, Estrada probably represented defence of popular rights and Zelaya, at least in form, was in power through consent of the governed. Did Madero represent both constitutional rights and the consent of the governed, and, if so, what should have been, or should to-day be, our attitude toward Huerta and Diaz? Perhaps the only possible rule for consistent action will be, first, to insist on protection of American citizens and property; second, to respect what is obviously a de facto government when such government has actually been established; but, third, to require that any government which on such a basis wins our formal recognition must conform to the republican and constitutional prin-

ciples clearly set forth in President Wilson's statement, under penalty of alienating the support of our Government if such legitimate policies are abandoned.

RAIL PRODUCTION AND THE ACTIVITY OF THE STEEL TRADE.

It has been observed in more recent years that the demand of the railroads for steel and its products is playing a much less important part in the general condition of the steel trade than was formerly the case. Time was when the fluctuations in railroad orders controlled absolutely the condition of the trade. If the railroads were enjoying prosperity and were buying freely of the many things needed in the conduct of their operations, the fact would be at once reflected in the great activity in the iron and steel industry, mills and furnaces being quickly crowded to their full capacity. Vice versa, if the railroads were depressed [and could buy only sparingly, the steel industry would pass through one of its numerous cycles of prostration. Of late years, however, the connection has been gradually disappearing. It has happened several times that trade revival of a most marked sort has been initiated in the steel industry with little or no help from the railroads-indeed at a time when the railroads, which in the past were reckoned as the largest single consumer of iron and steel and their products in the country, were still lagging far behind in their orders. The year 1912 was an occasion of this kind. The iron and steel trade had already gained great impetus in its upward course, as far as prices and volume of business is concerned, before the railroads began to place orders for equipment and for rails on an extensive scale.

As a matter of fact, the railroads did not act in this regard until compelled to do so under the stress of necessity. They have suffered so much as a result of hostile Governmental policies, and confidence in the stability of railroad investments has been so seriously disturbed thereby, that the managements found it necessary to proceed with the utmost caution in any steps that would involve an appeal to the investment and money markets. Thus it was that the roads during the early part of 1912 continued the course which they had previously pursued of placing orders only to supply their most present and urgent needs. The truth is they have not even now abandoned this cautious policy, because their situaton has not at all improved and they find it exceedingly difficult to borrow for current needs on satisfactory terms. Nevertheless, as 1912 progressed, they were forced very materially to enlarge their orders, even though the money for the purpose could only be obtained on costly terms. This they were obliged to do, since it became certain that the demands upon their capacity as carriers would be on an extraordinary scale in view of the widening circle of business activity and the bounteous harvests reaped. It, accordingly, happened that in the last six or seven months of 1912 liberal orders from the railroads served still further to stimulate activity in the steel trade. But the initiative in the revival of the steel trade did not come from that source. Mills were crowded with business long before the rail-carriers began to extend their orders.

These remarks are suggested by the appearance of the statistics of rail production for the calendar year. These show an output of rails only moder-

ately larger than the relatively small output of 1911 and far below the product of the best previous year. In brief, the make of rails in 1912 reached 3,327,915 tons, against 2,822,790 tons in 1911, but as against 3,636,031 tons in 1910, 3,633,654 tons in 1907 and a maximum of 3,977,887 tons in 1906. In other words, while the make of rails in 1912 exceeded that of 1911 by 505,125 tons, it fell below that for the year preceding the panic in amount of 649,972 tons. Of course, more rails were turned out in the last six months of 1912 than in the first six months, but even on the basis of the make for the last half of 1912, the yearly rate falls much below the highest previous total. The statistics, it is proper to say, are now compiled by the Bureau of Statistics of the American Iron & Steel Institute, under the direction of William G. Gray, who for so many years assisted Mr. James M. Swank of the American Iron & Steel Association in the work. The fact is important as showing that the methods of preparing the statistics remain unchanged. For the first six months of 1912 the production of rails was last August reported at 1,466,565 tons. This leaves the output for the last six months 1,861,350 tons, which is at the rate of 3,722,700 tons a year and falls a quarter of a million tons below the 3,977,887 tons of rails produced in 1906, the year immediately before the 1907 panic. The significance of this comparison lies in the fact that it indicates that the rail production even during the last half of 1912 was on a restricted scale. In the interval since 1906 about 30,000 miles have been added to the railroad system of the country and yet the consumption of rails is on a smaller scale than in the earlier period, notwithstanding the railroads are supposed to have been buying very liberally.

Another fact is worth remembering. Not by any means all the rails made in 1912 went into domestic consumption. In face of the active home demand for rails the export movement of rails to foreign countries was maintained at the large figure of the previous year and even slightly further increased. This last means that our exports of rails in 1912 were the largest on record. In a word, the export shipments reached 446,473 tons in the late year and 420,874 tons in 1911. Allowing for a very small amount of rails imported (3,780 tons) the home consumption of rails was only 2,885,222 tons, which compares with 2,405,330 tons in 1911, but with no less than 3,654,794 tons in 1906. In brief, the home consumption of rails in 1912 was over 3/4 of a million tons less than in 1906. In the following we furnish a comparative statement for the last six years, showing production, imports and exports and the home consumption of rails, and also how much of the product each year was made by each of the leading processes-that is the Bessemer process and the open-hearth process.

	RAII	PRODU	CTION A	ND CON	SUMPTIC	ON.	
Bessemer 1 Open-hearth2 Miscellan's .		1,676,923	1,751,359	1,256,674		1907. <i>Tons.</i> 3,380,025 252,704 925	186,413
Tot. prod.3 Imports	,327,915 3,780				1,921,015 1,719		
Exports	,331,695 446,473		3,643,892 353,180		and the state of t	3,637,408 338,906	3,982,830 328,036
Home con 2.	885,222	2,405,330	3,290,712	2,725,847	1,726,224	3,298,500	3,654,794

In the make by the different processes the feature is the falling off in recent years in the Bessemer product. A trifle more Bessemer rails was made in 1912 than in 1911, but only a trifle more, the amount being 1,099,926 tons for 1912 and 1,053,420 tons for 1911. As a matter of fact, the Bessemer make of rails in 1912 was less than thirty years before, in 1882. On the other hand, open-hearth rails established another new record, greatly in advance of anything reached before. It was only in 1911 that the open-hearth rail product for the first time surpassed the Bessemer product. In 1912 openhearth rails so far advanced their lead that twice as much was made as of Bessemer rails. The openhearth product was 2,105,144 tons and the Bessemer rails 1,099,926 tons. From this the reader will get an idea of the marvelous rapidity with which the railroads have been turning from Bessemer rails to open-hearth rails.

Up to within a very few years, as we have pointed out on previous occasions, nothing but Bessemer rails were made. As lately as the calendar year 1902—that is only a decade ago—the total product of open-hearth rails in the United States was no more than 6,029 tons. From this to the 2,105,144 tons of open-hearth rails produced in 1912 represents prodigious strides. Whether the Bessemer rail has been permanently relegated to second place remains for the future to determine. There is no absolute agreement among railroad operating officials as to the relative merits of the two kinds of rails; but it is admitted that the open-hearth rail possesses an advantage because of the fact that open-hearth steel contains a smaller percentage of phosphorus than Bessemer steel. It is argued from this that as a consequence rail breakages due to brittleness are reduced. Of course there are other factors to be taken into consideration and the open-hearth rail has not been in use long enough to make it possible to arrive at definite conclusions with reference to the superiority claimed for it. The one fact established by the statistics is that railroad officials continue to show a decided preference for it.

LARGE FARM RESERVES OF CEREALS.

The report on the reserves of cereals in farmers' hands in the United States on March 1 1913, issued by the Department of Agriculture on Monday last, shows that stocks so held at that date were very much larger than at the same date of any recent year. It would seem to follow that we have an abundant supply to meet the probable requirements prior to the movement of the next crop. While this is in line with general expectations on the whole, it is to be noted, nevertheless, that the quantity of oats disclosed as on hand exceeds all private estimates.

Of wheat the amount in farmers' hands March 1 is placed at about 21.4% of the 1912 crop, or 156,-483,000 bushels, with the reserves in such States as Iowa, Minnesota and Wisconsin approximating one-third of the yield. This year's holdings are 361/2 million bushels greater than at the corresponding time in 1912. A very large total of corn on hand is revealed, a situation due not only to the great yield of last year but, in an important measure also, to the open character of the past winter, which served to reduce farm consumptive requirements. The amount of corn reported on farms March 1 this year, stated at approximately 41.3% of the 1912 product, was about 1,289,655,000 bushels. This contrasts with only 884 million bushels a year ago, 1,165 millions in 1911 and $977\frac{1}{2}$ millions in 1910. With the exception of 1907, when the March 1 stock reached 1,298 million bushels, the current total is the heaviest on record.

Reserves of oats, likewise, are of very large amount, the mildness of the winter, as in the case of corn, as well as the largeness of the growth of 1912, being chiefly responsible for the result. The March 1 holdings are placed at 604,216,000 bushels, or 42.6% of last year's crop, as against 289,988,000 bushels a year ago, 4425/8 millions in 1911 and 3651/2 millions in 1910. Of barley farmers held on March 1 about 62.283,000 bushels, or 27.8% of the 1912 record crop, whereas a year ago the amount held was only 2434 million bushels and in 1911 some 331/2 millions.

The foregoing remarks apply, of course, only to the stocks of grain held in farmers', or first, hands at the date mentioned, not including the visible supplies at reported points of accumulation, which are greater than last year, and the amounts in country elevators, &c., which it is to be presumed are heavier than usual. Consequently it is a practically safe assumption that the combined stock of grain in the country available for use is the greatest on record for the date covered.

With the mind set at rest on this subject of available supplies, attention not unnaturally turns to the present status of the winter-wheat crop. The planting of last fall, according to the Department of Agriculture, covered an area 2.5% less than in the previous year, and nothing further of an official nature about the crop will be promulgated until early next month. Reliable private advices are available, however, and they indicate a quite satisfactory current outlook. The plant seems to have had, over much the greater part of the seeded area, ample snow covering to protect it from the freezing weather, and no specially mentionable complaints of unfavorable developments have been received. The "Cincinnati Price Current" remarks that recently there has been considerable precipitation in the form of snow throughout the winter-wheat territory that has relieved, in a measure, the drought condition and given protection against that thawing and freezing condition that is often disastrous to the wintering of the wheat plant. So far, therefore, as it is now possible to judge, the winter-wheat crop is in good condition, says the "Price Current," with slightly unfavorable reports from Iowa and South Dakota, where the acreage is not extensive.

RAILROAD GROSS AND NET EARNINGS FOR JANUARY.

We have an extraordinarily favorable statement of railroad earnings, gross and net, for the month of January. But not too much significance should be attached to the large gains disclosed. If in magnitude and ratio the improvement is of unusual proportions, on the other hand the conditions responsible for the results were also unusual. One of the chief reasons for the noteworthy betterment of both gross and net is found in the striking difference in the weather conditions in the two years. In 1912 the winter was one of exceptional severity, particularly in the intensity of the cold experienced; this had the effect at once of reducing gross earnings and of running up expenses to an extraordinary degree, the two combined producing losses of tremendous extent. Contrariwise, the winter the present year was one of the very mildest on record, both in the absence of any serious or general impeding snowfalls and in the almost complete freedom from very low out monthly figures for publication.

temperatures. Thus, the contrast arising out of difference in weather conditions was marked beyond the ordinary. When to this we add the further fact that trade and industry all over the country were in a state of great activity and that the railroads had a grain movement of prodigious size as a result of the unsurpassed harvests of 1912, we have all the elements going to produce highly favorable statements of earnings. No repetition, however, of January's exceptional improvement in earnings should be looked for in subsequent months, for these subsequent months will have no such advantages in the way of differences in weather conditions as did January.

That the weather the present year has been mild almost beyond recall is, of course, within the knowledge of everyone. As to the weather last year, it is only necessary to remind the reader that in this city the average temperature in January 1912 was the lowest with a single exception (1893) in the forty-two Januaries during which the Government Weather Bureau had kept the records up to that time, while in Chicago the month was the coldest without any exception. Many of the Western roads found it difficult to keep up'steam in the locomotive engines, and outdoor work in connection with the running of the trains was more or less interfered with by the intensity of the cold. As a consequence, many of the separate roads suffered losses in net earnings which for amount have had few parallels.

Following such results and such conditions last year the improvement the present year was bound to be extremely marked. Stated in brief, our tabulations show a gain in gross earnings of no less than \$38,128,677, or 18.28%, and a gain of \$18,-781,777, or 41.28% in net earnings. The extent and ratio of these gains reveals very clearly the unusual character of the conditions that prevailed. It is almost supurfluous to add that the gains come from all sections of the country and from all classes of roads. In individual cases net earnings the present year are double what they were last year.

			Inc. (+) or Dec	. (-).
January (441 roads -	1913.	1912.	Amount.	26
Miles of road	235,607	232,179	+3,428	1.47
Gross earnings	246,663,737	\$208,535,060	+\$38,128,677	18,28
Operating expenses	182,388,573	163,039,673	+19,346,000	11,87
Net earnings	\$64,277,164	\$45,495,387	+\$18,781,777	41,28

From what has already been said, it is manifest that this year's large gains are in part a recovery of what was lost in January last year. In particular this is true of the net. Speaking of the roads as a whole, our compilation last year, covering 237,888 miles of road, showed a decrease of \$2,440,307 in gross, or 1.14%, and a decrease of \$7,019,714 in the net earnings, or 13.25%. The showing was unfavorable, too, in January of the previous year, namely 1911, inasmuch as, though there was a gain in the gross, it was very small, reaching only \$4,248,770, while in the net earnings there was an actual loss of \$3,483,309. In 1910 a gain of \$27,776,971 in gross vielded an addition of only \$6,918,577 to net. Below we furnish a summary of the January comparisons for each year back to 1896. For 1911, for 1910 and for 1909 we use the Inter-State Commerce totals, but for preceding years we give the results just as registered by our own tables each yeara portion of the railroad mileage of the country being always unrepresented in the totals, owing to the refusal at that time of some of the roads to give

THE CHRONICLE

Note.—In 1896 the number of roads included in the month of January was 135; in 1897, 127; in 1898, 130; in 1899, 115; in 1900, 114; in 1901, 130; in 1902, 109; in 1903, 105; in 1904, 103; in 1905, 04; in 1906, 100; in 1907, 97. In 1908 the returns were based on 157,629 miles of road; in 1909, 231,970; in 1910, 239,808; in 1911, 242,479; in 1912, 237,888; in 1913, 235,667.

As far as the separate roads are concerned, the list of gains is an extensive one, and they are large in both gross and net. The Eastern roads share with the Western roads in the magnitude of the increases, but in ratio the gains on Western roads are much the heaviest. This is due to the fact that last year the great East and West trunk lines between Chicago and the seaboard were able to make relatively good exhibits, in part because net earnings at least had suffered heavy decreases in the year preceding. A few other roads then also presented satisfactory returns-the Great Northern, for instance, reporting \$520,574 increase in gross and \$462,546 increase in net. Barring a few such exceptions, most of the larger systems at that time sustained heavy losses, more particularly in net. The Harriman roads were the worst sufferers at that time, because in addition to the other drawbacks they were still feeling the effects of a shopmen's strike. As illustrating the nature and the extent of the losses then sustained, we may mention that the Illinois Central fell \$1,151,393 behind in gross and \$1,747,838 in net, the Union Pacific \$539,092 behind in gross and \$740,856 in net, the Southern Pacific \$47,800 behind in gross and \$249,716 in net and the Yazoo & Mississippi Valley \$232,556 in gross and \$370,539 in net. Other Western roads were very hard hit by the unfavorable weather conditions prevailing last year. Thus the Rock Island had \$623,417 loss in gross and \$541,859 in net, the Chicago & North Western \$533,379 loss in gross and \$794,505 in net, the Northern Pacific \$336,244 loss in gross and \$300,933 in net and the Atchison \$200,306 loss in gross and \$145,887 in net.

This year's gains are in sharp contrast with these heavy losses last year. For instance, the Illinois Central now has \$1,130,520 increase in gross and \$1,139,696 increase in net, the Union Pacific \$958,756 increase in gross and \$481,453 in net, the Southern Pacific \$522,159 increase in gross but \$8,530 decrease in net. The Chicago & North Western this time adds \$1,514,738 to gross and \$1,270,300 to net, the Atchison \$1,525,689 to gross and \$527,591 to net, the Burlington & Quincy \$1,114,087 to gross and \$889,-448 to net, the Milwaukee & St. Paul \$2,095,565 to gross and \$1,408,349 to net, the Great Northern \$784,093 to gross and \$364,636 to net and the Missouri Pacific \$1,046,065 to gross and \$482,638 to net.

With reference to the Eastern trunk lines, these had moderate gains last year, which are followed by very large gains the present year. The Pennsylvania Railroad on the lines directly operated both East and West of Pittsburgh reports \$3,696,687

net. The Baltimore & Ohio has \$1,833,882 increase in gross and \$801,786 increase in net, while the New York Central has swelled its gross by \$890,862 and its net by \$555,281. This last, howver, covers simply the Central proper. Including the various auxiliary and controlled roads, the whole going to form the New York Central System, the result is a gain of \$3,887,974 in gross and of \$2,000,324 in net. In the following we show all changes for the separate roads for amounts in excess of \$100,000, whether increases or decreases, both in the gross and in the net. There are no losses for this amount in the case of the gross and only two in the case of the net, namely the New Haven road and the Boston & Maine.

When the roads are arranged in groups or geographical divisions, the widespread nature of the improvement and its striking character become very manifest. Every division records improvement in the gross, some in very noteworthy ratios, while all the divisions also record gain in the net, with the single exception of the New England group, where there is a small loss in net because of the large expense and diminished net earnings of the Boston & Maine and the New improvement in gross and \$1,128,505 improvement in Haven. Our summary by groups is as follows:

NOTE.—Group I. includes all of the New England States. Group II. includes all of the New England States. Group II. includes all of New York and Pennsylvania except that portion west of Pittsburgh and Buffalo; also all of New Jersey. Delaware and Maryland, and the extreme northern portion of West Virginia Group III. includes all of Ohio and Indiana; all of Michigan except the northern peninsula, and that portion of New York and Pennsylvania west of Buffalo and Pittsburgh.

Pittsburgh. Groups IV. and V. combined include the Southern States south of the Ohio and ex U of the Mississippi River. Groups VI. and VI. combined include the northern peninsula of Michigan, all of Minnesota, Wisconsin, Iowa and Hilholds; all of South Dakota and North Dakota and Missouri north of St. Louis and Kanasa City: also all of Montana, Wyoning and Nebraska, together with Colorado north of a line parallel to the State line passing through Denver. Groups VIII and IX. combined include all of Kanasa, Oklahoma, Arkansas and Indian Territory, Missouri south of St. Louis and Kanasa City: Colorado south of Denver, the whole of Texas and the bulk of Louislana; and that portion of New Mex-ico north of a line running from the northwest cornet of the State through Santa Fe and east of a line running from Santa Fe to El Paso. Groups V. Includes all of Washington, Oregon, Takho, California, Nevada, Utah and Arizona and the western part of New Mexico.

RAILROAD GROSS EARNINGS FOR FEBRUARY.

In the previous article we have dealt with the completed tabulations of railroad earnings, both gross and net, for the month of January, and have pointed out that the tabulations for subsequent months are not likely to show improvement to anywhere near the same extent, inasmuch as there will be no such striking contrast in the weather conditions between 1913 and 1912 as existed in that month. These remarks find confirmation in the early statements that have thus far come to hand for the month of February; these statements cover simply the gross earnings, since it is far too early yet to have any figures of net. These early returns, which embrace altogether 48 roads, comprising an aggregate of 88,333 miles of line, including three Canadian systems, show only \$3,440,529 gain over February last year, or no more than 5.56%. Moreover, of this gain \$1,481,820 is contributed by the three Canadian roads referred to, namely the Canadian Pacific, the Grand Trunk and the Canadian Northern, leaving only \$1,958,709 gain for the roads in the United States or only 4.03%. The diminutive character of the improvement attracts the more notice in view of the fact that many of the roads represented in these early returns are Western grain-carrying roads and the Western grain movement the present year was of huge magnitude. As against this advantage, however, to the Western roads, the Southern roads, which form the other class of roads most largely represented in our early statements, suffered a very severe shrinkage in their cotton traffic, and all the roads everywhere suffered a distinct disadvantage in the fact that February the present year had one day less than the same month last year, when the month contained 29 days by reason of its being a leap year. As against the \$3,440,529 increase, or 5.56%, shown in our present early statement for February, the gain by the early statement for the month of January, comprising substantially the same roads was \$9,913,520, or 17.44%, and the gain for the month of December was \$7,691,470, or 11.15%.

As modifying unfavorable conclusions, it should be remembered that for February we are not comparing with diminished earnings last year. The extra

day which the month then contained (it being a leap year, as already stated) was itself an important element in producing good comparisons between 1912 and 1911, besides which the grain movement in the West and the cotton movement in the South both ran considerably heavier than in the earlier year. Thus it happened that our early statement for February 1912 showed \$6,221,900 increase in gross or 11.32%. The year before, however (1911), the total registered only a slight increase, and if the Canadian roads had been excluded the increase then would have been of mere trifling extent. Prior to 1911, of course, the returns were quite satisfactory as a rule, though in 1908 there was a falling off because of the business depression which followed the panic of 1907, and there were also losses in a few other years arising generally out of bad weather conditions. In the following we furnish a summary of our early February totals for each year back to 1897:

February.	Milcage.			Gross Ed	urnings.	Increase (+)

Note .--- We do not include the Mexican roads in any of the years.

We have spoken above of the falling off in the cotton movement. This, however, applies only to the movement at the Southern outports. The shipments overland by the various rail routes were heavier, aggregating 412,597 bales in February 1913, against only 244,580 bales in 1912 and but 147,878 bales in 1911. At the Southern outports there was a shrinkage of prodigious extent, the receipts in 1913 aggregating no more than 468,381 bales, against 1,244,629 bales in 1912 and 517,027 bales in 1911, as appears by the following:

RECEIPTS OF COTTON AT SOUTHERN PORTS IN FEBRUARY AND FROM JANUARY 1 TO FEBRUARY 28 1913, 1912 AND 1911.

The Western grain movement, favored by good weather and large crops, was of prodigious magnitude and far surpassed that of either of the two previous years. All the leading cereals were distinguished in the same way. Of wheat the receipts

[VOL. XCVI.

for the four weeks ending March 1 in 1913 were 20,567,000 bushels, against only 12,726,255 bushels in the corresponding four weeks of last year; of corn, 34,970,000 bushels, against 26,705,255 bushels; of oats, 17,514,000 bushels, against 12,591,744; of barley, 8,671,000 bushels, against 3,739,086 bushels, and of rye, 960,000, against 558,972 bushels. Combining the five cereals, aggregate deliveries in the four weeks of 1913 were no less than 82,682,000 bushels, against only 56,321,711 bushels in 1912 and but 37,737,322 bushels in 1911. We now furnish the details of the Western grain movement in our customary form:

As far as the separate roads are concerned, there are some important decreases on this occasion, but they seem to be almost entirely ascribable to the great shrinkage in the cotton movement; thus the Central of Georgia falls 132,400 behind, the Chicago & Alton \$118,724 behind, the Texas & Pacific \$93,-256 behind and the International Great Northern \$42,000 behind, all being Southern roads except the Alton. In the following we show all changes for the separate roads for amounts in excess of \$30,-000, whether increases or decreases:

PRINCIPAL CHANGES IN GROSS EARNINGS IN FEBRUARY.

-John Skelton Williams of Richmond was nominated on the 13th inst. by President Wilson as Assistant Secretary of the United States Treasury, to succeed Robert O. Bailey. Robert W. Wooley has also been selected as an Assistant Secretary of the Treasury, to succeed Sherman Allen, in charge of the miscellaneous bureaus of the Treasury. Mr. Williams is one of the best known bankers in the South; besides being a member of the banking firm of John L. Williams & Sons, he is President of the Richmond Trust and Savings Company, and was formerly President of the Bank of Richmond before it was taken over by the National Bank of Virginia in 1910; he was also Vice-President of the latter, until its merger last August with the First National Bank of Richmond. Mr. Williams' name is also inseparably linked with the Seaboard Air Line Ry., of which he was for many years President.

-The nominations of Franklin D. Roosevelt of New York, to be Assistant Secretary of the Navy, and Edwin F. Sweet, of Grand Rapids, to be Assistant Secretary of Commerce, were also sent to the Senate by President Wilson on Thursday.

—Senator James P. Clarke of Arkansas was nominated on the 7th inst. by the Democratic caucus as President pro tem of the Senate, and elected to the office on Thursday by a vote of 41 against 18 for Senator Jacob M. Gallinger, the nominee of the Republican caucus. The Democratic caucus nominated Senator Clarke by a vote of 27 to 14 over Senator Augustus O. Bacon, who during the last session alternated in the post with Senator Gallinger. Senator Bacon's defeat created no little surprise, to himself perhaps most of all, since he was unaware that there was another candidate in the field until Senator Clarke's nomination was offered by Senator O'Gorman of New York. Senator Bacon was nominated by Senator Hoke Smith of Georgia.

-The resignation of Solicitor-General William M. Bullitt of the Department of Justice at Washington, to take effect on the 11th inst., was accepted by President Wilson on the 6th.

—John H. Marble of California was named by President Wilson on the 5th inst. as a member of the Inter-State Commerce Commission to succeed Franklin K. McLane, who has become Secretary of the Interior. The Senate confirmed the nomination on the 10th. The renomination as a member of the Commission of Edgar E. Clark was also submitted with the name of Mr. Marble, and was confirmed by the Senate on the 5th inst. Commissioner Clark's term expired on Dec. 31. He was renominated by President Taft, but the Democrats succeeded in delaying the confirmation. Mr. Clark has been made Chairman of the Commission.

-The Naval Appropriation Bill, providing for only one battleship, was signed by President Taft on the 4th inst. Provision for a single battleship was made in the bill as it passed the House of Representatives on Feb. 26; two battleships, however, were authorized under the bill as adopted by the Senate on the 28th, but the House refused to agree to the Senate amendment. In conference the Senate conferees finally yielded (on the 4th inst.) to the House program and the Senate subsequently concurred in that course. The Naval Bill last year also provided for but one battleship.

-The bill designed to improve the conditions under which seamen labor and to prohibit the involuntary servitude of seamen, failed to become a law through President Taft's deelination to sign it on the 4th inst. As the Wilson Bill, the measure passed the House of Representatives last August; as redrafted by the Senate Committee it was passed by the Senate on the 2d inst., and on the following day the House concurred in the Senate amendments. In signifying his disapproval of the bill President Taft in a message to Congress on the 4th inst. said:

This bill is so important, and conflicts in its operation with the treaty obligations of the United States and in its possible friction with the comerce of foreign countries, that in the short time that I have had since it

has been presented to me I do not feel justified in assuming the responsibility of allowing it to become a law.

The bill would have abolished arrest and imprisonment as a penalty for desertion, and directed the President to give notice of the abrogation by the United States of all treaties requiring such arrest and imprisonment. It would also have required the establishment of the watch system, under which sailors and firemen would work in watches of three shifts a day. Each passenger vessel would have been called upon under the bill to carry at least two efficient life-boat hands for each life-boat.

-It was announced on the 2d inst. that the Senate Committee delegated to inquire into campaign contributions and disbursements in 1904, 1908 and 1912, and into the relations of John D. Archbold and the Standard Oil Co. with members of Congress and Federal officers, would make no report to the expiring Congress. The members of the special committee are said to have found it impossible to agree upon a report and as a consequence the matter is carried over to the new Congress. Senator Moses E. Clapp is Chairman of the Committee, which was named under a resolution of the Senate early in 1912.

--President Taft approved the bill which requires that in the taking of testimony for use in any suit brought under the Anti-Trust Law, the proceedings shall be open to the public as are trials in open court. The bill passed the Senate on Jan. 13 and was passed by the House of Representatives on March 3. The introduction of the bill resulted from the issuance of an order in a United States Court in Massachusetts to hear privately the Government case against the United Shoe Machinery Co.

-The following resolution, relative to the importation of teas, was adopted by the House of Representatives on Feb.28:

Leas, was adopted by the House of Representatives on f'60.28: Resolved. That the Scretary of the Treasury he and he is hereby directed to transmit to the Senate copies of all correspondence, rulings, reports and orders to or from officials of the Treasury Department during the years of 1911 and 1912, relative to the importation into this country of green teas or colored teas and all documents or papers relating thereto in the possession of or under the control of the Secretary of the Treasury, together with a statement showing the importation of green teas into this country during the years 1911 and 1912, by whom imported, and the amount so imported.

--Under a resolution agreed to by the House of Representatives on Feb. 20, the President was requested to furnish to the House information as to the practicability of extending a two-cent letter postage rate similar to that enforced with Great Britain and Germany, to Sweden, Denmark and the Netherlands. Reports by the Secretary of State and the Postmaster-General on the subject transmitted by the President on the 1st inst. indicated that it was not deemed practicable by the Post Office Department to conclude agreements at this time for the extension of the twocent rate.

-Under a provision in the General Deficiency Bill the salary of the Secretary to the President is fixed at \$7,500. This compensation was allowed Charles D. Hilles, Secretary to President Taft, but without special legislative provision the amount payable under the statute, namely \$6,000 would prevail.

-It is understood that President Taft signed the Norris bill, containing certain anti-trust provisions intended to apply to international trade, and supposed to be aimed at the alleged "coffee trust." Further action by the Government in its suit resulting from the Brazilian valorization proceedings is being delayed by the Department of Justice, it is reported, pending the receipt of official evidence from the Valorization Committee of the actual sale of the coffee.

—Under a provision carried in the Post Office Appropriation Bill the Postmaster-General is authorized, on account of the increased weight of mails resulting from the adoption of the parcel-post system, to add not exceeding 5% to the compensation paid for transportation on railroad rontes. President Peters of the Long Island RR. is quoted as saying that under the terms of the amendment the railroads will not be given more than \$2,000,000 additional at the outside, and even this sum, he says, is not certain, since under the phraseology of the amendment the Postmaster-General is authorized to add to the railways' pay not exceeding 5%.

-Application to restrain Postmaster General Burleson from enforcing the newspaper publicity clause contained in the Post Office Appropriation bill of last year was made to the United States Supreme Court on the 11th inst. by Counsel for the New York Journal of Commerce & Commercial Bulletin Company. Two separate actions to test the Constitutionality of the law were instituted last year-one brought by the "Journal of Commerce" and the other by

"The Morning Telegraph," and the matter is now before the Supreme Court for decision. Former Postmaster General Hitchcock is said to have agreed not to attempt to enforce the law until the Supreme Court had passed upon its validity. Mr. Hitchcock's successor, Postmaster General Burleson, however, on the 8th inst. issued orders to the postmasters, directing its enforcement, and the "Journal of Commerce" and other newspapers are reported to have been notified that unless the required returns were filed on or before March 11 the penalties, which include disbarment from the mails, would be enforced. The law requires newspapers to file with the Government and to publish twice a year sworn statements regarding circulation and ownership, and to label as advertisements editorial or other reading matter for which money or other consideration is accepted. It is reported that approximately 91% of the newspapers affected have complied with the law.

In a majority report of the Committee on Inter-State commerce drafted by Senator Cummins, by whom it was presented to the Senate on Feb. 27, it is urged that the Anti-Trust Law be amplified to the end that the United States Supreme Court be curtailed of the discretionary power which it now exercises in deciding the applicability of the Sherman Act. The report points out the dangers of "uncontrolled and unguided judicial discretion," and demands amendments to the law to remove from the Court the power to determine what are "reasonable" restraints of trade. It recommends legislation to define exactly what combinations are lawful, so that both business interests and the courts will have a standard upon which to proceed. It furthermore recommends a Federal inter-State corporate commission, with power to supervise corporations, pass on and approve combinations and agreements and take over the work of dissolving such corporations as the Standard Oil Co., the American Tobacco Co. or other trusts which may be found guilty of violating the Sherman law. With reference to the decision of the Supreme Court in the Standard Oil case, in which the "rule of reason" figured, the report says:

of reason" figured, the report says: The committee has full confidence in the integrity, intelligence and patri-otism of the Supreme Court of the United States, but it is unwilling to re-pose in that Court, or any other court, the vast and undefined powers which it must exercise in the administration of the statutes under the rule which it has promulgated. It substitutes the Court in place of Congress, for whenever the rule is invoked the Court does not administer the law, but makes the law. If it continues in force, the Federal courts will, so far as restraint of trade is concerned, make a common law for the United States fust as the English courts have made a common law for the United States fust as the English courts will not permit the courts to declare a policy for them with respect to this subject. If we do not promptly exercise our legislative power, the courts will suffer immeasurable injury in the loss of that respect and confidence so essential to their usefulness. It is incon-ceivable that in a country that is governed by a written Constitution and statute law that the courts can be permitted to test each restraint of trade by the economic standard which the inidividual members of the court may happen to approve.

If we do not specify prescribe, in so far as we can, a legislative rule by which to measure the forms of contract or combination in restraint of trade with which we are familiar, or which we can anticipate, we cease to be a government of law and become a government of men, and, moreover, of a very few men, and they appointed by the President.

In urging Congress to devise laws which shall specifically prescribe certain conditions upon which persons and corporations shall be permitted to engage in commerce, the committee says:

These conditions should be of a character that will tend to preserve reasonable competition or substantially competitive conditions and to compel independence in both organization and conduct. They should be so clear that the business world can understand them and go confidently forward, guided by them.

The committee recommends that certain definite forms of combinations, agreements, contracts or pools now within the "twilight zone" be definitely mentioned as unlawful.

As a result of the inquiry into the practices of the Board of United States General Appraisers directed by President Taft last August, Thaddeus S. Sharretts and Roy H. Chamberlain, two members of the Board, were removed from office by President Taft on the 3rd inst. Notice of their dismissal was conveyed in the following communication from President Taft.

President Taft. Charges having been preferred against you and the matter having been by me referred to Winfred T. Denison, Esq., Assistant Attorney-General; William Loeb Jr., Esq., Collector of Customs, Port of New York, and Felix Frankfurter, Esq., law officer Bureau of Insular Affairs, as a committee to investigate the same, and a hearing having been accorded you before that committee with reference to such charges, and the committee having reported to me, under date of February 15 1913, that the charges made against you are sustained and advising your removal because of malfessance in office, and such finding being approved by me: Now, therefor, in the exercise of the authority vested in me by the Con-stitution and laws of the United States, you are hereby removed from the office of General Appraiser of merchandise, this removal to take effect forthwith.

It is reported that in response to a request made by Senators Lodge, Smoot and Stone, a rehearing will be accorded Mr. by President Wilson. Sharr

In response to the Difenderfer resolution adopted last July by the House of Representatives, directing the Secretary of Commerce and Labor to investigate the elements of cost and profit included in the increase last year in the price of anthracite coal, a report in the matter was submitted by Secretary Nagel on the 1st inst. According to the report, while the miners' wages were increased only about \$4,000,-000, the advance served to increase the gross profits of the anthracite coal companies \$13,450,000 over the receipts of the previous year. A statement issued by Secretary Nagel says:

says: The report shows that the increase in wholesale prices, as measured by the net receipts from sales of anthractic coal by the operators since the agreement of May 20 1912, amounted to an average of approximately 26 cents a ton, if the prices from June to September 1911 are compared with the prices realized in the same months of 1912. On this basis of com-parison the average increase in the price of sizes of coal prepared for do-mestic consumption amounted to 31.23 cents a ton and the average increase on pea coal and the smaller steam sizes amounted to 16.14 cents a ton. The discounts of 50 and 40 cents a ton customarily allowed on sizes pre-pared for domestic consumption in April and May, respectively, were sus-pended in April and May 1912. As a result the operators gained not only by selling their domestic sizes of coal during the two months at 40 or 50 cents more a ton than during the corresponding months of 1911, but in addition the purchasers who were unable to secure their customary supply of coal during April and May were forced to buy it either during June, July or August, when the discomts were smaller, or in September and the later months, when the full circular prices are charged. As a result of these conditions in 1912 the coal companies received through the general increase in prices and through the suspension of dis-counts about \$13,450,000 more than they would have received for the same tomage at the prices previously existing. Of this amount about \$10,000,-000 was derived from the general increases in prices and about \$2,550,000 from the suspension of April and May discounts. In addition, a limited number of operators received very large suns through the sale of coal at premiums made possible by the shortage of shipments.

These amounts, it should be understood, do not represent the amount of increases in net profits to the operators, because out of these increased receipts had to be paid the cost of the six weeks' cessation of work in April and May and also the increase in the wages of employees resulting from the sufficient of May 20. settlement of May 20.

The reasons presented by the anthracite operators for these increases in prices, the report says, are that they are necessary to cover the advance of wages of their employees, amounting to between 8 and 10 cents a ton, under the agreement of May 20 1912, and also the various increases in the cost of production which have taken place between 1902, the date of the general increase, and 1912. The report adds: "The advance of 5.6% in mine workers' wages represents an increase of from 8 to 10 cents a ton in the cost of producing coal, and on the basis of the shipments from June to December 1912 amounted in, round figures, to \$4,000,000." It is stated in the report that the mine workers benefited not alone by the increase in their wages, but through the concession of certain working conditions which were considered of importance, although they cannot be measured in terms of money, an additional item of importance to the miners being the partial recognition of their organization, both in the negotiations and in the form in which the agreement was signed. The report shows that all the operators, most of the dealers, and the miners, all gained by the increase following the wage agreement, and that the consuming public alone paid higher prices without any compensation.

Secretary of the Treasury MacVeagh on the 4th inst. accepted \$123,000 in settlement of the Government's reported claim of \$1,000,000 against Chicago packers and others for taxes alleged to be due on colored oleomargarine sold as uncolored. A grand jury investigation into the matter was started by Judge Landis in January, but was subsequently suspended pending the action of the Treasury Department. The concerns fined and the payments are said to be as follows: Armour & Co., \$10,000; William J. Mox-ley Co., \$25,000; G. H. Hammond Co., \$20,000; United States Butterine Co., \$6,000; Friedman Manufacturing Co., \$7,500; Capital City Dairy, \$22,000; Blanton Manufacturing Co., \$600, and the Ohio Butterine Co., \$10,000.

With regard to the compromised cases, ex-Secretary Mac-Veagh issued a statement on the 9th inst., saying:

These were not fraud cases. No fraud was charged by the Government. No fraud was committed and no fraud, therefore, was compromised. The manufacture of two kinds of oleomargarine is permitted by law. One kind may be artificially colored as butter and cheese may. This kind must pay a tax of 10 cents a pound. The other and usual kind is taxed at a quarter of a cent a pound and must not be artificially colored. It may be naturally colored by the colors naturally in its permitted in-stredients. gredients

The only point at issue was whether under a special process in the refining of cotton-seed oil, one of the chief ingredients of oleomargarine, artificial coloring was used. The amount of the Government's claims is reported to have been \$1,-200,000, but Secretary Mac Vaegh is quoted as stating that there never was a \$1,000,000 in the Bureau's mind in these cases.

-Nine of the bills affecting the New York Stock Exchange were favorably reported to the Assembly at Albany on Thursday. In the Senate five of the bills were reported favora bly on the same day. While a favorable report on the bill providing for the incorporation of the Stock Exchange was made to the Assembly, the Senate committee declined to sub-mit a similar report to the Senate on that piece of legislation. The nine bills presented to the Assembly are those which provide for the organization and regulation of exchange corporations through incorporation; prohibit the Stock Exchange from preventing its members doing business with members of the Consolidated Exchange; require brokers to deliver to customers memoranda containing data of stocks bought or sold; make it a felony to publish fictitious transactions in securities; prohibit brokers from trading against customers' orders; penalize brokers for doing business after insolvency; make it a felony to publish false statements regarding the securities or condition of a financial corporation; make it a felony to manipulate the price of securities, and the antibucket shop bill. The bills reported to the Senate are the anti-bucket shop bill and those which make it a felony to manipulate the price of stock; for brokers to transact business after insolvency, to report fictitious transactions in securities and to publish false statements regarding the securities or financial condition of a corporation. The Assembly Codes Committee announced on the 13th inst. that it would hold for further consideration the amendment relative to call-loan rates. Objections to this bill and some of the others are voiced in a memorandum prepared by John G. Milburn and Walter F. Taylor, counsel for the Exchange, and made public on Thursday. With regard to the measure limiting the rates on call loans, the memorandum says:

The effect of the proposed Act, in times of stringency, would be to give to London, Paris and other great money markets a great advantage over New York in the competition for money. In times of stringency the con-ditions which bring about a higher rate of interest would be aggravated, because there would be less money to loan. The money lent at the rate of interest fixed by law in times of crises would be lent to selected and favored borrowers. Those compelied to have money could obtain it only by sacri-ficing their securities, and the sacrifice of securities would in turn intensify the prevailing conditions.

As to the bill which would nullify the rule of the Stock Exchange which prohibits its members from acting for members of the Consolidated Exchange, the memorandum sets out that:

The Stock Exchange and the Consolidated Exchange are rival markets. Members of the Consolidated Exchange by carrying accounts with Stock Exchange houses were enabled to use the facilities of the Exchange to sup-plement the facilities afforded by their own Exchange. By this means they were enabled to hold customers who otherwise would have carried their full business to Stock Exchange houses. This rule of the Exchange was intended to prevent the use of its facilities by the members of a rival organization for the purpose of building up their business at the expense of the business of the members of the Exchange.

-The bill introduced at Albany last month under which it was proposed to increase the tax on transfers of stock from 2 cents to 4 cents on each \$100 of face value has been allowed to die in committee. The decision to abandon action on the measure was announced by Gov. Sulzer on Monday, who, in referring to the antagonism it had aroused, admitted that much of the opposition was well founded, and added that "the bill goes too far in placing too great a burden of taxation on a single industry." The bill was prepared at the instance of the Governor in accordance, with a recommendation made to him by his Committee of Inquiry. A hearing on it was to have been had on the 12th inst. before the Senate and Assembly Committees on Taxation and Retrenchment, but with Gov. Sulzer's announcement of Monday the hearing was not held. Senator Stilwell, who introduced the Senate bill at the request of the Governor, criticised the procedure of the latter in effecting the withdrawal of the bill without first conferring with members of the Legislature in whose hands the bill rested. While the Senator stated that he was personally opposed to the proposed legislation, he declared that if the Governor "can withdraw one bill he can withdraw all." He added: "We must take a stand and let it be known that we will not permit the Governor or any other officer of the State to withdraw a bill that has been introduced in this Legislature." It was announced this week that a bill designed to repeal the stock transfer tax law has been introduced at Albany by Assemblyman Marx Eisner, who contends that the action of Gov. Sulzer in withdrawing the bill which would have doubled the tax is tantamount to an admission that the principle of the stock transfer tax is erroneous. The following is the Governor's statement regarding the abandonment of the bill:

"After carefully considering the proposed legislation to double the tax upon the purchase and sale of scentrities, I have concluded to withdraw the bill from further consideration and let it die in the legislative committees. No hearing on the bill will, therefore, be necessary, and I say this now so as not to put anyone to the inconvenience of coming to Albany. "This bill was prepared by the Committee of Inquiry in order to increase means to meet the increasing and necessary amenged the State Govern-

revenue to meet the increasing and nece sary expenses of the State Govern

ment, and was duly introduced in the Legislature on the recommendation

ment, and was duly introduced in the Legislature on the recommendation of the Committee. We need more revenue, but we will get it without menacing any business. "It has aroused considerable opposition from sagacious business people throughout the State, and I think much of this opposition is well founded, and that the bill goes too far in placing too great a burden of taxation on a single industry. After consultation with the Committee we have concluded that its enactment may do more harm than good, and we prefer not to risk any injury to the legitimate business of our State or divert its business to other States. "It is my purpose as Governor to do all in my power to promote the com-

any injury to the legitimate business of our State or divert its business to other States. "It is my purpose as Governor to do all in my power to promote the com-mercial supremacy of New York, and so excessive a step as doubling any tax may have a tendency to work injury to trade and commerce and defeat the very object desired. It is thought a hardship when real estate tax is increased a few mills. In view of this, many citizens believe the doubling of the transfer tax is unjust and discriminatory, and that a law should ultimately be enacted for a graduated transfer tax on the intrinsic value of the security and not on its face value. "Another thing: I do not want the opposition to this transfer tax bill to jeopardize the enactment of the legislation to regulate stock exchanges. The latter legislation is the more important from a State and national standpoint, and now that the transfer tax bill is out of the way, I trust and sale of securities will aid me in the enactment of the bills to regulate trade and commerce on stock exchanges. The withdrawal of the transfer

trade and commerce on stock exchanges. The withdrawal of the transfer tax hill shows that I want to be fair and just."

The need for the enactment of amendments to the New York State Banking Law affecting savings banks will be one of the important discussions in the report to be made to the Legislature this month by Superintendent George C. Van Tuyl Jr. of the State Banking Department. Anannouncement issued this week relative to the forthcoming report says:

With this report the Superintendent of Banks calls attention to an unfor-tunate situation prevailing in connection with savings banks. Competition in these institutions has attained such proportions that they have almost out-grown the ideas of their originators, that savings banks should be institu-tions of a philanthropic or beneficient character. Advertising campaigns among institutions have created conditions which have brought certain of these institutions to a position where they have been obliged to pay excessive dividends or lose so many deposits that they would be compelled to dispose of their holdings of long-term bonds and mortgages. Savings banks officers sometimes forget that they are officials of beneficent institutions, and so-licit deposits and cater to a class of accounts that do not rightfully belong in savings banks, but should go to interest-paying institutions. A savings bank is not a depositary for capitalists or for persons who are well qualified by training and experience to invest their own money, and yet on the books of almost every savings bank are found the names of persons who do not rightfully belong in the class of savings bank depositors. They enter this field for the purpose of evading taxation, of avoiding the risk of loss upon their investments, or of temporarily availing themselves of the advantages of the savings banks during periods when interest rates are low and prices of securities high, thus throwing an additional burden upon institutions which, at such times, are already overburdened. With this report the Superintendent of Banks calls attention to an unfor-

The Superintendent also states that from the semi-annual reports to the savings banks to the Superintendent of Banks, showing their condition on Jan. 1 1913, it appears that the aggregate resources were \$1,861,783,753, which is the high-est total ever reached in the history of these institutions. These figures indicate an increase in resources for the year of \$80,921,463. The total amount deposited during the year was \$435,015,119 and the aggregate of withdrawals was \$423,275,649. Both these figures show a material gain over 1911, but the greater proportionate increase was in the withdrawals. The preliminary announcement of the Superintendent also says:

the Superintendent also says: The effect of changes in the prices of bonds on the market value surplus of savings banks is shown by the fact that while, during the first six months of 1912, there was an increase in the percentage of surplus to aggregate de-posits from 7.11% on Jan. 1 1912 to 7.22% on July 1 1912, with the decline in the market value of bonds which occurred in the last six months of the year, there was a decrease in the market value surplus which more than wiped on the earlier gains, so that for the entire twelve months the ratio of surplus to aggregate deposits is appreciably lower. The figures show a percentage of surplus for the entire State on Jan. 1 1913 of 7.08%. In view of the de-preciation since the first of the year, and the natural tendency to overvalue bonds not frequently quoted, it may well be questioned whether, on an im-partial valuation of their bonds, the savings banks would have at the date of this report a market value surplus of 7% on deposits. The figures show that for the entire start evalue surplus of 37.037,520, the gain in deposits for the last six months of 1912 there was a decrease in the aggregate of \$70.337,520, the gain in deposits for the last six months of 1912 being \$28,888,978. It is further stated that, "in connection with the bill pend-

It is further stated that, "in connection with the bill pending in the Legislature, and urged by the Superintendent of Banks, to require the creation of reserve funds for savings banks, the attention of the Legislature has been called to the existing lack of any provision in the banking law of the State requiring the maintenance of any reserve to protect savings bank depositors against loss." As to the effect the proposed law would have on the interest rates paid to depositors, we quote the following:

positors, we quote the following: A careful application of the provisions of the pending bill carrying out the recommendations of the Superintendent of Banks, according to the re-ports of savings banks as of Jan. 1 1913, indicates that 34 banks which were paying 4% per annum to their depositors prior to that date could con-tinue to do so if the bill recommended by Superintendent Van Tuyl to re-quirs the creation of reserve funds for savings banks should become a law. Forty-one banks paying $3\frac{1}{2}$ % could continue at that rate. Nine banks which pay 3%, $3\frac{1}{2}\%$ and 4%, according to the size of the account, could continue to do so. One bank which now pays 3% would not be affected. Thirty banks which have been paying 4% to their depositors would have to lower that rate to $3\frac{1}{2}\%$ per annum. There are 140 savings banks in the State at this writing.. No savings bank would be compelled to reduce its

dividend to depositors below the rate of 314% per annum prior to Nov. 1 1916, or within five years of its organization.

A protest against the bill providing for the creation of a reserve fund by savings banks, and two other bills pending in the New York Legislature affecting these institutions, has been drawn up and signed by fourteen of the less prominent savings banks operating in the boroughs of Manhattan, Brooklyn and the Bronx. The two other measures at which the protest is aimed are those which would permit the consolidation of savings banks and the bill which would enable savings banks under certain conditions to operate branches. The protest, which has been forwarded to the Assemblymen of the State, says:

of the State, says: Primarily, these bills will not effect the result claimed by their advocates. The interests favoring these bills attack the savings bank system under the color of necessity of greater surplus, which necessity we do not combat; but the result of their proposed remedy means a monopoly for themselves and the crushing of their competitors. It is manifest that, in place of building up surplus and making the depositors' money more secure, this bill. No. 366, will have the reverse effect, as it will cause a number of the savings banks to reduce to 3% dividends, thereby bringing about heavy withdrawals, especially if other banks and trust companies are paying a higher interest volume, thereby making lower a possible falling market, with the conse-quence that the surplus will be greatly reduced. A provision that post-pones the operation of the bill to a future date does not alter the principle. We are opposed to any changes in the present law governing savings banks which favor the large and wealthy banks and makes it impossible for the smaller and younger savings banks, although perfectly solvent, to continue to do business. Assembly bill No. 365, fnown as the merger bill, is unnecessary, as the benefit of merger has already been used under the present law and the other provisions of the bill are of use only in connection with the bills Nos. 366 and 364 to carry out the concentration, absorption and monopoly of the smaller savings banks by the large and wealthy group. The banks signing the petition are the American Savings

The banks signing the petition are the American Savings Bank, the Commonwealth Savings Bank, the Broadway Savings Institution, the Irving Savings Bank, the Maiden Lane Savings Bank, the North River Savings Bank of Manhattan; the Bronx Savings Bank and the North Side Savings Bank of the Bronx; the Bay Ridge Savings Bank, the Germania Savings Bank, the Hamburg Savings Bank, the Home Savings Bank, the Prudential Savings Bank of Brooklyn, and the Home Savings Bank of White Plains.

The right of a safe-deposit company to allow, without the knowledge of the State Comptroller, free access to its sufe-deposit boxes by one of the survivors in a case where two persons had jointly rented a box, is upheld in a verdict rendered by a jury on the 7th inst. at the direction of Justice Brady of the Supreme Court of New York. The action was decided in favor of the Mercantile Safe Deposit Co., which had been sued by Attorney-General Jackson because it had permitted Charles W. Osborne, one of the executors of the will of the late Russell Sage, to have access to the hox rented by the company jointly to Messrs. Osborne and Sage. It was claimed that the company in not preventing the opening of the box after the death of Mr. Sage had violated a provision of the inheritance tax law, which denies access to a deposit box of a decedent except in the presence of a representative of the State Comptroller. Justice Brady concurred in the contention of the company's attorney that the law was meant to apply only to property received on storage by safe-deposit companies and not to safes or vaults rented to customers and of which the latter retain the keys or combination. He accordingly ordered a verdict in favor of the company.

The jury in the second trial of Clarence S. Darrow, after deliberating for thirty-eight hours, announced on the 8th inst. that they were unable to agree; eight jurors were for conviction and four were for acquittal. A request for a new trial has been granted and March 31 has been set as the date for the rehearing. The late trial had to do with an indictment which charged Darrow with having bribed Robert F. Bain, a juror in the trial of J. B. McNamara, for whom Darrow served as counsel. Another indictment, growing out of the same case, had also been returned against Darrow, this charging him with bribing George N. Lockwood, a venireman; he was acquitted of this charge last August.

-Roger W. Babson, President of the Babson Statistical Organization, addressed the American Chamber of Commerce n Paris this week on "Business Conditions throughout Europe and America." Mr. Babson is reported to have stated that American conditions are about an average when compared to conditions in other countries. Greatest prosperity-and consequently the greatest danger of trouble-he thought, to-day exists in Canada; while the greatest depression is found in Austria and parts of Russia. Although Mr. Babson believes that the entire world is entering a period of re-adjustment which will be accompanied by lower prices and decreased activity, yet the United States, with a proper banking system, should not suffer so much

as some of the European nations. Mr. Babson urged his Paris hearers to read American papers for American news and not Continental or English papers, which printed only our least important gossips and doings. "Also don't be afraid of President Wilson. He will not make or unmake conditions. The President is the effect and not the cause of affairs. When a boil breaks the worst is over. Although we may have some temporary unpleasantness during the Democratic administration, yet the ultimate result will be good. Our system will be 'cleaned out' so that the United States can then enter the greatest period of prosperity ever witnessed. The American prople are all right and when things look blackest, then is the time for you Frenchmen to wade in and buy our merchandise, securities and property" On next Wednesday Mr. Babson is to speak in Paris at the dinner of the "Societe Statistique" concerning his Composite Plot for measuring and comparing the real growth and progress of different nations. From Paris Mr. Babson goes to London in connection with his speaking dates with the London School of Economies.

The first volume to be issued by the Investment Bankers' Association of America has recently made its appearance. It has been compiled by Frederick R. Fenton, Secretary of the Association, who has brought forth a publication neat and attractive in its make-up. The book contains the proceedings of the organization meeting last August and of the first annual convention of the Association held in November. The constitution and by-laws are likewise presented, together with the lists of officers, committees and members of the Asso-ciation. As has been indicated in previous issues of the "Chronicle," its President, George B. Caldwell of Chicago, conceived and executed the plan of organization of this newly-established association, whose membership includes leading investment houses in all parts of America. It is designed primarily to improve the standard of those engaged in investment banking and for the general protection of the investing public.

The Arkansas House of Representatives is said to have defeated on Feb. 19, by a vote of 45 to 43, a bill with a bank deposit-guarantee feature.

In Iowa a bill for the State supervision of private banks is reported to have been killed in committee on Feb. 21.

-The special committee on credit information of the American Association of Public Accountants, Robert H. Montgomery, President, is sending out a letter to the bank presidents of the country to learn their views upon the question of the certification of borrowers' statements by public accountants.

With the arrival in Rome on Thursday of J. Pierpont Morgan, the cables reported him to be in satisfactory condition, with his health practically restored.

The New York Stock Exchange will be closed on Good Friday (the 21st inst.) and the following Saturday, the Governors having this week granted the petition of the members to suspend business on the two days. The New York Cotton Exchange will likewise be closed on both days, as will most of the out-of-town exchanges.

The newly created Committee on Business Conduct, provided for under the recent amendment to the constitution of the Stock Exchange, was chosen on Wednesday. It consists of Donald G. Geddes of Clark, Dodge & Co., H. G. S. Noble of DeCoppet & Doremus, E. V. D. Cox of Cox & Sharp, Charles M. Newcombe of T. Denny & Co. and Winthrop Burr of Parkinson & Burr. The duties of the committee will include the making of inquiries into cases where a member of the Exchange appears to have made improper use of his customer's securities; where there is reason to believe that a member is taking and carrying speculative accounts for customers without requiring a sufficient margin; or where there is reason to believe that any member of the Exchange is conducting his business in a reckless or unbusinesslike manner. The amendment under which the Committee is created went into effect on the 6th inst.

Along with the other changes recently adopted by the Stock Exchange, it has been decided to provide a press room for the convenience of the newspaper men. A room on the fifth floor has been set aside for the purpose and is being equipped with all the necessary paraphernalia.

William C. Lane, formerly President of the Standard Trust Co. of New York, which was recently merged with the Guaranty Trust Co. of New York, has been elected a director of the latter.

-The new statement-March 7— of the Empire Trust Co. of this city—the first to be issued since the recent merger with it of the business of the Windsor and Guardian trust companies—shows deposits of \$25,160,493 and total resources of \$28,614,265. Under its report of Dec. 31 1912, the institution had deposits of \$18,921,322 and resources of \$22,170,160.

-The order issued last June by Judge Mayer of the United States District Court discharging from bankruptey Albert O. Brown and Lewis G. Young, two of the partners of the failed firm of A. O. Brown & Co. of this eity, was affirmed on the 11th inst. by Judge Lacombe of the United States Circuit Court of Appeals. In appealing from Judge Mayer's decision, Leonard A. Hochstadter, a creditor of the firm, contended that the bankrupts had failed to keep proper books or records from which their true financial condition might be ascertained. Judge Lacombe, who upheld Judge Mayer's decision upon the recommendation of the Special Master, decided that the contentions of Mr. Hochstadter were not of sufficient importance to vacate the discharge.

-Carll H. De Silver, a member of the board of directors of the Nassau National Bank, Brooklyn, and a trustee of the South Brooklyn Savings Institution, died on the 10th inst. He was formerly engaged in the brokerage business in Manhattan, and for twenty-nine years had been a member of the New York Stoek Exchange. He retired from that body in 1900. Mr. De Silver was in his sixty-eighth year.

-The new building of the North Side Bank of Brooklyn Borough at 225 and 227 Havemeyer Street was opened for public inspection last Saturday afternoon, and on Monday of this week the institution began operations in its new quarters. With the opening of the building, the main office of the bank is changed from 33-35 Grand Street to the new premises on Havemeyer Street. At the same time the business of the Broadway Branch, at Broadway and Lorimer streets has been transferred to the Havemeyer Street offices. The institution has issued a folder giving a view of the exterior of the structure and the entrance to the safedeposit vaults. The building, two stories in height, has been erected solely to accommodate the bank; the exterior has been constructed of Indiana limestone, and two massive columns are a feature of its adornment. The bronze gates at the main entrance, made at the Tiffany studios, also claim particular attention. The interior presents an equally pleasing appearance. Paul E. Bon-ner is President of the institution; Culver Ferguson and Henry Doscher are Vice-Presidents and Henry Billman is Cashier.

-Clarence M. Lowes, Treasurer of the Dime Savings Bank of Williamsburgh, has been elected President of the Flushing National Bank of Flushing, N. Y., succeeding Archibald Nesbet. Mr. Lowe will retain his post in the Williamsburg Bank. Harry N. Renner succeeds T. P. Brokaw Jr. as Cashier of the Flushing bank.

-The business of the Pavonia Trust Co. of Jersey City (capital \$100,000) was merged with that of the Mercantile Trust Co. of the same place on Feb. 24. As a result of the merger the deposits of the last-named institution are increased to over \$2,000,000-an addition of some \$700,000 having been realized through the transfer of the Pavonia's business. The Mercantile has a capital of \$100,000 and surplus of \$67,000. The control of the institution lies in the hands of people who are directors of the Second National Bank of Hoboken. C. Henry C. Jagels, Vice-President of the latter, and President of the Weehawken Trust Co., has become President of the Mercantile Trust, succeeding John J. Treacy, who has been obliged to relinquish his duties because of his position as Judge of the Court of Errors and Appeals. Mr. Treaey, however, continues with the management as First Vice-President. Allen N. Terbell, Cashier of the Second National of Hoboken, has been made Second Vice-President of the Mercantile Trust; Joseph G. Shannon, Secretary and Treasurer of the Weehawken Trust Co., acts in a similar capacity for the Mercantile. William H. Browning Jr. is Assistant Treasurer of the Mercantile, and Michael F. Kalaher is Assistant Secretary.

-Abram L. Beavers, formerly Cashier of the First National Bank of High Bridge, N. J., pleaded guilty in the U. S. District Court at Trenton on the 3d inst. to an indictment charging the misapplication and embezzlement of the bank's funds. Beavers confessed to the defalcation on an. 23. He will be sentenced on March 17.

-Following the plan originated by it of making known in detail its resources and liabilities, the Schenectady Savings Bank of Schenectady, N. Y., submits in the Schenectady "Gazette" of Feb. 26 a comprehensive report which occupies ten pages of that issue. In the resources is submitted an itemized list of its bond holdings, together with a schedule of its real estate mortgages, while under the liabilities the balance to the credit of every individual account is listed by the number of the pass-book. This is the third statement of the sort published by the institution; the last previous one appeared in Feb. 1910. It is declared to be the most complete form of audit ever devised; the idea, as stated above, originated with the Schenectady Savings Bank, and although the bank has not copyrighted the form, those making use of it are asked to give the bank credit for the plan. The figures in the report just published are of date Jan. 1 1913. The bank was chartered in 1834. Its resources amount to \$8,500,507, and there is due depositors, on 30,988 open accounts, \$8,145,878.

-James J. Phelan, of the firm of Hornblower & Weeks, Boston, has been elected to the directorate of the Lincoln Trust Co. of Boston.

-Stephen R. Dow, head of the former brokerage firm of S. R. Dow & Co., Boston, who was indicted Oct. 25 on charges of misappropriating funds of the Algomah, Franklin and Indiana mining companies, as reported in our issue of Nov. 2, was found guilty on Feb. 26 on 24 of the 92 counts. His bail of \$25,000 was continued pending sentence and appeal to the Supreme Court. The firm of Stephen R. Dow & Co. assigned last September.

-William S. Felton & Co. of Salem have made their usual compilation of the statistics of the Salem (Mass.) banking institutions, the figures being those for Feb. 4, the date of the last return to the national and State officials. For the first ime in the banking history of the city, it is stated, the aggregate resources of the Salem banks on the date of a published statement are in excess of \$30,000,000, and for the first time also the aggregate surplus of the national banks and trust companies exceeds their total capitalization. The capital of the national banks and trust companies is \$850,-000 and the surplus and undivided profits \$850,920, a gain of \$6,547 since Nov. 26 1912, the date of the previous return. The total deposits of the national banks and trust companies are \$6,453,217 36, a loss of \$25,311 04 since Nov. 26, and of the two savings banks \$19,020,486 50, a gain of \$317,-074 16. The resources of the two co-operative banks are \$1,235,974 82, a gain of \$43,564 28. The aggregate resources of all the banking institutions of the city are \$30,-367,089 36, a gain of \$452,257 34.

-A. R. Hamilton has been elected Vice-President of the Third National Bank of Pittsburgh.

--William Montgomery, who was convicted on Oct. 26 1908 on the charge of misapplying the funds of the Allegheny National Bank of Pittsburgh, of which he was Cashier, and sentenced to fifteen years imprisonment, had his sentence commuted by President Taft on March 3. He will be freed on the 28th inst.

-Joseph P. Kennedy was elected a director of the Fidelity Trust Co. of Baltimore at a meeting of the directors on the 6th inst. Mr. Kennedy is President of the Kennedy Foundry Co. and of the Baltimore Malleable Iron & Steel Casting Co.

-Edward A. Vavrina was elected Assistant Cashier of the National City Bank of Baltimore on Feb. 19. Mr. Vavrina had recently been serving as assistant to Cashier Harry M. Mason.

-The sale by the Fidelity & Deposit Co. of Baltimore of about half its share holdings in the Fidelity Trust Co. of that eity was recently announced. The stock disposed of has been taken over by a syndicate representing the Fidelity Trust Co. and including, among others, H. Crawford Black, Gen. Van Lear Black and Col. W. Bladen Lowndes. The deposit company held about 5,200 of the 10,000 shares of the trust company (par \$100) and it is understood that the relinquished stock has been sold at between \$240 and \$250 a share. The interests which have taken over the stock are identified both as stockholders and directors with the Fi delity & Deposit Co. as well as with the trust company. The sale is understood to have occurred in part at the in stance of the State Insurance Commissioners, who, it is stated, had expressed the opinion that the Deposit Company had too much of its capital invested in a single corporation. -The Kokomo Trust Co. of Kokomo, Ind., on the 10th inst. moved into its handsome and completely equipped new building. The new structure represents an investment of \$50,000. The institution is under the management of Fred. L. Trees, President; W. E. Blacklidge, Vice-President; W. E. Sollenberger, Secretary and Treasurer; Leslie M. Springer, Cashier; Lora W. Sloan and W. F. Mitchell, Assistant Cashiers. It was organized in 1902 and has a capital of \$100,000.

-At a meeting of the directors of the Chicago Savings Bank & Trust Company on the 13th inst., Henry C. Burnett was elected Cashier and W. A. Nicol was made an additional Assistant Cashier. As Cashier Mr. Burnett succeeds Houston Jones, who resigned some months ago to enter into other business. Mr. Burnett comes to the Chicago Savings Bank & Trust Company from the National Bank of Commerce, St. Louis, with which institution he had been connected since 1897, starting as collector and gradually advancing to the positions of manager of their exchange department and Assistant Cashier, which latter office he held for the past five years. He comes from a family of bankers, his father having been Cashier of the First National Bank of Richmond, Va., for twenty-five years, and Charles R. Burnett, his brother, being First Assistant Cashier of that Bank at the present time. Mr. Nicol began his banking career in 1902 with the National Bank of North America, later going to the Continental National, and from there to the Chicago Savings Bank in 1905; he is promoted from Chief Clerk to his present position.

-The finger-print system of identification continues to have new advocates. Among the latest to use the system are the Des Moines Savings Bank of Des Moines, Iowa, and six of the banking institutions of Spokane, Wash., viz.: the Old National Bank, the Union Trust & Savings Bank, the Scandinavian-American Bank, the Exchange National Bank, the Fidelity National Bank and the Spokane & Eastern Trust Co.

-The Mechanics-American National Bank of St. Louis announces the election of James R. Leavell as an Assistant Cashier and the resignation of Assistant Cashier C. L. Boye. Mr. Leavell succeeds George M. Trumbo, deceased. He has been in the employ of the bank since its organization, and during the past few years has devoted his time to looking after the requirements of the institution's correspondents. Mr. Boye resigns to become an Assistant Cashier of the Fort Dearborn National Bank of Chicago. He takes with him the personal regard and best wishes of the officers of the St. Louis bank.

-Frederick E. Nolting, who has been prominent in banking circles in Richmond, Va., for a number of years, has entered into a co-partnership with Rutherford Fleet under the firm name of Frederick E. Nolting & Co., and will transact a general investment banking business, dealing in highgrade bonds and stocks. Mr. Nolting was formerly Vice-President of the Bank of Richmond and upon its merger with the National Bank of Virginia became a Vice-President of the First National Bank of Richmond. Mr. Fleet was formerly Treasurer of the Georgia & Florida Ry. The firm's offices are located at 903 East Main Street.

—Depositors of the defunct Commercial Bank & Trust Co. of Louisville received a dividend of 33 1-3% on Feb. 27, the payment involving a distribution of over \$200,000. Dr. Ben L. Bruner, President of the institution, which closed its doors Jan. 22, was named by Thomas J. Smith, State Bank Commissioner, as special deputy to wind up its affairs.

—Three of the officials of the Union Bank & Trust Co. of Meridian, Miss., which closed its doors in November 1912 have been indicted on a charge of receiving deposits when the institution was known to be insolvent. Those named in the indictment, it is stated, are W. H. Barnes, President; W. I. Cole, Cashier, and H.J. L. Barnes, Assistant Cashier.

-On Feb. 21 indictments embodying 35 counts were handed down by the grand jury as a result of the investigation into the suspension in July 1912 of the Citizens' Trust Co. of Augusta. The institution had succeeded to the business of the Citizens' Bank in February 1912. According to the Augusta "Chronicle," W. B. Pace, President of the trust company, has been indicted on nine counts charging violations of the State banking law; M. C. Dowling, Vice-President, has been indicted on 13 counts, 9 charging violations of the State banking law and 4 embezzlement; C. A. McFarlane, Assistant Treasurer, has been indicted on 5 counts charging violations of the banking law; S. H. Myers was indicted on 5 counts, B. Sherwood Dunn, a director, on one count, and D. H. Willard on two counts. Mr. Myers, who has been referred to as a member of the finance committee of the trust company, denies that he was ever an official of it, or a member of its directorate or finance committee, and states that he had no connection with it in any way until February 1912, when he was engaged as counsel for the institution.

-An address on "Credit" delivered at Waco on Feb. 18 by Beverly D. Harris, Vice-President of the South Texas Commercial National Bank of Houston, Tex., has been reprinted in pamphlet form. The remarks were addressed to the Fourth District Bankers' Association.

-The West Side Bank of Geo. W. Bates & Co. of Portland, Ore., was consolidated on the 4th inst. with the Lumbermen's National Bank of that city. Mr. George W. Bates has been elected a director and Vice-President of the Lumbermen's National and will be active in its management. The consolidated institution on March 4 reported deposits of \$5,577,208 and total resources of \$6,924,234. It has a capital of \$1,000,000 and surplus and undivided profits of \$115,348. G. K. Wentworth is President of the Lumbermen's National.

-In accordance with the plans to change the name of the Merchants' Bank & Trust Co. of Los Angeles to the Hellman Commercial Trust & Savings Bank, as announced in these columns Sept. 14, the interests in the institution have made application to the Superior Court for permission to adopt the proposed title. The change was approved by the directors at a recent meeting. Action toward increasing the capital of the institution from \$300,000 to \$1,000,000 was taken by the stockholders in January, and it is reported that the Hellman interests have acquired more than two-thirds of the subscribed capital. Marco H. Hellman, it is understood, is to be President of the institution, while Irving H. Hellman will be Vice-President. W. H. Holliday will be identified with the management as Chairman of the board.

-The City & District Savings Bank of Montreal was subjected to a "run" on the 4th inst., which continued for practically three days, during which time, according to the Montreal "Gazette," \$3,400,000 was withdrawn. The bank met all demands without resorting to outside assistance, and this notwithstanding the fact that other institutions stood ready to aid it. It is stated that the management is at a loss to account for the origin of the unexpected calls upon it.

TRADE AND TRAFFIC MOVEMENTS.

UNFILLED ORDERS OF STEEL CORPORATION.— The United States Steel Corporation on Monday, Feb. 10, issued its regular monthly statement showing the unfilled orders on the books of the subsidiary corporations at the close of February. From this statement it appears that the aggregate of the unfilled orders on Feb. 28 was 7,656,714 tons, 170,654 tons less than on Jan. 31. In the following we give the comparisons with previous months:

Tons.	Tons.	Tons.
Feb. 28 1913 7,656,714	Mar. 31 1912	Apr. 30 1911 3,218,704
Jan. 31 19137,827,368	Feb. 29 19125.454.200	Mar. 31 1911 3.447.301
Dec. 31 19127,932,164	Jan. 31 19125.379.721	Feb. 28 1911 3,400,543
Nov. 30 1912	Dec. 31 19115.084.761	Jan. 31 1911
Oct. 31 19127.594.381	Nov. 30 19114.141.955	Dec. 31 1910 2.674.750
		Nov. 30 1910 2.760.413
Aug. 31 1912 6,163,375	Sept. 30 19113.611.317	Oct. 31 1910 2.871.949

Dec. 31 1907 4.624.		4,696,203 Nov.	1 1901 *2,831,692
Sept. 30 1907 *6,425.		3.027.436	1 1001-12 - 210011004

* The figures prior to Dec. 31 1907 are on the old basis. Under the present method only orders received from sources outside of the company's own interests are shown. The amount as of Sept. 30 1904, shown above as 3,027,436 tons, the ormer basis, would, it is stated, be 2,434,736 tons on that noG employed.

stlouisfed ora

[From our own correspondent.]

London, Saturday, March 1 1913 The Feeling in the city has been growing more hopeful. improvement began with the statement of the Austrian Premier at the end of last week that there is every reason to hope for a favorable settlement of all the outstanding international political questions, and it has gained ground all through the present week. It has been increased, indeed, by a discussion in one of the committees of the Austrian Chamber in which there was a strong demonstration against the article in the organ of the Austro-Hungarian Foreign Office which practically contradicted the Austrian Prime Minister's statement last week. Very strong language was indulged in by the Deputies, and those who came from the manufacturing districts were most particularly earnest in their condemnation of the Press Bureau of the Foreign Office and the mischief it has done both at home and abroad. It is believed now that Austria-Hungary and Russia have come to an agreement for a partial demobilization. Russia it is understood, would have demobilized altogether, but Austria is not prepared to go so far, since she is apprehensive that the great victories of the Balkan Allies may have a

Austria is not prepared to go so far, since she is apprehensive that the great victories of the Balkan Allies may have a disturbing effect among her Slav populations. Still, it is believed that both Austria-Hungary and Russia will de-mobilize the forces facing one another on the Galacian frontier, while they will not demobilize elsewhere. In addition to this, Bulgaria and Roumania have sub-mitted their differences to the mediation of the great Powers, while it is understood that the Albanian question will be satisfactorily settled as part of the agreement between Russia and Austria-Hungary. Lastly, it is announced from Constantinople that the Turkish Government has requested the Russian Government to use its good influence with Bulgaria to bring about peace between the beligerents. A very large amount of money is still hoarded in France, Germany and Austria-Hungary. But it is hoped that once the fear of war is removed this money will come out. How very large the hoarding is will appear from an estimate re-ported to have been made to the Purusian and the German governments by the bankers who have just successfully carried through the loan operations of the two governments, namely that at the present time something between 22 and 23 millions sterling in actual cash is hoarded in Germany alone. It is believed that the hoarding in Austria-Hungary is even larger, while it is known that there is a very considerable hoarding in France likewise. In spite of the threatened strike upon the Midland railway and other signs of labor unrest, the belief is general here that trade will again become ecceedingly active the instant the danger of war is removed, and that money will become fairly easy in about a month's time or possibly somewhat earlier. At the end of March, it will be remembered, the large accumulations of revenue come to an end, and usually ease sets in early in April. But while the belief is very general that once the public is reassured regarding international politics there will be a marked improvement in E years

years. The India Council offered for tender on Wednesday 80 lacs of its bills and telegraphic transfers and the applications amounted to nearly 638 lacs at prices ranging from 1s. 3 31-32d. to 1s. 4 1-16d. per rupee. Applicants for bills at 1s. 4d. were allotted 15 per cent of the amounts applied for, while applicants for telegraphic transfers at 1s. 4 1-32d. per rupee were allotted 15 per cent and above in full. The following returns show the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last four years:

Messrs. Pixley & Abell write as follows under date of Feb. 27:

 Feb. 27:

 * GOLD.—This week's arrivals amounted to £936,000. India has taken £275,350

 and the balance goes to the Bank of England. Since our fast the Bank has received

 £549,000 In bar gold, while Argentina has taken £250,000 in sovereigns. Next week

 we expect £1,037,000 from South Africa. Arrivals—South Africa. £533,500; West

 Africa. £99,000: Brazit, £13,500; total, £936,000. Shipments—Bombay, £243,500.

 SHLVER.—A remarkable change has taken place during the past week and prices

 have failen from 28%d, for cash and 28 9-16 for forward to 27%d, and 27 12-16d.

 respectively.
 At the close of last week the market was inclined to case off on some bear selling, although some special buying was still in evidence. Since then the China exchanges have weakened further, and some heavy selling has intopped. The Bombay quotation is Rs. 71 per 100 tolahs. The Indian currency flaures are inclined to rease at one from that quarter. While speculators have shown little inclination to reduce what must amount to a substantial bear account. The immediate future is uncertain, but the reduced fixed of piece should attract buyers when the present selling has intopped. The Bombay quotation is Rs. 71 per 100 tolahs. The Indian currency flaures are under the form and the sense dolor do the form and the sense dolor do the form and the sense dolor do the set of the sense dolor do the set of the sense dolor do the do the set of the sense dolor do the set of the senses

Arrivals-New York, £315,000; Anstralia, £5,000; total, £320,000. Shipments-Port Said, £1,000; Bombay, £27,000; Colombo, £1,500; Hong Kong, £30,000 (Mex, dol.); total, £59,500.

+ Increase over last week. - Decrease from last week. *As of Sept. 9 1912.

+ Increase over last week. — Decrease from tast week. "As of sopt. 9 1912. Nots.—"Surplus" includes all undivided profils. "Reserve on deposits" includes for both trust companies and State banks, not only cash items but amounts due from reserve agents. Trust companies in New York State are required by law to keep a reserve proportionate to their deposits, the ratio varying necording to lo-cation as shown below. The percentage of reserve required is computed on the supresate of deposits, exclusive of moneys held in trust and not payable within thirty days, and also exclusive of time deposits not payable within thirty days represented by certificates, and also exclusive of deposits secured by bonds of obligations of the State or City of New York, and exclusive of an amount equal to the market value (not exceeding par) of bonds or obligations of the State or City of New York owned by the bank or held in trust for it by any public department. The State banks are likewise required to keep a reserve varying according to loc-deposits not payable within thirty days, represented by certificates (according to the amendment of 1910), and exclusive of deposits secured according to amend-ment of 1911) by bonds or obligations of the City or State of New York, and ex-clusive of an amount equal to the market value (not exceeding par) of bonds or obligations of the State or City of New York owned by the company or held in trust for it by any public department. —Trust Cot. — The State Banks—

Bankers' Gazette.

Wall Street, Friday Night, March 14 1913.

The Money Market and Financial Situation .- The foreign political and financial situation, especially the latter, has again dominated the security markets this week on both sides of the Atlantic. Foreign bankers have steadily increased their bids for our gold and \$5,050,000 has been shipped or engaged for shipment within the week. This brings the total of the current movement up to about \$40,000-000, and has resulted in raising our local rates for both call and time loans nearly up to the prevailing rates at Berlin, and therefore higher than London or Paris rates. It is possible, however, that this gold movement has practically completed its course and a return to normal conditions about to begin. There is, moreover, new evidence that the war in Eastern Europe is nearing an end and thus the chief an Dissecting Europe is nearing an end and thus the chief cause of disturbance at financial centers seems likely to be removed. The Bank of England in its statement given out on Thursday shows a percentage of reserve only fractionally above 41, which is the lowest at this date in recent years, and the Bank of France reports a falling off in its holdings of both gold and silver.

Commercial and industrial affairs in this country continue,

 or both gold and silver.

 Commercial and industrial affairs in this country continue, for the most part, in a favorable condition, a fact which is illustrated by the weekly statements of railway earnings and by reports of heavy orders for railway equipments. It is stated also that mercantile houses are in some cases handling more business this month thus far than had been expected. If American polities or national affairs under the new Administration have had any influence in Wall Street or in business circles generally the effect is not readily discernible. The open market rates for call loans at the Stock Exchange during the week on stock and bond collaterals have ranged from 2½@6%. To-day's rates on call were 4@5½%. Conumercial paper to-day quoted at 5¾@6% for 60 to 90-day endorsements and for prime 4 to 6 months' single names and 6¼@6½% and above for good single names. The Bank of England weekly statement on Thursday showed a decrease in bullion of £63,279 and the percentage of reserve to liabilities was 41.47, against 42.70 last week. The rate of discount remains unchanged at 5%, as fixed Oct. 17. The Bank of France shows a decrease of 5,044,000 frances gold and 8,478,000 france silver. NEW YORK CLEARING-HOUSE BANKS. (Net Including Trust Companies.)

Low for the week.... 3974 less 1-16 4074 less 1-32 40 5-16 less 1-32 Domestic Exchange...-Chicago, par. Boston, par. St. Louis, 15c. per \$1,000 premium bid and 20c. premium asked. San Francisco, 40c. per 1.000 premium. St. Paul, 45c. per \$1,000 premium. Montreal, 314c. premium. Minneapolis, 40c. per \$1,000 premium. Cincinnati, par.

State and Railroad Bonds.—Sales of State bonds at the Board include \$4,000 New York 4s, 1961, at 101¼, \$2,000 N. Y. Canal 4s, 1961, at 101½ and \$42,000 Virginia 6s deferred trust receipts at 54¾ to 56¾. The market for railway and industrial bonds has been less active than last week, sales have included a small number of issues, and prices have declined. To the latter statement there is no exception in a list of 25 most active issues.

Estimates. Erie conv. 4s, series B, declined 3¼ points and recovered feebly. Brooklyn Rapid Transit ref. conv. 4s lost 2¼ and a considerable list closes from 1 to 2 points lower than last week. Reading 4s and Steel 5s are without net change.

United States Bonds.—Sales of Government bonds are limited to \$12,000 4s coup. at 113¾ to 114 and \$1,000 4s reg. at 113½. For to-day's prices of all the different issues and or yearly range see third page following.

Railroad and Miscellaneous Stocks.—The stock market was decidedly weak on Monday, practically all active issues then showing a decline from last week's closing prices of from 1 to 4 points and reaching the lowest level of the year. Since Monday the market has responded to more hopeful conditions abroad and the decline mentioned has been largely recovered. To-day's market was the dullest of the week, only about 265,000 shares having 1 cen traded in. Prices declined early in the day but recovered later and net changes are renerally unimportant. Among the exceptional features of the week New Haven is conspicuous for having added 5¼ points to the decline noted last week. Canadian Pacific dropped 9½ points on urgent sales for foreign account but recovered over half the loss. Reading covered a range of over 4 points, Union Pacific nearly 5, Goodrich S and American Tobacco 7. As a result of the week's operations, of a list of 26 prominently active issues, 8 are higher and 18 are lower than last week. For daily volume of business see page 782. The following sales have occurred this week of shares not represented in our detailed list on the pages which follow: Railroad and Miscellaneous Stocks.-

Outside Market. —Movements in Tobacco and Oil shares were the features of the market for outside securities this week, trading elsewhere being small and price changes of little moment. The weakness in Oil stocks last week was continued for a time as witnessed by the break in Standard Oil of N. J. on Saturday last from 355 to 328. A reaction following, the price rose to 361 and the close to-day was at 359. United Cigar Stores com. eased off from 100 to 9713, then ran up to 10314, moving downward thereafter and rest-ing finally at 10014. British-Amer. Tobacco weakened from 2234 to 2218, advanced to 2314 and ends the week at 23. In bonds interest was directed to Western Pacific 55 and while few sales were reported, to-day's transactions showed a break of over 2 points to 8414 from last Friday's close. Bklyn. Rap. Tran. 5% notes fell off from 9614 to 9555. N. Y. City 4148 of 1960 declined from 99 to 98 7-16 and closed to-day at 9815. The 414s of 19602 sold up from 9854 to 9878 and down, finally, to 9812. There was little change in copper shares. Braden copper weakened from 9834 to 814, but recovered to 838. British Columbia Copper improved from 315 to 378 and ends the week at 334. Greene Cananea moved up from 835 to 855 and down to 8, elosing to-day at 835. Mason Valley fell from 734 to 735. Outside quotations will be found on page 782. Outside Market .- Movements in Tobacco and Oil shares

Investment and Kailroad Intelligence.

RAILROAD GROSS EARNINGS. The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary a atement to show the liscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the electric railways are brought together separately on a subsequent page.

and the second second	Latest	Gross Earr	nings.	July 1 to	Latest Date.		Latest Gross Earnings.		July 1 to Latest Date.

Net Earnings Monthly to Latest Dates.—In our "Railway Earnings" Section or Supplement, which accompanies to-day's issue of the "Chronicle," we give the January figures of earnings of all steam railroads which make it a practice to issue monthly returns or are required to do so by the Inter-State Commerce Commission. The reader is referred to that Supplement for full details regarding the January results for all the separate companies.

In the following we give all statements that have come in the present week covering a later or a different period from that to which the issue of the "Railway Earnings" Section is devoted. We also add the returns of the industrial companies received this week.

(Report for Fiscal Year ending Dec. 31 1912.)

Treasurer Wm. B. Rhett, March 11, wrote in substance: We have exchanged the \$403,000 outstanding pref. stock of the old P. Lordlard Co. for our new pref. stock on the basis fixed in the decree, so that our outstanding pref. stock is now \$11,307,600. There was deposited with the trustee in January 1912 \$100,000 for the purchase of 7% gold bonds for the sinking fund and \$31,050 have been purchased and canceled, the cost being \$99,990; the difference between par value and cost has been written off as an expense.

RESULTS FOR FISCAL YEAR ENDING DEC. 31 1912.

The American Sugar Refining Co., New York.

(Report for Fiscal Year ending Dec. 31 1912.) Sec. Joseph E. Freeman, Mar. 12 1913, wrote in subst.: Sec. Joseph E. Freeman, Mar. 12 1913, wrote in subst.: *Results*.—The financial statement shows that the leams interest and divi- deads on investments and not profits from investments were much larger deads on investments and not profits from investments were much larger deads on investments and not profits from investments were much larger deads on investments and not profits from investments were much larger deads on investments and not profits from investments were much larger deads of substantial amounts of stocks in other companies, which is now part sold substantial and the dead of the second stocks ver their books value. During last year to substantial sale of such stocks vers the close of the year, however, the company has offered for sale \$5,000,000 stock of the National Sugar Refining Co. of N. J., the proceeds of which will appear in the next amual report (V. 96, p. 362). The for Improvements.—To the sum of \$3,450,627 set aside during 1911 there was added during 1912 \$650,932 for further lamptovements and the purchase of rail estate. There still remains of these appropriations an unexpended balance of \$1,441,749. Presions.—An additional \$300,000 was appropriated for the pension fund, bringing it up to \$600,000. So far 69 pensions have been granted, with an average yearly payment of \$356 to each person. The surplus carnings for the year 1912 [\$378,030], after paying dividends were not as large [by \$795,311] as in 1911. That year was one of short crops, and the prices of raw material advanced to an abnormally high.

figure. Following this crop shortage, production was increased to such an extent that prices of raw sugar have fallen to an abnormally low figure. The difference in the earnings of the two years consists largely in the differ-ence between the profits made upon stocks of merchandise on hand. Be cause of the magnitude of our business, it is always necessary to carry a considerable supply of both raw and refined sugars, and a rise or fall in the world's prices, therefore, affects materially our earnings. The prices have now declined to a low and safe basis, and further shrinkage injvalues is not likely to occur.

d "investments" largely repre-and other supplies due and to this report have been consider-

a Includes \$3,620,140 miscellaneous securities for the 10 months (includ-ing \$1,800,500 pledged under the mtgc, securing the Corn Products Ref. Co. Ist M. 5% gold bonds) for both periods. 5 Reserves for the 10 months include \$6,830 for bod debts; \$94,200 for general. State and corporate taxes; \$50,000 for personal injuries, and \$233,017 for accounts in course of adjust-ment. c The surplus as above for the 10 months, \$7,080,505, includes \$3,055,07 proportion represented by investments in plants and stocks of merged companies; \$1,772,640 proportion represented by investments in inscellaneous securities; \$1,632,164 proportion used for payment of bond sinking fund requirements, and \$620,394 proportion reserved for working *Mote*.—The company, in addition to its own bonded debt, also guarantees

capital Note.—The company, in addition to its own bonded debt, also guarantees the principal and interest of the \$5,166,000 National Starch Co. 5% deben-ture bonds of 1930, which were issued in exchange for National Starch Co. debenture 1st M. of 1921 and National Starch Mfg. Co. 1st M. 6% bonds. —V. 96, p. 718, 205.

Liggett & Myers Tobacco Company, St. Louis, Mo. (Report for Fiscal Year ending Dec. 31 1912.)

In connection with the annual statement, covering the first completed year, President Dula says in substance:

The company commenced business on Dec. 1 1911 with an amount of cash which seemed hardly sufficient to provide for the growing business. Accordingly the payment of dividends on common stock was deferred in order that additional funds might be accumulated. In December 1912 the company paid its first quarterly dividend of 3% upon the common stock,

the directors being of opinion that the actual earnings and prospects would justify the fixing of that rate for regular dividends. Such further distri-bution as may be made will be in the form of an extra dividend payable on April 1 following each annual meeting. Pursuant to this policy, the directors have declared an extra dividend of 4% upon the common stock, payable April 1 [913 to stockholders of record on March 21 [913]. The statement herewith submitted shows that the cash balance Dec. 31 was 86 [284,107, from which it might be informed that tobacco, however, come during the early part of each year, and the securing of adequate supplies of leaf and other material for the increasing business requires a large amount of liquid working capital. The business interests of the company, therefore, are subserved by the making of a moderate extra dividend at the present time.

extra dividend at the present time.

Central Arkansas Railway & Light Corp., Hot Springs and N. Y. City.—Offering of Guar. Stock.—Bodell & Co., Providence, and associates have purchased the \$1,200,000 7% cum. pref. stock (dividends guaranteed by Federal Light & Trac. Co. by endorsement), and are offering the same at par and int. See advance statement in last week's "Chronicle." n 715

Light & Trae. Co. by endorsement), and are offering the same at par and int. See advance statement in last week's "Chroniele," p. 715. Associated in the offering are Richardson, Hill & Co., Boston: Richter Co., Hartford, H. C. Waren & Co., New Haven, Middendorf, Williams & Co., Baltimore; and Wm. E. Huiton & Co., Cincinnati. The final dircular contains a letter from Pres. Wm. L. McKee, which shows the con-selidated earnings of the constituent companies, eliminating all inter-company charges for the calendar year 1912, per certificate of certified public accountants, as follows: Gross, \$476,249 met carnings (after taxes), \$211,457; interest on first lien 5s, \$100,000; surplus of the corporation alone, applicable to this prof. stock, \$111,457; Including also the surplus earnings of the guarantor, Federal Light's Traction, the total earnings in 1912 available for dividends was \$475,975, against a charge of \$84,000 on account of this pref. stock. See also V. 90; p. 715.

Chicago & Alton RR.—Payment of Notes.—The \$2,500,-000 3-year 5% notes maturing to-day will be paid at the U.S. Mortgage & Trust Co.—V. 96, p. 651.

Chicago & North Western Ry.—Subsidiary Merged.— A deed has been filed transferring to the company the prop-erty of the Des Plaines Valley Ry., a subsidiary whose bonds have been guaranteed (V. 96, p. 200; V. 95, p. 1403).— V. 96, p. 359, 201.

Chicago Burlington & Quincy RR.—Sale of Bonds.— The company has sold \$5,000,000 of its general mortgage 4% bonds to the First National Bank of New York, thus increas-ing the amount outstanding to \$57,637,000. The proceeds will be used, with treasury funds, to retire the 5% debentures of 1883, due May 1 1913. On June 30 1912 there were outstanding \$7,182,000 of the aforesaid de-bentures, and this amount, it is stated, has now been reduced to about \$6,336,000, the company redeeming them as presented at par and int.— V, 96, p. 651, 369.

Chicago Milwaukes & St. Paul Ry.—Subscriptions.— The subscriptions to the \$13,957,400 convertible 412% bonds recently offered, including foreign subscriptions, amounted, it is announced, to 95.5% of the issue, making it necessary for the underwriters to take only the remaining 4.5%. Com-pare V. 96, p. 715, 284.

Pal nce. Surplus. \$2,450 2,836 Dies. (135%) 45.000

-V. 95, p. 480. Cleveland (Electric) Ry.-Stock Subscriptions.-Of th \$3,600,000 new stock recently offered to stockholders at par, all but about \$180,000 were subscribed for by stockholders. The later will be retained in the vesury, although applications for about \$1,000,000 more stock than they were entitled to under the terms of the subscription offer were made by various stockholders.-V. 96, p. 419, 284.

The latter will be retained in the Weasury, although applications for about \$1,000,000 more stock than they were entitled to under the terms of the subscription offer were made by various stockholders.--V. 96, p. 419, 284.
 Denver Laramie & Northwestern Ry.-Receiver's Certificates.--It was announced in Denver on March 4 that some 200 of the bondholders had refused to assent to the acceptance of the offer of Morris. Imbrie & Co. to purchase the proposed \$550,000 of receivers' certificates, and that the offer had been withdrawn. The receivers, therefore, gave notice in Judge Allen's division of the U. S. Dstrict Court that they would make application for a new issue of receivers' certificates, the amount of which, it was said, would probably be \$420,000.
 The \$550,000 issue was intended to provide for \$419,000 of pref. and secared floating debt and to extend the line from Gredey to Severance. 12 miles. Compare V. 96, p. 201.
 Foreclosure Suit, &c.-The Bankers Trust. Co. of N. Y., as mort. trustee, has brought suit in the U. S. Dis. Court at Denver to foreclose the 1st M. of 1910, under which some \$1,500,000 bonds have been issued (including about \$692,000 pledged as collateral), \$175,000 interest being in default. The plaintiff also asks the appointment of its own receiver.
 The Electric Properties Co. of N. Y. (Y. 95, p. 239) is advertising for sole at auction in Denver on March 19 the following obligations of the railway, dated March, April and May 1912. Houston & Brazos Valley Ry.—New Officer.—
S. M. Swenson of Freeport, Tex., has been elected President and Treasurer to succeed D. J. Kerr, who resigned.—V. 95, p. 1403.
Kansas City (Mo.) Ry. & Light Co.—Status.—The report some time since that Henry C. Flower and the New York Trust Co., as trustees for the \$10,200,000 first lien refunding bonds of the company, due May 15 1913, had made demand for the payment of the principal, and began foreclosure proceedings was, we are informed, erroneous, the facts being: The company, as the holder of notes of the Metropolitan Street Ry., deposited as part security under the bonds of the Kansas City company.

demanded payment of the notes and filed a bill of foreclosure of the mort-gage securing the notes. No proceedings, however, have been taken to enforce the bonds of the Kansas City Ry. & Light Co. which mature May 15. No definite information is available as to what action will then be taken. The Metropolitan Co. was placed in the hands of a receiver in June 1011, the sole reason being its inability to come to satisfactory arrange-ments with the city authorities for a new franchise so that it might be in a position to finance the improvements and actensions which the city was insisting upon. No coltations have since been entered into by the receiver in substitutions for some time pending a physical valuation of the railway proper-ties. The reports of the appraisers were filed about two weeks ago, and any et been made. It is hoped that by Any 15, when the Kansas City Co. bonds mature, arrangements will have been made with the city so that the indebteeness of the Kansas City Ry. & Light Co. may be re-financed. -V. 96, p. 653, 553. Kansas City Ry. & Light Co. may be re-financed. -V. 96, p. 203, 135. Lake Erie & Western RR. -Earnings.-

Long Island RR.—Earnings.— Calendar Operating Net (after Other Interest, Balance, Year— Revenue, Taxes), Income, Rents, &c. Deficit, 1912.......\$11.156.656 \$3,016.521 \$590.658 \$3,889.869 \$282.690 1911.......\$11.751 2.701.859 536.180 3.695.994 457.956 Jamaica Station Opened.—The new station at Jamaica was opened to passengers on Sunday last. The work in counccion with the new terminal and the elimination of rade crossings involved in the so-called "Jamaica lamovement" has been carried on for several years, and while the service will be greatly improved at once, the completion of the work is expected to further increase its effi-ciency and enable the company to proceed with the electrification of the Montank division between Jamaica and Babylon, and other improvements. Compare V. 94, p. 1116; V. 92, p. 1024. The opening of the station will necessitate a new tariff of passenger rates for suburban traffic under which there will be both reductions and increases.—V. 95, p. 1040. Louisville & Interurban Ry.—Increase of Slock.— The company, whose stock is all owned by the Lonisville Ry, has filed a certificate of increase of stock from \$3,476,000 to \$4,000,000.—V. 93, p. 408. Maine Central RR.—Payment of Notes — The \$12,000,000.

Maine Central RR. — Payment of Notes. — The \$12,000,000 one-year 4% notes due to-day will be paid at the office of J. P. Morgan & Co. Nearly all of the \$10,000,000 new stock offered to stockholders in Jan-ary last, is, it is stated, now full paid under the option to pay therefor either in full on March 1 or to make a payment of a first installment of \$50 per share. — V. 96, p. 136.

Bether in this of share 1 or to make a payment of a first installment of s50 per share. --V. 96, p. 136.
 Manhattan & Queens Traction Corporation. --Application. --The P. S. Commission will hold a hearing on March 24, on application of the company, to issue \$1,500,000 stock and \$1,500,000 1st M. 5% bonds and for the approval of a first mortgage on all its property to sceure an authorized issue of \$10,000,000 bonds.
 The MacArthur Bros. Co., who are constructing the road, are to receive \$1.450,000 of the issue, and the remainder in 3 installments as the road and car barns and repair shops are built. The application states that it is estimated that in the fourth year of operation emough will be earned to pay interest on the issue and a dividend on the stock. The company is now operating a local service over the Queensborough Bridge and for about two miles beyond on the road to Jamaica. Compare V. 96, p. 360.
 Meadville Conneaut Lake & Linesville ER. --Dividend. A dividend of 2% has been declared on the \$200,000 stock, payable April 10 to holders of record March 31.
 Milwaukee Electric Railway & Light Co.-Bonds.--A

A dividend of 2% has been declared on the \$200,000 stock, payable April 10 to holders of record March 31. Milwaukee Electric Railway & Light Co.—Bonds.—A block of \$877,000 new "general and refunding mtge." 5% gold bonds of 1911 are being offered at 96½ and int. by the same bankers that placed the original \$3,621,000 (see V. 94, p. 1787; V. 95, p. 481), there being \$4,498,000 now outstand-ing. Reserved to rotire underlying bonds, \$13,228,000. The bankers offering the bonds are Harris, Forbers & Co., N. Y. N. W. Harris, Inc. Boston: Harris Trust & Savings Bank, Chicago. Spencer Trask & Co., N. Y., and Perry, Coffin & Burr of Boston.—V. 96, p. 487. Missouri Kansas & Texas By.—Sale of Notes.—The company has sold to Speyer & Co. \$19,000,000 2-year 5% secured gold notes, dated May 1 1913, due May 1 1915, redeemable at par and int. on 30 days notice, part of a total auth, issue limited to \$25,000,000. The \$19,000,000 notes will be secured by deposit of \$24,500,000, par value, consol. mtge. 5% gold bonds due 1940, and the proceeds of the notes will be used to take up \$17,500,000 notes due or called for payment May 1 1913, and for other corporate purposes. The issue of the notes is subject to the approval of public utilities commissions.

The issue of the notes is subject to the apprendication of the utilities commissions. *Passed Over Veto.*—The Texas Legislature has passed over the Governor's veto the bill authorizing the Mo, Kan. & Tex. Ry. of Texas, to take over the following subsidiary roads under leases running for a term of *not less* than 25 years (such lease is all that is contemplated), with option to com-(such lease is all that is contemplated), with option to com-plete, extend and purchase, and to assume their bonded or other indebtedness and to give its own stock and bonds in exchange for their stock and bonds, with the approval of the Texas Railroad Commission:

be raised by sale of bonds (see above offering) and part by sale of stock. -V. 96, p. 653.
National Railways of Mexico. —Slatus—Effect of Revolu-tions.—Pres. E. N. Brown on March 13, in a long interview (see "Financial America" of March 13, said in part: The fact that our line all the way from the capital to El Paso-more than 1.200 miles—is open after more or less interruption for a year, is significant. The other main line northward from Mexico City, namely to Laredo, was to have been open after more or less interruption for a year, is significant. The other main line northward from Mexico City, namely to Laredo, was to have been open after more or less interruption for a year, is significant. The other main line northward from Mexico City, namely to Laredo, was to have been openad this afternoon. It is expected that the Eagle Pass source will be ready for operation its entire length shorty. Most of the line is ready now. South of Mexico City railcoad traffic has the fagit Pass south of the Interoceanic Ey, is already open. Our property less since Jan. I have not exceeded \$100,000. Our lesses in cernings have not been so much from the destruction of property as from the necessity of raise traditions routes in order to keep traffic moving. Our figures show only a slight increase in the receipts for the handling of Government traffic for troops, provisions, &c. The local traffic at Mexico is excellent. The closing of the northern gateways temporarily has interrupted the movement of foreign business, but that is not large th proportion to the local. Busi-ness in Mexico has by no neans stopped because of the various revolutions. In spite of all the traffic we moved during the periods of greatest troublie there is now a considerable accumulation of loaded freight cars at the orthering business, and a handsome surplus besides, even after charging gainst earnings each month what we earned the full seven monthe 'projection both of interest charges and of the first pref, dividend requirements of the reader

matured bonds outstanding of the company and its con-stituent roads. The bonds are additional to the \$6,925,000 listed on the N. Y. Stock Ex-change. Compare V. 95, p. 1208.-V. 96, p. 483, 653. Puget Sound Traction, Light & Power Co.—Favorable
 Decision.—
 The Washington State Supreme Court, sitting en banc on March 5, af The Washington State Supreme Court of King County holding void Section 20 of Article 4 of the Seattle city charter, which purports to give to the voters the right, by initiative and referendum, to grant or regulate franchises or to set them asked. The electors under this section voted in favor of an anandment of the franchise previously granted to the company, which provided that the right to build extensions should be exercised only under certain conditions named in the amendment. The company objected particularly to the provision which would permit the city to take over the property at any time at its pinsical valuation, allowing nothing for franchise value.
 The div contended that the Grandy Act of 1911, authorizing cities to brace by the faith value of formation, gives the voters all the power by the full to build be formation within the powers of cities unless expressly delegated by the state. This soveroign power, it is stated, has been granted to the particular specific provents of cities unless expressly delegated by the state. This soveroign power, it is stated, has been granted to city contends by the Legislater. Strensions into the suburbs of Seatch by the lay the Legislater. Supreme Court in form heads by the granted to regulate franchises by direct vote, and the right to pass or cancel or regulate franchises by direct vote cannot be acquired unless specific and by the City of about two years will, it is said, now be under all y given by the Legislater. Union Pacific BR.—Modifications of Plan.—Chairman Julius Kruttschnitt announced on Wednesday that the direc-tors of the company and of the Southern Pacific had agreed to modifications of the plan of separation of the two companies (V. 96, p. 420), which although not formally approved, are, it is reported, favored by Attorney-Gen-eral McReynolds, and that the same will be presented to the Federal Court at St. Louis at noon to-day for approval. The arrangement with the underwriting syndicate for the sale of the \$126,650,000 So. Pac, stock held by the U. P. expires at midnight, and it is hoped to obtain the approval of the Court and of the California Commission (the latter of which has been advised by telegraph) before that time, in order to make the same effective. The stockholders of the two com-panies received yesterday their subscription warrants for the stock.

panies received yestering the substitution of a traffic arrangement between The changes consist of the substitution of a traffic arrangement between the two companies for a trackage agreement for the use of the Benicia cut-off and other Southern Pacific lines and terminals in California Commission to the feature in the original plan of the exclusive foint use of the same by the two companies. Under such an arrangement there would be a division of rates on the basis of traffic handled, without throwing open parts of the system to other lines except as may be desired by the Southern Pacific Co. Compare V. 96, p. 654, 555.

V. 95. p. 1474.
Wabash Pittsburgh Terminal Ry.—Receiver's Certificates Plan.—Receiver Horace F. Baker has been authorized by the Court to extend, for the third time, for one year the \$433,772 receiver's certificates due March 11 (V. 92, p. 1033).—V. 96, p. 421, 362.
Daniel B. Ely & Co., New York, announce that their plan for the rorganization and consolidation of this company. the Wheeling & Lake Erre and West Side Bell is being worked out upon a somewhat different basis from that originally proposed, which has received assurances that a practical working plan that will attract the necessary new capital will meet with their hearty co-operation.
The total gross earnings of the three properties, which for the year 1904-05 were \$5,086,570, will, it is believed, for 1912-13 aggregate \$9,400,000, the earnings from the present date to July next being estimated. These earnings are exclusive of \$2,400,000 gross income from the coal axies from the present date to July next being estimated. These earnings are exclusive of \$2,400,000 gross income from the coal axies from the present date to July next being estimated. These earnings are exclusive of \$2,400,000 gross income from the coal axies from the present date to July next being estimated. These earnings are exclusive of \$2,400,000 gross income from the coal axies from the mines owned by the W. P. T. Compare V. 96, p. 44, 287, 362, 421/
Walla Walla Vallev Rv.—Bond Issue.—

V. 93. p. 168, 536; V. 94, p. 279. --V. 89, p. 349. Western Maryland Ry. — *Terminals.* — *Application*. — This company and the Western Maryland Ry. Terminal Co. have applied to the Maryland P. S. Commission for permission to the Terminal Co. to issue \$700,000 stock and for purchase of the same by the Railway Co., making a total of \$1,000,000. The stock is to be issued for the purchase of land recently secured by have secure the particular to the the same stock of the the same by the reminals of the same by the reminals of the purchase of the same by the Bailway Co., making a total of \$1,000,000. The stock is to be issued for the purchase of land recently secured by have stern Maryland for terminals at Port Covington. The Railroad Co. Is making rapid progress with its development work at Part Covingion. have ing already put in use one of the three tracks on the new open pier at that point, and officials say that the others will be ready by the opening of spring. The improvements, it is stated, will reduce the cost of handling the heavy traffic at this transfer point by nearly one-half, besides enabling the com-pany to take care of a large volume of freight in less time. Compare V. 96, 9, 421, 322.

traffic is this transfer point by nearly one-half, besides intoins the onpare V. 96, p. 421, 362. The following is pronounced substantially correct: The January report of caraings (V. 96, p. 711) indicates that the company has turned the corner of its recent difficulties. The open winter has been a creat help in the prosecution of construction work and the management believes that by the end of May practically all of the necessary improve-ments will be completed and that by June 1 all construction gauges can be taken off and everything cleaned up. Ealarged terminal facilities and new second track at points where new traffic is congested will enable the company to take advantage of the large to a competitive basis with other lines. The company is not turning any of this business away, but neither is it soliciting it. Sufficient of the com-rant New York Central officials as well, say there will be plenty of traffic when the Western Maryland is ready of the. In the meantime the company is handling about 3,200 tons of coal a day under its 20-year conitact with the Bethlehen Steel Co., which became operative July last. The minimum requirements under this contract calls

for 2,000 tons per day, and the maximum for 6,000 tons. At present the Lebigh Coke Co., which cokes this coal for the steel co., has only three batteries of ovens completed and in service. A fourth battery of 75 ovens is now under construction. These four batteries will bring the steel com-pany's daily requirements up to about 4,500 tons, or about 1,500,000 yearly, --V, 96, p. 421, 362.

Montana Power Co.—First Common Dividend.— A quarterly dividend of $1\frac{4}{5}$ of $1\frac{6}{5}$ has been declared on the \$27,134.000 common stock, payable along with the regular quarterly disbursement of $1\frac{14}{5}$ on the \$4.700.000 pref. stock, both payable April 1 to holders of record March 17.—V. 95, p. 1687.

Mountain States (Bell) Tel. & Tel. Co.—New Stock. Shareholders of record Mar. 20 are entitled to subscribe at par until 3 p. m. that day for \$2.699.400 new stock to the extent of one share of new for each 10 shares of present stock. Subscriptions must be paid in full April 15. See V. 96. p. 557.

National Steel & Wire Co.—Suil Dismissed.— Judge Ward in the U.S. District Courts in this city on March 11 dismissed the equity suit for damages brought in Jan. 1911 by Wentworth Watson and fifteen other residents of England, who, in 1904, invested in the stock of the company, against Henry E. Humington, the Knickerbocker Trust Co., as trustee for the bondholders of the National Consolidated Wire & Cable Co., and depositary under a trust agreement of the certificates of stock of the Steel & Wire Co. The Court holds that it has no jurisdletion, as the complainants have an adequate remedy at law, and that its decision cannot be altered on the ground that the causes of action will be subject to a plea of the statute of limitations.—V. 85, p. 1007.

New York Commercial Co. (Rubber.) —Committee.— A creditors' committee, consisting of Gates W. McGarrah (Chairman), Walter E. Frew, Robert M. Gallaway, James G. Cannon and Waltace B. Donham, requests deposits of notes or other evidences of debt against the N. Y. Commercial Co. and George A. Alden & Co. with either the Bankers Trust Co. of N. Y. or the Old Colony Trust Co. of Boston.

-V. 95. p. 1406. Portales [N. M.] Irrigation Co.—Default—Meeting.— The company maying defaulted on the coupons due Jan. 1 1013 on its 1st M. 6s, a meeting of the bondholders has been called for April 8 at the Grand Pacific Hotel. Chicago by the mortgane trateset, the Chicago Title & Trust Co. and Harrison E. Riley. Owns one mile from Portales. N. M., a central power station, which in April 1011 contained two 750 h. p. pro-ducer gast mogines connected to electric generators, the electrically driven pumps which were located at wells scattered over the 10,000 acres of Irri-gated land (owned by the stockholders). The project was developed in 1910 by the Western Construction Co. of Wichita, Kan. See "Engineering Record" of New York, April 29 1911. Project Coll.

Record of New York, April 29 1911.
Prairie Oil & Gas Co. — Temporary Injunction. — The Commerce Court on March 12 granted an Infunction temporarily restraining the enforcement of the order of the Inter-State Commerce Com-mission of June 13 last directing pipe line companies to file schedules of rates and comply with the provisions of the Inter-State Commerce Act (V. 94, p. 1630). The Court holds that Congress lacks the Constitutional authority to designate pipe-line companies doing private business as com-mon carriers. Judge Mack, while folining with the majority in granting the injunction, says that Congress has the power to regulate pipe-line com-panies by prohibiting them from doing an inter-State Dusiness they permit a like use to the public generally on payment of reasonable compen-sation. — V. 96, p. 494.
Ducht Schutz Congress as Marthern Illinois — Purchase

sation, --V. 96, p. 494.
Public Service Corp. of Northern Illinois. --Purchase.
--Pres. Sammel Insull on March 7 said in substance:
Witually all of the stock of the Northwestern Gas Light & Coke Co. was purchased on a basis that placed a value of \$10,000,000 on the \$5,000,000 outstanding. Against this purchase there were issued last September \$3,500,000 of 5% notes of the Northwestern, which are due in Sept. 1917 and which become a second mortgage on the gas property (Y. 95, p. 893, Substantiation in connection with the purchase is the payment of \$1,500,000 on or before Oct. 3 1913 and to provide for that our stock-holders recently authorized the issue of \$2,000,000 of common stock. How that stock is to be offered has not been decided. The \$3,500,000 one stock issue and the \$1,500,000 had been raised out of the current resources of the public Service Co. before the close of the last fiscal year. Compare V. 96, p. 64.

San Angelo (Tex.) Water, Light & Power Co.-Slatus. Consulting engineers report to A. E. Fitkin & Co., N. Y., who p laced the \$470,000 ist M. ds. that the property is in excellent physical condition. "During the year ending Feb. 1 1913," the engineers say. "there was ex-pended for additions, betterments and extensions \$22,376, against which no securities have been issued." Compare V. 94, p. 1387.

Union Natural Gas Corporation, Pittsburgh.—New Bonds and Stock.—The shareholders will vote March 20 upon a proposed new bond issue of \$6,000,000, to be secured by a mortgage upon all the company's property and also upon changing the present amount of authorized capital stock from \$9,000,000 to \$10,000,000.

Changing the present amount of authorized capital scorafrom \$9,000,000 to \$10,000,000.
 Condensed Circular Signed by V.-Pres. E. P. Whitcomb. Mar. 5 1913.
 The gross carnings for 1912 were largely in excess of former years lass shown in V. 96, p. 494]. During the past two years or so valuable properties have been acquired and developed, adding largely, in excess of the cost, to the value of the company's holdings. This, together with main lines and other construction, is the direct cause of its increased obligations. There are not, however, sufficient markets within the present system for the gas produced, although additional transportation lines have been laid from the West Virginia fields to Sugar Grove, O., and a contract has recently been entered into by which largely increased deliveries of gas at sugar Grove have been provided for.
 Your board, therefore, recommends that lines be laid and our surplus states to the indiana markets, where favorable prices can be obtained. The board estimates that for (a) the installation of the transportation lines. Compressing stations and other coupment accessary to reach the proposed new markets, (b) the payment of unsecured indebtedness, and (c) the researe of the capital stock to the extent of \$1,000,000 and an issue of \$6,000,000 bonds. The stock will be sold to the stockholders at par pro rata. Of the board, still be deposited with the traste to redeem the present bonds, and the remainder will be sold to pay for the construction of the lines, compressing stations and other companies, and to pay for the company and of its underlying companies, and to pay for the construction of the lines, compressing stations and equipment necessary to reach the Index an markets and for general corporate purposes. The plan will be fully explained at the stockholders' meeting -V. 96, p. 494.

United States Finishing Co.-Extension Asked .- The

United States Finishing Co.—Extension Asked.—The company has requested banks holding its paper for a 6 months' extension of credit. All of the New York banks have, it is stated, consented, and it is expected that the remaining banks will do likewise. A committee of three, repre-senting the creditor New York, Boston and Providence banks, will, it is said, shortly be formed to safeguard the creditors. It is said that a e-financing plan will shortly be arranged and submitted to stockholders, to permanently finance the company's needs. Preliminary figures of condition show, it is reported, current liabilities of about \$2,300,000 and current assets well in excess of \$2,500,000. An auditor's report will be completed within a few days. The main causes of the temporary embarrassment are said to be poor business and the conver-tion of liquid assets into improvements.—V. 95, p. 1205.

-Edward B. Smith & Co., 27 Pine St., this efty, and Broad and Chestnut sts., Philadelphia, have issued a booklet descriptive of the Philadelphia Equipment Securities Co., in the organization of which Drexel & Co. and Brown Bros. & Co. of Philadelphia are also interested. The equipment company has been organized to provide a medium through which the issue and sale of car trust certificates by electric railway companies may be more readily effected than at present. Although this method of financing the purchase of cars has been extensively used by steam railroads for many years, few electric railways have been able to avail them-selves of the plan. The Philadelphia Equipment Securities Co. will be in the market to buy small issues and will deposit these issues with a trustee and then sell to investors its own serial bonds. During 1912 orders were placed for about \$30,000,000 worth of electric cars, being 50% above 1911. Copies of this descriptive booklet will be mailed on request to Edward B. Smith & Co.

-Four public utility bonds which White, Weld & Co. of -Four public utility bonds which White, Weld & Co. of this city, Chicago and Boston recommend for investment are advertised to-day opposite our statement of "Clearing-House Returns." The income yield to the investor ranges from 5.35 to 6%. The bankers state that "all the properties on which these bonds are secured have been examined thor-oughly by our experts and we have satisfied ourselves that the present asset security is ample. The prospects for devel-opment are good, the present earnings are largely in excess of interest requirements and the management is in the hands of capable and experienced men." For details of these bonds see the advertisement.

—The firm of William R. Craig & Co. started business on March 1 at 25 Broad St. The firm is composed of W. R. Craig, formerly of the firm of Craig & Jenks; R. M. Stuart Wortley, who was Treasurer of the United Metals Selling Co. for five years; R. E. Bonner, member of the New York Stock Exchange, and T. P. Flaherty, member of the New York Cotton Exchange. The firm does a general banking and commission business. and commission business.

-Having sold the greater portion of \$6,500,000 Consoli-dation Coal Co. 10-year 5% convertible secured bonds, Spencer Trask & Co., William Salomon & Co. and Kissel, Kinnicutt & Co. of this city are jointly offering the remainder, subject to sale, to yield about 6%. See to-day's advertise-ment in our advertising columns and also the "General In-vestment News" department for particulars.

-Harris, Forbes & Co. of this city are advertising else-where in this issue of the "Chronicle" \$2,000,000 Montreal Tramways Co. first and refunding mortgage 5% bonds at 99 and accrued interest. The firm states that the not earn-ings are practically 25_2 times the annual bond interest charge. Complete circular upon request. See advertisement for details.

—"Moody's Manual" will be issued in two volumes this year, owing to the increased number of corporations to be covered. The first volume is now ready and includes those corporations whose reports for 1912 were available at the time of going to press. The second volume, to be issued in June, will include the corporations not appearing in the first volume.

-Wm. Morris Imbrie & Co. announce the opening of a Chicago office in the Harris Trust Bldg. Mr. John F. Trow, who has been connected with the New York office of this firm for several years, will be in charge.

Reports and Documents.

THE LAKE SHORE & MICHIGAN SOUTHERN RAILWAY COMPANY

FORTY-THIRD ANNUAL REPORT-FOR THE YEAR ENDED DECEMBER 31 1912.

To the Stockholders of The Lake Shore & Michigan Southern

Railway Company: The Board of Directors herewith submits its report for the year ended December 31 1912, with statements showing results for the year and the financial condition of the com-

pany. The mileage embraced in the operation of the road is as follows

Main line and branches Proprietary lines Leased lines Trackage rights	$\begin{array}{r} 871.00 \\ 289.32 \\ 521.90 \\ 190.08 \end{array}$	
Total road operated	1,872.30	1

An increase of 97.23 miles in road operated is due to the acquisition through lease of the Lake Erie Alliance & Wheeling RR, and to the opening for operation of 9.56 additional miles of the Cleveland Short Line Railroad extending from Marcy, Ohio, to Collinwood, Ohio. There is a reduction of .36 miles due to remeasurement and adjustment of mileage of the Lake Erie & Pittsburgh Railway. The net total in-crease in miles operated over 1911 is 96.87 miles. A state-ment showing in detail the miles of road and track operated will be found upon another page.

will be found upon another page. There was no change in capital stoek during the year, the amount authorized and outstanding December 31 1912 being \$50,000,000.

Balance to credit of profit and loss (free sur-plus) December 31 1912 \$41,187,167 89

* Deficit. z Revised for purposes of comparison.

The revenues from rail operations for the year were the largest in the history of the road, amounting to \$54,283,-616 52, an increase of \$5,922,619 39, or 12.25%, as com-pared with the previous year Freight revenue was \$36,371,244 49, an increase of \$5,-269,909 87. The revenue freight carried amounted to 41,-081,573 tons, or 6,193,876 tons more than last year. With the exception of products of animals, each group of com-modities shows a greater tonnage carried than in 1911. The notable increases are, anthracite and bituminous coal, 2,218,874 tons; ores, 916,501 tons; stone, sand and other like articles, \$90,269 tons; other castings and machinery, 296,208 tons; bar and sheet metal, 263,226 tons, and other manufactures, 490,393 tons. There was a slight decrease in the average rate per ton mile due to reduction in lake coal rates effective May 1 1912. Passenger revenue amounted to \$11,835,198,83, an in-

and the average rate per ton line due to reduction in lake coal rates effective May 1 1912. Passenger revenue amounted to \$11,835,198 83, an in-crease of \$485,103 16 over last year, attributable to addi-tional business. There was an increase in local passengers carried of 144,232, a decrease in interline passengers carried of 92,932, resulting in a net increase of 51,300 passengers. Revenue from transportation of mails was \$1,974,227 76, a decrease of \$204,405 87, being the result of a re-weighing of mails commencing September 1 1911, when the United States Post Office Department inaugurated the transporta-tion of magazines and periodicals by freight service at freight tariff rates, since which time the carnings from that class of matter have accrued to freight revenue. Revenue from express traffic was \$1,985,690 32, an in-crease of \$239,754 48, attributable to the additional business handled during the year.

crease of \$239,754 48, attributable to the additional business handled during the year. Other transportation revenues amounted to \$1,626,784, an increase of \$143,197 60, principally due to larger revenue derived from switching service. Revenues other than from transportation were \$490,-471 12, a decrease of \$10,939 85. The principal decrease is in rents of buildings and other properties, due to cancella-tion of leases of the company's coal and ore-unloading ma-chinery at Ashtabula Harbor, which have been taken over for direct operation by the company. Operating expenses for the year, by groups, were:

Maintenance of way and structures. Maintenance of equipment. Traffic expenses. Transportation expenses. General expenses.	$\substack{ \substack{ \$6,516,211 \\ 90} \\ 9283,832 \\ 961,761 \\ 66 \\ 17,797,334 \\ 45 \\ 975,503 \\ 52 \\ } }$	1,214,439 89 *64,555 63 1,552,282 23 51,014 19	15.05 6.29 9.55

2.551.839 52

pairs than in the previous year and 85,615 more freight cars were repaired than in 1911. Additional charges to renewal of equipment were occasioned by a larger number of old and obsolete locomotives and freight cars having been disposed of and dismantled during the year. Traffic expenses indicate a decrease as compared with the previous year. Participation of the company in the expenses of fast freight lines was considerably diminished, owing to some withdrawals and reductions in assessments.

previous year. Participation of the company in the expenses of fast freight lines was considerably diminished, owing to some withdrawals and reductions in assessments. In transportation expenses practically all items affected by the volume of traffic handled show increases. This is clearly attributable to the fact that the company transported 6,193,876 more tons of freight than in 1911. Although increased expenses are shown, there was a considerable sav-ing in the cost of road service, particularly in the consump-tion of fuel. Tonnage moved during the year increased 17.75 per cent over the previous year, while freight train miles increased only 7.81 per cent and freight locomotive miles 6.7 per cent. Demand made upon the company by enginemen for increased scale of wages was submitted to arbitration, resulting in an award granted to this elass of labor, which added to the cost of transportation expenses subsequent to May 1 1912. Expenses growing out of per-sonal injury claims were large, there having been serious crossing accidents at 105th Street, Cleveland, and Ashta-bula, Ohio. Furthermore, the personal injury compensation laws passed in various States through which the company operates has materially affected this item of expense. General expenses show an increase of \$51,014 19. Of this increase \$15,408 88 represents additional disbursements to retired employees for pensions. Net revenue from auxiliary operations for the year in-creased \$146,481 62, through the taking over for direct

General expenses show an increase of Sol.01445. Of this increase \$15,408 88 represents additional disbursements to retired employees for pensions. Net revenue from auxiliary operations for the year in-creased \$146,481 62, through the taking over for direct operation by the company of the unloading machinery on its doeks at Ashtabula Harbor, Ohio. Railway tax accruals amounted to \$1,771,097 88, an in-ercase of \$97,158 34 over the previous year, and is attribu-table to higher valuations placed upon the company's prop-erty by various State Tax Commissions. Other income for the year amounted to \$10,348,776 68, an increase of \$64,188 40 as compared with the previous year. Additional income was derived from hire of equip-ment and separately operated properties due to a greater excess of the company's equipment having been in use on foreign hines and to the larger surplus for the year of the Pittsburgh McKeesport & Youghiogheny Railroad, in which the company has a one-half interest. The increase shown in income from funded securities is accounted for by the full year's interest received on bonds of the Cleveland Short Line Railway Company and the Lake Erie & Pitts-burgh Railway Company, acquired by the Lake Shore & Michigan Southern Railway Company last year in reim-bursement of notes of those companies. The retirement of the notes 'mentioned caused a decrease in the unfunded securitles which practically offset the increase in income from funded securities. Income from dividends on stocks owned by the eompany decreased \$974,499 11, due to re-duction of extra dividends by the Pittsburgh & Lake Erie Railroad and the Mahoning Coal Railroad Companies. Deductions from gross income for the year were \$10,857,-671 42, an increase of \$630,343 06, due to following causes. (1) Deductions for lease of other roads increased \$132,-157 69, due to a full year's rental paid to the Cleveland Short Line Railway Co., as compared with nine months last year, and to rental paid through lease of other Lake Erie Alliance & the priva

157 69, due to a full year's rental paid to the Cleveland Short Line Railway Co., as compared with nine months last year, and to rental paid through lease of the Lake Erie Alliance & Wheeling Railroad, effective July 1 1912. (2) Joint facility rents increased \$324,464 86, principally due to payments covering the entire year for trackage rights acquired over the Pennsylvania and Baltimore & Ohio Railroads in connection with operation of the Lake Erie & Pittsburgh Railway. Pittsburgh Railway.

(3) Separately operated properties—loss increased \$69,-068 70, owing to participation by the company in the guar-anty in connection with the Merchants' Despatch Transporta-tion Company.

anty in connection with the Merchants' Despatch Transporta-tion Company. (4) Interest for funded debt increased \$110,634 26, due to a full year's interest having been accrued on \$5,720,000 of gold bonds of 1906 issued in 1911, as against a partial year's accrual for that year, and also to interest accrued on the company's pro-rata of equipment trust certificates of 1912, there being no corresponding charge in 1911 The being no corresponding charge in 1911 The being no corresponding charge in 1911 The of 16,584,384 06 there were paid three dividends on both the guaranteed and common capital stock, aggregating 18 per cent, or \$9,000,000, leaving a ba'ance of \$7,584,384 06, which was transferred to the credit of profit and loss. There was expended during the year for additions and im-provements to the property \$3,238,615 21, all of which was charged direct to capital account. For the increased train movement on the Sandusky Division, additional main tracks have been provided. To facilitate the movement of traffic and to meet municipal requirements, it has been necessary and desirable to extend the work of grade separa-tion, upon which substantial progress has been made during the year, particularly in the Chicago territory and in con-mention with the change of line at Port Clinton. The com-pany has also provided additional yard, station, engine-house and shop facilities to meet the requirements of the in-provation a following page.

The company, as owner of the entire outstanding capital stock of the Lake Erie Alliance & Wheeling Railroad Com-pany, entered into an agreement and lease effective July 1 1912, whereby it acquired the right to use for the term of its corporate existence the railroad and properties of the Lake Erie Alliance & Wheeling Railroad Company, extending from Phalanx, Ohio, to Dillonvale, Ohio, a distance of 87.67 miles. The Lake Shore & Michigan Southern Railway Com-pany will keep and maintain at its own expense the railroad and properties leased, and is to receive all revenues derived from the operation thereof. As rental it agrees to pay an amount equivalent to four per cent per annum on the out-standing capital stock, interest on the outstanding obliga-tions and all taxes and assessments of that company. The opening for operation on July 1 1912 of that part of the Cleveland Short Line Railway between Marcy, Ohio, and Collinwood, Ohio, a distance of 9.56 miles, has placed in operation the entire belt line around the city of Cleveland, Ohio, extending from Rockport on the west, to Collinwood on the east, a distance of 19.64 miles. The company issued on March 2 1912 notes payable February 24 1913, for 25,000,000 francs, equivalent to \$4,827,898 55, and sterling notes payable March 2 1913, for £1,400,000, or \$6,819,859 50, making a total of \$11,647,-788 05, from the proceeds of which the company retired its one-year franc notes that matured March 4 1912, amounting to 60,000,000 francs. The comp ny purchased from the Michigan Central Rail-

788 05, from the proceeds of which the company total of one-year frane notes that matured March 4 1912, amounting to 60,000,000 francs. The comp ny purchased from the Michigan Central Rail-road Company 30,000 shares of the common stock, par value \$3,000,000, of the Chicago Indiana & Southern Railroad Company, and also demand promissory notes issued by the latter company, amounting to \$495,000. Through the ac-quisition of this stock the company became possessed of all of the outstanding capital stock of the Chicago Indiana & Southern Railroad Company. In the consummation of this transaction it was stipulated that the Michigan Central Railroad Company would be released from its obligation under a contract dated January 15 1908, by which that com-pany agreed to hold the Lake Shore & Michigan Southern Railway Company harmless from liability on its guaranty of \$3,825,000 of the fifty-year gold mortgage bonds of the Chicago Indiana & Southern Railroad Company. There were also acquired during the year, by purchase, 27,998 shares of stock, par value \$1,399,900, of the Pitts-hurgh McKeesport & Youghiogheny Railroad Company, 47,881 shares of stock, par value \$2,394,050, of the Pitts-burgh & Lake Erie Railroad Company; 25 shares of stock, par value \$2,500, of the Kanawha & Michigan Railroad Company; \$1,000,000 of the Cleveland Cincinnati Chicago & St. Louis Railway Company general mortgage four per cent bonds and \$97,000 of the Toledo & Ohio Central Rail-way Company, St. Mary's Division, first preference income bonds. The Board has authorized the cancellation of the agree-

The bonds and \$97,000 of the Toledo & Ohio Central Rail-way Company, St. Mary's Division, first preference income bonds.
The Board has authorized the cancellation of the agree-ment dated November 1 1907, between the Merchants' Despatch Transportation Company, the Lake Shore & Michigan Sonthern Railway Company, the Lake Shore & Michigan Sonthern Railway Company, the Michigan Cen-tral Railroad Company, the Cleveland Cincinnat Chicago & St. Louis Railway Company, the Pittsburgh & Lake Erie Railroad Company, the Peoria & Eastern Railway Company, Rutland Railroad Company, the Lake Erie & Western Rail-road Company and the Chicago Indiana & Southern Rail-road Company and the Chicago Indiana & Southern Rail-road Company, covering the use of the Merchants' Despatch Transportation Company refrigerator cars by those com-panies, to be effective January 1 1913, and has further authorized the purchase, in conjunction with the New York Central & Hudson River Railroad Company, at its present value, of the Merchants' Despatch Transportation Com-pany's refrigerator equipment, consisting of 5,358 owned cars and 1,000 leased cars covered by Merchants' Despatch Transportation Company Equipment Trust of 1911. Ap-portionment between the purchasers is to be on the basis of their respective stock ownership in the Merchants' Despatch Transportation Company given consent to a reduction of the equipment, the Lake Shore & Michigan Southern Railway Company will acquire 2,520 of the owned cars and an equity in 468 of the equipment trust cars. The Board has also on behalf of the company will sell, at par, 17,772 shares of its present holding in that comp ny.

way Company, the majority of whose stock is owned by this company, and the said lands are tributary to the Cleve-land Cincinnati Chicago & St. Louis Railway and the Chi-cago Indiana & Southern Railroad, which latter is sub-sidiary of this company. Contracts have been entered into by the Cleveland Cincinnati Chicago & St. Louis Rail-way Company for the purchase of these lands from this company at cost, plus 5% interest, payable July 1 1917, and it has made an initial payment of \$150,000 on account thereof. The Guaranty Trust Company of New York has acted as agent for the Lake Shore & Michigan Southern Railway Company in the making of these purchases and con-tracts.

<text><text><text><text><text><text><text>

for the purpose of establishing the New York Central Lines Equipment Trust of 1913. This agreement will provide for an issue of \$24,000,000 of equipment trust certificates, bearing interest at the rate of $4\frac{1}{2}\%$ per annum; being not to exceed 90% of the total cost of the equipment to be fur-nished under the terms of the said agreement. The certifi-cates are to be paid in fifteen annual installments, the first installment being payable January 1 1914. Out of the \$24,000,000 of certificates authorized there will be issued early in 1913 \$12,540,000. The cost of the equipment to be assigned to this company in connection with the issue of these latter certificates will be approximately \$1,006,000, and the pro rata amount of the certificates, representing not to exceed 90% of the cost, will be approximately \$\$79,-000. Full particulars as to the character of the equipment to be acquired will be set forth in the report to the stock-holders for 1913.

holders for 1913. On another page will be found details with respect to the New York Central Lines Equipment Trust of 1912, showing the locomotives and cars acquired thereunder and the certificates outstanding.

On June 19 1912 this company purchased the entire rail-road and property of the Buchanan & St. Joseph River Rail-road Company for a nominal consideration, all of the stock of the latter company being owned by The Michigan Central Railroad Company, the railroad purchased consisting of a spur line 1.77 lines in length, situated in Buchanan, Berrien County, Michigan. On November 1 1912 this company subscribed to 1,785.6 shares of the increased capital stock of the Toronto Hamilton & Buffalo Railway Company and paid for the same at par.

The Toronto Hamilton & Buffalo Railway Company also liquidated its indebtedness to this company, amounting to \$24,986 78.

798

Michaeles 1 1912 between The S24,986 78. Under an indenture dated October 1 1912 between The Michigan Central Railroad Company, The Canada Southern Railway Company and the Guaranty Trust Company of New York, this company guarantees the payment of the prin-cipal and interest of \$40,000,000 00 of Canada Southern fifty-year five per cent gold bonds, of which \$22,500,000 00 have been issued and sold, the proceeds to be used in the re-demption of \$14,000,000 00 of first mortgage bonds of The Canada Southern Railway Company maturing January 1 1913; \$6,000,000 00 of its second mortgage bonds maturing March 1 1913, and to pay for improvements to the property of The Canada Southern Railway Company made and con-templated.

of The Canada Southern Railway Company made and con-templated. On November 20 1912 the Board of Directors authorized The Michigan Central Railroad Company, together with The New York Central & Hudson River Railroad Company, The Lake Shore & Michigan Southern Railway Company, The Cleveland Cincinnati Chicago & St. Louis Railway Com-pany, The Pittsburgh & Lake Erie Railroad Company and The Toledo & Ohio Central Railway Company to enter into an equipment trust agreement, to be dated January 1 1913, for the purpose of establishing the New York Central Lines equipment trust of 1913. This agreement will provide for an issue of \$24,000,000 00 of equipment trust certificates, bearing interest at the rate of 4½% per annum, being not to exceed 90% of the total cost of the equipment to be furnished under the terms of the said agreement. The certificates are to be paid in fifteen annual installments, the first installment being payable January 1 1914. Out of the \$24,000,000 00 of certificates authorized there will be issued, early in 1913, \$12,540,000 00. The cost of the equipment to be assigned to this company in connection with the issue of these latter certificates will be approximately \$1,099,000 00, and the pro-rata amount of the certificates, representing not to exceed 90% of the cost, will be approximately \$960,000 00. Full particulars as to the character of the equipment to be acsigned 90% of the cost, will be approximately \$1,099,000 00. Full particulars as to the character of the equipment to be ac-quired will be set forth in the report to the stockholders for 1913. On another page will be found details with respect to the New York Central Lines company to the fully choice

On another page will be found details with respect to the New York Central Lines equipment trust of 1912, showing the locomotives and cars acquired thereunder and the cer-

the locomotives and cars acquired thereunder and the cer-tificates outstanding. On October 21 1912, and in accordance with agreement dated October 1 1912, supplemental to lease dated February 15 1912 establishing the New York Central Lines Equipment Trust of 1910, the Lake Shore & Michigan Southern Railway Company transferred to this company twenty-five freight locomotives, in consideration of which this company assumed the remaining indebtedness on these locomotives amounting to \$375,979 50, and made a cash payment of \$103,679 75 for the value of the Lake Shore Company's equity in the equip-ment, less depreciation while in the service of the latter_ company.

for the value of the Lake Shore Company's equity in the equip-ment, less depreciation while in the service of the latter. company. The Detroit Delray & Dearborn Railroad Company De-cember 5 1912 increased its capital stock from \$50,000 00 to \$375,000 00. The unissued portion of the original amount authorized and such amount of the additional issue as may be necessary to be issued and sold, will be used to pay for extensions and improvements to the property. On December 17 1912 this company disposed of its hold-ings of 30,000 shares of the common stock, and a promissory note amounting to \$495,000 00 of the Chicago Indiana & Southern Railroad Company for a consideration of \$1,000,-000 00. As part consideration the Lake Shore Company also released this company from its guaranty of the principal and interest of \$3,825,000 00 of fifty-year gold bonds of the Chicago Indiana & Southern Railroad Company. The sale of two of the three Detroit River ferry boats belonging to The Canada Southern Railway Company, and the one ferry boat belonging to this company to the Wabash Railroad Company for a consideration of \$200,000 00 was consummated November 15 1912, the proceeds being appor-tioned between the two companies on basis of an impartial appraisal. Under date of June 12 1912 this company authorized a

toned between the two comparies of a paper and appraisal. Under date of June 12 1912 this company authorized a contribution of \$82,000 00 to the Mackinae Transportation Company for its one-third proportion of the estimated cost of a new steel car ferry, the advances made on this account from time to time to be covered by the promissory notes of Mackinae Transportation Company.

discontinuance, to a large extent, of the low-rate excursion tasked, caused a slight increase in the average revenue per passenger per mile. The express revenue was \$1,610,393 \$2, an increase of \$13,1944 67 compared with the previous year, due to an entarged volume of busines. The revenue from the transportation of mails was \$434,-30 74, an increase of \$22,630 19, due to an under-estimate of \$16,658 00 in 1911, and additional compensation effective July 1 1911 of \$6,044 19 allowed by the United States Gov-erament, based on re-weighing of mails. The operating revenue from all other sources increased \$169,838 41 over the previous year; the principal items of \$169,838 41 over the previous year; the principal items of \$169,838 41 over the previous year; the principal items of \$169,838 41 over the previous year; the principal items of \$169,838 41 over the previous year; the principal items of \$169,838 41 over the previous year; the principal items of \$169,838 41 over the previous year; the principal items of \$169,838 41 over the previous year; the principal items of \$20,676 76, other passenger train, \$20,809 95, excess baggage, \$6,941 83, storage freight, \$6,106 01, and mik (on passenger trains) \$2,506 52, partly offset by a decrease in rents of buildings and other property, \$4,579 08. The total expenses of operation were \$23,008,755 63, an increase of \$1,663,000 78, as per detail on following pages. By groups and principal fluctuations they were as follows: The proved at higher rate of wages in maintenance of roadway, and removal of signals and buildings, offset by decreased principally by heavy repairs to locomotives. The operation of fracting and the system and the system and the system and the previse of \$18,855 93, the principally to decreased charges account of Fast Freight interases in expenditures for stationery and printing, due to tariff requirements. The and in the cost of advertising; offset by increase of \$1,263,955 38, principally due to handling increased business and to higher wages paid to station e

(5) General expenses \$589,388.32, an increase of \$25,-836.63.

There was an increase in the revenue from outside opera-tions of \$19,189 67 over the previous year, derived princi-pally from dining car service and restaurants and operation

of stock yards. The operating income was \$8,564,111 07, an increase of \$1,059,087 72.

Other income was \$1,060,663 18, a decrease

Other income was \$1,060,663 18, a decrease of \$110,-293 91 as compared with the previous year, of which \$339,-135 36 was due to a smaller return in interest on unfunded securities, caused principally by the liquidation of promissory notes of The Detroit River Tunnel Company, and also to a decrease in rentals of \$30,455 29 and in miscellaneous in-come of \$12,018 43, offset by an increase of \$271,315 17 in dividends on stocks owned. Deductions from income amounted to \$6,898,441 37, an increase of \$338,825 35. The principal fluctuations were increases of \$189,507 33 in rental of the Detroit River Tun-nel, \$446,910 08 in hire of equipment, \$76,250 89 in interest on equipment trust certificates, \$72,838 39 in operating guarantee of Merchants' Despatch Transportation Company, \$11,286 84 in miscellaneous taxes, partly offset by decreases of \$431,475 70 in interest on unfunded debt and \$26,559 20 in rentals.

The profit from operation for the year, after payment of six per cent in dividends upon the capital stock, was \$1,602,-052 88, which has been carried to the credit of profit and loss.

\$309,042 31 32,194 36

Credit balance equipment replacement fund Dec. 31 1911 Total credit balance December 31 1912..... \$341.236 67

During the year \$1,067,500 was expended for the increase and improvement of terminal facilities in and about Detroit. The tunnel under the Detroit River has been in constant use during the year, and has proved to be an unqualified success from every point of view. The work upon the extensive terminal station has pro-gressed rapidly and favorably, and unless some unforeseen obstacle prevents, it is expected that it will be completed and ready for occupancy before January 1 1914. During the year this company issued its one-year promis-sory notes due March 1 1913 for \$4,000,000 00, bearing inter-est at the rate of four per cent per annum.

est at the rate of four per cent per annum. An arrangement was made with the Lake Shore & Michigan Southern Railway Company, effective November 24 1912, for the reciprocal grant of running rights over the single track railroads of the two companies between Detroit and Toledo,

railroads of the two companies between Detroit and Toledo, whereby the two roads will be operated separately and inde-pendently as before, but with the greater safety, efficiency and convenience of double-track operation. In the operation of the Pension Department 44 employees were retired and placed upon the pension rolls. Of these retirements 30 were authorized because of the attainment of seventy years of age and 14 because of total and permanent physical disability. Twelve pensioners died during 1912 and at the close of the year 194 retired employees were carried upon the pension rolls. The average monthly pension allow-ance to these men was \$22 37 and the total amount paid in pension allowances during the year was \$50,953 53.

Grateful acknowledgment is made of the faithful, efficient performance of duty by employees in every department of the service during the year.

WILLIAM C. BROWN President.

On Nov. 20 1912 the Board of Directors authorized the Cleveland Cincinnati Chicago & St. Louis Railway Company, together with the New York Central & Hudson River Rail-road Company, the Lake Shore & Michigan Southern Rail-way Company, the Michigan Central Railroad Company and the Toledo & Ohio Central Railway Company to enter into an equipment trust agreement, to be dated Jan. 1 1913, for the purpose of establishing the New York Central Lines equip-ment trust of 1913. This agreement will provide for an issue of \$24,000,000 of equipment trust certificates, bearing in-terest at the rate of 414% per annum; being not to exceed 90% of the total cost of the equipment to be furnished under the terms of the said agreement. The certificates are to be paid in fifteen annual installments, the first installment be-ing payable Jan. 1 1914. Out of the \$24,000,000 of eertifi-cates authorized, there will be issued early in 1913 \$12,540,-000. The cost of the equipment to be assigned to this com-pany in connection with the issue of these latter certificates will be approximately \$1,253,000, and the pro rata amount of the certificates, representing not to exceed 90% of the cost, will be approximately \$1,098,000. Full particulars as to the character of the equipment to be acquired will be set forth in the report to the stockholders for 1913. SUMMARY OF FINANCIAL OPERATIONS AFFECTING INCOME.

Balance to credit of profit and loss (free surplus) Dec. 31 1912-\$1,497,939 97

The gross operating revenues for the year, \$32,714,238 27, were the largest in the history of the company, showing an increase over the preceding year of \$2,282,323 41, of which amount \$2,215,691 44 was in transportation revenue and \$66,631 97 in revenue from operations other than transporta-tion tion

tion. The freight revenue for the year was \$22,168,002 10, an increase of \$2,234,706 23, or 11.21%. There was moved an aggregate of 25,816,649 tons of revenue-producing freight, an increase of 2,477,059 tons over the previous year, of which 1,594,932 tons was in the products of mines, 181,829 in the products of forests, the remainder of the increase being dis-tributed among the other commodities. The average re-ceipts per ton per mile were 5.43 mills, as compared with 5.50 mills in the previous year, a decrease of .07 mills. The aver-age haul per ton increased 2.9 miles and the average number of tons of revenue freight per train mile increase 29 tons, while the average number of freight cars per train mile de-creased 1.7 cars. creased 1.7 cars.

Creased 1.7 cars. Passenger revenue decreased \$41,119 12, there being a decrease in inter-line business of \$44,868 34 and an increase in local business of \$3,749 22. The average amount received from each passenger increased 1.1 cents, and the average receipts per passenger mile increased from 1.825 cents to 1.902 cents, or .077 cents. There were 122,684 less passen-gers carried in 1912; the average distance decreased 1.7 miles and there was a decrease of 19,532,803 in passengers carried one mile. one mile.

Of the decrease of \$67,128 25 in mail revenue, \$32,070 11 was the result of decrease in mail compensation allowed by the Government, the balance of the decrease resulting from adjustment made in the mail revenue accounts for the pre-

adjustment made in the mail revenue accounts for the pre-vious year. The increase in express revenue, \$63,583 84, represents this company's proportion of the earnings from increased express traffic as compared with the preceding year. Revenue from milk traffic carried on passenger trains in-creased \$16,880 14 and reflects the efforts made to develop this character of traffic during the year, together with the improved facilities for handling the same afforded by the new baggage cars received during the year. Revenues from operations other than transportation in-creased \$66,631 97, of which \$34,250 94 is from car service (demurrage) and \$30,777 56 in miscellaneous revenue. The operating expenses for the year aggregate \$24,359,-744 53, an increase of \$1,674,036 72, detail of which by groups is as follows: Maintenance of way and structures—increase. \$544,944 96

Maintenance of way and structures—Increase Maintenance of equipment repairs—Increase Maintenance of equipment renewals—Increase Traffic expenses—decrease Transportation expenses—Increase. General expenses—decrease	$\substack{s544,944\ 96\\320,750\ 34\\133,026\ 85\\52,084\ 89\\739,641\ 38\\12,241\ 92}$

The increase in maintenance of equipment repairs is distributed to substantially all of the accounts, pay rolls of this department increasing \$281,252 94.

department increasing \$281,252 94. Of the increase in charges to renewals of equipment, amounting to \$133,026 85, \$30,171 05 is in passenger cars, of which there were 10 retired this year against 8 last year; \$198,546 05 in freight cars, of which there were 901 retired this year, against 642 last year, and \$18,047 04 in work equip-ment, of which there were 65 units retired in 1912 against 57 in 1911. These amounts are partially offset by a decrease of \$113,737 29 for locomotive retirements, there having been retired but 13 locomotives this year, as compared with 39 in the preceding year.

retired but 13 locomotives this year, as compared with 39 in the preceding year. The decrease in traffic expenses was \$52,084 89, the im-portant decreases being superintendence, advertising, fast freight lines and stationery and printing. Transportation expenses increased \$739,641 38, of which \$394,513 49 was in pay-rolls and is due to increased force in this department, together with increased compensation paid certain classes of labor due to changes in rates of pay. The increases extend to practically all of the accounts in this group and reflect the increases in tonnage, locomotive, car and train mileage. The principal item of decrease, \$88,-602 18, is in injuries to persons, due to abnormal payments in the preceding year. in the preceding year

General expenses decreased \$12,241 92, the principal items of decrease being law expenses, \$17,173 11; salaries and ex-penses of general officers, \$5,635 94; stationery and printing, \$4,460 05, partially offset by increase in pensions, \$10,-684 73; insurance, \$10,464 80, and salaries of clerks and at-tendants, \$5,112 51. The net deficit from auxiliary operations decreased \$17,-604 04, practically all of which is in the dining car service, from which the revenues increased \$25,514 65, while ex-penses increased but \$7,540 14. Taxes increased \$127,730 32, of which \$64,619 40 is on real estate in Ohio, \$27,565 19 on real estate in Indiana, \$31,970 13 on real estate in Illinois, the balance being fluc-tuations in taxes of other character. Operating income for the year was \$7,135,768 72, an in-

Stations in taxes of other character.
Operating income for the year was \$7,135,768 72, an increase of \$498,160 41 over the preceding year. Other income was \$756,808 50, an increase of \$49,077 24, due to increased joint-faeility and miscellaneous rent income and increased interest on deposits, partially offset by decrease of \$31,797 73 in dividends on stocks owned. Gross income was \$7,892,-577 22, an increase of \$547,237 65 over previous year.
Deductions from gross income increased interest on general mortgage bonds, \$43,152 99; on gold debenture bonds, \$105,625; interest on equipment trust certificates, 1912, \$106,726 70; increase in therest on notes, \$74,115 15; partially offset by decrease of \$43,873 77 in joint-faeility rent payable.

rent payable. The surplus for the year, after paying a dividend of \$500,-000, representing 5% on the preferred stock, was \$1,844,-351 75, an increase of \$542,736 16. There was expended during the year for additions to the property, improvements, double-tracking, equipment, &c., and charged to cost of road and equipment, the sum of \$3,048,573 13, a detailed statement of which will be found upon another page.

\$3,048,573 13, a detailed statement of which will be found upon another page. There was advanced during the year \$3,738 55 for construc-tion on the Saline Valley Railway, of which company the Cleveland Cincinnati Chicago & St. Louis Railway Company owns all the capital stock and funded debt. There was advanced during the year on account of the St. Louis Short Line division for construction and improvements \$147,424 71, which was more than offset by an adjustment of \$167,624 89 in charges to the account in prior years. This company's proportion of the deficit in operation of the Central Indiana Railway for the year amounted to \$54,245, a decrease of \$2,055, and has been charged off as a "Deduction from income."

the Central Indiana Railway for the year amounted to \$54,245, a decrease of \$2,055, and has been charged off as a "Deduction from income." The operation of the Kankakee & Seneca Railroad (for which separate accounts are maintained) shows revenues for the year \$78,206 02; operating expenses, taxes and additions and betterments, \$94,206 80; deficit, \$16,000 78. The Mt. Gilead Short Line (for which separate accounts are maintained) shows revenues for the year \$5,414 98 operating expenses and taxes, \$7,912 71; deficit, \$2,497 73, which amount, with accumulated deficits from prior years, has been charged to "Profit and Loss" in 1912. Separate reports have been issued showing the financial condition and results from operation of the Peoria & Eastern Railway and the Cincinnati Northern Railroad for the year. The sinking fund of the Cleveland Cincinnati Chicago & St. Louis Railway Company's St Louis Division first collateral trust bonds has been increased during the year by the pur-chase of 26 bonds, par value \$26,000, making a total of 616 bonds, par value \$616,000, in the hands of the Central Trust Company, trustee of this fund. The credit balance in equipment replacement fund on Dec. 31 1911 was There was added during the year 1912, represent ing the value of equipment replacement fund on Dec. 31 meter was added during the year 1912, represent ing the value of equipment replacement fund on Dec. 31 meter was added during the year 1912, represent ing the value of equipment replacement fund on Dec. 31 meter was added during the year 1912, represent ing the value of equipment replacement fund on Dec. 31 meter was added during the year 1912, represent ing the value of equipment replacement fund on Dec. 31 meter was added during the year 1912, represent ing the value of equipment replacement fund on Dec. 31 meter was added during the year 1912, represent ing the value of equipment replacement fund on Dec. 31 meter was added during the year 1912, represent ing the value of equipment replacement fund on Dec. 31 meter was a

Action was taken during the year by the stockholders and the directors of the several companies authorizing the con-veyance to this company, under the Ohio statutes, of the en-tire properties of the Cincinnati & Sprinfgield Railway Com-pany, Columbus Springfield & Cincinnati Railway Company, Harrison Branch Railroad Company and Findlay Belt Railway Company; also the conveyance to this company, under the laws of Illinois and of Indiana, of the entire prop-erties of the Cairo Vincennes & Chicago Railway Company and the Chicago Indianapolis & St. Louis Short Line Rail-way Company.

and the Chicago Indianapolis & St. Louis Short Line Kal-way Company. Upon the execution of the several deeds of conveyance so authorized, the properties of the six companies mentioned above will become a part of the property of this company as completely and effectually as if the several companies had become merged with this company, but subject, nevertheless, to the liens upon said property severally at the time of such conveyances conveyances.

to the liens upon said property severally at the time of such conveyances. At the annual meeting of the stockholders of the company, held at Cincinnati, Ohio, Oct. 30 1912, a resolution provid-ing for the guarantee by the Cleveland Cincinnati Chicago & St. Louis Railway Company of the payment of principal of five million (\$5,000,000) dollars, par value, of the fifty-year first mortgage gold bonds of the Evansville Mt. Carmel & Northern Railway Company, and interest thereon, to be issued from time to time under the mortgage executed by that company to the Guaranty Trust Company of New York, Trustee, dated Nov. 1 1910, maturing July 1 1960, and bear-ing interest at the rate of four and one-half per cent (4½%) per annum, received an affirmative vote of more than two-thirds of the entire capital stock of the company, issued and outstanding, and, having been consented to by more than a majority interest of the holders of the preferred stock, was duly adopted. During the year an agreement was entered into with the guaranty Trust Company of New York providing for the purchase by the Trust Company, for the benefit of this com-pany, of approximately 76,000 acres of coal lands in the State of Illinois, upon which advance payments of \$150,000 were made by this company, the balance of the cost to be paid

July 1 1917, at which time the deed or deeds of such lands are to be delivered by the Trust Company. Preliminary ex-penditures to the amount of \$54,243 84 have been made for

are to be delivered by the Trust Company. Preliminary expenditures to the amount of \$54,243 84 have been made for drilling, &c. On March 12 1912 this company entered into an agreement with the Eric RR. Co., whereby each company uses the main track of the other between Dayton, O., and Cold Springs, O., a distance of about 19.5 miles, thereby making a double-track arrangement which became operative Oct. 15. To enable the passenger trains of this company to reach a connection with the tracks of the Cincinnati Hamilton & Dayton Ry. Co., and to operate such trains to and from the Union Depot at Toledo, this company on April 8 1912 entered into an agreement with the Toledo & Ohio Central Ry., providing for the use by this company as a tenant of the latter company of about 3,700 feet of the main track of the Pennsylvania Company. A careful analysis of the Property Investment account of this company has resulted in several adjustments affecting the Road and Equipment, Securities and Advances accounts, to conform to the accounting requirements of the Inter-State Commerce Commission, and involving the charging off against profit and loss of the value of certain property abandoned, all of which adjustments are reflected in the balance sheet, shown elsewhere in this report. In the operation of the Pension Department, 44 employees were retired and placed upon the pension rolls. Of these retirements, 25 were authorized because of the attainment of seventy years of age and 19 because of total and permanent physical disability. Nineteen pensioners died during 1912 and at the close of the year 197 retired employees were carried upon the pension rolls. The average monthly pension allow-ance to these men was \$20 32 and the total amount paid in pension allowances during the year was \$46,617 28.

Grateful acknowledgement is made of the faithful, effi-cient performance of duty by employees in every department of the service duting the year. WILLIAM C. BROWN

President.

THE UNDERGROUND ELECTRIC RAILWAYS COMPANY OF LONDON, LIMITED

REPORT FOR THE SIX MONTHS ENDING DECEMBER 31 1912.

The Directors herewith present their report and audited balance sheet of your company at the 31st December 1912. The results of the past half-year are as follows:

REVENUE ACCOUNT.

The net revenue from investments and properties (including		8+	d.
general interest), after deducting general expenses and in- cluding balance brought forward, amounted to	278,006	16	ā
Interest charges on £1,730,000 41/2% Bonds of 1933, ab- sorbed	41,336	5	5
Leaving a surplus of Which amount will be applied as follows: In payment on 1st March 1913 of— Unterest at the rate of 6% nor annum on \$1 273 000 6%	£236,670	11	0

Interest at the rate of 6% per annum on £1,273,000 6% First Cumulative Income Debenture Stock for six months ending 31st December 1912. Interest at the rate of 6% per annum plus Income Tax on £6,136,050 6% Income Bonds of 1948 for six months ending 31st December 1912. Balance carried forward. 38.190 0 0

£236,670 11 0

^{2236,670 11 0} The income for the half-year shows an increase of £122,671 over that for the corresponding half-year of 1911, but a true comparison is not possible on account of the substantial alteration in your Company's investments. Under the terms of the respective Trust Deeds, the Audi-tors have certified that the profits of the Company are sufficient to pay, for the six months ended the 31st December 1912, the full interest at the rate of 6 per cent per annum on the 6 per cent First Cumulative Income Debenture Stock, and full interest at the rate of 6 per cent per annum plus income tax on the 6 per cent Income Bonds of 1948. Cheques in respect of the interest on the 6 per cent First Cumulative Income Debenture Stock and Coupon No. 10 off the 6 per cent Income Bonds will be payable on and after the 1st March 1913.

ASSOCIATED COMPANIES.

Metropolitan District Railway Company.

This Company continues to show a steady expansion in receipts, with a slight increase in working expenses, due largely to the increased price of coal and to increases in the wages of the staff.

London Electric Railway Company.

This Company shows an increase in earnings and also in

This Company shows an increase in earnings and also in working expenses, the latter due to higher prices of coal and increase in the wages of the staff. The construction of the Charing Cross and Paddington Extensions is progressing rapidly, and it is expected that both will be opened for traffic in the autumn. Work has also been commenced on the Queen's Park Extension, and on the installation of escalators at Oxford Circus Station.

London General Omnibus Company, Limited.

This Company has substantially increased its fleet of Motor Omnibuses, and shows a satisfactory expansion in earnings.

Associated Equipment Company, Limited.

This Company has been formed for the purpose of manu-facturing equipment and repair parts for the various under-takings allied with your Company. It owns a large factory at Walthamstow, to which extensive additions are being made.

It also owns all the Debenture Stock and Ordinary Shares of the Metropolitan Steam Omnibus Company, Limited.

London United Tramways, Limited.

The Annual Report and Statements of Account of this Company for the year 1912 are not yet published, but it is not expected that the results of the year's working will show much, if any, improvement over the previous year.

PARLIAMENTARY BILLS.

Metropolitan District Railway Comapny's Bill.-The main provisions of the Bill are:

provisions of the Bill are: Power to construct two widenings of the Company's Fulham Extension Railway between Munster Road and Eel Brook Common. Power to the Company and (or) the Metropolitan Railway Company to acquire certain sub soil and easements under the Whitechapel High Street for the enlarging and improving of the Aldrate East Station on the City Lines Railway, and power to the Company and the Metropolitan Railway Company to enter into Agreements in regard thereto. To extend the time granted to the Wim bledon & Sutton Railway Company by the Wimbledon & Sutton Railway, ad also to extend the time limited by the same Act for the compulsory purchase of lands for that Railway. Power to the District Company and the Wim-bledon & Sutton Railway, and for other purposes in connection with the undertakings of either Company.

London Electric Railway Company's Bill .- The main pro-visions of the Bill are:

Power to enable the Company to construct junction railways at or near Euston Station to connect the Company's Hampstead and Highgate Liness with the City & South London Railway, and at Hammersmith to connect the Company's Great Northern Piccadilly & Brompton Railway with the London & South Western Railway Company's Kensington & Richmond Line. Powers are also sought by the Bill to obtain running powers over th City & South London Railway.

City & South London Railway.
LONDON UNITED TRAMWAYS, LIMITED, METROPOLITAN ELECTRIC TRAMWAYS, LIMITED, AND THE TRAMWAYS (M. E. T.) OMNIBUS COMPANY, LIMITED.
In November last the Directors of the London United Tramways, Limited, the Metropolitan Electric Tramways, Limited, and the Tramways (M. E. T.) Omnibus Company, Limited, formulated a scheme for the consolidation of the interests of the shareholders of those Companies The scheme provided that the shareholders in the respective Companies could exchange their holdings for fully-paid shares in the London and Suburban Traction Company,

Limited, which was formed for the purposes of the scheme. Your Directors had no hesitation in agreeing to the scheme, and deposited the Company's holding of fully-paid shares in the London United Tramways, Limited, and will in due course receive in exchange 5 per cent Cumulative Preference and Ordinary Shares of the London and Suburban Traction Company, Limited.

802

CENTRAL LONDON RAILWAY COMPANY.

CENTRAL LONDON RAILWAY COMPANY. In December last a scheme was submitted by your Com-pany to the Central London Railway Company, which the Directors of the latter recommended to their Stockholders. This scheme, which has been accepted by the holders of a large majority of the Stocks, and has, in consequence, become binding, entitles the holders of the Central London Railway Ordinary, Preferred Ordinary and Deferred Ordin-ary Stocks to deposit their stocks with Messrs. Glyn, Mills, Currie & Company, as Trustees under a Trust Deed dated the 13th December 1912, in exchange for equal nominal amounts of guaranteed stocks constituted by that Deed. These stocks carry dividend, guaranteed by your Company, at the rate of 4 per cent per annum, and entitle the holders in certain events to participate in any excess above 4 per cent per annum of the dividend on the Central London Railway Stocks.

CITY & SOUTH LONDON RAILWAY COMPANY

OTTY & SOUTH LONDON RAILWAY COMPANY. In November last your Company submitted a scheme of exchange to the Ordinary Stockholders of the City & South London Railway Company. This scheme has been accep-ted by the holders of a large majority of the Stock, and has, in consequence, become binding. It entitled each holder of £100 of City & South London Railway Stock to exchange his holding for £40 in Preference Stock and £25 in Ordinary Shares of the London Electric Railway Company. This Company is promoting a bill in Parliament providing for the enlargement of its tunnels so that the trains of the London Electric Railway Company can be run as a through service from the Hampstead and Highgagte Lines to the City and the southern districts of London.

EDGWARE & HAMPSTEAD RAILWAY COMPANY

BUGWARS & HAMPSTEAD RAILWAY COMPANY. By the London Electric Railway Act, 1912, the authorized Edgware & Hampstead Railway Company has been amalga-mated with the London Electric Railway Company. In exchange for its holding of Edgware & Hampstead Railway shares, your Company has received £23,670 4 per cent Preference Stock of the London Electric Railway Com-pany. pany. BALANCEESHEET.

Stocks, Shares and Other Property.

This item stands in the books at £13,502,622 0s. 11d., and consists of stocks and shares in associated companies, as well as lands and buildings. Details of the stocks and shares are given in the schedule on page 10 [see pamphlet report]. The item "Calls unpaid," which formerly appeared in the Balance Sheet, has been eliminated, as all of the capital has been paid up.

has been paid up. DIRECTORS.

Most of the securities and shares of your Company are now held by British investors. In view of this fact, the American Directors have come to the conclusion that the management of the Company should in future be wholly in

the hands of the Board of Directors residing in Great Brit-ain. They have therefore resigned their seats, and Mr. W. M. Aeworth and the Right Hon. C. B. Stuart-Wortley, K.C., M.P., have been elected to the Board, and in accordance with the Articles of Association of the Company they offer themselves for re-election. In parting from their American colleagues, your Directors desire to express their high appreciation of the valuable ser-vices rendered by them to your Company in the past. The Directors retiring by rotation are Mr. Albert H. Stanley, Mr. William C. Burton, the Hon. Sydney Holland, Jonkheer Henry Teixeira de Mattos, and Mr. Henry A. Vernet, and, being eligible, they offer themselves for re-election. the hands of the Board of Directors residing in Great Brit-

AUDITORS.

The Auditors retiring are Messrs. Deloitte, Plender, Griffiths & Co., and, being eligible, they offer themselves for re-election. EDGAR SPEYER,

London, 31st January 1913.

LACKAWANNA STEEL COMPANY AND SUBSIDIARY COMPANIES

ANNUAL REPORT-FOR THE FISCAL YEAR ENDED DECEMBER 31 1912.

City of Lackawanna, Erie County, New York, March 12 1913.

New York, March 12 1913. To the Stockholders: In the report sent you under date of March 13 1912 it was stated that orders on hand had increased since January 1st of that year and the hope was expressed that, with the removal of existing political uncertainties, better prices would obtain and general business conditions be more satis-factory. The demand for your Company's products in-creased rapidly after March 13th, with a gradual increase in prices, so that operations during the second half of the

year were more satisfactory, as evidenced by the shipments of the year and by the fact that the net profit for the whole year shows nearly three per cent earned on your Company's outstanding Common Stock, although the operations of the first half of the year showed a deficit, and the average price of \$27 72 per gross ton received by your Company for its products in 1912 is only five cents per ton greater than the corresponding price for 1911. Your Company received during 1912 from mines which t owns, or is interested in, and from other sources, 1,851,562 sross tons o iron ore, and produced a total of 1,040,436

[VOL. XCVI.

Chairman.

gross tons of coke and 1,009,253 gross tons of pig iron. It also produced 502,981 gross tons of Bessemer ingots and 555,129 gross tons of Open Hearth ingots, a total of 1,058,110

THE CHRONICLE

Supervised on soft steel ingots of all kinds. Shipments of products were as follows, all in gross tons, the figures for the years 1908, 1909, 1910 and 1911 being given for comparison:

1912.	1911.	1910.	1909.	1908.

By order of the Board of Directors,

E. A. S. CLARKE, President.

CERTIFICATE OF CHARTERED ACCOUNTANTS.

To the Directors of the Lackawanna Steel Company:

We have examined the books of the Lackawanna Steel Company and its Subsidiary Companies for the year ending December 31 1912 and certify that the Balance Sheet at that date and the relative Income Account are correctly prepared

date and the relative Income Account are correctly prepared therefrom. We have satisfied ourselves that during the year only actual additions and extensions have been charged to Property Account; that full provision has been made for depreciation and extinguishment in accordance with the definite plan adopted by the Directors and approved by ourselves; and that the treatment of deferred charges is fair and reasonable. The valuations of the inventories of stocks on hand, as certified by the responsible officials, have been carefully and accurately made at cost; and full provision has been made for bad and doubtful accounts receivable and for all ascertainable liabilities.

liabilities.

We have verified the cash and securities by actual in-spection or by certificates from the depositaries, and

We certify that in our opinion the Balance Sheet is properly drawn up so as to show the true financial position of the combined Companies on December 31 1912 and that the relative Income Account is a fair and correct statement of the net earnings for the fiscal year ending at that date.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, March 14 1913. Trade continues brisk and spring trade is good. The fact that Easter comes at an earlier date than usual has a somewhat stimulating effect on business. The fact that tariff revision is near at hand affects trade in textile goods somewhat unfavorably. Crop reports from the winter-wheat belt are cheerful. Building is active. Exports of grain are large. Iron and steel continue active. Speculation is still in abeyance. The tightness of money in Europe, the sharp break in coffee, the Mexican and Balkan situations and the near approach of tariff revision are drawbacks, yet the feeling is well-nigh universal that business conditions are in the main sound

LARD has declined; prime Western \$11, refined Conti-nent \$11 40, South America \$12 05 and Brazil \$13 05. Lard futures declined for a time but of late have shown more steadiness. Packers have to all appearances given support. Higher prices for hogs have latterly been a factor, though early in the week a decline in hogs and liberal receipts at the stock yards brought about lower prices. To-day prices de-clined, partly owing to the weakness in corn and in other provisions. provisions.

firm at 5.50@5.55c. Cod steady at 42@43c. COFFEE has been dull and weak; No. 7 Rio 12½@12¼c.; mild grades quiet; fair to good Cucuta 14@14½c. Specu-lation in coffee futures has been rather more active at lower prices. The price is over 2 cents lower than a year ago. The short interest at home and abroad is believed to be large. Yet of late support has been lacking from bulls; it has only come from covering. And the continued tightness of money in Europe and the aloofness of buyers of actual coffee still militates against a permanent improvement, though some Hamburg advices assert that the worst is over. The total of Brazilian coffee in sight is 2,392,840 bags, against 2,363,-751 bags a year ago. To-day prices broke to a new low record, showing a decline of 2½ to 2¾ cents since January. Foreign markets were lower, both European and Brazilian. Closing quotations were as follows: Jan _____11.68@11.70 May ____11.48@11.49 [Sept_____11.67@11.63 March ____11.25@11.26 July ____11.55@11.54 [Oct ______11.67@11.68 April _____11.35@11.26 July _____11.55@11.54 [Oct _______11.67@11.68 April ______11.35@11.26 July ______11.55@11.54 [Oct _______11.66@11.68 April ______11.35@11.26 July ______11.55@11.54 [Oct ________11.66@11.68 April ______11.35@11.36 [aug ________11.64@11.66] [Dec ________11.66@11.68 April _______11.35@11.36 [aug ________16.67] in the previous week, 48,479 last year and 81,676 two years ago. Centrifugal, 96-degrees test, 3.5Sc.; muscovado, 89-degrees test, 3.08c.; molasses, S9-degrees test, 2.83e. Refined quiet and steady; granulated 4.30c. molasses, S9-degrees test, 2.85c. Refined quiet and steady, granulated 4.30c. P PETROLEUM.—Steady; barrels 8.50@9.50c.; bulk 4.80 @5.80c. and cases 10.80@11.80c. Naphtha firm; 73 to 76 degrees in 100-gallon drums, 25c.; drums \$8 50 extra. Gaso-line, 86 degrees, 29½c.; 74 to 76 degrees, 25¼c.; 68 to 70 degrees, 22¼c., and stove 21c. Spirits of turpentine 43c. Common to good strained rosin \$6 50. *1 TOBACCO has been quiet but generally firm. Not but but that there is a pretty good demand for binder:

1. Not but for binder:

Common to good strained rosin 30 50.
TOBACCO has been quiet but generally firm. Not but but that there is a pretty good demand for binder: Manufacturers are doing a good business and they are not believed to be any too well supplied. In old Sumatra there is little trade. The assortment is in the main not very attractive. Certainly that seems to be the opinion of the average buyer. He is waiting for samples of new Sumatra. Cuban leaf of attractive quality sells readily enough; otherwise Cuban tobacco is neglected.
COPPER has been a drawback. Yet finished products have been in good demand; Lake 14½@15½c; electrolytic 14½c. Tin lower at home and abroad, with less demand; spot here 46.40c. Lead 4.35; spelter 6.35c. Pig iron has been more active at the West, though dull at the East; No. 2_foundry East \$16.75@\$17. Easier prices have been noted jnow and then for plates and shapes, i. e. for axles, track fastenings, tie plates etc., but contract prices are firm and the Central West is buying structural material on a larger scale than at any time since last summer. Merchant bars are scarce and higher. Southern foundry iron in some cases is 25 cents lower. Basic in the Pittsburgh district sold_at \$17. sold at \$17.

COTTON.

Friday Night, March 14 1913. Friday Night, March 14 1913. THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 108,387 bales, against 110,183 bales last week and 117,320 bales the previous week, making the total receipts since Sept. 1 1912 8,424,695 bales, against 10,233,300 bales for the same period of 1911-12, showing a decrease since Sept. 1 1912 of 1,808,605 bales.

Speculation in cotton for future delivery has continued dull, and the fluctuations have likewise kept within very marrow limits. There has been at times a slight drift towards lower prices. This was attributable to some sympathy with the stock market, dulness of spot markets for a time, at any rate in most parts of the South, the ample existing stocks, decreasing spinners' takings and the widely prevalent belief that the next acreage will be very large and that, under ordinary circumstances, the next ecrop will also be of liberal size. Of late the Continent ad emand in Liverpool, which at one time was quite brisk, has fallen off. Bar silver has deelined in London about 2d. in something over a month. The tightmess of money on the Continent and the high rates in England, together with the disturbed political situation in Southeastern Europe, lave all militated against bull speculation, even if they have not been powerful enough to bring about any marterial decline in prices. Though the visible supply is much smaller than a year ago, the price, on the other hand, is nearly 2c, higher than then. There is an tide, too, that the South is holding something like 2,500,000 bales, and that unless the weather is very bad and crop preparations are much dayed, or something else occurs to give a fillip to a rather listless market, there is nothing for it but a gradual deeline to possibly a considerable lower level. That there will be a considerable increase lave a planted if the price conclusion. Some Alabama advices have indicated that if the Mississippi Delta are said to be the best are done without their influence. On the other hand, as already intimated, the price of cotton has not been depression in the stock market have not here nyich, as well as some other sections of the country, have sold to some symeation. It here you have not been without their influence. On the other hand, as already intimated, the price of cotton has not been depression in the stock market have not here ross. Lawer well aserve the near the botto Speculation in cotton for future delivery has continued dull, and the fluctuations have likewise kept within very narrow limits. There has been at times a slight drift towards lower prices. This was attributable to some sympathy with

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1 1912 are 8,986,549 bales in 1911-12 were 10,670,151 bales; in 1910-11 were 8,218,496 bales.

2.—That although the receipts at the outports the past week were 108,397 bales, the actual movement from planta-tions was 92,859 bales, the balance being taken from stocks at interior towns. Last year receipts from the plantations for the week were 148,221 bales, and for 1911 they were 29,954 bales.

WEATHER REPORTS BY TELEGRAPH.—Our tele-graphic advices from the South this evening denote that rain has been general during the week, and that in some portions of the Gulf States heavy precipitation has inter-fered materially with crop preparations. *Galveston, Tex.*—There has been rain on three days during the week, the rainfall being one inch and fourteen hundredths. The thermometer has ranged from 46 to 70, averaging 5S. *Abilene, Tex.*—We have had light rain on three days of the week, the precipitation reaching thirty-three hundredths of an inch. Minimum thermometer 42.

week, the precipitation reaching thirty-three hundredths of an inch. Minimum thermometer 42. Palestine, Tex.—We have had rain on three days during the week, the rainfall reaching eighty-eight hundredths of an inch. Minimum thermometer 42. San Antonio, Tex.—It has rained on three days of the week, the precipitation reaching ninety-eight hundredths of an inch. Lowest thermometer 42.

Taylor, Tex.—There has been rain on two days during the week, the rainfall being forty-eight hundredths of an inch. Minimum thermometer 44.

Taylor, Tez.—There has been rain on two days during the week, the rainfall being forty-eight hundredths of an inch. Minimum thermometer 44.
New Orleans, La.—We have had rain on each day of the week, the rainfall reaching four inches and sixty-eight hundredths. The thermometer has averaged 65.
Little Rock, Ark.—We have had rain on three days of the week to the extent of ninety-eight hundredths of an inch. The thermometer has averaged 55, ranging from 38 to 72.
Vicksburg, Miss.—We have had rain on six days of the week, to the extent of four inches and fifty-seven hundredths. The thermometer has averaged 56, ranging from 47 to 74.
Helena, Ark.—The river is falling, rain has fallen on two days of the week, to the extent of one inch and thirteen hundredths. Average thermometer 51.4, highest 70, lowest 35.
Memphis, Tenn.—We have had rain on two days during the week, the rainfall reaching one inch and one hundredth. The thermometer has averaged 52, ranging from 30 to 69.
Mobile, Ala.—Excessive rains greatly retard farm work. There has been rain on four days during the week, to the extent of four inches and ninety-three hundredths. The thermometer has ranged from 42 to 72, averaging 59.
Selma, Ala.—This week's rains have paralyzed farming operations. Rainfall for the week four inches and sixty-one hundredths, on four days. Average thermometer 55.5, highest 76, lowest 32.
Madison, Fla.—We have had rain on two days of the past week, the rainfall being seventeen hundredths of an inch. Average thermometer 60, highest 79, lowest 33.
Charlotte, N. C.—We have had rain on two days of the past week, the rainfall being seventeen hundredths of an inch. Average thermometer 60, highest 75, lowest 44.

According to the foregoing, Bombay appears to show an *increase* compared with last year in the week's receipts of 20,000 bales. Exports from all India ports record a loss of 39,500 bales during the week and since Sept. 1 show an *increase* of 52,200 bales.

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.—Through arrangements made with Messrs. Choremi, Benachi & Co., of Boston and Alexandria, we now receive a weekly cable of the movement of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the two previous years:

Alexandria, Egypt, March 12.	1912-13.		191	1911-12.		0-11.	
Receipts (cantars) — This week Since Sept. 1		50,000 19,523		15.000 06.555		65,000 62,976	
Exports (bales)—	This Week.	Since Sept. 1.	This Week.	Since Sept. 1.	This Week.	Since Sept. 1.	
To Liverpool To Manchester. To Continent and India. To America.	7,500	170.536 172.039 272.994 100.286	5,500	$\substack{157.528\\184.870\\263.299\\70.331}$	11,500	178,359 179,309 299,981 92,507	
Total exports	11.250	715,855	20,500	674.028	15,750	750,156	

Note .- A cantar is 99 lbs. Egyptian bales weigh about 750 lbs.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market con-tinues quiet for both yarns and shirtings. Merchants are not willing to pay present prices. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

BREADSTUFFS.

Friday Night, March 14, 1913. Flour has been quiet and latterly more or less depressed. Also the reports from the Northwest have not been very encouraging; quite the contrary. Sales at Minneapolis have been small. Bookings, as a rule, have fallen far short of the output. Shipping directions are not freely forthcoming. On the contrary there is a noticeable disposition to withhold them. Export business has been small. The output at Minneapolis, Duluth and Milwaukee last week was 373,986 bbls., against 332,736 in the previous week and 341,183 last year.

341,183 last year. Wheat has declined. The reasons are to be sought in the Government report on farm reserves, liquidation of May, favorable crop reports, large stocks at the Northwest, de-pression in prices there and general liquidation. Moreover, the world's shipments, though somewhat smaller than those of the previous week, were much larger than those for the same week of last year. They reached a total of 13,776,000 bushels, against 14,352,000 in the previous week but only 9,169,000 in the same week last year. The world's stock in Europe and afloat for Europe increased last week 4,300,000 bushels, against an increase in the same week last year of 9.169,000 in the same week last year. The world's stock in Europe and afloat for Europe increased last week 4,300,000 bushels, against an increase in the same week last year of 900,000 bushels. The world's stock is 206,983,000 bushels, against 194,615,000 a year ago and 183,615,000 two years ago. The weather of late has been very favorable in the American wheat belt. Flour has been dull. Speeulation has not been active. The depression in the stock market has at times had a more or less indirect effect on speculative sentiment. On the other hand, export trade has increased. Last Tuesday there were rumors of \$00,000 bushels sold for export. On Wednesday there was also quite a good business for foreign account reported. Towards the close of the week there was some recovery in prices on reports of political complications in Southeastern Europe. The Balkan situation has been a fruitful source of all sorts of rumors during the week, coincident with continued tightness of money on the Continent of Europe, due, it is supposed, to the uncertainties incident to the Balkan situation. At times, too, commission houses have been good buyers on declines. The shorts have now and then found it difficult to cover without putting up prices rather sharply. It is a fact, too, that the world's stock of wheat during the week has increased about a million bushels less than in the same week last year. That is to say, there was an increase of only 3,500,000 bushels, against an increase in the same week last year of 5,092,000 bushels.

It is of interest to observe, moreover, that the distribution of foreign wheat in Europe during February was far larger than in the same month in recent years. It is believed that than in the same month in recent years. It is believed that for a month European millers have been drawing largely on invisible reserves, as importers' stocks in Europe wer light nearly everywhere. The indications, it is said, point to a ready European demand for all available wheat. A notice-able feature has been the fact thet July-August wheat in Paris was only 1 cent per bushel below the old-crop months. In Hungary, too, the new-crop months have actually been 9 cents above the old-crop option. This is taken as empha-sizing the possibility of a scarcity later in the year. The Con-tinental demand has been one of the chief features of the European market. European market.

European market. The fact remains, however, that farm reserves amount to 156,483,000 bushels, against 122,025,000 a year ago. Yet, while these figures show considerable increase over those of last year, it is also true that those of the present year are considerably smaller than in 1911, when they were 179,690,-000 bushels, and in 1910 when they were 173,344,000 bush-els. Still, it is none the less true that the trend of prices has been downward on this side of the water. To-day wheat prices were slightly lower.

Indian corn has shown no marked net changes for the week. In other words, while it has declined, the loss has been only fractional. It has shown greater strength than other grain. The movement has at times been small and primary receipts early in the week fell below those of the corresponding day last year, which was something new. Furthermore, the farm reserves have turned out to be smaller than was expected. Yet the Government places the total at 1,289,655,000 bushels, against 884,069,000 bushels last year and 1,265,634,000 in 1911. As a matter of fact, these reserves are the largest on record, with the exception of those of 1907, when they were only a little larger, or 1,298,000,000. Recent private esti-mates by Chicago people put the farm reserves at 1,240,000,-000 bushels. Yet since that time expectations had been raised somewhat which were not fully realized by the Gov-ernment total, large as it was. Moreover, there is evidently Indian corn has shown no marked net changes for the week.

AGRICULTURAL DEPARTMENT'S REPORT ON CEREAL STOCKS.—The Agricultural Department's report on cereal stocks, &c., was issued on March 10 as follows:

on cereal stocks, &c., was issued on March 10 as follows: The Crop Reporting Board of the Bureau of Statistics of the United States Department of Agriculture estimates, from reports of correspondents and agents, that the quantity of wheat on farms on March 1 was about 156,483,000 bushels, or 21.4% of the 1912 crop, against 122,025,000 bushels, or 99.6% of the 1910 crop on farms on March 1 1911. About 61.6% of the 1911 crop and 55.4% of the 1910 crop as shipped. The amount of corn on farms on March 1 1911. About 61.6% of the 1911 crop and 55.4% of the 1910 crop so shipped. The amount of corn on farms on March 1 was about 1,289,655,000 bush. or 41.3% of the 1912 crop, against 884.060,000 bush., or 44.6% of the 1910 crop on farms on March 1 was about 1,289,655,000 bush. or 41.3% of the 1912 crop, against 884.060,000 bush., or 34.9% of the 1911 crop on farms on March 1 1912 and 1,165,378,000 bush., or 44.3% of the 1910 crop on farms March 1 1912 and 1,165,378,000 bush., or 44.3% of the 1910 crop on farms on March 1 1811. About 21.4% of the 1911 crop and 22.9% of the 1910 crop so shipped. The propertion fo the total 1912 crop which is merchantable is about 55%, against 80.1% of the 1911 crop and 22.9% of the 1910 crop. and farms on March 1 was about 604,216,000 bush. or 42.6% of the 1912 crop, against 28.9,988,000 bush., or 31.4% of the 1911 crop on farms March 1 1912 and 42.665,000 bush., or 37.3% of the 1910 crop on farms March 1 1912 and 32,89% of the 1911 crop and 36.4% of the 1910 crop. So shipped. The amount of barley on farms on March 1 was about 604,216,000 bush. or 27.8% of the 1912 crop, against 28.5% of the 1911 crop and 30.6% of the 1910 crop so shipped. The amount of barley on farms on March 1 was about 62,283,000 bush. or 27.8% of the 1912 and 34.96,000 bush., or 15.5%, of the 1910 crop on farms on March 1 1911 and 34.98,000 bush., or 16.5%, of the 1911 crop on farms on March 1 1912 and 34.98,000 bush., or 16.5%, of the 1910 crop on farms on March 1 1912 and 34.98,000 bush., or 16.5%, of the 1910 crop

As of interest in connection with this report, we give below a statement covering the stock of corn on March 1 for a series of years, as made up by us from the Agricultural Department's figures.

THE DRY GOODS TRADE.

THE DRY GOODS TRADE. New York, Friday Night, March 14 1913. The week in dry goods passed without special feature, with the volume of trade satisfactory. Labor troubles continues to vershadow the market, and while the garment workers' strike is less acute, with operatives gradually returning to the dops, further trouble has developed in other quarters. Consequently Easter trade will be greatly restricted and severe losses incurred by both retailers and manufacturers of clothing and gowns. As the time approaches for the particle is less acute, with operatives gradually returning to the dops, further trouble has developed in other quarters. Consequently Easter trade will be greatly restricted and here to bases incurred by both retailers and manufacturers of clothing and gowns. As the time approaches for the particle revision of Congress and the revision of the tariff, manufacturers become more concerned over the future, and by the coming fall, buyers feel that there may be con-sider prives. The dulness in the market for the staple is re-particle revision in prices in their favor before the end of that season. The cotton goods market has been quieter, but firm, with spot supplies scarce and mills still behind on diverses are in steady receipt of mail orders covering general in the price of finished goods. Jobbers and commission how for staple cotton goods, and while spiles are scarce to find the price of finished reaction. No export husiness of prive for staple cotton goods, and while was counted on the sequence is reported, but a good business is expended to the more drills for midsummer delivery, but high prices are violently restraining buyers in that market. In dress goods the fination clear in that quarter. India was counted on the set of the strike are severely fell. Indig the financing there have been unable to complete their spring and summer there have been unable to complete their spring and summer there have been unable to complete their spring and summer there is n making operatives has further complicated the situation, and shipments of spring goods are held up until manufacturers are able to use the materials ordered. Such light additional busi-ness for spring and summer as is coming through is mostly for cream serges, and supplies of these seem to be scarce. Purchases against next fall are about equally distributed, with broadeloths and smooth finishes more popular than last year. Whipcords, Bedford cords, poplins and sponges are also good property. In men's wear a satisfactory business has been put through for fall account, and, owing to a weak-ening of the garment workers' strike, a better movement against standing orders is reported. Prices are attracting considerable attention, and worsteds are thought to be en-tirely too high compared with woolens. The result is that cutters-up and elothiers are turning out very little in fancy worsteds, and lines of new fall suitings will consist chiefly of fancy woolens. of fancy woolens

of fancy woolens. WOOLEN GOODS.—While the woolen trade situation has improved, the atmosphere is not altogether clear. The strike troubles among clothing trades are not over and men's wear houses complain of the slow movement of spring goods. The prospective tariff revision is having its effect in restrict-

 The value of these New York exports since Jan. 1 has been
 \$5.283,036 in 1913, against \$5.880,497 in 1912.
 Domestic cotton markets display a fair amount of activity, with the general undertone firm. Deliveries of goods ordered are wanted promptly, and in many instances shipments are long overdue, owing to the shortage of supplies in the hands of mills. A fairly large duplicate business is being received from jobbers, with prices well maintained, and no appreciable softening is expected for some time, this being particularly true as regards the heavier grades of goods. A very satisfactory demand is reported for dress fabrics, with novelties of all kinds in the lead. It is becoming evident, however, that the high point of the season's activities has passed. A very satisfactory business is noted in all kinds of wash fabries, merchants buying finer and higher priced goods than for a number of seasons past. As regards ginghams, many re-orders are being received, which are taken to indicate that these goods will continue in popularity.
 Demand for tickings, denims and duck continues in excess of spot supplies, and orders are steadily increasing. Brown drills rule steady, sheetings are well maintained, while such oloths as cords, poplins, ratines and crepes continue in steady request. Print cloths hold steady, with demand moderate. Gray goods, 38.14-inch standard, are quoted 514 to 52%c.
 FOREIGN DRY GOODS.—Linen markets remain firm and, despite the fact that there are complaints of the high prices, most every class of goods are rapidly decreasing, and as a result purchasers are seeking the higher-priced goods. The trade in household lines is active for both prompt and future delivery. Burlap markets are steady, with business of moderate proportio

STATE AND CITY DEPARTMENT.

News Items.

News Items. Chehalis, Wash.—City Denied Right to Issue Bonds For Gravity Water System.—On Feb. 28 Judge Wright of Pacific County, acting judge of the Superior Court of Lewis County, decided that the city has no right to issue \$70,000 general bonds and \$115,000 special water bonds for the construction of a gravity-water-system. The temporary restraining order previously granted by Judge Wright preventing the eity from entering into a contract for a new system or issuing bonds for the same is made permanent. The Washington-Oregon Corporation, originally brought suit before Judge Cushman in the Federal Court but that application was denied on Jan. 27. V. 96, p. 431. Cleveland, Ohio.—Appellate Court Upholds Validity of

denied on Jan. 27. V. 96, p. 431. Cleveland, Ohio.—Appellate Court Upholds Validity of Library and Light Bonds.—On March 10 Appellate Court Judges decided in favor of the validity of the \$2,000,000 municipal-electric-light-plant and \$2,000,000 library bonds. According to the Cleveland "Plain Dealer" the Court in waiving aside legal technicalities employed to restrain and question the sale of the bonds, summed up the issues as measures the public voted upon, knew what they were voting for and showed by their votes that the proposals met with their approval. See V. 96, p. 432 and V. 95, p. 64. Fort Smith. Ark.—Commission Form of Government

Fort Smith, Ark.—Commission Form of Government Adopted.—By a vote of 1,679 to 461 the charter providing for a commission form of government carried, it is stated, at an election held March 5.

Indiana.—Direct Election of U. S. Senators Ratified— Legislature Adjourns.—A resolution ratifying the proposed Amendment to the Federal Constitution providing for the direct election of U. S. Senators was passed by the Legisla-ture which adjourned on March 11.

Marlin, Texas.—Commission Form of Government Rejected. An election held March 6 resulted, reports state, in the defeat of the commission form of government.

Missouri.—Legislature Favors Direct Election of U. S. Senators.—A resolution has been passed by the Missouri Legislature ratifying the proposed amendment to the Federal Constitution providing for the direct election of U. S. Sena-tors by the peak. tors by the people.

Montana.—Legislature Adjourns—Important Acts Passed. —The Thirteenth Legislative Assembly adjourned sine die on March 7. Prior to adjournment a resolution was adopted ratifying the proposed amendment to the Federal Constitu-tion providing for the direct election of U, S. Senators by the people. Among other important Acts passed at this session were the following: were the following:

More the following. Nine-hour work-day for women in every industry, regulation of public utilities, grain inspection and elevator regulation, blue-sky law to control investment companies, submission of questions of increasing the tax levy for 10 years to provide for direct support of State educational institutions, regulation of weights and measures with a net content clause, fixing 12 per cent as the minimum legal rate of interest, providing that injunctions can be issued in labor disputes only upon the same grounds as in actions in which labor is not involved.

Murphysboro, Ill.—Commission Form of Government Approved.—An election held Feb. 18 resulted in a vote of 738 to 385 in favor of a commission form of government, reports state.

ports state.
New York City.—Act Creating Bronz County Upheld by Court of Appeals.—The Appellate Division of the Supreme Court is reversed and the Act creating "Bronx County" held constitutional in a decision rendered yesterday (March 14) by the Court of Appeals. The opinion is written by Judge Hiseock and concurred in by Judges Miller, Hogan and Cuddeback. Chief Judge Cullom and Judges Gray and Bartlett dissented. See V. 96, p. 299.
North Dakota.—Equal Suffrage Amendment Passes.— The Legislature has passed a resolution providing for the submission to the voters of a constitutional amendment granting to women the right to vote.
Oregon.—Legislature Adjourns.—The twenty-seventh Oregon.

granting to women the right to vote. Oregon.—Legislature Adjourns.—The twenty-seventh Ore-gon Legislative Assembly adjourned at 11:40 p. m. on Mar. 4. Pensacola, Fla.—Voters Decide on New Charter.—At an election held March 4 the voters decided in favor of what is known as the "Semmes" Charter, providing a new form of government with three commissioners. The measure will now be sent to the Legislature for passage. See V. 96, p. 149. Pineville, Ky.—Bond Issue Declared Void.—Newspaper despatches from Frankfort state that the Court of Appeals has declared void \$30,000 school bonds on the ground that if the issue was made the city's debt would exceed the constitutional limit. Pontiac, III.—Commission Form of Covernment Rejected

Pontiac, III.—Commission Form of Government Rejected.— The question of establishing a commission form of govern-ment failed to carry, reports state, at an election held Feb. 18. Raleigh, No. Car.—Election on Commission Form of Government.—A vote will be taken on April 1 on the question of establishing the commission form of government. Schethe, Nameha Country Kan

Sabetha, Nemaha County, Kan.—Commission Form of Government Adopted.—An election held Feb. 20 resulted, it is stated, in a vote of 310 to 86 in favor of the commission form of government.

Seattle, Wash.-Result of Charter Election.-The election held in this city on March 4 resulted in favor of six of the

eleven proposed charter amendments submitted. Of the nine "propositions" voted on, only three were adopted (see V. 96, p. 580). The vote, according to the Seattle "Post-Intelligencer," was as follows:

Intelligencer," was as follows: Vote on Amendments.
1. Creating a board of public welfare: "For," 9.815: "against," 20,271.
2. Single tax: "For," 10,539: "against," 21,241.
3. Reducing time limit for submitting charter amendments and reducing number of signatures necessary to an initiative petition from 20 to 10%: "For," 7,259: "against," 18,718.
4. Providing for sworn declaration of candidacy and filing of 1% fee of annual salary." "For," 20,092: "against," 9,638.
6. Providing for filing of sworn statement of campaign expenses: "For," 22,722: "against," 6,500.
7. Repealing existing power of referendum and authorizing City Council to act on all public franchess without submitting same to the people.
"Bon," 12,893: "against," 13,844.
8. Giving City Council power to invest surplus city funds. "For," 8,009: "against, '18,3063: "against," 18,217.
10. Transfering lurisdiction over Cedar River water-shed from Superint endent of Buildings to Superintendent of Water: "For," 20,140: "against," 3,304.
11. Taking jurisdiction of water-shed from Superintendent of Buildings and placing it under Superintendent of Water: "For," 17,222: "against," 3,317.
11. Taking jurisdiction of water-shed from Superintendent of Buildings and placing it under Superintendent of Water: "For," 17,222: "against," 8,317.
11. Taking aurisdiction of water-shed from Superintendent of Buildings and placing it under Superintendent of Water: "For," 17,222: "against," 8,317.
A. Proposed agreement between diverse is a properintendent of the superintendent of Superintendent of Water: "For," 17,222: "against," 8,317.

 11. Taking jurisdiction of water-snied from supermember of an analysis and placing it under Superintendent of Water: "For," 17,222; "against," S,174.
 Note on Propositions.

 Decision Holding Invalid Initiative and Referendum Charler Provision Concerning Franchises.—See Puget Sound Traction, Light & Power Co. in our "Investment News" department on a preceding page. ment on a preceding page.

Somerville, Tex.—Commission Form of Government Approved.—A vote of 179 to 59 was cast on March 4, it is stated, on the question of establishing a commission form of government.

South Carolina.—Legislature Adjourns.—The 1912 Legis-lature of this State adjourned sine die on March 7. Taylorville, Ill.—Commission Form of Government De-feated.—The election held Feb. 18 resulted, reports state, in the defeat of the proposition to adopt a commission form of government. government.

Tennessee.—Chancellor Holds that State May Exempt its Bonds from Taxation.—Chancellor Allison on March 6 de-cided that the State has the power to exempt from taxation bonds issued by it. The decision was rendered in the suit brought to test the exemption feature of a bill recently passed by the Legislature to refund the \$11,000,000 bonds of the State due July 1 and Oct. 1 1913 by the issuance of new bonds. The Chancellor said in substance:

The Chancenor state in subscance. The State, acting in its sovereign capacity, has power outside of the constitution to contract with its citizens that it will not itself nor permit its creatures to assess for taxation its obligations held by its citizens, agreeing to remay them with interest. Many such citizens loan the State to pay off certain other of its obligations. This is not exempting from taxation any property, bond or chose in action already in existence, and being held by any of its citizens." The case will be carried to the Supreme Court

The case will be carried to the Supreme Court.

The case will be carried to the Supreme Court. Vermont.—Constitutional Amendments Adopted.—In-complete returns from the election held March 4, indicate the adoption of eight proposed constitutional amendments. One of these changes Article 24, Sec. 1, so as to provide for the convening of the Legislature in odd years on the first Wednesday after the first Monday in January. The Legislature now meets on the first Wednesday in October in even years. The date for holding State elections is also changed from the first Tuesday of September to the first Tnesday after the first Monday in November. The other amendments adopted are as follows: To require a two-thirds vote instead of a majority vote of the Legislature

To require a two-thirds vote instead of a majority vote of the Legislature to override a veto. To give the Legislature equal power with the Governor in granting pardons. To grant the Legislature authority to pass a workingmen's compensation Act.

To grant the Legislature authority to pass a workingmen's compensation Act. To change the title of Supreme Court indges to justices. To require a request from five members for a roll call in either branch of the Legislature. To provide for the incorporation of religious, charitable, educational and penal institutions without special Act of the Legislature To revise the constitution on the basis of the Acts accepted at this year's town meetings.

Vineland, N. J.—Commission Form of Government Adop-ted.—An election held March 11 resulted, it is said, in favor of the commission form of government, the vote being 440 to 175.

NEW LOANS.

\$95,000 JERSEY CITY, N. CITY OF

FIFTY-YEAR 41/2% GOLD SCHOOL BONDS

Sealed proposals will be received by the Board of Finance at its meeting to be held in the City Hall on MARCH 21ST, 1913, AT THREE O'CLOCK P. M. for an issue of \$95,000 Gold School Bonds. Said bonds are to be issued under the authority of an Act of the Legislature of the State of New Jersey, entitled "An Act to establish a thorough and efficient system of free public schools, and to pro-vide for the maintenance, support and management thereof." approved October 19, 1903, and the Acts amendatory thereof and supplemental thereof, for the purpose of acquiring a site in the Bergen Section for a school for the deaf, and to acquire a site for a new school to relieve School No. 9. Said bonds will be dated April 1, 1913, will be payable April 1, 1963, and will be of the denomina-tion of One Thousand (\$1,000) Dollars each, bearing interest at the rate of 415 % per annum, nayable semi-annually on the first days of April and October in each year. Both principal and interest will be payable in gold coin of the United States of America of the present standard of weight and fineness, or its equivalent, at the office of the City Treasurer. Said bonds will be coupon bonds with the privilege to the holder of registering the same as to principal only, or as to both principal and interest. Said bonds are exempt from taxation by the laws of the State of New Jersey. All bids must provide for the payment of accrued interest from the date of said bonds, April 1, 1913, to the date of delivery. Each bid must be accompanied by a cretified check upon an incor-porated bank or trust company, payable to the order of the City Treasurer of Jersey City for 2% of the par value of the Bonds bid for, the amount of said check to be credited upon said bid if accepted and to be returned forthwith if not accepted. Said bonds will be approved as to legality by Messra. Hawkins, Delafield & Longfellow, attorneys. New York City, N. Y. whose opinion will be furnished to the successful bidder. The Board reserves the right to reject any or all bids.

RICHARD J. VREELAND; Clerk of the Board of Finance.

Dated March 7th, 1913.
